The people of the State of California do enact as follows:

SECTION 1. Section 4122 of the Health and Safety Code is amended to read:

4122. The title of all property which is acquired for a district vests in the county. Whenever all of the territory in the district is annexed or otherwise included in any one city, the district shall continue in existence until the legislative body of the city adopts and files with the governing body of the district a certified copy of a resolution requesting the dissolution of the district. Upon the filing of the resolution with the governing board of the district the district is dissolved and the property becomes the property of the city. All money in the county treasury to the credit of the district shall upon the annexation or inclusion of the district be forthwith transferred to the treasury of the city and be used only for the purpose for which it was available prior to the transfer.

Title to property

SEC. 2. Section 4143 of said code is amended to read as follows:

4143. Any portion of a district that will not be benefited by remaining in the district may be withdrawn therefrom as provided in this article.

Withdrawal

Any portion of a district annexed to or otherwise included in a city shall have a right to withdraw from the district and shall be withdrawn from the district upon there being filed with the board of supervisors a request by the legislative body of the city in which such portion of the district is included that such withdrawal be effected.

SEC. 3. Section 4147 of said code is amended to read:

In the event there is a withdrawal of territory from a district by reason of portions of such district having been included within more than one city each city shall be entitled hereunder to the assets of the district, as set forth herein, in the same proportion that the assessed value of that portion of the district within the city bore to the assessed value of the entire district prior to the withdrawal.

Urgency

SEC. 4. This act is an urgency measure necessary for immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Within the past year a number of new cities have been incorporated and proceedings are pending for the incorporation of several additional cities. The proximity of these newly incorporated areas and the areas in process is such that there is likely to be an inclusion of all the territory of a garbage disposal district in two or more cities. The law as it now reads does not cover such a contingency and unless this act is adopted there will be a confusion as to what political entity has jurisdiction over the district so included and the collection of garbage will be delayed. Further, unless this act is adopted there will be no means of properly apportioning assets of the district and the newly incorporated cities likely will not have sufficient funds available to provide the service of garbage collection. Therefore, it is necessary that this act take effect immediately.

All other provisions of Section 254.5, other than those relating to the filing date of affidavits, are nevertheless applicable to this section. Welfare exemption re handicapped persons organizations

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Some organizations engaged generally in the work of assisting handicapped persons have inadvertently failed to file the required affidavit in support of the welfare exemption applicable to their property for the Fiscal Year 1957-58 and, as a

consequence, are now confronted with possible tax obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by removing the procedural bar to the obtainment of the exemption by such organizations. In doing so, it will fulfill the public policy of the State expressed through such exemption and thereby benefit the people generally.

Upon the filing of a notice of such change of name with the county auditor and county clerk the district shall thereafter be known by the name specified in the resolution.

[Approved by Governor July 4, 1957. Filed with Secretary of State July 5, 1957.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 2 of the University of California Dormitory Revenue Bond Act of 1947 is amended to read:

Sec. 2. Definitions: The following terms wherever used or referred to in this act, or in any indenture entered into pursuant hereto, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) Regents. The term "regents" means the existing corporation known as "the Regents of the University of California," as the same is constituted by the provisions of Article IX, Section 9, of the Constitution of the State of California.

(b) University of California. The term "University of California" means the public trust created by Article IX, Section 9, of the Constitution of the State of California, and each and all of the campuses of said university within the State of California.

(c) Project. The term "project" means any one or more dormitories, other housing facilities, boarding facilities, student union facilities, vehicle parking facilities or any other auxiliary or supplementary facilities for individual or group accommodation, owned or operated or authorized to be acquired, constructed, furnished, equipped and operated by the regents for use by students, faculty members or employees of the University of California, or a combination of such facilities, which may include facilities already completed and facilities authorized for future completion, designated by the regents as a project in providing for the issuance of revenue bonds.

(d) Bonds. The term "bonds" or "revenue bonds" means the written evidence of any obligation issued by the regents, payment of which is secured by a pledge of revenues or any part of revenues, as provided in this act, in order to obtain funds with which to carry out the purposes of this act, irrespective of the form of such obligation.

(e) Revenues. The term "revenues" means and includes any and all fees, rates, rentals and other charges received or receivable in connection with, and any and all other incomes and receipts of whatever kind and character derived by, the regents from the operation of a project or arising from a project, including any such revenue as may have been or may be impounded or deposited in any sinking fund, redemption or reserve fund or other fund created for the security of revenue bonds or for the purpose of providing for the payment thereof or the interest thereon.

(f) Holder of Bonds. (2) The masculine gender includes the feminine and neuter.

Present housing and auxiliary and supplementary facilities to accommodate students, faculty and other persons on certain campuses of the university are already grossly inadequate to meet demonstrated needs. Enrollment projections of the Department of Finance and other competent analysts warn that the situation will soon become desperate. The cost to the State of such accommodations can be reduced materially by the use of revenue bonds to finance them, and this act is necessary to authorize the regents of the university to issue such bonds for the auxiliary and supplementary purposes. This act will also serve as appropriate evidence of authority to support applications for loan assistance for such purposes from Federal Government agencies. Since these applications must be filed within 90 days to avoid a higher rate of interest on granted loans, it is necessary that this act go into immediate effect.

CHAPTER 1452

An act to add Section 31565 to the Government Code, relating to members of county retirement systems who are eligible for inclusion in State Teachers' Retirement System.

[Approved by Governor July 4, 1957. Filed with Secretary of State July 5, 1957.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 987 of the Military and Veterans Code is amended to read:

987. The purchaser shall make an initial payment of at least 10 percent of the selling price of the property, in case of a farm, and 5 percent in the case of a home. The department may waive the initial payment in any case where the value of the property as determined by the department appraisal shall equal the amount to be paid by the department plus at least 10 percent in the case of a farm, and 5 percent in the case of a home. The balance of the purchase price may be amortized over a period fixed by the department, not exceeding 40 years, together with interest thereon at the rate as deter- Down payment

mined by the department for such amortization purposes. The department shall establish the actual interest rate to be paid. To this end the department, by a two-thirds vote of California Veterans Board members and with the approval of the Veterans' Finance Committee of 1943, is empowered to establish a uniform rate of interest payable upon the amount remaining unpaid under any veteran's purchase contract. The California Veterans Board and the Veterans' Finance Committee shall periodically, at least once each year, make a finding as to the rate of interest to be charged, not to exceed 5 percent per annum, taking into consideration the current value of money and the solvency of the Veterans' Farm and Home Building Fund of 1943. The California Veterans Board may raise or lower the rate of interest payable under such contracts for any given period as many times and as frequently as it deems to be for the best interests of the department, as well as the contract holders, if in so doing its action is made applicable alike to any and all contract holders and 90 days' advance notice be given of the time when the new rate of interest is to become effective. Any change in the interest rate shall not affect the total amount of any installment payment, but the difference shall be credited to interest or principal and accelerate or prolong the period of payment. The purchaser on any installment date may pay any or all installments still remaining unpaid. In any individual case the department may for good cause postpone from time to time, upon terms as the department deems proper, the payment of the whole or any part of any installment of the purchase price or interest thereon.

Urgency

The current market for money is such a very restricted one that there is much competition for the money that is available. Such a situation has increased the interest rates payable on bond issues and has also caused an increase in the cost of such bond issues. In order that the interest rate may be increased beyond this if necessary in light of the present money situation it is necessary that this act take effect as soon as possible to prevent any possible loss to the State of California.

If an election for a decrease in an increased tax rate of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1st of the next succeeding year.

CHAPTER 1495

An act to amend Section 1054a of the Code of Civil Procedure, relating to undertakings.

In effect September 11, 1957

[Approved by Governor July 4, 1957. Filed with Secretary of State July 6, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 1054a of the Code of Civil Procedure is amended to read:

Deposits in lieu of undertaking

1054a. In all civil cases, wherein an undertaking is required, the party required to furnish such undertaking may, in lieu thereof, deposit with the sheriff, constable, marshal, the clerk of the court, or with the judge where there is no clerk:

(a) A sum of money in lawful money of the United States equal to the amount required to be secured by said undertaking; or,

(b) Bearer bonds or bearer notes of the United States or the State of California having a market value at least equal to the amount of the corporate surety bond otherwise required or permitted to be furnished, together with an agreement executed by the party making such deposit authorizing such

sheriff, constable, marshal, clerk of the court, or judge where there is no clerk, to collect or sell such bonds or notes so deposited in case of any default in the performance of any of the conditions or stipulations so guaranteed. Unless agreed upon by stipulation of the parties in interest, the market value of such bearer bonds or bearer notes shall be determined by the court as hereinafter provided.

Any party desiring to deposit bearer bonds or bearer notes of the United States or of the State of California, as in this section provided, may file a written application with the court to fix the market value of such bonds or notes. Such application shall specifically describe such bonds or notes desired to be deposited, and state the current market value thereof as of the date of the filing of such application, and the amount thereof which applicant believes would be equal to the amount of the corporate surety bond otherwise required or permitted to be furnished. Such application shall be served upon all of the parties in interest and proof of such service shall be filed with such application. Such application shall be heard by the court at a time fixed by it but such time shall be not less than five days nor more than 10 days after the service of such application If, at the time of the hearing on said application, no objection is made as to the current market value of such bearer bonds or bearer notes as alleged in such application, the court shall fix the amount of such bonds or notes to be so deposited on the basis of the market value alleged in said application. If any party in interest appearing at said hearing contends that the current market value of such bearer bonds or bearer notes as alleged in said application is less than set forth in said application, plaintiff shall offer evidence in support of his application, and any party in interest may offer evidence to the contrary. At the conclusion of said hearing, the court shall make an order determining the market value of such bearer bonds or bearer notes and fix and determine the amount thereof to be so deposited by applicant. A certified copy of said stipulation or order together with such bearer bonds or bearer notes shall be delivered to the sheriff, constable, marshal, clerk of the court, or with the judge where there is no clerk, at the time of the deposit.

If bearer bonds or bearer notes are deposited to fulfill the requirements of Sections 942, 945 and 978 of the Code of Civil Procedure, the agreement required by this section to be deposited with the person with whom such bonds or notes are deposited, shall contain a provision substantially as follows:

If the said judgment appealed from, or any part thereof, be affirmed, or the appeal be dismissed, the appellant shall pay the amount directed to be paid by the said judgment or the part of such amount as to which the said judgment shall be affirmed, and all damages and costs which may be awarded against the appellant upon the appeal; if appellant does not make such payment within 30 days after the filing of the remittitur from the appellate court in the court from which the

appeal is taken, the bearer bonds or bearer notes so deposited, upon notice and order of court as in this section provided, shall be sold and the proceeds shall be distributed in the following order: first, to pay the cost of sale of such bearer bonds or bearer notes; second, to pay the amount of the judgment or the part thereof affirmed; and third, the remainder, if any, shall be delivered to the appellant.

The sheriff, constable, marshal, clerk of the court, or the judge where there is no clerk, with whom said bearer bonds and bearer notes have been deposited, shall, on demand, deliver to the party making such deposit, or his attorney, any interest coupons attached to said bearer bonds or bearer notes, as the same shall become due and payable.

In all cases in which bearer bonds or bearer notes are deposited pursuant to the provisions of this section, the party making such deposit shall have 30 days from the date on which the judgment in question becomes final to pay such judgment. Thereafter, upon order of the court issued upon five days' notice to the parties, such bearer bonds or bearer notes shall be sold and the proceeds distributed as provided in said agreement.

Such bearer bonds or bearer notes when so deposited shall have the same force and effect as the undertaking otherwise required or permitted to be furnished.

CHAPTER 1496

An act to amend Section 1403 of, and add Section 1404 to, the Fish and Game Code, and amend Sections 4600, 4601, 4602, 4603, 4604, 4605, and 4606 of, and to add Section 4187 to, the Fish and Game Code as proposed by Assembly Bill No. 616, relating to burros.

In effect September 11, 1957

[Approved by Governor July 4, 1957. Filed with Secretary of State July 6, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 1403 of the Fish and Game Code is amended to read:

Undomesticated burros

1403. It is unlawful to kill, wound, capture, or have in possession any undomesticated burro, except as hereinafter provided in this section or under a permit issued pursuant to Section 1404. An undomesticated burro, for the purpose of this chapter, is a wild burro or a burro which has not been tamed or domesticated for a period of three years after its capture. The fact that a burro was killed, wounded, or captured on publicly owned land, or on land owned by a person or persons other than the person who killed, wounded, or captured the burro is prima facie evidence that the burro was an undomesticated burro at the time it was killed, wounded, or captured. The commission or any other department or agency has no power to modify the provisions of this section

by any order, rule, or regulation under Article 1, Chapter 2, Division 1, or any other provision, of this code, or any other law of this State.

All undomesticated burros are hereby declared to be the property of the State of California and no one may possess an undomesticated burro except for the purpose of domesticating it and possessing it as a pet or for use as a beast of burden.

Any person who desires to capture undomesticated burros which will be held for the purpose of domesticating them and possessing them as pets or for use as beasts of burden may apply to the Department of Agriculture for a permit to capture undomesticated burros. The application for such a permit shall be in writing. In the application the applicant shall state his name and address and shall also state that, if the permit is granted, any such burro captured will be possessed and used only in accordance with the terms of the permit. The permit, when issued, shall authorize the person to whom it is issued to capture the specified number of undomesticated burros within the period of six months after the date of the permit. The permit shall provide that the person to whom the permit is issued shall not have nor exercise any rights to such burros except to possess them for use as pets or beasts of burden and that he may transfer only that interest in such burros.

The total number of permits and total number of undomesticated burros which may be taken under such permits shall be determined by the Department of Agriculture which shall base its determination on the number of domesticated burros necessary to properly preserve and maintain the species in relation to the available land.

Any wilful violation of the provisions of a permit issued under this section is unlawful.

SEC. 2. Section 1404 is added to said code, to read:

Property damage

1404. Any owner or tenant of land or property that is being damaged or destroyed by burros may apply to the Department of Agriculture for a permit to kill such burros. The department, upon satisfactory evidence of such damage or destruction, shall issue a revocable permit for the taking of such burros under a permit. Burros so taken shall not be sold, nor shipped from the premises on which they are taken, except under instructions from the Department of Agriculture. It shall be unlawful for any person to violate the terms of any permit issued under the provisions of this section.

NOTE: The sections of the Fish and Game Code affected by this chapter appear in their proper places in that code, Chapter 456 of Statutes of 1957, as required by Section 9762 of the Government Code.

Effect. Stats 1957, Ch 456

SEC. 11. Sections 3 to 10, inclusive, of this act shall become operative only if the Fish and Game Code as proposed by Assembly Bill No. 616 is enacted by the Legislature at its 1957 Regular Session, and in such case at the same time as Assembly Bill No. 616 takes effect; at which time Sections 1403 and 1404 of the Fish and Game Code adopted in 1933, are repealed.

CHAPTER 1497

An act to amend Sections 3276 and 4605 of the Fish and Game Code as proposed by Assembly Bill No. 616, relating to fish and game.

In effect September 11, 1957

[Approved by Governor July 4, 1957. Filed with Secretary of State July 6, 1957.]

The people of the State of California do enact as follows:

NOTE: The sections of the Fish and Game Code affected by this chapter appear in their proper places in that code, Chapter 456 of Statutes of 1957, as required by Section 9762 of the Government Code.

CHAPTER 1498

An act to amend Sections 389 and 442 of, and to add Section 389.5 to, the Code of Civil Procedure, relating to parties to civil actions.

In effect September 11, 1957

[Approved by Governor July 4, 1957. Filed with Secretary of State July 6, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 442 of the Code of Civil Procedure is amended to read:

Cross-complaint

442. Whenever the defendant seeks affirmative relief against any person, whether or not a party to the original action, relating to or depending upon the contract, transaction, matter, happening or accident upon which the action is brought or affecting the property to which the action relates, he may, in addition to his answer, file at the same time, or by permission of the court subsequently, a cross-complaint. The cross-complaint must be served upon the parties affected thereby, and such parties may demur or answer thereto, or file a notice of motion to strike the whole or any part thereof, as to the original complaint. If any of the parties affected by the cross-complaint have not appeared in the action, a summons upon the cross-complaint must be issued and served upon them in the same manner as upon the commencement of an original action.

SEC. 2. Section 389 of said code is amended to read:

Indispensable party

389. A person is an indispensable party to an action if his absence will prevent the court from rendering any effective judgment between the parties or would seriously prejudice any party before the court or if his interest would be inequitably affected or jeopardized by a judgment rendered between the parties.

A person who is not an indispensable party but whose joinder would enable the court to determine additional causes of action arising out of the transaction or occurrence involved in the action is a conditionally necessary party.

When it appears that an indispensable party has not been joined, the court shall order the party asserting the cause of action to which he is indispensable to bring him in. If he is not then brought in, the court shall dismiss without prejudice all causes of action as to which such party is indispensable and may, in addition, dismiss without prejudice any cause of action asserted by a party whose failure to comply with the court's order is wilful or negligent.

When it appears that a conditionally necessary party has not been joined, the court shall order the party asserting the cause of action to which he is conditionally necessary to bring him in if he is subject to the jurisdiction of the court, if he can be brought in without undue delay, and if his joinder will not cause undue complexity or delay in the proceedings. If he is not then brought in, the court may dismiss without prejudice any cause of action asserted by a party whose failure to comply with the court's order is wilful or negligent.

Whenever a court makes an order that a person be brought into an action, the court may order amended or supplemental pleadings or a cross-complaint filed and summons thereon issued and served.

If, after additional conditionally necessary parties have been brought in pursuant to this section, the court finds that the trial will be unduly complicated or delayed because of the number of parties or causes of action involved, the court may order separate trials as to such parties or make such other order as may be just.

SEC. 3. Section 389.5 is added to said code, to read:

389.5. When, in an action for the recovery of real or personal property, or to determine conflicting claims thereto, a person not a party to the action but having an interest in the subject thereof makes application to the court to be made a party, it may order him to be brought in by the proper amendment. Interested party. Recovery of property

Proceedings for the establishment of such zones may be conducted concurrently with and as a part of proceedings for the instituting of projects relating to such zones, which proceedings shall be instituted in the manner prescribed in Section 20.1 of this act.

SEC. 4. Section 20.1 is added to said act, to read:

Sec. 20.1. The board of directors may institute projects for the financing, acquiring, constructing, maintaining, operating, extending, repairing or improving of any work or improvement to make water available for beneficial use or to control flood or storm waters which work or improvement is of common benefit to a zone. For the purpose of acquiring authority to proceed with any such project the board of directors shall by its resolution determine that the work or improvement is for the benefit of a single zone and specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the zone and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given for a period of not less than twenty (20) days. If there is a newspaper of general circulation published in the territory proposed to be formed into a zone, notice shall be given by publication once a week for two (2) consecutive weeks prior to the hearing, the last publication of which must be at least seven (7) days before said hearing. If there is no such newspaper, notice shall be given by posting notice of the hearing for a period of fourteen (14) days prior to said hearing in five (5) public places within the zone. Said notice shall designate a public place in the district where a copy of the map of the project may be seen by any interested person.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board of directors shall consider all written and oral objections to the proposed project and to the inclusion or exclusion of property within the proposed zone or participating zone. Upon the conclusion of the hearing the board of directors may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone, be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board of directors, and if the board proceeds with a proposed project it shall exclude from the zone all property which will not be benefited by the proposed project.

In all matters in this section referred to, the last equalized assessment roll of the County of Solano next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board of directors must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to do so.

The board of directors shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

SEC. 5. Section 20.2 is added to said act, to read:

Sec. 20.2. The board of directors shall have the power, in any year:

(a) To levy taxes or assessments in each or any of said zones to pay the cost and expenses of carrying out, acquiring, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones; provided, however, that said tax or assessment shall not exceed ten cents ($0.10) on each one hundred dollars ($100) of the assessed valuation of the taxable property in the zone. If the district enters into a contract with a governmental body pursuant to Section 5.9 of this act by the terms of which work is to be performed by such governmental body if any specified zone, for the particular benefit thereof, and by said contract the district is to pay to such governmental body a sum of money in consideration or subvention for the performance of said work by such governmental body, the board of directors may levy and collect a special tax or assessment upon the property in such zone, whereby to raise bonds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said taxes or assessments

shall be paid into the county treasury to the credit of the respective zones thereof, and the board of directors shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivisions (a) or (b) of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, or for projects authorized or established outside such zone, or zones, but for the benefit thereof.

Any tax or assessment levied pursuant to this section upon any particular zone or zones shall not be subject to the provisions of Section 10.1 of the act.

Sec. 20.3. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the Office of the Recorder of Solano County within five days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(b) Thereafter the board of directors may call a special election at which shall be submitted to the qualified electors in said zone the question of whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. All of the provisions of this act relating to bonds of the district shall be applicable to bonds of a zone except that Section 9.1 of this act shall not apply to bonds of a zone.

SEC. 7. Section 20.4 is added to said act, to read:

SEC. 45. The agency shall have the power to incur indebtedness in the manner herein provided.

SEC. 46. The agency shall have power to enter into agreements with any person or public corporation for the joint use of any property and rights within or without the county.

The agency may cause construction or other work to be performed or carried out by contracts or may undertake the work itself under its own superintendents as hereinafter provided.

SEC. 49. The agency shall have the power to make surveys and investigations for works and projects and of the water supply and resources of the agency, and to carry on and perform technical and other investigations of all kinds, make measurements, collect data and make analyses, studies and inspections pertaining to water supply, water, water rights, control of flood and use of water both within and without the agency, and for these purposes the agency shall have the right of access through its authorized representatives to all properties within the agency.

SEC. 50. The agency shall have the power as limited in this act to do any and every lawful act necessary to be done, that sufficient water may be available for any present or future beneficial use or uses of the lands or inhabitants within the agency, including, without limiting the generality of the foregoing, irrigation, domestic, fire protection, municipal, commercial, industrial and all other beneficial uses.

SEC. 51. The agency shall have the power: to control flood and storm waters within the agency and the flood and storm waters of streams outside of the agency which flow into the agency; to conserve such waters by storage in surface reservoirs, to divert and transport such waters for beneficial uses within the agency; to release such waters from surface reservoirs to replenish and augment the supply of waters in natural underground reservoirs; and otherwise to reduce the waste of water and to protect life and property from floods within the agency.

works, and to purchase, lease, appropriate, or otherwise acquire surface waters and water rights, useful or necessary to make use of water for any purposes authorized by this act.

The agency shall have the power to contract for the sale of rights to falling waters incidental to the construction and operation of the projects with any public or private agency engaged in the retail distribution of power.

SEC. 56. The agency shall have the power to construct its pipes, pipe lines, canals, flumes and tunnels and other conduits, along, under or across any public road, street, alley, avenue, highway or sidewalk, or across any stream of water, watercourse, railway, canal ditch or flume which the route of said pipes, pipe lines, canals, flumes, tunnels or other conduits may intersect or cross; provided, such works are constructed in such manner as to afford security for life and property; and provided further, that installations in state freeways shall be subject to the approval of the State Department of Public Works and installations in other state highways shall be subject to Article 2 (commencing at Section 670), Chapter 3, Division 1 of the Streets and Highways Code; and the agency shall restore at its own expense any such crossings and intersections to their former state as near as may be, or in a manner not to have impaired unnecessarily their usefulness. Every company, municipality or district whose right of way shall be intersected or crossed by said pipes, pipe lines, canals, flumes, tunnels or other conduits shall unite with the agency in forming such intersections and crossings and grant the rights therefor.

SEC. 57. There is hereby granted to the agency the right of way for the location, construction and maintenance of any and all of its works in, over and across public lands of the State of California, not otherwise disposed of or in use, not in any case exceeding in length or width that which is necessary for the construction of such works and adjuncts or for the protection thereof. Whenever any selection of a right of way for such works or adjuncts thereto is made by the agency, it must transmit to the State Lands Commission, the Controller

of the State and the recorder of the county in which the selected lands are situated, a plat of the lands so selected, giving the extent thereof and the uses for which the same is claimed or desired, duly verified to be correct. If the State Lands Commission shall approve the selections so made, it shall endorse its approval upon the plat and issue to the agency a permit to use such right of way and lands.

SEC. 58. If by any judgment in condemnation or by agreement the agency shall be required to relocate any street, road, highway or railroad, subject or devoted to public use, the board shall have power to acquire in the name of the agency by agreement or condemnation, all rights of way and other property necessary or proper for the compliance with the agreement or judgment and thereafter, and without further authorization, to make such conveyance of such relocated street, road, highway or railroad, as may be proper to comply with the agreement or judgment.

SEC. 59. The agency shall have the power to cooperate, act in conjunction and contract with the United States, State of California, municipalities, and districts of any kind, public corporations, any person, or any number of them in the purchase and sale of water, in the acquisition of water or a water supply, in the construction of any works for the controlling of flood or storm waters in the agency, or for the protection of property, watersheds, watercourses, highways and life, or for the purpose of conserving and transporting the waters for beneficial use, and for the use, operation, management and ownership of such works. The agency also may make and perform any agreement with the United States, the State, any county, municipality, district of any kind, public corporation, any person or any number of them for the joint acquisition, disposition, or operation of any property or works or water or water supply of a kind which might be acquired, disposed of, or operated by the agency.

Any district, municipality, or political subdivision of the State empowered by law to appropriate water and deliver water to users shall have the power: (a) to cooperate, act in conjunction and enter into contracts with the agency for all the purposes for which the agency is empowered to cooperate, act in conjunction and contract with such districts, municipalities, and political subdivisions; (b) and to carry out the terms of such contracts.

CHAPTER 5. EMINENT DOMAIN

SEC. 65. The agency shall have the power of eminent domain to acquire within or outside the agency by condemnation in the manner and to the extent prescribed in Article I, Section 14 of the Constitution and Title 7, Part 3 (commencing with Section 1237) of the Code of Civil Procedure, as now existing or hereafter amended, all property or interests therein necessary or convenient for carrying out the powers and pur-

poses of the agency except that the agency shall not have power to acquire by condemnation property held or used for the development, storage or distribution of water for public use or property held or used by a public agency for the development or distribution of electric power; and it is hereby declared that the use by public agencies of the property which may be condemned, taken or appropriated under the provisions of this act, is a public use, subject to regulation and control of the State in the manner prescribed by law.

No action in eminent domain to acquire property or interests therein outside the boundaries of the County of Shasta shall be commenced unless the board of supervisors of each affected county has consented to such acquisition by resolution.

SEC. 66. The agency in exercising such power shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal or relocation of any structure, railways, mains, pipes, conduits, wires, cables or poles, of any public utility which is required to be moved to a new location; and provided further, that notwithstanding any other provision of this act or any other law, no property shall be taken unless it is taken upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use than that to which it has already been appropriated.

SEC. 67. The power of eminent domain vested in the agency shall include the power to condemn in the name of the agency either the fee simple or any lesser estate or interest in any property which the board by resolution shall determine is necessary for carrying out the purposes of the agency. Such resolution shall be prima facie evidence that the taking of such private property, to the extent stated in said resolution, is necessary for carrying out the purposes of the agency.

CHAPTER 6. CONTRACTS

Article 1. Contracts Generally

SEC. 70. All contracts for the construction of any unit of work, except as hereinafter provided, estimated to cost in excess of five thousand dollars ($5,000) shall be let to the lowest responsible bidder. The board shall advertise by three (3) insertions in a daily newspaper of general circulation or two (2) insertions in a weekly newspaper of general circulation published in the agency inviting sealed proposals for the construction of the work before any contract shall be made therefor, and may let by contract separately any part of the work. The board shall require the successful bidder to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of the claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Chapter 3 (commencing at Section 4200) of Division 5 of Title 1 of the Government Code, and to be subject

to the provisions of that chapter. The board shall also have the right to reject any and all bids, in which case the board may advertise for new bids. In the event no proposals are received pursuant to advertisement therefor, or where the estimated cost of such work does not exceed the sum of five thousand dollars ($5,000) or where the work consists of emergency work necessary in order to protect life and property, the board, by unanimous vote of all members present, may without advertising for bids therefor have said work done by force account. The agency shall have the power to purchase in the open market, without advertisement for bids thereof, materials and supplies for use in any work therewith either under contract or by force account.

The provisions of this section shall have no application to a contract entered into with the United States under the authority of Section 59, or to a contract authorized by a vote of the electorate of the agency.

SEC. 71. No director of the agency shall in any manner be interested directly or indirectly, in any contract awarded or to be awarded by the board, or in the profits to be derived therefrom; and for any violation of this provision, such person shall be guilty of a misdemeanor, and upon conviction thereof, he shall be punished by a fine not exceeding five hundred dollars ($500), or by imprisonment in the county jail for not exceeding six months, or by both such fine and imprisonment, and such conviction shall by operation of law work a forfeiture of his office; provided, that this section shall not be construed to apply to any contract made with a corporation for its general benefit if the interest of such director is

(a) The ownership of less than 3 percent of the shares of a corporation for profit; or

(b) That of a nonsalaried officer of a nonprofit corporation.

Article 2. Contracts With United States

SEC. 75. The agency shall have the power to cooperate and contract with the United States under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto or any other act of Congress heretofore or hereafter enacted permitting cooperation or contract for the purposes of constructing works, whether for irrigation, drainage, or flood control, or for the acquisition, purchase, extension, operation or maintenance of such works, or for a water supply for any purposes, or for the assumption as principal or guarantor of indebtedness to the United States, or for carrying out any of the purposes of the agency, and to carry out and perform the terms of any contract so made; and for these purposes the agency shall have in addition to the powers specifically set forth in this act, all powers, rights and privileges possessed by irrigation districts as set out in Chapter 2 (commencing with Section 23175) of Part 6 of Division 11 of the Water Code, not inconsistent with the provisions of this act.

SEC. 76. Each contract providing for repayment of the cost of any works, or for the payment of any water or water supply, which is entered into with the United States pursuant to this act, shall be authorized at an election, unless by a resolution adopted by a four-fifths (⅘) vote of the members of the board of directors, the board shall determine that all liabilities of the agency thereby incurred can be repaid and liquidated from revenue derived from taxes levied pursuant to Section 95 and from payments to be made to the agency by member units pursuant to written contracts providing for the payment currently of whatever amounts may be necessary to amortize the portion of the cost underwritten by said member units or providing for the payment currently of whatever amounts may be necessary to pay the portion of the cost of any water or water supply to be furnished or sold to such member units. Upon the adoption of such resolution the board shall have the power on behalf of the agency, without the necessity of an election, to enter into such a repayment contract or into such a contract for the purchase of water or a water supply with the United States subject to all provisions of this act applicable to such contracts, except provisions requiring an election to authorize such contracts.

SEC. 77. Except as otherwise in this act provided, proceedings at the election shall be had insofar as applicable in the manner provided in the case of general elections in the county. All qualified voters of the agency shall be entitled to vote in such an election.

SEC. 78. Notice of the election shall contain a general statement of the purposes of the contract, a statement of the maximum amount of money to be payable to the United States for construction purposes and cost of water supply and acquisition of property, exclusive of penalties and interest, and a general statement of the property, if any, to be conveyed by the agency pursuant to the contract.

SEC. 79. The ballots at the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of election and the extent of the obligation to be assumed with the words "Contract—Yes" and "Contract _____ No." A favorable vote of two-thirds of the votes cast at such election shall be necessary to authorize the execution of the contract.

SEC. 80 All payments to the United States under any contract between the agency and the United States shall be paid so far as possible from revenue other than that derived from agency taxes, unless otherwise provided by the contract or this act, and the balance, if any, of such payments shall be paid from revenue derived from annual taxes levied in accordance with Section 95 of this act upon all taxable property within the agency assessable for such purposes under the laws of the State, and the taxable property shall be and remain liable to be assessed and levied upon for the payments.

SEC. 81. Public land of the United States within the agency shall be subject to assessment and tax for all purposes of contracts with the United States to the extent provided for by the Act of Congress approved August 11, 1916, entitled "An act to promote reclamation of arid lands," or any other law which may hereafter be enacted by Congress in the same relation, upon full compliance therewith by the agency.

SEC. 82. All money collected in pursuance of the contract with the United States shall be paid into the county treasury to the credit of the agency and held in a fund to be known as the "United States Contract Fund" to be used for payments due to the United States under the contract.

CHAPTER 7. FINANCIAL PROVISIONS

SEC. 90. Warrants not to exceed the anticipated revenues of the agency from any source in an amount not to exceed the revenues of the year in which issued are authorized on majority vote of the board. The board may authorize the registering of the warrants after which the warrants will draw interest at the rate fixed by the board in the authorizing resolution.

SEC. 91. The agency shall not incur any indebtedness or liability in any manner or for any purposes exceeding in any year the income and revenue provided for such year, and any indebtedness or liability incurred in violation of this section shall be absolutely void and unenforceable; provided, that this section shall have no application to debts or liabilities incurred pursuant to the provisions of this act authorizing the levying of special assessments in accordance with Section 96 of this act nor to the execution of contracts with the United States.

CHAPTER 8. TAXATION

SEC. 95. The board may, in any year, levy ad valorem taxes or assessments upon all property in the agency to pay the general administrative costs and expenses of the agency, and to carry out any of the objects or purposes of this act of common benefit to the agency; provided, however, that the ad valorem tax or assessment shall not exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation, unless at any county-wide election held for any other purpose a majority of those voting have voted in favor of a proposal to increase the tax rate of the district. The board may submit such a proposal at any county-wide election called for any other purpose and the proposal shall specify the new tax limit and may provide the increase will be valid for a specified term of years only or of unlimited duration.

SEC. 96. The agency shall have the power to levy a special ad valorem tax on all the taxable property in any member unit whenever any such member unit is delinquent in any payment due the agency by such member unit under any contract entered into by them. Such tax shall be levied only at

a rate sufficient to raise an amount equal to the amount delinquent. Such tax shall be levied and collected at the same time and in the same manner as general agency taxes, and shall be paid into the county treasury to the account of the agency and shall be used only to reduce the liability of such delinquent member unit.

No property in any portion of the agency, other than that in the delinquent member unit, shall be liable for or taxed to pay for such delinquency.

SEC. 97. The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act. All property exempt from taxation for county purposes under the provisions of the Revenue and Taxation Code of the State of California is exempt from taxation and assessment for the purposes of this act.

SEC. 98. Notwithstanding Chapter 8 (commencing at Section 54900), Part 1, Division 2, Title 5 of the Government Code, the agency is validly created for the purposes of assessment and taxation.

SEC. 99. For the Fiscal Year 1957-58, but for no other fiscal year, notwithstanding Section 98 of this act, the assessment and equalization of property for the purpose of agency taxation shall be effected as provided in this chapter.

SEC. 100. Assessments of the agency for the Fiscal Year 1957-1958 are liens on the property the same as if they were county taxes, except that the agency assessment liens attach as of noon on the day after this act becomes effective.

SEC. 101. It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the Fiscal Year 1957-1958 are the correct assessments for purposes of assessment by the agency and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and collecting the assessments for the agency. If the ownership or taxable situs or value of any property changes between noon on the first Monday in March 1957, and the date on which attaches the lien for assessments of the agency for the Fiscal Year 1957-1958, then, on petition of the taxpayer affected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of assessment by the agency.

SEC. 102. In equalizing the assessments made by the county assessor, the board of supervisors of the county, sitting as the

county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of assessment by the agency in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

SEC. 103. If, for purposes of assessments by the agency, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes, is conclusively presumed to be the correct assessment for assessment purposes of the agency.

SEC. 104. The board may prescribe by ordinance any necessary procedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying and collecting taxes or assessments for the agency for the Fiscal Year 1957-1958. Except as provided in Sections 98 through 103, Section 95 of this act is applicable to the assessment and equalization of property for the purpose of the agency assessments for the Fiscal Year 1957-1958.

SEC. 105. The taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from the agency taxes or assessments shall be paid into the county treasury to the credit of the agency, and the board shall have the power to control and order the expenditure thereof for these purposes.

SEC. 106. Notwithstanding any other provision of this act, if in the judgment of the board the cost and expense of a supply of water to any member unit is greater than the ability of such member unit to pay and the board finds that a supply of water to such member unit will be of general benefit to the agency, the board may by a four-fifths ($\frac{4}{5}$) vote of its members direct the agency to contribute from whatever funds may be available financial assistance to the extent that the board determines the agency as a whole will be benefited. For the foregoing purpose, the board may contract with the member unit or with the United States, the State of California or any district or public agency supplying water or contracting to supply water to such member unit, to make said contribution and assistance annually for such period of time as the board may determine.

SEC. 107. The agency may contribute any or all of its funds in aid of and in the best interests of the agency or any member unit.

SEC. 108. Claims against the agency shall be prepared, presented, audited and allowed or disallowed in the same manner and within the periods of time specified in the laws of the State of California, now or hereinafter enacted, for the preparing, presenting, auditing, and allowance or disallowance of claims against counties.

CHAPTER 9. MEMBER UNITS

SEC. 115. Any member unit may elect that any water to which it is entitled be held in storage in the agency's reservoirs so long as there is unfilled capacity in the reservoirs from which such water would otherwise be withdrawn for delivery to it. If two or more member units desire simultaneously to store water and there is not sufficient capacity to accommodate such member units, the storage capacity shall be apportioned between them in accordance with the amount of capital cost of such reservoir they have respectively underwritten, or in accordance with the amount of water they have respectively contracted to purchase during the period of such storage.

SEC. 116. Any member unit may release for the use of any other member unit any amount of water which may then be held temporarily in storage for its account, and in such event the agency shall deliver such water to such other member unit; but such delivery shall be deemed to be for the account of the member unit releasing such water.

SEC. 117. In the event of any reduction in the principal of any debt of the agency underwritten by one or more member units, other than by payment thereof, the amounts to be paid the agency by each member unit in amortization of its remaining portion of such debt shall be reduced proportionately so that the relative obligations of each such unit shall be unchanged.

SEC. 118. In the event of any reduction in the rate of interest being paid on any part of a debt of the agency for which one or more member units are responsible, the amounts to be paid the agency by each such member unit shall be reduced proportionately so that the relative obligation of each such unit remains unchanged in respect to its obligation to pay any remaining interest.

SEC. 119. Any member unit may reduce its obligations under its contract with the agency by assignment to another member unit of any part of its right to receive water under its contract; provided, that such assignment is legally approved, in accordance with the laws governing such member unit, by each member unit which is a party to such assignment. The total of all payments to be made by such member units to the agency shall not be reduced by virtue of such assignment, and the assignor member unit may be required by the agency to guarantee the payments assumed by the assignee member unit.

SEC. 120. If any capital asset of the agency is sold or otherwise disposed of, the net proceeds therefrom shall be distributed to the member units, or applied against any liability of such member units to the agency as may be provided by contract, in proportion which the amount contributed by each such member unit to the cost of such capital asset is to the total cost of such capital asset.

SEC. 121. If any liability on the part of the agency and its member units or both for the original cost or any subse-

quent improvement or refinancing of such capital asset is not completely extinguished at or before the time of the sale or other disposal thereof, the agency shall have the power to apply as much of the proceeds of such sale toward the extinguishment of such liability as may be necessary. In extinguishing such liability, the proceeds of such sale shall be applied only as the interests and liabilities of the agency and its member units shall appear.

CHAPTER 10. CONSTRUCTION AND INTERPRETATION

SEC. 130. This act shall be liberally construed to carry out the objects and purposes and the declared policy of the State of California as in this act set forth.

SEC. 131. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional or invalid or unenforceable, such decision shall not affect the validity or enforceability of the remaining portions of the act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause and phrase hereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases may be declared unconstitutional, invalid or unenforceable.

CHAPTER 1513

In effect September 11, 1957

[Approved by Governor July 4, 1957. Filed with Secretary of State July 6, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 3.5 is added to the Sonoma County Flood Control and Water Conservation District Act, to read:

Sec. 3.5. The board of directors of the district shall have the power to adopt ordinances, resolutions, and other legislative acts, as provided in Section 7, and in addition to the power to enter into contracts for and on behalf of the district, as provided in Section 3 of this act, shall have the power to make and enter into contracts for and on behalf of any zone created under and in accordance with the provisions of this act with the United States, the State of California, any political subdivision, county, municipality, district, agency or mandatory of the State of California or of the United States and any department, board, bureau or commission of the State of California or the United States or any person, firm, association or corporation, jointly or severally, for the acquisition of property or rights or the construction, maintenance and operation in whole or in part of any or all works and improvements provided in this act.

SEC. 2. Section 7 of said act is amended to read:

Sec. 7. In carrying out the objectives and purposes of this act and exercising the powers of the district, the board may adopt ordinances, resolutions and take such other legislative action as is not in conflict with the Constitution and this act. All ordinances, resolutions and other legislative acts for said district shall be adopted by the board, and certified to, recorded and published in the same manner, except as herein otherwise expressly provided, as are ordinances, resolutions or other legislative acts for the county.

The initiative and referendum powers are hereby granted to the electors of the district to be exercised in relation to the enactment or rejectment of district ordinances in accordance with the procedure established by the laws of the State for the exercise of such powers in relation to counties.

SEC. 3. Section 13.1 of said act is amended to read:

Sec. 13 1. The board may establish zones, or annex new territory to an existing zone, within the district to undertake any project or works of improvement. As used in Sections 13.1 to 13 9, inclusive, of this act, "works of improvement" includes, without limitation as to the generality thereof, con-

struction of new works, and repair, or reconstruction of existing works.

Proceedings for the establishment of a zone or annexation of territory to a zone may be instituted by the board, by resolution, on its own initiative and shall be instituted by the board upon receipt of a petition requesting the formation, or annexation to, of a zone and signed by not less than 25 percent of the owners of real property in the territory proposed to be included within the zone as shown by the last equalized assessment roll of the county. The petition may consist of any number of separate instruments, each of which must comply with all of the requirements of a petition except as to number of signatures.

The procedure for undertaking projects or works of improvement through the creation of zones or annexation to zones is an alternate method for undertaking district projects and shall not affect or limit any other provisions of law authorizing or providing for undertaking such projects or works of improvement by the district as a whole.

A zone may be created and exist within a zone under this act. A zone including all or any part of an existing zone may be created and exist without destruction of such existing zone, except that the aggregate zone tax on such land included within two or more zones shall not exceed twenty-five cents ($0.25) on each one hundred dollars ($100) of assessed valuation, exclusive of any tax to pay principal and interest on bonded indebtedness of a zone, if protested at the time of creation by more than 50 percent of the owners of land within the area of the existing zone as shown on the last equalized assessment roll of the county.

Withdrawal of territory from a zone or termination after payment of all debts of a zone may be accomplished on order of the board after notice and hearing before the board and findings by the board as hereinafter indicated after receiving of a petition therefor signed by owners of not less than 25 percent of the assessed valuation or by not less than 25 percent of the owners of real property in the territory proposed to be withdrawn or the zone proposed to be terminated as the case may be, and determination by the board that the territory proposed to be withdrawn will receive no benefit from remaining within the zone or that the land included within a zone will receive no benefit from continuation of the zone as the case may be. Within 30 days after receiving such a petition bearing the requisite number of signatures the board shall adopt a resolution of intention to consider the withdrawal of territory or termination of zone as petitioned for setting forth the name of the zone and describing the territory proposed to be withdrawn or stating the proposal to terminate the zone as the case may be and stating the time and place for a public hearing at which the board will consider such proposal, which hearing shall be not less than 30 days nor more than 60 days after the adoption of the resolution. The clerk of the board shall publish

the resolution which shall constitute a notice of hearing at least once not closer than seven days prior to the date of the hearing in a newspaper of general circulation printed and published within the district. Copies of such resolution entitled "Notice of Hearing" in bold letters at least one inch in height shall also be posted in not less than three public places within the zone at least two weeks before the date set for hearing. If written protest is filed with the clerk by the owners of real property within the zone in excess of 50 percent of the owners of land within the zone as shown by the last equalized assessment roll of the county, the proceeding shall be abandoned. In the absence of such protest the board shall hear all persons interested in or protesting the proposal and if in the opinion of the board the territory proposed to be withdrawn will receive no benefit from remaining in the zone or the land included within a zone will receive no benefit from continuation of the zone as the case may be the board shall enter its order withdrawing such territory from the zone or terminating the zone as the case may be. Any territory withdrawn from a zone shall remain liable for assessment pursuant to Section 28 of this act for payment of interest and principal on any bonded indebtedness of the zone existing or authorized prior to such withdrawal.

SEC. 4. Section 13.4 of said act is amended to read:

Sec. 13.4. Prior to the hearing on the proposal to establish any zone or annex territory to a zone, the board shall direct the chief engineer of the district to make and file a report with the board which shall show:

(a) A general description of the type of project or works of improvement for which the zone is to be created or extended.

(b) A general description of any lands, rights of way, easements, and property to be taken, acquired, or injured in carrying out the initial work project of such zone or extended zone.

(c) A general estimate of the cost of the initial project or works, including a general estimate of the cost of any lands, rights of way, easements, and property proposed to be taken, acquired, or injured in carrying out said initial work, and also of all incidental expenses which may be incurred in connection therewith.

The report shall be considered by the board which may either accept the report as filed or refer it back to the chief engineer of the district for consideration of such modification or change as the board deems necessary in the best interests of the district.

SEC. 5. Section 13.5 of said act is amended to read:

Sec. 13.5. Within 30 days after receiving an engineer's report on the proposal to establish a zone or annex additional territory to a zone, which report is satisfactory to the board, the board shall adopt a resolution of intention to establish a zone or annex additional territory to a zone as the case may be, which resolution shall contain the following:

(a) A statement that a zone is proposed to be established or expanded as the case may be under the terms of this act and describing the boundaries of the territory proposed for inclusion in the zone.

(b) A statement as to the name proposed for the zone in substantially the following form: "Sonoma County Flood Control and Water Conservation District, Zone No. _____."

(c) A general description of the project or works of improvement for which the zone is to be created and a general estimate of the rate of assessment which must be levied to secure funds for the project or works of improvement initially proposed, which will be levied annually upon all taxable real property within the zone.

(d) A statement of the estimated cost of the proposed initial project or works of improvement.

(e) A statement of the time and place for a public hearing at which the board will consider the establishing or expanding of the zone which hearing shall be not less than 30 days nor more than 60 days after the adoption of the resolution.

SEC. 6. Section 35 of said act is amended to read:

Sec. 35. The area of the district is subject to periodical floods during the rainy seasons precipitated by run-off of water through inadequate natural channels, stream beds and rivers, including but not limited to the waters of the Russian River and the streams tributary thereto, which waters are an important potential source of water for domestic, industrial and agricultural uses inside and outside the watersheds. During the dry season, said river would be without water if it were not for the foreign waters turned into the river. Recognizing this fact, the United States Army Engineers have made studies and recommendations for a proposed plan of improvement for flood control and allied purposes on the Russian River drainage basin located within the area of the district, and upon such recommendations, it is necessary that the district be zoned in such a manner to determine the varying benefits to property located within the district, of the percentage of costs to be split among the zones created, and that no general law contains provisions for the issuance of bonds and for the purpose of raising funds to assist in such work. The cost of adequate flood control and water conservation is beyond the means of the property owners and taxpayers of the district, and it is necessary to negotiate to obtain financial aid from the United States Government. It is recommended by the United States Government and it is desirable to immediately form a political entity to satisfactorily deal with the agency of the United States Government.

Investigation having shown conditions in the County of Sonoma to be peculiar to that county, it is hereby declared that a general law cannot be made applicable thereto and that the enactment of this special law is necessary for the conservation, development, control and use of said waters for the protection of life and property therein and for the public good.

CHAPTER 1525

An act to amend Section 1300.17 of the Agricultural Code, relating to marketing orders.

In effect September 11, 1957

[Approved by Governor July 4, 1957. Filed with Secretary of State July 6, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 1300.17 of the Agricultural Code is amended to read:

Expense of administration

1300.17. (a) For the purpose of providing funds to defray the necessary expenses incurred by the director in the formulation, issuance, administration and enforcement of each marketing order issued hereunder, each such marketing order shall provide for the levying and collection of assessments in sufficient amounts to defray such expenses. Each marketing order shall indicate the maximum rate of any such assessment which may be collected and the proportion, if any, payable by each producer and handler directly regulated or affected by such marketing order. The advisory board appointed by the director to assist the director in administering each marketing order shall recommend to the director, from time to time, budgets to cover necessary expenses and the assessment rate necessary to provide sufficient funds. If the director finds that each such budget and assessment rate are proper and equitable and will provide sufficient moneys to defray the necessary expenses he may approve such budget and rate of assessment and order that each producer and handler so assessed shall pay to the director, at such times and in such installments as the director may prescribe, an assessment based upon the

units in which such agricultural commodity is marketed, or upon any other uniform basis which the director determines to be reasonable and equitable, but in amounts which in the case of producers will not exceed two and one-half percent (2½%) of the gross dollar volume of sales, of the commodity affected, by all such producers, regulated by such marketing order or in amounts which in the case of processors, distributors or other handlers will not exceed two and one-half percent (2½%) of the gross dollar volume of purchases of the commodity affected by the marketing order from producers or of the gross dollar volume of sales of the commodity affected by the marketing order and handled by all such processors, distributors or other handlers regulated by such marketing order during the marketing season or seasons during which such marketing order is effective.

Advance deposit

The director may require each and every producer, processor, distributor or handler directly regulated by any marketing order to deposit with him in advance, an amount based upon the estimated number of units to be marketed by such producer or handled by such processor, distributor or handler, or upon any other uniform basis which the director determines to be reasonable and equitable, such bases to be applicable during the marketing season or seasons during which such marketing order is effective. At any time after the funds credited to the administrative account of the marketing order are sufficient to so warrant, or at the close of the marketing season, the sums so deposited shall be adjusted to the amount which is chargeable against such producer, processor, distributor or handler upon the basis of the actual number of units marketed by such producer or handled by such processor, distributor or handler, or upon the same uniform basis under which such funds were assessed by the director, during such marketing season.

Advertising expense

(b) Each marketing order which authorizes carrying out advertising and sales promotion plans shall provide for the levying and collection of assessments in sufficient amounts to defray the expenses of such activities. Each such marketing order shall indicate the maximum rate of any such assessment and the proportion, if any, payable by each producer and handler directly regulated or affected by such marketing order The advisory board appointed by the director to assist the director in administering each marketing order shall recommend to the director, from time to time, budgets to cover such expenses and the assessment rate necessary to provide sufficient funds. If the director finds that each such budget and assessment rate are proper and equitable and will provide sufficient moneys to defray such expenses he may approve such budget and approve and levy such assessment. Any assessments so established shall be based upon the units in which such agricultural commodity is marketed or upon any other uniform basis which the director determines to be proper and equitable. Any assessment rates established hereunder shall be in amounts not to exceed four percent (4%) of the gross dollar volume of sales

by all producers or by all processors, distributors or other handlers of such agricultural commodity regulated by such marketing order during the marketing season or seasons during which such marketing order is effective.

Advance deposit

For the purpose of providing funds to cover the costs of such advertising or sales promotion plans incurred prior to the receipt of sufficient funds from assessments as provided herein, the director may require each person so assessed to deposit with him in advance an amount not exceeding twenty-five percent (25%) of such assessment, based upon the estimated number of units of such commodity to be marketed or handled by such person, or upon any other uniform basis which the director determines to be reasonable and equitable, during such marketing season. At any time after the funds credited to the advertising or sales promotion account of the marketing order are sufficient to so warrant, or at the close of the marketing season, the sum so deposited by such person shall be adjusted to the amount which is properly chargeable against such person pursuant to the assessment authorized herein.

Assessment in lieu of administration and advertising assessments

(c) In lieu of the assessments to defray the costs of formulation, issuance, administration and enforcement and advertising or sales promotion provided for in paragraphs (a) and (b) hereof, if the marketing order contains provisions for advertising or sales promotion as authorized in this chapter, the director may approve and fix one assessment not exceeding six and one-half percent (6½%) of the gross dollar volume of sales of such commodity by all producers, or by all processors, distributors or other handlers of such agricultural commodity regulated by such marketing order during the marketing season or seasons during which such marketing order is effective. The method and manner of assessment and collection thereof, and the limitations and restrictions applicable thereupon, shall conform in all respects with the provisions of paragraph (b) hereof, except as to the maximum amount of such assessment. In such case the advisory board shall recommend and the director may approve the proportions of such assessments which may be expended to defray the costs of formulation, issuance, administration and enforcement of the marketing order and of such advertising or sales promotion program; provided, that, the proportion of such assessments which may be allocated in such manner to defray the cost of such administrative activities for such marketing order shall in no case exceed the maximum amount authorized in paragraph (a) of this section.

Loans

(d) In the event any advisory board of any marketing order has reason to believe that the administration of a marketing order will be facilitated or the attainment of the purposes and objectives of the marketing order will be promoted thereby, the advisory board is authorized to borrow money with or without interest to carry out any provision of any marketing order authorized by this chapter, and may hypothecate anticipated assessment collections applicable to such respective provisions.

In lieu of requiring advance deposits for defraying administrative or advertising and sales promotion expenses until such time as sufficient moneys are collected for such purpose from the payment of assessments established pursuant to Section 1300.17 of this chapter, the director is authorized to receive and disburse for such expense purposes contributions made by producers, processors, distributors or other handlers. Neither the board nor the director shall be held responsible for the repayment of such contributions; provided, however, that whenever collections from the payment of established assessments credited to the respective marketing order accounts are sufficient to so warrant, the board shall recommend and the director shall authorize the repayment of contributions or authorize the application of such contributions to the assessment obligations of persons who made such contributions. Contributions

(e) For the convenience of making collections of any producer assessments established pursuant to this section, the director may collect such assessments from the handlers of the commodity being regulated. Handlers paying such assessments for and on behalf of any producers are authorized to deduct such producer assessments from any moneys owed by such handlers to such producers. Any marketing order may provide that handlers shall deduct producer assessments from any moneys owed by such handlers to such producers. Collections

The director shall prescribe rules and regulations with respect to the assessment and collection of funds pursuant to the provisions of this section.

(f) Any moneys collected by the director pursuant to this act shall be deposited in a bank or banks, or other depository, approved by the Director of Finance, allocated to each marketing order under which they are collected, and disbursed by the director only for the necessary expenses incurred by the advisory board and the director and approved by the director with respect to each such separate marketing order. Funds so collected shall be deposited and disbursed in conformity with appropriate rules and regulations prescribed by the director. The expenditure of such funds shall be exempt from the provisions of Section 16003 of the Government Code. All such expenditures by the director shall be audited at least annually by the Department of Finance and a copy of such audit shall be delivered within 30 days after the completion thereof to the Governor, the Director of Agriculture and the Controller. Any moneys in the State Treasury to the credit of the "State Marketing Act Trust Fund" shall be withdrawn and deposited in accordance with the provisions of this paragraph. Dispositions of moneys Audit

Any moneys remaining in such fund, allocable to any particular agricultural commodity affected by a marketing order, at the discretion of the director, may be refunded at the close of any marketing season upon a pro rata basis, to all persons from whom assessments were collected, or such portion of such moneys as may be recommended by the board and approved by the director may be carried over into the next suc- Refunds

ceeding marketing season whenever the director finds that such moneys may be required to assist in defraying the costs of operating such marketing order in such succeeding marketing season; provided, that upon termination by the director of any marketing order, any and all moneys remaining, and not required by the director to defray the expenses of such marketing order, shall be returned by the director upon a pro rata basis, to all persons from whom assessments were collected; provided further, however, that if the director finds that the amounts so returnable are so small as to make impractical the computation and remitting of such pro rata refund to such persons, the director may use the moneys in such fund to defray the expenses incurred by him in the formulation, issuance, administration or enforcement of any subsequent marketing order for such commodity. Thereafter, if there are any such moneys remaining which have not been used by the director as hereinabove provided, same shall be withdrawn from the approved depository and paid into the State Treasury as unclaimed trust moneys.

Investment

(g) Moneys deposited by the director pursuant to this section, which the director determines are available for investment, may be invested or reinvested by the State Treasurer in any of the securities described in Article 2 (commencing at Section 16430), Chapter 3, Part 2, Division 4, Title 2 of the Government Code, or placed in a bank as provided in Chapter 4 (commencing at Section 16500), Part 2, Division 4, Title 2 of the Government Code, and handled in the same manner as money in the State Treasury. Any increment received from such investment or reinvestment or deposit shall be remitted to the director for allocation, upon a proper and equitable basis, to each of the marketing orders concerned, and deposited and disbursed as provided in subdivision (f) of this section. The State Treasurer may deduct from such remittance an amount equal to the reasonable costs incurred in carrying out the provisions of this subdivision or may bill the director for such costs and the director shall pay such costs from moneys collected pursuant to this chapter.

If such judge admits his disqualification, or files his written consent that the action or proceeding be tried before another judge, or fails to file his answer within the five days herein

allowed, or if it shall be determined after hearing that he is disqualified, the action or proceeding shall be heard and determined by another judge or justice not disqualified, who shall be agreed upon by the parties, or, in the event of their failing to agree, appointed by the chairman of the Judicial Council; provided, however, that when there are two or more judges of the same court, one of whom is disqualified, the action or proceeding may be transferred to a judge who is not disqualified.

A judge who is disqualified may, notwithstanding his disqualification, request another judge, who has been agreed upon by the parties, to sit and act in his place.

Leave without pay

If the Director of Education determines that the best interests of the State will be so served, he may grant to such employee one leave of absence without pay, not to exceed one year, at any time following the completion of a leave of absence with pay pursuant to this article. Any course of instruction prescribed by the board pursuant to this section shall provide a quality of education not less than the current standards established and adopted for a basic two years' course of professional nursing education by both the National League for Nursing and the American Association of Junior Colleges.

Termination date

This section shall remain in effect until the ninetieth day after the close of the 1963 Regular Session of the Legislature.

Legislative intent

SEC. 2. Because of these factors, it is the intent of the Legislature to establish pilot programs by authorizing the Board of Nurse Examiners, for a provisional period, to accredit and maintain a continuing evaluation of not less than two-year courses in professional nursing education.

CHAPTER 1620

An act to amend Section 19825 of the Health and Safety Code, relating to local housing ordinances, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 4, 1957. Filed with Secretary of State July 8, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 19825 of the Health and Safety Code is amended to read:

19825. (a) The provisions of Part 1 (commencing at Section 15000) of this division and of Chapter 1 (commencing at Section 19000), Chapter 2 (commencing at Section 19100), and Chapter 3 (commencing at Section 19300) of Part 3 of this division shall not apply within any city having and enforcing a local ordinance prescribing minimum standards equal to or greater than such provisions of this division; such local ordinance shall supersede such provisions of this division.

To qualify for proffered federal aid in such programs communities are required to enact and enforce housing codes commensurate with modern, sound housing and neighborhood standards. Many provisions of the State Housing Act have been deemed inadequate in meeting such standards and Chapter 9 of Division 13 of the Health and Safety Code has been interpreted as prohibiting cities and counties from enacting and enforcing a housing ordinance that is more restrictive in its provisions than are the provisions of the State Housing Act.

In effect immediately

[Approved by Governor July 4, 1957. Filed with Secretary of State July 8, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 5.1 is added to the Santa Barbara County Flood Control and Water Conservation District Act, to read:

Sec. 5.1. The district may enter into contracts with the Federal Government or any other governmental agency incurring obligations or indebtedness not to be repaid in the year in which incurred and providing for the payment thereof to be made over periods in excess of one year, and may incur other obligations or indebtedness to be repaid in the next two succeeding fiscal years.

The district also finds it necessary to enter into contracts and other arrangements with other governmental agencies which would involve incurring indebtedness extending for a period longer than one year. This act would provide the necessary authorization in order to permit the district to accomplish its necessary functions. In order that the district may finance works urgently needed for the protection of life and property within the district and the development of water necessary for its inhabitants at the earliest possible time, it is necessary that this act go into immediate effect.

Such application shall also designate a sufficient number of certain vehicles in each fleet to be registered and licensed under Divisions 3 and 6 of this code and Division 2, Part 5, Revenue and Taxation Code, to produce total fee payments not less than an amount obtained by applying the proportion of in-state fleet miles to total fleet miles, as defined in subdivision (b) hereof, as reported in said application, to the fees which would otherwise be required for complete licensing and registration of such fleet in this State or, in the discretion of the department with respect to any fleet, shall, in lieu of the designation of vehicles as heretofore in this section provided, be accompanied by a fee equal to the amount computed as heretofore in this section provided. An application filed pursuant to this section with respect to fees due and payable on or before the next following fourth day of February may be filed with the department on or after November 1st. The department, notwithstanding the provisions of Section 143.5 of this code, shall register and issue a license plate or plates for such designated vehicles and shall issue distinctive stickers or

A fee of two dollars ($2) shall be paid for each such sticker or device issued The proportional registration and licensing provisions of this section shall apply to vehicles added to said fleet and operated in this State during the license year. Nonresidents shall be entitled to proportional registration hereunder unless the terms and conditions of any reciprocity agreement, arrangement, or declaration filed in the Office of the Director of Motor Vehicles under the provisions of Section 218 require otherwise.

(b) "Total fleet miles" for the purpose of proration under subdivision (a) includes total fleet miles in this State, in other jurisdictions having proportionate registration and licensing provisions, in jurisdictions with which this State has reciprocity, either under Section 215 or pursuant to a reciprocal agreement, arrangement, or declaration under Section 218, and in such other jurisdictions which the department determines should be included under the circumstances in order to protect or promote the interests of this State.

(c) Mileage proportions for such interstate fleets not operated in this State during the preceding year shall be determined by the department upon verified application on forms to be supplied by the department, upon request, which will show the operations of the preceding year in other jurisdictions and the estimated operation in this State. If no operations were conducted the previous year a full statement of the proposed method of operation shall accompany said application.

(d) Any penalties for delinquency in payment of fees under Section 378 of this code and Section 10854 of the Revenue and Taxation Code shall be computed with respect to the fees required to be paid pursuant to this section if the fleet operator elects to pay fees pursuant to this section.

(e) Any person complying with the provisions of this section shall preserve the records on which the application is based for a period of four full years following the year upon which said application is based and such applicant shall agree to make such records available to the department at its request and at its designated office for audit as to accuracy of computation and payments, or to pay the costs of an audit by the department or its duly appointed representative at the

applicant's home office. If the department determines that the applicant should have registered more vehicles in this State under provisions of this section or paid additional fees, the department may deny him the right of any further benefits by reason of any reciprocal agreement or declaration until the fees, including those for such additional vehicle or vehicles which should have been registered, have been paid. The fees determined to be due and owing under the provisions of this subdivision shall be a lien upon all vehicles of the applicant of a type subject to registration under this code and such lien shall attach at the time the audit report has been mailed to such applicant by the department and shall have the effect of an execution duly levied on such vehicles and shall so remain until said additional fees, so determined, are paid or a sufficient number of such vehicles sold for the payment thereof. At least 10 days prior to any such sale, notice thereof shall be given to any person appearing of record to have an interest in any such vehicle, by registered mail addressed to such person at the address indicated in such record.

(f) Vehicles of the type as described in subdivision (a) of Section 215 of nonresidents subject to registration and not entitled to exemption from registration or licensing under any of the provisions of this code or any agreements, arrangements or declarations made under the provisions of Section 218 may, if properly registered in another state, District of Columbia, territory, country, or province, secure a temporary permit to operate in this State for a period of not to exceed 90 days upon payment of one-tenth of the appropriate fees in Divisions 3 and 6 of this code and Division 2, Part 5, Revenue and Taxation Code applicable thereto for each 30-day period or fraction thereof that such vehicle is to be so operated in this State. Such permit shall be carried in such vehicle at all times while it is being operated in this State.

(g) This section shall become operative with respect to fees due and payable without regard to this section on and after January 1, 1956, but this shall not prevent the department from taking such administrative action prior to such operative date as will facilitate the operation of this section.

(h) The Legislature declares that in enacting this Section 219, it adheres to the principle that each state should have the freedom to develop the kind of highway user tax structure that it determines to be most appropriate to itself, that the method of taxation of interstate vehicles should not be a determining factor in developing its user tax structure, and that annual taxes or other taxes of the fixed fee type which are not imposed on a basis that reflects the amount of highway use should be apportioned among the states, within limits of practicality, on the basis of vehicle miles traveled within each of the states.

the State Forester a request for statement of issues, but such request shall not be deemed an answer to the statement of issues, a request for a hearing, or a notice of defense Unless within 30 days after the timely filing of such request the State Forester files a statement of issues thereon with the director, the permit shall be granted.

Reapplication

4966. When a statement of issues has been so filed, the director may order denial pursuant to Chapter 5 (commencing at Section 11500), Part 1, Division 3, Title 2 of the Government Code. Reapplication may be made after 60 days from date of denial.

Annual notice

4967. The holder of a permit shall annually within the month of January file with the State Forester an annual notice of timber operations. Such notice shall contain information as to the location of proposed timber operations in the current calendar year, and shall contain such other information as in an original application. Where timber operations for the current calendar year are not known or are not contemplated, the annual notice shall be, nevertheless, given and so state. Timber operations not contemplated in the annual notice shall not be undertaken without prior additional notice to the State Forester.

Conditions of permit

4968. A permit is subject to future legislation. It is not transferable. It may be deemed expired if annual notice of operations is not timely filed and if the State Forester has sent to the permittee notice of such expiration and filed in his office proof thereof by affidavit of service by ordinary mail. The permit, or a copy thereof, shall be available for inspection at all times in the area in which operations are being conducted. Timber operator's permits previously issued and now in effect are continued in effect and continue to be, and are, subject to revocation or suspension for acts and omissions prior to the effective date of this act as though the act had not been passed as well as for acts and omissions after the effective date of this act as in the case of new permits issued hereunder, but shall expire at the end of the current calendar year, after which the holder may apply for a new permit under this chapter; provided, however, that within six months after the issuance of such new permit, such new permit may be suspended or revoked not only for those acts and omissions after the effective date of this act which would have been ground for suspension or revocation of the continued permit if it had not expired but also for those acts and omissions which are under this chapter ground for suspension or revocation of a permit; and provided further, that after said six months such new permit may be suspended or revoked as other permits.

Suspension or revocation

4969. A permit may be suspended or revoked by the director pursuant to Chapter 5 (commencing at Section 11500), Part 1, Division 3, Title 2 of the Government Code for some, any, or all of the following reasons:

Proceeding to suspend or revoke

4971. A proceeding to suspend or revoke for failure or refusal to comply with forest practice rules, with a forest management plan, or with an alternate plan may not be commenced unless prior to filing the permittee has been given notice in writing by registered or certified mail to his last address of record, such notice to state in what respects he has not complied, and unless the permittee has been given a reasonable time to comply.

Order of suspension or revocation

4972. An order of suspension or revocation is final when made. Suspension may not exceed one year from date of order. After one year from date of revocation, unless sooner remitted as in this section provided, an application may be made for a new permit. On petition of respondent once within one year after date of suspension or revocation and on showing of change of conditions which led to suspension or revocation, the director may remit all, or any part of, the unexecuted portion of the penalty.

Findings and declarations affirmed

33976. The findings and declarations heretofore made in this part with respect to the existence of blighted areas in need of redevelopment are hereby affirmed and restated.

Additional declarations

33977. It is hereby further found and declared that:

(a) There exist in many communities other areas in which the conditions by which blighted areas are characterized are present to a lesser degree but still to such an extent that such areas are deteriorated or deteriorating and threaten to become blighted areas if the conditions of blight in them are not remedied.

(b) The existence of such deteriorated and deteriorating areas thus threatens to increase still further the extent, scope and effect of blighted areas and is itself declared to be a menace which is condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the State.

(c) In such deteriorated and deteriorating areas, and in some blighted areas, the conditions of blight can be remedied, the process of deterioration halted, and the spread of blight and development of blighted areas prevented by rehabilitation and conservation.

(d) The effective rehabilitation and conservation of such areas may require public acquisition at fair prices of certain parcels of land where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or to otherwise remove or prevent the spread of blight or deterioration, or to provide land for public facilities.

33978. It is further found and declared that there exists in many communities still other areas, parts of which are blighted to the extent that they require redevelopment, and other parts of which are blighted, deteriorated and deteriorating to the extent that they require rehabilitation and conservation, and the effective remedying of the conditions of blight and urban renewal of such areas requires the combination of redevelopment, rehabilitation and conservation measures. Combination of measures

33979. For these reasons it is declared to be the further policy of the State and the further purposes of this part: Purposes

(a) To promote and advance the urban renewal of blighted, deteriorated and deteriorating areas and the general welfare of the inhabitants of the communities in which such areas exist by the employment of all appropriate means.

(b) That whenever the urban renewal of blighted, deteriorated and deteriorating areas cannot be accomplished by private enterprise alone, without public participation and assistance in planning, in the acquisition of land, in the work of clearance, relocation of families and preparing the land for new building, in carrying out programs of voluntary or compulsory repair and rehabilitation of structures or other improvements, and in making site improvements and providing community facilities, it is in the public interest to employ the power of eminent domain and to advance or expend public funds for these purposes and otherwise to provide means by which blighted, deteriorated and deteriorating areas may be renewed.

(c) That the urban renewal of blighted, deteriorated and deteriorating areas and the provision of continuing land use and construction policies in them are public uses and purposes for which public money may be advanced or expended and private property acquired, and are governmental functions of state and community concern in the interest of the health, safety and general welfare of the people of the State and of the communites in which the areas exist.

(d) That the benefits which will result from the remedying of conditions of blight and the elimination and the prevention of the spread of blighted areas by the urban renewal of blighted, deteriorated and deteriorating areas shall accrue to all the inhabitants and property owners of the communities in which such areas exist.

(e) That the necessity in the public interest for the provisions of this part is a matter of legislative determination.

33980. In connection with the planning and undertaking of any urban renewal project, the agency, the community, the legislative body, the planning commission, and all public officers, agencies and bodies shall have all the powers, duties, rights, privileges and immunities which they have in respect to a redevelopment plan or a redevelopment project, in the same manner as though all the provisions of this part applicable to a redevelopment plan or a redevelopment project were applicable to an urban renewal plan or an urban re- Powers

newal project; provided, that the provisions of this section shall not apply to the taxation provisions of all of Article 4 of Chapter 5 of this part.

Specific authority

33981. In addition to the plans which an agency is otherwise authorized to prepare, an agency is hereby specifically authorized to prepare plans within urban renewal areas for urban renewal projects to include (1) a program of voluntary or compulsory repair and rehabilitation of buildings and improvements, and (2) the enforcement of laws, codes and regulations relating to the use of land and the use and occupancy of buildings and improvements, and to the compulsory repair, rehabilitation, demolition or removal of buildings and improvements. An agency is authorized to develop, test and report methods and techniques, and carry out demonstrations and other activities, for the prevention and elimination of conditions of blight and blighted areas.

SECTION 1. Section 1161 of the Code of Civil Procedure is amended to read:

Unlawful detainer Elements

1161. A tenant of real property, for a term less than life, or the executor or administrator of his estate heretofore qualified and now acting or hereafter to be qualified and act, is guilty of unlawful detainer:

1. When he continues in possession, in person or by subtenant, of the property, or any part thereof, after the expiration of the term for which it is let to him; provided such expiration is of a nondefault nature however brought about without the permission of his landlord, or the successor in estate of his landlord, if any there be; including the case where the person to be removed became the occupant of the premises as a servant, employee, agent, or licensee and the relation of master and servant or employer and employee or principal and agent or licensor and licensee has been lawfully terminated or the time fixed for such occupancy by the agree-

ment between the parties has expired; but nothing in this subdivision contained shall be construed as preventing the removal of such occupant in any other lawful manner; but in case of a tenancy at will, it must first be terminated by notice, as prescribed in the Civil Code.

2. When he continues in possession, in person or by subtenant, without the permission of his landlord, or the successor in estate of his landlord, if any there be, after default in the payment of rent, pursuant to the lease or agreement under which the property is held, and three days' notice, in writing, requiring its payment, stating the amount which is due, or possession of the property, shall have been served upon him and if there is a subtenant in actual occupation of the premises, also upon such subtenant.

Such notice may be served at any time within one year after the rent becomes due. In all cases of tenancy upon agricultural lands, where the tenant has held over and retained possession for more than 60 days after the expiration of the term without any demand of possession or notice to quit by the landlord or the successor in estate of his landlord, if any there be, he shall be deemed to be holding by permission of the landlord or successor in estate of his landlord, if any there be, and shall be entitled to hold under the terms of the lease for another full year, and shall not be guilty of an unlawful detainer during said year, and such holding over for the period aforesaid shall be taken and construed as a consent on the part of a tenant to hold for another year.

3. When he continues in possession, in person or by subtenant, after a neglect or failure to perform other conditions or covenants of the lease or agreement under which the property is held, including any covenant not to assign or sublet, than the one for the payment of rent, and three days' notice, in writing, requiring the performance of such conditions or covenants, or the possession of the property, shall have been served upon him, and if there is a subtenant in actual occupation of the premises, also, upon such subtenant. Within three days after the service of the notice, the tenant, or any subtenant in actual occupation of the premises, or any mortgagee of the term, or other person interested in its continuance, may perform the conditions or covenants of the lease or pay the stipulated rent, as the case may be, and thereby save the lease from forfeiture; provided, if the conditions and covenants of the lease, violated by the lessee, cannot afterward be performed, then no notice, as last prescribed herein, need be given to said lessee or his subtenant, demanding the performance of the violated conditions or covenants of the lease

A tenant may take proceedings, similar to those prescribed in this chapter, to obtain possession of the premises let to a subtenant or held by a servant, employee, agent, or licensee, in case of his unlawful detention of the premises underlet to him or held by him.

The certificate of appointment shall bear written evidence of acceptance of the appointment by the agent. Unless the license of the life agent is suspended by the commissioner, the appointment shall remain in effect until the end of the license term in which it is filed, until canceled by the insurer, or

until the license of the agent is revoked, whichever event first occurs. License term as used herein shall mean the term covered by the payment of a single filing fee.

Upon the filing of a certificate of appointment pursuant to this section, or an application and statement pursuant to Sections 1704 and 1705, the commissioner shall, subject to the provisions of this article, issue to the person appointed a license to act as life agent.

The situation is further aggravated by the tremendous population increase, particularly in school-age children, which California has experienced in the last decade. It has therefore become necessary for the State to render financial assistance to impoverished school districts in order that the children of this State not be denied their birthright of a good education. In order to prevent an interruption of this program of state school building aid assistance it is necessary that this act take effect immediately.

SECTION 1. Section 540 of the Code of Civil Procedure is amended to read:

Writ of attachment

540. The writ must be directed to the sheriff, or a constable, or marshal of any county in which property of such defendant may be, and must require him to attach and safely keep all the property of such defendant within his county not exempt from execution, specifically excluding one-half of the earnings of such defendant received for his personal services rendered at any time within 30 days next preceding the levy of attachment, or so much of the property of such defendant as may be sufficient to satisfy the plaintiff's demand against such defendant, the amount of which must be stated in conformity with the complaint, unless such defendant give him security by the undertaking of at least two sufficient sureties, which must first be approved by a judge of the court issuing the writ, or if said writ of attachment is issued to an-

other county then by a judge of a court, having jurisdiction in cases involving the amount specified in the writ, in the county where the levy shall have been, or is about to be, made, or deposit a sum of money with the sheriff, constable, or marshal in an amount sufficient to satisfy such demand against such defendant, besides costs, or in an amount equal to the value of the property of such defendant which has been or is about to be attached, in which case to take such undertaking or sum of money in lieu of the property which has been or is about to be attached; provided, however, that whenever a levy shall be made upon personal property, other than money, belonging to a going concern, and no undertaking is given as herein provided, then the officer making the levy must, if the defendant consents, place a keeper in charge of said attached property, at plaintiff's expense, for at least two days, and said keeper's fees must be prepaid by the attaching creditor. After the expiration of said two days, the sheriff, constable, or marshal shall take said property into his immediate custody, unless other disposition is made by the court or the parties to the action.

In the event that the action is against more than one defendant, any defendant whose property has been or is about to be attached in the action may give the sheriff, constable or marshal such undertaking which must first be approved by the judge as hereinabove provided, or deposit such sum of money, and the sheriff, constable, or marshal shall take the same in lieu of such property. Such undertaking, or the deposit of such sum of money, shall not subject such defendant to, or make him answerable for, any demand against any other defendant, nor shall the sheriff, constable, or marshal thereby be prevented from attaching or be obliged to release from attachment, any property of any other defendant; provided, however, that such defendant, at the time of giving such undertaking to, or depositing such sum of money with the sheriff, constable, or marshal shall file with the sheriff, constable, or marshal a statement, duly verified by his oath, wherein such defendant shall state the character of his title to the attached property and the manner in which he acquired such title, and aver and declare that the other defendant or defendants, in the action in which said undertaking was given or such sum of money was deposited, has or have not any interest or claim of any nature whatsoever in or to said property.

The people of the State of California do enact as follows:

SECTION 1. Section 542 of the Code of Civil Procedure is amended to read:

Execution of writ

542. The sheriff, constable, or marshal, to whom the writ is directed and delivered, must, upon receipt of instructions in writing, signed by the plaintiff or his attorney of record, and containing a description of the property, and in the case of real property or growing crops the name of the record owner of the real property to be attached, or upon which the crops are growing, execute the same without delay, and if the undertaking mentioned in Section 540 of this code be not given, as follows:

Real property in defendant's name

1. Real property, standing upon the records of the county in the name of the defendant, must be attached, by recording with the recorder of the county a copy of the writ, together with a description of the property attached, and a notice that it is attached, and by serving an occupant of the property, if there is one upon the property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the property, then, by posting the same in a conspicuous place on the property attached. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the property described in the notice consists of more than one distinct lot, parcel or governmental subdivision and any of such lots, parcels, or governmental subdivisions lie with relation to any of the others so as to form one or more continuous, unbroken tracts, one service or posting need be made as to each such continuous, unbroken tract.

Growing crops on land in defendant's name

1a. Growing crops (which, until severed, shall be deemed personal property not capable of manual delivery), growing upon real property standing upon the records of the county in the name of the defendant, must be attached by recording with the recorder of the county a copy of the writ, together with a description of the growing crops to be attached, and of the real property upon which the same are growing, and a notice that such growing crops are attached in pursuance of the writ, and by serving an occupant of the real property, if there is one upon the real property at the time service is attempted, with a similar copy of the writ, description and

notice, or if there is no occupant then on the real property, then, by posting the same in a conspicuous place on the real property. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the real property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the real property described in the notice consists of more than one distinct lot, parcel or governmental subdivision, and any of such lots, parcels or governmental subdivisions lie with relation to any of the others so as to form one or more continuous unbroken tracts, one service or posting need be made as to each such continuous unbroken tract.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

Real property held by another, etc

2. Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon the records of the county in the name of the defendant by the provisions of subdivision 1 of this section and the notice of attachment shall state that the real property therein described, and any interest of the defendant therein held by or standing on the records of the county in the name of such other person (naming him), are attached. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if within the county. The recorder must index such attachment when recorded, in the names, both of the defendant and of the person by whom the property is held or in whose name it stands of record.

Growing crops held by another, etc

2a Growing crops (which, until severence, shall be deemed personal property not capable of manual delivery), or any interest therein, belonging to the defendant, and growing upon real property held by any other person or standing upon

the records of the county in the name of any other person, must be attached in the same manner as growing crops growing upon real property standing upon the records of the county in the name of the defendant are attached by the provisions of subdivision 1a of this section, and the notice of attachment shall state that the crops therein described or any interest of the defendant therein, held by, or standing upon the records of the county in the name of, such other person (naming him), are attached in pursuance of the writ. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if known and within the county. The recorder must index such attachment when recorded, in the names of both the defendant and of the person by whom the real property is held, or in whose name it stands on the record.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and with or without notice as the court directs to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold under execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

Personal property capable of manual delivery

3. Personal property, capable of manual delivery, in the possession of the defendant, must be attached by taking it into custody.

4. Stocks or shares, or interest in stocks or shares, of any corporation or company, must be attached by leaving with the president, vice president or other head of the same, or the secretary, assistant secretary, cashier, assistant cashier, or any managing agent, thereof, a copy of the writ, and a notice stating that the stock or interest of the defendant is attached, in pursuance of such writ.

Safekeeping personalty: Plaintiff's deposit

5. In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff, constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to

exceed 15 days. In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each. Such demand must be served as provided in Section 1011 of this code, or by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence. In the event that the money so demanded is not paid, the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless the provisions of this section shall have been fully complied with. There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

Personal property not capable of manual delivery

6 Debts and credits and other personal property not capable of manual delivery must be attached by leaving with the persons owing such debts, or having in his possession, or under his control, such credits and other personal property, or with his agent or, in the case of a corporation, with the president of the corporation, vice president, secretary, assistant secretary, cashier, or managing agent thereof, a copy of the writ, and, if the demand as stated in the writ does not exceed three hundred dollars ($300) exclusive of interest, attorney's fees and costs, a copy of the complaint in the action from which the writ issued, and, in every case, a notice that the debts owing by him to the defendant, or the credits and other personal property in his possession, or under his control, belonging to the defendant, are attached in pursuance of such writ; provided, that debts owing to defendant arising from personal services rendered at any time within 30 days next preceding the levy of attachment such attachment is subject to the provisions of Section 690.11 of the Code of Civil Procedure; provided, however, that debts owing to the defendant by any of the following financial institutions: (a) banks; (b) savings and loan associations; (c) title insurance companies or underwritten title companies (as defined in Section 12402 of the Insurance Code); (d) industrial loan companies (as defined in Section 18003 of the Financial Code), maintaining branch offices, or credits or other personal property whether or not the same is capable of manual delivery, belonging to the defendant and in the possession of or under the control of such financial institution must be attached by leaving a copy of the writ and the notice, together with a copy of the complaint

if required hereunder, with the manager or other officer of such financial institution at the office or branch thereof at which the account evidencing such indebtedness of the defendant is carried, or at which such financial institution has credits or other personal property belonging to the defendant in its possession or under its control; and no attachment shall be effective as to any debt owing by such financial institution if the account evidencing such indebtedness is carried at an office or branch thereof not so served, or as to any credits or other personal property in its possession or under its control at any office or branch thereof not so served.

Checks, etc.

7. Checks, drafts, money orders and other orders for the withdrawal of money from a banking corporation or association, which are in the possession of and payable to the defendant or judgment debtor on demand, must be attached by taking the same into custody, and the sheriff, constable, or marshal, to whom the writ is directed and delivered, shall promptly thereafter endorse the same and present, or cause the same to be presented, for payment. The sheriff, constable, or marshal shall endorse such check, draft, money order or other order for the withdrawal of money by writing the name of the defendant or judgment debtor thereon and the name and official title of the officer making the levy with the statement that such endorsement is made pursuant to levy of writ of attachment or execution and giving the title of court and cause in which such writ was issued, and such endorsement shall be sufficient endorsement and no banking corporation or association on which said check, draft, money order or other order for the withdrawal of money is drawn shall incur any liability to any person, firm or corporation by reason of paying to such officer such check, draft, money order or other order for withdrawal of money by reason of such endorsement, nor shall the officer making the levy incur any liability by reason of his endorsing and presenting for and obtaining payment of such check, draft, money order or other order for the payment of money; provided, however, that the funds or credit resulting from the payment of such check, draft, money order or other order for withdrawal of money shall be held by said officer subject to the levy of said writ of attachment or execution. If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy shall not endorse said check, draft, money order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such

check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

[Approved by Governor July 5, 1957. Filed with Secretary of State July 8, 1957.] In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Chapter 3c is added to Title 14 of Part 4 of Division 3 of the Civil Code, to read:

CHAPTER 3c. INVENTORY LIENS

3030. In this chapter:

(1) "Merchandise" means raw materials, parts, goods in process of manufacture and finished goods intended for sale, whether or not requiring further manufacturing or processing, but shall not include trade fixtures, machinery and equipment constituting a part of the manufacturing or processing facilities of the borrower, or merchandise represented by negotiable or nonnegotiable warehouse receipts, bills of lading, or other documents of title. "Merchandise"

(2) "Lender" means a person, firm, bank or corporation, and his successors in interest, who advances money on the security of merchandise, whether or not he is employed to sell such merchandise. A person in the business of selling or supplying merchandise for profit who sells or supplies the same to a buyer on credit, whether secured or unsecured, is excluded as to such merchandise. "Lender"

"Borrower" (3) "Borrower" means the owner of merchandise, or his agent, who creates a lien in favor of a lender, but shall not include a retail merchant, a grower of products of the soil other than timber, a producer of animals, or a producer of the products of live animals other than a person who takes title to or possession or control of such products from the original producer for the purpose of processing or manufacturing the same and selling, reselling or redelivering the same in dried, canned, extracted, fermented, distilled, frozen, or other preserved or processed form.

Lender's lien 3031. If so provided by any written agreement with the borrower, a lender shall have a continuing lien upon such merchandise of the borrower as is from time to time after the execution of said written agreement designated in one or more separate written statements dated and signed by the borrower and delivered to the lender, without compliance with Sections 3440 or 3440.1 of this code and without such merchandise being taken into the constructive or actual possession or custody of the lender or of a third person for the account of the lender, and such lien shall secure the lender for all his loans and advances to or for the account of the borrower, together with interest thereon, and also for the commissions, obligations, indebtedness, charges, and expenses properly chargeable against or due from said borrower, and for the amounts due or owing upon any notes or other obligations given to or received by the lender for or upon account of any such loans or advances, interest, commissions, obligations, indebtedness, charges, and expenses. Such lien shall be valid after the expiration of 10 days from the time of filing the notice hereinafter referred to, whether such merchandise shall be in existence at the time of the execution of the written agreement providing for the creation of the lien or at the time of filing such notice or shall come into existence subsequently thereto or shall subsequently thereto be acquired by the borrower. Upon default by the borrower under the terms of any obligation secured by such lien, the lender shall be entitled to possession of the merchandise and may dispose thereof in the manner and upon the notice prescribed by the title on "pledge" or in such other manner as may have been agreed upon by the borrower and lender.

Notice of inventory lien Contents 3032. A notice of lien entitled "notice of inventory lien" shall be signed by the lender and the borrower and shall contain the name of the lender, the name of the borrower, the chief place of business of each within this State, if any, and, if either of them has no place of business within this State, his residence or chief place of business outside the State, the maximum amount of the indebtedness to be secured at any one time, the general character of the merchandise subject or to be subject to the lien, and the address where the merchandise shall be located.

Filing 3033. The notice of lien shall be filed in the office of the county recorder of the county in which the borrower has

his principal place of business within this State, and the county recorder of the county in which the merchandise is, or is to be, located.

Marking, indexing, etc

3034. It shall be the duty of the county recorder to mark each notice filed with a file number and with the date and hour of filing, to file the same and to index each notice in a separate index entitled "index of notices of inventory liens" under the name of the borrower and the lender. Amendments of the notice may be filed from time to time in the same manner to record any changes in the information contained in the original, subsequent or amended notices. Upon the filing of any such notice or amendment thereto, if requested to do so by the person filing such notice, it shall be the duty of the county recorder to deliver to or mail to such person a certificate under seal, certifying that such notice has been filed, giving the file number and the date and hour of filing and stating whether or not there is on file in his office on the date and hour of such filing any other presently uncanceled notice of inventory lien by the borrower named in the notice so filed and setting forth therein the names and addresses of the lender or lenders named in any such presently effective uncanceled notice or notices then on file. The county recorder may issue a certificate to any person showing whether or not there is on file any presently effective uncanceled notice of inventory lien by any borrower and, if so, setting forth therein the names and addresses of the lender or lenders named therein. The fees of the county recorder for carrying out the duties prescribed by this section shall be as prescribed by law.

When deemed filed

3035. Upon presentation to the county recorder for filing of any such notice or amendment thereto, and the payment of the filing fee, the same shall be deemed to be filed for the purposes of this chapter.

Effect

3036. Upon the expiration of 10 days from the time of filing such notice the lien provided by this chapter shall be effective as against all claims of unsecured creditors of the borrower and as against subsequent liens of creditors, except any producers' liens if the lender has not complied with the provisions of Chapter 9 of Division 6 of the Agricultural Code and except any common-law or statutory liens of processors, mechanics, artisans, or others subsequently attaching to such merchandise by reason of work or services rendered thereon; but this chapter shall not obligate the lender personally for any debt secured by such lien. Where warehouse receipts, bills of lading or other documents of title procured by the borrower in substitution for any merchandise subject to such lien are transferred for new value (as defined in Section 3013 of the Civil Code) to a transferee without actual knowledge of such lien, such lien shall be subordinate to the rights of such transferee. As between two or more lenders who receive written statements from the borrower designating the same merchandise, the lender whose notice of inventory lien is first filed as

provided in this chapter is entitled to priority over all other lenders claiming the same merchandise.

Termination

3037. When merchandise subject to the lien provided for by this chapter is sold in the ordinary course of the business of the borrower, such lien, whether or not the purchaser has knowledge of the existence thereof, shall terminate as to the merchandise so sold and shall attach to any proceeds of such sale, including any obligation to pay for the merchandise.

Superior rights

The rights of the lender to such proceeds shall be subject to

(a) Any setoff or defense valid against the borrower and accruing before the purchaser has actual knowledge of such lien;

(b) The rights of a holder in due course of a negotiable instrument;

(c) The rights of a transferee without actual knowledge of such lien of a nonnegotiable contract or instrument whose transfer has been perfected against third parties; and

(d) If such proceeds are on deposit in a bank, to any lien or right of setoff of the bank.

Proceeds on account

If such proceeds are an account as defined in Chapter 3b of this title, the lenders' rights to the account or accounts as against third persons are governed by the provisions of said Chapter 3b except that the written statement provided for in Section 3031 of this title shall, unless stated therein to the contrary, constitute an assignment in writing to the lender of any account or accounts that may arise from the sale of any of the merchandise designated therein. In order to perfect his rights to such proceeds which are an account as defined in Chapter 3b of this title, as against third persons, the lender shall comply with the provisions of Chapter 3b relative to filing a notice of assignment or of intention to assign an account or accounts, and his rights to such account or accounts and the proceeds thereof shall be inferior to those of any other assignee of such account or accounts who has first filed the notice of assignment or of intention to assign an account or accounts, or a further notice or affidavit filed prior to the expiration of such notice of assignment pursuant to said Chapter 3b, regardless of whether the assignment of such account or accounts to such other assignee is prior or subsequent to the written statement provided for in Section 3031 or the filing of the notice provided for in Section 3033, or any assignment of such account or accounts to the lender.

Effective period of notice

3038. Any such notice shall be ineffective after three years from the date of filing. At any time before the expiration of the original or any subsequent filing, a like notice signed by the borrower and the lender, or an affidavit by the lender alone, setting out the information required by Section 3032, may be

Further notice or affidavit

filed in like manner as the original filing. Any filing of such further notice or affidavit shall be effective in like manner and for a like period as an original filing, except that the lien shall be effective from the time of filing the further notice or affidavit, with the same priorities that existed prior to such

filing. It shall be the duty of the county recorder to mark, file and index the further statement or affidavit in like manner as the original. At any time after seven years from the date when such notice was filed in the recorder's office, the recorder may destroy the same together with any certificate or statement of cancellation or satisfaction filed in connection with such notice, unless he has been notified in writing to retain the same by someone claiming some interest under such notice.

Cancellation

3039. Any notice filed hereunder may be canceled by a certificate executed and acknowledged by the lender reciting (1) the date of the notice, (2) the date of the filing thereof, (3) the names of the parties thereto, and (4) a statement that the same is canceled.

Certificate of discharge

3040. (a) Upon payment or satisfaction of the indebtedness secured by the lien provided for by this chapter, and upon written demand delivered personally or by registered mail by the borrower, the lender shall execute and acknowledge and deliver to the borrower a certificate reciting (1) the date of the notice, (2) the date of the filing thereof, (3) the names of the parties thereto, and (4) a statement that the indebtedness described in the notice has been paid or otherwise satisfied and discharged.

Same: Penalties for failure to give

(b) If for 10 days after such demand, the lender fails to mail or deliver such a statement of satisfaction, he shall be liable to the borrower for all actual direct damages suffered by him as a result of such failure and, if the failure is in bad faith, for a penalty of one hundred dollars ($100) Upon presentation of such certificate of satisfaction or cancellation, it shall be the duty of the filing officer to file the same and note the cancellation of the notice, and the date thereof, on the margin of the page where the notice has been indexed.

Information

3041 It shall be the duty of any lender who has filed a presently effective and uncanceled notice to furnish to any person such information relative to the borrower's indebtedness to the lender and the merchandise subject to his lien as the borrower may in writing direct.

Excepted transactions

3042. This chapter shall not apply to transactions of bailment, pledge, or consignment of merchandise in the actual or constructive possession or custody of the lender, or in the actual or constructive possession or custody of a third person for the account of the lender, and in such transactions and in any transaction under which the lender shall not comply with the filing requirements of this chapter, the lender shall have such security interest or lien rights in the merchandise as shall accrue to the lender under the statutory and common law as it otherwise exists

Compliance with provisions

3043 As to any transactions falling within the provisions both of this chapter and of any other law requiring or permitting filing or recording, the lender shall not be required to comply with both, but by complying with the provisions of either, at the lender's election, the lender shall have the protection given by the provisions complied with. If any part of

Severability of provisions

this chapter or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect any other parts, provisions, or applications of this chapter which can be given effect without the invalid provision or application, and to such end all parts and provisions of this chapter are declared to be severable.

[Approved by Governor July 5, 1957. Filed with Secretary of State July 8, 1957.]

In effect September 11, 1957

SECTION 1. Section 5047.3 is added to the Education Code, to read:

5047.3. Where a district is required by a contract entered into between itself and a general construction contractor to obtain, at its own expense, insurance covering risks incurred during any construction for which an apportionment has been made, the cost thereof may be paid directly to said district out of the Public School Building Loan Fund.

It is the intent and purpose of this section to provide for reimbursement to such school districts for all such builders' risk insurance as may have been furnished and paid for by such districts in connection with approved apportionments from the Public School Building Loan Fund from the time of the effective date of Chapter 1389 of the Statutes of 1949.

The Legislature in adopting this section expressly recognizes that eligible school districts in making provision for builders' risk insurance during the period of construction of new buildings has provided a saving for the taxpayers of such district, and also has reduced the amount which otherwise would have been paid out of the Public School Building Loan Fund to such district if the cost of such builders' risk insurance had been borne by the contractor with the district; for this reason the Legislature hereby finds, determines and declares that the adoption of this section having an effect retroactive to the effective date of said Chapter 1389 of the Statutes of 1949 is therefore lawful, proper and represents the saving of public funds for a lawful and public purpose.

The Controller of the State of California is hereby authorized and directed to cancel and annul any claims or demands against such school districts arising out of, or in any way connected with, claims for reimbursement from such school districts to the Public School Building Loan Fund arising out of the direct purchase of builders' risk insurance on any construction by any such school district under an approved application by the Local Allocation Board of the Department of Finance of the State of California.

Statement Operation and costs

12878 1. Whenever the department finds that a unit of a project is not being operated or maintained in accordance with the standards established by federal regulations or whenever the governing body of a local agency obligated to operate and maintain any such unit by resolution duly adopted and filed with the department declares that it no longer desires to operate and maintain such unit, the department shall prepare a statement to that effect specifying in detail the particular items of work necessary to be done in order to comply with the standards of the Federal Government together with an

estimate of the cost thereof for the current fiscal year and for the ensuing fiscal year.

Description of unit, etc

12878.2. The statement shall include a description of the unit and the name of the local agency, if any, responsible for its operation and maintenance and such statement shall be transmitted to the affected local agency in all cases and also to the board as to projects under its jurisdiction.

Inadmissible as evidence

12878.3. Any such statement shall not be admissible as evidence in any court action brought against the local agency, its governing body or any member thereof or the State or any of its officials, nor shall the failure of the local agency, its governing body, or any member thereof, or the State or any of its officials, to comply with anything which may be specified as necessary in any such statement, be construed as negligence in any such action.

Protest, hearing

12878.4. If the local agency, within 45 days after the date of receipt of the said statement of the department, files a protest thereto with the board or department setting forth in detail the basis of its objections, then the board or department shall schedule a hearing to be held within 30 days of the filing of the said protest to hear any relevant information which said local agency may care to present in support of its protest. As to projects under the jurisdiction of the board, the board shall make such investigation as it deems necessary to determine the likelihood that the unit will thereafter be operated and maintained satisfactorily by the local agency. The said local agency shall be given at least 10 days written notice of the date and place of said hearing. Representatives of the local agency, the department and other interested parties may appear at the said hearing and present any information relevant to the said protest of the local agency or in support of the statement of the department. Upon conclusion of said hearing, if the board or department finds that there are no items of defective maintenance, or that the local agency will correct the deficiencies and maintain and operate the project works in accordance with the standards established by the federal regulations, there shall be no further proceedings under the provisions of this chapter.

Investigation and hearing

No further proceedings

Maintenance area

12878.5. If no protest is received by the board or department pursuant to the provisions of the preceding section, the board or department shall adopt and establish the estimated sum previously set forth in the statement of the department made pursuant to Section 12878.1 of this code as the amount necessary to maintain the unit during the current and the ensuing fiscal year and shall thereupon proceed with the formation of a maintenance area in accordance with the provisions of this chapter.

Same

12878.6. If, within 30 days after conclusion of the hearing held pursuant to Section 12878.4 of this code, the governing body of the local agency has not given assurances satisfactory to the board or department that the said local agency will correct the deficiencies and maintain and operate the project

works in accordance with the standards established by the federal regulations, or that such local agency does not desire to continue to operate and maintain such unit, or that there is no such local agency obligated to so maintain and operate such unit, the board or department shall establish the amount of money necessary to maintain the unit during the current and ensuing fiscal year and shall proceed with the formation of a maintenance area in accordance with the provisions of this chapter.

Description and map

12878.7. The board or department shall prepare a description of the proposed boundaries together with a map thereof for each maintenance area to be formed. For the purpose of preparing these boundaries and this map, the board or department shall make such investigations as may be necessary and may utilize any and all books, maps, or other relevant records, whether or not on file in the offices of the board or department or any other office or agency of the State. All officers or agencies of the State shall render whatever assistance may be required to facilitate the work of the board or department pursuant to the provisions of this chapter.

Zones

12878.8. Any maintenance area may be divided into zones when it is determined by the investigation that the benefit to the land in the area is not uniform throughout the area.

Numerical designation

12878 9. If a maintenance area is divided into zones, the zones shall be given a numerical designation starting with Zone 1 which shall be the zone which receives the greatest proportional benefit. This benefit shall be expressed as 100 percent and the benefits received by the other zones shall be expressed in terms of relatively smaller percentages as such benefits compare with those received by Zone 1. The map of the proposed boundaries of the maintenance area shall also show the boundaries of the zones, if any, therein and the percentages of benefits to each such zone. The amount to be collected from each zone of a maintenance area shall be determined by the following formula: the assessed valuation of the land within the zone, multiplied by the percentage of benefit for that zone, multiplied by the total amount to be collected in the maintenance area; divided by the sum of the various products obtained by multiplying the assessed valuation of each zone in the maintenance area by its corresponding percentage of benefit.

Hearing

12878.10. Upon completion of the said description and map, the board or department shall schedule a hearing to be held either at some convenient place within the proposed boundaries of the maintenance area or at Sacramento, whichever appears to the board or department to be more convenient for all interested parties.

Notice

12878.11. Notice of the hearing shall be given by publication in at least one newspaper of general circulation within the proposed boundaries of the maintenance area for at least once a week for two successive weeks.

Contents of notice

12878.12. The notice shall state the time and place of hearing, that the purpose of the hearing is to establish the boundaries of the maintenance area benefited by the continued operation and maintenance of the unit, and the location of the place or places where the map showing the proposed boundaries as determined by the board or department may be inspected by any interested person. The notice shall include a description of the maintenance area, which may be brief and in general terms.

Evidence

12878.13. At the hearing any owner of land within the proposed boundaries of the maintenance area or other interested person may offer, and the board or department shall receive, any relevant evidence or testimony relating to the establishment of the boundaries of the area, the zones therein, or the benefits to be received by the continued operation and maintenance of the unit. Any such owner or interested person may object to the inclusion of land within the maintenance area or any zone therein or may request the inclusion of any other land within the area or a change in the boundaries or percentage of benefits of any zone.

Land outside exterior boundaries

12878.14. Land lying without the exterior boundaries of the proposed maintenance area as shown on the map prepared by the board or department shall not be included within the maintenance area unless at the hearing the owner thereof consents or the owner is given notice and an opportunity to object to such inclusion and to be heard thereon.

Adjournment of hearing.

12878.15. When any such additional land is proposed to be included and the owner's consent is not given, the hearing shall be adjourned to a specified time and place.

Notice

12878.16. Notice of such adjourned hearing, where additional land is to be included, and the purpose thereof shall be given by publication of notice at least once a week for two successive weeks in a newspaper of general circulation in the county in which the land, or the greater portion of the land, sought to be included is situated, or, in lieu of such publication, by service by registered mail upon the owner of such land as determined by the last equalized assessment roll in accordance with which such land was assessed.

Establishment of boundaries

12878.17. Upon the final conclusion of such hearing the board or department shall establish the boundaries of the maintenance area and of the zones therein and the percentages of benefits of the respective zones, in such manner that all of the lands benefited by the continued operation and maintenance of the unit will be included in the maintenance area and that all land within the area will be classified in proportion to the benefits received by it.

Land benefited by more than one unit

12878.18. Land benefited by more than one unit may be included within as many maintenance areas as there are units by which it is benefited.

Order or resolution

12878.19. The establishment of a maintenance area pursuant to this chapter shall be evidenced by an order or resolu-

tion of the board or director creating such area. The order or resolution shall describe the boundaries of the maintenance area and of the zones and the percentage of benefits for each zone, if any, and each such area shall be given a name, which may include a number, by which the area shall be known and designated. Such name shall be as brief as circumstances permit.

Same Filing

12878.20. The order or resolution determining and establishing the boundaries thereof shall be filed for record in the office of the county recorder of each county within which any portion of a maintenance area is located. Thereupon the determination and establishment of such maintenance area shall be complete.

Operation and maintenance

12878.21. Upon the formation of a maintenance area, the department shall thereafter operate and maintain the unit until such time as the maintenance area may be dissolved pursuant to the provisions of this chapter.

Article 2. Dissolution of Maintenance Areas

Dissolution of maintenance areas

12878.22. Any local agency obligated by Chapters 2 (commencing at Section 12639) and 4 (commencing at Section 12850) of this part, or by Section 8370 of this code, or by any other law of the State, to operate and maintain any unit, any part of whose territory has been incorporated in a maintenance area, or any local agency desirous of assuming the obligation of operating and maintaining any unit concerning which unit a maintenance area has been formed pursuant to this article, may petition the board or department to dissolve such maintenance area, and the board or department, after a hearing, may dissolve such maintenance area if in its discretion it finds it to be in the best interest of the State to do so.

Article 3. Modification of Maintenance Areas

Modification of maintenance areas

12878.23 The boundaries of any established maintenance area or zones therein, the description of works to be maintained therein, and the determination of relative benefits within any zone may be modified by the board or department upon its own initiative or upon petition by the governing body of the local agency formerly responsible for the operation and maintenance of the unit or by the board of supervisors of the county in which all or a portion of the unit is located.

Proceedings

12878.24. Upon receipt of any such petition for modification or upon initiation of any such proceeding by its own action the board or department shall conduct such modification proceedings as near as may be in the manner provided in this chapter for the formation of maintenance areas, and may make such modification if in its discretion and judgment the best interests of the State and the area affected will be served thereby.

Article 4. Assessments for Maintenance and Operation

Presumption of benefit

12878.25. The land within each zone, and the land within each maintenance area, if no zones are established therein, shall be conclusively presumed to be benefited by the continued operation and maintenance of the unit in accordance with the assessed valuation of the land and the improvements thereon, and shall be subject to assessment as provided in this article.

Assessments and boundary changes

12878.26. Each maintenance area is a district within which assessments are collected according to the value of the land therein, and the provisions of Chapter 8 (commencing at Section 54900), Part 1, Division 2, Title 5 of the Government Code shall be complied with.

Cost estimate

12878.27. The department shall, prior to the first day of April of each year, estimate the cost of the operation and maintenance of each unit during the ensuing fiscal year and during the current fiscal year where no assessment has been levied or collected for the current fiscal year and adjust such estimates as provided in Section 12878.44. The department shall transmit a copy of such estimates to the board as to all units within the jurisdiction of the board.

Hearing

12878.28. Following the first day of April of each year, the board or department shall hold a hearing at Sacramento on the matter of fixing the estimates and assessments for all units to be operated or maintained by the department pursuant to this chapter.

Notice

12878.29. Notice of the hearing shall be given by publication in at least one newspaper of general circulation in each maintenance area affected for at least once a week for two successive weeks.

Contents of notice

12878.30. The notice shall set the time and place of the hearing which shall be held not less than 10 days following the completion of publication as to all maintenance areas, and shall state that the purpose of the hearing is to confirm or modify or revise the program of work to be performed on the units for which estimates have been made pursuant to Section 12878.27, and to determine the necessity for such work and the amount of the estimates therefor.

Evidence

12878.31. At the hearing any owner of land in any maintenance area affected, or other interested person may offer, and the board or department shall receive, any relevant evidence or testimony concerning the proposed program of work relating to any such unit, the necessity for such work, or the estimate of the cost thereof.

Fixing amount of assessment

12878.32. Upon the final conclusion of such hearing the board or department shall fix the amount of the estimate for each such unit for all purposes of the assessments provided for in this article, and in all cases where the board fixes the said amount it shall immediately notify the department of the amounts thereof.

Area within more than one county

12878.33. If any area or zone lies within more than one county, the department shall divide the amount of the estimate

in the proportion of the assessed valuation of the land in the area or zone lying in each county. The assessed valuation shall be determined on the basis of the last equalized assessment roll of the respective counties.

Use of assessment rolls

Certification of amount required

12878.34. The department shall certify to the auditor and board of supervisors of each county in which each maintenance area, or part thereof, lies, the amount required, in order to pay the estimate for the ensuing fiscal year or the current fiscal year where no assessment has been levied or collected for the current fiscal year, to be levied in each area, and if the area is divided into zones, the amount required to be levied for such purposes in each zone.

Assessment:

12878.35. The board of supervisors of each county in which there lies a maintenance area or any portion thereof shall annually, and at the time of levying county taxes, levy on the land within the county and within the area, or if zones are established, within each zone, an ad valorem assessment sufficient to raise the amount or amounts certified by the department.

Identification

12878.36. Each assessment shall be identified by the name and number, if any, of the area, and by the number of the zone, if a zone is involved.

Rate

12878.37. The board of supervisors shall determine a rate of assessment sufficient to cover the amount of the estimate for each area or zone, making reasonable allowance for anticipated delinquencies. If a fraction of a cent occurs in a valuation of one hundred dollars ($100), it shall be taken as a full cent. The assessment shall be computed and entered upon the assessment roll by the auditor.

Collection, etc

12878.38. Assessments levied pursuant to this article shall be collected at the same time and in the same manner as county taxes. So far as applicable, all provisions of law relating to the equalization, levy, payment, and collection of county taxes shall apply to such assessments and all provisions of law relating to the duties of county officers in relation to county taxes shall apply to such assessments, except as otherwise expressly provided by this chapter, so far as the same are or may be made applicable.

Accounting and transmittal of money

12878.39. All money raised by such assessments shall be accounted for separately as to each area and zone. All such money shall be transmitted by January 1st and July 1st of each year to the department for deposit in the Water Resources Revolving Fund.

Article 5. Administration of Maintenance Area Funds

Appropriation

12878.41. All money deposited in the Water Resources Revolving Fund pursuant to Section 12878.39, and all money transferred to the Water Resources Revolving Fund from the Flood Control Project Maintenance Revolving Fund, or appropriated for flood project maintenance under this chapter, is appropriated for the purposes of this chapter without regard

to fiscal years and shall not be subject to the provisions of Section 16304 of the Government Code.

Separate accounts, availability of funds

12878.42. The department shall keep a separate account for each maintenance area as to money deposited under Section 12878 39 and expenditures under this chapter in such area. The money in such accounts shall be available to the department for expenditure for the operation and maintenance of the unit for which the maintenance area was formed and from which the money in the account was derived.

Same

12878.43. The department shall keep a separate account for money appropriated for the purposes of this chapter from the General Fund. The money in this account shall be available to the department for expenditure for the maintenance and operation of any unit for which a maintenance area is formed to the extent there is no money, or insufficient money, available under Section 12878.42. All money so expended shall be repaid from any money subsequently deposited by the benefited maintenance area.

Limitation of expenditures, deficits

12878.44. Money expended upon any unit during any fiscal year shall not exceed by more than 20 percent the amount of the estimate for such unit for such fiscal year. If in any fiscal year more money will be expended upon a unit than is, or will be, available from assessments or collections thereon derived from the maintenance area, the estimated amount of the deficit shall be added to the estimate for said unit for the following fiscal years, and if less will be expended than collected, the estimated amount of such excess shall be deducted from the estimate.

State Controller

12878.45. The State Controller shall have no responsibility for verifying the correctness of the claim as to the account upon which it is drawn, and the State Controller shall keep no separate accounts for the maintenance areas under this chapter within the Water Resources Revolving Fund.

Flood Control Project Maintenance Revolving Fund abolished, etc.

SEC. 2. The Flood Control Project Maintenance Revolving Fund is hereby abolished. All assets, resources, and liabilities of this fund shall be transferred as of the effective date of this act to the Water Resources Revolving Fund.

CHAPTER 1833

An act to add Section 1192.2 to, and to amend Section 1190.1 of the Code of Civil Procedure, relating to mechanics' liens.

In effect September 11, 1957

[Approved by Governor July 6, 1957. Filed with Secretary of State July 9, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 1190.1 of the Code of Civil Procedure is amended to read:

Procedure re mechanics' lien

1190.1. (a) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor, and all persons, firms and corporations, excluding the contractor, performing work or furnishing materials, or both, upon any public improvement, including highways, streets, wagon roads, viaducts or sewers, may at any time, prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, give to the owner, a notice that they have performed labor or furnished materials, or both, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both, and any of said persons who shall on the written demand of the owner refuse to

give such notice shall thereby deprive himself of the right to claim a lien under this chapter.

(b) Such notice must be verified by the claimant, or by some person acting in his behalf, and may be given by delivering the same to said owner, personally, or by leaving it at his residence or place of business with some person in charge, or by delivering it to his architect, if any; provided, however, that in all cases in which said work is being done under a contract with the State, or with any public board, commission, or officer thereof, or with any political subdivision thereof, such notice must be filed, within said time, in the office of the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract, or with the commissioners, managers, trustees, officers, board of supervisors, board of trustees, common council or other body by whom the contract for the improvement was awarded. In the case of any contract of the State by or through the Department of Public Works, such notice must be filed with the Director of Public Works, and not with the State Controller. In the case of any contract of the State by or through any other state department, board, commission, or officer, such notice must be filed within said time with the head of such state department, board, commission, or officer and not with the State Controller. No such notice shall be invalid by reason of any defect in form; provided, it is sufficient to inform the owner of the substantial matters herein provided for.

(c) Upon such notice being given it shall be the duty of the person to whom such notice is given to, and he shall withhold from his contractor or from any person acting under his authority and to whom said labor or materials, or both have been furnished, or agreed to be furnished, sufficient money or sufficient bonds, where bonds are to be issued in lieu of money by the political subdivision which contracted for said work, due or that may become due to such contractor to answer such claim and any lien that may be filed therefor, and, if the owner is a public body whose property, by reason of public policy or otherwise, is not subject to the liens in this chapter provided for, also the reasonable cost of any litigation thereunder.

Provided, however, that if in connection with any private work of improvement, any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such last mentioned section and has been filed in the office of the county recorder, as in said section, provided, then in said event, it shall not be the duty of the person to whom such notice is given to withhold any moneys pursuant to such notice but such moneys may be withheld by such person to whom such notice is given.

If the contractor asserts that the claim upon which any such notice is based, or out of which it arises, is either: (1) not included within the types or classifications of claims referred to in this section, or (2) that the claimant is not one of the persons mentioned in Sections 1181 and 1184.1, or (3) that the

amount of the claim as specified in such notice is excessive, or (4) that there is no basis in law for the claim as referred to and set out in such notice, then, on any such ground, or any combination thereof, such contractor may avail himself of the right to prepare and deliver to the department head, board, commission, or officer thereof, to whom such notice was given, an affidavit and a copy thereof alleging any one or more of the grounds hereinabove set out, and claiming that the moneys or bonds withheld by such officer, or any part of either such moneys or bonds, are being withheld improperly or in an excessive amount, and further demanding the release of all or such portion of such moneys or bonds as is alleged to be withheld improperly or in an excessive amount Such affidavit shall state all of the facts necessary to support the claim of the contractor, and shall also state his address within this State for the purpose of permitting service by mail upon him of any counteraffidavit, notice of motion, or other notice or legal document.

The department head, board, commission, or officer thereof, shall serve upon the claimant, either personally or by mail, a copy of the affidavit, together with a written notice stating that the affidavit and demand for release has been received and that such department head, board, commission, or officer thereof will release such moneys or bonds, or such portion of either as has been demanded, unless the claimant files with such department head, board, commission, or officer thereof, a counteraffidavit on or before a time designated in the notice, which shall be not less than 10 nor more than 20 days after service of the copy of such affidavit. Service by mail shall be complete by placing the notice and copy of the affidavit in a sealed envelope addressed to the last known address of the claimant, registered with return receipt requested, and depositing it in the United States mail with postage fully prepaid Proof of service, either personally or by mail, shall be made by an affidavit.

If the claimant desires to contest the contractor's affidavit and demand for release, he shall, within the time allowed, file with the department head, board, commission, or officer thereof, a counteraffidavit alleging the details of his claim and shall also set forth in detail the specific basis upon which he contests or rebuts the claim or claims of the contractor, together with proof of service of a copy of such counteraffidavit upon the contractor.

The department head, board, commission, or officer thereof, shall not be responsible for the validity of said affidavit or counteraffidavit.

If no such counteraffidavit with proof of service is filed with the department head, board, commission, or officer thereof, within the time allowed, then such department head, commission, or officer thereof, shall forthwith release the moneys or bonds, or such portion thereof as has been demanded by such

affidavit, without further notice to the claimant and shall not be liable in any manner for making such release.

If such counteraffidavit, together with proof of service, is so filed, either the contractor or the claimant may file an action in the appropriate superior court for a declaration of his rights in and to such moneys or bonds as have been withheld under the original notice, together with such other relief as may be appropriate. After the filing of a suit requesting such a declaration of rights, either the contractor or the claimant shall be entitled to a hearing in the court in which the action is pending for the purpose of determining his rights under the affidavit and demand for release of such moneys or bonds or any portion of either of them and the counteraffidavit. Such hearing must be granted by the court upon motion of either party, and such hearing must be had within 15 days from the date of making of such motion, unless continued by the court for good cause. The party making the motion for hearing must give not less than five days notice in writing of such hearing to the department head, board, commission, or officer thereof, and to the other party, and shall specify in the notice that the hearing is for the purpose of determining the sufficiency of and the issues involved in the demand for release of such moneys or bonds. The notice may be of the motion or of the hearing, and upon the filing of the notice with the clerk of the court, the motion is deemed made.

At such hearing, the contractor who has filed the affidavit and made the demand for the release of such moneys or bonds shall have the burden of proof. The affidavit and counter-affidavits shall be filed with the court by the department head, board, commission, or officer thereof, who received them, and they shall constitute the pleadings, subject to the power of the court to permit an amendment in the interest of justice. The affidavit of the contractor shall be deemed controverted by the counteraffidavit, and both shall be received in evidence.

Nothing herein contained shall be construed to deprive any party of the right of a jury trial in any case where such right is given by the Constitution, but a jury trial may be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury and no evidence other than the affidavit and counteraffidavit is offered, if the court is satisfied that sufficient facts are shown thereby, it may make its determination thereon, otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counteraffidavits. At the conclusion of the hearing, the court shall make and enter its order determining whether the demand for release of such moneys or bonds shall be allowed or not, which order shall be determinative as to the right of the claimant to have the moneys or bonds further withheld by the department head, board, commission, or officer thereof. No determination in the summary proceedings under this section

shall be res adjudicata with respect to any right of action by the claimant against either principal or surety on or under the statutory labor and material bond given under Sections 4200 to 4208, inclusive, of the Government Code, commonly referred to as the California Public Works Bond Act, or with respect to any right of action against any party personally liable to claimant. The contractor shall, either personally or by mail, serve a copy of said order on the appropriate department head, board, commission, or officer thereof.

(d) In the event the moneys so withheld or required to be withheld shall be insufficient to pay in full the valid demands of all persons by whom such notices were given, the same shall be distributed among such persons in the same ratio that their respective claims bear to the aggregate of such valid demands. Such pro-rata distribution of said moneys shall be made among the persons entitled to share therein, without regard to the order of priority in which their respective notices may have been given or their respective actions, if any, commenced.

(e) Any person who shall wilfully give a false notice of his claim to the owner or who shall wilfully include in his claim work or materials not performed upon or furnished for the property described in such notice shall forfeit all right to participate in the pro-rata distribution of such moneys and all right to any lien under this chapter.

(f) Nothing in this article contained shall be construed to impair in any manner the right of any person by whom such notice has been given to recover from the contractor or his sureties any deficit that may remain unpaid after such pro-rata distribution in an action upon the bond provided for by Section 4200 of the Government Code.

(g) The word "owner" as used in this action, includes the State, or any public board, commission, or officer, thereof, or any political subdivision thereof, whether the said work be done by or under the direction of said State, public board, commission, or officer thereof, or any political subdivision thereof.

(h) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, may, in any instance in which the funds with which the cost of the work of improvements are, wholly or in part, to be defrayed from the proceeds of a building loan, give to the mortgagee, beneficiary under deed of trust, or assignee or successor in interest of either, or to any escrow holder or other party holding any funds furnished or to be furnished by the owner or lender or any other person as a fund from which to pay construction costs or arising out of a construction or building loan, a notice similar to the one provided for in subdivision (a) of this section, whereupon the person so given such notice under this subsection may withhold funds to answer such claims and any lien that may be filed therefor, but shall be

under no obligation to do so unless a bond is furnished as hereinafter provided.

If such person entitled to file such claim under this subsection files with the person holding such funds as a fund from which to pay such construction costs, a bond with good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, undertaking that if the defendant recovers judgment in an action brought on said verified claim or on the lien filed by the claimant, the lien claimant will pay all costs that may be awarded against the owner, contractor, or person holding such funds, or any of them, and all damages that such owner, contractor, or person holding such funds may sustain by reason of the equitable garnishment effected by the claim or by reason of the lien, not exceeding the sum specified in the undertaking, then the person holding such funds must withhold from the borrower or other person to whom said owner may be obligated to make payments or advancements out of said fund sufficient money to answer such claim, and any lien that may be filed therefor. No assignment by the owner or contractor of construction loan funds, whether made before a verified claim is filed, or after such claim is filed shall be held to take priority over claims filed under this subsection (h) and such assignment shall have no binding force insofar as the rights of claimants who file claims hereunder are concerned.

(i) If the contractor, subcontractor, or any other person against whom any claim is filed under subsection (h) above, or if the owner, mortgagee, beneficiary under deed of trust, escrow holder or any other person, disputes the correctness or validity of any claim so filed on private construction work, the contractor, subcontractor, owner or any such other person disputing such claim, may file with the custodian of such fund a bond executed by good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, which bond shall guarantee the payment of any sum not exceeding the penal obligation of the bond, which the claimant may recover on the claim, together with his costs of suit in the action, if he recovers therein. Upon the filing of such last mentioned bond the funds withheld to respond to the verified claim shall forthwith be released.

(j) Subsections (h) and (i) above shall not apply to public work; nor shall either of such sections be applicable if in connection with a private work of improvement any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such Section 1185.1, and has been filed in the office of the county recorder at any time prior to the filing of the first verified claim or notice to withhold.

(k) To be effective any verified claim or notice to withhold filed under subsection (h) served upon a banking corporation or association, building and loan association, title insurance company, escrow holder or other person holding such construc-

tion funds, and maintaining branch offices must be given to or served upon the manager or other responsible officer or person at the office or branch thereof administering or holding such construction funds.

(*l*) Any verified claim or notice to withhold may be served by registered mail with the same effect as by personal service.

(m) If the person holding the funds objects to the sufficiency of the sureties on the bond referred to in subsection (h) above, he must give notice in writing to the claimant within 20 days after the service of the notice provided for in subsection (h) that he so objects, in which event the claimant may within 10 days after the receipt of such written objection substitute for the bond so objected to a similar bond in like amount executed by a corporate surety licensed to write such bonds in the State of California, and if the claimant fails to do so the party served with such verified claim or notice to withhold may disregard the same and release all funds withheld in response thereto.

SEC. 2. Section 1192.2 is added to said code, to read:

Verified statement

1192.2. Any verified statement of claim filed pursuant to Section 1192.1 shall be governed by the provisions of subsection (c) of Section 1190.1 of this code.

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 270 of the Penal Code is amended to read:

Omission to provide necessities, etc

270. A father of either a legitimate or illegitimate minor child who wilfully omits without lawful excuse to furnish necessary clothing, food, shelter or medical attendance or other remedial care for his child is guilty of a misdemeanor and punishable by a fine not exceeding one thousand dollars or by imprisonment in a county jail not exceeding one year, or by both such fine and imprisonment. If the father, during such violation, remains out of the State for 30 days, or if he fails or refuses to comply with the order of a court of competent jurisdiction requiring him to make any provision for the maintenance, support, medical treatment or other remedial care of such minor child and remains out of the State for 10 days without doing so, he is guilty of a felony. This statute shall not be construed so as to relieve such father from the criminal liability defined herein for such omission merely because the mother of such child is legally entitled to the custody of such child nor because the mother of such child, or any other person, or organization, voluntarily or involuntarily furnishes such necessary food, clothing, shelter or medical attendance or other remedial care for such child, or undertakes to do so.

Proof of abandonment or desertion of a child by such father, or the omission by such father to furnish necessary food, clothing, shelter or medical attendance or other remedial care for his child is prima facie evidence that such abandonment or

desertion or omission to furnish necessary food, clothing, shelter or medical attendance or other remedial care is wilful and without lawful excuse.

Proof of abandonment or desertion of a child by such father or omission by such father to furnish such food, shelter, clothing or medical attendance or other remedial care for more than thirty (30) days is prima facie evidence that such father was outside the State.

In the event that the father of either a legitimate or illegitimate minor child is dead or for any other reason whatsoever fails to furnish the necessary food, clothing, shelter or medical attendance or other remedial care for his minor child, the mother of said child shall become subject to the provisions of this section and be criminally liable for the support of said minor child during the period of failure on the part of the father to the same extent and in the same manner as the father.

The provisions of this section are applicable whether the parents of such child are married or divorced, and regardless of any decree made in any divorce action relative to alimony or to the support of the child. A child conceived but not yet born is to be deemed an existing person insofar as this section is concerned.

SEC. 2. Section 270a of said code is amended to read:

Nonsupport of wife

270a. Every husband who has sufficient ability to provide for his wife's support, or who is able to earn the means of such wife's support, who wilfully abandons and leaves his wife in a destitute condition, or who refuses or neglects to provide such wife with necessary food, clothing, shelter or medical attendance, unless by her misconduct he was justified in abandoning her, is guilty of a misdemeanor.

SEC. 3. Section 270e of said code is amended to read:

Proof of marriage or parenthood

270e. No other evidence shall be required to prove marriage of husband and wife, or that a person is the lawful father or mother of a child or children, than is or shall be required to prove such facts in a civil action. In all prosecutions under either Section 270a or 270 of this code any existing provisions of law prohibiting the disclosure of confidential communications between husband and wife shall not apply, and both husband and wife shall be competent to testify to any and all relevant matters, including the fact of marriage and the parentage of a child or children. Proof of the abandonment and nonsupport of a wife, or of the omission to furnish necessary food, clothing, shelter, or of medical attendance for a child or children is prima facie evidence that such abandonment and nonsupport or omission to furnish necessary food, clothing, shelter or medical attendance is wilful. In any prosecution under Section 270, it shall be competent for the people to prove nonaccess of husband to wife or any other fact establishing nonpaternity of a husband. In any prosecution pursuant to Section 270, the final establishment of paternity or nonpaternity in another proceeding shall be admissible as evidence of paternity or nonpaternity.

At the time the board makes a conditional apportionment pursuant to Section 7713, it shall determine what portion of the total amount of bonds which a district is permitted to issue and sell by law shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought; provided, that in the event the school district has previously received apportionments, such proceeds shall first be applied toward the reduction, in chronological order beginning with the earliest, of any apportionments previously made to the district, before being applied toward the cost of the project for which an apportionment is sought. The portion so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 7713 shall be conditioned upon the approval and sale of such bonds by the district.

Bond issue

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to such district. Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board. The portion so determined by the board

shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 7713 shall be conditioned upon the approval and sale of such bonds by the district.

Election

No apportionment to a school district shall become final unless, at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board of the district to accept, expend, and repay, as provided in this chapter, an apportionment under the provisions of this chapter. Such election shall be combined with and held at the same time as the bond election to authorize the amount of bonds required by the board, if any, and shall be called, held, and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot, in addition to the bond proposition, shall contain substantially the following words:

"Shall the governing board of the _____ school district be authorized to accept and expend an apportionment in an amount not to exceed _____ dollars ($_____) from the State of California under and subject to the provisions of Chapter 19 of Division 3 of the Education Code which amount is subject to repayment as provided by said chapter?

If the judgment debtor redeem, he must make the same payments as are required to effect a redemption by a redemptioner. If the debtor redeem, the effect of the sale is terminated, and he is restored to his estate.

Upon a redemption by the debtor, the person to whom the payment is made must execute and deliver to him a certificate of redemption, acknowledged or proved before an officer authorized to take acknowledgments of conveyances of real property. In lieu of such publication a copy of the notice of default may be delivered personally to the trustor or mortgagor within such 10 days or at any time before publication is completed.

A recital in the deed executed pursuant to the power of sale of compliance with all requirements of law regarding the mailing of copies of notices for which requests have been recorded or the publication of a copy of the notice of default or of personal delivery of the copy of the notice of default shall constitute prima facie evidence of compliance therewith and conclusive evidence thereof in favor of bona fide purchasers and encumbrancers for value and without notice.

No request for copy of any notice filed for record pursuant to this section nor any statement or allegation in any such request nor any record thereof shall affect the title to real property or be deemed notice to any person that any person requesting copies of notice has or claims any right, title or interest in, or lien or charge upon the property described in the deed of trust or mortgage referred to therein.

CHAPTER 1871

An act to amend Sections 9359.8, 9361, and 9361.1 of the Government Code, relating to the Legislators' Retirement System, and declaring the urgency thereof to take effect immediately.

[Approved by Governor July 6, 1957. Filed with Secretary of State July 9, 1957.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 9359.8 of the Government Code is amended to read:

Death before retirement

9359.8. Upon the death of any member before retirement, his accumulated contributions shall be paid to his beneficiary, if he has designated one, and if not, to his estate. There shall also be paid to his beneficiary or estate an amount equal to one-twelfth of the annual compensation of a Member of the Legislature during the 12 months immediately preceding his death, multiplied by the number of completed years of service and prior service for which he is entitled to elect to receive credit, but not to exceed one-half of such annual compensation if the decedent was an elective officer of the State whose office is provided for by the Constitution other than a Member of the Legislature. The benefits provided by this section are in addition to any benefits provided by Division 4 of the Labor Code.

The benefit accorded by this section is not payable if the deceased member's spouse survives him and is entitled to receive an allowance for life pursuant to the provisions of this chapter.

SEC. 2. Section 9361 of said code is amended to read:

Election of optional settlements

9361. In lieu of the retirement allowance for his life alone, a member or retired member may elect, or revoke or change a previous election, to have the actuarial equivalent of his retirement allowance as of the date of retirement applied to a lesser retirement allowance, in accordance with one of the optional settlements specified in this article.

SEC. 3. Section 9361.1 of said code is amended to read:

Time for election of optional settlement

9361.1. Such election, revocation, or change of election may be made at any time before the effective date of retirement or after such effective date and prior to the making of the first payment on account of any retirement allowance.

If at any time before the making of the first payment on account of the member's retirement allowance, his spouse dies, or his marriage is terminated by a final judgment of divorce or annulment, the election of the member shall automatically be void, and the member may make a new election.

A member who has elected an optional settlement providing for the payment of a benefit to his spouse may at any time before the making of the first payment on account of his retirement allowance substitute a different optional settlement.

Such election, revocation, or change of election shall be made by a writing filed with the board.

If a member who is eligible for retirement has elected one of the optional settlements specified in this article, the surviving spouse of such member shall receive the same benefits as such surviving spouse would have received if the date of his death had also been the date of his retirement and if retirement had preceded death. If in such event benefits are paid to a surviving spouse, no payment shall be made pursuant to Section 9359.8. If a member dies without having elected an optional settlement and there is a surviving spouse, he shall be deemed for the purposes of this paragraph to have elected Optional Settlement No. 2. In either case, the benefits payable

to the surviving spouse shall be in the same amount as if the member had elected to receive credit for service rendered prior to the date he became a member of this system and had paid the full amount of the contributions in respect to such service.

Any election filed under this section prior to the effective date of the amendments to this section enacted by the Legislature at the 1957 Regular Session shall continue to be effective in accordance with the terms of this section as it read prior to such amendments and may thereafter be revoked or changed or become void only in accordance with this section as it read prior to such amendment.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are: Urgency

The present provisions of the Legislators' Retirement Law, particularly with respect to optional settlements and changes of election with respect to such optional settlements, are so fixed and limited in character as to give rise to dangers of serious hardships in cases of death and other changes in family circumstances. This has resulted in a reluctance on the part of qualified citizens who would otherwise be candidates for the Office of Member of the Legislature to seek such office. Because vacancies which have and may occur during the present session of the Legislature should be promptly filled by special elections at the earliest possible time, and because the amendments to the Legislators' Retirement Law contained in this act make changes in provisions dealing with optional settlements and related matters of character which will encourage qualified citizens to seek legislative office, this measure is necessary for the immediate preservation of the public peace, health, or safety.

CHAPTER 1872

An act to permit housing authorities functioning in certain counties to contract with school districts for improvements, services, and facilities.

[Approved by Governor July 6, 1957. Filed with Secretary of State July 9, 1957.] In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. This act applies only to housing authorities organized under Part 2 (commencing at Sec. 34200, H. & S. C.) of Division 24 of the Health and Safety Code and existing and functioning in counties with a population of more than 80,000 and less than 90,000, as determined by the 1950 Federal Census.

SEC. 2. A housing authority which has acquired, by purchase or gift, any temporary housing project or projects from the Federal Government may, with respect to any such projects

only, enter into a contract with any school district to provide for the furnishing of improvements, services, and facilities, by the school district for the benefit of the housing project.

SEC. 3. The contract may fix the sum which the housing authority is to pay during any period for such improvements, services, and facilities. This sum may be in addition to any payment in lieu of taxes which is to be made by the housing authority to the school district. The sum shall not exceed the difference between the estimated cost to the school district of furnishing the improvements, services, and facilities, and any amount to be received by the school district in lieu of taxes. The contract may provide that payments by the housing authority may be made in cash or in services and facilities to be rendered or supplied by the housing authority to the school district, or both. The contract may fix the value of such services and facilities.

SEC. 3.1. Payment made to any school district pursuant to the provisions of this act shall not constitute miscellaneous funds within the meaning of either Section 7000.1 or Section 7000.4 of the Education Code.

SEC. 4. The absence of any contract authorized by Section 2 of this act does not relieve any school district from the duty to furnish for the benefit of any housing project, the customary improvements, services, and facilities that the school district usually furnishes without a service fee.

SEC. 5. Provisions of this act pertain to temporary housing projects only and may not be applied to permanent low rent housing projects.

SEC. 6. This act shall remain in effect until the ninety-first day after the final adjournment of the 1959 Regular Session of the Legislature. While this act is in effect it supersedes any existing provisions of law which are in conflict with this act, but such provisions are not repealed by this act and after this act is no longer effective they shall have the same force as though this act had not been enacted.

CHAPTER 1873

An act to add Section 3791.4 to the Revenue and Taxation Code, relating to the purchase of tax-deeded or tax-sold property held in trust for public park purposes, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 6, 1957. Filed with Secretary of State July 9, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 3791.4 is added to the Revenue and Taxation Code, to read:

3791.4. Whenever property has been deeded to the State for taxes, whether or not the property is subject to or has been sold or deeded for taxes to a taxing agency other than the

State, the State, county, or other revenue district the taxes of which on the property are collected by county officers may purchase the property or any part thereof, including any right of way or other easement, pursuant to this chapter.

As used in this section "property" includes land held under an express trust for the exclusive use by the State or any county or other revenue district as a public park.

This section shall remain in effect until September 1, 1959. While this section is in effect it shall supersede Section 3791.3 of this code, and wherever in any provision of law reference is made to Section 3791.3, such reference shall be deemed to refer to this section; but Section 3791.3 is not repealed by this section and after this section is no longer effective Section 3791.3 shall have the same force and effect as though this section had not been enacted.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some lands, upon which the property tax is now delinquent and therefore subject to being deeded to the State as "tax-deeded property," are held in trust for the exclusive use by the State or county or other revenue district as a public park. 7732.5. If, on or before August 1, 1957, with respect to the 1957-58 Fiscal Year, and on or before July 1st of any subsequent fiscal year, any school district files a request with the State Controller for a deferment of the annual repayment due from such district during the 1957-58 Fiscal Year and any subsequent fiscal year for an apportionment received by the district pursuant to this chapter or Chapter 1.6 of this division, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district, during the fiscal year in which the annual repayment is to be deducted pursuant to Sections 5058 and 7731, for the payment of principal and interest on any bonded indebtedness incurred for school purposes prior to any conditional apportionment under this chapter and those which were incurred as a condition to any apportionment under this chapter. There shall also be computed the amount required to be raised by taxes on property in the district, during such fiscal year, for the annual repayment of school building apportionments under Chapter 1.6 of this division and under this chapter. The amounts so computed, when added together, shall constitute the "basic tax amount."

There shall be computed the amount which would be produced by a tax of forty-five cents ($0.45) on each one hundred dollars ($100) of assessed valuation of the district during such year, to be known as the "forty-five cent tax amount." The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 45-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

For the purposes of this section the "annual repayment of a district" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 5057 and Section 7729, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years. Any repayments by a district of a deferred amount shall be first applied to loans granted under Chapter 1.6 of this division.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 5059 or Section 7732, as the case may be, there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 5059 or Section 7732, as the case may be, shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 5060 or Section 7733, whichever is applicable.

In effect September 11, 1957

[Approved by Governor July 6, 1957. Filed with Secretary of State July 9, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Division 5, comprising Sections 1701 to 2207, inclusive, is added to the Probate Code to read:

DIVISION 5. CONSERVATORSHIP

CHAPTER 1. DEFINITION OF CONSERVATOR AND STATEMENT OF LAW APPLICABLE

1701. A conservator is a person appointed to take care of the person and property or person or property of a conservatee as defined in Section 1751.

1702. Conservatorships shall be governed by the provisions of this division; provided, however, that whenever no specific provision of this division is applicable, then the provisions of Divisions 3 and 4 of this code shall govern so far as they are applicable to like situations.

Conservator or guardian

1703. No provision of this division shall repeal or modify any of the provisions relating to guardianships. No appointment of both a conservator and a guardian shall be made for the same person or estate. A petitioner may elect to apply either for letters of conservatorship or letters of guardianship, or he may apply for such letters in the alternative. In the latter case the court upon the hearing of the petition shall take such action and issue such letters as shall be for the best interests of the conservatee or ward. After the issuance of letters of conservatorship or guardianship the proceeding shall thereafter be governed by the provisions of this code applicable to the relationship established by the original appointment and issuance of letters.

Petition, etc.

1704. Upon a petition and after notice and hearing thereon all as provided for an initial petition for the appointment of a conservator, a conservator may be appointed to succeed an existing guardian and an existing guardian, upon the settlement of his accounts as guardian, may be appointed by the court as a conservator, and new letters issued. Thereafter such proceeding and the parties affected thereby shall be governed by the provisions of this division.

1705. Upon a petition and after notice and hearing thereon all as provided for an initial petition for the appointment of a guardian, a guardian may be appointed to succeed an existing conservator and an existing conservator, upon the settlement of his accounts as conservator, may be appointed by the

court as a guardian, and new letters issued. Thereafter such proceeding and the parties affected thereby shall be governed by the provisions of Division 4 of this code.

CHAPTER 2. CREATION AND TERMINATION

Appointment

1751. Upon petition as provided in this chapter, the superior court, if satisfied by sufficient evidence of the need therefor, shall appoint a conservator of the person and property or person or property of any adult person who by reason of advanced age, illness, injury, mental weakness, intemperance, addiction to drugs or other disability, or other cause is unable properly to care for himself or for his property, or who for said causes or for any other cause is likely to be deceived or imposed upon by artful or designing persons, or for whom a guardian could be appointed under Division 4 of this code, or who voluntarily requests the same and to the satisfaction of the court establishes good cause therefor The court, in its discretion, may appoint one or more conservators.

Selection

1752. In appointing a conservator, the court is to be guided by what appears to be for the best interests of the person to be placed under conservatorship In the petition or in a written instrument executed either before or after the petition is filed, such person may, if at the time of signing the same he has sufficient capacity to form an intelligent preference, nominate a conservator who shall be appointed as such by the court unless the court finds that the appointment of such nominee is not in the best interests of the person to be placed under conservatorship. When any such person lacks capacity to, or fails to, nominate a conservator, the court may appoint any qualified person subject to the order of priority established in this chapter.

Preference in selection

1753. The selection of a conservator of the person or property shall be solely in the discretion of the court. Of persons equally entitled in the opinion of the court to appointment as conservator of the person and property or person or property of another, preference is to be given as follows:

(1) To the nominee under Section 1752 of this code of the person to be placed under conservatorship; then

(2) To the spouse of a married person to be placed under conservatorship or the nominee of such spouse; then

(3) To an adult child of the person to be placed under conservatorship or the nominee of such child; then

(4) To a parent of the person to be placed under conservatorship or the nominee of such parent; then

(5) To a brother or sister of the person to be placed under conservatorship or the nominee of such brother or sister; then

(6) To any qualified person or corporation who upon appropriate petition to the court might be appointed guardian of an incompetent person or of his estate under this code.

The preference for any nominee to appointment under subparagraphs (3), (4), and (5) shall be subordinate to the

preference for any other parent, child, brother or sister in such class.

No person or corporation prohibited by law from serving as a guardian of the estate of an incompetent person may be appointed a conservator.

Verified petition

1754. Any person or any relative or friend of any person, other than a creditor of the proposed conservatee, may file a verified petition alleging that the appointment of a conservator is required. The petition shall set forth, so far as they are known to the petitioner, the names and residences of the spouse, if any, and of the relatives of the proposed conservatee within the second degree. Upon the filing of the petition, the clerk shall set the same for hearing by the court. Notice of the nature of the proceedings and of the time and place of the hearing on the petition shall be mailed by the petitioner to said spouse, if any, and to each of such relatives at least twenty (20) days before such hearing date. If the petition is filed by a person other than the proposed conservatee, the clerk shall issue a citation directed to the proposed conservatee setting forth the time and place of the hearing. Said citation, and a copy of the petition, shall be personally served upon the proposed conservatee in the same manner as is provided by law for the service of summons, at least five (5) days before the time of the hearing if served within this State, otherwise at least ten (10) days before the time of the hearing. The proposed conservatee, if he is the petitioner, or if he is in the State at date of service and, if able to attend, must be produced at the hearing, and, if not able to attend by reason of physical or other inability, such inability must be established by the affidavit or certificate of a duly licensed medical practitioner. Whenever a notice to any officer or agency of this State or of the United States of America would be required upon a petition for the appointment of a guardian of an alleged incompetent person a like notice shall be given of a petition under this chapter. Any such officer or agency or any relative or friend of such person or the proposed conservatee may appear and oppose the petition.

Duration

1755. Every conservatorship shall continue until the authority of the conservator is terminated by the death of the conservator or by order of court, or, subject to the duty of the conservator to see to the custody and conservation of the estate pending the delivery thereof to the personal representative of the conservatee's estate, by the death of the conservatee. Any conservator, the conservatee, or any relative or friend of the conservatee may apply by verified petition to the superior court of the county in which the proceedings are pending to have the conservatorship terminated. Said petition shall state the facts alleged to establish that the conservatorship is

Hearing

no longer required. The petition shall be set for hearing and notice thereof given to the persons and in the same manner as is provided in this chapter for a petition for the appointment of a conservator. The conservator in such case, if he is not the

petitioner or has not joined in the petition, shall, if he is a resident of this State, be personally served with a notice of the time and place of the hearing accompanied by a copy of the petition at least five (5) days prior to the hearing. If the conservator is not a resident of this State or cannot be found therein after diligent search, the court may fix the manner of giving notice to him by mail, publication or otherwise as the court deems best or the court may dispense with such notice. The conservator or any relative or friend of the conservatee may appear and oppose the petition. The court shall hear and determine the matter without a jury according to the laws and procedure relating to the trial of civil actions. If the court finds that the conservatorship is no longer required, the conservatorship shall cease. The conservator may at said hearing, or thereafter on further notice and hearing, be discharged and his bond exonerated upon the settlement and approval of his final account by the court.

CHAPTER 3. OATH, BOND AND LETTERS

Oath

1801. A conservator shall be designated by that title. Before his appointment shall be effective, he must take an oath that he will perform the duties of his office according to law, which oath shall be filed in the proceedings. The appointment as conservator and the taking and filing of such oath shall thereafter be evidenced by the issuance by the clerk of the court of letters of conservatorship in substantially the same form as letters of administration.

Bond

1802. The court in the order appointing a conservator of the estate or of the person and estate of another may, in its discretion, in any case in which the proposed conservatee as petitioner has waived the filing of bond, dispense with the filing of bond. In all other cases the conservator of the estate or of the person and estate of another, before acting as such, must give a bond for the protection of the conservatee and of all persons interested in his estate, in an amount fixed by the court, which amount shall not exceed the bond required of a person appointed administrator. The court may reduce the bond required in this section in the manner provided in Section 541.1 of this code. Unless required by the court in its discretion, no bond shall be required of a conservator appointed only as conservator of the person of the conservatee Two or more conservators in one proceeding may give a joint bond.

Reduction of bond

1803. If a conservator desires to have the amount of his bond reduced, he may apply to the court for such relief by filing a verified petition setting forth the condition of the estate. The petition shall be set for hearing by the clerk and notice given in the manner required by Section 1200 of this code Upon the hearing of said petition, the court may reduce the amount of the bond to any amount or sum which in the discretion of the court may seem proper under the circum-

stances, subject, however, to the limitations of Section 1802 of this code, and said conservator may furnish new sureties, who may, but need not, be the same as the sureties on the previous bond, who shall qualify for such reduced amount.

1804. Personal assets of the conservatee may be deposited with a trust company, and the bond of the conservator reduced as provided by Section 1586 of the Financial Code.

Filing

1805. Every bond given by a conservator must be filed and preserved in the office of the clerk of the court, and in case of a breach of a condition thereof, may be sued upon for the use and benefit of the conservatee, or of any person interested in the estate.

Bond liability

1806. No action may be maintained against the sureties on a bond given by a conservator unless commenced not later than two years from the discharge of the conservator, or from the date the order surcharging the conservator becomes final, whichever is later; but if at the time of such discharge or of such order becoming final any person entitled to bring the action is under any legal disability to sue, such person may commence said action at any time within one year after his disability is removed.

CHAPTER 4. POWERS AND DUTIES

Conservatee's residence

1851. Every conservator of the person of a conservatee has the care, custody and control of the conservatee and may fix the residence of the conservatee at any place within this State, but not elsewhere without the permission of the court.

Powers

1852. Every conservator of the estate or of the person and estate of a conservatee shall have the powers granted to a guardian of the estate or of the person and estate of an incompetent in Chapters 7 and 8 of Division 4 of this code, and, if granted by the court, the additional powers authorized by Section 1853 of this code.

Additional powers

1853. On the application of the conservator, made at any time, which application may be included in a petition filed pursuant to Section 1754 of this code, the court may grant to a conservator of the estate or of the person and estate of a conservatee, the following additional powers, which may be exercised with or without notice, hearings, confirmation, or approval of the court:

To institute and maintain all actions and other proceedings for the benefit of and to defend all actions and other proceedings against the conservatee or the conservatorship estate; to take, collect and hold the property of the conservatee; to contract for the conservatorship and to perform outstanding contracts and thereby bind the conservatorship estate; to operate at the risk of the estate any business, farm or enterprise constituting an asset of the conservatorship, to grant and take options; to sell at public or private sale; to create by grant or otherwise easements and servitudes; to borrow money and give security for the repayment thereof; to purchase real

or personal property; to alter, improve and repair or raze, replace and rebuild conservatorship property; to let or lease property for any purpose including exploration for and removal of gas, oil and other minerals and natural resources and for any period, including a term commencing at a future time; to loan money on adequate security; to exchange conservatorship property; to sell on credit provided that any unpaid portion of the selling price shall be adequately secured; to vote in person or by proxy all shares and securities held by the conservator; to exercise stock rights and stock options; to participate in and become subject and to consent to the provisions of any voting trust and of any reorganization, consolidation, merger, dissolution, liquidation or other modification or adjustment affecting conservatorship property; to effect necessary insurance for the proper protection of the estate, to pay, collect, compromise, arbitrate or otherwise adjust any and all claims, debts or demands upon the conservatorship, including those for taxes; to abandon valueless property, and to employ attorneys, accountants, investment counsel, agents, depositaries and employees and to pay the expense therefor from the conservatorship estate.

Court's discretion

Said additional powers shall be in addition to the general powers of conservators. The granting of said additional powers shall be discretionary with the court. Notice of the hearing of the application therefor shall be given in the manner provided in Section 1200 of this code. When additional powers have been granted to a conservator, his letters shall state that he has the powers authorized in this section. The grant of additional powers to the conservator shall not affect the right of the conservator to petition the court as provided in Section 1860.

Withdrawal of power

1854. The court on its own motion or whenever it appears to it from a verified petition filed in the proceedings that it is for the best interests of the conservatee or of his estate so to do, may withdraw the additional powers previously granted pursuant to Section 1853 and issue new letters of conservatorship.

Maintenance and support

1855. The conservator shall, to the extent of the net estate available and as a prior charge thereon, provide for the maintenance and support of the conservatee and of those legally entitled to support and maintenance from the conservatee.

Surplus income

1856. On the application of the conservator or next of kin of a conservatee, the court may direct the conservator of the estate to pay and distribute surplus income, not used for the support and maintenance of the conservatee, or any part of such surplus income, to the next of kin whom the conservatee would, in the judgment of the court, have aided, but for the existence of the conservatorship. The granting of such allowance and the amounts and proportions thereof shall be discretionary with the court, but the court shall give consideration to the amount of surplus income available after due provision has been made for the proper support and maintenance of the

conservatee, to the circumstances and condition of life to which the conservatee and said next of kin have been accustomed and to the amount which the conservatee would in the judgment of the court have allowed said next of kin but for the existence of the conservatorship. Notice of the hearing of said application shall be given in the mode provided in Section 1200 of this code. When the conservatee is or has been, during the conservatorship, confined in a state hospital in this State, notice of hearing and copy of the petition must be given to the Director of Institutions at least 15 days before the hearing.

Third party obligee

1857. The court, upon petition of the conservator or of any party interested in the conservatorship, may for good cause order the conservatee to be either wholly or partially supported and maintained out of the conservatorship estate notwithstanding the existence of a third party legally obligated to provide such support and maintenance. Any such order may be made for a limited period of time; but if not so limited, shall continue in effect until modified or revoked by the court.

Debts, etc.

1858. The conservator shall pay from the estate of the conservatee with which the conservator is chargeable, all debts of, and claims and charges against, the conservatee or the conservatorship, and all expenses of the maintenance and support of the conservatee, and all expenses of the conservatorship. The conservator may advance funds for the benefit of the conservatee or of his estate and may reimburse himself for such advances out of the income and principal of the estate first available.

Refusal to act. Court order

1859. Whenever a conservator fails, neglects or refuses to furnish suitable support and maintenance for the conservatee; and also, whenever a conservator fails, neglects or refuses to pay a debt, expense or charge justly due and payable by the conservatee or by the conservatorship, the court after notice of hearing as provided in Section 1200 of this code, and hearing, may, upon the petition of the creditor, the conservatee or of any person interested in the estate, or upon its own motion, order the conservator to do so from the estate of the conservatee.

Court approval

1860. The court, upon petition of the conservator, creditor, or other interested party, after notice of the hearing on such petition has been given for the period and in the manner required by Section 1200 of this code, and after such hearing, may authorize and instruct the conservator or approve and confirm his acts in the management, disposition, care, protection, operation, or preservation of the conservatorship property or the incurring or payment of costs, fees or expenses, or in the care, maintenance, support and protection of the conservatee.

Personal use

1861. The court, upon petition of the conservator, after notice of the hearing on such petition has been given for the period and in the manner required by Section 1200 of this code, and after such hearing, may authorize the conservator

to pay to the conservatee out of the conservatorship estate a reasonable allowance for the personal use of the conservatee in such amount as the court may determine to be for the best interests of the conservatee. The conservator shall not be required to account for such allowance other than to establish that it has been paid to the conservatee, and the funds so paid to the conservatee shall be subject to the sole control of the conservatee.

CHAPTER 5. INVENTORY AND ACCOUNTING

Inventory

1901. Within three months after his appointment, or within such further time as the court or judge for a reasonable cause may allow, the conservator of the estate or person and estate of a conservatee must file with the clerk of the court an inventory and appraisement of the estate of the conservatee, made as of the date of the appointment of the conservator, together with a copy of the same, which copy shall be delivered by the clerk to the county assessor. The conservator must make oath to the inventory and the property therein described other than money must be appraised, by an inheritance tax appraiser designated by the court. Whenever any other property of the conservatee is discovered, or is inherited or acquired by the conservatee other than by the actions of the conservator in the investment and management of the estate, like proceedings must be had for the inventory and appraisement thereof as in the case of the original inventory.

Failure

1902. If a conservator neglects or refuses to file any inventory required by the provisions of this chapter, within the time prescribed, the court, on its own motion or on the petition of any party interested in the estate, upon notice, served upon him as provided or permitted by Section 1755, may revoke his letters, and he shall be liable on his bond for any injury to the estate or any person interested therein, arising from such failure.

Wrongful disposition

1903. Upon petition under oath made by the conservator, conservatee, creditor or other person interested in the estate, including persons having only an expectancy or prospective interest therein, that any person is suspected of having embezzled, concealed, smuggled or falsely or fraudulently obtained or wrongfully disposed of any property of the conservatee, or has in his possession or has knowledge of any instrument in writing belonging to the conservatee, or that such person asserts any claim against the conservatee or the estate, or that the estate asserts a claim against such person, the court may cite such person to appear before the court, and the court and the petitioner may examine him under oath upon the matters recited in the petition. If such person is not in the county where letters issued, the examination shall be made under this section but otherwise the procedure and the rights

and duties of the parties shall be governed by the provisions of Section 613 of this code.

Account

1904. At the expiration of one year from the time of his appointment, and thereafter not less frequently than biennially, unless otherwise ordered by the court, the conservator must present his account to the court for settlement and allowance. When an account is rendered by or on behalf of two or more joint conservators, the court, in its discretion, may settle and allow the same upon the verification of any of them.

1905. No account of the conservator of a conservatee who is or has been during the conservatorship confined in a state hospital in this State shall be settled or allowed unless notice of the time and place of hearing and a copy of the account have been mailed, postage prepaid, to the Department of Mental Hygiene at least fifteen (15) days before the hearing or unless the court for good cause dispenses with such notice. Unless such notice is so dispensed with, the statute of limitations shall not run against any claim of the Department of Mental Hygiene against the estate of the conservatee if the account is settled without giving the notice prescribed above.

1906. If the conservatee is no longer confined to a state hospital, and is not indebted to the State, the Attorney General, upon ascertaining the facts, shall file a certificate to that effect and the giving of further notices and accounts as required by Section 1905 shall not be required.

Termination

1907. The termination of the relationship of conservator and conservatee by the death of either or by the determination of the court that the conservatorship is no longer necessary shall not cause the court to lose jurisdiction of the proceeding for the purpose of settling the accounts of the conservator and for any other purpose incident to the enforcement of the judgments and orders of the court upon such accounts or upon the termination of the conservatorship. The account of a deceased conservator shall be presented by his executor or administrator. In the event the conservator absconds or dies and there is no executor or administrator appointed for his estate, the conservator's account may be rendered by his attorney in which case it need not be verified. A fee shall be allowed the attorney by the court for this extraordinary service.

Compensation

1908. Every conservator shall be allowed the amount of his reasonable expenses incurred in the execution of his trust, including the cost of any surety bond furnished and reasonable attorneys' fees, and shall have such compensation for his services as the court in which his accounts are settled deems just and reasonable. He shall also be allowed all reasonable disbursements made before his appointment, and (a) in the case of termination other than by the death of the conservatee, all reasonable disbursements made after the termination of the conservatorship but prior to his discharge by the court, and (b) in the case of termination by the death of the conservatee,

all reasonable expenses incurred prior to such discharge for the custody and conservation of the estate and the delivery thereof to the personal representative of the estate of the deceased conservatee.

1909. If, upon the settlement of any account, it appears that the estate of the conservatee has been entirely exhausted through expenditures or disbursements which are approved by the court, the court upon the settlement of the account, shall order the conservatorship of the estate terminated and the conservator of the estate forthwith discharged.

Conservatee's wages

1910. If the conservatee shall at any time during the continuance of the conservatorship be employed his wages or salary for such employment shall not be a part of the conservatorship estate and the conservator shall not be accountable therefor. Such wages and salaries shall be paid to the conservatee and shall be subject to his control to the same extent as if the conservatorship did not exist.

Chapter 6. Suspension, Removal and Resignation

Removal

1951. A conservator, however appointed, may be removed by the court, after notice and hearing as provided by Section 1755, for any of the following causes:

1. For waste or mismanagement of the estate, or abuse of his trust;

2. For failure to file an inventory or to render an account within the time allowed by law or by court order, or for continued failure to perform his duties;

3. For incapacity to perform his duties suitably;

4. For gross immorality or conviction of a felony;

5. For having an interest adverse to the faithful performance of his trust;

6. In the case of a conservator of an estate, for insolvency or bankruptcy; or

7. When the conservatorship is no longer required.

8. In any other case in which the court shall in its discretion deem such removal to be for the best interests of the conservatee.

Suspension

1952. The court, on its own motion or whenever it appears to it from a verified petition filed in the proceedings that the conservatee or his estate may suffer loss or injury during the time required for notice and hearing under Section 1951, may compel the conservator to surrender the estate of the conservatee to a custodian designated by the court and, pending notice and hearing, may suspend the powers of the conservator to such extent as the court deems necessary.

Resignation

1953. A conservator may resign his appointment at any time, by a writing filed with the court, to take effect upon the settlement of his accounts, when it appears proper to allow such resignation.

New appointment

1954. Upon the occurrence of any vacancy in the office of conservator the court may appoint another in his place, after notice and hearing as in the case of original appointment.

Joint conservators

1955. On the death of one of two or more joint conservators, the powers, subject to the provisions of this division, continue in the survivor or survivors.

1956. When two or more conservators have been appointed and one or more are absent from the State, or legally disqualified from serving, the court may, by order made with or without notice, authorize the other or others to act as to all matters embraced in its order.

CHAPTER 7. NOTICES AND PROCEDURE

Notice of hearing

2001. Whenever the applicable provisions of this Division 5 do not fix the notice to be given, and if any notice be required, then notice of hearing shall be given to the persons and proof thereof made in the mode provided in Section 1200 of this code; provided, however, that the court may dispense with notice or may require such further or additional notice to be given as the court deems proper.

Special notice

2002. At any time after the issuance of letters under this division, any relative or creditor of the conservatee or any other interested person or governmental agency, in person or by attorney, may serve upon the conservator or upon the latter's attorney, and file with the clerk of the court where the proceedings are pending with a written admission or proof of such service, a written request for special notice of the filing or commencing of any or all of the following:

1. Accounts of the conservator.

2. Proceedings for the removal, suspension, or discharge of the conservator or final termination of the conservatorship.

3. Petitions filed pursuant to Sections 1853 or 1860 of this code.

4. Applications for removal of the conservatee or his property to a foreign jurisdiction.

Contents

2003. A request for special notice shall be so entitled and shall set forth the name of the person and the address to which notices shall be sent. Any such request may be modified or withdrawn in the same manner as provided for the making of the initial request. Each request for special notice shall be deemed to be withdrawn at a date three (3) years from the date of service thereof. A new request may be served and filed at any time as provided in the case of an initial request.

2004. In any case in which a request for special notice has been filed, the moving party filing any such petitioner or account or commencing any such proceeding shall give written notice of the filing thereof together with the place and time set for the hearing thereon by mailing the same to the person at the address set forth in the request for special notice, or by personally serving the same upon such person, at least ten (10) days before the time set for the hearing.

Proof of mailing

2005. Proof of the mailing or of personal service of the notice must be made at the hearing and if it appears to the satisfaction of the court that said notice has been regularly given or that the party entitled thereto has waived the same, the court shall so find in its order and such order when it becomes final shall be conclusive upon all persons.

CHAPTER 8. JURISDICTION

Superior court

2051. Conservatorship proceedings for a resident of this State shall be instituted in the superior court in the county of the residence of the proposed conservatee. Such proceedings for a nonresident of this State shall be instituted in the superior court in the county in which he is temporarily living if he is in this State, or in the superior court in any county in this State in which he has property. After commencement, a conservatorship proceeding may be transferred to another county within this State or to the jurisdiction of the courts of another state as provided in this chapter.

Transfer proceedings

2052. The court in which the proceeding is pending may transfer the proceeding to the superior court of any other county, or to the appropriate court in any other state in which the conservatee resides at the time of the application for the transfer. To obtain such transfer the conservator shall file in the court in which the proceeding is pending a verified petition setting forth:

1. The court and jurisdiction to which it is sought to transfer the proceedings;

2. The residence address of the conservatee;

3. A brief description of the character, value and location of the property of the conservatee;

4. The reasons for the transfer;

5. The names and residence addresses, so far as they are known to the conservator, of the spouse and relatives of the conservatee within the second degree;

6. In the case of the transfer to another state, competent evidence that there is a duly appointed and acting guardian, conservator, committee or comparable fiduciary in such other state.

2053. Upon the filing of a petition to transfer, the clerk shall set the same for hearing and notice of such hearing shall be given as provided by Section 1200 of this code. In addition the petitioner shall cause written notice of such hearing and a copy of the petition to be mailed to all persons required to be listed in the petition at least ten (10) days before the date set for such hearing. Any such person or any creditor of the conservatee or of the estate, or the conservatee himself may appear and file written objections to the petition. If after a hearing, the court determines that the transfer requested in the petition will be for the best interests of the conservatee, it shall make an order transferring the proceeding to said

court. Thereupon the clerk must transmit to the clerk of the court to which the proceeding is transferred a certified or exemplified copy of the order together with all papers in the proceeding on file in his office. If the transfer is to a court of another state, the clerk, or at the court's direction the petitioner shall obtain the receipt for said papers from the clerk of the court to which the transfer is made as a condition to the delivery thereof.

2054. The clerk of the court from which the removal is made shall receive no fee therefor but shall be paid out of the estate all expenses incurred by him in the removal. Where the transfer is to a court in this State, the clerk of such court shall be entitled to such fees as are payable on the filing of a like original proceeding.

CHAPTER 9. APPEALS

Appeal

2101. An appeal may be taken to the Supreme Court from any judgment, order or decree authorized in this division, except from an order appointing a temporary conservator under Chapter 11 of this division.

2102. An appeal from any judgment, order or decree shall stay the operation and effect thereof, except that, for the purpose of preventing injury or loss to person or property, the trial court may direct the exercise of the powers of the conservator, or may appoint a temporary conservator to exercise such powers, from time to time, as though no appeal were pending, and all acts of the conservator or temporary conservator pursuant to such directions shall be valid, irrespective of the result of the appeal.

Final order, etc

2103. Any judgment, order or decree of court made pursuant to the provisions of this division, unless reversed on appeal taken under preceding Section 2101, shall be final and shall release the conservator and his sureties from all claims of the conservatee and of any persons affected thereby based upon any act directly authorized, approved or confirmed in the judgment, order or decree. This release shall not operate in favor of a conservator or a surety where the order was obtained by fraud, conspiracy or misrepresentation as to any material fact contained therein or in the petition for same.

CHAPTER 10. APPLICATION OF UNIFORM VETERAN'S GUARDIANSHIP ACT

2151. A conservator instead of a guardian may be appointed under the Uniform Veteran's Guardianship Act and in such case he shall have only the rights, powers, privileges and duties provided in, and he shall be in all respects, subject to Chapter 15 of Division 4 of this code. In such case the veteran shall be called a conservatee.

Chapter 11. Temporary Conservators

Temporary conservator

2201. On or after the filing of a petition for the appointment of a conservator, the court, with or without notice as the court or judge may require, upon a verified petition establishing good cause therefor, and filed by any person entitled under Section 1754 to apply for the appointment of a conservator, may appoint a temporary conservator of the person and estate or person or estate of any person (hereinafter called a conservatee) to serve pending the final determination of the court upon the petition for the appointment of a conservator under Chapter 2 of this division.

Letters

2202. Such temporary conservator shall be issued temporary letters of conservatorship upon posting bond as in the case of a conservator.

Powers

2203. A temporary conservator shall have only such power and authority and only such duties as are necessary to provide for the temporary care, maintenance and support of the conservatee and as may be necessary to conserve and protect the property of the conservatee from loss or injury; and such other powers and duties as may be ordered by the court in the order of appointment, or by subsequent order made with or without notice as the court or judge may require.

Inventory

2204. A temporary conservator of the estate or of the person and estate of a conservatee may inventory the estate of the conservatee in his final account, without the necessity for an appraisal thereof; provided, such final account is filed with the court within three months of the entry of the order of his appointment. In all other cases an inventory and appraisal of the estate shall be filed as is required by Chapter 5 of this division.

Account

2205. If the temporary conservator is appointed conservator he may account for his administration as temporary conservator in his first regular account In all other cases he must present his account to the court for settlement and allowance within 90 days from the appointment of a conservator or within such other time as the court or the judge may fix. Such accounts shall be subject to Sections 1905 through 1909 inclusive of this code.

Termination

2206. The appointment and qualification of a conservator terminates the powers of the temporary conservator except for the rendering of his account, unless by reason of an appeal therefrom or other cause the court appointing the conservator otherwise orders. If so ordered the court shall fix the time for the termination of the powers of the temporary conservator.

Suspension, etc

2207. Temporary conservators shall be subject to the provisions of this division governing suspension, removal, resignation and discharge of conservators.

CHAPTER 1903

An act to amend Sections 1394 and 2415 of and to add Section 2410.5 to the Labor Code, relating to labor conditions and, more particularly, to construction, maintenance, and operation of labor camps, and employment opportunities for minors, declaring the urgency of Section 3 thereof, which section is to take effect immediately.

In effect immediately

[Approved by Governor July 6, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 2410.5 is added to the Labor Code, to read:

Limitation

2410.5. The provisions of this article are not intended to prevent the use of any material, appliance, installation, device, arrangement, or method of construction not specifically prescribed by this article; provided, any such alternate has been approved.

Approval of alternate

The enforcement agency may approve any such alternate if it finds that the proposed design is satisfactory and that the material, appliance, installation, device, arrangement, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this article in quality, strength, effectiveness, fire resistance, durability, safety and for the protection of life and health.

SEC. 2. Section 2415 of said code is amended to read:

Sleeping space

2415. (a) A clear space of at least 30 inches extending from the floor to the ceiling or roof of any sleeping place shall be allowed between each bed therein.

(b) In every sleeping place the ceiling height shall be at least an average of eight feet from finished floor to finished ceiling or to the roof if there is no ceiling.

(c) At least four feet of clear space shall be allowed between each set of double deck bunks having one tier above the other.

(d) There shall be not more than two tiers of beds, one above the other.

(e) The division shall require adequate standards of heating and ventilation.

SEC. 3. Section 1394 of said code is amended to read:

Application

1394. Nothing in this article or Article 2 of Chapter 2 of this part shall prohibit or prevent:

(a) The employment of minors 16 years of age or over in agricultural, horticultural, viticultural, or domestic labor for more than eight hours in one day or more than 48 hours in one week.

(b) The employment of any minor at agricultural, horticultural, viticultural, or domestic labor during the time the public schools are not in session, or during other than school hours, when the work performed is for or under the control

of his parent or guardian and is performed upon or in connection with premises owned, operated or controlled by the parent or guardian; but nothing herein shall permit children under school age to work at such occupations, while the public schools are in session.

(c) The employment of any minor by engineers engaged in survey work as part of a survey crew in the field.

SEC. 4. Section 3 of this act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

Each year during the school summer recess thousands of boys seek wholesome outdoor employment. Creation of opportunities for such employment is an effective means of combating juvenile delinquency and of facilitating the efforts of minors to save money for their further education. The school recess for this year is at hand and immediate effectiveness of Section 3 of this act will enable students to take advantage this summer of opportunities for wholesome outdoor employment as members of survey teams.

CHAPTER 1904

An act to repeal Sections 1000 and 2006 and Chapter 2 (commencing at Section 2083) of Title 6, Part 4, and Article 3 (commencing at Section 2019), Article 4 (commencing at Section 2024) and Article 5 (commencing at Section 2031) of Chapter 3, Title 3, Part 4, and to amend Section 1986 of, and to add Article 3, comprising Sections 2016 to 2035, inclusive, to Chapter 3, Title 3, Part 4 of the Code of Civil Procedure, relating to depositions and discovery.

[Approved by Governor July 6, 1957. Filed with Secretary of State July 10, 1957.] In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Sections 1000 and 2006 and Chapter 2 (commencing at Section 2083) of Title 6, Part 4 and Article 3 (commencing at Section 2019), Article 4 (commencing at Section 2024), Article 5 (commencing at Section 2031) of Chapter 3, Title 3, Part 4, of the Code of Civil Procedure are repealed. Repeals

SEC. 2. Section 1986 of said code is amended to read:

1986. 1. A subpena is issued as follows: To require attendance before a court, or at the trial of an issue therein, or upon the taking of a deposition in an action or proceeding pending therein, it is issued by the clerk of the court in which the action or proceeding is pending, under the seal of the court, or if there is no clerk or seal then by a judge or justice of such court; Subpena

2. To require attendance before a commissioner appointed to take testimony by a court of a foreign country, or of the United States, or of any other state in the United States, or before any officer or officers empowered by the laws of the United States to take testimony, it may be issued by the clerk of the superior court of the county in which the witness is to be examined, under the seal of such court;

3. To require attendance out of court, in cases not provided for in subdivision 1, before a judge, justice, or other officer authorized to administer oaths or take testimony in any matter under the laws of this State, it is issued by the judge, justice, or other officer before whom the attendance is required.

If the subpena is issued to require attendance before a court, or at the trial of an issue therein, it is issued by the clerk, as of course, upon the application of the party desiring it. If it is issued to require attendance before a commissioner or other officer upon the taking of a deposition, it must be issued, as of course, by the clerk of the superior court of the county wherein the attendance is required upon the application of the party requiring it.

SEC. 3. Article 3, comprising Sections 2016 to 2035, inclusive, is added to Chapter 3, Title 3, Part 4 of said code, to read:

Article 3. Depositions and Discovery

Deposition

2016. (a) Any party may take the testimony of any person, including a party, by deposition upon oral examination or written interrogatories for the purpose of discovery or for use as evidence in the action or for both purposes. Such depositions may be taken in an action at any time after the service of the summons or the appearance of the defendant, and in a special proceeding after a question of fact has arisen therein. After commencement of the action, the deposition may be taken without leave of court, except that leave of court must be obtained if the notice of the taking of the deposition is served by the plaintiff within 20 days after service of the summons on, or appearance of, the defendant. The attendance of witnesses may be compelled by the use of subpena as provided in Chapter 2, Title 3, Part 4 of this code.

Scope of examination

(b) Unless otherwise ordered by the court as provided by subdivision (b) or (d) of Section 2019 of this code, the deponent may be examined regarding any matter, not privileged, which is relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the examining party, or to the claim or defense of any other party, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of relevant facts. It is not ground for objection that the testimony will be inadmissible at the trial if the testimony sought appears reasonably calculated to lead to the discovery of admissible

Privileges

evidence. All matters which are privileged against disclosure

upon the trial under the law of this State are privileged against disclosure through any discovery procedure. This article shall not be construed to change the law of this State with respect to the existence of any privilege, whether provided for by statute or judicial decision, nor shall it be construed to incorporate by reference any judicial decisions on privilege of any other jurisdiction.

Examination and cross-examination

(c) Examination and cross-examination of deponents may proceed as permitted at the trial under the provisions of this code.

Use

(d) At the trial or upon the hearing of a motion or an interlocutory proceeding, any part or all of a deposition, so far as admissible under the rules of evidence, may be used against any party who was present or represented at the taking of the deposition or who had due notice thereof, in accordance with any one of the following provisions:

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of deponent as a witness.

(2) The deposition of a party to the record of any civil action or proceeding or of a person for whose immediate benefit said action or proceeding is prosecuted or defended, or of anyone who at the time of taking the deposition was an officer, director, superintendent, member, agent, employee, or managing agent of any such party or person may be used by an adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the court finds: (i) that the witness is dead; or (ii) that the witness is at a greater distance than 100 miles from the place of trial or hearing, or is out of the State, unless it appears that the absence of the witness was procured by the party offering the deposition; or (iii) that the witness is unable to attend or testify because of age, sickness, infirmity, or imprisonment; or (iv) that the party offering the deposition has been unable to procure the attendance of the witness by subpena; or (v) upon application and notice, that such exceptional circumstances exist as to make it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally in open court, to allow the deposition to be used.

(4) Subject to the requirements of this section, a party may offer in evidence all or any part of a deposition, and if such party introduces only part of such deposition, any party may introduce any other parts.

Substitution of parties

Substitution of parties does not affect the right to use depositions previously taken; and, when an action in any court of the United States or of any state has been dismissed and another action involving the same subject matter is afterward brought between the same parties or their representatives or successors in interest, all depositions lawfully taken and duly

filed in the former action may be used in the latter as if originally taken therefor

Objection

(e) Subject to the provisions of subdivision (c) of Section 2021 of this code, objection may be made at the trial or hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witness were then present and testifying.

Own witness

(f) A party shall not be deemed to make a person his own witness for any purpose by taking his deposition. Except where the deposition is used under the provisions of paragraph (2) of subdivision (d) of this section, the introduction in evidence of the deposition or any part thereof for any purpose other than that of contradicting or impeaching the deponent, or for explaining or clarifying portions of the said deposition offered by an adverse party, makes the deponent the witness of the party introducing the deposition, as to the portions of the deposition introduced by said party. At the trial or hearing any party may rebut any relevant evidence contained in a deposition whether introduced by him or by another party.

Perpetuation of own testimony

2017. (a) (1) A person who desires to perpetuate his own testimony or that of another person regarding any matter that may be cognizable in any court of this State may file a verified petition in the superior court in the county of the residence of any expected adverse party.

Contents

The petition shall be entitled in the name of the petitioner and shall show: (i) that the petitioner expects to be a party to an action cognizable in a court of this State but is presently unable to bring it or cause it to be brought, (ii) the subject matter of the expected action and his interest therein, (iii) the facts which he desires to establish by the proposed testimony and his reasons for desiring to perpetuate it, (iv) the names or a description of the persons he expects will be adverse parties and their addresses so far as known, and (v) the names and addresses of the persons to be examined and the substance of the testimony which he expects to elicit from each, and shall ask for an order authorizing the petitioner to take the depositions of the persons to be examined named in the petition, for the purpose of perpetuating their testimony.

Notice

(2) The petitioner shall thereafter serve a notice upon each person named in the petition as an expected adverse party, together with a copy of the petition, stating that the petitioner will apply to the court, at a time and place named therein, for the order described in the petition. At least 20 days before the date of hearing the notice shall be served in the manner provided in this code for service of summons; but if such service cannot with due diligence be made upon any expected adverse party named in the petition, the court may make such order as is just for service by publication, and where any parties who have been duly served by publication have not appeared, the court shall appoint, for such persons,

an attorney who shall represent them, for all such purposes including cross-examination of the deponent. The court may make such order as is just, requiring petitioner to pay reasonable fees and expenses to an attorney so appointed.

(3) If the court is satisfied that the perpetuation of the testimony may prevent a failure or delay of justice, it shall make an order designating or describing the persons whose depositions may be taken and specifying the subject matter of the examination and whether the depositions shall be taken upon oral examination or written interrogatories. The court may make such order as may be just, requiring the petitioner to furnish, at his expense, a copy of any such depositions to any expected adverse party, or for the payment to the deponent or to an expected adverse party of such taxable costs as would be allowable to a prevailing party after the trial of an action. The depositions may then be taken in accordance with the provisions of this code relating to depositions taken after the commencement of actions; and the court may make orders of the character provided for by Section 2019, subdivisions (b) and (d) and by Sections 2031, 2032, and 2034 of this code. Court order

(4) If a deposition to perpetuate testimony is taken under this section or if, although not so taken, it would be admissible in evidence in the court of the state in which it is taken, it may be used in any action involving the same subject matter subsequently brought in a court of this State, in accordance with the provisions of subdivision (d) of Section 2016 of this code.

(b) If an appeal has been taken from a judgment of any court of this State or before the taking of an appeal if the time therefor has not expired, the court in which the judgment was rendered may allow the taking of the depositions of witnesses to perpetuate their testimony for use in the event of further proceedings in that court. In such case the party who desires to perpetuate the testimony may make a motion in the court in which the judgment was rendered for leave to take the depositions, upon the same notice and service thereof as if the action was pending in the superior court. The motion shall show (1) the names and addresses of persons to be examined and the substance of the testimony which he expects to elicit from each; (2) the reasons for perpetuating their testimony. If the court finds that the perpetuation of the testimony is proper to avoid a failure or delay of justice it may make an order allowing the depositions to be taken and may make orders of the character provided for by subdivisions (b) and (d) of Section 2019 and of Sections 2031, 2032, and 2034 of this code, and thereupon the depositions may be taken and used in the same manner and under the same conditions as are prescribed in this code for depositions taken in actions pending in the lower courts of this State. Appeal

(c) This rule does not limit the power of a court to entertain an action to perpetuate testimony.

Taking of depositions

2018. (a) Within this State, depositions shall be taken before any notary public or a judge or officer authorized to administer oaths or before a person appointed by the court in which the action is pending. A person so appointed has power to administer oaths and take testimony.

Foreign

(b) In a foreign state or country depositions shall be taken on notice before a secretary of embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or before a person appointed by the court in which the action is pending, or before a judge of a court of record in such country, or before anyone agreed to by the parties. A commission shall be issued for such depositions as provided for in Section 2024 of this code.

Limitations

(c) No deposition shall be taken before a person who is a relative or employee or attorney or counsel of any of the parties, or is a relative or employee of such attorney or counsel, or is financially interested in the action.

Oral examination

2019. (a) (1) A party desiring to take the deposition of any person upon oral examination shall give notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. Such notice must be at least 10 days, adding also one day for every 100 miles of the distance of the place of examination from the residence of the person to whom the notice is given, except that on motion of any party upon whom the notice is served, the court may for cause shown enlarge or shorten the time. Service of such notice or motion may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010), of this code, and in the case of depositions of a party to the record of any civil action or proceeding or of a person for whose immediate benefit said action or proceeding is prosecuted or defended, or of any one who at the time of taking the deposition is an officer, director, or managing agent of any such party or person, the service of a subpena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney of such party or person.

Party stipulation

(2) If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions.

Default

(3) If an adverse party is in default for not appearing and answering within the time allowed by the law or the court, or if, in a special proceeding, some or all of the parties interested have not appeared, the court may authorize a deposition to be taken without the giving of any notice to, the party so in default or not appearing, or may provide that notice be given to him in such mode as to the court may seem proper.

(b) After notice is served for taking a deposition by oral examination, upon motion seasonably made by any party or by the person to be examined and upon notice and for good cause shown, the court in which the action is pending may make an order that the deposition shall not be taken, or that it may be taken only at some designated place other than stated in the notice, or that it shall not be taken except by allowing written interrogatories by one or more parties, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression. Court discretion

(c) The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim. Oath

(d) At any time during the taking of the deposition, on motion of any party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or the superior court in the county where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subdivision (b) of this section. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order. In granting or refusing such order the court may impose upon either party or upon the witness the Bad faith, etc.

requirement to pay such costs or expenses as the court may deem reasonable.

Examination of deposition by witness

(e) When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress under subdivision (d) of Section 2021 of this code the court holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

Certification

(f) (1) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in a envelope indorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly file it with the court in which the action is pending or send it by registered mail to the clerk thereof for filing.

Copies

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

Notice of filing

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

Failure to proceed

(g) (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

(2) If the party giving the notice of the taking of a deposition of a witness fails to serve a subpena upon him and the witness because of such failure does not attend, and if another party attends in person or by attorney because he expects the deposition of that witness to be taken, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

Written interrogatories

2020 (a) A party desiring to take the deposition of any person upon written interrogatories shall serve them upon every other party with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the officer before whom the deposition

is to be taken. Within 10 days thereafter a party so served may serve cross interrogatories upon the party proposing to take the deposition. Within 10 days thereafter the latter may serve redirect interrogatories upon a party who has served cross interrogatories. Within 10 days after being served with redirect interrogatories, a party may serve recross interrogatories upon the party proposing to take the deposition. No party may serve more than one set of interrogatories to be answered by the same person, except with leave of court obtained on motion after notice.

Copy of notice

(b) A copy of the notice and copies of all interrogatories served shall be delivered by the party taking the deposition to the officer designated in the notice, who shall proceed promptly, in the manner provided by subdivisions (c), (d), and (f) of Section 2019 of this code, to take the testimony of the witness in response to the interrogatories and to prepare, certify, and file or mail the deposition, attaching thereto the copy of the notice and the interrogatories received by him.

(c) When the deposition is filed the party taking it shall promptly give notice thereof to all other parties.

Oral examination

(d) After the service of interrogatories and prior to the taking of the testimony of the deponent, the court in which the action is pending, on motion promptly made by a party or a deponent, upon notice and good cause shown, may make any order specified in Section 2019 of this code which is appropriate and just or an order that the deposition shall not be taken before the officer designated in the notice or that it shall not be taken except by allowing oral examination by one or more parties.

Service

(e) Service of any interrogatories, notices, motions, or orders under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

Errors

2021. (a) All errors and irregularities in the notice for taking a deposition are waived unless written objection is promptly served upon the party giving the notice

Objection

(b) Objection to taking a deposition because of disqualification of the officer before whom it is to be taken is waived unless made before the taking of the deposition begins or as soon thereafter as the disqualification becomes known or could be discovered with reasonable diligence.

(c) (1) Objections to the competency of a witness or to the competency, relevancy, or materiality of testimony are not waived by failure to make them before or during the taking of the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time.

(2) Errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath or affirmation, or in the conduct of parties and errors of any kind which might be obviated, removed, or cured if promptly presented, are waived

unless seasonable objection thereto is made at the taking of the deposition.

(3) Objections to the form of written interrogatories submitted under Section 2020 of this code are waived unless served in writing upon the party propounding them within the time allowed for serving the succeeding cross or other interrogatories and within three days after service of the last interrogatories authorized.

(d) Errors and irregularities in the manner in which the testimony is transcribed or the deposition is prepared, signed, certified, sealed, indorsed, transmitted, filed, or otherwise dealt with by the officer under Sections 2019 and 2020 of this code are waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is, or with due diligence might have been, ascertained.

Witness out of State

2024. The deposition of a witness out of this State may be taken upon a commission issued from the court under the seal of the court, upon an order of the court, or a judge or a justice thereof, on the application of either party, upon five days' previous notice to the other. If the court is a justice court, the commission must have attached to it a certificate of the clerk of the superior court of the county in which such justice court is held, under the seal of such superior court, to the effect that the person issuing the same was an acting judge at the date of commission. If issued to any place within the United States, it may be directed to a person agreed upon by the parties, or if they do not agree, to any notary public, judge or commissioner selected by the court or judge or justice issuing it. If issued to any country out of the United States, it may be directed to a secretary of embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or to a person appointed by the court in which the action is pending, or to a judge of a court of record in such country, or to any one agreed upon by the parties.

Motion for commission

2025. The party moving for the commission under the provisions of Section 2024 of this code must, unless it is waived by the other party, attach to the notice of the motion the interrogatories upon which he desires it to be taken. On the hearing of the motion, the other party must propose such cross-interrogatories as he may desire. If the parties do not agree as to the form of the interrogatories, the court must settle their form, but such agreement or settlement does not preclude either party, when the deposition is offered in evidence, from interposing any objection to any interrogatory which is available to him under the provisions of Sections 2016 and 2021 of this code. The settlement of interrogatories may be had at the time of the hearing of the motion, or at any other time which the court may appoint; but the moving party must, if he request it, be allowed two days within which to propose such redirect interrogatories as the cross-interrogatories proposed render proper. When agreed upon or settled, the interrogatories must be annexed to the commission.

Nonresident witness

2026. When a party shall desire to take the evidence of a nonresident witness, to be used in any cause pending in this State, the party desiring the same (or where notice shall have been given that a commission to take the testimony of a nonresident witness will be applied for, the opposite party, upon giving the other three days' notice in writing of his election so to do), may have a commission directed in the same manner as provided in Section 2024 of this code to take such evidence, interrogatories to be propounded to the witness orally; upon the taking of which each party may appear before the commissioner, in person or by attorney, and interrogate the witness.

Notice

The party desiring such testimony shall give to the other the following notice of the time and place of taking the same, to wit: 10 days, and one day in addition thereto (Sundays included) for every 300 miles' travel from the place of holding the court to the place where such deposition is to be taken.

The provisions of subdivision (g) of Section 2019 shall apply to depositions taken under this section.

Oath

2027. The commission must authorize the commissioner to administer an oath to the witness and to take his deposition in answer to the interrogatories, or when the examination is to be without interrogatories, in respect to the question in dispute, and to certify the deposition to the court, in a sealed envelope, directed to the clerk, if there be one, and if not, to the judge thereof, and forwarded to him by mail or other usual channel of conveyance.

Delaying trial

2028. A trial or other proceeding must not be postponed by reason of a commission not returned, except upon evidence, satisfactory to the court, that the testimony of the witness is necessary, and that the proper diligence has been used to obtain it.

2029. The provisions of Sections 2016, 2018, 2019, 2020, and 2021 of this code are applicable to depositions taken out of this State, except as otherwise specifically provided in Sections 2024 to 2028, inclusive, of this code.

Service of written interrogatories

2030. (a) Any party may serve upon any adverse party written interrogatories to be answered by the party served or, if the party served is a public or private corporation or a partnership or association, or body politic, by any officer or agent, who shall furnish such information as is available to the party. Interrogatories may be served upon any adverse party at any time after service of the summons or the appearance of such adverse party and without leave of court, except that, if service of interrogatories is made by the plaintiff within 10 days after such service of summons or appearance, leave of court granted with or without notice must first be obtained. The interrogatories shall be answered separately and fully in writing under oath. The answers shall be signed by the person making them; and the party upon whom the interrogatories have been served shall serve a copy of the answers on the party submitting the interrogatories

within 15 days after the service of the interrogatories, unless the court, on motion and notice and for good cause shown, enlarges or shortens the time. Within 10 days after service of interrogatories a party may serve written objections thereto together with a notice of hearing the objections at the earliest practicable time. Answers to interrogatories to which objection is made shall be deferred until the objections are determined. No party may serve more than one set of interrogatories to be answered by the same adverse party, except with leave of court obtained on motion after notice.

Subject matter

(b) Interrogatories may relate to any matters which can be inquired into under subdivision (b) of Section 2016 of this code, and the answers may be used to the same extent as provided in subdivision (d) of Section 2016 of this code for the use of the deposition of a party. Interrogatories may be served after a deposition has been taken, and a deposition may be sought after interrogatories have been answered, but the court, on motion of the deponent or the party interrogated, may make such protective order as justice may require. The number of interrogatories or of sets of interrogatories to be served is not limited except as above provided and except as justice requires to protect the party from annoyance, expense, embarrassment or oppression. The provisions of subdivision (b) of Section 2019 of this code are applicable for the protection of the party from whom answers to interrogatories are sought under this section.

Business records

(c) Where the answer to any interrogatory may be derived or ascertained from the business records of the party to whom such interrogatory is addressed or from an examination, audit or inspection of such business records, or from a compilation, abstract or summary based thereon, it shall be a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party by whom the interrogatory was proposed reasonable opportunity to examine, audit or inspect such records and to make copies thereof or compilations, abstracts or summaries therefrom.

(d) Service of interrogatories under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

Documents, etc.

2031. (a) Upon motion of any party showing good cause therefor, and upon at least 10 days' notice to all other parties, and subject to the provisions of subdivision (b) of Section 2019 of this code, the court in which an action is pending may (1) order any party to produce and permit the inspection and copying or photographing, by or on behalf of the moving party, of any designated documents, papers, books, accounts, letters, photographs, objects or tangible things, not privileged, which constitute or contain evidence relating to any of the matters within the scope of the examination permitted by subdivision (b) of Section 2016 of this code and which are in his

possession, custody, or control; or (2) order any party to permit entry upon designated land or other property in his possession or control for the purpose of inspecting, measuring, surveying, or photographing the property or any designated object or operation thereon within the scope of the examination permitted by subdivision (b) of Section 2016 of this code. The order shall specify the time, place, and manner of making the inspection and taking the copies and photographs and may prescribe such terms and conditions as are just.

Service

(b) Service upon a party of any notice, motion or order made under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

Blood examination, etc

2032. (a) In an action in which the mental or physical condition or the blood relationship of a party, or of an agent or a person in the custody or under the legal control of a party, is in controversy, the court in which the action is pending may order the party to submit to a physical or mental or blood examination by a physician or to produce for such examination his agent or the person in his custody or legal control. The order may be made only on motion for good cause shown and upon notice to the person to be examined and to all parties and shall specify the time, place, manner, conditions, and scope of the examination and the person or persons by whom it is to be made.

Report

(b) (1) If requested by the party against whom an order is made under subdivision (a) of this section or the person examined, the party causing the examination to be made shall deliver to him a copy of a detailed written report of the examining physician setting out his findings and conclusions, together with like reports of all earlier examinations of the same condition. After such request and delivery the party causing the examination to be made shall be entitled upon request to receive from the party or person examined a like report of any examination, previously or thereafter made, of the same condition. If the party or person examined refuses to deliver such report the court on motion and notice may make an order requiring delivery on such terms as are just, and if a physician fails or refuses to make such a report the court may exclude his testimony if offered at the trial.

Waiver of privilege

(2) By requesting and obtaining a report of the examination so ordered or by taking the deposition of the examiner, the party against whom an order is made under subdivision (a) of this section or the person examined waives any privilege he may have in that action or any other involving the same controversy, regarding the testimony of every other person who has examined or may thereafter examine him in respect of the same condition.

Service

(c) Service upon a party of any notice, motion or order made under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

Requested admission

2033. (a) After service of summons or the appearance of a party, any other party who has appeared in the action may serve upon such party who has been served or who has appeared a written request for the admission by the latter of the genuineness of any relevant documents described in the request or of the truth of any relevant matters of fact set forth in the request. If a plaintiff desires to serve a request within 10 days after such service of summons or appearance, leave of court, granted with or without notice, must be obtained. Copies of the documents shall be served with the request unless copies have already been furnished, and upon request the originals shall be made available for inspection. Each of the matters of which an admission is requested shall be deemed admitted unless, within a period designated in the request, not less than 10 days after service thereof or within such shorter or longer time as the court may allow on motion and notice, the party to whom the request is directed serves upon the party requesting the admission either (1) a sworn statement denying specifically the matters of which an admission is requested or setting forth in detail the reasons why he cannot truthfully admit or deny those matters or (2) written objections on the ground that some or all of the requested admissions are privileged or irrelevant or that the request is otherwise improper in whole or in part, together with a notice of hearing the objections at the earliest practicable time. If written objections to a part of the request are made, the remainder of the request shall be answered within the period designated in the request. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party deny only a part or a qualification of a matter of which an admission is requested, he shall specify so much of it as is true and deny only the remainder. The number of requests for admissions or of sets of requests for admissions to be served is not limited except as justice requires to protect the party from annoyance, expense, embarrassment or oppression. The provisions of subdivision (b) of Section 2019 of this code are applicable for the protection of the party from whom admissions are requested under this section.

Answer

Pending action only

(b) Any admission made by a party pursuant to such request is for the purpose of the pending action only and neither constitutes an admission by him for any other purpose nor may be used against him in any other action.

Service

(c) Service upon a party of any notice, motion, request or order under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

Refusal to answer

2034. (a) If a party or other deponent refuses to answer any question propounded upon examination during the taking of a deposition, the examination shall be completed on other matters or adjourned, as the proponent of the question may prefer. In lieu of the precedures set forth in Sec-

tion 1991 of this code, such proponent, on reasonable notice to all persons affected thereby, may apply to the court in which the action is pending (if the deponent is a party or otherwise subject to the jurisdiction of such court), or if such court does not have jurisdiction over the deponent, to the superior court of the county in which the deposition is taken for an order compelling an answer. Upon the refusal of a party to answer any interrogatory submitted under Section 2030 of this code, the proponent of the question may on like notice make like application for such an order. If the motion is granted and if the court finds that the refusal was without substantial justification the court may require the refusing party or deponent and the party or attorney advising the refusal or either of them to pay to the examining party the amount of the reasonable expenses incurred in obtaining the order, including reasonable attorney's fees. If the motion is denied and if the court finds that the motion was made without substantial justification, the court may require the examining party or the attorney advising the motion or both of them to pay to the refusing party or witness the amount of the reasonable expenses incurred in opposing the motion, including reasonable attorney's fees.

Contempt

(b) (1) The court may punish as a contempt the refusal of any person to obey a subpena issued by that court to attend a deposition or to be sworn as a witness, in the manner provided in Section 1991 of this code or the refusal of any person to obey any order made by the court under Section 1991 of this code or subdivision (a) of this section.

Disobedience

(2) If any party or person for whose immediate benefit the action or proceeding is prosecuted or defended, or an officer, director, superintendent, member, agent, employee or managing agent of any such party or person refuses to obey an order made under subdivision (a) of this section or under Section 1991 of this code requiring him to answer designated questions, or if any party or an officer or managing agent of a party refuses to obey an order made under Section 2031 of this code, or an order made under Section 2032 of this code, the court may make such orders in regard to the refusal as are just, and among others the following:

Orders

(i) An order that the matters regarding which the questions were asked, or the character or description of the thing or land, or the contents of the paper, or the physical or mental or blood condition of the person sought to be examined, or any other designated facts shall be taken to be established for the purposes of the action in accordance with the claim of the party obtaining the order;

(ii) An order refusing to allow the disobedient party to support or oppose designated claims or defenses, or prohibiting him from introducing in evidence designated documents or things or items of testimony, or from introducing evidence of the physical or mental or blood condition of the person sought to be examined;

(iii) An order striking out pleadings or parts thereof, or staying further proceedings until the order is obeyed, or dismissing the action or proceeding or any part thereof, or rendering a judgment by default against the disobedient party;

(iv) In lieu of any of the foregoing orders or in addition thereto, an order directing the arrest of any party or agent of a party for disobeying any of such orders except an order to submit to a physical or mental or blood examination;

(v) Where a party has failed to comply with an order under subdivision (a) of Section 2032 of this code requiring him to produce another for examination, such orders as are listed in (i), (ii), and (iii) of this subdivision of this section, unless the party failing to comply shows that he is unable to produce such person for examination.

Denial, expenses of proof

(c) If a party, after being served with a request under Section 2033 of this code to admit the genuineness of any documents or the truth of any matters of fact, serves a sworn denial thereof and if the party requesting the admissions thereafter proves the genuineness of any such document or the truth of any such matter of fact, he may apply to the court in the same action for an order requiring the other party to pay him the reasonable expenses incurred in making such proof, including reasonable attorney's fees. If the court finds that there were no good reasons for the denial and that the admissions sought were of substantial importance, the order shall be made.

Judgment by default

(d) If a party or a person for whose immediate benefit the action or proceeding is prosecuted or defended or anyone who at the time the deposition is set is an officer, director, or managing agent of any such party or person wilfully fails to appear before the officer who is to take his deposition, after being served with a proper notice, or if a party or an officer or managing agent of a party fails to serve answers to interrogatories submitted under Section 2030 of this code, after proper service of such interrogatories, the court on motion and notice may strike out all or any part of any pleading of that party, or dismiss the action or proceeding or any part thereof, or enter a judgment by default against that party.

"Improvements"

50550. As used in this article, "improvements" means any or all of the following property acquired, constructed or installed by a local agency with funds derived from special assessments: (a) water mains, pipes, conduits, hydrants and other works or appliances which may be used for providing water service (b) poles, posts, lines, pipes, conduits, lamps and other works or appliances which may be used for providing electric light or power service (c) mains, pipes and other works and appliances which may be used for providing gas service.

Sale

50551. Whenever the legislative body of a local agency determines by resolution that certain of its improvements are no longer useful for the purpose for which they were acquired, constructed or installed, or that such improvements cannot be economically and efficiently operated and maintained by the local agency, such improvements may be sold pursuant to this article.

Resolution of intention

50552. The legislative body shall adopt a resolution of intention, describing the improvements and stating the reason for which the improvement is proposed to be sold. The resolution shall contain a notice of the time and place, when and where persons objecting to the proposed sale may appear before the legislative body and show cause why the proposed sale shall not be made. The time shall not be less than 15, nor more than 40, days after the passage of the resolution.

Publication

50553. The clerk of the legislative body shall cause the resolution of intention to be published once a week for two successive weeks in a daily, semiweekly or weekly newspaper of general circulation in the local agency.

Oral protest

50554. At the time and place fixed in the resolution of intention, any owner of property assessed or being assessed to pay for the acquisition, construction or installation of the improvement proposed to be sold may appear before the legislative body and object to the sale.

Written protest

50555. At any time not later than the time set for hearing objections, any owner of property assessed or being assessed to pay for the acquisition, construction or installation of the improvement proposed to be sold may make and deliver to the clerk of the legislative body a written protest against the proposed sale. Failure to object in writing at that time constitutes a waiver of all objections to the proposed sale and a bar to any subsequent attack on the validity of such sale.

Termination of proceedings

50556. At the time for hearing protests, the legislative body shall hear and pass upon all protests and objections to the proposed sale. If 10 percent of the owners of property assessed or being assessed to purchase the property proposed to be sold, protest such sale in writing, the proceedings shall terminate and no proceedings for a similar purpose shall be instituted for a period of six months. If less than 10 percent of the owners of such property object to the proposed sale and if, in the opinion of the legislative body, the sale of such improvements will be for the best interests of the local agency, the legislative body may overrule all protests and proceed with the sale of such improvement. The decision of the legislative body shall be final.

Bids

50557. If the legislative body determines to proceed, it shall adopt a resolution ordering the sale of such improvement and calling for bids. The resolution shall fix the time for receiving bids, the terms and conditions of the sale, and shall direct the clerk to give notice inviting sealed bids.

Condition subsequent

50558. If the improvement is useful and necessary for the rendition of a service to the local agency, the legislative body shall provide that the sale is conditional upon the purchaser maintaining and operating the improvement for the purpose of providing such service. The contract of sale shall prescribe the period of time during which such condition shall be operative and may prescribe circumstances under which it may be terminated by the parties prior to the expiration of such time

Sealed proposals

50559 The notice inviting sealed proposals shall contain a description of the improvement, the terms and conditions of the sale, and the time and place when and where sealed proposals will be received.

Publication

50560. The notice shall be published at least once a week for two successive weeks in a daily, semiweekly, or weekly newspaper of general circulation in the local agency or assessment district and shall be posted conspicuously for five days on or near the door of the legislative body's chamber.

Sale or rejection

50561. The legislative body shall sell the improvement to the highest responsible bidder or may reject any or all bids.

Without bids

50562. If the legislative body finds that the public interest will be furthered or that the advertising or calling for bids will

not result in competitive bidding, such improvements may be sold without first calling or advertising for bids.

Proceeds

50563. The proceeds of the sale of such improvement shall be distributed by the local agency to the owners of the property which has been or is being assessed to pay for such improvement. Each property owner shall receive an amount which bears the same ratio to the total proceeds as the current assessment against his property bears to the total current assessment for such improvement.

Liberal construction

50564. This article shall be liberally construed to effectuate its purposes. The powers herein granted to local agencies shall not be construed as a limitation on any other powers heretofore or hereinafter granted to such agencies.

Hearing

After the hearing, if the board of the district determines that it is for the best interests of the distribution district that the land requested to be excluded, or any portion thereof, should be excluded, the board of the district shall make an order excluding the land, or portion thereof, and cause it to be recorded in the office of the county recorder of each county in which the excluded land is located.

Property holding

36521. The board may also hold or dispose of property used or acquired in connection with the distribution district in the name of the directors and their successors in office as trustees for the distribution district.

Charges

36522. The board of the district may in lieu in whole or in part of levying assessments for repayment of construction costs under a contract with the United States or with the district, fix and collect charges for the use of water or for any other service furnished by means of the distribution system in the same manner and with the same effect as charges are made and collected by districts for the use of water or for services. Such charges may be in excess of charges made and collected by the district for the use of water or for services in other areas of the district.

Maintenance

36523. The board of the district may provide for any maintenance and operation of the distribution system of a distribution district that may be required by the provisions of the contract between the distribution district and the United States under the federal reclamation laws or under the contract between the distribution district and the district, from funds of the district in lieu of levying further distribution district assessments for such purposes.

36524. The board of the district may provide for any maintenance and operation of the distribution system of a distribution district that may be required by the provisions of the contract between the distribution district and the United States under the federal reclamation laws or under the contract between the distribution district and the district, from funds raised by charges which are fixed and collected for the use of water or for any other such service furnished by means of the distribution system, in the same manner and with the same effect as charges are made and collected by district for the use of water or for services. Such charges may be in addition to other charges made by the district for the furnishing of water or other services.

Warrants

36525. A district may issue distribution district warrants signed by its president and secretary from receipts of distribution district assessments and charges in such amounts and to the United States, the district or such persons as may be required to carry out the provisions of a contract between a distribution district and the United States, executed under the federal reclamation laws, or a contract between the distribution district and the district.

Article 2. Actions and Proceedings

Findings, etc

36530. All acts, proceedings, conclusions, and findings of fact, including the levy of assessments or charges, by a board of a district concerning a distribution district herein shall be conclusive except in an action or proceeding instituted within six months after the acts, proceedings, conclusions, or findings were had or made.

Validity of assessment

36531. The board of a district in which a distribution district is located may, at any time after the levy of any assessment for the distribution district, bring an action to determine the validity of the assessment in the same manner and with the same effect as provided for the determination of the validity of district bonds and assessments.

36532. No irregularity or omission not affecting the substantial rights of the landowners within a distribution district shall affect the validity of any act done or proceeding taken in relation to the distribution district.

CHAPTER 4. DISSOLUTION OF DISTRIBUTION DISTRICTS

Dissolution

36540. At any time prior to incurring any indebtedness or obligation, or upon the full payment of all indebtedness or obligations of a distribution district a petition, signed and acknowledged by not less than the number of owners of land constituting the distribution district required to sign a petition to form the distribution district, may be filed with the board requesting that the distribution district be dissolved.

Hearing

36541. A hearing on dissolution shall be had in the same manner and after the same notice as is required for the formation of a distribution district.

36542. The board may, after the hearing, order the distribution district dissolved.

Order

36543. The order of dissolution shall be recorded in the same manner as the order forming the distribution district.

Urgency

SEC. 11. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Certain of the California water districts are in the process of constructing distribution systems to provide water for the lands within their boundaries.

Within these districts, there are certain areas which have peculiar needs as to local conditions, which require different types of distribution systems than other areas within the district.

In order to provide a method by which local areas can construct distribution systems to meet the increasing demand for surface water, and to take advantage of funds made available by the United States it is necessary that a statutory procedure be adopted which will accomplish this purpose. Unless such a procedure is adopted, many areas within California water districts will not have sufficient water to adequately irrigate their crops during the present year.

If this act becomes effective immediately, such districts can finance and construct needed facilities without delay.

CHAPTER 1936

An act to amend Section 69595 of the Government Code, relating to courts.

[Approved by Governor July 6, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 69595 of the Government Code is amended to read:

69595. In the County of San Diego there shall be 13 judges of the superior court.

CHAPTER 1937

An act to add Section 1220 to the Civil Code, relating to standing timber or trees.

[Approved by Governor July 6, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 1220 is added to the Civil Code, to read:

1220. Contracts for the purchase or sale of standing timber or trees, for severance or otherwise, and all instruments in writing by which any estate or interest in, or right to cut, standing timber or trees is created, aliened, mortgaged or encumbered or by which the title to any standing timber or trees may be affected, may be acknowledged or proved, certified and recorded in like manner and with like effect, as grants of real property, and all statutory provisions relating to the recordation or nonrecordation of conveyances of real property or to the effect thereof shall apply to such contracts and instruments with like effect.

In enacting this section, it is the intent of the Legislature to remove any possible ambiguity which may exist in the present law relating to the recordation of certain documents and to codify the existing law without change or addition, thus recognizing specifically by statute the unvarying practice of county recorders for many years.

CHAPTER 1938

An act to add Chapter 8 (commencing at Section 26600) to Part 10 of Division 11 of the Water Code, relating to an alternative procedure for assessment and collection of assessments by counties in irrigation districts with less than 3,000 acres.

In effect September 11, 1957

[Approved by Governor July 6, 1957. Filed with Secretary of State July 10, 1957.]

Office of assessor, etc.

26601. At its option, the board of directors of a district may adopt a resolution declaring its intention to dispense with either the office of assessor or both the offices of assessor and collector of the district, and to transfer the duties of either the assessor or of both such officers to the assessor or to the assessor and tax collector of the county or counties in which the lands within such districts are located

Service of copies

26602. Certified copies of such resolution shall be served on the clerk of the board of supervisors and on the auditor, assessor and collector of the county or counties in which the lands within the district are located.

Acceptance

26603. Within 30 days of the receipt of such resolution, the board of supervisors shall adopt a resolution advising the district of the charges to be made for the services to be performed by the county. If the board of directors elects to accept the terms offered by the county, it shall adopt a resolution reciting its acceptance, dispensing with the office of district assessor or with both the offices of district assessor and district collector, and transferring their duties to the assessor or to the assessor and tax collector of the county or counties in which the lands within the district are located.

Contract

26604. The acceptance of the county's terms by the district as evidenced by the board's resolution shall constitute a contract between the county and the district which shall become effective on the first Monday of February next following its adoption and which shall continue for a term of four years from its effective date. The contract shall be automatically

renewed for successive four-year terms unless terminated by either the district or the county by the adoption of a resolution and its service on either the clerk of the board of supervisors by the district, or on the secretary of the district by the county, at least 90 days prior to the expiration of the then-current term of the contract.

Termination

26605. Upon termination of the contract, the board of directors of the district shall appoint an assessor, or both an assessor and collector, who shall serve until the election of their successor at the next general district election.

Collection

26606. After termination of the contract, the county officers shall continue with the collection of district assessments on the county rolls and with the redemption or deeding of property subject to delinquent district assessments on county rolls until all such assessments have been collected or all such property has been either redeemed or deeded to the district.

Article 2. Assessment and Equalization

Assessment basis

26625. The applicable part of the county assessment rolls as made by the county assessor and equalized or corrected by the board of supervisors or the State Board of Equalization shall be the basis for levying the district's assessments.

Rate difference

26626. On or before the first Monday of March of each year, the board of directors of the district shall cause to be filed with the county auditor a description of the exterior boundaries of any portion of the district in which a rate of assessment is to be levied which is different from the rate to be levied in any other portion of the district.

Total value

26627. Annually, on or before the third Monday in August, the county auditor shall transmit to the directors of the district a written statement showing separately the total value of all lands within the district subject to assessment and the total value of all such lands in any portion of the district within which a different rate of assessment is to be levied. The values so reported shall be those obtained from the assessment books of the county as last equalized and corrected together with an estimate of the values of the lands within the district subject to assessment by the State Board of Equalization.

Duplicate assessment rolls

26628. Where the district has not elected to transfer the duties of collector to the county tax collector, the county assessor shall furnish the district a duplicate of the applicable portions of the county's assessment rolls at the time of transmittal of the statement of values required by Section 26627 and, upon receipt, a duplicate statement of the assessed values of all lands within the district subject to assessment by the State Board of Equalization. The rolls and statement so delivered shall for all purposes become the assessment rolls of the district.

Annual assessment

26629. Within 15 days after receipt of the statement of values and duplicate rolls, the district's board of directors

shall levy an annual assessment upon the land within the district in the same manner as provided in Chapters 2 and 3 of this part.

Computation

26630. Where the district has not elected to transfer the duties of collector to the county tax collector, the secretary shall compute and enter in a separate column of the assessment roll the respective sums to be paid as an annual district assessment on the land listed and deliver the completed assessment roll to the collector before the first day of November.

Collection

26631. Upon receiving the roll from the secretary, the collector shall proceed with the collection of the assessment in accordance with the provisions of Chapters 4, 5, and 6 of this part, and such provisions shall apply to all proceedings for the enforcement of the collection of the assessment or the sale of the property as when property is assessed as provided in Chapters 2 and 3 of this part.

Article 3. Collection

Statement of assessed values

26650. Where the district has elected to transfer the duties of collector to the county tax collector, the delivery of duplicate assessment rolls shall not be required, but the auditor shall furnish to the directors the statement of assessed values as provided in Section 26605.

Annual assessment

26651. Annually before September 1st, the district's directors shall levy an annual assessment upon the lands within the district for all district purposes in the manner provided in Chapter 2 of this part, and fix the rate of assessment as provided in Chapter 3, and shall thereupon transmit to the county auditor a statement of the rates fixed. The rate shall be sufficient to recover the expense of collection in addition to other amounts required by law. If different portions of the district require different rates of assessment the statement shall include the applicable rates for such portions. The rate shall be designated in the number of cents upon each one hundred dollars ($100), using as a basis the value of the land as assessed and equalized. The statement shall include the amount of any charges which may be added to the assessment pursuant to this division and a description of the property to which the charge applies as such property is described upon the county rolls.

Computation

26652. The county auditor shall compute and enter in the assessment book the district assessment on all lands assessed as being in the district using the rates fixed by the district's board of directors and the assessed value of the lands in the assessment book at the time and in the manner he computes and enters county taxes.

Collection

26653. The assessment so levied shall be collected at the time and in the manner of county taxes and paid into the county treasury. The net amount of the taxes, after the deduction of the county's compensation for the services of its treas-

urer, assessor and tax collector shall be paid to the district by warrant of the county auditor.

Compensation
