Existing law requires a proposed bank or trust company to file with the Superintendent of Banks a copy of its articles of incorporation certified by the Secretary of State and a copy of its bylaws.

This bill would eliminate the provision requiring the filing of the bylaws.

Existing law regulates investments by commercial banks and savings banks. Existing law prohibits a commercial bank from investing an amount exceeding 15% of its shareholders' equity in the securities of any one obligor. Existing law exempts from this prohibition, stocks, bonds, debentures, participations, and other obligation of or issued by the Student Loan Marketing Association, the Federal National Mortgage Association, and the Government National Mortgage Association.

This bill would include in that list of exempt obligations those issued by the Federal Home Loan Mortgage Corporation. This bill would also revise and recast provisions regulating investments by savings banks.

Existing law requires the board of a bank or trust company to conduct an annual examination of the financial condition of the institution and to prepare a report thereon.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law provides that, in lieu of this examination, the board may request the superintendent to cause a special examination or audit.

This bill would eliminate those provisions and would, instead, require each California state bank to annually file with the superintendent, within 90 days after the end of each fiscal year, an audit report for the fiscal year. The bill would require the audit report to comply with specified conditions.

The bill would also revise additional provisions relative to specified functions of the Superintendent of Banks, revise various provisions relative to safe deposit boxes, and revise various provisions of the Payment Instrument Law, as specified.

This bill would incorporate additional changes to certain of its provisions proposed by AB 3351 of the 1995–96 Regular Session, contingent upon the prior enactment of AB 3351. These changes would become operative on the operative date of AB 3351.

Ch. 1064 (AB 3351) Weggeland. Financial institutions.

Existing law provides for the regulation of certain banks by the Department of State Banking, certain savings associations by the Department of Savings and Loan, and industrial loan companies and credit unions by the Department of Corporations.

This bill would instead provide for regulation of these financial institutions by the Department of Financial Institutions, to be headed by a Commissioner of Financial Institutions. The commissioner would be appointed by the Governor, subject to confirmation by the Senate. The bill would accordingly revise and recast various provisions of law, and repeal obsolete provisions. The bill would make other related changes.

Under existing law, various fees are charged to financial institutions, and are continuously appropriated, as specified, for regulatory purposes. This bill would continuously appropriate these funds to the Department of Financial Institutions, thereby making an appropriation.

This bill would incorporate additional changes to certain of its provisions proposed by other bills, contingent upon the prior enactment of the other bills. These changes would become operative on the operative date of this bill.

The bill would provide that it would become operative on July 1, 1997, except as specified.

Ch. 1065 (AB 2713) Conroy. Public utilities: enforcement actions.

Existing law provides that certain persons, including specified employees of the Safety and Enforcement Division of the Public Utilities Commission, are not peace officers but may exercise the powers of arrest during the course and within the scope of their employment upon successful completion of a course in the exercise of those powers.

This bill would also permit persons employed by the Safety and Enforcement Division of the Public Utilities Commission who are designated by the Director of the Safety and Enforcement Division and approved by the commission to exercise the power to serve warrants, for the purposes of duties as specified by this bill. This bill would provide that peace officers designated pursuant to this bill shall not carry firearms.

The bill would also permit the commission to take specified enforcement actions against unlicensed household goods carriers, and would require telephone corporations to refuse telephone service if other enforcement actions have failed. Because violations of orders, decisions, rules, or other requirements of the Public Utilities Commission are misdemeanors, this bill would impose a state-mandated local program by creating new crimes.

The bill would incorporate additional changes in Section 830.7 of the Penal Code, to be operative only if SB 1205 and this bill are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

The bill would incorporate additional changes in Section 830.11 of the Penal Code proposed by AB 3351, to be operative only if AB 3351 and this bill are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1066 (SB 1672) Rosenthal. Investigators: Department of Insurance.

Existing law provides that the Chief of the Bureau of Fraudulent Claims of the Department of Insurance and designated investigators are peace officers whose authority extends to any place in the state for the purpose of performing their primary duty or when making an arrest. These peace officers may carry firearms only if authorized and under those terms and conditions specified by the department.

This bill would provide that investigators of the Investigations Bureau of the Department of Insurance, who are designated by the Chief of the Investigations Bureau, are not peace officers but may exercise the powers of arrest of a peace officer and the power to serve warrants during the course and within the scope of their employment if they receive a course in the exercise of those powers, provided that the primary duty of these persons shall be the enforcement of the Insurance Code and other laws relating to persons and businesses who are engaged in the business of insurance.

This bill would incorporate additional changes in Section 830.11 of the Penal Code, proposed by AB 2713 and AB 3351, to be operative only if this bill and one or both of the other bills are enacted and become effective on or before January 1, 1997, and this bill is enacted last.

Ch. 1067 (SB 1924) Dills. Teaching credentials.

(1) Existing law requires the Commission on Teacher Credentialing (commission) to establish the requirements for the issuance and renewal of a children's center instructional permit, specifies that this permit may be of a regular, emergency, or limited type, and provides as a requirement the completion of an on-site assessment of teaching competency approved by the commission. Existing law also requires the commission to establish the requirements for the issuance and renewal of a children's center supervision permit and specifies that this permit may be a regular or life permit.

This bill would instead require the commission to establish the requirements for the issuance and renewal of permits authorizing service in the care, development, and instruction of children in child care and development programs and permits authorizing supervision of a child care and development program, as well as the issuance of emergency permits for this purpose. The bill would make conforming changes in provisions that define a site supervisor and teacher, set forth the qualifications of a program director employed by an entity operating child care and development programs providing direct services to children at 2 or more sites, authorize the Superintendent of Public Instruction to waive those qualifications, set forth the requirements for persons employed as teachers by an agency contracting with the State Department of Education to provide child care and development services, and deem persons who meet specified criteria to hold a regular children's center instructional permit or a children's center supervision permit.

(2) Under existing law, statutory provisions establishing the Miller-Unruh Basic Reading Act of 1965 ceased to be operative on June 30, 1987, except for limited funding provisions. The Miller-Unruh Basic Reading Act of 1965 is, among other things, directed to the prevention and correction of reading disabilities at the earliest possible time in the educational career of a pupil and provides funding for the employment of reading specialists for the purposes of programs established pursuant to the act.

This bill would require the Commission on Teacher Credentialing to establish standards for a restricted reading certificate to enable holders of a teaching credential to provide for early development of reading and language arts skills and the early correction of a pupil's reading difficulties. The bill would authorize the commission to issue a restricted reading certificate to holders of a teaching credential who meet the commission's standards, as specified.

(3) Existing law authorizes the Commission on Teacher Credentialing, upon the recommendation of the governing board of a school district, to issue an eminence credential to any person who has achieved eminence in a field of endeavor commonly taught in the public schools. Existing law provides that each eminence credential is required to be issued for a one-year period and may be renewed for one-year periods.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law provides that upon 3 renewals the holder of the eminence credential is eligible for a life credential.

This bill, instead, would authorize the eminence credential to be issued initially for a 2-year period and renewed for a 3-year period. The bill would provide that upon completion of the 3-year renewal period, the holder of the eminence credential would be eligible for a professional clear teaching credential.

Ch. 1068 (SB 1568) Dills. Education.

(1) Existing law requires the Commission on Teacher Credentialing to establish professional standards, assessments, and examinations for entry and advancement in the education profession.

This bill would require the Commission on Teacher Credentialing to establish standards for a restricted reading certificate and would authorize the commission to issue a restricted reading certificate to holders of a teaching credential who meet the commission's standards.

(2) Existing law, the Miller-Unruh Basic Reading Act of 1965, ceased to be operative on June 30, 1987, except for limited funding provisions that provide for the employment of reading specialists for the purposes of programs established pursuant to the act.

This bill would require a school district, for the 1996–97 fiscal year and each fiscal year thereafter, as a condition of receiving specified funding, to maintain the same level of expenditures on reading specialists that it expended in the 1995–96 fiscal year unless the governing board of the school district makes certain findings, as specified.

Ch. 1069 (SB 1366) Beverly. Transactions and use taxes: City of Avalon.

The Sales and Use Tax Law imposes a sales tax upon all retailers at the rate of 6% of gross receipts of the retailer and a use tax at the same rate with respect to the sales price of tangible personal property. Counties and cities are authorized pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law to impose local sales and use taxes in conformity with state sales and use taxes at the rate of 1.25%. Under the Transactions and Use Tax Law, counties, transit districts, and other public entities are further authorized to impose a transactions and use tax at varying specified rates. In addition, any county is authorized to impose an additional transactions and use tax of 0.5%, if the ordinance or resolution proposing that tax is approved by a $^2/_3$ vote of all members of the board and the tax is approved by a majority vote of the qualified voters voting on the issue.

This bill would authorize the City of Avalon, subject to certain conditions with respect to voter approval of existing taxes, to impose an additional transactions and use tax of 0.5%, if the ordinance or resolution proposing that tax is approved by a majority vote of all members of the city council and the tax is approved by a $^2/_3$ vote of the qualified voters voting in an election on the issue. It would require the net proceeds of the tax authorized by the bill to be used exclusively for the Avalon Municipal Hospital and Clinic.

This bill would contain legislative findings and declarations as to the necessity of a special statute.

Ch. 1070 (SB 229) Calderon. Local government finance: redevelopment agencies: subventions.

(1) The Budget Act of 1994 appropriated $2,900,000 for allocation by the Controller for assistance to redevelopment agencies that had pledged, pursuant to bond instruments and supporting documents, special supplemental subventions as security for payment of the principal and interest on bonds, and required the Controller to prorate the allocation to the redevelopment agencies, if the allocation exceeded that appropriation. Fifty percent of the allocation was to be made on or before December 31, 1994, and 50% of the appropriation was to be allocated on July 31, 1995, to be accounted as an expenditure in the 1995–96 fiscal year. The Budget Act of 1995 made a similar appropriation of $2,900,000, with 50% of the appropriation to be allocated on or before December 31, 1995, and 50% of the appropriation to be allocated on July 31, 1996, to be accounted as an expenditure in the 1996–97 fiscal year. The Budget Act of 1996 similarly appropriates $5,000,000, for assistance to redevelopment agencies, with 50% of the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

appropriation to be allocated on or before December 31, 1996, and 50% to be allocated on July 31, 1997, to be accounted as an expenditure in the 1997–98 fiscal year.

This bill would require the Controller to allocate any funds remaining following the allocation of funds to redevelopment agencies from the funds appropriated in the Budget Act of 1996 to those redevelopment agencies that met specified requirements in the Budget Act of 1994, in an amount sufficient to eliminate any remaining shortfall in the payment of eligible claims from the 1994–95 fiscal year, and would provide for a proration if that allocation exceeds the amount of the appropriation remaining. The bill would also reappropriate any unencumbered balance of the appropriation made in the Budget Act of 1995, as specified, for allocation by the Controller to those redevelopment agencies that met specified requirements in the Budget Act of 1994, in an amount sufficient to eliminate any remaining shortfall in the payment of eligible claims for the 1994–95 fiscal year, and would provide for a proration if those allocations exceed the amount of the reappropriation.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1071 (SB 1185) Leonard. California School Finance Authority.

Existing law, known as the California School Finance Authority Act, establishes the California School Finance Authority and authorizes it to issue for sale and have outstanding revenue bonds in a total amount not to exceed $400,000,000, to (1) reconstruct, remodel, or replace existing school buildings; (2) to acquire new schoolsites, equipment, and buildings to be made available to school districts; and (3) to assist school districts by providing access to financing for working capital and capital improvements.

This bill would authorize the California School Finance Authority to provide funds to school districts for the costs of school facilities projects, as defined.

This bill would authorize the California School Finance Authority to issue revenue bonds to finance a joint venture school facilities construction project.

This bill would permit California School Finance Authority to issue revenue bonds in the form of commercial paper.

This bill would authorize the authority to issue for sale revenue bonds in a total amount for each fiscal year not to exceed $400,000,000, with the total amount of bonds outstanding not to exceed $4,000,000,000, for the purpose of providing capital to provide funding to school districts. The bill would require that not more than $150,000,000 of those revenue bonds be issued for the purpose of providing funding for joint venture school facilities construction projects.

The bill would, until January 1, 2006, authorize a school district or county office of education, in connection with securing financing or refinancing of a project, to guarantee or provide for the payment of the bonds under several specified conditions including the condition that the school district or county office of education provide notice to the Controller of the adoption of a resolution to participate. This notice would be required to set forth a schedule for the repayment of principal and interest on the bonds and identify a trustee appointed by the school district or county office of education for the purpose of receiving revenue limit apportionments made by the Controller, as specified, with the trustee making any required payments of principal or interest, or both, if the school district or county office of education will not be making the payment at the time the payment is required. The school district or county office of education would be required to notify the trustee who would be required to notify the Controller, that the school district or county office of education will not be making the required payment. The bill would also provide a specified alternative procedure with a transfer schedule setting forth the amount and dates for the transfer of funds to the trustee.

This bill would increase the amount of moneys in the California School Finance Authority Fund, a continuously appropriated fund, and thereby constitute an appropriation.

The bill would authorize the Controller to make revenue limit apportionments to the trustee, as specified, for the purpose of making the required payment.

This bill would provide that the revenue limits apportionments made to the trustee would count toward the state's minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the California School Finance Authority to report to the Legislature by January 1, 2001, on the number of school districts or county offices of education participating under these provisions and on the financial stability of the participating school districts and county offices of education.

This bill would incorporate changes in Section 17580 of the Education Code proposed by AB 3472, to be operative only if AB 3472 and this bill are both chaptered and this bill becomes effective on or before January 1, 1997, and this bill is chaptered last.

Ch. 1072 (SB 1544) Peace. School facilities improvement districts: bonds.

(1) Existing law authorizes school districts to form school facilities improvement districts consisting of a portion of the territory within a school district and authorizes the school facilities improvement district to issue general obligation bonds for school facilities construction purposes.

This bill would authorize community college districts to form school facilities improvement districts and then authorize the issuance of general obligation bonds for school facilities construction purposes by these community college school facilities improvement districts.

(2) Under existing law, only school districts that have a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1992 that has as one of its purposes the construction of school facilities within a portion of the territory of the school district may form school facilities improvement districts. The boundaries of school facilities improvement districts include all of the portion of the territory within the boundaries of the school district that is not located within the boundaries of the community facilities district.

This bill, notwithstanding those provisions, would authorize a school district or community college district to form a school facilities improvement district without meeting those requirements upon specified findings of the governing board of the school district or community college district and would authorize the governing board to define the boundaries of the school facilities improvement district, except that those boundaries may not include all or a portion of the territory of the community facilities district.

(3) Existing law limits the amount of bonds that a school facilities improvement district that is located within the boundaries of a unified school district may issue to 2.5% of the taxable property of the school facilities improvement district, as specified. Existing law limits the amount of bonds that other school facilities improvement districts may issue to 1.25% of the taxable property of the school facilities improvement district. Existing law similarly limits the amount of bonds that a school district may issue.

This bill would provide that no bonded indebtedness may be incurred by any school facilities improvement district in an amount that would cause the bonded indebtedness of the territory of the school district or community college district of which the school facilities improvement district is a part, or the bonded indebtedness of the territory of the school facilities improvement district to exceed 2.5% or 1.25% as appropriate.

(4) Existing law declares the intent of the Legislature that the rate of taxes levied annually for the support of the bonds issued by a school facilities improvement district not be greater than a specified annual special tax levied by a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982.

This bill would limit application of that intent to the rate of taxes levied annually for the support of the bonds issued by the school facilities improvement districts that are formed in school districts or community college districts that also have community facilities districts formed pursuant to the Mello-Roos Community Facilities Act of 1982 in the territory of the school district or community college district.

Ch. 1073 (AB 1055) Caldera. Property taxation: administration.

Existing property tax law provides, pursuant to a specified formula, for a county auditor's determination of those proportionate shares of the county's property tax administrative costs that are attributable to the other jurisdictions in the county, and further provides for a county's recovery from all other jurisdictions within the county, except for school entities, of those proportionate shares of the county's property tax administrative costs.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would additionally require that a proportionate share of the county's property tax administrative costs be calculated for a specified local fund that is established by a state law for the support of school entities, and would include those costs incurred by the county board of equalization and county assessment appeals boards among those property tax administrative costs recoverable by the county. This bill would also, as provided, declare the intent of the Legislature that a specified portion of the total of those proportionate shares of the county's property tax administrative costs, that are determined with respect to school entities and the specified local fund established by state law for the support to school entities, be calculated and reimbursed pursuant to a future bill. By placing new duties upon county auditors with respect to the calculation of additional county administrative cost shares, this bill would impose a state-mandated local program.

This bill would make legislative findings and declarations, and would state the intent of the Legislature in enacting this bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1074 (AB 2738) K. Murray. Education: certificated employees: private school employees.

(1) Existing law disqualifies a person convicted of any of various specified sex offenses from eligibility for receipt of a teaching credential or from employment as a public school teacher. Another provision of existing law requires that, with regard to applicants for specified positions with private schools, notice of convictions of specified sex offences be supplied to a prospective private school employer in a criminal record summary.

This bill would conform these provisions by adding various offenses to the specified sex offenses that would disqualify a person from receipt of a teaching credential or employment as a public school teacher. Existing law requires, with respect to these added offenses, that notice of convictions be supplied in a criminal record summary to a prospective private school employer.

(2) Existing law prohibits the provisions related to the requirement that every person, firm, association, partnership, or corporation offering or conducting private school instruction on the elementary or high school level require each new employee having contact with minor pupils and not possessing a valid California state teaching credential, or not currently licensed by another state agency that requires a criminal record summary, to submit 2 sets of fingerprints to the Department of Justice for the purpose of obtaining a criminal record summary from the department and the Federal Bureau of Investigation, from being construed to prohibit the employment of any person based upon his or her criminal record.

This bill would require every person, firm, association, partnership, or corporation offering or conducting private school instruction on the elementary or high school level to notify, in writing, the parents or guardians who reside with each pupil of that school whenever that school hires an employee who, in the course of his or her employment, will come in contact with minor pupils and who has been convicted of a sex offense, as defined to include the same offenses that would disqualify a person from eligibility for receipt of a teaching credential or from employment as a public school teacher. The bill would exempt any person who conveys or receives information in good-faith conformity with the provision from prosecution under criminal laws relating to the unlawful furnishing of state summary criminal history information for that conveying or receiving of information.

Ch. 1075 (SB 1444) Solis. Crimes: domestic violence: sexual assault.

(1) Existing law provides that a physician and surgeon's certificate shall be suspended automatically during the time that the holder of the certificate is incarcerated after conviction of a felony and provides a hearing procedure to determine whether the felony was substantially related to the qualifications, functions, or duties of the physician and

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

surgeon for purposes of determining the length of the suspension. Specified crimes are conclusively presumed to be substantially related to the qualifications, functions, or duties of a physician and surgeon for these purposes and a hearing is not required with respect to a conviction for these crimes.

This bill would add the crime of spousal rape to the list of crimes that are conclusively presumed to be substantially related to the qualifications, functions, or duties of a physician and surgeon for these purposes.

(2) Existing law requires every person, firm, association, partnership, or corporation offering or conducting private school instruction on the elementary or high school level to require each new employee having contact with minor pupils and not possessing a valid California teaching credential, or not currently licensed by another state agency that requires a criminal record check, to submit 2 sets of fingerprints to the Department of Justice for the purpose of obtaining a criminal record summary from the department and the Federal Bureau of Investigation. The Department of Justice is required to review the Federal Bureau of Investigation criminal record summary to ascertain whether or not a new employee has a conviction record or an arrest pending final adjudication for any sex offense, controlled substance offense, or crime of violence, and to notify the private school employer, as specified, as to whether or not a new employee has a conviction or arrest pending final adjudication for any of those crimes.

This bill would add the crime of spousal rape to the list of sex offenses required to be reported for these purposes.

(3) Existing law provides that the names of victims of specified crimes may not be disclosed, except as provided, pursuant to provisions requiring the disclosure of information concerning crimes committed on specified postsecondary institution campuses.

This bill additionally would provide that the name of the victim of the crime of spousal rape may not be disclosed, except as specified, under these provisions.

(4) Existing law provides that governing boards of community college districts may not employ or retain on employment persons convicted of, and may suspend persons charge with, specified sex offenses.

This bill would add specified spousal rape offenses to the list of sex offenses for purposes of these provisions.

(5) Existing law provides that, in specified criminal proceedings, the district attorney may move to exclude from evidence the victim's current address and telephone number.

This bill would authorize the district attorney additionally to exclude from evidence the address and telephone number of the victim of spousal rape.

(6) Existing law provides a procedure to be followed in prosecutions for specified offenses in which evidence of sexual conduct of a complaining witness is offered to attack the credibility of the witness.

This bill would require that this procedure additionally be followed in a prosecution for spousal rape in which this type of evidence is offered.

(7) Existing law provides that, in prosecutions for specified offenses, opinion evidence, reputation evidence, and evidence of specific instances of the complaining witness' sexual conduct is inadmissible by the defendant to prove consent by the complaining witness.

This bill additionally would make this provision applicable in prosecutions for spousal rape.

(8) Under existing law, the State Department of Health Services is required to prepare and publish a brochure with information regarding genetic diseases and defects and AIDS, and to make the brochure available for distribution to each applicant for a marriage license.

This bill would require the brochure to include information concerning domestic violence.

(9) Existing law authorizes the courts to make determinations regarding the custody of minor children and to issue orders regarding visitation with those children in accordance with certain standards. Existing law makes these provisions relating to custody applicable to various proceedings in family law, including, among others, proceedings to determine custody or visitation pursuant to the Domestic Violence Prevention Act.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would prohibit the construction of those provisions to authorize custody or visitation rights to be granted to any nonparent party to a Domestic Violence Prevention Act proceeding. This bill would declare the intent of the Legislature to restate and clarify existing law with regard to the authority of a nonparent party to seek custody or visitation through a Domestic Violence Prevention Act proceeding.

(10) Existing law requires state and local law enforcement agencies to make public specified information pertaining to crimes and provides that information about the victim of a specified crime may be withheld, as provided.

This bill would provide additionally that this information may be withheld about the victim of the crime of spousal rape.

(11) Existing law requires the Fair Employment and Housing Commission to provide to the local district attorney's office a copy of its decision and order if it finds that a party has engaged in an unlawful practice consisting of a specified act, including rape.

This bill additionally would require that a copy of the decision and order be provided to the local district attorney's office if there is a finding that a party has engaged in an unlawful practice consisting of spousal rape.

(12) Existing law defines the term "injury" for purposes of provisions governing the procedure by which crime victims may obtain restitution through compensation from the Restitution Fund. These provisions do not provide for restitution for emotional injury, unless it is accompanied by physical injury or the threat of physical injury. Under these provisions, a victim of a specified crime who sustains emotional injury is presumed to have sustained physical injury.

This bill additionally would provide that a victim of spousal rape who sustains emotional injury is presumed to have sustained physical injury for these purposes.

(13) Existing law requires the State Personnel Board to provide to the local district attorney's office a copy of its decision and order if it finds that a person has engaged in discrimination consisting of a specified act, including rape.

This bill additionally would require that a copy of the decision and order be provided to the local district attorney's office if there is a finding that a person has engaged in discrimination consisting of spousal rape.

(14) Existing law provides that, if probation is granted or the execution or imposition of a sentence is suspended for a person convicted of specified domestic violence offenses who previously has been convicted of such an offense, as provided, it shall be a condition thereof that the person be imprisoned in a county jail for not less than 96 hours and that he or she complete a batterer's treatment program.

This bill would increase this minimum time of imprisonment in the county jail to not less than 15 days. By increasing this minimum term of imprisonment in a county jail, this bill would impose a state-mandated local program.

(15) Existing law provides that, if probation is granted or the execution or imposition of a sentence is suspended for a person convicted of specified domestic violence offenses who previously has been convicted of two or more of these offenses, as provided, it shall be a condition thereof that the person be imprisoned in a county jail for not less than 30 days and that he or she complete a batterer's treatment program.

This bill would increase this minimum time of imprisonment in the county jail to not less than 60 days. By increasing this minimum term of imprisonment in a county jail, this bill would impose a state-mandated local program.

(16) Existing law sets forth certain rights of victims of, and witnesses to, crimes.

This bill additionally would provide that the victim of sexual assault or spousal rape has the right to have advocates present at any evidentiary, medical, or physical examination or interview by law enforcement authorities or defense attorneys.

(17) Existing law provides that a person convicted of a specified sex offense committed when that person was 18 years of age who has previously been convicted of any such felony may not be committed to the Youth Authority.

This bill would add the crime of spousal rape to the list of specified sex offenses for these purposes.

(18) Existing law requires the Youthful Offender Parole Board to send to specified individuals written notice of the parole consideration or review hearing, and a progress report, of a person committed to the Department of the Youth Authority for the commission of specified offenses.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would add specified spousal rape offenses to the list of offenses specified for these purposes.

(19) Existing law requires the Youthful Offender Parole Board to send to specified individuals written notice of a petition and of any hearing set for a petition to have a person committed to state prison who is under the control of the Youth Authority for the commission of murder or specified rape offenses.

This bill additionally would require this notice to be sent concerning a person committed to state prison who is under the control of the Youth Authority for the commission of specified spousal rape offenses.

(20) Existing law provides that a mentally retarded person may not be committed to the State Department of Developmental Services pursuant to specified provisions of law, unless he or she is a danger to himself or herself or others. Dangerousness to self or others includes a finding of incompetence to stand trial when the defendant has been charged with specified crimes.

This bill would add specified spousal rape offenses to the list of specified crimes for these purposes.

(21) Existing law provides that a person found not guilty by reason of insanity of any of specified crimes may not purchase or receive, or attempt to purchase or receive, or have in his or her possession or under his or her custody or control a firearm or other deadly weapon. A violation of this provision is punishable as a felony or a misdemeanor.

This bill additionally would provide that a person found not guilty by reason of insanity of specified spousal rape offenses may not purchase or receive, or attempt to purchase or receive, or have in his or her possession or under his or her custody or control a firearm or other deadly weapon. By expanding the scope of a crime, the bill would impose a state-mandated local program.

(22) Existing law defines the term "physical abuse" to include specified crimes for purposes of provisions requiring the reporting, investigating, and prosecuting of acts of abuse to elder or dependent adults.

This bill additionally would define "physical abuse" to include the crime of spousal rape for these purposes.

(23) This bill would incorporate additional changes to Section 44237 of the Education Code, proposed by AB 2738, to be operative only if this bill and AB 2738 are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(24) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1076 (SB 1391) Johnston. Criminal procedure: mental competence.

(1) Under existing law, if a defendant charged with a felony is found to be mentally incompetent, the trial or judgment in that case is required to be suspended until the defendant becomes mentally competent and the court is required to order that, in the meantime, the defendant be delivered to a state hospital for the care and treatment of the mentally disordered or to a treatment facility that will promote the defendant's restoration to mental competence or that the defendant be placed on outpatient status, as specified.

This bill would provide that a defendant charged with a violent felony may be placed on outpatient status only if the court finds that the placement will not pose a danger to the health or safety of others and may be delivered to a state hospital or treatment facility only if the hospital or facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(2) Existing law further provides that, if a developmentally disabled defendant is found to be mentally incompetent, the trial or judgment in that case is required to be suspended until the defendant becomes mentally competent, and the court is required to consider a recommendation for placement and to order that, in the meantime, the defendant be delivered to a state hospital for the care and treatment of the

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

developmentally disabled or to a residential facility that will promote the defendant's attainment of mental competence or be placed on outpatient status, as specified.

This bill, among other things, would provide that a developmentally disabled defendant charged with a violent felony may be placed on outpatient status only if the court finds that the placement will not pose a danger to the health or safety of others and may be placed in a facility or delivered to a state hospital, developmental center, or residential facility only if the hospital, developmental center, or facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected. The bill also would revise provisions establishing the time by which a defendant who has not become mentally competent is required to be returned to the committing court.

The bill also would provide for a review of the security level of housing and treatment of a defendant under the above provisions.

(3) Existing law specifies procedures by which a person who has been admitted or committed to a state hospital, community care facility, or health facility as a developmentally disabled patient shall have a right to a hearing by writ of habeas corpus for his or her release. These provisions impose specified duties on the staff or employees of the hospital or facility. A violation of these provisions is a misdemeanor. Existing law further imposes notice requirements on local court officials in connection with the filing of the writ of habeas corpus.

This bill, among other things, would make these provisions applicable to a person admitted or committed to a developmental center or other appropriate placement permitted by law. By expanding the scope of a crime and by imposing additional notification duties on local court officials, the bill would impose a state-mandated local program.

The bill additionally would provide that, if a person is charged with a violent felony and has been committed to his or her current placement under the provisions in (2) above or (4) below, and the court finds that the person is not developmentally disabled or mentally retarded or that he or she is able to provide for his or her basic needs, the court shall, before releasing the person, determine that the release will not pose a danger to the health or safety of others, as provided. If the person's release poses a danger to the health or safety of others, the court may grant or deny the request for release, or impose conditions on the release.

(4) Existing law specifies procedures for the commitment of mentally retarded persons to the State Department of Developmental Services and provides that no mentally retarded person may be committed unless he or she is a danger to himself, herself, or others. Dangerousness for these purposes includes a finding of incompetence to stand trial when the defendant has been charged with specified crimes.

This bill would revise and recast these provisions to, among other things, expand the list of crimes for these purposes to include additional sex crimes, provide that, in certain circumstances, proof of a recent overt act is not required to find a person a danger to himself, herself, or others, expand placement options for the alleged dangerous mentally retarded person to include developmental centers, and require the consideration of public safety in placing these individuals.

(5) This bill also would make technical and conforming changes.

(6) This bill would incorporate additional changes in Section 1370 and 1370.1 of the Penal Code, and Section 6509 of the Welfare and Institutions Code, proposed by AB 2104, to be operative only if AB 2104 and this bill are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(8) The bill would become operative only if AB 3130 is enacted and becomes operative on or before January 1, 1997.

Ch. 1077 (AB 2898) Bowler. Victims of crime.

(1) Existing law authorizes the State Board of Control to provide assistance to victims of crime for the pecuniary losses they suffer as a direct result of criminal acts.

This bill would revise the definition of the terms "crime" and "injury" for these purposes. This bill would, among other things, require the applicant to establish by a preponderance of the evidence that, as a direct result of a crime, he or she incurred an injury that resulted in a pecuniary loss; revise certain practices of the State Board of Control with regard to these provisions; and make technical changes.

(2) Existing law authorizes courts to issue bench warrants for the failure to pay a fine and allows for imprisonment until the fine is satisfied.

This bill would make various changes to existing law regarding restitution orders and fines. Among other changes, this bill would provide that when a bench warrant issued for the nonpayment of base fines, any outstanding restitution fines are to be included; restitution fines have an unlimited life; a separate hearing is not required by the court setting the amount of a restitution fine; and that the defendant bears the burden of demonstrating the lack of his or her ability to pay.

(3) This bill would incorporate additional changes in Section 166 of the Penal Code, proposed by AB 2224 and AB 3246, to be operative only if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(4) This bill would incorporate additional changes in Section 243 of the Penal Code, proposed by AB 2224, to be operative only if AB 2224 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(5) This bill would incorporate additional changes in Section 273.5 of the Penal Code, proposed by AB 720, to be operative only if AB 720 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(6) This bill would incorporate additional changes in Section 273.6 of the Penal Code, proposed by AB 2224 and AB 3246, to be operative only if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(7) This bill would incorporate additional changes in Section 484.1 of the Penal Code, proposed by AB 2759, to be operative only if AB 2759 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(8) This bill would incorporate additional changes in Section 1214 of the Penal Code, proposed by SB 1685, to be operative only if SB 1685 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(9) This bill would incorporate additional changes in Section 1464 of the Penal Code, proposed by SB 1446, to be operative only if SB 1446 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(10) This bill would incorporate additional changes in Section 2900.5 of the Penal Code, proposed by AB 126, to be operative only if AB 126 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

Ch. 1078 (SB 1379) Peace. Arrest warrants.

(1) Existing law provides for the issuance of a warrant of probable cause for arrest and provides that the warrant shall not begin a complaint process pursuant to provisions governing the filing of a complaint charging an offense triable in the superior court.

This bill additionally would provide that the warrant shall not begin a complaint process pursuant to a provision containing requirements applicable to the prosecution of a complaint in the municipal court.

(2) Existing law contains provisions governing the issuance of search warrants and provides the grounds upon which they may be issued.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill additionally would provide that a search warrant may be issued to search for a person when there is a warrant to arrest a person. The bill also would make technical and conforming changes.

(3) Existing law specifies circumstances under which a peace officer may make an arrest without a warrant. Under specified circumstances, a peace officer may make a warrantless arrest if he or she has reasonable cause to believe that a person has been driving under the influence of alcohol, drugs, or both.

This bill additionally would authorize a peace officer to make a warrantless arrest if he or she has reasonable cause to believe that a person has been driving under the influence of alcohol, drugs, or both, and the person, unless immediately arrested, will not be apprehended, may injure himself or herself or damage property, or may destroy or conceal evidence of the crime.

(4) This bill would incorporate additional changes in Section 1524 of the Penal Code proposed by AB 1734, to be operative only if AB 1734 and this bill are both enacted and become effective on January 1, 1997, and this bill is enacted last.

Ch. 1079 (AB 1734) Frusetta. Obscene matter.

(1) Existing law governs, among other things, the sale, distribution, possession, and forfeiture of, and prescribes punishment for violations of the law relating to, obscene matter, as defined.

This bill would provide that these provisions apply to any representation of information, data, or image, including, but not limited to, any film, filmstrip, photograph, negative, slide, photocopy, videotape, video laser disc, computer hardware, computer software, computer floppy disc, data storage media, CD-ROM, or computer-generated equipment or any other computer-generated image that contains or incorporates in any manner, any film or filmstrip. The bill would also provide that it does not constitute a violation of these provisions for a person or entity solely to provide access or connection to or from a facility, system, or network over which that person or entity has no control and that an employer is not liable for the actions of an employee or agent under the provisions, except as provided. The bill further would provide that it is a defense to prosecution for a violation of these provisions and in any civil action that may be instituted based on such a violation that a person has taken specified good faith actions to restrict or prevent the transmission of, or access to, a communication specified in the provisions.

(2) Existing law prohibits sexual exploitation of a child, which is knowingly developing, duplicating, printing, or exchanging any film, photograph, videotape, negative, or slide in which a person under the age of 18 years is engaged in an act of sexual conduct, as defined.

The bill would instead prohibit knowingly developing, duplicating, printing, or exchanging any representation of information, data, or image, including, but not limited to, any film, filmstrip, photograph, negative, slide, photocopy, videotape, video laser disc, computer hardware, computer software, computer floppy disc, data storage media, CD-ROM, or computer-generated equipment or any other computer-generated image that contains or incorporates in any manner, any film or filmstrip to the means of reproduction enumerated in these provisions. However, it would provide that these provisions do not apply to matter that is unsolicited and is received without knowledge or consent through a facility, system, or network over which the person or entity has no control. Because this bill would expand the scope of a crime, it would impose a state-mandated local program.

(3) Existing law prohibits specified activities by a person with regard to a minor under the age of 18 years relating to permitting the minor to engage in either posing or modeling alone or with others for purposes of preparing a film, photograph, negative, slide, or live performance involving sexual conduct by a minor under the age of 18 years, alone or with other persons or animals. Existing law makes it a felony to engage in these activities for commercial purposes.

The bill would instead prohibit knowingly developing, duplicating, printing, or exchanging any representation of information, data, or image, including, but not limited to, any film, filmstrip, photograph, negative, slide, photocopy, videotape, video laser disc, computer hardware, computer software, computer floppy disc, data storage media,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

CD-ROM, or computer-generated equipment or any other computer-generated image that contains or incorporates in any manner, any film or filmstrip to the means of reproduction enumerated in these provisions. Because this bill would expand the scope of a crime, it would impose a state-mandated local program.

(4) Existing law specifies the grounds upon which a search warrant may be issued, including a circumstance in which the property or things to be seized consist of evidence that tends to show that sexual exploitation of a child has occurred or is occurring.

This bill would add to those grounds a circumstance in which the property or things to be seized consist of evidence that tends to show that possession of matter depicting sexual conduct of a person under the age of 18 years has occurred or is occurring.

(5) This bill would make technical, nonsubstantive changes to existing law.

(6) This bill would incorporate additional changes in Section 1524 of the Penal Code proposed by SB 1379, to be operative only if SB 1379 and this bill are both enacted and become effective on January 1, 1997, and this bill is enacted last.

This bill would incorporate additional changes in Sections 311.4 and 311.11 of the Penal Code proposed by AB 295, to be operative only if AB 295 and this bill are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1080 (AB 295) Baldwin. Pornography.

(1) Existing law includes provisions governing obscene matter and child pornography. A violation of these provisions is a crime.

This bill would exempt from these provisions a person or entity that solely provides access or connection to or from a facility, system, or network over which that person or entity has no control, as provided. The bill would also exempt from these provisions an employer, for actions of an employee or agent, as provided. Additionally, the bill would create as a defense to a prosecution or civil action pursuant to these provisions that a person has taken good faith actions to restrict or prevent the transmission of, or access to, a specified communication.

(2) Existing law defines the term "matter" for purposes of the provisions governing obscene matter and child pornography.

This bill would expand the definition of the term "matter" to include any representation of information, data, or image, including, but not limited to, any film, filmstrip, photograph, negative, slide, photocopy, videotape, video laser disc, computer hardware, computer software, computer floppy disc, data storage media, CD-ROM, or computer-generated equipment or any other computer-generated image that contains or incorporates in any manner any film or filmstrip. Because the bill would incorporate this expanded definition into these criminal provisions, it would change the definitions of various crimes, thereby imposing a state-mandated local program.

(3) The Child Abuse and Neglect Reporting Act requires a commercial film and photographic print processor who has knowledge of or observes a film, photograph, videotape, negative, or slide depicting a child under the age of 14 years engaged in an act of sexual conduct to report the instance of suspected child abuse to a law enforcement agency. A violation of this provision is a misdemeanor.

This bill would require a commercial film and photographic print processor who has knowledge of or observes such a depiction of a child under the age of 16 years engaged in an act of sexual conduct to make the required report. By expanding the scope of a crime, the bill would impose a state-mandated local program.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) This bill would incorporate additional changes to Sections 311.2 and 311.3 of the Penal Code, proposed by AB 1734 and AB 1881, to be operative if this bill and one or both

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

of the other bills are enacted and become effective on or before January 1, 1997, and this bill is enacted last.

This bill would incorporate additional changes to Section 311.4 and 311.11 of the Penal Code, proposed by AB 1881, to be operative if this bill and AB 1881 are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

Ch. 1081 (AB 3354) Brown. Child abuse and neglect reports.

(1) Existing law, the Child Abuse and Neglect Reporting Act, requires specified individuals, including child care custodians and health practitioners, to report known or suspected instances of child abuse to child protective agencies, except as provided. A violation of this reporting requirement is a misdemeanor.

This bill additionally would require clergy members to report known or suspected instances of child abuse to child protective agencies, as provided. The bill would exempt from its reporting requirement a clergy member who acquires knowledge or reasonable suspicion of child abuse during a penitential communication, as defined, and would make additional conforming changes. This bill would impose a state-mandated local program by expanding the scope of an existing crime and by imposing new duties on public officials of local agencies subject to the reporting requirement under the bill.

(2) Existing law requires that, when a report is made pursuant to specified provisions of the Child Abuse and Neglect Reporting Act, the agency investigating the claim of child abuse shall inform the person required to report under those provisions of the results of the investigation and of any action the agency is taking with regard to the child or family.

This bill additionally would require that, when a report is made pursuant to the provisions requiring members of the clergy to report child abuse under (1) above, the agency investigating the child abuse claim shall inform the person required to report under those provisions of the results of the investigation and of any action the agency is taking with regard to the child or family. By imposing additional duties on local agencies, the bill would impose a state-mandated local program.

(3) Existing law provides that specified individuals who report child abuse or, pursuant to a request from a child protective agency, provide the agency with access to the victim of child abuse shall not be subject to civil or criminal liability for those actions.

This bill would add clergy members to the list of individuals specified for these purposes.

(4) This bill would incorporate additional changes in Section 11166 of the Penal Code, proposed by AB 295, to be operative only if AB 295 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(5) This bill would incorporate additional changes in Section 11170 of the Penal Code, proposed by AB 2194 and SB 1812, to be operative only if this bill and one or both of the other bills are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 1082 (AB 2679) Caldera. Dependent children.

(1) Existing law specifies the circumstances of abuse and neglect under which a minor may be adjudged a dependent child of the juvenile court, including that the minor's parent or guardian has been convicted of causing the death of another minor through abuse or neglect.

This bill would revise this circumstance to instead provide that the minor's parent or guardian caused the death of another minor through abuse or neglect.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) Under existing law, whenever a minor is removed from a parent's or guardian's custody, the juvenile court is required to order the provision of family reunification services. Existing law provides that when the court finds certain conditions by clear and convincing evidence, reunification services need not be provided to the parent or guardian.

This bill would revise these conditions and would add other conditions under which reunification services need not be provided. The bill would make related changes.

(3) Under existing law, if a dependent child of the juvenile court is not returned to the custody of a parent or guardian at the review hearing held 12 months after the initial dispositional hearing, the court is required to take specified action, which may include ordering that a hearing be held within 120 days in which parental rights may be terminated if there is clear and convincing evidence that reasonable family reunification services have been provided or offered to the parents.

This bill would provide that evidence that the minor has been placed with a foster family that is eligible to adopt the minor or has been placed in a preadoptive home shall not be deemed a failure to provide or offer reasonable services.

(4) Existing law prescribes the exclusive procedures for permanently terminating parental rights to, or establishing legal guardianship of, minors who are adjudged dependent children of the juvenile court. Existing law requires the court to terminate parental rights at the hearing held to make that determination, only if it determines by clear and convincing evidence that it is likely that the minor will be adopted. If the court makes this determination and has made certain other findings, there is a sufficient basis for termination of parental rights unless the court finds that termination would be detrimental to the minor due to specified circumstances.

This bill would revise one of these circumstances.

(5) The bill would incorporate additional amendments to Sections 300 and 366.21 of the Welfare and Institutions Code, proposed by SB 1516, and to Sections 361.5, 366.21, and 366.26 of the Welfare and Institutions Code, proposed by AB 1524, to become operative only if one or both of those bills and this bill are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

Ch. 1083 (AB 1524) Granlund. Children: dependency proceedings: adoption.

(1) Existing law requires the juvenile court, when a minor is removed from the parent's or guardian's custody, to order the probation officer to provide child welfare services to the family for the purpose of facilitating reunification within a maximum time period not to exceed 12 months, except where the court finds that certain conditions exist. Under this provision, services may be extended up to an additional 6 months, as specified.

This bill would revise the time periods governing provision of reunification services and would require specified notice to the parent or guardian of a child who was under the age of 3 years on the date of removal from the home. The bill would add to the conditions under which the court is not required to order reunification services, that the parent is not receiving reunification services for a sibling or a half-sibling of the minor pursuant to other conditions specified in existing law, or that the parent or guardian willfully abandoned the minor and the abandonment constituted a serious danger to the child, as specified. The bill would make related changes.

(2) Under existing law, whenever the court orders a specified hearing, it is required to direct the preparation of an assessment that includes an analysis of the likelihood that the minor will be adopted if parental rights are terminated.

This bill would revise the requirements of this assessment. These revisions would be operative only until January 1, 1999.

(3) Under existing law, the status of every dependent child in foster care is required to be reviewed periodically but no less than once every 6 months. Existing law provides that at the review hearing held 6 months after the initial dispositional hearing, the court shall order the return of the minor to the physical custody of his or her parents or guardians unless the court finds that the return would create a substantial risk of detriment to the physical or emotional well-being of the minor.

This bill would require the court, if the minor is not returned to a parent or guardian, to specify the factual basis for its conclusion that the return would be detrimental. The

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

bill would authorize the court, in the case of a minor who is under 3 years of age on the date of removal from the physical custody of his or her parent or guardian, to schedule a hearing regarding the termination of parental rights under specified circumstances. The bill would make related changes.

(4) Existing law, operative January 1, 1996, prohibits the State Department of Social Services and any licensed adoption agency to which a child has been freed for adoption by either relinquishment or termination of parental rights from discriminating in the placement of the child on the basis of race, color, or national origin, as provided. Existing law also authorizes the department and these agencies to consider the cultural, ethnic, or racial background of the child and the capacity of the prospective adoptive parent to meet the needs of a child of this background as one of a number of factors used to determine the best interest of the child, and to consider the child's religious background. Existing law relating to dependency proceedings and the placement of a minor who has a probability for adoption but is difficult to place for adoption, requires a public agency to conduct a search for adoptive parents pursuant to the former provision described above under certain conditions.

This bill would instead provide that the public agency must conduct a search for adoptive parents in the same manner as prescribed for children in both of the provisions described above.

(5) Under existing law, in proceedings for the adoption of a minor who is a dependent child where the juvenile court has found that adoption is the appropriate permanency plan, the court is required to read and consider certain assessments prepared pursuant to specified provisions of law.

This bill would instead require the court to read and consider the full report prepared by the State Department of Social Services or an adoption agency pursuant to existing law relating to adoption.

(6) Existing law authorizes the State Department of Social Services to license any county agency as a licensed county adoption agency.

This bill would authorize a licensed county adoption agency to purchase specified services from any licensed private adoption agency which the private adoption agency is licensed to provide, to facilitate adoptive placement of a category of children for whom the county adoption agency has determined it cannot provide adequate services.

(7) Existing law establishes the Adoption Assistance Program, under which financial assistance is provided for the adoption of defined special needs children. Existing law requires the state to reimburse licensed private adoption agencies for costs of aid to adoption for special needs children, as provided, from any funds appropriated for this purpose.

This bill would revise the latter provision to require the state to compensate licensed private adoption agencies for costs of placing for adoption children eligible for Adoption Assistance Program benefits, as provided.

(8) The bill would incorporate additional amendments to Sections 361.5 and 366.26 of the Welfare and Institutions Code, that are substantially the same as those proposed by AB 2679, contingent upon this bill being chaptered last as specified, and to Section 366.21 of the Welfare and Institutions Code, proposed by SB 1516 or AB 2679, or both, to become operative only if one or both of those bills and this bill are chaptered and become effective, on or before January 1, 1997, and this bill is chaptered last.

Ch. 1084 (SB 1516) Solis. Dependent children: reunification with parents or guardians.

(1) Existing law establishes the conditions of abuse and neglect pursuant to which a child may be declared a dependent child of the juvenile court. Existing law declares that it is the intent of the Legislature in enacting this provision to provide maximum protection for children, as specified.

This bill would revise and recast these statements of legislative intent. The bill would provide that the purpose of the provisions of the juvenile court law relating to dependent children is to provide maximum safety and protection for children, as specified.

(2) Existing law authorizes the juvenile court to appoint counsel to represent a minor who is, or may be declared, a dependent child of the court.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would specify that a primary responsibility of any counsel appointed to represent a minor is to advocate for the protection, safety, and physical and emotional well-being of the minor, as specified, and would require that the counsel advise the court of the minor's wishes. The bill would provide that counsel shall not advocate for the return of the minor if that return conflicts with the protection and safety of the minor.

(3) Existing law sets forth standards and procedures for the removal of minors from, and return of minors to, the custody of their parents or guardians. The court is required to order the return of the minor to the physical custody of his or her parent or guardian unless it finds that the return of the child would create a substantial risk of detriment to the physical or emotional well-being of the minor.

This bill would require the court to order the return of a minor to the physical custody of his or her parent or guardian unless it finds that the return of the minor would create a substantial risk of detriment to the safety, protection, or physical or emotional well-being of the minor, as specified.

(4) Existing law requires the establishment and support of a statewide system of child welfare services.

This bill would declare the intent of the Legislature, in providing for that statewide system, that all children are entitled to be safe and free from abuse and neglect.

(5) This bill would incorporate additional amendments to Section 300 of the Welfare and Institutions Code, proposed by AB 2679, to become operative only if AB 2679 and this bill are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(6) This bill would incorporate additional changes in Section 361.2 of the Welfare and Institutions Code, proposed by SB 575, to become operative only if SB 575 and this bill are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(7) This bill would incorporate additional changes in Section 361 of the Welfare and Institutions Code, proposed by AB 2647, to become operative only if AB 2647 and this bill are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(8) This bill would incorporate additional amendments to Section 366.21 of the Welfare and Institutions Code, that are substantially the same as those proposed by AB 2679 and AB 1524, to become operative only if one or both of those bills and this bill are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

Ch. 1085 (AB 1762) Goldsmith. Indian lands: public safety services.

Existing law permits the legislative body of any local agency to contract with any other local agency for the performance by the latter of municipal services or functions within the territory of the former.

This bill would authorize a city or county to enter into a contract with an Indian tribe for the city or county to provide fire protection services and police or sheriff protection services for the Indian tribe either solely on Indian lands, or on the Indian lands and territory adjacent to those lands.

Ch. 1086 (AB 195) Morrow. Criminal procedure: capital case.

(1) Existing law requires the trial court to expeditiously certify the record in any case in which a death sentence has been imposed and requires the trial court to monitor and report the status of the preparation of the record to the California Supreme Court if it has not been certified within 60 days of delivery to the parties or their counsel.

This bill would require the clerk of the superior court to provide copies of the reporter's transcript and the clerk's transcript to counsel within 30 days of the imposition of the death sentence and would require the trial court to certify the entire record on appeal for completeness within 90 days of the imposition of the death sentence, and for accuracy within 120 days of delivery to appellate counsel, except as specified. The bill would establish a 2-stage procedure for the certification of the record, including the holding of hearings to address outstanding corrections to the record and would authorize the trial court to grant an extension of these time limits.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require the California Supreme Court to report to the Judicial Council any case that has not met the time limit for certification or where an extension has been granted.

(2) Existing law requires the trial court to conduct all proceedings in a capital case, including those conducted in chambers, on the record with a court reporter present and requires the court reporter to prepare and certify a daily transcript of those proceedings.

This bill would specify the procedures by which proceedings held in the municipal court shall be transcribed and reported, upon notification that the prosecution is seeking the death penalty.

(3) Existing law requires the trial counsel for a capital defendant to continue representation until the entire record on appeal is certified and specifies the trial counsel's duties.

This bill would require both the prosecutor and counsel for the defense to continue representation for as long as required to participate fully in the steps mandated by these provisions and the rules of court to create a certified record.

(4) Existing law requires the appeal in all capital cases to be filed with the Supreme Court within 150 days of certification of the entire record by the sentencing court.

This bill instead would require, in all cases in which a sentence of death has been imposed on or after January 1, 1997, that the appellant's opening brief be filed within 7 months of certification of the record. The bill would state the Legislature's goal that the appeal be decided and an opinion filed within 210 days of receiving all of the parties' briefs.

(5) By increasing the duties of court personnel, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1087 (SB 1827) Committee on Revenue and Taxation. Taxation.

Existing law restricts a state agency's access to specified financial records, except, among other things, the disclosure to the State Board of Equalization of information relating to specified taxes.

This bill would additionally permit disclosure of information relating to specified other special taxes.

Existing law requires the State Board of Equalization to conduct surveys with respect to the procedures, practices, and general performance of county assessors. It requires the board to include in its survey a sampling of local assessments, requires the board to audit, where useful, the original accounting records of any person owning or controlling property included in a survey, requires a board survey to include certain information concerning the supplying, funding, and staffing of the assessor's office being surveyed, and specifies a process for a response by a surveyed assessor to a board survey report.

This bill would make these duties permissive rather than mandatory. It would also require a State Board of Equalization survey to include a review of assessor practices with respect to the uniform treatment of all classes of property subject to tax, require that board surveys of the 10 largest counties and cities and counties, and, except as otherwise provided, of at least 3 counties annually selected at random, include samplings of local assessments, and authorize the board to contract with a requesting county or city and county to perform a survey not otherwise scheduled. This bill would also reduce the period in which a county assessor may respond to a board survey from 90 to 30 days, authorize the board to extend this period for good cause, require the board to issue a final survey within 2 years of commencement, and require a county assessor to annually report with respect to county implementation of board findings and recommendations contained in a board survey report. By placing additional reporting requirements on county assessors, this bill would impose a state-mandated local program.

The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975–76 tax bill

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred.

Existing statutory provisions implementing this constitutional authority provide, as specified, that the taxable value of real property for any fiscal year is the lower of that property's fair market value or that property's full cash value base, as adjusted for inflation.

This bill would require, for purposes of this inflation adjustment, that the applicable inflation percentage be rounded to the nearest one-thousandth of 1%.

Existing property tax statutes implementing the definition of "full cash value" provides that the term "change in ownership" does not include certain transfers, including any transfer of a lessor's interest in taxable real property subject to a lease with a remaining term, including renewal options, of 35 years or more.

This bill would make a technical, clarifying change with respect to a conclusive presumption contained in this provision with respect to the length of a renewal option.

The California Constitution also excludes from the terms "purchase" and "change in ownership" the purchase or transfer of the principal residence of the transferor, or the purchase or transfer of the first $1,000,000 of all other real property, in the case of a transfer between parents and their children, as defined by the Legislature. As amended at the March 26, 1996, primary election, the California Constitution also extends these exclusions to similar purchases or transfers of real property between grandparents and their grandchildren, as defined by the Legislature, in the case in which all of the parents of those grandchildren, who themselves qualify as the children of those grandparents, are deceased.

Existing statutory law implements constitutional authority for exclusions for purchases or transfers of real property between parents and children, but does not implement constitutional authority for purchases or transfers of real property between grandparents and their grandchildren.

This bill would, as provided, implement constitutional authority for exclusions from the terms "purchase" and "change in ownership" for purchases and transfers of real property between grandparents and grandchildren. By placing additional duties on local tax officials in the administration of these exclusions, this bill would impose a state-mandated local program.

Existing property tax law provides for the proration of property taxes assessed on the supplemental property tax roll in accordance with specified proration factors corresponding to dates upon which a change in ownership of property or the new construction of property is deemed to have occurred.

This bill would provide for a proration factor of 0.42, rather than 0.25, in the case in which the change in ownership or new construction is presumed to have occurred on February 1.

Existing property tax law with respect to supplemental tax assessments authorizes an eligible county, as defined, to recover its costs of administering the supplemental property tax roll.

This bill would explicitly extend this authority to a city and county, and would, in the case in which a board survey finds that no significant assessment problems exist, allow that survey to be conducted without the sampling of local assessments.

Existing property tax law authorizes any eligible county, as defined, to participate in the State-County Property Tax Administration Program (SCPTAP) by means of a contractual agreement with the Department of Finance, and authorizes a loan, as specified, to that eligible county under that agreement. SB 218 would modify the SCPTAP as to the administration of that program with respect to certain counties.

This bill would amend the SCPTAP, as modified by SB 218, to also require the State Board of Equalization, at the request of the Department of Finance, to assist that department in evaluating contracts entered into pursuant to the State-County Property Tax Administration Program.

Existing property tax law authorizes a party to recover damages from the contracting state or local public entity with whom the party has a contract creating a possessory interest in real property, where the private party can show that without the agency's inclusion of a required notice in the contract concerning the potential tax liability for that interest, the party had no actual knowledge of the existence of a possessory interest tax.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would delete an obsolete statutory reference in that provision.

Existing law authorizes a county board of supervisors to provide by ordinance for the reassessment of property that is damaged or destroyed, without fault on the part of the assessee, by a major misfortune or calamity, upon the application of the assessee or upon the action of the county assessor with the board's approval. Existing law requires the reassessed value of the damaged or destroyed property to be applied to that portion of the fiscal year in which the damage or destruction occurred that is subsequent to that damage or destruction.

This bill would clarify the meaning of the term "fiscal year" for purposes of applying these reassessment provisions in the levy of supplemental property taxes.

Existing provisions of the California Constitution provide that specified publicly owned property is exempt from ad valorem property taxation.

This bill would provide that any property that is exclusively devoted to public purposes and is owned by a nonprofit entity, the property, assets, profits, and net revenues of which are irrevocably dedicated to the Ventura Port District, shall be deemed to be property owned by the Ventura Port District. This bill would, with respect to these provisions, make legislative findings and declarations as to the necessity for a special statute.

Existing law provides, pursuant to the authorization of the California Constitution, for the exemption from property taxation of the home of a person or that person's spouse in the case in which the person has, as a result of a service-connected disease or injury, died while on active duty in military service. Existing law also establishes methods for the property tax valuation of enforceably restricted historical property.

This bill would correct obsolete references to federal entities in those provisions.

Existing property tax law requires the State Board of Equalization to issue to county assessors data relating to the costs of property, and other information that in the board's judgment will promote uniformity in appraisal practices and assessed values.

This bill would additionally authorize the board, after a public hearing, to review and approve commercially available data with respect to commercial and industrial property.

Existing property tax law provides that, effective with the January 1, 1997, lien date, the property tax lien date is established as the January 1 immediately preceding the fiscal year for which property taxes are levied.

This bill would provide that contracts entered into pursuant to the California Land Conservation Act of 1965 and recorded between January 1, 1997, and February 28, 1997, and land zoned as timberland pursuant to specified statutory provisions between January 1, 1997, and February 28, 1997, shall be deemed timely for purposes of inclusion on the January 1, 1997, property tax roll.

Existing property tax law requires each person owning taxable personal property, other than a mobilehome taxed under specified provisions, to file with the assessor a signed property statement if that person's taxable personal property has an aggregate cost of $30,000 or more for the initial assessment year or an aggregate cost of $100,000 or more for any subsequent assessment year.

This bill would eliminate the $30,000 threshold amount for the initial assessment year, and instead apply the $100,000 threshold amount for all assessment years.

Existing property tax law requires that penalties of a specified percentage of additional assessed value be imposed in the case in which an escape assessment is levied in connection with a taxpayer's willful evasion or fraud.

This bill would make clarifying revisions to these provisions, and would make other technical, nonsubstantive changes.

Existing property tax law provides that a party affected by an equalization proceeding or the county assessor may object to the hearing of a matter before a member of the assessment appeals board and specifies a procedure for determining the disqualification of the member.

This bill would change that disqualification procedure in various ways. The bill would provide that an objection to a member shall be presented at the earliest practicable opportunity after the party's discovery of the facts constituting the ground for disqualification, instead of after the party's appearance and discovery of those facts. The bill would provide that, when the affected parties cannot agree on who will determine

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

the matter of disqualification, the clerk of the assessment appeals board, instead of the county board of supervisors, shall assign a member to hear and determine the matter.

Existing property tax law allows the correction of certain errors resulting in incorrect entries on the property tax roll, including the failure to reflect a decline in the taxable value of real property as required by a specified statutory provision.

This bill would make technical, clarifying changes with respect to correcting a failure to reflect a decline in the taxable value of real property as required by this specified statutory provision.

Existing property tax law requires the State Board of Equalization to establish standards and fix guides to be used by county assessors in the assessment of aircraft at market value.

This bill would, for the same purpose, require the board to also review and approve commercially available guides, after a public hearing.

The Sales and Use Tax Law provides, under regulations prescribed by the State Board of Equalization, that if both spouses' names appear on an application for a seller's permit, as specified, and a tax liability under the sales and use tax law is unreported or understated due to certain omissions of one spouse, and the other spouse did not know of, and had no reason to know of, the understatement, and certain other criteria are met, then the other spouse shall be relieved of liability for tax, interest, and penalties attributable to that understatement, as provided. Existing law provides that this relief provision does not apply to any calendar quarter that has been closed by a statute of limitations, res judicata, or otherwise.

This bill would eliminate the requirement that both spouses' names appear as applicants on the permit application. The bill would allow similar relief when any amount of the tax reported on a return was unpaid, and the nonpayment of the reported tax liability is attributable to one spouse. The bill would instead provide that this relief provision shall not apply to any calendar quarter that is more than 5 years from the date on which the board issued determination becomes final, 5 years from the return due date for nonpayment on a return, or one year from the first contact with the spouse making a claim for relief, or closed by res judicata.

The bill would make related changes.

The Sales and Use Tax Law provides for the specified payment of taxes, including payment by electronic funds transfer.

This bill would provide under that law that any person who fails to file a return, as provided, shall pay a penalty of 10% of the taxes due. This bill would limit the penalties imposed for a failure to file and for specified violations of the electronic funds transfer provisions, to a maximum of 10% of the taxes due for any one return.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property. That law requires distributors of motor vehicle fuel to collect prepayments of sales tax on motor vehicle fuel from the person to whom the fuel is distributed. The rate per gallon of the prepayment is established annually by the State Board of Equalization, as provided, on the arithmetic average selling price of gasoline as determined by a specified publication.

This bill would allow the board to base its determination on other sources of the arithmetic average selling price of gasoline, in the event that publication is delayed or discontinued.

The Sales and Use Tax Law provides, among other things, for the prepayment of sales tax on motor vehicle fuel distributions.

This bill would provide, for purposes of those prepayment provisions, that the term "fuel" shall include diesel fuel as that term is defined by the Diesel Fuel Tax Law.

The Sales and Use Tax Law authorizes the State Board of Equalization to require taxpayers to post security up to a maximum of $10,000 whenever the board deems it necessary to insure the payment of taxes due.

This bill would increase that maximum security amount to $50,000, and would allow the board to release the security after a designated period of full compliance by the taxpayer.

The Sales and Use Tax Law establishes specified limitation periods for the approval by the State Board of Equalization of any refund for an overpayment.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that, notwithstanding that provision, a refund of an overpayment of any tax, penalty, or interest collected by the board by means of levy or by other enforcement procedures, shall be approved if a claim is filed within 3 years of the date of overpayment.

The Sales and Use Tax Law and the Integrated Waste Management Fee Law require any person who collects a tax or fee reimbursement in excess of the amount due to either refund the excess to their customer or remit the excess to the state.

This bill would require that excess amounts of taxes or fee reimbursements under the Sales and Use Tax Law, the Motor Vehicle Fuel License Tax Law, the Use Fuel Tax Law, the Hazardous Substances Tax Law, the Oil Spill Response, Prevention, and Administration Fees Law, the Underground Storage Tank Maintenance Fee Law, the Fee Collection Procedures Law, and the Diesel Fuel Tax Law be returned to the customer, as provided.

The Use Fuel Tax Law provides that a fuel user who fails to pay any taxes shall pay a penalty of 10% of the amount of the tax or $50, whichever is greater, as provided.

This bill would provide that the penalty shall be 10% of the amount of the tax.

The Diesel Fuel Tax Law imposes specified taxes that are administered by the State Board of Equalization. That law authorizes the board to issue diesel fuel trip permits to holders of trip permits, as specified, and to enter into an interagency agreement with the Department of Motor Vehicles for the issuance of use fuel trip permits.

This bill would permit the board or its authorized representative to issue a California fuel trip permit to interstate users or holders of trip permits, and would authorize the issuance of California fuel trip permits, instead of use or diesel fuel trip permits.

The Private Railroad Car Tax Law and the Timber Yield Tax Law provide for the payment of interest on underpayments or overpayments of tax imposed by those laws.

This bill would correct statutory references relating to the determination of the applicable interest rate.

The bill would also make technical changes in those provisions.

The Cigarette and Tobacco Products Tax Law authorizes the State Board of Equalization to make determinations of tax under that law under various circumstances.

This bill would authorize the State Board of Equalization to increase or decrease a determination of tax made by the board under the Cigarette and Tobacco Products Tax Law, and would require any increase in a determination to be made pursuant to a claim by the board, asserted within a specified period of years, except as provided.

This bill would impose a state-mandated local program by making it a crime under that law, punishable as a misdemeanor, to possess, sell, offer to sell, purchase, or offer to purchase false or fraudulent stamps or meter impressions.

The Alcoholic Beverage Tax Law requires taxpayers to file security with the State Board of Equalization. That law also imposes a penalty for a failure to file a return of 5% of the estimated tax owing.

This bill would authorize the board to determine the amount and form of that security, and would increase the penalty for failure to file a return to 10% of the estimated tax owing.

The Alcoholic Beverage Tax Law prohibits the Alcoholic Beverage Control Board or any person having an administrative position under that law from making known in any manner certain information that is contained in a winegrower's report.

This bill would, notwithstanding a specified statute, allow information in a specified vendor's report relating to beer shipments into this state to be made public.

The Alcoholic Beverage Tax Law imposes specified taxes upon the sale of alcoholic beverages.

This bill would impose a state-mandated local program by making it a crime under that law, punishable as a misdemeanor, to possess, store, retain, sell, or offer to sell any container of alcoholic beverages if the taxes on those beverages have not been paid and exceed $500, as provided.

The Energy Resources Surcharge Law authorizes the State Board of Equalization to relieve a person of penalties imposed by specified statutes if the board finds that the person's failure to timely make a payment or return is due to reasonable cause.

This bill would extend this authorization to penalties imposed pursuant to additional specified statutes.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The Emergency Telephone Users Surcharge Act requires returns and payments to be made on a quarterly basis.

This bill would allow the State Board of Equalization, if it deems it necessary, to require returns and payments of tax under that act to be made for quarterly periods other than calendar quarters, or for multiples of quarterly periods. This provision would not become operative if AB 3204 is chaptered, as specified.

Existing law with respect to integrated waste management fees requires any determination made by the State Board of Equalization with respect to the refund or credit of fee, penalty, or interest amounts in excess of $15,000 to be made available as a public record for at least 10 days prior to the effective date of that determination.

This bill would increase the $15,000 threshold to $50,000.

Existing law with respect to integrated waste management fees requires interest to be paid, in the case of a refund, to the 15th day of the calendar month following the date upon which the claimant is notified by the State Board of Equalization that a claim may be filed, or the date upon which the claim is certified to the State Board of Control, whichever is earlier.

This bill would instead require interest to be paid, in the case of a refund, to the last day of the monthly period, as defined, following the date the claimant is notified by the board that a claim may be filed.

The Fee Collection Procedures Law requires interest to be computed and paid upon any overpayment of any fee amount from the first day of the calendar month following the month during which the overpayment was made, and requires that interest be paid, in the case of a refund, to the 15th day of the calendar month following the date upon which the claimant is notified by the State Board of Equalization that a claim may be filed or the date upon which the claim is certified to the State Board of Control, whichever is earlier.

This bill would modify these provisions to instead require interest on any overpayment of any fee amount to be paid from the first day of the monthly period, as defined, following the monthly period during which the overpayment was made, and would require interest to be paid, in the case of a refund, to the last day of the monthly period, as defined, following the date the claimant is notified by the board that a claim may be filed.

The Fee Collection Procedures Law provides that every taxpayer is entitled to be reimbursed for any reasonable fees and expenses related to a hearing before the State Board of Equalization, provided that certain conditions are met.

This bill would modify these conditions to remove requirements with respect to the State Board of Control, and would require any award of fees and expense proposed by the State Board of Equalization to be available as a public record for at least 10 days prior to the effective date of the award.

The Diesel Fuel Tax Law prohibits any person from operating or maintaining a motor vehicle on the public highway with dyed diesel fuel, except if dyed diesel fuel is used in a manner that is lawful under the federal Internal Revenue Code by a person who is registered in a specific capacity under the Diesel Fuel Tax Law.

This bill would expand this exception to include the use of dyed fuel in a manner lawful under the federal Internal Revenue Code by an intercity bus operator who is registered as an interstate user under the Diesel Fuel Tax Law.

The Diesel Fuel Tax Law provides that any person who fails to file a report or return or to pay the amount of tax due, as specified, shall pay a penalty of 10% of the tax or $50, whichever is greater, as provided.

This bill would impose that penalty only for the failure to pay the tax and only in the amount of 10% of the tax.

The Diesel Fuel Tax Law does not authorize the Taxpayers' Rights Advocate appointed pursuant to that law to release a levy or notice to withhold upon his or her finding that the levy or notice to withhold threatens the health and welfare of the taxpayer, or his or her spouse and dependents.

This bill would authorize the Taxpayers' Rights Advocate appointed pursuant to the Diesel Fuel Tax Law to order the release of any levy or notice to withhold, or within 90 days from the receipt of funds pursuant to that levy or notice to order the return of received funds in an amount not to exceed $1,500, upon his or her finding that the levy

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

or notice to withhold threatens the health and welfare of the taxpayer, or his or her spouse and dependents.

This bill would also make certain nonsubstantive technical or clarifying changes.

This bill would incorporate additional changes in Section 7480 of the Government Code, proposed by AB 3351, to be operative only if AB 3351 and this bill are both chaptered and become effective January 1, 1997, and this bill is chaptered last. In that event, these additional changes would become operative on the operative date of AB 3351.

This bill would incorporate additional changes in Section 62 of the Revenue and Taxation Code, proposed by SB 44 and SB 494, to become operative only if SB 44 or SB 494, or both, and this bill are chaptered and become effective January 1, 1997, and this bill is chaptered last.

This bill would incorporate additional changes in Section 6480.1 of the Revenue and Taxation Code, proposed by SB 956, to become operative only if SB 956 and this bill are both chaptered and become effective January 1, 1997, and this bill is chaptered last.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made, and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to specified provisions of the bill.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by certain provisions of this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that other provisions of the bill contain costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 1088 (AB 2515) Bowler. Vehicle inspection and maintenance.

(1) Existing law establishes a motor vehicle inspection and maintenance program in which vehicles are tested and repaired by licensed smog check stations. Existing law requires the Department of Consumer Affairs to establish a network of privately operated test-only stations pursuant to contract, and to require a specified percentage of vehicles to be tested at test-only stations.

This bill would authorize, rather than require, the department to establish a network of privately operated test-only facilities, and require the department, if it increases the capacity of the program for testing at test-only facilities, to afford stations that are licensed and certified, as specified, the opportunity to perform the required inspections. The bill would require initial contracts for the establishment of test-only facilities to terminate not later than 7 years from the date of execution. The bill would require the department to develop a program for the voluntary certification of licensed smog check stations pursuant to which consumers, whose vehicles fail an emissions test at a test-only facility, would be given the option of services at a single location and would prescribe related matters. The bill would also authorize the department to conduct a pilot program to allow vehicles initially identified as gross polluters to be repaired and issued a certificate of compliance by a licensed and certified station and would make related changes. The bill would delete provisions relating to impoundment of vehicles.

(2) Existing law requires the department to design and establish the equipment necessary to operate a centralized computer data base and computer network which is readily accessible by all licensed smog check technicians on a real time basis and requires the data base and network to be designed with specified capabilities. Existing law requires each smog check station to transmit prescribed data to the department's centralized data base.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would authorize the department to enter into a contract for telecommunication, programming, data analysis, data processing, and other services necessary to operate and maintain the data base and network and to charge a licensed smog check station a transaction fee for each transmittal of data to the data base, as specified.

The bill would make a conforming change regarding fees charged to the department by the New Motor Vehicle Board.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1089 (AB 3013) Alby. Health care providers: patient advice.

Existing law states that it is the public policy of the state that licensed physicians and surgeons be encouraged to advocate for medically appropriate health care, as defined, for their patients. Existing law provides that the application and rendering by any person, as defined, of a decision that penalizes a physician and surgeon principally for advocating for medically appropriate health care, as defined, violates public policy.

This bill would prohibit a health care service plan or its contracting entities from including provisions in their contracts that interfere with the ability of a physician and surgeon or other licensed health care provider, as defined, to communicate with a patient regarding his or her health care, including, but not limited to, communications regarding treatment options, alternative plans, or other coverage arrangements. The bill would make any contractual provision inconsistent with this provision void and unenforceable and would prohibit any communication regarding treatment options from being represented or construed to expand or revise the scope of benefits or covered services under a plan or insurance contract.

Ch. 1090 (AB 3215) Hawkins. Crimes: child abuse: terms of probation.

Existing law provides that any person who willfully causes or permits any child to suffer, or inflicts thereon unjustifiable physical pain or mental suffering, or having the care or custody of any child, willfully causes or permits the person or health of that child to be injured or endangered, is guilty of a crime.

Existing law also provides that any person who willfully inflicts upon a child any cruel or inhuman corporal punishment or injury resulting in a traumatic condition is guilty of a crime. If a person is convicted of violating this provision and probation is granted, the court shall require supervised counseling as a condition of probation.

This bill would provide that if a person is convicted of violating either of the above provisions and probation is granted, the court shall require specified minimum conditions of probation, including (1) mandatory minimum periods of probation, (2) criminal court protective orders protecting the victim from further acts of violence or threats, and, if appropriate, residence exclusion or stay-away conditions, (3) successful completion of no less than one year of a child abuser's treatment counseling program to be paid by the defendant if he or she is able, (4) and abstinence from the use of drugs or alcohol and subjection to random drug testing if the offense was committed while the defendant was under the influence of drugs or alcohol. This bill would impose a state-mandated local program by increasing the duties of probation officers.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that no reimbursement shall be made from the State Mandates Claims Fund for costs mandated by the state pursuant to this act, but would recognize that local agencies and school districts may pursue any available remedies to seek reimbursement for these costs.

Ch. 1091 (AB 3251) Gallegos. Health care service plans: independent medical opinions.

Existing law provides for the licensure and regulation of health care service plans administered by the Commissioner of Corporations. Existing law authorizes an enrollee of a health care service plan to select as a primary care physician any available primary

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

care physician who contracts with the plan in the service plan area where the enrollee lives or works. Under existing law, willful violation of any of these provisions is a misdemeanor. Existing law provides for the regulation of disability insurers and nonprofit hospital service plans by the Department of Insurance.

This bill would require every health care service plan, with specified exceptions, to file with the Department of Corporations a written policy describing the manner in which the plan determines if a second medical opinion is medically necessary and appropriate. The bill would require notice of the policy and related information to be provided to all enrollees. By changing the definition of a crime, the bill would impose a state-mandated local program.

The bill would impose similar requirements on nonprofit hospital service plans and certain disability insurers. It would provide that the written policy would not be subject to approval or disapproval by the Department of Insurance.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1092 (AB 3319) Ducheny. Air pollution: attainment plans.

(1) Existing law requires an air pollution control district or air quality management district with moderate, serious, severe, or extreme air pollution to include a specified permitting program in its plan for attainment of state and federal ambient air quality standards designed to achieve no net increase in specified emissions.

This bill would allow a district that does not have extreme air pollution to elect to not include a no-net-increase permitting program in its attainment plan if the district and the State Air Resources Board take specified actions. Upon a subsequent review and determination by the state board that such a program is required, the district would be required to adopt and implement the permitting program, thereby imposing a state-mandated local program by imposing new duties on the districts.

(2) Existing law specifies that reductions in emissions from rice straw burning qualify for air quality offsets, and authorizes districts to utilize those credits pursuant to district banking rules.

This bill would require a district, other than the district in which the credits were created, to approve the use of those offset credits by a stationary source under specified conditions, thereby imposing a state-mandated local program.

(3) The bill would make a specified statement of legislative intent regarding mitigation requirements for transported pollutants.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1093 (SB 1660) Rosenthal. Health care service plans: arbitration.

Existing law provides for the licensure and regulations of health care service plans administered by the Commissioner of Corporations. Existing law requires a plan that includes a term that requires parties to submit to binding arbitration in case of a medical malpractice claim to provide for selection by the parties of a single neutral arbitrator in cases for which the damages are $50,000 or less. Existing law requires, if the parties are unable to agree on a single neutral arbitrator, a method whereby a court appoints an arbitrator to be used. Under existing law, willful violation of any of these provisions is a misdemeanor.

This bill would instead require those plans to provide for selection by the parties of a single neutral arbitrator for cases or disputes for which the damages are $200,000 or less. The bill would authorize the parties, after a case or dispute has arisen and a request for arbitration has been submitted, to agree in writing to use a multiple arbitrator system.

The bill would impose conditions and restrictions on a plan that uses arbitration to settle disputes with enrollees or subscribers and does not use a professional dispute

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

resolution organization that meets certain criteria. It would also require, if the plan uses an independent professional dispute organization, the provision for assumption of arbitration fees in cases of extreme hardship to be established and administered by the dispute resolution organization.

By changing the definition of a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1094 (SB 1805) Rosenthal. Health care coverage.

Existing law provides for the licensure and regulation of health care service plans administered by the Commissioner of Corporations and authorizes the commissioner to suspend or revoke a license or assess civil penalties if the licensee has committed any of the prescribed acts or omissions that constitute grounds for disciplinary action.

Existing law states that it is the public policy of the state that licensed health care practitioners, as defined, be encouraged to advocate for medically appropriate health care, as defined, for their patients. Existing law provides that the application and rendering by any person, as defined, of a decision that penalizes a health care practitioner principally for advocating for medically appropriate health care violates public policy.

This bill would provide that a violation of those provisions, and provisions proposed to be added by AB 3013, by health care service plans or certain disability insurers, would also be a violation of the Insurance Code, and would constitute grounds for disciplinary action against a health care service plan by the Commissioner of Corporations.

Ch. 1095 (SB 1936) Rosenthal. Health care service plans.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans by the Commissioner of Corporations. Existing law requires every plan to establish and maintain a grievance system approved by the Department of Corporations under which enrollees may submit grievances to the plan and to include in its contracts with providers a dispute resolution system for the admission of disputes to the plan by providers.

Existing law requires the commissioner to establish a program to investigate complaints and respond to inquiries and bring enforcement actions against plans. Existing law requires the commissioner to establish and maintain a toll-free telephone number for the purpose of receiving complaints regarding the health care service plans, and requires every health care service plan to publish this toll-free number on certain documents issued by the plan. The above requirements are contained in 2 substantially similar statutes.

This bill would require the commissioner to designate a health care service plan ombudsperson, whose duties would be determined by the commissioner. The bill would also repeal the duplicative provision of existing law.

Ch. 1096 (SB 1895) Mello. Aging.

Existing law requires the State Department of Health Services to supervise a program in specialized day resource centers for participants that meet specific requirements under the Alzheimer's Day Care-Resource Centers Act.

This bill would repeal those provisions.

Existing law establishes the Older Californians Act which is administered by the California Commission on Aging and the Department of Aging.

This bill would rename the department the California Department of Aging and would reorganize those provisions of law and delete obsolete and inoperative provisions.

This bill would provide that the provisions of AB 2412 and a specified provision of SB 1482 would prevail over the provisions of this bill to the extent of any conflict.

The bill would specify that its provisions would only become effective if AB 2800 of the 1995–96 Regular Session of the Legislature is enacted and takes effect.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 1097 (AB 2800) Granlund. Aging.

Existing law requires the State Department of Health Services to supervise a program in specialized day resource centers for participants that meet specific requirements under the Alzheimer's Day Care-Resource Centers Act.

This bill would repeal those provisions.

Existing law establishes the Older Californians Act which is administered by the California Commission on Aging and the Department of Aging.

This bill would rename the department the California Department of Aging and would reorganize those provisions of law and delete obsolete and inoperative provisions.

The bill would provide that the provisions of AB 2412 and a specified provision of SB 1482 would prevail over the provisions of this bill to the extent of any conflict.

The bill would specify that its provisions would only become effective if SB 1895 of the 1995–96 Regular Session of the Legislature is enacted and takes effect.

Ch. 1098 (AB 684) Tucker. Alcoholic beverages: brewpub-restaurant license.

The Alcoholic Control Beverage Act provides for the issuance of various categories of alcoholic beverage licenses, including the imposition of fees, conditions, and restrictions in connection with the issuance of those licenses.

This bill would provide for the issuance of a brewpub-restaurant license, as a form of on-sale retail license, to persons or entities who manufacture not more than 5,000 barrels of beer annually on the licensed premises, subject to specified conditions and restrictions.

Ch. 1099 (AB 1184) Friedman. Medi-Cal: disproportionate share hospitals.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services. Under the Medi-Cal program, the department is required to make supplemental payments to certain disproportionate share hospitals based on specified criteria. Payments are made from moneys paid by hospitals into the Medi-Cal Inpatient Payment Adjustment Fund, as required, with this fund being continuously appropriated for specified purposes.

This bill would limit the implementation of any amendment to the payment adjustment procedures enacted during the August 1, 1996 to September 30, 1996, period, and would require a supplemental lump-sum payment adjustment for the 1996–97 payment adjustment year for each eligible hospital that remains in operation as of June 30, 1997. This adjustment would allocate funds continuously appropriated from the Medi-Cal Inpatient Payment Adjustment Fund and thus make an appropriation.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1100 (AB 1291) Alpert. Mammography equipment.

Existing law requires the State Department of Health Services to provide by rule or regulation for the general or specific licensing of persons to receive, possess, or transfer radioactive devices or equipment, and authorizes the department to require registration and inspection of other sources of ionizing radiation.

This bill would make certain findings and declarations relating to overlapping state and federal jurisdiction relating to mammographic X-ray equipment. It would declare the intent of the Legislature to reduce the duplication of requirements and costs.

Pursuant to existing law the registration fee and inspection frequency of radiation machines is based upon the priority classification of the machine pursuant to a prescribed schedule.

This bill would require the department to establish 2 different registration fees for mammography equipment, based upon whether the equipment is accredited by an independent accrediting agency recognized under the federal Mammography Quality Standards Act.

Ch. 1101 (AB 1317) Speier. Common interest developments.

The existing Davis-Stirling Common Interest Development Act provides that any member of the managing association of a common interest development may attend meetings of the board of directors of the association, except when the board adjourns to executive session, as specified.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require the board of directors to permit any member of the association to speak at any meeting of the association or the board of directors, except for meetings of the board held in executive session, as provided.

Existing law generally requires that, before a common interest development association or the owner of a separate interest therein brings an action solely for declaratory relief or injunctive relief, or for declaratory relief or injunctive relief in conjunction with a claim for monetary damages, except association assessments, not to exceed $5,000, relating to the enforcement of the governing documents of the common interest development, the association or owner shall endeavor to submit the matter to alternative dispute resolution, as specified.

This bill would provide that the above specified exception for disputes relating to assessments is not applicable if in a dispute between the owner of a separate interest and the association regarding the assessments imposed by the association, the owner of the separate interest chooses to pay specified charges to the association and mail a written notice that the amount is paid under protest, as provided; and in these instances, the association would be required to inform the owner of his or her right to resolve the dispute through alternative dispute resolution as described above, civil action, and any other procedure to resolve the dispute that may be available through the association.

Under existing law, a regular or special assessment and any late charges, reasonable costs of collection, and interest, as provided, is a debt of the owner of the separate interest in a common interest development at the time the sum is levied. The sum is also a lien on the owner's interest from and after the time the association causes to be recorded with the county recorder a notice of delinquent assessment, which is required to include a description of the owner's interest in the common interest development and other specified information.

This bill would impose additional requirements with respect to the collection of debts based on assessments of owners by a common interest development, as specified. The bill would require a notice of delinquent assessment to include a legal description of the owner's interest in the common interest development, and to be mailed to all record owners of the owner's interest in the common interest development, as provided. The bill would provide that a monetary penalty imposed by the association as a means of reimbursing the association for costs incurred in the repair of damage for which the member or the member's guests or tenants were responsible may become a lien against the member's separate interest enforceable by the sale of the interest under provisions relating to foreclosure, as specified. The bill would make related changes.

Ch. 1102 (AB 1709) McPherson. Special elections: costs.

Existing law requires that all expenses authorized and necessarily incurred in the preparation for and conduct of elections as provided in the Elections Code be paid from the county treasuries, except that the expenses of an election called by the governing body of a city are required to be paid from the treasury of the city.

This bill would create an exception requiring that, on and after January 1, 1996, and until January 1, 2000, all expenses authorized and necessarily incurred in the preparation for and conduct of elections proclaimed by the Governor to fill a vacancy in the office of Senator or Member of the Assembly, or to fill a vacancy in the office of United States Senator or Representative in the United States House of Representatives, be paid by the state.

This bill would further require that if an election proclaimed by the Governor to fill a vacancy in any of these offices is consolidated with any other local election, only those additional expenses directly related to the election proclaimed by the Governor to fill a vacancy in the office shall be paid by the state.

Ch. 1103 (AB 2294) Sweeney. Parole: release date.

Under existing law, when an inmate who is serving a term for committing a violent felony is scheduled to be released on parole, the paroling authority is required to notify the local law enforcement authority of the community into which the inmate is scheduled to be released on parole. Notification is required to be at least 15 days prior to the inmate's scheduled release date or, if the release is to a county other than the county from which the inmate was committed, at least 45 days prior to the scheduled

NOTE: Superior numbers appear as a separate section at the end of the digests.

release date. Existing law specifies that those time limits are not applicable when the release date of the inmate has been advanced by the restoration of behavior credits, presentence credits, or other process or procedure that could not reasonably have been anticipated by the Department of Corrections.

This bill would repeal the latter provision and would require that the notification, in all cases, be made by mail at least 45 days prior to the inmate's scheduled release date. This bill would revise the exceptions to this time limit for notification. The bill would require that the comments submitted by recipients of the notice become a part of the file of the person to be released. The bill also would prohibit the restoration of credits or the taking of specified administrative action if the restoration or action would result in notification being provided less than 45 days prior to his or her scheduled parole release.

Ch. 1104 (AB 2787) Kuehl. Attorneys: State Bar of California.

The State Bar Act provides that the Board of Governors of the State Bar may order the involuntary inactive enrollment of an attorney under specified circumstances.

This bill would require the board to order the involuntary inactive enrollment of an attorney upon the filing of a recommendation of disbarment after hearing or default, as specified.

Existing law provides that when an investigation or formal proceeding of the State Bar concerns alleged misconduct that may subject a member to criminal prosecution for any felony or any lesser crime committed during the course of the practice of law, or misconduct where the client was a victim or that may subject the member to disciplinary action in another jurisdiction, the State Bar shall disclose, in confidence, certain information to the appropriate agency responsible for criminal or disciplinary enforcement.

This bill would also provide that the chief trial counsel or designee may disclose, in confidence, any information not otherwise public under the State Bar Act to government agencies responsible for enforcement of civil and criminal laws or professional licensing of individuals, and to members of the Judicial Nominees Evaluation Commission and review committees of the commission with respect to nominees.

Existing law provides for disciplinary proceedings against members of the State Bar, as specified.

This bill would provide that the appropriate pleas to allegations of a notice of disciplinary charges or other pleading are admission of culpability, denial of culpability, and nolo contendere, as specified.

Existing law provides that it is a cause for suspension, disbarment, or other discipline for a member of the State Bar to require as a condition of a settlement of a civil action for professional misconduct that the plaintiff agree to not file a complaint against the member with the disciplinary agency.

This bill would provide that it is cause for suspension, disbarment, or other discipline for any member, whether as a party or an attorney for a party, to agree or seek agreement that the professional misconduct or the terms of settlement of a claim for that misconduct not be reported to the disciplinary agency. This would also apply to agreements for the plaintiff to withdraw a complaint or to not cooperate in an investigation or prosecution, and for the record of any civil action for professional misconduct to be sealed from review by the disciplinary agency.

Existing law provides that conviction of a member of the State Bar of a felony or misdemeanor, involving moral turpitude, constitutes a cause for disbarment or suspension. A plea or verdict of guilty, or a conviction after a plea of nolo contendere, is deemed to be a conviction for these purposes.

This bill would provide that an acceptance of a plea of nolo contendere is also deemed to be a conviction for those purposes. The bill would include applicable convictions under the laws of any state or territory of the United States as cause for disbarment or suspension, as specified.

The bill would revise other provisions relating to costs assessed against publicly reproved or suspended members and attorney fee arbitrations.

Existing law provides that certain provisions related to fee agreements will be repealed on January 1, 1997, and will be replaced with superseding provisions on that date.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would extend those dates for 3 years.

Existing law provides that the board shall establish and maintain a system for arbitration of fee disputes between attorneys and their clients. Arbitration is voluntary for a client and mandatory for an attorney if arbitration is commenced by a client.

This bill would provide that arbitration is voluntary for a client unless the client has agreed in writing to arbitration of all disputes concerning fees or costs. The bill would also revise requirements for notice that an attorney must give to a client in any proceeding against the client, and revise other procedures related to resolution of fee disputes.

Ch. 1105 (AB 3101) Isenberg. Public benefit corporations: health facilities: sale of assets.

Existing law provides that a public benefit corporation may sell, lease, convey, exchange, transfer, or otherwise dispose of all or substantially all of its assets when the principal terms are approved by the board of directors and the members of the corporation and by any other person whose approval is required by the articles, except as specified. Existing law requires a public benefit corporation to give written notice to the Attorney General 20 days before it sells, leases, conveys, exchanges, transfers, or otherwise disposes of all or substantially all of its assets, except as specified.

This bill would subject a nonprofit corporation that is subject to the public benefit corporation law and is a health facility or provides similar health care to additional requirements prior to the corporation entering into any agreement or transaction to sell, transfer, lease, exchange, option, convey, or otherwise dispose of a material amount of its assets to a for-profit corporation or entity or to a mutual benefit corporation or entity, unless the agreement or transaction is in the usual and regular course of the activities of the corporation or unless the Attorney General has given the corporation a written waiver of these requirements as to the proposed agreement or transaction.

The bill would require the corporation to notify the Attorney General. The bill would require the Attorney General to conduct a public meeting and to notify the corporation in writing of his or her decision to consent, conditionally consent, or not consent to the agreement or transaction. The bill would authorize the Attorney General to adopt regulations, to contract with, consult, and receive advice from any state agency, and to contract with experts or consultants.

The bill would require the public benefit corporation to reimburse the Attorney General for costs in complying with its provisions, upon request of the Attorney General.

Ch. 1106 (AB 3234) Knowles. Life insurance.

Under existing law, any insurer transacting life insurance in California must register its policies with the Insurance Commissioner and comply with specified provisions of the Insurance Code relating to, among others, reserve liabilities, capital requirements, and disclosure requirements for replacement of life insurance and annuity policies.

This bill would, effective July 1, 1997, regulate life insurance policy illustrations, as defined, and would apply to all group and individual life insurance policies and certificates, except as provided. This bill would require all insurers to notify the commissioner of any policy forms being actively marketed with an illustration. This bill would require all illustrations to comply with specified standards and requirements, and to include specified information. This bill would require an insurer to provide each owner of a policy for which illustrations are used, an annual report containing specified information on the status of the policy. This bill would require the board of directors of each insurer to appoint one or more illustration actuaries who shall certify that the illustrations used by the insurer comply with certain professional standards and legal requirements.

Existing law requires life insurers to disclose certain information to prospective purchasers of life insurance.

This bill would require insurers, except as specified, when making a presentation showing or comparing the cost of life insurance over a period of years which does not recognize the time value of money, to also present the Life Insurance Surrender Cost Comparison Index and Life Insurance Net Payment Cost Index, as calculated for both a 10-year and 20-year period. This bill would specify the necessary calculations to

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

determine the Life Insurance Surrender Cost Comparison Index and Life Insurance Net Payment Cost Index for level premium plans of insurance and nonlevel premium plans of insurance. It would also require life insurers to provide prospective insureds a buyer's guide, as specified. These provisions would be repealed on January 1, 2000.

Ch. 1107 (AB 3378) Brown. Correctional institutions: human immunodeficiency virus.

Existing law authorizes the testing of an inmate under certain circumstances, if there is a reasonable belief that the inmate may be suffering from AIDS or AIDS-related diseases and is a danger to other inmates or staff.

This bill would replace the reference to AIDS-related diseases with that of human immunodeficiency virus (HIV) infection. The bill would make conforming changes to related provisions. The bill would also revise provisions relating to an inmate's right to appeal a decision to test for HIV or AIDS.

Existing law gives the State Department of Health Services specified powers and duties with respect to the testing of inmates for HIV and AIDS.

The bill would generally transfer those powers and duties from the State Department of Health Services to the Department of Corrections, the Department of the Youth Authority, or the county, city, or county and city, and would provide that the Office of AIDS in the State Department of Health Services shall act as a consultant.

By imposing new duties on cities, counties, and local health officers, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1108 (AB 3434) House. Peace officers: personnel files.

Existing law requires each department or agency in this state that employs peace officers to establish a procedure to investigate citizens' complaints against the personnel of these departments or agencies, and to make a written description of the procedure available to the public. Existing law also requires that complaints shall be retained for a period of at least 5 years.

This bill would provide that complaints by members of the public that are determined by the peace officer's employing agency to be frivolous, as defined, shall not be maintained in that officer's general personnel file, as defined. It would also provide, however, that these complaints and any reports or findings relating to these complaints shall be retained in other files that shall be deemed personnel records for purposes of the California Public Records Act and provisions relating to the discovery and disclosure of a peace officer's personnel records. The imposition of these new requirements on local agencies would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1109 (SB 49) Lockyer. Vehicles.

Existing law prohibits certain false and fraudulent acts in connection with insurance claims.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would set forth findings and declarations relative to the need for reforms to prevent insurance fraud, make vehicle insurance coverage more affordable, reduce vehicle accident claim litigation, and enhance vehicle safety.

Ch. 1110 (SB 1397) Maddy. Horseracing: fairs: revenue.

(1) Existing law provides that all revenue distributed to the state as license fees from satellite wagering facilities is required to be deposited in a separate account in the Fair and Exposition Fund, and is continuously appropriated to the Department of Food and Agriculture for (a) the repayment of the principal and interest of bonds issued for the purpose of constructing or acquiring certain improvements at a fair; (b) payment to the State Race Track Leasing Commission to be pledged for the repayment of debt necessary to construct a racetrack grandstand at the 22nd District Agricultural Association fairgrounds; (c) the payment of expenses incurred in establishing and operating satellite wagering facilities at fairs; (d) health and safety repair projects at fairs; and (e) the support of fairs generally.

This bill would additionally appropriate these funds for the support of an equipment and operating fund to produce and display a consolidated California signal at satellite wagering facilities and fairs, for the development and payment of revenue generating projects, pilot projects to restructure the fair system, and projects realizing a cost savings, and would require an allocation of the funds for those purposes, and for health and safety projects, to be made with the concurrence of the Joint Committee on Fairs Allocation and Classification.

(2) Existing law requires the Legislature to annually appropriate to the California Horse Racing Board such sums from revenue received by the board as the Legislature deems necessary for, among other things, the costs of laboratory testing related to horseracing.

This bill would require the Legislature to appropriate for that purpose an amount not less than the amount expended in the 1994–95 fiscal year.

(3) Existing law provides that not more than 5% of the funds in the Fair and Exposition Fund may be used during the 1995–96 fiscal year to augment the budget of the Department of Food and Agriculture to provide services to the fairs.

This bill would instead provide that not more than 5% of the funds in the fund may be used to develop and administer an operational and policy framework for the network of California fairs, and would, for that purpose, specify the fairs that are included in the network of California fairs. The bill would require the Secretary of Food and Agriculture to prepare an annual expenditure plan for funds available from the fund, for review and approval by the Joint Committee on Fairs Allocation and Classification.

(4) Existing law provides for the organization of the areas of the state into district agricultural associations. District agricultural associations are state agencies. Among other things, district agricultural associations are authorized to enter into contracts. Existing law also authorizes the formation of organizations to carry on citrus fruit fairs, and counties are authorized to conduct county fairs. Existing law also provides that a public entity is liable for an injury proximately caused by an act or omission of a public employee within the scope of employment if that act or omission would have given rise to a cause of action against the employee.

This bill would require county fairs to meet specified standards, and to submit to the Department of Food and Agriculture every 5 years for its approval the written agreement between the entity producing the county fair and the county, thereby imposing a state-mandated local program. This bill would also provide that neither the state nor the Department of Food and Agriculture are liable for any contract or tort of, or any action taken by, any fair in the network of California fairs, which would include district agricultural association fairs, county fairs, and citrus fruit fairs.

(5) Existing law permits the Division of Fairs and Expositions of the Department of Food and Agriculture to enter into an agreement with the State Personnel Board for the board to provide an increased level of personnel services to the division on a reimbursement basis for the personnel needs of district agricultural associations, and requires the Secretary of Food and Agriculture to reimburse the State Personnel Board for those services from any unexpended moneys appropriated to the department from the Fair and Exposition Fund.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would repeal that provision.

(6) Existing law makes certain annual appropriations from the fund for the support and administration of the California Exposition and State Fair, the Los Angeles County Fair, the 1 A District Agricultural Association and the National Orange Show. Existing law also appropriates certain sums to the department for the encouragement of fairs.

This bill would repeal the annual appropriations to these specific fairs and the annual appropriation for the encouragement of fairs.

(7) Existing law permits any unanticipated revenues, other than any allocation from the state, which are in excess of the approved budget for any fiscal or calendar year of any California fair, to be retained by that fair and expended for fair projects involving public health and safety, for fair projects involving major and deferred maintenance, for fair projects necessary due to any emergency, for projects that are required by physical changes to the fair site, for projects that are required to protect the fair property or installation, such as fencing and flood protection, and for the acquisition or improvement of any property or facility that will serve to enhance the operation of the fair, but limits the amount that may be retained to 20% or less of the budgeted revenue.

This bill would remove the limitation on the amount that may be retained from unanticipated revenues. The bill would also permit the Department of Food and Agriculture to administer a loan program for fairs in the network of California fairs.

(8) Existing law requires all state printing to be done in the Office of State Printing, but exempts from that requirement all printing required by a district agricultural association.

This bill would also make an exception from that requirement for printing required by the California Exposition and State Fair.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1111 (SB 1001) Craven. Local government finance: property tax revenue allocations.

Existing law generally requires the county auditor, in each fiscal year, to allocate property tax revenue to each local jurisdiction in an amount equal to the sum of that amount of revenue allocated to that jurisdiction in the prior fiscal year, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law modifies this general provision by requiring that, for purposes of determining property tax revenue allocations in each county for the 1992–93 and 1993–94 fiscal years, the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires, for the 1992–93 and 1993–94 fiscal years, and each subsequent fiscal year, that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund (ERAF) in that county for allocation to school districts, community college districts, and the county office of education, and then, subject to certain limits for specified counties for the 1995–96 fiscal year, to the county superintendent of schools for the funding of special education programs.

This bill would limit the amount of these allocations for the funding of special education programs to $2,500,000 statewide for the 1996–97 fiscal year, and would, for the 1996–97 fiscal year, require the auditor to allocate any ERAF money that is remaining after these allocations among the county, cities, and special districts, in proportion to the reductions and transfer amounts calculated for those local agencies.

This bill would make legislative findings and declarations, and would require the Director of Finance to make certain adjustments, with respect to ensuring that the modifications required by this bill to property tax revenue allocations do not have a net

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

fiscal impact on school districts or community college districts, or upon the state's obligation under the California Constitution to provide funding to those districts.

This bill would incorporate additional changes in Sections 97.2 and 97.3 of the Revenue and Taxation Code, proposed by AB 2797, to be operative only if AB 2797 and this bill are both chaptered and become effective January 1, 1997, and this bill is chaptered last.

By imposing new duties upon county auditors with respect to the annual allocation of property tax revenues, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1112 (SB 1440) Killea. Banks: regulations.

(1) Existing law authorizes the Superintendent of Banks to adopt, by regulation, any provision of federal law applicable to national banking associations or certain foreign banks operating in this state if the superintendent finds that those federal provisions are substantially different from the provisions of state law applicable to banks organized or licensed under California law, as specified. These regulations are exempted from the procedures otherwise applicable to the adoption of regulations by state agencies, including the regulation review process of the Office of Administrative Law.

This bill would provide that any regulation adopted under these provisions expires at 12 p.m. on December 31 of the year following the calendar year in which it became effective and would prohibit the commissioner from renewing or reinstating the regulation or adopting a new regulation addressing the same conformity issue as addressed by the expired regulation. The bill would also provide that regulations may be adopted under these provisions that are not subject to the above provisions, if the superintendent complies with all procedures for the adoption of regulations by state agencies, as specified.

(2) Existing banking law dealing with loans to insiders also incorporates by reference certain federal regulations adopted by the Board of Governors of the Federal Reserve System, otherwise known as Regulation O. Existing law authorizes the superintendent to adopt, by regulation, changes adopted by the board to Regulation O, as specified. These regulations are subject to certain provisions governing the adoption of emergency regulations by state agencies but are exempt from the procedures otherwise applicable to the adoption of regulations by state agencies and from the regulation review process of the Office of Administrative Law.

This bill would delete the application of the emergency review process to these regulations relating to Regulation O, thereby conforming their adoption and review process to the process applicable to the banking regulations described in paragraph (1). This bill would also specify the process to be followed by the superintendent in filing those regulations. The bill would, in addition, permit the adoption of regulations relating to Regulation O that are not subject to the above provisions if the superintendent complies with all the procedures for the adoption of regulations by state agencies, as specified.

The bill would also incorporate additional changes to certain of its provisions proposed by AB 3351, to be operative only if AB 3351 and this bill are both enacted and become effective, as specified, and this bill is enacted last.

Ch. 1113 (SB 1581) Rosenthal. Health insurance.

Existing law provides for the establishment of the Health Insurance Counseling and Advocacy Program in the Department of Aging. Existing law requires certain health insurance to supplement Medicare to include information in the outline of coverage regarding the Health Insurance Counseling and Advocacy Program.

This bill would require a health care service plan, for every plan contract that provides or supplements Medicare benefits, to include within its disclosure form a specified notice concerning the availability of counseling by the Health Insurance Counseling and Advocacy Program and would revise the requirements for insurers.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would incorporate additional amendments to Section 10194.7 of the Insurance Code proposed by SB 2043, contingent upon the prior enactment of that bill.

Because a willful violation of the laws governing health care service plans is a crime, this bill would impose a state-mandated local program by expanding the scope of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1114 (SB 1664) M. Thompson. Medi-Cal providers.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons.

This bill would authorize the State Department of Health Services to contract for the operation of a fee-for-service managed care program administered by counties selected by the department through a request for proposal process through which primary care, specialty care, and case management are provided to residents, with certain exceptions, who are eligible for Medi-Cal benefits who have been designated by the Director of Health Services.

Ch. 1115 (SB 1741) Johnston. San Francisco Bay pilots.

(1) Existing law establishes a program for licensing of pilots for the Bays of San Francisco, San Pablo, and Suisun, administered by the Board of Pilot Commissioners. Existing law specifies the rates for pilotage for vessels entering or leaving those bays through the Golden Gate, including an additional charge of 64.88 mills per high gross registered ton, adjusted quarterly by a fiduciary agent in accordance with a specified formula, and augmented by an incremental rate of 0.78 additional mills for each pilot appointed by the board in excess of 60 pilots. Existing law also imposes a board operation surcharge of 7.5% of pilotage fees, to be deposited in the Board of Pilot Commissioners' Special Fund and used to support the board, and imposes an additional charge for pension benefits payable to a fiduciary agent, as specified. The fund is continuously appropriated for the payment of the compensation and expenses of the board, its officers and employees, and the pilot training programs.

This bill, instead, would provide that this additional charge of 64.88 mills per high gross registered ton, as changed by the quarterly mill rate adjustment made pursuant to law for October 1, 1996, and in effect on December 31, 1996, may be adjusted higher or lower, at the direction of the board, by an incremental amount that is proportionate to the last audited annual average net income per pilot for each pilot licensed by the board above or below 60 pilots.

This bill also would specify that, in addition to this rate change, the additional charge of 64.88 mills per high gross registered ton may be adjusted at the direction of the board if, after hearing, the board determines that there has been a catastrophic cost increase to the pilots that would result in at least a 2% increase in the overall annual cost of providing pilot services.

This bill also would increase rates imposed pursuant to these provisions, incrementally, on January 1, 1997, January 1, 1998, and January 1, 1999, as specified.

(2) Existing law also requires the board to adopt a schedule of pilotage rates for those operations that are not provided for in paragraph (1).

This bill would increase these rates incrementally, on January 1, 1997, January 1, 1998, and January 1, 1999, as specified.

(3) Because the bill would increase the amount of money deposited in a continuously appropriated fund, the bill would make an appropriation.

Ch. 1116 (SB 1843) Solis. Unemployment compensation.

Existing law provides for various penalties to be imposed on employing units for failing to comply with specified unemployment insurance laws, including a 50% penalty in the case of fraud or intent to evade those laws.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would impose a penalty on an individual or business if the director finds that the individual or business exchanged money on behalf of an employer and the employer used the cash proceeds of the exchange to conceal the payment of wages, as specified. The penalty would be equal to 100% of any assessed contributions that were based on the concealed wages and would only apply when the individual or business knew that the employer intended to avoid the payment of unemployment contributions or taxes.

Existing law provides that any officer, major stockholder, or other person having charge of the affairs of certain employing units shall be personally liable for certain unemployment insurance contributions, withholdings, penalties, and interest, if there is a willful failure to pay, as specified.

This bill would also impose personal liability on individuals or specified persons in charge of the affairs of business entities for certain unemployment insurance contributions, withholdings, penalties, and interest assessed with respect to exchanges of money to conceal payment of wages, as specified.

Ch. 1117 (SB 1988) M. Thompson. County of Lake: working hours: agricultural packing plants: minors.

(1) Existing law authorizes the Labor Commissioner, under specified circumstances, to issue an exemption from the laws otherwise regulating the employment of minors, to employers operating agricultural packing plants permitting those employers to employ minors 16 and 17 years of age during any day that school is not in session, for up to 10 hours per day during the peak harvest season.

This bill would provide, until January 1, 1999, that an exemption issued under those provisions may authorize the employment of a minor, who is enrolled in any public or private school in the County of Lake, for more than 48 hours but not more than 60 hours in any one week only upon prior written approval by the Lake County Board of Education. By requiring the Lake County Board of Education to take action with respect to an exemption for this purpose, the bill would impose a state-mandated local program.

(2) The bill would contain legislative findings as to the necessity of a special statute.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1118 (SB 2043) Rosenthal. Health care coverage: Medicare supplement coverage.

(1) Existing law requires a health care service plan offering contracts to supplement Medicare, among other things, to establish marketing procedures that set forth a mechanism or formula for determining whether replacement coverage contains benefits clearly and substantially greater than the benefits under the replaced coverage.

This bill would delete that requirement.

(2) Under existing law, no Medicare supplement insurer or health care service plan may deny or condition the issuance or effectiveness of Medicare supplement coverage, nor discriminate in the pricing of coverage, because of health status, claims experience, receipt of health care, or medical condition of an applicant if the application is submitted within 6 months after the applicant, who is 65 years of age or older, first enrolls for benefits under Medicare Part B. Under existing law, willful violation of the law regulating health care service plans is a misdemeanor.

This bill would instead make that provision applicable in the case of an application for a policy or certificate that is submitted prior to or during the 6-month period beginning with the first day of the first month in which an individual is both 65 years of age or older and is enrolled for Medicare benefits, as specified. This bill would make comparable changes with respect to Medicare supplement insurance.

This provision would also apply to an individual each year during an open enrollment period of 30 days or more commencing with the individual's birthday, if the individual

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

is covered by another Medicare supplement policy or contract at the time of the open enrollment. The bill would require a plan that offers contracts to supplement Medicare and a health care service plan to notify an enrollee or policyholder of his or her rights under this bill. By changing the definition of a crime, the bill would impose a state-mandated local program.

(3) Existing law provides, with respect to a health care service plan offering contracts to supplement Medicare, that if coverage is replaced, no plan shall provide compensation to a solicitor or solicitor firm, and no solicitor or solicitor firm shall receive compensation, in a greater amount than the renewal compensation for the replaced coverage, unless the benefits under the new coverage are clearly and substantially greater than the benefits under the replaced coverage.

This bill would remove the exception to the above provision.

With respect to those plans, existing law also specifies the calculation of actual or expected loss ratios.

This bill would provide that those loss ratios also apply to prestandardized plan contracts and certificates issued prior to July 21, 1992, the date mandated for standardized Medicare supplement coverage, as specified. It would also provide that for contracts issued prior to July 21, 1992, expected claims in relation to premiums must meet specified requirements.

(4) Existing law requires every disability insurance policy issued to persons eligible for Medicare by reason of age that is not a Medicare supplement policy, as specified, to so inform those persons that the policy is not a Medicare supplement policy.

This bill would revise those provisions.

(5) Existing insurance law provides that a Medicare supplement policy or certificate form shall not be issued unless it can be expected to return to the insured certain aggregate benefits, not including anticipated refunds or credits.

This bill would provide that the provision applies to renewal of a policy or certificate, and would specify that it also applies to prestandardized policies and certificates issued prior to July 21, 1992.

The bill would also provide that mass-marketed policies issued before the effective date of the bill shall be subject to the individual loss ratio.

(6) Existing law provides that if Medicare supplement coverage is replaced, no agent, subagent, or other producer shall receive commission or compensation, and no insurer or other entity shall pay commission or compensation, in a greater amount than the renewal compensation for the original coverage, unless the insurer can show that the benefit to the insured is clearly and substantially greater.

This bill would remove the exception to the above provision.

(7) Existing law requires health care service plan contracts, disability insurance policies, and nonprofit hospital service plan contracts, that provide hospital, medical, or surgical expense coverage under the plan of an employer subject to federal continuing medical insurance requirements, known as "COBRA," to permit an employer to provide extended coverage to eligible former employees and their spouses that would automatically terminate under specified conditions.

This bill would delete nonprofit hospital service plan contracts from this requirement, would add former spouses, as defined, to those provisions, and would change the conditions under which the extended coverage for spouses and former spouses would automatically terminate.

(8) Existing law requires an employer, employee association, or other entity providing continuation coverage to notify a former employee or spouse of the availability of continuation coverage.

This bill would also require those entities to notify former spouses.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(10) The bill would incorporate additional amendments to Section 10194.7 of the Insurance Code, proposed by SB 1581, contingent upon the prior enactment of that bill.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would declare that it is to take effect immediately as an urgency statute, but certain provisions would become operative January 1, 1997.

Ch. 1119 (SB 2112) Leonard. Community development: San Bernardino County.

Existing law provides that the adoption of any order or resolution by the legislative body of a charter city in San Bernardino County while acting as the redevelopment agency or as the community development commission shall be governed by the charter, and that the mayor has the same power and authority in the conduct of the affairs of the redevelopment agency and the commission that the mayor has with respect to conducting the affairs of the city, except that the mayor does not have a veto power over any order or resolution of the agency or the commission.

This bill would delete the limitation that the mayor does not have a veto over any order or resolution of the redevelopment agency or the community development commission.

The California Constitution provides that a local or special statute is invalid in any case if a general statute can be made applicable.

This bill would declare that, due to the unique circumstances with respect to charter cities within San Bernardino County that the bill is intended to remedy, a general statute within the meaning of specified provisions of the California Constitution cannot be made applicable and a special statute is necessary.

Ch. 1120 (AB 3478) Aguiar. Public employees: retirement: health benefits.

(1) The Public Employees' Retirement Law provides for survivor continuance allowances and special death benefits to surviving spouses not to cease upon remarriage. The provisions are not applicable to local members employed by contracting agencies unless elected by the agency and are not subject to collective bargaining.

This bill would make those benefits applicable to surviving spouses of deceased local safety members who were firefighters or peace officers who died in the line of duty.

The bill would also delete the collective bargaining exclusion thereby making those benefits available for collective bargaining by other local employees.

(2) Existing law provides for special payments to state and local peace officers for injuries arising out of and in the course of their duties.

This bill would require local employers to continue to provide health benefits to the spouses and dependents of firefighters and peace officers benefits to the spouses and dependents of firefighters and peace officers who died in the line of duty.

(3) Existing law requires the Department of Motor Vehicles to issue, upon the payment of special fees, environmental and other special license plates, including special license plates to firefighters who meet prescribed requirements.

This bill would authorize the transfer of those plates to surviving spouses upon the death of the person issued the plates.

(4) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1121 (SB 2000) Maddy. Horseracing: license fees.

(1) Existing law requires a certain percent of the portion of the takeout from the parimutuel handle of horseraces paid as purses to be paid to the organization representing the horsemen and horsewomen participating in those meetings as welfare funds. Also, $1/2$ of the redistributable money resulting from a thoroughbred meeting, excluding the meetings of the California Exposition and State Fair or county, district agricultural association, or citrus fruit fair meetings, and $1/2$ of the redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility, is required to be distributed to a welfare fund established by the organization representing horsemen and horsewomen.

This bill would require up to $450,000 of unclaimed refunds to be distributed to the organization that is responsible for negotiating specified types of agreements on behalf of the horsemen and horsewomen participating in the racing meeting for the purpose of negotiating, in good faith, an agreement of at least 3 years' duration with a jockeys' organization certified by the California Horse Racing Board, to be held in trust for the purpose of providing health and welfare benefits to California licensed jockeys and their

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

dependents if those persons contribute to the plan and do not receive benefits pursuant to the programs established under existing law.

(2) Existing law provides for the payment of a daily state license fee by a fair or association conducting horseracing at varying rates depending on the amount handled in its parimutuel pool and the type of racing.

The bill would provide for a reduction in the license fee rate for wagers made in the state on horseraces conducted by, or disseminated by, a thoroughbred racing association or fair, of $^1/_2$ of 1% on January 1, 1997.

Ch. 1122 (SB 649) Costa. Water pollution.

(1) Existing law makes it a crime for a person, as defined, to deposit in, permit to pass into, or place where it can pass into the waters of this state any of specified substances, including any petroleum, acid, coal or oil tar, lampblack, aniline, asphalt, bitumen, or residuary product of petroleum, or carbonaceous material or substance.

This bill would except from the application of that prohibition a discharge or release that is expressly authorized pursuant to the terms of a permit issued by the State Water Resources Control Board or a regional water quality control board. The bill would also make the proof of specified additional circumstances an affirmative defense to a charge of violating the foregoing provisions.

Existing law makes a person who violates that existing prohibition subject to specified civil penalties.

This bill would require the court, in determining whether to issue a temporary restraining order, preliminary injunction, or permanent injunction, to consider certain relevant circumstances, including the extent of the harm caused by the violation. The bill would also require the court to tailor any temporary restraining order, preliminary injunction, or permanent injunction narrowly to address the violation in a manner that would otherwise allow the defendant to continue business operations in a lawful manner. By imposing these requirements on the courts, the bill would establish a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1123 (AB 1714) McPherson. Voter registration.

Existing law provides that no person shall be registered to vote except by affidavit of registration. It provides that an affidavit is effective if the affidavit is executed on or before the 29th day prior to an election and is received by the county elections official by mail by the 4th day after the 29th day before the election. It requires the county elections official to accept affidavits of registration executed as part of a voter registration card that meet these requirements.

This bill would, in addition, make effective, and require the county elections official to accept, an affidavit of registration that (1) is postmarked on or before the 29th day prior to the election and received by mail by the county elections official, (2) is submitted to the Department of Motor Vehicles or accepted by any other public agency designated as a voter registration agency pursuant to the National Voter Registration Act of 1993, or (3) is delivered to the county elections official by other means on or before the 29th day prior to the election.

Existing law requires a voter who has changed his or her residence address by moving between the time of the person's last voter registration and the registration deadline for a new election, to execute a new affidavit of registration or a notice or letter of change of address in order to be eligible to vote at the next election.

This bill would provide that, notwithstanding this requirement, a voter who has changed his or her residence address by moving may vote at the election immediately

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

following the change of residence if he or she is entitled to vote in his or her former precinct or to cast a provisional ballot under specified provisions.

Existing law requires the county elections official, in lieu of executing a new affidavit of registration for a change of address within the county, to accept a notice or letter of change of address signed by the voter if the notice or letter is dated on or before the 29th day, and is received by mail by the 4th day after the 29th day, before an election. It permits acceptance of late change of address notices if evidence supports that the notice was executed on or before the 29th day prior to the election and that the notice was mishandled by a 3rd party, including the postal service.

This bill would delete the authorization to accept late change of address notices under the above circumstances, and would, in addition, require the county elections official to accept a change of address notification that (1) is postmarked on or before the 29th day prior to the election and received by mail by the county elections official, (2) is submitted to the Department of Motor Vehicles or accepted by any other public agency designated as a voter registration agency pursuant to the National Voter Registration Act of 1993, or (3) is delivered to the county elections official by other means on or before the 29th day prior to the election.

Existing law requires the county elections official to apply a rebuttable presumption that if no occupation is shown on an affidavit of registration, that the affiant declined to state his or her occupation.

This bill would delete this provision.

Existing law requires the county elections official to send a notification of voter registration, in a specified format, upon receipt of a properly executed affidavit of registration or address correction notice.

This bill would, in addition, require the county elections official to send a notification of voter registration upon receipt of an affidavit or notice pursuant to the National Voter Registration Act of 1993, and would revise the format of the voter registration notice.

Existing law requires that a voter registration card include information sufficient to inform the voter that the voter should not consider himself or herself registered until a voter notification is received by return mail.

This bill would delete this requirement.

Existing law requires the county elections official to cancel a voter's affidavit of registration under specified circumstances, including receipt of a mailing returned by the postal service as undeliverable, and requires that a blank affidavit of registration be mailed to a voter upon cancellation for this reason.

This bill would delete this provision.

Existing law, effective January 1, 1997, requires the county elections official to conduct a specified preelection residency confirmation procedure by the last day of February immediately prior to the primary election.

This bill would instead require that the procedure be completed by the 90th day immediately prior to the primary election.

Existing law, effective January 1, 1997, requires the county elections official, based on postal notices on returned residency confirmation postcards, to cancel the affidavits of registration of persons whose residency confirmation postcards are returned as undeliverable or who have no forwarding addresses, or for whom forwarding addresses outside of the county are received.

This bill would instead require that the affidavits of registration of those persons be placed in an inactive file pursuant to specified provisions. It would require that these persons be mailed confirmation notices described by specified provisions of law.

Existing law provides a procedure for voter registration and voting by new residents. It requires, among other things, that new residents' affidavits of registration be kept separate from the files of permanent voter registration and not be used in the preparation of the voters' index until they are either canceled or become permanent. It requires the county elections official, within specified time periods after completing the official canvass, to send a notification of registration form to a new resident and to conduct specified procedures upon receipt of a signed declaration of residency.

This bill would repeal these provisions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law provides that specified items of information shown on a voter registration card are confidential and shall not be disclosed to any person except pursuant to specified procedures.

This bill would provide that the California driver's license number or California identification card number shown on a voter registration card is confidential and shall not be disclosed to any person.

This bill, by revising the duties of local elections officials in connection with the registration of voters, would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1124 (SB 1524) Johnston. Unemployment insurance.

Existing law provides, until January 1, 1997, that unemployment compensation benefits may include retraining benefits, as specified.

This bill would extend the operation of these provisions to January 1, 2001, and require the Department of Employment Development to submit a report to the Legislature by January 1, 1999, that compares wages earned by participants in the retraining benefits program with comparable recipients of unemployment insurance who did not participate in the program. The bill would also prescribe eligibility requirements for journey level union members, as specified.

Existing law establishes the Employment Training Panel, which approves and pays for various job training programs. Existing law defines the term "eligible participant" for job training purposes to include, among others, certain persons who have been employed for less than 90 days but who were previously unemployed or had received a notice of layoff from the prior employer, as specified.

This bill would also define "eligible participant" to include a person employed for less than 90 days who was employed by an employer for a period of not less than 90 days during the 180 days prior to the current employment, as specified.

Under existing law, the Director of Employment Development is required to permit the use of any information is his or her possession to the extent necessary for specified purposes. The specified purposes include, among others, enabling the federal Department of Health and Human Services to administer its child support enforcement programs and providing information to the Student Aid Commission concerning persons who are delinquent or in default on guaranteed student loans or other specified obligations.

This bill would, in addition, require the director to release wage and employer information to the State Department of Developmental Services to assist in the collection of moneys owed by certain persons for benefits received under programs providing services to minors receiving out-of-home care, mentally disordered persons and alcoholics at state hospitals, and developmentally disabled persons at state hospitals.

Existing law provides that eligible individuals are entitled to unemployment compensation benefits from the Unemployment Fund or unemployment compensation disability benefits from the Disability Fund.

This bill would provide that an individual who files a new claim for unemployment compensation benefits must be advised of certain facts related to the taxation of the benefits. In addition, the bill would provide that deductions and withholding from unemployment and disability compensation shall be made in accordance with procedures established by the federal Department of Labor, the Internal Revenue Service, and the Department of Employment Development.

The bill would also make conforming changes.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1125 (AB 188) Machado. Taxation and assessment: multiple parcels.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law authorizes the levy of various taxes or assessments with respect to parcels of real property.

This bill would require, for purposes of a special tax levied by a local agency on a per parcel basis on or after January 1, 1997, that any parcel created by a subdivision map under specified circumstances be a single assessment unit and that a parcel that has not been subdivided, as specified, be a separate assessment unit only to the extent it has been previously conveyed in one or more deeds separating the parcel from adjoining property. By imposing new duties upon local officials in determining whether parcels of real property should be considered a single assessment unit, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1126 (AB 650) Speier. Vehicles: financial responsibility.

(1) Existing law imposes various duties on the Department of Motor Vehicles relating to vehicles.

This bill would require the department to require, upon application for renewal of registration of a vehicle, any one of several forms of evidence that the applicant is in compliance with the financial responsibility laws of this state, except as specified.

The bill would make technical, clarifying changes in related provisions of law.

(2) Existing law requires every driver and every owner of a motor vehicle to be able, at all times, to establish financial responsibility, as defined, for the vehicle.

This bill would require every person who drives upon a highway a motor vehicle required to be registered in this state to provide evidence of financial responsibility for the vehicle upon demand of a peace officer, as specified.

The bill would make a violation of the financial responsibility provision specified above an infraction, punishable by specified fines, and would thereby impose a state-mandated local program by creating a new crime.

The bill would authorize a court to order the impounding of the vehicle of a person who violates the financial responsibility provision, in addition to the penalties specified above. The bill would authorize the release of an impounded vehicle to the legal owner or registered owner of the vehicle under specified circumstances.

The bill would authorize dismissal of charges related to violation of the financial responsibility provision upon receipt of written evidence of financial responsibility, as defined, by the clerk of the court and would authorize the clerk to collect a $10 transaction fee for each case so dismissed.

The bill would exempt a person from the provisions described above if the person was driving, with the permission of the person's employer, a motor vehicle owned, operated, or leased by that employer, would make the provision applicable to the employer, and would require a notice to appear issued pursuant to the above provision to be issued to the employer rather than the driver. The bill would require the driver to notify the employer of the receipt of the notice to appear not later than 5 days after receipt. Because a violation of the provision requiring notification of the employer would be an infraction, the bill would create a new crime and would thus impose a state-mandated local program.

The bill would prohibit a person from knowingly providing false evidence of financial responsibility when requested by a peace officer pursuant to the financial responsibility provision specified above. The bill would make a violation of the provision relating to providing false evidence a misdemeanor, punishable by specified fines and a specified term in the county jail, and would thereby impose a state-mandated local program by creating a new crime.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would prohibit a peace officer from stopping a vehicle for the sole purpose of determining whether the vehicle is being driven in violation of the financial responsibility provision.

The bill would provide that no public entity or employee, or any specified person or organization, is liable for any loss, detriment, or injury resulting from failure to request evidence of financial responsibility or inaccurately recording that evidence, as specified, or as a result of the driver producing false or inaccurate financial responsibility information.

The bill would require the Director of Motor Vehicles, if the operation of any of the provisions specified above is delayed or interrupted by the action of a state or federal court and the constitutionality of the provision is upheld by a final decision of the court, to calculate what amount of time the operation of the provision was delayed or interrupted by the court's action, add the amount calculated to January 1, 2000, to determine a new repeal date for the challenged provision, and notify the Secretary of State in writing of the new repeal date.

The bill would become operative on January 1, 1997, and would remain in effect only until January 1, 2000, or until the date determined by the director pursuant to the provision specified above, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 2000, deletes or extends that date.

The bill would provide that its provisions are severable.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) The bill would become operative only if SB 49 is enacted and becomes operative.

Ch. 1127 (AB 1475) Pringle. Regulatory fees.

Under existing law there is an Office of Permit Assistance in the Trade and Commerce Agency that is required to develop guidelines to provide technical assistance to counties, cities, and cities and counties in establishing and operating an expedited development permit process, as specified.

This bill would require the Office of Permit Assistance to establish, compile, and maintain a regulatory fee register, as prescribed, to serve as a central repository of information concerning regulatory fees collected by specified governmental agencies and would require each governmental agency to submit to the office quarterly reports of the total dollar amount of regulatory fees collected by the governmental agency pursuant to specified provisions.

The bill would also require the office, commencing in 1998, to create an annual regulatory fee inventory, based on information collected in the regulatory fee register, that lists the total dollar amount of regulatory fees collected by all governmental agencies during the preceding calendar year and the number of facilities from which the revenue was collected. The bill would prescribe related powers and duties of the office.

Ch. 1128 (AB 2229) Woods. Veterans: cemetery.

Existing law provides for the burial of veterans and veteran's widows and widowers, and the care of veteran's graves.

This bill would require the Department of Veterans Affairs, in voluntary cooperation with the Shasta County Board of Supervisors, to develop a proposal for a state-owned and operated veterans cemetery in Shasta County, and would require that the proposal be submitted to the Legislature by July 1, 1997.

Ch. 1129 (AB 2463) Caldera. Postsecondary education: outreach and assistance for emancipated foster youth: California State University: California Community Colleges.

(1) Existing law imposes various duties on the Trustees of the California State University concerning students at that institution. Existing law also imposes various duties on the Board of Governors of the California Community Colleges concerning community college students.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would state the intent of the Legislature that the trustees and the board of governors expand the access and retention programs of the university and the community colleges to include outreach services to foster youth to encourage their enrollment in a state university or a community college and technical assistance to foster youth to assist those prospective students in completing admission applications and financial aid applications. The bill would require the trustees and the board of governors to review housing issues for those emancipated foster youth living in college dormitories to ensure basic housing during the regular academic school year, provide technical assistance and advice to campuses on ways in which to improve the delivery of services to emancipated foster youth, and track the retention rates of students who voluntarily disclose to the university or community college their status as former emancipated foster youth.

The bill would require the trustees and the board of governors to evaluate the extent to which their current programs are meeting the needs of foster youth and how those outreach and retention services can be improved. The bill would require the trustees and the board of governors to make a progress report to the Legislature by January 1, 1998, on their current and expanded services and efforts to increase the number of emancipated foster youth who attend the university or a community college and remain in school to earn a degree or certificate.

The bill would require representation on appropriate advisory councils to be expanded to include at least one former emancipated foster youth who is either a current or former student at the university.

The bill would require the State University Educational Opportunity Program and California Community College Extended Opportunity Programs and Services to ensure that identified emancipated foster youth are informed of services, including mentoring, provided by these programs.

The bill would require the Student Aid Commission to provide outreach services and technical assistance to foster youth, as specified.

The bill would require the State Department of Social Services and county welfare departments, in coordination with the university and the California Community Colleges, to communicate with foster youth at 2 grade levels selected jointly by the university and the California Community Colleges in order to facilitate the outreach and technical assistance efforts for those prospective students. The imposition of this requirement on county welfare departments would impose a state-mandated local program.

The bill would express the intent of the Legislature that the University of California and private and independent colleges and universities undertake efforts similar to those described above to assist emancipated foster youth.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1130 (AB 2551) Cannella. Sales and use taxes: permits: florists.

The Sales and Use Tax Law imposes a tax on the gross receipts from the sale in this state of, or the storage, use, or other consumption in this state of, tangible personal property and requires every person desiring to engage in or conduct business as a seller within this state to obtain a seller's permit from the State Board of Equalization.

This bill would impose a specified penalty on any retail florist who fails to obtain a permit before engaging in or conducting business as a seller, as specified. The bill would also require specified mobile retail florists to have a copy of the permit at each sales location in the possession of a person operating at that location.

Ch. 1131 (SB 623) Peace. Crimes: theft of cable television signals.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Existing law provides that every person who knowingly and willfully makes or maintains an unauthorized connection or connections, whether physically, electrically, or inductively, or who purchases, possesses, attaches, or maintains the attachment of any unauthorized devices or devices to any cable, wire, or other component of a franchised or otherwise duly licensed cable television system or to a television cable or set, or who makes or maintains any modification or alteration to any device installed with the authorization of a franchised or otherwise duly licensed cable television system, for the purpose of intercepting or receiving any program or other service carried by that franchised or otherwise duly licensed cable television system which the person is not authorized by that cable television system to receive, is guilty of a misdemeanor, punishable as specified.

Existing law provides that every person who knowingly and willfully makes or maintains an unauthorized connection or connections with, whether physically, electrically, or inductively, or who attaches or maintains any attachment to any cable, wire, or other component of a franchised or otherwise duly licensed cable television system, for the purpose of interfering with, altering, or degrading any cable television service being transmitted to others, or for the purpose of transmitting or broadcasting any program or other service not intended to be transmitted or broadcast by the franchised or otherwise duly licensed cable television system, is guilty of a misdemeanor, punishable as specified.

Existing law provides that every person who, without the express authorization of a franchised or other duly licensed cable television system, knowingly and willfully manufactures, imports into this state, distributes, sells, offers to sell, possesses for sale, or advertises for sale, any device, plan, or kit for a device designed, in whole or in part, to decode, descramble, or otherwise make intelligible any encoded, scrambled, or other nonstandard signal carried by that cable television system, is guilty of a misdemeanor, punishable by a fine not exceeding $10,000 or by imprisonment in a county jail, or by both that fine and imprisonment. For purposes of these provisions, the phrase "encoded, scrambled, or other nonstandard signal" includes, without limitation, any type of signal or transmission that is not intended to produce an intelligible program or service without the aid of a decoder, descrambler, filter, trap, or some similar device. A 2nd or subsequent conviction is punishable by a fine not exceeding $20,000 or by imprisonment in a county jail for up to one year, or by both that fine and imprisonment.

Existing law provides that any person who violates these provisions shall be liable to the franchised or otherwise duly licensed cable television system for specified monetary damages, and authorizes any franchised or otherwise duly licensed cable television system to bring an action to enjoin and restrain any violation of these provisions.

This bill would repeal and recast these provisions to prescribe different penalties for certain of these offenses and to make a number of changes in nomenclature.

This bill would require punishment by imprisonment in a county jail not to exceed one year, or in the state prison, by a fine not to exceed $250,000, or by both the fine and imprisonment if the violation involves the manufacture, assembly, modification, importation into this state, distribution, advertisement for sale or possession for sale or for any of these purposes, of 10 or more items involved in these activities, or the sale or offering for sale of 5 or more items for financial gain. If the violation involves 9 or less of the items involved in these activities, or the sale or offering for sale of 4 or less items for financial gain, the required punishment upon conviction would be imprisonment in a county jail not to exceed one year, by a fine not to exceed $25,000, or by both the fine and imprisonment. A 2nd or subsequent conviction of either of the lesser offenses would require punishment by imprisonment in a county jail not to exceed one year, or in the state prison, by a fine not to exceed $100,000, or by both the fine and imprisonment. Because these provisions would expand the scope of an existing crime, the bill would impose a state-mandated local program.

(2) This bill also would recast the provisions that relate to civil actions and would create a civil action against any person who violates the provisions specified in (1).

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1132 (SB 1369) Kopp. Drug abuse: deferred entry of judgment.

Existing law prescribes procedures for the referral to diversion of those persons charged with specified drug offenses.

This bill would provide instead that, in lieu of trial, the prosecuting attorney may make a motion to the trial court to defer entry of judgment with respect to any specified drug offense that is charged, provided that the offender offers a plea of guilty. Upon that motion and the defendant's offer of a plea of guilty, the court would be required to defer a finding of guilt and entry of judgment, contingent upon the defendant's completion of an approved drug program. Upon the defendant's completion of the program, and upon the positive recommendation of the program authority and the motion of the prosecuting attorney, the court, or the probation department, but no sooner than 18 months nor later than 3 years from the date of the defendant's referral to the program, the court would be required to dismiss the charge or charges against the defendant.

The bill would revise the drug offenses to which these provisions apply.

The bill also would provide that upon any failure of treatment or condition under the program, or if the defendant has engaged in criminal conduct rendering him or her unsuitable for defined entry of judgment, the prosecuting attorney, the court on its own, or the probation department may make a motion to the court for entry of judgment and the court shall render a finding of guilt to the charge or charges pled, enter judgment, and schedule a sentencing hearing.

The bill also would authorize the presiding judge of the superior or municipal court, or his or her designee, together with the district attorney and public defender, to agree in writing to establish and conduct a preguilty plea drug court program, wherein criminal proceedings are suspended without a plea of guilty for designated defendants and charges are dismissed upon satisfactory performance in the program.

This bill would incorporate additional changes in Section 1000 of the Penal Code, proposed by AB 2710, to be operative only if AB 2710 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

This bill would incorporate additional changes in Section 1000.5 of the Penal Code, proposed by AB 3098, to be operative only if AB 3098 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

Ch. 1133 (SB 1412) Johnson. Conflicts of interest: public contracts.

(1) Existing law prohibits certain public officials and employees from being financially interested in any contract made by them in their official capacity, or by any board of which they are members. Existing law provides the following in the case of violation of this prohibition: (a) that every contract made in violation of the prohibition may be avoided (by the party contracting with the public body) if the financially interested officer or employee acted in his or her official capacity; (b) that a fine of not more than $1,000 or imprisonment in the state prison may be imposed; and (c) that an officer or employee in violation is forever disqualified from holding office in the state.

Existing law provides that an officer shall not be deemed to be interested in a contract entered into by a body or board of which the officer is a member if the officer has only a remote interest in the contract and other requirements are met. A remote interest must be publicly disclosed, and thereafter the public body may authorize, approve, or ratify the contract in question, but the officer or employee with the remote interest is disqualified from voting.

A remote interest is defined to include, among others, that of an attorney of the contracting party or that of an owner, officer, employee, or agent of a firm which renders, or has rendered, service to the contracting party in the capacity of stockbroker, insurance agent, insurance broker, real estate agent, or real estate broker, if these individuals have not received and will not receive remuneration, consideration, or a commission as a result of the contract.

This bill would further condition the application of this exception by requiring that in order for the exception to apply, an attorney, stockbroker, insurance agent, insurance

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

broker, real estate agent, or real estate broker have an ownership interest of 10% or more in the law practice or firm, stock brokerage firm, insurance firm, or real estate firm.

(2) A remote interest for purposes of the conflict of interest provisions summarized above also includes that of an officer, director, or employee of a bank, bank holding company, or savings and loan association with which a party to the contract has the relationship of borrower, depositor, debtor, or creditor.

This bill would delete officers and employees from this exception, and make it applicable to a person having an ownership interest of 10 percent or more in the bank, bank holding company, or savings and loan association.

(3) Existing law also provides that an officer or employee is not deemed interested in a contract if his or her interest is within certain other specific categories, including an interest in a contract made pursuant to competitive bidding, if the officer's or employee's sole interest is that of an officer, director, or employee of a bank or savings and loan with which a party to the contract has the relationship of borrower, depositor, debtor, or creditor. These categorical exceptions require neither disclosure of the interest nor disqualification from voting.

This bill would add the following categories of interests to this provision: (a) that of an attorney of the contracting party or that of an owner, officer, employee, or agent of a firm which renders, or has rendered, service to the contracting party in the capacity of stockbroker, insurance agent, insurance broker, real estate agent, or real estate broker, if these individuals have not received and will not receive remuneration, consideration, or a commission as a result of the contract and if these individuals have an ownership interest of less than 10% in the law practice or firm, stock brokerage firm, insurance firm, or real estate firm; and (b) that of an officer or employee of or a person having less than a 10% ownership interest in a bank, bank holding company, or savings and loan association with which a party to the contract has a relationship of borrower or depositor, debtor, or creditor.

(4) This bill, pursuant to the amendments summarized above, and in view of the criminal sanctions under existing law, would impose a state-mandated local program by changing the definition of an existing crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1134 (SB 1504) Calderon. Open meetings: local agencies.

The Ralph M. Brown Act generally requires that the meetings of legislative bodies of local agencies be conducted openly. The act defines legislative body as including, among other things, a board, commission, committee, or other multimember body that governs a private corporation that receives funds from a local agency and the membership of whose governing body includes a member of the legislative body of the local agency appointed to that governing body by the legislative body of the local agency.

This bill would require that the member be appointed to the governing body as a full voting member for the act to apply, as specified.

Ch. 1135 (SB 2035) Killea. Adoption facilitators.

Existing law provides a comprehensive scheme relative to adoption regulation, as specified.

This bill would provide for the regulation of adoption facilitators, as defined. A violation of certain provisions relating to advertising would be a misdemeanor. In creating a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1136 (SB 2031) Ayala. Boards and commissions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law creates, within the Department of Consumer Affairs, the State Board of Accountancy, the State Board of Geologists and Geophysicists, and the Court Reporters Board, each with a specified membership. Existing law authorizes each of these boards to appoint an executive officer. These and related provisions become inoperative on July 1, 1997, and are thereafter repealed, unless extended.

This bill would extend these provisions to July 1, 2001, except that the provisions relating to the Court Reporters Board would be extended to July 1, 1999.

The Boxing Act provides for the creation of the State Athletic Commission within the Department of Consumer Affairs, with a specified membership. Existing law provides for the commission to appoint an executive officer and to employ other personnel as may be necessary for administration of the act.

This bill would make these provisions inoperative on July 1, 2001, and repeal them thereafter, as specified, unless the provisions are extended.

Ch. 1137 (SB 1077) Greene. Boards and commissions.

(1) Existing law creates various licensing and regulatory boards in the Department of Consumer Affairs, including the State Board of Accountancy, the State Board of Registration for Geologists and Geophysicists, the Court Reporters Board of California, and the State Board of Barbering and Cosmetology, with specified powers and duties.

This bill would make various changes to these licensing and regulatory provisions and would make certain provisions relating to the Geologists and Geophysicists Board inoperative on July 1, 2001, unless extended.

(2) The Boxing Act provides for the creation of the State Athletic Commission within the Department of Consumer Affairs, with a specified membership.

This bill would make these provisions inoperative on July 1, 2001, and repeal them thereafter, as specified, unless the provisions are extended. The bill would make other changes to these provisions.

(3) Existing law provides for the creation of the Bureau of Home Furnishings and Thermal Insulation in the Department of Consumer Affairs.

This bill would revise certain provisions relative to the regulatory authority of the bureau. Among other things, it would add importers as a license category, revise provisions relative to waterbeds, exempt from regulation furniture used exclusively for physical fitness and exercise, and revise license fees.

(4) Existing law provides for the Tax Preparer Program in the Department of Consumer Affairs. Existing law requires tax preparers to register with the administrator of the tax preparer program, to pay specified fees, and to file a surety bond with the Director of Consumer Affairs as a requirement of doing business.

This bill would eliminate the Tax Preparer Program effective July 1, 1997. This bill would instead require tax preparers to maintain a bond with a surety company. This bill would also prohibit a tax preparer from making a deposit in lieu of bond and would limit the aggregate liability of the surety to all persons against any one tax preparer. The bill would enact provisions governing continuing education requirements, prohibited acts, and related matters. The new provisions would become inoperative on July 1, 2002, and would be repealed on January 1, 2003. A violation of these provisions would be a misdemeanor, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(5) The bill would also provide that certain provisions shall not become operative unless SB 2031 is also enacted and becomes operative.

Ch. 1138 (AB 2154) Kuehl. Juveniles: dependent children: protective orders.

(1) Existing law specifies the circumstances of abuse and neglect under which the juvenile court may adjudge a minor to be a dependent child of the court. Under existing law, the juvenile court is required to hear all issues relating to the custody of a minor who is a dependent child of the court and no other division of any superior court may hear these proceedings. Existing law authorizes the juvenile court to issue certain restraining

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

orders to any parent, guardian, or member of the minor child's household, and may issue certain protective orders directed to either of the parents of the minor.

This bill would revise and recast these provisions to, among other things, provide additionally that the juvenile court is the only division of the superior court that may hear proceedings under specified provisions regarding the establishment of the guardianship of a child subject to dependency proceedings, as specified, and authorize the juvenile court to instead direct protective orders to any parent, guardian, or current or former member of the minor child's household.

(2) Under existing law, the juvenile court is required to conduct a hearing to make a determination regarding the future status of the child within a specified period of time under certain circumstances, and periodically but no less frequently than once each 18 months thereafter during the continuation of foster care.

This bill would require this hearing to be conducted periodically but no less frequently than once each 12 months.

(3) Under existing law, if a dependent child is in a placement other than the home of a legal guardian and jurisdiction of the juvenile court has not been dismissed, the status of the child is required to be reviewed every 6 months to determine the progress being made to provide a permanent home for the child. Under existing law, at least every 18 months during this review, the court is required to order that a hearing be held in which adoption may be identified as the permanent placement goal, a legal guardian may be appointed, or other orders may be made, except as provided.

This bill would revise the latter provision to require the court to order this hearing to be held at least every 12 months, and would make related changes.

(4) Under existing law, in order to be eligible for aid under the Aid to Families with Dependent Children-Foster Care program, the child is required to receive a periodic review no less frequently than once every 6 months and a permanency planning hearing within 18 months of the original placement date and periodically but no less frequently than once each 18 months thereafter throughout the period of foster care placement.

This bill would require the permanency planning hearing to take place periodically but no less frequently than once each 12 months.

(5) By requiring increased duties of local officials, as described in (2), (3), and (4), the bill would impose a state-mandated local program.

(6) This bill would incorporate additional changes in Section 213.5 of the Welfare and Institutions Code proposed by AB 2647, to be operative only if AB 2647 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1139 (AB 2647) Kuehl. Domestic violence: custody: protective orders.

(1) Existing law authorizes the court to issue ex parte orders excluding a parent, guardian, or other member of the minor child's household from the residence or dwelling of the person who has the care, custody, and control of the child upon the same showing as is necessary to remove the minor from the custody and control of his or her parents or guardians, and only when the evidence shows the person seeking the order has a lawful right to possession of the premises.

This bill would delete the requirement that the same showing be made, and would instead authorize the issuance of those orders for the period of time and on the conditions the court determines, upon a showing of specified information including that the party who will stay in the dwelling has a right under color of law to possession of the premises.

(2) Existing law provides that a dependent child may not be taken from the physical custody of the child's parent or guardian with whom the child resides unless the juvenile court makes any of a list of specified findings, including the fact that there is substantial

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

danger to the child's physical health or would be if the child were returned home and there are no reasonable means by which the child can be protected without removal from the parent's or guardian's custody.

This bill would require the court to consider, as a reasonable means to protect the child, the removal of an offending parent or guardian from the home or allowing a nonoffending parent or guardian to retain custody as long as the parent or guardian presents a plan demonstrating that he or she will be able to protect the child from future harm.

(3) Existing law provides that a petition to declare a minor a ward or dependent child of the juvenile court shall contain specified information, including the names and addresses of the parents or guardians of the child. Existing law also provides that, unless parental rights have been terminated, both parents shall be notified of proceedings involving a dependent child under the jurisdiction of the juvenile court.

This bill would provide for the confidentiality of the address of a parent who is a victim of domestic violence.

(4) Existing law requires any order placing a minor in foster care and ordering reunification services to include certain terms, including visitation between the parent or guardian and the minor, subject to certain limitations.

This bill would prohibit any visitation order from jeopardizing the safety of the minor child and would authorize the court to keep the minor's address confidential.

(5) Existing law provides that when the juvenile court terminates its jurisdiction over a dependent child before the child reaches 18 years of age and specified proceedings are pending or a custody order has been entered regarding that child, the court may issue a protective order and an order determining the custody of, or visitation with, that child.

This bill would revise and recast these provisions.

(6) Existing law requires each county to develop a procedure, by July 1, 1996, to electronically transmit certain data relating to domestic violence protective orders to the Department of Justice.

This bill would include the issuance of certain restraining and protective orders relating to prevention of abuse of children under the jurisdiction of the juvenile court within these electronic transmission requirements. By requiring counties to transmit this additional information to the Department of Justice, this bill would impose a state-mandated local program.

(7) Under existing law the intentional and knowing violation of certain protective orders is a misdemeanor.

This bill would make similar provision with respect to the violation of restraining and protective orders relating to prevention of abuse of children under the jurisdiction of the juvenile court within the protective orders subject to that misdemeanor, thereby imposing a state-mandated local program by changing the definition of a crime.

(8) Existing law provides for a statewide multipurpose child welfare training program, which is required to provide practice-relevant training for mandated child abuse reporters and members of the child welfare delivery system to address critical issues affecting the well-being of children. The training is required to include specified components.

This bill additionally would require that the training include information regarding the dynamics and effects of domestic violence upon families and children. Further, the bill would require that the training program provide practice-relevant training to specified county child protective service social workers and workers assigned to provide emergency response, family maintenance, family reunification, and permanent placement services. The bill also would require that the training be developed in consultation with specified groups and that all counsel who perform duties relating to dependent children participate in the training where available through existing programs.

(9) Existing law requires the State Department of Social Services to develop a statewide protocol for telephone screening of emergency response referrals to protect children from abuse and neglect, which is called the Emergency Response Protocol.

This bill would require that the Emergency Response Protocol incorporate screening procedures to assess whether abuse of another family or household member is occurring.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The bill would require that this additional domestic violence assessment and referral criteria be developed in consultation with specified groups.

(10) This bill would incorporate additional changes to Section 213.5 of the Welfare and Institutions Code, proposed by AB 2154, to become operative only if AB 2154 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(11) This bill would incorporate additional changes to Section 361 of the Welfare and Institutions Code, proposed by SB 1516, to become operative only if SB 1516 and this bill are chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(12) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, for certain costs, no reimbursement is required by this act for specified reasons.

Moreover, this bill would provide that, if the Commission on State Mandates determines that this bill contains other costs mandated by the state, reimbursement for those costs shall be made pursuant to those statutory procedures and, if the statewide cost does not exceed $1,000,000, shall be made from the State Mandates Claims Fund.

Ch. 1140 (AB 2231) Kuehl. Domestic violence: arrest.

(1) Existing law authorizes the issuance of various types of domestic violence protective and restraining orders.

This bill would specify the conditions under which out-of-state protective or restraining orders shall be deemed valid and enforced in this state.

(2) Existing law specifies circumstances under which a peace officer may make a warrantless arrest. Under these provisions, when a peace officer is responding to a call alleging a violation of a protective order issued under specified provisions of the Family Code or the Penal Code, and the peace officer has reasonable cause to believe that the person against whom the order is issued has notice of the order and has violated the order, the peace officer may arrest the person without a warrant and is required to confirm with appropriate authorities that a true copy of the protective order has been filed, except as provided.

This bill instead would authorize a peace officer to make such a warrantless arrest when responding to a call alleging a violation of a domestic violence protective or restraining order issued under the Family Code or specified provisions of the Code of Civil Procedure, the Welfare and Institutions Code, or the Penal Code or issued by the court of another state, tribe, territory, and would require that the peace officer confirm with the appropriate authorities or the Domestic Violence Protective Order Registry maintained by the Department of Justice that a true copy of the protective order has been registered, except as provided.

(3) This bill would incorporate additional changes to Section 6380 of the Family Code proposed by AB 2647, to be operative only if AB 2647 and this bill are both chaptered and become effective on January 1, 1997, and this bill is chaptered last.

(4) This bill would incorporate additional changes in Section 836 of the Penal Code proposed by AB 2116, to be operative only if AB 2116 and this bill are both enacted and become effective on January 1, 1997, and this bill is enacted last.

Ch. 1141 (AB 2338) Rainey. Health facilities.

Existing law provides for the licensure and regulation of health facilities, as defined, by the State Department of Health Services. Existing law authorizes, as an exception to the general requirement, the issuance of a single consolidated license to a general acute care hospital that has two or more physical plants at more than one site that are more than 15 miles apart when certain conditions exist.

This bill would provide an exception to this requirement to authorize the director to issue a single consolidated license for a general acute care hospital to Children's Hospital Oakland and San Ramon Regional Medical Center. It would also state findings as to the reasons that a general statute cannot be applied.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 1142 (SB 1797) M. Thompson. Peace officers.

(1) Existing law requires convicted arsonists to register with the chief of police or sheriff of the city or county where he or she resides.

This bill would include the chief of police of any state university in this provision if the convicted arsonist is domiciled on the campus where the chief has jurisdiction.

(2) Existing law authorizes qualified persons to be deputized or appointed as reserve or auxiliary sheriffs or police officers of various local governmental agencies, which reserve officers are assigned to the prevention and detection of crime and the general enforcement of the laws of this state, and are considered peace officers, under specified circumstances.

This bill would expressly include all persons designated by a Native American tribe recognized by the United States Secretary of the Interior, who are deputized by the county sheriff as reserve or auxiliary sheriffs or reserve deputy sheriffs, among those reserve officers who are considered peace officers, if they satisfactorily complete an introductory course of training.

The bill would declare the intent of the Legislature that this provision does not constitute a change in, but is declaratory of, existing law. The bill would also provide that nothing in the bill shall prevent a city, county, or special district from providing public safety services to a Native American tribe through an agreement or contract.

(3) Existing law provides that federal criminal investigators and law enforcement officers are not California peace officers, but may exercise the powers of arrest of a peace officer for violations of state or local laws under specified circumstances.

This bill would provide that this provision does not apply to federal officers of the Bureau of Land Management and that these officers have no authority to enforce California statutes without the written consent of the sheriff or the chief of police in whose jurisdiction they are assigned.

(4) Under existing law, any weapon deemed to be a nuisance is required to be surrendered to a city chief of police, a county sheriff, or the Commissioner of the California Highway Patrol.

This bill would include in this provision the chief of police of any campus of the University of California or the California State University.

(5) Existing law requires any person taking possession of any vehicle on behalf of the legal owner under the terms of a security or lease agreement to immediately notify the city police department or the county sheriff department where the taking of possession occurred.

This bill would require notice to the University of California or California State University Police Department if the taking of possession occurred on a campus over which it has jurisdiction.

(6) Existing law authorizes any peace officer or city or county employee who directs traffic or enforces parking to impound vehicles located on land within the officer's or employee's territorial limits.

This bill would add the jurisdiction of a state agency to the various provisions that grant this authorization and would make conforming changes.

(7) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1143 (SB 1200) Committee on Elections and Reapportionment. Elections Code: reorganization: election contests.

(1) Existing law, pursuant to Chapter 920 of the Statutes of 1994, effective January 1, 1995, repeals and reenacts the Elections Code in a reorganized format without substantive changes.

This bill would make additional conforming and nonsubstantive changes to provisions of the Elections Code relating to the presidential primary election, general municipal elections, delegates to the Republican presidential primary, nomination documents, and recall elections.

(2) Existing provisions of the Education Code establish procedures pursuant to which the elections of governing board members of a school district, county board of education, high school district, community college district, or community college district area may be consolidated with other local or statewide elections, subject to specified conditions.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would repeal these and related provisions of law, and would reenact them into the Elections Code in an amended and reorganized format.

(3) Existing provisions of the Education Code govern the election procedures applicable to school districts in the process of being absorbed into others, and for certain new districts.

This bill would repeal these provisions and would reenact them into the Education Code in an amended and reorganized format.

(4) Existing law specifies the regular election dates occurring each year.

This bill would refer to these dates as established election dates, and would make related technical changes.

(5) Existing law requires that, except for specified elections, all state, county, municipal, district, and school district elections be held on the established election date nearest to the date on which they would be held in the absence of specified provisions of law. It generally requires that if the election is held on a statewide election date it be consolidated with the statewide election.

This bill would instead require that these specified elections be held on an established election date, and would repeal and reenact the requirement for consolidation with a statewide election in a reorganized format.

(6) Existing law prohibits any election, except for all-mail ballot special district elections, from being held on a day other than a Tuesday, or on the day before, the day of, or the day after, a state holiday.

This bill would apply this prohibition to any election.

(7) Existing law specifies the dates upon which the statewide general election, the statewide direct primary election, and the presidential primary election shall be held.

This bill would make technical changes in these provisions.

(8) Existing provisions of the Elections Code require that a general municipal election be held on the 2nd Tuesday in April of even-numbered years, or on the first Tuesday after the first Monday in March of odd-numbered years.

Existing related provisions of the Government Code permit a city council to enact an ordinance requiring its general municipal election to be held on the same day as the statewide direct primary election, the day of the statewide general election, or the day of school district elections. These provisions establish procedures pursuant to which these elections may be consolidated.

This bill would repeal these and related provisions contained in the Elections Code and the Government Code, and would reenact them in the Elections Code in an amended and reorganized format.

(9) Existing law requires that a general district election to elect members of the governing board be held in each special district subject to specified provisions of law on the first Tuesday following the first Monday in November of each odd-numbered year.

This bill would except from this requirement districts whose principal act provides for another election date under specified provisions of law, districts that conduct mailed ballot elections, and districts that require, by resolution that would become operative upon approval by the board of supervisors, its governing body elections to be held on the same day as the statewide general election.

(10) Existing law specifies the procedures pursuant to which a special election for a qualified county, municipal, or district initiative may be held.

This bill would enact revised procedures applicable to the holding of special elections for these local initiatives.

(11) Existing law specifies the procedures pursuant to which a special election for a referendum on a county or a municipal measure may be held.

This bill would enact revised procedures applicable to the holding of special elections for these local referendum measures.

(12) Existing law specifies the procedures pursuant to which elections for a city or city and county charter proposal may be held.

This bill would enact parallel procedures applicable to the holding of elections for these local charter proposals.

(13) Existing law requires that any election to choose members of the governing board of a special district totally conducted by mailed ballot be held on the first Tuesday following the first Monday in September of each odd-numbered year, except as provided

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

in a specified provision of law. It authorizes the special district election to be held on the first Tuesday after the first Monday in November of each odd-numbered year if permitted by the elections official of the county or counties affected by the use of all-mailed ballots. It permits all other district elections conducted by mailed ballot to be held in accordance with the dates set forth in the district enabling act or to be consolidated with the general district election.

This bill would consolidate these provisions and would require that a special district election conducted by all-mail ballot be held on a date prescribed by these provisions, or on any other date other than an established election date.

(14) Existing law governing election contests defines the term "elections official" as not including a registrar of voters, and requires the county elections official to perform various duties in connection therewith, among other things.

This bill would delete the existing definition of "elections official" applicable to election contests, and would require the clerk of the superior court to perform the duties currently performed by the county elections official in connection with an election contest. This bill, by adding new duties to superior court clerks, would impose a state-mandated local program.

(15) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(16) This bill would declare that it shall take effect immediately as an urgency statute.

Ch. 1144 (SB 1418) M. Thompson. State property: Sonoma Developmental Center.

Existing law requires the Department of General Services, prior to January 1, 1995, to identify state-owned real property that is or will be unused or underutilized by the landholding agency and to list those properties on the Surplus Property Inventory. Existing law requires the Department of General Services to sell, lease, or exchange annually, at fair market value, not less than 10% of the real property on the Surplus Property Inventory with the proceeds to be deposited into the General Fund.

This bill would provide that if property located at the Sonoma Developmental Center that was formerly an orchard and that has been determined to be surplus state property in accordance with existing law is leased, it shall be leased only for an agricultural or open-space purpose consistent with, but not requiring the specific local government approvals related to, certain requirements.

This bill would require the department to comply with the California Environmental Quality Act prior to accepting bids for the lease of the property.

This bill would require, as a condition of the lease, the lessee of the property to directly employ persons with developmental disabilities in numbers equal to at least 15% of their total work force at the leased site, or through employment at offsite facilities directly related to the leasehold, and to agree to restrict the use of hazardous substances.

This bill would provide that the Director of General Services may sell or exchange the property only if the transaction would result in a transfer of the property to an entity that would hold the property in perpetuity as open space or that would result in the property becoming part of the Jack London State Park.

This bill would also require that the net proceeds received by the state from the lease be deposited with 50% to the General Fund for appropriation in accordance with existing law, and 50% to a special account within the General Fund to be known as the Community Services Development Account, which would be subject to appropriation by the Legislature to the State Department of Developmental Services, as specified.

The bill, in addition, would require the Department of General Services to enter into negotiations with the County of Sonoma regarding the conveyance of a conservation easement for property on the grounds of the Sonoma Developmental Center situated above the 1,100-foot elevation line, and if a conveyance of an easement is agreed upon,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

would authorize the easement on the subject property to be conveyed to a 3rd-party governmental entity upon the agreement of both the department and the county.

Ch. 1145 (SB 1470) Johannessen. California Veterans Board: oversight over veterans' policies.

Existing law establishes the California Veterans Board within the Department of Veterans Affairs consisting of 7 members appointed by the Governor and confirmed by the Senate, provides for appointment of members to 4-year terms, and requires the board to determine the policies for the operations of the department.

This bill would substitute for one of these members the Secretary of Veterans Affairs at the first available vacancy and would provide that the secretary vote as a board member only when necessary to break a tie.

This bill would require that the board be apprised of and approve certain proposed policy changes of the department relating to veterans and veterans programs, as defined, and would make conforming changes.

This bill would require the board to file an annual report with the Legislature by August 1.

Ch. 1146 (SB 2009) Killea. Treasurer: duties.

Existing law sets forth the duties of the Treasurer, and requires, among other things, that at the request of either house of the Legislature, or of any committee thereof, the Treasurer shall give written information as to the condition of the treasury, or upon any subject relating to the duties of the Treasurer's office.

This bill would require the Treasurer annually to prepare a debt affordability report, to be presented to the Governor and the Legislature. The bill would state that the report is intended to be a framework for the Legislature to evaluate and establish priorities for bills that propose the authorization of additional state debt supported by the General Fund during the budget year.

Ch. 1147 (SB 2097) Haynes. Civil rights: senior housing.

(1) Existing law provides that a person who proposes to create a senior citizen housing development, through phased development and marketing of subdivision interests may apply for and obtain a public report for a phase of the development, even though the phase itself will not include a sufficient number of dwelling units to qualify as a senior citizen housing development.

This bill would limit the applicability of this provision to persons who propose to create a senior housing development before January 1, 1997.

(2) Existing provisions of the Unruh Civil Rights Act, with certain exceptions, prohibit various forms of arbitrary discrimination by business establishments. One of the exceptions to the prohibitions of this act is for senior housing meeting prescribed criteria, including the requirement that the accommodations are designed to meet the physical and social needs of senior citizens, except as specified.

This bill would provide that the requirement that the accommodations are designed to meet these needs does not apply to the County of Riverside.

(3) Existing law provides that where accommodations constructed before February 8, 1982, are not specially designed to meet the physical and social needs of seniors but meet other specified criteria for senior citizen housing, a business establishment may establish and preserve that housing for senior citizens until January 1, 2000, in accordance with that criteria.

This bill would provide that these provisions do not apply to the County of Riverside.

(4) Existing law permits the establishment and preservation of specially designed and accessible housing for senior citizens, as specified. Existing law defines, for purposes of these provisions, a senior citizen housing development as a residential development developed, substantially rehabilitated, or substantially renovated for senior citizens consisting of (a) at least 70 dwelling units built before January 1, 1996, or 150 dwelling units built on or after January 1, 1996, in a metropolitan statistical area with a population of at least 1,000 residents per square mile or 1,000,000 total residents, (b) at least 100 dwelling units in a metropolitan statistical area with a population not to exceed 999

NOTE: Superior numbers appear as a separate section at the end of the digests.

residents per square mile and not to exceed 399,999 total residents, or (c) at least 35 dwelling units in any other area.

This bill would, among other things with respect to the County of Riverside, enact special provisions defining a senior citizen housing development to mean a residential development developed with more than 20 units as a senior community by its developer, zoned as a senior community by local governmental entities, or characterized or qualified as a senior community as specified. It also would expand the definition of who is a qualified permanent resident for purposes of these provisions.

The bill would make a statement of legislative intent in this regard.

Ch. 1148 (AB 1201) Gallegos. Local education agencies: board members: compensation.

Existing law requires the governing board of any school district and the governing board of any community college district to fix the time and place for its regular meetings, as specified, the governing board of any union or joint union high school district to hold its regular meetings either monthly or quarterly, and the governing board of any other high school district to hold its regular meetings monthly. Existing law requires regular meetings of a county board of education to be held not less than once per month. Existing law authorizes special meetings of these bodies to be called, as specified. Existing law authorizes each member of a city or county board of education or a governing board of a school district or community college district who actually attends all meetings to receive specified compensation for his or her services and reduces that compensation if the member does not attend all meetings held in any month, but allows compensation for certain absences, as specified.

This bill would authorize compensation also for absences if the board includes within its minutes, a finding that the member was ill or on jury duty or the absence was due to a hardship deemed acceptable to the board.

Ch. 1149 (AB 2457) Figueroa. State procurement: forced, convict, and indentured labor.

Existing law sets forth the general requirements for contracts for the procurement of equipment, supplies, and materials by state agencies.

This bill would require those contracts, with a specified exception, to specify that no foreign-made equipment, materials, or supplies furnished to the state pursuant to the contract may be produced by forced labor, as defined, convict labor, or indentured labor under penal sanction, and would provide for sanctions to be imposed on contractors who know or should know that the equipment, materials, or supplies furnished to the state have been produced by that labor, when entering into a contract pursuant to these provisions.

Ch. 1150 (AB 2838) Hoge. On-premises advertising: displays.

Existing law provides for the removal, abatement, or limitation of on-premises advertising displays, as defined, and provides for the regulation thereof. Existing law requires local authorities that elect to adopt, modify, or amend on-premises advertising to include provisions in that ordinance, regulation, or amendment for the inventorying and identification of illegal or abandoned advertising displays within their jurisdictions.

This bill would revise and recast those provisions to require any local authority adopting or amending any ordinance or regulation that regulates or prohibits the use of any on-premises advertising display that is more restrictive than existing law, to include provisions in that ordinance or regulation for the identification and inventorying of all displays within its territorial limits that are determined to be illegal or abandoned pursuant to the law that is in effect prior to the adoption of, or amendment to, the ordinance or regulation.

Ch. 1151 (AB 2877) Davis. Funeral establishments.

Existing law provides that the Department of Consumer Affairs succeeds to, and is vested with, all the duties, powers, purpose, responsibilities, and jurisdiction of the Funeral Directors and Embalmers Board as of January 1, 1996, in the absence of a consolidation of this board with the Cemetery Board or other restructuring of the boards.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The Funeral Directors and Embalmers Law provides for the licensure and regulation of funeral directors and embalmers, as specified.

This bill would provide for licensing of funeral establishments in addition to funeral directors and embalmers, and would require a licensed funeral establishment to employ a licensed funeral director. This bill would authorize licensed funeral establishments within close geographical proximity to each other to request the board to allow a licensed funeral director to manage, direct, or control more than one facility. The bill would also revise various education, examination, and other licensing requirements applicable to embalmers, embalmers' apprentices, and funeral directors, as specified.

This bill would also require any person employed by, or an agent of, a licensed funeral establishment who consults with a family of a deceased person or its representatives concerning the arranging of funeral services to receive documented training and instructions on laws, rules, and regulations pertaining to specified subjects.

A violation of any of the provisions of the Funeral Directors and Embalmers Law is a misdemeanor. This bill would therefore create new crimes and thus impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

The bill would specify certain application and license renewal fees for funeral establishments and arrangement counselors and revise fees applicable to these and other licensees. Existing provisions of the Business and Professions Code continuously appropriate moneys in the State Funeral Directors and Embalmers Fund. Because this bill would increase the amount of moneys in that fund, it would constitute an appropriation.

Ch. 1152 (AB 2962) Firestone. State property.

(1) Under existing law, a state agency authorized to sell surplus state-owned real property, except as specified, may, with the approval of the Director of General Services, employ a licensed real estate broker in connection with the sale and pay the amount of the commission earned by the broker when the highest bid received after advertising does not equal the appraised value of the property.

This bill would authorize a state agency to employ a licensed real estate broker to sell surplus state-owned real property and pay the negotiated commission, as specified, earned by the broker when no state or other public entity seeks to obtain title to that property. The bill would also require the director to only employ the services of a broker when the director determines that the employment of a broker to sell the property would result in a cost savings to the state, and would require that any state properties sold through the services of a broker be reported, along with a comparison of the estimated cost savings obtained through the use of a broker, in the annual surplus property report to the Legislature.

(2) Existing provisions of the State Building Construction Act of 1955 authorize the State Public Works Board to acquire or construct public buildings and to issue revenue bonds, negotiable notes, and negotiable bond anticipation notes to finance that construction. That act also permits the leasing of these public buildings by the board to the Department of General Services or any other state agency approved by the department.

This bill would authorize the Director of General Services to purchase, exchange, or otherwise acquire real property and construct facilities in the County of Sacramento, as specified, for the purpose of acquiring approximately 1,000,000 square feet of office and warehouse space for use by the Franchise Tax Board and other state agencies. This bill would require the acquisition of real property pursuant to these provisions to be made in accordance with specified provisions of existing law. This bill would condition the acquisition and operation of the facilities on the cost of that acquisition and operation being no greater than the cost of leasing and operating an equivalent amount of comparable office space, including the present facilities, as specified. This bill would authorize the Department of General Services to contract for the design, construction,

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

construction management, and other services related to the design and construction of the authorized office, warehouse, and parking facilities.

This bill would authorize the State Public Works Board to issue revenue bonds, negotiable notes, and negotiable bond anticipation notes pursuant to the State Building Construction Act of 1955 to finance the above acquisition and construction. This bill would specify that the authorized costs of the facilities, as described, shall not exceed $218,000,000.

This bill would, in the event the bonds authorized by the project are not sold, require the Franchise Tax Board to commit a sufficient portion of its support appropriation to repay any loans made by the Pooled Money Investment Account.

This bill would require the Director of General Services to notify the Chairperson of the Joint Legislative Budget Committee at least 45 days prior to entering into an agreement to acquire the specified facilities and would state the intent of the Legislature that the Joint Legislative Budget Committee should hold a hearing on this pending agreement.

Ch. 1153 (SB 1961) Committee on Judiciary. Courts.

(1) Existing law specifies the number, classification, and compensation of various superior and municipal court personnel in Contra Costa, El Dorado, Fresno, Imperial, Napa, San Diego, San Luis Obispo, Santa Barbara, Santa Clara, Tulare, and Yolo Counties.

This bill would impose a state-mandated local program by revising the number, classification, and compensation of various superior and municipal court personnel in Contra Costa, El Dorado, Fresno, Imperial, Napa, San Diego, San Luis Obispo, Santa Barbara, Santa Clara, Santa Cruz, Tulare, and Yolo Counties.

The bill would also make related and technical changes.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1154 (AB 3020) Bowler. Transportation.

(1) Existing law authorizes the executive director of the Public Utilities Commission to make an application to an appropriate superior court for the purpose of stopping or preventing, by means of mandamus, injunction, or impounding of vehicles, violations or threatened violations by household goods carriers of the law or the orders, decisions, rules, directions, or requirements of the commission.

Existing law authorizes the appointment of a receiver by the superior court at the request of the Public Utilities Commission when the commission determines that a water or sewer system corporation has, among other things, been abandoned by its owners.

Under existing law there is in the State Treasury a Transportation Rate Fund for purposes of, among other things, administering and enforcing the Household Goods Carriers Act.

This bill would require the commission to commence a proceeding in a prescribed superior court to seek relief by way of mandamus, injunction, or appointment of a receiver, whenever it determines that a household goods carrier has abandoned or is abandoning stored household goods or property of any shipper under contract with the carrier, or when the abandonment or threatened abandonment jeopardizes the property or funds of others in the custody or control of the carrier. The bill would authorize the superior court to appoint a receiver or commission staff to identify, take possession of, return, or otherwise preserve and protect the funds or property at issue. The bill would authorize the court to allow the commission to arrange for hiring the appointed receiver in accordance with certain requirements. The bill would require that fees for a receiver be paid from certain fees made available in the Transportation Rate Fund.

(2) Existing law makes specified provisions relating to state-owned motor vehicles inapplicable to members of the Department of the California Highway Patrol.

This bill would, additionally, make those provisions inapplicable to the Sergeant-at-Arms of each house of the Legislature, as specified.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(3) Existing law requires the development, adoption, and updating of a congestion management program for each county that includes an urbanized area. Existing law requires congestion management programs to be incorporated into the regional transportation improvement program by December 15 of each odd-numbered year.

The bill would impose a state-mandated local program by requiring regional transportation planning agencies to incorporate the congestion management programs prepared by county transportation commissions and transportation authorities, as specified, into a federally required congestion management system.

(4) Under existing law, a court order for the destruction of controlled substances, instruments, or paraphernalia may be carried out by a police or sheriff's department or by the Department of Justice.

This bill additionally would authorize the Department of the California Highway Patrol to carry out a court order for the destruction of these items.

(5) Existing law, which is to become operative only if specified conditions are met, establishes a pilot program consisting of requirements for odometer checks, annual smog checks, and reduction of target pollution miles, applicable in the San Diego County Air Pollution Control District and the Ventura County Air Pollution Control District. Existing law imposes various requirements on the State Air Resources Board, the Department of Consumer Affairs, and the Bureau of Automotive Repair relative to the pilot program.

This bill would repeal those provisions relating to that pilot program. The bill would also repeal provisions pertaining to the establishment and use of a vehicle smog index system.

This bill would also provide for the smog index for diesel fuel vehicles and would impose duties on the state board regarding that index.

(6) Existing law prohibits a charter party carrier of passengers, except as specified, to engage in specified transportation services without first having obtained a certificate of public convenience and necessity or a permit from the Public Utilities Commission. Existing law requires the commission, before issuing the certificate, to require the applicant to establish reasonable fitness and financial responsibility to initiate and conduct or continue to conduct the proposed or existing transportation services, including meeting specified requirements relating to hours of service, preventative maintenance, safety, and worker's compensation insurance.

This bill would authorize the commission to delegate to its executive director or that executive director's designee the authority to renew, or authorize the transfer of, charter party carrier permits or certificates and to make findings relating to the requirements specified above.

(7) Existing law requires that, whenever any airport for which payments have been made from the Aeronautics Account or any predecessor fund ceases to be used as an airport open to the general public for a period in excess of one year, the public entity to which those payments were made pay to the state an amount computed by the Controller, and those funds are required to be deposited in the Aeronautics Account.

This bill would require that the amount to be paid as specified above be computed by the Department of Transportation, instead of the Controller.

(8) Under existing law, contracts by the San Mateo County Transit District for the purchase of supplies, equipment, and materials in excess of $10,000 are to be awarded pursuant to a competitive bid procedure, except in a declared board emergency.

This bill would increase the dollar amount subject to the bid procedure to $25,000 and would authorize the board to delegate to the district general manager, the power to award a contract of up to $50,000.

(9) Existing law requires the Department of Transportation to take certain steps to reduce the use of water for freeway landscaping and to use recycled water for those purposes whenever possible. Existing law requires the department to report to the Legislature, as specified, regarding its compliance with these requirements.

This bill would delete that reporting requirement.

(10) Existing law requires the Department of Transportation to have developed a plan to identify projects on which construction can be started not later than June 30, 2000, which will provide the most adequate interregional road system to all economic centers

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

in the state. The projects are required to be on eligible routes identified under specified provisions of existing law.

This bill would change the locations of certain routes identified under the specified provisions.

(11) Existing law establishes the California Freeway and Expressway System and requires that it be composed of the highways specified in certain provisions of existing law.

This bill would make specified changes to the California Freeway and Expressway System.

(12) Existing law requires that the state highway system consist of the routes described in specified provisions of existing law.

This bill would make specified changes to the state highway system.

(13) Existing law requires that specified funds be used for the implementation, maintenance, and operation of a motorist aid system of call boxes, including the lease or lease-purchase of facilities and equipment for the system, on the portions of the California Freeway and Expressway System and a county expressway system, and on state highway routes that connect segments of these systems, which are located within the county in which a specified authority is established and over which the Department of the California Highway Patrol or an agency designated by that department has law enforcement responsibility. Existing law requires the department to answer calls and provide central dispatching services for the system.

This bill would, additionally, include unincorporated county roads in counties with a population of over 6,000,000 persons within that system of call boxes. The bill would require the department to answer calls and provide central dispatching services for the system for those roads.

(14) Existing law requires that whenever a notice is required to be given under the Vehicle Code by a department or any division, officer, or employee, that notice shall be given either by personal delivery to the person to be notified or by mailing the notice, postage prepaid, addressed to the person at the person's address as shown by the records of the Department of Motor Vehicles.

This bill would specify that the provision applies to instances when notice is required to be given by an agent of the department and that the notice may be given by certified mail, return receipt requested.

(15) Existing law exempts a vehicle from registration with the Department of Motor Vehicles if the vehicle is designed or altered for, and used exclusively for, the refueling of aircraft at a public airport and the vehicle is operated upon a highway under the control of a local authority for a continuous distance not exceeding $^1/_4$ mile each way to and from a bulk fuel storage facility.

This bill would increase the distance specified above to $^1/_2$ mile.

(16) Existing law authorizes the Department of Motor Vehicles to issue environmental license plates and a specified special environmental design license plate. The department is required to charge specified fees for specified services relating to those plates.

This bill would require the department to charge $65 for the conversion of an existing environmental license plate to the specified special environmental design license plate.

(17) Existing law requires that any person whose driving record shows a specified violation point count within a specified period to be prima facie presumed to be a negligent operator of a motor vehicle. For purposes of that provision, any conviction of a violation of specified provisions, relating to driving with a suspended or revoked license, is assigned a violation point count of 2.

This bill would, additionally, assign a violation point count of 2 to any conviction of a violation of a specified provision relating to driving a vehicle with a driver's license that has been administratively suspended or revoked by the Department of Motor Vehicles under specified provisions or driving in violation of restrictions imposed by the department under specified provisions.

(18) Existing law requires the Department of Motor Vehicles to provide, as specified, a duplicate driver's license or identification card to a person whose license or card has been lost, destroyed, or mutilated.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would require a person in possession of a valid driver's license or identification card who has been informed either by the department or by a law enforcement agency that the document is mutilated, as defined by the bill, to surrender the document to the department not later than 10 days after that notification.

(19) Existing law requires the driver of every motor vehicle who is in any manner involved in an accident originating from the operation of a motor vehicle on any street or highway that has resulted in damage to the property of any one person in excess of $500 or in bodily injury or in the death of any person to report the accident within 10 days after the accident, either personally or through an insurance agent, broker, or legal representative, on a form approved by the Department of Motor Vehicles to the office of the department at Sacramento.

Existing law requires the department to suspend the driving privilege of any person who fails, refuses, or neglects to make the specified report or when the person fails to prove the existence of financial responsibility, as defined, at the time of the accident.

This bill would specify that the department is not required to file the specified report or suspend the driving privilege as specified above if none of the parties involved in an accident has reported that accident to the department within one year following the date of the accident.

(20) Existing law requires that a driver involved in a reportable accident, as specified, establish proof of financial responsibility to the satisfaction of the department. Existing law authorizes that proof to be in the form of a certificate or certificates that meets specified requirements, including that it be from an insurance carrier duly authorized to do business within the state, in addition to other specified requirements.

Existing law requires the department to require that a person whose driver's license has been revoked, suspended, or restricted pursuant to specified provisions of the Vehicle Code provide, as proof of financial responsibility, a certificate or certificates that covers all motor vehicles registered to the person and meets the requirement specified above, before reinstatement of his or her driver's license.

This bill would authorize a resident of another state to provide proof of financial responsibility when required to do so under the Vehicle Code from a company authorized to do business in that person's state of residence, if that proof is satisfactory to the department, covers the operation of a vehicle in this state, and meets specified minimum coverage limit requirements.

The bill would prohibit the department from issuing or returning a driver's license to a nonresident who has established proof of financial responsibility as specified above and then returned to the state, until the person files a written certificate or certificates, as specified above, that meets the minimum coverage limit requirements specified above and covers the period during which the person is required to maintain proof of financial responsibility.

(21) Existing law requires that, upon the immediate approach of an authorized emergency vehicle that is sounding a siren and that has at least one lighted lamp exhibiting red light that is visible, under normal atmospheric conditions, from a distance of 1,000 feet to the front of the vehicle, the driver of every other vehicle yield the right-of-way and immediately drive to the right-hand edge or curb of the highway, clear of any intersection, and thereupon stop and remain stopped until the authorized emergency vehicle has passed.

This bill would require a person driving a vehicle in an exclusive or preferential use lane to exit that lane immediately upon determining that the exit can be accomplished with reasonable safety, upon the approach of an authorized emergency vehicle displaying a red light or siren, as specified.

(22) Existing law authorizes a law enforcement officer to use a preliminary alcohol screening test, as specified, only after the officer evaluates the totality of the circumstances, including a person's performance on field sobriety tests. The preliminary alcohol screening test is authorized to be used as a further investigative tool if a person refuses to take field sobriety tests or is incapable of taking the tests, unless the person refuses to take the preliminary alcohol screening test.

This bill would delete the conditions specified above for administering the preliminary alcohol screening test and would, instead, specify that the test is a field sobriety test that may be used by an officer as a further investigative tool.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(23) Existing law authorizes the display of a steady flashing blue warning light visible from the front, sides, or rear of an authorized emergency vehicle when used by designated peace officers.

This bill would authorize the display of those blue warning lights on an authorized emergency vehicle used by a railroad police officer, as specified.

(24) Existing law authorizes the Sergeant-at-Arms of each house of the Legislature to use specified flashing lights only when operating an authorized emergency vehicle under specified conditions, if the primary duty of the peace officer is the enforcement of the law in or about properties owned, operated, or administered by the employing agency or when performing duties with respect to patrons, employees, and properties of the employing agency.

This bill would repeal the provision imposing the specified conditions for using specified flashing lights in the operation of the authorized emergency vehicle by the Sergeant-at-Arms.

(25) Existing law authorizes vehicles owned and operated by private security agencies and utilized exclusively on specified privately owned and maintained roads to display flashing amber warning lights to the front, sides, or rear, while being operated in response to emergency calls for the immediate preservation of life or property.

This bill would authorize those vehicles to be equipped with a flashing amber warning light system while the vehicle is operated on a highway, if the vehicle is in compliance with a specified provision relating to special markings for police vehicles and the vehicle is distinctively marked in a specified manner.

The bill would prohibit the flashing amber warning light system specified above from being activated while the vehicle is on the highway, unless otherwise directed by a peace officer, as defined. Because a violation of this provision would be an infraction, the bill would impose a state-mandated local program by creating a new crime.

The bill would authorize a peace officer to order that the flashing amber warning light system of a vehicle that is found to be in violation of these provisions to be immediately removed at the place of business of the vehicle's owner or a garage.

The bill would prohibit a flashing amber warning light system from being installed on a vehicle that has been found to be in violation of these provisions, unless written authorization is obtained from the Commissioner of the California Highway Patrol. Because a violation of this provision would be an infraction, the bill would impose a state-mandated local program by creating a new crime.

The bill would authorize the vehicle to be removed from the highway when a peace officer issues a notice to appear for a violation of these provisions.

(26) Existing law requires that a person convicted of being under the influence of drugs or alcohol, or under the combined influence of those, while driving a vehicle and concurrently doing any act forbidden by law that proximately causes bodily injury to any person other than the driver be punished by specified terms of imprisonment in the state prison and by specified fines if the offense occurred within 7 years of 2 or more separate violations of specified provisions prohibiting driving while under the influence of alcohol or drugs, or both alcohol and drugs. Existing law requires the court to order a person punished by imprisonment in the state prison under that provision to participate in an alcohol or drug program that is available at the prison during the person's confinement.

Existing law requires that the driving privileges of a person punished as specified above be revoked for 5 years and not reinstated until, among other things, the person gives proof satisfactory to the Department of Motor Vehicles of successful completion of a drug or alcohol program licensed under a specified provision of the Health and Safety Code, or a program specified in a specified provision of the Penal Code.

This bill would specify that participation in an alcohol or drug program under the punishment provision specified above does not meet the program completion requirement specified above, unless the drug or alcohol program is licensed as specified above or is specified in the Penal Code as specified above.

(27) Under existing law, it is unlawful to refuse to pay tolls or other charges on any vehicular crossing or toll highway. Existing law provides that it is prima facie evidence of a violation of this prohibition for any person to enter upon any vehicular crossing without either lawful money or an Automatic Vehicle Identification account with a sufficient balance.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would expand this provision to include toll highways within the provision and would include a transponder or other electronic toll payment device associated with a valid Automatic Vehicle Identification account within the scope of the provision. The bill would require transponders or other electronic toll payment devices to be located, as specified. To the extent that these provisions would expand the scope of an existing crime, the bill would impose a state-mandated local program.

(28) Existing law prohibits any person from driving a motor vehicle with any object or material placed, displayed, installed, affixed, or applied upon the windshield or side or rear windows, except as specified.

This bill would exempt from that provision electronic communication devices that provide the capability for enforcement facilities of the Department of the California Highway Patrol to communicate with the vehicle, or for electronic toll and traffic management on public or private roads or facilities, if the device is affixed to the upper-most center portion of the interior of the windshield within an area of not more than 5 inches by 5 inches.

(29) Existing law prohibits any person from operating a private passenger motor vehicle on a highway unless that person and all passengers 16 years of age or over are properly restrained by a safety belt. Existing law provides that this provision is not applicable to a peace officer, as defined, when in an authorized emergency vehicle as defined, or to any passenger in any seat behind the front seat of an authorized emergency vehicle operated by the peace officer, unless required by the agency employing the peace officer.

The bill would, instead, provide that the provision is not applicable to a public employee, under the circumstances specified above.

(30) Under existing law, every car rental agency is required to inform each of its customers of information regarding child restraint systems which information is required to be posted.

This bill would revise the contents of the posted information to conform to existing statutory requirements regarding child restraint systems.

(31) Existing law requires the Department of the California Highway Patrol to inspect at least every 25 months every terminal of any motor carrier who operates specified commercial motor vehicles. The department is authorized to award a specified certificate and conduct an administrative review in lieu of the next required inspection when the terminal has been assigned 2 or more consecutive satisfactory compliance ratings under the 25-month inspections. Ocean marine terminals, as defined, are authorized to conduct an intermodal roadability inspection program, as described, in lieu of a required 90-day safety inspection if the terminal has been assigned 2 or more consecutive satisfactory compliance ratings under the 25-month inspection specified above.

This bill would prohibit the award of the certificate specified above and the in-lieu inspections specified above if the terminal has received an unsatisfactory compliance rating as a result of any inspection conducted in the interim between the 2 consecutive 25-month inspections specified above.

(32) Existing law prohibits the gross weight upon any one wheel, or wheels, supporting one end of an axle from exceeding 10,500 pounds, except that the gross weight imposed upon the highway by the wheels on any front steering axle of a motor vehicle shall not exceed 12,500 pounds. Existing law exempts specified vehicles from the front axle weight limit.

This bill would delete the front steering axle's 12,500 pound limit, would delete the exemptions from that limit, and would establish a maximum wheel load limit as the lesser of the road load limit established by the tire manufacturer, as specified, or 620 pounds per lateral inch of tire width, as prescribed, for all axles, except for the steering axle. To the extent that this latter provision would create a new crime, the bill would impose a state-mandated local program.

(33) Under existing law, if a vehicle has evaded tolls on any toll road or bridge, among other things, the notice of toll evasion violation is required to include fixing the time and place for appearance by the registered owner, the lessee, or the renter to answer the notice.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would delete the requirement that the notice contain the specified information regarding fixing the time and place for appearance.

(34) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(35) This bill would incorporate additional changes as follows: (a) in Section 564 of the Code of Civil Procedure, proposed by SB 947, (b) in Sections 16056 and 16431 of the Vehicle Code, proposed by SB 1129, (c) in Section 22651 of the Vehicle Code, proposed by AB 3157 or AB 2288, or both, and (d) in Section 34501.12 of the Vehicle Code, proposed by AB 1675, to be operative only if the other bills are also enacted and this bill is enacted last.

(36) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1155 (SB 1587) Committee on Transportation. Transportation: vehicles.

(1) Existing law, which is to become operative only if specified conditions are met, establishes a pilot program consisting of requirements for odometer checks, annual smog checks, and reduction of target pollution miles, applicable in the San Diego County Air Pollution Control District and the Ventura County Air Pollution Control District. Existing law imposes various requirements on, among others, the State Air Resources Board, relative to the pilot program as to the determination and use of a vehicle smog index.

This bill would provide for the smog index for diesel fuel vehicles and would impose duties on the state board regarding that index.

(2) Existing law regulates registration service including businesses engaging in the business of soliciting or receiving an application for a driver's license.

This bill would delete soliciting or receiving an application for a driver's license from the above regulated businesses.

(3) Existing law requires a dealer or lessor-retailer who violates specified provisions relating to reports of vehicle sales and applications for transfer of vehicle registration to pay specified administrative service fees to the Department of Motor Vehicles for each violation.

This bill would make technical, clarifying changes in those provisions of existing law.

(4) Existing law authorizes the department to refuse to issue a license to, or suspend, revoke, or cancel the license of, a person to act as a registration service for any of specified reasons, including that the person has knowingly or negligently committed or was responsible for any violation, cause for license refusal, or cause for discipline, under specified provisions relating to making false statements to the department, registration of vehicles, registration and transfer of vessels, stolen vehicles or vessels, and occupational licensing and business regulations.

This bill would include violation of any rules or regulations adopted under the provisions specified above as grounds for refusal to issue a license or for license suspension, revocation, or cancellation.

(5) Existing law prohibits a parent or legal guardian, when present in a passenger vehicle or motortruck, from permitting his or her child or ward who is 4 years of age or older but less than 16 years of age and weighing more than 40 pounds to be transported upon a highway in the motor vehicle without providing and properly using, for each child or ward, a child passenger restraint system meeting applicable federal motor vehicle safety standards. Existing law also prohibits the driver of a passenger vehicle or motortruck from transporting a child under those circumstances. A violation of those provisions of existing law is a crime.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would recast this provision to apply to the children or wards described above when the children or wards are 40 pounds or more. To the extent that this bill would expand the scope of an existing crime, this bill would impose a state-mandated local program.

(6) Under existing law, the Department of Motor Vehicles is required to suspend the driver's license of any driver involved in an accident if the driver does not prove the existence of financial responsibility, as specified.

This bill would require the department to terminate such a suspension action if the driver's failure to prove financial responsibility was due to the fraudulent acts of an insurance agent or broker, documented as specified, and the driver furnishes proof to the department that financial responsibility is currently in effect.

(7) Existing law authorizes a peace officer with specified training in the investigation of traffic accidents to prepare, on a form approved by the Judicial Council, a written notice to appear when the peace officer has reasonable cause to believe that any person involved in a traffic accident has committed a specified violation and the violation was a factor in the occurrence of the traffic accident.

This bill would require a written notice to appear prepared on a form approved by the Judicial Council and issued pursuant to that provision to be accepted by any court.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(9) This bill would incorporate additional changes to Section 44251 of the Health and Safety Code, proposed by AB 3020, to be operative only if AB 3020 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

(10) This bill would incorporate additional changes to Section 4456.1 of the Vehicle Code, proposed by AB 2286, to be operative only if AB 2286 and this bill are both chaptered and become effective on or before January 1, 1997, and this bill is chaptered last.

Ch. 1156 (AB 3157) Martinez. Vehicles: records: parking violations.

(1) Under existing law, local authorities are authorized to provide by ordinance or resolution for restricted, permit parking between the hours of 2 a.m. and 6 a.m. for handicapped persons and residents in high-density, multiple-family areas or similar areas lacking adequate off-street parking facilities.

This bill would include guests of residents within the category of persons included within the restricted, permit group and would delete reference to high-density, multiple-family dwelling areas, thereby authorizing the application of the ordinances to any areas lacking adequate off-street parking facilities.

(2) Existing law authorizes peace officers and certain regularly employed and salaried employees engaged in traffic control matters of local agencies to remove vehicles under specified circumstances.

This bill would authorize regularly employed and salaried employees of state agencies with the same employment responsibilities described above to also remove vehicles under the same circumstances. The bill would also make a technical clarifying change in this provision.

(3) Under existing law, one of the circumstances under which a vehicle may be removed pursuant to the authority described in (2) above is when the vehicle is found upon a highway or public land and is known to have been issued 5 or more notices of parking violations that are delinquent.

This bill would make clarifying changes in those provisions.

(4) Existing law authorizes local agencies to adopt an ordinance or resolution establishing procedures for the release of properly impounded vehicles and for the imposition of a charge equal to its administrative costs relating to the removal, impoundment, storage, or release of the vehicles subject to waiver.

This bill would also authorize state agencies to adopt, by regulation, procedures for the release of properly impounded vehicles.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(5) Existing law provides for the issuance of notices of parking violation and describes their contents, including a statement indicating that payment is required to be made not later than 21 calendar days from the date of the violation. Existing law allows the issuing officer, in the interest of justice, to cancel the notice of parking violation.

This bill would recast the described statement by requiring it to state that the date of payment is 21 calendar days from the date of citation issuance rather than the date of the violation. To the extent that local agencies would be required to revise notices of parking violations, the bill would create a state-mandated local program. The bill would also allow the issuing agency to cancel the notice of parking violation in the interest of justice.

(6) Existing law requires a copy of a corrected notice of parking violation to be mailed to the person receiving the notice of parking violation.

This bill would instead require the copy of the corrected notice of parking violation to be mailed to the registered owner of the vehicle.

(7) This bill would revise notices of delinquent parking violations and related procedures to conform to other provisions of law.

(8) This bill would incorporate additional changes in Section 22651 of the Vehicle Code, proposed by SB 1797 and AB 3020, to be operative only if either SB 1797 or AB 3020 and this bill are enacted and become effective on or before January 1, 1997, and this bill is enacted last. The bill would also incorporate additional changes in Section 22651 of the Vehicle Code, proposed by SB 1797 and AB 3020, to be operative only if both of those bills and this bill are enacted and become effective on or before January 1, 1997, and this bill is enacted last.

(9) This bill would incorporate additional changes in Section 22850.5 of the Vehicle Code, proposed by SB 1797, to be operative only if SB 1797 and this bill are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1157 (SB 1682) Johnston. Employment development: disability insurance refunds.

Existing law requires workers to make contributions to the Disability Fund for unemployment compensation disability insurance. The amount of contribution is a percentage of wages, subject to a maximum amount of wages for which the contribution is imposed. Under existing law, if an employee makes an overpayment of this contribution, the employee is entitled to a refund, which is payable from the continuously appropriated Disability Fund.

This bill would require the Director of Employment Development, in collaboration with the Franchise Tax Board, to identify taxpayers who have overpaid disability insurance contributions in any or all tax years from January 1, 1993, to December 31, 1995, inclusive, and have not received refunds due to them, and by October 15, 1997, to credit those taxpayers with the amount of any overpaid disability insurance, as specified, with interest. This bill would also require the director, beginning with the 1996 tax year, to continue to identify and refund overpayments, with interest, to those taxpayers who have overpaid disability insurance contributions, and who have not received refunds due to them. These refunds would be in the form of direct payments from the Disability Fund, as specified. Since the refunds and administrative costs would be payable from the continuously appropriated Disability Fund, the bill would result in an appropriation.

Existing law provides that in specified circumstances where an employee receives wages from more than one employer during a calendar year, and that employee is entitled to a refund or credit for excessive contributions, no interest shall be allowed or paid with respect to that refund or credit.

This bill would delete the prohibition against payment of interest in the above circumstances.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 1158 (AB 2964) Firestone. Schools.

(1) Existing law permits, as specified, classes or schools for prisoners in specified community facilities.

This bill would include a community-based correction program.

(2) Existing law provides revenue limits for juvenile court school programs, and provides for excess funds to be used for an inflation adjustment with the funds being allocated in a uniform amount per unit of average daily attendance for each school receiving a revenue limit increase as specified.

This bill would require the uniform amount per unit of average daily attendance be reduced as necessary with the savings being used to ensure that juvenile court schools that do not receive a revenue limit increase receive a specified funding level per unit of average daily attendance.

(3) Existing law would permit the Department of Education to sell various publications of the department at a price approved by the Department of General Services.

This bill would clarify that the State Department of Education has the authority to sell any materials related to the department's scope and duties and to fix the price without the approval of the Department of General Services.

(4) Existing law establishes procedures that are required before a governing board of a school district can acquire title to property for a new school when the property is located within a specified distance to an airport runway or potential runway.

This bill would make a technical change, to correct a cross-reference in that law.

(5) Existing law provides that school districts receive matching funds for deferred maintenance based on the district's prior fiscal year budget, as specified.

This bill would base the funding for deferred maintenance, as specified, on the fiscal year immediately prior to the prior fiscal year of a school district, and make technical changes.

(6) Existing law provides a formula for the Superintendent of Public Instruction to allocate excess funds, as specified, for home-to-school transportation but prohibits a school district from receiving this funding if the walking distances in the school district are less than specified minimum walking distances. Existing law includes, in determining the allocation of excess funds, a factor for pupils who receive free school lunches, and permits a high school to substitute for this factor the number of pupils enrolled in the school district and who receive assistance from the Aid to Families with Dependent Children program.

This bill would also authorize necessary small school districts to use the above substitute for the pupils who receive free school lunches. The bill would authorize the Superintendent of Public Instruction to waive the minimum walking distance requirement if it is certified, as specified, that the walking distances create a safety hazard for pupils. The bill would also make changes in the formula to redefine, as specified, amounts to be excluded from transportation allowances allocated in the prior fiscal year, and would specify how allowances are to be calculated for school districts providing transportation within a joint powers authority. This bill would also make technical changes in the definition of "approved costs of home-school transportation."

(7) Existing law establishes the County Office Fiscal Crisis and Management Assistance Team that is governed by an 11-member governing board.

This bill would expand the number of members of the governing board, as specified.

(8) Existing law requires school districts and county offices of education to publicly disclose the estimated accrued but unfunded costs of health and welfare benefits for retired employees and workers' compensation claims for self-insured districts.

This bill would require the disclosure of the above estimated accrued but unfunded cost to include the costs incurred by a school district or county office of education as a member of a joint powers agency.

(9) Existing law provides for the establishment of community day schools, and provides for funds to be apportioned, as specified. Existing law requires in calculating the average daily attendance of a community day school for purposes of the funding, a school district use a divisor of 180 even if the community day school has a school year in excess of 180 days.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would repeal the requirement of using 180 days as the divisor, and provides for divisors, as specified.

(10) Existing law specifies that money in the Adult Education Fund can be expended for indirect costs, as defined.

This bill would limit to high school and unified school districts the statewide average indirect cost rate used in that definition.

(11) Existing law establishes various categorical programs that may be eligible for state and federal categorical funding. The various categorical programs require school districts to meet certain requirements and perform certain duties as a condition to receiving funds. The categorical program funds are required to be expended for specifically designated purposes.

Assembly Bill 2769 of the 1995–96 Regular Session would establish the Categorical Program Funding Restructuring Act of 1996 under which the Superintendent of Public Instruction would allocate Educational Quality Improvement Grants-Part A and Part B to eligible school districts.

This bill would require the Superintendent of Public Instruction to compute an equalization adjustment to the Educational Quality Improvement Grants-Part A and Part B and repeal similar provisions in the Categorical Program Funding Restructuring Act of 1966 that require that adjustment.

(12) Existing law provides for the Golden State Examination program.

This bill would permit the Superintendent of Public Instruction to make the Golden State Examination available to any private school that requests it, for a fee to reimburse the state for all costs, as specified.

(13) The Budget Act of 1994 appropriated a specified amount from the General Fund to the Superintendent of Public Instruction for allocation for designated apprenticeship education programs for the 1994–95 fiscal year.

This bill would reappropriate the unencumbered balance of the 1994–95 appropriation to the Superintendent for allocation to reimburse school districts for disbursements, which have not been reimbursed by the superintendent, made to the designated apprenticeship education programs for the 1989–90 and 1990–91 fiscal years.

(14) Existing law appropriates funds from the General Fund for transfer to Section A of the State School Fund for allocation to school districts and county offices of education on the basis of an equal amount per unit of average daily attendance, as specified, to be used for instructional materials, library resources, deferred maintenance, education technology, or any other nonrecurring costs.

This bill would make a technical change to correct a cross-reference in that law, and include in calculating the allocation the average daily attendance which results in apportionments of state aid to county superintendents of schools, as specified.

(15) Existing law in the Budget Act of 1995–96 appropriates specified funds from the General Fund for transfer to Section A of the State School Fund for child nutrition programs.

This bill would appropriate $1,275,000 from the General Fund to Section A of the State School Fund to provide funding for the deficiency in the 1995–96 fiscal year for the child nutrition program. The bill would require that appropriation to be included in the amounts appropriated by the state for the 1994–95 fiscal year for the purpose of meeting the state's minimum funding obligation under Section 8 for that fiscal year.

(16) Existing law appropriates specified funds from the General Fund to the School Safety Account in the General Fund.

This bill would correct a technical error in that law.

(17) Existing provisions of the Budget Act of 1996 affirm the current practice by the State Department of Education that program advisories are reviewed and approved by the State Board of Education before they are issued or disseminated.

This bill would clarify those provisions.

(18) Existing law in 2 items of the Budget Act of 1996 appropriates funds from the General Fund to Section A of the State School Fund for allocation to the "mega-item funding" for growth and cost-of-living allowances.

This bill would make specified procedural and date changes in the 2 specified items of the Budget Act of 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(19) Under existing law, if there is a change in the boundaries of a district within a city, as specified, the tax or assessment levying authority of the city or district shall file or cause to be filed a statement of the creation or change, or of the exterior boundaries of the district. The city or district shall prepare the statement and forward it to the tax or assessment levying authority for filing. Existing law also provides that on or before December 1 of the year immediately preceding the year in which the assessments or taxes are to be levied, the statement shall be filed with the auditor of each levying county, and the statement and the map or plat shall be filed with each assessor whose roll is used for the levy and with the State Board of Equalization in Sacramento.

This bill would provide that notwithstanding these provisions any change of boundaries of a union school district or formation of a unified school district, as specified, as the result of a unification election held on June 6, 1995, shall be effective for assessment and taxation purposes for the 1996-97 fiscal year if the required statements and map or plat are filed with and processed by the State Board of Equalization and transmitted to the Monterey County Auditor's office no later than the end of the business day on August 30, 1996.

Existing law governing the reorganization of school districts provides that an action to reorganize districts is complete when the board of supervisors makes the order to create, change, or terminate school districts and establishes or reestablishes the boundaries of the districts affected by the action. Existing law requires that the order be entered in the county's record of school districts.

This bill would provide that in the creation of any unified school district or in a unified school district whose boundaries are changed, the changes shall be effective for all purposes in connection with the issuance of bonds of the resulting unified school district as of July 1, 1996, and all acts and proceedings taken by the governing board of the unified school district or by the board of supervisors of the county in which the unified school district is located, or by any person, public officer, board, or agency on behalf of either the governing board of the school district or the board of supervisors, under any law, or under color of any law, for, or in connection with, the authorization, issuance, sale, execution, delivery, or exchange of bonds of the unified school district, are hereby authorized, confirmed, validated, and declared legally effective.

(20) This bill would make various technical changes to correct cross-references in various provisions of law.

(21) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1159 (AB 3471) Committee on Judiciary. Courts.

(1) Existing law prescribes the jurisdiction and procedures for small claims court, as specified.

This bill would revise small claims court provisions governing destruction of records; claims of a defendant; challenge to venue; transfers of actions; postponements; judgments involving specific property, and apportionment of filing fees, as specified.

(2) Existing law requires a claimant in certain civil actions to notify all owners of record of real property as shown by the latest county assessment roll or more recent assessment information in the possession of the county assessor.

This bill would remove the latter requirement with respect to more recent assessment information in the possession of the county assessor.

(3) Existing law with respect to attachment provides for the levying officer to place a keeper in charge of a going business, who is required to take custody of the proceeds of all sales. The levying officer is required to take tangible personal property into exclusive custody, as specified.

This bill would require the levying officer to take custody of any money or equivalent proceeds of the sale of a going business at the end of each daily keeper period.

(4) Existing law makes a medical provider liable for specified expenses if he or she fails to make patient records available to a representative of the patient, as specified.

This bill would also require such a medical provider to respond to an order to show cause with respect to that failure.

(5) Existing law specifies the manner by which trial court records may be preserved, and the period of time during which these records may not be destroyed. In general, the records in a civil case or a small claims case may not be destroyed for at least 10 years after

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

final disposition of the case. Existing law creates numerous exceptions to this provision, however. The records in a mental health case brought pursuant to the Lanterman-Petris-Short Act, for example, may not be destroyed for 30 years. In addition, existing law permits the trial court clerk to destroy the records in a civil case that has either been involuntarily dismissed by a court or voluntarily dismissed by a party without entry of judgment after only one year.

Existing law also provides that court records consist of specified papers and documents, including administrative records and exhibits.

This bill would revise, recast, and clarify these provisions. The bill would specify that court records include administrative records filed in an action or proceeding and paper exhibits. The bill would expand the exception permitting the destruction of records in a civil case that has been dismissed, to apply to small claims cases.

The bill would also provide that the records in a mental health case brought pursuant to the Lanterman Developmental Disabilities Services Act may not be destroyed for 30 years. By increasing the duties of local court employees, the bill would create a state-mandated local program.

(6) Existing law with respect to trial court delay reduction specifies the provisions governing discovery proceedings in civil actions to which it applies.

This bill would specify that local rules of court may not shorten the time periods set forth in those provisions.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1160 (SB 238) Haynes. Deferred compensation plans: notices to employees.

Under existing federal and state laws, employees may elect to defer certain compensation, and the taxation of that compensation, and may provide for the investment of that deferred compensation through deferred compensation plans.

This bill would require any public or private employer that offers its employees an employer-managed deferred compensation plan to provide, prior to an employee's enrollment in the plan, written notice of the reasonably foreseeable financial risks accompanying participation in the plan, historical information as to the performance of the investments or funds available under the plan, and documentation of the employer's financial condition, as specified. The bill also would require an employer who directly manages the investments of a deferred compensation plan, within 30 days after the end of each quarter of the calendar year, to provide to each enrolled employee a written report summarizing the employer's current financial condition, summarizing the financial performance of the investments or funds available under the plan, and describing the actual performance of the employee's funds that are invested in the plan. The bill would permit the employer to designate a plan manager for the purpose of meeting these requirements.

The bill would provide that, if an employee's deferred compensation plan is self-directed through a financial institution, the requirements of this bill shall be deemed to have been met.

Ch. 1161 (SB 1954) Mello. Local government finance.

(1) Existing law requires counties to distribute various fines, fees, forfeitures, and penalties according to prescribed schedules in each fiscal year.

This bill would provide for the validation of the distributions of fines, fees, forfeitures, and penalties made by the County of Santa Cruz in the 1990–91 to 1994–95 fiscal years, inclusive, as specified.

(2) Under the Mello-Roos Community Facilities Act of 1982, a tax imposed under the act is declared to be a special tax that may be on or based on a benefit received by parcels of real property, the cost of making facilities or services available to each parcel, or some

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

other reasonable basis as determined by a legislative body. The act specifies that a special tax apportioned on any of these bases shall not be construed to be on or based upon the ownership of real property.

This bill would delete this specification.

(3) Under the act, the legislative body of a community facilities district may levy special taxes and incur bonded indebtedness under specified conditions.

This bill would provide that all revenues collected by the district pursuant to these authorizations shall be deposited in a designated account or invested, as specified.

Ch. 1162 (SB 1669) Costa. Public employees: health benefits.

The Public Employees' Medical and Hospital Care Act authorizes the California Association of Highway Patrolmen to offer a health benefit plan.

This bill would require 5 years of coverage in that plan as an active employee in order to participate after retirement, except as specified. In addition, the bill would set forth health benefit plan eligibility requirements for specified annuitants and specified former members of the California State Police.

The provision would only be applicable to persons first employed on and after January 1, 1994.

Ch. 1163 (SB 509) Calderon. Spousal support.

Under existing law, in a judgment of dissolution of marriage or legal separation of the parties, the court is authorized to order a party to pay spousal support, as the court determines is just and reasonable, based on the standard of living established during the marriage and taking into consideration specified circumstances.

This bill would require the court to consider additional specified circumstances in ordering spousal support, including the goal that the supported party shall be self-supporting within a reasonable period of time, as provided. The bill would also require a court to give the parties a specified admonition regarding these provisions when making an order for spousal support, except as specified.

Ch. 1164 (AB 2400) Miller. Public employees: local retirement systems.

(1) Existing law provides that classified school employees are members of the Public Employee's Retirement System and authorizes local agencies, including school districts, to establish pension trusts for the benefit of their officers and employees.

This bill would provide that represented part-time school and public agency employees may participate in an alternate retirement plan established as a pension trust in accordance with a memorandum of understanding and that the eligibility of unrepresented part-time employees to participate in the alternate retirement plan would be determined by the employer.

(2) The Public Employees' Retirement Law authorizes contracting agencies and the retirement board to agree to exclusions of groups of employees from contracts for system coverage.

This bill would provide that those contracts could not provide for exclusion of some, but not all, firefighters, police officers, or county peace officers and would make a statement of legislative intent.

Ch. 1165 (AB 3032) Burton. School employees: retirement.

The State Teachers' Retirement Law provides disability and family benefits for dependent unmarried children who are under 18 years of age and dependent unmarried children who are under 22 years of age and full-time students, as defined.

This bill would provide disability and family benefits for all dependent unmarried children up to the attainment of 22 years of age and would define the terms "child's portion" and "children's portion" for purposes of benefits. Those provisions would be repealed on January 1, 2002.

The State Teachers' Retirement Law defines the terms "compensation" and "salary" for purposes of determining benefits and contributions and provides that employer and member contribution rates are based upon members' compensation and salaries.

This bill would repeal that provision and would instead define the terms "creditable compensation" and "final compensation" for purposes of determining benefits and

---

NOTE: Superior numbers appear as a separate section at the end of the digests.

contributions. The bill would provide that any employer or person who knowingly or willfully reports compensation and salary inconsistent with the provisions of the bill would be required to reimburse the system for any overpayments. The bill would make technical changes in other provisions.

Ch. 1166 (SB 1849) Kelley. Crimes: tobacco products: minors: penalty.

Under existing law, every person under the age of 18 years who purchases or receives any tobacco product or any paraphernalia that is designed for use with tobacco products or any controlled substance shall be punished upon conviction by a fine of $50 or 25 hours of community service work.

This bill instead would provide that every person under the age of 18 years who purchases, receives, or possesses any tobacco product or any such paraphernalia shall be punished upon conviction by a fine of $75 or 30 hours of community service work. By expanding the scope of, and increasing the penalty for, a crime, the bill would impose a state-mandated local program.

This bill would incorporate some of the changes in Section 308 of the Penal Code proposed by AB 2188, to be operative only if AB 2188 and this bill are both enacted and become effective on or before January 1, 1997, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1167 (SB 1667) Wright. Mental health care. [6]

Existing law, the Children's Mental Health Services Act, provides for the provision of mental health services on a collaborative basis through a comprehensive interagency system of care by counties that are approved by the State Department of Mental Health.

Existing law requires the department to issue a request for proposal from counties no later than February 1 of each year for participation in the program.

This bill would require the department to issue a request for proposals from counties in each year that additional funds are provided for expansion of the program.

Existing law provides that final selection of county proposals for participation in the children's mental health program shall be made after July 1 of each year, based on the amount of funding available, and requires the State Department of Mental Health to enter into annual performance contracts with the selected counties.

This bill would delete those requirements, and instead, would only require that the final selection of county proposals shall be subject to the amount of funding approved for expansion of services under the Children's Mental Health Services program, without reference to the date on which final selection of counties shall be made, and would require the department to enter into training and consultation contracts as necessary to fulfill its statutory obligations under the Children's Mental Health Services Act. The bill would, for the purposes of the bill, reappropriate $7,125,000 from funds appropriated pursuant to the Budget Act of 1996 and appropriate specified amounts from the General Fund in augmentation of the Budget Acts of 1997 and 1998.

Existing law requires the State Department of Mental Health to provide counties participating pursuant to the Children's Mental Health Services Act with training and technical assistance for county applicants.

This bill would specify that the department shall provide that assistance either directly or through contract.

Existing law requires the State Department of Mental Health to establish an advisory group, to be comprised of specified entities, to advise and assist the department and counties in the development of a coordinated, comprehensive children's service system and requires the group to submit recommendations to the Director of Mental Health regarding the selection of participating counties.

This bill would revise the composition of the group, and would delete the requirement that the group submit recommendations to the Director of Mental Health regarding the selection of participating counties.

The bill would declare that it is to take effect immediately as an urgency statute.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 1168 (AB 33) Alpert. Vehicles: driver's licenses.

Existing law provides that the Department of Motor Vehicles shall not issue an original driver's license or identification card to an applicant without satisfactory proof that the applicant's presence in the United States is authorized under federal law.

This bill would prohibit the department from issuing an original driver's license or identification card, or a renewal, duplicate, or replacement of a driver's license or identification card to any person for whom the department has received notice from the United States Immigration and Naturalization Service that the person has been determined and found by the United States Immigration and Naturalization Service to be a deported alien under a specified provision of federal law. The bill would require the department to cancel any driver's license or identification card issued to any person so identified and would provide specified procedures relating to the cancellation.

The bill would require the department to require an applicant for a driver's license whose license was canceled under the provision specified above to submit satisfactory proof that the applicant's presence in the United States is authorized under federal law.

These provisions would become operative on, and apply only to persons determined and found to be a deported alien after, July 1, 1997.

Ch. 1169 (AB 1991) Granlund. Property taxation: possessory interests: exemption.

Existing property tax law defines a possessory interest in property that is subject to tax. Existing law defines a taxable possessory interest to mean the possession of, claim to, or right to the possession of land or improvements that is independent, durable, and exclusive of rights held by others in the property, as specified. Existing law defines the term "independent" for purposes of this provision.

This bill would provide that the possession of, claim to, or right to the possession of, land or improvements pursuant to a lease is not independent, for purposes of that provision, under certain conditions.

Existing property tax law exempts from tax any real property, including a possessory interest, that is reasonably and necessarily required for the parking of automobiles by persons engaged in religious activities. Existing law requires, as a condition of receiving this exemption, that the real property in question be owned by the religious organization utilizing that property for parking purposes, and not at other times be used for commercial purposes.

This bill would expand this exemption to apply to land and improvements regardless of whether the fee interest in the land and improvements is held by the religious organization using the land and improvements for parking purposes, provided certain conditions are met. This bill would also revise and recast the exemption to make technical, nonsubstantive changes.

This bill would take effect immediately as a tax levy.

Ch. 1170 (SB 1457) Kopp. Grand jury reports: responses.

(1) Existing law requires the governing body of a public agency subject to the reviewing authority of the grand jury, and every elective county officer or agency head for which the grand jury has responsibility, to comment with respect to the findings and recommendations contained in the final grand jury report pertinent to that agency or officer, as specified.

This bill would set forth in detail the nature of the comments required, the matter to be included, and the timeframe for further response, where warranted. The bill would authorize a grand jury to request a subject person or entity to come before the grand jury for the purpose of reading and discussing the findings of the grand jury report that relates to that person or entity in order to verify the accuracy of the findings prior to their release, would require a grand jury to provide to the affected person or entity a copy of the portion of the grand jury report relating to that person or entity 2 working days prior to its public release and after the approval of the supervising judge, and would prohibit disclosure of the report prior to the public release of the final report.

By imposing new duties on local officials, the bill would create a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1171 (SB 2033) Costa. San Joaquin River Conservancy: governing board: members: terms.

Existing law, the San Joaquin River Conservancy Act, establishes the San Joaquin River Conservancy in the Resources Agency for the purpose of acquiring and managing public lands within the San Joaquin River Parkway, as defined, and prescribes the powers and duties of the conservancy.

The act requires that the governing board of the conservancy consist of 7 voting members and 6 ex officio, nonvoting members, as prescribed.

This bill would increase to 9 the number of voting members, and decrease to 4 the number of ex officio, nonvoting members of the governing board of the conservancy, as specified, and would prescribe procedures for the appointment of alternate members.

The act requires members of the governing board to serve for staggered 4-year terms.

This bill would eliminate the requirement that the 4-year terms of the members of the governing board of the conservancy be staggered.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF STATUTE ENACTED IN 1996

1995–96 FIRST EXTRAORDINARY SESSION

First Extraordinary Session

First Extraordinary Session

BILL CHAPTER

Ch. 11 (SB 12) Johannessen. Streambed alterations.

Existing law makes it a misdemeanor for any person to substantially divert or obstruct the natural flow or substantially change the bed, channel, or bank of any river, stream, or lake designated by the Department of Fish and Game, or to use any material from the streambeds, without first notifying the department of that activity and until the department has found it will not substantially adversely affect an existing fish or wildlife resource or until the department's proposals, or the decisions of a panel of arbitrators, have been incorporated into the project or activity. Existing law imposes similar requirements on state and local governmental agencies and public utilities except that the diversion, obstruction, or change is not required to be substantial. Under existing law, those provisions do not apply to emergency work necessary to protect life or property.

This bill would authorize the department to enter into agreements with applicants for a term of not more than 5 years for the performance of activities and operations subject to these provisions, as specified, and to renegotiate those agreements upon mutual consent of the parties. The bill would authorize the department to charge an unspecified fee for entry or renewal of an agreement and a processing fee, as specified. The bill would prohibit conditioning streambed alteration agreements on receipt of another state or federal permit.

The bill would require the department to provide applicants for the agreements with specified information.

Existing law authorizes the Fish and Game Commission to establish the amount of any unspecified fees in an amount sufficient to pay the department's costs for the entitlements in the bill, which fees are required to be deposited in the Fish and Game Preservation Fund, a continuously appropriated fund.

By authorizing the department to charge fees for specified services performed, the bill would provide for an increase in the funds deposited in a continuously appropriated fund, and would, therefore, make an appropriation.

NOTE: Superior numbers appear as a separate section at the end of the digests.

1995–96 SECOND EXTRAORDINARY SESSION

Second Extraordinary Session

BILL CHAPTERS

None.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF STATUTE ENACTED IN 1996

1995–96 THIRD EXTRAORDINARY SESSION

Thrid Extraordinary Session

BILL CHAPTER

Ch. 1 (SB 1) Mello. Economic poisons: methyl bromide and pentachlorophenol.

Under the Birth Defect Prevention Act of 1984, the Department of Food and Agriculture was required by December 31, 1985, to identify pesticide active ingredients that the department determined had the most significant data gaps and widespread use and that were suspected to be hazardous to people. These duties were transferred to the Department of Pesticide Regulation by the Governor's Reorganization Plan No. 1 of 1991. Under the act, the Director of Pesticide Regulation also was required on January 15, 1992, to issue a notice of the impending suspension of the registration of those pesticide products containing an active ingredient with a significant data gap for which the registrant had not submitted required data by December 31, 1991. Existing law permits the director, with the concurrence of the Secretary for Environmental Protection, to extend the deadlines for submitting the mandatory health effects studies for certain ingredients, including methyl bromide and pentachlorophenol, if the director finds that delays in submitting the mandatory health effects studies were primarily caused by actions of the Department of Pesticide Regulation. Existing law also prohibits a pesticide product containing certain specified active ingredients for which the required studies have not been submitted by March 30, 1996, from remaining registered in this state after that date.

This bill would prohibit a pesticide product containing pentachlorophenol or methyl bromide from remaining registered in this state after December 31, 1997, if the required studies for that active ingredient have not been submitted by that date. The bill would also declare that it is the intent of the Legislature that a thorough evaluation be completed no later than June 30, 1996, and upon completion of that evaluation, that the Director of Pesticide Regulation propose to the Governor a process that will result in the dedication of a portion of the revenue of the department to research, development, and outreach of reduced risk alternative pest management strategies for agriculture.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF STATUTE ENACTED IN 1996

1995–96 FOURTH EXTRAORDINARY SESSION

BILL CHAPTER

Ch. 1 (AB 1) Bordonaro. Human services.

Pursuant to the Lanterman Developmental Disabilities Services Act, the State Department of Developmental Services provides funding to regional centers for the provision of services and supports, including assessment services, to persons with developmental disabilities.

Existing law provides that if assessment is needed it shall be performed within 120 days following initial intake, except that under specified circumstances this period is required to be reduced to 60 days.

Existing law further provides, however, that as of July 1, 1996, the 120-day period for assessment shall be reduced to 60 days, except that in unusual circumstances an additional 30-day period will be permitted.

This bill would delay, from July 1, 1996, to November 1, 1996, the provision that requires a reduced time period in which assessments must be performed.

Existing law contains regional center-related fiscal provisions that are effective only until July 1, 1996.

This bill would extend these provisions until November 1, 1996.

Existing law establishes the Habilitation Services Program, administered by the Department of Rehabilitation, under which persons with developmental disabilities participate in various types of employment programs, including work activity programs.

Existing law specifies that the rate for work activity programs in effect on July 1, 1993, shall remain in effect until July 1, 1996.

This bill would instead, provide that the rate in effect on July 1, 1993, shall remain in effect until November 1, 1996.

Existing law provides for the AFDC program, under which each county provides cash assistance and other benefits to qualified low-income families. Each county is required to pay a share of the cost of both aid grant and administrative costs for the AFDC program. Under the AFDC program maximum aid grant levels are provided for families, depending upon family size.

Existing law provides that specified increases in the amount of aid under the AFDC program will take effect on July 1, 1996.

This bill would delay these increases until November 1, 1996.

Existing law requires that the department set minimum standards of basic adequate care under the AFDC program, which are used in determining aid grants under the program. These standards are to be annually adjusted for changes in the cost of living, except that for specified fiscal years ending with the 1995–96 fiscal year, the adjustment is to be limited to 70% of the amount of the adjustment which would otherwise be made.

This bill would extend this requirement until November 1, 1996.

Existing law provides for the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which payments are made on behalf of low-income children in foster care placements, including group homes.

Existing law contains ratesetting provisions for group homes that require rate adjustments with the 1996–97 fiscal years.

This bill would delay application of these provisions.

Existing law specifies that a group home AFDC-FC reimbursement rate shall not increase, during the 1994–95 and 1995–96 fiscal years, as a result of a program change, except under specified circumstances.

This bill would extend this provision until November 1, 1996.

Existing law provides for the State Supplementary Program for the Aged, Blind and Disabled (SSP), which requires the department to contract with the United States Secretary of Health and Human Services to make payments to SSP recipients to supplement Supplemental Security Income (SSI) payments made available pursuant to the federal Social Security Act.

Existing law provides that SSP payment increases will take effect on July 1, 1996.

This bill would delay these increases until November 1, 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law contains provisions for making emergency payments to SSP recipients under specified special circumstances, as defined and revises the definition of special circumstances on July 1, 1996.

This bill would delay the operation of the change in that definition until November 1, 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF RESOLUTIONS AND PROPOSED CONSTITUTIONAL AMENDMENTS ADOPTED IN 1996

1995–96 REGULAR SESSION

RESOLUTION CHAPTERS

Res. Ch. 1 (AJR 44) Gallegos. Forced labor: El Monte sewing shops.
This measure would memorialize the United States Department of Justice and the United States Department of Labor to conduct jointly a full and comprehensive investigation of the events that led to the sewing shop raid in El Monte, California, coordinating that investigation with all agencies involved, including, but not limited to, the INS and the Division of Labor Standards Enforcement of the California Department of Industrial Relations. The measure would memorialize the United States Department of Justice and the United States Department of Labor to provide to the California Legislature a preliminary report of the results of that investigation within 30 days of the date this measure is adopted, and a final report of the results of that investigation within 90 days after that date.

Res. Ch. 2 (SCR 44) Solis. College Awareness Month.
This measure would proclaim February 1996, as "College Awareness Month." This measure would urge California residents to encourage elementary and secondary school students to succeed in their academic endeavors so they may earn a college education and contribute to the economic, social, and political future of California.

Res. Ch. 3 (ACR 53) Cunneen. Random Acts of Kindness Week.
This measure would declare that, pursuant to specified findings, the week of February 12 through February 18, 1996, be recognized as Random Acts of Kindness Week, and would urge the public to observe this week with appropriate individual or group activities.

Res. Ch. 4 (ACR 52) Kuehl. Celebrating California Nonprofits Week.
This measure would acknowledge and designate the week of February 5, 1996, as "Celebrating California Nonprofits Week."

Res. Ch. 5 (ACR 58) W. Murray. Black History Month.
This measure would proclaim February 1996, as Black History Month.

Res. Ch. 6 (ACR 56) Goldsmith. Mediation Week.
This resolution designates the week of March 17 to March 23, 1996, inclusive, as Mediation Week.

Res. Ch. 7 (ACR 51) Katz. Week of the School Administrator.
This measure would proclaim March 4 through March 8, 1996, as the Week of the School Administrator.

Res. Ch. 8 (ACR 55) Baca. Jewish veterans.
This measure would proclaim the week of March 10 to March 17 as Jewish War Veterans of the United States of America Week.

Res. Ch. 9 (SCR 47) Lockyer. Television and radio broadcasters day.
This measure would declare March 18, 1996, as Television and Radio Broadcasters Day.

Res. Ch. 10 (AJR 56) Brulte. Israeli-Palestinian Interim Agreement.
This measure would memorialize the President and Congress to urge Chairman Yasser Arafat to exercise his authority and leadership to enforce the provisions of the Israeli-Palestinian Interim Agreement by moving forcefully to curtail terrorism.

Res. Ch. 11 (SCR 45) Solis. Women's History Month and International Women's Day.
This measure would designate the month of March 1996 as Women's History Month and would urge all Californians to join in the celebration of International Women's Day on March 8, 1996.

Res. Ch. 12 (SJR 13) Kelley. Public lands: rights-of-way.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would memorialize the President and Congress of the United States to enact legislation that would temporarily prevent the Secretary of the Interior from implementing specified proposed rules governing rights-of-way access across federal public lands, until such time as Congress can reexamine the issue of public rights-of-way in collaboration with affected states, local governments, landowners, and the general public.

Res. Ch. 13 (ACR 70) Katz. California Holocaust Memorial Week.
This measure would designate the week of April 14 through April 20, 1996, as California Holocaust Memorial Week, and would urge Californians to observe these days of remembrance for the victims of the Holocaust in an appropriate manner.

Res. Ch. 14 (SCR 1) Lockyer. Joint Rules.
This measure adopts the Joint Rules of the Senate and Assembly for the 1995–96 Regular Session.

Res. Ch. 15 (SCR 56) Solis. National Girls Initiative: 1996 Take Our Daughters To Work Day.
This measure would proclaim April 25, 1996, as Take Our Daughters To Work Day.

Res. Ch. 16 (ACR 82) Poochigian. California Day of Remembrance of the Armenian Genocide of 1915–1923.
This measure would designate April 24, 1996, as the "California Day of Remembrance of the Armenian Genocide of 1915–1923."

Res. Ch. 17 (SCR 48) Hughes. Unwed Teenage Pregnancy Prevention Month.
This measure would designate April 1996 as Unwed Teenage Pregnancy Prevention Month. The measure would encourage the people of all communities to participate in appropriate ceremonies and activities during Unwed Teenage Pregnancy Prevention Month.

Res. Ch. 18 (ACR 64) Mazzoni. Sexual Assault Awareness Month.
This measure would proclaim April 1996 as Sexual Assault Awareness Month.

Res. Ch. 19 (ACR 80) Katz. Child Passenger Safety Week.
This measure would designate the week of April 28 to May 4, 1996, as Child Passenger Safety Week.

Res. Ch. 20 (ACR 78) Katz. Anniversary of Jerusalem.
This measure would congratulate the City of Jerusalem on the celebration of its 3,000th anniversary.

Res. Ch. 21 (ACR 86) Mazzoni. California Bike Commute Day.
This measure would proclaim Thursday, May 16, 1996, California Bike Commute Day throughout the state and would encourage all state agencies to participate through the use of existing transportation coordinators and programs.

Res. Ch. 22 (SCR 55) M. Thompson. Viggo "Vic" Meedom Memorial Bridge.
This measure would redesignate the Hardscrabble Bridge located on State Highway Route 199, six miles east of Hiouchi Village in Del Norte County, the Viggo "Vic" Meedom Memorial Bridge. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 23 (AJR 58) Firestone. Undocumented alien prisoners.
This measure would request the President of the United States to make treaties with foreign governments to provide for the incarceration of undocumented, illegal alien prisoners in their countries of origin.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 24 (AJR 48) Conroy. Illegal aliens.
This measure would memorialize Congress and the President of the United States to deal aggressively with the problem of illegal alien criminals in this state, including the stationing of an officer of the Immigration and Naturalization Service at each detention facility in the state.

Res. Ch. 25 (SJR 36) Kelley. Cotton pest eradication.
This measure would memorialize the President and the Congress of the United States to take certain action relating to the eradication of cotton pests.

Res. Ch. 26 (ACR 59) Thompson. Lake Domenigoni.
This measure would recommend that the East Side Reservoir in the Domenigoni Valley be officially named "Lake Domenigoni" in recognition of the valley's historical name, and would recommend other names for specified features of the reservoir.

Res. Ch. 27 (SCR 61) M. Thompson. Autism Treatment Awareness Week.
This measure would proclaim the week of August 4 through August 10, 1996, as Autism Treatment Awareness Week, and acknowledge the contributions made in the area of autism by experts in the field and the families involved.

Res. Ch. 28 (SJR 39) Solis. Foreign investment: investor visa program.
This measure would request the President and Congress to reduce, as specified, the current investment threshold under the United States Investor Visa Program and to allow states greater flexibility in focusing investment funds to address specific economic needs.

Res. Ch. 29 (AJR 55) Escutia. Development and approval of drugs and biologics.
This measure would respectfully memorialize the Congress of the United States to enact comprehensive legislation to facilitate the rapid review and approval of innovative new drugs, biological products, and medical devices, and new uses of existing drugs, without compromising patient safety or product effectiveness.

Res. Ch. 30 (AJR 60) McPherson. Safe Drinking Water Act.
This measure would memorialize the President and the Congress of the United States to pass the pending legislation reauthorizing the federal Safe Drinking Water Act.

Res. Ch. 31 (SJR 37) Johannessen. Extension of home loan programs.
This measure would respectfully urge the Congress of the United States to amend the Internal Revenue Code to change the definition of "qualified veteran" for purposes of providing financing for home loans to any veteran who meets the requirements as may be imposed by the state law pursuant to which qualified veterans' mortgage bonds are issued.

Res. Ch. 32 (SCR 50) Costa. Food products: purchase by tax supported state institutions.
This measure would encourage tax supported school districts and other public institutions to examine the price of domestic food products prior to examining the price of nondomestic food products when making purchasing decisions, and when economically feasible, to buy California food products.

Res. Ch. 33 (SCR 54) Marks. Sister-state relationship: Province of Chung Chong Nam Do, Republic of Korea.
This measure would extend an invitation to the people of the Province of Chung Chong Nam Do, Republic of Korea, to join the State of California as a sister state. It would encourage specified state entities to assist in implementing programs and activities to promote mutual trade and commerce.

Res. Ch. 34 (SCA 18) Lewis. Ballot measures.

NOTE: Superior numbers appear as a separate section at the end of the digests.

(1) Existing provisions of the California Constitution provide that the initiative is the power of the electors to propose statutes and amendments to the California Constitution, and to adopt or reject them.

This measure would prohibit a statewide initiative measure from including or excluding any political subdivision of the state from the application or effect of its provisions based upon approval or disapproval of the initiative measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of that political subdivision.

This measure would also prohibit a statewide initiative measure from containing alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure.

(2) Existing provisions of the California Constitution provide that initiative and referendum powers may be exercised by the electors of each city or county under procedures that the Legislature shall provide. This provision does not affect a charter city.

This measure would prohibit a city or county initiative measure from including or excluding any part of the city or county from the application or effect of its provisions based upon approval or disapproval of the initiative measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of the city or county or any part thereof.

This measure would also prohibit a city or county initiative measure from containing alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure.

This measure would make the provisions in paragraph (2) applicable to a charter city.

(3) Existing provisions of the California Constitution permit the Legislature to propose amendments to initiative statutes and to the California Constitution, and to propose the adoption of general obligation bond acts.

This measure would prohibit any of these measures from (a) including or excluding any political subdivision of the state from the application or effect of its provisions based upon approval or disapproval of the measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of that political subdivision, and (b) containing alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure.

(4) This measure would also prohibit a city or county measure, as defined, proposed by the legislative body of a city, charter city, county, or charter county and submitted to the voters for approval from (a) including or excluding any part of the city, charter city, county, or charter county from the application or effect of its provisions based upon approval or disapproval of the city or county measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of the city, charter city, county, charter county, or any part thereof, and (b) containing alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure.

Res. Ch. 35 (SJR 49) Ayala. Restructuring of the United States Department of Veterans Affairs.

This measure would memorialize the President and the Congress of the United States, and the U.S. Department of Veterans Affairs to maintain the status quo and to reconsider the decision to adopt the department's proposed Field Restructuring Plan that would move the veterans' disability pension benefits offices from California to Phoenix, Arizona, and other states.

Res. Ch. 36 (SCA 4) Lockyer. Courts: consolidation.

The California Constitution currently provides for superior and municipal courts, provides for their establishment and jurisdiction, and provides for the qualification and election of their judges.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would provide for the abolition of municipal courts within a county, and for the establishment of a unified superior court for that county upon a majority vote of superior court judges and a majority vote of municipal court judges within the county. The measure would provide for the qualification and election of the judges. It would also revise the number of jurors required in certain civil actions. The measure would also specify its purposes, and make related, conforming changes. The measure would also declare that its provisions are severable.

Res. Ch. 37 (SJR 48) Kopp. North American Free Trade Agreement.

This measure would memorialize the President and Congress of the United States to adopt legislation that would provide for direct assistance to border states specifically for the purpose of improving border infrastructure needed to accommodate the demands of the North American Free Trade Agreement.

Res. Ch. 38 (SCR 43) Kopp. California Law Revision Commission.

Existing law requires the California Law Revision Commission to file a report at each Regular Session of the Legislature containing a calendar of topics selected by it for study, including a list of studies in progress and a list of topics intended for future consideration, and, after the filing of the commission's first report, its studies are confined to topics set forth in the calendar contained in its last preceding report that are thereafter approved for its study, or referred to it for study, by concurrent resolution of the Legislature.

This measure would give legislative approval to the commission to continue its study of numerous, specified topics that the Legislature has previously authorized or directed the commission to study.

This bill would also refer to the commission for study the new topics of whether the California law of contracts should be revised and whether the California law relating to environmental quality should be reorganized.

Res. Ch. 39 (SCR 46) Solis. Domestic Violence Awareness Month.

This measure would proclaim the month of October 1996 as Domestic Violence Awareness Month.

Res. Ch. 40 (SCR 59) Johnston. California Neighborhood Watch Month.

This measure would declare August 1996 as California Neighborhood Watch Month, and would request the Governor to commend California residents for their participation in Neighborhood Watch efforts and to encourage the people of the state to participate in those efforts.

Res. Ch. 41 (ACR 47) Harvey. State Highway Route 65: All America City Highway.

This measure would designate a section of State Highway Route 65 as the All America City Highway, in recognition of the designation of the Cities of Lindsay, Porterville, and Bakersfield as All America Cities. The measure would request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 42 (ACR 67) Bordonaro. Geriatrics training: University of California curricula.

This measure would encourage the University of California to continue its efforts to modify the curricula of medical schools in the University of California system to include adequate training in geriatrics and related pharmacology.

Res. Ch. 43 (ACR 77) Baca. California Women Veterans Week.

This measure would acknowledge that women veterans are pioneers in nontraditional roles, and that women who serve our state during wartime and during peace should be honored, and would designate the week commencing November 11, 1996, as California Women Veterans Week.

Res. Ch. 44 (SCR 64) Lockyer. Legislative calendar.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The existing Joint Rules of the Senate and Assembly specify that in the second calendar year of the regular legislative session the Legislature is in summer recess from July 5 until August 5.

This measure would instead specify that in that calendar year the Legislature is in summer recess from July 19 until August 5.

Res. Ch. 45 (AJR 62) Vasconcellos. Older Americans Act.

Existing federal law establishes the Older Americans Act, under which funds are provided to each state for various programs for elderly persons.

This measure would request the President and Congress of the United States to reauthorize the federal Older Americans Act, in accordance with specified policies.

Res. Ch. 46 (ACR 95) Villaraigosa. Breastfeeding Awareness Week.

This measure would proclaim August 1 through 7, 1996, Breastfeeding Awareness Week.

Res. Ch. 47 (SCR 65) Hughes. School Safety Month and Yellow Ribbon Week.

Existing law and the California Constitution set forth various provisions relating to school safety.

This measure would designate October 1996 as School Safety Month and the week of January 13 through 17, 1997, as Yellow Ribbon Week.

Res. Ch. 48 (SJR 45) Petris. Aircraft carrier U.S.S. Hornet (CV-12).

This measure would memorialize the President, the Congress, and the Department of Defense to support the efforts of the citizens of the State of California and the County of Alameda to acquire the U.S. Navy aircraft carrier Hornet (CV-12) for a permanent museum, educational, and entertainment complex.

Res. Ch. 49 (SCR 51) Haynes. Lake Domenigoni.

This measure would recommend that the East Side Reservoir in the Domenigoni Valley be officially named "Lake Domenigoni" in recognition of the valley's historical name, and would recommend other names for specified features of the reservoir.

Res. Ch. 50 (SJR 52) Watson. Cure Breast Cancer postal stamp donation program.

This measure would memorialize the Congress and the President of the United States to enact legislation to enable the implementation of the Cure Breast Cancer postal stamp donation program and would memorialize the Board of Governors of the United States Postal Service to implement this program to allow voluntary collection of supplemental breast cancer research funds.

Res. Ch. 51 (SJR 54) Watson. Liberia: resolution of conflict.

This measure would respectfully memorialize the President and Congress to ameliorate the situation in Liberia and seek a permanent resolution to Liberia's conflict.

Res. Ch. 52 (SCR 58) Rogers. State employee merit awards.

This measure would request that additional merit award payments, authorized by the Department of Personnel Administration, be made to specified individuals whose proposals have resulted in annual savings and net revenue gain to the state.

Res. Ch. 53 (ACR 84) Napolitano. Overseas trade.

This measure would request that the Director of the California State World Trade Commission establish an overseas trade office in Southeast Asia and would encourage the director to consider locating the office or a satellite office in South Korea.

Res. Ch. 54 (SCA 19) Leslie. Commission on Judicial Performance: subordinate judicial officers.

The California Constitution presently specifies the duties of the Commission on Judicial Performance with respect to the discipline of judges. The California Constitution also provides for the establishment of subordinate judicial officers such as court commissioners.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This measure would provide that the Commission on Judicial Performance shall exercise discretionary jurisdiction with regard to the oversight and discipline of subordinate judicial officers, subject to review by the Supreme Court, as specified. The measure would also provide that no person who has been found unfit to serve as a subordinate judicial officer after a hearing before the Commission on Judicial Performance shall have the requisite status to serve as a subordinate judicial officer. The measure would specify that it does not diminish or eliminate the responsibility of a court to exercise initial jurisdiction to discipline or dismiss a subordinate judicial officer as its employee.

Res. Ch. 55 (SCR 68) Leslie. Prostate Cancer Screening Day.

This bill would declare August 20, 1996, to be California Prostate Cancer Screening Day.

Res. Ch. 56 (SCR 49) Kelley. Designated wastes.

This measure would request the State Water Resources Control Board to expeditiously adopt policies with regard to designated wastes, to identify test methods that accurately reflect conditions at industrial sites, and to consider appropriate handling options, and would encourage the maximum practical use of those nonhazardous soils and materials onsite as a means of waste minimization.

Res. Ch. 57 (SCR 53) Alquist. Russian-American Veterans' Week.

This measure would proclaim that the week of May 5 through May 11, 1997, be commemorated as Russian-American Veterans' Week.

Res. Ch. 58 (ACR 61) Hauser. Blue Star Memorial Highway: State Highway Route 254.

This measure would designate State Highway Route 254 a Blue Star Memorial Highway.

The measure would also request the Department of Transportation to accept as an official marker a specified marker to be placed by the Southern Humboldt Garden Club, Inc., at an appropriate location on State Highway Route 254.

Res. Ch. 59 (ACR 65) Baldwin. California Veterans' Week.

This measure would proclaim the 5-day period including, and ending with, November 11, 1996, as "California Veterans' Week" to promote the recognition and appreciation of the great service and sacrifices made by California veterans.

Res. Ch. 60 (ACR 85) Baca. The Alameda Corridor Project: joint study.

This measure would request the Secretary of Trade and Commerce and the Secretary of Business, Transportation and Housing, jointly, in consultation with the Southern California Association of Governments and the San Bernardino Associated Governments, to review existing studies and ongoing research, and make recommendations on the feasibility of developing a distribution center in the Inland Empire in the vicinity of the east San Bernardino Valley in order to supplement existing distribution centers operating within the Alameda Corridor Project, and to report to the Legislature on or before July 1, 1997, concerning the recommendations. The measure would also provide that if additional staffing is needed for the study, funding for that staff will be provided by nonstate entities.

Res. Ch. 61 (ACR 90) Napolitano. Code Enforcement Week.

This measure would proclaim the week of September 15, through September 21, 1996, as Code Enforcement Week and would urge all Californians to recognize and support code enforcement officials statewide for their efforts to improve the quality of life in our state.

Res. Ch. 62 (ACR 92) Hauser. Don Clausen Highway.

This measure would designate the Redwood National Park Bypass on State Highway Route 101 the Don Clausen Highway.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 63 (ACR 93) Alpert. Back to School Immunization Month.

This measure would proclaim the month of August 1996 as Back to School Immunization Month.

Res. Ch. 64 (AJR 49) Conroy. Reimbursement for Civil War expenses.

This measure would memorialize the President and the Congress of the United States to enact legislation providing reimbursement to California for moneys expended during the Civil War.

Res. Ch. 65 (AJR 63) Morrow. Jewish veterans of war: commemorating postage stamp.

This measure would memorialize the President, the Congress of the United States, and the Citizens' Advisory Committee of the United States Postal Service, to take all steps necessary to secure the issuance of a postage stamp in honor of the 100th anniversary of the Jewish War Veterans of the United States of America.

Res. Ch. 66 (AJR 68) Subcommittee on Veterans' Affairs of Committee on Governmental Organization. Veterans' hospitals.

This measure would memorialize the President and Congress of the United States to consider a joint use of United States Department of Veterans Affairs hospitals.

Res. Ch. 67 (SCR 70) Lockyer. Legislative deadlines.

The existing Joint Rules of the Senate and Assembly for the 1995–96 Regular Session specify that the last day for each house to pass bills in the 1996 calendar year is August 30, 1996.

This measure would instead specify that the last day for each house to pass bills in the 1996 calendar year is August 31, 1996.

Res. Ch. 68 (SJR 27) Costa. School lands.

This measure would memorialize the President and the Congress of the United States to expedite the agreement by the Department of Energy for recognizing the state's valid claim to 2 school land sections within the Elk Hills Naval Petroleum Reserve Numbered 1, and to compensate California's retired teachers for their 9% interest in the reserve upon its sale.

Res. Ch. 69 (SJR 53) Petris. Compensation of retired military personnel.

This measure would urge the Congress of the United States to amend federal law, relating to compensation of retired military personnel, to permit retired military personnel to receive full concurrent military longevity retirement pay and service-connected disability pay.

Res. Ch. 70 (ACR 30) W. Murray. African-American community: University of California.

This measure, among other things, would request the University of California to prepare a series of studies on specified aspects of the African-American community.

Res. Ch. 71 (ACR 48) Baca. City of San Bernardino.

This measure would declare the week commencing November 4, 1996, as "It's a Great Day in San Bernardino Week."

Res. Ch. 72 (ACR 50) Speier. Blue Star Memorial Highway.

This measure would designate Interstate Highway Route 280, from the intersection with Third Street in the City and County of San Francisco to the junction with Interstate Highway Route 680, in San Jose, as a Blue Star Memorial Highway.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The measure would request the Department of Transportation to grant to the Bay Ocean District of California Garden Clubs, Incorporated, without charge, an encroachment permit that will authorize an appropriate marker to be placed at the state roadside rest stop on Interstate Highway Route 280, located between the Hayne Road overpass and the Crystal Springs Road overpass.

The measure would also request the department to determine the cost of appropriate plaques and markers showing the special designation of Interstate Highway Route 280 as a Blue Star Memorial Highway and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 73 (ACR 57) Cunneen. California Highway Patrol Officer Franke A. Story Memorial Highway: West Valley Freeway.

This measure would designate the portion of State Highway Route 86 between the City of Imperial and the City of Brawley in Imperial County the California Highway Patrol Officer Franke A. Story Memorial Highway and would designate State Highway Route 85 the West Valley Freeway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing these designations and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 74 (ACR 68) Brown. Parker B. Rice Memorial Bridge: Richard "Fresh Air" Janson Bridge.

This measure would designate a certain bridge on State Highway Route 12 in Santa Rosa the Parker B. Rice Memorial Bridge, and would designate the Sonoma Creek Bridge on State Highway Route 37 in Sonoma County the Richard "Fresh Air" Janson Bridge.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing these special designations and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 75 (ACR 76) Frusetta. Billing procedures of health facilities.

This measure would request every health facility, as defined, to provide a patient, if requested by the patient and to the extent permitted by law, with an itemized bill that is as understandable as possible, as quickly as possible after the patient's release from the health facility so that the patient may verify the accuracy of the charges.

Res. Ch. 76 (ACR 94) Alby. Red Ribbon Week.

This measure would proclaim October 23 through October 31, 1996, as Red Ribbon Week and would encourage all Californians to help build drug-free communities.

Res. Ch. 77 (ACR 96) Katz. Bruce T. Hinman Memorial Freeway Interchange.

This measure would designate the freeway interchange between the Hollywood Freeway and the Ventura Freeway in the County of Los Angeles the Bruce T. Hinman Memorial Freeway Interchange.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation, clearly displaying the star of the Department of the California Highway Patrol and identifying Officer Hinman, and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 78 (ACR 97) Kaloogian. Workplace Fitness Month.

This bill would proclaim the month of October 1996 as Workplace Fitness Month in California to encourage all Californians to participate in regular exercise programs and physical activity.

Res. Ch. 79 (ACR 98) K. Murray. Julia Ann Singer Center.

This measure would commend the Julia Ann Singer Center, and would declare that September 19, 1996, be recognized as Julia Ann Singer Center Day.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 80 (AJR 51) Baldwin. Filipino veterans of World War II: veterans' benefits.

This measure would memorialize the President and the Congress of the United States to act favorably on legislation giving proper recognition to the service of Filipino veterans during World War II, and on legislation pertaining to the granting to Filipino veterans of the United States Armed Forces full veterans' benefits.

Res. Ch. 81 (AJR 73) Caldera. Civil Liberties Act of 1988: regulations.

This measure would respectfully urge the United States Attorney General to take administrative action, if possible, to adopt proposed amendments to the regulations implementing the Civil Liberties Act of 1988 to redress United States citizens who were relocated to Japan from America's internment camps as minors during World War II, and in the event that the administrative action taken to amend the regulations of the Civil Liberties Act of 1988 does not provide the remedy sought, this measure would also respectfully memorialize the President and the Congress of the United States to amend the Civil Liberties Act of 1988 to permit United States citizens who were relocated to Japan from America's internment camps as minors during World War II to be eligible for redress and reparations.

Res. Ch. 82 (SCR 63) M. Thompson. Justice Joseph A. Rattigan Building.

This measure would redesignate the Santa Rosa State Office Building in the City of Santa Rosa as the Justice Joseph A. Rattigan Building.

The measure would also request the Department of General Services to determine the cost of appropriate plaques and markers showing this designation, and upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 83 (SCR 66) Kopp. Postsecondary education: academic research: "gag clauses."

This measure would urge the Regents of the University of California, the Trustees of the California State University, the Board of Governors of the California Community Colleges, and the governing board of each community college district in the state to prohibit the institutions under their jurisdiction, or any of the staff or component parts of those institutions, from signing any agreement that requires the permission of an entity outside the institution to publish or otherwise communicate the results of academic research, unless the research involves proprietary information, the release of which would negatively affect the commercial value of the research of the sponsor, if the research does not affect the public health or welfare, or unless national security considerations require confidentiality. The measure would also urge the regents, trustees, board of governors, and governing board of each community college district to contest vigorously the enforcement of any such "gag clause" that may be a part of a contract previously executed by an institution under its jurisdiction or any of the staff or component parts of that institution.

Res. Ch. 84 (SCR 67) Kopp. Major League Baseball.

This measure would express the view of the Legislature that the 77 surviving pre-1947 baseball players are entitled to both pensions and proper compensation for their intellectual property rights.

Res. Ch. 85 (SCR 2) Lockyer. Legislative Counsel of California.

This measure designates Bion M. Gregory as the Legislative Counsel of California.

Res. Ch. 86 (SCR 69) Watson. California Lung Health Day.

This measure would proclaim September 20, 1996, as California Lung Health Day.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF RESOLUTION ADOPTED IN 1996

1995–96 FIRST EXTRAORDINARY SESSION

First Extraordinary Session

RESOLUTION CHAPTER

Res. Ch. 1 (SCR 2) Lockyer. Final adjournment: 1995–96 First Extraordinary Session.

This measure would provide that the 1995–96 First Extraordinary Session of the Legislature shall adjourn sine die at midnight on August 31, 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGEST OF RESOLUTION ADOPTED IN 1996

1995–96 SECOND EXTRAORDINARY SESSION

RESOLUTION CHAPTER

Res. Ch. 1 (SCR 2) Lockyer. Final adjournment: 1995–96 Second Extraordinary Session.

This measure would provide that the 1995–96 Second Extraordinary Session of the Legislature shall adjourn sine die at midnight on August 31, 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF RESOLUTIONS ADOPTED IN 1996

1995–96 THIRD EXTRAORDINARY SESSION

Thrid Extraordinary Session

RESOLUTION CHAPTERS

Res. Ch. 1 (SCR 1) Lockyer. 1995–96 Third Extraordinary Session: Joint Rules.

This measure adopts the Joint Rules of the Senate and Assembly for the 1993–94 Regular Session as the Joint Rules, except as specified, for the 1995–96 Third Extraordinary Session.

Res. Ch. 2 (ACR 1) Committee on Agriculture. Final adjournment: 1995–96 Third Extraordinary Session.

This measure would provide that the 1995–96 Third Extraordinary Session of the Legislature shall adjourn sine die on adjournment on March 15, 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

DIGESTS OF RESOLUTIONS ADOPTED IN 1996

1995–96 FOURTH EXTRAORDINARY SESSION

RESOLUTION CHAPTERS

Res. Ch. 1 (SCR 1) Lockyer. 1995–96 Fourth Extraordinary Session: Joint Rules.

This measure adopts the Joint Rules of the Senate and Assembly for the 1993–94 Regular Session as the Joint Rules, except as specified, for the 1995–96 Fourth Extraordinary Session.

Res. Ch. 2 (SCR 2) Lockyer. Final adjournment: 1995–96 Fourth Extraordinary Session.

This measure would provide that the 1995–96 Fourth Extraordinary Session of the Legislature shall adjourn sine die on March 28, 1996.

NOTE: Superior numbers appear as a separate section at the end of the digests.

1996 DIGEST CHAPTERS SUPERIOR NUMBERS

1 [Ch. 162] I object to the following appropriations contained in Senate Bill 1393.

Item 0450-101-0932—For local assistance, State Trial Court Funding. I reduce this item from $1,620,084,000 to $1,619,964,000 by reducing:

(a) 10-Support for operation of the Trial Courts from $1,512,376,000 to $1,512,256,000, and by deleting Provision 10.

I am deleting the $120,000 legislative augmentation. Although this augmentation has been identified for a weapons screening system in the San Bernardino County Superior Court, I now understand that the purpose of this augmentation is for a pilot (or model) Drug Court Treatment Program in San Bernardino County. The authority for this proposed pilot is contained in separate legislation. This legislation is an appropriate mechanism for this appropriation so that the pilot has statutory authorization.

I am deleting Provision 10 to conform to this action.

Item 0450-111-0001—For local assistance, State Trial Court Funding. I reduce this item from $192,984,000 to $192,864,000.

I am revising this item to conform to the action I have taken in Item 0450-101-0932.

Item 0530-001-0001—For support of Secretary for Health and Welfare. I reduce this item from $1,290,000 to $1,289,000 by reducing:

(a) 10-Secretary for Health and Welfare from $2,256,000 to $2,255,000

and by deleting Provision 1.

I am deleting Provision 1 because it duplicates current law and is unnecessary. Strategic planning already is required statewide and current law requires annual reporting to the Legislature on the statewide effort. A separate report by the Health and Welfare Agency is not needed.

Item 0540-001-0001—For support of Secretary for Resources. I delete Provision 1.

I am deleting Provision 1 which prohibits the expenditure of $320,000 unless specific reports have been submitted by the Department of Fish and Game to the Legislature. This is an inappropriate restriction on the Secretary's budget and it is an infringement on the separation of powers in that it usurps the Executive Branch's authority to administer state government effectively. The Agency is committed to ensuring that required reports are submitted in a timely manner to the Legislature and continues to oversee the process on an agency-wide basis.

Item 0690-101-0372—For local assistance, Office of Emergency Services. I reduce this item from ($27,743,000) to ($26,743,000) by reducing:

(a) For transfer to the Public Facilities and Local Agency Disaster Response Account (0251) from ($25,072,000) to ($24,072,000),

and deleting Provision 2.

I am deleting the $1,000,000 which the Legislature had reserved in the Disaster Relief Fund (quarter-cent sales tax fund) for payment of costs related to the restoration of the San Francisco City Hall which was damaged in the Loma Prieta earthquake. The total cost of the additional work for the restoration of the City Hall is estimated to be $40,000,000, which exceeds the moneys available in the Disaster Relief Fund. Further, providing funding for this or any project above the level necessary to provide the State portion of federally approved costs would establish a policy which would require additional General Fund expenditures in the hundreds of millions of dollars.

I am deleting Provision 2 to conform to this action.

Item 0820-001-0001—For support of Department of Justice. I delete Provision 5.

Provision 5 would require the Legislative Analyst, with the assistance of the Department of Finance, to report to the Joint Legislative Budget Committee and the fiscal committee in each house of the Legislature on various aspects related to the number of attorneys employed by state agencies, the types of work performed by

those agencies' counsel, and a recommendation for the transfer of non-trial legal work from the Department of Justice to counsel working for state agencies.

I am deleting Provision 5 because it is not necessary. The Legislature can request a report from the Legislative Analyst without including language in the budget act.

Item 0820-301-0001—For capital outlay, Department of Justice. I am deleting Provisions 1 and 2.

Provision 1 requires reimbursing funds appropriated in this item from funds made available from any November 1996 general obligation bond act. This provision limits the State's options in funding laboratory replacements.

Provision 2 requires funding all future costs for the crime laboratories from the November 1996 general obligation bond act. This language unduly restricts the Executive Branch's ability to effectively manage its programs. If other fund sources are more appropriate or become necessary to complete the crime laboratory projects, then these fund sources should be available to propose for appropriation.

Item 0850-001-0562—For support of the California State Lottery Commission. I delete this item and Provisions 1 and 2.

This item is intended to display Lottery operational and administrative costs. However, a fiscal display of all lottery operations is annually presented in greater detail in the Governor's Budget. Therefore, I am deleting this item because it is unnecessary.

Provision 1 would require the Lottery to submit specific administrative budget and expenditure reports to the Legislature and to the Department of Finance. Provision 2 would require the Lottery to be subject to the review and approval provisions of the State Administrative Manual regarding information technology activities, and would require the Department of Information Technology to oversee the Lottery information technology activities.

I am vetoing Provision 1 because the Lottery initiative approved by the voters, while requiring specific audits and financial reports, did not require the reports listed in this provision. I am vetoing Provision 2 because this control language could restrict the ability of the Lottery to make rapid adjustments in response to changing market conditions. This could make it difficult for the Lottery to achieve the goal of maximizing revenues to education.

Item 1111-001-0717—For transfer by the Controller from the Cemetery Fund to the Consumer Affairs Fund. I reduce this item from $4,202,000 to $4,201,000.

This action conforms to the reductions taken in Item 1111-001-0735.

Item 1111-001-0735—For transfer by the State Controller from the Contractor's License Fund to the Cemetery Fund as a loan. I reduce this item from ($3,803,000) to ($3,802,000) and delete Provision 3.

I am reducing this item by ($1,000) and deleting Provision 3 which would require the department to submit reports to the Legislature on September 1, 1996, December 1, 1996, and March 1, 1997 concerning specified Cemetery Act enforcement activities. While it is appropriate that the Department of Consumer Affairs prepare the designated report by March 1, 1997, the additional reporting requirements contained in this provision are unduly restrictive and infringe on the Executive Branch's ability to manage its programs. In addition, the preparation of these reports could require the Department to redirect resources from critical enforcement activities to report preparation.

Item 1111-010-0702—For support of Department of Consumer Affairs. I reduce this item from $130,407,000 to $130,406,000 by reducing:

(a) 01.01-Support for Department of Consumer Affairs-Administrative and Consumer Services; Bureau of Automotive Repair; Bureau of Electronic and Appliance Repair; Bureau of Home Furnishings and Thermal Insulation; Bureau of Security and Investigative Services; Arbitration Review Program: Cemetery Program; Funeral Program; and Tax Preparers Program from $153,954,000 to $153,953,000.

This action conforms to the reductions taken in Item 1111-001-0735.

Item 1230-001-0735—For support of Contractors' State License Board. I reduce this item from $40,183,000 to $40,058,000 by reducing:

(a) 30-Contractors' State License Board from $40,251,000 to $40,126,000.

I am reducing this item by $125,000 and 1.9 personnel years which would fund license application verification activities. The Legislature augmented this item by $1.5 million to provide funding for increased unlicensed activity enforcement, license application data verification, and for a public awareness campaign. I am reducing the $125,000 and 1.9 personnel years since the Board experienced a low rate of license application verification problems when it conducted a license application verification pilot project, therefore, this funding is not warranted. Although the augmentation for the remaining activities did not go through the normal budget development and review process, I believe that the enforcement of unlicensed contractor activity and consumer awareness programs may merit additional funding. Therefore, I am directing the Department of Consumer Affairs to work with the Board to prepare a detailed expenditure plan for the remaining $1.375 million augmentation prior to expending these funds.

Item 1760-001-0001—For support of Department of General Services. I reduce this item from $6,632,000 to $6,492,000.

I am deleting the $140,000 legislative augmentation to provide one position and related support for the State Historical Building Code Board. This program received an augmentation of $48,000 and one-half position in my proposed spending plan and is not of sufficient priority to justify further increases in the use of limited state resources.

Item 1760-001-0666—For support of Department of General Services. I revise this item by reducing:

(a) Program Support from $444,414,000 to $444,274,000, and

(c) Amount payable from the General Fund (Item 1760-001-0001) from −$6,632,000 to −$6,492,000.

I am revising this item to conform to the action I have taken in Item 1760-001-0001.

Item 2240-104-0001—For local assistance, Department of Housing and Community Development, for transfer to the Farmworker Housing Grant Fund (0927). I delete this item and Provision 1.

I am deleting the $5,800,000 legislative augmentation for the Farmworker Housing Grant Program and language to designate that $250,000 of the funds be allocated to designated cities and counties for economic development proposals and economic development plans. I am unable to support this General Fund augmentation due to the need to provide for a prudent reserve for economic uncertainties and the extremely limited impact it would have on farmworker housing supply. Given limited state resources, other alternatives to provide housing, besides state funding, should be considered and evaluated.

Item 2260-325-0042—For capital outlay, Department of Transportation. I am retaining legislative language regarding the seismic retrofit of toll bridges in deference to the Legislature's work on this important issue, although I do not necessarily agree with the intent language. I expect an agreement will be reached by the end of this legislative session to meet the shortfall in funding for retrofitting the toll bridges so these critical projects can proceed.

Item 2660-492—Reappropriation, Department of Transportation. I am revising this item by deleting schedule (1) from Fund 0183—Environmental Enhancement and Mitigation Demonstration Program Fund ($425,000).

I am deleting the reappropriation of Item 2660-125-183, Budget Act 1993, in the amount of $425,000 to fund the construction of the Hill Slough Wildlife Area Interpretive Center and Marsh Restoration Project. The Department of Fish and Game indicates that they have insufficient funds in their support budget to operate the center, if it were to be constructed. These support costs are not eligible for funding

from the Fish and Game Preservation Fund because the facility is unrelated to the taking of fish or game.

Item 3540-001-0001—For support of Department of Forestry and Fire Protection. I reduce this item from $262,149,000 to $262,069,000 by reducing:

(a) 100000-Personal Services from $284,211,000 to $284,133,000, and

(b) 300000-Operating Expenses and Equipment from $126,972,000 to $126,970,000

I am deleting the $80,000 legislative augmentation and 2.8 personnel years to restore regular staffing at three fire lookouts in the Northern California area. After extensive evaluation by the Department of Forestry and Fire Protection, it was determined that this was not an efficient use of the Department's limited resources as these lookouts have tended to become a "second" source of notification in some areas of the State. Forest fire lookouts that once provided a reliable fire discovery and reporting system have had their "sole-source" status taken over by modern transceiver technology, cellular phones and view windows in homes located where once there had been only wildlands. However, I am aware of the precarious condition of our forests; recognizing this, that the department will redirect staff to these lookouts during "critical weather conditions" to ensure the most extensive coverage.

Item 3540-002-0001—For support, Department of Forestry and Fire Protection. I delete this item. This item would have provided $4,000,000 to the department along with language requiring that all fire engines be staffed with three firefighters 24 hours a day, seven days a week during peak fire season.

I am deleting this legislative augmentation because it mandates an unwarranted staffing standard and takes away any management flexibility that the Department of Forestry and Fire Protection needs to respond to fire conditions around the state. Currently, one-engine stations and one engine at a two-engine stations are staffed 24 hours a day during the peak fire season. The department modifies that staffing level as conditions develop in an area. This augmentation would require 24 hour staffing on *all* engines regardless of weather and fire conditions and therefore is an inefficient use of limited funds.

Additionally, I would note that shortly after this budget is enacted, the Department of Forestry and Fire Protection will be requesting additional funding to address a serious and evolving fire and public safety problem along California's border with Mexico. With the increase in illegal immigrants has come an alarming increase in wildland fires, particularly along the San Diego County border. The department will need additional resources to address this critical, unanticipated need.

Item 3600-001-0200—For support of Department of Fish and Game. I delete Provision 5.

I am deleting Provision 5, which prohibits the Department of Fish and Game from expending funds from its dedicated accounts for distributed administration until certain conditions have been met and certified by the Bureau of State Audits relative to its recent audit report. This language is unnecessary because the department is taking corrective actions to resolve the audit findings. In addition, this language is unduly restrictive and infringes on the Executive Branch's ability to manage its programs.

Item 3760-101-0001—For local assistance, State Coastal Conservancy. I revise this item by making a technical correction to Schedule (1). The item total remains unchanged.

I am reducing the Coastal Resource Development grants in Schedule (1) from $650,000 to $450,000 to correctly reflect the amount approved by the legislative budget conference committee.

Item 3760-301-0235—For capital outlay, State Coastal Conservancy. I delete this item.

I am deleting the $100,000 legislative augmentation for the following project

(1) 80.96.080-Humboldt Bay South Spit—Acquisition ($100,000).

I am deleting this project because the language restricts use of the money for acquisition. Acquisition prior to resolution of existing environmental and legal concerns involving the site could expose the State to substantial future costs. As resolution of these issues is a prerequisite for responsible acquisition, and may take longer than a year, funding for acquisition is premature. Pending legislation would defer acquisition until all legal and environmental concerns are resolved. If this funding for project planning or acquisition is necessary, it would be most appropriate in the legislation.

Item 3790-001-0263—For support of Department of Parks and Recreation. I delete Provision 3.

I am deleting Provision 3 which would require the Director of Parks and Recreation to immediately reopen that portion of the Anza-Borrego Desert State Park to motorized travel until a bypass is constructed. The department has gone through an exhaustive public hearings and comment process to determine the manner in which to both protect sensitive desert riparian habitat and to serve the needs of all recreational users.

Item 3790-101-0001—For local assistance, Department of Parks and Recreation. I reduce this item from $880,000 to $780,000 by reducing:

(1) 80.25-Local Grants from $880,000 to $780,000,

and by deleting:

(f) City of Hayward: Seismic upgrade of the historic Meek Estate (100,000).

I am deleting the $100,000 legislative augmentation for a local assistance grant to the City of Hayward from the General Fund to seismically upgrade the historic Meek Estate. This project is not of sufficient priority to justify the use of limited state resources. Furthermore, I am unable to support the augmentation because this project could result in costs to the General Fund in subsequent years.

Item 3790-101-0235—For local assistance, Department of Parks and Recreation. I reduce this item from $1,190,000 to $1,060,000 by reducing:

(1) 80.25-Local Grants from $1,190,000 to $1,060,000,

and by deleting:

(a) City of Manteca: Woodward Community Park Development (30,000), and

(m) San Diego: Regional Teen Center (100,000).

I am deleting the $130,000 legislative augmentation for two local assistance grants from the Public Resources Account, Cigarette and Tobacco Products Surtax Fund. These projects are not of sufficient priority to justify the use of limited state resources.

Item 3790-301-0262—For capital outlay, Department of Parks and Recreation. I reduce this item from $2,500,000 to $2,262,000 by deleting:

(3) 90.EX.400 Backbone Trail: Frank Capra Property—Acquisition ($238,000)

I eliminate this project because the Backbone Trail acquisition is ineligible for the proposed funds as the property is not adjacent to an existing state park unit.

Item 3860-101-0001—For local assistance, Department of Water Resources. I delete this item and Provisions 1 and 2.

I am deleting this $7,000,000 legislative augmentation because alternative funding of $60 million is provided in SB 900, the state's "Safe, Clean, Reliable Water Supply Act" bond bill, which will be on the November 1996 ballot.

I delete Provisions 1 and 2 to conform.

Item 3910-001-0226—For support of California Integrated Waste Management Board. I reduce this item from $4,686,000 to $4,386,000.

I am deleting the $300,000 legislative augmentation to provide grants to 11 local conservation corps throughout the State for community cleanup and education programs. It is unnecessary to provide a special augmentation for local conservation corps as evidenced by the fact that no local conservation corps submitted an application in 1995-96 to access over $800,000 in available Tire Recycling Management grant funds. Local conservation corps typically are not involved in the type of projects funded by the Tire Recycling Management Fund, leaving no compelling

case for setting aside a special funding allocation in 1996-97 for local conservation corps. By earmarking funds for corps projects, this augmentation would limit the Waste Management Board's flexibility in allocating funds.

Item 3910-001-0387—For support of California Integrated Waste Management Board. I revise this item by reducing:

(b) 20-Waste Reduction and Resource Recovery from $33,707,000 to $33,557,000,

(c) 25-Tire Recycling from $4,686,000 to $4,386,000,

(h) Amount payable from California Used Oil Recycling Fund (paragraph (4) of subdivision (a) of Section 48653 of the Public Resources Code) from −$3,150,000 to −$3,000,000,

(j) Amount payable from California Tire Recycling Management Fund (Item 3910-001-0226) from $4,686,000 to $4,386,000,

and by deleting Provisions 3 and 4.

I am deleting the $150,000 legislative augmentation in schedule (h) to provide grants to 11 local conservation corps throughout the State for community cleanup and education programs. It is unnecessary to provide a special augmentation for local conservation corps because several million dollars in funding will be available for nonprofit grants for used oil projects in 1996-97. I understand further that all 11 local conservation corps have applied for these grants. In addition, by earmarking funds for corps projects, this augmentation would limit the Waste Management Board's flexibility in allocating funds.

I am revising this item to conform to the action I have taken in Item 3910-001-0226.

Item 4110-001-0001—For support of Area Boards on Developmental Disabilities. I reduce this item from $89,000 to $0 by reducing:

(a) 10-Area Board Services from $3,295,000 to $3,206,000.

I am deleting the $89,000 augmentation for the worker's compensation claim at Area Board VII because it is unnecessary. In total, the Area Boards have sufficient total resources to cover this claim. Even with reductions in the federal grant, the Area Boards budget for 1996-97 is $121,000 greater than the 1995-96 funding level and funding can be set aside for this claim. The Area Boards are funded solely with federal funds and providing a General Fund augmentation would set a precedent to fund future costs or reductions in federal funds from the General Fund.

Item 4130-001-0632—For support of the Health and Welfare Agency Data Center. I reduce this item from $180,038,000 to $180,037,000 by reducing:

(c) 30-Systems Management Services from $99,154,000 to $99,153,000

and by deleting Provision 8.

I am reducing this item by $1,000 and deleting Provision 8, which would require the Health and Welfare Agency Data Center and the Department of Social Services (DSS) to report specific Interim Statewide Automated Welfare System (ISAWS) fiscal, staffing and technology information to each budget committee by December 1, 1997. This language is unnecessary since the information is contained in Data Center information technology planning documents provided to the Legislative Analyst's Office which are reviewed and approved by the Department of Finance and the Department of Information Technology.

Item 4260-101-0001—For local assistance, Department of Health Services. I reduce this item from $6,464,384,000 to $6,460,505,000 by reducing:

(a) 20.10.030-Benefits (Medical Care and Services) from $15,074,072,000 to $15,066,314,000, and

(g) Amount payable from the Federal Trust Fund (Item 4260-101-0890) from −$9,516,737,000 to −$9,512,858,000

I am reducing this item by $3,879,000 to conform to actions taken in Item 4260-101-0890 and in Item 4300-101-0001 reducing the augmentations for community care facility rate increases.

Item 4260-101-0890—For local assistance, Department of Health Services. I reduce this item from $9,516,737,000 to $ 9,512,858,000.

I am reducing this item by $3,879,000 to conform to actions taken in Item 4260-101-0001 and in Item 4300-101-0001.

Item 4300-101-0001—For local assistance, Department of Developmental Services. I reduce this item from $453,806,000 to $452,946,000 by reducing:

(b) 10.10.020 - Regional Centers - Purchase of Services from $816,069,000 to $807,451,000, and

(e) Reimbursements from -$552,804,000 to -$545,046,000.

I am deleting $7,034,000 ($702,000 General Fund and $6,332,000 reimbursements) of the total legislative augmentation provided for a rate increase for Community Care Facilities. I recognize both the need to retain a reserve to meet unanticipated future need and the need to provide a discretionary rate increase in this program. I am providing funds for a three percent rate increase.

I am also deleting the $1,584,000 ($158,000 General Fund and $1,426,000 reimbursements) legislative augmentation for Community Care Facilities. The Legislature approved an additional rate increase for Community Care Facilities using the federal Supplemental Security Income (SSI) cost-of-living adjustment. In past budgets, SSI cost-of-living adjustments have been used to offset State costs for these facilities, and offsetting State costs is the more prudent use of this funding. Additionally, this augmentation is inconsistent with budget bill language which requires that SSI/SSP COLAs be used to offset General Fund costs for residential care services.

These deletions result in reductions of $860,000 in this item, $3,879,000 in item 4260-101-0001, and $3,879,000 in Item 4260-101-0890.

Item 4440-011-0001—For support of the State Hospitals, Department of Mental Health. I reduce this item from $219,689,000 to $214,889,000 by reducing:

(a) 20.10-Lanterman-Petris-Short Act from $176,504,000 to $171,704,000,

and by deleting Provision 14.

I am deleting the $4,800,000 legislative augmentation for the county costs of Lanterman-Petris-Short (LPS) patients at state hospitals who are "Murphy Conservatorship" patients. The 1991-92 State-local realignment funding mechanism provides counties with increasing fiscal resources to fund mental health services for LPS patients. I also note that in March 1996, the Commission on State Mandates determined that the costs associated with these patients were appropriately county costs and were not reimbursable as a state mandate.

I am deleting Provision 14 to conform to this action.

Item 4440-111-0001—For local assistance, Department of Mental Health. I reduce this item from $5,997,000 to $5,247,000.

I am deleting the $750,000 augmentation provided for expansion of the Caregiver Resource Centers. Although I recognize the importance of these centers, the general funding increase is not supported given that state resources are not yet sufficient to expand other high priority programs as well.

Item 4700-001-0890—For support of Department of Community Services and Development. I revise this item by reducing:

(b) 40-Community Services from $2,239,000 to $1,989,000, and

(e) Reimbursements from −1,320,000 to −1,070,000.

I am reducing the reimbursement expenditure authority by $250,000 to conform to the action I have taken in Item 2240-104-0001, which reduced the Farmworker Grant Program and designated economic development proposals.

Item 5100-001-0001—For support of Employment Development Department. I delete Provision 1.

I am deleting Provision 1 which would require the Employment Development Department to keep open the Compton Office until a new site is established and operating in the City of Compton. The lease on the current Compton Office has been extended for two years making this language unnecessary.

Item 5100-001-0870—For support of Employment Development Department. I am deleting Provision 4.

This provision would require the Employment Development Department to reduce positions for the Trade Adjustment Assistance and North American Free Trade Agreement Programs if federal funds are not available. This language is unnecessary. Federal funds for these programs have been stable. However, should federal funds be reduced, the department would reduce positions as appropriate consistent with current budget practice.

Item 5160-101-0001—For local assistance, Department of Rehabilitation. I reduce this item from $80,372,000 to $77,007,000 by reducing:

(b) 20-Habilitation Services from $80,510,000 to 77,145,000

I am reducing $3,365,000 of the legislative augmentation which would fund projected increased costs for Habilitation Services providers. After the reduction, funding remains for a discretionary rate increase equivalent to seven percent of existing base funding.

Item 5180-141-0001—For local assistance, Department of Social Services. I revise this item by reducing:

(b) 10.25-Automation Projects from $151,891,000 to $151,890,000; and

(d) Amount payable from the Federal Trust Fund (Item 5180-141-0890) from −$1,086,001,000 to −$1,086,000,000,

and by deleting Provision 12.

I am deleting Provision 12 which would require the Department of Social Services and the Health and Welfare Agency Data Center to develop a Statewide Automated Child Support System (SACSS) funding and implementation contingency plan in the event that enhanced federal funding is discontinued. The plan is to be submitted to the Legislature prior to October 1, 1997, the date by which SACSS must be fully implemented. If there is no enhanced federal funding, the requested information would be included in any request for funding to continue SACSS implementation after October 1, 1997. This information would be subject to legislative review through the normal budget process.

I am revising this item to conform to the action taken in Item 5180-141-0890.

Item 5180-141-0890—For local assistance, Department of Social Services. I reduce this item from $1,086,001,000 to $1,086,000,000 and revise Provision 2.

I am reducing this item by $1,000 and revising Provision 2 which would require, in part, the Department of Social Services to consider using the reimbursed retroactive enhanced funding for the Statewide Automated Child Support System for the Greater Avenues for Independence (GAIN) program. This language would add pressure to fund a specific program rather than reimburse the General Fund. Increased funding for GAIN should be considered along with other competing State priorities.

"2. Notwithstanding any other provision of law, upon receipt of retroactive enhanced federal funding for the Statewide Automated Child Support System and the County of Los Angeles ACSES (Automated Child Support Enforcement System) Replacement System (ARS), the Department of Finance shall increase this item by not more than $25,088,000 and Item 5180-141-0001 shall be reduced by the same amount. Within 30 days of receiving retroactive enhanced federal funding, the Department of Finance shall notify the chairperson of the committee in each house of the Legislature that considers appropriations and the Chairperson of the Joint Legislative Budget Committee. ~~If enhanced federal funds are received to reimburse the General Fund for augmentation pursuant to this item for the Statewide Automated Child System and the Los Angeles ACSES Replacement System (ARS), the Department of Social Services shall consider requesting an augmentation of up to $25,088,000 for the Greater Avenues for Independence Program.~~"

Item 5240-001-0001—For support of the Department of Corrections. I delete Provision 10.

I am deleting Provision 10 which would require the Department of Corrections to report to the Joint Legislative Budget Committee and fiscal committees on payments to individuals or organizations resulting from judgments or settlements in excess of $100,000 within 30 days after the date of payment. This language may violate confidentiality stipulations and I am instead requesting that the Department provide similar information but without the identifying factors required in this provision.

Item 5240-002-0001—For support of the Department of Corrections, Health Care Services. I delete Provision 2.

I am deleting Provision 2 which would require that the Department utilize psychologists who are competent in their field to practice to the fullest extent allowed under law and provide that professional staff who evaluate and recommend the qualifications of clinical psychologists for staff membership shall include members of the applicant's profession. This language could be construed to mandate the inclusion of psychologists on the Department's medical staff and appears to go beyond Health and Safety Code Section 1316.5, which only authorizes that psychologists be members of the medical staff and does not mandate their inclusion. Since current law only provides the authority to appoint psychologists as members of the medical staff, deviation from this would constitute not only contradiction of existing law, but would represent an infringement on the Administration's flexibility to operate its programs.

Item 5240-491—Reappropriation, Department of Corrections. I delete Provision 1.

I am deleting Provision 1 which restricts the fund availability to one year for the Statewide Electrified Fencing Project. Section 2.00 of the Budget Act provides that capital outlay construction appropriations, including reappropriations, are available for three years. This language is unduly restrictive and infringes upon the Executive Branch's ability to effectively manage its programs. This project should have the same fund availability as other capital outlay appropriations and reappropriations.

Item 5240-492—Reappropriation, Department of Corrections. I delete Provision 1.

I am deleting Provision 1 of this item which unduly restricts project fund availability to two years for the Pregnant and Parenting Women's Alternative Sentencing Program and the California State Prison - Riverside County II Prison (Ironwood State Prison) project. Section 2.00 of the Budget Act provides that capital outlay construction appropriations, including reappropriations, are available for three years. This language infringes upon the Executive Branch's ability to effectively manage its programs. These projects should have the same fund availability as other capital outlay appropriations and reappropriations.

Item 6110-002-0001—For support of Department of Education. I delete this item and Provision 1.

I am deleting the $60,000 appropriation for administration of the Conflict Resolution and School Violence Reduction Program. This appropriation is no longer necessary since this program has been amended in the education school safety trailer bill, AB 3492 of the 1995-96 regular session, and the funding for the revised program is provided in that bill.

I am deleting Provision 1 to conform to this action.

Item 6110-158-0001—For local assistance, Department of Education (Proposition 98). I revise this item by deleting Provision 6.

I am deleting Provision 6 because no legal authority currently exists to fund educational services for inmates in non-jail settings, such as community-based punishment options, as this language would suggest. The county jail facilities eligible to receive funding through the Adults in Correctional Facilities Program are specifically defined in statute. The language in this provision, therefore, represents a substantive policy change. I am supportive of this concept, and would consider signing legislation which allows inmates released from jails to be eligible for funding through the Adults in Correctional Facilities Program.

Item 6110-230-0001—For local assistance, Department of Education (Proposition 98). I delete Provision 10.

Provision 10 would authorize the Superintendent of Public Instruction to provide up to $100,000 in a grant to a district for a study of year round education in high schools. Notwithstanding any merits of the study, this language would result in reduced grants for school districts that are implementing year-round education.

Item 6120-221-0001—For local assistance, California State Library. I reduce this item from $20,870,000 to $15,870,000.

I am reducing the $12,000,000 legislative augmentation for the Public Library Foundation Program by $5 million. This will provide a $7 million increase for important public library services while maintaining a prudent General Fund reserve.

Item 6420-001-0001—For support of California Postsecondary Education Commission. I reduce this item from $2,810,000 to $2,560,000 by reducing:

(a) 100000-Personal Services from $2,356,000 to $2,352,000, and

(b) 300000-Operating Expenses and Equipment from $744,000 to $498,000.

I am deleting $250,000 included for the student financial aid study. I continue to support the need for such a broad-based study; however, due to the breadth and scope of the project, a study of this nature should be conducted by the California Research Bureau rather than the California Postsecondary Education Commission.

Item 6440-001-0001—For support of University of California. I reduce this item from $1,922,350,000 to $1,914,850,000 by reducing:

(a) Support $1,831,119,000 to $1,823,619,000,

The Legislature provided an augmentation of $5 million for the University Cooperative Research Program. I view this augmentation as one-time funding to begin the project. Future expenditures for this purpose should be funded within the higher education compact.

I am deleting the legislative augmentation of $7,500,000 for deferred maintenance. The University of California should address its deferred maintenance needs within the funding I have provided under the four-year higher education compact.

Item 6440-001-0658—For support of the University of California. I reduce this item from $10,000,000 to $5,050,000.

I am making a base reduction of $4,950,000 to this item in order to offset a legislative augmentation to the University's capital outlay budget of $4.9 million General Obligation Bond funds. This base veto will maintain the University's total General Obligation Bond fund expenditures at $150 million and will still enable the University to expend $10,000,000 on deferred maintenance, since the legislative augmentation in the capital outlay budget released an equivalent amount of University funds that can now be used for deferred maintenance.

Item 6610-001-0001—For support of the California State University. I reduce this item from $1,721,865,000 to $1,714,365,000 by reducing:

(a) Support from $2,405,091,000 to $2,397,591,000,

and by deleting Provision 7.

I am deleting the legislative augmentation of $7,500,000 for deferred maintenance. The California State University should address its deferred maintenance needs within the funding I have provided under the four-year higher education compact.

I delete Provision 7 to conform to this action.

The Legislature provided an augmentation of $5 million to support the Integrated Technology Strategies Initiative. I view this augmentation as one-time funding to begin the project. Future expenditures for this purpose should be funded within the higher education compact.

Item 6610-001-0890—For support of the California State University. I delete Provisions 2 and 3.

I am deleting these provisions because they are unnecessarily restrictive. They would limit the use of any funds received by the state under the federal "Goals 2000: Educate America Act," and would place restrictions on the use of the Control Section

28.00 process to ensure that unanticipated federal funds which are received by the state and appropriated by Control Section 8.50 are available for expenditure.

Item 6870-001-0001—For support of Board of Governors of the California Community Colleges. I reduce this item from $9,332,000 to $8,952,000 by reducing:

(a) 10-Apportionments from $ 1,045,000 to $1,039,000,

(b) 20-Special Services and Operations from $12,982,000 to $12,702,000,

(c) 30.01-Administration from $ 4,235,000 to $4,141,000.

I am deleting the augmentation of $380,000 to the community colleges budget because no adequate justification of its need was provided.

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges (Proposition 98). I reduce this item from $1,564,253,000 to $1,537,571,000 by reducing:

(a) 10.10.010-Apportionments from $ 1,247,884,000 to $ 1,221,884,000,

(t) 20.20.050 Part-Time Faculty Health Insurance ($500,000),

(v) 20.20.070 Student Senate ($182,000),

and by deleting Provision 16.

I am reducing this item by $26,000,000 which would provide funding for program improvement. This is a lower priority because there is no requirement to increase access nor the quality of instruction or student services under the program. I am willing to sign legislation which would appropriate these funds to the Community Colleges for increased student access.

I am deleting $500,000 which would provide funding for health benefits to part-time faculty members. I am supportive of the concept of ensuring that part-time faculty have access to health insurance, and would consider signing legislation which makes this easier to administer for community college districts but does not create an open-ended State obligation.

I am deleting $182,000 which would provide funding for the Student Senate. This augmentation inappropriately shifts a state operations cost historically funded through the Chancellor's Office to Proposition 98.

Item 6870-301-0658—For capital outlay, Board of Governors of the California Community Colleges. I reduce this item from $137,244,000 to $136,705,000 by reducing:

Mt. San Antonio Community College District

Mt. San Antonio College

(45.1) 40.33.109-Learning Technology Center—Preliminary plans and working drawings from $1,200,000 to $1,161,000.

I am reducing this legislative augmentation by $39,000 from $1,200,000 to $ 1,161,000 to reflect the most recent cost estimates for this project.

San Luis Obispo Community College District

Cuesta College

(60.1) 40.51-North County Satellite—Acquisition from $819,000 to $319,000.

The acquisition phase includes two major steps: site evaluation and selection, and site purchase. Since a new campus site has not been approved by the California Postsecondary Education Commission (CPEC) and the Board of Governors of the California Community Colleges (CCC), I am reducing this legislative augmentation by $500,000 from $819,000 to $319,000 to limit the scope to site evaluation and selection only. Funding for site purchase should not be provided until a new campus site has been approved.

Item 8965-001-0001—For support of Veterans' Home of California-Barstow, I revise Provision 2.

I revise this item by eliminating the language requiring 30 day legislative notification and approval before the fees or charges to residents of the Veterans Home can be increased. This language is an infringement on the separation of powers in that it usurps Executive Branch authority to effectively administer the Veterans Home.

"2. Notwithstanding Section 1012.3 of the Military and Veterans Code or any other

provision of law, the Department of Veterans Affairs may increase the fees and charges to residents of the Veterans' Home of California, Barstow ~~not sooner than 30 days after notification and approval in writing from the Chairperson of the Joint Legislative Budget Committee~~. The department shall assess the fees on an ability-to-pay basis, and under no circumstances shall the fees charged exceed the cost of the level of care provided to the resident. In addition, the department shall determine a reasonable level of monthly income for residents' personal use and shall exempt this income from the monthly fees."

SEC. 3.15—State Employee Mentoring Program. I delete this control section.

Chapter 901, Statutes of 1992, established the California Academic Volunteer and Mentor Service Act for the purpose of providing mentoring services. Chapter 901 also established the Office of Academic Volunteer and Mentor Service within the Office of the Governor for the purpose of administering the Mentor Service Act.

Consistent with the intent of the Volunteer and Mentor Service Act, I issued Executive Order W-132-96 in April 1996 which established the California Mentor Council for the purpose of providing 250,000 mentors from private and public organizations by the year 2000 to serve at-risk youth. This Executive Order also authorized State agencies to grant to state employees up to 40 hours per year of compensated time, matched by the mentor's personal time, to participate in the mentoring program.

Control Section 3.15, however, inhibits participation in the mentoring program and limits the State's ability to provide mentoring services to the California's at-risk children. For these reasons, I am deleting Control Section 3.15.

SEC. 3.20—Manager Information Requests. I delete this control section.

Current civil service reform and "California Competes" initiatives propose sweeping changes in the current State workforce system and the way it does business. These changes include the way employees are classified, the conditions under which the State's work may be contracted out to private firms, and the "right-sizing" of State organizations. Consequently, it is questionable whether the benefit that would be gained by developing personnel information based on the current workforce structure prior to determining the outcome and effects of the aforementioned workforce system reforms outweighs the cost of developing the information systems needed to respond to the request.

SEC. 3.30—Loaned Positions. I delete this control section.

Proposed Control Section 3.30 prohibits the expenditure of funds for any loaned position other than those authorized under Government Code Sections 12010.5 and 19050.8. This section also requires that positions loaned as of March 1, 1996 be returned by December 31, 1998.

Historically, loaned position authority has been granted under State law as a means of sharing program expertise and ensuring flexibility in the delivery of services. Additionally, loaned positions provide the Executive Branch with the ability to respond to workload demands without the necessity for permanent staff increases. Control Section 3.30 would infringe on that authority.

SEC. 10.00—Related to contracts for legal counsel. I delete this control section.

This section would limit attorney fees for outside counsel to $125 per hour, except for counsel requiring specialized legal skills. This section would also require the Department of Finance to review and approve or deny all contracts for legal services that provide for payment of a fee over $125 per hour.

I am deleting this section because it would create a cumbersome bureaucratic process for review of legal counsel contracts.

SEC. 24.80—State School Fund Allocations. I delete this control section.

I am eliminating this Budget Act language because it places arbitrary restrictions on the use of the Control Section 28.00 process to ensure that unanticipated federal funds which are received by the State and appropriated in Control Section 8.50 are properly reviewed by the administration and the Legislature. The provisions of Control Section 24.80 do not alter the appropriation authority contained in Control Section 8.50 for unbudgeted federal funds. Consequently, under the provisions of

Control Section 24.80, the Superintendent of Public Instruction would be permitted to expend unbudgeted federal Goals 2000 funds received in 1996-97 without prior review by either the administration or the Legislature.

With the above deletions, revisions and reductions, I hereby approve Senate Bill 1393.

PETE WILSON, Governor

2 [Ch. 204] On this date I have signed Assembly Bill No. 3488 with the following deletions.

Section 10 and Section 38. Providing Continuation School Adjustment Equalization. I am deleting subdivision (f) of Section 10 and I eliminate Section 38. These sections would provide $2,000,000 to equalize the continuation school revenue limit add-on on a per pupil basis. Because the law does not provide for any change to the continuation school revenue limit add-on from the original amount, and each continuation school's pupil population may vary annually, equalization is an unrealistic objective. This proposal is further complicated by the fact that for some districts, the continuation school adjustment was rolled into the district base revenue limit. Continuation schools provide important services to our pupils, such as functioning as the first safety net for at-risk pupils. While I cannot support the proposal in this bill, I would be receptive to reviewing a comprehensive proposal that addresses issues regarding continuation school funding formulas.

Section 18. Regarding the Community Colleges Block Grant. I am deleting subdivision (b) of Section 18. This subdivision would provide $2,100,000 for the Mt. San Antonio Community College MIS project. This MIS project could be modified in scope and funded through the various supporting colleges' portion of one-time block grant funds or ongoing funds, if it is a high priority at the local level.

Section 30. Regarding the Alhambra City High School District Loan. I am deleting this section. This section would provide a loan of $650,000 to the Alhambra City High School District to compensate for a loss of pupils due to a district reorganization. The district, however, is currently meeting its budget reserve requirements and shows no evidence that its fiscal solvency is jeopardized. Only in such cases would a loan be appropriate.

Section 41. Related to Adult Basic Education. I am deleting this section. This section would provide $6,400,000 adult education funds to provide to immigrants classes in basic skills, citizenship, English as a second language, and workforce preparation classes such as reading, writing, speaking, and problem solving. The 1996 Budget Act appropriates over $477 million for adult education programs, with $28 million in General Fund (pursuant tot he Immigration and Workforce Preparation Act) and $7.7 million in federal funds, specifically earmarked for the purposes described above. I believe those amounts should be sufficient to address the adult education needs of our immigrant population.

With the above deletions, I hereby approve AB 3488.

PETE WILSON, Governor

3 [Ch. 419] I have signed on this date Assembly Bill No. 2179. However, I am reducing item 3790-001-001(a) by $88,562.85.

This claim is to pay for attorney fees to an individual who received a $283,447 payment for his merit award suggestion. Regulations covering the merit award program do not allow for the payment of either interest or attorney fees. This individual received a substantial award and chose, on his own, to hire legal counsel in order to receive interest on the award amount.

The Merit Award Board Program is a voluntary program which monetarily rewards state employees for suggestions that save the state, and taxpayers, money. Retention of counsel was a decision made by an individual in an effort to compensate for what he considered to be an unreasonably long reimbursement process. Paying this claim

will set a troublesome precedent with respect to attorney fees and/or interest payments, neither of which belong in a voluntary program of rewarding cost-efficient suggestions.

PETE WILSON, Governor

4 [Ch. 949] I have signed on this date Senate Bill No. 1233, however, I am reducing the appropriation by $500,000.

This bill will provide additional growth funds for the community colleges, thereby increasing higher educational opportunities for approximately eight thousand full time equivalent students. However, a reduction is necessary to reflect my signature on AB 3099, which provides an incentive for districts to offer health benefits for faculty who work the equivalent of full time, but who are employed by two or more districts on part-time bases. This modest reduction is necessary because there are insufficient Proposition 98 funds to support both bills at the level requested.

PETE WILSON, Governor

5 [Ch. 950] This bill would make various changes to existing law regarding peace officer authority, training, and certification for deputy sheriffs involved in the supervision, security, and movement of inmates. Additionally, this bill would entitle Los Angeles safety police officers and public rangers to funding from the Peace Officers' Training Fund (POTF).

I am signing Assembly Bill No. 574, however, I am deleting the appropriation in Section 5 of the bill which would allow safety police officers and park rangers in Los Angeles County to be entitled to funding from the POTF. This provision would provide up to $45,000 directly to the County of Los Angeles under specified conditions.

Currently, the Commission on Peace Officer Standards and Training (POST) provides financial assistance to law enforcement agencies throughout the State to increase the effectiveness of law enforcement personnel through training and career development programs. Reimbursement funding is provided to eligible law enforcement entities on a priority basis to address the needs of law enforcement agencies involved in police work. Although the bill contains a number of provisions which I support, Assembly Bill 574 would set a precedent by making an appropriation directly to a local law enforcement group, thereby eliminating the ability of POST to prioritize the allocation of these limited resources. Additionally, I am concerned that this bill may encourage other law enforcement agencies to seek funding through legislation, rather than utilizing the discretion of POST to prioritize these funds. While this group of officers merit training, reserving funds for this group of officers would limit the resources available to reimburse the existing list of eligible law enforcement agencies. For these reasons, I am vetoing provisions of Section 5, paragraph (b).

PETE WILSON, Governor

6 [Ch. 1167] I have signed this date Senate Bill No. 1667. However, I am deleting the $19,823,000 and the $26,091,000 appropriations to the Department of Mental Health for expansion of services under the Children's Mental Health Services program for the 1997–98 and 1998–99 fiscal years.

The program proposed for expansion in this bill is consistent with the Administration's efforts in promoting preventive rather than remedial services. In recognition of its merits, the 1996 Budget Act augmented this program by $7,125,000. Further expansion of this program, however, should be decided as part of the annual budget process.

PETE WILSON, Governor

ELECTIONS CODE (as added by Stats. 1994, Ch. 920)—Continued

Note: Effective January 1, 1995.

See also Elections Code (1961:23) in this record for code effective only until January 1, 1995.

See Section 6 of Chapter 920 of the Statutes of 1994 for tables indicating the derivation of Elections Code sections as added by Chapter 920 and the disposition of former provisions of the Elections Code.
