Purpose

SEC. 2. As is more fully set forth in Section 3 hereof, this act is intended to be declaratory of existing law.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and

shall therefore take effect immediately. The following is a statement of the facts constituting such necessity:

Insurance Code Section 10291.5, which is amended by this act, was amended by Chapter 1486 of the Statutes of 1949 to establish new and additional standards for disability insurance policies, which are required by law to be approved by the Insurance Commissioner before they can be issued or delivered in this State.

In recognition of the difficulty of applying such standards to policies approved under prior laws, the section provided for an adjustment period by the use of two separate delayed effective dates. One was intended to apply to policies thereafter submitted for approval and the other was intended to continue the right to issue previously approved policies until withdrawal of approval should be accomplished as provided in the section. Doubt has been expressed as to the adequacy of the language used for the purpose of delaying application of the withdrawal provisions to previously approved policies, and it has been suggested that since January 1, 1951, it has been unlawful to continue to issue such previously approved policies. If that is so, a great number of policies now being issued must be revised by the insurers and reviewed and approved by the Insurance Commissioner immediately. As a practical matter this cannot be done. In order to avoid the undue administrative burden that would result from such a construction, and to preserve an adequate disability insurance market for the people of this State, it is necessary that this clarifying and interpretive act go into effect immediately.

[Approved by Governor January 30, 1951. Filed with Secretary of State January 30, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 18544 is added to the Government Code, to read:

18544. "Duration employment" means an employment in which permanent status cannot be attained and which is subject to termination and other conditions as prescribed by this part and board rules governing such employment during time of war or during an emergency in connection with the national defense. "Duration employment"

SEC. 2. Section 18545 is added to said code, to read:

18545. "Duration examination" means an open competitive examination, or promotional examination, held for the express purpose of providing a list of persons available for duration employment. Eligible lists resulting from duration examinations can be used only in making appointments for duration employment. "Duration examinations"

are being granted leaves of absence to enter the armed forces of the United States. The adequate protection of the re-employment rights of these employees and the maintenance of reasonable standards of efficiency in the state civil service may require that a practice of not granting permanent civil service status to new employees be put into effect. To assure that a program of duration appointments and a program to speed up examining processes are not delayed unduly, it is necessary that this act take effect immediately.

CHAPTER 7

During such time as said stipulation or any extension or modification thereof is in effect and so provides, moneys deposited in the Special Deposit Fund under this section shall be transferred quarterly to the Treasurer of the United States, to be by him segregated and held in a special fund in trust, pending final determination by the United States Supreme Court, by Act of Congress, or other settlement, of the entitlement thereto. Such transfers shall be made by warrant of the State Controller payable to a national bank within this State for the credit of the Treasurer of the United States and delivered to the Secretary of the Interior of the United States, as soon as practicable after receipt of the moneys from said leases for the quarter ended December 31, 1950, and quarterly in like manner thereafter, upon claims filed by the State Lands Commission with the State Controller.

Appropriation

SEC. 7. All moneys received under said leases and deposited in the Special Deposit Fund are hereby appropriated, without regard to fiscal years, to carry out the provisions of this act.

Urgency

SEC. 8. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

It is of the greatest importance that the development and production of oil and gas from the tide and submerged lands along the coast of California continue uninterruptedly, and with the same degree of efficiency as heretofore, under the leases made by the State of California to its lessees, during such period as shall elapse until final adjudication of the issues now pending in the United States Supreme Court in the case of United States v. California under the proceedings before the special master appointed by said court, or until permanent legislation is enacted by the Congress determining the rights of this State in and to said lands. The reason for this is that such uninterrupted and efficient development and production is vital to the needs of public health, industry, transportation, and many domestic uses of hydrocarbon products in this State. Under the provisions of the stipulation entered into by the Attorney General of the United States and the Attorney General of California on August 21, 1950 in the action heretofore referred to, it was agreed that all rentals, royalties and other payments received by the State of California from these said leases in the tide and submerged lands along its coast, beginning on and subsequent to October 1, 1950, would be segregated and held in a special fund and paid quarterly to the order of the Treasurer of the United States and delivered to the Secretary of the Interior, the United States agreeing to segregate and hold all moneys so paid in a special fund until such time as the proprietary rights in any particular area of said lands shall be finally judicially determined, or shall be agreed to by the parties thereto; such agreement not to preclude any other proper disposition by reason of an order of the Supreme Court of the United States or of an Act of Congress.

The legislative provision contained in this act is necessary for the immediate carrying out of the provisions of this stipulation and the aforesaid uninterrupted and efficient production and development of hydrocarbon substances from the aforesaid lands.

CHAPTER 8

An act to amend Section 1596.1 of the Education Code, relating to school sites, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor January 30, 1951. Filed with Secretary of State January 30, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 1596.1 of the Education Code is amended to read:

1596 1. The governing board of a school district may acquire a site for a school building contiguous to the boundaries of the district and upon the acquisition of such site it shall become a part of the district. No proceedings affecting school district boundaries, including annexation proceedings of any nature whatsoever, shall operate to exclude such a school site from the school district owning the same if after such proceedings are complete the school site remains contiguous to the boundaries of the district. Notwithstanding such proceedings the site shall continue to be a part of the district owning or occupying the same, and the buildings and improvements thereon shall remain the property of such district. Acquisition of school building site

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Under the existing law if there is located in unincorporated territory annexed to a city a school building which was constructed and maintained at the expense of a school district which does not include the territory within the boundaries of the city, such school building will become a part of the city school district. In many cases the city school district would be unable to raise funds to maintain the school building. In order to assure adequate provision for the continued maintenance of such schools which serve areas greater than the area within the boundaries of such cities, and thus preserve the much needed existing institutions of education, it is necessary that this act take effect immediately.

CHAPTER 9

Such land shall be offered for sale within three years from and after the expiration period of redemption thereof, or within two years from and after the effective date of this amendment, whichever period is greater, in parcels of such number of acres as the board of trustees may determine will be most desirable for purposes of assuring the sale thereof.

Appraisal

Prior to the sale of any parcel, the county treasurer of the main county shall cause its fair market value to be ascertained by means of an appraisal made by a board of appraisement consisting of:

(a) One member who is an officer or an authorized appraiser of a banking corporation formed under the laws of this State, or by the manager of a branch bank of such banking corporation, or an officer or cashier of a national banking association, having a place of business in the county in which the parcel or some portion thereof is situated. If there is no such banking corporation or national banking association having a place of business in the county in which the parcel or some portion thereof is situated, one member shall be an officer or an authorized appraiser, or the manager of a branch bank of such a banking corporation, or an officer or cashier of a national banking association, having a place of business in a county adjacent thereto.

(b) One member who is an inheritance tax appraiser of the county in which the parcel is located.

(c) One member, a disinterested person, who is a licensed real estate broker, selected by the two other members of the board.

In the event that all of the members of the board of appraisement cannot agree as to the fair market value of the parcel, (a) if two of the members of the board agree as to the fair market value, the amount so agreed upon shall constitute the board's appraisal, or, (b) if no two members of the board agree as to the fair market value, then each member of the board shall make a separate appraisal and the average of the three appraisals shall constitute the board's appraisal.

Each appraisal shall be verified by the members of the board of appraisement. The verification shall state that the appraisal is made in good faith, and that the valuation is honestly determined and represents the bona fide opinion of the board. If any member of the board of appraisement does not concur in the appraisal, the verification shall contain a

statement as to the manner in which the board determined the appraised fair market value.

At the time of the sale of any parcel of such land, the county treasurer of the main county shall announce the fair market value of the parcel, as appraised, and shall not accept any bid therefor less than such fair market value.

Reappraisal

In the event that any parcel of such land remains unsold for want of an acceptable bid, the county treasurer shall have the parcel reappraised and offer it for sale to the highest bidder for cash in the manner herein provided, at least once each year until the parcel is sold.

In the event of a sale of a part of any tract of land remaining unsold then the assessment or assessments thereon shall be reapportioned as provided in Sections 3454 and 3460 of the Political Code.

Effect of sale

Upon such last mentioned sale being made as herein provided the said county treasurer shall execute a deed to the purchaser conveying the land sold, upon payment of the price bid, which deed shall have the effect of conveying title to the land sold to the purchaser free of encumbrance, except district assessments (including the unpaid balance of said assessment for the delinquency of which said property was sold) which upon the date of the sale herein provided had not been called, and except as may be otherwise provided by law, and such deed duly executed and acknowledged shall be prima facie evidence that all the proceedings for the levy and collection of the delinquent assessment for which said land was sold, and all of the proceedings for the sale of said land have been duly and regularly taken, and all notices required to be given or published have been so duly given and published for the time and manner as required by law.

Possession before sale

Where any land has been sold for a delinquent assessment, pursuant to the provisions of Sections 3466, 3480 or 3480a of the Political Code for a delinquent assessment or installment of the same and no redemption has been made and the time for redemption has expired, and until the sale thereof, the district shall have the right to the possession of the land so sold and unredeemed and the board of trustees shall have the right to bring and maintain any and all actions in equity or law in connection with said land and the protection of the district's rights therein to the same extent as any other owner; and the costs and expenses of such action or actions shall be a charge against the district. The board of trustees shall also have the right to expend funds of the district in such amounts that may from time to time be necessary for the purpose of retiring any and all liens against such land superior to the title of the county treasurer therein.

Lease before sale

The trustees of the district shall have the management and control of, and the right to lease out to a tenant or tenants for such reasonable rental and upon such terms as such trustees may deem advisable, any and all lands in the district which have been sold to the county treasurer, as trustee, for delin-

quent assessments, where the time for redemption has expired and said lands remain unsold and to receive and collect the rental for the same.

Rental money

All rentals collected or moneys received by the trustees of the district from such lease of land or for the use or occupation of such land may be applied by them to the payment of the incidental expenses of holding and leasing said lands and to the payment of any other incidental expenses of, or legal charge against the district or for the purpose of purchasing any outstanding bonds of the district matured or unmatured together with the coupons thereunto appertaining at not more than the face value of such bonds plus the accrued interest thereon; which said bonds and/or coupons when so purchased shall be forthwith delivered to the county treasurer and canceled, and to the payment of any call of any maintenance assessment on any tract of land theretofore bought in by county treasurer as trustee of the district for a delinquent installment of any assessment theretofore levied on any such tract of land and then remaining unsold by said county treasurer; provided, however, that after the period of redemption has expired all rentals collected or moneys received from lease of land sold to the county treasurer as trustee of the district pursuant to the provisions of Section 3480 or 3480a of this code or for the use or occupation of such land, less the incidental expenses of leasing or holding the same and less the amount required to pay any called or delinquent installment of any maintenance assessment on any tract of land which has been theretofore bought in by the said county treasurer for the payment of any delinquent installment of any assessment theretofore levied on any such tract of land, and then remaining unsold by such county treasurer, shall, in the event said district shall be in default for interest or principal payments on any of said bonds issued by said district, be deposited in said county treasury of the main county, to the credit of the bond fund of the district. An amount equal to the revenues derived from each tract by reason of the leasing, use or occupation thereof, less the incidental expenses of leasing and holding same, shall be credited by the county treasurer on the assessment lists against the delinquent charges on said tract.

The provisions hereof shall apply to all lands heretofore sold for delinquency to a district or to the county treasurer, as trustee as well as to future sales under assessments whether heretofore, or hereafter to be, levied.

SEC. 2. Section 51681 of the Water Code is amended to read:

Sale of land after redemption period

51681. Parcels purchased at delinquent sale by the county treasurer as trustee for the district shall be offered for sale within three years from the expiration of the redemption period, or before October 1, 1951, whichever period is greater, in parcels of such number of acres as the board may determine will be most desirable for purposes of assuring the sale thereof.

SEC. 3. Section 2 of this act becomes operative only if Division 15 of the Water Code is enacted by the Legislature at its 1951 Regular Session, and in such case at the same time as said Division 15 takes effect; at which time Section 3466a of the Political Code is repealed. Effect Stats 1951, Ch 336

SEC. 4. This act is an emergency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

During the depression large areas of land within the State of California went delinquent for nonpayment of reclamation assessments and were sold to the districts. Under the provisions of Section 3466a of the Political Code as amended in 1949, districts are required to sell said land within three years from and after the expiration of the period of redemption thereof, or within two years from and after the effective date of the 1949 amendment. At the present time the land cannot be sold on favorable terms and at the full market value thereof because it must be sold in parcels of 320 acres or less and cannot be subdivided into such acreage as will take best advantage of farming conditions, roads, canals and other matters of terrain. In order to permit the districts to sell their land on the most advantageous terms within the time required by law, it is necessary that this act take effect immediately.

CHAPTER 10

An act to add Section 3577 to the Education Code, relating to the Public School System, declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 2, 1951. Filed with Secretary of State February 2, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 3577 is added to the Education Code, to read:

3577. On July 1st, the formation date of the new high school district, all bills still due and owing by the high school district from which the new district was formed shall be paid. Within 30 days after such formation date, the county auditor shall determine the amount of the balance of the funds in the general fund, including the general reserve, of such high school district from which the new district was formed, remaining after the payment of its bills. Such amount shall be divided between such high school district and such new district in proportion to total assessed valuation as shown by the last equalized assessment roll. High school district *formation* Payment of bills Same Distribution of funds

Same Apportionments

During the first year after its formation the new school district shall receive from the district from which the new district was formed a sum equal to all state and federal apportionments which it would have received had it been formed on July 1st of the year preceding its formation, as such apportionments are received by the district from which the new district was formed.

Application

The provisions of this amendment shall apply to all separations pursuant to this article occurring after September 30, 1949. If the payment of bills and division of the balance of the undistributed reserve has not been made for any separation occurring after such date and before the effective date of this section, such payment and division shall be made within 30 days after the effective date of this section.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV, of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

In the absence of any express provision governing the distribution of funds upon the separation of high school districts, the situation arises where no distribution is made. Nor under existing law does the new high school district receive state and federal apportionments based on its average daily attendance, although the high school maintained by it was in existence during the preceding year; the money is instead paid to the old district which no longer maintains the high school.

In order to prevent the inequities arising under the existing law and to assure that a new high school district separated from an existing union high school district, after approval by the electors, will have funds to maintain its high school, it is necessary that this act take effect immediately.

CHAPTER 11

An act authorizing the expenditure of certain sums for construction, improvements, and equipment of an office building in the City of Sacramento for the State Department of California Highway Patrol, and to add Section 13115 to the Government Code, relating to the approval by the Department of Finance of investment of funds by certain state agencies, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.]

The people of the State of California do enact as follows:

Highway Patrol building Expenditure for construction authorized

SECTION 1. The State Department of California Highway Patrol is authorized to expend the sum of seven hundred thousand dollars ($700,000) for construction, improvements, and

equipment of an office building in the City of Sacramento for the State Department of California Highway Patrol.

SEC. 2. Section 13115 is added to the Government Code, to read:

13115. Notwithstanding any other provision of law the Department of Finance is authorized to approve and make effective an agreement between any state agency authorized to invest funds under the control of the agency and the State Department of California Highway Patrol whereby the agency agrees to invest with the State Department of California Highway Patrol funds not exceeding the sum of seven hundred thousand dollars ($700,000) for construction, improvements, and equipment of an office building in the City of Sacramento for the State Department of California Highway Patrol. The agreement shall provide for the liquidation of the investment with interest at a rate agreed upon between the parties, out of rental charges to be paid by the agencies using the building or such other funds as are available to the State Department of California Highway Patrol for the purpose. Same Investments by state agencies

Any state agency authorized to invest funds under its control and the State Department of California Highway Patrol are hereby authorized to enter into the above agreement.

Whenever under any general or special statute the Director of Finance is authorized to invest the money in a special fund in the State Treasury, he is hereby authorized to invest the money in any such fund or funds for the purposes of this section. Investments by the Director of Finance under this section shall not exceed seven hundred thousand dollars ($700,000) in the aggregate. Any such investment shall be made pursuant to an agreement between the Director of Finance and the State Department of California Highway Patrol providing for the investment of such funds and the liquidation of the investment with interest at the rate agreed upon between the parties out of rental charges to be paid by the agencies using the building or from other funds available to the State Department of California Highway Patrol for such purpose.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1, Article IV, of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

Because of overcrowded conditions in the Sacramento office of the State Department of California Highway Patrol it is necessary that construction begin as quickly as possible upon a new office building for this department. Because of constant increases in building costs the State will be able to procure the required office building at more reasonable cost if construction is begun immediately than if construction of the building is delayed until the beginning of the next fiscal year.

CHAPTER 12

An act authorizing the expenditure of certain sums for construction, improvements, and equipment of an office building in the City of Sacramento for the State Department of Motor Vehicles, and to add Section 13116 to the Government Code, relating to the Department of Finance, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.]

The people of the State of California do enact as follows:

Department of Motor Vehicles building Expenditure for construction authorized

SECTION 1. The State Department of Motor Vehicles is authorized to expend the sum of five million five hundred thousand dollars ($5,500,000) for construction, improvements, and equipment of an office building in the City of Sacramento for the State Department of Motor Vehicles.

Same Investments by state agencies

SEC. 2. Section 13116 is added to the Government Code, to read:

13116. Notwithstanding any other provision of the law the Department of Finance is authorized to approve and make effective an agreement between any state agency authorized to invest funds under the control of the agency and the State Department of Motor Vehicles whereby the agency agrees to invest with the State Department of Motor Vehicles funds not exceeding the sum of five million five hundred thousand dollars ($5,500,000) for construction, improvements and equipment of an office building in the City of Sacramento for the State Department of Motor Vehicles.

The agreement shall provide for the liquidation of the investment, of the sum invested with interest at the rate agreed upon between the parties, out of rental charges to be paid by the agencies using the building or such other funds as are available to the State Department of Motor Vehicles for the purpose.

Any state agency authorized to invest funds under its control and the State Department of Motor Vehicles are hereby authorized to enter into the above agreement.

Whenever under any general or special statute the Director of Finance is authorized to invest the money in a special fund in the State Treasury, he is hereby authorized to invest the money in any such fund or funds for the purposes of this section. Investments by the Director of Finance under this section shall not exceed five million five hundred thousand dollars ($5,500,000) in the aggregate. Any such investment shall be made pursuant to an agreement between the Director of Finance and the State Department of Motor Vehicles providing for the investment of such funds and the liquidation of the investment, with interest as the rate agreed upon between the parties, out of rental charges to be paid by the agencies using the building or from other funds available to the State Department of Motor Vehicles for such purpose.

SEC. 3. As soon as the office building provided for in this act has been constructed and has been occupied by the State Department of Motor Vehicles, the state office building now occupied by the State Department of Motor Vehicles between 12th and 13th on N Street, Sacramento, California, shall be transferred to the jurisdiction and control of the Department of Finance. The Department of Finance shall charge rent comparable to rent charged in other state-owned buildings to any agency occupying space in the building and shall pay into the Motor Vehicle Fund from the proceeds of such rent, after deducting the actual cost of maintaining the building, an amount equal to the average appraised value of the building as of the date when it was vacated by the State Department of Motor Vehicles. The Department of Finance shall obtain at least three appraisals to determine the value of the building. Transfer of control of building

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1, Article IV, of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

Because of overcrowded conditions in the Sacramento office of the State Department of Motor Vehicles it is necessary that construction begin as quickly as possible upon a new office building for this department. Because of constant increases in building costs the State will be able to procure the required office building at more reasonable cost if construction is begun immediately than if construction of the building is delayed until the beginning of the next fiscal year.

CHAPTER 13

An act making an appropriation to the Emergency Fund specified in Item 277 of the Budget Act of 1950, relating to the repair and restoration of property damaged or destroyed by storms or floods and the expenditure of money appropriated therefor, declaring the urgency thereof, to take effect immediately. Stats 1950, p 255

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Out of any moneys unappropriated in the Postwar Unemployment and Construction Fund in the State Treasury the sum of one million five hundred thousand dollars ($1,500,000) is hereby appropriated to the Emergency Fund specified in Item 277 of the Budget Act of 1950, to be expended by the Department of Public Works acting through the agency of the State Engineer (1) during the 1950-1951 Fiscal Year beginning July 1, 1950, and ending June 30, 1951, the 1951-52 Fiscal Year beginning July 1, 1951, and ending June 30, 1952, Appropriation Flood and storm damage repair

and the 1952-53 Fiscal Year beginning July 1, 1952, and ending June 30, 1953, (2) for the cost of repair or restoration, or both, of levees, flood control works, channels, irrigation works, city and county roads and bridges and other property damaged or destroyed by storm and flood or flood conditions subsequent to October 1, 1950, and for which no appropriation or insufficient appropriation, has otherwise been made by law, (3) subject to each and all of the following (in addition to other) conditions, restrictions and limitations:

Limitations

None of the moneys hereby appropriated shall be expended, allotted or encumbered, or become available for expenditure, for a work of repair, or restoration, except for the making of investigations, estimates or reports hereunder by said department unless and until:

(a) Such expenditure and purpose is first approved by the Director of Finance.

(b) The department has first investigated and reported upon the proposed work, has found it to be a matter of general public and state interest and concern, has estimated the cost of the work and filed its report thereon with the Department of Finance

(c) Moneys equal to or in excess of the amount expendable from this appropriation for said work shall be made available (by a political subdivision, public district, municipality, county or public agency, including agencies of local and Federal Government but excluding agencies which are a part of the executive department of the State Government) for expenditure by the department for such work to the end that any sums expended from this appropriation shall be matched by like or greater amounts from public sources other than the State Treasury or funds of any agency which is a part of the executive department of the State Government.

The department may perform all or any portion of said work directly by contract or force account or the department and any entity herein authorized to match the appropriation herein made may enter into a contract whereby all or any portion of such work may be performed by any party to such contract.

Not more than 20 percent of the money appropriated by this act shall be expended in any one county.

Same

SEC. 2. When the United States or any agency thereof is to provide the matching funds under Section 1 hereof it shall not be required that the funds to be provided from federal sources shall be paid into the State Treasury, but the department may proceed with the work when the department has received assurance, adequate in the opinion of the department and the Department of Finance, that the federal matching funds will be made available for expenditure for said work, or for reimbursement to the department for performance thereof.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of

Article IV of the Constitution, and therefore shall go into immediate effect. The following is a statement of the facts constituting such necessity:

Recent occurrences of storms and floods have caused extensive damage to levees, flood control works, channels, irrigation works, city and county roads and bridges and other property. Funds heretofore appropriated by the State will soon be exhausted and additional funds are required immediately. The occurrence of future storms and floods is inherently unpredictable and it is necessary to provide a flexible method whereby funds may be made available for necessary repair, restoration, and replacement of works and property damaged or destroyed by storms or floods. This act makes such provisions, and inasmuch as money is needed now for repair, restoration and replacement of works and property damaged or destroyed by recent past floods, and inasmuch as the danger of disaster from storms and floods is now and, until the end of the current runoff season, will be present, it is necessary in the interest of the public health and safety that this act take effect immediately.

CHAPTER 14

An act to add Section 14276 to the Government Code, relative to state contracts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 14276 is added to the Government Code, to read:

14276 The department may, with the approval of the State Public Works Board, receive bids for the construction of several public works projects at one state institution as a single project. Where more than one appropriation has been made for the several projects united as a single project under the provisions of this section, payments for the single project shall be made from the separate appropriations on such proportional basis as may be determined by the department and approved by the Department of Finance. Bids for public works projects

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Where several buildings are to be constructed at one location, in most cases the buildings can be constructed at a more reasonable cost if a single contract can be awarded for all of the buildings than if a separate contract has to be awarded for each building. The buildings for which bids must soon be

received are necessary to carry on essential governmental services. In view of the increasing building costs, it may be impossible to construct those buildings if advantage cannot be taken of the savings which can be effected by the awarding of a single contract for the construction of several buildings.

CHAPTER 15

Stats 1949, p. 1104

An act to amend Section 1 of an act entitled "An act making an appropriation to the emergency fund specified in Item 278 of the Budget Act of 1949, relating to the repair and restoration of property damaged or destroyed by storms or floods and the expenditure of money appropriated therefor, and declaring the urgency thereof, to take effect immediately," approved June 9, 1949, relating to repair and restoration of property damaged or destroyed by storms and floods, declaring the urgency thereof to take effect immediately.

In effect immediately

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of the act cited in the title hereof is amended to read:

Section 1. The entire unencumbered balance of the appropriation provided for by an act entitled "An act making an appropriation to the emergency fund specified in Item 325 of the Budget Act of 1947, relating to the repair and restoration of property damaged or destroyed by storms or floods and the expenditure of money appropriated therefor," approved July 18, 1947, is hereby appropriated to the emergency fund specified in Item 278 of the Budget Act of 1949, to be expended by the Department of Public Works acting through the agency of the State Engineer (1) during the 1949-50 Fiscal Year beginning July 1, 1949, and ending June 30, 1950 and the 1950-51 Fiscal Year beginning July 1, 1950 and ending June 30, 1951, (2) for the cost of repair or restoration, or both, of levees, flood control works, roads, canals, ditches and flumes, channels, irrigation works, city and county roads and bridges and other property damaged or destroyed by storm, storm and flood or flood conditions subsequent to December 31, 1948, and for which no appropriation or insufficient appropriation, has otherwise been made by law, (3) subject to each and all of the following (in addition to other) conditions, restrictions and limitations:

Stats 1947, p. 3190

Appropriation for flood and storm damage repair

Limitations

None of the moneys hereby appropriated shall be expended, allotted or encumbered, or become available for expenditure, for a work of repair, or restoration, except for the making of investigations, estimates or reports hereunder by said department unless and until:

(a) Such expenditure and purpose is first approved by the Director of Finance.

(b) The department has first investigated and reported upon the proposed work, has found it to be a matter of general public and state interest and concern, has estimated the cost of the work and filed its report thereon with the Department of Finance.

(c) Moneys equal to or in excess of the amount expendable from this appropriation for said work shall be made available (by a political subdivision, public district, municipality, county or public agency, including agencies of local and Federal Government but excluding agencies which are a part of the executive department of the State Government) for expenditure by the department for such work to the end that any sums expended from this appropriation shall be matched by like or greater amounts from sources other than the State Treasury or funds of any agency which is a part of the executive department of the State Government. Money allocated or assigned to a political subdivision, public district, municipality, county or public agency pursuant to the provisions of the Construction and Employment Act shall not be considered to be funds from the State Treasury or funds of any agency which is a part of the executive department of the State Government and may be used for matching purposes under this act notwithstanding provisions of the Construction and Employment Act.

The department may perform all or any portion of said work directly by contact or force account or the department and any entity herein authorized to match the appropriation herein made may enter into a contract whereby all or any portion of such work may be performed by any party to such contract.

Not more than 20 percent of the money appropriated by this act shall be expended in any one county.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Recent floods have caused great damage to many of the public works. The immediate repair of those works is essential to the public health and safety. Some public agencies desiring to repair those works have insufficient funds to provide the matching money necessary to obtain assistance under the provisions of Chapter 609 of the Statutes of 1949 which this act amends, while they do have unexpended funds allocated or assigned to them for such purposes under the Construction and Employment Act. This act would permit those agencies to use unexpended money allocated under the Construction and Employment Act and thereby permit immediate repair of the damaged public works.

CHAPTER 16

An act to add Section 13115 to the Government Code, relating to acquisition of easements and rights as an incident to the construction of state buildings and other structures, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 13115 is added to the Government Code, to read:

State buildings, etc., interfering easements

13115. Whenever a state building or other state structure is about to be constructed and it is necessary to clear any land, public street or public way of any easement or right of way, or the works of any public utility, which would interfere with the state building or structure, the Director of Finance may enter into an agreement with the owner of the easement or right of way, or public utility, for the relocating or removal of any facilities of such public utility or owner which lie in, on, along, or across such land, public street or public way and for the conveying or quitclaiming to the State of any interest of such utility or owner in such land, public street or public way. The cost of such removal or relocation may be paid, with the approval of the State Public Works Board, out of any money available for the construction of the state building or other structure the erection of which necessitates such relocation or removal. Nothing in this section authorizes the relocation or removal at state expense of any public utility works or other facilities which, under the same circumstances, the public utility or owner would be required to relocate or remove at its own expense.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and therefore shall take effect immediately. The facts constituting such necessity are:

The state building program is essential to necessary governmental functions. A number of situations have occurred in which the provision of an adequate state building or other structure depends upon the removal of works of a public utility, such as telephone and power lines, gas mains, and similar works, or easements or rights of way from the land, public streets or other public ways in, on, along or across which such works, easements or rights of way are situated. In order to expedite the state building program and to provide for the removal and relocation of such public utility works or easements or rights of way as may be necessary it is necessary that provision therefor be made as soon as possible in order that necessary governmental functions can be carried out to the extent required in view of the rapidly expanding population of the State and the emergency situation confronting the United States.

CHAPTER 17

An act to amend Sections 7 and 11 of the Unemployment Insurance Act, relating to a system of unemployment and disability insurance, declaring the urgency thereof, to take effect immediately.

Stats 1935, p 1226, amended

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7 of the Unemployment Insurance Act cited in the title hereof is amended to read:

(f) Service performed in the employ of a state, a political subdivision thereof, or an instrumentality of one or more states or political subdivisions;

three thousand dollars ($3,000) to such individual during such calendar year, any remuneration (other than remuneration referred to in the succeeding paragraphs of this subsection) with respect to employment paid (or considered under this paragraph as having been paid) to such individual by such predecessor during such calendar year and prior to such acquisition shall be considered as having been paid by such successor employer; Same

(6) The payment by an employer (without deduction from the remuneration of the employee) (A) of the tax imposed upon an employee under Section 1400 of the Internal Revenue Code, or (B) of any payment required from an employee under a state unemployment compensation law;

(7) Remuneration paid in any medium other than cash to an employee for service not in the course of the employer's trade or business;

(8) Any payment (other than vacation or sick pay) made to an employee after the month in which he attains the age of 65, if he did not work for the employer in the period for which such payment is made;

Saving clause

SEC. 3. The amendments to Sections 7 and 11 of the said act made by this amendatory act shall not affect any rights, liabilities, or proceedings for the enforcement thereof existing under the provisions of such sections on the effective date of this act.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Employers of eight or more individuals in this State are required to pay a federal unemployment tax of 3 percent of their taxable pay rolls. There is allowed as a credit against this tax the amount of unemployment insurance taxes paid to any state but not to exceed 90 percent of the federal tax. The changes made by this act will conform to recent changes in the federal act. In order that employers in this State may receive the advantages of simplified record keeping, reporting and tax savings, arising from uniformity in the tax base under the federal and state acts and to avoid the burden of additional accounting resulting in confusion and error which would materially hamper the administration of the state act, it is necessary that this act take effect immediately.

CHAPTER 18

Stats 1927, p 694, amended

An act to add Section 5.1 to the Metropolitan Water District Act, relating to the powers of metropolitan water districts, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor February 2, 1951. Filed with Secretary of State February 5, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 5.1 is added to the Metropolitan Water District Act, to read:

Dissemination of information

Sec. 5.1. Any district incorporated as herein provided also shall have power to disseminate information concerning the activities of the district; and, in instances in which it shall be found by two-thirds vote of the board of directors to be necessary for the protection of district rights and properties, to disseminate information concerning such rights and properties, also concerning matters which, in the judgment of the board, may adversely affect such rights and properties; provided, however, that expenditures during any fiscal year for such purposes shall not exceed one-half of one cent ($0.005) for each one hundred dollars ($100) of assessed valuation of such district.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

The Metropolitan Water District of Southern California has been incorporated under the act hereby amended. Heretofore, in addition to the powers granted in the Metropolitan Water District Act, the officers of said district have relied, in part, on an act entitled "An act authorizing municipal corporations to expend money for advertising or publicity purposes" approved April 5, 1927 (Stats. 1927, Ch. 65). In the process of codification, said act was repealed (Stats. 1949, Ch. 79, Sec. 6) and the substance thereof re-enacted as Sections 40100, 40102, and 40103 of the Government Code, but in such re-enactment reference is made to cities instead of to municipal corporations, of which said district is one. The effect of such change has not been judicially determined. The said district is governed by a board of directors, the members of which perform their duties as a public service, without compensation. The power to protect the property rights of the district by the method herein specifically authorized and confirmed already exists in the district, but members of the board of directors are exposed to vexatious and costly litigation, based on the unfounded contention that expenditures for the purposes mentioned are not authorized, and that they are personally liable therefor. To remove any possible basis for such contention, and to enable the board of directors to proceed with its functions and perform its duties without interruption, and free from the threat or probability of such litigation, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 1268 of the Code of Civil Procedure is amended to read:

Escheat proceedings

1268. The Attorney General shall, from time to time, commence actions on behalf of the State for the purpose of having it adjudged that title to real or personal property to which the State has become entitled by escheat, has vested in the State, and for the purpose of having it adjudged that property has been actually abandoned or that the owner thereof has died and there is no person entitled thereto and the same has escheated and vested in the State; provided, however, that any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, may be instituted and prosecuted by the Attorney General or by the district attorney of the county in which such real or personal property is situated. Such actions shall be brought in the Superior Court for the County of Sacramento; except that if any real property covered by the petition is not situated in the County of Sacramento, an action respecting the real property shall be commenced in the superior court for the county in which such real property, or any part thereof, is situated; provided further, that any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, shall be commenced and prosecuted in the superior court for the county in which such real or personal property is situated.

Same Pleading

Such action shall be commenced by filing a petition. The provisions of Section 1269 of this code, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1271 of this code, relating to appearances and pleadings, shall be applicable to any proceeding had under this section; provided, however, that in any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, all of the provisions of the Alien Land Law, as amended, relating to the commencement and prosecution of such actions shall have the same effect as though incorporated in the provisions of this section, and the provisions of Section 1269 of this code, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1271 of this code relating to appearances and pleadings, shall, insofar as they are applicable, cover such actions.

Upon the filing of the petition, the court shall make an order requiring all persons interested in the property or estate to appear on a day not more than 90 days or less than 60 days

from the date of the order and show cause, if any they have, why title to the property should not vest in the State of California.

Service

Service of process in such actions shall be made by delivery of a copy of the order, together with a copy of the petition, to each person who claims title to any property covered by the petition and who is known to the Attorney General or the State Controller or who has theretofore filed in the Office of the State Controller a written request for such service of process, stating his name and address, including street number, or post-office box number, if any, and by publishing the order at least once a week for four successive weeks in a newspaper published in the county in which the action is filed, the last publication to be at least 10 days prior to the date set for the hearing.

Jurisdiction

Upon completion of the service of process as provided in this section, the court shall have full and complete jurisdiction over the estate, the property, and the person of everyone having or claiming any interest in the property, and shall have full and complete jurisdiction to hear and determine the issues therein, and to render an appropriate judgment.

Publication

In addition to the foregoing publication of the order, a notice shall be given by publication, at least once a week for four successive weeks in a newspaper published in the county from which the property was forwarded to the State Treasury or is situated, of each estate and item of property from such county or situated in such county in excess of one thousand dollars ($1,000). Such notice shall state that a petition has been filed and an order made as hereinbefore provided and shall list each estate and item in excess of one thousand dollars ($1,000) and show the amount of the property if money, or a description thereof if other than money, and the name of the owner or claimant and his last known address, if known. Any omission or defect in the giving of such additional notice shall not affect the jurisdiction of the court.

Judgment

If it appears from the facts found or admitted that the State is entitled to the property or any part thereof mentioned in the petition, judgment shall be rendered that title to such property or part thereof, as the case may be, has vested in the State by escheat.

Vesting of title

Within five years after judgment of escheat to the State in any proceeding had under this title, except judgment in proceedings for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, any person not a party or privy to such proceeding may file a petition in the Superior Court of the County of Sacramento, showing his claim or right to the property, or the proceeds thereof. A judgment of escheat to the State rendered pursuant to the provisions of the Alien Land Law, as amended, shall vest both legal and equitable title to the escheated property absolutely in the State, any other provisions of this title notwithstanding.

Costs

No costs of suit shall be allowed against any party in any action or proceeding had under this section.

There shall be set forth in such petition a description of the property, the name of the person last possessed thereof, the name of the person, if any, claiming such property, or any portion thereof, and the facts and circumstances by virtue of which it is claimed the property has escheated.

Upon the filing of such petition, the court must make an order requiring all persons interested in the estate to appear and show cause, if any they have, within 60 days from the date of the order, why such estate should not vest in the State. The people of the State of California do enact as follows:

SECTION 1. Section 2 of the act cited in the title hereof is amended to read:

Sec. 2. The people of any county, or of any portion of a county, whether such portion includes unincorporated territory only or incorporated territory of any city or cities or both such incorporated and unincorporated territory, may organize a municipal water district under the provisions of this act. Such cities need not be contiguous and such unincorporated territory may consist of one or more parcels which need not be contiguous one with the other or with any such city or cities. The inclusion of any city or cities in the formation of such district shall require the inclusion of the entire corporate area of each such city.

Municipal water districts organization.

SEC. 2. Section 3 of said act is amended to read:

Sec. 3. A petition, which may consist of any number of separate instruments, shall be filed with the county clerk of the county in which the proposed municipal water district is located, signed by voters residing within the boundaries of the proposed district equal in number to at least 10 per centum of the number of such voters voting for all candidates for the office of Governor of this State at the last general election prior to the filing of such petition; provided, that where one or more cities are included in such proposed district, such petition must be signed by at least 10 per centum of the voters of each such city so voting at such election. Such petition shall set forth and describe the boundaries of such proposed district, and shall contain a prayer that such proposed district be incorporated under the provisions of this act.

Petition

Within 10 days of the date of the filing of such petition, the county clerk shall examine the same and ascertain whether or not said petition is signed by the requisite number of voters; and if requested by the county clerk, the board of supervisors shall authorize him to employ persons specially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the county clerk has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of

Sufficiency of petition

such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters residing within the boundaries of such proposed district, and within the boundaries of each city included therein, or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

If by the certificate of the county clerk the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within 10 days from the date of such certificate. The county clerk shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of supervisors and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the county clerk, such petition, or such petition as amended, is shown to be sufficient, the county clerk shall present the same to the board of supervisors without delay.

Supplemental petition

If any supplemental petition be filed, all the signatures appended to the petition and to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

After an election for the incorporation of such proposed district the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

If the county in which such proposed district is located shall have a registrar of voters other than the county clerk, upon the filing of the petition herein mentioned with the county clerk, he shall forthwith deliver the same to such registrar of voters, who shall perform the duties herein required to be performed by the county clerk respecting the examination and certification of such petition; and said registrar of voters shall return said petition, immediately upon the completion of such examination, together with his certificate showing the result of such examination, to the county clerk, who shall thereupon present such petition, together with the certificate of the registrar of voters attached thereto to the board of supervisors.

Division of the district

When such petition is presented, the board of supervisors shall make an order dividing the district into five divisions, according to and based upon the population as estimated by the board of supervisors from the register of voters used at the last general election, in such manner as to equalize, as nearly as practicable, the population in the respective divisions. Such divisions shall be numbered first, second, third, fourth, and fifth, and one director, who shall be a resident thereof, shall be elected for each division by the voters thereof and shall take office as hereinafter provided.

When such order dividing the proposed district into five divisions is made, the board of supervisors shall call and provide for the holding of an election to be held in said proposed district for the purpose of determining whether or not the same shall be incorporated and for the purpose of electing the first board of directors if the district is incorporated. The date of the election shall be not less than 90 days nor more than 120 days from the date of adoption of the resolution or ordinance calling the election. The notice of such election shall describe the boundaries of the proposed district and of the divisions thereof as so established and shall state the proposed name of the proposed district (which name shall contain the words "_____ Municipal Water District"), and shall state that the first directors will be elected at such election, who shall take office if the district is incorporated, and shall set forth the names of the candidates for the offices of directors from the respective divisions. Such notice of election shall be published once, not less than one week and not more than four weeks prior to such election in at least one, but not to exceed three newspapers printed and published in said county. Election

At such election the first directors shall be elected and the following measure shall be submitted: "Shall the proposition to organize _____ Municipal Water District under the Municipal Water District Act of 1911 as amended, be adopted?" The candidates shall declare their candidacy and shall be nominated, the election shall be held and conducted, the vote canvassed, the result declared and the certificates of election issued in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. No person shall be entitled to vote at any election under the provisions of this act unless such person possesses all the qualifications required of voters under the Elections Code.

Within seven days after such election the vote shall be canvassed by the board of supervisors. If a majority of the votes cast at such election shall be in favor of organizing such municipal water district, said board shall by an order entered on its minutes declare the territory included within the proposed boundaries duly organized as a municipal water district under the name theretofore designated, and the county clerk shall immediately cause to be filed with the Secretary of State and shall cause to be recorded in the office of the county recorder of the county in which said district is situated, each, a certificate stating that such a proposition was adopted. If a majority of the votes cast at such election are in favor of organizing such district, the persons voted for as directors who received the highest number of votes within the respective divisions shall be duly elected as directors of the district.

Upon the receipt of such last-mentioned certificate the Secretary of State shall, within 10 days, issue his certificate reciting that the municipal water district (naming it) has been duly incorporated according to the laws of the State of California. A copy of such certificate shall be transmitted to and filed with Certificate

the county clerk of the county in which such municipal water district is situated. From and after the date of filing said certificate with the Secretary of State, the district named therein shall be deemed incorporated as a municipal water district, with all the rights, privileges and powers set forth in this act, and necessarily incident thereto.

In case less than a majority of the votes cast are in favor of said proposition the organization fails, but without prejudice to renewing proceedings at any time after six months from date of said election.

Alternative method

Sec. 16. As an alternative to the method of incurring bonded indebtedness authorized by Section 15 of this act, any district organized hereunder is authorized to incur a bonded indebtedness pursuant to the following subdivisions:

(1) Whenever the board of directors deems it necessary for the district to incur a bonded indebtedness which in the opinion of the board will not benefit the whole of the district, the board shall, by resolution adopted by the affirmative vote of at least four directors, so declare and state the purpose for which the proposed debt is to be incurred, the amount of debt to be incurred, and the time and place for a hearing by the board on the questions of whether the whole or only a portion of the district will be benefited by the accomplishment of said purpose and if only a portion of the district will be benefited, which portion will be so benefited. The secretary shall cause notice of said hearing to be given by publishing a copy of the resolution once each week for two weeks prior to the time fixed for the hearing, the last publication to be made not more than four weeks nor less than one week prior to said time. Said publication shall be made in a newspaper printed and published in said district, or, if there is no newspaper printed and published in said district, such notice shall be given by posting a copy of said resolution in three public places within the district at least two weeks but not more than four weeks before the time fixed for said hearing. At the hearing any person interested, including any person owning property within the district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. of the district will be benefited by the accomplishment of the purpose stated in said resolution declaring such necessity. Same

(3) If the board determines that the whole of the district will not be benefited, the resolution shall also describe the portion of the district which will be benefited, in a manner sufficient for identification, which portion of the district described in such resolution shall thereupon constitute and be known as "Improvement District No. ____ of _____ Municipal Water District." After the formation of such improvement district within a municipal water district pursuant to this section, all proceedings for the purpose of a bond election within the improvement district and for the purpose of taxation for the payment of the bonds and interest shall be limited, and shall apply only, to the improvement district. The determination of the board that the whole of the district will be benefited by the bond issue or that only a described portion of the district will be benefited by the bond issue is final and conclusive.

(4) After the board has made its determination of the matters required to be determined by said last mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board by a further resolution shall state the following (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) that the whole, or a portion, as the case may be, of the district will be benefited by incurring the bonded indebtedness, and if only a portion will be benefited, setting forth the description thereof as contained in the resolution referred to in subdivision (3) hereof; (d) the amount of debt to be incurred; (e) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (f) the maximum rate of interest to be paid, which shall not exceed 5 percent per annum; and (g) the measure to be submitted to the voters.

(5) The board of directors shall fix a date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred. It shall be the duty of the board of directors to provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided Such board of directors shall give notice of the holding of such election which notice shall contain the text of the resolution adopted by the board of directors of the district pursuant to subdivision (4) hereof, the designation of precincts which shall include only the portion of the district specified in such resolution, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

In case such election is consolidated with a state or county election, the precincts, polling places, and election officers shall be the same as provided for such state or county election, and it shall be sufficient if the resolution and notice so state.

Such notice shall be published once each week for two weeks, the last publication to be made not less than two weeks nor more than four weeks prior to the date of the proposed election, in at least one newspaper, and not more than three newspapers, published in such district, which newspaper or newspapers shall be designated by the board of directors. If there is no newspaper published in such district, then such notice shall be posted in three public places in such district not less than two weeks nor more than four weeks prior to the date of the proposed election; provided, that if an improvement district in such district is to be benefited, then such notice shall be so posted in three public places within such improvement district.

The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

(6) Any action or proceeding, wherein the validity of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

Sec. 27.3. Uninhabited territory included within any municipal water district may be excluded from such district pursuant to the provisions of this section. For the purposes hereof, territory shall be deemed uninhabited if less than 12 voters reside therein at the time of the filing of the petition for exclusion or the initiation of proceedings by resolution of the board. Incorporated territory lying within the boundaries of any city may be excluded from such district in accordance with the provisions of this section only if upon the exclusion of such uninhabited territory no part of the corporate area of such city will be included in such district. Such uninhabited territory may consist of one or more parcels, which need not be contiguous one with the other.

Same Proceedings

Proceedings for the exclusion of uninhabited territory from any district may be initiated by petition. Such petition,

which may consist of any number of separate instruments, shall be filed with the secretary of the district, signed by the owners of not less than one-fourth of the land in such territory by area and by assessed value as shown on the last equalized assessment roll of the county in which such territory is situated. A guardian, executor, administrator, or any person holding property in a trust capacity under appointment of court, may sign any petition or protest provided for in this section, when authorized by the proper court, which authorization may be made without notice. The last equalized assessment roll of said county is prima facie evidence of the ownership of the land or lands lying within such territory proposed to be excluded. Such petition shall set forth and describe the boundaries of the area proposed to be excluded, shall state the reason for proposing such exclusion, and shall contain a prayer that such area be excluded from such municipal water district pursuant to the provisions of this section.

Same
Notice

The secretary shall present such petition to the board of directors of the district at its next meeting, and said board, without delay, shall pass a resolution giving notice of the proposed exclusion. Said resolution shall state that said petition has been filed, shall set forth and describe the boundaries of the territory proposed to be excluded, shall state that any owner of property within such territory may file with the secretary of the district, at any time prior to the hour set for the hearing thereof, written protest to the exclusion of such territory, and shall fix the time and place of the meeting of the board at which the board will hear such protests.

The board of directors of any district by resolution may initiate proceedings for the exclusion of uninhabited territory from such district. Such resolution shall declare that proceedings have been initiated by the board of directors under the provisions of this section, shall state the reason for proposing such exclusion, shall set forth and describe the boundaries of the territory proposed to be excluded, shall state that any owner of property within such territory may file with the secretary of the district, at any time prior to the hour set for the hearing thereof, written protest to the exclusion of such territory, and shall fix the time and place of the meeting of the board at which the board will hear such protests.

Said hearing shall be commenced not less than 20 nor more than 40 days after the passage of the resolution of the board of directors. The secretary of the district shall cause the text of the resolution to be published once each week for at least two weeks, the last publication to be made not less than one week nor more than four weeks before the time so fixed for the hearing, in at least one, but not to exceed three, newspapers published in the district.

After the date of issuance by the Secretary of State of his certificate reciting the passage of the ordinance approving the exclusion and the exclusion of the uninhabited territory from

the district, the sufficiency of the petition or resolution shall not be subject to judicial review or be otherwise questioned.

Same Protest

At any time prior to the hour set for the hearing of protests, any owner of property within the territory proposed to be excluded may file with the secretary of the district written protest against the exclusion. The protest shall state the name of the owner of the property affected, and the description and area of such property in general terms. At the hearing, which may be adjourned from time to time, the board of directors shall hear and pass upon all protests so filed. If such protests are so filed by the owners of one-half of the value of the territory proposed to be excluded as shown by the last equalized assessment roll of the county, further proceedings shall not be taken. If such protest is not made, the board of directors shall approve or disapprove the exclusion by ordinance. Any ordinance approving such exclusion shall set forth and describe the boundaries of the territory so excluded. If the board of directors disapproves the exclusion, a new proceeding to exclude any of the same territory shall not be initiated under this section for a period of 12 months from the effective date of the ordinance.

Certification

When an ordinance approving exclusion of uninhabited territory becomes effective, the president and secretary of the board of directors shall file with the Secretary of State a certified copy of the ordinance. Upon receipt of the certified copy of the ordinance, the Secretary of State shall, within 10 days, issue his certificate reciting the passage of said ordinance and the exclusion of said area or areas from said district. A copy of said certificate shall be transmitted to, and filed with, the county clerk of the county in which such municipal water district is situated. From and after the date of such certificate, the area or areas named therein shall be deemed excluded from, and shall no longer form a part of, said municipal water district, but the taxable property within such excluded area or areas shall continue taxable by such municipal water district for the purpose of paying the bonded or other indebtedness of such municipal water district outstanding or contracted for at the time of such exclusion and until such bonded or other indebtedness shall have been satisfied, to the same extent that such property would be taxable for such purpose if such exclusion had not occurred.

Notwithstanding the eligibility of any territory for exclusion from a district pursuant to the provisions of this section, the procedure herein prescribed shall not be deemed exclusive and such territory may be excluded from such district as a separate parcel, or as part of a larger parcel, of territory excluded under the provisions of Section 27.2 of this act.

SEC. 27.7. No informality in any proceeding or informality in the conduct of any election, not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate the annexation of territory to, or exclusion of territory from, or the disincorporation of, any municipal water district.

Any action or proceeding, wherein the validity of such annexation or exclusion or disincorporation is denied or questioned, shall be commenced within three months from the date of the certificate of annexation or of exclusion issued by the Secretary of State, or from the date of the order of the board of supervisors declaring the disincorporation, as the case may be; otherwise, said annexation or exclusion or disincorporation, and all proceedings in respect thereto, shall be held to be valid and in every respect legal and incontestable.

For this purpose, the board of directors may estimate the population by reference to the register of voters used at the last general election, and may relocate the boundary lines of the respective divisions without regard to the places of residence of the directors then in office. No such change in the division lines shall be made within the four months immediately preceding the election of any director nor shall such change in division lines work a forfeiture of office of any director. Whenever such change is made in the division lines, each director then in office, and until his office becomes vacant by expiration of his term or otherwise, shall continue to be the director for the respective Relocation of divisions

water for domestic and municipal use which can be obtained only from The Metropolitan Water District of Southern California, a district duly organized and existing under the Metropolitan Water District Act of this State, but arrangements for obtaining said water by said inhabitants are dependent upon the annexation to said The Metropolitan Water District of Southern California of the corporate area of a municipal water district to be formed under the Municipal Water District Act of 1911 of this State, which act is sought to be amended by the within and foregoing act; this cannot be brought about effectually unless and until the amendments to the Municipal Water District Act of 1911 provided by the within and foregoing amendatory act shall have become effective.

Application of provisions

CHAPTER 64

An act to amend Section 736.3 of the Agricultural Code, relating to marketing plans.

[Approved by Governor April 10, 1951. Filed with Secretary of State April 10, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 736.3 of the Agricultural Code is amended to read:

736.3. Any stabilization and marketing plan shall contain the following provisions:

Stabilization and marketing plan

(a) Provisions for prohibiting distributors and retail stores from engaging in the unfair practices hereinafter set forth:

Required provisions
Unfair practices

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

(2) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer.

(3) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions.

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Sections 17500, 17501, and 17502 of the Business and Professions Code.

(5) The purchase of any fluid milk in excess of 200 gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period. The quantity of such milk to be paid for as Class 1 in pounds of milk or pounds of milk fat or gallons of milk, and the price to be paid for all milk received, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment for such fluid milk, which shall not be later than the last day of the month following the month during which the fluid milk was purchased, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 3, as said class is defined in Section 735.3 of this code. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution.

(6) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(7) The payment of a lesser price by a distributor to any producer for fluid milk or fluid cream which is distributed to any person, including agencies of the federal, state or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk or fluid cream for said marketing area.

Minimum milk prices

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however,

that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk; and provided further, the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk.

Any stabilization and marketing plan may contain the following provisions: Stabilization and marketing plan

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured, the volume of fluid milk received from such producer in pounds of milk, the milk-fat test of such milk and the amount of fluid milk in milk-fat pounds paid for in the several classes and the prices paid for the various classes for each month. Optional provisions. Distributors' report

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream; provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above costs incurred in producing and marketing manufacturing milk; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream. Minimum prices

(e) Provisions whereby the director may provide methods for the establishment of minimum prices for fluid milk or fluid milk for fluid cream received within a marketing area regardless of whether such fluid milk or fluid milk for fluid cream is subsequently sold or distributed within or without such marketing area or within or without the jurisdiction of the State of California. Such stabilization and marketing plans may provide for the establishment of prices for fluid milk or fluid milk for fluid cream whether or not such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect. The stabilization and marketing plan may provide that producers shall be paid not less than the minimum prices established for the marketing area wherein such fluid milk or fluid milk for fluid cream is ultimately sold or distributed, and may further provide that in the event such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in any place within the jurisdiction of the State of California where no stabilization and marketing plan is in effect, then such fluid milk or fluid milk for fluid cream may be paid by the distributor to the producer thereof at not less than the average price paid by distributors to producers Same

for fluid milk or fluid milk for fluid cream of similar grade and quality at the plants in the vicinity where such fluid milk or fluid milk for fluid cream is so sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to this section.

The director may issue and make effective provisions establishing minimum prices to be paid by distributors to producer-distributors for milk which is not used by the purchasing distributor as Class 1 milk and which provisions may provide that such milk if used in classes other than Class 1 by the purchasing distributor may be paid for at the minimum prices established by the director for such other usage but which shall not be less than the prices as found by the director to be paid by manufacturing milk plants in or adjacent to the area using milk for similar purposes. Such prices shall remain in effect only for the period during which, as determined by the director, there is a surplus of producer-distributor milk.

Uniform prices

(f) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk; provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five (65) percent of the total volume of fluid milk used for pasteurization purposes and who represent not less than sixty-five (65) percent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five (65) percent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

No provision of any pooling program shall prevent any distributor from paying premiums for quality; provided, all producers supplying fluid milk of like quality to such distributor are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the

blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. The deductions herein prescribed are in addition to any other deductions prescribed by this chapter.

Sales stimulation, etc. program

(g) Provision whereby sales stimulation or consumer educational programs may be formulated and administered to increase the consumption of fluid milk and fluid cream, or other dairy products; provided, that such programs shall be carried on without reference to a particular brand or trade name; and provided further, that no such sales stimulation or consumer educational program shall be carried on which shall make use of false or unwarranted claims on behalf of such products or which disparages the quality, value, sale or use of any fluid milk or fluid cream or any other agricultural commodity authorized by law to be marketed within such marketing area.

Before any stabilization and marketing plan may provide for sales stimulation and consumer educational programs, not less than sixty-five (65) percent of the producers and who produce not less than sixty-five (65) percent of the total volume of fluid milk consumed in any marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan. If such a program is requested by distributors it shall be necessary that not less than sixty-five (65) percent of the total number of distributors and who distribute not less than sixty-five (65) percent of the total volume of fluid milk for consumption in the marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan.

The petition shall bear the signatures of petitioners, their addresses and the approximate daily volume of fluid milk handled in gallons and milk-fat pounds and the type of product distributed, together with the estimated cost of the program each month and the number of months the program is to continue in operation.

A sales stimulation and consumer educational program instituted by producers shall be financed by all producers supplying fluid milk to the marketing area. Such program, if instituted by distributors, shall be financed by all distributors supplying fluid milk to the marketing area. If such program is

instituted by both producers and distributors, both producers and distributors shall finance the program equally.

If the program is instituted by producers the director is hereby empowered to require producers to pay assessments of not more than two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills ($0.007) for each 10 gallons of fluid milk received by distributor, including the production of distributors who are also producers.

If the program is instituted by distributors the director is hereby empowered to require distributors to pay assessments of not more than two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills ($0.007) for each 10 gallons of fluid milk received by distributors, including the production of distributors who are also producers.

If the program is instituted by both producers and distributors, the director is hereby empowered to require both producers and distributors to pay assessments for the purpose of providing funds for formulating, administering, and carrying on such program. The assessments to be paid by distributors shall not exceed two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills ($0.007) for each 10 gallons of fluid milk received by distributors including the production of distributors who are likewise producers. Assessments of not more than two mills ($0.002) per pound milk fat, or if the program is instituted upon a gallonage basis, not more than seven mills ($0.007) for each 10 gallons of fluid milk produced by producers and received by distributors, shall likewise be paid by producers. In no instance shall the combined assessments exceed four mills ($0.004) per pound milk fat, or if the program is instituted upon a gallonage basis not more than fourteen mills ($0.014) for each 10 gallons of fluid milk received from producers and processed by distributors for distribution in the marketing area in the form of whole milk, fluid cream, or manufactured dairy products derived from fluid milk.

Same Hearing

Before a program may be instituted a public hearing shall be called by the director, the procedure for which public hearing is to be the same as that required for the institution of a stabilization and marketing plan for fluid milk. At such public hearing testimony and evidence shall be taken to determine the necessity of such a program, the estimated costs of the program, the time during which the program is to be continued, and such other matters as are necessary in the institution of the program.

If, after public hearing and consideration of the testimony and evidence presented at said hearing, the director finds that a sales stimulation and consumer educational program will tend to effectuate the purposes of this chapter, he shall issue an order making effective such program Such order shall state the number of months the program shall continue in operation, the rate of assessment per pound milk fat or per gallon to be

paid by those petitioning for the program, the names, addresses and business locations of the persons appointed to administer the program and such order may contain other provisions which are necessary and incidental to the operation of the program.

Selection of program administrator

The person named in the order to administer the program shall be selected by the director in the following manner and in the following number:

(a) If the program was instituted by producers the director shall name five representative producers from nominations made at the public hearing by the petitioners.

(b) If the program was instituted by distributors the director shall name five representative distributors from nominations made at the public hearing by the petitioners.

(c) If the program was instituted by both producers and distributors the director shall name three representative producers from nominations made at the public hearing by the petitioning producers and three representative distributors from nominations made at the public hearing by petitioning distributors.

(d) Distributors who are also producers shall be eligible to nomination for service on, and may be named by the director to serve on the committee to administer any program for which they will be required to pay assessments, and at least one of the persons named by the director to serve on any committee to administer any program for which distributors who are also producers will be required to pay assessments shall be a distributor who is also a producer.

All programs shall be administered by the persons named in the order of the director making the program effective, and shall be administered subject to the approval of the director. All amounts required to be paid to the director under this section by producers or distributors shall be paid to such director on or before the fifteenth day of the month following the month during which such fluid milk was received by distributors and all distributors receiving milk from producers in any area where the provisions of this section are in effect whereby the director is empowered to require payments from producers shall deduct and pay to the director such payments provided for under this section from the payments due for such distributors to such producers for fluid milk.

Termination of program

Upon the termination of any program, if there are any obligations arising thereunder, the final accrual or ascertainment of which requires further acts by any producer or distributor or by the persons appointed to administer the program or by the director, the power or duty to perform such further acts shall continue, notwithstanding such termination.

Deposit of money

All moneys received by the director pursuant to this section shall be deposited in the Department of Agriculture Fund in the State Treasury allocated to each separate marketing area from which they are collected and disbursed only for the purposes specified subject to the approval of the director.

Any money received by the director in excess of the amount required for any program shall be returned at such time as the director may determine on a pro-rata basis to the persons from whom such funds were collected.

CHAPTER 65

SECTION 1. Section 9300 of the Government Code is amended to read:

Legislators' compensation

9300. The Members of the Legislature shall receive as compensation for their services three thousand six hundred dollars ($3,600) annually, during the term for which they are elected, payable at the rate of three hundred dollars ($300) per month.

Declaration

SEC. 2. It is hereby declared that this act is not intended as a change in the present law, but as a declaration of existing law, and shall apply to compensation payable to Members of the Legislature during the 1951 calendar year.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. A statement of the facts constituting such necessity is as follows:

The approval by the people of Assembly Constitutional Amendment No. 84 at the election on November 8, 1949, increased the compensation of Members of the Legislature and thus by implication amended Section 9300 of the Government Code relating to the payment thereof. In order to provide for the regular payment of the salaries of the Members of the Legislature during this session of the Legislature and to protect their rights thereto, it is essential that the provisions of Section 9300 of the Government Code be amended immediately to conform with the provisions of the Constitution and to clarify its provisions in order to resolve any questions that may exist as to the period for which compensation is to be paid and the manner of payment.

CHAPTER 66

An act to add Section 762.95 to the Agricultural Code, relating to inspection of canning tomatoes, making an appropriation for the purchase of color-meters for that purpose and

providing for the return of the money so appropriated, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 10, 1951. Filed with Secretary of State April 10, 1951.] In effect immediately

The people of the State of California do enact as follows:

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The testing of tomatoes for conformity with the color requirements established by law is inaccurate at the present time because it is done by individuals by comparing the color of the tomatoes with a color chart. Devices have recently been perfected whereby the color testing can be done without the possibility of human error. Accurate color determination is essential to the proper marketing of canning tomatoes and both the canning industry and the producers will benefit by the use of automatic devices. Under existing conditions the devices mentioned herein may not be available much longer and in any event if the benefits derived from the use of such devices are to be available during the growing season of this calendar year this act must be put into immediate effect.

CHAPTER 67

An act to amend Section 2203 of the Education Code, relating to the traveling expenses of representatives of governing boards of school districts.

Right of public corporation to lease sewers, etc

37392.1. A city, district, or other public corporation, acting individually or jointly with others, may lease sewers and sewage treatment and disposal facilities, and any land, rights of way, or other property appurtenant thereto, to any other city or to any county, city and county, municipal corporation, public district, sanitation district or other public corporation, or any two or more of them acting jointly, for any term or in perpetuity. A city, district or other public corporation, acting individually or jointly with others, may grant to any other city or to any county, city and county, municipal corporation, sanitation district, public district or other public corporation, or any two or more of them acting jointly, a perpetual right of use, or right of use for any term, in any such facilities, land or other property.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The ability of certain sanitation districts to provide and complete sewage disposal facilities urgently needed for the public health and safety is dependent upon the acquisition by such districts of the use of facilities now owned by cities and sanitary districts, by lease or by grant of rights of use, in perpetuity or for substantial terms of years. Because of doubt as to the present power of such cities and sanitary districts to make leases or grants of rights of use for the required periods or in perpetuity, it is necessary that this act go into effect immediately.

Definitions

17019.7. The terms "counsel for the Franchise Tax Board," and "Franchise Tax Counsel" as used in this part, means attorney or attorneys appointed or employed by the Franchise Tax Board and acting subject to the approval and under the supervision of the Attorney General.

Back pay

17058. If the amount of the back pay received or accrued by an individual during the taxable year exceeds 15 per centum of the gross income of the individual for such year, the part of the tax attributable to the inclusion of such back pay in gross income for the taxable year shall not be greater than the aggregate of the increases in the taxes which would have resulted from the inclusion of the respective portions of such back pay in gross income for the taxable years to which such portions are respectively attributable, as determined under regulations prescribed by the Franchise Tax Board.

"Back pay"

17059. For the purposes of Section 17058, "back pay" means (A) remuneration, including wages, salaries, retirement pay, and other similar compensation, which is received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which would have been paid prior to the taxable year except for the intervention of one of the following events: (i) bankruptcy or receivership of the employer; (ii) dispute as to the liability of the employer to pay such remuneration, which is determined after the commencement of court proceedings; (iii) if the employer is the United States, a state, a territory, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any of the foregoing, lack of funds appropriated to pay such remuneration; or (iv) any other event determined to be similar in nature under regulations prescribed by the Franchise Tax Board; and (B) wages or salaries which are received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which constitute retroactive wage or salary increases ordered, recommended, or approved by any federal or state agency, and made retroactive to any period prior to the taxable year; and (C) payments which are received or accrued during the taxable year as the result of an alleged violation by an employer of any state or federal law relating to labor standards or practices, and which are determined under regulations prescribed by the Franchise Tax Board to be attributable to a prior taxable year. Amounts not includible in gross income shall not constitute "back pay."

Method of computing income

17102.2. If the taxpayer exercises the election provided for in Section 17102.1 for any taxable year beginning after December 31, 1946, then the method of computing income so

adopted shall be adhered to with respect to all subsequent taxable years unless with the approval of the Franchise Tax Board a change to a different method is authorized.

"Recovery exclusion"

17136. As used in Section 17132, "recovery exclusion," with respect to a bad debt, prior tax, or delinquency amount, means the amount, determined in accordance with regulations prescribed by the Franchise Tax Board, of the deductions or credits allowed, on account of such bad debt, prior tax, or delinquency amount, which did not result in a reduction of the taxpayer's tax under this part, reduced by the amount excludible in previous taxable years with respect to such debt, tax or amount under this section.

Indebtedness canceled, etc

17191. If the indebtedness of a taxpayer is canceled or forgiven in whole or in part without payment, the amount so canceled or forgiven constitutes income to the extent the value of the property of the taxpayer exceeds his liabilities immediately after the cancellation or forgiveness. The remainder of the amount of indebtedness so canceled or forgiven, if any, shall be applied in reduction of the basis of the assets to the extent the basis thereof exceeds the value thereof immediately after the cancellation or forgiveness. The reduction shall be made in accordance with regulations prescribed by the Franchise Tax Board.

Gross income allocation, etc

17214. Gross income from sources within and without this State shall be allocated and apportioned under rules and regulations prescribed by the Franchise Tax Board.

Deductions not allowed

17302. The deductions permitted by Section 17301 shall not be allowed to the extent that they are connected with the production of income not taxable under this part. Proper apportionment and allocation of such deductions with respect to taxable and nontaxable income shall be determined under rules and regulations prescribed by the Franchise Tax Board.

Deduction of interest on indebtedness

17304. In computing net income there shall be allowed as a deduction all interest paid or accrued within the taxable year on indebtedness of the taxpayer. However, no deduction shall be allowed (a) to the extent that it is connected with income not taxable under this part; or (b) for interest paid or accrued within the taxable year on indebtedness incurred or continued to purchase or carry obligations, the interest upon which is wholly exempt from the tax imposed by this part. The proper apportionment and allocation of the deduction with respect to taxable and nontaxable income shall be determined under rules and regulations prescribed by the Franchise Tax Board.

Deductions Losses

17306. In computing net income there shall be allowed as a deduction losses sustained during the taxable year and not compensated for by insurance or otherwise:

(a) If incurred in trade or business; or

(b) If incurred in any transaction entered into for profit, though not connected with the trade or business; or

(c) Of property not connected with the trade or business, if the loss arises from fires, storms, shipwreck, or other casualty, or from theft; or

(d) If incurred by reason of the destruction or seizure of property, on or after December 7, 1941, in the course of military or naval operations by the United States or any other country engaged in the present war, subject to the rules and regulations prescribed by the Franchise Tax Board.

The basis for determining the amount of deduction for losses sustained, to be allowed under this section, shall be the adjusted basis provided in Article 5 of Chapter 6 of this part for determining the loss from the sale or other disposition of property.

Wash sales

17309. In the case of any loss claimed to have been sustained from any sale or other disposition of shares of stock or securities where it appears that, within a period beginning 30 days before the date of the sale or disposition and ending 30 days after that date, the taxpayer has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law) or has entered into a contract or option so to acquire, substantially identical stock or securities, then no deduction for the loss shall be allowed.

If the amount of stock or securities acquired (or covered by the contract or option to acquire) is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be determined under rules and regulations prescribed by the Franchise Tax Board.

If the amount of stock or securities acquired (or covered by the contract or option to acquire) is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility of the loss shall be determined under the rules and regulations prescribed by the Franchise Tax Board.

Worthless debts

17310. In computing net income there shall be allowed as a deduction debts which become worthless within the taxable year or, in the discretion of the Franchise Tax Board, a reasonable addition to a reserve for bad debts. When satisfied that a debt is recoverable only in part, the Franchise Tax Board may allow the debt as a deduction in an amount not in excess of the part charged off within the taxable year as a deduction. If a debt was actually worthless prior to January 1, 1943, but was not ascertained to be worthless and charged off prior to that date, a deduction may be taken therefor during the first taxable year ending after December 31, 1942; if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt which was charged off, regardless of whether or not claimed as a deduction in any prior year. This section does not apply to a debt evidenced by a security as defined in Section 17312.

Exhaustion, etc., of property

17313. In computing net income there shall be allowed as a deduction a reasonable allowance for the exhaustion, wear and tear of property used in the trade or business or of property

held for the production of net income, including a reasonable allowance for obsolescence. A taxpayer may elect to claim a deduction for amortization of emergency facilities, as defined by Section 124 of the Internal Revenue Code as amended, under regulations prescribed by the Franchise Tax Board. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each.

Depletion, etc., of mines, etc

17314. In computing net income there shall be allowed as a deduction, in the case of mines, oil and gas wells, other natural deposits, and timber, a reasonable allowance for depletion and for depreciation of improvements, according to the peculiar conditions in each case; such reasonable allowance in all cases to be made under rules and regulations prescribed by the Franchise Tax Board. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, the prior estimate (but not the basis for depletion) shall be revised and the allowance under this section for subsequent taxable years shall be based upon the revised estimate

In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each.

The percentage of depletion allowable under this section shall be computed in accordance with the provisions of Sections 17816 and 17817.

Contributions, etc

17316. Deductions for contributions or gifts shall be allowed to an amount which in all cases listed in Section 17315 combined does not exceed 15 per centum of the taxpayer's adjusted gross income. The contributions or gifts shall be allowed as deductions only if verified under rules and regulations prescribed by the Franchise Tax Board

17318 4. The determinations required under Sections 17318.2 and 17318.3 shall be made:

(a) In accordance with the method of amortizing bond premiums regularly employed by the holder of the bond, if that method is reasonable;

(b) In all other cases, in accordance with regulations prescribing reasonable methods of amortizing bond premiums, prescribed by the Franchise Tax Board.

Amortizable bond premium

17318.7. The amount of the amortizable bond premium for the taxable year shall be allowed as a deduction only if a taxpayer has elected to claim a deduction. The election shall be made in accordance with such regulations as the Franchise Tax Board shall prescribe If an election is made with respect to any bond, it shall also apply to all such bonds held by the taxpayer at the beginning of the first taxable year to which the election applies and to all bonds thereafter acquired by him, and shall be binding for all subsequent taxable years with respect to all bonds of the taxpayer, unless, upon application by the taxpayer, the Franchise Tax Board permits him, subject to such conditions as the Franchise Tax Board deems necessary, to revoke the election.

"Tenant-stockholder"

17320.5. As used in Section 17320, "tenant-stockholder" means an individual who is a stockholder in a cooperative apartment corporation, and whose stock is fully paid-up in an amount not less than an amount shown to the satisfaction of the Franchise Tax Board as bearing a reasonable relationship to the portion of the value of the corporation's equity in the building and the land on which it is situated, which is attributable to the apartment which such individual is entitled to occupy.

Method of accounting

17322.5. Sections 17321 to 17322.3, inclusive, shall not apply in respect of any contract if the taxpayer shows to the satisfaction of the Franchise Tax Board that a different method of accounting for the amount of the payment, repayment, or disallowance clearly reflects income, and in such case the payment, repayment, or disallowance shall be accounted for with respect to the taxable year provided for under that method.

Claim in abatement

17322.9. If prior to the payment of the last installment of tax for the taxable year the taxpayer becomes entitled to the exclusions or deductions provided in Sections 17321 to 17322.5, inclusive, for its taxable year, the taxpayer may, under regulation prescribed by the Franchise Tax Board, file a claim in abatement of any unpaid tax or portion thereof, but not in excess of the reduction in tax resulting from the application of these sections

Same

17322.11. In any case in which a claim in abatement is filed pursuant to Section 17322 9, and the Franchise Tax Board makes an abatement, the tax disclosed by the original return shall, for the purpose of Article 2 of Chapter 11 of this part, be deemed to be reduced by the amount of the tax abated.

Employee retirement trust Amount deductible

17324.2. If the taxable year ends within or with a taxable year of the trust for which the trust is exempt under Article 3 of Chapter 8, the amount deductible is:

(a) An amount not in excess of 5 percent of the compensation otherwise paid or accrued during the taxable year to all the employees under the trust, but the amount may be reduced for future years if found by the Franchise Tax Board upon periodical examinations at not less than five-year intervals to be more than the amount reasonably necessary to provide the

remaining unfunded cost of past and current service credits of all employees under the plan, plus

(b) Any excess over the amount allowable under (a) necessary to provide with respect to all of the employees under the trust the remaining unfunded cost of their past and current service credits distributed as a level amount or a level percentage of compensation, over the remaining future service of each such employee, as determined under regulations prescribed by the Franchise Tax Board. However, if the remaining unfunded cost with respect to any three individuals is more than 50 percent of the remaining unfunded cost, the amount of the unfunded cost attributable to such individuals shall be distributed over a period of at least five taxable years.

Alternative deduction

17324.3. In lieu of the amounts allowable under Section 17324.2, the amount deductible may be

(a) An amount equal to the normal cost of the plan, as determined under regulations prescribed by the Franchise Tax Board, plus

(b) If past service or other supplementary pension or annuity credits are provided by the plan, an amount not in excess of 10 percent of the cost which would be required to completely fund or purchase the pension or annuity credits as of the date when they are included in the plan, as determined under regulations prescribed by the Franchise Tax Board, except that in no case shall a deduction be allowed for any amount (other than the normal cost) paid in after such pension or annuity credits are completely funded or purchased.

Standard deduction

17327. (a) If the adjusted gross income shown on the return is five thousand dollars ($5,000) or more, the standard deduction shall be allowed only if the taxpayer so elects in his return, and the Franchise Tax Board shall by regulations prescribe the manner of signifying such election in the return.

(b) If the adjusted gross income shown on the return is less than five thousand dollars ($5,000), the standard deduction shall be allowed only if the taxpayer elects in the manner prescribed in Section 17053.5 to pay the tax imposed by that section.

(c) If the taxpayer does not signify, in the manner prescribed by paragraphs (a) or (b), his election to take the standard deduction, it shall not be allowed. If he does so signify, such election shall be irrevocable.

(d) If the adjusted gross income shown on the return is five thousand dollars ($5,000) or more, but the correct adjusted gross income is less than five thousand dollars ($5,000), then an election by the taxpayer under paragraph (a) to take the standard deduction shall be considered as an election to pay the tax imposed by Section 17053.5; and his failure to make under paragraph (a) an election to take the standard deduction shall be considered his election not to pay the tax imposed by Section 17053.5. If the adjusted gross income shown on the return is less than five thousand dollars ($5,000) but the correct adjusted gross income is five thousand dollars ($5,000) or more, then an

election by the taxpayer under paragraph (b) to pay the tax imposed by Section 17053 5 shall be considered as his election to take the standard deduction; and his failure to elect under paragraph (b) to pay the tax imposed by Section 17053.5 shall be considered his election not to take the standard deduction.

Property deemed destroyed

17330.1. Property described in Section 17330 shall be deemed to have been destroyed or seized on a date chosen by the taxpayer in the manner provided in Section 17333, which falls between:

(a) The latest date, as established to the satisfaction of the Franchise Tax Board, on which that property may be considered as not destroyed or seized, and

(b) The earliest date, as established to the satisfaction of the Franchise Tax Board, on which that property may be considered as having already been destroyed or seized.

Same

17330.3. The date specified in Section 17330.1 (a) shall not be later than the latest date determined by the Franchise Tax Board as the date on which that area was under the control of the United States or a country not at war with the United States, and the date specified in Section 17330 1 (b) shall not be later than the earliest date determined by the Franchise Tax Board as the date on which that area may be considered under the control of the country which is at war with the United States.

Basis of corporate assets

17332 Under regulations prescribed by the Franchise Tax Board, a taxpayer who owns 100 percent, excluding qualifying shares, of each class of stock of a corporation may elect to determine the worthlessness of his interest, described in Section 17331, in or with respect to the property of the corporation, without regard to the amount of the property of that corporation which would be excluded under Section 17349 in determining the adjusted basis of all the assets of the corporation for the purposes of Sections 17348, 17349 and 17349.5, but that amount shall be treated under Section 17334 as a recovery by the taxpayer in the taxable year with respect to such interest.

Choice of date

17333 The taxpayer's choice of a date under Sections 17326, 17327, 17328 and 17330 shall be effective only if made within the time and in the manner as may be prescribed by regulations prescribed by the Franchise Tax Board

Destroyed, etc., property

17335. In the case of any property or interest in or with respect to property deemed to be destroyed or seized under this article, the taxpayer may choose to decrease the amount of the loss by all obligations or liabilities of the taxpayer with respect to that property or interest discharged or satisfied out of the property or interest upon its destruction or seizure, if the Franchise Tax Board is satisfied that those obligations or liabilities are so discharged or satisfied in a subsequent taxable year, or that the taxpayer is unable to determine whether or not those obligations or liabilities are in fact discharged or satisfied.

Same Loss

17336. No loss shall be deemed to have been sustained upon the destruction or seizure of the property or interest to the

extent that it is compensated for by the discharge or satisfaction of obligations and liabilities of the taxpayer out of the property or interest in the taxable year in which the destruction or seizure is deemed to have occurred. The taxpayer's choice under this article shall be effective only if made within the time and in the manner as may be prescribed by regulations prescribed by the Franchise Tax Board.

Unadjusted basis of property recovered

17347. Upon application of the taxpayer, the aggregate of the bases, determined under Section 17346, of any properties recovered, in respect of properties considered under Sections 17325 to 17333, inclusive, as destroyed or seized may be allocated among the properties so recovered in such manner as the Franchise Tax Board may determine under regulations prescribed by it, and the amounts so allocated to any property so recovered shall be the unadjusted basis of the property in lieu of the unadjusted basis of the property determined under Section 17346.

Loss on liquidation of corporation

17348. If: (a) A taxpayer owns not less than 50 percent of each class of stock of a corporation; and

(b) That corporation has property described in Sections 17325 to 17329, inclusive, as destroyed or seized; and

(c) The adjusted basis for determining loss of that property is at least 75 percent of the adjusted basis for determining loss of all the property of that corporation; and

(d) That corporation completely liquidates within one year after that property is deemed to be destroyed or seized, or by December 31, 1943, whichever is later; and

(e) The liquidation is accomplished by distributing all the assets which it is able to distribute and all its rights to assets which it is not able to distribute, including the right to the recovery of the property described in Sections 17325 to 17329, inclusive;

Then that part of the loss by the taxpayer on the liquidation which would be attributable to the destruction or seizure of the property, as established to the satisfaction of the Franchise Tax Board, shall be treated for the purposes of this part as a loss by the taxpayer upon the destruction or seizure of the part of the stock or other interest of the taxpayer to which such loss is allocable That part of the stock or other interest of the taxpayer shall be treated for the purposes of Sections 17334 to 17347, inclusive, as property described in Sections 17330, 17331 and 17332.

Determination of allowable deduction

17350. The determination, for the purposes of Section 17348, as to whether and to what extent an allowable deduction on account of the destruction or seizure of property described in Sections 17325 to 17333, inclusive, did or did not result in a reduction of any tax of the taxpayer under this chapter shall be made in accordance with regulations prescribed by the Franchise Tax Board.

No deduction

17351. In computing net income no deduction shall in any case be allowed in respect of:

(a) Personal, living, or family expenses, except extraordinary medical expenses deductible under Sections 17319, 17319.3, and 17319.5.

(b) Any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or estate, except, in the case of a taxpayer engaged in the business of farming, expenditures incurred for the purpose of soil and water conservation and the prevention of erosion within the meaning of subsection (b) of Section 17301.

(c) Any amount expended in restoring property or in making good the exhaustion thereof for which an allowance is or has been made.

(d) Premiums paid on any life insurance policy covering the life of any officer or employee, or of any person financially interested in any trade or business carried on by the taxpayer, when the taxpayer is directly or indirectly a beneficiary under the policy.

(e) Any amount otherwise allowable as a deduction which is allocable to one or more classes of income (whether or not any amount of income of that class or classes is received or accrued) wholly exempt from the taxes imposed by this part.

(f) Any amount paid or accrued on indebtedness incurred or continued to purchase a single premium life insurance or endowment contract. For the purposes of this subsection, if substantially all the premiums on a life insurance or endowment contract are paid within a period of four years from the date of which such contract is purchased, such contract shall be considered a single premium life insurance or endowment contract; or

(g) Amounts paid or accrued for such taxes and carrying charges as, under regulations prescribed by the Franchise Tax Board, are chargeable to capital account with respect to property, if the taxpayer elects, in accordance with such regulations, to treat those taxes or charges as so chargeable.

Nonresident

17381. In the case of a nonresident taxpayer the deductions allowed by Article 1 of this chapter shall unless otherwise provided in this article be allowed only to the extent that they are connected with the income arising from sources within this State and taxable under this part to a nonresident taxpayer. The proper apportionment and allocation of the deductions with respect to sources of income within and without the State shall be determined under rules and regulations prescribed by the Franchise Tax Board.

Inventories

17501. Whenever in the opinion of the Franchise Tax Board the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by the taxpayer upon such basis as the Franchise Tax Board may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting the income.

17503. The method described in Section 17502 may be used Same

(a) Only in inventorying goods (required under Section 17501 to be inventoried) specified in an application to use such method filed at such time and in such manner as the Franchise Tax Board may prescribe; and

(b) Only if the taxpayer establishes to the satisfaction of the Franchise Tax Board that the taxpayer has used no procedure other than that specified in subdivisions (b) and (c) of Section 17502 in inventorying to ascertain the income, profit, or loss of the first taxable year for which the method described in Section 17502 is to be used, for the purpose of a report or statement covering the taxable year to shareholders, partners, or other proprietors, or to beneficiaries, or for credit purposes.

17504. The change to, and the use of, the described method shall be in accordance with such regulations as the Franchise Tax Board may prescribe as necessary in order that the use of the method may clearly reflect income. Same

17506. If a taxpayer, having complied with Section 17503, uses the method described in Section 17502 for any taxable year, that method shall be used in all subsequent taxable years unless Same

(a) With the approval of the Franchise Tax Board a change to a different method is authorized; or

(b) The Franchise Tax Board determines that the taxpayer has used for any such subsequent taxable year some procedure other than that specified in subdivision (b) of Section 17502 in inventorying the goods specified in the application to ascertain the income, profit, or loss of such subsequent taxable year for the purpose of a report or statement covering such taxable year to shareholders, partners, or other proprietors, or beneficiaries, or for credit purposes, and requires a change to a method different from that prescribed in Section 17502 beginning with such subsequent taxable year or any taxable year thereafter.

In either of the above cases, the change to, and the use of, the different method shall be in accordance with such regulations as the Franchise Tax Board may prescribe as necessary in order that the use of such method may clearly reflect income.

17508. The net income of the taxpayer otherwise determined for the year of involuntary liquidation shall be adjusted according to the provisions of Sections 17509 and 17510: Involuntary liquidation

(a) If, for any taxable year beginning after December 31, 1942, and prior to the termination of the present war as proclaimed by the President of the United States, the closing inventory of a taxpayer inventorying goods under the method provided in this section reflects a decrease from the opening inventory of goods for this year; and

(b) If, at the time of the filing of the taxpayer's income tax return for such year, the taxpayer elects to have the provisions of this section apply and so notifies the Franchise Tax Board; and

(c) If, at the time of such election, it is established to the satisfaction of the Franchise Tax Board, in accordance with rules and regulations prescribed by the Franchise Tax Board, that such decrease is attributable to the involuntary liquidation of the inventory as defined in Section 17507; and

(d) If the closing inventory of a subsequent taxable year, ending not more than three years after the termination of the present war as proclaimed by the President of the United States, reflects a replacement, in whole or in part, of the goods so previously liquidated.

Adjustment

17514. If, at the time of the mailing of the notice of proposed additional assessment or the filing of the claim for refund, the adjustment is so prevented, then the amount of the adjustment authorized by this article shall be limited to the increase or decrease of the tax imposed by this part previously determined for the taxable year which results solely from the effect of Sections 17508 to 17510, inclusive. The tax previously determined shall be ascertained in accordance with rules and regulations prescribed by the Franchise Tax Board.

Distribution, etc., of gross income or deductions

17521. In any case of two or more persons, organizations, trades, or businesses (whether or not incorporated, whether or not organized in this State, and whether or not affiliated) owned or controlled directly or indirectly by the same interests, the Franchise Tax Board may distribute, apportion, or allocate gross income or deductions between or among such organizations, trades, or businesses, if it determines that such distribution, apportionment, or allocation is necessary (a) in order to prevent evasion of taxes of any taxpayer or (b) clearly to reflect the income of any of such persons, organizations, trades, or businesses where the income of any taxpayer is affected thereby in such manner as to permit evasion of taxes.

Installment plan payments

17531. Under regulations prescribed by the Franchise Tax Board a person who regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any taxable year that proportion of the installment payments actually received in that year which the gross profit realized or to be realized when payment is completed, bears to the total contract price.

Sale etc. of property

17532. In the case (a) of a casual sale or other casual disposition of personal property (other than property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year) for a price exceeding one thousand dollars ($1,000), or (b) of a sale or other disposition of real property, if in either case the initial payments do not exceed 30 percent of the selling price, the income may, under regulations prescribed by the Franchise Tax Board, be returned on the basis and in the manner prescribed by this article.

"Initial payments"

As used in this section, "initial payments" means the payments received in cash or property other than evidences of indebtedness of the purchaser during the taxable period in which the sale or other disposition is made.

Transmission at death

17536. Sections 17534 and 17535 do not apply to the transmission at death of installment obligations if there is filed with the Franchise Tax Board at such time as it may by regulation prescribe, a bond in such amount and with such sureties as it may deem necessary, conditioned upon the return as income, by the person receiving any payment on such obligations, of the same proportion of such payment as would be returnable as income by the decedent if he had lived and had received such payment.

Accounting period

17556 The net income shall be computed upon the basis of the taxpayer's annual accounting period (fiscal year or calendar year, as the case may be) in accordance with the method of accounting regularly employed in keeping the books of the taxpayer. If no such method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made in accordance with such method as in the opinion of the Franchise Tax Board does clearly reflect the income.

Change in basis of computation

17558. If a taxpayer, with the approval of the Franchise Tax Board, changes the basis of computing net income from fiscal year to calendar year, a separate return shall be made for the period between the close of the last fiscal year for which a return was made and the following December 31st. If the change is from calendar year to the fiscal year, a separate return shall be made for the period between the close of the last calendar year for which a return was made and the date designated as the close of the fiscal year. If the change is from one fiscal year to another fiscal year, a separate return shall be made for the period between the close of the former fiscal year and the date designated as the close of the new fiscal year

Separate return on change

17559. Where a separate return is made under Section 17558 on account of a change in the accounting period, and in all other cases where a separate return is required or permitted by regulations prescribed by the Franchise Tax Board to be made for a fractional part of a year, the income shall be computed on the basis of the period for which the separate return is made

Claim for credit etc

17560.9. The application, in case the return was filed without regard to Section 17560 3, shall be considered a claim for credit or refund with respect to the amount by which the tax is reduced under Section 17560.3. The Franchise Tax Board shall prescribe such regulations as it may deem necessary.

Refund or credit on change in law

17565 If any tax that has been paid under the law applicable to the first calendar year exceeds the tax imposed by Section 17564, the excess shall be refunded or credited to the taxpayer. Any tax in addition to that paid under the law applicable to the first calendar year made necessary by that section is immediately due and payable upon notice and demand from the Franchise Tax Board.

Effect of election

17569. If any election is made as provided in Section 17568 with respect to any obligation, it shall apply also to all obligations owned by the taxpayer at the beginning of the first

taxable year to which it applies and to all obligations thereafter acquired by him and shall be binding for all subsequent taxable years, unless upon application by the taxpayer, the Franchise Tax Board permits him, subject to such conditions as the Franchise Tax Board deems necessary, to change to a different method. In the case of any obligations owned by the taxpayer at the beginning of the first taxable year to which his election applies, the increase in the redemption price of obligations occurring between the date of acquisition and the first day of the taxable year shall also be treated as income received in the taxable year.

Involuntary conversion of property

17672. No gain shall be recognized, but loss shall be recognized, if property, as a result of its destruction in whole or in part, theft, or seizure, or an exercise of the power of requisition or condemnation, or the threat or imminence thereof, is compulsorily or involuntarily converted into property similar or related in service or use to the property so converted, or into money which is forthwith, in good faith, under regulations prescribed by the Franchise Tax Board, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund.

If any part of the money is not so expended, the gain, if any, shall be recognized to the extent of the money which is not so expended (regardless of whether the money is received in one or more taxable years and regardless of whether or not the money which is not so expended constitutes gain.)

Foreign corporation

17685. In determining the extent to which gains shall be recognized in the case of any of the exchanges (made after June 13, 1935) described in Sections 17676 or 17678, or described in so much of Section 17682 as refers to those sections, or described in Section 17684, a corporation created or organized in a foreign country shall not be considered as a corporation unless, prior to such exchange, it has been established to the satisfaction of the Franchise Tax Board that the exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of income or franchise taxes.

Sale, etc., radio station property

17687. If the sale or exchange of property (including stock in a corporation) is certified by the Federal Communications Commission to be necessary or appropriate to effectuate the policies of the commission with respect to the ownership and control of radio broadcasting stations, such sale or exchange shall, if the taxpayer so elects, be treated as an involuntary conversion of such property within the meaning of Section 17672. For the purposes of Section 17672 as made applicable by the provisions of this section, stock of a corporation operating a radio broadcasting station, whether or not representing control of such corporation, shall be treated as property similar or related in service or use to the property so converted. The part of the gain, if any, upon such sale or exchange to which Section 17672 is not applied shall nevertheless not be recognized, if the

taxpayer so elects, to the extent that it is applied to reduce the basis for determining gain or loss upon sale or exchange of property, of a character subject to the allowance for depreciation under Section 17313, remaining in the hands of the taxpayer immediately after the sale or exchange, or acquired in the same taxable year. The manner and amount of such reduction shall be determined under regulations prescribed by the Franchise Tax Board. Any election made by the taxpayer under this section shall be made by a statement to that effect in his return for the taxable year in which the sale or exchange takes place, and such election shall be binding for the taxable year and all subsequent taxable years.

Timber cutting

17725. If the taxpayer so elects upon his return for a taxable year, the cutting of timber (for sale or for use in the taxpayer's trade or business) during such year by the taxpayer who owns, or has a contract right to cut, such timber (providing he has owned such timber or has held such contract right for a period of more than six months prior to the beginning of such year) shall be considered as a sale or exchange of such timber cut during such year. In case such election has been made, gain or loss to the taxpayer shall be recognized in an amount equal to the difference between the adjusted basis for depletion of such timber in the hands of the taxpayer and the fair market value of such timber. Such fair market value shall be the fair market value as of the first day of the taxable year in which such timber is cut, and shall thereafter be considered as the cost of such cut timber to the taxpayer for all purposes for which such cost is a necessary factor. If a taxpayer makes an election under this section such election shall apply with respect to all timber which is owned by the taxpayer or which the taxpayer has a contract right to cut and shall be binding upon the taxpayer for the taxable year for which the election is made and for all subsequent years, unless the Franchise Tax Board, on showing of undue hardship, permits the taxpayer to revoke his election; such revocation, however, shall preclude any further elections under this section except with the consent of the Franchise Tax Board.

Property acquired by gift Finding of facts

17743.1. If the facts necessary to determine the basis in the hands of the donor or the last preceding owner are unknown to the donee, the Franchise Tax Board shall, if possible, for purposes of Section 17743, obtain such facts from such donor or last preceding owner, or any other person cognizant thereof. If the Franchise Tax Board finds it impossible to obtain such facts, the basis in the hands of such donor or last preceding owner shall be the fair market value of such property as found by the Franchise Tax Board as of the date or approximate date at which, according to the best information that the Franchise Tax Board is able to obtain, such property was acquired by such donor or last preceding owner.

Right to acquire stock

17755. If the property was acquired by a shareholder in a corporation and consists of a right to acquire stock in the cor-

poration acquired by him after February 28, 1913, in a distribution by the corporation, and

(a) The right to acquire such stock was acquired in a taxable year beginning before January 1, 1937 (except as provided in Section 17756), or

(b) The right to acquire such stock was acquired in a taxable year beginning after December 31, 1936, and its distribution did not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States, the basis of the stock in respect of which the right was declared and the right to acquire stock, respectively, shall, in the shareholder's hands be determined by allocating between the stock and the right to acquire stock the adjusted basis of the stock. The allocation shall be made under regulations prescribed by the Franchise Tax Board.

Refund report

17981. If any taxes paid to another state or country for which a taxpayer has been allowed a credit under this article are at any time credited or refunded to the taxpayer, the taxpayer shall immediately report that fact to the Franchise Tax Board.

Tax on refund

17982. A tax equal to the credit allowed for the taxes credited or refunded by the other state or country is due and payable from the taxpayer upon notice and demand from the Franchise Tax Board.

Apportionment of trust income

18103. Where the taxability of income under this chapter depends on the residence of the fiduciary and there are two or more fiduciaries for the trust, the income taxable under Section 18102 shall be apportioned according to the number of fiduciaries resident in this State pursuant to rules and regulations prescribed by the Franchise Tax Board

Two or more beneficiaries

18104 Where the taxability of income under this chapter depends on the residence of the beneficiary and there are two or more beneficiaries of the trust, the income taxable under Section 18102 shall be apportioned according to the number and interest of beneficiaries resident in this State pursuant to rules and regulations prescribed by the Franchise Tax Board.

Tax lien

18174. Upon recordation of an abstract of judgment or a copy thereof by the Franchise Tax Board with the county recorder of any county for any taxes due from the grantor of a trust on income of the trust which is taxable to the grantor under this article, and upon its giving notice of the recording to the fiduciary of the trust, or in case there is more than one fiduciary to any one of the fiduciaries, the amount of the taxes constitutes a lien upon all property of the trust in the county owned by the trust or afterwards and before the lien expires acquired by the trust. The lien has the force, effect, and priority of a judgment lien.

Notice

18175 The notice required to be given by Section 18174 may be served upon the fiduciary personally, or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the fiduciary at his address as it appears in the records of the Franchise Tax Board.

Certificate of tax payment

18201. If the value of the assets of an estate at the death of the decedent exceeds twenty thousand dollars ($20,000), and if any beneficiary is a nonresident, the final account of the fiduciary shall not be allowed by the probate court unless the fiduciary obtains from the Franchise Tax Board and files with the court a certificate to the effect that all taxes imposed by this part upon the estate or decedent which have become payable have been paid, and that all taxes which may become due are secured by bond, deposit, or otherwise.

Same Issuance

18202. Within 30 days after receiving a request for a certificate, the Franchise Tax Board shall either issue the certificate or notify the person requesting the certificate of the amount of tax that shall be paid or the amount of bond, deposit, or other security that shall be furnished as a condition of issuance of the certificate.

Same Effect

18203. The certificate of the Franchise Tax Board does not relieve the estate for which the fiduciary acts of liability for any taxes which are due and unpaid at the time the certificate is issued or which may become due from the decedent or estate under this part after the issuance of the certificate. It also does not relieve the fiduciary of the liability imposed by Section 18204.

Assessments and court proceedings

18205. In the case of income received or accrued during the lifetime of a decedent, or by his estate during the period of administration, or by a trust, the Franchise Tax Board shall mail notices proposing to assess the tax, and shall commence any proceeding in court without assessment for the collection of the tax, within 18 months after written request therefor (filed after the return is made) by the fiduciary of the estate or trust or by any other person liable for the tax or any portion thereof.

Termination of fiduciary capacity

18206. Any person acting in a fiduciary capacity shall assume the duties and, upon giving notice to the Franchise Tax Board, shall assume the rights and privileges of the taxpayers in respect of any tax imposed by this part (except as otherwise specifically provided), until he gives notice that his fiduciary capacity has terminated. He shall give notice under this section pursuant to rules and regulations prescribed by the Franchise Tax Board.

Returns

18401. Every individual taxable under this part shall make a return to the Franchise Tax Board, stating specifically the items of his gross income and the deductions and credits allowed by this part, if he has for the taxable year—

(a) A net income of two thousand dollars ($2,000) or over, if single;

(b) A net income of three thousand five hundred dollars ($3,500) or over, if married; or

(c) A gross income of five thousand dollars ($5,000) or over, regardless of the amount of net income.

Fiduciary

18405. Every fiduciary (except a receiver appointed by authority of law in possession of part only of the property of an individual) shall make under oath a return for any of the following taxpayers for whom he acts, stating specifically the

items of gross income of the taxpayer and the deductions and credits allowed under this part:

(a) Every individual having a net income for the taxable year of two thousand dollars ($2,000) or over, if single.

(b) Every individual having a net income for the taxable year of three thousand five hundred dollars ($3,500) or over, if married.

(c) Every individual having a gross income for the taxable year of five thousand dollars ($5,000) or over, regardless of the amount of his net income.

(d) Every estate the net income of which for the taxable year is one thousand dollars ($1,000) or over.

(e) Every trust the net income of which for the taxable year is one hundred dollars ($100) or over.

(f) Every estate or trust the gross income of which for the taxable year is five thousand dollars ($5,000) or over, regardless of the amount of the net income.

(g) Every decedent, for the year in which death occurred, and for prior years, if returns for such years should have been filed but have not been filed by the decedent, under such rules and regulations as the Franchise Tax Board may prescribe.

Joint fiduciaries

18406. Under such rules and regulations as the Franchise Tax Board may prescribe, a return filed by one of two or more joint fiduciaries is sufficient. The fiduciary filing the return, which shall contain or be verified by a written declaration that it is made under the penalties of perjury, shall state (a) that he has sufficient knowledge of the affairs of the taxpayer for whom the return is made to enable him to make the return, and (b) that the return is, to the best of his knowledge and belief, true and correct.

Form

18431. Returns required by Sections 18401 and 18402 shall not be under oath but shall contain, or be verified by, a written declaration that they are made under the penalties of perjury. Such returns, and all other returns required by this part, shall be in such form as the Franchise Tax Board may from time to time prescribe, and shall be filed with the Franchise Tax Board at its main office or at any branch office which it may establish. The Franchise Tax Board shall prepare blank forms for the returns and shall distribute them throughout the State and furnish them upon application. Failure to receive or secure the form does not relieve any taxpayer from making any return required.

Time extension

18433. The Franchise Tax Board, whenever in its judgment good cause exists, and under such rules and regulations as it shall prescribe, may grant a reasonable extension of time for filing the return or for payment of the tax, or any installment thereof, disclosed by the return, due or to become due within the period of the extension. The Franchise Tax Board shall keep a record of every extension. No extension or extensions may aggregate more than six months from the due date provided for the filing of returns.

Members of armed forces

18434. (a) In the case of a taxpayer who is serving as a member of the armed forces of the United States or any auxiliary branch thereof, or the Merchant Marine, beyond the boundaries of the continental United States, the Franchise Tax Board shall automatically grant, without application being made therefor, an extension of time, free from interest and penalties, for filing the return, for payment of the tax, for taking any of the steps required by Sections 18590, 18593, 19053, 19057 and 19058 of the Revenue and Taxation Code, until 180 days after his discharge or release from active service therein or until 180 days after the termination of hostilities in which the United States is now engaged, whichever first occurs.

"Continental United States"

(b) "Continental United States," as used in subsection (a), means the 48 States of the United States and the District of Columbia.

Supplemental return

18451. If the Franchise Tax Board believes that any taxpayer has failed to file a return, or to include in a return filed, either intentionally or through error, items of taxable income, it may require from the taxpayer a return or a supplementary return, under oath, in such form as it shall prescribe, of all the items of income which the taxpayer received during the year for which the return is made, whether or not taxable under this part.

18452. Every taxpayer required by the Federal Government to file a supplementary return shall file a supplementary return with the Franchise Tax Board.

Outside Americas

18470. If an individual is continuously outside the Americas after December 6, 1941, for longer than 90 days, that period of time and the next 90 days thereafter shall be disregarded in determining under this part the amount of any credit or refund (including interest) or in respect of any liability for taxes, interests or penalties of that individual, whether any of the following acts were performed within the time prescribed:

(k) Any other act required or permitted under this part.

18471. In any case to which Section 18470 does not apply in which it is determined by the Franchise Tax Board, under regulations prescribed by it, that—

(1) By reason of an individual being outside the Americas, or

(2) By reason of any locality (within or without the Americas) being an area of enemy action or being an area under the control of the enemy, as determined by the Franchise Tax Board; or

(3) By reason of an individual in the military or naval forces of the United States being outside the states of the Union and the District of Columbia, it is impossible or impracticable to perform any one or more of the acts specified in Section 18470; then in determining, under this part whether the act was performed within the time prescribed therefor, in respect of any liability for taxes, interest or penalties affected by the failure to perform the act within such time, and in determining the amount of any credit or refund (including interest) affected by that failure, there shall be disregarded the period after December 6, 1941, as may be prescribed by the regulations.

Same Dates

18472. The period of time disregarded under this article shall not extend beyond whichever of the following dates is the earlier:

(1) December 31, 1949, or such date later than December 31, 1949, as the Franchise Tax Board may fix in any case in which it makes a determination under Section 18471 if such determination is made after the date this section as amended takes effect and is based on the existence prior to January 1, 1950, of one or more of the circumstances specified in Section 18471; or

(2) In the case of an individual with respect to whom a period of time is disregarded under this article, the fifteenth day of the third month following the month in which an executor, administrator, or a conservator of the estate of the individual qualifies.

Collection

18474. In any other case in which the Franchise Tax Board determines that collection of the amount of any assessment would be jeopardized by delay, the provisions of Section 18470 shall not operate to stay collection of that amount by distraint or otherwise as authorized by law. There shall be excluded from any amount assessed or collected pursuant to this section the amount of interest, penalty, additional amount, and addition to

the tax, if any, in respect of the period disregarded under this article.

18475 In any case to which Sections 18473 and 18474 relate, if the Franchise Tax Board is required to give any notice to or make any demand upon any person, that requirement shall be satisfied if the notice or demand is prepared and signed, in any case in which the address of such person last known to the Franchise Tax Board is in an area for which United States post offices under instructions of the Postmaster General are not, by reason of the war, accepting mail for delivery at the time the notice or demand is signed. In that case the notice or demand shall be deemed to have been given or made upon the date it is signed. Notice, etc

18478. (a) The term "Americas" means North, Central and South America (including the West Indies but not Greenland), and the Hawaiian Islands. "Americas"

(b) For the purpose of determining whether any act specified in Section 18470 (g), (h), (i) or (j) was performed within the time prescribed therefor, if any period of time is disregarded under this article by reason of any individual being outside the Americas or within an area of enemy action or control, that individual shall not, if he returns to the Americas or leaves the area after the date of enactment of this article, be deemed to have returned to the Americas or ceased to be within that area before the date upon which the Franchise Tax Board receives from that individual a notice thereof in such form as the Franchise Tax Board shall by regulations prescribe. A similar rule shall be applied in the case of a member of the military or naval forces of the United States with respect to whom a period of time is disregarded under this article by reason of being outside the states of the Union and the District of Columbia. Application

18479. For the purpose of determining whether any act specified in Section 18470 (g), (h), (i) or (j) was performed within the time prescribed therefor, the month in which an executor, administrator, or conservator qualifies, if he qualifies after the date of enactment of this article, shall be deemed to be the month in which the Franchise Tax Board receives from him a notice thereof in such form as the Franchise Tax Board shall by regulations prescribe. Same

18552. On or before the date prescribed for the payment of the tax the taxpayer may elect to pay the tax in three equal installments The first installment shall be paid on the date prescribed for the payment of the tax, the second installment shall be paid on the fifteenth day of the fourth month, and the third installment on the fifteenth day of the eighth month, after that date. Notwithstanding the provisions of this section, if the amount paid on or before the due date of the first installment is less than the tax as corrected in accordance with the provisions of Section 18601, the taxpayer shall be deemed to have elected to pay the tax in three equal installments in the manner provided herein. If any installment is not paid on or before the Installments

date fixed for its payment, the whole amount of tax unpaid shall be paid upon notice and demand from the Franchise Tax Board.

Place of payment

18554. The tax, and any interest and penalties, shall be paid to the Franchise Tax Board at Sacramento or to its authorized representatives at any branch office. Remittances may be in the form of uncertified check, payable to the Franchise Tax Board, during such time and under such regulations as the Franchise Tax Board may prescribe. If the check is not paid by the bank on which it is drawn, the taxpayer tendering the check remains liable for the payment of the tax, and all interest and penalties, as if he had not tendered the check.

Power of board

18581. The Franchise Tax Board may proceed under this article or Article 4 whether or not it requires a return or a supplementary return under Section 18451.

Examination of return

18582. As soon as practicable after the return is filed, the Franchise Tax Board shall examine it and shall determine the correct amount of the tax.

Deficiency

18583. If the Franchise Tax Board determines that the tax disclosed by the original return is less than the tax disclosed by its examination, it shall mail notice or notices to the taxpayer of the deficiency proposed to be assessed.

Same Joint return

18585. In the case of a joint return filed by husband and wife, the notice of deficiency may be a single joint notice, except that if the Franchise Tax Board is notified by either spouse that separate residences have been established, it shall mail to each spouse, in lieu of the single joint notice, duplicate originals of the joint notice.

Same Protest

18590. Within 60 days after the mailing of the notice of a proposed deficiency assessment the taxpayer may file with the Franchise Tax Board a written protest against the proposed assessment, specifying in the protest the grounds upon which it is based.

Same Reconsideration

18592. If a protest is filed, the Franchise Tax Board shall reconsider the assessment of the deficiency and, if the taxpayer has so requested in his protest, shall grant the taxpayer or his authorized representatives an oral hearing.

Appeal

18593. The Franchise Tax Board's action upon the protest is final upon the expiration of 30 days from the date when it mails notice of its action to the taxpayer, unless within that 30-day period the taxpayer appeals in writing from the action of the Franchise Tax Board to the board.

Same

18594. The appeal shall be addressed and mailed to the State Board of Equalization at Sacramento, California, and a copy of the appeal addressed and mailed at the same time to the Franchise Tax Board at Sacramento, California.

Same Notice of determination

18595. The board shall hear and determine the appeal and thereafter shall forthwith notify the taxpayer and the Franchise Tax Board of its determination and the reasons therefor.

Finality of determination

18596. The board's determination becomes final upon the expiration of 30 days from the time of the determination unless within the 30-day period the taxpayer or the Franchise Tax

Board files a petition for rehearing with the board. In that event the determination becomes final upon the expiration of 30 days from the time the board issues its opinion on the petition. Rehearing

18597. When a deficiency is determined and the assessment becomes final, the Franchise Tax Board shall mail notice and demand to the taxpayer for the payment thereof. The deficiency assessed is due and payable at the expiration of 10 days from the date of the notice and demand, unless the taxpayer has elected to pay the tax in installments, in which case the deficiency shall be prorated to the three installments. Notice and demand

18600. A certificate by the Franchise Tax Board or of the board, as the case may be, of the mailing of the notices specified in this article is prima facie evidence of the assessment of the deficiency and of the giving of the notices. Certificate Effect

18641. If the Franchise Tax Board finds that the assessment or the collection of a tax or a deficiency for any year, current or past, will be jeopardized in whole or in part by delay, it may mail or issue notice of its finding to the taxpayer, together with a demand for immediate payment of the tax or the deficiency declared to be in jeopardy, including interest and penalties and additions thereto. Payment demand

18642. In the case of a tax for a current period, the Franchise Tax Board may declare the taxable period of the taxpayer immediately terminated. 18643. A jeopardy assessment is immediately due and payable, and proceedings for collection may be commenced at once. The taxpayer, however, may stay collection and prevent the jeopardy assessment from becoming final by filing, within 10 days after the date of mailing or issuing the notice of jeopardy assessment, a petition for reassessment, accompanied by a bond or other security in such amount as the Franchise Tax Board may deem necessary, not exceeding double the amount (including interest and penalties and additions thereto) as to which the stay is desired. 18646. The Franchise Tax Board shall consider the petition for reassessment and notify the taxpayer of its decision thereon. Its decision is final. Reassessment

18647. In any proceeding brought to enforce payment of taxes made due and payable by this article, the finding of the Franchise Tax Board under Section 18641, whether made after notice to the taxpayer or not, is for all purposes presumptive evidence that the assessment or collection of the tax or the deficiency was in jeopardy. A certificate of the Franchise Tax Board of the mailing or issuing of the notices specified in this Finding of the board

article is presumptive evidence that the notices were mailed or issued.

total penalty shall not exceed 25 percent of the tax. The penalty so added to the tax shall be due and payable upon notice and demand from the Franchise Tax Board.

18683. Same
Deficiency

18691. (a) Where an overpayment is made by any taxpayer for any year, and a deficiency is owing from the same taxpayer for any other year, the overpayment, if the period within which credit for the overpayment may be allowed has not expired, shall be credited on the deficiency, if the period within which assessment of the deficiency may be proposed has not

expired, and the balance, if any, shall be credited or refunded to the taxpayer. No interest shall be assessed on such portion of the deficiency as is extinguished by the credit for the period of time subsequent to the date the overpayment was made.

Refunds

23185b. If taxes are at any time refunded to any taxpayer under this chapter and said taxpayer has been allowed an offset under Section 23184 for such taxes against any tax imposed under this chapter, said taxpayer shall pay a tax not subject to offset in an amount equivalent to any offset which has been allowed against any tax at any time imposed under this chapter on account of such refunded taxes. Said taxpayer shall report such taxes in its return for the income year in which the same are refunded. 23226. In the case of a taxpayer taxable in the manner provided in Sections 23222 to 23224, inclusive, reporting income from any source on a deferred basis, the Franchise Tax Board is authorized to distribute or apportion such income, or deductions applicable thereto, if it determines that such distribution or apportionment is necessary in order to prevent avoidance of taxes or clearly to reflect the income of the taxpayer.

Suspension and forfeiture of corporate powers, etc.

23301. Except for the purpose of amending the articles of incorporation to set forth a new name, the corporate powers,

rights and privileges of a domestic taxpayer shall be suspended and the corporate powers, rights and privileges of a foreign taxpayer, shall be forfeited and shall be incapable of being exercised for any purpose or in any manner, if any of the following conditions occur:

1. If any tax, penalty or interest, or any portion thereof, which is due and payable either at the time the return is required to be filed or on or before the fifteenth day of the ninth month following the close of the income year, is not paid on or before 6 o'clock p m. on the last day of the twelfth month after the close of the income year.

If any jeopardy or fraud assessment, or any interest or penalty thereon, is not paid within 40 days from the date such tax, penalty and interest are due and payable upon notice and demand from the Franchise Tax Board, unless the bond required by Section 25761a is filed to stay the collection of said tax, penalty and interest, and said tax, interest and penalty are paid within 60 days after notice by the Franchise Tax Board on the taxpayer's petition for reassessment.

Same: Certificate

23302. The Franchise Tax Board shall transmit the name of such delinquent taxpayer to the Secretary of State, and the suspension or forfeiture herein provided for shall thereupon become effective and the certificate of the Secretary of State shall be prima facie evidence of such suspension or forfeiture.

Relief from suspension, etc

23305. Any taxpayer which has suffered the suspension or forfeiture provided for in Section 23301 may be relieved therefrom upon making application therefore in writing to the Franchise Tax Board and upon payment of the tax and the interest and penalties for nonpayment of which the suspension or forfeiture occurred, together with all other taxes, deficiencies, interest and penalties due under this part, and upon the issuance by the Franchise Tax Board of a certificate of revivor. Application for such certificate on behalf of any domestic bank or corporation which has suffered such suspension may be made by any stockholder or creditor or by a majority of the surviving trustees or directors thereof; application for such certificate may be made by any foreign bank or corporation which has suffered such forfeiture or by any stockholder or creditor thereof.

Certificate of revivor

Endorsement from Secretary of State

23305a. Before such certificate of revivor is issued by the Franchise Tax Board, it shall obtain from the Secretary of State an endorsement upon such application of the fact that the name of the taxpayer is not one which is likely to mislead the public or which is the same as, or resembles so closely as to tend to deceive, the name of a foreign or domestic bank or corporation which is authorized to transact business in this State or a name which is under reservation. If the name of the

taxpayer is one which is likely to mislead the public or is the same as, or resembles so closely as to tend to deceive, the name of a foreign or domestic bank or corporation which is authorized to transact business in this State, or a name which is under reservation, the Secretary of State shall not endorse such statement upon such application until the taxpayer therein named, if it be a domestic bank or corporation, files in his office amended articles of incorporation changing its name, or, if it be a foreign taxpayer, files in his office a copy of such document changing its name as may be required by the law of the State or other jurisdiction under which it was incorporated, which copy shall be certified in the manner prescribed by Section 6400 of the Corporations Code. Upon the issuance of such certificate by the Franchise Tax Board the taxpayer therein named shall become reinstated but such reinstatement shall be without prejudice to any action, defense or right which has accrued by reason of the original suspension or forfeiture. The certificate of revivor shall be prima facie evidence of such reinstatement and such certificate may be recorded in the office of the county recorder of any county of this State.

Decree of dissolution Certificate

23334. No decree of dissolution shall be made and entered by any court, nor shall the county clerk of any county or the Secretary of State file any such decree, or file any other document by which the term of existence of any taxpayer shall be reduced or terminated, nor shall the Secretary of State file any certificate of the surrender by a foreign corporation of its right to do intrastate business in this State unless the taxpayer obtains from the Franchise Tax Board and files with said court, county clerk or Secretary of State as the case may be, a certificate to the effect the Franchise Tax Board is satisfied from the available evidence that all taxes imposed by this chapter have been paid or are secured by bond, deposit or otherwise. Within 30 days after receiving a request for a certificate, the Franchise Tax Board shall either issue the certificate or notify the person requesting the certificate of the amount of tax that must be paid or the amount of bond, deposit or other security that must be furnished as a condition of issuing the certificate. The issuance of the certificate shall not relieve the taxpayer or any individual, bank, or corporation from liability for any taxes, penalties, or interest imposed by this chapter.

Regulations

23363. The Franchise Tax Board shall prescribe such regulations as it may deem necessary in order that the tax liability of any affiliated group of corporations making a consolidated return and of each corporation in the group, both during and after the period of affiliation, may be determined, computed, assessed, collected, and adjusted in such manner as clearly to reflect the income and to prevent evasion of just tax liability.

Consolidated return

23364. If a consolidated return is made subject to the provisions of this article, the tax imposed under this chapter shall be computed as a unit upon the consolidated net income of the group except as hereinafter provided. The parent corpo-

ration and each subsidiary, a member of the group during any part of a consolidated period, shall be severally liable for the tax, including any deficiency in respect thereof, computed upon the consolidated net income of the group. If a subsidiary by reason of a bona fide sale of stock for fair value has ceased to be a member of the affiliated group, its liability shall remain unchanged, except that if such cessation occurred prior to the date upon which any such deficiency is assessed, such deficiency, in the case of such former subsidiary, shall be reduced to an amount equal to such part as may be allocable to it upon the basis of the consolidated net income properly assignable to it. In no case, however, shall any demand for the payment of any deficiency be made, or any proceeding in court for the collection thereof be begun against such former subsidiary prior to the determination by the Franchise Tax Board that the amount of the deficiency cannot be collected from the parent corporation and the corporations, if any, remaining members of the affiliated group.

Suspension, etc., of corporate powers

23562. The corporate powers, rights and privileges of a taxpayer shall be suspended and incapable of being exercised in any manner which is within the power of this State to prohibit, if any of the following conditions occur:

1. If any tax, penalty or interest, or any portion thereof, which is due and payable either at the time the return is required to be filed or on or before the fifteenth day of the ninth month following the close of the income year is not paid on or before 6 o'clock p.m. of the last day of the twelfth month after the close of the income year.

2. If any tax, penalty or interest, or any portion thereof, other than jeopardy or fraud assessments, due and payable upon notice and demand from the Franchise Tax Board is not paid on or before 6 o'clock p.m. on the last day of the eleventh month following the due date of said tax.

3. If any jeopardy or fraud assessment, or any interest or penalty thereon, is not paid within 40 days from the date such tax, penalty and interest are due and payable upon notice and demand from the Franchise Tax Board, unless the bond required by Section 25761a is filed to stay the collection of said tax, penalty and interest, and said tax, interest and penalty are paid within 60 days after notice by the Franchise Tax Board on the taxpayer's petition for reassessment.

Continuation of action

23562a. In any action or suit at law or in equity in which such suspended taxpayer shall seek to prosecute or shall be named as defendant, if such taxpayer has not been notified by the Franchise Tax Board of its liability for tax, such action shall be continued on motion of the suspended taxpayer for a period of 90 days, or until such time as the tax determined by the Franchise Tax Board to be due shall be paid, whichever expires or occurs the earlier.

Certificate as prima facie evidence

23562b. The certificate of the Franchise Tax Board setting forth that the suspended taxpayer has been notified of its liability for tax under this chapter and that such tax has not

been paid, shall constitute prima facie evidence of such facts. The suspension shall be terminated on payment of the tax, and the certificate of the Franchise Tax Board that the tax has been paid shall be evidence of the termination of the suspension.

23881d. Income attributable to the recovery during the income year of a bad debt, prior tax, or delinquency amount, to the extent of the amount of the recovery exclusion with respect to such debt, tax, or amount. For the purposes of this section:

Definitions

(1) "Bad debt" means a debt on account of worthlessness or partial worthlessness of which a deduction was allowed for a prior income year.

(2) "Prior tax" means a tax on account of which a deduction or credit was allowed for a prior income year.

(3) "Delinquency amount" means an amount paid or accrued on account of which a deduction or credit was allowed for a prior income year and which is attributable to failure to file return with respect to a tax, or pay a tax, within the time required by the law under which the tax is imposed, or failure to file return with respect to a tax or pay a tax.

(4) "Recovery exclusion," with respect to a bad debt, prior tax, or delinquency amount, means the amount, determined in accordance with regulations prescribed by the Franchise Tax Board, of the deductions or credits allowed, on account of such bad debt, prior tax, or delinquency amount, which did not result in a reduction of the taxpayer's tax under this part, reduced by the amount excludible in previous income years with respect to such debt, tax, or amount under this section.

Income due to discharge of indebtedness

23881e. The amount of any income of a taxpayer attributable to the discharge, within the income year, of any indebtedness of the taxpayer, or for which the taxpayer is liable, evidenced by a security, as hereinafter defined, if the taxpayer makes and files at the time of filing the return, in such manner as the Franchise Tax Board by regulation prescribes, its consent to the regulations prescribed under Section 25101c. In such case the amount of any income of the taxpayer attributable to any unamortized premium, computed as of the first day of the income year in which such discharge occurred, with respect to such indebtedness shall not be included in gross income and the amount of the deduction attributable to any unamortized discount, computed as of the first day of the income year in which such discharge occurred, with respect to such indebtedness shall not be allowed as a deduction. "Security" means any bond, debenture, note, or certificate, or other evidence of indebtedness, issued by any corporation.

"Security"

Losses

24121d. Losses sustained during the income year and not compensated for by insurance or otherwise, except that such losses may, with the consent of the Franchise Tax Board, be accounted for as of a different period.

Worthless debts

24121f. Debts which become worthless within the income year, or, in the discretion of the Franchise Tax Board, the taxpayer may make a reasonable addition to a reserve for bad debts.

When satisfied that a debt is recoverable in part only the Franchise Tax Board may allow such debt, in an amount not in excess of the part charged off within the income year, as a deduction; provided, however, that if a debt was actually worthless prior to January 1, 1943, but was not ascertained to be worthless and charged off prior to said date, a deduction may be taken therefor during the first income year ending after December 31, 1942; and, provided, that if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt which in any prior year was charged off, regardless of whether claimed as a deduction in such prior year.

Amortization of emergency facilities

24121h. A taxpayer may elect to claim a deduction for amortization of emergency facilities, as defined by Section 124 of the Internal Revenue Code as amended, under regulations prescribed by the Franchise Tax Board.

Depletion

24121i. In the case of mines, oil and gas wells, other natural deposits and timber, a reasonable allowance for depletion and for depreciation of improvements according to the peculiar conditions in each case, such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the Franchise Tax Board. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee.

Contributions or gifts

24121k. In the case of a taxpayer, contributions or gifts payment of which is made within the income year to or for the use of:

(1) The United States, any state, territory, or any political subdivision thereof or the District of Columbia, or any possession of the United States, for exclusively public purposes; or

(2) A corporation, trust, or community chest, fund, or foundation, created or organized in the United States or in any possession thereof or under the law of the United States, or of any state or territory, or of the District of Columbia, or of any possession of the United States, organized and operated exclusively for religious, charitable, scientific, veteran rehabilitation service, literary, or educational purposes or for the prevention of cruelty to children (but in the case of contributions or gifts to a trust, chest, fund, or foundation, payment of which is made within an income year beginning after the date of the cessation of hostilities in the present war, as proclaimed by the President, only if such contributions or gifts are to be used within the United States or any of its possessions exclusively for such purposes), no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation; or

(3) Posts or organizations of war veterans, or auxiliary units of, or trusts or foundations for, any such posts or organizations, if such posts, organizations, units, trusts, or foundations are organized in the United States or any of its possessions, and if no part of their net earnings inures to the benefit of any private shareholder or individual; or

(4) A corporation or organization which is organized in the United States or any of its possessions by or for members of the armed forces of the United States for the purpose of aiding or assisting members of such forces or their relatives if no part of the net earnings of such corporation or organization inures to the benefit of any private shareholder or individual; to an amount which does not exceed 5 percent of the taxpayer's net income as computed without the benefits of this subdivision.

Such contributions or gifts shall be allowable as deductions only if verified under rules and regulations prescribed by the Franchise Tax Board.

Amortizable bond premium

24121o. In the case of a bondholder, who makes the election in the method and under the conditions prescribed in subdivision (4) of this section, the deduction for amortizable bond premium provided in this section.

(1) In the case of any bond, as defined in subdivision (3), the following rules shall apply to the amortizable bond premium (determined under subdivision (2)) on the bond for any income year beginning after December 31, 1942.

(A) In the case of a bond, the amount of the amortizable bond premium for the income year shall be allowed as a deduction, except where the interest received from said bonds is excluded from "gross income" under Chapter 3.

(2)(A) For the purposes of paragraph (B), the amount of bond premium, in the case of the holder of any bond, shall be determined with reference to the amount of the basis (for determining loss on sale or exchange) of such bond, and with reference to the amount payable on maturity or on earlier call date, with adjustments proper to reflect unamortized bond premium with respect to the bond, for the period prior to the date as of which subdivision (1) becomes applicable with respect to the taxpayer with respect to such bond.

(B) The amortizable bond premium of the income year shall be the amount of the bond premium attributable to such year.

(C) The determinations required under paragraphs (A) and (B) shall be made—

(i) In accordance with the method of amortizing bond premium regularly employed by the holder of the bond, if such method is reasonable;

(ii) In all other cases, in accordance with regulations prescribing reasonable methods of amortizing bond premium, prescribed by the Franchise Tax Board.

(3) As used in this section, "bond" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by any corporation and bearing interest (including

any like obligation issued by a government or political subdivision thereof), with interest coupons or in registered form, but does not include any such obligation which constitutes stock in trade of the taxpayer or any such obligation of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the income year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

(4) The amount of the amortizable bond premium for the income year shall be allowed as a deduction only if a taxpayer has elected to claim such deduction. Such election shall be made in accordance with such regulations as the Franchise Tax Board shall prescribe. If such election is made with respect to any bond, it shall also apply to all such bonds held by the taxpayer at the beginning of the first income year to which the election applies and to all such bonds thereafter acquired by it, and shall be binding for all subsequent income years with respect to all such bonds of the taxpayer, unless, upon application by the taxpayer, the Franchise Tax Board permits him, subject to such conditions as the Franchise Tax Board deems necessary, to revoke such election.

Interest as deduction

24123. There shall also be allowed as a deduction, under Chapter 2 of this part, in the case of a mutual savings bank, the entire amount of interest paid to depositors possessing no proprietary interest in the institution or in its surplus, and interest on their deposits to members possessing a proprietary interest in the institution or in its surplus at a rate determined by the State Superintendent of Banks to be the going rate of interest upon savings deposits in the State during the calendar year preceding the taxable year, such rate to be certified by him to the Franchise Tax Board on or before the first day of March of each year.

Discriminatory or invalid deductions

24124. For the purposes of the tax imposed under Chapter 2, if any deduction provided for in this article is finally adjudged discriminatory against a national banking association contrary to Section 5219 of the Revised Statutes of the United States, or is for any reason finally adjudged invalid, in that event the tax of the favored taxpayer shall be recomputed by the Franchise Tax Board for the taxable year in question, as of the time of allowance of the deduction, by disallowing the deduction, and any difference between the amount of the tax as recomputed and the amount of the tax as originally computed shall be subject to the provisions hereof relating to original computations.

Property destroyed or seized

24151a. (1) Property destroyed or seized on or after December 7, 1941, in the course of military or naval operations by the United States or any other country engaged in the present war shall be deemed to have been destroyed or seized on a date chosen by the taxpayer in the manner provided in subdivision (4), which falls between—

(A) The latest date, as established to the satisfaction of the Franchise Tax Board, on which such property may be considered as not destroyed or seized, and Same

(B) The earliest date, as established to the satisfaction of the Franchise Tax Board, on which such property may be considered as having already been destroyed or seized.

For the purposes of this subdivision property within an area which comes under the control of a country at war with the United States after the date war with such country is declared by the United States shall be deemed to have been destroyed or seized in the course of military or naval operations by such country, and the date specified in paragraph (A) shall not be later than the latest date determined by the Franchise Tax Board as the date on which such area was under the control of the United States or a country not at war with the United States, and the date specified in paragraph (B) shall not be later than the earliest date determined by the Franchise Tax Board as the date on which such area may be considered under the control of the country which is at war with the United States.

(2) Property within any country at war with the United States, or within an area under the control of any such country on the date war with such country was declared by the United States, shall be deemed to have been destroyed or seized on the date war with such country was declared by the United States.

(3) Any interest in, or with respect to, property described in subdivision (1) or (2) (including any interest represented by a security) which becomes worthless shall be considered to have been destroyed or seized (and the loss therefrom shall be considered a loss from the destruction or seizure) on the date chosen by the taxpayer which falls between the dates specified in subdivision (1), or on the date prescribed in subdivision (2), as the case may be, when the last property (described in the applicable subdivision) to which the interest relates would be deemed destroyed or seized under the applicable subdivision. This subdivision shall apply only if the interest would have become worthless if the property had been destroyed. For the purposes of this subdivision, an interest shall be deemed to have become worthless notwithstanding the fact that such interest has a value if such value is attributable solely to the possibility of recovery of the property, compensation (other than insurance or similar indemnity) on account of its destruction or seizure, or both. Under regulations prescribed by the Franchise Tax Board, a taxpayer which owns 100 percent (excluding qualifying shares) of each class of stock of a corporation may elect to determine the worthlessness of its interest, described in this paragraph, in or with respect to the property of the corporation, without regard to the amount of the property of such corporation which would be excluded under Section 24151e in determining the adjusted basis of all the assets of the corporation for the purposes of Section 24151e, but such amount shall be treated under Section 24151b as a recovery by the taxpayer in the income year with respect to such interest.

(4) Taxpayer's choice of a date under subdivision (1) or (3) shall be effective only if made within such time and in such manner as may be prescribed by regulations prescribed by the Franchise Tax Board.

Same

24151b. In the case of any property or interest in or with respect to property deemed to be destroyed or seized under Section 24151a—

(1) The amount of the loss on account of such property or interest shall be determined with regard to any recoveries with respect thereto in the income year but without regard to any possibility of recovering such property or interest, or of receiving any compensation (other than insurance or similar indemnity) on account of such property or interest in the income year or in any future income year.

(2) The taxpayer may choose to decrease the amount of the loss by all obligations or liabilities of the taxpayer with respect to such property or interest discharged or satisfied out of the property or interest upon its destruction or seizure, if the Franchise Tax Board is satisfied that such obligations or liabilities are so discharged or satisfied in a subsequent income year, or that the taxpayer is unable to determine whether or not such obligations or liabilities are in fact discharged or satisfied.

No loss shall be deemed to have been sustained upon the destruction or seizure of such property or interest to the extent that it is compensated for by the discharge or satisfaction of obligations and liabilities of the taxpayer out of such property or interest in the income year in which such destruction or seizure is deemed to have occurred. The taxpayer's choice under this subdivision shall be effective only if made within such time and in such manner as may be prescribed by regulations prescribed by the Franchise Tax Board.

Same
Unadjusted basis of recovered property

24151d. The unadjusted basis of property recovered in respect of property considered destroyed or seized under Section 24151a shall be determined under this section Such basis shall be an amount equal to the fair market value of such property, determined as of the date of the recovery, reduced by an amount equal to the excess of the aggregate of such fair market value and the amounts of previous recoveries of money or property in respect of property considered under Section 24151a as destroyed or seized over the aggregate of the allowable deductions in prior income years on account of the destruction or seizure of property described in Section 24151a, and increased by that portion of the amount of the recovery which under Section 24151c is treated as a recognized gain from the involuntary conversion of property. Upon application of the taxpayer, the aggregate of the bases (determined under the preceding sentence) of any properties recovered in respect of properties considered under Section 24151a as destroyed or seized may be allocated among the properties so recovered in such manner as the Franchise Tax Board may determine under regulations prescribed by it, and the amount so allocated to

any such property so recovered shall be the unadjusted basis of such property in lieu of the unadjusted basis of such property determined under the preceding sentence

Same Corporate stock

24151e. (1) If a taxpayer owns not less than 50 percent of each class of stock of a corporation, if such corporation has property described in Section 24151a (1) or (2) deemed to be destroyed or seized, the adjusted basis for determining loss of which is at least 75 percent of the adjusted basis for determining loss of all such corporation's property, and if such corporation completely liquidates by distributing all the assets which it is able to distribute and all its rights to assets which it is not able to distribute, including the right to the recovery of the property described in Section 24151a (1) and (2), within one year after such property is deemed to be destroyed or seized, or by December 31, 1943, whichever is the later, then that part of the loss by the taxpayer on such liquidation which would be attributable to the destruction or seizure of such property, as established to the satisfaction of the Franchise Tax Board, shall be treated for the purposes of this part as a loss by the taxpayer upon the destruction or seizure of the part of the stock or other interest of the taxpayer to which such loss is allocable. Such part of the stock or other interest of the taxpayer shall be treated for the purposes of Section 24151b, c, and d as property described in Section 24151a (3).

(2) For the purposes of subdivision (1)—

(A) In determining the adjusted basis of all the property of the corporation, there shall be excluded money in the United States, bank deposits, the right to receive money from any person not situated in a country at war with the United Sates or in a territory under the control of such a country, and obligations issued or guaranteed as to principal or interest by the United States, except that there shall not be excluded any such property which is destroyed or seized as described in Section 24151a within or before the taxable period.

(B) The adjusted basis of property of such corporation shall be determined as of the date immediately preceding the first date on which any property was destroyed or seized, as described in Section 24151a, or as of any later date falling within or before the taxable period, on the basis of which such determination will produce a greater amount.

Same Determination of allowable deduction

24151f The determination as to whether and to what extent an allowable deduction on account of the destruction or seizure of property described in Section 24151a did or did not result in a reduction of any tax of the taxpayer under this part shall be made in accordance with regulations prescribed by the Franchise Tax Board.

Limitation

24181e. The foregoing provisions of this article shall not apply in respect of any contract if the taxpayer shows to the satisfaction of the Franchise Tax Board that a different method of accounting for the amount of the payment, repayment, or disallowance clearly reflects income, and in such

case the payment, repayment, or disallowance shall be accounted for with respect to the income year provided for under such method.

Claims in abatement

24181e. If prior to the payment of the last installment of tax for the taxable year the taxpayer becomes entitled to the exclusions or deductions provided in this article for its income year, the taxpayer may, under regulations prescribed by the Franchise Tax Board, file a claim in abatement of any unpaid tax or portion thereof, but not in excess of the reduction in tax resulting from the application of this article.

Same: Reduction of tax

24181f. In any case in which a claim in abatement is filed pursuant to Section 24181f and the Franchise Tax Board makes such abatement, the tax disclosed by the original return shall, for the purpose of Article 1 of Chapter 11, be deemed to be reduced by the amount of the tax so abated.

Nondeductible items

24201d. Any amount otherwise allowable as a deduction which is allocable to one or more classes of income not included in the measure of the tax imposed by this part, regardless of whether such income was received or accrued during the income year.

(1) Any amount paid or accrued on indebtedness incurred or continued to purchase a single premium life insurance or endowment contract. If substantially all the premiums on a life insurance or endowment contract are paid within a period of four years from the date on which such contract is purchased, such contract shall be considered a single premium life insurance or endowment contract;

(2) Amounts paid or accrued for such taxes and carrying charges as, under regulations prescribed by the Franchise Tax Board, are chargeable to capital account with respect to property, if the taxpayer elects, in accordance with such regulations, to treat such taxes or charges as so chargeable.

Provision for allocation

24301. When the income of a taxpayer subject to the tax imposed by Chapter 2 is derived from or attributable to sources both within and without the State, the tax shall be measured by the net income derived from or attributable to sources within this State. Such income shall be determined by an allocation upon the basis of sales, purchases, expenses of manufacture, pay roll, value and situs of tangible property or by reference to any of these or other factors or by such other method of allocation as is fairly calculated to determine the net income derived from or attributable to sources within this State. Income from business carried on partly within and partly without this State shall be allocated in such a manner as is fairly calculated to apportion such income among the states or countries in which such business is conducted. Income attributable to isolated or occasional transactions in states or countries in which the taxpayer is not doing business shall be allocated to the state in which the taxpayer has its principal place of business or commercial domicile. Income derived from or attributable to sources within this State includes income from tangible or intangible property located or having a situs in this State and income from

any activities carried on in this State, regardless of whether carried on in intrastate, interstate or foreign commerce.

If the Franchise Tax Board reallocates net income upon its examination of any return, it shall, upon the written request of the taxpayer, disclose to him the basis upon which its reallocation has been made.

Combined report

24303. In the case of two or more taxpayers owned or controlled directly or indirectly by the same interests, the Franchise Tax Board may permit or require the filing of a combined report and such other information as it deems necessary and is authorized to impose the tax due under this part as though the combined entire net income was that of one corporation, or to distribute, apportion, or allocate the gross income or deductions between or among such taxpayers if it determines that such consolidation, distribution, apportionment, or allocation is necessary in order to prevent evasion of taxes or clearly to reflect the income of any such taxpayers.

Required reports

24303a. In the case of a corporation doing business within the meaning of this part, whether under agreement or otherwise, in such manner as either directly or indirectly to benefit the members or stockholders of the corporation, or any of them, or any person or persons, directly or indirectly interested in such business, by rendering services of any nature whatsoever, or acquiring or disposing of its products or the goods or commodities in which it deals, at less than a fair price therefore, the Franchise Tax Board, in order to prevent evasion of taxes or clearly to reflect the income of such corporation, may require a report of such facts as it deems necessary, and may determine the amount which shall be deemed to be the entire net income allocable to this State of the business of such corporation for the calendar or fiscal year, and compute the tax upon such net income. In determining the entire net income the Franchise Tax Board shall have regard to the fair profits which, but for any agreement, arrangement, or understanding, might be or could have been obtained from dealing in such products, goods or commodities.

Consolidated report

24303b. In the case of a corporation liable to report under this part owning or controlling, either directly or indirectly, another corporation, or other corporations, and in the case of a corporation liable to report under this part and owned or controlled, either directly or indirectly, by another corporation, the Franchise Tax Board may require a consolidated report showing the combined net income or such other facts as it deems necessary. The Franchise Tax Board is authorized and empowered, in such manner as it may determine, to assess the tax against either of the corporations whose net income is involved in the report upon the basis of the combined entire net income and such other information as it may possess, or it may adjust the tax in such other manner as it shall determine to be equitable if it determines it to be necessary in order to prevent evasion of taxes or to clearly reflect the net income earned by said corporation or corporations from business done in this State.

Acquisition of control of a corporation

24304. (a) If (1) any person or persons acquire, on or after October 8, 1940, directly or indirectly, control of a corporation, or (2) any corporation acquires, on or after October 8, 1940, directly or indirectly, property of another corporation, not controlled, directly or indirectly, immediately prior to such acquisition, by such acquiring corporation or its stockholders, the basis of which property, in the hands of the acquiring corporation, is determined by reference to the basis in the hands of the transferor corporation, and the principal purpose for which such acquisition was made is evasion or avoidance of tax under this part by securing the benefit of a deduction or other allowance which such person or corporation would not otherwise enjoy, then such deduction or other allowance shall not be allowed. For the purposes of clauses (1) and (2) of this subdivision, control means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote or at least 50 percent of the total value of shares of all classes of stock of the corporation.

(b) In any case to which subdivision (a) is applicable the Franchise Tax Board is authorized—

(1) To allow as a deduction or allowance any part of any amount disallowed by such subdivision, if it determines that such allowance will not result in the evasion or avoidance of tax for which the acquisition was made; or

(2) To distribute, apportion, or allocate gross income, and distribute, apportion, or allocate the deductions or allowances the benefit of which was sought to be secured, between or among the corporations, or properties, or parts thereof, involved, and to allow such deductions or allowances so distributed, apportioned, or allocated, but to give effect to such allowance only to such extent as it determines will not result in the evasion or avoidance of tax for which the acquisition was made; or

(3) To exercise its powers in part under paragraph (1) and in part under paragraph (2) of this subdivision.

Bond or waiver of statute of limitations

25031f-(1). If the transfer provided in Section 25031f of all the property does not occur within the income year, the Franchise Tax Board may require of the taxpayer such bond, or waiver of the statute of limitations on assessment and collection, or both, as it may deem necessary to insure, if the transfer of the property is not completed within such three-year period, or if the taxpayer does not continue qualified under paragraph (A) of Section 25031f until the completion of such transfer, the assessment and collection of all taxes imposed by this part then due or to become due, to the extent attributable to property so received. A distribution otherwise constituting a distribution in complete liquidation within the meaning of Section 25031f shall not be considered as not constituting such a distribution merely because it does not constitute a distribution or liquidation within the meaning of the corporate law under which the distribution is made; and for the purposes of Section 25031f a transfer of property of such other corporation to the taxpayer shall not be

considered as not constituting a distribution (or one of a series of distributions) in complete cancellation or redemption of all the stock of such other corporation, merely because the carrying out of the plan involves (i) the transfer under the plan to the taxpayer by such other corporation of property, not attributable to shares owned by the taxpayer, upon an exchange described in Section 25031d, and (ii) the complete cancellation or redemption under the plan, as a result of exchanges described in Section 25031c, of the shares not owned by the taxpayer.

Involuntary exchanges

25035. If property (as a result of its destruction in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation, or the threat or imminence thereof) is compulsorily or involuntarily converted into property similar or related in service or use to the property so converted, or into money which is forthwith in good faith, under regulations prescribed by the Franchise Tax Board, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund, no gain shall be recognized, but loss shall be recognized. If any part of the money is not so expended, the gain, if any, shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more income years and regardless of whether or not the money which is not so expended constitutes gain).

Exchanges involving foreign corporations

25038. In determining the extent to which gain shall be recognized in the case of any of the exchanges (made after January 1, 1928, for the purpose of the tax imposed under Chapter 2, or January 1, 1937, for the purpose of the tax imposed under Chapter 3) described in Sections 25031c to 25031f-(1), inclusive, or described in so much of Section 25032 as refers to Section 25031c or 25031e, or described in Section 25033, a corporation created or organized in a foreign country shall not be considered as a corporation unless, prior to such exchange, it has been established to the satisfaction of the Franchise Tax Board that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of income taxes or franchise taxes imposed by this State.

Sale, etc., necessary to effectuate FCC policies

25042. If the sale or exchange of property (including stock in a corporation) is certified by the Federal Communications Commission to be necessary or appropriate to effectuate the policies of the commission with respect to the ownership and control of radio broadcasting stations, such sale or exchange shall, if the taxpayer so elects, be treated as an involuntary conversion of such property within the meaning of Section 25035. For the purposes of Section 25035 as made applicable by the provisions of this section, stock of a corporation operating a radio broadcasting station, whether or not representing control of such corporation, shall be treated as property similar or related in service or use to the property so converted. The part of the gain, if any, upon such sale or exchange to which Section 25035 is not applied shall nevertheless not be recognized, if the

taxpayer so elects, to the extent that it is applied to reduce the basis for determining gain or loss upon sale or exchange of property, of a character subject to the allowance for depreciation under Sections 24121g and 24121h, remaining in the hands of the taxpayer immediately after the sale or exchange, or acquired in the same taxable year. The manner and amount of such reduction shall be determined under regulations prescribed by the Franchise Tax Board. Any election made by the taxpayer under this section shall be made by a statement to that effect in the return for the income year in which the sale or exchange takes place and such election shall be binding for the income year and all subsequent income years.

Property acquired by gift

25071b. If the property was acquired by gift after December 31, 1920, the basis shall be the same as it would be in the hands of the donor or the last preceding owner by whom it was not acquired by gift, except that if such basis (adjusted for the period prior to the date of the gift as provided in Sections 25101 to 25101c, inclusive) is greater than the fair market value of the property at the time of the gift, then for the purpose of determining loss the basis shall be such fair market value. If the facts necessary to determine the basis in the hands of the donor or the last preceding owner are unknown to the donee, the Franchise Tax Board shall, if possible, obtain such facts from such donor or last preceding owner, or any other person cognizant thereof. If the Franchise Tax Board finds it impossible to obtain such facts, the basis in the hands of such donor or last preceding owner shall be the fair market value of such property as found by the Franchise Tax Board as of the date or approximate date at which, according to the best information that the Franchise Tax Board is able to obtain, such property was acquired by such donor or last preceding owner.

Property acquired during period of affiliation

25071(i). In the case of property acquired by a corporation, during a period of affiliation, from a corporation with which it was affiliated, the basis of such property, after such period of affiliation, shall be determined, in accordance with regulations prescribed by the Franchise Tax Board without regard to intercompany transactions in respect of which gain or loss was not recognized. The basis in case of property acquired by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or, in the case of a corporation subject to the tax imposed by Chapter 3, the Federal Revenue Act of 1938, shall be determined in accordance with regulations prescribed under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or in the case of a corporation subject to the tax imposed by Chapter 3, the Federal Revenue Act of 1938. The basis in the case of property held by a corporation

during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or, in the case of a corporation subject to the tax imposed by Chapter 3, or the Federal Revenue Act of 1938, shall be adjusted in respect of any items relating to such period, in accordance with regulations prescribed under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or in the case of a corporation subject to the tax imposed by Chapter 3, or the Federal Revenue Act of 1938, applicable to such period.

Stock rights

25071m. (a) If the property was acquired by a shareholder in a corporation and consists of rights to acquire stock in such corporation acquired by him after February 28, 1913, in a distribution by such corporation, and (1) the right to acquire such stock was acquired in an income year beginning before January 1, 1937, (except as provided in paragraph (b)), or (2) the right to acquire such stock was acquired in an income year beginning after December 31, 1936, and its distribution did not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States, then the basis of the stock in respect of which the rights were declared and the right to acquire stock, respectively, shall, in the shareholder's hands be determined by allocating between the stock and the right to acquire stock the adjusted basis of the stock, such allocation to be made under regulations which shall be prescribed by the Franchise Tax Board.

(b) If a stock right was acquired prior to January 1, 1928, for the purpose of the tax as imposed by Chapter 2, or prior to January, 1937, for the purpose of the tax imposed by Chapter 3 and it constituted income within the purview of the Sixteenth Amendment to the Constitution of the United States, the basis of the stock in respect of which the rights were declared shall not be affected and the basis of the right shall be its fair market value as of the date of its acquisition.

(c) Where the shareholder acquired the right to acquire such stock in an income year beginning before January 1, 1943, and sold the same, and there was included in the gross income for such year of sale the entire amount of the proceeds of such sale, then if before May 7, 1943, the taxpayer has not asserted (by claim for a refund or credit or otherwise) that any part of the proceeds of the sale of such rights should be excluded from gross income for the year of its sale, the basis of the stock shall be determined without regard to paragraphs (a) and (b), and no part of the proceeds of the sale of such rights shall ever be excluded from the gross income for the year of such sale.

Reduction of basis due to discharge of indebtedness

25101c. Where in the case of a taxpayer any amount is excluded from gross income under Section 23881e on account of

the discharge of indebtedness the whole or a part of the amount so excluded from gross income shall be applied in a reduction of the basis of any property held (whether before or after the time of the discharge) by the taxpayer during any portion of the income year in which such discharge occurred. The amount to be so applied (not in excess of the amount so excluded from gross income, reduced by the amount of any deduction disallowed under Section 23881e) and the particular properties to which the reduction shall be allocated, shall be determined under regulations (prescribed by the Franchise Tax Board) in effect at the time of the filing of the consent by the taxpayer referred to in Section 23881e. The reduction shall be made as of the first day of the income year in which the discharge occurred except in the case of property not held by the taxpayer on such first day, in which case it shall take effect as of the time the holding of the taxpayer began.

Accounting method

25201. The net income shall be computed upon the basis of the taxpayer's annual accounting period, fiscal year or calendar year as the case may be, in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made in accordance with such method as in the opinion of said Franchise Tax Board does clearly reflect the income. If the taxpayer's annual accounting period is other than a fiscal year, or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year.

Noninterest-bearing obligations

25202. If, in the case of a taxpayer owning any non-interest-bearing obligation issued at a discount and redeemable for fixed amounts increasing at stated intervals, the increase in the redemption price of such obligation occurring in the income year does not (under the method of accounting used in computing its net income) constitute income to taxpayer in such year, such taxpayer may, at its election made in its return for any income year beginning after December 31, 1942, treat such increase as income received in such income year. If any such election is made with respect to any such obligation, it shall apply also to all such obligations owned by the taxpayer at the beginning of the first income year to which it applies and to all such obligations thereafter acquired by taxpayer and shall be binding for all subsequent income years, unless upon application by the taxpayer the Franchise Tax Board permits taxpayer, subject to such conditions as the Franchise Tax Board deems necessary, to change to a different method. In the case of any such obligations owned by the taxpayer at the beginning of the first income year to which its election applies, the increase in the redemption price of such obligations occurring between the date of acquisition and the first day of such income year shall also be treated as income received in such income year.

Accounting period change

25203. If the taxpayer changes its accounting period from fiscal year to calendar year, from calendar year to fiscal year, or from one fiscal year to another, the net income shall, with the approval of the Franchise Tax Board, be computed on the basis of such new accounting period subject to the provisions of Sections 25203a to 25203e, inclusive.

Same Separate return

25203a. If a taxpayer, with the approval of the Franchise Tax Board, changes the basis of computing net income from fiscal year to calendar year, a separate return shall be made for the period between the close of the last fiscal year for which return was made and the following December 31st. If the change is from calendar year to fiscal year, a separate return shall be made for the period between the close of the last calendar year for which return was made and the date designated as the beginning of the fiscal year. If the change is from one fiscal year to another fiscal year a separate return shall be made for the period between the close of the former fiscal year and the date designated as the beginning of the new fiscal year.

Same Annual basis of net income

25203c. If a separate return is made by a taxpayer subject to the tax imposed by Chapter 2, under Section 25203a on account of a change in the accounting period, the net income, computed on the basis of the period for which separate return is made, referred to in this section as "the short period," shall be placed on an annual basis by multiplying the amount thereof by 12, and dividing by the number of months in the short period. The Franchise Tax Board shall compute the amount of a tax on the income placed on such annual basis, and shall allow the offset provided for in Sections 23185 to 23185b, inclusive, from such tax. The tax due under this section, which shall not be subject to offset, shall be such part of the tax, less the offset allowed, computed on such annual basis as the number of months in the short period is of 12 months.

Same Reduction of tax for short period

25203c-(1). If a taxpayer subject to the tax imposed by Chapter 2 establishes the amount of its net income for the period of 12 months beginning with the first day of the short period, computed as if such 12-month period were an income year, under the law applicable to such year, then the tax for the short period shall be reduced to an amount which is such part of the tax computed on the net income for such 12-month period as the net income computed on the basis of the short period is of the net income for the 12-month period. The taxpayer (other than a taxpayer to which the next sentence applies) shall compute the tax and file its return without the application of this section If the taxpayer has disposed of substantially all its assets prior to the end of such 12-month period, then in lieu of the net income for such 12-month period there shall be used for the purposes of this section the net income for the 12-month period ending with the last day of the short period. The tax computed under this section shall in no case be less than the tax computed on the net income for the short period without placing such net income on an annual basis. The benefits of this section shall not be allowed unless the taxpayer, at such time

as regulations prescribed hereunder require (but not after the time prescribed for the filing of the return for the first income year which ends on or after 12 months after the beginning of the short period), makes application therefor in accordance with such regulations. Such application, in case the return was filed without regard to this section, shall be considered a claim for credit or refund with respect to the amount by which the tax is reduced under this section. The Franchise Tax Board shall prescribe such regulations as it may deem necessary for the application of this section.

Same Different applicable law

25203d. Where there is a change in accounting periods the tax on any taxpayer for a period beginning in one calendar year (called "first calendar year") and ending in the following calendar year (called "second calendar year") where the law applicable to the computation of taxes for calendar year taxpayers for the second calendar year is different from the law applicable to computation of taxes for calendar year taxpayers for the first calendar year, shall, except as otherwise provided, be the sum of:

(a) The same proportion of a tax for the entire period, determined under the law and rates applicable to the first calendar year which the portion of the period falling within the first year is of the entire period; and

(b) The same proportion of a tax for the entire period, determined under the law and rates applicable to the second calendar year which the portion of the period falling within the second calendar year is of the entire period.

Any tax that has been paid under the law applicable to the first calendar year if in excess of the tax imposed by this section shall be refunded or credited to the taxpayer as provided in Chapter 13. Any tax in addition to that paid under the law applicable to the first calendar year made necessary by this article shall be immediately due and payable upon notice and demand from the Franchise Tax Board.

Contract performance

25203e. Where a corporation subject to the tax imposed by Chapter 2 is engaged in the performance of a contract in this State which will require more than a year to complete, the Franchise Tax Board may require that the income from the contract be reported on the basis of percentage of completion unless the corporation furnishes bond or other security guaranteeing the payment of a tax measured by the income received on the completion of the contract, even though the corporation is not doing business in this State in the year subsequent to the year of completion.

Inventory

25231. Whenever, in the opinion of the Franchise Tax Board, the use of inventories is necessary clearly to determine the income of any taxpayer, inventory shall be taken by such taxpayer upon such basis as the Franchise Tax Board may prescribe, conforming as nearly as may be to the best accounting practice and most clearly reflecting the income

Limitations

25232a. The method described in Section 25232 may be used (1) only in inventorying goods (required under Section

25231 to be inventoried) specified in an application to use such method filed at such time and in such manner as the Franchise Tax Board may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the Franchise Tax Board that the taxpayer has used no procedure other than that specified in paragraphs (2) and (3) of Section 25232 in inventorying such goods to ascertain the income, profit, or loss of the first income year for which the method described in Section 25232 is to be used, for the purpose of a report or statement covering such income year (i) to shareholders, partners, or other proprietors, or to beneficiaries, or (ii) for credit purposes.

Regulations

25232b. The change to, and the use of, such method shall be in accordance with such regulations as the Franchise Tax Board may prescribe as necessary in order that the use of such method may clearly reflect income.

Change of method

25232d. If a taxpayer, having complied with Section 25232a, uses the method described in Section 25232 for any income year, then such method shall be used in all subsequent income years unless with the approval of the Franchise Tax Board a change to a different method is authorized; or the Franchise Tax Board determines that the taxpayer has used for any such subsequent income year some procedure other than that specified in subdivision (b) of Section 25232 in inventorying the goods specified in the application to ascertain the income, profit, or loss of such subsequent income year for the purpose of a report or statement covering such income year (i) to shareholders, partners, or other proprietors, or beneficiaries, or (ii) for credit purposes; and requires a change to a method different from that prescribed in Section 25231 beginning with such subsequent income year or any income year thereafter.

In either of the above cases, the change to, and the use of, the different method shall be in accordance with such regulations as the Franchise Tax Board may prescribe as necessary in order that the use of such method may clearly reflect income.

Adjustment due to involuntary liquidation

25261. If, for any income year beginning after December 31, 1942, and prior to the termination of the present war as proclaimed by the President of the United States, the closing inventory of a taxpayer inventorying goods under the method provided in this article or Article 2 reflects a decrease from the opening inventory of such goods for such year, and if, at the time of the filing of the taxpayer's return for such year, the taxpayer elects to have the provisions of this section apply and so notifies the Franchise Tax Board, and if, at the time of such election, it is established to the satisfaction of the Franchise Tax Board, in accordance with such regulations as the Franchise Tax Board may prescribe, that such decrease is attributable to the involuntary liquidation of such inventory as defined in Section 25261a, and if the closing inventory of a subsequent income year, ending not more than three years after the termination of the present war as proclaimed by the President, reflects a replacement, in whole or in part, of the goods so previously liquidated, the net income of the taxpayer otherwise determined for

the year of such involuntary liquidation shall be adjusted as follows:

(a) Increased by an amount equal to the excess, if any, of the aggregate cost of such goods reflected in the opening inventory of the year of involuntary liquidation over the aggregate replacement cost; or

(b) Decreased by an amount equal to the excess, if any, of the aggregate replacement cost of such goods over the aggregate cost thereof reflected in the opening inventory of the year of the involuntary liquidation.

The taxes imposed by this part for the year of such liquidation and for all income years intervening between such year and the year of replacement shall be redetermined, giving effect to such adjustments. Any increase in such taxes resulting from such adjustments shall be assessed and collected as a deficiency but without interest, and any overpayment so resulting shall be credited or refunded to the taxpayer without interest.

Notice of deficiency

25261d. If the adjustments specified in Section 25261 are, with respect to any income year, prevented, on the date of the filing of the return of the taxpayer for the year of the replacement, or within three years from such date, by any provision or rule of law (other than this section), such adjustments shall nevertheless be made if, in respect of the income year for which the adjustment is sought, a notice of deficiency is mailed or a claim for refund is filed, as the case may be, within three years after the date of the filing of the return for the year of replacement. If, at the time of the mailing of such notice of deficiency or the filing of such claim for refund, the adjustment is so prevented, then the amount of the adjustment authorized by this article shall be limited to the increase or decrease of the tax imposed by this part previously determined for such income year which results solely from the effect of Section 25261, and such amount shall be assessed and collected, or credited or refunded, in the same manner as if it were a deficiency or an overpayment, as the case may be, for such income year and as if, on the date of the filing of the return for the year of the replacement, three years remain before the expiration of the periods of limitation upon assessment or the filing of claim for refund for the income year. The tax previously determined shall be ascertained in accordance with rules and regulations prescribed by the Franchise Tax Board. The amount to be assessed and collected under this paragraph in the same manner as if it were a deficiency, or to be credited or refunded in the same manner as if it were an overpayment, shall not be diminished by any credit or set-off based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of Section 25261. Such amount, if paid, shall not be recovered by a claim or suit for refund, or suit for erroneous refund based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of Section 25261.

Installment plan

25291. Under regulations prescribed by the Franchise Tax Board a taxpayer which regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any income year that proportion of the installment payments actually received in that year which the gross profit realized or to be realized when payment is completed, bears to the total contract price.

Casual sales or disposition of property

25292. In the case (a) of a casual sale or other casual disposition of personal property (other than property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the income year), for a price exceeding one thousand dollars ($1,000) or (b) of a sale or other disposition of real property, if in either case the initial payments do not exceed 30 percent of the selling price, (or, if the taxpayer is subject to the tax imposed by Chapter 3, in case the sale or other disposition was in a taxable year beginning prior to January 1, 1934, the percentage of the selling price prescribed in the law applicable to such year) the income may, under regulations prescribed by the Franchise Tax Board be returned on the basis and in the manner prescribed by this article. As used in this article the term "initial payments" means the payments received in cash or property other than evidences of indebtedness of the purchaser during the income year in which the sale or other disposition is made.

"Initial payments"

Transfer of installment obligation

25295. (a) Where a taxpayer subject to the tax imposed by Chapter 2, elects to report income from the sale or other disposition of property as provided in this article and the entire income therefrom has not been reported prior to the year of dissolution or withdrawal of the taxpayer, or cessation of business by the corporation, the remainder of the income therefrom shall be included in the computation of the measure of the tax for the last year in which the bank was located or the corporation did business in this State. Abatement shall not be allowed under the provisions of Sections 23331 to 23333, inclusive, for any tax measured by such income. This section shall not be applicable where the installment obligation is transferred pursuant to a reorganization as defined in Article 2 of Chapter 8 to another bank or corporation a party to the reorganization if the transferee is located or doing business in this State at the time of the transfer or immediately thereafter. The determination of any deficiency resulting from this section shall be made under the provisions of Chapter 11, Article 1, but the period of limitation under that article, and the accrual of interest under Chapter 12, Article 1 shall commence on the date of dissolution or withdrawal of the taxpayer or on the last day of the year of cessation of business by the corporation.

(b) If the Franchise Tax Board determines that the reporting of income from the sale or other disposition of property in the manner provided in this article may jeopardize the collection of a tax measured by such income, then, unless the taxpayer posts bond or other security in a form and amount

satisfactory to the Franchise Tax Board to guarantee the payment of any tax that may become due measured by such income, the Franchise Tax Board may require that any of such income not previously reported shall be included in the computation of the measure of the tax for the current year, or in case of a corporation, if the corporation has not done business in this State since the beginning of the current year, then in the computation of the measure of the tax for the last year during which the corporation did business in this State.

"Cessation of business"

(c) "Cessation of business" as herein used means the failure to do business during an entire taxable year.

Transmission of return

25401. Every taxpayer subject to the tax imposed by this part shall, within two months and 15 days after the close of its income year, transmit to the Franchise Tax Board a return in a form prescribed by it, specifying for the income year, all such facts as it may by rule, or otherwise, require in order to carry out the provisions of this part.

Time extension

25402. A reasonable extension of time for filing the return may be granted by the Franchise Tax Board whenever in its judgment good cause exists. Requests for extensions must be made on or before the due date for filing the return. The Franchise Tax Board is hereby required to keep a record of each extension and the reason therefor. No such extension or extensions shall aggregate more than six months from the due date for filing the return.

Verification

25403. Every return required by this part to be filed with the Franchise Tax Board shall be verified by an executive officer of the taxpayer.

Return forms

25404. Blank forms of returns shall be furnished by the Franchise Tax Board on application, but failure to secure such a form shall not release any taxpayer from the obligation of making a return hereunder.

Supplemental return

25431. (a) If the Franchise Tax Board believes that any taxpayer has failed to file a return, or to include in a return filed, either intentionally or through error, items of taxable income, it may require from the taxpayer a return or a supplementary return, under oath, in such form as it shall prescribe, of all the items of income which the taxpayer received during the year for which the return is made, whether or not taxable under this part.

(b) Every taxpayer required by the Federal Government to file a supplementary return shall file a supplementary return with the Franchise Tax Board.

(c) If from a supplementary return or otherwise the Franchise Tax Board finds that any items of taxable income have been omitted from the original return, it may require the items omitted to be disclosed to it, under oath of the taxpayer, and to be added to the original return.

(d) The supplementary return and the correction of the original return do not relieve the taxpayer from any penalty to which he may be liable under this part.

Percentage payable

25552a. In the case of taxpayers subject to the tax imposed by Article 3 of Chapter 2, there shall be due and payable from each such taxpayer on or before the fifteenth day following the mailing of notice by the Franchise Tax Board as provided in Section 23186a, or on or before the fifteenth day of the ninth month following the close of the income year whichever is later, a percentage of its net income as disclosed by its return which is equal to the percentage of the net income of corporations subject to the tax imposed by Article 2 of Chapter 2, other than public utilities as defined in the Public Utilities Act, required to be paid to the State or its political subdivisions as personal property taxes as determined by the Franchise Tax Board.

Time extension

25553. Where an extension of time for filing returns has been granted by the Franchise Tax Board, the first installment of the tax provided for in Sections 25551 or 25552 shall be paid prior to the expiration of such extension.

Form of payment

25555. In the case of taxpayers subject to the tax imposed by Chapter 2, all taxes and interest imposed under this part must be paid to the Franchise Tax Board in the form of remittances payable to the Franchise Tax Board, and it shall transmit such payments daily to the State Treasurer.

Same

25555a. In the case of taxpayers subject to the tax imposed by Chapter 3, the tax, and any additions thereto, imposed by this part, shall be paid to the Franchise Tax Board at Sacramento, or to its authorized representatives at any branch office. Remittances may be in the form of uncertified check, payable to the Franchise Tax Board, during such time and under such regulations as the Franchise Tax Board may prescribe, but if a check so received is not paid by the bank on which it is drawn, the taxpayer by whom such check is tendered shall remain liable for the payment of the tax, and all additions thereto, the same as if such check had not been tendered.

Examination of return

25661. As soon as practicable after the return is filed, the Franchise Tax Board shall examine it and shall determine the correct amount of the tax.

Additional tax

25662. If the Franchise Tax Board determines that the tax disclosed by the original return is less than the tax disclosed by its examination it shall mail notice or notices to the taxpayer at its post-office address, which must appear on its return, of the additional tax proposed to be assessed. Each notice shall set forth the details of the proposed additional assessment and of computing said tax

Notice

25663a. If any taxpayer agrees with the United States Commissioner of Internal Revenue for an extension, or renewals thereof, of the period for proposing and assessing deficiencies in federal income tax for any year, the period for mailing notices of proposed deficiency tax for such year shall, unless otherwise agreed between the Franchise Tax Board and the taxpayer, be four years after the return was filed or six months after the date of the expiration of the agreed period for assessing deficiencies in federal income tax, whichever period expires the later.

Protest

25664. Within 60 days after the mailing of the notice of additional tax proposed to be assessed the taxpayer may file with the Franchise Tax Board a written protest against the levy of the proposed additional tax, specifying in the protest the grounds upon which it is based.

Reconsideration

25666. If a protest is filed the Franchise Tax Board shall reconsider the computation and levy of the tax complained of, and if the taxpayer has so requested in its protest, shall grant the taxpayer, or its authorized representatives an oral hearing. After consideration of the protest and the evidence adduced in the event of such oral hearing, the Franchise Tax Board's action upon the protest is final upon the expiration of 30 days from the date when it mails notice of its action to the taxpayer unless within the 30-day period the taxpayer appeals in writing from the action of the Franchise Tax Board to the board.

Appeal

25667. The appeal shall be addressed and mailed to the State Board of Equalization at Sacramento, California, and a copy of the appeal addressed and mailed at the same time to the Franchise Tax Board at Sacramento, California. The board shall hear and determine the appeal and shall forthwith notify the taxpayer and the Franchise Tax Board of its determination and the reasons therefor. Such determination shall be final upon the expiration of 30 days from the time of such determination unless within such 30-day period the taxpayer or the Franchise Tax Board files a petition for rehearing with said board. In that event the board's determination shall not become final until the expiration of 30 days from the time the board issues its opinion on the petition.

Same
Rehearing

Deficiency

25668. When a deficiency is determined and the tax becomes final, the Franchise Tax Board shall mail notice and demand to the taxpayer for the payment thereof, and such tax shall be due and payable at the expiration of 10 days from the date of such notice and demand.

Certificate as prima facie evidence

25669. A certificate by the Franchise Tax Board or of the board, as the case may be, of the mailing of the notices specified in this article shall be prima facie evidence of the computation and levy of the deficiency in tax and of the giving of the notices.

Bankruptcy

25672. Upon the adjudication of bankruptcy of any taxpayer in any bankruptcy proceeding or the appointment of a receiver for any taxpayer in any receivership proceeding before any court of the United States or of any state or territory or of the District of Columbia, any deficiency (together with all interest, additional amounts, or additions to the tax provided for by law) determined by the Franchise Tax Board in respect of a tax imposed by this act upon such taxpayer may be immediately assessed. In such cases the trustee in bankruptcy or receiver shall give notice in writing to the Franchise Tax Board of the adjudication of bankruptcy or the appointment of the receiver, and the running of the statute of limitations on the making of assessments shall be suspended for the period from the date of adjudication in bankruptcy or the appointment of the receiver

to a date 30 days after the date upon which the notice from the trustee or receiver is received by the Franchise Tax Board; but the suspension under this sentence shall in no case be for a period in excess of two years. Claims for the deficiency and such interest, additional amounts and additions to the tax may be presented, for adjudication in accordance with law, to the court before which the bankruptcy or receivership proceeding is pending, despite the pendency of proceedings for the redetermination of the deficiency in pursuance of a petition to the board but no petition for any such redetermination shall be filed with said board after the adjudication of bankruptcy or the appointment of the receiver.

Any portion of the claim allowed in such bankruptcy or receivership proceeding which is unpaid shall be paid by the taxpayer upon notice and demand from the Franchise Tax Board after determination of such proceeding and may be collected in the manner provided in this part for the collection of delinquent taxes at any time within six years after termination of such proceeding.

All of the provisions of this section applying to a trustee in bankruptcy or a receiver shall apply to an assignee for the benefit of the creditors of a corporation.

Period of limitation

25702. The period of limitation for assessment of the liability of any bank, corporation or person other than the taxpayer who is a transferee or fiduciary of the taxpayer shall be as follows:

(1) In the case of the liability of an initial transferee of the property of the taxpayer, within one year after the expiration of the period of limitation for assessment against the taxpayer;

(2) In the case of the liability of a transferee of a transferee of the property of the taxpayer, within one year after the expiration of the period of limitation for assessment against the preceding transferee, but only if within three years after the expiration of the period of limitation for assessment against the taxpayer; except that if before the expiration of the period of limitation for the assessment of the liability of the transferee, a court proceeding for the collection of the tax or liability in respect thereof has been begun against the taxpayer or last preceding transferee, respectively, then the period of limitation for assessment of the liability of the transferee shall expire one year after the return of execution in the court proceeding.

(3) In the case of the liability of a fiduciary, not later than one year after the liability arises or not later than the expiration of the period for collection of the tax in respect of which such liability arises, whichever is the later;

(4) Where before the expiration of the time prescribed in paragraph (1), (2), or (3) for the assessment of the liability, both the Franchise Tax Board and the transferee or fiduciary have consented in writing to its assessment after such time, the liability may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be

extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

Fraudulent, etc., return

25731. If any taxpayer files a false or fraudulent return, or fails or neglects to file a return, with intent to evade tax, the Franchise Tax Board, at any time, may require a return, or a supplementary return, under oath, or may make an estimate of the net income from any available information, and may propose to assess the amount of tax, interest and penalties due. All the provisions of this part relative to delinquent taxes shall be applicable to the tax, interest and penalties computed hereunder.

Protest

25731a. When any assessment is proposed under Section 25731 the taxpayer shall have the right to protest the same and to have an oral hearing thereon if requested; also to appeal to the board from the Franchise Tax Board's action on the protest; the taxpayer must proceed under this paragraph in the manner and within the time prescribed by Article 1.

Failure to make return

25732. If, in the case of a taxpayer subject to the tax imposed by Chapter 2, any return required by this part is not made, the Franchise Tax Board, at any time, may require a return, under oath, or may make an estimate of the net income, from any available information, and may compute and levy the amount of tax, interest and penalties due under this part. All the provisions of this part, not in conflict herewith, relative to delinquent taxes shall be applicable to the tax, interest and penalties computed and levied hereunder A proceeding in court for the collection of the tax, interest and penalties provided for in this section may be begun without assessment at any time.

Jeopardy assessments

25761. If the Franchise Tax Board finds that the assessment or collection of a tax or deficiency for any year, current or past, will be jeopardized in whole or in part by delay, it may mail or issue notice of its finding to the taxpayer, together with a demand for immediate payment of the tax or deficiency declared to be in jeopardy, including interest and penalties and additions thereto.

In the case of a tax for a current period, the Franchise Tax Board may declare the income period of the taxpayer immediately terminated and shall mail or issue notice of its findings and declaration to the taxpayer, together with a demand for a return and immediate payment of the tax based on the period declared terminated, including therein income accrued and deductions incurred up to the date of termination if not otherwise properly includible or deductible in respect of such period, and such tax shall be immediately due and payable whether or not the time otherwise allowed by law for filing the return and paying the tax has expired.

Same Stay of collection

25761a. The jeopardy assessments provided for in this article shall be immediately due and payable and proceedings for collection may be commenced at once. The taxpayer may stay collection and prevent the jeopardy assessment from becoming final by filing, within 10 days after the date of mailing or issuing the notice of jeopardy assessment, a petition for reassessment, accompanied by a bond or other security in such amount

as the Franchise Tax Board may deem necessary, not exceeding double the amount, including interest, penalties, and additions thereto, as to which the stay is desired. The Franchise Tax Board shall consider such petition for reassessment, and notify the taxpayer of its decision thereon, which decision shall be final.

If the taxpayer requests in its petition, the Franchise Tax Board shall grant an oral hearing to the taxpayer, or its authorized representative.

If a petition for reassessment, accompanied by bond or other security, is not filed within the 10-day period, the assessment shall become final.

Findings of board

25761b. In any proceedings brought to enforce payment of taxes made due and payable under this article, the findings of the Franchise Tax Board, whether or not made after notice to the taxpayer, shall be for all purposes presumptive evidence that the assessment or collection of the tax or the deficiency was in jeopardy. A certificate of the Franchise Tax Board of the mailing or issuing the notices specified in this article shall be presumptive evidence that the notices were mailed or issued.

Erroneous inclusion, etc

25902. When the correction of an erroneous inclusion or deduction of an item in the computation of income of any year results in an overpayment for one year and a deficiency for another year, the overpayment, if the period within which credit for the overpayment may be allowed has not expired, shall be credited on the deficiency, if the period within which the deficiency may be proposed has not expired, and the balance, if any, shall be credited or refunded as provided in Chapter 13. No interest shall be assessed on such portion of the deficiency as is extinguished by the credit for the period of time subsequent to the date the overpayment was made.

Notwithstanding Chapter 13, Article 1, no interest shall in any case be allowed on any overpayment to the extent credited on deficiencies pursuant to this article.

This section does not limit the Franchise Tax Board's right to offset or recoup barred assessments against overpayments.

Failure to file return

25931. If any taxpayer fails to make and file a return required by this part on or before the due date of the return or the due date as extended by the Franchise Tax Board, then, unless it is shown that the failure is due to reasonable cause and not due to wilful neglect, 5 percent of the tax shall be added to the tax for each 30 days or fraction thereof elapsing between the due date of the return and the date on which filed, but the total addition shall not exceed 25 percent of the tax. The amount so added to the tax shall be due and payable upon notice and demand from the Franchise Tax Board.

Same
Levy of tax

25932. If any taxpayer, upon notice and demand by the Franchise Tax Board, fails or refuses to make and file a return required by this part, the Franchise Tax Board is authorized to make an estimate of the net income and to compute and levy the amount of the tax due from any available information. In such case 25 percent of the tax, in addition to the amounts added under Section 25931, shall be added to the tax and shall be due and payable upon notice and demand from the Franchise Tax Board.

Penalty

25933. If any taxpayer fails or refuses to furnish any information requested in writing by the Franchise Tax Board, the Franchise Tax Board may add a penalty of 25 percent of the amount of any additional tax assessed by it concerning the determination of which such information was required.

25961. Any taxpayer failing or refusing to furnish any return required to be made under this part or failing or refusing to furnish a supplemental return or other data required by the Franchise Tax Board, or rendering a false or fraudulent return, shall be guilty of a misdemeanor and subject to a fine of not exceeding five thousand dollars ($5,000) for each offense.

The district attorney of the county in which the violation occurred, must prosecute such offense.

Overpayment

26071. If the Franchise Tax Board or the board finds that there has been an overpayment of tax, penalty or interest by a taxpayer for any year for any reason, the amount of the overpayment shall be credited against any taxes then due from the taxpayer and the balance refunded to the taxpayer or its successor through reorganization, merger, or consolidation, or to its shareholders upon dissolution.

26073. No such credit or refund shall be allowed or made after four years from the last day prescribed for filing the return or after one year from the date of the overpayment, whichever period expires the later, unless before the expiration of such period a claim therefor is filed by the taxpayer, or unless before the expiration of such period the Franchise Tax Board has certified the overpayment to the State Board of Control for approval of the refunding or the crediting thereof. Time limitation

26073a. If (a), the taxpayer has, within the period prescribed in, agreed in writing, under the provisions of Chapter 11, Article 1, to extend the time within which the Franchise Tax Board may propose an additional assessment, or, (b) the taxpayer has agreed with the United States Commissioner of Internal Revenue for an extension, or renewals thereof, of the period for proposing and assessing deficiencies in federal income tax for any year, the period within which a claim for credit or refund may be filed, or credit or refund allowed or made if no claim is filed, shall be the period within which the Franchise Tax Board may make an assessment under such circumstances. The provisions of this section shall apply to any claim filed, or credit or refund allowed or made, before the execution of such agreements. Time extension

26075. If the Franchise Tax Board disallows any claim for refund, it shall notify the taxpayer accordingly. At the expiration of 90 days from the mailing of the notice, the Franchise Tax Board's action upon the claim shall be final unless within the 90 days the taxpayer appeals in writing from the action of the Franchise Tax Board to the board. Notice

26076. If the Franchise Tax Board fails to mail notice of action on any refund claim within six months after the claim is filed, the taxpayer may, prior to mailing of notice of action on the refund claim, consider the claim disallowed and appeal to the board. Failure to mail notice

26077. Appeals must be addressed and mailed to the State Board of Equalization at Sacramento, California, and a copy addressed and mailed at the same time to the Franchise Tax Board at Sacramento, California. The board shall hear and determine the same and thereafter shall forthwith notify the taxpayer and the Franchise Tax Board of its determination. The board's determination is final upon the expiration of 30 days from determination unless the taxpayer or the Franchise Tax Board files a petition for rehearing with the board within said 30 days. In that event the board's determination is not final until the expiration of 30 days from the date the board issues its opinion on the petition. Appeal

26078. If, after filing a protest or an appeal to the board, a taxpayer pays the tax protested before the Franchise Tax Board acts upon the protest or the board on the appeal, the protest or appeal shall be treated as a claim for refund or an appeal from the denial of a claim for refund filed under this article. Payment before action by the board

26080. Interest shall be allowed and paid upon any overpayment of any tax, if the overpayment was made because of an Interest

(b) In the case of a refund, from the date of the overpayment to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the Franchise Tax Board.

Void tax claim

26102. Any taxpayer claiming that the tax computed and levied against it pursuant to Articles 1 and 4 of Chapter 11 of this part is void in whole or in part may bring an action against the Franchise Tax Board for the recovery of the whole or any part of the amount paid.

Time limitation, etc

26103. The action provided by Section 26102 shall be filed within four years from the last date prescribed for filing the return or within one year from the date the tax was paid, whichever period expires the later. No action shall be filed for the recovery of a deficiency assessment unless the taxpayer has filed a protest of the assessment with the Franchise Tax Board, or unless the taxpayer has filed a claim for refund of the tax in question.

Action to recover deficiency assessment

26103a. Within 90 days after the mailing of the notice of the Franchise Tax Board's action upon any refund claim, or of the notice of the board's determination of an appeal, the taxpayer may bring an action against the Franchise Tax Board on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

If the Franchise Tax Board fails to mail notice of action on any refund claim within six months after the claim was filed, the taxpayer may, prior to mailing of notice of action on the refund claim, consider the claim disallowed and bring an action against the Franchise Tax Board on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

Service of summons

26104. Whenever an action is commenced against the Franchise Tax Board under the provisions of this article, a copy of the complaint and the summons shall be served upon the Franchise Tax Board or the executive officer. A second copy of the complaint and summons shall be furnished to the Franchise Tax Board, but this requirement is not jurisdictional. At the time the Franchise Tax Board demurs or answers, it may demand that the action be tried in the Superior Court of the County of Sacramento, which demand shall be granted. The Attorney General or the counsel for the Franchise Tax Board shall defend the action. In any such action the court may render judgment for plaintiff for any part of the tax, interest, penalties or costs found to be void.

Substitution of the board

26105. In all actions pending on July 25, 1939, against the State Treasurer under this part, the Franchise Tax Board shall be substituted for the State Treasurer by the court in

which the action is pending. This substitution shall not in any way affect the rights of the plaintiff in the action.

Amount of judgment credited

26106. The amount of any judgment rendered against the Franchise Tax Board shall first be credited against any taxes and interest due from the taxpayer under this part and the remainder refunded to the taxpayer or its successor by the State Treasurer on warrants drawn by the Controller.

Interest

26107. In any judgment of any court rendered for any overpayment of tax imposed by this part, interest shall be allowed at the rate of 6 percent per annum upon the amount of the overpayment, from the date of the payment or collection thereof to the date of allowance of credit on account of the judgment or to a date determined by the Franchise Tax Board preceding the date of the refund warrant by not more than 30 days.

Withholding tax

26131. In the case of a taxpayer subject to the tax imposed by Chapter 2, the Franchise Tax Board may, by regulation, require any bank, corporation or person, or any officer or department of the State or any political subdivision or agency of the State, to withhold from payments of interest, other than interest coupons payable to bearer, dividends, rent, prizes, winnings, and compensation for personal services, including bonuses, a percentage equal to the rate of tax measured by income imposed by this part on the payee and to transmit the amounts withheld to the Franchise Tax Board at such time as it may designate. Any bank, corporation or person failing to withhold from any payments and transmit to the Franchise Tax Board any amounts required by such regulation to be withheld and transmitted is liable for any taxes due from the taxpayer to which the payments are made for the year in which made to an extent not in excess of the amounts required to be withheld, unless it is shown that the failure is due to reasonable cause.

Same

26131a. In the case of taxpayers subject to the tax imposed by Chapter 3, the Franchise Tax Board may, by regulation, require any bank, corporation or person, or any officer or department of the State, or any political subdivision or agency of the State, to withhold from payments of interest, other than interest coupons payable to bearer, dividends, rent, prizes, winnings, and fees, commissions, compensation for personal services, including bonuses, an amount equal to the tax that would be imposed by this part upon such payments if they, together with all similar payments since the beginning of the calendar year, represented net income of the payee and to transmit the amounts withheld to the Franchise Tax Board at such time as it may designate. Any bank, corporation or person failing to withhold from any payments and transmit to the Franchise Tax Board any amounts required by such regulation to be withheld and transmitted shall be liable for any taxes due from the taxpayer to which such payments are made for the year in which made to an extent not in excess of the amounts required to be withheld, unless it is shown that the failure is due to reasonable cause.

Same

26132. The Franchise Tax Board may by notice, served personally or by registered mail, require any bank, corporation or person, and any officer or department of the State or any political subdivision or agency of the State, to withhold from any payments of any nature to any taxpayer the amount of any tax, interest or penalties due from the taxpayer and to transmit the amount withheld to the Franchise Tax Board at such times as it may designate. Any bank, corporation or person failing to withhold the tax due from any taxpayer and transmit the tax to the Franchise Tax Board after service of such a notice shall be liable for such tax.

Same Legal action

26133. Any bank, corporation or person required to withhold and transmit any amount to the Franchise Tax Board under this article shall comply with the requirement without resort to any legal or equitable action and any bank, corporation or person paying to the Franchise Tax Board any amount required by it to be withheld is not liable therefor to the taxpayer from which withheld unless the amount withheld is refunded to the withholding agent. A bank, corporation or person required under this article to withhold payments from a taxpayer may file an action in interpleader when a bona fide dispute has arisen as to priority of lien between the tax levied under this part and that of a federal taxing agency.

Remedies

26134. Any taxpayer from which a tax is collected by withholding under this section shall be entitled to the remedies set forth in Chapter 13. Any refund of such tax under Chapter 13 shall be made to the withholding agent instead of directly to the taxpayer, if requested in writing by the withholding agent at the time the amounts refundable were transmitted to the Franchise Tax Board.

Lien

26161. If any tax, interest or penalty imposed by this part is not paid when due, the Franchise Tax Board may within three years after the amount of the tax, interest and penalty is due, file for record in the office of any county recorder a certificate specifying the amount of the tax, interest and penalty due, the name and last known address of the taxpayer liable for the amount, and the fact that the Franchise Tax Board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount of the tax, interest and penalty set forth constitutes a lien upon all property of the taxpayer in the county, owned by the taxpayer or afterward and before the lien expires acquired by it. The lien has the force, effect and priority of a judgment lien and shall continue for five years from the time of the filing for record of the certificate unless sooner released or otherwise discharged. The lien, may, within five years from the date of the filing for record of the certificate or within five years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the

real property in such county for five years unless sooner released or otherwise discharged.

Same
Release

26162. The Franchise Tax Board may, at any time, release all or any portion of the property subject to the lien from the lien or subordinate the lien to other liens if it determines that the taxes are sufficiently secured by a lien on other property of the taxpayer or that the release or subordination of the lien will not endanger or jeopardize the collection of such taxes. A certificate by the Franchise Tax Board to the effect that any property has been released from the lien or that such lien has been subordinated to other liens shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Warrant

26191 A warrant may be issued by the Franchise Tax Board for the collection of any tax, interest or penalty and for the enforcement of any lien, directed to any sheriff, constable or marshal. The warrant shall have the same force and effect as a writ of execution. It may and shall be levied and sale made pursuant to it in the same manner and with the same force and effect as a levy of and sale pursuant to a writ of execution. The sheriff, constable or marshal shall receive upon the completion of his services pursuant to said warrant, and the Franchise Tax Board is authorized to pay to said sheriff, constable or marshal, the same fees, commissions and expenses in connection with services pursuant to said warrant as are provided by law for similar services pursuant to a writ of execution; provided, that fees for publication in a newspaper shall be subject to approval by the Franchise Tax Board rather than by the court. Such fees, commissions and expenses shall be an obligation of the taxpayer and may be collected from the taxpayer by virtue of the warrant or in any other manner provided in this part for the collection of a tax.

Collection
by seizure
and sale

26221. At any time within which an action can be brought to collect any delinquent amounts as provided in Article 5, the Franchise Tax Board may collect the tax, together with penalties and interest, in the following manner: The Franchise Tax Board shall seize any personal property owned by the taxpayer against whom the tax is assessed, and thereafter sell at public auction such property so seized, or a sufficient portion thereof, to pay the tax due hereunder, together with any interest, and any penalty or penalties imposed hereby for such delinquency, and any and all costs that may have been incurred on account of such seizure and sale. Notice of such intended sale and the time and place thereof, shall be given to such delinquent taxpayer and to all persons appearing of record to have an interest in such property, in writing at least 10 days before the date set for such sale by enclosing such notice in an envelope addressed to said taxpayer at its last known place of business in this State if any, and, in the case of any person appearing of record to have an interest in such property, addressed to such person at the last known place of residence, if any, and depositing the same in the United States mail, postage prepaid, and

The said notice shall contain a description of the property to be sold, together with a statement of the amount of the taxes, interest, penalties and costs, the name of the taxpayer, and the further statement that, unless such taxes, interest, penalties and costs are paid on or before the time fixed in said notice for such sale, said property, or so much thereof as may be necessary, will be sold in accordance with law and said notice.

Same Procedure

26222. At any such sale, the property shall be sold by said Franchise Tax Board or its duly authorized agent in accordance with law and said notice, and the Franchise Tax Board shall deliver to the purchaser a bill of sale for the property so sold and such bill of sale shall vest title in the purchaser. The unsold portion of any property so seized may be left at the place of sale at the risk of said taxpayer. If, upon any such sale, the moneys so received shall exceed the amount of all taxes, interest, penalties and costs due the State from such taxpayer, any such excess shall be returned to the taxpayer and a receipt therefor obtained; provided, however, that if any person having an interest in or lien upon the property has filed with the Franchise Tax Board prior to any such sale notice of such interest or lien the Franchise Tax Board shall withhold any such excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction.

If, for any reason, the receipt of such taxpayer shall not be available, the Franchise Tax Board shall deposit such excess moneys with the State Treasurer, as trustee for such owner, subject to the order of such taxpayer or its successor through reorganization, merger, or consolidation, or its stockholders upon dissolution.

Prosecution of action

26251. At any time within three years after the determination of liability for any tax, penalties, and interest, or any installment thereof, the Franchise Tax Board may bring an action in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California to collect the amount due, together with penalties, and interest. The Attorney General or counsel for the Franchise Tax Board shall prosecute the action. The action shall be tried in the County of Sacramento unless the court, with the consent of the Attorney General or the counsel for the Franchise Tax Board, orders a change of place of trial. In such action a writ of attachment may be issued, and no bond or affidavit previous to the issuing of said attachment is required.

Certificate prima facie evidence

26252. In such action a certificate by the Franchise Tax Board showing the amount due shall be prima facie evidence of the levy of the tax, penalties, and interest, of the delinquency and of compliance by the Franchise Tax Board and the board

with all the provisions of this part in relation to the computation and levy of the tax.

Legal action by the board

26253. The Franchise Tax Board may bring an appropriate action in any court of competent jurisdiction in the United States or in a foreign country, in the name of the people of the State of California, to recover the amount of any taxes and interest due under this act. The Attorney General of this State, or the counsel for the Franchise Tax Board shall prosecute such action.

Erroneous refund, etc

26281. Any refund or any portion thereof which is erroneously made, and any credit or any portion thereof which is erroneously allowed, may be recovered, together with interest at the rate of 6 percent per annum from the date the refund was made or the credit allowed, in an action brought by the Franchise Tax Board in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California.

Prosecution

26282. The Attorney General or the counsel for the Franchise Tax Board shall prosecute the action and such actions shall be tried in the County of Sacramento, unless the court, with the consent of the Attorney General or the counsel for the Franchise Tax Board, orders a change of place of trial.

Remedies of the State

26311. The remedies of the State provided in this chapter are cumulative and no action taken by the Franchise Tax Board constitutes an election by the State to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

Powers of the board

26422. The Franchise Tax Board shall have power and it shall be its duty to administer this part. It shall prescribe all such rules and regulations as are necessary and reasonable to carry out its provisions and may prescribe the extent, if any, to which any ruling or regulation shall be applied without retroactive effect.

Same

26423. The Franchise Tax Board and the board, for the purposes of administering their duties under this part, each shall have the powers conferred upon said board by Section 3669e of the Political Code of this State.

23911e. (1) A distribution made by a corporation to its shareholders in its shares or in rights to acquire its shares shall be treated as a dividend to the extent that it constitutes income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States.

(2) Whenever a distribution by a corporation is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either (A) in its shares or in rights to acquire its shares, of a class which if distributed without election would not be included in gross income under paragraph (1) of this section, or (B) in money or any other property (including its shares or rights to acquire its shares, of a class which if distributed without election would be included in gross income under paragraph (1) of this section), then the distribution shall constitute a taxable dividend in the hands of all shareholders, regardless of the medium in which paid.

SEC. 5. Section 24121f of the Revenue and Taxation Code is hereby amended to read:

Worthless debts

24121f. Debts which become worthless within the income year; or, in the discretion of the Franchise Tax Board, a reasonable addition to a reserve for bad debts. SEC. 6. Section 24181 of the Revenue and Taxation Code is hereby amended to read:

Contract renegotiation

24181. In the case of a contract with the United States or any agency thereof, or any subcontract thereunder, which is made by the taxpayer, if a renegotiation is made in respect of such contract or subcontract and an amount of excessive profits

received or accrued under such contract or subcontract for an income year (hereinafter referred to as "prior income year") is eliminated and, in an income year ending after December 31, 1941, the taxpayer is required to pay or repay to the United States or any agency thereof the amount of profits eliminated or the amount of profits eliminated is applied as an offset against other amounts due the taxpayer, then the profits so eliminated shall be excluded from gross income for the prior income year if they were included in gross income for the prior income year. For the purposes of this article—

"Renegotiation"

(a) The term "renegotiation" includes any transaction which is a renegotiation within the meaning of Section 403 of the Sixth Supplemental National Defense Appropriation Act (Public 528, Seventy-seventh Congress, Second Session) or such section, as amended, any modification of one or more contracts with the United States or any agency thereof, and any agreement with the United States or any agency thereof in respect of one or more such contracts or subcontracts thereunder.

"Excessive profits"

(b) "Excessive profits" includes any amount which constitutes excessive profits within the meaning assigned to such term by subsection (a) of Section 403 of the Sixth Supplemental National Defense Appropriation Act (Public 528, Seventy-seventh Congress, Second Session), as amended by the Revenue Act of 1942, any part of the contract price of a contract with the United States or any agency thereof, any part of the subcontract price of a subcontract under such a contract, and any profits derived from one or more such contracts, or subcontracts.

SEC. 7. Section 25031f of the Revenue and Taxation Code is hereby amended to read:

Distribution in complete liquidation

25031f. No gain or loss shall be recognized upon the receipt by a corporation of property distributed in complete liquidation of another corporation. For the purposes of this section a distribution shall be considered to be in complete liquidation only if:

(1) The corporation receiving such property was, on the date of the adoption of the plan of liquidation, and has continued to be at all times until the receipt of the property, the owner of stock (in such other corporation) possessing at least 80 per centum of the total combined voting power of all classes of stock entitled to vote and the owner of at least 80 per centum of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends), and was at no time on or after the date of the adoption of the plan of liquidation and until the receipt of the property the

owner of a greater percentage of any class of stock than the percentage of such class owned at the time of the receipt of the property; and

(2) No distribution under the liquidation was made before the first day of the first taxable year of the corporation beginning after December 31, 1935; and either

(3) The distribution is by such other corporation in complete cancellation or redemption of all its stock, and the transfer of all the property occurs within the income year; in such case the adoption by the shareholders of the resolution under which is authorized the distribution of all the assets of such corporation in complete cancellation or redemption of all its stock, shall be considered an adoption of a plan of liquidation, even though no time for the completion of the transfer of the property is specified in such resolution; or

(4) Such distribution is one of a series of distributions by such other corporation in complete cancellation or redemption of all its stock in accordance with a plan of liquidation under which the transfer of all the property under the liquidation is to be completed within three years from the close of the taxable year during which is made the first of the series of distributions under the plan, except that if such transfer is not completed within such period, or if the taxpayer does not continue qualified under paragraph (1) until the completion of such transfer, no distribution under the plan shall be considered a distribution in complete liquidation.

SEC. 8. Section 25031f-(1) of the Revenue and Taxation Code is hereby amended to read:

Transfer not within income year

25031f-1. If the transfer provided in Section 25031f of all the property does not occur within the income year, the Franchise Tax Board may require of the taxpayer such bond, or waiver of the statute of limitations on assessment and collection, or both, as it may deem necessary to insure, if the transfer of the property is not completed within such three-year period, or if the taxpayer does not continue qualified under paragraph (1) of Section 25031f until the completion of such transfer, the assessment and collection of all taxes imposed by this part then due or to become due, to the extent attributable to property so received. A distribution otherwise constituting a distribution in complete liquidation within the meaning of Section 25031f shall not be considered as not constituting such a distribution merely because it does not constitute a distribution or liquidation within the meaning of the corporate law under which the distribution is made; and for the purposes of Section 25031f a transfer of property of such other corporation to the taxpayer shall not be considered as not constituting a distribution (or one of a series of distributions) in complete cancellation or redemption of all the stock of such other corporation, merely because the carrying out of the plan involves (a) the transfer under the plan to the taxpayer by such other corporation of property, not attributable to shares owned by the taxpayer, upon an exchange described in Section 25031d, and (b) the complete cancellation or redemp-

tion under the plan, as a result of exchanges described in Section 25031c, of the shares not owned by the taxpayer.

SEC. 9. Section 25031h of the Revenue and Taxation Code is hereby amended to read:

Railroad corporation property 11 U.S.C. §205

25031h. No loss shall be recognized if property of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, is transferred, after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation—

(1) In a receivership proceeding, or

(2) In a proceeding under Section 77 of the National Bankruptcy Act, as amended,

to a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding. The term "reorganization," as used in this section shall not be limited by the definition of such term in Section 25036.

SEC. 10. Section 25031i of the Revenue and Taxation Code is hereby amended to read:

Transfer under court order

25031i. No gain or loss shall be recognized if property of a corporation (other than a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended) is transferred in pursuance of an order of the court having jurisdiction of such corporation—

(1) In a receivership, foreclosure, or similar proceeding, or

(2) In a proceeding under Section 77B or Chapter X of the National Bankruptcy Act, as amended,

to another corporation organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, in exchange solely for stock or securities in such other corporation.

SEC. 11. Section 25032 of the Revenue and Taxation Code is hereby amended to read:

Extent of gain

25032. (a) If an exchange would be within the provisions of Sections 25031a, 25031b, 25031c, or 25031e, or within the provisions of Section 25041, if it were not for the fact that the property received in exchange consists not only of property permitted by said sections to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(b) If a distribution made in pursuance of a plan of reorganization is within the provisions of paragraph (a) of this section but has the effect of the distribution of a taxable dividend, then there shall be treated as a dividend to each distributee such an amount of the gain recognized under paragraph (a) as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain

recognized under paragraph (a) shall be treated as a gain from the exchange of property.

SEC. 12. Section 25033 of the Revenue and Taxation Code is hereby amended to read:

Same

25033. If an exchange would be within the provisions of Sections 25031d or 25031i if it were not for the fact that the property received in exchange consists not only of stock or securities permitted by such paragraph to be received without the recognition of gain, but also of other property or money, then:

(a) If the corporation receiving such other property or money distributes it in pursuance of the plan of reorganization, no gain to the corporation shall be recognized from the exchange, but

(b) If the corporation receiving such other property or money does not distribute it in pursuance of the plan of reorganization, the gain, if any, to the corporation shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property so received, which is not so distributed.

SEC. 13. Section 25071e of the Revenue and Taxation Code is hereby amended to read:

25071e. If the property was acquired:

Date of property acquisition

(1) After December 31, 1917, and in an income year beginning before January 1, 1936, by a corporation in connection with a reorganization, and immediately after the transfer an interest or control in such property of 50 percent or more remained in the same persons or any of them, or

(2) In an income year beginning after December 31, 1935, by a corporation in connection with a reorganization, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was made. This section shall not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the issuance of stock or securities of the transferee as the consideration in whole or in part for the transfer.

SEC. 14. Section 25071f of the Revenue and Taxation Code is hereby amended to read:

Same

25071f. If the property was acquired after December 31, 1920, by a corporation:

(1) By the issuance of its stock or securities in connection with a transaction described in Section 25031e or Section 17676 of Part 10 (including, also, cases where part of the consideration for the transfer of such property to the corporation was property or money, in addition to such stock or securities), or

(2) As paid-in surplus or as a contribution to capital, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased

in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was made.

SEC. 15. Section 25071(i) of the Revenue and Taxation Code is hereby amended to read:

Property acquired during period of affiliation

25071i. In the case of property acquired by a corporation, during a period of affiliation, from a corporation with which it was affiliated, the basis of such property, after such period of affiliation, shall be determined, in accordance with regulations prescribed by the Franchise Tax Board without regard to intercompany transactions in respect of which gain or loss was not recognized. The basis in case of property acquired by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or, in the case of a corporation subject to the tax imposed by Chapter 3, the Federal Revenue Act of 1938, shall be determined in accordance with regulations prescribed under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or in the case of a corporation subject to the tax imposed by Chapter 3, the Federal Revenue Act of 1938. The basis in the case of property held by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or, in the case of a corporation subject to the tax imposed by Chapter 3, or the Federal Revenue Act of 1938, shall be adjusted in respect of any items relating to such period, in accordance with regulations prescribed under Article 9 of Chapter 2 or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or in the case of a corporation subject to the tax imposed by Chapter 3, or the Federal Revenue Act of 1938, applicable to such period.

Property acquired in complete liquidation

25071*l*. If the property was received by a corporation upon a distribution in complete liquidation of another corporation within the meaning of Sections 25031f or 25031f-1, then the basis shall be the same as it would be in the hands of the transferor.

SEC. 17. Section 25071m of the Revenue and Taxation Code is hereby amended to read:

Stock rights

25071m. (1) If the property was acquired by a shareholder in a corporation and consists of rights to acquire stock in such corporation acquired by him after February 28, 1913,

in a distribution by such corporation, and (A) the right to acquire such stock was acquired in an income year beginning before January 1, 1937 (except as provided in paragraph (2)), or (B) the right to acquire such stock was acquired in an income year beginning after December 31, 1936, and its distribution did not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States, then the basis of the stock in respect of which the rights were declared and the right to acquire stock, respectively, shall, in the shareholder's hand be determined by allocating between the stock and the right to acquire stock the adjusted basis of the stock, such allocation to be made under regulations which shall be prescribed by the Franchise Tax Board.

(2) If a stock right was acquired prior to January 1, 1928, for the purpose of the tax as imposed by Chapter 2, or prior to January 1, 1937, for the purpose of the tax imposed by Chapter 3, and it constituted income within the purview of the Sixteenth Amendment to the Constitution of the United States, the basis of the stock in respect of which the rights were declared shall not be affected and the basis of the right shall be its fair market value as of the date of its acquisition.

(3) Where the shareholder acquired the right to acquire such stock in an income year beginning before January 1, 1943, and sold the same, and there was included in the gross income for such year of sale the entire amount of the proceeds of such sale, then if before May 7, 1943, the taxpayer has not asserted (by claim for a refund or credit or otherwise) that any part of the proceeds of the sale of such rights should be excluded from gross income for the year of its sale, the basis of the stock shall be determined without regard to paragraphs (1) and (2), and no part of the proceeds of the sale of such rights shall ever be excluded from the gross income for the year of such sale.

Railroad property acquired under court order

25071n. If the property of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, was acquired after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation—

(1) In a receivership proceeding, or

(2) In a proceeding under Section 77 of the National Bankruptcy Act, as amended,

and the acquiring corporation is a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, the basis shall be the same as it would be in the hands of the railroad corporation whose property was so acquired. The term "reorganization," as used in this paragraph, shall not be limited by the definition of such term in Section 25036.

SEC. 19. Section 25071q of the Revenue and Taxation Code is hereby amended to read:

Basis of tax on acquiring corporation

25071q. If the property was acquired by a corporation upon a transfer to which Section 25031i, or so much of Sections 25033 or 25034 as relate to Section 25031i, is applicable, the basis in the hands of the acquiring corporation shall be the same as it would be in the hands of the corporation whose property was so acquired, increased in the amount of gain recognized to the corporation whose property was so acquired under the law applicable to the year in which the acquisition occurred, and such basis shall not be adjusted under Section 25031c by reason of a discharge of indebtedness pursuant to the plan of reorganization under which such transfer was made.

SEC. 20. Section 25071r-(1) of the Revenue and Taxation Code is hereby amended to read:

Property acquired before 1936

25071r-1. If the property was acquired by a taxpayer subject to the tax imposed by Chapter 3, after February 28, 1913, in any taxable year beginning prior to January 1, 1936, and the basis thereof, for the purposes of the Federal Revenue Act of 1934 was prescribed by Section 113 (a) (6), (7), or (8) of such act, then for the purposes of this part the basis shall be the same as the basis therein prescribed in the Federal Revenue Act of 1934.

SEC. 21. Section 25101b of the Revenue and Taxation Code is hereby amended to read:

"Substituted basis"

25101b. The term "substituted basis" as used in this article means a basis determined under any provision of Article 3 providing that the basis shall be determined:

(1) By reference to the basis in the hands of a transferor, donor, or grantor, or

(2) By reference to other property held at any time by the person for whom the basis is to be determined.

Whenever it appears that the basis of property in the hands of the taxpayer is a substituted basis, then the adjustments provided in Section 25101a shall be made after first making in respect of such substituted basis proper adjustments of a similar nature in respect of the period during which the property was held by the transferor, donor, or grantor, or during which the other property was held by the person for whom the basis is to be determined. A similar rule shall be applied in the case of a series of substituted bases.

SEC. 22. Section 25201 of the Revenue and Taxation Code is hereby amended to read:

Computation of net income

25201. The net income shall be computed upon the basis of the taxpayer's annual accounting period, fiscal year or calendar year as the case may be, in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, or if the method employed does not reflect the proper income, the computation shall be made in accordance with such method as in the opinion of the Franchise Tax Board

does reflect the proper income. If the taxpayer's annual accounting period is other than a fiscal year, or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year.

SEC. 23. Section 25202 of the Revenue and Taxation Code is hereby amended and renumbered to read:

Increasing noninterest bearing obligation

25201a. In the case of a taxpayer owning noninterest-bearing obligation issued at a discount and redeemable for fixed amounts increasing at stated intervals, if the increase in the redemption price of the obligation occurring in the income year does not (under the method of accounting used in computing its net income) constitute income to taxpayer in such year, the taxpayer may, at its election made in its return for any income year beginning after December 31, 1942, treat the increase as income received in the income year. If election is made with respect to such obligation, it shall apply also to all such obligations owned by the taxpayer at the beginning of the first income year to which it applies and to all such obligations thereafter acquired by taxpayer and shall be binding for all subsequent income years, unless upon application by the taxpayer the Franchise Tax Board permits taxpayer, subject to such conditions as the Franchise Tax Board deems necessary, to change to a different method. In the case of any obligations owned by the taxpayer at the beginning of the first income year to which its election applies, the increase in the redemption price of the obligations occurring between the date of acquisition and the first day of the income year shall also be treated as income received in such income year.

SEC. 24. Section 25203a of the Revenue and Taxation Code is hereby amended and renumbered to read:

Change in basis of computation

25201b.1. If a taxpayer, with the approval of the Franchise Tax Board, changes the basis of computing net income from fiscal year to calendar year, a separate return shall be made for the period between the close of the last fiscal year for which return was made and the following December 31st. If the change is from calendar year to fiscal year, a separate return shall be made for the period between the close of the last calendar year for which return was made and the date designated as the beginning of the fiscal year. If the change is from one fiscal year to another fiscal year a separate return shall be made for the period between the close of the former fiscal year and the date designated as the beginning of the new fiscal year.

SEC. 25. Section 25203c-(1) of the Revenue and Taxation Code is hereby amended and renumbered to read:

Reduction of tax for short period

25201b.3(A) If a taxpayer subject to the tax imposed by Chapter 2 establishes the amount of its net income for the period of 12 months beginning with the first day of the short period, computed as if such 12-month period were an income year, under the law applicable to such year, then the tax for the short period shall be reduced to an amount which is such part of the

tax computed on the net income for such 12-month period as the net income computed on the basis of the short period is of the net income for the 12-month period. The taxpayer (other than a taxpayer to which the next sentence applies) shall compute the tax and file its return without the application of this section. If the taxpayer has disposed of substantially all its assets prior to the end of such 12-month period, then in lieu of the net income for such 12-month period there shall be used for the purposes of this section the net income for the 12-month period ending with the last day of the short period. The tax computed under this section shall in no case be less than the tax computed on the net income for the short period without placing such net income on an annual basis. The benefits of this section shall not be allowed unless the taxpayer, at such time as regulations prescribed hereunder require (but not after the time prescribed for the filing of the return for the first income year which ends on or after 12 months after the beginning of the short period), makes application therefor in accordance with such regulations. Such application, in case the return was filed without regard to this section, shall be considered a claim for credit or refund with respect to the amount by which the tax is reduced under this section. The Franchise Tax Board shall prescribe such regulations as it may deem necessary for the application of this section.

SEC. 26. Section 25203e of the Revenue and Taxation Code is hereby amended and renumbered to read:

Income from long term contracts

25201d. Where a corporation subject to the tax imposed by Chapter 2 is engaged in the performance of a contract in this State which will require more than a year to complete, the Franchise Tax Board may require that the income from the contract be reported on the basis of percentage of completion unless the corporation furnishes bond or other security guaranteeing the payment of a tax measured by the income received on the completion of the contract, even though the corporation is not doing business in this State in the year subsequent to the year of completion.

SEC. 27. Section 25232a of the Revenue and Taxation Code is hereby amended to read:

Limitations

25232a. The method described in Section 25232 may be used (1) only in inventorying goods (required under Section 25231 to be inventoried) specified in an application to use such method filed at such time and in such manner as the Franchise Tax Board may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the Franchise Tax Board that the taxpayer has used no procedure other than that specified in paragraphs (b) and (c) of Section 25232 in inventorying such goods to ascertain the income, profit, or loss of the first income year for which the method described in Section 25232 is to be used, for the purpose of a report or statement covering such income year (A) to shareholders, partners, or other proprietors, or to beneficiaries, or (B) for credit purposes.

SEC. 17. Section 18213 of the Revenue and Taxation Code is amended to read:

CHAPTER 86

An act to add Section 200.5 to the Agricultural Code, relating to inclusion of poultry within the animal quarantine provisions of the Agricultural Code, declaring the urgency of this act, to take effect immediately.

In effect immediately

[Approved by Governor April 12, 1951. Filed with Secretary of State April 12, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 200.5 is added to the Agricultural Code, to read:

Definitions

200.5. As used in this article, the words "animal" or "livestock" or "domestic animal," unless the context clearly shows a contrary intention, shall include poultry as though same has been specifically designated.

For the purposes of this article, the term "poultry" shall include all domesticated fowls and any wild fowls or birds reduced to captivity.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A shipment of fowls from China in March, 1950, including both wild and domesticated forms, was received in California by aircraft and permitted entry by federal authorities. Observation of an apparent illness within these fowls led to the discovery that these were infected with a seriously injurious malady variously known as fowl pest or Asiatic Newcastle disease. Scientific and research authorities recommended the immediate destruction of all of the fowls showing symptoms of the malady and such fowls as may have been exposed to infection by association with the diseased birds. Necessary quarantine action was taken and rules and regulations of the Department of Agriculture put into operation to destroy infected and exposed fowls in the interest of protecting further spread to the commercial poultry flocks of the State.

The policy of indemnification for property taken under the exercise of the police power has been established within the Constitution insofar as livestock is concerned, but the provisions of the Agricultural Code cannot be clearly construed to allow indemnification in the case of poultry. Since the fowls were destroyed on premises found to show evidence of infection, it would appear that in the interest of protecting the commercial poultry production of the State the owners of such fowls should be reimbursed in keeping with heretofore established policy for livestock.

This legislation, therefore, becomes necessary in order that the Department of Agriculture may fulfill such an obligation.

SEC. 2. This act, inasmuch as it makes an appropriation for the usual current expenses of the State, shall, under the provisions of Section 1, Article IV of the Constitution, take effect immediately.

CHAPTER 89

An act to add Sections 14720.1 and 14737.1 to the Education Code, relating to retirement of employees of school districts, providing for the management of school district retirement funds, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor April 16, 1951. Filed with Secretary of State April 16, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 14720.1 is added to the Education Code, to read:

Retirement of school district cafeteria employees

14720.1. Every cafeteria employee of a school district which has adopted, or adopts, a plan for district retirement who is a member or becomes a member of said plan, shall be entitled to the benefits and be bound by the burdens of this article and shall receive full credit for his service as a school cafeteria employee rendered before he became a member of the plan to the pupils of any of the districts under the same governing board which governs the district of which he is now an employee, whether such service was paid for by the school districts or otherwise. For purposes of computing benefits for service credited as provided in this section, the average monthly salary earned by a cafeteria employee during the year 1944-45 shall be used. At the time of retirement of any school district employee entitled to credit for service under this section, the school district shall pay into the district retirement fund such sum as may be necessary to provide both annuity and pension benefits in respect to such credited service.

SEC. 2. Section 14737.1 is added to said code, to read:

14737.1. Whenever the United States Government or any department or agency thereof offers to exchange bonds or other interest bearing notes and obligations of the United States for other bonds or interest bearing notes and obligations of the United States of a different series or issue, the district retirement board may exchange any bonds or other interest bearing notes and obligations of the United States in which funds of the district retirement fund are then invested for bonds or other interest bearing notes and obligations of the United States, in accordance with the terms of such offer. Exchange, etc., of bonds of the United States

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Many of the school district employees to whom credit in the district retirement plan is extended by this act must terminate their district employment at the end of the current fiscal year. Unless this act takes immediate effect, such employees cannot participate in the retirement benefits extended by this act, and in consequence thereof will be occasioned great hardship and distress because such retirement allowances as they may receive will be inadequate for their needs. Substantial amounts of district retirement fund moneys are now invested in United States Government bonds of a series for which Treasury Department has offered to exchange other United States bonds bearing a higher interest rate. That offer will expire on or about April 7, 1951. To enable the district retirement boards of California school districts to exchange those United States bonds in which district retirement fund moneys are now invested for United States bonds bearing higher interest, and so to reduce the amounts which must be raised by district taxation in already heavily taxed districts, it is necessary that this act take effect immediately.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The peace, health and safety of the citizens of the State require the orderly and unhampered extension of municipal water works and other municipal utility systems through the issuance of revenue bonds, in order to supply necessary domestic water for the demands incident to increased population, for fire protection and sanitary purposes and to supply other necessary utility services; the form of the codification by the 1949 Session of the Legislature of the article of the Government Code in which said Section 50662 appears was such as to cast doubt on the negotiability of coupons pertaining to revenue bonds issued for such municipal utility purposes, and it is imperative and essential that such doubt be removed so that, during the period before this act would otherwise become effective, public bodies can issue and sell revenue bonds for the purpose of providing works for the furnishing of such utility services urgently required for the public peace, health and safety and immediately needed to provide for an increased population.

Discipline

2750.5. Every nurse to whom a temporary permit is granted under Section 2733.5 of this code, may be disciplined as provided in this article. Wherever, in this article the term "licensee" is used it shall include "temporary permittee" for the purposes of this section.

SEC. 4. This act is an emergency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The President of the United States on December 16, 1950, proclaimed a state of national emergency; the United States Department of Labor has listed the profession of nursing as a critical occupation; the Chief of Personnel, Army Medical Service has issued an immediate call for 3,000 professional nurses for the Army Nurse Corps, California's immediate quota being 497 registered nurses; and large numbers of registered nurses are being called for civilian service in federal installations.

Prior to this emergency, the supply of California registered nurses could scarcely meet the constantly growing, vital California civilian health needs; the present supply cannot meet the increased emergency needs.

Hundreds of professional nurses duly licensed or registered under the laws of other states now living in or coming to California are unable to immediately meet the requirements of California registration, but could materially assist in meeting the present crisis.

Therefore, it is essential that California take action to meet this critical health situation by making available immediately to the people of the State of California the services of those professional nurses now living in or who come to California and who have been licensed or registered in other states of the United States of America. It is therefore necessary that this act take effect immediately.

CHAPTER 125

An act making an appropriation from the Emergency Fund specified in Item 277 of the Budget Act of 1950, relating to the repair and restoration of property damaged or destroyed by storms or floods and the expenditure of money appropriated therefor, declaring the urgency thereof, to take effect immediately. Stats. 1950, p. 255

[Approved by Governor April 25, 1951. Filed with Secretary of State April 25, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated out of those funds in the Emergency Fund specified in Item 277 of the Budget Act of 1950, appropriated by Chapter 13 of the Statutes of 1951, the sum of one hundred forty-five thousand five hundred dollars ($145,500) to the Department of Finance, to be expended for repair and restoration of property damaged by storms or floods, seventy-five thousand five hundred dollars, ($75,500), or so much thereof as may be necessary, to be allocated to the County of Mono to construct a new bridge on Appropriation Repair of flood damage

County Road No. 606 and to construct a new bridge, remove an old bridge and provide channel protection and grade approach work on County Road No. 604 and seventy thousand dollars ($70,000), or so much thereof as may be necessary, to be allocated to the Mariposa Public Utility District, to restore the Stockton Creek Dam in Mariposa County.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Facilities for the furnishing of governmental services necessary to the public health and safety of the people of this State were damaged and destroyed by recent storms and floods. In some areas, people have been isolated from their schools, stores, shops, and means of livelihood because of the destruction of and damage to bridges on county roads and in other areas, damage to the water supply and fire protection facilities has endangered the public health and safety.

In order that funds be made available for the immediate repair and restoration of these facilities and to remove a present threat to the public health and safety, it is necessary that this act take effect immediately.

Intent

SEC. 3. It is the intent of the Legislature that the requirement of local matching for funds appropriated by Item 277 of the Budget Act of 1950 as amended is waived only for the purpose of alleviating extreme hardship in the case of two counties which, after investigation by the Department of Finance and the Legislative Auditor and the issuance of a letter by the Governor as to the emergency within Section 34 of Article IV of the Constitution, have been determined to be priority cases for aid in repair of flood damage and have been determined to be without the ability to provide such aid by local sources.

CHAPTER 126

Stats 1947, p 2881

An act relating to the Division of Architecture Revolving Fund, ratifying and confirming certain transfers thereto from the Wildlife Restoration Fund, the encumbrance of the money so transferred for projects under the Wildlife Conservation Act of 1947 and for expenses incidental to said projects, and the projects for which such money was encumbered, authorizing the expenditure of the money so encumbered, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor April 27, 1951. Filed with Secretary of State April 27, 1951.]

The people of the State of California do enact as follows:

Ratification of transfers of funds

SECTION 1. The transfer of the sum of eight hundred four thousand five hundred eight dollars and eighty-two cents ($804,508.82) of the transfers made on or before March 1, 1951 from

the Wildlife Restoration Fund to the Division of Architecture Revolving Fund, the expenditure or encumbrance of said sum for projects under the Wildlife Conservation Act of 1947 and for expenses incidental to said projects, and the contracts and projects for which said sum was expended or encumbered, are hereby ratified and confirmed. Any part of said sum not heretofore disbursed may be disbursed for the purpose for which obligated in accordance with applicable provisions of law.

SEC. 2 This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall take effect immediately. The facts constituting such necessity are: Urgency

The Wildlife Conservation Act of 1947 provided for a program of acquisition of lands and facilities for recreational and wildlife conservation purposes. Money was appropriated to carry out said act and a program of acquisition of lands and facilities under said act was initiated. Litigation involving the validity of certain features of the Wildlife Conservation Act is now pending in the courts. The money referred to in this act has been either expended or committed for expenditure on a number of projects and construction of some projects is now under way pursuant to contracts between the State of California and a number of contractors. These contracts were entered into in good faith and unless they are permitted to be completed the State will lose a large part of the benefits thereof, will be subjected to multiple claims on behalf of the contracting parties, and will be placed in the position of having repudiated its contracts. In order that the faith and credit of the State of California shall not be put in question, it is necessary to remove any legal impediment which may exist or be found to exist to the payment of the obligations of the State in accordance with its agreements.

CHAPTER 127

An act to add Article 4 to Chapter 1, Part 1, Division 2, Title 5 of the Government Code, consisting of Sections 53070 and 53071, relating to compensation of elective officers of counties, townships and cities, declaring the urgency hereof, to take effect immediately.

[Approved by Governor April 26, 1951. Filed with Secretary of State April 27, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Article 4 is added to Chapter 1, Part 1, Division 2, Title 5 of the Government Code, to read:

Article 4. Compensation of Elective Officers During War

53070. For the purposes of this chapter "war" shall mean that period of time commencing: "War"

(a) When Congress declares war; or

(b) When the armed forces of the United States are engaged in active military operations against any foreign power whether or not war has been formally declared; and ending one year after the termination of hostilities therein as proclaimed by the President of the United States.

Suspension of salary limits

53071. Any provisions of law or of the Constitution which prohibit the increase of compensation of any county, township or municipal officer after his election or during his term of office are hereby suspended as provided in Section 5 of Article XI of the Constitution.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and shall go into effect immediately. The facts constituting such necessity are as follows:

By reason of the increased cost of living during the war now being engaged in by the United States, many county, township and municipal officers whose compensation was established before costs of living increased are unable to live upon the salaries and compensation being paid them. These officers have been compelled during the present war to curtail their manner of living drastically and are rapidly exhausting their savings to provide themselves and their families with the common necessities of life. In order to enable the counties, townships and municipalities to take the necessary steps to relieve the distress of these officers, who in many cases have faithfully served the public over a period of many years, it is necessary that this act take effect immediately.

CHAPTER 136

An act to amend Section 820 of the Agricultural Code, relating to tomatoes.

In effect September 22, 1951

[Approved by Governor April 26, 1951. Filed with Secretary of State April 27, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 820 of the Agricultural Code is amended to read:

Tomatoes

820. Tomatoes shall be mature but not overripe, shall be free from pin worm damage which has penetrated beyond the tissue making up the base of the core of the tomato, other insect injury which has penetrated or damaged the flesh, and from mold, decay, and wet or soft rots; and from serious damage due to freezing, blossom end rot, mosaic, alkali spot, sun scald, bruises, cat faces, growth cracks, or other causes. Damage to any one tomato is not serious unless it causes a waste of 10 percent, by weight, of the individual tomato.

Not more than 10 percent, by weight, of the tomatoes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause.

Packed tomatoes shall not vary in size in any one container, more than one-half of an inch in diameter when measured through the widest portion of cross-section.

Packing

When tomatoes are packed in containers which have straight sides, each layer shall consist of the same number of tomatoes except that (1) when the tomatoes in the bottom layer or layers as the case may be, are placed on edge and the tomatoes in the top layer are placed flat, the top layer may consist of one row less in width than the bottom layer or layers and (2) when packed in standard container No. 27 with wide cleats on each end extending one-half inch or more over the inside edge of the end piece, and such cleats interfere with the packing of the top layer, the top layer may consist of one row less in length than the bottom layer or layers. However in no case may the count of the bottom layer or layers be less than the top layer.

Tomatoes which are packed by the double-wrap method need not conform with the requirements of this section as to the arrangement of the individual tomatoes in the container or the count of tomatoes in layers or in the containers providing:

(a) The tomatoes are fairly tightly packed and do not vary in size in any one container or layer, more than three-eighths

of an inch in diameter when measured through the widest portion of cross-section, and

(b) Each container is marked in plain sight and in plain letters on the outside end of the container bearing other markings required by this section with the numerical description of the pack in the top layer followed by the term "double-wrapped" or "double-wrap," all in figures and letters at least three-eighths of an inch in height.

The "double-wrap" method of packing means that with respect to all of the tomatoes in a container except in the top layer, two tomatoes shall be placed in each individual wrapper.

Tomatoes which are packed in containers having straight sides with the bottom layers packed by the "off set" or diagonal arrangement methods need not conform with the requirements of this section relating to the count of tomatoes in the various layers; however, there shall be approximately the same numerical count in each layer.

In the case of wrapped and packed tomatoes a "bridge" of a number of tomatoes consisting of less than a complete layer packed between any two layers in any container shall be permitted providing the container is marked as hereinafter provided.

Markings

All containers of tomatoes shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who authorized the packing of the tomatoes together with a sufficiently explicit address to permit ready location of such person; when wrapped and packed, numerical description of the pack in the top layer. If a bridge pack is used the designation "bridge pack" shall be imprinted in plain letters one inch in height and in plain sight on the lid of the container

The designation "bridge pack" shall not be required to be marked on containers of tomatoes packed by the double-wrap method.

CHAPTER 137

Facilities use charges

charges, may provide that water shall be furnished or delivered through such facilities only to lands in such improvement district in respect of which such facilities use charges or annual installments thereof, fixed as provided in this section, shall have been paid in advance. Such facilities use charges shall be in amounts equal to the respective amounts of the assessments theretofore levied against the lands in such improvement district for the purpose of providing such facilities. In establishing such charges the board of the district shall provide (a) that payment in full of any such assessment shall constitute payment in advance in full of such facilities use charge; (b) that all facilities use charges not so paid in advance in full shall be payable in annual installments, each such annual installment to be equal in amount to (i) the annual installment of the unpaid assessment theretofore levied against the land in respect of which such charge is payable and due on or before the next succeeding November 20th plus interest thereon at the rate provided in the order levying such assessment plus 10 percent in addition (added for anticipated delinquencies), plus (ii) all delinquent annual installments, if any, of such unpaid assessment together with penalties and interest at said rate on such delinquent installments; and (c) that payment of any annual installment of any such facilities use charge shall constitute payment in full of the annual installment of such unpaid assessment due on or before the next succeeding November 20th and of all delinquent annual installments, if any, of such unpaid assessment. Any proceedings heretofore taken by the board of any district to establish the facilities use charges authorized by this section are hereby confirmed, validated and declared legally effective.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of irrigation districts and of improvement districts therein and such functioning depends in part upon the validity of the acts and proceedings of such districts taken to acquire, construct and complete irrigation facilities in such improvement districts and to levy assessments and facilities use charges in connection with the payment of the cost of such acquisition, construction and completion, and it is therefore imperative and essential that such acts and proceedings be validated so that during the period before this act would otherwise become effective, citizens of the State can be afforded irrigation facilities and the acquisition, construction and completion of such irrigation facilities can be commenced, continued and completed without delay or restriction to provide water and irrigation required for the public peace, health and safety and immediately needed to provide for an increased population.

CHAPTER 144

An act to repeal Section 12024.4 of the Business and Professions Code, relating to the sale of poultry, fowl, and rabbits by weight, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 26, 1951. Filed with Secretary of State April 27, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 12024.4 of the Business and Professions Code is repealed. Repeal

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall Urgency

go into immediate effect. The facts constituting such necessity are:

It has come to the attention of the Legislature that Section 12024.4 of the Business and Professions Code is adversely affecting the business of marketing and selling fresh poultry and fowl. The requirement that the cost of poultry or fowl be determined by retailers at the weight in the form in which "prepared and delivered" results in the business of retailers being made dangerously speculative and unnecessarily threatens the ability of such retailers of fresh poultry and fowl to continue in business. Because the delivered weight of poultry or fowl will vary substantially according to the manner in which it is prepared after the consumer selects it in the "dressed" form, the retailer is unable to fix the "table-dressed" price with any reasonable degree of certainty. The consumer will have to pay more or less money for a particular fowl selected, depending upon the amount of weight lost in the particular type of preparation which the consumer orders. In fairness to both consumer and retailer, it is necessary that they be permitted to buy and sell poultry and fowl at "dressed weight" and then to have the same cleaned and prepared to the customer's wishes without a redetermination of the weight and price of the poultry so selected. Fair and proper marketing of poultry and fowl, and the protection of the retailer and consumer of fresh poultry and fowl, directly affect the health and welfare of the people of this State. It is therefore necessary that this act take immediate effect.

CHAPTER 145

An act to amend the heading of Chapter 2 of Part 6.5, Division 11 of the Water Code, to add a heading for Article 1 of, and to add Article 2 to, Chapter 2, Part 6.5, Division 11 of the Water Code, relating to distribution districts in irrigation districts, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor April 27, 1951. Filed with Secretary of State April 27, 1951.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Chapter 2 of Part 6.5, Division 11 of the Water Code is amended to read:

CHAPTER 2. INCLUSION AND EXCLUSION OF LAND

SEC. 2. The following heading is added to said code, immediately to follow the heading for Chapter 2 of Part 6.5 of Division 11 and immediately to precede Section 23540, to read:

Article 1. Inclusion of Land

SEC. 3. Article 2 is added to Chapter 2 of Part 6.5, Division 11 of the Water Code, to read:

Article 2. Exclusion of Land

Petition

23545. At any time before a district has incurred any indebtedness or obligation, or after all indebtedness and obligations have been discharged, two-thirds or more in number of the holders of title to an area of land in the distribution district, as appears on the last equalized assessment roll, desiring to be excluded therefrom may by verified petition filed with the board of the district, request that the area be excluded from the distribution district.

Hearing

23546. The secretary of the district, upon the filing of the petition, shall examine it and if, in his opinion, the petition has been signed by the requisite number of landowners, he shall set it for hearing at the first regular meeting of the board of the district held after the expiration of 30 days after the filing of the petition.

Notice

23547. The secretary of the board shall cause notice of the time and place of hearing to be posted for a period of two weeks next preceding the hearing (a) in three public places in the area requested to be excluded, and (b) in three public places in the area of the distribution district which has not been requested to be excluded, and to be published once a week for two weeks in a newspaper of general circulation in the county in which any portion of the distribution district is located.

Exclusion

23548. At the time and place of the hearing, anyone interested in the petition for exclusion may appear before the board of the district and urge or oppose its approval. After the hearing, if the board of the district determines that it is for the best interests of the distribution district that the land requested to be excluded, or any portion thereof, should be excluded, the board of the district shall make an order excluding the land, or portion thereof, and cause it to be recorded in the office of the county recorder of each county in which the excluded land is located.

Expenses

23549. All expenses incurred in connection with a petition to exclude lands from a distribution district shall be paid by the petitioners.

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Due to the lowering water tables in many irrigation districts, the owners of lands must be in a position to take advantage of every opportunity to secure water. No provision has been made for excluding areas formed into distribution districts under Part 6.5 of Division 11 of the Water Code. There is considerable delay in the approving of federal contracts and the making of congressional appropriations and in cases of immediate need for water, areas in distribution districts cannot be excluded therefrom and are thus denied the privilege of forming improvement districts and financing the improvements as

an improvement district. Delay in securing water for one season might destroy valuable orchards. It is therefore necessary that this act take effect immediately so that owners of lands may have an opportunity for immediate action by every means possible to secure water.

CHAPTER 146

An act to add Section 429.5 to the Fish and Game Code, relating to fishing by persons in the armed forces of the United States, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor April 27, 1951. Filed with Secretary of State April 27, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 429.5 is added to the Fish and Game Code, to read:

Fishing license not required

429.5. Any member of the armed forces of the United States or any auxiliary branch thereof on active duty may take fish, in accordance with law, for purposes other than profit without a sporting fishing license.

This section shall remain in effect until the ninety-first day after the final adjournment of the 1953 Regular Session of Legislature or until the termination of the existing national defense emergency as evidenced by cessation of compulsory military service in the armed forces of the United States by citizens of this State, and as found and declared by proclamation issued by the Governor, whichever first occurs. While this section is in effect it shall supersede any existing provisions of law which are in conflict with this section; but such provisions are not repealed by this section and after this section is no longer effective shall have the same force as though this section had not been enacted.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A successful national defense effort depends in great part upon the maintenance of the health and morale of the members of the armed forces. This act makes the extensive sporting fishing facilities of this State available for the use of members of the armed forces and the auxiliaries thereof who are en route for duty overseas and thus makes possible an interval of healthful and stimulating recreation and relaxation. In order that the benefits of this act may be obtained during the spring and early summer months of the current year it is necessary that this act take effect immediately.

CHAPTER 147

An act to amend Sections 6895 and 6897 of the Public Resources Code, relating to mineral leases on public lands.

[Approved by Governor April 27, 1951. Filed with Secretary of State April 27, 1951]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 6895 of the Public Resources Code is amended to read:

Preferential mineral leases

6895. Upon establishing to the satisfaction of the commission that commercially valuable deposits of minerals have been discovered within the limits of any permit, the permittee shall be entitled to a lease for not more than 160 acres of the land embraced in the prospecting permit, if there be that number of acres within the permit. The area selected by the permittee shall be in compact form, and if surveyed shall be described by the legal subdivisions of the public lands surveys; if unsurveyed, the area shall be surveyed by the commission at the expense of the applicant for the lease, in accordance with rules and regulations to be prescribed by the commission, and the lands leased shall be conformed to and taken in accordance with the legal subdivisions of such surveys. The lease shall be upon a royalty, as specified by the commission in the permit, and the annual payment in advance of a rental of one dollar ($1) per acre. Notwithstanding the 160 acreage limitation provision of this section, whenever the lands for which a lease is sought are tide and submerged lands, the commission shall be, and is, authorized to divide such lands into such size and number of parcels as the commission shall determine will not substantially impair the public rights to navigation and fishing or interfere with the trust upon which such lands are held.

SEC. 2. Section 6897 of said code is amended to read:

Lease to highest bidder

6897. All deposits of minerals, other than oil and gas, in lands belonging to the State which have been classified by the commission as lands containing commercially valuable mineral deposits and all deposits of such minerals within lands embraced within a prospecting permit and not subject to preferential lease to the permittee, may be leased by the commission to the highest responsible bidder by competitive bidding, under general regulations, to qualified applicants, in such form as the commission deems to be to the best interest of the State. In addition to the royalty provided therein, each bid and each lease shall also provide for an annual rental payment in advance of such sum as the commission shall specify.

All grapes intended for shipment out of the State of California shall be placed in standard containers numbers 1, 1B, 1C, 2, 5, 6, 7, 8, 9, 9A, 28, 29, 30A, 37A, 37B, 37C, 37D, 37E, 37F, 37G, 38H, 38I, 38J, 49, and 50 subject to the restrictions and additions specified in this chapter. Except as otherwise designated, all such containers shall be considered as standard for grapes when packed with or without pads, inner-liners, or other device which does not reduce the inside volume of the container by more than 10 percent; provided, that the vacant spaces, if any, resulting from the use of such device are readily visible.

The depth dimension of containers, exclusive of cleats, designated for grapes in this chapter shall apply only to the depth of the head of each such container.

Containers designated as 37A, 37B, 37C, 37D, 37E, 37F and 37G shall be standard for grapes when used without cleats or with any one of the following defined cleats attached to the top of each end piece; however, no such container shall be less than $4\frac{7}{16}$ nor more than $6\frac{1}{16}$ inches in depth, including the depth of a cleat on each end.

1. Cleat $\frac{3}{8}$ inch depth and $\frac{11}{16}$ inch width.
2. Cleat $\frac{1}{2}$ inch depth and $\frac{11}{16}$ inch width.
3. Cleat $\frac{11}{16}$ inch depth and $\frac{11}{16}$ or $\frac{7}{8}$ or $1\frac{3}{8}$ inch width.
4. Cleat $\frac{3}{4}$ inch depth.
5. Cleat $\frac{7}{8}$ inch depth and $\frac{11}{16}$ inch width.

Only the depth measurement of these cleats shall be used to increase the depth measurements of the container.

Containers designated as 5, 6, 7, 8, 9, 9A, 30A, 38H, 38I and 38J shall be standard for grapes when used with or without any style of cleat providing the sides of the container are not placed above the container head.

Containers numbers 28, 29, 49 and 50 shall be standard for grapes only when (1) containing grapes packed in sawdust, cork or similar packing material in sufficient amount to completely surround and cover the grapes and (2) used without cleats.

Containers numbers 30A and 38H shall be standard for grapes only when containing bunches which are (1) individually wrapped in paper or other protective wrapping material and (2) packed in excelsior or other similar packing material.

Container number 37G shall also be considered standard for grapes when each head piece is beveled across each bottom corner at an angle of 45 degrees, starting two inches from each such corner, and bottom slats are attached to each bevel, so as to affect the contour of the box. This container may or may not also be notched at the center of the base by a triangle with a base of four inches and an altitude of two inches. If notched, bottom slats shall be attached to each side of the notch, in addition to each bevel.

Containers designated as 37D, 37F and 37G shall also be considered standard for grapes when constructed as display lugs defined herein and subject to the following restrictions. No other container shall be considered standard for grapes when so constructed.

Standard display lug

Standard Display Lug: Container 37G when constructed as a "display lug" shall have a $5\frac{3}{4}$ inch head (1) "slotted" $1\frac{1}{4}$ inches or less from the top or (2) consisting of a top piece $1\frac{1}{4}$ inches deep nailed or fastened to a bottom piece $4\frac{1}{2}$ inches in depth, and shall be used without a cleat or cleats; however, when a pad filler is placed in the bottom of the container a $\frac{3}{8}$ or $\frac{11}{16}$ inch cleat may be placed on each end of the container on top of the head in such a manner as to add $\frac{3}{8}$ or $\frac{11}{16}$ of an inch to the height of each end piece.

Special display lug

Special Display Lug: Container 37F when constructed as a "display lug" shall have a $5\frac{1}{2}$ inch head (1) "slotted" $1\frac{1}{4}$ inches or less from the top or (2) consisting of a top piece $1\frac{1}{4}$ inches deep nailed or fastened to a bottom piece $4\frac{1}{4}$ inches in depth, and shall be used without a cleat or cleats.

Special Display Lug: Container 37D when constructed as a "display lug" shall have a $5\frac{1}{8}$ inch head (1) "slotted" $1\frac{1}{4}$ inches or less from the top or (2) consisting of a top piece $1\frac{1}{4}$ inches deep nailed or fastened to a bottom piece $3\frac{7}{8}$ inches in depth, with or without a $\frac{5}{8}$ inch cleat making a total depth of $5\frac{1}{8}$ or $5\frac{3}{4}$ inches.

"Display lug"

The term "display lug" shall mean a lug with a two-piece or slotted head (with or without cleats) and sides consisting of two pieces, constructed in such a manner that when packed with grapes and lidded, an entire upper section of the lug, together with the lid, can readily be removed, thereby displaying the grapes.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The practice of notching grape containers defined as container number 37G by Section 802.6 of the Agricultural Code is now obsolete. In order to permit the use of standard containers with beveled corners in the 1951 grape season, as permitted by said section, but without requiring that said containers be notched, it is necessary that this act go into immediate effect.

In effect immediately

SECTION 1. Section 188.1 is added to the Streets and Highways Code, to read:

Application of article. Disaster damage

188.1. None of the provisions of this article, nor of Section 825 of this code, shall apply to the expenditure of either state or federal funds necessary to replace or reconstruct any state highway damaged or destroyed as the result of disaster over a wide area, such as by enemy action, sabotage, floods, hurricanes, tidal waves, earthquakes, severe storms, or other catastrophes where at the time of the catastrophe the Governor declared an emergency, and where such expenditure is authorized pursuant to this section by the California Highway Commission by resolution, and such resolution is approved by the Governor. In the event the funds expended for replacing or reconstructing the damaged or destroyed state highway exceeds the cost of providing a facility of equal utility with that damaged or destroyed as determined by the State Highway Engineer, he shall report the amount of such excess to the commission, and any expenditure in excess of the cost of providing a facility of equal utility shall be subject to all the provisions of this article and Section 825 of this code.

Same Date

SEC. 2. The provisions of Section 188.1 of the Streets and Highways Code shall apply to any expenditures made during the 1950-1951 Fiscal Year, provided the California Highway Commission by resolution approves such expenditures pursuant to said section and the Governor approves such resolution.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Due to unprecedented floods, large expenditures of state funds and an allocation of federal emergency funds granted

by reason of such floods has been and is necessary to restore excessive damage to state highways. The application of the restrictions of the existing law with reference to the allocations of funds between county groups and on state highways within designated counties would impose an undue burden upon the locations in which the damages occurred and it is, therefore, necessary to provide for an orderly development of the State Highway System that this act take effect immediately.

CHAPTER 163

An act to amend Sections 92, and 92.5 of the Agricultural Code, relating to district agricultural fairs.

[Approved by Governor April 27, 1951. Filed with Secretary of State April 30, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 92 of the Agricultural Code is amended to read:

Allocation of premium money

92. The Department of Finance shall apportion any money appropriated by the State for the encouragement of county, district or combined county and district fairs to the various agricultural fairs on the basis of the amount which each fair actually paid in premiums for agricultural, horticultural, mineral and livestock exhibits, and exhibits of domestic arts and agricultural mechanics made or manufactured for other than commercial purposes in each year. The money so apportioned shall be paid to the several counties and district agricultural associations as soon as such apportionment is determined.

Advances

The Department of Finance, out of any money on hand to be apportioned, may advance to any county or district agricultural association, for the purpose of paying premiums, at any time during the year, any portion of the money to which, in the opinion of the Director of Finance, the county or district agricultural association will become entitled for that year. The county or district agricultural association shall deposit such money in a separate bank account approved by the Director of Finance in accordance with the provisions of Section 16506 of the Government Code. Such money may be expended for premiums, capital outlay, including purchase of land, construction, improvements, equipment, for the acquisition, installation, maintenance, and operation of recreational facilities at fairgrounds of the county or district agricultural associations or support of county or district agricultural association fairs pursuant to a budget submitted to, and approved by, the Department of Finance subject to the provisions of Sections 13320 to 13324, inclusive, of the Government Code.

Statement of premiums paid

All sums expended from such moneys for construction and improvements by counties shall be subject to the provisions of Sections 25450 to 25463, inclusive, of the Government Code. The county auditor or secretary of any such fair desiring to share in any such appropriation shall file with the Department

of Finance on or before December 31st, of each year, a sworn statement setting forth the actual amount paid for premiums by such fair held in that year.

Allocation base

Six thousand dollars ($6,000) shall be the maximum base of allocation paid any fair for its first year of operation, and thereafter in each subsequent year in which a fair is held the maximum base of allocation shall increase by 10 percent over the maximum base for the year in which a fair was last held.

In the event the premiums paid during any year in which a fair is held are less than the maximum base of allocation for that year, the base of allocation for that year shall be the premiums so paid during such year. For any fair operated prior to 1933 which received, or was qualified to receive, money from appropriations for the support of agricultural fairs, the basis may be increased 10 percent for each year in which a fair was held from the time the fair was first held, except that if no fair was held by the county or district for a period of five or more years the percentage of increase shall apply only from the first fair held after said period. Any fair may pay premiums in an amount greater than that used as the base of apportionment to it.

Rules and regulations

The Department of Finance shall prescribe rules and regulations for the judging of exhibits, and the maximum amount of premiums which may be offered and paid for all classes, sections, and types of exhibits. Said rules and regulations and the maximum amount of premiums which may be offered and paid shall be exempt from the provisions of Section 11380 of the Government Code but may be filed with the Secretary of State under the provisions of Section 11385 of the Government Code. No fair shall receive any apportionment of funds under this section unless it complies with such rules and regulations.

Limitations

No allotment from the apportionment herein provided shall be made for more than one fair in any one year in any county or district. The fact that a county or district contracts one with the other or with a county fair association, to hold an agricultural fair shall not bar it from receiving a proper proportion of the moneys herein appropriated, except that no county or district may hold a joint or combined fair and receive an allotment of money under the provisions of this section. No fair for which a separate appropriation is made by the State shall participate in the apportionment of any money appropriated for the encouragement of county and district agricultural fairs. On or after January 1, 1943, allotments from the appropriation herein provided shall be made only to district agricultural associations or counties which received allotments under this section on the basis of the premiums paid at fairs held during the calendar year 1941 except that: (1) A district agricultural association which did not receive an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941 may receive an allotment as provided in this section unless a county whose area lies in

whole or in part within the boundaries of the agricultural district received an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941; (2) Solano County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district comprising Solano County received an allotment during the calendar year 1941; (3) Marin County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district of which Marin County is a part received an allotment during the calendar year 1941; (4) Santa Cruz County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district comprising Santa Cruz County received an allotment during the calendar year 1941; (5) Merced and Madera Counties may each receive an allotment although those counties held no fairs in the calendar year 1941 and the agricultural associations of the agricultural districts comprising Merced and Madera Counties each received an allotment during the calendar year 1941; (6) a district agricultural association which did not receive an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941, may receive an allotment as provided in this section; provided, the board of supervisors of each county, whose area lies in whole or in part within the boundaries of the agricultural district and which received an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941, shall by resolution announce its intention to permanently discontinue the holding of fairs for which the county would be eligible to participate in the allocation from the appropriation herein provided. A certified copy of said resolution shall be filed with the Department of Finance. Upon adoption of said resolution by the board of supervisors, and the filing thereof as herein provided, the county referred to shall no longer be eligible to receive allotments under this section and the district agricultural association which becomes eligible to receive an allotment due to the adoption of said resolution shall, for the purpose of determining the maximum base of allocation for said association, be entitled to receive credit for the fairs previously held by said county and said fairs shall be considered as fairs held by the association in calculating the maximum base for said association as provided herein. Within one year from and after the date said resolution is adopted, the county shall pay to said district agricultural association the unexpended balance of any moneys previously apportioned to said county under this section. Notwithstanding the foregoing provisions of this paragraph a district agricultural association of a district created subsequent to January 1, 1943, may receive an allotment as provided in this section.

Examination of books and records

The Department of Finance, in its discretion, may at any time examine the books and records of any fair to determine

the correctness of any statement or report filed with the Department of Finance.

SEC. 2. Section 92.5 of the Agricultural Code is amended to read:

Adjustment of apportionment

92.5. In the event the audited total of eligible premiums paid by any fair in any year differs from the total set forth in the sworn statement filed with the Department of Finance under Section 92 of the Agricultural Code, the amount of the apportionment made to such fair for such year under Section 92 shall be recalculated on the basis of the audited total of eligible premiums paid multiplied by the factor used in calculating the original apportionment. If the recalculated apportionment is less than the original apportionment, the amount of such difference shall be returned to the Fair and Exposition Fund and be added to and become a part of the funds appropriated for the encouragement of agricultural fairs under subdivision (b) of Section 19624 of the Business and Professions Code, during the fiscal year in which said difference is returned to said fund.

[Approved by Governor May 1, 1951. Filed with Secretary of State May 1, 1951.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Article 8.5 is added to Chapter 3 of Part 3 of Division 4 of Title 3 of the Government Code, to read:

Article 8.5. Temporary Provisions

Reinstatement from retirement

31690. Notwithstanding any other provision of this chapter, while this section is in effect any person who has been retired for service (as distinguished from disability) may be employed in county service in a county having a population of less than 500,000 in accordance with the laws governing such service, in the same manner as a person who has not been so retired, upon the determination of the board, based on medical examination, that he is not incapacitated for the duties to be assigned to him.

Any person so employed is reinstated from retirement and his retirement allowance shall be canceled forthwith. His individual account shall be credited with an amount which is the actuarial equivalent of his annuity at the time of reinstatement, not to exceed the amount of his accumulated contributions as it was at the time of his retirement, and his rate of contribution for future years shall be the same as if he had continued in county service during the period of his retirement. Such person shall receive credit for prior service in the same manner as if he had never been retired.

Any member employed in county service pursuant to the provisions of this section shall be retired for service upon application by the member or the head of the office or department in which such member is employed.

Retention in service

31691. Notwithstanding any other provision of this chapter, while this section is in effect any member who would otherwise be retired because he has attained the age of compulsory retirement applicable to members of his category may be retained in county service in a county having a population of less than 500,000, upon (a) the recommendation of the head of the county agency in which he is employed, and (b) the determination of the board, upon medical examination, that he is not incapacitated for the performance of the duties to be assigned to him.

Any member retained in county service pursuant to this section shall be retired for service upon application by the member or the head of the office or department in which such member is employed.

When this section ceases to be effective, any person who has attained the age of compulsory retirement applicable to members of his category and who has been retained in county service pursuant to this section shall be retired forthwith.

Duration

31692. This article shall remain in effect until the ninety-first day after the final adjournment of the 1953 Regular Session of the Legislature or until the termination of the existing national defense emergency as evidenced by cessation of compulsory military service in the armed forces of the United States by citizens of this State, and as found and declared by the Governor, whichever first occurs. While this article is in effect its provisions shall supersede any existing provisions of law which are in conflict with the provisions of this article; but such provisions are not repealed by this article, and after this article

is no longer effective shall have the same force as though this article had not been enacted.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The actions involving the use of armed force in Korea and elsewhere in which the United States is now engaged have, by reason of the induction of large numbers of men into the armed forces and the employment of additional numbers in war industries, resulted in a shortage of manpower throughout the Nation which is already serious, and may, soon become acute. This shortage makes difficult or impossible the recruitment of qualified persons to fill essential positions in county service in counties having a population of less than 500,000. To prevent the occurrence of numerous vacancies in important positions in county service in counties having a population of less than 500,000, and the breakdown of the administration of the essential services of those counties, it is essential to retain in county service those qualified and experienced officers and employees capable of performing their duties who will reach the age of compulsory retirement during the existing national defense emergency, and to re-employ those officers and employees who are already retired but who are willing to resume their county service and are fully qualified and capable of doing so. It is therefore necessary that this act take effect immediately.

CHAPTER 203

An act to amend Sections 811, 812.4, 812.6, 814, 828.55, 828.6, 828.7, 829.35, and 829.4 of the Agricultural Code, relating to containers for lettuce, carrots and cantaloupes, declaring the urgency of this act, to take effect immediately.

[Approved by Governor May 1, 1951. Filed with Secretary of State May 1, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 812.4 of the Agricultural Code is amended to read:

812.4. Bunched carrots when in closed wooden containers shall be packed either in standard container 45C, with a 9-inch depth, or in standard containers numbers 45, 45A, 45B, 45D, 45E, 45F or 45G. Packing: Bunched carrots

SEC. 2. Section 812.6 of said code is amended to read:

812.6. Bunched carrots, when packed in closed, wooden standard containers numbers 45, 45A, 45B, 45D or 45E, shall consist of not more than six dozen bunches, and when packed in closed, wooden standard containers numbers 45C with a 9-inch depth, 45F or 45G shall consist of not more than three dozen bunches. Same

SEC. 3. Section 814 of said code is amended to read:

Head lettuce

814. Head lettuce shall not be leafy without head formation and shall be free from insect injury, slime, decay or rot affecting leaves within the head, and free from seed stems which have so developed that they are apparent upon external examination; and free from serious damage caused by bursting, tip burn or freezing. Damage caused by bursting is not serious unless the head is burst open or is materially misshapen from this cause. Damage caused by freezing or tip burn is not serious unless it affects any portion of the head inside of the six outer head leaves.

Not more than 15 percent, by count, of the heads of lettuce in any one container or bulk lot may be below these requirements, but not to exceed 5 percent, shall be allowed for decay or slime.

Head lettuce, when packed or placed in layers in any container, shall not vary in size in any one container more than 15 percent of heads which would tightly pack a size, larger or smaller, than the size marked, and they shall be fairly tightly packed. Head lettuce which is loose in containers not packed or placed in layers need not meet the sizing and packing requirements of this standard if the container in which the lettuce is placed is not lidded or closed.

In addition to other packing requirements in this chapter head lettuce, when packed or placed in layers, shall contain either two dozen, two and one-half dozen, three dozen, three and one-half dozen, four dozen, five dozen, 75 or 90 heads of lettuce per standard container numbers 45A, 45B, 45D or 45E. Each crate of three and one-half dozen count shall have each layer arranged with four rows of three, four, and four and three heads.

In the case of sizes 75 and smaller per crate, a bridge of from three to six heads shall be permitted and in the five-dozen size a bridge of four heads shall be permitted.

All containers of lettuce shall bear upon them in plain sight and in plain letters on one outside end, the name of the person who first packed or authorized the packing of the lettuce, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer, and in figures not less than one-half inch in height the exact number of heads contained therein; provided, that in the case of lettuce packed in lidded or closed containers without ice the exact number of heads may be marked on the lid of the container and provided further, that in the case of 10 percent of the crates in any lots the contents may vary not more than three heads over the count as marked.

All head lettuce shall be in standard containers numbers 45A, 45B, 45C, 45D, 45E, 45F or 45G.

SEC. 4. Section 828.6 of said code is amended to read:

828.6. Containers

45 Standard crate	13	18	$21\frac{5}{8}$
45A Standard lettuce crate	$13\frac{3}{4}$	$17\frac{1}{2}$	$21\frac{5}{8}$
45B Standard lettuce crate	13	$17\frac{1}{2}$	$21\frac{5}{8}$
45C Half lettuce crate	9 or $9\frac{1}{2}$	13	$21\frac{5}{8}$
45D Special lettuce crate	$14\frac{1}{4}$	$18\frac{1}{4}$	$20\frac{1}{2}$
45E Special lettuce crate	14	18	$21\frac{1}{8}$
45F Special half lettuce crate	$9\frac{1}{2}$	$13\frac{1}{2}$	$20\frac{1}{2}$
45G Special half lettuce crate	$9\frac{1}{4}$	$13\frac{3}{16}$	$21\frac{1}{2}$

SEC. 5. Section 828.7 of said code is amended to read:

828.7. Standard containers numbers 45A, 45B and 45C, when lidded, shall have a lid not over 25 inches in length and containers numbers 45D and 45F shall have a lid not over $23\frac{3}{8}$ inches in length. The inside length shown hereinabove for the standard containers numbers 45, 45A, 45B, 45C and 46, shall be a minimum length, with maximum outside length of these containers of $24\frac{1}{2}$ inches; and the inside lengths of these containers shall be measured between the end slats, except that if flat end posts wider than one and one-half inches are used, the inside length shall be measured between the posts. Same

SEC. 6. Section 829.35 of said code is amended to read:

829.35 14. Carrots, numbers 45, 45A, 45B, 45C, 45D, 45E, 45F and 45G. Carrots

15. Cauliflower, number 46. Cauliflower

SEC. 7. Section 829.4 of said code is amended to read:

829.4. 16. Lettuce, numbers 45A, 45B, 45C, 45D, 45E, 45F and 45G. Lettuce

SEC. 8. Section 811 of said code is amended to read:

811. Cantaloupes shall be mature but not overripe, not poorly netted, and free from mold, decay, and insect injury which has penetrated or damaged the edible portion of the cantaloupe; and free from serious damage, due to bruises, sunburn, growth cracks, cuts, sponginess, flabbiness, wilting, or other causes. Damage to any one cantaloupe is not serious unless it affects the edible portion of the individual cantaloupe. Cantaloupes

Not more than 10 percent, by count, of the cantaloupes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause.

Cantaloupes when packed shall be virtually uniform in size and there shall be the same numerical count of uniformly sized cantaloupes in each layer throughout the container.

"Mature" in the case of cantaloupes means that the appearance of the outside indicates maturity and the arils which surround the seed during the development of maturity have been absorbed and, in addition, that the juice of the edible portion shall contain not less than 8 percent soluble solids as determined by the Balling or Brix scale hydrometer. In view of differences in climatic and other natural conditions prevailing south and east of San Gorgonio Pass, which result in the cantaloupes grown in that area having, at maturity, a higher percentage of soluble solids than the mature cantaloupes "Mature"

grown in the area north and west of San Gorgonio Pass, mature in the case of cantaloupes produced in the area south and east of San Gorgonio Pass, means, in addition to the maturity requirements herein specified, that the juice of the edible portion shall contain not less than 10 percent soluble solids, as determined by the Balling or Brix scale hydrometer or that the cantaloupes have been separated from the vine by a "full slip" which indicates full maturity on the vine.

All closed containers of packed cantaloupes shall bear upon them in plain sight and in plain letters on one outside end, the name of the person who first packed or authorized the packing of the cantaloupes, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer. All containers of cantaloupes in which the pack does not conform to the standard pack provisions for cantaloupes in Section 829.3 shall be conspicuously marked in letters not less than one-half inch in height "irregular pack."

Cantaloupes

SEC. 9. Section 828.55 of said code is amended to read:

828.55.

39	Standard cantaloupe crate	12	12	$21\frac{7}{8}$ or $22\frac{1}{8}$
40	Pony cantaloupe crate	11	11	$21\frac{7}{8}$ or $22\frac{1}{8}$
41	Jumbo cantaloupe crate	13	13	$21\frac{7}{8}$ or $22\frac{1}{8}$
42	Standard cantaloupe flat	4	12	$21\frac{7}{8}$ or $22\frac{1}{8}$
43	Special cantaloupe flat	$4\frac{1}{2}$	$13\frac{1}{2}$	$21\frac{7}{8}$ or $22\frac{1}{8}$
44	Special cantaloupe flat	5	$14\frac{1}{2}$	$21\frac{7}{8}$ or $22\frac{1}{8}$

Urgency

SEC. 10. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Experimental use of cantaloupe containers with a slightly shorter length than now provided by law has shown that such crates can more efficiently be loaded into railroad cars and with less breakage of crates in transit. In order to permit the use of crates with the shorter dimension for shipment of the current season's crop of cantaloupes most of which will be marketed prior to the time this act would otherwise become effective it is necessary that it take effect immediately.

CHAPTER 204

An act to amend Section 1431 of the Probate Code, relating to compromise of disputed claims of minors.

In effect September 22, 1951

[Approved by Governor May 1, 1951. Filed with Secretary of State May 1, 1951.]

1431. When a minor has a disputed claim for damages, money or other property against a third person, his father, or if his father is dead or the parents of said minor are living separate or apart and his mother then has care or custody of said minor then his mother, shall have the right to compromise, or execute a covenant not to sue on, such claim, but before the compromise or covenant is valid it must be approved by the superior court of the county where the minor resides, upon the filing of a verified petition in writing. If the court approves the compromise or covenant and the money or the value of other property to be paid or delivered under the compromise or covenant does not exceed two thousand dollars ($2,000), it may direct that the money or other property be paid or delivered to the father or mother of the minor, with or without the filing of a bond, or may require that any money so paid be deposited in a bank or trust company or be invested in an account in an insured savings and loan association subject to withdrawal only upon the order of the court, or it may require a general guardian to be appointed and the money or other property to be paid or delivered to such guardian, or prescribe such other conditions as in the discretion of the court seems to the best interests of the minor. If the court approves the compromise or the execution of the covenant and the money or the value of other property to be paid or delivered under the compromise or covenant exceeds two thousand dollars ($2,000) it must require a general guardian to be appointed and must direct that the money or other property be paid or delivered to such guardian or in lieu thereof it must require that any moneys so paid be deposited in a bank or trust company or be invested in an account in an insured savings and loan association subject to withdrawal only upon the order of the court or, as to any property to be received by the minor shall prescribe such conditions as the court may deem proper. The father or mother or the guardian, upon receiving such money or other property may execute a full release and satisfaction of, or execute a covenant not to sue on the claim of the minor. The clerk of the court shall not charge any fee for filing the petition. The term "account in an insured savings and loan association" used in this section means shares issued by a federal savings and loan association, or investment certificates issued by a state chartered building and loan association or savings and loan association doing business in this State which is an "insured institution" as defined in Title IV of the National Housing Act, or shares issued by a state chartered building and loan association or savings and loan association doing business in this State which does not issue investment certificates and which is an "insured institution" as defined in Title IV of the National Housing Act.

Against any person required to take out a license or pay fees under the provisions of this code and who fails, neglects, or refuses to take out such license or pay such fees, or who carries on or attempts to carry on the business or do any act for which such license or payment of such fees is required without such license or payment of fees, the director in addition to other remedies provided by law may direct suit in the name of the people of the State of California as plaintiff, to be brought for the recovery of the license or other fees; and in such case the director may make the necessary affidavit for and a writ of attachment may issue, without any bonds being given on behalf of the plaintiff.

Whenever the director finds the amounts due under any section of this code to be so small in amount as not to justify the cost of their collection or for any reason believes that collection is improbable and provided the amount involved in either instance is not in excess of one dollar ($1) then the director may remove the amounts so due from the records of the department and he shall not be held accountable for their collection.

SEC. 2. Section 34.6 is added to the Agricultural Code, to read:

Identification record

34.6. The director shall have authority to establish an identification record service for parent root and top stock of fruit and nut trees. Upon application of any person and the payment of such fee as shall be determined by the director to be necessary to cover the cost thereof, the director shall assign to such parent stock an identifying code number and make an appropriate record of the same.

The people of the State of California do enact as follows:

SECTION 1. Section 6.01 of the act cited in the title hereof is amended to read:

Notice of intention to withdraw

SEC. 6.01. Notice of Intention to Withdraw. Each association must prescribe by its by-laws, or by contract with its shareholders or certificate holders, or by both, the period of notice of intention to withdraw which such association at its option may require, which period shall be six months in the case of all shares or investment certificates issued after the effective date of this section; provided, that nothing contained in this section shall be deemed to forbid an association from (a) issuing shares or investment certificates prescribing the same period of notice of intention to withdraw as prescribed in shares or certificates theretofore outstanding, if such new shares or investment certificates are issued in lieu of such shares or certificates theretofore outstanding; nor (b) receiving additional funds upon installment shares, accumulative shares, installment investment certificates or accumulative investment certificates outstanding at the date this section takes effect, or upon shares or certificates issued in lieu thereof All certificates hereafter issued evidencing shares or investment certificates shall state the period of such notice and shall also state that the right of the holder thereof to withdraw funds evidenced thereby is subject to the provision of Article 6 of this act or that such right is subject to the provisions of the Building and Loan Association Law governing withdrawals Each association may prescribe by its by-laws, or by contract with its shareholders or certificate holders, or both, the terms and conditions of withdrawal; provided, such terms and conditions shall not be contrary to the provisions of this act.

Any notice of intention to withdraw shall be invalid unless it is given in writing to the office of the association at which the shares or investment certificates in question were issued, or at which the account of such association as to such shares or investment certificates is kept, or to the principal office of such association, signed by a holder entitled to make a withdrawal, or by his attorney or agent. A shareholder or certificate holder may at any time revoke or waive, either in whole or in part, a notice of intention to withdraw and thereupon such notice shall become invalid either in whole or as to such part, as the case may be.

Filing

All notices of intention to withdraw shall be filed when and as received by each association or by the several offices thereof in the order in which they are received, and each shall be kept on file with the exact time of the receipt thereof noted thereon

or recorded, until it is paid or becomes invalid. When any notice shall have been on file for the period prescribed therefor, or for the period stated in such notice as the period to elapse previous to making the withdrawal (whichever shall be longer) such notice shall be a "matured notice" for all the purposes of this act; provided, however, that withdrawal claims on behalf of any one investor in an association or by two or more investors in an association, holding shares or investment certificates in common or in joint tenancy, shall mature in installments if such claims shall be for any sum greater than two hundred fifty dollars ($250), the first of such installments being hereinafter referred to as the "initial installment" and the remaining installment or installments being hereinafter referred to as the "successive installments." Withdrawal claims maturing in installments shall be matured withdrawal claims, within the meaning of this act, only to the extent that such claims are matured as provided in this section, notwithstanding anything to the contrary contained in this act. Definitions

The initial installment shall mature: (1) in the case of withdrawal claims filed pursuant to Sections 3.05 and 6.01 of this act, when the notice of intention of withdrawal shall have matured; and (2) in the case of maturity of shares pursuant to Section 3.03 of this act, upon the declaration of such maturity by the board of directors of the association. The first successive installment shall mature 30 days after the payment of the initial installment, and the other successive installments shall mature respectively 30 days after the payment of the next preceding successive installment. Initial installment

In the case of withdrawal claims representing investment certificates or shares having a value in excess of two hundred fifty dollars ($250), but not greater than one thousand two hundred fifty dollars ($1,250), each installment shall be two hundred fifty dollars ($250), or the portion of the claim remaining unpaid at the time such installment matures, whichever is lesser; in the case of withdrawal claims representing investment certificates or shares having a value in excess of one thousand two hundred fifty dollars ($1,250), but not greater than twenty thousand dollars ($20,000), each installment shall be one-fifth of such value at the time the initial installment matures or the portion of such claim remaining unpaid at the time such installment falls due, whichever is lesser; and in the case of claims representing investment certificates or shares having a value greater than twenty thousand dollars ($20,000), each installment shall be four thousand dollars ($4,000), or the portion of the claim remaining unpaid at the time such installment matures, whichever is lesser. Withdrawal claims

The provisions of this section shall govern the withdrawal and other rights of the holders of all shares and investment certificates whether heretofore or hereafter issued, and whether or not withdrawal claims shall have heretofore been filed unless such previously filed claims shall have heretofore matured. Scope of section

Withdrawals of pledged certificates

No shareholder or certificate holder whose shares or investment certificates are pledged as security for a loan from the association issuing such shares or investment certificates shall be permitted to make a withdrawal or be entitled to give any valid notice of intention to withdraw in respect of such shares or investment certificates until the indebtedness for which such shares or investment certificates are security has been fully paid, except that withdrawals therefrom may be made without notice provided the full amount of such withdrawals shall be used to pay such indebtedness or any part thereof; provided, that in the case of loans upon the mutual plan, such withdrawals without notice shall be permitted only at the option of the association unless the entire indebtedness shall be simultaneously paid.

Minimum term certificates

No valid notice of intention to withdraw may be given in respect of minimum term investment certificates during the minimum term thereof, nor shall the holders thereof be entitled to withdraw during the minimum term thereof, except at the option of the association issuing such certificates.

Tender

If the shareholder or certificate holder shall tender his certificate for surrender, duly endorsed, within 10 days after any valid notice of intention to withdraw shall have matured, he shall be entitled, subject to Section 6.02 of this act, to receive the withdrawal value of his shares or investment certificates or of that part thereof referred to in such notice, which withdrawal value is hereby defined as the full amount paid in upon the shares or investment certificates surrendered exclusive of the entrance fee, if any, together with dividends, profits or interest, if any, applicable thereto, subject to such adjustment of earnings or interest as may be provided by by-law or contract. Shareholders or certificate holders who shall have given notice of intention to withdraw and who shall fail to tender their certificates for surrender within 10 days after notice from the association that funds are available for the payment thereof shall have no right to withdraw except after giving new notice of intention to do so and such prior notice of intention to withdraw shall become invalid for all of the purposes of this act; provided, such notice from the association shall have stated that unless such certificates shall be tendered for surrender within such 10-day period the holder shall have no right to withdraw except after giving new notice of intention to do so.

"Association on notice"

If in the case of any association the sum of the matured withdrawal claims, as defined in this act, shall exceed 5 percent of the value of all outstanding shares and investment certificates of such association, then such association shall be an "association on notice" for all the purposes of this act. An association which is on notice shall continue to be on notice notwithstanding the fact that the sum of the matured withdrawal claims may become less than said percentage, unless and until all of the matured withdrawal claims shall be paid or funds shall be set aside for the payment thereof; provided, however, that if, in the case of any association which is on

notice, the sum of the matured withdrawal claims shall become less than 3 percent of the value of all outstanding shares and investment certificates of such association, then, with the prior approval of the commissioner, its board of directors may at their option, by resolution, declare such association to be no longer on notice, and thereupon such association shall cease to be an association on notice for all the purposes of this act, subject to becoming an association on notice as before. In making computations for the purpose of this paragraph, shares and investment certificates shall not be deemed to be unpaid if the association has funds set aside for the payment thereof and has given notice of that fact to the respective holders thereof.

Unexpended balance

6702. If at the end of any fiscal year during which the schools of a school district have been maintained for the period required or permitted by law, there is standing to the credit of the district an unexpended balance of money received from the State School Fund, it may be expended for the payment of claims against the district outstanding, or it may be expended during the succeeding fiscal year.

Market milk inspection fee

An area in which the inspection and/or grading service is established and conducted by the director and wherein such service is not conducted under an "approved milk inspection service," as defined in Section 490, shall be known as an "established milk inspection area." Distributors who are subject to the provisions of this section shall deduct from payments due producers for market milk and shall pay to the director the fee required to be paid by said producers.

Said inspection fee shall be payable during the first week of January, April, July and October of each year. Said inspection fee is hereby fixed at:

in the business of producing, processing, selling or distributing any grade of market milk in an area in which no inspection service has been established by the director, then the director shall establish and conduct a milk inspection service; provided, however, that whenever the funds derived under the provisions of Section 509 are inadequate to maintain such milk inspection service subject to establishment by the director, then the establishment of such milk inspection service shall not be required. Whenever the funds derived from an area wherein a milk inspection service has been established by the director are insufficient to defray the added cost of inspection for a graded milk supply, the director on 30 days notice may withdraw such graded inspection service, and the producers and distributors of market milk in that area shall thereafter be required to pay only the inspection fee or fees specified in paragraphs (c) and (d) of Section 509.

No director of a corporate employer shall be eligible for insurance under the policy unless such person is otherwise

"Employees"

Any eligible person as to whom evidence of individual insurability is not satisfactory to the insurer shall be excluded

(c) The policy must cover at date of issue at least 100 persons. If the fund is established by the members of an association of employers the policy may be issued only if (i) either (a) the participating employers constitute at date of issue at least 60 percent of those employer members whose employees are not already covered for group life insurance or (b) the total number of persons covered at date of issue exceeds 600; and (ii) the policy shall not require that, if a participating employer discontinues membership in the association, the insurance of his employees shall cease solely by reason of such discontinuance.

(d) The amounts of insurance under the policy must be based upon some plan precluding individual selection by the insured persons or by the trustees, employers or unions. No policy may be issued which provides term insurance on any person which together with any other term insurance under

any group life insurance policy or policies issued to the employers, or any of them, or to the trustees of a fund established in whole or in part by the employers, or any of them, exceeds twenty thousand dollars ($20,000).

bridges, sewerage and other public facilities, and providing the procedure for making such allocations," approved June 20, 1944, relating to public works programs, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 5, 1951. Filed with Secretary of State May 5, 1951.] In effect immediately

Reversion of funds

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

In order that needed public works may be constructed, including public works necessary for civil defense purposes, it is necessary that land be acquired and plans prepared. Rising costs of construction materials, lack of professional assistance and the accumulation of local matching funds have caused many cities, counties and districts to defer the preparation of plans, thus delaying their requests for state matching funds. Plans can now be prepared which will result in requests from local political subdivisions for the funds made available on a matching basis by this act.

It is essential that the preparation of plans and the acquisition of sites for the public works program contemplated by the act cited in the title hereof proceed without delay and therefore it is necessary that this act go into effect immediately.

Article 10. Urgency

SEC. 160. The purpose of this act is to form the Fairfield-Suisun Sewer District in order that the area benefited may be served with sewer and storm drain facilities; special facts and circumstances, applicable to the area in which the district lies and not generally, makes the accomplishment of this purpose impossible under existing general laws, and therefore special legislation is necessary. The special facts are as follows: Purpose

a. The area has no facilities for the treatment and disposal of sewage and is consequently contaminating and polluting the waters of Suisun Bay.

b. Recent increases have resulted in a population disproportionate to the assessed valuation of taxable property in the area, and construction of adequate facilities cannot therefore be financed within the framework of existing general laws.

c. The area is of strategic importance during times of war or threatened war because of the proximity of the Travis Air Force Base, formerly known as the Fairfield-Suisun Army Air Base, center of military air operations on the Pacific Coast. Influx of military men and their families has greatly aggravated the problem of sewage disposal in the area.

Urgency

SEC. 161. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall take effect immediately. The facts constituting such necessity are:

Water pollution and contamination are critical problems in the proposed district. State and local health authorities are agreed on the urgent need for immediate sewage treatment facilities in the area if a serious health condition is to be avoided. Inadequacy of existing law makes it necessary that this legislation take immediate effect so that necessary facilities may be provided.

CHAPTER 304

An act to amend Section 736 of the Fish and Game Code, relating to fish, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor May 5, 1951. Filed with Secretary of State May 5, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 736 of the Fish and Game Code is amended to read:

Tuna Permissible size

736. No yellowfin tuna or bluefin tuna weighing less than seven and one-half pounds may be sold. On and after December 31, 1953, no yellowfin tuna or bluefin tuna weighing less than seven and one-half pounds or more than 150 pounds may be sold.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act will delete a limitation on the maximum size of yellowfin or bluefin tuna which may be sold. This limitation would become operative on June 30, 1951.

Due to the condition of the present and prospective available supply of yellowfin and bluefin tuna weighing less than

150 pounds, it is apparent that if this limitation becomes operative it will seriously curtail the available amount of this valuable sea food.

It is therefore necessary that this act go into immediate effect so that it will delete the limitation from the law before such limitation becomes operative.

In effect immediately

[Approved by Governor May 5, 1951. Filed with Secretary of State May 5, 1951.]

The people of the State of California do enact as follows:

"Impounded funds"

SECTION 1. For the purposes of this act, "impounded funds" means all rentals, royalties, and other payments received by the State of California from lessees of tide and submerged lands lying along the coast of California and impounded in the Special Deposit Fund in the State Treasury before or after the effective date of this act pursuant to any stipulation

heretofore or hereafter entered into by and between the State of California and the United States Government, or by and between any officials thereof acting on behalf of their respective governments, including all interest earned or other increment derived from the investments authorized by, and deposited in the Special Deposit Fund under the provisions of, this act.

Permissible investments

SEC. 2. The impounded funds may be invested and reinvested by the Director of Finance in bonds or other obligations of the United States. Such securities may be sold or exchanged by the Director of Finance if, in his opinion, such sale or exchange is in the best interests of the State in effectuating the purposes of this act, and shall be sold by him whenever, and to the extent, necessary to effect any required transfer or other disposition of the impounded funds.

Securities purchased or otherwise acquired under the authority of this act shall be deposited and held in the custody and safekeeping of the State Treasurer, in the name of the account in the Special Deposit Fund from which the investments were made.

SEC. 3. Interest earned or other increment derived from investments made pursuant to this act shall, on order of the State Controller, be deposited in the Special Deposit Fund to the credit of the account covering the impounded funds, in augmentation of such impounded funds.

Severability

SEC. 4. If any provision of this act is held invalid, such invalidity shall not affect other provisions of the act which can be given effect without the invalid provision, and to this end the provisions of this act are declared to be severable. No state officer or employee acting in good faith under apparent authority of this act shall be held civilly liable to any greater extent than he would be if this act pertained to ordinary state funds in the treasury. Any liability against any state officer or employee finally adjudicated by the federal courts or other competent authority contrary to, or notwithstanding, the provisions of this section is assumed and, upon approval of the State Board of Control, shall be paid by the State. The moneys in the State Lands Act Fund are appropriated to carry out the provisions of this section.

Liability

Urgency

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Pursuant to stipulation by the United States of America and the State of California through their respective counsel, certain royalties received by the State of California from certain oil and gas leases covered by such stipulations have been, and are being, impounded in a special fund in the State Treasury until such time as the area or areas from which such royalties were derived shall be finally determined, by court order or

decree, or by agreement, to be within or without the three-mile marginal belt.

There is, at present, no provision of law authorizing the investment of these impounded funds, which now exceed $27,000,000 in amount. In order to permit the immediate investment of these impounded funds, and thus to obtain, for the benefit of the ultimate distributees of such funds, the interest income that will be derived from such investments, it is necessary that this act go into effect immediately.

There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

CHAPTER 316

An act to amend Section 818 of the Agricultural Code, relating to standards for potatoes, declaring the urgency thereof, to take effect immediately.

In effect immediately [Approved by Governor May 5, 1951. Filed with Secretary of State May 5, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 818 of the Agricultural Code is amended to read:

Potatoes 818. Potatoes shall be free from mold, decay, soft and wet rots, black heart, and hollow heart; and free from serious damage due to insect injury, freezing, sun scald, dry rots, scab, growth cracks, sunburn, second growth, cuts, bruises, grass roots, nematodes, or other causes. Damage to any one potato is not serious unless it causes a waste of 10 percent, by weight, of the individual potato.

Damage by cuts shall also be considered serious when both ends are clipped or when more than an estimated one-fourth of the potato is cut away, or in the case of long varieties when the remaining portion of the clipped potato weighs less than six ounces.

Not more than 5 percent, by weight, of the potatoes in any one container or bulk lot may be below these requirements.

Marking of containers Containers of potatoes shall not bear any marking, brand or designation of quality such as "extra selected," "selected," "select," "extra fancy," "fancy," "choice," "No. 1," or other similar superlative designations which imply a reasonably high quality, unless the contents of the container conform at least to the requirements of the U. Urgency SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

In accordance with the current provisions of the Agricultural Code, it is possible to ship and sell potatoes damaged to the extent that they fail to give consumer satisfaction. During recent years substantial quantities of such low grade potatoes have been placed in local and out-of-state markets. Improvement in the quality of California potatoes being shipped to an increasing number of markets in the United States, is necessary to provide for the orderly marketing thereof, to prevent the marketing of low quality potatoes for the protection of both consumers and producers and the prevention of the demoralization of the market for potatoes which are a desirable and valuable food source. Because the marketing season for the 1951 crop has just commenced and large volumes will be harvested prior to the time this act would otherwise become effective it is necessary that it take effect immediately in order that the benefits thereof be obtained by the people during the current year.

CHAPTER 335

An act to amend Section 14402 of the Government Code, relating to payments on state contracts, declaring the urgency thereof and providing that this act shall take effect immediately.

[Approved by Governor May 5, 1951. Filed with Secretary of State May 5, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 14402 of the Government Code is amended to read:

14402. Payments upon contracts shall be made as the department prescribes upon estimates made and approved by the department, but progress payments shall not be made in excess of 90 percent of the percentage of actual work completed, plus a like percentage of the value of material delivered on the ground or stored subject to or under the control of the State, and unused. The department shall withhold not less than 10 percent of the contract price until final completion and acceptance of the project. The Controller shall draw his warrants upon estimates so made and approved by the department and the Treasurer shall pay them. Progress payments

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and therefore shall go into immediate effect. The following is a statement of the facts constituting such necessity: Urgency

Vitally needed public projects are at present under contract and various items of material and equipment are becoming short and difficult to obtain. It is necessary that contractors anticipate their needs for such items in advance, rather than to delay ordering until the projects are completed to the point where the items will be immediately needed. Such advance purchases would exceed the ability of many contractors to pay for such items and carry the material without reimbursement in excess of that permitted under the present law. It is therefore necessary that the State be permitted to make more substantial payments to contractors for materials purchased for use on any particular project prior to the time of its incorporation in the work, and it is therefore necessary that this act take immediate effect.

Same

(f) If the holder of such contract, except as the result of an accidental or bona fide error in computation, shall violate any provision of subdivision (d) of this section, the buyer may recover from such holder in a civil action the total amount paid on the contract balance by the buyer to such holder pursuant to the terms of such contract.

23731a. The tax imposed under Section 23731 shall apply in the case of any organization, other than a church, a convention or association of churches which is exempt, except as provided in this article, from taxation under this part by reason of Sections 23701a, 23701d or 23701e. Such taxes shall also apply to an organization described in Section 23701h if the income is payable to an organization which itself is subject to the tax imposed under Section 23731 or to a church or to a convention or association of churches. Same

23731b. The "Article 2" net income of an organization means the amount by which its unrelated business net income, as defined in Section 23732, exceeds one thousand dollars ($1,000). "Article 2" net income "Unrelated business income".

23732. The term "unrelated business net income" means the gross income derived by any organization from any unrelated trade or business, as defined in Section 23734, regularly carried on by it, less the deductions allowed by Article 2, Chapter 6, which are directly connected with the carrying on of such trade or business, subject to the exceptions, additions, and limitations prescribed in Sections 23732a to 23732h, inclusive.

23732a. There shall be excluded all dividends, interest, and annuities, and all deductions directly connected with such income. Dividends, etc

Article 2 leases

23732e. There shall be excluded all gains or losses from the sale, exchange, or other disposition of property other than (1) stock in trade or other property of a kind which would properly be includible in inventory if on hand at the close of the taxable year, or (2) property held primarily for sale to customers in the ordinary course of the trade or business. of which are freely available to the general public, there shall be excluded all income derived from research performed for any person, and all deductions directly connected with such income.

Charitable contributions

23732h. In the case of any organization described in Section 23731a, the so-called "charitable contribution" deduction allowed by Section 24121k shall be allowed (whether or not directly connected with the carrying on of the trade or business), but shall not exceed 5 percent of the unrelated business net income computed without the benefit of this section.

Partnerships

23733. If a trade or business regularly carried on by a partnership, of which an organization is a member, is an unrelated trade or business with respect to such organization, such organization in computing its unrelated business net income shall, subject to the exceptions, additions, and limitations contained in Sections 23732a through h, inclusive, include its share (whether or not distributed) of the gross income of the partnership from such unrelated trade or business and its share of the partnership deductions directly connected with such gross income. If the taxable year of the organization is different from that of the partnership, the amounts to be so included or deducted in computing the unrelated business net income shall be based upon the income and deductions of the partnership for any taxable year of the partnership (whether beginning on, before, or after January 1, 1951) ending within or with the taxable year of the organization.

"Unrelated trade or business"

23734. The term "unrelated trade or business" means, in the case of any organization subject to the tax imposed by Section 23731, any trade or business the conduct of which is not substantially related (aside from the need of such organization for income or funds or the use it makes of the profits derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under Article 1, except that such term shall not include any trade or business—

(a) In which substantially all the work in carrying on such trade or business is performed for the organization without compensation; or

The term "Article 2 lease" means a lease for a term of more than five years of real property by an organization (or by a partnership of which it is a member), if at the close of the lessor's taxable year there is an Article 2 lease indebtedness (as defined in Section 23735a) with respect to such property. In computing the term of a lease which contains an option for renewal or extension, the term of such lease shall be considered as including any period for which

such option may be exercised; and the term of any lease made pursuant to an exercise of such option shall include the period during which the prior lease was in effect. If real property is acquired subject to a lease, the term of such lease shall be considered to begin on the date of such acquisition. No lease shall be considered an Article 2 lease if (i) such lease is entered into primarily for purposes which are substantially related (aside from the need of such organization for income or funds or the use it makes of the rents derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under Article 1, or (ii) the lease is of premises in a building primarily designed for occupancy and occupied by the organization. If a lease for more than five years to a tenant is for only a portion of the real property, and space in the real property is rented during the taxable year under a lease for not more than five years to any other tenant of the organization, leases of the real property for more than five years shall be considered as Article 2 leases during the taxable year only if—

(a) the rents derived from the real property during the taxable year under such leases represent 50 percent or more of the total rents derived during the taxable year from the real property; or the area of the premises occupied under such leases represents, at any time during the taxable year, 50 percent or more of the total area of the real property rented at such time; or

(b) the rent derived from the real property during the taxable year from any tenant under such a lease, or from a group of tenants (under such leases) who are (1) members of an affiliated group (as defined in Section 23361) or (2) partners, represents more than 10 percent of the total rents derived during the taxable year from such property; or the area of the premises occupied by any one such tenant, or by any such group of tenants, represents at any time during the taxable year more than 10 percent of the total area of the real property rented at such time.

"Article 2 lease indebtedness"

23735a. The term "Article 2 lease indebtedness" means, with respect to any real property leased for a term of more than five years, the unpaid amount of—

(1) The indebtedness incurred by the lessor in acquiring or improving such property;

(2) The indebtedness incurred prior to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement; and

(3) The indebtedness incurred subsequent to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement and the incurrence of such indebtedness was reasonably forseeable at the time of such acquisition or improvement.

Where real property is acquired subject to a mortgage or other similar lien, the amount of the indebtedness secured by such mortgage or lien shall be considered (whether the acquisition was by gift, devise, or purchase) as an indebtedness of the lessor incurred in acquiring such property even though the lessor did not assume or agree to pay such indebtedness, except that where real property was acquired by a gift, bequest, or devise prior to January 1, 1951, subject to a mortgage or other similar lien, the amount of such mortgage or other similar lien shall not be considered as an indebtedness of the lessor incurred in acquiring such property.

Where real property was acquired by gift, bequest, or devise prior to January 1, 1951, subject to a lease requiring improvements in such property upon the happening of stated contingencies, indebtedness incurred in improving such property in accordance with the terms of such lease shall not be considered as an indebtedness for purposes of this section. In the case of a corporation described in Section 23701h, all of the stock of which was acquired prior to January 1, 1951, by an organization described in Sections 23701a, 23701d or 23701e (and more than one-third of such stock was acquired by such organization by gift or bequest), any indebtedness incurred by such corporation prior to January 1, 1951, and any indebtedness incurred by such corporation on or after such date in improving real property in accordance with the terms of a lease entered into prior to such date, shall not be considered as an indebtedness with respect to such corporation or such organization for purposes of this article. In determining the amount of the Article 2 lease indebtedness where only a portion of the real property is subject to an Article 2 lease, proper allocation to the premises covered by such lease shall be made of the indebtedness incurred by the lessor with respect to the real property.

"Real property," "premises"

23735b. For the purposes of this article, the term "real property" and the term "premises" include personal property of the lessor leased by it to a lessee of its real estate if the lease of such personal property is made under, or in connection with, the lease of such real estate.

Unrelated business net income

23735c. In computing under Section 23732 the unrelated business net income for any taxable year—

(1) There shall be included with respect to each Article 2 lease, as an item of gross income derived from an unrelated trade or business, an amount which is the same percentage (but not in excess of 100 percent) of the total rents derived during the taxable year under such lease as (A) the Article 2 lease indebtedness, at the close of the taxable year, with respect to the premises covered by such lease is of (B) the adjusted basis, at the close of the taxable year, of such premises.

(2) There shall be allowed with respect to each Article 2 lease, as a deduction to be taken into account in computing unrelated business net income, an amount which is in the same percentage (but not in excess of 100 percent) of the sum determined under paragraph (3) as the amount determined under

clause (A) of paragraph (1) is of the amount determined under clause (B) of such paragraph.

(3) The sum referred to in paragraph (2) is the sum of the following deductions allowable under Article 2, Chapter 6:

(A) Taxes and other expenses paid or accrued during the taxable year upon or with respect to the real property subject to the Article 2 lease.

(B) Interest paid or accrued during the taxable year on the Article 2 lease indebtedness.

(C) A reasonable allowance for exhaustion, wear and tear (including a reasonable allowance for obsolescence) of the real property subject to such lease.

Where only a portion of the real property is subject to the Article 2 lease, there shall be taken into account under subparagraph (A), (B), or (C) only those amounts which are properly allocable to the premises covered by such lease.

Exempt organizations

23736. Sections 23736.1 to 23736.4, inclusive, shall apply to any organization described in Section 23701d except—

(a) A religious organization (other than a trust);

(b) An educational organization which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on;

(c) An organization which normally receives a substantial part of its support (exclusive of income received in the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under Section 23701d) from the United States or any state or political subdivision thereof or from direct or indirect contributions from the general public;

(d) An organization which is operated, supervised, controlled, or principally supported by a religious organization (other than a trust) which is itself not subject to the provisions of this article; and

(e) An organization the principal purposes or functions of which are the providing of medical or hospital care or medical education or medical research.

the creator of such organization (if a trust); a person who has made a substantial contribution to such organization; a member of the family (as defined in Section 17353(d) of this code) of an individual who is the creator of such trust or who has made a substantial contribution to such organization; or a corporation controlled by such creator or person through the ownership, directly or indirectly, of 50 percent or more of the total combined voting power of all classes of stock entitled to vote or 50 percent or more of the total value of shares of all classes of stock of the corporation.

Limitation

23736.2. No organization subject to the provisions of this article, except those specified in Section 23736, which has engaged in a prohibited transaction after January 1, 1951, shall be exempt from taxation under Section 23701d.

Exemption denied

23736.3. An organization shall be denied exemption from taxation under Section 23701d by reason of paragraph (1) only for taxable years subsequent to the taxable year during which it is notified by the Franchise Tax Board that it has engaged in a prohibited transaction, unless such organization entered into such prohibited transaction with the purpose of diverting corpus or income of the organization from its exempt purposes, and such transaction involved a substantial part of the corpus or income of such organization.

[Approved by Governor May 5, 1951 Filed with Secretary of State May 5, 1951.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 23222a is hereby added to the Revenue and Taxation Code, to read:

Income for short periods

23222a. In every case in which the second or succeeding taxable years of a commencing taxpayer constitute a period of less than 12 months, or in which the taxpayer does business for a period of less than 12 months during its second or succeeding taxable years, the tax for such year or years shall be measured by the income of that period or periods subject to the continuation of the prepayment procedure outlined in Section 23222. In no event shall the income of any period or periods herein described be used as the measure of the tax other than the prepayment for the following taxable year, until the income of the second or a succeeding taxable year constitutes a period of 12 months. Thereafter the procedure outlined in Section 23222, in respect of the second and third taxable years, shall apply.

SEC. 2. Section 24121k.1 is hereby added to the Revenue and Taxation Code, to read:

Accrual basis year gift taken

24121k.1. In the case of a bank or corporation reporting its net income on the accrual basis, at the election of the taxpayer any contribution or gift payment of which is made after the close of the taxable year and on or before the fifteenth day of the third month following the close of such year shall, for the purposes of Section 24121k, be considered as paid during such taxable year if, during such year, the board of directors authorized such contribution or gift. Such election shall be made only at the time of the filing of the return for the taxable year and shall be signified in such manner as the Franchise Tax Board shall by regulations prescribe.

SEC. 3. Section 25295a is hereby added to the Revenue and Taxation Code, to read:

Collection jeopardized

25295a. If the Franchise Tax Board determines that the reporting of income from the sale or other disposition of property in the manner provided in this article may jeopardize the collection of a tax measured by such income, then, unless the taxpayer posts bond or other security in a form and amount satisfactory to the Franchise Tax Board to guarantee the payment of any tax that may become due measured by such income, the Franchise Tax Board may require that any of such income not previously reported shall be included in the computation of the measure of the tax for the last year during which the taxpayer was subject to the tax imposed under Chapter 2 or Chapter 3 of this part.

SEC. 4. Section 23222 of the Revenue and Taxation Code is hereby amended to read:

Return for first taxable year Filing, basis for second year

23222. If a taxpayer commences to do business in this State during its first taxable year its tax for that year shall be adjusted upon the basis of the net income received during that taxable year, at the rate applicable to that year, a credit being allowed for the prepayment of the minimum tax. The return for the first taxable year, which shall be filed within two months and 15 days after the close of that year, shall also be the basis for the tax of said taxpayer for its second taxable year, if its first taxable year is a period of 12 months. In every case in which the first taxable year of a taxpayer constitutes a period

of less than 12 months, or in which a taxpayer does business for a period of less than 12 months during its first taxable year, said taxpayer shall pay as a prepayment of the tax for its second taxable year a tax based on the income for the first taxable year computed under the law and at the rate applicable to the second taxable year, the same to be due and payable at the same times and in the same manner as if that amount were the entire amount of its tax for that year; and upon the filing of its tax return within two months and 15 days after the close of the second taxable year it shall pay a tax for said year, at the rate applicable to that year, based upon its net income received during that year, allowing a credit for the prepayment; but in no event, except as provided in Section 23332, shall the tax for the second taxable year be less than the amount of the prepayment for that year, and said return for its second taxable year shall also be the basis for the tax of said taxpayer for its third taxable year, if the second taxable year constitutes a period of 12 months.

The people of the State of California do enact as follows:

SECTION 1. Section 1272a of the Code of Civil Procedure is amended to read:

1272a. When the estate, or any portion thereof, of any decedent has been received by or deposited with the State Treasurer pursuant to a distribution thereof to the State of California, or pursuant to the provisions of Section 1274a of this code, and, except as otherwise provided by law, when there is in the possession of the State or its officers any money or other property, real or personal, which is to be held for third persons or the title to which has vested in the State subject to the rights of third persons, the Superior Court of the County of Sacramento, State of California, shall have full and exclusive jurisdiction to determine the title to the property and all claims thereto, subject to the provisions of Section 401. Jurisdiction

Whenever the holder of such money or other property has erroneously delivered the same to the State or its officers, the same may be refunded or returned to such holder on order of the State Controller, with the approval of the State Board of Control. Erroneous delivery

Any person entitled to succeed to the property or to take title thereto or possession thereof, and not a party or privy to any proceedings had under any of the foregoing sections of this title, may, unless otherwise barred, file a petition in the Superior Court of the County of Sacramento showing his claim or right to the property, or the proceeds thereof, or to any portion thereof. Petition

Upon presentation of such certificate, the State Controller shall draw his warrant on the State Treasurer for the amount of money covered thereby; and if the certificate covers any personal property other than money, a certified copy of the certificate filed with the officer of the State having possession of the personal property shall serve as sufficient authority to the officer for the delivery of the personal property to the claimant.

Whenever the amount claimed by any such person, or the total value of the personal property, including money, to which the claimant is entitled, is less than five hundred dollars ($500), any such claimant may, in lieu of filing such petition, present his claim for the money or other personal property to the State Board of Control, showing the same facts required to be stated in such petition; and the board may, in its discretion, upon recommendation of the Attorney General, allow and order paid Claims below $500

such claim. When payment has been made under this section to any claimant, no suit shall thereafter be maintained by any other claimant against the State or any officer thereof for or on account of such property.

Limitation

The provisions of this section shall not apply to cash or other property held by the State or any officer thereof as trustee or bailee under the terms of an express contract to which the State or any officer thereof is a party.

Effect Stats 1951, Ch 1708

SEC. 2. This act shall not become operative if a new Title 10 of Part 3 of the Code of Civil Procedure is enacted by the Legislature at its 1951 Regular Session, and in such case, Section 1 of this act is repealed at the same time as said new Title 10 of Part 3 takes effect.

If there is no district in the same county maintaining such facilities, the governing board of the school district shall enter into a contract with a school district maintaining such facilities in any other county. If any question arises concerning the adequacy of the facilities provided for the education of physically handicapped minors by the school district in which the child is actually living, the parent or guardian of such child may appeal to the county superintendent of schools, and if the county superintendent of schools determines that the facilities offered are inadequate, he shall order the school district in which the child is actually living either to provide the facilities or enter into a contract with a school district maintaining adequate facilities. Contracts for education physically handicapped minors

Such contract shall provide for the payment of the cost of tuition by the district in which the physically handicapped minor actually lives and may provide for payment of the cost of the use of the buildings and equipment. The cost of tuition shall not be greater than the difference between current expenditures per unit of average daily attendance, including transportation, for the education of a pupil in the particular category

of physically handicapped minors to which the pupil belongs and the apportionment of state funds for the education of physically handicapped minors in that category.

The amount shall be determined not later than the last Monday in December and the last Monday in May of each year by the county superintendent of schools of the county in which the child attends schools and certified to the superintendent of schools having jurisdiction over the schools of the school district in which the child actually lives. [Approved by Governor May 5, 1951 Filed with Secretary of State May 5, 1951.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 4911.1 of the Education Code is amended to read:

Reorganization of school districts

4911.1. In the event the county committee transmits plans and recommendations to the State Board of Education,

Transmission of plans

pursuant to Section 4902, for the reorganization of the school districts in the county other than the formation of a unified school district or the expansion of an existing unified school district, the proposed reorganization, if approved by the State Board of Education, shall be deemed to be the filing of a petition with the State Board of Education, the appropriate board of supervisors, or with the county superintendent of schools, as the case may be. The State Board of Education shall notify the board of supervisors and the county superintendent of schools having jurisdiction over the school districts affected thereby of its action and the proposed reorganization of the school districts shall then be held and conducted in accordance with the applicable provisions of this code as though such petition had been originally filed with such board of supervisors or with the county superintendent of schools, except that no action required by any other provision of this code shall be necessary to give the board of supervisors or county superintendent of schools jurisdiction in the matter.

SEC. 2. Section 4912 of said code is amended to read:

Special election

4912. The county superintendent of schools of the county in which the greater part of such area is located shall cause to be held a special election in the elementary school district or unified school district, or those portions of the districts affected, for the purpose of adopting or rejecting the plans and recommendations of the county committee or committees. The county committee or committees shall hold, following the approval by the State Board of Education of the recommendations of the county committee, one (1) or more public hearings at least ten (10) days prior to such election within the area affected by a proposal for unification. The county committee or committees may designate any member to hold and conduct any public hearing required to be held. Such election shall be held between July 1st and December 31st of the year in which the county superintendent of schools was given notice by the State Board of Education under Section 4911 except that if such notice is not received on or before November 1st, the election shall be held between July 1st and December 31st of the following year.

SEC. 3. Section 4912.2 of said code is amended to read:

Exclusion election

4912.2. In the event the plans and recommendations of a county committee for an area provide for the exclusion of territory from a school district, the county committee shall determine whether the election shall be held only in said territory. The county superintendent of schools shall as to said district call the election as determined by the county committee.

SEC. 4. Section 4663 of said code is amended to read:

Annexation to unified district

4663. Upon approval of the county committee on school district organization, after following the procedure prescribed by Chapter 16 of this division, one or more contiguous elementary or high school districts, or portions thereof, one of which is contiguous to a unified school district, may be annexed to the unified school district not later than the first day of February in

any school year by the board of supervisors of the county having jurisdiction over the unified school district whenever a majority of the qualified electors in each of the elementary or high school districts voting at an election held for that purpose vote in favor of the annexation and the governing board of the unified school district has filed its approval of the annexation, in writing, with the board of supervisors. The annexation of such elementary or high school district or districts, or portions thereof, to a unified school district may be effected without such elementary or high school districts or portions thereof first withdrawing from an elementary or high school district of which it is a part. The election shall be called by the county superintendent of schools having jurisdiction over the unified school district.

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Under the existing law, there is no method by which a portion of a city district may be withdrawn and annexed to a unified school district. Under the existing law, a contiguous elementary or high school district, or a portion thereof, may not be annexed to a unified school district without first withdrawing from any elementary or high school district of which it is a part. This act would eliminate delay in annexations to a unified school district by allowing annexations in all such cases without the initiation of withdrawal proceedings.

It is therefore necessary that this act take effect immediately in order for unified school districts to make plans for necessary new sites and buildings, based on the new boundaries, rather than the present boundaries, of the district, so that the schools built in the unified district through the state school building aid program will be situated so as to serve the needs of the reorganized district.

(b) The term "cost of securities sold" means the amount ascertained by subtracting the inventory value of the closing inventory of a taxable year from the sum of (i) the inventory

SEC. 11. Section 17161.1 is added to the Revenue and Taxation Code, to read:

Redemption of parent's stock by subsidiary

17161.1. If stock of a corporation (hereinafter referred to as the issuing corporation) is acquired by another corporation (hereinafter referred to as the acquiring corporation) and the issuing corporation controls (directly or indirectly) the acquiring corporation, the amount paid for the acquisition of the stock shall constitute a taxable dividend from the issuing corporation to the extent that the amount paid for such stock would have been considered, under Section 17161, as essentially equivalent to a taxable dividend if such amount had been distributed by the acquiring corporation to the issuing corporation and had been applied by the issuing corporation in redemption of its stock. For the purposes of this section, control means the ownership of stock possessing at least 50 per centum of the total combined voting power of all classes of stock entitled to vote or at least 50 per centum of the total value of shares of all classes of stock of the corporation.

SEC. 12. Section 17301.1 is added to the Revenue and Taxation Code, to read:

Such election, if made, must be for the total amount of such portion of the expenditures which is so chargeable to capital account, and shall be binding for all subsequent taxable years unless, upon application by the taxpayer, the Franchise Tax Board permits a revocation of such election subject to such conditions as it deems necessary.

tions 23736.2 and 23736.3 of this code. With respect to any taxable year of the organization for which the organization is not exempt pursuant to the provisions of Section 23736 2 of this code by reason of having engaged in a prohibited transaction with the purpose of diverting the corpus or income of such organization from its exempt purposes and such transaction involved a substantial part of such corpus or income, and which taxable year is the same, or prior to the, taxable year of the organization in which such transaction occurred, such deduction shall be disallowed the donor only if such donor or any member of his family (as defined in Section 17353(d)) was a party to such prohibited transaction.

Article 2.5. Employee Stock Options

Restricted stock option

17691. Notwithstanding the provisions of Section 17103, if a share of stock is transferred to an individual pursuant to his exercise after December 31, 1950 of a restricted stock option, and no disposition of such share is made by him within two years from the date of the granting of the option nor within six months after the transfer of such share to him, no income shall result at the time of the transfer of such share to the individual upon his exercise of the option with respect to such share. This section and Section 17692 shall not apply unless (A) the individual, at the time he exercises the restricted stock option, is an employee of the corporation granting such option or of a parent or subsidiary corporation of such corporation, or (B) the option is exercised by him within three months after the date he ceases to be an employee of any of such corporations.

Same Disposition of stock

17692. If no disposition of a share of stock acquired by an individual upon his exercise after December 31, 1950, of a restricted stock option is made by him within two years from the date of the granting of the option nor within six months after the transfer of such share to him, but, at the time the restricted stock option was granted, the option price was less than 95 per centum of the fair market value at such time of such share, then, in the event of any disposition of such share by him, or in the event of his death (whenever occurring) while owning such share, there shall be included as compensation (and not as gain upon the sale or exchange of a capital asset) in his gross income, for the taxable year in which falls the date

of such disposition or for the taxable year closing with his death, whichever is applicable, an amount equal to the amount (if any) by which the option price is exceeded by the lesser of—

(a) The fair market value of the share at the time of such disposition or death, or

(b) The fair market value of the share at the time the option was granted.

In the case of the disposition of such share by the individual, the basis of the share in his hands at the time of such disposition shall be increased by an amount equal to the amount so includible in his gross income.

Exchanged stock

17693. If stock transferred to an individual upon his exercise of the option is exchanged by him for stock or securities in an exchange within the provisions of Sections 17675 or 17678, or if new stock, as described in Sections 17755, 17756 and 17757, is acquired upon a distribution with respect to such stock, the stock or securities acquired in such exchange and such new stock shall be considered as having been transferred to him upon his exercise of such option. A similar rule shall be applied in the case of a series of such exchanges or acquisitions.

"Restricted stock option"

17694. The term "restricted stock option" means an option granted after February 26, 1945, to an individual, for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any such corporations, but only if—

(a) At the time such option is granted the option price is at least 85 per centum of the fair market value at such time of the stock subject to the option; and

(b) Such option by its terms is not transferable by such individual otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him; and

(c) Such individual, at the time the option is granted, does not own stock possessing more than 10 per centum of the total combined voting power of all classes of stock of the employer corporation or of its parent or subsidiary corporation. For the purposes of this subsection—

(i) Such individual shall be considered as owning the stock owned, directly or indirectly, by or for his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants; and

(ii) Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust, shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries.

"Parent corporation"

17695. The term "parent corporation" means any corporation (other than the employer corporation) in an unbroken chain of corporations ending with the employer corporation if, at the time of granting of the option, each of the corporations other than the employer corporation owns stock possessing more than 50 per centum of the total combined voting power

of all classes of stock in one of the other corporations in such chain.

"Subsidiary corporation"

17696. The term "subsidiary corporation" means any corporation (other than the employer corporation) in an unbroken chain of corporations beginning with the employer corporation if, at the time of the granting of the option, each of the corporations other than the last corporation in the unbroken chain owns stock possessing more than 50 per centum of the total combined voting power of all classes of stock in one of the other corporations in such chain.

"Disposition"

17697. The term "disposition" includes a sale, exchange, gift, or any transfer of legal title, but does not include—

(a) A transfer from a decedent to his estate or a transfer by bequest or inheritance;

(b) An exchange which is within the provisions of Sections 17675 or 17678; or

(c) A mere pledge or hypothecation.

Option to purchase Modification etc., of terms

17698. For the purposes of Sections 17694 to 17697, inclusive, if the terms of any option to purchase stock are modified, extended, or renewed, the following rules shall be applied with respect to transfers of stock made upon an exercise of the option after the making of such modification, extension, or renewal:

(a) Such modification, extension, or renewal shall be considered as the granting of a new option;

(b) The fair market value of such stock at the time of the granting of such option shall be considered as (1) the fair market value of such stock on the date of the original granting of the option, (2) the fair market value of such stock on the date of the making of such modification, extension, or renewal, or (3) the fair market value of such stock at the time of the making of any intervening modification, extension, or renewal, whichever is the highest.

SEC. 16. Article 3.5, consisting of Sections 17731 to 17733, inclusive, is added to Chapter 6, Part 10, Division 2, of the Revenue and Taxation Code, to read:

Article 3.5. Treatment of Gain to Shareholders of Collapsible Corporations

Ordinary income

17731. Gain from the sale or exchange (whether in liquidation or otherwise) of stock of a collapsible corporation, to the extent that it would be considered (but for the provisions of this article) as gain from the sale or exchange of a capital asset, shall, except as provided in Section 17733, be considered as gain from the sale or exchange of property which is not a capital asset.

"Collapsible corporation"

17732. (a) For the purposes of this article, the term "collapsible corporation" means a corporation formed or availed of principally for the manufacture, construction, or production of property, or for the holding of stock in a corporation so formed or availed of, with a view to—

(2) The realization by such shareholders of gain attributable to such property.

(b) For the purposes of subsection (a), a corporation shall be deemed to have manufactured, constructed, or produced property, if—

(2) It holds property having a basis determined, in whole or in part, by reference to the cost of such property in the hands of a person who manufactured, constructed, or produced the property, or

(3) It holds property having a basis determined, in whole or in part, by reference to the cost of property manufactured, constructed, or produced by the corporation.

Requirements for application of section

17733. In the case of gain realized by a shareholder upon his stock in a collapsible corporation—

(a) This article shall not apply unless, at any time after the commencement of the manufacture, construction, or production of the property, such shareholder (1) owned (or was considered as owning) more than 10 per centum in value of the outstanding stock of the corporation, or (2) owned stock which was considered as owned at such time by another shareholder who then owned (or was considered as owning) more than 10 per centum in value of the outstanding stock of the corporation;

(b) This article shall not apply to the gain recognized during a taxable year unless more than 70 per centum or such gain is attributable to the property so manufactured, constructed, or produced; and

Article 1.5. Taxation of Unrelated Business Income of Trusts

"Article 1.5 net income"

18121. The term "Article 1.5 net income" of a trust means the amount by which its unrelated business net income (as defined in Section 18122) exceeds one thousand dollars ($1,000).

"Unrelated business net income"

18122. The term "unrelated business net income" means the gross income derived by any trust from any unrelated trade or business (as defined in Section 18132 3) regularly carried on by it, less the deductions allowed by Article 1 of Chapter 4 which are directly connected with the carrying on of such trade or business, subject to the exceptions, additions, and limitations prescribed in Sections 18122.1 to 18122.8, inclusive.

Same Exclusions

18122.1. There shall be excluded all dividends, interest, and annuities, and all deductions directly connected with such income.

Same

18122.2. There shall be excluded all royalties (including overriding royalties) whether measured by production or by gross or net income from the property, and all deductions directly connected with such income.

Same

18122.3. There shall be excluded all rents from real property (including personal property leased with the real property), and all deductions directly connected with such rents

Same Inclusions

18122.4. Notwithstanding Section 18122 3, in the case of a lease (as defined in Sections 18123 and 18123.1) there shall be included, as an item of gross income derived from an unrelated trade or business, the amount ascertained under Section 18123.4(a) and there shall be allowed, as a deduction, the amount ascertained under Section 18123.4(b).

18122.5. This section shall not apply with respect to the cutting of timber which is considered, upon the application of Section 17725, as a sale or exchange of such timber.

Same

18122.6. There shall be excluded all income derived from research for (A) the United States or any of its agencies or instrumentalities, or (B) any state or political subdivision thereof; and there shall be excluded all deductions directly connected with such income.

Same

18122.7. In the case of a college, university, or hospital, there shall be excluded all income derived from research performed for any person, and all deductions directly connected with such income.

Same

18122.8. In the case of a trust operated primarily for the purposes of carrying on fundamental research the results of which are freely available to the general public, there shall be excluded all income derived from research performed for any person, and all deductions directly connected with such income.

"Article 1 5 lease"

18123. The term "Article 1 5 lease" means a lease for a term of more than five years of the real property by a trust (or by a partnership of which it is a member), if at the close of the lessor's taxable year there is an Article 1.5 lease indebtedness (as defined in Section 18123.2) with respect to such property.

Term of lease Computation

18123.1. In computing the term of a lease which contains an option for renewal or extension, the term of such lease shall be considered as including any period for which such option may be exercised; and the term of any lease made pursuant to an exercise of such option shall include the period during which the prior lease was in effect. If real property is acquired subject to a lease, the term of such lease shall be considered to begin on the date of such acquisition. No lease shall be considered an Article 1.5 lease if (A) such lease is entered into primarily for purposes which are substantially related (aside from the need of such organization for income or funds or the use it makes of the rents derived) to the exercise or performance by such trust of its charitable, educational, or other purpose or function under Section 18132, or (B) the lease is of premises in a building primarily designed for occupancy, and occupied, by the trust. If a lease for more than five years to a tenant is for only a portion of the real property, and space in the real property is rented during the taxable year under a lease for not more than five years to any other tenant of the trust, leases of the real property for more than five years shall be considered as Article 1.5 leases during the taxable year only if—

(a) The rents derived from the real property during the taxable year under such leases represent 50 per centum or more of the total rents derived during the taxable year from the real property; or the area of the premises occupied under such leases represents, at any time during the taxable year, 50 per centum or more of the total area of the real property rented at such time; or

(b) The rent derived from the real property during the taxable year from any tenant under such a lease, or from a group of tenants (under such leases) who are partners, represents more than 10 per centum of the total rents derived during the taxable year from such property; or the area of the premises occupied by any one such tenant, or by any such group of tenants, represents at any time during the taxable year more than 10 per centum of the total area of the real property rented at such time.

"Article 1 5 lease indebtedness"

18123.2. The term "Article 1.5 lease indebtedness" means, with respect to any real property leased for a term of more than five years, the unpaid amount of—

(a) The indebtedness incurred by the lessor in acquiring or improving such property;

(b) The indebtedness incurred prior to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement; and

(c) The indebtedness incurred subsequent to the acquisition or improvement of such property if such indebtedness would not have been incurred but for such acquisition or improvement and the incurrence of such indebtedness was reasonably foreseeable at the time of such acquisition or improvement.

Where real property is acquired subject to a mortgage or other similar lien, the amount of the indebtedness secured by such mortgage or lien shall be considered (whether the acquisition was by gift, devise, or purchase) as an indebtedness of the lessor incurred in acquiring such property even though the lessor did not assume or agree to pay such indebtedness, except that where real property was acquired by a gift, bequest, or devise prior to January 1, 1951, subject to a mortgage or other similar lien, the amount of such mortgage or other similar lien shall not be considered as an indebtedness of the lessor incurred in acquiring such property. Where real property was acquired by gift, bequest, or devise prior to January 1, 1951, subject to a lease requiring improvements in such property upon the happening of stated contingencies, indebtedness incurred in improving such property in accordance with the terms of such lease shall not be considered as an indebtedness for purposes of this section. In the case of a corporation described in Section 23701h of this code, all of the stock of which was acquired prior to January 1, 1951, by a trust described in Section 18132 (and more than one-third of such stock was acquired by such trust by gift or bequest), any indebtedness incurred by such corporation prior to January 1, 1951, and any indebtedness incurred by such corporation on or after such date in improving real property in accordance with the terms of a lease entered into prior to such date, shall not be considered as an indebtedness with respect to such trust for purposes of this section. In determining the amount of the Article 1.5 lease indebtedness where only a portion of the real property is subject to an Article 1.5 lease, proper allocation to the premises covered by such lease shall be made of the indebtedness incurred by the lessor with respect to the real property.

"Real property" "Premises"

18123.3. For the purposes of this article, the term "real property" and the term "premises" include personal property of the lessor leased by it to a lessee of its real estate if the lease of such personal property is made under, or in connection with, the lease of such real estate.

Unrelated business net income

18123.4. In computing under Sections 18122 to 18122.8 the unrelated business net income for any taxable year—

(a) There shall be included with respect to each Article 1.5 lease, as an item of gross income derived from an unrelated trade or business, an amount which is the same percentage (but not in excess of 100 per centum) of the total rents derived during the taxable year under such lease as (1) the Article 1.5 lease indebtedness, at the close of the taxable year, with respect to the premises covered by such lease is of (2) the adjusted basis, at the close of the taxable year, of such premises.

(b) There shall be allowed with respect to each Article 1.5 lease, as a deduction to be taken into account in computing unrelated business net income, an amount which is the same percentage (but not in excess of 100 per centum) of the sum determined under subsection (c) as the amount determined under clause (1) of subsection (a) is of the amount determined under clause (2) of such subsection.

(c) The sum referred to in subsection (b) is the sum of the following deductions allowable under Article 1 of Chapter 4:

(1) Taxes and other expenses paid or accrued during the taxable year upon or with respect to the real property subject to the Article 1.5 lease.

(2) Interest paid or accrued during the taxable year on the Article 1.5 lease indebtedness.

(3) A reasonable allowance for exhaustion, wear and tear (including a reasonable allowance for obsolescence) of the real property subject to such lease.

Where only a portion of the real property is subject to the Article 1.5 lease, there shall be taken into account under paragraphs (1), (2), or (3) only those amounts which are properly allocable to the premises covered by such lease.

SEC. 19. Section 18132.1 is added to the Revenue and Taxation Code, to read:

"Charitable contribution"

18132.1. In the case of any trust described in Sections 18131 and 18132, the so-called "charitable contribution" deduction allowed by Section 18132 shall be allowed (whether or not directly connected with the carrying on of the trade or business), and for such purpose a distribution made by the trust to a beneficiary described in Section 18132 shall be considered as a gift or contribution. The deduction allowed by this section shall not exceed 15 per centum of the unrelated business net income computed without the benefit of this section.

SEC. 20. Section 18132.2 is added to the Revenue and Taxation Code, to read:

Partnerships

18132.2. If a trade or business regularly carried on by a partnership of which a trust is a member is an unrelated trade or business with respect to such trust, such trust in computing its unrelated business net income shall, subject to the exceptions, additions, and limitations contained in Sections 18122.1 through 18122.8, include its share (whether or not distributed) of the gross income of the partnership from such unrelated trade or business and its share of the partnership

deductions directly connected with such gross income. If the taxable year of the trust is different from that of the partnership, the amounts to be so included or deducted in computing the unrelated business net income shall be based upon the income and deductions of the partnership for any taxable year of the partnership (whether beginning on, before, or after January 1, 1951) ending within or with the taxable year of the trust.

SEC. 21. Section 18132.3 is added to the Revenue and Taxation Code, to read:

"Unrelated trade or business"

18132.3. The term "unrelated trade or business" means, in the case of any trust subject to the tax imposed by Article 1, any trade or business the conduct of which is not substantially related (aside from the need of such trust for income or funds or the use it makes of the profits derived) to the exercise or performance by such trust of its charitable, educational, or other purpose or function, except that such term shall not include any trade or business—

(a) In which substantially all the work in carrying on such trade or business is performed for the trust without compensation; or

(b) Which is carried on by the trust primarily for the convenience of its members, students, patients, officers, or employees; or

(c) Which is the selling of merchandise, substantially all of which has been received by the organization as gifts or contributions.

The term "unrelated trade or business" means, in the case of a trust computing its unrelated business net income under this section for the purposes of Section 18132.4, any trade or business regularly carried on by such trust or by a partnership of which it is a member.

SEC. 22. Section 18132.4 is added to the Revenue and Taxation Code, to read:

"Unrelated business income"

18132.4. In computing the deduction allowable under Section 18132 to a trust for any taxable year beginning after December 31, 1950, no amount otherwise allowable under Section 18132 as a deduction shall be allowed as a deduction with respect to income of the taxable year which is allocable to its unrelated business income for such year. As used in this article the term "unrelated business income" means an amount equal to the amount which, if such trust were one described in Section 18132, would be computed as its unrelated business net income under Sections 18122 to 18122.7, inclusive, 18132.1, 18132.2, and 18132.3 (relating to income derived from certain business activities and from certain leases).

Deductions

18132.5. (a) The amount otherwise allowable under Section 18132 as a deduction shall not exceed 15 per centum of the

net income of the trust (computed without the benefit of Section 18132) if the trust has engaged in a prohibited transaction, as defined in subsection (b) of this section.

"Prohibited transaction"

(b) For the purposes of this section the term "prohibited transaction" means any transaction after December 31, 1950, in which any trust while holding income or corpus which has been permanently set aside or is to be used exclusively for charitable or other purposes described in Section 18132—

SEC. 24. Section 18132.6 is added to the Revenue and Taxation Code, to read:

Deductions Limitation

18132.6. The amount otherwise allowable under Section 18132 as a deduction shall be limited as provided in Section 18132.5(a) only for taxable years subsequent to the taxable year during which the trust is notified by the Franchise Tax Board that it has engaged in such transaction, unless such trust entered into such prohibited transaction with the purpose of diverting such corpus or income from the purposes described in Section 18132, and such transaction involved a substantial part of such corpus or income.

chise Tax Board, file claim for the allowance of the unlimited deduction under Section 18132, and if the Franchise Tax Board, pursuant to such regulations, is satisfied that such trust will not knowingly again engage in a prohibited transaction, the limitation provided in Section 18132.5 shall not be applicable with respect to taxable years subsequent to the year in which such claim is filed.

SEC. 26. Section 18132.8 is added to the Revenue and Taxation Code, to read:
