REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr McCarthy was granted unanimous consent that the following communication be printed in the Journal

August 3, 1972

Mr Speaker: I ask unanimous consent to insert in the Assembly Journal a response by the San Francisco Registrar of Voters to the Report of the Subcommittee on the San Francisco Primary Vote printed in the Assembly Journal on July 19, 1972.

LEO T. McCARTHY

August 1, 1972

A Rebuttal to the Report of the Subcommittee on San Francisco Primary Vote, said Committee being composed of Assemblymen Paul Priolo and Robert W Crown

The Subcommittee on the San Francisco Primary Vote convened in San Francisco on June 20, 1972 and heard testimony from some ten witnesses From this testimony the said committee drew several erroneous conclusions—or commentaries—with which I am in total disagreement for the reasons outlined herein.

Item No 1 of the subcommittee report declares that the two new school boards (election of) should not have been consolidated with the primary election of June 6, 1972

This is an incredible comment Both legislators should be aware that these two offices were placed on the ballot through the efforts of the San Francisco electorate utilizing the grass roots initiative process 49,700 registered San Francisco voters put this measure on the November, 1969, ballot Appearing as propositions L and S, both carried with substantial margins Proposition S, the measure to elect the school board, contained the following language. ". . . commencing with a spe-

cial municipal election *to be consolidated with the direct primary in 1972, the members shall be elected at large . . .*" Proposition L, the measure to elect the members of the Community College contained a similar directive The decision to place these offices on the primary ballot of June 6, 1972 was made by the people The Registrar of Voters had no choice but to do so. In a democracy the will of the people is, and always should be, of paramount importance.

Items Nos. 3, 4 and 5 of the subcommittee's reports declares that

(a) it was known in late April that the machines could not carry the primary ballot, and

(b) the city was offered voting machines if the city would pay the costs of transportation, and

(c) the Registrar of Voters turned down these offers because he could not afford the cost of transportation, had no warehouse facilities, could not train his personnel and did not want to confuse the voters.

(d) election day was a mess.

Facts: As to (a) knowledge that the voting machines would not be able to carry the long ballot became evident about the 47th day before election day This is less than seven weeks before the day of election and an unreasonable time in which to arrange for the air freighting in of some 350 voting machines from points distant to the city of San Francisco. We could not have simply picked up a telephone and ordered some one to send such a huge shipment to us Arrangements are far more complicated than that

As to (b). The costs of transportation would have been at least $68,000 00 and possibly more. This figure would include the cost of returning the machines but would not have included the cost of renting a suitable warehouse, a further expense Adding to the consumption of time, these machines would have had to be compatible with our present machines, would have had to be tested and would have had to be programmed.

Such a huge sum of money was not available to the Registrar Expenditures of this nature are controlled by laws that established proper channels for appropriations Responsible legislative bodies do not blithely vote such sums without proper inquiry as to necessity and observance of the legal processes involved in such appropriation ordinances Only after we had been assured that the money was available could we have proceeded to indebt the city to that extent

As to (d) · I deny the existence of "an election day mess." The word "mess", to me, indicates chaos There was no chaos Admittedly there were lines but the lines moved in orderly fashion, the voters voted and the machines functioned I think the use of the word "mess" is, at best, an unfortunate choice of word

In view of the above mentioned obstacles, I am compelled to agree with the Registrar of Voter's decision not to import the machines on the basis of insufficiency of time to have them ready by election day

Item No 6 finds fault with the Registrar's decision not to use paper ballots and states such paper ballots should have been used

Fact: Even with the infallibility of hindsight I am glad that we did not attempt this activity. We did explore this means of voting and came

to the conclusion that result only in a total "mess" (as I defined "mess") on election day

Consider the obstacles presented by the use of paper ballots: The problem was enormous Where was the Registrar of Voters to find a thousand ballot boxes, two to three thousand voting booths, a printer who could have printed and delivered the vast amount of ballots, instructions, etc. within a couple of weeks, retrain some 3,000 or more polling personnel in the use of a system alien to them? All this, not to mention a concentrated campaign of educating the general voting public to a new system Worse still was the idea of using the voting machine for one portion of the ballot and paper ballots for the rest

Item No 7 avers that inadequate notice was given to the voters that there would be delays.

Fact: Nothing could be further from the truth than this statement! Our local newspapers, radio stations and television stations gave most generously of their time and space to us At least thirty days prior to election day the press, radio and television media began making known the fact of the long ballot and kept up reference to it until election day. I cannot praise our news media enough They were considerate, cooperative, and generous

Item No 9 comments on San Francisco's voter turn-out of 63%, 7% less than the state average This item alleges that such a turn-out would have been greater had the proferred machines or paper ballots been used

Fact: This is speculation Would it have been? Let us look at the facts of the past and recite the percentages of votes cast in primary elections in San Francisco in the last ten years:

June 6, 1972:	63 75%
June 2, 1970:	63 75%
June 4, 1968	74 06%
June 7, 1966.	63 80%
June 2, 1964:	71 40%
June 5, 1962.	62 93%

In view of the above statistics, it is evident that 63 75% is closer to the San Francisco norm than is the state-wide turn out figure.

It is my strong feeling that the subcommittee did not turn in a fair report on the primary election in San Francisco nor did it have a sound understanding of the situation confronting the Registrar. I feel this lack exemplified by its commentary in Item No. 1 of its report which blames the Registrar of Voters for not having moved the school board elections to another date when this action sprang from the sacred right of initiative which is reserved to the people by constitutional law.

MESSAGES FROM THE GOVERNOR

The following Messages from the Governor were received, and by unanimous consent, ordered printed in the Journal:

Veto Message—Assembly Bill No. 1805

Governor's Office, Sacramento
August 11, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No 1805 entitled, "An act to add Section 20024 2 to the Government Code, relating to the Public Employees' Retirement System."

This bill would permit individual contracting agencies under the Public Employees' Retirement System to elect the highest single year of compensation rather than the highest three year average as the basis for payment of retirement benefits for local safety members.

Final compensation computations in a multiple employer, multi-membership classification system, such as the Public Employees' Retirement System, must be uniform. Variations within the system can only create excessive administrative burdens and further aggravate the already complex problem of estimating and funding future benefits.

The present three year basis for computing retirement benefits already is a very liberal provision and I find no compelling evidence to support the need for a different method of computing benefits for a single category of employees.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

RECEIPT

I acknowledge receipt this 11th day of August, 1972, at 4:40 p.m. of Assembly Bill No. 1805, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Marian E Fort.

Veto Message—Assembly Bill No. 612 (Item Veto)

Governor's Office, Sacramento
August 11, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: Attached is a copy of my statement reducing the appropriation contained in Assembly Bill No. 612.

Assembly Bill No. 612 was filed with the Secretary of State today, and has been assigned Chapter No. 841.

Respectfully,

RONALD REAGAN, Governor

Governor's Office, Sacramento
August 11, 1972

I am reducing the appropriation contained in Section 2(b) of Assembly Bill No. 612 from $500,000 to $400,000.

The reduced appropriation reflects what I believe is an appropriate level of State support for Operation SHARE for 1973–74.

With the above reduction I approve Assembly Bill No. 612.

RONALD REAGAN, Governor

RECEIPT

I acknowledge receipt this 11th day of August, 1972, at 5·10 p.m. of the Governor's statement reducing the appropriation contained in Assembly Bill No. 612, delivered to me personally by Marian E. Fort.

Veto Message—Assembly Bill No. 615

Governor's Office, Sacramento
August 14, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 615 entitled, "An act to add Section 129 5 to the Business and Professions Code, relating to the Department of Consumer Affairs"

This bill would require that each board, bureau, commission and committee within the Department of Consumer Affairs, with the exception of the State Athletic Commission and the State Board of Guide Dogs for the Blind, shall publish and mail a newsletter at least twice a year to each licentiate or to each business establishment licensed by the board, unless the board determines that there has been no change in any law or regulation since the previous newsletter, in which case the newsletter shall be published at least once a year.

While I agree that a need exists to give greater publicity to the work of the agencies within the Department of Consumer Affairs, I feel that this only can be accomplished by giving the department, itself, the responsibility and authority for developing an overall information program, with sufficient flexibility to provide pertinent and timely information, not only to licensees, but to the general public as well

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

RECEIPT

Veto Message—Assembly Bill No. 1411

Governor's Office, Sacramento
August 14, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning, without my signature, Assembly Bill No. 1411 entitled, "An act to amend Section 14131 of the Welfare and Institutions Code, relating to Medi-Cal "

Under the current law regarding the Medi-Cal Program, no supplemental benefit can be utilized until the corresponding basic benefit has been exhausted. AB 1411 provides an exception to this requirement. Under AB 1411, physician visits allowed under the supplemental schedule of benefits, or extended treatment plans allowed pursuant to Section 14133 1 of the Welfare and Institutions Code, can be utilized without exhausting the corresponding basic benefits

This bill would significantly diminish the utilization control, for physicians' services as well as other services, covered by the basic schedule of benefits, contained in the Medi-Cal Reform legislation I signed in 1971. In my opinion, no compelling reason exists to lessen the existing utilization controls on these services.

Accordingly, I am returning the bill unsigned.

Respectfully,

Veto Message—Assembly Bill No. 205

Governor's Office, Sacramento
August 15, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill 205 entitled, "An act to amend Sections 634 5, 976 7, 2602, and 2606 of, to add Sections 611, 612, 613, 614, and 995 to, and to repeal Sections 625, 626, 627, and 628 of, the Unemployment Insurance Code, relating to unemployment insurance "

Assembly Bill 205 would extend unemployment insurance to agricultural laborers on a mandatory basis rather than a voluntary basis

I regret that I must again veto legislation which would provide California's full-time agricultural workers with the same measure of protection enjoyed by other workers. The inequities which would be created by this legislation, however, far overshadow the inequities which now exist.

The major problem with this bill is the tremendous economic disadvantage which would be created for California agriculture in competing with farm products from states which pay lower wages and provide little or no protection to their farm laborers

Passage of Assembly Bill 205 would cost California's employers approximately $66 million, of which only $32 million would be paid by the agricultural industry The remaining $34 million would have to come from nonagricultural employers. A huge deficit would be created in the Unemployment Insurance Fund which would have to be made up through increased unemployment insurance rates.

Assembly Bill 205 does not contain a realistic definition of an agricultural worker who is actively in the labor force Thus, a worker need only be employed for about one peak month out of a year to make him eligible to draw unemployment compensation This is not the purpose for which the Unemployment Insurance Fund was created

I am encouraged that action will soon be taken at the federal level which will provide coverage for all full-time agricultural workers, regardless of whether they work only in one state or follow the crops in several states, as many farm laborers do President Nixon's administration has conducted a study on the feasibility of unemployment insurance coverage for agricultural workers, and I understand this study will be used as the basis for introduction of federal legislation in the near future In the meantime, California's own State Board of Agriculture is exploring the feasibility of state legislation which would not create the problems inherent in Assembly Bill 205

I would suggest to all members of the farming community—employers and workers alike—that they urge their Congressional representatives to support federal legislation to provide our agricultural labor force with this important protection on an equitable and nation-wide basis

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 569

Governor's Office, Sacramento
August 15, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 569 entitled, "An act to add Section 21023 6 to the Government Code, relating to disability retirement."

This measure would remove from the Public Employees' Retirement System the responsibility for determining the issue of disability retirement for local safety members.

Assembly Bill 569 will result in differing standards for disability within the System for each contracting employer and between miscellaneous and safety members under the same employer. It will also preclude a member retired for disability from being reinstated by the State or any other contracting employer unless the original employer agrees to the reinstatement.

The determination of eligibility for any benefit should rest with the agency responsible for its payment, in this case the Public Employees' Retirement System.

Accordingly, I am returning the bill unsigned

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 699 entitled, "An act to add Section 201.5 to the Elections Code, relating to voter registration."

This measure provides that high schools must permit voter registration during non-class hours on school premises.

School authorities should retain the power to control the uses to which school property may be devoted, and the activities which occur thereon so that the school can properly function without interference.

The law currently permits voter registration on high school campuses, but leaves to the principal the discretion to determine the time and place of such registration. In this way the appropriate school functions are not impeded. I want to emphasize that I am totally in favor of all young people 18 and over, exercising their franchise rights. Current voter registration laws adequately permit them to do so.

Accordingly, I am returning the bill.

Veto Message—Assembly Bill No. 783

Governor's Office, Sacramento
August 15, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 783 entitled, "An act to add Chapter 8 (commencing with Section 21200) to Division 8 of the Business and Professions Code, relating to skiing safety."

Assembly Bill 783 would create a 12 member council to promote skiing safety

I have already approved four bills introduced by the author of this measure which

extends the jurisdiction of the Division of Industrial Safety to regulation of aerial passenger tramways including ski lifts;

requires the division to promulgate and publish safety orders directing owners and operators of aerial tramways and ski lifts to report known incidents of personal injuries;

requires the division to establish standards of qualifications for persons engaged in the operation of aerial passenger tramways and ski lifts and that such standards be consistent with the general objective of providing for the safety of members of the public who use aerial tramways and ski lifts; and

requires the division to inspect aerial tramways and ski lifts twice each year, one of which shall be made during the skiing season.

I can find no justification to create a council which will duplicate responsibilities just placed in the Division of Industrial Safety.

Accordingly, I am returning the bill unsigned.

Governor's Office, Sacramento
August 15, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No 1158 entitled, "An act to add Sections 1162 7 and 1302 5 to the Education Code, relating to school district elections "

Assembly Bill 1158 would prohibit a school district bond election or special election to fill a vacancy on a school district governing board from being held except in conjunction, or in consolidation, with a school district election or a regular state or municipal election This bill is limited to school district territory in which a regular state or municipal election is held at least once a year, and which is located in Los Angeles County

I am aware that Assembly Bill 1158 is intended to solve problems relating to the costs of elections affecting the Los Angeles Community College District. However, the bill creates far more problems than it solves. I have been advised by the Office of the Los Angeles County School Superintendent, the California School Boards Association, and the Los Angeles County Registrar of Voters that this bill would create a number of serious problems for many of the school districts in Los Angeles County I share their concern in this matter.

Accordingly, I am returning the bill unsigned

Greetings: I am returning without my signature Assembly Bill No 1379 entitled, "An act to add Section 14002 to the Education Code, relating to the State Teachers' Retirement System, and declaring the urgency thereof, to take effect immediately "

This measure would permit a single individual who earned full credit in the Public Employees' Retirement System as a full-time city

director of Public Health to gain additional retirement credit in the State Teachers' Retirement System for adult education service

Both the State Teachers' Retirement System and Public Employees' Retirement System laws expressly prohibit a member from earning more than one year of service credit during one year There appears to be no justification for placing one person in a privileged position with respect to all other members of our two major State retirement systems.

Accordingly, I am returning the bill unsigned.

August 15, 1972

The Honorable Member of the Assembly
State of California
State Capitol, Sacramento, California

Greetings- I am returning without my signature Assembly Bill No. 1541 entitled, "An Act to amend Section 8 of the Health and Safety Code, relating to writings "

This bill would require, in counties in which a significant number of the population, as determined by the county clerk, does not read English, that the local health department make copies of all circulars and pamphlets relating to family planning which are made available to the public also available in such other language or languages which such significant number of the population reads

While I agree that a need exists to make family planning information available to all segments of our society who desire it, I cannot approve a measure which, in addition to mandating cost on local government, is vague and confusing

I would not object to approving a measure which would provide this type of authority to local government on a permissive basis

The Honorable Members of the Assembly

Greetings: I am returning without my signature Assembly Bill No. 2229 entitled, "An act to add Section 25254 to the Vehicle Code, relating to lighting equipment."

This measure authorizes the display of flashing amber warning lights to the rear by any publicly owned vehicle operated by peace officer personnel of a marshal's department when necessarily parked upon a highway pursuant to carrying out the orders of any court.

The present practice of restricting the use of such lights to those types of vehicles which constitute a traffic hazard has maintained the integrity of this type of warning device. Recent studies have shown that indiscriminate use of flashing lights adds to congestion and confusion In considering the duties performed by municipal court marshals, the need for such devices does not appear justified.

Greetings· I am returning without my signature Assembly Bill 1419 entitled, "An act to amend Section 25502 5 of, and to add Section 25502 6 to, the Education Code, relating to community colleges "

This bill would delete the authority of the community colleges to charge tuition to certain students between the ages of 18 and 21.

This bill is intended to reverse the effect of legislation enacted last year which reduced the age of majority from 21 to 18 One result of that legislation was to permit the community colleges to charge tuition to student over 18 instead of 21

There is no urgency surrounding this measure I have already approved legislation which stays the authority of the community colleges to charge tuition to the 18 to 21 age group until May 1, 1973, thereby

allowing additional time to review this matter together with other educational reform issues in community college programs

Greetings I am returning without my signature Assembly Bill No 1681, entitled, "An act to add Section 11019 to the Welfare and Institutions Code, relating to public assistance "

This measure would require the State to maintain its current level of public assistance to adult recipients if federal law is amended to set minimum grants for such recipients

This legislation is premature I believe that it is advisable to defer action on proposals of this type pending the outcome of federal welfare reform legislation so that all options and alternatives available to California will be known

The Honorable Members of the Assembly

Greetings. I am returning without my signature Assembly Bill No 586 entitled, "An act to amend Section 13525 of the Education Code, relating to teachers' salaries."

This bill would increase the minimum salary for a beginning teacher from $6000 to $7200 effective July 1, 1973

Assembly Bill 586 would mandate increased costs on some school districts and would trigger additional pressure for salary increases at all levels at a time when school districts are faced with financial crises

In addition, I believe that the subject of teachers' salaries is a matter that should be decided by local school districts and not the Legislature Individual school districts should be able to adjust their salary schedules to meet recruitment problems and their individual financial resources

August 16, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1028 entitled, "An act to add Section 22810 1 to the Government Code, relating to state employees"

Assembly Bill 1028 would permit a retired employee to enroll in a Meyers-Geddes Health Benefits Plan effective July 1, 1973, or at an earlier date as may be fixed by the Public Employees' Retirement System Board.

This bill would establish an open enrollment period for those retired employees who do not currently participate in the program because they failed to do so when they were eligible or because they voluntarily terminated their health plan subsequent to retirement

An employee is allowed to choose at the time of retirement whether he desires to continue a health plan after retirement It would be inappropriate to allow a retired employee to enter and later drop health plan coverage at his or her option each time there is an open enrollment period This would cause higher premium costs to both active and retired employees

Under the law, an employee cannot change his retirement benefit option program after he makes a choice The choice a retiring employee makes regarding his health plan coverage is no different than the survivor benefit options he chooses

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 2358

Governor's Office, Sacramento
August 16, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 2358 entitled, "An act to add Article 3 (commencing with Section 51350) to Chapter 1, Part 2, Division 1, Title 5 of the Government Code, relating to counties and cities."

This bill would provide that the County of Los Angeles in providing contract or authorized services to any city in the county may only charge the city for additional costs incurred in providing the service. The measure further provides that the county shall not charge a contract city for any portion of costs which are for services made available to all portions of the county.

There is considerable equity supporting the position of the contract cities in seeking enactment of this legislation. However, it would mark the first legislative intrusion by the state into the contractual relationship between the cities and the county involved These contractual negotiations should ideally be a matter of local government policy without interference by the state.

As part of a review of this bill, I have contacted the appropriate county officials. I was assured they will reopen the entire question of overhead costs being included in contracts between cities and the county for the provision of municipal type services to eliminate inequitable charges to contract cities paid for through county taxes. If such efforts on the part of the contract cities and the county to resolve this problem are not successful during the next few months, it may then be necessary for the state to enter this field through the passage of appropriate legislation

Accordingly, I am returning the bill unsigned.

Greetings· I am returning without my signature Assembly Bill No 52 entitled, "An act to add Sections 4811, 4812, 4813, 4814, and 4815 to the Labor Code, relating to workmen's compensation."

Assembly Bill 52 would provide that employees of the Department of Alcoholic Beverage Control who are peace officers are entitled, under specified conditions, to a leave of absence without loss of salary while disabled from injury arising out of his duties

In vetoing this bill, I am not making a judgment concerning the merits of this particular proposal I believe that piecemeal extension

of special benefits should be halted and a new look taken at the rationale for establishing employee benefits in state service

It is my belief that entitlement qualification for this type employee benefit, of which this proposal is only one of many pending before the Legislature should be based on need and should be at an equitable level for all state employees

At my direction, the Secretary of Agriculture and Services has been conducting a study into all types and levels of employee benefits Under his direction, a task force is currently developing information and recommendations which will result in legislative proposals at the next session of the Legislature

I shall await the outcome of that study before approving any legislation which extends further special benefits to one group of employees while others are ignored

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 305

Governor's Office, Sacramento
August 17, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 305 entitled, "An act to amend Section 4709 of, and to add Sections 4836, 4837, 4838, 4839, and 4840 to, the Labor Code, relating to law enforcement personnel "

Assembly Bill 305 would include dependents of "law enforcement" class officers and employees of Department of Corrections and Department of Youth Authority who are killed or totally disabled in performance of their duties and was caused by the direct action of inmate or accomplice of inmate within class of dependents eligible for specified scholarship benefits at certain colleges in state

Although I am unable to approve this bill, I have no objection to that portion of the measure relating to scholarship benefits nor am I making judgment concerning the merits of disability leave of absence However, I believe that piecemeal extension of special benefits should be halted and a new look taken at the rationale for establishing employee benefits in state service

It is my belief that entitlement qualification for this type employee benefit, of which this proposal is only one of many pending before the Legislature, should be based on need and should be at an equitable level for all state employees.

At my direction, the Secretary of Agriculture and Services has been conducting a study into all types and levels of employee benefits Under his direction, a task force is currently developing information and recommendations which will result in legislative proposals at the next session of the Legislature

I shall await the outcome of that study before approving any legislation which extends further special benefits to one group of employees while others are ignored

Accordingly, I am returning the bill unsigned.

Respectfully,

Veto Message—Assembly Bill No. 272

Governor's Office, Sacramento
August 17, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings. I am returning without my signature Assembly Bill No. 272 entitled, "An act to add Section 7503 to the Education Code relating to educational programs"

This bill would give school district governing boards the power to initiate and carry on any educational program which is consistent with the laws and purposes for which school districts are established The bill would become operative upon approval of Assembly Constitutional Amendment No 26 by the voters in November

In my State-of-the-State Message this January, I deplored the number of mandates and directives contained in our Education Code At present, our school districts not only must operate under an almost infinite variety of detailed statutes, but are now prohibited from doing anything the Education Code does not allow

The need for simplification should not, however, lead us to rush to another extreme The balance between clear enunciation of statewide policy of maximum flexibility and local control in the school districts, on the other, is not easily achieved I do not believe that the approach which is proposed in AB 272 gives adequate consideration to this delicate balance. Further, the Joint Legislative Committee for Revision of

the Education Code is meeting at this very moment and will provide a more realistic solution to the problem

Accordingly, I am returning the bill unsigned.

Greetings. I am returning without my signature Assembly Bill No. 483 entitled, "An act to amend Sections 12822, 12823, 12826, and 12848 of, and to add Sections 12821 5 and 12821 7 to, the Education Code, relating to school testing."

Among other matters mandated, AB 483 would delete the authority of the State Board of Education to designate scholastic aptitude tests to be used in a school testing program; it deletes from definition of a testing program, scholastic aptitude testing, and deletes average scholastic ability from factors to be included in required annual testing program reports to the Department of Education.

In addition, the bill would prohibit school districts from administering to pupils in the district any group standardized test, or any other test, which measures or attempts to measure the scholastic aptitude of pupils.

This bill represents a direct challenge to the authority and competence of the State Board of Education and local school boards to determine policies and the implementation of policies insofar as scholastic aptitude testing is concerned In addition, it would eliminate the very methods which may be used to find individuals who have the ability to learn but who have not been discovered

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 4

Governor's Office, Sacramento
August 17, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 4 entitled, "An act to amend Sections 201 and 14217 of the Elections Code, relating to instructions to voters"

This bill would mandate the appointment of foreign-language-speaking election officials in precincts with a substantial number of persons whose native language is other than English

I cannot approve this measure because it is unnecessary and unworkable and would result in abuses in polling practices

This bill is unnecessary for several reasons. first, existing law already permits any person to bring his own interpreter if he feels that he is not sufficiently proficient in the English language to cast an intelligent vote, and secondly, the law does not prohibit the appointment of foreign language speaking registrars by local county clerks.

In addition to being unnecessary, the bill is unworkable because it is vague in at least two important areas It would require county clerks to appoint foreign speaking election officials where there is a "substantial number" of persons whose native language is other than English without defining what is a "substantial number", and secondly the requirement that "substantial" be based on "native language" has no relationship to the ability of these persons to read or write English

The provision requiring recruitment of election officials by such media as newspapers, radios and television can only result in extensive additional costs to the taxpayers.

Finally, if the county clerks were able to spend the funds necessary to determine on a precinct by precinct basis that a "substantial" number of voters exists whose native language is other than English, recruit and pay for additional interpreters, the bill lacks the protection necessary to insure that these interpreters will not influence the voters at the polls.

Accordingly, I am returning the bill unsigned.

August 17, 1972

The Honorable Members of the Assembly

State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 252 entitled, "An act appropriating funds for increases in compensation for academic, and instructional and instructional-related employees of public higher educational institutions, and declaring the urgency thereof, to take effect immediately."

This bill would appropriate $21,607,320 from the General Fund for increases in compensation for academic, and instructional and instructional-related employees of the University of California and the California State Colleges.

I have already provided $35,165,000 in the 1972 Budget Act for a 7½% across-the-board increase and an additional 1 45% in inequity adjustments for these faculty and related positions. The budgeted amount has already provided substantial salary inequity relief for this group of employees and the increases contained in this bill would greatly exceed the salary treatment provided for other employee groups In addition Assembly Bill 252 would provide a 5½% increase which is 1½% above the amount recommended by the Coordinating Council for Higher Education.

I have already stated that I am planning to budget funds in 1973–74 to correct remaining salary inequities for all employee groups This two-year approach is designed to provide equitable treatment for each of the State's employee groups, and recognizes the practical limitations on salary increases which result from the Federal Pay Board regulations.

Accordingly, I am returning the bill unsigned.

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No 1562 entitled, "An act to add Section 602 5 to the Code of Civil Procedure, relating to selecting jurors"

This bill would require that a court shall permit the reasonable examination of prospective jurors by counsel for both parties.

The California Rules of Court were amended effective January 1, 1972 to provide for judge-conducted examinations of prospective jurors in civil cases. This rule change was endorsed by the State Bar of California

No valid reason has been presented to support a change in a procedure that has speeded up the selection of jurors in civil cases There is clear evidence of substantial support from the legal community for the present procedure. Preliminary studies of the Judicial Council and the State Bar indicate that over 70 percent of the California attorneys surveyed believe that the present rule is both time-saving and fair to both sides

Accordingly, I am returning the bill unsigned.

Governor's Office, Sacramento
August 17, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: Attached is a copy of my statement reducing the appropriation contained in Assembly Bill No 262

Assembly Bill No 262 was filed with the Secretary of State today, and has been assigned Chapter No 1023.

Respectfully,

RONALD REAGAN, Governor

Governor's Office, Sacramento
August 17, 1972

I am reducing the appropriation contained in Section 3 of Assembly Bill No. 262 from $5,020,000 to $20,000 by deleting the $5,000,000 appropriation contained in Section 3 (a) of the bill

The reduced appropriation will be sufficient to provide start-up costs to develop the appropriate administrative controls for new and expanded methadone maintenance programs

Additional funding will be earmarked for this program when SB 714, a comprehensive drug abuse prevention plan, is finally passed. It

is my expectation that with the additional funding provided in SB 714 and the administrative mechanism provided for by AB 262, the program set up by this bill will be able to operate to its fullest potential.

With the above reduction, I approve Assembly Bill No. 262

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 278 entitled, "An act to add Sections 301 1 and 407 1 to the Streets and Highways Code, relating to state highways "

This measure would preclude the construction of any portion of State Highway Route 1 as a freeway or expressway within the city limits of Lomita The bill would also delete State Highway Route 107 from the California freeway and expressway system

That portion of Route 1 which this bill would direct not be constructed as a freeway was deleted from the freeway and expressway system by Senate Bill 1087 (Chapter 782)

Route 107 represents the only north-south corridor between the Santa Monica-Hawthorne area and the Palos Verdes Hills area to the south As evidenced by House Resolution 97, we are in agreement that a thorough study should be conducted in cooperation with the cities and counties involved in the Route 107 corridor I do not believe that the route should be removed from the freeway and expressway system until a study is completed so that all transportation options can be considered

Accordingly, I am returning the bill unsigned

This bill would establish a procedure for the removal of inaccurate or non-factual information from written records of public school pupils

I am objecting to this bill solely because it contains certain technical defects I agree that there is a need for a procedure to facilitate the removal of incorrect information from a pupil's school record I have asked my staff to provide any assistance required by the author to insure early passage of such legislation

The Honorable Members of the Assembly

Greetings I am returning without my signature Assembly Bill No 584 entitled, "An act to add Section 425 1 to the Streets and Highways Code, relating to state highways "

I am not approving this bill because the deletion of this route from the California freeway and expressway system is premature. The San Diego Comprehensive Planning Organization is coordinating a study with the Southern California Association of Governments and the Department of Public Works to study a new transportation corridor between the Los Angeles and San Diego metropolitan areas. The proposed routing of Route 125 is within the corridor limits

This deletion is opposed by the only directly affected local agency, the San Diego County Board of Supervisors.

No action should be taken deleting Route 125 until the comprehensive study is completed and the total transportation needs of the area are determined.

Accordingly, I am returning the bill unsigned.

This bill would establish and appropriate $50,000 for a pilot project in Ventura County to study the feasibility of providing a single community services worker as the primary contact for a family requiring various social services

Contra Costa County has recently completed a study with a similar objective to that contained in this proposal The Contra Costa study should be examined in terms of its applicability to Ventura County before State funds are authorized for further pilot projects

The Honorable Members of the Assembly
State of California

Greetings I am returning without my signature Assembly Bill No. 1405 entitled, "An act to amend Section 673 of the Insurance Code, relating to premium financing"

This bill would permit an individual when purchasing insurance to orally authorize the execution on his behalf of a premium finance agreement, including execution of power of attorney to cancel the insurance on behalf of the insured.

Existing law requires a purchaser to personally sign the premium finance agreement. This provides him with the opportunity to read and discover all of the terms of the finance agreement. Approval of this measure could result in the purchaser being committed to a premium financing agreement without full knowledge of its terms I am concerned with the possible adverse effect this could have on the purchaser of insurance.

Accordingly, I am returning the bill unsigned.

Governor's Office, Sacramento
August 25, 1972

The Honorable Members of the Assembly

Greetings I am returning without my signature Assembly Bill No. 271 entitled, "An act to add Chapter 22 (commencing with Section 9998) to Division 3 of the Business and Professions Code, and to repeal Title 1 5 (commencing with Section 1750) of Part 4 of Division 3 of the Civil Code as added by Chapter 1348 of the Statutes of 1970, relating to consumer reporting agencies"

This bill would replace the existing Consumer Credit Reporting Act and create a new system for regulation of credit reporting agencies

AB 271 duplicates the Fair Credit Reporting Act and adds no new protection for California consumers over that already provided by federal law I have no evidence that the federal law is not being observed

by California credit reporting agencies or that California consumers lack an adequate remedy when aggrieved I am advised that many consumer complaints involving credit reporting problems are not within the scope of the federal law or this proposal

Duplication of the federal law may well result in serious conflicts in interpretation between the Federal Trade Commission, the agency charged with administration of the Fair Credit Reporting Act, and California officials responsible for enforcement of the State law California citizens would be confused as to which is the proper agency to turn to for either interpretation or enforcement

I believe that the greatest service to consumers would be to make them more aware of their rights already granted under the Fair Credit Reporting Act. I am requesting the Department of Consumer Affairs to assist in the promotion of this information.

Accordingly, I am returning the bill unsigned.

August 25, 1972

The Honorable Members of the Assembly

Greetings· I am returning without my signature Assembly Bill No. 375 entitled, "An act to add Section 11555 5 to the Government Code, to add Title 6 (commencing with Section 13800) and Title 6 5 (commencing with Section 13800) to Part 4 of, and to repeal Title 6 (commencing with Section 13800) of Part 4 of, the Penal Code, relating to criminal justice."

This bill would reconstruct the California Council on Criminal Justice from a 30 member representative panel to a full-time, five-member paid board.

Under AB 375, the California Council on Criminal Justice would lose its important quality of local and regional representation It would no longer be possible to benefit from the advice of such a divergent and experienced body

The California Council on Criminal Justice, operating under the authority of the Law Enforcement Assistance Administration (LEAA), of the U S. Department of Justice, must conform to federal standards which require balanced representation of state and local law enforcement agencies, local government, juvenile delinquency officials, and community interests.

The State has been advised by the LEAA that AB 375 would not be in conformity with these standards It is essential to the success of the California Council on Criminal Justice that a broad involvement with local and regional law enforcement be maintained.

Accordingly, I am returning the bill unsigned.

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 680 entitled, "An act to amend Sections 11155 and 11157 of the Welfare and Institutions Code, relating to public social services"

This bill would provide that retroactive aid payments received as lump sum payments are to be completely disregarded for purposes of determining welfare eligibility or the amount of the welfare grant

Currently lump sum payments are considered as a resource to the recipient and are subject to personal property limitations Under AB 680 these limitations would be circumvented and such payments would constitute a windfall regardless of the amount or the circumstances under which the payments are made

Provisions of this bill are too broad and create loopholes whereby recipients could create a permanent windfall for themselves by delaying the eligibility process or deliberately withholding information to cause an underpayment This violates the spirit in which welfare is provided and would be unfair to the taxpayers who support the program.

Accordingly, I am returning the bill unsigned.

Greetings: I am returning without my signature Assembly Bill 684 entitled, "An act to add Title 6 5 (Commencing with Section 13900) to Part 4 of the Penal Code, relating to local criminal justice planning."

This measure would authorize the establishment of local criminal justice planning districts and boards.

AB 684 would create serious problems by its lack of compliance with federal standards. Under federal law, the State of California must develop and follow a comprehensive *statewide* plan for the improvement of the criminal justice system Establishing local planning districts without any contact with regional and statewide planning design would further fragment our concepts of regional justice planning.

The bill would also establish each individual county as the basic planning district. However, it would freeze the number of planning districts at 21, the number which is currently utilized by the California Council on Criminal Justice.

There is no need to replace or duplicate the functions currently being served by the 21 regional planning districts. Operating under the authority of the California Council on Criminal Justice, there is sufficient internal control to insure uniform implementation of statewide policies This bill would fragment and confuse existing responsibilities and objectives.

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 885

Governor's Office, Sacramento
August 25, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings. I am returning without my signature Assembly Bill No. 885 entitled, "An act to add Sections 14613 2, 21294 1 and 31721 5 to the Government Code, relating to disability retirement."

This bill would provide that any person with eight or more years of service as a local police officer is eligible for any entrance examination for the position of state policeman until age 47.

It would require a retirement board of a retirement system established pursuant to the County Employees' Retirement Law of 1937 to file a disability retirement application for a safety member who is also a department head under specified circumstances

The bill would also add an additional 25 percent of final compensation to the present allowance of 50 percent of final compensation for local safety members retired for industrial disability. This increased benefit (which is in addition to Workmen's Compensation payments) would be optional to local agencies under the Public Employees' Retirement Law.

The author has requested this bill be vetoed I would have taken this action without such a request I object to each of the changes proposed by Assembly Bill 885.

Two last-minute amendments were added to the bill on the Senate floor These "special interest" amendments should have the benefit of further legislative scrutiny.

I am also concerned with the provisions relating to increased disability retirement benefits for local safety members of the Public Employees' Retirement System

Any improvement in industrial disability allowances should be accompanied by extension of the earnings provision now applicable to nonindustrial disability allowances, and should apply uniformly to all safety members

Accordingly, I am returning the bill unsigned.

Greetings I am returning without my signature Assembly Bill No. 1036 entitled, "An act to add Sections 31760 2, 31765 2, 31781 4, and 31785 1 to the Government Code, relating to county employees' retirement."

Assembly Bill 1036 would provide for an increase in survivor continuance benefits from 60 percent to 75 percent of the allowance the member would have received for disability retirement under the County Employees' Retirement Law. This increase would be at the option of each board of supervisors.

This increased benefit would increase the disparity between retirement systems operating under the County Employees' Retirement Law and those local agencies contracting with the Public Employees' Retirement System (PERS) The allowance under the latter system in similar circumstances is 50 percent of the member's allowance

Passage of this legislation would create pressure to increase the allowance under PERS which would affect not only local agencies but state government as well

A comprehensive study of state employee benefits, including survivor allowances, is currently underway. Approval of this bill should be deferred until the results of the study are evaluated.

Accordingly, I am returning the bill unsigned.

Greetings: I am returning without my signature Assembly Bill No 1162 entitled, "An act to amend Section 75033 of, and to add Section 75033.5 to, the Government Code, relating to the Judges' Retirement Law."

This bill would provide an alternative deferred retirement benefit for judges leaving the bench at any time prior to age 70 with at least 10 years of service The benefit would be computed on the basis of 3.75 percent of salary per year of judicial service not to exceed 20 years or 75 percent. The surviving spouse of the member would receive 50 percent of the unmodified allowance.

The improved deferred retirement and survivor benefits proposed by Assembly Bill 1162 are not consistent with the development of benefits in the other state retirement systems The 75 percent of compensation with 20 years of service along with a one-half unmodified survivors allowance provides a retirement benefit which is significantly

higher than in other retirement systems The Judges' Retirement System is an unfunded system Without an increase in the judges' retirement contributions, the cost of providing these improved benefits will be passed directly to the general taxpayer

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 1187 entitled, "An act to amend, repeal, and add Sections 6316 and 6326 of the Welfare and Institutions Code, relating to mental health "

This bill would require the release of mentally disordered sex offenders from prison confinement if they would not benefit from care and treatment, when and if their previously suspended prison sentences would have elapsed.

Since many mentally disordered sex offender cases are commenced through misdemeanor convictions, these men could only be held in a prison setting for one year This bill would also provide that the person so released would be civilly committed under the provisions of the Lanterman-Petris-Short Act, should he still constitute a danger to others

By virtue of the fact that a mentally disordered sex offender has demonstrated his criminal tendencies, a purely civil commitment would be inappropriate Persons who cannot benefit from care or treatment constitute far too great a threat to community safety to allow their confinement in a civil facility

Accordingly, I am returning the bill unsigned

Veto Message—Assembly Bill No. 1393

Governor's Office, Sacramento
August 25, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill 1393 entitled, "An act to amend Section 18021.7 of the Government Code, relating to fire suppression employees."

This bill would provide for a reduction of the work week for fire suppression classes in the Division of Forestry from 84 to 80 hours.

The basic mission of the Division of Forestry is wildland fire control This mission is seasonal in nature, approximately 80 percent of the division's fire suppression personnel presently work an 84 hour week during fire season and a 40 hour week during the non-fire season The fire season lasts an average six to seven months a year These employees work a yearly average duty week of approximately 62 hours. The 62 hour duty week compares favorably with prevailing practices in other fire departments.

The cost of implementing this legislation would be $1,800,000 Since this bill carries no appropriation, it would be necessary for the Division of Forestry to redirect funds from their other programs to meet these costs. This would significantly reduce the forest fire control effectiveness of the Division of Forestry.

There is a further cost to local county government of $450,000 for fire protection services provided by the Division of Forestry under contracts currently in force.

Accordingly, I am returning the bill unsigned.

Respectfully,

Greetings: I am returning without my signature Assembly Bill No 1414 entitled, "An act to amend Section 14124 3 of, and to add Section 14119.5 to, the Welfare and Institutions Code, relating to public social services."

This bill would remove the requirement for prior authorization for nursing homes It would also remove the present requirement to obtain prior authorization for extended lengths of stay in acute hospitals.

The measure would effectively eliminate necessary utilization control in that the Medi-Cal Consultant would not be permitted to deny payment for the first five days of care in nursing homes

Regulations require an additional 15 days notice before payments to a nursing home can be discontinued. Once an appeal has been filed, payments for nursing home services cannot be discontinued until a hearing has been held and a decision adopted by the Director.

Thus the state would be required to pay for an extended period of care that may or may not be medically indicated The present law prevents this from occurring, and proper medical care is not denied under the program

Accordingly, I am returning the bill unsigned.

This bill would revise the membership of the Board of Administration of the Public Employees' Retirement System (PERS) It would, among other things, remove the Director of Finance from the Board of Administration

I agree there is a need to restructure the PERS Board of Administration However, I object to the removal of the Director of Finance from the Board The Director of Finance is the only board member conversant with the state's fiscal policies To eliminate the one member with such broad knowledge of state finances does not appear to be in the best interest of the Public Employees' Retirement System.

Greetings: I am returning without my signature Assembly Bill No. 1614 entitled, "An act to amend Section 19630 of the Business and Professions Code, relating to fairs."

The bill would increase the continuing appropriation for capital outlay for fairs from $2,250,000 to $4,000,000 annually.

I have asked the Director of Agriculture to work with the fair industry to implement the recommendations of the Little Hoover Commission to develop criteria for determining the fairs' need for financial assistance from the state.

The director has appointed a committee composed of fair directors and fair managers to assist in developing these criteria and to consider the other recommendations of the commission.

It would not be appropriate to increase the amount of capital outlay funds to the fairs before the work of this committee is completed.

Greetings: I am returning without my signature Assembly Bill No. 2102 entitled, "An act to amend Section 274c of the Code of Civil Procedure, relating to court reporters."

This bill would require municipal courts to provide court reporters to report municipal court proceedings

This bill would require, with certain specified exceptions, that all municipal court proceedings be reported by a court reporter if requested by either party.

AB 2102 would substantially increase the cost of providing municipal court services without any clear showing of need for a reporter's record in such proceedings The County Supervisors Association has advised me that the added county costs could be as high as $2 million annually if this bill were approved.

The Judicial Council of California objects to the bill because of its excessive cost and the limitations it imposes on the form in which municipal court proceedings can be reported. I share the concerns expressed by the County Supervisors Association and the Judicial Council

Greetings I am returning without my signature Assembly Bill No 31 entitled, "An act requiring the Department of Navigation and Ocean Development to enter into an agreement with the City of Avalon for the construction or modification of a steamer pier "

This bill would require the Department of Navigation and Ocean Development to enter into an agreement with the City of Avalon for construction or modification of a steamer pier within Avalon harbor, subject to certification by the Director of Finance that the city is financially capable of repaying a specified loan.

The agreement required by this bill circumvents existing statutory provisions relating to economic and engineering feasibility considerations I am unaware of any compelling reason to place this project above those with established higher priorities

The Department of Navigation and Ocean Development already is working closely with the City of Avalon to realize the full benefits of harbor improvement projects constructed with $2 5 million in loans from the State Harbors and Watercraft Revolving Fund Additionally,

the Department has provided the city with an emergency storm damage loan to repair recent damage in the harbor.

August 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 90 entitled, "An act relating to the study of amphetamines."

Assembly Bill 90 would direct the Board of Medical Examiners of the State of California, the State Board of Pharmacy, the State Department of Public Health, and the Department of Justice to jointly form a panel to conduct a study on use of amphetamines in California and report its findings and recommendations for controlling amphetamine prescription practices to the Legislature on or before July 1, 1973

Although I concur with the author's intended objective, I cannot approve this measure because (1) It would duplicate the efforts being made by federal studies currently in progress, and (2) Existing programs already address themselves to the problem of amphetamine prescription practices.

Both the State Board of Pharmacy and the Office of Narcotics and Drug Abuse monitor this area The State Board of Pharmacy has recently received funds from the California Council on Criminal Justice to develop an electronic data processing system which will allow monitoring the flow of such drugs from the manufacturers, via distributors, wholesalers, and pharmacies to the consumer.

In addition to these efforts, recent federal legislation provides for substantial reduction in the production of amphetamines by manufacturers beginning this year Therefore, such a study would be of more value if deferred until the impact of the production cut can be assessed.

Accordingly, I am returning the bill unsigned.

The Honorable Members of the Assembly

Greetings: I am returning without my signature Assembly Bill No. 592 entitled, "An act making an appropriation for overtime for state employees"

The bill would appropriate $750,000 for overtime worked by Department of Youth Authority employees between July 1, 1969, and June 30, 1971.

Litigation is currently pending in both federal and state courts on the issue of payment of overtime to Youth Authority employees pursuant to the provision of the Fair Labor Standards Act.

I believe that Assembly Bill 592 is premature If the pending suits can be satisfactorily resolved, I will ask the author of this bill to introduce urgency legislation to contain whatever appropriation may be necessary as a result of a settlement. This will reduce any further delay in payment of retroactive overtime claims which may be due Youth Authority employees.

Veto Message—Assembly Bill No. 599

Governor's Office, Sacramento
August 28, 1972

The Honorable Members of the Assembly

State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No. 599 entitled, "An act to amend Section 4850 of, and to repeal Section 4853 of, the Labor Code, relating to workmen's compensation."

Assembly Bill 599 would provide that specified local safety personnel who are members of the Public Employees' Retirement System or County Employees' Retirement System Law of 1937 who are temporarily, rather than temporarily or permanently, disabled by illness or injury arising out of and in course of employment are entitled to paid leave of absence until returned to duty or retired on permanent disability, whichever occurs first

Certain local police and fire personnel now are entitled to a leave of absence with full pay for up to one year if they are temporarily or permanently disabled in the course of duty Although this bill would restrict this benefit to temporary disability it would also remove the one-year limitation

The Public Employees' Retirement System law provides that no one who is eligible for or is receiving a leave of absence with pay may be retired for disability prior to the expiration of the leave of absence without the member's consent The removal of the one-year limitation could place the determination as to the duration of the leave entirely with the employee. I cannot believe that it was the intent of the Legislature to hand these individuals, however deserving, a blank check which their employers would be legally compelled to honor.

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 715

Governor's Office, Sacramento
August 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill 715 entitled, "An act to add Section 4655 5 to the Labor Code, and to amend Section 2629 of, and to repeal Section 2708 1 of, the Unemployment Insurance Code, relating to workmen's disability benefits"

The measure relates to temporary disability payments under the Workmen's Compensation Insurance Law and supplemental payments now available from the Disability Insurance Fund

The Workmen's Compensation Program for job-related injuries is a constitutional responsibility of California's employers They pay the entire cost of the program, which was substantially improved during the 1971 Legislative Session.

The Disability Insurance Program for off-the-job injuries or illnesses is an employee cost This program was also improved last year

Under current law, an employee injured on the job has the option of filing a claim for the difference, if any, between his temporary disability rate under Workmen's Compensation and the payment he would be entitled to from the Disability Insurance Fund if his injury had been non-job related

AB 715 would shift the cost of the differential payment from the Disability Insurance Fund directly to the employer It attempts to make employers guarantee and underwrite additional benefits, if any, negotiated under and for an employee-paid program Where the supplement is now available at the option of the employee, it would become mandatory for the employer to request a computation from the Department of Human Resources Development to determine the amount he must pay the injured workman over and above the payments already coming from the employer supported Workmen's Compensation Program The number of such computations has been estimated at 150,000 to 175,000 annually

Aside from the inequity of linking these two disability programs, vague and inappropriate language in the bill would result in administrative confusion, both for employers and for state government There is also a question as to its constitutionality

AB 715 would unfairly and perhaps unconstitutionally penalize California's employers, and could adversely affect California's ability to attract major firms to locate in this state California's employees would gain nothing from this proposal and might in fact suffer from administrative delays in temporary disability payments.

Greetings· I am returning without my signature Assembly Bill No 975 entitled, "An act to add Sections 10554 3 and 10554 4 to the Welfare and Institutions Code, relating to public assistance "

The bill would extend the required time period between the filing of state welfare regulations and the date they take effect The extended

period is excessive and will unnecessarily restrict the state's ability to adopt emergency regulations to meet federal deadlines, implement new state statutes, and effect administrative adjustments and updating of the welfare system.

Assembly Bill 1192 would make several amendments to the Education Code provisions relating to dismissal and evaluation and assessment of the performance of public school certificated employees

I cannot approve this measure because of the provision that would prohibit evaluation and assessment guidelines from including publishers' norms established by standardized tests as criteria for the evaluation and assessment of certificated personnel.

Existing statutes contain no requirement that standardized tests, or their publishers' norms, be used as criteria for the assessment of teachers It should be assumed, that such criteria would be used only if they are deemed appropriate and useful in the evaluation process

Publishers' norms for standardized tests are one of the most acceptable means available to relate the academic progress of groups of pupils to nation wide averages or standards of scholastic achievement It would be inappropriate at this time for the State to limit the evaluation options available to school districts If the evaluation and assessment guidelines are to be modified, the changes should be based upon real experiences, and not upon anticipatory fears

Greetings I am returning, without my signature, Assembly Bill 1764 entitled, "An act to add Section 13085 2 to the Education Code, relating to public school employees "

AB 1764 would allow certificated employees, who are pupil service employees, to elect either to be represented by a certified employee council or to establish a pupil services committee which would have all the rights, powers, privileges and duties of a certified employee council under the Winton Act

I can see no need at this time to establish another council for pupil service employees It could mean much more negotiating time for administrators and employees alike

Certificated employees who are pupil service employees are members of and are represented in the certificated employee council The duplication that would result by the creation of another committee would contribute to the fractionalization of certificated employees

Greetings I am returning without my signature Assembly Bill 2285 entitled, "An act to add Article 2 5 (commencing with Section 12975)

to Chapter 1 of Division 10 of the Education Code, relating to bilingual employees in school districts"

Assembly Bill 2285 would require governing boards of school districts to employ bilingual persons to work in the administrative office of each school when at least 30 percent of the pupils enrolled in the school speak a single primary language other than English

In addition to other mandates on local districts, this bill prescribes duties and recruitment procedures of such employees

Good management in a local district will, of course, make provisions for language problems Such problems and their solutions are the responsibilities of local school districts Approaches to solutions will vary from district to district, and should not depend on a restrictive mandate from the state What might be good for one school district could be wholly inadequate for another and, therefore, wasteful

Greetings: I am returning without my signature Assembly Bill No 2378 entitled, "An act to add Section 25431 6 to the Education Code, relating to community college districts"

This bill would provide an exception to existing Education Code provisions which prohibit the formation of a community college district if the assessed value of property in the proposed district is less than $150,000 per average daily attendance It would allow the formation of a new community college district encompassing the territory of the Garden Grove Unified School District

I am vetoing this bill with some reluctance because I am aware of the strong support for the measure from the Garden Grove community However, the Chancellor of the California Community Colleges has advised me that the creation of a new community college district to serve Garden Grove would not be in the best interest of either the taxpayer or education It is the Chancellor's position that the Garden Grove territory should be annexed to a neighboring district or districts. Approximately 4,000 students from Garden Grove presently are attending colleges maintained by neighboring districts Annexation

would eliminate the need for another costly campus It should also provide relief for taxpayers in Garden Grove

I have requested the Chancellor to meet with all interested parties to discuss this matter with the goal of arriving at an acceptable solution at the earliest possible date

Father, We listen to Your word this morning as it is written in Ecclesiasticus.

"My son, if you aspire to serve the Lord,
prepare yourself for an ordeal
Be sincere of heart, be steadfast,
and do not be alarmed when disaster comes
Cling to Him and do not leave Him,
so that you may be honoured at the end of your days.
Whatever happens to you, accept it,
and in the uncertainties of your humble state,
be patient,
Since gold is tested in the fire,
and chosen men in the furnace of humiliation
Trust Him and He will uphold you,
follow a straight path and hope in Him"—AMEN

Father, Since our Nation has chosen its leaders we ask You to bless them and make them adequate to the awesome task of government

Support the disappointed, O God:

Assure them of the value of their effort·

Give their families pride in what was done

Find other victories in service for those denied the office sought

Give to all our leaders the largeness of vision which sees the length of the consequences of our acts, and the breath of our influence, and the height of the possibilities before us, and the depth of our national needs.

Show them what leaders can do for the common good, and help them do it And show them, too, what leaders should leave to God and to time and to other people Restrain the ambition which corrupts — AMEN

By Assemblyman Moretti:

House Resolution No. 128

Relative to freedom for Soviet Jews

WHEREAS, It has come to the attention of the Members of the Assembly that the Union of the Soviet Socialist Republics imposes a head

tax on Soviet citizens of the Jewish faith holding degrees of higher learning who desire to emigrate to Israel, and

WHEREAS, The collection of a head tax as a condition of emigration is an infringement of human rights; and

WHEREAS, The Israeli Knesset, in a resolution of August 23, 1972, has condemned the action of the U S S R. government, and Jewish people in all countries are deeply concerned with the inhuman and unfair burden placed by the head tax on educated Soviet Jews who long to emigrate to their historic homeland, Israel, and

WHEREAS, The head tax is tantamount to ransom; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members join with freedom-loving people everywhere in protesting the Soviet head tax on emigrants, and implore the U S S R to cease this inhuman action, and be it further

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Thomas was granted unanimous consent that the following letters of transmittal be printed in the Journal.

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

Sirs: Transmitted herewith is a report on a review of the 1971 financial statements and accounting records of the Department of Industrial Relations The report discloses certain deficiencies noted in billing and collection procedures related to general fund revenues and reimbursements.

Delays in billing for pressure vessel and elevator inspections could be eliminated by using data processing services instead of manually typing 45,000 invoices each year.

The Labor Code requires the licensing of farm labor contractors and artists' managers It has been alleged by the department that many persons performing these services are not licensed Few violators are detected because of a limited investigation staff

Inspections of industrial radiation machines cost $93,000 with only $41,000 received in reimbursements from the Department of Public Health. The department is not prompt in billing the federal government for the reimbursable cost of projects performed for the federal government.

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

Sirs. Transmitted herewith is a report on the Division of Industrial Accidents of the Department of Industrial Relations This division is responsible for the adjudication of disputed claims arising out of industrial injuries With a budget of $9 4 million and 558 employees, it is the largest of eight divisions within the Department of Industrial Relations

Administration of the division is shared by the administrative director and the chairman of the Workmen's Compensation Appeals Board both of whom are appointed by the Governor

The major findings contained in the report are listed below

1. The division has not devised adequate means of determining staffing needs The staffing pattern now used by the division is based on a "team" concept wherein for each referee there is a hearing reporter and two clerical positions This "team" concept of determining personnel needs fails to take advantage of the economies and efficiencies to be derived from a pooling of personnel
2. The number of required hearing reporters could be reduced, at least in the larger offices, by calendaring the cases to be heard over a longer period of time during the day Currently, the staff of hearing reporters spend only about one-half of their time work day recording at hearings.

3 The division currently has offices in 21 locations throughout the state The office in Los Angeles is extremely congested, and, as a consequence, is an inefficient operation Several of the other offices are inefficient because they are too small For improved efficiency, the division needs to relocate portions of the Los Angeles office and merge certain of the smaller offices with other offices located nearby.

4 The use of dictating machines by referees would eliminate the need for approximately 20 percent of the stenographic personnel Salary savings are estimated at $172,000 per year

5 The division charges $1 per page for transcribing hearing testimony This charge represents less than one-third of the cose of preparation Overall loss incurred by the division in transcribing testimony for outside parties is estimated to be $80,000 a year

6 Currently, Section 5708 of the Labor Code requires the use of hearing reporters to record testimony at hearings Significant savings in this cost could be achieved through amendment of this section to allow for the use of electronic tape recording devices as a substitute for hearing reporters We estimate the potential savings to be realized at $462,000 a year

A number of recommendations are contained in the report that should be adopted by the division to strengthen its operational efficiency

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

SIRS Transmitted herewith is a report on the Division of Fair Employment Practices of the Department of Industrial Relations This division is responsible for the prevention and elimination of discrimination in employment and housing Sufficient information is not available to measure the effectiveness of this division in meeting its goals

The Governor appoints the chief of the division to serve as executive officer However, administrative control of the division is vested in the Fair Employment Practices Commission consisting of seven members also appointed by the Governor Several disadvantages to this organizational structure are

—Division programs and workload cannot be adequately controlled
—There exists a potential for inconsistency in the handling of complaint cases
—Responsibility for program effectiveness cannot be assigned
—Staff discipline is susceptible to erosion

It is recommended that these defects be corrected by establishing the Fair Employment Practices Commission as advisory to the chief with duties of policy determination and the holding of hearings.

The report discusses six recommendations which need to be implemented by the division to improve its operations

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Above reports referred to the Committee on Efficiency and Cost Control

37503 The Legislature further finds and declares that existing federal programs providing low-rent housing in private accommodations and home ownership opportunities for low-income families can contribute greatly toward individual self-sufficiency and greater public acceptance of low-income housing

37504. It is therefore the policy of the Legislature of the State of California to encourage local housing authorities to provide adequate training to low-income families in home management and maintenance Supplemental financial assistance will be made available to housing authorities or other appropriate qualifying organizations for use in training low-income families and providing them with the necessary qualifications to live meaningful lives as renters or owners of low-income private accommodations.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Stull was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Sacramento, November 16, 1972

Honorable John Stull
Assembly Chamber

California Coastal Zone Conservation Act of 1972—#18506

Dear Mr. Stull You have asked the following three questions relating to the effect of the California Coastal Zone Conservation Act of 1972 (Div. 18 (commencing with Sec. 27000), P.R.C.[1]) on any development located within the "permit area" as defined in Section 27104, which are separately stated and considered below

We have assumed, for the purposes of this opinion, that the development is of the type which may be regulated by the California Coastal Zone Conservation Act of 1972 and not the type which is expressly excepted from the requirement of a permit (Secs 27103, 27405)

Question No 1

Will a person be required to obtain a permit from a regional coastal zone conservation commission[2] in order to perform any development within the permit area on which construction is to commence on or after February 1, 1973?

[1] All section references, unless otherwise indicated, are to the Public Resources Code.
[2] Hereinafter referred to as the "regional commission"

Opinion No 1

It is our opinion that a person will be required to obtain a permit from a regional commission in order to perform any development within the permit area on which construction is to commence on or after February 1, 1973.

Analysis No 1

The Coastal Zone Conservation Act Initiative (Proposition 20 on the November 1972 General Election ballot), which was adopted by the people of this state, added, among other things, Division 18 (commencing with Section 27000) to the Public Resources Code [3] (California Coastal Zone Conservation Act of 1972)

Very generally, the provisions of Division 18 provide for the establishment of the California Coastal Zone Conservation Commission [4] and six regional commissions (Secs 27200, 27201) to regulate, with prescribed exceptions, development, as defined in Section 27103, in a designated area, referred to as the "permit area" of the "coastal zone" (Secs 27100, 27104, 27400,, et seq) and require the commission to adopt the California Coastal Zone Conservation Plan and submit it to the Legislature for its review, adoption, and implementation (Secs 27300, 27320). The provisions of Division 18 are operative only until the 91st day after the final adjournment of the 1976 Regular Session of the Legislature (Sec 27650)

Generally, the "permit area" includes that portion of the coastal zone lying between the seaward limit of the jurisdiction of the state and 1,000 yards landward from the mean high tide, subject to various prescribed provisions (see Sec 27104). The "coastal zone" extends seaward to the outer limit of state jurisdiction, including all islands within the jurisdiction of the state, and inland, generally, to the highest elevation of the nearest coastal mountain range (see Sec 27100)

Section 27400, contained in Division 18, provides, in pertinent part, as follows:

> "27400 *On or after February 1, 1973, any person wishing to perform any development within the permit area shall obtain a permit authorizing such development from the regional commission* [regional coastal zone conservation commission] and, if required by law, from any city, county, state, regional or local agency
>
> * * *" (Emphasis added)

Section 27103, also contained in Division 18, defines "development" to mean

> " on land, in or under water, the placement or erection of any solid material or structure, discharge or disposal of any dredged material or of any gaseous, liquid, solid, or thermal waste, grading, removing, dredging, mining, or extraction of any materials, change in the density or intensity of use of land, including, but not limited to, subdivision of land pursuant to the Subdivision Map Act and any other division of land, including lot splits; change in the intensity of use of water, ecology related

[3] Hereinafter referred to as "Division 18"

[4] Hereinafter referred to as the "state commission"

thereto, or of access thereto; construction, reconstruction, demolition, or alteration of the size of any structure, including any facility of any private, public, or municipal utility, and the removal or logging of major vegetation As used in this section, 'structure' includes, but is not limited to, any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electrical power transmission and distribution line "

As can be seen from the above-quoted language of Section 27400, any person wishing to perform any development, as defined in Section 27103, within the permit area on or after February 1, 1973, will be required to obtain a permit from the appropriate regional commission Section 27105, contained in Division 18, defines "person" to include " any individual, organization, partnership, and corporation, including any utility and any agency of federal, state, and local government "

In view of the above, we think it is clear that a person will be required to obtain a permit from a regional commission in order to perform any development on which construction is to commence on or after February 1, 1973

Question No 2

Will a person be required to obtain a permit from a regional commission in order to complete a development which commenced between April 1, 1972, and February 1, 1973?

We have assumed, for the purposes of this question, that a person in question has met all other requirements of law, such as obtaining a building permit, and will have performed substantial work and incurred substantial liabilities on the development prior to February 1, 1973.

Opinion and Analysis No 2

As can be seen from Analysis No 1, any person wishing to perform any development, as defined in Section 27103, on or after February 1, 1973, will be required to obtain a permit from the appropriate regional commission

There is nothing in Division 18, however, which requires that a person performing any development prior to February 1, 1973, obtain a permit from any regional commission if the development is completed prior to February 1, 1973, or if the development comes within one of the exceptions to the permit requirements (see Sec 27405) or within the provisions of Section 27404, which provides as follows

"27404 *If, prior to the effective date of this division* [Division 18], *any city or county has issued a building permit, no person who has obtained a vested right thereunder shall be required to secure a permit from the regional commission* , providing that no substantial changes may be made in any such development, except in accordance with the provisions of this division *Any such person shall be deemed to have such vested rights if, prior to April 1, 1972, he has in good faith and in reliance upon the building permit diligently commenced construction and performed substantial work on the development and incurred substantial liabilities for*

work and materials necessary therefor. Expenses incurred in obtaining the enactment of an ordinance in relation to the particular development or the issuance of a permit shall not be deemed liabilities for work or material" (Emphasis added)

Section 27404 thus provides that no person shall be required to obtain a permit from the regional commission who, prior to the effective date of Division 18, received a building permit from any city or county authorizing a particular development and who, prior to April 1, 1972, *in good faith* and in reliance upon such a building permit diligently commenced construction, performed *substantial work* on the development, and incurred *substantial liability* for work and materials necessary therefor; provided, however, that no substantial changes may be made in any such development, except in accordance with Division 18

Webster's Third New International Dictionary (1964), at page 2280, defines the word "substantial" as "considerable in amount, value, or worth" Giving the term "substantial" its ordinary and commonly understood meaning in the context of the provisions of Section 27404, we think that no person will be required to obtain a permit for any development within the permit area under the provisions of Division 18 to complete any project, if it is found, as a matter of fact, that such person received a building permit from any city or county prior to November 8, 1972, which is the effective date of Division 18 (see subd (a), Sec 24, Art IV, Cal Const), authorizing a particular development, and such person, *in good faith* and in reliance upon such a building permit, diligently commenced construction and performed a considerable amount of work and incurred considerable liability for work and materials necessary therefor prior to April 1, 1972.

As we have indicated above, any person wishing to perform any development on or after February 1, 1973, will be required to obtain a permit authorizing such a development from the appropriate regional commission (Sec 27400).

Except as discussed below, we think an applicant for a permit will be required to show that the development will not have any substantial adverse environmental or ecological effect (subd (a), Sec 27402) and that the development will be consistent with the findings and declarations set forth in Section 27001 and with the objectives set forth in Section 27302 (subd (b), Sec 27402).

Division 18 does not contain any express provision as to a person who, between April 1, 1972, and February 1, 1973, the date set for requiring permits of persons wishing to perform any development, has performed substantial work and incurred substantial liabilities on a development but has not brought it to completion Consequently, if a regional commission finds that the uncompleted development failed to meet the requisites of Section 27402, such as having a substantial adverse environmental or ecological effect (subd (a), Sec 27402), it could be contended that the applicant should be barred from completing his development.

As a general proposition, if a person has made substantial expenditures on a development *in good faith* reliance upon the issuance of a

building permit, a variance from a zoning ordinance, or other requirement of law which is final and not subject to appeal, such person has a right to complete his development, despite a change in the law which would otherwise prohibit it (see *Russian Hill Improvement Assn* v *Board of Permit Appeals*, 66 Cal. 2d 34, 39; *West Coast Advertising Co* v *City & County of San Francisco*, 256 Cal App 2d 357, 359; *Spindler Realty Corp* v *Monning*, 243 Cal App 2d 255, 263). A detailed specific plan in furtherance of a determination to accomplish a certain objective may be necessary to secure this right (*People ex rel S F Bay etc Com* v. *Town of Emeryville*, 69 Cal. 2d 533, 545, see also Sec. 27404 as it would prohibit substantial changes in a development commenced prior to April 1, 1972, in which a person may be deemed to have a vested right).

Applying the above principles, we think that if the issue of whether the person in question may complete a development commenced between April 1, 1972, and February 1, 1973, is presented to a court, the court will probably hold that the person has a right to complete the development, if it determines that he had *in good faith* and in reliance on the timely and final fulfillment of all legal requirements, such as obtaining a building permit from a local governing body, diligently commenced construction and performed substantial work on the development and incurred substantial liabilities for necessary work and materials; provided that no substantial changes were made in the development and that such development progressed pursuant to a specific plan with a certain determined objective Thus, the determination of whether the person in question has gone to such expense or effort on a development as will secure him a right in completion of the development is a decision for the courts, to be made on the facts of any particular case, because the question of what constitutes a right to complete a development is confined to the courts (*Criminal Courts Bar Assn.* v *State Bar*, 22 Cal App 3d 681, 687).

In this regard, we think that the courts, applying the general rule that statutes should be interpreted to give prime consideration to the objective sought to be achieved by the law as well as the evils to be prevented (*People ex rel S F Bay etc Com* v *Town of Emeryville*, supra, at p. 543), might require such a person, who commenced development between April 1, 1972, and February 1, 1973, and who has a right to complete such a development on or after February 1, 1973, to obtain, *as a matter of right*, a permit from the regional commission or state commission Since Division 18 contains explicit declarations requiring such a permit on or after February 1, 1973 (see Sec 27400), we think the courts might hold that such a person must obtain a permit in order to place the regional commission or the state commission on notice as to the type of development which will be performed on or after February 1, 1973, that it may more effectively plan for the orderly development of the coastal zone However, we further think that the person in question will be entitled to such permit *as a matter of right;* that is, the commission will be required to grant the permit even though a particular development might not otherwise qualify for a permit

Question No 3

Do the provisions of Division 18 prohibit local governments from issuing or denying building permits prior to the formation of the regional commissions and the state commission?

Opinion and Analysis No 3

There is nothing in Division 18 which prohibits local governments from issuing or denying building permits prior to or after the formation of the regional commissions or state commission Furthermore, as can be seen from Section 27400 (see Analysis No 1, above), the granting of permits by a regional commission on or after February 1, 1973, will not remove the necessity for also obtaining any city, county, or local or regional agency permit required by law for any proposed development

Therefore, we think that the provisions of Division 18 do not prohibit local governments from issuing or denying building permits prior to the formation of the regional commissions and the state commission.

Very truly yours,

Honorable Leo T McCarthy
Assembly Chamber

Wild Rivers—#18895

Dear Mr. McCarthy.

Question

You have asked whether Senate Bill No 107 of the 1972 Regular Session, as amended November 17, 1972, would permit all measures for flood protection along the Eel River, except for dams, reservoirs, or other water impoundment structures, including such measures as levees along the banks of the Eel River, flood plain zoning, and temporary flood storage basins on tributaries of the Eel River

Opinion

In our opinion S B 107, as amended November 17, 1972, would permit all measures for flood protection along the Eel River, except for dams, reservoirs, or other water impoundment structures, including such measures as levees along the banks of the Eel River, flood plain zoning, and temporary flood storage basins on tributaries of the Eel River.

Analysis

S B 107, as amended November 17, 1972, would establish a California Wild and Scenic Rivers System, consisting of specified rivers or segments of rivers within the Klamath, Trinity, Smith, Eel, and American River systems. Among other things, the bill would prohibit the construction of dams, reservoirs, or other water impoundment structures on such rivers.

S B 107, however, would contain a special provision relating to measures for flood protection along the Eel River Section 5093 57, as proposed to be added to the Public Resources Code by S B 107,[1] would read as follows

> "5093 57 Nothing in this chapter shall be construed to prohibit any measures for flood protection, structural or nonstructural, necessary for the protection of lives and property along the Eel River as described in subdivision (d) of Section 5093 54, except for dams, reservoirs, or other water impoundment structures, provided, however, that such measures for flood protection may include facilities for temporary flood storage or flood storage basins on tributaries of the Eel River."

Subdivision (d) of Section 5093 54 would describe the segments of the Eel River included in the system Section 5093 57, therefore, would specify that nothing in the bill shall be construed to prohibit any measures for flood protection, structural or nonstructural, necessary for the protection of lives and property along the Eel River, except for dams, reservoirs, or other water impoundment structures, although facilities for temporary flood storage or flood storage basins on tributaries of the Eel River would be expressly permitted.

[1] All section references are to sections proposed to be added to the Public Resources Code by S B 107

Thus, Section 5093 57 would expressly permit under S B 107 all measures for flood protection on the Eel River which do not involve a dam, reservoir, or other water impoundment structure. In addition, Section 5093.57 would expressly permit facilities for temporary flood storage on tributaries of the Eel River

In our opinion, therefore, S B 107, as amended November 17, 1972, would permit all measures for flood protection along the Eel River, except for dams, reservoirs, or other water impoundment structures, including such measures as levees along the banks of the Eel River, flood plain zoning, and temporary flood storage basins on tributaries of the Eel River.

Very truly yours,

GEORGE H MURPHY

Amendment No. 1

In line 1 of the title of the printed bill, as amended in Assembly April 24, 1972, strike out "amend Section 16027 of", and insert "add Section 16080 5 to".

In line 2 of the title, after "responsibility", insert ", and declaring the urgency thereof, to take effect immediately".

Amendment No. 3

On page 2, strike out line 1, and insert

"SECTION 1 Section 16080 5 is added to the Vehicle Code, to read:

16080 5 (a) Any proceeding or order of the department pursuant to subdivision (c) of Section 16053, or Section 16080, 16100, or 16484, relating to the suspension of the drivers' license or driving privilege

of any person, or the registration card or license plates for any vehicle owned by any person, shall be stayed by the receipt by the department of a request from such person for a hearing Upon the receipt of any such request, the department shall refund any security deposited by such person

(b) The provisions of subdivision (a) shall remain in effect as provided in this subdivision pending a decision by the United States Supreme Court regarding the constitutionality of the procedures of the department relating to the suspension of drivers' licenses and driving privileges If the United States Supreme Court decides that the department's procedures approved by the federal court in the case of *Rivas* v *Cozens* (1971), 327 F Supp 867, and in use prior to the decision of the California State Supreme Court in the case of *Rios* v *Cozens* (1972), 7 Cal 3d 792, afforded due process and were constitutional, the department shall resume proceedings and the issuance of suspension orders pursuant to subdivision (c) of Section 16053, and Sections 16080, 16100, and 16484 30 days thereafter or as soon thereafter as feasible, as reasonably determined by the department, and subdivision (a) of this section shall no longer have any force or effect If the department's procedures in use prior to the case of *Rios* v *Cozens* are found by the court not to afford due process and hearings are required to provide for calling of witnesses or the taking of oral testimony, the provisions of subdivision (a) shall remain operative until amended or repealed by the Legislature

SEC 2 This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Department of Motor Vehicles is required to issue orders of suspension of drivers' licenses or driving privileges, and registration cards and license plates, pursuant to subdivision (c) of Section 16053 of, and Sections 16080, 16100, and 16484 of, the Vehicle Code in the administration of Chapters 1 (commencing with Section 16000), 2 (commencing with Section 16250), and 3 (commencing with Section 16430) of Division 7 of the Vehicle Code

A three-judge United States district court in the case of *Rivas* v *Cozens* (1971), 327 F Supp 867, determined that the existing procedures of the Department of Motor Vehicles in the administration of such provisions were sufficient to afford due process to the persons affected

However, the California State Supreme Court thereafter rendered a contrary opinion in the case of *Rios* v *Cozens*, (1972), 7 Cal 3d 792, which opinion requires the Department of Motor Vehicles to provide an opportunity for an extensive hearing to an uninsured motorist prior to suspending his driving privilege under the applicable statutes

The Department of Motor Vehicles does not now have sufficient funds budgeted to conduct full scale or extensive hearings on the issues to be determined by the Department of Motor Vehicles nor adequate trained personnel to conduct such hearings

The cases of *Rivas* v *Cozens* and *Rios* v *Cozens* are currently on appeal and pending before the United States Supreme Court to resolve the conflicts between the cases

Pending the decision of the United States Supreme Court, the Department of Motor Vehicles is placed in a difficult and untenable position in administering existing provisions of law because of these circumstances Thus, it is necessary that this act, which is intended to specify what course of action should be taken by the Department of Motor Vehicles until such decision is rendered, go into immediate effect."

You have asked whether Senate Bill No 4 and Senate Bill No 107 of the 1972 Regular Session are in conflict with the California Water Resources Development Bond Act (Ch 8 (commencing with Section 12930), Pt 6, Div 6, Wat C[1], hereafter referred to as the "bond act") so as to require submission of an amendment of the bond act to the people in order for S B 4 or S B 107 to be given full effect as to bond act facilities.

Opinion and Analysis

Initially, we note that consideration of a possible conflict between S B 4 or S B 107 and the provisions of the bond act involves the question of whether a statute which prohibits water development in certain designated watersheds would prohibit the construction by the Department of Water Resources under the bond act of additional water development facilities in such watersheds We are concerned here, therefore, only with the question of whether some provisions would have to be submitted to the people in order to prohibit such construction by the department

[1] All section references are to the Water Code.

We also note that we are concerned only with the legal authority of the department to undertake such construction notwithstanding the provisions of S B 4 or S B 107 We have no knowledge, of course, as to whether the department would exercise any such authority it might have in a manner inconsistent with the provisions of S B 4 or S B 107

S B 4, as amended November 17, 1972, would establish a protected waterways system, consisting of the Smith, Trinity, Eel, Klamath, Salmon, Shasta, and Scott Rivers, as described S B 107, as amended November 17, 1972, would establish a California Wild and Scenic Rivers System, consisting of specified rivers or segments of rivers within the Klamath, Trinity, Smith, Eel, and American River systems Both bills would, among other things, generally prohibit the construction of dams on such rivers and limit the diversion of water from such rivers to certain local purposes

Section 12931, as contained in the bond act, provides that the State Water Resources Development System shall be composed of "the State Water Facilities as defined in Section 12934(d) hereof and such additional facilities as may now or hereafter be authorized by the Legislature as a part of (1) the Central Valley Project or (2) the California Water Plan, *and including such other additional facilities as the department deems necessary and desirable to meet local needs, including, but not restricted to, flood control, and to augment the supplies of water in the Sacramento-San Joaquin Delta and for which funds are appropriated pursuant to this chapter*"

Under Section 12935 the proceeds from the sale of bonds authorized to be issued pursuant to the bond act are required to be used to provide for the acquisition, construction, and completion of the State Water Facilities designated in subdivision (d) of Section 12934 There is only one exception to this requirement and that is that to the extent that money in the California Water Fund is expended for the construction of the State Water Facilities, bond proceeds are required to be expended for the construction of additional water development facilities under the following provision of Section 12938

> "To the extent that money is expended from the California Water Fund for construction of the State Water Facilities, proceeds from the sale of bonds authorized pursuant to this act in an equal amount, is appropriated and shall be expended for the construction of such additional facilities of the State Water Resources Development System *as the department shall determine to be necessary and desirable* to meet local needs, including, but not restricted to, flood control and to augment the supplies of water in the Sacramento-San Joaquin Delta from multiple purpose dams, reservoirs, aqueducts and appurtenant works in *the watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen and Klamath Rivers* for use in the State Water Resources Development System, and the department is *authorized to construct any and all facilities for which funds are appropriated to it for expenditure pursuant to this chapter*" (Emphasis added)

Section 12938, therefore, makes available bond proceeds for such additional water development facilities of the State Water Resources

Development System as the *Department of Water Resources* determines to be necessary and desirable to meet local needs and to augment the supplies of water in the Sacramento-San Joaquin Delta from multiple purpose dams, reservoirs, aqueducts and appurtenant works in the watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen, and Klamath Rivers The department, therefore, is vested by the bond act with the discretion of determining the particular facility to be constructed with such bond proceeds, and is specifically authorized by the bond act to expend such bond proceeds for water development facilities in the watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen, and Klamath Rivers for the purpose of augmenting the supplies of water in the Sacramento-San Joaquin Delta

The bond act was submitted to the voters and was approved at the general election held on November 8, 1960 (See Statement of Vote for Election of November 8, 1960, issued by Secretary of State, p 23, Stats 1959, Ch 1762)

Under Section 1 of Article XVI of the California Constitution, a law authorizing the creation of a debt or liability in excess of $300,000, singly or in the aggregate with any previous debts or liabilities, must be for a single object or work distinctly specified therein, the law must provide ways and means for the payment of principal and interest on the debt or liability, and the law must be approved by the voters

A subsequent act of the Legislature which created a substantial variance from the terms and conditions stated in the bond act as approved by the voters would raise the questions of whether such subsequent act violated the constitutional rights of the electorate under the foregoing provisions of Section 1 of Article XVI (see *Peery* v *City of Los Angeles*, 187 Cal 753, *Eastern Mun Water District* v *Scott*, 1 Cal App 3d 129, *State Schools Bldg Fin Committee* v *Betts*, 216 Cal App 2d 685).

Thus, with respect to the location of an "additional facility" to be constructed pursuant to Section 12938, we think that the provision of the bond act requiring the expenditure of bond proceeds by the department for additional facilities of the State Water Resources Development System which the department determines to be necessary and desirable to meet local needs and to augment the supplies of the water in the Sacramento-San Joaquin Delta from works in the watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen, and Klamath Rivers would preclude the Legislature from prohibiting the construction by the department of an "additional facility" in the watershed of any such river pursuant to Section 12938

We think that such policy considerations as the extent to which proposed facilities should serve local needs and should augment the supplies of water in the Sacramento-San Joaquin Delta were intended under the bond act to be the sole determination of the department, and that such policy considerations would be involved in determining the location of additional water development facilities To permit the Legislature to prohibit the construction by the department of water development facilities in the watersheds of the Sacramento, Eel, Trinity,

Mad, Van Duzen, and Klamath Rivers pursuant to Section 12938 would, in our opinion, if the courts adhere to the principle established in the cases cited earlier with respect to the obligation to the voters who approve a bond act, be considered a material departure from the proposition as approved by the voters

In our opinion, therefore, a statute, such as S B 4 or S B 107, which restricts water development in the watersheds of the Sacramento, Eel, Trinity, Mad, Van Duzen, and Klamath Rivers would probably be held not to prohibit the construction by the department of an additional water development facility of the State Water Resources Development System in any such watershed pursuant to Section 12938, unless an amendment of the bond act authorizing such restriction is approved by the voters

It must be recognized, however, that the California Supreme Court, in *Warne v Harkness* (1963), 60 Cal 2d 587, upheld the issuance of revenue bonds to finance the construction of a portion of the State Water Resources Development System and the pledge of the revenues from said portion to pay the principal and interest on the revenue bonds, notwithstanding the provision in the bond act requiring all revenues from the system to be deposited in the bond fund established by the bond act and to be used for specified purposes (Sec 12937) In reaching this decision, the California Supreme Court made no mention of any possible violation of the constitutional rights of the electorate under the provisions of Section 1 of Article XVI of the California Constitution, but instead decided the case on the basis of statutory construction and a determination that because of the incorporation of the statutory provisions governing the Central Valley Project (Secs 11100, et seq) in the bond act (see Sec 12931), there was no implied repeal of the revenue bond provisions of the Central Valley Project Act, and the provisions of both acts should be read together and harmonized In view of the absence of any mention by the California Supreme Court, in *Warne v Harkness*, of any such possible violation of the constitutional rights of the electorate, it is difficult to predict what, if any, consideration would be given to this principle by the court in any case involving changes made by the Legislature in the bond act, or in any of the powers or duties vested in the department by the bond act

CHAPTER 6 10 EDUCATIONALLY DISADVANTAGED YOUTH PROGRAMS

6499 230. It is the intent of the Legislature to provide quality educational opportunities for all children in the California public schools The Legislature recognizes that because of differences in family income, differing language barriers, and pupil transiency, differing levels of financial aid are necessary to provide quality education for all students

6499 231. From the funds appropriated by the Legislature for the purposes of this chapter, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall administer this chapter and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing education programs for pupils who qualify economically and educationally in preschool, kindergarten, or any of grades 1 through 12, inclusive. Nothing in this chapter shall in any way preclude the use of federal funds for educationally disadvantaged youth Districts which receive funds pursuant to this chapter shall not reduce existing district resources which have been utilized for programs to meet the needs of low-income students.

6499 232. Maximum apportionments allowable to school districts shall be determined by the following factors·

(a) An index of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and Oriental surnames, and Indian pupils, as determined by the annual ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or secondary districts, as appropriate

(b) A ratio of the district's "index of family poverty," defined as the district's Elementary and Secondary Education Act, Title I entitlement, divided by its average daily attendance in grades 1 through 12, or any thereof maintained, divided in turn by the state average index of family poverty for unified, elementary, or secondary districts, as appropriate

(c) A ratio of the district's "index of pupil transiency," as computed from the relationship between the district's average daily attendance and its total annual enrollment, divided by the state average index of pupil transiency for unified, elementary, or secondary districts, as appropriate

The district's total maximum apportionment under this chapter shall be determined by computing the product of (1) one-third the sum of the above three factors, except that if the resulting figure is higher than two, the resulting figure shall be deemed to be two, and if the resulting figure is lower than one no entitlement shall be computed for such a district, (2) the number of pupils receiving aid for dependent children support, and (3) a constant amount of three hundred dollars ($300), or such amount as the Superintendent of Public Instruction may determine so that the sum of all allocations will not exceed the funds appropriated by the Legislature for the purposes of this chapter

6499 234 In approving programs under this chapter, the State Board of Education shall give due consideration to the effectiveness of the program and shall not continue in operation any program that, upon evaluation, has been shown to be of low effectiveness and which has only limited possibility of improved effectiveness

For the fiscal year 1973-1974 and for each year thereafter, districts which demonstrate a high degree of program effectiveness shall receive amounts up to their entitlement limits Districts which demonstrate low levels of program effectiveness shall continue to receive their initial apportionments but the Superintendent of Public Instruction may reduce the additional computed apportionments due such districts, if he determines that such programs have limited possibilities of improved achievement

6499 235 The Superintendent of Public Instruction shall apportion the funds available for programs in accord with procedures specified in this chapter and policies which may be adopted by the State Board of Education Funds shall be allocated to each district within its entitlement based upon a plan submitted by the district to the Superintendent of Public Instruction, and approved by the State Board of Education The plan shall include (1) an explicit statement of what the district seeks to accomplish, (2) a description of the program and

activities designed to achieve these purposes, and (3) a planned program of annual evaluation, including a statement of the criteria to be used to measure the effectiveness of the program.

6499.236. The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the administration, monitoring, evaluation, and dissemination of programs submitted for consideration an amount not to exceed 1 percent of the total appropriation for the purposes of this chapter shall be retained by the Department of Education for these purposes Funds appropriated for the purposes of this chapter not allocated as previously specified shall be allocated by the State Board of Education to promote the intent of this chapter to provide education programs to as many eligible pupils as possible and to stimulate the development, implementation, and evaluation of innovative programs

6499 237 The Superintendent of Public Instruction shall submit annually to the Governor and to each house of the Legislature a report evaluating the programs established pursuant to this chapter, together with his recommendations concerning whether the same should be continued in operation ''

Under existing law, various acts separately create city selection committees for purposes of appointing city representatives to various boards, commissions and agencies Although the city selection committees created in each of these several acts perform the same function, each act differs somewhat in its provisions governing the operation of city selection committees This lack of uniformity has produced uncertainty

In addition, the provisions of the California Coastal Zone Conservation Act of 1972 which requires the appointment of city representatives to regional coastal zone conservation commissions by city selection committees have produced uncertainty because the act does not specify in what manner such committees are to be organized This uncertainty is particularly apparent in one county in which only one city is incorporated

In order to provide certainty and uniformity to the city selection committee process, it is necessary that this act take effect immediately "

Amendment No. 2

On page 1, strike out line 1, and insert

"SECTION 1 It is the intent of the Legislature in enacting this act to accomplish the following objectives

(1) Restructure the motor vehicle reparations system to establish a system under which persons injured in motor vehicle accidents are compensated for their tangible economic losses without regard to fault.

(2) Ensure that persons injured in motor vehicle accidents receive prompt payment for their tangible economic losses.

(3) Afford adequate compensation to persons injured in motor vehicle accidents minimum cost by coordinating benefits obtainable by the persons from other sources with those obtainable from the motor vehicle reparations system with a view toward internalizing motor vehicle accident losses by making motor vehicle insurance the primary source of benefits whenever feasible

(4) Achieve a substantial reduction in the volume of civil litigation arising from motor vehicle accidents

(5) Lower the cost of insurance and promote an increase in the percentage of the premium dollar returned in benefits by eliminating the right of a person injured in a motor vehicle accident to recover damages for intangible losses for relatively minor injuries and reducing administrative expense incurred in operating under the existing motor vehicle reparations system

(6) Promote greater market availability for motor vehicle insurance by creating a motor vehicle reparations system in which the potentiality of tangible economic loss by an insured bears a relationship to his economic status.

(7) Require that medical services be available to all persons injured in motor vehicle accidents

(8) Compensate more persons who are severely injured in motor vehicle accidents by substituting the doctrine of comparative negligence for the doctrine of contributory negligence

(9) Promote more equitable rating standards by changing to a motor vehicle reparations system in which the rates are based upon the characteristics of the person who may recover

(10) Retain the right of a person who sustains relatively serious injuries in a motor vehicle accident to recover damages for intangible losses

RESOLUTIONS

The following resolution was offered:

By Assemblyman Moretti·

House Resolution No. 135

Relative to Manzanar Internment Camp

WHEREAS, A shameful chapter in American history was written during World War II, when thousands of American citizens were locked up in concentration camps without a trial—their only crime being that they were born of Japanese ancestry; and

WHEREAS, Because of the trauma caused by the disaster at Pearl Harbor, reason was driven from the minds of many American people, and liberals and conservatives alike demanded the imprisonment of the Japanese-Americans without trial; and

WHEREAS, One of the most notorious of the concentration camps was Manzanar near the town of Lone Pine; and

WHEREAS, Rather than allowing Manzanar, and what it stood for, to fade into the forgotten past, a portion of it ought to be preserved and restored to a monument of what can happen in America to Americans; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Parks and Recreation is requested to conduct a study, and develop a plan, for the acquisition and preservation of a portion of Manzanar Internment Camp as an historical unit of the state park system; and be it further

Resolved, That a copy of this resolution be transmitted to the Department of Parks and Recreation.

Resolution read, and held at the Desk by order of the Acting Speaker.

"SECTION 1. It is the intent of the Legislature in enacting this act to accomplish the following objectives:

(1) Restructure the motor vehicle reparations system to establish a system under which persons injured in motor vehicle accidents are compensated for their tangible economic losses without regard to fault.

(2) Ensure that persons injured in motor vehicle accidents receive prompt payment for their tangible economic losses

(3) Afford adequate compensation to persons injured in motor vehicle accidents at minimum cost by coordinating benefits obtainable by the persons from other sources with those obtainable from the motor vehicle reparations system with a view toward internalizing motor vehicle accident losses by making motor vehicle insurance the primary source of benefits whenever feasible

(4) Achieve a substantial reduction in the volume of civil litigation arising from motor vehicle accidents.

(5) Lower the cost of insurance and promote an increase in the percentage of the premium dollar returned in benefits by eliminating the right of a person injured in a motor vehicle accident to recover

damages for intangible losses for relatively minor injuries and reducing administrative expense incurred in operating under the existing motor vehicle reparations system.

(6) Promote greater market availability for motor vehicle insurance by creating a motor vehicle reparations system in which the potentiality of tangible economic loss by an insured bears a relationship to his economic status.

(7) Require that medical services be available to all persons injured in motor vehicle accidents.

(8) Compensate more persons who are severely injured in motor vehicle accidents by substituting the doctrine of comparative negligence for the doctrine of contributory negligence

(9) Promote more equitable rating standards by changing to a motor vehicle reparations system in which the rates are based upon the characteristics of the person who may recover.

(10) Retain the right of a person who sustains relatively serious injuries in a motor vehicle accident to recover damages for intangible losses
