All taxes assessed together with any percentage imposed for delinquency, and the cost of collection shall constitute liens on the property assessed, from and after the First Monday in March in each year, which liens may be enforced by a summary sale of such property and the execution and delivery of all necessary certificates and deeds therefor, and such regulations as may be prescribed by Ordinance, or by action in any court of competent jurisdiction to foreclose such lien; provided that any property sold for such taxes shall be subject to redemption within the time and in the manner provided, or that may hereafter be provided by law for the redemption of property sold for state or county taxes. The issuance of such revenue bonds must be authorized by the affirmative votes of a majority of all the electors voting upon the proposition of their issuance at any election at which such question is submitted to the electors of the city.

When two or more questions or propositions for the incurring of general obligation bonded debt or for the issuance of revenue bonds are submitted at the same election the votes cast for and against each question or proposition shall be counted separately."

"RIGHTS OF TRANSFERRED EMPLOYEES CONTINUED UNDER ARTICLE XX

Retirement system Rights of transferred City Health Department employees

Section 175.27. Notwithstanding any provision in this Charter to the contrary, all employees of the Health Department of the City of Sacramento, who are members of the Sacramento City Employees' Retirement System, hereinafter referred to as City System, and who, as provided in Section 108 2 of this Charter, are transferred to and become employees

of the Health Department of Sacramento County, and members of the Sacramento County Employees' Retirement System, shall be subject to the following paragraphs of this Section, in addition to the provisions of other sections of Article XX of the Charter which are not in conflict with the provisions of such paragraphs, and to which they would have been subject if they had not been transferred:

(1) Each of such transferred employees shall have the right to elect upon a form furnished by and upon completion to be filed with the City System, without right of revocation, except as provided in this section, and within 90 days after the effective date of such transfer, whether to allow the accumulated contributions with which he is entitled upon said date, to be credited under the City System, to remain in the retirement fund. Each person who so elects shall continue to be a member of the City System. Failure to make such election within said 90 days, or an election not to allow such contributions to so remain, shall be deemed an irrevocable election to withdraw his accumulated contributions, and such contributions shall be refunded to such employee and his membership in the City System shall be terminated forthwith.

(2) A member whose membership continues under this Section, and who retires for service or disability, under the County System, shall be retired under the City System for service or disability, as the case may be, automatically and without action by him, effective on the effective date of his retirement under the County System. Upon such retirement he shall receive from the City System, a retirement allowance in an amount which, when added, before modification under any available optional election, to the retirement allowance before such modification, to which he is entitled under said County Retirement System, shall make the total of such allowances from both Systems, equal to a retirement allowance calculated under the provisions of the City System, and upon the assumption that service rendered to Sacramento County by said member, was rendered instead to said City at the same rate of compensation as that paid by said County for said service. If the member is reinstated from retirement, under the County System, he shall be reinstated automatically and without action by him, under the City System, and his allowance shall cease, effective on the same date as the reinstatement under the County System.

(3) Should said member cease to be employed by Sacramento County through any cause other than death or retirement, he shall be subject, regardless of his election as to accumulated contributions as provided in paragraph (1) of this section, to the provisions of subdivision (g) of Section 173, if he is a member of the City System under Section 173, or of Section 175.7, if he is a member of the City System under Section 175.1.

(4) Should said member who was a member of the City System under Section 175.1, die before retirement, and while

a member of the County System, the City System shall pay to his estate or designated beneficiary, the applicable death benefit provided in section 175.6, for which he otherwise qualifies, under the assumption that service rendered to Sacramento County by said member, was rendered instead to said City at the same rate of compensation as that paid by said County for said service, reduced by the portion of any death benefit payable by the County System, which is derived from public contributions, but the benefit paid by the City System, shall not be less than the member's accumulated contributions. Should said member die after retirement under both the City and County Systems, the City System shall pay to his estate or designated beneficiary, the applicable death benefit provided in Section 175.6, reduced by the amount of any death benefit, payable by the County System, other than a benefit payable because of the member's election under options, or because of automatic continuance of all or part of his allowance.

(5) Should said member who was a member of the City System under Section 173, die before retirement and while a member of the County System, or after retirement under the County System, the City System shall be liable for the applicable death benefit provided in subdivisions (d), (e), and (f) of Section 173, provided that if no allowance is payable on account of such death before retirement, from causes other than injuries received in the performance of duty, the amount payable by the City System shall not be less than the member's accumulated contributions, and provided further that any allowance payable under said subdivisions, shall be calculated on the assumption that the service rendered by said member to Sacramento County, was rendered instead to said City, at the same rate of compensation paid by the County for said service, and that any allowance so calculated upon death before retirement, shall be reduced by an amount which is actuarially equivalent to the death benefit payable by the County System, and further reduced by the amount of any allowance payable by the County System, because of the automatic continuance of all or part of said member's allowance under the County System.

(6) The City of Sacramento shall contribute to this System during each fiscal year, an amount equal to the excess of the contribution required of and made by said employee, to the County System, over the contribution which would have been required of him as a member of the City System and with the same earned compensation. Such amount shall be credited to said employee and improved with interest in the same manner as if it were normal contributions under the City System. Should said member cease to be employed by Sacramento County, through any cause other than retirement, and should his accumulated contributions under that System, be paid to him or his estate or designated beneficiary, said amount so contributed by the City, with credited interest, shall be credited on the contributions required of the City to the City Sys-

tem. Upon the retirement of said member under the County System, he shall have the right to elect within 60 days after the effective date of such retirement, without right of revocation and upon a form furnished by, and upon completion to be filed with the City System, whether to have said amount with credited interest applied as accumulated additional contributions to provide an annuity for life in addition to any allowance to which he is entitled under the City System. Failure to make such election within said 60 days, or an election not to have said total amount so applied, shall be deemed an irrevocable election to have such amount with credited interest paid to him in one sum, and such payment shall be made to him forthwith.

(7) The City Council is hereby empowered to enact any and all ordinances necessary to carry into effect the provisions of this section."

That the Charter of the City of Sacramento be amended by adding thereto a new Article numbered XXVII to read as follows:

"ARTICLE XXVII TRANSIT AUTHORITY

City Transit Authority Creation

Sec. 276. Creation of Authority. There is hereby created a City Transit Authority to be known as "The Transit Authority of the City of Sacramento," and the powers of which shall be vested in a Board consisting of five members, and two ex-officio members, consisting of the City Manager and City Engineer.

The retirement board may approve, refer to the health service board for further consideration, or disapprove any matter or proposal which is within its jurisdiction under the provisions of this section, and it shall act within sixty (60) days after any matter has been submitted to it, and failure of the retirement board to approve, refer or disapprove the same within said period shall constitute an approval.

4. 5. The health service board shall receive, consider and, within sixty (60) days after receipt, act upon any matter pertaining to the administration, operation or conduct of the health service system submitted to it in writing by any member of the system or any person who has contracted to render medical care to the members of the system.

A resigned employee or teacher is one whose employment has terminated other than by retirement, discharge or death. The purpose of empowering the board to make provision for the participation in the benefits of the system by the aforementioned resigned teachers and employees of the board of education is to enable them, subject to the board's exercise of its power, to participate in the benefits of the system after transferring to the State Teachers' Retirement System from the city and county's retirement system. The purpose of empowering the board to make provision for participation in the benefits of the system by the aforementioned resigned employees of the city and county is so that the board will have power to treat them the same as it treats resigned teachers and employees of the board of education.

The controller shall deduct said sums from the compensation of the members and shall deposit the same with the treasurer of the city and county to the credit and for the use of the system.

Such deductions shall not be deemed to be a reduction of compensation under any provision of this charter. The board shall have control of the administration and investment of the funds, provided that all investments shall be of the character legal for insurance companies in California. Disbursements from the fund shall be made only upon audit by the controller and the controller shall have and exercise the accounting and auditing powers over the funds of the system which are vested in him by this charter with respect to all other municipal boards, officers and commissions.

Subdivision 6. Members of the system shall have and possess no claim or recourse against any of the funds of the municipality by virtue of the adoption or operation of any plan for rendering medical care, indemnifying costs of said care or carrying insurance against such costs, but the claim and recourse of any such member shall be limited solely to the funds of the system. All expenses of the system shall be borne exclusively by the funds of the system and the city and county shall not appropriate or contribute funds in any manner for the purposes of the system hereby established and provided.

The chief of police may from time to time, disburse such sums from such fund as in his judgment shall be for the best interests of the city and county in the investigation and detection of crime, and the police commission shall allow and order paid out of such contingent fund, upon orders signed by the chief of police, such amounts as may be required.

PROPOSITION D

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by adding Section 165.2.1 thereto, relating to increase in retirement allowances of miscellaneous officers and employees retired under Section 165.2 of the Charter prior to July 2, 1952, and retired under Section 165 of the Charter prior to July 2, 1952 but not prior to July 1, 1952.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County of San Francisco at an election to be held therein on November 6, 1956, a proposal to amend the charter of said city and county by adding thereto Section 165.2.1, to read as follows:

Retirement allowance increase

Section 165 2 1. Every retirement allowance payable by the San Francisco City and County Employees' Retirement System, for time commencing on the effective date of this section, hereby designated as the first day of the month next following its ratification by the Legislature, to or on account of any person who was retired prior to July 2, 1952, as a

member of said system under section 165.2, and to or on account of any person who was retired prior to July 2, 1952 but not prior to July 1, 1952, as a member of said system under Section 165, is hereby increased by the amount of $25 per month, provided such member was entitled to be credited under the retirement system with at least twenty years of service upon which the retirement allowance was determined at retirement. If the member was entitled to be credited with less than twenty years of such service, then said monthly increase shall be an amount which shall bear the same ratio to $25 that the service with which the member was entitled to be credited at effective date of retirement, bears to twenty years. This section does not give any member retired prior to the effective date hereof, or his successors in interest, any claim against the city and county for any increase in any retirement allowance paid or payable for time prior to said effective date. If a member elected at retirement to have his retirement allowance modified under Option 2 or 3, provided by ordinance, and if the member and his beneficiary are living on said effective date, the increase in the allowance shall be modified under the option elected at retirement, and on the basis of current ages, mortality tables and interest rate. If the beneficiary of such a person who elected at retirement to have his allowance modified under one of said options is not living on said effective date, or if the retired member is not living on said effective date and the beneficiary is receiving the modified retirement allowance, then the allowance shall be increased as provided herein for persons who did not elect an option.

The increase in the retirement allowance shall be apportioned between service rendered prior to the entry of the member into the retirement system and service rendered as a member, in the same proportion that such prior and current service respectively, bears to the total service credited at retirement. Contributions to the retirement system necessary for the payment of the increases in the retirement allowances provided in this section, shall be provided, with respect to the portion of the benefit based on service rendered as members, from the reserves held by the retirement system on account of miscellaneous members, the necessary amount being transferred upon said effective date, from said reserves to the reserves held by the retirement system to meet the obligations of the city and county on account of benefits that have been granted and on account of prior service of members. The contribution being required of the city and county currently as percentages of salaries of persons who are members under section 165.2, shall be increased to percentages determined by the actuary as necessary to replace the reserves so transferred. Contributions to the retirement system necessary for the payment of said increases with reference to prior service, shall be paid to the system by the city and county by annual appropriations, provided that such appropriation for any

year shall not be less than the amount disbursed during that year on account of said increases.

All employees, exclusive of the manager, of the present San Francisco airport, who are actually employed at the present airport operated and maintained by the City and County of San Francisco on the effective date of this amendment and who have been continuously so employed for one year immediately preceding said date shall be continued in their respective positions as if appointed thereto after examination and certification from a list of eligibles and shall thereafter be governed by and be subject to the civil service provisions of this charter. All said employees so continued in their respective positions shall be eligible for like positions in any other airport hereafter acquired, maintained or operated by the City and County of San Francisco.

The rate of pay so fixed by the board of supervisors shall be determined on the basis of rates of pay certified by the civil service commission on or prior to April 1st of each year and shall be effective July 1st following; provided, that the civil service commission shall review all such agreements as of July 1st of each year and certify to the board of supervisors on or before the second Monday of July any modifications in rates of pay established thereunder for such crafts or groups as herein provided. The board of supervisors shall thereupon revise the rates of pay for such crafts or groups accordingly and the said revised rates of pay so fixed shall be effective from July 1st of the fiscal year in which such revisions are determined.

Should the budget estimates of the several departments be filed with the controller or transmitted to the mayor before any such report of said civil service commission is received by the board of supervisors, the head of each department affected by such report may amend its budget estimate to comply with the provisions of such report.

Notwithstanding the provisions of section 151 or any other provisions of this charter the wages of the various classifications of employment of platform employees and coach or bus operators of the municipal railway shall be determined and fixed, annually as follows:

(a) For the fiscal year beginning July 1, 1957, the basic hourly rate of pay shall be established at $2.244 per hour, and for the fiscal year beginning July 1, 1958, the basic hourly rate of pay shall be established at $2.448 per hour.

(b) On or before the first Monday of August 1959 and of each year thereafter the civil service commission shall certify to the board of supervisors for each classification of employment the average of the two highest wage schedules in effect on July 1st of that year for comparable platform employees and coach or bus operators of other surface street railway and bus systems in the United States operated primarily within municipalities having each a population of not less than 500,000 as determined by the then most recent census taken and published by the director of the census of the United States, and each such system normally employing not less than four hundred (400) platform employees or coach or bus operators, or platform employees, coach and bus operators.

(c) The board of supervisors shall thereupon fix a wage schedule for each classification of platform employees and coach and bus operators of the muncipal railway which shall be not in excess of the average of the two highest wage schedules so certified by the civil service commission for each such classification.

(d) When, in addition to their usual duties, such employees are assigned duties as instructors of platform employees or coach or bus operators they shall receive twenty (20¢) cents per hour in addition to the rate of pay to which they are otherwise entitled under the wage schedule as herein provided.

(e) The rates of pay fixed for platform employees and coach and bus operators as herein provided shall be effective from July 1st of the year in which such rates of pay are certified by the civil service commission; and for the fiscal year 1956-1957 the rates of pay specified in the established wage schedules shall be paid to employees in accordance with the classifications of employment to which assigned as provided in the wage schedules adopted for the fiscal year 1956-1957; provided, that the platform employees and bus and coach operators so employed by the municipal railway on January 11, 1955, shall be paid the maximum rate of pay provided in the wage schedules adopted for the fiscal year 1956-1957 regardless of classification to which assigned.

(f) Platform employees and coach and bus operators shall be paid one and one half times the rate of pay to which they would otherwise be entitled under the wage schedules as herein provided for all work performed on six days specified as holidays by ordinance of the board of supervisors for such employees.

(g) The terms wage schedule and wage schedules wherever used in this section are hereby defined and intended to include only the maximum rate of pay provided in each such wage schedule, but shall not include other financial or nonfinancial benefits or conditions of employment.

Not later than the 25th day of July in each year as to groups and crafts, and not later than the 25th day of August as to platform employees and coach or bus operators, the board of supervisors shall have power and it shall be its duty, subject

to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

On recommendation of the civil service commission the board of supervisors shall establish a rate of pay for trainee platform men and bus or coach operators at a level reflecting the current labor market but below the basic hourly rate for motorman, conductor and bus operator.

PROPOSITION F

Fire department employees Retirement and death benefits

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Sections 171.1.5 and 171.1.7 thereof, and by adding Section 171.1.5.1 thereto, relating to retirement and death benefit provisions applicable to certain members of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 6, 1956, a proposal to amend the charter of said city and county by amending Sections 171.1.5 and 171.1.7 thereof, and by adding Section 171.1.5.1 thereto, reading as follows:

Section 171.1.5. Upon the death of a member resulting from any cause, other than an injury received in or illness caused by performance of duty, (a) if his death occurred after qualification for service retirement, under section 171.1.2, or after retirement for service, one-half of his retirement allowance to which the member would have been entitled if he had retired for service at the time of death or one-half of the retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife, or (b) if his death occurred, after retirement for disability by reason of injury received in or illness caused by performance of duty, his retirement allowance as it was at his death shall be continued throughout life or until remarriage, to his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the

age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death if he had not retired, or unless she was married to the member at least one year prior to his retirement.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in section 171.1.7, in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age eighteen, may make such election, and if there be no such children, the dependent parent or parents may make such election. Persons heretofore retired under charter section 171, as members of the fire department at the time of retirement, shall be subject to the provisions of this section. "Qualified for service retirement," "Qualification for service retirement" or "Qualified as to age and service for retirement," as used in this section and other sections to which persons who are members under section 171.1 are subject, shall mean completion of thirty years of service regardless of age, or twenty-five years of service and attainment of age fifty-five, said service to be computed under section 171 1.9.

The effective date of this amendment shall be the first day of the month following approval by the State Legislature.

Section 171 1 5 1. Every allowance based on the average monthly compensation earnable by the member during the ten years prior to retirement, and payable for time commencing on the effective date of this section, to or on account of persons who were retired, as members under section 171, for disability resulting from bodily injury received in the performance of duty, shall be adjusted to the amount it would be, if it had been based on the monthly compensation fixed by the board of supervisors as of July 1, 1956, for the rank or position held by such retired member in the fire department prior to retirement. This section does not authorize any decrease in any allowance from the amount being paid at said effective date, nor does this section give any retired member, or any beneficiary of such member, or his successors in interest, any claim against the city and county for any increase in any allowance paid or payable for the time prior to its effective date. Adjustment in reserves under allowances which are changed according to this section, shall be made on the basis of current interest rate and mortality tables.

The increase in the retirement allowance shall be apportioned according to service rendered by the member in the

same manner that the allowance prior to increase was apportioned. Contributions to the retirement system, necessary for the payment of the increase of the portion of the retirement allowances which is paid from reserves held by the retirement system, shall be provided from the reserves held by the retirement system on account of members under section 171.1, the necessary amount being transferred upon said effective date, from said reserves to the reserves held by the retirement system to meet the obligations on account of benefits that have been granted and on account of prior service of members. The contribution being required of the city and county currently, as a percentage of salaries of persons who are members under section 171.1, shall be increased to a percentage determined by the actuary as necessary to replace the reserves so transferred. Contributions to the retirement system necessary for the payment of said increases with reference to current and prior service portions of the allowances which are not paid from reserves held by the retirement system, shall be paid to the system by the city and county by annual appropriations, provided that such appropriation for any year shall not be less than the amount disbursed during that year on account of said increases. The effective date of this section shall be the first day of the month following approval by the State Legislature.

Section 171 1.7. If a member of the fire department shall die, before retirement, from causes other than an injury received in or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under section 171.1.4 or 171.1.5 preceding, a death benefit shall be paid to his estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. The effective date of this amendment shall be the first day of the month following approval by the State Legislature.

This section shall have precedence over section 127 of this charter and any other section deemed in conflict herewith.

1. By amending paragraph 3 of subdivision (c) of Section 229x to read as follows:

3. At least once each calendar month, and so long as the balance in the Harbor Reserve Fund shall not exceed the sum of fifteen million dollars, there shall be transferred from the Harbor Revenue Fund to the Harbor Reserve Fund, which latter fund has been heretofore created and established and is hereby continued, thirty per centum of the gross amount of all money received by the City and required by this Charter to be paid into said Harbor Revenue Fund from the development of oil, gas and other hydrocarbon substances from beneath tidelands and submerged lands. Whenever, and so long as the balance in said fund shall equal the sum of fifteen million dollars, no further transfers thereto shall be made until the balance therein shall be less than said sum. Said Harbor Reserve Fund shall be a continuing fund and not subject to transfer at the close of the fiscal year. The money thus transferred shall, from time to time, be invested in accordance with the provisions of applicable legislation of the State of California providing for the investment and reinvestment of any moneys in any sinking fund, or any surplus moneys in the treasury, of cities in the State. The interest, earnings, income and/or profits from the investment of said money shall likewise be paid into said Harbor Reserve Fund and may likewise be invested in the same manner as the money transferred as aforesaid. Oil and gas revenues Transfer to Harbor Reserve Fund

Money in said fund may be expended therefrom by the Board of Harbor Commissioners, whether or not such expenditures shall have been provided for in the official budget of said Board, for any purpose for which money in the Harbor Revenue Fund may lawfully be used if approved by a vote of a majority of all members of said Board and by the City Council by an affirmative vote of not less than two-thirds of all of the members thereof. Should the balance in said fund on the effective date of this amendment exceed the sum of fifteen million dollars, any excess thereof shall be transferred and credited to the Harbor Revenue Fund.

2. By adding subdivision (5) to Section 229d to read:

Required payments to State

(5) To pay to the State of California such amounts thereof, whether or not included in the official budget, as shall be required by reason of the enactment by the legislature of Chapter 915 of the Statutes of 1951, or as may be lawfully required by subsequently enacted legislation, as such legislation is, has been and may hereafter be construed by the courts having jurisdiction thereof.

3. By amending subdivisions (a), (b), (c) and (d) of Section 260.6 to read, respectively:

Tideland Oil Fund

(a) Any and all money derived by the City of Long Beach from the development of oil, gas or other hydrocarbon substances from beneath all tidelands and submerged lands specified and described in those certain grants from the State of California to the City of Long Beach, to wit, 1911 Statutes, page 1304, 1925 Statutes, page 235, and 1935 Statutes, page 794, except from beneath such of said lands as are located within the Harbor District of the City of Long Beach as said district was bounded and described on May 1, 1946, shall be paid into the Tideland Oil Fund. Money placed in the Tideland Oil Fund shall be used exclusively for the following purposes:

1. Paying all reasonable and necessary expenses incident to the production, processing, sale or other disposal of the above-mentioned oil, gas or other hydrocarbon substances;

2. Paying to the State of California such amounts thereof, whether or not included in the official budget, as shall be required by reason of the enactment by the legislature of Chapter 915 of the Statutes of 1951, or as may be lawfully required by subsequently enacted legislation, as such legislation is, has been and may hereafter be construed by the courts having jurisdiction thereof;

3. Establishing, constructing, maintaining and improving public parks, parkways, highways, and playgrounds on tide and submerged lands; also the construction, maintenance and operation of wharves, docks, piers, slips, quays and other utilities, structures and appliances necessary or convenient for the promotion and accommodation of commerce and navigation;

provided, however, such money may not be used or expended for any purpose in violation of the provisions of the aforesaid grants from the State.

(b) Money remaining in the Tideland Oil Fund, after payment of necessary expenses incident to production of oil, gas or other hydrocarbon substances and to the State of any portion thereof due it all as provided in paragraphs 1 and 2 of subdivision (a) above, shall not be used for any of the other aforesaid purposes unless, prior thereto, a majority of those voting thereon vote in favor of a proposition, for each such use, submitted by the City Council at any City election wherein all City electors are entitled to vote. Such money,

however, may be used without such prior approval of the electors, and without the necessity of a provision therefor in the official budget of the City, for the payment of costs and expenses for land subsidence remedial or beach erosion work, or to meet a public emergency caused by war, fire, flood, explosion, storm, earthquake, epidemic, riot or insurrection, if the City Council, by not less than an affirmative vote of two-thirds of all of the members thereof, declares the need for such land subsidence remedial or beach erosion work or declares the existence of such public emergency.

(c) The sum of two hundred fifty thousand dollars of the money remaining in said Tideland Oil Fund, after payment of necessary expenses and of the State's portion both as hereinabove provided, may be used each fiscal year for any purpose not in violation of said grants from the State, as shall have been provided for in the official budget of the City, without prior approval of the electors of such use. If any or all of said sum of two hundred fifty thousand dollars is not used within a fiscal year, the unused amount shall accumulate and shall likewise be available for such use in any succeeding fiscal year.

(d) The sum of five hundred thousand dollars out of any portion of the money remaining in the Tideland Oil Fund, after payment of necessary expenses and of the State's portion thereof, both as hereinabove provided, may be used each fiscal year for the maintenance and operation of improvements constructed upon said tidelands and submerged lands in this section referred to and for the maintenance of said lands, as shall have been provided for in the official budget of the City, without prior approval of the electors of such use.

4. By adding a new section 260.9, to read:

Payments required by People vs Long Beach

Sec. 260.9. In order to comply with any judgment which may be entered in the case entitled People vs. Long Beach, being file No. 649466 in the Superior Court of the State of California in and for the County of Los Angeles, payment of the amount of money and transfer of securities from the various funds of the City required to comply therewith is hereby authorized, approved and ratified. Certain funds holding certain types of securities may be required to advance a larger portion of the securities necessary to satisfy any such judgment than such funds should ultimately bear, and, in such event, the City Council is authorized to require by resolution, as soon as practicable after payment of any such judgment, the transfer of money and securities between such funds in order to retain in each of such funds the same balance which would have remained therein after such payment had the funds contained only cash instead of cash and securities.

PROPOSITION BB

That the Charter of the City of Long Beach be amended as follows:

(1) By adding a new subdivision to Section 229x thereof, to be known and designated as (g) to read as follows:

Extension of oil and gas leases, etc

(g) Notwithstanding the competitive bidding requirement contained in subdivision (f) of this section, or the limitation as to term contained in subparagraph (aa) of paragraph (3) of subdivision (b) of this section, the Board of Harbor Commissioners may, by negotiation, and pursuant to the terms, conditions and limitations thereby agreed to, extend the term of any lease, contract or other agreement entered into prior to the effective date of said subdivision (f) concerning the lands referred to in subdivision (a) of this section, other than tidelands and submerged lands granted to the City by the State of California. Any such extension of term, including the existing unexpired term of any such lease, contract or other agreement, shall not exceed twenty-five years. Before any such extension agreement shall be valid or become effective for any purpose, a copy thereof shall be transmitted to the City Clerk, who shall present such agreement to the City Council not later than said City Council's next regular meeting; nor shall any such agreement be valid or become effective for any purpose if at any time within thirty days from the date of such presentation to it, the City Council shall, by a majority vote of all the members thereof, disapprove such agreement.

The power of extension hereby conferred is in addition to all other powers possessed by said Board with respect to any lease, contract or other agreement heretofore entered into concerning the lands referred to in subdivision (a) of this section, and this subdivision is not intended, nor should it be construed as divesting or in any manner diminishing any power which the Board now has, with respect to matters not involving an extension of term, to amend or modify any such lease, contract or other agreement for the remainder of the term thereof.

(2) By amending subdivision (a) of Section 298.5 thereof to read as follows:

Oil and gas leases, etc

(a) Except as to lands referred to in sections 229x and 217 of this Charter, the City Council may authorize and direct the execution of leases, contracts or other agreements between the City of Long Beach and other persons, firms, corporations or associations to drill for, develop, extract, take or remove, or dispose of oil, gas or other hydrocarbon substances, from, under, across or through any and all lands including tide, submerged and overflowed lands, whether filled or unfilled, belonging to the City of Long Beach, or such lands in or from which the City may now or hereafter have the right so to drill for, develop, extract, take or remove, and dispose of oil, gas and other hydrocarbon substances for the term or period in each instance not to exceed such as provided by law; provided, any such lease, contract or other agreement shall be made and entered into with the highest responsible bidder upon competitive bidding in the manner and form as shall be approved by

said City Council, after publication of notice calling for bids in the official newspaper of the City; provided, further, said City Council may authorize the execution of any such lease, contract or other agreement between the City and other persons, firms, corporations or associations including such lands, other than tidelands and submerged lands granted to the City by the State of California, in a community lease embracing adjoining lands not belonging to the City without such competitive bidding.

Extension

Notwithstanding the competitive bidding requirement hereinabove provided, the City Council may, by negotiation, and pursuant to the terms, conditions and limitations thereby agreed to, extend the term of any lease, contract or other agreement entered into prior to March 5, 1954, concerning the lands above referred to and over which said City Council had the authority to direct the execution of any such lease, contract or other agreement; provided, however, that any such extension of term, including the existing unexpired term of any such lease, contract or other agreement, shall not exceed twenty-five years.

The power of extension hereby conferred is in addition to all other powers possessed by the City Council with respect to any such lease, contract or other agreement heretofore entered into, and this subdivision is not intended, nor should it be construed, as divesting or in any manner diminishing any power which the City Council now has, with respect to matters not involving an extension of term, to amend or modify any such lease, contract or other agreement for the remainder of the term thereof.

PROPOSITION CC

That the Charter of the City of Long Beach be amended by amending Section 300 thereof to read as follows:

Sec. 20. To lease for a period not exceeding twenty-five years any property owned by the City and not dedicated to public use. This restriction shall not apply to a lease or other agreement having as its primary purpose the production of oil, gas or other hydrocarbon substances.

PROPOSITION FF

That the Charter of the City of Long Beach be amended by amending Section 101 thereof to read as follows:

Time of war shall include any expedition of the Armed Forces of the United States.

Such credit shall likewise be granted to the widows of veterans and to the wives of injured veterans who themselves are not qualified, but whose wives are qualified to hold such positions. In case of a tie grade between a veteran and a non-veteran, the veteran shall be ranked highest.

Those claiming the benefit of this section must submit satisfactory documentary proof of their eligibility.

On the effective date of this section, the Board shall apply veteran's preferences hereunder to all existing eligible lists.

PROPOSITION GG

That the Charter of the City of Long Beach be amended by amending Section 228(4) thereof to read as follows:

Assembly Concurrent Resolution No. 17—Relative to the Upper Feather River Service Area of the Feather River Project.

[Filed with Secretary of State, January 25, 1957.]

WHEREAS, An appropriation of $385,000 was made to the Department of Water Resources by Item 223.1 of the Budget Act of 1956 to complete engineering and geological investigations, studies, and reports with recommendations for a construction program for multipurpose water development and flood control projects for the Upper Feather River Service Area of the Feather River Project; and

WHEREAS, Information as to the proposals of the Department of Water Resources with respect to these facilities is urgently needed by the Legislature in order to properly consider legislation at this session; and

WHEREAS, The orderly development of the water resources of the Upper Feather River Service Area is an integral part of the comprehensive and coordinated development of the water resources of this State, which must be undertaken without delay in order to provide for the economic future of this State; and

WHEREAS, The Department of Water Resources will soon complete its proposed report on these key features of the California Water Plan; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Water Resources is requested to submit its proposed report on the Upper Feather River Service Area of the Feather River Project to the Legislature on or before March 11, 1957; and be it further

CHAPTER 71

Assembly Concurrent Resolution No. 24—Relating to studies to be undertaken by the Department of Social Welfare for the purpose of ascertaining the means by which the administration of the Aid to Needy Children Program may be simplified, and to enable the department to provide the Legislature with recommendations for simplification of the statutory structure of the program.

[Filed with Secretary of State, January 25, 1957]

WHEREAS, The provisions of the Welfare and Institutions Code pertaining to Aid to Needy Children involve great detail and complexity in administration with respect to grant determinations, adjustments in grants, and accounting for funds; and

WHEREAS, The present statutory and regulatory basis for determining the amount of aid to be given in any particular case, and particularly the budgeting procedure prescribed by Section 1511.5, which requires that the amount of the grant in case be computed by including average amounts allocable to each item of a fixed and inflexible list of specific minimum needs and allowances, has resulted in the expenditure of a disproportionate amount of time and effort on detailed administrative and clerical paper work on the part of department personnel at both the state and local levels; and

WHEREAS, The extra time, effort, and expense involved in administering these detailed and inflexible provisions of law and regulation has seriously interfered with and reduced the time available to staff members for essential casework in the field of family rehabilitation by which the most significant and lasting reductions in necessary aid and governmental expense may be achieved; and

WHEREAS, The experience acquired by the department in administering the present law has resulted in the accumulation, by personnel at all levels, of knowledge and information which, when accumulated and considered in conjunction with an analysis of the operative effect of present law on the State's welfare program as a whole, will provide a basis for reappraisal and streamlining of the entire Aid to Needy Children Program with resultant increase in efficiency in its administration and reduction of expense to the State; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Director of the Department of Social Welfare is requested to institute and supervise a study of all aspects of the Aid to Needy Children Program including a study of means whereby its administration may be simplified to the end that the detailed administrative functions presently required of all department personnel be reduced to a minimum, thereby permitting a maximum of time and effort to be devoted to casework in family rehabilitation; and be it further

Resolved, That the Director of the Department of Social Welfare prepare a written report of the findings made in the study of the Aid to Needy Children Program, for presentation to the Legislature not later than April 15, 1957; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Director of the Department of Social Welfare.

CHAPTER 72

Assembly Concurrent Resolution No. 26—Relative to the business climate in California.

[Filed with Secretary of State, January 25, 1957]

WHEREAS, Good business climate is hereby defined as follows:

1. Fair and equitable treatment in general legislation and administrative regulation for all segments of California's economy.

2. A framework of government the support of which adds no greater cost to doing business than the cost of government imposed by other states of similar industrialization and favorable climate.

3. Equitable tax policies and restriction of the cost of government to reasonable levels.

4. Fair treatment for all in legislation and administration of labor-management relations affairs.

5. Fostering, in the public interest, an economic atmosphere which will enable California agriculture and industry to compete for out-of-state markets, remembering that wide marketing of California products brings wealth into the State, thereby raising the standard of living of all our people; and

WHEREAS, During the last 10 years, under its prevailing favorable business climate, California has attracted some 14,500 new manufacturing plants and expansions, with a capital investment of close to four billion dollars ($4,000,000,000); and

WHEREAS, For reasons hereinafter set forth, it will be critically important for California to continue to maintain and improve its business climate; and

WHEREAS, California's population is increasing at the rate of about 400,000 persons annually and is expected to reach 17,000,000 by 1965, when population forecasts indicate California will become the Nation's largest state; and

WHEREAS, The capital investment necessary to provide jobs for the expected 133,000 new workers each year will be in excess of two billion dollars ($2,000,000,000) annually; and

WHEREAS, Basic industry and agriculture are the prime movers of the rest of the business economy; and

WHEREAS, Healthy industry broadens the tax base, thereby providing much-needed revenues for community facilities and government services for all our people; and

WHEREAS, In this era of rapid industrial expansion and relocation throughout the United States, industries, selecting locations, are vitally concerned about the relative business climate among the states; and

WHEREAS, A favorable business climate attracts needed industrial pay rolls; attitudes which build an unfavorable business climate could tend to deter the coming to California of manufacturing plants which, in the relocation process, are free to seek the most favorable locations to themselves elsewhere in the West for serving western markets; and

WHEREAS, Preservation of our good business climate is in the public interest and can be continued without discriminating against any other interest in California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That this Legislature henceforth shall examine all proposed legislation relating to business, industry, and agriculture in terms of its effect upon the business climate of the State, and shall determine whether such legislation may have any future discriminating or deterring effect upon the investment of capital and the creation of needed pay rolls in California; and be it further

Resolved, That the Members of this Legislature hereby request the Governor, the Controller, the Director of Finance, the Treasurer, and the director of each department in the State Government to examine their own discretionary actions and orders in any way relating to business, industry, and agriculture in terms of the effect of such governmental action upon the business climate in California; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitable copies of this resolution to the Governor, the Secretary of State, the Controller, the Treasurer, and to each director or head of every department in the Government of the State of California.

WHEREAS, The Treaty of Cahuenga, which was signed on January 13, 1847, by Lieutenant Colonel John C. Fremont and General Andres Pico, is of tremendous significance in the history and development of the Nation and of the State of California; and

WHEREAS, The treaty brought to an end hostilities between the forces of Mexico and the United States and gained for the United States the mighty empire of the West; and

WHEREAS, The pact, later confirmed by the Treaty of Guadalupe Hidalgo, ceded nearly 500,000 square miles of territory to the Americans, including the present States of California, Nevada, Utah, Arizona, and parts of New Mexico, Colorado, and Wyoming; and

WHEREAS, The Campo de Cahuenga Memorial Association; its board of directors, Charles Hulett, Alfred P. Peracca, Eldred L. CHAPTER 80

Senate Concurrent Resolution No. 26—Relative to an over-all state-wide plan of freeways and expressways for the State of California

[Filed with Secretary of State, January 25, 1957]

WHEREAS, The Legislature of California finds:

(a) Adequate, safe, and economical highway transportation is vital to the future development of the State of California.

(b) It has been amply demonstrated that properly designed and located freeways and expressways are the most economical means of providing highway adequacy and safety.

(c) California is rapidly developing individual freeways and expressways and segments thereof, but in many cases on a piecemeal basis, which program has been greatly accelerated by the enactment of the Federal-Aid Highway Act of 1956 and will be expanded considerably more if Congress carries out its stated intentions regarding apportionments of federal funds for interstate highways.

(d) There is need for the people of California and its agriculture and industry to be informed of plans for the ultimate freeway and expressway system of the entire State as nearly as such can now be determined by basic engineering studies

(e) There is need for the establishment of a plan for such a state-wide system of freeways and expressways determined without regard to present jurisdiction over the highways, roads, and streets that might be included, in order that appropriate state, county, and city transportation plans and fiscal arrangements may be worked out and properly coordinated; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, As follows:

(a) The Department of Public Works is requested to undertake a study which will provide a basis for an over-all state-wide plan of freeways and expressways for the State of California, such study not to be limited to state highways and such study to locate the potential freeway and expressway routes of such a state-wide system and the necessary connections thereto as nearly as is practicable in advance of detailed engineering design of projects.

(b) The Department of Public Works is requested to employ by contract or otherwise such engineering consultants or other specialists as it deems may be needed for conduct of the study and the preparation of reports.

(c) The Department of Public Works is requested to defray the costs of the study from moneys available in the State Highway Fund for highway planning and is further requested to undertake to secure matching contributions of federal funds available for highway planning to the extent that such are available.

(d) Agencies of the State Government and cities and counties and the City and County of San Francisco are requested to cooperate with the Department of Public Works in the conduct of the study.

(e) The Speaker of the Assembly and the President pro Tempore of the Senate are directed jointly to appoint a committee of seven officials of counties and seven officials of cities to act in a technical advisory capacity to the Department of Public Works, and the department is directed to cooperate and confer with the technical advisory committee so appointed.

(f) The Speaker of the Assembly and the President pro Tempore of the Senate shall refer the subject matter of this resolution to the appropriate joint interim committee which may deal with highway transportation problems if such committee is created at this session of the Legislature, or if no such committee is created, then the subject matter shall be referred to the appropriate interim committee of each of the respective houses by the Speaker and the President pro Tempore respectively.

(g) The Department of Public Works is requested to report from time to time on the progress of its study to the appropriate interim committee or committees as designated under the provisions of the preceding paragraph and to submit its final report on the subject matter of this resolution to the appropriate committee or committees not later than September 1, 1958.

WHEREAS, If S. C. R. 14—1956 were literally interpreted, it would require that the death certificate be printed on paper approximating 9 inches by 12 inches in size, thus increasing state and local expenditures for paper, files, and other equipment; and

WHEREAS, Milton P. Duffy has rendered outstanding service and displayed an unparalleled devotion to duty as Chief of the Bureau of Food and Drug Inspections, State Department of Public Health, since the establishment of that agency in 1921; and

WHEREAS, As a pioneer in the field of Food and Drug Law administration and as an acknowledged leader and guiding force in that field since the days of its infancy, he has contributed immeasurably to the health and welfare of the people of California; and

WHEREAS, His enlightened administration, while being meticulous in its regard for the public health and safety, has been a substantial contributing factor in the development and improvement of the gigantic food packing and processing industry in California; and

WHEREAS, The Association of Food and Drug Officials of the United States duly considered all persons most worthy of receiving an award made on the occasion of the fiftieth anniversary of the enactment of the first federal food and drug law and the sixtieth anniversary of the founding of that association; and

WHEREAS, The association bestowed the award, which is named in honor of the author of the Nation's first pure food and drug law, upon Milton P. Duffy "In recognition of out-

standing service and devotion to duty in administering the food and drug laws of his state—and the leadership and guidance he has provided to his fellow workers throughout the Nation"; and

WHEREAS, It is fitting and proper that the Legislature and the people of the State express their appreciation to him for his long career devoted to their interests, and join the Association of Food and Drug Officials in honoring him; now, therefore, be it

CHAPTER 88

Senate Joint Resolution No. 2—Relative to memorializing the Congress of the United States in relation to repealing the Transportation Excise Taxes.

[Filed with Secretary of State, January 25, 1957]

WHEREAS, For the purpose of meeting wartime emergency necessity, the Congress of the United States enacted as excise taxes a levy upon the transportation of persons and property; and

WHEREAS, One of the principal purposes of levying such tax upon the transportation of persons was to discourage unnecessary wartime travel; and

WHEREAS, Today, 12 years after the cessation of hostilities, there continues a 10 percent levy on the transportation of persons and a 3 percent levy on the transportation of property; and

WHEREAS, It is the opinion of the Legislature of the State of California that excise taxes should not impose an unfair burden on the long distance shipper and the long distance traveler as does the present tax on the transportation of property and persons; and

WHEREAS, It should be a principle of federal taxation to levy taxes in such a manner as to prevent them from falling as an unequal burden on citizens residing in different areas of the Country; and

WHEREAS, The distances to, from and within the West impose an unfair burden on the western traveler and shipper; and

WHEREAS, The present transportation tax on property is unfairly burdensome upon the State of California as it adds what is in effect an additional tariff on the goods shipped from California to the eastern markets; and

WHEREAS, The development and preservation of open markets leads to the efficient development and stimulation of the agricultural resources of the Nation; and

WHEREAS, The State of California is particularly interested in preserving the eastern market as an open market in which the agricultural products of California may compete freely without hindrance of artificial barriers such as the present transportation tax; and

WHEREAS, The State of California is particularly interested in protecting and developing its vacation and tourist travel on an equal basis with other vacation travel areas; and

WHEREAS, The transportation of both persons and property plays such a vital role in the economic life of this Country to the extent that the costs of transportation should always be kept at the lowest possible level; and

WHEREAS, Transportation is in no sense a luxury but is a vital necessity and there is, therefore, sound reason for distinguishing between the transportation taxes and other excise taxes that are imposed upon luxury items; and

WHEREAS, It is the opinion of the Legislature of the State of California that the best interest of the Country and particularly the western states, who are now discriminated against by the present transportation taxes, would be served by a repeal of those taxes; and

WHEREAS, There is presently pending before the Congress of the United States legislation which would repeal the tax on transportation of property and which would repeal the tax on transportation of persons; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact into law such legislation or any other bill or bills which would accomplish the same purpose; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 89

Senate Joint Resolution No. 4—Relative to requesting the Commodity Credit Corporation to avail themselves of storage facilities in California.

[Filed with Secretary of State, January 25, 1957]

WHEREAS, The United States Government has established the Commodity Credit Corporation as an instrument of the U. S. Department of Agriculture to administer the farm crop price support program including storage of farm crops and produce such as cheese, butter, powdered milk, other dairy products and beans, soya beans, rice, wheat, corn and feed grains; and

WHEREAS, There is a shortage of storage facilities in many areas where farm crops and products are produced and held in surplus storage by C. C. C.; and

WHEREAS, The shortage of storage facilities in some areas and the great quantity of commodities to be stored have caused the C. C. C. to purchase and operate millions of dollars worth of storage facilities and will force the purchase of still more millions of dollars worth unless maximum use is made of privately owned facilities; and

WHEREAS, These commodities can be stored, handled and distributed more advantageously through privately owned storage facilities; and

WHEREAS, California is deficient in corn, livestock and dairy products, wheat, food stuffs and many other commodities held in surplus storage by C. C. C.; and

WHEREAS, Many C. C. C. commodities in storage are susceptible to damage from high humidity and other climatic factors and California climatic and weather conditions are most favorable for successful handling, storage, and distribution of these commodities; and

WHEREAS, There is available in California an abundance of the most modern storage and port facilities suitable for the storage, handling and shipping of C. C. C. commodities; and

WHEREAS, C. C. C. has offered inducements to California warehousemen and elevator operators to build storage facilities including occupancy agreement; and

WHEREAS, C. C. C. is now and has been shipping many thousands of tons of these commodities to Japan and other eastern countries; and

WHEREAS, The storage, distribution and shipping of C. C. C. commodities through and in California will improve her economy and increase her export trade; and

WHEREAS, California ports, both inland river and ocean shore, are equipped with the most modern and efficient terminal storage, loading and unloading facilities for terminal to ship and ship to terminal handling of cargoes; and

WHEREAS, California based steamship and other transportation companies and port authorities need and solicit added stimulus to their economy; and

WHEREAS, Shipments destined for Pakistan, Japan and other adjacent countries enjoy a lesser ocean going freight rate from California ports than from eastern or gulf ports and this rate advantage is as much as ten dollars ($10) per ton; and

WHEREAS, Further economic aid to the Middle East as proposed by President Eisenhower will greatly stimulate the movement of C. C. C. commodities to that area; and

WHEREAS, California is a target area in case of attack by foreign enemy which entitles her to and indicates the wisdom of having abundant amounts of all foodstuffs under control of C. C. C. stored at strategic points within the State for the convenience, protection and preservation of her citizens; and

WHEREAS, Vast quantities of rice, dairy products, corn, wheat and other commodities held in surplus by C. C. C. are being used in the school lunch program in California; now, therefore, be it

Resolved by the Senate and the Assembly jointly, That the Members of Congress in the California delegation are memorialized to urge the Secretary of Agriculture, Honorable Ezra Taft Benson and his administrative assistants in Commodity Credit Corporation to avail themselves of all storage facilities in California which meet their health and sanitation standards and which can be used in accordance with economic feasibility practices of the C. C. C.; and be it further

Resolved, That copies of this joint resolution be sent to each member of the California delegation in Congress and to U. S. Senators Knowland and Kuchel and to Secretary of Agriculture Ezra Taft Benson; Jack Anderson, Agricultural Assistant to President Eisenhower; Walter Burger, Administrator of C. S. S.; Marvin L. McLain, Assistant Secretary of the Department of Agriculture; Clarence Palmby, Director of the Division of Grain of C. S. S.; and to Francis S. Daniels, General Sales Manager of C. S. S.

CHAPTER 90

Senate Joint Resolution No. 5—Relative to a stamp commemorating the 100th anniversary of the first land survey in Death Valley.

[Filed with Secretary of State, January 25, 1957]

WHEREAS, Matters of historic and national importance are fitting subjects for commemorative issues of United States postage stamps; and

WHEREAS, This year marks the 100th anniversary of one of the most difficult land surveys, that of the land survey of the great Death Valley; and

WHEREAS, This survey is now used to delineate the Death Valley National Monument, one of the most unique of all our national monuments; and

WHEREAS, Not only has the proposal to issue such a commemorative stamp received the wholehearted support of citizens from all walks of life who have learned to love the unique and magnificent grandeur of Death Valley and who especially appreciate the tremendous undertaking of those original surveyors but is also supported by the Honorable Governors of the State of California and of the State of Nevada; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President, the Congress of the United States, and the Postmaster General to provide for a commemorative stamp honoring the 100th anniversary of the first land survey of Death Valley; and be it further

Resolved, That the Secretary of the Senate shall transmit suitably prepared copies of this resolution to the President and Vice President of the United States, to the Postmaster General, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 91

Senate Joint Resolution No. 11—Relative to discrimination against the Greater San Francisco Bay area in the allocation and continuance of defense industries and military facilities.

[Filed with Secretary of State, January 25, 1957]

WHEREAS, It has come to the attention of the Legislature of the State of California that tentative plans of the military departments of the Federal Government would curtail the development of defense industries in the San Francisco Bay area, would prevent the establishment of new military bases of operations there, and would cause the discontinuance of facilities of the Army, Navy, and Air Force that have been established in, and supported by, that area for many years; and

WHEREAS, Specific examples of this calculated discrimination are the reluctance of the Department of Defense to approve the projected plans of the Boeing Aircraft Company to manufacture Bomarc guided missiles at an established plant in Richmond, California, or at a new plant to be constructed in Alameda County, California, and the discontinuance of Letterman Army Hospital as a 1,500-bed facility at the Presidio of San Francisco; and

WHEREAS, Maintenance and continued development of industry in the Bay area is absolutely essential to the economic balance and well-being of California and the West; is vital in that area in view of the marked need for additional employ-

ment opportunities there; and is necessary to sustain the economic and industrial facilities that have heretofore been concentrated in that area; and

WHEREAS, The proof of the incomparable suitability of the San Francisco Bay area as a site for continuance and expansion of defense industries and military facilities is found in the long-standing policy of concentrating these industries and facilities in that area and in the expressed preference of manufacturers for locations there; and

WHEREAS, Although a stringent dispersal policy to guard against the eventuality of an enemy attack is assigned as the basis for this discrimination, it is demonstrable that, in instances in which industrial operations or military facilities were denied to that area, no consideration whatever was given to alternative sites within the area but well outside the concentration of activities that might be the target of an enemy attack; the most recent example of this practice is the failure of the Department of Defense to consider, in connection with possible sites for the Boeing plant, locations such as the Livermore Valley, which are ideally suited for the operations of defense industries, but are concealed and removed from the concentration that might constitute an enemy target; and

WHEREAS, As dispersal from that concentration for defense and military purposes is completely compatible with the dispersed industrial pattern that is evolving and will continue to develop in the general area, the needs of national defense and the requirements of that industrial community can be accommodated; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California respectfully memorializes the President of the United States and the Secretary of Defense to cause action to be taken to remove the stringent discrimination against the Greater San Francisco Bay area in the allocation and continuance of defense industries and military facilities; to insure that efforts are made to accommodate the vital requirements of that area with the demands of the dispersal policy; and to obtain reconsideration of recent decisions of the military departments which would have catastrophic effects upon the economy of the San Francisco area; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President of the United States, to the Secretary of Defense, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 92

Assembly Concurrent Resolution No. 33—Relative to the leasing of the State's tide and submerged lands for the production of oil and gas.

[Filed with Secretary of State, January 26, 1957]

WHEREAS, Various staff members of the State Lands Commission testified before the Subcommittee on Conservation and Development of Hydrocarbon Products on State Lands of the Assembly Interim Committee on Conservation, Planning, and Public Works that they are in favor of a revision in the provisions of the present law which require a flat royalty return to the State on oil and gas leases on state lands not within the known geological structure of a producing oil and gas field and to authorize instead a sliding scale royalty with respect to oil and gas leases on such lands, and have made recommendations to that effect to the State Lands Commission; and

WHEREAS, Assembly Bills Nos 36 and 47 have been introduced by Assemblyman Allen Miller, chairman of the subcommittee, and Assembly Bill No. 40 by Assemblyman Joseph Shell, one of the authors of the Cunningham-Shell Tidelands Act of 1955, which act governs the leasing for oil and gas production of the State's tide and submerged lands; and

WHEREAS, These bills relate to the production of oil and gas from state lands and reflect the recommendations of the subcommittee on this subject; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby requests the State Lands Commission not to offer any tide and submerged lands for leasing for the production of oil and gas or to grant any oil and gas leases with respect to such lands until the Legislature has completed its considerations of the pending proposals to revise the law governing this subject; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the members of the State Lands Commission and to its executive officer.

CHAPTER 93

Assembly Concurrent Resolution No. 39—Relative to adjournment of the Legislature for the constitutional recess, and to the reassembling of the Legislature after said recess, and fixing the date for said adjournment and said reassembling.

[Filed with Secretary of State, January 26, 1957]

WHEREAS, Section 2 of Article IV of the Constitution of this State requires that, after the Legislature has been in session for a period of not exceeding 30 days, a recess must be taken

by both houses for a period of not less than 30 days; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the 1957 Regular Session of the Legislature of the State of California shall adjourn for said recess at 5 o'clock p.m. on the twenty-fifth day of January, 1957, and shall reassemble at 12 o'clock m. on March 4, 1957.

CHAPTER 94

Assembly Concurrent Resolution No. 56—Relative to the appointment of the State Controller as accounting officer for the Legislature for tax and other purposes.

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, Each department of the government of this State is accountable to the Federal Government for the payment of the withheld tax which is deducted from the salaries of the officers and employees of such departments, and discharges its responsibility in this respect through its own fiscal officer; and

WHEREAS, The State Controller has customarily been designated by concurrent resolution as accounting officer of the Legislature for such purposes, and has been designated by statute to make deductions under the Legislators' Retirement Law; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Controller be and he is hereby designated as the accounting officer for the Legislature and each house thereof, and authorized to maintain accounts of amounts paid to the Members of the Legislature, attaches thereof, and attaches and employees of such committees of the Legislature as may from time to time exist for purposes of making deductions and filing returns with the Federal Government in connection with the withheld tax or any other tax that may provide for salary deductions, and for purposes of making deductions and filing returns of retirement and other deductions provided by law, and other purposes; and be it further

Resolved, That there is hereby made available from the Contingent Funds of the Assembly and Senate, equally, amounts for the purpose of defraying expenses of the Controller in carrying out the duties imposed upon him by this resolution, as determined by the Rules Committees of the Assembly and Senate; to be disbursed, after approval by the Chairman of the Rules Committee of the Assembly and the Chairman of the Rules Committee of the Senate, upon warrants drawn by the State Controller upon the State Treasurer; and be it further

Resolved, That this resolution shall become effective February 1, 1957, and shall be of no further force or effect after January 31, 1959.

WHEREAS, During Mr. Harbach's presidency and under his astute guidance, the University of California Alumni Association carried on a program of special activities directed toward the creation of an understanding on the part of the University of California's alumni and the people of the State of the crisis in higher education in the State and the impact of that crisis on the University of California, a project for which the University of California Alumni Association received the second annual alumni service award from the American Alumni Council, the highest honor that organization can bestow; now, therefore, be it

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, The first Monday in September of each year known as "Labor Day" has for many years been a state holiday under the laws of this State; and

WHEREAS, This day is deeply embedded in our traditions; and

WHEREAS, This day should be commemorated in all ways possible; and

WHEREAS, On this day the Flag of the United States and the Flag of this State should be prominently displayed upon or in front of state buildings or grounds and other buildings and grounds to the greatest extent possible; now, therefore, be it

Resolved, by the Assembly of the State of California, the Senate concurring, That the Flag of the United States and of this State shall be prominently displayed during Labor Day upon or in front of all state buildings or grounds where such flags are now required to be displayed during business hours and where state personnel are on duty on such day to raise and lower such flags; and be it further

Resolved, That such flags be also displayed on other public buildings or grounds, and on private buildings and grounds, to a like or similar extent, so far as practicable, as during the fourth day of July known as Independence Day, and the fourteenth day of June known as Flag Day.

CHAPTER 108

Assembly Concurrent Resolution No. 86—Relative to the establishment of a lunchroom for Members of the Legislature in the State Capitol Building.

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, There are at present no facilities available in the State Capitol Building in the nature of a lunchroom for the exclusive use of the Members of the Legislature; and

WHEREAS, The present lunchroom facilities on the sixth floor of the Capitol Building are established principally for the many employees of the State working in the various offices throughout the Capitol Building; and

WHEREAS, During sessions of the Legislature the present lunchroom facilities are inadequate to accommodate the great increase in patronage resulting from the presence in the State Capitol of Members of the Legislature, their employees, and the many other persons interested in the legislative business conducted, as well as a multitude of visitors; and

WHEREAS, In order that the extra time, effort, and mental and physical strain necessarily expended or incurred by Members of the Legislature in conducting legislative business be minimized, it is essential that they have available, for their exclusive use and in close proximity to their offices, lunchroom facilities separate and apart from those now available to state employees and members of the public; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Capitol Committee is directed to undertake a study of the cost and feasibility of and the availability of space for the establishment, on the sixth floor of the Capitol Building of a lunchroom for the exclusive use of the Members of the Legislature; and the committee is further directed to report to the Legislature the results of this study on or before March 10, 1957.

CHAPTER 109

Assembly Joint Resolution No. 6—Relative to prohibiting juveniles, unaccompanied by a parent or guardian, from crossing the United States-Mexico border without a permit for such purposes.

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, A bill (H. R. 5108) was introduced in the Eighty-fourth Congress of the United States by Representa-

tive Robert C. Wilson of California which would have required that a juvenile either have a proper permit issued by the United States Attorney General or be accompanied by a parent or guardian before he could cross the border into Mexico; and

WHEREAS, Representative Wilson intends to introduce a similar measure in the Eighty-fifth Congress of the United States; and

WHEREAS, Many juveniles are entering Mexico for the sole purpose of gaining easy access to illicit drugs, including heroin and marijuana; and

WHEREAS, The suppression of narcotic addiction in the United States is of no avail if our youth can obtain an unending supply of such nefarious drugs by merely crossing the border; and

WHEREAS, The alarming extent of narcotic addiction among young Americans is without doubt a paramount cause of increased juvenile delinquency and crime in this Nation and many of our youngsters who could otherwise develop into useful and worthy citizens are doomed by this evil to the horror of a living death; and

WHEREAS, Legislation to eliminate this unhealthy situation would be a major step in the protection of our Country's greatest resource—its youth—and is deserving of full congressional support; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation initiated by Congressman Wilson of California that would prohibit unescorted juveniles from crossing the United States-Mexico border; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, the Secretary of State, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 110

Assembly Joint Resolution No. 7—Relative to naming the first nuclear powered cruiser the "U. S. S. Long Beach."

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, The United States Navy now has under construction the Country's first nuclear powered cruiser, which vessel is as yet unnamed; and

WHEREAS, The City of Long Beach, though ranked among the 40 largest cities of the Nation and a traditional favorite among Navy men, as is evidenced by the record numbers of naval personnel requesting shore duty there, has never been honored by having a cruiser made its namesake; and

WHEREAS, The City of Long Beach, standing on the shores of the great harbor which has been "home" for countless ships of the United States Navy in peace and in war, today counts many Navy men and their families among her over 320,000 citizens, and in keeping with this latter fact was selected as the site for the "Mrs. U. S. Navy" contest honoring the wives of Navy men; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California wishes to join in the sentiments expressed by 150 members of Congress, and the unified voices of the chambers of commerce, service clubs, and civic organizations of Southern California, and by the over 1,000 school children of the Cities of Long Beach, San Pedro, and Wilmington who wrote essays on "Why the First Nuclear Powered Cruiser Should Be Named the 'U. S. S. Long Beach,'" in memorializing the Secretary of the Navy to so honor the Navy-Blue-and-Gold City of Long Beach by naming the first nuclear powered cruiser the "U. S. S. Long Beach"; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the Honorable Charles S. Thomas, Secretary of the Navy.

CHAPTER 111

Assembly Joint Resolution No. 9—Relative to restoration of the San Diego Veterans Administration Regional Office.

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, Prior to September, 1955, a regional office of the Veterans Administration was maintained in San Diego, California, and adequately served an area which has a heavier veteran population than any other area in the United States; and

WHEREAS, In September, 1955, this office was consolidated with the Los Angeles regional office in an endeavor to effect economies by reducing personnel and rental costs; and

WHEREAS, It was not intended, nor was it to be expected by officials of the Veterans Administration and others concerned, that the consolidation would result in any interruption, deterioration, or diminution in the services authorized by law for the veterans and their dependents in the San Diego area; and

WHEREAS, The consolidation has, because of difficulties inherent in any attempt to provide veterans' services in the San Diego area without a regional office in that city, failed to effect any such economies and has resulted in a serious curtailment of services with the inevitably attendant hardships; and

WHEREAS, With respect to the economies that it was hoped would result from the consolidation, experience has demon-

strated that costs of providing necessary services have increased rather than decreased; as examples, the cost of administering a case under the fee basis medical program has increased more than four dollars ($4) as a result of the consolidation and, while consolidation has permitted the elimination of 77 positions in the San Diego office, more than 200 positions have been required to be added to the Los Angeles office; and

WHEREAS, The deterioration in service, which has resulted notwithstanding all efforts of the officials and employees of the Veterans Administration and the explicit cooperation of the veterans, is evidenced by the fact that subsistence checks for student veterans for the fall semester had not been received by December, by the fact that veterans with service-connected disabilities have been required to travel great distances to Los Angeles for examinations, and by the fact that a backlog of over 6,000 cases in the Los Angeles office prevents any hope for the prompt processing of any case and thereby deprives the service of its very essence in many instances; and

WHEREAS, The consolidation has been given a fair trial and has, through difficulties inherent in the situation rather than through the fault or dereliction of anyone concerned, utterly failed in its objects; and

WHEREAS, It now appears that it would be far more feasible to return the San Diego office to its regional status and embrace the Counties of Orange, Riverside and Imperial within that regional area; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorialize the President and the Congress of the United States to take appropriate measures to insure that the possibility, desirability, and urgency of restoring the San Diego office to its original status be investigated and that necessary action be taken on facts the investigation will disclose; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 112

Assembly Joint Resolution No. 10—Relative to the use of storage facilities in California for federal surplus commodities.

[Filed with Secretary of State, January 26, 1957.]

WHEREAS, The U. S. Government has established the Commodity Credit Corporation as an instrument of the U. S. Department of Agriculture to administer the farm crop price

support program including storage of farm crops and produce such as cheese, butter, powdered milk, other dairy products and beans, soya beans, rice, wheat, corn and feed grains; and

WHEREAS, There is a shortage of storage facilities in many areas where farm crops and products are produced and held in surplus storage by CCC; and

WHEREAS, The shortage of storage facilities in some areas and the great quantity of commodities to be stored have caused the CCC to purchase and operate millions of dollars' worth of storage facilities and will force the purchase of still more millions of dollars' worth unless maximum use is made of privately owned facilities; and

WHEREAS, These commodities can be stored, handled and distributed more advantageously through privately owned storage facilities; and

WHEREAS, California is deficient in corn, livestock and dairy products, wheat, feedstuffs and many other commodities held in surplus storage by CCC; and

WHEREAS, Many CCC commodities in storage are susceptible to damage from high humidity and other climatic factors and California climatic and weather conditions are most favorable for successful handling, storage, and distribution of these commodities; and

WHEREAS, There is available in California an abundance of the most modern storage and port facilities suitable for the storage, handling and shipping of CCC commodities; and

WHEREAS, CCC has offered inducements to California warehousemen and elevator operators to build storage facilities including occupancy agreements; and

WHEREAS, CCC is now and has been shipping many thousands of tons of these commodities to Japan and other Eastern countries; and

WHEREAS, The storage, distribution and shipping of CCC commodities through and in California will improve her economy and increase her export trade; and

WHEREAS, California ports, both inland river and ocean shore, are equipped with the most modern and efficient terminal storage, loading and unloading facilities for terminal-to-ship and ship-to-terminal handling of cargoes; and

WHEREAS, California-based steamship and other transportation companies and port authorities need and solicit added stimulus to their economy; and

WHEREAS, Shipments destined for Pakistan, Japan and other adjacent countries enjoy a lesser ocean-going freight rate from California ports than from Eastern or Gulf ports and this rate advantage is as much as ten dollars ($10) per ton; and

WHEREAS, Further economic aid to the Middle East as proposed by President Eisenhower will greatly stimulate the movement of CCC commodities to that area; and

WHEREAS, California is a target area in case of attack by foreign enemy which entitles her to and indicates the wisdom

of having abundant amounts of all foodstuffs under control of CCC stored at strategic points within the State for the convenience, protection and preservation of her citizens; and

WHEREAS, Vast quantities of rice, dairy products, corn, wheat and other commodities held in surplus by CCC are being used in the School Lunch Program in California; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Members of Congress in the California Delegation are memorialized to urge the Secretary of Agriculture, Hon. Ezra Taft Benson, and his administrative assistants in Commodity Credit Corporation to avail themselves of all storage facilities in California which meet their health and sanitation standards and which can be used in accordance with economic feasibility practices of the CCC; and be it further

Resolved, That copies of this joint resolution be sent to each member of the California Delegation in Congress and to U. S. Senators Knowland and Kuchel and to Secretary of Agriculture Ezra Taft Benson; Jack Anderson, Agricultural Assistant to President Eisenhower; Walter Burger, Administrator of CSS; Marvin L. McLain, Assistant Secretary of the Department of Agriculture; Clarence Palmby, Director of the Division of Grain of CSS; and to Francis S. Daniels General Sales Manager of CSS.

WHEREAS, Between December 26 and December 31, 1956, the northwestern area of Los Angeles County was ravaged by a brush fire of unparalleled fury, resulting in the loss of one life and causing great distress and damage to householders of that area; and

WHEREAS, The swift and unpredictable course of the conflagration would have resulted in much greater loss of life and damage to property without the skilled and heroic efforts of the fire-fighting forces who rallied to meet the emergency; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California extends its thanks and commendation to Keith

E. Klinger, Chief Engineer, and the members of the Los Angeles County Fire Department; the city fire departments within the County of Los Angeles; the Los Angeles County Sheriff's Department; the Civilian Defense Command; the State Highway Patrol and other police agencies; the Salvation Army; the American Red Cross; members of the armed forces, and all others who engaged in the courageous and inspiring fight to curb and extinguish the fire, arousing the admiration of their fellow citizens throughout the Nation; and be it further

CHAPTER 115

Assembly Concurrent Resolution No. 95—Relative to Kern County's salute to the petroleum industry.

[Filed with Secretary of State, March 7, 1957.]

WHEREAS, Kern County will, on the second day of April, 1957, take due notice of the progress, accomplishments, and significance of the oil industry by celebrating a county-wide salute to that industry; and

WHEREAS, In its half-century of progress in Kern County and in this State, the petroleum industry has constituted one of the State's foremost and steadiest economic bulwarks; it has supplied the indispensable fuel for the American war machines that have repelled aggressors; it has contributed immeasurably and continues to sustain the strength and progress of the Free World; it represents one of the brightest pages in the unending story of the successful efforts of the free enterprises of this Nation to discover and supply products to enrich the American way of life; and

WHEREAS, The vision and ingenuity exercised by the men and women of the oil industry in expanding the range of products obtainable from oil is without parallel in the history of man's endeavor to make the resources of the earth serve his needs and desires; oil has been turned into a veritable treasure chest of new and exciting products; more than 2,300 have been discovered and the end is not in sight; as illustrative, one of the featured attractions in Kern County's celebration will be a display of clothing fashions created from oil which is designed to demonstrate the petrochemical uses of oil; more than prehistoric processes of nature lie concealed in California's oil, therein also lies a goodly portion of the wonderful products necessary for tomorrow's richer, healthier, and happier life; we can rely on the imagination and resourcefulness of the members of our oil industry to extract and develop them; and

WHEREAS, Behind the never-ending search for oil and the quest for new and better uses for it lie the great American traditions of freedom and competition; no better example than the oil industry could be found to demonstrate the proposition

than when men are left free to compete in supplying the needs of their fellows, when they are left free to challenge tomorrow in their own way, they will supply their state and Nation with boundless material wealth and the stability and strength to withstand all tribulations of the present and the uncertainties of the future; the oil industry has not only been self-sustaining in its development and progress, it has provided revenues, employment, and opportunities of such proportions that it has assumed pivotal importance in the economy and strength of this State; it is altogether proper that notice be taken of its advancement and that the contribution of its members to our well-being and progress be made a matter of record; and

WHEREAS, Kern County has particular cause to take pride in the petroleum industry; it is the leading petroleum-producing county in the world; therein lies the world's deepest oil well; one-fourth of California's total production comes from that county alone; the value, for example, of the county's output in 1955 exceeded $238,000,000 and the industry has been a mainstay in that county's economy and growth since the turn of the century when oil was discovered there; and

WHEREAS, Kern County, the Kern County Board of Trade, and the Kern County Oil Information Committee are to be commended for sponsoring a suitable and timely tribute to our brothers and sisters of the oil industry, and it is fitting and proper that the entire State join in any celebration held to pay respect and gratitude to an industry that has contributed so much to achievement of the unmatched prosperity and progress of this State; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature joins with Kern County in taking note of and recording the progress and accomplishments of the petroleum industry and takes this occasion to express its appreciation to the members of that industry for their unmeasured contribution to the development of this State and to the well-being of all of its citizens; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to forward suitably prepared copies of this resolution to the Kern County Board of Trade, Bakersfield, California, and to the Chairman, Kern County Oil Information Committee, Bakersfield, California.

CHAPTER 116

Assembly Concurrent Resolution No. 92—Relative to the death of Harry Lundeberg.

[Filed with Secretary of State, March 8, 1957.]

WHEREAS, The Members of this Legislature have learned with deep regret of the passing of Harry Lundeberg, one of the Nation's most influential labor officials; and

WHEREAS, Thanks to his vigorous efforts, the men who sail the seas do so in substantially better quarters, under vastly improved conditions, and at appreciably higher wages; and

WHEREAS, Harry Lundeberg, who was born in Norway on March 25, 1901, the son of a leader in the Norwegian Labor Party, went to sea at the age of 14 years and sailed under nine different flags before becoming a member of the Sailors Union of the Pacific; and

WHEREAS, In 1935, he was elected the business agent for the S. U. P. and later became its secretary-treasurer, thus succeeding Andrew Furuseth, the founder of the organization; and

WHEREAS, Although he had stepped into big shoes, Andrew Furuseth being remembered among seamen the world around as "the emancipator of the American seamen" and the godfather of the Seaman's Act of 1915, the task was not beyond his ability, and under his leadership the union continued to grow in power and influence; and

WHEREAS, From a handful of charter members in 1882, the order has grown steadily over the years until in 1956 it passed the mark of 1,000,000 members, which event in itself is sufficiently noteworthy of commendatory action; and

WHEREAS, Since the early date of March 29, 1882, the order has conscientiously devoted itself to, among other things, the promotion and conducting of educational, charitable, cultural, religious, social welfare, and relief activities; its honorable and distinguished record is much too lengthy for itemization here, but people all over the world and in every walk of life have felt the tremendous inspirational impact of this great organization upon our society; and

WHEREAS, Exceptional advancement has been attained by the order in its world-wide youth program, where the aim is the promotion of "juvenile decency" rather than the prevention of juvenile delinquency; also, of recent accomplishment is the Knights of Columbus Foundation for the Preservation of Historic Documents at the Vatican Library, for which a depository has been established at St. Louis University, St. Louis, Missouri; and

CHAPTER 123

Assembly Concurrent Resolution No. 89—Relative to naming of the branch of the University of California at La Jolla, California.

[Filed with Secretary of State, March 18, 1957]

WHEREAS, House Resolution No. 112 which was adopted by the Assembly on March 30, 1955, requested the Board of

Regents of the University of California to investigate the feasibility, desirability, and practicability of establishing a branch of the university in the San Diego area, either by expansion of the present institution at La Jolla or by creating a new branch; and

WHEREAS, Present plans call for location of such a branch on the campus of the university located in La Jolla; and

WHEREAS, An activity of the university, the Scripps Institution of Oceanography, has been located on the La Jolla campus for many years and has come to be known throughout the Nation as being located in La Jolla and it would, therefore, be highly desirable to maintain "La Jolla" in the name and address of the campus located there; and

WHEREAS, There are many educational activities located in the vicinity of San Diego that have "San Diego" in their name and address; examples are San Diego State College, San Diego Junior College, University of San Diego, San Diego Extension Courses of the University of California, and confusion would inevitably result from using "San Diego" in the name and address of the branch of the university to be located on the campus in La Jolla; this consideration has been of such importance that postal officials have urged, in the interest of efficiency for the university and the Postal Service, that the branch be named and addressed as "University of California, La Jolla, California"; failure to adopt this form would result in all mail being routed through San Diego with attendant rehandling and confusion with the mail of the other institutions mentioned above; and

WHEREAS, The La Jolla Town Council has officially requested that the branch have "La Jolla" in its name and address; and

WHEREAS, This request and that of the citizens of La Jolla are imminently reasonable as the branch is to be located in that community, and the existing campus has been referred to as "La Jolla campus" for many years; and

WHEREAS, The Board of Regents of the university will soon have occasion to formally adopt a name for the branch and it has been pointed out that, as House Resolution No. 112 refers to establishment of a branch of the university "at San Diego," the board may feel constrained to use San Diego rather than La Jolla in the name adopted even though the branch is located in La Jolla and not in San Diego; and

WHEREAS, House Resolution No. 112 was intended to refer to a branch in the general area of San Diego, expressly contemplated "expansion of the present institution at La Jolla," and was not intended to require adoption of an inappropriate name for the branch of the university at La Jolla; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature requests the President and the Board of Regents of the University of California to adopt the name "University of California at La Jolla" for the branch to be established there and that the site

of the branch in La Jolla be referred to as the "Campus of the University of California at La Jolla"; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President of the University of California and to the Board of Regents thereof.

Changes in Existing Law to Be Marked by Author

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency measure, and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall

concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate or the Assembly refuse to concur in the amendments, the Committee on Rules (if it be a Senate bill) or the Speaker of the Assembly (if it be an Assembly bill) shall appoint a committee of three (3) on conference and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken and request the appointment of a like committee. Two of the members comprising such committee from each house shall be selected from those voting with the majority on the point about which the difference has arisen, and the other member from each house of such committee shall be selected from the minority, in the event there is a minority vote. The first Senator named on the conference committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly and the chairman thus selected shall arrange the time and place of all meetings and prepare or direct the preparation of reports. The committee on conference shall report to both the Senate and the Assembly.

Report of Committee on Conference

29. The report of the committee on conference shall not be subject to amendment, and if either house refuse to adopt such report the conferees may be discharged and other conferees appointed; provided, however, that no more than three different conference committees shall be appointed on any one bill.

It shall require the affirmative vote of not less than two of the Senate members and two of the Assembly members constituting the committee to agree upon a report. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill.

The report of a conference committee shall be in writing, and a copy of the report shall be placed on the desk of each member of the house before it is acted upon by the house.

30. The presentation of the report of a committee on conference shall always be in order, except when a question of

order or a motion to adjourn is pending, or during roll call, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Measures

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency measure, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

CHAPTER 178

Senate Joint Resolution No. 31—Relative to residence housing at state colleges.

[Filed with Secretary of State, April 26, 1957]

WHEREAS, Bills now pending before Congress, and particularly H. R. 6659, would provide for an increase in the interest rate on federal loans for college residence housing from 2⅞ percent to 3½ percent, and would make such increase apply retroactively to applications filed after March 15, 1957; and

WHEREAS, State colleges in this State were not eligible to apply for such loans until action was taken at the current legislative session, and an application could not be filed in their behalf until April of 1957; and

WHEREAS, The financing of the state college program was developed on the basis of the availability of federal loans at a 2⅞ percent interest rate, and any increase in the interest rate on such funds would result in a substantial curtailment of an essential program for the construction of residence housing at state colleges; and

WHEREAS, The projected enrollment at state colleges for the near future anticipates a tremendous growth in the student population, making it essential that residence facilities be constructed immediately; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of this State respectfully memorializes Congress, if it desires to increase the interest

rate on federal loans for college residence housing, to make such increase effective on applications filed after May 1, 1957, to permit the state colleges in this State to secure the benefit of the existing lower rate; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit suitably prepared copies of this resolution to the Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from this State in the Federal Congress.

Senate Concurrent Resolution No. 58—Relative to the authorship of the Pledge of Allegiance to the Flag by Francis Bellamy.

[Filed with Secretary of State, April 29, 1957.]

WHEREAS, Although there has been some question as to the identity of the author of the Pledge of Allegiance to the Flag, evidence that the real author was Francis Bellamy is so overwhelming that 45 of the 48 states have enacted resolutions acknowledging him as the author; and

WHEREAS, It appears the Pledge of Allegiance first appeared in the Youths' Companion magazine in 1892, and Francis Bellamy was on the editorial staff of the magazine at the time, and that the policy of the Youths' Companion was to publish anonymously all the material written by its staff; and

WHEREAS, It was not until 1922 that the authorship of the Pledge was attributed to James P. Upham and that Francis Bellamy then made public the fact that he was the author; and

WHEREAS, There is positive evidence that Mr. Upham himself attributed the authorship to Mr. Bellamy; and

WHEREAS, Miss Margarette S. Miller has instituted an exhaustive program of search and study to establish the true authorship of the Pledge; and

WHEREAS, As a result of this program a tribunal of the country's three leading historians, Charles C. Tansill, W. Reed West and Bernard Mayo was formed; and

WHEREAS, After studying the facts, this tribunal has attributed the authorship to Francis Bellamy; and

WHEREAS, Miss Margarette S. Miller and Col. James A. Moss, President of the United States Flag Association, have turned from supporting the Upham claims to the claims of Francis Bellamy; and

WHEREAS, Harold Roberts, the only surviving member of the Youths' Companion staff of 1892, has attributed the authorship to Francis Bellamy; and

WHEREAS, Such standard references as the World Almanac, Encyclopedia Britannica, Information Please, and Bartlett's Familiar Quotations all attribute the authorship to Francis Bellamy; and

WHEREAS, In view of this evidence it is fitting and proper that California should join with the 45 other states in acknowledging Francis Bellamy as the author; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California hereby joins the great majority of the other states in acknowledging Francis Bellamy as author of the Pledge of Allegiance to the Flag; and be it further

Resolved, That the Secretary of the Senate transmit suitably prepared copies of this resolution to Miss Margarette S Miller of Portsmouth, Virginia, and to the United States Flag Association.

[Filed with Secretary of State, April 29, 1957.]

WHEREAS, On May 1, 1957, the Federal Civil Defense Administration will make effective the National Warning System (NAWAS); and

WHEREAS, Under this system the Continental Air Defense Command makes known to FCDA warning centers military conditions of "Air Defense Emergency" and "Air Defense Warning;" and

WHEREAS, FCDA Advisory Bulletin No. 211 indicates that FCDA does not intend to assume responsibility of deciding whether an air attack is "probable" or "imminent" and of directing the sounding of the appropriate "alert" or "take cover" signal ("yellow" or "red"), but intends to disseminate descriptive messages and impose the responsibility of determining the appropriate signal upon local authorities; and

WHEREAS, Such determination can be made better and more promptly at the federal level, and the proposed procedure will result in delay, lack of uniformity and confusion, and could mean that thousands of lives might be lost that would otherwise be saved; and

WHEREAS, A warning signal of "yellow" or "red," signifying "alert" or "take cover" can be disseminated more rapidly throughout the country than any descriptive message with its opportunity for being garbled every time it is repeated; now, therefore, be it

Resolved by the Assembly and Senate of the State of California jointly, That the President of the United States and the Federal Civil Defense Administration are respectfully urged to withhold this proposed action until the problem can be further studied and given more consideration; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Federal Civil Defense Administrator, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Governor of each State in the United States.

CHAPTER 186

Senate Joint Resolution No. 26—Memorializing Congress to provide for the construction of a highway from Winnemucca, Nevada, to Viewland, California.

[Filed with Secretary of State, May 3, 1957.]

WHEREAS, The State of California, civil defense agencies and United States military authorities need an adequate highway system leading easterly from the central and northern portions of the State; and

WHEREAS, The construction of a highway from the vicinity of Viewland, Lassen County, California, on U. S. Highway 395 to a point on U. S. Highway 40 near Winnemucca, Nevada, would alleviate this situation; and

WHEREAS, State Highway 36 is open the year around and is one of the lowest and most accessible passes over the Sierra Nevada mountains; and

WHEREAS, In the event of a national emergency, the present highway system would be inadequate for transportation to and from the State of California, and a serious problem would

confront the inhabitants of Northern and Central California as well as military and civil defense authorities; and

WHEREAS, The Sierra Ordnance Depot at Herlong, Lassen County, California, is a vital military installation, and most of the supplies shipped to such depot from the eastern part of the United States are transported through Salt Lake City, Utah; and

WHEREAS, The construction of this proposed highway would shorten the route into the Sierra Ordnance Depot from Salt Lake City thereby effecting a substantial savings in the money spent for transporting supplies, and also lessen the highway mileage between Salt Lake City and Northern California and Southern Oregon; and

WHEREAS, The development of Northern Nevada, Northern California, Southern and Western Oregon as a tourist and recreation area, would be enhanced by the construction of this proposed highway, by facilitating travel over U. S. Highway 395, U. S. Highway 299, State Highways 32, 36, 89, and 44, Joint Highway 14 and F H. 92; and

WHEREAS, Headquarters, Sixth Army, Presidio of San Francisco, California, and Nevada and California civil defense agencies are on record as favoring the construction of this proposed highway; now, therefore, be it

[Filed with Secretary of State, May 3, 1957.]

WHEREAS, In an era when our worker pool is growing smaller in ratio to the demands upon it, it is unfortunate that the abilities and skills of many thousands of handicapped persons are not now being utilized; and

WHEREAS, Time and again handicapped workers have proven their worth in many lines of industry and manufacturing, and have been found to do their work as well as or better than able-bodied workers, to have a much lower rate

of turnover, to have fewer lost-time accidents, and to have a very low absenteeism record; and

WHEREAS, A large pool of adequately trained physically handicapped workers would be a tremendous asset and a potent industrial force with which to meet national emergencies and disasters of any kind; and

WHEREAS, To utilize this undeveloped source of manpower, it is essential that a means be found to train handicapped persons; to provide facilities by which they may apply their skills in a constructive manner; and to open up new avenues through which such persons may earn a dignified living to the benefit of the American economy; and

WHEREAS, A plan now under development by a special committee, is calculated to bring to a realization the goals described above; and

WHEREAS, This plan is based on the cooperative effort of various industries in the formation of a nonprofit corporation, which would construct a specially designed plant to house and train physically handicapped persons who could handle many types of industrial employment; and

WHEREAS, The construction and maintenance of the plant would be financed by long-term loans from these same industries, which in return would become lessors of footage in the plant; and

WHEREAS, After a period of time the loans would be repaid out of returns from output, and surplus funds thereafter accumulated would be used for further work and development of the organization; and

WHEREAS, Members of the committee engaged in the development of this outstanding plan are: Randolph Hearst of Hearst Publications; Gilbert W. Lindsay, deputy to Mr. Kenneth Hahn, Supervisor of Los Angeles County; Sanford Sill, attorney-at-law; Robert Doyle, representing the physically handicapped; Donald Davis, architect; Thomas A. CHAPTER 208

Senate Concurrent Resolution No. 64—Relative to designation of California Highway One.

[Filed with Secretary of State, May 17, 1957]

WHEREAS, The Cabrillo Civic Clubs of California, an organization of 16 clubs in 16 counties of our State, representing a membership of over 2,600, have as one of their objectives the honoring of John Rodrigues Cabrillo who discovered California on September 28, 1542; and

WHEREAS, The course followed by Cabrillo along the California coast parallels the route of Highway One and runs from San Diego north through Port San Luis, Morro Bay, Estero Bay, San Simeon, and Monterey, to San Francisco; and

WHEREAS, One of California's great assets is our attractiveness as a tourist state, where people come to view and enjoy our beaches, parks, scenery and landmarks of historical interest; and

WHEREAS, John Rodrigues Cabrillo's role in our history is a significant one and his journey along our coast would have romantic appeal to vacationers as well as to our own citizens, thus bringing economic as well as cultural benefit to our State; and

WHEREAS, A name such as the "Cabrillo" stimulates more interest than a numeral designation alone would create, and would lend itself more effectively to tourist advertising because of the colorful way in which our present attractions could be offered in an historical setting; and

WHEREAS, The name "Cabrillo" is more easily remembered by tourists because of its uniqueness as compared with the common number designation which most highways in our Nation carry; and

WHEREAS, The Cabrillo Civic Clubs' interest in the adding of the name "Cabrillo" is based on the belief that in California, as in America, we would be reminded that our greatness, our vitality, and our resourcefulness stems from hardy, courageous, pioneer stock like John Rodrigues Cabrillo, who possessed the vision to explore new horizons, thus giving us today the heritage of which we are so genuinely proud; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the name of Highway One and future additions thereto is hereby expanded to include the name "Cabrillo" and the Department of Public Works is requested to use this designation on appropriate signs placed at intervals along the highway; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to each of the Cabrillo Civic Clubs of California and to the Director of Public Works.

Senate Concurrent Resolution No. 78—Relating to road signs and markings on State Highway Route 11.

[Filed with Secretary of State, May 17, 1957.]

WHEREAS, Since the erection of existing signs on State Highway Route 11 the development and population center of Rancho Cordova has become a major destination for traffic on that route; and

WHEREAS, Existing signs, by not indicating the distance and direction to Rancho Cordova, are not adequate to meet the needs of a large portion of the traffic traversing that route; and

WHEREAS, References in existing signs to Mills are of little value to travelers as other areas on the route have become larger business and population centers and such references, because of that fact, are now misleading; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Director of Public Works is requested to cause all signs and markings on State Highway Route 11 now containing the name "Mills" to be changed to refer to "Rancho Cordova," to erect a sign on the south side of that route, at Perkins, designating the number of miles to Rancho Cordova, to erect a similar sign on the north side of that route at the intersection of that route and the county road to Folsom, and to erect an appropriate sign on both sides of that route at Rancho Cordova; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit a copy of this resolution to the Director of Public Works.

CHAPTER 211

Assembly Joint Resolution No. 16—Relative to the relationship between Federal and State Governments.

[Filed with Secretary of State, May 20, 1957]

WHEREAS, Recent decisions of the United States Supreme Court have indicated that the permissible area of state activity in certain fields has materially narrowed and the power of the Federal Government has been materially increased at the expense of state governments; and

WHEREAS, It has been held by the Supreme Court that a state law requiring a permit for the construction of a hydroelectric plant on a non-navigable stream need not be complied with inasmuch as the waters involved were on "reserved lands" of the Federal Government and that the Federal Government had the power to regulate the use of waters on all such lands; and

WHEREAS, Prior to this decision the view widely prevailed that all non-navigable waters a part of the public domain were subject to the plenary control of the states, with no dis-

tinction as to whether the waters were on reserved lands or on lands subject to private acquisition and disposal under public land laws; and

WHEREAS, When it is considered that over 46 percent of all land in this State is owned by the Federal Government, any interpretation of this Supreme Court decision to the effect that state laws regulating the appropriation and use of waters are inapplicable to waters on or originating on federal lands would result in a serious disruption in the orderly development and utilization of the waters in this State by state and local agencies, and a substantially similar situation exists in most of the other western states; and

WHEREAS, The Supreme Court has also recently held that no compensation need be paid, in federal condemnation proceedings along a navigable stream, for that portion of the value attributable to the riparian nature of the land, on the ground that the land was held subject to the dominant navigational servitude of the Federal Government; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation similar to the "Western Water Rights Settlement Act of 1957" proposed in the current session of Congress by Senator Barrett of Wyoming, for the exclusive purpose of removing all doubts as to the validity of existing water rights acquired under state laws, and to provide that the future acquisition of unappropriated waters in each state, navigable and non-navigable, must be in compliance with state laws; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 212

Assembly Joint Resolution No. 26—Relative to a congressional investigation of the poultry production industry.

[Filed with Secretary of State, May 20, 1957]

WHEREAS, The poultry industry is a most important segment of California's agricultural economy; and

WHEREAS, A long period of depressed prices has created serious problems for the poultry producers in the State of California; and

WHEREAS, The natural advantage of proximity to California's important and expanding consumer markets appears to be vitiated by reason of shipment into the State of poultry from areas with lower health and inspection standards than are required of poultry producers in the State of California; and

WHEREAS, Congressional action may well be required to solve this vexing problem and preserve the California poultry industry from destructive inequalities; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to conduct such investigations as may be necessary to develop a program of legislation to insure equitable conditions for production of poultry throughout the Nation; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 213

Assembly Concurrent Resolution No. 129—Relative to recognition of California state meat inspection.

[Filed with Secretary of State, May 20, 1957]

WHEREAS, The State of California has recognized through the enactment of the California Meat Inspection Act the principle that meat inspection is a public health measure for the protection of consumers to be paid for by the State; and

WHEREAS, The act requires that the state service be equivalent to the meat inspection service given by the United States Department of Agriculture and that regulations promulgated by the State Director of Agriculture be identical with those promulgated by the Secretary of Agriculture under authority granted to him by the Federal Meat Inspection Act of 1906; and

WHEREAS, In spite of the identical nature of the service given, meat plants under California meat inspection are prohibited from shipping their products in interstate commerce, from export and from supplying federal agencies and the armed forces and further such plants are prohibited from selling and shipping to other plants in their immediate area that are under the Federal Meat Inspection Service; and

WHEREAS, Such a situation is manifestly unjust for the California state inspected plant and works an unnecessary hardship on such plants to the extent that they are hard pressed to remain in business; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature inquire if the Secretary of Agriculture is empowered to recognize the California State Meat Inspection Service and to certify plants under this service for interstate commerce, for export trade and for sales to federal agencies and the armed forces of the United States; and be it further

Resolved, That if the Secretary of Agriculture has been invested with this authority under the meat inspection laws, he permit meat from California inspected plants to carry the legend "California Inspected and Passed, U. S. Approved," to enable such plants to participate in commerce from which they have heretofore been barred; and be it further

Resolved, That if the Secretary of Agriculture has no authorization to take such action, the Legislature memorialize Congress to amend the Federal Meat Inspection Act of 1906 to correct these inequities.

CHAPTER 214

Assembly Concurrent Resolution No. 147—Memorializing Charles A. Ginnever.

[Filed with Secretary of State, May 20, 1957.]

WHEREAS, The Legislature has learned with sadness of the death of Charles A Ginnever, Treasurer of the City of San Mateo for almost 34 years; and

WHEREAS, Mr. Ginnever, a resident of San Mateo for 41 years, had been active in city affairs for almost a half century and was one of the city's best known and respected public officials; and

WHEREAS, He has been widely recognized for his leadership and major contributions in promoting San Mateo Post 82 of the American Legion, of which he had been a past post commander; and

WHEREAS, During World War II he gave freely of his time and energy to administering the Legion dormitory at the civic center, and extending a helping hand to scores of young G. I's on their way to the Pacific war theater; and

WHEREAS, During his many years of conscientious faithful service as an officer of the City of San Mateo, he watched it grow from a small town of 5,000 to a large progressive and modern city, proud to have had a share in its growth and development; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members express their profound sorrow at the passing of Charles A. Ginnever, and extend their sincere sympathies to his bereaved family and host of friends; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to his widow, Mrs. Helen Ginnever, his daughter, Miss Carole Ginnever, his son, Charles Ginnever, Jr., and his sister, Mrs. Cora Pollock.

CHAPTER 215

Assembly Concurrent Resolution No. 149—Relative to congratulating the George Washington High School in San Francisco and the principal thereof.

[Filed with Secretary of State, May 20, 1957.]

WHEREAS, It has come to the attention of the Legislature that George Washington High School in San Francisco was recently presented the Award of Merit Scholarship Certificate for the fifth successive year; and

WHEREAS, The Award of Merit Scholarship Certificate is awarded annually by the University of California to the accredited high school whose graduates have achieved the highest collective grade point average in their first semester at the university; and

WHEREAS, Dr. Robert Gordon Sproul, President of the University of California, in personally presenting the award called George Washington High School "the best academic high school in the State" and said "George Washington is truly a school of distinction"; and

Schmaelzle, the faculty, and the graduates at the University of California for this outstanding scholastic achievement; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit illuminated copies of this resolution to the George Washington High School in San Francisco and to Mr. Otto I. Schmaelzle.

CHAPTER 216

Senate Joint Resolution No. 18—Relative to the granting of statehood to Hawaii and Alaska.

[Filed with Secretary of State, May 21, 1957.]

WHEREAS, The San Francisco Bay area and the State of California derive from, and share with, the Territories of Alaska and Hawaii great economic and commercial advantages; and

WHEREAS, The peoples of the Territories of Alaska and Hawaii have expressed their desire through constitutional processes to join the brotherhood of the United States; and

WHEREAS, Their future is an integral part of the economy, defense and general welfare of the United States; and

WHEREAS, The peoples of the Territories of Alaska and Hawaii have long since fulfilled all the requirements for statehood; now, therefore, be it

WHEREAS, Dr. Edward F. [Filed with Secretary of State, May 29, 1957]

WHEREAS, There have been frequent floods on the Feather River and the Yuba River in the State of California which have caused great loss of life and wide destruction of property and river control works; and

WHEREAS, During the great flood of December, 1955, damage of seventy-five million dollars ($75,000,000) occurred, much of which was attributable to damage caused by the waters of the Yuba River; and

WHEREAS, The report of the State Water Resources Board indicates that a flood control dam and reservoirs situated on the Yuba River at Park's Bar in Yuba County, costing approximately twenty-one million dollars ($21,000,000), will provide approximately 200,000 acre-feet of active storage, which will substantially reduce the flow of such flood waters at Marysville and Yuba City; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of Cali-

fornia respectfully memorializes the President and the Congress of the United States to direct the United States Army Corps of Engineers to take such steps as may be necessary to insure the construction of the Park's Bar Dam or dams at suitable alternative sites on the Yuba River at the earliest possible date in order to prevent further loss of life and destruction of property; and be it further

[Filed with Secretary of State, May 29, 1957]

WHEREAS, California Sign Route 1 traversing the Counties of Humboldt, Mendocino, Sonoma and Marin, and also the Golden Gate Bridge and the City and County of San Francisco, is known as "The Shoreline Highway", and

WHEREAS, Those counties adopted the name "Shoreline Highway" for Sign Route 1 over a quarter of a century ago and since that time, through the Redwood Empire Association, an official nonprofit organization serving such counties, have expended funds to nationally publicize and advertise the Shoreline Highway and the counties it serves; and

WHEREAS, This publicizing of the Shoreline Highway and other attractions in the nine Redwood Empire counties, which in addition to the above-mentioned counties includes Napa, Lake and Del Norte Counties in California, and Josephine

County, Oregon, has been and is benefiting all parts of California; and

WHEREAS, Motorists thus attracted from other states to California spend substantial sums in the State of California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That Sign Route 1 between and including San Francisco and Ferndale and Fernbridge in Humboldt County is hereby designated the "Shoreline Highway" and the Department of Public Works is requested to use this designation on appropriate signs placed at intervals along said highway; and be it further

CHAPTER 240

Senate Concurrent Resolution No. 107—Relative to location of State Highway Route 212.

[Filed with Secretary of State, May 29, 1957.]

WHEREAS, In 1947 the Legislature added Route 212 to the State Highway System and provided that "Route 212 is from the Nevada-California state line in the southern portion of Pahrump Valley to Route 23, near Freeman"; and

WHEREAS, Although that route has been a part of the State Highway System for 10 years and a suitable highway traversing that route is one of the most urgently needed projects in the system, construction of a highway from the vicinity of Westend in San Bernardino County to the vicinity of Jubilee Pass in Inyo County, near the eastern boundary of the Death Valley National Monument, has not yet been undertaken; and

WHEREAS, The tentative location of the highway to be constructed on this route traverses lands utilized by the United States Navy as a gunnery range, and the Department of the Navy will not permit the construction of highways through those lands, and this obstacle to construction on the proposed location will postpone indefinitely completion of the route; and

WHEREAS, An alternative location to that proposed is available and will not entail any appreciable increase in the length of highways which must be constructed to complete State Highway Route 212; and

WHEREAS, This location of the highway lies to the immediate north of the Mojave Gunnery Range utilized by the United States Navy, rather than traversing the range as does the presently proposed location, and it is favored by the military authorities; and

WHEREAS, Numerous citizens, civic organizations and business leaders favor the adoption of the alternative location; among such organizations are the Bakersfield Chamber of Commerce, the Las Vegas Chamber of Commerce, and the Cross Country Highway Association; and

WHEREAS, Immediate selection of an alternative location is essential to accommodation of traffic that would normally pass through the southern portion of the Death Valley National Monument; completion of the highway on the alternative location would be of great benefit to the numerous military installations in the vicinity; and the route, if completed on the alternative location, would provide one of the shortest routes between the Nevada state line and the coast in this area of the State; and

WHEREAS, There is every indication that the alternative location is entirely feasible and is not less desirable than the proposed location which has become impossible of use; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Public Works be hereby requested to begin a study and survey relative to locating the highway necessary to complete the mentioned portion of State Highway Route 212 to the immediate north of, and parallel to, the Inyo-San Bernardino County boundary and beginning in the vicinity of Valley Wells, following Goler Valley, and intersecting the presently proposed location of Route 212 in the Death Valley National Monument; and be it further

Resolved, That the Department of Public Works shall report the results of its study to the Legislature at its regular session in 1958; and be it further

Resolved, That the Secretary of the Senate be hereby instructed to transmit copies of this resolution to the Director of Public Works.

CHAPTER 241

Senate Concurrent Resolution No. 116—Commending the County of Los Angeles for undertaking basic research in the development of electronic vote-tallying equipment.

[Filed with Secretary of State, May 29, 1957]

WHEREAS, California's constantly increasing population requires that new and more efficient methods be developed for the conduct of both state and local elections; and

WHEREAS, The County of Los Angeles has requested bids for the performance of the necessary research to develop an elec-

tronic vote-tallying device, and that 17 bids have been received from outstanding electronic and electo-data research organizations throughout the United States; and

WHEREAS, The development of an electronic vote-tallying device will make possible the central tallying of ballots and with appropriate legislative safeguards will substantially reduce the work load of precinct boards and increase the accuracy of election returns and the speed with which they can be ascertained; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature recognizes the advantages to be gained from the application of recent advances made in the electronic data processing field to the election process and hereby commends the County of Los Angeles for undertaking basic research work in this important field and urges it to continue with its proposed research program; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the Board of Supervisors of the County of Los Angeles and to Ben Hite, Registrar of Voters, County of Los Angeles.

CHAPTER 242

Senate Joint Resolution No. 22—Relative to the interest rate on veterans' home loans.

[Filed with Secretary of State, May 31, 1957.]

WHEREAS, There are presently being considered before the Congress of the United States proposals which would, if adopted, result in an increase in the interest rate on veterans' home loans from 4½ percent to 5 percent; and

WHEREAS, Such an increase in the interest rate could well place a new home out of the reach of veterans with an average income; and

WHEREAS, It would, unquestionably, accelerate the present decline in the building industry and, with the resultant increase in unemployment, could conceivably prove disastrous to the national economy; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States, in the interests of both the veterans and the Nation as a whole, to reject all proposals to increase the interest rate on veterans' home loans; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 243

Assembly Joint Resolution No 36—Relative to changing the method of computing the basic pay for members of the armed forces.

[Filed with Secretary of State, May 31, 1957.]

WHEREAS, There is now pending before the Congress of the United States legislation, including S. 2014 and H. R. 7574, which would change the method of computing the basic pay for members of the armed forces; and

WHEREAS, The military establishment is desperately in need of a means for attracting and retaining persons with scientific, professional, combat leadership, and management skills necessary to maintain a deterrent power during these times of advancing technology and threat of aggression; and

WHEREAS, The armed forces do not presently have the means to enter into competition for trained personnel urgently needed for the defense of this Country, and a significant factor in their inability to do so is the inadequacy of the present compensation practices now in use; and

WHEREAS, The proposed changes in the military pay structure are based on merit rather than longevity, will bring military pay more in line with the pay standards of industry, will offer first termers greater re-enlistment incentive, and will relate pay more closely to the actual contribution of the individual in the service; and

WHLREAS, The change in pay structure, such as that proposed in S. 2014 and H. R. 7574, has the support of the Strategic Air Command and the 15th Air Force, as well as many other military leaders and organizations; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to take favorable action to revise the existing pay structure now in use in the armed forces along the lines proposed in S. 2014 and H. R. 7574; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from this State in the Congress of the United States.

CHAPTER 249

Senate Joint Resolution No. 17—Relative to criminal jurisdiction by foreign governments over United States members of armed forces and their civilian components.

[Filed with Secretary of State, June 3, 1957.]

WHEREAS, The members of our armed forces serving abroad, their civilian components and the dependents of each, are now subject to the criminal jurisdiction of more than 50 countries in which they may be on duty, by reason of the NATO Status of Forces Treaty, the administrative agreement with Japan, and executive agreements with other nations; and

WHEREAS, These agreements penalize our servicemen for foreign service by depriving them of many of the rights granted by our Constitution, which they are sworn to defend; and

WHEREAS, It is impossible for any serviceman accused of transgression in a foreign country to receive a fair and impartial trial because of the varying systems of jurisprudence which make it impossible for him to receive the protection of all of the rights and guarantees which our Constitution gives to every citizen, and because of the prejudice and animosity sometimes existing against our men; and

WHEREAS, Legislation has been introduced in both the Senate and the House of Representatives of the United States to direct the President to seek a modification of all such agreements so that the United States may regain exclusive jurisdiction over the members of its armed forces for all purposes, or if such a modification is refused, then to terminate or denounce the agreements according to the terms of each; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the members of this body deplore the arrangements now existing which make service in our armed forces abroad a hazard by depriving our servicemen, their civilian components and dependents of each, of the rights and guarantees of our Constitution when they are stationed in other lands; and be it further

Resolved, That we respectfully urge the Congress of the United States to immediately enact the legislation now pending or similar legislation which will secure a modification or denunciation of the provisions of the NATO Status of Forces Treaty and all other agreements which surrender to foreign nations criminal jurisdiction over our servicemen; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 250

Senate Concurrent Resolution No. 90—Relative to state highways.

[Filed with Secretary of State, June 3, 1957]

WHEREAS, The Legislature of California finds:

(a) The California Highway Commission has operated since 1948 according to a written resolution setting forth its policies in the adoption of highway routes and hearings with respect thereto;

(b) This policy resolution has been revised and, it would appear, improved from time to time, suggesting the need for continued flexibility of procedures;

(c) The currently effective policy resolution of the Highway Commission, dated February 18, 1955, is published in the Senate Daily Journal of April 4, 1957 and in the Assembly Daily Journal of April 5, 1957;

(d) It appears that strict adherence to the policy now in effect affords opportunity for hearings and protections to the public in the matter of route adoptions and freeway locations;

(e) The Federal-Aid Highway Act of 1956 also requires hearings on all federal-aid highway projects passing through or by-passing any city, town, or village, whether incorporated or not, thus reassuring that hearings will be held and certain protections afforded to the public; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That:

1. The California Highway Commission is commended for the written policy resolution on route adoptions which it has developed over recent years;

2. The California Highway Commission is urgently requested to make no change in its policy which would in any way reduce the requirements for public hearings or other protections afforded to the public in the matter of route adoptions and freeway locations;

3. The California Highway Commission is urged, by all means at its disposal, to make more widely known to the public the nature of its policies on route adoptions and to give public notice well in advance of all hearings on freeway problems;

4. The State Highway Engineer is urged to take all necessary steps to assure that every public hearing held by him or by his representatives will be conducted impartially and without prejudice to adverse testimony. To this end consideration should be given to assure that an impartial referee conduct hearings involving major controversy; said hearings to be held in the area in which the project is located;

5. The California Highway Commission is requested to transmit to the Secretary of the Senate and the Chief Clerk of the Assembly at the commencement of each annual session of the

Legislature for publication in the respective journals of the two houses:

(a) Its currently effective policy resolution on route adoptions;

(b) An explanation of any changes made in such policy during the year;

(c) A report on the number of public hearings held by the State Highway Engineer or his representatives during the year, and a resume of the results of the hearings;

(d) A report on the number of public hearings held by the commission on route adoptions and a summary of the results;

(e) Such other information as the commission deems will fully inform the Legislature of progress in route adoptions and freeway locations and the nature and extent of public controversies over the same.

WHEREAS, Those persons employed prior to 1951 desire to be equally trained and such training is mutually advantageous to the patient, the public, and the state mental health program; and

WHEREAS, The California State Employees' Association has established by poll of all employees in the psychiatric technician series of classes, that they want training and they desire the State Legislature to assist them in this regard; now, therefore, be it

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Mental Hygiene and the Department of Finance.

different areas for purposes of both hunting and fishing; and

WHEREAS, The boundaries of these areas, being based on principles of proper fish and game management, often do not correspond with easily discernible landmarks, such as roads, trails, streams, mountain ridges or other familiar guiding lines, and frequently follow the boundary lines of the counties which although they have been so used for many years are still in many places extremely difficult if not impossible for the average hunter or fisherman to follow; and

WHEREAS, The purpose of dividing the State into such areas is not to trap the unwary or penalize sportsmen for honest attempts to conform to the law but who by inadvertence cross artificial unmarked boundary lines; and

WHEREAS, Properly identified boundaries would give the sportsmen the necessary notice of closed and open areas and would greatly aid the law enforcement officers in patrolling such areas; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the commission and the Department of Fish and Game are hereby requested to use easily recognizable geographical, highway, stream or other natural boundaries to designate fish and game districts or areas wherever sportsmen are likely to violate boundaries through mistake; and to use every practical means of informing sportsmen where boundaries are not easily recognizable; and be it further

WHEREAS, Bob Brady has always been a distinct credit to his community and this State and is most deserving of the honors attendant to the winning of the national amateur handball championship; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That Mr. Joseph Robert Brady is sincerely congratulated for having won the national amateur handball championship; and be it further

CHAPTER 264

Senate Joint Resolution No. 28—Memorializing Congress to enact H. R. 5538, relative to the withdrawal of public lands for defense purposes.

[Filed with Secretary of State, June 7, 1957.]

WHEREAS, The increasing amount of federal public lands which are being withdrawn from settlement, location, sale or entry, for the use of the Department of Defense or reserved for such use, is having serious adverse effects in those areas of the State in which a large percentage of the total area is under federal ownership; and

WHEREAS, Such withdrawals and reservations involve lands in which there are currently being developed rich deposits of many strategic minerals, vital to our defense, which will be

lost to the Nation if the lands are withdrawn or reserved for the use of the Department of Defense; and

WHEREAS, Such withdrawals and reservations have further adverse effects on the areas within which they are located by cutting off access roads, by taking more lands off the tax rolls of the counties in which they are located, and by increasing unemployment due to the cessation of mining activities on such lands; and

WHEREAS, There is now pending before the Congress of the United States House Resolution 5538 which would provide that further withdrawals, reservations, or restrictions of more than 5,000 acres of public lands of the United States for use by the Department of Defense must first be approved by act of Congress; and

WHEREAS, The enactment of this measure would assist in alleviating the serious problems being caused by such withdrawals and reservations; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of this State respectfully memorializes the Congress of the United States to enact H. R. 5538; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 265

Assembly Concurrent Resolution No. 111—Relative to requesting the Regents of the University of California to study the feasibility of establishing a campus of the university in the Santa Clara Valley.

[Filed with Secretary of State, June 10, 1957]

WHEREAS, It has become apparent from enrollment projections prepared by the State Department of Finance and from estimates made by other agencies, including the Joint Staff for the Liaison Committee of the State Board of Education and the Regents of the University of California (the report of which was recently submitted to the Legislature), that unprecedented increases in enrollment should be expected shortly by the University of California; and

WHEREAS, The establishment of new university campuses appears to be the most equitable method of meeting the evident need for additional university facilities, by locating such facilities nearer to new major sources of students; and

WHEREAS, The Joint Staff Report above mentioned contains a section analyzing the enrollment potential for the University of California in the South Central California Coast section, which includes the Counties of San Mateo, Santa Clara, Santa Cruz, San Benito, and Monterey, and reflecting a probable

enrollment in a university campus serving that area, if established, of 11,900 students by 1970; and

WHEREAS, Said Joint Staff Report states further regarding the South Central California Coast section as follows: The center of this section is sufficiently distant from the university campus in Berkeley that a university campus located near it would be serving an area where its services would not be immediately conflicting with those of the Berkeley campus. The center also is near enough to the well-populated and fast-growing San Francisco-San Mateo Peninsula and the San Jose circle to have a metropolitan area enrollment potential and yet be sufficiently close to the Berkeley campus to relieve some of the enrollment pressure on that institution. A university campus centrally located in this region would readily serve the Monterey Bay area, which will likely become an increasingly important population and cultural center; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Regents of the University of California are requested to have suitable studies made of the feasibility and appropriateness of establishing a new campus of the university in the area suggested in the above quotation, including estimates of the cost involved and recommendations to the Legislature thereon, such recommendations to be presented at the convening of the next regular session of the Legislature in 1958; and be it further

Resolved, That a copy of this resolution be transmitted to the Regents of the University of California.

CHAPTER 266

Assembly Concurrent Resolution No. 152—Relative to study of law of grand juries by California Law Revision Commission.

[Filed with Secretary of State, June 10, 1957.]

WHEREAS, Section 10335 of the Government Code provides that the approval of the Legislature, by concurrent resolution, is required by the California Law Revision Commission to undertake and carry forward studies; and

WHEREAS, It has come to the attention of the Legislature that a study of the feasibility of codifying and clarifying all provisions of law and other legal aspects relating to grand juries into one title, part, division, or chapter of one code is desirable; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Law Revision Commission is authorized and directed to consider and study the feasibility of codifying and clarifying, without making substantive change, all provisions of law and other legal aspects relating to grand juries into one title, part, division or chapter of one code, and to report to the Legislature its findings.

CHAPTER 267

Assembly Concurrent Resolution No. 159—Relative to relocating the Redwood Highway.

[Filed with Secretary of State, June 10, 1957.]

WHEREAS, The present Redwood Highway, Humboldt County, Route 1, Sections C and D, extending from approximately one-half mile south of Myers Flat to one mile south of Dyerville, is insufficient to carry the heavy traffic which travels over it daily; and

WHEREAS, Such highway is extremely winding and is not designed for rapid through traffic, but is designed for sightseeing traffic which visits the area; and

WHEREAS, A relocated highway designed to carry through traffic has been under consideration by the Department of Public Works for some time; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby recognizes the vital importance of relocating the Redwood Highway, Humboldt County, Route 1, Sections C and D, as soon as feasible; and requests the California Highway Commission to provide for the timely construction of such relocated highway, bearing in mind the needs of other state highway construction in the State; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send a copy of this resolution to the California Highway Commission and Department of Public Works.

CHAPTER 268

Assembly Concurrent Resolution No. 173—Relative to merit awards to state employees.

[Filed with Secretary of State, June 10, 1957.]

WHEREAS, Section 13926 of the Government Code provides awards may be made to state employees in excess of one hundred fifty dollars ($150) when such awards are approved by concurrent resolution of the Legislature; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Gale G. Sphon, Highway Traffic Signal Technician, Division of Highways, for a suggestion that effects an annual saving of three thousand nine hundred four dollars ($3,904) by recommending, developing and building a phase checker which is a simple electrical device used for checking the condition and continuity of detector pads used at signalized highway intersections; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to E. Patrick Shannon, Police Officer, Board of State Harbor Commissioners, for a suggestion that

resulted in a net increase of traffic revenues of seven thousand seven hundred fifty dollars ($7,750) from June 1, 1955, to May 31, 1956, through his proposal for the issuance of monthly parking permits to waterfront employees for meter stalls and bulkhead wharves on the San Francisco Embarcadero; and

WHEREAS, The maximum award of one hundred fifty dollars ($150) was divided equally between Dorothy Wilson and Esther Schaber, Senior Clerks, Department of Employment, for a suggestion that results in an annual saving of three thousand six hundred two dollars ($3,602) which related to the elimination of extra employers' names on record checks as it was found that only the name of one of the employers on the last available quarter was necessary; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Josephine Massman, Intermediate Stenographer-Clerk, State Compensation Insurance Fund, for a suggestion that resulted in annual savings of three thousand three hundred twenty dollars ($3,320) which savings resulted through a suggestion to discontinue the making of individual folders for employer accounts under $500 premiums as well as the elimination of certain district files; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Robert B. Whisenhunt, Office Equipment Repair Leadman, Department of Finance, for an annual saving of five thousand sixty-four dollars ($5,064) for his suggestion to integrate the maintenance of state-owned adding machines in the same shop where maintenance of state-owned typewriters was provided. It was previously the practice to contract this maintenance out; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to LaRene J. Curo, Senior Legal Stenographer, Department of Public Works, for a suggestion that results in an annual saving of one thousand nine hundred thirty dollars ($1,930) through the combining of two legal forms into one entitled "Affidavit for Order, and Order Fixing Security and Permitting Plaintiff to Take Immediate Possession"; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Violet Bergman, Intermediate Account Clerk, Franchise Tax Board, for a suggestion that results in annual savings of ten thousand eight hundred ninety-two dollars ($10,892) for recommending the use of interest computation charts to be used in computing interest on delinquent income tax returns and on jeopardy assessments rather than leaving the interest to be figured by the taxpayers. Approximately 4,221 additional revenue items have been realized as well as the elimination of setting up delinquent accounts and a billing and collection procedure; and

WHEREAS, An award of one hundred fifty dollars ($150) has already been made to Gladys M. Burrows, Supervising Account Clerk II, Board of Equalization, for a suggestion that has earned the State of California additional interest of eighty-

eight thousand one hundred ninety-one dollars ($88,191) by following her suggestion which assisted in implementing the then new state investment program of the State Treasurer's Office, the Pooled Money Investment Fund, by depositing on the date of receipt, checks from accounts known as consolidated accounts and other large accounts and identified as such by the mailing envelopes. These accounts, averaging 300 to 400 per day, represent approximately one-third of the total sales tax collection for any one period It was previously the practice for the Board of Equalization to withhold the checks for deposit until the returns had been processed through the tabulating machine section. This, because of the volume of small and large returns, and because of the necessity of making proper distribution of the 1 percent additional sales tax collected under the Bradley-Burns Act, required from five to eight days in the processing Mrs Burrows' proposal is to immediately withdraw the checks of these larger taxpaying accounts, list them separately by account number and amount for control purposes, and deposit these checks on the date of receipt. At current interest rates a million dollars ($1,000,000) will earn in excess of eighty dollars ($80) per day. However, the savings here have been averaged out on the basis of sixty-seven dollars and eighty cents ($67 80) per day for each million dollars ($1.000,000); now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the following additional awards are hereby authorized, subject to the approval of the State Board of Control, to the employees named:

Gale G. Sphon, two hundred forty dollars ($240);

E. Patrick Shannon, six hundred twenty-five dollars ($625);

Esther Schaber, sixty-six dollars ($66);

Dorothy Wilson, sixty-six dollars ($66);

Josephine Massman, one hundred eighty-two dollars ($182);

Robert B. Whisenhunt, three hundred fifty-six dollars ($356);

LaRene J Curo, forty-three dollars ($43);

Violet Bergman, nine hundred thirty-nine dollars ($939);

Gladys M. Burrows, two thousand nine hundred thirty-six dollars ($2,936); and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the State Board of Control and the State Controller.

sor shall have been elected and qualified; except that in the event such vacancy occurs prior to the first day fixed by law for the initial procedure required to be taken to become a candidate for nomination for the office at the next succeeding primary nominating election held for any elective city office, the person so appointed shall hold office until the election and qualification of a person to fill the vacancy for the unexpired term elected at such primary nominating election or the following general municipal election, if nominated but not elected at the primary nominating election. The procedure for the nomination of candidates and their election to fill such vacancy for the unexpired term and the qualifications therefor shall be the same in all respects as that provided with regard to the nomination of candidates and their election to the office and the qualifications therefor.

In the event of a vacancy in the office of Member of the Board of Education said Board shall fill the same by appointment. In case the person who receives the highest number of votes shall fail to qualify within ten (10) days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law.

If the person so elected does qualify within such ten-day period, he shall, upon qualifying, immediately assume office.

No person shall be eligible for any such appointment unless he shall possess the same residential qualifications as are required for nomination or election to such office. Any person so appointed to fill a vacancy in an elective office may be removed from office by the recall in the same manner as if he shall have been elected to said office.

PROPOSED CHARTER AMENDMENT NO. 7

Section 98 and 99 of the Charter of the City of Los Angeles are amended to read:

Office of Zoning Administration

Sec. 98. There is hereby created the office of Zoning Administration. The functions and duties of this office shall be performed by one or more Zoning Administrators as authorized by the Council, who shall be appointed by the Director of Planning subject to the civil service provisions of this charter. If more than one Zoning Administrator is authorized, a position of Chief Zoning Administrator shall be established, the appointment to which shall be made by the Director of Planning and such others shall be Associate Zoning Administrators.

The Zoning Administrator, if he has held such position for six (6) months previous to the time this section becomes effective, shall continue in the position of Zoning Administrator hereunder, and if he further holds such office at such time as the position of Chief Zoning Administrator is established shall be deemed to have the qualifications for and shall be and become the Chief Zoning Administrator.

Powers and duties

Subject to such rules and regulations as the Council may prescribe by ordinance, the Chief Zoning Administrator and Associate Zoning Administrators shall have the following powers and duties:

(1) To investigate and make a determination upon appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by the Department of Building and Safety in the enforcement or administration of the provisions of any ordinance adopted by the Council creating zoning districts or regulating the use of property in the city.

(2) To investigate and make a determination upon all applications for variances from any of the regulations and requirements of the zoning ordinances. Before granting an application for a variance, a Zoning Administrator must find:

(a) That the strict application of the zoning regulations or requirements would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of the regulations;

(b) That there are exceptional circumstances or conditions applicable to the property involved or to the intended use or development of the property that do not apply generally to other property in the same zone or neighborhood;

(c) That the granting of a variance will not be materially detrimental to the public welfare or injurious to property or improvements in such zone or neighborhood in which the property is located; and

(d) That the granting of a variance will not be contrary to the objectives of the master plan.

In granting a variance a Zoning Administrator may impose such conditions as are necessary to protect the public health,

safety or welfare, and to assure compliance with the objectives of the master plan, in accordance with the purpose and intent of the zoning ordinance.

No written finding shall be required in granting variances authorizing slight modifications in individual cases from area requirements of the zoning regulations. Written findings shall be made in conjunction with all other determinations of a Zoning Administrator and all such cases may be appealed to the Board of Zoning Appeals.

A Zoning Administrator shall make his decision on any matter under his jurisdiction as expeditiously as is possible. If no determination is made within forty (40) days from the date the matter is filed, the applicant may request the Board of Zoning Appeals for a transfer of jurisdiction to said Board and for a determination of the original application, in which case the Board of Zoning Appeals shall assume jurisdiction and the Zoning Administrator shall lose jurisdiction. The Board of Zoning Appeals shall consider the matter in the same manner as provided for the consideration of appeals.

Upon making a determination upon any matter under his jurisdiction, a Zoning Administrator shall forthwith place a copy of his findings and determination on file in the City Planning Department and furnish a copy of the determination to the applicant, the Board of Building and Safety Commissioners and the Director of Planning. Such determination shall be final, except that an appeal may be taken as hereinafter provided. No variance granted by a Zoning Administrator, other than a slight modification from area requirements, shall become effective until the expiration of an elapsed period after mailing notice, which period shall be specified by ordinance. During this period an appeal from the determination of a Zoning Administrator may be taken to the Board of Zoning Appeals by any person aggrieved, or by an officer, board, department or bureau of the city, as provided in this chapter. An appeal shall stay all proceedings in furtherance of the action appealed from pending its determination.

Board of Zoning Appeals Powers

Sec. 99. The Board of Zoning Appeals shall have and exercise the following powers:

(a) To hear and determine appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by a Zoning Administrator in the enforcement of the provisions of any ordinance adopted by the Council creating zoning districts or regulating the use of property in the city, either initially or in the determination of an appeal as provided for in Section 98 of this charter.

(b) To hear and determine appeals from the rulings, decisions and determinations of a Zoning Administrator granting or denying applications for variances from any rule,

regulation, restriction or requirement of the zoning ordinances, or any section thereof.

Upon the hearing of such appeals said Board may affirm, change or modify the ruling, decision or determination appealed from, or, in lieu thereof, make such other or additional determination as it shall deem proper in the premises, subject to the same limitations as are placed upon the Zoning Administrators by this charter.

We further certify that we have compared the text of the foregoing amendments with the original proposals submitting the same to the electors of said City and find that the foregoing are full, true, correct, complete and exact copies thereof, and of each of them. That as to all of said amendments, this certificate shall be taken as a full and complete certification of the regularity of all proceedings had and done in connection therewith.

IN WITNESS WHEREOF, We have hereunto set our hands and have caused the corporate seal of The City of Los Angeles to be affixed hereto this 5th day of June, 1957.

WHEREAS, When blasted in congested or inhabited areas, sonic booms inconvenience and disturb the repose of many of the persons in such areas; and

WHEREAS, It is recognized that sonic booms occur in the tactical operations practiced by the armed forces, but operational training in the type of maneuvers in which sonic booms occur is generally not necessary over densely inhabited areas and performance of such should be restricted to uninhabited areas; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Secretary of Defense of the United States to consider action that will prevent the occurrence of sonic booms in inhabited areas; and be it further

CHAPTER 276

Assembly Joint Resolution No. 32—Relative to the Navy jet base in Lemoore.

[Filed with Secretary of State, June 10, 1957.]

WHEREAS, The United States Government has already appropriated ten million dollars ($10,000,000) to buy land and draw plans for a proposed Navy jet base at Lemoore, California; and

WHEREAS, The location of this base, because of its extensive size and remoteness from densely populated areas, is eminently suitable for its use as an airfield for modern aircraft; and

WHEREAS, It is ideal from a defense standpoint due to its proximity to the coast, yet its vulnerability to enemy attack is lessened by the range of mountains separating it from the ocean; and

CHAPTER 280

Senate Joint Resolution No 36—Relative to pollution of San Francisco Bay.

[Filed with Secretary of State, June 10, 1957.]

WHEREAS, Historically San Francisco Bay was world-renowned for its San Francisco Bay shrimp, oysters, and other marine delicacies, but presently these delicacies are becoming extinct since their breeding grounds are being destroyed by pollution from jettisoned oil, chemicals, and other foreign material so that the shore lines of San Mateo, Alameda, San Francisco, Marin, Santa Clara, Contra Costa, Solano and

Napa Counties are almost devoid of their previously plentiful population of crabs, shrimp, and oysters; and

WHEREAS, The oil, chemicals, and other foreign substances in the waters of San Francisco Bay are destroying the recreational value of the bay and the surrounding beaches to the detriment of the health and welfare of the citizens of the area and of the whole State; and

WHEREAS, Present fines for violation of existing laws prohibiting such pollution are, in relation to the cost of otherwise disposing of such material, extremely minor and such pollution is not properly publicized so as to carry with it the public opprobrium deserving such wasteful practices; and

WHEREAS, The United States Coast Guard could greatly alleviate this deplorable situation by more adequate policing; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the United States Coast Guard is respectfully requested to immediately increase its efforts to prevent pollution of the San Francisco Bay area by any means but particularly by any person, firm or corporation who may be violating existing prohibitions by dumping oil, bilge, and other chemicals into the waters of the bay; and be it further

Resolved, That the Congress of the United States is respectfully requested to investigate and take the necessary steps to insure that the penalties for violation of federal statutes and regulations in relation to the cost of other means of disposal are great enough to prevent pollution of the waters of San Francisco Bay; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the Vice President of the United States and to the Speaker of the United States House of Representatives, to each Member of Congress representing the State of California, and to the Governor of the State of California.

[Filed with Secretary of State, June 10, 1957.]

WHEREAS, The State by appropriating four hundred fifty thousand dollars ($450,000) in the Budget Act of 1956 to commence a state-wide roadside rest program in connection with the State Highway System has recognized the necessity for and the value of a state-wide roadside rest system in California; and

WHEREAS, Such a system would permit the traveling public to stop and rest along the traveled way and relieve driver fatigue and thus reduce the hazards of highway travel; and

WHEREAS, The Legislature understands that the present Federal Highway Program includes provision for safety turnouts and rest areas in connection with the interstate highway system, with a required contribution of only 10 percent from the State; and

WHEREAS, Other states are taking full advantage of this program to provide this much needed facility for the benefit and safety of the highway user; and

WHEREAS, Funds are presently available which could be used to finance the State's 10 percent share of the costs for such safety turnouts and rest areas; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Division of Highways of the Department of Public Works is hereby urged and requested to include an adequate and well distributed number of rest areas in the current interstate highway system, and to participate in the federal program in this regard; and be it further

WHEREAS, The Department of Water Resources in October, 1956, published a report entitled "Economic Impact of the Construction of Oroville Dam and Power Plant Upon the Oroville Area," which report shows that direct construction pay rolls for the Oroville Dam will amount to about one hundred fifteen million dollars ($115,000,000) in the Oroville area, that total population increase will amount to about 16,000, that the nature of the city and county government revenue structure is such that augmented expenses for educa-

tion, police, fire, sewer and other local governmental services will exceed the augmented revenues, and that the Department of Water Resources believes that consideration must be given to devising ways and means of coping with these problems; and

WHEREAS, The Bureau of Public Administration, University of California, in a report dated March, 1957, and entitled "State Construction Projects and Local Governmental Services," concludes that the Federal Government now maintains regular programs, as outlined in the report, for assisting communities affected by similar federal projects; and

WHEREAS, The Legislature desires that state construction of water resources projects should not impose unreasonable and unwarranted burdens upon the units of local government and the local citizens of the project area, which burdens are beyond any local benefits from the construction of the project; and

WHEREAS, The reports referred to above show the general nature, scope and intensity of the problem, but no information is available to the Legislature on the precise needs of local government in the impact area of the dams mentioned in this resolution and the exact types, purposes, and amounts of assistance the State might render; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Finance, with the assistance of such other state agencies as may be appropriate, be directed to investigate the problem outlined in the above reports in order to determine the exact types, purposes and amounts of state aid which the Legislature should provide the impact area of dams mentioned in this resolution and to submit to the Budget Session of the Legislature such budget provisions as will solve this problem and establish a desirable precedent for future projects to be constructed by the State.

WHEREAS, The oil, chemicals, and other foreign substances in the waters of San Francisco Bay are destroying the recreational value of the bay and the surrounding beaches to the

detriment of the health and welfare of the citizens of the area and of the whole State; and

WHEREAS, Present fines for violation of existing laws prohibiting such pollution are, in relation to the cost of otherwise disposing of such material, extremely minor and such pollution is not properly publicized so as to carry with it the public opprobrium deserving such wasteful practices; and

[Filed with Secretary of State, June 12, 1957]

WHEREAS, Route 238, as added to the State Highway System by Chapter 26, Statutes of 1957, extends from a point on Route 4 south of Bakersfield to a point on Route 7 near Woodland, on a route along the westerly side of the San Joaquin Valley and is to be a major north-to-south arterial highway; and

WHEREAS, The traffic congestion and hazards on that portion of United States Highway 99 lying south of Grapevine are well known; and

WHEREAS, Any possible diversion of traffic on that portion of United States Highway 99 would be highly desirable in order to relieve traffic congestion and hazards to travel; and

WHEREAS, United States Highway 399 from Maricopa southerly to Ventura via Ojai, as that highway now exists, is a circuitous route and is of narrow width; and

WHEREAS, United States Highway 399, if rerouted and extended in width, would provide a diversion for traffic westerly and southerly from State Highway Route No. 238 and would thus provide an alternate route to Southern California; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby requests the Department of Public Works and the California Highway Commission to cause a detailed survey to be made for the relocation and widening of United States Highway 399, in order that that highway and its relocation join with State Highway Route No. 238 at a suitable point northwesterly from Grapevine, and extend southerly to a junction

with United States Highway 101 in the vicinity of Ventura; and be it further

Resolved, That the Secretary of the Senate be hereby directed to forward copies of this resolution to the Director of Public Works and to the Chairman, California Highway Commission.

WHEREAS, The Yuba and Bear Rivers have contributed to serious flood damage and loss of life on the Sacramento Valley floor and in the Sacramento-San Joaquin Delta; and

WHEREAS, In addition to urgently needed flood control, the waters of these rivers are susceptible to full and comprehensive development for irrigation, domestic and municipal water supply, hydroelectric power, fish and wild life enhancement, recreation and other beneficial purposes; and

WHEREAS, Preliminary studies for The California Water Plan have indicated that a full investigation of the feasibility of the several projects, or modifications thereof, required to achieve such flood control and other beneficial purposes is desirable and urgently needed; and

WHEREAS, The Department of Water Resources has scheduled such a feasibility investigation under the California Water Development Program; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Water Resources is requested to expedite the aforesaid feasibility investigation and the formulation of plans for the full development of the Yuba and Bear Rivers under the aforesaid California Water Development Program.

CHAPTER 297

Senate Joint Resolution No. 29—Relative to memorializing the Congress of the United States in relation to surplus food warehousing and the civil defense program.

[Filed with Secretary of State, June 12, 1957.]

WHEREAS, Civil defense planning contemplates the evacuation of urban areas in the event of an enemy attack; and

WHEREAS, Food and other basic supplies necessary to maintain the population of the State are for the most part stored within these urban target areas which will be evacuated and abandoned in the event of an enemy attack, leaving the population of the State, which would become refugee population,

without adequate food and other supplies necessary to maintain life; and

WHEREAS, The Federal Government has on hand and in storage large quantities of surplus stocks of basic foods and other essentials, and there is before Congress a measure providing for the stockpiling of these surplus foods at strategic locations throughout the Country and there is also before Congress the proposal that basic foods and other essentials be stockpiled in connection with the national civil defense program; and

WHEREAS, California's sister State of Nevada by Assembly Joint Resolution No. 4 adopted by the 1957 Nevada Legislature calls upon the Federal Government to take notice of this inadequacy in the national civil defense program; now, therefore, be it

Resolved, by the Senate and Assembly of the State of California, jointly, That the Congress of the United States be urged to take notice of this present inadequacy of the civil defense program of California and to take positive action to provide for the stockpiling of surplus foods and other essentials of life in strategic locations within the State of California and such other strategic locations as may be found desirable and essential to a well-rounded civil defense program, so that in the event of an enemy attack the refugees of the urban and target areas will be provided with adequate basic foods and other supplies as would be necessary to maintain the public health and safety; and be it further

Resolved, That the Congress of the United States be urged to direct the Commodity Credit Corporation and other federal agencies holding in storage surplus foods and supplies to store in strategic places in California these essentials in order that they may be available in the event they would be needed in the civil defense program; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the chairman and members of the appropriate congressional committees which will consider legislation relating to surplus foods, the warehousing of such surplus commodities, and civil defense planning, and to each member of the California Congressional Delegation.

CHAPTER 298

Senate Joint Resolution No. 37—Relative to memorializing the United States Government to control the import of dried figs and fig paste to the extent necessary to protect adequately the American fig producing industry located in California.

[Filed with Secretary of State, June 12, 1957.]

WHEREAS, American fig production is located practically entirely in the central portion of the San Joaquin Valley of California; and

WHEREAS, Such production is an important and significant part of the agricultural economy of California and of the United States; and

WHEREAS, This American fig production under the control of a federal marketing order currently runs less than 80 percent of American fig consumption; and

WHEREAS, However, for the past three or four years an increasing share of this American market has been obtained by foreign figs imported from Portugal, Greece, and Turkey which are produced by peasant families operating at a labor cost against which American producers cannot compete; and

WHEREAS, These increasing imports of foreign figs have driven down the price received by American fig producers to the lowest level since the years immediately prior to World War II; and

WHEREAS, A substantial portion of American fig production under the aforementioned federal marketing order is being diverted to noncompetitive and low value uses to the economic disadvantage of the American fig producers; and

WHEREAS, This decreasing share of the American market, these declining prices, and this disadvantageous diversion of much of the American fig production to noncompetitive and low value uses threaten the American fig industry with extinction in the not too distant future; and

WHEREAS, Last August the United States Secretary of Agriculture officially recognized the catastrophic plight of the American fig producing industry and requested the President of the United States to direct the United States Tariff Commission, under appropriate federal legislation, to investigate whether or not imports of dried figs and fig paste should not be restricted; and

WHEREAS, Last October the President of the United States directed the Tariff Commission to make such investigation; and

WHEREAS, However, after an investigation and hearing the Tariff Commission last December strangely reported that no import restrictions upon figs were warranted; and

WHEREAS, Under these conditions fig producers in California will be forced into other lines of agriculture and thereby tend to destroy the delicate balance of supply and demand in those lines; and

WHEREAS, Furthermore, much of California's specialized agricultural production, such as the almond, walnut, olive, and date crops, depend on the retention by those crops of a fair share of the American market and could therefore be similarly injured if this policy of nonrestriction of foreign imports is followed with respect to them; and

WHEREAS, Therefore, the State of California cannot afford to see its fig production industry destroyed by unrestricted and unfair foreign competition, not only because of the destruction of the fig production industry but also because of the harmful precedent set for and unstabilizing influence re-

sulting to the many other import-vulnerable crops of the State of California; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to take steps with all due haste, under the Agricultural Adjustment Act or otherwise, to place such limitations upon the importation of dried figs and fig paste as will restore order to the domestic fig producing industry; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States, to the Secretary of Agriculture, and to the Chairman of the United States Tariff Commission.

CHAPTER 299

Senate Joint Resolution No. 38—Relative to the land use program for the Lower Colorado River.

[Filed with Secretary of State, June 12, 1957.]

WHEREAS, The Parker Dam County Recreation District has been created in San Bernardino County comprising in its entirety land owned by the United States; and

WHEREAS, The United States Department of the Interior has under consideration at the present time numerous proposals which would affect the use of the land along the Colorado River below Parker Dam; and

WHEREAS, Such proposals would, in their present form, adversely affect the administration of said lands by the Parker Dam County Recreation District; and

WHEREAS, Said district is authorized under the laws of this State to lease or otherwise acquire control of all or any of the land in the district from the United States upon such terms as may be mutually agreed upon by the trustees of the district and the United States, and to, in turn, rent or sublease any of such land to any person for any purpose, recreational or otherwise, not inconsistent with the terms of the lease or other agreement under which the district holds the land under the United States; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States and the United States Department of the Interior, to give consideration to leasing or giving control to the Parker Dam County Recreation District the lands located within the boundaries of said district and that the department be requested to take no action with respect to land use which will affect the operation of said district; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, the Secretary of the Interior, the Speaker of the House of Representatives, and each Senator and Representative from California in the Congress of the United States.

CHAPTER 300

Senate Concurrent Resolution No. 109—Relative to the investigation of the Mokelumne, Stanislaus, and Calaveras River watersheds.

[Filed with Secretary of State, June 12, 1957]

WHEREAS, The Department of Water Resources has commenced an investigation of the potentialities for the development of the Mokelumne, Stanislaus, and Calaveras River watersheds; and

WHEREAS, The City of Stockton and other water-using areas in the valley lands within these watersheds are seriously overdrawing ground water while other such valley areas have insufficient water for continued development; and

WHEREAS, A comprehensive plan for the conservation and utilization of water in the mountainous and foothill area in these watersheds is essential to insure their full development; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Water Resources is requested to expedite the current investigation of the water resources of the Mokelumne, Stanislaus, and Calaveras River watersheds, and the formulation of plans for single or multipurpose projects for the development thereof under The California Water Plan, including consideration of the proposed Folsom South Canal, for the major purpose of developing water to serve the foothill and mountainous areas within said watersheds and valley lands adjacent thereto, including the City of Stockton.

CHAPTER 301

Senate Concurrent Resolution No. 131—Relative to the Devore Cutoff joining U. S. Highways 99 and 395.

[Filed with Secretary of State, June 12, 1957]

WHEREAS, An immense volume of traffic, especially heavy truck traffic serving the greater Los Angeles metropolitan area, flows through the Cities of Fontana and San Bernardino as a result of the junction in that vicinity of traffic from U. S. Highways 395, 99, and 66; and

WHEREAS, The route of U S. Highway 395 and the junction of that highway with U. S. Highway 99 are such that through

traffic movement between the Los Angeles metropolitan area and Cajon Pass is forced to follow a triangular path through the Cities of Fontana and San Bernardino; as a result, traffic leaves U. S. Highway 99, works its way northward over various county roads and Fontana city streets, and moves through the so-called Devore Cutoff to enter U. S. Highway 395 (see Index No. 26-m, Report on the Proposed Additions to the State Highway System, Division of Highways, April, 1955); and

WHEREAS, The so-called Devore Cutoff, as considered in the mentioned report and as proposed by Assembly Bill No. 3168 and Senate Bill No. 2406, 1957 Regular Session, traverses a route now followed by county highways; and

WHEREAS, A state highway on that route is generally acceptable to the people of the west end of San Bernardino County; and

WHEREAS, As eventual construction of a cutoff along the approximate route of the Devore Cutoff would appear to be inevitable, people and local officials in the area are anxious to lay plans for the future by bringing county roads up to state standards, by appropriate zoning, by purchasing rights of way, by providing for grade separations, and by adapting utility installations; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the California Highway Commission and the Department of Public Works be hereby requested to, insofar as practicable, advise the County of San Bernardino as to any preference said commission and department might have for the location of the said Devore Cutoff if and when said additional mileage is included in the State Highway System by the Legislature. This information is desired by said County of San Bernardino for the purpose of future planning, location of utilities, acceptance of dedication of rights of way, location of prospective industries, schools, residential subdivisions, municipal incorporation, annexations and to satisfy other pressing and important local considerations; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the Director of Public Works.

[Filed with Secretary of State, June 13, 1957.]

WHEREAS, Winter travel has also increased because of installation of new and improved ski facilities at the Sulphur Works area which in the first two months of this year had 7,352 visitors as compared with 3,202 for the same period in 1956; and

WHEREAS, The main access to the southern entrance to Lassen Park, and the only entrance to the ski area in winter is over State Highway Route 83, from the junction from State Highway Route 29 to the park entrance; and

CHAPTER 305

Assembly Joint Resolution No. 34—Relative to federal support of air pollution control activities.

[Filed with Secretary of State, June 13, 1957.]

WHEREAS, Air pollution continues to be a serious problem throughout California with areas affected by air pollution in the past continuing to increase in size and definite evidence of air pollution in new areas; and

WHEREAS, Although local air pollution control districts in the State of California, the United States Public Health Service, the State Department of Public Health, universities throughout the State, and a number of private nongovernmental agencies have been and are now engaged in air pollution studies and research, many basic questions as to some

of the causes and some of the components of air pollution, effective methods of control, and the extent of the health hazard created by air pollution remain unanswered; and

WHEREAS, The Congress of the United States has recognized that the grave air pollution problem existing in this Country is one of federal concern and, in 1955, enacted a five-year, 25-million-dollar potential federal air pollution program to provide technical service and financial aid to state and local agencies in their air pollution programs (Act of July 14, 1955; Public Law 159, Eighty-fourth Congress; 69 Stat. 322); and

WHEREAS, The act recites that it is the policy of the Congress to preserve and protect the primary responsibilities and rights of the state and local governments in controlling air pollution, to support and aid technical research to devise and develop methods of abating such pollution, and to provide federal technical services and financial aid to state and local government air pollution control agencies and other public and private agencies and institutions in the formulation and execution of their air pollution abatement research programs; and

WHEREAS, The moneys appropriated for this program since its inception have not yet approached the amounts authorized to be appropriated; and

WHEREAS, The Legislature of California, cognizant of the seriousness and magnitude of the problem and the need for additional and coordinated research to permit evaluation of the inter-relationships among the causes, the distribution, dispersion, and effects of air pollution, has furnished specific funds in the past, and in this 1957 Regular Session is engaged in developing a program to expand and coordinate the air pollution research activities throughout the State of California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to appropriate the full amounts authorized by Public Law 159, Eighty-fourth Congress, in order to provide to state and local agencies the technical services and financial aid which are essential to eventual abatement of the air pollution menace; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 306

Assembly Concurrent Resolution No. 132—Relative to state highways.

[Filed with Secretary of State, June 13, 1957]

WHEREAS, The Legislature of California finds:

(a) In the last 10 years more than seven million dollars ($7,000,000) have been spent in planting on state highways, but this amounts to only six-tenths of 1 percent of total state highway construction expenditures of the same period; however, maintenance of this planting has cost more than eight million dollars ($8,000,000) in 10 years, and the annual cost is now approaching one million five hundred thousand dollars ($1,500,000) a year;

(b) Past policy of the Highway Commission has been directed purposely toward channeling a maximum amount of available funds into the construction of highway mileage that will provide immediate benefits to the traveling public;

(c) The Division of Highways under present policy undertakes two classes of construction work generally under the classification of planting, as follows:

i. Roadside development and control, which is constructed for the purpose of traffic control, economies of maintenance, or other engineering requirements. Within this class is included that work which may be required for erosion control, traffic safety, fire control, or traffic noise abatement;

ii. Landscaping, which is for the purpose of enhancing or preserving the aesthetic values of the highway and its immediate environs;

(d) Under present policy functional planting for roadside development and control is being done on a minimum basis consistent with actual requirements. Planting for landscaping is being done on freeways on a minimum basis, and almost exclusively in built-up or highly developed areas;

(e) Expenditures for landscaping and for design that enhances the attractiveness of highways are legitimate highway purposes for which the motor traveling public may properly be expected to pay;

(f) The appearance of freeways and other highways, and their design and landscaping in keeping with the immediate surroundings, especially in metropolitan areas, are major factors in their acceptance by the public in the affected communities;

(g) California's freeway development program can be greatly accelerated in the years ahead, largely as a result of the Federal-aid Highway Act of 1956, but such acceleration will depend in great measure on increased public acceptance which will be encouraged by attractive design and appropriate landscaping of freeways; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, As follows:

1. The California Highway Commission and the State Highway Engineer are commended for their past policies of economy in the matter of planting and landscaping;

2. In view of the expanded freeway development program now getting under way, the State Highway Commission is urged from this time on to give full consideration to functional planting and highway beautification in the formulation of its annual budgets for freeway construction and maintenance and local jurisdictions are encouraged to participate and cooperate in this program;

3. The State Highway Engineer is urged from this time on to give more attention to enhancement of the appearance of highways (particularly in metropolitan areas), not only by means of landscaping but also in the original design of structures and roadways. Wherever economically feasible under California's climatic conditions, consideration should be given to incorporation of parklike development in highway design;

4. The Department of Public Works is urged to portray at the earliest possible time in public hearings or on other appropriate occasions the nature of each proposed freeway design by means of artists' drawings or other visual aids in order to better inform the public as to the appearance of the freeway and its effect on the community;

5. It is the purpose of this resolution to inform the Highway Commission, the Department of Public Works, the State Highway Engineer, and the public generally, that the Legislature intends that a moderate increase in landscaping and other aspects of attractive design appropriate to conditions in this State be regarded as integral features of California's freeway program.

CHAPTER 307

Assembly Concurrent Resolution No 172—Relative to the San Diego Freeway.

[Filed with Secretary of State, June 13, 1957]

WHEREAS, The San Diego Freeway (State Highway Route 158) is a part of the State Highway System, running from Route 4 near San Fernando to Route 2 in the vicinity of El Toro; and

WHEREAS, The portion of the San Diego Freeway from near Culver City to Route 2 near El Toro has not yet been constructed even though citizens in the area through which the freeway would pass are paying millions of dollars each year in motor vehicle fuel taxes and other highway user taxes which are required to be expended for street and highway purposes, and

WHEREAS, The San Diego Freeway would provide an important link between Northern and Southern California, by providing a route from the upper San Fernando Valley to below metropolitan Los Angeles which would not necessitate traversing the downtown area of Los Angeles and existing highways and freeways already greatly overcrowded; and

WHEREAS, The immediate construction of the entire San Diego Freeway would benefit not only local traffic in the area concerned but also through traffic between Northern and Southern California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Highway Commission be requested to allocate funds at the earliest possible time, giving due consideration to all other needed state highway work, for the commencement of construction of the portion of the San Diego Freeway not now constructed; and be it further

Resolved, That the Chief Clerk of the Assembly be instructed to transmit a copy of this resolution to the chairman of the California Highway Commission.

CHAPTER 308

Assembly Concurrent Resolution No. 186—Relative to naming the site of the 1960 Winter Olympic Games, when included as part of the State Park System, the Snowshoe Thompson State Park.

[Filed with Secretary of State, June 13, 1957]

WHEREAS, The exploits of John A. "Snowshoe" Thompson during the early years of the development of this State have made him a legendary figure in California history; and

WHEREAS, "Snowshoe" Thompson gained fame through his amazing exploits in maintaining a personal mail express across the mighty Sierra Nevada Mountains during the winter months when passage for animals and vehicles over the regular roads was impossible, and frequently traversed the mountains from points in the Sacramento Valley to Carson Valley on the eastern slope of the Sierra in less than four days; and

WHEREAS, "Snowshoe" Thompson's mail express consisted of his personal treks over the mountains carrying the mails on his shoulders and involved physical stamina and courage of the most extraordinary kind, and necessitated the personal conquest of the mightiest of mountain ranges when enveloped in the most violent of storms and blizzards; and

WHEREAS, This remarkable man employed in his trips a crude form of skis to make the perilous trips and was, in all likelihood, the first person in California to use these devices which have now become so common in use for recreation in this day when man is no longer confronted with the task of

combating the violence of the elements of nature for survival itself; and

WHEREAS, The meager records available indicate that this giant in the history of the State of California received little, if any, official recognition or material reward for his fabulous exploits in behalf of the early pioneer settlers of California; and

WHEREAS, It is fitting that the memory of those who by their self-sacrifice, deed, and example contributed so markedly to the development of the State and Nation be perpetuated, and because a site in the California Sierra Nevada Mountains, which John A. "Snowshoe" Thompson so heroically conquered in those early days, has been selected for the site of the 1960 Winter Olympic Games, and because it seems particularly appropriate to perpetuate the memory of one of California's outstanding historic figures by associating his name with these events; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the site of the 1960 Winter Olympic Games, when it becomes a part of the State Park System, be named the Snowshoe Thompson State Park in Squaw Valley, California, and that action be undertaken to erect appropriate monuments to commemorate the achievements of John A. Thompson at the site; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to prepare suitable copies of this resolution to be sent to the State Park Commission and the Division of Beaches and Parks.

CHAPTER 309

Assembly Concurrent Resolution No. 190—Relative to State Highway Route 57 in the vicinity of Vaquero Reservoir.

[Filed with Secretary of State, June 13, 1957.]

WHEREAS, The United States Bureau of Reclamation has included as part of its project plans in connection with Vaquero Reservoir on the Cuyama River the realignment and reconstruction work required on the portion of State Highway Route 57 in the vicinity of said reservoir in San Luis Obispo and Santa Barbara Counties; and

WHEREAS, The cost of such work, if done by the Bureau of Reclamation, will be charged to the users of water made available by the federal project; and

WHEREAS, Said highway would probably be relocated within a few years by the Division of Highways of the Department of Public Works regardless of whether or not Vaquero Dam was constructed; and

WHEREAS, It is highly problematical as to whether said dam would result in flooding the existing highway prior to the time that it would be reconstructed in the normal course of

the highway program, and in any event such flooding would in all probability be of short duration; and

WHEREAS, There is pending before the current session of the Legislature legislation which would permit such temporary flooding of said highway without requiring its immediate reconstruction; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Highway Commission and the Department of Public Works be requested to include the realignment and reconstruction project on said State Highway Route 57 in the earliest possible state highway budget, giving due consideration to this project in comparison with other necessary state highway work, and further, to make the necessary arrangements to permit the temporary flooding of said highway in accordance with the legislation now pending; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit a copy of this resolution to the Director of Public Works.

CHAPTER 310

WHEREAS, Mr. Wobber is a native of California, born in the City of San Francisco, where he went to school and began his business career selling newspapers at Third and Market Streets; and

WHEREAS, He went to Alaska in 1897, during the great gold rush, where he remained for 10 years becoming manager of one of the Alaska Commercial Company's largest stations; and

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to Mr. Herman Wobber.

CHAPTER 314

Senate Concurrent Resolution No. 83—Relative to a proposed state highway from Ventura to the vicinity of Taft or Maricopa.

[Filed with Secretary of State, June 14, 1957]

WHEREAS, All population and motor vehicular highway travel projections now show a marked continued increase for the State of California; and

WHEREAS, The greater proportion of this greatly increased highway travel will be into, through, and out of the San Joaquin Valley; and

WHEREAS, The State of California and the Federal Government have shown their realization of this continued tremendous increase in highway demand and usage into, through and out of the San Joaquin Valley by their proposed North-South Super Highway No. 238, which is to extend from a point on Route 4 south of Bakersfield to a point on Route 7 near Woodland, and traverse the westerly side of the San Joaquin Valley; and

WHEREAS, Said proposed Super Highway No. 238 will continue to funnel all this greatly increased highway north-south travel into metropolitan Los Angeles, the great coastal and port areas of San Diego, Long Beach, San Pedro through the present Ridge Route, thereby adding to the southland's congested highway problems; and

WHEREAS, These great coastal and port areas of San Diego, San Pedro, and Long Beach will continue to grow and increase their business volume and daily port tonnage at an ever accelerated pace; and

WHEREAS, A great percentage of this increased business volume will result in a daily increase in business intercourse with all areas of the San Joaquin Valley as well as the great Cities of Oakland, Stockton and our State's Capitol at Sacramento; and

WHEREAS, It is now apparent that a second major highway in and out of the south San Joaquin Valley is urgently needed to help alleviate the growing highway travel problems as indicated; and

WHEREAS, Such a second major highway starting in the south in the vicinity of Ventura and thence through the mountains to the north, generally along the route of U. S. 399, where it would join the Route 238 in the vicinity of Taft or Maricopa, would not only materially assist these southern port areas in reaching all points in the San Joaquin Valley, but would also save crisscross traffic through metropolitan Los Angeles, help alleviate civil defense problems, offer a high speed second inlet-outlet to the Los Angeles area in the event of any acts of God, adverse weather conditions, any disaster or national emergency or state of war; and

WHEREAS, To be of the greatest possible value to the State of California and its people, Highways 238 and 399 should be constructed simultaneously; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Public Works is requested to make, as soon as it is reasonably possible to do so, a survey of the feasibility of constructing a second major state highway from the San Joaquin Valley to the south coastal port areas, joining proposed Route 238 at a point in the vicinity of Taft or Maricopa to the north and terminating at a point on Highway 101 near Ventura; and be it further

Resolved, That the Secretary of the Senate be directed to transmit a copy of this resolution to Mr. Frank B. Durkee, Director of Public Works.

CHAPTER 315

Senate Concurrent Resolution No. 124—Relative to the tenth anniversary of the founding of the Labor-Management School of the University of San Francisco.

[Filed with Secretary of State, June 14, 1957.]

WHEREAS, Over the past half century, the intricacies of the business of producing and supplying the needs and desires of the world have increased to a degree such as to stagger the imagination of man's mind; and

WHEREAS, Experience acquired in the process of producing and supplying these needs and desires has led to the realization that there is necessary a high degree of cooperation between the two groups of persons whose names have become synonymous with the process, namely, management and labor; and

WHEREAS, It has become apparent that the full realization of the potential of the industries of America and of California require an industrial peace and harmony that can be acquired only through a well-founded and mutual understanding of the problems of management and labor; and

WHEREAS, Through the efforts of far-sighted men foreseeing the need for this high degree of cooperation, and realizing that a failure to achieve such union would result in industrial and economic chaos, there was established 10 years ago this fall, at the University of San Francisco, a labor-management school; and

WHEREAS, Rev. Andrew C. Boss, S.J., during the past seven years has been in charge of this school, which is conducted as a public service and dedicated to improving the relationship between management and labor, through education, devotion and justice; and

WHEREAS, Those persons who have availed themselves of the services of this school are now representing their respective groups at the conference tables of industrial negotiations, and,

because of the knowledge and experience acquired through the attendance at the Labor-Management School of the University of San Francisco, are contributing their efforts, learning and devotion towards attaining industrial peace in the State of California and the San Francisco Bay area; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of California does hereby express its deep appreciation to Rev. Andrew C. Boss, S.J., for his devoted and able administration, and to the University of San Francisco and the Labor-Management School for the public service it is rendering, its congratulations on the anniversary of the tenth year of the performance of this service, and its hope for continued success and achievement; and be it further

Resolved, That the Secretary of the Senate be directed to transmit prepared copies of this resolution to University President Rev. John F. X. Connolly, S.J, and Rev. Andrew C. Boss, S.J.

CHAPTER 316

Senate Concurrent Resolution No. 128—Relative to grazing concessions on the Anza Desert, Cuyamaca Rancho, and Palomar State Parks.

[Filed with Secretary of State, June 14, 1957]

WHEREAS, The Joint Legislative Committee on Agricultural and Livestock Problems undertook a study of the question of grazing concessions in the Anza Desert, Cuyamaca Rancho, and Palomar State Parks; and

WHEREAS, The joint committee secured the services of Professor B. A. Madson, University of California (retired), to assist the committee in conducting an impartial study of the problem; and

WHEREAS, Professor Madson is a recognized authority on this subject matter, who enjoys the confidence and trust of both the cattlemen and state park officials, and is pre-eminently qualified to undertake such a study and to make fair and impartial recommendations; and

WHEREAS, The investigation and study conducted by Professor Madson established without question that the policies and actions of the State Park Commission and the Division of Beaches and Parks drastically restricting and limiting cattle grazing in these parks are unnecessary for the protection of the areas for use by the public, that such restrictions and limitations have not benefited, and will not benefit in the future, these areas as state parks for the public's use, but will only injure unnecessarily an important and long established part of the agricultural economy of these areas; and

WHEREAS, It is apparent that these restrictive policies were adopted by the State Park Commission either without an adequate study having been made of the problem when it was the duty of the commission first to make such a study or were adopted by the commission despite the commission's knowledge of the facts in order to prohibit any economic use of the areas; and

WHEREAS, The Legislature believes that the recommendations of Professor Madson are reasonable and fair, and therefore concurs in such recommendations, which are as follows:

1. All grazing leases on the Anza Desert State Park be continued since there is no evidence that the grazing of cattle has exerted any appreciable injurious effect on the park or has interfered with the use of the park by the public;

2. The 2,600 acres in Box Canyon be restored to the Daley lease with the provision that no feeding or watering station be placed in, or adjacent to the canyon, since any damage caused by cattle would be negligible;

3. The Little Blair Valley again be included in the areas leased for grazing since there is no evidence that it receives enough public use to justify its exclusion;

4. All of the Ralph Jasper lease be continued as a grazing area in view of the fact that this includes some of the best range land in the park and is far more valuable for range than for park purposes;

5. The grazing of cattle in Palomar State Park not be renewed;

6. There are large areas in Cuyamaca Rancho State Park which are used very little by the public and which should be opened to proper grazing so as to provide a substantial economic return and also to reduce fire hazards; and

WHEREAS, These recommendations provide a policy that is fair and equitable to both cattlemen and the public and also beneficial to the interests of the entire State since the following of such recommendations would make much needed grazing land available without prejudice to the value of the parks as places of public recreation, and in addition the continuance of such grazing would create revenues for the State Park Maintenance Fund; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the State Park Commission is hereby directed to adopt the recommendations as set forth above, with respect to its grazing policies in the named parks; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Chairman of the State Park Commission and the Chief of the Division of Beaches and Parks, Department of Natural Resources.

CHAPTER 317

Assembly Joint Resolution No 38—Relative to federal participation in aid payments.

[Filed with Secretary of State, June 17, 1957.]

WHEREAS, Under existing procedures federal participation in aid payments to applicants for aid to the aged, aid to the needy blind, and aid to needy children does not ordinarily take place until the eligibility of such applicants is approved by the Federal Government; and

WHEREAS, As a consequence of this practice, initial aid payments to recipients is in many instances delayed for a considerable period of time awaiting federal action, despite the fact that the individual has been certified to be eligible by the proper local authorities; and

WHEREAS, Federal rules do not permit retroactive payments to such applicants to cover the period commencing with the establishment of their eligibility by local authorities and the granting of federal approval, thereby resulting in extreme hardship to the recipients; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of this State hereby requests the Federal Department of Health, Education, and Welfare to revise its rules and regulations to the extent possible to provide for federal participation in aid payments to recipients of the categorical aids from the date upon which such recipients are found to be eligible by local authorities; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a suitably prepared copy of this resolution to the Secretary of the United States Department of Health, Education, and Welfare.

CHAPTER 324

Assembly Concurrent Resolution No. 181—Relative to meeting scheduled dates for opening buildings at state colleges.

[Filed with Secretary of State, June 17, 1957.]

WHEREAS, The crest of the tremendous postwar population increase in school age children is now reaching the college level; and

WHEREAS, The development of the State of California to its fullest potential depends in a large degree upon the availability of citizens who have received the education and training necessary to prepare them for occupations and professions requiring technical and scientific knowledge and skills; and

WHEREAS, The state colleges of California play a major role in this field of education and training, not only because it is their responsibility to prepare students for occupations and professions in private enterprise but because state colleges bear the greatest responsibility of all institutions of higher education in training students to become teachers in the public schools; and

WHEREAS, The need for additional state colleges established by the Legislature at its current session and the additional buildings and facilities for existing state colleges and for which funds have been made available is both immediate and urgent; and

WHEREAS, In this period of rising construction costs, any delay in furnishing state college facilities which are scheduled for construction and for which money has been provided results in a needless increase in cost of such facilities, and thus further aggravates the problem of meeting the pressing need for additional facilities; and

WHEREAS, The full cooperation and agreement of the Department of Finance, the Department of Education, the state colleges, the State Personnel Board, the Division of Architecture in the Department of Public Works, and the Legislative Auditor is essential in order that the schedules for the state college building program be met in an expeditious fashion; and

WHEREAS, This full cooperation and agreement has not been evidenced by meeting the scheduled dates for opening buildings at state colleges; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of this Legislature stress the utmost urgency and necessity for full cooperation and agreement among state agencies so that the scheduled dates for opening presently authorized buildings at state colleges will be met; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the Director of Education, the Director of Finance, the Director of Public Works, the president of each state college, each member of the State Personnel Board, and the Legislative Auditor.

CHAPTER 325

Assembly Concurrent Resolution No. 191—Relating to the establishment of a temporary state college at the United States Maritime Station in the City of Alameda.

[Filed with Secretary of State, June 17, 1957.]

WHEREAS, The rapid growth of population in the State of California and the great increase in numbers of high school graduates has brought about the overcrowding of the present state college facilities and has made imperative the establishment of additional state colleges; and

WHEREAS, It has come to the attention of the Legislature of the State of California that facilities which would permit the immediate establishment in the City of Alameda of a temporary state college are available, situated in one of the State's most rapidly expanding centers of population, in the form of a "mothballed" United States Maritime Station; and

WHEREAS, The facilities available include buildings with classroom space and all necessary furniture and equipment, recreational facilities, a swimming pool, parking space, a completely equipped cafeteria, machine shops, shop buildings, and student housing; and

WHEREAS, These facilities, if utilized as soon as practicable would, because of their location, ease already overcrowded conditions at the state colleges in San Francisco and San Jose, and provide more time for planning the establishment of permanent state college facilities at the locations at which careful study dictates they be situated, would involve a minimum of expense to the taxpayers of the State without causing the removal of presently taxable property from public tax rolls, and would result in an actual reduction of federal expenditure; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Education be requested to report to the Legislature at its 1958 Regular Session on the suitability and cost of the United States Maritime Station for temporary use as an educational facility; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to the Superintendent of Public Instruction.

CHAPTER 326

Assembly Concurrent Resolution No. 198—Relative to directing the joint interim committee to conduct studies as to the economic feasibility of the Feather River Project.

[Filed with Secretary of State, June 17, 1957.]

WHEREAS, The Legislature has heretofore appropriated the sum of twenty-five million one hundred ninety thousand

dollars ($25,190,000) at its 1957 Regular Session for the relocation of a state highway and railroad necessary to the construction of the Oroville Dam as a part of the Feather River Project, and has under consideration additional appropriations for other expenses necessary to the construction of the Feather River Project: and

WHEREAS, The engineering feasibility of the Feather River Project has been demonstrated both in the reports of the Department of Water Resources, and its predecessors, and by independent engineers; and

WHEREAS, All of the reports heretofore made available to the Legislature have treated only superficially the economic and financial feasibility of the Feather River Project; and

WHEREAS, The Legislature has not yet established policies to evaluate the economic and financial feasibility of the Feather River Project and other projects contained in The California Water Plan; and

WHEREAS, The Department of Water Resources has published Bulletin No. 59, Interim Report on Engineering, Economic and Financial Feasibility of Initial Units of the Upper Feather River Basin and Bulletin No. 60 on the Salinity Control Barrier Investigation, which bulletins base their evaluation of the economic and financial feasibility of these projects on assumptions rather than policy established by the Legislature, and the department has been directed by the Legislature to undertake a substantial number of additional project investigations which can be based only on assumptions in lieu of policy determinations by the Legislature; and

WHEREAS, The Department of Water Resources has just published Bulletin No 3, The California Water Plan, which contains on page XV a recommendation by the department's Board of Consultants that "more detailed investigation and study be made of component features of The California Water Plan to determine need, engineering feasibility, economic justification, financial feasibility, and recommended priority of construction"; and

WHEREAS, The Department of Water Resources is now undertaking work necessary to gather basic data from which it can establish the economic and financial feasibility of the Feather River Project if the department receives the necessary policy directives from the Legislature; and

WHEREAS, The wisdom of policies adopted by the Legislature for determination of economic and financial feasibility of the Feather River Project and other units of The California Water Plan have an important relation to continued federal participation in water resources development in California and to the provisions of any plan adopted by the Legislature for financing the Feather River Project and other units of The California Water Plan; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Interim Committee on Water Problems is directed to hold hearings and to study

the problems involved in establishing policies to be used by the State of California in evaluating economic and financial feasibility of the Feather River Project and other units of The California Water Plan and to recommend appropriate policies to the Legislature for adoption. Among the specific problems to be resolved are the determination of the State's interest in constructing or assisting local projects, the determination of which project purposes of multiple-purpose projects should be reimbursable or nonreimbursable and the degree of such reimbursability, the method of cost allocation to be used, the basis of establishing rates for project services, methods of evaluating benefits and costs and the resolution of any conflicts between desirable state policies and established federal policies. In undertaking the above work the Joint Interim Committee on Water Problems is authorized in addition to its other powers to secure information from appropriate federal, state, and local agencies, to obtain the services of consultants, and to secure other information and investigate related problems as may be appropriate.

CHAPTER 327

Assembly Concurrent Resolution No. 207—Relative to the prevention of poliomyelitis.

[Filed with Secretary of State, June 17, 1957.]

WHEREAS, The state-wide medical campaign to prevent poliomyelitis, one of the cruelest killers and cripplers known in the history of mankind, will end about July 1, 1957; and

WHEREAS, In this campaign thousands of local health officers, private medical practitioners, public officials, citizens, and the State Department of Public Health have given generously of their time and their effort to contribute to the overwhelming success of the program, and in which they have been unselfishly assisted by members of medical societies, numerous church and school groups, civic organizations, labor unions, commercial enterprises and many other conscientious community agencies; and

WHEREAS, Because of the deep concern these individuals and agencies have exhibited on behalf of their fellow man, more than 3,000,000 residents of the State of California have been provided with a measure of protection against dreaded poliomyelitis by being inoculated with a preventive vaccine, thus contributing materially to the health and the well-being of our people and our communities; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the individuals and the agencies who have participated in this magnificent volunteer program on behalf of humanity deserve, and they are hereby tendered, the warmest words of praise and appreciation from all of the people of the State of California;

Resolved, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to the Director of the State Department of Public Health.

CHAPTER 328

Assembly Concurrent Resolution No. 209—Relative to creating the Joint Interim Committee on the Special Education and Rehabilitation of Handicapped Children and Adults.

[Filed with Secretary of State, June 17, 1957.]

WHEREAS, There is in California an increasing number of persons handicapped by accidents, disease and from congenital conditions, and it is in the interest of the State to provide such rehabilitation services as are necessary to return them to employment and self-support; and

WHEREAS, Studies reveal that only a small percentage of those workers severely disabled by industrial accidents receive rehabilitation services; and

WHEREAS, There are in our public sanatoriums a large number of tuberculosis patients who are maintained at public expense and will require rehabilitation services to assist them in returning to suitable employment, and such services are not now being adequately provided; and

WHEREAS, A high percentage of those persons receiving public assistance are incapacitated by physical disabilities and it has been demonstrated that many of them can be returned to employment through the application of appropriate rehabilitation services; and

WHEREAS, The establishment of handicapped individuals in business enterprises has provided a successful means of providing rehabilitation services, and an expansion of this type service has been recommended; and

WHEREAS, There are a number of persons who cannot be employed in competitive industry, and it has been recommended that sheltered workshops be established to provide employment and opportunities for self-support; and

WHEREAS, The increase in chronic disease and mental illness has continued and has contributed to the increase in the number of persons confined to institutions at public expense; and

WHEREAS, There are a number of state agencies rendering related services to the handicapped adult without any administrative or functional integration of such services; and

WHEREAS, The Legislative Auditor has recommended that a study be made concerning the location of these services in the various state agencies and how these services can best be coordinated; and

WHEREAS, The Legislative Auditor has recommended that a master plan of rehabilitation services be developed; and

WHEREAS, The education of children is essentially an obligation of the State wherein the philosophy of equal opportunity is recognized; and

WHEREAS, There is an increased number of children who, due to physical and mental handicaps, cannot accommodate themselves to, or profit from, the programs of education offered to children who do not suffer from such handicapping conditions; and

WHEREAS, The distribution of the various types of handicapped children over the State, particularly in rural areas, makes it difficult for many school districts to maintain adequate programs of special education; and

WHEREAS, Special skills are required in the education and training of handicapped children, and there is a shortage of teachers in this field; and

WHEREAS, There are few programs adapted to the needs of handicapped children at the secondary level and there are few organized programs for the vocational guidance and training of the handicapped child; and

WHEREAS, There are a number of agencies rendering related services to the handicapped child without any direct administrative coordination of such service; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, As follows:

1. The Joint Interim Committee on the Education and Rehabilitation of Handicapped Children and Adults is hereby created, authorized, and directed to study and analyze the existing state policies pertaining to the education and rehabilitation of all types of physically and mentally handicapped persons, with particular reference to the financial, administrative, professional, and legal problems involved in providing special education and rehabilitation for such persons, including, but not limited to, the study, analysis and investigation of all matters pertaining to this resolution. The committee shall advise and confer with the Department of Education, Department of Social Welfare, Department of Public Health, Department of Mental Hygiene, and any other department of this State having functions pertaining to the welfare of physically handicapped persons, and the appropriate officers and agencies thereof, to consider and prepare such new legislation as may in any way bear upon or relate to the subject of this resolution.

2. The committee shall consist of five Members of the Assembly appointed by the Speaker thereof, and five Members of the Senate appointed by the Rules Committee thereof. Vacancies occurring or existing in the membership of the committee shall be filled by the appointing power.

CHAPTER 345

Senate Joint Resolution No. 14—Relative to payments in lieu of taxes to counties containing large areas of federally owned land.

[Filed with Secretary of State, June 24, 1957.]

WHEREAS, The Federal Government owns approximately 47 percent of the total land acreage in California; and

WHEREAS, Counties in which national forests are located receive annually 25 percent of the revenue received; and

WHEREAS, Mono County, which has by far the largest acreage of federally owned forest lands of any county in this State, having 771,587 acres in the Inyo National Forest and 378,601 acres in the Toiyabe National Forest, all of which are withdrawn from the tax rolls of the county, received only $15,774.90 as such 25 percent payment in the Fiscal Year 1955-56; and

WHEREAS, These two national forests are comprised primarily of watershed lands and do not and will not produce revenues to any large amounts as do national forests primarily comprising commercial timber; and

WHEREAS, In the instance of Mono County, in excess of 400,000 vacationists visit the Inyo and Toiyabe National Forests for fishing, hunting, general recreation, and other uses every year. This influx of people creates sanitation, police, and other problems for the local residents and taxpayers of Mono County; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to take such action as may be required to insure that a thorough study be made to determine the amounts to be apportioned to counties in which exist large areas of federally owned land and which place additional burdens of local governmental services on account of such federal ownership; and be it further

Resolved, That the Secretary of the Senate is hereby directed to prepare and transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Agriculture.

CHAPTER 346

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its 1957 Regular Session commencing on the seventh day of January, 1957, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by adding Section 5 to Article XXVI thereof, to read:

SEC. 5. The Legislature may provide for the issuance and sale of bonds by the counties, cities, cities and counties, or separation of grade districts, the proceeds of which shall be used for the street and road purposes specified in Section 1 of this article, and may provide for the repayment of the principal, interest, and expenses incurred in connection with the issuance and sale of such bonds out of money collected from taxes specified in Section 1 of this article.

The Street and Road Bond Act of 1957 (Division 3.5 (commencing at Section 2220) of the Streets and Highways Code), enacted at the 1957 Regular Session of the Legislature, is hereby approved, adopted, legalized, ratified, validated, and made fully and completely effective.

CHAPTER 347

[Filed with Secretary of State, June 24, 1957.]

WHEREAS, It has come to the attention of the Legislature that preparations are presently being made to celebrate on October 2, 1957, the 100th anniversary of the coming of the Sisters of Mercy to Sacramento; and

WHEREAS, A little band of five Sisters, headed by Mother Baptist Russell, were the pioneers who blazed the trail which the Sisters of this diocese have so faithfully followed for nearly a century; and

WHEREAS, Under the direction and leadership of Mother Russell, these genteel women laid the foundation for an organization dedicated to the cause of learning, unable to resist the call of charity, devoted to the care of the sick, and zealous in sheltering the homeless; and

WHEREAS, During this 100 years of unerring labor among the people of the Sacramento area, the Sisters of Mercy have sought no personal acclaim but in humility and simplicity have sought only to serve; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Members of this Legislature extend to the Sisters of Mercy congratulations on the occasion of their 100th anniversary; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the Most Reverend Joseph McGucken, Bishop of Sacramento, to Sister Mary Rita, Mother General at Auburn, California, and St. Joseph's Convent at Sacramento, California.

CHAPTER 348

Senate Joint Resolution No. 39—Relative to a study and consideration of legislation pertinent to a plan or plans to benefit the domestic gold industry.

[Filed with Secretary of State, June 25, 1957.]

WHEREAS, In 1934, with the passage of the United States Gold Act and the creation of the International Monetary

Fund, the gold standard was abolished and restrictions were placed on the possession and use of gold, a development which seriously threatened its historic mission as the bulwark of our monetary system; and

WHEREAS, The price of gold was fixed at thirty-five dollars ($35) per fine ounce, which price has remained stationary, in spite of the fact that greatly increased costs of gold production in the United States has brought about a serious deterioration of our domestic straight gold-mining industry, with 95 percent of the mines forced to close because of the continuance without modification of the aforesaid unrealistic price established for gold by the Federal Government; and

WHEREAS, This situation has also resulted in the lifting of safeguards inherent in the gold standard, which safeguards were designed to prevent manipulation of credit and inflationary practices; and

WHEREAS, The basic problem is to develop a method to augment our gold reserves, and encourage a market for currently produced domestic supplies of this commodity, recognizing that the rescission of the United States Gold Act of 1934, or the setting of another and higher arbitrary price for gold, would not be the answer to provide the assistance which is critically needed by the gold mining industry; and

WHEREAS, Several plans, including the so-called "Beam Plan," offer potentials for domestic gold production by proposing, among other ways, that the United States Mint receive gold for processing as now, but that its return in kind to the offeror thereof, be characteristically stamped for gold content, rather than by value; and

WHEREAS, Any plan or plans of this character made applicable only to newly mined gold would permit the use of the returned product received from the United States Mint available for use on an open market, and would thereby aid in restoring the law of supply and demand for gold as a commodity; and

WHEREAS, Such action could aid in placing the gold commodity on a realistic use for private industry and the arts through an open market supply, rather than through purchases from the United States Treasury Department; and

WHEREAS, The request of the gold-mining industry for some basic change will terminate the present restrictive and discriminatory policy against those who produce gold as the one commodity; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States be, and it is hereby, memorialized to provide ways and means for a complete study of plans or procedures, including the "Beam Plan," to form the basis for a more hopeful outlook for our domestic gold-mining industry through sound and adequate legislation; and be it further

Resolved, That a duly certified copy of this resolution be transmitted to the Speaker of the House of Representatives, to the President of the United States Senate, to the Chairmen of the Banking and the Currency Committees of the Congress, and to the Senators and the Congressmen from the several gold-producing states.

CHAPTER 349

Senate Concurrent Resolution No. 34—Relative to the creation of the Joint Judiciary Committee on Administration of Justice.

[Filed with Secretary of State, June 25, 1957.]

WHEREAS, Delays in litigation, particularly in certain metropolitan areas, have resulted in public criticism of our court system; and

WHEREAS, Since our present system of procedure was adopted the State has experienced an unparalleled growth of population, business, and industry, with a consequent change in the nature, intensity, and complexity of social, economic, and legal problems with which the public and the courts are confronted; and

WHEREAS, Major reforms and changes in the judicial system of this State are required to remove the causes of delay in the administration of justice and to increase the efficiency of our trial and appellate courts; and

4. The committee is authorized to act during this session of the Legislature, including any recess, and after final adjournment until the commencement of the 1959 Regular Session, with authority to file its final report not later than the tenth legislative day of that session.

(d) To report its findings and recommendations to the Legislature and to the people from time to time and at any time, not later than herein provided.

(e) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution.

7. The sum of one hundred thousand dollars ($100,000) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Senate and of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the said contingent funds equally and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.
