MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA

GOVERNOR'S OFFICE, SACRAMENTO, May 1, 1943

*To the Honorable Members of the Assembly
State of California, Sacramento, California*

GREETINGS: I am returning herewith without my signature Assembly Bill No. 1254, entitled: "An act to provide a method for the dissolution of Orange County Water District, a district organized and existing under an act of the Legislature of

the State of California, approved June 14, 1933, and to provide for the distribution of its assets."

My objections to this bill are as follows:

The procedure established by this measure for the dissolution of the Orange County Water District provides that, to authorize the calling of an election in the district upon the question whether or not the district shall be dissolved, a petition must first be presented to the board of directors. Such a petition must be signed by a majority of the voters in each of the seven divisions of the district. Upon the filing of such a petition the board of directors is directed to call an election upon the question of the dissolution, and if two-thirds of the votes cast in such election are in favor of such dissolution the board of directors is to devise a dissolution plan and submit it to the superior court.

In my opinion the requirement that a majority of the voters in each of the divisions of the district must sign the petition is so strict as to be unreasonable. It would mean that, even though a large majority of the voters in six of the divisions desired that an election be held on the question of dissolution, 51 per cent of the voters in the remaining division could, by withholding their signatures from a petition, prevent the submission of the question to the voters of the district. Thus, by controlling a majority of the voters in any one division—which might be the smallest of the seven—a group which was interested in perpetuating the district or in continuing themselves or their friends in office in the district, could prevent even the holding of an election.

I am informed by a representative of the district that he knows of no precedent in the laws of this State for the requirement above referred to. In my opinion the provision is so extreme as to make it almost impossible under practical conditions as to ever accomplish a dissolution of the district. The author whose name appears first on the measure has requested me to veto the bill and I have received similar requests from a number of voters in the district.

Respectfully submitted

EARL WARREN, Governor

Assembly Bill No. 1254 ordered to unfinished business.

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, MAY 4, 1943

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith without my signature Assembly Bill No. 771, entitled: "An act to add Section 4114 to the Revenue and Taxation Code, relating to redemption of tax sold and tax deeded property located in distressed assessment districts."

This bill adds Section 4114 to the Revenue and Taxation Code relating to what are commonly known as "distressed assessment districts." The section provides that in such districts, which are already operating under a refunding plan authorized by State law or whose bonds are being retired, canceled or redeemed by the aid of contributions of public funds, former owners of real property the taxes upon which have become delinquent may redeem property without the payment of penalties, interest or costs, these redemption provisions are limited to a period of three months after the effective date of the bill or three months after the final assessment under the refunding act or after the last resolution or ordinance appropriating public funds for such retirement, cancellation or redemption.

The Attorney General advises me that "The act is of doubtful constitutionality" in view of the fact that the right to redeem the property is given only to redemptioners of a particular class in a special class of assessment districts "and this would seem to be discriminatory against other redemptioners. The act would also appear to be violative of Section 31 of Article IV of the State Constitution." It does not appear from the bill that a public purpose is involved under recent decisions of the Supreme Court which upheld somewhat similar provisions on the theory that a public purpose was involved in that the taxes on the property concerned were hopelessly delinquent. The Attorney General comments in this connection, "It would in fact appear that where one of these refunding plans has been completed, the property should be in a condition to be redeemed under normal proceedings and placed back upon the county tax rolls."

In view of the doubtful constitutionality, and because it does not appear that it is necessary to extend the right or privilege of redeeming property from delinquent taxes without the payment of penalties, interests or costs, I am withholding my approval of the measure.

Respectfully submitted.

EARL WARREN, Governor

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE, SACRAMENTO, May 4, 1943

To the Honorable Members of the Assembly
State of California, Sacramento, California

GREETINGS: I am returning herewith without my signature Assembly Bill No. 924, entitled: "An act to add Section 663.8 to the Political Code, relating to State purchases of supplies, equipment, and other personal property."

My objections to this bill are as follows:

This bill adds Section 663.8 to the Political Code, which would vest in the State Board of Control the power and authority to make rules and regulations covering the purchases by the State of equipment, supplies and materials for all State departments, commissions, boards, institutions and officials.

Under the existing law the Department of Finance, through a Bureau of Purchases, has such authority. I know of no sound reason why that department should not continue to perform those duties or why the State Board of Control would be better able to make rules and regulations in that regard. The State Board of Control was not established and is not now adequately staffed or equipped to prepare and issue such rules and regulations, and the budget for the next biennium does not contemplate the performance of such duties by the State Board of Control. It may be that in previous years mistakes have been made in the purchase of certain items of supplies and materials, but if that be true it does not in my opinion constitute a valid reason for the substantial administrative change proposed by this measure.

All of the members of the Board of Control believe that it is better administrative practice to continue in the Department of Finance the power and responsibility for the purchase of supplies and equipment, rather than to vest regulatory power over such purchases in the Board of Control, whose present functions do not contemplate the performance of such duties, and which is not adequately staffed for that purpose.

Respectfully submitted.

EARL WARREN, Governor

Assembly Bill No. 924 ordered to unfinished business file.

PLATOON SERGEANT JOHN G. RUTH, U. S. MARINE CORPS,
for service as set forth in the following:

CITATION

"For conspicuous gallantry and intrepidity while a member of the Second Battalion, First Marines, First Marine Division, during action against enemy Japanese forces in the Tenaru Sector, Guadalcanal, Solomon Islands, on the early morning of August 21, 1942. While subjected to the devastating fire of a strong attacking enemy landing force, Platoon Sergeant Ruth, with utter disregard for his own safety, proceeded to the front lines, manned an abandoned light machine gun and promptly silenced the machine gun which had raked his platoon with gunfire. Although stunned momentarily by an enemy bullet hitting his helmet, he continued his determined and accurate fire and assisted effectively in clearing his sector of the enemy."

The following communication was received, read, and ordered printed in the Journal:

WEIMAR, CALIFORNIA, April 30, 1943

*Mr. Arthur A. Ohnimus, Chief Clerk
California Assembly, Sacramento, California*

DEAR ARTHUR: Will you please thank the Members of the Assembly for their kind expression toward me and their wishes for my improved health. It is those acts least expected which bring the greatest appreciation.

And also, Arthur, will you tell my friends that while temporarily down I am far from out and expect to be entirely back in by summer. I am not exactly bedridden and the fact that I got here in time probably saved me years of trouble.

I hope that I will see you all at the next session of the Legislature.

Sincerely yours,

JACK SALT

(a) "Board" means any local control board created as herein authorized.

(b) "Fluid milk" means any and all whole milk that is produced in conformity with applicable health regulations for market milk of the place where such milk is consumed and for the purpose of this chapter fluid milk may be classified as follows.

Class 1. Any such milk that is supplied to consumers in the form of whole milk, which shall include "raw milk"; "pasteurized milk"; "homogenized milk"; "condensed milk," "evaporated milk," and "modified milk," that is prepared from whole fluid milk and which is not packaged in hermetically sealed containers; fluid milk containing added vitamins or flavoring, that portion of fluid milk used as whole milk in any combination of fluid milk and fluid cream containing a milk-fat content in excess of the minimum statutory requirements for fluid milk and less than the minimum statutory requirement for "cream," and includes milk fat used in the standardization of Class 1 fluid milk;

Class 2 Any such milk or the cream derived therefrom that is sold or disposed of by distributors for consumption as cream, as cream is defined in this code, including cream in any combination of fluid milk and fluid cream containing a milk fat content in excess of 60 per cent and less than the minimum statutory requirements for cream;

Class 4. Any such milk or the cream derived therefrom, as cream is defined in this code, that is used by distributors in the manufacture of butter and cheese other than cottage cheese.

In designating and prescribing or providing methods for designating and prescribing minimum prices to be paid by distributors to producers for Classes 2, 3 or 4 fluid milk, the director may take into consideration the market price of all milk which may be used for the same purposes set forth in such respective classes [.] , provided that the director may, and, upon receipt of a petition to the director, signed by producers who produce 51 per cent, or more, of the total volume of fluid milk received by distributors for the marketing area involved, shall call a hearing to determine whether or not uniform minimum prices for milk fat contained in all classes of fluid milk should be established to effectuate the purposes of this chapter, and if the director so finds, from the evidence adduced at said hearing, that uniform minimum prices for milk fat contained in all classes of fluid milk should be established, the director shall establish such prices as a part of a stabilization and marketing plan for the marketing area involved.

(c) "Fluid cream" means any and all cream defined in this code as cream and which conforms to the health and sanitary regulations of the place where such cream is to be sold or disposed of for human consumption as cream; provided, however, that the cream derived from the separation of Class 2 fluid milk shall not be considered as fluid cream except that such cream when packaged as cream shall be subject to all of the terms and provisions of orders of the director establishing minimum wholesale and minimum retail prices for fluid cream.

(d) "Dairy products" includes any product manufactured from milk or any derivative or product of milk

(e) "Producer" means any person who produces fluid milk or fluid cream from five or more cows or goats in conformity with the applicable health regulations of the place in which it is sold, and whose fluid milk or fluid cream is received or handled by any distributor. (ff) "Producer-distributor" means any person who is both a producer and a distributor of fluid milk or fluid cream. For the purposes of this chapter a producer-distributor shall be deemed to be a producer in any transaction involving the delivery of fluid milk or fluid cream produced by him to a distributor, and shall be deemed to be a distributor in any transaction involving the delivery of fluid milk or fluid cream to a person who is not a distributor as defined in this section.

(g) "Retail store" means any person or persons owning or operating a retail grocery store, restaurant, confectionery, or other similar business, where fluid milk or fluid cream is sold to the general public for consumption off the premises.

(h) "Marketing area" is any area within this State declared to be such in the manner prescribed in this chapter.

SEC. 2. Section 735.4 of said code is amended to read:

735.4. (a) The director shall have and may exercise any or all the powers conferred by Section 353 of the Political Code upon the head of a department of the State with respect to hearings and investigations under this chapter.

(b) The director is hereby declared to be the instrumentality of this State for the purpose of administering and enforcing the provisions of this chapter and to execute the legislative intent herein expressed, and is hereby vested with the administrative authority:

(1) To investigate any and all transactions between producers and distributors or among distributors or between distributors and retail stores or between distributors and consumers or between retail stores and consumers, and for that purpose the director or his authorized agents shall have access to and may enter at all reasonable hours all places where milk is being stored, bottled or manufactured, or where milk or milk products are being bought, sold or handled, or where the books, papers, records or documents relating to such transactions are kept, and shall have power to inspect and copy the same in any place within the State.

(2) To issue licenses to distributors and require the registration of producers.

(3) To formulate any stabilization and marketing plan as prescribed in this chapter and declare the same effective after public hearing and reasonable notice by mail or otherwise to all producers and distributors of record with the director, affected by such plan.

(4) To prescribe minimum prices to be paid by distributors in accordance with a stabilization and marketing plan for fluid milk and classify said milk according to usage by distributors; provided, that the prices so prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above such costs incurred in producing and marketing manufacturing milk, *including the current costs of dairy feed, dairy labor, transportation and such other costs which the director finds are necessary in order to carry out the purposes of this chapter.*

(5) To prescribe minimum prices to be paid by distributors for fluid cream in accordance with a stabilization and marketing plan; provided, that the prices so prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above such costs incurred in producing and marketing manufacturing milk.

(6) (a) To amend or terminate any stabilization and marketing plan, after notice and public hearing as prescribed in Section 726.1, in the event that he finds that such plan is no longer in conformity with the standards prescribed in, or will not tend to effectuate the purposes of, this chapter. Such hearing may be held upon the motion of the director and shall be held upon receipt of a petition signed by producers representing not less than 55 per cent of the total number of all producers and not less than 55 per cent of the total production of all producers who are eligible to petition the director for the formulation of such plan.

(b) To amend, after notice and public hearing called and held in the same manner as provided in Section 736.12, any minimum wholesale and retail prices established under the provisions of Article 2a of this chapter, in the event that he finds

that any such price is, or that any such prices are, no longer in conformity with the standards prescribed therefor, or will not tend to effectuate the purposes of this chapter.

(c) To terminate any such minimum wholesale and retail prices without notice or hearing at any time that there is no stabilization and marketing plan in force and effect in such marketing area.

(7) To appoint a local control board for any marketing area, in the event that he deems such board necessary or advisable.

(8) To remove any member from a local control board in the event that he finds such member, after hearing, is guilty of nonfeasance or malfeasance in office.

(9) To appoint a member to fill a vacancy on a local control board

Src 3 Section 736 3 of said code is amended to read:

736 3 Any stabilization and marketing plan shall contain the following provisions

(a) Provisions for prohibiting distributors and retail stores from engaging in the unfair practices hereinafter set forth.

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise

(2) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer

(3) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Section 654a of the Penal Code

(5) The purchase of any fluid milk in excess of 200 gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period; the quantity of such milk to be paid for as Class 1, and the price to be paid for all milk received, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment for such fluid milk, which shall not be later than the last day of the month following the month during which the fluid milk was purchased, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 4, as said class is defined in Section 735 3 of this code. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution

(6) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area

(7) The payment of a lesser price by a distributor to any producer for fluid milk or fluid cream which is distributed to any person, including agencies of the Federal, State or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk or fluid cream for said marketing area

(8) The purchasing or receiving of any fluid milk or fluid cream by distributors from producers within a marketing area wherein a stabilization and marketing plan is in effect for less than the minimum prices established in such plan, regardless of whether such milk or cream is subsequently sold or distributed within or without such marketing area, or within or without the jurisdiction of the State of California; provided, however, that if such fluid milk or fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect then the distributor shall pay the producer thereof not less than the minimum prices established in such plan in the marketing area wherein such milk or cream is sold or distributed; and provided further, that in the event such fluid milk or fluid cream is subsequently sold or distributed in any place within the jurisdiction of the State of California where no stabilization and marketing plan is in effect, then such milk or cream may be paid for by the distributor to the producer thereof at not less than the average price paid by distributors to producers for milk or cream of similar grade and quality at the plants in the vicinity where such milk or cream is so sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to this section.

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk, including the current costs of dairy feed, dairy labor, transportation, and such other costs which the director finds are necessary in order to carry out the purposes of this chapter; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk.

Any stabilization and marketing plan may contain the following provisions:

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured, the volume of fluid milk received from such producer in pounds of milk, the milk fat test of such milk and the amount of fluid milk in milk fat pounds paid for in the several classes and the prices paid for the various classes for each month.

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream; provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved in the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above costs incurred in producing and marketing manufacturing milk; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream.

(e) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk; provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five (65) per cent of the total volume of fluid milk used for pasteurization purposes and who represent not less than sixty-five (65) per cent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five (65) per cent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

No provision of any pooling program shall prevent any distributor from paying premiums for quality; provided, all producers supplying fluid milk of like quality to such distributor are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. The deductions herein prescribed are in addition to any other deductions prescribed by this chapter.

(f) Provision whereby sales stimulation or consumer educational programs may be formulated and administered to increase the consumption of fluid milk and fluid cream, or other dairy products; provided, that such programs shall be carried on without reference to a particular brand or trade name; and provided further, that no such sales stimulation or consumer educational program shall be carried on which shall make use of false or unwarranted claims on behalf of such products or which disparages the quality, value, sale or use of any fluid milk or fluid cream or any other

agricultural commodity authorized by law to be marketed within such marketing area.

Before any stabilization and marketing plan may provide for sales stimulation and consumer educational programs, not less than 65 per cent of the producers and who produce not less than 65 per cent of the total volume of fluid milk consumed in any marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan. If such a program is requested by distributors it shall be necessary that not less than 65 per cent of the total number of distributors and who distribute not less than 65 per cent of the total volume of fluid milk for consumption in the marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan.

The petition shall bear the signatures of petitioners, their addresses and the approximate daily volume of fluid milk handled in gallons and milk fat pounds and the type of product distributed, together with the estimated cost of the program each month and the number of months the program is to continue in operation.

A sales stimulation and consumer educational program instituted by producers shall be financed by all producers supplying fluid milk to the marketing area. Such program, if instituted by distributors, shall be financed by all distributors supplying fluid milk to the marketing area. If such program is instituted by both producers and distributors, both producers and distributors shall finance the program equally.

If the program is instituted by producers the director is hereby empowered to require producers to pay assessments of not more than two mills (\$.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills (\$.007) for each 10 gallons of fluid milk received by distributor, including the production of distributors who are also producers.

If the program is instituted by distributors the director is hereby empowered to require distributors to pay assessments of not more than two mills (\$.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills (\$.007) for each 10 gallons of fluid milk received by distributors, including the production of distributors who are also producers.

If the program is instituted by both producers and distributors, the director is hereby empowered to require both producers and distributors to pay assessments for the purpose of providing funds for formulating, administering, and carrying on such program. The assessments to be paid by distributors shall not exceed two mills (\$.002) per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills (\$.007) for each 10 gallons of fluid milk received by distributors including the production of distributors who are likewise producers. Assessments of not more than two mills (\$.002) per pound milk fat, or if the program is instituted upon a gallonage basis, not more than seven mills (\$.007) for each 10 gallons of fluid milk produced by producers and received by distributors, shall likewise be paid by producers. In no instance shall the combined assessments exceed four mills (\$.004) per pound milk fat, or if the program is instituted upon a gallonage basis, not more than 14 mills (\$.014) for each 10 gallons of fluid milk received from producers and processed by distributors for distribution in the marketing area in the form of whole milk, fluid cream, or manufactured dairy products derived from fluid milk.

Before a program may be instituted a public hearing shall be called by the director, the procedure for which public hearing is to be the same as that required for the institution of a stabilization and marketing plan for fluid milk. At such public hearing testimony and evidence shall be taken to determine the necessity of such a program, the estimated costs of the program, the time during which the program is to be continued, and such other matters as are necessary in the institution of the program.

If, after public hearing and consideration of the testimony and evidence presented at said hearing, the director finds that a sales stimulation and consumer educational program will tend to effectuate the purposes of this chapter, he shall issue an order making effective such program. Such order shall state the number of months the program shall continue in operation, the rate of assessment per pound milk fat or per gallon to be paid by those petitioning for the program, the names, addresses and business locations of the persons appointed to administer the program and such order may contain other provisions which are necessary and incidental to the operation of the program.

The person named in the order to administer the program shall be selected by the director in the following manner and in the following number:

(a) If the program was instituted by producers the director shall name five representative producers from nominations made at the public hearing by the petitioners.

(b) If the program was instituted by distributors the director shall name five representative distributors from nominations made at the public hearing by the petitioners.

(c) If the program was instituted by both producers and distributors the director shall name three representative producers from nominations made at the public

hearing by the petitioning producers and three representative distributors from nominations made at the public hearing by petitioning distributors

(d) Distributors who are also producers shall be eligible to nomination for service on, and may be named by the director to serve on the committee to administer any program for which they will be required to pay assessments, and at least one of the persons named by the director to serve on any committee to administer any program for which distributors who are also producers will be required to pay assessments shall be a distributor who is also a producer

All programs shall be administered by the persons named in the order of the director making the program effective, and shall be administered subject to the approval of the director. All amounts required to be paid to the director under this section by producers or distributors shall be paid to such director on or before the fifteenth day of the month following the month during which such fluid milk was received by distributors and all distributors receiving milk from producers in any area where the provisions of this section are in effect whereby the director is empowered to require payments from producers shall deduct and pay to the director such payments provided for under this section from the payments due for such distributors to such producers for fluid milk.

Upon the termination of any program, if there are any obligations arising thereunder, the final accrual or ascertainment of which requires further acts by any producer or distributor or by the persons appointed to administer the program or by the director, the power or duty to perform such further acts shall continue, notwithstanding such termination.

All moneys received by the director pursuant to this section shall be deposited in the Department of Agriculture Fund in the State Treasury allocated to each separate marketing area from which they are collected and disbursed only for the purposes specified subject to the approval of the director.

Any money received by the director in excess of the amount required for any program shall be returned at such time as the director may determine on a pro rata basis to the persons from whom such funds were collected."

Our hearts in Christian love;
The fellowship of kindred minds
Is like to that above.

When we asunder part,
It gives us inward pain;
But we shall still be joined in heart,
And hope to meet again."

And now unto Him that is able to keep us from falling, and to present us faultless before the presence of His glory with exceeding joy, to the only wise God, our Savior, be glory and majesty, dominion and power, both now and ever. AMEN

COMMUNICATIONS

By Speaker Lyon:

The following communication was received, read, and ordered printed in the Journal:

May 2, 1943

*Speaker Charles W. Lyon, State Legislature
Sacramento, California*

MY DEAR MR. SPEAKER: I was planning today for the observance of "Mother's Day" in my Bible Class on next Sunday morning, and while doing so recalled many pleasant memories of our observances of the day in Legislatures of the past.

This prompted me to write a word of greeting to those who are there now whom I have known in other days and to express my continued appreciation for all of their expressions of kindness in the past and especially for their hearty participation in the "Mother's Day" programs which were arranged.

I have thought much of you all this year, though I have not written a single letter to attempt to influence anyone's vote.

In fact, I fear that you have had too harmonious a session. "Me grandfather was Irish" and you know nothing pleases me more than a good fight if the cause is a righteous one.

However, I wish to congratulate you on your good work and wish you a happy vacation.

Very cordially yours,

ELEANOR MILLER

Pursuant to a motion made on the previous legislative day, the following letter and remarks by Mr. Carlson were ordered printed in the Journal:

ALBANY CITY SCHOOLS

CORNELL SCHOOL
William Woolworth, Principal

919 CORNELL AVE.
Albany, California

April 30, 1943

*Senator Arthur W. Carlson
Capitol Building, Sacramento, California*

MY DEAR MR. CARLSON: I regret to hear that you were a member of the opposition to the Teachers Retirement Bill in the Senate. The teaching profession is one of outstanding service to the community and to the children; and those who devote their

lives to this service should be adequately paid and compensated after their services have been terminated.

Certainly the bill was not out of line in its request for \$75 per month for a teacher giving 30 years of her life in this service. It is beyond my understanding how you could have cast a negative vote. You can be assured that the teaching profession will have this fact in mind at the next election.

Sincerely yours,

WM. G. WOOLWORTH, Principal

Mr. Speaker and Members of the Assembly

I request unanimous consent to have this letter printed in the Assembly Journal. The letter was written by William G. Woolworth, ostensibly, at least, in his capacity as a principal of the Albany Public Schools. In my judgment this letter is a sad commentary on our entire social and political system. Here a public official, who has for many years been paid a substantial salary out of tax moneys, enjoys teachers' tenure and the bounty of our liberal laws affecting his profession, has the temerity and effrontery to unjustly criticize and question by innuendo the integrity of a Member of this Assembly simply because that member did not vote in favor of the Teachers' Retirement Bill as the same passed this Assembly.

Without going into the merits of the bill, which was fully debated by this body, I simply wish to remind you that it increased the amount of pensions to be paid to teachers at an estimated cost to the State of approximately \$12,000,000 per biennium. Principal Woolworth, in his letter, presumes to speak for the entire teaching profession and assures me that his "profession will have this fact in mind at the next election." Let me assure him, in no uncertain terms, that I do not choose to solicit his vote or support nor have I sought it in the past elections.

I am mindful of the obvious fact that his selfish and self-centered attitude does not represent that of the teaching profession or their representatives here in Sacramento, and I would not cast any reflection on that fine segment of our citizenry. However, I do wish to remind you of a dangerous trend and to point out that representative government by and for the people is fast approaching government by and for privileged classes, pressure groups and bureaucracies. The ordinary citizen, the man on the street, the small businessman, the farmer, the toiler, the average man who carries the bulk of the tax load on his shoulders is the forgotten man in these legislative halls. I wish to further remind you that if we who have the responsibility do not take heed and stop our wild spending spree, we will break the back of the taxpayer and, by the same token, destroy representative government.

I believe the activities of Principal Woolworth and his ilk are a matter of concern to the people of this State, and particularly to the teaching profession, and I have, therefore, brought this letter to your attention. Despite threats of reprisal I shall continue to vote my convictions as long as I am a member of any legislative body, and will not be intimidated by such a reprehensible letter.

ARTHUR W. CARLSON

Relative to the "Spirit of Freedom" Monument as designed by Mr Amos A. Wyckoff

WHEREAS, The Flag of the United States of America and the Liberty Bell are symbols of the highest American ideals; and

WHEREAS, No monument has been erected to personify the ideals and spirit for which the American Flag and the Liberty Bell are fitting emblems; and

WHEREAS, One Amos A. Wyckoff of Oakland has designed a monument which is known as "Spirit of Freedom," which would be a most fitting, imposing and inspiring memorial to the people of the United States, and which monument is more particularly described as follows:

1. The 13 steps represent the 13 colonies.
2. There are 48 columns, one to represent each State
3. The gear wheel represents the power of our United States.
4. There are 48 cogs, one for each State in the Union, to represent the power of each State. Inside each cog will be the exhibit room for each State.
5. Between each cog there will be placed a statue of the pioneers who fought their way here to make it possible for our people to live.
6. The building is constructed of four cross-like sections with niches in which to place statues.
7. On top of the building will be the statue of the California Bear.
8. Facing the east will be a statue of the first mother of California, holding a child, which represents, as the sun rises the newborn is coming to light
9. Facing the west will be a statue of the first emigrant scout to California
10. The Liberty Bell forms the dome. Inside the dome will be the paintings of war scenes. Also a statue of the man who rang the Liberty Bell so hard he cracked it.
11. Then comes the tower rising to a great height of approximately 800 feet. In this tower will be elevators running to the observation room, where visitors will pay a small fee to have a view of beautiful cities and surrounding area, as well as the beautiful blue Pacific Ocean. The income can be used for the upkeep.
12. On the top of the tower will be a powerful light for protection and guidance of airplanes.
13. Four large American Eagles, representing the keenness of vision of our United States will face the North, South, East and West. The eagles to be outlined in neon lights are guarding the American Flag, which is flying high over their heads.

WHEREAS, The problems of this State arising out of the presence of great numbers of Japanese, native born and alien, will become even more acute upon the termination of the war than ever before; and

WHEREAS, The Japanese problem is one of great concern to the people of this State but a matter of considerably less consequence to the people of the Nation as a whole; and

WHEREAS, Many of the problems have arisen out of treaties between the United States and Japan in the making of which the desires of the people of this State may not have been fully considered; and

WHEREAS, The existence of the present state of war and the suspension of treaty rights affords an opportunity to settle these problems in such manner as will prove both fair to the individuals affected and at the same time satisfactory to the people of this State; and

WHEREAS, The people of the State look to the Legislature for leadership in this matter and the Legislature requires information based upon an impartial study and investigation of all of the factors involved in order that it may proceed intelligently toward a solution of these problems; now, therefore, be it

Resolved, That there is hereby created the Assembly Interim Committee on the Japanese Problem which shall investigate, ascertain, and appraise all facts concerning the solution of the problem of the Japanese in California, including but limited to the constitutional and other legal factors involved, and the possibilities that treaty rights may again be acquired to an extent not desired by the people of this State; and be it further

Resolved, That said committee shall consist of five members appointed by the Speaker of the Assembly; and be it further

Resolved, That the committee hereby created in exercising the powers and performing the functions vested in it by this resolution shall have: (i) All the powers conferred upon legislative committees by Article 8, Chapter 2, Title 1, Part 3 of the Political Code; (ii) and Sections 9400 to 9412, inclusive, of the Government Code, except when inconsistent with this resolution, all the powers conferred upon committees by the Rules of the Assembly as they are enacted and amended from time to time and such rules are hereby incorporated herein and made a part hereof the same as if they were set forth in this resolution in full; (iii) all powers necessary or convenient to accomplish the objects and purposes of this resolution, including but not limited to the following duties and powers:

(1) To select a chairman from its membership and to employ and fix the compensation of a secretary and such clerical, expert and technical assistants as it may deem necessary;

(2) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(5) To hold public hearings at any place in California at which hearings the people are to have an opportunity to present their views to the committee;

(6) To make a complete study, survey and investigation of every phase of the subject of this resolution, including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws, both Federal and State, in anywise bearing upon or relating to the subject of this resolution;

(7) To meet either during sessions of this Legislature or during any recess thereof at any and all places in this State, in public or executive session;

(8) To act during this session of the Legislature, including any recess thereof, and until the convening of the Fifty-sixth Legislature;

(9) To file reports with the Assembly during the Fifty-fifth Session thereof or any special extraordinary session thereof, and to file its final report with the Fifty-sixth Legislature;

(10) To summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, and records of every kind and description, to issue subpoenas and to take all necessary means to compel the attendance of witnesses and procure testimony; and

(11) To cooperate with and secure the cooperation of county, city, city and county and other local law-enforcement agencies in investigating any matter within the scope of this resolution, and to direct the sheriff of any county to serve subpoenas, orders, and other process issued by the committee; and

(12) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution;

Resolved, That the committee, each of its members, and any representative of the committee thereto authorized by the committee or by its chairman, is authorized and empowered to administer oaths; and be it further

Resolved, That every department, commission, board, agency, officer and employee of the State Government, including the Legislative Counsel, the Attorney General and their subordinates, and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee, upon request, any and all such assistance, and information, records and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created; and be it further

Resolved, That the committee may make such representations and recommendations to the Federal Government as it may deem advisable, on any subject relating to the subject of its investigation, during such times as the Legislature may not be in session, and such representations and recommendations shall be representations and recommendations of the committee, and not of the Legislature or the Assembly thereof; and be it further

Resolved, That the members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents (\$0.05½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals, incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance of ten dollars (\$10) per day; and be it further

Explanations of Vote

I voted "No" on concurrence in Senate amendments to Assembly Bill No. 1994 because some of the evils in administering the act were placed back into the bill after the bill had passed the Assembly.

JULIAN BECK

In giving our favorable vote on final passage of Assembly Bill No. 1994, we do so feeling that many worthwhile changes in the law are being made.

However, there were many needful amendments offered in the Assembly and defeated or adopted and later amended out.

For instance, we are not in accord with the relatives' responsibility clause, and believe counties should be required to provide administration offices on ground

floor or served by elevators and operators, but voted "Aye" on concurrence in order to obtain passage of the \$10 per month increase and other desirable changes.

**MOTION TO PRINT ANALYSIS OF ASSEMBLY BILL NO. 1994
IN JOURNAL**

Upon motion of Mr. Fourt, the following analysis of Assembly Bill No. 1994 was ordered printed in the Journal:

Analysis of Assembly Bill No. 1994 Re: Changes From Existing Law

Section 2005: This provides for the payment of aid to an applicant in a home of his own choosing in preference to placing him in an institution. The three words added to this section are "his own choosing." This follows the general practice.

Section 2008.5: This adds a new section, making it a misdemeanor for any person to accept compensation or remuneration for making an application for an applicant for old age security or for assisting the aged person in getting his aid.

Section 2014: This is a new section added to the law. It provides that in cases of dispute, the application and supporting documents pertaining to any case shall be open to the applicant or his designated agent.

Section 2015: This is a new section added to the law and provides that copies of all laws and rules and regulations shall be made available to the public. This follows the present regulations.

Section 2016: This is a new section added to the law. It provides that upon request every applicant shall be given an itemized report, setting forth the amount of aid granted to him and any deductions.

Section 2020.01: This is a new section added to the law. It increases the grant of aid to \$50 per month after deducting all income excepting such income as may be designated as casual. This section remains in effect until the closing of the next regular session of the Legislature.

Section 2020.05: This is a new section added to the law. This provides that if and when amendments to the Federal statutes or rules and regulations of the Federal Security Board permit the State to allow earnings of an applicant to be retained by the applicant without deduction from his grant, the same shall be applicable in California.

Section 2021.01: This is a new section added to the law. It appropriates \$500 per annum for each aged person by the State. This gives effect to a ratio of sharing between the counties and the State of five-sixths State and one-sixth county. This section remains in effect until the end of the next regular session of the Legislature.

Section 2142.5: This is a new section added to the code. It provides that every person administering the aid shall do so with courtesy, consideration and respect to the applicant, and prohibits the person administering the aid from attempting to elicit any information not necessary to the establishment of eligibility.

Section 2160: This is amended on page 4, line 45, changing the time in which applicants may be in a hospital and receive old age security from 60 days to two calendar months. This amendment was merely for easing administrative procedure. Again, on page 5, line 10, the clause was added providing that free board and lodging furnished the applicant as a gift shall not be grounds for refusing aid.

Section 2163: This is amended to provide that personal property may be retained by the applicant in the amount of \$600 after deducting all encumbrances of record and further provides that the premiums on insurance policies shall not be deemed income of the applicant and no deduction therefor shall be made in the amount of the grant.

Section 2163.1: This is a new section added to the law providing that an heir legatee or devisee shall not be considered the owner of the property until the property is available to him. It further provides that a beneficiary of a trust shall not be considered the owner of a trust until it is made available to him.

Section 2163.2: This is a new section added to the law and provides that personal property does not include personal effects such as furniture, clothing and household equipment, etc., but does include jewelry and other items of similar character.

Section 2163.7: This provides that any place of abode such as a boat or trailer shall be considered real property in determining eligibility.

Section 2164: This is amended to provide that the applicant may own real property of an assessed value of \$3,000 less all encumbrances of record. Heretofore we were not permitted to deduct the encumbrances.

Section 2180: This is amended to provide that if the applicant is physically unable to apply, another may apply in his behalf; however, it does provide that every application after being reduced to writing shall be signed under oath by the applicant.

Section 2181: This first provides that the investigation shall be completed within 60 days, and second, modifies the degree of relatives' responsibility. On page 7 there is a scale which sets forth the amount of contributions which shall be made by the responsible relatives in accordance with their income, such income to be determined upon the net income.

Section 2181.01: This is a new section added to the law and provides that aid shall not be withheld pending the financial condition of the responsible relatives, providing that the applicant can establish the fact that he is not receiving support.

Section 2181.1: This provides that the board of supervisors shall immediately notify the applicant of its decision on each case. The applicant has 30 days in which to apply to the board of supervisors for a rehearing on such decision; that a hearing shall be set within the following 30 days and the board of supervisors must render its decision within 15 days thereafter. This is an alternative method for the applicant to follow if he does not appeal directly to the State Social Welfare Board. However, the applicant, if dissatisfied with the decision of the board of supervisors, may then appeal to the State board.

Section 2182: This is amended to provide that an applicant can apply any time after he has been denied aid if the conditions which made him ineligible have been removed.

Section 2182.1: This is a new section added to the law providing that an applicant can appeal to the courts; that no filing fee shall be required and that if the applicant is successful shall be entitled to a reasonable attorney fee and costs to be paid by the State.

Section 2183: This has been amended to provide a 60-day investigation period and the aid to begin not later than the first day of the month following the end of the 60-day period.

Section 2183.1: This is a new section added to the law. It provides that if a warrant is lost or destroyed, the applicant may obtain a duplicate warrant without the necessity of filing a bond. It further provides that if the applicant has not received the warrant within 20 days after mailing, it shall be deemed lost or destroyed.

Section 2187.01: This is a new section added to the code and is a technical section which deals with the method of advancing State and Federal moneys to the counties on the ratio of five-sixths and one-sixth. This section is effective until the end of the next regular session of the Legislature.

Section 2222: This is amended. These are merely technical amendments for clarification of language and make no substantial change.

Section 2222.7: This is a new section added to the law and relates to the return by the county, State and Federal Government of any collections made which later prove to be erroneously collected and in fact there was no debt due from the recipient of aid to the county, State or Federal Government.

Section 2223.5: This provides that if an applicant has received aid in good faith during a period when he was not entitled thereto, the amount that shall be collected from him shall only be the amount equal to the amount of excess property which he may have possessed at the time.

Section 2224: This has been amended to provide that the county shall use a brief form to determine if the responsible relatives are in fact contributing and will continue to contribute to the support of the applicant in accordance with the scale set forth on page 7 of the bill.

The bill is set up to provide that this act shall go into effect July 1, 1943

RESOLUTIONS

The following resolution was offered:

By Mr. Weber:

House Resolution No. 265

WHEREAS, The United States Geological Survey, the United States Coast and Geodetic Survey, and other governmental map-making agencies have recommended the adoption of a system of plane coordinates for the accurate location of points on the surface of the earth; and

WHEREAS, Such recommendations have been approved by the American Society of Civil Engineers, by the County Surveyors Association, by several State departments, and by high ranking officers in command of the United States Army and the several district heads of the United States Army Corps of Engineers; and

WHEREAS, There are existing in the State of California many such systems of plane coordinates in various localities of the State; and

WHEREAS, It is desirable that such local systems be unified in a general system; now, therefore, be it

Resolved by the Assembly of the State of California, That such a system of plane coordinates would aid in the establishment of a complete coverage by maps of the entire State and would facilitate the work of engineers in describing the location of permanent monuments necessary to the making of surveys for military and other purposes; and be it further

Resolved, That the United States Geological Survey, the responsible officers of the Army, the engineers employed by the cities, counties and the State, and also in the field of private engineering, adopt as the standard the California Coordinate System as set forth in Assembly Bill No. 1409 printed herewith as follows:

An act to define and officially adopt a state-wide system of plane coordinates for designating and stating positions of land survey points within the State of California, and permitting, but not requiring, the use thereof, in survey maps and other documents.

The people of the State of California do enact as follows:

SECTION 1 The system of plane rectangular coordinates hereinafter described shall be known and designated as the "California Coordinate System."

For the purpose of the use of this system the State is divided into seven zones: Zone 1, Zone 2, Zone 3, Zone 4, Zone 5, Zone 6, Zone 7.

The areas now included in the following counties shall constitute Zone 1: Del Norte, Humboldt, Lassen, Modoc, Plumas, Shasta, Siskiyou, Tehama and Trinity.

The area now included in the following counties shall constitute Zone 2. Alpine, Amador, Butte, Colusa, El Dorado, Glenn, Lake, Mendocino, Napa, Nevada, Placer, Sacramento, Sierra, Solano, Sonoma, Sutter, Yolo and Yuba.

The area now included in the following counties shall constitute Zone 3: Calaveras, Madera, Marin, Mariposa, Merced, Mono, San Joaquin, Santa Cruz, Stanislaus, Tuolumne, Alameda, Contra Costa, San Mateo, San Francisco and Santa Clara

The area now included in the following counties shall constitute Zone 4: Fresno, Inyo, Kings, Monterey, San Benito and Tulare.

The area now included in the following counties shall constitute Zone 5: Kern, San Luis Obispo, Santa Barbara, Ventura and San Bernardino.

The area now included in the following counties shall constitute Zone 6: Imperial, Riverside, San Diego and Orange.

The area now included in Los Angeles County shall constitute Zone 7.

SEC. 2. As established for use in Zone 1, the California Coordinate System shall be named, and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 1."

As established for use in Zone 2, the California Coordinate System shall be named, and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 2."

As established for use in Zone 3, the California Coordinate System shall be named, and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 3."

As established for use in Zone 4, the California Coordinate System shall be named and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 4."

As established for use in Zone 5, the California Coordinate System shall be named and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 5."

As established for use in Zone 6, the California Coordinate System shall be named and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 6."

As established for use in Zone 7, the California Coordinate System shall be named and in any land description, report of survey, map or other document in which it is used it shall be designated, the "California Coordinate System, Zone 7."

SEC. 3. The plane rectangular coordinates of a point on the earth's surface, to be used in expressing the position or location of such point in the appropriate zone of this system, shall consist of two distances, expressed in feet and decimals of a foot. One of these distances, to be known as the "x-coordinate," shall give the position in an east-and-west direction from the Y axis; the other, to be known as the "y-coordinate," shall give the position in a north-and-south direction from the X axis. These coordinates shall be made to depend upon and conform to the plane rectangular coordinates of the triangulation and traverse stations of the United States Coast and Geodetic Survey within the State of California, as those coordinates shall be determined to conform with provisions contained in Section 5 of this act. The Y axis of any zone shall be parallel to the meridian passing through the point of control of that zone.

SEC. 4. When any tract of land to be defined by a single description extends from any one into another of the above coordinate zones, the positions of all points on its boundaries may be referred to either of those zones, the zone which is used being specifically named in the description.

SEC. 5. For the purpose of more precisely defining the California Coordinate System, the following definition is adopted:

The California Coordinate System, Zone 1, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $40^{\circ} 00'$ and $41^{\circ} 41'$, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $122^{\circ} 00'$ west longitude and the parallel $39^{\circ} 20'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 2, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes

38° 20' and 39° 50', along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian 122° 00' west longitude and the parallel 37° 40' north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

House Resolution No. 271

Relative to congratulating Thomas A. Maloney

WHEREAS, Thomas A. Maloney, our capable and genial Speaker pro tempore, known to most of us as "Senator," a title reminiscent of his eight years of service in the Senate, is now serving in this Legislature for the tenth consecutive session, representing his native City of San Francisco; and

WHEREAS, It often seems that in addition to the excellent representation given in the capable discharge of his official duties as a Legislator and officer of this Assembly, Thomas A. Maloney is in his person more than a representative and is in fact an emanation of his beloved city itself, for in his eyes may be seen the grey-blue color of San Francisco Bay, his smile reflects the sunlight which falls so warmly on the Mission Hills, the life and power of the great city are well expressed in his grasp of the complex economic and social problems of this era, while his integrity, his capacity for lasting friendship, his ready human sympathy, his love of fun, and the warmth of his personality all reflect the great open-handed hospitality and love of life which is the soul of San Francisco; and

WHEREAS, In this Legislature Thomas A. Maloney has been ever quick to extend a helping hand to new members, and by his ready understanding, his congenial demeanor, and his knowledge of legislation, won the esteem and friendship of his colleagues and all others acquainted with the work of the Legislature; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of this Assembly congratulate Thomas A. Maloney upon his long and successful service in the Legislature of California and upon the host of friends he has made here, and commend him for the splendid and statesmanlike service which he has given to the people of his district and to the people of California; and be it further

Report of Assembly Interim Committee on Public Morals

To the Speaker and Honorable Members of the Assembly

Your Assembly Interim Committee on Public Morals, created by resolution of the Assembly (No. 50) on January 23, 1941, renders herewith the report of its activities since its creation:

One of the first matters to be brought before your committee was the subject of commercial prostitution and juvenile delinquency, especially delinquency in the instance of teen-age girls.

In the matter of prostitution, we found that a widespread attack had already been made on this vice under the direction of Edwin J. Cooley, Chief of the Public Welfare Department of the Federal Security Administration.

Working directly with Army and Navy authorities, Mr. Cooley and his administration have succeeded, very largely, in eliminating commercialized prostitution in the vicinity of Army and Navy establishments and in various metropolitan centers wherein are situated tremendous National defense projects.

We found in most instances that local police authorities were not only willing to cooperate with the Federal Security Administration, with the Navy Shore Patrol and the Army Military Police, but in numerous cases had already taken definite action of their own to end this vicious menace to the health of our armed forces and defense workers.

Your committee found that certain tavern operators in various parts of the State were allowing their premises to be used by professional prostitutes as a center of operations, and that some tavern operators were also allowing loose women to frequent their establishments for the purpose of preying upon members of the armed forces. When this condition was called to the attention of the alcoholic beverage industry, complete cooperation was immediately forthcoming.

Liaison Committee

Leaders of the alcoholic beverage industry set up a liaison committee to aid in coordinating activities of the Army and Navy Police administration and the California State Board of Equalization enforcement officials. The member of the Board of Equalization in Los Angeles is to be congratulated on his active cooperation in establishing a general policy of suspending for the duration of the war the license of any tavern operator whose establishment had been placed "out of bounds" by military authority because of unsavory conditions. Through its liaison committee the alcoholic beverage industry should be credited in large part with the success of eliminating commercialized vice conditions in the Los Angeles area through their effective methods of self-regulation.

Similar credit must be given to tavern owner associations in various other parts of the State, particularly in Vallejo, the Oakland and East Bay area and in San Joaquin and Sacramento Valley areas.

Efforts of tavern owners and the alcoholic beverage industry to effect a self-regulation in the San Francisco area were equally forceful, having called a meeting in the State Building at San Francisco and therein pledged 100 per cent cooperation with

military authorities, but such efforts were greatly hindered by the seeming indifference of the member of the California State Board of Equalization in that area.

Prostitution

It is our opinion that the decisive action of certain members of the Board of Equalization in revoking or suspending for the duration of the war, licenses of tavern operators who allow their places to be used as a rendezvous for prostitutes has gone far toward eliminating the menace of commercialized prostitution.

We can not commend too highly the splendid cooperation given all enforcement agencies by leaders of the alcoholic beverage industry generally for their efforts at self-regulation of their industry. It is our belief that such accomplishments in self-regulation have gone a long way toward obviating a possible return of prohibition.

Race Tracks

In the matter of horse racing we find that every race track in the State has suspended operations for the duration of the war with the single exception of Bay Meadows.

Santa Anita, Tanforan, Hollywood, and others were either taken over by military authorities in the interest of National defense or track officials themselves took the initiative in directing their energies to war defense activities.

This, indeed, is a high tribute to the racing interests of California.

Separate Liquor Board

Your committee notes that there has been considerable agitation for a separate alcoholic beverage enforcement authority to take these functions from the State Board of Equalization.

This movement should be carefully watched by future interim committees as well as by the entire membership of the California State Legislature with a view toward better enforcement of existing legislation.

We recommend that there be closer cooperation between local police authorities and State enforcement of alcoholic beverage laws. Local communities share in the allocation of revenues derived from the issuance of alcoholic beverage licenses and, therefore, local authorities should take a more active part in enforcing such laws in their own communities.

It appears to us that there is sufficient legislation now on the statutes to make strict enforcement of such laws possible, but, if in the opinion of the State Board of Equalization this is not so, or if current laws can not be enforced, then the board should make recommendations to the Legislature which will be more than willing to enact such legislation as will be deemed sufficiently adequate to make enforcement more fully effective.

Senate Bill No. 552

Attention is directed to the enactment of Senate Bill No. 552 which in future bars candidates for election to the State Board of Equalization from soliciting contributions for political campaigns from licensees and tavern operators.

We condemn all those who either participated in such activities in the past or who knowingly allowed such conditions to exist. This condition was particularly flagrant in the campaign conducted by a certain candidate for membership of the State Board of Equalization in District No. 2. This reference is not made to the present member of the board from that district, who was outspoken in his denunciation of such practice during his campaign for election. It would almost appear that a contributing factor in his election was the outgrowth of feeling on the part of licensees who had been high-pressured into making monetary and other contributions to the campaign of his defeated opponent. We recommend that Members of the Legislature observe the operation of Senate Bill No. 552, and in the event it proves inadequate in any respect, additional and more drastic penalties be provided to insure an end to past pernicious practices.

Congressional Criticism

We here again make comment on the criticism directed against the District 1 member of the Board of Equalization by a Congressional committee investigating moral conditions in the vicinity of Army camps. So outspoken was this criticism toward this particular member that we feel that it could, by implication, apply to the entire State of California—which is not the case.

We recommend that this particular member of the Board of Equalization arrange his future conduct as a State official in such manner as to eliminate any stigma from his administration and place himself in line with other members of the board.

Board Commended

We have the highest commendations for all other members of the State Board of Equalization, including ex officio member Harry B. Riley. Their administration of the alcoholic beverage laws in their respective districts has been of the highest caliber.

In particular, we wish to pay a well-deserved tribute to Richard Collins, chairman of the State Board of Equalization. Mr. Collins is the oldest public servant in the State of California and enjoys the love and respect of the entire Legislature and the people of California.

We here wish to stress the fact that the alcoholic beverage industry in the State of California outranks that of any other State of the Union for its fairness and workability. And this is not only from the viewpoint of public revenue but also from its overall protection to the general public as well as the alcoholic beverage industry itself.

This success is very largely due to the able administration of California State Liquor Administrator George M. Stout and his staff of enforcement personnel.

Increase Salaries

It is our recommendation that the State Personnel Board immediately make a survey of salaries paid to the State Liquor Administrator and his entire staff to the end that all salaries be increased to a point where these offices and positions are made sufficiently attractive to keep those persons in their present positions.

It must be remembered that these individuals are given the responsibility of protecting the State against loss of revenue from this source and are also made, in large part, custodians of public welfare.

It is apparent that at present high salaries and wages as paid in defense industries the State can not expect to retain this high type of State employee unless they receive monetary remuneration sufficiently attractive to hold them in their present positions.

In connection with State revenue derived from the alcoholic beverage industry, as currently administered, it is interesting to note that under a recently adopted reporting system, revenues from distilled spirits excise taxes increased \$4,159,090.18 while expenditures decreased \$63,669.19.

According to data compiled by Mr. Frank N. Mason, chief of the Bureau of Tax Assessments, Alcoholic Beverage Control Division, this represents a reduction in percentage of expenditures to revenue from 0.158 to 0.075 or a decrease in cost per unit of 53 per cent. Similar increases in beer and wine revenue are evident.

Wine Industry

Wine making and grape growing form a major portion of the basic agricultural economy of California. Through the cooperative efforts of California's wine industry, and by virtue of the enormous National advertising program now in progress on California wines plus the entry of large National interests into the wine industry of California, this industry has brought home to the wine drinking public of America the fact that California wines are a product of outstanding excellence.

These National organizations will place at the disposal of California wine makers and grape growers the years of experience derived from scientific and laboratory studies which will be of inestimable benefit to our vineyardists, our vintners and agricultural resources generally.

We recommend that every possible encouragement be given to developments along this line because of the great importance the California wine industry will play in the postwar period. It is evident that the vineyards of war-torn Europe have been destroyed or neglected and that stores of virtually all European wines have been dissipated. It will be years before the vineyards of Europe can hope to come again into full production. The postwar world will therefore look to California for its wine supplies, and we believe there is no limit to the possibilities of expanding horizons in this respect.

California is now, and in the course of years will increasingly be, in a position to dominate the wine market of the world; and the State of California, the California Department of Agriculture, and the universities of the State must take an active interest in making possible expanding developments in the wine industry.

Liquor Rationing

Another phase of interest to public morals is the potential increase in bootlegging as a result of diminishing supplies of distilled alcoholic beverages.

American distilleries have been converted 100 per cent to the manufacture of alcohol for smokeless powder, synthetic rubber, and other vital war materials. As a result, existing stocks are being rapidly depleted.

In order to conserve supplies so that they may stay in business after the war, or until they may again begin the manufacture of distilled spirits, distillers have been forced to ration their product to wholesalers and distributors, who, in turn, have been forced to ration available supplies to retailers.

It is our recommendation that retailers and tavern owners place in effect some voluntary rationing system of their own in order that they, too, may remain in business and that existing supplies may receive the widest possible distribution.

This voluntary rationing on the part of the retailer and tavern operator is also important from the viewpoint of continued revenue to the State of California from this source.

Agricultural Resources

In conclusion, your committee believes that because a substantial part of State revenue is derived from the alcoholic beverage industry and its source of raw material,

barley, grain, hops, fruit, and grapes—California's agricultural resources—that fullest encouragement and protection be given those who derive their livelihood from this source; the small ranch owner as well as those who have made heavy financial investments in the industry.

We believe that this can best be accomplished through a fair and impartial enforcement of existing legislation, administered by responsible members of the State Board of Equalization and enforcement officials under the State Liquor Administrator.

We believe that this protection and encouragement of the development of California's agricultural resources is in the best interest of public welfare and morals.

COMMUNICATIONS

The following communication was received and ordered printed in the Journal:

WISCONSIN LEGISLATURE, SENATE CHAMBER
OFFICE OF THE CHIEF CLERK
MADISON, April 27, 1943

*Speaker of the House
State Capitol, Sacramento, California*

DEAR SIR: I am transmitting herewith an enrolled copy of a Joint Resolution adopted by the 1943 Wisconsin Legislature entitled, "Directing the Wisconsin Commission on Interstate Cooperation to study the effects of the enlargement of the activities of the Federal Government in various fields of taxation and regulation and to report to the Legislature its findings and recommendations as to the restoration to the State of Wisconsin of its rightful powers and duties as a sovereign State."

Very truly yours,

LAWRENCE R. LARSEN, Chief Clerk, Senate

STATE OF WISCONSIN

[Jt. Res. 14, S]

No.-----, 1943.

A JOINT RESOLUTION

Directing the Wisconsin commission on interstate cooperation to study the effects of the enlargement of the activities of the federal government in various fields of taxation and regulation and to report to the legislature its findings and recommendations as to the restoration to the state of Wisconsin of its rightful powers and duties as a sovereign state.

WHEREAS, Employment in the federal service in the numerous boards, bureaus and commissions, according to latest available figures for October 1942, has run into an all-time high of 2,687,093 persons; and

WHEREAS, The monthly pay roll of the numerous employes of such boards, bureaus and commissions for the month of October 1942, was the sum of \$445,135,852, and the total pay roll for the period October 1941 through October 1942 for such federal employes reached the staggering sum of \$4,199,653,711; and

WHEREAS, There have been created by executive order during the last calendar year up to September 1 a total of 19 boards, bureaus and commissions; and

WHEREAS, The concentration in Washington of the numerous boards, bureaus and commissions has created a problem of grave concern to each individual state; and

WHEREAS, It will be necessary after the termination of the present world-wide emergency to end the functions of all of the various and numerous temporary boards, bureaus and commissions and to cut the expenditures of our federal government to peace-time needs; and

WHEREAS, The federal government has in recent years by taxation, regulation, proclamation and executive decrees, assumed responsibilities and the regulation of

approximately every kind of business and human activity, practically all of which subjects and responsibilities were heretofore reserved to the various states; and

WHEREAS, The collection of all taxes by the federal government in Wisconsin has increased from approximately 95 million dollars in 1940 to the record total of more than 305 million dollars in 1942, the largest collection being the federal income tax which jumped from 67 million dollars in 1941 to 206 million dollars in 1942; and

WHEREAS, The extension of the tax bases by the federal government and the imposition of unprecedented high rates of taxes, particularly on income, leaves little if any opportunity for the states which have the same or similar bases to look to those sources for additional revenue; and

WHEREAS, It is necessary in the maintenance of a united nation, that the individual states maintain the rights reserved to them, and that further encroachments by the federal government in the field of regulation and social legislation be considered in the light of rights of individual states; and

WHEREAS, The states of this nation by integrated and aggressive action can stop the growing centralization of power in Washington and effect a return to the states of state powers and functions and the re-establishment of state sovereignty; now, therefore, be it

Resolved by the Senate, the Assembly concurring. That the Wisconsin commission on interstate cooperation be and it is hereby directed to study and report its findings to the next regular or special session of the legislature as to:

(a) The specific fields entered, and for all practical purposes taken over, by the federal government during the past 10 years.

(b) The most effective means available by which Wisconsin can apprise the federal government of the need of reserving to the states their just rights, powers and responsibilities and such recommendations as it may deem necessary for the formation of an organization of states in which each state will be represented to formulate a program to prevent further encroachment by the federal government upon the rights, duties and powers of the states of the union. Be it further

Resolved, That copies of this resolution be sent to the presiding officer of each branch of the other 47 state legislatures and to the council of state governments at Chicago and that they be invited to participate in a program designed to have restored to the individual states their just duties and powers. Be it further

Resolved, That the representatives in the Congress from Wisconsin be invited to participate in the deliberations of this committee and that copies of this resolution be transmitted to each such representative from Wisconsin.

MOTION TO PRINT PROGRAM IN JOURNAL

Mr. Waters moved that the following Tax Reduction Program, enacted during the Fifty-fifth Session of the Legislature, be ordered printed in the Journal:

Motion carried.

Tax Reduction Program Enacted During the Fifty-fifth Session of the State Legislature

Summary

The Tax Reduction Program recommended by Governor Earl Warren and adopted by the 1943 State Legislature will decrease the amount of State taxes paid by California citizens approximately \$67,390,000 during the 1943-1945 Biennium and will afford material relief to local property taxpayers. The principal features of this program include:

A reduction in the retail sales tax rate from 3 per cent to 2½ per cent, effective for a two-year period beginning July 1, 1943.

An increase in the personal exemptions allowed under the State income tax from \$1,000 (single) and \$2,500 (married or head of family) to \$2,000 and \$3,500, respectively, and a decrease in the maximum rate of tax from 15 per cent to 6 per cent. The increase in personal exemptions are effective only upon the tax payable in 1944 and 1945 unless further extended by the Legislature. The decrease in maximum rate is a permanent revision.

A 15 per cent credit against the amount of bank and corporation franchise taxes payable in 1944 and 1945.

A 15 per cent credit against the corporation income tax payable in 1944 and 1945.

The transfer of two-thirds of the share of aid to needy aged now paid by county governments, which rely upon property taxes, to the State, thus providing substantial tax relief to property owners.

In addition, a total of approximately \$43,600,000 of the revenue received under the sales tax, franchise tax, and corporations income tax will be earmarked as a reserve to meet the postwar employment needs of the State.

* Amounts shown for the bank and corporation franchise tax take into consideration the reduction in the rate of tax imposed upon banks from a maximum of 8 per cent to 5 per cent, effected by the adoption of Senate Bill 341. This bill accounts for approximately \$1,500,000 of the \$11,920,000 reduction in the bank and corporation franchise tax.

Retail Sales and Use Taxes

Since 1933, the State of California has levied a tax upon tangible personal property sold for consumption within this State. During the first two years of this levy the rate was 2½ per cent and exemptions were restricted principally to those commodities which the State was prevented from taxing either by the Constitution of the United States or by the Constitution of the State of California. In 1935, the Sales Tax Act was amended to exempt foodstuffs and to increase the rate of tax to 3 per cent. This rate has been maintained since that time and it was estimated in connection with the 1943-1945 State Budget that revenue from this source between July 1, 1943, and June 30, 1945, at the 3 per cent rate, would total \$201,000,000.

Senate Bill No. 103, enacted by the 1943 State Legislature makes two important changes in the Sales Tax Law. First, it reduces the rate to 2½ per cent for the two-year period beginning July 1, 1943, and ending June 30, 1945. This decrease in rate will reduce the amount of sales tax paid by the residents of California approximately \$28,500,000 in the coming two years, making the estimated total from that source \$172,500,000.

The second change provided in Senate Bill No. 103 relates to the earmarking of a portion of the sales tax to meet postwar employment needs. During the 1943-1945 Biennium, one-fifth of the revenue received under the retail sales and use taxes will be deposited in a Special Postwar Employment Reserve in the State treasury, to be expended only when appropriated by the Legislature for public projects and improvements in the postwar period. In the meantime, this reserve as it accumulates will be invested in war bonds and other obligations of the Federal Government. It is estimated that during the next two years \$34,500,000 will thus be set aside out of sales tax revenue to provide employment for citizens released from the armed forces and private industry following the relaxation of the war effort.

Personal Income Tax

The State income tax was first enacted in 1935 and except for relatively minor revisions in the law, has remained unchanged since that time. The California act requires a tax from all residents having taxable annual incomes in excess of \$1,000, if single, and \$2,500, if married or head of a family. Rates of tax are graduated from 1 per cent on incomes of \$5,000 per year or less to 15 per cent on incomes in excess of \$250,000. It was estimated that the State's revenue from this tax would amount to \$78,500,000 during the 1943-1945 Biennium, if no changes were made in the Income Tax Act.

Assembly Bill No. 876, as enacted by the State Legislature, revises the income tax law in two particulars. First, the personal exemptions are raised from \$1,000 to \$2,000 for single persons and from \$2,500 to \$3,500 for married persons or heads of families. Thus, during the next two years, only those residents with incomes in excess of \$2,000 (single) and \$3,500 (married or head of family) will be required to file State income tax returns and pay the tax. Second, Assembly Bill No. 876 reduces the maximum rate of tax from 15 per cent on taxable income in excess of \$250,000 to 6 per cent on income in excess of \$30,000. Because California is one of only two States with a 15 per cent maximum rate and because the majority of States having income taxes utilize considerably lower rate schedules than that in California, the 6 per cent maximum rate is made a permanent feature in the California act. The increase in exemptions, however, expires in 1945 unless further extended by the Legislature.

As a result of this legislation, California income taxpayers will pay approximately \$26,000,000 less in State taxes during the next biennium. However, almost half of this reduction will be taken up automatically in higher income tax payments to the Federal Government where the need for additional revenue is most pressing.

Bank and Corporation Franchise Tax

California has imposed a tax upon the incomes of banks and corporations since 1929. Since 1935, the rate of tax has been 4 per cent on all mercantile, manufacturing, and general corporations and a maximum of 8 per cent on banks and financial corporations. Budget estimates placed the revenue from this source during the 1943-1945 Biennium at \$102,350,000.

The rate of tax remains the same under the 1943 Tax Reduction Program, but beginning with the payments received in 1944, and extending through 1945, banks and corporations will be allowed a 15 per cent credit against the amount of their State taxes. In addition, Assembly Bill No. 883 provides that 10 per cent of the revenue from this source will be held in reserve for postwar needs in the same way that 20 per cent of the sales tax receipts will be earmarked for this purpose.

Another measure, Senate Bill No. 341, adopted by the 1943 Legislature reduces the tax imposed on banks from a maximum of 8 per cent to a flat 5 per cent. Although possibly not strictly a part of the Tax Reduction Program, this bill must be considered in evaluating the effect of Assembly Bill No. 883.

As a result of these measures, the State tax on banks and corporations during the 1943-1945 Biennium will be reduced \$11,920,000, while \$9,040,000 will be earmarked for postwar employment.

Corporation Income Tax

As a corollary to the bank and corporation franchise tax, the State of California imposes a tax upon corporations operating in this State which are not legally subject to the franchise levy. Revenue from this source was estimated in the 1943-1945 Budget at \$650,000. By the enactment of Assembly Bill No. 884, a 15 per cent credit is extended upon the tax due in 1944 and 1945, resulting in a tax reduction of \$70,000, while 10 per cent of the remaining revenue from this source, or \$60,000, will be placed in the Postwar Employment Reserve.

Local Property Taxes

By transferring a portion of the cost of aid to needy aged from the various counties to the State Government, the 1943 Legislature afforded substantial relief to local property taxpayers through the enactment of Senate Bill No. 1086. In the past, the State and counties have borne the cost of old age assistance, after deduction of Federal contributions, on a 50-50 basis. Senate Bill No. 1086 requires

the State to pay five-sixths of the balance after Federal contributions, and the counties to pay one-sixth. If there had been no other changes in the Old Age Security Law, this legislation alone would have saved local property taxpayers approximately \$21,600,000 during the 1943-1945 Biennium.

However, the 1943 Legislature also increased the amount of aid to needy aged persons from \$40 to \$50 per month. It is anticipated that this increase in the monthly aid payments, together with other liberalizations in the Aged Aid Law, will bring additional persons under this welfare program with the result that the total cost will increase from \$129,953,000 to \$202,000,000 for the 1943-1945 Biennium. This increase in number of cases will tend to offset some of the benefit which would otherwise accrue to property taxpayers by the enactment of Senate Bill No. 1086. It is estimated that the total cost to the counties of the liberalized Aged Aid Program and new sharing ratio during the 1943-1945 Biennium will be \$19,333,000, or a reduction of \$13,030,000 from the amount which it would have been necessary to raise from local property taxes had there been no changes in the Aged Aid Law.

WHEREAS, It is the practice of the Code Commission to prepare preliminary drafts of proposed codes in mimeographed form for distribution to interested persons and groups for study and criticism prior to submission to the Legislature, but distribution by such means is necessarily limited; and

WHEREAS, If such proposed codes were printed they could be more widely circulated among interested persons and groups, thus enabling them to receive the careful scrutiny to which proposed legislation of such importance is entitled; now, therefore, be it

Resolved by the Assembly of the State of California, That the California Code Commission is hereby directed to prepare for printing as soon as practical after the adjournment of the 1943 Session of the Legislature, such codes or portions thereof as it proposes to submit to the next session of the Legislature for consideration, and immediately upon such printing to distribute the same to all interested persons and groups; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to have not to exceed 1,500 copies of each of such proposed codes printed, the cost thereof to be payable from the legislative printing appropriation.

Article 1A. Temporary Provisions, Conditions, Standards or Prices

35. The Legislature hereby declares that in order to protect the agricultural interests of the people of this State and to conserve the agricultural wealth of the State and protect the health and general welfare of our citizens during the continuance of the wars in which the United States is now engaged, and in order to maintain or enforce State laws, orders or regulations prescribing conditions, standards or prices it is necessary that provision be made for the formulation of conditions, standards, or prices to take the place of those conditions, standards or prices which are rendered ineffectual or unenforceable by reason of any conflict with a Federal law, order or regulation made under the Federal war powers.

Whenever the director shall be notified in writing by the Attorney General of this State that any provision, condition, standard or price established by or under authority of this code is in conflict with a Federal law, order or regulation made under the Federal war powers, and is thereby rendered ineffectual and unenforceable, he shall prepare proposed new provisions, conditions, standards or prices to take the place of such provisions, conditions, standards or prices declared by the Attorney General to be in conflict as aforesaid, and shall as soon as reasonably possible call a public hearing to consider the same at a place within the State that he deems suitable

Notice of such hearing shall be given at least five days prior thereto by publication in a newspaper of general circulation printed and published in the County of Sacramento and in a similar newspaper printed and published in the county where such hearing is held.

At such hearing the director shall receive and hear the evidence of all interested persons which shall be taken under oath, and all written evidence and exhibits introduced at such hearing shall be preserved and open to inspection by any interested person.

If from the evidence and data produced at such hearing and from such other knowledge and information as the director may have he shall find in writing:

1. That the conflict between the existing provision, condition, standard or price and the Federal law, order or regulation and the consequent unenforceability of such provision, condition, standard or price seriously impairs or prevents the effectuation of the purpose and intent of such provision, condition, standard or price or of the statute of which it is a part;

2. That the effectuation of the purpose and intent of such provision, condition, standard or price or of the statute of which it is a part will be best served by the adoption of such new provision, condition, standard or price as will remove such conflict with the Federal law, order or regulation;

3. That the new provision, condition, standard or price is as similar to the existing provision, condition, standard or price as is reasonably possible without being in conflict with such Federal law, order or regulation;

4. That the new provision, condition, standard or price will protect the agricultural interests of the people of this State and conserve the agricultural wealth of the State and protect the health and general welfare of our citizens during the life of the Federal law, order or regulation in conflict with the existing provision, condition, standard or price.

Then, and upon such findings, the director shall transmit his determination and recommendations thereon to the Governor. The Governor shall review the determination and recommendations so submitted and if he finds that the purposes and objectives of this section are to be attained thereby shall issue an order formulating and making effective such new provision, condition, standard or price.

Such new provisions, conditions, standards or prices so formulated and made effective shall continue in force and effect only during the life of such Federal law, order or regulation in conflict with the original existing provision, condition, standard or price, and while in force and effect shall supersede the original existing provision, condition, standard or price and be administered and enforced by the director in the same manner and to the same extent, and violations thereof shall be subject to the same penalties, as provided in the case of such original existing provisions, conditions, standards or prices.

Upon the termination of this act all provisions, conditions, standards and prices formulated and made effective hereunder shall immediately terminate and cease and be of no further force or effect and any and all original existing provisions, conditions, standards or prices so temporarily superseded shall be and become in full force and effect as though no new provision, condition, standard or price had been formulated and made effective hereunder. The same shall be true at any sooner time upon the expiration of the life of any such conflicting Federal law, order or regulation as to the particular provisions, conditions, standards or prices affected thereby.

As used in this section, 'director' means Director of Agriculture, except with reference to Article 1 of Chapter 3 of Division 5 and Article 4 of Chapter 8 of Division 5 of this code; and as to those articles only, 'director' means Director of Public Health.

This article shall remain in force until the ninety-first day after final adjournment of the Fifty-sixth Regular Session of the Legislature or until the cessation of hostilities in all wars in which the United States is now engaged, whichever first occurs."

RESOLUTIONS

The following resolutions were offered:

By Mr. Rosenthal:

House Resolution No. 274

Relative to the Boy Scouts of America

WHEREAS, The Boy Scouts of America have in addition to their usual activities carried out many projects of National as well as local value connected with the National war emergency—they have sold war bonds and stamps, collected tin cans, scrap iron, aluminum, and other products—they have trained and acted as messengers to distribute instruction sheets, notices and signs used in the civilian defense program; they have trained and are prepared to act as assistants in first aid in black-outs, bombing raids, or other disasters; and

WHEREAS, The wartime activities of the Boy Scouts of America are worthy of the highest praise of the people of the United States; and

WHEREAS, National and local area council chiefs of staff, officers, leaders, instructors, and the parents of Boy Scouts have all contributed of their time, work, advice, and financial support of the wartime activities of the Boy Scouts of America; now, therefore, be it

Resolved by the Assembly of the State of California, That the members hereof pass this resolution in commendation of the multifarious activities of the Boy Scouts of America, their officers, leaders, instructors, and parents, and in praise of the excellent manner in which their activities have been undertaken and performed; and be it further

By Messrs. Middough, Burkhalter, Anderson, Haggerty, Bennett, Thomas, Kilpatrick, Heisinger, Doyle, Gaffney, Crichton, Rosenthal, Dills, Ralph C. O'Day, and Dills, Clayton A.:

House Resolution No. 275

Relative to aid to the aged

WHEREAS, The welfare of the aged of the State is of the greatest importance to the people of the State, and the laws providing for public assistance to aged persons should be administered in a considerate and benevolent manner; and

WHEREAS, It has come to the attention of the Members of the Assembly that some of the places used for the administration of aid to the aged are difficult of access for the aged, or located on the upper floors of public buildings and are not served with an elevator and elevator operator, so that the strength of aged persons is sorely taxed when they find it necessary to present themselves at such places; and

WHEREAS, It has been suggested that the new provisions of Welfare and Institutions Code Section 2163 2, as added thereto by Assembly Bill No. 1994, which provide that personal property does not include personal effects, but that personal effects do not include jewelry, may be construed or interpreted to make the limitations on personal property apply to the engagement rings and wedding rings cherished by applicants for and recipients of aid to the aged; now, therefore, be it

Resolved by the Assembly of the State of California, That it is the consensus of this Assembly that all places used for the administration of aid to the aged ought to be easily accessible to the aged or maimed, and either located on a ground floor or served with an elevator and elevator operator; and that all persons exercising any authority in respect to the selection and maintenance of such places are hereby memorialized to do everything in their power to see that such places are so located and so served; and be it further

Resolved, That the Members of the Assembly do not regard engagement and wedding rings as mere articles of personal adornment, but as enduring symbols of betrothal and holy wedlock; that, as such, engagement rings and wedding rings do not come within the term "jewelry" as used in Section 2163 2 of the Welfare and Institutions Code; and that in enacting that section it was the intention of the Assembly that engagement rings and wedding rings should be considered as personal effects and not as jewelry; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the State Social Welfare Board, and to the board of supervisors of every county in this State

Resolution read, and referred to Committee on Rules and House Functions.

By Mr. Rosenthal:

House Resolution No. 276

WHEREAS, The need for the reconstruction and improvement of the road described in this resolution is real and such reconstruction and improvement would be of great benefit to transportation in its vicinity, now, therefore, be it

Resolved by the Assembly of the State of California, That the following route be selected for reconstruction and improvement as a feeder road to the State Highway System in any postwar construction program conducted under authorization of the State Legislature and financed by appropriation made by the State Legislature:

From State Highway Route 172 to State Highway Route 26 via Indiana Avenue, in Los Angeles County.

Resolution read, and referred to Committee on Rules and House Functions.

By Mr. Johnson :

House Resolution No. 277

Relative to the birth of Ronald Goodman Gould

WHEREAS, It has come to the attention of the Assembly that Hazel Gould, the wife of Jay Gould, former Deputy Legislative Counsel and now Assistant Inheritance Tax Attorney, was presented with a second bundle of joy in the person of a second son, Ronald Goodman Gould; and

WHEREAS, This Assembly again wishes to rejoice with the proud parents in their happiness and desires again to extend to them its felicitations; now, therefore, be it

Resolved by the Assembly of the State of California, That it does hereby offer to Mr and Mrs. Jay Gould its best wishes and heartiest congratulations; and be it further

Resolved, That it is the further wish of the Assembly that Ronald Goodman Gould shall justify, as Jay Anthony Gould has justified, the fond hopes and expectations of his parents; and be it further

Resolved, That the Chief Clerk present to Mr. and Mrs. Gould a suitably engrossed copy of this resolution

Request for Unanimous Consent

Mr. Johnson asked for, and was granted, unanimous consent to take up House Resolution No. 277, at this time, without reference to committee.

Resolution read and adopted.

By Mr. Gaffney :

House Resolution No. 278

Relating to the creation of an Assembly Committee on Safety and Accident Prevention

WHEREAS, The National Safety Council reports that a total of 128,000 persons have been killed in accidents since the start of the war as compared with 12,123 deaths in the armed forces.

The California Industrial Accident Commission states that since the war 1,348 fatalities and 29,660 injuries have been reported to it

In 1942 there were 36,310 traffic accidents involving death or injury. Deaths totaled 2,671 for the year and injuries totaled 49,481. The 1942 figures show an improvement over 1941; but these traffic casualties of 1942 in California are practically equal to the total war casualties of the entire Nation for the first year since the Pearl Harbor disaster.

This huge waste of manpower on the home front is more important than ever before in view of the fact that the Nation is taking increasingly drastic steps to mobilize every available ounce of manpower to insure victory. It is necessary that every person be extra careful to avoid the loss of time that is hindering production and delaying the delivery of vital supplies and war materials to the armed forces; and

WHEREAS, The present session of the Legislature is functioning in time of war and may be called in special session on matters of a grave and necessary concern to a victorious conclusion of hostilities; now, therefore, be it

Resolved by the Assembly of the State of California, That each and every Member thereof constitute himself a committee of one to observe and study the underlying causes and circumstances surrounding traffic and industrial accidents in his locality for the purpose of recommending changes and proposing legislation designed to promote safety and prevent such accidents and thereby preserve all the manpower possible for the successful war effort

Resolution read, and referred to Committee on Rules and House Functions.

By Messrs. Waters and Maloney :

House Resolution No. 279

Relating to the appointment of an Assembly Interim Committee on Insurance

WHEREAS, The business of insurance is one peculiarly affected with a public interest in view of the fact that the people of this State have spent in excess of four hundred million dollars (\$400,000,000) for insurance premiums during the year 1940 and that such premium expenses have increased approximately at the rate of fifty million dollars (\$50,000,000) a year since then; and

WHEREAS, There are considered at each session of the Legislature various proposals to amend the insurance laws which are by their very nature technical and complex; and

WHEREAS, The Insurance Code has been in force for almost 10 years and has been the subject of much piecemeal amendment and contains some obsolete and anachronistic provisions and the entire field of insurance law and administration, exclusive of unemployment insurance, should be studied for the information and the assistance of the Members of this Assembly in considering legislation affecting insurance; now, therefore, be it

Resolved by the Assembly of the State of California, That there is hereby created an Assembly Interim Committee on Insurance to consist of three Members of the Assembly appointed by the Speaker. Vacancies of the committee shall be filled by appointment of the Speaker. The committee shall investigate, ascertain and appraise all facts concerning the administration, operation and enforcement of the laws relating to insurance (other than unemployment insurance) and to that end may meet with the Insurance Commissioner and participate in conferences conducted by him in matters relating to legislation and the enforcement of insurance laws; and be it further

Resolved, That the committee hereby created in exercising the powers and performing the functions vested in it by this resolution shall have: (i) All the powers conferred upon legislative committees by Article 8, Chapter 2, Title 1, Part 3 of the Political Code; (ii) and Sections 9400 to 9412, inclusive, of the Government Code, except when inconsistent with this resolution, all the powers conferred upon committees by the Rules of the Assembly and the Joint Rules of the Senate and Assembly as they are enacted and amended from time to time and such rules are hereby incorporated herein and made a part hereof the same as if they were set forth in this resolution in full; (iii) all powers necessary or convenient to accomplish the objects and purposes of this resolution, including but not limited to the following duties and powers:

(1) To select a chairman from its membership and to employ and fix the compensation of a secretary and such clerical, expert and technical assistants as it may deem necessary;

(2) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(5) To hold public hearings at any place in California at which hearings the people are to have an opportunity to present their views to the committee;

(6) To make a complete study, survey and investigation of every phase of the subject of this resolution, including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws, both Federal and State, in anywise bearing upon or relating to the subject of this resolution;

(7) To meet either during sessions of this Legislature or during any recess thereof at any and all places in this State, in public or executive session;

(8) To act during this session of the Legislature, including any recess thereof, and until the convening of the Fifty-sixth Legislature;

(9) To file reports with the Legislature during the Fifty-fifth Session thereof or any special extraordinary session thereof, and to file its final report with the Fifty-sixth Legislature;

(10) To summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, and records of every kind and description, to issue subpoenas and to take all necessary means to compel the attendance of witnesses and procure testimony; and

(11) To cooperate with and secure the cooperation of county, city, city and county and other local law enforcement agencies in investigating any matter within the scope of this resolution, and to direct the sheriff of any county to serve subpoenas, orders, and other process issued by the committee; and

(12) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution;

Resolved, That the committee, each of its members, and any representative of the committee thereunto authorized by the committee or by its chairman, is authorized and empowered to administer oaths; and be it further

Resolved, That the Insurance Commission and every department, commission, board, agency, officer and employee of the State Government, including the Legislative Counsel, the Attorney General and their subordinates, and of any political subdivision, county, city, or public district of or in this State shall furnish the committee and any subcommittee, upon request, any and all such assistance, and information, records and documents as the committee or subcommittee deems proper for the accomplishment of the purposes for which the committee is created; and be it further

Resolved, That the committee may make such representations and recommendations to the Federal Government as it may deem advisable, on any subject relating to the subject of its investigation, during such times as the Legislature may not be in session, and such representations and recommendations shall be representations and recommendations of the committee, and not of the Legislature; and be it further

Resolved, That the members of the committee shall serve without compensation but shall be allowed mileage at the rate of five and one-half cents (\$0 5½) per mile each way incurred in connection with their services upon the committee and other actual and necessary expenses for living accommodations and meals, incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals an allowance of ten dollars (\$10) per day; and be it further

Resolved, That the sum of one thousand two hundred dollars (\$1,200) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid equally from the Contingent Fund of the Assembly and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

RESOLUTIONS

The following resolution was offered:

By Messrs. Pelletier, Lyon, Maloney, Collins, Sam L., Stream, and Watson:

House Resolution No. 281

Commending and congratulating Charles W. Robbins

WHEREAS, Every bill passed by this Assembly is consigned to what in the minds of most of us is a mysterious nebulae called engrossing and engrassing; and

WHEREAS, Some persons in inquiring about engrassing and enrolling have wondered whether they should ask "What is it?" or "Who are they?" not knowing whether it was a process, like cleaning and pressing, or a team, like Burns and Allen; and

WHEREAS, It now appears that Engrossing and Enrolling is one Charles W. Robbins, a most faithful member of the staff of this Assembly whose work, though unseen, is a vital factor in the process of turning a legislative bill into a statute; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of this Assembly commend Charles W. Robbins upon the fine job he has done in seeing that so many bills have passed through amendment, reprinting, and enrollment without error, and they hereby extend felicitations to Charles W. Robbins and congratulate him that he has come through to the end of this session with no lines left out, no strange words inserted, no periods lost, and no commas left over; and be it further

Resolved, That the Chief Clerk of this Assembly transmit a copy of this Resolution, suitably engrossed by the Chairman of the Engrossing and Enrolling Committee, to Charles W. Robbins.

Request for Unanimous Consent

Mr. Maloney asked for, and was granted, unanimous consent to take up House Resolution No. 281, at this time, without reference to committee.

Resolution read and adopted unanimously.

OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 5, 1943

Honorable Charles W. Lyon, Speaker of the Assembly
Assembly Chamber, Sacramento, California

CONFERENCE COMMITTEES

DEAR MR. SPEAKER: You have advised us that the Senate has refused to concur in Assembly amendments to a Senate bill and in respect to the appointment of an Assembly Conference Committee have asked us the following questions :

Question

(1) Is the "point about which the difference has arisen" within the meaning of Joint Rule 28, the adoption of the bill as amended by the Assembly, or the adoption of an amendment if there be only one, or any particular amendment of various amendments, if there be more than one?

(2) As respects the Assembly, is the prevailing side confined to those members who voted for the amendment in issue, or does it include all those who voted for the bill?

(3) If the vote on final passage of the bill was unanimous, and the prevailing side consists of all those who voted for the bill (as distinguished from the amendments), should the minority be represented by one who voted against the amendments?

Opinion

(1) We think that the phrase "the point about which the difference has arisen" as used in Joint Rule 28, refers to the vote on passage of the bill and not to the vote on any amendment or amendments that may have been made to the bill.

(2) In such a case the prevailing side would be the side that voted for the bill upon final passage by the Assembly.

(3) Where the vote on final passage was unanimous, it is not required that the Speaker ascertain any dissenting vote in a preliminary stage of the consideration of a bill, although we have been advised that in the Senate it is customary in that house so to do, in order to secure adequate representation of all views.

Our reasons for these views are that unless the bill had been passed as amended, there could have been no point of controversy, and that there is always a roll call vote on final passage of the bill, and there is not necessarily such a vote on the adoption of amendments.

In addition, any other rule would be most difficult of application for in many cases bills are amended on several different days, and in some cases, various sets of amendments are adopted on the same day, which are not necessarily a part of a unified revision of the bill. In such a case, how can it be said which of the several amendments was the point in issue; to which did the Senate refuse to concur?

The use of the word "point" is explained by the history of Joint Rule 28. In 1937 and 1939 this rule was Joint Rule 29 and provided for a vote on whether or not the house in which the amendments were made would recede from the amendments.

Obviously, the point at issue in such a case would be the vote on whether or not the house would recede. In the other house the vote would be on whether or not that house would concur.

In 1941, the number of the Joint Rule was changed to No. 28, and appears to be in the same language as present Joint Rule 28. The language concerning the

question of receding was eliminated, and we think that it can be fairly assumed that it was eliminated because, in the vast majority of cases, the putting of the question was an idle act.

This could be on the assumption that all those who voted for the bill as it passed the house of amendment were still of the same mind and there would be no point in tendering them the same issue; whether or not they would still vote for the bill in its then present form.

Support for this view is found in the discussion in Section 564 of Mason's Manual of Legislative Procedure, where the author speaks of the point at issue as a "bill" in the following language:

Where there was a division in the house with reference to a bill, it is the established practice to appoint a majority of the committee from the prevailing side in the controversy, but to also appoint a representative from the minority. In committees of three, two will represent the majority and one, the minority, if any.

The bill concerning which the dispute exists as to amendments should be referred to the Conference Committee of the house in whose possession the bill remains.

Yours very truly,

FRED B. WOOD, Legislative Counsel
By SIDNEY L. WEINSTOCK, Deputy

Assembly Bill No. 879—An act to amend Sections 6051 and 6201 of the Revenue and Taxation Code, relating to the sales and use taxes, declaring the urgency thereof, to take effect immediately.

The question being: Shall the Assembly concur in the following Senate amendments to Assembly Bill No. 879?

Amendment No. 1

The money in the Postwar Employment Reserve may be invested and reinvested by the Director of Finance in bonds or other obligations of the United States, or for which the full faith and credit of the United States are pledged, and such securities may be sold or exchanged by the Director of Finance if, in his discretion, such sale or exchange appears to be in the best interest of the State in effectuating the purposes of this section. COMMUNICATIONS

By Mr. Rosenthal:

The following communication, referred to the Committee on Rules and House Functions, was ordered printed in the Journal:

To the Members of the California Assembly

LADIES AND GENTLEMEN: In response to House Resolution No. 140 which requires the Superintendent of Public Instruction to report to the Assembly relative to the possibility of establishing a junior college in Assembly District No. 40, may I report after a limited and cursory survey that, in my judgment, this matter should be brought before the attention of the State Board of Education at its next meeting. This body will in all probability select a special committee to make a detailed study in cooperation with the superintendent of the City of Los Angeles and the city board of education. This being the normal plan of procedure, we recommend that it be followed in this instance. Inasmuch as the Board of Education has full authority in matters of this kind, there appears to be no needed legislation to cover this matter.

Appreciating fully the desire of this important district for a junior college, I pledge hearty cooperation with the State Board of Education and the local city authorities as they study this problem.

In this connection it must not be overlooked that junior colleges throughout the State have decreased in enrollment more than 50 per cent since 1940-1941. The Fortieth Assembly District is served by the Roosevelt, Garfield, and Lincoln High Schools. Roosevelt enrollment for the seventh month of 1942 was 3,110, and for the same month in 1943, 2,314. Other schools show comparable decreases in enrollment. It is, therefore, evident that the number of students in the Fortieth Assembly District who would contemplate attending junior college will be greatly on the decrease. The City College in Los Angeles had an average daily attendance in the seventh month of 1942 of 4,016, while in the same month in 1943 it had an average daily attendance of 2,812.

In view of these significant decreases, I am sure that the Legislature will want a thorough and detailed study of the problem before action is recommended.

Respectfully yours,

WALTER F. DEXTER

(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA

GOVERNOR'S OFFICE, SACRAMENTO, May 5, 1943

To the Members of the Assembly of the State of California

GREETINGS: As a matter of urgency I am calling your attention to a legislative development in Washington which I believe is of the utmost importance to California and particularly to our elder citizens and our great farming industry.

Some weeks ago there was introduced in the House of Representatives a joint resolution "making an appropriation to assist in providing a supply and distribution of farm labor for the calendar year 1943."

Included therein, as a means of attracting farm labor, is the provision

"The Federal Security Administrator shall promptly notify each State that grants under such title will be available for the payment of old age assistance with respect to any person without regard to remuneration received by such person for agricultural labor performed by him during such period; and no State shall be required in determining need in the case of any individual."

The bill was passed in this manner but was sent to conference. In the conference the above provision was limited to those States which have not increased old age pension allowances since April, 1943. As far as we can ascertain there is at this moment but one State in the Union which has enacted such a statute this month.

It becomes apparent, therefore, that old age pensioners in every State in the Union except California are to be privileged to retain their earnings for agricultural labor and are thus to be encouraged to produce for victory. On the other hand, the senior citizens of California are to be deprived of that right and thus discouraged from participating in the war effort.

Whatever the reason for this change in the legislation may have been, it results in a gross discrimination against our State at a time when we are crying out for all of the farm labor that can be obtained. It would seem to be a penalty placed upon us merely because we have made an honest effort to adequately care for our deserving elders during times of abnormal living costs.

I have just been in conversation with Washington and have ascertained that the resolution in this form has been signed by the President. Any remedy for the situation would seem to lie in corrective legislation by Congress.

The matter is of sufficient importance, both to our senior citizens and to the agriculture of California now preparing for a victory harvest season, to warrant an immediate effort being made to undertake corrective action. If it were not for the fact that I must spend the next 30 days in California reviewing the bills passed by the Legislature, I would leave immediately for Washington to see if this discrimination can not be rectified in time to assist in the harvesting of crops this season. Someone should undertake the task. I am, therefore, of the opinion that the California Legislature should immediately take appropriate action in the matter and it is my suggestion to you that a joint committee be named to proceed to Washington immediately in an attempt to bring an end to such a discriminatory law.

Respectfully,

EARL WARREN, Governor

RESOLUTIONS

The following resolutions were offered:

By Mr. Maloney:

House Resolution No. 285

Relating to deduction of earnings from agricultural labor from old age assistance and the creation of a committee in respect thereto

WHEREAS, House Joint Resolution 96, as passed by the Senate of the United States included, as subdivision (f) of Section 5 thereof, provisions that no person should be deemed not to be a needy individual by reason of remuneration paid to such person for any agricultural labor performed by him from the enactment of the resolution until six months after the termination of hostilities in the present war; and that no State should be required, in determining need in the case of any individual, to take into consideration any income or resources derived by him from agricultural labor; and

WHEREAS, Conference reports amending House Joint Resolution 96 were adopted by both houses of Congress, whereby the benefits of the subdivision were withheld from any State which had increased the amount of aid payable to recipients of old age since April 30, 1943; and

WHEREAS, The State of California has at the present session of the Legislature increased the maximum monthly individual grant of aid to the aged from forty dollars (\$40) per month to fifty dollars (\$50) per month; and the State of California is the only State which has increased the amount of aid payable to recipients of old age assistance since April 30, 1943; and

WHEREAS, House Joint Resolution 96 in the form in which it was put by the amendments made by the Conference Report is flagrantly discriminatory against the State of California, and penalizes this State for its action in increasing the amount of aid to an amount more nearly adequate, under present conditions, for the maintenance of health and decency; and

WHEREAS, The farm labor shortage in the State of California is no less severe than in other States whose contributions to the production of food and other agricultural products do not surpass nor even equal the contribution of the State of California; now, therefore, be it

Resolved by the Assembly of the State of California, That a committee of the Assembly is hereby created, consisting of three Members of the Assembly appointed by the Speaker of the Assembly; and be it further

Resolved, That this committee is instructed and authorized to go to Washington to consult with the proper representatives of the Federal Government, the Federal Social Security Board, and with Members of Congress, and protest vigorously against this unfair and unjust discrimination against the State of California and the citizens of this State, and seek by every means possible to persuade the Congress of the United States to eliminate or, if H.R. 96 becomes law, repeal this deterrent against the procurement of all assistance possible in the production of food and fiber in this State; and be it further

Resolved, That the sum of two thousand five hundred dollars (\$2,500) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Assembly for the expenses and claims the members of the committee may incur under this resolution, to be disbursed upon certification by the chairman of the committee upon warrants drawn by the State Controller upon the State Treasurer.

Resolution read, and referred to Committee on Rules and House Functions.

MOTION TO PRINT IN JOURNAL

Upon motion of Mr. Sam L. Collins, the following statement by Mr. Guthrie, read by Speaker Lyon, was ordered printed in the Journal:

I have cowboied all of my life and have been on the wrong end of this law-making business. I broke 'em.

It's been a lot of fun moving this herd up the Victory Trail for Old Man Warren. With the Republican cowboys working out there on the point and us Democrats bringing up the drags. Back there in the dust we saw some amusing things as we worked on the south end of those little dogies going north.

In the poker game around the campfire at night we saw cowboy Wollenberg get plumb reckless with the Old Man's chips. And the next morning as we saddled up, it was hard to resist the impulse to stick a burr under this old cowboy's pony's tail so that the people of California might see the fun, but we Democrats think too much of the Boss to do that—yet. We saw the Old Man cross his elephant with his jackass, and we suspect that the offspring will be a little red deficit. The moral is that these two pets should play together less and fight more.

We never will forget that morning when the Assistant Trail Boss, Sam Collins, threw back the blankets and discovered that he had given birth to that anti-fourth term resolution. We Democrats were always allergic to that baby and were glad when the little cuss sickened and died. We never held that against Sam because we were all wild in our youth. He was simply used, abused, and abandoned by a Republican politician. On the rest of the trip every time one of us Democrats crawled in bed with a Republican, we always buckled on our spurs. You never can tell.

It's been a good trip. Trail Boss Charlie Lyon has sure rolled us out early in the morning and we always hit the trail before sunup, but the Old Boy is a square shooter and we love him regardless.

If any of you old boys ever stray down into the Joaquin, turn your horse out in the pasture and stay awhile. The latch string is always out.

"SECTION 1. In addition to any other sum appropriated, there is hereby appropriated out of any money in the State treasury not otherwise appropriated the sum of five hundred thousand dollars (\$500,000), or as much thereof as may be necessary, to the California State War Council, to be used by the War Council during the Ninety-fifth and Ninety-sixth Fiscal Years for supplemental support of child care centers created pursuant to Chapter 3 of Part 3 of Division 6 of the School Code and Chapter 11 of Division 9 of the Education Code.

SEC. 2. Of the sum hereby appropriated twenty-two thousand two hundred dollars (\$22,200) shall be expended by the State War Council only for the purpose

of making allocations to the Director of Education for the purpose of supervising such child care centers.

SEC. 3. The remainder of the sum hereby appropriated shall be expended by the California State War Council only for the purpose of making allocations to local districts which have established such child care centers, for the purpose of supplementing support from the Federal Government, parents of children cared for, and industry where those sources are insufficient to meet the costs of operating the child care centers.

SEC. 4. In making this appropriation, the Legislature makes the following statement of its intent:

(a) That child care centers are intended as emergency institutions, to be conducted for the period of the war only, and are to be discontinued completely within six months after the cessation of hostilities.

(b) That the Legislature views the problem of caring for children whose parents are employed in essential war industries as essentially a part of the National defense effort, and that the obligation of supporting the child care centers is primarily a Federal responsibility.

(c) That since the parents of the children are employed in industry, they are able to contribute to the cost of their care, and are primarily liable for furnishing the necessities of life for the children.

(d) That participation by the State or locality in payment of the costs of the program should be of supplementary or emergency nature only, until the Federal Government, parents, and industry can maintain its full support.

(e) That limitation of the operation to care for children of day workers only should be encouraged, and industry, parents, and school districts should be encouraged to arrange for employment of mothers in daytime only.

(f) That employment of mothers of more than two children of very tender years appears inadvisable except in extreme cases.

(g) That the Legislature recognizes that the cost of maintenance of the child care centers should not be imposed against local real property, but must be paid for upon a broader tax basis.

SEC 5. Before allocating the funds appropriated the California State War Council shall make every effort to arrange for support of the child care centers by the Federal Government, parents of the children, and industry. If sufficient funds for the purpose can not be secured from these sources, the War Council may allocate to the respective child care centers such sums as it deems necessary for supplemental use only.

SEC 6. Before making any allocation to any district, the California State War Council shall determine that the district is operating efficiently. In making such allocations the War Council shall not recognize costs based on elaborate organization or standards that are excessively high or extravagant.

SEC. 7. The California State War Council shall make a survey of the respective child care centers petitioning for allocation of funds, and after determining the necessity, costs, and support derived from the Federal Government, parents, and industry, shall allocate such sums to the respective child care centers as it deems necessary to insure their efficient operation.

SEC. 8. This act shall remain in effect until the one hundred eighty-first day after the cessation of hostilities in all wars in which the United States is now engaged, and the powers hereby conferred upon the California State War Council shall thereupon terminate."

Explanation of Vote

This bill was turned down by the Senate Elections Committee after a full and fair hearing. Then, afterward, without any hearing of or notice to the opponents of the bill, it was voted out to the floor of the Senate and passed. Some of the committee later voting for the bill never even heard the arguments. This is a very unfair practice to say the least. I have voted "No," on concurrence in the Senate amendments because I can not countenance such tactics.

"SEC. 5. Section 271 of the Vehicle Code is amended to read:

271. Grounds Permitting Refusal of License. The department may refuse to issue an operator's or chauffeur's license to any person:

(a) If the department is satisfied that the applicant is not entitled thereto under the provisions of this code.

(b) If the applicant has failed to furnish the department the information required in the application or reasonable additional information requested by the department.

(c) If the department determines that the applicant has made or permitted to be made unlawful use of any operator's or chauffeur's license.

(d) If the department determines that the applicant has used a false or fictitious name in any application for a license, or has knowingly made a false statement or knowingly concealed a material fact, or otherwise committed any fraud in any such application.

(e) *If the department determines that the applicant is an habitual violator of the traffic laws.*

SEC. 6. Section 276 of the Vehicle Code is amended to read:

276. Term and Expiration of Operator's License. Every operator's license hereafter issued shall expire four years from date of issuance and the department is authorized to cancel and require the renewal of any operator's licenses which have been outstanding four years or more. In the event an operator's license expires during the month of January the department may extend such license for a period of 30 days.

If an applicant for an operator's license has any physical or mental infirmities which, in the opinion of the department, may, during the term of the license to such person, result in his inability to exercise reasonable and ordinary control in the operation of a motor vehicle, the department may issue a license to such person to expire on any date less than four years from the date of issuance as it may consider advisable.

Whenever an applicant for an operator's license does not fully meet the requirements for a driver's license, but can, in the opinion of the department, operate a motor vehicle safely under restricted conditions until he is able to fully meet the requirements for the license, the department may issue a license to such person for a period less than four years.

The provisions of this section and of Section 257 insofar as they authorize the issuance of licenses for periods of less than four years shall not be affected by any extension of drivers' licenses for the duration of the war, but such licenses issued

for a term less than four years under the authority of this section or of Section 257 must be renewed upon expiration.

Every operator's license issued prior to August 14, 1929, is hereby canceled."

CONSIDERATION OF HOUSE RESOLUTION NO. 275

House Resolution No. 275 Relative to aid to the aged

WHEREAS, The welfare of the aged of the State is of the greatest importance to the people of the State, and the laws providing for public assistance to aged persons should be administered in a considerate and benevolent manner; and

WHEREAS, It has come to the attention of the Members of the Assembly that some of the places used for the administration of aid to the aged are difficult of access for the aged, or located on the upper floors of public buildings and are not served with an elevator and elevator operator, so that the strength of aged persons is sorely taxed when they find it necessary to present themselves at such places; and

WHEREAS, It has been suggested that the new provisions of Welfare and Institutions Code Section 2163 2, as added thereto by Assembly Bill No. 1994, which provide that personal property does not include personal effects, but that personal effects do not include jewelry, may be construed or interpreted to make the limitations on personal property apply to the engagement rings and wedding rings cherished by applicants for and recipients of aid to the aged; now, therefore, be it

Resolved by the Assembly of the State of California, That it is the consensus of this Assembly that all places used for the administration of aid to the aged ought to be easily accessible to the aged or maimed, and either located on a ground floor or served with an elevator and elevator operator; and that all persons exercising any authority in respect to the selection and maintenance of such places are hereby memorialized to do everything in their power to see that such places are so located and so served; and be it further

Resolved, That the Members of the Assembly do not regard engagement and wedding rings as mere articles of personal adornment, but as enduring symbols of betrothal and holy wedlock; that, as such, engagement rings and wedding rings do not come within the term "jewelry" as used in Section 2163 2 of the Welfare and Institutions Code; and that in enacting that section it was the intention of the Assembly that engagement rings and wedding rings should be considered as personal effects and not as jewelry; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the State Social Welfare Board, and to the board of supervisors of every county in this State.

CONSIDERATION OF HOUSE RESOLUTION NO. 288

House Resolution No. 288

Relating to the salary rates of the employees in the State Alcoholic Beverage Control Division

WHEREAS, On May 28, 1937, the Assembly adopted House Resolution No. 216, which requested and urged the State Personnel Board to increase the salary rates of certain employees in the State Alcoholic Beverage Control Division; and

WHEREAS, The State Personnel Board did increase the salary rates of said employees in accordance with the recommendations made in that resolution, but subsequently decreased the salary rates; and

WHEREAS, The Alcoholic Beverage Control Division of the State Board of Equalization has recently lost many of its liquor control officers to the armed services and the defense industries; and

WHEREAS, The division has been experiencing much difficulty in obtaining replacements from civil service eligible lists by reason of the fact that defense industries are paying their employees higher wages than those now paid to liquor control officers; and

WHEREAS, The enforcement and control work accomplished by the Alcoholic Beverage Control Division has become of increased importance due to conditions created by the war; and

WHEREAS, It is extremely important that the State's social control policies, as provided in the Alcoholic Beverage Control Act, be enforced by personnel highly competent, efficient, and loyal to the State; and

WHEREAS, The liquor, wine, and brewing industries, which, through excise taxes and license fees, finance the support of the State Alcoholic Beverage Control Division, have steadfastly favored an increase of the salaries of the positions in the division hereinafter mentioned; and

WHEREAS, In Chapter 62 of the Statutes of 1943, approved by the Governor on April 2, 1943, an appropriation of two thousand five hundred dollars (\$2,500) was made to meet just such conditions; now, therefore, be it

Resolved by the Assembly of the State of California. That the Assembly hereby finds that as to the following offices in the State Beverage Control Division, the salary rates herein indicated are suitable and necessary minimum rates therefor, in conformity with a sound personnel policy and particularly in view of the conditions presented by the war, and the State Personnel Board is requested and urged to revise the minimum-maximum salary range so as to accomplish the same:

The State Liquor Administrator a minimum salary of ten thousand dollars (\$10,000) per annum; the Associate State Liquor Administrator six thousand dollars (\$6,000) per annum; each district liquor control administrator, in charge of an administrative district, five thousand dollars (\$5,000) per annum; each supervising liquor control officer three thousand dollars (\$3,000) per annum; each special liquor investigator three thousand dollars (\$3,000) per annum, and each liquor control officer two thousand two hundred eighty dollars (\$2,280) per annum; and be it further

Resolved, That the Chief Clerk of the Assembly forthwith transmit copies of this resolution to the State Personnel Board and to each member thereof.

House Resolution No. 289

Memorializing Congress to enact necessary legislation to permit the reuse of bottles used as containers of alcoholic beverages

WHEREAS, Under the provisions of Federal law the reuse of bottles containing bonded alcoholic beverages is prohibited, and compliance with the Federal laws requires a complete destruction of bottles used for the purpose of containing alcoholic beverages once filed and stamped; and

WHEREAS, Replacement of bottles so destroyed constitutes an extravagance and waste of essential manpower, manufacturing equipment, production facilities and raw materials that would be of inestimable value in production for war; and

WHEREAS, The Federal legislation is designed and intended to protect Federal revenue under internal revenue statutes and adequate provision to safeguard such revenue could be made without the necessity of destruction of containers; now, therefore, be it

Resolved by the Assembly of the State of California, That the House of the State of California hereby respectfully petitions the Congress of the United States to so amend the provisions of the Federal law to permit for the duration of the war the reuse of bottles used for the purpose of containing alcoholic beverages; and be it further

By Mr. Sam L. Collins:

House Resolution No. 296

Relative to memorializing the Office of Price Administration in relation to gasoline allowances for the purposes of taking deer.

WHEREAS, The State of California annually produces over 40,000 mature deer which may be, and ordinarily are, taken by sportsmen; and

WHEREAS, It may be conservatively estimated that such deer will produce over 400,000 pounds of meat, and that the hides will produce over 14,000 coats or over 130,000 pair of gloves; and

WHEREAS, The Federal Government needs buckskin for many military uses for which no suitable substitute has been found; and

WHEREAS, Deer hunting is a form of recreation for thousands of sportsmen who solely because of gasoline rationing will be forced to spend their vacations otherwise; and

WHEREAS, By the simple expedient of allowing each deer hunter a maximum of 12 gallons of gasoline, the deer hunters of the State, through share-the-ride programs, could take the normal share of the State's annual crop which otherwise will not be taken; and

WHEREAS, The unchecked multiplication of large game animals is not in the best interests of the agricultural and livestock industries of the State; and

WHEREAS, A plan has been worked out by the sportsmen's organizations of the State whereby each deer hunter in return for the allowance of such additional gasoline will agree to ship the deer skins to fixed receiving points to be processed and made available to the Federal Government, to save the surplus fat and tallow for sale to local butchers for rendering it usable for making explosives, and to utilize all of the meat for human consumption; and

WHEREAS, All these desirable results can be obtained by allowing prospective deer hunters only 12 additional gallons of gasoline each; now, therefore, be it

Resolved by the Assembly of the State of California, That the Office of Price Administration is hereby respectfully requested to give consideration to the allowance of an additional 12 gallons of gasoline to each deer hunter to be used by him under such conditions and restrictions as will result in the utilization of the meat, hides, tallow, and fat in the manner most conducive to the war effort; and be it further

These coordinates shall be made to depend upon and conform to the plane rectangular coordinates of the triangulation and traverse stations of the United States Coast and Geodetic Survey within the State of California, as those coordinates shall be determined to conform with provisions contained in Section 5 of this act. The Y axis of any zone shall be parallel to the meridian passing through the point of control of that zone.

SEC. 4. When any tract of land to be defined by a single description extends from any one into another of the above coordinate zones, the positions of all points on its boundaries may be referred to either of these zones, the zone which is used being specifically named in the description.

SEC. 5. For the purpose of more precisely defining the California Coordinate System, the following definition is adopted:

The California Coordinate System, Zone 1, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $40^{\circ} 00'$ and $41^{\circ} 40'$, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $122^{\circ} 00'$ west longitude and the parallel $39^{\circ} 20'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 2, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $38^{\circ} 20'$ and $39^{\circ} 50'$, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $122^{\circ} 00'$ west longitude and the parallel $37^{\circ} 40'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 3, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $37^{\circ} 04'$ and $38^{\circ} 26'$, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $120^{\circ} 30'$ west longitude and the parallel $36^{\circ} 30'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 4, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $36^{\circ} 00'$ and $37^{\circ} 15'$, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $119^{\circ} 00'$ west longitude and the parallel $35^{\circ} 20'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 5, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $34^{\circ} 02'$ and $35^{\circ} 28'$, along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $118^{\circ} 00'$ west longitude and the parallel $33^{\circ} 30'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 6, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $32^{\circ} 47'$ and $33^{\circ} 53'$ along which parallels the scale shall be exact. The point of control of coordinates is at the intersection of the meridian $116^{\circ} 15'$ west longitude and the parallel $32^{\circ} 10'$ north latitude. This point of control is given the coordinates: $x=2,000,000$ feet and $y=0$ feet.

The California Coordinate System, Zone 7, is a Lambert conformal projection of the Clarke spheroid of 1866, having standard parallels at north latitudes $33^{\circ} 52'$

and 34° 25', along which parallels the scale shall be exact. The point of control is at the intersection of the meridian 118° 20' west longitude and the parallel 34° 08' north latitude. This point of control is given the coordinates: $x=4,186,692.58$ feet and $y=4,160,926.74$ feet.

The position on the ground of the California Coordinate System shall be as marked by triangulation or traverse stations established in conformity with the standards adopted by the United States Coast and Geodetic Survey for first-order and second-order work, whose geodetic positions have been rigidly adjusted on the North American Datum of 1927, and whose plane coordinates have been computed on the system herein defined any such stations may be used for establishing a survey connection with not less than two stations of the California Coordinate System.

SEC 6. Any map, survey or other document which is offered for recording in the office of the county recorder of any county of the State of California and which includes reference to the California Coordinate System, shall contain a certificate signed by a licensed land surveyor or registered civil engineer of the State of California, that the survey has been made by him or under his supervision in accordance with the provisions of Section 5 of this act.

SEC 7. The use of the term, "California Coordinate System," in any land description, report of survey, map or other document, shall be limited to coordinates based on the California Coordinate System as defined in this act.

SEC 8. Nothing contained in this act shall be interpreted as requiring any person to rely on a description based wholly on the California Coordinate System as defined in this act, but any map, survey or other document which is offered for recording in the office of the county recorder of any county of the State of California and which includes references to the California Coordinate System may also contain a reference to some other recorded map, survey, or other document, which latter reference must be sufficient to identify the property with reasonable certainty.

SEC 9. If any provisions of this act be declared invalid, such invalidity shall not affect the validity of any portion of this act which can be given effect without such invalid part.

SEC 10. This act may be cited as the Plane Coordinate Act; and be it further

Resolved, That the Committee on Legislative Organization is directed to investigate the effect of the adoption of such a system upon the description of property lines affecting land titles, and to formulate legislation which would not be detrimental thereto but would aid in such descriptions.

MOTION TO PRINT REPORT IN JOURNAL

Upon motion of Mr. Call, the following Report of the Interim Committee on Fish and Game was ordered printed in the Journal:

Report of Interim Committee on Fish and Game

To the Speaker and Honorable Members of the Assembly

Your Interim Committee on Fish and Game render herewith the report of their activities during the past biennium, together with their recommendations for legislation and legislative action with regard to the present Fish and Game Commission.

Your committee was appointed pursuant to House Resolution No. 79, and immediately thereafter began a study and investigation of all problems concerning fish and game brought to their attention. Every section of California was visited by some member of the committee, it being thought advisable that subcommittees should be used as much as practicable in order to cut down traveling expense.

It might be well at the outset to point out that for the past 10 years California has been facing increasing problems of fish and game management and administration because of:

- (1) The growth of population
- (2) The tremendous increase in fishing and hunting licenses
- (3) The tremendous difficulty of law enforcement brought about by this increase, and the size and topography of the State.

The State comprises a territory comparable to the New England States. In the latter territory, over 600 wardens are employed to enforce fish and game laws and protect wild life, while in California less than 150 carry on that work. While it is difficult now due to the war, and causes incident thereto, to maintain warden personnel at even the lowest level of numbers mentioned above, the committee strongly recommends that in the budget of the Fish and Game Commission provision be made for an increased staff of wardens so as to provide at least 400 such officers. It is a practice little short of silly to continue to add sections to the Fish and Game Code requiring the attention of enforcement officers when the sections already in the code can not be properly enforced because of a lack of personnel.

It must be taken for granted that the prime purpose of fish and game legislation is to conserve our present wild life population and manage it in such a manner as to provide a harvestable surplus.

The economic value of our wild life resources to California beggars description. Many millions of dollars are spent each year by those who seek their pleasure in the playground afforded by nature in this great State. It seems only sound economic procedure to do everything possible to restore wild life resources to their former state of abundance and maintain them in such a state. The committee has been guided in their activities solely by a desire to serve to this end. Statistics at best are poor things to prove points in an argument, but just a glance in the increase in licenses during the past decade shows clearly the tremendous problems which the Division of Fish and Game faces. In 1932 the number of licenses issued by the Fish and Game Commission for this State were 457,434. In 1942 they had increased to the astounding number of 709,593.

I. The Threat to Wild Life by the Growth of Underbrush and Low Growing Shrubs

The committee held hearings throughout much of the forested areas in California and questions were propounded to it concerning the continued growth of brush and low growing shrubs, to the detriment of wild life. From the testimony given, this belief was patent: Uncontrolled burning is a curse, as everyone knows, but controlled burning is an absolute indispensable need. It was pointed out that each year the board and room so badly needed by our wild life is being taken from them by the continued and alarming growth of underbrush and low growing shrubs. Some experiments have shown the efficacy of controlled burning and wherever burning has occurred, whether by controlled, or uncontrolled fires, an amazing increase in wild life in that particular area was noted. This is particularly true with bird life, as well as deer. The committee strongly recommends that some

funds be appropriated for experiments in controlled burning and that a study be made of the possibility of having the State, National, and county forestry officers, and county supervisors cooperate in this program of controlled burning. The result would mean not only increased wild life but increased valuation of the land, and an actual lessening of the fire hazard. Anyone experienced in fish and game management will readily admit that the big problem is board and room for wild life. In the burned areas the rank growth of grass, which always follows a burning, provides necessary food, and the removal of undergrowth gives greater room for animals to live in. This same program would be of inestimable benefit and value to our livestock industry.

II. Administration

As a whole, the administrative setup in the Division of Fish and Game in this State is a good one. It is headed by a commission of five men, their terms set by constitutional provision so that during no one Governor's term of office would a majority of the commission's terms expire. The theory being that the majority members of the commission would never be beholden to any one Governor for their appointments. The theory being that political consideration would thus be reduced to a minimum. But, as pointed out infra, it is not laws nor constitutional provisions that bring about decency in government, but the men who occupy the offices.

Under the commission is a so-called "Executive Secretary" appointed by the commission and exempt from civil service. He is supposed to be the chief administrative officer of the commission. This title and the position, somewhat like "Topsy," "just grown" for there is no statutory provision creating the office. The division is divided into seven bureaus, each headed by bureau chiefs and assistant bureau chiefs. All bureau chiefs and employees are civil service employees, and therefore, have continuity in their office and are not subject to removal except for cause as provided by Civil Service Laws. It would appear from this setup, that the administration should be efficient, economic and effective. It most certainly is not efficient nor effective. There is a complete lack of any real long-term program of planning, for the work of the division is based upon the amount of annual appropriations, and this alone prevents long-term planning. There is little or no cooperation between the various bureaus and their personnel, nor between one bureau chief and another. The so-called executive secretary, as is now appointed, is beholden for his very existence in office to the commission that appointed him. He must do their bidding, or be removed from office. No qualifications whatsoever are set up for his office. He need know nothing about fish and game nor the administration thereof, not of game management or planning. As a matter of fact, the present occupant of the office when appointed to it, frankly stated that he had never hunted nor fished nor even purchased a hunting or fishing license and knew nothing about fish and game. His appointment was a political one, made purely at the request of Governor Olson because of the fact that he had recently been defeated for a political office. There has never been any attempt to appoint a commission solely upon the basis of qualifications. Of the present board, only one member thereof might be considered as having even the slightest qualification to the office to which he was appointed.

It is further recommended that the classification of executive secretary of the Fish and Game Commission be set up by statute with civil service protection, and that the Personnel Board set up the necessary qualifications so that examinations shall be held and a thoroughly qualified executive secretary be engaged for that office.

In the selection of the bureau chiefs and the employees of the division, we have fared much better. Mr. Alan Taft, Chief of the Bureau of Fish Conservation, Mr. Richard Van Cleve, Chief of the Bureau of Marine Fisheries, and Mr. Gordon True, of the Bureau of Game Conservation, are all outstanding men in their field and the State of California is fortunate to have them. The vast natural resources of fish and game which are in this State demand the attention of men of such ability. If more such men were brought into the division and an executive secretary chosen solely because of his qualifications and ability as an administrator and placed at the head of the division, and such officer given civil service status, a program of fish and game management could be embarked upon that would restore fish and game in this State to their former position of abundance.

III. Fish Screens and Bureau of Engineering

There has long been a sore spot with the division which is called the Bureau of Engineering and headed by a man named John Spencer. Spencer has refused over a period of years to do the job he is paid to do, and when any attempt has been made to induce him, or force him to perform his duties as the exigencies or demands require, if it did not agree with his personal desires or views, he would immediately begin a campaign of lobbying various sportsmen organizations in his behalf. He has refused to cooperate with the Bureau of Fish Conservation and has flatly refused to work under the laws affecting his bureau, laid down by the Legislature, because he himself stated, in a fish and game hearing, that he "thought they were unworkable," and by his own testimony he showed he had never attempted to work under them. His main work is that of erection and installation of fishing screens, which are devices placed at the point in streams where irrigation waters are removed so as to

prevent fish being taken out by the irrigation water thus removed. This work is highly important, but properly belongs under the Chief of the Bureau of Fish Conservation, into whose work it naturally falls. It is strongly recommended that Spencer's office be abolished, and that his work be carried on under the direction of the Chief of the Bureau of Fish Conservation, and that he be permitted only to install screens approved by the chief of that bureau at places and times as shall be required by the chief of said bureau.

It is further recommended, that he be required to see that these screens once placed in operation continue to operate as intended, and not merely install them and forget them as has been done in the past. In this connection, it is also recommended that thorough experiment and trial be made of electric fish screens. The committee were privileged to see these in actual operation on a stream with fairly strong current, and with a considerable run-off at the point the screen was installed and there were many features of the electric screen which recommended themselves to the committee and which made them more highly desirable than the other types of screens in use.

It is recommended that the Ways and Means Committee transfer any moneys asked for by the division for the purpose of installing fish screens or the expense of maintaining that part of the personnel engaged in their installation and maintenance, to the Bureau of Fish Conservation to be expended under the supervision and direction of that bureau.

IV. Public Shooting Areas

This is a subject long neglected in this State, and which should no longer be delayed. The State of Pennsylvania has for more than 22 years indulged in a program of acquisition of public shooting areas and has to date purchased over 770,000 acres of land which abound in game, so that the public may thoroughly enjoy public shooting. Thousands of acres of land are available in California for both upland bird and waterfowl shooting. It is strongly recommended that from the abundance of fish and game funds now on hand, there be appropriated annually the sum of \$25,000 until the end of the fiscal year ending June 30, 1955, for the acquisition of lands or water for public shooting areas, and that such acquired areas, as soon as reasonably possible, be operated for public shooting, and that with such moneys so appropriated the commission be authorized to acquire such land and water in localities as is deemed meet and proper, taking into consideration the proximity of the land to areas in which the prospective hunters reside, and also the abundance of game. And that the commission be further authorized to include in its annual budget sufficient funds to operate and maintain such public shooting grounds and that they be authorized to charge nominal fees for the privilege of shooting thereon. That the commission be further authorized, if the land and the proper use for shooting areas permits, to lease said land during the closed season months for farming or grazing or similar uses that would in no way interfere in the use of such land as public shooting areas.

It is further recommended that the commission be authorized to prescribe such rules and regulations respecting seasons, bag limits, number of hunters for each area as the size of the area, the safety of hunters and the abundance of game warrants.

V. Wardens

There is no well organized or functioning of activities in the division for the training of new wardens, nor for the giving of refresher courses for the older men. Apparently the men are supposed to acquire any new information of value to them in their work from extra curricular activities. The Highway Patrol has a plan in operation we could well pattern after. It is recommended that a school for personnel be set up to which all new personnel would be required to attend for a given time and to which older men in the division would be ordered from time to time as their duties would permit or changes require, and that special instructions be given for:

- (a) Game wardens
- (b) Game farm men
- (c) Fish hatchery men
- (d) Trappers and hunters
- (e) Refresher short courses for all present field men of the division.

It is noted that such a program might necessitate changes in the civil service qualifications and regulations.

It is further recommended that a program of fish and game conservation be presented by the division and disseminated through the medium of public schools, both elementary and secondary, boys clubs, and sportsmen's organizations, and that this educational program be coordinated with and by the State Board of Education.

VI. The Fish and Game Code

While the laws affecting fish and game have been codified into one code known as the Fish and Game Code, the code has been added to and patched up to such an extent that it is pretty much of a hodge-podge, with subjects being intermingled

that have no particular affinity and not in proper categories. Many sections could be revamped to advantage, and if a good job of recodifying were done, the code could be simplified and much material removed therefrom without in any way weakening its provisions. It is therefore recommended that a Legislative Committee be created for the purpose of revising and simplifying the Fish and Game Code; that the code thus simplified be presented to the Legislature for adoption or reenactment at the session beginning January, 1945; and in revising the code, all subjects be placed in their proper categories. For instance, all sections affecting trout together; all sections affecting salmon together; all sections affecting upland birds together; all sections affecting water fowl together; and all sections affecting quadrupeds together; and that all useless or outmoded sections be removed, and that any needed sections not now present be placed therein to the end that the Legislature may at the 1945 session adopt this simplified and revised code. It is further recommended that sufficient money be appropriated from the fish and game funds for the expenses of revising this code.

VII. Upland Game Birds

It is apparent California is lagging far behind in upland game production. The committee does not wish to criticize those in charge of the game farms, but it is apparent that some change must be made. The percentage of yield of eggs and birds hatched is pitifully low. It is strongly recommended that the commission or a legislative committee, during the next biennium, give particular attention to game bird raising, and to the advisability of placing all such activities under the supervision and control of a new bureau chief to be known as Chief of the Division of Upland Game Birds. It is strongly recommended that a concerted effort be made to increase the number of valley quail. This outstanding of game birds from the sportsman's standpoint has been gradually going down hill toward the vanishing point for no good reason. It is urged that concerted thought and study and experiment be made in the immediate future to the end that this attractive bird be restored somewhat to its former abundance.

VIII. Improper Activities of the Fish and Game Commission

It might be well to point out at the outset of this part of the report that the Fish and Game Commissioners now hold terms of office for definite periods of time. This only became a fact with the adoption of Assembly Constitutional Amendment No. 45, which was adopted by the people in 1938 by an overwhelming vote. The chairman of this committee was a coauthor of the constitutional amendment. In offering this amendment for adoption, we were motivated by a desire to remove the Fish and Game Commission from politics as far as possible. Many of us interested in the problem for a good many years had high hopes that when the Fish and Game Commissioners were given definite terms of office they would set about the business of administering the Fish and Game Laws of this State uninfluenced by political considerations; that they would refrain from indulging in political activities. Our hopes were shortlived. For it soon became apparent to many of us that it would take more than a law to bring this about; that it would take commissioners who were determined to do a good job in their office irrespective of political demands and considerations. It is clear that the present commission do not hold to that high purpose.

With the advent of the Olson Administration, a temporary Fish and Game Commission was appointed which immediately began to pay off some campaign obligations with favors at their disposal.

A storm of protest was immediately forthcoming, and to a certain extent their desires were frustrated and prevented. Subsequent to this, Olson, then Governor, appointed the following members to the Fish and Game Commission.

Nate F. Milnor, Los Angeles, Chairman
 Lee F. Payne, Los Angeles
 Edwin L. Carty, Oxnard
 Germain Bulecke, San Francisco
 W. B. Williams, Alturas

With the exception of Mr. Carty of Oxnard, whose term expired on January 15, 1943, these men still hold office.

It is well to note that the commission administers all fish and game statutes. That is to say, commercial laws, as well as laws affecting the sportsmen. It is their activity with regard to the commercial laws that the committee wishes to deal with here.

It is like rattling the bones of an old legislative skeleton to talk about the sardine industry, but the committee felt it was incumbent upon it to make a thorough investigation of the subject so that alleged improper activities of the commission would be proved or disproved. Our attention was directed particularly to the subjects by accusations and allegations made against certain commissioners concerning the issuance or withholding of permits for the taking of sardines for the 1941-1942 season.

An investigation was immediately started by the Fish and Game Interim Committee of 1939, and every effort made to determine the truth or falsity of these accusations. A great number of people interested in the industry were questioned as to whether or not improper proposals were made or had been made to them concerning the issuance of permits. Considerable general information was obtained but nothing specific could be proven because of the understandable hesitancy and fear on the part of the industry and members thereof arising from the fact that they would suffer at the hands of the commission were they to give the committee the information desired and which the committee had reason to believe, in many instances, the members of the industry questioned were in possession of. It then became apparent that investigators would have to be appointed to get this information. From that time until February of this year, a continuous investigation has been kept up and a wealth of information obtained. The conclusions from this information are irresistible. These conclusions are:

That the Fish and Game Commission, with the exception of Commissioner Lee Payne, who paid little attention to the commission's business, were guilty of the most reprehensible conduct in the issuance or denial of sardine permits, and in attempts to collect money from applicants for such permits. Whether or not the money obtained was actually used in the Olson campaign has not, as yet, been determined, and a recommendation will hereafter be made in this report concerning a continuance of this investigation to determine that question.

The incidents concerning these activities were as follows:

A convention was held at Santa Barbara commencing June 16, 1942, by the Sardine Institute and other parts of the sardine industry not allied therewith. The convention was held for the purpose of discussing matters of interest to the industry, among which matters was the issuance of the sardine permits for the ensuing season. In this connection it must be pointed out that the sardine industry is divided into two parts.

- (1) Cannerns, and
- (2) Outright reductionists.

The latter operators do no canning at all and reduce their entire catch of sardines to oil and sardine meal. The cannerns are permitted to reduce a considerable portion of their catch under a peculiar wording of the statute. A permit is required for reductionists.

At the Santa Barbara convention, Milnor, and certain other members of the commission, occupied a cottage at the Santa Barbara Biltmore Hotel. Milnor had requested the industry to select a committee from the institute to program their requests concerning permits for the purpose of expediting the business of the commission and at Milnor's request, this committee, composed of Mr. Don Saxby, Mr. John Bogdanovich, and Mr. Mike Galvin, of the institute, in company with Mr. Monte Pfister, went to the cottage above referred to on the evening of Thursday, June 18th, or Friday, June 19th. There they met Commissioners Milnor, Bulcke, Carty, and Williams, and the Executive Secretary George P. Miller. There were also present Mr. Herbert Legg, a Supervisor of Los Angeles County, and a Mr. Brown, whose first name has not been ascertained. It is to be remembered, in this connection, that the committee were called there for the alleged purpose of informing the commission of the desires of the industry so that the work of the commission would be expedited, thus obviating the necessity of every one at the convention speaking on behalf of each applicant.

On the night in question in the cottage above referred to, Milnor opened the discussion, much to the amazement of those representing the industry, by saying, in substance, that the commission had been very fair in dealing with the sardine industry and the members of the industry had profited in the canning and reduction of sardines and pointed out that every thing of benefit the industry had obtained, the commission had obtained for the industry. I have compared the conversation of Milnor with certain people present and those with whom I discussed the matter separately stated, not in the presence of any other person, the conversation Milnor indulged in and the recollection of each one was so deadly similar with the recollection of the others that I am impelled to set forth the conversation here verbatim as it was reported.

According to the reports, Milnor spoke as follows:

"Gentlemen. The Commission has been very fair with your industry and you have made money out of sardine permits which we granted you. Whatever benefits you have received, we got for you. We have been generous with you. Now we expect you to be generous with us. We have a Governor's fight on and it is a stiff one and it takes money to run such a campaign. There have been rumors around that for a \$1000.00 a permit, an additional 1000 tons of sardines may be had. These rumors are bad. We know what the industry wants. They want their permits. They want to take the fish as they want them and they want to pool their equipment. I'll tell you now, you will get your permits but we will decide later whether you will get the other things. Of course, we can't take the money because we are Commissioners, but these gentlemen can." (Pointing to Mr. Herbert Legg and the Mr. Brown referred to above).

"Mr. Carty has been placed in charge of the collection for the Governor's campaign and he has to raise a couple of hundred thousand dollars. I am only a little fellow. My quota is only \$10,000.00."

Carty subsequently in a conversation with a member of the institute said he wasn't going ahead with the fund raising, on account of the proportions it was assuming. He said, "Milnor must be crazy asking for a couple of hundred thousand dollars. Where is he going to get that kind of money? The only people in the natural resources division interested are the commercial fishing interests and they can't raise that kind of money. I'm not going to do it, for somebody will go to jail."

At about this time, Commissioner Carty stepped forward with certain blueprints containing a design for a patented automatic scale for weighing sardines as they are unloaded from the fishing boats, and stated that a report had been made by the State Sealer of Weights and Measures condemning the weighing equipment then and theretofore in use and recommending the use of the patented automatic scale, the blueprints of which were then and there exhibited by Commissioner Carty, and either he or Milnor stated that the commission were of a mind to require the use of the patented scale before permitting operations, but smilingly stated: "Now the Commission has the authority to require the use of these scales. We can require them but we may not." It was the belief of everyone present, with whom this subject was discussed, that this conversation concerning the scales was used as an attempt to intimidate the members of the industry and for the purpose of coercing them into contributing to the alleged Olson campaign fund as above pointed out. As a matter of fact, each person with whom this specific matter was discussed, got the positive impression that if they would contribute as requested no such onerous burden as the scale requirement would be imposed upon such contributor.

Before the meeting closed, a discussion was had again concerning the three requests of the Sardine Institute, and Milnor said:

"No you will get your permits," and then with a shrug of his shoulders said, "but you know how to get the other two things you request."

At this meeting, when the automatic scale requirement was being discussed and the accusation was made that equipment then being used was not weighing correctly and there had been complaints, Milnor made the general accusation that there were complaints against the weighing equipment of all permittees. One of the persons present challenged the statement and asked Milnor to point out in the report, which Milnor was at that time holding in his hands, any place where a charge had been made that his particular weighing equipment was faulty. After some examination of the written report, Milnor was forced to admit that there was no complaint concerning the weighing equipment of the gentleman in question.

Commissioner Bulcke then spoke up and said, with a smile:

"Don't worry (calling the gentleman by name), you will get four thousand tons anyway."

The committee were then requested by Bulcke to contact the other members of the Institute to see how much money they could raise for the alleged Olson campaign fund. Two or three of the members present demurred to the suggestion and expressed apprehension as to how the institute would look upon such a request and feared repercussions. Milnor stated that he hoped the members would see it their (the commissioners') way and go along harmoniously. The committee then left.

The next day the main topic of conversation over all the convention was that the permits, which everyone believed were to be issued by the commission in the meeting at the court house in Santa Barbara that day, would not be issued then and that before any individual received his permit he would have to contribute to the alleged Olson campaign fund. I discussed this specific point with numerous people who were present, and it was the unanimous understanding of every one with whom I talked that permits were going to be issued on a basis of \$1,000 a permit.

On the day following the meeting in the cottage, heretofore referred to, the committee that had attended said meeting were unanimous in their refusal to make any such contributions as were demanded and apparently that was the attitude of most of the members attending the convention. Some members did make the contribution demanded but this subject will be discussed later.

On the last day of the convention, when it became apparent to the commission that the committee with whom the money question was discussed were against contributing the money demanded, Commissioner Bulcke, on the platform in the convention hall, beckoned to one of the members and asked him specifically if he would contact members of the industry with regard to collecting money for Olson and particularly the members of the industry in the Monterey region. The member thus approached agreed to contact the members and did speak to certain members concerning the request. He states that he is not certain whether any of the members contributed as he states that he would not accept any of the money himself but merely carried the request of the commission to the various members, particularly in the Monterey region. Upon questioning he stated that it was his belief that some members did contribute. This member spoke to one of the officials of the

institute concerning the commission's request and their desire for money and the official thus spoken to stated as follows:

"Nothing doing," (calling the other member by his name) "the whole thing stinks and someone is going to jail."

He then pointed out that the commission were properly under the Hatch Act and that any permittee doing business as a corporation would be prohibited under the Purity of Election Laws from contributing to any political campaign if the person contributing were doing business with the Federal Government or an agency thereof. It was also pointed out by the official that in practically every instance, if not every instance, all members of the industry were selling either fish, oil, or meat to the Government, or some agency thereof, and would thus be precluded from making any such contribution and that what could not be done directly could not be done indirectly and that any attempt to do so would be a violation of law, punishable by fine or imprisonment or both.

Apparently the member thus informed reported back to the commission, or some member thereof who had made the demands above referred to for within the next day, Mr. George P. Miller, the Executive Officer of the Fish and Game Commission telephoned a member of the institute and asked for a meeting with himself, with a Mr. Isaacs, and another member of the industry. They met with two of the parties requested being present, the meeting being held some time in July, 1942, in the office of the secretary of the industry. Miller stated that he understood that the commission were being accused by certain members of the industry of an attempt to shake down the sardine industry for money. He vehemently denied any attempt at a shake down, but admitted the money demands, and defended their action in making such a demand by saying that such action was "practical politics." Commissioner Bulecke then stated that he knew the sardine industry wanted to do the right thing with regard to making contributions and that he had been informed that the industry had a finance committee and that the finance committee of the industry should do the collecting for the commission and again eulogized the commission reiterating what had been said at Santa Barbara concerning the generosity of the commission towards the industry and the obligation of the industry in return to be generous with the commission.

One of the members present said in response, that the idea of the finance committee referred to had been abandoned and in fact that the committee had never been appointed and that it had been abandoned after the reports at Santa Barbara that the permits were going to be issued upon basis of \$1,000 a permit. Another member present at the meeting stated that he had taken the proposal of the commission up at a meeting of their group but that the membership had objected to even discussing the matter further and it was thus agreed. It was, however, discussed in small groups but the members had refused to accede to any such demands and would not contribute as demanded. One member said to both Miller and Bulecke, "What about the Hatch Act and the Purity of Election Law? Our attorney advises us that we can not make any such contribution as we are doing business with the Government."

George Miller, the Executive Secretary of the commission, then said, "Well, if you are looking for a way out, you can find one, but if you want to do what we ask you to do, you can do it."

Bulecke then explained a method by which the law could be circumvented in these words: "Well, you set up a separate organization to collect funds for campaign purposes. We do it that way in the C. I. O."

Members of the industry then stated that it would be impossible for them to do as requested.

At Santa Barbara, the day after the meeting in the Fish and Game Commissioner's cottage, the delegates were open and loud in their denunciation of the commission for their money raising demands. Much talk was indulged in by all concerned. In the convention hall, Milnor accused several members in a small group and in an angry tone said, "I understand there are some deals being made or trying to be made. If any deals are made around here, I'll make them."

One member of the industry was approached by Milnor, Bulecke, and Miller to collect funds from the industry, when it became apparent that the members were not responding to the call for funds, and the members so approached agreed to contact the membership on the commission's behalf, and in certain instances did so. In a conversation with another member he said (after calling the member by name and explaining the amount of money the commission was demanding), "I have been appointed by the commission to collect funds for Olson's campaign." The member thus addressed refused the demand and advised that he (the collector) would get into trouble. The collector then made this amazing statement: "If we are going to get anywhere we have to go along. I'm going to be taken care of myself. I'm all fixed up, but we all will get more than we figured on if we go along."

From the reaction of the industry generally, it became apparent that the membership of the industry were not taking kindly to the demands for money. So another course was pursued. Mr. Fred Parr, who has a variety of interests in the industry,

was apparently approached by Germaine Bulcke to attempt to raise some funds, for at a meeting held in San Francisco which met at his request, he stated: "Bulcke (one of the commissioners) has approached me with a proposal that the commission will increase our permits a thousand tons each if we will put up a thousand dollars apiece." This proposal set off a furor, and the meeting broke up almost immediately, the members present first strongly expressing their disapproval of such a proposal. One member present said, "This is just another attempt by the commission to shake down this industry."

Mr. Tom Goodrich, an associate of Parr, just before or just after this meeting, telephoned several members of the industry, urging them to comply with the commission's request for funds, saying that the commission wanted \$500 from each plant. When informed of the position of the industry, he excused his call by saying he was just carrying information from the commission.

Soon after the industry generally had refused to pay the tribute demanded of it, though some had complied, it was generally rumored that new permits were going to be issued to people not theretofore connected with the sardine industry, for the taking of sardines, and it was reported that four permits were to be thus issued for \$10,000. Had this rumor remained only a rumor, it would not be mentioned here, but the rumor persisted, and it was generally discussed throughout the industry, and finally some such permits were issued. Several members of the industry appeared at commission meetings and strongly protested the issuance of these additional permits. But to no avail, for the permits were issued in some instances, as will be later pointed out.

Immediately on the heels of the additional permit rumor, one Ken Parrot, a political figure long associated with gambling interests in and around Los Angeles, and for years an acquaintance of Milnor, in a conversation held in the Biltmore Hotel in Los Angeles, with one of this committee's informants, stated in substance that he was going into the "Sardine Racket." He stated he had just gotten onto it and "It is a racket where one dollar will get you five without doing anything." Subsequently, this Parrot was issued a permit by the commission.

It is reported that a brother of Milnor is associated with Parrot and one Mike Leonis, also connected with gambling activities. It perhaps is a misstatement to say that the permit was issued to Parrot. The permit was actually issued to the Lone Wolf Sardine Company, the owners of which, according to information received, were and are Leonis, Parrot, and the brother of Milnor.

Prior to the issuance of this permit, it was generally objected to by all the industry to its issuance and the collector appointed by the commission, previously mentioned, in a conversation held with Bulcke at Monterey, strongly objected to the issuance of this particular permit. In a conversation held with Bulcke at Monterey, Bulcke was reported to have said that he did oppose issuing the permit to the Lone Wolf Company, but he saw the cards were stacked and everything had been arranged and therefore it was foolish to oppose its issuance. He knew they were going to issue the permit because Milnor wanted it and said, "I had to go along with the program, because I couldn't get anything later if I opposed them in this." The questioner then asked Bulcke why the permit was being issued and that they must be crazy to take such action. Bulcke replied, "Milnor is the strong man in favor of the permit. I wish I could tell you the angles but I can't. Milnor wants it and it is going to be issued." The permit was accordingly issued.

In this connection, it might be pointed out that prior to the issuance of the permits, the commission had stated in clear, unequivocal language that before anyone would be issued a permit they would have to have a full and complete sardine production plant ready for operation at the beginning of the season. And this in the previous season was carried so far that one member was fined several hundred tons of fish from his permit because he was not, it was alleged, ready to operate at the beginning of the season. Yet in the Lone Wolf case, neither the company nor any member thereof had a plant or any part thereof and hasn't to this minute. Subsequent to the issuance of the permit, with the sanction of the commission, the tonnage granted in this permit, or a part thereof, was reduced in another plant.

There was yet another permit issued to an organization formerly in existence and the members of which had previously not been connected with the sardine industry.

In two other instances, permits were applied for and denied.

Only the circumstances surrounding one has been investigated, but it is recommended that the investigation be continued with regard to the others to ascertain the facts connected therewith. In the one investigated, the facts were found to be as follows:

The application was made some time in July and shortly after the application had been filed, a friend of the applicant who was also a friend of Commissioner Bulcke, being informed of the application asked the applicant if there was anything he could do to aid. The applicant stated he would appreciate a word being spoken in his behalf. Apparently this was done by the friend who so volunteered for he subsequently returned to the applicant and stated that Bulcke had informed him that the applicant would have to pay \$2,500 or the permit would not be issued. The applicant then being incensed by such demand, called on Mr. Bulcke personally at his office, which is in the City of San Francisco, which meeting took place between

the primary and general election. There considerable argument was indulged in and Bulcke told the applicant that the permits were being issued upon the basis of \$2,500 per permit. The applicant then assailed Bulcke and reminded him of contributions made by the applicant running into many thousands of dollars in the Olson campaign when Olson was first elected. Bulcke stated that what had been done in the past was of no moment; that they had a Governor's fight on, and needed money and that the permits were being issued for \$2,500, and without this payment no permit would be issued. Bulcke also stated that there were too many permits and that the application had not been filed on time. These facts, however, did not deter them from issuing the permits mentioned above.

The applicant then told Bulcke he would cause an investigation to be made, and assailed the Fish and Game Commission for their conduct in attempting to extort money from applicants instead of basing applications solely upon their merits. His protests were of no avail. The permit was not granted to the applicant, though granted to other applicant. A lawyer friend of applicant subsequently appeared before the commission, the lawyer being a State official, and urged the commission, on the merits of the application, that it be issued. The lawyer was advised to tell applicant to build a plant and the permit would be issued. A school boy would, or should, know at such a time that priorities would prevent the building of the plant and no school boy would invest thousands of dollars necessary to build such a plant without a permit being first issued to him. Such an assurance was nothing more than a refusal to issue the permit and the permit to date has not been issued.

The executive secretary of the commission, Miller, above mentioned, stated to the applicants mentioned that he did not see why they refused to issue the permit and said it should be done.

The two others I have mentioned, above were issued. In view of the Bulcke statement and the conduct of the commission, the only conclusion is that the applications which were refused were refused because the applicants did not pay the price demanded. And it follows as an irresistible conclusion that the other two mentioned must have paid the price demanded.

One important point must be borne in mind which seems clearly to show the need for further investigation, and that is, at least one demand for the \$2,500 made by Bulcke, mentioned above, came after Olson was defeated at the general election.

Conclusions

In view of the reprehensible conduct of the commission as noted above in this report, it is recommended that under the constitutional provision they be removed from office and that an entirely new commission be appointed and that in the appointment of the commission, political consideration be ignored and the commission chosen solely upon the basis of their ability. In this connection, it is also recommended that one commissioner be chosen from the ranks of the commercial groups so that one thoroughly familiar with their needs and requirements and the economic administration of the commercial division shall be able to advise with the commission as a member thereof.

With regard to the commission's activities, it is recommended that the present Fish and Game Committee, or the Governmental Efficiency and Economy Committee, continue the investigation of this commission with regard to ascertaining:

(1) If the amount of money collected by the commissioners as reported above, was collected as campaign funds for the Olson campaign and if so, what actually happened to the money; and if not, to whom the money went.

(2) To ascertain in the collection of such funds, and the attempt to collect such funds, what laws both Federal and State were violated.

(3) That such information thus obtained be turned over to the proper law enforcement officers for action.

(4) It is further recommended that the Attorney General cause an investigation to be conducted by his office and prosecution be indulged in where the facts warrant.

Respectfully submitted.

HARRISON W. CALL, Chairman
ALLEN G. THURMAN

I concur in this report excepting that part making accusations against the secretary and members of the commission. I was not present at the meetings when these accusations were made.
