On personal business, and waiving per diem: Assembly Members Jones and Umberg.

Because of illness: Assembly Member Speier.

Because of a death in his family: Assembly Member Cortese.

EXPLANATIONS OF ABSENCE

Pursuant to the Assembly Rules, the following explanations of absence were ordered printed in the Journal:

August 17, 1994

The Honorable Willie Brown, Jr.
Speaker, California State Assembly
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: I will be away on legislative business in my District on Wednesday, August 17, 1994 and would like to be excused from Check-in Session. I will waive my per diem.

Thank you for your consideration of this request.

Sincerely,

DELAINE EASTIN, Assembly Member
Twentieth District

August 16, 1994

The Honorable Willie Brown
Speaker of the Assembly
Room 219, State Capitol
Sacramento, California

Dear Mr. Speaker: This is to respectfully request that I be excused from check-in session Wednesday, August 17, 1994, I will be in my district to examine planning, construction and permit documents relative to my AB 3299 and anticipated lawsuit to achieve the provisions of that bill in the courts.

Thank you for your consideration.

Sincerely,

GIL FERGUSON, Assembly Member
Seventieth District

August 16, 1994

The Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: I wish to be excused from session Wednesday, August 17, 1994, as I will be in Los Angeles on legislative business.

Your consideration of this matter is greatly appreciated.

Sincerely,

TERRY B. FRIEDMAN, Assembly Member
Forty-first District

August 17, 1994

The Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Room 219
Sacramento, California

Dear Willie: Please excuse me from Check-In Session today, Wednesday, August 17, 1994 due to legislative business in my district.

Since the fires in San Luis Obispo County were burning so extensively, and heading toward the City of San Luis Obispo, I was summoned to the district to assess the damage and have a press conference with Governor Wilson. State and federal assistance will certainly be needed to restore all the damage to so many homes and the county's natural resources.

Thank you for your consideration.

Sincerely,

ANDREA SEASTRAND, Assembly Member
Thirty-third District

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

A Prayer by Tom Whitecloud, Chippewa

O Father, Whose Voice I Hear in the Winds and Whose Breath Gives Life to All the World, Hear me. I am one before you, one of Your many children. I am small and weak. I need Your strength and wisdom. Let me walk in beauty and make my eyes ever behold the red and purple sunsets. Make my hands respect the things You have made, my ears sharp to hear Your voice. Make me wise so that I may know the things You have taught my people; the lessons You have hidden in every leaf and rock. I seek strength, Father, not to be superior . . . but to be able to fight my worst enemy, myself. Make me ever ready to come to You with clean hands and straight eye, so that when life fades as the fading sunset, my spirit may come to You without shame.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker pro Tempore O'Connell, Assembly Member Rainey then led the Assembly in the pledge of allegiance to the Flag.

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

An Anonymous Prayer

Lord, Why do I label people? Why do I pass judgement before I really know? Like my neighbor who didn't like that boy because of his cut of hair; or the youth who thinks his teacher is a stuffed shirt. Or the fella who thinks a girl is mad at him because she didn't smile back. Help me to stop labeling people, Lord, by race, religion, party or sex before I know them one on one. Don't let me stereotype people in ways that may not be true. You can help me do this, Lord, because You labeled me when You gave me my name. You have labeled all of us, as forgiven, loved, and worthy.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker pro Tempore O'Connell, Assembly Member Horcher then led the Assembly in the pledge of allegiance to the Flag.

MOTION TO DISPENSE WITH READING OF THE JOURNAL

Further reading of the Journal of the previous legislative day was dispensed with on motion of Assembly Member Ferguson, seconded by Assembly Member Jones.

At 8:25 a.m., Speaker Willie L. Brown, Jr., 13th District, presiding

Dear Mr. Speaker: This letter is to respectfully request to be excused from Floor Session on Friday, August 19, due to legislative business in my district.

The 48th Assembly District is sponsoring a workshop for small, minority-owned, women-owned and disabled veteran-owned businesses. The workshop is being held to assist such firms in becoming certified to do business with the State of California and 16 public utility companies. The workshop is designed to help subcontractors and prime contractors build a lasting relationship.

Thank you for your attention to this request.

Sincerely,

MARGUERITE ARCHIE-HUDSON, Assembly Member
Forty-eighth District

August 18, 1994

Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Room 219

Dear Mr. Speaker: This letter is to request that I be excused from session on Friday, August 19, 1994 due to legislative business in my district.

Thank you for your consideration.

Sincerely,

TOM BATES, Assembly Member
Fourteenth District

August 19, 1994

Honorable Willie L. Brown, Jr.
Speaker of the Assembly
Room 219, State Capitol
Sacramento, California

Dear Mr. Speaker: Please excuse me from Session on Friday, August 19, 1994. I will be in my District meeting with constituent groups on legislative business.

Thank you for your consideration of this matter.

Peace and friendship,

JOHN BURTON, Assembly Member
Twelfth District

August 11, 1994

COMMUNICATIONS

The following letters of transmittal were presented by the Chief Clerk, and ordered printed in the Journal:

Bureau of State Audits

94012
August 1, 1994

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As required by Chapter 716, Statutes of 1992, the Bureau of State Audits presents its audit report concerning the Department of Health Services' processing of drug treatment authorization requests.

This report presents statistical information concerning the number of drug treatment authorization requests received and processed by the Department of Health Services during the period of December 1993 through May 1994.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Health.

Bureau of State Audits

93112
July 26, 1994

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning the Adelanto Redevelopment Agency's (agency) use of redevelopment funds to acquire George Air Force Base (GAFB) and pay for legal actions against neighboring communities and an adjacent redevelopment agency.

This report concludes that the agency has inappropriately spent approximately $2.1 million in an attempt to redevelop GAFB, and the agency spent approximately $2.3 million relating to GAFB for legal fees relating both to the environmental impact of the proposed reuse of GAFB, and to water rights issues, which appears to be an appropriate use of redevelopment funds. In addition, the agency did not always administer funds designated for low- and moderate-income housing in accordance with the community redevelopment law. Finally, the City of Adelanto and the agency did not always follow the requirements of the Health and Safety Code and Brown Act designed to keep the public informed of decisions made by the city council and purposes of agency expenditures.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Housing and Community Development.

Room 3196, State Capitol
Sacramento, California

Dear Mr. Wilson: This letter seeks to clarify the intent of Assembly Bill 63 (Statutes of 1993, Chapter 1121) in light of recent efforts by the state Franchise Tax Board to continue to tax certain increments of income earned by California state-chartered credit unions.

Both by adding Section 24405(d) to the Revenue and Taxation Code, and in uncodified intent language, AB 63 made clear that "the Legislature did not intend, and does not intend, to impose a tax on transactions between member credit unions." Indeed, the express purpose of AB 63 was to codify the unbroken 30-year practice of the FTB not to tax income resulting from reciprocal transactions with member credit unions. Nonetheless, the FTB is now actively seeking payment of taxes by numerous California state-chartered credit unions on this very increment of income (specifically income derived from investments with Wescorp Federal Credit Union, the central credit union serving the state of California) for certain tax years in the mid-1980s.

Left unchecked, these efforts by the FTB will result in an unjust anomaly of tax policy which is directly contrary to the intent of AB 63: a circumstance in which all income resulting from reciprocal transactions with member credit unions earned during the 30 tax years prior to 1986 and 1987 is exempt from taxation; all income earned in tax years subsequent to 1987 is exempt from taxation; and income earned in the two-year "window" of the 1986 and 1987 tax years is in fact subject to taxation. Furthermore, this interpretation by the FTB is applicable to only a portion of California's state chartered credit unions, while all other state-chartered credit unions would be unaffected by the FTB's actions, thereby creating a grave inequity in tax law which AB 63 never intended and in fact sought to avoid.

It is our hope that this letter will both clarify any ambiguity and uncertainty as to the intent of Assembly Bill 63—to wit, that no tax should be levied by the FTB on any income resulting from reciprocal

transactions with member credit unions, regardless of the tax year involved—and that appropriate action to this end will be taken immediately by the Franchise Tax Board.

Sincerely,

JOHAN KLEHS

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

Eternal and Most Gracious God, Who Has Kept Us Through the Night, and Once Again Brings Us to These Desks, Come close to us. Accept our praise and supplication for Your care, keeping and love. Deepen our awareness of Your presence. Abide with us, especially in the common and ordinary happenings of today. Help us not to tire or in boredom lose heart in the trivial round, or routine of tasks. Our hope is in You, that what's least on today's agenda, may be thoroughly attended and each activity, a feat of dedication to the high purposes for which we are here.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker pro Tempore O'Connell, Assembly Member Martinez then led the Assembly in the pledge of allegiance to the Flag.

MOTION TO DISPENSE WITH READING OF THE JOURNAL

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Legislative Intent—Assembly Bill No. 3454

August 16, 1994

Mr. E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

Dear Dotson: This letter is to clarify the intent of AB 3454 relating to confidential information.

AB 3454 codifies the administrative procedure whereby the Department of Motor Vehicles suppresses information of people who require heightened confidentiality. The bill will allow victims of stalking or persons who believe that there is a threat of death or great bodily injury to his or her person to have their DMV records suppressed.

Unlike confidentiality granted under Section 1808.4 of the Vehicle Code, which enumerates nineteen groups of people who can have their DMV records made confidential, this confidentiality provision has been carefully crafted in Section 1808.21 of the Vehicle Code to avoid confusion. Section 1808.4 is reserved for people such as, Judges, District Attorneys, Public Defenders and others whose lives may be in danger due to their line of work. Section 1808.21 is reserved for those people who do not hold such positions but nonetheless find themselves in danger.

It has come to my attention that there have been problems regarding non-payment of parking citations and similar citations for those protected under Section 1808.4 of the Vehicle Code. It is not my intent to provide any person with a means to avoid paying parking citations or other similar citations. Therefore, the protection provisions in AB 3454 have been drafted in a separate section of the code and additional clarifying language has been added on page 3, lines 20 through 24 which gives the DMV the ability to assess a request for information and subsequently release it if the request is

found to be legitimate. In cases regarding parking citations or similar citations, this would be a legitimate reason to release the home address to a requesting state agency of a person protected under this statute.

In conclusion, it is only my intent to protect those who truly need it and not to provide a loophole whereby parking citations may be avoided.

All the best,

JACKIE SPEIER, Assembly Member
Nineteenth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Rainey was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

August 22, 1994

Mr. E. Dotson Wilson
Chief Clerk
California State Assembly
State Capitol
Sacramento, California

RE: AB 152

Dear Mr. Wilson: A question has arisen regarding the intent of my AB 152.

I authored AB 152 in order to address a critical public safety issue. In its current form, AB 152 would enhance public safety by allowing continued operation of public and private electronic home detention programs in the state of California and increase control over and regulation of private programs by county correctional agencies.

Electronic home detention programs play an important role in county corrections. When properly operated, they enable county corrections staff to provide increased supervision of certain offenders who, due to a lack of county jail space and other resources, would have to be released to the community without supervision.

In *People v. Superior Court (Hubbard)* 230 Cal.App 3rd, 287 (1991) and in *Brian Scott Peterson v. The Superior Court of San Diego County* 12 Cal.App 4th 16 (1992) the court made it clear that programs such as electronic monitoring/home detention . . .

> "must be authorized by the board of supervisors and run by a correctional administrator. Sentencing courts may only restrict or deny a person's participation."

These rulings were recently upheld by the California Supreme Court. AB 152 would conform California law with these findings by requiring the electronic home detention industry to contract with the county correctional administrator.

However, some offenders are currently being placed in private electronic monitoring programs directly by the courts, bypassing the correctional administrator. This practice is in direct conflict with the letter of California law and flies in the face of the above cited court rulings. The practice also circumvents necessary inmate screening which only the county correctional administrator is trained and required to provide.

As noted in a January, 1992 State Board of Corrections report to the Legislature (entitled *Electronic Monitoring—Home Detention*):

> [Currently,] "only publicly run programs . . . address the importance of careful screening to reduce the risks to public safety . . . While seeking to reduce jail crowding, [publicly operated] electronic monitoring programs are clearly sensitive to minimizing risk to the public and operating in a cost effective manner."

AB 152 will ensure that private electronic home detention programs are operated pursuant to the same standards and regulations which currently govern those run by public agencies. In addition, the bill will see to it that county correctional agencies have

the oversight authority necessary to enforce applicable county regulations and standards and hold private programs accountable.

Finally, AB 152 would prohibit dangerous and violent offenders from being placed on electronic home detention, establish minimum standards for privately operated electronic monitoring programs, and increase county control over these programs.

Sincerely,

RICHARD K. RAINEY, Assembly Member
Fifteenth District

Parliamentary Inquiry

Assembly Member Burton arose to the following parliamentary inquiry:

Can a Rules Committee Resolution to suspend Joint Rule 61 be reconsidered?

Reply by Speaker pro Tempore

The Speaker pro Tempore replied in the negative, that a motion to reconsider cannot be applied to a Rules Committee Resolution because such a resolution is renewable on the next legislative day.

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

O Blessed Spirit of God, Come to us today. Let Your fullness and power be in us as we come to work this afternoon. Renew our tiring minds that we may rise from mediocrity of perception of all that is before us. Reach us in our weakness with a strength of purpose reborn. Help us in all that we do, to be effective, in season and out of season. Keep us alert to every challenge and responsibility befitting this office. Of this we are sure, and thankful, that we are refreshed and reassured when in Your presence. May our efforts in this room, make goodness attractive, and hope shine in what we do.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker pro Tempore O'Connell, Assembly Member Aguiar then led the Assembly in the pledge of allegiance to the Flag.

MOTION TO DISPENSE WITH READING OF THE JOURNAL

EXPLANATIONS OF ABSENCE

Pursuant to the Assembly Rules, the following explanation of absence was ordered printed in the Journal:

August 23, 1994

Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol
Sacramento, California

Dear Mr. Speaker: I respectfully request to be excused from session today because of legislative obligations in my district. I will be meeting with Governor Wilson, and I will also be attending an evening event with him.

Thank you for your consideration.

Sincerely,

ROBERT C. FRAZEE, Assembly Member
Seventy-fourth District

COMMUNICATIONS

The following explanations of votes were presented by the Chief Clerk, and ordered printed in the Journal:

Explanation of Vote—Senate Bill No. 1017

August 23, 1994

Mr. Dotson Wilson
Chief Clerk of the Assembly
Room 3196—State Capitol
Sacramento, California

Dear Dotson: When the roll call was taken on August 22, 1994 on Senate Bill 1017, I voted "no." Although I announced my vote change to "aye" to the Assembly, I omitted verifying my signature on the ballot.

I would like the journal record to clearly reflect that I changed my vote to "aye."

Your consideration of this request is greatly appreciated.

Sincerely,

RICHARD K. RAINEY, Assembly Member
Fifteenth District

Explanation of Vote—Assembly Bill No. 3358

August 23, 1994

Honorable Willie L. Brown, Jr.
Speaker, California State Assembly
State Capitol, Room 219
Sacramento, California

Re: Vote change ("Aye" to "No") on AB 3358,
August 22nd Floor Session

Dear Mr. Speaker: When the roll call vote was taken yesterday, Monday, August 22 on concurrence item #71, AB 3358 (Frazee), I inadvertently voted "Aye". It was my intention to change my vote to "No", but with the last minute rush at the end of session I was unable to make that change.

I would like the record to reflect a "No" vote on AB 3358 at this time.

Thank you for your attention to this matter.

Sincerely,

TERRY B. FRIEDMAN, Assembly Member
Forty-first District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Isenberg was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

August 23, 1994

E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol
Sacramento, California

RE: SB 1333 (Lockyer)

Dear Mr. Clerk: Late concerns have been raised that a key provision of SB 1333 may be misconstrued to read in a manner not intended by either the author or the Assembly Judiciary Committee. In order to avoid an unintended interpretation, we would like this letter printed in the Journal to reflect the Committee's and author's clear intent.

Specifically, proposed Financial Code Section 4001 (a) (2) provides as follows:

> (2) **In lieu of the fee permitted by paragraph (1),** if the consumer has already incurred two late payment fees during the preceding 12-month period, the fee charged **may** be no more than ten dollars ($10) with respect to any monthly billing cycle as a late payment charge on the minimum payment due that is not paid within five days after the date the payment is due. [Boldface added for emphasis.]

It has always been our intention that the "in lieu" language at the beginning of the sentence and the reference to "may" rather than "shall" mean that for a third or subsequent late payment within a 12-month period, the issuer could charge *either* the fee permitted by

subsection (a) (1) or (a) (2). In other words, this is an option for the issuer. It does not require issuers to charge the fee set forth in subsection (a) (2) for a payment that is the third late payment within 12 months.

We believe this effect is clearly provided in the bill, but write this letter for publication in the Journal to assuage any lingering concerns that may exist.

Sincerely,

PHIL ISENBERG, Chairman
Assembly Judiciary Committee

CONSIDERATION OF DAILY FILE (RESUMED)
THIRD READING OF SENATE BILLS (RESUMED)

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Lee was granted unanimous consent that the following statement of clarification be printed in the Journal:

Clarification—Assembly Bill No. 2742

August 22, 1994

Dotson Wilson, Chief Clerk
Room 3196, State Capitol
Sacramento, California

Dear Dotson, As the author of AB 2742, I want to explain the

reasons that a particular provision was deleted from the bill and clarify that state law does not pre-empt more stringent local controls in a particular area. First, proposed Section 24200(g) of the Business & Professions Code, which was included as an amendment in the June 22, 1994 version (Section 3, page 10, lines 5–12), has been deleted from the August 8, 1994 version. Such a deletion was deemed appropriate because existing law already provides that ABC can revoke an ABC license if a local government revokes a local land use permit or determines that a legal nonconforming use is a public nuisance. Therefore, it is not necessary to codify these pre-existing legal principles. Moreover, the proposed amendments would have inadvertently weakened state law because ABC could not act, as it currently does, until after the statute of limitations has run or until a court has sustained the local agency's determination. The intent of this bill was to strengthen, not weaken, local and state controls over the secondary, adverse impacts associated with alcohol sales. Accordingly, this provision was deleted from the bill.

Second, I want to clarify that proposed Business & Professions Code Section 24200(f) (Section 3, pages 6–7, as amended August 8, 1994), which expands the basis for suspension or revocation of an ABC license to include failure to correct objectionable conditions on abutting public sidewalks, does not preclude adoption of more stringent local regulations otherwise authorized by law. The provision itself is silent on this issue, as compared to proposed Business & Professions Code Section 25612.5(b) (Section 4, pages 8–9, as amended August 8, 1994), because here only ABC has the authority to revoke an ABC license and it would therefore be incongruous to include any non-preemption language. However, local governments are nevertheless permitted to establish local health, safety and welfare regulations in this area notwithstanding that local governments are precluded from revoking an ABC license.

Sincerely,

BARBARA LEE, Assembly Member
Sixteenth District

PRAYER

Upon invitation of Speaker Brown, the following prayer was offered by Rabbi David Feder, of Congregation Bet Haverim, in Davis:

Eternal Spirit of the Universe,

At this time of our assembly, we ask for Your blessing
on ourselves and our families,
our nation and our state.

We know that the service which is most profound
is the dedication of ourselves to those causes
which are noble and of abiding worth,
to those causes which seek to bring wholeness and support to all.

So this assembly, united for the common good,
endeavors to bring benefit to the citizens of our state,
the residents of our nation,
the inhabitants of our world.

May we always remember this in our daily actions,
our discussions and our debate,
that we seek to bring healing to our world,
and to establish justice within our society.

Let us fulfill the words of the prophet,
"Thus says the Eternal One:
Let not the wise glory in their wisdom,
let not the mighty glory in their might,
let not the rich glory in their riches;
but let them who glory, glory in this:
that they understand and know Me,
that I am the One Who practices
kindness, justice and righteousness in the earth,
for in these things do I delight. *(Jeremiah 9 22–23)*

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker Brown, Assembly Member Pringle then led the Assembly in the pledge of allegiance to the Flag.

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

Almighty and Eternal God, Creator and Source, the Giver of Every Good and Perfect Gift, Bless, with Your mercy, PEOPLE, the people of this state, nation and world. People who are poor in things and people made poor in spirit by greed. People in the midst of sore trials, the sick in body and mind, the anxious, people enslaved to drugs and power. May Your Spirit ever sustain all those who try, and by their trying are raised again and again. You have called to these desks, all these who labor here, and we bid Your blessings upon them as they work and fulfill hours in attendance here. Inspire this governance, with the will and determination to fulfill every crying need which hinders California. You are with us in this place, and in this hour, may Your presence, as light in darkness, lead us forth.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker Brown, Assembly Member Tucker then led the Assembly in the pledge of allegiance to the Flag.

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

An Anonymous Prayer

O God, Give me the strength to live another day. Let me not turn coward before its difficulties or prove recreant to its duties. Let me not lose faith in my fellow men. Keep me sweet and sound of heart, in spite of ingratitude, treachery, or meanness. Preserve me from minding little stings or giving them to others. Help me to keep my heart clean, and to live so honestly and fearlessly that no outward failure can dishearten me or take away the joy of conscious integrity. Open wide the eyes of my soul that I may see good in all things. Grant me this day some new vision of truth, inspire me with the spirit of joy and gladness, and make me the cup of strength to all who are weak and hurt.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker pro Tempore O'Connell, Assembly Member Valerie Brown then led the Assembly in the pledge of allegiance to the Flag.

MOTION TO DISPENSE WITH READING OF THE JOURNAL

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Without objection, the following communication was printed in the Journal:

August 26, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Dotson: In September of 1993, the Governor signed AB 896, Chapter 429, Statutes of 1993. This legislation specifically authorized the utilization of the "design-build" process to design, construct and renovate state buildings in the Historic San Francisco Civic Center complex. In addition, because of the uniqueness of the "design-build" process, it authorized the use of loans from the Pooled Money Investment Board (PMIB) to initially finance the project until such time that a bond sale was feasible.

Consistent with AB 896, Chapter 429 of 1993, the San Francisco State Building Authority/Department of General Services has submitted a loan request to the PMIB. In order to facilitate consideration by the PMIB of this loan request, pursuant to Government Code Section 14669.8, we insert this letter in the Journal.

An environmental impact report for the Historic San Francisco Civic Center complex is not yet approved. In the event the EIR prevents completion of the building or the State Treasurer is unable to sell bonds or other securities to repay the loan, we will support legislation to obtain a General Fund appropriation to repay the PMIB all principal and interest due on the loan.

Sincerely,

BILL LOCKYER
President Pro Tempore
August 26, 1994

WILLIE L. BROWN, JR.
Speaker of the Assembly
August 26, 1994

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

Eternal and Most Gracious God, So Far Above Us and Yet So Deep Within Us, We come to You with humble spirits. The churn of worldly events weighs heavily upon us and we could be distracted by their force and tossed by contrary winds. Give us steadfast hearts and discerning minds which no adversity may twist or drag away. Be our guide this day as we work for the betterment and improvement of the common good in this governance. Stand with us against whatever unworthy end may tempt us or cast our vigilance aside. Bestow upon us some higher understanding to know Your way, and a wisdom and faith to endure.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker Brown, Assembly Member Boland then led the Assembly in the pledge of allegiance to the Flag.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Weggeland was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3594

August 29, 1994

Hon. Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Room 219
Sacramento, California

Re: AB 3594, Sanctions Against Frivolous Pleadings

Dear Mr. Speaker: I respectfully request that this letter be printed in the Daily Journal in order to establish evidence of legislative intent in regard to AB 3594.

The bill has been thoroughly discussed in both the Assembly and Senate Judiciary Committees, but I would like to memorialize those discussions in two areas. First, courts should be encouraged to sanction those who make *sanctions* motions for an improper purpose, just as the court may sanction any other improper, vexatious pleading. There was, and remains, a strong consensus of the Judiciary Committee, me as the legislation's author, the sponsors, and the (now neutral) California Trial Lawyers Association that such an approach is both appropriate and necessary to prevent the so-called "satellite" litigation that sometimes resulted under the old federal Rule 11. It is also my understanding from the Judicial Council that in the normal course of affairs it will collect information on the numbers of sanctions motions and awards to help evaluate the success of the new law. In tracking the effects of the new Rule, the Judicial Council indicated that its report would be based on the compilation of data supplied by selected courts.

Second, pursuant to my representation to the Committee and the Judicial Council, I wish to supply guidance for the interpretation of the new Rule, embodied in Code of Civil Procedure Section 128.7. It is the intent of the legislature that, in construing Section 128.7, courts consider the notes on Rule 11 of Civil Procedure of the Committee on Rules of Practice and Procedure of the Judicial Conference of the United States, as contained in Notes of Advisory Committee on Rules, 1993 Amendments, Fed. R. Civ. P. 11, 28 USCA 11, as an expression of legislative intent. It is also the intent of the Legislature that the interpretation of Rule 11 by the federal courts shall not be binding.

Thank you for your consideration and assistance.

Sincerely,

TED WEGGELAND, Assembly Member
Sixty-fourth District

BILLS REMOVED FROM SPECIAL CONSENT CALENDAR

The following bill was removed from the Special Consent Calendar, and placed on unfinished business file, pursuant to Joint Rule 22.2:

Assembly Bill No. 3657, on request of Assembly Member Caldera.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Caldera was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

August 24, 1994

E. Dotson Wilson
Clerk of the Assembly
State Capitol
Sacramento, California

Re: Legislative Intent—Assembly Bill No. 2885

Dear Mr. Wilson: I am writing to request this letter be printed in the Assembly Journal.

The intent of the Legislature in enacting AB 2885 ("the Law") is to preserve all existing precedents regarding the constitutionality of laws consolidated by this legislation.

The Legislature believes that, to achieve more efficient administration, it is appropriate to create a single licensing structure for lenders extending consumer and commercial loans. However, the Legislature specifically intends to regulate various classes of lenders under this consolidation of existing laws.

The Law is both reasonable and appropriate for the classes of consumer and commercial loans in that:

1. Certain sections do not apply to commercial loans and consumer loans, either entirely or over a certain dollar amount, to the extent deemed necessary by the Legislature. In creating the classes of loans exempt from usury laws, the Legislature does not believe that all lenders must be regulated in the same manner.

2. The Legislature believes that it is appropriate and reasonable to exempt certain loans in the regulated class of commercial and consumer loans from any rate limitations. It is the intent of the Legislature to let the rates charged generally be set by free market competition, subject to rate limitations deemed necessary by the Legislature. The Legislature believes that the Law creates a reasonable balance between regulation and free-market activity, and provides necessary consumer protections.

3. The Legislature intends that the Commissioner of Corporations should have the authority under the Law to regulate consumer and commercial loans in different ways, as deemed appropriate.

It is the intention of the Legislature to preserve existing usury exemptions for (a) personal property brokers formerly regulated by the "Personal Property Brokers Law," Fin. Code Div. 9, Secs. 22000 et seq.; (b) lenders formerly regulated by the "Consumer Finance Lenders Law," Fin. Code Div. 10, Secs. 24000 et seq.; and (c) lenders formerly regulated by the "Commercial Finance Lenders Law," Fin. Code Div. 11, Secs. 26000 et seq. No finding that any provision of the Law is invalid with respect to a particular lender or class of lenders shall affect the enforceability of the Law with respect to any of the foregoing classifications of lenders, which shall in all events continue to be exempted from usury restrictions by the Law.

Sincerely,

LOUIS CALDERA, Assembly Member
Forty-sixth District

MOTION TO RECONSIDER SENATE BILL NO. 1128 ON NEXT LEGISLATIVE DAY

MESSAGES FROM THE GOVERNOR

The following messages from the Governor were received and ordered printed in the Journal:

Veto Message—Assembly Bill No. 2409

Governor's Office, Sacramento
August 29, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2409 without my signature.

This bill would authorize a pilot project in Los Angeles County to provide AFDC and Medi-Cal applicants and recipients with information about sex education, general facts on AIDS transmission, the health risks of drug use during pregnancy, referrals to facilities providing free family planning services, a list of available birth control devices and a listing of federally qualified health center services.

Unfortunately, although the bill provides authorization rather than imposing a direct mandate, if Los Angeles decides to undertake this project, it will have no choice about how to proceed. Such a lack of choice would create a state-reimbursable mandate.

The objective of this bill has merit. I would encourage the author to remedy this proposal to eliminate the mandate by making the county's activities permissive. I would be willing to consider a bill that pursued this objective free of mandates.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 2670

Governor's Office, Sacramento
August 29, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2670 without my signature.

This bill would require that one of the twelve representatives from organized labor, community-based organizations or the general public to be appointed to the State Job Training Coordinating Council (SJTCC) be a member of the California Commission on Aging.

Mandating the appointment of a member from a specific organization limits the Governor's appointing authority and sets a precedent for other organizations to demand representation. Existing state and federal requirements for establishing SJTCC membership are already very prescriptive and, among other things, require that members who are appointed to represent labor, community-based organizations and the general public must include

individuals who have experience in organizations serving older Californians.

Finally, the California Task Force on the Employment of Older Workers currently functions under the umbrella of the SJTCC, thereby ensuring the Council's attention to older workers' issues and the promotion of the effective, coordinated delivery of state and federal services to older workers.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 2713

Governor's Office, Sacramento
August 29, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2713 without my signature.

This bill would require the Commission on Teacher Credentialing (CTC) to encourage innovation and experimentation in teacher preparation. It would also require the California State University to cooperate with the CTC in these efforts.

This bill is unnecessary. The CTC and the CSU not only have the necessary authority under existing law to undertake these activities, they already are doing so.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 2942

Governor's Office, Sacramento
August 29, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2942 without my signature.

This bill would require the Department of Health Services to follow the proposed amendments to 42 Code of Federal Regulation that extend the due date for cost reports from ninety days to five months after the last day of the cost reporting period.

This bill is premature and unnecessary. The federal regulations to which it proposes to conform are *proposed*, rather than *adopted*. In addition, it would be more appropriate to conform state requirements to federal standards through regulatory change, rather than statute.

Most importantly, however, is that the various cost report, audit, audit appeal, and rate setting steps applied to the hospital and nursing home industries have developed into an intricate statutory and regulatory framework. I am supportive of minimizing paperwork, but while this bill would provide administrative relief for hospitals, it would not remedy the rate setting and audit timing problems it would create for the state. Such a lack of remedy would expose the state to an unacceptable financial risk.

Cordially,

PETE WILSON

RECEIPT

I acknowledge receipt this 29th day of August 1994, at 7 p.m., of Assembly Bills Nos. 2409, 2670, 2713, and 2942, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Karen Morgan.

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

Eternal Spirit, Source of Our Being, Wellspring of Our Hope and Guiding Companion of the Way, Be near to this Assembly during this time of crucial decisions to make. Bless them with understanding, just and fair in all they do. Give them energy and insight, courage and a caring attitude for the weak and needy. Let their work reflect more than a last minute rush, but the depths of considered deliberations. May it be said, at the end of this day, that this Assembly labored together with sound judgement and a tolerant spirit to accomplish more fully legislation for the uplift of the people of this State and the glory of God.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker pro Tempore O'Connell, Assembly Member Takasugi then led the Assembly in the pledge of allegiance to the Flag.

MOTION TO DISPENSE WITH READING OF THE JOURNAL

Further reading of the Journal of the previous legislative day was dispensed with on motion to Assembly Member Alby, seconded by Assembly Member Baca.

COMMUNICATIONS

The following letters of transmittal were presented by the Chief Clerk, and ordered printed in the Journal:

Bureau of State Audits

94109
August 22, 1994

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of the California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning its review of the Department of Education's (department) cost and development of the California Learning Assessment System (CLAS).

This report concludes that the department used various groups to develop the CLAS exam, including advisory committees, development teams, and review panels. This development framework was similar to the process followed in earlier exams. The department tried to create review panels and teams that reflect the diversity of California's population. However, it did not have specific written procedures that it used to select members for each of the various groups involved in the exam development process. As a result, the review panels and teams that it established were not always representative of California's population.

This report also concludes that the department used its contract with the Far West Laboratory for Educational Research and Development (Far West) to circumvent the State's civil service system. Far West paid the salaries of 28 contract employees as

instructed by the department. Because it used Far West to pay these employees, the department paid administrative fees, in excess of the salaries, of approximately $318,000.

In the area of costs, the department paid travel costs to Far West and the county offices of education for Sacramento and Los Angeles that exceeded the maximum reimbursement rates allowable by state rules. Further, the department did not require contractors to submit written progress reports to support the monthly invoices, incorrectly calculated retention amounts, and issued a duplicate payment for one invoice.

Finally, although the department appropriately used a competitive bidding process to award the CLAS contracts, for 13 contracts and 3 interagency agreements, the contractor performed work or provided services before approval of the contract.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Education.

Bureau of State Audits

94107
August 17, 1994

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report entitled, "The Department of Motor Vehicles and the Office of Information Technology Did Not Minimize the State's Financial Risk In the Database Redevelopment Project."

This report concludes that the Department of Motor Vehicles (DMV) continued its efforts to fully implement the Database Redevelopment Project (project) despite significant unresolved problems which led to the ultimate failure of the project in 1994. Further, the Office of Information Technology continued to recommend funding for the project even though the DMV had not followed approved policies to minimize financial risk to the State. Further, the DMV violated numerous contracting laws and regulations, including falsifying a purchase order to pay for services that could not be paid from an existing contract.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Transportation.

The following communication was presented by the Chief Clerk, and ordered printed in the Journal:

REPORTS OF STANDING COMMITTEES

Committee on Water, Parks and Wildlife

Date of Hearing: August 29, 1994

Mr. Speaker: Your Committee on Water, Parks and Wildlife reports:

Senate Bill No. 1656

With the recommendation: Do pass.

CORTESE, Chairman

Above bill ordered to second reading.

SENATE BILL NO. 1656 TAKEN UP BY UNANIMOUS CONSENT FOR SECOND READING

Assembly Member Cortese was granted unanimous consent to take up Senate Bill No. 1656 without reference to file, for the purpose of reading the bill a second time.

SENATE BILL NO. 1656—An act to amend Sections 3005 and 3800 of the Fish and Game Code, relating to wildlife, and making an appropriation therefor.

Bill read second time, and ordered to the third reading file.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Frazee was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2881

August 30, 1994

Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol
Sacramento, California

Dear Mr. Speaker: The purpose of this letter is to clarify my intent and the intent of the Legislature concerning my AB 2881 (Chapter 1075, Statutes of 1992). This measure created the California Register of Historic Places. I wish to clarify that the intent of the legislation is to provide notice to property owners and local governments about all resources nominated to the Register, listed in the Register and formally eligible for listing in the Register.

Specifically, Section 5024.1 (f) (2) provides that "Prior to acting on the nomination of a survey, an individual resource, an historic district, or other resource to be added to the California Register, the commission shall notify property owners, the local government in which the resource is located, local agencies, other interested persons and members of the general public of the nomination and provide not less than 60 calendar days for comment on the nomination. The commission shall consider those comments in determining whether to list the resource as an historical resource in the California Register."

The intent of AB 2881, and the intent of the Legislature in passing AB 2881, is to provide notice to property owners and local governments when a resource is nominated to the Register. It also was my intent, and that of the Legislature in voting for this measure, to ensure that any resource added to the Register through other means, such as through a local historical register or by virtue of being listed in or formally eligible for listing in the National Register of Historic Places, meet the same standard of owner and local government notification and participation as provided in 5024.1 (f) (2).

Sincerely,

ROBERT C. FRAZEE, Assembly Member
Seventy-fourth District

Assembly Member Terry Friedman was granted unanimous consent that the following communication be printed in the Journal:

August 29, 1994

Mr. E. Dotson Wilson
Chief Clerk
California Assembly
State Capitol
Sacramento, California

Dear Mr. Wilson: I am currently authoring AB 1900, the Omnibus Child Labor Reform Act, which in part, would amend Sections 1294 and 1296 of the Labor Code to allow the Labor Commissioner to determine whether any trade or occupation is sufficiently dangerous to justify the exclusion of minors under the age of 18. Under the existing Sections 1294 and 1296 the Labor Commissioner may exercise this discretion to determine hazardous occupations for minors under the age of 16.

By raising the age in Section 1296 from 16 to 18 it is not my intent to require the Labor Commissioner to re-examine, or suggest that it be appropriate for the Commissioner to re-examine, the 16-year age limit in Sections 11701 to 11707 of Title 8 of the California Code of Regulations. It is my intent in amending Sections 1294 and 1296 to give authority to the Labor Commissioner to determine that specified occupations are hazardous for minors under 16 years of age and not hazardous for minors 16 and 17 years of age as well as giving the Commissioner authority to declare certain occupations hazardous for all minors under 18 years. This determination will be made by the Commissioner on a case-by-case basis after a full public hearing.

Sincerely,

TERRY B. FRIEDMAN, Assembly Member
Forty-first District

BILLS REMOVED FROM SPECIAL CONSENT CALENDAR

The following bill was removed from the Special Consent Calendar, and placed on the unfinished business file, pursuant to Joint Rule 22.2:

Assembly Bill No. 1110, on request of Assembly Member Bates.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Speaker pro Tempore O'Connell was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2444

August 30, 1994

Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: My AB 2444 is a significant step forward in protecting California's priceless coastline from further offshore oil development.

The bill removes a confusing hodge-podge of separate administrative and statutory no-drilling zones in state waters, and replaces them with a single border-to-border sanctuary. Leases currently held and/or producing would continue to provide oil and fuels for California consumers.

Senate amendments clarify that waters in the Sacramento/San Joaquin Delta east of the Carquinez Bridges are not subject to the bill, and strengthen existing law with respect to the steps to be taken in order to expand the boundaries of current leases.

The Legislature can be justifiably proud of its accomplishments with AB 2444, the California Coastal Sanctuary Act of 1994.

Sincerely,

JACK O'CONNELL, Assembly Member
Thirty-fifth District

Vote Changes

By unanimous consent, the following vote change was permitted on concurrence in Senate amendments to Assembly Bill No. 2874: Assembly Member Burton, from "Aye" to "No"

Above bill ordered enrolled.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Snyder was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2874

August 30, 1994

The Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: This letter is to clarify amendments which were taken in the Senate on my bill AB 2874 relating to endangered plant species. The amendment referenced requires the Department of Fish and Game to charge a fee for preparing an interim management agreement as well as a final memorandum of understanding for the protection of newly added or discovered plant species.

This amendment was taken in the Senate Appropriations Committee as an author's amendment as requested by the Appropriations Committee. It was my intent to make the fee permissive in preparing an interim management agreement *only* and would not apply to finalizing a memorandum of understanding.

Due to the Legislative Counsel amendment deadlines I was unable to clarify this matter prior to session adjourning. It is my intent to

make this change during next year's legislative session, as well as other related technical amendments associated with other endangered plant species legislation, should they become law.

Sincerely,

MARGARET E. SNYDER, Assembly Member
Twenty-fifth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Costa was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2553

August 29, 1994

The Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol
Sacramento, California

Dear Speaker Brown: I would like to request that this letter be printed in the Assembly Daily Journal to clarify my intent with regard to AB 2553, which is currently before the Assembly for concurrence in Senate amendments.

AB 2553 would establish a supplemental allocation formula for any new money in order to equalize funding for home-to-school transportation and to provide transportation funding for school districts with high percentages of children from low-income families.

AB 2553 was not in print in time to be amended in the Senate on the final day amendments were allowed. It was my intent to include a four year sunset provision in order to address comments made in the final committee hearing.

I intend to pursue legislation to include that sunset provision next year if the bill is enacted.

Sincerely,

JIM COSTA, Assembly Member
Thirtieth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Aguiar was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3539

August 30, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I request that the following be placed in the Journal:

Assembly Bill 3539 seeks to define and regulate the activity of motor vehicle brokering so that consumers are afforded the same type of regulatory protections that consumers of other brokering services currently enjoy.

Under current law, anyone who currently engages in motor car brokering, i.e. accepts a fee or other consideration for the service of arranging or negotiating the sale of a motor vehicle, most hold a valid dealer license issued by the Department of Motor Vehicles. AB 3539 does nothing to change current law in this respect, but specifies that prior to engaging in motor vehicle brokering, the holder of a dealer license must first register with the Department and obtain an autobroker endorsement to its dealer license. This autobroker license endorsement is not intended to create a new or separate license; it will allow the Department—for audit and disciplinary purposes—to keep track of those dealers that engage in motor vehicle brokering. However, AB 3539 broadens the existing statutory scheme under which motor vehicle brokers conduct business.

Regardless of whether a dealer acts as the seller of a vehicle it owns or as an agent/broker on behalf of another or others for the purpose of arranging or negotiating the sale of a vehicle it does not own, that dealer is subject to all of the licensing, advertising, and other regulatory requirements and prohibitions applicable to a motor vehicle dealer. For example, a dealer who advertises as an "autobroker" or "auto buying service" may advertise its brokering services, but must also adhere to the long-standing deceptive advertising prohibition against advertising or offering for sale vehicles not physically for sale at the premises of the advertising dealer or available to the dealer through a franchise agreement with the manufacturer or distributor of the vehicle at the time of the advertisement or offer.

Likewise, the holder of a dealer license who registers with the Department as an autobroker pursuant to the provisions of AB 3539 and chooses to act solely in the capacity of an agent/broker is in no way exempt from other dealer prohibitions, including, but not limited to: making or disseminating untrue or misleading statements; advertising unsubstantiated underselling claims; failing to maintain an established place of business and required books and records; employing any person as a salesperson who has not been licensed by the Department; engaging in bait and switch tactics; using another dealer's license or supplies, or permitting the use of its dealer license, supplies, or books by any other person for the purpose of permitting

that person to engage in the purchase or sale of vehicles; or the improper use of special license plates. It is not the intent of AB 3539 to undermine any existing dealer prohibitions that have been crafted by the Legislature to shield and protect customers against the potential deceptive or misleading business and advertising practices of an unscrupulous dealer.

It is intended that the broadened statutory scheme embodied in AB 3539 will provide consumers with the choice and flexibility of hiring the services of a dealer to provide brokering services within a framework that ensures a high level of customer protection and accountability.

Sincerely,

FRED AGUIAR, Assembly Member
Sixty-first District.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Sher was granted unanimous consent that the following statement of legislative intent be printed in the Journal.

Legislative Intent—Assembly Bill No. 314

August 29, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I would request that the following letter, which speaks to my intent with respect to specified provisions of my AB 314 be printed in the Assembly Daily Journal:

I would like to clarify the intent behind the changes made by AB 314 to Section 21081.6 of the Public Resources Code. This measure amends Section 21081.6 (b) of the Public Resources Code to read: "A public agency shall provide that measures to mitigate or avoid significant effects on the environment are fully enforceable through permit conditions, agreements, or other measures." Senator Thompson's SB 749 amends the same section of law and contains language which ensures that if both measures are enacted, the language in AB 314 will not be chaptered out.

It is my intent in authoring the amendments to Section 21081.6 (b), that the use of the words "other measures," does not expand the jurisdiction or authority of public agencies. This provision is intended

to clarify that public agencies shall use those express or implied powers provided by other law to make mitigation measures enforceable.

Thank you in advance for your assistance.

Sincerely,

BYRON D. SHER, Chairman
Assembly Natural Resources Committee

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Horcher was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3659

August 27, 1994

The Honorable Willie L. Brown, Jr.
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: I am writing to request that this letter be entered into the Daily Journal.

It is the intent of the Legislature that in lawyer advertising by electronic media the message as a whole may not be false, misleading, or deceptive, and the message as a whole must be factually substantiated. The message means the effect in combination of the spoken word, sound, background, action, symbols, visual image, or any other technique employed to create the message. (AB 3659, proposed Section 6158 of the Business and Professions Code.) Empirical data collected in a statewide telephone survey of 504 California adults that was prepared by Frank N. Magid Associates, Inc. supports additional regulation of such advertising.

- 96% of the respondents have viewed lawyer advertising on television.
- Of those people who have viewed lawyer television advertising, 54% say the television advertising had a **negative** impact on their respect for the fairness and integrity of the legal system; only 9% report a positive influence.

By contrast, advertising by lawyers in the yellow pages has a significantly lower impact on the perceptions of the respondents.

- 67% of the people polled have seen lawyer advertising in the yellow pages; of these people, 17% report the advertisements had a positive influence on their respect for the fairness and integrity of the system and only 12% report a negative impact.

AB 3659 identifies three types of advertising by lawyers that are presumed to be false, misleading or deceptive. These presumptions

parallel the three types of advertising the respondents in the survey view as the most misleading of various types of ads.

When questioned about specific references or techniques in lawyer advertising, the three most misleading types of advertising identified were the following:

- References to how much money clients received with information about how serious the client's injuries were; **50% found these ads misleading and deceptive while only 3% believe the ads are truthful and accurate. AB 3659, presumption 6158.1 (a)**
- References to money, especially how much the clients received; **47% found these ads misleading and deceptive while only 5% believe the ads are truthful and accurate. AB 3659, presumption 6158.1 (c)**
- Dramatizations or reenactments of accidents; **43% found these ads misleading and deceptive while only 8% believe the ads are truthful and accurate. AB 3659, presumption 6158.1 (b)**

Overall, of the respondents who have seen lawyer advertising on television or heard lawyer advertising on radio, 38% say that "misleading and deceptive" describes their own perception of television and radio advertising by lawyers very well and 32% say that it describes their perceptions somewhat well. Only 23% say it does not describe their perceptions well at all.

When asked how well "encourages people with the little or no injury to take legal action" describes the television and radio advertising by lawyers, 58% of the people surveyed said "very well," 28% and "not well at all" by 18%.

"Leads to unnecessary or frivolous lawsuits" described "very well" how 49% of the respondents view such advertising, "somewhat well" by 28% and "not well at all" by 18%.

"Helpful" and "informative" describe the ads "very well" for only 7% of the respondents.

Thus, the intent of the Legislature in enacting AB 3659 is to address the strong negative impact lawyer advertising has on our citizens' perception of the civil justice system and to restrict false, misleading, or deceptive lawyer advertising.

Respectfully,

PAUL V. HORCHER, Assembly Member
Sixtieth District

REPORTS OF STANDING COMMITTEES

Committee on Elections, Reapportionment and Constitutional Amendments

Date of Hearing: August 30, 1994

Mr. Speaker. Your Committee on Elections, Reapportionment and Constitutional Amendments reports

Bill read third time.

Motion to Amend

Assembly Member Speier moved the adoption of amendments.

Amendments read and adopted; bill ordered reprinted, and to be returned to the third reading file.

CONSIDERATION OF DAILY FILE (RESUMED) UNFINISHED BUSINESS (RESUMED) REQUEST FOR RECONSIDERATION

In compliance with a motion given on a previous day, Assembly Member Costa requested unanimous consent that the vote be reconsidered whereby Senate amendments to Assembly Bill No. 2893 refused concurrence.

Assembly Member Brulte withheld unanimous consent.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Cortese was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2442

August 29, 1994

Mr. Dotson Wilson
Chief Clerk, California State Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: This letter is to clarify a requirement set forth in legislation that I authored earlier this year (AB 2442, Chapter 254, Statutes of 1994) and specify the actions that will meet this requirement.

AB 2442 separates the Santa Clara County Transit District (District) from the County of Santa Clara and establishes a new governing board for the District effective January 1, 1995. Section 31 of the bill requires that the District notify each house of the legislature that an audit of the financial condition of the district has been performed by a certified public accountant before the legislation is operative.

I have been advised that the District will have an independent financial audit conducted by a certified public accountant for the Fiscal Year ending June 30, 1994 completed by November 1994. It is my intent that, upon notification to both houses of the Legislature that the financial audit of the District for the Fiscal Year ending June 30, 1994 has been completed, Section 31 of AB 2442 is satisfied and the new Transit District can become operative concurrent with the effective date of the bill, January 1, 1995.

Sincerely,

DOMINIC L. CORTESE, Assembly Member
Twenty-third District

Assembly Member Karnette was granted unanimous consent that the following statements of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 722

August 29, 1994

E. Dotson Wilson
Chief Clerk to the Assembly
State Capitol, Room 3196
Sacramento, California

Re: Assembly Bill 722

Dear Mr. Wilson: I would like to request that the following be printed in the Assembly Journal:

This letter clarifies a technical error contained in proposed Civil Code section 1812.623 as it appears in the last amended version of Assembly Bill 722 set forth in the Conference Report of August 18, 1994. The bill requires that each rental purchase agreement disclose the cash price of the property subject to the rental purchase agreement and the cost of rental. These two disclosure requirements were set forth in former versions of the bill as paragraphs (9) and (10) of subdivision (a). See, e.g., Assembly Bill 722 as amended

in Senate June 23, 1994. Subdivisions (b) and (c) specifically refer to these paragraphs in designating how these disclosures are to be made. The Conference Report moved and renumbered paragraphs (9) and (10) to paragraphs (5) and (6). However, the reference in subdivisions (b) and (c) to paragraphs (9) and (10) of subdivision (a) was not similarly changed to reflect the renumbering of the provisions as paragraphs (5) and (6). The error was discovered shortly before the Legislature was scheduled to adjourn and insufficient time exists to correct the technical error during this session.

This letter reflects the intent of the Legislature that the reference in subdivisions (b) and (c) of Civil Code section 1812.623 to paragraphs (9) and (10) of subdivision (a) of that section mean, respectively, the cash price and cost of rental formerly set forth in those paragraphs but renumbered as paragraphs (5) and (6) of subdivision (a) in the bill finally enacted and enrolled.

Sincerely,

BETTY KARNETTE, Assembly Member
Fifty-fourth District

Legislative Intent—Assembly Bill No. 3630

August 29, 1994

E. Dotson Wilson
Chief Clerk to the Assembly
State Capitol, Room 3196
Sacramento, California

Re: Assembly Bill 3630

Dear Mr. Wilson: I would like to request that the following be printed in the Assembly Journal:

It is my intent as author of Assembly Bill 3630 that, in executing the provisions of this bill, a public hearing shall be held before the Joint Legislative Budget Committee no less than 45 days prior to the Director of the Department of General Services entering into any agreement to acquire these facilities. This is in keeping with the intent expressed by the Legislature in passing Senate Bills 1674 and 1854 of this Legislative Session.

Thank you for your assistance.

Sincerely,

BETTY KARNETTE, Assembly Member
Fifty-fourth District

ACTION RESCINDED ON ASSEMBLY BILL NO. 1836

Assembly Member Eastin was granted unanimous consent to rescind the action whereby the Assembly, on August 29, 1994 (Assembly Journal, page 9005), refused to concur in Senate amendments to Assembly Bill No. 1836.

ACTION RESCINDED ON ASSEMBLY BILLS NOS. 844, 1250, AND 2752

Assembly Member Eastin was granted unanimous consent to rescind the action whereby on August 28, 1994 (Assembly Journal, page 8900), Assembly Bills Nos. 844, 1250, and 2752 were re-referred to the Committee on Education.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Campbell was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3625

August 30, 1994

Mr. E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol
Sacramento, California

Dear Mr. Wilson: I offer this letter to be read into the Assembly Journal to provide clarification of one provision of my Assembly Bill 3625. This measure relates to the sale of 24-hour workers' compensation insurance coverage.

AB 3625 amends Section 1749.3(h) of the California Insurance Code to mandate the testing of life agents or fire and casualty broker-agents before they may sell 24-hour workers' compensation insurance coverage.

The measure also states that the California Department of Insurance "shall approve any examinations within 20 days of receipt". The intent of this language is not to mandate the automatic approval of any examination submitted to the Department of Insurance. Instead, the language is meant to allow the Department to either approve or disapprove of submitted exams within the 20 day period.

Sincerely,

ROBERT J. CAMPBELL, Assembly Member
Eleventh District

MOTION TO RECONSIDER SENATE BILL NO. 1270 ON NEXT LEGISLATIVE DAY

Assembly Member Epple moved to reconsider on the next legislative day the vote whereby Senate Bill No. 1270 was this day refused passage.

Senate Bill No. 1270 ordered to the unfinished business file.

SPECIAL COMMITTEE MEETINGS

Assembly Member Speier was granted unanimous consent that the Committee on Consumer Protection, Governmental Efficiency and Economic Development be permitted to hold a special meeting today, upon adjournment of Floor session, and that Joint Rule 62(a) be waived for the purpose of setting Assembly Bill No. 3139 for hearing.

CONSIDERATION OF DAILY FILE (RESUMED)
UNFINISHED BUSINESS (RESUMED)
MOTIONS TO RECONSIDER BILLS CONTINUED

By unanimous consent, the motions to reconsider the votes on Assembly Bills Nos. 2803, 418, 3837, 2408, 3435, 2475, 2893, 1790, and 3737; Senate Constitutional Amendments Nos. 3 and 34; Assembly Constitutional Amendment No. 36; and Senate Bills Nos. 1665, 239, and 1128 were continued until the next legislative day.

BILLS SET FOR SPECIAL ORDER

Speaker Brown was granted unanimous consent that Senate Bills Nos. 174, 189, and 1963 be made special orders of business for Wednesday, August 31, 1994, at 9 a.m.

REQUEST FOR UNANIMOUS CONSENT

PRAYER

The following prayer was offered by Assembly Chaplain Rev. Hamilton T. Boswell:

Eternal and Most Gracious God, Whose Presence Is from Everlasting to Everlasting, and Whose Love Is New Every Day and Fresh as Morning Dew, Be near to us and accept our gratitude as we come to these desks.

You have been our hope and stay in all our many days in this House. You have given wisdom in a thousand perplexities, strength in every crisis and hard situation, sure guidance in peril and courage in each urgent hour. All our years have been hedged in, by Your care, and all our ways blessed by Your presence. We praise You this morning for Your shepherdlike care, Your rod and staff, which comforted us in all our yesteryears, and still in the now, giving us confidence in such trying times as now.—AMEN.

PLEDGE OF ALLEGIANCE TO THE FLAG

Upon request of Speaker Brown, Assembly Member Baca then led the Assembly in the pledge of allegiance to the Flag.

Resolution

The following resolution was offered and upon instruction of the Speaker, read by the Clerk in entirety:

House Resolution No. 74

By Assembly Member Willie L. Brown, Jr.

Relative to commending Chaplain Hamilton T. Boswell.

WHEREAS, Hamilton T. Boswell is drawing to a close his service as Chaplain of the California State Assembly after 10 years of dedicated spiritual leadership, and it is appropriate at this time to highlight his many achievements and to commend him for his devoted service to the Members of the Assembly; and

WHEREAS, Chaplain Boswell, a graduate of Wiley College in Texas with a Bachelor of Arts degree, went on to earn a Master of Arts degree from the University of Southern California and a Master of Theology degree, and he later returned to Wiley College where he earned a Doctor of Divinity degree; and

WHEREAS, The pastoral record of Hamilton Boswell dates back to 1939 when he was assigned to St. John's Methodist Church in Los Angeles, and he remained there until 1943 when he took on the challenge to organize Bowen Methodist Church in the local community; and

WHEREAS, In 1947 he relocated to San Francisco where he dedicated himself to the service of the parishioners of Jones United

Methodist Church, and in 1976 he became Superintendent of the Bayview District of United Methodist Church, California-Nevada Area; and

WHEREAS, Since retiring his relationship with the United Methodist Church in 1982 he has held the honored title of Pastor Emeritus of Jones United Methodist Church; and

WHEREAS, He took the oath as Chaplain of the California State Assembly on December 3, 1984, and throughout his years of service, his inspired words and encouragement, his sincere friendship, and the bond of caring and belonging that he has brought to the Members have earned for him their admiration and respect; and

WHEREAS, An individual whose impact in the religious community is exemplary, Chaplain Boswell has amassed an impeccable record of leadership as the first Chairman of the San Francisco Conference of Religion and Race and the first Chairman of the Black Church and Labor Conference, a member of the General Commission on Religion and Race, organizer of the Black Methodists for Church Renewal in the California-Nevada Conference, Secretary of the Black Methodists for Church Renewal, a Delegate to the General Conference of the United Methodist Church, a Delegate to the Western Jurisdictional Conference of the United Methodist Church, and organizer of Jones Memorial Homes; and

WHEREAS, He also has provided guidance as Commissioner of San Francisco Juvenile Justice, Commissioner of the San Francisco Housing Authority, a member of the NAACP Life Membership Committee and of Alpha Phi Alpha Fraternity, and Chaplain of the San Francisco Police Department from 1969 to 1976; and

WHEREAS, The numerous awards and commendations that he has received throughout the years attest to his unparalleled record of leadership; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members express their appreciation and gratitude to Hamilton T. Boswell for the inspired spiritual guidance that he has provided to the Members of the California State Assembly during the 10 years he has served as Assembly Chaplain, and convey to him their heartfelt best wishes for every happiness and success in his future endeavors; and be it further

Resolved, That the Chief Clerk of the Assembly shall transmit suitably prepared copies of this resolution to Chaplain Hamilton T. Boswell.

House Resolution No. 74 Taken up by Unanimous Consent

Speaker Brown was granted unanimous consent to take up House Resolution No. 74, without reference to committee, print, or file.

HOUSE RESOLUTION NO. 74—Relative to commending Chaplain Hamilton T Boswell

REQUEST FOR UNANIMOUS CONSENT

Assembly Members Bowler and Cortese were granted unanimous consent that a photographer be permitted on the Floor of the Assembly.

RECESS FOR INTRODUCTION OF SPECIAL GUESTS

By unanimous consent, at 9:54 a.m., Speaker Brown declared the Assembly recessed to permit the introduction of special guests.

Assembly Member Andal introduced 12-year-old Katie Romanek, who had been kidnapped from her home in Lodi on July 2, 1994, and was joined by the Members of the Assembly in extending a warm welcome to Katie, her sister Elizabeth, and parents Mr. and Mrs. Bob Romanek.

Assembly Member Bowler then presented a resolution in special tribute and highest commendation to the numerous law enforcement agencies who were instrumental in the investigation and safe return of Katie Romanek.

Assembly Member Bowler introduced Gary Kinley, Julie Grosse, and Maureen Dixon, of the Polly Klaas Foundation; Capt. Charles Mauch, Lt. Garold Murray, Lt. Ron Tobeck, and Officer Dale Eubanks, of the Lodi Police Department; and Sheriff Baxter Dunn, Lt. Phil Lawson, and Lt. Fred Meyer, of the San Joaquin County Sheriff's Department.

* * *

Assembly Member Cortese introduced Major An Quy Nguyen, of the Vietnamese Naval Air Force, and was joined by the Members of the Assembly in commendation of his heroic rescue of four Americans in 1969. Assembly Member Cortese then introduced John Canfield, Vice Chair North, VFW Department Legislative Committee; Thomas Alvarado, Deputy Director, CA Dept. of Veterans Affairs; and Floyd Volker, Commander, VFW Post 1660, whereupon each addressed the assemblage.

REASSEMBLED

At 10:05 a.m., the Assembly reconvened.
Hon. Willie L. Brown, Jr., Speaker of the Assembly, presiding.

BILL ORDERED ENROLLED

Assembly Member Burton was granted unanimous consent that Assembly Bill No. 1527 be ordered to Enrollment.

MEMBERS EXCUSED FOR COMMITTEE MEETING

At 10:06 a.m., by unanimous consent, the members of the Committee on Rules were excused for the purpose of attending a meeting of the committee at this time, in the Tom Bane Rules Committee Room.

RE-REFERENCE OF BILLS TO COMMITTEE PURSUANT TO JOINT RULE 26.5

Pursuant to Joint Rule 26.5, the Chief Clerk, with the approval of the Speaker, re-referred Assembly Bill No. 1308 (consideration of Senate amendments pending) to the Committee on Public Safety.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Speaker Brown was granted unanimous consent that the following statements of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2788

August 31, 1994

Mr. E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: This letter seeks to clarify the intent of Assembly Bill 2788 as regards section 30056(c)(1) of the bill. This section relates to memorandums of understanding and binding agreements.

For purposes of complying with section 30056(c)(1) of AB 2788, a "minute order" adopted by the board of supervisors in Monterey County prior to May 15, 1994 constitutes a binding agreement.

Sincerely,

WILLIE L. BROWN, JR.
Speaker of the Assembly

Legislative Intent—Assembly Bill No. 501

August 31, 1994

E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

RE: AB 501 (Brown)

Dear Mr. Wilson: Late concerns have been raised that AB 501 may be misconstrued to read in a manner not intended by the author. In ordered to avoid an unintended interpretation, I would like this letter printed in the Journal to reflect the author's clear intent.

To the extent that private individuals or businesses are victims of crimes involving personal injury or economic loss, AB 501 is not intended to restrict or deny the right to offer monetary rewards for information related to a crime in which the person or business offering the reward has sustained a personal injury or economic loss.

For example, many individuals or businesses as crime victims offer reward programs for information related to crimes of personal injury, vandalism or theft involving real, personal, or intellectual property in which the individual or business itself has suffered a loss. Such victims may, consistent with the intent of AB 501, seek redress for the loss by means of a monetary reward program for information which tends to identify the perpetrator of the crime or leads to recovery of the property. It is not the author's intent to deny crime victims the right to obtain such information by means of a private reward program, and I write this letter for publication in the Journal to reflect the clear intent of AB 501.

Sincerely,

WILLIE L. BROWN, JR.
Speaker of the Assembly

Clarification—Assembly Bill No. 1418

July 11, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Dotson: This letter is to clarify a potentially confusing provision in the AB 1418 Conference Report, which was passed by the Assembly and Senate today and sent to the Governor.

Section 8 of the bill amends Section 19605 of the Business and Professions Code by providing for not more than three satellite wagering facilities to be located within the City and County of San Francisco or on the fairgrounds of the 1A District Agricultural Association, commonly known as the Cow Palace. The second sentence of subdivision (c) reads as follows:

> Before a satellite wagering facility may be licensed for the 1997 and subsequent calendar years under this subdivision, the department shall conduct a one-year test at the proposed site in order to determine the impact of the proposed facility on total state parimutuel revenues and on attendance and wagering at existing racetracks and fair satellite wagering facilities in the Counties of Alameda, San Mateo, Santa Clara, and Solano.

The phrase "for the 1997 and subsequent years" is not intended in any way to delay or prohibit the licensing of a satellite wagering facility in San Francisco before 1997. Rather it is intended to give the Department of Food and Agriculture adequate time to conduct a site test.

Sincerely,

WILLIE L. BROWN, JR.
Speaker of the Assembly

BILL LOCKYER
Senate President Pro-Tem

CURTIS R. TUCKER, JR.

RECESS

By unanimous consent, at 4:01 p.m., Speaker pro Tempore O'Connell declared the Assembly recessed.

REASSEMBLED

At 4:45 p.m., the Assembly reconvened.

Hon. Willie L. Brown, Jr., Speaker of the Assembly, presiding.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Andal was granted unanimous consent that the following statement of legislative intent be printed in the Journal.

Legislative Intent

August 31, 1994

Honorable Willie L. Brown, Jr.
Speaker
California State Assembly
Capitol Building
Sacramento, California

Dear Speaker Brown: I am writing to clarify Provision 10 of Budget Item 5240-001-001 in the 1994–1995 Budget Bill (SB 2120, Ch. 139).

As the provision's author, I want to clarify the legislature's intent in passing this language. Currently, the Department of Corrections allows certain inmates to participate in overnight, unsupervised visits—also called "family visits"—with spouses or family members. These visits are a privilege only reserved for a select group of inmates—primarily those with a history of good behavior. Last year almost 25,000 family visits were allowed under this program.

Provision 10 prohibits the Department of Corrections from awarding these unsupervised visits to convicted child molesters, as defined by Penal Code Section 288, 288.5, or 289. This inmate classification has an unacceptably high rate of recidivism, and is a particularly repulsive social offense.

For these reasons, it is the legislature's intention that the Department of Corrections restrict, what would otherwise be a reward, family visits from inmates convicted of violating Penal Code Section 288, 288.5, or 289.

With best regards,

DEAN F. ANDAL, Assembly Member
Seventeenth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Sher was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2663

August 31, 1994

E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196

Dear Mr. Wilson: I respectfully request that this letter be inserted in the Assembly Journal.

It is my intent, as author of AB 2663, that Section 51238.2 of the Government Code allow a responsible board or council, on a case-by-case basis and at its discretion, to approve mineral extraction if: (1) the underlying contractual commitment to preserve the prime or nonprime agricultural land has not been significantly impaired; and (2) the mining operation is in compliance with the reclamation standards adopted by the Mining and Geology Board pursuant to Section 2773 of the Public Resources Code.

To accomplish the above, the board or council may approve mineral extraction if the subject parcel or parcels of prime agricultural land will be reclaimed back to their original prime quality. This section allows the board or council to approve mineral extraction and reclamation, on a case-by-case basis, on prime agricultural land, which may result in some impairment of the original prime quality, subject to reclamation requirements insuring that the overall underlying contractual commitment to preserve prime agricultural lands, as defined in subdivision (c) of Section 51201, is not significantly compromised, the total amount of prime land will not be significantly reduced, and the overall prime quality of the remaining land will not be significantly impaired.

Also, Section 51231 of the Government Code, as amended by AB 2663, does not conform to the language pertaining to non-prime agricultural land which is contained in subdivision (c) of Section 51238.1. To correct this technical oversight, I will introduce and author legislation next year to clarify that local compatible use rules must conform to the "provisions of," rather than the "principles set forth in" Section 51238.1.

Lastly, AB 2663 is not intended to affect any litigation pending as of January 1, 1994.

Sincerely,

BYRON D. SHER, Assembly Member
Twenty-first District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Pringle was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3139

August 31, 1994

Honorable Willie Lewis Brown, Jr.
Speaker
California State Assembly
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: We are the author and principal coauthor of Assembly Bill 3139, sponsored by the City of Newport Beach, which allows the State Lands Commission to extend the lease on a specific parcel of tide and submerged land.

When the Committee on Consumer Protection, Governmental Efficiency and Economic Development reviewed AB 3139 for concurrence in the Senate amendments, the Committee asked us to place a letter in the Journal to further explain the bill's intent.

It is the Legislature's intent, and it is our understanding that the project developers agree, that maximum public access shall be provided, pursuant to, among other things, Chapter 3, Article 2 of Division 20 of the Public Resources Code, to the lands affected by Chapter 74 of the Statutes of 1978, as amended by AB 3139, in order to be consistent with the public trust.

We appreciate your consideration in this matter.

Cordially,

CURT PRINGLE
68th Assembly District

MARIAN BERGESON
Senator, 35th District

Assembly Member Sher was granted unanimous consent that the following statement of legislative intent be printed in the Journal.

Legislative Intent—Assembly Bill No. 688

August 31, 1994

E. Dotson Wilson, Chief Clerk
California State Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I would request that the following letter, which speaks to my intent with respect to my AB 688, be inserted into the Assembly Daily Journal:

AB 688 defines in statute the term "Biomass Conversion" and amends the definition of "Transformation" to exclude biomass conversion. The purpose of these changes is to encourage the diversion of biomass from landfill disposal towards productive use as an energy fuel. It is my intent that biomass conversion shall not be considered "recycling" as defined in Public Resources Code Section 40180, nor shall it be considered part of paragraph (1) or (2) of Section 40051.

Nothing in this letter of clarification is intended to affect the eligibility for diversion credit provided for biomass conversion pursuant to other provisions of the bill.

Thank you for your assistance in this matter.

Sincerely,

BYRON D. SHER, Chairman
Assembly Natural Resources Committee

MESSAGES FROM THE SENATE

Senate Chamber, August 31, 1994

Mr. Speaker: I am directed to inform your honorable body that the Senate on this day passed:

Assembly Bill No. 2610

RICK ROLLENS, Secretary of the Senate
By John W. Rovane, Assistant Secretary

Above bill ordered enrolled.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Bustamante was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 1110

August 30, 1994

Kurt Sjoberg
California State Auditor
660 J Street, Suite 300
Sacramento, California

Dear Mr. Sjoberg: I am writing at the direction of the Assembly Committee on Human Services regarding Assembly Bill (AB) 1110. This bill applies to the experimental IHSS project currently underway in Tulare County. The Human Services Committee requests that a fiscal audit of the Tulare project be prepared at the same time the performance review is commissioned by the State Auditor, as outlined in Section 2 of the bill. Upon speaking with your staff, I understand this is standard procedure.

Your staff inquired about the timing of the audit. The bill requires that the performance review be commissioned one year after the effective date of the extension of the project. We expect the project to be extended as of July 1, 1995, and expect the performance review would be commissioned one year later.

In addition, it is the intent of the legislation to allow the Auditor the option of using any independent reviewer designated in an existing contract to conduct the performance review. For your information, Dr. Carol Barnes of Sacramento State University is

currently conducting a performance review of the Tulare County contract. Presumably, you would contract with an appropriately qualified entity to conduct the fiscal audit portion of the review.

Please contact my office should you have additional questions.

Thank you for your consideration of this request.

Sincerely,

CRUZ M. BUSTAMANTE, Assembly Member
Thirty-first District

Assembly Member Weggeland was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3769

August 31, 1994

Mr. E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

Re: AB 3769, March Joint Powers Authority Redevelopment

Dear Mr. Wilson: I am writing to clarify the meaning of a provision of AB 3769 (Weggeland) relating to the expenditure of tax increment moneys outside the March Air Force Base Redevelopment Project Area, subparagraph (2) (B) of subsection (b) of Section 33492.86.

Although this subparagraph authorizes the March Joint Powers Redevelopment Agency to expend tax increment moneys outside the project area for the payment of land and cost of installation and construction of any structure, facility, or other improvement that is publicly owned, it is not the author's intent to authorize the construction or rehabilitation of a building that is or that will be used as a city hall or county administration building.

Sincerely,

TED WEGGELAND, Assembly Member
Sixty-fourth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Gotch was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 1826

August 31, 1994

E. Dotson Wilson, Chief Clerk
California State Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: The intent of this letter is to provide clarification to provisions contained in AB 1826 (Gotch), relating to property tax administration, pursuant to a Ways and Means Committee hearing earlier today on the Senate amendments to the bill.

First, it is the intent that the $50 million appropriation contained in this bill be made from the state General Fund to counties.

Second, under this bill, at the time of the May Revision of the Governor's 1995–96 State Budget, the Department of Finance must assess the effects of that appropriation and determine the amount of additional property tax revenues allocated to school entities resulting from that appropriation. Although not stated in the current version of the bill, it is the intent that the department make that assessment and determination in consultation with the Legislative Analyst's Office.

Third, if the analysis concludes that the amount of additional property tax revenues allocated to school entities is less than the amount of the appropriation pursuant to this bill, it is the intent that the amount of the shortfall be recovered from those counties whose

expenditure of the appropriation has not resulted in an appropriate increase in the amount of property taxes allocated to school entities.

I hereby commit to having an urgency bill introduced at the beginning of the 1995–96 Regular Session to provide the clarifications described above.

Sincerely,

MIKE GOTCH, Assembly Member
Seventy-sixth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Costa was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 3218

August 31, 1994

Mr. E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I would request that the following letter, which speaks to my intent with respect to specified provisions of my AB 3218, be printed in the Assembly Daily Journal:

The purpose of this letter is to clarify the operation of the changes AB 3218 makes to the Health & Safety Code. AB 3218 is intended to encourage recovery of oily materials and direct those materials back into normal refining processes. It is intended that all oil-bearing materials, as defined in AB 3218, be processed to recover usable oil and that AB 3218 be the controlling provision of law with respect to the oil recovery operations within the petroleum industry which the bill addresses.

As approved by the Legislature, oil bearing materials must generally qualify for exclusion or exemption under Section 25143.2 in order to be exempt under Section 25144(c). It is recognized that Section 25143.2 contains a prohibition against use of recyclable

materials to produce a fuel that applies to certain categories of recyclable materials under that section. The exemption in Section 25144(c) was not intended to be limited by this prohibition, and I intend to introduce urgency legislation next session to address this drafting issue, and to work with the Department of Toxic Substances Control to insure that Section 25143.2(e)(3) is interpreted in a manner consistent with the purposes and intent of AB 3218.

The bill is not intended to allow:

- recycling of used oil for purposes of commercial hazardous waste treatment;
- oily soil from remediation projects to be defined as an "oil-bearing material;"
- storage of oil in surface impoundments or to be accumulated speculatively.

For purposes of interpreting the operation of AB 3218's provisions the following shall apply:

- *Definition of "oil"*—AB 3218 adds a new definition of "oil" in Section 25144(a), which applies to the terms used in that section. It is intended that this definition be interpreted broadly to include all fractions of petroleum.
- *Intra-company transfers*—The intent of Sections 25144 (c)(1) and (c)(2) is to recognize the diversity of corporate relationships in the oil industry and thereby allow transfers of materials among related facilities. The distinctions in these sections recognize that facilities do not have to be subsidiary to one another, but may be on an equal or dominant footing in a corporated system (i.e., a corporate parent or sibling). The measures does not allow transfers among different oil companies (e.g., between Chevron and Unocal) except in the limited circumstances where oil is recovered by common pipeline from a product field, permitted by existing Section 25143.2(d)(2)(C).
- *"Notwithstanding"* clarification—The intent of Section 25144(c)(6) is that oil-bearing materials or oil recovery units or ancillary equipment employed in storage of oil bearing materials or recovered oil, as defined, do not need to comply with any of the requirements contained in Sections 25143.2(c)(2)(C), 25143.9 or 25143.10 which normally apply to all persons operating under a recycling exemption or exclusion.

Thank you for your assistance.

Sincerely,

JIM COSTA, Assembly Member
Thirtieth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Valerie Brown was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Senate Bill No. 1035

August 30, 1994

Honorable Willie L. Brown, Jr.
Speaker of the State Assembly
State Capitol, Room 219
Sacramento, California

Dear Speaker: I am writing to clarify the meaning of a provision in my measure **Senate Bill 1035**, relating to adoption of a redevelopment plan for an area currently within the boundaries of the Mare Island Naval Shipyard.

Proposed Health and Safety Code section 33492.91 (d) authorizes, the Redevelopment Agency for the Mare Island Redevelopment Project Area to exclude certain specified information from the report that the agency is required to submit to its legislative body pursuant to Health and Safety Code section 33352.

Items which the Agency is authorized to exclude from the report include, but are not limited to:

1) Subdivision (b), which requires the report to include a description of the physical and economic conditions specified in Health and Safety Code section 33031 that exist in the area that cause the project area to be blighted.

2) Subdivision (d), which requires the report to include an explanation of why the elimination of blight and the redevelopment of the project area cannot reasonably be expected to be accomplished by private enterprise acting

alone or by the legislative body's use of financing alternatives other than tax increment financing.

Some observers might believe that the authority to exclude these items from the report is an exception from the existing requirement that the redevelopment agency demonstrate, based on the current standards for plan adoptions under Community Redevelopment Law, that the area is blighted. It is not my intent to modify existing standards which are required for plan adoptions.

In providing the Redevelopment Agency for the Mare Island Redevelopment Project Area with the authority to not include the information in the items outlined above with their specific cross-references to the general provisions of Community Redevelopment Law (CRL), it is my intent that the special and unique definitions of a blighted area and blighting conditions which are specified in **SB 1035** may be used by the Redevelopment Agency for the Mare Island Naval Shipyard relative to the adoption of a redevelopment plan.

More specifically, it is my intent that the Redevelopment Agency is authorized to use the definition of conditions which cause blight provided in Health and Safety Code section 33492.11 rather than Health and Safety Code section 33031 as provided under the general provisions of CRL.

Additionally, it is my intent that the Redevelopment Agency may use the definition of a blighted area pursuant to Health and Safety Code section 33492.95 rather than the general definition under CRL pursuant to Health and Safety Code section 33030 or the definition of a blighted area under the general provisions of Chapter 4.5 of the Health and Safety Code relating to military base closure redevelopment agencies pursuant to Health and Safety Code section 33492.10.

By printing this letter in the Journal, I hope to avoid any confusion or misunderstanding regarding **SB 1035**. Thank you very much for your assistance with this important matter.

Sincerely,

MIKE THOMPSON
Senator, 2nd District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Sher was granted unanimous consent that the following statements of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 1829

August 31, 1994

E. Dotson Wilson, Chief Clerk
California State Assembly
State Capitol Room
Sacramento, California

Dear Mr. Wilson: I would request that the following letter, which speaks to my intent with respect to my AB 1829, be inserted into the Assembly Daily Journal:

It is my intent that Section 45000 of the Public Resources Code, as revised pursuant to AB 1829 of the 1993–94 Regular Session of the Legislature, is not intended in any manner to diminish the authority provided under current law for the California Integrated Waste Management Board to issue cease and desist orders for violations of the Act.

Thank you for your assistance in this matter.

Sincerely,

BYRON D. SHER, Chairman
Assembly Natural Resources Committee

Legislative Intent—Assembly Bill No. 3425

August 30, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: Assembly Bill 3425 makes procedural changes to the Oil Spill Prevention and Response Act. There are two drafting errors in the bill which may cause misinterpretation. These errors cannot be corrected because the deadline for bill amendments this session has passed.

My intent in this bill is to require the oil spill administrator to hold a hearing prior to adopting regulations which differ from the recommendations of the harbor safety committee if requested by specified individuals. On line 10, page 8 and on line 7, page 12, the bill requires the administrator to hold a hearing if these individuals request notification of the regulations. This makes no sense; the word "notification" was intended to be "a hearing."

It is also my intent in this bill to clarify that the administrator need hold only one hearing when adopting regulations of specified findings regarding the regulations. The relevant provisions of the bill, on lines 20–24, page 8, refer only to adoption of findings; they should also refer to regulations.

It is my intent to seek statutory amendments to correct these errors next year.

Sincerely,

BYRON D. SHER, Chairman
Assembly Natural Resources Committee

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Caldera was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

August 31, 1994

E. Dotson Wilson
Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

RE: Legislative Intent—Assembly Bill No. 3101

Dear Mr. Wilson: I am writing to request this letter be printed in the Assembly Journal.

The intent of the Legislature in enacting AB 3101 is to declare existing law on the legal requirements for waivers in guaranties of loans or obligations.

Third party guaranties are one of the most common forms of additional collateral in financial transactions. Without these guaranties or any other viable secondary source of repayment, the beneficiaries of the guaranties (such as lenders and landlords) would be reluctant to enter into many commercial loan and lease

transactions, especially in today's real estate and commercial markets where the long term value of real or personal property collateral is so unpredictable.

For a guaranty to have any value, the guaranty must be enforceable at the outset of the transaction. An essential element in ensuring that the guaranty would be enforceable as an unconditional source of repayment is to have the guarantor waive, by express contract, defenses that would otherwise apply to preclude the enforceability of the guaranty. One such waiver, commonly referred to as a "Gradsky waiver," was validated by the California Court of Appeals decision in *Union Bank v. Gradsky,* 265 Cal. App. 2d 40 (1968) and has been used in loan guarantees for over 25 years.

Recent inconsistent court decisions have called into question the effectiveness of the language in certain existing guarantee waivers, including Gradsky waivers, and consequently, have created uncertainty for all commercial lenders. By setting forth a clear statutory standards for all guarantee waivers, as well as "safe harbor" language for Gradsky waivers, AB 3101 will bring certainty to an area plagued by conflicting court decisions and will ensure that guaranties continue to be an effective and reliable means for encouraging growth in California's economy.

Sincerely,

LOUIS CALDERA, Assembly Member
Forty-sixth District

Assembly Member Pringle was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 2941

August 30, 1994

Assembly Speaker Willie Brown
Room 219
State Capitol

Dear Speaker Brown: Assembly Bill 2941 was introduced at the request of the Orange County Water District (District) to amend the Orange County Water District Act (Chapter 924 of the Statutes of 1933) in order to streamline some administrative features of the District. In April, I amended AB 2941, also at the request of the District, to amend the Act to require the cities of Anaheim, Fullerton and Santa Ana to appoint the member of the Board of Directors representing division 8, 9 and 10 to a fixed term of four years.

This amendment will cause a more orderly, logical and accountable means of representation for the three cities on the District board of directors. It is also my intent that, through this amendment, the District will be eligible to represent special districts on the board of the Local Agency Formation Commission according to section 56332 of the Government Code by meeting the criteria of an Independent Special District as described in section 56044.

Yours truly,

CURT PRINGLE, Assembly Member
Sixty-eighth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Epple was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 12

August 31, 1994

The Honorable Willie L. Brown, Jr.
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker:

RE: ASSEMBLY BILL 12 (EPPLE)

It is the intent of the Legislature in the adoption of AB 12 to reduce the exposure to liability for negligence in providing certain instructions by telephone.

The language of proposed Section 855.9(b) has been a source of concern for the City and County of Los Angeles. The section states that:

> "[t]he immunity specified in subdivision (a) shall only be applicable if the person providing prearrival medical instructions has satisfactorily completed a course of training

that meets the standards of, *and in providing the prearrival medical instructions, follows the guidelines and procedures of, any one of the following. . .*"

(Emphasis added)

The intent of the bill is that guidelines provided by the course of training and the "dispatch cards" used by dispatchers in the field should indeed be followed. The fact that the word "followed" is used in the bill does not mean, however, that the dispatch cards have to be *slavishly* followed, or else liability immediately attaches. In fact, there may be many times that a dispatcher will interrupt the continuous reading of the instruction cards, whether it is to calm the caller down, to get a better location of the incident, or tell the caller not to hang up. It was never the intent to attach liability to dispatchers who do not use the word "the" in an instruction, or to penalize dispatchers who need to repeat a portion of an instruction to a caller who does not understand it the first time. *The intent of Assembly Bill 12 was to grant the immunity so long as the dispatcher was trained and gives the instructions in a manner so that the substantive content of the instructions is not altered or affected* Any other reading of the section is contrary to the intent of this measure. Emergencies are fluid events, and while the giving of emergency medical instructions is important, so is calming the caller down, dispatching the equipment, and making sure the caller understands the previous instruction before going on to the next one.

Sincerely,

BOB EPPLE, Assembly Member
Fifty-sixth District

August 31, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Dotson: We, the undersigned believe AB 645 was inadvertently passed. The action on the bill occurred quickly. We were unaware of the impact it would have. The Republican staff analysis advised a support position.

The basic concept of AB 645 is supported. However, its 1,000 foot radius first time offense penalty of a mandatory felony is excessive, particularly because it would net in people blocks away from a school who have no criminal intent but who may be transporting a firearm unlawfully due to ignorance of the law, inadvertent error, or because they were arbitrarily denied a concealed weapon permit by their local permit issuing agency but are in fear for their life.

It is clear that not everyone who might unlawfully transport a firearm within 1,000 feet of a school deserves to be convicted of a felony and thus have their lives ruined!

In recognition of this fact, Assembly Member Allen and the bill's sponsor the Attorney General committed to change the first offense felony penalty within 1,000 feet of a school to a wobbler, thus giving the courts discretion to make the penalty for the violation commensurate with the gravity of the offense. Another bill authored by Assembly Member Allen, AB 1308, was amended in the Senate to accomplish this objective.

When AB 1308 reached the Assembly for concurrence on the Senate amendments, the bill was sent back to the Assembly Public Safety Committee where there was no hearing.

The bill's passage was necessary in order to avoid the unjustified excessive impact on persons undeserving of the mandatory first offense penalty. Unfortunately, this did not occur.

Legislative Intent—Assembly Bill No. 2716

August 31, 1994

Mr. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: This letter is to clarify my intent, and that of the Legislature, in writing and enacting AB 2716 (Penal Code Section 2933.1) to ensure that the maximum reduction pursuant to Article 2.5 (commencing with section 2930) of Chapter 7 of Title I of Part 3 from a defendant's term of imprisonment imposed as a result of conviction of a violent felony, as specified in subdivision (c) of Section 667.5, be fifteen percent (15%).

In enacting Penal Code section 2933.1, it is my intent and that of the Legislature to ensure that the maximum fifteen percent reduction apply to a defendant's entire term of imprisonment, so long as the defendant has been convicted of at least one violent felony, as specified in subdivision (c) of Section 667.5.

It is further my intent, and that of the Legislature, in enacting Penal Code section 2933.1 to ensure that the maximum fifteen percent reduction apply with equal force and effect to actual custody served prior to imposition of the term of imprisonment for a violent felony, as specified, pursuant to Penal Code section 2900.5.

Finally, it is the intent of the Legislature in enacting Penal Code section 2933.1 to create no right to credit not otherwise provided by any other section of law.

Sincerely,

RICHARD KATZ, Assembly Member
Thirty-ninth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Barbara Friedman was granted unanimous consent that the following statement of legislative intent be printed in the Journal:

Legislative Intent—Assembly Bill No. 801

August 30th, 1994

E. Dotson Wilson
Chief Clerk
California Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I am submitting this letter to the Assembly Journal to clarify legislative intent with respect to Assembly Bill 801.

Last month, the Legislature passed and the Governor signed AB 167, Chapter 140, Statutes of 1994. AB 167 created the Battered Women Protection Act of 1994. For the current fiscal year, this legislation directs $11.5 million to battered women shelters and $3.5 million to domestic violence prosecution units in city and district attorney offices.

AB 801 contains important clean-up legislation to the Battered Women Protection Act. I want to clarify legislative intent behind the part of Section 10 that modifies Section 3 (b) (B) of Chapter 140.

This section of AB 801 allocates half of this year's shelter assistance ($5.75 million) to augment the existing funding that battered women shelters currently receive from the Office of Criminal Justice and Planning (OCJP). The funding is to be distributed by the Department of Health Services in proportion to the percentage of the total state funding that each shelter currently receives from OCJP. Further, this money is to be used by the shelters for the purposes of Section 300.5 of the Health and Safety Code as specified in 300.5(a) and (b). This money is not subject to the other requirements of Section 300.5, including the requirements regarding the advisory council.

However, the money appropriated for a comprehensive shelter-based services grant program in the portion of Section 10 that modifies Section 3(b)(A) of Chapter 140 is subject to all of the requirements of section 300.5 of the Health and Safety Code as is any future money appropriated to this shelter-based services program.

Sincerely,

BARBARA FRIEDMAN, Assembly Member
Fortieth District

Legislative Intent—Assembly Bill No. 600

August 29, 1994

Mr. E. Dotson Wilson
Chief Clerk of the Assembly
Assembly Chamber

Dear Chief Clerk: With this letter I wish to express my intent regarding the use of the following term "disrupting the normal functioning of a health care facility" in AB 600.

As defined in AB 600, "disrupting the normal functioning of a health care facility" means "intentionally rendering or attempting to render a health care facility temporarily or permanently unavailable or unusable by a licensed health practitioner, the facility's staff, or patients".

An example of such activity in California is the use of butyric acid in the walls of the clinics, as well as tying up phone and fax lines to physician offices.

This term is used to align state law with the objectives of the Federal Access to Clinics Entrances Act. I hope this letter clarifies present concerns regarding the use of this term in AB 600.

Sincerely,

JACKIE SPEIER, Assembly Member
Nineteenth District

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Assembly Member Bronshvag was granted unanimous consent that the following communications be printed in the Journal:

August 31, 1994

Joe Holsinger, Deputy Superintendent
Department of Education
Governmental Affairs Office
721 Capitol Mall, Room 506
Sacramento, California

Dear Mr. Holsinger: I introduced AB 3516 on behalf of over 130 school districts. This bill would have waived penalties for any of these schools whose audit reports for independent study programs did not meet the "strict compliance" reporting requirements.

Earlier today I received your letter expressing your willingness to waive penalties where inadvertent or technical errors occurred. At this time, I respectfully request that the Department of Education in conjunction with the Department of Finance make the appropriate adjustments in school apportionments for all school districts found out of compliance for minor or inadvertent errors.

Thank you for your attention to this matter.

Sincerely,

VIVIEN BRONSHVAG
Assemblywoman, Sixth District

California Department of Education
August 31, 1994

E. Dotson Wilson, Chief Clerk
California State Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I am writing to confirm the position of the California Department of Education concerning two issues related to AB 3516 (Bronshvag). First, under current law, the Department of Education is required to make appropriate adjustments in school apportionments for all audit exceptions when they are identified. However, the Department may, with the concurrence of the Department of Finance, waive audit adjustments that are determined to be either minor or inadvertent. In the case of small audit adjustments for inappropriately claimed independent study ADA, the Department of Education intends immediately to ask the Department of Finance to give their approval to waive these minor and inadvertent errors prior to the First Principal Apportionment in February 1995 when these adjustments would ordinarily be made.

The second issue concerns the Adult Education independent study programs found to be in noncompliance with current law in Kerman Unified School District and other districts which contracted with Central California Consulting (CCC). It is the intent of the Department of Education to seek fair and equitable settlements for all inappropriately claimed ADA. However, the Department is equally committed to developing payback schedules that are sensitive to the overall financial health and educational programs of

the districts involved. In no case does the Department of Education intend to require Kerman Unified or the other involved districts to pay back the full value of all inappropriately claimed ADA.

Respectfully,

JOE HOLSINGER, Deputy Superintendent
Governmental Policy Branch

RECESS

By unanimous consent, at 9:55 p.m., Speaker Brown declared the Assembly recessed.

REASSEMBLED

At 9:55 p.m., the Assembly reconvened.

REPORTS OF STANDING COMMITTEES

Committee on Ways and Means

Date of Hearing August 31, 1994

Mr. Speaker: Your Committee on Ways and Means reports:

Senate Bill No 1479

With amendments to the recommendation Amend, and do pass, as amended

VASCONCELLOS, Chairman

Above bill ordered to second reading.

COMMUNICATIONS

The following communications were presented by the Speaker, and ordered printed in the Journal:

August 31, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Dotson: Please be advised that I have appointed the following Assemblymembers to the Assembly Joint Legislative Committee on Information Technology in State Government:

Debra Bowen, Vice Chair
Cruz Bustamante
James Rogan
John Vasconcellos
Ted Weggeland

Sincerely,

WILLIE L. BROWN, JR.
Speaker of the Assembly

August 31, 1994

E. Dotson Wilson
Chief Clerk
State Capitol, Room 3196
Sacramento, California

Dear Dotson: Please be advised that I have appointed the following Assemblymembers to the Assembly Joint Oversight Committee on Lowering the Cost of Electric Services:

Byron Sher, Chairman
Julie Bornstein
Mickey Conroy
Gwen Moore
Bruce McPherson

Sincerely,

WILLIE L. BROWN, JR.
Speaker of the Assembly

The following explanations of votes were presented by the Chief Clerk, and ordered printed in the Journal:

August 31, 1994

Mr. Dotson Wilson
Chief Clerk of the Assembly
Room 3196—State Capitol
Sacramento, California

Dear Dotson: On Thursday, August 25, when the roll call was taken on Senate Bill 692, an inadvertent "No" vote was recorded under my name.

As I have no way to change this vote, I would like the journal record to clearly reflect my strong support for this legislation and my intention to be recorded as an "Aye" vote.

Your consideration of this request is greatly appreciated.

Sincerely,

DORIS ALLEN, Assembly Member
Sixty-seventh District

August 31, 1994

Honorable Willie L. Brown, Jr.
Speaker, California State Assembly
State Capitol, Room 219
Sacramento, California

Dear Mr. Speaker: I respectfully request that the record reflect my intention to vote "aye" on AB 1836.

When the vote was taken, I inadvertently voted "no". Then when I attempted to change my vote "no to aye", I mistakenly referred to the wrong file number.

Thank you for your consideration in correcting this matter.

Sincerely,

MICKEY CONROY, Assembly Member
Seventy-first District

August 31, 1994

The Honorable Willie L. Brown, Jr.
Speaker, California State Assembly
State Capitol
Sacramento, California

Dear Speaker Brown: On August 25, 1994, I was inadvertently recorded as an "aye" vote on AB 2810.

I would like to have it noted in the journal that I absolutely do not support AB 2810 and would like to be recorded as having "abstained".

Your consideration of this request would be greatly appreciated.

Sincerely,

BOB EPPLE, Assembly Member
Fifty-sixth District

August 31, 1994

Mr. E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol
Sacramento, California

Dear Dotson: It has come to my attention that although I announced several vote changes yesterday, August 30, I inadvertently failed to sign the necessary paperwork. As such, I would like the record to reflect the following vote changes:

Item #	*Bill*	*Vote Change*
42	AB 2801	No to Aye
47	AB 2973	No to Aye
86	AB 1056	No to Aye
193	SB 2071	Aye to Not Voting

Thank you for your attention to this matter.

Sincerely,

TRICE HARVEY, Assembly Member
Thirty-second District

Assembly Bill No 1029
Assembly Bill No. 3287

And reports the same correctly enrolled, and presented to the Governor at 11 15 p m , August 31, 1994.

E. DOTSON WILSON, Chief Clerk

MESSAGES FROM THE GOVERNOR

The following veto messages from the Governor were received and ordered printed in the Journal and the bills ordered to the unfinished business file:

Veto Messages—Assembly Bill No. 1464

Governor's Office, Sacramento
August 31, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1464 without my signature.

This bill would require the Commission on Teacher Credentialing to survey teacher credentialing programs to determine the extent to which gender equity training is included, and to adopt or revise program standards as they relate to such training.

This is a matter that would be better addressed administratively, rather than through legislation. I will be requesting the Commission on Teacher Credentialing to undertake a broader examination on the extent to which the need exists to remove, by specific counseling or instructional modification, any artificial barriers to greater academic participation and achievement by individual students for any reason, as well as the specific concern about teacher attitudes based on student gender which prompted introduction of AB 1464.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 2426

Governor's Office, Sacramento
August 31, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2426 without my signature.

This bill would require local governments, including special districts, to award preference points to veterans for hiring purposes under their civil service systems.

Last year I vetoed similar legislation which would have required local agencies to offer the same credits to veterans as the state does. As I indicated last year, I support preference points for veterans. My support is most recently evidenced by my signature this month of AB 412 (Conroy), which provided preference points for veterans in state open promotional exams. I do not, however, believe it is appropriate for the state to mandate personnel practices on local governments.

As the author acknowledges, many local entities already give preference to veterans. I continue to encourage other jurisdictions to adopt this practice on their own initiative.

Cordially,

PETE WILSON

RECEIPT

I acknowledge receipt this 31st day of August 1994, at 11:25 p.m., of Assembly Bills Nos. 1464 and 2426, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Karen Morgan.

RALPH ROMO
Chief Assistant Clerk of the Assembly

MESSAGES FROM THE GOVERNOR

The following veto messages from the Governor were received and ordered printed in the Journal and the bills ordered to the unfinished business file:

Veto Message—Assembly Bill No. 2810

Governor's Office, Sacramento
September 11, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2810 without my signature.

This bill would establish a process for couples to register as domestic partners with the Secretary of State. As a domestic partner, these individuals would be entitled to hospital visitation rights and broader rights in conservatorships. Additionally, domestic partners

would be added to the forms provided for statutory wills. This provision, however, would not permit a domestic partner to automatically inherit property in the absence of a will.

AB 2810 is unnecessary to achieve its specific aims in terms of hospital visitation, conservatorship, and testamentary disposition. There are already provisions in existing law allowing the naming of any individual as a beneficiary in a will or creating a durable power of attorney. Therefore, these goals of AB 2810 can be achieved by exercising appropriate foresight.

Furthermore, the changes sought by the bill can all be made without creating in law some substitute for marriage. If seniors continue to be concerned that there are federal disincentives to marriage, I am supportive of efforts to remove economic penalties that serve as an impediment to marriage. As to the provision regarding hospital visitations, I am issuing an Executive Order that will allow competent adult patients to designate whomever they choose as hospital visitors. The only remaining question presented by AB 2810 is the proposed registration of domestic partners.

According to census figures cited by the author, 86 percent of the audience for AB 2810 are heterosexual couples who live together but do not marry. That is, and should be, their choice as it is for any individual in a free society.

But government does have a role, indeed an obligation to adopt policies that encourage and reward marriage and the formation of strong families—families that provide the fundamental and best hope of preventing increasing welfare dependency and increasing teen-age crime and violence. A society that devalues marriage, and which accepts illegitimacy as commonplace, encourages the explosion of teen-age out-of-wedlock births that California has in fact experienced. It is a tragic mistake to do so with heavy costs that penalize both the children of child-parents and society as a whole.

Moreover, the Legislature has recently enacted important reforms to California's welfare system which include a so-called "wed-fare" provision which explicitly recognizes that state government has a duty to encourage marriage and to assist in keeping low-income fathers in the home of welfare recipients, not to drive them out, as welfare requirements have done heretofore.

We need to strengthen, not weaken, the institution of marriage. In virtually every culture, marriage has been deservedly celebrated as a relationship demanding commitment and unselfish giving to one's family—especially to one's children. Government policy ought not to discount marriage by offering a substitute relationship that demands much less—and provides much less than is needed both by the children of such relationships, and ultimately much less than is needed by society.

Governor's Office, Sacramento
September 11, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1358 without my signature.

This bill would define booth renters in the cosmetology industry as employees, rather than independent contractors, unless they meet 10 specified conditions.

Under current law, the Employment Development Department determines, on a case-by-case basis, the employment status of booth renters in the cosmetology industry. Given the complexity in the possible arrangements between salon owners and cosmetologists, a case-by-case determination would seem to make more sense. These are small businesses that should have the right to determine what arrangements would make their business most economically feasible.

Veto Message—Assembly Bill No. 2682

Governor's Office, Sacramento
September 11, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2682 without my signature.

This bill would emphasize that tuberculosis testing, treatment, and referral services may be provided through the Healthy Start program. AB 2682 would also allow the Healthy Start program to use local health department TB control funds for its local matching funds requirement.

At first glance this bill appears to promote TB control efforts; however, it is unnecessary and presents a false picture of enhancing such efforts. Proponents of the legislation argue that this bill would bring existing resources to bear on the problem of TB control among public school students by legislatively authorizing a specific TB control component in the existing Healthy Start program. Healthy Start currently provides for health services with no exclusions. Specifying that certain TB services be included is not necessary.

Additionally, both local health department TB control funds and Healthy Start program funds referred to in this bill are state general fund dollars. Using state general fund dollars to meet a state general fund matching requirement undermines the intent of requiring local matching funds in the first place.

Finally, this bill is undoubtedly intended to address the situation in which low wealth school districts are unable to come up with a local match. The remedy the author is pursuing in this instance is already available under existing law. When a school district cannot provide local matching funds for its Healthy Start program, the Superintendent of Public Instruction is allowed to waive the requirement, which I would endorse under these circumstances.

AB 2682, while well-intentioned, would allow avoidance of a local match requirement regardless of the financial situation of the school district.

Governor's Office, Sacramento
September 11, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2907 without my signature.

This bill would require that one of the existing nine representatives from organized labor and community-based organizations be nominated by the California Commission on Aging to represent the interests of older workers on the State Job Training Coordinating Council (SJTCC).

Mandating the nomination of a member by a specific organization limits the Governor's appointing authority and sets a precedent for other organizations to request the same accommodation. Existing state and federal requirements for establishing SJTCC membership are already very prescriptive and, among other things, require that members who are appointed to represent labor, community-based organizations and the general public must include individuals who have experience in organizations serving older Californians.

Finally, the California Task Force on the Employment of Older Workers currently functions under the umbrella of the SJTCC, thereby ensuring the Council's attention to older workers' issues and the promotion of the effective, coordinated delivery of state and federal services to older workers.

This bill would permit new state employees in education related departments who were employed by school districts to remain in the teachers' retirement system (STRS) instead of becoming members of the state system (PERS).

Under current law, the state provides retirement benefits for all newly hired employees under the PERS program. This bill would instead provide a more costly retirement option for a select group of

employees. This is inequitable. Moreover, retirement benefits should be discussed and agreed upon through collective bargaining prior to resolution through legislation.

Governor's Office, Sacramento
September 11, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3339 without my signature.

This bill would purportedly authorize school districts to use volunteers for maintenance projects.

School districts need no such authorization, because the Education Code is based on a permissive construction. Section 35160 of the Education Code states that the governing board of any school district may initiate and carry out any programs or activities which are neither prohibited by law, nor inconsistent with the purposes for which school districts are established.

In contrast, enactment of AB 3339 would reverse this situation, rendering a permissive activity carried out by volunteers to one that would only be allowed under the following constraints:

* with approval of the classified employees' union;
* the project cost could not exceed $10,000;
* if the volunteers were supervised by an employee; however, the employee cannot be required to work overtime;
* the governing board must first adopt a resolution that the project was delayed by budget constraints and would not be accomplished without volunteers.

The provisions of AB 3339 are remarkable for their counter-productivity in the existing ability for school districts to use volunteer assistance.

To the Members of the California Assembly:

This bill would include the development of bilingual teachers of mathematics, science and technology within the goals of the Science, Mathematics, and Technology Teacher Pipeline Program.

The purpose of the Pipeline program is to bring minority students through elementary, secondary, and postsecondary education into the teaching ranks. To require the Pipeline program to expand to include bilingual teachers of math and science does not advance this purpose.

Since these subjects will be taught in English in secondary grades to students who will be required to apply what they learn in employment and other circumstances that require English language proficiency, this added requirement of AB 3556 adds a burden to no purpose, and in fact could operate to frustrate the basic purpose of the Pipeline program. Not all minority students who would otherwise qualify admirable may be bilingual.

Governor's Office, Sacramento
September 15, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3801 without my signature.

This bill would require health care service plans to file certain revenue and expense information with the Commissioner of Corporations and requires the Commissioner to compile and report this information. The bill requires the Commissioner of Insurance to make a similar report for disability insurers.

The information that would be reported by this bill is already filed with the Commissioner of Corporations by health care service plans, and is available to the public. Existing regulations allow the Commissioner to require health care service plans to justify their administrative costs.

The reports that would be required by this bill may actually be misleading because competitors in health care delivery serve different types of groups with different benefit plans, choices, and rates. Financial profiles of this type would not be useful to individuals

who choose health care plans based on quality, service, benefit choices, and price.

The purposes of AB 3801 will better be served by vigorous marketplace competition.

I am returning Assembly Bill No. 2080 without my signature.

This bill would amend the California Work-Study Program to encourage colleges and universities to place their work-study students with organizations that can access funds provided through the National and Community Service Trust Act.

Unfortunately, it would also reduce the current emphasis on work-study placements in the private, rather than public or nonprofit sectors. It further would unnecessarily restrict the average work-study wage to a minimum established in the 1993–94 fiscal year. Such a constraint might result in fewer numbers of students who can receive assistance.

Governor's Office, Sacramento
September 15, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2623 without my signature.

This bill would require the Assembly Office of Research (AOR) to conduct a study regarding expansion of the California Air National Guard's (Guard) mission to include fire suppression and investigations of accidents and safety practices involving California Department of Forestry and Fire Protection (CDF) aircraft.

Requiring AOR to study the feasibility of adding fire suppression duties to the mission of the Guard ignores the fact that the Army and Air National Guard have carried out aerial fire suppression duties for CDF for more than 30 years. The Guard is used extensively on major fires in the State, consistent with their primary mission. The bill also requires AOR to study the feasibility of requiring CDF aircraft to comply with the Federal Aviation Act of 1958 relating to civil aircraft airworthiness. CDF already follows stringent safety standards for government firefighting aircraft and includes other agencies in aircraft accident investigations to assure objectivity.

It is also worth noting that CDF, the Office of Emergency Services and the Army National Guard have agreed to, and are carrying-out, a pre-incident alerting and activation system based on predicted fire, weather and resource status. Ignoring the agreement between the three firefighting entities, this measure calls for the development of a plan which already exists.

Finally, since only CDF possesses the background to carry out the detailed provision of this measure, I am concerned that the study will largely fall upon them to complete. As a result, this costly study will have a major fiscal impact on CDF and the participating departments during a time that tries the scarce resources of our state agencies.

I am puzzled by the legislature sending me a bill that mandates that the Assembly Office of Research conduct a study. Clearly, the AOR falls within the legislature's jurisdiction; therefore, this measure is unnecessary and ill conceived.

This bill would require the State Teachers' Retirement System to study and report by May 1, 1995 on the feasibility of providing ancillary benefit enhancements for its members.

While the bill provides for recovery of the $75,000 appropriation contained in the bill from those members of the System who would receive any benefit enhancements subsequently adopted, there is no assurance that the Teachers' Retirement Fund will be fully reimbursed by the members. Instead, the STRS Board or the sponsor may undertake this study using its own resources if it so chooses.

This bill would require Prison Industries Authority to purchase its lumber from vendors selling lumber from sources within the state if the lumber is comparable in price and quality and meets specified standards to be implemented by December 1, 1995. A two-year phase in period is provided.

It is essential to California's economic growth that we retain and expand access to foreign markets for a variety of California businesses, large and small. Protectionists measures, such as this one, inevitably yield retaliation, thereby foreclosing our opportunities abroad. This would be especially devastating to the economy as we are attempting to encourage new industries in California to offset reductions in other industries.

Morever, I am concerned that this bill would likely be found unconstitutional since similar issues have been previously addressed by the California Court of Appeals and the California Attorney General. In the court case of *Bethlehem Steel Corp. v. Board of Commissioners* (1969), the California Court of Appeals held that a Buy American statute was an encroachment upon the Federal government's exclusive power and was an undue interference with the United States' conduct of foreign relations. In 1970, similarly, the State Attorney General determined that Buy California provisions are unconstitutional.

September 15, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3812 without my signature.

This bill would require each county which contains state responsibility areas to submit their land use and conservation elements to the State Board of Forestry for review and comment. This bill would also clarify that vegetation clearance activities conducted for fire safety purposes would not be construed as taking of an endangered or threatened species.

I share the concern that legitimate fire clearance around residences should not be inhibited by the prohibition against taking listed species under the Endangered Species Act. This concern was obviated by the Department of Fish and Game issuing a comprehensive permit which extends to all persons and public agencies engaged in fire prevention activities. The permit applies statewide and ensures that already mandated vegetation clearance for fire prevention purposes can be done without the threat of prosecution under the Endangered Species Act.

Permitting this breadth of formalized state agency comments on local planning documents is unprecedented and would greatly increase state involvement in matters of local jurisdiction. There is no

reasonable justification for requiring counties to send their land use and conservation elements to the state for review and comment. If there are existing problems between the state and local agencies in regards to planning and fire prevention, those problems have not been identified.

It is my belief that citizens must be given the right to protect their life and property from potentially disastrous fire. Unfortunately, AB 3812 does not contribute to this objective.

This bill would authorize 1937 Act counties to "pre-fund" additional cost of living adjustments for retired beneficiaries.

Current law already authorizes counties to provide annual COLA benefits up to five percent on a discretionary basis, and even allows a banking procedure whereby special COLAs beyond any particular year's inflation rate can be paid.

This bill would provide automatic COLA increases in periods of high inflation. While I understand that these benefits would be pre-funded, it is unwise to strip the local agencies of their discretion to decide whether to provide the COLAs in the first place.

To the Members of the California Assembly:

I am returning Assembly Bill No. 231 without my signature.

This bill would change the name of the circulation element of the General Plan to "transportation and circulation element" and would add bicycle and pedestrian routes to the required material within the element.

I believe this bill could result in increasing state mandated costs on cities and counties.

Furthermore, this bill would require all cities and counties to formally consider in their planning processes factors which are of importance to only a few cities and counties. It is inappropriate and fiscally imprudent for the state to impose on all cities and counties

requirements which are relevant to only a few. Those cities and counties whose residents consider bicycle and pedestrian routes to be critical should consider these factors in their planning processes, but the other cities and counties should not be required to devote scarce resources to dealing with irrelevant factors.

This bill would authorize the Department of Transportation to assume the lead agency role and be responsible for coordinating with other affected agencies in conducting a study of the intercity rail stations throughout California. The purpose of the study, referred to in the bill as Mission 98, would be to identify both the physical and operational elements for each station that are inconsistent with other stations or inadequate under newly enacted statutes, and to make the necessary improvements to correct these deficiencies by 1998.

While there may be some value in such a study, I must veto this bill as funding to complete the study is not available from the sources identified in the bill. Moreover, the Department would have to redirect resources from other higher priority programs to comply with the survey mandated by this bill.

This bill would require the Department of Transportation to notify the Legislature when all of the authorized bonds have been issued and sold.

This measure is unnecessary. This information is readily available to anyone who requests it. Cluttering up the codes with these kinds of information requests should be discouraged as it wastes taxpayer's money.

This bill would require the Department of Toxic Substances Control, in conjunction with the State Water Resources Control Board, to prepare and submit a report to the Legislature concerning statutory or regulatory changes that may be necessary to facilitate a coordinated program for the regulation of underground storage tanks used for the storage of hazardous wastes.

The California Environmental Protection Agency is in the midst of evaluating the laws governing the regulation of underground storage tanks containing hazardous waste. The evaluation is being developed with the help of affected state and local regulatory agencies and will create a more unified and productive environmental program. AB 3603 is duplicative of the ongoing effort and for that reason is unnecessary.

I am returning Assembly Bill No. 3770 without my signature.

This bill would require the Department of Toxic Substances Control to provide public notice, and a public comment period, of every Department determination to classify a waste as nonhazardous or issue a variance, unless an emergency condition exists.

This measure creates a protracted process to obtain a variance while not providing any greater environmental protection. AB 3770 would apply to a large number of decisions involving no discretion or where the Department has determined the decision would be exempt from the California Environmental Quality Act (CEQA). In those instances where the Department's decision is not exempt from CEQA, AB 3770 would result in requiring two separate public notices and comment periods.

This would create an unreasonable burden on the Department, delay decisions needed for business operations and would serve no useful public purpose.

Governor's Office, Sacramento
September 17, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3392 without my signature.

This bill would require the Department of Conservation (DOC) and the California Integrated Waste Management Board (CIWMB) to enter into a memorandum of understanding to ensure better

coordination of recycling programs administered by the two entities. It would also require DOC, CIWMB, and the Department of Toxic Substances Control (DTSC) to establish an interagency task force to coordinate market and technology development activities and to report to the Governor and the Legislature on the implementation of this section.

The DOC and the CIWMB have identified areas of overlap and duplication and initiated administrative steps to ensure that coordination takes place. The requirement for a MOU, an interagency task force, and reports back to the Legislature are unnecessary and an infringement upon the functions of the Administrative branch.

This bill would require the Department of Social Services to maintain and annually report specified statistical information regarding licensed foster family and group homes.

The responsibility for licensing foster family homes is divided between the State and the counties. The State licenses eleven counties and does not receive or maintain licensing information from the other forty-seven counties.

Accordingly, the statistical information gathered by the State would not provide a complete and accurate picture of the statewide licensing activity.

Additionally, given the State's current fiscal constraints, I cannot support the General Fund costs imposed on the Department of Social Services by this bill.

This bill would require that financial discharge plans be completed for all residents of institutions operated by the state departments of Mental Health and Developmental Services and would allow their personal deposit funds to exceed the current $500 limit.

This bill is unnecessary. Currently, each institution has trust officer staff that monitor the personal deposit funds, and prepare financial plans for residents about to be discharged. Current law also permits the accumulation of funds in excess of the $500 limit for burial needs, community placement or emergency needs.

More importantly, however, this bill would impose significant costs to the state by requiring a discharge plan for all residents whether or not there is any expectation that they will be released. Also, to the extent that all residents are allowed to maintain increased funds in their personal deposit funds, the state must pick up a larger share of the residents' cost of care.

There is no evidence to suggest there is a public health problem. No case of serious infection resulting from these practices has been reported to the State in recent years. In fact, the California Conference of Local Health Officers sees this bill as unnecessary from a public health perspective.

This bill would, in pertinent part, provide that a county juvenile justice commission may make direct application for federal funding.

This bill would eliminate the position of "juvenile traffic hearing officer" and establish the position of "juvenile hearing officer." Under this measure, juvenile hearing officers would be authorized to hear virtually any infraction or misdemeanor committed by a minor.

AB 3099 is unnecessary, and will result in increased costs to counties. Transforming traffic hearing officers into hearing officers in order to have these individuals hear a broader range of cases is not needed because the juvenile court already has the ability to appoint superior court commissioners and juvenile court referees to hear excess juvenile cases.

Additional costs will arise because probation officers normally serve as traffic hearing officers in addition to their other duties and at no extra cost to the county. By requiring that all hearing officers must be members of the California State Bar, this bill will effectively eliminate the ability of probation officers to serve as hearing officers.

Although this measure would require the Judicial Council to study the impact of converting traffic hearing officers to hearing officers, effective public policy would dictate that the Judicial council study the issue *before* the bill is enacted.

The responsibility to handle "whistleblower" complaints currently rests with the State Auditor. That is where it should be. But AB 1207 would extend that authority to other agencies. The independence of the state auditor is the best guaranty that such complaints will be treated in a careful, fair and apolitical manner.

This bill would extend the date on the pilot project for Stanislaus County to conduct all-mail ballot elections from January 1, 1995 to January 1, 1996. It also would permit San Joaquin County to conduct such elections until January 1, 1996.

There was a great deal of opposition to the original pilot program in 1992 due to concern that all-mail elections invite voter fraud. The bill was enacted with the understanding with the proponents that the program would not be extended nor expanded until a report was issued detailing the incidence of fraud involved in the all-mail elections program, if any.

Consistent with that agreement, I am unwilling to consider an extension of the program until the statutorily required report is issued in December of 1994.

RECEIPT

I acknowledge receipt this 21st day of September 1994, at 4:10 p.m., of Assembly Bills Nos. 1207 and 3062, without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Karen Morgan.

RALPH ROMO
Acting Chief Clerk of the Assembly

Veto Message—Assembly Bill No. 2113

Governor's Office, Sacramento
September 23, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2113 without my signature.

This bill would change the membership of the CSU Board of Trustees and require the Governor to consult with an advisory committee on gubernatorial appointments.

There is no evidence that the existing Board of Trustees appointment process is not functioning effectively. Under current law, the state Senate plays a direct role in the approval of members of the Board of Trustees. A two-thirds vote is required for a gubernatorial appointee, and there are thorough hearings on every nominee. Consequently, the additional advisory committee proposed in this bill is unnecessary and would only slow down and politicize the appointment process.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 241

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 241 without my signature.

This bill would require the Department of Health Services to increase the reimbursement rate for Norplant contraceptive devices.

I vetoed a similar provision in the 1994 Budget Act. The basis of that veto still applies.

Veto Message—Assembly Bill No. 292

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 292 without my signature.

This bill would require all persons licensed by the State Board of Barbering and Cosmetology to receive 16 hours of continuing education in health and safety topics for every two-year renewal cycle. The Board would be required to approve continuing education programs.

Further, the Board would be required to monitor health and safety complaints and to evaluate whether the required continuing education has had an impact on reducing such complaints.

The continuing education requirements proposed by this bill would unnecessarily increase costs for licensees. Additionally, this bill would be premature since regulations are only now being proposed to implement last year's SB 2044 which set certain uniform standards to be met by any board or commission offering continuing education courses. Until these regulations are in place, this bill is premature.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 352

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 352 without my signature.

This bill would authorize the local agencies to offer a disability retirement benefit equal to 75% of salary for one year for certain specified employees who are not police officers in lieu of workers compensation benefits.

Such generous leave of absence benefits are, and should be, reserved for those employees who face extraordinary risks in the course of their daily employment. Such benefits are generally reserved for peace officers. It is inappropriate to extend such benefits to others whose employment does not present the frequent and serious hazards faced by police officers.

However, nothing in current law prevents such employees from receiving additional short or long term benefits similar to those provided in this bill if the local agency approves.

Cordially,

PETE WILSON

Veto Message—Assembly Bill No. 399

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 399 without my signature.

This bill would require persons operating suction dredging equipment on private property to obtain written permission from the land owner prior to accessing that person's land.

The Penal Code already prohibits an individual from entering onto private property without the consent of the owner, and requires that consent to be in writing if "no trespassing" signs have been posted. In addition, the Department of Fish and Game has recently adopted regulations that would allow it to issue dredging permits for specified areas only.

I have always been a strong advocate for private property rights. Blatant disregard for another person's property is never justified and should not be tolerated. Entering private property without permission is already prohibited by current statutes. I do not believe that the individuals that are violating these laws would be any more conscientious or honest if they are asked to inform officials of where they intend to conduct their activities. Instead, these provisions would simply impose additional standards and costs on those individuals that have been legitimately conducting dredging activities within the boundaries of existing law, and would create the undesirable precedent of imposing like restraints on others, such as campers, hikers, and fishermen.

PETE WILSON

Veto Message—Assembly Bill No. 1222

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1222 without my signature.

This bill would require the State Water Resources Control Board (SWRCB) to develop and maintain a registry of instream flow reservations and dedications, and appropriate $125,000 from the Environmental License Plate Fund (ELPF) for this purpose.

While the objective of the bill has merit, I am concerned about the immediate and future funding of the registry. The ELPF already is fully subscribed so that there are no funds available for the appropriation in the bill. In addition, the cost estimates for developing and maintaining the registry greatly exceed the level of the appropriation in the bill.

Since the imposition of Proposition 117, the demand on ELPF dollars has greatly increased. This measure would further exacerbate the funding problem for both ELPF and the SWRCB because it does not identify a long term funding source. In light of these facts, it would be unwise to codify this unfunded mandate.

Veto Message—Assembly Bill No. 1443

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1443 without my signature.

This bill would require employee leasing companies to register with the Department of Industrial Relations for a fees of $150.

Employment agencies were deregulated in 1989. This was a positive step for the business climate in California. While I appreciate

the author's intent to ensure workers' compensation coverage for employees, more regulation is not the answer.

Just like other employers, leasing companies are monitored by the Department of Industrial Relations for compliance with the workers' compensation requirements. The Department has exercised and will continue to exercise its authority to pursue both civil and criminal action against employers in violation.

In addition, we have realized the benefits from last year's historic workers' compensation insurance reform. Reasonably priced workers' compensation insurance is attainable for employers and, as a result, any compliance problems should diminish.

It does not make sense to create a new regulatory scheme with a corresponding bureaucratic organization when the protections under current law are sufficient.

Veto Message—Assembly Bill No. 1545

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1545 without my signature.

This bill would require senior lien holders in the event of foreclosure to pay two months of the defaulting homeowners' delinquent debts to the homeowners' association.

This bill is unnecessary. Current law affords homeowner associations sufficient protections to protect their interests against a defaulting homeowner. They have the right to obtain a judgment lien for unpaid assessments that may be recorded against the property interest of the homeowner as a cloud on title to that interest which must be paid or assumed upon sale of the property. Also, the association may seek a deposit from the start or may seek personal recourse against the homeowner by attaching the homeowner's wages or personal property.

This bill may have the unintended effect of making these properties unattractive to lenders and would ultimately restrict the availability of credit to the condominium/townhouse market, which would especially impinge upon first-time homebuyers with low or moderate incomes.

PETE WILSON

Veto Message—Assembly Bill No. 1879

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1879 without my signature.

This bill would require the Public Utilities Commission (PUC) to grant an additional baseline allowance to customers over the age of 62 residing in specified climatic zones within the boundaries of the Southern California Edison Gas Company.

Existing law currently requires the PUC to grant this additional baseline allowance to residential customers dependent on

life-support equipment, customers that are paraplegic or quadriplegic, and patients suffering from multiple sclerosis or scleroderma.

In granting residents 62 years of age and older that reside in climate zones 15 and 16 with this additional baseline allowance without regard to income, this bill would merely shift the costs of those services—which according to the sponsor would be approximately $2 million annually—to other ratepayers. This would result in a direct subsidy by the remaining ratepayers.

As an alternative, I have signed SB 1632 (Kelley). Without the age restrictions contained in this bill, SB 1632 would allow residents in those same climatic zones within the boundaries of the Southern California Edison Company that purchase and install high-efficiency heating or cooling equipment to participate in an experimental electrical residential rate schedule. Additionally, SB 1632 does not cost-shift the revenue loss to other ratepayers.

In addition, I have encouraged the Public Utilities Commission to include, as part of its ongoing review of the restructuring of the electric industry, a thorough investigation of the needs of all Californians who reside in extreme climatic zones in an attempt to determine a method of apportioning these costs efficiently and fairly. Lowering the cost of energy for certain ratepayers while shifting those costs to other consumers does not accomplish the goal of actually reducing rates. It merely shifts the burden to another class of ratepayers.

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2463 without my signature.

This bill would allow any person or entity to bring an action for civil penalties, declaring relief or equitable relief against any person or entity who violates the McAteer-Petris Act or the Suisun Marsh Preservation Act.

Creating a new and duplicative level of enforcement bureaucracy, as proposed by AB 2463, will only further burden the courts and create more regulatory gridlock without any commensurate environmental gain. Moreover, the bill's provision that would allow the award of attorney's fees to a prevailing plaintiff creates ill-advised incentives in a regulatory climate that is already top-heavy with costly litigation. We need to bring better order and direction to our current enforcement program; overburdening it with new enforcement authority is not the answer.

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2541 without my signature.

This bill would change the definition of substitute, short-term, school district employees who are excluded from classified service from 195 days a year to 135 days a year.

Under current law, an employee who works less than 195 days a year is not entitled to full benefits. By reducing the requirement to 135 days, far more school employees will be eligible for full benefits.

By increasing the number of persons entitled to full benefits, the measure would have the effect of increasing school district costs and reducing flexibility at a time when districts most need to reduce costs and increase flexibility.

This measure would have the effect of reducing programs and services available to children in our schools.

To the Members of the California Assembly:

The measure would establish a new formula for allocation of transportation funds to school districts. The measure would increase funding for school districts that transport children from low-income families if sufficient additional revenues are appropriated.

Using the number of children from low-income families is one way of allocating transportation funds. However, it ignores other circumstances such as weather or geography which may have more relevance to a district's transportation costs.

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2841 without my signature.

This bill would authorize public agencies to require contractors to provide evidence of their professional experience with their bids on construction projects over $500,000. It would also allow the public agencies to use this information in evaluating which contractor to hire.

Under current law, local and state agencies must award public works contracts to the lowest responsible bidder according to objective criteria. The contractors who submits the lowest bid is awarded the contract if the contractor is properly licensed and the bid meets the specifications of the project.

The public works law deliberately precludes the use of subjective criteria in the award process. This is to keep the award process free of the possibility of favoritism. Instead, the experience of the bidding contractor is considered as part of the licensing process, which more appropriately involves the use of subjective criteria.

This bill would allow districts applying for lease-purchase funds to exclude a maximum of two preschool teaching stations from the calculation of the area of existing adequate space.

Due to an inadvertant oversight, and contrary to the author's intent, this bill adversely affects year-round school districts. For that reason, the author requested the bill's return without a signature.

Veto Message—Assembly Bill No. 2913

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2913 without my signature.

This bill would enact a five-year air quality research program to study California's particulate matter problems and identify potential control strategies. AB 2913 would also create an advisory committee to make recommendations on program priorities and requires an annual report to the Governor and Legislature.

I recognize that reducing particulate matter (fine, inhalable particles) will be one of the most technically challenging air pollution problems facing California in the future. In light of that, I have already taken action to deal with this issue and have provided funding to the Air Resources Board (ARB) in this year's budget to embark on a research project to address the air pollution problems caused by particulate matter.

A Research Screening Committee, comprised of experts and scientists, is assisting the ARB in developing the particulate matter study and recommendations. Moreover, the ARB program is tackling the problem on a comprehensive basis, unlike the five-year program proposed in AB 2913. This bill is duplicative of existing administrative efforts and therefore is unnecessary.

This bill would eliminate the authority of the Board of Governors of the Community Colleges to amend regulations related to establishing the appropriate percentage of hours of credit instruction that should be taught by full-time instructors.

This limitation on the Board of Governors would be inappropriate and counterproductive. This flexibility is necessary for the determination of the most appropriate use of part-time instructors and available resources in order to maintain a beneficial balance of quality, choice and access.

Veto Message—Assembly Bill No. 3328

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3328 without my signature.

This bill would permit the Department of General Services, with the consent of the Department of Mental Health, to amend the lease currently held by a nonprofit company known as Napa Valley Product Services Industry (PSI) for 10 acres of land located on the grounds of Napa State Hospital. Currently, there are 30 years remaining on the existing 50 year lease held by PSI. This lease, which was negotiated 20 years ago, contains terms which include a monthly rental amount that is far below fair market value.

This legislation would permit the extension of the lease for another 20 years, increase the acreage leased and prohibit the State from changing the terms of the lease, including the currently monthly rental rate, without mutual agreement from PSI. These provisions may force the State to enter into an agreement that is fiscally unsound and not in the best interest of the State.

In addition, it is inappropriate to negotiate the terms of a lease through statute which could set a bad precedent for other State leases.

This bill would require the state to provide federal child care grant funds to the Child Development Programs Advisory Commission (CDPAC) for uses related to before and after school child care. The measure requires the CDPAC to conduct a "summit" on the issue,

and in addition requires local planning councils to work with CDPAC to measure the need for expanding before and after school child care.

This bill is unnecessary. The state already requires that before and after school care be addressed in every plan for expenditure of federal child care funds. In addition, the California School Age Consortium, which is a group of before and after school providers, currently has informational materials and conducts an annual conference.

This bill would provide for implementation of a pilot program creating a new annual entitlement of $100 as a clothing allowance for AFDC families with at least one child enrolled in school. The pilot would be limited to residents of San Pedro and would be conditioned on federal financial participation.

Current law already incorporates an allowance for clothing in the determination of AFDC benefits. Further, although the bill is conditioned on federal financial participation for the increased grant, the state and the County of Los Angeles would incur unfunded expenditures for administration and evaluation of this pilot.

This bill would require notification of a family member or other specified individuals within one hour after placing an adult patient in restraints in a general acute care hospital.

The provisions of this measure are more appropriately addressed through regulations. Currently, there are regulations for most health care facilities governing the use of restraints. There are no such regulations for general acute care hospitals; however, proposed regulations are currently under development in the Department of Health Services.

To the Members of the California Assembly:

I am returning Assembly Bill No. 3742 without my signature.

This bill would require the Department of Water Resources (DWR), in consultation with the State Department of Health Services and the Center for Irrigation Technology at CSU Fresno, to adopt revised standards for installation of graywater systems.

The measure would also allow local jurisdictions to modify the standards adopted by DWR as appropriate to the local area. This raises the potential that less stringent standards than those adopted by the state would be allowed under the provisions of this measure. It hardly seems appropriate to create a state health and safety standard only to leave open the possibility for attenuating its provisions.

There is no doubt that graywater plays an important role in meeting California's water needs, but this must be done in concert with health and safety standards.

This bill would require the Chancellor of the Community Colleges to establish a system to evaluate the Matriculation program of community college districts throughout the state. As part of the evaluation program the measure requires onsite evaluations of at least 20 percent of the community colleges.

This measure is unnecessary and needlessly limits the Chancellor's ability to direct limited resources to priority oversight activities. Current regulations require the Chancellor's office to conduct annual evaluations of district matriculation programs. In addition, the overall Matriculation program is reviewed annually through a combination of site visit findings, annual progress and expenditure reports, and local college research studies on the effects of matriculation services on student outcomes. This appears to be a reasonable level of review.

Governor's Office, Sacramento
September 24, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3798 without my signature.

This bill would make changes in the California Health Facility Construction Loan Program (Cal-Mortgage). The bill, among other

things, would reduce the equity and collateral requirements for community health facilities.

My Administration recognizes the important role community health clinics play in the delivery of services. The Office of Statewide Health Planning and Development has implemented a written Cal-Mortgage Plan with a set of guiding principles and priorities. Under this Plan, the highest priority is to insure loans for small, community-based projects intended to meet the needs of medically underserved communities.

However, my desire to promote the development of needed community clinics must be balanced with my responsibility to be a prudent manager of public funds. The ultimate guarantor of loans insured by this Program is the State's General Fund.

Accordingly, I must weight any changes to existing law, like those proposed by this bill, against the potential adverse impact to California's taxpayers. In fact, earlier this year I signed SB 1705 (Russell) which enhanced the Office's authority to manage the insured portfolio in order to minimize risk to the General Fund. By contrast, this bill would diminish the security of the program by reducing equity and collateral requirements for community clinics.

Veto Message—Assembly Bill No. 3422

Governor's Office, Sacramento
September 25, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3422 without my signature.

This bill would codify the State's program for reutilization of surplus property which is currently set forth in the State Administrative Manual. This bill would also direct the Department of General Services to keep a list of all emergency vehicles declared surplus by specified governmental agencies.

This bill would add unnecessary additional steps in the disposal of State property and is contrary to one of the goals of my Administration, to streamline government operations. Further, a program to dispose of State property was established many years ago and there is no indication that the program has not operated in an efficient and effective manner.

Finally, this bill would increase the costs of various State and local governments due to the provisions for holding surplus emergency vehicles for 90 days before selling time. Since the Department of General Services, Office of Procurement tracks available emergency equipment and makes these vehicles available to State and local agencies, this provision is not cost beneficial.

I am returning Assembly Bill No. 2790 without my signature.

This bill would require the Legislative Analyst to direct the Director of General Services to contract for a disparity study of minority, women, disabled veteran, and disabled persons business enterprise in California.

This bill is unnecessary. Under legislation I signed in 1991 (SB 718, Roberti), the University of California is directed to conduct a disparity study using private funds. There is no compelling reason why this responsibility should be transferred to the Legislative Analyst or the Department of General Services, especially since the University of California has indicated its intent to move ahead with this study once funding is identified.

This bill would transfer the authority from the County Board of Supervisors to the County Board of Retirement to grant optional post-retirement survivor benefits.

The Board of Supervisors is comprised of elected officials who are held accountable to the public for their allocation of public funds. Members of the County Board of Retirement, on the other hand, are not elected officials predominantly and are not directly accountable to the people.

Nevertheless, this bill would vest the largely non-elected body with the authority to grant retirement benefits. Bodies without this accountability should not be authorized to underwrite benefit programs, particularly since they have no liability to finance the costs.

This bill would establish a propane education, research and safety program within the California Energy Commission, to be funded by a one-half cent/gallon surcharge on propane. AB 2255 also would establish an "advisory group", to make "recommendations" not on policy, but as guidance to the Commission in approving or denying individual grants and contracts involving propane. The award of such grants and contracts is clearly an executive rather than a legislative function.

This advisory group includes members appointed by the Legislature. This provision is in conflict with the separation-of-powers principle embodied in our Constitution.

To the Members of the California Assembly:

This bill would require the State Board of Forestry to adopt regulations, initially as emergency regulations, governing the conduct of timber operations for the protection of watercourse and lake protection zones that are adjacent to Class 1 fish-bearing streams supporting major runs of coho salmon. Provisions of the bill would not go into effect until the Department of Interior lists the coho salmon as either threatened or endangered under the federal Endangered Species Act.

The Board of Forestry has the authority under existing law to adopt regulations it deems necessary to protect the coho salmon. In fact, the Board is in the process of reviewing their regulations for this very purpose. If, as stated by the author, the Department of Interior does take action during the fall of 1994 to list the coho salmon, this measure—which would not take effect until January 1, 1995—could actually delay a more prompt response by the State needed to protect this resource.

Governor's Office, Sacramento
September 26, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3038 without my signature.

This bill would direct the Office of Criminal Justice Planning to give preferential consideration, in the award of federal funds, to grant programs that allow state and local law enforcement agencies to rehire career law enforcement officers who were laid off, and that implement community-oriented policy programs.

Under the provision of AB 3038 the Office of Criminal Justice Planning would lose flexibility in the determination of optimal use of federal grant funds. This bill would compromise the Office of Criminal Justice Planning's ability to award funds to law enforcement agencies based on such variables as crime rate, population, size of law enforcement agency, officer to population ratio, and efficacy of the grant proposal in addressing its intended purpose or goal.

It may well be that the programs contemplated by this bill are more deserving than others. That is just what OCJP is designed to decide.

This bill would direct the Department of the Youth Authority (CYA) to build its next facility after January 1, 1995 in Fresno County, unless there are compelling considerations to justify another location.

The requirements of this bill are unduly restrictive, as the Fresno County site may not be most appropriate for a new Youth Authority facility. AB 3247 would substantially limit CYA's capacity to choose among potentially more viable options, including utilization of closed military facilities. In addition, it is not clear that Fresno County remands a sufficient number of wards to warrant a new CYA facility in the area at this time, (approximately 3 wards a month). Equally unclear is what "compelling considerations" the bill would contemplate as justification to build a facility at a site outside Fresno County.

With those changes, I would sign this legislation.

This bill would require the Department of Health Services to revise emergency regulations by April 1, 1995 to include a provision requiring the department to hold a public hearing prior to renewing a license issued to persons engaged in the disposal of low-level radioactive waste to land.

The Department of Health Services will conduct public hearings under the Radiation Control Law as necessary and appropriate to ensure that the issuance of licenses is consistent with the public health and safety. This bill would authorize school districts to include instruction in multiculturalism in their social studies classes. Its intent, among other things, is to encourage students to analyze contemporary issues, develop cross cultural perspectives, and increase cultural awareness.

This bill is unnecessary as Section 51220 of the Education Code which lists the subjects included in social studies courses is sufficiently broad to include discussions of multiculturalism in the context this bill addresses. For example, the code section cited requires that social studies courses include discussions of eastern and western cultures and civilizations, relations of persons to their human environment, and human rights issues, with particular emphasis on contemporary issues.

Governor's Office, Sacramento
September 27, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3120 without my signature.

This bill would expand the provisions required in disaster and emergency response plans developed by the state's university systems to include post-emergency response plans.

Existing statute already requires the universities to develop and file evacuation plans *and expand* those plans as necessary. This language is broad enough to allow the university systems to include post-emergency response guidelines without statutory direction. A requirement in statute mandating their inclusion is unnecessary micro-management on the part of the state.

Governor's Office, Sacramento
September 27, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 230 without my signature.

This bill would require the Governor to include in the State Environmental Goals and Policy Report a comprehensive State plan outlining the goals and policies for other Statewide issues.

The objective of a State comprehensive plan is to centralize State information that would result in more sensible land use patterns with emphasis on housing, environmental protection and resource conservation, cost effective use of infrastructure, and a closer integration of transportation, housing, air quality and energy. I agree that this document would be a benefit to the State and local governments.

Pursuant to recommendations made by the Growth Management Council, the Office of Planning and Research has already begun to work on the development of a State plan. That office has been instructed, however, to work on that project only as existing resources permit.

Although I believe that a comprehensive State plan could be of some assistance to the State, total General Fund expenditures for developing the plan contained in the bill would be approximately $792,000. Unfortunately, this level of expenditure cannot be justified in this era of limited General Fund resources.

September 27, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 827 without my signature.

This bill would, among other things, require the Superintendent of Public Instruction to work jointly with federal and local agencies to develop food program participation in license-exempt child care centers.

While the objectives of this effort are laudable, it will create a new, and unfunded, obligation for the State Department of Education (SDE). Child care facilities which are exempt from licensing do not need to meet state licensing standards. However, if those facilities begin participation in the federal program envisioned by the proponents, it will require SDE to undertake a new monitoring function for those agencies to ensure that they meet the federally-required standards. Such a function can neither be absorbed by SDE within existing budgetary allocations, nor are there federal funds available for this new function.

While I am supportive of the intent of AB 827, and have no objection to most of its provisions, I cannot sign legislation that adds an unfunded burden to the state.

This bill would change the procedure for making drilling reports maintained by the Department of Water Resources (DWR) available to scientists, engineers and public agencies.

I am concerned that although this bill may appear to offer individuals the security of confidentiality, it also mandates DWR to make the data available to state and local entities. I believe this conflict violates the provider's request to keep the information confidential. Rather, the provider should have the assurance that when they request confidentiality, the information will not be distributed to any individual or governmental entity outside of DWR.

I would consider exceptions needed for public safety. And obviously, if the property owner has no objection, he/she may voluntarily release DWR from the confidentiality requirement.

To the Members of the California Assembly:

I am returning Assembly Bill No. 2840 without my signature.

This bill would require the Public Utilities Commission to hold public participation meetings throughout the state to allow utility customers to voice their opinion on public utility rates or services.

The Public Utilities Commission was established to protect the interests of the public in having reliable and affordable services from "natural monopolies." To this end, the Commission takes comments and testimony from any individual, group, or company with a concern about any proceeding. Numerous statutory provisions direct the Commission to take specific factors into account when considering a matter before it, and these statutes are regularly augmented. In addition, the Division of Ratepayer Advocates was created to forcefully represent, on a full-time basis, the interests of utility customers in Commission proceedings.

Despite all of these policy guideposts and organizational safeguards, this bill proposes to micromanage the operations of the California Public Utilities Commission by mandating the method it must use to elicit the concerns of utility ratepayers. The bill's requirement that the Commission conduct as many as 20 meetings around the State each year, in addition to its other public meetings, constitutes overreaching. It is especially objectionable because the Legislature has failed to provide the $223,000 which the Department of Finance estimates is the annual cost of complying with the bill.

The PUC has held hearings outside of San Francisco. It has also used new, two-way video technology in order to take testimony from people who could not attend a hearing in person. Yet this bill ignores these outreach efforts as well as the cost savings that technology can provide.

This bill would expand the North Coast Railroad Authority to include Sonoma and Trinity Counties, and generally provide that whenever funds for transit capital improvement (TCI) projects are used by public agencies to acquire railroad right-of-way, the right-of-way must be used for rail passenger, rail transit, or rail freight purposes.

In its attempt to address a specific issue involving railroad rights of way within the Authority's jurisdiction, this measure would restrict all railroad right-of-way purchases (involving TCI funds) by requiring that they be used only for rail purposes. Transportation programs must have flexibility to choose which mode of transportation represents the most cost-effective use of limited funds. The TCI program already has sufficient restrictions to ensure program money is spent as intended without imposing additional, unsubstantiated restrictions.

September 28, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2572 without my signature.

This bill would require the California Transportation Commission (CTC), by October 20, 1994, to approve or deny an application for $56.9 million in Proposition 116 Rail Bond funds for allocation to Caltrans for track, signal, and grade crossing improvements between Emeryville and Sacramento on Southern Pacific Railroad lines. If the CTC denies the application, the bill would require the CTC to immediately allocate the $56.9 million to Caltrans subject to specified conditions on the allocation of funds.

I appreciate the author's frustration with the inability of the California Transportation Commission, the Department of Transportation and the private railroad company to reach an agreement on the expenditure of these funds. It is inappropriate, however, for these negotiations to be determined by legislative fiat. I am concerned that the result of such legislation would only be protracted litigation.

Moreover, the Department is presently engaged in another round of negotiations with the railroad, and they remain hopeful that the remaining issues will be resolved in a timely manner.

September 27, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2869 without my signature.

This bill would expand eligibility criteria for subsidized child care to include families who need the care for family preservation and support.

Under current law, eligibility is dependent upon the parents of the child being either employed, seeking employment, in training, in an educational program, or incapacitated. AB 2869 does not define family preservation and support, nor does it establish any mechanism for verification of asserted need. Child care could be given to a parent who asserts that child care is needed for family preservation instead of to a low-income family with a goal of self-sufficiency.

Family preservation is an important goal. However, it is not clear that the provisions of AB 2869 will help achieve it.

Finally, the intent of the bill to establish the eligibility of caretaker relatives for child care services is unnecessary. Current law not only allows for the eligibility of relative caretakers, but gives most caretakers relatives first priority as child care providers.

This bill would require all Medi-Cal contracts with managed care providers to ensure the provision of the full range of services required by the federal Early Periodic Screening, Diagnosis, and Treatment (EPSDT) program and California's Child Health and Disability (CHDP) program. The bill also attempts to micro-manage precisely how managed care contractors must provide these services.

The goals of this bill would be better achieved by a system that measures performance and outcome rather than compliance with overly prescriptive specifications. In spite of the good intentions of the bill, these specifications will likely result in increased litigation, not improved health care services to children.

I vetoed a similar measure last year, Assembly Bill 1604. Preventive-services for children have been a cornerstone of this Administration. The Department of Health Services has acted administratively to meet the goals of AB 1604, by including scheduling and outreach requirements in its managed care contracts; and by working with managed care plans to ensure that these critical preventive services are provided. This work is underway.

Additionally, in my veto of AB 1604 last year I indicated my concern about the differences between AB 1604 and federal regulations. This defect remains in AB 3558.

This bill would require the Department of Social Services to establish a 3-county pilot project to provide Family Preservation and Support Services to juvenile offenders. Implementation of the project would be contingent on appropriation of funds in the annual Budget Act.

This bill is unnecessary. The 1994 Budget contains $5 million to start my Juvenile Crime Prevention Program at twelve sites around the state. A component of this program includes the First Offender Family Preservation Program which will provide an intense level of support services to the families of first-time juvenile offenders.

Additionally, the bill states legislative intent that counties should expend their family preservation funds on the program model embodied in the bill. The counties are better positioned to make this decision.

Finally, I have signed Assembly Bill No. 3364 (Bates) which would require counties to use the first year of federal family preservation funds to assess their needs and to prepare plans for the use of the

funds. Included in this assessment would be any needs identified by the counties associated with juvenile offenders.

September 28, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2082 without my signature.

This bill would have permanently reduced the amount of property tax revenue that would have been transferred from eight specific counties to the Educational Revenue Augmentation Fund for a total of $13,968,482 beginning in the 1993–94 fiscal year.

I am sensitive to the fiscal plight of counties, in particular our smaller rural counties. However I believe that this bill establishes a precedent of significant permanent relief which I cannot support given the fiscal condition of the State. Merced County, however, finds itself in truly a unique fiscal situation with little chance of economic gain in the short term given the pending closure of Castle Air Force Base. Because of that, I am requesting that the Director of Finance take appropriate steps to find a loan mechanism to provide Merced with some immediate fiscal relief.

In order to find a more permanent solution to our mutual fiscal problems, I remain convinced that the State and counties must work together to restructure our fiscal and program structures so that counties have the responsibility and ability to manage their resources and establish their program priorities. It is more than regrettable that supervisors do not have more flexibility to set their own local priorities so they can better manage their own affairs. I emphatically urge CSAC to seek legislative relief from state mandates that irresponsibly drive up the costs of county government. I have supported and will continue to support granting local government much greater mandate relief so they can exercise much greater discretion in setting and keeping local priorities.

This bill would designate the State Board of Education (SBE) as the sole state agency responsible for the administration of the state vocational education program. This bill would also delete provisions that relate to the act prior to the 1984 federal amendments.

Unfortunately, AB 2834 contains a fundamental flaw. After declaring that the SBE is the sole state agency with respect to the state vocational education program, it subsequently declares that the SBE's "***only*** responsibilities shall be those set forth in paragraph (1) of subdivision (a) of Section 2321 of Title 20 of the United States Code".

To the Members of the California Assembly:

I am returning Assembly Bill No. 3399 without my signature.

This bill would prohibit local education agencies from requesting a waiver from the State Board of Education on specified Education Code sections pertaining to salaries and benefits of local employees.

This bill would eliminate one option available to local districts in times of budgetary constraints. It would greatly reduce school district flexibility to negotiate with employee unions when faced with the need to make drastic budgetary cuts. For most school districts, salaries and benefits represent roughly 80 percent of a district's expenditures. If this waiver is unavailable, it could result in more insolvency and state bail-out loans. Schools that receive bail-out loans are required to repay the loans with interest from local funds which takes away money from instruction. Either way, if a school requires a bail-out loan or is forced to cut instruction money to pay for salaries and benefits, students will be forced to bear the cost.

This bill is going in the wrong direction. The Legislature and the Governor should be doing whatever possible to enhance local governing board flexibility, rather than adding constraints.

Veto Message—Assembly Bill No. 2944

Governor's Office, Sacramento
September 28, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2944 without my signature.

This bill would create a sixteen member California Sentencing Commission to formulate criminal sentencing guidelines.

AB 2944, by its legislative intent, favors a return to an indeterminate sentencing structure. Indeterminate sentencing, which was widely discredited in the 1970s, remains in disfavor with the law enforcement community. Indeterminacy, wisely applied, has a place in sentencing—in one strike rape and three strikes cases—not

in cases where discretion may be abused by a lenient Board of Prison Terms. Moreover, its expanded use eliminates the certainty in justice which the public desires.

This bill identifies real problems, but struggles, as does California in attributing causes and finding solutions. It presumes that the proliferation of prisoners is a problem attributable to sentencing structure and that remedies lie in the lowering of some sentences.

The growth of California's prison population is caused by many deplorable factors. Long prison sentences has not been one of them.

This bill would establish a two-year California Task Force to Promote Public Safety by Reducing Recidivism. Ten of the twenty-one appointments would be made by the Legislature.

This bill is materially the same as AB 1027, vetoed last year.

This measure would duplicate the current efforts of the Governor's Policy Council, the California Council on Criminal Justice, the Office of Criminal Justice Planning, and the Department of Alcohol and Drug Programs, which administers the California Master Plan to Reduce Drug and Alcohol Abuse. Moreover, this bill would require that the California Department of Corrections absorb the costs of the task force within its existing budgetary resources.

Considering California's current budgetary constraints, and that most, if not all, of the objectives of this proposed task force are already being met, or could be met by existing advisory boards and councils, the establishment of another task force is unnecessary, and fiscally unwise.

Moreover, I do not believe it is appropriate for the Legislature to make appointments to an entity charged with Executive Branch duties.

Governor's Office, Sacramento
September 28, 1994

To the Members of the California Assembly:

This bill would require the Department of Corrections to physically transport parolees, upon release, to the county from which they were committed, if in the interest of public safety and made a condition of parole. This bill would also require the Department of Corrections to develop a program, effective January 1, 1996, for transporting all parolees to the county from which they were committed.

AB 3331 is one of several bills which deal with local concerns that some counties have become home to a disproportionate number of

parolees. Unlike AB 3X and SB 1736, which I recently signed, this bill focuses on the physical transport rather than the equitable distribution of parolees.

In taking the approach that it does, AB 3331 could, if implemented, cost the state in excess of $7,000,000 per year busing parolees around the state. The cooperative effort between Corrections and counties contemplated under AB 3X is a much more promising approach with a more manageable cost.

To the Members of the California Assembly:

This bill would appropriate $50 million from the General Fund for allocation to counties for property tax administration. The Director of Finance would direct the State Controller to reduce state subventions to counties if the amount of additional property tax revenues to schools were less than $50 million. The bill, however, is technically flawed, and it is unlikely that state savings would actually be achieved.

The state recognizes it has an important interest in a well-administered property tax system and that counties have reduced local support for property tax administration because of their fiscal constraints. The administration of the property tax is currently a basic obligation of counties. Providing $50 million more than the $25 million we have already placed in the budget for state financial support for property tax administration is not the appropriate solution.

The problem should be addressed through a restructuring of the state-county relationship which provides counties with an adequate share of the property tax and which frees counties from mandated expenditure of local revenues. I made such a proposal as part of the Governor's Budget for 1994–95. I remain committed to that concept.

This bill would make a ticket seller who sell tickets for entertainment, such as theatrical, musical, or sporting events, civilly

liable to a ticket buyer if the seller contracts to sell tickets to the event and fails to provide the tickets at the contracted price.

This bill purports to prevent situations like the one which occurred when ticket brokers failed to deliver tickets to Wisconsin fans for the Rose Bowl Game. I wholeheartedly support measures to prevent the perpetration of fraud against consumers.

However, this measure would not squarely address the main problem of those aggrieved in the Rose Bowl case. The protections in this bill only apply to contract violations. Many of the Wisconsin fans, however, did not in fact contract for tickets; they were relying on representations from brokers that the tickets would be available. This bill would not provide a certain remedy for them.

By contrast, Assembly Bill No. 3083 which I have signed this date, provides protections against ticket brokers who represent they will deliver tickets and fail to deliver. It also requires a ticket seller before contracting with a buyer to have the ticket in his or her possession, or to have a contractual right to obtain the ticket, or to disclose to the purchaser that a ticket may not be available. These protections, especially the disclosure requirement, provide a greater measure of protection from ticket fraud and a better way to avoid such disputes in the first place.

Therefore, although this bill is on the right track, I have signed AB 3083 instead to protect Californians and visitors from outside the state from ticket fraud.

This bill would permit local health officers to operate immunization registry systems, and allow designated health care providers to disclose information, such as home addresses and telephone numbers, to health, education or child care officials without the patient's consent. The bill would also permit the release of a mother's address from the child's birth certificate to the local health department for the purposes of monitoring and generating immunization reminder notices.

The goals of this measure are laudable, to increase the rate of immunizations and to vaccinate on a timely basis. However, the bill makes no provision for a patient to refuse the release of his or her home address and telephone number.

I fail to see how sharing a patient's personal information with health officers, schools and day care providers increases immunizations and timely vaccinations. Current law prohibits admission to private or public schools, child care centers, day nurseries, nursery schools, family day care homes or developmental centers unless the child has been immunized. The immunizations must be documented.

The proponents argue that sharing of this information among health providers will be a useful and effective tool in immunizing children. While I agree that this would be helpful, the bill goes much farther than just sharing information among medical providers.

This well-intentioned bill has an unintended consequence. Individuals have a legitimate need to protect the confidentiality of their home address and telephone number. This bill makes no recognition of that need.

This bill would, among other things, reduce the requirements for establishing satellite sites for Adult Day Health Care (ADHC) facilities.

The reduction in requirements would allow the number of ADHC sites to expand, adding new General Fund costs to the Medi-Cal program. Given the State's fiscal condition at the current time, I cannot entertain a discretionary program expansion of this kind.

Moreover, current law provides for ADHC expansion under reasonable conditions. For example, there is currently no restriction on the number of beneficiaries a satellite facility can serve. Nor generally is there a restriction on the number of satellite facilities that ADHCs can have pursuant to current criteria.

This bill would provide legislative intent that each school district maintain a disclosable public record of each *suspension* stating the cause, the penalty imposed, and the gender, age and race or ethnicity of the pupil. Information required to be maintained for pupil *expulsions* under current law would be expanded to also include the specific terms of the expulsion, and the gender, age, and race or ethnicity of the pupil. This bill also would allow teachers to give full credit to a pupil for the satisfactory completion of any assignments or tests missed during the suspension.

Under current law, school districts maintain documents regarding the expulsion of a pupil, including the reason for the expulsion. Such information may be useful in developing school safety policies at the local level. However, the documentation for suspensions, which can occur for many and varied reasons, would impose a significant additional cost to school districts that would be of doubtful benefit to the State.

This bill would extend certain pharmacist functions that are currently restricted to hospital settings, including adjusting patient's prescriptions, to nonhospital settings such as outpatient and in-home care settings.

I recognize that the trend in health care is to shift treatment from inpatient settings to a variety of outpatient settings, including clinics and the patient's home for the management of drug therapy. Because of restrictions in current law, pharmacists are prevented from performing many functions such as monitoring and adjusting drug therapies in other than inpatient settings.

Proponents argue that patient safety will not be comprised by permitting pharmacists to adjust the drug regime in a home setting. The bill requires the pharmacist to participate with other professionals in development of protocols that permit the pharmacist to make an adjustment to the drug therapy.

I recognize the contribution pharmacists can and do make in the management of patient's medication, which is why I signed Senate Bill No. 1759. I am concerned, however, with the provisions of AB 3173 which permit pharmacists to adjust a drug therapy in the home.

There are critical differences between a clinic and a home. In a clinic, there is regular interaction between physicians and pharmacists; in addition, the medical records are easily accessible. The major distinction between a home and a clinic is the presence of a physician. While I recognize that the proponents of this bill attempted to ensure quality of care by 1) requiring the physician to refer each patient to the pharmacist and 2) subjecting all medication management to physician-approved protocols, these protocols cannot substitute for the physician.

E. DOTSON WILSON
Chief Clerk of the Assembly

Veto Message—Assembly Bill No. 12

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 12 without my signature.

This bill would confer conditional immunity upon emergency medical dispatchers who in good faith, and within their scope of employment, provide "appropriate prearrival medical instructions" over the telephone.

AB 12 is the product of an exhaustive multi-year effort by firefighters, emergency workers, and other concerned citizens who have sought to provide communities throughout California with assurances that, if they acted in good faith, they could provide CPR and other "911" emergency assistance without threat of liability. The original AB 12 provided just such assurances. Regrettably, because of a succession of tortured amendments designed to accommodate the California Trial Lawyers' Association, that is not the version that the legislature passed.

Although, the bill now purports to provide immunity to specifically trained emergency medical dispatchers, AB 12 will instead—by requiring adherence to a strict protocol—create a presumption of negligence in the absence of full compliance. Indeed, one version of AB 12 expressly created just such a presumption. It is for that reason that AB 12, with the trial lawyers' amendments, now excites the concern and vigorous opposition of cities and counties who were enthusiastic supporters of the bill without the amendments.

Emergency medical dispatchers work under extreme pressure, often providing medical instructions to a panicking parent or spouse. The spectre of liability in the event the dispatcher alters instructions, even in good faith response to crisis, has caused communities in most California counties to decline to give emergency medical advice over the telephone.

The threat of litigation has caused millions to be denied emergency medical instruction. That threat would be severely exacerbated by the amendments which the Trial Lawyers' Association has inserted into AB 12. The bill's checklist of statutory hurdles, creates more, not fewer, grounds under which medical dispatchers may be sued. AB 12 does a disservice to those it purports to protect.

I am eager to sign a bill that provides real protection to emergency medical dispatchers so that their critical services can be made available to all Californians. I am frustrated and angered that I cannot do so this year.

AB 12, as it was introduced at the request of the California Firefighters' Association, gave that protection. As amended by the California Trial Lawyers' Association, it will create the very lawsuits it was intended to prevent.

Veto Message—Assembly Bill No. 2714

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2714 without my signature.

This bill would prohibit compensation increases for University of California and California State University top management when student fees are increased by more than ten percent in one year.

AB 2714 has an overly simplistic, and punitive, appeal. However, its provisions would seriously damage UC and CSU efforts with respect to recruitment and retention for their top management positions.

At best, this bill is disingenuous concerning the role of the Legislature in establishing the level of student fees. CSU must have significant support from the Legislature in order to raise fees in an amount greater than 10 percent. In contrast, the Regents of UC do not require legislative concurrence to raise fees, nor would they be required to adhere to the provisions of this legislation.

Specifically, the CSU Trustees are unable to raise student fees without the *express* concurrence of the Legislature, in the form of legislation requiring a two-thirds vote. *And, in fact, all fee increases authorized for CSU have been authorized by two-thirds of the Legislature.* If the Legislature does not want to increase student fees, the more appropriate method would be to not vote overwhelmingly for them, rather than first approving them, and then sending down a bill that punishes CSU management. This is a remarkably hypocritical piece of legislation.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2978 without my signature.

This bill would express uncodified intent language which would encourage school districts and county offices of education to establish community guidance schools for students who would normally be expelled from schools.

Students have the right to attend class in a crime-free and safe environment. Those who would abridge this right by selling drugs, assaulting teachers or fellow students, and bringing weapons onto school grounds should be expelled in order to protect our youth and educators. School districts and county offices of education currently have the option to suspend enforcement of an expulsion order for a period of one calendar year and may, as a condition of the suspension, assign the pupil to a program of rehabilitation, which can include assignment of the pupil to a continuation school, an opportunity school, or to a juvenile court school.

There are already sufficient provisions in existing laws to provide for the continuing educational needs of expelled students. Therefore, this measure is unnecessary.

This bill would establish county community school eligibility criteria for rent-free relocatable classrooms, auxiliary space and site purchase or lease under the Leroy F. Greene State School Building Lease-Purchase Law. The primary source of funds for this program would be voter approved general obligation bonds.

Although there is a need to provide classrooms for these students, the program proposed in this legislation is inequitable and too costly.

Under the proposed program, county community schools would be eligible to receive *rent-free* relocatable classrooms to accommodate all additional students enrolled since 1985–86 regardless of adequacy of existing facilities. In contrast, school districts are eligible to *rent* relocatable classrooms to accommodate additional students only to the extent that existing facilities are inadequate; school districts must pay annual rent of $4,000 per classroom. Further, it makes no sense to go back 10 years to provide eligibility for students who are currently served in existing classrooms.

Veto Message—Assembly Bill No. 3817

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3817 without my signature.

This bill would allow an air pollution control district to adopt an emission fee program to replace an equivalent measure in a Federal Implementation Plan (FIP). The fees must be used in the region where collected to either achieve air quality objectives or offset adverse economic impacts on those affected by the program. The FIP currently proposed for Los Angeles, Ventura, and Sacramento includes emission fees that must be deposited in the U.S. Treasury. This bill tries to ensure that such fees would remain in California.

I share the sponsor's concern about yet another federal proposal that would divert substantial monies from California's economic recovery to the federal treasury. This bill, however, is premature, puts unnecessary constraints on air quality plans, would jeopardize the state's ability to meet State Implementation Plan (SIP) requirements, and would add an unprecedented fee increase.

This bill is premature because the proposed fee programs in the draft FIP would not take effect for several years. This leaves ample time to respond if these FIP measures become a reality. Further, adoption of AB 3817 would send the wrong message to the U.S. EPA; your additional taxes on California jobs are ok, but only as long as we get the money.

The bill also constrains air quality planning by restricting an air district's ability to adopt the most cost-effective mix of rules. District rules are unlikely to match the FIP rules measure for measure. Some rules may need to be more stringent while others less so—this bill would not allow that flexibility and ensures that the final district plans are based on fees rather than non-fee alternatives that can achieve the same air quality benefits.

Finally, AB 3817 concedes a contested point that California citizens will accede to the FIP's proposed fee regulations. Many of the comments recently sent to U.S. EPA on the proposed FIP question the constitutionality of many of the subject fees, in particular, the interrelationship between the fees and the interstate commerce clause. I also question the wisdom of granting agencies, such as the South Coast Air Quality Management District, additional fee authority. This district's budget has increased by over 300% since 1983. This level of increase highlights the need for more deliberation on providing greater authority for air districts to raise unwanted fees on California business.

Veto Message—Assembly Bill No. 15

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 15 without my signature.

This bill would abolish the Franchise Tax Board (FTB) and would provide for the transfer of its powers and duties to the State Board of Equalization operative January 1, 1996.

AB 15 would centralize all state tax policy, implementation, and administration outside the executive branch of government. This makes no sense. Ultimately, the Governor is held accountable for the operations of state government, including the tax system, and should be.

In contrast, most other state revenue departments are administered by a director appointed by the Governor, and confirmed by the state Senate.

I support streamlining government and consolidating the Board of Equalization and the Franchise Tax Board. AB 15 is not the way to accomplish this purpose. The Administration sponsored legislation that would have created a Department of Revenue within the

Administration. That approach would avoid the conflict of interest inherent in AB 15, in which the Board of Equalization serves as both administrator of the tax system, as well as the appellate body for taxpayer appeals.

This bill would allow prevailing plaintiffs to recover attorney's fees and costs in litigation or arbitration relating to health insurance coverage for cancer and acquired immune deficiency syndrome (AIDS).

This bill fails to establish any requirement that the insurer or health care service plan must be determined to have acted in bad faith or without reasonable cause before an award of attorney's fees would be made. In addition, the bill allows the award of attorney's fees only to the plaintiff, and not to the defendant.

The bill would undermine the ability of managed care organizations to determine appropriate care and to control costs When there is a dispute over denial of a particular treatment, it should be handled through a careful review and dispute resolution process rather than through litigation. In fact, to that end I have recently signed into law Assembly Bill No. 3244 (Epple) which provides an appeal process for terminally ill patients.

The agreement may provide that any amendment to those general plan goals and policies shall not take effect unless the other agencies adopt parallel general plan amendments.

This measure calls for an unwarranted interference and intervention by the State into local and regional matters. Moreover, State law already permits local agencies to establish joint powers agencies which could be utilized to accomplish the goals of this legislation.

This bill would prohibit a regional water board from granting a variance for a new landfill that proposes to accept for disposal inert solids, and which is located in the City of Arcadia.

This bill would also prohibit the California Integrated Waste Management Board from concurring in the issuance, modification, or revision of a solid waste facilities permit for a disposal facility in the City of Arcadia, except under specified circumstances.

AB 2679 runs contrary to the existing solid waste management process which allows local governments to make their own decisions regarding land use planning. Existing law already prescribes an elaborate process for public review and comment and allows for a case-by-case review of individual solid waste landfill permits to ensure that the public health and environment are protected.

It is inappropriate for the State to adopt separate criteria for this one landfill. Decisions regarding site selection are best left to the local government's decision making process.

I am returning Assembly Bill No. 3019 without my signature.

This bill would request the University of California, in consultation with the directors of the Assembly and Senate Offices of Research, the California Research Bureau, and the Legislative Analyst, to conduct a study of the costs and contributions of immigrants to the state by June 30, 1995. This study would only be undertaken if the Regents of UC consented to do so.

The study called for by this bill would not distinguish between legal and illegal immigrants. *This distinction is real and important.* While it might be interesting for UC to conduct still further study on the costs and contributions of **legal** immigrants, our history is replete with evidence of their benefit to California. This is a state, and nation, of immigrants.

Without a directive from the legislature, UC scholars have already performed very useful studies of both legal and illegal immigration, including the harmful impact of illegal immigrants upon the employment of the most recently arrived legal immigrants. The federal government seems to have experienced great difficulty in determining the uncompensated costs for the services California taxpayers are required by federal law and neglect to provide to illegal immigrants. It would be much more useful if the Administration and Congress were to read existing UC studies that examine the costs and impacts of *illegal* immigrants, rather than continuing to blur the line between two very different populations, as have the studies which have been undertaken at federal direction.

To the Members of the California Assembly:

I am returning Assembly Bill No. 3129 without my signature.

This bill would require the Senate and Assembly Offices of Research, in consultation with the Office of Criminal Justice Planning, to establish a five member task force to facilitate state compliance with eligibility requirements for grant funds potentially available under the federal Violence Against Women Act of 1993.

Under the terms of the recently enacted HR 4603, part of the federal crime package, states may apply for federal funds for enforcement and prosecution efforts to combat crimes against women. Each applicant state will receive $500,000 and a pro-rate share, based on population, of any additional federal funds available.

It is unnecessary to establish a task force to determine this state's population. No other eligibility obstacles or requirements have been identified. If any such requirements do exist, the Office of Criminal Justice Planning has the authority to perform any administrative functions necessary for receiving and distributing federal funds for criminal justice.

While the need for another level of governmental bureaucracy is difficult to identify, the legislature may, if it wishes, direct the offices of research to study and report on the availability of federal funds without legislation.

This bill would require the Assembly Office of Research, in consultation with others, to develop a strategy to maximize immunization coverage of children when a national health plan goes into effect or if no national health care plan is enacted.

First, it is too early to predict what form any national health care plan would take. Second, this bill duplicates efforts currently underway.

Multiple public and private agencies in California have already engaged in collaborative planning processes and have developed strategic plans for childhood immunizations. Ten regional immunization coalitions were formed in the last two years. Each of these is a broadly collaborative effort involving the Department of Health Services, county health departments, government social service agencies, and many other groups in the private and public sector, including those identified in this bill.

In fact, in response to a proposed Administration-sponsored immunization initiative, broad-based and wide ranging discussions were held which resulted in a blueprint for action that was incorporated in the 1994 Budget Act.

Finally, the Legislature has the authority, without this bill, to direct the Assembly Office of Research to develop a strategy to maximize immunization of children.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1726 without my signature.

This bill would revise the procedures to be followed when an electronic data processing and/or telecommunications bid is being protested. These revisions include implementation of an arbitration pilot program, establishment of a Customer and Vendor Advocate and authority to pilot other alternative dispute resolution processes for bid protests.

While many of the provisions of this bill are very good, such as the use of alternative dispute resolution for bid protests, the areas of concern are so great that they outweigh the advantages. These concerns include provisions allowing protests to be lodged by vendors who failed to submit bids, as well as giving authority to the

State Board of Control to direct contract awards. In addition, the language describing the selection process and the scope of authority for the arbitrators relative to the Board of Control is very unclear.

In order to address the legitimate concerns addressed by this bill with respect to improving the bid process and providing alternative means of dispute resolution, I intend to issue an Executive Order establishing a Customer and Vendor Advocate within the Department of General Services. This person will function as an ombudsman to vendors and bidders—especially small businesses—seeking to do business with the State.

At the same time, I am directing the Department of General Services and the State Board of Control to study the use of alternate dispute resolution processes and begin a two-year pilot program using non-binding arbitration to resolve bidder disputes.

The use of non-binding arbitration will assist both vendors and state procurement officials in resolving bid protests more quickly and at less cost than is currently the case.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 939 without my signature.

This bill would revise the criteria for determining a good faith effort in meeting the minority business enterprise, women business enterprise, and disabled veteran business enterprise contract participation goals.

This bill would create a further disincentive for businesses, especially small business, from bidding on state contracts. Current requirements are already burdensome to small business and this bill would further complicate these requirements. Many small contractors do not have the staff to produce the documentation required by this bill. Thus, this bill would have the effect of discouraging small businesses from competing for State contracts and thereby reducing the pool of qualified bidders. Under this bill, State contractors would be judged not on their competency to perform the necessary work, but on their ability to manage the State's M/W/DVBE firms.

Moreover, it has not been demonstrated that there is a reason to further increase the cost of government in order to change the current M/W/DVBE process. According to the Department of General Services, the increased cost associated with M/W/DVBE goals is estimated at $6.5 million for Fiscal Year 1994/95. Given the current fiscal constraints in the State of California, I am opposed to adding costly and burdensome provisions to the contracting process.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2182 without my signature.

This bill would require the Bureau of Home Furnishing and Thermal Insulation within the Department of Consumer Affairs to establish by regulation, standards for the simulation of accelerated aging of insulation to ensure the performance expected during the design life of this material.

AB 2182 places an unnecessary administrative requirement on the Bureau. The Bureau already has adopted standards for insulation materials, and is conducting a study on longterm aging effects. These standards are intended to ensure the quality and the performance of insulation products. The Bureau requires insulation manufacturers to certify compliance with these standards in order to sell insulation in California.

Due to the Bureau's safety standards, sampling and testing program, and its certification program, the rate of fires resulting from insulation material being the first to ignite has been reduced so that those fires are an insignificant percentage of the fire safety problem in California. State fire incident statistics show insulation products to be the source of less than .01 percent of all fires annually, a threat considered insignificant by the State Fire Marshal.

Consequently, available information and statistics do not warrant this legislation. In addition, if such information should become available, the Bureau already has sufficient authority to act, if necessary.

To the Members of the California Assembly:

I am returning Assembly Bill No. 2408 without my signature.

Existing law provides that the manufacture, sale or offer for sale of a document by a person who knows or reasonably should know that the document will be used for a fraudulent purpose, is a criminal offense punishable either as a misdemeanor or felony.

This bill restates this current law and adds new penalties for repeat offenders. The bill exempts both existing law and the new provisions from the "three strikes law" and attempts to exempt its provisions from the "three strikes-and-you're-out" voter initiative in the event it is approved by the voters.

Unfortunately, AB 2408 actually decreases penalties for felony offenders who have previously been convicted of serious or violent crimes, and makes it less likely that they will be sent to state prison.

To the Members of the California Assembly:

I am returning Assembly Bill No. 2475 without my signature at the request of the Author.

Under current law, it is a felony to solicit another to commit a crime. This bill would expand the definition of solicitation to include solicitation to commit child abuse and solicitation of a minor to commit a felony offense.

The substantive provisions of this bill include positive changes to the law. Unfortunately the bill includes amendments, opposed by the author, exempting its provisions from the three strikes law.

The author attempted to rescind the final passage of AB 2475, was thwarted by the majority party in the Legislature, and now requests the bill be vetoed. I am honoring his request. He wishes to resubmit the measure next year so that the legislature may approve all but the offensive provisions. I encourage him to do so and look forward to signing such a bill.

This bill would establish the California Business Registry Task Force to prepare an implementation plan by June 30, 1995 to develop a statewide fictitious business name statement process within the Secretary of State's office that would include an automated statewide data base, a registration form for businesses, and a unified business identifier.

Although the intent of this measure is to simplify the registration procedures for businesses, I am concerned that it would eventually require registrants to provide large sums to meet the substantial costs incurred by state agencies associated with revamping large databases needed to accommodate this uniform business identifier.

There is no requirement in state law now that just any business "register" with the state. Employers must pay payroll taxes; certain manufacturers must obtain environmental permits; many businesses must obtain local fictitious name registrations. But there is no single repository of all companies or individuals doing "business" in the state. Nor has the author demonstrated a compelling need for such a data base.

I am skeptical that such a centralized registry would do more than duplicate what the State's tax, regulatory, and licensing agencies already do. More important is to continue this Administration's

commitment to reduce paperwork and bureaucracy within these regulatory and licensing agencies, rather than setting up a super-registration agency.

This bill would state legislative intent to encourage the development of rehabilitative and educational programs for nonviolent first-time felony offenders consistent with the purpose of punishment. This bill would also require the Director of the Department of Corrections to designate and evaluate six operational rehabilitation/educational programs.

I note that with this bill the Legislature has affirmed the utility of community intervention programs like the Preventing Parole Failure project designed to reduce recidivism among parolees.

While recognizing the good intentions of the author, I am concerned with other provisions of this bill.

I concur with the author that programs which may decrease recidivism among nonviolent offenders should be encouraged. California's sentencing laws presently permit educational and rehabilitative programs specifically designed for nonviolent first-time offenders. Indeed, the Department of Corrections is presently engaged in several such rehabilitation programs.

To accomplish the operative provision of this bill, I am directing the Department of Corrections to evaluate six rehabilitation and/or education programs and report to the legislature.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3100 without my signature.

This bill would provide authority to the California Department of Veterans Affairs to use funds from its Farm and Home Loan Program for refinancing purposes. It would permit refinancing of both existing Cal-Vet loans and loans eligible veterans had made with private mortgage companies. While this bill envisions an admirable extension of benefits to a deserving group, it is premature.

The veterans home loan program has, for more than 70 years, been supported by the sale of certain kinds of voter-approved bonds. Both the sale of these bonds and the manner in which the bond proceeds may be used are strictly regulated under federal law. Before the provisions of this bill could become operative, significant changes in the governing federal codes would be required. These changes are viewed by most parties familiar with federal budgeting and economics as resulting in the reduction of revenue available to the

federal government. As the Congress continues to struggle to overcome a deficit that the American people believe to be crippling, it seems highly unlikely that its membership would support changes in the law that would, from their point of view, limit their ability to meet deficit reduction targets.

Because of these federal barriers, this bill statutorily mandates the promise of a benefit that, as of today, cannot be funded. It offers assistance to veterans on a false pretext. Although language in the bill states that it delays operation of the benefit until federal law is changed, it is not likely that this limiting language would appear in the printed version of the law that is likely to be seen by ordinary veterans. However well intentioned such legal niceties may be, they often create the impression that something is being offered when, in fact, nothing substantive is available. Such situations lead to a mistrust of public institutions and ought to be avoided. We should only promise help when it can be delivered in a timely fashion.

The aims of this legislation are laudable, but premature. It is only at such time as those corrections have been accomplished, however, that this or a similar measure should be enacted.

This bill would recognize the California State Commanders Veterans Council as an advisory body to the Legislature, the Governor, the Lieutenant Governor, the Director of Veterans Affairs and other state agencies.

This Council is composed of 17 member organizations; however, there are several major veterans organizations that are not among its members. It is also important to remember that, while the contributions made by veterans service organizations have been and continue to be of paramount importance, the vast majority of California's nearly 3 million veterans do not belong to any veterans group.

Moreover, the seven members of the California Veterans Board are selected throughout the state, come from a variety of backgrounds and experiences, and are subject to confirmation by the Legislature. In addition, the members serve a term of four years which enables them to gain a perspective on the state-wide issues relating to veterans that might be denied the council's state commanders who serve only a year.

Finally, enacting this legislation would increase the number of advisory bodies in state government at the time when my Administration and the Legislature has been working hard to reduce their number as a means of improving government responsiveness. The fine work done by the California Veterans Board and my recent

decision to include the Director of Veterans Affairs in my cabinet will provide an excellent opportunity for public input on the concerns of California's veterans.

This bill would require card clubs to report cash transactions on the same basis as other financial institutions pursuant to state law and the Bank Secrecy Act. Also, this bill would legalize electronic bingo cards for use in charitable bingo games.

I support the provisions of this bill which require card clubs to record and report all deposits, withdrawals, and transactions of $10,000 or more just like other financial institutions. Clearly, this industry is in need of greater oversight.

However, I oppose the other provision which would legalize electronic bingo cards. I share the Attorney General's concern that this authorization is highly ambiguous and may be construed to permit the use of electronic gambling devices.

If the state were to permit such devices, it would be obligated to negotiate for all forms of slot machines and electronic gambling devices under the Indian Gaming Regulatory Act of 1988 which are otherwise illegal under state law currently. This is a gamble I am not willing to accept.

This bill would permit workers through a private right of action to recover up to 30 percent of the monetary penalties imposed against employers for wage law violations. It would also create new civil penalties for wage and payment violations and increase other civil penalties for payroll violations.

Under current law, employees may already pursue a civil action against an employer to recover unpaid wages that are less than the minimum wage or less than legal overtime requirements, interest, attorneys' fees, and costs of suit. This bill would create an incentive for workers to sue employers in order to collect fine revenue on top of the other awards which otherwise make them whole. The additional penalties created by this bill make the incentive that much greater.

This bill only invites litigation when the vast majority of complaints could be resolved administratively. The Labor Commissioner is staffed to handle complaints. This bill goes in the wrong direction—

away from the established administrative process and toward the already over-burdened court system.

September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 844 without my signature.

This bill would allow school districts to enter into joint venture agreements with private parties for the construction of school facilities. In addition, the measure would allow districts to receive state bond funds as reimbursement for the facilities constructed under these agreements.

The idea of a school district and private business cooperating in the construction of school facilities is intriguing. However, the measure as it is written, is overly broad and the fiscal controls related to the relationship between state government, the local school district, and private entity are insufficient to protect the state's General Fund from liability.

This bill would prohibit solid waste facilities located in the coastal zone and within two miles of any federal or state park or recreation area, or ecological reserve, for which a conditional use permit (CUP) was issued prior to January 1, 1976, from being operated or expanded in a manner that is not authorized pursuant to the terms and conditions of the CUP unless specified conditions are met.

It is inappropriate for the State to take this extraordinary measure in an area that is best addressed through local land use planning.

To the Members of the California Assembly:

I am returning Assembly Bill No. 596 without my signature.

This bill would impose a formula to determine the growth funds to be allocated to each community college district. In addition, the measure would specify that any funds remaining after the formula is satisfied are to be distributed per the Budget Act, or by the Chancellor in the absence of Budget Act direction.

Under current law, the Community Colleges are required to request increases equal, at a minimum, to the rate of change in the

adult population. Any increases in funding beyond that minimum are approved through the budget process to reflect current statewide priorities.

The provisions of this bill would require Community Colleges to use the existing minimum rate for community college funding unless one of two additional funding alternatives produces a higher funding level, in which case the higher level shall be, by definition, the minimum funding level.

This measure would artificially increase funding needs for the Community Colleges. Although the measure would require proportional reductions when actual appropriations are insufficient, the bill would create unnecessary pressure on the General Fund.

To the Members of the California Assembly:

I am returning Assembly Bill No. 1204 without my signature.

This bill would prohibit an employer from discriminating against an employee because of the persons' past or present membership in a labor organization. Violations of the provisions of the bill are punishable as misdemeanors.

This bill would duplicate protections currently afforded by State law. AB 1204 exempts from its provisions private sector workers covered by provisions of the National Labor Relations Act, and California agricultural workers covered by provisions of the Agricultural Labor Relations Act. It specifically applies to California public sector workers who are already covered by similar protections under current State law.

California has long provided its public sector employees with protections against employer discrimination, coercion or reprisal based on participation in a labor organization. In addition, there is a well-established process through which alleged violations of these statutory protections, are adjudicated. To establish duplicate protections, carrying with them duplicate processes for adjudicating alleged violations, is poor public policy particularly when fiscal realities demand that we utilize the most efficient governmental processes possible.

Veto Message—Assembly Bill No. 2610

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2610 without my signature.

This bill would allow the Department of Health Services to authorize a clean needle and syringe exchange pilot project in the City and County of San Francisco and would permit the Department of Health Services to authorize additional pilots in other jurisdictions.

Critics of needle exchange programs point out that there is no clear evidence that in those areas where needle exchange programs have been undertaken, a demonstrated reduction in HIV transmission has in fact occurred.

But there is an even more basic issue presented. The real questions put by AB 2610 is whether the hoped-for reduction in needle-transmitted HIV infection justifies sending a mixed message that will threaten to undermine the credibility of all society's other anti-drug efforts—especially those preventive education efforts aimed at dissuading young audiences from choosing not to engage in drug use.

In blunt terms, is it worth reducing the risk of infection to intravenous drug users at the potential for greater cost of undermining all other preventive anti-drug efforts and suffering as a result an enormous increase in the number of young people who make a wrong choice that leads to an enormous increase in addicts?

If we are going to demand that young people exercise personal responsibility, if we say that they must suffer the consequences of their personal choices, what are they to think when in the next breath we give formal sanction to a project which facilitates drug use?

AB 2610 is a bill inspired by the most humane concern about what is conceded to be a great public health hazard. But the inherent contradiction of all other efforts to prevent drug use—by formal sanction of a project which facilities drug use—just poses an unacceptably high risk. Ironically, this bill poses a choice that is essentially an exercise in triage.

The choice I am compelled to make is for prevention of tomorrows addicts, and the avoidance of all the waste, heartbreak and tragedy that flow from drug use. For today's addicts, my choice is not to sanction illicit drug use through legalized needle exchange programs, but by expanded education, prevention and treatment activities. My Administration has committed itself to expanded treatment for drug abusers as well as to expanded education and prevention activities to populations at highest risk for HIV/AIDS, including IV drug users.

The Department of Health Services will continue aggressive prevention efforts in HIV/AIDS, bolstered by the $5 million augmentation for such activities in the 1994 Budget Act, and the Department of Alcohol and Drug Programs will continue to expand treatment opportunities for drug abusers.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3501 without my signature.

This bill would require the Department of Health Services to produce a report and develop plans which specially examine HIV/AIDS services to the Latino population. The bill would require the Insurance Commissioner to investigate the health insurance

industry to determine to what extent any under representation of insured AIDS-diagnosed Latinos and Latinas is a consequence of discriminatory practices in the insurance industry.

This bill is unnecessary. The Department of Health Services is currently implementing an HIV Community Planning Process for Education and Prevention funding and programs for the purposes of preparing a strategic plan. A formal community HIV prevention planning process has been established which convenes public health officials, academic researchers, community planning experts, persons with AIDS and community advocates with the intention of preparing a comprehensive statewide Prevention Strategic Plan for California by January 1, 1995. This plan will be the basis for addressing the prevention needs for all populations and communities, including the needs of the Latino community.

Further, since the bill does not apply to health care service plans and applies to only 12% of insured Californians, it is clear that the "investigation" of such a small fraction of the insured population would be invalid and provide misleading assumptions.

This bill would request the University of California, and require the California State University, the California Community Colleges, and the California Maritime Academy to include voter registration forms and absentee ballot applications in material distributed to students during either enrollment or registration for classes. It would also provide for the establishment of polling places on these campuses.

Just last year I vetoed a measure by the same author which contained identical substantive provisions. As I explained then, the governing boards of these institutions should retain the authority to determine their policy regarding voter registration and so should the county elections officials regarding the establishment of polling places. My views have not changed.

This bill would create an automatic transfer between the state's General Fund and Section B of the State School Fund, which funds the community colleges. Under this mechanism, any shortfalls (or surpluses) in property taxes from the amount estimated at the time of the Budget Act to be received by the community colleges would

be transferred without additional affirmative action by the Legislature or Governor.

I am sympathetic to the problems faced by the community colleges, and in fact, agreed to backfill the 1993–94 property tax shortfall during this year's budget negotiations. However, there are few areas of discretion left in the budget process. This bill would further limit the flexibility of the Legislature and the Governor in balancing priorities within limited resources. It would be more prudent to make this decision on a year-by-year basis, rather than putting the budget on an even greater autopilot.

The Constitutional Revision Commission has begun working on the overall constraints posed in shaping a budget for California. This would be an appropriate topic to include in that discussion, as we try to frame a more rational approach to budgeting.

Veto Message—Assembly Bill No. 271

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 271 without my signature.

The National Voter Registration Act of 1993 (NVRA), commonly referred to as "Motor Voter" requires all states, by January 1, 1995, to enact provisions for voter registration by mail, by simultaneous application for a driver's license, and by application in person at various designated state and local government offices that provide public assistance.

This act is projected to cost the state of California more than $35 million per year, yet the federal legislation does not include a reimbursement mechanism for these costs. Without such reimbursement, NVRA would compel states and local governments to fund voter registration by diverting resources from existing programs and essential services which are already facing inadequate funding.

In addition, the federal Act does not provide sufficient safeguards to prevent voter fraud. In fact, it would likely result in increased fraud since federal laws do not permit adequate verification of citizenship. As a result, the Act could permit non-citizens to register and vote in California.

This bill is intended to provide authority within California statutes for implementation of the NVRA. However, AB 271 is flawed. The bill would enact provisions which exceed the already costly requirements of the NVRA. Specifically, it would impose reporting requirements upon the Health and Welfare Agency which are not included in NVRA, and it would require undefined coordination activities between the Agency and the Secretary of State, which will result in costs to both state and local agencies far beyond the costs imposed by the federal Act.

I have taken several steps to ensure that California is in compliance with the NVRA by the January 1, 1995 deadline. Earlier this year, I sponsored legislation to implement the Act, including provisions to prevent fraudulent voter registration, and provisions to implement

the Act to the extent federal funding is made available. This legislation was summarily rejected by the Legislature.

On August 12, 1994, I signed Executive Order W-98-94 directing state and local agencies to implement the NVRA requirements to the extent federal funding is provided, and to make every effort to prevent fraudulent registration, including prevention of non-citizens from registering to vote.

Finally, I requested the Legislature to memorialize Congress to repeal all federal laws which limit a state's ability to verify citizenship for registration purposes. With these steps, California will be ready to implement the NVRA on January 1, 1995, as long as federal funding is made available.

Veto Message—Assembly Bill No. 3613

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3613 without my signature.

This bill would permit all registered voters to become permanent absentee voters without restriction. It would also rename the permanent absentee voter program the "vote by mail" program.

Under current law, permanent absentee status is reserved only for disabled voters and their primary care-givers who reside with them. Absentee ballots are automatically mailed to the last known residence address of those with permanent status at each election.

This extraordinary procedure has been criticized as an invitation to voter fraud. Paramount of these concerns is the possibility of the widespread mailing of ballots to obsolete mailing addresses. The only check to prevent the fraud on the election results from any unlawful use of those ballots would be the signature verification on the returned ballot.

Detractors are concerned that the integrity of the electoral process could be seriously compromised. While this risk is great enough as it is given the limited pool of eligible permanent absentee voters, the problem would be magnified exponentially if the use of permanent absentee status were commonplace, as this bill contemplates.

Use of this extraordinary procedure is appropriately reserved for those with reasons relating to permanent disabilities. While I think the risks inherent in conferring permanent voting status is justified for this particular group of voters, it is not justifiable to expand this practice when it is not absolutely required for the exercise of a citizens's constitutionally protected right to vote.

Those who wish to vote by absentee ballot may continue to do so under current law by requesting that an absentee ballot be mailed to them up until seven days before any election. Unlike the permanent status procedure, the voter must apply for an absentee ballot at each election and the signature on the application must be verified before

the ballot is sent to the mailing address. Notwithstanding any potential benefits in voter participation, any relaxation of these protections is simply not worth the risk.

September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2765 without my signature.

This bill would state legislative intent that Alameda County use its model program against hate violence for statewide application. It would state that the Alameda County Hate Violence Task Force,

which is under the direction of the Board of Supervisors and the Multicultural and Multilingual Coordinator, may notify county governments and departments of education that the model program is available.

As I indicated in the veto message of a similar bill last year, the scourge of hate violence deserves statewide attention and has received it. In fact, to expand on existing statewide programs which combat hate violence, I sponsored legislation this past year to increase the criminal penalties on repeat hate felons and hate groups. I will continue to involve the state in addressing this problem.

The directive in this bill, though well-intended, does not involve the state in any way nor does it even require state approval to be effective. I understand that Alameda County has already developed its model program. The Task Force may notify other counties of its existence now without statutory authority. In fact, the California Association of Counties is well aware of the program and has even registered its support. Also, the Task Force may already provide assistance to other jurisdictions which request it.

This bill is therefore not necessary. In fact, this bill may actually prevent the dissemination of the Task Force's program to those who desire it because the bill conditions that authority on the obtaining of private funds.

For Alameda County and other interested agencies, this would create an unnecessary and unfortunate delay, compounded by the fact that this program could have been implemented last year without statutory authorization as well.

This bill would subject businesses to new monetary penalties for violations of the overtime wage requirements and would permit workers to recover liquidated damages.

There are already provisions in current law which require employees to be made whole for unpaid or underpaid wages and which subject employers to additional civil and criminal penalties for willful violations of the overtime rules.

In fact, the vast majority of claims for unpaid overtime wages occur when employees are discharged or voluntarily leave their employment. In this situation, in addition to the recovery of attorney's fees and costs, current law provides for "waiting time" penalties when wages due are not paid at termination.

This bill is unnecessary as it creates multiple layers of penalties for the same violation.

Veto Message—Assembly Bill No. 2418

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2418 without my signature.

This bill would specify that a seller of goods or services may not discriminate solely on the basis of gender with respect to the price charged for goods or services.

Discriminatory gender-based pricing practices are illegal in California today. The Unruh Civil Rights Act, which prohibits unlawful gender-based pricing practices, has been successfully used in the San Francisco Bay area to challenge a dry cleaner's practice of charging different prices for comparable men's and women's shirts. This law is currently available to anyone who pays more for services solely on the basis of gender, and I encourage its use as a remedy to stop this pernicious practice.

AB 2418, however, adds an additional prohibition in the Business and Professions Code. Although I understand that the author's intent is to reaffirm the law in this area, given the judiciary's reasonable inclination to assume that additional language is placed in the code for a substantive reason, I am concerned that this language could be interpreted to place an unreasonable burden on business.

Charging different prices based upon the gender of the consumer for essentially the same services is wrong and illegal; however, businesses do have a right to charge different prices based upon the amount of time, difficulty or cost of providing the service. Because the Unruh Civil Rights Act already prohibits gender-based price discrimination, I am unwilling to take the risk that the undefined language of the bill could be misinterpreted by the courts to limit a business' right to set prices based upon legitimate factors.

This legislation was deficient because it failed to provide explicitly that businesses do have a right to base prices upon legitimate factors. I would be willing to work with the author to develop legislation next year to cure this defect. In the meantime, it is neither necessary nor desirable to have 2 statutes performing the same function.

Moreover, I recently signed SB 1288 (Calderon) which also addresses this problem by increasing the penalty in current law for unlawful gender-based price discrimination from $250 to $1,000. This measure also requires the Department of Consumer Affairs to provide information on the problem of gender-based price discrimination to the public by June 1, 1995, and to gather statistical data and complaint information for the Legislature. Providing education to the consumer that gender-based pricing practices are illegal and increasing the penalty for unlawful pricing practices will enhance our efforts to address the continuing problem of gender priced discrimination.

Veto Message—Assembly Bill No. 1056

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1056 without my signature.

This bill would impose a process for school districts and community college districts to reach a written delineation of function agreement for the provision of adult education courses.

AB 1056 stems from a long-standing dispute in Orange County between school and community college districts over the provision of adult education courses.

This bill imposes a state solution on a local problem. The three community college districts involved in this dispute should meet with the school districts to develop a solution that provides the greatest access and highest quality programs for the adult population in the region.

To date, both parties have been unable to successfully negotiate a mutual solution and, as a result, the school districts have filed a lawsuit.

This dispute should be settled neither in a court of law, nor by binding arbitration as this bill proposes, but by good faith negotiations by education professionals. That is the only way a solution will emerge that best serves the adult education needs of the people of Orange County. Both the legal and binding arbitration approaches, which are not based on educational expertise, have the potential to produce a less than optimal result for the adults who want to go back and get their high school diplomas or develop their basic skills.

This bill would create the California Youth Service Corps program and expresses legislative intent that the Commission on Improving Life Through Service develop policies and guidelines to expend funds available through the National and Community Service Trust Act of 1993 on the new Corps program.

On January 31, 1994, I created the Commission on Improving Life Through Service by Executive Order W-77-94. This Commission is charged to work with the federal government to expand California's service movement and coordinate federal community service funding through the National and Community Service Trust Act of 1993 and the federal AmeriCorps program.

Creation of the California Youth Service Corps program would be contrary to the process used to date by the Commission, which has been one of applying specific criteria to applications submitted by local partnerships.

Employing a state process to select local partnerships is preferable to developing a new state level youth corps.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1244 without my signature.

This bill, among other things, would require the Director of EDD, with the concurrence of the State Job Training Coordinating Council (SJTCC), to allocate up to $6 million per year to fund occupational academies as proposed in this legislation.

Although AB 1244 would require the Director of EDD, the Superintendent of Public Instruction, and the State Board of Education identify waivers that would allow the use of new Job Training Partnership Act (JTPA) or other federal funds for this purpose, the federal Department of Labor has stated that use of JTPA funds for the purposes envisioned in this bill would not be within the scope of the intent of federal law.

In addition, this bill would duplicate the current planning efforts that are underway under the School-to-Career initiative. The School-to-Career Advisory Task Force has been established under the SJTCC. The Task Force, which is composed of all the stakeholders in the school-to-career system, including members of the Legislature, will make policy recommendations to the Governor next month regarding implementation of a school-to-career *system.* Creating additional pilot projects at this time would be unlikely to further our goal of developing that system.

I look forward to working with the Legislature on the important issue of school-to-career transition.

To the Members of the California Assembly:

This bill would require that non-credit stroke rehabilitation classes be funded at the same level as credit classes.

Statewide policy is that community colleges' priority is to provide credit instruction for students transferring to four year institutions and those pursuing a vocational objective. As a result, coursework that generates college credits is funded at roughly twice the level as non-credit coursework. This measure is inconsistent with those priorities as its provisions would reduce funding available for credit courses by increasing expenditures on non-credit courses.

This bill would add the establishment of noncredit citizenship courses for persons eligible to become citizens to the list of educational goals for distance learning, and would declare that the 605 Corridor Citizenship Project in the eastern Los Angeles region shall serve as a model distance learning program for courses of this type.

This bill is unnecessary. The Board of Governors of the Community Colleges has recently adopted regulations allowing the use of distance education for noncredit courses, including citizenship instruction. Further, the determination of what should serve as a model program should be left to the Board of Governors, rather than declared by legislative fiat.

This bill would rename the State School Building Lease-Purchase Act, and make numerous changes which would reduce state regulation and oversight, and increase responsibility and liability for school districts participating in the program.

Two years ago I vetoed a similar bill because it did not go far enough in eliminating the state's role as the provider of first resort. While this bill makes great strides in providing local school flexibility, the commensurate reduction in state support is insufficient. The remaining subsidy coupled with a system that will no longer require any accountability to the state reduces the districts' incentive to administer these projects prudently.

The existing process for school funding is arduous and complicated and one which can take 4 to 6 years for a district to complete. Our effort should be to diminish the current system which is controlled by the State Allocation Board and move to one that is locally controlled and funded. Such a system would provide certainty to taxpayers that

the tax dollars they approve for bonds will be spent on local projects, not projects in another part of the state.

This bill would establish the California Education and Economic Development Council and would require the Council to develop a master plan which would provide policy direction for all publicly funded education and workforce development programs in the state.

This measure would create on oversight body with authority which overlaps and conflicts with the State Job Training Coordinating Council (SJTCC) and the Governor's School-to-Career Advisory Task Force. The bill provides $50,000 from the General Fund for the proposed Council.

In contrast, a Governor's Task Force has been established under the SJTCC pursuant to Executive Order W-94-94 to make recommendations on policies, priorities, and a framework to establish a new School-to-Work Opportunities Act. The Task Force serves as California's forum for representatives of State and local government, business, educators, labor, parents, students, and others to discuss issues relevant to the development and implementation of a new state school-to-career system. It would be an inappropriate expenditure of taxpayers' funds to create another government entity which would duplicate the work of existing agencies.

This bill would require the Superintendent of Public Instruction to appoint a task force to propose programs for pupils in junior and senior high schools with limited proficiency in English.

This bill is not necessary. Current law already requires the Superintendent of Public Instruction to annually identify critical needs and to develop programs to meet those needs.

In addition, Chapter 2 federal funds, which this bill identifies as a possible funding source, may not be used for the purposes of this bill. To use those funds for the activities called for in this legislation would jeopardize federal Chapter 2 funding which annually provides for more than $35 million in local assistance to school districts.

This bill would require the Goals 2000 panel, required under new federal legislation, to include in its state plan activities related to the recruitment of teachers.

While the panel may well decide to include the activities proposed in this legislation in its final plan, it is inappropriate to circumscribe the discretion of the panel before it has begun its deliberations. That would be contrary to the objective of convening a broadly representative panel in the first place.

Since the panel will represent all facets of society and education, it should be given free rein to establish the educational priorities of California as permitted in the federal legislation.

Veto Message—Assembly Bill No. 3757

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3757 without my signature.

This bill would replace the current special education funding mechanism with a temporary formula, pending the development of a permanent funding system. The temporary formula would sunset June 30, 1999.

The current system for funding special education programs has become a source of frustration and disagreement for almost everyone. As a result, there is supplemental language in this year's budget requiring the Department of Finance, the Legislative Analyst's Office, and the Superintendent of Public Instruction, to develop a new special education funding model. A report on the new funding proposal is due to the Legislature by June 1995.

Legislation such as this bill is premature until the report required by the Budget Act's supplemental language has been submitted and reviewed.

Veto Message—Assembly Bill No. 3758

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3758 without my signature.

This bill would increase the funding allowed for modernization of school facilities from 25% to 35% of the replacement cost. Within that amount, the measure would allocate 5% to cover the cost of complying with the federal mandates contained in the Americans with Disabilities Act. The bill would allocate an additional 10% of the project cost to cover the cost of interim pupil housing during construction.

There is currently a backlog of over 1,000 modernization projects at a cost of over $1 billion. The provisions of this bill would increase those costs by almost $500 million.

This bill would add to the demands on the limited resources available to the State School Building Lease-Purchase Program and, because the measure increases the per project costs, would result in fewer modernization projects being funded.

Given the current lack of bond funding, the effect of this legislation is to aggravate what is already a problem.

This bill would require the California State University Board of Trustees to grant temporary employees permanent status if the employee has worked at least half-time for four consecutive years.

I agree with the CSU Trustees that this issue is more appropriately handled through the collective bargaining process. Also, I am concerned that this bill could make it more difficult for CSU to manage its workforce efficiently, which would be unwise during this period of fiscal constraints.

To the Members of the California Assembly:

This bill would relieve elections officials of their responsibility to count votes for qualified write-in candidates in primary elections if they receive less than 1.5% of all votes cast for candidates of their same political party for that office, except for President of the United States.

Existing law requires elections officials to count any write-in votes written upon a ballot for an office or nomination.

Although the provisions included in AB 2218 would save time and money, I believe that every individual who takes the time and effort to vote has a right to see that vote counted. Simply, in a democratic system, elections officials should not be granted the right to ignore votes, regardless of their number or significance.

This bill would enhance retirement benefits for members of the State Teachers' Retirement System who are over 60 years old and have at least 20 years service credit.

This bill is virtually identical to a bill I vetoed last year. In my veto message, I objected to benefit enhancements, even optional ones, coming at the expense of classroom resources. Like last year, the budget situation continues to require tough choices. To add to these difficult decisions by enacting legislation that would force a choice between benefit enhancements for employees and resources for classroom instruction is unwise.

Veto Message—Assembly Bill No. 3046

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3046 without my signature.

This bill would hold garment manufacturers jointly liable for the wage law violations of independent contractors whom they hire.

Last legislative session I vetoed a similar bill. As I stated in the veto message, it is plainly inequitable to hold manufacturers liable for the acts of separate and independent businesses when they have no control over their actions. To the extent manufacturers do control the contractor or disregard its unregistered status, current law will hold them liable.

The Department of Industrial Relations is the appropriate entity to monitor the compliance of independent contractors with wage laws. To this end, the Department, in close cooperation with the Internal Revenue Service, has increased its screening of garment contractors for compliance with licensing requirements. This effort targets contractors who operate in the underground economy.

To put manufacturers in the position of having to enforce the labor laws on subcontractors and to impose liability on them for other businesses' violations would only drive the garment industry out of state, much to the detriment of affected employees and the state's economy.

This bill proposes a wrong and unfair solution to the real problem that exists in this industry and others because of the abysmal failure of the federal government to prevent massive illegal immigration into California.

This flood of illegal immigrants in California has had the serious negative effect of depressing the wages of those legal immigrants and residents that work in California's garment manufacturing industry. The illegal immigrants are often willing to work for subminimum wages and often are paid in cash "under the table." Illegal immigrants will usually not complain to or cooperate with authorities

out of fear of being deported, making the prosecution of these kinds of labor law violations difficult.

This bill is yet another example of the effects of the failed federal immigration enforcement effort. Because the federal government in Washington D.C. has not lived up to its immigration responsibilities, the State of California is again being asked to pay the price for the federal government's inadequacies.

The first step should be for the federal government to stop the flow of illegal immigration into California. Until that is accomplished, enforcement problems will continue to be problematic. Holding manufacturers, or anyone else, responsible for the abdication of Washington's responsibilities will only exacerbate the difficulties in California's employment environment.

This bill would extend from three years to five years the window period in which local PERS members may purchase service credit for periods of lay-off.

In fact, according to PERS, over the last ten years only 3 of the approximately 1,000 local public agencies have elected to offer this benefit and only a few individual members have exercised this option. Apparently, there is little need for the benefit, much less a need to lengthen the window period.

To the Members of the California Assembly:

This bill would permit the Workers' Compensation Appeals Board to award attorneys' fees to the prevailing party in lien disputes between medical providers and employers.

This legislation is unnecessary and is more likely to cause harm than good within the workers' compensation system.

The bill is unnecessary because existing law already allows the WCAB to award attorneys' fees if a party acts in bad faith, or uses tactics that are frivolous or intended solely to cause unnecessary delay.

The bill would be harmful in that it would encourage litigation in an already overburdened system. In recent years, the backlog of lien disputes has reached crisis proportions. Administrative actions have done much to reduce the crisis. This bill could instead reignite the crisis by providing greater incentive to litigate disputes. The potential to win attorneys' fees would encourage more attorneys to become involved in these disputes, which is typically unnecessary.

This bill is also inequitable in its treatment of employer and lien claimants. Even if the employer wins the dispute and attorneys' fees, there is no requirement that the lien claimant pay in a timely manner. Employers who lose and fail to pay in a timely manner must pay interest and penalties on any amount owed within the workers' compensation system.

Veto Message—Assembly Bill No. 2414

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2414 without my signature.

This bill would revise the existing civil procedure governing the enforcement of penalties for violations regarding the unlawful standing or parking of vehicles. Among the provisions of this bill, AB 2414 would authorize a local agency issuing parking violations to contract with a city or county processing agency, whether from inside or outside the county, for the processing of notices of parking violations and notices of delinquent parking violations or handling of administrative appeals.

Public entities should not be competing with private business on a Statewide basis. Existing law appropriately allows for neighboring jurisdictions to contract with each other for services for purposes of lowering costs to taxpayers. Expanding these operations Statewide, however, has quite different policy implications.

State government should encourage cities to save tax dollars both by efficient performance of governmental functions, or by contracting out for government services to the private sector. But providing opportunities for government—which is subsidized by taxpayers—to unfairly compete with private businesses for these same contracts, also runs the real risk of jeopardizing the tax-exempt status of municipal bonds under federal law. More than once during my eight years in the United States Senate, I found myself having to defend the tax exempt status of municipal securities against attack from those in Congress and the Internal Revenue Service who would end it. As I'm sure representatives from a number of the state municipal leagues will recall, the chief line of attack from those who sought its repeal was that tax-exempt financing of government "business enterprises" was an intolerable abuse that encourages tax subsidized competition with private enterprise.

Tax-exempt status was granted to enable governments to perform governmental functions with low interest financing—not to encourage them to go into business and use their low cost of money advantage to unfairly compete with the private sector for customers.

This bill would impose dual regulation of the Ward Valley Low-Level Radioactive Waste (LLRW) facility, licensed by the Department of Health Services (DHS), by both DHS and the Integrated Waste Management Board (Board). While the bill exempts hazardous waste facilities from dual regulation for nonhazardous waste that is incidental to the burial of hazardous waste, it does not exempt the DHS licensed LLRW facility from Board regulation for the same incidental wastes.

State law already affords for the regulation of LLRW and LLRW disposal facilities and the dual regulation required by this bill is unnecessary. Moreover, this bill will add yet another governmental hurdle to the opening of this much needed site. Without the facility, LLRW is being stored at urban locations throughout the State due to the lack of access to out-of-state disposal facilities imposed by federal law.

In view of the serious situation in which the State finds itself as the result of the lack of LLRW disposal access, I cannot approve legislation which could lead to further delay in the opening of the licensed California LLRW disposal facility.

This bill would, in the event a state of emergency has been declared, authorize the Governor, upon a finding by the Insurance Commissioner, to issue an order preventing insurers from cancelling or nonrenewing insurance policies. The Insurance Commissioner would have exclusive power to extend the effective date of the Governor's order and to exempt companies from that order.

This bill grants the Governor and the Insurance Commissioner interdependent powers, creates confusion regarding exercise of executive authority, blurs responsibilities between the Governor and the Insurance Commissioner, and is constitutionally suspect.

The well intended consumer protections of this bill, however, might leave consumers without coverage altogether. *This effort to*

keep insurers from leaving California would have the opposite impact by causing them to discontinue doing business in the State before such a measure could take effect. In fact, this point has been made by several business organizations such as the State Chamber of Commerce and the California Small Business Association who have urged a veto.

In the case of *20th Century v. John Garamendi,* the California Supreme Court concluded that the creation of a barrier which prevents a regulated company from leaving the market is an unconstitutional taking of property. This bill would establish authority for restrictions on cancellations and nonrenewals that would be inconsistent with the Court's decision.

This bill would serve only to further aggravate the trend toward greater unavailability of homeowners insurance.

September 30, 1994

To the Members of the California Assembly:

This bill would temporarily designate the California Postsecondary Education Commission (CPEC) as the federally-required State Postsecondary Review Entity (SPRE) and provide the authority for promulgation of regulations. This authorization would expire on December 31, 1996.

Among its provisions, AB 625 would provide for an advisory body to whom one or more higher education segments could appeal proposed standards or regulations. This advisory group would consist of the Governor, the Director of Finance, the Superintendent of Public Instruction, a member of the Assembly appointed by the Speaker, and a member of the Senate appointed by the Senate Rules Committee.

It is inappropriate to have legislative representation on a committee that exists to provide an administrative function. It is also unclear why the Superintendent of Public Instruction should be included on a body whose jurisdiction would be limited to higher education student aid policy.

This bill would establish goals and timetables for the University of California regarding the number of medical residents, and the percentages of medical residents in primary care and in family practice. The bill includes a penalty reduction of up to $8 million in General Fund appropriations if the University does not meet the goals.

The University recently signed a memorandum of understanding with the state to increase the number of primary care physicians trained in California. The memorandum establishes a goal of 20% of all residency positions in family practice throughout the University system by 2001. In addition, the agreement will increase the number of primary care physicians trained in UC colleges to 56% by 1998 and 70% in 2001.

Since the memorandum of understanding will result in an increase beyond that required by this measure, I believe this bill is unnecessary.

Veto Message—Assembly Bill No. 2521

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2521 without my signature.

This bill would add immigration status and homelessness to the hate crime statutes that presently include, race, color, religion, ancestry, national origin, disability, gender and sexual orientation.

I have sponsored several major efforts to increase penalties for hate crimes and will support similar legislation in the future. I believe the primary responsibility of government is public safety and every resident of this state is entitled to the law's protection.

For example, AB 50x (Richter), which I sponsored, targets the activity of criminal gangs (such as Skinheads and the Ku Klux Klan) when felonies are committed because of the victim's race, color, religion, ancestry, national origin, disability, gender or sexual orientation. Similarly, under SB 1595 (Marks), which I recently signed, a defendant's sentence may be enhanced if a felony is committed (or attempted) based on the perception that the victim is a member of a protected class even if the perception is mistaken.

Notwithstanding the obvious good intention to add these new classes to those already protected from hate crimes, there is need for great caution in doing so to prevent unintended consequences. That is especially true in the case of conscientious public officials, whose duties require enforcement of laws or regulations that expressly focus upon homelessness or immigration status. The exercise of their authority in such good faith enforcement of the law may unintentionally create a serious question in the context of existing law for the protection of enumerated classes which declares that:

"no person, **whether or not acting under color of law,** shall . . . willfully . . . **intimidate, interfere with,** oppress or threaten any other person . . . "

Regrettably AB 2521 does not resolve the question or provide needed protection to the conscientious public official who, in complete good faith and without any motive to offend or oppress anyone, simply performs the duties required of him or her by law; for example, the official at DMV who seeks to verify the legal residency of a driver's license applicant, or a San Francisco police officer, who enforces a city ordinance regulating pan-handlers.

Without intending to do so, AB 2521 as written unnecessarily invites lawsuits which unfairly put at risk both blameless public officials and the enforcement of legitimate laws and public policy.

This bill would require minors who have children, or who are pregnant, and who are eligible for Aid to Families with Dependent Children (AFDC), to reside with a parent or guardian or in another adult-supervised supportive living arrangement, as a condition of AFDC eligibility, except as specified. The bill would also provide that children of the minor parents would be eligible for AFDC regardless of the income of the senior parent.

I strongly support efforts to discourage teen pregnancy, which, in turn, often leads to welfare dependency. However, I am disappointed with the provisions of this bill.

My Teen Pregnancy Disincentive proposal would require the minor to live with the parents unless there is abuse or neglect. The determination of when abuse has occurred would be made by professionally qualified staff of local Child Protective Services agencies. In contrast, this bill would require an assessment as to

whether the minor should remain in the home be made by the case manager in the Cal-learn education program.

The determination of the circumstances that legitimately call for the minor to be removed from the home is a decision for professionally trained Child Protective Services personnel. Otherwise this bill could have the unintended consequence of allowing the exception of becoming the rule.

Additionally, by deleting the current requirement that the income of the minor's parent be deemed to the minor's child, this bill would increase the AFDC caseload. The increase as a result of this provision of the bill would increase General Fund costs by $7.5 million annually.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2650 without my signature.

This bill would require the Secretary of Health and Welfare to assist in obtaining federal funds to offset the costs associated with federal immigration policy through the development of a State Plan for Immigrant and Refugee Services. The Secretary also would be required to serve as a liaison to other state agencies, local government, and communities to address the needs of immigrants and refugees. In addition, the bill would establish a state clearinghouse for immigrant and refugee information.

Many of the provisions of AB 2650 can be achieved administratively, without a need for prescriptive legislation. Other aspects of the bill are overly broad, and are more questionable as a state function. For that reason, I cannot sign this bill.

However, one particular aspect of AB 2650 that merits support would be to create a state clearinghouse for the collection, analysis and dissemination of data and information regarding our immigrant populations.

Accordingly, I have signed an executive order on this date to create the Office of Immigrant Data under the Governor's Office of Planning and Research to collect and compile available statistics and data with respect to immigration matters.

This bill would enact the Group Home Bill of Rights providing guarantees to foster youth. The bill would also authorize the establishment of a local foster care ombudsman program.

The Department of Social Services currently has regulations that contain the vast majority of the "rights" contained in this bill. But the bill also unwisely purports to add a "right" that would allow minor foster children to reject medical care. This is not a judgement which children are competent to make and summons up nightmarish liability possibilities for the group home.

Moreover, rights and responsibilities go hand in hand. The bill contains no parallel recital of obligations for group home residents.

Furthermore, nothing in current law precludes the establishment of a local foster care ombudsman.

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3545 without my signature.

This bill would authorize designated public health professionals within county health departments to receive copies of reports made by health practitioners of suspected child abuse.

I understand proponents of this bill intend to use the reports for training and educating health practitioners in recognizing child abuse, in multidisciplinary research, in multidisciplinary team participation and in policy development. While I am supportive of the use of the information for these activities, wide dissemination of information increases the potential that personal identifying information may be inappropriately released.

The reports do not distinguish between founded and unfounded cases of child abuse. This raises a serious concern as to whether there is sufficient protection of the confidentiality of personal identifying information for unfounded cases.

My priority is to protect children. This bill does not do that in the cases where the reports are unsubstantiated. Sharing of personal identifying information can defame a person falsely accused in an unsubstantiated report of child abuse. That certainly does not serve the children we are trying to protect. What clearly is needed is both protection of innocent children from child abuse and protection of innocent adults from being defamed by false charges. The removal of names and other identification from unsubstantiated reports in no

way reduces their clinical instructional value. Because of this defect, I cannot sign what could otherwise be a worthwhile bill.

I encourage the author of AB 3545 to pursue this approach in the next legislative session.

I am returning Assembly Bill No. 3618 without my signature.

This bill would require a local education agency that receives a Healthy Start Support Services grant to apply for participation in the federal school breakfast and lunch programs within one year of receipt of the grant.

First of all, one of the underlying criteria for eligibility as a Healthy Start grant is that a qualifying school must have at least 50 percent of its pupils from families on public assistance, have limited English proficiency, or both, or are eligible to receive free or reduced-price meals. Clearly, if a school is eligible for Healthy Start, the probablity is very high that they are eligible for the federal breakfast and lunch programs.

Second, the whole basis for Healthy Start is to have local collaboratives determine their needs and to decide how best to meet those needs. This bill would impose another state mandate on a local program. Requiring schools to operate breakfast programs, where they have chosen not to do so, especially within the first year of operation, may discourage them from initiating a Healthy Start program. The expansion of the Healthy Start program continues to be the best hope for providing collaborative service delivery on a local level.

I have allocated $3 million in the 1995–96 budget for start-up grants for school breakfast programs. I am committed to addressing this need but do not believe it should be mandated on *all* Healthy Start sites.

This bill would authorize respiratory care practitioners to perform blood gas blood electrolyte analysis provided they meet the training requirements specified in the bill. The measure would require laboratory directors to establish protocols for analysis and reporting of these test results.

The provisions of this bill seek to narrowly amend California's laboratory practice laws to accommodate the changes that are

occurring in technology related to measurement of blood gases and blood electrolytes. However, the bill is poorly constructed and as a result appears to conflict with federal law. In addition, I am concerned that the language addressing the ability of respiratory care technicians to perform electrolyte testing is unnecessarily broad and can be construed to go beyond allowing the use of new technology.

The state needs to encourage the use of new technology, and it appears reasonable that respiratory care practitioners, under specified circumstances, perform blood electrolyte analysis. Therefore, I am directing the Department of Health Services, in consultation with the Respiratory Care Board, to develop emergency regulations defining when it is appropriate for respiratory care practitioners to perform blood electrolyte analysis.

This bill would expand existing statutory requirements for parenting education by requiring the Department of the Youth Authority, juvenile court schools, and public secondary schools to offer courses in parenting education to students in grades 9 to 12. In addition, the measure requires the Department of Health Services to convene a summit for the purpose of developing a master plan for parenting education in non-public schools.

While I support the concept of providing parenting education as a way to improve children's lives I have two primary concerns related to the specific provisions of this bill. First, the measure makes inadequate provision for parental consent and access to the teaching materials. Second, the requirement for a summit to prepare a master plan for parenting in the private schools is inappropriate as the state has no business imposing curriculum guidelines on private schools.

This bill would increase the number of hours of summer school for which the East Side Union High School District receives reimbursement for students attending its Jose Valdes Summer Mathematics Institute.

The Jose Valdes Summer Math Institute provides intensive math skills preparation for students entering high school. Normally, elementary summer school offerings are about 80 hours per student, whereas the Math Institute provides 210 hours of instruction.

Under current arrangements between the East Side Union High School District and its feeder elementary schools, the elementary schools provide funding to the high school district at the level for instruction offered in the elementary school program. However, there are no restrictions under current law that would prevent the local elementary schools from funding the full 210 hours of instruction that is provided by the Institute.

There is no need for the state to provide supplemental funding when a local solution is available. This bill would set a poor precedent by reducing funding for districts statewide to benefit one district.

However, I am sympathetic to the goals of the Jose Valdes Math Institute and believe that any surplus funds would be well spent in supporting this program. Accordingly, I am directing the Department of Finance to include in the 1995–96 budget bill an appropriation for this program to be funded from any remaining supplemental summer school funds after the statewide reallocation provided under current law.

Veto Message—Assembly Bill No. 3706

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3706 without my signature.

This bill would authorize public utility districts, community services districts, irrigation districts, and county, municipal, and California water districts to enter private property of any person within the jurisdiction of those districts to investigate possible violations of district ordinances, subject to consent of the owner or tenant or the issuance of an inspection warrant, except in cases of emergency.

This bill empowers special districts to conduct inspections that are ordinarily conducted by city and county health and building inspectors. Due to fiscal constraints, some cities and counties can no

longer conduct inspections which disclose violations of district ordinances.

The primary offense that is of concern to proponents is illegal residential hookups to existing sewer and water lines. In some instances, water districts have reason to believe that criminal violations are occurring on private land, but districts have no authority to enter and inspect.

The remedy contemplated by this bill does not correspond with the problem. Inspection warrants are not issued, upon probable cause to believe a crime has occurred, but because the governmental entity is required to conduct routine inspections as part of some safety or regulatory requirement.

If an inspection of private property is designed to disclose criminal conduct, Fourth Amendment rights must be respected. If such a search is conducted on residential property within the home or its periphery, a search warrant (rather than an inspection warrant) is required.

In the event that the proponents actually wish to conduct inspections rather than criminal searches, they must still abide by the Constitution. Routine inspections will disclose unauthorized water hookups which may be reported and prosecuted. Such theft of services does not, however, constitute an emergency which would allow a utility to dispense with due process.

The bill defines emergency, in pertinent part, as "a sudden, unexpected occurrence requiring immediate action to prevent or mitigate the loss or impairment of . . . property, or essential public services." An emergency might, accordingly, involve an unexpected and unauthorized hookup to existing water lines which necessitates entry onto private property without consent or a warrant.

This bill is constitutionally suspect. It grants to districts acting in a surrogate role more authority than the entities they replace. If designed to uncover criminal activity, this statute would purport to grant authority to meter inspectors not enjoyed by any sworn peace officer in the state.

Unlike enforcement agencies, water districts maintain a contractual relationship with those whose properties they wish to inspect. Accordingly they may, by agreement with their customers, resolve most of their difficulties without legislation.

While inspection warrants may be a tool plausibly extended to districts, the authority so granted must be narrowly drawn without illusory emergency powers that obviate the need for a warrant.

September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 3775 without my signature.

This measure would allow the California Superintendent of Public Instruction to enter into attendance compacts with adjoining states that have an Indian reservation located in both California and

another state. The bill is in response to a request from the State of Arizona's Superintendent of Public Instruction.

This bill would delegate the ability to enter into an interstate compact to the Superintendent of Public Instruction. The negotiation and signature of such a compact is more properly performed by the Governors of the two states.

This bill would give courts the discretion to deduct voluntary retirement contributions from annual income for the purpose of calculating child support. It would also revise and recast the determination of net income after deducting for reasonable, necessary, but not extravagant, expenditures required for the generation of that income.

This legislation is attempting to address an inequity in the current law where parents covered by mandatory retirement plans are allowed to deduct contributions, whereas contributions to voluntary plans are not deductible. However, the result of AB 3780 would be to lower child support available for children.

When balancing the child's present needs against a parent's future needs for retirement, the child's needs should take priority. Frankly, it would be more appropriate to remove the deduction for the mandatory retirement contributions, rather than adding voluntary contributions to allowable deductions.

Finally, when a child's custodial parent is on AFDC, that reduction in child support will have to be backfilled by the taxpayers. It is particularly inappropriate to have taxpayers picking up the tab for the noncustodial parent's retirement.

Veto Message—Assembly Bill No. 2247

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 2247 without my signature.

This bill would authorize the Sacramento Metropolitan Air Quality Management District to increase the existing $4 surcharge on vehicle registrations by $2. The revenues would be used by the district to repair or scrap high emission vehicles, to provide financial incentives for the repair or removal of high-emitting heavy duty vehicles and to subsidize the purchase of clean fuel vehicles by public agencies.

While I agree with the objective of this bill, to accelerate the retirement and replacement of high emitting vehicles, the bill would authorize an increase in local vehicle surcharges, and it is unclear whether new funds should be authorized to implement this bill, or whether existing resources should be redirected from less

cost-effective activities. Local air districts collect approximately $80 million annually in motor vehicle registration surcharges, and it is imperative that the public receive the public health dividends from the wise use of these funds before additional fees are authorized.

Furthermore, earlier this year I signed SB 198 by Senator Kopp to establish a state-wide buy-back program as part of the Smog Check enhancements developed by the Legislature and my Administration. These funds will be available to air basins subject to the enhanced Smog Check requirements, including Sacramento County. As they implement SB 198 next year, I have directed Cal/EPA and the Bureau of Automotive Repair to work with local agencies to ensure that these funds are applied to removing high polluting vehicles to the greatest extent possible.

The ARB is undertaking a review of all local air quality districts' use of revenues generated by the $4 vehicle registration surcharge collected under current law. That study and recommendations are expected to be completed within the next few months. It would be premature to authorize an increase in this fee until it is determined that existing revenues are being applied to the highest and best use.

To the Members of the California Assembly:

This bill would establish a new class of licensure category, "veterinary food-animal drug retailers," within the Board of Pharmacy. The bill would apply some of the provision regulating pharmacies and medical device retailers to veterinary food-animal drug retailers, and would define veterinary food-animal drug retailers as a place, other than a pharmacy, where veterinary drugs for food-producing animals are stored or repackaged and dispensed pursuant to a prescription from a licensed veterinarian.

AB 2973 would implement a procedure for licensing food-animal drug wholesalers that should be self supportive through the imposition of licensure and renewal fees. However, as this bill is written, the estimated costs that would be generated by those fees is substantially less than the costs associated with implementing this program.

I am concerned that the discrepancy between those costs and revenues would result in the Board of Pharmacy subsidizing this program with revenues generated by fees of other types of licensees.

This bill would transfer administrative law judges who hear disciplinary cases at the State Personnel Board (SPB) to the Office of Administrative Hearings (OAH). It would also require agencies who have filed disciplinary claims to reimburse the OAH for the full costs of conducting the hearings.

The administrative law judges at the SPB focus strictly on labor law issues and are particularly familiar with state civil service law regulations and decisions by the State Personnel Board. This special expertise allows these judges to render sound decisions efficiently. The five judges render almost 100 decisions each year.

It makes no sense whatever to trade this expertise and capability for anything less. It could only serve to undermine the effectiveness and efficiency of the SPB.

September 30, 1994

To the Members of the California Assembly:

I remain emphatically opposed to the proliferation of casino gaming in this state. In my view, the federal Indian Gaming Regulatory Act of 1988 (IGRA) needs to be substantially clarified to address legitimate state concerns about the expansion of gaming beyond state control.

Implementation of IGRA has created some ambiguities concerning Tribal-State relations. In an open letter dated March 30, 1993, I requested the California Congressional Delegation to seek amendments to IGRA to clarify a number of issues, including limitations on the scope of gaming, bilateral good faith bargaining, and state concurrence on designations of trust land. The National Governor's Association adopted a resolution calling for these same reforms.

Since last year when I considered similar legislation, there has been an explosive growth in the number of video slot machines being operated on Indian land in flagrant violation of state and federal law. According to the California Department of Justice, there are over 5,500 illegal video slot machines being operated on Indian lands in California today. From the time I considered this legislation last year, the Indian tribes have placed over 4,000 illegal machines on Indian lands throughout the state, quadrupling the total number of illegal devices over that period.

The National Indian Gaming Commission has ruled that these video facsimiles constitute Class III gaming and are unlawful unless authorized by compact. The Tribes challenged that ruling in the courts and lost, but they have continued to operate slot machines in this state even though it violates state and federal law.

I will not consider legislation on the compact process as long as the tribes flout IGRA and California law. If the tribes refuse to abide by the law now, the people of California can have little faith that they will comply with the terms of a negotiated compact later.

I will not alter this Administration's refusal to negotiate with tribes that continue to violate state and federal law. Nor will I finalize any compact until I am assured some mechanism exists to provide adequate regulatory control over gaming.

This bill would appropriate $1.1 million from the General Fund to the California Postsecondary Education Commission (CPEC) to develop and maintain a database to support longitudinal studies of students as they progress through the state's higher education system.

Additional information on individual students' progress could be valuable to the state's higher education system. However, the design and fiscal impact of this project have not been adequately analyzed. It is my understanding that the Office of Information Technology is currently reviewing a Feasibility Study Report for the database. Until this review demonstrates that the database project is both feasible and cost-beneficial, this bill is premature.

This bill would repeal the exemption for state agencies from civil penalties for violations of occupational and safety provisions.

This bill is similar to one that I vetoed in 1992. Currently, for workplace violations public employers may be penalized with administrative injunctions, restraining orders, and even criminal sanctions. Public employers are subject to all the same penalties as private employers except for one, namely civil fines imposed by Cal-OSHA.

As I explained two years ago, having one state agency fine another is nothing more than a transfer of funds from one governmental unit to the other. The only one who would be hurt is the taxpayer who funds the transaction cost. The penalty assessment is unnecessary and, even worse, uneconomical.

This bill would require special act districts with division boundaries to amend those boundaries after each federal decennial census in an effort to create divisions that are, as far as practicable, equal in population.

It was the author's intent, in introducing this bill, to enact a comprehensive measure that would eliminate the need for individual districts to request legislation to amend their governing acts to allow for these types of changes every few years. Because of a drafting error, however, this bill is not the comprehensive measure most members of the Legislature assumed they were supporting.

Due to these drafting errors, it would be more appropriate to reconsider this measure next year.

This bill would create the California Career Curriculum Council to review and comment on the state plan required under the new federal School-to-Work Opportunities Act. In addition, the Council would be required to assess the feasibility of adopting an integrated academic and career skills curriculum framework in our high schools. It also would develop recommendations for a school-to-work transition system.

California's economic competitiveness is inextricably linked to our ability to ensure that our workforce is adequately prepared. That is why I initiated the State's present school-to-career planning process last fall which has resulted in the creation of the Governor's Task Force for School-to-Career Opportunities. The Task Force is developing California's implementation plan that will transform our high schools into a learning environment that supports student career goals and meets employer expectations.

Not only would AB 2583 duplicate the existing school-to-career reform effort that involves all the major stakeholders in the school-to-career system, including Members of the Legislature, but the deadlines contained in the bill for a final report to the Governor and the Legislature would unnecessarily delay California's implementation of a school-to-career system for an additional year. I find this aspect of the legislation particularly ironic at a time when the bill's author has called for swifter implementation of a school-to-career system in California.

I look forward to working with the Legislature on this important issue.

This bill would authorize the establishment of a redevelopment agency in the City of Malibu for the eradication of present and future disaster conditions.

Having been in the City of Malibu during the terrible fires of 1993, the subject of this legislation is particularly poignant. In fact earlier this year I signed legislation to provide areas like Malibu with property tax and income tax relief for losses incurred from the Southern California Wildfires and the Northridge Earthquake. I am, however, disheartened by this measure's broad application of redevelopment law.

Traditionally, the tax increment dedicated for redevelopment is utilized to promote economic development and urban renewal. The tax increment in AB 3750 would be used to mitigate past, present and future disaster conditions. The proposed redevelopment agency would be exempt from a number of Community Redevelopment Law requirements, including the finding of "blight."

The establishment of redevelopment agencies was intended to provide resources to revitalize neighborhoods and promote economic development and urban redevelopment that would not otherwise occur. To breach this fundamental tenet would be to compromise the success of current and future redevelopment agencies.

This bill would repeal a provision in current law which prohibits the Labor Commissioner from pursuing wage claims for workers in cases where a collective bargaining agreement exists. It also authorizes the Labor Commissioner to enforce wage claims for employees under collective bargaining agreements to the extent permitted by federal law.

The first provision merely repeals a provision found unconstitutional by the United States Supreme Court recently.

The second provision, however, ties California law to changes in federal law on the issue of the Labor Commissioner's authority to pursue wage claim violations. This could cloud the Labor Commissioner's authority, especially if the lower or appellate federal courts have a split of authority. Instead of deferring to federal law, it

is more appropriate to follow the interpretive bulletin issued by the Labor Commissioner on August 5, 1994 pursuant to the High Court's order.

The interpretive bulletin states that the Labor Commissioner's authority to pursue wage claims for employees under collective bargaining agreements is effective as long as the claim is based on state law and can be resolved without interpreting the agreement itself. If federal law were to expand this interpretation, it would create confusion as to the Labor Commissioner's authority and would circumvent established collective bargaining procedures.

Veto Message—Assembly Bill No. 1333

Governor's Office, Sacramento
September 30, 1994

To the Members of the California Assembly:

I am returning Assembly Bill No. 1333 without my signature.

This bill would repeal the authorization under which local enforcement agencies may sell firearms which have been seized by those agencies and require instead that such firearms be destroyed. In so doing, the bill would create a state reimbursable local mandate.

Seized firearms are sold by enforcement agencies to *licensed gun dealers* who may then lawfully resell them to persons who, after waiting 15 days to take possession, demonstrate no prohibited criminal or psychiatric record.

Under current law, agencies wishing to destroy guns may do so, without cost to the state, while agencies that conclude that selling guns provides more public safety than destroying them may exercise that option.

The proceeds of such transactions generate hundreds of thousands of dollars for individual agencies. Several law enforcement agencies oppose AB 1333 because these agencies use these monies to help put additional officers on the street.

I fear this measure would prove illusory in its attempt to disallow the use of these firearms in criminal activity. A criminal doesn't care about the prior ownership history of the weapon. I respectfully suggest that AB 1333 errs in emphasizing the transaction record of the weapon. More appropriately, measures such as AB 2470 and SB 36X focus on the record of the criminal, and upon increasing the penalties for the use of weapons as a more effective response to combating the problem of predators who use guns.

Moreover, this bill would create an anomaly in law which allows enforcement agencies to sell cars, planes and other assets used in the commission of drug offenses and their own used weapons but, not those seized by law enforcement.

Rather than reducing the number of weapons available to criminals, the real effect of this measure would more likely be simply to create a greater market for the gun manufacturers who regularly supply licenced gun dealers. If confiscated weapons are not available to dealers, the dealers will instead purchase newly manufactured weapons.

This bill doesn't curtail the manufacture of guns by gun makers. It doesn't prevent the acquisition of guns by criminals by theft or black market transaction.

Its value, in short, is chiefly symbolic, which I in no way demean. To the contrary, I have seen and heard the pain of too many crime victims who have lost loved ones to firearms not to understand and sympathize entirely with their intense desire to see an end to killing.

But I am reluctant to take a symbolic step which has the practical effect of denying needed revenues to police chiefs and sheriffs who presently use the proceeds of gun sales to enhance the safety of their communities by putting more *officers* on the streets.

E. DOTSON WILSON
Chief Clerk of the Assembly

The following messages from the Governor were received and ordered printed in the Journal:

Governor's Office, Sacramento
September 15, 1994

To the Members of the California Assembly:

I have signed this date Assembly Bill No. 1874.

This bill would require the Department of Corrections to transfer undocumented aliens to the jurisdiction of the United States Attorney General. Implementation would be delayed until federal law is enacted that would allow for the transfer of state inmates to federal jurisdiction.

AB 1874 is designed to respond to deficiencies in federal law which made it necessary to veto SB 1258 (Torres) last year. That federal law precluded the United States Department of Justice from taking custody of an illegal alien felon until he had completed serving his sentence in the state in which he was convicted.

This week that law changed. The Federal Crime bill purports to obligate the federal government to either take custody or pay states for the cost of incarceration of illegal alien inmates. The provisions of AB 1874 will authorize the Department of Corrections to commence proceedings so that the federal government can fulfill this new mandate.

The full implementation of AB 1874 will however be contingent upon the willingness of the federal government to fulfill its fiscal obligations to the states, including the citizens of California who pay 71% of the national cost of incarcerating illegal alien felons. While the federal promise to reimburse states for the costs of incarcerating

illegal alien inmates was earlier incorporated in the Immigration Reform and Control Act of 1986 (IRCA), Californians have not yet seen one dollar. Uncle Sam has been a dead beat dad.

This year with the adoption of the crime bill and the first trickle of funding through IRCA, AB 1874 is a well timed directive to the Department of Corrections.

To the Members of the California Assembly:

I have signed this date Assembly Bill No. 2554.

This bill would require school districts under the State Teachers' Retirement System to provide information on STRS membership criteria to all their certificated employees. This bill would also make the districts liable for the employee and employer contributions and interest for noncompliance beginning March 1, 1995.

The Department of Finance is concerned that this bill may impose a state-mandated program on local public employers. Legislative Counsel has issued an opinion to the contrary. However, unlike a similar bill I considered in the 1991–1992 legislative session, this bill does not contain express language declaring that any costs are not state-reimbursable. The sponsor has agreed to work for passage of clean-up legislation next year which contains this express declaration.

Cordially,

PETE WILSON

Governor's Office, Sacramento
September 19, 1994

To the Members of the California Assembly:

I am signing Assembly Bill No. 2178.

This bill would require that a Medi-Cal managed care pilot project under the Geographic Managed Care model be implemented in San Diego County upon approval of the county's board of supervisors.

It is important to the State that implementation of this pilot begin immediately. I do, however, have concerns with some of the bill's provisions.

The bill would require the contractors in the multiplan model to cover dental services. The Department of Health Services has already released a Request for Proposal seeking to obtain dental services for Medi-Cal beneficiaries in the San Diego area.

The bill does not provide the necessary authority to terminate existing Medi-Cal managed care contracts in San Diego County. It is clearly the intent of the bill to allow services to be provided only through contracts designated by San Diego county as part of the multiplan model.

The bill also presents other minor technical problems.

I am signing this bill with the understanding that the Department of Health Services and the County of San Diego have committed to come to mutual agreement on a legislative proposal for next session to resolve these concerns.

Cordially,

PETE WILSON

Governor's Office, Sacramento
September 20, 1994

To the Members of the California Assembly:

I am signing Assembly Bill No. 3102.

This bill would designate the Office of AIDS within the Department of Health Services as the lead agency for coordinating state programs, services and activities relating to the human immunodeficiency virus, acquired immune deficiency syndrome (AIDS) and aids-related conditions.

This bill is arguably unnecessary because its merely codifies the approach that the prior Administration had taken in establishing the Office of AIDS and that this Administration has continued. The bill does, however, consistent with the priority I have placed on these issues, recognize the importance of statewide program coordination of education and prevention activities by designating the Department of Health Services as the lead agency in those efforts.

Sincerely,

PETE WILSON

Governor's Office, Sacramento
September 21, 1994

To the Members of the California Assembly:

I have signed this date Assembly Bill No. 2716.

This bill would limit to 15% the credit inmates in state prison or local custody could earn to reduce their prison sentences for violent crimes.

This is landmark legislation. It redresses one of the greatest frauds in California's criminal justice system—so called "work" and "good time" credits.

Under current law, even murderers may have their sentences reduced by up to one-third for good behavior and participation in work, training, or educational programs. Other criminals, including those convicted of violent crimes such as forcible rape, child molestation, kidnapping and home invasion robbery, get up to one-half off their sentences for good behavior and work credits.

This is absolutely preposterous. Criminals should not get out of prison early just for doing a good job of folding shirts in the prison laundry.

The measures I have sponsored in each of the last four years to restore truth-in-sentencing for the worst offenders have been defeated by an unwilling Legislature. Fortunately, the result was different on this bill.

But even this bill, which represents significant reform by imposing limits upon sentence credits and by ensuring that violent criminals will serve at least 85% of their sentences, leaves more work to be

done. In order to restore truth-in-sentencing fully, violent criminals should receive no credit whatsoever. In addition, serious criminals like carjackers, residential arsonists, and drug dealers should serve at least 85% of their sentences.

And next year there may be an added incentive to enact more comprehensive reform. The recently passed Federal Crime Bill provides prison construction funds to states which limit credits to 85% for the worst criminals, including serious drug offenders. With further reform, California could qualify for additional federal funds.

Next year I will once again sponsor legislation on this important issue to bring full justice back to our criminal justice system. For now, I am delighted to sign this long-overdue and much-needed law.

To Members of the Assembly:

I am signing Assembly Bill No. 3081.

This bill would require the Department of Health Services, provided that funds are available, to convene a conference to address the issue of testing or treatment to prevent neonatal group B streptococcal (GBS) infection. This bill would also require the Department to develop a standardized written summary and guidelines on the prevention of this disease.

This infection is a major cause of morbidity in newborns in the United States. However, there is virtually no education offered to prenatal patients because of differing opinions in the medical community as to what to do.

GBS is preventable. Consensus in the medical community can bring preventive treatment to pregnant women.

For this reason, I am directing the Department of Health Services to find the resources within their budget to convene this conference. This conference will bring together interested and responsible health agencies to come to agreement on the best and most cost-effective strategies for preventing these infections.

I am signing Assembly Bill No. 2849.

This bill would require the Department of Health Services to develop and implement a pilot project by July 1, 1995 for at least two Women's HIV Early Intervention Centers. Los Angeles County and Alameda/Contra Costa County are to be considered as possible sites for the projects.

the high priority my Administration has placed on women's health issues in general and HIV in particular.

Cordially,

PETE WILSON

Governor's Office, Sacramento
September 25, 1994

To the Members of the California State Assembly:

I have on this date signed AB 3821.

This bill would direct the Defense Conversion Council to develop a strategic plan that would minimize impacts of base closures on communities, and would require the Council to submit a report to the Governor and Legislature outlining the potential effects of the 1995 round of base closures.

While I agree with the basic intent of this bill, which is to minimize the impacts of base closures on all affected communities, I did have some reservations about signing this measure. Earlier this year I signed Executive Order W-87-94, designating the Office of Planning and Research (OPR) as the State entity responsible for evaluating and mitigating the potential impacts of future base closure decisions. In addition, I have recently approved the appointment of a Director of Military Base Retention for OPR. She is leading a very capable team charged with developing and carrying out strategies to protect California bases from further closings.

Although I am signing this bill, let me stress that OPR will continue, pursuant to my Executive Order, to serve the preeminent role in protecting our bases from further reductions and closures. AB 3821 will merely serve to complement existing responsibilities of the Council and OPR. As we move closer to the 1995 round of base closures, it is important that individuals charged with fighting to maintain our bases in California are not in any way hamstrung by confusing lines of jurisdiction.

To the Members of California State Legislature:

I have signed this date Senate Bill No. 354 and Assembly Bill No. 3774.

These bills are intended to provide greater clarification to existing law relating to the use of a federal environmental impact statement to satisfy the State's environmental review requirements. While these bills would not significantly affect the State or federal environmental review processes, I believe they will help ensure that State lead agencies pursuing the option of using an EIS as an EIR satisfy the public notice requirements of CEQA as well as other areas in which CEQA is more stringent than NEPA.

Specifically, these bills would require a previously prepared EIS to be circulated for review and comment in the same manner as a draft EIR. Further, they state that the draft EIR would be required to consist of the EIS, plus any additional information necessary to comply with CEQA.

While I believe current law already allows for this type of action, those laws are somewhat ambiguous, resulting in many local governments being reluctant to attempt to use those provisions without some clarification. This bill would add certainty to that authority, while preserving existing mechanisms for satisfying CEQA requirements included CEQA Guidelines Section 15225 (Title 14 Code of California Regulations), which allows for the use of a federal EIS without recirculation where adequate public notice is given.

I believe that by enacting these bills, we have taken an important step in maintaining as much flexibility as possible to remove any impediments that may inhibit the timely reuse and conversion of closing military installations.

To the Members of the California Assembly:

On this date I have signed Assembly Bill No. 3720.

Government policies that regulate and maintain monopolies only make sense when there is no practical alternative that would promote a competitive market. Consumers lose, businesses lose, and California's economy loses as regulation stifles the entrepreneurial drive that makes California a world leader in so many industries.

Technology can bring to California a competitive telecommunications market, with more choice, new services, and lower costs—if regulatory policies at the state and federal level will keep pace. That is why in my 1993 State of the State Address I asked the California Public Utilities Commission to review its regulation of telecommunications; that is why I endorsed the resulting report issued last November that sets January 1997 as the deadline for open markets in the State; and that is why I support the elimination of federal restrictions that impede our progress towards competition. Assembly Bill No. 3720 promotes an end to these federal restrictions.

There is no doubt that, in the near future, consumers will have a real choice of companies from which to choose telephone and other telecommunications services to their homes and businesses. The only question is how the regulatory transition will take place. The federal government phased out regulations in order to bring competition to the long distance telephone market, and the California PUC should take a similar path, on an accelerated basis, to allow the benefits of the information age to reach all Californians.

While this bill speaks to an important element of the debate over telecommunications policy, the PUC must move deliberately on a series of complex proceedings to make the open-market vision a reality. The sense of urgency conveyed in AB 3720 fairly applies to all sectors of the telecommunications market throughout California, and that is the challenge for California.

This bill would extend, for a 3 year period, the authority of the Santa Cruz Board of Supervisors to allocate local property taxes to a variety of programs including the support of local libraries.

Although I am supportive of this measure, I do not intend for this to be viewed as a statewide precedent. Given the severe earthquake that this community unfortunately experienced and the resultant fiscal constraints, AB 1905 is an appropriate temporary measure, to help maintain services in Santa Cruz County.

To the Members of the California Assembly:

I have signed this date Assembly Bill No. 1045, which strengthens expulsion requirements and provides for alternative placement for pupils who are expelled.

Unfortunately, this bill will not become operative because its enactment is contingent upon enactment of SB 1645, which I have vetoed today. SB 1645 would condition the operation of this bill on full funding of the K–12 cost-of-living adjustment in 1995–96.

I find it incredible and unconscionable that the Legislature would condition the enactment of zero-tolerance policies on funding issues that will not be addressed until next year. The issue of our children's safety should be beyond political leveraging and gamesmanship. To say I am disappointed is a considerable understatement.

I will ask the author, whose diligence I commend, to re-introduce this needed protection for school children and teachers as an urgency bill when the Legislature convenes for the new session in December.

Cordially,

PETE WILSON

Governor's Office, Sacramento

To the Members of the California Assembly:

I have signed this date Assembly Bill No. 253.

This bill would expand the California Capital Access Program by enabling utilities and other entities to participate in the program with California's financial institutions. The bill would also broaden the potential pool of applicants by authorizing these entities to back loans to any small business, rather than only those companies that "affect the California environment." Additionally, the bill provide a specific incentive for banks to make loans to companies in areas affected by federal military base closures.

Given difficulties that small business women and men face in gaining access to capital, I have long supported the creation and expansion of programs to assist in the creation of California jobs. Specifically, I have sponsored tax reforms for small business including

extension and expansion of the net operating loss carry forward and creation of a capital gains credit for investment in small business; reform of the workers' compensation system and reduction in premiums for small business owners; creation of the Health Insurance Plan of California, which enables small businesses to pool their health purchasing to achieve market clout; an increase in the number of loans produced by the Small Business Loan Guarantee program; and expansion of the number of small business development centers statewide.

I signed legislation in October, 1993, creating the CalCAP, and its first loans were issued approximately six months later. CalCAP provides loan portfolio insurance to financial institutions that extend loans to "near-bankable" small businesses with operations that affect the environment. To date, less than 1,200 jobs have been "affected" by CalCAP, compared with nearly 6,000 jobs created or retained by the Office of Small Business' Loan Guarantee Program in fiscal year 1993–94. In addition, only four banks have booked loans through CalCAP, compared with the more than 100 banks that currently participate in the Loan Guarantee Program.

Earlier this year, I was forced to use my line item veto authority to remove a $750,000 augmentation for the California Pollution Control Financing Authority, payable from the Small Business Expansion Fund, to expand the CalCAP program. Had I not vetoed this language, several hundred women and minority contractors would have been harmed, as these funds will be used by the Trade and Commerce Agency to guarantee surety bonds so that women and minority contractors may bid on public works projects. This bill is an improvement over the proposal contained in the budget, and I am hopeful these changes will assist in utilizing the more than $23 million in Small Business Assistance Fund monies that remain unspent and could be used to assist California business.

However, it must be recognized that the CalCAP program, however worthwhile, will be ineffective if it is not coordinated with the other services the Trade and Commerce Agency provides to small businesses, including the Small Business Loan Guarantee Program, which offers financial assistance to those businesses in greatest need of assistance and those least bankable; the Export Finance Program, which provides financial assistance to exporters; other targeted loan programs and surety bond guarantees; and comprehensive technical assistance and consulting through the Small Business Development Center network.

I am therefore hopeful that coordination between the Agency and the Office of the State Treasurer will be increased in the near future.

To the Members of the California Assembly:

I have signed Assembly Bill No. 3466 on this date.

This bill will expand the ability of districts to lease portable classrooms for childcare programs, recreational programs, and enrichment programs.

Under current law, districts must comply with several requirements in order to qualify for portable classrooms. Among other exemptions, this bill would exempt districts from the requirement that they prove they have no other source of bond funds with which to purchase classrooms. I am concerned that repeal of this particular provision could lead to abuses of the program.

I have been advised that the author's office will be introducing legislation to eliminate this exemption, and with that understanding, I am signing the bill.

To Members to the Assembly:

I am signing this day AB 3651.

I am signing this bill to insure the continued flow of federal tax credits for the development of affordable housing.

Unfortunately, this bill does not begin to address the problems that have diminished the efficacy of the federal tax credit program. Higher developer fees and escalating per unit costs have been prevalent and they have diluted what could otherwise be a very inspiring source of funds for the development of low-income housing. I again urge the TCAC to review the current practices and strongly suggest that state law should be amended in order to limit the abuses inherent within the program.

I am signing this date Assembly Bill No. 595.

I admonish the Medical Board in its implementation of this measure to exert every effort to assure that the process of accreditation produces the least possible cost in time and effort required for compliance, consistent with achieving assurance of needed patient protection. Accreditation must be a process that does not impose unjustifiable costs on physician or patient. Its purpose must be to make safe, not expensive, the procedures of outpatient care performed in a non-hospital setting. Let there be no "guilding" the lily. The pun is deliberate (not "inventive spelling"), as is my concern that the accreditation process not be manipulated to artificially deny access to patients to qualified practitioners, or to impose public policies which are the purview and responsibility of the Legislature, not the Medical Board.

To the Members of the California Assembly:

I have signed this date Assembly Bill No. 867.

This bill would streamline the regulatory process for California mine operators. Specifically, this measure reduces a regulatory burden by eliminating the need to prepare redundant documentation for the California Environmental Quality Act and the Surface Mining and Reclamation Act.

This bill enacts one of three proposals developed by this Administration's Blue Ribbon Task Force on the Surface Mining and Reclamation Act. Two other proposals of the Task Force recommended regulatory relief for small-scale mines and recognition of cities and counties with exemplary implementation of the State's mine reclamation law.

I have instructed the Director of Conservation to administratively implement Task Force recommendations achievable under the Department's existing authority.

I have signed this date Assembly Bill No. 2105.

This bill would permit licensed escrow agents to retain performance bonds for state public works contracts.

I have signed this bill with the understanding that the author and the sponsor have agreed to work to enact legislation next year to clarify two issues.

One, the exercise of the agency's prerogative to disapprove of any individual escrow agent to retain bonds is entirely discretionary and cannot give rise to a cause of action. And, two, the scope of coverage for liability arising out of the escrow agent's negligent acts or omissions should at least equal the coverage provided in fidelity bonds.

With this understanding, I have signed AB 2105.

I have signed this date Assembly Bill No. 2556.

The completion of the Long Beach Freeway is of critical importance to the Southern California economy. It is years overdue.

However, pursuant to earlier agreements, I am directing the California Department of Transportation to fully comply with all federal and state statutes, regulations, and executive orders regarding the consideration of cultural and natural resources in the planning, development, construction, permit issuance and maintenance activities related to this project. Caltrans shall annually

submit written reports to the Secretaries of the Business, Transportation and Housing Agency and the Resources Agency until the project is completed regarding progress on the project and compliance with this directive.

Cordially,

PETE WILSON

Governor's Office, Sacramento

To the Members of the California Assembly:

I have signed Assembly Bill No. 2590 this date.

This bill would permit state employees and private-sector employees in firms of more than 25 employees to utilize up to 40 hours, as opposed to 4 hours under current law, specified leave time annually for the purpose of participating in their children's school activities. It also would expand the existing law that prohibits employers from discharging or discriminating against the employee for use of such leave from 4 to 40 hours, as long as the employee provided reasonable notice to the employer.

Under existing law, parents can already use their vacation, personal leave, or compensatory time off, to participate in school activities. The only opportunity afforded by this bill would be that parents as employees are entitled to take uncompensated time off, up to forty hours, if they do not have any earned time that they may take off.

While AB 2590 has some symbolic value, it has little or no practical effect on meaningfully involving parents in their children's education. Real involvement is a day-in, day-out commitment, not an occasional classroom drop-by.

It is particularly ironic that the California Teachers' Association supports this largely symbolic measure under the guise of providing parental involvement. That support stands in stark contrast to their ardent opposition and, to a large extent, contribution to the demise of Senator Marian Bergeson's initiative for a Parental Bill of Rights, a measure that would have provided significant opportunity for parental involvement, which is the most important factor in a child's educational success.

To the Members of the California Assembly:

On this date I have signed Assembly Bill No. 3606.

This bill which facilitates the cable industry to provide local telephone service in competition with telephone companies reinforces the competitive telecommunications vision that I set out in my State of the State Address in 1993 and that is embodied in the subsequent report of the California Public Utilities Commission. As I stated in the message accompanying my signing of AB 3720:

"Current technology can bring to California a competitive telecommunications market, with more choice,

new services, and lower costs—if regulatory policies at the state and federal level will keep pace.

"There is no doubt that, in the near future, consumers will have a real choice of companies from which to choose telephone and other telecommunications services to their homes and businesses. The only question is how the regulatory transition will take place."

AB 3606 emphasizes a commitment already made by the PUC to promote comparable market access opportunities for all competitors—cable companies, telephone companies, and others—and it stresses the need for the Commission to move ahead quickly to meet its goals.

For this reason, as I did with AB 3720, I am calling on the PUC to open proceedings appropriate to meeting the mandates of this bill. The benefits of competition on both price and service to the consumer should not be delayed.

To the Members of the California Assembly:

On this date I have signed Assembly Bill No. 3661, however, I am reducing the allocation provided in Section 1 by $1,700,000 by reducing Item 3680-101-516 from $15,431,000 to $13,731,000 and by deleting Schedule 6 of the Small Craft Harbor Loan ($1,700,000 for Suisun City Marina). These projects did not rank high enough on Department of Boating and Waterway's priority list to be included in the originally proposed Governor's Budget, and as a result of budget reductions, many other higher priority projects still remain unfunded.

MOTION

Assembly Member Hannigan moved that from the day that a regular session convenes and until the appointment and election of a majority of the members of the Committee on Rules:

(1) The Chief Administrative Officer of the Assembly who is serving immediately preceding that day shall continue to serve and discharge the duties of the office.

(2) All persons who are employed by the Assembly immediately preceding that day and who have not previously been given notice of termination of that employment may continue their employment, and the Chief Administrative Officer may approve claims for their compensation, but may not approve the employment of any other person.

(3) The Chief Administrative Officer may approve claims for expenditures incurred for the classes of usual and current expenses of the Assembly that have been authorized by the Committee on Rules

prior to that day, but may not approve expenditures for new classes of expenses or equipment that have not been previously authorized.

Assembly Member Katz seconded the motion.

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Sacramento, California
November 17, 1994

Honorable John L. Burton
3152 State Capitol

Election of Assembly Officers—#31700

Dear Mr. Burton: You have asked us to discuss the manner in which, if the Assembly fails, upon convening at the commencement of the 1995–96 Regular Session, to either elect the Speaker of the Assembly or approve members nominated to the Assembly Committee on Rules,[1] the Assembly is to conduct its day-to-day operations, such as paying obligations under leases and contracts, paying other operating expenses, and hiring and terminating employees. You also asked that we determine whether the Assembly's failure to so act would automatically terminate the employment of persons who are employees of the Assembly immediately preceding the commencement of the 1995–96 Regular Session.

As a legislative body, the Assembly possesses the power to govern its internal affairs, including the adoption and revision of rules for that purpose (see subd. (a), Sec. 7, Art. IV, Cal. Const.; *In re Collie,* 38 Cal. 2d 396, 398; *People's Advocate, Inc.* v. *Superior Court,* 181 Cal. App. 3d 316, 328). In that regard, Section 7 of Article IV of the

[1] We also assume, for purposes of this inquiry, that the Assembly has not adopted standing rules for the 1995–96 Regular Session

California Constitution provides that each house of the Legislature "shall choose its officers and adopt rules for its proceedings."

At the commencement of any session of the Legislature, the Assembly has no rules and, until rules are adopted, the Assembly is governed by customs and usages (see Sec. 39(6), Mason, *Manual of Legislative Procedure* (1979 edition); hereafter "Mason's Manual"). The primary determinants of Assembly customs and usages are the provisions of law relating to Assembly procedure and the Assembly rules last in effect for the preceding session (Ibid.).

Section 9023 of the Government Code [2] provides that, at the commencement of a regular session of the Legislature, the Chief Clerk of the Assembly (or, in the clerk's absence, the senior member-elect present) shall take the chair and call the members-elect to order. If a quorum is present, the Assembly may then elect its officers; prior to the election of the Speaker of the Assembly, there shall be no other business, motion, or resolution considered, other than a motion to adjourn or for a call of the house (Sec. 9023; see also Sec. 9171).

The requirement in Section 9023 that the election of the Speaker of the Assembly be the first order of business fulfills the practical prerequisite that an officer be designated to preside over the various decisions that the Assembly must make in organizing itself for the new legislative session. One of those decisions involves the approval of members nominated to the Assembly Committee on Rules, which continues in existence during any recess of the Legislature and after final adjournment of a legislative session, but only "until the convening of the next regular session" (A.R. 15). [3]

In the Senate, the President pro Tempore, the members of the Senate Committee on Rules, and other designated officers of the Senate are specified to "serve until their successors are elected and qualify" (S.R. 10.5). Similarly, the Chief Clerk and the Sergeant-at-Arms of the Assembly are to perform their duties "until their successors are elected and qualify" (Sec. 9150). By contrast, the procedure described in Section 9023 provides that, upon the commencement of a regular session of the Legislature, the business of the Assembly may not be conducted until the election of the Speaker of the Assembly and, accordingly, no person is authorized to serve in that office until that election has occurred. Similarly, Assembly Rule 15 indicates that the Assembly Committee on Rules may not operate upon the convening of a regular session of the Legislature until the Assembly approves the members of that committee, and a chairperson of the committee is designated by the Speaker of the Assembly (see A.R. 13).

The rules of the Assembly do not specifically address the manner in which the Assembly, under these circumstances, may conduct its day-to-day affairs, such as paying obligations under leases and

[2] All section references are to the Government Code, unless otherwise indicated.

[3] All references in this discussion to rules of the Assembly refer to the Assembly rules adopted for the 1993–94 Regular Session (see H R. 21, adopted May 17, 1993; see also H.R. 22, adopted June 10, 1993, and H.R 4, adopted June 28, 1993).

contracts, paying other operating expenses, and hiring and terminating employees. Accordingly, we must consider what authority may exist for this purpose.

We first consider, in this regard, the role of the Chief Administrative Officer of the Assembly. Assembly Rule 14 authorizes the Chairperson of the Committee on Rules to appoint a Chief Administrative Officer of the Assembly, subject to the ratification of the Assembly Committee on Rules, who shall have duties "relating to the administrative, fiscal, and business affairs of the Assembly that the committee shall prescribe" (A.R. 14(i)). The chairperson, or a majority of the membership of the committee, may terminate the services of the Chief Administrative Officer at any time (Ibid.).

We do not think that an officer who serves at the pleasure of the chairperson and members of the Assembly Committee on Rules, and whose duties are prescribed by the committee, possesses authority to act at a time when that chairperson has not been designated, and the members of the committee have not been approved by the Assembly. Consistent with this view is the fact that the appointment of the Chief Administrative Officer of the Assembly is identified by Assembly Rule 14 as one of the powers that the Assembly Committee on Rules may exercise "during sessions, and after final adjournment *and until the convening of the next regular session*" (emphasis added). For these reasons, we conclude that a Chief Administrative Officer who was appointed, and granted administrative duties, in a previous legislative session would not be authorized to perform those duties under the circumstances described in this analysis in the absence of further action by the Assembly, during either the 1993–94 Regular Session or the 1995–96 Regular Session, that would revise that officer's authority.

With regard to the expenditure of legislative funds, Section 9127 reads as follows:

> "9127. Unless specifically exempted from this section, all appropriations for contingent expenses of the Assembly and legislative committees thereof, including appropriations previously made which have not reverted to the General Fund, shall be deposited in and credited to the Assembly Contingent Fund, which fund is created in the State Treasury. The money in the fund shall be available for the expenses of the Assembly and legislative committees thereof and shall be disbursed under or pursuant to the direction of the Assembly as provided in the rules, orders, and resolutions of the Assembly, or as provided by the Assembly Rules Committee (which committee has a continuing existence during sessions and between sessions with such powers, duties and responsibilities as the Assembly from time to time shall prescribe) as and when thereunto authorized by the Assembly. The money in the fund shall be disbursed, pursuant to, and the powers, duties and responsibilities of the Assembly Rules Committee shall

be as provided by, the rules, orders and resolutions adopted by the Assembly at the 1949 Regular Session until modified or superseded by Assembly action at a subsequent session."

Thus, pursuant to Section 9127, the money in the Assembly Operating Fund may be disbursed "under or pursuant to the direction of the Assembly as provided in the rules, orders, and resolutions of the Assembly," or "as provided by the Assembly Rules Committee . . . as and when thereunto authorized by the Assembly" (see also Item 0120-011-001, Sec. 2.00, Budget Act of 1994 (Ch. 139, Stats. 1994)).

Furthermore, under the rules adopted by the Assembly for the 1993–94 Regular Session, no Member or committee of the Assembly may incur any expense except as authorized under the Assembly rules, or the joint rules, or as authorized by the Assembly or the Assembly Committee on Rules (A.R. 17 and 18). In addition, all claims for expenses incurred by investigating committees of the Assembly must be approved by the Assembly Committee on Rules, or its authorized representative (A.R. 20).

Because the chairperson and the members of the Assembly Committee on Rules would not have been appointed under these circumstances (see A.R. 15, as discussed above), the committee would be unable to act and no expenses could be incurred on behalf of the Assembly, nor could any money in the Assembly Operating Fund be disbursed, unless the Assembly so authorizes, either expressly or by implication, during either the 1993–94 Regular Session or the 1995–96 Regular Session.

The Assembly Committee on Rules also possesses the authority to appoint all employees of the Assembly not otherwise provided for by statute, and to terminate, suspend, and specify the terms and conditions of employment of, any employee of the Assembly (A.R. 14; see also Secs. 9172 and 9173).

In addition, the Chief Clerk of the Assembly, who is expressly authorized to perform his or her duties at the next succeeding session until a successor is elected and qualifies (Sec. 9150), is empowered to "appoint such temporary employees as are in his opinion necessary for the proper organization of the Assembly" (Sec. 9151). Those temporary employees serve only until the permanent organization of the Assembly is completed (Ibid.). Pursuant to Section 9173, which states that any officer or employee appointed or elected by the Senate or Assembly "may at any time be removed in the same manner as is provided for his election or appointment," we think that the Chief Clerk of the Assembly also is empowered to remove any of the temporary employees that he or she appoints pursuant to Section 9151.

It is our opinion, moreover, that the rules and statutes discussed above do not restrict the Assembly in the operation of internal affairs, but govern only as a matter of precedent. As discussed above, the Assembly possesses the inherent constitutional authority to govern its internal affairs, including the authority to change or disregard previously adopted rules (see subd. (a), Sec. 7, Art. IV, Cal. Const.; *In re Collie,* supra, at p. 398; *French* v. *Senate,* 146 Cal. 604, 608; *People's Advocate, Inc.* v. *Superior Court,* supra, at p. 328; see also Sec. 22, Mason's Manual). This authority may be exercised at any time by the vote of a majority of the legal votes cast, a quorum being present (see

Sec. 510(1), Mason's Manual). Consequently, in our view, regardless of the failure to elect the Speaker of the Assembly or to approve members nominated to the Assembly Committee on Rules, the Assembly may act, pursuant to a majority of the legal votes cast, a quorum being present, to make employment decisions, approve expenditures, or otherwise conduct its internal affairs. Alternatively, the Assembly may delegate its authority over any of those internal affairs to one or more officers, committees, or other entities, at its discretion.

We next consider whether the Assembly's failure to elect the Speaker of the Assembly or approve members nominated to the Assembly Committee on Rules, under the described circumstances, would automatically terminate the employment of persons who are employees of the Assembly immediately preceding the commencement of the 1995–96 Regular Session.

Under Section 7 of Article IV of the California Constitution, the Assembly has the authority to regulate its employees, and may provide for the appointment, compensation, duties, discipline, and conflict of interests of its employees as it deems necessary (see also Secs. 8924, 9171, 9172, 9173, and 9320). The *Personnel Policy Manual for Assembly Employees* (February 1992; hereafter the "Policy Manual") expressly states that Assembly employees are "at will" employees serving at the pleasure of the Assembly, and that their employment may be terminated without cause at any time (Policy Manual, at p. 2; see also A.R. 24). Consistent with the provisions of the Policy Manual, we are of the opinion that, in the absence of any evidence of an oral or implied-in-fact contract for the indefinite continuation of employment pending just cause for termination, the employment of Assembly employees is terminable "at will" (see Sec. 2922, Lab. C.; *Foley* v. *Interactive Data Corp.,* 47 Cal. 3d 654, 677).

However, we find no provision in the rules of the Assembly, or in the statutes governing its internal affairs, suggesting that termination of the employment of all employees of the Assembly automatically occurs, as in the case of certain officers of the Assembly (see Secs. 9023 and 9171; A.R. 15), upon the commencement of the next regular session of the Legislature. Further, we understand the historical practice of the Assembly to be that employees continue their employment into the next regular session of the Legislature unless and until they are issued notices of termination of employment, and that those notices customarily are issued only to employees whom the Assembly does not intend to reemploy in their current positions, including, for example, employees serving in the offices of Members of the Assembly who are not reelected. Based upon that established practice (see Sec. 39(5) and (6), Mason's Manual), we conclude that the procedure that currently governs the Assembly in this respect is that the employment of an Assembly employee is terminated pursuant to the issuance of a notice of termination of that employment, and not automatically as a consequence of the commencement of the next regular session of the Legislature.

In reaching this conclusion, we observe that, although employment is not terminated as a consequence of the commencement of the next regular session of the Legislature, under

the circumstances that are the subject of this analysis no expenditure may be made from the Assembly Operating Fund, whether for the payment of employee salaries and benefits or for any other purpose, except by either the revision of the Assembly rules governing expenditures or other action of the Assembly.

In summary, we conclude that if the Assembly fails, upon convening at the commencement of the 1995–96 Regular Session, to either elect the Speaker of the Assembly or approve members nominated to the Assembly Committee on Rules, the Chief Clerk of the Assembly may appoint such temporary employees as are, in his or her opinion, necessary for the proper organization of the Assembly. In addition, under those circumstances the Assembly may act, pursuant to a majority of the legal votes cast, a quorum being present, to authorize the payment of obligations under leases and contracts, the payment of other operating expenses, and the hiring and termination of employees, and may otherwise provide for the conduct of its internal affairs, either directly or through the delegation of its authority over those internal affairs. Finally, it is our opinion that the Assembly's failure to elect the Speaker of the Assembly or approve members nominated to the Assembly Committee on Rules, under the described circumstances, would not automatically terminate the employment of persons who are employees of the Assembly immediately preceding the commencement of the 1995–96 Regular Session.

Reconvening the Assembly—#31604

Dear Mr. Brown:

QUESTION

May the Assembly, without the consent of the Senate, reconvene during the final recess of the regular session for the purpose of conducting business, prior to the adjournment *sine die* of the session, that relates to the internal operations of the Assembly?

OPINION

The Assembly, without the consent of the Senate, may reconvene during the final recess of the regular session for the purpose of conducting business, prior to the adjournment *sine die* of the session, that relates to the internal operations of the Assembly.

ANALYSIS

Section 7 of Article IV of the California Constitution provides that each house of the Legislature "shall choose its officers and adopt rules for its proceedings." Each house of the Legislature, as a legislative body, possesses the power to govern its internal affairs, including the adoption and revision of rules for that purpose (see *In re Collie,* 38 Cal. 2d 396, 398; *People's Advocate, Inc.* v. *Superior Court,* 181 Cal. App. 3d 316, 328).

In implementation of that authority, the Assembly and the Senate each adopted rules governing their internal affairs for the 1993–94 Regular Session (see H.R. 21, adopted May 17, 1993, and S.R. 4, adopted December 4, 1992, respectively), as well as joint rules governing the relations between the houses (see Res. Ch. 43, Stats. 1993, adopted July 1, 1993; J.R. 31).

The Assembly rules contain no provision that expressly addresses the reconvening of the Assembly while in final recess. [1] However, Joint Rule 51 provides, with respect to the final recess of a legislative session, that "[t]he Legislature shall be in recess on September 1 until adjournment *sine die* on November 30," and that this final recess constitutes a joint recess of the Senate and the Assembly. In addition, Joint Rule 52 specifies that the Legislature may be recalled from joint recess and reconvene in regular session by any of three designated methods, two of which requires joint action by the two houses.

On August 31, 1994, Assembly Member Hannigan moved that, pursuant to Joint Rule 51, the Assembly "do now adjourn for the final recess of the 1993–94 regular session until adjournment *sine die* on November 30" (Assembly Daily Journal, August 31, 1994, p. 9358). Subsequently, pursuant to that motion, the Assembly "adjourned for the final recess of the 1993–94 Regular Session, pursuant to the provisions of Joint Rule 51" (Assembly Daily Journal, August 31, 1994, p. 9369).

Under subdivision (c) of Joint Rule 52, the Legislature may be reconvened during the final recess of the regular session, without the consent of the Senate, by the concurrence of two-thirds of the membership of the Assembly. However, Joint Rule 52 sets forth prerequisites to reconvening the "Legislature," rather than one house of the Legislature. The Legislature is constitutionally defined to consist of both the Senate and the Assembly (Sec. 1, Art. IV, Cal. Const.). Accordingly, construing Joint Rule 52 in accordance with the plain meaning of the wording used in that rule (see generally Sec. 1861, C.C.P.), we conclude that the procedures set forth in that rule as prerequisites to the reconvening of the Legislature do not apply to the reconvening of one house of the Legislature, particularly to deal with matters relating solely to the internal operations of that house.

In any event, as discussed above, the Assembly possesses the inherent constitutional authority to govern its internal affairs,

[1] The Assembly rules, Senate rules, and joint rules each specify that, in all cases not provided for by the California Constitution, statute, or those rules, the authority shall be Mason's Manual (Mason, *Manual of Legislative Procedure* (1979 edition), see A.R. 10, S.R. 20, and J.R. 31, respectively). However, Mason's Manual contains no provision that addresses the reconvening of a legislative body during a recess

including the authority to change or disregard previously adopted rules (see *In re Collie,* supra, at p. 398; *French* v. *Senate,* 146 Cal. 604, 608). It is well established that the California Constitution is not a grant of power, but a limitation, and the Legislature may act if not expressly prohibited by the Constitution (see Sec. 1, Art. IV, Cal. Const.; *Dean* v. *Kuchel,* 37 Cal. 2d 97, 100). Consequently, the Assembly may act, with respect to its internal affairs, in any manner not prohibited by the California Constitution.

With regard to recesses of the Legislature, subdivision (d) of Section 7 of Article IV of the California Constitution provides that neither house may recess for more than 10 days without the consent of the other. The California Constitution also specifies that no bill may be passed by either house on or after September 1 of an even-numbered year except "statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes, and bills passed after being vetoed by the Governor" (subd. (c), Sec. 10, Art. IV, Cal. Const.). Further, the Legislature may not present any bill to the Governor "after November 15 of the second calendar year of the biennium of the legislative session" (subd. (d), Sec. 10, Art. IV, Cal. Const.).

The California Constitution does not contain, however, any provision that would prohibit the Assembly from reconvening during the final recess of the regular legislative session, nor from conducting business relating to the internal operations of the Assembly at any time during a legislative session.

It is our opinion, therefore, that the Assembly, without the consent of the Senate, may reconvene during the final recess of the regular session for the purpose of conducting business, prior to the adjournment *sine die* of the session, that relates to the internal operations of the Assembly.

Very truly yours,

Bureau of State Audits

93105
October 6, 1994

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning a review of job-related disability retirements at the Public Employees' Retirement System (PERS), the Los Angeles Fire and Police Pension Systems, and the San Diego County Employees' Association.

The report shows that the PERS could realize annual savings of at least $1.8 million if Section 21300 of the California Government Code was amended. Section 21300 of the Government Code contains certain earnings limit provisions which authorize the PERS to reduce the retirement benefits of members who have retired due to a disability, but that are currently earning significant income in addition to their retirement benefits. However, PERS members who

are "safety members" (that is, police officers, traffic officers, fire fighters and several other categories of employees who have retired because of a job-related disability) do not have their retirement benefits reduced when they have earnings in addition to their retirement benefits. Section 21300 of the Government Code specifically exempts these members from the law's earnings limit provisions. If safety members were not exempt from the earnings limit provisions, the PERS would realize a cost savings, since many of these members have significant earnings in addition to their retirement benefit. We selected a sample of 214 PERS safety members who have retired on job-related disabilities and who have significant earnings in addition to their retirement benefits. For just these 214 members, we estimate that the PERS would save $1.8 million a year, if PERS were authorized to apply an earnings limit to the retirement benefits of these members.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Investigative Report
I930279
November 22, 1994

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: The Bureau of State Audits presents its investigative report concerning the Center for Prehospital Research and Training (CPRT) at the University of California, San Francisco (UCSF). This report concludes that the UCSF grossly mismanaged the CPRT. As a result of this gross mismanagement, the UCSF cannot assure the State's taxpayers that its funds were accounted for and spent properly. Also, the UCSF did not safeguard its resources and failed to promote an effective and efficient use of resources at the CPRT.

Respectively submitted,

STATEMENT OF ASSEMBLY EXPENDITURES PRINTED IN JOURNAL

The following Statement of Assembly Expenditures was ordered printed in the Journal:

Honorable Willie L. Brown, Jr.
Speaker of the Assembly
State Capitol, Sacramento, California

Dear Mr. Speaker: Transmitted herewith is the annual report of Assembly expenses. It includes the total expenditures by Member, committee, leadership office, service operation, and overhead according to various categories for the 12-month period ending November 30, 1993. Every expenditure made from the Assembly Operating Fund during this period is accounted for. Additionally, the report includes an itemization, by Member, of per diem expenditures from the General Fund during the same period of time.

It is important to note that this report is compiled on a cash basis. Therefore, the cost of goods and services incurred by a Member during the preceding reporting period but paid for during the current period are included. Furthermore, some goods and services which were received toward the end of this reporting period were not paid for until the beginning of the December 1993–November 1994 reporting period and are, therefore, not included in this expenditure report.

The following indicates the types of expenditures which are included within each classification:

Staff Salary: This includes the salaries paid to all employees in the Member's district office as well as those employees who work in the Member's Capitol office, provided they are not committee or leadership office personnel. The salaries of the latter group of employees are included in the specific detail report for each of the respective committee and leadership offices.

All Assembly personnel are classified according to job descriptions approved by the Assembly Rules Committee. The committee has established specific salary ranges for each of the classifications. The salary within a range for a specific employee reflects a combination of years of service in his or her position and his or her own job performance since the amount of annual merit salary increases is based on evaluations of each employee's work. Thus, a Member whose office staff includes employees with substantial Assembly seniority, and/or outstanding records of service, will have a higher total expenditure for salaries than will a Member who employs more junior personnel.

Member Travel and Per Diem: Separate totals are shown for in-state travel and out-of-state travel. Most in-state travel expenditures are for attendance at interim committee hearings. Out-of-state travel expenditures are generally for participation in conferences dealing with an issue area pertinent to the legislative specialty of the Member or are for investigative trips.

Staff Travel: Almost all expenditures reported, by Member, in this category, are for mileage reimbursements to district office personnel. The staff travel expenditures reported, by committee, are generally costs incurred in connection with interim committee hearings which are generally held away from Sacramento for the convenience of citizens who wish to provide testimony to the committees.

Car Lease: The amount reported in this category is the share of the automotive lease payment made by the Assembly Rules Committee. Assembly policy stipulates that a car will be leased for the legislative use of each Member but that the Assembly will pay only 90% of the monthly lease rate or $400, whichever is less. The Member must pay the difference from personal funds.

Car Maintenance: The costs reported in this category will vary significantly because of the variance in the number of miles driven by the Members. Members in large-sized districts and Members who represent districts wherein air travel between the Capitol and the district is not practical tend to utilize their cars more than other Members. Accordingly, the maintenance costs of such cars is likely to be higher than for others.

Gas and Oil: Expenditures in this category are for gasoline and oil supplied to cars and private aircraft for legislative business. These costs, too, vary for the same reasons as those affecting car maintenance.

Car Rental, Staff and Member: This expenditure category includes the use of state-owned pool cars and commercial rental cars by both the Member and his/her staff in the course of legislative business.

This category, as listed in the Support Services section of the report, includes, in addition to car rental, the costs of gas, oil, and maintenance for cars utilized by the office of the Sergeant at Arms.

District Office Rent, Maintenance and Utilities: Each Member is entitled to rent an office within the district he/she represents so that constituents may have direct access to their legislators. In some of the larger districts, two or three offices are sometimes authorized. Accordingly, Members representing districts in high-rent metropolitan areas or Members representing large districts requiring more than one office will be reported with higher expenditures in this category than will other Members. Costs included in this expenditure item are rent, utilities (except telephone), janitorial service, and incidental maintenance costs.

Telephone and Telegraph: All telephone charges (except equipment installation charges for the Capitol phones) are reported in this expenditure category. Included are district office phones, Capitol phones, credit card charges, and state lease-line charges. Members who will likely have higher charges than many of their colleagues are those representing districts which are either far from the Capitol, in areas not serviced by the state lease-line network, or in regions which cover large geographic areas.

Postage: The category includes the total amount expended for postage except for the postage utilized in the mailing of legislative mailings.

Communications—Printing and Postage: The costs included in this expenditure category are printing, handling and mailing of legislative mailings authorized under provisions of Proposition 73 of June, 1988.

Furniture and Equipment: This category includes the purchase, rental, and maintenance of certain furniture and equipment items utilized in the Capitol and district offices of the Members. It does not include the purchase of items which will, during the course of their usefulness, be utilized by a number of Members during succeeding years. Expenditures for items of that description are reported in the Furniture and Equipment category as General Overhead expenditures.

Office Supplies: Stationery items, other printing costs charged to the Assembly Operating Fund, general office supplies, and related miscellaneous supplies utilized in the Members' Capitol and district offices are reported in this expenditure category.

Subscriptions and Publications: Each Member is authorized to subscribe to the newspapers generally circulated within his/her district and to certain metropolitan daily newspapers. Members representing districts which include many cities and towns will frequently have higher expenditures in this category than will Members representing relatively compact areas. Expenditures for subscriptions and publications incurred by the committees and leadership offices are reported separately. Each committee is authorized to purchase relevant books and to subscribe to periodicals specializing in the subject matter of the committee for which the expenditure is made.

Miscellaneous Services: Most of the expenditures shown in the Miscellaneous Services category for the Members are for services such as telephone answering services in district offices and newspaper clipping services. Included in this category for the committee reports are such items as witness expenses, meeting expenses, data-processing costs, and other miscellaneous services.

A number of operational costs incurred by the Assembly are not directly attributable to any of the Members, committees, leadership offices, or support services. Such expenditures are classified as General Overhead and are reported according to the following categories:

Miscellaneous Salaries: Accrued vacation payments made to terminating employees, and salaries paid to employees on extended sick leave are reported in this category.

Employee Benefits: This expenditure category includes the Assembly's contribution to the OASDI (Social Security) fund, the Public Employees' Retirement System, various health and dental insurance premiums, the Compensation Insurance Fund, and unemployment and disability insurance.

Building Rent, Maintenance and Utilities: Reported in this expenditure category are construction and remodeling costs and the rent, maintenance, and utilities for offices (other than Members' individual district offices) utilized and paid for by the Assembly outside the Capitol.

Telephone: This listing is for the cost of telephone equipment installation in all Assembly offices except for the Member's district office.

Furniture and Equipment: The expenditure indicated in this category is for the purchase, rental, and maintenance of furniture and equipment not reported elsewhere in the report. Most furniture and equipment is considered a capital investment which will be used, through the years, by a number of different Members or other offices and can therefore not be appropriately reported as an expense on behalf of any particular Member or office.

Office Supplies: The amount shown in this expenditure category represents office supplies which were purchased by the Assembly for the use of Members and other offices but which were not distributed to any such offices before the end of this reporting period.

Annotated Codes and Law Books: Each Member's office and certain other Assembly offices are furnished with Annotated California Codes and certain other law books. The cost of these books is considered a capital expenditure in the same manner as many furniture and equipment items, and is therefore reported in this General Overhead category.

Meeting Expenses: This expenditure category includes certain costs incurred by the Assembly relative to the conduct of Assembly Sessions and Joint Sessions of the Legislature which cannot be readily charged to any other expenditure category, rental costs for some meeting rooms, and some conference registration fees.

Freight, Moving and Delivery: This expenditure category includes costs incurred for the transport of furniture, supplies, and other items which are not chargeable to any particular office.

Printing Reimbursements: This category reflects the charges made for printing performed by the Assembly.

Other Miscellaneous Services: The major expenditures reported in this category are for the costs of photography services related to official Assembly publications, vehicle liability insurance, and organization memberships.

Study Contracts: From time-to-time the Assembly finds it practical to contract with individuals, firms, universities, and other governmental agencies in order to expand its research capability with respect to specific projects. The costs reported in this category are for payments made under such contracts during this period.

The next report of Assembly expenditures will be for the period between December 1, 1993 and November 30, 1994.

Sincerely,

JOHN BURTON, Chairman
Assembly Committee on Rules
