REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Karabian was granted unanimous consent that the following communication and Opinion of Legislative Counsel be printed in the Journal:

November 29, 1972

Honorable Bob Moretti
Speaker of the Assembly
Room 3164, State Capitol

Dear Mr Speaker: To prevent any misunderstanding I am again going beyond the requirement of California law in disclosing that my law firm, Karns and Karabian of Los Angeles, is providing legal representation for foundations and medical groups applying for prepaid health contracts with the Department of Health Care Services.

Although there is clearly no legal requirement that legislators disclose their business interests, I am again disclosing my business interests to you and to the public I am also placing this letter and the accompanying Opinion of Legislative Counsel in the Assembly Journal

Please note the Opinion of Legislative Counsel states precisely that lawyer-legislators can represent medical groups before the Department of Health Care Services for the purpose of developing prepaid health plan contracts.

Sincerely,

WALTER KARABIAN

Opinion of Legislative Counsel

Sacramento, November 22, 1972

Honorable Walter Karabian
Assembly Chamber

Conflict of Interest—#18229

Dear Mr. Karabian:

Question No 1

Can a legislator-lawyer represent a group of doctors before the Department of Health Care Services for the purpose of developing a prepaid health plan contract?

We assume that the representation in question would only be before the Department of Health Care Services and does not entail legislative advocacy.

Opinion No 1

A legislator-lawyer can represent a group of doctors before the Department of Health Care Services for the purpose of developing a prepaid health plan contract.

Analysis No 1

The Government Code sections which should be considered in regard to the situation under discussion are the provisions contained in the Code of Ethics for legislators. The prohibitions of the Code of Ethics are general in nature and contain various examples of what are or are not substantial conflicts of interest (Sec 8920(b)).

Under subdivision (a) of Section 8920, Members of the Legislature, among others, are prohibited from having an interest, engaging in any business transaction or professional activity, or incurring any obligation in substantial conflict with the proper discharge of their duties in the public interest or in conflict with their responsibilities as prescribed by state law.

"Substantial conflict" covers more situations than those specifically prohibited by the provisions of subdivision (b) of Section 8920.

However, professional activity, generally, is not prohibited by the code and, we see no violation of subdivision (a) of Section 8920 in this situation.

Subdivision (b)(3) of Section 8920 prohibits a legislator from accepting compensation, or being in partnership with a person who accepts compensation (unless the legislator does not share in the compensation) for services regarding a licensing or regulatory matter, before a state board or agency which is established by law for the primary purpose of licensing or regulating the professional activity of persons licensed.

We assume that the representation in question entails appearances before the Department of Health Care Services (see generally Secs. 14000, W&I C.) in order to secure a contract between the department and the group or corporation seeking to provide health care services to Medi-Cal recipients. In our opinion, the department was established primarily to meet the health care needs of recipients of public assistance (Sec 14001 1, W.&I C) and not for the *primary* purpose of licensing or regulating the professional activity of persons licensed Therefore, we do not think that appearances before the department are prohibited by the Code of Ethics.

Question No. 2

Can a legislator-lawyer own stock in a management corporation which handles the nonmedical functions of a prepaid health plan?

Opinion No. 2

We are of the opinion that a legislator-lawyer can own stock in a management corporation which handles the nonmedical functions of a prepaid health plan.

Analysis No. 2

Government Code Section 1090 provides as follows:

"1090 Members of the Legislature, state, county, district, judicial district, and city officers or employees shall not be financially interested in any contract made by them in their official capacity, or by any body or board of which they are members. Nor shall

state, county, district, judicial district, and city officers or employees be purchasers at any sale or vendors at any purchase made by them in their official capacity.

"As used in this article, 'district' means any agency of the state formed pursuant to general law or special act, for the local performance of governmental or proprietary functions within limited boundaries."

This basic prohibition against contracting would not, in our opinion, apply to a contract between a company in which a legislator may be "interested" and an agency in another branch of state government, since a Member of the Legislature merely by virtue of his status as such, has no official connection with any other state agency, and therefore is not in the position of dealing with himself in the dual capacity of private citizen and state official. The Attorney General has reached a similar conclusion. (See 14 Ops. Cal. Atty. Gen. 78.)

The Code of Ethics for legislators, among others, discussed above, should also be noted in this connection.

Without discussing each section of the Code of Ethics, it does not appear from the facts before us that the arrangement in question necessarily contravenes any of its prohibitions. They refer, in the main, to the misuse of a legislator's position or the legislative process to obtain pecuniary advantage for himself or a client, and to engaging in activities that would impair his independence of judgment. This is not to say, however, that in some situation arising out of the facts given above, a conflict of interest could not exist.

In this regard provision is made in the Code of Ethics whereby a legislator can abstain from voting on a bill in which he has a personal interest (Sec. 8920(b)(5)).

In conclusion, we find no violation of the Code of Ethics or of Section 1090 of the Government Code in the situation you describe. Thus we are of the opinion that a legislator-lawyer can own stock in a management corporation which handles the nonmedical functions of a prepaid health plan.

Very truly yours,

GEORGE H. MURPHY
Legislative Counsel

Deputy Legislative Counsel

REFERENCE OF BILLS TO COMMITTEE

Pursuant to the Assembly Rules, the following bill was referred to committee:

Senate Bill No.	*Committee*
1264	Ways and Means

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Thomas was granted unanimous consent that the following letter of transmittal be printed in the Journal:

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

SIRS: Transmitted herewith is a report summarizing significant findings concerning Squaw Valley and the 1960 Winter Olympics. Since the electorate of Colorado rejected using public funds to finance the 1976 Winter Olympics, the Joint Legislative Audit Committee has had several inquiries about the financing and operation of the 1960 Winter Olympics.

The recorded cost of the 1960 Olympics was over $16 million. Funds were provided from the following sources:

	Amount	*Percent*
State of California	$ 9,178,000	57.0
U. S. Government	3,500,000	22.0
State of Nevada	363,000	2.0
Admissions	2,026,000	12.5
Private and business contributions	275,000	2.0
Television, parking, program sales, salvage, etc.	723,000	4.5
	$16,065,000	100.0

In addition to the above, the Armed Forces loaned manpower and equipment and several state agencies provided services without reimbursement.

Construction and purchase of facilities accounted for $10.3 million of the cost and $5.8 million was used for the administration and staging of the games.

The State appropriated funds to the Olympic Commission, a State agency, who reimbursed the Organizing Committee, a nonprofit corporation for staging the games. Budget estimates of revenues and expenditures were not accurate and budgetary control over operations virtually nonexistent. The International Olympic Commission and various sports federations changed plans on short notice which caused unnecessary expenditures. Controls over revenues from ticket sales, parking, ski lifts, programs were not effective. Housing was purchased and not used.

When appropriations from the State Beach and Park Fund reached $8 million in 1957 the Legislature specified that all property and facilities be turned over to the State Park System soon after the close of the games. The State Park System ended up with some $188,000 of unpaid bills and claims along with facilities which were stripped of leased furnishings and equipment. Long-term concession agreements were negotiated with the Squaw Valley Development Company (Alex Cushing and others) and Squaw Valley Improvement Corporation (Newsome and Pelosi). The concessionnaires have invested millions in Squaw Valley since 1960. The recovery of these investments through depreciation charges has limited the revenues payable to the State. Since 1960 it has cost the State $3 million more than it has earned on the leases.

In order to hold the Olympics at Squaw Valley in 1976 or later years, existing facilities would have to be leased from the concessionnaires An outdoor speed skating rink, three or more practice rinks for hockey and skating would be needed since these facilities have been demolished. The administration, press, official and timers' buildings and spectator facilities would have to be constructed again as these were temporary buildings or have been put to other use since 1960. Ski courses and jumps would have to be reconstructed

Under Chapter 1377, Statutes of 1971 which was effective in March 1972, the operation and maintenance of the park has been assigned to the Department of General Services A general fund appropriation of $275,000 is available in 1972–73 to cover the net loss for that year. The Department of General Services is attempting to reduce the State's operating costs in order to improve on the salability of the State's interests. Previous attempts to sell the property have not been successful.

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Above report referred to the Committee on Ways and Means.

House Resolution No. 136

Relative to vocational education in agriculture

WHEREAS, The economy of California is largely dependent on agriculture, the largest and singly the most important segment of the economy; and

WHEREAS, The continued strength of agriculture is assured through a viable vocational education program in agriculture; and

WHEREAS, Vocational education in agriculture has helped to maintain California's economic position in agriculture for over fifty years; and

WHEREAS, The vocational agriculture program in California has shown a continued and unparalleled growth; and

WHEREAS, The phasing out of sub-regional offices and the reduction of state staff in vocational agriculture greatly reduces the services to local school districts with vocational agriculture programs and will subsequently impair the value of such programs; and

WHEREAS, The loss of services to school districts directly affects the youth in vocational agriculture and subsequently adversely affects the program of Future Farmers of America; and

WHEREAS, The cost of administering the vocational program (at state level) is wholely supported by funds from various federal vocational education acts; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Superintendent of Public Instruction be commended for supporting vocational education in agriculture in the past; and be it further

Resolved, That he be urged to continue to support vocational education in agriculture through maintenance of field offices and services to local districts at no less a level than in the past; and be it further

"(a) Continued growth in travel demand resulting from population growth, concentration of population in urban areas, and increasing mobility requirements indicate that there is a need for new transportation systems to accommodate increased demand Many urban corridors are at or near capacity, and forecasts indicate that future demands will be beyond the practical capabilities of a highway solution Environmental problems associated with the automobile make it increasingly evident that California can no longer rely almost exclusively on the private automobile to meet the increasing demands for mobility It will be necessary to develop alternative modes for transporting people and goods within the state's urban areas

(b) A goal of the state is to provide adequate, safe, and efficient transportation facilities and services for the movement of people and goods at reasonable cost The provision of alternative transportation services for persons not served by the private automobile, particularly the disadvantaged the elderly, the handicapped, and the young, should be an integral element of the planning process Stimulation of the provision of transportation not only for speed and efficiency of travel, but also for convenience and enjoyment in shopping, school, cultural, and business pursuits, leisure time travel, and pedestrian travel, is also a state aim It is the desire of the state to provide a transportation system that significantly reduces hazards to human life, pollution of the atmosphere, generation of noise, disruption of community organization, and adverse impacts on the natural environment The desirability of utilizing corridors for multimodal transportation, where possible to improve efficiency and economy in land use and which further desirable future land development patterns, is recognized The coastal zone should be provided with optimal transportation services consistent with regional goals and plans, with the objective of conserving the coastal resource

(c) The responsibilities for decisionmaking for California's transportation systems are highly fragmented, with the large number of independent public and private agencies dedicated to one transportation mode within limited geographic jurisdictions This has hampered effective integration of transportation planning and intermodal coordination A comprehensive multimodel transportation planning process should be established which involves all levels of government and the private sector in a cooperative process to develop coordinated transportation plans.

(d) Accelerating change and increasing transportation problems require that California take timely action to maintain viable transportation systems The state should demonstrate leadership in the face of increasing federal involvement As long lead times are necessary to develop transportation systems, the planning and development of transportation in California should be coordinated by a Department of Transportation. A multimodal transportation department in state government is in keeping with the direction of federal policy and the necessities of contemporary problems. However, there is no intent to diminish or preempt the existing authorities and responsibilities of regional, local, and district transportation agencies in their handling of transportation matters which are exclusively local or regional in nature

(e) The stimulation, continuance, and improvement of statewide, regional, and local transportation planning and development are a matter of state concern, and the state should, for this reason, provide a portion of the financial resources and assistance necessary to aid in preparing transportation plans, developing effective transportation decisionmaking processes, and carrying out implementation programs

14000 5 The Legislature further finds and declares that the role of the state in transportation shall be to

(a) Encourage and stimulate the development of urban mass transportation and interregional high-speed transportation as a means of carrying out the policy of providing complementary means of transportation to the automobile.

(b) Implement and maintain a state highway system which supports the goals and priorities determined through the transportation planning process, which is in conformity with comprehensive statewide and regional transportation plans, and which is compatible with statewide and regional socioeconomic and environmental goals, priorities and available resources

(c) Assist in the development of an air transportation system that is consistent with the needs and desires of the public, and in which airports are compatible in location with, and provide services meeting, statewide and regional goals and objectives

(d) Encourage research and development of technological innovation in all modes of transportation in cooperation with public agencies and the private sector."

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Meade

House Resolution No. 137

Relative to the State Department of Public Health

WHEREAS, The State Department of Public Health is transferring its facilities and employees from Berkeley to Sacramento, and

WHEREAS, The transfer, which is planned to be completed by July 1, 1973, except as to the Berkeley laboratories, will affect approximately 800 employees by such date and approximately 380 laboratory employees later, and

WHEREAS, Many of the department's employees, especially persons recruited from minority and disadvantaged groups, cannot financially afford to move to Sacramento, and many employees, who are highly skilled and experienced technical and professional personnel, will resign rather than move; and

WHEREAS, This loss of personnel may stall key programs for months or even years, and

WHEREAS, The highly technical Public Health Laboratories and the Public Health Library, which the department shares with the University of California School of Public Health, will have to be duplicated in Sacramento at considerable cost, and

WHEREAS, The economic impact of the loss of the department's payroll will be felt throughout the entire San Francisco Bay Area with adverse consequences, and

WHEREAS, Transferring the department's Berkeley facilities to Sacramento will result in a loss rather than gain in efficiency due to increased cost of office space, difficulty in recruiting medical and technical personnel in Sacramento, and increased travel expenses on account of the less centralized location of Sacramento with respect to the rest of the state, now, therefore, be it

Resolved by the Assembly of the State of California, That the State Department of Public Health and its successor agency, the State Department of Health, are requested to maintain the department's facilities in Berkeley at their present location; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, the Secretary of the Health and Welfare Agency, the Director of Public Health and, upon his appointment, to the Director of Health.

Request for Unanimous Consent

Mr Meade was granted unanimous consent to take up House Resolution No 137 without reference to committee or file.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Thomas was granted unanimous consent that the following letter of transmittal be printed in the Journal:

Joint Legislative Audit Committee

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly of the Legislature of California

Sirs: We herewith transmit a report on federal, state, and privately funded health care programs This report is prepared in the form of a catalog for the convenience of the users

Each program is described in sufficient detail to disclose its authorization, objectives, type of assistance, the amount of funds available, eligibility for the funds, and how the funds may be used Also listed are the contact agencies through which information and applications for the funds and programs may be obtained.

We did not find any major publicly funded programs which originate below the state level City, county and local governmental agencies are using their resources to implement state and federal programs that require matching funds or local financial participation.

The report identifies 244 programs available in 1971–72 which probably will be continued in subsequent years The federal funded programs amount to $7 3 billion of which California should receive around 10 percent or $730 million The amount of federal funds the California state, local, and private health agencies have received has not been determined State funded programs amounting to $140 million are reported. Privately funded programs amounting to $14 million are reported.

The total of all funds available for expenditure by categories follows:

Facilities	$ 992 million
Youth Health	412 million
Mental Health	547 million
General Health	4,438 million
Research Grants	678 million
Training Grants	283 million
Education Grants	108 million
Total	$7,458 million

The purpose of preparing this catalog is to inform the public as to the availability of funds to implement health care programs where needed We have been concerned about the need to provide adequate emergency and continuing health care services throughout the state, especially in low income areas.

It is anticipated that this report will help governmental, and private agencies to implement health care programs where needed to improve the quality of life for many individuals.

Respectfully submitted,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Opinion of Legislative Counsel

Sacramento, November 30, 1972

Honorable John T. Knox
Assembly Chamber

Environmental Quality (A B 889)—#18960

Dear Mr. Knox:

Question

The provisions of Assembly Bill No 889 of the 1972 Regular Session of the Legislature, as amended November 27, 1972,[1] would, if enacted, provide, among other things, that Division 13 (commencing with Section 21000) of the Public Resources Code [2] (the Environmental Quality Act of 1970 [3]) shall not apply to certain projects until the 121st day after the effective date of such provisions [4] (proposed Sec 21171; see also proposed Secs 21083, 21169, 21170, and 21172 5). You have asked us whether a city or a county may enact its own ordinance requiring the preparation of environmental impact reports or studies during such 121-day "moratorium" period with respect to projects which, for that period, would be exempt from the environmental impact report requirements of EQA.

Opinion

In our opinion a city or a county may enact its own ordinance requiring the preparation of environmental impact reports or studies during the 121-day "moratorium" period following enactment of the bill with respect to projects which, for that period, would be exempt from the environmental impact report requirements of EQA.

Analysis

The California Supreme Court decision in the case of *Friends of Mammoth* v. *Board of Supervisors*, 8 Cal 3d 1, as modified November 6, 1972, interpreted the second sentence of Section 21151. Section 21151, which is a part of the EQA, reads as follows:

> "21151 The legislative bodies of all cities and counties which have an officially adopted conservation element of a general plan shall make a finding that any project they intend to carry out, which may have a significant effect on the environment, is in accord with the conservation element of the general plan *All other local governmental agencies shall make an environmental impact report on any project they intend to carry out which may have a significant effect on the environment* and shall submit it to the appropriate local planning agency as part of the report required by Section 65402 of the Government Code" (Emphasis added)

As can be seen from the emphasized portion of Section 21151, supra, the section requires local governmental agencies (which have

1 Hereinafter referred to as the "bill"
2 All statutory references are to the Public Resources Code
3 Hereinafter referred to as "EQA"
4 The provisions of the bill would take effect immediately upon enactment as an urgency statute (see Sec 19 of the bill)

not yet adopted a conservation element of a general plan) to make an environmental impact report on any "project" they intend to carry out which may have a significant effect on the environment [5]

The court in *Friends of Mammoth* v *Board of Supervisors*, supra, after having reviewed the legislative intent of EQA and the relationship between that act and the federal National Environmental Policy Act of 1969 (Secs. 4321, et seq, 42 U S C A), concluded that the term "project" as used in Section 21151, supra, included not only public works type projects but also private activities for which a local governmental agency permit or other entitlement is required (pp 15, 16, 19). The court noted in its Modification of Opinion, filed November 6, 1972, at page 4 of the modification, that, prior to its decision, it was widely believed that those provisions did not apply to such private projects.

The bill would add Section 21065, which would become a part of the EQA, to expressly define "projects" to include private projects Proposed Section 21065 reads as follows·

"21065. 'Project' means the following:

"(a) Activities directly undertaken by any public agency.

"(b) *Activities undertaken by a person which are supported in whole or in part through contracts*, grants, subsidies, loans, or other forms of assistance *from one or more public agencies*

"(c) *Activities involving the issuance to a person of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies* [6]" (Emphasis added.)

Proposed Section 21171 would provide that EQA shall not apply to any of the private projects emphasized above in subdivisions (b) and (c) of Section 21065, supra, until the 121st day after the effective date of the section, except as to certain ongoing projects validated by the bill (proposed Sec. 21169) and as to certain projects subject to legal proceedings (proposed Sec 21170)

The question posed is whether a city or county may enact its own ordinance requiring the preparation of environmental impact reports or studies during such 121-day "moratorium" period with respect to private projects which, for that period, would be exempt from the environmental impact report [7] requirement of EQA

Section 7 of Article XI of the California Constitution states that:

"A county or city may make and enforce within its limits all local, police, sanitary, and other ordinances and regulations not in conflict with general laws "

Assuming, for the purposes of this discussion, that the ordinance would be a valid exercise of the police power of the city, county, or city

[5] The bill would amend Section 21151 to, in effect, remove the exemption from environmental impact report requirements of local agencies which have adopted a conservation element of a general plan (see Sec 11 of the bill)

[6] The bill would exclude "ministerial" projects from the requirements of EQA (see proposed Sec 21080)

[7] The bill specifies those matters which must be set forth in an environmental impact report (proposed Sec 21060, Sec 21100, as amended by Sec 2 5 of the bill)

and county, it is necessary to determine, therefore, whether such an ordinance would be in conflict with the provisions of EQA

In considering whether an ordinance conflicts with a general law, clearly there is such a conflict (sometimes described as a conflict of jurisdiction) where the ordinance authorizes an act which is prohibited by state law or prohibits an act which is authorized by state law Although not so obvious, the ordinance must also yield where it duplicates state law (see, generally, 35 Cal Jur 2d, Municipal Corporations, Sec. 234, at p 55) Whatever reports or studies might be required by local ordinance would clearly not be duplicatory of state law but, rather, would impose environmental impact report requirements during a period when no such requirements would be imposed by state law

There is also to be considered the doctrine of state "preemption" of a subject otherwise open to regulation by a local agency. As stated in *Stewart* v *County of San Mateo*, 246 Cal App 2d 273, at page 282:

> ". . . Whenever the Legislature has seen fit to adopt a general scheme for the regulation of a particular subject, the entire control over whatever phases of the subject are conferred by state legislation ceases as far as local legislation is concerned. (Citations omitted) Whether the Legislature intended to occupy a particular field to the exclusion of all local regulation is to be determined upon an analysis of the state legislation in terms of its language, purpose, and scope, and the facts and circumstances upon which it was intended to operate "

The doctrine of preemption may come into play when the Legislature has enacted some legislation in a field but has not prohibited a particular act, and the question then arises whether a city or county may adopt an ordinance, supplementing state law, prohibiting that act. There may be an express statement by the Legislature that it does not intend to preempt the field (e g , Sec 2427, H & S C), and in such case, additional supplementary local regulation has been considered permissible (see *People* v *Moore*, 229 Cal App 2d 221, 226)

In the present case, the provisions of proposed Section 21171 would expressly state that the "moratorium" provisions of that section shall not prevent a public agency from considering environmental factors during the 121-day period in connection with the approval or disapproval of a project Proposed Section 21171 reads in pertinent part, as follows·

> "21171 * * *
>
> "This section shall not prohibit or prevent a public agency, prior to the 121st day after the effective date of this section, from considering environmental factors in connection with the approval or disapproval of a project and from imposing reasonable fees in connection therewith."

Thus, we conclude that a city or a county may enact its own ordinance requiring the preparation of environmental impact reports or studies during the 121-day "moratorium" period following enactment of the bill with respect to projects which, for that period, would be exempt from the environmental impact report requirements of EQA

GEORGE H MURPHY

Amendment No. 2

In line 2 of the title, strike out "peace officers", and insert "prisoners".

Amendment No. 3

On page 1, strike out line 1, and insert

"SECTION 1 Section 1208 of the Penal Code is amended to read:

1208 (a) The provisions of this section, insofar as they relate to employment, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to employment, in that county is feasible The provisions of this section, insofar as they relate to education, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of education conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to education, in that county is feasible In any such ordinance the board shall prescribe whether the sheriff, the probation officer, or the superintendent of a county industrial farm or industrial road camp in the county shall perform the functions of the work furlough administrator The board of supervisors may also terminate the operativeness of this section, either with respect to employment or education in the county if it finds by ordinance that, because of changed circumstances, the operation of this section, either with respect to employment or education in that county is no longer feasible

Notwithstanding any other provision of law, the board of supervisors may by ordinance designate a facility for confinement of prisoners classified for the work furlough program and designate the work furlough administrator as the custodian of the facility The sheriff may transfer custody of such prisoners to the work furlough administrator to be confined in such facility for the period during which they are in the work furlough program

(b) When a person is convicted of a misdemeanor and sentenced to the county jail, or is imprisoned therein for nonpayment of a fine, for contempt, or as a condition of probation for any criminal offense, or committed under the terms of Section 6404 or 6406 of the Welfare and Institutions Code as a habit-forming drug addict, the work furlough

administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular employment, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure employment for himself, unless the court at the time of sentencing or committing has ordered that such person not be granted work furloughs. The work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular educational program, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure education for himself, unless the court at the time of sentencing has ordered that such person not be granted work furloughs

(c) If the work furlough administrator so directs that the prisoner be permitted to continue in his regular employment or educational program, the administrator shall arrange for a continuation of such employment or education, so far as possible without interruption. If the prisoner does not have regular employment or a regular educational program, and the administrator has authorized the prisoner to secure employment or education for himself, the prisoner may do so, and the administrator may assist him in doing so Any employment or education so secured must be suitable for the prisoner Such employment or educational program, if such educational program includes earnings by the prisoner, must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment or educational program involving earnings by the prisoner be permitted where there is a labor dispute in the establishment in which the prisoner is, or is to be, employed or educated

(d) Whenever the prisoner is not employed or being educated and between the hours or periods of employment or education, he shall be confined in the facility designated by the board of supervisors for work furlough confinement unless the work furlough administrator directs otherwise If the prisoner is injured during a period of employment or education, the work furlough administrator shall have the authority to release him from the facility for continued medical treatment by private physicians or at medical facilities at the expense of the employer, workman's compensation insurer, or the prisoner Such release shall not be construed as assumption of liability by the county or work furlough administrator for medical treatment obtained

The work furlough administrator may release any prisoner classified for the work furlough program for a period not to exceed 72 hours for medical, dental, or psychiatric care, and for family emergencies or pressing business which would result in severe hardship if the release were not granted.

(e) The earnings of the prisoner may be collected by the work furlough administrator, and it shall be the duty of the prisoner's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of attachment or execution or in other lawful manner shall not be transmitted to the administrator If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. In a case in which

the functions of the administrator are performed by a sheriff, and such sheriff receives a writ of attachment or execution for the earnings of a prisoner subject to this section but has not yet requested transmittal of the prisoner's earnings pursuant to this section, he shall first levy on the earnings pursuant to the writ When an employer or educator transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the prisoner for such earnings From such earnings the administrator shall pay the prisoner's board and personal expenses, both inside and outside the jail, and shall deduct so much of the costs of administration of this section as is allocable to such prisoner, and, in an amount determined by the administrator, shall pay the support of the prisoner's dependents, if any If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the prisoner, pay, in whole or in part, the preexisting debts of the prisoner Any balance shall be retained until the prisoner's discharge and thereupon shall be paid to him

(f) The prisoner shall be eligible for time credits pursuant to Sections 4018, 4019, and 4019.2.

(g) In the event the prisoner violates the conditions laid down for his conduct, custody, education, or employment, the work furlough administrator may order the balance of the prisoner's sentence to be spent in actual confinement

(h) Willful failure of the prisoner to return to the place of confinement not later than the expiration of any period during which he is authorized to be away from the place of confinement pursuant to this section is punishable as provided in Section 4532 of the Penal Code

(i) As used in this section, "education" includes vocational training, and "educator" includes a person or institution providing vocational training

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Burton was granted unanimous consent that the following communication be printed in the Journal:

December 1, 1972

Honorable Bob Moretti
Speaker of the Assembly
Room 3164, State Capitol

Dear Mr. Speaker. Relative to the decision of this House on November 14 not to override the Governor's veto of Assembly Bill 680, I would appreciate having this letter and two accompanying documents printed in the Assembly Journal.

AB 680, of which I was the author, was designed to eliminate a confusing bit of red tape in the processing of welfare applications which has worked an injustice and a hardship on welfare recipients

For example, the slowness of administrative procedure may result in a recipient receiving a lump sum larger than the monthly grant for which he is eligible. Applying Catch-22 at this point, the welfare department can terminate the applicant because he has too much money. In other words: "We're sorry, but because we have found you eligible, you are now ineligible."

Governor Reagan in his veto message said he believed our corrective legislation would create a loophole which welfare recipients could use to their advantage

By way of further amplification, and to clarify the record, I am placing the accompanying documents in the Assembly Journal:

1. A letter dated September 14, 1972 to Robert B Carleson, Director of the State Department of Social Welfare, from James N McGuire, Associate Regional Commissioner of the Department of Health, Education and Welfare. In this letter Mr. McGuire makes it clear that the practice of considering a lump sum retroactive payment as either current income or as reserve cash is inconsistent with the law. As he so aptly puts it: "This would in effect provide a bonus to the agency for making incorrect determinations and place a premium on incorrect action."

2. A memorandum dated November 6, 1972 to all county welfare directors from Mr Carleson purporting to direct compliance with Mr McGuire's letter and the federal law Actually, it continues to advocate a violation of the law. Mr Carleson does this by applying his own interpretation that a lump sum retroactive payment must be spent within the month received and if it is not, it then will be considered reserve property.

I submit that Mr Carleson's interpretation is nothing more than a devious device intended to circumvent the law and deny poor people the meager assistance to which they are entitled

Sincerely,

JOHN L. BURTON

Department of Health, Education, and Welfare

September 14, 1972

Mr. Robert B Carleson, Director
State Department of Social Welfare
744 P Street, Sacramento, California

Dear Mr Carleson · The Legal Aid Foundation of Long Beach has called our attention to the situation of Esther Pennington (State No 1960-191-315) The situation seems to be that following a fair hearing in which a decision favorable to Ms Pennington was rendered, she was found ineligible because of the retroactive payments that were made following the hearing These made the personal property reserve over your State maximum The Deputy Director in Long Beach confirmed to the Legal Aid Foundation that the retroactive payments were being counted as personal property It is also pointed out that similar situations have occurred at least twice before within the immediate past

The basic purpose of a fair hearing is to determine whether an error has been made in relation to the recipient's eligibility or amount of grant and if so, to take corrective action When this situation occurs the agency makes corrective payments retroactively which means, in effect, that the agency is now granting the individual the amount of money that had been erroneously withheld Thus, any consideration of this corrective retroactive payment as either current income or reserve would be inconsistent with 45 CFR 205 10 paragraph 13. The fair hearing requirements would essentially become an empty guarantee to recipients if agencies were allowed to take an adverse action against a recipient and then permit it to enforce a fair hearing decision reversing that action in such a way as to nevertheless still adversely affect the recipient's eligibility or amount of assistance. This would in effect provide a bonus to the agency for making incorrect determinations and place a premium on incorrect action

We have not heard of this situation elsewhere in the State, and it is possible that this may be a local interpretation only We did, however, need to bring this to your attention so that the practice will not continue anywhere in the State.

Sincerely yours,

JAMES N McGUIRE
Associate Regional Commissioner
Assistance Payments Administration

Department of Social Welfare

Sacramento, November 6, 1972

To · All County Welfare Directors

Several questions have been raised concerning how corrective lump-sum retroactive payments—made after processing aid applications, fair hearing decisions, court orders, discovery of administrative error, etc —

are to be treated in determining eligibility for and the amount of public assistance.

Such payments do not constitute either current income *or* property reserves in the budget period received or during the full budget period following receipt of the corrective retroactive lump-sum payment. This allows recipients of such payments the opportunity to correct financial problems which might have arisen during the period when aid was not paid.

Under California law, however, any remaining balance of such payments must be applied during subsequent budget periods against the property reserve limits as set forth in the Welfare and Institutions Code and the Eligibility and Assistance Standards Manual (see *Petersen* v. *Social Welfare Board*, 190 Cal App 2d 652)

Thus, recipients of such retroactive payments are entitled to at least a full budget period to arrange solutions to their prior financial problems Upon expiration of that period, such recipients, with their resources, shall be treated identically with all other recipients of public assistance, including the application of EAS Manual Section 42-221 321.

Sincerely,

ROBERT B CARLESON
Director of Social Welfare

"SEC. 23. Article 2 (commencing with Section 17651) of Chapter 3 of DIVISION 14 of the Education Code is repealed

SEC 24. Article 2 (commencing with Section 17631) is added to Chapter 3 of DIVISION 14 of the Education Code, to read:

Article 2. Computation of Units of Average Daily Attendance

17631 The Superintendent of Public Instruction shall compute for each school district the amount of average daily attendance to be used in variable foundation programs, basic aid, and special education programs.

17632. In necessary small schools with an average daily attendance of less than 100, exclusive of the average daily attendance for pupils attending grades 7 and 8, there shall be deemed to be an average daily attendance of 25 times the number of full-time equivalent certificated employees but not to exceed 100 units of average daily attendance.

17633. For the purposes of Section 17632 a "necessary small school" is an elementary school with an average daily attendance of less than

101, exclusive of pupils attending the seventh and eighth grades of a junior high school, during the current fiscal year maintained by an elementary school district which maintains two or more schools and to which school any of the following conditions apply:

(a) If as many as five pupils residing in the district and attending grades kindergarten to 8, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school in the elementary school with an average daily attendance of less than 101 would be required to travel more than 10 miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

(b) If as many as 15 pupils residing in the district and attending grades kindergarten to 8, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school in the elementary school with an average daily attendance of less than 101 would be required to travel more than five miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

(c) If the Superintendent of Public Instruction grants a request made pursuant to this subdivision If topographical or other conditions exist in a district which would impose unusual hardships if the number of miles specified in subdivision (a) or (b) were required to be traveled or if during the fiscal year the roads which would be traveled have been impassable for more than an average of two weeks per year for the preceding five years, the governing board of the district may, on or before April 1st, request the Superintendent of Public Instruction, in writing, for an exemption from such requirements or for a reduction in the miles required The request shall be accompanied by a statement of the conditions upon which such request is based, giving such information in such form as the Superintendent of Public Instruction may require. The Superintendent of Public Instruction shall cause an investigation to be made, and he shall either grant such request to the extent deemed necessary by him or deny the request.

17634. The Superintendent of Public Instruction shall compute the average daily attendance for necessary small schools as defined in Section 17633 and add to that amount the average daily attendance in all other schools in the district.

17635 A necessary small high school for the purposes of Section 17639, is a high school with an average daily attendance of less than 301, or a junior high school with an average daily attendance of less than 75 in grade 9, which comes within any of the following conditions (except that a single high school maintained by a unified district formed under the provisions of Sections 3001 to 3451, inclusive, or formed under Sections 813, 1481 to 1493, inclusive, 2811 to 2931, inclusive, 13005, 13554, and 21802, or a high school maintained by any district for the exclusive purpose of educating continuation, juvenile hall, physically handicapped, or mentally retarded pupils shall be considered a necessary small high school):

(a) The projection of its future enrollment on the basis of the enrollment of the elementary schools in the district shows that within eight years the enrollment in high school in grades 9 through 12 will exceed 300 pupils.

(b) Any one of the following combinations of distance and units of average daily attendance applies.

(1) The high school had an average daily attendance of less than 100 in grades 9 through 12 during the preceding fiscal year and is more than 15 miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 20 miles or 25 percent of the pupils would be required to travel 30 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(2) The high school had an average daily attendance of 100 or more and less than 150 in grades 9 through 12 during the preceding fiscal year and is more than 10 miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 18 miles or 25 percent of the pupils would be required to travel 25 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(3) The high school had an average daily attendance of 150 or more and less than 200 in grades 9 through 12 during the preceding fiscal year and is more than 7½ miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 15 miles or 25 percent of the pupils would be required to travel 20 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(4) The high school had an average daily attendance of 200 or more and less than 300 in grades 9 through 12 during the preceding fiscal year and is more than five miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 10 miles or 25 percent of the pupils would be required to travel 15 miles to the nearest other public high school.

(c) Topographical or other conditions exist in the district which would impose unusual hardships on the pupils if the number of miles specified above were required to be traveled In these cases, the Superintendent of Public Instruction may, when requested, and after investigation, grant exceptions from the distance requirements

(d) The Superintendent of Public Instruction has approved the recommendation of a county committee on school district organization designating one of two or more schools as necessary isolated schools in a situation where the schools are operated by two or more districts and the average daily attendance of each of the schools is less than 300 in grades 9 through 12.

17636 If a high school is determined to be a necessary small high school under Section 17635, its status as such shall not be changed except as a review of the determinative factors made every five years following the date of the determination, indicates that the determination should be changed

Any high school district not presently determined to be a necessary small high school district under Section 17635, may be determined to be such at the beginning of any fiscal year, provided, it comes within the provisions of Section 17635.

17637. On and after July 1, 1960, whenever the governing board of a district maintaining a small high school which does not come within the provisions of Section 17663, undertakes any building construction or alteration in respect to that school, of a type requiring the submission of plans to the Department of General Services, the school shall forthwith be classified as an unnecessary small school. Thereafter, the foundation program for the district in respect to that school shall be computed pursuant to Section 17665, notwithstanding an average daily attendance of less than 301.

Prior to the fiscal year a district undertakes any building construction or alteration in respect to a small high school, the weighted attendance for the district in respect to that school shall be computed pursuant to Section 17639.

17638. Section 17637 does not apply to a high school which meets both of the following criteria:

(a) It is a high school in a high school district which maintains six or more high schools; and,

(b) Since 1948, the attendance area of the high school has been included in three separate proposals for unification with an adjoining high school district and each proposal has been rejected by the electors of the territory involved.

17639. The weighted attendance for necessary small schools shall be computed according to the following schedule:

Average daily attendance	Minimum number of full-time certified employees	Weighted attendance allowance
1– 20	3	84
21– 40	4	102
41– 60	5	120
61– 75	6	138
76– 90	7	156
91–105	8	174
106–120	9	192
121–135	10	210
136–150	11	228
151–180	12	246
181–220	13	264
221–260	14	282
261–300	15	300

17640 The Superintendent of Public Instruction shall compute the average daily attendance of high school districts by adding the attendance allowances computed pursuant to Section 17639 to the total amount of average daily attendance in the other schools of the district and any average daily attendance credited to the district pursuant to Section 10815.

17641. The Superintendent of Public Instruction shall annually adjust the foundation program amounts prescribed by this article by the percentage increase or decrease in the statewide ratio of assessed value of taxable property per unit of statewide average daily attendance.

SEC 25 Article 2.5 (commencing with Section 17665) is added to Chapter 3 of Division 14 of the Education Code, to read:

Article 2 5. Computation of Foundation Programs and Allowances for Community College Districts

17665. The Superintendent of Public Instruction shall compute the foundation programs for each community college district in the manner prescribed in this article.

17666 2. (a) Except for a community college district which qualifies under subdivision (b), for each community college district, he shall multiply the number of units of average daily attendance, during the fiscal year, in grades 13 and 14 computed for the district under Sections 11451 and 11501, subject to the provisions of Section 17611, by six hundred forty-three dollars ($643).

(b) For each community college district which has an average daily attendance of less than 1,001 during the fiscal year 1965–1966 and during the fiscal year 1966–1967, and for each community college district which has an average daily attendance of less than 1,001 during the fiscal year and qualifies as a necessary small community college district as defined in Section 17666 3 for the fiscal year 1969–1970 and fiscal years thereafter, the Superintendent of Public Instruction shall make one of the following computations selected with regard only to the number of certificated employees employed or average daily attendance, whichever provides the lesser amount.

Average daily attendance	Minimum number of full-time certificated employees	Amount to be computed
1– 150	12	$172,900
151– 200	15	225,133
201– 300	18	277,366
301– 400	21	329,599
401– 500	24	381,832
501– 600	27	434,065
601– 700	30	486,298
701– 800	33	538,531
801– 900	36	590,764
901–1,000	39	643,000

(c) A community college district shall not be eligible for the foundation program computed under subdivision (b), unless it levies during the fiscal year a tax, exclusive of taxes levied under Sections 1822 2, 1825, 16633, 16635, 16645 9, 19443, 19619, 20801 and 22101, of not less than thirty-five cents ($0 35).

For purposes of this section and Section 17851, the average daily attendance of a community college district shall, subject to the provisions of Section 17611, be computed in the manner prescribed by Sections 11451 and 11501 except that there shall be excluded from the computation the attendance of all students deemed "nonresident" as defined in Sections 25505 and 25505 1 Notwithstanding the above provisions of this section, the attendance of students deemed nonresidents as provided in Sections 25505 and 25505 1 shall be included in the

average daily attendance of a community college for the purposes of Section 17851.

The Superintendent of Public Instruction shall exclude from the computation provided by this section the average daily attendance during the fiscal year of adults, as adults are defined in Section 5756, and of inmates of any state institution for adults or of any city, county, or city and county jail, road camp, or farm for adults

(d) In the event a community college district to which the provisions of subdivision (b) of this section applies is included by any reorganization authorized by law in a community college district which has an average daily attendance of 1,001 or more, the Superintendent of Public Instruction shall continue to compute the foundation program for the community college district included by such reorganization in accordance with the provisions of subdivision (b) of this section

17666.3 For the purposes of Section 17666.2, a necessary small junior college district is a junior college district with an average daily attendance of less than 1,001 during the fiscal year, and which comes within the following conditions:

(a) The projection of the average daily attendance, as used and defined in Section 17666.2, for the district for the next three immediately succeeding fiscal years shall not exceed 1,001

(b) Any one of the following conditions applies:

(1) One campus of the junior college district is more than 30 miles by a well-traveled road from the nearest other public junior college; and either 90 percent of the pupils, exclusive of adults as defined in Section 5756, would be required to travel 20 miles, or 25 percent of the pupils, exclusive of adults as defined in Section 5756, would be required to travel 30 miles one way from a point on a well-traveled road to the nearest other public junior college

(2) The conditions under paragraph (1) of this subdivision do not apply, but on annual application of the district the State Board of Education has determined for the fiscal year that the district is located in an area sufficiently remote so as to necessitate local current expenditures significantly higher than statewide average current expenditures for junior colleges.

17667. The Superintendent of Public Instruction shall annually adjust the foundation program amounts prescribed by this article by the percentage increase or decrease in the statewide ratio of assessed value per unit of statewide average daily attendance

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Knox was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Sacramento, California
December 1, 1972

Honorable John T Knox
Assembly Chamber

Environmental Quality (A B. 889)—#19460

Dear Mr Knox:

Question

The provisions of Assembly Bill No 889 of the 1972 Regular Session of the Legislature, as amended November 30, 1972,[1] would, if enacted, provide, among other things, that Division 13 (commencing with Section 21000) of the Public Resources Code [2] (the Environmental Quality Act of 1970 [3]) shall not apply to certain projects until the 121st day after the effective date of such provisions (Sec 21171)

You have asked us whether the reference in Section 21171 to projects defined in subdivision (c) of Section 21065 would include private projects in the 121-day moratorium period.

[1] Hereinafter referred to as the "bill"
[2] All statutory references are to proposed sections of the Public Resources Code.
[3] Hereinafter referred to as "EQA."

Opinion

In our opinion such reference in Section 21171 would include private projects and certain public projects in the 121-day moratorium period.

Analysis

Section 21171 would provide, in pertinent part, as follows:

"21171. This division, except for Section 21169, shall not apply to *the issuance of any lease, permit, license, certificate or other entitlement for use for any project defined in subdivision (c) of Section 21065* or to any project undertaken by a person which is supported in whole or in part through contracts with one or more public agencies until the 121st day after the effective date of this section. . . ." (Emphasis added.)

Subdivision (c) of Section 21065 would provide, in pertinent part, as follows:

"21065. 'Project' means the following:

* * *

"(c) Activities involving the issuance to a person[4] of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies."

As can be seen, subdivision (c) of Section 21065 defines the term "project" to mean activities involving the issuance of a lease, permit, license, certificate, or other entitlement for use to a person (including both private individuals and entities and public agencies) by one or more public agencies

Thus, in our opinion, the reference in Section 21171 to projects defined in subdivision (c) of Section 21065 would include private projects and certain public projects in the 121-day moratorium period.

Very truly yours,

GEORGE H MURPHY
Legislative Counsel

Governor's message stating his objections appears at pages 7444–7445 of the Assembly Journal for November 8, 1972

The question being: Shall Assembly Bill No. 205 become a law notwithstanding the objections of the Governor?

(1) Any tax imposed by this part shall not apply with respect to the taxable year in which falls the date of his death, or with respect to any prior taxable year ending on or after the first day he so served in a combat zone; and

(2) Any tax under this part which is unpaid at the date of his death (including interest, additions to the tax, and additional amounts) shall not be assessed, and, if assessed, the assessment shall be abated, and if collected shall be credited or refunded as an overpayment.

(b) In addition to any other application, this section is applicable to taxable years ending prior to the effective date of this section for which the tax under this part is not due and payable by virtue of the operation of Sections 18434 or 18470 of this code or of any similar provisions of law

SEC 10. Section 18471 is added to the Revenue and Taxation Code, to read

18471 (a) If refund or overpayment for any taxable year resulting from the application of subdivision (d) of Section 17146 5 (including

interest, additions to the tax, and additional amounts) is prevented at any time before the expiration of the applicable period specified in subdivision (b) of this section by the operation of any law or rule of law, such refund or credit of such overpayment may, nevertheless, be made or allowed if claim therefor is filed before the expiration of such applicable period.

(b) For purposes of this section, the applicable period for any individual with respect to any compensation is the period ending on whichever of the following days is later:

(1) The day which is one year after the effective date of this subdivision, or

(2) The day which is two years after the date on which the individual's missing status (within the meaning of Section 17146 5 (d)) has terminated for purposes of subdivision (d) of Section 17146.5.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Bagley was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Sacramento, December 1, 1972

Honorable William T Bagley
Assembly Chamber

Environmental Quality (A B 889)—#19367

Dear Mr. Bagley:

Question No 1

Is approval of a final subdivision map a ministerial act under subdivision (b) of Section 21080 of the Public Resources Code, as it would be added by Assembly Bill No. 889, as amended in the Senate November 29, 1972?

Opinion and Analysis No 1

A B 889 makes extensive amendments to the Environmental Quality Act of 1970 (see Ch 1433, Stats 1970) Section 21080 deals with the application of the act and its requirement that an environmental impact report be prepared under certain conditions for projects proposed to be carried out or approved by public agencies. Section 21080 provides as follows·

"21080 (a) Except as otherwise provided in this division, this division [Environmental Quality Act of 1970] shall apply to discretionary projects proposed to be carried out or approved by public agencies, including, but not limited to, the enactment and amendment of zoning ordinances, the issuance of zoning variances, the issuance of conditional use permits and the approval of tentative subdivision maps (except where such a project is exempt from the preparation of an environmental impact report pursuant to Section 21166)

"(b) This division shall not apply to ministerial projects proposed to be carried out or approved by public agencies"

The question thus posed is whether, under the language of subdivision (b) of Section 21080, the approval of a final subdivision map would qualify as a "ministerial" project and thus be exempted from the operation of the Environmental Quality Act.

A ministerial act is an act with respect to the performance of which a public officer can exercise no discretion, such an act of duty as may be prescribed by some existing law which it is incumbent upon him to perform precisely as laid down by the law (*Chase* v *Kelber,* 28 Cal. App 561)

The Subdivision Map Act (Secs 11500, et seq , B & P C) provides for a lengthy process of approval of a tentative and finally a final subdivision map While a tentative subdivision map may be rejected on numerous grounds by the governing body of a county or a city (see Secs 11550, et seq , B & P C), after approval of a tentative subdivision map has been secured, it appears that a governing body has no discretion to reject the final map *provided* that it conforms to the requirements of the act and with any local ordinance applicable at the time of approval of the tentative map (Sec 11611, B & P C) In this regard, Section 11611 of the Business and Professions Code provides as follows

"11611 *The governing body shall at its next meeting or within a period of not more than 10 days after the filing approve the map if it conforms to all the requirements of this chapter and of any local ordinance applicable at the time of approval of the tentative map, or any rulings made thereunder*

"The time limit for the approval of such map may be extended by mutual consent of the subdivider and the governing body If no action is taken within such time limit or within the time to which it has been extended by such mutual consent, the map, if it conforms to all the requirements above set forth, shall be deemed to be approved, and it shall be the duty of the clerk of the governing body thereupon to certify the approval.

"The governing body shall at that time also accept, accept subject to improvement, or reject any or all offers of dedication and, unless the streets and easements have been improved and accepted, shall, as a condition precedent to the acceptance of any streets or easements, provide for the improvement of such streets or easements in accordance with standards established by such governing body by local ordinance applicable at the time of approval of the tentative map by requiring the subdivider (a) to enter into an agreement with the city or county upon mutually agreeable terms to thereafter improve said streets and easements at the subdivider's expense, or (b) to enter into a contract with the city or county upon mutually agreeable terms to thereafter initiate and consummate proceedings under an appropriate special assessment act for the financing and installation of all the improvements required by local ordinance.

"The standards may be adopted by reference, without posting or publishing them, if they have been printed in book or pamphlet form and three copies thereof have been filed for use and examination by the public in the office of the clerk of the local agency prior to the adoption." (Emphasis added)

The use of the word "shall" is mandatory (See 19. B & P C) and we are of the opinion that the governing body of a city or county must approve a final subdivision map within 10 days if the preliminary steps have been properly taken (see *Hoover* v *County of Kern,* 118 Cal. App 2d 139, 142)

Moreover, the requirement of an environmental impact report upon the approval of a final subdivision map would be duplicatory and unnecessary in view of the fact that subdivision (a) of Section 21080 requires an impact report upon the approval of a *tentative* subdivision map

In conclusion, we are of the opinion that approval of a final subdivision map pursuant to Section 11611 of the Business and Professions Code apparently meets the standard for a ministerial act and as such would carry out the intent of Section 21080 to require an impact report only at the tentative subdivision map stage and thus would come within the operation of subdivision (b) of Section 21080 of the Public Resources Code as added by A B 889

Question No 2

Are there any circumstances under which approval of a final subdivision map would not be ministerial?

Opinion and Analysis No 2

Section 11611 of the Business and Professions Code, cited above, does not contain any exceptions to the mandatory requirement imposed by its first sentence, provided, of course, that the requirements of the act and of any local ordinance are complied with.

Very truly yours,

GEORGE H MURPHY
Legislative Counsel

"SECTION 1. Section 23754.4 of the Education Code is amended to read:

23754.4. Notwithstanding any provision in this chapter to the contrary, the trustees may defer the collection of tuition charged to nonresident students who are citizens and residents of a foreign country as follows:

(a) The amount which may be deferred may not exceed the excess in the amount of tuition required which is in excess of an annual rate of six hundred dollars ($600) per academic year.

(b) No payment may be deferred beyond a date 30 days prior to the end of the academic term for which it is due, and payment of the deferred amount shall be a condition to the student's completion of that academic term, *provided that payment due for the fall term of 1972 may be collected in installments during the 1972–1973 college year pursuant to such provisions as the chancellor may prescribe*.

(c) In order to qualify for the deferment authorized by this section, a student must have been enrolled in the California State Colleges during the fall term of the 1970–1971 college year or have been accepted for admission on or before November 24, 1970, to a state college for a subsequent term during the 1970–1971 college year, and must remain in continuous attendance as a full-time student making normal progress toward a degree objective, and must not have been awarded a baccalaureate degree or graduate degree from the California State Colleges subsequent to the fall term of the 1970–1971 college year.

This section shall remain in effect until June 30, 1974, and shall have no force or effect after this date.

SEC. 2 This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

As a consequence of delays engendered by court actions, the operative payment date of the uniform rate of tuition for the fall term of 1972 for foreign students identified in Section 23754.4 has been delayed until December 1, 1972 As a result of uncertainties caused by these delays, it appears that a number of such foreign students will be unable to pay the full amount of the increase when it is due By operation of other statutes, a failure to pay the full amount will result, at the least, in a reduction of the students' course unit load for the fall term, 1972, with a corresponding reduction in course credit earned This result can be avoided only if the authority provided by this act is effective immediately "

On page 4, after line 6, insert

"SEC 3. Section 21252 6 of the Government Code as amended by Chapter 1452 of the Statutes of 1971 is amended to read·

21252 6 The combined prior and current service pension for a ~~law enforcement~~ *state safety* member, ~~other than such member defined in Section 20017 7, subdivision (a) of Section 20017 75 or Section 20017 8 of this code,~~ and a local safety member with respect to service to a contracting agency subject to this section, upon retirement after attaining age 55, is a pension derived from contributions of an employer sufficient, when added to that portion of the service retirement annuity which is derived from the accumulated normal contributions of the member at the date of his retirement, to equal one-fiftieth of his final compensation multiplied by the number of years of ~~law enforcement~~ *state safety*, police, fire, or county peace officer service which is credited to him as a ~~law enforcement~~ *state safety* member or a local safety member subject to this section at retirement. Notwithstanding the preceding sentence, this section shall apply to the current and prior service pension for any other ~~law enforcement~~ *state safety* member based on service to which it would have applied had the member, on July 1, 1971, been in employment described in Section 20017 77 *or 20017.78* of this code

In no event shall the total pension for all service under this section exceed an amount which, when added to the service retirement annuity related to such service, equals 75 percent of final compensation If the pension relates to service to more than one employer and would otherwise exceed such maximum, the pension payable with respect to each employer shall be reduced in the same proportion as the allowance based on service to such employer bears to the total allowance computed as though there were no limit, so that the total of such pensions shall equal the maximum

This section shall not apply to a person whose effective date of retirement is prior to the operative date of this section or to a person who retires after such operative date and following reinstatement from a

retirement having an effective date prior to such operative date and before rendering during such reinstatement at least one year of service in which he is subject to this section

The Legislature reserves, with respect to any member subject to this section, the right to provide for such adjustment of industrial disability retirement allowances because of earnings of a retired person and modification of the conditions and qualifications required for retirement for disability as it may find appropriate because of the earlier age of service retirement made possible by the benefits under this section.

The percentage of final compensation provided in this section shall be reduced by one-third as applied to that part of the member's final compensation which does not exceed four hundred dollars ($400) per month for service after the effective date of coverage of a member under the federal system *This paragraph shall not apply to a member who retires after the date upon which coverage under the federal system of persons in his employment terminates It shall not apply to a local safety member employed by a contracting agency electing to be subject to this section after the effective date of the amendments to this section at the 1972 Regular Session unless such agency elects to be subject to this paragraph by amendment to its contract or by appropriate provision of a contract entered into after this provision is effective and as to any such member, the reduction in the percentage of final compensation shall apply to all local safety service to such agency, if any of such local safety service has been included in the federal system*

This section shall not apply to a contracting agency nor its employees unless and until the agency elects to be subject to it by amendment to its contract made in the manner prescribed for approval of contracts or in the case of a new contract, by express provision of the contract. The operative date of this section with respect to a local safety member shall be the effective date of the amendment to his employer's contract electing to be subject to this section

Upon such election by a contracting agency subject to Section 21252 1, this section shall not apply to a local safety member then employed who entered such employment after attaining age 30, and Section 21252 1 shall continue to apply to such member unless and until he terminates such employment and more than 30 days thereafter enters employment otherwise subject to this section. Upon such later entry into employment, the member will be subject to this section with respect to all service as a local safety member rendered to any employer subject to this section

~~This section shall not apply to a person who is a law enforcement member on its operative date and who entered law enforcement service after attaining age 30 unless such person elects in writing to be subject to this section and the election is filed in the office of the board within 30 calendar days following the operative date of this section.~~

SEC 4 It is the intent of the Legislature, if this bill and Assembly Bill No 383 are both chaptered and amend Section 21252 6 of the Government Code, and this bill is chaptered after Assembly Bill No.

383, that Section 21252.6 of the Government Code, as amended by Section 2 of this act shall remain operative only until the operative date of Assembly Bill No. 383, and that on the operative date of Assembly Bill No. 383 Section 21252.6 of the Government Code as amended by Section 2 of this act be further amended in the form set forth in Section 3 of this act to incorporate the changes in Section 21252.6 proposed by Assembly Bill No. 383. Therefore, Section 3 of this act shall become operative only if Assembly Bill No. 383 is chaptered before this bill and amends Section 21252.6, and in such case Section 3 of this act shall become operative on the operative date of Assembly Bill No. 383."

An election to retire under this section shall be made in writing and filed with the State Controller, and shall be without right of revocation, and upon such filing said judge shall be deemed retired with receipt of benefits deferred until herein provided, and the judicial office from which he has retired shall become vacant. Said notice and election of retirement shall be sufficient if it states in substance that said judge elects to retire under the benefits of this section.

If after retirement and actual commencement of benefits hereunder, such a retired judge becomes entitled to any salary, retirement benefits, or other compensation as the incumbent of any public office, the retirement allowance otherwise payable to him shall, during the time he is entitled to receive such salary, retirement benefits, or other compensation, be reduced by the amount of such salary, retirement benefits, or other compensation."

"SECTION 1. Section 16119 of the Government Code is amended and renumbered to read:

~~16119~~ *16154*. In addition to the report required by Section ~~16109~~ *16144*, the Secretary of the Resources Agency shall require from local government agencies such other information relative to lands valued pursuant to the provisions of Article 28 of the California Constitution as is necessary for the proper administration of the provisions of Sections ~~16107~~ *16142* through ~~16119~~ *16153* and for periodic review of the policies established therein.

Information collected pursuant to this section shall be transmitted on request to the Legislature and to other state agencies, including, but not limited to, the State Board of Equalization, the Superintendent of Public Instruction, and the Department of Agriculture

SEC. 2. Section 16149 of the Government Code is amended to read:

16149. On or before October 31, 1972, and on or before the last day of October of each year thereafter, the assessor shall report the open-space adjustment for each school district located in the county to the Controller and to the Superintendent of Public Instruction The open-space adjustment shall be calculated by determining the difference between:

(a) The adjusted assessed value of all land in the district in the base year, *excluding the assessed value of the right to extract oil, gas or other hydrocarbons,* which shall be the last assessment year prior to the application of Section 423 or 423 5 of the Revenue and Taxation Code to any land within the district, and

(b) The assessed value of all land within the district, *excluding the assessed value of the right to extract oil, gas or other hydrocarbons,* for the current assessment year.

For the purposes of subdivision (a), "adjusted assessed value" shall be computed by multiplying the actual assessed value of land in the district in the base year, *excluding the assessed value of the right to extract oil, gas or other hydrocarbons,* by the percentage which the gross assessed value of all land in the state on the local roll outside of municipalities without deductions for any exemptions for the current assessment year is of the gross assessed value of all land on the local roll outside municipalities without deductions for any exemptions in the base year. The Controller shall announce the factors to be used by the assessors on or before October 15th of each year.

For purposes of determining the "actual assessed value of land" in the district in the base year, any assessor who had announced that he was using an assessment ratio of less than 25 percent in the base year pursuant to Section 401 of the Revenue and Taxation Code shall adjust the actual assessed value of the land in the district in the base year to the assessed value which would have been on the roll had the assessor announced a 25-percent assessment ratio If no announced ratio exists for the base year, the base year ratio shall be the ratio announced for the 1967–1968 fiscal year.

If the value of land within the district for the current assessment year is greater than the adjusted assessed value of the base year, there shall be no reimbursement.

SEC. 3. Section 16152 of the Government Code is amended to read:

16152. The other provisions of this chapter notwithstanding, no city, county, or city and county shall receive more money by reason of the funds provided for in the open-space provisions of this chapter than such governmental entity might have received had no property in the entity been assessed pursuant to Sections 423 and 423 5 of the Revenue and Taxation Code This determination shall be made by

(a) Multiplying the last unrestricted assessed value, *excluding the assessed value of the right to extract oil, gas or other hydrocarbons,* of each parcel now subject to assessment under Sections 423 or 423 5 of the Revenue and Taxation Code by the percentages which the current gross assessed value of all land on the local roll outside municipalities without deduction for exemption in the state is of the gross assessed value of all land on the local roll outside municipalities without deduction for exemption in the state for the last year in which the parcel was not so restricted;

(b) Subtracting the current assessed value, *excluding the assessed value of the right to extract oil, gas or other hydrocarbons,* for the parcel from the figure derived pursuant to subdivision (a);

(c) Calculating the total of all differences determined pursuant to subdivision (b) for land under control of, or, in the case of cities, within the boundaries of, the entity in question; and

(d) Multiplying the total derived under subdivision (c) by the tax rate for the current year of the entity in question.

The determinations required by this section shall be made by the Secretary of the Resources Agency, and he shall base his computations on "the last unrestricted assessed value," as used in subdivision (a), by factoring the assessed values in any county in which the assessor had announced that he was using an assessment ratio of less than 25

percent in any year to the value which would have been on the roll had such assessor announced a 25-percent assessment ratio If no announced ratio exists for such year, the ratio for such year shall be the ratio announced for the 1967–1968 fiscal year.

SB No. 545

Without action.

FONG, Chairman

Above bill ordered transmitted to the Senate.

MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received, and by unanimous consent, ordered printed in the Journal:

Governor's Office, Sacramento
December 28, 1972

The Honorable Robert Moretti
Speaker of the Assembly
State Capitol, Sacramento, California

Dear Bob. In signing SB 90 (Chapter 1406), I noted that Section 16130 of that bill contains an appropriation for assistance to schools for the Early Childhood Education program SB 1302, (Chapter 1147), which I previously approved, also contains an appropriation for assistance to schools for the Early Childhood Education program. The appropriations in these two measures are identical in amount and in purpose

Throughout the legislative process, it is apparent that the intent of all concerned was that SB 90 should have been double joined with SB 1302 so that only a single appropriation would be made for assistance to schools for the Early Childhood Education program The appropriation for that program was by agreement to be $25 million for the fiscal year 1973–74 and $40 million for 1974–75 With my approval of SB 90, identical appropriations in the above amounts appear in both bills If not rectified, this duplication could technically result in two appropriations for assistance to schools for the Early Childhood Education program This was not the intent of the Administration nor the Superintendent of Public Instruction who has indicated that these two appropriations should not be duplicative

To prevent an unintended duplication, I, therefore, am directing my Director of Finance to take necessary action to limit expenditures for assistance to schools for the Early Childhood Education program to an amount of $25 million in 1973–74 and $40 million in 1974–75 I am also directing my Director of Finance to take necessary action to assure that the $25 million and $40 million appropriations for assistance

to schools for the Early Childhood Education program will be provided from the appropriations contained in SB 90 and that the $25 million and $40 million appropriations contained in Section 10(a) (1) and (2) of Chapter 1147, Statutes of 1972 (SB 1302) for assistance to schools for the Early Childhood Education program be unallotted in order that it will not be available for expenditure.

Sincerely,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 719

Governor's Office, Sacramento
December 20, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 719 entitled, "An act to amend Sections 34231, 61808, 61809, 61872, 61877, 62048, 62049, 62050, 62115, 62241, 62243, 62414, 62416, 62489, 62491, 62711, 62717, and 62723 of, to amend and renumber Sections 62801, 62802, 62803, 62831, 62832, 62833, 62834, 63001, 63002, 63003, and 63004 of, to amend and renumber the headings of Chapter 4 (commencing with Section 62801) and Chapter 4 (commencing with Section 63001) of Part 3 of Division 21 of, to add Sections 32508 5, 32509.5, 61809 1, 61809 3, 61809.7, 62050.1, 62301.5, 62707 6, 62707.7, 62707.8, 62707 9, 62714.1, and 62717.1 to, and to add Article 15 (commencing with Section 36131) to Chapter 2 of Part 2 of Division 15 of, Article 16 (commencing with Section 62271) to Chapter 2 of Part 3 of Division 21 of, and Chapter 2 5 (commencing with Section 62651) and Chapter 4 (commencing with Section 63001) to Part 3 of Division 21 of, the Agricultural Code, relating to milk."

AB 719 would permit the establishment of guaranteed minimum prices and authorize a pooling program for manufacturing grade milk. This bill would control the marketing of manufacturing grade milk. There has not been sufficient showing of a compelling need to support

the extension of a guaranteed price for manufacturing grade milk I do not believe that the best interests of the consumer or the producer would be served by the imposition of mandated prices at this time.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

RECEIPT

I acknowledge receipt this 20th day of December, 1972, at 5·05 p m. of Assembly Bill No. 719, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Marian E. Fort.

Veto Message—Assembly Bill No. 178

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No 178 entitled, "An act to amend Section 830.4 of the Penal Code, relating to peace officers."

This bill would confer peace officer status upon a variety of persons including Los Angeles city parking control checkers, animal control officers, animal license inspectors, housing authority patrolmen in Los Angeles County, and investigators throughout the state who are regularly employed and paid as such by the office of a public defender.

Public defenders' investigators have the primary responsibility of assisting the defense in a criminal case to determine those facts which are relevant to the case. They have no responsibility or duty to affirmatively enforce any provision of law.

There being no statewide minimum standards for employment as a public defender investigator, there can be no assurance that all public defender investigators will possess qualifications commensurate with other types of peace officers.

The other categories of employees included in AB 178 have not demonstrated a sufficient need to require peace officer status.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 327

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 327 entitled, "An act making an appropriation to pay the claim of Ross Plaza Pharmacy against the State of California"

This bill would appropriate a maximum payment of $18,000 to a specific provider of pharmaceutical services under the Medi-Cal program for claims submitted after the time limitations required by law

The requirement for the timely submission of billings assures the close fiscal control required for the administration of the Medi-Cal program

At each administrative level, the determination has been made that the claims in question should not be paid Additional legal remedies remain open to this provider. I believe it is more appropriate that these additional legal avenues be pursued.

Accordingly, I am returning the bill unsigned

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 633

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 633 entitled, "An act to add Section 15154 5 to the Welfare and Institutions Code, relating to public assistance"

The bill would require the state and, where possible, the federal government to share in the cost of welfare payments that are erroneously made as a result of regulation changes which became operative less than 45 days after their adoption

To adopt the policy proposed by this bill would put the state in the position of financing costs resulting from county failure to carry out new policies required by the state Such a procedure would condone the disregard of emergency regulations and would erode the county incen-

tive to implement normal regulations I feel this policy would undermine the most effective means currently available to the state for maintaining effective welfare operations.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

December 27, 1972

The Honorable Members of the Assembly
State of California

Greetings· I am returning without my signature Assembly Bill No 714 entitled, "An act to amend Section 20750 85, 21250 1, 21330, and 21364 7 of to add Sections 21263, 21263 1, 21263 2, and 21263 3 to, and to repeal Sections 21263 21263 1, 21264, 21264 1 as added by Chapter 150 of the Statu'es of 1970, 21264 1 as added by Chapter 719 of the Statutes of 1970, and 21264 5 of, the Government Code, relating to the Public Employees' Retirement System "

AB 714 would extend the "one-half" survivors allowance to s'ate miscellaneous members and school members of the Public Employees' Retirement System

A comprehensive review of employee pay and benefits is now under way and when completed will permit consideration of further benefits for state employees The report is due in April I intend to defer action on any major changes in the system of employee benefits until that report is completed.

Accordingly, I am returning the bill unsigned

Greetings I am returning without my signature Assembly Bill No. 791 entitled, "An act to amend Sections 1421 and 1422 of, and to add Section 1422 3 to, the Labor Code, relating to fair employment practices "

This bill would authorize members of the Fair Employment Practices Commission to file complaints alleging unlawful employment practices

The law already allows any person to file a complaint In addition, the Commission has authority to file complaints through the Attorney General's Office There is not sufficient evidence that this expansion of authority for individual Commissioners is needed.

Accordingly, I am returning the bill unsigned.

December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 884 entitled, "An act to add Section 13146 1 to the Education Code, relating to certificated employees "

This bill would require that teaching credential subject matter examinations include a test for knowledge on drug abuse adequate for the teaching of the required drug abuse curriculum.

I have already approved SB 714 which requires all candidates for teaching credentials to complete a unit requirement in health education which would contain course material on drugs and drug abuse. The enactment of SB 714 makes AB 884 unnecessary.

Accordingly, I am returning the bill unsigned.

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 900 entitled "An act to add Section 14105 6 to the Welfare and Institutions Code, relating to medical assistance."

This bill would establish procedures for determining the costs of skilled nursing home and intermediate care facility services at least yearly, and provide for rates of payment for such services under Medi-Cal based on these studies

The formula proposed by AB 900 would substantially increase the profit allowance to nursing home and intermediate care service providers without corresponding increases in patient care I can find no compelling reasons for mandating such rate-setting procedures in the law.

Accordingly, I am returning the bill unsigned

December 27, 1972

The Honorable Members of the Assembly

Greetings: I am returning without my signature Assembly Bill No 1278 entitled, "An act to add Section 21023 6 to the Government Code, and to amend Section 4850 of, and to repeal Section 4853 of, the Labor Code, relating to disability retirement."

This bill was substantially amended in the closing days of the session to include the provisions of Assembly Bill 569 and Assembly Bill 599, bills which I vetoed in August.

In my view, no compelling reasons have been advanced which would justify a reversal of my action in vetoing those two bills

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 1704

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1704 entitled, "An act to add Section 104.16 to the Streets and Highways Code, relating to state highways."

This bill would require the Department of Public Works to landscape and maintain certain lands as parks for public use. Any land located within any city with a population of 100,000 or more, held by the department for state highway purposes, would be subject to this requirement if it is not to be used within two years after its acquisition.

Enactment of AB 1704 would cause the State of California to have two state agencies responsible for the landscaping and maintenance of parks. This bill would cause the Department of Public Works to initiate an extensive and entirely new parks function.

Aside from the obvious inefficiencies and unnecessary duplication of effort in such an arrangement, there would be additional legal problems created for the Department of Public Works, including tort liability problems and questions concerning the future use of park land.

Moreover, the Departments of Parks and Recreation and Public Works already have authority to enter into operating agreements for different public uses of land.

Additionally, the cost to the Department of Public Works would be prohibitive and would further aggravate an already serious deficiency in transportation funds.

Accordingly, I am returning the bill unsigned.

December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No. 1831 entitled, "An act to add Section 20810 5 to the Education Code, relating to school district taxes "

This bill would have amended the law relating to permissive override taxes for the education of students in the seventh and eighth grades.

The enactment of SB 90 eliminated most of the permissive overrides, including the seventh and eighth grade override Both the author and I agree that the passage of SB 90 makes AB 1831 unnecessary.

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 1938

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No. 1938 entitled, "An act to amend Sections 21022, 21291, and 21294 of, and to add Sections 20493 1 and 21300 5 to, the Government Code, relating to retirement."

AB 1938 would provide industrial disability retirement for local miscellaneous members of the Public Employees' Retirement System at the option of individual employers It does not apply to the majority of the miscellaneous members employed by the state and school districts

It will reverse the development of uniformity of benefits for miscellaneous members which was substantially achieved by 1971 legislation and render impractical the common funding of liability for such benefits established by the same legislation.

The provision of special disability benefits in a retirement system for injuries, for which workmen's compensation is also provided, should be reexamined before extending it further.

I have signed legislation applicable to all members at this session improving ordinary disability retirement benefits A study of the whole subject of a proper level of retirement and related benefits is now under way. The results could lead to the establishment of a program which can be applied to all miscellaneous members

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 2371

Governor's Office, Sacramento
December 27, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No 2371 entitled, "An act relating to Medi-Cal "

This bill would appropriate $22,021 from the Health Care Deposit Fund to settle a claim filed by Fresno County, which was denied by the State Board of Control

The Fresno County Department of Mental Health originally submitted claims for reimbursement of Medi-Cal services These claims were denied because they did not meet required program guidelines for authorization This denial was upheld by a finding of the State Board of Control.

At the time these claims were submitted, the Medi-Cal program was operating under "cost trim" regulations to conserve our limited funds The guidelines were well-defined and all providers were required to comply with them To permit an exception in this instance would be a disservice to the many providers who cooperated in making the "cost trim" a success. In my opinion, there are no extenuating circumstances in this situation which would justify an appropriation to pay for services which were not authorized.

Accordingly, I am returning this bill unsigned

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 609

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No. 609 entitled, "An act to amend Sections 6101 and 6105 of, and to add Section 6101.5 to, the Public Resources Code, relating to public lands."

This bill would add four public members to the State Lands Commission. While I support the general objective of adding public members to state commissions, I question the need for the change in composition of the State Lands Commission proposed by AB 609. Two of the three members of the Commission are elected officials, and they reflect the concerns of the public at large.

AB 609 involves additional changes that would hinder the operation of the Commission. The bill would expand the Commission to seven members, but it would require five affirmative votes for any action of the Commission; thus a minimum quorum would not be able to take action In my opinion, this would represent an unsatisfactory situation. Also the qualifications required for the proposed new public members appear to have been set up in an unbalanced manner, focusing on only one aspect of the Commission's work.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 758

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California 95814

Greetings: I am returning without my signature Assembly Bill 758 entitled "An act to amend Section 14132 of, to add Sections 14019 1 and 14132.1 to, and to add Article 4 3 (commencing with Section 14136) to Chapter 7 of Part 3 of Division 9 of, the Welfare and Institutions Code, relating to health care services"

This bill would cause utilization controls for outpatient services under the schedule of basic benefits to be lost If a recipient utilizing all 24 services within a month or so, leaves the program for a short time and then returns, he would be eligible for an additional 24 services. It would be extremely difficult, if not impossible, to identify this person and to determine what, if any, services of the original 24 might have been used

Through this legislation, an unwarranted burden would be placed on the recipient who uses all 24 services the first month For the balance of the year, he would then be subject to outpatient services available only through prior authorization from the Supplemental Schedule of Benefits

The measure also would remove all utilization controls of any kind from hospital inpatient procedures for therapeutic abortions There are, currently, utilization controls over therapeutic abortions performed on an outpatient basis But, under this legislation, inpatient services would have no controls

Accordingly, I am returning the bill unsigned

Respectfully,

RONALD REAGAN, Governor

Greetings: I am returning without my signature Assembly Bill No 1013 entitled, "An act to amend Sections 926, 984, and 1085 of, to repeal Section 927 of, and to add Sections 927, 976 2, 986 5, 987 5,

and 1088 5 to, the Unemployment Insurance Code, relating to unemployment insurance "

This bill would make cash tips and gratuities received by a worker from persons other than his employer "wages" for the purpose of the Unemployment Insurance Law if such tips and gratuities equal or exceed $20 per month.

California employers currently pay unemployment insurance taxes on all tips which they can verify, such as those added to the customer's bill as a service charge

Tips and gratuities that are paid directly to the worker are not subject to employer taxation under either the Social Security Act or the Federal Unemployment Tax Act Implicit in the omission of these tips and gratuities from the other forms of payroll taxation is the recognition that employers have no way of verifying the amount of tips and gratuities that are received.

It would be unfair to ask California's employers to assume an additional state payroll tax burden that is an exception to other payroll tax levies.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1182

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 1182 entitled, "An act to add Article 3 (commencing with Section 24321) to Chapter 9 of Division 18 of the Education Code, relating to the California State University and Colleges "

This bill would require the Board of Trustees of the California State University and Colleges to transfer nonacademic personnel from the Trustees' jurisdiction to the State Personnel Board

The Trustees have presently established broad guidelines and decentralized their personnel administration to the individual campuses They already have adopted and implemented policies and rules to provide for the programs in this bill

I oppose interference in areas intended to be determined by the Trustees and effectively carried out by them, particularly when it would result in a mere duplication of services and at an additional cost to the state

Accordingly, I am returning the bill unsigned

Respectfully,

RONALD REAGAN, Governor

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly

State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 1210 entitled, "An act to add Section 16554 1 to Chapter 7 (commencing with Section 30301) to Division 21 of, the Education Code, relating to education"

The basic purpose of allowing our public schools to call on the talents and resources of licensed proprietary schools in supplying training programs is supportable if we are to fully coordinate public and private educational resources for a broad array of vocational and technical training Such an approach is particularly helpful in meeting changing job demands and markets while minimizing the degree to which public schools must duplicate expensive facilities required for emerging programs

However, this bill leaves several basic questions unanswered regarding the granting of state aid for such assistance including but not limited to the terms within which contracts for services could be completed These uncertainties are of serious note and appear to open the way for legal disputes or potential abuses Consequently, I am returning the bill unsigned, but I am directing my staff to work with the Legislature to develop comprehensive and definitive legislation in this field for consideration at the next legislative session.

Respectfully,

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No 1499 entitled, "An act making an appropriation to the Board of Governors of the California Community Colleges to establish, administer and operate training programs for psychiatric technicians."

This bill would appropriate $200,000 from the General Fund to the Board of Governors of the California Community Colleges to establish and operate training and retraining programs which will meet the need for psychiatric technicians qualified to work in community mental health programs.

Community college programs for the training of psychiatric technicians were proposed and funded initially on the basis that the excess costs would be supported by the Vocational Nurses and Psychiatric Technicians Examiners Funds Basic and equalization aid are already directed to support these programs from the General Fund It is appropriate that the special costs of such training programs be met by the related special funds.

I am not approving this bill because it would transfer the excess cost of these training programs to the General Fund From another point of view, it should be stressed that local mental health programs are in a better position to assess their needs for such training programs and to obtain the necessary extra support required through the mechanisms provided in the Short-Doyle Act

Accordingly, I am returning the bill unsigned

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 1527 entitled, "An act to add Article 2 5 (commencing with Section 530) to Chapter 1 of Division 2 of the Business and Professions Code, relating to the healing arts."

This bill would, among other things, grant authority to corporations organized for profit and registered under the Knox-Mills Health Plan Act to offer prepaid health care service plans to the public and provide health care services to subscribers through specified professional corporations.

A majority of the legislative leadership has requested that I return the bill unsigned so that the subject of the bill may receive a more comprehensive legislative review next session.

While I am not necessarily opposed to the principle contained in AB 1527, I do agree that it should be subject to further legislative study.

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 1744

Governor's Office, Sacramento
December 28, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1744 entitled, "An act to add Section 402 4 to the Revenue and Taxation Code, relating to property taxation."

This bill would require the assessment of certain federally assisted housing for persons with low or moderate incomes by the capitalization of income method, effective on the 1974 lien date.

The present federal Section 236 housing program and rent supplement projects are too inflexible to cover the cost of property taxes assessed on the normal basis of full cash value Although the problem is national in scope, AB 1744 seeks to meet this federal inflexibility only in California by mandating the assessment of such property by capitalizing the income of such housing rather than using market value or replacement cost The resultant subsidy to this federally assisted program would shift $5,000,000 of taxes to other property taxpayers of this state, rather than solving the problem directly by congressional action

In addition, I am opposed to the mandatory treatment of this one classification of property for assessment purposes in lieu of present statewide regulations which give local assessors the flexibility necessary to exercise the best possible assessment practices Such a mandate could lead to future requests to have the State assume the $5 million

loss of local property tax revenue, and could also lead to additional tax subsidies to other special types of property.

Accordingly, I am returning the bill unsigned.

Greetings: I am returning without my signature Assembly Bill No 1745 entitled, "An act to add and repeal Article 3 (commencing with Section 6601) to Chapter 7 of Division 6 of the Education Code, relating to learning assisted program, and declaring the urgency thereof, to take effect immediately "

This bill would establish a "Learning Assistance Program" on a pilot basis in one school district. The program would enroll up to 80 pupils with I Q. scores ranging from 73 to 90

I can find no substantial evidence to support the need for the pilot program proposed by AB 1745. It will redirect needed funds away from existing educationally handicapped programs The bill also runs counter to the current educational trend in special education which is away from the creation of new categories.

Accordingly, I am returning the bill unsigned.

State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No 1757 entitled, "An act to add Section 633 6 to the Penal Code, relating to recordation of witnesses' statements "

This bill would authorize the undisclosed recording of a witness' statement in a criminal case by a defense attorney or his investigator.

Defense attorneys and their investigators are not subject to constant supervision in their use of electronic eavesdropping equipment Since disclosure of all statements recorded without the witness' permission would not be mandatory, this bill contains a built-in potential for abuse.

It is my opinion that this potential for abuse would constitute a serious threat to the right of privacy of witnesses in criminal cases

Accordingly, I am returning the bill unsigned.

Greetings I am returning without my signature Assembly Bill No 1884 entitled, "An act to amend Section 6261 of, and to add Section 6268 28 to, the Education Code, relating to area vocational committees, and making an appropriation therefor "

This bill would appropriate $170,000 to increase the number of local area vocational education committees from four to nine as well as require the Superintendent of Public Instruction to allocate federal funds if such money should become available

I do not believe the area committees should be increased in number until their effectiveness has been further evaluated

I have signed AB 1633 which requires an analysis of the value of the four existing local area advisory committees by the Legislative

Analyst's office. I believe this will provide the kind of additional information needed regarding the merit of possible expansion.

Accordingly, I am returning the bill unsigned.

Greetings· I am returning without my signature Assembly Bill 2091 entitled, "An act to add Section 13707.5 to the Education Code, relating to school classified employees "

This bill would provide for a change in the method of appointing members of the Personnel Commission in 13 school districts which adopted the merit system for classified employees prior to 1965

The current method of commissioner appointments has served these districts well by removing the influence of political considerations in the appointments.

At the recommendation of those districts involved, I am returning the bill unsigned.

Greetings: I am returning without my signature Assembly Bill No. 5 entitled, "An act to add Chapter 6 (commencing with Section 10700) to Part 2 of the Division 2 of Title 2 of the Government Code, relating to the creation of the office of Ombudsman for Corrections."

This bill would create the Joint Legislative Committee on Corrections Administration and the office of Ombudsman for Corrections. It is almost identical to AB 1181, which I returned unsigned last year.

Appropriate procedures for airing complaints are currently available to inmates of all penal institutions. Besides the internal procedures established within the various departments for correction of complaints, the inmates in this state have ready access to the courts and legal assistance An Ombudsman for Corrections would very likely have the effect of duplicating existing functions, and would interpose a barrier to the efficient rehabilitation programs now being conducted.

Additionally, the creation of an Ombudsman who is responsible to the legislative branch of government would represent an unwarranted infringement upon the separation of powers guaranteed by our Constitution

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 80

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No 80 entitled, "An act appropriating money to the Commission on Peace Officer Standards and Training"

AB 80 would appropriate $1,500,000 from the General Fund to the Commission on Peace Officer Standards and Training for allocation to local agencies for equipment for law enforcement agencies

The state and federal governments already are providing substantial local assistance appropriations for law enforcement activities through the California Council on Criminal Justice and the Commission on Peace Officer Standards and Training In the current year, the Council has received approximately $35,000,000 from federal sources for distribution to local law enforcement agencies and the state has provided $2,900,000 matching funds. In addition, $12,170,000 has been appropriated through the Commission on Peace Officer Standards and Training for local assistance allocation.

I believe that this bill is unnecessary because its intent can be achieved within the existing resources in the Peace Officer Standards and Training Fund. In the past year (1971–72), $10,400,000 was appropriated to the fund of which only $7,815,000 was used Consequently, $2,585,000 remains in the Fund.

Accordingly, I am returning this bill unsigned.

December 29, 1972

The Honorable Members of the Assembly

State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 111 entitled, "An act to amend Sections 17041 and 17045 of the Revenue and Taxation Code, relating to personal income tax, to take effect immediately, tax levy."

This bill would confer special tax advantages to heads of households who represent less than 5 percent of all persons filing state income tax returns. The cost to the state would be approximately $20 million per year.

Heads of households already receive larger state personal exemption tax credits than other unmarried persons and in addition enjoy a special tax rate schedule to compute their federal and state income taxes. These tax advantages are sufficient recognition of the status of heads of households without allowing them, as this bill would provide, to compute their taxes on the fictitious premise that they are married and filing a joint return.

Tax relief should be across the board rather than favoring a small select group of taxpayers This is the approach taken in SB 90 as to property tax relief and the same policy should apply to income tax relief

Accordingly, I am returning the bill unsigned.

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill 401 entitled, "An act to amend Section 23801 of the Education Code, relating to state college fees "

This bill would require an increase in the California State University and Colleges student body organization fee from $20 to $30, it is intended that the monies derived be utilized as a source of funds for a variety of activities

We must face up to an important question Into just what kinds of memberships may we force students and what kinds of fees should students be made to pay in order to receive an education in California?

Many on-campus and off-campus activities should be voluntarily supported and only by those students with a true interest in the activities Some, perhaps, are fundamental to education and should be state supported

I believe that other funds than those from compulsory student body fees should be found for many of these programs

Accordingly, I am returning the bill unsigned.

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill 408, entitled "An act relating to the establishment of a branch office of the Department of Motor Vehicles in the area of the City of Simi Valley, and making an appropriation therefor"

The measure would require the Department of Motor Vehicles to conduct a study to determine the need for a permanent public office in the City of Simi Valley. Additionally, the bill would appropriate $30,000 to establish such an office in temporary quarters.

The Department of Motor Vehicles routinely conducts facilities planning studies to evaluate and determine current and future needs for providing service to the public Such a study was completed for the Ventura County areas in May of 1972 and recommended that one central location be established to serve the Thousand Oaks-Simi area. The Department has proposed two possible sites for that location; one is in northeast Thousand Oaks and the other is in west Simi

The request for an office in temporary quarters would appear to be unnecessary in view of the study results determining the desirability of one centrally located permanent office in the area Additionally, the present Thousand Oaks and newly located Winnetka offices provide service within reasonable distances.

Accordingly, I am returning the bill unsigned.

Greetings: I am returning without my signature Assembly Bill No 488 entitled, "An act to add Article 2 3 (commencing with Section 5811) to Chapter 6 of Division 6 of the Education Code, relating to alternative schools"

This bill would authorize school districts to establish on a pilot basis alternative schools and classrooms

Interested parents, pupils and teachers could request governing boards to institute such programs. Each school district could then enroll not less than 2½ percent, nor more than 10 percent, of its total average daily attendance of the preceding year.

I question the need for the experimental pilot program proposed by this bill There is a more compelling need to evaluate the worth of the many existing "experimental" and "innovative" programs now in existence before embarking on new ones.

Accordingly, I am returning the bill unsigned.

This bill would expand demonstration programs for intensive instruction in reading and mathematics for low-achieving pupils from grades 7, 8, and 9 to grades 7 through 12 and appropriates $3 million per year to finance the expansion of such program

I have already signed legislation extending the duration of the present program through 1975 and it currently receives $3 million in General Fund support.

I believe that if additional funds are made available for reading and math programs, they should be placed with the child at the earliest stages of his or her education California's elementary school students will receive greater benefits under SB 1302, a bill I have already signed which appropriates a total of $65 million to reconstruct our K–3 educational programs.

The Honorable Members of the Assembly

Greetings: I am returning without my signature Assembly Bill No 807 entitled, "An act to add Section 4000.5 to the Penal Code, relating to prisoners' rights"

This bill would establish certain minimum rights of persons confined in county jails.

The Board of Corrections currently is promulgating minimum standards for local detention facilities Among those standards, certain rights are included which are afforded to all inmates Beyond those minimum statewide standards, it is my belief that local authorities are aware of the circumstances which will allow them to best administer their local facility.

The various differences between local detention facilities may call for the application of different standards as to what inmates should or should not receive in the mail

JAMES D. DRISCOLL, Chief Clerk

Veto Message—(Item Veto) Assembly Bill No. 814

Governor's Office, Sacramento
December 29, 1972

I am reducing the appropriation contained in Section 8 of Assembly Bill No. 814 from $500,000 to $50,000

I am aware of the problems and needs addressed by AB 814 and I am sympathetic to the intent and purposes of the bill However, I have been informed that the funds identified in the bill to finance a pilot career guidance center have already been largely obligated to

local school districts to assist with current 1972–73 operations. Since AB 814 is not an urgency measure and will not become immediately effective, the pilot career guidance center will require funding for only a few months of 1972–73 Therefore, I have reduced the appropriation in AB 814 to $50,000 for use in the remainder of 1972–73 Further, to make funds available, I have asked the Director of Finance to propose reserving $125,000 in the 1973–74 Budget Bill to support the pilot center during 1973–74 from the source of funds identified by AB 814 in the 1972–73 Budget Act

With the above reduction, I approve Assembly Bill No 814.

Greetings I am returning without my signature Assembly Bill No 976 entitled, "An act to add Sections 1626 5 and 2145 3 to the Business and Professions Code, relating to acupuncture, and declaring the urgency thereof, to take effect immediately"

This bill would authorize the performance of acupuncture by an unlicensed person for the primary purpose of scientific investigation It seeks to expand the authority adopted earlier this year to practice acupuncture only at approved medical schools.

The research effort at medical schools is now underway Until further research has been completed, a broadening of authority to practice acupuncture is premature

The State Board of Medical Examiners has requested that the bill be vetoed I concur in their opposition at this time

Greetings· I am returning without my signature Assembly Bill No 1274 entitled, "An act to add Chapter 17 (commencing with Section 7280) to Division 7 of Title 1 of the Government Code, relating to the employment of veterans, and making an appropriation therefor "

Assembly Bill 1274 would appropriate $5 million from the General Fund to the Department of Human Resources Development to reimburse private employers 50 percent for up to 18 months for salaries and wages for employment of specified Vietnam veterans

While the concept is laudable, this program would largely duplicate an existing federal program, Jobs Optional, administered by the Department of Human Resources Development which finances the training of disadvantaged persons and gives first priority to veterans The funds in that program are presently more than adequate

Passage of Assembly Bill 1274 would mean the spending of $5 million in General Fund money to perform a function already adequately financed by the federal government

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly

Greetings I am returning without my signature Assembly Bill No 1360 entitled, "An act to add Sections 6443 5, 6444, 6445, 6446, and 6447 to, to repeal Sections 6443 and 18270 of, the Education Code, and to repeal Section 8 5 of Chapter 1236 of the Statutes of 1965, relating to instructional television, and making an appropriation therefor "

The wording of this legislation is vague in that it leaves all the specifics of actually carrying it out to be generated through rules and regulations which will be adopted at some future time. It provides no

mechanism for assuring that children will actually receive a better education It fails to provide a mechanism for documenting the kinds of effects the program will have on children Nor does it specify the kinds of indicators necessary for determining how children will benefit

The bill reserves the definition of high priority needs for instructional television programs to the Department of Education rather than specifically encouraging such input from local school districts In addition, AB 1360 is extremely vague with respect to who develops or provides "high quality" program service for each of the regions which the bill will create

Even if the Legislature were to appropriate funds for the legislation in fiscal 1973–74, these funds would have to go through the Department of Education which would disperse them to the regional organizations with whom the department is contracting This would be a significant change from our present system where funds go to districts and they choose the regional association or delivery system which best serves their needs

In sum, this legislation makes broad, sweeping statements which allude to somehow improving the quality of instructional television for youngsters but provides almost no information on the actual operational or procedural practices which will be implemented to accomplish this task.

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 1366

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings I am returning without my signature Assembly Bill No. 1366 entitled, "An act to repeal and to add Article 8 6 (commencing with Section 893 20) to Chapter 4 of Division 3 of the Education Code, relating to instructional television, and making an appropriation therefor"

This bill would appropriate $250,000 for an instructional television program to be administered by the Los Angeles City Unified School District.

The enactment of SB 90, which provides an additional $51 million in school aid to the Los Angeles school district makes this bill unnecessary. The Los Angeles Board of Education may, if it wishes, allocate a portion of the additional school monies provided in SB 90 to accomplish the funding and other goals contained in AB 1366

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1417

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No 1417 entitled, "An act to add Article 7 9 (commencing with Section 419) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to kidney transplant centers, and making an appropriation therefor."

This bill would appropriate funds to assist selected hospitals to develop an increased capability to perform kidney transplantation procedures and establish four kidney transplantation centers

I have been informed that in the field of kidney transplantation, the number of transplants is severely limited because of the continued shortage of suitable donor kidneys, not suitable transplantation facilities The addition of four new kidney transplantation centers to the 16 currently in operation, as called for in the bill, would not increase the number of kidneys available for transplanting.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1459

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No. 1459 entitled, "An act to add Section 4136 to the Welfare and Institutions Code, relating to mental health"

AB 1459 would require the State Department of Mental Hygiene to maintain most existing state hospitals at specified levels of service until various detailed conditions are met

The bill is apparently intended to fund all existing state hospital operations at their current level, with the exception of programs for the mentally ill at Agnew and Mendocino This would result in a costly and unnecessary expenditure of the taxpayer dollar Individual hospital facilities are closed because they are no longer economically feasible to operate To continue to staff and operate hospital programs at existing levels, in the face of a continuing decline of patients, is not justified and would be detrimental to employees and costly to the local programs at the hospital.

The bill assumes that closure of a hospital in a particular locale means that the county no longer has access to a state hospital This is not the case, since each county would continue to receive needed state hospital inpatient services to the degree necessary at another state hospital.

Approval of this measure would create bureaucratic red tape which would tend to stifle the dynamic and innovative character of community mental health programs and make it very difficult to make changes in the state hospital system

Further, this bill is unnecessary as I have signed AB 1871 requiring the state to give nine months notification of any state hospital closure Also, the Legislature has adopted ACR 59 which directs the State Department of Mental Hygiene to develop and submit to the Legislature by September 15, 1973, a plan for phasing out and future use and disposition of state hospitals for the mentally ill This plan must include a detailed inventory of services now provided by counties and recommendations for transfer or reduction of manpower, transfer of funds, utilization or disposition of plants and land, and a timetable.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1687

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1687 entitled, "An act to add Section 1953 to the Civil Code, to amend Section 53635 of the Government Code, to amend Section 35743 of, and to add Section 17963 to, the Health and Safety Code, relating to housing."

This bill would authorize each city or county to adopt health and safety ordinances setting forth the rights and duties of landlords and tenants. In addition, it would authorize any city or county to adopt and enforce fair housing laws more stringent than governing state laws.

The Civil Code already sets forth in detail the contractual relationship between landlord and tenant. To permit each city and county to establish separate and different relationships would create administrative conflicts at all levels of government.

The area of fair housing was preempted by the state with the passage of the Rumford Fair Housing Law and should remain a matter of state preemption. The rights of the individual, as those rights apply to equal access in housing, is not a local right but rather one enjoyed equally throughout the state.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1697

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1697 entitled, "An act to add Chapter 8 (commencing with Section 11800) to Part 1 of Division 3 of Title 2 of, and to repeal Section 14657 and Article 8 (commencing with Section 14716) of Chapter 2 of Part 5.5 of Division 3 of Title 2 of, the Government Code, relating to the television advisory committee."

AB 1697 would create the California Telecommunications Authority with responsibilities, among others, for establishing statewide policy as it relates to noncommercial educational broadcasting and for planning the development of a statewide public telecommunications system utilizing a multitude of transmissions systems and broadcasting facilities to achieve this objective.

I have long advocated that noncommercial educational broadcasting can best serve the educational, cultural and community needs of the citizens of our state by means of strong local independent stations that provide for diversification of system control. Under the authority which would be created by AB 1697, noncommercial educational broadcasting could ultimately become a centralized, state-controlled and operated system.

I believe local independent educational television stations must first be responsive to local needs and this can only be accomplished through a continuing emphasis on local programming.

Accordingly, I am returning the bill unsigned.

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1703

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill 1703 entitled, "An act to add Sections 25528.8 and 31226.8 to, the Education Code, relating to higher education opportunity programs, and making an appropriation therefor."

This bill would continuously appropriate specified sums to the Trustees of the California State University and Colleges and to the Board of Governors of the California Community Colleges for higher education opportunity programs.

The net effect of this bill would be to establish the present educational opportunity program with its weaknesses as well as its strength on a permanent ongoing basis at a specified minimum level of support.

This Administration has consistently opposed the enactment of continuous appropriations for ongoing programs. In addition, the particular program involved was developed in haste as an attempt to solve an urgent problem. However, during its life, numerous weaknesses and problems have developed which warrant a close analysis.

During the past several months my staff has been meeting with many groups in an attempt to find a more effective method of aiding the economically disadvantaged in their quest for an education.

Accordingly, I am returning the bill unsigned.

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1710 entitled, "An act to add Section 1399 to the Labor Code, relating to wages, hours and conditions"

AB 1710 would make certain provisions of the Labor Code relating to wages, hours, and working conditions that are now applicable to adult women applicable also to adult men.

Virtually every segment of the business community in California has advised me of their opposition to this bill They assert that the bill is premature, and that its effect on California employers and employees alike could be disastrous. I share their concern.

The action proposed by this bill would unnecessarily involve state government in matters presently reserved for the collective bargaining process Matters of wages, hours and conditions of labor for adult males should not be subject to further government intervention at this time.

Accordingly, I am returning the bill unsigned.

Respectfully,

RONALD REAGAN, Governor

Veto Message—Assembly Bill No. 1778

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 1778 entitled, "An act to amend Section 11530 of the Health and Safety Code, relating to marijuana"

This bill would reduce the flexibility of our trial courts to impose either felony or misdemeanor punishment upon persons convicted of possession of marijuana The legislation would reduce marijuana possession to a simple misdemeanor regardless of the number of convictions which a person might have, regardless of the quantity of marijuana possessed, and with no concern as to whether the marijuana possessed is in its more refined form of hashish, hash-oil or pure THC (tetra-hydracanaband)

Four years ago, I signed legislation which reduced the penalty for this crime from a felony to a crime punishable as either a misdemeanor or a felony, at the discretion of the judge In my opinion, our law concerning the punishment for marijuana possession is one of the best in the United States, because it has the built-in flexibility which allows marijuana cases to be treated according to their individual seriousness.

In this connection, I want to call attention to this Administration's comprehensive drug abuse treatment program which I signed into law recently. This law provides for a suspension of criminal proceedings against the first-time narcotic offender and dismissal of any charges once the individual successfully completes a treatment and prevention program I believe this program will provide a much needed opportunity for the treatment of the youthful and first-time offender

We shall continue to study the results of medical findings concerning marijuana and its abuse It should be pointed out that a recent report published in the "Journal of the American Medical Association" indicated the possibility of damage to the central nervous system and to the brain as a result of chronic marijuana use In light of the increasing body of medical evidence which shows potentially serious physical harm from marijuana use, we should not reduce the deterrent effect of the laws which prohibit its possession

Accordingly, I am returning this bill unsigned

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly

Greetings: I am returning without my signature Assembly Bill No. 1808 entitled, "An act to add Article 2 1 (commencing with Section 275) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to crippled children's services, and making an appropriation therefor."

Although I understand the good intentions of AB 1808, I do not believe there is a need for this legislation at this time.

Emergency and ambulance services have been paid by Crippled Childrens' Services for many years To establish a pilot transport service in any given area would only tend to confuse those who need to be helped most. In addition those instances where an emergency medical team would have to make onsight visits to high risk infants to prepare them for any kind of journey would still remain In any event, many of these very critical cases will continue to need air transportation to the nearest medical centers.

Finally, it does not appear feasible to establish medical centers far removed from the large centers of population where the majority of high risk infants reside and the demands on medical centers continue to grow.

Accordingly, I am returning the bill unsigned

Veto Message—Assembly Bill No. 2118

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 2118 entitled, "An act to add Article 5 (commencing with Section 25529) to Chapter 3 of Division 18 5 of the Education Code, relating to community colleges."

This bill would authorize a television consortium of five or more community college districts to apply to the Chancellor of the California Community Colleges for a planning grant to assist in the formation

and development of such consortium. The Chancellor would provide statewide coordination of such efforts and would produce at least one exemplary telecourse each year.

While I am not opposed to the formulation of consortia among the community colleges for such purposes as this bill provides, I am opposed to mandating television program production on the Chancellor.

In the pursuit of his responsibilities, the Chancellor may well decide that production of one exemplary telecourse per year is desirable. Such a program should then take its fair and proper place among all the other priorities in competition for community college financial resources

The insertion of a state-mandated program, and appropriation of the funds to produce it, are inconsistent with this concept of operation.

Accordingly, I am returning this bill unsigned.

Veto Message—Assembly Bill No. 2268

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly

State Capitol, Sacramento, California

Greetings: I am returning without my signature Assembly Bill No. 2268 entitled, "An act to add Chapter 2 (commencing with Section 13100) to Title 3 of Part 4 of the Penal Code, relating to criminal records."

This bill would establish procedures, operative July 1, 1978, for recording, reporting, storing, and disseminating criminal offender record information to be accomplished through the Department of Justice. The bill would also create a Criminal Record Dissemination Board for conducting a continuing study into the practice of dissemination of criminal record information to noncriminal justice agencies.

I question the need for the Criminal Record Dissemination Board proposed by this bill. A board is not necessary. The work of the seven member board and its staff could be performed within the structure of the Department of Justice.

I will support legislation next legislative session which will establish procedures dealing with criminal offender record information.

Accordingly, I am returning the bill unsigned.

Veto Message—Assembly Bill No. 2348

Governor's Office, Sacramento
December 29, 1972

The Honorable Members of the Assembly
State of California
State Capitol, Sacramento, California

Greetings· I am returning without my signature Assembly Bill No. 2348 entitled. "An act to amend Section 4200 of the Welfare and Institutions Code, relating to state institutions."

This bill would authorize up to six additional members to be appointed to each state hospital advisory board and requires board membership to consist of at least one representative from each county within the state hospital service area, except in service areas of over 11 counties.

This bill would more than double the number of members of the advisory boards of each state hospital In some cases a state hospital has two advisory boards, one for the hospital program for the mentally retarded and one for the program for the mentally disordered The present number of members of each hospital advisory board and the method of appointing members from nominees submitted by the various counties served by the hospitals provides fair and adequate representation of the counties affected.

Furthermore, in view of the declining population in state hospitals because of the shift of treatment to community facilities, the proposed increase in state hospital advisory boards is untimely and inconsistent

Accordingly, I am returning the bill unsigned.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Monagan was granted unanimous consent that the following communication relative to Senate Bill No. 109 (legislative intent) be printed in the Journal:

Honorable Bob Moretti
Speaker of the Assembly

Dear Mr. Speaker: During the last legislative session I authored in the Assembly amendments to S B. 109. This measure related to the Legislative Retirement System and other issues. This letter is to clarify the legislative intent as it related to the sections dealing with Legislators' Retirement.

Under Section 4 of Article IV of the Constitution, the compensation of legislators may be increased a maximum of 5 percent each year to reflect cost of living. Since the compensation was last increased in 1969, the maximum increase would be 10 percent for the 1973–74 term or 20 percent for the 1975–76 term. Either increase would have been appropriate in view of the general increase of prices and wages and would have been less than the actual increase in cost of living.

It was determined, however, to limit the increase to 10 percent with an effective date of the 1975–76 term This would make it effective following the next General Election. In addition, it was determined that there should be a comparable 10 percent cost-of-living increase in retirement benefits for Members who retire during the years 1973–74.

Accordingly, S.B 109 was amended to provide these increases. It included new Section 9359 18 of the Government Code to provide for the retirement increase. As enacted, that section read:

> "9359.18 In recognition of increased cost-of-living, allowances payable pursuant to Section 9359 12 with respect to service [,] during the years 1973 and 1974 [,] shall be computed on the basis of 5 5 percent in paragraph (1) of subdivision (a) and subdivision (b) and 3 3 percent in paragraph (2) of subdivision (a)." [Punctuation in brackets added.]

In considering and adopting the measure, the Members read it in light of the intended result, i.e., as though it was punctuated as indicated in the brackets.

It now appears that the absence of the commas appearing in the brackets renders this section ambiguous in that it could also be construed as providing for recomputation only for the years of 1973 and 1974.

Viewing the purpose of the bill, the construction placed on Section 9359 18 by the Members in discussing and adopting it would accomplish their purpose while the other construction would render the sec-

tion virtually meaningless. It was the intent of the Legislature to provide for an increase of 10 percent in retirement benefits for Members retiring in 1973 and 1974.

Respectfully,

BOB MONAGAN, Assemblyman
Twelfth District

RESOLUTIONS

The following resolution was offered:

By Assemblyman Bee:

House Resolution No. 150

Relative to memorializing Harry S. Truman

WHEREAS, It was with great sadness that the Members of the Assembly learned of the death of the great former President and statesman, Harry S. Truman; and

WHEREAS, The former President's love, appreciation, and understanding of the ordinary citizen which stemmed from his similarly humble beginnings in Lamar, Missouri, where he was born on May 8, 1884, continued throughout his long and honorable lifetime as a public servant and later as a private citizen; and

WHEREAS, Harry S. Truman, before the commencement of his historical political career, was an employee of the *Kansas City Star* in 1901, a timekeeper for a railroad contractor in 1902, an employee of a Kansas City bank from 1903 to 1905, and operated his family's farm from 1906 to 1917; and

WHEREAS, This brave and valiant American entered the service of his country during World War I in 1917 and after training in field artillery served distinguishedly as an artillery officer in the Vosges operations, and the St. Mihiel and Meuse-Argonne offensives, rising from the rank of lieutenant to the rank of major upon his discharge in 1919; and

WHEREAS, Harry S. Truman, within three years of that date, commenced more than 30 devoted years of his life to meritorious public service as a member of the judicial, the legislative, and executive branches of government; and

WHEREAS, This auspicious career began with his able service as a judge of the Jackson County Court in Missouri from 1922 to 1924 and as the presiding judge from 1926 to 1934; and

WHEREAS, His display of judgment, intelligence and dedication as a member of the bench was directly followed by his noteworthy tenure as a member of the United States Senate, where he is most remembered for his significant service as chairman of a special committee to investigate and oversee the nation's defense program during World War II; and

WHEREAS, His accomplishments as a United States Senator made him a most desirable running mate for Franklin D. Roosevelt in his successful bid for a fourth term as President; and

WHEREAS, Mr. Truman's tenure as Vice President was indeed short, succeeding to the office of President less than three months after taking office as Vice President and during one of the most trying and difficult periods in American and world history; and

WHEREAS, Then President Truman was called upon to direct the nation's successful efforts to conclude World War II, an effort requiring the utmost in delicate and accomplished diplomatic relations with

the nation's allies and the determination and fortitude to make one of the most difficult decisions ever to confront one man, the decision to use the atomic bomb against Japan in hopes of shortening the war and saving American lives; and

WHEREAS, Harry S. Truman always seemed able to make the truly difficult decisions such as the institution of the Marshall plan of economic aid and redevelopment for war-torn Europe, the air lift of Berlin, the commitment of United States troops in the Korean Conflict, and the active leadership of the United States in the formation and development of the United Nations; and

WHEREAS, This dynamic and fiery, but nevertheless compassionate leader, has undoubtedly and rightfully assumed an unparalleled place in American history for his courageous leadership during a period of great world crisis and change; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members mourn the passing of former President Harry S. Truman and the loss to the nation of a greatly respected and revered leader, whose role in the historical destiny of this nation cannot be underestimated; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a suitably prepared copy of this resolution to Mrs Bess Truman.

Resolution read, and ordered held at Desk by the Acting Speaker. (Note · House Resolution No. 150 remained at Desk without further action).
