The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed five percent (5%) per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred dollars ($100). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the district, countersigned by the secretary of the district, and the official seal of

the district attached. The interest coupons of such bonds shall be signed by the treasurer of said district. All such signatures and countersignatures may be printed, lithographed or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the district and shall be issued in the name of the district and shall be designated "Bonds of _____ Municipal Water District for Improvement District No. _____" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the district and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the district may also be used for some other municipal water district purpose. Such moneys remaining from the sale of bonds of the district for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other municipal water district purpose or improvement district purpose until two-thirds of the qualified voters of said district or improvement district have consented thereto at a special election called in said district or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said district or improvement district, as the case may be, and in other respects the election shall be conducted as are other municipal water district elections.

Such executor or taxing official shall send a notice of such election by registered mail, receipt requested, to the taxing official of each such state and to each executor, ancillary administrator, and interested person. Compensation

If an agreement cannot be reached, such compensation and expenses shall be determined by such taxing officials; and, if they cannot agree, by the appropriate probate court of the state determined to be the domicile. Such amount shall be borne by the estate and shall be deemed an administration expense.

Filing

14199.10. The determination of the board and the record of its proceedings shall be filed with the authority having jurisdiction to assess the death tax in the state determined to be the domicile of the decedent and with the authorities which would have had jurisdiction to assess the death tax in each of the other states involved if the decedent had been found to be domiciled therein.

Agreement

14199.11. Notwithstanding the commencement of a legal action for determination of domicile within this State or the commencement of an arbitration proceeding, as provided in Section 14199.3, the Controller of this State may in any case enter into a written agreement with the other taxing officials involved and with the executors to accept a certain sum in full payment of any death tax, together with interest and penalties, that may be due this State; provided, this agreement fixes the amount to be paid the other states involved in the dispute, at any time before such proceeding is concluded. Upon the filing of this agreement with the authority which would have jurisdiction to assess the death tax of this State, if the decedent died domiciled in this State, an assessment shall be made as provided in such agreement, and this assessment finally and conclusively fixes the amount of death tax due this State. If the aggregate amount payable under such agreement or under an agreement made in accordance with the provisions of Section 14199 2 to the states involved is less than the minimum credit allowable to the estate against the United States estate tax imposed with respect thereto, the executor forthwith shall also pay to this State the same percentage of the difference between such aggregate amount and the amount of such credit as the amount payable to this State under such agreement bears to such aggregate amount.

Penalties

14199 12. When in any case the board of arbitration determines that a decedent dies domiciled in this State, the total amount of interest and penalties for nonpayment of the tax, between the date of the election and the final determination of the board, shall not exceed 6 percent of the amount of the taxes per annum.

Reciprocity

14199.13. This article shall be applicable only to cases in which each of the states involved in the dispute has in effect therein a law substantially similar hereto. However, nothing contained in this section shall prohibit the application of this article or any part hereof where any of the other states involved in the dispute have in effect therein a law empowering the tax authority to voluntarily enter into a binding arbitration or compromise agreement and such an agreement is so entered into.

SEC. 2. Section 190.1 is added to said code, to read:

190.1. The guilt or innocence of every person charged with an offense for which the penalty is in the alternative death or imprisonment for life shall first be determined, without a finding as to penalty. If such person has been found guilty of an offense punishable by life imprisonment or death, there shall thereupon be further proceedings on the issue of penalty, and Penalty of death or life imprisonment

the trier of fact shall fix the penalty. Evidence may be presented at the further proceedings on the issue of penalty, of the circumstances surrounding the crime, of the defendant's background and history, and of any facts in aggravation or mitigation of the penalty. The determination of the penalty of life imprisonment or death shall be in the discretion of the court or jury trying the issue of fact on the evidence presented, and the penalty fixed shall be expressly stated in the decision or verdict. If the defendant was convicted by the court sitting without a jury, the trier of fact shall be the court. If the defendant was convicted by a plea of guilty, the trier of fact shall be a jury unless a jury is waived. If the defendant was convicted by a jury, the trier of fact on the issue of penalty and the issue of sanity, if any, shall be the same jury unless, for good cause shown, the court discharges that jury in which case a new jury shall be drawn to determine the issue of penalty, or the issue of sanity or both such issues, as the case may be.

On such further proceedings on the issue of penalty, any evidence concerning the commission of the crime admissible in the trial determining the guilt of the defendant may be admitted.

In any case in which defendant has been found guilty by a jury, and the same or another jury, trying the issue of penalty, is unable to reach a unanimous verdict on the issue of penalty, the court shall dismiss the jury and either impose the punishment for life in lieu of ordering a new trial on the issue of penalty, or order a new jury impaneled to try the issue of penalty, and the issue of sanity, if any, but the issue of guilt shall not be retried by such jury.

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated the sum of eight hundred fifty thousand dollars ($850,000) for the fiscal year beginning July 1, 1957, for the purpose of carrying out the provisions of Division 8 of the Welfare and Institutions Code, relating to community mental health services, to be expended in accordance with the following schedule:

CHAPTER 1991

An act to amend Section 7717.1 of the Education Code, relating to school building aid, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 7717.1 of the Education Code is amended to read:

Area of adequate school construction

7717.1. The board by the adoption of rules shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Such rules shall define and provide for the method of determining building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction.

The board may make exceptions to the provisions of this section or to the rules adopted pursuant to such section when it determines that such will be for the benefit of children affected.

For the purposes of this section, "service area" may be defined as (1) buildings which when constructed were intended to be used for a purpose to which the provisions of Education Code Sections 18191 to 18205, inclusive, would not apply, whether or not such sections were in effect at the time when the building was constructed, or (2) buildings which when constructed were intended to be used for a purpose to which Education Code Sections 18191 to 18205, inclusive, would apply, whether or not such sections were in effect when the building was constructed, but which building has been converted or is intended to be converted, as shown by the application, to use for purposes to which such sections would not apply. Service area may include, but is not limited to, construction used as bus garages, maintenance shops, centrally located district storage and warehouses, teacherage and custodial houses, utility shelters, administration offices, transformer vaults, and service yards.

The board shall exclude from the building area of a district the area of any building which is or will be used exclusively for a parent cooperative nursery education facility, and for no other purpose, and which building at the time of acquisition thereof by the district was incidental to the purchase of a school site and unsuitable for classroom purposes or which was acquired by the district without expenditure of school district funds.

The area of adequate school construction existing in a district at the time of application shall be initially computed as all of the construction area of a district except (1) such areas as may be eligible for replacement under standards established by the board, and (2) such areas in an existing structurally inadequate building for which an application has been filed for structural rehabilitation or in a building previously structurally rehabilitated under either Chapter 1.6 or Chapter 19, Division 3 of the Education Code, that exceeds the maximum building area allowed by Section 7717 for a number of pupils, equivalent to those that could be housed in the building after rehabilitation. The board shall prescribe by rule the method of computing the number of pupils which could be so housed for the purposes of this subsection. If such area of adequate school construction, when added to the minimum facilities needed by the district, results in a total construction area in excess of the amount prescribed in Section 7717, then the board may make the following adjustments to the initial computation or such revisions thereof as the board, in its discretion, deems desirable:

(a) Service areas constructed prior to July 19, 1947, shall be excluded, except as provided in (c) below.

(b) Service areas constructed subsequent to July 19, 1947, shall be recomputed by multiplying the total number of square feet of said service area by the percentage determined from dividing the actual construction cost per square foot as determined by the Director of Finance by the estimated average

cost per square foot of the new school facilities for which the district has made application.

(c) If any inadequate nonservice area constructed prior to July 1, 1947, is, or will be, converted to a service area, such area shall be recomputed by multiplying said area by the percentage determined by dividing the depreciated value of said area by the replacement cost as such value and cost are determined by the Director of Finance.

(d) If, after the revised computation of service areas is made as prescribed under subsections (a), (b), and (c) of this section, the existing and requested building area of the district is in excess of the schedule set forth in Section 7717, the existing building area of nonservice facilities may be determined on the basis of the number of pupils housed by such facilities at an allowance per pupil which is not more than 25 percent in excess of the amount per pupil prescribed in Section 7717.

The board shall prescribe by rule the method for computing the number of adequately housed pupils for purposes of this subsection.

This section shall remain in effect until the ninety-first day after the final adjournment of the 1959 Regular Session of the Legislature.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under existing law the area of adequate school building construction in an applicant school district for state school building must be computed at the time of application for such aid by the district. In the acquisition of sites for school construction it frequently occurs that buildings are acquired which are not suitable for classroom construction but which may serve some useful purpose to the district or the residents thereof and which will be excluded from the computation of the area of adequate school building construction existing in the district by this act. In order that the state school building aid program may proceed without unnecessary delay it is necessary that this act take effect immediately.

CHAPTER 1992

An act to add Section 1740 to the Labor Code, relating to public works performed with federal funds.

In effect September 11, 1957

[Approved by Governor July 6, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 1740 is added to the Labor Code, to read:

1740. Notwithstanding any other provision of this chapter or any other law of this State, except limitations imposed by the Constitution, the legislative body of a political subdivision which has received or is to receive a loan or grant of funds from the Federal Government or a federal department or agency for public works of that political subdivision, may provide in its call for bids in connection with such public works that all bid specifications and contracts and other procedures in connection with bids or contracts shall be subject to modification to comply with revisions in federal minimum wage schedules without the necessity of republication or duplication of other formal statutory requirements

A. S. I. and the other composed of positions of members not desiring such coverage and, in such case, it shall become operative at the same time as such amendment takes effect.

Urgency

SEC. 11. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

An amendment to the Social Security Act is anticipated at an early date which will provide that any retirement system established by the State of California or a political subdivision thereof shall, if the State so desires, be divided into two divisions, one of which is composed of members of such system

who desire coverage under old-age and survivors insurance and the other of which is composed of members who do not desire such coverage. In order that employees of public agencies now seeking to cover members of retirement systems may provide such coverage with maximum equity to all members, it is necessary that such amendment be made operative in this State.

CHAPTER 1994

An act to add Chapter 11.5 (commencing at Section 9821) to Division 4 of the Education Code, relating to advance apportionments to school districts providing for the education of mentally retarded minors.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.] In effect September 11, 1957

Apportionment

9823. Not later than 30 days after such application, the Superintendent of Public Instruction, if he approves, shall apportion to each applicant school district from the State General Fund, as an advance against future apportionments from the State School Fund to such district, an amount equal to the maximum amount allowable per unit of average daily attendance to school districts for the excess expense of educating mentally retarded minors who come within the provisions of Section 9801.2, multiplied by eight and the product

thereof multiplied by the number of special training classes established by the applicant school district for such minors.

Abstract of apportionments

9824. The Superintendent of Public Instruction shall furnish an abstract of all apportionments made to school districts of any county under this chapter to the State Controller, the Department of Finance and to the county auditor, county treasurer and county superintendent of schools of the county and shall certify such apportionments to the State Controller who shall thereupon draw his warrants on the State General Fund in favor of the county treasurer of each county for the amounts apportioned to the districts of the county.

CHAPTER 1996

An act to amend Sections 4452, 4453, 4455, 4460, 4702, and 4706 of the Labor Code, relating to workmen's compensation.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 4706 of the Labor Code is amended to read:

4706. (a) If a dependent beneficiary of any deceased employee dies and there is no surviving dependent, the death benefit terminates and does not survive to the estate of the deceased dependent, except that payments of the death benefit accrued and payable at the time of the death of the sole remaining dependent shall be paid upon the order of the commission to the heirs of the dependent or, if none, to the heirs of the deceased employee, without administration.

Death benefit Termination

(b) In the event there is no surviving dependent and no surviving heir, the commission may order the burial expense of the deceased employee, not to exceed the amount specified in Section 4701, paid to the proper person, without administration.

SEC. 2. Section 4452 of the Labor Code is amended to read:

4452. Four times the average annual earnings shall be taken at not less than four thousand eight hundred dollars and sixty-four cents ($4,800.64) nor more than fifteen thousand two hundred dollars and sixty-four cents ($15,200.64) in disability cases, and in death cases shall be taken at not less than the minimum nor more than the maximum limits as provided in Section 4702 of this code.

SEC. 3. Section 4453 of said code is amended to read:

4453. In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than twenty-three dollars and eight cents ($23 08) nor more than seventy-six dollars and ninety-three cents ($76.93). In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than twenty-three dollars and eight cents ($23.08) nor more than sixty-one dollars and fifty-four cents ($61 54). Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

Average annual earnings

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the week, month, or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings average for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 4. Section 4455 of said code is amended to read:

Minors

4455. If the injured employee is under 21 years of age, and his incapacity is permanent, his average weekly earnings shall be deemed, within the limits fixed in Section 4453, to be the weekly sum which under ordinary circumstances he would probably be able to earn at the age of 21 years, in the occupation in which he was employed at the time of the injury or in any occupation to which he would reasonably have been promoted if he had not been injured. If such probable earnings at the age of 21 years cannot reasonably be determined, his average weekly earnings shall be taken as sixty-one dollars and fifty-four cents ($61.54).

SEC. 5. Section 4460 of said code is amended to read:

Temporary disability indemnity

4460. For the purpose of computing the temporary disability indemnity payable to any employee who sustains an original injury causing temporary disability, the maximum average weekly earnings shall be taken at seventy-six dollars and ninety-three cents ($76.93). For the purpose of computing the permanent disability indemnity payable to any employee who sustains an original injury causing permanent disability, the maximum average weekly earnings shall be taken at sixty-one dollars and fifty-four cents ($61.54).

Every computation made pursuant to this section as last amended shall be made only with reference to temporary disability or such permanent disability resulting from an original injury sustained after the act last amending this section be-

comes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 6. Section 4702 of said code is amended to read:

4702. Except as provided in the next paragraph, the death benefit in cases of total dependency, when added to all accrued disability indemnity, shall be the sum of twelve thousand dollars ($12,000) except in the case of a surviving widow and one or more dependent minor children, in which case the death benefit shall be increased 25 percent, but not to exceed fifteen thousand dollars ($15,000) and except as otherwise provided in Sections 4553 and 4554. In cases of partial dependency the death benefit shall be a sum equal to four times the amount annually devoted to the support of the dependents by the employee, not to exceed the sum of twelve thousand dollars ($12,000). The death benefit in all cases shall be paid in installments in the same manner and amounts as temporary disability indemnity, payments to be made at least twice each calendar month, unless the commission otherwise orders. Death benefit

Disability indemnity shall not be deducted from the death benefit and shall be paid in addition to the death benefit when the original injury resulting in death occurs after the effective date of the amendment to this section adopted at the 1949 Regular Session of the Legislature.

Every computation made pursuant to this section shall be made only with reference to death resulting from an original injury sustained after this section as amended during the 1957 Regular Session of the Legislature becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 1254.7 is added to the Code of Civil Procedure, to read:

Withdrawal of security

1254.7. At any time after money has been deposited as security as provided in Section 14 of Article I of the Constitution for the condemnation of any property or interest in property for state highway purposes, upon application, in the manner hereinafter provided, of the party whose property or interest in property is being taken, the court may order from the money deposited in connection with such property or interest an amount not exceeding 75 percent of the amount originally deposited for the respective property or interest to be paid to such party. Such application shall be made by affidavit wherein the applicant shall set forth his interest in the property and request withdrawal of a stated amount. The applicant shall serve a copy of the application on the plaintiff and no withdrawal shall be made until at least twenty (20) days after such service of the application, or until the time for all objections has expired, whichever is later. Within said twenty (20) days, the plaintiff may object to such withdrawal by filing an objection thereof in court on the grounds that other persons are known or believed to have interests in the property. In this event the plaintiff shall attempt to personally serve on such other persons a notice to such persons that they may appear within ten (10) days after such service and object to such withdrawal, and that failure to appear will result in the waiver of any right to such amount withdrawn or further rights against the plaintiff to the extent of the sum withdrawn. The plaintiff shall state in its objection the names and last known addresses of other persons known or believed to have an interest in the property, whether or not it has been able to serve them with such notice and the date of such service. If the plaintiff in its objection reports to the court that it is unable to personally serve persons known or believed to have interests in the property within said twenty (20) day period, said money shall not be withdrawn until the applicant causes such personal service to be made. If such persons so served appear and object to the withdrawal, or if the plaintiff so requests, the court shall thereupon hold a hearing after notice thereof to all parties and shall determine the amounts to be withdrawn, if any, and by whom, to a total amount not exceeding 75 percent of the amount deposited. No persons so served shall have any claim against the plaintiff for compensation for the value of the property

taken or severance damages thereto, or otherwise, to the extent of the amount withdrawn by all parties; provided, the plaintiff shall remain liable for said compensation to persons having an interest of record who are not so served. If withdrawn, the receipt of any such money shall constitute a waiver by operation of law to all defenses in favor of the person receiving such payment except with respect to the ascertainment of the value of the property or interest in the manner provided by law, and title to the property or interest as to which money is received pursuant to this section shall vest in the State as of the time of such payment. Any amount so paid to any party shall be credited upon any judgment providing for payment and shall be considered payment upon the judgment as of the date the withdrawal is made so that no interest shall be payable upon the amount so withdrawn after the date of its withdrawal. Any amount withdrawn by any party in excess of the amount to which he is entitled as finally determined in the condemnation proceeding shall be returned to the party who deposited it, and the court in which the condemnation proceeding is pending shall enter judgment therefor against the defendant.

28403. A retirement system shall, except to the extent that its benefits are underwritten by an insurer authorized to transact such business in this State, create and maintain reserves, calculated to be adequate to cover the liabilities on account of benefits payable under its contracts, by-laws, or declaration of trust. The commissioner may require such reserves to be calculated on the basis of an interest rate not in excess of 4 percent per annum and mortality, disability, and other experience tables based on reliable experience for such or a similar group of employees and approved by the commissioner.

A retirement system shall be deemed to have created and maintained the reserves required by this section and to be sound and equitable within the meaning of Section 28301 and the contributions shall be deemed adequate to support the benefits granted within the meaning of Section 28401, if the documents setting forth the retirement system provide for contributions that are expected to accumulate sums, within a reasonable period of time, sufficient to fund at the time of the retirement of each employee the benefits payable to him under its contract, by-laws or declaration of trust. The reasonable time shall be fifteen (15) years. The commissioner may determine that a shorter period of time is reasonable with respect to any retirement system, and in making such determination and in fixing the reasonable time for such system, shall consider such relevant factors as the number and size of employers participating in the retirement system, the age distribution of the covered employees, the period of any firm obligation to pay contributions, and the actual likelihood that sufficient contributions will be paid to permit the retirement system regularly to pay the benefits described in the plan.

CHAPTER 2044

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. That portions of the lands heretofore granted to the County of Orange by an act entitled "An act granting certain tidelands and submerged lands of the State of California to the County of Orange in said State upon certain trusts and conditions," approved May 25, 1919, as amended, have been heretofore improved by adapting the same to use for navigation in connection with the plan heretofore adopted and established for the improvement and development of Newport Bay in said County of Orange as a harbor, and that in

so adapting said lands to said use portions thereof which lie between the line of mean high tide and the established bulkhead or harbor lines have been filled and reclaimed, and that such portions of said lands as have been so filled and reclaimed are thereby excluded from the public channels and are no longer available or useful or susceptible of being used for navigation, commerce, and fishing, and are no longer in fact tidelands or submerged lands; and that the said portions of said lands which have been heretofore and which are now so improved, filled, and reclaimed are hereby declared to be free from the public use and trust for navigation, commerce, and fishery.

SEC. 2. That in connection with and in aid of the further improvement and development of the said Newport Bay as a harbor, portions of the said lands heretofore granted to the said county may be hereafter improved by adapting the same to use for navigation, and that in so adapting said lands to said use portions thereof which lie between the line of mean high tide and the established bulkhead or harbor lines may be hereafter filled and reclaimed, and portions of said lands so improved, filled, and reclaimed will be thereby excluded from the public channels and will no longer be available or useful or susceptible of being used for navigation, commerce, and fishing, and will no longer in fact be tidelands or submerged lands; and that such portions of said lands as shall be hereafter so improved, filled, and reclaimed by or in connection with the further improvement and development of said Newport Bay as a harbor shall, when so improved, filled, and reclaimed, be deemed free from the public use and trust for navigation, commerce, and fishery.

SEC. 3. That any and all of said portions of said lands hereinbefore referred to, which have been or which shall hereafter be improved, filled, and reclaimed, as hereinbefore provided, if and when so improved, filled, and reclaimed, may be irrevocably alienated and conveyed free of the public uses and trusts in said acts, by the said County of Orange, with the approval and concurrence of the State Lands Commission, to the owner or respective owners of the uplands lying contiguous thereto in exchange for lands of such owner or owners necessary or desirable for the improvement, development and conduct of said harbor upon a finding by the State Lands Commission that the lands located in the area commonly known as Upper Newport Bay which are to be exchanged are no longer useful for navigation, commerce, and fishing, and that the lands to be received in exchange are at least of equal value thereto. The lands received by the county in exchange shall be used by the county only for purposes of state-wide interest. Upon any conveyance as herein provided all right, title, and interest of the State and said County of Orange in the land exchanged shall vest in the grantee or grantees thereof.

CHAPTER 2045

An act to add Sections 21250.5 and 21703 to the Government Code, relating to the State Employees' Retirement System, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 21250.5 is added to the Government Code, to read:

21250.5. In addition to any other benefits provided by this part, any local miscellaneous member who retires for service after attaining age 60 and before age 65 with credit for state service rendered as an employee of any contracting agency which is subject to the provisions of Section 21251.1 and which has modified its contract as provided in Section 21702, shall receive an additional annual pension based on his age at retirement and credited service which shall be computed according to the following formula: Retirement Ages 60 to 65

(a) 0.50 times the product of his age at retirement and his years of prior and current service, not in excess of 20 years, which have been credited toward the modified benefit formula provided in the agency's contract, plus

(b) 0.40 times the product of his age at retirement and his years of prior and current service in excess of 20 years which have been credited toward the modified benefit formula provided in the agency's contract.

This additional pension shall not be subject to the optional settlements under Article 4 of this part and shall be payable monthly as a temporary annuity until the retired member attains or would attain age 65. Should his death occur prior to age 65, the commuted value of any remaining installments shall be paid to his designated beneficiary in the manner provided in Section 21332.5 for payment of death benefits under optional settlement one.

The benefits payable under this section shall be derived from contributions of the contracting agency and shall be divided between the agency's prior and current service contributions in the same proportion as the credited years of prior and current service which are used in the computation of this additional pension.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect, by express provisions

in such contract making the contracting agency subject to the provisions of this section.

SEC. 2. Section 21703 is added to said code, to read:

Election Retirement allowance

21703. The modifications provided in Section 21702 shall include, but not be limited to, a provision that any member retiring for service who is fully insured under Old-Age and Survivors Insurance may elect to have the actuarial equivalent of his unmodified service retirement allowance paid in two parts as follows:

(a) A temporary annuity which shall not exceed the primary Social Security benefit which it is anticipated the member will be entitled to receive at age 65, plus

(b) A life income consisting of his service retirement annuity plus such pension as may be provided by the actuarial value of his current and prior service pensions remaining after providing the temporary annuity in (a).

The temporary annuity under (a) shall not be subject to the optional settlements under Article 4 of Chapter 9, Part 3, Division 5, Title 2 of this code and shall be payable monthly until the retired member attains or would attain age 65. Should his death occur prior to age 65, the commuted value of any remaining installments shall be paid to his designated beneficiary in the manner provided in Section 21332.5 of this code for payment of death benefits under optional settlement one.

Urgency

SEC 3. This act is an emergency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

The provisions of the Social Security Act for retroactive coverage under Old-Age and Survivors Insurance which permit persons to be eligible for benefits immediately upon coverage action, require that such action be taken prior to 1958. Such coverage action must be preceded by at least 90 days' notice to the employees. Accordingly the right to retroactive coverage and thus the ability of persons now at retirement age to retire with benefits under Old-Age and Survivors Insurance will be seriously prejudiced in a contracting agency which desires a modification of its contract as authorized under this act unless the act takes effect immediately.

A telegraphic authorization from the principal shall be deemed to comply with the requirements of this section.

8947. When a licensee prepares or has prepared an agreement authorizing or employing such licensee to purchase, sell, or exchange a yacht or ship, for compensation or commission, such licensee shall deliver a copy of the agreement to the person signing same. Effect. Stats. 1957, Ch. 2050

SEC. 3. Section 2 of this act shall become operative only if Senate Bill No. 1198 or Senate Bill No. 2001 is enacted by the Legislature at its 1957 Regular Session, and in such case at the same time as said Senate Bill No. 1198 or Senate Bill No. 2001.

In effect September 11, 1957

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Division 3.5 is added to the Streets and Highways Code, to read:

DIVISION 3.5. THE STREET AND ROAD BOND ACT OF 1957

CHAPTER 1. SHORT TITLE

Short title

2220. This division shall be known and may be cited as the Street and Road Bond Act of 1957.

CHAPTER 2. COUNTY ROADS

Investigation; Application, etc

2261. Whenever the board of supervisors of any county by resolution determines that the construction of a road, including the separation of the grade of any such road from the track of any railroad corporation, in the primary system of county roads should be investigated for possible financing pursuant to this chapter, it shall transmit to the State Controller an application containing the following:

(a) A description of the project.

(b) The date upon which it proposes to issue bonds to finance the project.

(c) A request for an estimate of the minimum amounts which will be paid to the county for a period of 10 years from the proposed date of bond issuance for expenditure on all county roads pursuant to subdivision (b) of Section 2110, subdivisions (b) and (c) of Section 2111, and Section 2114, and for expenditure on roads in the primary system of county roads exclusively pursuant to Sections 2115 and 2116.

Estimate by Controller

2262. The Controller shall prepare the estimate required by subdivision (c) of Section 2261 and shall transmit it to the board of supervisors.

Estimate by board

2263. After receipt of the estimate from the Controller, the board of supervisors shall make the following estimates and determinations:

(a) An estimate of the total cost of the project.

(b) A determination of the amount of money available for expenditure for the immediate completion of the project from all sources.

(c) A determination of the amount of bonds required to be issued in order to provide a sum sufficient to provide the difference between the amount of funds determined to be available under subdivision (b) for the immediate completion of the project and the estimated total cost of the project. Such amount of bonds, together with the amount necessary to pay the interest on the bonds, shall not exceed one-fourth of the amount which the Controller has estimated will be paid to the county for expenditure on all county roads and on primary roads exclusively, and which is not already committed for expenditure on county roads.

Bonds

2264. The board of supervisors may by resolution provide for the issuance of bonds in the amount determined under subdivision (c) of Section 2263, or such portion thereof as it deems necessary.

Security

2265. The bonds issued to finance a project pursuant to this chapter shall be special obligations of the county, secured solely by that portion of one-fourth of the minimum amount which the Controller has estimated will be paid to the county for expenditure on all county roads and on primary roads exclusively, not already committed for expenditure on county roads, which the board of supervisors determines from time to time is necessary for the servicing of the bonds; and the payment of interest and principal on the bonds is secured by an exclusive charge and lien upon that portion of such revenues. That portion of the revenues constitutes a trust fund for the security and payment of the bonds and the interest thereon pursuant to Section 2267.

County liens, etc

No bond issued or sold pursuant to this chapter shall be or become a lien, charge, or liability against the county or the State of California or against their property or funds, except to the extent of the pledge expressly made by this chapter. Every bond issued pursuant to this chapter shall contain a recital on the face thereof, stating that neither the payment of the principal nor any part thereof, nor any interest thereon, constitutes a debt, liability, or general obligation of the county or the State of California, other than as provided in this chapter. The board of supervisors has no power at any time or in any manner to pledge the credit or taxing power of the State or the county other than as provided in this chapter.

Special accounts

2266. Any county which issues and sell bonds pursuant to this chapter shall establish special accounts in its special road improvement fund for the purposes set forth in this chapter. The proceeds of the sale of bonds for any project in the county, exclusive of premium and accrued interest, shall, after deducting any amounts necessary to reimburse other county funds for money advanced and expended in connection with the sale of the bonds, be deposited in an account in the special road improvement fund and shall be expended to carry out the

project for which the bonds were issued in accordance with law. All premium and accrued interest received on sale of bonds shall be deposited in an account in the special road improvement fund and shall be available only for servicing the particular bonds.

Payment

2267. So long as any bonds issued and sold pursuant to this chapter to finance projects in a county are outstanding, the board of supervisors shall, from time to time as may be necessary, determine the portion of the amounts received by the county for expenditure on all county roads and on primary roads exclusively from the Highway Users Tax Fund which it determines is necessary for bond service for each issue of bonds outstanding according to the terms of the bonds or the proceedings authorizing their issuance, and the county treasurer, upon order of the county auditor, shall transfer the amount so determined to the accounts established for the payment of the principal and interest on such bonds and expenses of retiring of such bonds, and such amount shall not be used for any other purpose so long as any such bonds are outstanding, except as otherwise provided in Section 2268.

Investment

2268. Any money in the special accounts established in the special road improvement fund of the county, including money for bond servicing purposes, not required for immediate expenditure may be invested and reinvested in bonds or other obligations eligible for investment of surplus county moneys. Any interest, increment, or loss shall be apportioned semiannually by the county auditor among the several accounts in proportion to their investment, as estimated by the county auditor.

Balance after retirement

2269. Upon the retirement of all outstanding bonds issued and sold pursuant to this chapter to finance a project in the county, the balance, if any, remaining in the special accounts established for such project shall be returned to the special road improvement fund and may be expended on any county road in accordance with law.

Contents of resolution

2270. The resolution of the board of supervisors pursuant to which the bonds are issued shall state:

(a) The purpose for which the bonds are proposed to be issued.

(b) The principal amount of the bonds to be issued.

(c) The maximum rate of interest on the bonds, which shall not exceed 6 percent a year, payable annually or semiannually.

(d) That the bonds are secured exclusively as provided in Section 2265.

(e) The number of series in which the bonds are to be issued.

(f) The date the bonds are to bear.

(g) The maturity dates of the bonds, which shall not be later than 10 years from the date of issuance.

2271. The board of supervisors may, in the resolution pursuant to which the bonds are issued or in a separate resolution, provide for:

(a) The denomination of the bonds.
(b) The form of the bonds, coupon or registered.
(c) The registration and conversion privileges of the bonds.
(d) The medium and place of payment.
(e) The terms of redemption, with or without a premium, which shall not exceed 6 percent of the par value of the bonds.
(f) The terms and conditions upon which the bonds may be declared or become due and payable upon specified defaults.
(g) The replacement of mutilated, destroyed, stolen, or lost bonds.

2272. Any resolution providing for the issuance of bonds pursuant to this chapter may provide that the bonds may recite that they are issued pursuant to this chapter, and bonds containing such recital are conclusively deemed valid and issued in conformity with this chapter.

Signatures

2273. The bonds shall be signed by the chairman of the board of supervisors or by such other member thereof as the board of supervisors shall, by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose, and also signed by the treasurer or auditor of the county, and shall be countersigned by the clerk thereof. The coupons of said bonds shall be signed by the treasurer or auditor. All such signatures and countersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

Valid signature

2274. If any officer whose signature, countersignature, or attestation appears on any county bond or coupon ceases to be such officer before the delivery of the bonds to the purchaser, the signature, countersignature, or attestation appearing either on the bonds or the coupons, or on both, is valid and sufficient for all purposes to the same extent as if the officer had remained in the office until the delivery of the bonds. The signature upon the coupons of the person who is auditor at the date of the bonds is valid although the bonds themselves are attested by a different person who is auditor at the time of their delivery.

Sales

2275. The bonds shall be sold at the times, in the amounts, and in the manner prescribed by the board of supervisors, but for not less than par Before selling the bonds, or any part thereof, the board shall give notice not less than 10 days prior to the date of sale by publication in a newspaper of general circulation circulating in the county inviting sealed bids in such manner as the board shall prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

Security

2276. Bonds of the same issue shall be equally secured by lien upon the revenue pledged to secure that issue without

priority for the number or the date of the bonds, or of the sale, execution, or delivery thereof.

Holders

12880. In furtherance of the development, control and conservation of the water resources of the State it is the policy of the State to provide financial assistance to public agencies for the construction of projects for water development in which there is a state-wide interest by making grants or loans, or both, and by participating in the construction and operation of such projects, in accordance with this section.

(a) As used in this section, "project" means any construction or improvement by a public agency for flood control, for the diversion, storage, distribution or other use of water primarily for domestic, municipal, agricultural, or industrial purposes, and for the production of power. "Public agency" means any city, county, district or other political subdivision of the State.

(b) The proposed project may be approved for assistance only if it is determined that the project substantially conforms to The California Water Plan, is engineeringly feasible, economically justified, and, if a loan is proposed, that there is reasonable assurance that the public agency can repay it.

(c) Grants in furtherance of a project may be made for the following purposes:

(1) For the part of the construction cost properly allocated to the preservation and enhancement of fish and wildlife incidental to the primary functions of the project.

(2) For the part of the construction cost properly allocated to recreational benefits of state-wide interest that are incidental to the primary functions of the project.

(3) In special circumstances, grants may be made for other parts of the construction cost in which there is determined to be a state-wide interest.

(d) Loans in furtherance of a project may be made only for that portion of the cost of a project which the Districts Securities Commission certifies to be beyond the reasonable financial ability of the public agency and for which funds cannot be obtained from other sources.

(e) Loans shall be repayable over a period not to exceed 50 years, excluding a limited period of development in special instances. Loans shall be made upon such terms as may be prescribed by the Legislature.

(f) If in order to accomplish the objectives of The California Water Plan it is necessary to construct a project that is beyond the requirements of the public agency constructing the project, the State may participate in financing those costs of the project in excess of the costs necessary to meet the requirements of the public agency, on terms agreed upon with the agency, to the end that the project to be constructed and operated shall accomplish the maximum water development objectives at a minimum total expenditure.

(g) Applications for loans or grants or financial participation by the State shall be made to the Department of Water Resources in such form and with such supporting material as may be prescribed by the department. A report on each application shall be prepared by the department and filed with the Legislature. In such reports the department shall make findings as to the nature and extent of the state-wide interest in the project, the public necessity for the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project

(h) State grants or loans for a proposed project may be made only upon specific authorization by the Legislature.

(i) Nothing contained in this chapter shall be construed to expand the powers of any public agency otherwise granted by law.

In effect September 11, 1957

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 1203 of the Penal Code is amended to read:

Probation

1203. After the conviction by plea or verdict of guilty of a public offense not amounting to a felony, in cases where discretion is conferred on the court or any board or commission or other authority as to the extent of the punishment, the court, upon application of the defendant or of the people or upon its own motion, may summarily deny probation, or at a time fixed may hear and determine in the presence of the defendant the matter of probation of the defendant and the conditions of such probation, if granted. If probation is not denied, and in every felony case in which the defendant is eligible for probation, before any judgment is pronounced, and whether or not an application for probation has been made, the court must immediately refer the matter to the probation officer to investigate and to report to the court, at a specified time, upon the circumstances surrounding the crime and concerning the defendant and his prior record, which may be taken into consideration either in aggravation or mitigation of punishment. The probation officer must there-

upon make an investigation of the circumstances surrounding the crime and of the prior record and history of the defendant, must make a written report to the court of the facts found upon such investigation, and must accompany said report with his written recommendations, including his recommendations as to the granting or withholding of probation to the defendant and as to the conditions of probation if it shall be granted. The report and recommendations must be made available to the court and the prosecuting and defense attorneys at least two days prior to the time fixed by the court for the hearing and determination of such report and must be filed with the clerk of the court as a record in the case at the time of said hearing. By written stipulation of the prosecuting attorney and the defense attorney, filed with the court, or by oral stipulation in open court made and entered upon the minutes of the court, the time within which the report and recommendations must be made available and filed, under the preceding provisions of this section, may be waived. At the time or times fixed by the court, the court must hear and determine such application, if one has been made, or in any case the suitability of probation in the particular case, and in connection therewith must consider any report of the probation officer, and must make a statement that it has considered such report which must be filed with the clerk of the court as a record in the case. If the court shall determine that there are circumstances in mitigation of punishment prescribed by law, or that the ends of justice would be subserved by granting probation to the defendant, the court shall have power in its discretion to place the defendant on probation as hereinafter provided; if probation is denied, the clerk of the court must forthwith send a copy of the report and recommendations to the Department of Corrections at the prison or other institution to which the defendant is delivered.

In every misdemeanor case, the court may, at its option refer the matter to the probation officer for investigation and report or summarily deny probation or summarily grant probation.

The Legislature hereby expresses the policy of the people of the State of California to be that, except in unusual cases where the interest of justice demands a departure from the declared policy, no judge shall grant probation to any person who shall have been convicted of robbery, burglary or arson, and who at the time of the perpetration of said crime or any of them or at the time of his arrest was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same), nor to a defendant who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he was convicted, nor to one who in the perpetration of the crime of which he was convicted wilfully inflicted great bodily injury or torture, nor to any such person unless the court shall be satisfied that he has never been previously convicted of a felony in this State nor

previously convicted in any other place of a public offense which would have been a felony if committed in this State.

Probation shall not be granted to any person who shall have been convicted of burglary with explosives, rape with force or violence, murder, assault with intent to commit murder, attempt to commit murder, train wrecking, kidnaping, escape from a state prison, conspiracy to commit any one or more of the aforementioned felonies, and who at the time of the perpetration of said crime or any of them or at the time of his arrest was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same), nor to a defendant who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he was convicted, nor to one who in the perpetration of the crime of which he was convicted wilfully inflicted great bodily injury or torture, nor to any defendant unless the court shall be satisfied that he has not been twice previously convicted of felony in this State nor twice previously convicted in any other place or places of public offenses which would have been felonies if committed in this State; nor to any defendant convicted of the crime of burglary with explosives, rape with force or violence, murder, attempt to commit murder, assault with intent to commit murder, train wrecking, extortion, kidnaping, escape from a state prison, violation of Sections 286, 288 or 288a of this code, or conspiracy to commit any one or more of the aforesaid felonies, unless the court shall be satisfied that he has never been previously convicted of a felony in this State nor previously convicted in any other place of a public offense which would have been a felony if committed in this State; nor to any defendant unless the court shall be satisfied that he has never been previously convicted of a felony in this State nor convicted in any other place of a public offense which would have been a felony if committed in this State and at the time of the perpetration of said previous offense or at the time of his arrest for said previous offense he was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same) or he personally used or attempted to use a deadly weapon upon a human being in connection with the perpetration of said previous offense or in the perpetration of said previous offense he wilfully inflicted great bodily injury or torture; nor to any public official or peace officer of the State, county, city, city and county, or other political subdivision who, in the discharge of the duties of his public office or employment, accepted or gave or offered to accept or give any bribe or embezzled public money or was guilty of extortion.

No probationer shall be released to enter another state of the United States, unless and until his case has been referred to the California Administrator, Interstate Probation and Parole Compacts, pursuant to the Uniform Act for Out-of-state Probationer and Parolee Supervision.

In those cases in which the defendant is not eligible for probation, the judge may in his discretion refer the matter to the probation officer for an investigation of the facts relevant to sentence. The probation officer must thereupon make an investigation of circumstances surrounding the crime and the prior record and history of the defendant and make a written report to the court of the facts found upon such investigation.

CHAPTER 2058

An act making an appropriation for the construction of a building for use of the Division of Farm and Home Purchases of the Department of Veterans Affairs, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. The sum of eighty thousand dollars ($80,000), or so much thereof as may be necessary is hereby appropriated from any surplus money in the Veterans' Farm and Home Building Fund of 1943 in excess of money therein that was derived from the sale of bonds, to be expended by the Department of Veterans Affairs for the construction of a building for use by the Division of Farm and Home Purchases, to be located on the Woman's Relief Corps Home property in Santa Clara County.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There has been a great delay in all California veterans' farm and home loans because of inadequate office space to house the personnel needed to process loan applications more rapidly. This condition is especially acute in the San Jose office, which serves four counties, and a sufficient number of employees cannot be obtained until additional office space is available. The construction must be commenced as soon as possible in order to make loans promptly available to veterans.

CHAPTER 2059

An act to add Section 7727.5 to the Education Code, relating to state school building aid, declaring the urgency thereof to take effect immediately.

In effect immediately

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 7727.5 is added to the Education Code, to read:

7727.5. Whenever a conditional apportionment is made to an applicant school district under this chapter which requires the district to issue and sell bonds of the district and contribute the proceeds thereof to the project for which the application for an apportionment is made and, thereafter, such apportionment becomes final as a result of an erroneous certification of the county superintendent of schools made prior to the effective date of this section to the effect that the bonds of the district have been issued and sold and the proceeds thereof made available for the purposes of the application for the apportionment, and whenever the amount of the bonds of the applicant school district actually issued and sold and the proceeds thereof made available for the purposes of the apportionment was 98 percent or more of the total amount required by the board as a condition to the apportionment becoming final, then the Director of Finance shall include in his certification to the State Controller the amount of the principal and interest on such portion of the bonded indebtedness of such district as the Director of Finance determines the proceeds thereof were actually contributed toward the cost of a construction project subsequently approved by the board and for which an apportionment has been made to the district under this chapter.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution. A statement of facts constituting such necessity is as follows:

The rapid increase in numbers of children of school age make imperative the undertaking of immediate work to expand school facilities in many California communities. Certain school districts which are in dire need of the funds provided by conditional apportionments have experienced great delay in their construction pending the enactment of legislation which would permit adjustments to be made for the districts' failure, in minor and technical respects, to comply with the conditions on apportionments, and which would make funds immediately available. To avoid all additional delay in beginning school construction programs it is essential that this act take effect immediately.

CHAPTER 2060

An act to amend Sections 7101.1 and 7101.2 of the Education Code, relating to the education of physically handicapped minors.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

7101.1. The Superintendent of Public Instruction shall allow to each school district an amount equal to the excess current expense of education to such district of educating physically handicapped minor pupils but not in excess of six hundred dollars ($600) for each unit of average daily attendance of physically handicapped minor pupils in the district during the next preceding fiscal year, and an additional amount not in excess of six hundred dollars ($600), or the cost to the district, whichever is the lesser, for each unit of average daily attendance of blind pupils, when a reader has actually been provided to assist him with his studies, or for the purchase of Braille books, the cost of transcribing ink print materials into Braille, the purchase or making of sound recordings and the purchase of special supplies and equipment for blind pupils.

SEC. 2. Section 7101.2 of said code is amended to read:

County school service fund

7101.2. County School Service Fund. The Superintendent of Public Instruction shall allow to the county school service fund of each county an amount equal to the excess current expense of education to the county superintendent of schools of educating physically handicapped minor pupils but not in excess of six hundred dollars ($600) for each unit of average daily attendance of physically handicapped minor pupils educated by the county superintendent of schools during the preceding fiscal year, and an additional amount not in excess of six hundred dollars ($600), or the cost to the county superintendent, whichever is the lesser, for each unit of average daily attendance of blind pupils, when a reader has actually been provided to assist him with his studies, or for the purchase of Braille books, the cost of transcribing ink print materials into Braille, the purchase or making of sound recordings and the purchase of special supplies and equipment for blind pupils.

CHAPTER 2061

An act to amend Section 4753 of the Labor Code, relating to workmen's compensation.

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 4753 of the Labor Code is amended to read:

The provisions of this section and Section 4751 as amended at the 1955 Regular Session of the Legislature shall apply only to disabilities resulting from an original subsequent injury sustained after this section and Section 4751 as amended at the 1955 Regular Session of the Legislature become effective; provided, however, that all rights presently existing under this section and Section 4751 shall be continued in force.

The amendments to this section and Section 4751 adopted at the 1955 Regular Session of the Legislature shall remain in effect until the ninety-first day after the final adjournment of the 1959 Regular Session of the Legislature. While such amendments are in effect they shall supersede the provisions of this section and Section 4751 as they existed prior to such amendments; but such provisions are not repealed by such amendments, and after such amendments are no longer effective shall have the same force as though such amendments had not been enacted. The Department of Finance and the Attorney General shall study and survey the operation and effect of this section and the financial consequences of the operation of this section and shall submit a report thereon to the Legislature at the commencement of the 1959 Regular Session.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 7303 of the Business and Professions Code is amended to read:

7303. Members of the board shall be appointed for a term of four years and they shall hold office until the appointment and qualifications of their successors or until six months shall have elapsed since the expiration of the term for which they were appointed, whichever first occurs. No member shall serve as a member of the board for more than two consecutive terms.

The terms of the members of the board in office when this chapter takes effect shall expire as follows: one member, January 15, 1940; two members, January 15, 1941; one member, January 15, 1942; one member, January 15, 1943. The terms shall expire in the same relative order as to each member as the term for which he holds office before this chapter takes effect.

no instructor may practice upon a patron and any instructor who does so is subject to disciplinary action by the board.

Inspection — Before any school of cosmetology license, as provided herein shall be finally granted, a second inspection shall be made after the equipment has been installed and before the school is permitted to begin operation.

Equipment — No applicant shall be granted a license to operate a school of cosmetology unless, in the opinion of the board, sufficient equipment has been installed for the requirements of enrolling a minimum of not less than 25 bona fide students; and provided further, that the floor space shall provide a separate lecture room and a separate locker room with sufficient space for the proper placement of said equipment.

Ownership — No school of cosmetology shall be licensed until the board has had ample opportunity to verify sworn statements as to the actual ownership and in this respect, if false statements are submitted to the board in connection with said application, this in itself shall constitute sufficient grounds for the refusal to grant any application hereunder, or if an application is granted and thereafter the board discovers that false statements were made in connection therewith, this shall constitute sufficient grounds for the cancellation of said school of cosmetology license even though it is detected after a license has been issued.

License denial — The board reserves the right to deny a school of cosmetology license to any applicant who fails to present satisfactory evidence of personal integrity and moral responsibility, and in the event that the said applicant is a corporation, this shall apply to all the officers thereof; provided further, that no school of cosmetology license shall be issued until the real owner files with the department a statement definitely designating who is authorized to accept service of notice from the said board and to transact all business negotiations in behalf of the said school, including answers to citations for hearing, and compliance with rulings issued by the said board.

7431.1. A plea or verdict of guilty or a conviction following a plea of nolo contendere is deemed to be a conviction within the meaning of this article. The board may order the license suspended or revoked, or may decline to issue a license, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information or indictment. If such judge subsequently retires pursuant to Section 75025, the period of time he served while so assigned shall be included in the computation of years of service for the purpose of Section 75025. The provisions of this section and of Section 75060 are applicable to all judges of courts of record in this State. Medical examination

The bonds issued under this chapter shall be subject to investigation and certification by the California Districts Securities Commission under the Districts Securities Commission Law as such law reads or is hereafter amended to read. If the commission determines that the bonds are adequately secured and the revenues of the authority applicable to the payment thereof are or will be sufficient to pay the principal and interest of the bonds, and if the commission certifies to that effect, the bonds shall be eligible as legal investments for both public and private funds in the same manner as provided in the Districts Securities Commission Law.

CHAPTER 2068

An act to add Section 14631.1 to, and to amend Sections 14633 and 14641 of, the Education Code, relating to the State Teachers' Retirement System.

In effect September 11, 1957

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 14631.1 is added to the Education Code, to read:

Retirement allowances

14631.1. Retirement allowances payable for time commencing on October 1, 1957, are hereby increased to the amount they would be if the provisions of Sections 14633 and 14641 as they exist on that date had been in effect on July 1, 1956.

This section does not authorize any decrease in any retirement allowance, nor does this section give any retired person, or his successors in interest, any claim against the State for any increase in any retirement allowance paid or payable for time prior to October 1, 1957.

SEC. 2. Section 14633 of said code is amended to read:

Computation of amount

14633. The retirement allowance in Section 14632, exclusive of the annuity in subdivision (c) of that section, but when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall be, by increase in the annuity under the Retirement Annuity Fund, at least seventy dollars ($70) per year, multiplied by the member's years of service, not to exceed forty (40); provided, the retired member is at least 60 years of age at the time of retirement. If retirement is at an age less than 60 years, the minimum retirement allowance under this section is an amount equal to a fraction of the minimum retirement allowance calculated under the preceding sentence, said fraction being that set forth in Section 14635 opposite the member's age at retirement, taken to the preceding completed quarter year, in the column applicable to the member's sex. For any member under retirement who re-enters membership in the retirement system and subsequently retires, the lesser age to be taken to the preceding quarter year, in the next preceding sentence, for calculating the minimum retirement allowance under this section, shall be determined by deducting from the member's age at the subsequent retirement, the aggregate time during which the member was under retirement prior to re-entry into membership in the system; provided, however, that the fraction to be taken at such adjusted lesser age shall not be less than nine-tenths if the subsequent and prior retirements were for disability. No retirement allowance shall be increased under this section to exceed, annually, 75 percent of the final compensation of the retired member.

SEC. 3. Section 14641 of said code is amended to read:

14641. When a member who has been retired and has thereafter re-entered membership in the Retirement System, subsequently retires, he shall not receive the full retirement annuities specified in subdivision (b) of Section 14632, or 14639, according to whether retirement is for service or disability, but shall receive (1) an annuity, based upon his salary earned in service from the date of re-entry into the Retirement System to the date of his subsequent retirement, and calculated under Section 14632 or 14639, as the case may be, plus (2) annuities equal to the annuities he received next preceding his re-entry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances made after said re-entry and applicable to allowances being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his re-entry, at least one year of service credited under the Retirement System; otherwise, plus (3) annuities based on the same salary and service as that upon which the annuities he received next preceding said re-entry were based, but calculated under Section 14632 regardless of whether retirement is for service or disability, on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement; provided, however, that such adjusted age shall be taken at not less than 58 for males or 58½ for females if the subsequent and prior retirements were for disability. Prior retirement

Such a member likewise shall not receive the full retirement salary specified in subdivision (a) of Section 14632 or 14639, according to whether retirement is for service or disability, but shall receive (1) a retirement salary, based upon his credited service from the date of re-entry into the Retirement System to the date of his subsequent retirement, and calculated under Section 14632 or 14639, as the case may be, plus (2) a retirement salary equal to the retirement salary he received next preceding his re-entry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances made after said re-entry and applicable to allowances being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his re-entry, at least one year of service credited under the Retirement System; otherwise, plus (3) a retirement salary based on the same service as that upon which the retirement salary he received next preceding said re-entry was based, but calculated under Section 14632, regardless of whether retirement is for service or disability on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement.

SEC. 4. This act shall become operative on October 1, 1957. Operative date

An act to add Article 8 to Chapter 3, Division 9 of the Education Code, relating to the powers and duties of school districts.

In effect September 11, 1957

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Article 8 is added to Chapter 3, Division 9 of the Education Code, to read:

Article 8. Leasing of School Buildings

"Building" 18351. Any school district may enter into leases and agreements relating to real property and buildings to be used by the district pursuant to this article. As used in this article, "building" includes on-site and off-site facilities, utilities or improvements which the governing board determines are necessary for the proper operation or function of the school facilities to be leased. It also includes the permanent improvement of school grounds.

Site 18352. Before the governing board of a school district enters into a lease or agreement pursuant to this article, it shall have available a site upon which a building to be used by the district may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites, and it shall have prepared and shall have adopted plans and specifications for such building which have been approved pursuant to Articles 2 and 3 of this chapter (commencing at Section 18171). A district has a site available for the purposes of this section if it owns a site or if it has an option on a site which allows the school district or the designee of the district to purchase the site. Any school district may acquire and pay for an option containing such a provision.

Lease terms 18353. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 40 years.

Exemption 18354. Article 2, Chapter 5 (commencing at Section 18601) of this division shall not apply to leases made pursuant to this article.

Lease for construction 18355. The governing board of a school district may let, at a minimum rental of one dollar ($1) a year, to any person, firm, or corporation any real property which belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the use of the school district during the term thereof, and provides that title to such building shall vest in the school district at the expiration of such term. Such instrument may provide for the means or methods by which such title shall vest in the school district prior to the expiration of such term, and shall contain such other terms and conditions as the governing board may deem to be in the best interest of the school district.

Contracts 18356. The governing board of any school district may enter into an agreement with any person, firm, or corporation under which such person, firm, or corporation shall construct, or provide for the construction of, a building to be used by the district upon a designated site and lease such building and site to the district. Such instrument shall provide that the title to such building and site shall vest in the district at the expiration of such lease, and may provide the means or method by which the title to the building and site shall vest in the

district prior to the expiration of such lease, and shall contain such other terms and conditions as the governing board of the district deems to be in the best interest of the district.

Bids

The agreement entered into shall be with the lowest responsible bidder who shall give such security as the board requires. The board may reject all bids. For the purpose of securing bids the board shall publish at least once a week for two weeks in some newspaper of general circulation published in the district, or if there is no such paper, then in some paper of general circulation circulated in the county, a notice calling for bids, stating the proposed terms of the agreement and the time and place where bids will be opened.

Elections

18357. The governing board of a school district shall call and hold an election, pursuant to Section 18358 or 18359, before or after entering a lease or agreement, as the case may be.

Ballot

18358. Before entering into a lease or agreement pursuant to this article, the governing board of the district shall call, hold, and conduct an election in the manner provided in Section 6358, except that the ballot used in the election shall contain substantially the words: "shall the governing board of the _____ District purchase a site, prepare plans and specifications, [the reference to the site and plans and specifications shall not be included if, prior to calling the election, the governing board of the district has acquired a site or proposes to lease a site and has prepared plans and specifications] and lease [a site and] a building to be constructed for use by the school district [designating the location of the site on which the building will be constructed and generally describing the building], and, for such purposes, shall the maximum tax rate of the district be increased from _____ to _____, such rate to be in effect in the _____ District for the year 19___ to 19___, be authorized and the amount of such increase used solely and exclusively for such purposes?"

Alternative method

18359. In lieu of calling an election pursuant to Section 18358, the governing board of a school district may call an election pursuant to this section. Within 10 days after the governing board has opened the proposals pursuant to Section 18364 it may accept a proposal and execute the lease or agreement, and immediately thereafter call an election pursuant to this section.

The governing board of the district shall call, hold, and conduct an election in the manner provided in Section 6358, except that the ballot used in the election shall contain substantially the words: "shall the governing board of the _____ District lease [a site and] a building to be constructed for use by the school district [designating the location of the site on which the building will be constructed, and generally describing the building and the cost thereof], and, for such purposes, shall the maximum tax rate of the district be increased from _____ to _____, such rate to be in effect in the _____ District for the years 19___ to 19___ be

authorized and the amount of such increase used solely and exclusively for such purposes?"

Majority

18360. If, at the election held pursuant to Section 18358, a two-thirds majority of the electors voting on the proposition vote "yes," the governing board may proceed pursuant to this article. If, at the election held pursuant to Section 18359, one-third of the electors voting on the proposition vote "no," any lease or agreement entered into by the governing board for the lease of the site or building, or both, designated in the proposition is void.

Limitation

18361. If the governing board of the district fails to enter into a lease pursuant to this article within one year after the result of an election, held pursuant to Section 18358, at which a two-thirds majority of the votes cast favors the proposition submitted, the authorization for an increase in the maximum tax rate shall become void.

Declaration

18362. After the governing board of a school district has complied with Section 18352, it shall, in a regular open meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article. The resolution shall describe, in such manner as to identify it, the available site upon which the building to be used by the district shall be constructed, shall generally describe the building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor, shall, if such is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed, and shall state the maximum number of years for which the school district will lease the building or site and building, as the case may be, and shall state that the proposals submitted therefor shall designate the amount of rental, which shall be annual, semiannual, or monthly, to be paid by the school district for the use of the building, or building and site, as the case may be. The resolution shall fix a time, not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to enter such a lease or agreement with the school district will be received from any person, firm, or corporation, and considered by the governing board. Notice thereof shall be given in the manner provided in Section 18608.

Bids Opening

At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to enter a lease or agreement and which are made by responsible bidders, the proposal which calls for the lowest rental shall be finally accepted, or the board shall reject all bids. The board is not required to accept a proposal, or else

reject all bids, on the same day as that in which the proposals are opened.

Building

18363. Any building constructed for the use of a school district pursuant to this article is subject to Article 3 of this chapter (commencing at Section 18191).

Outstanding indebtedness

18364. For the purposes of Sections 4714, 7431, and 7431.3, 60 percent of any remaining payments which would become due from the district under any leases and agreements entered into by the district pursuant to this article, if such leases and agreements were to run their full term, shall be considered outstanding bonded indebtedness.

District obligation

18365. The amount of rental which a district agrees to pay during any one year, under a lease or agreement entered into pursuant to this article, is an obligation of such district and is an obligation of such district for such year only.

Determination of wages

18366. The governing board of the school district shall ascertain the general prevailing rate of per diem wages in the locality in which the building is to be constructed for each craft, classification or type of workman needed for the construction of the building and shall specify in the resolution and in the notice, required by Section 18364, and in the lease or agreement made pursuant to this article, what the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality is for each craft, classification or type of workmen needed for the construction of the building. The holidays upon which such rate shall be paid need not be specified by the governing board, but shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

In determining such rates, the governing board shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the governing board shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall not be less than the prevailing rate paid in such craft, classification or type of work.

Any agreement or lease entered into pursuant to this article shall require that such general prevailing rates will be paid. It shall also require that work performed by any workman employed upon the project in excess of eight hours during any one calendar day shall be permitted only upon compensation for all hours worked in excess of eight hours per day at not less than 1½ times the basic rate of pay. There may also be included in leases or agreements entered into pursuant to this article any other requirements with respect to matters

related to the subject of this section which the governing board deems necessary or desirable.

18367. The provisions of this article prevail over any provisions of law which conflict therewith. Prevalence

18368. The provisions of this article shall terminate on the ninety-first day after final adjournment of the 1961 Regular Session of the Legislature. Termination date

The people of the State of California do enact as follows:

SECTION 1. Article 7 is added to Chapter 11 of Division 2 of the Education Code, to read:

Article 7. Formation of High School Districts From Territory in Existing High School Districts

Authorization

3571. The formation of a high school district to include all the territory of one or more elementary school districts which are a part of an existing union high school district maintaining five or more high schools, each of which high schools is separated by a distance of eight or more miles by the nearest traveled road, is hereby authorized but may be effected only in the manner prescribed by this article.

Petition

3572. A petition signed by not less than 10 percent of the registered electors residing in any elementary school district which is a part of the existing high school district and in which there is located one of the high schools maintained by the high school district, shall be presented to the county superintendent of schools having jurisdiction over the districts, setting forth the name of the elementary school district or districts to be included in the proposed high school district and specifying the name of the proposed district. The person securing the signatures to any such petition shall attach an affidavit thereto that all persons who signed the petition did so in the presence of the affiant and that each signature is the genuine signature of the person whose name it purports to be.

Proposal

3573. The petition may propose the formation of a high school district to include all the territory of two or more contiguous elementary school districts which are a part of the existing high school district if there is situated in one or more of the contiguous elementary school districts one or more of the high schools maintained by the existing high school district.

Rejection

3574. The county superintendent of schools shall reject the petition and take no further action under such petition if at the time the petition is presented to him the assessed valuation of the territory to be included in the proposed high school district is less than seventeen million dollars ($17,000,000) as shown by the last equalized assessment roll. Within 20 days after receiving the petition the county superintendent of schools shall, if he finds it sufficient and signed as required, call an election in the territory proposed to be included in the high school district. Except as otherwise provided in this article, the election shall be conducted as elections for governing boards and the county superintendent of schools shall have all the powers and duties with respect to the election as governing boards of school districts have in elections for members of school boards.

Election

3575. The election shall be called by posting notices in three public places in each elementary school district proposed to be included in the high school district, one of which shall be a public schoolhouse, at least two weeks before the election, and by publishing the notice at least once a week for two successive weeks in a newspaper of general circulation published at least as often as once a week in the proposed high school district, if there is such a newspaper. The first publication shall be not less than two weeks before the election.

Polling places

3576. The election shall be held separately and simultaneously at a public schoolhouse in each of the districts proposed to be included in the high school district.

Ballots

3577. The ballots used at the election in each district shall contain the words "High School District—Yes" and "High School District—No." The electors voting at the election shall make a cross with pencil, ink, or rubber stamp after the answer they desire to give.

Vote canvass

3578. The election officers in each district shall canvass the vote as soon as the polls are closed, and report the result to the county superintendent of schools within five days after the election.

Election result

3579. Within 10 days after receiving the returns of the election, the county superintendent of schools shall combine the votes "for" and "against" the formation of the high school district, declare the result, and record it, with the details of the vote in each district, in a book kept by him for that purpose.

Certificate of votes cast

3580. If a majority of the votes cast at the election is in favor of the formation of the high school district, he shall file with the county clerk of the county, a certificate showing the

total number of votes cast in each district in favor of the high school district, the total number of votes in each district against the high school district, the aggregate result of the election, and the boundaries of the proposed district.

Formation

3581. If it appears from the certificate filed by the county superintendent of schools that a majority of the votes cast at the election is in favor of the formation of the district, the new high school district is formed.

Recordation

3582. The county clerk shall record the certificate in full in his record of high school districts.

Property

3583. Whenever any high school district is formed pursuant to this article, all real property of the union high school district which is situated within the boundaries of the newly formed high school district shall become the property of the newly formed district. Within 30 days after the newly formed high school district becomes effective for all purposes, the county auditor shall determine the balance of the funds standing to the credit of the general fund of the union high school district from which the new district was formed as of the effective date of the formation of the new district. Thereupon he shall transfer from the general fund of the union high school district to the credit of the general fund of the newly formed district an amount which is in the same proportion as the ratio of the assessed valuation of the territory included in the newly formed district bears to the total assessed valuation of the union high school district immediately prior to the formation of the new district for all purposes.

Funds

3584. During the first fiscal year after the formation of a high school district pursuant to this article, the new high school district shall receive from the union high school district from which the new district was formed a sum equal to all apportionments of the State School Fund which it would have received had it been formed on July 1st of the year preceding its formation for all purposes, as such apportionments are received by the union high school district. During such first fiscal year the county superintendent of schools having jurisdiction over the districts shall draw his requisition upon the county auditor to the credit of the newly formed high school district in the amount necessary to accomplish the transfer of funds required by this section.

When any such contributions have been made, the State shall thereupon contribute an amount equal to that which it would have contributed under Chapter 6 of this part if the contributions had been deducted from compensation to the member from state funds. For the purposes of Chapter 6 the compensation on which the member's contributions were based shall be deemed to have been paid from the General Fund.

In effect September 11, 1957

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 710 of the Code of Civil Procedure is amended to read:

Enforcement of judgment

710. (a) Whenever a judgment for the payment of money is rendered by any court of this State against a defendant to whom money is owing and unpaid by this State or by any county, city and county, city or municipality, quasi-municipality or public corporation, the judgment creditor may file a duly authenticated abstract or transcript of such judgment together with an affidavit stating the exact amount then due, owing and unpaid thereon and that he desires to avail himself of the provisions of this section in the manner as follows:

1. If such money, wages or salary is owing and unpaid by this State to such judgment debtor, said judgment creditor shall file said abstract or transcript and affidavit with the state department, board, office or commission owing such money, wages or salary to said judgment debtor prior to the time such state department, board, office or commission presents the claim of such judgment debtor therefor to the State Controller or to the State Personnel Board. Said state department, board, office or commission in presenting such claim of such judgment debtor to said State Controller shall note thereunder the fact that the filing of such abstract or transcript and affidavit and state the amount unpaid on said judgment as shown by said affidavit and shall also note any amounts advanced to the judgment debtor by, or which the judgment debtor owes to, the State of California by reason of

advances for expenses or for any other purpose. Thereupon the State Controller, to discharge such claim of such judgment debtor, shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due such judgment debtor on such claim, after deducting from such claim an amount sufficient to reimburse the state department, board, officer or commission for any amounts advanced to said judgment debtor or by him owed to the State of California, and after deducting therefrom an amount equal to one-half the salary or wages owing to the judgment debtor for his personal services to the State rendered at any time within 30 days next preceding the filing of such abstract or transcript, as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

2. If such money, wages or salary is owing and unpaid to such judgment debtor by any county, city and county, city or municipality, quasi-municipality or public corporation, said judgment creditor shall file said abstract or transcript and affidavit with the auditor of such county, city and county, city or municipality, quasi-municipality or public corporation (and in case there be no auditor then with the official whose duty corresponds to that of auditor). Thereupon said auditor (or other official) to discharge such claim of such judgment debtor shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due on such claim of such judgment debtor, less an amount equal to one-half the salary or wages owing by the county, city and county, city, municipality, quasi-municipality, or public corporation to the judgment debtor for his personal services to such public body rendered at any time within 30 days next preceding the filing of such abstract or transcript, as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

(b) The judgment creditor upon filing such abstract or transcript and affidavit shall pay a fee of two dollars and fifty cents ($2.50) to the person or agency with whom the same is filed.

(d) In the event the moneys owing to a judgment debtor by any governmental agency mentioned in this section are owing by reason of an award made in a condemnation proceeding brought by the governmental agency, such governmental agency may pay the amount of the award to the clerk of the court in which such condemnation proceeding was tried, and shall file therewith the abstract or transcript of judgment and the affidavit filed with it by the judgment

creditor. Such payment into court shall constitute payment of the condemnation award within the meaning of Section 1251 of this code. Upon such payment into court and the filing with the county clerk of such abstract or transcript of judgment and affidavit, the county clerk shall notify by mail, through their attorneys, if any, all parties interested in said award of the time and place at which the court which tried the condemnation proceeding will determine the conflicting claims to said award. At said time and place the court shall make such determination and order the distribution of the money held by the county clerk in accordance therewith.

(e) The judgment creditor may state in the affidavit any fact or facts tending to establish the identity of the judgment debtor. No public officer or employee shall be liable for failure to perform any duty imposed by this section unless sufficient information is furnished by the abstract or transcript together with the affidavit to enable him in the exercise of reasonable diligence to ascertain such identity therefrom and from the papers and records on file in the office in which he works. The word "office" as used herein does not include any branch or subordinate office located in a different city.

(f) Nothing in this section shall authorize the filing of any abstract or transcript and affidavit against any wages, or salary owing to any elective officer of this State whose salary is fixed by Section 19 of Article V of the State Constitution.

(g) Any fees received by a state agency under this section shall be deposited to the credit of the fund from which payments were, or would be, made on account of a garnishment under this section. For the purpose of this paragraph, payments from the State Pay Roll Revolving Fund shall be deemed payments made from the fund out of which moneys to meet such payments were transferred to said revolving fund.

CHAPTER 2086

An act to amend Section 12300.3 of the Financial Code, relating to the use of trust funds by check sellers and cashers.

In effect September 11, 1957

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 12300.3 of the Financial Code is amended to read:

Trust funds

12300.3. All money received by a licensee or his agents from the sale of checks, drafts, money orders, or other commercial paper serving the same purpose and for the purpose of paying bills, invoices, or accounts of an obligor shall constitute trust funds owned by and belonging to the person from whom they were received. All such money received by an agent of a licensee shall be separated from the funds of the agent not later than the end of the third business day following receipt by such agent. All such money shall thereafter be kept separate and apart at all times from funds belonging to the licensee or any of its officers, employees or agents and may be used for no purpose other than paying bills of said persons, or paying checks, drafts, money orders, or other commercial paper sold by the licensee. All such trust funds received at the main or branch offices of a licensee shall be deposited in a bank or banks in an account or accounts in the name of the licensee designated "trust account," or by some other appropriate name indicating that the funds are not the funds of the licensee or of its officers, employees, or agents, on or before the close of the next business day following receipt. Moneys received by an agent of a licensee must be deposited in such account on or before the close of the third business day following receipt by the agent. Such funds are not subject to attachment, levy of execution or sequestration by order of court except by a payee or bona fide assignee or bona fide holder in due course of a check, draft, or money order sold by a licensee, or except by an obligor for whom a licensee is acting as an agent in paying bills. Funds in said account, together with money on hand and in the hands of agents held for the account of the licensee, at all times shall be at least equal to the aggregate liability of the licensee on account of checks sold and bills, invoices, and accounts accepted for payment.

Trust account

Such funds may be used by a licensee for the cashing of checks in the normal course of its business provided such licensee has on file with the commissioner a bond containing the provisions and conditions set forth in Section 12207 through 12213, inclusive, of this code in an amount equal to the total liability of the licensee for money received by a licensee or his agents from the sale of checks, drafts, money orders, or other commercial paper serving the same purpose and for the purpose of paying bills, invoices, or accounts of an

obligor as shown by audit on the last day of the previous business year of the licensee, or as at any other more recent date as determined by the commissioner.

Nothing in this law shall be construed to prevent a purchaser, a holder in due course, the payee of a check, draft, or money order sold by the licensee in the usual course of his business, or an obligor for whom the licensee is acting as an agent in paying bills of the obligor, from taking any legal action necessary to enforce any claims which said purchaser, holder in due course, payee, or obligor may desire to take including the right to levy attachment or execution.

In the event a license under this law shall be suspended or terminated the licensee shall immediately deposit in said trust account an amount which with funds therein contained shall be equal to the outstanding checks sold and bills unpaid.

CHAPTER 2087

An act to amend Section 17402 of the Revenue and Taxation Code, relating to personal income taxes, to take effect immediately, urgency measure.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 17402 of the Revenue and Taxation Code is amended to read:

17402. (a) In the case of property distributed in complete liquidation of a corporation, other than a collapsible corporation to which Section 17411 applies if— Corporate liquidations

(1) The liquidation is made in pursuance of a plan of liquidation adopted on or after December 31, 1950, 1951, 1952, or 1956; and

(2) The distribution is in complete cancellation or redemption of all the stock, and the transfer of all the property under the liquidation occurs within some one calendar month in 1951, 1952, 1953 or subsequent to 1956, then in the case of each qualified electing shareholder (as defined in subsection (c)) gain upon the shares owned by him at the time of the adoption of the plan of liquidation shall be recognized only to the extent provided in subsection (e).

(b) For purposes of this section, the term "excluded corporation" means a corporation which at any time between January 1, 1956, and the date of the adoption of the plan of liquidation, both dates inclusive, was the owner of stock possessing 50 percent or more of the total combined voting power of all classes of stock entitled to vote on the adoption of such plan.

(c) For purposes of this section, the term "qualified electing shareholder" means a shareholder (other than an excluded corporation) of any class of stock (whether or not entitled to vote on the adoption of the plan of liquidation) who is a shareholder at the time of the adoption of such plan, and whose written election to have the benefits of subsection (a) has been made and filed in accordance with subsection (d), but in the case of a shareholder other than a corporation, only if written elections have been so filed by shareholders (other than corporations) who at the time of the adoption of the plan of liquidation are owners of stock possessing at least 80 percent of the total combined voting power (exclusive of voting power possessed by stock owned by corporations) of all classes of stock entitled to vote on the adoption of such plan of liquidation.

(d) The written elections referred to in subsection (c) must be made and filed in such manner as to be not in contravention of regulations prescribed by the Franchise Tax Board. The filing must be within 30 days after the date of the adoption of the plan of liquidation or within one month after the effective date of this amended section whichever is later and may be made by the liquidating corporation or by its stockholders.

(e) In the case of a qualified electing shareholder—

(1) There shall be recognized, and treated as a dividend, so much of the gain as is not in excess of his ratable share of the earnings and profits of the corporation accumulated after February 28, 1913, such earnings and profits to be determined as of the close of the month in which the transfer in liquidation occurred under subsection (a) (2), but without diminution by reason of distributions made during such month; but by including in the computation thereof all amounts accrued up to the date on which the transfer of all the property under the liquidation is completed; and

(2) There shall be recognized, and treated as a capital gain so much of the remainder of the gain as is not in excess of the amount by which the value of that portion of the assets received by him which consists of money, or of stock or securities acquired by the corporation after August 15, 1950, exceeds his ratable share of such earnings and profits.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution. The facts constituting such necessity are:

Because of extremely complex legal and other problems, many corporations desiring and attempting to liquidate in 1951, 1952 or 1953 were unable to arrange for distribution in complete liquidation of their property within the requisite period and month in either of such years, with the result that the benefits granted taxpayers by Section 17402 of the Revenue and Taxation Code have been unavailable to them. These

taxpayers will, as a consequence, and for reasons beyond their control, be required to pay considerably more in the way of taxes than they would have had the corporations mentioned been able to arrange for the liquidation of their property within the period and time specified. As an additional effect of this situation, a clear disparity exists in their treatment because other taxpayers in the same class were more fortunately situated as to have received a liquidation in accordance with the conditions under which Section 17402 operates. Such a situation leads to economic inequality and is productive of unrest, thus directly affecting the public peace, health or safety. This act will eliminate such inequality and more completely and equitably carry out the intent of Section 17402.

Public purpose

SEC. 3. The Legislature hereby declares that, for the reasons noted in Section 2 of this act, the amendments of Section 17402 of the Revenue and Taxation Code made by this act are intended to accomplish and serve a public purpose.

An act to add Section 1202.5 to the Public Utilities Code, and to amend Section 189 of, and to add Sections 190 and 191 to, the Streets and Highways Code, relating to crossings and intersections of railroads and highways.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.] In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 1202.5 is added to the Public Utilities Code, to read:

1202.5. In prescribing the proportions in which the expense of construction, reconstruction, alteration or relocation of grade separations shall be divided between railroad or street railroad corporations and public agencies, in proceedings under Section 1202, the commission, unless otherwise provided in this section, shall be governed by the following standards: Expense apportionment

(a) Where a grade separation project, whether initiated by a public agency or a railroad, will not result in the elimination of an existing grade crossing, located at or within a reasonable distance from the point of crossing of the grade separation, the commission shall require the public agency or railroad applying for authorization to construct such grade separation to pay the entire cost.

(b) Where a grade separation project initiated by a public agency will directly result in the elimination of one or more existing grade crossings, located at or within a reasonable distance from the point of crossing of the grade separation, the commission shall apportion against the railroad an amount computed by capitalizing at 5 percent per annum the direct and computable savings to the railroad resulting from the elimination or reduction of the cost of physical maintenance of such crossing or crossings, and from the elimination or reduction of the cost of maintaining crossing protection at the existing grade crossing or crossings, and in addition shall

apportion against the railroad ten percent (10%) of the cost attributable to the presence of the railroad facilities. The remainder of such costs shall be apportioned against the public agency or agencies affected by such grade separation.

(c) Where a grade separation project initiated by a railroad will directly result in the elimination of an existing grade crossing, located at or within a reasonable distance from the point of crossing of the grade separation, the commission shall apportion ten percent (10%) of the cost, attributable to the presence of the highway facilities, against the public agency or agencies affected by the project, and the remainder thereof to the railroad or railroads applying for authorization to construct such grade separation.

(d) Where the project consists of an alteration or reconstruction of an existing grade separation for the purpose of increasing the capacity of the structure for highway purposes, the commission shall apportion ten percent (10%) of the cost against the railroad and the balance against the public agency or agencies affected by such grade separation.

Where the project consists of an alteration or reconstruction of an existing grade separation for the purpose of increasing the capacity of the structure for railway purposes, the commission shall apportion ten percent (10%) of the cost against the public agency or agencies affected and the balance against the railroad applying for authorization to alter or reconstruct such grade separation.

(e) In the event the commission finds that a particular project does not clearly fall within the provisions of any one of the above categories, the commission shall make a specific finding of fact on the relation of the project to each of said categories, and in apportioning the costs, it shall apportion against the railroad an amount computed by capitalizing at five percent (5%) per annum the direct and computable savings to the railroad resulting from the elimination or reduction of the cost of physical maintenance and from the elimination or reduction of the cost of maintaining crossing protection, at the existing crossing, if any, and in addition shall assess against the railroad a reasonable percentage, if any, of the cost not exceeding the percentage specified in subsection (b), dependent on the findings of the commission with respect to the relation of the project to each category. The remainder of such cost shall be apportioned against the public agency or agencies affected by the project.

(f) In the event the commission finds that the respective shares of any apportionment should be divided between two or more railroads or two or more public agencies, the commission, to the extent that it has jurisdiction to do so in a particular proceeding before it, shall divide said shares between said railroads or said public agencies, or both, on any reasonable basis, to be decided by the commission, but in so doing shall follow the standards hereinabove prescribed for apportionment between railroads and public agencies, respectively.

(g) The standards herein prescribed for apportionment of costs of grade separations shall not be applicable where federal funds are used. On such projects the apportionments shall be in accordance with federal law and the rules, regulations and orders of the federal agency administering said law, where applicable.

(h) No provision of this section or of the Public Utilities Code shall be construed as in any way limiting the right of public agencies or railroads to negotiate agreements apportioning costs of grade separations, and the validity of any and all such agreements is hereby recognized for all purposes regardless whether the method of apportionment prescribed therein conforms to the standards hereinabove prescribed.

As used in this section "public agency" includes a separation of grade district, as well as the State, a county, city, or other political subdivision.

SEC. 2. Section 189 of the Streets and Highways Code is amended to read:

189 On or before the first day of each year the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of crossings at grade in separation of grade districts and of city streets or county roads and the tracks of any railroad corporation or corporations in the order of priority which in the judgment of the commission justifies the elimination of the crossing at grade by the erection or construction of separation structures. The commission shall include in such listing only such crossings which in its judgment are most urgently in need of separation, taking into consideration the possibility of financing the same under the provisions of this code. List of crossings

SEC. 3. Section 190 is added to the Streets and Highways Code, to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1 of this code, commencing with the 1958-59 Fiscal Year, the sum of five million dollars ($5,000,000) shall be set aside for allocations to grade separation projects of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189-191, inclusive, of this code. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of said sections, except that in no event shall allocations in any one fiscal year in excess of a total of five million dollars ($5,000,000) be made. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract Allocation of funds

within a period of six months have been or can be taken care of within that time. In the event, after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the State Highway Fund for use on state highways.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars ($5,000,000) on and after January 1st preceding the beginning of such fiscal year. Engineering costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The department and the commission may revert as of October 1st of each fiscal year any unallocated amount from the annual sum of five million dollars ($5,000,000) for that fiscal year.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights of way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission, from the funds made available for the current or subsequent fiscal years. If more projects comply with the requirements hereof in a single year than can be financed from the sum of five million dollars ($5,000,000), allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC. 4. Section 191 is added to the Streets and Highways Code, to read:

Allocation for specific projects

191. Allocations for specific projects shall be deemed expenditures within the county in which the project is situated for the purpose of compliance by the department and the commission with Sections 188 and 188.4 in the same manner as if such allocations had been expenditures upon state highways in that county.

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 is added to Chapter 2.5 of Division 1 of the Water Code, to read:

Article 2.5. Acquisition and Disposal of Property

Power to condemn

250. In the name of the people of the State of California, the department may condemn for state water and dam purposes, under the provisions of the Code of Civil Procedure relating to eminent domain, any real property or interest therein which it is authorized to acquire. The department shall not commence any such proceeding in eminent domain unless the project for which the property is being acquired has been authorized, funds are available therefor, and the director first issues a declaration declaring that public interest and necessity require the acquisition, construction or completion by the State, acting through the department, of the improvement for which the real property or interest therein is required and that the real property or interest therein described in such declaration is necessary for the improvement.

Declaration as evidence

251. The declaration of the director, supported by a resolution of the State Water Board or its successor, shall be conclusive evidence:

(a) Of the public necessity of such proposed public improvement.

(b) That such real property or interest therein is necessary therefor.

(c) That such proposed public improvement is planned or located in a manner which will be most compatible with the greatest public good and the least private injury.

Prior public appropriation

251.1. Property already appropriated to public use shall not be taken unless for a more necessary public use than that to which it has already been appropriated.

Park property

252. The real property which the department may acquire by eminent domain, or otherwise, includes any property dedicated to park purposes, however it may have been dedicated, when the director has determined by such declaration that such property is necessary for state water and dam purposes

Purposes of acquisition

253. The department may acquire, either in fee or in any lesser estate or interest, any real property which it considers necessary for state water and dam purposes. Real property for such purposes includes, but is not limited to, real property considered necessary for any of the following purposes:

(a) For rights of way.

(b) For the purposes of exchanging the same for other real property to be used for rights of way.

(c) For rock quarries, gravel pits, or sand or earth borrow pits.

(d) For offices, shops, or storage yards.

(e) For parks adjoining or near any state dam or water facility.

(f) For the culture and support of trees which benefit any state dam or water facility by aiding in the maintenance and preservation of the facility.

(g) For drainage in connection with any state dam or water facility.

Partial utilization

254. Whenever a part of a parcel of land is to be taken for state dam or water purposes and the remainder is to be left in such shape or condition as to be of little value to its owner, or to give rise to claims or litigation concerning severance or other damage, the department may acquire the whole parcel and may sell the remainder or may exchange the same for other property needed for state dam or water purposes.

Condemnation for exchange

255. Whenever property which is devoted to or held for some other public use for which the power of eminent domain might be exercised is to be taken for state dam or water purposes, the department may, with the consent of the person or agency in charge of such other public use, condemn, in the name of the people of the State of California, real property to be exchanged with such person or agency for the real property so to be taken for state dam or water purposes. This section does not limit the authorization to the department to acquire, other than by condemnation, property for such purposes.

Nearby property

256. The department may condemn real property or any interest therein for reservations in and about and along and

leading to any state dam or water facility or other public work or improvement constructed or to be constructed by the department and may, after the establishment, laying out and completion of such improvement, convey out any such real property or interest therein thus acquired and not necessary for such improvement with reservations concerning the future use and occupation of such real property or interest therein, so as to protect such public work and improvement and its environs and to preserve the view, appearance, light, air and usefulness of such public work; provided, that land so condemned under authority of this section shall be limited to parcels lying wholly or in part within a distance of not to exceed 500 feet from the closest boundary of such public work or improvement; provided, that when parcels which lie only partially within such limit of 500 feet are taken, only such portions may be condemned which do not exceed 600 feet from said closest boundary.

Deeds, etc

257. The director may execute all deeds or conveyances necessary to convey any real property or interest therein to be sold or exchanged under the provisions of this code. He may insert in any such deed or conveyance such conditions, covenants, exceptions and reservations as in his opinion are in the public interest or may convey in fee simple absolute. All statutes relating to state lands or to reservations of minerals therein or to reservations of rights to prospect for or mine or remove such minerals are inapplicable to lands heretofore or hereafter acquired by the State or conveyed by the State pursuant to the provisions of this code or pursuant to the provisions of previously existing statutes codified in this code, and no such statute in respect to state lands hereafter enacted shall be applicable thereto unless the Legislature expressly so declares.

It shall be conclusively presumed in favor of any purchaser for value and without notice of any real property or interest therein conveyed pursuant to the provisions of this code that the department acted within its lawful authority in acquiring the property, and that the director acted within his lawful authority in executing any deed or conveyance or lease authorized by this code.

Future needs

258. The authority conferred by this code to acquire real property for state dam and water purposes includes authority to acquire for future needs. The department is authorized to lease any lands which are held for state dam and water purposes and are not presently needed therefor on such terms and conditions as the director may fix and to maintain and care for such property in order to secure rent therefrom.

Condemnation of common carrier property, etc.

259. When the department condemns the property of any common carrier railroad, other public utility, or state agency, or the appurtenances thereof, it shall be governed by the provisions of Article 3, Chapter 6, Part 3, Division 6 of this code.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 984 of the Unemployment Insurance Code is amended to read:

984. Beginning on January 1, 1936, each worker shall contribute one-half of 1 percent of the wages paid to him by Worker's contribution

each employer with respect to employment; and beginning on January 1, 1937, nine-tenths of 1 percent of such wages and on and after January 1, 1938, and after his employer has satisfied the conditions set forth in this part with respect to becoming an employer, 1 percent of such wages; except that the rate of contributions required of a worker shall not in any year exceed 50 percent of the general rate required of employers.

SEC. 2. Section 985 of said code is amended to read:

Exemptions 985. Section 984 shall not apply to that part of remuneration which, after remuneration equal to three thousand dollars ($3,000) has been paid to an individual by an employer with respect to employment during any calendar year, is paid after December 31, 1939, and prior to January 1, 1947, to such individual by such employer with respect to employment during such calendar year; or that part of the remuneration which, after remuneration equal to three thousand dollars ($3,000) with respect to employment after 1939 has been paid to an individual by an employer during any calendar year after 1946, and prior to January 1, 1958, is paid to such individual by such employer during such calendar year; or that part of the remuneration which, after remuneration equal to three thousand six hundred dollars ($3,600) with respect to employment after 1939 has been paid to an individual by an employer during any calendar year after December 31, 1957, is paid to such individual by such employer during such calendar year.

SEC. 3. Section 1176 of said code is amended to read:

Refunds 1176. If, by reason of an employee receiving wages from more than one employer during any calendar year after the calendar year 1946, and prior to January 1, 1958, the wages received by him during such year exceed three thousand dollars ($3,000), and the sum of the amount of tax imposed by Section 984 plus the amount of any contributions under Section 3260 deducted from such wages exceeds thirty dollars ($30), the employee is entitled to a refund of the amount of the excess. Refunds under this section shall be made by the director from the Disability

Fund if, within six months after the calendar year in which the excess wages are received, the employee makes a claim establishing his right to the refund. No interest shall be allowed or paid with respect to such refund. The director shall in accordance with authorized regulations determine the portion of the aggregate amount of such refunds made during any calendar year which is applicable to voluntary plans for which deductions were made under Section 3260, such determination to be based upon the relation during the preceding calendar year of the amount of wages subject to contributions to the Disability Fund to the amount of wages exempt from contributions to the Disability Fund under Section 3252. The director shall in accordance with authorized regulations prorate such aggregate amount among the applicable voluntary plans and shall assess and recover from the employer, or the insurer if the insurer has indemnified the employer with respect thereto, the amount so prorated. The provisions of Section 3265 in respect to assessment and recovery of amounts paid by the Disability Fund shall apply to the assessments under this section.

SEC. 4. Section 2652 of said code is amended to read:

The certificate shall con-

tain a statement of the medical facts within his knowledge, his conclusion with respect to the disability of the claimant and his opinion with respect to probable duration of the disability. The claim of any eligible individual who obtains care and treatment outside this State or in any foreign country may, pursuant to authorized regulations, be supported by a like certificate of a similar licensee of the state or foreign country in which the claimant is receiving care and treatment. With respect to any eligible claimant who is hospitalized in a county hospital in this State or is hospitalized by said county hospital in another hospital, a certificate as to such individual's disability as shown by his hospital chart signed by the registrar of the hospital shall satisfy the requirements of this section. Where any eligible claimant is hospitalized in or under the care of any medical facility of the United States Government, a certificate as to such individual's disability signed by any duly authorized medical officer of such facility shall satisfy the requirements of this section.

A voluntary plan in force and effect at the time a successor employing unit acquires the organization, trade, or business, or substantially all the assets thereof, or a distinct and severable portion of such organization, trade, or business, and continues its operation without substantial reduction of personnel resulting from such acquisition, shall not terminate without specific request for cancellation thereof. The successor employing unit shall be deemed to have consented to the plan, and agreed to make the pay roll deductions required, if any, and transmit the proceeds to the plan insurer, if any, unless written request for cancellation is transmitted to the director within 30 days after the acquisition date. Promptly upon notice of change in ownership any insurer of such a plan shall prepare and issue policy forms and amendments as required,

unless the plan is canceled. Nothing herein contained shall prevent future cancellation of any such plans upon 60 days notice, or at the expiration of one year from its original effective date, whichever is later.

SEC. 10. Section 3260 of said code is amended to read:

Wage deductions

3260. An employer may, but need not, assume all or part of the cost of the plan, and may deduct from the wages of an employee covered by the plan for the purpose of providing the disability benefits specified in this part and the costs as set forth in Section 3269 an amount not in excess of that which would be required by Section 984 if the employee were not covered by the plan.

With respect to individuals covered by a voluntary plan on January 1, 1958, the amount of the deduction on or after that date may be increased to a maximum of 1 percent of three thousand six hundred dollars ($3,600) of annual taxable wages without any further consent of the individual or approval by the director.

Adverse risks

3270. The provisions of Section 3254(h) and 3255(h), dealing with substantial selection of risks adverse to the Disability Fund shall be inoperative during the calendar years 1954, 1955, 1956, 1957, 1958 and 1959.

SEC. 12. Section 3271 of said code is amended to read:

Commission approval

3271. Until January 1, 1960, the commission shall approve any amendment to a voluntary plan adjusting the provisions thereof as to periods after the effective date of the amendment as to which it finds that the plan as amended will conform to the standards set forth in Section 3254 and that either of the following exist:

(a) A majority of the employees covered by the plan have consented in writing to the amendment.

(b) All of the employees covered by the plan who are adversely affected by the amendment have consented in writing to the amendment.

(c) The insurer of such plan, if any, has certified to the director that notice of the amendment either separately or as a part of a new certificate or statement of coverage, has, at least 10 days prior to the effective date of the proposed amendment, been delivered to the employer for distribution to his employees within 10 days thereafter and has further certified that such notice specifically included notification to the employees covered by the plan of their right to withdraw from the plan.

Nothing contained in this section is intended to deny or limit the right of the director to make regulations supplementary thereto, nor on the general subject of requirements for amendments of voluntary plans subsequent to January 1, 1960.

Operative dates

SEC. 13. The amendments of Sections 2652, 2655, 2708, 2801, and 2804 of the code made by this act shall become operative with respect to periods of disability commencing on

and after January 1, 1958, and the provisions of said sections of the code in effect prior to such amendments shall continue to be applicable with respect to periods of disability commencing prior to January 1, 1958.

SEC. 14. Section 3254.5 as added by Section 9 of this act shall become operative on January 1, 1958.

CHAPTER 2108

An act to add Section 266 to the Revenue and Taxation Code, relating to the college exemption, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 266 is added to the Revenue and Taxation Code, to read:

College exemption

266. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1957 on property as to which the college exemption was available for such fiscal year shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously, and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected

No amount shall be canceled or refunded pursuant to this section unless the person or organization otherwise entitled to such cancellation or refund has first complied with the provisions of Section 32 of this code, relating to the loyalty declaration.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some colleges have inadvertently failed to file the required affidavit in support of the tax exemption of their property which is granted by the State Constitution, and as a result now are confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the State as expressed in the Constitution will be entirely fulfilled and the State as a whole will benefit.

CHAPTER 2109

An act to amend Sections 25526, 25527, 25530 and 25531 of, and to repeal Section 25370, of the Government Code, relating to the sale and leasing of county real property.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 25526 of the Government Code is amended to read:

Declaration of intention

Before ordering the sale or lease of any property the board of supervisors shall, in a regular open meeting, by a two-thirds vote of all its members, adopt a resolution, declaring its intention to sell the property, or a resolution declaring its intention to lease it, as the case may be. The resolution shall describe the property proposed to be sold, or leased, in such manner as to identify it and shall specify the minimum price, or rental, and the terms upon which it will be sold, or leased, and shall fix a time, not less than three weeks thereafter for a public meeting of the board of supervisors to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

Any commission shall, however, be paid only out of money received by the board from the sale or rental of the real property.

25531. Before accepting any written proposal, the board shall call for oral bids. CHAPTER 2113

An act to add Article 7 (commencing at Section 5080) to Chapter 1 of Division 5 of the Public Resources Code, relating to roadside rests for incidental use by the traveling public upon state highways.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Article 7 is added to Chapter 1 of Division 5 of the Public Resources Code, to read:

Article 7. Roadside Rests

Legislative intent

5080. Many persons traveling along the state highways make brief stops for the purpose of eating their meals and resting before resuming their travel. At the present time there are insufficient places where such stops can be made in safety and where free facilities are provided for eating lunches and disposing of the litter therefrom. Under the present law, such facilities could be provided, subject to the availability of funds, either by the Department of Public Works or the Division of Beaches and Parks of the Department of Natural Resources. In enacting this article it is not the intent of the Legislature to diminish any existing powers of either agency, but rather to provide specifically for the development of a system of roadside rest areas with appropriations made for the purpose of carrying out this article. In carrying out this article, the Division of Beaches and Parks and any other state or public agency may exercise all powers given to them under any law other than this article, except as expressly prohibited by this article, and shall cooperate in the exchange of pertinent information to the end that the program contemplated by this article can be coordinated with the locating, planning, and constructing of other public works.

It is the intent of the Legislature that the locating, constructing, equipping and maintaining of roadside rests be initiated on a state-wide experimental basis with minimum equipment and facilities, other equipment and facilities to be added to existing rests and included in new construction when and to the extent it is justified by experience.

"Roadside rest"

5081. As used in this article "roadside rest" means an area adjacent, or within reasonable proximity, to a state highway, suitable during daytime hours for the eating of lunches and for other brief stops taken by the traveling public along such highways.

Location, etc.

5082. Roadside rests shall be located, constructed, equipped, and maintained as the State Park Commission finds the public interest requires in the light of the condition of the site and the extent of the traffic. Roadside rests shall be located where, in the opinion of the Department of Public Works, Division of Highways, they can be located without undue hazards to traffic. All roadside rests on state highways shall be subject to the approval of the Department of Public Works, Division of Highways, as to location, fencing, and manner and extent of access to the rest areas from the highway and from adjacent private property.

The Division of Highways shall cooperate with the Division of Beaches and Parks to provide an adequate number of rest areas in connection with the National System of Interstate and Defense Highways, as provided in the Highway Revenue Act of 1956 in combination with the Federal Aid Highway Act of 1956.

Purpose

5083. The roadside rest program shall be designed and maintained to serve the daytime needs of the traveling public upon the State Highway System. Local and wider recreational needs should be met by the establishment of community, district, county, regional, or state parks, and are not intended to be provided for with funds appropriated for the purpose of carrying out this article.

Administration

5084. The provisions of this article shall be administered by the Division of Beaches and Parks under the supervision of the Director of Natural Resources in accordance with policies established by the State Park Commission.

Grants, etc

5085. The State Park Commission may accept grants on behalf of the State and may accept financial assistance for, or in aid of, roadside rests.

Property to be used

5086. The Division of Beaches and Parks may use any state park or portion thereof for the purpose of providing roadside rests and may use property of any other state or public agency or private person or of the Federal Government leased, or the temporary use of which has been granted, for the purpose of providing roadside rests.

Powers

5087. The Division of Beaches and Parks may exercise all or any portion of the powers it has with respect to roadside rests pursuant to Chapter 5 (commencing at Section 6500) of Division 7 of Title 1 of the Government Code. For the purposes of this article, "public agency" as used in said Chapter 5 includes any person, firm, association, organization, partnership, business trust, corporation, or company.

Advice of local planning commission

5088. Except as to roadside rests located in state park areas, the division shall not proceed with the establishment of any roadside rest without first seeking the advice and recommendation of the planning commission of the county in which the roadside rest is to be established.

Excess highway land

5089. Prior to the disposal by sale of excess fee-owned parcels acquired for state highway purposes, not needed for such purposes, the Department of Public Works shall notify the Division of Beaches and Parks, and the department and the division, pursuant to law, shall endeavor to arrange for the conveyance to or use by the division for roadside rest purposes of any property deemed suitable therefor by the State Park Commission; provided, that this requirement of notice shall not apply to the disposal of such excess parcels by exchange for other property, pursuant to the terms of right of way contracts making provision for such exchange, or to any other method of disposal not constituting a sale, nor shall such requirement apply to the disposal by sale or exchange of excess parcels located in urban areas or in other areas which the department and the division, by mutual agreement, consider unsuitable for development of roadside rests.

Maintenance

5090. The Division of Beaches and Parks shall be responsible for the maintenance of all roadside rests constructed and equipped by that agency. It may contract with the Department of Public Works, Division of Highways, or any public

or private agency for such maintenance work if the Director of Finance finds that maintenance by contract would be more economical. Subject to the approval of the Department of Public Works, Division of Highways, as to location of signs, the division may also erect and maintain signs indicating where roadside rests may be found, or may contract with the Department of Public Works, Division of Highways, for the erection and maintenance of the same. Roadside rest signs shall be of such shape and color as to be clearly distinguishable from highway directional signs.

Enforcement, etc., of rules

5091. State laws and rules and regulations of the State Park Commission shall be administered and enforced within roadside rests by all employees of the State authorized by the State Park Commission to do so and by all peace officers.

Litter

5092. It shall be unlawful for any person to throw or deposit any substance in a roadside rest other than in a receptacle provided for that purpose. It shall be unlawful for any person to deposit in the receptacles provided for refuse in a roadside rest any refuse or waste from homes, farms, or commercial establishments, or other material which does not arise out of the use of the roadside rest by a member of the traveling public. The violation of this section shall be a misdemeanor punishable as provided in Section 763 of the Vehicle Code, and all of the provisions of Chapter 2 (commencing at Section 735) of Division 12 of the Vehicle Code shall apply to an offense committed under this section the same as if such offense were made an offense by the Vehicle Code.

Retirement allowances, heretofore effective and based on such final compensation, are hereby validated and confirmed. "Final compensation"

The board may specify a different final compensation with respect to benefits based on part-time service rendered prior to July 1, 1956, for which credit was given under this system under board rules in effect prior to such date.

If within 90 days after said effective date, said person deposits in the Retirement Annuity Fund, an amount equal to the contributions which he would have been required to make to that fund during service rendered after June 30, 1944, if he had not then been a member of the local retirement system, less the portion of the annuity which would have been payable prior to said date, and an amount equal to which was not paid to the local district under Section 14565, with interest on the balance of the contributions remaining after deducting said portion as it would have been paid from month to month, from the first of the year next following the date on which such contribution would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Fund contributions, the annuity shall be calculated with respect to all such service on the basis of the effective date of retirement of such person. If deposit of such contributions and interest is not made, the annuity shall be calculated in said manner, but including only such service rendered prior to July 1, 1944, and the minimum retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such deposit.

Annuity contributions made on account of such service, plus interest and less the annuity paid to him on account of the contributions, shall be paid to him.

In effect immediately

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 28 of the act, as amended, cited in the title hereof is amended to read:

Sec. 28. The provisions of Sections 1 to 27, inclusive, of this act shall take effect on September 2, 1950, to the end that they shall be operative for the first time with respect to assessments made as of the first Monday in March, 1960, and taxes levied and funds allocated on the basis thereof. Numerous unsolved problems of such magnitude have arisen as to the proposed scope and application of Chapter 1466 of the Statutes of 1949, that if such law is permitted to become operative on July 1, 1957, as currently contemplated, even with subsequent repeal, there would be great danger of a serious dislocation in the local tax structure. In order to avoid this situation, and to permit the uninterrupted continuation of the performance of necessary public services supported by revenue raised and distributed locally, it is necessary for the immediate preservation of the public peace, health and safety that this measure be enacted to take effect at once.

CHAPTER 2130

An act to amend Section 4006.5 of and to add Section 4006.6 to the Public Resources Code, relating to revegetation and reforestation of burned, deforested, and denuded forest and watershed lands, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 4006.5 of the Public Resources Code is amended to read:

Preservation of forests and vegetative cover Surveys and studies

4006.5. It is in the public interest and to the benefit of the State that forest and vegetative cover be maintained and preserved on forest and watershed lands to conserve water and soil and to prevent destructive floods.

The State Forester, with the approval of the Director of Natural Resources and the Director of Finance, may enter into

contracts with any public agency, state or federal, or with any municipal corporation or any person, firm or corporation to establish and preserve such forest and vegetative cover, and he may conduct surveys and studies, formulate plans and perform all acts incidental to such functions including any work necessary to accomplish such purposes.

The State Forester and his agents may enter upon, perform required work upon and inspect lands for the purposes herein.

In approving such contracts and in the exercise of the emergency powers provided by this section, the Director of Natural Resources shall be guided by, but not be limited to, the following principles:

(a) That the natural vegetative cover has been denuded to the extent that precipitation may create floods and serious soil depletion and erosion.

(b) That the denuded area is of a size, and the topography and soil characteristics of such a nature, that soil loss and floods will have a significant effect upon watershed values and the public welfare.

(c) That vegetative cover will not be restored by natural means in time to effectively prevent undue erosion and flood runoff, or that the natural succession of vegetation may be detrimental to the public welfare.

SEC. 2. Section 4006 6 is added to said code, to read:

Action on threatened disaster

4006.6. Whenever it is shown that impaired, burned, and denuded watershed lands may impose an imminent threat of disaster to the public health, safety and welfare from flood and erosion, the Director of Natural Resources may order the execution of surveys, work and contracts to fulfill the purposes of Section 4006 5, and may request the assistance of other state, local and federal government agencies therefor.

The Director of Natural Resources or his delegated representatives shall not be liable to civil action for trespass committed in performing such work.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Forest fires have impaired, burned, and denuded large areas of watershed lands in this State. There is, as a result, an imminent threat of disaster to the public health, safety, and welfare from floods and erosion. To avert this disaster it is necessary that this act take effect immediately.

One or more deficiency determinations may be made of the amount of tax due for one or for more than one month. When a business is discontinued a determination may be made at any time thereafter, within the periods specified in Section 9881, as to liability arising out of that business, irrespective of whether the determination is issued prior to the due date of the liability as otherwise specified in this part.

SEC. 3. Section 9881 of said code is amended to read:

Period of limitation

9881. Except in the case of fraud, intent to evade this part or authorized rules and regulations, failure to make a return or claim for additional amount pursuant to Section 9927, every notice of a deficiency determination shall be mailed to the operator within three years after the date the return was due or within three years after the return of the operator is filed, whichever period expires the later. If an operator fails to make a return, or the board fails to make a claim for additional amount pursuant to Section 9927, the notice of determination shall be mailed within eight years after the date the return was due.

SEC. 5. Section 9901 of said code is amended to read:

Board determinations, penalty

9901. If any operator fails, neglects, or refuses to file a return within the time required, the board shall make an estimate of the amount of the taxable gross receipts of the operator for the month or months for which the operator failed to make a return. Upon the basis of this estimate the board shall compute and determine the tax payable by the operator, adding to the amount of tax so determined a penalty equal to 10 percent thereof. One or more determinations may be made of the amount of tax due for one or for more than one month. When a business is discontinued a determination may be made at any time thereafter, within the periods specified in Section 9881, as to liability arising out of that business, irrespective of whether the determination is issued prior to the due date of the liability as otherwise specified in this part.

SEC. 6. Section 9926 of said code is amended to read:

Petition for redetermination

9926. Any operator against whom a determination is made by the board under Article 2 or 3 of this chapter may petition for a redetermination within 30 days after the date of mailing the notice thereof to the operator. If a petition for redetermination is filed within the 30-day period, the board shall reconsider the determination and, if the operator has so requested in his petition, shall grant the operator an oral hearing and shall give him 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary.

Change in determination

The board may decrease or increase the amount of the determination before it becomes final, but the amount may be increased only if a claim for the increase is asserted by the board at or before the hearing.

SEC. 8. Section 9928 of said code is amended to read:

The board may sell the security at public sale if it becomes necessary so to do in order to recover any amount due under this part. Notice of the sale may be served upon the person who deposited the security personally or by

mail in the manner prescribed for service of notice of a deficiency determination. Security in the form of a bearer bond issued by the United States or the State of California which has a prevailing market price may, however, be sold by the board at private sale at a price not lower than the prevailing market price thereof. Upon any sale, any surplus above the amount due shall be returned to the person who deposited the security.

If the State Board of Control approves, the excess shall thereupon be credited on any taxes then due from the operator under this part, and the balance shall be refunded to the operator, or his successors, administrators, executors, or assigns, or to the person from whom it was collected.

In the case, however, of a determination by the board that an amount not exceeding twenty-five dollars ($25) was not required to be paid under this part, the board, without obtaining

the approval of the State Board of Control, may credit such amount on any amounts then due from the operator under this part, and the balance may be refunded to the operator, or his successors, administrators, executors, or assigns, or to the person from whom it was collected.

No credit shall be approved by the board after the expiration of such period unless a claim for credit is filed with the board within such period, or unless the credit relates to a period for which a waiver is given pursuant to Section 9882.

SEC. 14. Section 10277 of said code is amended to read:

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 7712 of the Education Code is amended to read:

Unencumbered or unexpended funds

7712. Funds apportioned to a school district under Section 7713 of this chapter for a project, remaining unencumbered or unexpended one year from the date the application of the district for such apportionment was approved, shall not be encumbered or expended except as provided in this section.

The governing board of the district shall notify the board of its desire to encumber or expend such funds. The board shall immediately request the Department of Education to, and that department shall, review the project for which apportionment was made. If the Department of Education finds that the conditions existing at the time it approved the project for which the apportionment was made have so changed that the needs of the district are less than originally determined, it shall notify the board of its findings and of the respects in which the project should accordingly be modified. The board shall review the project and revise the project in such manner as it deems necessary subject to the provisions of Section 7724, and make such changes in the purposes for which the apportionment may be expended as it deems necessary. The cost of the project as revised by the board shall be computed in the manner prescribed by Section 7713 and the excess, if any, of the amount theretofore apportioned to the district over the computed cost of the revised project shall be deducted by the board from the apportionment made to the district. The board shall give notice of its action, in writing, to the State Controller, the governing board of the district, and the county auditor and the county treasurer having jurisdiction over the state school building fund of the district. If the amount of such excess, or any portion thereof, has not been paid to the district, such excess, or portion thereof, shall be made available for apportionment to other districts. If such excess, or portion thereof, has been paid to the district, it shall not be encumbered or expended by the district and shall become due and payable to the State of California. The governing board of the district and the county treasurer shall, at the time of the next county settlement following receipt of such notice from the board, pay such amount to the State Treasurer, out of the funds, and in the manner specified in Section 7745 of this code. Such payment shall, on order of the

State Controller, be deposited in the State School Building Aid Fund in the State Treasury.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

This section does not authorize the board to increase any apportionment made to a school district.

SEC. 2. Section 7712.1 is added to said code, to read:

Funds allocated to a project

7712.1. Funds apportioned to a school district under Section 7713.5 of this chapter for a project, together with all available funds of the district applied to such project, shall be expended only for the purposes of this project.

The governing board of the district shall notify the board upon completion of the project and acceptance by the governing board. The State Controller, pursuant to Section 7745, shall determine the amount of money expended for the project. If the maximum amount that could have been allowed pursuant to Section 7713.5 for the project is greater than the amount expended for the project, the difference shall become due and payable to the State of California. The governing board of the district and the county treasurer shall pay such amount to the State Treasurer out of the funds and in the manner specified in Section 7745 of this code. Such payment shall on order of the State Controller be deposited in the State School Building Aid Fund in the State Treasury.

It shall be the duty of such governing body and the county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collections on behalf of the State.

Any school district which desires an apportionment for (a) the purchase of equipment, (b) the planning and construction of school buildings, or (c) the planning and construction of additions to school buildings for grade levels maintained by it, shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe, and may request that its application be considered under this section. If the board and the Department of Education approve the request, the application shall be considered under this section.

Construction projects

Each construction project for which a district applies for an apportionment shall be applied for on a separate application and shall be considered separately by the board, except that a single application, under this section, may contain a request for an apportionment for construction, site development, and equipment when all apply to a single project. If a district applies for more than one construction project, at the same time or at different times, the priority points of the district shall be recalculated after the approval of each separate construction project and before a subsequent construction project is approved.

Each copy of the application shall be accompanied by a preliminary floor plan in sufficient detail as to clearly indicate the dimensions of each room and number of square feet contained therein. All measurements shall be taken from the outside of exterior walls to the center line of interior walls. Such plans shall be prepared by an architect or a structural engineer and shall be certified as a true and correct copy of the proposed construction project plan. A school district shall prepare its application and plans after consultation with the Department of Education, and may at any time amend or supplement its application.

Before the board approves an application for a construction project, it shall, after a consultation with the Division of Architecture, establish standards for all new construction included therein. After such consultation, the board shall establish current construction cost standards for such construction. Such standards shall not exceed typical comparable new construction by school districts in the same area not receiving or eligible for apportionment under this chapter, or if there has been no new construction by school districts in the area, the standards shall not exceed the reasonable current cost of similar construction in the area The board shall determine such typical current costs or such reasonable current costs. In applying such standards, the board shall take into account the size and type of the construction proposed and may make such deviations as in their judgment are justified. All such standards shall be reviewed by the board quarterly and adjustments made in accordance with current cost standards. Such standards shall consist of square-foot costs for each type of construction which represents a differential in cost.

Equipment projects

Before the board approves an application for an equipment project or an application for a construction project including equipment, it shall, after a consultation with the Department of Education, establish current equipment cost standards. Such standards shall not exceed typical comparable equipment purchased by school districts not receiving or eligible for an apportionment under this chapter. Such standards shall consist of equipment cost for each type of classroom or pupil station which represents a differential in cost. The standards shall be reviewed by the board quarterly and adjustments made in accordance with current cost standards. In applying such standards the board may make such deviations as in their judgment are justified.

Site development projects, etc

Before the board approves an application for a site development project, or a construction project, including site development, it shall, after consultation with the Department of Education, determine development for each type of work required and for each different type of teaching station which represents a differential of cost.

Immediately upon receipt of an application in the prescribed form accompanied by the required floor plan, a copy thereof shall be transmitted by the board to the director and to the

Director of Finance. The director shall as promptly as possible review the application and the accompanying plan. If he finds the plan unacceptable, the district shall be notified and be required to make such changes as are found necessary. If he finds the plans sufficient and satisfactory, he shall certify his approval to such plans and to the application and refer it, together with his report and recommendation, to the Director of Finance who shall review the documents. If the Director of Finance finds the said documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or Department of Education, he shall refer them to the director who shall take such action as may be necessary. If the Director of Finance finds the said documents to be in proper form and otherwise sufficient he shall refer them to the board. The board shall, subject to the provisions of this chapter, approve, in whole or in part, or reject such application referred to it by the Director of Finance.

Maximum amounts Construction

As to any construction application approved by the board, in whole or in part, under this section, the maximum amount that may be apportioned shall be the sum of the products of the number of square feet in the construction project of each type or class of construction as may be determined by the board, and that has been approved by the board, and the cost per square foot for each established by the board in its standards adopted pursuant to this section. The total number of square feet in the application and plan shall not, with the area of other adequate school construction in the applicant district, exceed the areas prescribed in Section 7717 of this chapter.

Equipment

As to any equipment application approved by the board, in whole or in part, under this section the maximum amount that may be apportioned shall be the sum of the products of the number of each type of classroom or pupil station and the cost for each established by the board in its standards adopted pursuant to this section.

Site development

As to any site development application approved by the board, in whole or in part, under this section, the maximum amount that may be apportioned shall be the amount approved by the board.

District's financial ability

The Director of Finance shall investigate the school district's financial ability to meet all or a portion of the amount determined to be the maximum amount that may be apportioned, shall estimate the amount which the school district can contribute, and shall submit his report thereon to the board.

District's contribution

The board shall determine the amount the school district shall contribute but this amount shall not be less than the amount the district is required to contribute under Section 7719 of this chapter from the sale of bonds; provided, that the board may not, without consent of the district, increase the amount of any district contribution under the terms of the apportionment, in the absence of mistake arising from

any source, or misrepresentation, concealment, or omission, on the part of the district intentional or otherwise.

The amount that the district shall contribute, as determined by the board, shall be subtracted from the maximum amount that may be apportioned and the remaining amount shall be apportioned to the district from the State School Building Aid Fund; provided, that the board may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as the board may prescribe by regulations.

When conditional apportionment becomes final

This apportionment shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 7719 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of the apportionment of the board and if it does not become a final apportionment by that date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

No application shall be approved pursuant to this section after the ninety-first day after final adjournment of the 1959 Regular Session.

SEC. 4. Section 7713 6 is added to said code, to read:

Contracts for construction of project

7713 6. Whenever an apportionment of the board under Section 7713.5 becomes final, the governing board of a school district may award a contract for the construction of the project. The contract awarded shall call for at least the number of square feet of construction that was shown in the plan upon which the apportionment was computed. The contract may call for the construction of building area in addition to the square feet in the plan upon which the apportionment was based; provided, that the final plans and specifications for construction had been approved by the Department of Education and the Division of Architecture.

The application, plans, specifications, bids and contract shall be prepared and submitted in such manner that the Department of Education and the State Allocation Board may be able to determine what portion or portions of the apportionment are to be expended for the approved items within the application and that expenditures are made in accordance with the approved application.

SEC. 5. Section 7745 of said code is amended to read:

Unauthorized expenditures

7745. Whenever the State Controller determines that any money apportioned to a school district has been expended by such school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by Section 7713 of this chapter to be paid therefrom, or that the school district has constructed less area than was represented in the plan for which an apportionment was made under

Section 7713.5 of this chapter, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury, at the time of the next county settlement following receipt of such notice, the amount of such unauthorized expenditures, or the amount of such excess apportionment, or the amount of the apportionment made under Section 7713.5 to construct the area not constructed by the district, as the case may be. Upon receipt of such notice, such governing board shall, at the time specified herein, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

It shall be the duty of such governing body and the county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

CHAPTER 2146

An act to add Chapter 4 (commencing at Section 1900) to Division 4 of the Elections Code, relating to initiatives and measures submitted to the voters of districts.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 is added to Division 4 of the Elections Code, to read:

CHAPTER 4. DISTRICT ELECTIONS

Article 1. Initiative

Exclusions

1900. In addition to any other method provided by law ordinances may be enacted by any district pursuant to this article, except that the provisions of this article shall not apply to irrigation districts, to a district formed under a law which does not provide a procedure for elections, to a district formed under a law which does not provide for action by ordinance, to a district governed by an election procedure which permits voters, in electing the district's directors or trustees, to cast more than one vote per voter, or to a district in which the directors are empowered to cast more than one vote per director when acting on any matter.

Initiative petitions

1901. Any proposed ordinance may be submitted to the governing board of the district by an initiative petition filed with the clerk of the district board signed by not less than the number of voters specified in this article. The signatures to the petition need not all be appended to one paper. Each signer shall add to his signature his place of residence, giving street and number. If no street and number exist, then a designation of the place of residence shall be given which will enable the location to be readily ascertained.

Each separate paper shall have attached an affidavit made by a voter of the district. The affidavit shall state that the affiant circulated that particular paper and saw written the signatures appended thereto; and that according to the best information and belief of the affiant:

(a) Each is the genuine signature of the person whose name it purports to be.

(b) The signer is a voter of the district.

Examination of signatures

1902. Within 10 days from the date of filing the petition, the clerk shall examine and from the records of registration ascertain whether or not the petition is signed by the requisite number of voters. He shall attach to the petition his certificate showing the result of his examination. If the clerk's certificate shows the petition to be insufficient, a supplemental petition in form a duplicate of the original petition, bearing additional

signatures, may be filed within 10 days of the date of the certificate of insufficiency. The clerk shall, within 10 days after the supplemental petition is filed, examine it, and if his certificate shows that all the signatures to the petition, are still insufficient, no action shall be taken thereon. The petition shall remain on file as a public record; and the failure to secure sufficient signatures shall not prejudice the filing later of an entirely new petition to the same effect. If the petition together with supplementary petitions, if any, is found to be sufficient, the clerk shall submit it to the governing board of the district at the next regular meeting.

Submission at general election

1903. If the initiative petition is signed by voters not less in number than 10 percent of the registered voters in the district, and the ordinance petitioned for is not required to be, or for any reason is not, submitted to the voters at a special election, and is not passed without change by the board, then the ordinance, without alteration, shall be submitted by the board to the voters at the next general election.

Notice

1904. The board shall give notice of an election held pursuant to this article, by publication in the same manner as prescribed for the publication of the list, or portions of the list, designating polling places, as in the case of a general county election.

Printing and mailing

1905. Whenever any ordinance is required by this article to be submitted to the voters of a district at any election, the clerk shall cause the ordinance to be printed. He shall mail a printed copy thereof, enclosed in an envelope with a sample ballot, to each voter, at least 10 days prior to the election.

Ballot form

1906. The ballots used when voting upon the proposed ordinances shall have printed thereon the words "Shall the ordinance (stating the nature thereof) be adopted?" Opposite the statement of the ordinance to be voted on, and to its right, the words "Yes" and "No" shall be printed on separate lines, with voting squares. If a voter stamps a cross (+) in the voting square after the printed word "Yes," his vote shall be counted in favor of the adoption of the ordinance. If he stamps a cross (+) in the voting square after the printed word "No," his vote shall be counted against its adoption.

Arguments

1907. The persons filing an initiative petition pursuant to this article may file therewith a written argument in favor of the ordinance; the board may submit an argument against the ordinance. Neither argument shall exceed 300 words in length, and both arguments shall be printed upon the sample ballot used for the election.

Ordinances Number proposed

1908. Any number of proposed ordinances may be voted upon at the same election.

Adoption

1909. If a majority of the voters voting on a proposed ordinance vote in its favor, the ordinance shall become a valid and binding ordinance of the district. The ordinance shall be considered as adopted upon the date the vote is declared by the board, and shall go into effect 10 days thereafter.

1910. If the provisions of two or more ordinances adopted at the same election conflict, the ordinance receiving the highest number of affirmative votes shall control. Conflict

1911. The enacting clause of an ordinance submitted to the voters of a district shall be substantially in the following form: Enacting clause

"The people of the _____ District do ordain as follows:".

1912. No ordinance proposed by initiative petition and thereafter adopted either by the board without submission to the voters or adopted by the voters, shall be repealed or amended except by a vote of the people, unless provision is otherwise made in the original ordinance itself. In all other respects, an ordinance proposed by initiative petition and adopted shall have the same force and effect as any ordinance adopted by the board. Repeal

Methods of forming districts

Increase and decrease of maximum tax Election

5784.13. Any maximum rate of tax for any district may be increased and, having been increased, may be decreased by an amount equal to or less than the amount of such increase, by a majority vote of the qualified voters of the district at an election which may be called by the governing body of the district of its own motion and shall be called within 90 days after the filing with the board of directors of a petition signed by not less than 10 percent of the qualified voters of the district, requesting that an election be called, unless the petitioners request that the election be consolidated with the annual election for members of the board of directors.

Any decrease in an increased maximum tax rate pursuant to this section shall not be in an amount which will reduce the tax rate for the district below the maximum specified in Section 5784.5. The board of directors shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the qualified voters provides for a specified or unspecified period of time. Each voter shall stamp or print a cross in the voting square after the answer he desires to give.

A special tax shall be levied and collected for the payment of interest on bonds and for the retirement of bonds issued pursuant to this chapter and said special tax shall be in addition to all other taxes levied for district purposes. All money derived from such tax shall be kept by the county treasurer in a special bond service fund and shall be paid by the treasurer for the purchase of any matured bond or interest coupon upon presentation thereof

CHAPTER 2166

An act to amend Sections 6827, 6829.1, 6830, 6834, 6871.4, and 6873.2 of the Public Resources Code, relating to oil, gas and mineral leases of state lands.

[Approved by Governor July 8, 1957. Filed with Secretary of State July 10, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 6827 of the Public Resources Code is amended to read:

Leases Bids

6827. Leases for the extraction and removal of oil and gas deposits may be made by the commission to the highest qualified bidder, or joint bidders, as provided in this chapter. Such a lease shall include all oil and gas deposits in the leased land and be for a term of 20 years and for so long thereafter as gas or oil is produced in paying quantities from the leased land, or lessee shall be diligently conducting producing, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land. Any lease heretofore issued under this chapter for a term of 20 years, or any

renewal or extension thereof, may at any time or times prior to its expiration be extended upon such terms and conditions and for such period of time as the commission deems for the best interests of the State or as the Legislature may provide; provided further, that upon the lessee's timely application therefor the commission may issue a new lease in exchange for any lease issued for a term of 20 years, or any renewal or extension thereof; such new lease shall be issued at the same royalty and upon the same terms and conditions as the lease for which it is exchanged, unless the commission and the lessee shall otherwise agree, except that the term of such exchange lease shall be for a term of five years and for so long thereafter as oil or gas is produced in paying quantities, or lessee shall be conducting producing, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land.

Royalties

When state lands, including tide and submerged lands, are offered for lease by the commission, the commission shall specify a sliding scale royalty on oil commencing at not less than $16\frac{2}{3}$ percent up to a maximum percentage specified in the invitation to bid to be paid on the average production of oil per well per day under such lease, and a royalty of not less than $16\frac{2}{3}$ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands. Such royalties shall be paid in kind or as a percentage of the current market price at the well of, and of any premium or bonus paid on, the production removed or sold from the leased land, subject to an allowance for oil treatment and dehydration of not to exceed five cents ($0.05) per barrel for royalty oil, and an annual rental payable in advance of not less than one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying all other provisions of the lease, or, in the alternative, when specified in the invitation to bid, undertakes to pay the highest rate of royalty in addition to satisfying all other provisions of the lease.

Cessation of production

If, at any time or from time to time, before or after the expiration of the primary term of such lease, the leased lands cease to produce oil or gas, the lease shall, nevertheless, continue in full force and effect if within six months after the cessation of production, or such longer period of time as the commission may authorize, lessee shall commence and thereafter prosecute with reasonable diligence drilling, deepening, repairing, redrilling or other operations which shall result in the restoration of production of oil or gas from the leased lands.

SEC. 2. Section 6829.1 of said code is amended to read:

6829.1. Every oil and gas lease, including leases of tide and submerged lands, executed under this chapter, shall specify a period of not to exceed three (3) years, as specified by the commission in the invitation for bids, subject to extension by the commission as provided in this chapter, as the drilling term of the lease within which the lessee may commence operations for the drilling of a well for oil or gas, and, providing that, if lessee fails to commence such operations and to thereafter diligently prosecute them, the lease shall terminate. Terms. Period to commence operations

SEC. 3. Section 6830 of said code is amended to read:

6830. All oil and gas leases issued by the commission for lands under its jurisdiction as set forth in Chapters 3 and 4 of Part 1 and in Chapter 3 of Part 2 of Division 6 of this code shall contain a reservation to the commission of the right to determine the spacing of wells and the rate of drilling and rate of production of such wells so as to prevent the waste of oil and gas and promote the maximum economic recovery of oil and gas from, and the conservation of reservoir energy in, each zone or separate underground source of supply of oil or gas covered in whole or in part by leases issued under this chapter. Spacing

SEC. 4. Section 6834 of said code is amended to read:

6834. Whenever the commission determines that lands shall be leased for oil and gas as provided in this chapter and when the form of lease therefor has been prepared by the commission, the commission shall give notice of intention to lease such lands. The notice shall be published in a newspaper of general circulation in the county in which the lands or the greater portion thereof are situated and shall state the time (which shall not be less than 14 days after the last date of publication of the notice) and place for receiving and opening bids, a description of the lands, either as a tract or by parcels, and that the form of lease for the purpose of bidding may be procured at the designated office of the commission. Notice of intention

If the notice is published in a weekly newspaper, it must appear therein on at least two different days of publication and if in a newspaper published oftener, there must be at least five days from the first to the last day of publication, both days included.

SEC. 5. Section 6871.4 of said code is amended to read:

6871.4. The commission may divide the lands within the area proposed to be leased into parcels of convenient size and shape and shall prepare a form of lease or leases therefor embracing not to exceed 5,760 acres in any one lease. Parcels

SEC. 6. Section 6873.2 of said code is amended to read:

6873.2. Before offering any tide or submerged land area for an oil and gas lease, the commission shall publish notice thereof, and any affected city or county may, within thirty (30) days after the publication of such notice, request in writing to the commission that a hearing be held with respect Hearing

thereto. Upon receipt of such request, the commission shall hold such a hearing and give not less than ten (10) days' written notice thereof to the city or county, or both such city and county, making such request, and to the Department of Natural Resources, and shall publish such notice. The commission in its discretion and irrespective of any such requests may hold such hearings as it shall determine. Published notices shall be given in the manner prescribed in Section 6834 of this chapter.

Determination Factors for consideration

In not less than thirty (30) days after such hearing the commission shall determine whether or not to offer the land for lease, as provided under Sections 6871.3, 6872 and 6872.1. In such determination the commission shall consider whether the issuance of a lease as to all or a part of such land would result in an impairment or interference with the developed shore line recreational or residential areas adjacent to the proposed leased acreage, or whether to offer such land for lease as to all or a part thereof and include in the offer for lease such reasonable rules and regulations which, in the opinion of the commission, are necessary for the exploration, development, and operation of said lease in a manner which will not impair or interfere with said developed shore line recreational or residential areas; provided, however, that no tide or submerged lands shall be offered for lease under any conditions, rules, or regulations which will result in a discrimination between bidders as prohibited by Section 6874.

The commission in determining whether the issuance of such lease or leases would result in such impairment or interference with the developed shore line, recreational or residential areas adjacent to the proposed leased acreage or in determining such rules and regulations as shall be necessary in connection therewith shall at said hearing receive evidence upon and consider whether such proposed lease or leases would

(a) Be detrimental to the health, safety, comfort, convenience, or welfare of persons residing in, owning real property, or working in the neighborhood of such areas;

(b) Interfere with the developed shore line, residential or recreational areas to an extent that would render such areas unfit for recreational or residential uses or unfit for park purposes;

(c) Destroy, impair, or interfere with the esthetic and scenic value of such recreational, residential or park areas;

(d) Create any fire hazard or hazards, or smoke, smog or dust nuisance, or pollution of waters surrounding or adjoining said areas.

Authority to hold the hearings provided in this section may be delegated by the commission to its officers or employees.

No such money may be used:

(1) For constructing or improving works located outside the district boundaries which exist on the date this Chapter 6.5 is enacted.

(2) For acquiring any property owned by a public utility.

(3) For constructing or improving works for generating electricity.

(4) For constructing or improving works used, or to be used, in whole or in part either for the receipt, transmission and delivery of electric energy for any supplier of electric power or for the exchange of electric power with any person or entity. This provision shall not prevent the district from using such money for the purposes set forth in the initial sentence of this section.

Term

Such bonds shall not be issued for a term in excess of 20 years from the date of their sale; provided, that this sentence shall not limit the power of a district to refund such bonds.

Refunding

13092. A district may also refund from time to time, whether at or prior to maturity, any outstanding indebtedness evidenced by its bonds, and may issue, and sell or exchange, bonds so to refund such indebtedness. Refunding bonds which are to be sold may be issued and sold at such time in advance of the time at which the bonds to be redeemed or paid out of the proceeds of such refunding bonds are to be so redeemed or paid as the board may determine.

Aggregate amount

13093. Whenever a district exercises the power to borrow money pursuant to this chapter the board may authorize the issuance of bonds in any amount which, when added to the aggregate amount of bonds of the district issued under this chapter and outstanding at the time of the acceptance of a proposal for the purchase of the bonds so authorized and payable out of the revenues out of which the bonds so au-

thorized are to be payable shall not exceed the amount of the earned surplus derived from the operation of the electric system to which those revenues pertain, as of the end of the last fiscal year which ended not less than four months prior to the making of the finding and determination provided for in Section 13161 The aggregate amount of bonds issued under this chapter shall not exceed in face value the sum of ten million dollars ($10,000,000) in any one calendar year.

Outstanding bonds

13095. Any bond for the payment and discharge of which, upon maturity or upon redemption prior to maturity, provision has been made through the setting apart in a reserve fund or special trust account created pursuant to this chapter to insure the payment thereof, of moneys sufficient for that purpose, or through the irrevocable segregation for that purpose, in some sinking fund or other fund or trust account, of moneys sufficient therefor, shall be deemed to be no longer outstanding within the meaning of any provision of this chapter.

Election

13107. The board at any time may adopt a resolution providing for submission to the voters of the district of the proposition of assenting to any proposed action of the board in any case where such assent is required or permitted by the terms of this chapter, or in any case where the board may deem such submission to be desirable. Such resolution may provide for such submission at any specified regular district election, or at any special election. Such resolution and such election shall, except to the extent otherwise provided in this chapter,

Other indebtedness

The board may provide for the issuance and distribution in such form as the board may determine of official statements respecting proposed issues of bonds and the properties, operations and finances of the works on account of which such bonds are to be issued, for the information of prospective purchasers of such bonds; and, in any case where any proposition is to be submitted to the voters for their assent, whether by referendum or pursuant to any provision of this chapter, for the issuance, distribution, dissemination and publication of factual statements respecting such proposed issues of bonds, and such properties, operations and finances, for the information of such voters.

Contracts for printing, etc

13151.17. The board may provide for the making of contracts, or the placing of orders, for the engraving or printing of any bonds, whether definitive or temporary, or of interim receipts, authorized by this chapter, or for any printing incident to the offering or issuance of any such bonds, without advertising for bids, in any case where, because of limitations of time, or requirements as to quality of work, or as to security in the control or custody of plates, or any similar cause, the board may deem it to be in the public interest so to do, anything in this division to the contrary notwithstanding, but in so doing the board shall, if practicable, obtain or cause to be obtained competitive bids, formal or informal, from bidders who can perform work of the required quality within the required time, and, in the case of engraving, who are of proper responsibility and who have adequate facilities for the control and safekeeping of the engraved plates.

Requirements of bond issue

13152. Each issue of bonds issued pursuant to this chapter shall conform to the following requirements:

(1) Such bonds shall be serial bonds or sinking fund bonds, or a combination of serial and sinking fund bonds.

(2) Provision shall be made for the retirement of such bonds through annual payments on principal, and such payments shall begin not more than 10 years, and end not more than 20 years, after the date of such bonds.

Article 10. Validity

Relevant facts necessary to issue

13161. Prior to the issue of any bonds to be issued pursuant to this chapter, the board, after satisfying itself respecting the relevant facts, shall, by resolution, find and determine—

(1) The amount of earned surplus derived from the operation of the electric system of the district to which the revenues out of which such bonds are to be payable pertain, as of the end of the last fiscal year which ended not less than four months prior to the making of such finding and determination, and that the ascertainment of such earned surplus has been in accordance with sound accounting practice; provided, however, that such finding and determination need not be made in the case of the authorization of refunding bonds, or in any

case where the voters have assented to the issuance of bonds in excess of the limitation specified in this chapter.

(2) That the amount of bonds of the district payable out of the revenues out of which such issue of bonds is to be payable and outstanding at the time of the adoption of such resolution does not exceed an amount stated in said finding and determination; subject, however, to the same proviso as in the next preceding subdivision (1).

(3) That the resolution or resolutions authorizing such issue of bonds in all respects conforms or conform with the provisions of this chapter.

(4) That the indebtedness to be evidenced by such issue of bonds, together with all other indebtedness of the district, pertaining to the electric system for or on account of which such bonds are to be issued, is within every debt or other limit prescribed by the Constitution and statutes of the State of California.

(5) That upon the issuance of such bonds any and all acts, conditions and things required to exist, to happen and to be performed, precedent to and in the issuance thereof, will exist, will have happened and will have been performed, in due time, form and manner, as required by the Constitution and statutes of the State of California.

Other findings

13162. The board may also, by resolution, find and determine any other facts relevant to the legality of the issue.

Recital of conditions

13163. The board, by resolution adopted in connection with any issue of bonds pursuant to this chapter, may direct that there shall be included in each of the bonds of that issue a certification and recital that any and all acts, conditions and things required to exist, to happen and to be performed, precedent to and in the incurring of the indebtedness evidenced by that bond, and in the issuing of said bond, exist, have happened and have been performed in due time, form and manner, as required by the Constitution and statutes of the State of California, and that said bond, together with all other indebtedness of the district pertaining to the electric system for or on account of which the indebtedness evidenced by said bond was incurred, is within every debt and other limit prescribed by the Constitution and statutes of the State of California.

Board determinations as evidence

13164. From and after the issuance of any issue of bonds the findings and determinations of the board respecting that issue made pursuant to this article shall be conclusive evidence of the existence of the facts so found and determined in any action or proceeding in any court in which the validity of such bonds is at issue, and no bona fide purchaser of any such bond containing the certification and recital permitted by this article shall be required to see to the existence of any fact, or to the performance of any condition, or the taking of any proceeding, required prior to such issue, or to the application of the purchase price paid for such bonds.

Issue effective

13165. Bonds shall be deemed to be issued, within the meaning of this article whenever the definitive bonds, or any temporary bonds or interim receipts exchangeable therefor, have been delivered to the purchasers thereof, and the purchase price thereof received, or in the case of bonds to be refunded through exchange, whenever such exchange has been made.

Validity

13166. The validity of bonds reciting that they have been issued pursuant to this chapter shall not be affected by any provision or limitation contained in any other section or sections of this division. All bonds issued under this chapter shall be incontestable from and after the time of payment to the district of the purchase price thereof.

Article 11. Proceeds

Interest

13171. All sums received as accrued interest on the sale of any issue of bonds issued pursuant to this chapter shall be applied to the payment of interest on or principal of bonds of that issue.

Principal

13172. All sums received as principal and premiums on the sale of any issue of bonds shall be applied to the purposes for which such bonds were issued. The board may provide in the resolution authorizing the issue of any bonds under this chapter that any portion of the proceeds of sale of the bonds may be applied to payment of interest during construction for a period of not to exceed three years from and after the date of such bonds.

Separate funds

13173. The board may from time to time establish and maintain a separate fund or funds in the district treasury for the purpose of insuring the application of such proceeds received as principal on the sale of any issue of bonds to the purposes for which the same were issued.

Limited purposes

13174. Money set aside and placed in any such separate fund shall remain therein until from time to time expended for the purposes for which such bonds were issued, including the reimbursement of other funds of the district for expenditures therefrom for purposes for which such bonds were issued, made after such issuance was authorized, and shall not be used for any other purpose whatsoever, except for temporary investment thereof as provided in this division; provided, however, that money may be paid or transferred from any such separate fund, in furtherance of the purpose of its establishment, to any other such separate fund established for a like purpose in connection with the same issue of bonds.

Withdrawal

13175. Money in any such separate fund shall be drawn therefrom only upon demands authenticated by the signature of the accountant of the district.

Action if bond purpose found impracticable

13176. If the board shall determine by resolution that the expenditure of the whole or any portion of the said principal sum of any issue of bonds for the purpose for which such bonds were issued is impracticable or unwise, the board may—

(1) Apply such money or any part thereof to the purchase of bonds of that issue, or to the payment of any such bonds, at maturity or on redemption, or to the payment of interest thereon or of premiums due on the redemption thereof; or

(2) Apply such money or any part thereof to any new purpose which is within the purposes for which bonds might be issued under the terms of this chapter; provided, however, that before applying any of such money to such new purpose the board shall adopt a resolution specifying such new purpose, the amount of such money to be applied thereto, and authorizing such application, which resolution shall be subject to the same procedures, and take final effect only in the same manner, as if it were a resolution adopted pursuant to Section 13091, authorizing the issuance of bonds for such new purpose, and such resolution authorizing such application to such new purpose, when it shall have taken final effect under such procedures, shall be sufficient authority for the application of such money to such new purpose.

Surplus proceeds

13177. If any excess of the principal sum of the proceeds of any issue of bonds shall remain unexpended after the full accomplishment of the purpose for which such bonds were issued the board, by resolution, may direct that the same shall be applied to the purchase of bonds of that issue, or to the payment of any such bonds, at maturity or on redemption, or to the payment of interest thereon or of premiums due on the redemption thereof, or that it shall be transferred to the revenues pertaining to the electric system in connection with which such bonds were issued.

Article 12. Short Term Borrowing

Borrowing

13181. A district may also have the power to borrow money from time to time for any or all of the purposes specified in this chapter, and to issue and sell notes, or other evidences, to evidence the indebtedness created by such borrowing, by resolution subject to referendum as provided in Section 13103, whenever they shall find and determine that the public interest and necessity require the exercise of that power.

Maturity, etc., of notes

13182. All notes or other evidences of indebtedness issued under the authority of this article shall contain upon their face a recital that they are so issued and shall be payable in not to exceed three years from their date

Limitation on indebtedness

13183. No amount shall be borrowed under the authority of this article which when added to the amount of all other notes or other evidences of indebtedness issued under this article and then outstanding shall exceed 50 percent of the gross operating revenues from the works on account of which it is borrowed during the preceding fiscal year.

Applicability of article

13184. All of the provisions of this chapter not inconsistent with the terms of this article, and not by their terms made inapplicable thereto, shall apply to all notes, or other evidences, issued under the authority of this article.

Article 13. Investments

Investment of reserve funds, etc.

13191. Pending use for the purposes for which any reserve fund or special trust account or any other separate fund established pursuant to this chapter was so established, money set aside and placed therein may, when and to such extent and in such manner as may be directed by the said board and as may be consistent with the provisions of any resolutions of the board constituting a part of the proceedings for the issuance of the issue of bonds in connection with which such fund or account was created, be invested in the same manner as are other moneys of the district. Any such bonds or other evidences of indebtedness acquired through such investment may be resold at any time.

Same

13192. Any bonds or other securities so purchased shall constitute a part of such reserve fund, separate fund or special trust account, and any interest or any increment received by reason of such investment and the proceeds of any such resale shall be placed in, and constitute a part of, such fund or account.

Certification

13193. Bonds issued under this chapter may be presented to the California Districts Securities Commission for certification under Division 10 of the Water Code in like manner and with the same legal effect as in the case of revenue bonds issued by irrigation districts.

3377. For the purpose of creating a fund herein called the Fifth San Francisco Seawall Fund to provide for the improvement of San Francisco Harbor and its facilities, including wharves, piers, seawalls, railroads, spurs, streets, and appurtenances to any of the foregoing, and personal or real property used in connection therewith, and any necessary dredging and filling in connection therewith by the authority and to redeem bonds authorized prior to the enactment of this chapter and outstanding, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of fifty million dollars ($50,000,000) in the manner and to the extent provided herein or otherwise provided by law. Powers, etc.

3378. The authority is hereby authorized and empowered to make improvements or purchases specified in Section 3377 and to expend from the Fifth San Francisco Seawall Fund created by this chapter, in the manner authorized by law, any and all funds therein, derived from the sale of bonds as provided in this chapter.

Bond issue resolution

3379. Whenever the authority determines by resolution that a bond issue under this chapter is necessary or desirable in order to make any of the expenditures authorized by this chapter, and so certifies to the committee, then the said committee shall approve or disapprove said resolution, and if it approves said resolution, the committee shall adopt a resolution authorizing and directing the State Treasurer to arrange for the preparation of the requisite number of suitable bonds and shall specify as to such bonds then to be sold:

Aggregate amount

(a) The aggregate number, aggregate par value, denominations and the date of the bonds to be then sold. The bonds may

be issued in series or divisions of the total authorized issue. Such denominations shall be in the sum of one thousand dollars ($1,000), or multiples thereof. Maturity dates

(b) The dates of maturity, and the amount and numerical sequence of the bonds maturing at each date of maturity, which amounts need not be equal, but which dates shall be at annual or semiannual intervals, and the first of which dates of maturity shall be not more than five years, and the last of which dates of maturity shall be not more than 50 years, after the date of the bonds or any series or division thereof.

Such interest may be payable at such periods as may be fixed by the committee.

Form

(e) The technical form and language of the bonds and interest coupons.

Interim bonds

(f) Whether or not the right is reserved to make delivery in the form of temporary or interim bonds, certificates, or receipts, exchangeable for definitive bonds when executed and available for delivery, and if such right is reserved the denominations and form of such temporary securities.

Registration, etc.

(g) Whether or not the bonds are to be subject to registration, the denominations of registered bonds and the provisions, if any, for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations and the form and all of the terms and conditions of such registration and of such exchange. If such registration is provided for, all of the provisions of this chapter with reference to the payment of bonds and interest coupons shall be subject to the terms and conditions of such registration with respect to the payment of registered bonds and the interest thereon.

Other terms

(h) All other terms and conditions of the bonds and of the execution, issuance and sale thereof, which shall be consistent with all of the provisions of this chapter.

Sale

(i) The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

Signatures

3380. All bonds issued under this chapter shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer by facsimile signature and the bonds shall be signed, countersigned and endorsed by the officers who shall be in office on the date of the adoption of the resolution of the committee, and each of the bonds shall bear a facsimile of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of the adoption of the resolution of the committee. The bonds and coupons so signed, countersigned, endorsed and sealed, when sold and delivered, shall be and constitute a valid and binding obligation upon the State of California, although the sale or delivery thereof be made at a date or dates upon which the officers having signed, countersigned and endorsed the bonds, or any or either of such officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing such bonds. Each bond issued under this chapter shall contain a clause or clauses stating that interest shall cease to accrue thereon from and after the date of maturity thereof, and referring to the resolution of the San Francisco Harbor Bond Finance Board, by virtue of which the bond is issued.

Cessation of interest accrual

Obligation of State

3381. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from any available moneys in the San Francisco Harbor Improvement Fund, or if such moneys are insufficient, then from the General Fund of the State of California, such sum annually as will be necessary to pay the principal of and interest on the bonds issued and sold pursuant to the provisions of this chapter, as such principal and interest become due and payable. Any sums withdrawn from the General Fund for the payment of principal of or interest on the bonds shall be returned to the General Fund as soon as moneys are available for that purpose in the San Francisco Harbor Improvement Fund, together with interest thereon at the same rate as, at the time of appropriation, is earned by short term current investments through the pooled money investment account, such earnings to be determined by the Controller.

Appropriation

Collection of revenues and other sums

The authority shall collect in the same manner and at the same time as other harbor revenue is collected, such sum, in addition to the ordinary revenues of the harbor, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenues, to do and perform each and every act which shall be necessary to collect such additional sum.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collections of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

Fixing of maturity dates

3382. In determining the dates of maturity of the bonds, and the amount thereof to mature at each date of maturity, the committee shall be guided, so far as it may deem to be practicable, by the amounts of the revenue estimated to accrue to the San Francisco Harbor Improvement Fund. The committee shall fix and determine the dates and amounts of such maturities in such manner that, together with the dates and amounts of interest payments on the bonds, they shall coincide, as nearly as it may deem to be practicable, with the dates and amounts of such estimated revenue.

Interest rate

3383. The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue, series or division and shall be the rate or rates fixed and determined by the committee in a resolution adopted prior to the sale of the bonds or as specified in the bid accepted by the State Treasurer if the bonds are sold on the basis of the bidder naming the interest rate or rates, in which event the State Treasurer shall fix such rate or rates in conformity with the bid of the successful bidder.

Tender

3384. Both principal of and interest on the bonds shall be payable in lawful money of the United States, at the Office of the State Treasurer, or at the office of any duly authorized fiscal agent of the State.

Recitals in bonds

3385. Each bond shall contain a reference to this chapter, and if subject to call or redemption prior to maturity, a recital to that effect.

Bids; Sale

3386. The bonds authorized to be issued under this chapter shall be sold by the State Treasurer to the highest bidder for cash, either at public auction or upon sealed bids as the committee may by resolution determine. Highest bidder shall be the bidder whose bid will result in the lowest net interest cost on account of said bonds. If the State Treasurer determines that the bids received are not satisfactory as to price or responsibility of the bidders, the State Treasurer may reject all bids received. The Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as he may select. If the bonds are offered for sale upon sealed bids, then each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for one-half of one percent (0.5%) of the par value of the bonds so offered for sale, but not exceeding one hundred thousand dollars ($100,000), drawn on a bank

or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Fifth San Francisco Seawall Fund and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to the bonds or by reason of such bid, or to the recovery of the deposit accompanying the bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Interim bonds

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by facsimile or signature stamp.

Notice of sale

3387. Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco and also by publication in one newspaper published in the City of Sacramento and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable. The proceeds of the sale of such bonds, other than such amount as may have been paid as premium or accrued interest thereon, shall be forthwith paid over by the State Treasurer into the fund to be used exclusively for the purposes set forth in this chapter; provided, that the proceeds from the sale of the bonds may be used to pay the expense created by the issuance and sale thereof. Any premium and accrued interest received on the sale of the bonds shall be deposited in the Fifth San Francisco Seawall Sinking Fund.

Investment of surplus

3388. The authority is authorized with the approval of the Department of Finance, to invest any surplus moneys in the fund in bonds or other obligations of the United States, or of the several counties, municipalities, school districts, or other public agencies of the State of California, and to sell such bonds or obligations, or any of them, at the governing market rates, upon approval of the Department of Finance;

or the authority may, with the approval of the Director of Finance, invest money in such fund, in interest-bearing certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars ($500,000) or more; provided, the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, nothing herein contained shall inhibit the depositing in banks in accordance with Chapter 4 (commencing at Section 16500), Part 2, Division 4, Title 2 of the Government Code, of money of any of the funds subject to the control of the authority or appropriated for their use.

Interest

Interest accruing upon the deposit of money of the fund shall be paid into and credited to the San Francisco Harbor Improvement Fund.

Refunding bonds

3389. The authority, subject to the approval of the San Francisco Harbor Bond Finance Board, may provide for the issuance, sale or exchange of refunding bonds out of the bonds issued under this chapter for the purpose of redeeming or retiring any bond issued by the authority if, under the terms of that issue, the bonds issued thereunder may be redeemed or retired. Any bonds issued hereunder may be redeemed or retired if the resolution under which the bonds are issued so permits.

Sinking fund

3390. For the payment of the principal and interest of the bonds a sinking fund, to be known and designated as the "Fifth San Francisco Seawall Sinking Fund," shall be, and the same is hereby created in the State Treasury, as follows: The State Treasurer, at the end of five years from the date of issuance of each issue of bonds of any series or division provided for in this chapter, shall, on the first day of the month and on the first day of each month thereafter, until date of maturity of the issue of bonds, take from any available moneys in the San Francisco Harbor Improvement Fund, such sum as multiplied by the total number of months, less 60, between the date of issuance and date of maturity of such bonds, will equal the principal of all the bonds of such issue; and he shall place the sum in the "Fifth San Francisco Seawall Sinking Fund." The State Treasurer shall on Controller's warrants duly drawn for that purpose, invest the moneys in the sinking fund in the purchase of the bonds of the United States, or of the State of California, including any bonds authorized, issued and theretofore sold under authority of this chapter or of the several counties, municipalities, school districts, or other public agencies of the State of California, which bonds shall be kept in a proper receptacle, appropriately labeled; but he shall always keep on hand a sufficient amount of money in the sinking fund with which to pay the principal and interest on such of the state bonds as the same become due. The State Treasurer may only purchase such bonds authorized and issued under authority of this chapter with moneys in the sinking fund as have been theretofore sold. To provide means for the payment

of interest on the bonds that may be sold and outstanding, the Treasurer shall monthly take from the San Francisco Harbor Improvement Fund, and pay into the Fifth San Francisco Seawall Sinking Fund, an amount equal to one month's interest upon all bonds then sold, delivered, and outstanding.

Interest accruing upon investment made from moneys in the Fifth San Francisco Seawall Sinking Fund shall be deposited in the Fifth San Francisco Seawall Sinking Fund unless otherwise required under any resolution providing for the issuance of revenue bonds to be credited to the San Francisco Harbor Improvement Fund. Interest

3391. Whenever the committee deems that it will increase the salability or the price of the bonds to obtain, prior to or after sale, a legal opinion, other than that of the Attorney General, as to the validity of the bonds, the committee may authorize the State Treasurer or the Department of Finance, or both, to obtain such a legal opinion. Payment for such legal services shall be made from the proceeds of the sale of the bonds, or any other funds available to the authority. Legal opinion

3392. The State Treasurer directly or through a state fiscal agent, or agents, shall, on the respective dates of maturity of all bonds, or on the date fixed for the prior redemption of any thereof which may be duly called for redemption, and on the respective due dates of all coupons pertaining to any of said bonds, other than coupons canceled because of the redemption of any of said bonds prior to maturity, or as soon thereafter as said bonds or coupons respectively are surrendered to him, or to such state fiscal agent, or agents, pay the same. Payment

3393. Upon the payment of any such bond or coupon, the State Treasurer, or such state fiscal agent, or agents, shall perforate the same with a suitable device in a manner to indicate such payment and a record of such payment shall be made thereof. The State Treasurer, or such state fiscal agent, or agents, shall also on the respective dates of maturity of any such bonds which have been executed but which remain unsold, cancel the same by perforation with a suitable device in a manner to indicate such cancellation and the date thereof, and on the respective due dates of all coupons attached to any such bond remaining unsold, shall detach all such coupons the due date of which has been reached, and cancel them in the same manner as provided for the cancellation of bonds remaining unsold. After proceedings set forth in Section 3379 new bonds conforming to the directions of the committee may be prepared and executed in lieu of any bonds so canceled, and may be sold and issued in the same manner as provided for other bonds in this chapter. Cancellation

3394. The State Treasurer, or such state fiscal agent, or agents, with the approval of the State Treasurer, may destroy or cremate any or all bonds and any or all coupons pertaining thereto which have been previously paid or canceled as pro- Destruction

vided herein in accordance with the provisions of Government Code Section 16772.

Warrants

3395. It shall be the duty of the State Treasurer to pay the interest of said bonds, when the same falls due, out of the moneys provided for in this chapter, on Controller's warrants duly drawn for that purpose.

Maturity: Call

3396. All bonds issued under this chapter and sold shall be deemed to have been called in at their respective dates of maturity and the State Treasurer shall, on the respective dates of maturity of said bonds, or as soon thereafter as said matured bonds are surrendered to him, pay the same upon Controller's warrants duly drawn for that purpose. The provisions of this section shall be applicable also to the interest coupons pertaining to the bonds authorized by this chapter to be issued. All money remaining in the Fifth San Francisco Seawall Sinking Fund, after the principal of and interest upon all bonds issued under the provisions of this chapter have been paid in full and after all such bonds and the interest coupons therefrom have all been canceled, shall be paid into the San Francisco Harbor Improvement Fund to be expended in accordance with law.

Redemption

3397. Whenever the authority shall determine that any bonds then outstanding, and which by their terms are subject to redemption prior to maturity, should be redeemed, and that money sufficient for such redemption will be available at the time proposed for such redemption, it may, by resolution approved by the committee, direct the State Treasurer to call and redeem any such bonds, at a time specified in such resolution, and the State Treasurer shall thereupon give notice of such proposed redemption and redeem the bonds in accordance with the provisions for redemption provided for in the resolution of the authority adopted under Section 3379 pursuant to which the bonds were issued.

Accounts and records

3398. The State Controller and the State Treasurer shall keep full and particular account and record of all their proceedings under this chapter, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this chapter shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State.

Operative date

SEC. 2. This act shall take effect upon its adoption by the people as to all its provisions except those relating to and necessary for its submission to the people, and for returning and canvassing the votes, and as to said excepted provisions this act shall take effect on the ninety-first day after the final adjournment of the 1957 Regular Session of the Legislature.

Suits Directors' expenses

830. (a) When a person is sued, either alone or with others, because he is or was a director, officer, or employee of a corporation, domestic or foreign, in any proceeding arising out of his alleged misfeasance or nonfeasance in the performance of his duties or out of any alleged wrongful act against the corporation or by the corporation, indemnity for his reasonable expenses, including attorneys' fees incurred in the defense of the proceeding, may be assessed against the corporation, its receiver, or its trustee, by the court in the same or a separate proceeding, if both of the following conditions exist:

(1) The person sued is successful in whole or in part, or the proceeding against him is settled with the approval of the court.

(2) The court finds that his conduct fairly and equitably merits such indemnity.

The amount of such indemnity shall be so much of the expenses, including attorneys' fees, incurred in the defense of the proceeding, as the court determines and finds to be reasonable.

(b) Application for such indemnity may be made either by a person sued or by the attorney or other person rendering services to him in connection with the defense, and the court may order fees and expenses to be paid directly to the attorney or other person, although he is not a party to the proceeding.

(c) Notice of the application for such indemnity shall be served upon the corporation, its receiver, or its trustee, and upon the plaintiff and other parties to the proceeding.

The court may order notice to be given also to the shareholders in the manner provided in this division for giving notice of shareholders' meetings, in such form as the court directs.

(d) This section applies to all proceedings specified in subdivision (a), whether brought by the corporation, its receiver, its trustee, one or more of its shareholders or creditors, any governmental body, any public official, or any private person or corporation, domestic or foreign.

Payments authorized hereunder include amounts paid and expenses incurred in settling any such action or threatened action. This subdivision (f) does not apply to any action instituted or maintained in the right of the corporation by a shareholder or holder of a voting trust certificate representing shares of the corporation.

Any such sinking fund may be measured by the net earnings of the corporation for any year or years or by an amount sufficient to redeem a specified percentage or number of shares, or by any combination of such measures. The application of sinking fund moneys to the purchase or redemption of such shares shall be subject to the provisions of Chapter 4 of this part.

outstanding shares for shares of another class, increase in the per-share par value, or other change affecting outstanding shares, which results in an increase in the aggregate par value of the outstanding shares.

This section does not forbid or limit the power of a corporation to effect a transfer of earned surplus to paid-in surplus in accordance with Section 1506.

A corporation is not required to transfer amounts from surplus to stated capital upon a stock split, reverse stock split, reclassification, conversion, exchange, change in per-share par value, or other change affecting outstanding shares, if the aggregate par value of the shares outstanding immediately after such change is not greater than the aggregate par value of the shares outstanding immediately prior thereto.

If authorized in its articles or by-laws, a corporation may issue the whole or any part of its shares or its certificates for shares prior to full payment under such restrictions as are imposed by this division.

SEC. 6. Section 1110 of said code is amended to read:

1110. The value of the consideration to be received by a corporation for the issue of shares having par value shall be at least equal to the par value thereof, except that:

(a) A corporation may issue par value shares, as fully paid up, at less than par, if the board of directors determines that such shares cannot be sold at par.

(b) A corporation may issue securities convertible into fully paid shares having par value at a price less than the par value of the shares issuable on conversion if the board of directors determines that such securities cannot be sold unless made convertible into par value shares at the price fixed, less than par.

1111. Subject to any limitations in the articles or by-laws, the consideration to be received by a corporation for the issue of shares without par value or upon the exercise of rights to convert other securities into, or to purchase, shares without par value shall be such as may be determined to be reasonable by the board of directors.

SEC. 8. Section 1113 is added to said code, to read:

Scrip, fractional shares, etc.

1113. In the absence of a contrary provision in the articles or by-laws, a corporation shall not be obligated (a) to issue either a fraction of a share or a scrip or other certificate evidencing such fraction if the corporation shall in lieu thereof pay to the person who would otherwise be entitled to such fraction the fair value thereof as determined by the board

of directors, or (b) to permit or recognize transfers of less than a whole share if the corporation shall agree to purchase such fraction at the fair value thereof as determined by the board of directors. Such determination of fair value shall be conclusive in the absence of fraud.

SEC. 9. Section 1500 of said code is amended to read:

1500. A stock corporation may declare dividends payable in cash or in property only as specified in one of the following subdivisions: Dividends

(a) Out of earned surplus.

(b) Out of net profits earned during the preceding accounting period, which shall not be less than six months nor more than one year in duration. The corporation may declare dividends out of such net profits despite the fact that the net assets of the corporation amount to less than the stated capital; but if the value of the net assets amounts to less than the aggregate amount of stated capital attributed to shares having liquidation preferences, because of depreciation, depletion, losses, or other cause, the corporation shall not declare dividends out of net profits pursuant to this subdivision except upon such shares, until the value of the net assets has been restored to the aggregate amount of the stated capital attributed to outstanding shares having liquidation preferences.

(c) Out of surplus arising from reduction of stated capital, subject to the provisions of Chapter 5 of this part, or out of paid-in surplus; provided, that if any outstanding shares are entitled to preferential dividends, dividends may be paid pursuant to this subdivision (c) only upon such shares.

Prior to or concurrently with the payment of dividends pursuant to this subdivision (c) the corporation shall give notice of their source to the shareholders receiving them.

SEC. 10. Section 1506 of said code is amended to read:

1506. If a dividend declared in shares having a par value is paid, the aggregate par value of the shares shall be deducted from the surplus from which the dividend is declared and added to stated capital. Share dividends

If a dividend declared in shares without par value is paid, there shall be deducted from the surplus from which the dividend is declared and added to stated capital the aggregate involuntary liquidation preferences of any preferred shares included in the dividend, and an amount per common share (or share having no liquidation preference) included in the dividend equal to the per-share stated capital attributable immediately preceding the payment of the dividend to the outstanding shares of the class to which the shares included in the dividend belong, or if no such shares are outstanding, then there shall be deducted from the surplus from which the dividend is declared and added to stated capital the estimated fair value of the shares issued as a dividend, as determined and stated by resolution of the board of directors.

Upon the payment of a share dividend from earned surplus, an amount equal to the excess, if any, of the estimated fair

value of the shares issued as a dividend, as determined and stated by resolution of the board of directors, over the amount required to be transferred to stated capital in accordance with this section may be deducted from earned surplus and added to paid-in surplus.

Upon the payment of a dividend payable in shares notice shall be given to the shareholders of the amount per share transferred from surplus and of the particular surplus from which the amount was transferred.

SEC. 11. Section 1507 of said code is amended to read:

Stock split

1507. The provisions of this chapter relating to share dividends do not forbid or limit the power of a corporation to effect a stock split without transferring surplus to stated capital; provided, the aggregate par value of the shares outstanding immediately thereafter is not greater than the aggregate par value of the shares outstanding immediately prior thereto. Upon effecting a stock split of shares without par value, the shareholders shall be given notice of the book value of each affected share prior and subsequent thereto.

SEC. 13. Section 1702 of said code is amended to read:

Redemption notice

1702. If the corporation gives notice of redemption pursuant to Section 1701, it shall also mail a copy of the notice of redemption, postage prepaid, to each holder of shares to be redeemed of record as of the date of mailing or date of record fixed in accordance with Section 2214, addressed to the holder at his address appearing on the books of the corporation or given by him to the corporation for the purpose of notice, or if no such address appears or is given, at the place where the principal office of the corporation is located, not earlier than sixty (60) nor later than twenty (20) days before the date fixed for redemption. Failure to comply with this section does not invalidate the redemption of the shares.

SEC. 15. Section 1902 of said code is amended to read:

Stated capital Changes

1902. Unless proceedings for the reduction of stated capital are taken pursuant to this chapter, the stated capital of a corporation is not reduced by a stock split, reverse stock split, reclassification of outstanding shares into shares of another class, exchange of outstanding shares for shares of another class, decrease in the per-share par value, or other change affecting outstanding shares, which results in the shares outstanding immediately thereafter having an aggregate par value less than the aggregate par value of, or stated capital attributable to, the shares outstanding immediately prior thereto.

Upon a stock split, reverse stock split, reclassification of outstanding shares into shares of another class, exchange of outstanding shares for shares of another class, increase in the per-share par value or other change affecting outstanding shares, which results in the aggregate par value of the shares outstanding immediately thereafter being in excess of the aggregate par value of, or stated capital attributable to, the shares outstanding immediately prior thereto, the stated capital of the corporation shall be increased, in the manner provided in Section 1903, by an amount equal to such excess.

In the absence of any contrary provision in the articles or in any statute relating to the election of directors or to other particular matters, each such person is entitled to one vote for each share. The articles or by-laws may provide that a fraction of a share shall not be entitled to any voting rights whatsoever.

(c) A statement setting forth the office or agency of the corporation from which stockholders may obtain a copy of the statement mentioned in subdivision (a) or the summary mentioned in subdivision (b). If the stock certificates of the corporation do not contain either the statement mentioned in subdivision (a) or the summary mentioned in subdivision (b), the corporation shall furnish to its stockholders, upon request and without charge, a copy of such statement or summary.

If the board of directors has authority to fix the dividend rights, dividend rate, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), the redemption price or prices, or the liquidation preferences of any wholly unissued class or of any wholly unissued series of any class of shares, or the number of shares constituting any unissued series of any class of shares, or designations of such series, or all or any of them, the certificate shall also contain a statement of that fact.

(d) To authorize the board of directors, within limitations and restrictions stated in the amendment, to fix or alter the dividend rights, dividend rate, conversion rights, voting rights, the rights and terms of redemption (including sinking fund provisions), the redemption price or prices, or the liquidation preferences of any wholly unissued class or of any wholly unissued series of any class of shares, or the number of shares constituting any unissued series of any class and the designations of such series, or all or any of them; or to increase or decrease (but not below the number of shares of such series then outstanding) the number of shares constituting any outstanding series the number of shares of which was fixed by the directors.

(e) To reclassify shares, whether or not outstanding, of any class or series, in whole or pro rata in part, into shares of another class or series; to effect a stock split or a reverse stock split; to change shares without par value into the same or a different number of shares with par value, or vice versa.

No change which has become effective pursuant to any statute which did not expressly provide for the amendment of articles shall be deemed to have the effect of impliedly amending the affected provision of the articles so as to read in conformity with such change.

3636. The requirements of Sections 3634 and 3635 with respect to the vote or written consent of shareholders do not apply to any amendment referred to in those sections the purpose of which is merely to effect a stock split or reverse stock split.

SEC. 21. Section 3638 of said code is amended to read:

New class or series

3638. If any amendment of the articles would create a new class or series of shares not theretofore authorized by the articles, or would increase the authorized number of shares of any existing class or series, whether or not the amendment would result in the increase of the total authorized number of shares of the corporation, the vote or written consent of shareholders required for the approval of the amendment shall include the vote or written consent of the holders of a majority of all outstanding shares of the corporation, regardless of limitations or restrictions on the voting power thereof, and such vote or written consent shall be sufficient for approval of the amendment regardless of the relative priority, preferences, rights, or restrictions of the new class or series of shares and shares outstanding.

If the articles require the vote or written consent of the holders of any specified percentage or fraction of the outstanding shares of any one or more classes or series for the approval

of any such amendment, the approval shall include the vote or written consent of shareholders required by the articles in addition to the vote or written consent of the holders of a majority of all outstanding shares.

the date of the amendment, continuously acted as a corporation and did business as such.

SEC. 26. Section 4105 of said code is amended to read:

4105. If the agreement is for a merger, it shall state any matters with respect to which the articles of the surviving corporation are amended, and the articles shall be amended accordingly, without any further proceedings, upon the filing of the agreement with the Secretary of State, but with respect to any such amendments, the agreement shall meet the requirements of Section 3631 in identifying any provision to be amended, stricken or added and shall set forth in full the wording of the provision as amended or added or the wording of the amended articles if they be amended in full.

If, between the date of the agreement of merger and the date of its filing with the Secretary of State, the surviving corporation acquires any of its shares, the reissue of which is prohibited by its articles, then whether or not the articles are amended pursuant to Section 1713 prior to the date of such filing, the authorized number of shares of the class or series to which such acquired shares belong is reduced to the number outstanding on the date of the filing of the agreement of merger with the Secretary of State, and the articles of incorporation or the agreement of merger shall promptly be amended in accordance with Section 1713 to reflect such reduction in authorized shares or the elimination of such class or series if all the authorized shares thereof shall have been so acquired.

The parent corporation shall not, however, thereby acquire the right to engage in any business or to exercise any right, privilege or franchise of a kind which it could not lawfully engage in or exercise under the law under which it exists. The parent corporation shall be deemed to have assumed all the liabilities and obligations of the merged corporation, and shall be liable in the same manner as if it had itself incurred such liabilities and obligations.

CHAPTER 2286

An act to add Section 10 to the State Construction Program Bond Act of 1955 (Chapter 1709 of Statutes of 1955) relating to the building needs of the State by the adoption of a general construction program, and making an appropriation, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 10, 1957. Filed with Secretary of State July 15, 1957.]

In effect immediately

The people of the State of California do enact as follows:

which the State Construction Program Committee has by resolution authorized to be sold for the purpose of carrying out this act, and the amount necessary to carry out this section is hereby appropriated. The appropriation made by this section is made without regard to fiscal years. Any amounts withdrawn shall be deposited in and constitute a part of the State Construction Program Fund to be expended by the Department of Finance. Any moneys made available under this section to the department shall be returned by the department to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this act.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

At the election held in November, 1956, the people approved Assembly Constitutional Amendment No. 17 authorizing the issuance and sale of bonds of the State of California in the sum of two hundred million dollars ($200,000,000) to be used to carry out the state construction program contemplated by the State Construction Program Bond Act of 1955. However, it will be some time before such bonds are issued and sold and therefore unless other funds are forthcoming the State Government will not be able to commence immediately the construction contemplated under this program. Since there exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, education, administrative, military and other agencies of the State Government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities, in order to permit necessary construction to commence immediately it is necessary that this act take effect immediately.

CHAPTER 2296

An act to add Sections 14638.1, 14638.2, and 14638.3 to, and to amend Sections 14565 and 14575 of, the Education Code, relating to benefits payable under the State Teachers' Retirement System.

In effect September 11, 1957

[Approved by Governor July 10, 1957. Filed with Secretary of State July 15, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 14638.1 is added to the Education Code, to read:

Election of option before retirement

14638.1. Any member who has qualified for service retirement under Section 14601, may elect, as provided in Section 14637, and without right of revocation or change after approval of the election by the retirement board, to receive the actuarial equivalent as of the date of his retirement, of the retirement allowance payable to him when and if he retires for service or disability in a reduced retirement allowance according to the provisions of either Option 2 or Option 3 as stated in Section 14637. If such a member at the time of making the election has a living spouse who would qualify for an allowance under Section 14638.2, the election under this Section 14638.1 shall be invalid and of no effect unless and until the consent of such spouse to it, is filed at the office of the retirement system in Sacramento, California.

Benefits upon death before retirement

Upon such member's death at least 30 days after the date upon which the election is received in the office of the retirement system in Sacramento, California, and prior to the effective date of his retirement, the person who was nominated by him under the option he elected and who survives him, shall receive an allowance calculated under such option, upon the assumption that such member retired for service on the date of his death and died immediately thereafter. The payment of such allowance to such person shall be in lieu of both the death

benefit provided by Section 14575 and the allowance provided by Section 14638.2, and no such death benefit or such allowance shall be paid on account of such death to any person or beneficiary, regardless of whether the person nominated under the option elected, survives the member. Payment of the allowance under the option following such death, shall be in addition to the payment to any beneficiary, of any survivor allowance provided under this system.

Retirement allowance

If such member subsequently retires for service or disability, he shall receive, regardless of whether the person nominated by him under the option elected, is then living, a reduced allowance according to the provisions of Section 14637 and the option elected, and he shall be subject to Section 14638.

The amount of the allowance prior to optional modification, shall be calculated on the basis of the member's age at death before retirement, or at retirement, as the case may be, but the reduction of such allowance under the option elected, shall be based on the ages of such member and the person nominated by him under such option, at the effective date of such election.

SEC. 2. Section 14638.2 is added to said code, to read:

Benefits upon death before retirement

14638 2. Upon the death before retirement of a member who is qualified for service retirement under Section 14601, and on account of whose death the benefit provided by Section 14575 is otherwise payable, a monthly allowance equal to one-half of the monthly retirement allowance prior to modification under options in Section 14637, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be payable:

(a) To the member's widow, or to the member's widower who was receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death; provided, such widow or widower does not qualify for an allowance under Section 14638.1; or

(b) If there is no qualifying surviving spouse, or if such spouse dies or remarries, to unmarried children, including stepchildren, of the member, who are under 18 years of age.

The allowances payable under this section shall be in lieu of the death benefit provided by Section 14575, except for the accumulated annuity deposits included therein, but a person qualifying for the allowance or such person's guardian may elect, before the first payment on account of it, to receive such death benefit in lieu of the allowance. The member's accumulated annuity deposits shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from state contributions.

SEC. 3. Section 14638 3 is added to said code, to read:

Same

14638.3. The allowance provided by Section 14638.2 shall be paid from the Retirement Annuity Fund, and shall begin to

accrue on the day next following the date of death of the member, and payments to a surviving spouse shall continue only until death or remarriage, and to or on account of children with respect to each child, until the attainment of age 18 or prior marriage

If payment of the allowance provided by Section 14638.2 is stopped because of remarriage of the surviving spouse, or the attainment of the age of 18 years by a child, before the sum of the monthly payments made, equals the death benefit provided by Section 14575, exclusive of accumulated annuity deposits, a lump sum equal to the difference shall be paid to the remarried spouse, or if there is no such spouse, to the surviving children of the member, share and share alike

From the monthly allowance payable under Section 14638.2, there shall be deducted a total amount equal to that portion of the benefit payable on account of said death by a local retirement system, which is provided from contributions of the district operating said system, and is in addition to the portion of the benefit payable by said local system which is made up of the accumulated contributions of the member, and no monthly allowance shall be paid under this section until the total amount deducted equals said portion provided by district contributions.

SEC. 4. Section 14565 of said code is amended to read:

Payments to local districts

14565. (a) At the beginning of each fiscal year the retirement system shall pay to each local district maintaining a local retirement system the following amounts:

(1) From the Teachers' Retirement Fund, an amount equal to the difference with respect to all service rendered by persons whose retirement is effective prior to July 1, 1947, and with respect to service rendered prior to July 1, 1944, by persons whose retirement is effective after June 30, 1947, and one-half the difference with respect to service rendered after June 30, 1944, by persons whose retirement is effective after June 30, 1947, between the benefits paid from the Teachers' Retirement Fund during the preceding year to persons who are entitled to receive benefits from the local retirement system and the benefits which would have been paid during the preceding year to those persons if they were not entitled to receive benefits from the local retirement system.

(2) From the Teachers' Retirement Fund, an amount equal to the difference between the death benefits paid from the Teachers' Retirement Fund during the preceding year on account of persons who qualified for death benefits under the local retirement system, and the death benefit which would have been paid during the preceding year on account of such persons if they had not qualified for death benefits from the local retirement system, all regardless of elections of survivor allowances under Section 14638.2.

(b) The amounts paid under subdivision (a) of this section by the retirement system to each local district maintaining a local retirement system shall be reflected in the records of the

system as having been made from the Retirement Annuity Fund and they shall not be used to reduce the contributions required of members of the local retirement system or to increase the benefits payable by the local retirement system, but shall be applied to reduce the cost of support of the local retirement system to the taxpayers of the local district maintaining the local retirement system.

(c) The State shall contribute annually to the Teachers' Retirement Fund the amounts required to be paid from said fund under subdivision (a) of this section.

SEC. 5. Section 14575 of said code is amended to read:

Death benefit

14575. Upon receipt of proof of a member's death which occurred before the effective date of his retirement or before the date upon which a retirement allowance is granted to him, whichever is the later date, or, with respect to a member who elects an option upon qualification for service retirement as provided in Section 14638.1, before the effective date of such election, and within four months after the termination of the member's employment in a status requisite for membership in this retirement system, or while the member was physically or mentally incapacitated for performance of his duty, if such incapacity had been continuous from said termination, there shall be paid to such beneficiary as he has nominated by written designation duly filed with the Retirement Board subject to Section 14638.2 with respect to the amount payable under subdivision (d):

(a) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(b) The accumulated annuity contributions standing to the credit of his individual account in the Retirement Annuity Fund.

(c) Any moneys standing to the credit of his individual account in the Annuity Deposit Fund pursuant to Section 14337, together with the interest accumulated thereon.

(d) An amount, provided from contributions by the State, and payable from the Retirement Annuity Fund, equal to one-twelfth for each completed year of service as a member, not to exceed six, of the salary which would have been earned by the member at the rate of salary at which he was last employed preceding death, assuming engagement in duties for the number of school days during the school year in which said employment existed. From the amount determined under the sentence next preceding, there shall be deducted an amount equal to that portion of the benefit payable on account of said death by a local retirement system, which is provided from contributions of the district operating said system, and is in addition to the portion of the benefit payable by said local system which is made up of the accumulated contributions of the member.

CHAPTER 2298

In effect September 11, 1957

[Approved by Governor July 10, 1957. Filed with Secretary of State July 15, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing at Section 23095) is added to Chapter 1.5 of Division 9 of the Business and Professions Code, to read:

Article 6. Stay of Suspension

Compromise petition

23095. Whenever a decision of the department suspending a license for 30 days or less becomes final, whether by failure of the licensee to appeal the decision or by exhaustion of all appeals and judicial review, the licensee may, before the operative date of such suspension, petition the department for permission to make an offer in compromise, to be paid into the Alcohol Beverage Control Fund, consisting of a sum of money in lieu of serving such suspension. Upon the receipt of such a petition, the department may stay the proposed suspension and cause such investigation to be made as it deems desirable and may grant such petition if it is satisfied (a) that the public welfare and morals would not be impaired by permitting the licensee to operate during the period set for suspension; (b) that public convenience and necessity would be better served by permitting the licensee to operate during the period set for suspension and that the payment of the sum of money will achieve the desired disciplinary purpose; (c) that

the books and records of the licensee are kept in such a manner that the loss of sales of alcoholic beverages which the licensee would have suffered had such suspension gone into effect can be determined with reasonable accuracy therefrom. Such offer in compromise shall be the equivalent of 20 percent of the estimated gross sales of alcoholic beverages for each day of such proposed suspension, and such offer in compromise shall be not less than two hundred fifty dollars ($250) nor more than two thousand dollars ($2,000).

The department shall not accept a petition under this section with respect to a license to be suspended if, within 18 months immediately preceding the date of filing of the petition, such license has been suspended by a final decision of the department or an offer in compromise has been accepted by the department.

Deposit

23096. The moneys derived from a payment in compromise under Section 23095 shall be paid to the State Treasury for deposit in the Alcohol Beverage Control Fund. Upon such payment, the department shall enter its further order permanently staying the imposition of the suspension.

Limitation

23097. In connection with any such petition, the authority of the department is limited to the granting of such stays as are necessary for it to complete its investigation and make its findings and, if it makes such findings, to the granting of an order permanently staying the imposition of the suspension. If the suspension was imposed as a result of an accusation filed by another public officer acting in his official capacity, the department shall not order such permanent stay of suspension without the written concurrence of such other public officer.

Suspension

23098. If the department does not make the findings required in Section 23095, and does not order the suspension permanently stayed, the suspension shall go into effect on the operative date finally set by the department.

SEC. 2. Section 25761 of said code is amended to read:

License fees

25761. All money collected as license fees, as payments under Section 23096, and under the excise tax provisions of this division or Part 14 of Division 2 of the Revenue and Taxation Code shall be deposited in the State Treasury to the credit of the Alcohol Beverage Control Fund, which fund is continued in existence.

The Controller shall, during the months of April and October of the year, draw his warrants upon the fund in favor of the treasurer of each county, city and county, and city for the amount to which each is entitled under this section.

(b) Such amount as is necessary for the allowance of the refunds provided for in this division or Part 14 of Division 2 of the Revenue and Taxation Code.

(c) Any remaining balance shall be transferred to the General Fund on the order of the Controller.

[Approved by Governor July 10, 1957. Filed with Secretary of State July 16, 1957.]

In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 511 of the Vehicle Code is amended to read:

511. Prima Facie Speed Limits. The speed of any vehicle upon a highway not in excess of the limits specified in this section or established as authorized in this code is lawful unless clearly proved to be in violation of the basic rule declared in Section 510 hereof

Prima facie speed limits

The speed of any vehicle upon a highway in excess of any of the limits specified in this section or established as authorized in this code is prima facie unlawful unless the defendant establishes by competent evidence that any said speed in excess of said limits did not constitute a violation of the basic rule declared in Section 510 hereof at the time, place and under the conditions then existing.

The prima facie limits referred to above are as follows and the same shall be applicable unless changed as authorized in this code and, if so changed, then only when signs have been erected giving notice thereof, in which event the speed designated on the sign shall be the prima facie limit:

(a) Fifteen miles per hour: 15 m p h

(1) When traversing a grade crossing of a steam, electric or street railway, if during the last 100 feet of the approach to such crossing the driver does not have a clear and unobstructed view of such crossing and of any traffic on such railway for a distance of 400 feet in both directions along such railway. This subdivision shall not apply in the case of any railway grade crossing where human flagman is on duty or a

clearly visible electrical or mechanical railway crossing signal device is installed but does not then indicate the immediate approach of a railway train or car.

(2) When traversing any intersection of highways if during the last 100 feet of his approach to such intersection the driver does not have a clear and unobstructed view of such intersection and of any traffic upon all of the highways entering such intersection for a distance of 100 feet along all such highways, except at an intersection protected by stop signs or yield right-of-way signs or controlled by official traffic control signals.

25 m p h (b) Twenty-five miles per hour:

(1) In any business or residence district unless a different speed is determined by competent authority under procedures set forth in this code.

(2) When passing a school building or the grounds thereof, contiguous to the highway while children are going to or leaving such school during opening or closing hours or during the noon recess period. Such prima facie limit shall also apply when passing any school grounds which are not separated from the highway by a fence, gate or other physical barrier while such grounds are in use by children.

55 m p h (c) Fifty-five miles per hour under all other conditions unless a different speed is specifically designated in this code or is determined and declared by competent authority under procedures set forth in this code.

SEC. 2. Section 511.1 of said code is amended to read:

Speed zones 511.1. Establishment of State Speed Zones. (a) Authority to Increase 25-mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic investigation that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any state highway otherwise subject to a prima facie limit of 25 miles per hour under this code, the department may determine and declare a prima facie speed limit of 30, 35, 40, 45 or 50 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway. The provisions of this subdivision shall not apply in respect to any 25-mile per hour prima facie limit which is applicable when passing a school building or the grounds thereof, as provided in Section 511(b)(2).

(b) Authority to Decrease 55-mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic survey that the prima facie limit of 55 miles per hour is more than reasonable or safe upon any portion of a state highway where such prima facie limit of 55 miles is applicable under this code, the department may determine and declare a prima facie speed limit of 50, 45, 40, 35 or 30 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable

and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

Variable speed limit

(c) Authority to Establish Variable Speed Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic survey that the safe and orderly movement of traffic upon any state highway which is a freeway will be facilitated by the establishment of variable speed limits, said department may erect, regulate, and control signs upon such state highway which is a freeway, or any portion thereof, which signs shall be so designed as to permit display of different speed limits at various times of the day or night. Such signs need not conform with the provisions of Section 468.1 hereof, but shall be of sufficient size and clarity to give adequate notice of the applicable prima facie speed limit. The prima facie speed limit upon such freeway at a particular time and place shall be that which is then and there displayed upon such sign.

Departmental authority

(d) The authority of the Department of Public Works as set forth in this section shall apply upon all state highways, whether within or outside of the limits of any incorporated city or city and county.

SEC 3. Section 511.3 of said code is amended to read:

Powers of local authorities

511.3. When Local Authorities May Alter Prima Facie Limits. (a) Authority to Increase 25-mile Limit. Whenever a local authority, as defined herein, determines upon the basis of an engineering and traffic investigation that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any street otherwise subject to a prima facie limit of 25 miles per hour under this code, such local authority may by ordinance determine and declare a prima facie speed limit of 30, 35, 40, 45 or 50 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said street. The provisions of this subdivision shall not apply in respect to any 25-mile per hour prima facie limit which is applicable when passing a school building or the grounds thereof, as provided in Section 511(b)(2).

(b) Authority to Decrease 55-mile Limit. Whenever a local authority, as defined herein, determines upon the basis of an engineering and traffic survey that the prima facie limit of 55 miles per hour is more than is reasonable or safe upon any portion of any street or highway where such prima facie limit of 55 miles per hour is applicable under this code, such local authority may by ordinance determine and declare a prima facie speed limit of 50, 45, 40, 35, 30 or 25 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie limit shall be effective when ap-

propriate signs giving notice thereof are erected upon such street.

(c) No local authority shall exercise the powers set forth in this section in reference to any state highway or extension thereof.

(d) With respect to boundary line streets and highways where portions thereof are within different jurisdictions, no ordinance adopted under this section shall be effective as to any such portion unless and until all authorities having jurisdiction of the portions of the street or highway concerned have approved the same. The provisions of this subdivision shall not apply in the case of boundary line streets consisting of separate roadways within different jurisdictions.

It is further declared to be in the interest of the people of California that the State determine feasible means and methods for reforesting nonproducing forest lands to the end that all forest lands will be eventually brought up to their maximum growth capacity.

Thereafter an insurer shall not change such election without the consent of the Insurance Commissioner. Any such funds taxed as "gross premiums" shall, in the event of withdrawal of the funds before their actual application to the purchase of annuities, be eligible to be included as "return premiums" if eligible therefor under the provisions of Section 14⅓ of Article XIII of the Constitution.

GOODWIN J KNIGHT
Governor

In effect September 11, 1957

[Approved by Governor July 15, 1957 Filed with Secretary of State July 16, 1957.]

The people of the State of California do enact as follows:

SECTION 1. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the State Park Fund to the Division of Beaches and Parks, Department of Natural Resources, for expenditure for the study of the development of a zone of preservation and the preliminary acquisition of historic artifacts in the west end of Sacramento, including a museum, as a part of the State Park System.

CHAPTER 2316

An act to add Sections 30609 and 30660 to the Streets and Highways Code, relating to crossings of San Francisco Bay, declaring the urgency thereof, and providing that this act shall take effect immediately.

In effect immediately

[Approved by Governor July 15, 1957. Filed with Secretary of State July 16, 1957.]

The people of the State of California do enact as follows:

SECTION 1 Section 30609 is added to the Streets and Highways Code, to read:

Revisions and improvements

30609. Subject to the limitations hereinafter prescribed and under the provisions of Chapter 1 of this division, the department may make such revisions of, and improvements or alterations to, the San Francisco-Oakland Bay Bridge, its approaches, connections and other appurtenances, including the terminal building in San Francisco, as are deemed desirable and necessary by the department to permit the use of the entire San Francisco-Oakland Bay Bridge for traffic. Such revisions may include work necessary for the routing of traffic in one direction on each deck of the bridge.

Excess revenue fund

The department may use for such purposes any funds now on hand from the revenues of the San Francisco-Oakland Bay Bridge, and the future revenues of the bridge accruing up to July 1, 1961, or so much thereof as may be necessary, over and above those required to repay the State Highway Fund as required by Sections 30605 and 30607, and to provide the costs of maintenance, operation, insurance and other expenses of the San Francisco-Oakland Bay Bridge.

Southern Crossing bonds

In the event bonds are to be issued for the construction of the Southern Crossing to be secured by the revenues of the San Francisco-Oakland Bay Bridge, the authority may provide for the completion of the work on the San Francisco-Oakland Bay Bridge from the proceeds of bonds to be included in such an issue or it may reserve from the revenues which would secure such a bond issue sufficient revenues to complete the work. To the greatest extent found feasible by the department in planning and conducting the work to be carried out, but without delaying the ultimate completion thereof, the department shall so plan and conduct the work as to permit the rails on the San Francisco-Oakland Bay Bridge to remain in place as long as possible so as to minimize the interruption of transbay rail transportation.

Bay Bridge rails

SEC. 2. Section 30660 is added to said code, to read:

Financing of Southern Crossing Failure

30660. If financing for the construction of the Southern Crossing has not been completed prior to July 1, 1958, all of the sections of this article (commencing at Section 30651), except this section, shall be of no further force or effect, and the Department of Public Works and the California Toll Bridge Authority may exercise all powers and duties under the California Toll Bridge Authority Act (commencing at Section 30000) as if this article had never been enacted. Such financing of the Southern Crossing shall be undertaken only upon a finding by the authority on the basis of the estimates of cost and anticipated revenue available to it that the rates of toll on the San Francisco-Oakland Bay Bridge in effect on January 1, 1957, should be sufficient to meet all obligations to be assumed in connection with the financing of the Southern Crossing. However, if bonds are issued, the California Toll Bridge Authority shall provide for the inclusion in its bond proceedings of the obligation of the authority to from time to time fix the rates of tolls and charges in accordance with the provisions of Section 30102, it being the intention of the

Conditions

Legislature that when bonds are issued the authority shall be under the obligation to so fix and collect such rates of toll as are necessary to comply with such obligation.

Urgency

SEC 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Authority to discontinue transbay rail service on the presently existing rail lines and the substitution of motor coach service therefor has, subject to certain conditions, been granted by the State Public Utilities Commission. Traffic is already congested on the San Francisco-Oakland Bay Bridge and the cessation of train service would result not only in increased congestion, but in leaving one-half of the lower deck of the bridge unused. The necessary construction work to permit complete use of the entire surface of the bridge should be undertaken immediately so that the congestion following the cessation of rail service can be limited to as short a time as possible It is, therefore, necessary that this act shall take immediate effect.

CHAPTER 2317

An act to amend Section 11730, to repeal Section 11730r and to add Sections 11732.2, 11732.3, 11732.4, and 11732.5 to the Insurance Code, relating to rate supervision of workmen's compensation insurance.

In effect September 11, 1957

[Approved by Governor July 15, 1957. Filed with Secretary of State July 16, 1957.]

The people of the State of California do enact as follows:

Legislative intent

SECTION 1. To effectuate the social public policy of this State to create and enforce a complete system of workmen's compensation as declared in Section 21 of Article XX of the Constitution of California, and to maintain the integrity of such system, the Legislature always has subjected workmen's compensation insurance to detailed regulation different from that provided for any other class of insurance. In so doing it has protected the solvency of insurers, benefited injured workers and their dependents, and enabled employers to obtain workmen's compensation protection at the lowest cost consistent with solvency of insurers. With a view to the preservation of California's unique and successful system of workmen's compensation insurance, it is necessary to declare the legislative intent to prohibit inclusion in the classification of risks and premium rates or in merit rating of: (1) any extra charge against small employers of this State, (2) any interference with freedom of contract between insurers and licensed insurance agents and brokers with respect to commissions, and (3) any combination of California workmen's compen-

sation insurance premiums or experience of a particular insured with his premiums or experience in any other class of insurance or in any other jurisdiction.

SEC. 2. Section 11730 of the Insurance Code is amended to read:

Definitions

11730. The term "merit rating," as used in this article, means "schedule rating," in which the rate is varied according to physical conditions, and also means "experience rating," in which the California workmen's compensation insurance experience of the particular insured is used as a factor in raising or lowering his rate.

Unless a different meaning is manifest, the term "workmen's compensation insurance," as used in this article, also means employer's liability insurance incidental to and written in connection with workmen's compensation insurance.

Repeal

SEC. 3. Section 11730x of the Insurance Code is repealed

SEC. 4. Section 11732.2 is added to the Insurance Code, to read:

Determination or modification of premiums

11732 2. No classification of risks and premium rates or system of merit rating shall permit a determination or modification of the premium or premium rate of a particular insured by reason of a combination of his California workmen's compensation insurance premium or experience with his premium or experience arising out of any other class of insurance, whether or not such other class of insurance is written under the laws of this State.

SEC. 5. Section 11732.3 is added to the Insurance Code, to read:

Same

11732.3. No classification of risks and premium rates or system of merit rating shall permit a determination or modification of the premium or premium rate of a particular insured by reason of the combination of his California workmen's compensation insurance premium or experience with his premiums or experience arising out of workmen's compensation insurance written under the laws of any other jurisdiction

SEC. 6. Section 11732.4 is added to the Insurance Code, to read:

Discounts

11732.4. No classification of risks and premium rates or system of merit rating shall permit a discount of basic premium rates or premium resulting from the application of such rates unless the discount results from the application of experience rating or schedule rating, but in no event shall a discount be permitted by reason of any reduction in the expense provision included in the classification of risks and premium rates approved or issued by the commissioner.

SEC. 7. Section 11732 5 is added to the Insurance Code, to read:

Expense provision

11732 5 The expense provision included in the classification of risks and premium rates approved or issued by the commissioner shall be uniform as to all insurers and insureds affected thereby.

CHAPTER 2318

An act to add Chapter 3 to Division 7 of the Public Resources Code, relating to recreation, and making an appropriation therefor.

The people of the State of California do enact as follows:

SECTION 1. Section 2540 of the Elections Code is amended to read:

Party qualifications

2540. A party is qualified to participate in any primary election:

(a) If at the last preceding gubernatorial election there was polled for any one of its candidates who was the candidate of that party only for any office voted on throughout the State, at least 3 percent of the entire vote of the State, or for any one of its candidates who, upon the date of such gubernatorial election, as shown by the affidavits of registration of voters in the county of his residence, was affiliated with that party and who was the joint candidate of that party and any other party for any office voted on throughout the State, at least 6 percent of the entire vote of the State; or

(b) If on or before the 135th day before any primary election it appears to the Secretary of State as a result of examining and totaling the statement of voters and their political affiliations transmitted to him by the county clerks, that voters, equal in number to at least 1 percent of the entire vote of the State at the last preceding gubernatorial election, have declared their intention to affiliate with that party; or

(c) If on or before the 135th day before any primary election there is filed with the Secretary of State a petition signed by voters, equal in number to at least 10 percent of the entire vote of the State at the last preceding gubernatorial election, declaring that they represent a proposed party, the name of which shall be stated therein, which proposed party those voters desire to have participate in that primary election. The people of the State of California do enact as follows:

SECTION 1. Section 3420 of the Welfare and Institutions Code is amended to read:

CHAPTER 2332

An act to add Section 54157.1 to the Government Code, relating to the repair and restoration of property damaged or destroyed by storms or floods, making an appropriation in augmentation of Section 2 of the Flood Relief Law of 1956 to provide state assistance to local agencies for flood relief pursuant to said law, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 10, 1957. Filed with Secretary of State July 16, 1957.]

The people of the State of California do enact as follows:

SECTION 1. Section 54157.1 is added to the Government Code, to read:

Appropriation

SEC. 2. The sum of one million two hundred thousand dollars ($1,200,000) is hereby appropriated to the State Public Works Board out of the General Fund in augmentation of the amount appropriated from the General Fund by Section 2 of the Flood Relief Law of 1956 (Chapter 9, Statutes of 1956, First Extraordinary Session).

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and therefore, shall go into immediate effect. The following is a statement of the facts constituting such necessity:

Severe storms and floods during the months of December, 1955, and January and February, 1956, caused extensive damage to levees, flood control works, channels, irrigation works, city streets and county roads and bridges and other public property to such an extent that special appropriations to augment the funds of local agencies were made under the Flood Relief Law of 1956 for the repair and restoration of such public property. The General Fund appropriation contained in said Flood Relief Law of 1956 will soon be exhausted due to cost increases which have made the repair and restoration of such public property more costly than estimated and there still remains a substantial amount of such work yet to be performed. These factors necessitate an augmentation of the General Fund appropriation contained in said Flood Relief Law of 1956 in order to put such property into condition for public use at the earliest possible time. Therefore, it is necessary in the interests of public health and safety that this act take effect immediately.

Percentage increase in allowance

Period during which retirement became effective	Percentage of increase in monthly retirement allowance where member is entitled to be credited with 20 or more years of state service

tion 21335, if both the retired member and his beneficiary are living on the effective date of this section, the increase provided by this section shall be modified under the optional settlement so elected, on the basis of ages on the most recent retirement date, and current mortality tables and interest rate; but if either such retired member or his beneficiary is not living on said effective date, then the increase shall be made in the allowance payable to the survivor, in the same manner that increases are made in retirement allowances to persons who did not elect such an optional settlement.

Apportionment

The increase in each retirement allowance provided by this section shall be apportioned between the current service pension and the prior service pension of the retired member in the same proportions that the current service and the prior service with which the member is credited bears to the total state service with which he is credited, and shall be derived from the same source as such pensions.

(b) Every special death benefit payable for time commencing on the effective date of this section on account of the industrial death of any member who died on or prior to July 1, 1956, is hereby increased by a monthly amount which, when added to any other increases in such death benefit made by the Legislature at its 1957 Regular Session, equals the percentage increase set forth in the following table opposite the period during which the member's death occurred:

If the retirement allowances and special death benefits to which this section is otherwise applicable, or any of them, are increased pursuant to any other legislation enacted by the Legislature at its 1957 Regular Session, this section shall be applicable only to the extent that the increased amounts

payable pursuant to it exceed the increased amounts payable pursuant to such other 1957 legislation.

(e) This section shall not apply to any contracting agency, nor to retirement allowances or special death benefits payable to or in respect to the retired or deceased employees of any contracting agency, unless and until the contracting agency elects to be subject to its provisions by amendment to its contract with the board, made as provided in Section 20461.5, except that an election among the employees is not required, or by express provision in its contract with the board. Exception

Any increase in allowances provided by this section shall not take effect prior to the date the contract is amended to subject the contracting agency to the provisions of this section.

(f) Any person receiving an allowance subject to the increase provided for herein may elect to waive such increase and continue to receive their allowance unmodified by the provisions of this section. Waiver

A separate residential unit is defined as consisting of one residential structure together with any garages or other outbuildings appurtenant thereto. The provisions of this qualification shall not impair any rights conferred under the provisions of Sections 1192.1, 1194.1, and 1184.1 of this code. Materials delivered to or upon any portion of said entire work of improvement or furnished to be used in said entire work of improvement and ultimately used or consumed in one of such separate residential units shall, for all the purposes of this chapter, be deemed to have been furnished to be used or consumed in the separate residential unit in which the same shall have been actually used or consumed; provided, however, that if the lien claimant is unable to segregate the amounts used on or consumed in such separate units he shall be entitled to all the benefits of Section 1194.1 of this code.

SECTION 1. Chapter 4.6 is added to Part 3 of Division 5 of Title 2 of the Government Code, to read:

CHAPTER 4.6. OFFICERS AND ACADEMIC EMPLOYEES OF THE UNIVERSITY

Persons included in system

20590. (a) Each person who is a member of the university Pension and Retiring Annuities System on the day preceding the date upon which this chapter becomes operative, shall be included in this system as a member thereof on such operative date.

Each person so included in this system shall be considered for all purposes as having become a member of this system on August 27, 1937, if he was then employed by the university, or on such later date as he would have become a member of this system if he had not been excluded from this system by Section 20331 or 20332 as those sections read immediately prior to the date this section becomes operative, or by the provisions of the former State Employees' Retirement Act codified in those sections (unless he has been a member continuously from an earlier date), except that no contributions are required to be paid by such persons or by the university in respect to them for time after August 27, 1937, and prior to the operative date of this chapter, during which they were subject to or participated in the pension system or the Retiring Annuities System or the Pension and Retiring Annuities System of the university, or any combination of them, other than the amounts required to be transferred or paid by the university to this system pursuant to Sections 20592 and 20593.

(b) Persons included in this system by this section shall not be subject to exclusion from this system under Section 20334.

(c) Time prior to the operative date of this chapter, which would not be creditable as service hereunder except for the provisions of this subsection, shall be credited to persons so included in this system if such time was credited under the Pension and Retiring Annuities System of the university and the amount of such credit hereunder shall be equal to that which was credited under that system of the university, except that not more than one year of credit shall be given to any such person for any one fiscal year.

Termination of old system

20591. The university shall discontinue its Pension and Retiring Annuities System on the operative date of this chapter with respect to all persons and no other pensions or retirement benefits of any kind shall be provided for employees of the university for payment after they cease to be employed by the university, except benefits provided for in this part.

Continuation of existing payments

Payments being made to pensioners or annuitants by the Pension and Retiring Annuities System of the university on the operative date of this chapter, and in addition payments to retired employees of the university who retired prior to July 1, 1954, and their beneficiaries, shall be continued and paid by this system at their rates existing on such operative date.

Prior contributions

20592. The university shall certify to the board the aggregate amount of all contributions (together with interest up to

the operative date of this chapter, which has been credited thereon) made prior to such operative date by each person so included in this system to the pension system or the Retiring Annuities System or the Pension and Retiring Annuities System of the university. Each of such amounts shall be credited to the respective individual accounts of such persons and they shall be considered to be, and administered as if made during membership in this system.

Transfer of assets

20593. The university shall transfer to this system as of the operative date of this chapter, all assets held by the Pension and Retiring Annuities System of the university. A portion of the total amounts and assets so transferred or paid shall be taken and considered, and so entered in this system's accounts, as interest earned on the balance of said total from the operative date of this chapter to the date or dates of transfer or payment. The ratio of said portion to said balance shall equal the rate at which interest was earned during the year ended on the June 30th just preceding the operative date of this chapter, under the retirement fund, on accumulated contributions in said fund, as shown by the accounts of this system, taking into account net interest credited to all such accumulated contributions and all earnings on securities owned by said fund during that year. Regular interest shall be credited in the accounts of this system on said balance from and including the operative date of this chapter. Interest accrued on such securities to the date of transfer shall be included in the value so determined.

Legislative intent

20595. It is the intention of the Legislature in enacting this chapter that the officers and employees of the university included within the State Employees' Retirement System by Section 20590, shall be university members of the system with the same rights and status as if they had been brought within the field of membership by Chapter 806 of the Statutes of 1937, which included other employees of the university within the system, and that, except as provided in subdivision (c) of Section 20590, they shall be entitled to credit for prior service and for current service, and shall be otherwise subject to this part in all respects in the same manner and to the same extent as if Chapter 806 of the Statutes of 1937 had provided for their inclusion within the system; provided, however, that no person who becomes a member of this system pursuant to subdivision (a) of Section 20590 or who would have been

included in the Pension and Retiring Annuities System of the university, pursuant to Chapter XIII of the Standing Orders of the Regents as said chapter reads on the operative date of this chapter, but for the provisions of Section 20591, shall receive a service retirement allowance in excess of eighty percent (80%) of final compensation. Where, except for this proviso, his service retirement allowance would exceed eighty percent (80%) of final compensation, an appropriate refund shall be made of his own payments and interest thereon at the time of retirement.

SEC. 2. Section 20303 of said code is amended to read:

Other employees

20303. Every other employee becomes a member on the first day of the calendar month next following the completion of six months, uninterrupted by a break of more than one month, of employment by the State, by the university, or by a contracting agency; provided, that absence for military service shall not be considered a break for the purpose of this section.

SEC. 6. This act shall not become operative unless the Board of Regents of the University of California by a vote of at least a majority of the members of that board accepts its provisions and undertakes to discharge all obligations imposed upon the University of California by it, in which event it shall become operative on the first day of July following such action by the Board of Regents, but in no event after July 1, 1959.

CHAPTER 17.5. SCHOOL CONSTRUCTION IN STATE PROJECT AREAS

Article 1. General Provisions

Short title

7601. This chapter may be cited as the "State Project Area School Construction Law."

State policy

7602. In recognition of the impact which certain major state construction projects have on local school district building needs in the areas in which such projects are constructed, the Legislature declares that it is the policy of the State to bear a proportionate share of the construction costs of school buildings in the area affected in the manner and to the extent provided by this chapter.

Article 2. Apportionments

Apportionments Purposes

7606. Apportionment from the State School Construction Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes: (a) the purchase and improvement of school sites which have been approved by the department; (b) the purchase of desks, tables, chairs, and equipment, as approved by the department; and (c) the planning and construction, reconstruction, alteration of, and addition to, school buildings for such facilities as are approved by the department as essential, all of which purposes are hereby declared to be, and are, public works.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

Additional purposes

7607. In addition to the purposes for which apportionments may be made to school districts under Section 7606, apportionments may also be made to school districts for the construction, repair, attachment or development of off-site facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

District as agent of State

7608. In making applications for, and in expending, apportionments of funds under this chapter, a school district acts as an agent of the State and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the State. Upon the payment by the district of the amounts required to be paid by it to the State under this chapter the board shall, in the name of the State, convey such property to the district.

Insurance

7609. The board may require school districts to insure for the benefit of the State all sites, equipment and buildings which are the property of the State, against such risks and in such amounts as the board may deem necessary to protect the interests of the State. No state funds apportioned under this chapter shall be used to pay the premiums on said insurance.

Eligibility

7610. A district shall be eligible to an apportionment under this chapter if the estimated number of project children and indirect project children who will be in average daily attendance in the schools of the district during the period of the state project is at least 25 and is at least 5 percent of the estimated number of all children who will be in average daily attendance in the schools of the district during the current fiscal year.

Application

7611. Any eligible school district may make application for an apportionment for a grade level which it maintains by submitting through the governing board an application therefor in such form and number as the board shall prescribe. Such application shall be addressed to the board and shall set forth a project for the construction of school facilities for the district in accordance with the provisions of this section.

(a) Each application and copy thereof shall contain and be supported by:

(1) A description of the project and the site therefor, preliminary drawings of the school facilities to be constructed thereon, and such other information relating to the project as the board may require.

(2) A statement of the estimated cost of the project certified by an architect or structural engineer.

(3) Evidence that the district has or will have title to the site upon which the facilities as specified in the application will be constructed.

(4) Assurance that the district will cause the work on the project to be commenced within a reasonable time and prosecuted to completion with reasonable diligence.

(b) The board shall require such changes in the plans which an applicant school district submits with its application as the board determines is necessary or desirable to assure completion of the project with available funds of the district and the amount of the apportionment to which the district

is entitled under this chapter. For that purpose the board may delegate to the director or the Director of Finance, according to whether the subject matter of the revision of the plans is subject to the jurisdiction and approval of the director or the Director of Finance, the authority to require such revision in the plans as the board deems necessary or desirable to accomplish the purposes of this subdivision.

(c) Upon submission of an application for an apportionment under this chapter:

(1) The Director of Finance shall transmit a copy thereof to the director who shall as promptly as possible prepare a report and recommendation with respect thereto. Thereupon the director shall transmit his report and recommendation to the Director of Finance who shall refer them to the board if he finds them in proper form and otherwise sufficient. If the Director of Finance finds such documents to be lacking in any respect as to any matter subject to the jurisdiction of the director or the department, he shall refer them to the director who shall take such action as may be necessary.

(2) The Director of Finance shall determine the applicant district's financial ability with funds apportioned under this chapter and funds devoted by the district to the project to meet the cost of the project and submit his report thereon as promptly as possible to the board.

Board action

7612. At the next regular meeting of the board following the submission of the reports and recommendations required by Section 7611, the board shall, subject to the provisions of this chapter, approve or reject the application. If the board approves the application, it shall by resolution adopted by it, apportion to the district from the State School Construction Fund the amount applied for, or such portion thereof as the board determines proper. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 7613 is favorable. The conditional apportionment shall remain in effect for a period of nine months from the date of the resolution of the board. If the apportionment does not become final within the time prescribed, it shall become void and the money so apportioned shall again become available for apportionment pursuant to this chapter.

Authorization required

7613. No apportionment to a school district under this chapter shall become final unless, at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board of the district to accept, expend, and repay, as provided in this chapter, an apportionment under the provisions of this chapter. Such election shall be called, held, and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words:

Election

Ballot form

"Shall the governing board of the _____ school district be authorized to accept and expend an apportionment from the State of California under and subject to the provisions

of the State Project Area School Construction Law, a portion of which amount is subject to repayment as provided by said law? Yes _____ No _____."

Article 3. Computation of Apportionments

Computation

7616. The board shall compute for each applicant school district the amount to which the district is entitled under the provisions of this chapter in the manner prescribed by this article.

7617. In the computation of the apportionments to applicant school districts, the board may utilize the facilities and services of any department or agency of the State and may delegate the performance of any duties or functions, except those specifically delegated by this chapter to the director or department, to any officer or employee thereof as the board deems necessary and proper.

Amount

7618. The board shall multiply:

(a) The estimated number of project children in the district by the current construction cost per pupil in the area of the state project.

(b) The estimated number of indirect project children in the district by the current construction cost per pupil in such area, multiplied by 55 percent.

"Current construction cost per pupil" as used in this section means the average per pupil cost of constructing complete school facilities for the grade level maintained by the district for which application for an apportionment is made under this chapter.

The total of the amounts computed pursuant to subdivisions (a) and (b) shall be apportioned to the district.

Average per pupil cost

7619. (a) The average per pupil cost of constructing complete school facilities in the area of the state project for the purposes of this article shall be determined by the board, after consultation with the department and the Division of Architecture, on the basis of information obtained thereby and such other information as may be available to the department.

Number of project children

(b) Estimates of the number of project children and indirect project children for the purpose of this article shall be made by the applicant school district in accordance with rules prescribed by the director and shall be made as of the time the greatest number of such children will attend the schools of the district as a result of the state project. Such estimates shall be made on the basis of the best information available to the district at the time of the application. Approval of such estimates by the director, in whole or in part, shall be on the basis of the best information available to the director at the time of such approval. In the approval of estimates of the number of project children and indirect project children for the purposes of this article the director may utilize the facilities and services of any department or agency of the

State as he deems necessary and proper. No estimate shall be used as a basis of an apportionment that has not been approved by the director.

Article 4. Payment of Apportionment

Certificate

7621. Immediately after the result of the election required by Section 7613 has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the school district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the State Controller. Upon the receipt by the board of the certificate, the apportionment shall become final.

Election

7622. The election by a school district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 7613 may be called and held either before or after the making of an apportionment.

Payment

7623. Payment shall be made in accordance with the terms of a final apportionment, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the date of the proclamation of the Governor proclaiming a state project in the area including the district, for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item shall be made only upon authorization of the board by special resolution citing this section.

Purposes

7624. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it to a school district under this chapter may be expended and such prescription shall be binding upon the governing board of such district except as it may be, for good cause, modified by the board.

Certification to Controller

7625. Each apportionment made by the board under this chapter shall be certified by it to the State Controller who shall thereupon draw his warrant on the State Treasury in favor of the county treasurer of the county having jurisdiction over the district. The warrant shall be paid by the State Treasurer from the State School Construction Fund and is not subject to the provisions of Section 16003 of the Government Code.

County treasurer

7626. The county treasurer of each county shall pay all moneys received by him under this chapter into the county treasury to the credit of the state school construction fund of such district, which fund is hereby created, exactly as apportioned by the board

Expenditure, purposes, reports

7627. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the state school construction fund of the district only for the purposes for which said moneys were ap-

portioned to the district and for no other purpose and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

Audits

7628. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes authorized by this chapter.

Article 5. Repayment of Apportionment

Repayment

7631. Each school district to which an apportionment is made under this chapter shall repay the principal amount of such apportionment in the manner prescribed by this article.

Completion of project

7632. For purposes of computing such repayment, the state project shall be deemed completed on June 30th of the fiscal year in which the state project is completed and accepted by the State.

Repayment

7633. Thereupon, if the district is eligible for an apportionment of state school building aid funds under the provisions of Chapter 19 of this division, the apportionment shall be repaid in the manner therein prescribed, in which case the provisions of Section 7735 and 7736 shall be applicable to the district.

Computation and manner

7634 The principal amount of the apportionment shall be computed and repaid in the manner prescribed in this article.

(a) On or before the first day of January succeeding the completion of the state project, the State Controller shall compute the annual repayment of each apportionment for each grade level maintained by the district, as follows:

(1) He shall determine from the certification of the director the total amount of average daily attendance of project children, and the total amount of average daily attendance of indirect project children, in attendance in the grade level maintained by the district for the period commencing with the date of the Proclamation of the Governor proclaiming the existence of a state project in the area including the district and ending on June 30th of the fiscal year in which the state project is completed.

(2) He shall divide the average daily attendance of such project children by 30 and multiply the quotient by the amount determined by the board pursuant to Section 7619 as the average per pupil cost of construction in the area of the state project.

(3) He shall multiply the average daily attendance of such indirect project children by 55 percent. The product shall be divided by 30 and the quotient multiplied by the amount determined by the board pursuant to Section 7619 as the average per pupil cost of construction in the area of the state project.

(4) The total of the amounts computed pursuant to subdivisions (2) and (3) shall be subtracted from the amount of

the apportionment to the district. The remainder shall be divided by 30 and the quotient shall constitute the amount of the annual repayment of such apportionment.

Time (5) Upon application of the district and approval by the board, the total amount of the repayment may be paid in a lump sum or in fewer than 30 years.

Reduction 7634.1. If on June 30th of the fiscal year in which the state project is completed there is classroom space constructed with funds apportioned under this chapter, that is not being used by the district, the board shall, upon application of the district, reduce the total amount to be repaid by the district on a proportionate basis until such time as the classroom space is used by the district. No payment shall be required by the district for the period during which such classroom space is not used by the district.

Deductions 7635. The State Controller shall, during the fiscal year in which he determines the annual repayment as provided in Section 7634, and for each subsequent fiscal year not exceeding 30, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Chapter 15 of this division; and, on order of the State Controller, the amount so deducted shall be transferred to the General Fund of the State.

Notification of deduction 7636. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during such fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

Levy of tax 7637. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the next levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money withheld by the State Controller during the fiscal year preceding that in which the tax is levied Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

Unauthorized expenditures

7643. Whenever the State Controller determines that any money apportioned to a school district under this chapter has been expended by such district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury, at the time of the next county settlement following receipt of such notice, the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice, such governing board shall, at the time specified herein, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Construction Fund, to be reapportioned by the board.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

School Construction Fund, appropriation

7644. A fund in the State Treasury is hereby created, to be known as the State School Construction Fund. CHAPTER 2397

An act to amend Section 2165d of the Welfare and Institutions Code, relating to the sale of real property by recipients of old-age assistance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 10, 1957. Filed with Secretary of State July 17, 1957.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 2165d of the Welfare and Institutions Code is amended to read:

Proceeds from conversion of real property to personal property

2165d. Any proceeds, including trust deeds, promissory notes, or mortgages from the conversion of real property into personal property received by an applicant or recipient of aid under this chapter shall be considered real property having the same assessed value as the real property converted for a period of one year from the time of their receipt, if such proceeds are retained for the purpose of providing a home. If the applicant or recipient receives as part or all of the consideration for such conversion trust deeds, promissory notes or mortgages, such trust deeds, promissory notes or mortgages shall be considered real property having the same assessed value as the real property converted for whatever period of time they are retained by the applicant or recipient, if within one year from the conversion he purchases property for use as a home, and all payments thereafter received by him on the trust deeds, promissory notes or mortgages are utilized as payments on the balance due on such home.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under existing law a recipient of old-age assistance who sells his home is permitted to treat the proceeds received, including those derived from trust deeds, as real property for the period of one year, if such proceeds are retained for the purpose of providing a home. The purpose of this provision is to preserve eligibility of the recipient for if the proceeds involved were considered personal property or income, he would in most instances be disqualified for aid, whereas in reality his net worth has in no way been changed by the sale. However, many recipients, in order to sell their homes, have been compelled to accept small down payments accompanied by large deeds of trust involving monthly payments running well over one year. Even though the recipient applies the proceeds received from a trust deed on payments for a new home, after one year he might well be disqualified for the aid necessary to his continued existence. Since a great many recipients are now in this position due to no fault of their own, it is essential that the one-year period prescribed by statute be removed as soon as possible, and that this bill go into immediate effect.

CHAPTER 2398

An act to add Section 335.5 to the Streets and Highways Code, relating to state highways.

335.5. Employee of function assumed by State

SEC. 2. Section 20393 of said code is amended to read:

20393. Any other provision in this part to the contrary notwithstanding, a member whose accumulated contributions exceed five hundred dollars ($500) shall have the right to elect, not later than 90 days after the date upon which notice of said right is mailed by this system to the member's latest address on file in the office of this system, whether to leave such accumulated contributions on deposit in the Retirement Fund under any of the following conditions:

Accumulated contributions Election to leave on deposit

(1) If his state service is discontinued by reason of resignation or discharge.

(2) If his state service is discontinued by reason of layoff or leave of absence deemed by the board to have resulted in

permanent discontinuance (and in such case, as of the date of the determination by the board that the discontinuance is permanent).

(3) If a member ceases to be entitled to credit in this system for future service because he has become entitled to credit for such service in another retirement system supported wholly or in part by funds of the United States Government, or any state government or political subdivision thereof.

(4) If the disability retirement of a member is followed by cessation of the disability and by cancellation of the disability allowance, but the member does not re-enter state service.

A member whose accumulated contributions are five hundred dollars ($500) or less also shall have such right to elect if he enters employment in which he is eligible to membership in a retirement system established under the County Employees' Retirement Law of 1937 within 60 days of leaving state service.

Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions unless the member is entitled to be credited with 20 years of service. An election to allow accumulated contributions to remain in the Retirement Fund may be revoked by the member at any time except while he is employed in state service in a position in which he is not excluded from membership in this system with respect to such service, or while he is in service, entered within 60 days after discontinuing state service, as a member of a retirement system established under the County Employees' Retirement Law of 1937. All contributions accumulated up to the time of revocation may then be withdrawn. A member whose membership continues under this section is subject to the same age and disability requirements as apply to other members for service or for disability retirement but he is not subject to a minimum service requirement. After the qualification of such member for retirement by reason of age, which shall be the lowest age applicable to any membership category in which he has credited service, or disability, he shall be entitled to receive a retirement allowance based upon the amount of his accumulated contributions and service standing to his credit at the time of retirement and on the employer contributions held for him and calculated in the same manner as for other members, except that the provisions in this part for minimum service and disability retirement allowances do not apply to him, unless he meets such minimum service requirements. Upon the death of such a member prior to retirement under this section, such death benefit as may be payable under Article 5 of Chapter 9 of this part shall be computed upon the basis of his average annual compensation earnable for the year preceding the date of termination of such service, multiplied by the number of his completed years of state service prior to such termination not to exceed six.

SEC. 3. Section 21360 of said code is amended to read:

21360. CHAPTER 2402

An act to amend Sections 2201, 2208 and 2210.5 of the Streets and Highways Code, relating to financial aid for county highways.

[Approved by Governor July 15, 1957. Filed with Secretary of State July 17, 1957.] In effect September 11, 1957

The people of the State of California do enact as follows:

SECTION 1. Section 2201 of the Streets and Highways Code is amended to read:

2201. Congress has enacted the Federal-Aid Highway Act of 1950 in which federal appropriations have been authorized for projects on secondary roads of various types. By apportionment of the authorization made pursuant to the federal Apportionment of federal aid

act, it is anticipated that substantial sums will be made available for expenditures on such roads in California. The apportionment to California is to be made available for expenditure on either state highways or county highways which qualify under the federal law. County highways throughout the State are in greater need of such expenditures than are state highways on the Federal-Aid Secondary System. It is therefore, determined by the Legislature that, insofar as permissible under federal laws, rules, and regulations, at least eighty-seven and one-half percent (87½%) of the money apportioned to California for such projects as are mentioned in paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 should be expended for the improvement of county highways in this State, except that during the 1957-58 and 1958-59 Fiscal Years at least ninety-eight and one-half percent (98½%) of such moneys shall be expended for the improvement of such highways. Inasmuch as these county highways are a matter of state concern and many of the counties are financially unable to furnish funds to be used with federal funds as required by federal law, funds should be provided from state sources therefor.

SEC. 2. Section 2208 of said code is amended to read:

2208. It is in the interest of the State and its counties that at least eighty-seven and one-half percent (87½%) of the money available for construction of highways in this State pursuant to the provisions of paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 be apportioned for expenditure among the counties in the manner and in accordance with the formula prescribed in subdivision (b) of Section 4 of the Federal-Aid Highway Act of 1944 for apportionment among the states, except that the census figures used in making such apportionments shall be those shown by the latest available federal census.

Notwithstanding the percentage specified in the preceding paragraph, during the 1957-58 and 1958-59 Fiscal Years at least ninety-eight and one-half percent (98½%) of such moneys shall be so apportioned among the counties.

SEC. 3. Section 2210.5 of said code is amended to read:

Availability of funds

2210.5. The department shall pay the State's share for construction of county highways as provided in this chapter out of the money received in the State Highway Fund under Section 2108, and the money so paid shall be included in the computation of compliance with the requirements of Section 188. The funds made available by this section shall be apportioned for expenditure in the counties on the same formula as provided in paragraph (b) of Section 4 of the Federal-Aid Highway Act of 1944 for apportionment among the states; provided, however, that no county shall receive a total amount in excess of one hundred thousand dollars ($100,000) in any one year, except that during the 1957-58 and 1958-59 Fiscal Years no county shall receive a total amount in excess of two hundred thousand dollars ($200,000) each year. The depart-

ment may advance funds from the State Highway Fund, if available, as necessary to permit award of contracts at any time after January 1st preceding the beginning of the fiscal year to which the federal apportionments apply. None of the money made available by this section shall be expended on any highway, street, or road which is not a county highway, except as expressly otherwise provided in this chapter. The increase in the State's share provided for by the 1957 Regular Session of the Legislature shall be available for apportionment beginning with the 1957-58 Fiscal Year.

CHAPTER 2403

I object to the item of the appropriation in Section 6 of Senate Bill No. 659, and I reduce the amount of said appropriation to $600,000. With this reduction I approve the bill

SEC. 4. Section 965 is added to said code, to read:

SEC. 5. Section 966 is added to said code, to read:

966. The juvenile court shall not place in such juvenile homes, ranch camps, or forestry camps any person described within the provisions of Section 729 of this code. This provision is made to carry out the terms of the last mentioned section wherein it is provided that in all cases the minors mentioned in that section shall be segregated from minors charged with any criminal offense under Section 700 of the Welfare and Institutions Code, or section of any other code or provision of law.

Appropriation

SEC. 6. There is hereby appropriated to the Youth Authority, out of any money not otherwise appropriated, the sum of one million one hundred thousand dollars ($1,100,000), for allocation to the counties to share in the cost of construction of institutions for juveniles pursuant to the provisions of this act.

CHAPTER 2404

An act to add Section 9651 5 to the Revenue and Taxation Code, relating to the motor vehicle transportation license tax, to take effect immediately.

In effect immediately

[Approved by Governor July 11, 1957. Filed with Secretary of State July 17, 1957.]

The people of the State of California do enact as follows:

Declaration of policy

SECTION 1. It is hereby declared as a matter of legislative policy that the operation by private enterprise of passenger stage corporations, as defined by Section 226 of the Public Utilities Code, is in the public interest; that the furnishing of adequate public transportation by such common carriers, particularly in cities and suburban areas, is of vital importance to the public; and that the continuance and use of such transportation facilities should be encouraged for the additional purposes of relieving traffic congestion and reducing air pollution.

It is hereby found that during the past five years 14 such companies operating in California have been forced to abandon service and to go out of business and that others presently are contemplating such action because of continued losses that render continuance of adequate service under existing conditions impossible; that increasing operating costs have required repeated increases in fares which have resulted in a steadily declining volume of patronage; that the opportunity of earning a return of at least 6½ per centum net of gross operating revenue after all taxes properly chargeable to transportation operations, including but not limited to income taxes, would not be unreasonable; that to further the opportunity to afford such

adequate public transportation and earn such rate of return it is in the public interest to accord such common carriers a separate structure as to certain of the state taxes now applicable to them, and in particular with respect to the Motor Vehicle Transportation License Tax, therefore:

SEC. 2. Section 9651.5 is added to the Revenue and Taxation Code, to read:

9651.5. The license tax shall not apply to a passenger stage corporation, as defined in Section 226 of the Public Utilities Code, which is subject to the jurisdiction of the Public Utilities Commission, when the motor vehicles of such passenger stage corporation are exclusively operated in urban or suburban areas or between cities in close proximity for the transportation of persons for hire, compensation, or profit; provided, however, that if the one-way route mileage at any time of any line or lines operated by such passenger stage corporation shall exceed 50 miles, then the gross receipts from such line or lines each so exceeding 50 miles of one-way route mileage shall be subject to the license tax. Exemption from license tax

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. Tax levy

Any of the sewers or works or any part thereof may be located outside the City. Such revenue bonds shall not constitute an indebtedness of the City but shall constitute obligations which shall be payable, principal and interest and any premiums upon the redemption thereof prior to maturity only from the Sewer Revenue Fund; provided, however, that this shall not preclude the payment or redemption thereof from the proceeds of refunding bonds issued to refund said revenue bonds or the use of accrued interest and premiums paid upon the sale and delivery of the revenue bonds for the payment of principal thereof or interest thereon. (2) The Council may issue revenue bonds payable from the Sewer Revenue Fund pursuant to and in the manner provided in this section after recommendation by the City Manager that bonds be issued hereunder, which recommendation shall state generally the purposes of the revenue bond issue and the principal amount thereof Such recommendation need not be in any particular form.

(3) After the recommendation by the City Manager has been received by the Council it may adopt an ordinance finding the need for the issuance of revenue bonds under this section for the purposes set forth in the recommendation of the City Manager. The Council, by said ordinance, shall submit to the qualified voters of the City at an election held for that purpose the question of issuing revenue bonds pursuant to this section to provide moneys for the purposes stated in the recommendation of the City Manager.

The Council, by a vote of two-thirds of the members thereof, may adopt a resolution stating that it determines to proceed under this section without a recommendation by the City Manager. Any such resolution also shall state generally the purposes of the proposed revenue bond issue and the principal amount thereof and in the event such resolution is adopted no recommendation of the City Manager shall be required and the ordinance shall find the need for the issuance of revenue bonds under this section for the purposes stated in the resolution and the purposes stated in the question submitted to the qualified voters of the City shall be the purposes stated in such resolution. In the event the Council adopts a resolution to proceed without the recommendation by the City Manager, the ordinance calling the election may be adopted only by a vote of at least two-thirds of the members of the Council and at a meeting subsequent to that at which the resolution was adopted.

The ordinance calling the election shall·

(f) fix the manner of voting for or against the issuance of the bonds.

In all particulars not stated in said ordinance the election shall be held and the votes canvassed in the manner provided by law for general municipal elections in the City.

The question may be submitted at a special election called for that purpose or at any City election and any special election called for the purpose of voting upon a question of issuing bonds under this section may be consolidated with any election at which all of the qualified voters residing within the City are entitled to vote Such consolidation may be made in any manner authorized under the Elections Code of the State of California or under the Elections Code of the City.

(4) The ordinance shall be published once a week for two succeeding weeks in the official newspaper of the City, the first publication to be at least 21 days prior to the election. No other notice of such election need be given. If a majority of the voters voting on the question of issuing the bonds vote in favor of the issuance thereof bonds in an amount not exceeding the amount stated in the ordinance calling the election may be issued.

Said bonds shall be issued in negotiable form and shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and sold under this section shall be conclusive evidence of compliance with the provisions of this section and of the validity of such bonds, and no bona fide purchaser of any such bond containing the recital permitted by this section shall be required to see to the existence of any fact or to the performance of any condition or to the taking of any proceeding required prior to the actual issuance and delivery of said bonds or to the application of the purchase price paid for said bonds.

(i) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of provisions of any ordinance, resolution or order authorizing or providing for the issuance of such bonds or the sale thereof, or to a refunding of said bonds and to calls or exchanges in connection with such refunding;

(j) For the issuance of a duplicate, in the manner and upon such terms and conditions as the Council may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue is lost, destroyed or mutilated;

(k) Any other provision (including covenant) valid under the Constitution of the State of California and the United States of America.

Such ordinance shall be subject to referendum in the manner that other ordinances of the City are subject to referendum.

Any ordinance providing for the issuance of any revenue bonds under this section and all other ordinances, resolutions or orders in the proceeding for the issuance of said bonds shall constitute a contract with the holders of the bonds and may be enforced by any holder by mandamus, injunction or any applicable legal action, suit, proceeding or other remedy.
