At any time within the thirty days mentioned in the preceding section a petition addressed to the legislative body and signed by the qualified electors of said city equal in number to at least fifteen per cent of the number of votes cast at the last general municipal election may be filed with the City Clerk, demanding the submission of any such ordinance passed by the legislative body to a vote of the qualified electors of such city. He shall attach to said petition his certificate showing the result of such examination. If the petition shall be found to be sufficient, the Clerk shall submit the same to the legislative body without delay.

If, by the Clerk's certificate, the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. Within ten days after the date of filing such amendment, the City Clerk shall make like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same without prejudice, however, to the filing of a new petition to the same effect.

Suspension of ordinance

Section 5. If the City Clerk shall be unable to make a certificate to the sufficiency or insufficiency of any Referendary Petition within thirty days after the publication of the ordinance, the submission of which to referendary vote is thereby demanded, such ordinance shall be suspended from taking effect within the expiration of said thirty days and until the date of the certificate of the City Clerk to the sufficiency or insufficiency thereof.

If the provisions of two or more ordinances adopted at the same election by vote of the qualified electors of the city conflict, then the ordinance receiving the highest affirmative vote shall prevail.

If the petition shall be found to be sufficient, the Clerk shall submit the same to the legislative body without delay and the legislative body shall thereupon order and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the Clerk's certificate to the legislative body that a sufficient petition is filed.

The tax rate may be fixed by the Board of Supervisors so as to produce, by a specifically designated rate, as recommended by the Mayor in any proposed annual budget and the appropriation ordinance therefor, an amount necessary for an emergency reserve fund, which fund is hereby created, for the purposes of meeting any emergency as defined in Sections 16 or 25 of this Charter. Appropriations for such emergency reserve fund shall be made only on the recommendation of the department head concerned, the approval of the Chief Administrative Officer or the board or commission in charge of such department, the recommendation of the Mayor to the Board of Supervisors that such appropriation be made, and the vote of three-fourths of the Board of Supervisors.

The balance in said emergency reserve fund at the end of any fiscal year shall be maintained and carried forward in said fund The annual appropriation for said fund and the annual tax rate therefor shall not exceed one per centum of the amount of the levy required to meet all other expense appropriations unless and until the accumulated and unencumbered balance in said fund shall amount to a sum not to exceed 3 per centum of the tax levy required to meet all other expense appropriations in the then current fiscal year. The Board of Supervisors, on the recommendation of the Mayor, may make appropriations to and may levy taxes for said emergency reserve fund in excess of said three per centum of the tax levy for all other purposes.

That section 80 of said Charter be amended to read as follows:

Fund Balances—Supplemental Appropriations

Disposal of fund balances

Section 80. Unused and unencumbered appropriations or unencumbered balances existing at the close of any fiscal year in revenue or expense appropriations of the City and County for any such fiscal year, including such balances in revenue and expense appropriations provided under the provisions of section 78 of this Charter for libraries, parks and squares, playgrounds and civil service in any such fiscal year, but exclusive of revenue or money required by law to be held in school, bond, bond interest, bond redemption, pension, trust, utility or other specific funds, or to be devoted exclusively to specified purposes other than annual appropriations, and together with revenues collected or accruing from any source during any such fiscal year, in excess of the estimated revenue from such source as shown by the annual budget and the appropriation ordinance for such fiscal year, shall be transferred by the Controller, at the closing of such fiscal year, to a "cash reserve fund" which is hereby created and which may be used only in the manner authorized by Section 81 of this Charter; provided, however that when the balance in said cash reserve fund shall equal ten (10) per centum of the current or the last preceding tax levy, no such transfer shall be made by the Controller except on the recommendation of said Controller, the approval of the Mayor and the authorization of the Board of Supervisors, by majority vote.

Such unused and unencumbered appropriations, balance and revenue collections in excess of revenue estimates, as hereinbefore in this section defined, when not transferred to the cash reserve fund as hereinbefore in this section required or authorized, shall be held as surplus.

Supplemental appropriation

Such surplus shall be taken into account as revenue of the ensuing fiscal year; provided, however, that any such surplus created in the fiscal year 1933–34 or created or existing in any subsequent fiscal year may be appropriated by the Board of Supervisors at the last meeting of such Board in any month, by means of an ordinance designated as a supplemental appropriation ordinance, on the recommendation of the Chief Administrative Officer, or any board, commission or elective officer, respectively, and the approval and submission by the Mayor of a supplemental budget estimate or request, in the same manner and subject to the same conditions, except time, as provided in this Charter for the submission and approval of the annual budget and the appropriation ordinance.

That Section 81 of said Charter be amended to read as follows:

Cash Reserve Fund and Temporary Loans

Cash reserve fund.

Section 81. The Board of Supervisors, by annual tax levy, may gradually build up the cash reserve fund authorized and created by the provisions of Section 80 of this Charter. Said fund shall be used exclusively (1) for the payment in any fiscal year of legally budgeted expenditures for such year in

anticipation of the collection, after the close of such fiscal year, of legally collectible taxes and other revenues as set forth in the budget and the appropriation ordinance for such fiscal year, and (2) for paying that portion of the authorized expenses of the City and County for any fiscal year, which, as certified to said Board by the Controller, becomes due and payable and must be paid prior to the receipt of tax payments for such fiscal year; provided, that such cash reserve fund shall not at any time exceed the estimated expenditures for the first five months of the then current fiscal year, less the amount of estimated revenues and receipts from sources other than tax rate revenues.

Temporary loans from other funds.

In the event that funds are not available in such a cash reserve fund to meet authorized expenditures of any fiscal year, the Board of Supervisors, on the recommendation of the Controller and the Mayor, and the written approval of the officer, board or commission responsible for the management and control of the fund from which it is proposed that the temporarily idle balances be transferred or loaned may, by ordinance, authorize the Treasurer to make temporary transfers or loans for specified periods of idle unencumbered balances in any fund in his custody, except a pension fund, at not less than the then current rate of interest paid by the banks to the City and County on City and County funds deposited with such banks. Such approval by the officer, board or commission concerned shall specify that the amount proposed to be transferred or loaned from such fund will not be needed for the purpose of such fund prior to the date specified for its return. The fund from which such transfer or loan is made shall be charged or encumbered with the amount of such transfer or loan and such amount shall not be considered as available in such fund for any other appropriation or encumbrance for which any expenditures or payments must be made prior to the date on which the transfer or loan is repaid. Any transfer or loan made as herein authorized during the first half of any fiscal year shall be repaid prior to the first day of January of said year, and any transfer or loan made during the remaining one-half of said fiscal year shall be repaid prior to the 15th day of May of said year. Such loans shall be secured by and made solely in anticipation of the collection of taxes levied or to be levied for the current fiscal year, and such loans shall constitute the first demand on and shall be repaid from the first tax collections for such current fiscal year; provided, however, that tax anticipation loans made as hereinafter in this section authorized, shall constitute a prior lien on said taxes levied or to be levied or collected.

Borrowing money.

When funds shall be needed for the immediate requirements of the City and County in any fiscal year in accordance with appropriations made as authorized by this Charter for such fiscal year, which payments may be made in advance of the receipt of income for such fiscal year, and when funds therefor cannot be made available as hereinbefore in this section

Borrowing money.

authorized, the Board of Supervisors, on the recommendation of the Controller and the approval of such recommendation by the Mayor, shall have power, by ordinance, to borrow funds on notes or other evidences of indebtedness on behalf of the City and County in aggregate amount not to exceed twenty-five (25) per centum of the estimated tax receipts for such current fiscal year. All such notes or other evidences of indebtedness shall be offered at public sale by the Board of Supervisors after not less than two days of advertising, not less than three days after the last day on which such advertising is published. Each such sale shall be made to the bidder offering the lowest rate of interest or whose bid represents the lowest net cost to the City and County; provided, however, that the rate of interest to be paid shall not exceed the sum of six (6) per centum per annum. The repayment of any sum so borrowed from any person, firm or corporation pursuant to the authority of this section, shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which said money was borrowed and shall be repaid to the person, firm or corporation from the first moneys received from said taxes. All such notes issued for funds borrowed prior to December 31 in any fiscal year to be repaid not later than said December 31, and all other such notes for other funds borrowed in any fiscal year shall be repaid not later than the 15th day of May of such fiscal year, the intention of this paragraph of this section being that the making of said loans shall be solely for the purpose of anticipating receipt of income. The Mayor, in preparing the consolidated budget estimate as provided by this Charter, shall include therein a separate amount sufficient to meet the interest to be paid on any funds borrowed under authority of this section.

CHAPTER 23.

Assembly Joint Resolution No. 2—Relative to memorializing Congress to propose an amendment to the Constitution of the United States repealing the eighteenth amendment and to provide for conventions in the several States to accomplish this purpose.

[Filed with Secretary of State January 27, 1933.]

Repeal of eighteenth amendment.

WHEREAS, One of the modes prescribed for the amendment of the Constitution of the United States is that Congress, whenever two-thirds of both houses shall deem it necessary, may propose amendments to said Constitution which shall be and become effective and operative as part of said Constitution when ratified by conventions in three-fourths of the several states if such mode of ratification be proposed by Congress; and

WHEREAS, The selection by the qualified voters in the several states of delegates to represent them in State conventions called to consider and act upon proposals thus submitted, is in harmony with the spirit of our institutions and the tenor of our time, and is the mode most expressive of the will of the people; and

WHEREAS, The Supreme Court of the United States has held that the determination of the method of ratification of a proposed amendment is the exercise of a national power specifically granted by the Constitution of the United States to the Congress; and that the Congress is not bound by the conflicting constitution or laws of any State in the exercise of this national power; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California does hereby petition the Congress of the United States to submit to the several states a resolution proposing an amendment to the Constitution of the United States repealing the eighteenth amendment thereto, without any reservation whatever, thereby restoring to the several States exactly those powers over the beverage use of intoxicating liquors possessed by them prior to the adoption of said amendment and reserving to the Congress only those powers possessed by it prior to the adoption thereof; and be it further

Resolved, That it is the further desire of the Legislature of the State of California, in order that the most prompt and direct vote of the people may be had, that the Congress provide and enact:

First—That the above proposed amendment be submitted to a convention in each of the several States for their approval and ratification or their disapproval and rejection.

Second—That the delegates to the ratifying conventions be elected at large in their several States after the manner of the election of the members of the electoral college, namely, that the delegates be elected on the basis of whether they are in favor of or opposed to the proposed amendment.

Third—That the day of election be uniform throughout the United States and as soon as practicable after the submission of the resolution.

Fourth—That the Congress provide the ways and means of nominating delegates to the several conventions, of conducting the election, and of assembling the several conventions, and that the Congress provide for the costs incurred thereby; and be it further

Resolved, That in adopting this resolution it is not the purpose or intent of this Legislature to apply to the Congress to call a convention for proposing amendments, but to give expression, through their representatives in Senate and Assembly, of the desire and hope of the people of California that such repeal of the eighteenth amendment be submitted, and that it be submitted to conventions in the several states for ratification; and be it further

Resolved, That duly authenticated copies of this resolution be sent forthwith to the president of the Senate of the United States, to the speaker of the House of Representatives of the United States, to the members of Congress from the State of California, and to the presiding officer of each branch of the legislature of each of the several States.

CHAPTER 24.

Senate Joint Resolution No. 5—Relative to memorializing Congress to provide medical care and other aid for Indians not residing on government reservations.

[Filed with Secretary of State January 28, 1933.]

Care and support for Indians.

WHEREAS, The National Government in pursuance of a long established policy now provides medical care and other aid for needy and destitute Indians living on Government reservations; and

WHEREAS, There are many Indians in this State who do not live on Government reservations and who are not thereby eligible to receive the medical care and other aid which is sorely needed; and

WHEREAS, The inequitable and intolerable burden of providing suitably for these needy and destitute Indians which has been placed upon the people of the thinly populated dis-

tricts where they are now massed has been vastly increased by the present economic crisis; now be it therefore

Resolved by the Senate and Assembly of the State of California, jointly, That Congress be most respectfully urged to make suitable provision for those needy and destitute Indians who are now in want and suffering; and be it further

Resolved, That the Senators and Representatives of the State of California in Congress be, and are hereby urged, to put forth their best and united efforts to secure the enactment by Congress of a measure adequately providing for these needy and destitute Indians; and be it further

Resolved, That copies of this resolution be respectfully transmitted to the President of the United States, the President of the Senate, the Speaker of the House of Representatives, to each of the Senators and Representatives of the State of California in Congress, to the Secretary of the Interior, and to the Commissioner of Indian Affairs.

CHAPTER 25.

Senate Joint Resolution No. 6.—Relative to memorializing Congress to provide compensation, in lieu of taxes, for certain lands of the United States within the borders of the several states.

[Filed with Secretary of State January 28, 1933.]

Compensation in lieu of taxes for government land.

WHEREAS, The United States government has withdrawn and set apart within permanent national parks or forests, enormous tracts of land, approximately nineteen million acres in the State of California alone; and

WHEREAS, Among other reasons, this has been made possible by the owner of timber land trading in their "cut-over" lands to the government for selected "cuttings"; and

WHEREAS, The United States government pays no taxes on such lands resulting in throwing a heavy tax burden on privately owned property in the same political subdivision; now, therefore, be it

Resolved by the Senate and Assembly, jointly, That Congress is urgently requested to appropriate sufficient money so that a sum of five cents per acre per year may be paid, in lieu of taxes, to the political subdivisions in which such lands belonging to the United States are situated; and be it further

Resolved, That a copy of this resolution be sent to the President of the United States, the Vice President, the Speaker of the House of Representatives and each of the members from California of the Senate and House of Representatives of the United States.

CHAPTER 26.

Assembly Joint Resolution No. 3—Relating to memorializing Congress to adopt legislation permitting the manufacture and sale of light wines.

[Filed with Secretary of State January 28, 1933.]

Light wines and beer

WHEREAS, Large sums of money have heretofore been invested in, and great tracts of land have been devoted to, the grape industry in California; and

WHEREAS, In the past, said industry has furnished work for thousands of persons; and

WHEREAS, Because of certain provisions contained in the laws of the United States, the production of grapes and the products thereof has been greatly curtailed, causing many persons heretofore gainfully employed to lose their means of livelihood; and

WHEREAS, It is of vital interest to the people of the State of California that the Congress of the United States adopt legislation legalizing the manufacture and sale of light wines, so that the grape industry in California may again be revived and employment furnished many people; and

WHEREAS, The sale and taxation of such light wines in this State would produce a large annual revenue, relieving the tax burden now placed upon owners of real property; furnish employment to thousands of unemployed persons and provide a market for large quantities of farm products required in the manufacture of such wines; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of said State urgently petition and request the Congress of the United States to adopt legislation now pending before it to amend section 29, Title II of the National Prohibition Act, being an amendment to H. R. 13312, to allow the manufacture, possession, transportation, sale, or exportation of naturally fermented wines without the addition of any distilled spirits, manufactured, possessed, sold, transported within or exported from the United States, to be served and consumed with usual meals in bona fide hotels, restaurants, public eating places, dining cars, or for the distribution and sale by duly permitted retail stores, for consumption in the home, which uses are expressly declared by this Act of Congress to be nonbeverage and when so used said naturally fermented wines are declared to be and are nonintoxicating.

Resolved, That a copy of this resolution be sent to the President of the United States, the Vice President, the Speaker of the House of Representatives, and to the Senators and Representatives of the State of California in Congress.

State of California }

We, the undersigned, W. J. Farrell, mayor and ex officio presiding officer of the city council of the city of Petaluma, county of Sonoma, State of California, and Gladys V. Roberts, city clerk of said city, do hereby certify and declare as follows:

That the city of Petaluma is a municipal corporation in the county of Sonoma, State of California; that said city now is and at all times herein mentioned was a city containing a population of more than 8000 inhabitants as ascertained by the last preceding census taken under the authority of the Congress

of the United States, and is now organized and existing and acting under a freeholders charter, adopted under and by virtue of section 8 of Article XI of the Constitution of the State of California, which charter was duly ratified by the qualified electors of said city at an election duly held for that purpose in said city on the thirtieth day of August, 1910, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the seventh day of March, 1911, (Statutes 1911, page 1799).

That in pursuance of section 8 of Article XI of the Constitution of the State of California, on its own motion, the council of the said city of Petaluma, being the legislative body of said city, by and in pursuance of a certain ordinance passed by the said city council on the fourth day of April, 1932, duly submitted to the qualified electors of said city of Petaluma, a certain proposal for the amendment of the charter of said city, to be voted on by said qualified electors at the special municipal election to be held in said city on the seventeenth day of May, 1932, which said proposal was and is in words and figures following, to wit:

In witness whereof, we have hereunto set our hands and caused the seal of said city of Petaluma to be affixed hereto this twelfth day of December, 1932.

W. J. FARRELL,
Mayor and Ex Officio Presiding Officer of the
City Council of the City of Petaluma.

CHAPTER 29.

Senate Joint Resolution No. 8—Relative to memorializing Congress and the Legislatures of the several States of the Union to cooperate in the program for a belated recognition of the people of the United States of the services rendered the Nation by volunteers who fought the war with Spain, the Philippine Insurrection and the China Relief Expedition.

[Filed with Secretary of State January 28, 1933.]

Recognition for veterans of certain wars.

WHEREAS, The Veterans of the Spanish War, hold their Thirty-fifth Annual National Encampment in Los Angeles, California, beginning August 20th this year. The year celebrates the thirty-fifth anniversary of the important events of that war and its related campaigns, which wrote some of the most important history of the United States, and

WHEREAS, History as available to the people of the United States, especially in the schools, has not given the accomplishments and achievements of that service, and the tremendous benefits to the Nation, the place they deserve in the national hall of fame, and

WHEREAS, The Spanish War was responsible for eliminating the feeling of sectionalism between the North and the South that had endured from the Civil War. It made the United States of America united in fact as well as in name. The blue and the gray fought together as brothers. Eighty-four per cent of the armies from the South were sons of Confederate veterans. Seventy-two per cent of the armies from the North were sons of Union veterans. All were volunteers, former Confederate and Union chiefs officered that army in fighting for a united Nation. That war made the United States a real world power. It made our flag respected in every land and on every sea, and

WHEREAS, The value of those accomplishments can not be measured in material terms. The World recognized the importance of the developments from that war long before they were recognized by our own people All nations realized that in the welding of the forces of the North and the forces of the South, a new Nation had been born, magnificent in purpose and invincible in power, that forever would be a power in world affairs, and

WHEREAS, That was thirty-five years ago. For years patriotic leaders of the country have been planning a belated recognition of the value of the service rendered the Nation by the men of that war as a fiftieth anniversary, golden jubilee, but it now seems that too few of these veterans will remain alive for a semicentennial celebration. Originally there were about 400,000 men in that service. More than half of them have already passed to the great beyond. Simple arithmetic will demonstrate how few will remain fifteen years from now, and

WHEREAS, It is deemed fitting that this Thirty-fifth National Encampment held in the year of the Century of Progress Exposition, when we are looking in retrospect at the achievements and accomplishments of the past hundred years, be taken as the most propitious time to recognize nationally the service rendered by those patriots and for setting up some lasting tribute to them that may be made part of the enduring historical record of the Nation and the States from which they came, and Veterans.

WHEREAS, An honor scroll, graphically setting out the major events of the Spanish War and related campaigns and the accomplishments therefrom, together with the roll Spanish War veterans who distinguished themselves in that service, or later achieved prominence in public affairs, has been decided upon as the most fitting tribute at this time. A tribute that in original and in replica can be placed in the halls of the National Capitol, the leading museums of the country, in the halls of the capitols of every State in the Union, and in the palaces in the capitals of Cuba, Porto Rico, Hawaii, and the Philippines, as a perpetual monument to those patriots, doing honor to the dead, giving the survivors their flowers now rather than when they have passed to their final reward, and at the same time preserving those flowers that posterity may be made more familiar with those glorious pages of national history and aid in keeping their memory green, and

WHEREAS, War, ordinarily is not profitable to the nations engaged. The Spanish War was an exception to this rule. The 400,000 men who served the colors in that war brought to the United States, possessions worth more than eight billions of dollars. To June 30, 1930, more than twenty-two billions of dollars of business had come to the United States from these possessions and the inflow continues at the rate of nearly a billion dollars a year, and

WHEREAS, It is peculiarly fitting that this celebration and presentation of the tribute of a grateful Nation to its warriors of long ago, be staged at the Los Angeles National Encampment, because it was a California regiment, the First Infantry, that had the honor to be the first unit of the United States Army ever to embark for service on foreign soil, it sailing from San Francisco on the City of Peking, bound for Manila on May 23, 1898. All previous foreign military operations had been conducted by the Navy or the Marine Corps. Likewise California was the base for all of the operations in the Philippines and China during the more than four years of the war and its related campaigns, and was more closely in touch with the war during those four years than any other State in the Union, therefore be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the State of California does hereby extend a most cordial welcome to the delegates and visitors of the United Spanish War Veterans, their auxiliaries and affiliated organizations, who will be present at the Thirty-fifth National Encampment, that the President of the Senate and

Veterans

the Speaker of the Assembly is hereby authorized to appoint a committee from these bodies to officially express this welcome on behalf of the State of California, and be it further

Resolved, That the Congress of the United States of America and the legislatures of all of the States of the Union, be and are hereby memorialized to most heartily endorse and support the program for what we believe to be a highly merited recognition of a series of the most important events in the life of our country and of the services of that gallant body of volunteers who answered the call to the Colors, brought glory, solidarity and power to the Nation and credit to themselves, and be it further

Resolved, That the Secretary of State be and he is hereby directed to transmit under the Great Seal of the State of California, copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Chairmen of the Committee on Military Affairs of each of the two houses of Congress, to the Senators and Representatives from California in Congress, to the Governors and Lieutenant Governors of each of the other forty-seven States of the United States, to the Speakers of the Houses of Representatives in the Legislatures of each of these States, to the Chairmen of the Committee on Military Affairs of each of the two houses in the Legislatures; to the National Headquarters of the United Spanish War Veterans in Washington, D. C., and to the Department Headquarters of the Department of California, United Spanish War Veterans at Oakland, California; as evidence of the wishes of the people of the Sovereign State of California that the glowing deeds of these patriotic sons of the Nation be given the recognition that their accomplishments merit, and be it further

[Filed with Secretary of State January 28, 1933.]

"Farmers Farm Relief Act."

WHEREAS, A crisis exists and hundreds of thousands of once prosperous farmers of this Nation have already lost their homes and their all by mortgage foreclosures because of the fact that the price of agricultural products has for years been below the cost of production, a condition that affects all of the people of this Nation and is largely responsible for the continuance of the depression; and

WHEREAS, There is no adequate way of refinancing existing agricultural indebtedness and the farmers are at the mercy of their mortgagees and creditors; and

WHEREAS, Unless immediate relief is given thousands and hundreds of thousands of additional farmers will lose their farms and their homes and millions more will be forced into our cities and villages and the army of unemployed will necessarily increase to alarming proportions, precipitating a condition that threatens the very life of this Nation; and

WHEREAS, The State Legislatures of Montana, North Dakota, Minnesota, Wisconsin, Nevada and Illinois have each and all memorialized Congress to pass Senate bill number 1197, known as the Frazier bill, without delay, which bill provides that existing farm indebtedness shall be refinanced by the Government of the United States at one and one-half per cent interest and one and one-half per cent principal on the amortization plan, not by issuing bonds and plunging the Nation further into debt, but by issuing Federal reserve notes the same as the government now does for the banks through the Federal reserve bank; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That they respectfully request and petition the Congress of the United States to pass Senate bill 1197 in order that the agricultural indebtedness of this nation may be speedily liquidated and refinanced and agriculture saved from utter ruin and destruction and this depression brought to an intelligent and speedy end; and be it further

Resolved, That the Governor send copies of this resolution to the President of the United States, the President of the Senate and the Speaker of the House and to the Representatives of this State in Congress.

WHEREAS, There is annually imported into this country a vast amount of foreign-made products; and

WHEREAS, These products may be manufactured in foreign countries at a price far below the cost of manufacturing in this country; and

WHEREAS, It is necessary for the protection of American industry that a tariff be placed upon these imports sufficiently high to provide the desired protection; and

WHEREAS, There is a bill pending in the Congress of the United States introduced by Representative Hill of Washington and known as H. R. 13999, which would permit United States Tariff Commission to levy a tax on imports from foreign countries for the purpose of protecting American industry; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully requests and memorializes the Congress of the United States to immediately pass a bill introduced by Representative Hill of Washington known as H. R. 13999 so that the United States Tariff Commission may provide a sufficient tax of imports from foreign countries so that American industry may be given the desired protection; and be it further

CHAPTER 32.

Senate Joint Resolution No. 11—Relating to memorializing Congress and Postmaster General Brown to adopt legislation or to permit the issuance of postage stamps commemorating the sixtieth anniversary of the planting of the parent Washington Navel Orange Trees in honor of the California Citrus Industry.

[Filed with Secretary of State January 28, 1933.]

Stamps to commemorate planting of navel orange tree.

WHEREAS, In December 1873, Luther C. Tibbets, Riverside colonist, received from a friend in Washington, D. C., two small Washington Navel Orange trees of the seedless variety which had been imported from the city of Bahia in Brazil by the Agricultural Department of the United States; and

WHEREAS, In the same year, to wit, 1873, Mrs. L. C. Tibbets planted said navel orange trees in the City of Riverside, then a part of San Bernardino County, State of California; and

WHEREAS, The navel orange industry of the State of California in the years that have followed has grown to an industry with an annual income of approximately sixty-seven million dollars; and

WHEREAS, The aforementioned planting by these pioneers of the West has meant much and contributed greatly to the agricultural industry of the State of California and of the United States; and

WHEREAS, The People of the City of Riverside, County of Riverside, State of California, wish to commemorate the sixtieth anniversary of the planting of the said parent Washington Navel Orange Trees, as aforesaid, in honor of the great California Citrus Industry by having a special postage stamp issued by the Post Office Department of the United States in commemoration of the said sixtieth anniversary of the aforesaid planting; now, therefore, be it

Resolved, by the Assembly and the Senate of the State of California, jointly, That the Legislature of said State urgently petition and request the Congress of the United States and or Postmaster General Brown of the Post Office Department of the United States to adopt legislation to effect or permit the issuance of postage stamps commemorating the sixtieth anniversary of the planting of the parent Washington Navel Orange trees in honor of California Citrus Industry; and be it further

CHAPTER 33.

Senate Joint Resolution No. 14—Relative to Federal aid road appropriations.

[Filed with Secretary of State January 28, 1933.]

Federal aid appropriation for roads.

WHEREAS, The Federal Congress has failed to authorize the regular Federal highway aid appropriations of $125,000,000 annually for the fiscal years 1934 and 1935; and

WHEREAS, Present appropriations, from which the State of California receives approximately $4,200,000 annually, terminate with the fiscal year ending June 30, 1933; and

WHEREAS, The abrupt discontinuance of Federal aid work in California and the other western States will undoubtedly greatly increase unemployment and require relief measures that otherwise would not be necessary; and

WHEREAS, It is further asserted that even with annual appropriations of $125,000,000 the States will have less Federal money for roads than in 1932, because emergency Federal road advances and loans from the Reconstruction Finance Corporation must be repaid to the Federal Government from future Federal aid allotments; and

WHEREAS, It is vitally important to the development of the country and particularly the western States for continuation of Federal aid at this time, not only for regular Federal aid projects, but also for Federal lands projects and forest highway construction; now therefore, be it

Resolved by the Senate, the Assembly concurring, That the Federal Congress be and is hereby memorialized to make the regular Federal aid road appropriations for the fiscal years 1934 and 1935 before adjournment, and be it further

Resolved, That a copy of this memorial be sent to California's Representatives in Congress.

CHAPTER 34.

Senate Concurrent Resolution No. 7—Relative to the orderly addition of new roads to the State highway system, after study and report by the California Highway Commission and the Department of Public Works.

[Filed with Secretary of State January 28, 1933.]

Adding roads to State highway system.

WHEREAS, The forty-eighth and forty-ninth sessions of the Legislature adopted resolutions declaring certain underlying principles to be observed in the inclusion of new secondary roads within the State highway system, which principles have been observed during recent years; and

WHEREAS, Said underlying principles included the policy that additions be made so as to bring about an equality of secondary mileage in the north and in the south; that all such additions be recommended to the Legislature by the California Highway Commission and the State Department of Public Works after engineering and economic studies and that there be no change in the present statutory division of secondary highway funds; and

WHEREAS, It may appear desirable during the fiftieth session of the Legislature to add to the secondary State highway system a substantial mileage of county highways and through routes in cities in order to afford a wider spread of State highway revenues and to afford substantial relief to counties and cities with respect to the maintenance and improvement of major county roads and through routes in cities, thereby permitting a reduction in local taxes for said purposes; now, therefore, be it

Resolved by the Senate, the Assembly concurring, That in order that proper consideration be given to the principle

heretofore declared by the California Legislature respecting additions to the State highway system the California Highway Commission and the Department of Public Works be and they are hereby directed immediately to make the necessary studies and on or before March 15, 1933, to submit a report and recommendations with all supporting engineering data of all roads studied to this Legislature for the inclusion of approximately 6600 miles in the secondary State highway system and in addition thereto a similar alternative report for the inclusion of any lesser number of miles in the secondary State highway system and that in the selection of the routes and mileage to be added said California Highway Commission and the Department of Public Works shall be guided by the following basic principles:

(1) That additions shall be made in such manner as to bring about an equality of secondary highway mileage in the north and in the south;

(2) That the selection of routes shall be such as to result in a connected and correlated system of State highways extending through municipalities in such manner as to best meet traffic requirements and that the proposed routes within municipalities include such mileage and warrant such future expenditures as to afford substantial and justifiable expenditure of the State highway revenues thereon, consistent with the necessary maintenance and improvement of State highways not within the limits of municipalities;

(3) That in the selection of county roads to be included, the California Highway Commission and the State Department of Public Works give consideration to those routes which are carrying or will serve a considerable volume of county or intercounty traffic and be connected with the present State highway system, the inclusion of which in the State system will afford a substantial measure of relief to the counties, and that in the selection of routes consideration be given to the needs of all parts of the State.

(4) That in making the above study access to National and State parks shall be considered.

The county executive shall be a person of demonstrated administrative ability, having had experience in responsible, important executive capacity, and shall be selected and appointed solely on the basis of his executive and administrative qualifications. He must, when appointed, be a legal resident of the State of California. No member of the board of supervisors, or of the board of freeholders who prepared this charter, and no person who has held an elective county office in this county during the preceding five years, shall be eligible to hold such office as the first appointee thereto. Thereafter, no member of the board of supervisors shall be eligible for appointment to the office of county executive during the term of office of such supervisor, nor within one year after his retirement therefrom.

Qualification board

Section 2. Qualification Board. There is hereby created a qualification board, which shall consist of five members.

Members of the qualification board shall serve without compensation but they shall be allowed all legal expenses incurred in the performance of their duties. The presiding judge of the superior court of San Mateo County shall designate two judges of the superior court as members of said board, and in the event that either or both thereof shall decline to accept the appointment, then his or their nominee or nominees, as the case may be, shall, instead, become and be members of said qualification board. No member of the board of supervisors of San Mateo County shall be eligible to appointment upon said qualification board.

Section 3. Organization of Qualification Board. Upon the approval of this charter by the Legislature of the State of California the members of the first such qualification board so hereby created shall be selected in manner as above provided, and the county superintendent of schools, as ex officio member of said board, shall immediately certify to such selection, setting forth in his certificate the names and post-office addresses of the members, and shall file same with the county clerk. The county clerk shall thereupon notify each of the members so selected of his appointment, and each such appointee shall within fifteen (15) days thereafter qualify before the county clerk, by taking the constitutional oath of office. Should any appointee fail to qualify within the time hereinbefore specified, or should a vacancy thereafter occur in said board because of resignation, death or incapacity of a member thereof to act, the superintendent of schools, as ex officio member of said board, shall immediately certify such fact to the county clerk, who in turn shall forthwith notify the individual, individuals, or board, who or which had originally caused such appointment to be made, of such fact; and such vacancy shall thereupon be filled by such individual or individuals or such board, as the case may be, as in the case of the original appointment. Upon the qualification by all of said members, said board shall meet and organize by the selection of one of their members as chairman, and shall proceed in the performance of their duties, as hereinafter provided. The superintendent of schools as ex officio member of said board shall act as clerk thereof.

Whenever a vacancy shall thereafter occur in the office of county executive the county clerk, upon the happening of such occurrence, shall in writing forthwith notify the board of supervisors, the presiding judge of the superior court, and the county superintendent of schools of such fact, and thereupon a new qualification board shall be selected, as herein provided, and the names of the members thereof shall be certified to and they shall be notified, organize and proceed in the performance of their duties according to the procedure above set forth.

The names of the candidates so selected, together with a statement of their qualifications, shall then be submitted in alphabetical sequence to the board of supervisors by the qualification board, at least thirty days prior to the date said board of supervisors shall be required, under the provisions of this charter, to make the appointment to such office. A four-fifths vote of said board of supervisors shall be required for such appointment. In the event said board of supervisors shall be unable by a four-fifths vote to agree upon an appointment from those whose names shall have been so submitted by the qualification board, the clerk of said board of supervisors shall notify the qualification board of such fact, and it shall thereupon be and become the duty of the qualification board to solicit and obtain, and to select and submit, to the board of supervisors, other candidates possessing the aforesaid qualifications, to the number and in the manner and method hereinbefore provided. The exercise of such power by said qualification board shall not be exhausted by a single reference, nor until an appointment shall in fact have been made by said board of supervisors.

Vacancy

Section 5. Vacancy in Office, Absence, Suspension, or Incapacity to Act. Should a vacancy at any time occur in the office of county executive, or in the case of the absence of the county executive, his suspension, or his inability to act for any reason, the duties of his office shall, throughout such vacancy, absence, suspension or inability, be performed by the county engineer as acting county executive; provided, however, that in the event of a like inability to act upon the part of the county engineer, then and in that event the board of supervisors shall appoint one of the county officers, to be by them designated, as acting county executive. Term of office and salary.

Section 6. Term of Office and Salary. The county executive shall serve for a term of four years from and after his appointment and qualification. He shall receive a salary which shall be fixed by the board of supervisors, prior to the time of his appointment. The salary of said county executive shall be fixed annually by said board of supervisors.

Reappointment

Section 7. Reappointment. An incumbent county executive may be reappointed by the board of supervisors by a four-fifths vote without the submission of the names of other candidates or other action by the qualification board. Not less than one hundred twenty days prior to the expiration of the term of the county executive, the board of supervisors shall notify him whether it is its intention to reappoint him.

[Filed with Secretary of State March 21, 1933.]

Subsidy for gold industry.

WHEREAS, The United States is passing through a period of great unemployment and distress among the working people of this country; and

WHEREAS, We are passing through a financial crisis in the history of our country; and

WHEREAS, Our great gold producing areas have remained undeveloped through these past many years; and

WHEREAS, It would materially benefit the United States if more people were given an incentive to prospect and develop the gold bearing sections of our country, which gold bearing sections are still undeveloped to any great depth; and

WHEREAS, During the Civil War period great relief to our stricken nation was obtained by reason of the gold recovered from our gulches and river beds by the mere scratching and washing on the surface of our gold bearing veins; and

WHEREAS, The cost of mining has increased materially by reason of the fact that it is now necessary to mine beneath the surface with modern equipment and machinery and at a higher cost of labor; and

WHEREAS, It would materially better our standing as a nation to conserve, protect and increase our available gold reserves. Now therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California hereby memorializes and petitions Congress to enact legislation that it subsidize the production of gold by issuing to every producer of 200 ounces or less of primary gold per month a bond of the value of $5.00 for each ounce thereof, said bonds to take the form of government bonds bearing a low rate of interest and maturing five years from date of issuance thereof; and be it further

Resolved, That a copy of this joint resolution be transmitted to the President of the United States, to the Vice President of the United States, and to each member of the Senate and House of Representatives of the United States.

CHAPTER 42.

Senate Joint Resolution No. 16—Relative to memorializing Congress to enact legislation providing for the suspension in payment of charges due from Federal reclamation project settlers to the United States and providing for a loan to the reclamation fund to replace the income thereto thus suspended.

[Filed with Secretary of State March 27, 1933.]

Suspension of payments due from Federal reclamation project settlers.

WHEREAS, There have been introduced into the United States Senate for passage, Senate Bills Nos. 5417 and 5607, which are complementary one to the other, the first providing for a suspension in payment of charges due from the Federal reclamation project settlers to the United States and in the amount

Federal reclamation project settlers.

of which charges and for like period of time the principal source of income to the reclamation fund is likewise delayed; and the second providing for a loan to the reclamation fund to replace the income thereto thus suspended; and

WHEREAS, Such suspension of construction charges has become necessary on account of the extreme low prices affecting all agricultural communities; and

WHEREAS, Unless the loan above referred to is made to the reclamation fund the activities of the bureau in carrying out the long-established governmental policies relating to reclamation must stop; and

WHEREAS, There has already been authorized by the Congress of the United States the construction of irrigation projects under the provision of the Reclamation Act; and

WHEREAS, Many of said Federal projects are now only partially completed and therefore incapable of performing the service for which they were intended, or of any substantial self-liquidation of their present costs until the same are completed; and

WHEREAS, The settlers upon numerous privately initiated irrigation districts of the Western States are on the verge of being forced out of their homes—to swell the throng of urban unemployed—because of an inadequate water supply due to lack of storage and necessity for repair of distribution facilities, and a supplemental water supply can be made most readily available by the Federal Reclamation Bureau upon a sound engineering and economic set-up; and

WHEREAS, Delays in completion of projects already begun and the commencement of those projects designed to rehabilitate worthy existent enterprises will result in serious loss to the United States generally and to the Western States particularly in (a) direct increase in unemployment through cessation of work on projects and consequent laying off of workers, and indirect increase of unemployment in all of those industries supplying materials for the projects; (b) depreciation of works already constructed in such incomplete projects, and of idle money therein invested; and (c) the crushing blow to those under said projects (with their dependent communities) having inadequate water supply and having staked all in faith upon the Federal government's completing that which it has undertaken and in commencing needed construction to supplement the water supply of those worthy private projects; and failure to enact said bills, or similar legislation, will result in the discharge of thousands of men now employed and the consequent loss in purchasing power for consumption of both farm and industrial projects and add to the depression prevailing in all markets; and

WHEREAS, We understand that the program of the Reclamation Bureau, if the aforementioned legislation is enacted, is to be confined strictly during the period provided for in the loan to doing those things necessary to place existent projects on a sound and workable basis, and does not contemplate initiating

work on any projects, either Federal or otherwise, not now developed to a material extent, and therefore does not propose the bringing under irrigation of any appreciable areas of land not now irrigated; therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States in furtherance of established national policies of reconstruction and reclamation should enact, without delay, United States Senate Bills Nos. 5417 and 5607 into laws; and be it further

Resolved, That the Secretary of the Senate of the State of California be, and he is hereby, directed forthwith to transmit a copy of this memorial to each, the President of the United States, the President of the United States Senate, the Speaker of the House of Representatives, and to the California delegation in Congress, with a request that they expeditiously promote the enactment into law of United States Senate Bills Nos. 5417 and 5607.

[Filed with Secretary of State April 10, 1933.]

Insurance for National banks

WHEREAS, The current period of economic stress and stringency has caused a great and undue financial strain on every bank throughout this nation; and

WHEREAS, The safety of the banking system of the nation is the very basis of the business and economic structure of the community; and

WHEREAS, There is available through the storing up of proper reserves, the means whereby bank deposits may be made much safer than at the present time; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes and petitions the Congress of the United States, to enact legislation relating to banks, so as to provide a system of insurance to protect bank depositors therein based on reserves to be accumulated and maintained through the payment of premiums by each of said banks, according to its strength, resources, deposits and other relating factors with regard to banking; and be it further

Resolved, That the Legislature of the State of California further petition the Congress of the United States, to place such an insurance system under the supervision of the Secretary of the Treasury, with power in that officer to fix and determine the rate and proportion of premiums to be paid by each said bank; and be it further

Resolved, That a true copy hereof be transmitted by the Clerk of the Assembly to the President of the United States and each Representative and Senator of California in Congress.

CHAPTER 44.

[Filed with Secretary of State April 14, 1933.]

Arms, munitions and implements of war.

WHEREAS, One of the main causes for the maintenance of large military and naval establishments, and which is a standing menace to peace between nations, is to be found in the fact that patent rights on and the manufacture of arms, munitions and implements of war are in the hands of international combinations of capitalists, who sell their products indiscriminately to the governments of the world and promote the sale of such products by arousing and encouraging feelings of national prejudice and jealousy and by employing the press and the officers of the army and navy to produce periodical war scares in different countries; and

WHEREAS, This menace to international peace can be eliminated and the ultimate disarmament promoted by having the government manufacture its own equipment and articles used for war purposes; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California earnestly memorializes and petitions Congress to enact legislation to the end that all patent rights for arms, munitions and other equipment to be used for war purposes should be acquired by the government; and be it further

Such demand shall again be considered by the Board of Water Commissioners, and if it shall again be allowed by said Board, and said allowance over the objection of the City Auditor be certified by the signatures of the President or Vice President and the Secretary of said Board, the said objections of the City Auditor shall be thereby overruled. Money shall be drawn from said funds only upon vouchers signed by the Superintendent of the Department in control of such public utility and countersigned by the City Manager, except that the City Council may annually, in its discretion, by ordinance, apportion and set apart out of the money then in any of said funds not required for the operating and maintenance expenses of the corresponding public utility, an amount sufficient to meet in whole or in part sums coming due for interest during the succeeding twelve (12) months and upon any principal maturing in such time, upon any outstanding bonds issued for the benefit of such public utility, and the City Treasurer shall use the money so apportioned to make such payments and for no other purpose. And if there shall be a surplus remaining, the same shall be transferred back to the fund from which it was taken; Moneys received from public utility

Adding a new section to the Charter to be known as Section 70.1, providing for deductions from the salaries of officers and employees of the City and County during extraordinary economic conditions, and authorizing and reducing of budget appropriations otherwise provided by Charter to be made to the various officers and departments of the City and County during such conditions.

CHARTER AMENDMENT No. 1.

Salary Deductions.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County by adding a new section thereto, to be known as section 70.1, providing for deductions from the salaries of the officers and employees of the City and County during extraordinary economic conditions and authorizing the reducing of budget appropriations otherwise provided by Charter to be made to the various officers and departments of the City and County. Salary deductions.

The Board of Supervisors of the City and County of San Francisco hereby submits to the electors of said City and County, at a special election to be held on the 11th day of April, 1933, a proposal to amend the Charter of said City and County by adding a new section thereto to be designated section 70.1, and which section shall read as follows:

Deductions from salaries and other fixed appropriations in time of extraordinary economic conditions or public emergencies.

Section 70.1. Whenever, in the judgment of the Mayor and the Board of Supervisors, extraordinary economic conditions actually exist due to unemployment, fire, earthquake, flood or other calamity, which adversely affect the life, health and welfare of the citizens of the City and County or of any considerable portion thereof, the Board of Supervisors, by a three-fourths vote of all of its members, with the concurrence of the Mayor, shall have power as follows, to-wit:

Sub. 1. To officially declare that a public emergency exists, and to fix the approximate anticipated time during which said emergency shall continue, provided that no such emergency shall be anticipated to continue beyond the end of the fiscal year during which the same is declared, unless such emergency be declared subsequent to the first day of January of said year, in which event the said emergency may be anticipated to continue until the end of the next succeeding fiscal year.

Sub. 2. To provide that while said emergency as declared shall continue to exist there shall be deducted from the gross salaries and compensations, exclusive of pension and retirement allowances, of each officer and employee of the City and County of San Francisco, including officers and employees of the Board of Education, not more than the respective amounts hereinafter set forth. Said deductions shall be made on the basis of the salary and compensation rate of said several officers and employees which were in effect during the calendar month immediately preceding the month during which said emergency was declared and not reduced by this section.

If said salary and compensation deductions are not reflected in the annual budget and appropriation ordinances, as set forth in subdivision 3 of this section, the amount of said deduc-

tions shall be used for the purpose of meeting or alleviating the emergency which has been declared, or to balance any deficiency existing in the general funds of the City arising by reason of the delinquency in the payment of taxes or other revenue as compared with the anticipated revenues over the same period. Provided that where salaries or compensations are paid out of bond funds, utility funds, or other trust funds, which are not provided from the revenues of the City, all deductions made shall revert to the respective funds from which said salaries or compensations are paid.

Maximum deductions

The maximum deductions from the salary or compensation of each officer or employee heretofore referred to shall be as follows, to-wit:

(a) From the salaries or compensation of officers or employees whose gross earnings exceed $100 per month and do not exceed $120 per month, three (3) per cent of the amount of the gross monthly earnings of each of said officers or employees.

(b) From the salaries or compensations of officers or employees whose gross earnings exceed the sum of $120 per month and do not exceed the sum of $150 per month, seven (7) per cent of the gross monthly earnings of each of said officers or employees.

(c) From the salaries or compensations of officers or employees whose gross earnings exceed the sum of $150 per month, and do not exceed the sum of $185 per month, ten (10) per cent of the gross monthly earnings of each of said officers or employees.

(d) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $185 per month, and do not exceed the sum of $275 per month, twelve and one-half (12½) per cent of the gross monthly earnings of each of said officers or employees.

(e) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $275 per month, and do not exceed the sum of $600 per month, fifteen (15) per cent of the gross monthly earnings of said officers or employees.

(f) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $600 per month and do not exceed the sum of $834 per month, eighteen (18) per cent of the gross monthly earnings of each of said officers or employees.

(g) From the salaries or compensations of all officers or employees whose gross earnings exceed the sum of $834 per month, twenty (20) per cent of the gross monthly earnings of each of said officers or employees.

(h) Provided, however, that no more than five and one-half (5½) per cent of the gross monthly earnings of per diem employees whose compensations are fixed on the basis of a five-day week shall be deducted from the salaries or earnings of any such employee.

Said deductions shall be made from said earnings or compensations in monthly or semi-monthly installments according to the time at which said salaries or compensations are paid, provided that where the earnings of any officer or employee are on an hourly or per diem basis deductions based on his total earnings for the month shall be deducted from the installment of said earnings paid for the last half of the month.

Extension of emergency

Sub. 3. Should any such emergency declared as herein provided be anticipated to continue into the next fiscal year following the one during which said emergency has been declared, the heads of all departments, the Controller and the Mayor, in preparing or submitting their respective annual budget estimates, shall base and estimate the net salaries and compensations to be paid to the officers and employees of their respective departments, or, in the case of the Mayor and the Controller, to be paid to the officers and employees of all departments, at amounts not to exceed the said salaries and compensations as reduced by the above-mentioned percentages on the above-mentioned salary and compensation rates, and the annual appropriation and salary ordinance shall fix said net salaries and compensations accordingly. When any emergency is declared after the annual budget is prepared or adopted, or after the annual appropriation or salary ordinances are enacted, and before the annual tax rate is fixed as provided by law, said budget and said appropriation and salary ordinances may be revised or reenacted, so that the deductions herein authorized to be made may be reflected in the amount of the tax levy.

Sub. 4. All of such deductions, whether made after the passing of the annual budget appropriation and salary ordinance or included therein, shall be deemed as temporary deductions from the salaries and compensations of said officers and employees, and shall be continued only during the anticipated period for which said emergency has been declared.

Compensation includes board and room

Sub. 5. In making the deductions herein provided for, the value of board, room and laundry or other maintenance furnished by the City and County to any officer or employee, when the same is made a part of his compensation by the Civil Service Commission, shall be added to the monetary salary or compensation paid to said employee, and the amount of deductions from said salary or compensation shall be based on said monetary salary plus the value of said board, room and laundry or other maintenance, provided that no deduction shall be made for quarters furnished to any officer or member of the Fire Department.

Reallocation of money

Sub. 6. During the period that any emergency shall exist after being so determined as hereinbefore provided, the Controller, with the approval of the Mayor and the Board of Supervisors, may reallocate any unencumbered balance, or any part thereof, to the credit of any department or office exclusive of moneys or appropriations made or required to be made to

any bond, bond interest, bond redemption, pension, utility, or trust fund, so that the same shall be available to meet the necessities of said emergency, irrespective as to whether the amount allocated to said department or office is fixed by this Charter or is the result of a tax provided by said Charter to be levied for said department. Should the period during which said emergency is anticipated to exist extend beyond the end of the fiscal year in which the same was declared to exist, the Mayor, with the approval of the Board of Supervisors, may reduce the amount of any mandatory appropriation provided to be allocated to any office or department; or may reduce the amount of any tax provided by the Charter to be levied for the support or maintenance of any department or office. Provided that no such deduction in appropriation, provided by this Charter to be made to any department, or in the reallocation of funds, or reduction in the amount of said tax otherwise provided to be levied to produce funds for any department, shall be greater than is necessary to reflect the deductions in salaries provided in this section to be made by reason of said emergency.

The provisions of this section shall have precedence over conflicting provisions of this Charter, but nothing herein contained shall adversely affect the rights of the officials and employees as set forth in section 71 of the Charter, during the period when no public emergency exists. Contributions by the City and County and by members of the San Francisco City and County Employees' Retirement System to, and benefits, pension payments and allowances under said Retirement System, shall be calculated on the basis of gross salaries and compensations of such members in the same manner and amounts as if no deductions from said gross salaries and compensations were made under this section.

Declaration of emergency.

Within ten days after this amendment becoming effective, the Board of Supervisors and the Mayor shall officially declare, by resolution, that a public emergency exists in San Francisco within the meaning of this section; and that it is anticipated that said emergency will continue until the end of the fiscal year 1933–1934, and the deductions from salaries and compensations at the maximum rates herein provided shall be effective until the end of said fiscal year.

Should any emergency be declared pursuant to the provisions of this section, which will be effective after the end of the fiscal year 1933–1934, which, in the judgment of the Board of Supervisors, will necessitate deductions from the salaries of the officers and employees of the City and County, over and above the amounts herein provided for, the Board of Supervisors, by unanimous vote of all of its members, and with the approval of the Mayor, may authorize a further deduction from the salaries and compensations of any of said officers and employees by increasing the maximum deductions in this section provided for, up to and including an amount not to exceed twenty-five (25) per cent of said respective salaries

or compensations as the same existed before any deduction by authority of this section.

Should the prescribed limit for any biennium be exceeded by reason of any other appropriation or appropriations from the general fund, then the appropriation first passed by the Legislature without such two-thirds vote, which exceeds such prescribed limitation, shall be deemed reduced by the amount of such excess, and all other subsequent appropriations from the general fund not passed by such two-thirds vote shall be void. The limitations imposed in this paragraph shall be effective until June 30, 1935, but the Legislature may impose thereafter the same limitations for such period or periods as it may determine; provided, however, that the limitation upon expenditures imposed or authorized by this section shall not apply to expenditures by or on behalf of publicly owned public utilities, including publicly owned facilities operated for the promotion and accommodation of commerce and navigation, irrigation districts, county water districts reclamation districts, municipal utility districts or metropolitan water districts organized or existing under the laws of this State or to expenditures arising out of any gift, bequest or donation. Assembly Joint Resolution No. 27—Relative to memorializing the Congress of the United States to adopt legislation providing for government use of American grown rubber.

[Filed with Secretary of State May 12, 1933]

WHEREAS, One of the greatest needs of this Nation is immediate relief of unemployment, both agricultural and industrial, and normally functioning private industry offers the most desirable employment opportunities; and Use of American grown rubber

WHEREAS, It has been fully demonstrated and proven that a large portion of the rubber consumed in the United States could and would be produced in the United States if the industry was properly assisted and protected; and

WHEREAS, It has been proven by, first, the experimental and, second, the actual production of rubber on a commercial scale in the Salinas Valley, California, that rubber can be produced in the United States practically at the same cost as the plantation rubber produced in foreign countries; and

WHEREAS, The production of rubber used in the United States would necessitate the use of thousands of acres of land now producing competitive crops that are actually not bringing the producers the cost of production but are serving to produce an overproduction of various crops, thereby lessening the profits to all concerned; and

WHEREAS, This development would put into production thousands of acres that are not now producing anything,

American rubber

thereby giving agricultural employment to thousands of people; and

WHEREAS, The milling of the rubber would require the construction of many mills, thereby giving the different industries involved in producing materials for such factory construction, employment and the actual operation of said mills would give employment to large numbers of industrial workers; and

WHEREAS, The value of producing such an article as rubber within the territorial limits of the United States from a standpoint of war insurance, and from the standpoint of actual value to the country in case of war, is perhaps of greater consideration than any other; and

WHEREAS, The development of acreage sufficient to take care of all the needs of rubber for this country would undoubtedly require a great many years; and

WHEREAS, There are several thousands of acres of Guayule rubber in the Salinas and Santa Maria valleys, which is ready to be harvested and made into rubber but which is not being harvested due to the present price of rubber; and

WHEREAS, There are nurseries containing seedlings ready to be planted which take four years growth to produce rubber which are also not being used; and

WHEREAS, There is a danger of losing, not only these thousands of acres of mature rubber and the seedlings ready to plant, but of losing the entire development to this country which has taken twenty or more years to develop, together with the expenditure of four million dollars, to bring it to its present state of development; and

WHEREAS, The immediate need is a clause in government supply bills requiring the purchase of rubber grown in the United States, in the same manner that other American products are included; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully urges and memorializes the Congress of the United States, now in special session, to enact legislation providing that in all government contracts requiring the consumption or use of rubber the contract shall specify the rubber to be used must be raised within the territorial limits of the United States or Territories; and be it further

Resolved, That the Legislature of the State of California requests the honorable Senators and Representatives in the Congress of the United States to use every honorable means to secure the adoption of such legislation; and be it further

Resolved, That the Governor is respectfully requested to send copies of this resolution to the President of the United States and to the Senators and Representatives of the State of California in Congress; and be it further

Resolved, That the Governor is respectfully requested to send copies of this resolution to the Governors of all the States of the United States, requesting that the Legislatures of all the States pass and present similar memorials to Congress.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its regular session commencing on the second day of January, 1933, two-thirds of the members elected to each of the two houses thereof voting therefor, hereby proposes to the people of the State of California that the Constitution of said State be amended by adding to Article XVI thereof, a new section to be numbered 9, to read as follows: Constitution Art XVI, Sec. 9.

Sec. 9. The issuance and sale of bonds of the State in the total principal sum of fifty-five million dollars and the use and disposition of the proceeds of the sale thereof as provided in the District Finance Act of 1933, is hereby authorized, and regardless of any other provision in this Constitution said act is hereby approved and ratified and made fully and completely effective. All provisions of this section are self-executing and do not require legislative action in furtherance thereof but this does not prevent such legislative action except that no amendments by the Legislature shall be enacted which will affect the liability of the State for any indebtedness incurred under said act or impair the security which must be deposited with the State to insure the retirement of any such State indebtedness. Assembly Joint Resolution No. 31—Relative to the use of granite in Federal construction projects.

[Filed with Secretary of State May 13, 1933.]

Use of granite in Federal projects

WHEREAS, California is one of the leading granite producing States of the Union; and

WHEREAS, It is desirable that permanent public buildings should be constructed of dignified, durable and beautiful materials; and

WHEREAS, The benefits of Federal construction should not be confined to any one State or locality by the specification and general use of a material produced almost exclusively within the borders of such a State; and

WHEREAS, Granite is readily available in any of twenty-one States while the production of limestone is largely confined to the State of Indiana; and

WHEREAS, It is apparent from its general use in all sections of the country that undue favoritism has been shown Indiana limestone in Federal construction with resulting aggravation of serious unemployment conditions in the granite producing States; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the members of the Senate and House of Representatives from the State of California be and are hereby urged to secure proper consideration for the use of granite in Federal construction projects; and be it further

Senate Joint Resolution No. 21—Relative to expansion of the topographic mapping program of the United States.

[Filed with Secretary of State May 13, 1933.]

Topographic mapping of United States

WHEREAS, The Federal government in 1879 undertook completion of a topographic base map of the United States, which project has been continuously under way since that time and is now a little more than half complete, the work in California in particular being at present only fifty-three per cent complete; and

WHEREAS, At the current rate of progress it will require twelve years to complete the work in California; and

WHEREAS, Completion of such a base map is in the interest of national defense, will facilitate development of natural resources of the nation, and development of highways, railways, water supplies, hydro-power, mining, etc., the encouragement of which development is of particular concern to California; and

WHEREAS, Exigencies of Federal and State budgets have necessitated a reduction in the normal appropriations for such work, throwing out of employment many men who have heretofore been thus regularly employed; and

WHEREAS, Expansion of this topographic mapping program will relieve distress among such workers and members of their profession who have suffered as greatly as any other group, while at the same time paving the way for a more intelligent development of the public works program of the President of the United States authorized under act of Congress approved March 31, 1933, which has already been initiated in aid of unemployment; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, at the fiftieth session of the California Legislature, commencing on the second day of January, 1933, a majority of all the members elected to each House of said Legislature voting in favor thereof, That the President of the United States be respectfully requested to recommend to the Congress such expansion of the adopted Federal program of topographic mapping as may be accomplished without loss of efficiency and serve the general purposes of unemployment relief undertaken by the United States, or to adopt the prosecution of the mapping work as a project under the act of March 31, 1933.

Resolved, further, That certified copies of the foregoing resolution be forwarded by the Governor of the State of California to the President of the United States, to the Secretary of the United States Department of Agriculture, and to each of the Senators and Representatives of the State of California in Congress.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its fiftieth regular session commencing on the second day of January, 1933, two-thirds of the members elected to each of the two houses voting in favor thereof, hereby proposes to the people of the State of California that section eleven of Article VI of the Constitution of the State of California be amended to read as follows:

Municipal courts

Sec. 11. In any city or city and county which is governed under a charter framed and adopted under the authority of this Constitution containing a population of more than forty thousand inhabitants, as ascertained by the last preceding census taken under the authority of the Congress of the United States, a municipal court may be established as in this article

provided, anything in this Constitution to the contrary notwithstanding. For each such municipal court at least one judge with such additional judges as may be determined by the Legislature, shall be elected by the qualified electors of the city or city and county at the general municipal election. In any city, or city and county, in which such municipal court shall be established for which there shall be more than one judge the judges of such court may hold as many sessions thereof at the same time as there are judges thereof, and the business thereof shall be apportioned among such judges in the manner prescribed by law. Constitution, Art. VI, Sec. 11

The Legislature shall provide by general law for the establishment of such municipal courts in cities or cities and counties in this section specified, and for the constitution, regulation, government, procedure and jurisdiction thereof.

The manner in which, the time at which, the term for which the judges, clerks and other attaches of municipal courts shall be elected or appointed, the number and qualifications of said judges and of the clerks and other attaches, except as such matters are otherwise provided in this article, shall be prescribed by the Legislature.

[Filed with Secretary of State May 15, 1933.]

Constitution, Art. VI, Sec. 6.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its regular session commencing on the second day of January, 1933, two-thirds of the members elected to each of the two houses of the said Legislature voting therefor, hereby proposes to the people of the State of California, that the Constitution of said State be amended by amending section 6 of Article VI thereof, to read as follows:

For the purpose of selecting judges of a superior court within any county having a population of more than one million inhabitants as determined by the last preceding census taken under the authority of the Congress of the United States, the Legislature may divide such county into judicial election districts, and may provide from time to time for the apportionment of the number of judges of the superior court of said county among said districts, in which event the number of judges apportioned to each district shall be selected from among the residents of such district in the manner then provided for the selection of judges of the superior court in such county.

[Filed with Secretary of State May 15, 1933.]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its fiftieth session commencing on the second day of January, 1933, two-thirds of all the members elected to each of the two houses voting in favor thereof, hereby proposes to the people of the State of California that a new section be added to Article VI of the Constitution of this State to be known as section 8½ and to read as follows: Constitution, Art VI, Sec. 8½.

Sec. 8½. Any county having a population in excess of 1,500,000 may adopt the provisions of subdivisions 1, 2 and 3 of this section as applicable to such county if the majority of the electors of such county, voting thereon at a general election at which such question shall be submitted, shall vote in favor thereof. The provisions of subdivisions 1, 2 and 3 of this section may be adopted as applicable to such county in pursuance of an ordinance adopted by the vote of three-fifths of all of the members of the board of supervisors of such county, declaring that the public interest requires the submission at an election of the proposal to adopt the provisions of subdivisions 1, 2 and 3 hereof as applicable to such county, or in pursuance of a petition of qualified electors of said county as hereinafter provided, which petition must state the name and address of a person or persons to whom notice of the insufficiency of the petition shall be sent in the event that the petition shall not have the required number of signatures of the qualified electors signed thereto. Such petition, signed by fifteen per cent of the qualified electors of the county, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, praying for the adoption of the provisions of subdivisions 1, 2 and 3 as applicable to such county, may be filed in the office of the county clerk. It shall be the duty of the county clerk, within twenty days after the filing of the petition, to examine the same and to ascertain from the record of the registration of the electors of the county whether the petition is signed by the requisite number of qualified electors. If required by the clerk, the board of supervisors shall authorize him to employ persons to assist him in the work of examining the petition, and the board shall provide for their compensation. Upon the completion of such examination, the clerk shall forthwith attach: Appointment, etc., of superior court judges

Constitution, Art. VI, Sec 8.

to the petition his certificate, properly dated, showing the results of his examination, and if the certificate shows that the petition is signed by the requisite number of qualified electors he shall immediately present the petition to the board of supervisors, if it is in session, otherwise at its next regular meeting after the date of such certificate. If it appears by the certificate that the petition has not the required number of signatures, the clerk shall so notify the person or persons designated as the person or persons to whom notification of the insufficiency of the petition shall be sent; whereupon the petitioners shall have thirty days from and after the date of receiving such notice of insufficiency to present and file a supplement bearing additional signatures. Upon the receipt of the supplement the clerk shall proceed forthwith to examine the same, so that such examination shall be completed within ten days from the date of its receipt by him. If it appears that the additional signatures and those which have not been legally rejected upon the original petition total the requisite number, the clerk shall forthwith attach to the petition his certificate, properly dated, showing that the petition has been signed by the requisite number of qualified electors, and shall immediately present said petition to the board of supervisors, if it is in session, otherwise at the next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, the board of supervisors shall submit the proposal to adopt the provisions of subdivisions 1, 2 and 3 of this section as applicable to such county to the electors of said county at the next succeeding general election occurring subsequent to ninety days after the adoption of such ordinance or the presentation of such petition. If the proposal is approved by a majority of the votes cast thereon, the board of supervisors shall cause a certificate, signed by the chairman of the board, to be filed with the Secretary of State, reciting that the proposal to adopt the provisions of subdivisions 1, 2 and 3 of this section as applicable to such county was approved by a majority of the votes cast thereon at such election, and upon the filing of such certificate the provisions of subdivisions 1, 2 and 3 of this section shall thereafter be applicable to such county, and effective as to all vacancies in the office of judge of the superior court in said county accruing after the date of filing of said certificate. The duties herein imposed upon the county clerk shall be performed by the registrar of voters in any county where the office of registrar of voters exists. Any county which has adopted the provisions of subdivisions 1, 2 and 3 of this section as applicable in said county for the nomination and appointment of judges of the superior court in said county may withdraw from the provisions of said subdivisions in the same manner as hereinabove set forth for the adoption thereof; and the duties and powers of the State and county officers herein specified shall be the same with respect to an ordinance or petition to withdraw from the provisions

of said subdivisions as those above prescribed with respect to the adoption thereof. If the proposal to withdraw from the provisions of said subdivisions is approved at a general election the withdrawal shall become effective upon the filing with the Secretary of State of the certificate signed by the chairman of the board of supervisors reciting that the proposal to withdraw from the provisions of subdivisions 1, 2 and 3 of this section as applicable to such county was approved by a majority of the votes cast thereon at such election, and the general provisions of this Constitution with respect to appointment and election of judges of the superior court shall forthwith become effective in said county as to all vacancies then existing or thereafter accruing in the office of judge of the superior court in said county; but such withdrawal shall not in any way affect the validity of any appointment made or election held under the provisions of said subdivisions, nor the term of office of any judge so appointed or elected.

Constitution, Art VI, Sec 8½.

Subdivision 1. The term of office of judges of the superior court shall be six years from and after the first Monday of January after the first day of January next succeeding their election. Within thirty days before the first day of July next preceding the expiration of his term, any judge of the superior court may file with the officer charged with the duty of certifying nominations for publication in the official ballot a declaration of candidacy for election to succeed himself. If he does not file such declaration the Governor must nominate a suitable person for the office before the sixteenth day of September, by filing such nomination with the officer charged with the said duty of certifying nominations, which nomination shall be made from candidates recommended in the same manner as those recommended for appointment to a vacant office under subdivision 2 hereof. In either event the name of such candidate shall be placed upon the ballot for the ensuing general election in November in substantially the following form:

For Judge of the Superior Court

---------- (name)	Yes	
Shall he be elected to the office for the term expiring in January, ------? (year)	No	

No name shall be placed upon the ballot as a candidate for such office except that of a person so declaring or so nominated. If a majority of the electors voting upon such candidacy vote "Yes," such person shall be elected to the said office. If a majority of those voting thereon vote "No," such person shall not be elected and said office shall be deemed vacant for the ensuing term.

Constitution, Art V, Sec. 8½.

Subdivision 2. A vacancy in the office of judge of the superior court shall be filled at the first general State election after the expiration of four years after the first day of April next succeeding the accrual of such vacancy, by the election in the manner provided in subdivision 1 of this section of a judge for a full term to commence on the first Monday in January after the first day of January next succeeding his election. The Governor, within thirty days after presentation to him of the names of candidates as hereinafter provided, must appoint a person to fill such vacancy until the commencement of such term, but no one who has been rejected at an election for said office shall be eligible for such appointment. Such appointment shall be made from candidates nominated by a board composed of the Chief Justice of the Supreme Court, the Presiding Justice of the District Court of Appeal of the appellate district in which such county is situated, or if there is more than one division of the District Court of Appeal in such appellate district, the Presiding Justice of the division of such District Court of Appeal first established, and the member of the State Senate representing said county. Said board, within sixty days after the accrual of such vacancy, must nominate and present to the Governor the names of not less than two nor more than three candidates for each such vacancy. Any such nomination must be the unanimous action of said board, except that in any case in which the board is unable to act unanimously within thirty days after the accrual of a vacancy, such nomination may thereafter be made by a majority of the board. If the Governor fails to appoint one of the persons so nominated to fill a vacancy within thirty days after presentation to him of the names of the required number of candidates, the board must appoint one of said candidates to fill the vacancy. The powers and duties of said board in such a case with respect to such appointment shall be the same as those of the Governor, and a commission executed and signed by a majority of said board shall in such event be of like validity and effect as if so executed and signed by the Governor.

Subdivision 3. In addition to the methods of removal by the Legislature provided by sections 16 and 18 of Article IV and by section 10 of this article, the provisions of Article XXIII relative to the recall of elective public officers shall be applicable to judges elected or appointed pursuant to the provisions of this section, so far as the same relate to removal from office.

All provisions in conflict with subdivisions 1, 2 and 3 of this section shall be superseded by said subdivisions in any county which adopts the provisions of said subdivisions.

Charter Amendment No. 1.

That a new section be added to the charter to be numbered section 125, which shall read as follows:

Section 125. In addition to all other matters, the board shall by its rules provide for: Board of civil service commissioners

(a) The manner and order, not inconsistent with the provisions hereof, in which persons shall be suspended and restored where such suspension results from lack of work, lack of funds or abolishment of position or otherwise, excepting suspension for personal delinquency, and in all such cases such suspension and restoration shall be based upon seniority as hereinafter provided, or where not so provided, as provided by the rules of the board.

No assignment of employees to positions within a class, except as hereinafter in this section provided, for which no different examination requirements have been established by the board shall affect the requirements of this section governing suspension and restoration for lack of work, lack of funds or abolishment of position or otherwise, but, in all such cases, all employees within the same class-group, as hereinafter defined, and for which similar examinations are required by the board shall be considered as one class-group for such purposes.

(1) Whenever suspension other than for personal delinquency is to be made in any class in an office, department or bureau of the city, or major division established in and by a department having control of definite revenues and funds (and hereinafter referred to as a class-group), the person to be suspended shall be selected in the order determined by his length of service in such class since original regular appointment to such class in the classified civil service, after deducting periods of absence from such service as provided by the rules of the board. The person having the shortest length of service in such class shall be suspended first; and any person so suspended shall be entitled to displace the person holding a position in a class-group in which a regular position was formerly held by the person so suspended, who has a shorter length of service in such class-group and in classes of higher rank after deducting periods of absence from the city service since original regular appointment in such class as provided by the rules of the board. Seniority.

The class-group in which suspension is to be made or the class-group in which restoration is to be made, shall include all positions created from such class-group subsequent to the original regular appointment therein of the person so suspended or restored. The determination of the Board of Civil Service Commissioners as to the class-group from which such positions were subsequently created shall be final and conclusive

(2) The above provisions set forth under subdivision (1) shall govern in all cases unless modified in the following manner: Line of promotion

Upon the written request of the head of any office, department or bureau authorized in this charter, the Board of Civil Service Commissioners shall determine and establish lines of promotion and from time to time, as required, reestablish lines of promotion in such office, department, bureau or in a major division of a department controlling its own funds, as hereinafter in this section provided for, which shall be final and conclusive.

The term "line of promotion" as above used shall mean a series of classes within an office, department, bureau, or major division so arranged and so related to each other as to duties and responsibilities as to constitute logical promotional steps from a position in the class of lowest rank to a position in the class of highest rank in such series.

Effect on layoff.

Upon the establishment of such lines of promotion in any office, department, bureau or major division, as above provided, but not otherwise, the rule in such office, department, bureau, or major division shall thereafter be that in all cases of suspension for lack of funds, lack of work or abolishment of position or otherwise, excepting suspension for personal delinquency, the person first suspended shall be the one in such class-group having the least seniority in that and all higher classes in the line of promotion in said office, department, bureau or major division in the classified Civil Service since original regular appointment therein, after deducting periods of absence from such service as provided by the rules of the board, and the person so suspended shall be entitled to a position in the class highest in rank in his line of promotion below that from which he was suspended and in which there is then employed a person whose seniority is less in that and higher classes, as above provided, than the person suspended; and the person so suspended shall displace the person in such lower class with the least seniority in that and higher classes in the line of promotion, as above provided; and each person in turn who is displaced by one having greater seniority shall be entitled to the same rights over other persons in the same line of promotion having less seniority in that and all higher classes, as above provided. In case two or more persons have the same seniority credit, the Board of Civil Service Commissioners shall by its rules provide a method by which to determine the order in which said persons shall be suspended, which determination shall be final and conclusive.

Persons entitled to preference in appointment.

(b) The establishment in each class in each office, department or bureau of the city or major division established in and by a department having control of definite revenues and funds of a reserve list which shall consist of the names of those persons who have been theretofore regularly appointed to, and have served beyond the probationary period in or have been regularly promoted to a position in such class and have been suspended from their positions since January 1, 1928, for causes other than personal delinquency, whether for lack of funds, lack of work, abolishment of position or otherwise; pro-

vided, that any person in the classified Civil Service who has served therein since January 1, 1928, and was suspended for causes other than for personal delinquency shall be entitled upon his written request therefor to have his name placed upon the reserve list in each such class-group in which he was regularly appointed and served beyond the period of probation and from which class he was suspended prior to January 1, 1928. Each person whose name appears on the reserve list, until regularly restored to a position in his class in the office, department, bureau or major division from which he was suspended as hereinbefore provided for in this section, shall be certified for appointment, as in this section provided for, to a position in his class in the office, department, bureau or major division from which he was suspended; provided, that after this section takes effect, the name of any person, except as in this section provided for, who has been out of the service of the city for more than five years shall be permanently stricken from the reserve list by the board.

During suspensions other than for personal delinquency, the name of the person so suspended shall be placed and retained on the reserve list, as in this section provided for, in each class in each office, department, bureau or major division in which such person has served beyond the period of probation and from which he has been suspended for any cause other than personal delinquency.

Vacancy. How filed.

Whenever any vacancy is to be filled, it shall be filled in the following order: First, by certifying from such reserve list, if any, in the class and office, department, bureau or major division in which such vacancy exists, the name of the person with greatest length of previous service in such class and all classes of higher rank as hereinbefore provided, or by transfer of a person whose service in such class and classes of higher rank is greater than that of any person on the reserve list of the office, department, bureau or major division where such vacancy is to be filled; secondly, by certifying from the promotional list, if any, as provided for in section 107 of this article, of the office, department, bureau or major division where such vacancy is to be filled; thirdly, by certifying from the reserve list of other offices, departments, bureaus and major divisions as shall be provided for by the rules of the board; fourthly, by certifying from the appropriate register of eligibles as elsewhere provided for in this article.

The board shall have the same power and duty to review as to regularity of procedure all cases of suspension for lack of work, lack of funds or abolishment of position or otherwise, as elsewhere provided in the charter for removal, discharge, or suspension for cause; but, the question of the necessity for such suspension for lack of work, lack of funds or abolishment of position shall not be subject to such review.

Except as hereinafter in this section provided, section 115 of this charter shall be deemed superseded hereby.

WHEREAS, Prior to the year of 1928 there was a market for California crude oil and particularly low grade fuel oil of which California has one hundred million barrels in storage which market has been taken away from this State by the importation of foreign oil at a price that California producers can not compete with on account of the oil being produced with cheap foreign labor; and

WHEREAS, Not only have the farmers and the schools sustained severe losses, but also banking, transportation, manufacturing, industry, utility and every type and character of business have been adversely affected by the distressed condition of the oil industry and by the great loss in purchasing power due to the taking of our domestic markets by the importations of cheap foreign oil; and

WHEREAS, The general unemployment situation has been very greatly aggravated by the thousands of oil field workers, geologists, land men, lease men, scouts and office employees,

forced out of employment, and by the thousands now unemployed but formerly employed by the businesses dependent on the oil industry the third largest industry in the Nation; now therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Congress of the United States be, and it is hereby memorialized to give relief to the distressed oil industry, and thereby to the Nation generally, by immediately levying an adequate tax or tariff upon imported petroleum and its refined products, that will enable our domestic oil industry to meet importations of foreign oil and its refined products on a competitive basis as shown by the report of the Tariff Commission; and be it further

Resolved, That copies of this resolution be sent to the presiding officers of the legislative bodies of the other oil producing States, with the request that they transmit similar memorials to Congress; and that a copy of this resolution be transmitted to the President of the United States, and to the President of the Senate and to the Speaker of the House of Representatives of the Congress of the United States, and to each of the members from California of the Senate and House of Representatives of the United States.

WHEREAS, The activity of the United States Government in its present plan of aiding banks, insurance companies, building and loan companies and railroad companies, as well as in aiding agriculture and industry is viewed with appreciation and approbation by the Legislature of the State of California; and

WHEREAS, Said Legislature is especially in full accord with the extension of aid to banks which have loaned money to farmers and homeowners, secured by mortgages or deeds of trust on home or farm properties; and

WHEREAS, It has been brought to the attention of some members of the Legislature that some of the financial institutions receiving loans or other assistance from the United States Government or its agencies do not extend and are not willing to extend reasonable time for payment of debts secured by deeds of trust or mortgages on homes and farm properties before foreclosing the mortgage or exercising powers of sale granted by the mortgage or deed of trust; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully petitions and urges the United States Government to use the strongest measures justifiable in requiring such institutions receiving such aid to cooperate with the Federal Government, in its program for the restoration of prosperity to our country, by extending time for payment of the debts above mentioned; and be it further

[Filed with Secretary of State May 19, 1933.]

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its regular session commencing on the second day of January, 1933, two-thirds of the members elected to each of the two houses of the said Legislature voting therefor, hereby proposes to the people of the State of California, that the Constitution of said State be amended by adding to Article XI thereof a new section to be numbered 7¾, and to read as follows:

Constitution, Art. XI, Sec. 7¾.

Sec. 7¾. Any two or more political subdivisions, either contiguous or included one within the territorial boundaries of the other, may, in the manner herein set forth, provide for the joint exercise of the powers or functions common to said political subdivisions. The term "political subdivision" as used herein means a county, city and county, or incorporated city of this State, whether operating under general laws or under a freeholders' charter. No political subdivision shall enter any agreement for the joint exercise of powers and functions without the consent of a majority of the electors of such political subdivision for which the joint exercise of powers and functions is proposed voting thereon at an election called for that purpose as hereinafter provided.

Joint exercise of powers and functions by political subdivisions

Any two or more political subdivisions may jointly frame and adopt articles of agreement for the joint exercise of

Constitution, Art XI, Sec. 7½.

powers and functions common to said political subdivisions. Such articles shall be framed by a board composed of five electors from each of such political subdivisions chosen at a general or special election. Only persons who have been electors for five years immediately preceding shall be eligible to such board. An election for such board may be called by two-thirds of the members of the legislative authority of each political subdivision so proposing to enter said agreement for the joint exercise of powers and functions, and shall be so called on presentation of a petition signed by registered electors in each such political subdivision, not less in number than fifteen per cent of the votes cast in such political subdivision for Governor at the last preceding gubernatorial election. Such petition shall be signed and verified in the manner provided in this Constitution for initiative petitions. Candidates for the board in each political subdivision may be nominated by a petition signed by one hundred electors of the subdivision, whose names appear upon the registration record. At such elections, which shall be held separately and simultaneously in each political subdivision proposing to jointly exercise powers and functions, the electors shall vote, first, on the question "Shall a board be elected to frame articles of agreement for the joint exercise of powers and functions by (here insert names of political subdivisions)?" and, secondly, for the members of the board. If the first question receives a majority of the votes cast at such election in each political subdivision, or in any two or more political subdivisions, the electors elected shall organize as a board within ten days after the result of the election is declared, and shall, within the next one hundred twenty days thereafter prepare and propose articles of agreement for the joint exercise of powers and functions by the political subdivisions represented on the board. Said period of one hundred twenty days may be extended by the board with the joint consent of the legislative bodies of the political subdivisions concerned for an additional one hundred twenty days. The board may employ special and expert assistants and incur all necessary expenses in performance of its duties. The compensation of assistants and the expenses of the board shall be paid by the political subdivisions electing members thereto.

The articles of agreement so prepared, when signed by a majority of the members representing each political subdivision concerned, shall be filed with the department in charge of elections in each subdivision. The department shall cause copies of such articles of agreement to be published in pamphlet form and mailed to all registered electors in each such political subdivision not less than thirty days before the date set for the election upon such articles of agreement. The body authorized to call elections in each such political subdivision shall submit the articles of agreement to the electors at a date fixed in such articles of agreement by the board, which

date shall be not less than sixty days from the filing of said articles with said department. Constitution, Art XI, Sec 7½.

The elections shall be held separately and simultaneously in each of the political subdivisions represented on the board. If a majority of the qualified electors of each political subdivision voting thereon or a majority of the qualified electors of any two or more political subdivisions voting thereon vote in favor of such articles of agreement, said articles shall, as soon as the result of the election is declared, constitute and become the organic law of the political subdivisions voting in favor thereof with respect to all matters for which it is competent for such articles to provide as herein specified. Such articles of agreement shall supersede any existing organic law of the political subdivision so entering the agreement and all laws relative to the government of such political subdivisions inconsistent therewith. The courts shall take judicial notice of such articles of agreement.

It shall be competent for any articles of agreement framed and adopted in accordance with the provisions of this section to provide for the joint exercise and performance of any powers or functions common to the several political subdivisions entering the same. The political subdivisions party to said agreement shall provide for defraying the expenses arising therefrom and the articles of agreement may provide that contributions from the treasuries of each subdivision shall be made for the purposes for which the agreement was entered. The method of disbursement of funds shall agree so far as the same is practicable with the method provided by law for disbursement of funds by the several subdivisions party to the agreement. The agreement shall also provide for the disposition or distribution of any property acquired as a result of said agreement in the event the articles of agreement are rescinded or amended in the manner hereinafter specified.

Amendments to the articles of agreement may be proposed (a) by the legislative bodies of each political subdivision party to the agreement by resolutions approved by majority of the members of each such legislative body, or (b) by a petition signed by not less than ten per cent of the registered electors voting in each such political subdivision at the last election for Governor, filed with the department in charge of elections in each subdivision. Such amendments shall be separately and simultaneously submitted to the electors of each constituent political subdivision at the next general State election held not less than sixty days after filing of such resolution or petition or at special elections called by a two-thirds vote of the legislative body of each political subdivision to be held simultaneously on a date not less than sixty days after filing of such resolutions or petitions. Such amendments shall be published and mailed to the electors in the manner provided for publication and mailing of proposed articles of agreement. If a majority of the qualified electors in each political subdivision voting on an amendment shall vote in favor thereof,

such amendment shall become part of the organic law of the political subdivision and the courts shall thereupon take judicial notice thereof. When alternative or conflicting amendments covering the same general purpose are proposed, the departments authorized to call elections in each political subdivision shall have the ballots so printed that the voter may, first, propose his approval or disapproval of the general purpose, and, second, express his preference for any proposed amendment. If a majority of the votes on the first question is negative, all such amendments shall be rejected. If a majority of the votes on the first question is affirmative, the amendment receiving the highest number of affirmative votes shall be ratified, and any others shall be rejected. If there is a conflict between two or more amendments receiving a majority vote at the same election, the amendment receiving the highest affirmative vote shall prevail.

Articles of agreement adopted under the authority of this section may be rescinded in the manner herein provided for the amendment of said articles. If a majority of the electors of each constituent political subdivision shall vote in favor of the proposed recision, the articles of agreement shall be thereby rescinded and each political subdivision shall thereafter be relieved of any obligation thereunder and shall be governed under the general laws in force for the government thereof.

Eminent domain.

Sec. 14. owner, irrespective of any benefits from any improvement proposed by such corporation, which compensation shall be ascertained by a jury, unless a jury be waived, as in other civil cases in a court of record, as shall be prescribed by law; provided, that in any proceeding in eminent domain brought by the State, or a county, or a municipal corporation, or metropolitan water district, municipal utility district, municipal water district, drainage, irrigation, levee, reclamation or water conservation district, or similar public corporation, the aforesaid State or municipality or county or public corporation or district aforesaid may take immediate possession and use of any right of way or lands to be used for reservoir purposes. required for a public use whether the fee thereof or an easement therefor be sought upon first commencing eminent domain proceedings according to law in a court of competent jurisdiction and thereupon giving such security in the way of money deposited as the court in which such proceedings are pending may direct, and in such amounts as the court may determine to be reasonably adequate to secure to the owner of the property sought to be taken immediate payment of just compensation for such taking and any damage incident thereto, including damages sustained by reason of an adjudication that there is no necessity for taking the property, as soon as the same can be ascertained according to law. The court may, upon motion of any party to said eminent domain proceedings, after such notice to the other parties as the court may prescribe, alter the amount of such security so required in such proceedings. The taking of private property for a railroad run by steam or electric power for logging or lumbering purposes shall be deemed a taking for a public use, and any person, firm, company or corporation taking private property under the law of eminent domain for such purposes shall thereupon and thereby become a common carrier.

Memorializing President to relax regulations concerning gold

WHEREAS, Due to existing economic conditions, there are thousands of our citizens who have become destitute through no fault of their own and who are attempting to make a livelihood through gold mining along the streams and rivers in the State of California and other western States, thereby

maintaining their independence and avoiding the necessity of seeking the aid of charity; and

WHEREAS, Other citizens of this country have made large investments in gold mining enterprises of various kinds throughout the United States, thereby giving employment to great numbers of men and purchasing great quantities of commodities of various kinds for such mining enterprises; and

WHEREAS, The United States Government has heretofore fixed the price of gold at $20.67 per ounce and has prohibited the exporting of gold; and

WHEREAS, The price of gold at the present time on the world market is $30 per ounce, or thereabouts; and

WHEREAS, As is well known, the price of food and commodities in general is increasing thereby causing the production of gold to become more expensive and thereby lessening the production of gold in the United States; and

WHEREAS, It is generally admitted that it is to the economic advantage of the United States to produce a large supply of gold; therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California hereby memorializes and petitions the President of the United States to relax or modify existing Federal laws and regulations so that gold may be exported from the United States and sold in the world market, or that regulations be promulgated so that the United States Government will purchase all gold so mined at the prevailing world price instead of at the fixed price of $20.67 per ounce; and be it further

Resolved, That the Secretary of the Senate of the State of California be and he is hereby directed forthwith to transmit a copy of this joint resolution to the President of the United States.

WHEREAS, This debris originates exclusively in the Shasta National Forest and flows into the McCloud River, which has long been recognized as the best salmon propagating stream in the drainage area emptying through the Golden Gate; and

WHEREAS, It would seem only reasonable that the mud flow so originating should be controlled by means, in part at least, of Federal assistance, since the cause of the trouble originates entirely by reason of lack of erosion control in said Shasta National Forest; and

WHEREAS, The Federal government has established a salmon hatchery, and the United States fishery headquarters at Baird, on the McCloud River, which has been in operation for about forty-five years, and the use of which is threatened with destruction by reason of said mud flow; and

WHEREAS, The government of the United States has additionally reserved all public land on and contiguous to the McCloud River as power reserves, and its use for hydropower generation will be injuriously affected by the movement of sand, mud, and other debris; and

WHEREAS, The mud flow carries in suspension into the main channel of the Sacramento River where it is proving detrimental when diverted to the valley lands for irrigation purposes, and is injurious to government reclamation projects, existing or planned for the future, and the pollution furthermore affects the water injuriously for domestic uses; and

WHEREAS, Under the provisions of the National Industrial Recovery Act the President of the United States is authorized and empowered to construct, finance or aid in the construction or financing of any public works project included in a Federal public works program; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California urgently petitions that the President include the control of the mud flow on the McCloud River in said Federal program of public work, or otherwise, under the National Industrial Recovery Act extend assistance to the State of California in a project designed to secure such control; and be it further
