If no changes be made in the boundaries of the district as the same are set forth in the resolution of intention, it shall be sufficient to state that the boundaries of the district are those set forth in the resolution of intention, but if any change of such boundaries is made, the boundaries of the district, as finally determined, shall be fully set forth. Special fund.

The board of supervisors shall annually, at the time of making the said tax levy, transfer from the general road fund of the county to said road district improvement fund No. ----, such amount as in the judgment of said board is a fair proportion of the said general road fund.

[Approved June 10, 1915 In effect August 9, 1915]

*The people of the State of California do enact as follows:*

SECTION 1. A new section is hereby added to the Political Code to be numbered seventeen hundred sixty-four, and to read as follows:

1764. The county superintendent of every county, and every city and county, must, at least fifteen days before the first day of the month in which the supervisors of such county, or city and county, are required by law to levy the amount of taxes required for county, or city and county purposes,

Estimate of  
high school  
fund needed

furnish to the board of supervisors and to the auditor, respectively, an estimate in writing of the minimum amount of the county, or the city and county, high school fund needed for the current school year. This amount he shall estimate in the following manner: He shall allow sixty dollars for each pupil residing in his county, in average daily attendance upon a duly established high school of his county or an adjoining county; *provided*, that he shall not include in such estimate the average daily attendance of any pupil attending high school in an adjoining county, unless such pupil resides in a joint union high school district, or unless the attendance of such pupil has been approved in writing by the superintendent of schools of the county in which he resides. To the amount thus estimated he shall add an amount sufficient to reimburse all the high school districts of his county, for money actually expended by them for transportation of pupils living in territory in the county not included in any high school district, and attending the high schools of the county; *provided*, that the high school board of each high school district educating such pupils shall, on or before August fifteenth, file with the superintendent of schools a statement showing the names, and total number of months attendance of all such pupils, and the total amount expended for their transportation; *and provided, further*, that the superintendent of schools shall not include in such estimate, an amount for transportation exceeding five dollars per month for each pupil so attending; *provided, further*, that if this amount is less than sufficient to raise a sum equal to two hundred and fifty dollars per teacher, not exceeding four teachers for each high school of the county, employed for full time during the preceding school year, then the minimum amount to be raised shall be two hundred and fifty dollars for each teacher, not exceeding four teachers for each high school of the county, employed for full time during the preceding school year. Whenever a new high school district has been formed between the first day of May and the fifteenth day of August next preceding the date of the filing of said estimate, from territory lying wholly or partly within the county, the county superintendent of schools, in making such estimate, shall include on account of such new high school district, the sum of one thousand dollars or such proportion thereof as the assessed valuation of property in his county and in such new high school district, bears to the total assessed valuation of such high school district.

New high school district.

Levy of county high school tax.

The board of supervisors of such county, or city and county, must, annually, at the time and in the manner of levying other county taxes, levy and cause to be collected for the county, or city and county, high school fund, a tax to be known as the county high school tax, the minimum rate of which shall not be less than sufficient to raise the minimum amount estimated to be raised by the county superintendent as hereinbefore provided.

Before apportioning any of the county high school fund to the high school districts of his county, the county superintendent of schools shall draw an order on the county auditor against such fund in favor of the superintendent of schools of any adjoining county in which pupils from his county are attending high school, for an amount computed at sixty dollars per pupil in average daily attendance for all such pupils; *provided*, that the superintendent of schools of such adjoining county shall file with the county superintendent of schools, on or before the fifteenth day of August, a report showing the names of pupils residing in the county and attending high school in such adjoining county, and the total average daily attendance of all such pupils during the preceding school year. The county auditor of said county shall draw his warrant as directed by the superintendent of schools and the county treasurer shall pay the same. A superintendent of schools in whose favor such order is drawn shall pay the amount of said money into the county treasury to the credit of the high school or schools educating the children from the county paying such money. The superintendent of schools shall then apportion to each high school district within his county, an amount sufficient to reimburse said high school district for money actually expended for transportation of pupils residing in territory in the county not included in any high school district, and attending such high school during the preceding school year; *provided*, such amount shall not exceed five dollars per month for each pupil so attending.

Pupils attending in adjoining county.

The money paid into the county high school fund or money remaining after payments or apportionments hereinbefore required have been made shall be apportioned to the high school districts of the county by the superintendent of schools in the following manner: He shall first apportion to each new high school district as hereinbefore defined, one thousand dollars, and to each high school district, established previous to the first day of May next preceding on account of each full-time day high school maintained therein, two hundred and fifty dollars for each teacher employed for full time during the preceding school year, and on account of each evening high school maintained therein, one hundred and twenty-five dollars for each teacher employed for full time during the preceding school year; *provided*, that no high school shall receive an apportionment on this basis for more than four teachers; *and provided, further*, that no money shall be apportioned to any high school which does not employ for full time at least one teacher the first year, nor to any high school organized for two or more years which does not employ, for full time, at least two teachers. The remaining funds the county superintendent shall apportion among the high school districts pro rata upon the basis of average daily attendance during the preceding school year. Whenever a high school district lies partly in one county, and partly in another, the county superintendent must apportion to such district,

Apportionment to districts.

such proportion of the school money to which such district is entitled, as the number of pupils in average daily attendance, residing in that portion of the district situated in his county, bears to the total number of pupils in average daily attendance in the entire district, as shown by the principal's annual report for the preceding school year.

Availability  
of money.

All moneys apportioned to any high school district under the provisions of this section shall be available for the maintenance of any high school located in such district, for the current school year, and shall be paid out in the same manner that high school district funds are paid out. As provided elsewhere in this code, the high school board of any high school district may file with the board of supervisors an estimate of the amount of money, in excess of state and county moneys, required for building and maintenance of the high school of such district for the current school year. No charge for tuition shall be made in any high school district of this state.

Within ten days after hearing the evidence the arbitration board shall make a written decision ordering such tests or remedial work as is deemed necessary to protect the oil sands from damage by infiltrating water. This written decision shall be served upon the owner or his agent and shall supersede and nullify the previous order of the supervisor provided for in section eight hereof. In case no written decision is made by a board of arbitration within thirty days after the date of notice by the supervisor, as provided in section ten hereof, the order of the supervisor shall be effective and subject only to review by writ of certiorari from the superior court as provided in section fourteen hereof.

Commence-

If the work has not been so commenced and continued to completion the supervisor shall appoint agents as he deems necessary, who shall enter the premises and perform the work. Accurate account of all such expenditures shall be kept and the amount paid from the fund hereinafter created upon the warrant of the state controller. Any amounts so expended shall constitute a lien against the property upon which the work is done. The decision of the board of arbitration or of the supervisor in such a case may be reviewed by writ of certiorari from the superior court of the county in which the district is situated, if taken within thirty days after the signing of the order. If no review is taken or, if taken, the decision of the board is affirmed, the lien upon the property shall be enforced in the same manner that other liens on real property are enforced and shall first be enforced against the owner of the well, against the operator and against the personal property and fixtures used in the construction or operation thereof, and then if there then be any deficiency, against the land upon which the work is done.

Wells to

The notice shall be given to the supervisor, or his local deputy, at least fifteen days before such proposed abandonment. The owner shall furnish the supervisor, or his deputy, with such information as he may request, showing the condition of the well and proposed method of abandonment. The supervisor, or his deputy, shall before the proposed date of abandonment furnish the owner with a written order of approval of his proposal or a written order stating what work will be necessary before approval, to abandon, will be given. If the supervisor shall fail within the specified time to give the owner a written order such failure shall be considered as an approval of the owner's proposal to abandon the well

(3) The owner's estimate of the depth of the point at which water shall be shut off. (4) The owner's estimate of the depth at which oil or gas producing sand or formation shall be encountered. The provisions of this section shall also apply, so far as may be, to the deepening or redrilling of any well.

SEC. 18. It shall be the duty of the owner of any well referred to in this act, to keep a careful and accurate log of the drilling of such well, such log to show the character and depth of the formations passed through or encountered in the drilling of such well, and particularly to show the location and depth of the water-bearing strata, together with the character of the water encountered from time to time (so far as ascertained) and to show at what point such water was shut off, if at all, and if not, to so state in such log, and show completely the amounts, kinds and size of casing used, and show the depth at which oil-bearing strata is encountered, the depth and character of same, and whether all water overlying and underlying such oil-bearing strata was successfully and permanently shut off so as to prevent the percolation or penetration into such oil-bearing strata; such log shall be kept in the local office of the owner or operator and subject to the inspection of the supervisor or any of his deputies at any time during business hours, and a copy of said log shall be filed with the deputy supervisor immediately upon the completion of said well and also a complete copy shall be filed with the deputy supervisor upon the completion of any additional work upon the well. The owner

of any well drilled previous to the enactment of this act shall furnish to the supervisor a complete and correct log of such well, so far as may be possible, together with a statement of the present condition of said well.

Notice of  
shut-off test.

If any person, firm, corporation or association chargeable under the provisions of this act shall fail or refuse to furnish the state mineralogist within the time prescribed in this act the verified report provided for in this act, the state mineralogist must note such failure or refusal in the record of assessments hereinafter in this act provided for, and must make an estimate of the petroleum or gas production, or

Failure or refusal to act

landed area to be assessed of any such person, firm, corporation or association and must assess the same at the amount thus estimated and compute the charge thereon, which assessment and charge shall be the assessment and charge for such year. And if in the succeeding year any such person, firm, corporation or association shall again fail and refuse to furnish the verified report required by this act, the state mineralogist shall make an estimate as aforesaid, which estimate shall not be less than twice the amount of the estimate made by him for the previous year, and shall note such failure or refusal as above provided, and the said estimate so made shall be the assessment or charge for said year. In case of each succeeding consecutive failure or refusal the said state mineralogist shall follow the same procedure until a true statement or report shall be furnished.

The assessments must be made to the person, firm, corporation or association owning or operating the property subject to assessment hereunder on the first Monday in March. If the name of the owner is unknown to the state mineralogist, such assessment must be made to unknown owners. Clerical errors occurring or appearing in the name of any person, firm, corporation or association whose property is properly assessed and charged, or in the making, or extension of any assessment or charge upon the records, which do not affect the substantial rights of the payer, shall not invalidate the assessment or charge.

Board of  
review

SEC. 35. The state mineralogist and the chairman of the state board of control and the chairman of the state board of equalization shall constitute a board of review, correction and equalization and shall have all the powers and perform such

The said board shall have power at any time before said first Monday in July to correct the record of assessments and may increase or decrease any assessment or charge therein if in its judgment the evidence presented or obtained warrants such action. Costs of such publication in any county shall be paid from the repair fund of said county.

Notice of assessment published

SEC. 37. The state mineralogist must prepare each year a book, in one or more volumes, to be called the "record of assessments and charges for oil protection," in which must be entered, either in writing or printing, or both writing and printing, each assessment and levy or charge made by him upon the property provided to be assessed and charged under this act, describing the property assessed, and such assessments may be classified and entered in such separate parts of said record as said state mineralogist shall prescribe.

But the failure to subscribe such certificate to such record of assessments and charges for oil protection, or any certificate, shall not in any manner affect the validity of any assessment or charge

Assessments  
kept within  
two miles  
of wells

It is the intention of this act that in the assessment of the lands as provided in section twenty-five hereof, and in carrying such assessments to the record of assessments aforesaid, the state mineralogist shall keep within two miles as near as may be of producing petroleum or gas wells as provided in said section twenty-five hereof.

Charges due  
and payable

SEC. 39. The charges levied and assessed under the provisions of this act shall be due and payable on the first Monday in July in each year, and one-half thereof shall be delinquent on the sixth Monday after the first Monday in July at six o'clock p.m. and unless paid prior thereto, fifteen per cent shall be added to the amount thereof, and unless paid prior to the first Monday in February next thereafter at six o'clock p.m., an additional five per cent shall be added to the amount thereof, and the unpaid portion, or the remaining one-half of said charges shall become delinquent on the first Monday in February next succeeding the day upon which they become due and payable, at six o'clock p.m.; and if not paid prior thereto five per cent shall be added to the amount thereof.

Every charge and assessment herein provided for has the effect of a judgment against the person, firm, corporation or association, and every lien created by this act has the effect of an execution duly levied against all property of the delinquent; the judgment is not satisfied nor the lien removed until such charges, penalties, and costs are paid, or the property sold for the payment thereof

Assessments constitute lien

SEC. 42. All charges assessed and levied under the provisions of this act shall be paid to the state treasurer upon the order of the state controller. The controller must mark the date of payment of any charge on the record of assessments and charges for oil protection, and shall give a receipt for such payment in such form as the controller shall prescribe. Errors appearing in any assessment on said record of assessments or overcharges shall be corrected by the controller by and with the consent of the state board of control in such manner as said controller and said board shall agree upon.

SEC. 43. Any person, firm, corporation or association claiming and protesting as herein provided that the assessment made or charges assessed against him or it by the state mineralogist is void, in whole or in part, may bring an action against the state treasurer for the recovery of the whole or any part of such charge, penalties, or costs paid on such assessment upon the grounds stated in said protest, but no action may be brought later than the third Monday in February next following the day on which the charges were due, nor unless such person, firm, corporation or association shall have filed with the state controller at the time of payment of such charges a written protest stating whether the whole assessment or charge is claimed to be void, or if a part only, what part, and the grounds upon which such claim is founded; and when so paid under protest the payment shall in no case be regarded as voluntary.

Action to recover charges

Whenever, under the provisions of this section, an action is commenced against the state treasurer, a copy of the complaint and of the summons must be served upon the treasurer, or his deputy. Failure to  
bring action

A failure to begin such action within the time herein specified shall be a bar against the recovery of such charges. In any such action the court shall have the power to render judgment for plaintiff for any part or portion of the charge, penalties, or costs found to be void and so paid by plaintiff upon such assessment.

Action to  
collect  
delinquent  
charges

SEC. 44. The state controller shall, on or before the thirtieth day of May next following the delinquency of any charge as provided in this act, bring an action in a court of competent jurisdiction in the county of Sacramento in the name of the people of the State of California, to collect any delinquent charges or assessments, together with any penalties, or costs, which have not been paid in accordance with the provisions of this act and appearing delinquent upon the records of assessments and charges for oil protection hereinbefore in this act provided for.

In such actions the record of assessment and charges for oil protection, or a copy of so much thereof as is applicable in said action, duly certified by the controller, showing unpaid charges against any person, firm, corporation or association assessed by the state mineralogist, is prima facie evidence of the assessment upon the property, the delinquency, the amount of charges, penalties, and costs due and unpaid to the state, and that the person, firm, corporation or association is indebted to the people of the State of California in the amount of charges and penalties therein appearing unpaid, and that all the forms of law in relation to the assessment of such charges have been complied with.

All moneys over and above the forty-five thousand dollars for support and maintenance shall be available for the actual repair of wells as specified in section fourteen, and for expenditures provided for in sections thirty-six, forty, forty-three and forty-four of this act. Moneys collected from any county shall be available for repair work only in said county. Expenditure on repair work, in any county, during one year, shall not exceed an amount equal to twenty-five dollars per producing oil well in said county, but in no county shall the amount exceed twenty-five thousand dollars, and the charges hereinbefore provided for shall be so determined that such amount shall be available. All moneys received in repayment for repair work done under the order and direction of the supervisor, as hereinbefore provided, shall be returned to the repair fund of the county in which the work was done.

SEC. 48. On or before the first day of October in each and every year, the supervisor shall submit a report in writing to the state mineralogist showing the total number of barrels of petroleum produced in each county in the state during the previous fiscal year, together with the total cost for said year of supervision as shown by the "supervision account" and the net amount remaining therein available for the succeeding year's expense, also the total amount uncollected; such report shall also show the total amount collected in each county under the "county repair account" during such year, total amount expended for said purpose, the total amount still outstanding and not repaid, and the sum available for the next succeeding year. Such report shall also include such other information as the supervisor may deem advisable. The state mineralogist shall make public such statements promptly after receipt of the same from the supervisor for the benefit of all parties interested therein.

Leases, etc.,  
to be filed

SEC. 49. All leases, licenses and assignments thereof or of any interest therein for, upon or concerning lands or tenements in this state, whereby a right is given or granted to operate or to sink or drill wells thereon for petroleum or gas, or either, or pertaining thereto, shall be filed for record forthwith, and recorded in the records of the county recorder of the county where the property is situated without delay, and not be removed until recorded. No such lease or license shall have any force or validity until it is filed for record as aforesaid, except as between parties thereto, unless the person claiming thereunder is in actual possession.

[Approved June 11, 1915. In effect August 10, 1915.]

*The people of the State of California do enact as follows:*

SECTION 1. Section one thousand eight hundred fifty-eight of the Political Code of the State of California is hereby amended to read as follows:

1858. The school superintendent of every county and city and county must apportion all state and county school moneys for the elementary grades of his county or city and county as follows:

of average daily attendance; and in districts wherein separate classes are established for the instruction of the deaf, as provided in section six een hundred and eighteen of this code, an additional teacher for each nine deaf children, or fraction of such number, not less than five, actually attending such classes.

2. He must ascertain the total number of teachers for the county or city and county by adding together the number of teachers allowed to the several districts. He must make an annual report of the schools of his county or city and county under oath to the superintendent of public instruction not later than August first of each year, and must report the number of teachers ascertained and allowed to his county or city and county by the rule or provisions of subdivision one hereof.

3. Five hundred and fifty dollars shall be apportioned to every school district for every teacher so allowed to it; *provided*, that to districts having over thirty-five or a multiple of thirty-five units of average daily attendance and a fraction of less than ten units of average daily attendance, forty dollars shall be apportioned for each unit of average daily attendance in said fraction.

Remainder  
apportioned  
by daily  
attendance

4. All school moneys remaining on hand, after apportioning to the school districts the moneys provided for in subdivision three of this section, must be apportioned to the several districts in proportion to the average daily attendance in each district during the next preceding school year: *provided*, that in estimating the average daily attendance for such apportionment, pupils who are absent on account of illness or in obedience to quarantine regulations shall be counted as present, but not exceeding five days for any one pupil in any school year, where the teacher is satisfied that such absence is due to such cause and so certifies under oath, but shall be reported to the county superintendent of schools separately from those actually present and shall not be included in the report of the average daily attendance made by the county superintendent of schools to the state superintendent of public instruction. In any newly organized school district where school was not maintained during the school year in which it was organized the county superintendent shall require the teachers and principal or principals of the school district or districts from which the newly organized district was formed to report to him as a part of their annual reports, the names and attendance records of all pupils residing in said new district and attending school in the old district or districts during the school year in which the new district was organized. The county superintendent shall determine the average daily attendance and the teacher allowance for the newly organized district from those reports and shall deduct from the old districts the average daily attendance credited to the new district. In case it shall appear that none of the pupils residing in the newly formed district attended school during the year in which said district was organized in the district or districts

from which said district was organized, then the superintendent shall apportion six hundred dollars to the newly organized school district for the purpose of maintaining school therein during the school year next succeeding the school year in which it was organized.

5. A minimum full day's attendance on the regular full time elementary day school as hereby established, is, for a pupil of the first, second, or third grade, two hundred minutes, and for a pupil of the fourth, fifth, sixth, seventh, or eighth grade, two hundred forty minutes, of actual attendance for any given day upon school sessions, exclusive of intermissions. When a pupil is absent from the first, second, or third grade of a regular full time day school, for any day, session, or part of a session, five per cent of a day's absence must be recorded for each full ten-minute period of absence; and when a pupil is absent from any other grade of said elementary school for any day, session or part of a session, five per cent of a day's absence must be recorded for each full twelve-minute period of absence; *provided, however*, that such record may not for any one day exceed one hundred per cent. The actual attendance of a pupil upon a regular full-time day school for any given length of time shall be the number of days school was actually taught during such time less the sum of his absences. There shall be recorded five per cent of a day's attendance for each full twelve-minute period of attendance by any pupil upon the regular daily session or sessions, exclusive of intermissions, of a part-time day or evening continuation or vocational school, department, or class, either of elementary or high school grade; and the actual attendance of a pupil upon a part-time day or evening school, department or class for any given length of time shall be the sum of his attendance during such time, provided that no pupil shall be credited in any one school month, with more than twenty days attendance in a part-time day school. Units of average daily attendance wherever used in this section shall be construed to be the quotient arising from dividing the total number of days of pupils' attendance in the regular full-time day, part-time day, and evening elementary schools of the district for the school year by the number of days school was actually taught in the regular elementary day schools of the district during said year.

6. Whenever in any school year, prior to the receipt by the school districts of any county, or city and county of this state, of their state, county, or city and county, or special, or high school fund, the school districts of that county, or city and county shall not have sufficient money to their credit to pay the lawful demands against them, the county or city and county superintendent shall give the treasurer of said county or city and county, an estimate of the amount of school money that will next be paid into the county or city and county treasury, stating the amount to be apportioned to each district. Upon the receipt of such estimate it shall be the duty of the treasurer of said county, or city and county, to transfer from

any fund not immediately needed to pay the claims against it, to the proper school fund an amount not to exceed ninety per cent of the amount estimated by the superintendent, and he shall immediately notify the superintendent of the amount so transferred. In the event of such notice being given, the maturity of such bond shall be advanced and said bond be deemed to mature on the second day of July specified in the notice as the date on which it will mature, at which time the same shall be paid; *provided, however*, that the holder or owner of such bond may prior thereto surrender same and receive the principal thereof together with the interest thereon which would accrue on the second day of July specified in said notice. On said second day of July, if said bond has not been sooner surrendered, the treasurer shall set aside to the credit of the holder or owner of said bond the amount of principal and accrued interest then due on same, and said bond shall then be deemed to have matured, and interest shall thereafter cease to accrue on said bond. The amount so set aside shall on demand be paid the holder or owner of said bond on surrender and cancellation of same. The costs of such advertising shall be paid from said redemption fund.

*Registration of bonds.*Registration  
of bonds

SEC. 10. Said bonds may be surrendered by the holder to the treasurer for registration in accordance with the provisions of any law applicable to the registration of the municipal bonds of the city, and thereafter the principal and interest thereon shall be paid to the proper registered owner thereof.

*Unpaid assessments a trust fund.*

SEC. 11. In the event of such bonds being so issued, then the assessments, which shall be unpaid, as shown on the list filed by the superintendent of streets and determined by the city council, together with interest thereon, shall remain and constitute a trust fund for the redemption and payment of said bonds and of the interest which may be due thereon. In the event of non-payment of any assessment or installment thereof, or of any interest thereon, and as a cumulative remedy, the same when due as hereinafter provided, may by order of the council be collected by suit brought to foreclose the lien thereof in the same manner as provided in said street work act for the foreclosure of other assessments by action in a superior court, and with like costs, attorneys fees and other relief. Such assessments and each installment thereof and the interest and penalties thereon shall be and shall continue to constitute a lien against the lots and parcels of land on which made, until the same be paid, but for a period not exceeding the time within which an action might be brought on the last series of bonds issued upon the security of such unpaid assessments. Such lien shall be prior and superior to all other liens, except the lien for other state, county and municipal taxes; *provided, however,* that unmatured installments, interest and penalties shall not be deemed to be within the terms of any general covenant or warranty.

Unpaid assessments a trust fund.

*Assessments payable in installments.*

SEC. 12. Such unpaid assessments shall be payable in annual series corresponding in number to the number of series of bonds issued and an even annual proportion of each assessment shall be payable in each year preceding the date of maturity of each of the several series of bonds so issued. Such annual proportion of each assessment coming due in any year together with the annual interest on such assessment, shall in turn be payable in annual or semiannual installments according as the general municipal taxes of such city on real property are payable in annual or semiannual installments, and such installments shall be payable and become delinquent at the same times and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as do the general municipal taxes on real property of said city. Upon default in payment, the lands securing such installments and assessments shall be sold in the same manner in which real property in such city is sold, for the non-payment of general municipal taxes, and be subject to redemption in the same manner as such real property is redeemed from such delinquent sale, and upon failure of redemption shall in like manner pass to the purchaser. The city may be the purchaser at any delinquent sale in like manner in which it becomes or may become the purchaser of property sold for non-payment of the general municipal property tax, and in the event of its so becoming the purchaser shall pay and transfer into

said redemption fund the amount of the delinquent assessment and of the delinquent interest thereon upon which said sale is made. In cases where under the law, the city is not always the purchaser at sales for delinquent municipal taxes, the city shall become such purchaser at any delinquent sale hereunder where there is no other purchaser. In the event of there being no available funds in the treasury with which to make such payment, the tax collector shall delay the entry of the certificate of sale until such funds are available, making demand in the mean time upon the city council that a suitable amount be included in the next tax levy for the purpose of providing funds with which to make such payment; *provided, however,* that the period of redemption from such tax sale shall not be extended thereby nor the rights or privileges of the property owner be thereby in anywise affected.

*Interest on assessments.*

Interest on  
assessments

SEC 13. Interest on all unpaid assessments shall run from the return of the warrant and assessment, and be computed at the same rate specified in the bonds secured by such assessments. Such interest shall be payable annually or semi-annually as above provided, according as such general municipal taxes on real property in such city are payable annually or semiannually, but shall in each year be computed and collected up to the next second day of July succeeding, no deduction being made by reason of any installment of such assessment being due or paid prior thereto in such year.

*Entered on assessment roll.*

List of  
unpaid  
assessments.

SEC 14. The superintendent of streets shall make and certify to the city auditor, or other person authorized to apportion upon the assessment rolls taxes levied in such city for general municipal purposes, a complete list of all such unpaid assessments, which list shall contain such description of each lot or parcel of land assessed as will enable such auditor or other person to identify it, and the amount and date of the assessment thereon. The auditor shall thereupon enter in his assessment roll on which taxes will next become due, opposite each lot or parcel of land affected in a space marked "public improvement assessment," or by other suitable designation, the several installments of such assessment coming due during the fiscal year covered by such assessment roll, including in each case the interest due on such total unpaid assessments as herein provided. Taxpayers shall have the like right to pay such assessment as so entered under protest as they have to pay general municipal taxes under protest, but in making such payment under protest must accompany the payment with their written protest. In the event of the lot or parcel of land affected by any assessment not being separately assessed on said roll so that the installment to be collected can be conveniently entered thereon, then said auditor shall enter on said roll a description of the lot or parcel affected, with the name of the owners if known but otherwise

described as "unknown owners," and extend the proper installment opposite same. In the event of a subdivision of the lot or parcel affected into separate holdings, the owners of same may in writing request the auditor to separate the installments according to some fixed proportions to be stated by them and to enter same in said roll opposite their respective holdings in accordance therewith. Such owners shall in connection therewith in writing waive objections to the proceeding and to the method of collecting assessments proposed by them and agree to pay future installments in accordance therewith. Thereafter the auditor shall enter such installments opposite the respective lots or parcels of land in the proportions agreed upon; *provided, however,* such division of the installments shall not be so disproportioned to the relative values of the separate holdings of land as to jeopardize the security of the assessments.

*Assessments may be released.*

SEC. 15. Any interested property owner may release and pay any such unpaid assessment by depositing with the city treasurer the total unpaid balance of any such assessment together with the total interest which would become due on such assessment were it paid in the regular way; *provided,* that if the amount of same be sufficient to provide surplus moneys with which to redeem any bond outstanding and not due the next second day of July, then such person so releasing such assessment may direct the treasurer to redeem such bond, and the treasurer shall then give the proper notice for redeeming such bond, by advancing its maturity as hereinbefore provided upon which redemption the person releasing such assessment shall be entitled to credit and reimbursement for the par value of any coupons thereon which shall be canceled but not paid, less any costs incurred for publishing any notice of redemption.

Assessments may be released

*Special tax to protect city.*

SEC. 16. The city council may, at the time of fixing the annual tax rate and levying the taxes to be collected for general municipal purposes, levy a special tax upon the taxable property in the city for the purpose of paying for the lands purchased or to be purchased at such tax sales, but not to exceed ten cents on each one hundred dollars of assessable property. Such special tax shall be in addition to all other taxes levied for municipal purposes, and shall be computed, entered and collected in the same manner, and by the same persons, and at the same time and with the same penalties and interest as are other municipal taxes of said city. In the event of a surplus remaining in said redemption fund after payment of all said bonds and the interest thereon, the same shall first be applied to repayment to said city of any special taxes so levied less its recovery on the lands purchased at delinquent sale, and also of any costs incurred by it hereunder,

Special tax to purchase lands at tax sale.

and then be proportionately credited upon the final installments due upon said assessments securing said bonds and repaid to those paying same if previously paid.

*Effect of certificate of sale and deed.*

SEC. 17. In the event of sale by the tax collector of any lot or parcel of land for non-payment of taxes, and of any installment of the assessment thereon, or of the penalties, interest or costs on same or for non-payment of any installment, penalties, interest or costs, then any certificate of such sale and deed issued pursuant thereto, is primary evidence of the regularity of all proceedings theretofore had, and shall be conclusive evidence of all things of which bonds issued upon the security thereof are conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issuance of the bonds, and such deed conveys to the grantee the absolute title to the lands described therein, free of all incumbrances, except the lien for other state, county and municipal taxes, and unmatured assessments thereon.

Said resolution shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why said proposed improvement

The lots and portions of lots fronting upon said excepted work already done shall not be included in the assessment for the class of work from which the exception is made; *provided*, that this shall not be construed so as to affect the special provisions as to grading contained in subdivision 9 of section 20 of this act.

SEC. 2 Section 5 of said act is hereby amended to read as follows:

Sec 5 After the adoption of the resolution of intention, the street superintendent shall cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than three hundred feet in distance apart, but not less than three in all, or when the work to be done is only upon an entire crossing or intersection or any part thereof, in front of each quarter block or irregular block liable to be assessed, notices of the passage of said resolution. Such

Written protest against proposed work

protest must be in writing and be delivered to the said clerk of the city council, and no other protests or objections shall be considered. At the time set for hearing protests the city council shall proceed to hear and pass upon all protests so made and its decision shall be final and conclusive; *provided, however*, that when the protest is against the proposed work, and the cost thereof is to be assessed upon the property fronting thereon, and the city council finds that such protest is made by the owners of a majority of the property fronting on the proposed work, or when the protest is against the proposed work and the cost thereof is to be assessed upon the property within a district, and the city council finds that such protest is made by the owners of more than one-half of the area of the property to be assessed for said improvements, no further proceedings shall be taken for a period of six months from the date of the decision of the city council on said hearing, unless the said protest be overruled by an affirmative vote of four-fifths of the members of the city council. The words "proposed work" as used herein, shall mean and include all the work described in the resolution of intention. The city council may adjourn said hearings from time to time.

SEC. 4. Section 7 of said act is hereby amended to read as follows:

SEC. 5. Section 11 of said act is hereby amended to read as follows:

Notice of  
award  
of contract

such regulations as may be prescribed by ordinance of the city council. Should the said owners fail to elect to take said work, and to enter into a written contract therefor within ten days, or to commence the work within fifteen days after the date of such written contract, and to prosecute the same with diligence to completion, it shall be the duty of the superintendent of streets to enter into a contract with the original bidder to whom the contract was awarded, and at the prices specified in his bid.

Said contract shall contain also express notice that, in no case, except where it is otherwise provided by law or the city charter will the city, or any officer thereof, be liable for any portion of the expense, nor for any delinquency of persons or property assessed. The city council may, by ordinance, prescribe general rules directing the superintendent of streets (or the city engineer, in the cases herein provided) and the contractor as to the materials to be used, and the mode of executing the work, under all contracts thereafter made. The assessment and apportionment of the expenses of all such work or improvement shall be made by the superintendent of streets in the mode provided by this act.

*Senate Joint Resolution No. 12, relative to the protection of second-growth timber on watersheds.*

[Filed with Secretary of State May 6, 1915]

WHEREAS, The presence of standing timber or brush on watersheds is essential as the only natural means of water conservation; and

Protection of second-growth timber on watersheds

WHEREAS, The conservation of the public water supply is of vital importance to the citizens of the State of California, owing to the long periods in which the rainfall is inadequate to meet public needs, and the fact that great depredation is caused by erosion when the flow of streams draining said watersheds is unrestrained; and

WHEREAS, Vast timber or forest growths located upon many of the forest reservations and public lands of the United States have been seriously depleted by the removal of trees therefrom for commercial purposes, thus making the preservation of the second-growth timber essential to the present and future natural water conservation on said watersheds; and

WHEREAS, The process invariably followed in deforesting timber lands of the first-growth trees results in unused stumps, logs and branches commonly known as "slashings" being left to dry and decay upon the ground among or near to the uncut young trees and brush, thereby greatly increasing the fire menace to which said trees and brush are subjected; and

WHEREAS, The conservation of water on many other watersheds depends entirely on the brush fields located thereon, which are in their nature highly inflammable and subject to an increased fire hazard due to the proximity of such deforested areas upon federal reservations and public lands; now, therefore, be it

*Resolved by the senate and assembly of the State of California, jointly,* That we respectfully urge the president of the United States to incorporate in a special message to congress at the special session about to convene, the recommendation that congress take such measures as may be necessary to require the agents of the federal government whose duty it is to protect the forest reservations and public lands of the United States, to remove from government reservations and public lands such slashings and other inflammable material as may endanger the timber and brush growth on watersheds.

Improvement  
of  
Mokelumne  
river.

WHEREAS, The Mokelumne river was until recent years a navigable river and would be navigable but for the failure to carry on the work of dredging and improvement done by the government of the United States; and

WHEREAS, The said Mokelumne river can be easily rendered navigable as far as the town of Woodbridge by dredging; and

WHEREAS, The enterprise is fully justified by the commercial importance of the community affected; now, therefore, be it

State to pay  
half of  
expense.

*Resolved*, That when the government of the United States is ready to enter upon the work of improvement of said river so as to render it navigable to the town of Woodbridge, the State of California stands ready to defray one-half of the expense of such improvement.

WHEREAS, It is provided in section three of the act aforesaid, that the grants of money authorized by this act shall be paid annually "to each state which shall by action of its legislature assent to the provisions of this act"; therefore, be it

*Senate Concurrent Resolution No. 13, relative to a measure pending in congress known as House Joint Resolution 344, sixty-third congress, second session, providing for the appointment of a national marketing commission, and memorializing congress to adopt the resolution so that it may immediately go into effect.*

[Filed with Secretary of State May 7, 1915.]

WHEREAS, Representative Goodwin, of Arkansas, introduced on September 10, 1914, House Joint Resolution 344, which was referred to the committee on agriculture and ordered to be printed; and

House Joint Resolution 344.

WHEREAS, House Joint Resolution 344 expresses the sentiment of a majority of the state legislature of the State of California, said resolution in full being as follows:

“WHEREAS, It is patent that there are defects in the economic system of the United States which affect adversely the producers and the consumers of agricultural products; and

“WHEREAS, These defects have been accentuated by the European war, and to a degree justifying the recent utterances of the president of the United States in the matter of the high cost of living; and

“WHEREAS, Various attempts have been made from time to time to overcome these defects, mainly through nongovernmental agencies, and recently under governmental agency under the bureau of marketing of the department of agriculture; and

“WHEREAS, Experience has, however, proven that the solution of this question is not to be found in nongovernmental agencies, nor is it to be found in a governmental agency. It is to be found in a semiofficial governmental agency, as is here proposed, as witness the success in the European countries of such a system, a system which has swept aside the trusts in food products and which renders the trust an impossibility; and

“WHEREAS, The present abnormally high prices for food products not alone offers an opportune time for the establishment of a semiofficial governmental agency as a means for the temporary solution of this problem, but also for the organization of the agricultural forces of the United States on the lines indicated as a means for the permanent solution of this problem; now, therefore, be it

“Resolved by the senate and house of representatives of the United States of America in congress assembled, That the president be authorized and requested to appoint a national marketing commission to be composed of twenty-nine members, fifteen of whom shall be farmers and fourteen of whom shall be selected with reference to their eminence in commerce, law, finance, and transportation.

National marketing commission favored.

“Sec. 2. That such national marketing commission shall meet in the city of Washington at a time designated by the

president and organize by the election of officers, and adopt a plan of action for the effective organization of the states, counties, and localities of the United States for the economic distribution of the products of the farm, with power to act in so far only as affecting individuals and organizations that shall elect to become a part of this national marketing system"; and

WHEREAS, It is generally recognized that there is imperative need of a more scientific system of marketing the farm products of the United States; and

WHEREAS, The above resolution, if carried out, will undoubtedly lead to an improvement in our marketing conditions; be it therefore

*Resolved, that the senate of the State of California, the assembly concurring, Respectfully requests and urges the congress of the United States to adopt House Joint Resolution 344; and be it further*

*Resolved, That copies of this resolution be sent to the California senators and representatives, and to the president of the United States, who are hereby requested by this resolution to work in the interest of the passage of House Joint Resolution 344.*

*Assembly Joint Resolution No. 9, relative to the maintenance of a siren by the United States lighthouse service of Alcatraz island and asking for its discontinuance and the substitution of some noiseless but equally effective arrangement.*

[Filed with Secretary of State May 7, 1915.]

Removal of  
Alcatraz  
island siren.

WHEREAS, The United States lighthouse service maintains a siren on Alcatraz island, which, when in use, disturbs the peace and quietness of the northern residential section of San Francisco and the residents of Sausalito, Belvedere and Tiburon, Marin county; and

WHEREAS, There is now in use by said United States lighthouse service, in other places, and on other points, a system of powerful lights, bells and whistles that answer the same purpose as the sirens and will not disturb the peace and quiet of the residents in the vicinity thereof; therefore, be it

*Resolved, That the United States authorities be and they are hereby requested to provide for the removal of said siren and to substitute in lieu thereof bells, whistles, lights, or some other system of signals less objectionable than the present siren; and be it further*

*Resolved, That a copy of this resolution be forwarded to the proper department at Washington, D. C., and a copy of the same be forwarded to each of our senators and representatives in congress.*

[Filed with Secretary of State May 7, 1915.]

*Resolved by the senate and assembly of the State of California, jointly,* That the governor of the state be, and he is hereby, requested and authorized to appoint a commission of three or more persons to act in conjunction with any similar commission or committee that may be appointed by the president of the United States, or by congress, or by either branch thereof, or by any federal official for the purpose of framing a law and devising a plan for the improvement of the navigation of the straits of Carquinez, the San Joaquin and Sacramento rivers, the reclamation of swamp and overflowed lands in the San Joaquin valley, the irrigation of arid lands therein, and the conservation of water, with a view of segregating the expense among the federal government, the State of California, and the landowners, and whereby such work may be concentrated under one management.

The legislature of the State of California at its forty-first regular session commencing on the fourth day of January, 1915, two-thirds of all the members elected to each of the two houses of said legislature voting therefor, hereby proposes to the people of the State of California that section seven and

Constitutional amendment

one-half of article eleven of the constitution of the state be amended so as to read as follows:

Counties  
may frame  
charters

Freeholders

Election.

Petition.

County clerk  
to examine  
petition.

Order for  
election.

Candidates  
for  
freeholders.

Sec. 7½. Any county may frame a charter for its own government consistent with and subject to the constitution (or, having framed such a charter, may frame a new one), and relating to matters authorized by provisions of this article of the constitution, by causing a board of fifteen freeholders, who have been for at least five years qualified electors thereof, to be elected by the qualified electors of said county, at a general or special election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by the vote of three-fifths of all the members of the board of supervisors of such county, declaring that the public interest requires the election of such board for the purpose of preparing and proposing a charter for said county, or in pursuance of a petition of qualified electors of said county as hereinafter provided. Such petition, signed by fifteen per centum of the qualified electors of said county, computed upon the total number of votes cast therein for all candidates for governor at the last preceding general election at which a governor was elected, praying for the election of a board of fifteen freeholders to prepare and propose a charter for said county, may be filed in the office of the county clerk. It shall be the duty of said county clerk, within twenty days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of electors of the county, whether said petition is signed by the requisite number of qualified electors. If required by said clerk, the board of supervisors shall authorize him to employ persons specially to assist him in the work of examining such petition, and shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the result thereof, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors; *provided*, that if a general election shall occur in said county not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid, or such presentation of said petition to said board of supervisors, said board of freeholders may be elected at such general election. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county offices, to be voted for at

general elections. It shall be the duty of said board of freeholders, within one hundred and twenty days after the result of such election shall have been declared by said board of supervisors, to prepare and propose a charter for said county, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the county clerk of said county and the other in the office of the county recorder thereof. *Senate Constitutional Amendment No. 22, a resolution to propose to the people of the State of California an amendment to the constitution of said state, by amending section 1 of article IV thereof; relating to legislative powers, and reserving to the people of the State of California the power to propose laws, statutes and amendments to the constitution and to enact the same at the polls independent of the legislature and also reserving to the people of the State of California the power to approve or reject at the polls any act or section or part of any act of the legislature.*

[Filed with Secretary of State May 12, 1915.]

The legislature of the State of California, at its regular session commencing on the fourth day of January, nineteen hundred fifteen, two-thirds of all the members elected to each of the two houses of said legislature voting in favor thereof, hereby propose that section 1 of article IV of the constitution of the State of California, be amended so as to read as follows:

Constitutional amendment

Section 1. The legislative power of this state shall be vested in a senate and assembly which shall be designated "the legislature of the State of California." but the people reserve to themselves the power to propose laws and amendments to the constitution, and to adopt or reject the same, at the polls independent of the legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the legislature.

Legislative power of state

The enacting clause of every law shall be "the people of the State of California do enact as follows:"

Enacting clause of laws

The first power reserved to the people shall be known as the initiative. Upon the presentation to the secretary of state of a petition certified as herein provided to have been signed by qualified electors, equal in number to eight per cent of all the votes cast for all candidates for governor at the last preceding general election, at which a governor was elected, proposing a law or amendment to the constitution, set forth in

Initiative.

full in said petition, the secretary of state shall submit the said proposed law or amendment to the constitution to the electors at the next succeeding general election occurring subsequent to ninety days after the presentation aforesaid of said petition, or at any special election called by the governor in his discretion prior to such general election; *provided*, that no law creating a bonded indebtedness shall be enacted under this provision without the assent of two-thirds of the qualified electors voting thereon. All such initiative petitions shall have printed across the top thereof in twelve point black-face type the following: "Initiative measure to be submitted directly to the electors."

Presentation  
to  
legislature

Upon the presentation to the secretary of state at any time not less than ten days before the commencement of any regular session of the legislature, of a petition certified as herein provided to have been signed by qualified electors of the state equal in number to five per cent of all the votes cast for all candidates for governor at the last preceding general election, at which a governor was elected, proposing a law set forth in full in said petition, the secretary of state shall transmit the same to the legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the legislature, within forty days from the time it is received by the legislature. If any law proposed by such petition shall be enacted by the legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the legislature within said forty days, the secretary of state shall submit it to the people for approval or rejection at the next ensuing general election. The legislature may reject any measure so proposed by initiative petition and propose a different one on the same subject by a ye and nay vote upon separate roll call, and in such event both measures shall be submitted by the secretary of state to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in twelve point black-face type the following: "Initiative measure to be presented to the legislature."

Referendum.

The second power reserved to the people shall be known as the referendum. No act passed by the legislature shall go into effect until ninety days after the final adjournment of the session of the legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the state, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect a statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be passed

only upon a yea and nay vote, upon a separate roll call thereon; *provided, however*, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure. Any law so passed by the legislature and declared to be an urgency measure shall go into immediate effect.

Upon the presentation to the secretary of state within ninety days after the final adjournment of the legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to five per cent of all the votes cast for all candidates for governor at the last preceding general election at which a governor was elected, asking that any act or section or part of any act of the legislature, be submitted to the electors for their approval or rejection, the secretary of state shall submit to the electors for their approval or rejection, such act, or section or part of such act, at the next succeeding general election occurring at any time subsequent to thirty days after the filing of said petition or at any special election which may be called by the governor, in his discretion, prior to such regular election, and no such act or section or part of such act shall go into effect until and unless approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any act the remainder of such act shall not be delayed from going into effect.

Submitted to electors.

Any act, law or amendment to the constitution submitted to the people by either initiative or referendum petition and approved by a majority of the votes cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the secretary of state. No act, law or amendment to the constitution, initiated or adopted by the people, shall be subject to the veto power of the governor, and no act, law or amendment to the constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but acts and laws adopted by the people under the referendum provisions of this section may be amended by the legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by the proponents and opponents thereof, shall be mailed to each elector in the same manner as now provided by law as to amendments to the constitution, proposed by the legislature; and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the senate.

In effect when

Not subject to veto by governor

Conflicting provisions

Failure to  
submit  
measures

If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amend ment to the constitution, proposed by the legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any be so proposed, as herein provided.

Petitions  
may be  
presented in  
sections

Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title, and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the state shall be competent to solicit said signatures within the county or city and county of which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent to sign such section. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. The affidavit of any person soliciting signatures hereunder shall be verified free of charge by any officer authorized to administer oaths. Such petitions so verified shall be prima facie evidence that the signatures thereon are genuine and that the persons signing the same are qualified electors. Unless and until it be otherwise proven upon official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified electors.

Filing of  
sections

Each section of the petition shall be filed with the clerk or registrar of voters of the county or city and county in which it was circulated, but all said sections circulated in any county or city and county shall be filed at the same time. Within twenty days after the filing of such petition in his office the said clerk or registrar of voters, shall determine from the records of registration what number of qualified electors have signed the same, and if necessary the board of supervisors shall allow said clerk or registrar additional assistants for the purpose of examining such petition and provide for their compensation. The said clerk or registrar, upon the completion of such examination, shall forthwith attach to said petition, except the signatures thereto appended, his certificate, properly dated, showing the result of said examination and shall forthwith transmit said petition, together with his said certificate, to the secretary of state and also file a copy of said

certificate in his office. Within forty days from the transmission of the said petition and certificate by the clerk or registrar to the secretary of state, a supplemental petition identical with the original as to the body of the petition but containing supplemental names, may be filed with the clerk or registrar of voters, as aforesaid. The clerk or registrar of voters shall within ten days after the filing of such supplemental petition make like examination thereof, as of the original petition, and upon the completion of such examination shall forthwith attach to said petition his certificate, properly dated, showing the result of said examination, and shall forthwith transmit a copy of said supplemental petition, except the signatures thereto appended, together with his certificate, to the secretary of state.

When the secretary of state shall have received from one or more county clerks or registrars of voters a petition certified as herein provided to have been signed by the requisite number of qualified electors, he shall forthwith transmit to the county clerk or registrar of voters of every county or city and county in the state his certificate showing such fact. A petition shall be deemed to be filed with the secretary of state upon the date of the receipt by him of a certificate or certificates showing said petition to be signed by the requisite number of electors of the state. Any county clerk or registrar of voters shall, upon receipt of such copy, file the same for record in his office.

Secretary of state's certificate

The duties herein imposed upon the clerk or registrar of voters shall be performed by such registrar of voters in all cases where the office of registrar of voters exists.

The initiative and referendum powers of the people are hereby further reserved to the electors of each county, city and county, city and town of the state, to be exercised under such procedure as may be provided by law. Until otherwise provided by law, the legislative body of any such county, city and county, city or town may provide for the manner of exercising the initiative and referendum powers herein reserved to such counties, cities and counties, cities and towns, but shall not require more than fifteen per cent of the electors thereof to propose any initiative measure nor more than ten per cent of the electors thereof to order the referendum. Nothing contained in this section shall be construed as affecting or limiting the present or future powers of cities or counties having charters adopted under the provisions of section eight of article eleven of this constitution.

Initiative and referendum powers reserved to electors of counties and cities.

In the submission to the electors of any measure under this section, all officers shall be guided by the general laws of this state, except as is herein otherwise provided.

This section is self-executing, but legislation may be enacted to facilitate its operation and to protect petitions provided for herein from fraud and misrepresentation, but in no way limiting or restricting either the provisions of this section or the powers herein reserved.

*Senate Concurrent Resolution No. 22, relative to the correction of erroneous reports regarding California's experience under woman suffrage.*

[Filed with Secretary of State May 12, 1915]

WHEREAS, The issue of woman suffrage is pending in many states of the union; and

WHEREAS, The operation and effect of the enfranchisement of women in California is being constantly misrepresented in such states and used there as arguments in opposition to the granting of suffrage to women; therefore, be it

*Resolved by the senate of the forty-first session of the legislature of the State of California, the assembly concurring,* That the experience of this state amply justifies the adoption of woman suffrage by the people in October, 1911; and be it further Woman suffrage approved

*Resolved,* That so successful has been the operation and effect of granting political rights to women equal to those held by men, that it is generally conceded that were the question to be again voted on by the people of this state, it would be re-endorsed by an overwhelming majority; and be it further

*Resolved,* That the adoption of woman suffrage by California is one of the important factors contributing to the marked political, social and industrial advancement made by our people in recent years, and that any disparagement of the cause of woman suffrage attempted elsewhere on the ground that woman suffrage is not satisfactory to this state, has no basis in fact, and is signally disproved by the acknowledged intelligence and discrimination shown by women voters in the settling of our great political and industrial problems at the polls.

WHEREAS, The oil industry of the State of California is one of the most important industries of the state, an industry in which vast sums of money have been invested in good faith and in which the State of California leads all the other states of the union; and

WHEREAS, The continued development of the oil lands of the state is essential to the continuance of this great industry and such development has been, and now is, seriously hampered by the chaotic condition of the federal laws governing the same, due in part to the inapplicability of the mineral laws of the United States to the oil industry, and the confusion resulting from the various executive withdrawal orders, and

*Assembly Joint Resolution No. 29, requesting congress at its next session in Washington, D. C., to grant relief to the viticultural interests of California by repealing or amending the act approved October 22, 1914, increasing the revenue tax on brandy used in fortification of sweet wines from three cents to fifty-five cents per proof gallon.*

WHEREAS, By an act, entitled "An act to increase the revenue and for other purposes," approved October 22, 1914, congress increased the revenue tax on brandy used in fortification of sweet wines from three cents a proof gallon to fifty-five cents per proof gallon, and according to the official opinion received from the treasury department made no provision for nullifying such increase after the end of the year 1915; and

WHEREAS, Such increase of tax and the automatic additional increase to one dollar and ten cents per proof gallon after January 1, 1916, will have the effect of practically preventing the use of California grapes for sweet wines in California for all time to come; and

WHEREAS, Such prohibitive taxation not only defeats its own object of acquiring revenue, but deals a crushing blow to the entire vineyard interests of California as explained by Bulletin No. 4 just issued by the state board of viticultural commissioners; therefore, be it

*Resolved by the senate and assembly, jointly, That congress* <sup>Relief from</sup> <sub>revenue tax</sub> <sub>on brandy.</sub> *be requested through California's representatives and senators, and through the state board of viticultural commissioners of this state, to grant such immediate relief by necessary legislation at its next session as will assure the preservation of our viticultural industry, which in California alone represents an investment of one hundred and fifty million dollars.*
