MESSAGE FROM THE GOVERNOR.

The following message from the Governor was read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
April 25, 1927.

To the Senate and the Assembly of the State of California.

An acute financial situation involving the Sacramento and San Joaquin Drainage District presents one of the most serious problems that any agricultural region of the State has ever faced. Most immediately concerned in solving this problem are the State Reclamation Board and the land owners within the district. However, there are certain phases of such a nature that some specific legislation is required to furnish even the possibility of a solution. The obvious fact that a district of this size can not meet financial disaster without affecting the prosperity of the whole State makes this a proper subject for legislative action.

This Sacramento and San Joaquin Drainage District has an indebtedness of approximately $16,000,000, represented by warrants issued by the State Controller upon order of the Reclamation Board. These warrants are obligations of the land owners and actually represent liens against most of the lands in the central Sacramento Valley. The debt bears interest at the rate of 7 per cent per annum, and this interest is now accumulating at the amazing pace of over $2,000 a day—more than $730,000 every year.

Although supposedly adequate machinery has been provided for levying and collecting these costs upon the land, as an actual fact no collections have ever been made, either of principal or of interest. A careful survey shows that the lien upon some of the lands for this obligation and for reclamation district purposes actually exceeds any "forced-sale" value of the land. Any effort to levy an immediate assessment for the total amount due would probably mean financial ruin to a substantial portion of central California. Existing legislation permitting the issuance of twenty-year bonds for the retirement of the warrants would necessitate in many cases larger annual collections than the land can possibly produce. It is manifest, therefore, that some prompt action must be taken to relieve this intolerable situation.

During the past four years no progress has been made by the land owners or warrant holders toward the settlement of this indebtedness, and no attempt has

been made by the State to aid them to solve the problem. During this same four years the debt has grown by approximately $3,000,000 through the accumulation of interest alone. This neglect and lack of effort toward settlement during these four years is one of the prime factors that have produced the present serious problem for the inhabitants and land owners within the district, and for the people of the cities largely dependent upon these lands.

When the original flood control plan for the Sacramento, San Joaquin and Feather rivers was outlined, it was given the name of the California Debris Commission Plan Features of reclamation, flood control, and navigation were involved. It was suggested that the ultimate cost should be borne equally by the land owners, the State, and the federal government. Up to this date the land owners have paid no part; the State has invested or appropriated approximately $10,000,000, and the federal government approximately $7,000,000.

Legislation now being handled in Congress by the Honorable Charles F. Curry seeks to commit the federal government to the payment of one-third of the total cost. It is the intention of the present State administration to cooperate to the fullest extent in promoting this federal legislation. In the meantime the phases of the settlement which constitute the problem of the land owners must be worked out.

The outstanding warrants of the Reclamation Board are not an obligation of the State of California. They are an obligation on the land within the district. Many of the holders of these warrants, however, were led to believe that the warrants were an obligation of the State, and many of these holders were induced to pay practically full prices for them as an investment. But a large number of these warrants were acquired at a very considerable discount. In actual fact, the warrant holders are not financially secured, and unquestionably they realize this situation. Some of them have intimated their desire to cooperate in reaching an effective settlement by discounting the accrued value of their warrants.

Many of the land holdings are obligated for payments, the benefits of which have not yet reached the lands Other land holdings are obligated so heavily that the twenty-year bond issue now permitted by law is impossible of payment within such a period of time Project No. 6 of the Sacramento and San Joaquin Drainage District, is the area most drastically affected Other projects within the district will doubtless be able to work themselves out without legislative aid. But Project No. 6, covering as it does approximately 500,000 acres of land, and lying within the confines of seven counties, has now become so involved, through lack of any constructive program in the past, that, unless something is done in the near future, the land holders within this project face certain financial ruin. A bond issue voted for a portion of the obligation of this project has proven absolutely unsalable.

The comfortable and easy thing for this administration to do would be to allow the problem to float through the coming four years just as has been done during the past four years, with no effort toward settlement. It would be easy to say that this is no affair of the present administration, since it is a condition not of our making. Thus during this four years we might permit the obligation to increase on the lands by $3,000,000 more for the interest alone, just as was done during the past four years, allow the warrants to further depreciate in value; let small investors holding unpaid warrants become financially ruined; permit the central Sacramento Valley to continue to lie under the cloud of impending disaster, its development stifled and strangled by an unfunded debt, and allow the farmer needing to secure new loans to be thwarted by the uncertainty of this existing lien and deprived of his land and his livelihood.

This may be the easy way, but it is not the right way. The problem must be faced squarely and unflinchingly. The steps necessary are staggering, even if the most effective help is afforded The purposes which must be achieved are the following

1. Relief to the land owners from the present uncertainty through an opportunity to pay the indebtedness as the productiveness of the land will permit.
2. Assurance to the warrant holders that an honest effort will be made to secure them against possibly complete financial loss
3. Provision of a means whereby the land owners may be actually relieved of a part of the present increasing indebtedness
4. Assistance to the land owners for the immediate future in meeting as much as possible of the annual burden for the maintenance of the project.

There seems only one way by which all this may be achieved· The present warrants with their high interest charges must be repurchased at satisfactory prices and refunded in low interest, long term bonds, which the land owner can amortize from his annual income, while the value of his land continues to grow through its future development

Senate Bill No 856 seeks to supply a basis for constructively commencing the solution of the problem While this measure can not cure all the existing troubles, at least it will be helpful and its operation may possibly point the way to a stable and permanent plan.

In addition it seems necessary as a temporary emergency measure to undertake at State expense the maintenance of the works already constructed for flood control

as distinct from reclamation. For this and for the administration of the project, special appropriations are recommended for your consideration in Senate Bill No. 217.

Respectfully submitted.

C. C. YOUNG, Governor.

1203. After the conviction by plea or verdict of guilty of a public offense where discretion is conferred upon the court or any board or commission or other authority as to the extent of the punishment, the court or board or commission or other authority before judgment and sentence and except as hereinafter provided, may upon oral suggestion of either party or of its own motion when it appears that there are circumstances which may properly be taken into view either in aggravation or mitigation of the punishment, may in its discretion refer the same to the probation officer directing said probation officer to investigate and to report, recommending either for or against release upon probation at a specified time, and the court shall hear the same summarily at that specified time and upon such notice to the adverse party as it may direct. At such specified time if it shall appear from the report furnished by the probation officer or otherwise and from the circumstances, that any person over the age of eighteen years having either pleaded guilty or having been convicted of a public offense, that there are circumstances in mitigation of punishment or that the ends of justice shall be subserved thereby, the court may have power in its discretion to place the defendant upon probation as hereinbefore provided; *further provided, however,* that nothing contained in this section shall apply to cases of murder, robbery, burglary, or rape by force and violence, where in the perpetration of such crimes a deadly weapon is used, or the person committing any of the said crimes was armed with a deadly weapon or where, in the perpetration of any such crimes, great bodily injury or torture is inflicted, nor to any person who has been previously convicted of any of said offenses, nor where a public official or employee of the state, county, city, city and county, or other political subdivision

thereof in the discharge of the duties of his public office or employment accepts or gives or offers to accept or give a bribe or embezzles public moneys or is guilty of extortion in the discharge of his official duty.

(*a*) The court, judge or justice thereof, may suspend the imposing, or the execution of sentence and may direct that such suspension may continue for such period of time not exceeding the maximum possible term of such sentence, except as hereinafter set forth, and upon such terms and conditions as it shall determine, which terms and conditions may include, in the discretion of the court, the requirements of bonds for the appearance of the person released upon probation before the court, at any time that the court may require such appearance in the investigation of any alleged violation of said terms and conditions of probation and such bonds may be at any time by the court exonerated without affecting any of the other terms and conditions of such probation; and in the case of such suspension of imposition or execution of sentence, the court shall place such person on probation and under the charge and supervision of the probation officer of said court during such suspension; ***provided, however***, that where the maximum possible term of such sentence is less than two years, then such period of suspension of imposition or execution of sentence may, in the discretion of the court, continue for not over two years. Where the offense consists of a violation of section 270 or 270*a* of the Penal Code of the State of California, such suspension of imposition or execution of sentence may, in the discretion of the court, continue for not over five years.

(*b*) If the judgment is to pay a fine, and the defendant be imprisoned until it be paid, the court, judge or justice upon imposing sentence, may direct that the execution of the sentence of imprisonment be suspended for such period of time, not exceeding the maximum possible term of such sentence and on such terms as it shall determine, and shall place the defendant on probation, under the charge and supervision of the probation officer during such suspension, to the end that he may be given the opportunity to pay the fine; *provided, however*, that upon the payment of the fine being made, judgment shall be satisfied and the probation cease.

(*c*) At any time during the probationary term of the person released on probation, in accordance with the provisions of this section, any probation officer may, without warrant, or other process, at any time until the final disposition of the case, rearrest any person so placed in his care and bring him before the court, or the court may, in its discretion, issue a warrant for the rearrest of any such person and may thereupon revoke and terminate such probation, if the interest of justice so requires, and if the court, in its judgment, shall have reason to believe from the report of the probation officer, or otherwise, that the person so placed upon probation is violating the conditions of his probation, or engaging in criminal practices, or has become abandoned to improper associates, or a vicious life. Upon such revocation and termination, the court may, if the sentence has been suspended, pronounce judgment after the said suspension of the sentence for any time within the longest period for which the defendant might have been sentenced but if the judgment has been pronounced and the execution thereof has been suspended, the court may revoke such suspension, whereupon the judgment shall be in full force and effect, and the person shall be delivered over to the proper officer to serve his sentence.

(*d*) The court shall have power at any time during the term of probation to revoke or modify its order of suspension of imposition or execution of sentence. It may, at any time when the ends of justice will be subserved thereby, and when the good conduct and reform of the person so held on probation shall warrant it, terminate the period of probation and discharge the person so held, but no such order shall be made without written notice first given by the court or the clerk thereof to the proper probation officer of the intention to revoke or modify its order, and in all cases, if the court has not seen fit to revoke the order of probation and impose sentence or pronounce judgment, the defendant shall, at the end of the term of probation, be by the court discharged.

(*e*) Every defendant who has fulfilled the conditions of his probation for the entire period thereof, or who shall have been discharged from probation prior to the termination of the period thereof, shall at any time prior to the expiration of the maximum period of punishment for the offense of which he has been convicted, dating from said discharge from probation of said termination of said period of probation, be permitted by the court to withdraw his plea of guilty and enter a plea of not guilty; or if he has been convicted after a plea of not guilty, the court shall set aside the verdict of guilty, and in either case the court shall thereupon dismiss the accusation or information against such defendant, who shall thereafter be released from all penalties and disabilities resulting from the offense or crime of which he has been convicted.

(*f*) The offices of adult probation officer, assistant adult probation officer, and deputy adult probation officer are hereby created; *provided*, that except as hereinafter specified the probation officers, assistant probation officers and deputy probation officers appointed under an act known as the juvenile court law and entitled "An act to be known as the juvenile court law, and concerning persons under the age of twenty-one years; and in certain cases providing for their care, custody and maintenance; providing for the probationary treatment of such persons, and for the commitment of such persons to the Whittier State School and the Preston School of Industry, the California School for Girls and other institutions; establishing

EXPLANATION OF VOTE.

The following explanation of vote was received and ordered printed in the Journal:

Mr. Speaker and Members of the Assembly.

Many of you probably wonder why we are opposed to those several claims against the State for services rendered by attorneys in connection with certain prosecutions. It was shown in the Ways and Means Committee that the total time consumed by all these attorneys was only a little in excess of six months; one or two of them only served the State about two or three weeks, yet the smallest claim is $5000 and in the aggregate the total for four men is $26.000. You will recall that a day or two ago an attorney on this floor said that such service as one of them rendered, if done in private practice, could easily have commanded $50,000 and would have been worth it. In a recent survey it is shown that less than 1 per cent of the population own more of the nation's wealth than all the other 99 per cent.

Of course these extremely wealthy people who live and get their property from the toil of the common people, can pay big fees; of course they can hire high-powered lobbyists who can put over special legislation through this and all other legislatures—even to the national capitol.

We desire also to call your attention to the governmental survey and report for 1924, which says the great mass of agricultural people of the nation, comprising almost one-third of the nation's population, with an average investment per family of $15,000, had, after expenses, taxes, labor charges, etc., were deducted from sales of products, an average of $715 per family for the year's work, including interest on investment.

We speak for this mass of overworked, underpaid, toiling, industrious, honest, economical class upon whom these burdens finally rest. Therefore can you blame us if we raise our voices in earnest protest against extravagance in public affairs?

S. L. HEISINGER.
VAN BERNARD.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was read, and ordered printed in the Journal:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE,
SACRAMENTO, April 26, 1927.

Honorable Edgar C. Levey, Speaker of the Assembly,
Building.

DEAR MR. LEVEY: May I trouble you once more to request each member of the Assembly to send me promptly a full written explanation of whatever bills he expects to come down for executive consideration?

Please ask that the bills be explained on separate sheets of paper, in order that these comments upon them may be separately filed. I should also appreciate having handed in such communications from others regarding the bills as the members are

willing to hand over to me. This request also extends to all bills in which any Assemblyman is interested, either for or against, as well as to his own measures.

Finally, and very emphatically, may I ask that these comments on bills be handed to me at once. I am sorry to say that the normal work of bill-signing is being slowed up during this week, owing to the fact that I have failed to receive these comments and explanations of the author.

Even as to the bills passed during the final day or two of the session, it will be very necessary that I may be able to file away the communications from their respective authors before they leave Sacramento

In making this request, I would be remiss if I did not also ask you please to express to the members of the Assembly my real appreciation for the cooperation they are already according me in this matter.

Very sincerely yours,

C. C. YOUNG, Governor.

RECESS.

At twelve o'clock and twenty-five minutes p.m., on motion of Mr. Jones, the Assembly was declared at recess until one o'clock and forty-five minutes p.m., of this day.

REASSEMBLED.

SENATE CONSTITUTIONAL AMENDMENT No. 12.

A resolution to propose to the people of the State of California an amendment to the constitution of said State by repealing the first numbered section 11 of article VI, proposed by the forty-fifth session of the Legislature as Assembly Constitutional Amendment No. 2 and approved and ratified by the people at the general election held November 4, 1924, by amending sections 3, 4, 5 and 13 of said article and by adding to said article new sections to be numbered 4*a*, 4*b*, 4*c* and 11*a*, relating to courts of record and inferior courts.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California, at its forty-seventh session, commencing on the third day of January, 1927, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California the following amendments to the constitution of the State of California:

First—Section 11 of article VI proposed by the forty-fifth session of the Legislature as Assembly Constitutional Amendment No. 2 and approved and ratified by the people at the general election held November 11, 1924, is hereby repealed.

Second—Section 3 of article VI is hereby amended to read as follows:

Sec. 3. The chief justice and the associate justices shall be elected by the qualified electors of the State at large at the general elections, at the time and places at which State officers are elected, except as provided by section 2¾ of article II of this constitution, and the term of office shall be twelve years from and after the first day of January next succeeding their election. If a vacancy occur in the office of a justice, the Governor shall appoint a person to hold the office until the election and qualification of a justice to fill the vacancy, which election shall take place at the next succeeding general State or primary election after the first day of April next succeeding the occurrence of such vacancy: the justice then elected shall hold office for the unexpired term: *provided*, that whenever the term of the justice whose place is filled by appointment is fixed by law to expire on the first day of January after the next or such succeeding general election, then the person so appointed to fill the vacancy shall hold office for the remainder of such unexpired term.

Third—Section 4 of article VI of said constitution is hereby amended to read as follows:

Sec. 4. The Supreme Court shall have appellate jurisdiction on appeal from the superior courts in all cases in equity, except such as arise in municipal or justices' courts; also, in all cases at law which involve the title or possession of real estate, or the legality of any tax, impost, assessment, toll, or municipal fine; also, in all such probate matters as may be provided by law; also, on questions of law alone, in all criminal cases where judgment of death has been rendered; the said court shall also have appellate jurisdiction in all cases, matters and proceedings pending before a District Court of Appeal, which shall be ordered by the Supreme Court to be transferred to itself for hearing and decision, as hereinafter provided. The said court shall also have power to issue writs of mandamus, certiorari, prohibition, and habeas corpus, and all other writs necessary or proper to the complete exercise of its appellate jurisdiction. Each of the justices shall have power to issue writs of habeas corpus to any part of the State, upon petition by or on behalf of any person held in actual custody, and may make such writs returnable before himself or the Supreme Court or before any District Court of Appeal, or before any justice thereof, or before any superior court in the State, or before any judge thereof.

Fourth—A new section to be numbered section 4*a* of article VI is hereby added to said constitution to read as follows

Sec. 4*a*. The State is hereby divided into three appellate districts, in each of which there shall be a District Court of Appeal, consisting of such number of divisions having three justices each as the Legislature shall determine; and until so determined otherwise, the courts of appeal for the First and Second Appellate Districts shall each consist of two divisions, and the court of the Third Appellate District shall consist of one division.

The Legislature may from time to time create and establish additional district courts of appeal and divisions thereof and fix the places at which the regular sessions thereof shall be held and may provide for the maintenance and operation thereof. For that purpose the Legislature may redivide the State into appellate districts, subject to the power of the Supreme Court to remove one or more counties from one appellate district to another as in this section provided.

Each of such divisions shall have and exercise all of the powers of the District Court of Appeal.

The District Court of Appeal as existing immediately prior to the approval and ratification of this amendment by the people shall not be affected thereby as to the officers or terms of office of the justices thereof.

Upon the creation of any additional division of the District Court of Appeal the Governor shall appoint three persons to serve as justices thereof until the first day of January after the next general election. The justices of said division elected at such general election shall so classify themselves by lot that one of them shall go out of office at the end of four years, one of them at the end of eight years, and one of them at the end of twelve years, and entry of such classification shall be made in the minutes of said division, signed by the three justices thereof, and a duplicate thereof filed in the office of the Secretary of State.

The justices of the district courts of appeal shall be elected by the qualified electors within their respective districts at the general State elections except as provided in section 2¼ of article II; and the term of office of said justices shall be twelve years from and after the first day of January next succeeding their election.

If any vacancy occur in the office of a justice of the district courts of appeal, the Governor shall appoint a person to hold office until the election and qualification of a justice to fill the vacancy. Such election shall take place at the next succeeding general State or primary election after the first day of April next succeeding the occurrence of such vacancy; the justice then elected shall hold office for the unexpired term; *provided*, that whenever the term of office of the justice whose place is filled by appointment is fixed by law to expire on the first day of January after the next or such succeeding general election, then the person so appointed to fill the vacancy shall hold office for the remainder of such unexpired term.

One of the justices of each of the district courts of appeal and of each division of said courts, shall be the presiding justice thereof, and as such shall be appointed or elected, as the case may be.

In cases wherein the presiding justice is not acting, the other justices shall designate one of their number to perform the duties and exercise the powers of presiding justice.

The presence of two justices shall be necessary for the transaction of any business by such court except such as may be done at chambers, and the concurrence of two justices shall be necessary to pronounce a judgment.

No appeal taken to the Supreme Court or to a District Court of Appeal shall be dismissed for the reason only that the same was not taken to the proper court, but the cause shall be transferred to the proper court upon such terms as to costs or otherwise as may be just, and shall be proceeded with therein as if regularly appealed thereto.

All statutes now in force allowing, providing for or regulating appeals to the Supreme Court shall apply to appeals to the district courts of appeal so far as such statutes are not inconsistent with this article and until the Legislature shall otherwise provide.

The First District shall embrace the following counties: San Francisco, Marin, Contra Costa, Alameda, San Mateo, Santa Clara, Fresno, Santa Cruz, Monterey and San Benito.

The Second District shall embrace the following counties: Tulare, Kings, San Luis Obispo, Kern, Inyo, Santa Barbara, Ventura, Los Angeles, San Bernardino, Orange, Riverside, San Diego and Imperial.

The Supreme Court, by orders entered in its minutes, may from time to time remove one or more counties from one appellate district to another, but no county not contiguous to another county of a district shall be added to such district.

Said district courts of appeal shall hold their regular sessions respectively at San Francisco, Los Angeles and Sacramento, and they shall always be open for the transaction of business.

Fifth—A new section to be numbered section 4*b* of article VI is hereby added to said constitution to read as follows:

Sec. 4*b*. The district courts of appeal shall have appellate jurisdiction on appeal from the superior courts (except in cases in which appellate jurisdiction is given to the Supreme Court) in all cases at law in which the superior courts are given original jurisdiction; also, in all cases of forcible or unlawful entry or detainer (except such as arise in municipal, or in justices' or other inferior courts); in proceedings

The said courts shall also have appellate jurisdiction in all cases, matters, and proceedings pending before the Supreme Court which shall be ordered by the Supreme Court to be transferred to a District Court of Appeal for hearing and decision. The said courts shall also have power to issue writs of mandamus, certiorari, prohibition and habeas corpus, and all other writs necessary or proper to the complete exercise of their appellate jurisdiction. Each of the justices thereof shall have power to issue writs of habeas corpus to any part of his appellate district upon petition by or on behalf of any person held in actual custody, and may make such writs returnable before himself or the District Court of Appeal of his district, or before any superior court within his district, or before any judge thereof.

Senate Constitutional Amendment No. 18 ordered transmitted to the Senate.

SENATE CONSTITUTIONAL AMENDMENT No. 18.

A resolution to propose to the people of the State of California that the constitution of said State be amended by adding to article XVI thereof a new section to be numbered 6, relative to the issuance of bonds to the amount of $10,000,000 for the acquisition of rights of way for railroad grade separations on the roads within the State highway system of the State of California, and for the construction of said railroad grade separations by the California Highway Commission.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its regular session commencing on the third day of January, 1927, two-thirds of the members elected to each of the two houses of said Legislature voting therefor, hereby proposes to the people of the State of California that the constitution of said state be amended by adding to article XVI thereof a new section to be numbered 6, reading as follows

Sec. 6. Immediately upon the adoption of this section the State Treasurer shall prepare 10,000 suitable bonds of the State of California in the denomination of $1,000 each, to be numbered from 1 to 10,000, inclusive, to bear such date and provide for such interest as may be determined by the Highway Finance Board which is created by section 3 of this article. Said interest shall be fixed by said board according to the then prevailing market conditions, but shall at no time exceed 6 per cent per annum, and the determination of said board as to the rate of interest shall be conclusive as to the then prevailing market conditions, and said interest shall be payable on the third day of January and the third day of July of each and every year after the sale of said bonds, and said bonds shall become due and payable in annual parcels of $1,000 bonds, commencing July 3, 1934, and ending July 3, 1959.

There is hereby created in and for the State treasury, a fund to be known and designated as the "State railroad grade separations fund," and immediately after the sale of bonds the Treasurer of the State shall pay into the State treasury and cause to be placed in said fund the total amount received for said bonds, except such amount as may have been paid as accrued interest thereon. The amount that shall have been paid at such sale as accrued interest on the bonds shall be, by the Treasurer of the State immediately after such sale, paid into the treasury of the State and placed in the "State railroad grade separations interest and sinking fund" which is hereby created.

Moneys shall be drawn from said State railroad grade separations fund for the purposes herein designated upon warrants duly drawn by the Controller of the State upon demands made by the California Highway Commission and allowed and audited by the State Board of Control; *provided, however*, that out of the proceeds of the first sale of bonds made hereunder the State Controller and the State Treasurer shall transfer upon their respective books the sum of $100,000 to the credit of the "State railroad grade separations revolving fund" which fund is hereby created in the State treasury.

The moneys in said State railroad grade separations revolving fund or such part thereof as the California Highway Commission shall deem necessary, may be expended from time to time upon the demands of the California Highway Commission, approved by the State Board of Control, for the purpose of making cash payments in advance for such expenditures as are necessary and proper to carry out the provisions of this section. Upon receipt of such demands, so approved, it shall be the duty of the State Controller to draw his warrant upon said State railroad grade separations revolving fund in favor of the person, firm, corporation or association therein named, and the State Treasurer shall pay the same. On or before the tenth day of each month thereafter, the California Highway Commission shall submit to the State Board of Control a verified, itemized statement, showing all expenditures during the preceding calendar month of the money so drawn from said State railroad separations revolving fund, accompanied by proper vouchers and receipts therefor. Said statements shall be audited by the State Board of Control in the same manner that claims against the State are audited, and if found to be correct shall be approved by the State Board of Control and transmitted to the State Controller with such approval endorsed hereon. The State Controller shall thereupon draw his warrant upon the State railroad grade separations fund in favor of the California Highway Commission for the aggregate amount of such expenditures, and upon the surrender of such warrant, properly endorsed, the State Treasurer shall transfer the amount thereof upon the books of his office from the said State railroad grade separations fund to the said State railroad grade separations revolving fund to be expended as aforesaid.

There is hereby appropriated from the general fund of the State treasury, such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this section, as said principal and interest becomes due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

The Treasurer of the State shall on the first day of January, 1929, and on the first day of each July and the first day of each January thereafter transfer from the general fund of the State treasury to the State railroad grade separations sinking fund such an amount of the moneys by this section appropriated as shall be required to pay the interest on the bonds sold hereunder, until the interest on all the said bonds so sold shall have been paid or shall become due in accordance with the provisions of this section.

There is hereby created in the State treasury a fund to be known and designated as the "State railroad grade separations sinking fund." The Treasurer of the State shall on the third day of July, 1934, and on the third day of July of each and every year thereafter, in which a partial of the bonds sold pursuant to the provisions of this section shall become due, transfer from the general fund of the State treasury to the State railroad separations sinking fund such an amount of moneys appropriated hereunder as may be required to pay the principal of the bonds so becoming due and payable in such years.

The principal of all of said bonds sold shall be paid at the time the same becomes due from the State railroad grade separations sinking fund and the interest on all bonds sold shall be paid at the time said interest becomes due from the State railroad grade separations interest and sinking fund. Both principal and interest shall be so paid upon warrants duly drawn by the Controller of the State upon demands audited by the State Board of Control and the faith of the State of California is hereby pledged for the payment of the principal of said bonds so sold and the interest accruing thereon.

For the purposes of this section, a railroad grade separation is defined to be any crossing and the approaches leading thereto and therefrom between a State highway and the tracks of any commercial interurban or other railway by whatsoever power operated.

The moneys in said State railroad grade separation fund shall be used by the California Highway Commission to pay that portion of the cost of the acquisition of rights of way for railroad grade separations and the acquisition, construction and improvement of railroad grade separations upon State highways within the State highway system of the State of California as may be assigned to the State by order of and as apportioned by the State Railroad Commission.

When requested by the Highway Finance Board the State Treasurer shall prepare such number of bonds so dated and bearing such interest rate thereon, all as so determined by said board. The said bonds and the interest thereon shall be payable in gold coin of the United States of the present standard of value either at the office of the Treasurer of said State or at the option of the holder at the fiscal agency for the State of California, in the city of New York, in the state of New York. The interest accruing on any of said bonds that may be sold shall be payable as herein provided on the third day of January and the third day of July of each and every year after the sale of any of the said bonds. Said bonds shall mature at the times herein specified and the principal of said bonds shall be payable at either of the above designated places at such times. All bonds remaining unsold shall at the date of the maturity thereof be, by the Treasurer of the State, canceled and destroyed. All bonds issued pursuant to the provisions of this act shall be signed by the Governor of this State, countersigned by the State Controller and endorsed by the State Treasurer, and the said bonds shall be so signed, countersigned and endorsed by the officers who are in office on the date of the issuance of any parcel of bonds hereunder and each of said bonds shall have the great seal of the State of California impressed thereon. The said bonds signed, countersigned, endorsed and sealed as herein provided, when sold, shall constitute a valid and binding obligation upon the State of California, though the sale thereof be made at the date or dates after the person so signing, countersigning and endorsing, or either of them, shall have ceased to be the incumbents of said office or offices.

Appended to each of said bonds there shall be interest coupons so attached that the same may be detached without injury to or mutilation of said bond. The said coupons shall be consecutively numbered and shall bear the lithographed signature of the State Treasurer who shall be in office on the third day of July, 1929. No interest shall be paid on any of said bonds for such time as may intervene between the date of said bond and the date of sale thereof, unless such accrued interest shall have been by the purchaser of said bond, paid to the State at the time of such sale.

There is hereby appropriated from the general fund of the State treasury such sum annually as will be necessary to defray all expenses that shall be incurred by the State Treasurer in the preparation of said bonds and in the advertising of the sale thereof, as in this section provided. When the bonds authorized by this section to be issued shall have been signed, countersigned, endorsed and sealed as provided herein the State Treasurer shall sell the same in such parcels and numbers not inconsistent with the provisions hereof, as the Governor of the State shall direct to the highest bidder for cash. The Governor of the State shall issue to the State Treasurer such direction immediately after being requested so to do by the California Highway Commission. Such request shall specify the amount of money which in the judgment of said commission shall be required at such time and the Governor of the State shall direct the State Treasurer to sell such number of said bonds as may be required to raise said amount of money and that said bonds shall be sold in consecutive numerical order. The State Treasurer shall not accept any bid which is less than the par value of the bond plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. The State Treasurer may at the time and place fixed by him for said sale continue such sale as to the whole or any part of the bonds offered to such time and place as he may at the time of such continuance designate. Before offering any of said bonds for sale, the said Treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such sale. The State Treasurer shall give notice of the time and place of sale by publication in two newspapers published in the city and county of San Francisco and in one newspaper published in the city of Oakland, and in one newspaper published in the city of Los Angeles and in one newspaper published in the city of Sacramento once a week for four weeks next preceding the date fixed for such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expenses and cost of such additional notice shall not exceed the sum of $500 for each sale so advertised.

In the event that any bonds prepared as herein provided can not, in the judgment of said State Highway Finance board be sold at the time fixed for the sale thereof, or thereafter, said board may withdraw said bonds from sale and direct the State Treasurer to cancel and destroy the same, and may at said time or thereafter, at its option, direct the preparation and sale, as hereinbefore provided, of the same or a different number of bonds but not to exceed in all the amount herein authorized and at the same or a different rate of interest, but not to exceed 6 per cent per annum.

All provisions of this section shall be self-executing and shall not require any legislative action in furtherance thereof, but this shall not prevent such legislative action; and all expenses that shall be incurred by the State Treasurer in the preparation of bonds herein provided for and in the advertising and sale thereof, and all expenses incurred by any officer in reference thereto shall be paid from the general fund of the State. Nothing in this constitution contained, except as in this section provided, shall be a limitation upon the provisions of this section,

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
April 27, 1927.

To the Assembly of the State of California

Assembly Bill No. 598 is herewith returned without my approval.

It is proposed in this bill to add a new section to the Penal Code to be known as section 383*a*, apparently designed to prevent fraud in the sale of certain meat and

meat preparations. It provides, among other things, that anyone who "sells or exposes for sale in a restaurant, or other place, both kosher and non-kosher food or food preparations for consumption on the premises, not prepared in accordance with the Jewish ritual, or not sanctioned by the Hebrew orthodox religious requirements, and who fails to display on his window signs in all display advertising, in block letters at least four inches in height, 'Kosher and non-kosher food served here,' is guilty of a misdemeanor," and is subject to fine or imprisonment or both.

While I have the greatest respect for the motives which impelled the introduction of this bill, I cannot help feeling that its enactment into law would do violence to certain fundamental principles which underlie our constitution and government. In our State there is assured to every individual complete religious liberty. The constitution in express terms guarantees "the free exercise and enjoyment of religious profession and worship, without discrimination or preference." I cannot, however, recall any law designed to aid the observances or ordinances of one particular religious faith as distinguished from all others, and I feel certain that to make such a law would be to create an unwise precedent.

In this view I find myself in accord with many of the co-religionists of those who have asked for this legislation. For instance, although I have received two very excellent letters from Jewish rabbis who favor this measure, I have also received letters from four other Jewish rabbis who do not favor it. A quotation or two from these letters will show the broad principle of their objections.

One of these rabbis writes as follows: "Assembly Bill No. 598 would create a new State law for one religious group, and through this special legislation would place within the sphere of State jurisdiction the whole matter of Jewish dietary law and custom. Such procedure seems unwise in policy and contrary to the American principle of complete separation of church and state. I see no circumstances which warrant this special legislation, and believe that legislation of this character, designed for a particular religious group, is not in accord with the best American principles."

Another rabbi from another city writes: "I fear that were the law applied, the civil courts would be the scene of controversies over what appears to me to be purely sectarian and ecclesiastical matters. On general principles I am opposed to any measures which would involve the State in the religious affairs of any one or more groups . . . . I believe that even laws which may have some merit are better sacrificed in order to maintain strict adherence to the principle of the separation of church and state."

These and similar letters have convinced me that, however excellent the motives or sincere the purpose of the adherents of this measure, it has no proper place in California law. The one idea which could justify it as a State law is, of course, the prevention of fraud—a fraud consisting in the selling, or offering for sale, of one kind of meat or meat preparation, under the pretense that it is a different kind.

Fortunately the subject matter of such legislation is already covered by provisions in the Penal Code which deal generally with the fraudulent sale of food. I would particularly call attention to paragraph (*b*) of section 383 of the code, which expressly prohibits the sale of any article of food, "if it is an imitation of, or sold under the name of, another article." I believe that this would cover the fraud complained of, without the necessity of a special law to meet the needs of a particular religious faith.

Incidentally, I might also mention that although this bill seeks to add a new Penal Code section to be known as section 383*a*, there already exists another law on another subject which bears this same section number of 383*a*. To enact another section 383*a* in the same code would be only to invite confusion. For the reasons specified above I feel compelled to withhold approval of this bill.

Respectfully submitted.

C. C. YOUNG, Governor.

CITY OF LOS ANGELES

BUREAU OF POWER AND LIGHT

LOS ANGELES, CALIFORNIA, April 27, 1927.

Hon. Edgar C. Levey, Speaker of the Assembly,
Sacramento, California.

It appears from news reports that the legislative Assembly of California through false and misleading representations of a self-constituted committee of Assemblymen has been led to pass resolutions condemning the Bureau of Power and Light

of Los Angeles in connection with Owens Valley conditions The fact is that the Bureau of Power and Light has no connection whatever with the valley water question and reliable records of events will reveal that no department of Los Angeles city has been guilty of ruthless devastation or responsible for unjust and unnecessary acts in the valley. Such records will show that disturbance of the Bishop farming community in Owens Valley has resulted directly from selfish individual and private power company interests responsible for a program of vilification for the purpose of extorting millions of dollars from the city of Los Angeles for lands and other property which the city does not require and which would not be useful in working out the mutual interests of Owens Valley and the city.

Los Angeles' operations in Owens Valley have been constructive and beneficial to the valley. A large portion of the valley previously without electric service was provided such service by the city at rates slightly over one-half the private company rates in Bishop. Los Angeles caused the construction of a standard gauge railroad and worked for improved highway into Owens Valley. The city has built and contributed to roads from the valley into the Sierras, and contributed to a road from Owens to San Joaquin Valley Los Angeles officials fostered legislation enabling cities to pay taxes on property owned in other counties and now pays 43 per cent of Inyo County taxes. Los Angeles worked out with an Owens Valley committee an agreement concerning the storage and use of Owens River water, only to have the agreement destroyed through coercion and misrepresentation of a small selfish group in the valley Failure of such agreement made necessary the purchase of valley lands for which most liberal prices have been paid

Land purchases were made openly and in response to the demands of valley landowners. It has not been shown that business in the valley has suffered as loosely charged, but on the contrary business there is destined to increase and prosper. Los Angeles rather than submit to the urgings of selfish interests that it buy and take water from Mono Basin or water and power from Sespe Creek is seeking a water supply from the Colorado River, and offering to make such water available to dozens of other communities needing water, and at the same unit costs obtainable through the large Los Angeles project

It seems the Assembly's recommendations are inconsistent in that they condemn Los Angeles for taking water from Owens Valley but urge the city to take water from Mono Basin, and certainly the people of Mono County and the Santa Paula district would object to the latter proposal. The action of the Assembly, if allowed to stand, can only aid and abet private interests and do great injustice to the public institutions of the State and to the State itself.

Senate Joint Resolution No. 11 ordered transmitted to the Senate.

SENATE JOINT RESOLUTION No. 11.

Relating to securing the aid of the United States government in establishing a basis for execution of some comprehensive plan for development of the water resources of California.

WHEREAS, The joint legislative committee of the forty-seventh session of the Legislature, under Assembly Concurrent Resolution No. 16, has submitted its report; and,

WHEREAS, During its deliberation said committee fully realized that many features of any comprehensive plan for the development of the water resources of California involve matters coming within the jurisdiction and concern of the federal government; and,

WHEREAS, Governor Young, in his inaugural address, recognized the paramount importance of some comprehensive plan for the conservation and development of the water resources of California in the following words:

"The solution of this problem can no longer be left to haphazard and unrelated development. There is no doubt that it is high time to seek some comprehensive plan which will meet the needs of both our great central valleys. The water which falls so bountifully during our winters, and which now wastes itself in bay and ocean, if properly stored and controlled and placed upon the land, would be sufficient to water every irrigable foot of this vast area, beside practically eliminating all future danger from winter floods.

This enterprise, however, is so vast that it can be financed by no one agency alone. The farmer whose lands are benefited can not meet the expense, as he

largely does in the case of minor irrigation projects. The county whose cities are dependent upon local agricultural prosperity must also do its share. The State must take the leadership in coordinating and planning the whole. The federal government possibly must be asked to advance the money for the initial construction, just as is proposed in the Boulder Canyon project."

Now, therefore, be it

Resolved by the Senate and the Assembly, jointly, That this Legislature commend to the Governor that he communicate with the President of the United States and invoke the cooperation and aid of the federal government in working out some approved and comprehensive plan for development of the water resources of California.

Assembly Joint Resolution No. 17 ordered transmitted to the Senate.

ASSEMBLY JOINT RESOLUTION No. 17.

Relative to federal taxation of community property in California.

WHEREAS, The community system of property prevails in the State of California; and

WHEREAS, In the other community property states the husband and wife are still and for a long time have been permitted by the treasury department, to return one-half of the community property income each for purposes of federal income taxes; and

WHEREAS, In the other community property states, only one-half of the community property passing to the wife on the death of her husband is, and for a long time has been subjected by the treasury department to the federal estate tax, and

WHEREAS, The treasury department has only permitted the husband and wife in California, during the limited period of two months from March 27, 1924, to May 27, 1924, to return community income for purposes of federal income taxes as heretofore and still permitted in the other community property states, and is now questioning the legal correctness of the divided returns of California taxpayers filed in that limited period; and

WHEREAS, The United States District Court for the Northern District of California in Blum versus Wardell (270 Fed. 309) held that in California only one-half of the community property passing to the wife on the death of her husband is subject to federal estate tax, and

WHEREAS, This decision was approved by the United States Circuit Court of Appeals for the Ninth Circuit (276 Fed. 226) and certiorari therein was denied by the United States Supreme Court (258 U. S. 617), and

WHEREAS, The treasury department ignores the effect of these decisions in the case of Blum versus Wardell and claims the right to subject to a federal estate tax the whole of the community property so passing to the wife in California, and is opening old cases heretofore settled for the purpose of claiming the larger tax on the whole community property; and

WHEREAS, The substantive rights of the husband and wife in community property in California are so similar in fact to the substantive rights of husband and wife in community property in the other community property states that, in the opinion of the people of the State of California there is no reasonable basis for distinguishing California from the other community property states in matters of federal taxation; and

WHEREAS, The Legislature of the State of California in its various enactments upon the subject of community property has consistently recognized that the wife in California during the continuance of the marriage relation has an interest in community property much more definite and certain than the expectancy of an heir, as evidenced by the provisions of sections 161 and 682 of the Civil Code as adopted in 1872 and by the provisions of section 161*a* which were added to the Civil Code at this legislative session, and

WHEREAS, The Supreme Court of the State of California in the recent decision in Stewart versus Stewart (240 Pac. 197) recognized that the interest of the wife in community property in California during the continuance of the marriage relation was a much more definite and present interest than that of an ordinary heir; and

WHEREAS, By the phrasing of section 1212 of the revenue act of 1926 taxpayers in the other community property states who filed divided income returns were confirmed in all the privileges and benefits thereof as to income for any period before January 1, 1925, and by virtue of the position of the treasury department like privileges and benefits have been and will be denied to California taxpayers; and

WHEREAS, The people of the State of California are gravely concerned with the invidious distinction of California in these matters, now, therefore, be it

Resolved by the Assembly and the Senate of California, jointly, That we respectfully urge upon the Congress of the United States an early and careful consideration of the palpable injustice to California taxpayers in the matter of federal taxation; and such an amendment of the revenue acts as will put the California taxpayers as to past and future federal taxes in a position of equal security with the taxpayers in the other community property states, and that we also respectfully request of the Congress in this behalf, such remedial legislation as will indemnify California taxpayers for any federal taxes heretofore collected from them on any other basis than that which has been applied in the other community property states, and be it further

Resolved, That certified copies of the text of this joint resolution be communicated by the Governor of the State of California to the President of the United States, the Secretary of the Treasury of the United States, the President of the Senate of the United States, the Speaker of the House of Representatives of the United States and to each member of the Congress representing the State of California therein

NOES—Adams, Anderson, D P., Anderson, Roscoe J., Bernard, Bishop, Brock, Burns, Cloudman, Clowdsley, Coombs, Crittenden, Croter, Deuel, Dillinger, Easley, Feigenbaum, Fisher, Flynn, Foster, Fry, Gant, Hawes, Heisinger, Hornblower, Jacobson, Jespersen, Jewett, Jost, Kelsey, Lenehan, McDonough, McPherson, Melville, Miller, James A, Mixter, Morrison, Murphy, Nielsen, Noyes, Oliva, Parkman, Patterson, Reindollar, Roland, Smith, Spalding, Wemple, West, Williamson, Woodbridge, Wright, and Mr. Speaker—52.

EXPLANATION OF VOTE.

The following explanation of vote was received, and ordered printed in the Journal:

Mr. Speaker and Members of the Assembly.

These proposed amendments—a copy of the Baum bill—is the most unfair reapportionment proposition I have ever seen, and I say this with an experience of four terms working on reapportionment measures.

Under them District No. 1 embraces 27 counties, which is nearly one-half the number in the State, these counties having a population, as per the 1920 census, of over 350,000 people; other districts proposed in the amendments have less than 250,000 population which shows a disparity of over 100,000 as between districts.

No bill of such unfair apportionment should receive our consideration.

Therefore we should defeat these amendments.

S. L. HEISINGER.

EXPLANATION OF VOTE.

The following explanation of vote was received and ordered printed in the Journal:

We are not opposed to a fair reapportionment of congressional districts and stood ready to support the so called "Baum" bill—A. B. No. 4—to give an additional Congressional District to Los Angeles County if amended to constitute a fair redistricting of all the territory in the State, or to support a resolution to withdraw that bill from committee with the assurance from the author that he would so amend the bill, but the sponsors of the Baum bill voluntarily refrained from attempting to amend or to withdraw the bill.

We can not, however, at this late date in the session support any controversial amendment to Senate Bill No. 839, the uncontroverted purpose of which bill is

simply to make the boundaries of the present congressional districts conform to the new assembly district lines, as fixed by the provisions of Senate Bill No. 490 passed at this session, in conformity with the State constitution, section 37 of article IV.

To adopt the proposed amendment at this time would jeopardize, if not defeat, the final passage of Senate Bill No 839.

APPOINTMENT OF COMMITTEE ON FREE CONFERENCE.

The Speaker announced the appointment of Messrs. Adams, Bernard and Mixter as a Committee on Free Conference, to meet with a like committee from the Senate for the consideration of Assembly Concurrent Resolution No. 30.

EXPLANATION OF VOTE.

The following explanation of vote was received and ordered printed in the Journal:

WHEREAS, On April 22, 1927, the Assembly adopted Concurrent Resolution No. 34, which, according to its title, relates "to the state of conflict of the county of Inyo and the city of Los Angeles over the possession of water in Owens Valley"; and

WHEREAS, The undersigned members of the Assembly voted against said resolution and they desire to make and enter in the Journal this explanation of their votes, and in that behalf they declare.

First—The resolution, despite its title, does not state or show any conflict whatsoever between the two counties named or between any other interests over the possession of water in Owens Valley;

Second—The resolution, in addition to the fallacious and misleading character of its title, recites "that the power and light bureau of the city of Los Angeles has adopted a policy of ruthless destruction of the farm and community life of the Owens River Valley" and yet there was no evidence or showing whatsoever before committee or Assembly that the power and light bureau of that city ever adopted, carried out or had anything to do with any such policy as that alleged affecting said valley.

Third—The resolution is utterly lacking in fairness and candor in that it carefully conceals the fact that the alleged policy of destruction was merely the purchase by the city of Los Angeles from Owens Valley citizens and farmers at voluntary values and at fair and liberal prices lands and water rights in that valley in order to supplement the water supply of that city;

Fourth—Said resolution, being the very embodiment of gross and ridiculous error, unfairness and misinformation, was entitled to the vote of no member of the Legislature, and in justice to truth and fair play, and to the people of California, and particularly the people of the great city of Los Angeles, we felt obliged to vote against said resolution

REPORT OF COMMITTEE.

The engineers designated by Committee on Drainage, Swamp and Overflowed Lands, relative to the proposed "American River Flood Control District," reported as follows:

By Mr. Nielsen:

SACRAMENTO, CALIFORNIA, April 27, 1927.

To Assembly Committee on Drainage, Swamp and Overflowed Lands,
Honorable Robert P. Easley, Chairman.

GENTLEMEN: Your committee yesterday afternoon designated a committee of engineers, consisting of representatives from the State Reclamation Board, the city of Sacramento, and city of North Sacramento, to hear objections to the inclusion of lands within the boundaries of the proposed American River Flood Control District as provided in Senate Bill No. 883, introduced by Senator Inman. Following, is a report of this engineering committee:

A meeting was held in the council chamber, in the city hall at Sacramento, at 9.00 a.m. on April 27th, at which approximately one hundred landowners appeared. Those objecting to having their lands included within the district were given an opportunity to so state, and a record was made of such objections, which are set forth in Exhibit "A" attached.

Senate Bill No. 883 provides for the formation of a flood control district without reference to any particular physical plan of flood control, reclamation or improvement, but providing means by which the problem can be studied and a suitable physical plan be evolved, and providing for the payment of the cost of such preliminary engineering work; that after such a plan has been formulated and approved by the proper authorities, the citizens of the district will have an opportunity to vote on the question of whether or not bonds shall be issued to carry out the proposed plan. The primary intent of the bill is to provide machinery through which a comprehensive study can be made.

Owing to the absence of a definite physical plan so far as the bill under consideration is concerned, the district boundaries should include all areas which might be benefited by any plan which might be selected

It therefore follows that the only feasible and logical basis for determining the preliminary boundaries of the district is to include, as nearly as possible, the areas which might be subject to flood under any circumstance, and under any conceivable plan. It is probable that parts of the area included will not be benefited by the plan finally adopted. However, the bill provides that assessments for the cost of putting such plan into execution shall be levied and collected in proportion to benefits, with the result that should land be included which is not benefited, such lands will be excluded from assessment and from all costs save the nominal cost of preliminary investigations.

Inasmuch as an exact determination of the areas to be benefited can not be made except in connection with a definite physical plan and after a thorough investigation and survey, it follows that it is not possible at this time to fix boundaries which will exclude all lands not benefited. It is the opinion of this committee that the boundary first determined and printed in the bill includes the area which would be subject to damage by flood as near as may be determined at this time.

RECOMMENDATIONS.

Your engineering committee recommends that the boundaries of the district be fixed as set forth in the description hereto attached and marked Exhibit "B"

We further recommend that there be incorporated in the bill a provision whereby lands receiving no benefits from the proposed works, as determined in the first fixing of the zones of benefit, shall be permanently excluded from the district before a call is made for a special election to submit to the electors of the district the proposition to incur a bonded debt.

Respectfully submitted.

ENGINEERING COMMITTEE.
A. M. BARTON,
Chief Engineer, Reclamation Board.
A. J. WAGNER.
City Engineer of Sacramento.
W. K. REED,
