CHAPTER 6. ACQUISITION AND IMPROVEMENT

31700. From time to time the street superintendent shall pay to the treasurer all money collected by him on account of any assessment levied pursuant to this part. Payment to treasurer

Special fund

31701. On receipt of the money the treasurer shall place it in a special fund, designated the improvement fund of the vehicle parking district for which the assessments were levied. All proceeds of any bonds issued pursuant to this part shall also be placed in the special fund.

Use of funds

31702. If any parking lot acquired by the district has any building or other improvement upon it which needs to be removed, any money derived from the sale of the building or improvement may be used for the maintenance, operation, repair, or improvement of the parking places of the district, or be apportioned to the various lots or parcels of land in the district in proportion to the amounts of the assessments levied upon them. The amount apportioned to each parcel shall be credited against the unpaid assessment upon it, or if the assessment has been paid, shall be paid to the person who paid the assessment

Payment for condemned property

31703. As soon as there is sufficient money in the special fund devoted to the proposed acquisition and improvement to pay the amounts awarded to the defendants by the interlocutory judgment in the condemnation action, the amounts shall be paid to the parties entitled to them or into court for their benefit.

Payment for purchased property

31704. If any property is being acquired by private purchase, the amounts fixed by the contract of purchase shall be paid to the parties entitled to them upon delivery to the city of a good and sufficient deed conveying to the city the property or the interest in property to be acquired.

Final condemnation judgment

31705. When satisfactory proof is made to the court of payment of the amounts awarded by the interlocutory judgment to the respective parties entitled to them, or into court for their benefit, the court shall direct the interlocutory judgment to be satisfied, and shall make and enter a final judgment condemning the land described in the complaint to the use of the plaintiff for the purposes specified in the complaint.

Contracts for construction

31706. If the proceedings provide for any improvements to be constructed, contracts for the construction of the improvements shall be let by the legislative body in the same manner and with the same faithful performance or labor and material bonds as is provided by law for contracts payable from the general funds of the city. The contractor shall be paid from the special improvement fund.

Special fund deficiency

31707. If there is a deficiency in the special fund for the improvement, the legislative body may provide for the deficiency by an appropriation out of the general fund, or by ordering a supplementary assessment to be made by the street superintendent upon the property in the district in the same manner and form, and subject to the same procedure as the original assessment.

Advancement of deficiency

31708. To avoid delay in event of a supplementary assessment, the legislative body may advance the deficiency out of the treasury and reimburse the treasury from the collections under the supplementary assessment.

31709. If there is a surplus in the special fund for the improvement, the surplus shall be used for the repair of the improvements constructed. Disposition of surplus

CHAPTER 7. REASSESSMENT

31730. A reassessment shall be issued in any of the following events: When issuable

(a) When an assessment made, issued, or filed in the office of the clerk, or any bonds issued to represent the amounts of any such assessment, have been set aside by a court of competent jurisdiction, or when the court has refused to enforce an assessment or has decreed any such bonds not to constitute or represent valid and subsisting liens against the lots or parcels of land upon which the assessments represented by them have been levied.

(b) If for any reason the assessments or bonds, or both, are not effective and the curative and waiver provisions of this part or any curative act passed by the Legislature in relation to them fail to make them valid and enforceable

31731. It is the intent of this chapter to make the cost and expense of the acquisition and improvement made, or attempted to be made, through an attempted compliance with this part payable by the real property benefited by the acquisition and improvement by making a reassessment for that purpose. The power of reassessment embraces both a full and partial reassessment, and is not exhausted by a single attempted exercise of the power. Intent

31732. Whenever the owner or holder of any bonds issued to represent or to be secured by assessments requests the legislative body to order a reassessment and the legislative body is of the opinion that such bonds are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments represented by, or securing the bonds owned or held by, the petitioner. Request for reassessment

31733. If, in any suit involving the validity of the obligation of any bond or assessment, a court of competent jurisdiction for any reason holds the lien of the assessment or bond to be unenforceable, the court in and by its decree shall direct the making of a reassessment to cover the assessments involved in the suit. Decree directing reassessment

31734 If, in any suit to set aside the lien of any assessment or of any bond representing any assessment, or in any suit to quiet title against the lien of any such assessment or bond, or in any suit to enjoin the making, filing, confirmation, or issuance of any assessment or bond to pay for the cost and expenses of any acquisition and improvement pursuant to this part, a court of competent jurisdiction in its judgment decrees such assessments or bonds to be void or unenforceable or enjoins the making, filing, issuance, or confirmation of any such assessment or bond, the court in and by its decree shall direct the making of a reassessment to cover the assessments involved in the suit. Same

Same

31735. If, in any suit contesting the validity and legal force and effect of a sale to foreclose the lien of any assessment or bond, a court of competent jurisdiction decrees the sale to be void or unenforceable for any reason, the court in and by its decree shall direct the making of a reassessment to cover the assessments involved in the suit.

Duties of street superintendent

31736. If a reassessment is directed, by a decree of court or by an order of the legislative body, the street superintendent shall proceed to make a reassessment.

Diagram

31737. If the reassessment is a partial one only, it is not necessary for the diagram to show any lots other than those covered by the partial reassessment. If it is a full reassessment, the street superintendent shall prepare and file with the reassessment a diagram showing the lots or parcels of land deemed by him to be benefited by the improvement.

Reassessment Amount and basis

31738. The reassessment shall assess upon and against each of the lots or parcels of land contained in it an amount determined as follows:

(a) The benefits derived, or to be derived, by each of the lots or parcels of land from the acquisition and improvement estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed.

(b) Interest shall be added to amounts determined pursuant to (a) from the date of recording of the original assessment at the rate of seven percent (7%) a year.

Same Maximum

31739. The total of the reassessment, exclusive of interest, shall not exceed the cost and expenses of the acquisition and improvement.

Same Form

31740. The reassessment need not be in any prescribed form. It shall:

(a) Refer to the original assessment and set forth the date it was filed.

(b) State that it is made pursuant to the order of the legislative body or decree of court, as the case may be.

(c) Be accompanied by a diagram showing the lots or parcels of land to be reassessed and their relation to the improvement.

Same Hearing

31741. The reassessment shall be presented to the legislative body, which shall fix a time for hearing. The hearing shall be at least twenty (20) days after the presentation of the reassessment.

Same Notice of hearing

31742. The clerk shall advertise the time of hearing by publishing a notice in the newspaper in which the ordinance of intention for the acquisition and improvement was published unless the legislative body directs publication in some other newspaper. The notice shall be published for five (5) insertions, if the newspaper is a daily, or for two (2) insertions if the newspaper is published less frequently. If the reassessment is to be against the property in a district, this fact shall be set forth and the reassessment diagram referred to for particulars.

Same Revision, etc

31743. At the time fixed for the hearing, or at any time to which the hearing is adjourned, the legislative body shall

consider the objections to the reassessment and may informally direct the revision, correction, and modification of the reassessment in such manner as is most equitable to apportion to each lot or parcel of land benefited the amount of the actual benefits derived from the acquisition and improvement.

Same: Confirmation

31744. When the reassessment is revised, corrected, or modified to comply with its judgment the legislative body shall pass a resolution confirming the reassessment.

Same: Certification

31745. The clerk shall certify at the end of the reassessment that it is the reassessment approved by the legislative body.

Same: Recordation

31746. The street superintendent shall record the reassessment with the clerk's certificate.

Same Credit, etc

31747. The street superintendent shall note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon the reassessment all payments made upon the original assessment, or upon the bonds issued to represent the original assessment, and interest on the payments at the rate of seven percent (7%) a year from the date of the payments.

Same Manner of collection, etc

31748. The reassessment shall be collected, paid, and enforced in the same manner as an original assessment, and shall have the same weight in evidence.

Same Issuance of bonds

31749. If bonds were issued under or upon the security of the original assessment, they shall issue upon the reassessment for the sum reassessed against the lots or parcel of land covered by it.

Cancellation of original assessment

31750. When the reassessment is recorded, the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New bonds shall not be issued until the original bonds are delivered up to the treasurer who shall cancel them. The lien of the reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment.

Chapter 8. Board of Parking Place Commissioners

Parking place commission

31770. Immediately upon the acquisition of the parking places pursuant to the petition for the formation of the district, a parking place commission shall be appointed. In the discretion of the legislative body, the commission may be appointed at any time prior to such acquisition and after the adoption of the ordinance declaring the district formed.

Members

31771. The commission shall consist of three members, each of whom shall be a resident and qualified elector of the city or county

Compensation

31772. Members of the commission shall serve without compensation.

Appointment

31773. In the case of a city, members of the commission shall be appointed by the mayor, subject to confirmation by the legislative body. In the case of a county they shall be appointed by the legislative body.

Term

31774. The commissioners shall hold office for the term of three years from the date of their appointment and qualification and until their successors are appointed and qualified, except that members of the first board appointed shall classify themselves by lot so that one member holds office for one year, one for two years, and one for three years, and, in each instance, until a successor has been appointed and qualified.

Removal of commissioners

31775. A commissioner may be removed by a four-fifths vote of the legislative body at any time.

Qualifications of commissioners

31776. Commissioners shall be persons of business experience and ability and interested in the district, to the end that the affairs of the district shall be administered in the interests of the district.

Same

31777. A commissioner may be an owner or lessee of property, or an officer, employee, or agent of a corporation owning or leasing property, within the district or, in the case of a commission appointed under Section 31865, within one of the districts, or any other qualified person.

Removal of commissioners

31778. Whenever a petition signed by the owners of more than one-half of the area of assessable land within the district requesting the removal of a commissioner is filed with the legislative body, it shall immediately remove him and appoint a new commissioner. The commissioner removed is ineligible to hold office as a commissioner of the district for one year following his removal. To secure the removal of a commissioner from a commission appointed under Section 31865, the petition shall be signed by the owners of more than one-half of the area of assessable land within each of a majority of the districts governed by the commission.

Powers of board

31779. The board of commissioners shall have possession and complete charge, supervision and control of all parking places:

(a) Acquired, constructed, and paid for, or to be paid for, by taxes upon land or real property or assessments upon land in the district.

(b) Acquired or constructed for the use or benefit of the district and paid for in any other manner.

Same

31780. The board shall operate, manage, and control the parking places and make and enforce all necessary regulations for their use.

Same

31781. The board shall fix, regulate, and collect rentals, fees, or charges for the parking of vehicles in parking places under its control, and may provide different rates for different classes of customers or users.

Intent

31782. The providing of adequate public parking places in cities largely depends upon the formation of local vehicle parking districts. Such districts will be created and will be successful only if so operated as to serve adequately the property within the district. It is the intent of this part that the owners of real property in a vehicle parking district created pursuant to this part to provide parking places to solve the parking problems of the district, may receive preferential rates, charges,

or rentals for themselves, their tenants, and the classes of persons who call upon or do business with them, all to the end that the property which bears the burden and provides a solution for the parking problem shall receive a special benefit.

Restrictions on use of parking places

31783. All parking places acquired and constructed pursuant to this part are public parking places, but the board of commissioners may restrict or partially restrict their use to owners and tenants of real property in the district, and classes of persons designated by such owners or their tenants, and may establish rates, charges, or rentals for the owners and tenants of such properties and classes of persons designated by the owners or tenants which differ from and are less than the rates, charges, or rentals charged other persons.

Fixing of rentals, etc

31784. Rentals, fees, and charges shall be fixed after public hearing following such notice as the board of commissioners prescribes.

Appointment of employees

31785. The board shall appoint in the same manner as other city employees are selected, such employees as it deems necessary.

Leases, etc

31786. In the exercise of its power to operate, manage, and control parking places, the board may lease any or all parking places to any person for the sole purpose of the operation of public parking facilities on them by such person, or may grant a franchise, or make a contract with any person for such purpose.

Consideration of leases, etc

31787. The consideration to be paid by the operator for any lease or franchise or under any contract may be a fixed sum or a percentage of gross rentals, fees, or charges collected by the operator, or any other consideration.

Maximum rentals, etc

31788. The maximum rentals, fees, and charges to be collected by the operator shall be fixed by the board after public hearing following such notice as the board prescribes, and shall be recited in the lease or franchise. No higher rentals, fees, or charges shall be collected by the operator without amendment of the lease or franchise agreed to by the board after like public hearing.

Restriction on use

31789. An operator shall not conduct any business other than that of the operation of public parking facilities on any parking place of the district.

Terms of lease

31790. Any lease or franchise may provide that the use of the parking places shall be restricted, or partially restricted, to owners and tenants of real property in the district, and classes of persons designated by them, and may provide for maximum rates, charges, or rentals for such persons which differ from and are less than the maximum rates, charges, or rentals charged other persons.

Contracts, etc., by legislative body

31791. To provide revenues for the district, at any time prior to the formation of the district, or after the formation of the district and prior to the appointment of a board of parking place commissioners, the legislative body conducting the proceeding for the formation of the district may enter into a contract or lease with any owner or tenant of property in the

district under which the owner or tenant, for a specified rental or other consideration and for a specified period not exceeding 10 years, reserves a reasonable proportion or number of parking spaces in a parking place of the district for the use of the owner or tenant of such property, the employees of the owner or tenant performing services on the property, and the customers of, or other classes of persons designated by, the owner or tenant and entering the property as invitees or otherwise. After the appointment of a board of parking place commissioners, the board may make such contracts or leases.

Further improvements

31792. After the improvements to be made under the initial proceeding inaugurated by petition have been completed, any further improvement of any parking place shall be made by the board of commissioners.

CHAPTER 9. TAXATION

Estimate of expenditures

31820. Annually on or before June 30th, the board shall prepare an estimate of the expenditures required for the maintenance, operation, repair, and improvement of the parking places under its charge for the ensuing fiscal year, and required during that year for the acquisition of additional parking places, if any.

Estimate of revenues

31821. The board shall also estimate the amount of revenues to be derived from rentals, fees, or charges for the use of the parking places and the amount, if any, to be raised by taxation. The amount to be raised by taxation for the acquisition of additional parking places shall be stated separately.

Special ad valorem tax

31822. The estimate shall be filed with the legislative body, and at the time and in the manner for levying general taxes, the legislative body shall levy and collect upon and against all of the taxable land and improvements within the district a special ad valorem tax sufficient to raise the sum of money estimated as required to be raised by taxation.

Same Limitation on amount

31823. The tax levy for maintenance, operation, repair, and improvement of parking places in any year shall not exceed five cents ($0 05) on each one hundred dollars ($100) assessed value of taxable land and improvements within the district. The tax levy for acquisition of additional parking places in any year shall not exceed ten cents ($0.10) on each one hundred dollars ($100) assessed value of taxable land and improvements within the district.

Same: Levy and collection

31824. The special tax shall be levied and collected at the same time, in the same manner, by the same officers, and with the same interest and penalties as general taxes levied by the legislative body.

Disposition of tax proceeds

31825. The proceeds of the tax levied for maintenance, operation, repair, and improvement shall be placed in the district maintenance and operation fund and expended only for the maintenance, operation, repair, and improvement of parking places under the control of the board.

Separate fund

31826. The proceeds of the tax levied for the acquisition of parking places shall be placed in a separate fund of the district and shall be expended only for the purpose for which it was levied.

Disposition of fees etc

31827. All revenues from fees, charges, or rentals for the use of any parking place of the district shall be turned over to the treasurer and by him placed in such fund as the board designates, and may be used for the acquisition, improvement, maintenance, repair, and operation of any parking places for the use and benefit of the district.

Credit of excess revenues

31828. If the board determines that the revenues from fees, charges, and rentals exceeds the amount necessary for the proper maintenance, operation, repair and improvement of the parking places, and the acquisition of additional parking places, upon the order of the board the surplus revenue may be applied as a credit to each assessment or installment in the proportion which each assessment or installment bears to all the assessments.

Same Payment in cash

31829. If the assessment or installment has been paid in cash, the credit shall be returned in cash to the person who paid the corresponding assessment or installment, upon his furnishing satisfactory evidence of such payment.

Same Unpaid assessment, etc

31830. If the assessment or installment is unpaid, the credit shall be applied upon the assessment or the earliest unpaid installment of principal and interest.

CHAPTER 10. MISCELLANEOUS

Sale of property

31850. The city legislative body may sell any property acquired for parking places which is not needed for that public use.

Disposition of proceeds

31851. Any money received from the sale of property not needed for parking places shall be placed in such fund as the board directs, and may be used for any purpose for which revenues from fees, charges, and rentals for the use of parking places of the district may be used, except the proceeds from the sale of property acquired with the proceeds of an assessment shall not be applied as a credit upon any assessments except those levied for the acquisition of the property.

Title to property

31852. All real property shall be acquired or condemned in the name of the city, and title to such property shall be in the city, subject to the provisions of this part.

Contracts for lease etc

31853. All contracts for the lease or purchase, or both, of real property shall be made by the legislative body.

Acquisition of additional parking places

31854. Whenever the board determines by resolution that the public interest and necessity and the needs of the district require that additional parking places be acquired for the district, it shall also determine whether property for the parking places be acquired by lease, by contracts with installment payments, by lease with option to purchase, by a lump sum payment, or pursuant to Section 31861. It shall designate the property to be so leased or acquired.

Same

31855. When a certified copy of the resolution of the board is filed with the city legislative body, it may proceed to acquire or lease the property pursuant to the resolution.

Manner of acquisition

31856. Property for additional parking places may be acquired:

(a) By a lump sum payment or by contract of purchase with payments made annually, or otherwise, over a period of years, but any such contract shall not provide for payments to be over a period longer than ten (10) years from the date of the contract. The purchase price may be paid from the limited taxes levied for acquisition of parking places under Section 31822, from revenues derived from operation of parking places of the district, or from any other funds of the district available for the purpose.

(b) By lease, but any such lease shall not run for a period longer than ten (10) years. Rental on any lease may be paid from revenues derived from the operation of parking places of the district, from the limited taxes levied for maintenance, operation, repair, and improvement under Section 31822, or from any other funds of the district available for the purpose.

(c) Under lease and option to purchase. Any such lease and option shall not run for a longer period than ten (10) years. The purchase price may be provided from revenues derived from operation of parking places of the district, from the limited taxes levied for acquisition of parking places under Section 31822, or from any other funds of the district available for the purpose.

(d) Pursuant to Section 31861.

Liability of city

31857. Any lease or contract of purchase shall not bind the city to pay the rental or purchase price from funds other than those provided pursuant to this part.

Use of tax proceeds

31858. Proceeds of taxes levied under Section 31822 for maintenance, operation, repair, and improvement may also be used for the maintenance, operation, repair, and improvement of any parking places held under lease or contract of purchase, or lease with option to purchase.

Acquisition of parking places with city funds

31859. At any time and with any city funds available for the purpose, the legislative body may acquire parking places which benefit the district and improve them. It may place the parking places under the control of the board of commissioners of the district.

Parking meter revenues

31860. At any time, either before or after the formation of the district, the legislative body may provide by ordinance that, for a period specified in the ordinance but not exceeding 10 years from its effective date, all or any specified portion or percentage of revenues derived by the city from parking meters on streets within the district shall be used for the purposes specified in the ordinance which may include the acquisition, improvement, maintenance, repair, and operation of parking places for the use and benefit of the district. From the effective date of the ordinance such revenues shall for the period specified be placed in such fund or funds of the district as the board

of commissioners specify and may be expended only for the purposes specified in the ordinance.

Acquisition of additional parking places

31861. Whenever the board of commissioners determines by resolution that additional parking places should be acquired and improved by assessment upon land in the district, a certified copy of the resolution shall be filed with the legislative body. The legislative body may thereafter proceed to acquire the additional parking places and provide for their payment and improvement by a special assessment upon the land in the district levied in accordance with benefits.

Special assessment proceedings

31862. Special assessment proceedings for the acquisition of additional parking places shall be commenced by the adoption of an ordinance of intention containing, so far as applicable, the matters specified in Sections 31538, 31539, 31540, and 31541. Thereafter the procedure specified in this part for the initial acquisition and improvement for a district, so far as applicable, shall be followed in such special assessment proceedings.

Maximum assessment

31863. The amount of any assessment levied under Sections 31861 and 31862, when added to the balance outstanding at the time the assessment is confirmed of all previous assessments levied under this part, excluding ad valorem taxes levied under Section 31822 but including supplementary assessments levied under Section 31707, shall not exceed thirty-five percent (35%) of the assessed valuation of all land in the district subject to assessment, as shown by the last equalized county assessment roll at the date the assessment is confirmed. As used in this section "balance outstanding of all previous assessments" means the total unpaid principal of assessment bonds which would be outstanding if bonds had been issued upon the entire amount of each previous assessment and if none of the bonds had been redeemed in advance of maturity.

S & H C, §2800, ff

31864. The Special Assessment Investigation, Limitation and Majority Protest Act of 1931 applies to special assessment proceedings for the acquisition of additional parking places and they may be terminated by a majority protest as provided in that act and in this part.

Alternative method of management, etc

31865. As an alternative method of administration, upon request made to the legislative body of the city by the owners of fifty percent (50%) of the assessed value of taxable land in each vehicle parking district created in the city, as shown by the last equalized county assessment roll, the parking places acquired and constructed for the use or benefit of the districts shall be managed, operated, and controlled by a commission appointed to have charge of all parking places in the city acquired pursuant to this part.

CHAPTER 11. ALTERNATIVE METHODS OF FINANCING

Application

31890. This chapter provides an additional means of financing the parking districts authorized by this part. All provisions of this part are applicable to proceedings under this

chapter, except as otherwise expressly or by necessary implication provided in this chapter.

Petition

31891. The board of commissioners of any parking district, not financed under this chapter, may petition the legislative body of the city in which the district is located to authorize the financing of the district pursuant to this chapter in the same manner as provided for petitions for formation of districts.

Operation, etc., of existing parking meters

31892. The petition may contain a request that the board of commissioners be authorized to operate, maintain, and collect the revenues from existing parking meters on public streets and highways within the district.

Approval

31893. If the district lies partly within a city and partly within unincorporated territory, the city legislative body may approve the petition, but withhold approval of the request with respect to parking meters. In such event the board of supervisors shall not act upon the request, but may proceed on the petition.

Adoption of ordinance

31894. After the petition has been presented to the legislative body, if it finds and declares in an ordinance of intention that the public interest and necessity require that the district be financed pursuant to this chapter, it may adopt an ordinance to that effect.

Public hearing

31895. Thereafter a public hearing shall be held on the proposal in the manner, upon the notice, and with the effect provided for the formation of districts.

Determination

31896. Unless the power to proceed has been terminated, at the conclusion of the hearing the legislative body may find and determine that the public interest and necessity require that the district be financed pursuant to this chapter. Such determination shall be by ordinance in which the request, if any, for authority with respect to existing parking meters may be granted or denied.

Formation petition Contents

31897. If a district is to be formed pursuant to this chapter, the petition proposing the formation shall also contain a statement to that effect. The petition may also contain a request that the board of commissioners be authorized to operate, maintain, and collect the revenues from existing parking meters on public streets and highways within the district.

Estimated costs

31898. If the district is formed pursuant to this chapter, the assessment provided for in Sections 31623 and 31624 shall also include the estimated cost of preparing and issuing repayment certificates.

Estimate of the board

31899. If the district is financed pursuant to this chapter, the annual estimate of the board of commissioners provided for in Section 31821 shall also contain the estimated amount of revenues, if any, from parking meters on streets and highways within the district.

Special fund

31900. The board of commissioners shall place in a special fund a sufficient sum, if available, out of the revenues of the district, after deducting the amount necessary for the proper maintenance, operation, and repair of the district's parking

places, to pay installments on the amounts due on repayment certificates or to make up deficiencies in the sinking fund provided for the payment of such certificates.

Application

32652. The determination that there is need for an authority to function may be made by the legislative body on its own motion, or upon the filing of a petition signed by 100 residents of the city, asserting that there is need for an authority to function in the city and requesting that the legislative body so declare. Determination of need

32653. In any suit, action, or proceeding by or against or in any manner relating to an authority, the authority shall be conclusively deemed to have become established and authorized to transact business and exercise its powers upon proof of the adoption of a resolution by the legislative body declaring the need for the authority to function. Action against, etc., the authority

32654. A city shall not transact any business or exercise any powers pursuant to Section 33552 of this part unless and until the legislative body of the city declares by resolution that there is need for the city to exercise the powers of a parking authority. Restriction

32655. Either or both resolutions provided for in this chapter may be adopted by the legislative body. If both resolutions are adopted, they shall clearly specify the areas within the city within which, or the projects over which, the authority and Adoption of resolutions

the city, respectively, are to have jurisdiction and control. The division of jurisdiction and control shall be as specified, but may be changed from time to time to such extent as is consistent with obligations to bondholders, by action of both the legislative body and the authority.

A member shall hold office until his successor has been appointed and has qualified.

If a majority of the voters voting upon the proposition favor the proposition, the authority, or the city, or both, as specified in the proposition, may from time to time issue bonds in accordance with this part. These expenses include insurance costs, redemption payments, and interest charges on outstanding bonds issued in connection with the project of which the facilities are a part.

34403. The bond redemption and interest payments constitute a first, direct, and exclusive charge and lien on the principal of and interest on all fees, charges, and other revenues received from the use and operation of the project for the acquisition, construction or completion of which the bonds were issued and on sinking funds created from such fees, charges, and other revenues. The principal of and interest on all such fees, charges, and other revenues, constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose so long as any such bonds are outstanding and unpaid.

Changes in rates

34404. The legislative body may provide that the rates, fees, and charges established are minimum rates, fees, and charges, and that they are subject to increase or decrease in accordance only with the terms of the indenture under which the bonds were issued.

SEC. 140. It is the intention of the Legislature in enacting this act to reclassify the counties of the State on the basis of the 1950 Federal Census. It is not the intention of the Legislature in enacting this act to change the compensation of any person whose compensation it is empowered to regulate, and such compensation shall remain the same as it was on January 1, 1951, except as the Legislature may by law otherwise expressly provide. Legislative intent

SEC. 141. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The United States Bureau of the Census has released the final population figures for the counties of California as determined by the 1950 Federal Census, so that the Legislature may reclassify the counties on the basis of the new census figures On the basis of the 1950 Census most of the 58 counties have changed classification. Since the California statutes relating to counties, with few exceptions, designate the county to which the statute relates by number of class, rather than by name of the county, and since there are many bills pending in the Legislature which propose to amend these statutes, it is urgently necessary for the Legislature to establish a single basis of classification for passing on these bills during this session. If a single basis is not immediately provided for, bills relating to counties may be passed which are intended by the Legislature to apply to a particular county, but, because of the change in classification of such county on the basis of the 1950 Federal Census, the bill when it becomes law will not relate to that particular county but to another county. In order to avoid confusion in the laws relating to counties and to preserve an orderly county government it is necessary that this act take effect immediately.

Notation, etc

The court issuing the writ must make a notation on its docket of every preferred labor claim of which it receives a copy and must endorse on any execution or abstract of judgment issued subsequently in the case that it is issued subject to the rights of a preferred labor claimant or claimants thereunder and giving the names and amounts of all such preferred labor claims of which it has notice. In levying any execution the officer making the levy shall include in the amount due under the execution any and all preferred labor claims that have been filed in the action and of which he has notice, except any claims which may have been finally disallowed by the court under the procedure provided for herein and of which disallowance he has actual notice. The amount due on preferred labor claims that have not been finally disallowed by the court shall be considered a part of the sum due under any attachment, garnishment or execution in augmentation of the amount thereof and it shall be the duty of any person, firm, association or corporation on whom a writ of attachment, garnishment or execution is levied to immediately pay to the levying officer the amount of such preferred labor claims, out of any money belonging to the defendant in the action, before paying the principal sum called for in the writ.

Dispute

If any claim is disputed within the time, and in the manner prescribed in Section 1207, and a copy of the dispute is mailed by registered mail to the claimant or his attorney at the address given in his statement of claim and the registry receipt is attached to the original of the dispute when it is filed with the levying officer, or is handed to the claimant or his attorney, the claimant, or his assignee, must within 10 days after such copy is deposited in the mail or is handed to the claimant or his attorney petition the court having jurisdiction of the action on which the writ is based, for a hearing before it to determine his claim for priority, or the claim to priority is barred. If more than one attachment, garnishment or execution is involved the petition shall be filed in the court having jurisdiction over the senior attachment, garnishment or execution. The hearing shall be held within 20 days from the filing of the petition unless the court continues it for good cause. Ten days' notice of the

hearing shall be given by the petitioner to the plaintiff and the defendant, and to all parties claiming an interest in the property, or their attorneys. The notice may be informal and need specify merely the name of the court, names of the principal parties to the senior attachment, garnishment or execution and name of the wage claimant or claimants on whose behalf it is filed but shall specify that the hearing is for the purpose of determining the claim for priority. The plaintiff or the defendant, or any other party claiming an interest may contest the amount or validity of the claim in spite of any confession of judgment or failure to appear or to contest the claim on the part of any other person.

Cost

There shall be no cost for filing or hearing the petition and the hearing on same shall be informal but all parties testifying must be sworn. Any claimant may appear on his own behalf at the hearing and may call and examine witnesses to substantiate his claim. An appeal may be taken from a judgment in a proceeding under this section in the manner provided for appeals from judgments of the court where the proceeding is had.

Retention of proceeds

The officer must retain in his possession until the determination of the claim for priority so much of the proceeds of the writ as may be necessary to satisfy the claim, and if the claim for priority is allowed, the officer must pay the amount due, including the claimant's cost of suit, from such proceeds, immediately after the order allowing the claim becomes final.

CHAPTER 477

An act to amend Section 1501a of the Probate Code, relating to preference of wage claims.

[Approved by Governor May 15, 1951. Filed with Secretary of State May 15, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 1501a of the Probate Code is amended to read:

Payment by guardian of preferred wage claims

1501a. Every guardian must promptly pay wage claims of not exceeding six hundred dollars ($600) to each claimant, for work done or services rendered for the ward within 90 days prior to the date the petition for the appointment of the guardian was filed, before the claim of any general creditor is paid. If there is insufficient money with which to pay all such labor claims in full, the money available must be distributed among the claimants in proportion to the amount of their respective claims. If a guardian neglects or refuses to pay such preferred labor claims, as provided in this section the court shall order him to do so upon the informal application of any labor claimant or his assignee or representative. The guardian shall have the right to require sworn claims to be presented and shall have the

right to refuse to pay any such preferred claim, either in whole or in part, if he has reasonable cause to believe that such claim is not valid but must pay any part thereof that is not disputed, without prejudice to the claimant's rights as to the balance of his claim, and withhold sufficient money to cover the disputed portion until the claimant in question has a reasonable opportunity to establish the validity of his claim by court action against the said guardian, either in his own name or through an assignee.

Construction

Nothing in this section contained shall be construed to require the payment of such preferred labor claims if the assets available are insufficient, in the opinion of the court, to provide for the reasonable current needs of the ward and the wife and/or minor children of the ward; provided, however, that all wages earned within 30 days prior to the date of the filing of the petition for the appointment of the guardian shall be paid out of the first available assets.

[Approved by Governor May 15, 1951. Filed with Secretary of State May 15, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 3720 of the Revenue and Taxation Code is amended to read:

3720. On receipt of the duplicate report of sale, the auditor shall mail a copy of it to the secretary or clerk of the governing board of each taxing agency, not also a revenue district, and other than the State and the county, entitled to levy taxes or assessments on the property sold. He shall also enclose a notice for claims, specifying:

Report to other taxing agencies

Notice for claims

(a) A description of the property.

(b) That claims on the amount received from the sale shall be made within 60 days after the mailing of the notice for claims.

Such duplicate copies of report of sale shall be mailed for only those properties on which the taxing agency has consented to sale and thus is entitled to its proper share of the proceeds deposited in the delinquent tax sale trust fund.

SEC. 2. Section 3721 of the Revenue and Taxation Code is amended to read:

3721. On receipt of the notice for claims, the governing board of each such taxing agency, not also a revenue district, having taxes or assessments levied on the property for the fiscal year preceding that in which the property was sold by the State, shall forward a share claim to the county auditor, stating, in detail, the amounts due on the property still unpaid to the taxing agency, claiming their share of the proceeds from the sale as is determined by the distribution made under this division. Such claim shall set out all the municipal and special district tax rates applicable to the deeded property for the fiscal year preceding that in which the property was sold by the State.

Share claims

SEC. 3. Section 3724 of the Revenue and Taxation Code is amended to read:

3724. If the share claims are correct or if settlement is made of all disputed claims relating to any parcel, the board of supervisors shall order the money in the delinquent tax sale trust fund received from the sale of the parcel to be distributed under this division among the taxing agencies having filed share claims. There shall also be distributed to the State of California its share of the money received from the sale of the parcel. The auditor shall draw and mail warrants on the delinquent tax sale trust fund in accordance with the order, and the State's share shall be included in the next semiannual settlement between the county and the State.

Distribution

Where the county assesses and collects taxes for a taxing agency which is also a revenue district, such taxing agency shall receive its share of the proceeds from any sale as distributed under Chapter 1.3, Part 8, Division 1, of this code, without the necessity of their receiving a copy of the report of sale or of submitting a share claim.

Terms of agreement

3793 5. The terms of any agreement under this chapter may include but are not limited to provisions for the pro rata division to all the taxing agencies entitled thereto, after deduction of the taxing agency's expenses of purchase and sale, of the proceeds of a sale of the property by the taxing agency. If provisions for the pro rata division of the proceeds of a sale of the property by the taxing agency are included in an agreement under this chapter, the agreement shall require the taxing agency to sell the property to a private purchaser within two years after the execution of the deed to the taxing agency, which period may be extended by resolution for a reasonable length of time by the board of supervisors. Upon the granting of an extension, notice thereof shall be given by the clerk of the board to the tax collector and the Controller.

In instances where the contracting taxing agency is one which collects its own taxes it shall be permitted to deduct its pro rata portion of the net proceeds of sale prior to the payment of such proceeds to the county for division among the other taxing agencies.

If such deduction of its pro rata share of the net proceeds is not so made, then the contracting taxing agency shall submit with the payment of proceeds to the county, all its tax rates adopted and applicable to the property sold for the fiscal year preceding the date of sale to the private purchaser. The tax rates so submitted shall be used in conjunction with tax rates of other funds applicable to the property for the corresponding year, in making the pro rata division of the proceeds by the county.

"Pro rata division"

. By "pro rata division" is meant the division of the net proceeds in the manner provided by Chapter 1.3, Part 8, Division 1, of this code.

SEC. 5. Section 3808 of the Revenue and Taxation Code is amended to read:

Payment

3808. Any payment required by an agreement under this article shall be made to the county tax collector and shall be distributed under this division among the county and the revenue districts, which have levied tax rates applicable to the deeded property for the fiscal year preceding that in which the property was sold by the State, including any revenue district purchasing the property unless the agreement with such revenue district provides otherwise.

The provisions of this bill have as their purpose making such laws more comprehensive and it is necessary and urgent that the provisions thereof become law at once.

In effect September 22, 1951

[Approved by Governor May 17, 1951. Filed with Secretary of State May 17, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 14½ of the County Waterworks District Act is amended to read:

Authorization

Sec. 14½. Any portion or portions of a county containing unincorporated territory, or containing the whole or any portion of one or more incorporated cities and contiguous unincorporated territory, and not included in a county irrigation district or a county waterworks district, may be added to any county waterworks district organized under the provisions of this act, at any time, in the manner herein prescribed.

Petition by landholders

The holder or holders of title, or evidence of title, to one-half or more of the lands sought to be added may file with the board of supervisors a petition in writing praying that said lands be added to the district. The county assessment roll of the county in which the lands sought to be added are situated, which assessment roll has been last equalized at the time the petition is filed, shall be conclusive evidence as to the holders of title, or evidence of title, to said lands.

Description, prayer

The petition, which may consist of any number of separate instruments, shall set forth and describe the boundaries of the proposed addition, or additions, and pray that the lands within such boundaries be added to the district. A certificate of acknowledgment taken before a notary public or justice of the peace of any state, or an affidavit by any person in the presence of whom the petition was signed, shall be sufficient evidence of the genuineness of the signature, or signatures, and the fact of place of residence of each petitioner.

Filing, notice

Upon the filing of said petition, the board of supervisors shall set a time for the hearing thereof, which shall be not less than 15 and not more than 30 days from the date the petition is filed. Notice of the filing of said petition shall be given by the clerk of said board by publishing at least once a week for at least two weeks, in a newspaper printed, published and circulated in the county in which the district is situated, a notice that the petition has been filed, giving the time set for the hearing thereof, and that the petition, together with all written protests filed with said clerk prior to the time set for said hearing, will be heard and passed upon at that time, and that all persons interested therein may then appear and be heard. Said notice shall also contain the text of the petition, but not more than five of the names attached thereto need be published; provided, the number of the total of said names is stated.

At the time fixed for the hearing the board of supervisors shall hear the petition, together with such written protests as shall have been filed as herein provided, by or on behalf of the owners of taxable property situated within the district, or within the proposed addition thereto, and may adjourn such hearing from time to time, not exceeding four weeks in all. Hearing

No defect in the contents of the petition or in the notice, or publication of the notice, shall vitiate any proceedings thereon; provided, such petition, or petitions, have a sufficient number of qualified signatures attached thereto Effect of defect

At said hearing said board may make such changes in the proposed boundaries of the territory sought to be added as may be deemed advisable, but said board shall not modify said boundaries so as to exclude any territory which in its opinion will be benefited by being added to the district. Upon such hearing of said petition, said board shall find as to the sufficiency of said petition and as to whether the addition to the district of the lands as described in the petition, or as the boundaries thereof shall have been modified, will be for the best interests of the district, and its decision thereon shall be final and conclusive. If the board shall find that the addition to the district of the lands as described in the petition, or as the boundaries thereof shall have been modified, will not be for the best interest of the district, it shall reject the petition. Changes in boundaries

At the expiration of the time at which protests may be filed, if none be filed, or if protests be filed and after hearing be denied, then said board shall be deemed to have acquired jurisdiction to further proceed, and the board may grant the petition, in whole or in part, and shall fix the boundaries of the territory sought to be added, and shall, by resolution or ordinance, after having acquired jurisdiction to proceed, provide for and order the holding of a special election in said district and in said proposed addition, to determine whether or not the territory in said proposed addition shall be added to the district. At such election the proposition to be submitted shall be: "Shall the territory described in the resolution of the board of supervisors, adopted on the _____ day of _____, 19___, be added to _____ County Waterworks District No.____?" For the purposes of said election, said board shall in said resolution or ordinance establish one or more precincts within the boundaries of said county waterworks district, and one or more precincts within the boundaries of the territory sought to be added thereto, designate a polling place, and appoint one inspector, one judge and one clerk for each such precinct. In all particulars not recited in such resolution or ordinance, such election shall be held as provided by law for holding general elections in such county. Such resolution or ordinance ordering the holding of said election shall, prior to the date set for said election, be published five times in a daily, or twice in a weekly or semiweekly newspaper of general circulation, printed and published in such county and designated by said board for said purpose. No other notice of said election need be given. Election

If at such election a majority of the votes cast in the district then existing and a majority of the votes cast in the territory sought to be added thereto are in favor of such addition, the board shall enter an order to that effect upon its minutes, declaring said territory added to the district, and from and after the date of such order, such territory shall be deemed added to and shall form a part of said district, subject to all the rights, privileges, powers and responsibilities set forth in this act and necessarily incident thereto.

Bonds

If, in the judgment of the board of supervisors, it is deemed necessary, because of the lack of sufficient moneys in the funds of the district to provide adequate water, construct necessary plants and distributing systems, or properly serve the territory sought to be added, or for any other reason, to make the addition of the new territory conditional upon the voting and issuance of additional bonds, said board may, in its resolution or ordinance granting the petition, or a part thereof, and calling an election upon the proposition of adding new territory to the district, order that said election shall be upon the joint proposition of adding new territory and of incurring an indebtedness by the issuance of bonds of the district as the same will exist if the new territory sought to be added is added thereto. Said ordinance or resolution shall state the purpose for which the proposed debt is to be incurred, the amount of the debt to be incurred, the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years and the maximum rate of interest to be paid, which shall not exceed 8 percent per annum, payable semiannually. The proposition to be voted upon in such event shall be: "Shall the territory described in the resolution of the board of supervisors adopted on the _____ day of _____, 19___, be added to _____ County Waterworks District No. _____, and shall said district, as the same will exist after the addition of said territory, incur a bonded indebtedness in the sum of _____ dollars ($_____) for the purpose of (stating the purposes for which the amount so raised is to be used)?" Notice of said election and all matters in connection with said election shall be given and conducted in the manner hereinbefore provided, where the proposition is to be upon the sole question of the adding of new territory. If at such election a majority of the votes cast in the district then existing and a majority of the votes cast in the territory sought to be added thereto are in favor of said proposition of adding new territory and of incurring such bonded indebtedness, then the board of supervisors shall enter an order to that effect upon its minutes, declaring said new territory added to the district, and from and after the date of such order such territory shall be deemed added to and shall form a part of said district subject to all the rights, privileges, powers and responsibilities set forth in this act and necessarily incident thereto and said board shall thereupon be authorized and empowered to issue bonds of said district (as the same will exist after the addition of such

new territory), for the amount voted upon at said election. The provisions elsewhere in this act made for the form of bonds, issuance and sale of bonds, the levying and collecting of taxes for the payment thereof and of other matters relating to bonds of the district shall govern in the case of such bonds.

SEC. 2. Section 14¾ of said act is amended to read:

Sec. 14¾. If the land sought to be added is uninhabited, or being inhabited no qualified electors reside within the boundaries thereof, the holder or holders of title, or evidence of title, to all of the lands sought to be added, may file with the clerk of the board of supervisors a petition in writing, praying that said lands be added to the district. The county assessment roll of the county in which the lands sought to be added are situated, which assessment roll has been last equalized at the time the petition was filed, shall be conclusive evidence as to the holders of title, or evidence of title, to said lands. Uninhabited land

The petition, which may consist of any number of separate instruments, shall set forth and describe the boundaries of the proposed addition, or additions, and pray that the lands within such boundaries be added to the district. A certificate of acknowledgment taken before a notary public or justice of the peace of any state, or an affidavit by any person in the presence of whom the petition was signed, shall be sufficient evidence of the genuineness of the signature, or signatures of the person or persons signing said petition. Petition

No defect in the contents of the petition shall vitiate any proceeding thereon; providing, such petition or petitions, have been signed by the holder or holders of title, or evidence of title to all of the lands sought to be added to the district. Effect of defect

Upon the filing of such petition, the clerk of the board of supervisors shall present the same to the county assessor, who shall within ten (10) days issue and file a certificate with the clerk of the board of supervisors as to whether the petition has been signed by the holder or holders of title or evidence of title to all of the lands within the boundaries described and set forth in said petition. Certificate

At its first regular meeting following the filing of such certificate by the county assessor, the board of supervisors shall ascertain whether the petition in all respects complies with the requirements therefor, except that the certificates, acknowledgments and affidavits mentioned in this section shall be conclusive evidence of the sufficiency of the signatures to the petition, and as to whether the owner or owners of title, or evidence of title, to all of the lands in the district have signed the petition. The board of supervisors shall also determine whether the addition to the district of the lands sought to be annexed will be for the best interests of the district. If the board finds that the addition to the district of the lands sought to be annexed will not be for the best interests of the district, it shall reject the petition. Determination by supervisors

Election

If the petition complies with the requirements, the board of supervisors at such meeting, or at its next succeeding regular meeting shall call a special election within the boundaries of the existing waterworks district, to vote upon the question of whether the lands described in the petition shall be added to the district.

The special election shall be held upon a date not later than the sixtieth (60) day after the meeting of the board at which the petition was presented. At the special election, the proposition submitted to the qualified electors residing within the waterworks district shall be "Shall the lands described in the petition filed with the board of supervisors on the _____ day of _____, 19___, be annexed to and become a part of _____ County Waterworks District No._____."

If at such election a majority of the votes cast in the district then existing are in favor of said proposition of adding the new territory and incurring such bonded indebtedness, then the board of supervisors shall enter an order to that effect upon its minutes, declaring said new territory added to the district, and from and after the date of such order such territory shall be deemed added to and shall form a part of said district subject to all the rights, privileges, powers and responsibilities set forth in this act and necessarily incident thereto and said board shall thereupon be authorized and empowered to issue bonds of the district as provided by this act.

Application

In every respect not in conflict with this section, the provisions of Section 14½, relating to the calling and conducting of said election, the voting and issuance of bonds, and the entry of orders or resolutions respecting the same, shall govern the conduct of said annexation proceedings.

[Approved by Governor May 17, 1951. Filed with Secretary of State May 17, 1951.] In effect immediately

SECTION 1. Section 3102 of the Government Code is amended to read:

3102. Subject to the provisions of Section 3 of Article XX of the Constitution, all civil defense workers shall within the five days prior to their employment or within the first 30 days of employment take and subscribe to the oath or affirmation required by this chapter. Oath Requirement

SEC. 2. Section 3104 of said code is amended to read:

Same Administration

3104. The oath or affirmation may be taken before any officer authorized to administer oaths; provided, that the oath or affirmation of any civil defense worker of the State may be taken before his appointing power or before any person authorized in writing by his appointing power. Such authorization shall be filed with the State Personnel Board, and any person so authorized by his appointing power may administer the oath required by this chapter.

Whenever there is more than one officer certifying to public pay rolls the governing body of a city or county may designate and make it the duty of a certain officer or officers to ascertain and certify that such civil defense worker has taken such oath or affirmation. The governing body of a city or county may designate and make it the duty of a local civil defense and disaster officer to ascertain and certify that each volunteer civil defense worker has taken such oath or affirmation.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

During the present emergency in world affairs loyalty and allegiance to the United States and the principles for which it stands are of utmost importance. Immediate assurance that persons in civil defense are loyal to this government and are not in fact advocates of its overthrow by force or violence is essential to the well-being of the State and Nation and the confidence of the people. To facilitate state and local administration of the loyalty oath requirements and the efficient functioning of state and local governments it is essential that provision be made for quickly administering the oath or affirmation required by this chapter under emergency conditions or in remote or isolated areas of the State, and it is essential in many local governments that some person other than the officer certifying to public pay rolls certify that civil defense workers have taken the oath or affirmation. It is therefore necessary that this act take effect immediately.

[Approved by Governor May 22, 1951. Filed with Secretary of State May 22, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 700.01 of the Insurance Code is amended to read:

Minimum capital for certain insurers

700.01. In addition to any or all of the classes of insurance which it is permitted to transact by all other applicable provisions of this code, any incorporated insurer admitted or hereafter admitted for one or more of the classes of insurance stated in Section 100, except life, title or mortgage, shall (subject to any limitations contained in its articles of incorporation or charter) be admitted after December 31, 1947, for any or all of the following classes, upon making application therefor and complying with all applicable requirements of law, if its paid-in capital is not less than one million dollars ($1,000,000) or the aggregate of the amounts hereinafter set forth opposite the classes transacted by it in the United States if an alien insurer, or in any jurisdiction if other than an alien insurer, whichever is lower; provided, that the paid-in capital of incorporated insurers not transacting either fire, marine or surety insurance making application under this section shall be at least fifty thousand dollars ($50,000) in excess of such aggregate amount. 18. Aircraft	50,000
20. Miscellaneous	50,000

Scope

This section shall not be applicable to life, title or mortgage insurance, and an insurer now or hereafter admitted to transact

life, title or mortgage insurance shall not be admitted under the provisions of this section, but its admission is governed by other applicable provisions of this code.

SEC. 2. Section 700.05 of the Insurance Code is amended to read:

Determination of minimum amount of capital

700.05. (a) Except as provided in (b) hereof, in determining the minimum amount of paid-in capital and surplus required by the applicable provisions of this code for admission of an insurer, there shall be included all of the classes of insurance transacted by it in the United States if an alien insurer, or in any jurisdiction if other than an alien insurer; provided, that life, title or mortgage insurance shall not be included among the classes of insurance in determining the minimum amount of paid-in capital and surplus required if the minimum paid-in capital is one million dollars ($1,000,000) or more, and if the paid-in capital is less than one million dollars ($1,000,000) the minimum shall be measured by adding to the amounts set forth in Section 700.01 two hundred thousand dollars ($200,000) for life insurance, two hundred fifty thousand dollars ($250,000) for mortagage insurance and one hundred thousand dollars ($100,000) for title insurance.

In applying such provisions, it shall be conclusively presumed that an insurer transacts all classes of insurance for which it is or seeks to be admitted to transact in this State.

1582. The amount of such deposit shall be equal to the minimum amount of the paid-in capital required for admission of incorporated insurers issuing policies on a reserve basis and transacting the same classes of insurance which such alien insurer is transacting in the United States, but the commissioner may accept such deposit in excess of such amount. Such deposit may be treated as a part of the assets of the depositing insurer. For the purpose of computing the amount of the deposit, the value of the securities shall not be estimated in excess of the par value nor of the market value thereof.

SEC. 4. Section 1594 of the Insurance Code is amended to read:

Deficiency in trusteed surplus

1594. Whenever it appears to the commissioner that the trusteed surplus in the United States of an alien insurer is less

than an amount equal to the minimum amount of the capital paid in or available cash assets required by this code for the classes of insurance transacted by such alien insurer in the United States, he shall determine the amount of such deficiency and make requisition upon such alien insurer in writing, addressed to its attorney in the United States or to its United States manager, to repair such deficiency within such time, not less than 60 nor more than 90 days from the service of such requisition, as he may therein designate. The commissioner may revoke or suspend the certificate of authority of such alien insurer or order it to cease issuing new policies in the United States, while such deficiency exists.

If at the expiration of the period designated in such requisition such alien insurer has failed to repair such deficiency, the commissioner may proceed against it under the provisions of Article 14, Chapter 1, Part 2, Division 1 as against an insurer whose condition is such that its further transaction of business will be hazardous to its policyholders, or creditors, or to the public.

SEC. 5. Section 12360 of the Insurance Code is amended to read:

12360. An insurer which anywhere in the United States transacts any class of insurance other than title insurance is not eligible for the issuance of a certificate of authority to transact title insurance in this State nor for the renewal thereof.

(b) The time at which the insurance takes effect and terminates is expressed therein; and

(i) If any portion of such policy purports to reduce benefits by reason of age of the insured and such reduction, in accordance with the age of the insured as stated in his application, would be effective on the issue date of the policy.

Amendment, etc., of policy

10321. After issuance a disability policy shall not be amended, changed, limited, altered, or restricted by any means other than rider upon a separate piece of paper.

Policies on nonresidents

10322. If any disability policy is issued by an insurer domiciled in this State for delivery to a person residing in another state, and if the official having responsibility for the administration of the insurance laws of such other state shall have advised the commissioner that any such policy is not subject to approval or disapproval by such official, the commissioner may by ruling require that such policy meet the standards set forth in Section 10320 and in Articles 4a and 5a of this chapter.

Order of provisions

10324. The provisions which are the subject of Article 4a or 5a of this chapter or any corresponding provisions which are used in lieu thereof in accordance with such articles, shall be printed in the consecutive order of the provisions in such articles or, at the option of the insurer, any such provision may appear as a unit in any part of the policy, with other provisions with which it may be logically related, providing the resulting policy shall not be in whole or in part unintelligible, uncertain, ambiguous, abstruse, or likely to mislead a person to whom the policy is offered, delivered or issued.

"Insured"

10325. The word "insured," as used in this chapter, shall not be construed as preventing a person other than the insured with a proper insurable interest from making application for and owning a policy covering the insured or from being entitled under such a policy to any indemnities, benefits and rights provided therein.

Foreign, alien insurers

10326. Any disability policy of a foreign or alien insurer, when delivered or issued for delivery to any person in this State, may contain any provision which is not less favorable to the insured or the beneficiary than the provisions of this chapter and which is prescribed or required by the law of the state under which the insurer is organized.

Same

The commissioner may make such reasonable rules and regulations concerning the procedure for the filing or submission of policies subject to this chapter as are necessary, proper or advisable to its administration. This provision shall not abridge any other authority granted the commissioner by law.

Other provisions

thereof less favorable in any respect to the insured or the beneficiary than the provisions thereof which are subject to such articles.

Such provisions shall be preceded individually by the caption appearing in each section or, at the option of the insurer, by such appropriate individual or group captions or subcaptions as the commissioner may approve.

Required provision

10350.1. A disability policy shall contain a provision which shall be in the form set forth herein.

Entire Contract; Changes: This policy, including the endorsements and the attached papers, if any, constitutes the entire contract of insurance. No change in this policy shall be valid until approved by an executive officer of the insurer and unless such approval be endorsed hereon or attached hereto. No agent has authority to change this policy or to waive any of its provisions.

Cancellability provisions

10350.2. A disability policy shall contain a provision which shall be in one of the two forms set forth herein. Policies other than noncancellable policies shall use Form A. Noncancellable policies shall use either Form A or Form B. In Form B the clause in parentheses in paragraph (a) may be omitted at the insurer's option. Paragraph (a) in Form A shall not be so construed as to affect any legal requirement for avoidance of a policy or denial of a claim during the initial three-year period, nor to limit the application of Sections 10369.2 to 10369.6, inclusive, in the event of misstatement with respect to age or occupation or other insurance.

Form A.

Time Limit on Certain Defenses: (a) After three years from the date of issue of this policy no misstatements, except fraudulent misstatements, made by the applicant in the application for such policy shall be used to void the policy or to deny a claim for loss incurred or disability (as defined in the policy) commencing after the expiration of such three-year period.

(b) No claim for loss incurred or disability (as defined in the policy) commencing after three years from the date of issue of this policy shall be reduced or denied on the ground that a disease or physical condition not excluded from coverage by name or specific description effective on the date of loss had existed prior to the effective date of coverage of this policy.

Form B.

Incontestable: (a) After this policy has been in force for a period of three years during the lifetime of the insured (excluding any period during which the insured is disabled), it shall become incontestable as to the statements contained in the application.

(b) No claim for loss incurred or disability (as defined in the policy) commencing after three years from the date of issue of this policy shall be reduced or denied on the ground that a disease or physical condition not excluded from coverage by name or specific description effective on the date of loss had existed prior to the effective date of coverage of this policy.

Renewal provisions

10350.3. A disability policy shall contain a provision which shall be in one of the two forms set forth herein. Form A shall be used in a policy in which the insurer does not reserve the right to refuse any renewal. Form B shall be used in a policy in which an insurer reserves the right to refuse any renewal. The clause in parentheses may only be added if the policy contains a cancellation provision. In the blank in each such form shall be inserted a number; not less than "7" for weekly premium policies, "10" for monthly premium policies, and "31" for all other policies.

Form A.

Grace Period: A grace period of ____ days will be granted for the payment of each premium falling due after the first premium, during which grace period the policy shall continue in force (subject to the right of the insurer to cancel in accordance with the cancellation provision hereof).

Form B.

Grace Period: Unless not less than five days prior to the premium due date the insurer has delivered to the insured or has mailed to his last address as shown by the records of the insurer written notice of its intention not to renew this policy beyond the period for which the premium has been accepted, a grace period of _____ days will be granted for the payment of each premium falling due after the first premium, during which grace

period the policy shall continue in force (subject to the right of the insurer to cancel in accordance with the cancellation provision hereof).

Reinstatement provisions

10350.4. A disability policy shall contain a provision which shall be in the form set forth herein. The last sentence of such provision may be omitted from a noncancellable policy.

Reinstatement: If any renewal premium be not paid within the time granted the insured for payment, a subsequent acceptance of premium by the insurer or by any agent duly authorized by the insurer to accept such premium, without requiring in connection therewith an application for reinstatement, shall reinstate the policy; provided, however, that if the insurer or such agent requires an application for reinstatement and issues a conditional receipt for the premium tendered, the policy will be reinstated upon approval of such application by the insurer or, lacking such approval, upon the forty-fifth day following the date of such conditional receipt unless the insurer has previously notified the insured in writing of its disapproval of such application. The reinstated policy shall cover only loss resulting from such accidental injury as may be sustained after the date of reinstatement and loss due to such sickness as may begin more than 10 days after such date. In all other respects the insured and insurer shall have the same rights thereunder as they had under the policy immediately before the due date of the defaulted premium, subject to any provisions endorsed hereon or attached hereto in connection with the reinstatement. Any premium accepted in connection with a reinstatement shall be applied to a period for which premium has not been previously paid, but not to any period more than 60 days prior to the date of reinstatement.

Notice of disability

10350.5. A disability policy shall contain a provision which shall be in one of the two forms set forth herein. Form A may be used in any policy. Form B may be used by an insurer, at its option, in a policy providing a loss of time benefit which may be payable for at least two years. In the blank space of such provision shall be inserted the location of such office or offices as the insurer may designate for the purpose of giving notice of claim.

Form A.

Notice of Claim: Written notice of claim must be given to the insurer within 20 days after the occurrence or commencement of any loss covered by the policy, or as soon thereafter as is reasonably possible. Notice given by or on behalf of the insured or the beneficiary to the insurer at _____, or to any authorized agent of the insurer, with information sufficient to identify the insured, shall be deemed notice to the insurer.

Form B.

Notice of Claim: Written notice of claim must be given to the insurer within 20 days after the occurrence or commencement of any loss covered by the policy, or as soon thereafter as

is reasonably possible. Subject to the qualifications set forth below, if the insured suffers loss of time on account of disability for which indemnity may be payable for at least two years, he shall, at least once in every six months after having given notice of claim, give to the insurer notice of continuance of said disability, except in the event of legal incapacity. The period of six months following any filing of proof by the insured or any payment by the insurer on account of such claim or any denial of liability in whole or in part by the insurer shall be excluded in applying this provision. Delay in the giving of such notice shall not impair the insured's right to any indemnity which would otherwise have accrued during the period of six months preceding the date on which such notice is actually given. Notice given by or on behalf of the insured or the beneficiary to the insurer at _____, or to any authorized agent of the insurer, with information sufficient to identify the insured, shall be deemed notice to the insurer.

Claim forms

10350.6. A disability policy shall contain a provision which shall be in the form set forth herein.

Claim Forms: The insurer, upon receipt of a notice of claim, will furnish to the claimant such forms as are usually furnished by it for filing proofs of loss. If such forms are not furnished within 15 days after the giving of such notice the claimant shall be deemed to have complied with the requirements of this policy as to proof of loss upon submitting, within the time fixed in the policy for filing proofs of loss, written proof covering the occurrence, the character and the extent of the loss for which claim is made.

Proofs of Loss: Written proof of loss must be furnished to the insurer at its said office in case of claim for loss for which this policy provides any periodic payment contingent upon continuing loss within 90 days after the termination of the period for which the insurer is liable and in case of claim for any other loss within 90 days after the date of such loss. Failure to furnish such proof within the time required shall not invalidate nor reduce any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible and in no event, except in the absence of legal capacity, later than one year from the time proof is otherwise required.

Time of payment

10350.8. A disability policy shall contain a provision which shall be in the form set forth herein. In the blank of such provision will be inserted the period for payment which must not be less frequently than monthly.

Time of Payment of Claim: Indemnities payable under this policy for any loss other than loss for which this policy provides any periodic payment will be paid immediately upon receipt of due written proof of such loss Subject to due written proof of loss, all accrued indemnities for loss for which this policy provides periodic payment will be paid _____ and any balance

remaining unpaid upon the termination of liability will be paid immediately upon receipt of due written proof.

Payment for loss of life

10350.9. A disability policy shall contain a provision which shall include the following first paragraph and which may, at the option of the insurer, include either or both of the following second and third paragraphs. If the provision contains the second paragraph, there shall be inserted in the blank an amount which shall not exceed one thousand dollars ($1,000).

Payment of Claims: Indemnity for loss of life will be payable in accordance with the beneficiary designation and the provisions respecting such payment which may be prescribed herein and effective at the time of payment. If no such designation or provision is then effective, such indemnity shall be payable to the estate of the insured. Any other accrued indemnities unpaid at the insured's death may, at the option of the insurer, be paid either to such beneficiary or to such estate. All other indemnities will be payable to the insured.

Any payment made by the insurer in good faith pursuant to this provision shall fully discharge the insurer to the extent of such payment.

Subject to any written direction of the insured in the application or otherwise all or a portion of any indemnities provided by this policy on account of hospital, nursing, medical, or surgical services may, at the insurer's option and unless the insured requests otherwise in writing not later than the time of filing proofs of such loss, be paid directly to the hospital or person rendering such services; but it is not required that the service be rendered by a particular hospital or person.

Examination, autopsy

10350.10. A disability policy shall contain a provision which shall be in the form set forth herein.

Change of occupation

10369.2. A disability policy may contain a provision in the form set forth herein.

Change of Occupation: If the insured be injured or contract sickness after having changed his occupation to one classified by the insurer as more hazardous than that stated in this policy or while doing for compensation anything pertaining to an occupation so classified, the insurer will pay only such portion of the indemnities provided in this policy as the premium paid would have purchased at the rates and within the limits fixed by the insurer for such more hazardous occupation. If the insured changes his occupation to one classified by the insurer as less hazardous than that stated in this policy, the insurer, upon receipt of proof of such change of occupation, will reduce the premium rate accordingly, and will return the excess pro-rata unearned premium from the date of change of

occupation or from the policy anniversary date immediately preceding receipt of such proof, whichever is the more recent. In applying this provision, the classification of occupational risk and the premium rates shall be such as have been last filed by the insurer prior to the occurrence of the loss for which the insurer is liable or prior to date of proof of change in occupation with the state official having supervision of insurance in the state where the insured resided at the time this policy was issued; but if such filing was not required, then the classification of occupational risk and the premium rates shall be those last made effective by the insurer in such state prior to the occurrence of the loss or prior to the date of proof of change in occupation.

Misstatement of age

10369.3. A disability policy may contain a provision in the form set forth herein.

Misstatement of Age: If the age of the insured has been misstated, all amounts payable under this policy shall be such as the premium paid would have purchased at the correct age.

Other insurance

10369.4. A disability policy may contain a provision which shall, at the option of the insurer, be in one of the two forms set forth herein. If Form A is used, there shall be inserted in the first blank the type of coverage or coverages and in the second blank the maximum limit of indemnity or indemnities.

Form A.

Other Insurance in This Insurer: If an accident or sickness or accident and sickness policy or policies previously issued by the insurer to the insured be in force concurrently herewith, making the aggregate indemnity for _____ in excess of $_____, the excess insurance shall be void and all premiums paid for such excess shall be returned to the insured or to his estate.

Form B.

Other Insurance in This Insurer: Insurance effective at any one time on the insured under a like policy or policies in this insurer is limited to the one such policy elected by the insured, his beneficiary or his estate, as the case may be, and the insurer will return all premiums paid for all other such policies.

Insurance with other insurers

10369.5. A disability policy may contain a provision in the form set forth herein. If such provision also contains the provision set forth in Section 10369.6, there shall be added to its caption the phrase, "* * * expense incurred benefits." The insurer may, at its option, include in this provision a definition of "other valid coverage," approved as to form by the commissioner, which definition shall be limited in subject matter to coverage provided by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, or by hospital or medical service organizations, and to any other

coverage, the inclusion of which may be approved by the commissioner. In the absence of such definition, such terms shall not include group insurance, automobile medical payments insurance, or coverage provided by hospital or medical service organizations or by union welfare plans or employer or employee benefit organizations. For the purpose of applying this policy provision with respect to any insured, any amount of benefit provided for such insured pursuant to any compulsory benefit statute (including any workmen's compensation or employers' liability statute) whether provided by a governmental agency or otherwise shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. In applying this provision, no third party liability coverage shall be included as "other valid coverage."

Insurance With Other Insurers: If there be other valid coverage, not with this insurer, providing benefits for the same loss on a provision of service basis or on an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability under any expense incurred coverage of this policy shall be for such proportion of the loss as the amount which would otherwise have been payable hereunder plus the total of the like amounts under all such other valid coverages for the same loss of which this insurer had notice bears to the total like amounts under all valid coverages for such loss, and for the return of such portion of the premiums paid as shall exceed the pro-rata portion for the amount so determined. For the purpose of applying this provision when other coverage is on a provision of service basis, the "like amount" of such other coverage shall be taken as the amount which the services rendered would have cost in the absence of such coverage.

Same

10369.6. A disability policy may contain a provision in the form set forth herein. If such provision is included in a policy which also contains the provision set forth in Section 10369.5, there shall be added to its caption the phrase, "* * * other benefits." The insurer may, at its option, include in this provision a definition of "other valid coverage," approved as to form by the commissioner, which definition shall be limited in subject matter to coverage provided by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, and to any other coverage the inclusion of which may be approved by the commissioner. In the absence of such definition such terms shall not include group insurance, or benefits provided by union welfare plans or by employer or employee benefit organizations. For the purpose of applying this policy provision with respect to any insured, any amount of benefit provided for such insured pursuant to any compulsory benefit statute (including any workmen's compensation or employers' liability statute) whether provided by a governmental agency or otherwise shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. In applying this provision, no

third party liability coverage shall be included as "other valid coverage."

Insurance With Other Insurers: If there be other valid coverage, not with this insurer, providing benefits for the same loss on other than an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability for such benefits under this policy shall be for such proportion of the indemnities otherwise provided hereunder for such loss as the like indemnities of which the insurer had notice (including the indemnities under this policy) bear to the total amount of all like indemnities for such loss, and for the return of such portion of the premium paid as shall exceed the pro-rata portion for the indemnities thus determined.

Relation of earnings to insurance

10369.7. A noncancellable disability policy may contain a provision in the form set forth herein. The insurer may, at its option, include in this provision a definition of "valid loss of time coverage," approved as to form by the commissioner, which definition shall be limited in subject matter to coverage provided by governmental agencies or by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, or to any other coverage the inclusion of which may be approved by the commissioner or any combination of such coverages. In the absence of such definition such term shall not include any coverage provided for such insured pursuant to any compulsory benefit statute (including any workmen's compensation or employers' liability statute), or benefits provided by union welfare plans or by employer or employee benefit organizations.

Relation of Earnings to Insurance: If the total monthly amount of loss of time benefits promised for the same loss under all valid loss of time coverage upon the insured, whether payable on a weekly or monthly basis, shall exceed the monthly earnings of the insured at the time disability commenced or his average monthly earnings for the period of two years immediately preceding a disability for which claim is made, whichever is the greater, the insurer will be liable only for such proportionate amount of such benefits under this policy as the amount of such monthly earnings or such average monthly earnings of the insured bears to the total amount of monthly benefits for the same loss under all such coverage upon the insured at the time such disability commences and for the return of such part of the premiums paid during such two years as shall exceed the pro-rata amount of the premiums for the benefits actually paid hereunder; but this shall not operate to reduce the total monthly amount of benefits payable under all such coverage upon the insured below the sum of two hundred dollars ($200) or the sum of the monthly benefits specified in such coverages, whichever is the lesser, nor shall it operate to reduce benefits other than those payable for loss of time.

Unpaid premium

10369.8. A disability policy may contain a provision in the form set forth herein.

Unpaid Premium: Upon the payment of a claim under this policy, any premium then due and unpaid or covered by any note or written order may be deducted therefrom.

10369.9. A disability policy may contain a provision in the form set forth herein.

Cancellation: The insurer may cancel this policy at any time by written notice delivered to the insured, or mailed to his last address as shown by the records of the insurer, stating when, not less than five days thereafter, such cancellation shall be effective; and after the policy has been continued beyond its original term the insured may cancel this policy at any time by written notice delivered or mailed to the insurer, effective upon receipt or on such later date as may be specified in such notice. In the event of cancellation, the insurer will return promptly the unearned portion of any premium paid. If the insured cancels, the earned premium shall be computed by the use of the short-rate table last filed with the state official having supervision of insurance in the state where the insured resided when the policy was issued. If the insurer cancels, the earned premium shall be computed pro rata. Cancellation shall be without prejudice to any claim originating prior to the effective date of cancellation. Cancellation

10369.10. A disability policy may contain a provision in the form set forth herein.

Conformity With State Statutes: Any provision of this policy which, on its effective date, is in conflict with the statutes of the state in which the insured resides on such date is hereby amended to conform to the minimum requirements of such statutes. Conformity with state statutes

10369.11. A disability policy may contain a provision in the form set forth herein.

Illegal Occupation: The insurer shall not be liable for any loss to which a contributing cause was the insured's commission of or attempt to commit a felony or to which a contributing cause was the insured's being engaged in an illegal occupation. Illegal occupation

10369.12. A disability policy may contain a provision in the form set forth herein.

Intoxicants and Narcotics: The insurer shall not be liable for any loss sustained or contracted in consequence of the insured's being intoxicated or under the influence of any narcotic unless administered on the advice of a physician. Intoxicants narcotics

The making of any other alteration without the consent of the applicant is a misdemeanor. If such alteration is made by any officer of the insurer, or by any employee of the insurer with the insurer's knowledge or consent, such alteration is deemed to be performed by the insurer issuing the policy upon such altered application.

Application

In any county operating under this section any limitation in Sections 31583 or 31624 or in any other provisions of this chapter upon the amount of compensation used for computing rates of contributions shall be disregarded.

SEC. 2. Section 31676.2 of the Government Code is amended to read:

Exclusion from computation

31676.2. When the compensation of a member subject to the provisions of Section 31676.1 is a factor in any computation to be made under this chapter, there shall be excluded from such computation, for any period of county service prior to October 1, 1949, any compensation earned since the establishment of the retirement system in such county upon which compensation the member has not paid contributions into the retirement fund because of the provisions of Sections 31583 or 31624,

unless, prior to January 1, 1952, and prior to retirement such member shall elect, by written notice filed with the board, to pay into the retirement fund, by lump-sum payment or by pay roll deductions over a period not exceeding 36 months and prior to effective date of his retirement, and thereafter pays into the retirement fund within the period specified, (1) such additional amount as he would have contributed as a part of his normal contributions, assuming the entire compensation earnable by him was subject to normal contributions during the entire period of his membership in the system since its establishment in such county; and (2) an amount equal to the additional interest which would have been credited to his account under such assumption. At the time of filing the notice of election, as herein provided, any such member may elect to apply toward the additional amount payable by him pursuant to such election, any additional accumulated contributions with which he is entitled to be credited.

The entire compensation of a member shall be included in any computation to be made under Section 31676.1 for any period of county service on and after October 1, 1949, but if such election is not made or such amounts are not paid, there shall be excluded from the total payments made as current service pension, prior service pension and service retirement annuity, twice the actuarial equivalent at the time of retirement of such amounts plus regular interest thereon. If a member subject to the provisions of Section 31676.1 makes the election and payment as provided in this section, his entire compensation shall be included in any computation to be made under this chapter for the entire period of service with which he is entitled to be credited at retirement.

SEC. 3. Section 31676.4 of the Government Code is amended to read:

Election of benefits

31676.4. If a member in a system subject to the provisions of Section 31676.1 who prior to January 1, 1952, files a written election with the board not to come under Section 31676.1, then Sections 31676.1, 31676.2, 31676.3, 31676 5, 31676 6 and this section shall not apply to such member and he shall be entitled upon retirement to his service retirement annuity, his current service pension and his prior service pension, if any, as if this section and Sections 31676 1, 31676.2, 31676.3, 31676.5, and 31676.6 had not been added to this chapter.

SEC. 4. Section 31676.55 is added to the Government Code, to read:

Same Rescission

31676.55. If a member has filed, or shall file, a written election with the board not to come under Section 31676.1 he may, at any time prior to January 1, 1952, file a written rescission of such election with the board. Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the week, month, or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 4. Section 4458 of the Labor Code is amended to read:

Volunteer firemen

4458. If a male member registered as an active fire fighting member of any regularly organized volunteer fire department as described in Section 3361 suffers injury or death while in the performance of his duty as fireman, then, irrespective of his remuneration from this or other employment or from both, his average weekly earnings for purposes of determining temporary disability indemnity shall be taken at fifty-three dollars and eighty-five cents ($53.85) and for purposes of determining permanent disability indemnity shall be taken at forty-six dollars and sixteen cents ($46.16). Four times his average annual earnings shall be taken as eight thousand four hundred dollars ($8,400) in disability cases, and in death cases shall be taken at not less than the minimum nor more than the maximum limits as provided in Section 4702 of this code.

SEC. 5. Section 4460 of the Labor Code is amended to read:

Maximum weekly earnings

4460. For the purpose of computing the temporary disability indemnity payable to any employee who sustains an original injury causing temporary disability, the maximum average weekly earnings shall be taken at fifty-three dollars and eighty-five cents ($53.85). For the purpose of computing the permanent disability indemnity payable to any employee who sustains an original injury causing permanent disability,

the maximum average weekly earnings shall be taken at forty-six dollars and sixteen cents ($46.16).

Every computation made pursuant to this section shall be made only with reference to temporary disability or such permanent disability resulting from an original injury sustained after this section becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 6. Section 4600 of the Labor Code is amended to read:

Provision for treatment, supplies

4600. Medical, surgical, and hospital treatment, including nursing, medicines, medical and surgical supplies, crutches, and apparatus, including artificial members, which is reasonably required to cure or relieve from the effects of the injury shall be provided by the employer. In the case of his neglect or refusal seasonably to do so, the employer is liable for the reasonable expense incurred by or on behalf of the employee in providing treatment.

In accordance with the rules of practice and procedure of the commission, the employee, or the dependents of a deceased employee, shall be reimbursed for expenses reasonably, actually, and necessarily incurred for X-rays, laboratory fees, and medical reports required to successfully prove a contested claim.

SEC. 7. Section 4702 of the Labor Code is amended to read:

4702. The death benefit shall be a sum sufficient to equal:

(a) In a case of total dependency, four times the average annual earnings of the deceased employee.

(b) In a case of partial dependency only, four times the amount annually devoted to support of the dependents by the employee.

The death benefit shall be paid in installments in the same manner and amounts as disability indemnity, payments to be made at least twice each calendar month, unless the commission otherwise orders. Except as provided in the next paragraph, the death benefit, when added to all accrued disability indemnity, shall not exceed four times the average annual earnings of the employee, nor exceed the sum of seven thousand dollars ($7,000), except in the case of a surviving widow and one or more dependent minor children, in which case the death benefit shall be increased 25 percent, but not to exceed eight thousand seven hundred fifty dollars ($8,750) and, except as otherwise provided in Sections 4553 and 4554. For a total dependency the minimum death benefit shall be three thousand dollars ($3,000).

Disability indemnity shall not be deducted from the death benefit and shall be paid in addition to the death benefit when the original injury resulting in death occurs after the effective date of the amendment to this section adopted at the 1949 Regular Session of the Legislature.

Every computation made pursuant to this section shall be made only with reference to death resulting from an original

injury sustained after this section as amended during the 1949 Regular Session of the Legislature becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 8. Section 5952 of the Labor Code is amended to read:

CHAPTER 611

An act to amend Section 803.5 of the Agricultural Code, relating to nectarine and pear standards, declaring the urgency thereof and providing that this act shall take effect immediately.

In effect immediately

[Approved by Governor May 24, 1951. Filed with Secretary of State May 24, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 803.5 of the Agricultural Code is amended to read:

Nectarines

803.5. Nectarines shall be mature but not overripe; free from insect injury which has penetrated or damaged the flesh, split pits which are open at the stem end; and from mold, brown rot, and decay which has affected the edible portion; and free from serious damage due to skin breaks or cuts, growth cracks, bruises, or other causes. Damage to any one nectarine is not serious unless it causes a waste of 10 percent, by weight, of the individual nectarine.

Maturity

Nectarines shall not be considered mature unless at the time of picking (a) an aggregate area of at least one-half inch in diameter of the surface of the individual fruit has broken from green or dark green to a distinct flecking of light green or a light green indicating equivalent maturity, or (b) the shoulders and suture are well developed and filled out.

Tolerance

Except in the case of nectarines affected by split pits which are visible, not more than 10 percent, by count, of the nectarines in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause. In the case of nectarines affected by split pits which are visible, an additional tolerance of not more than 10 percent, by count, of the nectarines in any one container or bulk lot shall be allowed.

Packed nectarines shall not vary in size between the fruits, in any one container, more than three-eighths of an inch in

diameter, when measured through the widest portion of the cross-section.

All containers of fresh nectarines shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the nectarines or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description, when the nectarines are packed in the four-basket crate, or the count, when wrapped and packed throughout, in straight side containers in uniform layers and rows. Marking

In the case of the four-basket crate the numerical description of the pack in the top layer of the basket shall be used to designate size. When the count is used to designate the contents of the container a variation of four nectarines more or less than the number stated shall be allowed.

Nectarines, when packed, shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9A, 9B, 12B, 15, 16, 17, 18, 18A, 22B, 25, 26, 27 or 27A. Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container." Containers

SEC. 2. Section 828.45 of said code is amended to read: Special containers

828.45.

28	Special sawdust pack chest	$7\frac{3}{4}$	$14\frac{15}{16}$	$18\frac{5}{8}$
29	Special sawdust pack lug	$7\frac{3}{4}$	$13\frac{1}{2}$	$16\frac{1}{8}$
29A	Special lug box	$6\frac{1}{2}$ or $7\frac{3}{16}$	$13\frac{1}{2}$	$20\frac{5}{8}$
30	Special lug box	$8\frac{1}{2}$	14	$22\frac{1}{4}$
30A	Special lug box	$4\frac{7}{8}$	15	$22\frac{1}{8}$

Container number 29A with an end piece $7\frac{3}{16}$ inches in depth shall be considered standard only when the inside depth of the container to the top of the side pieces or slats is $6\frac{1}{2}$ inches and when cleats are not placed on top of the end pieces.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: It is now a common and accepted practice for the nectarine industry to use the so-called "Brentwood lug" in packing nectarines. However, through an oversight, this container was omitted from the Nectarine Standardization Act of 1949. The result is that all of these containers so used must be stamped "irregular container," a situation which comports with neither the practice nor the desire of the industry. Because the growing and marketing season of the year 1951 will commence prior to the time this act would otherwise become effective, it is necessary that it take effect immediately in order that the benefits thereof be obtained during the current year. Urgency

In effect September 22, 1951

[Approved by Governor May 24, 1951. Filed with Secretary of State May 24, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 20024 of the Government Code is amended to read:

"Final compensation"

20024. "Final compensation" means the highest average annual compensation earnable by a member during any period of five consecutive years during his membership in the system, including any or all of such period or periods of (a) service required for qualification for membership, or (b) prior service, if any, immediately preceding membership, or (c) time prior to entering state service at the compensation earnable by him in the position first held by him in such service, as may be necessary to complete five consecutive years. For the purposes of this section, periods of service separated by breaks in service may be aggregated to constitute a period of five consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in computation of final compensation. If a break in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months shall be included in computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in computation of final compensation. Time during which a member is in state service and is also a member of another retirement system to which the State or the university contributes shall not be considered to be an absence for the purposes of Section 20023 nor to be a break in service for the purposes of this section, and the determination of the final compensation of such a member shall take into consideration his compensation earnable while he was a member of such other system.

SEC. 2. Section 20025.2 of said code is amended to read:

Overtime

20025.2. When the compensation of a member is a factor in any computation to be made under this part there shall be

excluded from such computations any compensation based on overtime put in by a member whose service retirement allowance is a fixed percentage of final compensation for each year of current service. For the purposes of this part, overtime is the aggregate service performed by an employee as a member for all employers and in all categories of employment in excess of the hours of work considered normal for employees on a full-time basis, and for which monetary compensation is paid.

SEC. 3. Section 20105 of said code is amended to read:

Officers

20105. It shall appoint and fix the compensation of an executive officer, an assistant executive officer, and other necessary employees. The executive officer and the assistant executive officer may administer oaths.

SEC. 4. Section 20107 of said code is amended to read:

Appointment of committees

20107. The board may appoint a committee of one or more of its members to perform routine acts, such as retirement of members and fixing of retirement allowances, approval of death claims and correction of records necessary in the administration of this system in accordance with this part and board rules. The board also may authorize the executive officer to perform such routine acts. Acts of the committee or the executive officer shall be reported forthwith to members of the board, and shall be subject to review and ratification or reversal by the board at its next meeting. Reversal by the board of any act of the committee or the executive officer shall be effective as of the date fixed by the board, but payment of benefits prior to board action shall not be affected by such action, except for such recovery of amounts paid from the person to whom they were paid as the board may direct.

SEC. 5. Section 20165 of said code is amended to read:

Erroneous payment: Correction

20165. If more or less than the correct amount of contribution required of members, the State, or any contracting agency, is paid, proper adjustment shall be made in connection with subsequent payments, or such adjustments may be made by direct cash payments between the member, State, or contracting agency concerned and the board. Adjustments to correct any other errors in payments to or by the board, including adjustments of contributions, with interest, which are found to be erroneous as the result of corrections of dates of birth, may be made in the same manner.

SEC. 6. Section 20208 of said code is amended to read:

Unclaimed warrants

20208. Notwithstanding any provision in this or any other code to the contrary, whenever any warrant drawn against the Retirement Fund in payment of accumulated contributions or benefit remains unclaimed or the claimant cannot be found, the proceeds of such warrant shall be redeposited in the Retirement Fund, and held for the claimant without further accumulation of interest, and such redeposit shall not operate to reinstate the membership of the claimant in this system. If such proceeds, whether heretofore or hereafter redeposited are not claimed within four years after the date of redeposit, they shall revert to and become a part of the accumulated contributions

of the State, held in the Retirement Fund to meet the liabilities of the State on account of current service. Transfer to the accumulated contributions of the State of such funds so reverting shall be made as of the June 30th next following the expiration of the four-year period.

The provisions of this section apply to warrants drawn against the Retirement Fund and canceled by the Controller pursuant to Section 17070 of the Government Code, except that upon notice of cancellation, the proceeds shall revert to and become a part of the accumulated contributions of the State held in the Retirement Fund to meet the liabilities of the State on account of current service.

The board may at any time, after reversion of proceeds to the State, and upon receipt of proper information satisfactory to it, return such proceeds so held for the State, to the credit of the claimant, to be administered in the manner provided under this system.

SEC. 7. Section 20303 of said code is amended to read:

Membership, military service

20303. Every other employee becomes a member on the first day of the month next following the completion of six months, uninterrupted by a break of more than one month, of employment by the State or by a contracting agency; provided, that absence for military service shall not be considered a break for the purpose of this section.

SEC. 8. Section 20304 of said code is amended to read:

Same: Re-entry

20304. Every employee who re-enters state service and has completed six months, uninterrupted by a break of more than one month, of employment by the State or by a contracting agency prior to re-entry becomes a member of this system upon re-entry.

SEC. 9. Section 20393 of said code is amended to read:

Discontinuance of state service

20393. Any other provision in this part to the contrary notwithstanding, if the state service of a member is discontinued by reason of resignation or discharge, or by reason of layoff or leave of absence deemed by the board to have resulted in permanent discontinuance (and in such case, as of the date of the determination by the board that the discontinuance is permanent), or if a member ceases to be entitled to credit in this system for future service because he has become entitled to credit for such service in another retirement system supported wholly or in part by funds of the United States Government, or any state government or political subdivision thereof, or if the disability retirement of a member is followed by cessation of the disability and by cancellation of the disability allowance, but the member does not re-enter state service, and the amount of his accumulated contributions standing to his credit at that time exceeds five hundred dollars ($500), he shall have the right to elect, not later than 90 days after the date upon which notice of said right is mailed by this system to the member's latest address on file in the office of this system and without right of revocation whether to allow his accumulated contributions to remain in the Retirement Fund. Failure to make such election

shall be deemed an irrevocable election to withdraw his accumulated contributions unless the member is entitled to be credited with 20 years of service. A member whose membership continues under this section is subject to the same age and disability requirements as apply to other members for service or for disability retirement but he is not subject to a minimum service requirement. After the qualification of such member for retirement by reason of age or disability he shall be entitled to receive a retirement allowance based upon the amount of his accumulated contributions and service standing to his credit at the time of retirement and on the employer contributions held for him and calculated in the same manner as for other members, except that the provisions in this part for minimum service and disability retirement allowances do not apply to him, unless he meets such minimum service requirements. Upon the death of such a member prior to retirement under this section, such death benefit as may be payable under Article 5 of Chapter 9 of this part shall be computed upon the basis of his average annual compensation earnable for the year preceding the date of termination of such service, multiplied by the number of his completed years of state service prior to such termination not to exceed six.

SEC. 10. Section 20523 of said code is amended to read:

Crediting accounts

20523. Such shares shall be credited to the respective individual accounts of the members included in this system, and administered as if made during membership in this system, except that the annuity provided by such contributions with accumulated interest shall be deducted first from the pension which otherwise would be payable on account of prior service and the balance of such contributions with accumulated interest shall be deducted from the pension which otherwise would be payable on account of current service. The total of the funds transferred to this system shall be offset against the prior or current service liability, as the case may be, before determining the contribution to be paid by the contracting agency. A former member of the local retirement system who withdrew his contributions prior to the effective date of the contract and who thereafter enters into membership in this system shall, upon becoming a member of this system and at times and in the manner fixed by the board, redeposit the withdrawn contributions and any sum so redeposited shall be administered as provided in this section for such shares.

SEC. 11. Section 20524 of said code is amended to read:

Local system Discontinuance

20524. If all members of the local system become members of this system, the operation of the local system shall be discontinued as of such date as is provided for in the contract, and if only a part of said members become members of this system, the operation of the local system shall be so discontinued with respect to such part.

SEC. 12. Section 20602 of said code is amended to read:

Normal rate of contribution Patrol members

20602. The normal rates of contribution of each patrol member shall be based on his age at entrance into this system

as such a member, and, if he is entitled to credit for prior service, his age when he entered highway patrol service, both ages being taken to the preceding completed quarter year. The age at entrance into the highway patrol service prior to July 1, 1935, shall be determined by deducting the total of such service credited to the member at July 1, 1935, from his age at that date.

SEC. 13. Section 20602.5 of said code is amended to read:

Same· Warden members

20602.5. The normal rate of contribution for each warden member shall be based on his age at entrance into this system as such a member, and, if he is entitled to credit for prior service, his age when he entered warden service, both ages being taken to the preceding completed quarter year.

The age at entrance into warden service, if prior to July 1, 1945, shall be determined by deducting the total of such service credited to him at July 1, 1945, from his age at that date.

SEC. 14. Section 20602.7 of said code is amended to read:

Same· Forestry members

20602.7. The normal rate of contribution for each forestry member shall be based on his age at entrance into this system as such a member, and, if he is entitled to credit for prior service, his age when he entered forestry service, both ages being taken to the preceding completed quarter year.

The age at entrance into forestry service, if prior to July 1, 1947, shall be determined by deducting the total of such service credited to him at July 1, 1947, from his age at that date.

SEC. 15. Section 20603 of said code is amended to read:

Entry at or below age 45 Patrol members

20603. For each patrol member who became such a member of this system, or, if entitled to credit for prior service, who entered highway patrol service, at or below age 45, the normal rate of contribution shall be such as will provide, on the average, a service retirement annuity excluding automatic continuance of said annuity after the member's death, to surviving wife, children, or dependent parents, at age 55, or upon completion of 20 years of highway patrol service at an age higher than 55 years, equal to one-fourth of his final compensation less one-half of his prior service pension, it being the intention that the retirement allowances of such members, upon retirement at age 55 or such higher age, shall be, on the average, one-half of their final compensations, respectively.

(2) In equal monthly installments for the life of the beneficiary, with 120 installments certain.

(b) If a member dies without having made an election under subdivision (a) of this section, his beneficiary, after the death of the member and prior to the payment to him of the basic death benefit or any part thereof, may elect by a writing filed with the board to have the basic death benefit paid to him in the manner provided in subsection (1) of subdivision (a) of this section.

(c) When an election has been made to have all or part of the basic death benefit paid in accordance with subsection (1) or subsection (2) of subdivision (a) of this section, the first of such installments shall be paid on the first day of the month next following the date when the basic death benefit would otherwise be payable, and one of such installments shall be paid on the first day of each month thereafter. Such monthly installments shall be the actuarial equivalent of the amount of the basic death benefit to be paid in installments, on the date that such basic death benefit would otherwise be payable.

No installments shall be commuted and paid in one sum unless the death of the beneficiary occurs during the period certain for which payments of the monthly installments are guaranteed; and in that event only payments due monthly during the remainder of the period certain shall be commuted, and such commutation shall be based on the rate of interest then being used under the retirement system, and the commuted value shall be paid to the estate of the beneficiary, unless a contingent beneficiary has been named and qualifies to receive the balance of the guaranteed installments.

The board may provide that any election by a member or by a beneficiary under the provisions of this section is void if the amount of the monthly installment is less than the minimum amount fixed by the board.

SEC. 4. Section 20563 of said code is amended to read:

Retention of contributions

20563. Upon the termination of a contract, the board shall hold for the benefit of the members of this system who are credited with service rendered as employees of the contracting agency and for the benefit of beneficiaries of this system who are entitled to receive benefits on account of such service such portion of the accumulated contributions then held by this system and credited to or as having been made by the agency as does not exceed the difference between (1) an amount actuarially equivalent, as determined by the actuary and approved by the board, to all the system is obligated to pay after the effective date of termination to or on account of persons who are or have been employed by, and on account of service rendered by them to, the agency, and (2) the contributions, with credited interest thereon, then held by this system as having been made by such persons as employees of the agency.

SEC 5. Section 20564 of said code is amended to read:

Deficiency contributions

20564. If, at the date of termination, the sum of the accumulated contributions credited to, or held as having been made by, the contracting agency and the accumulated contributions credited to or held as having been made by persons who are or have been employed by the agency, as employees of the agency, is less than the actuarial equivalent specified in clause (1) of Section 20563, the agency shall contribute to this system under terms fixed by the board, an amount equal to the difference between the accumulated contributions and the actuarial equivalent. If the agency fails to pay to the board the amount of the difference, all benefits under the contract, payable after the board declares the agency in default therefor, shall be reduced by the percentage that such sum is less than the actuarial equivalent as of the date the board declared the default. If the sum of such accumulated contributions is greater than the actuarial equivalent, an amount equal to the excess shall be paid by this system to the contracting agency.

The right of an employee of a contracting agency, or his beneficiary, to a benefit under the system, whether before or after retirement or death, is subject to such reduction.

SEC. 6. Section 20565 of said code is amended to read:

Rights of members

20565. Upon the termination of a contract, all memberships in this system existing because of that contract continue in existence to the extent that there are accumulated contributions to the credit of each such local member, but any such member may elect to withdraw his accumulated contributions. The status of any such member who does not withdraw his accumulated contributions shall be the same as if the public agency had continued as a contracting agency. The portion of the contributions of the contracting agency held under Section 20563 to the credit of each member shall be determined by the board, and may be adjusted from time to time prior to termination of membership. A member whose membership continues under this section is subject to the same age and incapacity requirements as apply to other members for service or for disability retirement, but he is not subject to a minimum service requirement. He shall receive such retirement benefits as his accumulated contributions, together with such portion of the excess of the contributions of the contracting agency as are credited to him, will provide, as determined by the board, but the provisions of this part relative to minimum retirement allowances shall not apply to him, nor shall such benefits exceed the benefits provided by the contract prior to its termination. Upon the death of such a member the basic death benefit shall be his accumulated contributions.

SEC. 7. Section 20867 of said code is amended to read:

Employment by State or contracting agency

20867. If a person has been employed by the State or one of more contracting agencies in any relative order and regardless of whether the employment was before or after the effective date of the contract, and if he has not been paid his accumulated contributions, or having been paid such contributions, he redeposits them, a break of one year or less between such employments does not affect his right to receive credit nor the liability of such employers for all state service rendered in their respective employments, and such service shall be included in the calculation of the liability of the respective employers under said contracts.

If the break is more than one year, and if, with respect only to a person credited with at least 20 years of state service or with at least five hundred dollars ($500) in accumulated contributions, said person has withdrawn his accumulated contributions and does not redeposit them, no liability exists, and he shall not receive credit for state service rendered prior to such break except for prior service as a state member. Time during which the person was under retirement shall not be included in calculating the length of the break.

The people of the State of California do enact as follows:

SECTION 1. Section 226 of the Civil Code is amended to read:

Proceedings for adoption

226. Any person desiring to adopt a child may for that purpose petition the superior court of the county in which the petitioner resides and the clerk of the court shall immediately notify the State Department of Social Welfare at Sacramento in writing of the pendency of the action and of any subsequent action taken. In all cases in which consent is required, except in the case of an adoption by a stepparent where one natural or

adoptive parent retains his or her custody and control of the child, unless an agency licensed by the State Department of Social Welfare to find homes for children and place children in homes for adoption joins in the petition for adoption, the consent of the natural parent or parents to the adoption by the petitioners must be signed in the presence of an agent of the State Department of Social Welfare or of a licensed county adoption agency on a form prescribed by such department and filed with the clerk of the superior court, in the county of the petitioner's residence. Same

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to accept the consent of the natural parents to the adoption of the child by the petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing report with the court.

In all cases in which the consent of the natural parent or parents is not necessary and an agency licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare or the licensed county adoption agency shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social Welfare or the licensed county adoption agency unless the child's welfare will be promoted by the adoption.

Except in the case of the adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition; provided, however, that the court may allow such additional time for the filing of said report as in its discretion it may see fit. The report required of the Department of Social Welfare or of the licensed county adoption agency may be waived by the department in all cases in which an agency, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Same

Whenever any report or findings are submitted to the court by the Department of Social Welfare or by a licensed county adoption agency under any provision of this section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of records, or to the petitioner.

If the findings of the State Department of Social Welfare or the county adoption agency are that the home of the petitioners is not suitable for the child and it recommends that the petition be denied, the county clerk upon receipt of the report of the State Department of Social Welfare or the county adoption agency shall immediately refer it to the superior court for review.

In case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare.

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts, and in such case the consent of the Department of Social Welfare or of a licensed county adoption agency will also be necessary, but such consent shall not be necessary where the adoption is by a stepparent and one natural parent retains custody and control of the child.

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation upon such parent reaching his or her majority.

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare or the licensed county adoption agency fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department or agency fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department or agency shall within 10 days file a report of its findings and the reasons for its failure or refusal to consent to the adoption or to accept the consent of the natural parent. After the filing of

said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department or agency to consent thereto, grant the petition without such consent. [Approved by Governor May 25, 1951. Filed with Secretary of State May 25, 1951.] In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 224 of the Civil Code is amended to read:

224. A legitimate child cannot be adopted without the consent of its parents if living; however, after the custody of any child has by any judicial decree, been given to the mother, and the father for a period of one year shall wilfully fail to pay for the care, support and education of such child when able to do so, then the mother alone may consent to such adoption, but only after the father has been personally served with a copy of a citation requiring him to appear at the time and place set for the appearance in court under Section 227 of this code; if the father cannot be located for personal service, the same may be made by publication as provided for the publication of summons in Section 413 of the Code of Civil Procedure; nor an illegitimate child without the consent of its mother if living; except that the consent of a father or mother is not necessary in the following cases: Consent of parents

1. When such father or mother has been judicially deprived of the custody and control of such child (a) by order of the juvenile court, declaring such child to be free from the custody and control of either or both of his parents as provided in the Welfare and Institutions Code, adopted May 25, 1937, or any act or acts superseding or amending the same, or (b) by similar order of a court of another jurisdiction, pursuant to any law of that jurisdiction authorizing such order; or when such father or mother has, in a judicial proceeding in another jurisdiction, voluntarily surrendered his right to the custody and control of such child pursuant to any law of that jurisdiction providing for such surrender.

2. Where such father or mother of any child has deserted the child without provision for its identification.

3. Where such father or mother of any child has relinquished said child for adoption as provided in Section 224m of this code, or where such father or mother has relinquished said child for adoption to a licensed or authorized child placing

agency in another jurisdiction pursuant to the law of that jurisdiction.

SEC. 2. Section 224p of said code is amended to read:

Advertising without license Penalty

224p. Any person or organization that, without holding a valid and unrevoked license or permit to place children for adoption issued by the State Department of Social Welfare, advertises in any periodical or newspaper, by radio, or other public medium, that he or it will place children for adoption, or accept, supply, provide or obtain children for adoption, or that causes any advertisement to be published in or by any public medium soliciting, requesting, or asking for any child or children for adoption is guilty of a misdemeanor.

SEC. 3. Section 226a of said code is amended to read:

Withdrawal of consent

226a. Once given, consent of the natural parents to the adoption of the child by the person or persons to whose adoption of the child the consent was given, may not be withdrawn except with court approval. Request for such approval may be made by motion, or a natural parent seeking to withdraw such consent may file with the clerk of the superior court where the petition is pending, a petition for approval of withdrawal thereof, without the necessity of payment of any fee for the filing of such petition. The petition shall be in writing, and shall set forth the reasons for withdrawal of consent, but otherwise may be in any form.

The clerk of the court shall set the matter for hearing, and shall give notice thereof to the State Department of Social Welfare, to the persons to whose adoption of the child the consent was given, and to the natural parent or parents, in the manner provided in Section 1200 of the Probate Code.

The State Department of Social Welfare or the licensed county adoption agency shall, prior to the hearing of the motion or petition for withdrawal, file a full report with the court and shall appear at the hearing to represent the interests of the child.

At the hearing, the parties may appear in person or with counsel. The hearing shall be held in chambers, but the court reporter shall report the proceedings and his fee therefor shall be paid from the county treasury on order of the court. If the court finds that withdrawal of the consent to adoption is reasonable in view of all the circumstances, and that withdrawal of the consent will be for the best interests of the child, the court shall approve the withdrawal of the consent; otherwise the court shall withhold its approval. If the court approves the withdrawal of consent, the adoption proceeding shall be dismissed.

Any order of the court granting or withholding approval of a withdrawal of a consent to an adoption may be appealed from in the same manner as an order of the juvenile court declaring any person to be a ward of the juvenile court.

SEC. 4. Section 226b of said code is amended to read:

Same Notice to Department of Social Welfare

226b. Whenever, in any adoption proceeding, the petitioners desire to withdraw the petition for the adoption or to dismiss the proceeding, the clerk of the court in which the pro-

ceeding is pending shall immediately notify the State Department of Social Welfare of such action. The State Department of Social Welfare or the licensed county adoption agency shall file a full report with the court recommending a suitable plan for the child in every such case or where the department or county agency recommends that the petition for adoption be denied and shall appear before the court for the purpose of representing the child. Notwithstanding such withdrawal or dismissal by the petitioners, the court may retain jurisdiction over the child for the purpose of making such order or orders for its custody as the court may deem to be in the best interests of the child.

This section shall not apply to any adoption proceeding in which the reason or cause for the withdrawal of the petition or dismissal of the proceeding is the withdrawal of the consent of the natural parent or parents.

SEC. 5. Section 227d is added to said code, to read:

227d. Any action or proceeding of any kind whatsoever to vacate, set aside, or otherwise nullify a decree of adoption on the ground of any defect or irregularity of procedure in the adoption proceeding must be commenced within three years after entry of the decree. CHAPTER 659

An act to amend Section 1065 of the Fish and Game Code, relating to sardines, declaring the urgency of this act, to take effect immediately.

[Approved by Governor May 25, 1951. Filed with Secretary of State May 25, 1951.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1065 of the Fish and Game Code is amended to read:

1065. Sardines may be taken for use in a reduction plant, or by a packer, only in accordance with the provisions of this article, as follows: in Districts 4, 4¾ and those portions of Districts 3½ and 18 lying south of a line running east and west through Point Arguello, 19, 20A and 21, between October 1st and February 1st, inclusive; elsewhere in the State, except in Districts 19A and 20, between August 1st and January 15th. Sardines may be taken at any time on or after but not prior to June 1, 1953, for the purpose of salting, curing, smoking or drying, or for the purpose of packing in cans commonly known as quarter-pound or square cans less than 10 ounces in net weight; provided, that in a 10-ounce can, fish of a size not Area, season

less than eight fish to the can may be used. Sardines may be packed in their own natural oil.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

One of the most important sources of our food supply is the fishing industry. Canned sardines for many years have been among, if not the largest contributors of this source. Recently, there has been a serious shortage in the sardines available, the exact cause of which has not been determined.

Because of the past four years scarcity of sardines in the present northern fishing grounds, it has been necessary for sardine canneries located in Monterey and San Francisco to transport fish by truck from southern waters in order to continue in business. By extending the southern boundaries of the northern district a short distance southward, a more natural dividing line between the two districts is established. In so doing, it will enable the northern canneries to utilize potential fishing areas which are seldom, if ever, utilized by fishing boats engaged in delivering fish to southern canneries.

Therefore, immediate changes in the division line between northern and southern districts on the taking of sardines as provided in this act are necessary, and delay therein will increase the existing shortage and further diminish a valuable food supply of the people of this State.

CHAPTER 660

The people of the State of California do enact as follows:

11184. Whenever any plates, maps, or engravings of any publisher or author are adopted for use, or whenever any books are purchased, the State Board of Education shall enter into a contract for not less than six years nor more than eight years for their use in the elementary day and evening schools of the State, and shall require a good and sufficient bond of the owners of the books, plates, maps, or engravings under a written guarantee that they shall be kept, revised and free from all errors and up to date as may be required by the State Board of Education.

After an original adoption period has expired, the State Board of Education may readopt such books for not less than one year nor more than eight years in the same manner as prescribed by this section for original adoptions.

A statement of the facts constituting such urgency is as follows: Urgency

The armed forces and defense industries are taking an increasing number of qualified officers and employees of cities, and there is a shortage of qualified persons to meet the requirements of personnel, merit and civil service systems. To meet the manpower shortage and to continue to be able to provide for essential municipal services, it is necessary during a war emergency to employ available persons and make it possible for

those leaving municipal service to join the armed forces to be reinstated to their former positions upon their return to civil life. Municipal authorities should be given the broadest possible powers to carry on the activities of cities for the preservation of public peace, health and safety. It is therefore necessary that this act go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 9.1 is added to the Vehicle Parking District Act of 1943, to read:

City owned land

Sec. 9.1. The petition for the formation of a district may propose that lands already owned by the city are to be used as parking places for the proposed district. In such event the petition shall state what compensation is to be paid to the city for such use and the manner in which such compensation is to be paid. Such payment may be made out of revenues from the use of such lands, and other lands acquired for the district for parking places. The legislative body may refuse said petition or agree by resolution to such use for the compensation provided in the petition. If the legislative body so agrees, then the ordinance of intention shall describe the lands to be so used and shall state the amount and manner of payment of the compensation. The improvements proposed by a petition may include improvements of lands to be used as parking places pursuant to this section, and in that event the assessment levied shall include the estimated costs and expenses of such improvements. As soon as all collections of paid assessments have been made and all bonds representing unpaid assessments have been sold and paid for, the legislative body shall adopt a resolution providing that such land shall be held subject to the provisions of the act and used as parking places for the use and benefit of the district, and thereafter such land shall be so held and used under

the possession and control of the board of parking place commissioners, and the compensation to be paid to the city shall thereafter be paid to it as proposed in the petition.

The improvements proposed by a petition may include

improvements of lands to be used as parking places pursuant to this section, and in that event the assessment levied shall include the estimated costs and expenses of such improvements. As soon as all collections of paid assessments have been made and all bonds representing unpaid assessments have been sold and paid for, the legislative body shall adopt a resolution providing that such land shall be held subject to the provisions of the act and used as parking places for the use and benefit of the district, and thereafter such land shall be so held and used under the possession and control of the board of parking place commissioners, and the compensation to be paid to the city shall thereafter be paid to it as proposed in the petition.

Article 2. Declaration of State Policy

33040. It is found and declared that there exist in many communities blighted areas which constitute either social or economic liabilities, or both, requiring redevelopment in the interest of the health, safety, and general welfare of the people of such communities and of the State. These blighted areas are characterized by one or more of the conditions set forth in Sections 33041 to 33044, inclusive. Legislative declaration

33041. A blighted area is characterized by the existence of buildings and structures, used or intended to be used for living, commercial, industrial, or other purposes, or any combination of such uses, which are unfit or unsafe to occupy for Unfit, etc., premises

such purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, and crime because of any one or a combination of the following factors:

Factors

(a) Defective design and character of physical construction.

(b) Faulty interior arrangement and exterior spacing.

(c) High density of population and overcrowding.

(d) Inadequate provision for ventilation, light, sanitation, open spaces, and recreation facilities.

(e) Age, obsolescence, deterioration, dilapidation, mixed character, or shifting of uses.

33042. A blighted area is characterized by:

(a) An economic dislocation, deterioration, or disuse, resulting from faulty planning.

(b) The subdividing and sale of lots of irregular form and shape and inadequate size for proper usefulness and development.

(c) The laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions.

(d) The existence of inadequate streets, open spaces, and utilities.

(e) The existence of lots or other areas which are subject to being submerged by water.

Characterization of blighted area

33043. A blighted area is characterized by a prevalence of depreciated values, impaired investments, and social and economic maladjustment to such an extent that the capacity to pay taxes is reduced and tax receipts are inadequate for the cost of public services rendered.

Same

33044. A blighted area is characterized by:

(a) In some parts of the blighted area, a growing or total lack of proper utilization of areas, resulting in a stagnant and unproductive condition of land potentially useful and valuable for contributing to the public health, safety, and welfare.

(b) In other parts of the blighted area, a loss of population and reduction of proper utilization of the area, resulting in its further deterioration and added costs to the taxpayer for the creation of new public facilities and services elsewhere.

Further declaration

33045. It is further found and declared that:

(a) The existence of blighted areas characterized by any or all of such conditions constitutes a serious and growing menace which is condemned as injurious and inimical to the public health, safety, and welfare of the people of the communities in which they exist and of the people of the State.

(b) Such blighted areas present difficulties and handicaps which are beyond remedy and control solely by regulatory processes in the exercise of the police power.

(c) They contribute substantially and increasingly to the problems of, and necessitate excessive and disproportionate expenditures for, crime prevention, correction, prosecution, and punishment, the treatment of juvenile delinquency, the preservation of the public health and safety, and the maintaining of

adequate police, fire, and accident protection and other public services and facilities

(d) This menace is becoming increasingly direct and substantial in its significance and effect.

(e) The benefits which will result from the remedying of such conditions and the redevelopment of blighted areas will accrue to all the inhabitants and property owners of the communities in which they exist.

Same

33046. It is further found and declared that:

(a) Such conditions of blight tend to further obsolescence, deterioration, and disuse because of the lack of incentive to the individual landowner and his inability to improve, modernize, or rehabilitate his property while the condition of the neighboring properties remains unchanged.

(b) As a consequence the process of deterioration of a blighted area frequently cannot be halted or corrected except by redeveloping the entire area, or substantial portions of it.

(c) Such conditions of blight are chiefly found in areas subdivided into small parcels, held in divided and widely scattered ownerships, frequently under defective titles, and in many such instances the private assembly of the land in blighted areas for redevelopment is so difficult and costly that it is uneconomic and as a practical matter impossible for owners to undertake because of lack of the legal power and excessive costs.

(d) The remedying of such conditions may require the public acquisition at fair prices of adequate areas, the clearance of the areas through demolition of existing obsolete, inadequate, unsafe, and insanitary buildings, and the redevelopment of the areas suffering from such conditions under proper supervision, with appropriate planning, and continuing land use and construction policies.

State policy

33047. For these reasons it is declared to be the policy of the State:

(a) To protect and promote the sound development and redevelopment of blighted areas and the general welfare of the inhabitants of the communities in which they exist by remedying such injurious conditions through the employment of all appropriate means.

(b) That whenever the redevelopment of blighted areas cannot be accomplished by private enterprise alone, without public participation and assistance in the acquisition of land, in planning and in the financing of land assembly, in the work of clearance, and in the making of improvements necessary therefor, it is in the public interest to employ the power of eminent domain, to advance or expend public funds for these purposes, and to provide a means by which blighted areas may be redeveloped or rehabilitated.

(c) That the redevelopment of blighted areas and the provision for appropriate continuing land use and construction policies in them constitute public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of state concern

in the interest of the health, safety, and welfare of the people of the State and of the communities in which the areas exist.

(d) That it is in the public interest that work on such projects be commenced as soon as possible in order to create postwar employment.

(e) That the necessity in the public interest for the provisions of this part is declared to be a matter of legislative determination.

Further declaration

33048. It is found and declared that blighted areas include housing areas constructed as wartime housing projects, and that such areas are characterized by one or more of the conditions enumerated in Sections 33041 to 33044, inclusive.

CHAPTER 2. REDEVELOPMENT AGENCIES

33203. If an agency has not redeveloped or acquired land for, or commenced the redevelopment of, a project, or entered into contracts for redevelopment within two years after the adoption of such a resolution, the legislative body may by resolution declare that there is no further need for the agency. Upon the adoption of the resolution the offices of the agency members are vacated and the capacity of the agency to transact business or exercise any powers is suspended until the legislative body adopts a resolution declaring the need for the agency to function.

Their successors shall be appointed for four-year terms. Vacancies occurring during a term shall be filled for the unexpired term. A member shall hold office until his successor has been appointed and has qualified.

PART 2. HOUSING AUTHORITIES

CHAPTER 1. HOUSING AUTHORITIES LAW

Article 1. General Provisions

Short title

34200. This chapter may be cited as the Housing Authorities Law.

Declaration

34201. It is hereby declared:

(a) That there exist in the State insanitary or unsafe dwelling accommodations and that persons of low income are

forced to reside in such accommodations; that within the State there is a shortage of safe or sanitary dwelling accommodations available at rents which persons of low income can afford and that such persons are forced to occupy overcrowded and congested dwelling accommodations; that these conditions cause an increase in and spread of disease and crime and constitute a menace to the health, safety, morals, and welfare of the residents of the State and impair economic values; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities.

(b) That these slum areas cannot be cleared, nor can the shortage of safe and sanitary dwellings for persons of low income be relieved, through the operation of private enterprise, and that the construction of housing projects for persons of low income would therefore not be competitive with private enterprise.

(c) That the clearance, replanning, and reconstruction of the areas in which insanitary or unsafe housing conditions exist and the providing of safe and sanitary dwelling accommodations for persons of low income are public uses and purposes for which public money may be spent and private property acquired and are governmental functions of state concern; that it is in the public interest that work on such projects be commenced as soon as possible in order to relieve unemployment which now constitutes an emergency; and the necessity in the public interest for the provisions of this chapter is declared as a matter of legislative determination.

Article 2. Creation of Housing Authorities

Housing authorities 34240. In each county and city there is a public body corporate and politic known as the housing authority of the county or city. The authority shall not transact any business or exercise its powers unless, by resolution, the governing body of the county or city declares that there is need for an authority to function in it.

Determination of need 34241. The governing body may make the determination as to whether there is a need for an authority to function upon its own motion or upon the filing of a petition signed by 25 residents of the county or city asserting that there is need for an authority to function in the county or city and requesting that the governing body so declare.

Resolution 34242. The governing body may adopt a resolution declaring that there is need for a housing authority if it finds either of the following:

In any proceeding involving the validity or enforcement of or relating to any contract of the authority, the authority is conclusively deemed to have been established and authorized to transact business and exercise its powers upon proof of the adoption of a resolution by the governing body declaring the need for the authority. The resolution is sufficient if it declares that there is such need for an authority and finds in substantially the terms of Section 34242 that either or both of the conditions set forth in that section exist in the county or city A copy of the resolution duly certified by the clerk is admissible in evidence in any proceeding.

Abandonment of authority

34245. If, after the lapse of two years after the adoption of the resolution the governing body finds that the authority has failed to transact any business or exercise any of its powers, it may adopt a resolution declaring that the authority shall not transact any business or exercise its powers under this chapter, and that the offices of the authority commissioners are vacated At any time thereafter the governing body may declare by resolution that there is need for an authority to function in the county or city, such determination to be made pursuant to this article.

Failure so to disclose his interest constitutes misconduct in office.

Removal

34282. For inefficiency, neglect of duty, or misconduct in office, a commissioner may be removed by the governing body of the county in the case of a county authority, or by the mayor, if he has the power of appointment of commissioners, otherwise by the governing body of the city in the case of a city authority A commissioner shall be removed only after he has been given a copy of the charges at least 10 days prior to the hearing on them and has had an opportunity to be heard in person or by counsel. Chapter 2. Housing Cooperation Law

Short title

34500. This chapter may be cited as the Housing Cooperation Law.

Declaration of necessity Stats 1938 (Ex Sess), p 9

34501. It has been found and declared in the Housing Authorities Law that there exist in the State unsafe and insanitary housing conditions and a shortage of safe and sanitary dwelling accommodations for persons of low income; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities; and that the public interest requires the remedying of these conditions. It is found and declared that:

(a) The assistance provided for in this chapter for the remedying of the conditions set forth in the Housing Authorities Law constitutes a public use and purpose and an essential governmental function for which public money may be spent and other aid given.

(b) It is a proper public purpose for any state public body to aid any housing authority operating within its boundaries or jurisdiction or any housing project located therein, as the state public body derives immediate benefits and advantages from such an authority or project.

Stats. 1945, p. 394, amended

[Approved by Governor May 30, 1951. Filed with Secretary of State May 30, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 2 of the act cited in the title hereof is amended to read:

Sec. 2. In this article the following definitions shall apply, unless the context clearly requires otherwise: Definitions

The terms "timberland," "forest land," and "commercial timberland" shall mean land upon which is growing a crop of trees of any species which are of sufficient size and quality to be capable of furnishing raw material used in the manufacture of lumber and other forest products; the term "cutover land" shall mean land which has borne a crop of commercial timber from which at least 70 percent of the merchantable original growth timber stand has been removed or destroyed by logging, fire, insects, or tree diseases and which is now supporting, or

capable of growing, a crop of commercial timber and other forest products and which has not been converted to other commercial or agricultural use; the terms "timber owner" and "private timber owner" shall mean any person, copartnership, firm, corporation, or company, or a recognized agent or representative of such ownership, owning commercial timber, timberland, cutover land, or timber rights on lands of another other than a governmental agency; the term "timber owner-operator" shall mean any private timber owner, who cuts and removes timber and other forest products from forest lands; the term "farmer-timber owner" shall mean any timber owner, whose principal business is that of farming or ranching but included in whose property holdings are areas of commercial timber; the terms "timber operator" and "operator" shall mean any person, copartnership, firm, corporation, company, or a recognized agent or representative thereof, engaged in the cutting and removal of timber or other forest products from forest lands for commercial purposes, and responsible for the compliance with the provisions required by this act, in the harvesting operations; the terms "board" and "state board" shall mean the State Board of Forestry; the terms "committee" and "district committee" shall mean the district forest practice committee; the term "district" shall mean forest district; the terms "rules" or "district rules" shall mean the district forest practice rules.

SEC. 2. Section 5 of said act is amended to read:

Forest practice committee

Sec. 5. Duties of the District Forest Practice Committee. The district forest practice committee shall advise and assist the State Board of Forestry and the lumber industry in the establishment of forest conservation practices on privately owned land. The district forest practice committee in advising and in assisting the State Board of Forestry shall not interfere with any of the powers and duties of the State Board of Forestry which are established by law.

It shall be the duty of each district forest practice committee to develop forest practice rules for the forest district, to fulfill the purposes of this act. Such forest practice rules shall apply to old growth and second growth timber and shall include, but not be limited to: Fire protection devices and practices, protection against operations in logging which unnecessarily destroy young timber growth or timber growing conditions of the soil, protection and prevention from damage by forest insects and disease, and provisions for the restocking of the land after cutting, by natural or artificial methods.

Approval of rules

The district forest practice committee shall adopt forest practice rules for the forest district after due notice and hearings held for the purpose. When such forest practice rules have been submitted to the private timber owners and have been approved by two-thirds of the private timber ownership voting in the district, such percentage to be measured by the acreage of timber and cutover land privately owned in the district, they shall be submitted to the State Board of Forestry for approval.

For the purpose of balloting on the approval or disapproval of the forest practice rules, the private timber owners within the district shall be deemed to be the owners of record appearing on the current assessment roll of the county in which such timberlands are situated. In the submission of the proposed forest practice rules and ballots, such rules and ballots shall be sent by registered mail to the said owners of record to the address of record upon the aforesaid assessment rolls. All ballots upon the proposed forest practice rules shall be returned to the State Forester within 60 days from the date of mailing of said ballots by registered mail, and the counting of the ballots shall be completed by the State Forester within 70 days after the aforesaid date of mailing. All timber acreage not voted on the ballots received within the herein specified time limit, shall be excluded from the total timberland acreage of the district in determining the percentage of the approval or disapproval of the forest practice rules. Where the ownership of timberlands is of record as being owned by more than one person, company or corporation, the percentage of acreage in such multiple ownership shall be apportioned in such percentages as the percentage appears upon the aforesaid assessment rolls of the counties in the district. Should said multiple ownership be divided into separate ownership of land and timber or land and timber rights, the owners of record of said land and timber shall be deemed to hold the right of vote of one-half of the total land acreage involved for land ownership and one-half of the total land acreage involved for timber ownership.

Forest management plans

The committee may receive and approve forest management plans which may be submitted by owners of forest land in the forest district as a substitute for the forest practice rules approved for that district.

The committee may receive and approve plans of procedure which may be submitted by owners of forest land in the forest district as an alternate to any requirement or rule of the forest practice rules approved for that district, provided, such alternate plan will, in the judgment of the committee, accomplish greater silvicultural or protectional management of the forest land of said owner than is provided for by the existing requirement of the forest practice rules approved for that district.

If in the judgment of the State Board of Forestry such rules of forest practice, forest management plans and alternate plans are deemed sufficient to accomplish the purposes and intent of this act, they shall be approved by the board.

In the event that any of the rules so submitted are disapproved by the board, they shall be returned to the district forest practice committee with recommendations for amendments. Action upon such recommended amendments shall follow the same procedure as hereinbefore provided for the adoption of the initial rules.

In the event the board deems that a forest management plan which has been submitted for approval is inadequate, it

shall return such forest management plan to the district forest practice committee and the timber owner who submitted such forest management plan, for concurrence in suggested amendments which will fulfill the purposes and intent of this act.

In the event the board deems that an alternate plan which has been submitted for approval does not accomplish the purposes and intent of the forest practice rule for which said alternate plan is to be substituted, it shall return such alternate plan to the district forest practice committee and the timber owner who submitted such alternate plan, for concurrence in suggested amendments which will fulfill the purposes and intent of this act.

Effect of rules

Forest practice rules, forest management plans and alternate plans approved by the State Board of Forestry shall have the force of law within the forest district in which such rules originated, and all timber owners in the forest district shall be subject to compliance with such forest practice rules, excepting, however, that if any owner of forest land has submitted a forest management plan which has been approved by the State Board of Forestry, he shall be subject only to compliance with such forest practices as may be a part of such approved forest management plan, or if any owner of forest land has submitted an alternate plan which has been approved by the State Board of Forestry he shall be subject to compliance with the district forest practice rules as modified by such alternate plan; and excepting in such cases where timberland owners can give satisfactory proof that the forest lands in process of cutting or to be cut are to be devoted, in a bona fide manner, to other than a timber growing use, such owners shall, however, comply with the existing fire laws of the State and the fire prevention and fire suppression practices of the forest practice rules for the forest district.

Amending rules

Upon receipt by the State Board of Forestry of a petition, signed by 50 percent of the private timber and cutover land ownership in an established forest district, requesting amendments to the forest practice rules of the forest district, or upon determination of the State Forester that the forest practice rules of any forest district should be amended, the state board shall order the district forest practice committee of the forest district in which such proposed amendments will apply, to review the petition or the request of the State Forester and to conduct public hearings in connection therewith. Should the district forest practice committee conclude after such public hearings that the forest practice rules should be amended to meet any or all the demands of said petition, or of said request of the State Forester, they shall submit the findings of the committee to the State Board of Forestry for its approval or rejection.

Notice of approval

Whenever the findings and proposed amendments, submitted by the district forest practice committee, are approved by the State Board of Forestry it shall cause a notice of its approval of such findings and amendments to be published with

the full text of such proposed amendments in a newspaper of general circulation in each county of the forest district in which such amended rules are to apply. The public notice shall appear in not less than three consecutive publications of said newspaper, such publications to be at intervals of not less than one week and the over-all period of such notice publications shall not exceed 30 days. At the first regular meeting of the State Board of Forestry following the expiration of the time allotted for publication of the approved amendments the board shall, by proper resolution, declare such amended rules to be in effect and have the force of law as provided in this act.

SEC. 3. Sections 6 and 7 of said act are repealed. Repeal

SEC. 4. Section 6 is added to said act, to read:

Sec. 6. Notification of Timber Harvesting Operation and Registration of Timber Operators. Notification of State Forester All timber owners of the State upon whose holdings, timber harvesting operations for commercial purposes, are proposed shall notify the State Forester of such proposed operation and the location in which such operation is to take place. In such notice of a proposed operation, the timber owner shall set forth the name and address of the operator who will engage in the cutting and removal of timber or other forest products in this operation. Whenever possible to do so, the location of such proposed operation shall be given by a legal subdivision description.

All timber operators engaged in the cutting and removal of timber or other forest products from forest lands, for commercial purposes, shall register with the State Forester. Registration As a part of such registration the operator shall agree to conduct the harvesting of timber or other forest products in accordance with the provisions of this act and the forest practice rules of the district in which such operation is conducted. Upon receipt of such registration of a timber operator, the State Forester, or his designated agent, shall issue a permit for the current calendar year, or the remainder thereof, authorizing the permittee to engage in the cutting and removal of timber or other forest products from forest lands, for commercial purposes. Said permit or a copy thereof shall be available for inspection at all times, on the area in which such harvesting operations are being conducted.

Permit renewals shall be on a calendar year basis and registration renewals shall be made not more than 60 days or less than 30 days prior to the first day of January of each year. Permit renewals

Any timber operator who engages in the cutting or removing of timber or other forest products, for commercial purposes, from forest lands without having a valid permit to do so from the State Forester is guilty of a misdemeanor and shall be prohibited from engaging in such operation. If any timber operator engaged in the harvesting of timber or other forest products, for commercial purposes, fails to comply with the forest practice rules applicable to the forest district in which such operation is conducted, or fails to comply with a forest management plan approved by the State Board of Forestry, or fails to Penalty

comply with the forest practice rules modified by an alternate plan, the Director of Natural Resources may suspend or revoke the permit issued by the State Forester granting the permission to perform such operations.

Notice of action to suspend permit

No action to suspend or revoke said operating permit shall be invoked until, after inspection of the operation, a notice has been given the operator in writing, setting forth therein the items in which the operator is in noncompliance with the forest practice rules, management plan or alternate plan, and such operator, upon receiving such notice, shall have been given a reasonable time in which to revise his operation to bring about compliance with the rules in which he is in violation.

Procedure

Before suspending or revoking the permit issued under the provisions of this section, the Director of Natural Resources shall proceed as prescribed by Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the Director shall have all the powers granted therein.

Damage to any one nectarine is not serious unless it causes a waste of 10 percent, by weight, of the individual nectarine. Nectarines

Nectarines shall not be considered mature unless at the time of picking (a) an aggregate area of at least one inch in diameter of the surface of the individual fruit has broken from green or dark green to a distinct flecking of light green or a light green indicating equivalent maturity, or (b) the shoulders and suture are well developed and filled out.

All containers of fresh nectarines shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the nectarines or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size

Any person other than a commissioner or an officer of the commission demanding such inspection shall produce under the hand and seal of the commission his authority to make such inspection. A written record of the testimony or statement so given under oath shall be made and filed with the commission.

CHAPTER 3. RIGHTS AND OBLIGATIONS OF PUBLIC UTILITIES

Article 1. Rates

Just and reasonable charges, service, rules

451. All charges demanded or received by any public utility, or by any two or more public utilities, for any product or commodity furnished or to be furnished or any service rendered or to be rendered shall be just and reasonable. Every unjust or unreasonable charge demanded or received for such product or commodity or service is unlawful.

Every public utility shall furnish and maintain such adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public.

All rules made by a public utility affecting or pertaining to its charges or service to the public shall be just and reasonable.

Charges below maximum reasonable rate

452. Nothing in this part shall be construed to prohibit any common carrier from establishing and charging a lower than a maximum reasonable rate for the transportation of property when the needs of commerce or public interest require.

However, no common carrier subject to the jurisdiction of the commission may establish a rate less than a maximum reasonable rate for the transportation of property for the purpose of meeting the competitive charges of other carriers or the cost of other means of transportation which is less than the charges of competing carriers or the cost of transportation which might be incurred through other means of transportation, except upon such showing as is required by the commission and a finding by it that the rate is justified by transportation conditions. In determining the extent of such competition the commission shall make due and reasonable allowance for added or accessorial service performed by one carrier or agency of transportation which is not contemporaneously performed by the competing agency of transportation.

Uniform treatment

453. No public utility shall, as to rates, charges, service, facilities, or in any other respect, make or grant any preference or advantage to any corporation or person or subject any corporation or person to any prejudice or disadvantage. No public utility shall establish or maintain any unreasonable difference as to rates, charges, service, facilities, or in any other respect, either as between localities or as between classes of service. The commission may determine any question of fact arising under this section.

Rate increase

454. No public utility shall raise any rate or so alter any classification, contract, practice, or rule as to result in any increase in any rate except upon a showing before the commission and a finding by the commission that such increase is justified.

Effective date of rates

455. Whenever any schedule stating an individual or joint rate, classification, contract, practice, or rule, not increasing or resulting in an increase in any rate, is filed with the commission, it may, either upon complaint or upon its own initiative, at once and if it so orders without answer or other formal pleadings by the interested public utility or utilities, but upon reasonable notice, enter upon a hearing concerning the propriety of such rate, classification, contract, practice, or rule. Pending the hearing and the decision thereon such rate, classification, contract, practice or rule shall not go into effect. The period of suspension of such rate, classification, contract, practice, or rule shall not extend beyond 120 days beyond the time when it would otherwise go into effect unless the commission extends the period of suspension for a further period not exceeding six months. On such hearing the commission shall establish the rates, classifications, contracts, practices, or rules proposed, in whole or in part, or others in lieu thereof, which it finds to be just and reasonable.

All such rates, classifications, contracts, practices, or rules not so suspended shall become effective on the expiration of 30 days from the time of filing thereof with the commission or such lesser time as the commission may grant, subject to the power of the commission, after a hearing had on its own motion or upon complaint, to alter or modify them.

Economies permitted

456. Nothing in this part shall be construed to prohibit any public utility from profiting, to the extent permitted by the commission, from any economies, efficiencies, or improvements which it may make, and from distributing by way of dividends, or otherwise disposing of, such profits. The commission may make or permit such arrangement with any public utility as it deems wise for the purpose of encouraging economies, efficiencies, or improvements and securing to the public utility making them such portion of the profits thereof as the commission determines.

Sliding scale of charges

457. Nothing in this part shall prevent a corporation or person engaged in the production, generation, transmission, or furnishing of heat, light, water, or power, or telegraph or telephone service, from establishing a sliding scale of charges when a schedule showing such scale of charges has been filed with the commission and the schedule and each rate set out therein has been approved by it. Nothing in this part shall prevent any such corporation or person from entering into an agreement for a fixed period for the automatic adjustment of charges for heat, light, water, or power, or telegraph or telephone service, in relation to the dividends to be paid to stockholders of such corporation, or the profit to be realized by such person when a schedule showing the scale of charges under such arrangement has been filed with the commission and the schedule and each rate set out therein has been approved by it.

Nothing in this section shall prevent the commission from revoking its approval at any time and fixing other rates and charges for the product or commodity or service, as authorized by this part.

False billing, weights, etc

458. No common carrier, or any officer or agent thereof, or any person acting for or employed by it, shall, by means of known false billing, classification, weight, weighing, or report of weight, or by any other device or means assist, suffer, or permit any corporation or person to obtain transportation for any person or property between points within this State at less than the rates and fares then established and in force as shown by the schedules filed and in effect at the time.

No person, corporation, or any officer, agent, or employee of a corporation shall, by means of false billing, false or incorrect classification, false weight or weighing, false representation as to contents or substance of a package, or false report or statement of weight, or by any other device or means, whether with or without the consent or connivance of a common carrier or any of its officers, agents, or employees, seek to obtain or obtain such transportation for such property at less than the rates then established and in force therefor.

Obtaining allowance by false billing, etc

459. No person or corporation, or any officer agent, or employee of a corporation, shall knowingly, directly or indirectly, by any false statement or representation as to cost or value, or the nature or extent of an injury, or by the use of any false billing, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit, or deposition, or upon any false, fictitious,

or fraudulent statement or entry, obtain or attempt to obtain any allowance, rebate, or payment for damage, in connection with or growing out of the transportation of persons or property, or an agreement to transport such persons or property, whether with or without the consent or connivance of a common carrier or any of its officers, agents, or employees. No common carrier, or any of its officers, agents, or employees, shall knowingly pay or offer to pay any such allowance, rebate, or claim for damage.

Long and short haul charges

460. No common carrier subject to the provisions of this part shall charge or receive any greater compensation in the aggregate for the transportation of persons or of a like kind of property for a shorter than for a longer distance over the same line or route in the same direction, within this State, the shorter being included within the longer distance or charge any greater compensation as a through rate than the aggregate of the intermediate rates. This provision does not authorize any such common carrier to charge or receive as great a compensation for a shorter as for a longer distance or haul.

Upon application to the commission a common carrier may, in special cases, after investigation, be authorized by the commission to charge less for a longer than for a shorter distance for the transportation of persons or property, and the commission may from time to time prescribe the extent to which such carrier may be relieved from the operation and requirements of this section.

Long, short distance communications charges

461. No telephone or telegraph corporation subject to the provisions of this part shall charge or receive any greater compensation in the aggregate for the transmission of any long distance message or conversation for a shorter than for a longer distance over the same line or route in the same direction, within this State, the shorter being included within the longer distance, or charge any greater compensation for a through service than the aggregate of the intermediate rates or tolls subject to the provisions of this act. This provision does not authorize any such telephone or telegraph corporation to charge and receive as great a compensation for a shorter as for a longer distance.

Upon application to the commission, a telephone or telegraph corporation may, in special cases, after investigation, be authorized by the commission to charge less for a longer than for a shorter distance service for the transmission of messages or conversations, and the commission may from time to time prescribe the extent to which such telephone or telegraph corporation may be relieved from the operation and requirements of this section.

Street or interurban railway fares

462. No street or interurban railroad corporation shall charge or receive more than five cents ($0 05) for one continuous ride in the same general direction within the corporate limits of any city or city and county, except upon a showing before the commission that such greater charge is justified. Every street or interurban railroad corporation shall upon such terms as the commission finds to be just and reasonable furnish to its passengers transfers entitling them to one continuous trip in

the same general direction over and upon the portions of its lines within the same city or city and county not reached by the originating car.

Article 2. Tariff Schedules

Carriers Filing, etc., of schedules

486. Every common carrier shall file with the commission and shall print and keep open to the public inspection schedules showing the rates, fares, charges, and classifications for the transportation between termini within this State of persons and property from each point upon its route to all other points thereon; and from each point upon its route to all points upon every other route leased, operated, or controlled by it; and from each point on its route or upon any route leased, operated, or controlled by it to all points upon the route of any other common carrier, whenever a through route and a joint rate has been established or ordered between any two such points. If no joint rate over a through route has been established, the schedules of the several carriers in such through route shall show the separately established rates, fares, charges, and classifications applicable to the through transportation.

Same Contents, etc.

487. The schedules shall plainly state the places between which property and persons will be carried, and the classification of passengers or property in force, and shall state separately all terminal charges, storage charges, icing charges, and all other charges which the commission may require to be stated, all privileges or facilities granted or allowed, and all rules which may in any wise change, affect, or determine any part, or the aggregate of, such rates, fares, charges, and classifications, or the value of the service rendered to the passenger, shipper, or consignee. Subject to such rules as the commission prescribes, the schedules shall be plainly printed in large type, and a copy thereof shall be kept by every such carrier readily accessible to and for inspection by the public in every station or office of the carrier where passengers or property are respectively received for transportation, when such station or office is in charge of an agent, and in every station or office of such carrier where passenger tickets or tickets for sleeping, parlor car, or other train accommodations are sold or bills of lading, waybills, or receipts for property are issued.

Same· Inspection, form

488. The schedules shall be immediately produced by the carrier for inspection upon the demand of any person. A notice printed in bold type and stating that the schedules are on file with the agent and open to inspection by any person, and that the agent will assist any person to determine from such schedules any rates, fares, or rules in force, shall be kept posted by the carrier in two public and conspicuous places in every such station or office. The form of every such schedule shall be prescribed by the commission and shall conform, in the case of common carriers subject to the Interstate Commerce Act and the acts amendatory thereof and supplementary thereto, as nearly as possible to the form of schedules prescribed by the Interstate Commerce Commission.

Other utilities Filing, etc., of schedules

489. Under such rules as the commission prescribes, every public utility other than a common carrier shall file with the commission within such time and in such form as the commission designates, and shall print and keep open to public inspection, schedules showing all rates, tolls, rentals, charges, and classifications collected or enforced, or to be collected or enforced, together with all rules, contracts, privileges, and facilities which in any manner affect or relate to rates, tolls, rentals, classifications, or service. Nothing in this section shall prevent the commission from approving or fixing rates, tolls, rentals, or charges, from time to time, in excess of or less than those shown by such schedules.

Changes in form

490. The commission may from time to time determine and prescribe by order such changes in the form of the schedules referred to in this article as it finds expedient, and may modify the requirements of any of its orders or rules in respect to any matter referred to in this article.

Rate or classification changes Notice, etc

491. Unless the commission otherwise orders, no change shall be made by any public utility in any rate or classification, or in any rule or contract relating to or affecting any rate, classification, or service, or in any privilege or facility, except after 30 days' notice to the commission and to the public. Such notice shall be given by filing with the commission and keeping open for public inspection new schedules stating plainly the changes to be made in the schedule or schedules then in force, and the time when the changes will go into effect. The commission, for good cause shown, may allow changes without requiring the 30 days' notice, by an order specifying the changes so to be made, the time when they shall take effect, and the manner in which they shall be filed and published. When any change is proposed in any rate or classification, or in any form of contract or agreement or in any rule or contract relating to or affecting any rate, classification, or service, or in any privilege or facility, attention shall be directed to such change on the schedule filed with the commission, by some character to be designated by the commission, immediately preceding or following the item.

Secrecy

583. No information furnished to the commission by a public utility, except such matters as are specifically required to be open to public inspection by the provisions of this part, shall be open to public inspection or made public except on order of the commission, or by the commission or a commissioner in the course of a hearing or proceeding. Any officer or employee of the commission who divulges any such information is guilty of a misdemeanor.

Reports

584. Every public utility shall annually furnish a report to the commission at such time and in such form as the commission may require in which the utility shall specifically answer all questions propounded by the commission. The commission may require any public utility to file monthly reports of earnings and expenses, and to file periodical or special reports, or both, concerning any matter about which the commission is authorized by any law to inquire or to keep itself informed, or which it is required to enforce. All reports shall be under oath when required by the commission.

CHAPTER 4. REGULATION OF PUBLIC UTILITIES

Article 1. Generally

General power

701. The commission may supervise and regulate every public utility in the State and may do all things, whether specifically designated in this part or in addition thereto, which are necessary and convenient in the exercise of such power and jurisdiction.

Compliance by public utilities

702. Every public utility shall obey and comply with every order, decision, direction, or rule made or prescribed by the commission in the matters specified in this part, or any other matter in any way relating to or affecting its business as a public utility, and shall do everything necessary or proper to secure compliance therewith by all of its officers, agents, and employees.

Investigation of interstate rates

703. The commission may investigate all existing or proposed interstate rates, fares, tolls, charges, and classifications, and all rules and practices in relation thereto, for or in relation to the transportation of persons or property or the transmission of messages or conversations, where any act in relation thereto takes place within this State and when they are, in the opinion of the commission, excessive or discriminatory or in violation of the Interstate Commerce Act, or any other act of Congress, or in conflict with the rulings, orders, or regulations of the Interstate Commerce Commission, the commission may apply for relief by petition or otherwise to the Interstate Commerce Commission or to any court of competent jurisdiction.

Foreign corporations

704. Except as otherwise provided in this section, no foreign corporation, other than those which by compliance with the laws of this State are entitled to transact a public utility business within this State, shall henceforth transact within this State any public utility business, nor shall any foreign corporation which is at present lawfully transacting business within this State henceforth transact within this State any public utility business of a character different from that which it is at present authorized by its charter or articles of incorporation to transact. No license, permit, or franchise to own, control, operate, or manage any public utility business or any part or incident thereof shall be henceforth granted or transferred, directly or indirectly, to any foreign corporation which is not at present lawfully transacting within this State a public utility business of like character.

Foreign corporations engaging in commerce with foreign nations or commerce among the several states may transact within this State such commerce and intrastate commerce of a like character. Any foreign corporation which complies with the laws of this State respecting foreign corporations, and which owns at least 90 percent of the outstanding capital stock of any other foreign corporation transacting a public utility business in this State, may succeed to the public utility business, franchises, and rights of such latter corporation and, thereafter continue and carry on such public utility business.

705. Whenever in Articles 2, 3, and 4 of this chapter a hearing by the commission is required, the hearing may be had either upon complaint or upon motion of the commission. Hearing upon complaint or motion

Article 2. Rates

726. It is the policy of the State in rate making to be pursued by the commission to establish such rates as will promote the freedom of movement by carriers of agricultural commodities, including livestock, at the lowest lawful rates compatible with the maintenance of adequate transportation service. Rate policy

In any rate proceeding where more than one type or class of carrier, as defined in this part or in the Highway Carriers' Act, is involved, the commission shall consider all such types or classes of carriers, and, pursuant to the provisions of this part or the Highway Carriers' Act, fix as minimum rates applicable to all such types or classes of carriers the lowest of the lawful rates so determined for any such type or class of carrier. This provision does not prevent the commission from granting to carriers by water such differentials in rates as are permitted under other provisions of law. Ch. 1, Div. 2

727. It is the policy of the State that the use of all waterways, ports, and harbors of this State shall be encouraged, and to that end the commission is directed in the establishment of rates for water carriers applying to business moving between points within this State to fix those rates at such a differential under the rates of competing land carriers that the water carriers shall be able fairly to compete for such business. In fixing the rates there shall be taken into consideration quality and regularity of service and class and speed of vessels. "Competing land carriers" includes all land carriers as defined in this part, and includes a highway contract carrier and a radial highway common carrier as defined in the Highway Carriers' Act. Policy re water carriers

728. Whenever the commission, after a hearing, finds that the rates or classifications, demanded, observed, charged, or collected by any public utility for or in connection with any service, product, or commodity, or the rules, practices, or contracts affecting such rates or classifications are insufficient, unlawful, unjust, unreasonable, discriminatory, or preferential, the commission shall determine and fix, by order, the just, reasonable, or sufficient rates, classifications, rules, practices, or contracts to be thereafter observed and in force. Fixing of reasonable rates

729. The commission may, upon a hearing, investigate a single rate, classification, rule, contract, or practice, or any number thereof, or the entire schedule or schedules of rates, classifications, rules, contracts, and practices, or any thereof, of any public utility, and may establish new rates, classifications, rules, contracts, or practices or schedule or schedules in lieu thereof. Investigation of rates

730. The commission shall, upon a hearing, determine the kind and character of facilities and the extent of the operation Service by carriers

thereof, necessary reasonably and adequately to meet public requirements for service furnished by common carriers between any two or more points, and shall fix and determine the just, reasonable, and sufficient rates for such service. Whenever two or more common carriers are furnishing service in competition with each other, the commission may, after hearing, when necessary for the preservation of adequate service and when public interest demands, prescribe uniform rates, classifications, rules, and practices to be charged, collected, and observed by all such common carriers.

Competitive transportation rates

731. Whenever the commission, after a hearing, finds that any rate or toll for the transportation of property is lower than a reasonable or sufficient rate and that the rate is not justified by actual competitive transportation rates of competing carriers, or the cost of other means of transportation, the commission shall prescribe such rates as will provide an equality of transportation rates for the transportation of property between all such competing agencies of transportation. When in the judgment of the commission a differential is necessary to preserve equality of competitive transportation conditions, a reasonable differential between rates of common carriers by rail and water for the transportation of property may be maintained by such carriers, and the commission may by order require the establishment of such rates.

Joint rates

732. Whenever the commission, after a hearing finds that the rates, fares, or charges in force over two or more common carriers, between any two points in this State, are unjust, unreasonable, or excessive, or that no satisfactory through route or joint rate, fare, or charge exists between such points, and that the public convenience and necessity demand the establishment of such a through route and joint rate, fare, or charge, the commission may order such common carriers to establish such through route and may establish and fix a joint rate, fare, or charge which will be fair, just, reasonable, and sufficient, to be charged and collected in the future, and the terms and conditions under which such through route shall be operated. The commission may order that freight moving between such points shall be carried by the common carriers participating in such through route and joint rate, without being transferred from the originating cars.

Same

733. In case the common carriers do not agree upon the division between them of the joint rates, fares, or charges established by the commission over such through routes, the commission shall, after hearing, by supplemental order, establish such division. Where any railroad, or passenger stage corporation which is made a party to a through route has itself over its own line an equally satisfactory through route between the termini of the through route established, such railroad, or passenger stage corporation may require as its division of the joint rate, fare, or charge its local rate, fare, or charge over the portion of its line comprised in such through route, and the commission may, in its discretion, allow to such railroad or passenger stage

corporation, more than its local rate, fare, or charge whenever it will be equitable so to do. The commission may establish and fix through routes and joint rates, fares, or charges over common carriers and stage or auto stage lines which may not be otherwise subject to the provisions of this part, and may fix the division of such joint rates, fares, or charges.

Reparation for overcharges

734. When complaint has been made to the commission concerning any rate for any product or commodity furnished or service performed by any public utility, and the commission has found, after investigation, that the public utility has charged an unreasonable, excessive, or discriminatory amount therefor in violation of any of the provisions of this part, the commission may order that the public utility make due reparation to the complainant therefor, with interest from the date of collection if no discrimination will result from such reparation. No order for the payment of reparation upon the ground of unreasonableness shall be made by the commission in any instance wherein the rate in question has, by formal finding, been declared by the commission to be reasonable, and no assignment of a reparation claim shall be recognized by the commission except assignments by operation of law as in cases of death, insanity, bankruptcy, receivership, or order of court.

Suit to recover overcharges

735. If the public utility does not comply with the order for the payment of reparation within the time specified in the order, suit may be instituted in any court of competent jurisdiction to recover the payment within one year from the date of the order, and not after. All complaints for damages resulting from a violation of any of the provisions of this part, except Sections 494 and 533, shall either be filed with the commission, or where concurrent jurisdiction of the cause of action is vested by the constitution and laws of this State in the courts, in any court of competent jurisdiction, within two years from the time the cause of action accrues, and not after.

Limitation of actions

736. All complaints for damages resulting from the violation of any of the provisions of Sections 494 or 533 shall either be filed with the commission, or, where concurrent jurisdiction of the cause of action is vested in the courts of this State, in any court of competent jurisdiction within three years from the time the cause of action accrues, and not after. If claim for the asserted damages has been presented in writing to the public utility concerned within such period of three years, such period shall be extended to include six months from the date notice in writing is given by the public utility to the claimant of the disallowance of the claim, or of any part or parts thereof specified in the notice.

Actions for collection of tariffs

737. All complaints for the collection of the lawful tariff charges or any part thereof, of public utilities may be filed in any court of competent jurisdiction within three years from the time the cause of action accrues, and not after, but if a public utility presents its claim or demand in writing to the person from whom the tariff charges, or any part thereof, are alleged to be due within such period of three years, that period shall be

extended to include six months from the date notice in writing is given to the public utility, by such person, of refusal to pay the demand, or any part or parts thereof specified in the notice of refusal.

If suit for the collection of the lawful tariff charges or any portion thereof of a public utility is filed in any court in accordance with the terms of this section, or if such collection is made by the public utility without filing suit, the person against whom such suit is filed or from whom such collection is made may, within 90 days from the date of service of summons in the suit, or the date of the collection, file with the commission, or with any court of competent jurisdiction, a complaint for damages resulting from the violation of any of the provisions of this part with respect to the transaction to which the suit of the public utility relates, or for which such collection has been made.

Accrual of cause of action, cumulative remedies

738. For the purpose of Sections 734 to 737, inclusive, the cause of action shall accrue upon the delivery or tender of delivery of the shipment or the performance of the service or the furnishing of the commodity or product with respect to which complaint is filed or claim made. The remedies in those sections shall be cumulative and in addition to any other remedy or remedies in this part provided in case of failure of a public utility to obey an order or decision of the commission.

Article 3. Equipment, Practices, and Facilities

Fixing of rules, practices, etc

761. Whenever the commission, after a hearing, finds that the rules, practices, equipment, appliances, facilities, or service of any public utility, or the methods of manufacture, distribution, transmission, storage, or supply employed by it, are unjust, unreasonable, unsafe, improper, inadequate, or insufficient, the commission shall determine and, by order or rule, fix the rules, practices, equipment, appliances, facilities, service, or methods to be observed, furnished, constructed, enforced, or employed. The commission shall prescribe rules for the performance of any service or the furnishing of any commodity of the character furnished or supplied by any public utility, and, on proper demand and tender of rates, such public utility shall furnish such commodity or render such service within the time and upon the conditions provided in such rules.

Additions, extensions, etc

762. Whenever the commission, after a hearing, finds that additions, extensions, repairs, or improvements to, or changes in, the existing plant, equipment, apparatus, facilities, or other physical property of any public utility or of any two or more public utilities ought reasonably to be made, or that new structures should be erected, to promote the security or convenience of its employees or the public, or in any other way to secure adequate service or facilities, the commission shall make and serve an order directing that such additions, extensions, repairs, improvements, or changes be made or such structures be erected in the manner and within the time specified in the order. If the commission orders the erection of a new

structure, it may also fix the site thereof. If the order requires joint action by two or more public utilities, the commission shall so notify them and shall fix a reasonable time within which they may agree upon the portion or division of the cost which each shall bear. If at the expiration of such time the public utilities fail to file with the commission a statement that an agreement has been made for a division or apportionment of the cost, the commission may, after further hearing, make an order fixing the proportion of such cost to be borne by each public utility and the manner in which payment shall be made or secured.

Order to run sufficient cars, etc

763. Whenever the commission, after a hearing, finds that any railroad corporation or street railroad corporation does not run a sufficient number of trains or cars, or possess or operate sufficient motive power, reasonably to accommodate the traffic, passenger or freight, transported by or offered for transportation to it, or does not run its trains or cars with sufficient frequency or at a reasonable or proper time having regard to safety, or does not stop its trains or cars at proper places, or does not run any train or car upon a reasonable time schedule for the run, the commission may make an order directing such corporation to increase the number of its trains or cars or its motive power or to change the time for starting its trains or cars or to change the time schedule for the run of any train or car, or to change the stopping place or places thereof. The commission may make any other order that it determines to be reasonably necessary to accommodate and transport the traffic, passenger or freight, transported or offered for transportation

Connections between tracks

764. Whenever the commission, after a hearing, finds that the public convenience and necessity would be served by having connections made between the tracks of any two or more railroad or street railroad corporations, so that cars may readily be transferred from one to the other at any of the points specified in this section, the commission may order any two or more such corporations owning, controlling, operating, or managing tracks of the same gauge to make physical connections at any and all crossings, and at all points where a railroad or street railroad begins or terminates or runs near to any other railroad or street railroad. After the necessary franchise or permit has been secured from the city or city and county, the commission may likewise order such physical connection, within the city, or city and county, between two or more railroads which enter the limits thereof. The commission shall by order direct whether the expense of such connections shall be borne jointly or otherwise.

Spur tracks, etc

765. Whenever the commission, after a hearing, finds that application has been made to a railroad corporation for a connection or spur by any corporation or person entitled thereto pursuant to Section 560, and that the railroad corporation has refused to provide such connection or spur, the commission shall make an order requiring the providing of such connection or spur and the maintenance and use thereof upon such reasonable terms as the commission may prescribe. Whenever any such

connection or spur has been so provided, any corporation or person may connect with the private track or railroad thereby connected with the railroad of the railroad corporation and may use the private track or railroad or the spur upon payment to the party incurring the primary expense of such private track or railroad, or the connection or spur, of a reasonable proportion of the cost thereof to be determined by the commission after notice to the interested parties and a hearing thereon, if such connection and use can be made without unreasonable interference with the rights of the party incurring such primary expense.

The commission may require one railroad corporation to switch to private spurs and industrial tracks upon its own railroad the cars of a connecting railroad corporation and may prescribe the terms and compensation for such service.

Physical connections between telephone, etc., lines

766. Whenever the commission, after a hearing finds that a physical connection can reasonably be made between the lines of two or more telephone corporations or two or more telegraph corporations whose lines can be made to form a continuous line of communication, by the construction and maintenance of suitable connections for the transfer of messages or conversations, and that public convenience and necessity will be served thereby, or finds that two or more telegraph or telephone corporations have failed to establish joint rates, tolls, or charges for service by or over their lines, and that joint rates, tolls, or charges ought to be established, the commission may, by its order, require that such connection be made on the payment of such compensation, if any, as it finds to be just and reasonable, except where the purpose of the connection is primarily to secure the transmission of local messages or conversations between points within the same city, or city and county. The commission may, by order, require that conversations be transmitted and messages transferred over such connection under such rules as it may establish, and may prescribe through lines and joint rates, tolls, and charges If such telephone or telegraph corporations do not agree upon the division between them of the cost of such physical connection or connections or the division of such joint rates, tolls, or charges established by the commission over such through lines, the commission may after further hearing, establish such division by supplemental order.

Use of conduits, etc., of one company by another

767. Whenever the commission, after a hearing had upon its own motion or upon complaint of a public utility affected, finds that public convenience and necessity require the use by one public utility of all or any part of the conduits, subways, tracks, wires, poles, pipes, or other equipment, on, over, or under any street or highway, and belonging to another public utility, and that such use will not result in irreparable injury to the owner or other users of such property or equipment or in any substantial detriment to the service, and that such public utilities have failed to agree upon such use or the terms and conditions or compensation therefor, the commission may by

order direct that such use be permitted, and prescribe a reasonable compensation and reasonable terms and conditions for the joint use. If such use is directed, the public utility to whom the use is permitted shall be liable to the owner or other users for such damage as may result therefrom to the property of the owner or other users thereof, and the commission may ascertain and direct the payment, prior to such use, of fair and just compensation for damage suffered, if any.

Safety devices

768. The commission may, after a hearing, by general or special orders, rules, or otherwise, require every public utility to construct, maintain, and operate its line, plant, system, equipment, apparatus, tracks, and premises in such manner as to promote and safeguard the health and safety of its employees, passengers, customers, and the public, and may prescribe, among other things, the installation, use, maintenance, and operation of appropriate safety or other devices or appliances, including interlocking and other protective devices at grade crossings or junctions and block or other systems of signalling, establish uniform or other standards of construction and equipment, and require the performance of any other act which the health or safety of its employees, passengers, customers, or the public may demand.

Rules re facilities for handling freight, etc

769. The commission may provide by proper rules the time within which all railroad corporations shall furnish, after demand therefor, all cars, equipment, and facilities necessary for the handling of freight in carload and less than carload lots, the time within which consignors or persons ordering cars shall load the cars, and the time within which consignees or persons to whom freight is consigned shall unload and discharge the cars and receive freight from the freight rooms, and may provide penalties to be paid for failure on the part of the railroad corporations, consignors, and consignees to conform to such rules. Charges for demurrage shall be uniform so that the same penalty shall be paid by both shipper or consignee and railroad corporation for an equal number of cars for each day for which demurrage is charged.

The commission may provide the time within which express packages shall be received, gathered, transported, and delivered at destination, and the limits within which express packages shall be gathered and distributed and telegraph and telephone messages delivered without extra charge.

Fixing of standards, etc

770. The commission may after hearing:

(a) Ascertain and fix just and reasonable standards, classifications, regulations, practices, measurements, or service to be furnished, imposed, observed, and followed by all electrical, gas, water, and heat corporations.

(b) Ascertain and fix adequate and serviceable standards for the measurement of quantity, quality, pressure, initial voltage, or other condition pertaining to the supply of the product, commodity, or service furnished or rendered by any such public utility.

(c) Prescribe reasonable regulations for the examination and testing of such product, commodity, or service and for the measurement thereof.

(d) Establish reasonable rules, specifications, and standards to secure the accuracy of all meters and appliances for measurements.

(e) Provide for the examination and testing of any and all appliances used for the measurement of any product, commodity, or service of any such public utility.

Entry, examination

771. The commissioners and their officers and employees may enter upon any premises occupied by any public utility, for the purpose of making the examinations and tests and exercising any of the other powers provided for in this part, and may set up and use on such premises any apparatus and appliances necessary therefor. The agents and employees of the public utility may be present at the making of such examinations and tests.

Testing of measuring appliances

772. Any consumer or user of any product, commodity, or service of a public utility may have any appliance used in the measurement thereof tested upon paying the fees fixed by the commission. The commission shall establish and fix reasonable fees to be paid for testing such appliances on the request of the consumer or user. The fee shall be paid by the consumer or user at the time of his request, but if the appliance is found defective or incorrect to the disadvantage of the consumer or user, the fee shall be paid by the public utility and repaid to the consumer or user under such rules as the commission prescribes.

Article 4. Books and Accounts

Office, records

791. Each public utility shall have an office in a county of this State in which its property or some portion thereof is located and shall keep in that office all the books, accounts, papers, and records required by the commission to be kept within this State. No such books, accounts, papers, or records shall be at any time removed from the State except upon such conditions as the commission prescribes.

System of accounts, etc

792. The commission may establish a system of accounts to be kept by the public utilities subject to its jurisdiction, or classify such public utilities and establish a system of accounts for each class, and may prescribe the manner in which such accounts shall be kept. It may also prescribe the forms of accounts, records, and memoranda to be kept by such public utilities, including the accounts, records, and memoranda of the movement of traffic as well as the receipts and expenditures of moneys, and any other forms, records, and memoranda which in the judgment of the commission may be necessary to carry out any of the provisions of this part.

Same

793. The system of accounts and the forms of accounts, records, and memoranda prescribed by the commission for corporations subject to the provisions of the Interstate Commerce Act and the acts amendatory thereof and supplementary

thereto, shall not be inconsistent with the systems and forms from time to time established for such corporations by the Interstate Commerce Commission. Nothing in this section or Section 794 shall affect the power of the commission to prescribe forms of accounts, records, and memoranda covering information in addition to that required by the Interstate Commerce Commission.

Other records unlawful

794. The commission may, after hearing, prescribe by order the accounts in which particular outlays and receipts shall be entered, charged, or credited. Where the commission has prescribed the forms of accounts, records, or memoranda to be kept by any public utility for any of its business, it is unlawful for such public utility to keep any accounts, records, or memoranda for such business other than those so prescribed, or those prescribed by or under the authority of any other state or of the United States, except such accounts, records, or memoranda as are explanatory of and supplemental to those prescribed by the commission.

Depreciation account

795. The commission may, after hearing, require any or all public utilities to carry a proper and adequate depreciation account in the form and in accordance with such rules as the commission prescribes. The commission may, from time to time, ascertain and by order fix the proper and adequate rates of depreciation of the several classes of property of each public utility. Each public utility shall conform its depreciation accounts to the rates so fixed, and shall set aside the money so provided for out of earnings, carry it in a depreciation fund, and expend such fund only for such purposes and under such rules, both as to original expenditure and subsequent replacement, as the commission prescribes. The income from investments of money in such fund shall likewise be carried in that fund.

Article 5. Stocks and Security Transactions

Power to issue stocks etc

816. The power of public utilities to issue stocks and stock certificates or other evidence of interest or ownership and bonds, notes, and other evidences of indebtedness and to create liens on their property situated within this State is a special privilege, the right of supervision, regulation, restriction, and control of which is vested in the State, and such power shall be exercised as provided by law under such rules as the commission prescribes.

Highway common carriers and petroleum irregular route carriers

816.5. Nothing contained in this article shall be construed to require a highway common carrier or a petroleum irregular route carrier to secure from the commission authority to execute any conditional sales contract for the purchase of motor vehicle equipment or any chattel mortgage on motor vehicle equipment securing the payment of all or any part of the purchase price of such motor vehicle equipment.

(Added by Stats. 1951, Ch. 1493.)

Purposes

817. A public utility may issue stocks and stock certificates or other evidence of interest or ownership, and bonds,

notes, and other evidences of indebtedness payable at periods of more than 12 months after the date thereof, for any one or more of the following purposes and no others:

(a) For the acquisition of property.

(b) For the construction, completion, extension, or improvement of its facilities.

(c) For the improvement or maintenance of its service.

(d) For the discharge or lawful refunding of its obligations.

(e) For the reorganization or readjustment of its indebtedness or capitalization upon a merger, consolidation, or other reorganization.

(f) For the retirement of or in exchange for one or more outstanding stocks or stock certificates or other evidence of interest or ownership of such public utility, or bonds, notes, or other evidence of indebtedness of such public utility, with or without the payment of cash.

(g) For the reimbursement of moneys actually expended from income or from any other money in the treasury of the public utility not secured by or obtained from the issue of stocks or stock certificates or other evidence of interest or ownership, or bonds, notes, or other evidences of indebtedness of the public utility, for any of the aforesaid purposes except maintenance of service and replacements, in cases where the applicant has kept its accounts and vouchers for such expenditures in such manner as to enable the commission to ascertain the amount of money so expended and the purposes for which such expenditure was made.

Authorization of issue

818. No public utility may issue stocks and stock certificates, or other evidence of interest or ownership, or bonds, notes, or other evidences of indebtedness payable at periods of more than 12 months after the date thereof unless, in addition to the other requirements of law it shall first have secured from the commission an order authorizing the issue, stating the amount thereof and the purposes to which the issue or the proceeds thereof are to be applied, and that, in the opinion of the commission, the money, property, or labor to be procured or paid for by the issue is reasonably required for the purposes specified in the order, and that, except as otherwise permitted in the order in the case of bonds, notes, or other evidences of indebtedness, such purposes are not, in whole or in part, reasonably chargeable to operating expenses or to income.

Same
Hearing, etc.

819. To enable it to determine whether it will issue the order, the commission may hold a hearing and may make such additional inquiry or investigation, examine such witnesses, books, papers, documents, and contracts, and require the filing of such data as it deems of assistance. The commission may by its order grant permission for the issue of such stocks or stock certificates or other evidence of interest or ownership, or bonds, notes, or other evidences of indebtedness in the amount applied for, or in a lesser amount, or refuse such permission,

or grant it subject to such conditions as it deems reasonable and necessary. The commission may authorize issues of bonds, notes, or other evidences of indebtedness, less than, equivalent to or greater than the authorized or subscribed capital stock of a public utility corporation, and Section 7503, insofar as it prohibits the creation by corporations of indebtedness, evidenced by bonds, notes or otherwise, in excess of their total authorized or subscribed capital stock does not apply to public utility corporations.

Capitalization of franchise, etc

820. The commission shall have no power to authorize the capitalization of the right to be a corporation, or the capitalization of any franchise or permit, or the right to own, operate, or enjoy any such franchise or permit, in excess of the amount (exclusive of any tax or annual charge) actually paid to the State or to a political subdivision thereof as the consideration for the grant of such franchise, permit, or right. No contract for consolidation or lease shall be capitalized, nor shall any public utility issue any bonds, notes, or other evidences of indebtedness against or as a lien upon any contract for consolidation or merger.

Conversion rights

821. Subject to the provisions of this article, any public utility may issue bonds, or other interest bearing securities maturing at periods of more than 12 months after the date thereof, and may issue one or more classes of preferred stock which may have attached thereto warrants entitling the holder to subscribe for shares of common stock in such amounts, at such future dates, at such prices and on such terms and conditions as may be specified in the warrants. Such bonds, or other interest bearing obligations and such preferred stock also may be issued with provision therein that they may be converted into shares of common stock in such amounts, at such future dates, at such prices, and on such terms and conditions as may be specified therein.

Consideration for issue

822. Pursuant to this part the commission may, upon an application for an order to issue stocks, bonds, debentures, notes, or other securities in exchange for one or more bona fide outstanding stocks, bonds, debentures, notes, or other securities, claims or property interests, or partly in such exchange and partly for cash, approve the terms and conditions of such issuance and exchange, after a hearing upon the fairness thereof. All persons to whom it is proposed to issue stocks, bonds, debentures, notes, or other securities in such exchange may appear at such hearing.

Use of issue or proceeds

823. No public utility shall, without the consent of the commission, apply any part of the issue of any stock or stock certificate or other evidence of interest or ownership, or bond, note, or other evidence of indebtedness, or any proceeds thereof, to any purpose not specified in the commission's order, or to any purpose specified in the order in excess of the amount authorized for such purpose, or issue or dispose thereof on any terms less favorable than those specified in the order, or a modification thereof. A public utility may issue notes, for proper

Notes

purposes and not in violation of any provision of law, payable at periods of not more than 12 months after the date of issuance of the notes without the consent of the commission, but no such note shall, in whole or in part, be refunded by any issue of stocks or stock certificates or other evidence of interest or ownership, or of bonds, notes of any term or character, or any other evidence of indebtedness, without the consent of the commission.

Accounting for proceeds

824. The commission may require public utilities to account for the disposition of the proceeds of all sales of stocks and stock certificates or other evidence of interest or ownership, and bonds, notes, and other evidences of indebtedness, in such form and detail as it deems advisable, and may establish such rules as it deems reasonable and necessary to insure the disposition of such proceeds for the purposes specified in its order.

Improper issue Validity

825. All stock and every stock certificate or other evidence of interest or ownership, and every bond, note, or other evidence of indebtedness, of a public utility, issued without an order of the commission authorizing the issue thereof then in effect or not conforming in its provisions to any of the provisions which it is required by the order of authorization to contain, is void. No failure in any other respect to comply with the terms or conditions of the order of authorization of the commission shall render void any stock or stock certificate or other evidence of interest or ownership, or any bond, note, or other evidence of indebtedness, except as to a corporation or person taking it otherwise than in good faith and for value and without actual notice.

Penalty

826. Exemptions, etc

829. This article shall not apply to any person or corporation which transacts no business subject to regulation under this part, except performing services or delivering commodities for or to public utilities or municipal or other public corporations primarily for resale or use in serving the public or any portion thereof but shall nevertheless apply to any public utility if the commission finds, in a proceeding to which the public utility is or may become a party, that the application of this article is required by the public interest. The commission may from time to time by order or rule, and subject to such terms and conditions as may be prescribed therein, exempt any public utility or class of public utility from the provisions of this article if it finds that the application thereof to such public utility or class of public utility is not necessary in the public interest.

Every such sale, lease, assignment, mortgage, disposition, encumbrance, merger, or consolidation made other than in accordance with the order of the commission authorizing it is void. The permission and approval of the commission to the exercise of a franchise or permit under Article 1 of Chapter 5 of this part, or the sale, lease, assignment, mortgage, or other disposition or encumbrance of a franchise or permit under this article shall not revive or validate any lapsed or invalid franchise or permit, or enlarge or add to the powers or privileges contained in the grant of any franchise or permit, or waive any forfeiture.

Nothing in this section shall prevent the sale, lease, encumbrance or other disposition by any public utility of property which is not necessary or useful in the performance of its duties to the public, and any disposition of property by a public utility shall be conclusively presumed to be of property which is not useful or necessary in the performance of its duties to the public, as to any purchaser, lessee or encumbrancer dealing with such property in good faith for value.

(Amended by Stats. 1951, Ch. 402.)

[ORIGINAL SECTION]

851 No public utility shall sell, lease, assign, mortgage, or otherwise dispose of or encumber the whole or any part of its railroad, street railroad, line, plant, system, or other property necessary or useful in the performance of its duties to the public, or any franchise or permit or any right thereunder, nor by any means whatsoever, directly or indirectly, merge or consolidate its railroad, street railroad, line, plant, system, or other property, or franchises or permits or any part thereof, with any other public utility, without first having secured from the commission an order authorizing it so to do. Every such sale, lease, assignment, mortgage, disposition, encumbrance, merger, or consolidation made other than in accordance with the order of the commission authorizing it is void. The permission and approval of the commission to the exercise of a franchise or permit under Article 1 of Chapter 5 of this part, or the sale, lease, assignment, mortgage, or other disposition or encumbrance of a franchise or permit under this article shall not revive or validate any lapsed or invalid franchise or permit, or enlarge or add to the powers or privileges contained in the grant of any franchise or permit, or waive any forfeiture

Nothing in this section shall prevent the sale, lease, or other disposition by any public utility of property which is not necessary or useful in the performance of its duties to the public, and any property sold by a public

utility shall be conclusively presumed to be property which is not useful or necessary in the performance of its duties to the public, as to any purchaser of such property in good faith for value.

Acquisition of stock of another utility

852. No public utility shall purchase or acquire, take or hold, any part of the capital stock of any other public utility, organized or existing under or by virtue of the laws of this State, without having been first authorized to do so by the commission. Every assignment, transfer, contract, or agreement for assignment or transfer of any stock by or through any person or corporation to any corporation or otherwise in violation of any of the provisions of this article is void and of no effect, and no such transfer shall be made on the books of any public utility. Nothing herein contained shall prevent the holding of stock heretofore lawfully acquired.

Exemptions, etc

853. The provisions of Sections 851 and 852 shall not apply to any person or corporation which transacts no business subject to regulation under this part, except performing services or delivering commodities for or to public utilities or municipal or other public corporations primarily for resale or use in serving the public or any portion thereof but shall nevertheless apply to any public utility if the commission finds, in a proceeding to which the public utility is or may become a party, that the application thereof is required by the public interest. The commission may from time to time by order or rule and subject to such terms and conditions as may be prescribed therein, exempt any public utility or class of public utility from the provisions of Sections 851 and 852 if it finds that the application thereof with respect to such public utility or class of public utility is not necessary in the public interest.

CHAPTER 5. CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Article 1. Specified Utilities

Certificate required

1001. No railroad corporation whose railroad is operated primarily by electric energy, street railroad corporation, gas corporation, electrical corporation, telegraph corporation, telephone corporation, or water corporation shall begin the construction of a street railroad, or of a line, plant, or system, or of any extension thereof, without having first obtained from the commission a certificate that the present or future public convenience and necessity require or will require such construction.

This article shall not be construed to require any such corporation to secure such certificate for an extension within any city or city and county within which it has theretofore lawfully commenced operations, or for an extension into territory either within or without a city or city and county contiguous to its street railroad, or line, plant, or system, and not theretofore served by a public utility of like character, or for an extension within or to territory already served by it, necessary in the

ordinary course of its business. If any public utility, in constructing or extending its line, plant, or system, interferes or is about to interfere with the operation of the line, plant, or system of any other public utility, already constructed, the commission, on complaint of the public utility claiming to be injuriously affected, may, after hearing, make such order and prescribe such terms and conditions for the location of the lines, plants, or systems affected as to it may seem just and reasonable.

Same

1002. No public utility of a class specified in Section 1001 shall henceforth exercise any right or privilege under any franchise or permit hereafter granted, or under any franchise or permit heretofore granted but not heretofore actually exercised, or the exercise of which has been suspended for more than one year, without first having obtained from the commission a certificate that public convenience and necessity require the exercise of such right or privilege. This section shall not validate any right or privilege now invalid or hereafter becoming invalid under any law of this State.

Preliminary order

1003. If a public utility desires to exercise a right or privilege under a franchise or permit which it contemplates securing, but which has not as yet been granted to it, such public utility may apply to the commission for an order preliminary to the issue of the certificate. The commission may thereupon make an order declaring that it will, upon application, under such rules as it prescribes, issue the desired certificate upon such terms and conditions as it designates, after the public utility has obtained the contemplated franchise or permit. Upon the presentation to the commission of evidence satisfactory to it that the franchise or permit has been secured by the public utility, the commission shall issue the certificate.

Articles, etc., to be filed

1004. Before any certificate may issue, under this article, a certified copy of its articles of incorporation or charter, if the applicant is a corporation, shall be filed in the office of the commission. Every applicant for a certificate shall file in the office of the commission such evidence as is required by the commission to show that the applicant has received the required consent, franchise, or permit of the proper county, city and county, city, or other public authority.

Hearing and order

1005. The commission may, after hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the construction of a portion only of the contemplated street railroad line, plant, or system, or extension thereof, or for the partial exercise only of the right or privilege, and may attach to the exercise of the rights granted by the certificate such terms and conditions, including provisions for the acquisition by the public of the franchise or permit and all rights acquired thereunder and all works constructed or maintained by authority thereof, as in its judgment the public convenience and necessity requires.

Complaint of violation

1006. When a complaint has been filed with the commission alleging that a public utility of the class specified in Section

1001 is engaged or is about to engage in construction work without having secured from the commission a certificate of public convenience and necessity as required by this article, the commission may, with or without notice, make its order requiring the public utility complained of to cease and desist from such construction until the commission makes and files its decision on the complaint or until the further order of the commission.

Vessels

1007. No corporation or person shall begin to operate or cause to be operated any vessel for the transportation of persons or property, for compensation, between points in this State, without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation, but no such certificate shall be required as to termini between which any such corporation or person is lawfully operating vessels in good faith under this part as it existed prior to August 17, 1923, under tariffs and schedules of such corporations or persons, lawfully on file with the commission Every applicant for such a certificate shall file in the office of the commission application and evidence in the form required by the commission. The commission may, after hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, or issue it for operation between certain points only, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public convenience and necessity require.

Ports, port districts, etc.

1008. Any municipal corporation or port district operating or maintaining a port may apply to the commission for the issuance of a certificate of convenience and necessity to require any person or corporation operating vessels between points in this State, to serve that port. The commission may, after hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the partial exercise of the rights granted by any such certificate, upon such terms and conditions as in its judgment the public convenience and necessity require, and upon making the order the person or corporation to which the certificate is issued, shall be compelled to perform the service.

Vessels Transfer of rights, etc

1009. Any right, privilege, franchise, or permit held, owned or obtained by any person or corporation for the operation of vessels between points in this State may be sold, assigned, leased, transferred, or inherited as other property, only upon authorization by the commission. The commission may at any time for a good cause suspend, and upon notice to the grantee of any certificate or operative right and opportunity to be heard revoke, alter, or amend any certificate or operative right issued or existing under the provisions of Sections 1007 or 1008.

Express corporations and freight forwarders

1010. No express corporation or freight forwarder shall after August 1, 1933, commence operating between points in this State or extend its operations to or from any point or points in this State not theretofore served by it, unless and until it first secures from the commission, upon formal application

therefor, a certificate that public convenience and necessity require such operation. The commission may, with or without hearing, issue such certificate, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, and may attach to its order granting the certificate such terms and conditions as, in its judgment, the public convenience and necessity require. The commission may at any time, for good cause shown and upon notice to the holder of any such certificate, revoke, alter, or amend any such certificate.

Scope of article

1011. The provisions of this article are enacted under the State's reserved power over public utilities or corporations, or both, as the case may be, for the purpose of acting on the right of the grantee of a public utility franchise granted by a city, county, or city and county, to exercise rights thereunder, and not for the purpose of acting on the right of any city or city and county to grant any such franchise. The Legislature hereby declares that the provisions of this article shall remain in full force and effect concurrently with the right of any city or city and county to grant franchises for public utilities upon the terms and conditions and in the manner prescribed by law.

Article 2. Passenger Stage Corporations

Certificate required

1031. No passenger stage corporation shall operate or cause to be operated any passenger stage over any public highway in this State without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation, but no such certificate shall be required of any passenger stage corporation as to the fixed termini between which, or the route over which, it was actually operating in good faith on July 29, 1927, in compliance with the provisions of Chapter 213, Statutes of 1917, nor shall any such certificate be required of any person or corporation who on January 1, 1927, was operating, or during the calendar year 1926 had operated a seasonal service of not less than three consecutive months' duration, sight-seeing buses on a continuous sight-seeing trip with one terminus only. Any right, privilege, franchise, or permit held, owned, or obtained by any passenger stage corporation may be sold, assigned, leased, mortgaged, transferred, inherited, or otherwise encumbered as other property, only upon authorization by the commission.

Application, disposition

1032. Every applicant for a certificate shall file in the office of the commission an application therefor in the form required by the commission. The commission may, with or without hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public convenience and necessity require. The commission may, after hearing, issue a certificate to operate in a territory already served by a certificate holder under this part only when the existing passenger stage corporation or corporations serving

such territory will not provide such service to the satisfaction of the commission.

City, county permit, etc Conflict

1033. The commission, in the exercise of the jurisdiction conferred upon it by the Constitution of this State and by this part, may grant certificates of public convenience and necessity, make decisions and orders, and prescribe rules affecting passenger stage corporations, notwithstanding the provisions of any ordinance or permit of any city, county, or city and county, and in case of conflict between any such order or rule and any such ordinance or permit, the certificate, decision, order, or rule of the commission shall prevail.

Complaint of violation

1034. When a complaint has been filed with the commission alleging that any passenger stage is being operated without a certificate of public convenience and necessity, contrary to or in violation of the provisions of this part, the commission may, with or without notice, make its order requiring the corporation or person operating or managing such passenger stage, to cease and desist from such operation, until the commission makes and files its decision on the complaint, or until further order of the commission.

Finding of commission Finality

1035. Whether or not any stage, auto stage, or other motor vehicle is being, or is proposed to be operated as a passenger stage corporation "between fixed termini or over a regular route" within the meaning of this part is a question of fact, and the finding of the commission thereon is final and is not subject to review. Any act of transporting or attempting to transport any person or persons by stage, auto stage, or other motor vehicle upon a public highway of this State between two or more points not both within the limits of a single city or city and county, where the rate, charge, or fare for such transportation is computed, collected, or demanded on an individual fare basis, shall be presumed to be an act of operating as a passenger stage corporation within the meaning of this part.

Fee

1036. Each application for a certificate of public convenience and necessity made under the provisions of this article shall be accompanied by a fee of fifty dollars ($50), unless the applicant is already operating in the immediate vicinity under the jurisdiction of the commission.

Penalty

1037. Every passenger stage corporation which violates any provision of this article, or aids or abets, or without being present advises or encourages any person or corporation in such violation, is guilty of a misdemeanor and, upon conviction thereof, if a person, shall be punished by a fine not exceeding five hundred dollars ($500) or by imprisonment in a county jail for a term not to exceed six months, or by both such fine and imprisonment, or, if a corporation, shall be punished by a fine not to exceed five hundred dollars ($500).

Article 3. Warehousemen

1051. No warehouseman shall begin to operate any business of a warehouseman, as defined in subdivision (b) of Section

239, in any city or city and county of this State having a population of 150,000 or more, without first having obtained from the commission a certificate declaring that public convenience and necessity require or will require the transaction of business by such warehouseman. No such warehouseman shall add to, extend, or otherwise increase his storage or warehouse floor space by more than 50,000 square feet in any such city or city and county, without first having obtained from the commission a certificate declaring that public convenience and necessity require or will require such addition or extension or increase of such storage or warehouse floor space, except that any warehouseman may without securing such certificate, extend or increase his storage or warehouse floor space for the sole and exclusive purpose of storing therein the goods, wares, and merchandise owned by the lessor or owner of the building or premises in which the additional or increased storage or warehouse floor space is situated.

Exception

1052. No such certificate shall be required by any warehouseman as to storage or warehouse space actually operated in good faith on August 2, 1927, under tariffs and schedules of such warehouseman lawfully on file with the commission.

Transfer

Any right, privilege, franchise, or permit held, owned, or obtained by any warehouseman may be sold, assigned, leased, transferred, or inherited as other property, only upon authorization by the commission. The commission may, with or without hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions, as in its judgment, the public convenience and necessity requires

Suspension, revocation, etc.

1053. The commission may at any time for a good cause suspend and, upon notice to the grantee of any certificate and opportunity to be heard, revoke, alter, or amend any certificate issued under this article.

Complaint of violation

1054. When a complaint has been filed with the commission alleging that any warehouseman is operating any storage or warehouse floor space without a certificate of public necessity and convenience, as required by this article, the commission may, with or without notice, make its order requiring the warehouseman to cease and desist from such operation, until the commission makes and files its decision on the complaint, or until further order of the commission

Article 4. Highway Common Carriers and Petroleum Irregular Route Carriers

Carriers subject to regulation

1061. No highway common carrier, or petroleum irregular route carrier, shall operate or cause to be operated any auto truck, or other self-propelled vehicle not operated on rails, for the transportation of property as a common carrier for compensation on any public highway in this State except in accordance with the provisions of this part

Powers of commission

1062. The commission may:

(a) Supervise and regulate every highway common carrier and petroleum irregular route carrier in this State.

(b) Fix the rates, fares, charges, classifications, and rules of each such carrier.

(c) Regulate the accounts, service, and safety of operations of each such carrier, and require the filing of annual and other reports and of other data by such carriers.

(d) Supervise and regulate such carriers in all other matters affecting the relationship between them and the shipping public.

The commission, by general order or otherwise, may prescribe rules applicable to any and all highway common carriers and petroleum irregular route carriers The commission, in the exercise of the jurisdiction conferred upon it by the Constitution of this State and by this part, may make orders and prescribe rules affecting highway common carriers and petroleum irregular route carriers, notwithstanding the provisions of any ordinance or permit of any city, city and county, or county, and in case of conflict between any such order or rule and any such ordinance or permit, the order or rule of the commission shall prevail.

Certificate required

1063. No highway common carrier, or petroleum irregular route carrier, shall begin to operate any auto truck, or other self-propelled vehicle, for the transportation of property for compensation on any public highway in this State without first having obtained from the commission a certificate declaring that public convenience and necessity require such operation. No such certificate shall be required of any highway common carrier as to the fixed termini between which or the route over which it was actually operating as a highway common carrier on July 26, 1917, and in good faith continuously thereafter, or for operations exclusively within the limits of a city or city and county, or for the performance of pickup, delivery, or transfer services by such carrier within such carrier's lawfully published pickup and delivery zones insofar as such pickup and delivery limits do not include territory in excess of three miles from the corporate limits of any city or three miles from the post office of any unincorporated point. Any right, privilege, franchise, or permit held, owned, or obtained by any highway common carrier, or petroleum irregular route carrier, may be sold, leased, transferred, or inherited as other property, only upon authorization by the commission.

Transfer of right, etc

Disposition of application

1064. The commission may, with or without hearing, issue the certificate as prayed for, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public convenience and necessity require.

Combining, etc., of certificates or operative rights

1065. Without the express approval of the commission, no certificate of public convenience and necessity issued to one highway common carrier, or petroleum irregular route carrier,

under the provisions of this article, or heretofore issued by the commission to one highway common carrier, or petroleum irregular route carrier, for the transportation of property by auto truck or self-propelled vehicle, nor any operative right of one highway common carrier, or petroleum irregular route carrier, founded upon operations actually conducted in good faith on July 26, 1917, shall be combined, united, or consolidated with another such certificate or operative right issued to or possessed by another such carrier, so as to permit through service between any point or points served by one highway common carrier, or petroleum irregular route carrier, on the one hand, and any point or points served by another such carrier, on the other hand.

Through routes or joint, etc., rates

1066. Without the express approval of the commission no through route or joint, through, combination, or proportional rate shall be established by one highway common carrier, or petroleum irregular route carrier, between any point or points which it serves, on the one hand, and any point or points served by another such carrier, on the other hand. Unless prohibited by the terms and conditions of any certificate that may be involved, any one highway common carrier, or petroleum irregular route carrier, may establish through routes and joint rates, charges, and classifications between any and all points served by it under any and all certificates or operative rights issued to or possessed by it.

(Amended by Stats. 1951, Ch. 1493.)

[ORIGINAL SECTION]

1066. Without the express approval of the commission no through route or joint, through, combination, or proportional rate shall be established by one highway common carrier, or petroleum irregular route carrier, *between any point or points which it serves, on the one hand, and any point* or points served by another such carrier, on the other hand. Any one highway common carrier, or petroleum irregular route carrier, may establish through routes and joint rates, charges, and classifications between any and all points served by it under any and all certificates or operative rights issued to or possessed by it.

Certificate required

1067. No petroleum irregular route carrier shall engage in any operation on any public highway in this State unless there is in force a certificate of public convenience and necessity issued by the commission, authorizing such operations.

Transportation of petroleum or petroleum products

1068. The transportation of petroleum or of petroleum products in any tank-truck or trailer for compensation over any public highway in this State is a highly specialized type of truck transportation. The provisions of this article relating thereto have been enacted for the limited purpose of providing necessary regulation for that specialized type of truck transportation only, and are not to be construed for any purpose as a precedent for the extension of such regulation to any other type of truck transportation not presently so restricted.

Application Form

1069. An applicant shall submit his written verified application to the commission. The application shall be in such form and contain such information and be accompanied by proof of service upon such interested parties as the commission requires.

Suspension, revocation, etc

1070. The commission may at any time for a good cause suspend, and upon notice to the holder of an operating right acquired by virtue of operations conducted on July 26, 1917, or to the grantee of any certificate, and opportunity to be heard, revoke, alter, or amend any such operative right or certificate.

Complaint of violation

1071. When a complaint has been filed with the commission alleging that any vehicle is being operated without a certificate of public convenience and necessity, as required by this part, or when the commission has reason to believe that this part is being violated, the commission shall investigate such operations and may, after a hearing, make its order requiring the owner or operator of the vehicle to cease and desist from any operation in violation of this part. The commission shall enforce compliance with such order under the powers vested in the commission by law.

Finding of commission Review

1072. Whether or not any auto truck or other self-propelled vehicle is operated by a highway common carrier "between fixed termini or over a regular route" within the meaning of this part is a question of fact, and the findings of the commission thereon are subject to review.

Cargo insurance

1073. The commission may, upon its own motion, or upon application of any interested party, and after hearing, require any highway common carrier or petroleum irregular route carrier to procure and maintain cargo insurance in such amounts and upon such terms as the commission may determine.

(Added by Stats. 1951, Ch. 881.)

CHAPTER 6. RAILROAD CROSSINGS

Permission to construct

1201. No public road, highway, or street shall be constructed across the track of any railroad corporation at grade, nor shall the track of any railroad corporation be constructed across a public road, highway, or street at grade, nor shall the track of any railroad corporation be constructed across the track of any other railroad or street railroad corporation at grade, nor shall the track of a street railroad corporation be constructed across the track of a railroad corporation at grade, without having first secured the permission of the commission. This section shall not apply to the replacement of lawfully existing tracks. The commission may refuse its permission or grant it upon such terms and conditions as it prescribes.

Powers of commission

1202. The commission has the exclusive power:

(a) To determine and prescribe the manner, including the particular point of crossing, and the terms of installation, operation, maintenance, use, and protection of each crossing of one railroad by another railroad or street railroad, and of a street railroad by a railroad, and of each crossing of a public or publicly used road or highway by a railroad or street railroad, and of a street by a railroad or vice versa, subject to the provisions of Sections 1121 to 1127, inclusive, of the Streets and Highways Code so far as applicable.

(b) To alter, relocate, or abolish by physical closing any such crossing heretofore or hereafter established.

(c) To require, where in its judgment it would be practicable, a separation of grades at any such crossing heretofore or hereafter established and to prescribe the terms upon which such separation shall be made and the proportions in which the expense of the construction, alteration, relocation, or abolition of such crossings or the separation of such grades shall be divided between the railroad or street railroad corporations affected or between such corporations and the State, county, city, or other political subdivision affected.

Payment of expense

1203. Each corporation and political subdivision to which any of the expense is apportioned shall pay from the funds available therefor in its treasury the amount apportioned to it at the time and to the parties specified by the order of the commission. If that amount is not so paid the corporation or political subdivision entitled thereto under the order may sue therefor in any court of competent jurisdiction. If no such funds are available the appropriate boards, officers, and employees intrusted with the levy and collection of the taxes or assessments of such political subdivision shall do all acts necessary to include in the next succeeding tax or assessment levy the amount due and shall collect that amount, whereupon the amount due shall be paid in accordance with the commission's order. The commission may by order designate the State, certain of the corporations, and political subdivisions affected, to do all or specified portions of the acts required by any order of the commission made under the provisions of Sections 1202 to 1205, inclusive, and may prescribe the manner and the time within which the parties so designated shall be paid or reimbursed by the other corporations, the State, and political subdivisions among which the expense of the work has been apportioned by the commission.

Assessments against districts

1204. If the legislative body of the political subdivision determines that special benefits will accrue from the separation of grades to one or more districts within the political subdivision, and has made a finding to that effect and that the cost thereof, other than the portion to be paid by the railroad, interurban railroad, or street railroad involved, should be paid by such district or partly by the district and partly by the political subdivision, the commission may provide that such proportion of the total cost of the separation of grades, including the acquisition of property and the damage to property or an interest therein, as is not payable by the owners of the railroad, interurban railroad, or street railroad involved, may be assessed upon the district or that a part thereof may be paid by the district and a part by the political subdivision in accordance with the finding of the legislative body of the latter. The commission may provide that the physical work of making the grade separation as well as the proceedings for letting contracts therefor, collecting and enforcing the assessments, and making payment for damages and for the acquisition of property shall be done through the agency of the political subdivision in accordance

with law. The order of the commission shall authorize the officers of the political subdivision to enter upon so much of the right of way of the railroad, interurban railroad, or street railroad as is necessary to effect the physical grade separation.

Modification of order

1205. If any order of the commission provides for the payment of a portion of the cost of any such grade separation by a political subdivision without authorizing the assessment of all or any part thereof upon a benefited district, the legislative body of the political subdivision may at any time thereafter apply to the commission to have the order modified in accordance with any finding made by the legislative body, and the commission may thereupon make a new or modified order in the same manner as if such application had been made to it before the making of the order.

Power to fix just compensation

1206. The commission may fix the just compensation to be paid for property or any interest in or to property to be taken or damaged in the separation of grades at any crossing specified in Section 1202, or for property or any interest in or to property to be taken or damaged in the construction, alteration, or relocation, under the order or with the approval of the commission, of elevated tracks or subways for any railroad or street railroad over or under any public road, street, highway, or private right of way, or of any public road, street, or highway over or under the tracks of any railroad corporation or street railroad corporation, and upon the payment of the compensation so fixed may make a final order of condemnation.

Same Commencement of proceedings

1207. Proceedings under Section 1206 may be commenced by order on the commission's own motion or by a petition filed by the State, county, city and county, city, political subdivision, railroad corporation, or street railroad corporation affected. Any such proceeding may be made a part of any proceeding commenced under Sections 1202 to 1205, inclusive.

The petition shall set forth the name and interest of the petitioner. The order on the commission's own motion and the petition shall set forth (a) a statement of the purpose of the proceedings and the use for which property or interest in or to property is sought to be taken, (b) a description of each piece of land or other property or interest in or to property sought to be taken, and whether it includes the whole or only a part of an entire parcel or tract or piece of property or interest in or to property, and (c) the names and addresses of all owners and claimants thereof, if known, or a statement that they are unknown, and a statement of each railroad corporation, the State and political subdivision which in the opinion of the commission or the petitioner has an interest in the proceeding.

The petition shall pray (a) that the commission fix the just compensation to be paid for the acquisition of or damage to the property and interest in or to property specified in the petition, (b) that the commission designate the party or parties to the proceeding who shall pay such compensation and the owners and claimants of the property and interest in or to property condemned to whom such compensation shall be paid,

and (c) that the commission make its final order of condemnation. When the proceeding is commenced by order on the commission's own motion such matters shall be included in the statement of the purpose of the proceeding.

The petition shall be verified. At the time it is filed with the commission the petitioner shall also file additional copies thereof equal in number to three more than the number of owners and claimants named in the petition.

Same
Order to show cause

1208. Upon the filing of the petition or the making of the order on the commission's own motion, the commission shall make its order to show cause. The order shall (a) specify the nature of the proceeding, (b) contain a general description of the property and interest to be condemned, and (c) direct the owners and claimants and the railroad corporations, street railroad corporations, and governmental authorities in interest named in the petition or order on the commission's own motion, who shall also be named in the order to show cause, to appear before the commission at a time and place specified in the order, to show cause, if any they have, why the commission should not proceed after hearing to fix the just compensation to be paid for the acquisition of or damage to the specified property and interest, to designate the party or parties to the proceeding who shall pay such compensation and the owners and claimants to whom such compensation shall be paid, and to make its final order of condemnation.

The order to show cause shall direct the secretary of the commission to serve or cause to be served upon each owner and claimant, railroad corporation, street railroad corporation, and governmental authority in interest a copy of the order certified under the seal of the commission to which shall be attached a copy of the petition or order on the commission's own motion.

When the proceeding is commenced by order on the commission's own motion the order to show cause may be incorporated in the order on the commission's own motion.

Service of order

1209. Personal service shall be made in accordance with the provisions of the Code of Civil Procedure or by depositing a copy of the order to show cause certified under seal of the commission with a copy of the petition or order on the commission's own motion attached thereto or made a part thereof in the United States mail, enclosed in a sealed envelope, registered, with postage prepaid, addressed to the party to be served.

Service by publication, etc

1210. If any owner or claimant named in the petition or order on the commission's own motion resides out of the State or has departed from the State or cannot after due diligence be found within the State, or conceals himself to avoid service, or is a corporation having no managing or business agent, cashier or secretary or other officer upon whom summons may be served, who, after due diligence, can be found within the State, and the fact appears by affidavit to the satisfaction of the commission, and it also appears by such affidavit or by the petition or order on the commission's own motion that a cause

of action exists against such owner or claimant on whom service is to be made and that he is a necessary or proper party to the proceeding, the commission may make an order that the service be made on such owner or claimant by publication of the commission's order to show cause. The order shall direct that the publication be made in a newspaper designated by the commission as likely to give notice to the owner or claimant to be served, and for such time as the commission finds to be reasonable, at least once a week, but publication against an owner or claimant residing out of the State or absent therefrom shall not be less than two months.

If the address of any owner or claimant as stated in the petition or order on the commission's own motion is out of the State, the secretary of the commission shall, within 15 days after the making and filing of the order to show cause, deposit or cause to be deposited a copy of that order, certified under the seal of the commission, with a copy of the petition or order on the commission's own motion attached thereto or made part thereof, in the United States mail, enclosed in a sealed envelope, registered, with postage prepaid, addressed to such owner or claimant at the address specified in the petition or order on the commission's own motion. Personal service of a copy of the order to show cause and of the petition or order on the commission's own motion out of the State is equivalent to publication and deposit in the United States mail.

Notice of hearing

1211. Within 10 days prior to the time set for the first hearing on the petition or order on the commission's own motion, which time shall be not less than 30 days after the filing of the petition or the making of that order, the secretary shall serve or cause to be served upon the petitioner a written notice, specifying the time and place of the hearing. In all respects not in this chapter otherwise provided, service and the proof of service shall be made as provided by the Code of Civil Procedure. Upon the completion of service upon the petitioner or upon any party in interest named in the petition or order, the commission shall have full and complete jurisdiction insofar as such petitioner or party in interest is concerned, to make each finding referred to in this chapter, to fix the just compensation to be paid for the acquisition of or damage to any property or interest therein specified in the petition or order, to designate the party or parties to the proceeding who shall pay such compensation and the owner or claimant to whom such compensation shall be paid, and to make its final order of condemnation. The failure to make service upon any person alleging that he is an owner or claimant or party in interest but not named in the petition or order or to acquire jurisdiction over such person shall in no way affect the jurisdiction of the commission over owners and claimants and parties in interest on whom service has been made.

Amendment of petition or order

1212. The commission at any time subsequent to the filing of the petition, and prior to making and filing its finding of just compensation, may authorize the amendment of the petition, or in case the proceeding is by order on the commission's

own motion may amend the order, by altering or modifying the description of the property or interest therein, or by adding to or deducting from the property or interest therein, or by bringing in any additional party or parties, or in any other respect including jurisdictional allegations.

Hearing and finding

1213. At the time and place specified in the order to show cause, or at such other time and place as, for good cause, is otherwise ordered by the commission, the commission shall proceed to a hearing upon the petition or order on the commission's own motion. When the proceeding has been submitted the commission shall make and file its finding upon the question whether the use to which the property or interest therein is to be applied is a use authorized by law and whether the taking is necessary to such use, and shall make and file its written finding fixing the just compensation to be paid for the property or interest. If the commission finds that severance damages should be paid, the just compensation for such damages shall be found and stated separately. The just compensation shall be fixed by the commission as of the day on which the petition was filed or the order on the commission's own motion was made.

Order re payment

1214. The commission shall also make its order designating the party or parties to the proceeding who shall pay the just compensation so fixed, or any portion thereof, the amounts in which it shall be paid, the times at which it shall be paid, the property or interest therein for which it shall be paid, and the owners and claimants of such property or interest to whom it shall be paid. The commission may prescribe any other terms or conditions with reference to the payment of such compensation as the commission deems proper, including a provision that the money due be paid to the commission to be distributed to the parties entitled thereto.

The party or parties whom the commission designates to pay such compensation or any part thereof are thereupon liable therefor, and may be sued in any court of competent jurisdiction by the party or parties entitled to such compensation as provided in the commission's order. In cases in which the order of the commission authorizing any work to be done under the provisions of this chapter is permissive in character and not mandatory, the commission may prescribe the time within which the party receiving such permission shall elect to proceed and notify the commission thereof, and only in the event such party elects to proceed and so notifies the commission shall any liability arise to pay the compensation or any part thereof under the provisions of this section. When any political subdivision of the State is designated by the commission to pay such compensation or any portion thereof it shall be collectible in the manner provided in Section 1203 for the collection of expenses apportioned by the commission to political subdivisions of the State.

Final order of condemnation

1215. When the just compensation has been paid in accordance with the commission's order, the commission shall make its final order of condemnation which shall describe the

property or interest therein condemned and the purpose of such condemnation. A copy of the order certified under the seal of the commission shall thereupon be filed in the office of the recorder of the county in which the property described is situated, and thereupon the property or interest in or to property described therein shall vest in the parties and for the purposes specified in the order.

Finding of commission. Finality, rehearing, review

1216. The finding of the commission on the question of the necessity for the taking and the finding fixing the just compensation to be paid for any property or interest in or to property under the provisions of Sections 1206 to 1216, inclusive, are final and shall not be subject to modification, alteration, reversal, or review by any court of this State. The provisions of this part with reference to rehearing and review shall be applicable to the findings of the commission made and filed under the provisions of this chapter. Petitions for rehearing shall be filed within 20 days from the date of making and filing the finding as to which a rehearing is desired. If a finding of the commission made and filed under the provisions of this chapter is set aside by the Supreme Court of the State of California, the matter shall be referred back to the commission for further action in a proceeding before the commission, and the commission shall have the right, on taking further action, to consider the entire testimony theretofore taken in the proceeding before the commission as well as such further testimony, if any, as may be presented in connection with such further action.

Alternative procedure

1217. The procedure provided in this chapter shall be alternative and cumulative and not exclusive to the right to pursue any other procedure providing for the acquisition under eminent domain proceedings of property or interest in or to property.

Right to damages

1218. Nothing in this chapter shall entitle any owner or claimant of property and interest in or to property to receive damages when the right to receive such damages does not exist under the laws of this State apart from the provisions of this chapter.

Germane to jurisdiction

1219. The Legislature declares that Sections 1201 to 1205, inclusive, are enacted as germane and cognate parts of and as aids to the jurisdiction vested in the commission for the supervision, regulation, and control of railroad and street railroad corporations in this State, and the Legislature further declares that the authority and jurisdiction thus vested in the commission involve matters of state-wide importance and concern and have been enacted in aid of the health, safety, and welfare of the people of this State.

Same

1220. The Legislature declares that Sections 1206 to 1218, inclusive, are enacted as a germane and cognate part of and as an aid to the jurisdiction of the commission in the supervision and regulation of railroad and street railroad corporations.

CHAPTER 7. VALUATION OF PUBLIC UTILITY PROPERTIES

Valuation by commission

1351. The commission may ascertain for each purpose specified in this part, the value of the property of every public utility in this State and every fact and element of value which in its judgment may or does have any bearing on such value. The commission may make revaluations from time to time and ascertain the value of all additions, betterments, extensions, and new construction to the property of every public utility.

Hearing, notice

1352. For the purpose of ascertaining the matters and things specified in Section 1351, the commission may cause a hearing to be held at such time and place as it may designate. Before any hearing is had, the commission shall give the public utility affected thereby at least 30 days' written notice, specifying the time and place of the hearing, and such notice shall be sufficient to authorize the commission to inquire into the matters designated in Sections 1351 to 1354, inclusive, but this provision shall not prevent the commission from making any preliminary examination or investigation into those matters. All public utilities affected shall be entitled to be heard and may introduce evidence at such hearing. The evidence introduced at such hearing shall be reduced to writing and certified under the seal of the commission.

Findings of fact

1353. The commission may make and file its written findings of fact upon such matters concerning which evidence has been introduced before it as, in its judgment, have bearing on the value of the property of the public utility affected. Such findings shall be subject to review by the Supreme Court of this State in the same manner and within the same time as other orders and decisions of the commission. The findings of the commission so made and filed, when certified under the seal of the commission, shall be admissible in evidence in any action, proceeding, or hearing before the commission or any court in which the commission, the State, or any officer, department, or institution thereof, or any county, city and county, city, or other body politic and the public utility affected may be interested, whether arising under the provisions of this part, or otherwise. Such findings, when so introduced, shall be conclusive evidence of the facts therein stated as of the date therein stated under conditions then existing, and such facts can only be controverted by showing a subsequent change in conditions bearing upon the facts therein determined.

Revaluations, etc

1354. The commission may, from time to time, cause further hearings and investigations to be had for the purpose of making revaluations or ascertaining the value of any additions, betterments, extensions, and new construction made by any public utility subsequent to any prior hearing or investigation, and may examine into all matters which may change, modify, or affect any finding of fact previously made, and may at such time make findings of fact supplementary to those theretofore made. Such hearings shall be had upon the same notice, and be conducted in the same manner, and the findings so made shall

have the same force and effect as is provided in this chapter for original notice, hearing, and findings. Findings made at such supplemental hearings or investigations shall be considered in connection with and as a part of the original findings, except insofar as such supplemental findings change or modify the findings made at the original hearing or investigation.

CHAPTER 8. DETERMINATION OF JUST COMPENSATION FOR ACQUISITION OF UTILITY PROPERTIES

"Lands, property, and rights"

1401. As used in this chapter, "lands, property, and rights" includes a part or portion thereof.

"Political subdivision"

1402. As used in this chapter, "political subdivision" means a county, city and county, city, municipal water district, county water district, irrigation district, public utility district, or any other public corporation.

Proceedings to acquire public utility

1403. Any political subdivision may, at any time, file with the commission either a petition of the first class, setting forth the intention of the political subdivision to acquire under eminent domain proceedings, or otherwise, the lands, property, and rights of any character whatsoever of any public utility or a petition of the second class, setting forth the intention of the political subdivision to initiate such proceedings as may be required under the law governing the political subdivision for the purpose of submitting to the voters of the political subdivision a proposition to acquire under eminent domain proceedings, or otherwise, the lands, property, and rights of any character whatsoever of any public utility.

Petition

1404. Each such petition shall contain the name of the political subdivision appearing as petitioner therein, a description of the lands, property, and rights which the political subdivision intends to acquire, and the names and addresses of all owners and claimants thereof, including each trustee and mortgagee under each deed of trust and mortgage, if known, or a statement that they are unknown. The petition shall pray that the commisison fix the just compensation which shall be paid by the political subdivision, under the law, for such lands, property, and rights. The petition shall be signed in the name of the political subdivision and verified by the chairman or other presiding officer or by the secretary or clerk of the legislative or other governing body of the political subdivision. At the time the petition is filed, the petitioner shall also file with the commission additional copies thereof equivalent in number to three more than the number of owners and claimants named in the petition.

Order to show cause

1405. Upon the filing of the petition the commission shall make its order to show cause. The order shall specify the nature of the proceeding, contain a general description of the lands, property, and rights which petitioner desires to acquire by condemnation or otherwise, and direct the owners and claimants named in the petition, who shall also be named in the order, to appear before the commission at a time and place specified in the

order, to show cause, if any they have, why the commission should not proceed to hear the petition and to fix the just compensation to be paid for the lands, property, and rights.

The order shall direct the secretary of the commission to serve or cause to be served upon each owner and claimant a copy of the order certified under the seal of the commission to which shall be attached a copy of the petition.

Same Service

1406. Service of the order to show cause shall be made in accordance with the provisions of the Code of Civil Procedure or by depositing a copy of the order to show cause certified under the seal of the commission with a copy of the petition attached thereto, in the United States mail, enclosed in a sealed envelope, registered, with postage prepaid, addressed to each of the owners or claimants, at the address specified in the petition.

Same Publication

1407. If any owner or claimant named in the petition resides out of the State or has departed from the State or cannot after due diligence be found within the State, or conceals himself to avoid service, or is a corporation having no managing or business agent, cashier or secretary or other officer upon whom summons may be served, who, after due diligence, can be found within the State, and the fact appears by affidavit to the satisfaction of the commission, and it also appears by such affidavit or by the petition that a cause of action exists against the owner or claimant on whom the service is to be made or that he is a necessary or proper party to the proceeding, the commission shall make an order that the service be made on such owner or claimant by publication of the commission's order to show cause. The order shall direct that the publication be made in a newspaper designated by the commission as likely to give notice to the person to be served, and for such time as the commission finds to be reasonable, at least once a week, but publication against an owner or claimant residing out of the State or absent therefrom shall not be less than two months. If the address of any owner or claimant, as stated in the petition, is out of the State, the secretary of the commission shall, within 15 days after the making and filing of the order to show cause, deposit or cause to be deposited a copy of that order, certified under the seal of the commission, with a copy of the petition attached thereto, in the United States mail, enclosed in a sealed envelope, registered, with postage prepaid, addressed to such owner or claimant at the address specified in the petition. When publication is ordered, personal service of a copy of the order to show cause and of the petition out of the State is equivalent to publication and deposit in the United States mail.

Notice of hearing

1408. Within 10 days prior to the time set for the first hearing on the petition, which time shall be not less than 30 days after the filing of the petition, the secretary of the commission shall serve or cause to be served upon the petitioner a written notice specifying the time and place of the hearing. In all respects not in this chapter otherwise specified, service and the proof of service shall be made as provided by the Code of Civil Procedure. Upon the completion of service upon the peti-

tioner or upon any owner or claimant named in the petition, the commission shall have full and complete jurisdiction over such petitioner, owner, or claimant, with full and complete jurisdiction, insofar as such petitioner, owner, or claimant is concerned, to make each finding referred to in this chapter. The failure to make service upon any person alleging that he is an owner or claimant but not named in the petition shall in no way affect the jurisdiction of the commission over owners and claimants on whom service has been made.

Hearing Costs, evidence

1409. At the time and place specified in the order to show cause, or at such other time and place as, for good cause, is otherwise ordered by the commission, the commission shall proceed to a hearing on the petition. At such times and in such amounts as is directed by the commission, the political subdivision shall pay to the commission all extra costs as determined by the commission, which the commission incurs to comply with the requirements of this chapter, and if such amounts are not paid by the political subdivision as directed by the commission, the commission may suspend further proceedings on the petition. Evidence may be presented by the political subdivision, by each owner or claimant named in the petition, and by the commission.

Amendment of petition

1410. The commission may, at any time subsequent to the filing of the petition, and prior to making and filing its finding as to just compensation, authorize the amendment of the petition by altering or modifying the description of the lands, property, and rights, or by adding to or deducting from the lands, property, and rights, and in each other respect including jurisdictional allegations.

Finding

1411. When the proceeding has been submitted, the commission shall make and file its written finding fixing, in a single sum, the just compensation to be paid by the political subdivision for the lands, property, and rights. If the commission finds that severance damages should be paid, the just compensation for such damages shall be found and stated separately. The just compensation shall be fixed by the commission as of the day on which the petition was filed with the commission.

Proceedings on acceptance

1412. Within 20 days after the commission has made and filed its finding, the owner of the lands, property, and rights may file with the legislative or other governing body of the political subdivision a written stipulation consenting and agreeing to accept the just compensation fixed by the commission. Upon the filing of the stipulation, the political subdivision shall proceed with all due diligence to provide the necessary funds under the law governing the providing of such funds, for paying the just compensation fixed by the commission. Whenever the just compensation has been tendered by the political subdivision, a deed of grant, bargain, and sale conveying the owner's right, title, and interest in and to the lands, property, and rights to the political subdivision shall be executed and delivered by the owner, and the other claimants who have any

right, title, or interest in the property shall execute appropriate instruments conveying or releasing to the political subdivision their respective rights, titles, and interests therein. If the deed or the instruments of conveyance or release are not executed and delivered within 60 days after such tender has been made, the political subdivision may commence an action in a court of competent jurisdiction or proceed under Section 1413.

Proceedings on failure to accept

1413. In the case of a petition of the first class, if the owner does not file the stipulation within such 20 days, the political subdivision, within 60 days after the commission has made and filed its finding, shall commence an action in a court of competent jurisdiction to take such lands, property, and rights, under eminent domain proceedings. In the case of a petition of the second class, if the owner does not file the stipulation within such 20 days, the political subdivision, within 60 days after the commission has made and filed its finding, shall initiate proceedings for the purpose of submitting to its voters a proposition to acquire under eminent domain proceedings the lands, property, and rights. The political subdivision shall not be required, in either case, to delay for more than 20 days after the commission has made and filed its finding, before commencing such further proceedings. In the case of a petition of the second class, if the voters of the political subdivision, as provided by the law governing the political subdivision, vote in favor of any proposition to acquire under eminent domain proceedings, or otherwise, such lands, property, and rights, the political subdivision shall, within 60 days thereafter, commence an action in a court of competent jurisdiction to take such lands, property, and rights, under eminent domain proceedings, unless the owner has filed with the political subdivision a written stipulation consenting and agreeing to accept the just compensation fixed by the commission.

Failure to commence action, etc

1414. If the political subdivision, in a petition of the first class, fails to file such action in a court of competent jurisdiction within such period of 60 days after the commission has made and filed its finding, or if the political subdivision, in a petition of the second class, fails to proceed diligently to submit the proposition to its voters or fails, if its voters have voted in favor of the acquisition of the lands, property, and rights, to file such action in a court of competent jurisdiction within 60 days thereafter, the owner of such lands, property, and rights may file with the commission a verified petition in writing setting forth that fact. The petition may also set forth in detail the expenditures which the owner has necessarily incurred in the proceeding before the commission.

The commission shall thereupon cause written notice, with a copy of the owners' petition attached thereto, to be served upon the political subdivision, to appear before the commission at a time and place specified in the notice, to show cause why an order should not be made by the commission (a) finding that the political subdivision has failed to pursue diligently its rights, (b) determining that the finding as to just compensation shall

no longer be of any force or effect, and (c) determining the reasonable expenditures necessarily incurred by the owner which, in the opinion of the commission, should be assessed against the political subdivision. The time specified in the notice shall be not less than 10 days subsequent to the date of service.

Finding and order of commission

1415. If the commission determines that the political subdivision, in case of a petition of the first class, has failed to commence the action in a court of competent jurisdiction within 60 days after the commission has made and filed its finding of just compensation, or that the political subdivision, in case of a petition of the second class, has failed to proceed diligently to submit the proposition to its voters or has failed, after its voters have voted in favor of the acquisition of the lands, property or rights, to file such action in a court of competent jurisdiction within 60 days thereafter, the commission shall make and file its order declaring that such finding shall no longer be of any force or effect, and make its finding as to the reasonable expenditures necessarily incurred by the owner in the proceeding before the commission, which should be assessed against the political subdivision. The political subdivision shall thereupon be liable to the owner in the amount thus found by the commission, and the owner may thereupon maintain an action against the political subdivision for such amount in any court of competent jurisdiction.

Finding of amount Finality

1416. The finding of the commission fixing the just compensation to be paid by the political subdivision for the lands, property, and rights shall be final and shall not be subject to modification, alteration, reversal, or review by any court of this State. If the court in which the political subdivision has commenced its action, subsequent to the making and filing by the commission of its finding as to just compensation, decides that the political subdivision has the right and power under the law to take the lands, property, and rights, it shall enter a judgment in favor of the complainant in the action, fixing as the just compensation which shall be paid for the taking of the lands, property, and rights, the just compensation fixed by the commission. The judgment may include the allowance of such costs between the parties as is provided for in the law of eminent domain of this State. The judgment of the court insofar as it refers to the just compensation to be paid for the lands, property, and rights, shall be final and shall not be subject to modification, alteration, reversal, or review by any court except as specified in this chapter. The judgment of the court shall include a provision, in substance, that it is subject to modification by reason of such increase or decrease in the just compensation to be paid as may thereafter be certified to the court by the commission, as provided in this chapter.

Petition for change Hearing, notice etc

1417. At any time within 30 days subsequent to the entry of such judgment, the owner of the lands, property, and rights may file with the commission a verified petition in writing, alleging that by reason of expenditures made by the owner subsequent to the date of the filing of the original petition with the

commission, for the purpose of preserving or improving the lands, property, and rights, or by reason of other acts and occurrences subsequent to that date, the just compensation theretofore fixed by the commission should be increased, and praying that the commission make its finding increasing such compensation. At any time within 30 days subsequent to the entry of the judgment, the political subdivision may file with the commission a verified petition in writing, alleging that by reason of loss or destruction of the lands, property, and rights, or by reason of depreciation or deterioration thereof or by reason of other acts and occurrences, subsequent to the date of the filing of the original petition, the just compensation theretofore fixed by the commission should be decreased, and praying that the commission make its finding decreasing the compensation. The commission shall in each instance cause a copy of such petition or petitions to be served upon each party other than the petitioner, who was named as the political subdivision, owner, or claimant in the original proceeding before the commission, together with a written notice specifying the time and place of hearing on such petition or petitions, which time shall be within 45 days after the entry of the judgment by the court, and shall cause written notice of the time and place of the hearing to be served upon each petitioner in such petition or petitions. If both such petitions are filed, the commission may consolidate them for hearing and decision.

Finding

1418. After a hearing, the commission shall make and file its finding fixing, as of the date on which the finding is made and filed, the extent to which the just compensation theretofore fixed should be increased or decreased by reason of the matters alleged in the petition or petitions. If the claim is made that the just compensation theretofore fixed by the commission should be increased by reason of expenditures made by the owner subsequent to the date of the filing of the original petition with the commission for the purpose of preserving or improving the lands, property, and rights the commission may increase the just compensation only to the extent to which the commission determines that such expenditures were beneficial to the lands, property, and rights, and reasonably and prudently made. The finding of the commission fixing the extent to which the just compensation theretofore fixed should be thus increased or decreased shall be final and shall not be subject to modification, alteration, reversal, or review by any court of this State.

Same
Modification of judgment

1419. The commission shall thereupon transmit to the court its finding, certified under the seal of the commission, fixing the extent to which the just compensation theretofore fixed by the commission shall be increased or decreased. The court shall thereupon modify its judgment so as to conform with the finding of the commission. The judgment of the court, as thus modified, insofar as it refers to the just compensation to be paid for the lands, property, and rights, shall be final and shall not be subject to modification, alteration, reversal, or review by any court. The filing of either or both the petitions specified in Sec-

tion 1417 shall not act as a stay of the judgment in condemnation, but upon the payment of the just compensation fixed in the original judgment of condemnation the plaintiff in the action shall be entitled to immediate possession of the lands, property, and rights.

Rehearing, review

1420. The provisions of this part with reference to rehearing and review shall be applicable to the findings of the commission made and filed under the provisions of this chapter. Petitions for rehearing shall be filed within 20 days from the date of making and filing the finding as to which a rehearing is desired. If such finding of the commission is set aside by the Supreme Court of the State of California, the matter shall be referred back to the commission for further action in the proceeding before the commission, and the commission may, in taking further action, consider the entire testimony theretofore taken in the proceeding before the commission as well as such further testimony as may be presented in connection with such further action. Should a writ of review be obtained from the Supreme Court of the State of California, the time within which the political subdivision shall file an action in a court of competent jurisdiction or submit the proposition to its voters shall be extended to not more than 60 days beyond the final decision of the Supreme Court upon that writ.

Alternative procedure

1421. The procedure provided in this chapter shall be alternative and cumulative and not exclusive, and the political subdivision shall continue to have the right to pursue any other procedure providing for the acquisition under eminent domain proceedings of the lands, property, and rights of any public utility. This chapter shall not be construed as repealing any law of this State providing for such eminent domain proceedings.

CHAPTER 8.5. EXCESS RATE ESCHEAT PROCEEDINGS

Toll refund Notice limitation

1501. If the persons or corporations who are entitled, under the provisions of Sections 1761 to 1766, inclusive, to excess money collected by a toll-bridge corporation do not claim the money within six months after the final decision of the Supreme Court, the commission shall cause to be published a notice to the effect that the money is available for refund to the proper claimants. The notice shall state the names of the persons or corporations, if known, who are entitled to the money and the amount due to each person or corporation. The notice shall be published in Los Angeles and San Francisco twice a week for two successive weeks in one newspaper of general circulation published in each city.

The State shall be entitled to all such money, including money which the toll-bridge corporation has unsuccessfully attempted to refund, which is not claimed within six months after the first publication of the notice.

If a judgment of the Supreme Court of this State affirming an order of the commission is stayed on appeal to the Supreme Court of the United States, the provisions of this section shall

take effect upon the final decision of the Supreme Court of the United States if the decision of the Supreme Court of this State is affirmed.

Escheat action

1502. When a period of six months has elapsed after the first publication of the notice, the commission shall notify the Attorney General, who shall bring an action in the Superior Court in and for the County of Sacramento, to have it adjudged that the title to the money is vested in the State. The toll-bridge corporation and any bank in which such money has been impounded shall be made parties.

Service of process, notice

1503. Service of process shall be made by delivery of a copy of the complaint and summons to the president or managing officer of the toll-bridge corporation, and the president or managing officer of any bank holding such money, and by publication once a week for a period of four weeks of a copy of such summons in a newspaper of general circulation published in the county.

The clerk of the court shall issue a notice signed by him, directed to all persons, other than those named as defendants in the action, claiming any interest in the money mentioned in the complaint, and requiring them to appear within 60 days after the first publication of the summons and show cause why it should not be adjudged that title to the money has vested in the State, and notifying them that if they fail to appear and show cause, the State will apply to the court for the relief prayed in the complaint. A copy of the notice shall be published with the copy of the summons. The notice shall show the date of the first publication of the summons and notice and shall set forth the title and number of the action.

Jurisdiction

1504. Upon the completion of the publication of the summons and notice, the court shall have full jurisdiction over the money and the person of every one who has or claims any interest in the money, and shall have full jurisdiction to determine the issues in the action and render an appropriate judgment.

Trial and judgment, excess rate fund

1505. Upon the trial, the court shall hear all the parties who appear in the action. If it is determined that the State is entitled to the excess money collected by the toll-bridge corporation, the court shall render judgment in favor of the State, declaring that title to the money has vested in the State, and commanding the toll-bridge corporation and any bank holding such money forthwith to deposit all such money, less the cost of publication and expenses incurred by the commission, with the State Treasurer. The Treasurer shall credit such money to the excess rate fund, which fund is continued in existence.

Costs

1506. Subsequent to an order of the court made under Section 1505, the commission shall submit to the toll-bridge corporation a statement of the cost of publication and the necessary expenses incurred by the commission in connection with such money. The toll-bridge corporation shall remit this amount to the commission, but not to exceed the amount legally escheatable to the State, and shall pay the remainder of the money into the State Treasury.

Action against State. Procedure, limitations

1507. Within four years after a judgment had under Section 1505, any person who did not appear as a party in the action may file a verified petition in the Superior Court in and for the County of Sacramento to show his claim to any of the money. A copy of the petition shall be served on the Attorney General at least 20 days before the hearing of the petition. The Attorney General shall answer the petition.

The court shall try the issues as issues are tried in civil actions. If it is determined that the person is entitled to any of the excess money paid into the excess rate fund under the judgment, the court shall order the Controller to draw his warrant on the Treasurer for the payment of the amount from the excess rate fund, but without interest or cost to the State. A copy of the order, under the seal of the court, shall be a sufficient voucher for drawing the warrant.

All persons who fail to appear and file their petitions within the time limited in this section, are forever barred.

Disposition of money

1508. When a period of four years has elapsed after a judgment is secured under Section 1505, the State Treasurer shall place the excess money paid into the excess rate fund under the judgment in the State Highway Fund in the State Treasury.

Chapter 9. Hearings and Judicial Review

Article 1. Hearings

Rules of procedure

1701. All hearings, investigations, and proceedings shall be governed by this part and by rules of practice and procedure adopted by the commission, and in the conduct thereof the technical rules of evidence need not be applied. No informality in any hearing, investigation, or proceeding or in the manner of taking testimony shall invalidate any order, decision or rule made, approved, or confirmed by the commission.

Proper complainants, issues

1702. Complaint may be made by the commission of its own motion or by any corporation or person, chamber of commerce, board of trade, labor organization, or any civic, commercial, mercantile, traffic, agricultural, or manufacturing association or organization, or any body politic or municipal corporation, by written petition or complaint, setting forth any act or thing done or omitted to be done by any public utility, including any rule or charge heretofore established or fixed by or for any public utility, in violation or claimed to be in violation, of any provision of law or of any order or rule of the commission. No complaint shall be entertained by the commission, except upon its own motion, as to the reasonableness of any rates or charges of any gas, electrical, water, or telephone corporation, unless it is signed by the mayor or the president or chairman of the board of trustees or a majority of the council, commission, or other legislative body of the city or city and county within which the alleged violation occurred, or by not less than 25 actual or prospective consumers or purchasers of such gas, electricity, water, or telephone service.

Joinder of causes

1703. All matters upon which complaint may be founded may be joined in one hearing, and no motion shall be entertained against a complaint for misjoinder of causes of action or grievances or misjoinder or nonjoinder of parties. In any review by the courts of orders or decisions of the commission the same rule shall apply with regard to the joinder of causes and parties as herein provided. The commission shall not be required to dismiss any complaint because of the absence of direct damage to the complainant.

Service of process

1704. Upon the filing of a complaint, the commission shall cause a copy thereof to be served upon the corporation or person complained of. Service in all hearings, investigations, and proceedings pending before the commission may be made upon any person upon whom a summons may be served in accordance with the provisions of the Code of Civil Procedure, and may be made personally or by mailing in a sealed envelope, registered, with postage prepaid. The commission shall fix the time when and place where a hearing will be had upon the complaint and shall serve notice thereof, not less than 10 days before the time set for such hearing, unless the commission finds that public necessity requires that such hearing be held at an earlier date.

Hearing, order, etc

1705. At the time fixed for any hearing before the commission or a commissioner, or the time to which the hearing has been continued, the complainant and the corporation or person complained of, and such corporations or persons as the commission allows to intervene, shall be entitled to be heard and to introduce evidence. The commission shall issue process to enforce the attendance of all necessary witnesses. After the conclusion of the hearing, the commission shall make and file its order, containing its decision. A copy of such order, certified under the seal of the commission, shall be served upon the corporation or person complained of, or his or its attorney. The order shall, of its own force, take effect and become operative 20 days after the service thereof, except as otherwise provided, and shall continue in force either for a period designated in it or until changed or abrogated by the commission. If the commission believes that an order can not be complied with within 20 days, it may prescribe such additional time as in its judgment is reasonably necessary to comply with the order, and may on application and for good cause shown, extend the time for compliance fixed in its order.

Record of proceedings

1706. A complete record of all proceedings and testimony before the commission or any commissioner on any formal hearing shall be taken down by a reporter appointed by the commission, and the parties shall be entitled to be heard in person or by attorney. In case of an action to review any order or decision of the commission, a transcript of such testimony, together with all exhibits or copies thereof introduced, and of the pleadings, record, and proceedings in the cause, shall constitute the record of the commission, but if the petitioner and the commission stipulate that certain questions alone and a specified portion only of the evidence shall be certified to the Supreme Court

for its judgment, such stipulation and the questions and the evidence therein specified shall constitute the record on review.

Utility as complainant

1707. Any public utility may complain on any of the grounds upon which complaints are allowed to be filed by other parties, and the same procedure shall be adopted and followed as in other cases, except that the complaint may be heard ex parte by the commission or may be served upon any parties designated by the commission.

Modification, rescission of order

1708. The commission may at any time, upon notice to the public utility affected, and after opportunity to be heard as provided in the case of complaints, rescind, alter, or amend any order or decision made by it. Any order rescinding, altering, or amending a prior order or decision shall, when served upon the public utility affected, have the same effect as an original order or decision.

Orders conclusive

1709. In all collateral actions or proceedings, the orders and decisions of the commission which have become final shall be conclusive.

Article 2. Rehearings

Application for rehearing

1731. After any order or decision has been made by the commission, any party to the action or proceeding, or any stockholder or bondholder or other party pecuniarily interested in the public utility affected, may apply for a rehearing in respect to any matters determined in the action or proceeding and specified in the application for rehearing. The commission may grant and hold a rehearing on those matters, if in its judgment sufficient reason is made to appear. No cause of action arising out of any order or decision of the commission shall accrue in any court to any corporation or person unless the corporation or person has made, before the effective date of the order or decision, application to the commission for a rehearing.

Same Content

1732. The application for a rehearing shall set forth specifically the ground or grounds on which the applicant considers the decision or order to be unlawful. No corporation or person shall in any court urge or rely on any ground not so set forth in the application.

Same Time

1733. Any application for a rehearing made 10 days or more before the effective date of the order as to which a rehearing is sought, shall be either granted or denied before the effective date, or the order shall stand suspended until the application is granted or denied. Any application for a rehearing made within less than 10 days before the effective date of the order as to which a rehearing is sought, and not granted within 20 days, may be taken by the party making the application to be denied, unless the effective date of the order is extended for the period of the pendency of the application.

Hearing

1734. If any application for a rehearing is granted without a suspension of the order involved, the commission shall forthwith proceed to hear the matter with all dispatch and shall determine the matter within 20 days after final submis-

sion. If no determination is made within that time, it may be taken by any party to the rehearing that the order involved is affirmed.

Effect of application

1735. An application for rehearing shall not excuse any corporation or person from complying with and obeying any order or decision, or any requirement of any order or decision of the commission theretofore made, or operate in any manner to stay or postpone the enforcement thereof, except in such cases and upon such terms as the commission by order directs.

Order of abrogation, Change Effect

1736. If, after such rehearing and a consideration of all the facts, including those arising since the making of the order or decision, the commission is of the opinion that the original order or decision or any part thereof is in any respect unjust or unwarranted, or should be changed, the commission may abrogate, change, or modify it. The order or decision abrogating, changing, or modifying the original order or decision shall have the same force and effect as an original order or decision, but shall not affect any right or the enforcement of any right arising from or by virtue of the original order or decision unless so ordered by the commission.

Article 3. Judicial Review

Writ of certiorari or review

1756. Within 30 days after the application for a rehearing is denied, or, if the application is granted, then within 30 days after the decision on rehearing, the applicant may apply to the Supreme Court of this State for a writ of certiorari or review for the purpose of having the lawfulness of the original order or decision or of the order or decision on rehearing inquired into and determined. The writ shall be made returnable not later than 30 days after the date of issuance, and shall direct the commission to certify its record in the case to the court. On the return day, the cause shall be heard by the Supreme Court, unless for a good reason shown it is continued.

Scope of review

1757. No new or additional evidence may be introduced in the Supreme Court, but the cause shall be heard on the record of the commission as certified to by it. The review shall not be extended further than to determine whether the commission has regularly pursued its authority, including a determination of whether the order or decision under review violates any right of the petitioner under the Constitution of the United States or of this State. The findings and conclusions of the commission on questions of fact shall be final and shall not be subject to review except as provided in this article. Such questions of fact shall include ultimate facts and the findings and conclusions of the commission on reasonableness and discrimination.

Appearance, judgment

1758. The commission and each party to the action or proceeding before the commission may appear in the review proceeding. Upon the hearing the Supreme Court shall enter judgment either affirming or setting aside the order or decision of the commission. The provisions of the Code of Civil Procedure relating to writs of review shall, so far as applicable and not in

conflict with the provisions of this part, apply to proceedings instituted in the Supreme Court under the provisions of this article.

Jurisdiction in Supreme Court

1759. No court of this State, except the Supreme Court to the extent specified in this article, shall have jurisdiction to review, reverse, correct, or annul any order or decision of the commission or to suspend or delay the execution or operation thereof, or to enjoin, restrain, or interfere with the commission in the performance of its official duties, except that the writ of mandamus shall lie from the Supreme Court to the commission in all proper cases.

Constitutional questions

1760. In any proceeding wherein the validity of any order or decision is challenged on the ground that it violates any right of petitioner under the Constitution of the United States, the Supreme Court shall exercise an independent judgment on the law and the facts, and the findings or conclusions of the commission material to the determination of the constitutional question shall not be final.

Staying of commission's orders

1761. The pendency of a writ of review shall not of itself stay or suspend the operation of the order or decision of the commission, but during the pendency of the writ the Supreme Court in the manner provided in this article in its discretion may stay or suspend in whole or in part the operation of the commission's order or decision.

Same

1762. Except as provided in this section, no order staying or suspending an order or decision of the commission shall be made by the Supreme Court except upon five days' notice and after hearing. If the order or decision of the commission is stayed or suspended the order suspending it shall contain a specific finding based upon evidence submitted to the court and identified by reference thereto, that great or irreparable damage would otherwise result to the petitioner and specifying the nature of the damage, but the Supreme Court may grant a temporary stay restraining the operation of the commission order or decision at any time before such hearing and determination of the application for a stay when, in its opinion irreparable loss or damage would result to petitioner unless such temporary stay is granted. Such temporary stay shall remain in force only until the hearing and determination of the application for a stay upon notice. The hearing of such application for a stay shall be given precedence and assigned for hearing at the earliest practicable day after the expiration of the notice

Temporary stay

1763. No temporary stay shall be granted by the Supreme Court unless it clearly appears from specific facts shown by the verified petition that immediate and irreparable injury, loss, or damage will result to the applicant before notice can be served and hearing had on a motion for a stay as provided in this article. Every such temporary stay shall be endorsed with the date and hour of issuance, shall be forthwith filed in the clerk's office and entered of record, shall define the injury and state why it appears to be irreparable and why the order was granted without notice, and shall by its terms expire within

such time after entry not to exceed 10 days as the court may fix unless within the time so fixed the order is extended for a like period for good cause shown, and the reasons for such extension shall be entered of record. In case a temporary stay is granted without notice the matter of the issuance of a stay shall be set down for hearing at the earliest possible time, and when it comes up for hearing the party obtaining the temporary stay shall proceed with the application for a stay and if he does not do so the court shall dissolve the temporary stay.

Suspending bond, special deposit of collections

1764. In case the order or decision of the commission is stayed or a temporary stay granted, the order of the court shall not become effective until a suspending bond is executed and filed with and approved by the court, payable to the people of the State of California and sufficient in amount and security to insure the prompt payment by the party petitioning for the review, of all damages caused by the delay in the enforcement of the order or decision of the commission and of all money which any person or corporation may be compelled to pay pending the review of the proceedings, for transportation, transmission, product, commodity, or service in excess of the charges fixed by the order or decision of the commission, in case such order or decision is sustained. The court, in case it stays or suspends the order or decision of the commission in any matter affecting rates or classifications, may also in its discretion direct the public utility affected to pay into court from time to time, there to be impounded until the final decision of the case, or into some bank or trust company paying interest on deposits, under such conditions as the court prescribes, all sums of money which it collects from any corporation or person in excess of the sum such corporation or person would have been compelled to pay if the order or decision of the commission had not been stayed or suspended.

Conditional stay

1765. In case the Supreme Court stays any order or decision denying to the utility an increase in any rate or classification, the court may condition such stay or temporary stay so as to permit petitioner to charge a higher rate pending the determination of the review and may attach other reasonable conditions to such stay or temporary stay.

Stay of order lowering rates, etc

1766. In case the Supreme Court stays or suspends any order or decision lowering any rate or classification or stays any order or decision denying petitioner the right to charge an increased rate or classification and as a condition thereof permits the charging of higher rates, the court shall require the public utility affected to keep such accounts, verified by oath as may, in the judgment of the court, suffice to show the amounts being charged or received by such public utility, pending the review, in excess of the charges allowed by the order or decision of the commission, together with the names and addresses of the corporations or persons to whom overcharges will be refundable in case the order or decision of the commission is upheld. The court may from time to time require the petitioner to give additional security, or to increase the sus-

pending bond, whenever in its opinion such action is necessary to insure the prompt payment of the damages and overcharges. If the final decision by the Supreme Court upholds the commission's order or decision, all money which the public utility has collected pending the appeal in excess of that authorized by the order or decision of the commission, together with such interest as may be reasonable, shall be promptly paid to the corporations or persons entitled thereto in the manner prescribed by the court.

Priority of actions and proceedings

1767. All actions and proceedings under this part and all actions or proceedings to which the commission or the people of the State of California are parties in which any question arises under this part, or under or concerning any order or decision of the commission, shall be preferred over, and shall be heard and determined in preference to, all other civil business except election causes, irrespective of position on the calendar. The same preference shall be granted upon application of the attorney of the commission in any action or proceeding in which he is allowed to intervene.

Article 4. Witnesses

Fees, mileage

1791. Each witness who appears by order of the commission or a commissioner shall receive for his attendance the same fees and mileage allowed by law to a witness in civil cases, which shall be paid by the party at whose request the witness is subpenaed. When any witness who has not been required to attend at the request of any party is subpenaed by the commission, his fees and mileage shall be paid from the funds appropriated for the use of the commission in the same manner as other expenses of the commission are paid. Any witness subpenaed except one whose fees and mileage may be paid from the funds of the commission, may, at the time of service, demand the fee to which he is entitled for travel to and from the place at which he is required to appear, and one day's attendance. If such witness demands such fees at the time of service, and they are not at that time paid or tendered, he shall not be required to appear. All fees or mileage to which any witness is entitled under the provisions of this section may be collected by action therefor instituted by the person to whom such fees are payable. No witness furnished with free transportation shall receive mileage for the distance he may have traveled on such free transportation.

Compelling attendance Petition

1792. In case of the refusal of any witness to attend or testify or produce any papers required by a subpena issued by the commission or any commissioner, the commission or the commissioner may file, in the superior court in and for the county, or city and county, in which the proceeding is pending, a petition, setting forth that due notice has been given of the time and place of attendance of the witness, or the production of the papers, and that the witness has been summoned in the manner prescribed in this part and has failed and refused to

attend or produce the papers required by the subpena, or has refused to answer questions propounded to him in the course of the proceeding. The petition shall include a request for an order of the court, compelling the witness to attend and testify or produce the papers before the commission.

Same: Hearing, court order

1793. Upon the filing of the petition the court shall enter an order directing the witness to appear before the court at a time and place fixed in the order and show cause why he has not attended and testified or produced said papers before the commission. The time fixed shall not be more than 10 days from the date of the order. A copy of the order shall be served upon the witness. If it appears to the court that the subpena was regularly issued by the commission or a commissioner, the court shall thereupon enter an order that the witness appear before the commission or commissioner at the time and place fixed in the order, and testify or produce the required papers, and upon failure to obey the order, the witness shall be dealt with as for contempt of court. The remedy provided in this section is cumulative, and shall not be construed to impair or interfere with the power of the commission or a commissioner to enforce the attendance of witnesses and the production of papers, and to punish for contempt in the same manner and to the same extent as courts of record.

Depositions

1794. The commission or any commissioner or any party may, in any investigation or hearing before the commission, cause the deposition of witnesses residing within or without the State to be taken in the manner prescribed by law for like depositions in civil actions in the superior courts of this State and to that end may compel the attendance of witnesses and the production of books, waybills, documents, papers, and accounts.

Immunity

1795. No person shall be excused from testifying or from producing any book, waybill, document, paper, or account in any investigation or inquiry by or hearing before the commission or any commissioner, when ordered to do so, upon the ground that the testimony or evidence, book, waybill, document, paper, or account required of him may tend to incriminate him or subject him to penalty or forfeiture, but no person shall be prosecuted, punished, or subjected to any penalty or forfeiture for or on account of any act, transaction, matter or thing concerning which, under oath, he has testified or produced documentary evidence, but no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony. Nothing herein contained shall be construed as in any manner giving to any public utility immunity of any kind.

CHAPTER 10. OFFICIAL DOCUMENTS AND FEES

Certified copies as evidence

1901. Copies of all official documents and orders filed or deposited according to law in the office of the commission, certified by a commissioner or by the secretary or the assistant secretary under the official seal of the commission to be true

copies of the originals, shall be evidence in like manner as the originals.

Orders, etc., to be in writing

1902. Every order, authorization, or certificate issued or approved by the commission under the following provisions of this part shall be in writing and entered on the records of the commission:

(a) Sections 764 to 767, inclusive.

(b) Sections 815 to 829, inclusive.

(c) Sections 851 to 853, inclusive.

(d) Sections 1001 to 1010, inclusive.

(e) Sections 1201 to 1220, inclusive.

Recording

Any such order, authorization, or certificate, or a copy thereof, or a copy of the record thereof, certified by a commissioner or by the secretary or the assistant secretary under the official seal of the commission to be a true copy of the original, may be recorded in the office of the recorder of any county, or city and county, in which is located the principal place of business of any public utility affected thereby, or in which is situated any property of any such public utility, and such record shall impart notice of its provisions to all persons. A certificate under the seal of the commission that any such order, authorization, or certificate has not been modified, stayed, suspended, or revoked may also be recorded in the same offices in the same manner and with like effect.

Fees for documents

1903. The commission shall charge and collect the following fees:

(a) For copies of papers and records not required to be certified or otherwise authenticated by the commission (except transcripts of testimony, other evidence or proceedings prepared by or under the direction or supervision of the official reporters of the commission), twenty cents ($0.20) for each folio.

(b) For certified copies of official documents and orders filed in its office, twenty-five cents ($0.25) for each folio and one dollar ($1) for every certificate under seal affixed thereto.

(c) For certifying a copy of any report made by a public utility, two dollars ($2).

(d) For each certified copy of the annual report of the commission, one dollar and fifty cents ($1.50).

(e) For certified copies of evidence and proceedings before the commission (except transcripts of testimony, other evidence or proceedings prepared by or under the direction or supervision of the official reporters of the commission), twenty-five cents ($0.25) for each folio.

The commission, subject to the approval of the Department of Finance, may establish and fix the charge to be made and collected by it for transcripts of testimony, other evidence and proceedings taken before the commission, where such transcripts are prepared by or under the direction or supervision of the official reporters of the commission.

Other fees

1904. The commission shall also charge and collect the following fees:

(a) For filing each application for a certificate of public convenience and necessity (except as otherwise provided in Section 1036), or for the mortgage, lease, transfer, or assignment thereof, fifty dollars ($50).

(b) For a certificate authorizing an issue of bonds, notes, or other evidences of indebtedness, one dollar ($1) for each thousand dollars ($1,000) of the face value of the authorized issue or fraction thereof up to one million dollars ($1,000,000), fifty cents ($0.50) for each one thousand dollars ($1,000) over one million dollars ($1,000,000) and up to ten million dollars ($10,000,000), and twenty-five cents ($0.25) for each one thousand dollars ($1,000) over ten million dollars ($10,000,000), with a minimum fee in any case of twenty-five dollars ($25). No fee need be paid on such portion of any such issue as may be used to guarantee, take over, refund, discharge, or retire any bond, note, or other evidence of indebtedness on which a fee has theretofore been paid to the commission. If the commission modifies the amount of the issue requested in any case and the applicant thereupon elects not to avail itself of the commission's authorization, no fee need be paid.

Copies furnished to public officers

1905. No fees shall be charged or collected for copies of papers, records, or official documents, furnished to public officers for use in their official capacity, or for the annual reports of the commission in the ordinary course of distribution, but the commission may fix, with the approval of the Department of Finance, reasonable charges for publications issued under its authority.

Disposition of fees

1906. All fees collected under this chapter shall be paid, except as provided in Chapter 6, Division 2 of this code, at least once each month into the State Treasury to the credit of the General Fund.

(Amended by Stats. 1951, Ch. 881.)

[ORIGINAL SECTION]

1906. All fees collected under this chapter shall be paid at least once each month into the State Treasury to the credit of the General Fund.

CHAPTER 11. VIOLATIONS

Enforcement Duty of Attorney General or district attorneys

2101. The commission shall see that the provisions of the Constitution and statutes of this State affecting public utilities, the enforcement of which is not specifically vested in some other officer or tribunal, are enforced and obeyed, and that violations thereof are promptly prosecuted and penalties due the State therefor recovered and collected, and to this end it may sue in the name of the people of the State of California. Upon the request of the commission, the Attorney General or the district attorney of the proper county or city and county shall aid in any investigation, hearing, or trial had under the provisions of this part, and shall institute and prosecute actions or proceedings for the enforcement of the provisions of the Constitution and statutes of this State affecting public utilities and for the punishment of all violations thereof.

Action by commission

2102. Whenever the commission is of the opinion that any public utility is failing or omitting or about to fail or omit, to do anything required of it by law, or by any order, decision, rule, direction, or requirement of the commission, or is doing anything or about to do anything, or permitting anything or about to permit anything to be done, in violation of law or of any order, decision, rule, direction, or requirement of the commission, it shall direct the attorney of the commission to commence an action or proceeding in the superior court in and for the county, or city and county, in which the cause or some part thereof arose, or in which the corporation complained of has its principal place of business, or in which the person complained of resides, for the purpose of having such violations or threatened violations stopped and prevented, either by mandamus or injunction. The attorney of the commission shall thereupon begin such action or proceeding in the name of the people of the State of California, by petition to such superior court, alleging the violation or threatened violation complained of, and praying for appropriate relief by way of mandamus or injunction.

Same: Procedure

2103. Upon the filing of a petition pursuant to Section 2102, the court shall specify a time, not exceeding 20 days after the service of the copy of the petition, within which the public utility complained of shall answer the petition, and in the meantime the public utility may be restrained. In case of default in answer, or after answer, the court shall immediately inquire into the facts and circumstances of the case. Such corporations or persons as the court deems necessary or proper to be joined as parties, in order to make its judgment, order or writ effective, may be joined as parties. The final judgment in any such action or proceeding shall either dismiss the action or proceeding or direct that the writ of mandamus or injunction issue or be made permanent as prayed for in the petition, or in such modified or other form as will afford appropriate relief. An appeal may be taken to the Supreme Court from such final judgment in the same manner and with the same effect, subject to the provisions of this part, as appeals are taken from judgments of the superior court in other actions for mandamus or injunction.

Action to recover penalties

2104. Actions to recover penalties under this part shall be brought in the name of the people of the State of California, in the superior court in and for the county, or city and county, in which the cause or some part thereof arose, or in which the corporation complained of has its principal place of business, or in which the person complained of resides. Such action shall be commenced and prosecuted to final judgment by the attorney of the commission. In any such action, all penalties incurred up to the time of commencing the action may be sued for and recovered. In all such actions, the procedure and rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. All fines and penalties recovered by the State in any such action, together with the costs thereof,

shall be paid into the State Treasury to the credit of the General Fund. Any such action may be compromised or discontinued on application of the commission upon such terms as the court approves and orders.

Cumulative penalties

2105. All penalties accruing under this part shall be cumulative, and a suit for the recovery of one penalty shall not be a bar to or affect the recovery of any other penalty or forfeiture or be a bar to any criminal prosecution against any public utility, or any officer, director, agent, or employee thereof, or any other corporation or person, or to the exercise by the commission of its power to punish for contempt.

Liability of utilities

2106. Any public utility which does, causes to be done, or permits any act, matter, or thing prohibited or declared unlawful, or which omits to do any act, matter, or thing required to be done, either by the Constitution, any law of this State, or any order or decision of the commission, shall be liable to the persons or corporations affected thereby for all loss, damages, or injury caused thereby or resulting therefrom. If the court finds that the act or omission was wilful, it may, in addition to the actual damages, award exemplary damages. An action to recover for such loss, damage, or injury may be brought in any court of competent jurisdiction by any corporation or person.

No recovery as provided in this section shall in any manner affect a recovery by the State of the penalties provided in this part or the exercise by the commission of its power to punish for contempt.

Residuary penalty

2107. Any public utility which violates or fails to comply with any provision of the Constitution of this State or of this part, or which fails or neglects to comply with any part or provision of any order, decision, decree, rule, direction, demand, or requirement of the commission, in a case in which a penalty has not otherwise been provided, is subject to a penalty of not less than five hundred dollars ($500) nor more than two thousand dollars ($2,000) for each offense.

Separate offense

2108. Every violation of the provisions of this part or of any part of any order, decision, decree, rule, direction, demand, or requirement of the commission, by any corporation or person is a separate and distinct offense, and in case of a continuing violation each day's continuance thereof shall be a separate and distinct offense.

Imputed acts

2109. In construing and enforcing the provisions of this part relating to penalties, the act, omission, or failure of any officer, agent, or employee of any public utility, acting within the scope of his official duties or employment, shall in every case be the act, omission, or failure of such public utility.

Liability of utility employees

2110. Every officer, agent, or employee of any public utility, who violates or fails to comply with, or who procures, aids, or abets any violation by any public utility of any provision of the Constitution of this State or of this part, or who fails to comply with any part of any order, decision, rule, direction, demand, or requirement of the commission, or who procures, aids, or abets any public utility in such violation or non-

compliance in a case in which a penalty has not otherwise been provided for such officer, agent, or employee, is guilty of a misdemeanor and is punishable by a fine not exceeding one thousand dollars ($1,000), or by imprisonment in a county jail not exceeding one year, or by both such fine and imprisonment.

Liability of nonutility corporation

2111. Every corporation, other than a public utility, which violates any provision of this part, or which fails to comply with any part of any order, decision, rule, direction, demand, or requirement, of the commission, in a case in which a penalty has not otherwise been provided for such corporation, is subject to a penalty of not less than five hundred dollars ($500) nor more than two thousand dollars ($2,000) for each offense.

Liability of nonutility corporation employee

2112. Every person who, either individually, or acting as an officer, agent, or employee of a corporation other than a public utility, violates any provision of this part, or fails to comply with any part of any order, decision, rule, direction, demand, or requirement of the commission, or who procures, aids, or abets any public utility in such violation or noncompliance, in a case in which a penalty has not otherwise been provided for such person, is guilty of a misdemeanor, and is punishable by a fine not exceeding one thousand dollars ($1,000), or by imprisonment in a county jail not exceeding one year, or by both such fine and imprisonment.

Contempt of commission

2113. Every public utility, corporation, or person which fails to comply with any part of any order, decision, rule, regulation, direction, demand, or requirement of the commission or any commissioner is in contempt of the commission, and is punishable by the commission for contempt in the same manner and to the same extent as contempt is punished by courts of record. The remedy prescribed in this section does not bar or affect any other remedy prescribed in this part, but is cumulative and in addition thereto.

PART 2. SPECIFIC PUBLIC UTILITIES

CHAPTER 1. FOOD WAREHOUSEMEN ACT

Article 1. General Provisions and Definitions

Short title

2501. This chapter may be cited as the "Food Warehousemen Act."

Purpose of chapter

2502. The Legislature declares that the purpose of this chapter is to safeguard the public against the creation and perpetuation of monopolies, and to foster and encourage competition, by prohibiting unfair and discriminating practices by which fair and honest competition is destroyed. The Legislature further declares that food warehousemen are engaged in a business, tending to monopoly, and that by reason of such monopolistic tendency and by reason of its vital connection with the distribution of public necessities, the business is clothed with a public interest and subject to public regulation

and control for the public welfare as a public utility. This chapter shall be liberally construed in order that its beneficial purpose may be subserved.

Construction

2503. Unless the context otherwise requires, the definitions and general provisions set forth in this article govern the construction of this chapter.

Imputed acts

2504. In construing and enforcing the provisions of this chapter, the act, omission, or failure of any director, agent, employee, or other person acting for or employed by any person or corporation, acting within the scope of his employment, is in every case also deemed to be the act, omission, or failure of the person or corporation, as well as that of the director, officer, agent, employee, or person.

Cumulative remedies

2505. The remedies prescribed in this chapter are cumulative.

Conflict with Part 1

2506. If any conflict arises between this chapter and Part 1 of this division, the latter prevails.

Food warehousemen Regulation

2507. Every food warehouseman doing business in this State is a public utility, and is subject to the jurisdiction, control, and regulation of the commission.

No food warehousemen shall engage in the storage of food commodities in the State, except in accordance with the provisions of this chapter.

"Food warehouseman"

2508. "Food warehouseman" includes every person, or corporation, their lessees, trustees, receivers or trustees appointed by any court whatsoever owning, controlling, operating, or managing any building, structure, warehouse, elevator, or plant in which food commodities, regularly received from the public generally, are stored for compensation, including cold storage plants and refrigerating plants, but not including private homes, hotels, restaurants, or exclusively retail establishments, or others not storing articles of food for other persons for compensation. Every person, or corporation controlling, operating, or managing any building, structure, warehouse, elevator, or plant as aforesaid, is deemed to be engaged in the storage of food commodities within the meaning of this chapter.

"Corporation"

2509. "Corporation" includes a corporation, a company, an association, and a joint stock association.

"Person"

2510. "Person" includes an individual, a firm, and a copartnership.

"Food commodities"

2511. "Food commodities" means all products, stuffs, preparations, substances, or articles which are customary or proper for food for human beings, and includes meat and meat products, fruit, vegetables, fresh fish, shellfish, game, poultry, eggs, butter, cheese, and milk.

Article 2. Scope of Regulation

Unlawful acts Food warehousemen

2531. It is unlawful for any food warehouseman, doing business in the State:

(a) To discriminate or to attempt to discriminate between persons or corporations offering food commodities for storage or

desiring to avail themselves of the warehousing or storage facilities afforded by the food warehouseman.

(b) To accept food commodities from any person or corporation at rates or charges in excess of rates or charges exacted or received from other persons or corporations for the same or substantially similar warehousing or storage service.

(c) To grant, allow, or deduct from the rates or charges exacted or received for warehousing or storage service from any person or corporation any rebate, discount, deduction, concession, refund, or remittance not granted and allowed to all other persons or corporations under the same or substantially similar circumstances and conditions.

(d) To make or give, or to attempt to make or give, any preference or advantage to any person or corporation not made or given to every other person or corporation.

(e) To discriminate or to show preference, or to attempt to discriminate or to show preference, between persons or corporations offering food commodities for storage by any scheme of rebates, discounts, deductions, concessions, refunds, remittances, collateral contracts, discriminating charges, discriminating rates, or in the service or facilities afforded, or by any other device whatsoever.

(f) To monopolize, or to combine, or conspire with others to monopolize in any locality the business of storing food commodities by any of the practices or devices enumerated in this section.

Same Others

2532. It is unlawful for any person or corporation to solicit, accept, receive, or attempt to obtain from any food warehouseman any rebate, discount, deduction, concession, refund, or remittance, or to solicit, accept, receive, or attempt to obtain from any food warehouseman, any preference, or advantage, either in rates or charges, or in service or facilities afforded.

Power of commission

2533. The commission may:

(a) Determine any fact or question arising under this article.

(b) After hearing, by appropriate order enforce the provisions of this article.

(c) Establish from time to time by rule or order such exceptions from the operation of the prohibitions of this article as it considers just and reasonable.

Illegal contracts

2534. Every contract, expressed or implied, made by any person or corporation in violation of the provisions of this article or of Article 3 of this chapter, is illegal and utterly void and no recovery thereon shall be had.

Article 3. Rates

Schedules Filing

2551. Every food warehouseman doing business in the State shall file with the commission within such time and in such form as the commission designates, schedules showing all rates and charges, which are in force for warehousing and storage services of every description, including sorting, handling, weighing, elevating, and packing charges, and all charges

directly or indirectly connected with such services, together with all rules which in any manner affect or relate to rates or charges, and showing plainly when they became effective. The rates shall be uniform in their operation and shall apply with equal force and effect to all persons or corporations dealing with the food warehouseman.

Same Copies

2552. Every food warehouseman doing business in the State shall print and keep open to public inspection at each building, structure, warehouse, elevator, or plant maintained by him in this State copies of the schedules filed with the commission pursuant to Section 2551.

Same Order

2553. The commission after hearing may fix and determine any rate, charge, or rule, and prescribe by order such changes in the form of the schedules referred to in this article as it finds to be just and reasonable.

Same Change

2554. Unless the commission otherwise orders, no change shall be made by any food warehouseman in any rate or charge, or in any rule affecting rates or charges, except by permission of the commission after 30 days notice to the commission and to the public as provided in this article. The notice shall be given by filing with the commission and keeping open to public inspection, as provided in this article, new schedules stating plainly the change or changes to be made in the schedule or schedules then in force, and the time when the change or changes go into effect. The commission, for good cause shown, may allow changes without requiring the 30 days notice, by an order specifying the changes to be made, the time when they shall take effect, and the manner in which they shall be filed and published.

Condition

2555. No food warehouseman shall engage in the business of storing food commodities unless the rates and charges upon which they are stored are filed and open to public inspection as provided by this article.

Prohibited acts

2556. No food warehouseman shall:

(a) Refund or remit in any manner or by any device, any portion of the rates or charges filed with the commission.

(b) Demand, collect, or receive, directly or indirectly from any person or corporation, any different sum for warehousing or storage services than the rates and charges filed with the commission.

(c) Make, directly or indirectly, any charge for services not shown by the schedule filed with the commission.

Same Others

2557. No person, or corporation shall solicit, accept, receive, or attempt to obtain from any food warehouseman any rate or charge not filed with the commission.

Power of commission

2558. The commission may:

(a) Determine any fact or question arising under this article.

(b) After hearing, by appropriate order, enforce the provisions of this article.

(c) Establish from time to time by rule or order such exceptions from the operation of the prohibitions of this article as it considers just and reasonable.

Article 4. Proceedings

Application of Part 1

2571. In all respects in which the commission has power and authority under the provisions of Articles 2 or 3 of this chapter, applications and complaints on the commission's own motion or otherwise may be made and filed with the commission, process issued, hearings held, opinions, orders, and decisions made and filed, petitions for rehearing filed and acted upon, and petitions for writs of review or mandate filed with the Supreme Court of the State and considered and disposed of by that court, in the manner, under the conditions, and subject to the limitations, and with the effect specified in Part 1 of this division.

Action for treble damages Attorney General

2572. Whenever the Attorney General of the State has reasonable grounds to believe that any person or corporation has knowingly accepted or received from any food warehouseman, directly or indirectly, any rebate, discount, deduction, concession, refund, or remittance from the rates or charges filed with the commission, he shall prosecute a civil action in the name of the people of the State of California in the proper court to collect three times the total sum of such rebates, discounts, deductions, concessions, refunds, or remittances so accepted or received within three years prior to the commencement of the action.

Same Others

2573. Any person or corporation may maintain an action to enjoin a continuance of any act in violation of Articles 2 or 3 of this chapter or of any order or rule of the commission made pursuant to those articles, and, if injured thereby, for the recovery of damages in an amount equal to three times the amount of actual damages sustained. If in the action, the court finds that the defendant is violating Articles 2 or 3 of this chapter, or any order or rule of the commission, made pursuant to those articles, it shall enjoin the defendant from a continuance of the violation. It is not necessary that the plaintiff allege or prove actual damage.

Penalty

2574. Any person or corporation who violates Article 2 or 3 of this chapter, or any order or rule of the commission made pursuant to those articles, or who procures, aids, or abets any person or corporation in any such violation, is guilty of a misdemeanor, and upon conviction thereof, is, if a person, punishable by a fine of not exceeding one thousand dollars ($1,000), or by imprisonment in a county jail not exceeding six months or by both such fine and imprisonment, and, if a corporation, by a fine not exceeding three thousand dollars ($3,000).

Chapter 2. Water Companies

Public utilities

2701. Any person, firm, or corporation, their lessees, trustees, receivers or trustees appointed by any court whatsoever, owning, controlling, operating, or managing any water system within this State, who sells, leases, rents, or delivers water to any person, firm, corporation, municipality, or any other political subdivision of the State, whether under contract

or otherwise, is a public utility, and is subject to the provisions of Part 1 of Division 1 and to the jurisdiction, control, and regulation of the commission, except as otherwise provided in this chapter.

Same

2702. Any corporation or association organized for the purpose of delivering water solely to its stockholders or members at cost which delivers water to others than its stockholders or members, or the State or any department or agency thereof or any school district, for compensation, becomes a public utility and is subject to Part 1 of Division 1 and to the jurisdiction, control, and regulation of the commission.

Same

2703. Any corporation or association which is organized both for the purpose of delivering water to its stockholders or members at cost and to persons, firms, corporations, municipalities, or other political subdivisions of the State in addition thereto, is a public utility and is subject to the provisions of Part 1 of Division 1 and to the jurisdiction, control, and regulation of the commission.

Exception

2704. Any owner of a water supply not otherwise dedicated to public use and primarily used for domestic purposes by him or for the irrigation of his lands, who (a) sells or delivers the surplus of such water for domestic purposes or for the irrigation of adjoining lands, or (b) in an emergency water shortage sells or delivers water from such supply to others for a limited period not to exceed one irrigation season, or (c) sells or delivers a portion of such water supply as a matter of accommodation to neighbors to whom no other supply of water for domestic or irrigation purposes is equally available, is not subject to the jurisdiction, control, and regulation of the commission.

Same

2705. Any corporation or association which is organized for the purpose solely of delivering water to its stockholders or members at cost, and which delivers water to no one except its stockholders or members, or to the State or any agency or department thereof, or to any school district, at cost, is not a public utility, and is not subject to the jurisdiction, control or regulation of the commission.

Same

2706. Any person, firm, or corporation, their lessees, trustees, receivers or trustees appointed by any court whatsoever, who sells or delivers water exclusively to a water conservation district organized under the laws of the State or who leases or otherwise permits the use of ditches or other water transmission facilities exclusively by such district is not a public utility within the meaning of this chapter. No portion of the works, property, or water rights of any such parties shall be deemed dedicated to a public use by reason of selling or delivering water to a water conservation district.

Proceedings to determine status

2707. For the purpose of determining the status of any person, firm, or corporation, their lessees, trustees, receivers or trustees appointed by any court whatsoever, owning, controlling, operating, or managing any water system or water supply within

this State, the commission may hold hearings and issue process and orders in like manner and to the same extent as provided in Part 1 of Division 1, and the findings and conclusions of the commission on questions of fact arising under this chapter are final and not subject to review, except as provided in Part 1 of Division 1.

Finding of capacity service

2708. Whenever the commission, after a hearing had upon its own motion or upon complaint, finds that any water company which is a public utility operating within this State has reached the limit of its capacity to supply water and that no further consumers of water can be supplied from the system of such utility without injuriously withdrawing the supply wholly or in part from those who have theretofore been supplied by the corporation, the commission may order and require that no such corporation shall furnish water to any new or additional consumers until the order is vacated or modified by the commission. The commission, after hearing upon its own motion or upon complaint, may also require any such water company to allow additional consumers to be served when it appears that service to additional consumers will not injuriously withdraw the supply wholly or in part from those who theretofore had been supplied by such public utility.

Statement of area supplied

2709. The commission may require any water corporation to file with the commission a statement in writing defining and describing the lands and territory to be supplied by the corporation with water.

Inadequate service

2710. When it appears from (a) the statement required by Section 2709, (b) the articles of incorporation of any water corporation, or (c) any notice of appropriation of water required by law, that a water corporation has undertaken to supply more consumers or a greater number of acres than it can adequately supply, the commission may require the corporation to limit the number of consumers or acres of land which it has undertaken to supply or which is set out in its articles of incorporation or notices of appropriation to such a limited number of consumers or acres of land as the commission finds, after hearing, that the water corporation may adequately supply.

Prior consumers, ratable apportionment

2711. Section 2710 does not apply to territory or consumers which have once been served by the corporation. As between consumers who have been voluntarily admitted to participate by the corporation in its supply of water or required to be supplied by an order of the commission, in times of water shortage the corporation shall give no priority or preference but shall apportion its supply ratably among its consumers.

"Whether under contract or otherwise"

2712. "Whether under contract or otherwise" as used in Section 2701 is not to be construed as authorizing a contract by a person or corporation defined in this chapter as a public utility which in anywise deprives the State or the commission or other competent authority of power to regulate the rates and service of any such public utility.

PART 3. SURRENDER OF MUNICIPAL CONTROL

CHAPTER 1. SURRENDER OF CONTROL BY MUNICIPAL CORPORATIONS

Article 1. General Provisions and Definitions

Retention or surrender of control

2901. Any municipal corporation may retain or surrender to the commission the powers of control vested in it to supervise and regulate the relationship between any one or more classes of public utilities, and their present or prospective customers, consumers, or patrons, and, if it has retained such powers over any class of public utilities, may thereafter surrender such powers to the commission.

Powers affecting health, convenience, and safety of public

2902. This chapter shall not be construed to authorize any municipal corporation to surrender to the commission its powers of control to supervise and regulate the relationship between a public utility and the general public in matters affecting the health, convenience, and safety of the general public, including matters such as the use and repair of public streets by any public utility, the location of the poles, wires, mains, or conduits of any public utility, on, under, or above any public streets, and the speed of common carriers operating within the limits of the municipal corporation.

Construction

2903. Unless the context otherwise requires, the definitions and general provisions set forth in this article govern the construction of this chapter.

"Municipal corporation"

2904. "Municipal corporation" means a city and county or incorporated city.

"Legislative body"

2905. "Legislative body" means the board of supervisors, municipal council, commission, or other legislative or governing body of a municipal corporation.

"Powers of control"

2906. "Powers of control" means all powers of control vested in a municipal corporation to supervise and regulate (a) the relationship between public utilities and their present or prospective customers, consumers, or patrons. The term does not include the powers of control vested in any municipal corporation to supervise and regulate the relationship between such public utilities and the general public in matters affecting the health, convenience, and safety of the general public, including matters such as the use and repair of public streets by any public utility, the location of the poles, wires, mains, or conduits of any public utility, on, under, or above any public streets, and (b) the speed of common carriers operating within the limits of the municipal corporation.

Other terms

2907. "Railroad corporation," "street railroad corporation," "common carrier," "gas corporation," "electrical corporation," "telephone corporation," "telegraph corporation," "water corporation," "wharfinger," "warehouseman," and "public utility" have the same meaning as is given to them, respectively, in Part 1 of Division 1.

Article 2. Petition for Election

Ordinance of intention, petition

2931. The question whether any municipal corporation shall retain its powers of control respecting one or more classes of public utilities may be submitted to the qualified electors of the municipal corporation, as provided in this chapter, either at a general municipal election or at a special election.

The question may be submitted, either (a) in pursuance of an ordinance of intention adopted by a vote of three-fifths of all the members of the legislative body of the municipal corporation, declaring that the public interest requires the submission of, and that it is the intention of the legislative body to submit the question to a vote of the qualified electors of the municipal corporation or (b) in pursuance of a petition of qualified electors of the municipal corporation.

Same Content

2932. The ordinance of intention or the petition, as the case may be, shall contain the propositions proposed to be so submitted, as set forth in Section 2965.

Number of signatures, form

2933. The petition shall be signed by qualified electors of the municipal corporation, equal in number to 10 per centum of the qualified electors, computed upon the total number of votes cast in the municipal corporation for all candidates for Governor at the last preceding general election prior to the filing of the petition at which a governor was elected. The petition may consist of separate papers, but if any paper consists of more than one sheet it shall be securely fastened together at the top. The signatures need not all be appended to one sheet of paper. Each paper shall have attached, at the bottom of the last sheet, the affidavit of a qualified elector of the municipal corporation, stating that all of the signatures on each sheet were made in his presence, and that to the best of his knowledge and belief each signature is a genuine signature of the person whose name purports to be subscribed.

Filing, examination

2934. The petition shall be filed with the clerk of the legislative body of the municipal corporation. Within 10 days from the date of the filing of the petition, the clerk shall examine the petition and ascertain from the record of the registration of the electors of the city and county, or of the county in which the municipal corporation is situated, whether the petition is signed by the requisite number of qualified electors. Upon request of the clerk, the legislative body of the municipal corporation shall authorize him to employ persons specially to assist him in the work of examining the petition and shall provide for their compensation.

Certification

2935. Upon completion of the examination, the clerk shall forthwith attach to the petition his certificate, properly dated, showing the result of the examination. If from the examination, the clerk finds that the petition is signed by the requisite number of qualified electors, he shall certify that the petition is sufficient. If, from the examination, he finds that the petition is not signed by the requisite number of qualified electors, he shall certify to the number of qualified electors signing the petition

and to the number of qualified electors required to make the petition sufficient.

Supplemental petition

2936. If, by the certificate of the clerk, the petition is shown to be insufficient, it may be amended by filing a supplemental petition within 10 days from the date of the certificate.

Same Examination

2937. The clerk shall, within 10 days from the filing of the supplemental petition, make a like examination of the supplemental petition and certify to the result of the examination as provided in Section 2936. If the certificate of the clerk shows any petition, or any petition together with a supplemental petition, to be insufficient, it shall be retained by him and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the clerk, any petition, or any petition together with a supplemental petition, is shown to be sufficient, the clerk shall forthwith present the petition to the legislative body of the municipal corporation.

Sufficiency Review

2938. The sufficiency or insufficiency of the petition shall not be subject to review by the legislative body. After the election held in pursuance of the petition, the sufficiency of the petition in any respect shall not be subject to judicial review or be otherwise questioned.

Election commission, registrar of voters

2939. In any city and county having a board of election commissioners and a registrar of voters, the clerk of the legislative body thereof shall immediately upon the filing of any petition with him, transmit the petition to the board of election commissioners, who shall forthwith deliver the petition to the registrar of voters, who shall perform all the duties herein required to be performed in other municipal corporations by the clerk of the legislative body respecting the examination and certification of the petition. The registrar of voters shall, upon making his certificate, forthwith return the petition to the clerk, who shall thereupon present the petition and the attached certificate to the legislative body of the municipal corporation as provided in this article.

Article 3. Elections

Ordinance

2961. Upon the adoption of an ordinance of intention, or the presentation of a petition, as provided in Article 2, the legislative body of the municipal corporation shall, by ordinance, order the holding of a special election for the purpose of submitting to the qualified electors of the municipal corporation the propositions set forth in the ordinance of intention or in the petition, as the case may be, or the legislative body shall, by ordinance, order the submission of the propositions at a general municipal election.

Time

2962. A special election shall be held not less than 20 days nor more than 60 days after the adoption of the ordinance of intention, or the presentation of the petition to the legislative body, except that if a general municipal election occurs in the

municipal corporation not less than 20 days nor more than 60 days after the adoption of the ordinance of intention or the presentation of the petition to the legislative body, the propositions may be submitted at the general municipal election, in the same manner as other propositions are required by law to be submitted at general municipal elections in the municipal corporation.

Special election

2963. Every special election held in any municipal corporation under the provisions of this chapter, shall be called by the legislative body thereof, by ordinance, which shall specify the propositions to be submitted at the election and the date thereof, and, where provision is not otherwise made by law, shall establish the election precincts and designate the polling places, and the names of the election officers for each precinct.

Publication

2964. The ordinance shall, prior to the election, be published five times in a daily newspaper printed and published in the municipal corporation, or twice in a weekly newspaper printed and published therein, if there is no such daily newspaper If no daily or weekly newspaper is printed and published in the municipal corporation, the clerk of the legislative body shall post a copy of the ordinance in three public places in the municipal corporation at least 10 days prior to the election

Ballots

2965. The ballots to be used at any general municipal election or at any special election, at which is submitted the question whether a municipal corporation shall retain its powers of control respecting public utilities shall have printed thereon, in addition to the other matters required by law, such of the following propositions as are specified in the ordinance of intention or the petition:

"Proposition No. 1. Shall _____ (name of municipal corporation) retain its powers of control over railroad corporations?"

"Proposition No. 2. Shall _____ (name of municipal corporation) retain its powers of control over street railroad corporations?"

"Proposition No. 7. Shall _____ (name of municipal corporation) retain its powers of control over telegraph corporations?"

"Proposition No. 8. Shall _____ (name of municipal corporation) retain its powers of control over water corporations?"

"Proposition No. 9. Shall _____ (name of municipal corporation) retain its powers of control over wharfingers?"

"Proposition No. 10. Shall _____ (name of municipal corporation) retain its powers of control over warehousemen?"

Opposite each such proposition to be voted upon, and to the right thereof, the words "Yes" and "No" shall be printed on separate lines, with voting squares. Any voter desiring to vote in favor of the retention of the powers of control of the municipal corporation respecting any particular class of public utility, shall stamp a cross (×) in the voting square after the printed word "Yes" opposite the proposition as to such class, and any voter desiring to vote against the retention of such powers of the municipal corporation respecting any particular class of public utility, shall stamp a cross (×) in the voting square after the printed word "No" opposite such proposition.

Special election Canvass

2966. If the propositions specified in Section 2965 are submitted at a special election in any municipal corporation, the legislative body or other body or board charged with the duty of canvassing the returns and declaring the result of elections in the municipal corporation, shall meet at their usual place of meeting on the first Monday after the election to canvass the returns and to declare the result thereof.

Declaration of result

2967. Immediately upon the completion of the canvass of the returns of any special or general municipal election at which the propositions specified in Section 2965 were submitted, the legislative body or other body or board charged with the duty shall make an order declaring the result of the election upon such propositions and shall cause the results to be entered upon its minutes. The order shall show the total number of votes cast upon each proposition, and the number of votes cast respectively in favor of and against each proposition.

2968. If it appears from the result of the election, as so declared, that a majority of the qualified electors of the municipal corporation have voted to retain the powers of control of the municipal corporation respecting any particular class of public utility, the municipal corporation is deemed to have elected to retain the powers of control respecting such class of public utility, and such powers shall be exercised by the municipal corporation until they are surrendered

Majority vote to surrender powers

2969. If it appears from the result of the election, as so declared, that a majority of the qualified electors voted not to retain the powers of control respecting any class of public utility, the municipal corporation is deemed to have elected not to retain the powers of control, and the powers of control shall thereafter vest in and be exercised by the commission.

Entry, certification, filing

2970. Immediately upon the entry of the order declaring the result of the election, the clerk of the legislative body or the registrar of voters of any municipal corporation having a board of election commissioners and a registrar of voters, shall make

copies, in duplicate, of the order, and shall attach to each copy his certificate under the seal, if any, of the municipal corporation, or of the board of election commissioners, certifying that it is a true and correct copy of the order. The clerk or registrar of voters, as the case may be, shall forthwith file one copy in the office of the commission and the other in the Office of the Secretary of State.

Vesting of power

2971. Immediately upon the filing of a certified copy of the order in the office of the commission, the powers of control theretofore vested in the municipal corporation over any class or classes of public utilities which a majority of the qualified electors of the municipal corporation voting thereon have voted not to retain, as shown by the order, thereupon vests in and shall be exercised by the commission.

Subsequent surrender Election

2972. Any municipal corporation which has retained the powers of control vested therein respecting any class or classes of public utilities may thereafter surrender its powers of control as to such class or classes of public utilities at a general municipal election, or at a special election called for that purpose.

Same Ballot

2973. The ballots to be used at the election shall have printed thereon, in addition to the other matters required by law, separate propositions as to each class of public utilities as to which the municipal corporation may retain its powers of control and as to which it is desired to vote. As to each of such classes of public utilities, and in addition to the other matters required by law to be printed thereon, a proposition shall be printed on the ballot to be used at the election in substantially the following form: "Shall _____ (name of municipal corporation) surrender its powers of control over _____ (here insert class of public utility) to the Public Utilities Commission?" Opposite each such proposition to be voted upon, and to the right thereof, the words "Yes" and "No" shall be printed on separate lines, with voting squares. Any elector desiring to vote to surrender the powers of control of the municipal corporation over any class of public utility specified on the ballot, shall stamp a cross (X) in the voting square opposite the printed word "Yes," after the proposition as to such class and any elector desiring to vote not to surrender the powers of control of such municipal corporation over such class of public utility, shall stamp a cross (X) in the voting square opposite the printed word "No" after the proposition as to such class.

Effect of result

2974. The provisions of this chapter, insofar as applicable, shall govern elections called, conducted, and held under the provisions of this article and general municipal elections at which the propositions to surrender control of public utilities are submitted. If it appears from the result of the election declared as provided in this article, that a majority of the qualified electors of a municipal corporation have voted to surrender the powers of control of the municipal corporation respecting any particular class of public utility, the municipal

corporation is deemed to have surrendered its powers of control as to such class of public utility to the commission, and such powers shall thereafter vest in and be exercised by the commission, as provided by law, upon the filing, in the office of the commission, of a certified copy of the order declaring the result of the election. If it appears from the result of the election, as declared, that a majority of the qualified electors have voted not to surrender the powers of control respecting any particular class of public utility, such powers of control shall continue in the municipal corporation. Such powers of control may thereafter be surrendered by the municipal corporation at any subsequent election at which the question of surrender may again be submitted under the provisions of this chapter.

Subsequent elections

2975. The holding of a special election, or the submission of propositions at any general municipal election, under any of the provisions of this chapter, shall not be construed to preclude the holding of a subsequent special election or the subsequent submission of propositions at a general municipal election, on the question of the retention or surrender by a municipal corporation of its powers of control respecting any class of public utilities. However, not more than one such special election shall be held within any period of 12 months.

Law applicable to elections

2976. Except as otherwise in this chapter provided, the holding and conducting of elections pursuant to this chapter, the form of the ballots used, the opening and closing of the polls, the canvass of the returns, and the declaring of the result shall conform to such laws as are applicable to special municipal elections held in the municipal corporation affected.

Chapter 5. Motor Transportation Brokers

Article 1. General Provisions and Definitions

DIVISION 3. PUBLIC UTILITY FRANCHISES BY LOCAL GOVERNMENTS

CHAPTER 1. FRANCHISE PROVISIONS IN GENERAL

Article 1. Manner of Granting

Scope of article

6001. Every franchise or privilege to erect or lay telegraph or telephone wires, to construct or operate street or interurban railroads upon any public street or highway, to lay gas pipes for the purpose of carrying gas for light, heat, or power, to erect poles or wires for transmitting electricity for light, heat, or power, along or upon any public street or highway, or to exercise any other privilege whatever proposed to be granted by the governing or legislative body of any county, city and county, or city shall be granted upon the conditions in this article provided, and not otherwise, except when such franchises are granted pursuant to Chapters 2 or 3 of this division.

This article does not apply to franchises or privileges for steam railroads, or telegraph or telephone lines doing an interstate business, or to renewals of franchises for piers, chutes, or wharves.

Other terms and conditions

6002. The grantor may, in such a franchise, impose such other and additional terms and conditions not in conflict with this article, whether governmental or contractual in character, as in the judgment of the legislative body thereof are to the public interest.

Restrictions

6003. No clause or condition of any kind shall be inserted in any franchise or grant offered or sold under the terms of this article which shall directly or indirectly restrict free and open competition in bidding therefor, and no clause or provision shall be inserted in any franchise offered for sale, which shall in anywise favor one person, firm, or corporation, as against another, in bidding for the purchase thereof.

Application

6004. An applicant for a franchise or privilege shall file with the governing or legislative body of the county or municipality an application, and thereupon that body shall, in its discretion, advertise the fact of the application, together with a statement that it is proposed to grant the franchise or privilege, in one or more newspapers of the county, city and county, or city wherein the franchise or privilege is to be exercised.

Advertisement for bids

6005. The advertisement shall state that bids will be received for the franchise and that it will be awarded to the highest bidder. The advertisement shall be published once a day for 10 successive days, or as often during that period as the paper is published, if it is a daily newspaper. If there is no daily newspaper published in the county, city and county, or city, it shall be published in a weekly newspaper once a week for four successive weeks. In either case the full publication shall be completed not less than 20 nor more than 30 days before any further action can be taken thereon.

6006. The publication shall state the character of the franchise or privilege proposed to be granted, the term for which it is granted, and, if it is for a street railroad, the route to be traversed; that sealed bids therefor will be received up to a certain hour and day named therein, and that the successful bidder and his assigns shall during the life of the franchise pay to the county or municipality two percent (2%) of the gross annual receipts of the grantee arising from the use, operation, or possession of the franchise. Same Content

6007. The advertisement shall also contain a statement that the franchise will be struck off, sold, and awarded to the person, firm, or corporation making the highest cash bid therefor; that at the time of the opening of the bids any responsible person, firm, or corporation present or represented may bid for the franchise or privilege a sum not less than 10 percent above the highest sealed bid therefor, and the bid so made may be raised not less than 10 percent by any other responsible bidder and the bidding may so continue until the franchise is finally struck off, sold, and awarded to the highest bidder therefor in lawful money of the United States. Same Content

6008. Each sealed bid shall be accompanied with cash or a certified check payable to the treasurer of the county or municipality for the full amount of the bid, and no sealed bid shall be considered unless the cash or check is enclosed therewith. The successful bidder shall deposit at least 10 percent of the amount of his bid with the clerk of the county or municipality before the franchise is struck off to him. If he fails to make the deposit immediately his bid shall not be received, and is void, and the franchise shall then and there be again offered for sale to the bidder who makes the highest cash bid therefor, subject to the same conditions as to deposit. This procedure shall be had until the franchise is struck off, sold, and awarded to a bidder who makes the necessary deposit of at least 10 percent of the amount of his bid. Deposit with bid

6009. The successful bidder shall deposit with the clerk of the county or municipality, within 24 hours of the acceptance of his bid, the remaining 90 percent of the amount thereof. If the bidder fails to deposit with the clerk of the county or municipality the remaining 90 percent of his bid within 24 hours after its acceptance, the award to him of the franchise shall be set aside, the deposit made by him shall be forfeited, and no further proceedings for a sale of the franchise shall be had unless it is readvertised and again offered for sale in the manner provided in this article. Payment of balance, forfeiture

6010. The successful bidder for any franchise or privilege struck off, sold, and awarded under this article shall file a bond running to the county, city and county, or city, with at least two good and sufficient sureties approved by the governing body, in a penal sum by it prescribed and set forth in the advertisement for bids, and conditioned that such bidder shall well and truly observe, fulfill, and perform each term and Bond

condition of the franchise, and that in case of any breach of condition of the bond the whole amount of the penal sum therein named shall be deemed to be liquidated damages, and shall be recoverable from the principal and sureties upon the bond.

The bond shall be filed with the governing body within five days after the franchise is awarded, and upon the filing and approval of the bond the franchise shall be granted by ordinance to the person, firm, or corporation to whom it has been struck off, sold, or awarded. If the bond is not so filed, the award of the franchise shall be set aside, any money paid therefor shall be forfeited, and the franchise shall, in the discretion of the governing or legislative body, be readvertised and again offered for sale in the same manner and under the same restrictions, as provided in this article.

Percentage of gross receipts

6011. If the franchise is a renewal of a right already in existence, payment of the percentage of gross receipts shall begin at once upon the granting of the franchise. If the franchise is not a renewal of a right already in existence, no percentage shall be paid for the first five (5) years succeeding the date of the franchise, but thereafter the percentage shall be payable annually. If payment is not made, the franchise shall be forfeited.

Same Extension of existing street railroad system

6012. If the franchise granted is an extension of an existing street railroad system, the gross receipts shall be estimated to be one-half of the proportion of the total gross receipts of the system which the mileage of this extension bears to the total mileage of the whole system. This estimate is conclusive as to the amount of the gross receipts of the extension.

Commencement of work

6013. Work to erect or lay telegraph or telephone wires, to construct street or interurban railroads, to lay gas pipes for the purpose of carrying gas for light, heat, or power, to erect poles or wires for transmitting electricity for light, heat, or power, along or upon any public street or highway, or to exercise any other privilege whatever, a franchise for which has been granted pursuant to this article, shall be commenced in good faith within not more than four months from the granting of the franchise. If not so commenced the franchise shall be declared forfeited.

6015. Work under any franchise other than for a street or interurban railroad shall be prosecuted diligently and in good faith so as to meet and fill the reasonable needs of the inhabitants of the territory for the service of which the franchise is granted.

Noncompliance Suit

6016. The Attorney General, upon the complaint of any county or municipality, or, in his discretion, upon the complaint of any taxpayer, shall sue for the forfeiture of any fran-

chise granted under this article, for the noncompliance with any condition thereof.

New bond Execution

6067. The new bond or bonds shall be executed by the owner of the franchise or privilege and by new sureties satisfactory to the governing or legislative body. Any person, firm, or corporation who acted as surety on the bond or bonds canceled and annulled may act as surety on the new bond or bonds, if satisfactory to the governing or legislative body.

Cancellation, effect

6068. Immediately upon the acceptance by the governing or legislative body of any new bond or bonds filed with it as provided for in this article the old bond or bonds are canceled and

annulled and the sureties thereon are released from any future liability on the old bond or bonds. Such cancellation and annulment does not release the sureties from any past liability.

CHAPTER 2. GAS AND ELECTRIC FRANCHISES BY MUNICIPALITIES

Article 1. General Provisions

Short title

6201. This chapter may be cited as the Franchise Act of 1937.

Power to grant

6202. The legislative body of any municipality is empowered to grant a franchise to any person, firm, or corporation, whether operating under an existing franchise or not, to use, or to construct and use, poles, wires, conduits, and appurtenances for transmitting and distributing electricity for all purposes, or to use, or to lay and use, pipes and appurtenances for transmitting and distributing gas for any and all purposes, under, along, across, or upon the public streets, ways, alleys and places within the municipality, upon the terms and conditions provided in this chapter.

Alternative procedure

6204. This chapter provides a procedure, alternative to the procedure provided in Article 1 of Chapter 1 of this division, for the granting of franchises by municipalities. When any proceeding is initiated under this chapter for the granting of a franchise, the provisions of this chapter exclusively govern the granting of such franchise.

Application of chapter

6205. This chapter does not apply to any municipality having a freeholders' charter adopted and ratified under the Constitution and having in such charter provisions for the issuance of franchises by the municipality, but nothing contained in this chapter shall restrict the right of any such chartered municipality to avail itself of the provisions of this chapter wherever it may lawfully do so. The provisions of this chapter relating to the payment of a percentage of gross receipts shall not be construed as a declaration of legislative judgment as to the proper compensation to be paid a chartered municipality for the right to exercise franchise privileges therein.

Article 2. Manner of Granting

Application Filing content

6231. An applicant for a franchise shall file with the legislative body of the municipality in which the franchise is desired an application stating:

(Amended by Stats. 1951, Ch. 817.)

[ORIGINAL SECTION]

6231. An applicant for a franchise shall file with the legislative body of the municipality in which the franchise is desired an application stating:

(a) The name of the applicant.

derived by applicant from the sale of electricity within the limits of the municipality under both the electric franchises; or, if the application is for a gas franchise, a sum equivalent to two percent (2%) of the gross annual receipts of applicant arising from the use, operation, or possession of the franchise, and in no event less than a sum equivalent to one percent (1%) of the gross annual receipts derived by applicant from the sale of gas within the limits of the municipality under both the gas franchises.

Resolution and notice of intention to grant

6232. Upon receipt of the application the legislative body of the municipality may pass its resolution declaring its intention to grant the franchise applied for, stating the character of the franchise, setting forth a notice of the day, hour, and place when and where all persons having any objection to the granting thereof may appear before the legislative body and be heard thereon, and directing the clerk of the legislative body to publish the notice at least once within fifteen (15) days after the passage of the resolution in a newspaper of general circulation within the municipality.

The time fixed for the hearing shall be not less than twenty (20) nor more than sixty (60) days after the date of the passage of the resolution.

Notice: Content

6233. The notice of the time and place of hearing objections shall state that the grantee of the franchise and its successors and assigns will, during the life of its franchise, pay to the municipality the percentage specified in its application, that the percentage will be paid annually from the date of the granting of the franchise, and in the event such payment is not made the franchise will be forfeited. The notice shall also designate the term, whether definite or indeterminate, for which the franchise is proposed to be granted.

The protest shall be signed by the protestant and be delivered to the clerk of the legislative body. At the time set for hearing objections the legislative body shall proceed to hear and pass upon all protests so made and its decision shall be final and conclusive, subject to the right of referendum of the people. The legislative body may adjourn the hearing from time to time.

If no protest in writing is delivered to the clerk up to the hour set for hearing, or such protests as are filed have been heard and determined by the legislative body to be insufficient, or have been overruled or denied, the legislative body may grant the franchise. The franchise shall be granted by ordinance adopted in the manner prescribed by law for the enactment of ordinances by the granting body.

Grantee's acceptance

6235. A franchise granted under this chapter does not become effective until the grantee files written acceptance thereof with the clerk of the granting municipality. When so filed the acceptance constitutes a continuing agreement by the grantee that if and when the granting municipality thereafter annexes, or consolidates with, additional territory, all franchises, rights and privileges owned by the grantee therein, except a franchise derived under Section 19 of Article XI of

the Constitution as that section existed prior to the amendment thereof adopted October 10, 1911, shall be deemed abandoned within the limits of the additional territory.

Article 3. Scope of Franchise

Franchise granted in lieu of all others

6261. Any franchise granted under this chapter with respect to a given utility service is in lieu of all other franchises, rights, or privileges owned by the grantee, or by any successor of the grantee to any rights under the franchise, for transmitting and distributing the utility service within the limits of the municipality as such limits exist at the time of the granting of the franchise or as they may thereafter exist, except any franchise derived under Section 19 of Article XI of the Constitution as that section existed prior to the amendment thereof adopted October 10, 1911. The acceptance of any such franchise granted under this chapter shall operate as an abandonment of all such franchises, rights, and privileges within the limits of such municipality as such limits at any time exist, in lieu of which the franchise is granted under this chapter.

Exception

Acquisition of grantee's property

6262. No franchise granted under this chapter in any way impairs or affects the right of the granting municipality to acquire the property of the grantee by purchase or condemnation, and nothing contained in such a franchise shall be construed to contract away, modify or abridge either for a term or in perpetuity the municipality's right of eminent domain in respect to any public utility.

Valuation of franchise

6263. No franchise granted under this chapter shall ever be given any value before any court or other public authority in any proceeding of any character in excess of the cost to the grantee of the necessary publication and any other sum paid by it to the municipality therefor at the time of acquisition

Term of franchise

6264. Every franchise granted pursuant to this chapter, except when a definite term therefor is specified in the ordinance granting it, is indeterminate, that is to say, every such franchise shall endure in full force and effect until, with the consent of the Public Utilities Commission, it is voluntarily surrendered or abandoned by its possessor, or until the State or some municipal or public corporation purchases by voluntary agreement or condemns and takes under the power of eminent domain, all property actually used and useful in the exercise of the franchise and situate within the territorial limits of the State, municipal, or public corporation purchasing or condemning such property, or until the franchise is forfeited for noncompliance with its terms by the possessor thereof.

6264 Every franchise granted pursuant to this chapter, except when a definite term therefor is specified in the ordinance granting it, is indeterminate and shall endure in full force and effect until, with the consent of the Public Utilities Commission, it is voluntarily surrendered or abandoned by its possessor, or until the State or some municipal or public corporation purchases by voluntary agreement or condemns and takes under the power

of eminent domain, all property actually used and useful in the exercise of the franchise and situate within the territorial limits of the State, municipal, or public corporation purchasing or condemning such property, or until the franchise is forfeited for noncompliance with its terms by the possessor thereof.

Rights conferred by franchise

6265. Article 4. Duties and Liabilities of Grantee

Forfeiture of franchise

6291. If the grantee of any franchise granted under this chapter fails, neglects or refuses to comply with any of the provisions or conditions prescribed in this chapter, and does not within ten (10) days after written demand for compliance begin the work of compliance, or after such beginning does not prosecute the work with due diligence to completion, the municipality, by its legislative body, may declare the franchise forfeited.

Publication expenses

6293. The grantee shall pay to the municipality a sum of money sufficient to reimburse it for all publication expenses incurred by it in connection with the granting of the franchise. Such payment shall be made within thirty (30) days after the municipality furnishes the grantee with a written statement of the expenses.

Regulations re facilities

6294. The grantee of a franchise under this chapter shall construct, install, and maintain all pipes, conduits, poles, wires, and appurtenances in accordance and in conformity with all of the ordinances and rules adopted by the legislative body of the municipality in the exercise of its police powers and not in conflict with the paramount authority of the State, and, as to state highways, subject to the laws relating to the location and maintenance of such facilities therein

Bond

6301. The grantee of a franchise under this chapter may be required to file a bond running to the municipality with at least two good and sufficient sureties approved by the legislative body, or with a corporate surety approved by the legislative body, in a penal sum prescribed by the legislative body and set forth in the resolution of intention to grant the franchise, conditioned that the grantee shall well and truly observe, fulfill, and perform each term and condition of the franchise, and that in case of any breach of condition of the bond the amount of the penal sum therein named shall be recoverable from the principal and sureties upon the bond.

6459. Every resettlement franchise shall provide that the grantee shall surrender the franchises or rights, owned or claimed by the grantee, to occupy such portion of the roads, streets, highways, avenues, boulevards, lanes, alleys, courts, places, and pathways as it is proposed that the street, suburban, or interurban railroad shall thereafter occupy under the provisions of the resettlement franchise, and that the grantee shall accept in lieu thereof the rights and privileges granted by the resettlement franchise as a franchise for the continued operation of the street, suburban, or interurban railroad within the limits of the city or city and county or such portion thereof as had theretofore been operated under the franchise or franchises surrendered.

6465. The resettlement franchise may be amended from time to time by ordinance passed by the governing or legislative body of the city or city and county and ratified by the electors of the city or city and county in the manner prescribed for the passage of the resettlement franchise in the first instance, and not otherwise. No such amendment is effective unless accepted in writing by the grantee of the resettlement franchise.

Eminent domain

6467. Nothing in this chapter, nor any provision of any franchise granted under this chapter, shall prevent a city or city and county from acquiring at any time the property of any public utility through the exercise of the right of eminent domain, and no city or county shall contract away, either for a term or in perpetuity, the right of eminent domain in respect to any public utility.

If the persons or corporations owning the railroads cannot agree as to the compensation to be made for cutting and adjusting the rails, the condemnation of the right of way over the one for the use of the other road may be had in proceedings under Title 7, Part 3 of the Code of Civil Procedure, and damages assessed and the right of way granted as in other cases.

Same

If any railroad corporation operating within a city applies to the governing body of the city for a franchise or permit to cross any such street, alley, or highway, with main, branch, side, switching, or spur trackage, the governing body of the city, within a reasonable time, shall hold a public hearing upon the application after reasonable notice to the applicant and to the public and shall thereafter grant the franchise or permit applied for upon reasonable terms and conditions unless such governing body reasonably finds that the grant of the franchise or permit would be detrimental to the public interest of the city. Nothing in this section imposes any duty upon or limits the authority of, any city organized and existing pursuant to a freeholder's charter, or any officer thereof.

Franchises for elevated or underground tracks

7556. The governing body of a county, city and county, or city, under such regulations, restrictions, and limitations, and upon such terms and payment of license tax as the county, city and county, or city may provide, may grant franchises to railroad corporations for the construction of elevated or underground railroad tracks over, across, or under the streets and public highways of any such county, city and county, or city,

for a term not exceeding 50 years. Before granting such franchise there shall be presented to the governing body a petition signed by the owners of a majority of the landed property, other than public property, on the line of the elevated portion applied for.

Article 6. Fences

Requirement of fence, liability

7626. Every railroad corporation shall make and maintain a good and sufficient fence on both sides of its track and property. If it does not and if its engine or cars kill or maim any cattle or other domestic animals upon its line of road,

* Chapter 561, which adds this section, becomes operative on January 1, 1952

except where the road runs through or upon public land it shall pay to the owner of the cattle or other domestic animals a fair market price for them, unless the killing or maiming occurred through the neglect or fault of the owner of the animal.

Exoneration where landowner to construct

7627. A railroad corporation that pays to the owner of the land through or along which its road is located an agreed price for making and maintaining a good and sufficient fence, or that pays the cost of such fence with the award of damages allowed for the right of way for the railroad, is relieved and exonerated from all claims for damages arising out of the killing or maiming of any animals of persons who thus fail to construct and maintain the fence. The owners of such animals are responsible for any damages or loss which may accrue to the corporation from the animals being upon its railroad track as a result of the nonconstruction of such fence, unless it is shown that the loss or damage occurred through the negligence or fault of the corporation, its officers, agents, or employees.

Determination by Public Utilities Commission

7628. The commission may require every railroad corporation operating any steam or electric railroad in this State to erect and maintain lawful fences on each or either side of the railroad where the railroad runs through or upon lands of the United States or of this State, at such places as the commission determines that such fences are necessary to protect cattle, horses, or mules, or any other domestic animal being ranged or grazed upon lands adjacent to the railroad from being maimed or killed by the operation or management of engines, cars, or other rolling stock upon or over the railroad, with necessary openings and gates in the fences, and crossings and cattle guards for such openings and gates.

Application to commission

7629. The authority of the commission to require such fences shall be exercised in each instance only when a verified application is filed with the commission by the person or persons owning cattle, horses, mules, or other domestic animals with the right or privilege to range or graze them upon the lands adjacent to the portion of the railroad sought to be fenced.

The application shall specify the ownership of the railroad sought to be fenced, and shall set forth a sufficient description of the lands to identify them, the agency or department of government administering the lands, and the nature of the right or privilege of each petitioner to range or graze domestic animals thereon.

Upon the filing of the application, notice thereof and of any hearing by the commission thereon shall be given by mail by the commission to the agency or department of government administering the land, and to the railroad corporation owning or operating the railroad. Such owners, agency or department, and the railroad may protest the granting of the application and may be heard thereon.

Same: Hearing

7630. Upon hearing the commission shall determine whether or not any fence or fences are necessary to protect cattle, horses, mules, or any other domestic animals being ranged or grazed upon the land designated in the application,

from being maimed, or killed by the operation or management of engines, cars, or other rolling stock upon the railroad, and shall order that a fence or fences be constructed and maintained by the railroad corporation at such places along the railroad adjacent to the lands designated in the petition as the commission determines. The commission may fix the time within which the fence or fences shall be constructed and may designate the places for necessary openings and gates therein and crossings and cattle guards in connection therewith.

The commission may modify or revoke any such order when it determines that the necessity for any such fence has ceased to exist.

Noncompliance Liability

7631. The failure of any railroad corporation to comply with any order of the commission authorized by this article shall not subject it, or any of its officers, agents, or employees, to any penalty other than payment by the railroad corporation to the owner of the maimed or killed cattle, or other domestic animals of a fair market price for the animals.

Nothing in this article requires a railroad corporation to pay for the maiming or killing of any cattle or domestic animals where the maiming or killing resulted from the neglect or fault of the owner of the animals.

Local franchise

7804. Authority to lay railroad tracks through the streets and public highways of any city or city and county may be obtained for a term of years not exceeding 50, from the governing body of the city or city and county, under such restrictions and limitations, and upon such terms and payment of license tax, as the governing body may provide Permission shall not be granted to propel cars upon such tracks otherwise than by electricity or by wire ropes running under the streets and moved by stationary engines except as provided in Section 7813. The governing body in granting the right, or at any time after the right is granted, may impose such terms, restrictions, and limitations as to the use of streets and the construction and mode of operating the road as it deems to be for the public safety or welfare.

Same Necessary conditions

7805. The city governing body, in granting the right of way to a street railroad corporation, in addition to the restrictions which they are authorized to impose, shall require a strict compliance with the following conditions, except in the cases of prismoidal or other elevated railways:

the street railway corporation shall shift its rails so as to avoid the obstructions made thereby.

Tracks for grading purposes

7813. The right to lay down a track for grading purposes and to maintain it for a period not to exceed three years may be granted by the governing body of any city, city and county, or county, but no such track shall remain more than three years upon any one street. The track shall be laid level with the street, and shall be operated under such restrictions as not to interfere with the use of the street by the public. The governing body may grant the right to use steam or any other motive power in propelling the cars used on the grading track, when public convenience or utility demands it, but the reasons therefor shall be set forth in the ordinance, and the right to rescind the ordinance at any time reserved.

or jumper wires on any pole which are attached to signal wires on the same pole, nor to any aerial cable, as between such cable and any pole on which it originates or terminates.

Telephone toll lines may be exempt from the provisions of this section if proper evidence introduced before the commission proves to the satisfaction of the commission, that compliance would seriously interfere with long distance telephone transmission.

This section does not apply to wires run from lead wires to arc or incandescent lamps nor to transformers placed upon poles, nor to any wire or cable where it is attached to the top of a pole, as between it and the pole, nor to any aerial cable containing signal wires where the cable is attached to a pole on which no other wires or cables than wires continuing from the cable are maintained if electric light or power wires or cables are not maintained on the same side of the street or highway on which the aerial cable is placed.

8028. No person shall run, place, erect, or maintain, above ground, within four feet from any wire or cable conducting less than 600 volts of electricity, any wire or cable which conducts at any one time more than 600 volts of electricity, or run, place, erect, or maintain within four feet from any wire or cable which conducts at any one time more than 600 volts of electricity any wire or cable conducting or carrying less than 600 volts of electricity.

This section does not apply to wires or cables attached to a transformer, arc or incandescent lamp within four feet (measured along the line of the wire or cable) from the point where such wire or cable is attached to such transformer, arc or incandescent lamp, nor to wires or cables within buildings or other structures, nor to wires or cables where they are placed vertically on poles, or to any lead wires or cables between the

points where they are made to leave any pole for the purpose of entering any building or other structure and the point at which they are made to enter such building or structure.

As between any two wires or cables, or any wire or any cable, run, placed, erected, or maintained in violation of this section, only the wire or cable last in point of time run, placed, or erected shall be held to be run, placed, erected, or maintained thus in violation of this section.

Where no more than one crossarm is maintained on a pole, all the wires or cables conducting at any one time more than 600 volts of electricity shall be placed on the crossarm on one side of the pole, and all the wires or cables conducting less than 600 volts of electricity shall be placed on the crossarm on the other side of the pole. The space between any wire or cable conducting at any one time more than 600 volts of electricity and any wire or cable conducting less than that voltage shall be at least 36 inches clear measurement in a horizontal line.

Where the provisions of this section cannot be complied with, the commission may grant permission for the following form of construction; where two or more systems for the distribution of electric light or power occupy the same poles with wires or cables, all wires or cables conducting at any one time more than 600 volts of electricity may be placed on the crossarms on one side of the pole, and all wires or cables conducting less than that voltage, shall in such case, be placed on the crossarms on the other side of the pole; the space between any wire or cable conducting at any one time more than 600 volts of electricity and any wire or cable conducting or carrying less than that voltage shall be at least 36 inches in measurement in a horizontal line; and in such construction all crossarms shall be at least 36 inches apart in a vertical line.

Same
Warning signs

8029. No person shall run, place, erect, or maintain any wire or cable which conducts at any one time more than 600 volts of electricity, without causing each crossarm, or such other appliance as is used in lieu thereof, to which such wire or cable is attached to be kept at all times painted a bright yellow color, or, on such crossarm, or other appliance used in lieu thereof, shall be placed signs, providing, in white letters on a green background, not less than three (3) inches in height the words "high voltage" on the face and back of each crossarm. The provisions of this section do not apply to crossarms to which are attached wires or cables conducting more than 10,000 volts of electricity, and which are situated outside the corporate limits of a city.

Guy wires
Insulation

8030. No person shall run, place, erect, or maintain any guy wire or guy cable attached to any pole or appliance to which is attached any wire or cable used to conduct electricity, without causing the guy wire or guy cable to be effectively insulated at all times at a distance of not less than four (4) feet nor more than eight (8) feet (measured along the line of the wire or cable) from the upper end thereof, and at a point not less than eight (8) feet vertically above the ground from

the lower end thereof. Where two or more guy wires or guy cables are attached to the same pole and same anchorage pole there shall be at least one foot, vertical space, between the points of attachment. No insulation shall be required at the lower end of a guy wire or guy cable where it is attached to a grounded anchor. Where guy wires or guy cables are attached to a pole or structure of steel or other conducting material supporting wires or cables conducting in excess of 15,000 volts where the pole or structure is thoroughly grounded no insulation shall be required at any point in the guy wire or guy cable.

This section does not apply to guy wires or guy cables attached to poles carrying no wire or cable other than signal wires or cables and which are situated outside the corporate limits of a city.

Vertical electric wires Insulation

8031. No person shall run, place, erect, or maintain vertically on any pole any wire or cable used to conduct electricity, without causing such wire or cable to be at all times wholly incased in a casing equal in durability and insulating efficiency to a wooded casing not less than one and one-half inches thick.

This section does not apply to vertical signal wires or cables on poles where no other such wires or cables are maintained, and which are outside the corporate limits of a city, nor to wires or cables run vertically on iron poles or structures where both pole or structure and conduit are securely grounded.

Arc lamps and transformers on same pole

8032. No person shall place, erect, or maintain on any pole, or any crossarm or other appliance on the pole, which carries or upon which is placed an electric arc lamp, any transformer for transforming electric currents. This section shall not apply if the arc lamp is suspended so that it can be trimmed from the ground or from a stand located on the pole not less than seven feet below the transformer, and in so suspending the arc lamp no wire or cable in connection therewith is run vertically on the pole unless the wire or cable is protected as provided for in Section 8031.

15,000 volt lines Restriction

8033. No person shall run, place, erect, or maintain any wire or cable carrying more than 15,000 volts of electricity across any wire or cable carrying less than that voltage or across any public highway, except on a pole of such height and so placed at each crossing that under no circumstances can the wire or cable of a voltage higher than 15,000 volts in case of breakage thereof or otherwise, come in contact with any wire or cable of less than that voltage, or fall within a distance of ten (10) feet from the surface of any public highway; or in lieu thereof double strength construction may be installed, in which case the wires carrying a voltage higher than 15,000 volts shall, between the points of crossing, be of a cross-section area equal to at least twice that used in the line outside of such crossing, except where the conductor used is equal to number four (4) stranded Brown and Sharpe gauge or greater, in which case the wires or cables will be considered as complying with the law.

Suspension wires Additional safety device

8034. No person shall run, place, erect, or maintain any suspension wire to which is attached any aerial cable of 75

pair No. 19 Brown and Sharpe gauge or over, or of 100 pair No. 22 Brown and Sharpe gauge or over suspended from a crossarm, or from any other structure or appliance from which the suspension wire is hung, by a single bolt and clamp without at the same time attaching the suspension wire to the crossarms, structure, or appliance by an additional safety bolt and clamp, or other safety appliance for thus attaching the suspension wire of tensile strength equal to the first bolt and clamp.

Exemptions

8035. None of the provisions of Sections 8026 to 8034, inclusive, apply to direct current electric wires or cables having the same polarity, nor to signal wires when no more than two (2) of such signal wires are attached to any one pole, but no such direct current or signal wires shall in any case be run, placed, erected, or maintained within the distance of thirteen (13) inches from the center line of any pole other than the pole or poles on which the wires or cables are carried, carrying electric wires or cables. As between any two wires, or cables, or any wire or cable run, placed, erected, or maintained in violation of this section, only the wire or cable last in point of time run, placed, erected, or maintained shall be held to be run, placed, erected, or maintained thus in violation of this section.

Span wires Insulation

8036. No person shall run, place, erect, or maintain any span wire attached to any wire or cable used to conduct electricity, without causing the span wire to be at all times effectively insulated between the outer point at which it is in any case fastened to the pole or other structure by which it is hung or supported, and at the point at which it is in any case thus attached. Such insulation shall not in any case be placed less than two (2) feet or more than four (4) feet from the point at which the span wire is so attached. When in any case such span wire is attached along its length to any two (2) such wires or cables, conducting electricity and extending parallel to each other, not more than eighteen (18) feet apart, such insulation shall not be required therein at any point between such parallel wires or cables. Chapter 5. Retirement System

Article 1. Establishment

Board action

12301. The board may establish a retirement system for the officers and employees of the district and provide for the payment of annuities, pensions, retirement allowances, disability payments, and death benefits or any of them.

Fund

12302. The district may maintain its own retirement fund or may provide for benefits to eligible officers and employees, or their beneficiaries, by means of group insurance or other insurance, or by such means as in the opinion of the board will satisfactorily provide an adequate and sure method of meeting the payments contemplated by the retirement system.

Actuarial report

12303. Before establishing any retirement system the board shall secure a report from a qualified actuary, which shall show the cost of the benefits provided by the system, and the prospective assets and liabilities of the system.

Powers of board

12304. The board may adopt all ordinances and resolutions and perform all acts necessary or convenient to the initiation, maintenance, and administration of the retirement system.

Participation in state system

12305. Nothing in this chapter prevents a district from participating in and making all or part of its employees members of the State Employees' Retirement System by contract entered into between the district and the board of administration of the system under the State Employees' Retirement Law; and the district may perform all acts necessary or convenient for such participation.

Classification of included members

12306. The board may classify and determine the officers and employees who shall be included as members in the retirement system and may change the classification from time to time. Membership of all officers and employees so classified and included in the retirement system is compulsory. The retirement system shall not apply to elective officers.

Article 2. Benefits and Contributions

Contributions

12333. The board shall provide that both the district and the members shall contribute to the retirement system, and the contributions by members shall be so fixed as to provide with accumulated interest at least one-half the value of any retirement allowance granted for service, exclusive of any credits allowed for prior service.

12334. All members of the retirement system shall contribute in the manner and amount fixed by the board and such contributions may be collected by deducting the amounts thereof from the salary, wages, or compensation due such members.

District contributions

12335. Liabilities accruing under the retirement system because of benefits other than such as are the equivalent of contributions by the members, with accumulated interest, shall be met by contributions by the district. Prior service or other

liabilities of the district may be met by annual appropriations instead of by one appropriation for the total of the liabilities; but until the present value of regular contributions for current service, together with assets then available, equals the present value of all allowances and benefits granted or to be granted under the system, the appropriation for any one year when added to any unused balance of any previous appropriations for such purpose shall not be less than the amount disbursed during that year on account of prior service or other liabilities of the district.

Refund to withdrawing member

12336. If any member withdraws from the retirement system prior to retirement the total amount contributed by him with such interest as may be credited thereto shall be returned to him.

Exemption of benefits

12337. 12363. The retirement board shall determine the eligibility of officers, employees, and their dependents to participation in the system and shall be the sole authority and judge under such ordinances as may be adopted by the board as to the conditions under which persons may be admitted to and continue to receive benefits of any sort under the retirement system, and may modify allowances for service and disability. The determination of the retirement board shall be final and conclusive and shall not be modified or set aside except for fraud or abuse of discretion.

Administration of retirement fund

12364. If the district maintains its own retirement fund the retirement board shall have exclusive control of the administration, investment, and disbursement of such fund. Investment of the fund shall be subject to the terms, conditions, limitations, and restrictions imposed by the laws of this State upon savings banks in the making of investments by savings banks, and cash may be deposited in any licensed national bank or banks in this State or in any bank, banks, or corporations authorized or licensed to do a banking business and organized under the laws of this State.

Article 4. Investigation and Penalties

Actuarial valuation, etc

12391. At least once in each four-year period after the establishment of the retirement system the board shall cause to be made an actuarial valuation of the assets and liabilities of the retirement fund, and upon the basis of such investigation and valuation shall make such revision or change of the rates of contribution, the periods and conditions of service, and amounts of retirement allowances as may be necessary.

Interest in investments, etc

12392. Except as herein provided, no member of the board or of the retirement board, nor any member of the retirement system or employee of the district, shall have any interest direct or indirect in the making of any investment or in the gains or profits accruing therefrom, and no such person, directly or indirectly, for himself or as an agent or partner of others, shall borrow any of its funds, nor shall any such person in any manner use the same except to make such current and necessary payments as are authorized by the retirement board, nor shall such a person become an endorser or surety as to, or in any manner an obligor for investments of the retirement fund.

Notice requesting bids shall be published at least once in a newspaper of general circulation, which publication shall be made at least 10 days before bids are received. The board may reject any and all bids and readvertise in its discretion.

Purchases in open market

12752. If after rejecting bids the board determines and declares by a four-fifths vote of all its members that in its opinion the materials and supplies may be purchased at a lower price in the open market, the board may proceed to purchase the supplies and materials in the open market without further observance of the provisions requiring contracts, bids, or notice.

Public calamity Suspension of restrictions

12753. In case of any great public calamity, such as an extraordinary fire, flood, storm, epidemic, or other disaster, the board may, by resolution passed by a four-fifths vote of all its members declare and determine that public interest and necessity demand the immediate expenditure of public money to safeguard life, health, or property, and thereupon proceed to expend or enter into a contract involving the expenditure of any sum needed in such emergency without observance of the provisions requiring contracts, bids, or notice.

12802. A district may accept, without limitation by any other provisions of this division requiring approval of indebtedness, contributions of money, rights of way, labor, materials, and any other property for the construction, maintenance, and operation of any enterprise in which the district is authorized to engage, and may enter into any contracts and cooperate with and accept cooperation from the State, or any department, instrumentality, or agency thereof, or any public agency of the State in the construction, maintenance, and operation of, and in financing the construction, maintenance, and operation of, any such enterprise.

Interference with other public utilities

12803. Except as provided in this division with reference to sewage disposal, a district shall not interfere with or exercise any control over any existing utility owned and operated by any public agency in the district, unless by consent of the legislative body of the public agency and upon such terms as are mutually agreed upon between the board and the legislative body of the public agency.

The district shall restore any such street or highway to its former state as near as may be, and shall not use it in a manner to unnecessarily impair its usefulness. A district may also construct its works across any stream or watercourse.

Rates and charges

12809. The rates and charges for commodities or service furnished by a district shall be fixed by the board. As far as possible utilities shall be self-supporting but the board is not required to fix a rate which in its opinion is unreasonably high, nor to cover by rates large expenditures and the interest thereon required for future needs and developments.

Same Joint collection

12810. The board may provide that rates, tolls, and charges for any sewage disposal enterprise or service may be collected with the rates, tolls, and charges for any water or other utility service rendered by the district, and that all rates may be billed upon the same bill and collected as one item. If charges for water and sewage disposal service are billed upon the same bill the district may discontinue water service in the event of failure to pay the whole or any part of the bill.

Same Manner of collection

12811. The board may provide for the collection of fees, tolls, rates, rentals, or other charges in any lawful manner and may provide for collection by action at law, and any and all remedies for the collection and enforcement of all fees, tolls, rates, rentals, or other charges shall be cumulative and may be pursued alternatively or consecutively as the board may determine. In addition to the fees, tolls, rates, rentals, or other charges, the board may provide for a penalty of not more than 10 percent in the event of nonpayment within the time and in the manner prescribed by the board, and may provide for collection of the penalty.

12812. The board may apportion all or a portion of the expenses of operation and maintenance of any sewage disposal facilities constructed by the district, and the interest on any bonds issued therefor, among the public agencies whose sewers are connected with district facilities. The board shall establish rules for determining the apportionment, which among other things shall be based on the quantity, quality, or characteristics of the sewage delivered by each public agency.

Financing of sewage disposal enterprise

12813. Notwithstanding any of the provisions of this article, the board may, in its discretion, finance any sewage disposal enterprise, the interest on and retirement of any bonded

indebtedness therefor, and provide for the maintenance and operation thereof entirely by the levy and collection of taxes upon the property within the special district for which the enterprise is constructed or operated, or by rates and charges imposed upon the users of the facilities of the enterprise, or by both taxes, rates, and charges, apportionment of expenses among public agencies served, or any combination of the foregoing.

Article 6. Indebtedness

Incurring indebtedness

12841. A district may borrow money and incur indebtedness, and may issue bonds or other evidences of indebtedness. No indebtedness shall be incurred exceeding the ordinary annual income and revenue of the district without the approval of a two-thirds vote of the voters voting on the proposition to incur such indebtedness except as follows:

(a) A further vote of the voters is not required for any indebtedness heretofore or hereafter incurred within the purposes and not exceeding the available amount of any previously authorized bond issue, and as to such indebtedness the proceeds of any of the bonds unexpended in the treasury of the district, or the par value of any of the bonds which are unsold shall be deemed a part of the ordinary annual income and revenue of the district.

Federal aid

12844. A district may accept, without limitation by any other provisions of this division requiring approval of indebtedness, contributions or loans from the United States, or any department, instrumentality, or agency thereof, for the purpose of financing the construction, maintenance, and operation of any enterprise in which the district is authorized to engage, and may enter into contracts and cooperate with, and accept cooperation from, the United States, or any department, instrumentality, or agency thereof, in the construction, maintenance, and operation, and in financing the construction, maintenance,

and operation, of any such enterprise in accordance with any legislation which Congress may have heretofore adopted or may hereafter adopt, under which aid, assistance, and cooperation may be furnished by the United States in the construction, maintenance, and operation or in financing the construction, maintenance, and operation of any such enterprise. A district may do any and all things necessary in order to avail itself of such aid, assistance, and cooperation under any federal legislation now or hereafter enacted. As used in this section, "construction" includes the meaning of "reconstruction," "repair," "improve," "remodeling," "rehabilitation," and "completion."

Same Cost exceeding $2,000

12846 Whenever the cost of construction of any office building or warehouse of the district constructed under Section 12845 exceeds the sum of two thousand dollars ($2,000), the district shall adopt plans and specifications and working details, as may be proper, and shall advertise for bids for such work in accordance with the plans and specifications so adopted. All bidders shall be afforded an opportunity to examine such plans and specifications and the district shall award the contract to the lowest responsible bidder. The person or corporation to whom the contract is awarded shall be required to execute a bond, not to exceed 25 percent of the contract price, for the faithful performance of the contract. The form of the bond shall be approved by the board of directors. In cases of great emergency and when necessary to protect life and property, the board of directors, by unanimous vote of all members present, may without advertising for bids therefor, have the work done by day labor.

Direct or subsequent purchase

12872. Such investment may be made by direct purchase of any issue of such bonds, treasury notes, or obligations, or part thereof, at the original sale or by the subsequent purchase of the bonds, treasury notes, or obligations.

Sale, reinvestment

12873 Any bonds, treasury notes, or obligations purchased and held as investments by the district may from time to time be sold and the proceeds reinvested in bonds, treasury notes, or obligations as provided in this article.

Application of proceeds

12874. Sales of any bonds, treasury notes, or obligations purchased and held by the district shall from time to time be made in season so that the proceeds may be applied to the purposes for which the money with which the bonds, treasury notes, or obligations were originally purchased was placed in the treasury of the district.

Article 8. Taxation

Power, purpose of tax

12891. A district may levy, and collect or cause to be collected, taxes for any lawful purpose.

Insufficient revenues

12892. If, in the opinion of the board, the revenues will not be sufficient for any and all lawful purposes the board shall levy a tax for such purpose or purposes and fix the amount of money necessary to be raised therefor by taxation.

Bond principal and interest

12893. The board shall, at the time of fixing the general tax levy and in the manner provided for the general tax levy, levy and collect annually until the district's bonds are paid, or until there is a sum in the treasury of the district set apart for that purpose to meet all sums coming due for principal and interest on the bonds, a tax sufficient to pay the annual interest on the bonds and such part of the principal thereof as becomes due before the time for fixing the next general tax levy. If the maturity of the indebtedness created by the issue of bonds begins more than one year after the date of the issuance thereof, the tax shall be levied and collected annually at the time and in the manner aforesaid, sufficient to pay the interest on the indebtedness as it falls due and to constitute a sinking fund for the payment of the principal on or before maturity.

Same In addition to other taxes

12894. The taxes required to be levied and collected on account of interest, principal, and sinking fund of district bonds shall be in addition to all other taxes levied for district purposes, and shall be collected at the time and in the same manner as other district taxes are collected, and be used for no other purpose than the payment of the bonds and accruing interest.

Revenue bonds

12895. Nothing in this division prevents the issuance of revenue bonds by a district for the entire district or any special district created therein under any provision of law permitting the issuance of revenue bonds by municipal utility districts.

Tax sale, etc.

12896. The board may provide for the assessment, levy, and collection of taxes by the district, including the sale of property to the district for delinquent taxes, with penalties, interest, and cost.

Assessment, etc., by county officers

12897. The board may elect to avail itself of the assessments made by the assessors of the counties in which the district is situated, and of the assessments made by the State Board of Equalization for those counties, and may take such assessments as the basis for district taxation and have its taxes collected by the county officials if the board declares its election so to do by resolution or ordinance and files a certified copy of the resolution or ordinance on or before the first day of August with the auditors of the counties in which the district is situated. Thereafter, each year and until otherwise provided by the board, all assessments shall be made for the district by the State Board of Equalization and the county assessors, and all taxes shall be collected for the district by the tax collectors, of the counties in which the district is situated.
