With the many pressing issues and compounded problems, may this Assembly find not mere frustration and occasional futility, but a deeper sense of meaning in dealing with the intricacies of life's options Since we are children of an Eternal Father and have Thy stamp of infinite worth, may we respond with legislation which will lend dignity to all people. Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No 1581

State of California, Governor's Office
Sacramento, May 11, 1965

To the Honorable Members of the Assembly and Senate

Assembly Bill No. 1581, "An act to repeal Section 4 of Chapter 10 of the Statutes of 1963, First Extraordinary Session, and to amend Sections 6443, 17305 7 and 18270, to amend and renumber Section 6442 1, and to repeal Sections 6442 and 6444, of the Education Code, relating to the public school system,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The people of this state do not yield their sovereignty to the agencies which serve them The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know The people insist on remaining informed so that they may retain control over the instruments they have created

(Added by Stats 1953, Ch 1588)

54950 5. This chapter shall be known as the Ralph M Brown Act

MESSAGES FROM THE GOVERNOR

The following veto message from the Governor was received and read:

Veto Message

State of California, Governor's Office
Sacramento, June 2, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No 385 entitled "An act to amend Sections 3110, 3111, 3112, 3113 and 3117 of, and to add Section 3112 5 to, the Streets and Highways Code, relating to assessment districts."

While I support the idea of requiring that maps of proposed assessment districts be filed with the county recorder, Assembly Bill No 385 is objectionable in that the filing of such maps would impart constructive notice and would create a cloud on the title of real property within the boundaries of the proposed assessment district I would be happy to sign a bill with provisions similar to AB 385 if it contained language providing that the filing of such maps with the recorder would not impart constructive notice

Accordingly, I am returning the bill without my signature

Respectfully submitted,

EDMUND G BROWN, Governor

Receipt of Veto Message

I acknowledge receipt this 2nd day of June, 1965, at 7 45 o'clock p m. of Assembly Bill No 385, without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Frank Cullen, Assistant Secretary to the Governor.

(b) It is further the policy of the state that whenever it is necessary to locate such improvement within an agricultural preserve, such improvement shall, whenever practicable, be located upon land other than land under a contract pursuant to this chapter.

(c) It is further the policy of the state that any agency or entity proposing to locate such an improvement shall, in considering the relative costs of parcels of land and development of improvements, give consideration to the value to the public, as indicated in Article 2 (commencing with Section 51220), of land (and particularly prime agricultural land) within an agricultural preserve

51291. (a) As used in this section and Section 51292, "public agency" means the state, or any department or agency thereof, and any county, city, school district, or other local public district, agency, or entity, and "person" means any person authorized by Section 1001 of the Civil Code to acquire property by eminent domain

51292 (a) No public agency or person shall locate a public improvement within an agricultural preserve based primarily on a consideration of the lower cost of acquiring land in an agricultural preserve

51203 Section 51202 shall not apply to

(a) The location of improvements, where the Director of Agriculture or the local governing body creating the agricultural preserve (other than the local governing body proposing to locate the improvement, except as to locations involving only the acquisition of easements within its own boundaries) approves or agrees to the location thereof In addition, the approval by the Public Utilities Commission of the location of a public utility improvement shall exempt such improvement from the provisions of Section 51202

(b) The location of the following types of improvements, which are hereby determined to be compatible with or to enhance land within an agricultural preserve

(1) Flood control works, including channel rectification and alteration.

(2) Public works required for fish and wildlife enhancement and preservation.

(3) Improvements for the primary benefit of the landowners within the preserve.

(c) Improvements for which the site or route has been specified by the Legislature in such a manner as to make it impossible to avoid the acquisition of land under contract.

(d) All state highways on routes as described in Sections 301 to 622, inclusive, of the Streets and Highways Code, as said sections read on October 1, 1965

51204 Section 51202 shall be enforceable only by mandamus proceedings by the local governing body which created the agricultural preserve or the Director of Agriculture However, as applied to condemnors whose determination of necessity is not conclusive by statute, evidence as to the compliance of the condemnor with Section 51202 shall be admissable in any action otherwise authorized to be brought by the landowner or by way of defense in an action against him."

WHEREAS, It is consistent with the national policy of physical fitness that amateur athletes be afforded the maximum opportunity to compete in amateur athletic contests according to choice and ability; and

Resolved by the Assembly of the State of California, That the Committee on Rules is directed to assign to an appropriate interim committee for study the subject of amateur athletes and amateur athletic competition and said interim committee shall report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 Regular Session

SEC 141. Section 5500.5 of said code is amended to read:

5500.5. Where a claim for compensation benefits is made on account of an occupational disease which may have arisen out of more than one employment, the application shall state the names and addresses of all employers, the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the *Appeals Board* ~~commission~~ to join as defendant any necessary or proper party. If such request is made prior to the first hearing on the application, the *Appeals Board* ~~commission~~ shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon such omitted employer; provided, such notice can be given within the time specified in this division. If such notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the *Appeals Board* ~~commission, panel, commissioner,~~ or referee before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of such party and continue the hearing so that proper notice may be given to the party or parties so joined. Only one continuance shall be allowed for the purpose of joining additional parties. Subsequent to the first hearing the *Appeals Board* ~~commission~~ shall join as a party defendant any additional employer when it appears that such employer is a proper party, but the liability of such employer shall not be determined until supplemental proceedings are instituted.

In any case involving a claim of occupational disease contracted as a result of more than one employment, the employee making the claim, or his dependents, may elect to proceed against any one or more of the employers named in the application. Where such an election is made, the employee must successfully prove his claim against any one of the employers named, and any award which the *Appeals Board* ~~commission~~ shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his dependents has made an election to proceed against

one or more employers, it should appear that there is another proper party not yet joined, such additional party shall be joined as a defendant by the *Appeals Board* ~~commission~~ on the motion of any party in interest, but the liability of such employer shall not be determined until supplemental proceedings are instituted Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the *Appeal Board's* ~~commission's~~ final decision, nor to any continuance or further proceedings, but may be permitted to ascertain from the employee or his dependents such information as will enable the employer to determine the time, place, and duration of the alleged employment On supplemental proceedings, however, the right of the employer to full and complete examination or cross-examination shall not be restricted.

At any time within one year after the *Appeals Board* ~~commission~~ has made an award for compensation benefits in connection with an occupational disease, any employer held liable under such award may institute proceedings before the *Appeals Board* ~~commission~~ for the purpose of determining an apportionment of liabilty or right of contribution Such a proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his dependents, but shall be limited to a determination of the respective contribution rights, interests or liabilities of all the employers joined in the proceeding, either initially or supplementally, provided, however, if the ~~commission~~ *Appeals Board* finds on supplemental proceedings for the purpose of determining an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss such employer and amend its original award in such manner as may be required

In any proceeding before the *Appeals Board* ~~commission~~ for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows.

(a) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in such operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his estate or dependents as the result of disability or death resulting from or aggravated by such exposure

(b) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the *Appeals Board* ~~commission~~ shall consider as a rebuttal presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if

the underground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted or transported.

Any employer shall be entitled to rebut such presumption by showing to the satisfaction of the *Appeals Board* ~~commission~~, or its referee, that the mining methods used by the employer in the employee's place of employment did not result during his employment in the creation of silica dust in sufficient amount or concentration to constitute a silicotic hazard Dust counts, competently made, at such intervals and in such locations as meet the requirements of the Division of Industrial Safety for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where such counts have been made at the time when they were made The *Appeals Board* ~~commission~~ may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which such dust counts shall be taken in different types of workings in order to justify their acceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken

The amendments to this section adopted at the 1959 Regular Session of the Legislature shall operate retroactively, and shall apply retrospectively to any cases pending before the *Appeals Board* ~~Industrial Accident Commission~~ or courts From and after the date this section becomes effective no payment shall be made out of the fund used for payment of the additional compensation provided for in Section 4751 of this code, or out of any other state funds, in satisfaction of any liability heretofore incurred or hereafter incurred, except awards which have become final without regard to the continuing jurisdiction of the ~~commission~~ *Appeals Board* on said effective date, and the state and its funds shall be without liability therefor This paragraph shall not in any way effect a reduction in any benefit conferred or which may be conferred upon any injured employee or his dependents

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 2430:

State of California, Governor's Office
Sacramento, May 28, 1965

To the Honorable Members of the Assembly and Senate:

Assembly Bill No. 2430, as amended May 19, 1965, "An act to amend Section 264 of, and to add Section 264 2 to, the Agricultural Code, relating to bovine brucellosis."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

I, therefore, recommend consideration of Assembly Bill No 2430, as amended May 19, 1965, as an emergency measure

Respectfully submitted,

EDMUND G. BROWN, Governor

During December, 1964, in many parts of the state the people suffered the ravages of disastrous floods, floods which not only destroyed their homes and land but also destroyed facilities and works that have, in some measure, protected them from flood and storm waters The law provides for the creation of flood control, water conservation, levee, and other districts and zones thereof which can provide flood control facilities to protect life and property from the seasonal floods However, in many instances newly created districts and zones cannot levy taxes or assessments unless a statement and map or plat is filed with the assessor or the State Board of Equalization on or before February 1st of the year in which the taxes or assessments are to be levied In order to do the work necessary to protect life and property from the seasonal and other floods which can be anticipated next winter, districts and zones must be created with the power to levy taxes and assessments this year. "SEC. 8. The Legislature finds that with sharp increases in the premiums for automobile and disaster insurance policies, many families are experiencing difficulty in paying insurance premiums in lump sums. Thus, the public policy of encouraging Californians to carry insurance covering the operation of automobiles and loss due to disaster may suffer diminution. It is therefore necessary to provide some means under regulation by the state of extending credit to these families to assist them in securing that insurance coverage which public policy encourages. The Legislature recognizes that in some cases families desiring insurance may not be able to secure an extension of credit from normal conventional credit channels in the state and, therefore, that it is desirable to establish under regulation by the state, a separate means of extending credit on insurance policies and to make specific provisions which will enable private industry to provide this needed service, and that these are the reasons for the enactment of the insurance premium financing law and the changes in that law provided by this act.

SEC. 9. Section 4 of this act shall become operative on April 1, 1966."

which does not exceed his proportionate share of the natural safe yield of the ground water supplies of the district, as so adjudicated from time to time by the court having jurisdiction over such adjudication proceeding The replenishment assessment shall thenceforth be levied on each producer by multiplying the production in acre-feet of ground water so produced by such producer's water-producing facility in excess of his said adjudicated share of the natural safe yield by the rate of the replenishment assessment fixed and levied by the board for the fiscal year in which such production shall occur

71689 8. To the extent that the replenishment assessment after adjudication hereunder shifts from all producers to those who extract water in excess of their respective shares of the natural safe yield of the ground water supplies within the district as so adjudicated, such replenishment assessment shall be deemed to benefit those persons who continue to pump and extract ground water in excess of their adjudicated shares of the natural safe yield Inasmuch as such persons must buy supplemental water or be in contempt of the court's order limiting their extraction of ground water, they shall be deemed to benefit by the payment of a replenishment assessment which is used to purchase water to supplement the natural supplies of ground water available for use

71689 9. To the extent that ground water supplies are re-".

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Alquist was granted unanimous consent that the following opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, June 1, 1965

Honorable Alfred E. Alquist
Assembly Chamber

Budget Act—#23347

Dear Mr. Alquist:

Question No. 1

Assuming that insufficient funds are budgeted in Item 301.5 of A.B. 500 to meet the state share of aged aid grants, and that no deficiency appropriation bill is passed during the 1965–66 fiscal year:

(a) Would the counties be required to pay assistance to eligible cases in accordance with statutory standards of assistance? If the answer is "yes," would this mean that the counties would have to pay the state share of assistance?

(b) Could the State Director of Social Welfare direct the counties not to accept any more new cases as a method of keeping expenditures within the budget limits?

Opinion No. 1

We think that a county would have the duty to pay aid, including what would otherwise be the state's share, although it might be impossible for it to carry out this duty if it is without sufficient funds to enable it to do so We do not think that the Director of Social Welfare could direct the counties to refuse to accept new cases as a method of keeping expenditures within the budget limits

Analysis No 1

Item 301.5 of A B. 500, as amended in the Assembly on May 25, 1965, reads as follows:

301.5—For the state's share of payments by counties for the public assistance programs specified in the schedule set forth in this item, Department of Social Welfare 433,936,386

Such appropriation, together with any grants made available by the federal government for this purpose, shall be expended in accordance with the following schedule:

Schedule:	
(a) Aid to the blind	17,647,100
(b) Aid to the potentially self-supporting blind	100,000
(c) Aid to the disabled	121,844,170
(d) Aid to families with dependent children	288,438,400
(e) Old age security	350,788,814
(f) Medical assistance for the aged	104,022,414
Total of schedule	882,840,898
Less estimated amounts available from other sources:	
(g) Estimated grants from the federal government	448,904,512
Net appropriation	433,936,386

The appropriation made by this item shall supersede the provisions of any appropriation of state funds made in the Welfare and Institutions Code for the public assistance programs specified in the foregoing schedule.

This provision places in the Budget Bill for the 1965–1966 fiscal year ... tion of a fixed amount for each aid program, which would ... the statutory provisions making continuing appropri... programs (W. & I.C., Secs 1510, 2021, 3025, 3420, ... of this is to limit the amount of state funds which ... for the programs.

... the possible effect of this provision on the counties, ... briefly explain how the old age assistance program ...

... that aid shall be paid to any person who meets the ... set forth in the statutes (W & I C, Sec 2160), ... aid to be paid (W. & I C, Secs 2020, 2020 002). ... administering agency and has the duty to pay the ...

entire aid grant, subject to reimbursement by the state and federal government (W. & I C , Secs 435, 449 6, 2021, 2022) While it is true that the state and federal shares of the aid payments are paid to the counties in advance, and on the basis of estimates, the fact remains that the system is one based on a reimbursement principle; that is, the county is obligated to pay the entire aid grant, subject to reimbursement for the state and federal shares

It follows, in our opinion, that should the state be unable to pay its share of the aid grants, the county, in effect, would be paying both the state's share and its own It simply would not be reimbursed.

There also appears no question that the county would continue to have the duty to pay aid, since the statutes impose a mandatory duty on it to pay aid We can only speculate, however, as to what would happen if the county also is unable to raise the funds to meet this duty. Unless the county has budgeted sufficient funds, which seems unlikely, it would probably have no alternative but to deny aid

We see no basis on which the Director of Social Welfare could direct the county to refuse aid to new cases As noted above, the law expressly requires that aid be paid to all eligible persons, and the director, as well as the county, would be bound by the statute (W & I.C , Sec 2160) Here again, as a practical matter, a county might be compelled to refuse aid if it is without funds to pay

Question No. 2

Assume that insufficient funds are budgeted for the blind program, but there are surplus funds available in the old age assistance program, can the state transfer these surplus funds from old age assistance to the blind appropriation?

Opinion No 2

In our opinion, assuming that Section 27 of A B 500, as amended in the Assembly on May 25, 1965, remains unchanged, the Director of Finance, upon the request of the Department of Social Welfare, could authorize the transfer of the funds in question

Analysis No 2

Item 301 5 is in the form of an overall appropriation for public assistance, to be expended in accordance with a schedule allocating specific amounts for the respective public assistance programs — program is a separate category in the schedule

Section 27 of the Budget Bill (A B 500), as amendt bly on May 25, 1965, provides that the Director of Finai ant to a request by the officer, department, division, the Assem- commission, or other agency to whom an appropriation is each bill, authorize the augmentation of the amount available ture for a category or project designated in any schedule for such appropriation by transfer from any of the other categories or projects within the same schedule

Inasmuch as the allotments for old age assistance and aid blind are in the same schedule set forth in Item 301 5, there

no question that Section 27 would permit the Director of Finance, at the request of the Department of Social Welfare, to transfer funds from one program to the other We are of the opinion, therefore, that this procedure could be used to transfer funds from the old age assistance allotment to that provided for aid to the blind

Question No. 3

Can the Governor strike Item 301 5 from the Budget Bill?

Opinion No 3

We think that the Governor could strike the item from the Budget Bill, but the possible effect of such action might be to reduce to zero the amount of funds available for the support of the welfare programs for the 1965–66 fiscal year

Analysis No. 3

Item 301 5 is an item of appropriation, and there appears no doubt that the Governor, in the exercise of his constitutional power to reduce or eliminate items of appropriation (Art IV, Secs 16, 34, Cal Const.) could eliminate the item There is a serious question, however, as to the effect of such action

It could be argued that the effect of eliminating the amount in question would be to remove any restriction on the continuing statutory appropriations However, the effect of such a conclusion would be to empower the Governor to increase an appropriation made in the Budget Bill when clearly the intention of the Legislature was to limit the continuing appropriation Also, the Constitution does not purport to give the Governor any power to increase an appropriation

Section 16 of Article IV of the Constitution, as amended in 1908, provides, in part, that as to any bill containing several items of appropriation of money, the Governor may object to one or more items while approving other portions of the bill

Section 34 of the same article, which section was added in 1922 and provided for our present Budget Bill, authorizes the Governor to "reduce or eliminate" any one or more items of appropriation in any appropriation bill passed by the Legislature while approving other portions of the bill

The 1922 ballot pamphlet points out that one purpose of the amendment was to give the Governor power to "reduce an appropriation" since under the then existing law the Governor could only veto an entire appropriation act Clearly it was not intended that the Governor be given any power to increase appropriations

In view of the clearly expressed intention of the Legislature in the Budget Bill that Item 301 5 operate in lieu of the statutory appropriations for public welfare purposes and in view of the restriction on the Governor's veto power of a budget item to a reduction or elimination of items of appropriation, it appears quite possible to us that if the Governor strikes out the various amounts contained in the section he would thereby be reducing the amounts available during the next fiscal year for the various public welfare programs, to zero

Question No 1

Is Item 301 5 a valid provision in the Budget Bill?

Opinion No 4

In our opinion Item 301 5 is a valid provision in the Budget Bill

Analysis No 4

Item 301 5 is an item of appropriation for public assistance, which is declared to supersede continuing statutory appropriations on the same subject

It has been held by the courts that a continuing statutory appropriation can be limited during any fiscal year to the amount provided for in the budget act for the particular purpose if the intention is expressed in the budget act (*Railroad Commission* v *Riley*, 192 Cal 54, 59; *Board of Fish and Game Commissioners* v *Riley*, 194 Cal 37). It is our opinion, therefore, that Item 301 5 is properly included in the Budget Bill

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Dymally was granted unanimous consent that the following opinion of Legislative Counsel be printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

Office of Legislative Counsel
Sacramento, June 7, 1965

Hon Mervyn M. Dymally
Assembly Chamber

School Districts — *Classified Employee*
Salaries — No 24290

Dear Mr. Dymally:

Question

You have asked whether Assembly Bill No 1759 as amended in Assembly June 4, 1965, would be held to be constitutional.

Opinion

It is our opinion that Assembly Bill No 1759 as amended in Assembly June 4, 1965, would be upheld as constitutional

Analysis

Assembly Bill No 1759, as amended, would amend Section 13602 of the Education Code to provide, in part, as follows:

> "If prior to the commencement of a school year the governing board of a school district is engaged in a study to increase the annual salaries for persons employed by the district in positions not requiring certification qualifications for that school year, and such study shall not be completed at the commencement of the school year so that the governing board is able to fix such salaries on the basis of the study, the governing board may by contract or by appropriate rule or regulation do the following
>
> "(a) Fix the salaries at any time during the school year as a result of the study
>
> "(b) Provide that the salaries fixed as a result of the study shall be the salaries payable for the entire school year, including the period thereof in which the study was conducted
>
> "(c) Provide for the payment to such employees during the period of such study of minimum salaries equal in amount to the salaries fixed for such employees during the preceding school year."

Unless restricted by the Constitution, the Legislature's power over the establishment, regulation and operation of the public schools is plenary (***Hall* v. *City of Taft*** (1956), 47 Cal. 2d 177, 179).

Inasmuch as the bill would permit the fixing during a school year of the salaries of school district classified employees for the entire school year, two sections of the Constitution must be considered The first of these is Section 31 of Article IV, which prohibits a gift of public moneys We believe, however, that no problem is presented by this section. If an expenditure is for a public purpose, it is not a gift within the meaning of the constitutional provision (*Alameda County* v *Janssen* (1940), 16 Cal 2d 276, *San Diego County* v *Hammond* (1936), 6 Cal 2d 709), even though there be a direct benefit to a private person (*California Employment Stabilization Com* v *Payne* (1947), 31 Cal 2d 210, *Dattus* v *Cranston* (1959), 53 Cal 2d 284) Here it is probable that the courts would find a sufficient public purpose in the effect of such expenditure; namely, in maintaining the level of efficiency of classified employees in the public school system by meeting prevailing wages for similar work in private industry, in retaining and recruiting competent personnel and in the promotion of good morale among such classified employees

On the other hand, Section 32 of Article IV prohibits the Legislature from granting "any extra compensation or allowances to any public officer, agent, servant, or contractor, after service has been rendered ." This provision and similar provisions in other states have been uniformly construed as prohibiting a retroactive salary increase *in those cases where the compensation was fixed* at the time the services were performed (*Stevenson* v *Colgan* (1891), 91 Cal 649, *Smith* v. *Dunn* (1883), 64 Cal. 164; *Rankin* v. *Colgan* (1891), 92 Cal 605; *Robinson* v. *Dunn* (1888), 77 Cal. 473; 23 A L.R 612)

This principle would not be applicable to the salary provisions under consideration since under the terms of the bill the salaries of the classified employees would not be fixed until after the services were rendered (i e , during the school year after the salary study was completed)

In this regard, the California courts have held that if no salary were fixed at the time the services were performed, then a subsequent allowance of compensation does not violate the constitutional provision (*Smith* v. *Dunn*, supra; *Rankin* v *Colgan*, supra) Moreover, it should be noted that, while there are no California decisions directly in point, cases in other states have established the principle that where the public agency employer and the agency employees have entered a valid agreement to renegotiate compensation and to make the new compensation levels later fixed applicable as of the date of the agreement, constitutional limitations of the kind in question are not violated (see *Christie* v. *Port of Olympia* (1947), 24 Wash. 2d 534, 179 Pac 2d 294, *Timmerman* v. *City of New York* (1946), 69 N Y S 2d 102)

Nevertheless, in California, our Supreme Court in *Walker* v. *County of Los Angeles* (1961), 55 Cal 2d 626, 640 and 641, pointed up the distinction between the public employment situation wherein compensation is precisely fixed by the law, and that in which the law prescribes an administrative procedure for fixing the compensation The case involved county charter provisions which required the board of supervisors, pursuant to prescribed procedures, to periodically ascertain the "prevailing salary or wage under similar employment" for certain positions in

the county civil service The court held that subsequent correction of improperly established rates of compensation, with accompanying salary and wage increases to be applicable for the prior period, would not violate the constitutional prohibition.

We believe that the latter principles would be applicable to the salary increases authorized by the above quoted language of the bill, since the salary would not be fixed for the school year until completion during that school year of the salary study undertaken before, but not completed, at the commencement of the school year. The provisions of the bill which would authorize the payment of minimum salaries pending the fixing of the final salaries for such school year appear to be governed by economic necessities in order to permit the school district to continue to retain its classified employees during the study period.

It is our opinion, therefore, that Assembly Bill No 1759, as amended, would be upheld as constitutional.

Very truly yours,

GEORGE H. MURPHY
Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Mills was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, March 25, 1965

Honorable James R. Mills
Assembly Chamber

Buy-American Act—No. 15109

Dear Mr Mills:

Question

You have asked if Section 4300 of the Government Code, which is part of the so-called Buy-American Act, applies to quarried materials

Opinion

In our opinion the courts would hold that quarried materials are covered by the Buy-American Act.

Analysis

Section 4300 of the Government Code reads as follows:

"4300 As used in this article:

(a) 'United States' means the United States of America, and includes any Territory or insular possession of the United States

(b) 'Produced' includes mined and manufactured.

(c) 'Materials' includes articles and supplies"

Subsequent sections establish a preference in the construction, alteration or repair of public works, or for the purchase of materials for public use, for materials that are "produced" in the United States (Sections 4303, 4304).

Subdivision (b) of Section 4300 specifically states that the term "produced" includes "mined" In our opinion the word "mined" includes "quarried" The verb quarry means to dig or take from—as from a quarry A quarry is included in the word mine, the distinction being that ordinarily a mine is underground, while a quarry is superficial (Websters International Dictionary, 2nd Edition)

The Supreme Court of California has stated that the word "mine" in Penal Code Section 459, defining as burglary the entry of a "mine, or any underground portion thereof, etc," includes all mineral-bearing properties of whatever kind or character, whether underground, *quarry*, pit, well, spring, or other source from which any mineral substance may be obtained (*People* v *Silver* (1940) 16 Cal 2d 714).

In view of the above authorities, it is our opinion that courts would interpret the word "mined" to include "quarried," and thus we believe that quarried materials would be covered by the Buy-American Act

Very truly yours,

GEORGE H. MURPHY
Legislative Counsel

House Resolution No. 446

Relating to fluid milk pricing

WHEREAS, Milk is one of the finest and most necessary foods for all persons regardless of age, but particularly for the young; and

WHEREAS, In order to provide its maximum benefits milk must be fresh and readily available to consumers; and

WHEREAS, Small neighborhood stores are often the only practical supply of fresh milk to many persons, including those of lower income who cannot travel to more centralized larger outlets, and

WHEREAS, Elaborate and often complicated technical provisions of law have been enacted to authorize the Director of Agriculture to stabilize the marketing of fluid milk and to insure a continuous and adequate supply of pure, fresh wholesome milk to the consumer at fair and reasonable prices, and

WHEREAS, Such provisions can be meaningless if small, local, convenient outlets for such milk are not maintained close to the consumers, and

WHEREAS, Such smaller outlets must be given some volume or limited service discounts or they cannot compete with the larger stores and their loss can seriously endanger the stability and availability of an adequate supply of milk to the consumer, and

WHEREAS, Discounts were given by Wholesale Milk Price Discount Zone I in San Francisco by San Francisco Order No 6 for some time to orders between $15 and $30, which greatly aided the small retailer without undue hardship on anyone, but a recent decision of the Director of Agriculture for this Zone would discontinue such discounts and thereby cause considerable loss to those outlets involved; now, therefore, be it

Resolved by the Assembly of the State of California, That the Director of Agriculture is requested to reconsider his decision to discontinue discounts on smaller orders for fluid milk, and, be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of Agriculture

WHEREAS, Various proposals for handling non-reimbursable costs in the State Water Project have been made in the past and new proposals have recently been advanced by water interests and through legislation introduced; and

WHEREAS, Progress in the planning, design, contracting, financing and construction of the state water facilities under the Burns-Porter Act and related sections of the Water Code, has produced more definitive data on the scope and nature of non-reimbursable costs and their allocation; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to the appropriate Interim Committee a study of all aspects of non-reimbursable costs and the allocation of costs involved in the State Water Project and to direct such Interim Committee to direct its findings thereon together with recommended legislation to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

WHEREAS, Many existing state activities in flood forecasting, flood fighting, construction of flood control works, operation and maintenance of federal flood control projects, payment for or acquisition of lands and easements, and rights-of-way for federal flood control projects, etc, may involve possible state liability now or in the future; and

WHEREAS, The nature of flood control works and the policies under which they are authorized and planned should be reviewed to assure that liability is not unknowingly established and that liability is minimized, and

WHEREAS, Major questions of public policy arise in evaluating the role of the state in flood control programs designed to protect its citizens, if liability for future damages is to result from efforts to provide flood control protection, now, therefore, be it

House Resolution No. 651

Relative to land use, zoning, building ordinances and practices in California

WHEREAS, The home building industry, as much as any group in the State of California, favors sound and reasonable government regulation over property that results in improving the community environment and in making it a proper place to live in at a cost which people should be able and willing to pay; and

WHEREAS, Real property ownership, use, and development is now practically completely regulated by city, county, and state agencies under the declaration of "in the public interest"; and

WHEREAS, Today, throughout the communities of California, land use, zoning, and building ordinances and practices have produced an atmosphere in which there is scarcely an engineer, architect, real estate broker, builder or lawyer who can explain the regulations or predict with any certainty what is permissable for a specific building project or real estate development; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate interim committee for study the subject of land use, zoning, and building control ordinances and practices that are imposed on private real property and their effects on property ownership, use, and development to determine if the controls and practices are actually working "in the best interest of the public," and to direct such committee to report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature
