PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Speaker:

Preamble and resolutions adopted by the Los Angeles Ministerial Association:

WHEREAS, At the late election of California a majority vote was cast in favor of an anti-alien law, a movement directed not only against further immigration of Japanese into the State of California, but also among other things denying Japanese the right to buy and even to lease land for agricultural purposes, as well as depriving Japanese parents in California of the guardianship of the children born in this State; therefore, the Ministerial Association of Los Angeles and vicinity hereby places on

record its disapproval of such action, as well as the method of procedure, for the following reasons:

1. The whole subject of alien immigration is a national problem, and not one of a single state, and hence must be settled by the national government;

2. It is in conflict with the treaty now existing between the United States and Japan, said treaty between the United States and a foreign country being sacred and inviolable in every inch and corner of our country;

3. It is not in harmony with the spirit and the letter of our Declaration of Independence and of our national constitution.

4. It is at variance with the teachings and spirit of the New Testament, and hence it is unchristian, unjust and unrighteous.

The Japanese now in the United States, numbering only 100,000, as against over 2,000,000 Mexicans, are far less a menace to our civil, religious, economic and political life and institutions than hundreds and thousands of other aliens (still unnaturalized and un-Americanized) from Europe and the Near East. Among the Orientals now in the United States—Chinese, Japanese, Koreans and Hindus—there has not been found a single Bolshevist or anarchist. The Japanese in California are a law-abiding, industrious and peaceable class of people.

In all the agitation about the Japanese stranger within our gates, the sting that comes to the Japanese heart is not restriction or regulation of immigration, but discrimination against those Japanese who have been allowed in previous years to come to our shores under treaty rights and privileges.

In view of these considerations, and others that might easily be adduced, this Ministerial Association hereby authorizes this expression of our sentiments, countersigned by its president and executive secretary, to be sent to the Secretary of State at Washington, D. C., to Governor Stephens of California, to the presiding officers of the two Houses of the California Legislature at its next session, and also to the leading religious newspapers and magazines of this country as well as to such secular papers in California as will admit such views to their columns.

(Signed) RAY C. HARKER, President.
DAN A. TRUNDLE, Executive Secretary.

Also:

Resolution passed at State convention of the California State Rural Letter Carriers' Association:

WHEREAS, Section 2 of the Motor Vehicle Act provides for exemption of annual auto license tax on machines used in the service of the city, county or State, and has been interpreted so that privately-owned automobiles of the United States postal employees can not carry United States license plates because of the personal use of the automobiles on Sundays and holidays; therefore, be it

Resolved, That we ask the State Legislature to amend the act to exempt automobiles used primarily and for no other commercial purpose than to carry United States mail.

C. E. AUSTIN, Secretary.

MR. SPEAKER: I would indeed be very negligent in my duty and forgetful of a friend, if I did not supplement the resolution just introduced in memory of the late Hon. William E. Calahan, my immediate predecessor from Contra Costa County, who was called to the Supreme Legislator on Christmas Day, 1919.

Mr. Calahan, when a young man, did not have the opportunities to secure an education afforded to most of us; he being left an orphan at a very early age, and the desire to secure an education led him to many menial and arduous tasks in order that he might secure the funds necessary for an education, and from a barefoot boy trudging the roads of Contra Costa County, he had risen to the very high position in the State Legislature entirely by his own efforts

At the time of his death, Mr. Calahan was held high in the esteem of his constituency throughout Contra Costa County, which he so ably represented in this Legislature. One of the greatest tributes that I could pay him as his successor in office would be, to quote the creed of one of the greatest fraternal organizations in the world, and a creed that all citizens of this commonwealth would do well to practice in their daily lives—"The sins of our brothers we write upon the sands, their virtues upon tablets of love and memory."

Resolution read, and on motion adopted unanimously by a rising vote.

MOTION.

Mr. Parker moved that when we adjourn this day we do so out of respect to the memory of the deceased Assemblymen of the forty-third session of the Legislature, and to the late William M. Collins, Assemblyman-elect to the forty-fourth session of the Legislature, and to the late John H. Martin, former Chief Clerk of the Assembly, and to Mrs. Bismarck Bruck, wife of former Assemblyman Bismarck Bruck.

The question being on the motion.

Mr. Parker spoke as follows:

Since the close of the forty-third session of the California Legislature the grim reaper has called five members of this Assembly.

I have had the pleasure of serving with them all.

Short weeks ago these loved members arose and were thrilled with the dawn; they performed their daily tasks—saw sunsets glow. They lived and loved and were loved.

Could one of them today enter that door—could William Collins at this moment rise from that desk and speak, with what rapt attention would we listen to his every word.

A. P. Fleming, Charles Lamb, Nicholas J. Prendergast, William E. Calahan, William M. Collins—you have answered the supreme roll-call. We will miss you all.

We sorrow with your friends as we pause in our legislative duties to pay you our tribute of remembrance.

Motion carried.

RECESS.

At eleven o'clock and forty minutes a.m., on motion of Mr. White, the Assembly was declared at recess until two o'clock p.m. of this day.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

SECOND BIENNIAL MESSAGE TO THE LEGISLATURE OF THE STATE OF CALIFORNIA.

To the Senate and Assembly:

In obedience to my constitutional duty, I am presenting to you herewith my biennial message and report of the affairs of our State covering the period since the adjournment of the Legislature in April, 1919.

While the war problems confronting the entire world at that time, and affecting necessarily our own State, no longer so vitally concern us, still the more intricate problems connected with the readjustment process are now fully upon us. Their solution has not yet been completely attained. It was to have been expected that with five years of hatred and bitterness, destruction of property and impairment of character and morale, a stunned civilization would reel aimlessly for some period of time and until sounder judgment, clearer vision and calmer passions had restored the world to normal conditions.

I refer to this world situation, because in almost every way, our country and our State are deeply concerned—indeed, the economic life of the world is but a unit of which every country and people on earth are a part. Europe is, however, staggering to her feet again The debt that she has accumulated is an almost insupportable burden, and the calmest wisdom and keenest judgment are essential to her full recovery.

This world condition, which has affected the people of the State of California, presents elements of latent danger to the institutions under which we have lived and succeeded. Obedience to the law and the orderly processes of government are cornerstones upon which the structure of free government rests, and it is of prime importance that in this economic turmoil, through which we must necessarily pass, we do not complicate our difficulties by toleration of any attack upon these fundamentals. A free people exercise their governmental functions and attain their political ideals through instrumentalities of their own selection, and any attack made upon these means chosen by a free people, of expressing their will, is necessarily an indirect attack upon the ability of the people to govern themselves

Our constitutional forms have been the medium through which our people for more than one hundred and forty-four years have developed their aspirations They contain within them means for their own modification or alteration to keep step with the evolution of the times. They are the model by which a majority, subjected to certain rational limitations, operates government, and, as such, should be most religiously cherished against any foolish or criminally conceived theories developed in the hectic minds of an insignificant number of our people. Bolshevism, I. W. W.ism, anarchism and all the other fanatical and destructive fantasies or disorders of criminal minds have been denounced in this State by the Anti-syndicalism bill passed by the last legislature, whose provisions have so materially assisted in the preservation of order these last two years. Any attempt at this time to interfere with or modify in any sense its salutary provisions should be most sternly resisted.

The deplorable incident which happened in this State recently, and in which three wretches suffered summary execution at the hands of a mob, serves to remind us of a growing discontent of our people with the administration of criminal justice and their slackening faith in the effectiveness of our courts in dealing with crime commission. While it is true that every effort should be made by society to redeem those of its members who have criminally fallen by the wayside, it is imperative that the too prevailing indulgence with criminals and criminal tendencies which has, in a measure, encouraged crime, must be brought to a stop. Security of life, home and property and the sanctity of our women are the essentials of social existence, and no dangerous promptings of pity to malefactors should be tolerated. Mob violence, after all, is a physical manifestation of discontent with the processes of criminal justice. I recommend to your consideration, therefore, such a revision of our penal statutes as will insure to the people of this State a speedy and effectual mode of dealing with crime and criminals and of protecting the law-abiding from their depredations and assaults

A mere revision of law, however, will not accomplish the full purpose that the people have in mind. There must be an end to the infinite delays attendant upon the prosecution of so many of our criminal charges. It has been wisely said that delayed justice is denied justice, and if the spirit of this axiom could but be instilled into the minds of all those charged with the administration of the law, more could be accomplished toward a remedying of these evil conditions than by mere legislation.

The people of our country have other and more important things to consider without being embarrassed by a series of criminal depredations. We have the vision of the new adjustment, the development of a new economic future staring us immediately in the face.

The power of the State of California to deal with economic problems is, of course, limited by the inflexible economic law. We are but one of the states of this Union, and, as such, being part of a common country, are subjected to the same economic forces, influenced by the same economic and political legislation as the rest of the country. The most that the State can do is to use every opportunity, even to the extent of frugality, where that frugality is not wastefulness, to husband the resources of our State, to limit so far as possible its expenditures; to develop all latent powers of wealth, equipping ourselves, as nature has so bounteously enabled us to do, with the inexhaustible power of our water resources, and our fuel oil; and with this all, practicing a rigid economy.

In furtherance of this principle of rigid economy, I will shortly recommend to you the consolidation of certain State agencies wherever such consolidation can eliminate unnecessary duplication and cut down unnecessary expense. A complete plan of consolidation, unfortunately, cannot be prepared, because many of our commissions are constitutional commissions, while others in turn are only statutory. Manifestly, legislation cannot be enacted trenching in any degree on the functions and powers of the constitutional commissions or offices It is ever to be borne in mind, of course, that the large, social, humanitarian and industrial work outlined for our commissions and departments to perform must not be interfered with to the impairment of service. These boards and commissions, in the main, have rendered good service and have performed exactly the work for which they were created. A financial frugality that is obtained by curtailing service is an economic loss and not a saving.

I call to your serious attention the fiscal problems that have been presented to the State of California within the last two years by legislation enacted by the people directly. Our fiscal offices until recently felt assured that prevailing income and revenue would be ample to provide for all necessary State expenditures, and that no unusual tax would be made upon the people of the State. At the last election, however, the people voluntarily assumed an additional large burden of taxes by passing legislation calling for heavy appropriations, and it is because of this voluntary action of the people themselves that the financial difficulties referred to have arisen.

I am, indeed, glad of the increase in teachers' wages and that finally justice is rendered to an important class of our community whose pecuniary compensation has been utterly disproportionate to the invaluable service rendered. The cost is going to be a high one, but I deem the obligation a just one. The measure providing for a new teachers' wage is estimated to impose an additional financial burden of over thirteen millions of dollars biennially; the highway bonds involve an additional financial burden of approximately four millions of dollars biennially. In other words, these two measures alone, adopted by the people by means of the initiative, mean an increased biennial expenditure of about seventeen and one-half millions of dollars. Means must, of course, be found to raise these sums of money in order to carry out the will of the people.

And while speaking of the subject of education, I strongly urge some enunciation of policy on the part of the State towards the University, which will enable the Regents of that institution of learning to make their general plans with some reasonable assurance of having successive legislatures give them the necessary financial aid. I think it is well understood that public moneys can not be spent except by proper legal appropriation; therefore, I think a fair, generous and consistent policy of dealing with the University and its needs should be followed.

I deem it quite appropriate to mention the fact that during my administration as Governor the State tax rate has not been raised a single cent, despite the fact that in the same period of time taxes have been materially raised by every city and county within the State.

It is also happily true that during the last four years of stress and strain, in which we have seen money values drop approximately fifty per cent and prices correspondingly rise, California has kept well within the limits of her revenues and is today in as sound and stable a financial condition as any other State in the Union. It is well to pause and reflect upon everything that this signifies.

All thoughtful persons recognize that the period through which we have been passing since the close of the war has been a most extraordinary one, and the results have been far-reaching and largely unexpected in so far as they have affected both our economic and social conditions. Instead of an expected immediate readjustment of prices downward toward pre-war conditions, there has been a steady and sharp increase in labor and all material costs, until within the very few past months. The purchasing power of the dollar has steadily decreased while all living costs have rapidly increased. These conditions have affected all classes of business and have touched every individual. They also have directly affected the costs of State and local government.

Neither in our private nor in our public affairs is it safe to measure the present or the future by the standards of the past, rendered obsolete by changed conditions. All of us, taxpayers and officials alike, must face the fact, however disagreeable it may be and however much we may wish it otherwise, that governmental costs as well as all other costs can not reasonably be expected to return to the levels that were prevalent under pre-war conditions.

The State Board of Control is now estimating the relative burden of taxation borne by private taxpayers and by those public utility corporations from which the State derives its income, and I am advised that the figures indicate that an additional tax can be imposed upon the public service corporations which would not be disproportionate to the common tax paid by all. In any event, however, more than seventeen millions of dollars of additional revenue must be found somewhere, even if it comes to the necessity of imposing an ad valorem tax. Every means will be sought to avoid such a tax and it will be resorted to only in the event that this tremendous additional tax burden voluntarily assumed by the people themselves at the last election can not be taken care of in any other way.

In addition to the increased revenues to be raised to meet the needs of legislation recently adopted by the people, we are confronted with a pressing condition of affairs in our State University and the State institutions deserving of your most serious reflection. I am speaking now not of current revenues for current disbursements, but of moneys vitally needed for permanent improvements such as buildings, halls, laboratories, hospitals, etc. There can be no question in the mind of anyone who has visited our State University of its urgent need for a considerable sum of money for the erection of structures to take care of the 10,000 students who throng its halls of learning. The University is the highest seat of learning of the people of this State. Its popularity is attested by the increasingly larger attendance that crowds to its doors year by year. As a part of our State system of education, its doors are open without charge to the students. It will not be challenged that education is one of the prime functions of government, particularly of the government of a free people. Means must be immediately devised for taking care of the sons and daughters of California who are seeking their education in the halls of our University. The Board of Regents has indicated that a minimum of $5,000,000 will be required for the erection of such permanent structures as will reasonably accommodate the needs of the University.

In addition to the University, we find a deplorable condition of overcrowding in every one of our State institutions. Our hospitals, our reformatories, are all seriously overcrowded, and unless steps are promptly taken to supply existing needs the State may be compelled regretfully to acknowledge dereliction in duty. A survey presented to me indicates another $5,000,000 to be requisite to take care of the erving needs of our public institutions. The needs to which I refer are for permanent structures and in no sense for running costs. We have here, therefore, some $10,000,000 most urgently needed in the various public institutions of the State for permanent improvements and for the erection of permanent structures. Such a sum cannot be drawn out of the usual revenues of the State. Nor would it be fair that the entire burden of these improvements should be borne by the taxpayer of today. The benefits will flow to the coming generation and a part of the burden should be borne by that generation. I recommend, therefore, the necessary legislation for a submission to the people of the State of a bond issue of $10,000,000 to cover the cost of erecting these permanent structures for the University and institutions of this State.

Along the line of economic development, I believe one of the most important sources of wealth within our border, thus far only partially developed, is hydro-electric energy. Our State with its mighty sweep of snow-clad mountains is a natural storehouse for developing a volume of energy that will largely supplant coal and oil. I am most heartily in favor of encouraging its development to the maximum extent consistent with public policy. In these modern days, water and power have become the necessities of actual living—less important only than air—and wherever the means can be created for the development and the utilization of these latent resources of the State without sacrificing the public good to private and selfish advantage, I am most heartily in favor of such measure. More strongly do I feel so now in view of the general fuel situation in our State. California, without coal fields of any kind, has learned to depend upon fuel oil, and now the demands of industry upon fuel oil are greater than oil development.

The economic seriousness of the situation has been most forcibly presented to my mind by the drought of the last few years, which has compelled the public utility corporations, on account of lack of water-developed energy, to resort in larger quantities to that developed out of oil.

During the last year the citizens of California have been confronted with a shortage of water for irrigation and for power purposes. In some sections of the State this shortage became so acute that it placed a limit upon production. While this shortage now has passed and copious early rains give indication that it will not recur during the coming year, the situation through which we have just passed gives emphasis to the need of impounding every available drop of water and preventing, so far as possible, any future shortage either of water or electric power.

Happily, hydro-electric power development and irrigation go hand in hand. Almost every drop of water may be made to do a double duty. Before being ultimately used

for irrigation, it may be made to produce electric energy. The power produced from falling water is the cheapest power yet discovered by man. This cheap power, applied to industry, will make California a leading manufacturing State.

California already is in the front rank in production of hydro-electric energy. No other state, save one, now has or possibly can develop so much hydro-electric power. Great as our development in this direction has been, it is, however, but a small part of the potential development under wise and carefully considered plans that will utilize to the fullest extent and without waste the possibilities that exist.

I am most happy to refer to the overwhelming vote with which the people of California adopted the Anti-Alien Land bill, and to express the hope that the new statute may to a material extent meet the land problem developing within our borders this past decade. This State has the unquestioned right to regulate the ownership of its lands within its borders, and in the exercise of that right has resorted to the Anti-Alien Land Law The step was made necessary by a real and growing menace. California, however, cannot by legislation prevent the admission of Japanese into the United States. That question must be left to the Federal Government.

Since the adjournment of the last Legislature, our State Board of Control has made an exhaustive report of the entire Oriental situation as it exists within our State, copies of which were duly forwarded to all the members of the last Legislature, and additional copies of which are available. Shortly after its presentation to me, I forwaded the report to the Secretary of State at Washington, together with my letter of transmittal, in which I sought briefly to present to the State Department the views of the people of our State.

I have also taken steps to keep the members of Congress advised of the California attitude on this Japanese question, having transmitted to each of them copies of the report made by the State Board of Control, together with my letter of transmittal to the Secretary of State. In addition, I have particularly called to the attention of the representatives of the Pacific Coast States the common interest which all of the states bordering on the western ocean must have in this question that has arisen. We stand as a common bulwark against the orientalization of our western civilization, and I have no doubt that the people of the entire Pacific Slope feel as the people of California feel on this subject.

I shall take the liberty from time to time, as questions concerning the State arise, to communicate further with you, laying before you such problems as may come up and recommending such methods of dealing with them as suggest themselves to my mind. I cannot conclude, however, without expressing sincerely the pleasure I feel at having your cooperation in these important matters of state affecting the good of our whole people Animated as we are by the one purpose of serving our people, we can, with quickened zeal, apply ourselves to the task before us with mutual confidence and with common strength The people of the State of California look to us to serve the best interests of the State of California Let us so strive that when the session is adjourned each of us may with clear conscience return our accounting to the commonwealth.

In conclusion, let me call your attention to the printed reports of the various departments of state now on file and available for your earnest study. The information and statistics contained therein will be found valuable and helpful in all legislation dealing with the respective departments

PRESENTATION OF PETITION.

The following petition was presented, and ordered printed in the Journal:

By Mr. Kline:

WHEREAS, The grand jury of the county of Riverside, for the year 1920, has had brought to its attention the matter of the increase in crime in the county of Riverside and throughtout the State in general; and

WHEREAS, From said investigation it appears that there has been a perceptible and noticeable increase in crimes of violence throughout the State and in this county, and

WHEREAS, It also appears that in the majority of such cases such crimes have been committed by persons paroled from the State Prison after a short term

therein, in accordance with the provisions of the act of the Legislature approved May 18, 1917, and known as the "Indeterminate Sentence Law", and

WHEREAS, It further appears to the grand jury that where individuals charged with crime are entitled to probationery treatment, the judge of the superior court who hears the evidence is acquainted with the facts and sees and hears all of the witnesses, is in a better position to determine for what length of time, if any, such person should be confined, and is in a better position to determine whether or not such persons are entitled to probation, and if so, to grant the same in the first instance; now, therefore, be it and it is hereby

Resolved, That this body is opposed to the Indeterminate Sentence Law in this State, and thinks it for the best interests of society at large that said law be repealed, that the power be given to the judges of the superior court to pronounce sentence upon defendants found guilty of crime for a fixed period within the minimum and maximum periods prescribed by law; that probation and parole be made the exception rather than the rule in criminal cases, be it further

Resolved, That the secretary of the grand jury be and she is hereby instructed to include a copy hereof in the report of the grand jury, and to send a copy of this resolution to the representative of this district in the California Assembly and the State Senator for the district in which this county is included.

Dated: December 30, 1920.

W. A. JOHNSON,
Chairman of the Grand Jury.

Bills to Be Reported Back to Committees.

39. All committees shall act upon bills, constitutional amendments and resolutions referred to them as soon as practicable, and when acted upon each bill shall be reported back to the Assembly forthwith, and the chairman of each committee is charged with the observance of this rule, *provided*, that the Assembly may at any time, by a majority vote of all its members, recall a bill, constitutional amendment or resolution from any committee.

3. Bills affecting town, city, city and county governments, or the municipal affairs of the same.
4. Bills amending election or primary election laws.
5. Constitutional amendments.
6. Bills amending or repealing the Codes, or sections thereof.

It shall always be in order to call up for consideration such report. The same shall be subject to amendments by the House.

On the adoption of such temporary rule by the House by a two-thirds vote thereof, if the bill be on third reading, and by a majority vote of the members elected to the House, if otherwise, such bill shall thereupon be made the special order for the time fixed therein.

A rule or order may be suspended temporarily by a vote of two-thirds of the members present, except Rule 43 and that portion of Rule 30 relating to third reading of bills. A motion or resolution proposing to increase or diminish a standing committee shall not be adopted until the same has been referred to the Committee on Rules.

The Committee on Rules may also, at any time, report a temporary rule or regulation. When such temporary rule or regulation shall have been adopted by a two-thirds vote of the House it shall have the effect, for the time being, of a standing rule, and if such temporary rule shall be in conflict with a standing rule it shall supersede said standing rule for the time being, and shall be enforced by the Speaker.

MESSAGE FROM THE SENATE.

SENATE CHAMBER, SACRAMENTO, January 7, 1921.

MR SPEAKER I am directed to inform your honorable body that the Senate on this day adopted Senate Joint Resolution No 4—Relative to naturalization and property rights of aliens

GRACE S STOERMER, Secretary of Senate.
By G M WARREN, Assistant Secretary.

MOTION.

Mr. Parker moved that Senate Joint Resolution No. 4 be taken up for consideration at this time, without reference to committee.

Mr. Wendering seconded the motion.

Motion carried.

CONSIDERATION OF SENATE JOINT RESOLUTION NUMBER FOUR—(OUT OF ORDER).

Senate Joint Resolution No. 4 read.

The question being on the adoption of the resolution.

MOTION.

Mr. Brooks moved that the remarks of Mr. Parker on Senate Joint Resolution No. 4 be printed in full in the Journal.

Motion carried.

Mr. Parker, in moving the adoption of Senate Joint Resolution No. 4, spoke as follows:

The Senate has adopted this resolution by unanimous vote

It memoralizes the National Government not to make a treaty with Japan that will nullify the California Alien Land Law, or that would grant the rights of citizenship to Japanese.

Congressman Welty of Ohio is the author of what is known as the Gulick bill, now before the House Committee on Immigration

A telegram from Washington under date of January 8, states that Welty has sent to members of Congress a letter flaying Governor Stephens of California The letter as published brands the recent report of the State Board of Control and the letter of transmittal from the Governor as "misrepresentation and propaganda."

Welty's letter, among other things, states "I am indeed surprised to learn that a governor of a sovereign state should carry on a propaganda of misrepresentation with the hope of establishing a special national laundry to wash the dirty linen of his state."

This is an insult to Governor Stephens and to all California, and shows the straits to which Welty is driven in order to cloud the issue

Welty is sponsor for the Gulick measure. And who is Dr. Sidney Gulick?

Dr. Sidney Gulick was born of missionary parents in the Far East, and was at one time lecturer in the Imperial University of Kyoto, Japan.

Gulick is at the head of the American Federal Council of Churches of Christ, comprising thirty Protestant denominations with 103,000 ministers and a membership of 17,438,826 This council has a league of constructive immigration, from which it is said Gulick has drawn a salary as secretary.

Here are some of Gulick's statements:

That Governor Johnson was unfair when he took Secretary of State Bryan, a cabinet officer, on a trip to view the Japanese districts in Sacramento County

That Governor Johnson, the California Legislature and the California people are un-American.

That the position of the United States against Asia is disgraceful

That the California Alien Land bill is unjust, a disgrace and un-Christian.

A campaign is being carried on in many eastern states to discredit the position and intelligence of California and other western states.

Here is some of the Japanese propaganda

The survival of the fittest.
Admit the Japanese and evangelize them.
Universal brotherhood.
America, the refuge for all.
America, the melting pot.
Exclusion is un-Christian

Their stock argument:
Japan is very poor
Comparatively few in California.
We must avoid all trouble.
The war scare argument.
We find that the aim of the Japanese is American citizenship:
The rights and privileges of American-born white men.
The right to be governors and congressmen, and with that accomplished, the Japanese will be in a position to mix his blood with any blood he chooses
Dr Sidney Gulick holds that we should submit to the "survival of the fittest" The survival of the fittest is not necessarily the survival of the best. The jackass will flourish where the thoroughbred horse would die. The coolie survives where the white man would perish.
Not with the mixture of the yellow and white, resulting in a mongrel race, but with the Anglo-Saxon, rests the hope of our nation.
The aim of our government should be to develop the greatest number of noble men and women. Civilization is marked by social, intellectual and moral progress.
While our advices from Washington are in the main confidential, we do know that American Ambassador Morris, at the court of Japan, is in favor of extending citizenship to those of Japan's nationals now in the United States.
There can be no question as to the present demands of Japan. She wishes equal privileges with other aliens—citizenship
The Japanese now in California constitute a potential leaven and by means of their birth rate they will rapidly increase. By virtue of their numbers and colonization methods, they would be able in a few decades to purchase lands and assume control in California.
I reside at Auburn Placer, my home county, has more than 20,000 acres of producing deciduous orchards. From her matchless groves there have been sent eastward during many twenty-four hour periods more than ninety refrigerator cars loaded with our fruits.
But over this favored landscape, blessed with the golden sunshine of peace and plenty, there has come a shadow—the menace of the Japanese
I have here a map The colored portion shows that now in the control of the yellows. The greater part of this is held by leases and the alien land measure now in force will loosen the strangle hold of these little brown men
During the 1913 session of the California Legislature, President Wilson sent his cabinet officer in the person of W J. Bryan, Secretary of State, to address us upon pending legislation
Standing at that desk, during a joint session of the Senate and Assembly, the Secretary of State told the Legislature that if they passed the alien land and leasing measure it would bring war with Japan. The law was passed and Governor Johnson signed it, and we have never known a moment's embarrassment.
In November last, Californians were not moved by Japan's bluffs and veiled threats of war, and by an overwhelming vote they made it illegal to sell California lands to aliens not eligible to citizenship
Articles I, II, III, and V, of the Constitution of the United States, reserve to the states the function to make the laws of personal and property rights, the qualifications of land owners, land transfer and inheritance.
California and other states that limit the rights of aliens are acting fully within the powers vested in them.
Treaties of the United States cannot trespass upon the constitutional rights and powers of states The treaty or agreement of 1911 gives Japan no rights to own land
It is outrageous to think of giving the Japanese citizenship. America has one race problem, and we should not court another.
The Japanese worship a God of flesh. The Emperor is their spiritual as well as their political ruler. We cannot assimilate them. They are yellow and we are white.
I am told the Japanese prior to last election had a fund of $100,000, much of which was used as a publicity fund in an attempt to defeat the California Alien Land Law. Here is some of their literature, a copy of which was placed upon every legislator's desk on January 7th. In this pamphlet Colonel John P. Irish shows the amount of food produced by Japanese and implies that we may starve without their help.
Page 2 of the Assembly Journal of January 4 contains a petition from the Los Angeles Ministerial Association. It is a seathing attack upon the present Alien Land Law.
In the action of those who opposed this California law I am reminded of an incident of the Civil War:
A captain was ordered to take an advanced position across a river He drew his sword and led his men. As they climbed the further bank a color bearer fell, shot in the back. Turning, the captain saw a portion of his men firing from the banks of the river they had feared to cross He shouted: "Men, if you can't follow the flag, don't shoot."
To those God-fearing, but I believe ill-advised and misguided ministers, to Californians who are today serving as directors in dummy Japanese corporations,

to those who have evaded the law in selling and leasing lands, to the silver-tongued Colonel John P. Irish whose hand and voice are worthy of a better cause, and to all those men who have placed the dollar above their patriotism and the love of that flag, I would say:

Men of California, we are fighting to save this fair land for your sons and my sons. If you can not realize our peril, if you can not sense our danger, if you can not follow our lead—do not shoot us in the back.

California is the nation's western outpost. Facing us on the other side of the western sea are the yellow men—nearly one-half the population of the earth.

Here and today on the shores of the Pacific there is staged the scene of a mighty economic conflict. The enemy host is insidious and steady of advance and inimical to the very life of the Republic.

We cannot compete with the Japanese, with their lowered standards and habits of living. If we are firm they will cease their efforts at colonization and go elsewhere. If they are permitted to continue to come, the white race of America is lost, and generations hence historians will record us as a province of Japan.

I trust that the resolution will be adopted without a negative vote. Let Washington know that California is in earnest and that there is no division.

The question being on the adoption of the resolution.

The roll was called, and Senate Joint Resolution No. 4 adopted by the following vote:

AYES—Anderson, Badaracco, Badham, Baker, Beal, Benton, Bernard, Bishop, Bromley, Brooks, Burns, Christian, Cleary, Cleveland, Colburn, Coombs, Crittenden, Cummings, Fellom, Fulwider, Graves, Gray, Greene, Hart, Hawes, Heck, Heisinger, Hornblower, Hume, Hurley, Johnson, Johnston, Jones, G. L., Jones, I., Kline, Lee, G. W., Lee, I. A., Lewis, Long, Loucks, Lyons, Manning, Mather, McCloskey, McDowell, McGee, McPherson, Merriam, Mitchell, Parker, Parkinson, Pedrotti, Pettis, Powers, Prendergast, Ream, Roberts, Rosenshine, Ross, Saylor, Smith, Spalding, Spence, Stevens, Warren, Weber, Webster, Wendering, West, White, Windrem, Wright, T. SENATE JOINT RESOLUTION No. 4

Relative to naturalization and property rights of aliens.

WHEREAS, At the general election held on the second day of November, 1920, the people of the State of California, in the exercise of their right reserved under the constitution, by an overwhelming majority, adopted the "Alien Land Law," which, among other things, provides that all aliens ineligible to citizenship under the laws of the United States, may acquire, possess, enjoy and transfer real property or any interest therein in this state in the manner and to the extent and for the purposes prescribed by any treaty now existing between the government of the United States and the nation or country of which such alien is a citizen or subject and not otherwise; and

WHEREAS, The present treaty of commerce and navigation, between the United States and Japan, proclaimed on the fifth day of April, 1911, in fixing the rights of the nationals of both contracting parties, provides that—

"The citizens or subjects of each of the high contracting parties shall have liberty to enter, travel and reside in the territories of the other to carry on trade, wholesale and retail, to own or lease and occupy houses, manufactories, warehouses and shops, to employ agents of their choice, to lease land for residential and commercial purposes, and generally, to do anything incident to or necessary for trade, upon the same terms as native citizens or subjects submitting themselves to the laws and regulations there established"; and

WHEREAS, Notwithstanding the aforesaid provision of the treaty limiting the purposes for which the subjects of Japan may enter, travel and reside in the United States, approximately one hundred thousand Japanese are now residing in California, comparatively few of whom are engaged in trade, while the great majority are engaged in agriculture, owning, leasing and farming lands, and now control one-eighth of the entire acreage of rich irrigated lands in the State, as shown by the official report of the State Board of Control; and

WHEREAS, Japanese, as well as American authorities concede the unassimilability of the two races, and grant that a continuance of existing conditions may develop a racial question and grave international complications out of the present economic problem; and

WHEREAS, The evidence before the House Immigration Committee, in hearings held on the Pacific Coast in July and August, 1920, clearly indicates the impracti-

cability of making homogeneous American citizenship out of the material coming to us from Japan, and the impossibility of a white community holding its own either in increase of numbers or in economic competition against the racial advantages and birth rate of the Japanese; and

WHEREAS, Preliminary negotiations are now pending between the State Department at Washington and representatives of the Empire of Japan with a view of entering into a treaty dealing with the subject of immigration; and

WHEREAS, Reports have come to us from our representatives in Congress that Japan insists that the proposed treaty shall grant the right of citizenship to the subjects of Japan now in the United States, and shall, in effect, nullify the aforesaid "Alien Land Law"; now therefore, be it

Resolved by the Senate and Assembly, jointly, That the Legislature of the State of California protests against any treaty being made between the United States and Japan whereby the right to citizenship shall be extended to the subjects of Japan; and be it further

Resolved, That any attempt by the treaty-making power of the United States to nullify the aforesaid "Alien Land Law" or to confer upon the subjects of Japan, the right to acquire, own or possess lands within this State, in violation of our State laws, should be opposed, as destructive of state's rights reserved under the constitution of the United States; and be it further

Resolved, That in any treaty hereafter made by the United States and Japan, said "Alien Land Law" be held inviolate and that the rights of the states of the Union to enact legislation respecting the acquisition and ownership of land by aliens within their respective borders be properly safeguarded; and be it further

Resolved, That in any such treaty, provision be made prohibiting the further immigration of the subjects of Japan to the United States, save and except merchants, students and teachers, their servants and employees; and be it further

Resolved, That a copy of these resolutions be forthwith dispatched to the President of the United States, the Secretary of State of the United States, to each of our Senators and Representatives in Congress and to each member of the Committee on Foreign Relations of the United States Senate.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Brooks:

OAKLAND, January 11, 1921.

At a regular meeting of the Alameda County Automobile Trade Association, the matter of the proposed State tax of two cents per gallon on gasoline, now before the Revenue and Taxation Committee of the forty-fourth session of the Legislature, was brought before the members.

A resolution was made and unanimously carried that the Alameda County Automobile Trade Association go on record as being opposed to this measure becoming a law, and that we write to each and every Senator and Assemblyman representing this district, asking them to do all in their power to defeat this bill, as its enactment would work a hardship and add to the burdens now carried by the automotive industry.

We ask that you use your influence in defeating this measure.

Thanking you, and assuring you of the appreciation and support of the Alameda County Automobile Trade Association, we are

Very cordially yours,

ALAMEDA COUNTY AUTOMOBILE TRADE ASSOCIATION.
ROBERT W. MARTLAND, Secretary.

By Mr. Ross:

REDDING, January 12, 1921.

We most emphatically protest proposed State tax of two cents per gallon on gasoline, as unjust and unfair to the automobile industry, which is already overburdened with taxes.

W. W. SHIPLEY,
President Northern California Auto Trade Association.

By Mr. Hume:

SANTA PAULA, January 12, 1921.

Report is current that tax committee considers introducing measure that will increase tax rate to banks fifty cents on every $100 of invested capital. We can not understand how such action can be contemplated, as the banking business today is carrying more than its share of the burden of taxation. The business simply can not stand an increase. We think the basis of taxation should be on a percentage basis for comparative values. Please secure figures, which are readily available, from the Controller's and Secretary's offices, and make exhaustive comparative study, and use your best efforts to combat proposed legislation If you want any information from us wire for it.

VENTURA COUNTY BANKERS' ASSOCIATION.
A. F. WALDEN, Secretary.

By Mr. Stevens:

SAN FRANCISCO, January 12, 1921.

Will you favor us by influencing the Committee on Revenue and Taxation to defer the hearing on increase in bank taxation until about January 21? Data now being gathered will not be complete until that time. I am attending meeting here today.

SANTA BARBARA, January 11, 1921.

We understand a measure is being considered to place State tax on gasoline. We consider such a law would not only be unjust to all users of gasoline, but would be very detrimental to the automobile industry at large. We strongly urge you to vote and work against such legislation.

REPORT OF STANDING COMMITTEE.

The following report of standing committee was received and read:

ON FEDERAL RELATIONS.

ASSEMBLY CHAMBER, SACRAMENTO, January 13, 1921.

MR. SPEAKER: Your Committee on Federal Relations, to which was referred Assembly Joint Resolution No. 2—Relative to the endorsement of the McFadden bill, to conserve the gold ore resources of the nation in the interest of monetary security,

Also Assembly Joint Resolution No 3—Relative to the adoption of an American policy in the purchasing of relief supplies;

Has had the same under consideration, and respectfully reports the same back, and recommends that they be adopted.

WENDERING, Chairman.

The above reported joint resolutions ordered to engrossment and on file for adoption.

REPORT OF SPECIAL LEGISLATIVE COMMITTEE.

The following report of committee appointed pursuant to Senate Concurrent Resolution No. 17, legislative session of 1909, creating a Special Legislative Committee for Investigation of the Finances of the State, was presented, and on motion of Mr. Wright, T. M., ordered printed in the Journal:

This committee was broadly charged with the duty of conducting an investigation into the subject of revenue and taxation, in view of the crisis in the financial affairs of the State which was apparently impending

It became apparent, however, as reports came in to the fiscal officers of the State, that the expected critical financial situation in the affairs of the State would not arise during the present biennial period, because of the increased taxes received from the sources from which the State derives its revenues Enlarged incomes of the public service corporations brought sufficient revenue to the State so that all demands of the present biennium were met and a substantial surplus was accumulated.

"At the last election, however," quoting the language of the message of the Governor to the Legislature, "the people voluntarily assumed an additional large burden of taxes by passing legislation calling for heavy appropriations, and it is because of this voluntary action of the people themselves that financial difficulties again impend The measure providing for a new teachers' wage is estimated to impose an additional financial burden of over $13,000,000 biennially; the highway bonds involve an additional financial burden of approximately $4,000,000 biennially. In other words, these two measures alone, adopted by the people by means of the initiative, mean an increased biennial expenditure of about $17,500,000 Means must, of course, be found to raise these sums of money in order to carry out the will of the people"

The problem, therefore, again became acute following upon the last election, at which larger burdens were placed upon the State by the people There was not time, however, following the election, and prior to the meeting of the Legislature, to carry on such detailed investigation as was essential in order that the committee might present to the Legislature any well-thought out scheme of taxation supplemental to that now in use.

Your committee would earnestly recommend, however, that the Legislature take the necessary action, by making an appropriation therefor, for a detailed investigation during the coming biennial period of the ratio of the burden of taxation borne by the public service corporations for State purposes to that of the individual taxpayer for county and municipal support. Indeed, such a continuing policy would be invaluable, giving the State fiscal officers at all times the data upon which to base their calculations, and providing each succeeding Legislature with the information upon which it could fix rates of taxation, with justice to all concerned.

Burdens of State, county and municipal taxing grow increasingly heavy. State taxes cannot be lowered, indeed, they cannot be kept stationary, unless the Legislature shall approach the appropriations which will be asked, realizing that many things greatly to be desired and even some of apparent necessity must be foregone

This committee has received the cordial assistance of all the fiscal departments of the State. The State Controller, State Board of Control, State Board of Equalization, and its secretary, M D. Lack, who kindly acted as secretary of this committee, gave especial assistance.

The committee held three meetings at the State Capitol It spent, of the appropriation of $3000, $249.66

SUPPLEMENTAL REPORT

The resolution creating this committee directed it to report upon the following subjects

1. Increasing revenue from present sources
2. From sources available but not now embodied in our revenue system
3. (*a*) Upon the taxation of general property as a source of necessary revenue for State purposes
3. (*b*) As to the adoption of some system of tax which would cause the burden of the cost of State government to be felt directly by the people

Immediately upon organization the committee proceeded to investigate and collect data upon those sources of revenue newly adopted or now contemplated by other commonwealths, as well as the so-called "Model System of Taxation" as advocated by the National Tax Association appointed by that body for the purpose of determining upon and recommending such a system as seemed most equitable and successful for state taxation.

The data gathered and bearing upon the several investigations made is now in the hands of the secretary of this committee and is on file in the office of the State Board of Equalization.

In the following pages we set forth excerpts and tables from same and summaries showing in more concise form the expressions of opinion of students of the subjects treated, as well as the analysis of the operation of those laws already in effect in the different states, by the fiscal agents of those states, whose duty it is to administer and to make a study of the effect of such laws.

THE MODEL TAX SYSTEM.

The committee having in charge the national and international investigation, for the purpose of making a study of all of the revenue systems of the states and of foreign countries and selecting therefrom those elements which combined would result in the most equitable and successful revenue system, was composed of the following representative authorities on taxation.

Charles J Bullock, Harvard University
Charles V. Galloway, State Tax Department of Oregon
Samuel T. Howe, Kansas State Tax Department.
Thomas B. Adams, Yale University.
Celsus P. Link, Colorado State Tax Department
Samuel Lord, State Tax Department of Minnesota
Thomas W Page, University of Virginia.
A. C. Rearick, Attorney at Law, New York City.
W. L Tarbet, Illinois Central Railroad Company

This committee, after an exhaustive study of the various systems, both domestic and foreign, determined upon the following combination of tax sources

1. An ad valorem or general property tax.
2. A personal income tax.
3. A business tax covering all business, if already in operation
4. A gross receipts tax, if already in operation.

Space will not permit, in this report, an explanation of their reasons for these selections, as fully set forth in data on file, therefore, with the following brief excerpts from the language of the report itself reference is directed to the publica-

tions and data in the files of this committee for complete and exhaustive detail thereon

Quoting from the report above referred to as set forth in the proceedings of the eighth State Tax Conference, Albany, New York, January 22-24, 1919 page 181

"The study of the tax laws of the American states reveals the fact that there are three fundamental principles which have been more or less clearly recognized by our law makers, and have very largely determined the provisions of the enactments now standing on the statute books.

"The first is the principle that every person having taxable ability should pay some sort of direct personal tax to the government under which he is domiciled, and from which he receives the personal benefits that the government confers

"The second principle is that tangible property by whomsoever owned should be taxed by the jurisdiction in which it is located, because it there receives protection and other governmental benefits and services.

"The third principle, somewhat less clearly and generally exemplified by our tax laws, but discernible under the laws, is that business carried on for profit in any locality should be taxed for the benefits it receives."

Page 185: 1. "We propose, therefore, a personal tax which shall be levied consistently upon the principle of taxing every one at his place of domicile for the support of the government under which he lives

2. "A property tax upon tangible property levied objectively where such property has its situs and without regard to ownership or personal condition.

3. "Finally, for such states as desire a tax upon business, a business tax which shall be levied upon all business carried on within the jurisdiction of the authority levying such tax."

Page 199: "We, therefore, do not recommend that either the taxation of gross receipts or the ad valorem taxation of public service corporations as going concerns shall be discontinued wherever these methods are in successful operation.

Page 203: "We find that many states are now levying what are in name or in fact business taxes, upon the theory that they have a right to levy taxes upon business done within their jurisdiction.

"This claim appears to us to be reasonable, and we find no other method of satisfying it that is consistent with inter-state comity except that of levying a properly constituted business tax as a part of the proposed system An important thing is the adequacy of the sources and extent of the authority conferred upon the State Tax Department.

"We have recommended that part of the personal income tax corresponding to the proportion each state's expenditures bears to the total of state and local expenditures be allocated to the state treasury. Such an arrangement will tend to lighten the direct state tax, but will not make such a tax unnecessary."

SUMMARY OF THE PROPOSED SYSTEM OF TAXATION.

"At this point it is desirable to consider as a whole the proposed system of taxation. In the first place, it is evident that this system will satisfy every legitimate claim of any American state. It provides that all persons shall be taxed fairly and fully at their place of domicile for the personal benefits they derive from the government. It provides that all tangible property which any state may desire to tax shall be taxed fully at its situs for the governmental services it there receives It eliminates the taxation of intangible property, as property, because such taxation can not be carried out without a large amount of unjust double taxation. And, finally, it provides a method by which any state which desires to tax business may do so in a fair and effective manner No single tax levied either on income or property could possibly satisfy all of these claims, unless all the states, by formal agreement, should adopt a plan by which one tax would be levied upon interstate business and investments, the proceeds of which would be distributed in some agreed proportions between the states of domicile, the states where property is located, and the state in which business is carried on. Such an agreement, we believe, it is impossible to secure and we have, therefore, recommended three separate taxes, each of which can be levied in such a manner as to enforce fully, fairly, and consistently the taxation of the subjects it is intended to reach

"In the second place, it is evident that the combination of taxes we have recommended will give better results than any one tax, however levied, which is made to yield the same amount of revenue With the best drawn law and the very best administration, there will always be a certain amount of inequality in the operation of any tax. If, therefore, all the revenue needed is derived from but one tax, such inequality as inevitably arises will be concentrated at a few points where it can not be mitigated But under a system by which the same amount of revenue is collected from separate taxes levied upon income, property, and business, it is clear that such inevitable inequalities as arise in the working of any one tax may be, and to a considerable extent must be, offset or mitigated by inequalities arising under the others. By the mere law of probability, it must happen that the inequalities arising under the three separate taxes will not all be concentrated at the same point, and that some of them will to a certain extent compensate for others This is one of the

reasons why a double system of income and property taxation has worked well in certain European countries and has met with increasing favor from students of taxation and practical administrators. We regard this compensatory action of the three taxes we have recommended as an important argument in favor of our proposals.

"A third point to be emphasized is that the system here recommended will bring about heavier taxation of funded incomes than unfunded, without requiring the states to undertake the very difficult task of differentiating the rates of their income taxes. That funded incomes should be more heavily taxed than unfunded, nearly all will agree. At the same time, it is certain that the attempt to levy an income tax at different rates on different kinds of income greatly complicates the administration of the tax, and raises difficult problems which any one familiar with the practical side of tax administration would desire to avoid. But it is evident that, by combining a tax upon property with a tax upon income, we shall in effect impose heavier taxation upon funded incomes; and therefore the net result of our tax system will be to secure differentiation without undertaking the very difficult task of differentiating the rates of the income tax."

TAX ON AUTO AND AUTO TRUCK TRANSPORTATION.

Data gathered on this subject is necessarily incomplete, as no record is available for all such operation. As far as completed, as shown by the files of the committee, it discloses the following facts:

1. Number of machines and trucks in California for this purpose	1,069
2. Capacity of passenger machines (persons)	11,756
3. Capacity of trucks (tons)	1,453
4. Gross income to operators	$8,114,139 22

The total would be much in excess of this amount, as many of the operators from whom the data has to be secured have not yet replied to the request for same, although in the limited time in which they have had to make these returns the results have been very satisfactory and the responses hearty and unhesitantly given.

Other commercial transportation pays the State a tax of 5¼ per cent on gross receipts, which if applied to this branch of that class of business would produce to the State a sum of approximately $700,000 in State revenue. This revenue can be made available through the medium of licenses graduated upon income, as shown by reports to the State Board of Equalization, such as other corporations render, to be substituted later, if found advisable, by constitutional amendment placing them on the same footing as other public carriers.

The committee would suggest that the treatment of this subject for taxation should not be considered from the point of view of competition particularly, but from its element of relation to the large use of the public highway and attendant damage and wear thereof, coupled with the loss occasioned in State revenue as above referred to. Attention is called in this connection, however, to the fact that a percentage of the sums received by these carriers is not drawn from other carriers and would not, therefore, be said to be deflected from taxing sources. The committee believes that the figures above given as State revenue loss would fully cover such deflections at present. Data shows this character of haulage to be increasing rapidly and apparently as having become a fixed institution.

THE INCOME TAX.

With the close of the legislative sessions of 1919, the eleven states which have personal income tax laws are: Delaware, Massachusetts, Mississippi, Missouri, New Mexico, New York, North Carolina, North Dakota, Oklahoma, Virginia, and Wisconsin. Eight of these laws have been enacted since 1910. The revenue has amounted to considerable sums in the cases where there has been centralized administration and collection. New York expects to collect about $45,000,000. Wisconsin made cash collections of more than six millions in 1917 and Massachusetts over fourteen millions in 1918. These two states report great satisfaction with the tax. The cost of collection has been gratifyingly small. In Wisconsin it has ranged from 2.75 to less than 1 per cent. In Massachusetts it was 1.86 per cent of the total assessment in the first year and 1.44 per cent in the second.

Excerpts are here given from correspondence and data received from the fiscal officials having charge of its administration, as well as students of the subject not so connected. The systems in effect in Wisconsin, which state is the pioneer in this respect, and in New York, which has a very successful working income tax, are most frequently quoted.

From the tax department of the State of New York, we quote the following as comprising their revenue system:

"1. Real Estate Taxes,
Locally assessed for state and local purposes;

"2 Personal Property Taxes,
Locally assessed for state and local purposes on tangibles only in the hands of the individual at the full local rate, assessed locally for state and local purposes;

"3. Corporate Income Taxes; and

"4. Personal income taxes, both of which are assessed by the state department."

The above are in addition to the taxes provided by article IX of the tax laws of this State, which article includes gross earning taxes, premium taxes, and taxes against savings banks and trust companies.

Professor Bullock, chairman of the Model Tax Committee, says:

"While there are other possible alternatives, it seemed particularly clear to the committee that there was no practicable alternative that on the whole, considered as one part of the diversified system of taxation comprising three separate taxes, that was so logical as a personal income tax. We believe that the best way to bring it about in a logical, fair and consistent manner that every inhabitant of any state shall contribute to the support of the government, is to introduce a personal income tax logically and consistently levied as a personal tax."

From page 217 of the Model Tax System report heretofore referred to, we quote:

"The success of the Wisconsin and the Massachusetts income tax laws, is due in large part to the fact that the administration was placed wholly in the hands of the State Tax Department"

From the data furnished us by the Wisconsin Tax Commission, we quote

"You will notice in the reports sent you that we have recommended the repeal of the personal property offset which is an anomaly in the law. I have no hesitancy in advising the income tax as a revenue measure, not only for state but for local purposes.

"In a general way, we believe the exemptions granted in this state are reasonable and fair. The taxable income might be advanced a little more rapidly so as to reach the maximum of 6 per cent at say seven thousand or eight thousand dollars."

From the data supplied from the office of the State Tax Board, Commonwealth of Virginia:

"We have a nominal income tax in this state, the rate being 1 per cent on net incomes of individuals and corporations. As this tax is nominal, its administration has not heretofore been as vigorous as it might have been. However, we are now trying to improve this administration, and as a result the amount reported has grown from $23,000,000 in 1915 to $92,000,000 in 1918. This year we hope very much to be able to report $150,000,000. In my opinion an income tax, properly administered, is one of the best forms of taxation yet put into practice. As I view the tax problems of this State they may be stated in two words, equalization and education.

"The single point which has received most emphasis is the desirability of centralized administration with local officers for the collection of the tax, separate from the assessors and collectors of other taxes This plan is accounted largely responsible for the success of the tax in Massachusetts and Wisconsin."

From the North Dakota laws of 1919, chapter XXIII, for which the Non-partisan League of that state was largely responsible, we find an example of quite a different type of this law with exceedingly high rates and differentiation between apparent and unearned incomes. No prophecy can yet be made as to the result of the operation of such high rates.

As an indication of the probable cost of an income tax system, we quote from the figures shown in the data received from the Massachusetts State Tax Department, wherein it sets forth that from the total appropriation for 1919 of $381,576.14, less certain deductions such as the cost of interest on deposits and interest on funds in the hands of the treasurer, the net cost of administration for that year was $313,679.78, equivalent to approximately 2 per cent on the total assessment of $15,300,000. We note in connection with this illustration, however, that the Massachusetts law is considerably complicated, made so by historical and constitutional conditions prevailing which do not yet permit of its simplification.

TAX ON PETROLEUM PRODUCTS.

Such a law is in effect in the State of Oregon (copy in the files of the committee), where it requires the registration of and fixes a license tax of one cent per gallon upon all motor vehicle fuels as defined therein, except distillate, which bears a one-half cent per gallon rate. Reports from this State commend this law and claim for it equity and wide distribution of tax burden.

Quoting from their reply to our inquiry:

"Observation and inquiry indicate that this tax is uniformly satisfactory to the public."

ELECTRIC AND STREET RAILWAYS.

While perhaps it does not come within the strictest interpretation of our creation, we quote from the findings of the Federal Electric Railways Commission, in their report to the President, and from page 7 of section 3 thereof, to show the deplorable condition in which that commission reports that it finds the electric interurban and street railways, wherein they set forth their conclusion that the necessity is apparent for some relief for this industry so essential to our urban life and development.

FINANCIAL CONDITION OF THE ELECTRIC RAILWAY INDUSTRY.

"The investigation demonstrates that the financial condition of the electric railway industry is acute, and that to a very great extent it is not properly performing its public functions.

"The record in this case shows that on May 31, 1919, there were 62 companies, having a mileage of 5,912, in receivership, that 60 companies had dismantled and junked altogether 534 miles of railway, and that 38 companies together had abandoned 257 miles of track. Since that date and up to July 1, 1920, there have been 56 additional companies, having a mileage of 1,908, which have been thrown into receivership.

"The capitalization of the industry, according to the 1917 census report, is represented by $3,058,377,107 in bonds and $2,473,846,651 of stock. For the year 1917 the net income of operating companies was $56,450,930, representing an average rate of return of 2.81 per cent upon the capital stock. In 1918 the evidence shows the net income was reduced to $20,183,413, which represents a return of only 1 per cent. As a whole, there has been some improvement in the industry since the commencement of these hearings, due to the fact that there has been an increase in the car-riding habit since demobilization, and in a great many instances the fare has been increased beyond 5 cents In spite of this slight improvement, however, the condition of the industry at the present time is serious. A great many companies are unable properly to maintain their track and equipment and to perform efficient public service, to secure funds with which to purchase new equipment, to build necessary improvements and extensions, or to refund maturing obligations."

Factors contributing to this condition the report goes on to say are:

1. Lack of conservation in early financing.
2. Neglect to work out of over capitalization.
3. Overbuilding into unprofitable territory.
4. Limited franchises which impair credit.
5. Special and general taxation.
6. Automobile and jitney competition.

And continuing calls attention to emergency relief given by some of the states, and concludes that credit and cooperation are the coordinate needs of the electric railway.

A GENERAL TAX.

In the judgment of this committee it is most important that the burden of State taxation be felt to some extent directly by the people. It is apparent that the people do not feel directly this tax, although they pay it, in the last analysis. Neither do their representatives in the Legislature feel and reflect as great a responsibility for economy as probably would result if some portion of the State tax were placed upon them directly. A general tax may not be altogether an evil

LARGE AND SMALL CORPORATIONS.

Such examination as this committee has made of the relation of the burden of taxation of the various corporations in the same class, has brought to light no marked change in this relationship. Some corporations suffer to some extent in comparison with others, but we see no method of relief for them, except by constitutional amendment. The same applies to the double taxation of corporations under the existing system.

Respectfully submitted.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. McDowell:

The sub-committee of the State Executive Committee and the State Legislative Committee of the American Legion, Department of California, in discussion of the intendment of resolution No 33 passed by the second annual convention of the State of California, have determined that in pursuance of that resolution they will ask the State Legislature for such legislation as will provide vocational training, home aid and land settlement, and believing that the request for this legislation is for the best interest of the Legion and the only feasible plan under present conditions, authorize the drawing and presentation to the Legislature of the following resolution:

WHEREAS, It has been suggested and proposed to the American Legion, Department of California, that request be made at this session of the Legislature for legislation granting to ex-service people of this State a cash bonus based upon military service; and

WHEREAS, After deliberation of the sub-committee of the Executive Committee and the Legislative Committee of the American Legion, Department of California, it has appeared to that committee that, owing to present conditions, the welfare of the State of California would be seriously impaired by such request for a cash bonus, therefore, be it

Resolved, That it is the sense of this committee that no such legislation looking to the payment of a cash bonus be presented at the present time to the State Legislature of the State of California, by the American Legion, Department of California, but that we do most strongly urge upon the Legislature of the State of California now in session the passage of bills providing for land settlement, home aid and vocational training as are now presented by the American Legion, Department of California, believing as they do that the bills so presented will redound to the welfare of the State of California as well as that of the ex-service people of this State.

BURON R. FITTS, Department Commander
GEORGE J. HATFIELD, Chairman
FRED F. BERGAIL, Department Secretary

By Mr. Ross:

REDDING, January 13, 1921.

We, the star route mail contractors of the State of California, do earnestly protest against the enactment of legislation that will in any way increase the expense and burden now imposed upon said star route mail contractors. I herewith enclose our appeal for relief which has been mailed to each United States Senator and Congressman.

Any increase in price of gasoline to the mail contractor will work a serious hardship. We urge that on all gasoline used by contractors for carrying the United States mail the tax be eliminated.

Yours very truly,

LESLIE T. ALWARD,
President Star Route Mail Contractors' Association of California.

By Mr. Parker:

AUBURN, January 13, 1921.

WHEREAS, The subject of water storage and irrigation is of paramount importance to the development and prosperity of this State; and

WHEREAS, A general and comprehensive plan of storage and irrigation is being advocated by the California Irrigation Association, in furtherance of what is known as the Marshall plan, therefore, be it

Resolved, That the Placer County Farm Bureau favors an appropriation of State funds by our present Legislature to pay the cost of the necessary preliminary services for this project, and we request the members from our district to support such a measure;

Resolved, That a copy of this resolution be sent to the Chairman of the Irrigation Committee of both the Assembly and the Senate, and one to the Assemblymen and Senator from this district, and one to the State Farm Bureau Federation and county farm bureaus.

BOARD OF DIRECTORS OF PLACER COUNTY FARM BUREAU.

Also:

AUBURN, January 13, 1921.

WHEREAS, There is apparently a lack of complete confidence in the Railroad Commission of California among the people of the State, and expressions of dissatis-

faction with decisions rendered by the commission have been frequently and publicly made; and

WHEREAS, At a convention of the State Associations of Municipalities held a short time ago at Chico, at a formal debate between members of that association and the Railroad Commission, the president and vice president of a public service corporation were actively and publicly associated with the commission in the defense, thereby to all appearances giving proof to a rather widespread idea that corporation interests are always protected by the expense of the people of the State, whose interests the commission should preserve, and who bear the expense of the maintenance of said commission; therefore, be it

Resolved, That the State Legislature be requested by all county farm bureaus and the State Farm Bureau Federation to take such measures as will effect a change in the policy of the State Railroad Commission which will be conducive to the best interests of the public, and also just to all public service corporations.

THE PLACER COUNTY FARM BUREAU.

Also: AUBURN, January 13, 1921.

To the Governor of California and the California State Legislature.

It is public knowledge that California is one of the most expensively governed states in the Union, and the cost is progressively increasing each year. There is a general desire to economize to relieve the ever-increasing burden on the people, and the tendency is to effect such economy by reducing appropriations for educational and agricultural service. We believe this tendency is due largely to ignorance of the fabric of the State government. We believe great economy is possible without *reducing the efficiency of any department of State government*. Most of the commissions created under a former political regime should be dispensed with entirely, or reduced materially.

We believe the people of the State will welcome action by the Governor and Legislature to this end.

THE PLACER COUNTY FARM BUREAU.

Also: AUBURN, January 13, 1921.

As fuel oils are absolutely indispensable to citizens engaged in production and distribution, and allied industries, and as the fuel oils are derived from natural resources of California, and in view of the great shortage during the past year *occasioned by unrestricted exportation of fuel oils to other states and other countries*, thereby creating an incalculable injury to the people of California, it is the consensus of opinion of the directors of the Placer County Farm Bureau that fuel oils be made a public utility, and be subject to regulations pertaining to other public utilities of the State of California.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By the Speaker:

LOS ANGELES, January 16, 1921.

Resolved, By the First M. E. Church of Los Angeles, 2400 present, on this first anniversary of constitutional prohibition, that night letters be sent to Governor Stephens and to the presiding officers of the Senate and Assembly calling attention to the fact that Los Angeles City and County, Fresno City and County, Bakersfield City, and Kern County and others have passed ordinances in complete harmony with the Volstead Law, and we urge that our State take similar action. While expressing hearty appreciation for past record and confidence in the administration, we call upon our Governor and the Legislature to finish the work and place California in line with other states and with the nation.

ELMER E. HELMS, Pastor

Also:

LOS ANGELES, January 16, 1921.

Resolved, By this great concourse of Los Angeles voters, on this first anniversary of constitutional prohibition, that messages be sent to Governor Stephens and the presiding officers of the Senate and Assembly calling attention to the fact that Los

Angeles City and County, Fresno City and County, Bakersfield City, and Kern County have passed ordinances in complete harmony with the Volstead National Enforcement Law, and we urge that California take similar action. While expressing hearty appreciation for past record and confidence in the administration, we call upon our Governor and Legislature to complete the job and place our State in line with other states and with the nation.

MRS. C. C. ASHLEY, Chairman.

By Mr. Coombs:

LOS ANGELES, January 15, 1921.

There has been called to our attention the necessity of raising additional State revenues. We understand it is now proposed to increase taxation on electric railway companies, the major portion of which are and have been for some years suffering substantial financial losses, to a great extent due to subsidized motor truck and bus competition. Would suggest you apply to motor truck and bus concerns using public roads for hire a tax equal to tax on rail lines' gross earnings, plus amount representing damage to public roads by such trucks and busses, which total tax would approximate what rail lines pay for corporation tax maintenance of way and interest on investment in roadway.

H. M. HALDERMAN,
President Better America Federation

Also:

LOS ANGELES, January 15, 1921

Press notices indicate intention of Legislature to augment State revenues by raising railroad gross revenue tax to over 7 per cent. Believe this unfair and questionable; particularly as to electric railways of the State, all of which are in poor financial condition and unable to bear higher taxes and maintain service. Much of electric railways' loss is due to subsidized competition by auto concerns using for commercial purposes roads paid for by general taxation. Suggest legislation placing tax on truck and bus companies of percentage on their gross, which would return to State treasury same tax as paid by railroads, plus amount to repay damage to public roads by their busses and trucks. Such total tax would place rail and motor transportation on same basis and provide necessary State revenue without further impoverishing rail systems and retarding development of communities.

I. H. RICE,
President Merchants and Manufacturers Association.

By Mr. Baker:

LOS ANGELES, January 6, 1921

WHEREAS, We notice with approval that Governor Stephens has, in his biennial message, advocated economy in State governmental affairs; now, therefore, be it

Resolved, By the Los Angeles Chamber of Commerce, that it is the judgment of its board of directors that economy in State affairs is now one of the paramount issues before the Legislature of the State, and that this idea should be put into effect, even though it necessitates changes in the constitution in certain respects to bring about this result

I hereby certify that the above is a true and correct copy of resolution adopted by the board of directors of the Los Angeles Chamber of Commerce, at its regular meeting on Thursday, January 6, 1921.

[SEAL] MAYNARD McFIE, President
Attest: FRANK WIGGINS, Secretary.

By Mr. Cummings:

EUREKA, January 15, 1921

We respectfully ask that you oppose the bill increasing electric railway taxes. It would absolutely put the Humboldt Transit Company out of business. At present rates they have not been able to pay interest or sinking fund of their bonded indebtedness for the past year, and their tax was paid by contributions of the business men of Eureka The passage of this increase will be virtually a confiscation of their property, and probably deprive Eureka of street railroad facilities.

We respectfully ask that you oppose the bill increasing electric railway taxes. It would absolutely put our line out of business At present rates we have not been able to pay interest or sinking fund of our bonded indebtedness for the past year, and our tax was paid for us by contributions from the business men of Eureka

The passage of this increase will be virtually a confiscation of our property, and probably deprive Eureka of street railway facilities.

In official session, January 14, the board of directors of the Eureka Chamber of Commerce indorses and urges legislation covering game preservation in Kings Peak country of Humboldt County, and closing Eel River to commercial fishing. MESSAGE FROM THE GOVERNOR

The following message from the Governor was taken up and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

To the Members of the Senate and Assembly.

There will be introduced today a group of eight bills to which I call your earnest attention. They deal with the subject of governmental economy and efficiency, and the consolidation of many boards, commissions and other state agencies. The problem is one that commands the interest of the people of California and claims a large part of our attention at this session. I therefore deem it my duty to point out the things sought to be accomplished in this legislation, and at the same time give reasons why in my judgment the particular means proposed should be resorted to.

I wish again to speak in commendation of the valuable services tendered to the state two years ago by the "Boynton Efficiency Committee," which, after several months of labor, filed a comprehensive report on the general subject of state reorganization. The work done by this Committee is an invaluable contribution to the development of an intelligent plan of reorganizing our state government along lines of efficiency and economy. The plan involved such decided and untried changes in our governmental system that it seemed prudent to make a beginning. We therefore adopted one of the governmental units along the lines then suggested for the purpose of having some concrete evidence not only of the practical working advantage of the system proposed, but of the actual economies in money and service. This evidence we now have before us in tangible form. In the operation of the Department of Agriculture so created this Department has not only functioned with increased efficiency, as compared with many of the boards and offices theretofore performing the functions that were transferred to the Department, but in the matter of expenditures I am informed by the Board of Control that there has been substantial saving. Not only in actual saving of money is this success evidenced, but in more and better service rendered for each dollar expended; and the increased service to the state from the consolidation of these various activities in the Agricultural Department has been so marked as to justify the experiment and warrant us in proceeding further.

While these bills now introduced make some changes and modifications of the Boynton Committee recommendations, they proceed upon the same fundamental lines and have the same common object, to wit, the abolition of many boards and commissions; the elimination of duplication and overlapping, and the consolidation, so far as our constitution, laws and the public good permit, of such governmental agencies and activities as efficiently and economically group themselves together.

The legal advice given me constrains me to abandon my original desire to present a single comprehensive bill dealing with the entire subject matter, and to resort to a number of different bills for the accomplishment of what is, after all but one purpose. The proposal of a single bill was abandoned when my attention was called to the attempt made nearly twenty years ago to revise a code by the enactment of a single, comprehensive bill which, to lay minds, dealt logically and effectively with a single subject matter. A subsequent legal attack was made upon the validity of such legislation, and the Supreme Court of this state in the case of *Lewis* vs. *Dunne*, 134 Cal., 291, by unanimous decision, held that under the constitution of California such a comprehensive statute dealing, it is true, with but one system of legal procedure, but covering many important subjects thereunder, could not be included in one bill. I have been warned, in view of this decision, that an attempt to reorganize our governmental agencies by a single statute would be equally invalid and fatal to the successful accomplishment of what I deem to be your purpose as well as mine. Let me emphasize the fact that I should have preferred to have included the entire subject of state reorganization in a single bill, so that the whole plan might be dealt with as one legislative enactment; and let me repeat that the only thing that has deterred me from adopting this course is the warning of the legal invalidity of such a procedure.

With these prefatory statements, I invite your scrutiny of the proposed bills and beg the liberty of pointing out to you the reasons that underlie some of the changes suggested, as well as giving you some explanations for the retention of certain boards which may seem to be superfluous in the light of the recommended reorganization. The bills respond to a prevailing present-day judgment in favor of centralization of power and consequent fixing of certain responsibilities. In other words, the movement is toward centralization, the elimination of separated boards and offices with duplicated functions and the substitution therefor of single departmental heads.

The first of the bills provides a new article to be added to the Political Code containing certain general provisions applying to all departments which are created by the proposed reorganization plan. In this article the clearly declared policy is to vest in the Governor the civil administration of the laws, and to divide the general subject of executive and administrative work into departments with heads appointed by the Governor, responsible to the Governor and holding office at his pleasure. This is in harmony with the provisions of sections 1 and 7 of article V of the constitution which provide:

"The supreme executive power of this state shall be vested in a chief magistrate, who shall be styled the Governor" and "He shall see that the laws are faithfully executed."

The power is expressly given to the head of each department, subject to the approval of the Governor, to arrange and classify the work, to adopt necessary rules and regulations and to assign to the employees thereof such labors as may be conducive to the utmost efficiency. The full significance of these broad powers given to the department heads will be understood after a perusal of the submitted bills and a realization of the many activities merged into one department.

While a substantial financial saving will be accomplished by the adoption of these reorganization laws, in my judgment a greater money saving as well as increased efficiency will be attained by this grant of power to the department heads to assign all the employees of the department, and to make the temporary transfers of employees between branches of the department whenever there may occur a shortage of work in one branch and an excess of work in another.

Within the departments are created various divisions, each in charge of a chief to be appointed by the head of his department and to receive such compensation as may be fixed by law A certain flexibility is obtained by enabling the head of the department, with the approval of the Governor, to create additional divisions as the needs of the department may require. Provision is also made for the fixing of salaries by the department head in accordance with the Civil Service standards. Control is retained by the Legislature in the matter of salary fixing, through the appropriations made for salaries in the department Ample provision is made to protect the civil service standing of the employees in these departments.

Provision is further made for a detailed report to the Legislature by each department at least sixty days prior to the biennial session of each legislature. The Attorney General is made the legal adviser of the departments and is empowered, upon the request of any department, to direct the district attorney of any county to appear in any hearing or prosecution under any law which the department is required to administer.

The first bill concludes with provisions transferring the powers and jurisdictions of the present boards and commissions to the newly created departments. Thus far the general provisions applicable to all of the departments intended to be created have been dealt with.

The second bill creates the department of finance, in which have been consolidated the powers and duties of the following boards, officials and commissions when not expressly abolished by the bill The State Board of Control, State Purchasing Department, Superintendent of Capitol Building and Grounds, State Commission in Lunacy, Boards of Managers of the Stockton State Hospital, Napa State Hospital, Agnews State Hospital, Norwalk State Hospital, Southern California State Hospital, Mendocino State Hospital, Sonoma State Home, Board of Trustees of Pacific Colony, Board of Directors of the Industrial School for Adult Blind, Board of Trustees of Whittier State School, Board of Trustees of Preston School of Industry, Board of Trustees of California School for Girls, Board of Trustees of California Industrial Farm for Women, Superintendent of State Printing, Motor Vehicle Department, Superintendent of Motor Vehicle Department, State Librarian, State Dental Surgeon, General Superintendent of State Hospitals, Children's Agents, Department of Public Accounting, Board of Trustees State Burial Grounds, Board of Colton Hall Trustees, Board of Monterey Custom House Trustees, Board of Pio Pico Mansion Trustees, Board of Sutter's Fort Trustees, Capitol Planning Commission, California Redwood Park Commission, and Historical Survey Commission

The work of the department is divided into seven divisions, to be known respectively as the division of institutions, the division of budget and accounts, the division of purchases and custody the division of printing, the division of motor vehicles, the division of capitol building and grounds, and the division of libraries and history

The chief of each of the three divisions of institutions, of budgets and accounts and of purchases and custody, is to receive a salary of $5000 a year, which is the present salary paid to each of the three members of the Board of Control. The chiefs of the other divisions, such as printing, motor vehicle, capitol building and grounds and libraries are likewise to receive the present salaries paid for like character of work. It is provided that the chiefs of the three divisions of institutions, budgets and accounts and of purchases and custody shall constitute the governing body of the department of finance, and that each of the division chiefs shall be in charge of his own particular division. Certain constitutional requirements concerning the State Board of Control make it necessary to retain nominally this board, and therefore it is expressly provided that these three chiefs shall be ex officio members of the State Board of Control The reasons for this apparent departure from the principle of individual department control are certain constitutional provisions dealing with the authorization and issue of bonds in which bond issues the specific functioning of the chairman of a State Board of Control is indispensable. In addition board action is required for the final determination of the state budget, a duty of such great importance and magnitude that in my judgment it will be more wisely and equitably performed by a board than by a single individual.

The active control of all state institutions, save those of an educational character, is centralized in the chief of the division of institutions. Thereby we obtain an administration of uniform policy by a single responsible head for all these institutions, instead of having the management of such institutions, geographically widely separated, under the control of a number of un-coordinated boards without common policy.

The bill retains purely advisory boards for these institutions without power of any kind except visitation and advice. No compensation is allowed. The bill itself provides for quarterly meetings only, which in my judgment will limit the traveling expenses to a nominal sum. I deem it quite proper at this time to submit my reasons for the retention of even these advisory boards to certain of our institutions. A general classification of the institutions is made: those dealing with the custody and control of wards as distinguished from those having none but a perfunctory control. The first class includes the hospitals, reformatories, and homes in which the state lodges, feeds and clothes its wards. All other institutions belong to the second class. In making this segregation and recommending the retention of advisory boards for the former class of institutions, I am guided by the experience of other states and the best available opinion of those having experience with institutional life.

The wards of the state are the ailing, the defective and the wayward. Over them the state holds the protecting, as well as the deterring, parental hand. Experience, unfortunately, has too frequently shown the tendency of institutional experts to lose sight of the human factor in dealing with this class of dependents and wards. Experience has also shown the value of outside, even inexpert contact with these institutions, the beneficent influence of the ordinary every-day human being, whose views and tenderness frequently soften the strict expert discipline of the trained institutional man. I believe the state owes it to itself, as well as to its wards and their friends and relatives, to accord to these institutions the influence of these boards, the members of which serve the state in this worthy and humanitarian work without compensation other than the satisfaction of aiding the unfortunates.

The bill preserves the State Board of Charities and Corrections, uncontrolled by any department or chief of department, and retaining all of its present powers of visitation, inspection and correction. In my judgment, there should exist some independent body possessing these powers that may at all times act as a mediary or correctional agent between the wards of the state and official control of such wards.

The third bill proposed adds to the Department of Agriculture the functions of the state superintendent of weights and measures, the state board of forestry, the state fish and game commission, the state market director and the state market commission. I shall not pause at this time longer than merely to refer again to the exceptional economies effected by the Department of Agriculture as it was constituted two years ago, and to express my confidence that the transfer of these additional responsibilities to this department will be amply justified. In addition to the existing divisions, the bill contemplates additional divisions for fish and game, forestry, markets and weights and measures. The fish and game commission is abolished and a single chief is substituted. A board of forestry, to consist of five members serving without compensation and having only advisory powers, seems justified by the geographical extent of our state and the diversity of forestry problems presented.

The fourth bill creates a department of education. In the creation of this department we are confronted with certain problems arising by reason of the fact that so many of our offices and boards are constitutional, and therefore their powers can not be curtailed nor can they be shifted in such a way as wholly to accomplish a consolidation along the lines of the general plan. An executive officer is created to be known as the director of education and the work of the department is divided into two divisions: first, the division of textbooks, certification and trust funds, and, second, the division of normal and special schools. For the first division the State Superintendent of Public Instruction and the State Board of Education are retained as required by the constitution. The second division is given certain powers heretofore possessed by the respective boards and trustees of the state normal schools, California Polytechnic School and the California School for the Deaf and Blind. In this way all the educational institutions are more closely coordinated and placed under the charge of one department.

The fifth bill creates a department of public works, to be conducted under the control of a division chief, who is also director of public works and state engineer. The work of the department is divided into four divisions, to be known respectively as the division of Engineering, the division of Irrigation, the division of Highways, and the division of Lands. A board of public works is retained, consisting of the Governor, director of public works and state engineer, the chief of the division of Irrigation and three other members to be appointed by the Governor. This board is to consider and advise upon matters of department policies and plans of development. The three appointed members of the board of public works compose a subdivision of the department of public works designated as the California Highway Commission. The Governor designates the chairman of such commission, who thereupon becomes a member of the highway finance board. Preservation of this title and commission is necessary by reason of reference thereto in certain bond issues heretofore voted by the people. Moreover, the state has embarked upon a program of

forty millions of dollars of highway construction. The creation of this department will consolidate the state engineer, the state land settlement board, the state water commission, the state highway engineer and the California highway commission into one department, and will abolish the Carey act commission and the advisory board to the Carey act commission. The general purpose of the bill is to put into one department all the big constructive work to be done by the state

At the last session of the legislature, the Department of Agriculture was created The Horticultural Commissioner, Board of Horticultural Examiners, State Dairy Bureau, State Veterinarian, Stallion Registration Board, Viticultural Commission, Cattle Protection Board, and Board of Citrus Fruit Shipments were abolished, and the powers and duties of such boards and offices were transferred to the Department of Agriculture

The sixth bill creates the Department of Labor, with a Director of Labor at its head. The work of the Department is divided into two divisions, the first to be known as the Division of Employment and Statistics, and the second as the Division of Industrial Relations. The Director of the Department is made ex-officio chief of the first division, and a Board of Industrial Welfare is made the head of the second division. The members of this board receive no compensation. This board succeeds to all the powers of the present Industrial Welfare Commission relating to the fixing of minimum wages, and the establishment of hours and conditions of labor for women and minors, and is to exercise the powers of the present Immigration and Housing Commission in so far as the same relate to the prescribing of rules and regulations regarding immigration and housing This board thus exercises the judicial power previously conferred upon the former boards, while the duty of enforcing its decisions is placed upon the director of the department To the head of the department is given full power to enforce all labor laws and the rules, regulations and orders of this board It is appropriate to confide the important judicial task of making findings of fact on such matters as minimum wage, hours of employment, conditions of labor and housing regulations upon a board. In the creation of this department we abolish the State Bureau of Labor Statistics, the office of Commissioner of the State Bureau of Labor Statistics, the Industrial Welfare Commission and the Immigration and Housing Commission.

The seventh bill creates the Department of Professional Standards. In this department are merged all the duties heretofore exercised by the various State Boards empowered to examine applicants for license to practice certain professional callings. The following boards are abolished: Accountancy, Architecture, Dental Examiners, Embalmers, Library Examiners, Medical Examiners, Optometry, Pharmacy and Veterinary Medicine. The head of this department succeeds to all the powers at present possessed by these boards, but is authorized to select from time to time temporary boards of three persons, each from the profession concerned, to conduct examinations of applicants for license and hear charges of professional misconduct These examining boards serve without compensation. The duty of enforcing such laws as the narcotic law, prohibiting practicing professions without license, etc, is imposed upon the head of this department

The eighth bill amends the present Civil Service statute in accordance with the recommendation of the Boynton Efficiency Commitee, by substituting in lieu of the present commission a board consisting of three members, one of whom shall be the executive member and the other two but associate members An important change is the matter of compensation In lieu of $9000 per annum now paid to the three commissioners, the bill provides that the executive member of the commission shall receive $5000 per annum, and be required to devote all his time to the office. A per diem compensation is allowed the two associate members, the total not to exceed $300 each in any one year

In the bills you will note that I have refrained from proposing any change affecting the Legislative Counsel Bureau. This has been done because that Bureau is really an adjunct to the legislature

Several bills, other than those herein discussed, have been prepared and submitted. They have for their purpose the repeal of certain statutes and will serve to abolish certain boards and commissions that have ceased to function

We already have several departments with departmental heads, such as the Superintendent of Banks, Insurance Commissioner, Building and Loan Commissioner, Real Estate Commissioner and Corporation Commissioner, which apparently are not subject to practical consolidation with any of the other governmental agencies. This was also the conclusion reached by the Boynton Efficiency Committee.

After a careful comparison of statutory and constitutional provisions, it has been found that in the case of the corporation commissioner, who authorizes the issue of corporate securities, that it is impossible to merge his functions with the railroad commission, which authorizes the issue of utility securities, inasmuch as the Commissioner is a statutory officer, while the railroad commission's duties are prescribed by the constitution

It was found equally infeasible to merge the functions of the Building and Loan Commissioner with the Bank Commissioner. Savings banks and building and loan institutions receive their deposits in general from the savings of people. The building and loan associations usually accept small deposits on fixed terms while savings banks ordinarily receive deposits payable on demand. The difference in their financial

methods and purposes is an important one. They are competitors for the same credits and any attempt to merge them would, in my judgment, be an attempt to merge antagonistic and competitive interests

The Insurance Commissioner can not, in my judgment, be dealt with save as a single unit, unless constitutional amendments are some day adopted that will permit the entire system of trade, commerce and finance to be adjusted The same thing is true of the Real Estate Commissioner.

By no logical classification can the State Mining Bureau be put under any of the departments proposed, inasmuch as it is now conducted by a departmental head, and of itself responds to the principles sought to be put into execution by these bills It has been deemed wise to let the Bureau stand as it now exists.

Upon the fundamental theory maintained throughout of retaining boards exercising judicial functions, no attempt has been made to interfere with the Industrial Accident Commission. It is essentially the poor man's court, created to afford relief to him who in the discharge of his occupational duties suffered misfortune.

The State Board of Health, dealing with the single important subject of public health and sanitation is a constitutional board. Its functions can not be trenched upon.

The Railroad Commission, which deals with the entire subject of public service, derives all its powers from the Constitution. The powers granted by the Constitution can not be interfered with.

It has been found impossible for obvious financial reasons to disturb the Reclamation and Irrigation Boards without jeopardizing the validity of outstanding bond issues as well as those now under way The same reason applies to the various small district reclamation and irrigation boards

There are two cogent reasons for leaving the State Board of Harbor Commissioners as it now stands. In the first place, the State of California has voted bond issues in excess of $16,000,000 to be handled by the State Board of Harbor Commissioners. Of this amount about one-half has already been issued and the other half is in reserve to issue when the needs of the Board require it. Another reason is, one that looks to future harbor development. Modern transportation recognizes that a harbor such as the San Francisco harbor can not be a local project. It is essentially the harbor of every county bordering upon it and the natural harbor and outlet of most of northern California In my judgment it will not be very long before the State of California will treat the harbor of San Francisco as modern harbor engineers are treating similar ports. The New York Harbor is no longer even a state project. It has become an interstate project. The same situation is true of New Orleans and other eastern harbors. The State Board of Harbor Commissioners should be preserved as the necessary instrumentality for the operation of the harbor in San Francisco along modern port and harbor lines.

In the foregoing comments, I have but touched upon the salient features of these bills, and have in only a slight way referred to the various commissions and offices abolished as well as those consolidated. In the case of the offices, boards and commissions abolished, the state will save not merely the direct items of compensation and the expense of the boards, commissions and offices themselves, but also the larger expense incurred in their work. Numerous deputies, officers, agents attorneys, and employees are dispensed with. Nor have I sufficiently called attention to the larger economies effected with equal, if not superior efficiency, by reason of that flexibility which can (but is impossible with scattered boards, officials and conflicting authority) be obtained by merging so many state activities in one departmental head.

It is no doubt true that under existing conditions, with the rigid but necessary system of legislative appropriation, some departments are frequently strained to the utmost in the discharge of their duties at a time when other departments are but slightly burdened. Instead of disorganization of a force by dismissal in the latter case, and in place of the inevitable inefficiency of employing temporary help in times of rush and stress, the power given in the creation of these departments to the respective heads thereof, will, in my judgment, take care of the state's needs at a substantial saving in salary cost.

In recommending for your favorable consideration these bills, I recognize in the draftsmanship thereof a human fallibility, but I am firmly convinced that the reorganization of our government along the lines indicated will be a marked step forward. Indeed, I am hopeful that the result of the present changes may be a complete justification for a more comprehensive reorganization of our state activities A complete reorganization can not be accomplished, however, without substantial constitutional changes.

In submitting these measures I do so with the sanguine feeling that I have your full cooperation in my determined purpose of attaining such economies and efficiencies as are possible. I ask your consideration of these bills in the spirit of that cooperation that I know I have from you

No single function or duty of the state is by any of these measures curtailed or discontinued. On the contrary, the fusion or merger of activities will give us the much desired economy, and, at the same time, a greater efficiency and a more beneficial functioning than we have attained in the past. The people of this state are anxiously and properly looking to every governmental agency, federal and

municipal, as well as state, to curtail expense and maintain efficiency. We are but servants of the people seeking to discharge a solemn obligation imposed upon us. While we can not control expenditures authorized by the people themselves, we can control unnecessary expense in the functioning of governmental agencies.

We shall have gone a long step forward by reorganizing our state as proposed by these bills, and consolidating into six or seven departments a large number of state boards, commissions and other officials.

In this common service, which we are both anxious to render to the commonwealth, I urge your earnest and mature deliberation and effective cooperation. The task before us is an important one. Its very size challenges the best thought that we all possess. I trust you will find in these bills the accomplishment of our common purpose of rendering to the people of this state the greatest possible service at the least possible cost.

Respectfully submitted.

WM. D. STEPHENS.
Governor.

PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Fellom:

LOS ANGELES, January 17, 1921.

DEAR SIR: As chairman of the committee which doubtless will consider a proposed demand by Los Angeles County supervisors for conservation and flood control of the waters of Pacoima Canyon watershed, you will be glad for a view of "the other side of the shield."

Ignoring the recommendations of their board of flood control engineers and of the supplemental report of their county engineer (Reagan) adopted in 1917—for which ample funds were appropriated and are still available—our supervisors have endeavored to commit this county and State to the more spectacular and costly scheme of "the tallest dam in the world" at the narrows of the canyon. First estimates (for a gravity dam) were $2,500,000. For a continuous arch dam it is now estimated at $1,500,000, nearly five times the cost of alternatives which County Engineer Reagan

pronounced "good engineering and adequate" protection from floods In this day of needed State intrenchment of expenses, it seems patent that any appropriation which would commit the State, county or city to so unnecessary a project would be but the beginning of an ultimately great burden to taxpayers.

To make this great cost seemingly consistent, the public have been fed up with promises of power and irrigation, in addition to flood control. We have the word of Wm. Mulholland, builder of the aqueduct, that "as a power proposition, it is not worthy of consideration," and that "Los Angeles already has more water from the aqueduct than ranchers of the Van Nuys Valley will buy." Indeed, the veriest tyro must recognize that in order to scour out the proposed reservoir from storm silt and be in readiness with an empty reservoir capable of checking flood waters, the reservoir must be more or less empty during the rainy season and therefore no irrigation water could be conserved. While on the other hand, if kept full or partially so for irrigation, the reservoir dam would not check floods. To expend $1,500,000 or more for flood control only, when cheaper alternatives are at hand, would be a crime under present conditions which voters would not forgive.

It has been urged that our supervisors substitute a 100-foot dam in the deep, wide wash half a mile below the mouth of the canyon, which would be free of all objections and have vital advantages over the site at the narrows. A control dam at the wash in connection with check dams throughout the canyon, as recommended by Engineer Olmstead, would effectually control floods, would submerge no valuable lands or destroy a scenic canyon and the many substantial homes of innocent owners therein

Inclosed are authenticated facts bearing on this matter, and it is trusted that a matter which the State Board of Control refused to recommend will not be foisted upon voters through inadvertence on your part.

Very truly yours,

CHAIRMAN PACOIMA CANYON COMMITTEE.

By Mr. Long:

RICHMOND, January 17, 1921

I am directed by the council of the city of Richmond to communicate with you in relation to Assembly Bill No 45, introduced by Assemblyman Morrison, providing for the maintenance by the State of one of the San Francisco fire boats

The council believes that the interests of the city of Richmond will be subserved by the maintenance by the State of such fire boat, and therefore requests that you use your best efforts to secure the passage of this bill.

Yours very truly,

[SEAL] A C FARIS,
Clerk of the City of Richmond.

Also:

RICHMOND, January 17, 1921

I would ask at this time your careful consideration of Assembly Bill No 45, introduced by Assemblyman Morrison, providing for the maintenance of one of the San Francisco fire boats.

These boats were originally built by the city of San Francisco and maintained until several months ago, at which time one boat was discontinued, owing to lack of finances.

In case this bill carries it will mean much to the east bay cities, and particularly our own city.

I respectfully call your attention to the following properties to which very effective service could be rendered by a fire boat California Wine Association, Standard Oil Company buildings at Point Orient; Standard Oil Company, two long wharves; Belt Line Railway Company; Visayan Refining Company; Fresno Cooperage Company; A. T. & S. F. Railway terminal; Municipal Wharf No. 1.

It is my firm belief from the number of communications received that you will have the full support of all civic bodies, the chambers of commerce and the shipping interests around the bay.

Thanking you in advance for any support you may be able to give this bill, I am

Yours very truly,

ROY LEMOIN,
Chief of the Fire Department, City of Richmond

SAN FRANCISCO, January 18, 1921

There have been several disastrous fires on our water front lately that could have been minimized by the use of fire boats. As you probably know, this city has two or more of these boats tied up to the docks, lying idle on account of lack of funds appropriated for this purpose. These fire boats have a sufficient speed to be able to assist in protecting not only the water front of San Francisco and Oakland, but also that portion of the water front as far up as Martinez, and they should, therefore, be utilized in protecting the water front of the entire San Francisco Bay.

When the matter comes up in the Assembly, we trust that we may count upon your assistance in putting these boats back into commission. Appreciating anything you can do towards this end, we remain

Yours very truly,

G. W. McNEAR, INC.

By Mr. West:

SACRAMENTO, January 2, 1921.

We have read in the Sunday Union that you are to ask for special legislative committee to investigate the affairs at the State Farm School at Davis. We trust your resolution will be immediately adopted, as the conditions at the farm certainly are deplorable. Successful farmers can not be turned out by a school that neglects its live stock, its equipments, and impresses the visitor with mismanagement wherever he turns.

As breeders of purebred milk goats, we feel that the neglect of the milk goats at the farm deserves your attention, they are so ill-cared for it is a disgrace to our industry and a blot upon the farm. The milk goat is rapidly being recognized as the saver of infants' lives and the hope of the tubercular, and we believe the industry deserves the same consideration given to dairy cattle. We feel that instead of being treated with scorn and neglect by the dairy herdsman as they are today, they should be under the supervision of an experienced goat person.

So we hope that in your investigation, you will include the goats in the work.

Yours very truly,

ALICE M. BROWN,
"The Gem Herd of Purebred Registered Swiss Toggenburg Milk Goats."
M. D. WOODRUFF.

Also:

WHEREAS, It is a well-known fact that everything is now on the decline, wages as well as material. These are unsettled times; railroad rates and electric power rates must be reduced or the farmers and others will have more load than they can carry; and

WHEREAS, The Railroad Commission, instead of working for the good of the general public, are working for the interests of the corporations, and seem to think it their duty to increase rates whenever asked; and

WHEREAS, Said Railroad Commission does now and has repeatedly granted such increases without giving the consumers information of any hearings on the matter, nor allowed any presentation of facts from said consumers; therefore, be it

Resolved, That Elk Grove Grange heartily endorse the investigation of the Railroad Commission now contemplated by the State Legislature, and call for a very thorough and unsparing inquiry into the personnel of said commission, and their possible bias in the matters coming before them; and, be it further

Resolved, That copies of this resolution be sent to Governor Stephens, Senator Inman, Assemblyman West and the Legislative Committee of the State Grange.

Respectfully submitted.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

By Mr. Hornblower:

I beg leave to explain my attitude and vote on Senate Bill No. 141, as follows: The bill refers to escheated estates and an appropriation therefor. The bill should, if directed and aimed at the Japanese situation, specifically state that the appropriation was made for the sole purpose of prosecuting the Japanese who are unlawfully holding land, and who are affected by the Alien Land Law. The bill, as it now reads, allows the Attorney General to use this appropriation in connection with any services in obtaining escheated estates and the prosecution thereof. If the bill had been amended to meet this point I would have voted to pass the same, because I am unalterably opposed to Japanese holding any land or property by lease or otherwise in the State of California.

WILLIAM B. HORNBLOWER.

CHIEF CLERK KAVANAUGH READING.

PRESENTATION OF PETITION—(OUT OF ORDER).

The followng petition was presented, and ordered printed in the Journal:

By Mr Merriam:

LOS ANGELES, January 21, 1921.

Give copy of accompanying resolution to each member of Los Angeles delegation and to Governor Stephens

Resolution January 21, 1921, introduced by Supervisor Prescott F. Cogswell.

WHEREAS, There is pending before the Legislature of the State of California a bill to adjust taxes upon public utility corporations in order that they may more nearly conform to the taxes upon the general property throughout the State, which has increased since 1916 thirty-five per cent; and

WHEREAS, It is evident from the budget presented by the State Board of Control that approximately seventeen million dollars of additional revenue will have to be met from some source for the next two years, and

WHEREAS, If the adjustment upon public utility rates is not made and an ad valorem tax of approximately twenty-five cents on the one hundred dollars will have to be levied upon the general property of the State, which will produce in this county alone about $2,500,000 per annum; and

WHEREAS, The assessed valuation of Los Angeles County is approximately fifty per cent of its actual value, while in the majority of the counties of the State the assessed valuation is *from twenty-one per cent to forty-five per cent of its actual* value; therefore, an ad valorem tax would work a great injustice upon this county; and

WHEREAS, This board is in favor of any measure of economy that may be desired for the reduction of State expenditures; yet we believe there should be an adjustment of the taxes upon public utilities to conform to the present tax upon general property rather than an ad valorem tax; now, therefore, be it

Resolved, That we urge our legislators to support the utility tax bill now before the Assembly.

PRESCOTT F COGSWELL.
Supervisor Los Angeles County.

SENATE JOINT RESOLUTION No. 9.

Relative to the construction by the United States Reclamation Service or other public agency in Long Valley, Lassen County, California, of a unit of the Truckee-Carson project under construction by the United States Reclamation Service in Nevada.

WHEREAS, In the organization of the United States Reclamation Service it was understood that the proceeds from the sale of public lands should be used so far as practicable in the states from which such money was received for the construction of works for the reclamation of arid lands therein; and

WHEREAS, The amount of money so received from the State of California has been greatly in excess of such reclamation work done in the State of California; and

WHEREAS, The water from streams having their source in California is being used for the irrigation of lands in the Truckee-Carson project in Nevada; and

WHEREAS, The land lying in Long Valley in Lassen County in the State of California must depend for its supply of water for irrigation, among other sources upon the Little Truckee River, some of the waters of which are used in the Truckee-Carson project in Nevada; and

WHEREAS, Said Long Valley, from an engineering and physical standpoint can be made a logical unit of the Truckee-Carson project, is exceedingly fertile, and would be occupied and cultivated without the long delay in development which is taking place in other units of said project, and affords an ideal opportunity for the application of the principles underlying the work of the Reclamation Service;

Resolved by the Senate and Assembly, jointly, That the Legislature of the State of California hereby memorializes Congress to provide for the incorporation of Long Valley, and more particularly of the lands lying within the southern Lassen and Long Valley Irrigation Districts within such Truckee-Carson project, or otherwise to provide for the immediate construction of works for the irrigation thereof from the Little Truckee River, and be it further

Resolved, That our Senators and Representatives in Congress be and they are hereby urgently requested to take such steps as may be necessary to bring about the commencement of such work at the earliest possible date, and that the United States Reclamation Service be urged to incorporate the said territory within the plans adopted for the utilization of the waters of the Truckee and Little Truckee Rivers

Resolved, further, That the secretary of the Senate be and is hereby directed to forward copies of this resolution to the President of the Senate, the Speaker of the House of Representatives, each of the Senators and Representatives from California in Congress, and to the United States Reclamation Service at Washington.

RESOLUTIONS TREATED AS BILLS.

6. Joint resolutions, concurrent resolutions and constitutional amendments shall be treated in all respects as bills; except that they shall be read but one time in each House, and that they shall not be deemed bills within the meaning of section 2 of article IV of the constitution, and shall not be referred to the Committee on Introduction of Bills, and shall not require a vote to authorize their introduction. When printed, the new matter so underlined shall be enclosed in heavy brackets in the printed bill and also heavy brackets shall be retained to show omissions.

COMMITTEE ON REVISION AND PRINTING TO EXAMINE BILLS WHEN INTRODUCED.

10. Unless otherwise ordered by the House in which the bill was introduced, all bills before being printed shall be immediately sent to the Committee on Revision and Printing, which shall examine the bill, with the aid of the Legislative Counsel Bureau. The committee, by and with the written assent of the author filed with it, shall have authority to correct any clerical error such as in orthography, adding or correcting the enacting clause, mistakes in numbering sections and references thereto, errors in grammar, phraseology, or in the form of the bill; *provided*, that no bill which bears the stamp of the Legislative Counsel Bureau showing that before introduction it has been examined as to form, shall be sent to the Committee on Revision and Printing.

NOTE.—The submission of bill copy to Legislative Counsel Bureau for approval of form before introduction will expedite its course.

BILLS INTRODUCED TO INDICATE CHANGES IN EXISTING LAWS.

11. The Committee on Revision and Printing shall see to it that rules 7 and 9 of these Joint Rules are observed by the author, and that the bill shall not be sent to the printer until the provisions of these rules have been carried out.

REPORTS OF COMMITTEE ON REVISION AND PRINTING.

PASSAGE AND ENROLLING OF BILLS.

PASSAGE OF BILLS TAKING EFFECT IMMEDIATELY.

33. Each House shall act in the usual course upon all bills that may be made to take effect immediately, under the provisions of section 1, article IV, of the constitution

PASSAGE OF URGENCY PROVISION IN BILLS.

34. Upon the third reading of an act which is an urgency measure within the meaning of section 1, article IV of the State constitution, the presiding officer shall direct that the section of said act setting forth the facts constituting the necessity for such urgency (which shall be known as the urgency section) be then read and put to vote. The question shall be thus stated: "Shall this section setting forth the urgency features of this bill be passed?" If upon such final vote two-thirds of all the members elected to the House in which the vote is being taken shall not vote in

the affirmative, no further action shall be taken on the bill; but, in case an identical bill without such an emergency clause be again introduced into such House, such bill shall be placed on file without reference to any committee.

PASSAGE OF BILLS PRECEDING FINAL ADJOURNMENT.

35. No Senate bill shall be passed by the Senate and no Assembly bill shall be passed by the Assembly within seven days of the time set for adjournment (sine die) of the two Houses of the Legislature, unless permission to vote on such bill shall be granted by a three-fourths vote of the House of its origin after being recommended by the presiding officer thereof.

ENROLLMENT OF BILL AFTER PASSAGE

36. After a bill shall have passed both Houses, it shall be duly enrolled after being carefully compared, by the Engrossing and Enrolling Clerk and committee of the House in which it originated, with the engrossed bill as passed in the two Houses. It shall then receive the signatures provided for in Joint Rule 37, and be presented to the Governor of the State

ENROLLING COMMITTEE TO PRESENT BILLS TO GOVERNOR.

37 After a bill shall have been thus passed in each House, it shall be presented by the Engrossing and Enrolling Committee of the House in which it originated to the Governor of the State for his approval (it being first endorsed by the presiding officers of the two Houses, and by the Secretary of the Senate and Chief Clerk of the Assembly) The said committee shall report the day of presentation to the Governor, which time shall be carefully entered on the Journal of the House in which the bill originated.

AMENDMENTS AND CONFERENCES.

AMENDMENTS TO AMENDED BILLS MUST BE ATTACHED.

38. Whenever a bill or resolution which shall have been passed in one House shall be amended in the other, it shall immediately be reprinted as amended by the House making such amendment or amendments. Such amendment or amendments shall be attached to the bill or resolution so amended, and indorsed "adopted," and such amendment or amendments, if concurred in by the House in which such bill or resolution originated, shall be indorsed "concurred in," and such indorsement shall be signed by the Secretary or Assistant Secretary of the Senate, or the Chief Clerk or Assistant Clerk of the Assembly, as the case may be, *provided, however*, that an amendment to the title of a bill adopted after the passage of such bill shall not necessitate reprinting, but such amendment must be concurred in by the House in which such bill originated

TO CONCUR OR REFUSE TO CONCUR IN AMENDMENTS.

39 In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or the Chief Clerk shall notify the House making the amendments and the bill shall be ordered to enrollment.

WHEN SENATE OR ASSEMBLY REFUSE TO CONCUR.

40. If the Senate refuse to concur (if it be a Senate bill), or the Assembly refuse to concur (if it be an Assembly bill), the Secretary or the Chief Clerk shall notify the House making the amendments of such refusal, and ask that they recede from their amendments. If they refuse to recede, the presiding officer shall appoint a committee of three (3) on conference and the Secretary or the Chief Clerk shall immediately notify the other House of the action taken and request the appointment of a like committee. Two of the members comprising such committee from each House shall be selected from those voting with the majority on the point about which the difference has arisen, and the other member from each House of such committee shall be selected from the minority, in the event there is a minority vote. The first Senator named on the Conference Committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the House, and the chairman thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The Committee on Conference shall report to both the Senate and Assembly.

COMMITTEE ON CONFERENCE

41. In every case of an amendment of a bill agreed to in one House and dissented from in the other, if either House shall request a conference and appoint a committee to confer the other House shall appoint a like committee; and such committee shall meet at a convenient hour, to be agreed upon by the respective chairmen of the committees.

COMMITTEE ON FREE CONFERENCE

42. If the conference fail to agree or either House refuse to adopt the report of the committee, a Committee on Free Conference shall then be appointed which shall consist of three members from each House to be constituted and appointed in the same manner as a Committee on Conference. The Committee on Free Conference is hereby directed to include in its report any amendments which it may adopt as a committee, and such amendments shall be attached to the bill.

The report of the Committee on Free Conference shall not be subject to amendment, and if either House refuse to adopt such report the conferees may be discharged and other conferees appointed.

It shall require the affirmative vote of not less than four of the members constituting the committee to agree upon a report. No member who has served on a Committee on Conference shall be appointed a member of a Committee on Free Conference on the same bill

WHEN CONFERENCE COMMITTEE REPORT IS IN ORDER.

43. The presentation of the report of a Committee on Conference or Free Conference shall always be in order, except when the Journal is being read or a question of order or a motion to adjourn is pending, or during roll call, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

MISCELLANEOUS PROVISIONS.

44. The Committee on Joint Rules shall be empowered to compile a list of suggestions as to the form of bills and resolutions prepared for introduction into the Legislature.

PRESS RULES.

45 A person desiring recognition by the Senate or Assembly as a newspaper correspondent shall make application in writing to the President of the Senate or Speaker of the Assembly.

(*a*) The applicant shall state in writing the name of the newspaper or newspapers he represents and that he is not engaged, and will not become engaged as a lobbyist for any person, copartnership, corporation or interest and that he is not and will not become the agent or representative of any person, copartnership, organization or corporation in advocating or attempting to defeat any measure pending in either branch of the Legislature, that he is not employed in any executive, administrative or legislative department of the State government and will not become so employed while accepting the privileges of a press representative.

(*b*) It shall be the duty of the President of the Senate and the Speaker of the Assembly to assign one or more rooms for the exclusive use of correspondents during the legislative session, which room shall be known as the Press Room. The Press Room shall be under the control of the Superintendent of Capitol Building and Grounds; *provided*, that all rules and regulations shall be approved by the President of the Senate and Speaker of the Assembly.

ADJOURNMENT.

46 Adjournment for the constitutional recess and adjournment sine die shall be made only by concurrent resolution, and the resolution for adjournment sine die shall be passed by both Houses at least twenty-eight days before the date of such adjournment.

JOINT ADDRESS TO GOVERNOR.

47. When the Senate and Assembly shall judge it proper to make a joint address to the Governor, it shall be presented to him in his audience chamber by the President of the Senate in the presence of the Speaker of the Assembly and a Select Committee of six members from each House appointed by the respective presiding officers.

DISPENSING WITH JOINT RULES.

48. No Joint Rule shall be dispensed with except by a vote of two-thirds of each House; and Joint Rules 27 and 35 can be dispensed with only in the manner provided for in said Joint Rules. If either House shall violate a Joint Rule a question of order may be raised in the other House and decided in the same manner as in the case of the violation of the rules of such House; and if it shall be decided that the Joint Rules have been violated, the bill involving such violation shall be returned to the House in which it originated, without further action. Or at the option of such House, the President or Speaker may direct the Secretary or the Chief Clerk to mark the section or sections in conflict with the rules as nonconcurred in or negatived.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the *Journal*:

By Mr. Hume:

I desire to explain my vote on Senate Bill No. 146. I think the present system of raising State revenue is sound and fundamental, but I am positive the methods of fixing the rates on the various classes of corporations are not businesslike and some glaring inequalities have been allowed to be put in and still remain there. I have tried to correct these in the light of the best information I could obtain and have failed in every instance. I desired to postpone final action until after the constitutional recess and failed. I do not approve the recitals in section 5. I do not think they are the facts.

However, have been reliably informed that the necessity and certainty of providing now for the State's revenue is imperative in order that those charged with the assessment and collection of revenue may do their duty. I know the burden of taxation on the farmer and the owner of a small home. I yielded my own ideas to the emergency facing the State and supported the bill.

GEO. E. HUME.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

By Mr. Merriam:

MR. SPEAKER I voted "No." that the final consideration of Senate Bill No. 146 might be postponed until after the constitutional recess, under a motion to reconsider.

FRANK F. MERRIAM.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

In explanation of our vote this day upon Senate Bill No. 146, we desire to have the following recorded in the Assembly Journal

1. The Legislature is a deliberative body and as such is entitled to a sufficient length of time to consider and discuss proposed legislation.
2. Senate Bill No 146 presents a most important issue and one which in its proper solution, calls for an analytical study and comparison of the various statistics presented by the State Board of Control, by the State Board of Equalization and by the public utility and other corporations of the State.
3. The constitutional recess was provided by law to permit legislators to consider the bills introduced during the first session, and to permit the people of the State to become apprised of such intended legislation and to prepare arguments for or against same.
4. Senate Bill No. 146 could be passed, well within the legal time required, to wit, before the first Monday of March, 1921, if final vote upon same were taken after the constitutional recess.
5. Repeated efforts have been made by the undersigned and others to prevent hasty, impulsive and coerced action by the Assembly upon Senate Bill No 146 We have pleaded with the Committee on Revenue and Taxation and with other Assembly leaders for further time and not to rush this measure to a vote without giving the members of the Assembly an opportunity to take advantage of the recess to study this important legislation and consult with their constituents

We have voted "No" because of our doubt of the justice of the rates imposed under the bill, and as a rebuke to those who would hasten legislative action unduly

LETTERS PRINTED.

In accordance with the motion made by Mr. Merriam on Friday, January 21, 1921, the following letters were submitted by Messrs Coombs and Hurley to be printed in the Journal:

DECEMBER 28, 1920.

Hon Lyman M King, State Senator, Redlands, California

DEAR SENATOR KING. Some time ago, the railroad companies, foreseeing that the question of the equity of the State tax rates would come up during the next session of the Legislature, asked me to prepare, at their expense, a report on taxation data similar to those reports which I prepared for the State in 1912, 1915 and 1917. I agreed, and the work is well under way

The character of the data, the methods of computation and of presentation, will be precisely the same as those established and approved in the past. In short, the report, as I call it, will be just the same as it would have been if prepared for the State.

It occurred to me that the data will certainly be of interest and should be of real service to your committee, so I obtained the consent of the companies to place them at your disposal. We are all working to the same end, namely, to establish the true state of affairs and to find the best way out of the financial difficulties of the State. The position taken by the officials of the companies is that the facts must be established satisfactorily without bias and beyond criticism, and that it is only by conference and cooperation that a result satisfactory to the State and just to the companies can be reached

The State Board of Equalization, the Controller's office, and the Board of Control have placed at my disposal all the latest information that they have and which they are now gathering in regular course. All the figures will be submitted to them for criticism and verification.

There will be two parts to the report, one is a stock and bond valuation of the railroads, including the steam railroads, the electric railways and the so-called "short line" railroads, quotations used will be the average for the twelve months of the year 1920. It will show the burden of taxation that these roads are now carrying.

The other part is a study of the increasing burden of local taxation The data as to county, district and municipal taxation is being collected now by Mr. Cooper and Mr Hickey of the Controller's office in preparation for their regular report on "Financial Transactions."

I am making a careful analysis of the somewhat unusual and rather remarkable changes in the assessment rolls since 1916 All comparisons will be between the years 1916 and 1920 My investigation joins thus with the preceding investigations and takes up the story where the State Tax Commission of 1917 laid it down.

I have not thought it wise to undertake a general appraisal of properties because of the enormous expense and because, if done under private auspices, it would always be subject to suspicion that it is possibly not unbiased. I have, however, gathered a considerable amount of data of a somewhat general sort indicative of the movement of values Just what this will show it is impossible to forecast until it is all completed So far as I have gone, my impression is that there is but a slight change in the ratio of assessed to actual value. In many parts of the State the market value of property advanced rapidly in the past few years In all parts of the State there has been an unusually active real estate market and the number of transfers has been at least 40 per cent and possibly 50 per cent larger than the number in 1916, despite the fact that 1916 was by no means a dull year in the real estate business In most cases, however, the assessor has put the advance on his rolls, but the general average advance in the assessment rolls as to land was no greater between 1916 and 1920 than it was between 1912 and 1916. In some counties the pressure for more money resulted in an increase in assessments, while in others there is reason to believe that the advance in actual value has been more rapid than the advance in the roll. There will be, therefore, a certain amount of give and take, some counties advancing and some receding in the ratio of assessed to true value, but, as I have said, I can not yet foresee where the investigation will come out

The increase in the taxes brought about by a change in the tax rates, as distinct from any changes in the assessment rolls, is very great. It is already clear that a change of one or two points in the ratio of assessed value to true value, discussed in the preceding paragraph will have very little effect upon the ratio of taxes to the actual value of property There is no doubt that the burden of local taxes has advanced materially The gross receipts taxes have also advanced very greatly, those for the steam railroads alone increased 57 per cent during the past four years Meanwhile, owing to the enormous increase in operating expenses and a decline in net earnings, the stock and bond valuation of the railroad companies have declined, but how much these declined I cannot yet say as the work is not quite finished.

I shall be very glad to place all this material at the disposal of your committee for use or for criticism I shall be especially glad to have your criticism. If there are any points that your committee wishes to consider and which I can assist in obtaining for you, please let me know.

Very truly yours,

CARL C. PLEHN.

DEAR PROF PLEHN I am in receipt of your letter of the 28th and wish to thank you for the information therein given I am greatly interested in the data you have compiled and in the analysis you will make in the changes of the assessment rolls

The Revenue and Taxation Committees of the coming session should be very greatly interested in your data and your conclusions. The personnel of these committees we do not now know. My hold-over committee took rather a different slant of the subject and will largely content itself with a statement of the present situation, as they see it, and a statement of possible sources of revenue and of suggested economies

Thanking you again, and hoping the best means toward the necessary end may be found, I remain

Very truly yours,

LYMAN M. KING.

Hon. Frank L Coombs, Chairman of Committee on Revenue and Taxation, State Assembly, Sacramento, California.

DEAR SIR. In view of the tremendous importance of the revenue legislation that is under consideration, will you be good enough to read this letter to the House.

The State Board of Equalization in its letter to Governor Stephens of January 11, 1921, states that the average taxes paid by the non-operative property, that is, the general property in the State, for the current year amounted to $1.63 per one hundred dollars of its full value

In order that the members of the Legislature and the people of California may have the facts in plain terms, we state that the railroads, and street railroads are perfectly willing to pay the average rate of $1.63 per hundred dollars of the full value of their property in this State, and ask that such a value be placed on their railroads and street railroads in order that they may know at what amount their property is valued for tax purposes—a right enjoyed by all other property owners.

The Seavey Tax Commission, four years ago, valued the railroads and street railroads at $519,620,000. At the time it was made, we thought this valuation too high and because of the disastrous times during which the railroads and street railroads are passing, we think it is much too high a value for the present time. But, entirely in disregard of the fall in the value of public utility properties, the State Board of Equalization bases its proposal to raise the percentage rates on the gross earnings of the railroads and street railroads, entirely on the assumption that the value of the railroads and street railroads has increased during the last four years at the same rate as the gross earnings of the railroads and street railroads, that is by 47.5 per cent, an assumed amount so manifestly grotesque as to condemn as ridiculous the proposal of the State Board of Equalization that the percentage tax on gross earnings be increased from 5.25 to 7 per cent. The State Board of Equalization, however, nowhere openly declares that its proposal is based on this assumption for, if it did, its proposal would fall by the weight of its own absurdity. However, upon no other hypothesis could the State Board of Equalization propose that the percentage tax rates on gross earnings of the railroads and street railroads should be increased by 34.98 per cent, which is the percentage of increase in the tax rate that the State Board reports to have taken place on the general property since the Seavey tax report was made. If the railroads and street railroads were now valued at $519,620,000, the sum at which they were valued by the Seavey Tax Commission, their average tax rate would be $1.94 per one hundred dollars of full value against an average tax rate, reported by the State Board of Equalization, of $1.63 on the full value of the general property

If the State will place a value on the railroads and street railroads it will become possible by direct and simple computations to determine whether the railroads and street railroads are now bearing their proportionate share of the total tax burden.

This statement is made because no man, unless expert in the handling of figures, can understand the involved mathematical computations of the State Board of Equalization in its letter to Governor Stephens and see just how they do the railroads and street railroads the gravest injustice.

We are sending a letter identical with this to the Chairman of the Senate Committee on Revenue and Taxation.

Respectfully submitted.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

By Messrs. Badaracco and Burns:

In explanation of our vote upon Senate Bill No. 146, we desire to have the following recorded in the Assembly Journal:

We have made repeated efforts to prevent hasty, impulsive and coerced action by the Assembly upon Senate Bill No. 146. We pleaded with the Committee on Revenue and Taxation and with other Assembly leaders for further time, and not to rush this measure to a vote without giving the members of the Assembly an opportunity to take advantage of the recess to study this important legislation and consult with their constituents. We have voted "no" because of our doubt of the justice of the rates imposed under the bill, and as a rebuke to those who would hasten legislative action unduly.

JOSEPH F. BURNS.
J. B. BADARACCO.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

By Mr. White:

I came up here with the expressed determination to support any constructive program of the administration, and I have not changed my attitude. This is obvious from the bills I have introduced. I did not believe early in this session that there was any need for the immediate passage of this proposed tax legislation. I am now convinced that my original idea was correct and that we should take further time for its consideration.

I accepted the tax figures prepared by the State's fiscal agents, but after a further investigation of the entire situation, I must confess that I do not now know whether the rates fixed in the bill are equitable. I now join with those asking postponement, with the hope that careful consideration may determine the equities in this situation to all parties concerned, and particularly to the people of California, who will eventually pay this tax.

If postponement is not granted, I must vote against the bill.

JOHN ROBERT WHITE, JR.

By Mr. Baker:

Resolved, That the governing committee of the Los Angeles Realty Board, in session February 16, 1921, at its regular meeting, has taken up for consideration the matter of the proposed increased taxation now before the State Legislature, and more specifically the bill now before said Legislature known as the King bill; that said governing committee of the Los Angeles Realty Board is unalterably opposed to said King bill as proposed.

That the said governing committee of the Los Angeles Realty Board further resolves that the appropriations for the year 1921–1922 shall not exceed those of the year 1919–1920, that if any change be made in those appropriations of 1919–1920 that such change shall be downward.

That the governing committee of the Los Angeles Realty Board does herein go on record, and does urge that the additional necessary educational appropriations and the road bond interest be met by the abolishment of a number of the nonself-sustaining commissions, and the abolishment of other unnecessary expenses of the State of California.

Further, that the governing committee of the Los Angeles Realty Board herein expresses full confidence in our present State legislative body and its ability to carry out the necessary economies and legislation to this end.

RESOLUTION.

The following resolution was offered:

By Mrs Saylor:

Inasmuch as Miss Ethel Moore during her life had been privileged to serve her native state in many ways, interpreting educational possibilities in our commonwealth to mean a better and happier life for all;

Inasmuch as through many years she gave herself to the organization of settlement teaching, to the support of measures to insure public health, to constructive work for playground and recreation, to the popularizing of drama and pageant, to the growth of women's clubs, to the attainment of woman's suffrage, and to the raising of educational standards within California institutions;

Inasmuch as these avenues of faith and work made her name and that of her city and state honored throughout our land for intelligence and philanthropy;

Inasmuch as in recent years during the stress of war in 1916 Ethel Moore was appointed by Governor Stephens as one of the two women members of the State Council of Defense, giving herself without stint to the organization of women for food conservation, for the Women's Land Army, for Belgian relief, for Americanization, and for community service;

Inasmuch as on October 4, 1920, Ethel Moore turned from her many tasks for the good of others to answer the call of her Heavenly Father; therefore, be it

Resolved, That the Legislature of the State of California, assembled on this twenty-fifth day of February, 1921, do, before closing its session, pause in its regular program and, turning from its routine, read these simple words in recognition of the unselfish and constructive service of a Californian whose life in private and public was that of the commonwealth's ideal citizen.

Resolution read, and on motion unanimously adopted by a rising vote.

BEAUMONT, CALIFORNIA, February 12, 1921.

At a meeting of the board of trustees of the city of Beaumont, held on the eleventh day of February, 1921, the board went on record as being heartily in accord with the spirit of the resolutions attached herewith.

SAN JOSE, CALIFORNIA, January 31, 1921.

The council of the city of San Jose convened this day in regular session at 8:00 o'clock p.m. Quorum present. The following proceedings are had, to wit

Upon motion of Councilman Arnerich, seconded by Councilman Brooks, resolution No. 230 is adopted:

RESOLUTION NUMBER TWO HUNDRED THIRTY.

WHEREAS, The corporation tax bill before the Legislature is designed to make equal the taxes on public utility corporations with the taxes on private property; and

WHEREAS, The taxes on private property throughout the State have been increased 35 per cent since 1916, while the rates on corporations have not been raised whatever during the same period; and

WHEREAS, An increase of 35 per cent in the tax rate on corporations is required to bring corporation taxes up to the same amount paid by owners of private property; and

WHEREAS, The defeat of the corporation tax bill would mean the imposing upon private property of an additional tax of 22 cents per $100, thereby making private property contribute toward State expenses, which it has not been called upon to do since the adoption of the present tax system in the year 1910; and

WHEREAS, Contributing to the burden of State expenses would interfere with the adequate and proper support of county, municipal and local undertakings and development; therefore, be it

Resolved, That the council of the city of San Jose emphatically endorses the corporation tax bill that has for its purpose and effect the equalizing of taxes between private property owners and public utility corporations, and that we commend the legislators from this county in their support of the corporation tax bill, and that

we pledge our efforts in behalf of said bill as a measure of justice and equality between the various classes of taxpayers.

Adopted this thirty-first day of January, 1921.

Ayes Councilmen Arnerich, Atkinson, Bigger, Brooks, Denegri and Jayet. Noes: None. Absent. Councilman Chase.

ALBERT C. JAYET,
President of the Council.

Attest: JOHN J. LYNCH, City Clerk.

By Mr. Baker:

WHEREAS, One of the most important duties of American citizens, now and in the future, is the conservation of her natural resources, and

WHEREAS, The most serious threat of devastation today, and the most tragic, is the impending destruction of the remaining forests of redwoods, located in the coast regions of California; and

WHEREAS, These giant Sequoias, which once flourished in many parts of the world, are found now only in a limited area in this State; and

WHEREAS, These magnificent trees, the oldest living things on earth, are doomed to virtual annihilation unless vigorous action is taken soon, and

WHEREAS, The "Save the Redwood League" does not ask for any unreasonable hampering of the redwoods industry, now, therefore, be it

Resolved, That The Ebell of Los Angeles, one of the largest women's clubs in America, numbering nearly two thousand members, does here and now protest against this wanton destruction,

Resolved, That we shall use such means as we have to prevent it,

Resolved, That we shall request each member of our club to join the "Save the Redwoods League," that we shall arrange for a special illustrated lecture showing these lords of the forest in all their primeval grandeur, as a reminder of what an asset they are to the State and the nation; and furthermore, be it

Resolved, That we appoint a publicity representative, who shall see that the news items regarding "Saving the Redwoods" are published in the local papers,

Resolved, That a copy of these resolutions be sent to the president of the State federation and a copy be sent to each of our representatives in the State Legislature from Los Angeles County, with a personal letter to such representative, urging favorable action on any legislation to protect and preserve the redwood forests.

MRS. CHARLES H. TOLL, President,
MRS. JOHN STEARNS THAYER, Secretary.

MRS. GRANLAND S. LONG,
Chairman of Resolutions

By Mr. White:

January 25, 1921

Resolution of the board of directors of the San Fernando chamber of commerce, San Fernando, California, adopted on the above date, in the matter of the location of the proposed University Farm of the Junior College of Agriculture, of the University of California

WHEREAS, There was introduced in the Assembly of the State of California by John Robert White, on January 17, 1921, a bill known as Assembly Bill No. 300, and a similar bill was introduced by William J. Carr in the Senate, on the same date, and known as Senate Bill No. 177—An act providing for the appointment of a commission to establish a Junior College of Agriculture of the University of California; to purchase a farm and equipment therefor, erect buildings thereon, inaugurate a course of instruction therein, and making an appropriation therefor, and the same being referred to the Committee on Universities in both houses; and

WHEREAS, The act provides that immediately after appointment the commission shall organize and proceed to select and purchase a farm or tract of land in the San Fernando Valley, Los Angeles County, to be known as the University Farm of the Junior College of Agriculture of the University of California, to be used as an agricultural college farm, which shall be of first class tillable land, susceptible of irrigation, and in its soil, location and climate and general environment typical and representative of the best agricultural conditions in southern California, and capable of successfully producing the general crops of the State, and as many as may be of all the crops and products successfully grown in California, and

WHEREAS, The agricultural educational opportunities for Los Angeles County, the richest agricultural county in the United States, in no way meet the needs of our great agricultural population, as a result of which our agricultural students, farmers and teachers are now compelled to travel great distances—to Davis, California, to Corvallis, Oregon, and to eastern colleges and universities to secure educational advantages along agricultural lines; and

WHEREAS, The University of California, Southern Branch, and Teachers' College, offer buildings, laboratories and other requisites for such agricultural college, thus saving the State the expense of duplication; and

WHEREAS, The great San Fernando Valley affords a soil unsurpassed, an unlimited supply of water, a favorable climate and accessibility, and everything that grows in any part of the State, with the exception only of dates, grows and produces well in the San Fernando Valley (including all kinds of deciduous fruits, citrus fruits, farm products and truck gardening), and its dairies, swine ranches and poultry ranches represent very important contributions to the production of the State, therefore, be it

Resolved, That we, the members of the board of directors of the San Fernando chamber of commerce, San Fernando, California, do respectfully petition the Committee on Universities of the Assembly and the Senate to very seriously consider the claims put forth for the location of the proposed University Farm in San Fernando Valley, because of the advantages as to its accessibility, soil, climate and the opportunity for the saving of State funds by avoiding duplication of buildings; and be it further

Resolved, That copies of these resolutions be sent to the committee of regents in charge of agriculture, to the Committees on Universities of the Assembly and the Senate, and to the Hon. John Robert White and the Hon. William J. Carr, introducers of the bill.

FRED W PRINCE, President.
R. H. BARRETT, Secretary.

ANNOUNCEMENT.

Mr. Cummings made the following announcement, and asked that the same be printed in the Journal:

Some confusion having arisen in the minds of different members as to the authorship of a circular letter in the form of a set of resolutions opposing the King bill and purporting to represent the California Redwood Association, I wish to make it plain that said California Redwood Association has no relation whatever to the Save the Redwoods League which is supporting Assembly Bill No. 80, asking for an appropriation to buy certain tracts of redwoods in Humboldt County. The Save the Redwoods League is interested in one bill and one bill only, and that is Assembly Bill No. 80.

REQUEST FOR UNANIMOUS CONSENT.

Mr. Coombs asked for and was granted unanimous consent to have the opinions of the Attorney General and former Supreme Court Justice Sloss, relative to the King bill, printed in the Journal.

STATE OF CALIFORNIA, OFFICE OF ATTORNEY GENERAL,

SACRAMENTO, February 25, 1921.

Hon. Frank L. Coombs, Chairman Joint Committee on Revenue and Taxation, Sacramento

MY DEAR MR. COOMBS. The King bill, now under consideration by the Joint Committee on Revenue and Taxation, is designed to change the rates of taxation upon the properties assessed under the provisions of section 14 of article XIII of the State constitution.

Yesterday I expressed before the Joint Committee the view that if this measure should be adopted by the Legislature the rates of taxation therein prescribed would not become effective for the assessment of the present year unless such act should be passed by the Legislature and go into effect prior to the first Monday of March, 1921. This view was orally expressed, and you requested that I give you a brief expression in writing, and in compliance I submit the following:

Section 14 of article XIII of the constitution, in its original form, prescribed the rates of taxation upon the properties to which the section applied, and expressly declared that the rates therein prescribed were to continue in force "until changed by the Legislature."

As a matter of history the rates so established continued to be the rates applied until 1913, in which year the Legislature exercised the authority conferred upon it by the constitution and established different rates upon some of the properties taxed pursuant to the provisions of that section of the constitution. The same authority was exercised by the Legislature in 1915 and in 1917, and no question is raised as to the right of the Legislature to establish new or different rates at its present session.

The rates of taxation established in section 14 of article XIII of the constitution continued in force until the enactment of the Legislature at its session of 1913 became effective, and the rates then adopted by the Legislature continued to be the rates until the Legislature, in the exercise of the power conferred upon it, changed the same from time to time as it did in 1915 and in 1917, and the rates fixed by it in the latter year, and which are now in force, will continue to be the rates until the Legislature again changes them.

The pending measure proposes a change in all of the rates now established by the existing law.

Section 14 of article XIII of the constitution makes the taxes prescribed by the existing law a lien upon the property assessed, which lien attaches on the first Monday of March of the year of the assessment. The language by which this is accomplished is as follows:

> "The taxes herein provided for shall become a lien on the first Monday in March of each year."

The properties assessed through this method comprise operative property of certain utilities, certain property of insurance companies, bank stock and corporate franchises. The rate of taxation upon the properties of the utilities is applied by a percentage of their gross receipts for the calendar year preceding the first Monday in March. Likewise this rate of taxation upon properties of insurance companies is computed upon a percentage of the gross premiums, less certain specified deductions, collected during the calendar year preceding the first Monday in March, while the taxes to be paid by banks is a rate of taxation upon the value of their shares of *capital stock upon the first Monday of March, such value being ascertained and computed* in the manner and method prescribed by the constitution.

Pursuant to statute, it is the duty of the State Board of Equalization to make the requisite computations to ascertain the amount of taxes due from the properties assessed under this method and for which the lien attaches on the first Monday in March. Obviously this labor cannot be performed on the first Monday of March. Section 3668 of the Political Code provides:

> "The State Board of Equalization must meet at the State Capitol on the first Monday of March in each year * * *. Between the first Monday in March and the third Monday before the first Monday in July the Board must assess and levy the taxes as and in the manner provided for in section 14, article XIII of the constitution of this State, and sections of this code enacted to carry the same into effect."

The taxes so levied and assessed become due and payable on the first day of July.

There would seem little room for question but that the rates of taxation in force pursuant to existing law on the first Monday of March are the rates to be used by the Board of Equalization in computing the taxes for which the lien attached on that day. The obligation of the tax payer to the State is the amount secured by this lien, computed at the rates then in force, in the manner provided by the constitutional provision, and it would seem plain that the payment of that amount, when payable would discharge the tax payer's obligation, regardless of any change that might be made in the law subsequent to the first Monday in March.

That the tax rate to be applied in the assessment of properties for local purposes is, in accordance with the command of the statute, fixed by the board of supervisors in September of each year has been mentioned as a circumstance which it is contended supports the view that if the pending tax measure is not adopted until after the first Monday in March the rates therein prescribed may be legally used as the rates for the present year. This condition, however, I think furnishes no support for such construction. It will be remembered that the tax rate fixed by the board of supervisors for local purposes is fixed annually, and that it is a rate for the single year only and is applicable to the assessment of that year only. On the first Monday in March there is not an existing county tax rate and by provision of the statute the tax rate applicable to the assessment which becomes effective as of that date is to be fixed by the board of supervisors in September following.

As pointed out to you yesterday, the rate of taxation for State purposes is fixed by law, and is a continuing rate, and exists as the law's rate until changed by the Legislature. If no legislation on the subject be enacted prior to the first Monday in March, on that day there would be in force and effect the rates carried by the present law. For local taxation the rate is an annual one, applicable only to the assessments of the year in which such rate is adopted, while for State purposes the rates fixed by the last Legislative enactment on the subject continue from year to year until changed by the Legislature.

It is my conclusion that in the assessment of properties under section 14 of article XIII of the constitution, the rates in force on the first Monday in March would be the rates applicable for the assessment in 1921, and that any change in rates made by the present Legislature through an enactment taking effect subsequent to the first Monday in March, 1921, will be first applicable for the assessment to be made in 1922.

Very truly yours,

U. S. WEBB.

LAW OFFICES OF SLOSS, ACKERMAN & BRADLEY, MILLS BUILDING.

SAN FRANCISCO, February 22, 1921.

Tax Investigation and Economy League, San Francisco.

GENTLEMEN: You have asked for my opinion on the following question: The Legislature of 1921, when it reassembles, will have before it a bill to increase the

rates of taxation imposed upon certain classes of corporations for State purposes. Does the constitution require that such bill must become a law on or before the first Monday of March in order to be effective in fixing the rates of taxation for the fiscal year beginning July 1, 1921?

In my opinion, the constitution does not so require, and an act increasing or diminishing the rates now in force would be equally valid and operative whether enacted before or after the first Monday of March.

Section 14 of article XIII of the constitution, which created the present method of levying taxes upon certain classes of companies for State purposes, fixes a scale of percentages of gross receipts, gross premiums, or value of shares, as the case may be, to be paid by the several classes of companies as an annual tax. In subdivision (*f*) of section 14 of article XIII of the constitution, it is provided that, "The rates of taxation, fixed in this section shall remain in force until changed by the Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section, and shall become due and payable on the first Monday in July thereafter."

There is nothing in the language just quoted, or in the framework of the section as a whole, to limit the power of the Legislature in making changes in rates to a period of time prior to the first Monday of March. Those who suggest that such restriction should be read into the constitution seek to find a basis for their contention in the provision that the taxes become a lien "on the first Monday of March of each year." But the fact that the taxes become a lien at a given time has no bearing on the power of the Legislature to change the rate thereafter.

There is no necessary connection of time between the attaching of the tax lien and the determination of the amount of the tax. A tax may, and, under the general tax system of this State does, become a lien long before the amount of the tax is ascertained. This will readily appear from a consideration of the method of taxation applicable to all property prior to the adoption of section 14 of article XIII of the constitution, and still applicable to the taxation for county purposes of property not within the scope of that section.

Under the general tax provisions of the Political Code the lien of a tax attaches, like the lien of the taxes under discussion, "as of the first Monday of March in each year." (Political Code, section 3718.) Yet the assessment is made between the first Monday of March and the first Monday of July (Political Code, section 3652), the supervisors equalize the assessments between the first and third Mondays of July (Political Code, section 3672), and the actual levying of taxes by the supervisors does not take place until the first Monday of September (Political Code, section 3714). The amount of the tax is, therefore, not fixed when the lien attaches, but this uncertainty does not prevent the lien from having full force and effect.

If a Legislature may authorize county, and other officers, to fix the rate and amount of tax after the lien has come into being, there is no reason why it, itself, cannot change the rate after the date of the origin of the lien, where it is given constitutional power, unlimited as to time, to make such change.

It is a fundamental rule of interpretation of state constitutions that the Legislature has all powers except those expressly withheld from it by the organic law, and in the absence of any limitation upon the grant of power to make changes in the rates of taxation, no restrictions upon the full exercise of that power should be raised by construction.

The taxpayer has no vested right in the existing rate, at any time prior, at least, to the time when the tax becomes payable. The lien is created for the protection of the State. Its purpose is to give the State security for such amount of tax as may lawfully be collectible and may subsequently be found to be due.

It may be noted that the prior practice of the Legislature and of the State authorities has been in accord with these views. The rates fixed by section 14 of article XIII have been changed by the Legislature on several occasions. The last changes were those made by an act approved May 11, 1917, Statutes of 1917, p. 336. By this act the rates of taxation for express companies, telegraph and telephone companies and banks were reduced by various amounts, and the rates for gas and electric companies were increased from 5.25 per cent to 5.6 per cent. This act, as stated above, was passed in May, long after the first Monday of March. Its validity has never, so far as I am advised, been questioned, yet, if there be merit in the contention that any change of rate must be made by act adopted on or before the first Monday of March, it must follow that, for the past four years, or at any rate, for the year 1917, the State has unlawfully exacted from the gas and electric companies thirty-five one hundredths of one per cent of their gross receipts, and that it has, likewise, failed to collect the full tax due from express companies, telegraph and telephone companies and banks.

Whatever may seem to be the needs of the present situation, it should not be overlooked that the establishment of the rule limiting the power of the Legislature in this matter would carry with it the danger that at some future time when an emergency may require the raising of additional revenue after the first Monday

of March, the Legislature and the fiscal authorities might find themselves unable to take advantage of the broad powers conferred by section 14 of article XIII of the constitution.

The brief time allowed for the preparation of this opinion precludes me from citing and discussing the authorities bearing on the subject.

Very truly yours,

M. C. SLOSS.

DEAR SIR: We, members of the United Presbyterian Church, Beaumont, California, respectfully petition you to use all honorable means to have enacted by the Legislature, for the honor of our citizens, a law enforcing the eighteenth amendment of the United States constitution, and backing up the Volstead law, that lawlessness and anarchy in the illicit traffic in intoxicating liquors may be suppressed within our borders.

By Mr. Fellom:

SAN FRANCISCO, February 25, 1921.

DEAR SIR: Answering your letter of the twenty-fourth instant in regard to Crane Co having taken a position in opposition to giving the city of San Francisco control of its harbor.

The writer is very much surprised at learning from you that any one in this company has assumed that attitude, either for himself or for the company. I do not know of ever even having discussed the matter with anyone, and having made no particular study of the subject would not be in position to talk intelligently on it. Would say however, that my personal feeling would be that San Francisco is entitled to the control of the city's waterfront I do not believe that anyone in authority has spoken for the company in the way you mention.

Yours truly,

CRANE CO.

By Mr. McDowell:

WHEREAS, It has come to the attention of the San Joaquin Valley Association of County Supervisors, that there has been introduced in the forty-fourth session of the California Legislature, Senate Bill No. 855, known as the King tax bill, and by the terms of which it is proposed to increase the public utilities tax rate; and

WHEREAS, It is provided in Constitutional Amendment No. 1, adopted by the people of the State of California in 1910, that revenue for State purposes shall be derived from a tax on the gross earnings and gross premiums of public utility corporations, insurance companies, banks and general corporation franchises, and that the said corporations, under the terms of said amendment, are supposed to pay as large a percentage of their gross earnings and gross premiums or other values

as will make their tax rate for State purposes equal to what the tax rate on the valuation of their operative properties would be, if paid on the same basis as the individual property owner pays as county taxes; and

WHEREAS, There has been no increase in the tax rate for such corporations since 1917, and the county tax rate has increased in all the counties of the State of California, and the average rate of increase is 38 per cent since 1917; and

WHEREAS, It has come to our attention that, in the event that the King tax bill is defeated, an ad valorem tax will be necessary which will further increase the tax burden of the individual property owner, now, therefore, be it

Resolved, That the San Joaquin Valley Association of County Supervisors, consisting of the supervisors of Stanislaus, Merced, Madera, Fresno, Tulare, Kings and Kern counties, in convention assembled, endorse Senate Bill No 855, known as the King tax bill, and that the association urge all Assemblymen and Senators representing districts embraced in the counties represented in this association to vote for said bill; and be it further

Resolved, That a copy of this resolution be spread upon the minutes of this association, and that a copy be sent to each of the Assemblymen and Senators representing districts lying in the San Joaquin Valley.

The foregoing resolution was passed and adopted at a regular meeting of the County Supervisors Association of the San Joaquin Valley, held at the court house in the city of Fresno, county of Fresno, State of California, on the fifteenth day of February, 1921.

PRESENTATION OF PETITIONS.

The following petition was presented, and ordered printed in the Journal:

By Mr. Baker:

WHEREAS, The attention of the executive committee of the Church Federation of Los Angeles has been called to Assembly Bill No. 492, which proposes to amend the part-time education law relating to the education of minors between the ages of 16 and 18 years by substituting evening school attendance in lieu of day school attendance therefore, be it

Resolved, That we express our disapproval of this proposed amendment for the following reasons

1. This proposed law would require boys and girls to be out on the streets at night, which we believe to be dangerous to their welfare. In many instances these boys and girls would be compelled to travel long distances across the city each night after night school is closed.

2. The proposed amendment allowing evening school attendance to be accepted in lieu of part-time day attendance is a direct violation of the spirit of the California eight-hour law for women and children, because this proposed law imposes a ten-hour day upon the young people who are affected by its provisions.

3. Experience shows that boys and girls who work eight hours each day are not physically fit to attend evening school. They are too tired to study and frequently fall asleep in class.

Be it further resolved, That a copy of these resolutions be forwarded to each State Senator and Assemblyman from Los Angeles County.

CHURCH FEDERATION OF LOS ANGELES
HUGH K. WALKER, President.

The lowest of these salary groups include those receiving $75 or less per month, and the groups range in amounts up to $801 to $900 per month. PRESENTATION OF PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

By Mr. Benton:

LOS ANGELES, March 3, 1921.

DEAR SIR: We respectfully direct your attention to Assembly Bill No. 20, proposing to amend section 1884 of the Political Code, relating to the issuance of school bonds, which bill, we understand, has been referred to the Committee on Education.

We note that the bill proposes to raise the limit of the amount of bonds that may be issued by any school district to 10 per cent of the assessed valuation of the district, the present limit being 5 per cent.

We believe that the enactment into law of the above bill will lower materially the market value of school bonds throughout the State of California. The result at times might be serious Such a law would interfere with the advantageous sale of bonds, and at times would prevent the sale altogether. The ultimate result would be smaller premiums for the bonds and higher rates of interest. Thus, for a given amount of bond money, the people of the State would erect ultimately smaller school buildings than now for the same money, would purchase smaller school sites, and would purchase less school furniture.

We respectfully direct your attention to the following:

(1) The maximum limit for school bonds here (and in most sections of the State) is now in fact 10 per cent—not 5 per cent—for there is here an elementary school district and a high school district, both having exactly the same boundaries and containing exactly the same real property, and each having a maximum limit of 5 per cent under existing law.

(2) For municipal purposes (not including schools) the charter of the city of Los Angeles permits a maximum bonded debt of an additional 15 per cent. Thus the same property in this city may have under present laws bonds outstanding against it of a maximum of 25 per cent—for only school and regular municipal purposes.

(3) Also, the same property, being located in the county, has bonds outstanding against it for county purposes (such as highway bonds); and the identical property, being located in a flood control district, has flood control bonds outstanding against it (possibly not limited as to a maximum).

Thus, as you know, in various parts of the State there are not only school, municipal, county, and flood control bonds, but also road district bonds, drainage district bonds, water works district bonds, etc., so that under existing laws any specified property may labor under a heavy burden of total bonded debts of a variety of kinds.

(4) If the above-mentioned bill becomes a law, the maximum limit for school bonds here (and in most sections of the State) would in fact be 20 per cent—not 10 per cent—for the limit then would be 10 per cent for the elementary school district; and the high school district, consisting of exactly the same real property, might have an added 10 per cent, making a total maximum of 20 per cent possible against the property here, for school purposes only.

(5) The supporters of this bill may state that there are individual instances of school districts in which it is impractical to have adequate school buildings and school sites if limited to the present maximum bonded debt of 5 per cent elementary and 5 per cent high school. In that connection we would point out that any school district may raise by direct tax levy, through favorable action by the board of supervisors of the county, an additional 15 per cent each school year for elementary school buildings and grounds; and liberal amounts may be raised through the same channels for high school buildings and grounds (see sections 1838, 1756, and 1757, Political Code). Thus, the unusual needs of the individual school district may be met on their individual merits.

(6) We are particularly interested in this bill, for the reason that the people here recently voted $9,500,000 worth of bonds—$6,000,000 elementary and $3,500,000 high school. One million dollars worth of each kind have thus far been sold, leaving $5,000,000 elementary and $2,500,000 high school remaining to be sold We desire to sell these remaining bonds to the best possible advantage, but we are confident that the passage of the above bill would upset market conditions, would interfere with the sale of our bonds, and would cause substantial loss to our school finances

We request that you use your best endeavors to defeat the above-mentioned Assembly Bill No. 20; and we believe that if you are successful in securing its defeat, you will be performing a genuine service for the State.

Respectfully,

BOARD OF EDUCATION OF THE CITY OF LOS ANGELES.

C. E. SEAMAN, Chairman Finance Committee.

GRASS VALLEY, CALIFORNIA, March 3, 1921.

DEAR SIR: The Grass Valley Sportmen's Club, at its monthly meeting held Wednesday evening, March 2, 1921, unanimously resolved as being opposed to any measure or measures which would consolidate the State Fish and Game Commission with any other body, or legislate the said commission out of office We believe that the funds raised by the sportsmen of the State in the payment of their hunting and fishing licenses should be forever kept separate and used for the propagation and protection of the fish and game of the State, and should not at this or any other time be paid into the general fund.

We would therefore protest the use of this money for any other purpose than the protection and propagation of fish and game.

We further believe that the warden service as at present constituted is in the best interest of all concerned and is the most effective service that has ever been rendered in this State for the protection of the fish and game.

As the commission is self supporting, we can see no good reason for its consolidation with any other body and we would therefor ask your cooperation in aiding to defeat any measures which would destroy the present usefulness of the commission.

Thanking you for your consideration of this matter, we are,

Yours very truly,

GRASS VALLEY SPORTSMEN'S CLUB.

J. J. PHILLIPS, Secretary.

REPORTS OF STANDING COMMITTEES.

The following report of standing committee was received and read:

ON REVISION AND PRINTING.

ASSEMBLY CHAMBER, SACRAMENTO, March 5, 1921.

MR. SPEAKER: Your Committee on Revision and Printing, to which was referred the report of the State Board of Control and State Civil Service Commission—has had the same under consideration, and respectfully reports that it has received the following communication from the State Department of Printing:

ROBERTS, Chairman.

DEPARTMENT OF PRINTING, STATE OF CALIFORNIA.
SACRAMENTO, March 4, 1921.

Hon. F. M. Roberts, Chairman Committee on Revision and Printing, Assembly.

DEAR SIR: In compliance with your request for estimate of cost for printing two thousand copies of the list of state officers and employees, wish to say that under the law the Superintendent of State Printing does all printing for the State at actual cost, therefore, the price charged for this work will be actual cost for labor and material, and we wish to offer the quotation of $1750 as a tentative estimate of the cost.

This is for printing only the names, with respective positions and salaries. Should you desire to print all the material contained in the report, that is, all comment, signatures, salutations, headings, etc., the price would be about $200 in addition to the above figures, or in the neighborhood of $2000 for the entire job as per your copy.

One thousand copies would cost nearly as much as two thousand. In fact, the difference would be only about $125 or $150. Composition, proofreading, etc., comprises about 80 per cent of the entire cost, and in view of the fact that the quantity would not affect this cost, you will see that additional thousands would cost very little, that is, comparatively.

The cost for printing the letter of transmittal and summary will be approximately $65. This would be an eight-page pamphlet, with no cover, made up as follows: Title page, four pages of the letter and two blank pages in back, with summary printed on sheet about 9x12 and tipped-in in back of the pamphlet. The report would be printed on book paper, set in six point type, tabular form, and would have a paper cover.

These figures are based on present wages and prices of material, and are subject to revision in case of change in cost of labor or material, or any item of manufacture.

Should you decide to have this work done, we will give the matter our special attention; however, owing to the congested condition of our plant, due to the large amount of legislative printing, it will be impossible for us to guarantee immediate delivery.

Very truly yours,

WM. L. RIGSBEE, Estimator.

COMMUNICATION.

The following communication was received by the Chief Clerk from the Superintendent of Capitol Building and Grounds relative to the lighting of the Assembly Chamber.

SACRAMENTO, CALIFORNIA, March 4, 1921.

Mr. Jerome Kavanaugh, Chief Clerk, The Assembly.

DEAR SIR: Referring to the resolution passed by the Assembly yesterday requesting this department to replace the old wornout carbon lamps in the ceiling of the Assembly Chamber, with new tungsten lamps, I would advise you that the condition of our fund for fuel and lights will not permit this expenditure during the present biennial period.

We are already facing a deficit in that fund, in spite of the most rigid economy in the use of lights and other expenditures that cannot be avoided. As an illustration, I would cite you to our January bills for electric current, amounting to $1054, as session began to rewire the Assembly ceiling lights, which had developed several short circuits, and expected to be reimbursed for this by an emergency resolution from the compared with January of 1919 of $759, an increase of 39 per cent. Fuel oil for January was $665, as compared with $488 for the same month of 1919, an increase of 36 per cent We were obliged to expend about $400 from this fund just before the Board of Control. Their emergency fund is now exhausted and it is impossible to

get it from that source. On March 1 we had $1904 left in our fuel and lights fund. The light bills for the coming two months will more than eat up this amount. Our repairs for Capitol building fund had $49 left on March 1 and with four months left of the present fiscal year a deficit in that fund is also in sight. The big increases in cost of everything we have to buy in the way of repairs and supplies during the past eighteen months has created a condition that is hard to face.

It will probably cost about $135 to purchase enough lights to replace the old ones, and if the Assembly will supply the funds, I will be only too glad to see that they are replaced at once.

Very truly yours,

W. S. CONGER,
Superintendent Capitol Building and Grounds.

MOTION.

Mr. Baker moved that the Superintendent of the Capitol Building and Grounds be instructed to replace the old, wornout carbon lamps in the ceiling of the Assembly Chamber, and that the expense of installation of such lights be paid out of the contingent fund of the Assembly.

Motion carried.

ASSISTANT CLERK LILLEY-READING.

By Mr. Wright, T. M.:

DEAR SIR: I am interested in chiropractic, and would like to see the science placed upon a proper basis in California. I respectfully request that you give earnest consideration to Assembly Bill No 72, which prescribes terms upon which licenses may be issued to practitioners of chiropractic, and creates a State Board of Chiropractic Examiners.

Very truly yours, JOHN A. COLLINS, Los Gatos,
And 200 others.

By Mr. Benton:

LOS ANGELES, CALIFORNIA, March 4, 1921.

SIR: I am writing in behalf of many of the most earnest and ardent and devoted and needed citizens of Los Angeles. Those that want justice and that have a grand and high ideal of freedom and democracy.

These faithful set of men are skillfully administering to the suffering and sickness of the public, and in sending this we are doing only what a large majority of the population desire for them, and we congratulate you on the noble stand that you have taken to bring freedom and justice to the honorable and useful class of healers, the chiropractors. And that the bill should pass, we earnestly desire every representative from Los Angeles and everywhere else to know our sentiments, and hope you will hand this to same body of men that you represent, and are in favor of the bill, and ask them to pass it on and to do what they can in the passing of one of the most essential and urgent needs of our day.

It is a sad parody on justice that these very useful men are not permitted by law to continue in their very great benefit to the human race in our State, and until it is passed we shall not be in the advance guard of the benefactors of the human race.

Let us stop the arresting of those kind and good men now aiding and healing the tired and diseased, and let us permit those desiring to have them as their choice the freedom to employ whom they please.

We shall never have freedom and democracy till we get these men and women legally authorized to follow their profession as they have been educated to do, and as they can benefit the human race. Let them go on as others are doing in other states and as the other schools are doing, and the voters will honor and return you for doing it

The writer of this is a physician and surgeon of many years' standing and is registered in eight states to practice, and he is enthusiastic in the method of healing by chiropractic, and desires his son, now in the Berkeley College, the California University, to be a chiropractor, and he is one of the football team that won the game over the Ohio team on New Year's Day at Pasadena, and he can and will praise you and talk of you among his classmates, and see that you are honored for this good and praiseworthy act of justice.

L. C. TONEY, M D., Los Angeles,
And 4 others.

By Mrs. Hughes:

After such hearing the legislative body shall pass upon the report, and may confirm, modify, or correct the same, or may confirm the report as modified or corrected, or order the commission to make and file a new report which shall be heard in like manner as the first report and after like notice of hearing. If no objections are filed, or if the objections filed are not sustained, the legislative body shall confirm the report. The action of the legislative body upon said report shall be declared by resolution entered upon its minutes, and shall be final and conclusive, except as to the damages to be caused by the proposed improvement; and when such report is confirmed or is confirmed as modified or corrected, the clerk of the legislative body shall transmit the diagram and assessment provided for in section 10 hereof, as finally confirmed, to the superintendent of streets. The superintendent of streets shall thereupon record such assessment and diagram in his office, in a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording, and such record shall be the assessment-roll. From the date of such recording all persons shall be deemed to have notice of the contents of such assessment-roll. Immediately upon such recording the several assessments contained in such assessment-roll shall become due and payable, and each of such assessments shall be a lien upon the property against which it is made, paramount to all other liens, except liens for State, county and municipal taxes; *provided, however, that such lien shall be subordinate to all special assessment liens previously* imposed upon the said property, but it shall have priority over all special assessment liens which may thereafter be created against the same property; and such liens shall only be discharged by payment of the assessment or by redemption of the land after sale for delinquency. The superintendent of streets shall, upon the recording of said assessment, give notice by publication for five days in a daily newspaper published and circulated in said city, or by two insertions in a weekly newspaper so published and circulated; or in case no such daily or weekly newspaper is so published and circulated in said city, then by posting such notice for four days in three public places in said city, that said assessment has been recorded in his office and that all sums assessed therein are due and payable immediately, and that payment of the said sums must be made to him within thirty days after the date of the first publication or posting, which date shall be stated in the notice. Said notice shall also contain a statement that all assessments not paid before the expiration of the said thirty days shall become delinquent, and that thereupon five per cent upon the amount of each such assessment will be added thereto. When payment of any assessment is made the superintendent of streets shall mark opposite such assessment the word 'paid,' the date of payment, and the name of the person by or for whom the same is paid, and shall give a receipt therefor. Upon the expiration of said period of thirty days, all assessments then unpaid shall become delinquent, and the superintendent of streets shall mark each such assessment 'delinquent' on said assessment-roll, and add five per cent to the amount thereof."

AMENDMENT NUMBER THREE.

Strike out all matter on pages 2 and 3. Insert in lieu thereof the following:

"SEC 2. Section 26 of the said act is hereby amended to read as follows.

Sec 26. Whenever any assessment heretofore issued or which may be hereafter issued is or shall be void, or unenforceable, for want of sufficient authority for its

issuance or from irregularities, or illegalities in the proceedings, or if bonds shall have been, or shall be, issued to represent any assessments and such issuance shall not have been, or shall not be effective through the curative provisions thereof to make them valid and enforceable, then, in any of such events a reassessment therefor shall be issued. The true intent and meaning of this section is to make the cost and expense of work or improvement made through an attempted compliance with this act, payable by the real estate benefited by such work or improvement by making a reassessment therefor.

Such power of reassessing embraces both a full and a partial reassessment, and is not exhausted by a single attempted exercise thereof

A reassessment shall be ordered under any one of three circumstances:

First—Where the owner or holder of any assessments, or of bonds issued to represent assessments requests the legislative body of the city in which the assessment has been or shall be issued to order a reassessment. In such event if said legislative body be of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented by the bonds owned or held by such petitioner.

Second—Whenever any court of competent jurisdiction in any suit to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent any assessments issued under this act, has for any reason held such lien unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Third—Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment or in any suit to quiet title against the lien of any such assessment, or bond shall in its judgment decree such assessments or bonds to be void, or unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

The manner of making, issuing and enforcing the reassessments shall be as follows:

The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, assess upon and against the lots, pieces or parcels of land mentioned in the decree or order the benefits derived or to be derived by each from the said work or improvement estimated as of the date of the original assessment.

To each sum so reassessed there shall be added interest thereon from the date of the original assessment at the rate of seven per cent (7%) per annum. Such assessment need not be in any prescribed form, but shall refer to the original assessment, give the date of the original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time must be at least twenty days after the reassessment is so presented. The city clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the improvement for which the assessment was made, was published unless the legislative body directs publication in some other paper. Such notice shall be published for five insertions, if the paper be a daily, or by two insertions, if the paper be published less frequently. At the time fixed for said hearing, or at such time or times to which the same may be thereafter adjourned, the legislative body shall consider the objections to said reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable. When such reassessment shall have been revised, or corrected or modified so as to comply with the judgment of said legislative body, then it shall pass a resolution confirming the reassessment. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city clerk, that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the same, applying such payments first to the interest due and then upon the principal. Such reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable by suit in the manner herein provided for enforcing an original assessment. In the event that bonds issued under the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lot, piece or parcel of land covered thereby. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of the original assessment."

Amendments adopted.

REPORT OF SPECIAL COMMITTEE.

The following report of special committee was received and read:

ASSEMBLY CHAMBER, SACRAMENTO, March 11, 1921.

MR. SPEAKER: Your Special Committee appointed pursuant to Senate Concurrent Resolution No. 20, to investigate the California Railroad Commission, has performed the duty for which it was appointed, and begs leave to submit the following report:

CLEARY.
CRITTENDEN.
JONES, I

REPORT OF JOINT COMMITTEE

Your joint committee of the Senate and the Assembly appointed pursuant to Senate Concurrent Resolution No. 20, by Senator J. M. Inman, organized by selecting Senator Inman chairman.

It was decided to hold hearings at different points in the state in order that citizens might be enabled without undue expense or loss of time to present any matters they

might desire and concerning which the committee had jurisdiction Pursuant thereto your committee held a hearing lasting two days at Sacramento, January 31 and February 1; at San Francisco on February 2 and 3; at Stockton February 4; at Modesto February 7, at Fresno February 8; at Los Angeles February 9 and 10, at which time individual consumers, as distinguished from municipalities, were heard, and on February 11, when municipalities were heard; at Bakersfield, February 14 and at Visalia February 15, where individual consumers were heard, and at San Francisco on February 16 and 17, where municipalities were heard and a general discussion was had with the commission, and where the commission and heads of departments explained in detail the work of their departments and the committee went over the plant of the commission and viewed the work of the commission in operation.

In presenting this report your committee approaches the task with a good deal of hesitancy, knowing that upon this report much depends and that perhaps to a large extent the future policy of the state rests upon questions herein considered. And many of the preconceived ideas of members of the committee with regard to the work of the commission and of the Public Utilities Act have undergone a complete change as a result of this investigation. And it is perhaps only fair to say that it is with some degree of embarrassment that these members of the committee have been compelled to abandon their preconceived conclusions in the light of the facts that have been disclosed.

Honesty and desire for fair dealing, with only the best interests of the state in view, however, renders it incumbent upon those members of the committee to join without restraint or reservation in this report.

The belief of your committee is that this investigation will be of great value in the free expression of views by the consumers and the opportunity extended for the people of the state to come to an understanding of the work of the commission, to say nothing of the findings and recommendations of this committee, hereinafter set out

We think it only fair to say that the commission and its members have worked in perfect accord with the committee throughout these hearings and that the members have placed themselves and their records and employees unreservedly at the disposal of the committee and have at all times been entirely fair and frank in their discussions of matters coming before the committee.

Of the personnel of the employees of the commission we think a word should be said. We cannot speak too highly of the heads of the departments with which the committee came in contact during these hearings It is apparent that only loyalty to their work holds many of these men with the state and were pecuniary benefit only held in view by them the public service corporations would have long since added these men to their forces.

Respectfully submitted.

Senator J. M. INMAN, *Chairman.*
Senator WALTER EDEN.
Assemblyman C. W. CLEARY.
Assemblyman B. S. CRITTENDEN.
Assemblyman ISAAC JONES.

The abrogation of contracts existing at the time of the passage of the Public Utilities Act.

One of the most difficult conditions with which your committee had to deal was the abrogation of contracts between consumers and public service corporations. In numerous cases the commission made sweeping abrogations and in many instances forced consumers to accept a rate higher than that provided in their contracts. This of course was the cause of much bitterness, especially as, in many cases the agents of the utilities insisted to their patrons that the abrogation was over their protest And the underlying reasons for these abrogations were not understood by the consumers.

Your committee finds, however, that the theory of abrogation to prevent discriminatory and preferential rates is sound and, in fact, without applying that theory the effect of the Public Utilities Act would be to a very large extent nullified. For if we accept the theory that a public utility is entitled to a "fair return," then some consumer must pay that fair return and it seems a sound principle that ALL CONSUMERS RECEIVING THE SAME CLASS OF SERVICE SHOULD BE COMPELLED TO CONTRIBUTE ALIKE TO THAT FAIR RETURN, and while in many cases the abrogation of contracts worked a decided hardship upon individual consumers, the failure of the commission to enforce the theory would have entailed a hardship upon all other consumers.

And further, to permit one consumer to have a preferential rate, might, and doubtless would, place that consumer at a decided advantage over a consumer engaged in a like pursuit competing with him and not having that preferential rate, to the ultimate destruction of that one discriminated against. It should be apparent that, if this discrimination were permitted unchecked, a powerful concern being in a better position to enforce its demands, would by securing unfair and discriminatory rates ultimately force the smaller and weaker concerns out of the market.

In many instances consumers had paid value received in rights of way or other concessions for these favorable contracts and the consumer fails to understand that the power of the commission ends with the abrogation of the contract, that it cannot restore that which the consumer yielded for that contract, but that the question is then one for the courts alone to decide

Regulated monopolies.

Your committee, without expressing any opinion, either for or against public ownership of public utilities, is of the opinion that, in the absence thereof, the only solution of this problem is through regulated monopolies. It has been laid down by Commissioner John M Eshleman early in the life of the Public Utilities Act that "a regulated monopoly is the settled policy of the state" (Opinion and Orders, Vol. 12, page 231.)

At first glance this policy seemed radical and revolutionary but, upon closer examination, leads to the belief that the old adage "competition is the life of trade," must, along with others of our traditions, go into the discard. Competition in public utility service is fundamentally wasteful. A territory well served (conceding that regulation regulates and compels good service) by any utility, can not be better or more economically served by two or more utility concerns.

The commission has encouraged, and we think rightly so, the consolidation of utilities, especially where one is small and weak. The old theory of competition was the rendering of good service at reasonable rates under the stimulus of that competition. This is no longer necessary or advisable if we again assume that "regulation regulates."

In the past it was a common practice for a second or even more companies to invade a field already occupied and well served by a first thereby dividing the business. Sometimes this invasion was inspired by laudable motives, but we are convinced more often by the desire or belief that the first company would be compelled to buy out the invading company, which usually resulted, and the "ultimate consumer" paid the bills For it must be apparent that one utility can serve a given community BETTER and CHEAPER than two. At all times having in mind the fact that these are now MONOPOLIES IN NAME ONLY because of REGULATION.

Permitting municipalities to withdraw from the jurisdiction of the commission.

An amendment to the constitution is pending before this Legislature to permit municipal corporations to withdraw from the jurisdiction of the Railroad Commission, at least in so far as the fixing of rates is concerned

Many elements enter into a fair consideration of this question.

In the first place, to permit a municipality to withdraw, might, and we think ultimately would, work a great hardship upon consumers outside municipalities Probably one of the prime reasons for dissatisfaction and desire to withdraw (if the desire now really exists, and the committee found little if any expression of such desire) is the belief that rates have been unduly raised.

That reason alone convinces us that such withdrawal should not be permitted. For, if the municipalities were permitted to withdraw and should lower rates, and we accept the proposition that the utility company should receive a "fair return," then it becomes evident that consumers outside municipalities would be compelled to make good that reduction.

Another objection that might be logically raised against this amendment, would be the utter impossibility of the general run of municipalities being able to fix a fair return, owing to the lack of proper facilities for determining that fair return. In fixing a rate the entire properties of the utility company must be taken into consideration and a large portion of the investment is outside the municipality, in many cases. One of the most insistent complaints on the part of municipalities that has been called to our attention, is their inability to cope with the large utilities in rate making cases. How utterly impossible then would it be to fix a fair rate if left alone without the assistance of the commission and its records.

Another element that might enter into the fixing of rates by municipalities is the danger of politics entering into the question to the exclusion of fairness. If a municipal body had the question of rate making in its power, in many cases a struggle would ensue between the utility on the one hand and the consumer on the other, as to who would control that body.

And finally if we are to accept the principle of rate making as sound, then that principle should apply to all consumers alike.

The committee is convinced that rates for all consumers should be fixed by a central state body.

Activities to which should be applied the Corporations Act.

One of the most distressing and dangerous conditions found to exist and one for which there is no apparent remedy relates to certain districts where individuals or corporations sold agricultural land or town lots, agreeing to furnish water or other commodities at a very low rate, as an inducement to the purchase of that land or lot. A period of time would elapse, the land would all be sold and the

seller, either through downright dishonesty or honest inability to continue that service, abandons it. In most of the instances noted the commission could not enforce an order to furnish service owing to the financial inability of the seller to respond. In many instances the cost of reproduction, maintenance and service, not taking into consideration any return whatever upon the properties, is wholly out of proportion to the value of the lands covered. As before stated in many of these distressing cases there seems to be no remedy whatever. BUT YOUR COMMITTEE DESIRES TO IMPRESS UPON THE LEGISLATURE AS STRONGLY AS POSSIBLE THE NECESSITY OF PREVENTING BY APPROPRIATE LEGISLATION THE RECURRENCE OF THESE CONDITIONS. We recommend that legislation be passed, placing under the appropriate state department, all enterprises hereafter undertaken whereby any of the commodities covered by the Public Utilities Act are agreed to be furnished, to the end that such agency shall see to it that the person promoting such enterprise shall be in a position to furnish service as agreed.

Minor complaints.

Many consumers appeared before the committee with complaints against the commission growing out of poor service, overcharges and general dealings with public service corporations and their employees.

Many of these complaints, while apparently trivial in themselves, pointed to much of the dissatisfaction found to exist. We think it only fair to say that in a large percentage of cases these complaints were found to rest upon misunderstanding, misinformation and lack of knowledge of the laws and of the policies of the commission. We think, too, that much of this dissatisfaction could be removed by the public utilities and their employees by adopting a different attitude toward their consumers. If the utilities would come to the realization that the good will of their consumers is one of their greatest assets they would be more careful in the selection of those of their employees who come into direct contact with the public.

As to many of the other complaints coming before the committee we are of the belief that calling them to the attention of the commission will result in their immediate correction, and their specific review would be of no value in this report.

Delays and postponements.

It is apparent that delays and postponements are frequent. But in most instances these delays and postponements are unavoidable. It must be apparent where so large a number of cases are considered and such a large amount of business is transacted that delay and continuance of matters is inevitable. Much of the time covered by this report the commission was severely handicapped by depleted forces. During the war most of the engineering and other forces enlisted in the service and to a large extent did not again join the state service after their discharge.

We are of the belief that the business of the commission has been transacted, on the whole, as expeditiously as possible.

If a hearing is set for a particular day and it becomes necessary to consume two or three times the amount of time allotted to it, it at once becomes plain that other cases set for the intervening time must go over.

In the years 1919 and 1920 approximately 2447 formal cases and formal opinions and orders were issued by the commission, that during the same period approximately 5261 informal complaints have been received and acted upon and that 372 communications of general official character and letters have been received and answered daily by the commission.

So large a volume of work must necessarily entail overlapping, delay and postponement.

Regarding the raising of rates of utilities.

As your committee progressed with this work it became more and more apparent that of the several causes of dissatisfaction with the commission, at least one of the prime causes was the raise of rates allowed utilities. That this feeling should exist was inevitable, but it was just as inevitable, in our opinion, that these rates should be raised. In fact, it appears that while the cost of operation went up, the rates were kept down to the lowest level consistent with reasonable service. For instance, while the cost of oil, one of those ingredients entering most largely into the manufacture of some of the commodities, raised in price 180 per cent, and skilled labor 60 per cent, and the cost of living generally 96 per cent, the electric rate raise during a corresponding period but 36 per cent, and gas rates but 18 per cent. And while the gross revenue increased during the years from 1916 to 1919, 36 per cent, the net revenues increased but 10 per cent during a like period, and the operating expense mounted 61 per cent. And while the gross revenue of water companies increased 20 per cent during a like period, the net return was but 8½ per cent, and the operating expense increased 28 per cent.

Three years of drought during the period that other abnormal conditions prevailed was an element entering into the increase of rates.

It appeared that poor service or lack of service was as bitterly complained against as was increased cost of service. So if we concede that good service is essential, we must concede that the utilities should receive sufficient revenue to furnish that service. No one was found to contend that a utility was not entitled to a fair return.

Uniformity of fixing rates by the commission as to time.

One of the situations which appeals to your committee was that existing where municipalities were called upon to fix a budget for an ensuing period and were faced with the possibility that the rates upon public utility commodities might be raised during the time covered by that budget, thereby rendering the budget to that extent at least, and the amounts called for thereunder insufficient, and working a real hardship.

The committee can make but one suggestion, and that with some hesitancy, owing to the apparent difficulty of carrying this out. That suggestion is that the commission might fix a certain period of time for fixing rates, or stating it contrariwise, have a certain time in which rates will not be changed. Thereby the consumer would be in a position to enable him to estimate exactly what the cost of the commodity would be for a given period of time.

We repeat that there are numerous apparent difficulties to be encountered in carrying out this suggestion.

The "cost plus" fallacy in rate fixing.

Many people are of the mistaken belief that the commission fixes a rate that guarantees a certain return on the money invested regardless of the extravagance of *that investment or of the cost of operations. In other words, that a condition* has come about through regulation and the elimination of competition that renders the utility company extravagant and careless in the expenditure of its money. In fact, it has been openly charged that the California Railroad Commission is fixing rates *on a "cost plus" basis.*

Your committee finds that the facts in no wise justify such a conclusion. It is apparent that the commission cannot prevent extravagant expenditures either in construction or operating costs, but by reason of its cost data records it can and does *prevent the utility company from being protected in such extravagance.*

The commission does not in any sense "guarantee" anything. In fixing a rate, the commission proceeds to find the fair value of the property of the utility used and useful in the service of the public. It then puts its accountants to work analyzing *and checking up the operating expense. It then fixes a fair return on the value of* the property and fixes the rate accordingly. Out of that fair return must come interest on bonded indebtedness and borrowed money, amortization and losses before dividends can be paid. If the fair return happens to pay interest on the outstanding *bonds and stocks of the utility, the company is fortunate. Otherwise it is unfor*tunate. Whether or not that fair return will pay a dividend to the stockholders or interest upon outstanding bonds is not taken into consideration by the commission.

Consequently the only too common belief that "the more a company spends the more it earns," should be completely and finally discarded. And the further belief that the commission allows dividends on "watered stock" is also without justification.

Some errors were found to have been made by the commission, but the committee is of the opinion that the commission's record in that regard is an enviable one.

Bringing the work of the commission closer to the people.

The work turned out by the commission in the past few years has been tremendous. Of their work the public has seen but the results. The means by which these results have been attained and the reasons underlying them are not so readily apparent. We are of the belief that should the people actually see the workings of the commission, much of the misunderstanding would be eliminated and a much more satisfactory feeling would result.

As the work of the committee advanced it became clear that some means must be devised to bring the people and commission into closer touch.

The average citizen views the commission with mingled feelings of awe and fear. He believes it to be an august body, sitting wrapped about with legal forms and formalities, with which he has nothing in common, and which if approached at all, must be by devious method and with reverent mien. Of course, nothing is further from the truth, but it is a condition and not a theory with which we are faced and so your committee cast about for a possible means of bringing this most valuable state agency into closer touch with the people.

This we are of the opinion, can only be done by bringing the commission TO THE PEOPLE. This can be accomplished by having a representative of the commission in each community. The organization of a NEW FORCE is neither desirable, nor do we believe necessary. We have now a body functioning in every community and whose work is closely allied with the work of the commission. We refer to the Department of Weights and Measures

This department, we think, can and should be consolidated with the Railroad Commission and be placed under complete control thereof. This can be done, we believe, without in any degree lessening the splendid results achieved by the Department of Weights and Measures, and without any added costs to the state to speak of, and at the same time place within the reach of the average citizen an agent and representative of the commission, to whom he could take his complaint or suggestion without formality and with the knowledge that he would receive prompt and effective results.

This consolidation we earnestly recommend.

Appropriation for the work of the Railroad Commission.

One of the considerations coming most often and most prominently before the committee was the feeling on the part of the consumers that a fair representation of their side of the case was not had before the commission in rate making cases owing to the lack of facilities for the investigation and presentation of their case. One of the demands on the part of the consumer most frequently voiced was that the commission should have increased appropriations in order that the rights of the consumer might be more adequately protected through augmentation of the working forces of the commission. We call this matter to the attention of the Legislature in order that it may take such action as the matter seems to justify and the state of our finances permit.

In this connection many complainants coming before the committee expressed the belief that much could be gained by having an attorney or representative of the commission vigorously and openly prosecute the case of the consumer at hearings where evidence was being presented upon which rates were later to be determined. The committee was not unanimously convinced, however, that the amount of practical benefit to be derived from such procedure would be sufficient to justify the added expense, but was of the opinion that the effect of such open and vigorous prosecution, while admittedly satisfying to the consumer, would be more psychological than practical.

Recommendations.

We recommend that a standard form of contract for service be formulated by the commission and that utilities be compelled to use such general form. We further recommend that such general form of contract contain a provision in plain type showing that the rates therein set forth are subject to change by the commission at any time, anything in the contract to the contrary notwithstanding.

We recommend that all literature relating to the sale and advertising of the stocks, bonds and securities of any public service corporation or its agents be supervised by the commission and that nothing in that literature be permitted which can in any manner be construed by the public as being an endorsement or guarantee of said stocks, bonds and securities or of the rate of the return thereon by said commission or the State of California.

We recommend that the commission more strictly enforce the penalties provided by the Public Utilities Act for violations of the act and of the rules and regulations of the commission and more particularly with regard to overcharges for extensions and service.

Conclusion.

And in conclusion permit us to call attention to the fact that the public utilities are as necessary a part of our future economic development as any other agency; that they are entitled to fair treatment at the hands of the people, and to a fair and just return upon their money invested in property used and useful in the public service. That the time is rapidly approaching when our fuel oil supply will be exhausted, or so nearly so as to become prohibitive in cost, and that the development of the state depends largely upon hydro-electric energy.

That capital must be encouraged to enter that field and the only manner by which capital can be interested is to give it to understand that investments in utilities will be respected and will be permitted to earn a fair return. Otherwise, they will look for fields where they can expect such treatment. The sooner that these public service corporations and the people learn that their interests are mutual, and not antagonistic, the better off both will be.

And finally the committee earnestly commits this great law, the Public Utilities Act, to the commendation of the people. It has worked well and is working well today. Strengthen it rather than weaken it. During times such as have just passed have faith in your commission that they will be a buffer between you and the utilities, so that the people on the one hand will receive good service at a fair price, and that the utility will receive such treatment at the hands of the people that will encourage capital to come to the state and help develop our wonderful resources.

VENICE, CALIFORNIA, February 17, 1921.

At a meeting attended by representatives of the principal milk distributors, producers and creameries of Southern California, held this day, Senate Bills Nos. 440 and 744 were read, and the following committee, appointed by the Southern California Milk Dealers' Association, was instructed to draw up the following resolution, which was unanimously adopted as a protest against the above mentioned bills:

WHEREAS, Dairy products are the most valuable and indispensable of all foods, and for which there are no substitutes; and

WHEREAS, The use of dairy products is essential in promoting the health and development of growing children, and oftentimes are the only articles of food permissible for the feeding of the sick and aged, and

WHEREAS, It has been brought to the attention of this organization that certain interests manufacturing so called substituted articles of the above mentioned foods (such as oleomargarin, manufactured milk and other imitation products), through their influence, have presented into our State Legislature bills aimed at the destruction of our present laws, which are intended to protect the public against fraud and misrepresentation, now, therefore, be it

Resolved, That this organization strongly protests against such action, which would have a tendency to mislead the public into using imitation food articles of inferior nutrient values, and sold as dairy products, which would not only prove a menace to their own health, but even more so to the younger and future generations; and be it further

Resolved, That a copy of this resolution be attached to the minutes of this meeting, and that a copy be sent the legislative representatives of this locality, urging them to take such action as is necessary to safeguard the dairy interests of the State, and to assist in defeating these bills

LOS ANGELES, CALIFORNIA, March 10, 1921.

WHEREAS, There is imperative need of State aid to complete the flood control work now under way in Los Angeles County; and

WHEREAS, In its present state of incompletion there is constant danger of flood waters destroying approximately $10,000,000 worth of work already done; and

WHEREAS, Approximately one-third of the State's income from taxes is derived from the property that will be protected by a completion of the flood control work, thus making any appropriation by the State for this work in effect merely a guarantee that future taxes will be paid; therefore, be it

Resolved, By the board of directors of the Los Angeles Chamber of Commerce that we do endorse heartily and urge the passage of Assembly Bill No. 611 now before

the Legislature, entitled "An act appropriating money in furtherance of the objects of the Los Angeles County flood control work."

I hereby certify that the above is a true and correct copy of resolution adopted by the board of directors of the Los Angeles Chamber of Commerce, at the regular meeting on Thursday, March 10, 1921.

SYLVESTER L. WEAVER, President.

Attest FRANK WIGGINS, Secretary.

By Mr. Baker:

WHEREAS, At a regular meeting of the Distributors Club of southern California, an organization whose membership is composed of those grocers who do an annual business of one hundred thousand dollars or more, and who during the war were designated by the Food Administration as "licensed grocers," an organization representing and controlling over two hundred retail grocery stores, handling a volume of approximately fifty millions of foodstuffs annually, and giving employment to upwards of three thousand persons, has discussed in a fair, unprejudiced spirit Senate Bills Nos. 326, 685, 201, 291 and 610, and Assembly Bills Nos. 501, 198, 807, 731, 466 and 60, hereto attached, and

WHEREAS, It appears that these bills are objectionable because of their lack of uniformity with federal legislation, are ambiguous, freakish and uncertain, and are not in keeping with the universal spirit of efficiency and economy, and can only serve to increase costs to ultimate consumers; therefore, be it

Resolved, That we, the Distributors Club, do hereby protest the enactment into laws of any of these bills, for the reasons as set forth in this resolution as well as the more specific reasons given with the copy of each bill hereto attached; and be it further

Resolved, That a copy of these resolutions be forwarded to each and every Senator and Assemblyman of the 1921 session California Legislature from southern California, and that they individually and collectively be respectfully requested to use their best efforts, not only to the defeat of these measures, but also any other measures which tend to increase costs to consumers; and be it further

Resolved, That we urge your support toward the successful enactment into laws of Assembly Bills Nos. 895, 455 and 1088, also attached hereto.

PRESENTATION OF PETITIONS.

The following petition was presented, and ordered printed in the Journal:

By Mr. Merriam:

LA MIRADA, CALIFORNIA, February 28, 1921.

DEAR SIR: I wish to call your attention to a condition which exists and for which there should be a remedy. I allude to the condition of our public highways which have been built at great expense, but which are being rapidly and ruthlessly destroyed by commercial trucks. The oiled surfaces on the paved highways are rolled in humps, the surface is broken by the excessive pressure until in some places they are becoming inferior to the dirt roads in the Mojave Desert. By the time the highway bonds are half paid off miles of the highways must be rebuilt, which will lay an enormous burden upon the taxpayers.

Upon examination of a piece of rebuilt highway in Orange County, where five inches of reinforced concrete had been laid over the old pavement, which had been in use less than a year, I found the damage mark of the heavy truck, the marks of destruction had appeared.

The taxpayers of Los Angeles County alone will in the next decade have to rebuild more than one hundred miles of paved highways and if built with sufficient strength to withstand the strain of commercial truck transportation it will involve an expenditure of forty thousand dollars or more per mile. With the ever increasing tax rate, can the people bear the additional taxation necessary to raise millions in Los Angeles County alone to rebuild the highways and permit transportation companies, who derive a revenue from the use of the highways, to again destroy them without any reimbursement to the public?

If a railway company should request the public to furnish a right of way, grade a road bed, lay and perpetually maintain a track at public expense, allowing the company to use it gratuitously, the public would protest with a mighty roar that would knock the barnacles from the equator and jar the icebergs loose at the antipodes, and rightly they should protest, yet we have given all this to the commercial truck gratuitously at a cost of millions to the public, which is a travesty on the people's rights.

Therefore, in behalf of many of your constituents, I humbly request you to introduce a bill in your legislative body, placing upon all trucks using the highways for commercial purposes a capacity tonnage tax, or its equivalent, in sufficient amount to relieve the taxpayers of the burden of the excess taxation necessary to raise funds with which to rebuild the highways and pay the highway bonds.

Believing in your sincerity for the welfare of the public and that you will see the justice in this plea, I remain,

Very sincerely yours,

THOS. H. HENSON.

CHIEF CLERK KAVANAUGH READING.

INTRODUCTION AND REFERENCE OF BILLS.

The following constitutional amendment was introduced, and referred as indicated:

By Mr. White: Assembly Constitutional Amendment No. 38—Proposed amendment to article XIII of the constitution, relative to the exemption of certain property from taxation.

Resolution referred to Committee on Constitutional Amendments.

RESOLUTION.

The following resolution was offered:

By Mr. Heisinger:

WHEREAS, An article appeared in the Sacramento Bee, of March 10, 1921, which purported to quote from the report of the president, K. R. Kingsburg, to the stockholders of the Standard Oil Company of California, as follows:

It was by far the biggest and most profitable year the company has yet experienced, the net profit being more than $10,000,000 in excess of the 1919 figure, though of course the company's showing was greatly enhanced by the discovery of oil in the Elk Hills and at Huntington Beach.

EARNINGS $59,413,819.

Earnings for the year 1920, after deducting all operating and marketing expenses, were $59,413,819.30. From this there was written off for depreciation $6,784,832.95, and for depletion $3,013,732.30, a total of $9,798,565.25. There was also deducted for income and excess profits tax an estimated amount of $7,960,000, leaving a net profit carried to surplus of $41,655,254.05, or 18.79 per cent on invested capital and surplus of $221,677,017.45 as of December 31, 1920.

Surplus account was increased by $64,186,538.64, included in which is $36,395,316.04, representing revaluation of lands due to the discovery of oil in the Elk Hills of the San Joaquin Valley district and Huntington Beach and Brea districts of Southern California. This enhanced value was set up on the books of the company under rules and regulations of the Internal Revenue Department for the purpose of determining depletion.

The production of oil by the Standard Oil Company of California increased 70 per cent in 1920, rising from an average of 69,158 barrels daily in January to 105,307 barrels in December.

Development in the Elk Hills and Huntington Beach fields, which a few years ago were not considered as having oil possibilities, is given as the cause for the great increase in production. The producing properties of the company were appraised during the year by a New York engineering firm at $250,000,000, according to the report, making it one of the largest companies in the country.

Notwithstanding increased production, the company's stocks of all petroleum products declined at the rate of 10,437 barrels a day, a total of 3,849,715 barrels for the year, as a result of the increased consumption.

AND WHEREAS, The plain people of the State of California are now staggering under the load of taxes put upon their shoulders, and whereas the farmers of California are crying out for economy because of the falling price of every commodity raised by them, and whereas the oil companies of California have been constantly raising the price of gasoline, distillate, kerosene, etc., notwithstanding the fall in the price of production, and with it the decline in the price of labor; and

WHEREAS, The Standard Oil Company of California, it is reported, has made a stock dividend of at least one hundred per cent within the last two years, besides the unheard of profits as outlined before, therefore, be it

Resolved, That Assembly Bills Nos. 662, 12 and 27 be and the same are hereby ordered withdrawn from Committee on Public Utilities, and re-referred to Committee on Revenue and Taxation, to consider the advisability of placing the refineries under the control of the Railroad Commission

1609. Boards of school trustees, and city, and city and county boards of education shall have power and it shall be their duty:

First—To employ a principal for each school under their control, and they may employ a district superintendent for one or more schools employing eight teachers or more under their control. In each city school district governed by a city board of education, such board may employ a city superintendent of schools and such deputy or assistant city superintendents as it may deem necessary and fix and order paid their compensation unless the same be otherwise prescribed by law. Any deputy city superintendent of schools, or assistant city superintendent of schools, or district superintendent may be elected for a term of four years.

Second—To employ the teachers, as provided in part fifth of this section; also to employ janitors and other employees of the school; to fix and order paid their compensation, unless the same be otherwise prescribed by law; *provided*, that no board shall enter into any contract with such employees, other than teachers, to extend beyond the close of the next ensuing school year; except that teachers may be elected on or after June first for the next ensuing school year and each teacher so elected shall be deemed re-elected from year to year except as hereinafter specified; *provided*, that any teacher who shall fail to signify his acceptance within twenty days after notice of his election or employment shall have been given him by the clerk or secretary of the governing board of the school district, or shall have been mailed to him by such clerk or secretary by depositing such notice in the United States post office, with postage thereon prepaid, addressed to such teacher at his last known place of address, shall be deemed to have declined the same. Any board of trustees, or city, or city and county board of education may arrange to pay the teachers or principals so employed by them in ten or eleven or twelve equal payments instead of by the school month; *provided, however*, that where the board of trustees or city or city and county board of education arranges to pay the teachers or principals employed by them in twelve equal payments for the year, they shall begin such

payments on the first day of the calendar month following the opening of schools for the current year in all cases where school is opened during the month of July, and in all cases where school is not opened during the month of July the board of trustees or city boards or city and county boards of education may withhold such warrant or warrants which may have fallen due prior to the opening of school until the teachers or principals so employed by them shall have returned to the employment for which they were engaged by the board of school trustees or the city or city and county board of education and shall have resumed their respective duties, and then such payments shall be continued from month to month on the first day of each calendar month thereafter until said teachers have been paid the full amount due to them for that fiscal year; *provided*, that a teacher who serves less than a full school year is entitled to receive as salary only an amount that bears the same ratio to the established annual salary for such position as the time he teaches bears to the annual school term; *provided*, that whenever the first day of the month falls upon a holiday, payment of teacher's salaries shall be made on the following day.

Third—To appoint, and, in their discretion, pay district librarians and enforce the rules prescribed for the government of district libraries.

Fourth—To employ in their discretion supervisors of subjects and fix and order paid their compensation unless the same be otherwise prescribed by law.

Fifth—(*a*) To employ, as teachers, only persons who hold legal certificates for teaching in full force and effect, and on file at the time of such appointment in the office of the county superintendent of schools, to serve as substitutes, probationary or permanent teachers, and to give the county superintendent of schools immediate notice in writing of such employment on blanks furnished by the Superintendent of Public Instruction, stating the name and address of each person thus employed.

(*b*) To fix and prescribe the duties to be performed by principals, teachers, librarians, janitors and all other employees in the school district.

(*c*) To classify as substitute teachers those persons employed as teachers from day to day for less than one school year, to fill positions of regularly employed teachers absent from service.

(*d*) To classify as probationary teachers those persons employed as teachers for the school year, and who have not been classified as permanent teachers, as hereinafter provided, such classification to be made at the time of employment, and thereafter in the month of July of each school year.

(*e*) To classify as permanent teachers all persons who shall have been successfully employed as teachers by the district for two consecutive school years at the time of classification; *provided, also*, that the two years of successful service shall have been performed in a district employing at least eight teachers under a principal who shall devote at least two hours per day to supervision in the school or schools under his control. Such classification shall be made at the end of the two years of such employment.

(*f*) To grant leaves of absence to teachers.

(*g*) To accept the resignation of any teacher and to fix the time when such resignation shall take effect, which date shall not be later than the close of the school year during which such resignation shall have been received by such board.

(*h*) To dismiss substitute teachers at any time at the pleasure of the board.

(*i*) To dismiss probationary teachers during the school year for cause only, as in the case of permanent teachers, except that on or before the tenth day of June on any year the governing board may give notice in writing to a probationary teacher that his services will not be required for the ensuing school year. Such notice shall be deemed sufficient and complete when delivered in person to the teacher by the clerk or secretary of the governing board of the school district or deposited in the United States registered mail with postage prepaid, addressed to such teacher at his last known place of address.

(*j*) To dismiss permanent teachers, principals, or supervisors of special subjects, except as hereinafter provided, only for one or more of the following causes, after a fair and impartial public hearing. Causes for dismissal are immoral or unprofessional conduct, incompetence, evident unfitness for teachers, persistent violation of or refusal to obey the school laws of California, or reasonable rules prescribed for the government of the public schools

Dismissal for cause shall be made only after the following provisions shall have been complied with: The governing board shall give at least ten days' notice in writing to any permanent teacher or principal or supervisor of special subjects against whom charges shall have been preferred, which notice shall state fully the charges, and the time when and the place where such hearing is to be held.

The governing board shall hold such hearing under reasonable rules which it shall adopt, and the teacher against whom charges shall have been preferred shall have the right to be represented by counsel, and to call witnesses on his own behalf and take their testimony at the hearing and to cross-examine all other witnesses who may testify at such hearing; *provided*, that such hearing shall be confined to charges only.

The board may dismiss any permanent teacher after a hearing, as in this section provided, upon proof of the charges covering any one or more of the causes for dismissal enumerated in this section, upon the affirmative vote of the majority of the board. No member of the board shall be qualified to vote who has not been present

throughout the entire hearing, such trial shall have been concluded and the decision rendered within 10 days after the beginning of said trial.

It is hereby provided, however, that whenever it becomes necessary to decrease the number of permanent teachers employed by a school district on account of the decrease in the number of pupils attending the schools of such district, or on account of the discontinuance of a particular kind of teaching service in such district, the governing board may dismiss such teacher or teachers at the close of the school year.

If the dismissal of such teacher or teachers shall become necessary on account of the decrease in the number of pupils attending the schools of a district, such teacher or teachers so dismissed shall be the teacher or teachers last employed by the district.

If the dismissal of such teacher or teachers shall become necessary on account of the discontinuance of a particular kind of teaching service in the district, the teacher or teachers so dismissed shall be the teacher or teachers engaged in the type of teaching work so discontinued. If such a course is reestablished within one year from the time of such discontinuance, the teacher or teachers so dismissed shall have the preferred right to appointment as teacher or teachers of such course.

The board shall give any teacher who shall be dismissed under this proviso a statement of honorable dismissal.

Nothing in this act shall be construed as to deprive any teacher of his rights and remedies in a court of competent jurisdiction, on a question of fact and law.

Sixth—To provide in cities, and in cities and counties, having boards of education, for the payment of the traveling expenses of any representative of the board of education, when performing services directed by said board.

STATE BOARD OF ACCOUNTANCY.
SAN FRANCISCO, CALIFORNIA, March 11, 1921.

Mr. Jerome B. Kavanaugh, Chief Clerk Assembly, Sacramento.

DEAR SIR: Your letter of March 8, 1921, enclosing copy of resolution adopted by the Assembly January 24, 1921, was received March 10. We were without knowledge of the resolution, and welcome the opportunity to submit the data requested.

History. The State Board of Accountancy was created by the act of March 23, 1901 (General Laws, Act 11, Statutes 1901, p. 645) The five members are appointed by the Governor for terms of four years Only certified public accountants are eligible for appointment.

Duties The board's principal duty is to conduct semiannual examinations of candidates for licenses to practice as certified public accountants. The examinations are uniform with those held in about thirty states of the Union.

Finances. The board's only revenues are (a) the $25 examination fee charged to applicants for certificates; (b) the annual certificate registration fee of $1 charged to certified public accountants; (c) the nominal charge of 15 cents made for sets of examination questions

The board's expenses are primarily (a) the cost of holding examinations; (b) the cost of conducting the secretary's office, (c) the nominal expense for members' per diem allowances (limited to examinations and meetings), and their traveling expenses.

A detailed statement is attached to this letter

Attention is directed to the fact that the State Board of Accountancy receives no appropriations from the Legislature, and that the act under which it was created specifically provides. Section 2, paragraph 4, "that all * * * expenses * * * must be paid from the current receipts, and no part thereof shall ever be paid from the State treasury."

The specific information requested by the resolution is answered by the following:

1. *Per diem of members:*
   "Not exceeding $5 per day for each member while attending the sessions of the board or conducting examinations." (Sec. 2, par. 4)
2. *Regular employees*: None.
3. *Names of members:*
   John F. Forbes, San Francisco, President.
   Reynold E. Blight, Los Angeles, Vice President.
   Prentiss Maslin, Sacramento.
   B. Walker Bours, San Francisco
   William Dolge, Alameda, Secretary-Treasurer
4. *Amount received by each:*

	Per diem	Traveling expenses
John F. Forbes	$15 00	None
Reynold E. Blight	20 00	$83 00
Prentiss Maslin	10 00	10 00
B. Walker Bours	15 00	None
William Dolge	20 00	None

5 *Attorneys employed*: None.
6 *Inspectors and investigators*: None

The board has its office in the office of the secretary-treasurer. For the correspondence and clerical work a charge of 75 cents an hour is made on the actual time, and

a flat charge of $15 per month for rent in addition No charge is made for use of telephone, carbon paper and other office supply sundries. Letterheads, pamphlets and other printed matter are purchased from the State Printing Department.

Examinations are held in May and November of each year The Civil Service Commission of San Francisco and the Y. M C. A. of Los Angeles give the board the use of examination rooms without charge.

No charge is made for the secretary's time interviewing prospective candidates for the examination, and no charge is made by any of the members of the board for the time-consuming labor of grading about fifty sets of answers and solutions of examination questions and problems twice each year. The grading of the papers takes not less than 100 hours for each examination. It must be noted, however, that the board voted the secretary an honorarium of $300 during the fiscal year.

The board does not believe that any method of more economical operation can be devised. There is no need now, and there will be none for many years, of separate offices and a separate clerical staff. The inclusion with any department of the State government would require such separate organization.

The examination being of a highly technical nature, none but certified public accountants are qualified to conduct them, or to grade the papers. The work of the board is done by its members in the interest of the accounting profession to which they belong, without thought of reward The California C P. A. certificate ranks among the highest in the country The relatively large number of applicants at each examination is an indication of the confidence the profession has in the board's work.

We take this occasion to call to your favorable attention Senate Bill No. 324, introduced by Senator Otis, removing the residential qualification for taking the examination, and also permitting the board to grant so-called reciprocity certificates to qualified certified public accountants of other states. The need for more accountants in California is apparent, but their number should not be increased by any legislative action which may lower the standard of requirements.

We have also taken the liberty to send you 100 pamphlets of information, which may prove of interest to the members of the Assembly.

Respectfully submitted,

WILLIAM DOLGE, Secretary.
