SPEECH BY ASSEMBLYMAN BASHORE

Mr. Chief Clerk and Members of the Fifty-fifth Session of the California Legislature:

Twenty-five years ago many Members of this body were serving in the armed forces of the United States in France. At that time, we were fighting for the purpose of making the world safe for Democracy. We completed our work very satisfactorily, but subsequent to that time, through the lack of proper leadership in our Federal Government, we permitted this Nation's defenses to become weakened to the point that we were attacked by an aggressor nation. I am firmly convinced that, had we had proper leadership during that 25 years, it would not now be necessary for my boys, or for your boy, Mrs. Niehouse, or yours, Mr. Knight, or yours, Mr. Robertson, or yours, Mr. Heisinger, to now be engaged in finishing a job that we attempted to do 25 years ago. God forbid that we ever again permit this Nation to become so devoid of leadership that it will be necessary for our grandchildren to engage in a bloody war. Never before in the history of the United States have the people become so interested in leadership as they are at the present time. Each one of you were elected to your present position because of the leadership that you possess. Certainly many other people in your respective districts were qualified to serve as Members of the California Legislature, but the people of each respective district elected you to the Legislature because of the outstanding leadership displayed by you.

We are now assembled as members of the first wartime Legislature of the Second World War. The Constitution places upon us the responsibility of choosing a leader to serve as Speaker of the Assembly for the ensuing term. Each Member of this Legislature has the ability to serve as Speaker; however, if we are to be outstanding in our efforts in California, then we must choose the one best qualified for that leadership. I have written a letter to my son who is in the armed forces which I intend to mail to him on the fifteenth day of May this year, and I am going to read to you what I have written.

May 15, 1943

*Glenn H. Bashore
Somewhere With the United States Navy*

DEAR SON: I have just returned home from the Fifty-fifth Session of the California Legislature. Looking at your vacant chair at the dinner table, I felt that you might be interested in some of our accomplishments. This session of the Legislature was the most harmonious, and achieved more in less time than any previous session. I think, Son, that this was accomplished by two reasons. First, the intelligence displayed by the Members of the Legislature in choosing a Speaker. The Speaker we chose was an individual qualified to conduct the affairs of the Legislature, maintaining proper decorum, and conducting all of its activities in a very businesslike manner. But I think the second reason is probably more important than the first, and that second reason is this: For the first time in the history of the Legislature, the Speaker was unanimously elected on the first ballot. Partisan politics were thrown out for the duration. Members of the Democratic party, even though they were in the minority, put aside any party differences and served only as Americans. The Republicans, on the other hand, even though they were in the majority, did not use that majority in an attempt to whip into line those of the minority party. I think, Son, that this occurred because of the fact that members of both parties realized that those boys who gave their lives at Pearl Harbor and those who have subsequently given their lives at Guadalcanal, Africa, and other theaters of war did not do so as Democrats or Republicans, but did so as Americans.

We were able to reduce State expenditures, and we reduced State taxes, thereby enabling the citizens of California to purchase more war bonds to assist you and your buddies in your great effort. We amended our Old Age Law so that our senior citizens will no longer have fear of their future welfare

We provided appropriations to build our State institutions into the finest institutions in the World, and above all, Son, it appeared that every Member of the Legislature was thinking of you and all your buddies, and wisely provided for a post-war program so that when once again after victory you return you will be assured of ample employment at decent wages in private enterprise.

May God bless you and protect you, and may He speed the day when we will attain ultimate victory, and you will once again occupy the vacant chair at the dinner table.

Your DAD

It is with a feeling of personal friendship and high esteem that I'm about to nominate an individual for Speaker who has a smiling countenance, an amiable and agreeable disposition, a friendliness that is warm; a temper never ruffled, be the weather turbulent or serene; a man of outstanding ability and particularly well qualified for your presiding office.

A quarter of a century of legislative experience rests on the shoulders of Charles W. Lyon—whom I now nominate for Speaker.

SPEECH BY SPEAKER CHARLES W. LYON

Members of this Assembly:

First, let me express my deep thanks and gratitude for the honor you have just bestowed upon me.

Having been a member of the Legislature almost continuously since 1915, you may well know my present feeling of sincere appreciation.

As Speaker, it will be my hope—it will be the aim of my every act—to justify the confidence of the Members of the Assembly for honoring me with this high position.

As for the business at hand:

Our Country is at war

Our Nation finds itself involved in the bitterest and bloodiest conflict in history.

Former colleagues of ours are now serving under the Colors. There is hardly a family represented by you members which has not been touched directly by the great holocaust.

It is, therefore, our duty to make this Legislature a *war Legislature!* May I hope—not a "warring" Legislature!

I believe that, as far as possible, we should confine our efforts to legislation needed in the successful prosecution of the war and the defense of the people of our great State.

Nothing but our best will do. Anything less, to my mind, would be legislative treason!

There are certain legislative matters which must be considered in the light of present day conditions.

Personally, I feel that we should cooperate with the military forces in every way, and I am sure that this Assembly feels the same as I do in this particular

Specifically, the splendid work of defending our lives and property, particularly in California, by the Army and Navy authorities should, and I know will, receive 100 per cent cooperation from the Members of the Legislature and from the people of the State of California.

There is an immediate need for the correction and the simplification of birth certificate procedure; revision of the State Guard and State Militia statutes.

There is the matter of the war-time budget. Reduction of taxes, considerations of added aged relief, and other such matters as probably will be contained in the Governor's message, should, as nearly as possible, be the scope of our work.

Matters involving the State Guard and civilian defense should be finally disposed of during this January session.

The first and foremost war-time objective of the Members of the Legislature and of all city and county governments is to streamline their governmental activities, particularly since the Federal Government has taken over so many of the functions of the State, county and city governments. The terrific tax burdens that are being imposed by the Federal Government make this necessary.

I feel that there should be an elimination of the overlapping functions in Government in order that taxes may be reduced as much as possible in order to meet war needs.

The income tax should be materially reduced.

I believe California State taxes should be reduced as nearly as possible in the same proportion as Federal taxes are increased. With a tremendous cash reserve already on hand, and growing larger daily, there appears no good reason why the individual taxpayer should not be relieved of as great a burden of State and local taxes as is consistent with fixed charges, in order to put the taxpayer in a better position to provide the funds for carrying on the war effort.

Committee designations have quite generally followed the Weber Plan. Meeting times, to be fixed I believe will result in a minimum of confusion and will be an additional time saver for all members.

The decision as to whether we streamline the Assembly and reduce the number of committees, thus making for, what I believe, more orderly legislation, depends entirely upon your adoption of the new Standing Rules as proposed by your Committee on Legislative Organization which will be presented for your approval.

I feel our experience during the past sessions should be the best reason for the adoption of the new Rules. We've lost time through lack of quorums; through no particular fault of our own we've inconvenienced many persons who journeyed long distances to come to Sacramento to appear before our committees.

Many of these faults will be corrected by the proposed streamlining.

I feel certain better and more constructive legislation will result in our having fewer committees; less duplication of effort.

The value of your service to our State will be enhanced. It should make the individual Legislator's work more interesting and, certainly, less arduous.

In making the selections for committees, let me say that I will zealously strive to comply as nearly as possible with the members' requests, and the particular fitness and experience of the individual members—not partisanship. It is my sincere hope that, with your kind understanding of the difficulties involved, you will approve, and that the appointments will be as nearly satisfactory as possible under the circumstances.

You will note when the committees are announced that in addition to the chairman I have named a vice chairman for each committee. In my opinion, there is as much honor and prestige in being named a vice chairman of a committee, with the present small number of committees, as it would have been to be named a chairman under our former Rules.

Plans have already been formulated with the Legislative Counsel Bureau as to the introduction of bills, which will substantially reduce the number of measures by avoiding certain duplications. This will reduce their number and definitely shorten the length of our session.

While I have spoken of the desire to limit our present legislative scope to those matters dealing directly with the war, and our fullest cooperation with the National Government in bringing the awful conflict to a speedy and successful conclusion, we should not be unmindful of the problems the peace will present to us.

The post war period will test our mettle, our ingenuity and our ability as we never before have been tested.

The "California problem" will be the greatest problem in the Nation.

On every hand we have seen gigantic developments; tremendous expansion in our airplane and our shipbuilding industries.

Countless new enterprises, all directly or indirectly stemming from our war effort, have been established in California.

Each industry, each new product, has meant new employment. JOBS! Unemployment is almost the forgotten word!

California was not able to meet these new manpower demands. Literally thousands upon thousands of fine people from the other States of the Union have come to California to take advantage of these new job opportunities which the great war concerns have generated.

On the other hand, some small businesses have suffered and are likely to be further threatened as the war progresses.

God willing, we can play an important part in keeping our State and our people from many of the trials which the peace is certain to bring in its wake.

Employment will loom large as a major question on the peace horizon.

The transition from the manufacture of the weapons of war to the pursuits of peace can not be made over night.

Large enterprises must not be looked upon as tax sources alone, but, rather, great reservoirs of opportunities for employment.

Equally important is the problem of the survival of the small enterprise.

Donald Nelson, Chairman of the War Production Board, has said: "If we are to win the peace as well as the war, the principle of independent enterprise—small business—must not only survive but also become a stronger, more effective force in our economic life."

Our Nation, built upon the firm foundation of free enterprise, must not sacrifice that cornerstone of our Democracy.

These are but a few of the issues we will soon be called upon to face, and face them squarely we must. It is our duty.

And it is a duty, I am convinced, that you men and women of the Legislature, you who have been elected to represent the people of our State, WILL meet.

You will meet and surmount those duties because you, as Californians, will be ever-courageous, ever-faithful and ever-true to the trust the people of our great Commonwealth have imposed upon you.

It shall be my endeavor to make this session as short a one as possible, consistent with the enactment of good legislation. I am sure that every member will agree with that sentiment.

May I again thank you for the faith and trust you have placed in me in electing me your Speaker.

Let me say again on this, one of the happiest moments in my long career as a legislator, that by my every act; by my offer of the fullest cooperation with every individual of this, the Fifty-fifth Session of the Legislature, I shall endeavor to merit the tribute you have paid me today.

I thank you.

INTRODUCTION OF GOVERNOR EARL WARREN

Hon. Charles W. Lyon, Speaker of the Assembly, then introduced Governor Earl Warren to the Joint Convention.

INAUGURAL ADDRESS OF GOVERNOR EARL WARREN

Governor Earl Warren then proceeded to address the Joint Convention as follows:

Members of the Senate and the Assembly of the State of California

We meet here today under conditions which strip the occasion of all gloss and pompous ceremony.

We meet as men and women assembled to undertake an emergency task—a task which for fulfillment will require that adherence to unity of purpose which we find in our fighting men as they respond to the call to their battle stations.

We meet here as representatives of the people of California in an hour of crisis. Hourly, thousands of those whom we represent will be offering their lives to protect our right to meet.

I feel that you legislators sitting before me will rise to a man in seconding the declaration that we must not leave these halls without a record of accomplishment in keeping with need. I know we are in agreement in the abstract thought that we have a patriotic duty to perform. But, more than that, I believe we are in agreement that we must immediately remove all mental barriers and get to work.

Thus, as we assemble at our battle stations, I appear before you, not only in compliance with statute, but because of an earnest wish to give you an understanding of my own thoughts in regard to our critical problems. I want to work with you. What we undertake and accomplish here during the next few months will radiate an influence upon the present and future well-being of every Californian and will contribute to the strengthening of the position of our Nation which is, in its entirety, being harnessed to the requirements of unprecedented mechanized global warfare.

The meaning of war—its compulsions, its disruptions, its distortions and its cold mecrency already shadows our lives and encompasses our thoughts. This Nation is, I repeat, caught in its entirety in the current of global strife. Where the ship of democracy sails we will sail for we are an integral part of the ship. We in California constitute a vital part of the ship structure—the exposed side of the ship at water's edge.

Clear Thinking Required

As representatives of the people of California, we have been entrusted to find ways of gearing the machinery of State Government so as both to absorb the shocks imposed by war and to alleviate the severity of post-war uncertainties.

In rising to the abnormal responsibility imposed, it is obvious that we must cut out all the dry rot of petty politics, partisan jockeying, inaction, dictatorial stubbornness and opportunistic thinking. We must seek with singleness of purpose to make use of every fiber of energy that can be tooled to close the niches of weakness which exist and harden the resistance to impacts to come.

There has never been a period in our history when the need for understanding and appreciation of the true concepts of democracy was so important. Nor has there been a session of the California Legislature at which the full use of democratic processes was more imperative.

We are in the midst of an era in which doubt has been cast upon the efficiency of democratic government. We are at war because in another land a power-mad sign painter capitalized upon the distress of a depressed and confused people to seize dictatorial powers. Once mobilized he raised his challenge to free men the world over in the belief that the Achilles heel of free government would be its indecision and slowness to act.

Our fighting men are disproving his false theory on far-flung battle fronts today but the theory will not be repudiated with finality until a double victory has been achieved. We glory in the caliber of our fighting men but let it never be considered that they alone are carrying the responsibility of our day. Confronting us here on the home front is an equally imperative challenge—the challenge for perfection of that for which they fight—the broadening of popular understanding, faith and reliance in the machinery of democracy and its religious ideals.

We gather here in accordance with the democratic principles for which young men from our home towns are manning guns in Tunisia, over North Africa, over Burma, on Guadalcanal, in Iceland, England over all continents of the world and on each of the seven seas. We have seen the signs of confusion arise over the slowness of democracies to function. Ours is an opportunity to restore confidence in those who have become distraught and misguided. Ours is an opportunity to strengthen faith in men's ability to work together for the common good.

I would not be here addressing you today if the people of this great State had not made their own analysis of their common problems and ordered a change in administration. They sent you here as legislators and honored me with the Governorship for one reason alone—they expect us to work together and produce results. They rely upon our ability to fix our minds upon common objectives which are in their interests and reach achievement in goals through cooperative action.

I share in this reliance. It is one of the reasons I have said many times that the immediate restoration of good will in California will be one of my primary objectives. I want to see State Government achieve a balance obtainable only through warm cooperation and courteous consideration. I recognize you, the Legislature, as a coordinate branch of democratic government, possessed of the dignity and the right to meet when you desire, and to plan and initiate legislation which is just as much in keeping with the public wish as that which I may suggest. I want to restore and maintain a balance of understanding and confidence which, through mutuality of effort, facilitates action in behalf of the people as a whole.

Californians Are Not Timid

As we approach our respective tasks let me say: This State has never been afraid to be progressive. It has never been afraid to try new things which it understood. I know that you as legislators are responsive to the ideals, principles and forward outlook which has so pronouncedly dominated California thought and that you share in the belief of the voters that no clique, no faction and no party holds priority on all the rights of helping the common man.

I come before you today with a list of suggestions which I consider in need of immediate legislative attention. In making these suggestions, let me say at the outset that I believe we must, in facilitating the war effort, pursue what might be termed a policy of first things first. That which is involved in the war effort must of necessity be given preference.

There has accumulated in California a wide range of subject matter which, broadly interpreted, comes under the heading of "wartime legislative needs." Some of it calls for remodeling and streamlining existing social and humanitarian endeavors which show the strain of war conditions. Some of it calls for progressive innovations which correct abuses and advance the considerations given those engaged in war effort. Much of it calls for the introduction of broad protective programs which will blossom forth with their peak benefits after the war has ended. And, some of it is strictly martial in character, the direct result of our specific position as a theater of war.

The impelling force of your session will be the need for action in compliance with the needs of war. In part, these war-time needs arise from aggravations of long-existing needs among the people. They loom as emergency in character today but they do so primarily because they have so far failed to win proper evaluation in our long-range planning. Ours is the challenge of so streamlining government that its efficiency meets the need of the day and at the same time moves forward in the recognition of older problems which we see accentuated by war.

In the latter we will meet the test of our knowledge of needs and also the test of our progressivism.

Must Protect Public Health

There has arisen in California since the conditions of war became so manifest, a tremendous problem involving public health. Long-established cities have found themselves transformed by population shifts into communities with burdens exceeding all previous conception. Even more startling has been the transformation of mere trailer camps into communities faced with the sanitary responsibilities of large cities.

Behind the outward veneer of these remarkable developments lurks a problem which must be given recognition by government. The strain upon sanitary facilities, the arrival of new peoples, and the extra hours of human effort required by war needs join in creating a health problem of undeniable magnitude. As we approach this problem, we must keep in mind the necessity of long range planning for the day will come when California becomes the funnel through which men, now fighting in strange lands throughout the world, will be returned to normal contacts. The tests of our ability to control and resist disease are destined to increase.

Nor is the broad consideration of the present and future protection of health the only problem accentuated by the rush of war workers to our State and the return of fighting men from disease-infested lands. Among those workers in production in this State are thousands undertaking tasks with which they are unfamiliar—tasks at which they are at first unskillful and without full appreciation of hazards. We must act to protect them, to protect our war production manpower and to protect our structures which cushion, at least to some degree, the human suffering which is entailed.

New Problems Confront Women

In our efforts to build protective services to the highest point of efficiency, we must direct new thought to those unprecedented considerations forced upon us by the emergency participation of women in war effort. We have seen women, by the thousands, respond patriotically to the call to relieve men needed elsewhere in war activities and, as they have responded, we have recognized the imposition of new strains upon our social structure. We must recognize that women have assumed their emergency burdens at the sacrifice of normal home life, normal family contacts and also, at the as yet unmeasured risk of impairment of health.

We must survey this field in its entirety to determine the extent to which human values are involved, for numbered among its deeper aspects is the question of stability of family influence. There must be no weakened generation in California chargeable to failure of the State to recognize the strains of this emergency upon either child welfare or sacrifices called for on the part of our women.

While our schools must, of necessity, perform services in connection with the war effort, we must guard against being sidetracked from appreciation of their fundamental purpose. We must remember that the schools are maintained for the training of our youth. Democracy is not a static form of government. It is maintained by constant struggle. Every generation finds a new assault being made

against it by new forces with new devices and the struggle for freedom is always the greatest task of the future as it has been throughout the past. The permanence of a democracy will therefore depend upon the training and inspiration provided for its youth.

Nor should we permit the hysteria of war times to cause neglect in our responsibility to such of our youth as loses its way in these times of uncertainty. We want a program for child welfare designed to bring out the best in every child.

In this field there lies a neglected opportunity through which we can make a great additional contribution of future welfare. From out of a long experience in law-enforcement work, I have come to feel with certainty that we have been making a wrong approach to our crime problem. I am convinced we must revise our programs so that the emphasis is placed upon prevention instead of suppression. If we can bring our juvenile courts, our trial courts, our law-enforcement agencies and our penal institutions into harmony with such an approach, I am confident we will have made a definite contribution to our future welfare.

We have, I feel, already agreed upon the necessity of expanding the influence of the California Youth Correction Authority. I visualize such transfers and consolidations of existing agencies as will streamline, under this Authority, all services in the interests of youth in dire need of a helping hand. In broader aspect, I visualize adherence to a policy in all government activities which reflects a sincere desire to help men, women and children to develop and unfold the best that is within them—something that can never be done under a policy which places reliance almost entirely upon crime suppression.

Penal Reform Necessary

In our efforts to rehabilitate those whose missteps in adult life have led to State assumption of responsibility, I want to take every bit of politics out of the parole system and the pardoning power. I shall appoint to the Board of Prison Terms and Paroles only men of character, experience and a healthy normal approach to our prison problems. We must make certain that those who are paying their debt to society are not ground further into the mire by the pressure of the cruel heel of politics.

People, men, women and children, can not develop the best that is within them without doing useful work. Our practice of matter-of-fact confinement of people without affording them, through work, an outlet for body and mental energy, is wholly wrong. I want to stimulate the employment of all people in our penal institutions. I want to see them engaged in activities which develop their bodies and spur their desire to be restored to society.

I shall later ask you to consider a new approach to the parole problem. There lies within most men who have been removed from ordinary contact with society, a desire to prove their right to the confidence of their fellow man. Procedure could be established under which these men could be restored to community life and permitted, through rightful living, to earn pardon recognition from the courts in the community in which they have demonstrated a right to such consideration.

Local Government

As we approach the serious emergency problems which have arisen as a result of the war, I want to express the hope that there can be developed a new co-relation between the efforts of cities, counties and State agencies. I believe that the very essence of democracy is the right of people to govern themselves and this starts in local communities. Our State administration must be responsive to the needs of the people and it must counsel with and be ever regardful of the thoughts of smaller units of government. I say this because I believe it to be fundamental. People retain their interest in government only as they are encouraged to participate in it, and it is in local government that we find the greatest opportunity for participation and therefore the greatest reflection of public will.

Manpower Utilization

We must, in our State Government, increase the flexibility of all agencies which are not yet fully participating in the war effort and break down those barriers which retard decision and action. In accomplishing this we will be doing no more than accepting the responsibility of leadership which is expected. We face no greater immediate challenge than to turn loose the full power of State energy in search of solutions for which farm, industrial and labor groups are now groping as they strive to meet unprecedented production demands.

We have desperate need at the moment of advancing in the solution of our critical farm labor problem. Our contribution to the better utilization of such manpower as is available will come only after study of the participation that can be expected of our men, women and children and of possible supplemental labor from sources developed in cooperation with the Federal Government. We must make certain that this study is not prolonged beyond the present brief seasonal respite from peak demand.

Our State has mushroomed in industrial growth and at the same time made heavy contributions to the armed forces. Proper emergency utilization of all labor

otherwise available is becoming a matter, not only of State, but of National concern. It rises as a problem which we must recognize as far too serious to be hampered by false conceptions or the delays of red tape.

Supplementing this urgency consideration of manpower utilization there must be launched a companion study of post-war utilization. Patriotic duty is now causing dislocations which will later sorely test our recuperative powers. Yet, I hold that it is possible to plan now in a manner which will add to our strength when these post-war tests occur.

California of the Future

The California I visualize after the war is not one which we have so far known. It is a greater California—a California which has recognized its resources and opportunities and made them ready for peacetime utilization.

There have been introduced into California during recent months vast shipbuilding, aircraft and war material industries which came here, not as a result of normal competitive advantages, but as a result of Nationally directed war effort. Regardless of how they came, they are shaping the destiny of our State and changing our economy. Whether these sources of manpower utilization and productive energy remain with us after the war will depend, in a large measure, upon our appreciation of opportunity.

If we are to move forward rapidly after the war, we must do those things required to attract and hold these and other industries in competition with the rest of the world. To hold them we must make for ourselves every advantage which our geographical position, our climate, the rich deposits in our hills and our many other resources permit. We must probe beneath the surface and exploit those advantages which have heretofore been but vaguely recognized.

Proper development of these and other resources will inescapably call for new considerations in connection with highway planning. Here again is an activity of State Government which I hope can be raised to a scientific level far above the hindrances of petty politics. In substitute for a wholly political highway commission, I believe there should be set up a division of highways which will utilize in the full the research and planning done by our capable State engineers.

Ours is the task of so planning the conservation and development of our resources that industry feeds upon them for its own peacetime recovery and in so doing increases the utilization of our manpower. In pursuance of this task we will be adhering to what I believe to be a fundamental principle of democratic government—the encouragement of free enterprise in a manner which benefits the people as a whole. I hold to the conviction that government and industry share joint obligation in this connection. It is the obligation to so plan and organize that our people have assurance of security and adequate return for services rendered—the opportunity to work.

As safeguards against extremes which may cause a lag in the full realization of our peacetime development, I urge the preparation of a manpower utilization program which can serve to take up the slack. We must avoid a return to the dole. We must set ourselves to the scientific preparation of a backlog of construction projects which coordinate in purpose and service the physical improvement of our State and the bolstering of morale through beneficial utilization of surplus manpower.

Pension Study Planned

In supplement to these studies, it is my hope that a way can be found of improving the lot of our elder citizens through the broadening of our approach to the pension problem. They are the first to suffer in periods of labor surplus and the last to receive the benefits of industrial activity. They are therefore entitled to our consideration.

It is my conviction that our pension system should not be based upon the requirement of pauperism. I want it to be based upon social right. I believe, as most of you believe, that the ultimate solution of the pension problem will come through advances made on a National scale. Yet, we should not permit this thought to delay our own efforts to build and maintain a pension structure within the limits of our ability to pay.

No sound contribution can be made by us in the advancement of our own and National thinking on the pension problem without removing the issue from the field of politics and propaganda. There must be a correlation of all sincere thinking on the subject in order that we may move in unison toward the most practical goal obtainable. In furtherance of this thought, I am preparing to appoint a representative committee whose duty it shall be to examine the entire problem and prepare a basic report for your immediate consideration.

Reorganize Civilian Defense

California is caught, not only in the economic grasp of these uncertain times but faces specific uncertainties arising from actual military conflict. We reside in a

theater of war. State leadership has no patriotic alternative but to assume responsibility for assisting all agencies in the protection of life, home and property.

We must guard against the emotional fluctuations produced by daily variances in the news of the war and proceed to place government in a position to perform with promptness and thoroughness all emergency services which may be required. We must offer the people a positive type of leadership—one backed with authority to act and advise—one which invites full public cooperation and confidence.

In making an approach to the reorganization of procedures surrounding our civilian defense efforts, we are all aware that there must, in the interests of speed and complete efficiency, be some further emergency power and authority in the State Government. In this connection, however, I would want you, as legislators, to satisfy yourselves in full measure that the innovations adopted will not destroy that fine balance between the executive and legislative processes which our National and State Constitutions contemplate.

There must be a new analysis made of the general scheme of civilian defense and law enforcement and it must be made with new conceptions of the need for closely knit action on the part of all city, county, State, National and volunteer agencies. We must achieve a new balance of responsibility and cooperation between State and local governments.

It is my intention to treat the entire subject of civilian defense more fully in a special message to the Legislature and ask that you give its proposals your earliest consideration. It will be my request that you reexamine the entire civilian defense structure in a cooperative effort to clarify, revitalize and complete our emergency protections.

It shall be my purpose to afford you the benefit of factual information developed in separate studies encouraged by my office and to urge your consultation with many men and women whom I have found possess broad understanding of specific phases of the problem. I take occasion now to commend to you the efforts of the officers and men of the State Guard who have labored under difficulties to build and maintain that important branch of protective service. Nor should words of encouragement be omitted for that body of citizenry which has shown a patriotic willingness to mobilize for auxiliary law enforcement and other war services in home communities.

Must Protect State Surplus

California is now favored with a sizeable surplus. It has come to us very largely from taxes upon war industry. It comes to us in trust, for it is the money of all the people of California.

This surplus, by its very existence, constitutes a constant temptation to everyone to spend it just because it is there. Everyone sees, according to his own lights, a way, a place and a need for spending it and in some instances even for purposes that have never before been considered State purposes.

I hold to the conviction that this money must be lifted above the dissipating reach of grab-bag tactics. If we yield to such temptations, this surplus will soon be transformed into a deficit by processes which will result in an actual denial of the interests of the people as a whole. I want to see this money either committed for essential State projects or conserved. It is my firm belief that we must use this money for the war effort which produced it and for essential services of government or conserve it faithfully for purposes which will relieve the distress which inevitably follows wars.

Budget-Making Policies

Later this month there will be presented, for your analysis, the Administration recommendation in regard to budgetary allotments. I can say to you now that the principle under which this budget is being prepared grants recognition to the times, both in proposed curtailment of expenditures unrelated to war effort and in extra allowance to efforts which can be made the forerunners of better times for our people when the war has ended. We will make provision, not only for war needs but also for the humanitarian services which will keep our structure strong.

We are undertaking moves toward general economy at a time when our tax structure is producing revenue in surplus amounts. It follows, therefore, that we must, in the interests of already burdened taxpayers, proceed immediately to the examination of possibilities for tax reduction.

It is my belief that taxes can be reduced. In evaluating our financial position, however, I see danger signs which we can not afford to ignore to the point of extreme action. We must bear in mind that the conditions which have created our favorable revenue balance are of a highly transient nature and of a type likely to leave a swell of new problems in their wake. It is not wise, under such circumstances, to blindly trade tax stability for temporary advantage.

It is my intention to render all service and assistance possible to the Legislature as it examines the opportunities for altering and reducing our revenue claims upon the people. In an effort to expedite the development of factual information, I am preparing to appoint a committee of representative citizens which will be charged

with the responsibility of submitting recommendations for general consideration. I am proceeding in this manner in the belief that there is need for full discussion of all phases of the problem. It is a practice I shall follow whenever possible in dealing with difficult problems for it is predicated upon my belief that Democracy thrives best when it encourages the suggestions of all.

Civil Service Needs Protection

No State Administration can rise above the standards of public service which it maintains. In California we have endeavored to elevate and fix the standards of personnel through a comprehensive system of civil service. The provisions of our Constitution and the statutes on the subject entitle us to a position of leadership throughout the Nation.

There is a general consciousness today that the administration of these laws has, in recent years, been such that the entire structure of civil service is in danger. The situation is not the fault of civil service employees themselves for they have been zealous in trying to guard and respect the protections afforded them. It is the direct result of the brazen application of political pressure upon them. Such tactics must cease immediately. Civil service must be restored to its rightful place where the applicant for public service obtains a position through honest competition and merit and retains that position because of merit.

One can not probe, within the limitations of a single speech, into all the problems which lie before us, and it is not my purpose here to do so. It is my sincere hope that, through warm association and frequent exchanges of ideas, we can advance together in the solution of our common problems.

We meet at a time when the full might of our energy must be loosed to help rid the world of evil aggression which is ravenously feeding upon the rights of free men. Ours is the responsibility of organizing State efficiency in every direction which will help speed the military conclusion of the conflict.

Paralleling this endeavor must be the assumption of responsibility for preventing the backlash of emergency disruptions from undermining confidence in the structure of Democracy itself. Our stake in the struggle is both the prevention of the eclipse of our right to improve our way of life and the prevention of the destruction of the way of life itself.

This is an era of crisis. Christianity itself will wander homeless over the world unless we fight for the right to harbor it in open covenant in our hearts and keep its light reflecting through our social, economic and political undertakings. These are times when the requisites for courage and cool deliberate action press upon us in inseparable demand. These are times when the formula of government must be derived from the deepest conceptions within men's hearts.

It is with this consciousness and with the determination to make our State Administration serve all the people that I assume my duties as Governor of California.

ADMINISTRATION OF OATH OF OFFICE

Hon. Frederick F. Houser took and subscribed to the following oath administered by Hon. Phil S. Gibson, Chief Justice of the Supreme Court of the State of California:

I do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of California, and that I will faithfully discharge the duties of the office of Lieutenant Governor of the State of California to the best of my ability, so help me God.

INTRODUCTION OF LIEUTENANT GOVERNOR FREDERICK F. HOUSER

Hon. Charles W. Lyon, Speaker of the Assembly, then introduced Lieutenant Governor Frederick F. Houser to the Joint Convention.

ADDRESS BY LIEUTENANT GOVERNOR FREDERICK F. HOUSER

Lieutenant Governor Frederick F. Houser then addressed the Joint Convention as follows:

We are gathered here today for the convening of the Legislature and for the inauguration of our chief executive officers at the most critical period in the history of our Country, of which we are all so proud.

Attacked treacherously and in violation of all the rules of international law, by foes without principle, we were caught by surprise and, until the last few weeks, have been forced to beat a slow and dogged retreat. The very treachery of the attack however united the people all over the Nation, solidified them as nothing else

could have done. We became 100 per cent united in a grim determination to preserve the liberty and freedom which our ancestors some 160 years ago won for us, at bloody cost, upon such sacred ground as Saratoga and Valley Forge and Yorktown. And we are likewise 100 per cent united in our determination to defeat our betrayers so completely and overwhelmingly that never again will they be in a position to turn the entire world into a battlefield in order to satisfy their personal ambitions.

Now, therefore, more than ever is the time for cooperation—cooperation between the Federal Government and each of the 48 States, cooperation between Republicans and Democrats, and between Legislatures and Governors. Cooperation is always practiced by real statesmen, but today if we are to win this war we *must* work together as a team.

Now by cooperation I do not mean for one moment a surrender of all power by the legislative branch to the executive, for this is contrary to our entire philosophy of government, although I think we can all agree that during war a Chief Executive must be given far greater power than during peace times. By cooperation I mean a give and take on the part of both branches of our Government—a willingness on the part of each to consider the views of the other and to reach a fair and just agreement. Only in this manner can we move smoothly and rapidly toward our goal.

You have heard Governor Warren today describe in some detail his views relative to State affairs. This inauguration should be brought to a rapid close but I can not conclude without stating, very briefly and in the broadest of terms, my own views on certain important problems affecting our beloved State of California.

In my opinion there is tremendous need for State tax reduction. The Federal Government this year is collecting eleven hundred million dollars from California's citizens where only four years ago it was collecting three hundred million dollars, and the worst is yet to come. If our citizens are to be able to go on paying the Federal taxes which are necessary to win the war, and at the same time purchase war bonds, then State and local taxes must be cut to the bone. The State of California can well afford to cut taxes with its income exceeding its expenditures by four million dollars each month and with a surplus of more than seventy million dollars, as of today.

Old age pensions should eventually be paid entirely by the Federal Government and not by the individual States. For some 11 years, however, I have advocated an amendment to our Old Age Pension Law here in California providing for the payment of pensions as a matter of *right* and *not* as *charity* and the amount of the pension should be substantially increased while the pensioner should be allowed to earn additional income.

I sincerely trust that, in the next few years, both here in Sacramento and in Washington, great care will be exercised in separating the wheat from the chaff. We should recognize that good ideas can and do originate with both parties. Let us be sure to keep and augment those particular social and economic gains which have demonstrated their merit.

Another thing which we must do is to plan for the future. A carefully worked-out program of worth-while public improvements and conservation of our natural resources should be all ready to go into high gear just as soon as the war is won. As a Member of the Legislature in 1931 I introduced a bill along this same line, and have been preaching it ever since. A portion of our State surplus could very well be set aside and earmarked for this specific purpose.

The ideal for which our boys are fighting—yes, and dying for—all over the world is to preserve the rights and liberties which are the essence of Democracy—but you can't have a true Democracy without an independent legislative body elected by the people. Our Legislatures and our Congress are the very heart of Democracy.

Having served as one of you for six years I can honestly say I deeply regret leaving, even though I will continue to be a sort of *ex officio* member, as President of the Senate.

Knowing you all as I do, and knowing Governor Warren as I do, I am convinced that we will all accept the great responsibility which is ours at this time and that California will have the finest session in its history—a session to which the people can point with pride in later years and truly say "They did their level best for California and for the United States."

ADJOURNMENT OF JOINT CONVENTION

At 4:20 p. m. there being no further business, upon motion of Senator Swing, seconded by Assemblyman Sam L. Collins, the Joint Convention was declared adjourned sine die.

IN ASSEMBLY

At 4:25 p. m., the Assembly reconvened
Speaker Lyon in the chair.

Committee Assignment

27. Every member actually in the Assembly Chamber when a roll call is required shall record his vote openly and without debate, unless the Assembly shall, after he has stated his reasons for not doing so, excuse him. All motions to excuse a member shall be made before the Assembly divides, or before the recording of ayes and noes is commenced. Thereupon no member shall be permitted to leave the Assembly Chamber except by written permission of the Speaker, and no person shall be permitted to enter except such member as is taken into custody as herein provided, or Senators, officers, attaches, or employees of the Legislature in the official performance of their duties.

Those members who are found to be absent, and for whom no leaves of absence have been granted, shall be forthwith taken into custody wherever found by the Sergeant-at-Arms or his assistants and brought to the Assembly Chamber. No recess or adjournment shall be taken during a call of the Assembly. During such call, the Assembly may consider and transact any matter of business by unanimous consent. No call of the Assembly shall be ordered on any matter while the Assembly is already under call. A call of the Assembly may be dispensed with at any time upon a majority vote of the members present, at which time the completion of the roll call pending when the call of the Assembly was ordered shall become the immediate order of business before the Assembly.

Leave of Absence

34. No member shall absent himself from attendance at any session of the Assembly without leave of the Assembly, and no member shall obtain such leave of absence or be excused for nonattendance, except by a two-thirds vote of all members elected to the Assembly, or by unanimous consent.

Questions of Order Decided Without Debate

39. All incidental questions of order, arising after a motion is made for any of the questions named in Rule No. 38 and pending such motion, shall be decided by the Speaker without debate, whether on appeal or otherwise.

Appeal From Decision of the Speaker

40. Any member may appeal from a decision of the Speaker without waiting for recognition by the Speaker, even though another member has the floor. No appeal is in order when another is pending, or when other business has been transacted by the Assembly prior to the appeal being taken.

Upon the appeal being seconded, the Speaker may give his reasons for the decision, and shall forthwith put this question to the Assembly: "Shall the decision of the Speaker be sustained?"

An appeal can not be amended and yields only to a motion to recess or adjourn, to lay on the table, or a question of personal privilege. If an appeal be laid on the table, such action shall have no effect on the pending question.

An appeal can not be debated when relating to indecorum, transgression of Rules, or priority of business. A majority vote of the members present shall decide any appeal.

To Adjourn

41. A motion to adjourn is not debatable and can not be amended, and is always in order, except (a) when another member has the floor; (b) when the Assembly is voting; (c) during a call of the Assembly. The name of any member moving an adjournment and also the hour at which the motion was made and adjournment taken shall be entered in the Journal. Such a motion to adjourn must be adopted by a majority vote of the members present.

When such a motion to adjourn is made and seconded, it shall be in order for the Speaker, before putting the question, to permit any member to state to the Assembly any fact relating to the condition of the business of the Assembly which would seem to render it improper or inadvisable to adjourn. Such statement shall not occupy more than two minutes and shall not be debatable.

To Recess to a Time Certain

42. A motion to recess to a time certain shall be treated the same as a motion to adjourn, except that such motion is debatable when no business is before the Assembly, and can be amended as to the time and duration of the recess. It yields only to a motion to adjourn.

To Lay on the Table

43. A motion to lay on the table is not debatable and can not be amended.

A motion to table a bill, constitutional amendment, concurrent or joint resolution requires a majority vote of the entire elected membership.

Any motion to lay on the table, if carried by a majority vote of the entire elected membership, carries with it the main question and everything that adheres to it; provided, however, that a motion to lay an amendment on the table, if adopted, does not carry with it a bill, constitutional amendment, concurrent, joint, or House resolution.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present.

The Previous Question

44. The previous question shall be put only when demanded by five members, and in this form: "Shall the question be now put?" And its effect, when sustained by a majority of the members present, shall be to put an end to all debate and bring the House to a vote only on the question then pending; except that the proponent of the matter pending shall be allowed not to exceed five minutes to close the debate.

Motion to Set Special Order

45. A motion to set any matter before the Assembly as a special order of business must be adopted by a two-thirds vote of the members elected. It is debatable only as to the propriety of setting the main question as a special order of business, and may be amended only as to the time.

Motion to Postpone to a Time Certain

46. A motion to postpone to a time certain shall be deemed and treated as a motion to set as a special order.

Motion to Postpone Indefinitely

47. When a motion is made to postpone indefinitely any bill, motion, or amendment, it opens the main question to debate. Should the motion to postpone indefinitely prevail by a majority vote of the entire membership, the main question shall not be acted upon again during the session.

Motion to Amend

48. A motion to amend may itself be amended, but no "amendment to an amendment" can be amended. A motion to amend is debatable, except where the main question to be amended is not debatable. Any motion to amend may be adopted by a majority vote of the members present.

A motion to amend having been decided in the negative, shall not again be in order on the same day, or at the same stage of proceeding. A motion to amend by striking out certain words having been decided in the negative, shall not preclude a motion to amend by adding words, or a motion to amend by striking out and inserting words; but in no case shall a further amendment be substantially the same as the one rejected.

Subject to the above provisions of this rule, a motion to amend is in order during the second or third reading of any bill.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present, as provided in Rule 43.

Amendment to Be Germane

49. No amendment to any bill, whether reported by a committee or offered by a member, shall be in order when such amendment relates to a different subject, or is intended to accomplish a different purpose, or requires a title essentially different from the original title of any bill.

No amendment shall be in order which adds or deletes the name of a member as an author or co-author, or which changes the original number of any bill.

Substitute Motion

50. A motion to substitute shall be deemed and treated as a motion to amend.

Motions in Writing

51. Upon request of the Speaker all motions shall be reduced to writing and shall be read by the Speaker before the same are acted upon.

Consideration of Motions

52. No motion, whether oral or written, shall be adopted until the same shall be seconded and distinctly stated to the Assembly by the Speaker.

Division of Questions

53. Any member may call for a division of the question, and the Speaker shall order the question divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Assembly.

Resolutions

54. The adoption of any resolution authorizing the expenditure of money shall require an affirmative recorded vote of a majority of all members elected to the Assembly. All House resolutions shall be numbered and shall be referred to the appropriate committee by the Speaker.

Withdrawal of Motions

55. After a motion is stated by the Speaker, or a bill, resolution, or petition read by the Clerk, it shall be deemed to be in the possession of the Assembly.

Motion to Be Germane

56. No motion or proposition on a subject different from that under consideration shall be admitted as an amendment.

Bills Reported Back to Assembly

57. All committees shall act upon bills referred to them as soon as practicable, and when acted upon each bill shall be reported back to the Assembly forthwith, and the chairman of each committee is charged with the observance of this rule.

Motion to Withdraw and Recall Bills

58. A motion to withdraw a bill or resolution from committee, or to re-refer a bill or resolution from one committee to another committee may be made during the regular order of business. A motion to re-refer shall only be debatable as to the propriety of such reference, and shall require a recorded vote of a majority of the elected members.

No bill or resolution shall be withdrawn from committee and placed upon the File except upon two days' notice thereof and except by a recorded vote of a majority of the elected members.

Bills Stricken From File

59. A motion to strike from the File any bill or House resolution requires a majority vote of the entire elected membership. Such bill shall not be acted upon again during the session.

Motion to Rescind Action and Expunge Record

60. Previous to the approval of the Journal by the Assembly, any action may be rescinded and its record ordered expunged by an affirmative recorded vote sufficient to take such action originally; except that no action shall be rescinded and the record expunged by a vote less than a majority of the entire elected membership. No motion to rescind the action and expunge the record shall be made twice on the same proposition.

Reference of Bills to Committee

61. Immediately following its first reading, the Speaker shall refer each bill to a committee, unless upon a motion the Assembly, by a majority vote of its entire elected membership, shall refer it to some other committee. Such motion to refer a bill shall not be debatable.

Should several different committees be proposed, preference shall be given as follows:

1. Committee of the Whole.
2. Standing Committee.
3. Special Committee.

Record of Bills

62. The Chief Clerk shall cause to be kept a permanent record of every action taken by the Assembly on every bill, and the date of such action. Every such action and the date thereof shall also be indorsed upon such bill.

Consideration of Constitutional Amendments, Concurrent and Joint Resolutions

63. Constitutional amendments, concurrent and joint resolutions may be amended by a majority of the members present and shall be treated the same as bills, except that they shall be read but once. The ayes and noes shall not be called upon the adoption of concurrent resolutions, except those presenting charter amendments or authorizing expenditures of money, unless regularly demanded or required by statute or by the Constitution.

Second Reading of Bills

64. All bills shall be read the second time in the order of their appearance upon the second reading file. Upon second reading, Assembly bills reported without amendments shall be ordered engrossed, and Senate bills reported without amendments shall be ordered to third reading.

Committee Amendments

65. Committee amendments reported with bills shall be considered upon their second reading and such amendments may be adopted by a majority vote of the members present. Assembly bills so amended shall be ordered reprinted and engrossed, and Senate bills so amended shall be ordered reprinted and to third reading.

Amendments From the Floor

66. Any member may move to amend a bill during its second or third reading and such motion to amend may be adopted by a majority vote of the members present. Bills so amended on second reading shall be treated the same as committee amendments. Any bill so amended upon the third reading file shall be reprinted and all Assembly bills so reprinted shall be ordered re-engrossed. The Chief Clerk shall order printed not to exceed 1,000 copies of all amended bills.

Committee on Legislative Procedure

67. There is a Committee on Legislative Procedure consisting of ---- members, including the Speaker, which shall be the Committee on Engrossment and Enrollment within the meaning of the Joint Rules. It shall be the duty of the Committee on Legislative Procedure to compare all bills, ordered or considered engrossed by the Assembly with the engrossed copies thereof; and, before they pass out of the possession of the Assembly, see that the engrossed bill is a true copy of the original,

with such amendments as may have been made thereto; and said committee shall see that all engrossed bills are reported back in the order in which they were ordered engrossed. The report of the Committee on Legislative Procedure shall be in order at any time.

Engrossing and Enrolling Bills

68. The Engrossing and Enrolling Clerk shall engross and enroll all bills which shall come to his hands for such purposes, in compliance with the provisions of Section 539 of the Political Code, and in the order of time in which the same shall be acted upon by the Assembly.

Bills Transmitted to the Senate

69. Upon the final passage of any bill, if no notice of motion to reconsider such bill be given, the Speaker shall order the bill transmitted to the Senate under signature of the Chief Clerk. Senate bills refused passage shall forthwith be returned to the Senate under similar signature.

Bills Considered During Last Seven Days

70. No Assembly bill shall be passed by the Assembly within seven calendar days previous to the time set for adjournment *sine die* of the Legislature, except upon recommendation of the Speaker and permission to consider and vote on such bill being granted by a recorded vote of three-fourths of the entire elected membership of the Assembly.

Concurrence in Senate Amendments

71. It shall require the same affirmative recorded vote to concur in any Senate amendment to an Assembly bill as the vote required by the Constitution for the passage of such bill. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of the Assembly to concur in any Senate amendment to an Assembly bill which contains an item or items of appropriation subject to reduction or elimination under the provisions of Section 34a of Article IV of the Constitution. The vote on concurrence or upon the adoption of such conference report of the Assembly shall be deemed the vote upon final passage of such bill. When Senate amendments to an Assembly bill are concurred in, the bill shall be forthwith ordered enrolled, and the Chief Clerk shall notify the Senate of such concurrence.

Nonconcurrence in Senate Amendments

72. If the Assembly refuse to concur in the Senate amendments to any Assembly bill, the Chief Clerk shall notify the Senate of such refusal and request the Senate to recede from its amendments. If the Senate so recede and notify the Assembly, the bill shall be forthwith ordered enrolled.

Committee on Conference

73. Should the Senate refuse to recede from its amendments and so notify the Assembly, the Speaker shall thereupon appoint three members as a Committee on Conference. If there be a minority vote on concurrence, two of such members shall be selected from those voting against concurrence and the third member shall be selected from those voting for concurrence. The Chairman of the Senate Committee on

Conference for the same bill shall arrange the time and place of meeting of such committee. It shall require an affirmative vote of not less than four of the members constituting the Committee on Conference to agree upon a report and the report shall be submitted to both the Senate and the Assembly. Such report is not subject to amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed. No member who has served on a Committee on Conference shall be appointed a member of another Committee on Conference on the same bill. The presentation and consideration of any report of a Committee on Conference shall always be in order, except during a roll call or when a Member has the floor. It shall require the same affirmative recorded vote to adopt any conference report as required by the Constitution upon the final passage of the bill affected by such report. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of the Assembly to adopt any conference report affecting any Assembly bill which contains an item or items of appropriation which are subject to reduction or elimination under the provisions of Section 34a of Article IV of the Constitution.

The vote on concurrence or upon the adoption of such conference report by the Assembly shall be deemed the vote upon final passage of such bill.

Enrollment

74. After final passage by both houses, any Assembly bill not amended by the Senate shall be forthwith ordered by the Speaker to be enrolled, as provided in Section 539 of the Political Code. The Committee on Legislative Procedure shall report both the day and the hour each enrolled bill is presented to the Governor, which report shall be entered in the Journal.

Upon publication in the Journal of the number of members on each standing committee, no further change in the number of members of the committee shall be made otherwise than by a majority vote of the Assembly.

Upon such notice of motion being given, the bill, constitutional amendment, concurrent or joint resolution shall forthwith be

placed upon the unfinished business file, and no further action shall be taken prior to the next legislative day. When a notice of a motion to reconsider has once been made, the same shall be considered to be the property of the Assembly. The notice of motion to reconsider may be called up by any member on the next legislative day after the notice of reconsideration of the bill, constitutional amendment, concurrent or joint resolution has been given.

Any member voting on any motion, amendment, concurrence, recedence, Assembly resolution or proposition other than a bill, constitutional amendment, concurrent or joint resolution, may give notice of reconsideration of the vote whereby the same was passed or refused passage on the same day such vote to be reconsidered was taken, which notice shall suspend all further consideration until the next legislative day; provided, however, that a motion to reconsider on the same day the notice was given shall take precedence over and above such notice and upon demand of any member must be put to an immediate vote. COMMUNICATIONS

The following communication was received, read, and ordered printed in the Journal:

CABLE VIA C.P.C. 1/63—F U.S.NAV. 3 3.15P JANUARY 4, 1943

*Speaker, California State Assembly
Sacramento, California*

Hearty greetings to you and all hands. This includes the genial third house, the attaches, and the newsboys—all of whom will help make this a short session. Hear you have a shortage of living space. Army having taken over the hotels. Tell the

Army we have lots of room. The members can sleep in their seats—nothing new to some of the boys. Mike Burns can live with the squirrels. Mess Sergeant Ogg can take care of all rationing. If it's as dry there as here liquid refreshments won't bother you. You folks in California are doing a fine job. With a little more speed, dash, and accuracy back there we will have the Ogg pay you boys back home before you know it. By the way, who plays left half in that backfield? Suppose Robbie is still first string quarter. Would advise Sam Collins to lay off the WAACS and WAVES in the end zone. My best wishes to a grand gathering of fine folks doing an important duty.

JOHN B. COOKE

ANNOUNCEMENT BY THE SPEAKER

In addition to the entry of his name in the Journal, any member who refuses so to vote when required, and who has not been excused from doing so, may, immediately after the announcement of the vote, in the discretion of the Speaker or upon demand of any member, be summoned to appear before the bar of the Assembly for public censure by the Speaker or by any member designated by the Speaker.

Censure of a member as provided by this Rule shall not constitute a bar to proceedings for his expulsion from the Assembly pursuant to Section 9 of Article IV of the Constitution.

A member may submit a written explanation of his vote on any bill or House resolution, and have such explanation printed in the Journal immediately following such vote, provided no such explanation shall exceed 50 words in length.

Ayes and Noes

28. The ayes and noes shall be recorded by the electrical voting system on the final passage of all bills, or by viva voce when demanded

by three members or when ordered by the Speaker, and on any other question when called for by three members or ordered by the Speaker, the names of which members shall be entered in the Journal.

Voting Not to Be Interrupted

29. When once begun, voting shall not be interrupted, except that any member may have the total pending vote flashed on the visible vote recorder and except that any member may move a call of the Assembly after the completion of the roll and prior to the final recording and announcement of the vote.

Changing Vote

30. Prior to the announcement of the vote, the Speaker shall inquire if all members have voted. After the vote is announced, no member shall be allowed to change his vote, or have his vote recorded.

Members at Clerk's Desk

31. No member or other person shall be allowed at the Clerk's desk while the ayes and noes are being recorded or the votes counted.

Tie Vote

32. In case of an equal division, or tie vote, the question shall be lost.

Call of Assembly

33. After the roll has been called, and prior to the announcement of the vote, any member may move a call of the Assembly. A majority of the members present may order a call of the Assembly, and the Speaker shall immediately order the Sergeant-at-Arms to lock all doors and shall direct the Clerk to prepare a list of absentees as disclosed by the last roll call. Thereupon no member shall be permitted to leave the Assembly Chamber except by written permission of the Speaker, and no person shall be permitted to enter except such member as is taken into custody as herein provided, or Senators, officers, attaches, or employees of the Legislature in the official performance of their duties.

Those members who are found to be absent, and for whom no leaves of absence have been granted, shall be forthwith taken into custody wherever found by the Sergeant-at-Arms or his assistants and brought to the Assembly Chamber. No recess or adjournment shall be taken during a call of the Assembly. During such call, the Assembly may consider and transact any matter of business by unanimous consent. No call of the Assembly shall be ordered on any matter while the Assembly is already under call. A call of the Assembly may be dispensed with at any time upon a majority vote of the members present, at which time the completion of the roll call pending when the call of the Assembly was ordered shall become the immediate order of business before the Assembly.

Leave of Absence

34. No member shall absent himself from attendance at any session of the Assembly without leave of the Assembly, and no member shall

obtain such leave of absence or be excused for nonattendance, except by a two-thirds vote of all members elected to the Assembly, or by unanimous consent.

Personal Privilege

35. Any member may rise to explain a matter personal to himself and shall forthwith be recognized by the Speaker, but shall not discuss a question in such explanation. Such matters of personal privilege yield only to a motion to recess or adjournment.

Objection to Reading of Any Paper

36. Any member upon recognition by the Speaker may object to the reading of any paper before the Assembly. After such objection, the question of reading shall be determined without debate by a majority vote of the members present, upon a brief statement of its substance by the Speaker.

Assignment of Desks to Members

37. Members shall be assigned to desks by the Chief of the Bureau of Buildings and Grounds, and, so far as possible, he shall conform to the requests of members, giving due consideration to their seniority in point of service in the Assembly.

38. When a question is under debate or before the Assembly, no motions shall be received but the following, which shall take precedence in the order named:

- First*—To adjourn;
- Second*—To recess to a time certain;
- Third*—To lay on the table;
- Fourth*—For the previous question;
- Fifth*—To set as a special order;
- Sixth*—To postpone indefinitely;
- Seventh*—To refer or re-refer;
- Eighth*—To amend.

Questions of Order Decided Without Debate

39. All incidental questions of order, arising after a motion is made for any of the questions named in Rule No. 38 and pending such motion, shall be decided by the Speaker without debate, whether on appeal or otherwise.

Appeal From Decision of the Speaker

40. Any member may appeal from a decision of the Speaker without waiting for recognition by the Speaker, even though another member has the floor. No appeal is in order when another is pending, or when other business has been transacted by the Assembly prior to the appeal being taken.

Upon the appeal being seconded, the Speaker may give his reasons for the decision, and shall forthwith put this question to the Assembly: "Shall the decision of the Speaker be sustained?"

An appeal can not be amended and yields only to a motion to recess or adjourn, to lay on the table, or a question of personal privilege. If an appeal be laid on the table, such action shall have no effect on the pending question.

An appeal can not be debated when relating to indecorum, transgression of Rules, or priority of business. A majority vote of the members present shall decide any appeal

To Adjourn

41. A motion to adjourn is not debatable and can not be amended, and is always in order, except (a) when another member has the floor; (b) when the Assembly is voting; (c) during a call of the Assembly. The name of any member moving an adjournment and also the hour at which the motion was made and adjournment taken shall be entered in the Journal. Such a motion to adjourn must be adopted by a majority vote of the members present.

When such a motion to adjourn is made and seconded, it shall be in order for the Speaker, before putting the question, to permit any member to state to the Assembly any fact relating to the condition of the business of the Assembly which would seem to render it improper or inadvisable to adjourn. Such statement shall not occupy more than two minutes and shall not be debatable.

To Recess to a Time Certain

42. A motion to recess to a time certain shall be treated the same as a motion to adjourn, except that such motion is debatable when no business is before the Assembly, and can be amended as to the time and duration of the recess. It yields only to a motion to adjourn.

To Lay on the Table

43. A motion to lay on the table is not debatable and can not be amended.

A motion to table a bill, constitutional amendment, concurrent or joint resolution requires a majority vote of the entire elected membership.

Any motion to lay on the table, if carried by a majority vote of the entire elected membership, carries with it the main question and everything that adheres to it; provided, however, that a motion to lay an amendment on the table, if adopted, does not carry with it a bill, constitutional amendment, concurrent, joint, or House resolution.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present.

The Previous Question

44. The previous question shall be put only when demanded by five members, and in this form: "Shall the question be now put?" And its effect, when sustained by a majority of the members present, shall

be to put an end to all debate and bring the House to a vote only on the question then pending; except that the proponent of the matter pending shall be allowed not to exceed five minutes to close the debate.

Motion to Set Special Order

45. A motion to set any matter before the Assembly as a special order of business must be adopted by a two-thirds vote of the members elected. It is debatable only as to the propriety of setting the main question as a special order of business, and may be amended only as to the time.

Motion to Postpone to a Time Certain

46. A motion to postpone to a time certain shall be deemed and treated as a motion to set as a special order.

Motion to Postpone Indefinitely

47. When a motion is made to postpone indefinitely any bill, motion, or amendment, it opens the main question to debate. Should the motion to postpone indefinitely prevail by a majority vote of the entire membership, the main question shall not be acted upon again during the session.

Motion to Amend

48. A motion to amend may itself be amended, but no "amendment to an amendment" can be amended. A motion to amend is debatable, except where the main question to be amended is not debatable. Any motion to amend may be adopted by a majority vote of the members present.

A motion to amend having been decided in the negative, shall not again be in order on the same day, or at the same stage of proceeding. A motion to amend by striking out certain words having been decided in the negative, shall not preclude a motion to amend by adding words, or a motion to amend by striking out and inserting words; but in no case shall a further amendment be substantially the same as the one rejected.

Subject to the above provisions of this rule, a motion to amend is in order during the second or third reading of any bill.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present, as provided in Rule 43.

Amendment to Be Germane

49. No amendment to any bill, whether reported by a committee or offered by a member, shall be in order when such amendment relates to a different subject, or is intended to accomplish a different purpose, or requires a title essentially different from the original title of any bill.

No amendment shall be in order which adds or deletes the name of a member as an author or co-author, or which changes the original number of any bill.

54. The adoption of any resolution authorizing the expenditure of money shall require an affirmative recorded vote of a majority of all members elected to the Assembly. All House resolutions shall be numbered and shall be referred to the appropriate committee by the Speaker.

Withdrawal of Motions

55. After a motion is stated by the Speaker, or a bill, resolution, or petition read by the Clerk, it shall be deemed to be in the possession of the Assembly.

Motion to Be Germane

56. No motion or proposition on a subject different from that under consideration shall be admitted as an amendment.

Bills Reported Back to Assembly

57. All committees shall act upon bills referred to them as soon as practicable, and when acted upon each bill shall be reported back to the Assembly forthwith, and the chairman of each committee is charged with the observance of this rule.

Motion to Withdraw and Recall Bills

58. A motion to withdraw a bill or resolution from committee, or to re-refer a bill or resolution from one committee to another committee may be made during the regular order of business. A motion to re-refer shall only be debatable as to the propriety of such reference, and shall require a recorded vote of a majority of the elected members.

No bill or resolution shall be withdrawn from committee and placed upon the File except upon two days' notice thereof and except by a recorded vote of a majority of the elected members.

Bills Stricken From File

59. A motion to strike from the File any bill or House resolution requires a majority vote of the entire elected membership. Such bill shall not be acted upon again during the session.

Motion to Rescind Action and Expunge Record

60. Previous to the approval of the Journal by the Assembly, any action may be rescinded and its record ordered expunged by an affirmative recorded vote sufficient to take such action originally; except that no action shall be rescinded and the record expunged by a vote less than a majority of the entire elected membership. No motion to rescind the action and expunge the record shall be made twice on the same proposition.

Reference of Bills to Committee

61. Immediately following its first reading, the Speaker shall refer each bill to a committee, unless upon a motion the Assembly, by a majority vote of its entire elected membership, shall refer it to some other committee. Such motion to refer a bill shall not be debatable. Should several different committees be proposed, preference shall be given as follows:

1. Committee of the Whole.
2. Standing Committee.
3. Special Committee.

Record of Bills

62. The Chief Clerk shall cause to be kept a permanent record of every action taken by the Assembly on every bill, and the date of such action. Every such action and the date thereof shall also be indorsed upon such bill.

Consideration of Constitutional Amendments, Concurrent and Joint Resolutions

63. Constitutional amendments, concurrent and joint resolutions may be amended by a majority of the members present and shall be treated the same as bills, except that they shall be read but once. The ayes and noes shall not be called upon the adoption of concurrent resolutions, except those presenting charter amendments or authorizing expenditures of money, unless regularly demanded or required by statute or by the Constitution.

Second Reading of Bills

64. All bills shall be read the second time in the order of their appearance upon the second reading file. Upon second reading, Assembly bills reported without amendments shall be ordered engrossed, and Senate bills reported without amendments shall be ordered to third reading.

Assembly bills so amended shall be ordered reprinted and engrossed, and Senate bills so amended shall be ordered reprinted and to third reading.

Any bill so amended upon the third reading file shall be reprinted and all Assembly bills so reprinted shall be ordered re-engrossed. The Chief Clerk shall order printed not to exceed 1,000 copies of all amended bills.

It shall be the duty of the Committee on Legislative Procedure to compare all bills, ordered or considered engrossed by the Assembly with the engrossed copies thereof; and, before they pass out of the possession of the Assembly, see that the engrossed bill is a true copy of the original, with such amendments as may have been made thereto; and said committee shall see that all engrossed bills are reported back in the order in which they were ordered engrossed. The report of the Committee on Legislative Procedure shall be in order at any time.

Engrossing and Enrolling Bills

68. The Engrossing and Enrolling Clerk shall engross and enroll all bills which shall come to his hands for such purposes, in compliance with the provisions of Section 539 of the Political Code, and in the order of time in which the same shall be acted upon by the Assembly.

Bills Transmitted to the Senate

Bills Considered During Last Seven Days

70. No Assembly bill shall be passed by the Assembly within seven calendar days previous to the time set for adjournment *sine die* of the Legislature, except upon recommendation of the Speaker and permission to consider and vote on such bill being granted by a recorded vote of three-fourths of the entire elected membership of the Assembly.

Concurrence in Senate Amendments

71. It shall require the same affirmative recorded vote to concur in any Senate amendment to an Assembly bill as the vote required by the Constitution for the passage of such bill. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of the Assembly to concur in any Senate amendment to an Assembly bill which contains an item or items of appropriation subject to reduction or elimination under the provisions of Section 34a of Article IV of the Constitution. The vote on concurrence or upon the adoption of such conference report of the Assembly shall be deemed the vote upon final passage of such bill. When Senate amendments to an Assembly bill are concurred in, the bill shall be forthwith ordered enrolled, and the Chief Clerk shall notify the Senate of such concurrence.

Nonconcurrence in Senate Amendments

72. If the Assembly refuse to concur in the Senate amendments to any Assembly bill, the Chief Clerk shall notify the Senate of such refusal and request the Senate to recede from its amendments. If the Senate so recede and notify the Assembly, the bill shall be forthwith ordered enrolled.

Committee on Conference

73. Should the Senate refuse to recede from its amendments and so notify the Assembly, the Speaker shall thereupon appoint three members as a Committee on Conference. If there be a minority vote on concurrence, two of such members shall be selected from those voting against concurrence and the third member shall be selected from those voting for concurrence. The Chairman of the Senate Committee on Conference for the same bill shall arrange the time and place of meeting of such committee. It shall require an affirmative vote of not less than four of the members constituting the Committee on Conference to agree upon a report and the report shall be submitted to both the Senate and the Assembly. Such report is not subject to amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed. No member who has served on a Committee on Conference shall be appointed a member of another Committee on Conference on the same bill. The presentation and consideration of any report of a Committee on Conference shall always be in order, except during a roll call or when a member has the floor. It shall require the same affirmative recorded vote to adopt any conference report as required by the Constitution upon the final passage of the bill affected by such report. Upon publication in the Journal of the number of members on each standing committee, no further change in the number of members of the committee shall be made otherwise than by a majority vote of the Assembly.

Upon such notice of motion being given, the bill, constitutional amendment, concurrent or joint resolution shall forthwith be placed upon the unfinished business file, and no further action shall be taken prior to the next legislative day. When a notice of a motion to reconsider has once been made, the same shall be considered to be the property of the Assembly. The notice of motion to reconsider may be called up by any member on the next legislative day after the notice of reconsideration of the bill, constitutional amendment, concurrent or joint resolution has been given.

Any member voting on any motion, amendment, concurrence, recedence, Assembly resolution or proposition other than a bill, constitutional amendment, concurrent or joint resolution, may give notice of reconsideration of the vote whereby the same was passed or refused passage on the same day such vote to be reconsidered was taken, which notice shall suspend all further consideration until the next legislative day; provided, however, that a motion to reconsider on the same day the notice was given shall take precedence over and above such notice and upon demand of any member must be put to an immediate vote. May our agreements be greater than our differences and our unity in Thee sanctify all our natural diversities of opinion.

May we so live that our homes may be restored in Thee, our cities rebuilt, and all the world reflect the radiance of Thy Throne, which is eternal in the heavens.

Resolution of the Grand Jury of the County of Placer, State of California, relative to Japanese, both alien and native born, and proposing amendments to the Alien Land Law of the State of California and Federal Legislation to prevent said Japanese from becoming citizens.

WHEREAS, The Honorable Earl Warren, Attorney General of the State of California, called a meeting of all the district attorneys, sheriffs and law enforcement officers generally at his office in the State Building in the City of San Francisco on the second day of February, 1942, for the purpose of discussing and considering the problem of both the alien and citizen Japanese in the State of California, and the question of the enforcement of the Alien Land Law of the State of California, and to devise ways and means of meeting all of said problems and bringing about a solution of the serious situation then confronting the people of the State of California by reason of the presence of upwards of 1,000,000 alien and native born Japanese in the said State of California; and

WHEREAS, At said meeting, many facts and much confidential information were submitted and considered, and the views and opinions of all present were expressed and given careful consideration, and it was finally determined and agreed that the only possible solution of the manifold problems involved was the immediate and total evacuation of all Japanese, both alien and citizen, forthwith, from all the territory in the State of California within 300 miles of the shoreline along the Pacific Coast; and

WHEREAS, It was further determined at said meeting that each district attorney in the State of California, under the direction and supervision of and in conjunction with the Attorney General of the State of California, should make a complete and detailed survey of all the Japanese residing in the 58 counties of the State of California, with the object in view of ascertaining the number of said Japanese residing in each of said counties, both alien and native born Japanese, and the activities of said Japanese, both alien and native born, particularly with relation to probable and apparent violations of the Alien Land Law of the State of California; and

WHEREAS, As a result of said investigation, it was found that the Alien Land Law of the State of California was being, and has been for a number of years, flagrantly and openly violated by said Japanese, both alien and native

born, by numerous and ingenious schemes and devices, all of which were condoned, aided, abetted, and encouraged by many American citizens; and

WHEREAS, It was also found as a result of said investigation that the Alien Land Law of the State of California was wholly inadequate and unsuited to meet the war emergency which existed on the Pacific Coast after the vicious attack made by the Japanese upon Pearl Harbor, and further urgent requests were made that the Federal Government immediately take steps to evacuate and remove all Japanese, both alien and native born, from the State of California, Oregon, and Washington; and

WHEREAS, On March 2, 1942, the Headquarters, Western Defense Command and the Fourth Army, U. S. A., at the Presidio, San Francisco, California, did by Proclamation No. 1, issued under and by authority of Executive Order No. 9066, dated February 19, 1942, by the President of the United States, establish and set up certain military areas on the Pacific Coast from the Mexican Border to the Canadian Border, designated as Prohibited Zone "A-1" and Restricted Zone "B," and did in said proclamation require and order all Japanese, both alien and native born, to be immediately evacuated from said zones, which said order was promptly and expeditiously carried into effect, and all Japanese in said zones were finally evacuated, all said Japanese being finally evacuated from the County of Placer on Thursday, May 21, 1942; and

WHEREAS, This grand jury believes that the Alien Land Law of the State of California should be amended in such a manner as to make same enforceable and effective in the future, and further believes that now is the opportune time for the people of the State of California to insist not only that our State Legislature provide effective and adequate legislation to meet the Japanese problem in the State of California, but also to demand that the United States Congress pass National legislation which will make it impossible for Japanese, either alien or native born, to become citizens of the United States or to own, hold, enjoy, occupy, and use agricultural lands in any of the States of the Union; now, therefore, be it

Resolved by the Grand Jury of the County of Placer, in regular meeting assembled, this tenth day of December, 1942. That the Alien Land Law of the State of California be amended in the manner and form set forth in Exhibit "A" attached hereto and made a part hereof; and be it further

Resolved, That a copy of these amendments to the Alien Land Law of the State of California be spread upon the minutes of the Grand Jury of the County of Placer; that a copy of said proposed amendments be mailed to the Honorable Jerrold L. Seawell, State Senator representing the County of Placer, and the Honorable Allen G. Thurman, State Assemblyman representing the County of Placer, with the request that they introduce proper legislation amending the Alien Land Law of the State of California in accordance with said suggested amendments; and be it further

Resolved, That a copy of this resolution be mailed to every grand jury of every county in the State of California, with the request that said grand jury take immediate action indorsing and approving said proposed amendments, and that each such said grand jury immediately contact the State Senator and Assemblyman representing said county in the State Legislature of the State of California, and request that they make every effort to have the said Alien Land Law of the State of California amended in accordance with the said proposed amendments hereinbefore set forth; and be it further

Resolved, That the State Legislature of the State of California memorialize the United States Congress and each and every Congressman and Senator representing the State of California in said United States Congress, urging, demanding, and requesting that adequate National legislation be passed by the United States Congress, and if necessary that our Federal Constitution be amended, to prohibit all Japanese, both alien and native born, from owning, possessing, enjoying, using, or occupying agricultural lands or enjoying or having the use of the proceeds received from the sale of products grown and produced upon agricultural lands, and that all Japanese, both alien and native born, be forever prohibited from becoming citizens of the United States of America; and be it further

Resolved, That each grand jury of the several counties of the State of California, be and they are hereby urged and requested to adopt resolutions indorsing and approving in principle the State and Federal legislation proposed herein, and further, that said grand juries immediately forward such said resolutions to their State Assemblyman and Senator, requesting immediate favorable action thereon.

Exhibit "A"

Proposed Amendments to the Alien Land Law of the State of California

SEC 10a Any person who violates any of the provisions of this act shall be punishable by imprisonment in the county jail not to exceed one year or in the State penitentiary not exceeding two years, or by a fine not to exceed five thousand dollars (\$5,000), or both.

SEC 10b The Attorney General of the State of California or the district attorney of the proper county is hereby granted the power to institute in the name of the People of the State of California injunction proceedings to enjoin and restrain any and all persons from entering into any written or oral agreements in violation of the terms and provisions of the act, and said Attorney General or district attorney shall have the power to file such said injunction proceedings for the purpose of restraining and enjoining any person from operating or conducting farming and agricultural operations in violation of the terms and provisions of this act; all such said injunction proceedings shall be instituted in the superior court of the county in which the real property involved is situated. In so far as applicable said injunction proceedings shall be governed by the terms and provisions of Part 2, Title 7, Chapter 3, of the Code of Civil Procedure of the State of California.

SEC 10c The Attorney General of the State of California and the district attorney of the proper county is hereby granted power to institute proceedings in the name of the People of the State of California under this act, in the superior court of the county in which the land involved is located, for the purpose of testing and determining by a civil action in a declaratory manner whether or not any agricultural land is being farmed or used under a contract written or oral in violation of the terms and provisions of this act.

SEC 10d Section 8 of said act is hereby amended to read as follows.

Sec. 8 Escheat of leasehold. Escheat of stock. Any leasehold or other interest in real property less than the fee, including cropping contracts which are hereby declared to constitute an interest in real property less than the fee, *hereafter created and acquired in violation of the provisions of this act by any landlord or owner of land and any alien mentioned in Section 2 of this act*, or by any company, association, or corporation mentioned in Section 3 of this act, shall escheat to the State of California, as of the date of such acquiring in violation of the provisions of this act. The Attorney General or the district attorney of the proper county shall institute proceedings *against both the landlord or owner of the land and the alien mentioned in Section 2 of this act, to have such escheat adjudged and enforced* in the same manner as is provided in Section 7 of this act. In such proceedings the court shall determine and adjudge the value of such leasehold or other interest in such real property, including both the landlord's interest and the interest of the lessee, as of the date of such acquisition in violation of the provisions of this act, and enter judgment for the State for the amount thereof together with costs. The said judgment so entered shall be considered a lien against the real property in which such leasehold or other interest less than the fee is so *created and acquired* in violation of the provisions of this act, which lien shall exist as of the date of such unlawful acquisition. Thereupon the court shall order a sale of the real property covered by such leasehold, or other interest, in the manner provided by Section 1271 of the Code of Civil Procedure. Out of the proceeds arising from such sale, the amount of the judgment rendered for the State shall be paid into the State Treasury and the balance shall be deposited with and distributed by the court in accordance with the interest of the parties thereon. Provided that the court shall fix and determine the total costs and expenses of the county in which the case is tried in preparing and prosecuting such escheat cause, and same shall thereupon be repaid to said county out of the State Treasury. Any share of stock or the interest of any member in a company, association or corporation hereafter acquired in violation of the provisions of Section 3 of this act, and it is hereby declared that any such share of stock or the interest of any member in such a company, association or corporation so acquired in violation of the provisions of Section 3 of this act is an interest in real property. Such escheat shall be adjudged and enforced against both the *lessor and the lessee* in the same manner as is provided in this section for the escheat of a leasehold or other interest in real property less than the fee.

SEC 11a All leases, cropping agreements, and any other agreements to acquire, possess, enjoy, use, cultivate, occupy, and transfer real property for farming or agricultural purposes or to transfer in whole or in part the beneficial use of said lands when said lease agreements, cropping contracts or other contracts are made in the name of the wife or child of any alien mentioned in Section 2 of this act, or made in the name of any other person, shall be illegal and void and in violation of the terms and provisions of this act where such

said alien mentioned in Section 2 of this act is allowed to remain upon the land, farm and cultivate same and enjoy directly or indirectly the beneficial use of such said agricultural lands or obtains or has a beneficial interest in or use of the proceeds received from the sale of the agricultural crops produced on said lands, and in all such cases all of said persons signing and entering into any such said agreements shall be guilty of violation of the terms and provisions of this act, and upon conviction thereof shall be punished in the manner provided in Sections 10 and 10a hereof, and the Attorney General or the district attorney of the proper county shall have the power to institute injunction proceedings in the name of the People of the State of California against any and all such persons for the purpose of enjoining and restraining them from carrying or farming operations on any agricultural lands in the State of California, under the terms and provisions of any such said agreements, contracts, or leases, as hereinbefore provided.

SEC 11b. Section 4 having been declared unconstitutional by the Supreme Court of the State of California, it is hereby amended to read as follows:

The present wording of said Section 4 is hereby repealed and the following wording substituted therefor:

Whenever any alien mentioned in Section 2 hereof is appointed by any court as a guardian of his native-born minor child or children, or as a guardian of any other person or persons, it shall be unlawful for such said alien guardian to farm, operate, or manage any land or lands held by such said guardianship estate, except solely for the use and benefit of the ward or wards of said estate, or to enjoy, possess or have, in whole or in part, the beneficial use of any such said land or lands so held or possessed or which belong to any such said guardianship estate, nor shall said alien guardian have or enjoy or receive directly or indirectly the beneficial use of such said lands or the proceeds received from the sale of any crops produced, grown, or raised thereon, it being the intent of this section that no alien mentioned in Section 2 hereof shall by any guardianship proceedings whatsoever evade or violate or seek to evade or violate any of the provisions of this statute.

In all such said guardianship estates, the alien guardian must make a monthly report to the court in which said guardianship estate is pending, showing in detail and supported by receipts, all money disbursed, expended, and paid out by said guardian, to whom same was paid, for what purpose, and the date of such said disbursement or payment. Also all money received, from whom received, for what purpose received, and the date of the receipt thereof. Failure on the part of the said alien guardian so to do will constitute a direct violation hereof, for which said guardian may be prosecuted and punished as set forth in Sections 10 and 10a hereof.

Said alien guardian shall include in such said monthly report such other matters and items as the court may require, the said alien guardian to be under the absolute jurisdiction and control of the court at all times, and the court may from time to time require said alien guardian to make special reports on all things pertaining to said guardianship estate. The court may also require the ward of any such said guardianship estate to be produced in court whenever said court may deem such procedure necessary and proper for the protection of said guardianship estate. In no case shall the said ward of any such said guardianship estate leave the State of California without first obtaining the written permission of the court so to do.

The court shall have power to fix the compensation of the said alien guardian at such amount as the court may determine, but in no case shall said amount exceed the actual and necessary expenses of said alien guardian in the performance of his duties. The court shall also fix the amount of bond to be given by said alien guardian. The court shall also fix and determine the amount of attorney's fees in all such guardianship matters. In no event, however, shall said attorney's fees exceed the sum of one hundred fifty dollars (\$150) per annum.

Whenever any alien guardian shall fail, neglect, or refuse to comply with the terms and provisions hereof, he may be removed as guardian of said estate by the court, when deemed to be for the best interests of said estate.

The court shall require a final account to be filed on behalf of any such guardianship estate at the time the ward or wards shall become 21 years of age. Such final account must be prepared and filed by the alien guardian and must contain in detail a full and complete accounting of all property, both real and personal, belonging to said estate, all money disbursed and paid out on account of said guardianship estate and all money received on account thereof. The court may also require such other matters to be included in said report as said court may deem to be necessary and proper. No such guardianship estate shall be finally closed until the final report shall have been filed and approved by the court.

13. Each bill shall be signed by the member, or each of the members, who is an author of the bill before it is introduced. If any bill is introduced which does not contain the signature of such author or co-author, the same shall be stricken from the file on motion of the member whose name appears thereon without such signature after the majority vote of the members. In each legislative session on the first day when bills are introduced under "Introduction and Reference of Bills," the roll shall be called from A to Z and then back again from Z to A, and as each member's name is called, he shall have the privilege of introducing one bill, constitutional amendment, concurrent or joint resolution.

After these two roll calls, any member desiring to introduce bills, constitutional amendments, concurrent and joint resolutions may at any time during a session send the same to the Clerk's desk. When received at the Clerk's desk it shall, under the proper order of business, be numbered, read the first time, referred to a standing committee, be printed, and a copy placed upon the desk of each member.

All bills, constitutional amendments, concurrent and joint resolutions introduced before the standing committees of the Assembly are appointed, shall be referred to committees, references to take effect when the committees shall be appointed.

Introduction of Bills After Constitutional Recess

14. Any member requesting permission to introduce a bill, except a resolution or constitutional amendment, after the constitutional recess shall send such request together with the bill to the Clerk's desk, and they shall, under the order of "Introduction and Reference of Bills," be referred by the Speaker to the Committee on Legislative Procedure. The committee shall ascertain if the granting of such request will exceed the limitations as set forth in Section 2 of Article IV of the Constitution, and if it will not, shall report back on the same legislative day each bill so referred to it. The adoption of the report of the committee granting permission to introduce any bill shall require an affirmative recorded vote of three-fourths of all members elected to the Assembly.

Examining of Bills by Legislative Counsel Bureau

15. After introduction, all bills shall be delivered to the Legislative Counsel for the purpose of determining if the bill is in the proper form

as prescribed by law or Assembly rule. He shall have authority to correct any clerical error such as orthography, adding or correcting the enacting clause, mistakes in numbering sections and references thereto, and in any other particular wherein the bill does not comply in form with law or Assembly rule. He shall have authority to correct any error in the title of an amendatory bill wherein it does not enumerate the sections added or amended of a particular act or code.

If, in the opinion of the Legislative Counsel, any correction made by him under the authority of this rule should in any manner be construed to be a change in the bill other than a change in form, he shall obtain the consent of the author of the bill before making such change.

Immediately upon the completion of the check of the bills referred to the Legislative Counsel in accordance with the provisions of this rule, he shall deliver the bills to the State Printer. Under no circumstances shall the Legislative Counsel retain in his possession any bills referred to him under the provisions of this rule for any period longer than two legislative days.

Members' Decorum and Privileges

Order in Speaking to Questions

23. When a member desires to address the Assembly, he shall rise from his seat and respectfully address himself to "Mr. Speaker." Upon being recognized, he may speak, confining himself to the question under consideration.

No member shall speak more than once during the consideration of any one question on the same day and at the same stage of proceeding, except that the author of a bill or resolution or the mover of a question shall have the right to open and close the debate thereon. No member shall be allowed to speak more than 10 minutes to open and five minutes to close the debate thereon, and no member other than the author or the mover of the question shall be allowed to speak more than five minutes thereon. No member shall yield to any other member the time for which he is entitled to speak on any matter.

Speaker to Decide Who Is Entitled to Floor

24. When two or more members rise at the same time, the Speaker shall designate the member to speak first.

Members Called to Order for Transgressing Rules

25. If any member, in speaking or otherwise, transgresses the Rules of the Assembly, the Speaker shall, or any member may, call the offending member to order. The member so called to order shall immediately take his seat, unless permitted to explain; if called to order by a member, such member shall immediately state the point of order. The point of order shall be decided by the Speaker without debate. If the decision of the Speaker be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, he shall be required to keep his seat. Every such decision by the Speaker shall be subject to an appeal to the Assembly.

Members Called to Order for Offensive Words

26. If any member be called to order for offensive words spoken in debate, the person calling him to order shall state to the Assembly the words to which exception is taken. No member shall be held to answer, or be subject to censure by the Assembly, for language used in debate, if other business shall have been transacted by the Assembly prior to exception being taken to the words spoken.

Members Voting

27. Every member actually in the Assembly Chamber when a roll call is required shall record his vote openly and without debate, unless the Assembly shall, after he has stated his reasons for not doing so, excuse him. All motions to excuse a member shall be made before the Assembly divides, or before the recording of ayes and noes is commenced. Any member requesting to be excused from voting may make a brief oral statement of the reasons for such request, and the question shall then be decided without debate by a majority vote of the members present.

The name of any member who refuses to vote as required by this rule after being requested by the Speaker to do so and who has not been excused from doing so shall be entered in the Journal of the Assembly, together with a statement that he was present and did so refuse to vote. Any member who refuses so to vote may, if he so desires, and immediately after the announcement of the vote, submit a written explanation of his failure to vote and have such explanation printed in the Journal, provided no such explanation shall exceed 50 words in length.

In addition to the entry of his name in the Journal, any member who refuses so to vote when required, and who has not been excused from doing so, may, immediately after the announcement of the vote, in the discretion of the Speaker or upon demand of any member, be summoned to appear before the bar of the Assembly for public censure by the Speaker or by any member designated by the Speaker.

Censure of a member as provided by this rule shall not constitute a bar to proceedings for his expulsion from the Assembly pursuant to Section 9 of Article IV of the Constitution.

A member may submit a written explanation of his vote on any bill or House resolution, and have such explanation printed in the Journal immediately following such vote, provided no such explanation shall exceed 50 words in length.

Ayes and Noes

28 The ayes and noes shall be recorded by the electrical voting system on the final passage of all bills, or by viva voce when demanded by three members or when ordered by the Speaker, and on any other question when called for by three members or ordered by the Speaker, the names of which members shall be entered in the Journal.

Voting Not to Be Interrupted

29. When once begun, voting shall not be interrupted, except that any member may have the total pending vote flashed on the visible vote recorder and except that any member may move a call of the Assembly after the completion of the roll and prior to the final recording and announcement of the vote.

Changing Vote

30. Prior to the announcement of the vote, the Speaker shall inquire if all members have voted. After the vote is announced, no member shall be allowed to change his vote, or have his vote recorded.

Members at Clerk's Desk

31. No member or other person shall be allowed at the Clerk's desk while the ayes and noes are being recorded or the votes counted.

Tie Vote

32. In case of an equal division, or tie vote, the question shall be lost.

Call of Assembly

33. After the roll has been called, and prior to the announcement of the vote, any member may move a call of the Assembly. A majority of the members present may order a call of the Assembly, and the Speaker shall immediately order the Sergeant-at-Arms to lock all doors and shall direct the Clerk to prepare a list of absentees as disclosed by the last roll call. Thereupon no member shall be permitted to leave the Assembly Chamber except by written permission of the Speaker, and no person shall be permitted to enter except such member as is taken into custody as herein provided, or Senators, officers, attaches, or employees of the Legislature in the official performance of their duties.

Those members who are found to be absent, and for whom no leaves of absence have been granted, shall be forthwith taken into custody wherever found by the Sergeant-at-Arms or his assistants and brought to the Assembly Chamber. No recess or adjournment shall be taken during a call of the Assembly. During such call, the Assembly may

consider and transact any matter of business by unanimous consent. No call of the Assembly shall be ordered on any matter while the Assembly is already under call. A call of the Assembly may be dispensed with at any time upon a majority vote of the members present, at which time the completion of the roll call pending when the call of the Assembly was ordered shall become the immediate order of business before the Assembly.

Leave of Absence

34. No member shall absent himself from attendance at any session of the Assembly without leave of the Assembly, and no member shall obtain such leave of absence or be excused for nonattendance, except by a two-thirds vote of all members elected to the Assembly, or by unanimous consent.

Personal Privilege

35. Any member may rise to explain a matter personal to himself and shall forthwith be recognized by the Speaker, but shall not discuss a question in such explanation. Such matters of personal privilege yield only to a motion to recess or adjournment.

Objection to Reading of Any Paper

36. Any member upon recognition by the Speaker may object to the reading of any paper before the Assembly. After such objection, the question of reading shall be determined without debate by a majority vote of the members present, upon a brief statement of its substance by the Speaker.

Assignment of Desks to Members

37. Members shall be assigned to desks by the Chief of the Bureau of Buildings and Grounds, and, so far as possible, he shall conform to the requests of members, giving due consideration to their seniority in point of service in the Assembly.

Motions and Questions

Precedence of Motions During Debate

38. When a question is under debate or before the Assembly, no motions shall be received but the following, which shall take precedence in the order named:

- First*—To adjourn;
- Second*—To recess to a time certain;
- Third*—To lay on the table;
- Fourth*—For the previous question;
- Fifth*—To set as a special order;
- Sixth*—To postpone indefinitely;
- Seventh*—To refer or re-refer;
- Eighth*—To amend.

Questions of Order Decided Without Debate

39. All incidental questions of order, arising after a motion is made for any of the questions named in Rule No. 38 and pending such motion, shall be decided by the Speaker without debate, whether on appeal or otherwise.

Appeal From Decision of the Speaker

40. Any member may appeal from a decision of the Speaker without waiting for recognition by the Speaker, even though another member has the floor. No appeal is in order when another is pending, or when other business has been transacted by the Assembly prior to the appeal being taken.

Upon the appeal being seconded, the Speaker may give his reasons for the decision, and shall forthwith put this question to the Assembly: "Shall the decision of the Speaker be sustained?"

An appeal can not be amended and yields only to a motion to recess or adjourn, to lay on the table, or a question of personal privilege. If an appeal be laid on the table, such action shall have no effect on the pending question.

An appeal can not be debated when relating to indecorum, transgression of Rules, or priority of business. A majority vote of the members present shall decide any appeal

To Adjourn

41. A motion to adjourn is not debatable and can not be amended, and is always in order, except (a) when another member has the floor; (b) when the Assembly is voting; (c) during a call of the Assembly. The name of any member moving an adjournment and also the hour at which the motion was made and adjournment taken shall be entered in the Journal. Such a motion to adjourn must be adopted by a majority vote of the members present.

When such a motion to adjourn is made and seconded, it shall be in order for the Speaker, before putting the question, to permit any member to state to the Assembly any fact relating to the condition of the business of the Assembly which would seem to render it improper or inadvisable to adjourn. Such statement shall not occupy more than two minutes and shall not be debatable.

To Recess to a Time Certain

42. A motion to recess to a time certain shall be treated the same as a motion to adjourn, except that such motion is debatable when no business is before the Assembly, and can be amended as to the time and duration of the recess. It yields only to a motion to adjourn.

To Lay on the Table

43. A motion to lay on the table is not debatable and can not be amended.

A motion to table a bill, constitutional amendment, concurrent or joint resolution requires a majority vote of the entire elected membership.

Any motion to lay on the table, if carried by a majority vote of the entire elected membership, carries with it the main question and everything that adheres to it; provided, however, that a motion to lay an amendment on the table, if adopted, does not carry with it a bill, constitutional amendment, concurrent, joint, or House resolution.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present.

The Previous Question

44. The previous question shall be put only when demanded by five members, and in this form: "Shall the question be now put?" And its effect, when sustained by a majority of the members present, shall be to put an end to all debate and bring the House to a vote only on the question then pending; except that the proponent of the matter pending shall be allowed not to exceed five minutes to close the debate.

Motion to Set Special Order

45. A motion to set any matter before the Assembly as a special order of business must be adopted by a two-thirds vote of the members elected. It is debatable only as to the propriety of setting the main question as a special order of business, and may be amended only as to the time.

Motion to Postpone to a Time Certain

46. A motion to postpone to a time certain shall be deemed and treated as a motion to set as a special order.

Motion to Postpone Indefinitely

47. When a motion is made to postpone indefinitely any bill, motion, or amendment, it opens the main question to debate. Should the motion to postpone indefinitely prevail by a majority vote of the entire membership, the main question shall not be acted upon again during the session.

Motion to Amend

48. A motion to amend may itself be amended, but no "amendment to an amendment" can be amended. A motion to amend is debatable, except where the main question to be amended is not debatable. Any motion to amend may be adopted by a majority vote of the members present.

A motion to amend having been decided in the negative, shall not again be in order on the same day, or at the same stage of proceeding. A motion to amend by striking out certain words having been decided in the negative, shall not preclude a motion to amend by adding words, or a motion to amend by striking out and inserting words; but in no case shall a further amendment be substantially the same as the one rejected.

Subject to the above provisions of this rule, a motion to amend is in order during the second or third reading of any bill.

A motion to lay an amendment on the table may be adopted by a majority vote of the members present, as provided in Rule 43.

Amendment to Be Germane

49. No amendment to any bill, whether reported by a committee or offered by a member, shall be in order when such amendment relates to a different subject, or is intended to accomplish a different purpose, or requires a title essentially different from the original title of any bill.

No amendment shall be in order which adds or deletes the name of a member as an author or co-author, or which changes the original number of any bill.

Substitute Motion

50. A motion to substitute shall be deemed and treated as a motion to amend.

Motions in Writing

51. Upon request of the Speaker all motions shall be reduced to writing and shall be read by the Speaker before the same are acted upon.

Consideration of Motions

52. No motion, whether oral or written, shall be adopted until the same shall be seconded and distinctly stated to the Assembly by the Speaker.

Division of Questions

53. Any member may call for a division of the question, and the Speaker shall order the question divided if it comprehend propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Assembly.

Resolutions

54. The adoption of any resolution authorizing the expenditure of money shall require an affirmative recorded vote of a majority of all members elected to the Assembly. All House resolutions shall be numbered and shall be referred to the appropriate committee by the Speaker.

Withdrawal of Motions

55. After a motion is stated by the Speaker, or a bill, resolution, or petition read by the Clerk, it shall be deemed to be in the possession of the Assembly.

Motion to Be Germane

56. No motion or proposition on a subject different from that under consideration shall be admitted as an amendment.

Bills Reported Back to Assembly

57. All committees shall act upon bills referred to them as soon as practicable, and when acted upon each bill shall be reported back to the Assembly forthwith, and the chairman of each committee is charged with the observance of this rule.

Motion to Withdraw and Recall Bills

58. A motion to withdraw a bill or resolution from committee, or to re-refer a bill or resolution from one committee to another committee may be made during the regular order of business. Bills Considered During Last Seven Days

70. The Chairman of the Senate Committee on Conference for the same bill shall arrange the time and place of meeting of such committee. It shall require an affirmative vote not less than four of the members constituting the Committee on Conference to agree upon a report and the report shall be transmitted to both the Senate and the Assembly. Such report is not binding on amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed.

84. Notice of a motion to reconsider on the next legislative day, the vote whereby any bill, constitutional amendment, concurrent or joint resolution was passed or refused passage, must be given on the same day such vote to be so reconsidered was taken.

A notice of motion to reconsider a vote must be given by a member voting on the bill, constitutional amendment, concurrent or joint resolution, and shall take precedence over all motions, except a motion to adjourn. Upon such notice of motion being given, the bill, constitutional amendment, concurrent or joint resolution shall forthwith be placed upon the unfinished business file, and no further action shall be

taken prior to the next legislative day. When a notice of a motion to reconsider has once been made, the same shall be considered to be the property of the Assembly. The notice of motion to reconsider may be called up by any member on the next legislative day after the notice of reconsideration of the bill, constitutional amendment, concurrent or joint resolution has been given.

Any member voting on any motion, amendment, concurrence, recedence, Assembly resolution or proposition other than a bill, constitutional amendment, concurrent or joint resolution, may give notice of reconsideration of the vote whereby the same was passed or refused passage on the same day such vote to be reconsidered was taken, which notice shall suspend all further consideration until the next legislative day; provided, however, that a motion to reconsider on the same day the notice was given shall take precedence over and above such notice and upon demand of any member must be put to an immediate vote. A motion to reconsider any proposition other than a bill, constitutional amendment, concurrent or joint resolution shall require an affirmative recorded vote of a majority of the entire elected membership.

No notice of motion for reconsideration shall be in order on the day preceding the last day for consideration of Assembly or Senate bills in the Assembly. PRELIMINARY REPORT ON RATIONAL ORGANIZATION OF STANDING COMMITTEES OF THE ASSEMBLY (1943)

By the Committee on Legislative Organization

CHARLES M. WEBER, Chairman

THOMAS J. DOYLE

CHARLES W. LYON

SACRAMENTO, December 1, 1942

HON. GORDON GARLAND

Speaker of the Assembly

DEAR MR. SPEAKER: Pursuant to the adoption of H.R. 253 on June 14, 1941 (page 4424 Assembly Journal), which authorized the appointment of a Committee on Legislative Organization, the Speaker acting upon the authority given him appointed Messrs. Doyle, Lyon and Weber, on July 16, 1941, to act as members of the committee.

Paragraph One of the Resolution directs the committee "To study the Standing Rules of the Assembly, the Joint Rules of the Legislature, the existing organization of the Legislature, questions of economy in the legislative procedure, the physical facilities for the use of the Legislature, the rearranging of space in the State Capitol, and the advisability of creating as an adjunct to the Legislature an office or position to be filled by a person qualified to report directly to the Legislature on all matters respecting departmental budgets and personal assignments in so far as the same may be embraced in matters pending before the Legislature." (Page 4058 Assembly Journal, June 7, 1941.)

On June 14, 1941 (page 4504), the Assembly by a vote of 50 to 1 adopted H.R. No. 254 which amends the rules so as to consolidate and reduce the number of Standing Committees from 58 to 27 and establishes new methods for organizing the Assembly and new legislative procedure for the simplification of the handling of the bills as they proceed through the committees and the House. A motion by Mr.

Weber was adopted which directed the Committee on Legislative Organization to make a report, to be printed in proper form, to contain matters appertaining to the subject matter in H.R. No. 254. (Page 4504 Assembly Journal, June 14, 1941.)

The Resolution embodies a plan for the reorganization of the standing committees of the Assembly, only slightly different from that adopted two years previously, on June 20, 1939, but which failed to be readopted during the regular session of 1941.

The reduction in the number of committees has mainly been accomplished by the consolidation of existing committees. However, the reorganization of committee structure has been along the lines of a rational plan by which work will be divided on a functional basis. The assignment of bills and measures to committees will also follow the outlines of this plan.

The Resolution is designed to accelerate House procedure and to remove duplication of committees, thereby preventing the great confusion and fatigue which had arisen during several previous regular sessions.

In order to conform to the powers and duties imposed upon it by H.R. No. 253 and by the motion supplemental to H.R. No. 254, the committee submits herewith in printed form: a preliminary report embodying matters pertinent to the reorganization of the standing committees of the Assembly and containing the following subjects:

1. A diagram setting forth the new rational plan for the organization of the standing committees and containing a schedule for the time and place of committee meetings and providing for a convenient means whereby any member may tentatively select his preferred committees and determine at once any conflicts that might occur as to the time of meeting under the established schedule, thereby expediting the work of the Speaker and the Committee on Legislative Organization in organizing the standing committees.

2. Instructions to the Speaker and to the Committees on Rules and House Functions, Legislative Organization and Legislative Procedure as to their powers and duties and as to methods of fulfilling them.

Conforming further to the same duties cited above, the committee proposes, upon proper authorization, to submit a final report which will contain the following subject matter:

1. Resume of previous reports of the Interim Committee on Legislative Organization.

2. Suggestions for further modifications of the time schedules of the meetings of the standing committees of both the Senate and the Assembly, so that the work of members of each legislative body in the other house may be expedited and likewise the work of the public appearing before the committees of both houses be simplified.

3. All other data that might make the report a manual for the use of the members in legislative procedure.

The committee recommends that after the Speaker has been elected and is seated, a House Resolution be presented to and adopted by the members which authorizes the appointment of a new permanent Committee on Legislative Organization. The new committee may immediately continue the work of the old permanent committee and aid the Speaker and the Chief Clerk in the organization of the standing committees, preparing the temporary rules for adoption by the Assembly and also the new permanent rules, for consideration by the Committee on Rules and House Functions, and thereafter by the Assembly.

The committee recommends that the Resolution further direct the Committee on Legislative Organization during the session of 1943 and thereafter throughout the biennium to undertake the following program:

A. To observe the operation of the House under the new rules with a view towards improving them where necessary.

B. A simplification of the Standing Rules of the Assembly by rearranging the present subject matter in a more logical and concise manner, thus eliminating useless verbiage and clarifying meanings, and saving time and printing.

C. Setting up a simplified and proper form of stating motions and all legislative actions so as to reduce the monotonous flow of words resulting from the form used at present, thus saving time and printing.

D. Cooperating with the Senate to amend the Joint Rules if found necessary.

E. Analyzing the functions of the Chief Clerk of the Assembly and his staff, the manual and mechanical operations necessary to the proper fulfillment of his duties with a view to designing desks and space and other apparatus appropriate to the expeditious carrying out of those operations.

F. Same studies as above for the Sergeant-at-Arms and his staff.

G. Same studies as above for the Members of the Assembly so that the location of their seats will be coordinated with the use of the loud speaking system, thus aiding in attention to debate, and moreover to aid in the design of desks which will conveniently hold detachable containers for the handling of the very large volumes of printed bills and other printed records and files of the Legislature and its members.

H. To initiate plans for the rearranging of space in the State Capitol so that the functions of the Legislature may proceed in a rational and orderly manner and to provide in future State building plans for proper space for those departments displaced by the Legislature.

I. To study the advisability of creating an office or bureau similar in form to the Legislative Counsel Bureau for the purpose of doing research work on all matters respecting departmental budgets and personal assignments in so far as the same may be embraced in matters pending before the Legislature, thereby setting up an agency which will enable the Legislature to do sound creative work in the organization of government.

The committee further recommends the adoption as the Standing Rules of the Assembly for the Fifty-fifth Session of the Legislature, the proposed rules embodied in this report and submitted herewith

The committee recommends the adoption of the report so that it may be printed in the Journal.

Respectfully submitted.

COMMITTEE ON LEGISLATIVE ORGANIZATION

CHARLES M. WEBER, *Chairman*

THOMAS J. DOYLE

CHARLES W. LYON

Organization of Standing Committees

Great care should be taken in organizing the standing committees, for it is upon their proper functioning that the duration and cost of the legislative session depend.

Moreover, the psychological factor can be greatly improved by reducing that nerve strain and fatigue suffered by the members, which is the result of defective organization.

With a view toward aiding the Speaker in this most important work suggestions and instructions are herewith submitted.

The Standing Committees

There are many factors which limit and prescribe the methods by which the membership of the standing committees should be selected. Therefore, in many cases, the preference of the members to serve on certain committees should be subservient to other limiting factors. Indeed, such things as the number of bills pertaining to particular types of legislation and their controversial aspects, the number of committee rooms available, and their size, are among these items.

Other factors should be given consideration, such as the elimination of conflict between committee work and the legislative sessions, and also the courtesies which should be extended to persons appearing before committees expecting to have hearings of sufficient length so that their work may be consummated and they may return to their homes, thus avoiding the great expense involved in repeated journeyings to the Capitol.

Submitted herewith on page 13 is a proposed schedule for the Assembly committee meetings. In formulating this schedule, the larger rooms have been assigned to those committees which past experience has shown require them.

Where two consecutive periods of time are available and where the number of bills before a committee demands much time, it would be well to prolong the meetings from the first period into the second, thus greatly simplifying the schedule.

A study of the schedule shows that in most cases there are no more than three committee meetings at the same time.

It will be noted that there are no committee meetings scheduled for Fridays. This reduces the number of available meeting periods during the week, and thereby has a tendency to increase the conflicts in the schedule of the members. This has the advantage, however, of leaving the mornings, afternoons and evenings of Fridays open for sessions of the Assembly, when that body is required to clear its Calendar of accumulated business.

No member should serve on more than four committees. However, a reasonably satisfactory schedule with a limited number of conflicts may result if each member is assigned to five committees. But if each member serves on six committees it will be found that the conflicts will be increased out of proportion and that too great a burden will be placed upon the rational organization of the standing committees.

By consulting the committee schedule and indicating their preference for committees, the members themselves will be able to eliminate, to a great extent, conflict in their schedule prior to the Speaker's consideration of such matters.

Previous to the time for the convening of the regular session of the newly elected House, the Committee on Legislative Organization, or the Chief Clerk should submit to all the elected members the printed form which sets forth the plan for the organization of the standing committees, containing a schedule for the time and place of committee meetings. This will provide a convenient means whereby any member may tentatively select his preferred committee and determine at once

any conflicts that might occur as to the time of meetings under the established schedule. This logical and cooperative effort will expedite in advance the work of both the new Speaker, when he takes office, and the new Committee on Legislative Organization in organizing the standing committees. Inserted at page 14 is such a form.

The Use of the Printed Schedule

In using the form submitted herewith as an aid in simplifying his preference for committee assignments, each member should, by number, indicate the order of his preference, by marking in the proper column that number and the meeting period in the column under the day upon which the committee meets. Repeating this procedure for each of the four or possibly six preferred committees, the member himself may then see at a glance, by noting the meeting periods in the column under any designated day, whether, at a specified period, there will be a conflict in his schedule. Very possibly the member may then select another committee less preferred, thereby eliminating the conflict. The member may then retain one copy for himself and submit to the Speaker, or the Chief Clerk, the duplicate. The Committee on Legislative Organization, or the Chief Clerk, will then be able to combine all of the designated preferences of the members into a form which will offer a greatly simplified and rational means of organizing the standing committees without conflict in schedules. It should be noted that there are three periods of time in any one day for the meeting of the committees designated as numbers I, II, and III, or, for example, 3 to 4.30 p.m., 4.30 to 6 p.m., and 8 p.m.

It must be kept in mind that on several of the very important committees the experience of some of the veteran members should be retained and some preference given to them in order to expedite the business of the Legislature throughout the session. This is necessary for the benefit of all the members, and the public.

Conflicts in schedule are not desirable, but the Speaker may make exceptions where proper representation of a member's district or previous committee experience makes it necessary to allow the conflict to exist.

Selection of Committeemen

Selection of the committeemen should be based on natural and educational qualifications to consider and study particular types of subject matter contained in bills coming before the committee. Moreover, the value of the legislator serving on a committee would be greatly enhanced by his experience in serving during successive sessions on the same committee, because through his experience he will have become something of an expert on special subjects.

Committee on Legislative Organization

At the beginning of the session, before the standing committees have been appointed and after the Speaker has been elected and seated, a House Resolution should be presented to and adopted by the Assembly which authorizes the appointment of the new permanent Committee on Legislative Organization, so that the newly appointed committee

may immediately continue the work of the old permanent committee and aid the Speaker and the Chief Clerk in the organization of the standing committees and preparing the temporary rules for adoption by the Assembly and also the new permanent rules for consideration by the Committee on Rules and House Functions and thereafter by the Assembly.

This committee should continuously observe the operation of the House under the existing rules with a view towards improving them if necessary. The committee should undertake to make studies and formulate plans for the more efficient functioning of the Assembly as a parliamentary body in its relationship with the Senate and the public. These broad duties would cover such items as legislative printing, detailed analysis of the manual functions of the Chief Clerk and the Sergeant-at-Arms, the physical problem of seating the House, the proper functioning of the voting, the comfort of the members, coordinating organization and procedure with the Senate, the design of floor plans for the housing of the Assembly and its committees.

There is a continuous need for the operations of such a permanent committee.

Committee on Rules and House Functions

Upon adoption by the House of the temporary rules, the Speaker should next appoint the Committee on Rules and House Functions. The committee will then consider the permanent rules as recommended in the report of the Committee on Legislative Organization. The Speaker may direct the Committee on Rules and House Functions to consider the personnel to be presented to the House for election as attaches in its service. This committee should consider matters relating to House rules and joint rules of the Senate and Assembly and such further House functions as contingent expenses, contested elections, mileage, and all else concerning the proper functioning of the House.

Committee on Legislative Procedure

Early in the session, even prior to the selection of the standing committees, the Speaker should either undertake the duties of or appoint the Committee on Legislative Procedure consisting of one or several members. This committee should act as a steering committee to manage all legislation as it proceeds through the House. This committee also should form a liaison with the Legislative Counsel so as to receive the Counsel's aid in bringing about greater efficiency in the consideration of bills.

If necessary, the committee should seek the aid of the chairmen of the standing committees in classifying the subject matter of the bills presented before the constitutional recess. In this manner an organized force will be assisting in handling the great volume of legislation. With the permission of the authors, the committee should seek to consolidate bills where duplication or similarity occurs. This may be accomplished by conferring with the authors before the bill is formally entered for first reading. The committee also should aid the chairman of the several standing committees in formulating consolidated bills which relate to the same subject so that these bills may be

put through the House under the names of the several authors or if appropriate the names of the committee members who propose it.

This committee functions as a Committee on Introduction of Bills and as a Committee on Engrossment and Enrollment as prescribed by the Constitution, the Rules of the House and the Joint Rules of the Senate and the Assembly.

In the past it has been the custom to wait until the constitutional recess before indexing the bills which have been introduced. It would be well to cause this clerical work to proceed at all times during the session. The information thus obtained would materially aid the Legislative Counsel and the Committee on Legislative Procedure in the classification and study of proposed bills.

Standing Committees

The remaining twenty-five standing committees, namely: those organized for the purpose of considering bills relating to Government and to Industry, present a greatly simplified legislative procedure.

The number of persons on each committee are not designated in the amended rules. However, they may, and should be, varied in number if it is found desirable to do so when studies are being made for the adoption of the schedule of committee meetings and the selection of their members.

Committee appointments on the larger committees are limited by the capacity of the meeting rooms as well as by the conflict that would arise in the committee schedules of individual members.

Prior to the assignment of members to serve on the several standing committees, the Speaker or the Committee on Legislative Organization shall consider the preferences of the members with regard to committee assignments, while keeping in view the practical necessity of making assignments so that members will not serve on more than one committee which meets at the same time and the Speaker thereafter shall determine the number and the members to serve on each standing committee. Upon publication in the Journal of the number of members on each standing committee, no further change in the number of members of the committee should be made otherwise than by a majority vote of the Assembly.

Assignment of Bills to Committees

In designating the committees to which bills are to be referred, the Speaker or the Committee on Legislative Procedure should consider the character of the legislation to be considered, not according to the methods heretofore used, but from a new viewpoint. Therefore, the recommendations which follow, suggest subject matters to be considered by the respective committees.

It must be kept in mind that under the rules subcommittees may be formed to study and report back with recommendations to the committee.

Broadly speaking, all bills and resolutions may be placed under three separate categories: those pertaining to Legislative Organization, to Government and to Industry.

The functions and duties of the three committees concerned with legislative organization have been discussed in the preceding pages.

These committees are the permanent committee on Legislative Organization and the two standing committees named Rules and House Functions, and Legislative Procedure.

Bills Pertaining to Government

Those bills coming under the general category of government can be more particularly classified as pertaining to conservation and planning, fiscal matters, education, social welfare, civil service and State departments, military and police, political subdivisions and judiciary and laws.

Those bills pertaining to conservation and planning, which affect uses of land for purposes of conservation or for the public welfare in general, concerning public rights of way of all kinds, such as highway, reservoir sites, flood control channels, and which pertain to conservation of any natural resource, more particularly matters pertaining to conservation, drainage, flood control, State grounds and parks, irrigation and water conservation, soil conservation, land use problems affecting human habitation, and other matters relating to State, regional, and city and county planning, should be referred to the Committee on Conservation, Natural Resources and Planning. Those particularly pertaining to roads and highways should go to the Committee on Roads and Highways.

Those bills applying to fish and game should be assigned to the committee of that name.

Those bills falling under the classification of fiscal matters in government, and more particularly classified as pertaining to matters involving governmental efficiency and economy, revenue and taxation, and ways and means, should be referred to the three committees designated by those respective titles.

Those bills classified as referring to education, and more particularly concerning education in general and in the public school system, State colleges, and in universities, should be referred to the Committee on Education, and the Committee on State Colleges and Universities.

Coming under the general category of social welfare are bills which affect the morals, health and general welfare of the citizens and the governmental services required pertaining thereto. Those bills more particularly defined as pertaining to crime problems and prisons and reformatories, public charities and corrections, should be referred to the Committee on Crime and Correction.

Those pertaining to public morals and behavior should be referred to the Committee on Public Morals.

Those pertaining to public health and quarantine should be referred to the Committee on Public Health.

Those pertaining to social service, relief, and public welfare, should be referred to the Committee on Social Welfare.

All matters pertaining to departmental organization and civil service should be referred to the Committee on Civil Service and State Departments.

All matters pertaining to the police and military, and heretofore embodied in military affairs, and matters pertaining to soldiers and sailors and State police, should be referred to the Committee on Military Affairs.

All those bills which affect the powers and duties which reside in local legislative authorities and which pertain more particularly to the political subdivisions of the State and their proper functioning, and which affect county government, municipal corporations, county and public libraries, should be referred to the Committee on Municipal and County Government.

Those pertaining to elections in political subdivisions should be referred to the Committee on Elections and Reapportionment.

Coming under the classification of Judiciary and Laws, matters affecting the codified laws of the State and those measures pertaining to the judiciary and to general laws should be referred to the Committee on Judiciary.

Those measures affecting constitutional amendments, the initiative and referendum, should be referred to the Committee on Constitutional Amendments.

Those measures which heretofore have been considered by the Committee on Federal Relations should be referred to the particular committee which covers the subject matter in the measure.

Bills Pertaining to Industry

Those bills and resolutions coming under the general category of industry and more particularly relating to the production of wealth may be further classified under the heading of (a) Agriculture, and (b) Means of Production. Bills relating to live stock and dairies should be referred to a separate committee by that name while all other bills relating to agriculture in general and to exhibitions and fairs should be referred to the Committee on Agriculture.

Those bills relating to the means of production may be assigned to the Committee on Public Utilities, Manufacturing and Corporations and to the Committee on Labor and Capital.

Those bills which refer to labor as a force of production, and capital as an economic tool, and to unemployment, should be referred to the Committee on Labor and Capital. This committee is a very important one and its membership should be carefully selected so as not to represent the political aspect of problems involving labor and capital, but should be capable of judging the economic aspect of the complex relations that exist between labor as a producing force on one hand, and capital as an economic tool on the other hand. In the past the committee has considered primarily the problems of the former without judging these matters in their close relationship to the latter, with the result that such important bills as those relating to mediation, wages and hours, and other extremely important subjects, have failed of passage in the Legislature because no compromises which would have clarified conflicting viewpoints could be made before committee.

Those bills classified as relating to the matter of finance in industry, and more particularly described as pertaining to banking, financial institutions, building and loan, and insurance, should be referred to the Committee on Finance and Insurance.

Those measures classified under transportation and distribution of production, and particularly referring to commerce and navigation, rail and truck rates, and the movement of commodities, should be referred to the Committee on Commerce and Navigation, while those

which pertain to the regulation of motor vehicles on public highways should be referred to the Committee on Motor Vehicles.

As you will note from the above address, I am now serving as Chaplain in the Army, and therefore can not accept your kind invitation to officiate at the opening of the Fifty-fifth Session.

I haven't learned the name of my successor, but whoever he is, he will find it very pleasant as long as he doesn't filibuster in his prayers.

With warmest regards, Arthur, I am,

PASADENA, CALIFORNIA, January 5, 1943

*Mr. Willis Sargent
Sacramento, California*

MY DEAR MR. SARGENT: I wish to congratulate you upon your induction into office, and to wish for you an enjoyable and profitable session. In imagination I was with you all on yesterday throughout the proceedings.

Last night I dreamed that I went back up to visit. But, like Rip Van Winkle, no one knew me and I knew no one. I went to my old seat and the man sitting there said "Are you the woman who used to sit here?" When I replied "Yes," his response was "My Lord!" Good luck and a Happy New Year.

Very sincerely,

ELEANOR MILLER

Charles Lyon, Speaker of the House

Holding Pension meeting in Committee Room 415, 4th floor, Capitol.

All of the large State Pension movements will be represented.

This committee extends a cordial invitation to the Members of the Assembly and Senate to attend this meeting at 7.30 this evening, January 7th.

The purpose of this meeting is to reach an agreement as to the fundamental changes necessary to the Old Age Aid in California.

We pray for a righteous victory in the conflict which has come upon us and for a just and durable peace for the days to come

May the spiritual ideals and the blood-red sacrifices of those who founded and pioneered our Nation remain within our hearts and be genuinely cherished today.

"Our Father's God to Thee.

Author of liberty,

To Thee we sing

Long may our land be bright,

With freedom's holy light,

Protect us by Thy might,

Great God our King."

COMMUNICATIONS

The following communication was received, and on motion of Mr. Kilpatrick, ordered printed in the Journal:

DEPARTMENT OF SOCIAL WELFARE
SACRAMENTO, JANUARY 6, 1943

*Mr. Vernon Kilpatrick, Member of the Assembly
State Capitol, Sacramento, California*

MY DEAR MR. KILPATRICK: The following information is being sent to you in response to your verbal request of December 28, 1942. I am writing to Mrs. Buhler of the Office of Legislative Counsel, as per your instructions, to say that we are sending the information directly to you.

Present Basis

If the law remains unchanged, we estimate that the total cost of Old Age Security for the 1943-1945 Biennium would approximate \$130,000,000 shared as follows:

Federal	-----	\$65,000,000
State	-----	32,600,000
County	-----	32,400,000

This estimate is based upon the assumptions of an average case load of 147,000, and an average monthly grant of \$36.75. It may be that the case load will run somewhat lower, and that the average grant may run somewhat higher, but this is our "best guess" at this time.

\$60 at Age 60

The total cost for Old Age Security for the 1943-1945 Biennium, if the maximum grant were increased to \$60 and the minimum age decreased to 60 years, is estimated at \$233,000,000 shared as follows:

Federal	-----	\$70,400,000
State	-----	81,800,000
County	-----	81,100,000

Here we have assumed an average grant of \$56.75 and have assumed that approximately 36,900 persons aged 60-64 years would be added to the case load over a

period of 18 months beginning July 1, 1943. If this group were on aid for the entire biennium, the total cost would be more than \$250,000,000. Under peacetime conditions the number aged 60-64 would probably exceed 48,000 persons. Assuming that many additional recipients aged 60-64 were on aid for an entire biennium, the total cost of the program would exceed \$265,000,000.

As you are aware, of course, the Federal Government does not participate in aid to aged persons under 65 years.

The above estimates are based upon our case load estimate for recipients aged 65 and over, shown under "Present Basis" above.

We have no tangible evidence upon which to estimate the probable increase in case load which might result from the increase of the maximum grant to \$60. It is very likely that intake would increase substantially, and that discontinuances would decline somewhat under these circumstances.

\$60 at Age 65

If the maximum grant were increased to \$60 without changing the minimum age, we estimate the total cost of Old Age Security for the 1943-1945 Biennium at approximately \$200,700,000 shared as follows:

Federal -----	\$70,400,000
State -----	65,400,000
County -----	64,900,000

The case load and average grant assumptions are the same as above. Here again we are unable to predict the effects of such a change upon the size of the case load.

\$50 at Age 65

If the maximum grant were increased to \$50 without changing the minimum age, the total cost of Old Age Security for the 1943-1945 Biennium would probably approximate \$165,300,000 shared as follows:

Federal -----	\$69,000,000
State -----	48,300,000
County -----	48,000,000

If the county share were limited to \$10 per case, the Federal share would be unchanged, the State share would approximate \$60,900,000 and the county share \$35,400,000. If the county share were set at one-third of the total grant, less the Federal share, the State share would approximate \$64,200,000 and the county share \$32,100,000.

It is likely that such an increase in maximum grant likewise would have the effect of increasing intake and decreasing discontinuances, just how much we are unable to say.

\$50 at Age 60

If the maximum grant were increased to \$50 and the minimum age decreased to 60, the total cost of Old Age Security for the 1943-1945 Biennium would approximate \$192,000,000 shared as follows:

Federal -----	\$69,000,000
State -----	61,700,000
County -----	61,300,000

This estimate assumes an average grant of \$46.75, and approximately 36,900 persons aged 60-64 added to the case load in 18 months beginning July 1, 1943. If this group were on aid for the entire biennium, the total cost would approximate \$206,000,000. Moreover, if one assumes that 48,000 persons aged 60-64 (our estimate of the probable addition under peacetime conditions) were on aid for the entire biennium, the total cost of old age security would approximate \$230,000,000. As you know the amount of the Federal share would not be affected by the addition of persons under age 65, hence, the increased cost due to such an addition would have to be met by the State and counties.

Support from Responsible Relatives

You asked what would be the probable cost of changing the minimum income, below which no support from responsible relatives is required under the Relatives Contribution Scale (Section 2181 of the Welfare and Institutions Code) from \$95 to \$195. The only information we can give you on this question is as follows:

Such a change might very well result in discontinuance of relatives' contributions to 90 per cent or more of old age security recipients now receiving such contributions. We estimate the total value of such contributions would approximate \$5,400,000 per biennium. (We expect to have a revised estimate based upon more recent information sometime during the next three or four weeks.)

How many persons now fully supported by responsible relatives would cease to receive such support and successfully apply for old age security if the proposed change were made effective is anybody's guess. The number might be very substantial, but we have no tangible basis for an estimate.

State Support and Administration of General Relief

In November, 1942, there were approximately 31,300 persons who received a total of \$411,411 in aid payments. General relief at this rate would cost approximately \$9,900,000 per biennium. At \$20 per person the cost would approximate \$14,800,000 per biennium.

It is probably not very realistic, however, to assume the present wartime situation as typical. During the fiscal year ending June 30, 1940, the average monthly case load for county indigent aid included approximately 72,000. Such a case load at \$20 per person would cost approximately \$34,600,000 per biennium.

The administrative cost for county indigent aid as reported to this department for September, 1942, (latest month available) amounted to \$128,315. (This includes \$11,700 reported as the administrative cost of "other welfare programs.") If the administrative cost continued at this level for a biennium, the total biennial administrative cost would approximate \$3,100,000.

In addition to the above questions which you discussed with me personally, the letter from Mrs. Buhler raises this question:

What is the estimated increase of cost under the present law which the department believes will be incurred due to the liberalization in granting aged aid which the department has recently put into effect?

It is practically impossible for us to give any sort of definitive reply to this question at the moment. According to the best evidence at hand, there were, at the end of December, approximately 8,500 old age security recipients receiving aid on the budget basis. The average grant in October, 1942, was \$36.52. This increased to \$36.75 in November, and we tentatively estimate a further increase to about \$36.92 for December. This would amount to an increase in the average grant of 40 cents since October. The average grant had remained relatively static at about \$36.50 since October, 1941.

We expect to have more information on this subject very soon and will communicate with you when it becomes available.

You will appreciate that the above estimates are "best guesses" from the information at hand, and that the dynamic character of economic developments might make them "bad guesses" six months hence. Should more recent information relevant to these problems become available to us, we will call any major revisions in the estimates to your attention.

We hope this information will be helpful to you, and we shall be glad to give you any further information we can.

Very sincerely yours,

MARTHA A. CHICKERING, Director

O God, the Framer of the heavens, and Indweller in human hearts, to Thee the generations have lifted their hands and hearts in prayer since man became man. We reverently seek a place in Thy holy presence.

Thou art the fountain of Life, and without Thee we can do nothing. Thy grace is sufficient for us and our weakness is made perfect in Thy strength.

As we begin another week of service, help us to make the prayer of Oliver Wendell Holmes our own:

"Build thee more stately mansions, O my soul,
As the swift seasons roll!
Leave thy low-vaulted past!
Let each new temple, nobler than the last
Shut thee from heaven with a dome more vast,
Till thou at length art free,
Leaving thine outgrown shell by life's unresting sea."
In Thy Eternal Name

AMEN

PRELIMINARY REPORT OF INTERIM COMMITTEE

The following Preliminary Report of the Interim Committee to Investigate State, County, and City Roads and Highways was received and ordered printed in the Journal:

Mr. Speaker and Members of the Assembly

This is a preliminary report of the committee appointed pursuant to Assembly Resolution No. 264 of the 1941 Session relating to State highways, county highways, and city streets.

Early in the year 1942 the committee held hearings in Los Angeles and in San Diego, but the war transportation problems were just beginning to be acute and the committee thought it wise to postpone further hearings until war activities had sufficiently developed to indicate the needs of the highway systems under war conditions.

The committee has recently held hearings in San Francisco and in Sacramento at which representatives from many of the larger counties were present, and at which, also, the State Highway Department was represented.

These later hearings have brought out facts showing that the State, city and county highways are suffering tremendous damage from the heavy motor traffic occasioned by war activities.

While these highway deteriorations are taking place, highway funds available for construction and reconstruction have fallen off from month to month until there is now a shortage of gas tax alone of \$1,000,000 a month. This has caused county officials to ask for additional highway funds, and some persons are requesting that some State highway funds be transferred to the counties for highway purposes.

The committee knows that the State highways are as sorely in need of funds as are the counties' and the cities' highways.

The committee believes that these several political subdivisions can not hope for relief while the war is in progress; therefore, it appears that officials in charge of highways must get along as best they may with present funds and with only such maintenance as will preserve the highways without destruction until the war is over.

The excessive highway traffic, while greatly damaging the highway systems, has helped to greatly augment the general prosperity of the State by converting a Treasury deficit to a splendid surplus.

In his inaugural address, Governor Warren stated

California is now favored with a sizeable surplus. It has come to us very largely from taxes upon war industry. It comes to us in trust for it is the money of all the people of California.

It is my belief that taxes can be reduced. In evaluating our financial position, however, I see danger signs which we can not afford to ignore to the point of extreme action. We must bear in mind that the conditions which have created our favorable revenue balance are of a highly transient nature and of a type likely to leave a swell of new problems in their wake. It is not wise, under such circumstances, to blindly trade tax stability for temporary advantage.

We who were in the Legislature in 1929 remember that there was at that time a sizeable balance in the State Treasury; however, we yielded to the clamor for tax reductions to those most able to pay, and gradually the financial condition of the State became worse and worse until Governor Merriam and Governor Olson faced the spectacle of borrowing multiplied millions to carry the burdens of State Government.

The war has created the splendid State surplus we now have, and the ending of the war will most surely deplete that surplus if the Legislature does not carefully guard and preserve it for the general good of the people.

In his message to Congress a few days ago, President Roosevelt informed the Nation that 1,500,000 of our armed forces are at war in foreign lands. We know that millions more are in training, and that all these millions of soldiers will be entitled to their places in life after hostilities have ended; therefore, it seems clear to this committee that the Legislature should consider carefully plans to keep employment after the war at as high a plane as possible to avoid another S.R.A. problem.

Several sources of revenue for highway purposes have been suggested to the committee.

Many county officials believe that it would be only fair if the Legislature would transfer some of the State General Fund surplus to be used by the State, counties, and cities for highway purposes. It has also been suggested that if the Legislature would bring up the gas tax to a level with other States, it would greatly help to solve the problem.

Another suggestion is that the Legislature raise the motor registration fees to the level of other States, which surplus might be used for highway purposes.

Also, there are motor vehicle funds which, under present law, go into the General Fund of the State. These might be directed back to the channels from where they are derived.

It might be proper for the committee to remind the Legislature that any one or all of these channels of revenue would not place the highway systems up to normalcy in a short time, but that a progressive planned program covering several years should be studied to provide for the construction and reconstruction of the highways, which are now probably a quarter of a billion dollars under par. A few paragraphs will give you a glimpse of the situation.

In one of the larger northern counties the supervisors, in an effort to meet the needs, have succeeded in impounding \$200,000, but their need at this moment is \$3,000,000. We know that some of the more populous counties have greater needs for funds.

State Engineer Charles H. Purcell pointed out two years ago in a letter to the chairman of this committee in part as follows:

At least 928 bridges (27 per cent) out of a total of 3,436 major structures on the rural State Highway System are inadequate for present-day traffic. Of the 1,200 bridges on both the rural and urban portions of the State Highway System, about 1,200 need replacement. It is estimated that it will take about \$35,000,000 to replace these inadequate bridges. Present revenues provide about \$4,000,000 annually for bridge construction and reconstruction projects.

On the rural State Highway System are located 617 railroad grade crossings. During 13 years (from 1926 to 1938, inclusive) 92 per cent of grade crossing accidents occurred on 270 of these crossings. To eliminate the 270 grade crossings would require about \$27,000,000. Present revenues from Federal grade crossing elimination apportionments provide about \$800,000 annually. In addition to the rural grade crossings, there are numerous such crossings on State routes in cities which need elimination to expedite traffic movement.

Yours very truly,

(Signed)

C. H. PURCELL, State Highway Engineer

The condition now, of course, is more aggravated. In view of the dire needs of the highway systems in the State, counties, and cities, your committee sincerely believes this session of the Legislature should not adjourn until it has carefully considered and remedied these problems.

Your committee would not recommend that moneys be now made available for immediate use for these highways; but, rather, that moneys be made available at this session for the purchase of Federal war bonds which should be liquidated and used for highway purposes immediately upon the cessation of major war activities. Such purchase of war bonds would assist in more speedily bringing the war to a successful termination, would at the close of the war, make demands for many millions of dollars of essential materials for highway construction and reconstruction, would place thousands of men to work at wages compatible with post-war conditions, and thereby go far to avert another S. R. A. or similar State social problem.

Your committee has not now sufficient data to make definite recommendation due to the fact that the conditions mentioned in this report have so rapidly been thrust upon the people that they have not had time to get the facts into our hands. However, we believe that a further study during the recess would bring to us definite and accurate information and data which we could, in turn, transmit to your body for consideration; and we trust governing bodies and other interested groups will, without delay, transmit to us such information as will assist us in a factual report.

Should you continue the committee for further study, it will not be necessary for you to provide additional funds because the committee has conserved the major proportion of the \$1,500 provided to study this half-billion dollar problem.

S. L. HEISINGER, Chairman
CHARLES W. STERIAM, Secretary

 Who healeth thy diseases;
 Who redeemeth thy life from destruction;
 Who crowneth thee with loving kindness and tender mercies;
 Who satisfieth thy mouth with good things
 So that thy youth is renewed like the eagles.
 For as the heaven is high above the earth,
 So great is His mercy toward them that fear Him,
 As far as the east is from the west,
 So far hath He removed our transgressions from us.
 Like as a father pitieth His children,
 So the Lord pitieth them that fear Him.
 Bless the Lord, all His works in all places of His dominion;
 Bless the Lord, O my soul.

AMEN.

MOTION TO PRINT STATEMENTS IN JOURNAL

On motion of Mr. Sam L. Collins, the following statements, presented by Mr. Dixwell L. Pierce to the Assembly meeting in Committee of the Whole, were ordered printed in the Journal

The Council of State Governments

The Council of State Governments is a joint governmental agency serving the several States. By legislative action or otherwise each of 44 States has established

a Commission on Interstate Cooperation "To perfect the participation of the State as a member of the Council of State Governments."

Membership on the board of managers includes the president of the American Legislators' Association, along with members of the executive committee of the Governors' Conference and others. The headquarters of the council are maintained in Chicago, and other offices are maintained at Washington, D. C., and at other strategic locations throughout the country so that the membership may be best served.

Back in 1929 certain National associations of public officials and other organizations interested in government and public administration established their headquarters in Chicago. Since 1938 these organizations have had their offices in a building constructed there for the special purpose of housing them. These organizations function in the belief that government in the United States can be made more satisfactory if administrative organization, methods, and practices are improved, and that the responsibility for such improvement rests primarily upon public officials.

The Council of State Governments acts as a clearing house and research center for Legislators and legislative reference bureaus. It is the medium through which many Federal-State and interstate problems are solved. It affords an ideal forum for the consideration of those questions which overlap State boundaries. It is the secretariat for the American Legislators' Association, the National Association of Attorney Generals, the National Association of Secretaries of State, and the Governors' Conference.

What the Council of State Governments has been able to accomplish in the elimination of trade barriers and in securing cooperative action on the part of the States during the period of war emergency makes a most impressive record. There was a definite need for this type of organization when the work was begun in 1929. There is a vital need for it today when our Nation is engaged in a life-and-death struggle which will demonstrate whether democratic institutions may be made to function efficiently and to endure.

Practical Tax Reduction for California

How Property Tax Relief Can Be Achieved Without Disruption of the Revenue System

Without any increase in State tax rates, the war activity has brought huge unexpected revenues into California's Treasury. In large part, these millions are comprised of sales and use tax collections on greatly expanded retail trade. To some extent they come from taxes measured by or on net income of corporations and individuals who have found the war economy profitable.

In contrast, the outgo from the State Treasury has been reduced sharply. Increased opportunities for employment have minimized the need for relief to unemployed. Vacancies in State positions resulting from military duty and other activities, have proved difficult if not impossible to fill. War conditions have necessitated postponement of considerable capital outlay for the duration because of non-availability of materials or labor.

For the first time in more than 10 years, there is a substantial surplus in the State General Fund. Encouraged, and at the same time alarmed by this project, advocates of economy in government are urging prompt action at the coming legislative session looking toward the elimination of this surplus. They reason—not without support from experience—that the existence of such excess funds will encourage extravagance. As a counter-measure some of them have suggested immediate revenue reduction through expanded tax exemptions and lower rates.

Tax Exemptions Unwise Course

Sound tax policy so strongly indicates lack of wisdom of further exemptions in our tax structure that suggestions for the expansion of these devices for minimizing public revenues do not merit extended discussion. They are obviously unsound and should be disregarded.

The absolute tax burden of Californians, however, is high. If some reduction of this load could be effected without impairing public finance or producing inflationary results, then such a course would seem to have much in its favor. The direct and obvious way to accomplish this would be to reduce the rate at which taxes are imposed.

Property Taxes Most Burdensome

What California tax rates are proving most burdensome? Among State levies, it may be argued that those assessed against net income are of greatest burden in view of the increase of comparable Federal taxes which may be expected to be even higher. Among local taxes, it is clear that property tax rates, steadily mounting since their reduction some nine years ago, are proving a definite drag on the economic well-being of our State.

What can be done to remedy these situations? Some modification of State income taxes both on corporations and individuals would be relatively easy of accomplishment. Its benefits would be direct, and if the changes were made judiciously, they ought not to be productive of undesirable revenue impairment or inflationary results.

It will not be so easy to reduce property tax rates substantially. Through commendable economies, some local units of government, dependent mainly on these revenues for their support, have lowered tax rates this year or, at least, have kept them from going higher. Fixed charges and the insistent demands upon local government would appear to preclude, however, further such reductions of a substantial nature in the immediate future.

Sales Taxes May Afford Relief

When enacted in 1933, the sales tax was designed to afford relief to hard-pressed property taxpayers. That objective was accomplished, but since these earlier reductions, property tax rates have increased to a point where, as already observed, they again present a problem too serious to be ignored. To the extent that sales tax revenues now create a surplus in the State Treasury, their use for property tax replacement is consistent with the constitutional amendment of 1933, but in view of our experience of the past nine years, we should want to be sure that property taxes would actually be reduced through such use of sales tax proceeds.

Under the mandate of the people (State Constitution, Article XI, Section 20, adopted June 27, 1933), the Legislature is authorized "to limit the amount of taxes which may be imposed upon real and personal property according to the value thereof for county or city and county purposes."

If the Legislature takes such action, it shall provide for the raising of revenue "in amounts sufficient to apportion and shall apportion to each county and city and county an amount equal to the deficiency in the revenues thereof resulting from such limitation, as such deficiency shall be determined by law." (State Constitution, Article XIII, Section 15.) Through enactment of the sales tax, the Legislature has already provided the revenue for property tax replacement. Without any increase in State tax rates, it could apportion approximately \$35,000,000 for each year of the next biennium to be used for the reduction of local tax rates. This would mean a cut of 50 cents per \$100 of assessed value in the tax rate of every county in the State, and would indeed be welcome relief to farmers, home owners, and others who have found heavy local taxes burdensome in their struggle for economic survival.

Property Tax Rate Limitation Imperative

How could we be sure that these tax rates would be cut and would not rise again so as to absorb the relief proposed? The answer is found in the constitutional provisions cited. The Legislature could place a ceiling on county tax rates at figures which are 50 cents less per \$100 than the present levels. It could then offset the deficiency thus occurring by apportioning to each county an amount equivalent to the revenue that would have been produced through the 50-cent tax rate thus eliminated.

If any county should feel that observance of this limitation curtailed its revenues too sharply, provision could be made authorizing rates higher than those which would be 50 cents per \$100 under current rates, but any county thus rejecting the property tax relief plan would then forfeit its right to share in the apportionment from the State. Such a measure would provide flexibility sufficient to satisfy the requisites of home rule, at the same time affording impetus for tax rate reduction.

Fifty Cent Cut in Tax Rate Assured

For example, if the current county tax rate (inclusive of district rates imposed by authority of the board of supervisors but excluding municipal rates that may be collected by the county merely for remission to city treasuries) is \$2.50 per \$100 assessed value, the effect of the law would be to reduce that rate to \$2. The resulting deficit in local funds would be made up through the county's share of the \$55,000,000 to be apportioned by the State outlay. If, however, the local authorities should deem it impossible to continue the support of the governmental functions dependent upon the proceeds of these taxes at a rate of \$2 (augmented by the proposed 50-cent rate from the State), and should desire to impose a higher rate, they would be free to do so, at the same time forfeiting any claim to the State apportionment. This should prove a sufficient deterrent against increasing tax rates during the period of the war emergency.

War Emergency Must Be Recognized

It should be recognized that such a plan is essentially a war measure, and that its operation should be limited to the next two fiscal years. No one is endowed with sufficiently prophetic vision to assert what form of tax adjustment would best suit our economic conditions when the war is over. Decision as to that should be

left to the Legislature enacting laws then. Now we are confronted by economic conditions that demand prompt and effective relief for harassed property taxpayers. We have sufficient funds available to afford this relief without increasing taxes on anyone else. The obvious and sensible thing to do is to provide for the relief, limit its operations to the duration of the war economy, and to rely on the wisdom of future lawmakers in solving the problems that will arise thereafter.

State Board of Equalization

By Messrs. Heisinger and Stream:

House Resolution No. 40

Relating to the creation of an Assembly Committee on State Highways, County Highways, and on City Streets

WHEREAS, The maintenance of the State, and the county highways and the city streets of California approximates a cost to the taxpayers of one hundred million dollars (\$100,000,000) annually; and

WHEREAS, Within this State, and adjacent to the rural county highways of California, there is produced over four hundred million dollars (\$400,000,000) of agricultural products annually; and

WHEREAS, The greater percentage of these products are conveyed over the county highways, State highways and city streets to market; and

WHEREAS, Nearly all processed and manufactured products purchased by the farmers are transported in reverse over the same arteries of travel; and

WHEREAS, It is apparent that a complete Motor Vehicle Highway System must embrace the county highways and city streets as well as the State highways; and

WHEREAS, Some county supervisors complain that certain of their county highways carry extra heavy motor traffic of a Nation-wide and State-wide nature, the wear and tear of which entails undue maintenance costs; and

WHEREAS, The highway traffic under present war conditions entails extra heavy burdens upon all highway and city streets; and

WHEREAS, Motor vehicle funds have sharply decreased thereby placing highway maintenance in a precarious condition; and

WHEREAS, Highways are essential for the transportation of civilian and war materials; and

WHEREAS, The Legislature has not sufficient knowledge of all these matters; and

WHEREAS, The Legislature should be in possession of factual and authentic information and data pertaining to all such and kindred matters; and

WHEREAS, It is the duty of the Legislature to enact laws that are just and equitable to the local taxpayers as well as to State taxpayers; now, therefore, be it

Resolved by the Assembly of the State of California, That a Committee on State and County Highways and City Streets is hereby created to study all matters hereinafter referred to, and to report its recommendations to the Legislature.

The sum of five hundred dollars ($\$500$) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

RESOLUTIONS

The following resolution was offered:

By Messrs. Wollenberg, O'Day, Maloney, Collins, George D., Berry, Haggerty, Gaffney, and Brady:

House Resolution No. 41

Relating to the death of John McLaren.

Today the City of San Francisco pays tribute to John McLaren. For many years the city has every spring set aside a day for honoring him. On those occasions, in the beautiful parks created by him, across the green lawns and among the flowers which out of his knowledge and his love of them he made to grow from shifting sands, children joined in pageantry to pay joyful and loving tribute to "Uncle John," while in the press and wherever people met together was told again the story of the young Scot who brought to San Francisco his youth, his art, and a great vision, and of how nothing could daunt him through the more than 60 years in which he made that vision a reality.

The man was no less miraculous than his works, and at the age of 96 John McLaren's works were manifold. Throughout the city stretches the great park and playground system. There is the memory of the magnificently beautiful Panama-Pacific International Exposition, unforgettable after almost 30 years. There is the matchless Golden Gate Park. His great genius won for him innumerable honors, including the George Robert White Medal, presented by the Massachusetts Horticultural Society. He was made an Associate of Honor of the Royal Horticultural Society of London. One of the fine parks of the city bears his name.

To the home the people of San Francisco built for him in Golden Gate Park, death came on January 12th. Today, not in the parks and playgrounds, but in its great city hall where his body lies in state, San Francisco pays a final tribute to John McLaren. Therefore, be it

Resolved, by the Assembly of the State of California, That when this Assembly does this day adjourn, it do so out of respect to the memory of, and as its tribute to, John McLaren

OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, January 14, 1943

*Honorable Lee T. Bashore, Assembly Chambers
State Capitol, Sacramento, California*

DEAR MR. BASHORE: You ask what type of bills may be taken up and acted upon by the Legislature at a regular session prior to the constitutional recess.

It is my opinion that any legislative bill may be considered, acted upon, and finally enacted during that period.

It should be noted that a bill (other than the Budget Bill) which makes an appropriation (except an appropriation for salaries, mileage, and expenses of the Senate and Assembly) can not be placed upon final passage in either house until the Budget Bill has been finally enacted, unless recommended as an emergency bill by the Governor.

Yours very truly,

FRED B. WOOD, Legislative Counsel

By Mr. Ralph C. Dills:

House Resolution No. 43

WHEREAS, The shortage of milk in the State of California is now acute and there is great danger that it will become disastrous; and

WHEREAS, The primary causes of this shortage are the scarcity and high cost of labor and feed which costs are not recoverable under the existing schedule of prices to be paid producers; and

WHEREAS, The only solution for many milk producers, who feel it absolutely impossible to continue operations, is to sell their dairy herds for slaughter; and

WHEREAS, The slaughter of the dairy herds of California is a matter of vital concern to the people of the State because, regardless of any financial difficulties or the possible remedy therefor, the dairy herds once destroyed can not be readily replaced; and

WHEREAS, The Director of Agriculture is not only empowered but is required under the provisions of existing statutes to regulate the prices paid to milk producers on the basis of the actual cost of production; and

WHEREAS, No impediment to the carrying out of this legal duty by the Director of Agriculture exists by reason of any act of the Office of Price Administration or any other Federal agency; and

WHEREAS, The Director of Agriculture nevertheless has failed to call hearings and make determinations of fact and fix prices to be paid to producers of milk as required by the statutes in such case made and provided; and

WHEREAS, The continued failure of the Director of Agriculture to act in this matter so as to preserve the essential source of supply of adequate milk for the people of the State can result only in an irretrievable disaster which must be prevented; now, therefore, be it

Resolved by the Assembly of the State of California, That this Assembly demands that the Director of Agriculture forthwith exercise the powers and duties conferred and imposed upon him by law and hold such hearings and make such determinations as are required and appropriate to establish prices to be paid to producers of milk in accordance with law.

"An act making an appropriation for the additional support of the California Polytechnic School, declaring the urgency thereof, to take effect immediately".

In my opinion constitutes an emergency bill within the meaning of that term as used in Sections 1 and 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

I, therefore, recommend consideration of Assembly Bill No. 143 as necessary for the immediate preservation of the public peace, health, or safety, and as an emergency measure

Respectfully submitted.

House Resolution No. 49

Relative to the Creation of a Committee on Public Assistance

WHEREAS, The State and local agencies appropriate vast sums of money for the furnishing of assistance to indigent persons, aged persons, and other persons who are in need of such assistance, as well as for the furnishing of specialized treatment for and the care of various classes of persons who are in need of such treatment and care; and

A. Heckman, St. Paul, Minnesota, social worker employed by the Los Angeles Council of Social Agencies to investigate and make recommendations to the board of supervisors; and

WHEREAS, Such criticism was directed mainly at the local department's insistence on taking liens on insurance policies and future earnings in granting relief, as well as the policy of compelling recipients of assistance to sign agreements under which women abandoned by their husbands or separated stipulate willingness to file failure-to-provide criminal complaints against them; and

WHEREAS, It is time that the Legislature obtain complete and accurate information as to this matter in order that it may legislate in an informed manner and with regard to all factors pertaining to the furnishing of such assistance, treatment and care; now, therefore, be it

The committee hereby created shall consist of five Members of the Assembly appointed by the Speaker of the Assembly. The Speaker of the Assembly shall fill any vacancies in the membership of the committee.

COMMUNICATIONS

The following communication was received, read, and ordered printed in the Journal:

STATE LANDS COMMISSION
SACRAMENTO, CALIFORNIA, January 5, 1943

To the Assembly of the State of California

Pursuant to the provisions of Section 6211 of the Public Resources Code (formerly Chapter 800, Statutes of 1917), we respectfully report that, according to advices received, certificates of title have been issued to August 1, 1942, by the registrars of land titles under the Torrens Law in 18 of the 58 counties of California as follows:

Alameda -----	179	San Bernardino -----	7,825
Fresno -----	119	San Diego -----	7,176
Humboldt -----	349	San Francisco -----	7
Imperial -----	548	San Luis Obispo -----	1
Kern -----	168	Santa Barbara -----	846
Los Angeles -----	120,300	Santa Cruz -----	238
Merced -----	1	Sonoma -----	656
Orange -----	9,286	Tulare -----	100
Riverside -----	312	Ventura -----	6

The Torrens Act provides that upon the original registration of any land a sum equal to one-tenth of 1 per cent of the assessed value of the land, including permanent improvements thereon as the same were valued for county taxation the last time said land and permanent improvements or either thereof were assessed for county taxes next preceding the filing of the petition, shall be collected by the registrar and paid to the State Treasurer to be credited to the "Torrens Title Assurance Fund."

The books of the State Treasurer show at the close of business June 30, 1942, a cash balance of \$46.38 in the "Torrens Title Assurance Fund," and a net deficit of \$7,164.50.

The State Treasurer in a letter addressed to this office January 6, 1939, stated that all of the assets of the "Torrens Title Assurance Fund" were liquidated in an effort to satisfy a judgment in favor of Thomas Edwin Gill and Myla Ritzinger Gill against the "Torrens Title Assurance Fund." The following excerpt from said letter is taken from the Biennial Report of the State Treasurer, dated June 30, 1938:

In the Superior Court of the State of California, in and for the County of Imperial, Department No. 2, the case of *Thomas Edwin Gill and Myla Ritzinger Gill*, Plaintiffs, vs. *C. G. Johnson*, as Treasurer of the State of California, and *Friend James Austin*, Defendants, came to trial November 18, 1935. The cause was submitted for decision on November 19, 1935, and the decision rendered on January 15, 1936, resulted in the Plaintiffs obtaining judgment for the sum of \$65,000 against Charles G. Johnson, as Treasurer of the State of California, and directed payment to be made out of the Torrens Title Assurance Fund. However, on March 10, 1936, a modification of findings and judgment ruling on motion for new trial was made by the court, ordering that the judgment be amended to conform to the findings and conclusions by substituting the amount of \$48,000 instead of \$65,000; and motion for a new trial was denied. This judgment provides for interest to be paid at the rate of 7 per cent per annum on the unpaid balance from January 15, 1936.

As indicated in our Biennial Report referred to above, \$46,898.48 has been paid to Mr. Gill on this judgment, leaving a remaining unpaid balance, according to our records, of \$1,101.52, plus 7 per cent interest on the original amount of the judgment, or \$48,000, from January 15, 1936, to the date of the first partial payment, and on the principal balances subsequent to the dates of the partial payments.

The final disposition of this litigation will be found in Volume 21, California Appellate Reports, at page 649.
Respectfully submitted.

*Honorable Albert C. Wollenberg, Assembly Chamber

ASSEMBLY BILL NO. 36—PAY ROLL REVOLVING FUND

DEAR MR WOLLENBERG This is to inform you that we have checked the provisions of Assembly Bill No 36 as introduced relating to the creation of a Pay Roll Revolving Fund, and we are of the opinion that the bill does not make an appropriation within the meaning of Section 34 of Article IV of the Constitution so as to require a letter from the Governor in order that it may be placed upon final passage.

In our opinion the bill merely establishes an additional revolving fund as a part of the State fiscal procedure; does not make any money available for purposes not otherwise provided by present law; nor does it increase the amount of money available for any of the present purposes; and is, as we have said, not an appropriation.

Very truly yours,

FRED B. WOOD, Legislative Counsel

RESOLUTIONS

The following resolution was offered:

By Mr. Carlson:

House Resolution No. 55

Relating to the death of Xavier Martinez

Beneath the gently sheltering pepper trees of Carmel-by-the-Sea, home of artists and lovers of art, Xavier Martinez has come to his final rest.

In him and in his work met the art traditions of both Europe and America, for he was born in Guadalajara, Mexico, of Aztec Indian parents, and later studied under Gerome and Carriere in Paris, where he graduated from the Ecole Nationale et Special des Beau Arts.

Although widely honored as an artist and professor of painting, and sought as a friend by nearly all the great figures of his day, Xavier Martinez was guided by the simplest of philosophies: sincerity, he believed, was the quality in an artist's work which made it live and endure.

Much of his work was devoted to the California landscape he loved, and his greatest pride was his inclusion as one of the two Californians represented in the "World of Tomorrow" Hall of Fame in New York, where he shared a niche with Father Junipero Serra. Now, therefore, be it

Resolved by the Assembly of the State of California, That when this Assembly adjourns today it do so out of respect to the memory of California's great artist, Xavier Martinez; and be it further

Resolved, That the Chief Clerk be and he is hereby directed to transmit a suitably engrossed copy of this resolution to the widow of Xavier Martinez, Mrs. Elsie Martinez, and to his daughter, Miss Micaela Martinez, at Carmel, California

Re: House Resolution No. 43—Minimum milk prices

DEAR ASSEMBLYMAN DILLS: On Friday last, January 15th, you introduced, and the Assembly passed, without reference to committee, House Resolution No. 43. The said resolution outlined the numerous unfavorable factors now operating to the detriment of milk producers of California, recited my alleged failure to act pursuant to the Milk Act, and concluded with the demand that I forthwith hold the requested hearings and make the appropriate economic findings relative to the prices to be paid to milk producers.

Because of the vital importance of this matter, together with the remarks attributed to you by the press, I am prompted to write you now. The resolution itself and the comments which apparently accompanied its passage contain statements which are in error, either in whole or in part. In writing you, I do not do so critically, but rather am I under the impression that you have been somewhat misinformed by certain milk producers.

At present, 25 individual marketing areas are operating under the act. Present producer prices in these areas range from 82 cents per pound of butterfat (Lassen-Plumas-Sierra area and Shasta-Tehama-Siskiyou area) to \$1.04 per pound of butterfat in San Diego. The present producer price in Los Angeles is 97½ cents, placing it second highest in the total of 25 markets (Orange and San Bernardino-Riverside areas are likewise 97½ cents). The foregoing would not seem to support the contention of some that Los Angeles is in an unfavored or prejudiced position with respect to producer prices.

The retail store carry-out price for single quarts in the 25 markets ranges from 13 cents to 16 cents. Three of the markets, including Los Angeles, are priced at 13 cents; two are priced at 13½ cents; 10 are priced at 14 cents; seven at 14½ cents; Alameda-Contra Costa and San Diego are priced at 15 cents; and Marin at 16 cents per single quart.

The variations in both the producer and resale milk prices reflected by the foregoing figures are in every instance due to comparable variations in the costs of production and distribution, and have been arrived at in conformity with the act.

Occasionally, the charge has been made that we did not call very many milk hearings in 1942 because it was an election year. The public records show that we held 107 separate milk hearings during 1942: 47 on producer prices, 52 on resale prices, and eight for modification of the area. That is an average of roughly four hearings in each of the 25 areas. With respect to such an average and the charge of politics, it is interesting to note that in 1942 we held eight public hearings in Los Angeles and seven each in San Francisco and the Alameda area, the three major centers of population in California.

With further reference to the matter of politics and an unfair depression of prices, 22 of the 25 markets received a price increase as of September 1, 1942 (Los Angeles not included due to an increase July 16), and a like number received an increase as of November 1, 1942 (Monterey, Sacramento, and San Joaquin not raised). Price increases were also granted on two occasions earlier in the year, applying generally to all of the markets, including Los Angeles. These increases were granted strictly in accordance with cost data and pursuant to the automatic formula then in use, with a complete disregard for any political effects, good or bad. Were it not for the seriousness of the situation, I would consider it almost

humorous to be charged with aiding anybody's campaign through being a party to the ever-mounting milk price situation which characterized all of California in 1942.

I most sincerely regret that action was taken on Resolution No. 43 without a check first being made with my office to determine whether or not we had called a milk hearing for Los Angeles. My office has never been run in such a fashion as to require pressure to secure the performance of our duty, and the instant case is not an exception. On January 4th, five representatives of the Los Angeles milk producers visited with me, discussing numerous problems, and requesting a hearing. That request was granted, and January 20th fixed as the date, final arrangements being made on January 8th. Furthermore, no request was necessary, for we were awaiting only the completion of an important State-wide survey as to supplies and prices of hay before going into a series of milk hearings. A few days later, and well in advance of the Assembly action, hearings were also set for San Diego, San Bernardino-Riverside, Orange, Ventura, and Santa Barbara, these five to be held February 2-3-4-5-6, respectively. Other hearings will be set in the near future.

Since you are acquainted with the special problems created by O.P.A. ceilings on retail and wholesale milk prices, I shall not detail them here. Increases in producer prices, however, must be offset by comparable increases in the wholesale and retail prices, which involves, oftentimes, protracted negotiations with O.P.A. I spent all of September and the greater part of November in Washington, D.C., on this particular problem, and with substantial success. A comparable series of negotiations will apparently be necessary as a result of the forthcoming group of hearings which we have called. The act gives us the responsibility of protecting both the producer and the distributor, and most certainly equity would not be served if we merely increased the producer price, leaving the distributor at a sharp financial disadvantage, and did nothing to prevail upon O.P.A. to adjust its ceilings comparably.

In summary, I feel it can be honestly stated that we are entirely cognizant of the current problems of the milk industry, have operated entirely in pursuance of the act, have never allowed political considerations to guide or affect our actions under the act, and have been and are currently moving in a way and along the avenues best calculated to serve the best interests of the entire California fluid milk industry.

For purposes of the record, and in the interests of giving your colleagues the additional information contained in this letter, may I most respectfully and earnestly request that you read this letter into the "Assembly Journal" this week, and today if possible.

I have taken the liberty of addressing copies of this letter to Assemblymen Wevret, Hastain, Thorp, Lowrey, and Erwin, as well as to Messrs. Kenworthy, Oliverra, Clinton, Smith, and Pellissier of the Los Angeles milk producers group.

Very sincerely

W. J. CECIL, Director

**JOINT RULES OF THE SENATE AND ASSEMBLY
COMMITTEES AND COMMITTEE MEETINGS***Standing Committees*

1. Each house shall appoint such standing committees as the business of the house may require, the committees, the number of members and the manner of selection to be determined by the Rules of each house.

Joint Committees

2. The Rules Committees of each house shall constitute the Joint Standing Committee on Joint Rules of the Senate and the Assembly.

Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

Bills and Resolutions*Definition of Word Bill*

4. Whenever the word "bill" is used in these Rules, it shall include constitutional amendments, concurrent and joint resolutions.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the Federal Government.

Resolutions Treated as Bills

6. Constitutional amendments, concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be given only one formal reading in each house and that they shall not be deemed bills within the meaning of Section 2 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and shall not require a vote to authorize their introduction. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

Preparation and Introduction of Bills*Title of Bill*

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment or resolution under consideration.

Changes in Existing Law to Be Marked by Author

10. In a bill amending a code section or a general law, any new matter shall be underlined and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as "strikeout" type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in "strikeout" type.

In any amendment to a bill which sets out for the first time a section being amended, any new matter to be added and any matter to be omitted shall be indicated by the author and shall be printed in the same manner as though the section as amended were a part of the original bill and was being printed for the first time.

Printing of Amendments

11. All bills amended by either house shall be immediately reprinted; in the case new matter is added by the amendment such new matter shall be printed in italics in the printed bill, and in the case of matter being omitted, the matter to be omitted shall be printed in strikeout type. When a bill is amended in either house, the first or previous markings shall be omitted.

Printing and Distribution of Bills—Manner of Printing Bills

12. The State Printer shall observe the following directions in printing all bills, constitutional amendments, concurrent and joint resolutions:

(b) All titles of bills shall be set in italics, statute form and the length of the lines used in the titles shall not exceed that of the body of the bill.

Distribution of Legislative Publications

13. All requests for mailing or distribution of bills and legislative publications shall be filed with the Secretary of the Senate or the Chief Clerk of the Assembly. Each Member of the Senate and Assembly shall be permitted to submit a list of 10 libraries, chambers of commerce or individuals. For each legislative day intervening there shall be printed a Supplementary History showing the action taken upon any measure since the issuance of the complete History.

Immediately following the adjournment for the constitutional recess, the History shall be compiled and printed to date of recess by the Secretary of the Senate and the Chief Clerk of the Assembly.

The procedure of referring bills to committees shall be determined by the respective houses.

Messages to Be in Writing Under Proper Signatures

22. Notice of the action of either house to the other shall be in writing and under the signature of the Secretary of the Senate or the Chief Clerk of the Assembly from which such message is to be conveyed. A receipt shall be taken from the officer to whom such message is delivered.

Passage and Enrolling of Bills

Passage of Bills Preceding Final Adjournment

23. No Senate bill shall be passed by the Senate, and no Assembly bill shall be passed by the Assembly within the time specified in the resolution prior to the adjournment sine die of the two houses of the Legislature at a regular session, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the Committee on Rules (if it be a Senate bill) or by the Speaker of the Assembly (if it be an Assembly bill).

Enrollment of Bill After Passage

24. After a bill has passed both houses it shall be printed in enrolled form, omitting symbols indicating amendments, and shall be compared by the Engrossing and Enrolling Clerk and the proper committee of the house where it originated to determine that it is in the form approved by the houses. The enrolled bill shall thereupon be signed by the presiding officers of both houses and the Secretary of the Senate and Chief Clerk of the Assembly and presented without delay to the Governor. The committee shall report the time of presentation of the bill to the Governor to the house and the record shall be entered in the Journal.

Amendments and Conferences

Amendments to Amended Bills Must Be Attached

25. Whenever a bill or resolution which shall have been passed in one house shall be amended in the other, it shall immediately be reprinted as amended by the house making such amendment or amendments. Such amendment or amendments shall be attached to the bill or resolution so amended, and indorsed "adopted" and such amendment or amendments, if concurred in by the house in which such bill or resolution originated, shall be indorsed "concurred in," and such indorsement shall be signed by the Secretary or Assistant Secretary of the Senate, or the Chief Clerk or Assistant Clerk of the Assembly as the case may be; provided, however, that an amendment to the title of a bill adopted after the passage of such bill shall not necessitate reprinting, but such amendment must be concurred in by the house in which such bill originated.

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be

an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

Concurring in Amendments Adding Urgency Section

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency measure, and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate or the Assembly refuse to concur in the amendments, the Committee on Rules (if it be a Senate bill) or the Speaker of the Assembly (if it be an Assembly bill) shall appoint a Committee of Three (3) on Conference and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken and request the appointment of a like committee. Two of the members comprising such committee from each house shall be selected from those voting with the majority on the point about which the difference has arisen, and the other member from each house of such committee shall be selected from the minority, in the event there is a minority vote. The first Senator named on the Conference Committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly and the chairmen thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The Committee on Conference shall report to both the Senate and Assembly.

Report of Committee on Conference

29. The report of the Committee on Conference shall not be subject to amendment, and if either house refuse to adopt such report the conferees may be discharged and other conferees appointed; provided, however, that no more than three different Conference Committees shall be appointed on any one bill.

It shall require the affirmative vote of not less than four of the members constituting the committee to agree upon a report. No member who has served on a Committee on Conference shall be appointed a member of another Committee on Conference on the same bill.

When Conference Committee Report Is in Order

30. The presentation of the report of a Committee on Conference shall always be in order, except when a question of order or a motion to adjourn is pending, or during roll call, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

34. No joint rule shall be dispensed with except by a vote of two-thirds of each house; and Joint Rule No. 23 can be dispensed with only in the manner provided for in said joint rule. If either house shall violate a joint rule a question of order may be raised in the other house and decided in the same manner as in the case of the violation of the Rules of such house; and if it shall be decided that the Joint Rules have been violated, the bill involving such violations shall be returned to the house in which it originated, and such disputed matter be considered in like manner as in Conference Committee.

Such powers may be withdrawn or terminated at any time by the committee.

The provisions of Joint Rule 35 above shall apply to the Legislative Budget Committee, and it shall have all the authority provided in such rule or in Article IV, Section 37, of the Constitution.

The committee shall have authority to appoint a Legislative Auditor, to fix his compensation and to prescribe his duties, and to appoint such other clerical and technical employees as may appear necessary. Our Father in Heaven, the same yesterday, today, and forever, we turn to Thee in the midst of confusion and human unrest. Change and decay mark the clear record of mankind's long history, but Thou art our dwelling place in all generations. In Thee alone can be found fullness of joy.

In Thy presence may we discern this day Thy good guidance for our lives so that we may discharge our duties with assurance in the midst of life's stresses and uncertainties. So may we pray the prayer of Wordsworth,

"Thou, Thou alone
Art everlasting, and the blessed spirits,
Which Thou includest, as the sea her waves,
For adoration Thou endurest; endure
For consciousness the motion of Thy will."

State Capitol, Sacramento, California*

DEAR MR. BECK: In answer to your letter of January 13, 1943, I am pleased to inclose a copy of the latest Personal Income Tax Statistics of 1940 Returns, in Table I of which you will find the number of State income taxpayers who filed returns in the different net income classes, and the amount of tax assessment in each class for the year 1940

Also are inclosed statements in answer to your inquiries relative to the effect of (a) increasing the personal exemption of a single individual to \$1,500, and that of a married couple to \$3,500 and (b) the effect of reducing the maximum tax rate to 8 per cent on net incomes over \$40,000

The increase in personal exemption would affect all taxpayers who would file personal income tax returns, except trusts. For the year 1941, individuals filed 636,264 returns on which a tax was disclosed. Individuals in the number of 303,235 filed nontaxable returns for the same period.

Yours very truly,

CHAS. J. MCCOLGAN, Franchise Tax Commissioner
W. M. WALSH, Assistant Commissioner

The following prayer was offered by the Chaplain, Rev. Clarence Albert Kircher:

O Light Eternal, shine into our hearts this day, we pray. Help us that with all our hearts, and minds, and strength, we may ever seek Thy face. We thank Thee for all the good things of this life, for food and raiment and shelter in the day of storm. We thank Thee for work to do and the zest we find in the doing of it. We thank Thee for the perpetual touch of the divine in life and for the image of Thyself in the soul of man. We lay hold of the faith expressed by Bryant in his "Ode to the Waterfowl," that.

He who, from zone to zone,
Guides through the boundless sky thy certain flight,
In the long way that I must tread alone
Will lead my steps aright.

In our Master's name.

AMEN

"Sec 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Because of the increased demand for workers of all kinds in industries directly connected with the prosecution of the war, and the induction of millions of men into the armed forces, a shortage of man power exists throughout the Nation, and particularly in the State of California. Lack of labor threatens shortages of foods, and endangers the successful prosecution of the war. Many recipients of old age aid are eager to contribute to the war effort by accepting employment, and physically able to do so, but are discouraged from accepting gainful employment which would render them ineligible for aid during the period of employment by the belief that the demand for their services is temporary, and the fear that on the cessation of employment, they will be without resources or income during the 90-day period of investigation now required to establish eligibility for aid. The shorter period of investigation of applications of former recipients of aid provided by this act will relieve that

fear, and encourage those recipients of aid who are physically able to do so to accept employment and contribute their labor, directly or indirectly, to the war effort. To make this additional source of man power available at the earliest possible time, and so to avert the threat of food shortages, and hasten the attainment of a victorious peace, it is necessary that this act take effect immediately."

Amendments read and adopted.

Bill ordered reprinted and engrossed.

Assembly Bill No. 307—An act to add Chapter 3 to Part 3 of Division 6 of the School Code and to add Chapter 11 to Division 9 of the Education Code, relating to child care centers, declaring the urgency thereof, to take effect immediately.

Show us the way to rise above all earthly circumstances and spend this day in grateful recognition of Thy mercies. We thank Thee for our citizenship and the blessedness of a Nation whose God is the Lord. To Thee we renew our allegiance and devotion;

Rise with Thy morning upon our souls, quicken all our labor and our prayer and though all else declines, let the noontide of Thy grace and peace remain. May we walk, while it is yet day, in the steps of Him who with fewest hours, finished Thy divinest work.

"Holy Spirit, Truth Divine,
Dawn upon this soul of mine;
Word of God, and Inward Light,
Wake my spirit, clear my sight."

OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, January 26, 1943

*Honorable Nelson S. Dilworth, Assembly Chamber
State Capitol, Sacramento, California*

Child Care Centers—Assembly Bill No. 307

DEAR MR. DILWORTH: You have asked us if Assembly Bill No. 307 (as amended in the Assembly January 25, 1943), relating to child care centers contains an appropriation requiring the bill to be submitted to the Committee on Ways and Means.

In our opinion the bill does not contain any provision appropriating money so as to require consideration by the Committee on Ways and Means under the provisions of Rule 82 of the Assembly.

Although some provisions of the bill, such as Section 6.786 of the School Code and Section 19607 of the Education Code, authorize the collection of fees and the expenditure thereof by the governing board of the district maintaining the child care center, none of such provisions in our opinion constitutes an appropriation of money within the meaning of that phrase as customarily used in the Rules and in the statutory and constitutional provisions of the State.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By ARTHUR McHENRY, Deputy

Explanation of Vote on Assembly Bill No. 307

At most this bill only enables school districts to open nursery centers, to use school property for the purpose and to obtain Federal funds under the Lanham Act. The rest is just padding to make the people think they are getting more than they really are. Furthermore, some appropriation seems necessary to properly carry it into effect. For some time Vallejo has been doing everything this bill purports to permit. Though I am against such padded legislation as a fraud upon the people, I voted for the bill in case it does accomplish something.

OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, January 22, 1943

*Honorable Thomas A. Maloney, Assembly Chambers
State Capitol, Sacramento, California*

ASSEMBLY BILL NO. 504

DEAR MR. MALONEY: In response to your inquiry as to whether Assembly Bill No. 504 makes an appropriation and, therefore, requires a letter from the Governor before it can be passed prior to the enactment of the Budget Bill, we report that, in our opinion, Assembly Bill No. 504 does not make an appropriation.

You have called our attention to Sections 6113 and 6131 which are included in the division to be added to the Labor Code. Section 6113 refers to the State Compensation Insurance Fund and authorizes it to make expenditures, including payments to claimants for medical care. This is not an appropriation because the expenditures made by the State Compensation Insurance Fund will be made pursuant to contract with State agencies, such as the State Board of Harbor Commissioners for San Francisco Bay, and the money from which such expenditures will be made will be provided by other appropriations not included in this bill such as the budget appropriations. Similarly, Section 6131 simply authorizes the expenditure of such money as may be appropriated by the Budget Bill for premiums for the insurance that may be written under this bill.

You have asked us if at the present time the administration of the Harbor of San Francisco is supported by any General Fund appropriation. It is not. The administration of the harbor is paid for out of fees received by the Harbor Commissioners from rental of piers, docks, etc.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By ARTHUR MCHENRY, Deputy

We thank Thee for our blessed Country established upon the foundation stone of Christian liberty and directed by the light of pure religion. Guide and guard our President, our Governor, all lawgivers and counsellors, our defenders on land and sea and in the air; our officials and our citizens. Help us ever to remember that

"In the beauty of the lilies
Christ was born across the sea,
With a glory in His bosom
That transfigures you and me;
As He died to make men holy,
Let us die to make men free!
While God is marching on."

MOTION TO SET SPECIAL ORDER

Mr. Bashore moved that Assembly Bill No. 489 be made a special order of business for Thursday, January 28, 1943, at 2.15 p.m.

Motion carried.

EXPLANATION OF MOTION TO TABLE ASSEMBLY BILL NO. 124

Assembly Bill No. 124 was introduced for the purpose of extending the present sardine season during the month of March in order to meet commitments made under the Lend Lease Act for the armed forces.

In March, 1942, Southern California cannery packed over 140,000 cases of edible sardines. With improvements made, the same cannery could pack 427,000 cases of sardines during this extended period—which would help fulfilling the requests of the Federal Government.

The motion to table the bill was made by the author for the following reasons:

1. Letter of opposition filed by the Regional Office of the War Production Board, signed by Mr. Otto Lang and Mr. Clevenger of said bureau.

2. Several members of the committee voiced opposition, contending that this would result in depleting this specie of fish.

Amendment No. 3

On page 1 of the printed bill, strike out all of line 1, and insert "SECTION 1 This act shall be known as the War Production Act

SEC. 2. The Legislature hereby declares that, in order to increase production and to win the war in which the United States is engaged, certain restrictions on activities of employees should be temporarily revised, either wholly or partly, such revision of restrictions to be in effect only as provided in Section 10 hereof.

SEC. 3 The Governor may, upon the application of an employer, issue a war production permit covering a designated place or places of employment permitting the employment of female employees at such hours, and at such type of work, and under such conditions, as may be helpful in increasing production and furthering the war effort without unreasonably increasing the risk of impairing the health or safety of said female employees, in view of the emergency. Such permit when issued shall remain in effect until revoked, modified or suspended under Section 6

SEC 4. An application for such a permit shall be filed by an employer within 24 hours after he employs females at or for such hours or at such type of work or under such conditions not permitted by law without a permit under this act, with the State department in which is vested the enforcement of the law from which it is proposed to create an exemption as herein provided. Such State department is authorized to recommend the issuance of such a permit. If it recommends the issuance of such a permit, it shall incorporate the terms and conditions upon which the permit is to be issued. Upon such favorable recommendation being made, the Governor may issue the permit and the Governor may include the terms and condition within the permit

SEC. 5. "State department" includes every department of the State, and every other State board or agency, whether or not created by the Constitution, but does not include any division, bureau or other branch or bureau of a State department

SEC 6 The Governor may at any time revoke, suspend or modify any permit upon recommendation of the department which recommended the issuance of said permit. Upon proof being made that the terms and conditions of any such permit have been violated wilfully, such department may recommend to the Governor that the permit be suspended, modified or revoked

SEC 7 All State departments shall continue to exercise their duties under the laws and rules to insure that the relaxation authorized by the permit does not adversely affect the health or safety of the female employees involved.

SEC 8 No relaxation permit shall have the effect of abrogating any collective bargaining agreement prescribing overtime rates of pay or any of the overtime rates prescribed by the Industrial Welfare Commission or agencies of the Federal Government.

SEC 9. Any authority herein given to a State department may be exercised by any official or employee in the department so authorized by the director or other head of the department.

SEC. 10. This act shall remain in effect until the ninety-first day after final adjournment of the Fifty-sixth Regular Session of the Legislature or until the cessation of hostilities in all wars in which the United States is now engaged, whichever first occurs. While this act is in effect it shall supersede any existing provisions of law which are in conflict with this act; but such provisions are not repealed by this act and after this act is no longer effective shall have the same force as though this act had not been enacted.

SEC. 11 This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The war emergency requires that all facilities of production be utilized to the utmost and that restrictions upon the hours and conditions of work be relaxed to such an extent as may be compatible with the health and safety of the persons affected. This act provides a method whereby production can be increased under safeguards designed to afford full protection to all persons involved and its early effectiveness is necessary to the prosecution of the war effort."

RESOLUTIONS

The following resolutions were offered :

By Mr. Field :

House Resolution No. 81

Relating to creation of an Assembly Committee on Governmental Efficiency and Economy, defining its powers and duties and making an appropriation for its expenses.

WHEREAS, Hundreds of changes in the organization and administration of the State Government are proposed at each session of the Legislature. The complicated machinery of State Government erected to serve the citizens of this State, can function only under law. New circumstances constantly arise which previous statutes did not contemplate. It is necessary for the Legislature to study these circumstances carefully, with a view to revising and amending the law relating thereto, in order that the most efficient, economical and equitable administration of the laws may be fostered.

During the interim between sessions it is desirable to ascertain and collate the facts upon which legislation may be based. The Legislature can best function as a fact-finding agency through Legislative Committees; therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly Committee on Governmental Efficiency and Economy, which committee shall study and investigate, accurately and in detail, the organization, functions, and administration of the State Government and of any department, agency, or subdivision thereof and of the governments of the cities and counties of this State, for the purpose of recommending changes and proposing legislation in order to promote efficiency, to reduce and eliminate costs, to provide for the consolidation of functions and removal of duplication, and to do all other things necessary and proper to increase the efficiency and effectiveness of the State and local governments and the agencies and subdivisions thereof.

The committee shall consist of 15 Members of the Assembly appointed by the Speaker of the Assembly, and the Speaker as an ex officio member. Vacancies on the committee shall be filled by appointment by the Speaker.

Upon the appointment of its members, the committee may organize, appoint a secretary, and employ such clerical and technical assistants, and adopt such Rules as in its discretion it deems necessary and proper to enable it to carry out to full force and effect the powers granted and the duties imposed herein.

The committee is authorized and empowered to summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, and records, of every kind and description, and to take all necessary means to compel the attendance of witnesses and to procure testimony. The members of the committee may each administer oaths, and all of the provisions of Article 8 of Chapter 2, Title 1, Part 3 of the Political Code, relative to the attendance and examination of witnesses before the Legislature and committees thereof, shall apply to the committee appointed under this resolution.

The committee is hereby authorized and empowered to make a complete investigation and study of all matters and subjects heretofore referred to and relating thereto, and to do any and all things necessary or convenient to enable it to exercise the powers and duties granted to and imposed upon it.

The committee may create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to take or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter, defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee.

The committee may hold public hearings at any place in California, at which hearings the people are to have an opportunity to present their views to the committee. The committee may also meet in executive session. The committee is hereby authorized to act during sessions of the Legislature, including any recess thereof, or after final adjournment, but in no event beyond the convening of the

Fifty-sixth Legislature. The committee may report to any session of this Legislature or to the regular session of the Fifty-sixth Legislature, on or before March 15, 1945.

Every department, commission, board, agency, officer, and employee of the State Government and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee upon request, any and all assistance and information, records, and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created. The Sergeant-at-Arms of the Assembly, or other officers designated by him are hereby directed to serve any and all subpoenas, orders, and other process issued by the committee, when directed so to do by the chairman or by a majority of the membership of the committee.

The members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents (\$0.05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals incurred in connection with their services upon the committee, or in lieu thereof an allowance of ten dollars (\$10) per day for accommodations and meals.

The sum of ten thousand dollars (\$10,000) is hereby made available from the Contingent Fund of the Assembly, for expenses of the committee hereby created and its members, and for any other charges, expenses, or claims it may incur under this resolution to be disbursed after certification by the chairman of the committee by warrants of the State Controller drawn upon the State Treasurer.

Resolution read, and referred to the Committee on Rules and House Functions.

O still small voice of calm!"

BOARD OF SUPERVISORS
CITY AND COUNTY OF SAN FRANCISCO

RESOLUTION No. 3135

Respectfully requesting the San Francisco representatives at the State Legislature to abstain from introducing a so-called Harbor Bill seeking transfer of control over San Francisco Harbor properties from the State to the City and County of San Francisco

WHEREAS, At each session of the Legislature for many years, the City and County of San Francisco traditionally has sought return of control over its harbor; and

WHEREAS, The Port of San Francisco now is devoted almost exclusively to war purposes so that the question of State or city control is, at the present time, of relatively minor importance; and

WHEREAS, The City and County of San Francisco does not wish to inject a controversial issue into this session of the Legislature, which has so much vital war legislation pending before it; and

WHEREAS, San Francisco hopes and believes that it will some day so enjoy the esteem and confidence of its neighbors in Northern and Central California that they will join with it spontaneously to restore control of the harbor to San Francisco; now, therefore, be it

Resolved, That the representatives of the City and County of San Francisco in the 1943 Legislature be and they are hereby respectfully requested to abstain from introducing a so-called "Harbor Bill" seeking transfer of control over San Francisco Harbor properties from the State to the City and County of San Francisco; and be it

Further Resolved, That copies of this resolution be transmitted to San Francisco's Representatives in the Legislature, the mayor, the Governor, and to the chairmen of the boards of supervisors of all other counties in California.

OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, January 29, 1943

Honorable Walter J. Fourt
Assembly Chamber, State Capitol
Sacramento, California

ASSEMBLY BILL No. 571—Re San Quentin Prison Revolving Fund

DEAR MR. FOURT: In answer to your request, this is to inform you that in our opinion Assembly Bill No. 571 (as amended in Assembly January 28, 1943) does not make an appropriation within the meaning of Section 34 of Article IV of the Constitution.

The bill changes the name of the present revolving fund and makes the existing fund available for other purposes. It does not increase the amount of the fund and does not, therefore, in our opinion, constitute an appropriation.

Very truly yours,

FRED B. WOOD, Legislative Counsel
By ARTHUR MCHENRY, Deputy

COMMUNICATIONS

By Mr. Carlson:

The following communications were received, read, and ordered printed in the Journal:

To Assembly Members of Alameda County

GENTLEMEN. It is the desire of the Old Age Pension Club No. 1 of Oakland that you may be informed of a few facts that you may better understand our situation.

First—May we ask that you assist in securing a pension of \$60 per month *without* reductions: as you all know the price of food and materials has reached a point where \$40 does not provide a comfortable, to say nothing of a respectable living.

Second—That rent *not be taken* off our checks for those who are living in homes they have spent most of their lives earning and paying for.

Third—That support is *not demanded* of children who have families of their own to provide for.

Fourth—Why can we not raise a victory garden *without* deducting from our check, when the Government has requested it? And our present check will not cover the high prices.

I can furnish and prove many instances where our County Social Welfare Board have deducted without reason to such a point that it is inhuman to expect us to live off the amount granted.

Any assistance you gentlemen can give us will be greatly appreciated by the undersigned.

Respectfully,

M. A. SEYMOUR, President

FRED DAVIS

LEO A. IMHOF, SR.

LEONA H. IMHOF

NITO P. SMITH

OLIVIA SMITH

ALLAN McDONALD

MRS. ALLAN McDONALD

MRS. H. M. DELONG

To the Assembly Members of Alameda County

GENTLEMEN: I have been requested by the members of the Old Age Pension Club No. 1 of Oakland to inform you of some of the atrocities perpetrated upon us in this county, all of which we can prove if you so desire.

One of our club members, taking temporary work for the Government, was told he could return to his pension when through, but now has been refused (as the work is finished) and to get a blank from the Post Office, fill out and mail to Washington, D. C., and for several months has had to depend upon the kindness of friends and relatives for food etc.

Another who had work for a time returned his pension check, saying he was earning at present, and for his *honesty* had his wife's check discontinued.

Two old people—one 91 very deaf, wife 69 and disabled limb, receive only \$30 each with no reason given. They do *not* own their home nor have victory garden. Needless to say they have very uncomfortable quarters.

One lady who has one-third interest in a home (used by her and daughter's family) because she owned the lot they built on, lives in part of the home, and because the Welfare *think* she *may* take a few meals with the family, grant her only \$27.50 per month.

Another lady who applied about two years ago (over 80) received \$15 each of first two months because of a sister earning a living. There are many other injustices, but these show the way we are treated here.

Trusting you can do something to help prevent these things, I am

Respectfully,

M. A. SEYMOUR, President of Oakland Chapter No. 1

MESSAGES FROM THE GOVERNOR

Budget Message

To the Senate and the Assembly of the State Legislature of California

In conformance with the duty imposed by the Constitution of the State, I herewith submit for your consideration the budget for the biennium beginning July 1, 1943, and ending June 30, 1945.

It may be that further economies can be effected during the biennium after we have had opportunity for detailed study. I say this because, in my opinion, it is impossible for any incoming Governor to make what I consider to be an accurate and detailed analysis of budgetary problems within the short interval of time allowed.

Between election and taking office, the incoming Governor must make whatever analysis he can, for the time after taking office is required for assembly and printing of the budget. It is my belief that provision should be made for the elapse of a greater length of time before an incoming Governor must complete and submit his initial budget.

During the short period of time available to prepare and present this document, I have relied very largely upon the staff of the Department of Finance which has been faithful to its task. In all of our budget hearings we have exchanged views with your Legislative Auditor and feel indebted to him for many valuable suggestions.

The budget which I now submit has been compiled in a period of war and for a State which is an important contributor to the war effort of the Nation. It is a budget influenced by war economy. In total recommended expenditures it calls for \$463,947,005 for the operation of State Government. This represents a decrease of \$64,264,452 from the actual and estimated total for the present biennium and is \$133,054,445 below the estimated total revenue of the State during the two-year period beginning July 1, 1943.

Executive Policies

In compiling the budget certain general policies were adopted. This is a necessary procedure in order to assure that some semblance of standard practice may be established and uniform treatment accorded all State agencies. These general policies are briefly indicated in the following:

The budget is based on the premise that the war will continue through the biennium.

The general principle upon which the budget is predicated is that war-essential services are to be adequately provided for and lesser essential services curtailed.

In those departments performing war functions or where the work-load is accentuated by the war, the appropriations recommended consider the facts as applying throughout the period.

Due to war conditions curtailment has been advisable in some agencies. In all items of reduction, consideration has been given the need for protecting the investment of the State in organization, trained manpower and physical assets.

Expansion of departments or functions not directly connected with the war effort has been eliminated.

Only such functions have been included as are now authorized by statute. Appropriations are provided for these functions in accordance with the indicated intent of past Legislatures.

In every budget involving personnel, an allowance has been made for the \$15 emergency increase approved by the Personnel Board effective July 1, 1942.

War conditions have reduced building construction to an absolute minimum. No requests were considered unless priorities were in hand or could be reasonably expected.

In developing this budget I have laid considerable emphasis upon the elimination of waste and red tape, and also the development of operating economies. Many departments will not fill vacant positions.

The recommended appropriations are based on a curtailment of travel in order that additional relief may be given to transportation facilities.

War Problems of State Government

The impact of global war has had a tremendous influence upon the State of California. The transition from peace to war production; the migration of workers from other States into our manufacturing areas; the intensity of the National program of civilian, war factory, and coastal defense; the transportation of materials and men; the safeguarding of public health; and the draft of manpower have all had a broad and disturbing influence upon the operations of normal State Government.

The State is responding to these changes in creating and developing new agencies for defense, and by imposing upon all of its civil and protective units such functions as are deemed to contribute to the general betterment of the lot of all the people of the State. In addition, many of the departments will assume responsibilities for the execution of powers delegated by the war agencies of the Federal Government.

The financial program of the State may require adjustment time after time, until we are able to meet the challenge of these problems. Some of the departments have been curtailed and as we progress further into the biennium more drastic curtailments may be made. Manpower should be flexible and the assignment of employees to the most essential tasks should be permitted.

War Agency Study Continues

I wish to call special attention at this time to the probability that I may have something further to report in connection with the budgets of four agencies of government which are now involved in reorganization studies. These are Civilian Defense, State Guard, Division of Forestry, and the Department of Public Health. Studies are under way which may materially alter present tentative recommendations.

While we are in the process of reorganizing the civilian defense program of the State, I deemed it advisable to ask for the amount requested for the existing State Council of Defense. Since the figures were not developed in connection with an analysis of needs under proposed reorganization, a supplemental statement will doubtless be required.

This same consideration should be applied to the State Guard budget of \$15,100,000. The Adjutant General is now conducting a preliminary survey which is likely to lead to new recommendations in weeks to come.

It is likewise entirely probable that I may have some new recommendations to make in regard to the budget of the Division of Forestry when studies have been completed.

Likelihood also exists that there may be an additional report required for the Department of Public Health. The protection of the health of the communities of California and the rendering of health facilities for Selective Service and the armed forces is a duty of vital importance. I have recommended an increase of \$300,000 from the General Fund for the Department of Public Health. The recommended increase does not cover any transfer of the functions heretofore supported by Federal funds to the General Fund.

Industrial Relations

Another agency which is performing an essential war service is the Department of Industrial Relations. The character of the war service performed is in reality an expansion of its normal function. The quick development of great war industries

hiring thousands of workers has necessitated additional safety engineers to protect the workers against hazards of employment. An upward trend in accidents has increased the work resulting from the operation of the Workmen's Compensation and Safety Act.

The housing congestion in defense areas has caused an increase in the Division of Immigration and Housing. In cooperation with other governmental authorities the trailer and auto camp problems must be solved. The Division of Industrial Welfare budget has been adjusted to care for the problems of women in industry. The over-all increase recommended for the Department of Industrial Relations is \$300,000.

Highway Patrol

The Highway Patrol has been operating on a much expanded program due primarily to the war effort. The principal war functions may be enumerated as follows: Regulation of traffic within reduced speed limits, patrol for the prevention of sabotage; participation in the scrap metal drives; regulation of traffic in congested manufacturing areas; enforcement of dim-out regulation; coastal patrol, conveying the transporting of men and materials; and training of auxiliary patrol. This program required an expenditure greatly in excess of the funds provided by a declining revenue. In view of the condition of the fund, I am recommending an appropriation \$1,250,000 below the actual and estimated expenditures for the current biennium. Despite this decrease the Motor Vehicle Support Fund will show a deficit of \$850,000 at the end of the biennium. It is necessary therefore for me to request that you appropriate an additional 4 per cent of the registration fees for the support of the department or provide a similar amount from some other source of revenue.

Education—University and State Colleges

There are several current factors affecting the educational system of our State. Enrollments have declined on the University campuses from 28,000 a year prior to the war to an estimated 15,000 at the start of the next school year. The seven State colleges have experienced a similar decline. War needs may effect further decreases.

The budgets recommended for support of the University and State colleges have been reduced to \$29,950,000 which is a decrease of \$3,200,000 from current expenditures in line with the indicated trend in enrollments. The sum recommended is commensurate with reduced enrollments only insofar as reductions are possible without damage to the institutions.

The recommended budget includes an increase of \$60,000 for support of the California Maritime Academy. This increase is occasioned by the moving of this institution to its new base at Merrow Cove where more suitable quarters have been provided.

Previously the Polytechnic School received all its support from horse racing revenues. With the curtailment of revenue from this source, it was necessary to transfer support of this school to the General Fund. An amount of \$528,000 will thus become a liability of the General Fund.

Highways

The administration of the State Highway System presents a serious financial problem, due to the greatly increased burden of heavy war and industrial traffic, and the unprecedented reduction in gasoline tax. The elimination of Federal aid represents a further loss of approximately \$9,800,000. The funds available for State highway purposes, as shown by this budget, will be reduced about \$34,000,000.

There are sections of State highway now beyond the point where their useful condition can be preserved by ordinary maintenance. Since these highways are essential to the war effort, reconditioning will be necessary. This will constitute an extraordinary, but necessary demand on the reduced highway funds. Only small amounts will be left for engineering, planning, and acquisition of rights of way for postwar work on urgently needed highway projects.

Youth Correction Authority

This new agency has been organized to provide a better means of training youths both to cure and prevent delinquency. During the present biennium the Authority has operated only to a very limited extent. For the next biennium I have recommended an appropriation of \$378,000. This amount will permit the Authority to operate diagnostic and classification clinics; guidance and prevention work; parole and after care; and training and custody in work camps. At the present time the Authority is contracting with the Federal Forest Service for farms and forest work. These camps will assist the war effort in providing manpower to raise guayule for rubber. Funds provided by the Federal Government will enable the Authority to finance a program involving the expenditure of \$1,300,000. Over 500 youths will participate in the program.

Revenue has been estimated in excess of \$300,000 for charges to counties for youths committed to the Authority. It is my belief that the amount of this budget and the expanded program of assuming actual custody and care of present county charges should be dependent upon the enactment of statutory authority fixing the financial obligation on the counties.

Institutions and Prisons

I am recommending appropriations totaling \$32,500,000 to provide for the institutions and prisons of the State. This represents an increase of \$1,250,000. These agencies will provide for the care and maintenance of 37,000 persons during the next biennium. Commodity price increases; increased population in mental institutions and correctional schools; full period operations of recently constructed units; added personnel for maintenance of buildings; increased expenditures on institutional farms, and additional fire protection provided for the agencies have necessitated this increase.

With the development of the Youth Correction Authority into an active agency, I am proposing a further expansion of its influence. I would ask that you consider the advisability of transferring the three correctional schools—Preston School of Industry, Fred C. Nelles School for Boys, and Ventura School for Girls—from the Department of Institutions to the Authority.

Social Welfare

The regular activities of the Department of Social Welfare are recommended at an increased amount of \$375,000. This increase is not brought about by expansion but originated from continuation of positions authorized in the current biennium and extension of emergency salary adjustments. While a noticeable decrease in the case loads of the categorical aids is estimated for the next biennium, a comparable decrease is not reflected in administrative expenditures of the department because its duties are more of a supervisory nature and are not directly in ratio to the case loads.

The special activities of the department consisting of WPA, Stamp Plan and Surplus Commodities have been eliminated from this budget with the exception of an amount of \$40,000 for a restricted program of warehousing surplus commodities for the school lunch program. This represents a cut of \$1,000,000 from the request for Surplus Commodity Distribution.

Personnel Problems

Government today is confronted by labor problems very similar to those confronting industrial establishments. There has been a substantial increase in labor turnover. Hundreds of State employees have been granted military leave to enter the armed forces of our Country. Thousands have accepted employment in war industries. Records show that 8,200 resignations from State service were filed during the period of eight months ending with October, 1942.

This situation in manpower has increased the number of unfilled positions until it can be recognized as a measurable factor in the amounts required for salaries and wages. In preparing this budget it has been assumed that the number of vacancies will continue to be abnormally high in the coming biennium and this fact has been taken into account.

As a means of maintaining morale among State employees by recognizing the increase in cost of living, and to retain the personnel essential to government operations, provision has been made for the continuation of the emergency salary increase recently granted State employees. Conditions are changing very rapidly and the amount of the increase merits further study and investigation. The \$15 allowance now in effect amounts to some \$10,000,000 for the next biennium and is a significant factor in the budget total.

In all probability the employment problems of State Government will become more critical during the coming months. At the present time State employees are not paid for overtime work. It is common practice in private industry to meet labor shortages by extending the hours of labor and making commensurate adjustments in salaries or wages. This principle has recently been adopted by the Federal Government and other public agencies. I am recommending that you give consideration to granting statutory authority to pay for overtime work when required by depletion of manpower but in so doing it is my belief we should conform with National policy in regard to the 40-hour week.

Motor Vehicle Appropriation

Because of the unsettled conditions no allowance had been recommended for any motor vehicles in General Fund departments. During the current year the class of small cars has been frozen for purchase by the armed forces. It will be necessary to take definite steps to conserve cars now owned by the State. Some discretion should be exercised in determining whether or not cars should be purchased for the lesser essential services. Since such a determination can not be made at this time

it has been deemed advisable to recommend one amount of \$250,000 to be appropriated at the disposal of the Department of Finance, to be used to the best advantage of the State General Fund departments when necessary for the purchase and maintenance of automotive equipment.

Payments and Grants to Local Governments

As a result of wartime conditions, payments and grants by the State to local units of government will be substantially lower during the coming biennium than in the current two-year period. Shifting conditions and not State policy have caused the change in outlook. Factors underlying the decline are temporary in nature and illustrate how definitely our fiscal programs have been thrown into a state of flux by the war. It is estimated that these State costs will total \$250,000,000 during the 1943-1945 biennium—a decrease of \$35,000,000.

The demands of industry and the armed forces upon students in our secondary schools will result in lower school enrollments and decreased State expenditures for school support during the coming two fiscal years. A similar disruption exists in the case of expenditures for aid to needy aged, blind and children. Sharp decreases will be noted in the apportionments of motor vehicle taxes and fees and in gasoline tax.

Any appraisal of the State's fiscal position and financial outlook must take into consideration the fact that these decreases in requirements and revenue are wholly artificial; that the postwar reaction must be met largely from the State General Fund and that over 98 per cent of these items are General Fund obligations fixed by law.

Improvements in Accounting Methods

Since the enactment of the retail sales tax in 1933, the State has been counting as cash and including as part of its assets, money which was not, in fact, received until after the close of its fiscal year. This money would not be available to pay any bills due at that time and the practice is not applied with respect to other State taxes.

From the viewpoint of consistency the accounting for all sources of revenue should be identical. In the interests of better financial reporting, the State should count as income only the cash actually received in the Treasury during each fiscal year, leaving to the subsequent period any revenue in the hands of its taxpayers but not as yet carried in the State's accounts. This practice is fully applied beginning with the present budget by reporting sales and use tax receipts upon a cash basis.

Another change relates to the accounting of State revenue. In the past, receipts from the retail sales and use taxes, the alcoholic beverage taxes, and the personal income tax have been treated as revenue for special funds, with the expenditures for administration of these levies being accounted as special fund costs. Only the net receipts after payment of administrative charges have been considered General Fund revenues. In the case of all other principal general levies, receipts have been treated as General Fund resources, with administrative charges being met through appropriations from the General Fund. As a result of this varying treatment as between different sources of revenue, there has been no clear-cut distinction between General Fund operations and those of the various special funds. This situation is remedied in the present budget. This change will not affect any limitations existing in present laws with respect to the amounts which may be expended in the collection of these taxes.

Estimated Revenues

California's State Government is at present passing through a period of unprecedented high revenue income. The tremendous stimulant of war expenditures has produced a volume of tax income which surpasses anything that might have been expected solely on the basis of previous experience. By its very nature, this flow of revenue into the State Treasury can not be long continued at its present level. As wartime excesses give way to restrictions, and the productive power of the Nation is fully concentrated upon the material of war, a contraction in several important sources of State revenue will be inevitable. It is therefore highly important that the State's financial outlook be judged not so much in the light of what has happened in the last two years, as by what is probable for the coming two years.

Although the swift developments of war and the far-reaching impact of wartime activity upon normal civilian life make it extremely difficult to forecast the State's revenue for the 1943-1945 biennium with a high degree of accuracy or assurance, it now appears that receipts from existing revenue sources during the biennium will total \$597,000,000. As compared with the \$676,000,000 actual and estimated total for the current two-year period, this represents a reduction of \$79,000,000. It is, however, substantially more than has been recorded in any biennium except the one now in progress.

General Fund receipts during the 1943-1945 biennium from existing taxes are projected at \$468,000,000, as compared with \$497,000,000 actual and estimated for

the current two-year period. In view of the dislocations within the State's economic structure as a result of the war, this \$29,000,000 reduction in General Fund revenue may appear surprisingly moderate. The resources of the General Fund are broad and varied and will reflect the emergency conditions in different ways and in varying degrees. For example, although sales tax revenue will decrease as a result of restrictions upon civilian consumption, it is expected that the losses at this point will be offset to some degree by gains in the yield of such levies on income as the bank and corporation franchise tax and the personal income tax.

Special fund revenue, conversely, rests for the most part upon charges incident to the ownership and operations of motor vehicles. Because production of motor vehicles for civilian use has been discontinued, while operation will be restricted under gasoline rationing, it is likely that motor vehicle tax revenue will fall off sharply in the coming biennium. In total, special fund receipts are estimated at \$129,000,000 for 1943-1945, a decrease of \$49,600,000 from the total estimated in the current period.

General Fund Financial Condition

With revenues of \$468,000,000 estimated for the 1943-1945 biennium, and expenditures recommended or required under existing law in the amount of \$330,000,000, current operations of the State General Fund are well within balance. The excess of anticipated revenue over prospective disbursements in the coming period is \$138,000,000. It should be noted that this projected operating surplus is based upon expenditures contemplated in this budget and estimated revenue from taxes now in force, without modification. Tax reduction or increased expenditures would, of course, reduce this figure.

In addition to the surplus arising out of operations in the coming biennium, the State will carry forward a \$90,000,000 General Fund surplus as a result of excess income during the 1941-1943 biennium. In total, therefore, the anticipated General Fund surplus on June 30, 1945, is \$228,000,000. This situation is of such importance in the fiscal management of the State, and represents such a vast change from the conditions which have prevailed during the past 12 years, a further analysis of the total is in order. Briefly, this may be summarized as follows:

General Fund <i>Deficit</i> June 30, 1941	\$66,000,000 00
Revenue, 1941-1943	\$497,000,000 00
Expenditures, 1941-1943	341,000,000 00
Operating <i>Surplus</i> , 1941-1943 Biennium.....	156,000,000 00
General Fund <i>Surplus</i> , June 30, 1943, Estimated.....	90,000,000 00
Revenue, 1943-1945, Estimated	\$468,000,000 00
Expenditures, 1943-1945, Estimated	330,000,000 00
Operating <i>Surplus</i> , 1943-1945 Biennium.....	138,000,000 00
General Fund <i>Surplus</i> , June 30, 1945, Estimated	228,000,000 00

The General Fund Surplus

A surplus of \$228,000,000 in the State General Fund is a matter of serious concern. It constitutes a sacred trust for those who have the power to spend, for it has been collected from all the people and should be expended or preserved only for uses which will redound to the benefit of all.

In the consideration of this sum, we will be wise if we consider it the foam cast up by intense war activity and not the natural product of our normal tax system. It is generated by an activity which can be cut off as quickly as it started.

In times such as these it is not safe to trifle with fundamentals. This reasoning should, in my opinion, be applied both to expenditures and taxation. Unless we are extremely careful in our expenditures at this particular time of surplus, we will be fixing standards of expenditure which will be difficult to change as time progresses. We must remember that when the first reaction comes we will not only have to take care of new needs but also the false standards fixed during this period of apparent prosperity. We should also be careful in our treatment of the tax structure, particularly its base, for when both revenue and obligations shift, we will need all the experience we have gained during both the good years and the bad to carry on the progressive government demanded by our people.

The present surplus—that which will accrue by June 30, 1943—is admittedly the product of unusual circumstances. A part of the total is, in fact, borrowed from the future. It arose, in part, through the rush of our citizens to purchase today what they knew would not be available for purchase tomorrow. The sales tax thus generated is already in the State Treasury and there will be a reaction evidenced by decreased tax collections in coming months.

A part of the present and prospective surplus arises through the postponement of building construction at State institutions and at other agencies where facilities are needed. This cessation and delay of building is but another product of the war. When we eliminated capital outlay from the present State budget, it was not done as a matter of desired policy. It was done only as a matter of war requirement and with full recognition of the responsibility of fitting such construction into the postwar program.

It is my hope that the Legislature will take such action as is required to insure the use of portions of this surplus for needed institutional construction during the postwar period. In this connection it may also be found advisable to survey the possibility of saving the State large rental fees resulting from the leasing of properties in several cities.

Another part of the anticipated surplus, especially that in prospect as a result of operations in the 1943-1945 biennium, is the product of reductions in State payments to local governments for the maintenance of schools and support of social welfare programs. These by-products of war activity will vanish at the end of the current conflict and expenditures required by law for these purposes will again increase at least to previous levels.

War Catastrophe Reserve

There is another way in which I believe a huge sum of surplus money could be put to protective use at this time. This State has been designated as a potential combat area. Within the State are great war plants—necessary and vital to the success of the war. These plants are serving an indispensable purpose. They are, however, lures for attack from our enemies. The State is concerned with the lives and safety of its people and the protection of their property. Every governmental unit in the State has formally established an agency to protect and defend our life and property. Thousands of volunteer workers now are trained and ready for any eventuality. Should an attack or invasion occur, the State Government must be ready. It is, therefore, my recommendation that a "War Catastrophe Reserve" of \$25,000,000 be set aside at the disposal of the War Council to be used, only in case of an actual bombing or invasion, for the relief of suffering among the peoples of this State.

It is my earnest hope that no part of this amount will be needed for the purpose to which I am requesting that it be dedicated. Should it not be required for this desperate use, it could later be released to contribute to the financing of postwar programs.

Tax Reduction

It is fortunate that the present and prospective financial condition of State Government is such as to allow both the creation of adequate resources and tax reduction. I have, as you know, appointed a Citizens Advisory Committee to investigate and recommend upon the possibility of reducing State taxes. This body is actively at work, and will collaborate with your committees. When its recommendations are received, I shall communicate with you further upon the matter of tax reductions. The committee expects to report by March 15th.

It shall be my purpose and the purpose of all departments of State Government to extend you every assistance possible in your task for analyzing this budget and our State fiscal problems.

Respectfully submitted,

EARL WARREN, Governor of California

January 30, 1943

REPORTS OF STANDING COMMITTEES

Committee on Rules and House Functions

ASSEMBLY CHAMBER, SACRAMENTO, January 30, 1943

MR. SPEAKER. Your Committee on Rules and House Functions, to which was referred:

House Resolution No. 81
Has had the same under consideration, and reports the same back with the recommendation: Be adopted.

SAM L. COLLINS, Chairman

CONSIDERATION OF HOUSE RESOLUTION NO. 81

House Resolution No. 81

Relating to creation of an Assembly Committee on Governmental Efficiency and Economy, defining its powers and duties and making an appropriation for its expenses.

WHEREAS, Hundreds of changes in the organization and administration of the State Government are proposed at each session of the Legislature. The complicated machinery of State Government erected to serve the citizens of this State, can function only under law. New circumstances constantly arise which previous statutes did not contemplate. It is necessary for the Legislature to study these circumstances carefully, with a view to revising and amending the law relating thereto, in order that the most efficient, economical, and equitable administration of the laws may be fostered.

During the interim between sessions it is desirable to ascertain and collate the facts upon which legislation may be based. The Legislature can best function as a fact-finding agency through legislative committees, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly Committee on Governmental Efficiency and Economy, which committee shall study and investigate, accurately and in detail, the organization, functions, and administration of the State Government and of any department, agency, or subdivision thereof and of the governments of the cities and counties of this State, for the purpose of recommending changes and proposing legislation in order to promote efficiency, to reduce and eliminate costs, to provide for the consolidation of functions and removal of duplication, and to do all other things necessary and proper to increase the efficiency and effectiveness of the State and local governments and the agencies and subdivisions thereof.

The committee shall consist of 15 Members of the Assembly appointed by the Speaker of the Assembly, and the Speaker as an ex officio member. Vacancies on the committee shall be filled by appointment by the Speaker.

Upon the appointment of its members the committee may organize, appoint a secretary, and employ such clerical and technical assistants and adopt such rules as in its discretion it deems necessary and proper to enable it to carry out to full force and effect the powers granted and the duties imposed herein.

The committee is authorized and empowered to summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, and records, of every kind and description, and to take all necessary means to compel the attend-

ance of witnesses and to procure testimony. The members of the committee may each administer oaths, and all of the provisions of Article 8 of Chapter 2, Title 1, Part 3 of the Political Code, relative to the attendance and examination of witnesses before the Legislature and committees thereof, shall apply to the committee appointed under this resolution.

The committee is hereby authorized and empowered to make a complete investigation and study of all matters and subjects hereinbefore referred to and relating thereto, and to do any and all things necessary or convenient to enable it to exercise the powers and duties granted to and imposed upon it.

The committee may create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to take or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter, defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee.

The committee may hold public hearings at any place in California, at which hearings the people are to have an opportunity to present their views to the committee. The committee may also meet in executive session. The committee is hereby authorized to act during sessions of the Legislature, including any recess thereof, or after final adjournment, but in no event beyond the convening of the Fifty-sixth Legislature. The committee may report to any session of this Legislature or to the Regular Session of the Fifty-sixth Legislature, on or before March 15, 1945.

Every department, commission, board, agency, officer, and employee of the State Government and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee upon request, any and all assistance and information, records, and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created. The Sergeant-at-Arms of the Assembly, or other officers designated by him are hereby directed to serve any and all subpoenas, orders, and other process issued by the committee, when directed so to do by the chairman or by a majority of the membership of the committee.

The members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents (\$0 05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals incurred in connection with their services upon the committee, or in lieu thereof an allowance of ten dollars (\$10) per day for accommodations and meals.

The sum of ten thousand dollars (\$10,000) is hereby made available from the Contingent Fund of the Assembly, for expenses of the committee hereby created and its members, and for any other charges, expenses or claims it may incur under this resolution to be disbursed after certification by the chairman of the committee by warrants of the State Controller drawn upon the State Treasurer.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 15:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, January 28, 1943

*To the Honorable Members of the Assembly
Sacramento, California*

GENTLEMEN: Provision for emergency increase of compensation paid to State employees will expire February 1, 1943, and I am of the opinion that legislation should now be enacted to continue in effect provision for such emergency increased compensation.

I have not had an opportunity to arrive at a conclusion of what the exact amount of the increase should be, but the subject matter of Senate Bill No. 15 should be considered by the Legislature to prevent an immediate reduction of salaries which would be unfair to the State employees and might result in an abnormal loss of personnel.

I, therefore, recommend consideration of Senate Bill No. 15 as necessary for the immediate preservation of the public peace, health, or safety, and as an emergency bill within the meaning of that term as used in Sections 1 and 34 of Article IV of the Constitution of the State of California, the consideration of which should not wait until the final enactment of the Budget Bill

Respectfully submitted.

EARL WARREN, Governor of California

GENTLEMEN:

ASSEMBLY BILL No. 569

"An act to add Section 2710 2 to the Penal Code, relating to the California Institution for Men Working Revolving Fund, declaring the urgency thereof, to take effect immediately,"

I, therefore, recommend consideration of Assembly Bill No. 569 as necessary for the immediate preservation of the public peace, health or safety and as an emergency measure.

Respectfully submitted.

MOTION TO PRINT IN JOURNAL

Upon motion of Mr. Weber, the following report was ordered printed in the Journal:

**Report of the President of the University of California and His Committee
to the Subcommittee on Post War Planning, December 30, 1942**

The committee recommends that steps be initiated by the University to establish a research foundation to be known as the California Foundation. This foundation shall be an independent corporation.

Purpose—The purpose and scope of the California Foundation shall be the selection and financial support of investigations which look toward the economic, social, educational, and cultural development of the State of California in an orderly and appropriate manner.

Material Support: It is suggested that for the material support of such a foundation funds be sought from citizens of California who are interested in the welfare of the State and who have the means to contribute. A nucleus of large gifts should first be secured. Thereafter through publicity and other persuasion it is suggested that we interest as many citizens as possible to contribute as their means may permit. Other sources of income may be considered, public as well as private, provided such contributions are made to the foundation without restriction for its purposes.

Governing Body: It is suggested that a board of trustees of 21 persons with substantial terms not running concurrently be entrusted with the government and management of the California Foundation. It is further suggested that on such a board there be representation of all the great research agencies in the State. The initial members of the board shall be appointed by a committee consisting of the President of the University of California, the President of Stanford University, the Chairman of the Executive Council of the California Institute of Technology, and the President of the University of Southern California. The board of trustees shall determine upon its own officers and committees and upon the method of its perpetuation.

Committee on Projects—The selection and approval of proposals submitted to the foundation for investigation, as well as the initiation of new research projects, shall be vested in a Committee on Projects appointed each year by the board of trustees. This committee shall consist of seven qualified persons.

COMMUNICATIONS

The following communications were received, read, and ordered printed in the Journal:

By the Speaker:

COUNTY OF LOS ANGELES, OFFICE OF THE DISTRICT ATTORNEY

LOS ANGELES, January 26, 1943

*The Hon. Charles W. Lyon
Speaker of the Assembly
Sacramento, California*

MY DEAR CHARLES. As you have been advised from reading the papers and also from your constant contact and intimate knowledge of Los Angeles County affairs, there appears to have grown up in the Los Angeles city police department alleged practices of police brutality. Of late, however, these alleged practices have reached the point where a man arrested less than a block from the police department was fatally injured between the time of his arrest and the time he reached his eventual destination in Lincoln Heights jail.

In this particular case, according to the preponderance of evidence, the man was arrested on a drunk charge and arrived at the police station in a physically sound condition but came out less than 24 hours later so badly battered that, according to medical testimony, he died as a result of his treatment during that time.

This case presented possibilities of a crime having been committed in Los Angeles County; hence, my office took the responsibility of investigating the death of this person, known as Stanley H. Beebe. For several weeks I have had my staff of investigators go over with a fine-tooth comb all possible avenues of approach to collect evidence and statements, all of which we presented to the coroner's jury of Los Angeles County at a several-day hearing before this jury. The jury returned a verdict to the effect that "The decedent had received an abdominal injury inflicted by persons unknown, with homicidal intent, while in the custody of the Los Angeles police department."

Up to this time, however, as prosecutor for this county, I can not see my way clear to present this matter to the Los Angeles County grand jury for the purpose of obtaining an indictment because there are still serious deficiencies in the matter of evidence. I have reached the point where I believe that the realistic approach to this problem of alleged brutality should come from an investigation on the part of a duly appointed and authorized legislative committee. My reasons for this are as follows:

As you know, the City of Los Angeles is a chartered city, and under provisions of the charter, the personnel of the police department can only be disciplined by members of their own organization. A question has been raised as to whether even the chief of police or other executives or the mayor of Los Angeles, the chief executive of the city, has the right to remove or suspend or reprimand any police officer until a board of other officers chosen by the man under suspicion has passed on the merits of the case.

At this juncture may I add parenthetically that an Assembly committee hearing such as I have indicated might recommend a change in the charter structure of the city or the statutory structure of the State.

The Los Angeles police department is comprised of several thousand people with various duties and tasks. Our failure to obtain necessary evidence is obviously due to the refusal of a few police officers to reveal certain information which they must have, but which they are afraid to use in this inquiry. It is not fair to the several thousand honest, industrious and worthy officers in the service of the Los Angeles police department to labor under the onus of the aspersions that have been cast by the investigation in my office and by the coroner's jury and by the statements of the press. The police department as a whole is a splendid organization, and the failure to bring out the proper evidence as to the alleged practice of police brutality must be a reflection on these various good officers.

If the Assembly should deem it fit and proper by resolution to appoint such a committee, you have my promise to assign a very capable deputy from my office to assist the committee in every way in the presentation of evidence that we have so far accumulated in the hope that the guilty individuals may be exposed and prosecuted.

With every best wish, believe me to remain

Cordially yours,

JOHN F. DOCKWEILER, District Attorney

LOS ANGELES, CALIFORNIA, January 26, 1943

*The Hon. Charles W. Lyon, Speaker of the Assembly
Sacramento, California*

My office conducting investigation of alleged police brutalities one of which resulted in death of Stanley H. Beebe. Have spent several weeks securing evidence and statements. Last week completed coroner's jury hearing. Verdict was as follows: "Decedent has received an abdominal injury inflicted by persons unknown, with homicidal intent, while in the custody of the Los Angeles police department." Have reached impasse. All men in police department having contact with Beebe deny any knowledge of beating. For the sake of the police department and for the public good and to clear up the statutory and charter provisions, deem it advisable to suggest that an Assembly committee be appointed to investigate such alleged police brutality cases. Letter follows.

Explanations of Vote

We voted against the resolution to investigate the alleged brutality of Los Angeles police officers for the reason that we do not believe that such matters are within the governmental functions of the Legislature. These matters should be prosecuted by the law enforcement officers of the county and by the Attorney General of the State as provided by law.

**EARL D. DESMOND
GEO. A. CLARKE
PAUL DENNY
S. L. HEISINGER**

Any investigation of the subject matter of this resolution should be carried on by the Attorney General under his powers as chief law officer of the State (California Constitution, Article V, Section 21) if the law is not being adequately enforced in Los Angeles County, as suggested by the district attorney of that county.

Any person examined before a Legislative Committee would be granted immunity from criminal prosecution on any subject inquired into, by reason of the provisions of Section 304 of the Political Code. That would make it possible for guilty parties to gain immunity. It would offer dangerous obstacles to prosecution of guilty persons.

For these reasons I voted against the resolution, notwithstanding any strong personal feelings against police brutality.

LORNE D. MIDDOUGH

We voted against the investigation of the Stanley Beebe case by the Assembly Governmental Efficiency and Economy Committee because it does not fall within the scope of this committee, but with the Attorney General who should step in when local law enforcement fails and has the necessary investigators and legal staff.

MOTION TO PRINT POEM IN JOURNAL

Upon motion of Mr. Gaffney, the following poem, written by Dick Desmond, was ordered printed in the Journal:

In the hush of the evening hour
 When the work in the field is done,
 The men from their jobs returning,
 Are met on the road by just one.
 It is he who works until morning,
 Who wages the battle with time,
 Who works from dusk until dawning
 Until down from the tractor he'll climb
 There are three points of light in the darkness,
 One piercing the dust at his rear,
 The roar of his motor e'er with him
 The grinding of metal he'll hear.
 At midnight he pauses for something,
 For something to eat and to drink,
 With only the stars for companions
 And, thus, left alone he can think
 This indeed is a beautiful hour
 The closest man miles away,
 Now he knows of God and His power;
 He feels the urge to pray.
 But again to his tractor he hastens,
 And into the seat he crawls
 Again he steps on the starter,
 And a roar into the silence falls
 On—On alone in the darkness,
 On—On alone in the night,
 Eyes glued to the furrow to guide him,
 Illumined by one beam of light.
 Finally over the mountains,
 A single bright star appears,
 Gladly he gazes upon it,
 For he knows that daylight nears
 The gray, cold dawn is beginning,
 Streaks of light filter the sky,
 He edges close to his motor for warmth,
 For the coldest hour of morning is nigh.
 Into the East there comes color,
 The sun is beginning to rise,
 More beautiful even than sunset,
 Is the sight which now meets his eyes.
 Red rays of light piercing skyward,
 A red orb floats into view,
 Black shadows turn from hobgoblins
 Into trees of magnificent hue
 Then the tractor is turned toward home,
 He pulls the plow from the ground,
 He drives to the camp for refueling,
 And shuts off the motor and sound
 He climbs down all dusty and greasy,
 His body weary but still at ease,
 He greets the men just done breakfast,
 And helps them his tractor to grease.

He goes to eat and to sleep then
 After homeward his way he wends,
 To dream while others labor
 Of farmers' work that never ends
