Charter Chapter 9—City of Santa Rosa

Amendment to the Charter of the City of Santa Rosa

[Filed with the Secretary of State May 15, 1996.]

Section 58 is added to read as follows:

Sec. 58. Impartial and Binding Arbitration For Police and Fire Department Employee Disputes

(a) Declaration of Policy. It is hereby declared to be the policy of the City of Santa Rosa that strikes by firefighters and police officers are not in the public interest and should be prohibited, and that a method should be adopted for peacefully and equitably resolving disputes that might otherwise lead to such strikes.

(b) Prohibition Against Strikes. No City of Santa Rosa police department employee or fire department employee shall willfully engage in a strike against the City. Any such employee against whom the City brings charges of failing to report for work as part of a strike shall be subject to dismissal from his or her employment in the event the charges are sustained upon conclusion of the proceedings that are required by law for the imposition of disciplinary action upon said employee.

(c) Obligation to Negotiate in Good Faith. The City, through its duly authorized representatives, shall negotiate in good faith with any employee organization that is recognized by the City as the exclusive representative of a representation unit or representation units comprised solely of employees of the police department and/or fire department, as such units are currently constituted or as they may be amended through negotiation or arbitration as provided in this section, on all matters relating to the wages, hours, and other terms and conditions of City employment, including the establishment of procedures for the resolution of grievances concerning the interpretation or application of any negotiated agreement that includes a provision for binding arbitration of those grievances. Unless and until agreement is reached through negotiations between authorized representatives of the City and said employee organization or a determination is made through the impartial arbitration procedure hereinafter provided, no existing benefit, term or condition of employment for the fire department and/or police department employees represented by said employee organization shall be altered, eliminated or changed.

(d) Impasse Resolution Procedures.

(1) All disputes or controversies pertaining to wages, hours or terms and conditions of employment which remain unresolved after good faith negotiations between the City and said employee organization shall be submitted to a three-member Board of Arbitrators upon the declaration of an impasse by the City or by said employee organization.

(2) Representatives designated by the City and representatives of said employee organization shall each select and appoint one arbitrator to the Board of Arbitrators within three (3) days after either party has notified the other, in writing, that it desires to proceed to arbitration. The third member of the Arbitration Board shall be selected by agreement between the City and the employee organization, and shall serve as the neutral arbitrator and Chairperson of the Board. In the event that the City and the employee organization cannot agree upon the selection of the neutral arbitrator within ten (10) days from the date that either party has notified the other that it has declared an impasse, either party may then request the State Mediation and Conciliation Service of the State of

California Department of Industrial Relations to provide a list of seven (7) persons who are qualified and experienced as labor arbitrators. If the City and the employee organization cannot agree within three (3) days after receipt of such list on one of seven (7) persons to act as the neutral arbitrator, they shall alternately strike names from the list of nominees until one name remains and that person shall then become the neutral arbitrator and Chairperson of the Arbitration Board.

(3) Any arbitration proceeding convened pursuant to this Article shall be conducted in conformance with, subject to, and governed by Title 9 of Part 3 of the California Code of Civil Procedure. The Arbitration Board shall hold public hearings, receive evidence from the parties and cause a transcript of the proceedings to be prepared. The Arbitration Board, in the exercise of its discretion, may meet privately with the parties and mediate the issues in dispute. The Arbitration Board may also adopt such other procedures that are designed to encourage an agreement between the parties, expedite the arbitration hearing process, or reduce the costs of the arbitration process.

(4) In the event no agreement is reached prior to the conclusion of the arbitration hearings, the Arbitration Board shall direct each of the parties to submit, within such time limit as the Arbitration Board may establish, a last offer of settlement on each of the remaining issues in dispute. The Arbitration Board shall decide each issue by majority vote by selecting whichever last offer of settlement on that issue it finds most nearly conforms to those factors traditionally taken into consideration in the determination of wages, hours, benefits and terms and conditions of public and private employment, including, but not limited to the following: changes in the average consumer price index for goods and services; the wages, hours, benefits and terms and conditions of employment of employees performing similar services in comparable cities of similar population; and the financial condition of the City of Santa Rosa and its ability to meet the costs of the decision of the Arbitration Board.

(5) After reaching a decision, the Arbitration Board shall mail or otherwise deliver a true copy of its decision to the parties. The decision of the Arbitration Board shall not be publicly disclosed and shall not be binding until ten (10) days after it is delivered to the parties. During that ten (10) day period the parties shall meet privately, attempt to resolve their differences, and by mutual agreement amend or modify the decision of the Arbitration Board. At the conclusion of the ten (10) day period, which may be extended by mutual agreement between the parties, the decision of the Arbitration Board, as it may be modified or amended by the parties, shall be publicly disclosed and shall be binding on the parties. The City and the employee organization shall take whatever action is necessary to carry out and effectuate the arbitration award. No other actions by the City Council or by the electorate to confirm or approve the decision of the Arbitration Board shall be permitted or required.

(6) The expenses of any arbitration proceeding convened pursuant to this Article, including the fee for the services of the chairperson of the Arbitration Board and the costs of preparation of the transcript of the proceedings shall be borne equally by the parties. All other expenses which the parties may incur individually are to be borne by the party incurring such expenses.

b) The City shall study its workforce in comparison to the relevant labor pool to determine if there are manifest racial or gender imbalances in traditionally segregated job classifications. Charter Chapter 14—City of Napa

Amendment to the Charter of the City of Napa

[Filed with the Secretary of State May 29, 1996.]

Section 80 is added to read as follows:

Resolution of Disputes Regarding Wages, Salary or Benefits Between the City of Napa and Public Safety Employees.

Section 80.

A. Declaration of Policy. It is hereby declared to be the policy of the City of Napa that strikes by firefighters and police officers pose an imminent threat to public health and safety and should be prohibited, and that a method should be adopted for peacefully and equitably resolving disputes that might otherwise lead to such strikes.

B. Prohibition Against Strikes. No City of Napa police officer or firefighter employee, employee union, association or organization shall strike or engage in such concerted economic activity against the City of Napa. Disputes regarding wages, salaries or benefits unresolved by negotiations should be resolved by the procedure set forth therein. Any such employee who fails to report for work without good and just cause or who aids, abets or encourages strikes, or other such economic activity against the City of Napa shall be subject to disciplinary action, including, but not limited to, termination from the City of Napa employment, subject to the provisions of this charter, the City's Personnel Rules and Regulations and lawful procedures.

C. Obligation to Negotiate in Good Faith. The City of Napa, through its duly authorized representatives, shall negotiate in good faith with the recognized collective bargaining agents of city employees who are (1) peace officers as defined by California Penal Code Section 830 et seq and/or are identified as public safety members by the California Public Employees Retirement System (currently, the Napa Police Officers Association) or (2) firefighters or firefighter-paramedics as defined by California Penal Code 245.1 and/or who are identified as public safety members by the California Public Employees Retirement System (currently, the Napa Firefighters Association. Said employees are referred to collectively as "Public Safety Employees"), on all matters relating to the wages, salaries, hours and other terms and conditions of employment, including the establishment of procedures for the resolution of grievances submitted by any recognized collective bargaining agents of Public

Safety Employees, over the interpretation or application of any negotiated agreement, including a provision for binding arbitration of those grievances. Unless and until agreement is reached through negotiations between the City of Napa and the recognized employee organization(s) for the Public Safety Employees or a determination is made through the arbitration procedure as hereinafter provided, no existing benefit or condition of employment for the Public Safety Employees shall be eliminated or changed.

D. Impasse Resolution Procedures. All disputes or controversies pertaining to wages, hours or terms and conditions of employment which remain unresolved after good faith negotiations between the City of Napa and any recognized employee organization for Public Safety Employees shall be submitted to a three-member Board of Arbitrators upon the declaration of an impasse by the City of Napa or by the recognized employee organization involved in the dispute.

Representatives designated by the City of Napa and representatives of the recognized employee organization involved in the dispute, controversy or grievance shall each select one arbitrator to the Board of Arbitrators within three (3) days after either party has notified the other, in writing, that it desires to proceed to arbitration. The third member of the Arbitration Board shall be selected by agreement between the two arbitrators selected by the City of Napa and the employee organization, and shall serve as the neutral arbitrator and Chairman of the Board. In the event that the arbitrators selected by the City of Napa and the employee organization cannot agree upon the selection of the third arbitrator within ten (10) days from the date that either party has notified the other that it has declared an impasse, then either party may request the State of California Conciliation Service to provide a list of seven (7) persons who are qualified and experienced as labor arbitrators. If the arbitrators selected by the City of Napa and the employee organization cannot agree within three (3) days after the receipt of such list on one of seven (7) to act as the third arbitrator, they shall alternatively strike names from the list of nominees until only one name remains and that person shall then become the third arbitrator and chairman of the Arbitration Board.

Any arbitration convened pursuant to this section shall be conducted in conformance with, subject to and governed by Title 9 of Part 3 of the California Code of Civil Procedure.

At the conclusion of the arbitration hearings, the Arbitration Board shall direct each of the parties to submit, within such time limit as the Board may establish, a last offer of settlement on each of the issues in dispute. The Arbitration Board shall decide each issue by majority vote by selection whichever last offer of settlement on that issue it finds most nearly conforms to those factors traditionally taken into consideration in the determination of wages, hours and other terms and conditions of public and private employment, including, but not limited to, changes in the average consumer price index for goods and services, the wages,

hours and other terms and conditions of employment of other employees performing similar services, and the financial condition of the City of Napa and its ability to meet the cost of the award.

After reaching a decision, the Arbitration Board shall mail or otherwise deliver a true copy of its decision to the parties. The decision of the Arbitration Board shall not be publicly disclosed and shall not be binding until ten (10) days after it is delivered to the parties. During that ten-day period the parties may meet privately, attempt to resolve their differences, and by mutual agreement amend or modify any of the decisions of the Arbitration Board. At the conclusion of the ten-day period, which may be extended by mutual agreement between the parties, the decision of the Arbitration Board together with any amendments or modifications agreed to by the parties shall be publicly disclosed and shall be binding upon the parties. The City of Napa and the recognized employee organization shall take whatever action is necessary to carry out and effectuate the award.

The expenses of any arbitration convened pursuant to this section, including the fee for the services of the Chairman of the Arbitration Board, shall be borne equally by the parties. All other expenses which the parties may incur individually are to be borne by the party incurring such expenses.

There shall not be established for any position in the city service a regularly scheduled work day of more than eight hours or a regularly scheduled work week of more than five days, except that there may be established a regularly scheduled work day of up to ten hours for any position for which the regularly scheduled work week is not more than four days, or any other work week mutually agreed to between the City and a non-represented employee or between the City and a recognized employee organization. A member of the city fire fighting force shall be required to work, on a twenty-four hour day basis, not more than fifty-six hours per week on an average, said average to be determined in multiples not to exceed ninety days.

Section 910 is amended to read as follows:

SECTION 910. RETIREMENT AND/OR PENSION BOARDS.

Notwithstanding any other provisions in this Charter, the City of Fresno Fire and Police Retirement Board and the City of Fresno Employees' Retirement Board shall each consist of five members, selected as follows:

(a) two members elected by and from the City employees affected; and,

(b) two members from management appointed by the Mayor with the approval of the City Council; and,

(c) the fifth member chosen by the previously designated four members.

The members of such boards shall be removable only by the appointing or electing authority.

The Retirement Board shall appoint and direct a Retirement Administrator who shall report to the Board; serve at the Board's pleasure; administer the retirement office and its financial affairs as directed by the Board; appoint, suspend and remove subordinate employees subject to the Civil Service System provisions of this Charter; and perform such other administrative duties as directed by the Board.

Section 1208 is amended to read as follows:

SECTION 1208. COMPETITIVE BIDDING.

(a) Every contract involving an expenditure of city moneys of more than twenty-seven thousand dollars ($27,000) for materials, supplies, equipment or for public works construction, shall be let to the lowest responsive and responsible bidder after notice by publication in a newspaper of general circulation within the city by one or more insertions, the first of which shall be at least seven days before time for opening bids. This limit will be adjusted annually on the first of July to the nearest one thousand dollars ($1,000) in response to changes in the

National Consumer Price Index (United States City Average For All Products). The Council may reject any and all bids presented and may readvertise in its discretion. Such contracts may be let without advertising for bids, if such purchase shall be deemed by the Council to be of urgent necessity for the preservation of life, health or property and shall be authorized by resolution passed by at least five affirmative votes of the Council and containing a declaration of the facts constituting the urgency.

(b) All bids shall be accompanied by either a certified, or cashier's check, an irrevocable letter of credit, or a bidder's bond executed by a corporate surety admitted by the California Insurance Commissioner to do business in California, payable and acceptable to the city. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to therein, or if no amount be so specified, then in an amount not less than ten percent of the aggregate amount of the bid. A certificate of deposit or other instrument approved by Council may be accepted by the city in lieu of a bidder's bond. If the successful bidder neglects or refuses to enter into the contract within the time specified in the notice inviting bids or specifications referred to therein, the amount of the bidder's security may be declared forfeited to the city and may be collected and paid into its general fund, and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

(c) The provisions of this section shall not apply to work done by the city with its own personnel and/or equipment, or to materials, supplies, or equipment obtained or purchased from or through any governmental agency.

(d) All bids shall be submitted in a sealed envelope and shall be filed with the officer in charge of the purchasing function no later than the opening time specified in the notice inviting bids, who shall receive and be custodian of such bids and keep the same confidential until they are opened and declared.

(e) All bids received shall be publicly opened and declared at the time and at the place fixed in the notice inviting bids.

(f) Thereafter, the bids shall be tabulated and analyzed by the officer in charge of the purchasing function, who shall submit them, together with recommendations thereon, to the Chief Administrative Officer. The Chief Administrative Officer shall review the bids and submit them to the Council, along with his/her recommendations, at the next regular meeting of the Council.

(g) The Council shall have the right to waive any informality or minor irregularity in a bid.

(h) Notwithstanding subsection (a) above, the Council may by ordinance authorize the officer in charge of the purchasing function, in the evaluation of any or all sealed bids for the purchase of materials, supplies, equipment and/or public works construction pursuant to this section, to extend up to a five percent preference for a local business in award of all

contracts except for those contracts funded by the federal or state government when such funding would be jeopardized because of this preference. For purposes of this section, "local business" shall be as defined by Council within such ordinance.

(1) The amount of the preference shall be equal to the amount of the percentage applied to the lowest responsive and responsible bid.

(2) If the bidder submitting the lowest responsive and responsible bid is not a local business, and if a local business has also submitted a responsive and responsible bid, and, with the benefit of the preference, the local business's bid is equal to or less than the original lowest responsive and responsible bid, the city shall award the contract to the local business at its submitted bid price.

(3) The bidder shall certify, under penalty of perjury, that the bidder qualifies as a local business. The preference is waived if the certification does not appear on the bid.

(i) The Council may by resolution establish procedures and requirements for the debarment of any bidder who has been determined by the Council to be nonresponsible.

Section 1400 is amended to read as follows:

SECTION 1400. DIRECT PRIMARY AND GENERAL MUNICIPAL ELECTIONS.

(a) Beginning in 1996, direct primary elections for the nomination of candidates to be voted for at the ensuing general municipal election and for such other purposes as the Council may prescribe shall be held in the City on the same date as the statewide direct primary election as provided in the Elections Code of the State of California. Charter Chapter 18—City of Chula Vista

Amendments to the Charter of the City of Chula Vista

[Filed with the Secretary of State July 1, 1996.]

Section 303 is amended to read as follows:

Section 303. Vacancies.

A. When a Vacancy Occurs; Granting Permission for Absences.

If a member of the City Council is absent from four (4) consecutive regular meetings of the City Council scheduled and held, unless by permission of the City Council expressed in its official minutes contemporaneously with such absences or sooner, or is convicted of a felony or crime involving moral turpitude, or submits a letter of resignation to the City Clerk, the office shall become vacant as of the date of the last absence (in the case of four unexcused, consecutive absences from regular City Council meetings), the date of such conviction (in the case of conviction of a felony or crime involving moral turpitude), or the effective date of resignation as set forth in such letter of resignation, as applicable. The permission of the Council shall be granted for any temporary illness of the requesting Councilmember disabling him or her from attendance at such meeting. The City Council shall declare the existence of any vacancy or anticipated vacancy as soon as practicable.

B. Anticipated Vacancies with Intervening Consolidated Elections; Duration of Elected Replacee's Term.

If (1) a vacancy is expected to occur in an office of any member of the City Council or Mayor because of either the election of the current office holder to another seat on the Council or other office requiring the surrender of the City office seat, and (2) if, between the time the expectation of vacancy occurs (by final election results for the other

election contest having been announced) and the time the actual vacancy is expected to occur, any other federal, state or local (non-City) election involving all the electors of the City is scheduled to be held at such a time that permits a special election to be called and consolidated with such other federal, state or local election, then (A) the City Council shall call and request consolidation of such special election with such other election or elections, and (B) the vacancy so expected to be created shall be filled by such special election. A person elected in such special election to fill a vacancy shall serve for the remainder of the term of the office and until a successor qualifies.

C. Duty to Appoint; Duration of Appointed Replacee's Term; When Special Election Required.

Except under the circumstances hereinabove provided in paragraph B, the City Council shall use its best efforts in good faith to fill such vacancy by appointment within thirty days of their declaration of the existence of the vacancy.

1. Mandatory Appointment of Elected Successor Required.

If, at the time the Council is called upon to declare the existence of a vacancy, a successor to the seat has already been determined by election, and the successor is awaiting the seating date to commence her or his term of office, the Council shall forthwith appoint such successor to the vacant seat for the remaining term.

2. No Appointment Made; Duty to Call Special Election.

In the event Council shall fail to fill a vacancy by appointment within thirty days after such office shall have been so declared vacant, or sooner, if impasse is reached sooner, it shall forthwith cause a special election to be held to fill such vacancy. The successful candidate elected at such a special election shall be entitled to hold office for the remainder of the nominal terms of office for such seat.

3. Appointment Made; Length of Service; Next Election.

In the event Council shall make such an appointment, such an appointee office holder shall be entitled to hold office until the next city election called for any reason including but not limited to general municipal elections, general municipal runoff elections, special elections otherwise called, special runoff elections otherwise called (assuming the Charter otherwise continues to require same), recall, referendum or initiative elections, and until a successor subsequently qualifies. In addition to such other matters that may be placed on such ballot, at the call of such subsequent election, the Council shall also place on the ballot thereof, the office to which the appointee has been appointed. Upon certification of the results of said special election, the successful candidate for such office shall be entitled to hold office, subject to the usual causes for vacancy, for the remainder of any unexpired nominal term of said office, and until a successor qualifies.

4. Minimal Remaining Term.

Notwithstanding any other requirement herein to the contrary for calling a special election to fill a vacancy, if, after the election results

would be determined and the successful candidate seated, the remaining term of office would be nine months or less, the Council shall not call such special election. In such case, the Council shall comply with Section 303(C)(1) if a successor to the seat has already been determined by election. Otherwise, the Council's power to appoint within 30 days of declaration of vacancy is hereby extended for the duration of such minimal remaining term until filled. The Council shall use good faith and best efforts to reach agreement on such an appointment until they have declared an impasse, after which they may allow the seat to remain vacant for the duration of such minimal remaining term.

Said pension shall be paid to the widow during her lifetime and thereafter a pension in the same amount shall be paid in equal monthly installments to the legally appointed guardian of the child or children of such deceased member until such child or children shall have attained the age of eighteen years, or to his child or children should there be no widow until such child or children shall have attained the age of eighteen years, or to his dependent parent or parents during their lifetime or during such dependence, should there be no widow or child, provided, however, that during the lifetime of such widow an additional amount shall be paid to such widow for each child during the lifetime of such child, or until such child shall have married or reached the age of eighteen years, as follows: for one child, twenty-five percent (25%) of the pension allowed as hereinabove set forth; for two children, forty percent (40%) of such pension; and for three or more children, fifty percent (50%) of such pension. The phrase "child or children under the age of 18" shall comprehend and include, in addition to, a child who has not attained its 18th birthday as of the date of the member's death; any child who, before reaching the age of 18, has become unable to engage in any substantial gainful activity

by reason of any medically determinable physical or mental impairment which can be expected to result in death, or to be of long continued and indefinite duration. The allowance payable on account of every child shall cease when such child reaches the age of 18 unless such child was, or has become, disabled as in this paragraph provided, in which case payments on account of such a disabled child shall be continued for the duration of the disability. The Board of Administration shall have the power to hear and determine all matters pertaining to the degree and the duration of any child's disability and the determination of said Board shall be final and conclusive.

2. Upon the death of a family plan member, who has completed at least 120 months of death benefit plan service:

(a) If there be a widow, widower or children, of such member eligible to receive payments under Subsection 1 hereof, such payments shall be made as therein provided;

(b) Upon reaching age 62 the widow of such member, if she has not remarried and is not entitled to a widow's payment under Subparagraph (a) of this subsection, shall be paid a monthly pension of $104.80 so long as she remains unmarried;

(c) Upon reaching age 62 the widower of such member, if he has not remarried and is not entitled to a widower's payment under the provisions of Subparagraph (a) of this subsection, and if during the last year of the member's service he had received at least ½ of his necessary living expenses from such member, shall be paid a monthly pension of $104.80 so long as he remains unmarried;

(d) In the event such member is not survived by a widow, widower or children, but is survived by a parent or parents who during the last year of the member's service had received at least ½ of their necessary living expenses from such member, there shall be paid to each such parent a monthly pension of $95.30 if both parents survive or a monthly pension of $104.80 if only one such parent survives; provided, however, that no such payment shall be made to a parent who has remarried subsequent to the member's death, nor shall such payments begin before the parent has reached age 62, nor shall any payment be continued to a parent who remarries.

In order to qualify for the benefit provided in Subparagraph (c) and (d) of this subsection, the widower, parent or parents, as the case may be, must within a period of six months following the member's death, file with the Board of Administration a claim for such benefit payable at age 62, regardless of age at the time of such death, and establish to the satisfaction of said Board of fact of dependency as provided in said subparagraphs. Failure for any reason to file such claim within the time herein specified, shall forever bar the right of such widower, parent or parents, to assert a claim to such benefit.

Section 4. Section 512.3 is added to read as follows:

Section 512.3. Authority to Administer Supplemental or Alternative Retirement Plans.

(a) The Council may by ordinance adopted in accordance with Section 512.2 authorize the Board of Administration of the City Employees' Retirement System to administer retirement plans 1) for employees of the City who are not members of the City Employees' Retirement System or any other retirement system provided by this Charter, or 2) as a plan supplemental to any other pension or retirement plan established under this Charter. Such supplemental or alternative plans shall be separate and distinct from the City Employees' Retirement System and not subject to the definitions, conditions of entitlement or requirements applicable to that System.

(b) A separate fund or funds shall be created and established for the payment of administration expenses and benefits of any plan enacted under subsection (a), such fund or funds being administered by the Board of Administration. The source of funding for any such plan shall be determined by ordinance subject to the limitation that no assets of the City Employees' Retirement Fund shall be available for such purpose. The Board shall be responsible for the investment of the assets of any such plan in accordance with the fiduciary standards defined in Section 504.

(c) The Board shall be authorized to contract with one or more private firms to provide any and all services related to any such plan.

(d) The Board of Administration is hereby authorized to enter into agreements with other entities of the City which provide defined contribution retirement plans to serve as a third party administrator for the purposes of providing administrative or investment services for such other plans, subject to the limitation that no assets of the City Employees' Retirement Fund shall be used to provide such services.

The Charter is amended as follows: Article III by adding a new Section 32.4; Article XXII by amending Sections 219; 219.3; amending Section 220, Subsections (1), (2) and (3), all as detailed below:

Section 1. Section 32.4 is added to read as follows:

Section 32.4.

Notwithstanding any provision in this Charter to the contrary, the City Council, upon making a finding that it is in the best interests of the City to do so, may authorize by ordinance the Department of Water and Power to engage in any lawful business enterprise that is in the best interests of the City's inhabitants and that will not interfere with the Department's role as a provider of water and power to the City's inhabitants. Without limiting the foregoing, the City Council may by ordinance adopted by a two-thirds vote of whole Council and approved by the Mayor, or passed by three-fourths vote of the whole Council in the event of a veto by the Mayor, authorize the Department of Water and Power to provide electricity service and any other service or services which may be provided by another utility or direct competitor to any

person or entity, whether situated inside or outside the City or state. Water service, services or products that would be provided outside the Department's retail service area are specifically excluded from the provisions of this section. Nothing herein limits any right, power, or authority granted to the Department of Water and Power or to the Board of Water and Power Commissioners elsewhere in this Charter.

Section 2. Section 219 is amended to read as follows:

Section 219.

The City shall not sell, lease or otherwise dispose of its rights in the waters of said Los Angeles River, in whole or in part. No other water or water right, now or hereafter owned or controlled by the City, shall ever be sold, leased or disposed of, in whole or in part without the assent of two-thirds of the qualified voters of the City voting on the proposition at a general or special election, at which such proposition shall be lawfully submitted, and no water shall ever be sold, supplied or distributed to any person or corporation other than municipal for resale, rental or disposal to consumers or other persons.

Nothing in this section contained shall be construed to prevent the ordinary sale and distribution by the City of water and electric energy to its inhabitants for their own use, or to prevent the sale of electric energy to any other person or entity whether inside or outside of the City or to prevent the supplying or distribution by the City of surplus water or surplus electric energy to consumers or municipal corporations, as elsewhere in this Charter provided.

Nothing in this Charter shall prohibit the making from time to time by the Board of Water and Power Commissioners of arrangements in the interest of economy for the interchange and/or sale of surplus electric energy or standby or emergency service in connection with the transmission and utilization of power from the Colorado River or from any other source of electric power.

Notwithstanding any other provision in this Charter, the Board of Water and Power Commissioners shall have the power and authority to enter into contracts with any public agency for the exchange of water; provided that any such water so exchanged by the City shall be replaced in full to the City within a reasonable period.

Notwithstanding any other provision of this Charter, the Board of Water and Power Commissioners shall have the power and authority to supply and distribute, at rates fixed as provided in this Charter, reclaimed water to consumers served by the City within its limits, to consumers outside the City for their own uses and to public agencies outside the City for public uses and for resale, disposal or distribution to consumers within such agency's jurisdiction.

Section 3. Section 219.3 is amended to read as follows:

Section 219.3.

The Board of Water and Power Commissioners shall have power and authority (subject to authorization or approval by ordinance) to contract with others (including all or any of the following: the United States or any

of its agencies, any state or state agency, and any corporation, public or private, within or without the State of California), for the construction, ownership, operation and maintenance of an extra high voltage direct current transmission line and appurtenant facilities for the interchange of electrical power and energy between the Los Angeles area and hydro-electric generating facilities in the Pacific Northwest.

Any such contract may provide for a sharing of the use and benefits of such facilities and of the capital charges and other obligations associated therewith. The term of any such contract may extend over the period of the useful life of the facilities involved.

The Board of Water and Power Commissioners shall have power and authority (subject to authorization or approval by ordinance) to enter into contracts with any person or entity whether inside or outside of the City, for the sale, purchase or exchange of electric energy or electric generating capacity.

Section 4. Subsection (1), (2) and (3) of Section 220 are amended to read as follows:

Section 220(1).

(1) To construct, operate, maintain, extend, manage and control water and electric works and property for the benefit of the City and its inhabitants, and to acquire and take, by purchase, lease, condemnation or otherwise, and to hold, in the name of the City, any and all property situated within or without the City, and within or without the state, that may be necessary or convenient for such purpose.

Section 220(2).

(2) To regulate and control the use, sale and distribution of water and electric energy owned or controlled by the City; the collection of water and electric rates, and the granting of permits for connections with said water or electric works; and to fix the rates to be charged for such connections; and, subject to the approval of the Council by ordinance, to fix the rates to be charged for water or electric energy for use within or without the City, and to prescribe the time and the manner of payment of the same.

(a) Such rates for water and reclaimed water shall be so fixed at least every two years; provided that, except as hereinafter otherwise prescribed, such rates shall be of uniform operation, as near as may be, and shall be fair and reasonable, taking into consideration, among other things, the nature of the use, the quantity supplied and the value of the service; provided, further, that the rates inside the City may be less, but not greater, than the rates outside the City for the same or similar uses.

(b) Such rates for electric energy shall be so fixed at least every two years; provided that, except as hereinafter otherwise prescribed, such rates shall be of uniform operation for customers of similar circumstances, as near as may be, and shall be fair and reasonable, taking into consideration, among other things, the nature and quantity of the use by the customer, the value of the service, and the financial impact resulting from the use of that service to the electric works; provided further that

retail rates inside the City may be less, but not greater, than the rates outside the City for the same or similar uses.

Rates for electric energy may be negotiated with individual customers, provided that such rates are established by binding contract, contribute to the financial stability of the electric works, and are consistent with such procedures as the City Council may establish.

Section 220(3).

(3) (a) To supply and distribute, at rates fixed as hereinbefore provided, any surplus water owned or controlled by the City and not required for the use of consumers served by the City within its limits, to consumers outside the City for their own use, and to municipal corporations outside the City for municipal uses, or for resale, disposal or distribution, to consumers within their limits; provided, that the supplying or distribution of such surplus water shall, in any case, be subject to the paramount right of the City, at any time, to discontinue the same, in whole or in part, and to take and hold, or to distribute, such surplus water for the use of the City and its inhabitants; provided, further, that contracts for supplying surplus water by the City to municipal corporations outside the City, or for interchange of surplus water with any such outside municipal corporations, may be made by the Board of Water and Power Commissioners in the name of the City for periods not exceeding fifteen years, and upon such terms and conditions, and for such compensation to the City, as shall be prescribed by resolution adopted by the board and approved by an ordinance of the City; but in every such contract the right shall be reserved to the City to terminate the same upon three years' written notice to such municipal corporation, to be given by said board whenever it shall be determined and declared by resolution adopted by the board and approved by an ordinance of said City that the water to be supplied under such contract is required for the City of Los Angeles and its inhabitants; and every such contract must, before the execution thereof, be assented to by the majority of the qualified electors of said City voting upon the proposition at a general or special election at which such proposition shall be submitted.

(b) To supply and distribute, at rates fixed as hereinbefore provided, any surplus electric energy, owned or controlled by the City and not required for the use of consumers served by the City within its limits, to any person or entity whether inside or outside of the City.

Section 7. Sections 395 and 396 are hereby added to Article XXVIII under the caption of "Proprietary Departments" to read as follows:

PROPRIETARY DEPARTMENTS

Section 395. Revenue Bonds and Other Obligations.

(a) Revenue generating enterprises of the City including the Department of Airports, the Harbor Department and the Department of Water and Power (each a "Department") shall have the power to borrow money and to issue bonds, refunding bonds, notes and other evidences of indebtedness, and to otherwise incur revenue obligations, (collectively referred to herein as "Revenue Bonds") for any lawful purpose relating to such Department payable from the revenues of such Department and from any other moneys lawfully available to such Department or under its control, in such form and manner as shall be approved by the Board of such Department. The Council shall adopt procedural ordinance(s) (each a "Procedural Ordinance") which shall set forth the procedures under which such Revenue Bonds may be issued. The Procedural Ordinance(s) shall require that a resolution of the Board authorizing the issuance of Revenue Bonds be transmitted to the Council and to the Mayor for their approval or disapproval in the manner set forth in the Procedural Ordinance(s).

(b) No Revenue Bond issued or incurred by any Department under the provisions of this Section 395 shall constitute or evidence an indebtedness of the City or a lien or charge on any property or the general revenues of the City, but shall constitute and evidence an obligation of the applicable Department payable only from the specified revenues and other moneys of the applicable Department and each Revenue Bond shall contain a legend to such effect on the face thereof.

(c) So long as any Revenue Bonds issued or incurred under the provisions of this Section 395 and payable out of all or a portion of the revenues of a Department, shall be outstanding and unpaid, the Board of such Department shall fix rates for service from the municipal works to which such revenues pertains, and collect charges for such service, such as to provide revenues which, together with the other available funds of the Department, shall be at least sufficient to pay, as the same shall become due, the principal and interest on all such Revenue Bonds so outstanding payable out of such revenues, including premiums, if any, due upon the redemption of any thereof, in addition to paying, as the same shall become due, the necessary expenses of operating and maintaining such works, and all other obligations and indebtedness payable out of such revenues. If during such period the Council is required to approve such rates pursuant to other provisions of this Charter, the Council shall, by ordinance, which shall not be subject to referendum, approve rates so fixed by said Board for such service sufficient for the purposes aforesaid.

(d) Revenue Bonds shall be sold pursuant to a competitive bidding process; however, in appropriate situations Revenue Bonds may be sold

by private sale or in any other manner acceptable to the Department and the Council as authorized by a Procedural Ordinance, subject to the following conditions. The Board of a Department may authorize the sale of Revenue Bonds pursuant to private sale if the chief financial officer of the applicable Department determines that a private sale of such Revenue Bonds will be of benefit to the Department and provides written reasons therefor. Revenue Bonds may not be sold at private sale by a Department unless the Council, after receiving a report of the City Administrative Officer, has approved such private sale. The Council shall also be provided an opportunity, as set forth in a Procedural Ordinance, to disapprove the selection by a Department of underwriting firm(s) for the private sale of Revenue Bonds.

(e) (1) No underwriting firm which, within the prior twelve months, made one or more gifts totaling $50 or more, or one or more political contributions totaling $100 or more, to the Mayor, the City Attorney, any member of the Council, any member of the board of the department whose bonds are the subject of the sale, or any other City official having the authority to make or participate in making decisions concerning the sale, shall be selected by the Council or by a department of the City of Los Angeles as the underwriter for a sale of Revenue Bonds where the selection of the underwriting firm is made on a basis other than by competitive bidding (referred to hereafter as "noncompetitive sale"). An underwriting firm seeking such selection shall cause one of its officers to certify under oath that no such gifts or contributions were made. That certification shall be filed with the City Clerk prior to the date on which a selection is made. If the selected underwriting firm made any such gifts or contributions specified above, but the above certification was nevertheless made, the underwriting firm and any other person responsible for the error in the certification shall be subject to the same penalties as provided for violation of Section 312 of this Charter.

(2) No underwriting firm selected as the underwriter for a noncompetitive sale of Revenue Bonds shall make one or more gifts totaling $50 or more, or one or more political contributions totaling $100 or more, to any official referenced above during the twelve months after being so selected. Any person violating the provisions of this subdivision shall be subject to the same penalties as provided for violations of Section 312 of this Charter.

(3) A gift or contribution shall be considered as having been made by an underwriting firm if that gift or contribution was made by the firm itself; by any other business entity related to the firm as a parent, subsidiary or otherwise related business entity; by any political action committee controlled or primarily financed by the firm or by a business entity related to the firm as a parent, subsidiary or otherwise related business entity; by the president, chairman or chairwoman of the board, chief executive officer, or chief operating officer of the firm; by any vice president, assistant vice president or managing director employed in the public finance unit of the firm; by any other employee of the firm who

communicates with one or more City officers or employees for the purpose of influencing the City's selection of an underwriter for a particular bond issue; or by any person owning a 10% or greater investment in the firm.

(4) A contribution shall be considered as having been made to any of the officials referenced in Subdivision (1) above if it is made to the official or to any controlled committee of the official.

(5) Any term used herein which is defined in the California Political Reform Act of 1974, as amended, or in the regulations of the California Fair Political Practices Commission, as amended, shall have the meaning set forth in those provisions.

(6) No provision of this subsection shall require any person to do any act which is forbidden by federal law or to refrain from doing any act which is required by federal law.

(f) Proceeds of the Revenue Bonds may be invested in such obligations as are set forth in the applicable financing documents, provided that such obligations shall be authorized for the investment of moneys of the City, as further provided in a Procedural Ordinance.

(g) All of the provisions of this Section 395 shall be understood as relating only to Revenue Bonds issued under this Section 395. This Section 395 and the Procedural Ordinances adopted hereunder shall be complete authority for the issuance of Revenue Bonds hereunder, and no action or proceeding not required by this section or the Procedural Ordinances shall be necessary for the valid authorization and issuance of such Revenue Bonds. The approvals of the Council pursuant to the Procedural Ordinances shall constitute complete authority for the Departments to issue such Revenue Bonds consistent with the second paragraph of Section 32.3 of this Charter. The validity of Revenue Bonds reciting that they have been issued pursuant to this Section 395 shall not be affected by any provision or limitation contained in any other section or sections of this Charter. Notwithstanding Section 420.1 of this Charter, any required signatures to the Revenue Bonds issued pursuant to this Section 395 may be by facsimile or by autograph. Charter Sections 146, 229, 229.1 and 240 existing on June 1, 1996 shall remain in full force and effect after the adoption of this Section 395 and the amendments to said Sections 146, 229, 229.1 and 240 shall not take effect until the Council has adopted the Procedural Ordinance(s) provided for herein.

Section 396. Industrial, Economic and Administrative Surveys.

The Mayor and the Council, at least once in every five years, shall cause an industrial, economic and administrative survey to be made of the business and property of each of the Harbor Department, the Department of Water and Power and the Department of Airports by an

independent qualified industrial engineer or organization specializing in such surveys. Each such survey shall be made to ascertain if the surveyed Department is operating in the most efficient and economical manner. In each such survey the engineer or organization employed shall be selected by the Mayor and Council. The cost of each such survey shall be paid for from the funds of the surveyed Department. A copy of the report of each such survey shall be transmitted to the Council and the Board of Commissioners of the surveyed Department.

(d) Within 60 days following publication of the decennial federal census in the year 2000 and every decennial federal census after that, the Director of Elections shall report to the Board of Supervisors on whether the existing districts continue to meet the requirements of federal and state law and the criteria for drawing districts lines set in the Charter.

The criteria for drawing districts lines are:

Districts must conform to all legal requirements, including the requirement that they be equal in population. Population variations between districts should be limited to 1 percent from the statistical mean unless additional variations, limited to 5 percent of the statistical mean, are necessary to prevent dividing or diluting the voting power of minorities and/or to keep recognized neighborhoods intact; provided, however, that the redistricting provided for herein shall conform to the rule of one person, one vote, and shall reflect communities of interest within the city and county.

If it is determined that the districts are in compliance with all legal requirements, including the requirement that they be equal in population, the current districts as drawn will be valid for the next decade. If it is determined that any of the districts are not in compliance, the Board of Supervisors by ordinance shall convene and fund a nine-member elections task force. Three members shall be appointed by the Board of Supervisors, three members shall be appointed by the Mayor, and three members shall be appointed by the Director of Elections. The Director of Elections shall serve ex officio as a non-voting member. The task force shall be responsible for redrawing the district lines in accordance with the law and the criteria established in this Section, and shall make such adjustments as appropriate based on public input at public hearings. The

Board of Supervisors may not revise the district boundaries established by the task force.

(e) Each member of the board of supervisors, commencing with the general municipal election in November, 2000, shall be elected by the electors within a supervisorial district, and must have resided in the district in which he or she is elected for a period of not less than 30 days immediately preceding the date he or she files a declaration of candidacy for the office of supervisor, and must continue to reside therein during his or her incumbency, and upon ceasing to be such resident shall be removed from office.

(f) Notwithstanding any provisions of this section or any other section of the charter to the contrary, the respective terms of office of the members of the board of supervisors who shall hold office on the eighth day of January, 2001, shall expire at 12 o'clock noon on said date and the 11 persons elected as members of the board of supervisors at the general election in 2000 shall succeed to said offices on said eighth day of January, 2001. At that time, the clerk of the board of supervisors shall determine by lot whether the supervisors elected from the even- or odd-numbered supervisorial districts at the general municipal election in 2000 shall have terms of office expiring at noon on the eighth day of January, 2003, and which shall have terms of office expiring at noon on the eighth day of January, 2005; commencing, however, with the general municipal election in November, 2002, the terms of office of the supervisors elected from the even- or odd-numbered supervisorial districts, as the case may be, shall be for a term of four years and shall continue as such thereafter. Those members of the board of supervisors elected at the general election in 1998, and those elected at the general election 2000 who only serve an initial two-year term, shall not be deemed to have served a full term for purposes of the term limit established in section 2.101.

Section 14.103 is amended to read as follows:

SECTION 14.103. RECALL

An elected official of the City and County, the City Administrator, the Controller, or any member of the Airports Commission, the Board of Education, the governing board of the Community College District, the Ethics Commission or the Public Utilities Commission may be recalled by the voters as provided by this Charter and by the laws of the State of California, except that no recall petitions shall be initiated with respect to any officer who has held office for less than six months.

A recall petition shall include the signatures of voters in a number equal to at least ten percent of registered votes of the City and County at time of the filing of the notice of intention to circulate the recall petitions. A recall petition for a member of the Board of Supervisors shall include signatures of voters from the district from which the Supervisor was elected in a number equal to at least ten percent of the registered voters of the district at the time of the filing of the notice of intention to circulate the recall petition. A recall petition shall state the grounds on which the recall is based.

Upon certifying the sufficiency of the recall petition's signatures, the Director of Elections shall immediately call a special municipal election on the recall, to be held not less than 105 nor more than 120 days from the date of its calling unless it is within 105 days of a general municipal or statewide election, in which event the recall shall be submitted at such general municipal or statewide election.

This measure shall take effect on January 1, 2000. Upon passage of this measure, the City Attorney shall take necessary steps to include both the current Charter provisions and the amendments effected by this measure as part of the text of the Charter. On or after January 1, 2000, the City Attorney shall take necessary steps to delete the former Charter provisions from subsequent editions of the Charter.

Section A8.526-1 is added to read as follows:

SECTION A8.526-1. SUPPLEMENTAL COST OF LIVING BENEFIT

Starting on July 1, 1997, the Retirement Board shall establish in the Retirement Fund a Reserve Account. Funds in this Reserve Account shall be used to provide supplemental cost of living benefit adjustments to retirement allowances in addition to cost of living adjustments now provided for in the Charter. Funds placed in this Reserve Account shall consist of all earnings of the Retirement Fund in the previous fiscal year which are in excess of the expected earnings on the actuarial value of the assets. The expected earnings are the earnings projected by the actuarial assumption for return on assets that was in place for that fiscal year. The maximum amount of funds to be placed in this Reserve Account shall not exceed the amount of funds projected to be necessary to fund benefits provided pursuant to this section for that fiscal year and the following two fiscal years.

The funds in this Reserve Account shall be used solely to provide supplemental cost of living benefit adjustments as follows:

(a) On July 1, 1997 and on July 1 of each succeeding year, if there are sufficient funds in this Reserve Account, each retirement allowance or death allowance payable on account of a member who died, including retirement allowances subject to change when the salary rate of a member is changed, shall be increased by an amount equal to three percent (3%) of the allowance, less the amount of any cost of living adjustment provided pursuant to Section 8.526 and less the amount of any cost of living adjustment, payable in that fiscal year, which is the result of a change in the salary of the member.

(b) On July 1, 1997, if there are sufficient funds in this Reserve Account, each retirement allowance payable to or account of a member who was retired on or before December 31, 1979 as a member under Sections 8.507 or 8.509 or 8.584 shall be increased by a monthly amount equal to $3 for each complete year of retirement. In computing years of retirement, the Retirement System shall count completed fiscal years between the member's effective date of retirement and June 30, 1997.

The supplemental cost of living benefit adjustments described above will not be paid in any fiscal year in which there are insufficient funds in

the Reserve Account on July 1 to pay for full supplemental payments for that year. In that event, pensions will revert to the level they would have been if supplemental cost of living benefit adjustments had never been made.

If supplemental cost of living benefit adjustments are not made in any fiscal year, then, in subsequent years, excess earnings will be accumulated in this Reserve Account until there are sufficient funds to pay full year's supplemental cost of living benefit adjustment. Subsequent supplemental cost of living benefit adjustments will be based on the reduced pension level described above; that is, on the level pensions would have been if supplemental cost of living benefit adjustments had never been made.

Section A8.588 is amended to read as follows:

SECTION A8.588. MEMBERS OF THE FIRE DEPARTMENT AFTER NOVEMBER 1, 1976

A member retired after meeting the service and age requirements in the sentence next preceding, shall receive a retirement allowance equal to the larger of (a) two percent of final compensation for each of the first twenty-five (25) years of service, then three percent of final compensation for each year of service rendered in excess of twenty-five (25) years or (b) the percent of final compensation (as defined in Section 8.588-1) set forth opposite his or her age at retirement,

Section A8.588-3 is amended to read as follows:

SECTION A8.588-3. RETIREMENT FOR INCAPACITY

Any member of the fire department who becomes incapacitated for the performance of his or her duty by reason of any bodily injury received in, or illness caused by the performance of his or her duty, shall be retired. If he or she is not qualified for service retirement, he or she shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in Section 8.585-1, as his percentage of disability is determined to be. The percentage of disability shall be as determined by the Workers' Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five affirmative votes, adjust the percentage of disability as determined by said appeals board; and provided, further, that such

retirement allowance shall be in an amount not less than 50 percent nor more than 90 percent of the final compensation of said member, as defined in Section 8.585-1. Said allowance shall be paid to him or her until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years had he or she lived and rendered service without interruption in the rank held by him or her at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in Section 8.588-1, he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than fifty percent of such final compensation.

If, at the time of retirement because of disability, he or she is qualified as to age and service for retirement under Section 8.588-2, he or she shall receive an allowance equal to the retirement allowance which he or she would receive if retired under Section 8.588-2, but not less than 50 percent of said final compensation. Any member of the fire department who becomes incapacitated for performance of his or her duty by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least 10 years of service in the aggregate, computed as provided in Section 8.588-10, shall be retired upon an allowance of 1-1/2 percent of the final compensation of said member as defined in Section 8.588-1 for each year of service, provided that said allowance shall not be less than 33-1/3 percent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the fire commission or by said member or his or her guardian. If his or her disability shall cease, his or her retirement allowance shall cease and he or she shall be restored to the service in the rank he or she occupied at the time of his or her retirement.

Section A8.588-4 is amended to read as follows:

SECTION A8.588-4. DEATH ALLOWANCE

If a member of the fire department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his or her duty, a death allowance, in lieu of any allowance, payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but he or she had not retired, the allowance payable shall be equal to three-fourths of the retirement allowance which the member would have received if he or she had been retired for service on the date of death, but such allowance shall not be less than 50 percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance

payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, had he or she lived and rendered service without interruption in the rank held by him or her at death, and after said date the allowance payable shall be equal to three-fourths of the retirement allowance said member would have received if retired for service on said date, based on the final compensation he or she would have received prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation. If he or she had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to three-fourths of the retirement allowance of the member, except that if he or she was a member under Section 8.588 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died.

If there be no surviving wife entitled to an allowance hereunder, or if she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his or her child or children under said age, collectively, until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children under the age of 18 years, but leave a parent or parents dependent upon him or her for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

Section A8.588-5 is amended to read as follows:

SECTION A8.588-5. PAYMENT TO SURVIVING DEPENDENTS

Upon the death of a member of the fire department resulting from any cause other than an injury received in, or illness caused by performance of duty,

(a) if the death occurred after qualification for service retirement under Section 8.588-2, or after retirement service or because of disability which result from any cause other than an injury received in, or illness caused by performance of duty one-half of the retirement allowance to which the member would have been entitled if he or she had retired for service at the date of death or one-half of the retirement allowance as it

was at his or her death, as the case may be, shall be continued throughout his or her life or until remarriage of his surviving wife, or

(b) if his or her death occurred after the completion of at least 25 years of service in the aggregate but prior to the attainment of the age of 50 years, one-half of the retirement allowance to which he or she would have been entitled under Section 8.588-2 if he or she had attained the age of 50 years on the date of his or her death shall be continued throughout life or until remarriage of his surviving wife, or

(c) his or her death occurred after retirement for disability by reason of injury received in or illness caused by performance of duty, three-fourths of his or her retirement allowance as it was at his or her death shall be continued throughout life or until remarriage of his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date on which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died, or

(d) if his or her death occurred after completion of at least 10 years of service in the aggregate, computed as provided in Section 8.588-10, an allowance in an amount equal to the retirement allowance to which the member would have been entitled pursuant to Section 8.588-3 if he or she had retired on the date of death because of incapacity for performance of duty shall be paid throughout life or until remarriage of his surviving wife. If there be no surviving wife entitled to an allowance hereunder, or if she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his or her child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children, under age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death if the member had not retired, or unless she was married to the member at least one year prior to the member's retirement if he or she had retired.

As used in this section and Section 8.588-4 "surviving wife" shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member, but whose remarriage has been terminated by death, divorce or annulment within five years

after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section 8.588-8, in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the eligible child or children may make such election, and if there be no such children, the dependent parent or parents may make such election. "Qualified for service retirement," "qualification for service retirement" or "qualified as to age and service for retirement," as used in this section and other sections to which persons who are members under Section 8.588 are subject, shall mean completion of 25 years of service and attainment of age 50, said service to be computed under Section 8.588-10.

Section A8.588-6 is amended to read as follows:

SECTION A8.588-6. ADJUSTMENT OF ALLOWANCES

Every retirement or death allowance payable to or on account of any member under Section 8.588 shall be adjusted in accordance with the provisions of Subsection (b) of Section 8.526 of this charter.

Section A8.588-7 is amended to read as follows:

SECTION A8.588-7. ADJUSTMENT FOR COMPENSATION PAYMENTS

That portion of any allowance payable because of the death or retirement of any member of the fire department which is provided by contributions of the city and county, shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits other than medical benefits, payable by the city and county to or on account of such person, under any workers' compensation law or any other general law and because of the injury or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in, or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under such law and shall be in satisfaction and discharge of the obligation of the city and county to pay such benefits.

Section A8.588-8 is amended to read as follows:

SECTION A8.588-8. DEATH BENEFIT

If a member of the fire department shall die, before retirement from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause if no allowance shall be payable under Section 8.588-4 or 8.588-5 preceding, a death benefit shall be paid to his or her estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his or her estate or designated beneficiary the

amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

Section A8.588-9 is amended to read as follows:

SECTION A8.588-9. REFUNDS AND REDEPOSITS

Should any member of the fire department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his or her contributions, with interest credited thereon, shall be refunded to him or her subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he or she shall again become a member of the department, he or she shall redeposit in the retirement fund the amount refunded to him or her. Should a member of the fire department become an employee of any other office or department, his or her accumulated contribution account shall be adjusted by payment to or from him or her as the case may be to make the accumulated contributions credited to him or her at the time of change equal to the amount which would have been credited to him or her if he or she had been employed in said other office or department at the rate of compensation received by him or her in the fire department and he or she shall receive credit for service for which said contributions were made, according to the charter section under which his or her membership in the retirement system continues.

Section A8-588-10 is amended to read as follows:

SECTION A8.588-10. COMPUTATION OF SERVICE

The following time shall be included in the computation of the service to be credited to a member of the fire department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contribution for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposit upon re-entry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the police or fire department under Section 8.586 or 8.588 respectively.

(b) Time prior to November 2, 1976 during which said member was entitled to receive compensation while a member of the police or fire department under any other section of the charter, provided that accumulated contributions on account of such service previously refunded are redeposited with interest from the date of refund to the date of redeposit at times and in the manner fixed by the retirement board; and solely for the purpose of determining qualification for retirement under Section 8.588-3 for disability not resulting from injury received in, or illness cause by performance of duty, time during which said member serves and receives compensation because of services rendered in other offices and department.

(c) Time during which said member is absent from a status included in Subsection (a) next preceding, by reasons of service in the armed forces of the United States of America, or by reason of any other service included in Section 8.520 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the city and county contributed or contributes on his or her account.

Section A8.588-11 is amended to read as follows:

SECTION A8.588-11. SOURCES OF FUNDS

All payment provided for members under Section 8.588 shall be made from funds derived from the following sources, plus interest earned on said funds:

(a) There shall be deducted from each payment of compensation made to a member under Section 8.588 a sum equal to seven percent of such payment of compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his or her estate or beneficiary as provided in Sections 8.588-8, 8.588-9 and 8.588-10.

(b) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in Subsection (a) of this Section 8.588-11, to provide the benefits payable to members under Section 8.588. Such contributions of the city and county to provide the portion of the benefits hereunder shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to persons who are members under Section 8.588, said percentage to the ratio of the value on November 2, 1976, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid to or on account of members under Section 8.588 from contributions of the city and county, less the amount of such contributions plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members after said date, to the value on said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and

investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(c) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide benefits for members under Section 8.588, shall be a part of the fund in which all other assets of said system are included.

Section A8.588-12 is amended to read as follows:

SECTION A8.588-12. RIGHT TO RETIRE

Upon the completion of the years of service set forth in Section 8.588-2 as requisite to retirement, a member of the fire department shall be entitled to retire at any time thereafter in accordance with the provisions of said Section 8.588-2, and except as provided in the following paragraph, nothing shall deprive said member of said right.

Any member of the fire department convicted of a crime involving moral turpitude committed in connection with his or her duties as a member of the fire department shall, upon termination of his or her employment pursuant to the provisions of this charter, forfeit all rights to any benefits under the retirement system except refund of his or her accumulated contribution; provided, however, that if such member is qualified for service retirement by reason of service and age under the provisions of Section 8.588-2, he or she shall have the right to elect, without right of revocation and within 90 days of the termination of his or her employment, whether to withdraw all of his or her accumulated contributions or to receive as his or her sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his or her accumulated contributions at the time of such termination of employment.

Section A8.588-13 is amended to read as follows:

SECTION A8.588-13. LIMITATION ON EMPLOYMENT DURING RETIREMENT

(a) Except as provided in Section 8.511 of this charter and in Subsection (b) of this section, no person retired as a member under Section 8.588 for service or disability and entitled to receive a retirement allowance under the retirement system shall be employed in any capacity by the city and county, nor shall such person receive any payment for services rendered to the city and county after retirement.

(b) (1) Service as an election officer or juror, or in the preparation for or giving testimony as an expert witness for or on behalf of the city and county before any court or legislative body shall be affected by the provisions of Subsection (a) of this section.

(2) The provisions of Subsection (a) shall not prevent such retired person from serving on any board or commission of the city and county and receiving the compensation for such office, provided said compen-

sation does not exceed $100 per month.

(3) If such retired person is elected or appointed to a position or office which subjects him or her to membership in the retirement system under Section 8.588, he or she shall re-enter membership under Section 8.588 and his or her retirement allowance shall be canceled immediately upon his or her re-entry. The provisions of Subsection (a) of this section shall not prevent such person from receiving the compensation for such position or office. The rate of contributions of such member shall be the same as that for other members under Section 8.588. Such member's individual account shall be credited with an amount which is the actuarial equivalent of his or her annuity at the time of his or her re-entry, but the amount thereof shall not exceed the amount of his or her accumulated contributions at the time of his or her retirement. Such member shall also receive credit for his or her service as it was at the time of his or her retirement.

(c) Notwithstanding any provision of this charter to the contrary, should any person retired for disability engage in a gainful occupation prior to attaining the age of 55 years, the retirement board shall reduce that part of his or her monthly retirement allowance which is provided by contributions of the city and county to an amount which, when added to the amount of the compensation earnable, at the time he or she engages in the gainful occupation, by such person if he or she held the position which he or she held at the time of his or her retirement, or, if that position has been abolished, the compensation earnable by the member if he or she held the position from which he or she was retired immediately prior to its abolishment.

Section A8.588-14 is amended to read as follows:

SECTION A8.588-14. CONFLICTING CHARTER PROVISIONS

Any section or part of any section in this charter, insofar as it should conflict with the provisions of Sections 8.588 through 8.5888-13 or with any part thereof, shall be superseded by the contents of said sections, in the event that any word, phrase, clause or section of said sections shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

Section A8.588-15 is amended to read as follows:

SECTION A8.588-15. VESTING

Notwithstanding any provisions of this charter to the contrary should any member of the fire department who is a member of the Retirement System under Charter Section 8.588 with five years of credited service, cease to be so employed, through any cause other than death or retirement, he or she shall have the right to elect, without right of revocation and within 90 days after termination of said service, to allow his or her accumulated contributions including interest to remain in the retirement fund and to receive a retirement benefit, calculated at

termination, defined as that proportion of the normal service retirement benefit that his or her accrued service credit bears to 25 years, payable beginning at age 50.
