PRESENTATION OF PETITION.

The following petition was presented, and ordered printed in the Journal:

By Mr. Speaker:

TEMPLE B'NAI ISRAEL.

SACRAMENTO, CALIFORNIA, March 7, 1927.

WHEREAS, The Temple Sisterhood, as a religious organization, is intensely interested in the religious education of the young, and

WHEREAS, We note that Senate Bills Nos. 145, 146, 147 provide for the release of children from the public schools, during school hours, for religious instruction; and

WHEREAS, The proposed bills require a connection between church and public school, in that they necessitate the filing of petitions for religious education with the public school, in that they require checking of attendance, and in other ways; and

WHEREAS, We regard any tie between church and public school, however tenuous it be, as a violation of the sane and traditional American principle of complete separation of church and State, and

WHEREAS, We believe that our children have leisure time that can be utilized for religious education, and that the responsibility of providing that education lies with home and church, and not with the State, and

WHEREAS, We feel that religion itself is ill served by State legislation therefore, be it

Resolved, That we, the members of the Temple Sisterhood of Sacramento, in regular meeting assembled, do consider Senate Bills Nos. 145, 146, 147 violative of the principle of the separation of church and State, and subversive of the highest spiritual interests of our children, and, be it further

Resolved, That copies of these resolutions be forwarded to the President of the Senate and the Speaker of the Assembly

COMMUNICATION.

The following communication was received and ordered printed in the Journal:

By Chief Clerk:

LANKERSHIM, CALIFORNIA, March 9, 1927.

Mr. Arthur A. Ohnimus,
Chief Clerk of Assembly,
State of California,
Sacramento, California

HONORABLE SIR At a meeting of more than 100 officers or representatives of more than sixty service clubs, chambers of commerce, realty boards and similar organizations, a resolution was unanimously adopted urging the members of the State Assembly and State Senate to vigorously oppose passage of Senate Bill No. 736 and Senate Bill No. 737

Favorable action on either or both would seriously jeopardize the lives of more than 300,000 persons in the county of Los Angeles, and the leaders of these organizations represented at this conference unanimously voted to obtain the entire support of the organizations they represented in presenting briefs to your committees to substantiate our claim that these bills are detrimental to the best interest of this county.

We will appreciate your courtesy in extending this message to the proper State authorities for consideration.

Cordially yours,

CHAS. L. WOOD,
Mgr Major Development Association
of the San Fernando Valley.

AMENDMENT NUMBER TWO

On page 8 of the printed bill, at the end of line 8, insert a new section to be known as section 2½:

SEC. 2½. That section 8 of said hereinbefore act be amended to read as follows:

Sec. 8. Every contractor, person, company or corporation, including contracting owners, to whom is awarded any contract for street work under this act, shall at the time of signing and executing said contract, file with the superintendent of streets or county surveyor, a good and sufficient bond to the satisfaction and approval of said street superintendent or county surveyor, in a sum not less than one-half of the total amount payable by the terms of said contract. Such bonds shall be executed by either two or more good and sufficient sureties, or by corporate surety, as provided by law, in an amount not less than the sum specified in the bond, and must provide that if the contractors, person, company or corporation, or his or its subcontractors fail to pay for any materials, provisions, provender or other supplies or the use of implements or machinery used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, that the sureties will pay for the same in an amount not exceeding the sum specified in the bond, and also in case suit is brought upon such bond, a reasonable attorney's fee to be fixed by the court. Such bond must, by its terms, inure to the benefit of any and all persons, companies and corporations entitled to file claims under this

act, so as to give a right of action to them or their assigns in any suit brought upon said bond.

Any materialman, person, company or corporation furnishing materials, provisions, provender or other supplies used in, upon, for or about the performance of the work contracted to be executed or performed, or any person, company or corporation renting or hiring teams or implements, or machinery for, or contributing to, said work to be done, or any person who performs work or labor upon the same, or any person who supplies both work and materials and whose claim has not been paid by the contractors, company or corporation to whom the contract has been awarded, or by the subcontractors of said contractor, company or corporation, may at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by section 1187 of the Code of Civil Procedure, file with the superintendent of streets or county surveyor, a verified statement of his or its claim, together with a statement that the same, or some part thereof, has not been paid. It shall be lawful for the superintendent of streets or county surveyor, within ten days after the completion of any such contract or work of improvement provided for in this act, or within ten days after there has been a cessation from labor thereon for a period of thirty days, to file for record in the office of the county recorder of the county where the property is situated, a notice setting forth the date when the same was completed, or on which cessation from labor occurred, together with the name of the municipality and description of the property or public work or improvement, sufficient for identification, and the name of the contractor or contractors, and the name of the surety, which notice shall be verified by such superintendent of streets or county surveyor, and in case such notice be not so filed, the failure to so file shall have the same effect as provided in section 1187 of the Code of Civil Procedure, with reference to the "owner". Any laborer, materialman, person, company or corporation entitled to the benefit of this act as hereinbefore set forth, whose claim has not been paid by the said contractor, company or corporation, or his or its subcontractors, shall severally have a first lien upon and against the assessment, any partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment. And actions against the said municipality and/or superintendent of streets or county surveyor to establish such liens brought by any claimant who has filed claims under this act, or by his assigns, shall be governed by the provisions of sections 1184, 1184*a*, 1184*b* and 1184*c*, of the Code of Civil Procedure, and the verified notice provided for in said section shall be equivalent for all purposes to the verified claim provided for herein.

No assignment by the contractor of the whole or any part of the money, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein or after said claim is filed, shall be held to take priority over claims filed under this section, and such assignment shall have no binding force in so far as the rights of the claimants who file claims hereunder, or their assigns, are concerned; *provided*, that nothing in this section shall be construed to prohibit payment to the contractor or his assigns so long as no verified claim is on file before the disbursing officer shall have actually surrendered possession of the assessment, partial assessment, any reassessment and any bond which may be issued to represent any assessment or reassesssment, or the payment to said contractor or his assigns of any assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, due him or his assigns over and above the total amount of the claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with said claims.

Suit against the surety or sureties on the bond of the contractor required hereunder may be brought by any claimant, or his assign, at any time after the claimant has ceased to perform labor or furnish material or both and until the expiration of six months after the period in which verified claims may be filed as provided herein. The filing of a verified claim shall not be a condition precedent to the maintenance of such action against the surety or sureties on the bond and an action on such bond may be maintained separately from and without the filing of an action against the municipality and/or officer by whom such contract was awarded. And upon the trial of any such action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs, and to be included in the judgment therein rendered.

If the contractor, subcontractor or other person against whom any claim is filed as provided in this act shall dispute the correctness or validity of any claim so filed, it shall be lawful for the municipality and/or superintendent of streets or county surveyor by whom the contract for the improvement was awarded, in its or his discretion, to permit the contractor to whom said contract was awarded to deliver to such municipality and/or superintendent of streets or county surveyor a bond executed by some corporation authorized to issue surety bonds in the State of California, in a penal sum equal to one and one-fourth times the amount of said claim, which said bond shall guarantee the payment of any sum which said claimant may recover on said claim together with his costs of suit in said action, if he shall recover

therein, and upon filing of said bond by and with the consent of such municipality and/or superintendent of streets or county surveyor, then such municipality and/or superintendent of streets or county surveyor, shall not withhold any funds, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment from said contractor on account of said claim. The sureties upon said bond shall be jointly and severally liable to said claimant with the sureties upon the original bond inuring to the benefit to persons entitled to file claims under this act and given in accordance with the provisions of this act.

At any time after the first day of July next succeeding nine months following the date of recording of such assessment, the contractor or his assignee may sue in his own name the owner of the land, lots or portions of lots assessed on the day of the date of the recording of the warrant, assessment and diagram, and recover the amount of any assessment remaining unpaid together with interest and any penalties allowed hereunder; *provided* that if any state, county or municipal taxes or other special assessment or assessments be delinquent on said property then such action may be brought at any time after ninety days after the recording of such assessment.

When suit has been brought in accordance with the provisions of this section, the plaintiff shall be entitled to have and recover fifteen dollars attorney fees on each assessment sued on, in addition to all taxable costs, notwithstanding that the suit may be settled or a tender may be made before a recovery in said action, and he may have judgment therefor, *provided*, that if the court finds an unnecessary number of actions have been brought, where the parties are identical, it may allow the costs of one action only, *and, provided further*, that such attorney's fee in any one action shall not exceed fifteen dollars where said action shall be settled before trial or where judgment shall be taken on default. Suit may be brought in the superior court within whose jurisdiction the city is, in which said work has been done, and in case any of the assessments are made against lots, portions of lots, or lands, the service of process may be had in said action, in such manner as is prescribed in the codes and laws of this state. It shall be competent to bring a single action under any such assessment irrespective of the number of lots assessed where the parties defendant are identical, and where separate actions are brought, the same may be consolidated by order of the court. The said warrant, assessment and diagram, with proof of nonpayment shall be held prima facie evidence of the regularity and correctness of the assessment and of the prior proceedings and acts of the superintendent of streets, and city council upon which said warrant, assessment and diagram are based, and like evidence of the right of the plaintiff to recover in the action. The plaintiff in such action may

recover the cost of any abstract or report of search of title procured in good faith in order to determine ownership, such search to be by a reputable abstractor or title company and such cost not to exceed five dollars per lot, and such abstract or report of search with affidavit of payment to be filed in the action.

In a complaint in any such action it shall be held sufficient to allege briefly that the city council ordered the work, the performance of the work under the contract, the making of the assessment, the issuing of said warrant and the making of said diagram; that an assessment (naming the amount) was levied against that certain lot or parcel of land (describing the same) which, according to the information and belief of the plaintiff, is owned by the defendant; that payment of said assessment has not been made.

In describing said lot or parcel of land in said complaint it shall be sufficient to refer to the same by its number upon said diagram, provided a certified copy of said warrant, assessment and diagram shall have been previously filed in the office of the recorder of the county or city and county in which the same is situated. It shall be the duty of such recorder to so file any such certified copy presented to him upon payment of the filing fee therefor, which fee is hereby fixed at fifty (50) cents.

If the contractor or his agent or any person acting in behalf of the contractor shall, prior to the filing of a complaint for the recovery of any assessment as herein provided or subsequent to the filing of suit and prior to the allowance of attorney fees and costs as herein provided, make any written demand upon or present any bill or notice in writing to such owner, demanding, requesting or notifying such owner to pay or that there is due attorney's fees or court costs in connection with the collection of such assessment, then, the superintendent of streets is authorized, upon written demand of such owner, accompanied by the affidavit of such owner, that such written demand, bill or notice for the payment of attorney's fees and costs, or either thereof, was made upon or presented to such owner prior to the commencement of suit, or subsequent to the filing of suit and prior to the allowance of attorney's fees and costs, together with such written demand, bill or notice to mark said assessment "paid" and such assessment shall thereby be deemed to be paid and the lien thereof released, *provided*, that this clause shall not be held to apply to the service of summons and complaint in a civil action.

Should suit be brought for the recovery of any assessment prior to the time permitted for bringing same as herein provided, then in such action, so brought the plaintiff shall not recover and defendant shall be entitled to have and recover such attorney's fees, as the court may deem reasonable in addition to all taxable costs and he may have judgment therefor.

Any portion of a county in this state, the exterior boundaries of which include a bay, harbor, or inlet of the Pacific ocean, may be formed into a harbor district for the improvement or development of such harbor, upon proceedings being had and taken as provided for in this act.

The words "harbor commission" shall mean any commission, board or officer in which the improvement, development, protection, maintenance, management or control of any harbor or part of any harbor in this state is by law, ordinance, or other legal authority vested or exercised.

SEC. 3. Whenever fifty or more persons in any county of this state, the exterior boundaries of which county include a harbor, desire the formation of a harbor district within the county for the improvement or development of such harbor, they may present to the board of supervisors of such county a petition in writing signed by them, which petition shall state the name of the proposed harbor district, the official name or name by which such harbor is commonly known, and whether the improvement, development, protection, maintenance, management or control of such harbor or any part thereof is vested in or exercised by a harbor commission, and set forth the exterior boundaries of the proposed harbor district, which may include incorporated territory only, or both incorporated and unincorporated territory, but shall include the whole or some part of the harbor proposed to be improved or developed, and shall generally describe the improvement and development work proposed to be done in such harbor which may include the dredging of channels, shipways, ship berths, anchorage places and turning basins, the construction of jetties, breakwaters, bulkheads, sea walls, wharfs, ferry slips and warehouses, and state the estimated cost of making such improvement or development, and of the expenses incidental thereto, and shall ask that the territory included within such boundaries be formed into a harbor district for the purpose of the improvement or development of said harbor.

SEC. 4. Each signer of the petition must be a registered voter, resident, and freeholder within the proposed harbor district.

SEC. 5. The petition must be published for at least two weeks preceding the hearing thereof in some newspaper of general circulation printed in the county, together with a notice signed by not exceeding three of the petitioners setting forth the day, hour and place when and where the petition will be presented to the board of supervisors of the county for hearing, and that all persons interested therein may at said time and place appear and be heard.

SEC. 6. At the time and place specified in the notice the board of supervisors shall consider the petition and may continue the hearing thereof from time to time not exceeding, however, a period of ninety days. At the hearing by the board of supervisors a certificate issued by the assessor of the county and filed in the proceedings, stating that the name of any signer or signers of the petition appear upon the last equalized assessment roll of the county for land assessed to any such signer or signers, and located within the boundaries of the proposed harbor district, shall be prima facie evidence that such signer is a freeholder within the harbor district, and a certificate signed by the county clerk that the name of any signer or signers of the petition is registered and uncancelled as an elector of the county, residing within the boundaries of the proposed harbor district, shall be prima facie evidence that such signer or signers are registered voters within the harbor district.

SEC. 7. The board of supervisors at the hearing shall have the right, power, and authority to change the exterior boundaries of the proposed harbor district, as set forth in the petition, by excluding therefrom such lands as in the judgment of the board of supervisors would not be benefited by the improvement or development of the harbor;

If the owner or owners of over ten per cent of the land to be included within the boundaries of the proposed district shall, at or before the time of such hearing, present to said board their written objections to having their said lands included therein, no further proceedings shall be had hereunder until the board of supervisors shall have amended the boundaries of the proposed district so that the lands described in said written objections shall be excluded from such district.

SEC. 9. SEC. 10 The board of supervisors shall thereupon make and cause to be entered in said minutes an order finally determining and establishing the exterior boundaries of the district, the improvement or development work to be done in such harbor, and the estimated cost thereof, and of the incidental expenses in connection therewith, and shall pass a resolution calling an election therein for the purpose of submitting to the qualified voters thereof the proposition of the formation of the harbor district and incurring a bonded debt and the issuance and sale of the bonds thereof to pay the cost of the improvement or development work in a sum not greater than the estimated cost thereof, and of the incidental expenses in connection therewith as found by the board of supervisors The board of supervisors shall by said resolution fix the date of the election which shall be not less than thirty days nor more than sixty days after the date of the passage of the resolution, and shall subdivide the district into one or more voting precincts and generally describe the boundaries of each voting precinct, and shall designate a place within such voting precinct at which the polls will be opened for the purpose of the election on the date of the election, and shall also appoint a board of election for each voting precinct, consisting of one inspector, one judge, and one clerk Every member of

Within sixty days after the said estimate and the said assessment list shall have been filed as above provided, the board of supervisors shall fix a time not less than twenty-two days and not more than forty days from the time of the meeting of said board of supervisors at which said date is fixed at which said board of supervisors acting as a board of equalization shall meet and hear any verified written objections, stating the grounds thereof, to the assessment as made, which objections shall, prior to the meeting, be filed with the clerk of said board of supervisors. The first publication of said notice shall be at least fifteen days prior to the date fixed for said hearing. The said board of supervisors shall meet at said time and place for said hearing and shall hear all objections which may be presented to it regarding the correctness of said assessment list, and shall hear all relevant testimony presented in support of or in opposition to said objections, and shall continue in session from day to day until all said objections and such evidence have been heard and acted upon. The order of the board of supervisors approving the assessment, the statement of the assessor showing the total valuation of the property assessed, the order fixing the rate of taxation thereon, and the estimate of the sum required by the board of directors of the district for the expense thereof during the two years next following shall be signed by the president and attested by the secretary of the district and shall be attached to the assessment-book on the last volume thereof, unless the lands of the district are contained in more than one county, in which case a copy thereof shall be signed and attached in a similar manner to each separate part of the assessment-book.

Within ten days after the hearing is completed, the assessor shall compute and charge in the assessment-book in a place provided therefor in the record of each parcel or tract of land assessed the amount of the tax due thereon and shall file each said separate part of the assessment-book with the county tax collector of the county in which the lands therein assessed are located and thereafter the charges therein taxed shall be due and payable to the county tax collector of the county in which the lands on which they are taxed are situated.

No action to determine the validity in any respect of any such assessment, or tax levied thereon, shall be maintained unless the same shall have been commenced within thirty days after the assessment-book, or each separate part thereof, is filed with said county tax collector as above provided, and no objection to the assessment shall be considered by said board of supervisors or allowed in any other action, or proceeding, unless such objection shall have been made in writing, verified and presented to the clerk of the board of supervisors in the manner herein required.

NOTICE OF RECONSIDERATION.

Mr. Hornblower gave notice that on the next legislative day he would move to reconsider the vote whereby Senate Bill No. 9 was this day passed.

EXPLANATION OF VOTE.

Mr. Speaker and Members of the Assembly.

In explanation of my opposition to this self-governing bar bill I desire to say:

On the wall before us is pictured the immortal Lincoln, who fought and struggled through adversity and poverty until he became a lawyer and finally one of the greatest Americans. I have in my mind some young men who are poor but with a purpose in life; they are also struggling, like Lincoln, to learn law; they work in the logging camps in summer and get odd jobs in winter while in school to help give them the necessities of life while they do their own cooking and other work as they attend Hastings School of Law.

It appears to me that this bill has a tendency to make it more difficult to attain their end. Does not this proposed law tend to make it harder for the poor struggling boy who may not be able to pay exorbitant fees and licenses and attain extraordinary educational standards before he can attempt law?

Do not the conditions at present give to this profession extraordinary advantages? Then why this non-American privilege of governing themselves without proper State regulation?

S. L. HEISINGER.

Assembly Concurrent Resolution No 19 ordered transmitted to the Senate.

ASSEMBLY CONCURRENT RESOLUTION No. 19

Providing for the creation of a joint committee of the Senate and Assembly to investigate traffic conditions in the State of California and the question of safety and prevention of accidents in relation thereto; to prepare and make recommendations concerning changes in existing laws, and the enactment and/or enforcement of laws relating to the use and operation of vehicles on the public highways, and to prepare and submit with supporting facts, ascertained, a report as to the advisability of the adoption of a law requiring financial security on the part of persons operating motor vehicles upon the highways of this State and making appropriation to meet the expenses of said committee necessarily incurred in said work.

WHEREAS, There has been a great increase in the number of motor vehicles used and operated upon the highways of the State of California resulting in an abnormal increase in the number of accidents resulting in injury to persons and property; and

WHEREAS, No adequate method seems to have been devised for the enforcement of the safety provisions of the existing laws relating to the use and operation of motor vehicles on the highway; and

WHEREAS, Any revision of the laws relating to such use and operation of such vehicles should involve consideration of the advisability of enacting a law requiring owners or operators of such vehicles to give financial security for the satisfaction of judgments arising out of the use and operation of such vehicles. Now, therefore, be it

Resolved by the Assembly of the State of California, the Senate concurring, That there is hereby created a joint committee of the Assembly and Senate to consist of three members of the Assembly to be appointed by the Speaker of the Assembly, one of whom shall be the Speaker of the Assembly, and three members of the Senate to be appointed by the President of the Senate, one of whom may be the President of the Senate.

It will be the duty of said committee to investigate the adequacy of the facilities for the enforcement of existing laws relating to the use and operation of vehicles on the highways of this State, and the advisability of establishing some system of enforcement of all laws relating to the safe operation of such vehicles, and to make recommendations concerning the advisability of amendments to existing laws, if in the discretion of the committee deemed necessary, and, if the committee reports in favor of the adoption of any specific law, it should include in its report or plan recommended the measures which in its judgment should be enacted.

It shall also be the duty of said committee to study the advisability of requiring owners or operators of motor vehicles on the public highways to give some form of security for the payment of judgments, for which said owner or operator may be liable, arising out of the use and operation of such vehicles on the public highways. In making this study the said committee shall carefully consider the laws and systems enacted in other states and countries, and the effect that any such systems would have in the State of California on account of the unusual conditions arising in this State due to many thousands of visitors coming into this State every year by means of motor vehicle transportation. Said committee is to make its report to the Legislature at its next session, and for the purpose of studying the questions involved and the preparation of its report, it shall be given the assistance of the Chief of the Division of Motor Vehicles and shall have the right to call for any statistics or available data of said division.

The members of said committee shall receive no compensation for such services other than their official salaries, but shall be reimbursed for their actual expenses necessarily incurred hereunder not exceeding the amount hereinafter specified. Such committee is hereby authorized to employ competent clerical or other help to assist in the preparation and compiling of all data ascertained, including the making of the final report. The said committee may also employ an executive secretary, whose duties shall be to work under the direction and control of said committee, and to that end the said committee may send said executive secretary to any state of the union to make a first-hand investigation of conditions there. The said committee shall be provided with quarters in the State Building at San Francisco, if such quarters are available, but if said quarters are not available, said committee may procure quarters in the city of San Francisco for its headquarters.

The expense of such clerical and other help and of the executive secretary and of such quarters, and for other necessary expenses of the committee, shall be passed upon and fixed by the committee subject, however, that the total of said expenses and costs shall not exceed the amount hereinafter specified.

The expenses thus incurred by said committee under the authority hereof shall be payable out of the moneys heretofore or hereafter appropriated for the contingent expenses for the Senate and Assembly at this session of the Legislature, payable one-half from the contingent fund of the Senate and one-half from the contingent fund of the Assembly, but not exceeding the sum of seven thousand five hundred dollars in all, which sum, or so much thereof as may be necessary, so composed, is hereby set apart, reserved and appropriated out of said respective contingent funds for the purposes aforesaid to be disbursed from time to time by Controller's warrants to be drawn against said contingent funds upon the written orders of the chairman of said joint committee. And be it further

Resolved, That the said committee be instructed to have prepared its report not later than the first day of December, A. D. 1928, and that a copy of said report be not later than said date transmitted to the Governor of the State in order that he may make such comment thereon as he may deem appropriate to the Legislature at its next ensuing session.

By Mr. Speaker:

SAN FRANCISCO, March 16, 1927.

Hon. Edgar C. Levey,
Speaker of the Assembly,
Capitol Building, Sacramento, California

MY DEAR REPRESENTATIVE LEVEY: We realize that in your position as Speaker of the Assembly you are appealed to from all sources for assistance in connection with legislation coming before the Legislature, and will make our appeal to you as short as possible, but hope that it will be sufficient to have you feel that you should be justified in supporting the measure which we will refer to.

Senate Bill No. 670, introduced by Senator Hurley, and referred to the Committee of Education, deals with the creation of adjustment schools for the care of minors

The Associated Boys' Council of San Francisco is an organization which is interested in, and sponsoring all types of boys' activities, and is composed of representatives from the various men's service clubs, many commercial organizations, city officials, and a large number of prominent individual citizens. They have given much study to the matter covered in Senate Bill No. 670 and hope that this legislation will be enacted.

Knowing from the study of the juvenile and his needs, to make him a worthy citizen, who will be able to face the world and make his own way with credit to himself and the community in which he lives, we believe that the State of California could not make a greater contribution along this line, than to have a legislation of this kind in force and effect

Volumes could be written giving valuable information and facts as to why such legislation as this should be passed, but we feel that one of our citizens who has reached the high position you have in our legislative body, does not need this organization to go into detail in order to secure your cooperation for the passage of this bill.

The Associated Boys' Council of San Francisco has unanimously indorsed the object for which this bill was drafted, and we assure you that if we can receive your support and assistance in this matter, it will be greatly appreciated by our organization.

Thanking you in advance for any assistance which you feel you will be able to render with regard to this matter, and with kindest regards and best wishes, we r main,

Sincerely yours,

J. HARRY RUSSELL,
President, Associated Boys' Council.

WILLIAM UNMACK, Secretary

That it shall be unlawful to permit disrespect to be shown in all cases hereinafter to the flag of the United States To display the flag with the union down except as a signal of distress, to place any other flag or pennant above, or on the same level to the right of, to place any object or emblem on or above, to use as drapery in any form; to fasten in such manner as will permit it to be torn, to drape over hood, top, sides or back of a vehicle, railway train or boat, providing that a staff shall always be used; to display on a float or in parade except from a staff; to use as a covering for a ceiling, to carry flat or horizontally, but always aloft and free, as a portion of a costume or an athletic uniform, or embroidered upon cushions, handkerchiefs, etc., nor printed upon paper napkins, boxes, etc.; to use, display or store in such manner as will permit it to be easily soiled or damaged; or to be flown in a battered, torn or bedraggled condition

COMMUNICATION.

The following communication was read, and ordered printed in the Journal:

By Mr. Speaker:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, March 18, 1927.

Honorable Edgar C. Levey,
Speaker of the Assembly,
Building

DEAR SPEAKER LEVEY: Bills are now beginning to come in at such a rate that I should like to make a suggestion as to information concerning them which will be of value to this office. In the first place, I want to congratulate you and the members of the Assembly on the excellent progress you are all making in your work, on the spirit of earnestness which prevails, and on the record of business-like efficiency you are setting for this session of the Legislature. I particularly want to commend the general agreement you seem to have reached that only bills of real importance shall receive final enactment.

Although I propose to review each bill very carefully, I need not say that I shall welcome all the light upon each measure which your members can give me. I should prefer that this be not done orally, partly for lack of time, but more especially because one matter inevitably so crowds out another that what I am told about any particular measure may largely be erased by subsequent information concerning others. Accordingly, I should appreciate a written statement on the bills from all members of the Assembly who care to give them. I would, if I may, make the following definite suggestions:

(1) An explanation of each bill should in all cases come from its author. This may be supplemented when desired by statements from others not in the Legislature, who are particularly interested in the bill.

(2) I should appreciate from committee chairmen and committee members statements regarding bills which have gone through their committees, and which have attracted their attention as being particularly desirable, or particularly undesirable.

(3) Finally, I should appreciate hearing from members regarding any bills in which they have become especially interested, either for or against.

I wish to make it clear that I am merely seeking information respecting these measures—what lies behind each which makes it worthy to become a law, what is to be accomplished for the good of the State, and how. Although we want to pass every necessary piece of legislation, I am sure we all want to reduce to a minimum all proposed legislation which is unnecessary.

I would suggest that those members who care to submit the written recommendations I have suggested, do so as fast as the bills pass the Assembly, and while they are fresh in mind. Each communication will be filed away, for careful consideration, provided the bill finally passes the other house.

Please understand that in all the above, I am not trying to impose any burden upon any member which he may not care to assume. I am simply suggesting a method of procedure for those who wish to consult with me concerning bills.

Yours very sincerely,

C. C. YOUNG, Governor.

The board of trustees shall prepare and certify an assessment list for said assessment in the form prescribed by section 3461 of this code The amount of said assessment shall not exceed ten per cent of the principal of the refunding bonds to be sold, plus the amount (if any) to be raised by such assessment to pay interest on said refunding bonds to the date of maturity of the bonds to be refunded as aforesaid The amount of said assessment shall be spread only upon the tracts of land in the district upon which an assessment is then outstanding for payment of the bonds to be refunded and shall be spread on said tracts in proportion to the amounts then assessed against said tracts under said outstanding assessment

Said list when completed shall be filed with the clerk of the board of supervisors of the county. The board of supervisors shall appoint a time when it shall meet for the purpose of hearing objections to said assessment and notice of such hearing shall be given by publication for two weeks in some newspaper of general circulation published in said county At any time before the date of such hearing any person interested may file written objections to such assessment stating the ground of such objections, which statement shall be verified by affidavit of such person or some other person who is familiar with the facts At said hearing the board of supervisors may correct any errors appearing in said assessment and shall then make an order approving said assessment and shall endorse such order upon said assessment list, which said endorsement shall be signed by the chairman of the board of supervisors and attested by the clerk thereof Such decision of said board of supervisors except as hereinafter provided, shall be final and thereafter said assessment list shall be conclusive evidence that the said assessment has been made and levied according to law The list shall then be filed with the county treasurer, or if the district is situated in more than one county then the original list must be filed in the county where the greater portion of the lands of said district is situated and copies thereof certified by the treasurer must be filed with the treasurer of each of the other counties. No objection to such assessment shall be considered by the board of supervisors or allowed in any other action or proceeding unless such objection shall be made in writing to the board of supervisors as above specified

Any person aggrieved by the decision of the board of supervisors may commence an action in the superior court of the county in which the greater part of such district is situated to have said assessment corrected, modified or annulled Such action must be commenced within five (5) days after said assessment list has been filed in the office of the county treasurer If said action shall not be commenced within five (5) days, no action or defense shall thereafter be maintained attacking the legality of said assessment in any respect

After said approved assessment list has been so filed the charges therein specified shall be a lien upon the parcels of land so assessed and shall impart notice thereof to all persons. Said assessment shall be called for immediate payment and shall become delinquent by declaration made in said resolution at a specified date at least five days prior to the date fixed for the sale of said refunding bonds; and at least thirty days time to pay said assessment shall be given to the land owners between the date of call and the date of delinquency Said assessment shall not bear interest and shall be payable only in gold coin of the United States. Notice of said assessment and of said call thereon must be personally served upon each owner of land in said district or in lieu of personal service must be sent through the mail addressed to said owner at his place of residence if known, or entered upon the assessment roll of the county and it not known, at the place where the principal office of the district is situated or be published once a week for two weeks successively in some newspaper of general circulation and devoted to the publication of general news within the district and if no such newspaper be published within the district then publication may be made in some newspaper published in the county seat of the county where the greater portion of said district is situated. Upon delinquency a penalty of ten per cent shall be added If the land owners in any district shall voluntarily pay to the treasurer of the county, on the call of the board of trustees without the levy of such assessment, the amount required by the board of trustees for the aforesaid purposes as prorated on the lands in the district as herein provided then no such assessment shall be levied.

If a sale of said refunding bonds is consummated by payment of the purchase price thereof and the delivery of the bonds then the board of trustees of the district shall proceed to enforce payment of any delinquencies in the said assessment in the manner set forth in section 3466 of this code, and the provisions of said section 3466 shall apply to all subsequent proceedings in enforcing collection of said assessment. For the sale of said bonds the said treasurer shall give notice by publication at least once a week for at least two weeks in a newspaper of general circulation published

in the main county, that he will sell a specified amount of said refunding bonds, and stating the day, hour and place of said sale, and asking for sealed proposals for the purchase of said refunding bonds, or any part thereof. At the time appointed for said sale, which shall be in any event at least ninety-five days prior to the date of maturity of the principal of said outstanding bonds to be so refunded by the sale of said refunding bonds, the county treasurer shall open the bids and award the said refunding bonds, or any designated number thereof, to the highest responsible bidder, but at a price in no event less than ninety per cent of the full face value of said refunding bonds. The county treasurer may, and upon written request of a majority of the trustees, must, reject any and all bids. Any sale by the county treasurer shall be conclusive evidence in favor of the purchaser and all subsequent holders of said refunding bonds that such sale was made upon due authority and notice. A proper record of such transaction shall be made upon the books of the county treasurer and the proceeds of the sale of the said refunding bonds shall be placed in the county treasury to the credit of the bond fund of the district, and the said proceeds shall be used and applied only in payment, in whole or in part, of the principal of the outstanding bonds to be refunded by the said refunding bonds so sold.

All refunding bonds not so sold and issued at least ninety-five days prior to the day on which the outstanding bonds to be refunded thereby shall mature, shall be forthwith canceled by the said county treasurer and shall never be an obligation of the district.

The principal and interest of refunding bonds shall be based on and payable out of the assessment or assessments upon which the bonds so refunded were payable, in accordance with the provisions of section 3480 of this code.

The purchaser of any refunding bonds may use in payment at their par value with accrued interest any bonds of the maturities and series which will be paid by the proceeds of the sale.

If the amount for which any portion of said refunding bonds shall be sold exclusive of accrued interest shall be less than the face value thereof then to the extent necessary for the purpose the county treasurer shall use the proceeds of said assessment together with the proceeds from the sale of said refunding bonds to meet the principal of said bonds so next maturing. Interest on said refunding bonds from date of sale to the first interest payment date shall be paid from the proceeds of said assessment. Thereafter any surplus of said assessment shall be returned by the county treasurer pro rata to those who paid it.

If within one year after any issue of bonds is deposited with the county treasurer, none of such bonds shall have been sold, the board of trustees, in their discretion, may by an order entered in their minutes cancel all proceedings taken in connection with such bond issue. A certified copy of such order shall be filed with the county treasurer of each county wherein lands affected by the assessment on which said bonds were based are situated. The county treasurer with whom said bonds have been deposited, shall thereupon cancel said bonds together with all coupons attached thereto. Such cancellation shall not affect the validity of the assessment upon which said bonds were issued, and the board of trustees may call for the payment of such assessment, or any part thereof, in such installments from time to time as they shall determine and as provided in section 3466 of this code, or, in their discretion, and either before or after any installment of said assessment shall have been paid, they may cause bonds to be authorized and issued upon the unpaid portion of such assessment after proceedings therefor shall have been taken in the manner hereinabove in this section provided.

AMENDMENT NUMBER EIGHT.

At the end of the printed bill, add a new section as follows:

SEC. 8. Section 3466 of the Political Code is hereby amended to read as follows:

At the end of thirty days unless bonds shall have been authorized the treasurer must return the list to the board of trustees of the district, and all unpaid assessments shall thereafter bear interest at the rate of seven per cent per annum. Thereafter all unpaid assessments and accrued interest shall be collected by and paid to the county treasurer, or the board of trustees may designate an agent to effect such collection who shall deposit said moneys with the county treasurer to the credit of

the district. Whenever the board of trustees shall appoint an agent to collect assessments, they shall require that such agent give a bond in such an amount as they may consider sufficient for the faithful performance of his duties. All such payments shall be made in separate installments, of such amounts, and at such times, respectively, as the said board, from time to time, in its discretion by order entered in its minutes may direct. Upon making such order the secretary shall also enter in the minutes of the board a notice in substantially the following form:

(Name of reclamation district, location or principal place of business.) Notice is hereby given that at a meeting of the board of trustees held on the (date), an installment of (amount) was ordered paid within sixty days from date thereof to _____ at _____. Any installment which shall remain unpaid on the (day fixed) will be delinquent together with the accrued interest thereon.

The notice must be personally served upon each owner of land in said district, or in lieu of personal service, must be sent through the mail addressed to such owner at his place of residence, if known or entered upon the assessment roll of the county, and if not known, at the place where the principal office of the district is situated, or be published once a week for two weeks successively in some newspaper of general circulation and devoted to the publication of general news, within the district, and if no such newspaper be published within the district then publication may be made in some newspaper published in the county seat of the county where the greater portion of said district is situated.

If any such installment shall remain unpaid at the expiration of said sixty days from the date of the order, then the whole remaining uncalled portion of said assessment shall become delinquent together with the accrued interest thereon and a penalty of ten per cent of the amount of said installment and interest shall be added thereto and collected for the use of the district.

Immediately after the said installment has become delinquent, the trustees of the district must publish in one notice a list of all of said delinquencies at least once a week for two weeks in some newspaper of general circulation published in the county where said district or the greater part thereof is situated, which notice shall contain a description of the property assessed, the name of the person to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact; the amount then due on said property, and a notice that the property assessed will be sold on the date therein stated, in front of the court house of said county to pay the amount then due on said property. The date of said sale shall be not less than ten days after the date of the last publication of said notice. And at said time stated in said notice, or such other time to which said sale may have been postponed, the trustees must sell said property to the highest bidder for gold coin of the United States. Out of the proceeds of said sale the trustees must pay the amount due on said property as shown in said notice to the county treasurer who shall place the same in the proper funds of said district. The trustees must pay to the owner of said property any surplus remaining after such payment to the county treasurer. The trustees may postpone said sale from time to time for not less than ten nor more than thirty days at any one time by a written notice posted at the place of sale.

If no bid is made for said property equal to the amount due thereon, the district shall become the purchaser, and the said property must be struck off to the district for said amount. A certificate of such sale shall be executed by the trustees to the purchaser, or to the district, if the property shall have been struck off to the district, and said certificate of sale shall be recorded in the office of the county recorder of said county. Any person interested in said property may redeem the same at any time within one year after the date of said sale, by paying to the county treasurer the amount for which said property was sold, and interest on the said sums at the rate of two per cent per month from the date of said sale. If no redemption shall be made within said one year the purchaser, or the district, if said property shall have been sold to the district, shall be entitled to a deed executed by said trustees and the effect of such deed shall be to convey said property free of all liens and incumbrances excepting state, county and municipal taxes and any prior or subsequent district assessment and any taxes or assessments of irrigation, conservation or water storage districts. WHEREAS, The present representation in the House of Representatives is based upon the census of 1910, an injustice is imposed upon many states where population has materially increased, and

PRESENTATION OF PETITIONS.

The following petitions were received, and ordered printed in the Journal:

By Mr. Speaker:

Resolutions adopted by the County Supervisors' Association of California in Seventeenth Annual Convention at Sacramento, March 9, 10, 11, 1927.

Resolution No. 1—By Supervisor C. H. Hayden, Contra Costa County:

Whereas, The problem of controlling crime and of efficiently enforcing our laws against crime is one of the most vital confronting our State and our Nation, and

Whereas, The California Commission for the Reform of Criminal Procedure has proposed to the Legislature a revised system of criminal procedure designed to secure the swift and certain enforcement of the criminal law, and

Whereas, The best interests of this State and the safety of its people imperatively demand that these recommendations be made into law;

Now, Therefore, Be It Resolved, By the County Supervisors' Association of the State of California that we request and urge the members of the Legislature to work and vote for the adoption of these measures; and

Be It Further Resolved, That the officers of this Association immediately transmit a copy of this resolution to the Governor of California, to the Lieutenant Governor of California and to each member of the Legislature of this State.

Resolution No. 6B—By Supervisor W. J. Forbes, Yuba County:

Whereas, A. B. 111 prevents supervisors being reimbursed for their actual and necessary traveling expense in attending annual conventions,

Therefore, Be It Resolved, That the County Supervisors' Association of California do oppose the enactment of this bill.

Resolution No. 7—By Supervisor W. J. Forbes, Yuba County:

Whereas, A. B. 563, S. B. 349, and S. B. 347 provide that road expenditures shall be transferred from the control of the supervisors;

Therefore, Be It Resolved, That the County Supervisors' Association of California oppose the enactment of these bills or any other of simular intent.

Resolution No. 9—By Supervisor Robt. Lochead, Fresno County:

Whereas, Section 274, Code of Civil Procedure, provides for the expenditure of county funds for reporting and transcribing, and

Whereas, Section 869 of the Penal Code provides the method of payment for such reporting and transcribing; and

Whereas, This procedure has cost the tax-payers of the County of Fresno approximately $12,000 00 through raised and false claims being presented; and,

Whereas, In order to place responsibilty and throw the proper safeguards around county funds, Section 274 of the Code of Civil Procedure should be amended; now, therefore,

Be It Resolved, That the State Association of Supervisors in convention herein assembled, endorse with its approval the amending of Section 274, Code of Civil Procedure; and,

Be It Further Resolved, That the attached amendment be referred to the Legislative Committee of this convention with power to have it presented at this session of the Legislature.

Resolution No. 10—By Supervisor Charles F. Todd, San Francisco County:

Whereas, An organization known as the Municipal Traffic League of California, was effective during the past year, composed of representatives of boards of supervisors, city officials and traffic officers, for the purpose of preparing a uniform traffic ordinance to be adopted by the various cities and counties, and

Whereas, It is highly desirable that ordinances regulating the movement of vehicles on public streets and highways should reduce to a minimum the inconvenience which now exists by reason of conflicting provisions in various political subdivisions, and

Whereas, Such an ordinance has been prepared which has been favorably recommended by the League of California Municipalities and various traffic and safety organizations; therefore, be it

Resolved, That this organization expresses its approval of such uniform traffic ordinance and urges its adoption by the various counties of the State, with such modifications thereof as may be necessary to meet local conditions.

Resolution No. 11—By Supervisor Warren Shannon of San Francisco County:

Whereas, A number of measures are now pending before the California Legislature looking to the amendment of the sections of the Political Code covering the granting by boards of supervisors of permits to construct bridges, and

Whereas, The evident intention of these bills is to remove the discretion now and for many years centered in the supervisors of the various counties, and either take this authority from them entirely and place it in other hands or else compel the boards to grant bridge permits to all applicants whether or not considered by the supervisors as necessary or beneficial or opposed to public interests, and

Whereas, The removal of the control that the supervisors now have over the construction is urged by promoters of private enterprises and necessarily will be *antagonistic to the best interests of the people.*

Therefore, Be It Resolved, By this State Convention of County Supervisors assembled at Sacramento this eleventh day of March, 1927, that it is unanimously opposed to any and all such legislation and we hereby request our representatives in the Legislature to oppose said proposed changes in our laws.

Be It Further Resolved, That it is inadvisable to change statutes that have been in existence for a score or more of years and which have been construed by the courts and adopt new experiments which undoubtedly will be the subject of litigation for years to come, thus hampering construction;

Be It Further Resolved, That a Committee be appointed consisting of seven members of this convention and that it be and hereby is requested and instructed to appear before such legislative committee as may have any of these bills under consideration and there make known our opposition to any such changes

Be It Further Resolved, That this convention advise all supervisors of its action hereon and request them to confer personally with the State Senator and State Assemblyman representing their counties at Sacramento and make known to them their opposition to this or any kindred measures which will deprive the public of the protection which the supervisors now give by exercising their discretion in the granting of bridge permits.

Resolution No. 12—By Supervisor Thomas McCormack, Solano County:

Whereas, The proper development of California depends in no small degree upon the earliest possible completion of the State highway system, and

Whereas, It has been estimated by the State Highway Commission and other reliable agencies that the sum of ten million dollars ($10,000,000) per year could be spent economically in accomplishing this result, and

Whereas, The expenditure of that sum of money per year for a period of twelve years will complete the State highway system in so far as present traffic and that *which can be anticipated in that period of time is concerned, and*

Whereas, It is only fair and proper that assurances should be given to all sections of the State that there be a proper allocation of all moneys expended by the Highway Commission for new construction, maintenance or reconstruction, and

Whereas, This association did at the last annual convention in San Diego endorse a one cent additional gasoline tax as a proper means to provide money to complete the State highway system, and

Whereas, All of the above named principles are embodied in the two companion highway measures now before the State Senate, to wit Senate Bills Nos. 3 and 518,

Therefore, Be It Resolved, By the County Supervisors Association of the State of California in a Convention assembled in Sacramento, California, March 9, 1927, that we do endorse Senate Bills Nos. 3 and 518

Be It Further Resolved, That the Legislative Committee of this Association be and is hereby instructed to do all within their power to assist in the passage of the above named legislation, and

Be It Further Resolved, That the Secretary be and is hereby instructed to send a copy of this resolution to the Governor of the State of California and to each member of the Senate and Assembly of the Legislature now in session

Resolution No 13—By Supervisor F. W Sidener

Whereas, There is certain legislation pending whereby the activities of the Biological Survey in the destruction of predatory animals would be curtailed; therefore, be it

Resolved, That this Association is opposed to such legislation as provided in Assembly Bill No. 754.

Resolution No 14—By Supervisor Chas H J. Hausch, Tulare County.

Resolved, That the Supervisors' Association of the State of California endorse Assembly Bill No. 746 which permits County Recorders to record instruments by the photostatic process if they so desire.

Be It Further Resolved, That the Secretary of this Association be instructed to furnish copies of this resolution to each member of the State Legislature.

Resolution No 15—By Supervisor Walter J. Schmidt, of San Francisco:

Whereas, In the past, various public service corporations serving the people of the City and County of San Francisco and other communities within the State of California have been dissatisfied with the rates fixed by the Railroad Commission and other rate-fixing bodies relative to the price which said public service corporations should receive for the commodity which it was furnishing or the service which it was rendering to the people of the State of California, and have made application to the courts, both State and Federal, to enjoin the collection of said rates so fixed upon the ground that the same were confiscatory and

Whereas In many cases said rate-fixing bodies have been restrained from collecting the rate fixed by them for the commodities furnished or services rendered by said public service corporations, and said public service corporations have, while said restraining order has remained in force, collected a higher and greater rate than that fixed by said rate-fixing body for said commodity or for said service, and

Whereas, Said public service corporations, while said restraining orders are in effect, collect a large amount of money over and above the rates fixed by said rate-making body for the commodity furnished or service rendered by said public service corporations and

Whereas, When said litigation relative to said rates has been concluded, and if the courts do not fully sustain the contention of said public service corporations relative to the merits of said litigation, a large amount of the moneys collected over and above the rate fixed by said rate-making body are never returned to the rate-payers, for the reason that either said rate-payers make no application for said refund, or their whereabouts can not be ascertained, which said sums that are uncalled for by said rate-payers are retained by said public service corporations, and that by reason of this practice, said public service corporations have been obtaining a large amount of money to which they are not entitled now, therefore, be it

Resolved, That it is the sense of the California Supervisors' Association that *suitable legislation should be adopted by the Legislature of the State of California* which would provide that every public service corporation collecting any rates over and above the rates allowed and fixed by the Railroad Commission of the State of California, or other rate-fixing body, should each year make a report of the amount of said excess rates so collected, together with the amount of said excess rates made to the payers thereof, which said report should be filed with the State Board of Control of the State of California, and that said legislation should further provide that any and all amounts of said excess rates not refunded to the rate-payers within a period of five years after the conclusion of the litigation affecting the same should *escheat to the State of California*; and be it further

Resolved, That the Legislative Committee of the California Supervisors' Association be, and they are hereby, directed to urge the adoption by the Legislature of the State of California of the bill about to be introduced which will carry out the purposes of this resolution.

Resolution No. 16—By Supervisor J. B McFarland, Kern County

Whereas, With the rapid growth and development of motor vehicle transportation, both of passengers for hire or compensation, and of various commodities, due in no small part to our splendidly developed highway system, it has become essential that the use of the streets and roads within our State be taxed upon an equitable basis for the protection of the public investment in such highways, and for the proper regulation of the use thereof, as well as for the provision of additional funds to be employed for highway purposes, and

Whereas, Existing legislation on this subject has been found inadequate to meet the needs arising out of the development of our highway systems and out of the greatly increased use thereof, so that it has become apparent that there is need for measures designed to relieve, as immediately as practical, the situation so arising and

Whereas, Honorable James I. Wagy, *member of the Senate of California for the* Thirty-second Senatorial District, has introduced at the Forty-seventh session of the Legislature of this State, a bill known as Senate Bill No. 709, providing for a revision of the weight fees to be paid by certain types of motor vehicles; and

Whereas, Said bill was first presented in skeleton form as to the amount of said fees, but amendments thereto are proposed by Senator Wagy which will result in the revision of Section 77 of California Vehicle Act as follows

"Sec 77 Registration fees (a) A registration fee of three dollars shall be paid to the division for the registration of every motor vehicle, trailer or semitrailer except for those which are exempted in this act, and such fee shall be paid at the time application is made for registration.

For each such vehicle weighing, when unladen, 3,000 pounds or more, but less than 6,000 pounds_____$15 00

For each such vehicle weighing, when unladen, 6,000 pounds or more, but less than 10,000 pounds and limited under the provisions of this act to a total weight, including vehicle and load, not exceeding 22,000 pounds_____ 40 00

For each such vehicle weighing, when unladen, 10,000 pounds or more and limited under the provisions of this act to a total weight, including vehicle and load, not exceeding 22,000 pounds_____ 50 00

For each such vehicle weighing, when unladen, 6,000 pounds or more and entitled under the provisions of this act to a total weight, including vehicle and load, in excess of 22,000 pounds_____ 70.00

When such vehicles are not equipped wholly with pneumatic tires there shall be paid in addition to the fees specified in subdivision (a) of this section fees according to the weight thereof unladen amounting to twice the fees set forth in the foregoing table

Upon registration issued after the beginning of the registration year, the fees required under subdivisions (b) and (c) of this section shall be reduced by one-fourth for each three months which shall have elapsed since the beginning of the registration year

(d) If the license tax provided for by that certain act entitled 'An act to regulate and license the business of producing, refining or distributing gasoline, distillate and other motor vehicle fuels, provided for the collection and disposition of license taxes, prescribing penalties for violation of the provisions of said act, and repealing all acts and parts of acts inconsistent herewith,' heretofore adopted by the Legislature at its forty-fifth session is held by the Supreme Court of the State of California, or by the Supreme Court of the United States, to be unconstitutional, then beginning with the first year next succeeding the date upon which such decision becomes final there shall be paid upon and for the registration and reregistration of every motor vehicle with the division of motor vehicles, in addition to any other fees imposed by law, a registration fee of five dollars for every electric motor vehicle and for every other motor vehicle a fee amounting to the sum of forty cents for each horsepower or major fraction thereof of such motor vehicle and a proportionate amount thereof for the registration of such vehicle for a period of less than one year. The horsepower of any motor vehicle, except electric or steam driven motor vehicles, shall be determined by the formula commonly known as that of the Association of Licensed Automobile Manufacturers (A. L. A. M.), being as follows Square the diameter of the cylinder in inches, multiply by the number of cylinders, and divide by two and five-tenths, *provided*, that for the purposes hereof the horsepower of any steam driven motor vehicle shall be the horsepower rating fixed and advertised by the manufacturers thereof In the event that the registration fees for electric motor vehicles and fees based on horsepower as hereinabove specified shall be collected, all such fees shall be paid into the motor vehicle fund of the State of California, and shall be distributed and used for such purposes as may be provided by law for the distribution and use of such motor vehicle fund, *and provided, further*, that in the event the provisions of this section, relative to registration fees, based upon horsepower rating shall become effective the provisions of this section contained in subdivisions (a) and (b) shall be deemed to be superseded."

And Whereas, Such an amendment of section 77 of the California Vehicle Act will correct certain manifest inequities now existing under the provisions thereof, to wit

A weight fee on vehicles weighing, when unladen, less than 3,000 pounds, resulting in an unjust burden upon the farmer and others using light motor vehicles with "box-backs" or similar receptacles designed for carriage of comparatively small amounts of property and also resulting in an unjust burden on others with light types of motor vehicles used principally in light commercial deliveries and similar pursuits, and

Whereas, The amendment proposed by said bill will result in a reasonable and equitable fee to be charged the operators of the larger types of freight carrying and commercial vehicles for their use of our highway system, and

Whereas, Experience has demonstrated that taxation based upon gross receipts on account of such use of the highways by said operators has proven impractical, except with regard to a restricted class of common carrier operators now taxed by virtue of that certain constitutional amendment adopted as Proposition No. 2 at the general election on November 2, 1926, and

Whereas, Senator Wagy proposes to substitute the revised weight fees contained in his Senate Bill No 709 for such gross receipts tax, save as to the common carriers as above indicated, and

Whereas, It appears that the best interests of the State of California and of the several counties thereof will be materially advanced, if the provisions of this bill shall become law, now therefore, be it

Resolved, By the California Supervisors' Association in convention assembled that it unqualifiedly endorses Senate Bill No. 709, as amended, and urges its passage by the Legislature and ratification by the Governor to the end that the abuses prevalent under the present law may be corrected, and that our splendid highway system may be properly conserved and improved.

Resolution No 17—By Supervisor Thos L Hickey, San Mateo County:

Whereas, The laws of California now provide that escaped property may be assessed for the last preceding year only with the exception of property within an irrigation district, in which case, without limit as to time, property may be assessed for any year in which it escaped irrigation tax; and

Whereas, It is the duty of every property owner to declare his property and see that it is properly assessed, and

Whereas, Taxation can not be equal unless it is borne by all assessable land; and

Whereas, In many other states the assessors are authorized to assess property for any escaped year, whenever found, and

Whereas, Senate Bill No 288, now before the State Legislature, would so amend Section 3649 of the Political Code that property which has escaped taxation may be assessed for five years back, provided there has been no change of ownership; now therefore,

Be It Resolved, That we, the County Supervisors' Association of the State of California, do heartily approve of the purpose of said Senate Bill No. 288.

I hereby certify that the foregoing Resolutions were adopted by the Seventeenth Annual Convention of the County Supervisors' Association of California, held in Sacramento, March 9, 10, 11, 1927

(Signed) STANLEY ABEL,
Secretary County Supervisors' Association
of the State of California.

MESSAGE OF GOVERNOR C. C. YOUNG RELATING TO AMENDMENTS TO BUDGET.

To the Members of the Senate and Assembly.

In accordance with the provisions of section 34, article IV, of the State constitution, I have the honor at this time to propose to you certain amendments to the budget and budget bill as originally presented to you on January 19, 1927.

The changes proposed are almost entirely of a minor nature, representing slight additions to the provisions for departments where new conditions seem to have arisen

A list of the specific changes is presented below. In most instances the changes are self explanatory, but certain other items probably deserve comment.

On page 128 of the printed budget appears the provision of $500,000 per year for flood control work on the Sacramento, San Joaquin and Feather Rivers in cooperation with the federal government, and a similar item of $419,000 for development of the Stockton deep water channel. Subsequent conferences with the representatives of the federal government indicate the necessity of a revision of the language for allotment of these items to particular projects, which, however, does not result in any increase of the amount

At the time the budget was prepared no recommendation was made for additional buildings at San Jose State Teachers College, because of uncertainty as to what policy would be recommended by the Department of Education and the State Board of Control for the future development of the institution It was hoped that before this time it would be possible to recommend to you a definite program for the acquisition of additional buildings. This has proven impossible, and an amendment is now proposed providing $100,000 for the construction of a training school building. This is to replace an old and very unsatisfactory structure which has been repeatedly condemned by the San Jose City Fire Department.

At Stockton State Hospital we are convinced that the construction program outlined in the budget should be modified by the elimination of a proposed cottage for employees and the substitution of a third cottage for patients, in addition to two cottages previously recommended. This alteration represents a deduction of $54,000 and an addition of $77,000, a net increase of $23,000.

An increase is recommended in the provision for the office of the State Controller. This is in contemplation of changes in the organization of auditing claims, and is more than offset by a reduction in the appropriation of the State Department of Finance.

It has been customary in the past to appropriate from the general fund for the statutory salary of the Highway Engineer and three members of the California Highway Commission. It is recommended that payment hereafter be made from special funds available by law for this purpose and already included in the budget. For this reason the item of $41,600 is eliminated.

A brief explanation is attached to each item of proposed change in the list below These explanations will make clear the policy which has been followed in the suggested budget revisions. Many conferences have been held with the members of the Legislature, as well as with representatives of various communities and industries A sincere effort has been made to incorporate in the budget by amendment every justifiable appropriation for the existing functions of the State

It is possible that you will approve certain additional appropriations for functions or developments not authorized by existing law. I cite two instances of such purposes. A proposal is now before the voters of San Diego whereby the San Diego High School District may purchase the property of the State Teachers College in accordance with an act of the Legislature of 1925. If this purchase is approved a new site will be provided without cost to the State, in which case it may be desired to recommend an appropriation toward the construction of the buildings on the new site, in addition to the proceeds which may be derived from the sale of the old property. A second instance is that of the support of prison road camps for which, after other provision has been made for completion of the existing highway system, a special appropriation probably will be recommended as suggested in my message of January 19, 1927.

Aside from instances of this nature it is my belief that all proposed expenditures of the State provided by existing law have been recommended by me in the original budget or in the amendments hereto submitted, and that few if any further appropriations can be justified.

I submit herewith a detailed list of the amendments at this time recommended to you I have not included in this tabulation the amendments which modify the language of the budget bill without changing the amounts appropriated. The proposed amendments to the budget bill are presented in a special document herewith.
