RESOLUTIONS

The following resolution was offered

By Assemblyman Petris

House Resolution No. 653

Relative to commending Doctor Robert L Nolan, M D

WHEREAS, The Members of the Assembly of the State of California have been particularly impressed by the exemplary record of accomplishments which has been compiled by Doctor Robert L Nolan, while a member of the Oakland Board of Education and School Director, City of Oakland, from July 1, 1961, to the present; and

WHEREAS, Dr Nolan, who is Assistant Chief of Pediatrics at the Kaiser Foundation Hospital in Oakland, was either personally or largely responsible for, among other things, all of the following

I *DE FACTO SCHOOL SEGREGATION*

(1) Requested Oakland Board of Education to acknowledge and deal definitively with de facto school segregation, assisted in development of Oakland policy position recognizing this problem

(2) Proposed specific amendments to the California State Administrative Code concerning de facto segregation to close possible loopholes Two changes suggested by Dr Nolan adopted by State Board of Education on February 14, 1963, now appearing in Sections 2010 and 2011, Article 1 5, subchapter 8, Chapter 1, Title 5 of the California Administrative Code

(3) Urged Oakland Board of Education to utilize services of State Commission on Equal Opportunities in Education; this agency made a report on May 19, 1964, *concerning Oakland school problems*

(4) Instrumental in obtaining and getting released a Report on Oakland Schools by the United States Commission on Civil Rights

II *SECRET MEETINGS AND PUBLIC DISCUSSION*

(1) Obtained elimination of secret dinner meetings of the Oakland Board of Education regularly held to discuss and decide upon public business in violation of the Ralph M Brown Act

(2) Consistently articulated school problems at public meetings and sought their consideration and examination before the public rather than through private discussion excluding the public

III *CONSERVATION OF PUBLIC FUNDS*

Successfully sought cancellation of Oakland Board's premature site development plans, thereby preserving over two million dollars for use by the Peralta Junior College District and making the present civic center site plan a possibility

IV *NUTRITION, PUBLIC HEALTH, AND SAFETY*

(1) Sought and obtained expansion of the school lunch program (state and federally subsidized) to underprivileged areas that had previously been almost uniformly excluded, despite evidence of child malnutrition in such areas Every Oakland school now has the *school lunch program*

(2) Obtained adoption of local regulations requiring instruction concerning hazards of tobacco and venereal disease and regulations excluding from school activities persons under the influence of alcoholic beverages (This is in addition to Education Code Section 7852 requirements)

(3) Obtained installation of seat belts in all vehicles carrying school personnel

V *COMPENSATORY EDUCATION*

(1) Proposed special educational programs for culturally disadvantaged underprivileged children, resulting in 1962–63 Oakland pilot project and subsequent expansion under the McAteer Act and now under the federal Poverty Program

(2) Observed the concentration of the "gifted" educational programs in well-to-do areas and fallacy of use of I Q scores for eligibility criteria, modification of this program since adopted

VI *TEACHING CONCERNING THE BILL OF RIGHTS AND AMERICAN DEMOCRACY*

Suggested and initiated creation of the "American Heritage Series" of adult education programs to focus on the great developments in American history that produced the Bill of Rights and the Constitution

VII *DISCRIMINATION IN TEACHER PLACEMENT PRACTICES*

Urged elimination of assignment practices based upon race (initially denied by Oakland Board), which were later confirmed by a Fair Employment Practices Commission investigation (1964 Report) and resulted in revised policy and practices in Oakland

VIII *EXPANDED CITIZEN PARTICIPATION IN LOCAL GOVERNMENT*
Effectively stimulated participation of individuals in local government and formation of new groups expressing their concern for public education

IX *SELF-PERPETUATING SCHOOL BOARD*·
Examined and exposed self-perpetuating, appointive monopoly practices of the Oakland Board of Education, whereby in over 30 years only one of 23 vacancies had been filled by election Now the last two vacancies have been filled by the voters.

X *COOPERATION AND COORDINATION WITH OTHER PUBLIC AGENCIES*
(1) Developed workable agreement for school transportation and resolved conflict between Oakland Board of Education and the Alameda-Contra Costa Transit District
(2) Urged greater involvement and coordination by health and welfare agencies with public schools in child welfare and health problems known to school officials.

XI *STATE AND FEDERAL AID TO EDUCATION*·
Consistently supported expansion of state and federal aid to public education, a position now essentially endorsed by the entire school board; and

WHEREAS, Dr Nolan is deserving of the highest commendation for his outstanding service to his community and the people of this state; now, therefore, be it

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson·

Eternal God, Our loving Father, forgive our easy atheism, sometimes praying, sometimes calling on Thee from the depths of despair, but generally living as if Thou does not exist How can we deny Thee, when to deny Light means we have found it We confess we often seek You in the wrong places We want freedom, so Thou dost not bludgeon us into belief Thou dost reveal Thyself through glint and hint, rather than by obvious formulae, and dull certitude We would be blinded by excessive light But give us enough for the next step, may we walk with the assurance that we are not alone, but are part of Thy great plan In our Lord's Name—AMEN.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No 1594:

State of California, Governor's Office
Sacramento, May 24, 1965

To the Honorable Members of the Assembly and Senate:

SECOND READING OF BILLS—AUTHOR'S AMENDMENTS

Senate Bill No. 1517—An act to add Title 7 2 (commencing with Section 66520) to the Government Code, relating to transportation planning.

Bill read second time.

Consideration of Author's Amendments

The following amendments, pursuant to the Assembly Rules, were read, and adopted.

Amendment No. 1

On page 1 of the printed bill, as amended in Senate June 2, 1965, strike out line 4, and insert

"TITLE 7 2 CALIFORNIA
TRANSPORTATION PLANNING STUDY COMMITTEE

66520 This title shall be known and may be cited as the California Transportation Planning Study Committee Act

66521 The Legislature hereby finds and declares that there is an urgent need for the creation of a California Transportation Planning Study Committee, based upon the following facts

(a) The State of California is now the most populous and fastest-growing state in the Union, with the 1965 population of eighteen million expected to increase to twenty-eight million by the year 1980, and

(b) The State of California is possessed of a unique and rich variety and abundance of natural resources of land, water, minerals, wildlife, vegetation, and scenery, each of which is increasingly subject to the impact of continued rapid population growth; and

(c) An important dimension of meeting this explosive population growth is providing for the rapid, efficient, comfortable, and safe movement of large numbers of people and large quantities of goods from place to place, and

(d) The emphasis on planning for the movement of people and goods in California is on providing highways and freeways for use by the individual automobile, and is producing an increasingly serious imbalance in meeting the need for balanced mass transportation throughout the state, with comprehensive planning being undertaken locally only when it is obvious that dependence on the individual automobile as the sole means of transportation fails to meet the total regional transportation requirements, and

(e) Annual travel mileage in California is expected to increase from 76 billion vehicle miles in 1962 to 200 billion vehicle miles by 1980, and motor vehicles from eight million in 1965 to 16 million in 1980; and

(f) The attempt to meet this overwhelming demand by the independent planning of freeways and limited regional transportation systems does not appear to be the most effective long-range method of coping with this demand; and

(g) The placement of major transportation arterials has profound impact on the environment by irreversibly changing the land and resource use pattern in the

immediate vicinity as well as determining the long-term economic growth potential of the area, and it is therefore of fundamental importance that the most comprehensive and meaningful evaluation possible be made of the number and location of regional transportation corridors, and

(b) A balanced, efficient, economical, safe, comfortable, and articulated statewide system of mass transportation is of fundamental importance to the well-being of the people, to the orderly and responsible development and preservation of the natural environment, to the statewide tax structure, and to the growth and development of industry throughout California

66522 There is hereby created the California Transportation Planning Study Committee which is authorized and directed to ascertain, study and analyze all facts relating to the development of a comprehensive, integrated statewide transportation system, which takes cognizance of the interrelationships of all modes of transportation, including the latest scientific discoveries showing promise in this field The basic objectives of this study will be to 1) ascertain, within the projected distribution of population statewide, the multimodal transportation requirements for the movement of people and goods, and 2) formulate a balanced plan for integrated, mass transportation, utilizing all modes and so structured as to provide for continuous updating and the projecting of future requirements and means of meeting them This study will include, but is not limited to, the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subject of this title

66523 The committee shall consist of the following

(a) Five Members of the Senate appointed by the Senate Committee on Rules

(b) Five Members of the Assembly appointed by the Speaker of the Assembly

66524 The committee and its members may have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly and of the Constitution, which provisions are incorporated herein and made applicable to the committee and its members

66525 All meetings of the committee shall be open and public, and all persons shall be permitted to attend any meetings of the committee

66526 The study committee shall coordinate its work closely with official associations of local governmental agencies concerned with continuing regional planning or continuing transportation planning It shall make maximum use of all pertinent studies and plans prepared by such groups

66527. The study committee shall be responsible for conducting studies and developing specific recommendations as to ways and means of implementing the state transportation plan which it is to prepare For this purpose it shall give first consideration to the use of existing governmental agencies to achieve expeditious implementation of the plan and a maximum of coordination among transportation activities and between transportation and general planning in California However, if the study committee finds that the purpose and intent of this section may be advanced thereby, it may make studies and develop recommendations for a possible reorganization or realignment of responsibilities of public agencies dealing with transportation problems in California

66528 The powers of the committee shall include the following

(a) The committee may accept grants, contributions and appropriations from any public agency

(b) The committee may appoint subcommittees from its membership

(c) The committee may contract for or employ any professional services required by the committee for the performance of work and services which in its opinion cannot satisfactorily be performed by its officers and employees

(d) The committee may do any and all other things necessary to carry out the purposes of this title

66529 The chairman and vice chairman of the committee shall be selected from among the members of the committee by majority vote of the committee and shall not be members of the same house A temporary chairman, appointed by the Senate Rules Committee shall call the first meeting of the study committee at the earliest possible time The permanent chairman and vice chairman shall constitute the special subcommittee to prepare and propose the budget for adoption by the full committee Such budget shall require concurrence of both the chairman and vice chairman

66530 The study committee may employ or contract for a study director who shall have charge of the conduct of the state transportation study and plan formulation, subject to the direction and policies of the study committee Due consideration shall be given to selecting a prominent and nationally recognized authority in the field of transportation and planning problems as the study director

The study director shall, subject to approval of the study committee, appoint such employees as may be necessary in order to carry out the function of the study committee The salary of the study director and of the employees of the study committee shall be determined by the committee.

(a) The study committee and the State Highway Transportation Agency shall negotiate contracts or agreements whereby federal-aid highway funds available for planning and the necessary state matching funds from the State Highway Fund may be made available for support of the committee activities insofar as they relate to highway, road, and street planning for the state

(b) The committee shall also negotiate, either directly or through the State Office of Planning or other appropriate agency, with the United States Housing and Home Finance Agency for grants or contributions of federal funds which may be available to support the study and planning activities of the committee

(c) The committee shall negotiate equitable agreements with the cities and counties and transit districts for the contribution of funds or services for the general support of the committee activities and for such required matching of federal funds as may be made available under paragraph (b) of this section Any county or city may use a portion of the motor vehicle license fee funds which it receives from the state for these purposes

(d) The study committee shall make a complete report of all contracts or agreements for financial or other support which it has negotiated to the Legislature not later than the 10th legislative day of the 1967 Regular Session and of each regular legislative session thereafter until the termination of the committee

(e) It is the intention of the Legislature that the creation of the committee shall in no way interfere with proper local organizations conducting continuous long-range comprehensive transportation planning programs required by the mandatory provisions of the Federal-aid Highway Act of 1962

66531 The committee may, but is not required to, appoint an advisory commission to assist and advise the study committee in carrying out its functions The membership of the advisory commission shall include, but is not limited to, representation from the following

(a) County supervisors,

(b) Mayors of cities or city councils;

(c) Federal, state and local planning transportation and resources agencies

(d) People of recognized competency from private enterprise to include such areas as management consulting, planning and transportation

66532 The advisory commission members shall serve without compensation, but shall be paid their necessary expenses.

66533 All meetings of the advisory commission shall be open and public and all persons shall be permitted to attend any meetings of the commission

66534 The study committee shall report to the Legislature by the fifth legislative day of the 1967 Regular Session, including in the report a statement as to its progress and an estimate of the time necessary to complete the balance of its work

The existence of the committee shall terminate on the 90th day after final adjournment of the 1967 Regular Session of the Legislature, unless continued by the Legislature at that session

66535 If any provision of this title would result in the withholding of federal funds for use upon any federal-aid highway program in California, that provision shall not be operative."

Amendment No. 2

On page 1, strike out lines 5 to 20, inclusive, and strike out pages 2 to 5, inclusive

Bill ordered reprinted, and to be re-referred to the Committee on Natural Resources, Planning, and Public Works

Article 5 Powers of Appointment

13691 "Charitable beneficiary," as used in this article, means a transferee of property which is within the exemption specified in Article 3 (commencing with Section 13841) of Chapter 5 of this part

13692 "General power of appointment" means a power which is exercisable in favor of the decedent, his estate, his creditors, or the creditors of his estate, provided that the following shall not be deemed to be general powers of appointment

(a) A power to consume, invade, or appropriate property for the benefit of the decedent which is limited by an ascertainable standard relating to the health, education, support, or maintenance of the decedent

(b) A power not exercisable by the decedent except in conjunction with the creator of the power

(c) A power not exercisable by the decedent except in conjunction with a person having a substantial interest in the property subject to the power, which is adverse to exercise of the power in favor of the decedent For the purposes of this subsection a person who, after the death of the decedent, may be possessed of a power of appointment (with respect to the property subject to the decedent's power) which he may exercise in his own favor shall be deemed as having an interest in the property and such interest shall be deemed adverse to such exercise of the decedent's power

If the power is exercisable by the decedent only in conjunction with another person and if after the application of subdivisions (b) and (c) the power is a general power of appointment and is exercisable in favor of such other person, such power shall be deemed a general power of appointment only in respect of a fractional part of the property subject to such power, such part to be determined by dividing the value of such property by the number of such persons (including the decedent) in favor of whom such power is exercisable

For purposes of subdivisions (b) and (c) of this section, a power shall be deemed to be exercisable in favor of a person if it is exercisable in favor of such person, his estate, his creditors or the creditors of his estate

13693 "Limited power of appointment" means a power which does not qualify under the preceding section as a general power of appointment

13694 Except as otherwise provided in this article, a gift of a general or limited power of appointment made in conjunction with a disposition of property otherwise subject to this part effected before or after 5 p m of June 25, 1935, is a transfer subject to this part from the donor to the donee at the date of the donor's death, except that if a power of appointment over any portion or all of the donor's half interest in community property is given to the donor's spouse, the value of any interest, other than the power itself, given the donee in such property subject to such power, up to but not exceeding the value of a life estate therein of the donee, is not subject to this part

13695 Where a limited power of appointment given in conjunction with a disposition of property effected before 5 p m of June 25, 1935, by a donor who died prior to that date, is exercised after that date by the donee, the exercise of the power is a transfer subject to this part from the donee to the person appointed at the time of the exercise, as though the property to which the power relates belonged absolutely to the donee and is transferred by him by will

13696 If at the time of his death a decedent has a general power of appointment with respect to property, the exercise of the power is subject to this part as a transfer of the property from the decedent to the person to whom the property is appointed and the decedent's failure to exercise the power is subject to this part as a transfer of the property from the decedent to the person to whom the property passes by virtue of the nonexercise of the power For purposes of this section, the power of appointment shall be considered to exist on the date of the decedent's death even though the exercise of the power is subject to a precedent giving a notice or even though the exercise of the power takes effect only on the expiration of a stated period after its exercise, whether or not on or before the date of the decedent's death notice has been given or the power has been exercised

13697 The exercise or release by the decedent during his lifetime of a power with respect to property which, but for such exercise or release would be subject to tax by virtue of the preceding section, is a transfer subject to this part if the exercise or release is of such a nature that if it were a transfer of property owned by the decedent such transfer would be subject to this part under Article 3 of Chapter 4 of this part A disclaimer or renunciation of such a power of appointment shall not be deemed a release of such power

The lapse of a power of appointment during the life of the individual possessing the power shall be considered a release of such power The preceding sentence shall apply with respect to the lapse of powers during any calendar year only to the extent that the property, which could have been appointed by exercise of such lapsed powers, exceeded in value, at the time of such lapse, the greater of the following amounts:

(a) Five thousand dollars ($5,000), or

(b) Five percent of the aggregate value, at the time of such lapse, of the assets out of which, or the proceeds of which, at the exercise of the lapsed powers could have been satisfied

13698 If at the date of the donor's death a power of appointment is irrevocably limited, in whole or in part, to be exercised in favor of a charitable beneficiary to the extent that it is so limited the gift of the power is not a transfer subject to this part from the donor to the donee

13699 In the case of a gift of a limited power of appointment, if the donee irrevocably exercises, or obligates himself to exercise, the power, in whole or in part, in favor of a charitable beneficiary before any tax on the gift has been finally determined, to the extent that the power is so exercised, or obliged to be exercised, the gift of the power shall be deemed a transfer to the charitable beneficiary

13700 If a gift of a limited power of appointment is taxed under this part as a transfer from the donor to the donee, and thereafter the donee irrevocably exercises, or obligates himself to exercise, the power, in whole or in part, in favor of a charitable beneficiary, the court which originally fixed the tax, on satisfactory proof to it, pursuant to an application after notice to the Controller made within six months after execution of the document exercising the power, or obliging the donee to exercise the power, in favor of the charitable beneficiary, shall modify its original order fixing the tax by a new order based upon a computation wherein the charitable beneficiary shall be deemed to be the transferee to the extent the power is exercised or is obligated to be exercised in its favor.

13701 If a gift of a limited power of appointment is taxed under this part as a transfer from the donor to the donee, and thereafter, as the result of a nonexercise of the power, in whole or in part, the whole or any part of the property subject to the power passes to a charitable beneficiary, the court which originally fixed the tax, on satisfactory proof to it, pursuant to an application after notice to the Con-

troller made within six months after the passage of the property to the charitable beneficiary, shall modify its original order fixing the tax by a new order based upon a computation wherein the charitable beneficiary shall be deemed to be the transferee to the extent the power is exercised or is obligated to be exercised in its favor"

Amendment No. 9

On page 2, strike out lines 22 to 40, inclusive, and insert

"SEC. 7 *Section 15105.5 is added to said code, to read*

15105.5 The exercise or release of a general power of appointment shall, for the purposes of this part be deemed a transfer of the property subject to the power by the individual possessing the power

The lapse of a power of appointment during the life of the individual possessing the power shall be considered a release of such power The rule of the preceding sentence shall apply with respect to the lapse of powers during any calendar year only to the extent that the property which could have been appointed by exercise of such lapsed powers exceeds in value the greater of the following amounts

(a) Five thousand dollars ($5,000), or

(b) Five percent of the aggregate value of the assets out of which, or the proceeds of which the exercise of the lapsed power could be satisfied

A disclaimer or a renunciation of such power shall not be deemed a release of the power

For purposes of this section, the term "general power of appointment" means a power which is exercisable in favor of the individual possessing the power (hereafter in this section referred to as the "possessor"), his estate, his creditors, or the creditors of his estate, provided that the following shall not be deemed to be general powers of appointment

(a) A power to consume, invade, or appropriate property for the benefit of the possessor which is limited by an ascertainable standard relating to the health, education, support, or maintenance of the possessor

(b) A power not exercisable by the possessor except in conjunction with the creator of the power

(c) A power not exercisable by the possessor except in conjunction with a person having a substantial interest in the property subject to the power, which is adverse to exercise of the power in favor of the possessor For the purposes of this subsection a person who, after the death of the possessor, may be possessed of a power of appointment (with respect to the property subject to the possessor's power) which he may exercise in his own favor shall be deemed as having an interest in the property and such interest shall be deemed adverse to such exercise of the possessor's power

If the power is exercisable by the possessor only in conjunction with another person and if after the application of subdivisions (b) and (c) the power is a general power of appointment and is exercisable in favor of such other person, such power shall be deemed a general power of appointment only in respect of a fractional part of the property subject to such power, such part to be determined by dividing the value of such property by the number of such persons (including the possessor) in favor of whom such power is exercisable

For purposes of subdivisions (b) and (c) of this section a power shall be deemed to be exercisable in favor of a person if it is exercisable in favor of such person, his estate, his creditors, or the creditors of his estate"

MESSAGES FROM THE GOVERNOR

The following veto messages from the Governor were received and read.

Veto Message

June 10, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No 1096 entitled "An act to amend Sections 11753 and 13294 of the Education Code, relating to physician qualifications"

When Assembly Bill No 1096 was introduced it provided that any licensed physician could act as a school athletic physician without first obtaining a school service credential I agree that doctors rendering medical assistance at school athletic events should be exempt from the credential requirements of the Education Code However, AB 1096 was amended at the last moment to permit health service personnel, including nurses, employed by local health departments to work in the schools without holding a credential for school service The bill creates two standards of preparation for nurses, one for nurses employed by school districts and another for nurses employed by health departments serving schools on a contract basis

The school nurse credential requires five years of college or university preparation including a bachelor's degree and specialized training in school nursing. Some nurses employed by local health departments especially those in rural areas are not required to have a bachelor's degree or a public health nursing certificate Many of these nurses have

no preparation in school nursing The present credential requirements for school nurses were established after a long and serious study by the Legislature I do not feel that the school nurse credential requirements should be impaired without the same serious consideration by the Legislature

Accordingly, I am returning the bill without my signature

Respectfully submitted

EDMUND G BROWN, Governor

RECEIPT OF VETO MESSAGE

I acknowledge receipt this 11th day of June, 1965, at 2 35 o'clock p m of Assembly Bill No 1096 without the Governor's signature, together with a statement of his objections thereto signed by the Governor, delivered to me personally by Frank Cullen, Legislative Assistant to the Governor

Chief Clerk of the Assembly

Assembly Bill No 1096 ordered to the unfinished business file

Veto Message

June 10, 1965

To the Honorable Members of the Assembly
State of California, Sacramento, California

Greetings I am returning herewith, without my signature, Assembly Bill No 1862 entitled. "An act to amend Section 91 5 of, and to add Section 86 3 to, the Agricultural Code, relating to fairs and expositions," as amended May 13, 1965

This measure would order the County of Los Angeles, the City of Los Angeles, and the Sixth District Agricultural Association to admit to membership on the Los Angeles Memorial Coliseum Commission two additional members representing the Speaker of the Assembly and the Committee on Rules of the Senate Under the existing agreement, the County, the City, and the Association each appoint three members to the Commission which operates the Los Angeles Coliseum, the Sports Arena, and the California Museum of Science and Industry in Los Angeles AB 1862 would upset this balanced representation of the Commission.

It is also in conflict with the Joint Powers Agreement insofar as it directs an amendment of the agreement without the consent of the other two parent bodies.

Another matter of grave concern involves the impairment of the contract regarding the municipal revenue bonds sold initially some seven years ago. I have been informed by the Investment Bankers Association that "at the time of the sale, the essential provisions of the agreement being modified were, in the opinion of participating investment bankers, incorporated in the contract between the selling agency and the purchasers of the bonds In the opinion of these investment bankers, this change is serious enough to constitute an impairment of that contract, with attendant prejudicial results including a possibly adverse effect upon future municipal financing in California, as well as the distinct likelihood of a decreased market value of the bonds in question and of bond-holder suits."

I am informed that the existing Los Angeles Memorial Coliseum Commission is operating these facilities in commendable fashion to meet local needs. This balanced arrangement should be continued. Further, this measure constitutes legislative intrusion into the operations of a local commission, in violation of the principle that the administrative functions of government should be separated from the legislative.

Accordingly, I am returning the bill without my signature.

Respectfully submitted

EDMUND G. BROWN, Governor

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Garrigus:

House Resolution No. 673

Relating to marketing orders

WHEREAS, The Legislature has specifically declared in the California Marketing Act of 1937 that the inability of individual producers to maintain present markets or to develop new or larger markets for California grown agricultural commodities results in an unreasonable and unnecessary economic waste and prevents producers from obtaining a fair return from their labor, and the purchasing power of such producers is low in relation to that of other persons, thus preventing such producers from maintaining a proper standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, and

WHEREAS, To alleviate such conditions and specifically "To enable agricultural producers of this state, with the aid of the state, more effectively to correlate the marketing of their agricultural commodities with market demands therefor" and "To restore and maintain adequate purchasing power for the agricultural producers of this state" the Legislature enacted the California Marketing Act of 1937, now, therefore, be it

Resolved by the Assembly of the State of California, That any marketing order under the California Marketing Act of 1937, including any directly affecting handlers only, must be to carry out such declared purposes of the act to aid and protect producers and growers and the Director of Agriculture is directed to ascertain that such is the fact prior to issuing any order, and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of Agriculture

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblymen Danielson and Song

WHEREAS, Alfredo Meza, an 11-year old Los Angeles boy, courageously and selflessly saved the lives of his three brothers and his sister, and

WHEREAS, Alfredo, left in charge of the household while his parents went to work on a Sunday night, was instructed to bathe his brother Cecar, 3, and was doing so when the water heater exploded, and

WHEREAS, Noting the extent of the fire, Alfredo calmly lifted Cecar from the bathtub, dried and dressed him, and carried him from the house, at the same time shooing his other brothers, Erick, 4, and Nelson, 2, from the house; and

WHEREAS, Alfredo then returned to the burning house, wrapped his sleeping 5-year-old sister Merta, who was in bed with the measles, in a blanket and carried her to safety; and

WHEREAS, Thereupon, Alfredo ran to a neighbor's house and alerted the fire department, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members commend Alfredo Meza for his courageous action in saving the lives of his brothers and sister and for maintaining his composure in the face of such danger; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit a suitably prepared copy of this resolution to Alfredo Meza

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

House Resolution No. 675

Relative to a study of referral selling methods

WHEREAS, Home selling methods which employ a "referral sales" device, in which customers are offered rebates, discounts, commissions or other considerations on the condition that the buyer either sells or gives information or assistance for the purpose of leading to another sale by the seller, have given rise to serious complaint by both consumer and better business organizations in California, and

WHEREAS, Abuse of such selling techniques has resulted in fraudulent exploitation of California citizens resulting in an estimated loss of scores of thousands of dollars every year, and

WHEREAS, One of the most flagrant abuses has been by certain sellers of aluminum siding for houses, the recent apprehension of such salesmen resulting in prosecutions and convictions in several California counties, and

WHEREAS, The extent of the use of referral selling and its proper and improper use are not fully known so that adequate regulation of such selling and satisfactory protection of the public is not possible; now, therefore, be it

Resolved by the Assembly of the State of California, That the Committee on Rules is directed to assign to an appropriate interim committee for study the subject of referral selling, and to direct such committee to report to the Assembly its findings and recommendations thereon no later than the fifth legislative day of the 1967 Regular Session.

By Assemblyman Z'berg.

House Resolution No. 676

Relative to an interim study of planning for recreation

WHEREAS, The unprecedented population increase in California is expected to continue for the foreseeable future, and

WHEREAS, This large and accelerating population increase demands the most effective and imaginative planning possible to meet the long-range, total recreation requirements throughout the state, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for study the subject of long range planning for recreation in California, and to direct such committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session

Relative to an interim study of the State Capitol Master Plan

WHEREAS, The preparation of a long-range master plan for ultimate development of the State Capitol Area Complex was initiated by legislative action in 1959; and

WHEREAS, This plan is reaching the final stages of completion; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study, the subject of the State Capitol Master Plan, including, but not limited to, such matters as the role and responsibilities of the Capitol Building and Planning Commission and planning for the long-range development of the Capitol Mall and the approaches to the Tower Bridge, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

House Resolution No. 678

Relative to an interim study of the subject of beach erosion

WHEREAS, The federal government, acting through the U S Corps of Engineers, has established a beach erosion control program providing for federal, state and local sharing of the costs of works to be constructed to remedy beach erosion problems; and

WHEREAS, The state's costs for participation in the work are increasing rapidly; and

WHEREAS, There is increasing evidence that natural factors, such as the absence of heavy rains and floods in Southern California to wash sand down the rivers and into the bays where it can be washed onto the beaches by wave action, are contributing to the erosion of ocean beaches; and

WHEREAS, There is increasing evidence that the construction of dams prevents the movement of sand down rivers to the beaches and the construction of boat harbors and other installations prevents the littoral movement of sand along the beaches, thus increasing the beach erosion problem; and

WHEREAS, Some of the federal beach erosion control projects are "rescue" projects to keep beach front property from being washed away after the sands of a beach have been lost due, in part, to the reasons cited above; and

WHEREAS, Certain beach erosion control projects give evidence of stopping the littoral movement of sand at one beach and thereby depriving beaches further down the coast of a sand supply, which creates beach erosion problems at these latter beaches, and may only accentuate the beach erosion control problem; and

WHEREAS, Many breakwaters and harbor facilities require periodic pumping of sand around such facilities and some beach erosion control projects will require periodic pumping of the sand onto the beaches, and such pumping of sand is a continuing financial burden; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules be directed to assign the subject of beach erosion in all its aspects, both natural and man-made, to the appropriate interim committee for study and to direct such interim committee to report to the Assembly its findings and recommendations thereon not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Z'berg

House Resolution No. 679

Relating to an interim study of planning for the installation of underground wiring

WHEREAS, Overhead wiring installations frequently mar the natural beauty of the urban and rural landscape, and

WHEREAS, Much progress is being made in the installation of underground wiring facilities, and

WHEREAS, The installation of underground wiring would not only improve the natural beauty of the landscape, but would provide a system that is safer and less vulnerable to outages caused by the elements, traffic, and trees, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate interim committee for study the subject of installation of underground wiring facilities, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblyman Z'berg

House Resolution No 680

Relative to an interim study of fire prevention and suppression

WHEREAS, Continued population growth and the pressures of urbanization are producing increasingly serious problems of fire prevention and suppression in the forests and brushlands of California, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate interim committee for study the subject of fire prevention and suppression in the forest and brushlands of California, including, but not limited to, such matters as controlled burning, and the fire prevention and suppression programs of the State Division of Forestry, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Dymally:

House Resolution No. 705

Relative to categories of unemployment

WHEREAS, Department of Labor statistics are commonly used to determine the magnitude, and often the content, of unemployment in California; and

WHEREAS, These statistics are a gross tool which reflect persons who have no job and claim to be seeking a job, and

WHEREAS, This method of determining unemployment fails to distinguish that unemployment which causes serious individual and family deprivation and is a social problem with which government should be most concerned, from that unemployment which does not cause deprivation or is merely a temporary inconvenience, and it also fails to distinguish among those in the former category as to the cause of unemployment, and

WHEREAS The various programs of the State of California aimed at eliminating or ameliorating unemployment cannot be improved without a better understanding of the problem of unemployment, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee the task of attempting to develop more meaningful categories of unemployment aimed at improving the various programs of the state aimed at the elimination or amelioration of unemployment and to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Dymally:

House Resolution No. 706

Relative to low-cost housing

WHEREAS, Resources being made available for elimination of slum conditions may produce speculation into low-cost housing developments that will produce ill-conceived management plans, inadequately constructed homes and create unwholesome environments which are not in the public interest; and

WHEREAS, California is in need of legislation to help planning commissions develop healthy, economical, and durable plans for communities that can both prevent slums and give the low-income consumer a dollar's worth for a dollar spent, and

WHEREAS, A study should be made of a special zoning designation to be included in planning codes for cooperative developments such as R-C for Residential Cooperative or Condominium and R-R for Residential New Housing, and

WHEREAS, Minimum building standards for these R-C or R-R designations could be specified on a regional basis, based on climate, earthquake and soil conditions, and

WHEREAS, An experimental laboratory for new materials and construction techniques should be studied along with a sociological factors consultation service for all facets of planning which could be instituted for communities requesting such services; and

WHEREAS, The subject of ghetto development and prevention should be studied; and

WHEREAS, A committee should be established to study the entire field of low-cost housing, to evaluate the effectiveness of legislation in this area, to recommend needed modifications and new legislation, and to evaluate the future low-cost housing needs of California, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee the subject of low-cost housing; and be it further

Resolved, That the said committee shall report its findings and recommendations to the Legislature not later than the fifth legislative day of the 1967 session

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblyman Dymally:

House Resolution No. 707

Relative to a "War on Poverty"

WHEREAS, There is a national "War on Poverty" aimed at the elimination of subminimal standards of living and their oppressive and degrading effects on the American people; and

WHEREAS, Most of the programs developed in California as a part of this "War on Poverty" involve the services of state government or its political subdivisions, and

WHEREAS, Many services are now provided by state and local governments in California which are not explicitly anti-poverty in purpose, but which are clearly related to the problem of poverty, and

WHEREAS, The possibility of the coordination of these related programs with the "War on Poverty" has not been fully explored, now, therefore, be it

Resolved by the Assembly of the State of California, That the Committee on Rules is hereby directed to assign to an appropriate interim committee for study the subject of state and local governmental programs which are related to the "War on Poverty" in California, the evaluation of their effective coordination with the "War on Poverty," and the recommendation of better means of coordination between these related programs and the "War on Poverty," and to direct such committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblyman Dymally.

House Resolution No. 708

Relative to poverty

WHEREAS, President Johnson has launched a national "War on Poverty," the purpose of which is the elimination of subminimal standards of living in the United States, and

WHEREAS, Dozens of California communities have developed programs of participation in the "War on Poverty" and tens of millions of dollars have been committed to the elimination of poverty in this State, and

WHEREAS, This federal-state-local program is of obvious and proper concern to the people of California and to this Legislature, and

WHEREAS, Relatively little is known about the magnitude and intensity of the problem of poverty in California, and

WHEREAS, Relatively little is known about the effects of the anti-poverty program in ameliorating or eliminating the problem of poverty in California, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study the subject of determining the magnitude and intensity of poverty in California and determining the effects of the anti-poverty program in ameliorating or eliminating this poverty and to direct such committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

House Resolution No. 723

Relative to an interim study of planning in the City of Sacramento for the utilization of space underlying freeways for offices and for storage of automobiles and state materials and for an integrated transportation system for personnel and materials within the state building complex and separated work and storage areas

WHEREAS, The continuing growth of the complex of state office buildings together with freeways and other public works in the City of Sacramento require overall long-range planning for economy in land use and efficiency in the movement of personnel and material, and

WHEREAS, Consideration should be given to the use of modern underground or overhead facilities for transporting personnel and materials between widely separated buildings and work areas and from parking lots, which could then be located upon less valuable land in outlying areas, and

WHEREAS, If the movement of personnel and material within the complex could be relieved of its dependence upon conventional transportation, a large savings in manpower hours would result; and

WHEREAS, Economy in land use requires that planning of the expansion of future state facilities be integrated with the planning of freeways so that areas beneath freeways might be utilized for offices, and for storage of automobiles and material, and

WHEREAS, In view of ever-rising costs of planning, construction, and land acquisition, it is imperative that development of such facilities be given immediate consideration and that such consideration be coordinated with the work of the Capitol Building and Planning Commission, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study, the planning and development of the complex of state office buildings and other facilities in the City of Sacramento as related to the movement of personnel and

RESOLUTIONS

The following resolutions were offered

By Assemblyman Powers

House Resolution No. 737

Relative to veterans' educational benefits

WHEREAS, The state veterans' educational program is intended to encourage veterans to complete a course of study that would enable them to assume a more productive role in society, and

WHEREAS, The veterans' educational program is an investment which benefits both the state and the individual by providing society with needed skills and by increasing state revenues from taxes on increased earnings by skilled workers, now, therefore, be it

Resolved by the Assembly of the State of California, That the Rules Committee be directed to assign to an appropriate interim committee for study the subject of educational benefits for California veterans, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

By Assemblyman Dymally

House Resolution No. 738

Relative to adequate income and purchasing power for all

WHEREAS, The State of California and the federal government have spent substantial sums of money for many years attempting both to eliminate unemployment and welfare and to increase the income and purchasing power of the people, and

WHEREAS, The rate of unemployment remains relatively constant and the costs of welfare are increasing, and

WHEREAS, Many who are now employed are relatively unproductive and would in a more rational system be unemployed, and

WHEREAS, Many jobs are destroyed annually through technological advance, and

WHEREAS, Substantial evidence indicates that with still greater technological progress ahead, ever fewer workers will be necessary to produce the goods and services required by society, and

WHEREAS, It may be reasonable to assume that attempts to achieve adequate income and purchasing power through full employment may be unrealistic in our continually advancing industrial society; and

WHEREAS, It may be more realistic to attempt to ensure all people an adequate income and purchasing power, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee for study the possibility that our current efforts to ensure everyone a job are misdirected and that attempts to ensure everyone an income and purchasing power may be more appropriate to our present-day circumstances and to direct such committee to report its finding and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Dymally

WHEREAS, The California savings and loan industry represents a pool of approximately $25 billion, a large portion of which might be used for low income housing and home improvement loans for people of low income, and

WHEREAS, There are many statutory as well as practical reasons why more of this savings and loan industry capital is not available to people of low incomes, and

WHEREAS, It is desirable that private enterprise be used, if at all possible, to solve the pressing social problems of eliminating slums and providing decent housing for people of low income, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee the task of investigating the relative unavailability of savings and loan industry capital to people of low income for decent housing, and be it further

Resolved, That said interim committee shall report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 General Session of the Legislature

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

Relative to a study of means to assure that state subventions to reduce property taxes benefit renters

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate interim committee for study the means that can be used to assure that any reduction in property taxes, effected by substituting state subventions, is passed on to those who rent property; and to require such interim committee to report its findings and recommendations to the Legislature no later than the fifth legislative day of the 1967 Regular Session

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Henson

WHEREAS, The safety aspects of nuclear reactors are of obvious and proper concern to the people of California, and

WHEREAS, Protection of the health and safety of employees in particular and the public in general is an area traditionally reserved to state regulation, and

WHEREAS, The Atomic Energy Act of 1954 provides that the basic authority for regulating nuclear reactor installations, including these safety aspects, is vested in the Atomic Energy Commission, and

WHEREAS, The California Supreme Court has held that the basic authority granted by the Atomic Energy Act does not amount to pre-emption of this field by the federal government, at least with respect to the phase of protecting the public from hazards other than radiation hazards; and

House Resolution No. 744

Relative to a study of the harmful effects on the commercial fishing industry and the ocean fishery resources of certain industrial, commercial and maritime activities in ocean waters

WHEREAS, The practice of abandoning equipment and installations such as standpipes and core sampling pipes used by firms in the petroleum industry for exploratory and pumping operations, and the practice of the operators of various types of vessels of discarding and abandoning in such waters material which forms hazardous debris, have seriously impeded commercial fishing operations in such waters and have caused extensive damage to commercial fishing equipment; and

WHEREAS, There is substantial evidence also, that the use of seismic high explosive detonations in petroleum exploratory operations frequently results in widespread killing of fish and the consequent depletion of the ocean fish resources; and

WHEREAS, While persons and firms in the petroleum industry have undertaken substantial measures to curtail such interference with commercial fishing operations and the destruction of the fish resources, there remains a great need for more extensive and concerted activity in this direction; now, therefore, be it

WHEREAS, It has come to the attention of Members of the Legislature that the state operates an insufficient number of residential facilities for the education of retarded and handicapped children to satisfy the public need for such facilities; and

WHEREAS, It is the goal of the Legislature of the State of California that quality education and successful integration of our community schools be pursued at all times; and

WHEREAS, De facto racial segregation resulting from housing patterns and social and economic factors continues to be a primary obstacle to educational opportunity for our racial minorities; and

WHEREAS, The Legislature is concerned with the effects of de facto segregation, such as under achieving students who may lag behind their contemporaries by one or more years, obsolescent buildings and equipment, overcrowded classes taught predominately by temporary and substitute teachers, which continue to provide the poorest educational opportunities for large numbers of California young men and women; and

WHEREAS, It would appear that the necessary action to inhibit the spread of de facto segregation in California schools has not yet been taken; and

WHEREAS, There has been no comprehensive study of all of the factors giving rise to de facto segregation, and effects thereof upon the children subjected to lower educational opportunities; and

WHEREAS, Such a study would greatly enhance the ability of the Legislature of the State of California in planning thoughtfully for the future needs of junior college educational facilities and in working cooperatively with local communities toward solutions of the many physical space and facilities problems they face, now, therefore, be it

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 361

State of California, Governor's Office
Sacramento, May 24, 1965

To the Honorable Members of the Senate and Assembly

Senate Bill No 361, as amended March 18, 1965, "An act to add Sections 135 1 and 135 2 to the Streets and Highways Code, relating to relocation assistance, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The facts constituting such necessity are The acquisition of private property for state highway purposes is being felt by an increasing number of citizens who are required to relocate their residences, farms and businesses These persons incur moving expenses which are not presently compensated for under California law The Federal-Aid Highway Act of 1962 provides for federal participation in the payment of moving expenses only where such payment is authorized by state law The expeditious payment of moving expenses and the efficient operation of the right-of-way acquisition program of the Department of Public Works requires the immediate authorization to pay moving expenses to those eligible persons displaced by highway projects It is therefore necessary that this act go into immediate effect

I, therefore, recommend consideration of Senate Bill No 361, as amended March 18, 1965, as an emergency measure

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 695

State of California, Governor's Office
Sacramento, May 19, 1965

To the Honorable Members of the Senate and Assembly

Senate Bill No 695, as amended May 6, 1965, "An act providing for preliminary studies of a toll crossing of, or the use of surface craft for the crossing of, San Francisco Bay, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The facts constituting such necessity are Increasing vehicular use and traffic congestion of existing bridge crossings of San Francisco Bay make it imperative that studies be made of the feasibility of constructing an additional toll crossing of, or the establishment and operation of surface craft transportation services across, said bay, and to finance such studies it is necessary that this act take effect immediately.

I therefore, recommend consideration of Senate Bill No 695, as amended May 6, 1965, as an emergency measure.

Respectfully submitted

EDMUND G BROWN, Governor

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 499.

State of California, Governor's Office
Sacramento, May 19, 1965

To the Honorable Members of the Senate and Assembly.

Senate Bill No. 499, as amended May 13, 1965, "An act to amend the title of Article 2 of Chapter 5 of Division 12, Sections 16645 2, 16645 9, 16645 11, 16645 12a, 16645.23, 16645 26, and 16645 28 of, and to add Sections 16645 1, 16645 29, and 16645 30 to, and to repeal Section 16645 1 of the Education Code, relating to development centers for handicapped minors, declaring the urgency thereof, to take effect immediately."

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The facts constituting such necessity are In order that the urgently needed programs for physically handicapped and mentally retarded minors provided for by this act may be established as soon as possible, and to permit any state financing provided for the 1965–66 fiscal year to be made available as early in that fiscal year as possible, it is necessary that this act take effect immediately

I, therefore, recommend consideration of Senate Bill No. 499, as amended May 13, 1965, as an emergency measure

Respectfully submitted

Urgency Clause

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No 1202

State of California, Governor's Office
Sacramento, May 24, 1965

To the Honorable Members of the Senate and Assembly

Senate Bill No 1202, "An act making an appropriation for payment of tuberculosis subsidies to counties and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill

The facts constituting such necessity are Due to the increase in tuberculosis cases requiring hospitalization, and to the fact that patients in recent years have developed immunities to the normal drugs used for treatment of tuberculosis and thus have required longer periods of hospital treatment, the estimates of the amounts needed by counties to maintain tuberculosis sanitoria have fallen short of the amounts actually needed, and the funds appropriated for such purpose have not been adequate This act will make up the deficiency In order that tuberculosis sanitoria may continue to operate and to provide services urgently needed by patients, it is essential that this act go into effect immediately

I, therefore, recommend consideration of Senate Bill No 1202 as an emergency measure

Respectfully submitted

EDMUND G BROWN, Governor
