SEC 3. A new section is hereby added to said act to be numbered 6*a*, to read as follows

Sec. 6*a*. In and as a part of the resolution of intention the board of supervisors may provide that the county will out of its general fund pay either a stated sum or a stated portion of the contract price to the contractor.

If it is provided in the resolution of intention, then the amount to be paid by the county shall become due and payable to the contractor upon the making of the

final order prescribed in section 15 of said act; and the amount paid the contractor shall be deducted from the amount for which bonds would otherwise issue.

SEC. 4 Section 12 of said act is hereby amended to read as follows:

Sec 12. Immediately after executing a contract for the construction of the improvement, the board of supervisors shall direct the engineer of construction to estimate the total cost of making the proposed improvements and performing such proposed work (which estimate shall include all expenses of every kind incurred or to be incurred, either directly or indirectly, in carrying out said work and improvements), and to assess the same in proportion to the benefits thereof to the lands in said district, and to do all things proper and necessary to carry out the provisions of this act.

Said engineer of construction shall proceed to view the lands within the district and may examine witnesses under oath He shall proceed to assess against the land within said district the estimated amounts of the cost of the proposed work or improvement and the expenses incident thereto, in proportion to the benefits to be derived from said work or improvements so far as he reasonably can estimate the same, including in such estimate of benefits the land whether operating property or not of any public utility within said district, if such there be. He shall state the amounts to be assessed on each parcel of land separately, and shall divide the total assessment on each parcel of land into yearly installments of amounts clearly sufficient to retire the bonds and to pay the interest thereon for each year that said assessment shall continue.

In estimating the total cost and expenses of doing said work, the engineer of construction shall be governed by the amount he deems necessary to pay the principal and interest on bonds to be issued therefor as herein set forth and all incidental expenses to be incurred as herein authorized Such estimate shall be based upon the contract price for doing the work as set forth in the plans and specifications together with an estimate of the incidental expenses to be incurred.

The engineer of construction, having made his assessment of the benefits, shall with all diligence, and before the board of supervisors declares the work to have been completed, make a written report thereof to, and file the same with, said board, and shall accompany said report with a plat of the district showing the relative location of each block, lot or portion of lot, or other piece of land and its dimensions, so far as he can reasonably ascertain the same. Each block and lot, or portion of lot, or other parcel or parcels of land affected or assessed shall be designated and described in said plat by an appropriate number and a reference to it by such descriptive number shall be sufficient description of it in all respects. Said report of said engineer of construction shall also state the names of the persons owning lands over which a right of way for said improvement has been obtained, as well as the name of any lessee, encumbrancer, or other person having an interest in said land over which a right of way has been obtained, together with the particulars of their interest therein, and together with a waiver of any interest they may have had in said lands so obtained for said right of way. Errors in the designation of the owner or owners of any land or improvement or any interest therein, or of the particulars of their interest, shall not affect the validity of the assessment.

The report of such engineer of construction and the affidavit accompanying it shall be filed with the clerk of the board of supervisors, and said board shall thereupon fix a time for the hearing thereon, and thereupon the clerk of said board shall give notice of said hearing by publication once each week for at least three weeks prior to the time fixed for said hearing in the newspaper or newspapers designated in the resolution of intention. Such notice shall be substantially in the following form:

Notice of the filing of the report of the engineer of construction of Drainage Improvement District No _____ (the number being that of the district) of the county of _____.

Notice is hereby given that the engineer of construction of Drainage Improvement District No. _____ (the number being that of the district), did on the _____ day of _____, 19____, file his report of the assessment of benefits in said district with the clerk of the board of supervisors of said county, which said report is now on file in the office of the said board of supervisors in the city of _____, of said county, and that said report will be heard by said board at its chamber on the _____ day of _____, 19__, at the hour of _____m. Said report and the map, plans and specifications of the improvements mentioned therein are hereby referred to for further particulars. All persons interested are hereby required to show cause, if any they have, at the time and place fixed for said hearing, why said report should not be adopted and confirmed by said board, and why the several parcels of land referred to in said report should not be assessed for said improvement as therein set forth. All objections shall be in writing, signed by the person objecting, and filed with the clerk of said board at least one day prior to the time fixed for the hearing of said report.

Signed_____

Clerk of the board of supervisors, _____ county.

Any person interested may file with the clerk of said board at least one day before the time fixed for the hearing, a written objection to said report, or to any part thereof, to the assessment as a whole or to the assessments on the several parcels of land, as set forth in said report. At the time fixed for such hearing or at

any time to which the hearing may be adjourned, the board of supervisors shall hear and pass upon all objections so filed, and shall proceed to pass upon said report and the assessments therein contained, and may confirm, correct or modify the same, or may direct the engineer of construction to make a new assessment, report and plat which shall be filed, heard and acted upon in the same manner, and on like notice as an original report. The action of the board upon the report and objections thereto shall be final and conclusive as to all matters therein, and no assessment shall be set aside except upon such hearing for any error, defect, or informality therein, or in the proceedings prior thereto, where notice of the hearing of the report has been given as herein prescribed. The board of supervisors shall, upon the adoption of said report, by order entered upon its minutes, levy against and upon all lands within said Drainage Improvement District No. ------ (being the district as established and bounded in the order for the work to be don) a special assessment upon the lands found to be benefited by such improvement in the amount set forth in the said report of the engineer of construction as adopted by the board of supervisors, and which said amount shall be available for the payment of said bonds and the interest thereon. Said assessment shall be payable as herein provided at the times and in the amounts indicated in said report of said engineer of construction. When the said board has levied the special assessment as hereinabove set forth, the clerk of said board shall cause to be filed with the recorder, and with the tax collector of the county or counties in which the district is situated, certified copies of the plat and report as adopted and confirmed by said board, together with certified copies of the order of said board levying said special assessment, and also give to the county auditor notice of the total amount of the installments for each year. If the district lies within more than one county as provided in section two, said certified copies shall be filed with the recorder and tax collector of each county affected. Upon the filing of such certified copies the charges assessed upon each piece of land for the first year shall immediately become due and payable, and shall constitute a lien thereon; thereafter the installments for the succeeding year shall become due and payable on the third Monday of October of each year, and shall thereupon constitute a lien upon the land against which it is assessed.

All moneys paid upon such assessment, either by property owners or by the county or municipality affected, shall be placed in the county treasury of the county in which such district was organized in a special fund to be known as Drainage District Improvement No. ------ interest and sinking fund (the number being that of the district), and shall be used only to retire the bonds issued to pay the cost of constructing the improvement and the incidental expenses thereof, and to pay the interest on said bonds. Any surplus remaining after the bonds are retired shall be paid into the maintenance fund of said district. Upon the filing of the certified copy of the report, assessment plat, and order with the tax collector of the county or counties as above provided, the tax collector shall give notice by ten days publication in the newspaper designated in the resolution of intention, that the assessment list of Drainage Improvement District No. ------ has been filed in his office, with the date of such filing; that the first installments entered thereon are due and payable, and that if not paid on or before the last Monday of April next ensuing the same will become delinquent and will be collected as are delinquent taxes. He shall note on said assessment list all assessments paid, and give receipts as upon the payment of taxes, and shall pay all money collected into the county treasury at the same time and in the same manner as money collected for taxes.

Subsequent collections of installments shall be made in the manner above set forth, and the tax collector shall annually publish a like notice, and the same proceedings shall be had as upon the collection of the first installment.

When said installments have become delinquent the tax collector of the county shall proceed to collect the same, together with an additional ten per cent added thereto, and pay the same over to the county treasurer as state and county taxes are collected and paid over; for the purpose of collecting such assessments and delinquent installments and penalties, all of the provisions of chapter VII, title IX, part III of the Political Code not in conflict with any of the provisions of this act are hereby made applicable The entire assessment against a parcel of land within the district, subsequent installments as well as the installment for the current year, may at any time be paid in full.

SEC. 5. A new section to be numbered 12*a* is hereby added to said act to read as follows:

Sec. 12*a*. As an alternative method for the levying and collection of the special assessment taxes for the payment of the principal and interest of the bonds of any district the board of supervisors may provide in the resolution of intention of the district that the provisions of this and the two following sections shall apply. In such event the county surveyor shall immediately after the execution of the contract for the doing of the work proceed to view the lands within the district to determine the benefit that will accrue to the respective parcels in said district from the proposed improvement. He shall thereupon with all diligence and before the completion of the work prepare a map which shall show, (1) the boundaries of said district; (2) the location of the proposed work; and (3) zones composed of the contiguous parcels or pieces of land within the district equally benefited by the proposed work.

As many zones may be shown as are necessary and each zone shall be designated by a number or letter shown on the map The boundaries of each zone shall be plainly marked on said map so that all persons interested may with accuracy ascertain in which zone any parcel of land is located

When said map is prepared it shall be presented to the board of supervisors together with a statement signed by the county surveyor setting forth the percentage of the whole sum to be raised each year in said district for the payment of the principal and interest of the bonds of the district which should be raised in each zone. The board of supervisors shall examine said map and statement and either order modifications made or approve it.

SEC. 6. A new section to be numbered 12*b* is hereby added to said act to read as follows.

Sec. 12*b*. When said map and statement are approved, either when originally presented or after modification, they shall be filed with the clerk of said board. Thereupon the board of supervisors shall fix the time for a hearing on the map and statement, and the clerk of the board shall give notice of such hearing by a publication once each week for at least three weeks prior to the time fixed for said hearing (but the third publication may be on the day of the hearing) in the newspaper or newspapers designated in the resolution of intention. Such notice shall be signed by the clerk and be substantially in the following form.

"Notice of hearing on the report of the county surveyor with respect to the assessment zones in Drainage Improvement District No _____ of the county of _____.

Notice is hereby given that the map and statement provided for in section 12*a* of the Drainage District Improvement Act of 1919 has been filed with the clerk of the board of supervisors in the matter of Drainage District Improvement No. _____, and that said board has fixed the _____ day of _____, 19____, at the hour of _____ m., as the time and the chambers of said board as the place for hearing any objections to said map or statement."

Any person interested may file a written objection with the board before the time set for the hearing, or may appear before the board at the time and place set forth in said notice, or at any time to which the hearing may be adjourned, for the purpose of making objection to any matter pertaining to the map or statement, or to the confirmation of the same. The board shall hear any objection made, and shall thereafter confirm the map and statement as presented, or after correction or modification then ordered made, or may direct a new map and statement to be made in place of the one on file. In the event that a new map and statement is ordered it shall be presented and be acted upon in like manner and on like notice as if it were an original report The action of the board upon the map and statement and any objections thereto shall be final and conclusive as to all matters pertaining thereto, and no assessment shall be held invalid and no objection shall at any time thereafter be made to any matter which could have been heard and corrected by the board at said hearing, if notice of said hearing was given as in this section provided

SEC. 7. A new section to be numbered 12*c* is hereby added to said act to read as follows:

Sec. 12*c*. After the confirmation of the map and statement and the issuance of bonds (as hereinafter in this act provided) the board of supervisors shall annually at the time of making the tax levy for general county purposes levy special assessment taxes on the land (exclusive of improvements but inclusive of the land of public utilities) within the several zones theretofore established. The board shall determine the total sum that will be needed to meet the payments of principal and interest on the bonds of the district that will fall due before the proceeds of the next annual levy are available, and shall determine the amount to be raised from each zone according to the percentage fixed for each zone The special assessment tax to be levied in each zone shall be at the rate based on the value of the land in the zone as assessed for the purpose of general county taxation clearly sufficient to raise the amount determined by the board to be raised from such zone. The special assessment taxes provided for herein shall be levied and collected in the same manner and by the same officers as the ordinary county taxes, and all laws applicable to the levy, collection and enforcement of such county taxes are hereby made applicable to such special assessment taxes.

The board of supervisors may annually at the time of making any special assessment levy, transfer to the interest and sinking fund of any drainage improvement district from the general fund of the county, such amount as the board of supervisors may determine, not to exceed, however, one-half of the sum that would but for such transfer have to be raised by such special assessment levy.

All moneys collected from the special assessment taxes levied on the zones of any district shall be placed in the county treasury in a special fund to be known as the "Drainage Improvement District No _____ Interest and Sinking Fund" (the number being that of the district) and shall be used only to pay the principal and interest of the bonds of the district Any surplus remaining in said fund after all the bonds have been retired shall be transferred to the maintenance fund of the district.

SEC. 8. Section 16 of said act is hereby amended to read as follows:

Sec. 16. Upon the expiration of twenty days after the making of the final order provided in section 15 of this act, the clerk of the board of supervisors shall transmit to the county treasurer of the county an attested copy of said final order, and upon receipt of the same, the treasurer shall proceed to issue bonds amounting in the aggregate to the principal sum for which said bonds are to be issued as the same is stated in said final order. A bond may be issued in any amount, provided that the aggregate of the bond or bonds made payable in any one year is the proper part of the whole principal of the bond issue as specified in said final order, and that the interest thereon shall be payable as hereinafter provided. The said bonds may in form, and shall in substance, be as follows:

PRESENTATION OF PETITIONS.

By Mr. McPherson:

WASHINGTON, D. C, April 3, 1921.

Navy Department at Washington has not requested any one to have any bill of any kind for land or otherwise at Alameda or any where else introduced in the California Legislature. I telegraphed full particulars to Hogan at his telegraphic request.

C. F. CURRY.

By Mr. Kline:

ELSINORE, CALIFORNIA, March 26, 1921.

DEAR SIR: The Fish and Game Commission was the author of the Hunting License Act (about 1908) and since that time the State has not been asked for a cent of money. And the most they were ever able to obtain by appropriation was $5000 for two years!

The Fish and Game Commissioners receive no salary. The operation of the Commission and its assistants has developed into an immense business carried on by experts and experienced men.

We, as tax payers, hunters and anglers, most urgently request that you do all in your power to prevent the passage of Assembly Bill 352, and Assembly Bill 976, and keep the Fish and Game Commission separate from all other departments.

We consider our hunting and angling license money is only held in trust by the State Treasurer. It belongs to a special class who paid it in for a specific purpose, and does not in the least belong to the public. Any attempt to absorb these funds would be a breach of trust.

We feel the confiscation of the sportsmen's money, which was contributed for the conservation of wild life and with the understanding that it should be used for that only, would be a serious error.

Feeling that you are a man with a high sense of justice, we appeal to you to use your good office to prevent this serious mistake.

Respectfully your constituents,

A. G. NEEK, Elsinore,
And 25 others.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

By Mr. Burns:

During the roll call on Assembly Bill No. 590 I was engaged in conversation with one of the members, so did not hear my name called. I tried to have my vote recorded, but the vote had been announced and under the rule the Clerk could not record my vote. I make this statement because I wanted to vote for this bill, and regret that my name is not among those voting aye.

JOSEPH F. BURNS.

CHIEF CLERK KAVANAUGH READING.

and supported legislative enactment designed to increase and extend educational opportunities within our State; and

WHEREAS, The women of the State hold firmly to the conviction that conservation of human resources is the greatest obligation of the State to society and to civilization and should in no way be subserved or made secondary to considerations of business and financial interest; and that public moneys spent in such conservation represents true efficiency and economy in government; therefore, be it

Resolved, That we, the members of the executive board of the California Federation of Women's Clubs, in regular session, March 26, 1921, respectfully recommend to the members of the forty-fourth Legislature of the State of California, that no curtailment be made in appropriations and expenditures necessary to the extension and development of educational projects, and the adequate maintenance of institutions where care and protection is given to wards of the State; and be it further

Resolved, That a copy of this resolution be sent to each and every member of the State Legislature now in session at Sacramento

ADELLA TUTTLE SCHLOSS,
President California Federation of Women's Clubs.

By Mr. Kline:

CORONA, CALIFORNIA, April 2, 1921.

Chester M. Kline, Sacramento, California.

DEAR SIR: We protest against the placing of the fish and game license money in the general funds of the State, and the mixing of the fish and game conservation with any other department.

All money at the disposal of the Fish and Game Commission is held in trust by the State Treasurer, and is paid out by way of the Board of Control, which is an absolutely safe protection.

Any financial emergency confronting the State is in no wise chargeable to the Fish and Game Commission, as its commissioners have no salaries and it is self supporting, getting its finances from hunting and fishing licenses. This money is contributed solely for the protection and propagation of wild life.

We strongly urge no interference with the present fish and game conservation system.

And 27 others.

In moving the adoption of the resolution relative to attending the Native Sons' convention, Mr. Parkinson spoke as follows:

"Monday, April 18, the members of the Assembly are invited to attend the State Convention of the Native Sons of the Golden West at Stockton.

There are many members of that order in the Assembly, and not only are they, but all Assemblymen, whether Native Sons or not, invited. Stockton is making big plans for this convention, and you are all assured of a royal welcome and a grand, good time

Stockton is less than fifty miles from Sacramento, and one can leave in the afternoon on the eighteenth and arrive in time for the convention You may go on the electric car, which takes two hours, you may go on the stage, which takes about one and three-quarters hours, or you may go by automobile, which takes one and one-half hours, if you do not exceed the speed limit. There is a paved highway all the way from Sacramento to Stockton, constructed by the counties of San Joaquin and Sacramento, and now a State highway.

We hope that as many members of this Assembly as possibly can arrange to do so will avail themselves of our invitation. We assure them that they will not regret the time spent, as Stockton is a convention city of long experience and certainly knows how to entertain."

SENATE JOINT RESOLUTION No. 27.

Relative to extending an invitation to the Interstate Commerce Commission to hold hearings in California.

WHEREAS, Many producers of agricultural and horticultural products in California find themselves at this time in a deplorable financial condition because of the excessive freight rates between points of production in California and marketing points east of the Rocky Mountains; and

WHEREAS, The condition resulting from the imposition of present freight tariffs is likewise serious in its results to the carriers of freight because of the fact that

fruit and vegetables in large quantities are not shipped but are allowed to go to waste; and

WHEREAS, As a natural consequence the embarrassment of would-be shippers and of transportation lines leads to serious economic distress among the people in general who are denied the opportunity to purchase such agricultural and horticultural products at reasonable prices, and the cost of living is materially augmented by failure to ship and to market; and

WHEREAS, In at least one other state in the Union the Interstate Commerce Commission, which is the national rate determining body, has ordered a hearing or a conference to be held within said state in the hope of speedily remedying the existing condition by an adjustment of freight rates, such hearing following upon a request for the same by the legislature of said state; now, therefore, be it

Resolved by the Senate and the Assembly of California, jointly, That the Legislature of this State extend to the Interstate Commerce Commission an invitation to hold hearings or conferences in California on the question above outlined; that we urge the earliest possible date for the opening of such hearings to the end that any relief possible may be speedily employed and that we suggest to said Interstate Commerce Commission the advisability of hearings in both Los Angeles and San Francisco; and be it further

Resolved, That the Secretary of the Senate and the Chief Clerk of the Assembly are hereby directed to forward a copy of this resolution by telegraph to the Interstate Commerce Commission at its office in Washington, D. C.

STATE BOARD OF CONTROL.

SACRAMENTO, CALIFORNIA, April 8, 1921.

Jerome B. Kavanaugh, Chief Clerk Assembly.

DEAR SIR Replying to your favor of April 1 containing resolution by Mr. Merriam, we herewith hand you statement showing the rentals paid by the State of California for supporting and nonsupporting offices.

Sheet One—This shows the offices in San Francisco. The present rental is based upon the rents paid at the present time. The rentals shown for the previous period are those paid during the early part of the seventy-first fiscal year.

Sheet Two—Los Angeles offices. You will note that the detail is omitted from the previous year's rental, owing to the fact that there were a great number of changes during that period and we have shown only the total amount paid monthly for the offices located in that city.

Sheet Three—Sacramento offices. The detail for the seventy-first fiscal year's rentals is omitted owing to the fact that there is no detailed statement available in our office at this time. The total shown for the previous year is correct, however.

There will be an increase in rental in the Forum building commencing July 1 of two and one-half cents per square foot.

Sheet Four—Shows miscellaneous offices throughout the State.

Referring to the last portion of the resolution, regarding the San Francisco State building, the only space definitely allotted so far is the courts, Attorney General, Governor's office and Hastings College of Law.

Trusting this is the information desired, we are

Yours very truly,

STATE BOARD OF CONTROL

SAN FRANCISCO, April 4, 1921.

The City and County Federation of Women's Clubs, with its more than ten thousand members, definitely urges the support of the farm for delinquent women.

MRS. W. B. HAMILTON, President.

By Mr. Kline:

DEAR SIR We, merchants of Beaumont and constituents of yours, respectfully protest against the passage of Assembly Bill No. 731, providing that the actual cost price shall be affixed to every article handled by a merchant and offered for public sale. We do not believe that such a law would be of any material benefit to the purchaser, inasmuch as competition controls the retail price paid by the consumer. Besides, this procedure would lead to endless confusion and bickerings, as the average purchaser would not stop to consider the cost of freight, drayage and overhead expenses, which vary greatly according to the nature of the business.

We earnestly ask you to vote against the passage of this act and do all in your power to prevent its passing the Assembly.

Respectfully, THEO. J. PILCHER,
And 19 others.

By Mr. Loucks:

We, the undersigned residents of California, believing in the principles of American liberty and the entire separation of church and state, do hereby protest against the passage by the California Legislature of Senate Bill No. 713 and Assembly Bill No. 501, entitled "An act to provide for the more general observance of Sunday as a day of rest," or any other such measure.

MRS. C. O. DORSETT, San Pedro,
And 182 others.

Sec. 3. Such elections shall be conducted in accordance with the general election laws of the State, excepting as to nomination of officers which shall be done in accordance with the law applicable to the nomination of officers of cities of the class to which the same shall be found to belong, and no person shall be entitled to vote thereat unless he shall be a qualified elector of the county, enrolled upon the great register thereof, and shall have resided within the limits of such proposed corporation for at least thirty days next preceding such election. The board of supervisors shall meet on the Monday next succeeding such election, and proceed to canvass the votes cast thereat; and if, upon such canvass, it appears that the majority of the votes cast are for the incorporation, the board shall, by an order entered upon their minutes, declare such territory duly incorporated as a municipal incorporation of the class to which the same shall belong, under the name and style of the city (or town, as the case may be) of _____ (naming it), and shall declare the persons receiving, respectively, the highest number of votes for such several officers to be duly elected to such offices. Said board shall cause a copy of such order, duly certified, to be filed in the office of the Secretary of State, and from and after the date of such filing, such incorporation shall be deemed complete, and such officers shall be entitled to enter immediately upon the duties of their respective offices, upon qualifying in accordance with law, and shall hold such offices respectively only until the next general municipal election to be held in such city or town, or

for such term as shall be hereinafter provided for officers of cities of the class to which the same may belong, and until their successors are elected and qualified; and it shall not be necessary in any action, civil or criminal, to plead and prove the organization or existence of such corporation, and the courts shall take judicial cognizance thereof without proof.

SEC. 3. A new section is hereby added to this act to read as follows:

SEC. 7*a*. Where a municipal corporation contains a center of population subdivided into town or villa lots and also an area of ranch land or unsubdivided acreage and the assessed value of such ranch land or unsubdivided acreage together with the assessed value of the improvements and personal property situated and assessed within such area is more than seventy-five per cent of the entire assessed valuation of all the assessable property within such municipality as shown by the last preceding annual assessment roll of the county in which such municipality is situated, and where the population of such area is less than fifteen per cent of the entire population of such municipality, such ranch land or unsubdivided acreage may be excluded from said municipality after proceedings had as required by this section.

The board of supervisors of the county or city and county wherein such municipal corporation is situated, upon receiving a written petition therefor containing a description of the exterior boundaries of the ranch land or unsubdivided acreage proposed to be excluded from said municipal corporation and signed by not less than one-half of the number of the qualified electors residing at the time of filing said petition within the boundaries of the area proposed to be excluded, shall without delay notify the legislative body of the municipal corporation from which it is proposed to exclude such territory of the fact of filing such petition. The board of supervisors shall cause a copy of such petition to be published at least two weeks before the time at which the same is to be heard in some newspaper printed and published in such county, together with a notice stating the time of the meeting at which the same will be heard. Any person interested may object to such exclusion by filing a written protest with the board of supervisors at or before the time fixed for the hearing of said petition. In the event that the owners of more than one-half of the land proposed to be excluded file remonstrances against such exclusion the protest shall be sustained by the board of supervisors and shall be a bar to any further proceedings for the exclusion of such territory for a period of one year.

The board of supervisors shall ascertain and determine the character of the land proposed to be excluded, the proportion which the assessed value of all assessable property within such boundaries bears to the assessed value of all assessable property within said municipality and also the proportion which the population of such area bore to the entire population of such municipality at the time of filing said petition; and such determination shall be final and conclusive.

The affidavit of a qualified elector residing within the boundaries of the ranch land or unsubdivided acreage proposed to be excluded, filed with the petition, shall be prima facie evidence of the requisite number of signers to the petition, of the character of the land proposed to be excluded, of the proportion which the value of all assessable property within such area proposed to be excluded bears to the assessed value of all the property within said municipality, and of the proportion which the number of inhabitants within such area bears to the total number of inhabitants of said municipality.

If the board of supervisors shall, upon such hearing, determine that the land proposed to be excluded is ranch land or unsubdivided acreage and that the assessed value of all property within such area proposed to be excluded is more than seventy-five per cent of the assessed value of all property within said municipality as shown by the last preceding annual assessment roll of the county and that the population of such territory is less than fifteen per cent of the entire population of such municipality, the board of supervisors shall cause a report of such finding and determination to be entered upon its minutes. The clerk of said board of supervisors shall make and certify under the seal of said board of supervisors and transmit to the Secretary of State and to the clerk or other officer performing the duties of the clerk of such municipal corporation a copy of said report so entered upon its minutes. From and after the date of filing said document in the office of the Secretary of State the exclusion of such territory proposed to be excluded shall be deemed and shall be complete and thenceforth such excluded territory shall cease to be a part of the municipal corporation for all intents and purposes; *provided*, that nothing contained in this act shall be held to relieve in any manner whatsoever any part of *said territory from any liability for any debt contracted by such municipality prior* to such exclusion; *and provided, further*, that such municipal corporation is hereby authorized to levy and collect from any territory so excluded such taxes as shall be found due from the account of its just proportion of liability for the payment of principal or interest on such debts.

All proper expenses of proceedings for the exclusion of territory under this act whether such exclusion shall be made and completed or not shall be paid by the county wherein said municipality is situated.

Whenever any territory is excluded from a municipal corporation under the provisions of this act and such municipal corporation shall at such time be entitled to the payment to it of any moneys under the provisions of section 2656 of the Political

Code any and all claims which it may have to unexpended highway taxes shall thereupon cease and terminate, and, pending a proceeding for exclusion of territory under this act, the right to collect the same shall be suspended; *provided, however,* that the provisions of this section shall not apply to any ranch land or unsubdivided area where the assessed value of such land together with the assessed value of the improvements and personal property situated and assessed within such area has increased to seventy-five per cent of the entire assessed valuation of all the assessed property within such municipality subsequent to the incorporation of such territory or its annexation to the municipal corporation.

SEC. 4. Section 756 of an act entitled An act to provide for the organization, incorporation and government of municipal corporations, approved March 13, 1883, as amended, is hereby amended to read as follows:

SEC. 756. All elections in such city shall be held in accordance with the general election laws of the State, applicable to cities of the fifth class, and no person shall be entitled to vote at such election unless he shall be a qualified elector of the county, enrolled upon the great register thereof, and shall have resided in such city for at least thirty days next preceding such election.

CHIEF CLERK KAVANAUGH READING.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was taken up and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

To the Assembly of the State of California.

In accordance with the provisions of section 16 of article IV of the constitution, I return to you, without my approval, Assembly Bill No. 390.

After a careful consideration of the provisions of this bill, I find no escape from the conclusion that it will be possible for the owners of relatively small tracts of agricultural land lying wholly, or in part, within the exterior boundaries of a

municipal corporation to force the formation of a drainage district which will include a very much larger area of similar agricultural lands lying without the exterior boundaries of such municipal corporation, and thereby impose upon the owners of such larger tracts an undue burden of cost in connection with the construction of the necessary works of drainage. This result is made possible by reason of the fact that the smaller tracts lying partly within the municipality are, as a general rule, more thickly populated than the larger outlying tracts, the owners of which would be outvoted in all matters affecting the organization, control and expenditures of the district. The manifest injustice of a law which would make possible the creation of such a condition causes me to withhold my approval from this bill.

WM. D. STEPHENS, Governor.

Dated: April 8, 1921.

Relative to immigration.

WHEREAS, The Japanese Exclusion League of California, representing officially such organizations as the American Legion, War Veterans, Native Sons and Native Daughters of the Golden West, State Federation of Women's Clubs, State Federation of Labor, and various other patriotic, civic and fraternal bodies, have adopted

a statement of policy recommended for adoption by the government of the United States as urgently required in protection of the nation's interest against the growing menace of Japanese immigration and colonization; and

WHEREAS, Said declaration of principles has been approved by the organizations affiliated with the league—the Los Angeles County Anti-Asiatic Association and the Japanese Exclusion League of Washington; and

WHEREAS, Said declaration of principles is in words and figures as follows, to wit:

First—Absolute exclusion for the future of all Japanese immigration, not only male, but female, and not only laborers, skilled and unskilled, but "farmers," and men of small trades and professions, as recommended by Theodore Roosevelt.

Permission for temporary residence only for tourists, students, artists, commercial men, teachers, etc.

Second—Such exclusion to be enforced by United States officials, under United States laws and regulations, as done with immigration, admitted or excluded, from all other countries; and not, as at present, under an arrangement whereby control and regulation is surrendered by us to Japan.

Third—Compliance on the part of all departments of the federal government with the constitution, and the abandonment of the threat or attempt to take advantage of certain phrasing of that document as to treaties, which it is claimed gives the treaty-making power authority to violate plain provisions of the constitution in the following matters:

(*a*) To nullify State rights and State laws for control of lands and other matters plainly within the State's jurisdiction.

(*b*) To grant American citizenship to races of yellow color, which are made ineligible for such citizenship.

Fourth—For the Japanese legally entitled to residence in California, fair treatment, protection in property rights legally acquired, and the privilege of engaging in any business desired, except such as may be now or hereafter denied by law to all aliens, or to aliens ineligible to citizenship; and provided particularly they may not hereafter buy or lease agricultural lands.

Now, therefore, be it

Resolved by the Senate and Assembly, jointly, That the Legislature of the State of California hereby endorses said declaration of principles and urges that the President, the Department of State and the Congress of the United States adopt and observe the policy therein stated; and be it further

Resolved, That the Secretary of the Senate be and she is hereby directed to transmit copies of these resolutions to the President and the Secretary of State of the United States and to each of California's Senators and Representatives in Congress.

Such application for rehearing shall be verified and shall state fully the grounds upon which the application for rehearing is based. The commission upon considering any such application or applications for rehearing, may either grant the same by order and notice thereof given by mail to the party or parties applying for such rehearing, fix a time for such rehearing and reconsider its order, rule or regulation, or it may redetermine the matter upon the record before it and give such notice of its redetermination in the same manner as is herein provided for service of an original order, rule or regulation; or the commission may deny such rehearing upon the record before it, giving notice of such decision by mail to the applicant or applicants therefor. Such rehearing shall be deemed to be denied unless acted upon by the commission within thirty days after being filed. No rehearing shall be granted except on the grounds that the final order, rule or regulation was obtained as follows—that is to say—

That the commission acted without or in excess of its powers.

That the order, rule or regulation was procured by fraud.

The final determination made by the commission shall be subject to review only after application for rehearing as herein provided and the final disposition thereof by the commission, and then only in the manner and upon the grounds following:

Service upon the secretary of the commission, or any member of the commission, shall be deemed a complete service. The commission shall serve its answer within twenty (20) days after the service of the complaint, and with its answer shall make a return to the court of all documents and papers on file in the matter, and of all testimony and evidence which may have been taken before it or by it, and of its findings and decision. The action may thereupon be brought on for hearing before the court upon such record by either party on ten (10) days' notice to the other. Upon such hearing, the court may confirm or set aside the decision of the commission, but the same shall be set aside only upon the following grounds, that is to say,

1. That the commission acted without or in excess of its powers.

2. That the determination was procured by fraud.

Upon the setting aside of any determination of the commission, the court may recommit the controversy and remand the record in the case to the commission for further proceedings. The commission, or any party aggrieved, by a decree entered upon the review herein provided for, may appeal therefrom within the time and in the manner provided for an appeal from the final orders of the said superior courts.

(c) The filing of an application for a rehearing shall have the effect of suspending the order, rule or regulation affected only with respect to the party or parties applying therefor and for a period of not to exceed ten (10) days unless otherwise ordered by the commission, which shall have the power to grant a further stay upon such terms and conditions as it may direct.

All ordinances shall be subject to referendum (exercised in accordance with the provisions of the general laws of the State of California with reference to the referendum) during the period of thirty days above referred to between the time of final passage and the time of taking effect."

AMENDMENT NUMBER SIX.

On page 2 of the printed bill after line 12 insert the following:

"SEC. 3. Section 36 of said act, approved May 27, 1915, is hereby amended to read as follows:

Sec. 36. (1) Whenever the board of directors by ordinance, as hereinafter provided, shall determine that the public interest or necessity of the district demands the acquisition, construction, or completion of any public utility or utilities by the district, or whenever the electors of the district shall petition the board of directors, as hereinafter provided, for the acquisition, construction, or completion of any public utility or utilities, the board of directors must procure plans and estimates of the cost of original construction and completion by the district of such public utility or utilities.

(2) In securing estimates of the cost of original construction and completion of water works by the district, the board of directors must procure and place on file plans and estimates of the cost of obtaining, from such sources as the board of

directors may find and designate as available, a sufficient supply of good, pure water for the district.

(3) Before submitting propositions to the electors for the acquisition by original construction or condemnation of public utilities, the board of directors must solicit and consider offers for the sale to the district of existing utilities, in order that the electors may have the benefit of acquiring the same at the lowest possible cost thereof. In case no such offer or offers can be procured, the board of directors must, or, in case such offer or offers are procured the board of directors may, apply to the Railroad Commission of the State of California to ascertain the value of such existing utility or utilities for the purpose of submitting to the electors estimates of the cost of acquiring such public utility or utilities. Such valuation by the Railroad Commission shall be made in accordance with the provisions of section forty-seven of the Public Utilities Act of the State of California, and said Railroad Commission shall have power upon such application, and it shall be its duty, to make such valuation without delay. When the Railroad Commission shall have made and filed its findings and decision, the board of directors of the public utility district may have said findings reviewed, as in sections 47 and 70 of said Public Utilities Act provided; or such board of directors may immediately adopt such findings and decision as the basis of its estimate of the cost acquiring such public utility or utilities by purchase or by condemnation.

(4) Whenever any petition or petitions, each signed by electors of the district equal in number to fifteen per centum of all votes cast within the territory of the district at the last preceding general election held for the election of State and county officers, shall be presented to the board of directors asking for the construction, completion or acquisition of the public utility or utilities therein named, it shall be the duty of the clerk of the district to immediately proceed to examine and verify the signatures to such petition or petitions and to certify the result of such examination to the board of directors. If the required number of signatures be found to be genuine, the clerk shall transmit to the president of the board of directors an authentic copy of such petition or petitions, without the signatures thereto.

Upon receiving the petition or petitions, with the certificate of the clerk stating it or they contain the required number of signatures, the board of directors shall formulate for submission to the electors of the district at a general district election or at a special election called for that purpose, a separate proposition for the construction, completion, or acquisition of each public utility named in such petition or petitions.

All propositions formulated under the provisions of this subdivision shall be completed within six months after the filing of such petition or petitions, unless more time is required by reason of the making of a valuation applied for to the Railroad Commission under the provisions of subdivision 3 of this section, in which case the said proposition or propositions shall be completed as soon as may be possible after such valuation shall have been made and become final.

At the next regular meeting after the completion of the proposition or propositions for the acquisition, construction or completion of the public utility or utilities named in said petitions, the board of directors of the district by ordinance shall submit the proposition or propositions to the electors of the district at a general district election or at a special district election called for the purpose.

When the cost of any public utility or utilities named in such petition or petitions can be paid out of the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, each proposition therefor, submitted to the electors, shall specify the cost of the public utility therein proposed for acquisition, construction, or completion by the district, the proposed method and manner of payment thereof, and the board of directors shall submit therein to the electors the question whether the same shall be acquired upon such terms. The affirmative vote of a majority of the electors voting at such election shall be necessary to accept such proposition.

At as early a date after the determination of the result of such election as the board of directors shall deem for the best interests of the district, it shall undertake proceedings and enter into such negotiations and contracts as may be necessary for the acquisition, construction, or completion of any public utility or utilities named in any proposition or propositions accepted by the majority of the electors voting at such election.

If, however, the cost of any public utility or utilities named in such petition or petitions shall so far exceed the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, as to render it necessary to incur a district bonded indebtedness therefor, each such proposition shall specify the amount of the bonded indebtedness necessary therefor, and the rate of interest thereon, and the board of directors shall submit to the electors, at such election, the question of whether such bonded indebtedness shall be incurred. The assent of at least two-thirds of the electors voting at such election upon the proposition shall be necessary to secure the construction, completion, or

acquisition of such public utility or utilities and to warrant the issuance of district bonds therefor.

(5) Whenever the board of directors shall determine that the public interest or necessity of the district demands the acquisition, construction or completion of any public utility or utilities, it shall specifically declare such determination by an ordinance, which shall be published for at least two weeks in some newspaper or newspapers of general circulation printed and published in the district.

When the cost of such public utility or utilities, or any of them, can be paid out of the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, the board of directors shall, as soon after the filing of the plans and estimates of the cost thereof as it may deem for the best interests of the district, enter into such negotiations and contracts as may be necessary for the acquisition, construction or completion of the same; *provided, however*, that in such case the ordinance declaring the determination of the board of directors to acquire, construct or complete such utility or utilities, and published as hereinabove provided, shall state the proposed cost of such acquisition, construction or completion, and the proposed method and manner of payment therefor; *and provided further*, that no such ordinance, in case it involves the expenditure of more than one hundred thousand dollars, shall become effective before thirty days from and after its final passage.

If, however, the cost of such public utilities, or any of them, shall so far exceed the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, as to render it necessary to incur a district bonded indebtedness therefor, the board of directors shall, at a regular meeting held within sixty days after the filing of the plans and estimates of cost thereof, by ordinance, as hereinafter in subdivision six of this section provided, submit the proposition or propositions to the electors of the district at a general district election or at a special district election called for the purpose. Such propositions shall specify the amount of bonded indebtedness necessary for the acquisition, construction or completion of the public utility or utilities therein named, and the rate of interest thereon, and the board of directors shall submit to the electors the question or questions whether such bonded indebtedness shall be incurred. The affirmative vote of at least two-thirds of the electors voting at such election upon the proposition or propositions shall be necessary to warrant the issuance of district bonds for the acquisition, construction, or completion of such public utilities, or any of them.

(6) Whenever under the provisions of section 36 of this act, of which this subdivision is a part, a special election is called for the purpose of submitting to the electors a proposition or propositions for the incurring of a bonded indebtedness, the board of directors shall pass an ordinance calling such election.

At such special election all propositions formulated under the provisions of this section may be submitted to the electors of the district, but no question other than such propositions shall be submitted at such special election.

The ordinance calling such election shall set forth the purposes for which it is called, the estimated cost of each utility proposed for acquisiton, construction or completion by the district, the proposed method and manner of payment thereof, and shall fix a day on which such special election shall be held, the manner of holding such election, and the manner of voting for or against each proposition thereat submitted to the electors; and if it shall be necessary to incur a district indebtedness for any utility or utilities therein proposed, the ordinance shall specify the objects and purposes for which such indebtedness is proposed to be incurred, and that bonds of the district shall issue for the payment of the cost of such utility or utilities, as in said ordinance set forth (if the proposition or propositions therefor be accepted by the electors). Such election shall be held as provided for holding elections in the district.

(7) Nothing herein contained shall be deemed to authorize or empower the board of directors of the district to interfere with in any way or exercise any control of any existing utility owned or operated by any municipality belonging to said district unless by consent of the city council of said municipality by ordinance and upon such terms as may be mutually agreed upon between the board of directors of the district and the legislative body of such municipality."

SEC. 713. An operator moving slowly along or upon any highway shall keep his vehicle as close as practicable to the right hand boundary of such highway, allowing more swiftly moving vehicles reasonably free passage to the left.

SEC. 714. Operators of vehicles proceeding in opposite directions shall pass each other to the right, each giving to the other one-half of the road as nearly as practicable.

SEC. 715. Outside of residence or business districts, vehicles which are passing

each other in opposite directions shall have the right of way, and no other vehicle to the rear of either of such two vehicles shall pass or attempt to pass such two vehicles.

If the operation of other vehicles be reasonably affected by such turning, stopping or changing of course, the operator shall give a plainly visible signal to the operators of other vehicles of his intention to turn, stop or change his course. Such signal shall be given either by the use of the hand and arm or by the use of a mechanical or electrical device.

If the vehicle being operated is a motor vehicle where the driver's compartment is closed, constructed or arranged in such a manner as to prevent or hinder the giving of the hand and arm signal, as required in this section, such motor vehicle shall be equipped with a mechanical or electrical device

No such device shall be sold or offered for sale without being first approved by the superintendent. Any such device shall upon application to the department be tested and certified as adequate to give the signal herein required in the same manner and upon the payment of the same fees as in the case of headlamps or headlamp equipment.

I desire to make the following explanation of my vote on Assembly Bill No. 851, the so-called budget bill.

I voted aye, not because of the fact that I approve the budget as recommended, but rather because of the apparent futility in voting otherwise. The amendments which were offered to the bill on third reading file, were in my opinion, with very few exceptions meritorious and should have been accepted. If they had been, my affirmative vote on roll call would have indicated my approval of the bill. In view

of the fact that they were not accepted, my vote should not be so construed, but merely as a vote on a proposition which is necessary for the conduct of the affairs of State for the coming two years.

CLARENCE W. MORRIS.

RESOLUTION.

The following resolution was offered:

By Mr. Gray:

WHEREAS, In the death of William P. Kennedy, the city of San Francisco and the State of California has been deprived of one of its conscientious citizens, a man faithful, loyal and sympathetic in his friendships; honest, and painstaking in his performance of duty, always worthy of the confidence reposed in him; reliable in every way; and

WHEREAS, His work as a public servant was constructive; in his private life and in his associations of friendship he has made manifest his true greatness of heart; being genial, and unselfish by nature, he drew close to him all who were privileged to associate with him; and especially, therefore, are we mindful of the immeasurable loss sustained by those close to him in family relationship; and to his family so sorely bereaved we extend a heartfelt sympathy, hoping that there may be given to them some comfort in the thought that the loved one departed is held in loving esteem by those who were his associates in the discharge of public duty, therefore, be it

Resolved, That a copy of these resolutions be engrossed by the Chief Clerk of the Assembly and the same be conveyed to the family of the late William P. Kennedy; and be it further
