The term of this bond is _____ years from July 2, 19__, and at the expiration of said time the whole sum then unpaid shall be due and payable; but on the second day of July of each year, after the May fifteenth succeeding the April fifteenth following the date hereof, an even annual proportion of its principal is due and payable upon presentation of the coupon therefor, until the whole is paid, with accrued interest at the rate of _____ per cent per annum.

The interest is payable semiannually on the second day of January and July of each year hereafter upon presentation of the coupons therefor, the first of which is for the interest from date to the second day of _____, 19__, and thereafter the interest coupons are for the semiannual interest.

This bond may be redeemed by the owner or any person interested in any lot or parcel of land described herein, in the manner provided in said act, at any time before maturity and before commencement of proceedings for sale, upon payment to the city treasurer, for the holder of this bond of the amount then unpaid on the principal sum thereof, together with the amount of interest as shown on the two interest coupons maturing first after the date of such payment and all penalties accrued and unpaid.

Should default be made in the annual payment upon the principal, or in any payment of interest, the holder of this bond is entitled to declare the whole unpaid amount to be due and payable, and to have said lot or parcel of land advertised and sold forthwith in the manner provided by law. In case of such default, there shall be immediately added to such defaulted amount, five per cent (5%) of the amount thereof, and on the first day of each month following such default there shall be added a further penalty of one per cent to such defaulted amount. Said bonds shall be payable to the bearer and no mistake or error in the description in the bond of the lot assessed shall affect the validity or lien of the bond, unless the mistake or error is such that the lot can not be identified, and in such event the holder of such bond may have the same corrected upon application to the city treasurer and the officers or board who or which made the assessment to represent which such bond is issued. Said bonds by their issuance shall be conclusive evidence of the regularity of all proceedings leading up thereto under said improvement act, and under this act, and of the validity of said bonds. Validity of bonds.

SEC. 3. Section 5a of said act is hereby amended to read as follows: Stats. 1931, p 1620.

Sec. 5a. In the event of the division of any lot or parcel of land for which a bond has been issued pursuant to section 4 hereof into two or more separate lots or parcels of land, such bond may be surrendered and new bonds issued to the holder of the original bond in the manner hereinafter prescribed. When it is desired that such new bonds shall be issued, an application in writing signed by the owner of any interest in any of the lots or parcels into which the original lot or parcel has been divided shall be filed with the street superintendent. Such application shall indicate how the original lot or parcel has been divided, and request the street superintendent to apportion the amount remaining unpaid on said assessment in accordance with such division, and be accompanied by a fee of five dollars ($5) for each separate part or parcel of said original lot or parcel, which sum shall be deposited by said street superintendent in the city treasury. The street superintendent thereupon shall apportion to each separate part of said original lot or parcel of land the proportionate part of the amount remaining unpaid on said assessment that would have been levied had such lot or parcel of land been so divided at the time the original assessment was made. When such determination has been made, an application signed by all persons owning an interest in the original lot or parcel of land and the holder of the original bond on such lot or parcel of land, shall be filed with the city treasurer requesting that new bonds be issued for the amounts shown by the apportioned assessment in accordance with this section. Such application shall be accompanied by evidence satisfactory to said city treasurer that it is signed by every person owning any interest in said original lot or parcel of land. When the city treasurer shall have ascertained that the application is signed by all of the necessary persons, he shall so advise the street superintendent who shall thereupon amend the recorded diagram and assess- Division of lots and parcels: New bonds.

ment to conform to such division and apportionment and assign new assessment numbers to each separate part of the original lot or parcel of land. The city treasurer shall add to each such apportioned amount a sum equal to five per cent thereof but in no event more than the sum of ten dollars ($10), and shall make and sign a new bond of the same form as the original bond, to represent each such apportioned amount. The amount of such bond shall be equal to the sum of such apportioned amount and the amount added thereto by the city treasurer as herein prescribed, and payable in installments at the respective dates of the payment of principal and interest of the original bond, the number of such installments to be equal to the number of unpaid installments on the original bond. Provided, however, that no new bond shall be issued when such apportioned amount shall be less than twenty-five dollars ($25), in which event said amount shall be paid to the city treasurer in cash for the benefit of the holder of the original bond. Upon the surrender of the original bond the city treasurer shall deliver to such bondholder or his agent or assigns the bonds issued for such apportioned assessments together with all payments of cash which may have been made pursuant hereto.

Title.

SEC. 2. Section 12 of said act is hereby amended to read as follows:

Stats 1921, p 894.

Sec. 12. Immediately after executing a contract for the construction of the improvement, the board of supervisors shall direct the engineer of construction to estimate the total cost of making the proposed improvements and performing such proposed work (which estimate shall include all expenses of every kind incurred or to be incurred, either directly or indirectly, in carrying out said work and improvements), and to assess the same in proportion to the benefits thereof to the lands in said district, and to do all things proper and necessary to carry out the provisions of this act.

Estimate of cost and assessment of benefits

Said engineer of construction shall proceed to view the lands within the said district and may examine witness under oath. He shall proceed to assess against the land within said district the estimated amounts of the cost of the proposed work or improvement and the expenses incident thereto, in proportion to the benefits to be derived from said work or improvements so far as he reasonably can estimate the same, including in such estimate of benefits the land whether operating property or not or of any public utility within said district, if such there be. He shall state the amounts to be assessed on each parcel of land separately, and shall divide the total assessment on each parcel of land into yearly installments of amounts clearly sufficient to retire the bonds and to pay the interest thereon for each year that said assessment shall continue.

In estimating the total cost and expenses of doing said work, the engineer of construction shall be governed by the amount he deems necessary to pay the principal and interest on bonds to be issued therefor as herein set forth and all incidental expenses to be incurred as herein authorized. Such estimates shall be based upon the contract price for doing the work as set forth in the plans and specifications together with an estimate of the incidental expenses to be incurred.

Report. The engineer of construction, having made his assessment of the benefits, shall with diligence, and before the board of supervisors declares the work to have been completed, make a written report thereof to, and file the same with, said board, and shall accompany said report with a plat of the district showing the relative location of each block, lot or portion of lot, or other piece of land and its dimensions, so far as he can reasonably ascertain the same. Each block and lot, or portion of lot, or other parcel or parcels of land affected or assessed shall be designated and described in said plat by an appropriate number and a reference to it by such descriptive number shall be sufficient description of it in all respects.

Notice of hearing. The report of such engineer of construction and the affidavit accompanying it shall be filed with the clerk of the board of supervisors, and said board shall thereupon fix a time for the hearing thereon, and thereupon the clerk of said board shall give notice of said hearing by publication once each week for at least three weeks prior to the time fixed for said hearing in the newspaper or newspapers designated in the resolution of intention. Such notice shall be substantially in the following form:

Form. Notice of the filing of the report of the engineer of construction of drainage improvement district No. ____ (the number being that of the district) of the county of _____.

Notice is hereby given that the engineer of construction of drainage improvement district No. ____ (the number being that of the district), did on the ____ day of _____, 19__, file his report of the assessment of benefits in said district with the clerk of the board of supervisors of said county, which said report is now on file in the office of the said board of supervisors in the city of _____, of said county, and that said report will be heard by said board at its chamber on the _____ day of _____, 19__, at the hour of __M. Said report and the map, plans and specifications of the improvements mentioned therein are hereby referred to for further particulars. All persons interested are hereby required to show cause, if any they have, at the time and place fixed for said hearing, why said report should not be adopted and confirmed by said board, and why the several parcels of land referred to in said report should not be assessed for said improvement as therein set forth. All objections shall be in writing, signed by the person objecting, and filed with the

clerk of said board at least one day prior to the time fixed for the hearing of said report.

(Signed) _____,

Clerk of the board of supervisors, _____ county.

Objections to report.

Any person interested may file with the clerk of said board at least one day before the time fixed for the hearing, a written objection to said report, or to any part thereof, to the assessment as a whole or to the assessments on the several parcels of land, as set forth in said report. At the time fixed for such hearing or at any time to which the hearing may be adjourned, the board of supervisors shall hear and pass upon all objections so filed, and shall proceed to pass upon said report and the assessments therein contained, and may confirm, correct or modify the same, or may direct the engineer of construction to make a new assessment, report and plat which shall be filed, heard and acted upon in the same manner, and on like notice as an original report. The action of the board upon the report and objections thereto shall be final and conclusive as to all matters therein, and no assessment shall be set aside except upon such hearing for any error, defect, or informality therein, or in the proceedings prior thereto, where notice of the hearing of the report has been given as herein prescribed. The board of supervisors shall, upon the adoption of said report, by order entered upon its minutes, levy against and upon all lands within said drainage improvement district No. _____ (being the district as established and bounded in the order for the work to be done), a special assessment upon the lands found to be benefited by such improvement in the amount set forth in the said report of the engineer of construction as adopted by the board of supervisors, and which said amount shall be available for the payment of said bonds and the interest thereon. Said assessment shall be payable as herein provided at the times and in the amounts indicated in said report of said engineer of construction. When said board has levied the special assessment as hereinabove set forth, the clerk of said board shall cause to be filed with the recorder, and with the tax collector of the county or counties in which the district is situated, certified copies of the plat and report as adopted and confirmed by said board, together with certified copies of the order of said board levying said special assessment, and also give to the county auditor notice of the total amount of the installments for each year. If the district lies within more than one county as provided in section 2, said certified copies shall be filed with the recorder and tax collector of each county affected. Upon the filing of such certified copies the charges assessed upon each piece of land for the first year shall immediately become due and payable, and shall constitute a lien thereon; thereafter the installments for the succeeding year shall become due and payable on the third Monday of October of each year, and shall thereupon constitute a lien upon the land against which it is assessed.

Adoption of report

Recording of report.

Disposal of moneys.

All moneys paid upon such assessment, either by property owners or by the county or municipality affected, shall be placed in the county treasury of the county in which such district was organized in a special fund to be known as drainage district improvement No. ------, interest and sinking fund (the number being that of the district), and shall be used only to retire the bonds issued to pay the cost of constructing the improvement and the incidental expenses thereof, and to pay the interest on said bonds. Any surplus remaining after the bonds are retired, shall be paid into the maintenance fund of said district. Upon the filing of the certified copy of the report, assessment plat, and order with the tax collector of the county or counties as above provided, the tax collector shall give notice by ten days' publication in the newspaper designated in the resolution of intention, that the assessment list of drainage improvement district No. ------ has been filed in his office, with the date of such filing; that the first installments entered thereon are due and payable, and that if not paid on or before the last Monday of April next ensuing the same will become delinquent and will be collected as are delinquent taxes. He shall note on said assessment list all assessments paid, and give receipts as upon the payment of taxes, and shall pay all money collected into the county treasury at the same time and in the same manner as money collected for taxes.

Subsequent collections of installments shall be made in the manner above set forth, and the tax collector shall annually publish a like notice, and the same proceedings shall be had as upon the collection of the first installment.

Delinquency

When said installments have become delinquent the tax collector of the county shall proceed to collect the same together with an additional ten per cent added thereto, and pay the same over to the county treasurer as State and county taxes are collected and paid over; for the purpose of collecting such assessments and delinquent installments and penalties, all of the provisions of chapter seven, title nine, part three of the Political Code not in conflict with any of the provisions of this act are hereby made applicable.

The entire assessment against a parcel of land within the district, subsequent installments of principal as well as the installment for the current year, may at any time be paid in full with interest thereon to the date of payment together with a premium of three per centum of the principal then unpaid, to the tax collector who shall issue receipts for said payments as in this section provided.

Said tax, when levied, shall be entered upon the assessment roll and collected in the same manner as State and county taxes. Sec. 4. When it appears from the plans, specifications and estimates of cost, that the cost and expense of doing any construction, reconstruction, alteration, maintenance, repair or other work authorized to be done by or under the direction of the Division of Highways of the Department of Public Works, or any flood control work to be done by or under the Division of Water Resources of the Department of Public Works, will not exceed fifteen thousand dollars, the Director of Public Works may direct that said work be done under contract awarded to the lowest responsible bidder or bidders upon public notice, which shall be given as follows: Work under $15,000

Notice of such work must be published for two consecutive insertions in a weekly trades paper of general circulation, published either in Los Angeles or San Francisco, devoted primarily to the dissemination of contract news among contracting firms. Notice must also be published for eight days in a daily newspaper or for two consecutive insertions in a weekly newspaper located in the county in which said work is located. Such notice must state the time and place for the receiving and opening of sealed bids and must also describe in general terms the work to be done; and no other notice calling for said bids need be given. In the case of work done by or under the Division of Highways, said director may designate that such bids shall be delivered to and opened by the district engineer of said Division of Highways in whose district said work is to be done, and said notice shall designate when and by whom said bids shall be opened. At the time specified in said notice said district engineer shall proceed to publicly open said sealed bids, and shall report the contents thereof to said director. In all other respects any such contract shall be awarded as other contracts. Notice. Opening of bids

Sec. 5. On the day named in said public notice the Department of Public Works shall proceed to publicly open said sealed bids, and shall award such contract or contracts to the lowest responsible bidder or bidders. All bids shall be presented under sealed cover and shall be accompanied by cash, Award of contract to lowest bidder

cashier's check or a certified check made payable to the Director of Public Works, for an amount equal to at least ten per cent of the amount of said bid and no bid shall be considered unless such cash, cashier's check or certified check is inclosed therewith. A bidder's bond executed as surety by some corporation authorized to issue surety bonds in the State of California may be furnished in lieu of cash, cashier's check or certified check with the bids on any contract when so specified by the Department of Public Works; provided, however, that all bidders shall be given reasonable notice of the fact that such bidder's bonds will be accepted with bids on such contract. Should the successful bidder to whom the contract is awarded fail to execute the same, such cash, cashier's check, certified check or bidder's bond shall be forfeited to the State of California and the same shall be the property of the State, and shall be deposited in the fund out of which the expenses of preparation and printing of the plans and specifications, estimates of cost, and publication of notice are paid. All other cash, cashier's checks and certified checks shall within ten days after the date of the award of said contract, be returned to the unsuccessful bidders who submitted the same; provided, however, that cash, cashier's check or certified check of the second and third lowest responsible bidders may be withheld until the contract has been finally executed. If, in the opinion of the Director of Public Works, it is for the best interests of the State, on the refusal or failure of the successful bidder to execute the contract, said director may, in his discretion, award the same to the second lowest responsible bidder. If the second lowest responsible bidder fails or refuses to execute such contract, the said director may likewise award the same to the third lowest responsible bidder. On the failure or refusal of the second or third lowest bidder, to whom any such contract is so awarded, to execute the same, such bidders' cash, certified check or cashier's check shall be likewise forfeited to the State.

Bond or deposit.

Award to other bidders

Withdrawal of bids

Sec. 6. Any bid may be withdrawn at any time prior to the hour fixed in said public notice for the opening of bids as follows, and not otherwise: A request in writing for the withdrawal of such bid must be filed with the Director of Public Works or the chief of the division under which the said work is to be performed. Such request must be executed by the bidder or his duly authorized representative. The withdrawal of a bid shall not prejudice the right of the bidder to file a new bid.

Nothing in this section contained shall authorize the withdrawal of any bid after the hour fixed in said public notice for the opening of such bids, and no bid shall be received after such hour, regardless of whether or not such bids are opened exactly at the hour set or thereafter.

Director may reject bids.

Sec. 7. If in the opinion of the Director of Public Works the acceptance of the lowest responsible bid or bids shall not be for the best interests of the State, it may be lawful for

him to reject all bids and advertise for others in the manner aforesaid. But at any time after the approval of the plans, specifications and estimates of costs by the Director of Public Works if, in the opinion of said Director of Public Works the advertising or award of a contract under the provisions of this act, or the acceptance of any bid or bids shall not be for the best interests of the State, or if in the opinion of said director the acceptance of any further bids after the rejection of all bids submitted shall not be for the best interests of the State, he may direct that the said work shall be done by day's labor, under the direction and control of the Department of Public Works. Upon the approval of the Director of Public Works, the duly authorized officer or officers of the Department of Public Works may, when proceeding upon the basis of day's labor, let any subdivision or unit of said work by contract upon informal bids.

Day labor work.

Sec. 8. Any contract awarded hereunder shall not be binding on the State until it has been submitted to the Attorney General, or the attorney appointed according to law and authorized to represent the division of the Department of Public Works under which said work is to be performed, and by him found to be in accordance with the provisions of this act, and his certificate thereon to that effect made.

Contract to be approved by Attorney General.

A certified copy of each such contract shall be filed with the State Controller and the Director of Finance, but the failure so to file shall not in any manner invalidate any such contract.

Sec 9. Except in unit basis contracts in State road or highway work, including the construction of bridges, no contract or contracts shall be made exceeding in amount the estimates of costs approved by the Director of Public Works and no plans and specifications and estimates of cost including expense of advertising and inspection, shall be approved by said director requiring a greater expenditure of money than is appropriated for the specific purpose in the act authorizing the same.

Cost not to exceed estimates.

Sec. 10. Each such contract shall provide that the Department of Public Works may, as hereinafter provided, and on the conditions stated, make any change in the plans and specifications. After the contract or contracts are let no change shall be made to increase or diminish the cost of any contract in excess of five hundred dollars, except upon the approval of the Director of Public Works, and then only upon additional plans and specifications and estimates of cost being filed and approved, and amended contracts entered into and filed with the original contract.

Alteration of contracts.

This section shall not be construed, in State road or highway work, including the construction of bridges, to prevent the receipt of bids or the making of a contract upon a unit basis, that is, the bids compared upon the basis of the estimates of quantities of the work to be done, nor the increase or decrease of such quantities during the progress of the work

by the Department of Public Works as may be deemed expedient by such department, nor the insertion of provisions in the contract for the performance of such extra work and the furnishing of such materials therefor by the contractor as may be required by such department for the proper completion or construction of the whole work contemplated; provided, that the bidders shall have had equal opportunity of knowing what the terms proposed by the Department of Public Works for the performance of such extra work shall be.

Questionnaire.

Sec. 11. The Department of Public Works shall, before furnishing any person proposing to bid on duly advertised public work with plans and specifications for the proposed public work, require from any such person answers to questions contained in a standard form of questionnaire and financial statement including a complete statement of the person's financial ability and experience in performing public works, which questionnaire and financial statement when completed must be verified under oath by the bidder in the manner in which pleadings in civil actions are verified.

Whenever the Department of Public Works is not satisfied with the sufficiency of the answers contained in such questionnaire and financial statement it may refuse to furnish such person with plans and specifications on any such duly advertised public work, and the bid of any person to whom plans and specifications have not been issued must be disregarded.

The foregoing provisions of this section shall not apply to contracts awarded under section 4 of this act.

Proposal form

The said Department of Public Works shall furnish to each bidder a standard proposal form, which, when filled out and executed may be submitted as his bid. Bids not presented on such forms so furnished must be disregarded. Said department shall not furnish such proposal forms to any person who has not been prequalified in the manner provided in the first two paragraphs of this section at least five days prior to the date fixed for publicly opening sealed bids.

The word "person" as used in this section includes a natural person, a corporation, any combination of natural persons recognized by law, or any combination of any thereof.

Time for completion

Sec. 12. In all contracts made under the provisions of this act, there shall be a provision in regard to the time when the whole, or any specified portion, of the work contemplated in said contract shall be completed, and also providing that for each and every day the same shall be delayed beyond such time or times so named, the said contractor or contractors shall forfeit and pay to the State a sum of money, to be fixed and determined in said contract, to be deducted from any payment or payments due, or to become due, to said contractor or contractors; provided, however, that the Director of Public Works may, in his discretion, grant such extensions of time as he may deem expedient and for the best interests of the State. Any such contract shall provide for the filing of a

good and sufficient bond by the contractor executed as surety by a corporation or corporations authorized to issue surety bonds in the State of California, which bond shall be approved by the properly authorized officer of the Department of Public Works. The said bond shall be executed in a sum equal to at least one-half of the contract price, except as otherwise provided in the California Toll Bridge Authority Act or any other statute of the State of California, and shall secure the payment of the claims of laborers, mechanics or materialmen employed on the work under said contract and shall contain all such other provisions as are now or may hereafter be required by law. Bond for payment of labor, materials, etc.

Sec. 13. All contracts made under the provisions of this act shall provide for the filing of a good and sufficient bond by the contractor, executed as surety by a corporation or corporations authorized to issue surety bonds in the State of California, which bond shall be approved by the properly authorized officer of the Department of Public Works. The said bond shall be executed in a sum equal to at least one-half of the contract price, except as otherwise provided in the California Toll Bridge Authority Act, and shall guarantee the faithful performance of the said contract by the contractor. The failure of the successful bidder to furnish said bond, or any other bond required of him by law, within the time fixed for his execution of the contract, shall constitute a failure to execute the contract, within the meaning of section 5 hereof. Bond for faithful performance.

Whenever any surety or sureties on any such bond, or on any bond required by law for the protection of the claims of laborers and materialmen, becomes insufficient, or the Director of Public Works has cause to believe that such surety or sureties has become insufficient, he may demand in writing of the contractor such further bond or bonds or additional surety, not exceeding that originally required, as in his opinion is necessary, considering the extent of the work remaining to be done. Thereafter no payment shall be made upon such contract to the contractor or any assignee of the contractor until such further bond or bonds or additional surety has been furnished. Additional bonds

Sec. 14. If at any time in the opinion of the Director of Public Works the contractor has failed to supply an adequate working force, or material of proper quality, or has failed in any other respect to prosecute the work with the diligence and force specified in and by the terms of the contract, said director may, after written notice of at least five days to the contractor, specifying the defaults to be remedied, provide any such labor or materials and deduct the cost thereof from any moneys due or thereafter to become due to the contractor under the contract. Default of contractor.

If the said director shall consider that such failure is sufficient ground for such action, he may give written notice to the contractor and the contractor's surety or sureties, of at least five days, that if such default or defaults be not rem- Notice to contractor and sureties

edied the contractor's control over the said work will be terminated, and in case such default is not so remedied within the time specified in said notice, the contractor's control shall terminate as of said time, and thereupon the said director, or his duly authorized representatives, may take possession of all or any part of the contractor's materials, tools, equipment, and appliances upon the premises and use the same for the purpose of completing said contract, and may complete said work, doing all or any part thereof by day's labor or by employing another contractor or contractors on informal contracts, or both. Such informal contracts shall only be awarded after a proposal form has been prepared, a copy thereof served upon the said contractor, and three days allowed thereafter so that said contractor may have opportunity to cause others to bid. Any person may bid on such informal contracts who is prequalified therefor as provided in section 11 hereof. None of the provisions of this act, except as to prequalification, shall apply to the award of such informal contracts.

Removal of contractor.

Completion of work

In case the control of the contractor over such contract is terminated, or in case the contractor abandons the work, he shall not be entitled to receive any further balance of the amount to be paid under the contract until the same shall be fully completed, at which time, if the unpaid balance shall exceed the amount expended by the State in finishing the work, together with all damages sustained or to be sustained by the State, the excess not otherwise required by law to be retained shall be paid to the contractor, but if such expense and damages exceed the unpaid balance, the contractor and his surety shall be liable to the State therefor.

On the completion of the contract, the original contractor shall be entitled to the return of all his unused materials, and his equipment, tools, and appliances, except that he shall have no claim on account of usual and ordinary depreciation, loss, and wear and tear.

Service of notice.

Any notice provided for in this section may be served on the contractor personally, or on his agent having charge of the work, or by registered mail addressed to such contractor or agent, or if such contractor or agent can not be located or their addresses are unknown, then by posting such notice in a conspicuous place upon the premises of the work.

Payments withheld.

Sec. 15. Payments upon contract shall be made as the Department of Public Works may prescribe upon estimates made and approved by the said department, but no payment shall be made in excess of ninety per cent of the percentage of actual work completed, to which has been added one-half of the value of material delivered on the ground and unused. The Department of Public Works shall withhold not less than ten per cent of the contract price until final completion and acceptance of the work. The Controller shall draw his warrants upon estimates so made and approved by the Department of Public Works and the State Treasurer shall pay the same.

Penalties

Sec. 16. Any officer or employee of the Department of Public Works who shall corruptly perform any official act to the injury of the State, or any contractor or his agent or employee who shall corruptly permit the violation of any contract awarded under this act to the injury of the State, or any subcontractor, or any agent, or employee of any contractor, or of any subcontractor, who shall have knowledge of any work being done in violation of any contract awarded under this act and does not immediately notify the Department of Public Works or the inspector or resident engineer upon said work in regard to the same is guilty of a felony and, upon conviction thereof, shall be confined in the State Prison for not less than one year nor more than five years, and be liable to the State for double the amount the State may have lost, or be liable to lose by reason thereof.

CHAPTER 793.

An act to amend section 726 of the Code of Civil Procedure relating to foreclosure of mortgages.

[Approved by the Governor June 10, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

Stats 1901, p 48

SECTION 1. Section 726 of the Code of Civil Procedure is hereby amended to read as follows:

Foreclosure of mortgage, etc

726. There can be but one form of action for the recovery of any debt, or the enforcement of any right secured by mortgage upon real or personal property, which action must be in accordance with the provisions of this chapter. In such action the court may, by its judgment, direct the sale of the encumbered property (or so much thereof as may be necessary), and the application of the proceeds of the sale to the payment of the costs of court, and the expenses of the sale, and the amount due plaintiff, including, where the mortgage provides for the payment of attorney's fees, such sum for such fees as the court shall find reasonable, not exceeding the amount named in the mortgage.

Commissioner to sell property

The court may, by its judgment, or at any time after judgment, appoint a commissioner to sell the encumbered property. It must require of him an undertaking in an amount fixed by the court, with sufficient sureties, to be approved by the judge, to the effect that the commissioner will faithfully perform the duties of his office according to law. Before entering upon the discharge of his duties he must file such undertaking, so approved, together with his oath that he will faithfully perform the duties of his office.

Appraiser.

Upon the application of either party made at least ten days before the time of trial the court shall, and upon its own motion the court at any time may, appoint one of the inheritance tax appraisers provided for by law to appraise the property or the interest therein sold as of the time of sale. Such appraiser shall file his appraisal with the clerk and the same shall be admissible in evidence. Such appraiser shall take and subscribe an oath to be attached to the appraisal that he has truly, honestly and impartially appraised the property to the best of his knowledge and ability. Any appraiser so appointed may be called and examined as a witness by any party or by the court itself. The court must fix the compensation of such appraiser, not to exceed five dollars per day, and expenses for the time actually engaged in such appraisal, which may be taxed and allowed in like manner as other costs.

Deficiency judgment.

Thereupon the court may render a money judgment against the defendant or defendants personally liable for the debt for not more than the amount by which the entire amount of the indebtedness due at the time of sale exceeded the fair market value of the real property or interest therein sold at the time of sale with interest thereon from the date of the sale; provided, however, that in no event shall the amount of said judgment, exclusive of interest after the date of sale, exceed the difference between the amount for which the property was sold and the entire amount of the indebtedness secured by said mortgage.

Unrecorded claim.

No person holding a conveyance from or under the mortgagor of the property mortgaged, or having a lien thereon, which conveyance or lien does not appear of record in the proper office at the time of the commencement of the action need be made a party to such action, and the judgment therein rendered, and the proceedings therein had, are as conclusive against the party holding such unrecorded conveyance or lien as if he had been a party to the action.

Sale by commissioner.

If the court appoint a commissioner for the sale of the property, he must sell it in the manner provided by law for the sale of like property by the sheriff upon execution; and the provisions of chapter one, title nine, part two, of this code are hereby made applicable to sale made by such commissioner, and the powers therein given and the duties therein imposed on sheriffs are extended to such commissioner.

Sale after death, etc. of commissioner.

In all cases heretofore, now or hereafter pending in the courts of this State, in the event of the death, absence from the State, other disability or disqualification of the commissioner appointed to sell encumbered property under the foregoing provisions of this section, the court may, upon the happening of either the death, absence from the State, other disability or disqualification of the commissioner, appoint an elisor to perform the duties of such commissioner which are then to be performed in such action. The elisor so appointed shall give the undertaking, and take the oath hereinbefore

provided to be given and taken by a commissioner, before entering upon the discharge of his duties, and shall thereafter perform all duties left unperformed by the commissioner whom he is appointed to succeed, with like effect as if such duties had been performed by the commissioner.

Property in two or more counties

If the land mortgaged consists of a single parcel, or two or more contiguous parcels, situated in two or more counties, the court may, in its judgment, direct the whole thereof to be sold in one of such counties by the sheriff, commissioner or elisor, as the case may be, and upon such proceedings, and with like effect, as if the whole of the property were situated in that county.

CHAPTER 794.

[Approved by the Governor June 10, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

Stats 1929, p 1505

SECTION 1. Section 2 of the act cited in the title hereof is hereby amended to read as follows:

Words defined "Dam"

Sec. 2. The word "dam" whenever used in this act shall mean any artificial barrier, whether heretofore or hereafter constructed, together with appurtenant works, if any, across a stream channel, watercourse or natural drainage area, which does or may impound or divert water, which is or will be either twenty-five feet or more in height from natural streambed to crest of spillway, or which has or will have an impounding capacity of fifty acre feet or more; provided, however, that any such barrier which is or will be not in excess of six feet in height, regardless of storage capacity, or which has or will have a storage capacity not in excess of fifteen acre feet, regardless of height, shall not be considered a dam within the meaning of this act; and provided further, that no obstruction in a canal used to raise or lower water therein or divert water therefrom shall be considered a dam within the meaning of this act.

"Owner"

The word "owner" whenever used in this act means the State and all its departments, institutions and agencies and its political subdivisions, every municipal or quasi municipal corporation, every public utility, district, corporation, com-

pany, association or person and their duly authorized agents, lessees, trustees, and receivers or trustees appointed by any court whatsoever, owning, controlling, operating, maintaining or managing or proposing to construct any dam as defined in this act, but does not mean the United States. The words "alterations" and "repairs" or either of them, whenever used in this act, shall mean only such alterations or repairs as may affect the safety of the dam.

"Alterations" and "repairs"

SEC. 2. Section 5 of said act is hereby amended to read as follows:

Stats 1929, p 1505

Sec. 5. After the effective date of this act construction of any new dam or the enlargement of any dam shall not be commenced until the owner has applied for and obtained from the department written approval of plans and specifications. A separate application for each dam shall be filed with the department upon forms to be provided by it and shall give the name and address of the owner, the location, type, size and height of the proposed dam and appurtenant works, the storage capacity of the reservoir and such other pertinent information as the department shall require. It shall also give as accurately as may be readily obtained, the area of the drainage basin, rainfall and stream flow records and flood flow records and estimates. The department may also require data concerning subsoil and foundation conditions and may require that the site be drilled or otherwise prospected and may require such other appropriate information as may be necessary in a given instance but in instances wherein the physical conditions involved and the size of the dam are such as to render the above requirements as to drainage areas, rainfall, stream flow and flood flow and drilling or prospecting of site unnecessary, said requirements may be waived.

Approval of plans for new dam

Contents of application.

The application shall set forth the purpose for which the impounded or diverted water is to be used and shall be accompanied by maps and plans and specifications of such character and size, and setting forth such pertinent details and dimensions as the department may require. Such maps and plans and specifications shall be a part of the application. Also the application shall set forth the estimated cost, as hereinafter defined, of the dam or enlargement and shall be accompanied by a filing fee based upon said estimated cost and according to the following schedule, to wit: for the first one hundred thousand dollars a fee of one and one-half per cent of the estimated cost; for the next four hundred thousand dollars a fee of three-fourths of one per cent; for the next five hundred thousand dollars a fee of one-half of one per cent; and for all costs in excess of one million dollars a fee of one-fifth of one per cent. In no case, however, shall the minimum fee be less than twenty dollars. An application shall not be considered by the department until the filing fee is received. In the event that the actual cost exceeds the estimated cost by more than ten per cent, a further fee shall be required by the department before final approval and shall be one hundred ten per cent of the amount by which the original fee is less than it would have been had the cost it was based upon been the same as the actual cost. Any dam which the department finds was not ninety per cent constructed at the date this act goes into effect, shall be subject to the same provisions as a dam commenced after the effective date of this act; provided, however, that construction work on such a dam may proceed, if an application for approval thereof is filed within sixty days after the effective date of this act, until an order from the department is received approving said dam or specifying how its construction must be made or altered to render it safe. After receipt of an order directing the construction of such a dam work thereafter must be in accordance with said order. Either an application for the approval of a dam under construction must be filed within sixty days after the effective date of this act or a statement must be filed showing that such dam was ninety per cent or more constructed at the effective date of this act. Dams found to be ninety per cent or more constructed at the effective date of this act shall be subject to the same supervision as dams which were completed prior to the effective date of this act. Applications for dams found by the department to have been less than ninety per cent constructed at the effective date of this act shall be accompanied by fees as much less than provided for dams commenced after the effective date of this act as the percentage of construction found by the department to have been completed at the effective date of this act. All filing fees collected under the provisions of this act shall be paid once each month into the State treasury. [Approved by the Governor June 10, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

Recall of officers

SECTION 1. The holder of any elective office in a city of the second and one-fourth class, after he has held his office for at least six months, may be removed or recalled at any time by the electors qualified to vote for his successor.

Incumbents.

The provisions of this act are intended to apply to officials now in office as well as to those hereafter elected.

Petition for election of successor

SEC. 2. A petition demanding the election of a successor to the person sought to be removed shall be filed with the city clerk, which petition shall be signed by qualified electors equal in number to at least twenty-five per cent of the entire vote cast in the city at the last preceding election for the office of Governor and shall contain a statement of the grounds on which the removal or recall is sought, which statement is intended solely for the information of the electors. Any insufficiency of form or substance in such statement shall in no wise affect the validity of the election and proceedings held hereunder. The signatures to the petition need not all be appended to one paper, but the statement shall appear at the head of each separate paper or part of the petition, and shall be followed by the signature, legal residence, and date of signing of each petitioner written by the petitioner in ink or indelible pencil, and by the affidavit of the person in charge of the paper or part that the signatures have all been made in his presence by the persons whose names they purport to be, and are legal signatures to the best of his belief. The petition shall be filed within sixty days after the date of the earliest signature thereon.

Certification of petition.

SEC. 3. Within ten days from the date of filing such petition, the city clerk shall examine and from the records of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and he shall attach to said petition his certificate showing the result of said examination, and shall give notice to the person who filed said petition of the sufficiency or insufficiency of the signatures thereon.

Supplement to insufficient petition

If by the clerk's certificate the petition is shown to be insufficient it may be supplemented within ten days from the date of such certificate by the filing of additional papers, duplicates of the original petition except as to the names signed. The clerk shall, within ten days after such supplementing papers are filed, make like examination of the supplementing petition and if his certificate shall show that all the names to such petition, including the supplemental papers, are still insufficient, no action shall be taken thereon, but the petition shall remain on file as a public record. The failure to secure sufficient names shall be without prejudice to the filing later of an entirely new petition to the same effect. If necessary the city council shall allow the clerk extra help for the purpose of such examinations. In case the clerk is the officer sought to be recalled, the duties herein provided to be performed by him shall be performed by some other person designated by the council for that purpose.

Special election.

SEC. 4. If the petition shall be found to be sufficient, the clerk shall submit the same to the council without delay, whereupon the council shall forthwith cause a special election to be held within not less than thirty-five nor more than forty days after the passage of an ordinance calling such election, to determine whether the voters will recall the officer. If a regular municipal election is to occur within sixty days from the date of the passage of the ordinance, the council may,

in its discretion, submit such recall at such regular municipal election. If a vacancy occurs in said office after a recall petition is filed, the election shall nevertheless proceed as in this section provided.

One procedure sufficient.

SEC. 5. One petition is sufficient to propose a removal and election of one or more elective officials, and one election is competent for the removal and election of one or more elective officials.

Nominations

SEC. 6. Nominations for any office under such recall election shall be made by petition in the manner prescribed by the charter of the city, if any, for the nomination of candidates for all elective officers before primary elections, and in the absence of charter provisions such nominations shall be made by petition in the manner prescribed by section 1188 of the Political Code, except that no party affiliation of candidate, signer or verification deputy shall be given, nor shall the election as a convention delegate or participation in a primary election be any bar to signing such petition.

Reasons for recall.

SEC. 7. Upon the sample ballot there shall be printed in not more than two hundred words, the reasons set forth in the recall petition for demanding the recall of the officer, and upon the same ballot in not more than two hundred words the officer may justify his course in office.

Form of ballot.

SEC. 8. There shall be printed on the recall ballot, as to every officer whose recall is to be voted on thereat, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office of (title of the office)?" following which question shall be the words "Yes" and "No" on separate lines with a blank space at the right of each, in which the voter shall indicate by stamping a cross (+) his vote for or against such recall. On such ballots, under each such question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the person recalled, in case he shall be removed from office by said recall election, but no vote shall be counted for any candidate for said office unless the voter also voted on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office.

Votes necessary to recall.

SEC. 9. If a majority of those voting on the question of the recall of any incumbent from office shall vote "No" said incumbent shall continue in said office. If a majority shall vote "Yes" said incumbent shall thereupon be deemed removed from such office, upon the qualification of his successor. The canvassers shall canvass all votes for candidates for said office and declare the result in like manner as in a regular election. If the vote at any such recall election shall recall the officer, then the candidate who has received the highest number of votes for the office shall be declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within ten days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law.

Restrictions on recalled officer

SEC. 10. No person who has been recalled, or who has resigned from office while recall proceedings were pending against him, shall be appointed to any office within one year after such resignation or recall. The successor of any officer so recalled shall hold office during the unexpired term of his predecessor subject to removal under the provisions of this act.

An act to amend section 1168 of the Penal Code, relating to sentences, imprisonments and paroles of prisoners.

[Approved by the Governor June 10, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

Stats 1931, p 1053

SECTION 1. Section 1168 of the Penal Code is hereby amended to read as follows:

Imprisonment

1168. (1) Imprisonment. Every person convicted of a public offense, for which imprisonment in any reformatory or State prison is now prescribed by law shall, unless such convicted person be placed on probation, a new trial granted, or the imposing of sentence suspended, be sentenced to be imprisoned in a State prison, but the court in imposing the sentence shall not fix the term or duration of the period of imprisonment.

It is hereby made the duty of the warden of any of the State prisons to receive such person, who shall be imprisoned until duly released as provided for in this section. The term of imprisonment shall not exceed the maximum or be less than the minimum term of imprisonment provided by law for the public offense of which such person was convicted.

Term

Determination of term

The State Board of Prison Directors, or any board or commission that may be hereafter given authority so to do, shall determine after the expiration of the minimum term of imprisonment provided by law, except that in cases in which the minimum term of imprisonment is more than six months, the State Board of Prison Directors may determine after the expiration of six months from and after the actual commencement of such imprisonment, what length of time, if any, such person shall be imprisoned, unless the sentence be sooner terminated by commutation or pardon by the Governor of the State.

Cumulative or consecutive sentences

When a prisoner has imposed upon him two or more cumulative or consecutive sentences, the State Board of Prison Directors may determine after the expiration of six months of his first sentence, what length of time he shall serve on all such cumulative or consecutive sentences.

Change of order of determination

In case any convicted person undergoing sentence in any of the State prisons commits any infraction of the rules and regulations of the prison board, or escapes while working outside

such prison under the surveillance of prison guards, the Board of Prison Directors may revoke any order theretofore made determining the length of time such convicted person shall be imprisoned, and make a new order determining such length of time not exceeding the maximum penalty provided by law for the offense for which he was convicted, unless the sentence be sooner terminated by commutation or pardon by the Governor of the State. Such revocation and redetermination shall not be had except upon a hearing upon the question of such infraction or escape and an adjudication by the board that such prisoner was guilty thereof, which adjudication shall be final. At such hearing such prisoner, unless outside the walls of the prison as an escape and fugitive from justice, shall be present and entitled to be heard and may present evidence and witnesses in his behalf.

Persons whose terms have not been shortened

Any convicted person undergoing sentence in any of the State prisons, not sooner released under the provisions of this section shall, in accordance with the provisions of existing law, be discharged from custody on serving the maximum punishment provided by law for the offense of which such person was convicted.

Certain minimum penalties

(2) Certain Minimum Penalties. The following shall be the minimum term of sentence and imprisonment in certain cases, notwithstanding any other provisions of this code, or any provision of law specifying a lesser sentence:

(a) For a person not previously convicted of a felony, but armed with a deadly weapon either at the time of his commission of the offense, or a concealed deadly weapon at the time of his arrest, five years;

(b) For a person previously convicted of a felony either in this State or elsewhere, and armed with a deadly weapon, either at the time of his commission of the offense, or a concealed deadly weapon at the time of his arrest, ten years;

(c) For a person previously convicted of a felony either in this State or elsewhere, but not armed with a deadly weapon at the time of his commission of the offense, or a concealed deadly weapon at the time of his arrest, five years.

(d) For a person convicted at one trial of more than one felony, and upon whom are imposed cumulative or consecutive sentences the aggregate of the minimum terms of which exceed ten years, ten years.

"Deadly weapon" defined

The words "deadly weapon" as used in this section are hereby defined to include any instrument or weapon of the kind commonly known as a blackjack, slung shot, billy, sand club, sandbag, metal knuckles, any dirk, dagger, pistol, revolver or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade and any metal pipe or bar used or intended to be used as a club.

Good credits.

(3) Good Credits. The State Board of Prison Directors shall require of every able-bodied prisoner imprisoned in any State prison as many hours of faithful labor in each and every

day during his term of imprisonment as shall be prescribed by the rules and regulations of the prison.

In all cases there may be allowed to apply upon the term of imprisonment fixed such credits for meritorious conduct and diligent labor as are or may be authorized by law.

Reductions from term.

Except as otherwise provided in this section, every prisoner who has committed no infraction of the rules or regulations of the prison, or the laws of the State, and who performs in a faithful, diligent, industrious, orderly and peaceable manner the work, duties and tasks assigned to him to the satisfaction of the prison officials, and in whose behalf the warden of the prison shall file a report certifying that his conduct and work have been meritorious and recommending allowance of time credits to him, shall upon, but not until, the adoption of such recommendation by the State Board of Prison Directors, be allowed time credit reductions from the end of his term of confinement as fixed by the board of directors (instead of and in lieu of such time credits as were heretofore allowed by law) a deduction of two months in each of the first two years, four months in each of the next two years, and five months in each of the remaining years of said term, and correspondingly for any part of the year, where such term of confinement is for more or less than a year. The mode of reckoning credits, recommended by the warden and allowed by the Board of Prison Directors, shall be as shown by the following table:

Table.

Number of years of sentence	Good time that may be earned	Total good time that may be earned	Time to be served if full credits are earned and allowed
1st year	2 months	2 months	10 months
2d year	2 months	4 months	1 year 8 months
3d year	4 months	8 months	2 years 4 months
4th year	4 months	1 year	3 years
5th year	5 months	1 year 5 months	3 years 7 months
6th year	5 months	1 year 10 months	4 years 2 months
7th year	5 months	2 years 3 months	4 years 9 months
8th year	5 months	2 years 8 months	5 years 4 months
9th year	5 months	3 years 1 month	5 years 11 months
10th year	5 months	3 years 6 months	6 years 6 months

And so on, through as many years as may be the time of confinement.

Forfeiture of credits

If any convict shall assault any keeper, guard, foreman, officer, convict or other person, or threaten or endanger the person or life of anyone, or violate or disregard any prison rule or regulation, or neglect or refuse to do the work to which he is assigned, or be guilty of any misconduct, or violate any of the rules or regulations governing parole, the board of prison directors may declare a forfeiture of all time credits theretofore earned by or allowed to him before the commission of such offense, and/or all time credits which he may thereafter earn, or the board of prison directors may forfeit such

part of such time credits as they may determine; such forfeitures, however, shall be made only by the board of directors after due proof of the offense and notice to the offender unless such offender be outside the walls of the prison as an escape and fugitive from justice, and the board may restore time credits forfeited for good cause shown, and may allow extra credits for extra meritorious conduct and industry.

Parole. (4) Parole. The State Board of Prison Directors shall have power to establish rules and regulations under which any prisoner who is now, or who hereafter may be imprisoned in any of the state prisons, and who has served the period of time prescribed by this section, may be allowed to go upon parole outside the prison buildings and inclosures.

Board of directors.

SEC. 13. The affairs of the association shall be managed by a board of not less than three directors, elected by the members or stockholders from their own number.

(b) Primary elections shall be held to nominate directors. Where the by-laws provide that the territory in which the association has members shall be divided into districts, the by-laws may also provide that the results of the primary elections in the various districts shall be final and must be ratified at the annual meeting of the association.

(c) The territory in which the association has members shall be divided into districts, and that the directors shall be elected by representatives or advisors, who themselves have been elected by the members or stockholders from the several territorial districts. In any such case, the by-laws shall specify the number of representatives or advisors to be elected by each district, the manner and method of reapportioning

the representatives or advisors and of redistricting the territory covered by the association.

(d) Directors shall be elected for terms of from one to five years; provided, that at each annual election the same fraction of the total number of directors shall be elected as the year bears to their term of office.

They shall also elect a secretary and a treasurer, who need not be directors or members of the association; and they may combine the two latter offices and designate the combined office as secretary-treasurer; or unite both functions and titles in one person. The treasurer may be a bank or any depository and as such, shall not be considered as an officer, but as a function of the board of directors. In such case, the secretary shall perform the usual accounting duties of the treasurer, excepting that the funds shall be deposited only as and where authorized by the board of directors.

Stock.

No association shall issue a certificate for stock to a member until it has been fully paid for. The promissory notes of the members may be accepted by the association as full or partial payment. The association shall hold the stock as security for the payment of the note; but such retention as security shall not affect the member's right to vote. An association, in its

by-laws, may limit the amount of common stock which one member may own.

The by-laws shall prohibit the transfer of the common stock or membership certificates of the associations to persons not engaged in the production of the products handled by the association; and such restrictions must be printed upon every certificate of stock subject thereto. The association may, at any time, as specified in the by-laws, except when the debts of the association exceed fifty per cent of the assets thereof, buy in or purchase its common stock at the book value thereof, as conclusively determined by the board of directors, and pay for it in cash within one year thereafter. Transfers.

No member or stockholder shall be liable for the debts of the association to an amount exceeding the sum remaining unpaid on his membership fee or his subscription to the capital stock, including any unpaid balance on any promissory note given in payment thereof. Liability for debts.

SEC. 19. Any member may bring charges against an officer or director by filing them in writing with the secretary of the association, together with a petition signed by five per cent of the members, requesting the removal of the officer or director in question. The removal shall be voted upon at the next regular or special meeting of the association and, by a vote of a majority of the members, the association may remove the officer or director and fill the vacancy. The director or officer, against whom such charges have been brought, shall be informed in writing of the charges previous to the meeting and shall have an opportunity at the meeting to be heard in person or by counsel and to present witnesses; and the person or persons bringing the charges against him shall have the same opportunity. Removal of officer or director.

In case the by-laws provide for election of directors by districts with primary elections in each district, then the petition for removal of a director must be signed by twenty per cent of the members residing in the district from which he was elected. The board of directors must call a special meeting of the members residing in that district to consider the removal of the director; and by a vote of the majority of the members of that district, the director in question shall be removed from office.

SEC. 20. The association and its members may make and execute marketing contracts, requiring the members to sell, for any period of time, not over fifteen years, all or any specified part of their fishery products or specified commodities exclusively to or through the association, or any facilities to be created by the association. If they contract a sale to the association, it shall be conclusively held that title to the products passes absolutely and unreservedly, except for recorded liens, to the association upon delivery; or at any other specified time if expressly and definitely agreed in the said contract. The contract may provide that the association may sell or resell the fishery products delivered by its members, with or without Marketing contracts.

taking title thereto; and pay over to its members the resale price, after deducting all necessary selling, overhead and other costs and expenses, including interest on preferred stock, not exceeding eight per cent per annum, and reserves for retiring the stock, if any; and other proper reserves; and interest not exceeding eight per cent per annum upon common stock.

Provisions

SEC. 21. The by-laws or the marketing contract may fix, as liquidated damages, specific sums to be paid by the member or stockholder to the association upon the breach by him of any provision of the marketing contract regarding the sale or delivery or withholding of fishery products; and may further provide that the member will pay all costs, premiums for bonds, expenses and fees, in case any action is brought upon the contract by the association; and any such provisions shall be valid and enforceable in the courts of this State; and such clauses providing for liquidated damages shall be enforceable as such and shall not be regarded as penalties.

Injunctive relief

SEC. 22. In the event of any such breach or threatened breach of such marketing contract by a member the association shall be entitled to an injunction to prevent the further breach of the contract and to a decree of specific performance thereof. Pending the adjudication of such an action and upon filing a verified complaint showing the breach or threatened breach, and upon filing sufficient bond, the association shall be entitled to a temporary restraining order and preliminary injunction against the member.

Presumption as to landlords and lessors

SEC. 23. In any action upon such marketing agreements, it shall be conclusively presumed that a landlord or lessor is able to control the delivery of fishery products produced by his equipment by tenants, or others, whose tenancy or possession or work on such equipment or the terms of whose tenancy or possession or labor thereon were created or changed after execution by the landlord or lessor, of such a marketing agreement; and in such actions, the foregoing remedies for nondelivery or breach shall lie and be enforceable against such landlord or lessor.

Purchases by association

SEC. 24. Whenever an association, organized hereunder with preferred shares of stock, shall purchase the stock or any property, or any interest in any property of any person, it may discharge the obligations so incurred, wholly or in part, by exchanging for the acquired interest, shares of its preferred stock to an amount which at par value would equal the fair market value of the stock or interest so purchased, as determined by the board of directors. In that case the transfer to the association of the stock or interest purchased shall be equivalent to payment in cash for the shares of stock issued.

Conflicting provisions

SEC. 25. Any provisions of law which are in conflict with this chapter shall not be construed as applying to the associations herein provided for. Any exemptions under any and all existing laws applying to fishery products in the possession or under the control of the individual producer, shall apply similarly and completely to such fishery products deliv-

ered by its members, in the possession or under the control of the association.

Membership in other corporations.

SEC. 26. An association may organize, form, operate, own, control, have an interest in, own stock of, or be a member of any other corporation or corporations, with or without capital stock and engaged in preserving, drying, processing, canning, packing, storing, handling, shipping, utilizing, manufacturing, marketing or selling of the fishery products handled by the association, or the by-products thereof.

Warehouse receipts

If such corporations are warehousing corporations, they may issue legal warehouse receipts to the association against the commodities delivered by it, or to any other person and such legal warehouse receipts shall be considered as adequate collateral to the extent of the usual and current value of the commodity represented thereby. In case such warehouse is licensed or licensed and bonded under the laws of this State or the United States, its warehouse receipt delivered to the association on commodities of the association or its members, or delivered by the association or its members, shall not be challenged or discriminated against because of ownership or control, wholly or in part, by the association.

Merger and consolidation.

Any two or more corporations organized hereunder may be merged into one such constituent corporation or consolidated into a new corporation, such merger or consolidation to be made in the manner prescribed by the general laws of the State covering domestic corporations.

Cooperative agreements

SEC. 27. Any association may, upon resolution adopted by its board of directors, enter into all necessary and proper contracts and agreements and make all necessary and proper stipulations, agreements and contracts and arrangements with any other cooperative or other corporation, association or associations, formed in this or in any other State, for the cooperative and more economical carrying on of its business or any part or parts thereof. Any two or more associations may, by agreement between them, unite in employing and using or may separately employ and use the same personnel, methods, means and agencies for carrying on and conducting their respective business.

Contracts declared legal

SEC. 28. Any association organized hereunder shall be deemed not to be a conspiracy nor a combination in restraint of trade nor an illegal monopoly; nor an attempt to lessen competition or to fix prices arbitrarily or to create a combination or pool in violation of any law of this State; and the marketing contracts and agreements between the association and its members and any agreements authorized in this act shall be considered not to be illegal nor in restraint of trade nor contrary to the provisions of any statute enacted against pooling or combinations.

Corporation laws applicable.

SEC. 29. The general corporation laws of this State and all powers and rights thereunder, shall apply to the associations organized hereunder, except where such provisions are

in conflict with or inconsistent with the express provisions of this act.

Exempt from Corporate Securities Act. Stats 1917, p. 673.

SEC. 30. No corporation organized or existing under or by virtue of the terms and provisions of this act shall be subject in any manner to the terms of the Corporate Securities Act of the State as approved May 18, 1917, or as amended, and any and all corporations organized under and by virtue of the terms of this act may and shall issue their membership certificates or stock or other securities as provided herein without the necessity of any permit from the Commissioner of Corporations.

Contracts specifically enforceable.

SEC. 31. A contract entered into by a member or stockholder of a nonprofit cooperative association or corporation, providing for the delivery to such association or corporation of products produced or acquired by the member or stockholder, may be specifically enforced by the association or corporation to secure the delivery to it of such fishery products, any provisions contained in the Civil Code to the contrary notwithstanding.

other powers and duties imposed upon it by law, is hereby authorized and directed to carry out the provisions of this act.

Employees. SEC. 2. The commission may appoint and prescribe the duties of such employees as it deems necessary to carry out the purposes of this act, and, in accordance with law, it may fix the compensation of such employees. It may adopt such rules and regulations as it deems necessary to carry out the provisions of this act and to properly conduct its affairs.

Investigation of applying districts SEC. 4. Upon application of any irrigation or reclamation district organized and existing under the laws of the State of California, the commission shall make a full and thorough investigation of the affairs of the district to determine whether it is desirable and feasible for the State to assist the district in refunding any issue of outstanding bonds thereof.

SEC. 5. Each such investigation shall develop sufficient information to enable the commission to determine the feasibility and economic soundness of the extension of State aid to the district in refunding any issue of its bonds, under the provisions of this act, and the price which it is reasonable for the State to pay for such outstanding bonds.

Expense of investigation The expense of such investigation shall be a charge against the district, but may be refunded to the district by the commission out of any excess interest received by the State on the district bonds over and above the interest paid by the State, after deducting all expenses paid by the commission in making such investigation.

Powers of commission. SEC. 6. In connection with any investigation conducted hereunder, the commission shall have the right to inspect books and records, and the commission or any member thereof shall have power to administer oaths, certify to official acts, issue subpenas for the attendance of witnesses, for the production of papers, books, accounts, documents and testimony, in any part of the State, and exercise all of the powers conferred upon the head of a department by the provisions of section 353 of the Political Code. Following such investigation, a report thereof shall be filed with the commission, whereupon the commission shall make its findings and recommendations in writing based on such report. A copy of such recommendations and findings shall also be filed in the office of the commission and a copy forwarded to the secretary of the district. The commission, if it finds in favor of the extension of State aid to the district in refinancing of the district hereunder, and if, within a time

to be fixed by the commission, the governing board of the district adopts a plan for the refunding of the outstanding bonds of the district in all respects in conformity to the findings and recommendations pertaining thereto made by the commission, shall give notice by publication in one newspaper of general circulation published in the City and County of San Francisco, one such newspaper published in the city of Oakland, and one such newspaper published in the city of Los Angeles, once a week for two consecutive weeks, that the State offers to purchase all or substantially all of any issue of the outstanding bonds of the district at the price fixed in the report and designated in the notice. The price shall in no instance exceed the par value of the bonds to be so purchased. The bonds shall be deposited in escrow with the State Treasurer, who is hereby authorized to receive and hold the same pursuant to the refunding plan and to issue his receipt therefor in the form of a negotiable certificate of deposit in accordance with said plan. SEC. 8. The agreement under which the bonds are deposited may contain a provision that the time in which bonds may be deposited may be extended by the commission, and if so, the commission is authorized to extend such time. The commission shall have sole discretion to determine whether or not, within such time, sufficient of the outstanding bonds of the district have been deposited to insure a substantial refunding of the issue proposed to be refunded If the commission so determines, it shall notify the district of the fact.

Issuance of district refunding bonds

SEC. 9. Thereupon the district may proceed with the issuance of refunding bonds of the district, in accordance with the procedure therefor prescribed in the laws applicable to such district, in their present form or as they may hereafter be amended, in so far as consistent with this act. The commission shall also prescribe the rate or rates of interest and the time or times of semiannual payment thereof. In the case of each issue of refunding bonds, the rate of interest shall be one-fourth of one per cent in excess of the rate on the State bonds issued to provide funds for the purchase of the bonds to be refunded.

Sale of State bonds.

SEC. 10. If, within a time to be specified by the commission after receipt of the notice prescribed in section 8 hereof, the district duly issues and delivers to the commission refunding bonds of the district of the amount and in conformity with the terms and conditions prescribed therefor under the pro-

visions hereof, the commission shall proceed hereunder with the issuance and sale of the requisite amount of bonds of the State to provide funds for the purchase of outstanding bonds of the district and the exchange thereof for said refunding bonds of the district.

SEC. 11. For the purpose of creating a fund to provide for assistance by the State in the refinancing of districts in accordance with the provisions of this act, the commission is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the manner and to the extent hereinafter provided, but not otherwise nor in excess thereof.

State bonds-Maturity.

SEC. 14. In determining the date or dates of maturity of the State bonds and the amount of such bonds maturing at each date of maturity, the commission shall be guided by the amounts and dates of maturity and the receipts estimated to accrue to the State from the refunding bonds of the district or districts to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on said bond issue, they shall coincide as nearly as practicable with the dates and amounts of such estimated receipts; provided, that the bonds last to mature in each issue shall mature not later than forty years from the date of issuance.

SEC. 15. The rate of interest to be borne by said State bonds shall be uniform for all the bonds of the same issue and shall be fixed by the commission according to the then prevailing market conditions, but shall in no case exceed five per cent per annum. The determination of the commission as to the rate of interest shall be conclusive as to the then prevailing market conditions. The interest coupons to be attached to the bonds shall be payable at semiannual intervals from the date of issuance of the bonds, but the interest coupons first payable may, if the commission so determines and specifies, be payable one year after the date of issuance of the bonds.

The bonds so issued shall bear interest from the date of issuance to the date of maturity thereof at the rate determined by the commission and specified in such resolution, but in no case exceeding five per cent per annum. Both principal and interest shall be payable in gold coin of the United States of the present standard of value, at the office of the State Treasurer or at the office of any duly authorized agent of the State Treasurer, and shall be so payable at the times specified in the resolution.

The bonds so signed, countersigned, endorsed and sealed, when sold, shall be and constitute a valid and binding obligation upon the State of California, although the sale thereof be made at a date or dates upon which the officers having signed, countersigned and indorsed said bonds or any or either of said officers shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning or indorsing the same.

Interest ceases after maturity.

SEC. 18. Each bond of the State issued under this act shall contain a clause or clauses stating that interest shall cease to accrue thereon from and after the date of maturity thereof, and referring to this act and to the resolution of the commission by virtue of which the bond is issued.

Interest coupons.

SEC. 19. The requisite number of suitable interest coupons, appropriately numbered, shall be attached to each bond of the State issued under this act. The interest coupons shall bear the facsimile signature of the State Treasurer who is in office on the date of issuance of the bonds to which the coupons pertain.

SEC. 20. When bonds of the State authorized to be issued under this act are duly executed, they shall be sold at public auction by the State Treasurer to the highest bidder for cash, in such parcels and numbers as the commission shall direct. The State Treasurer must reject any and all bids for such bonds or any of them which are below the par value of the bonds so offered plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. He may with the approval of the commission, and at its direction shall from time to time, by public announcement, at the time and place fixed for the sale, continue the sale as to the whole or any part of the bonds offered to such time and place as he may select. Before offering any of the bonds for sale he shall detach therefrom all coupons which have matured or will mature before the day fixed for such sale.

SEC. 21. Due notice of the time and place of sale of all bonds issued by the State hereunder must be given by the State Treasurer by publication in one newspaper of general circulation published in the City and County of San Francisco, in one such newspaper published in the city of Oakland and in one such newspaper published in the city of Los Angeles, once a week during four weeks prior to such sale. In addition to such notice, he may give such further notice as he deems advisable, but the cost of such additional notice shall not exceed the sum of five hundred dollars for each sale so advertised.

Proceeds of sale.

SEC. 22. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by the State Treasurer into the district finance fund, which fund is hereby created, and must be used exclusively in assisting in the refunding of district bonds in accordance with the provisions of this act; except, that the proceeds from the sale of the bonds may be used to pay the debt created by the issuance and sale thereof.

SEC. 25. There is hereby appropriated from the general fund in the State treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this act as said principal and interest become due and payable.

Collection of additional revenues

SEC. 26. There shall be collected annually, in the same manner and at the same time as other State revenue is collected, such a sum, in addition to the ordinary revenues of the State, as will be required to pay the principal and interest on said bonds of the State as herein provided. It is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue to do and perform each and every act which shall be necessary to collect such additional sum.

Transfers to general fund.

SEC. 27. On the several dates of maturity of said principal and interest in each fiscal year, there shall be returned into the general fund in the State treasury all moneys in the specific fund into which the proceeds from the sale of said bonds of the State have been covered as herein prescribed, not in excess of the principal of and interest on said bonds then due and payable. If such moneys so returned on said dates of maturity are less than the principal and interest then due and payable, then the balance remaining unpaid shall be returned into the general fund in the State treasury out of said specific fund as soon thereafter as it shall become available, together with interest thereon from such dates of maturity until so returned at the rate of four per cent per annum.

The moneys to be returned into the general fund pursuant to the provisions of section 27 hereof shall likewise be paid as herein provided upon warrants duly drawn by the State Controller upon demands duly audited in accordance with law.

Issuance of additional district bonds unlawful

SEC. 30. It shall be unlawful for any district, the bonds of which have been refunded in accordance with the provisions of this act, to issue any additional bonds so long as any of the refunding bonds so issued remain outstanding, without the consent of the commission. Whenever any district shall have outstanding any of the bonds issued pursuant to this act, such district shall render such reports to the commission as the commission shall from time to time require and if, at any time. the governing board of any district shall fail or neglect to levy any assessment and/or make any call thereof necessary to be made in order to carry out any provision of this act, the commission shall have and is hereby expressly given all of the respective powers of the district and/or county officials in the matter of levying, calling and/or collecting such amount.

SEC. 31. Out of any money in the State treasury not otherwise appropriated, the sum of ten thousand dollars is hereby appropriated to be expended in accordance with law in carrying out the provisions of this act. Of said sum, not exceeding five thousand dollars may be used to pay the expenses of the State Treasurer in preparing and advertising bonds of the State issued hereunder, the amount so used to be refunded to the general fund in the State treasury out of the specific fund into which the proceeds of such bonds are covered, on Controller's warrants drawn for this purpose. The balance of said sum shall be available for administrative expenses alone until such time as other moneys are available for such purposes derived from the excess of interest on district refunding bonds over the amount of interest on bonds of the State issued hereunder. The excess of interest received by the State on refunding bonds over the interest paid by the State on State bonds issued under this act is hereby appropriated and may be used for the support of the commission. In paying expenses of the commission the Controller shall resort, first, to such excess moneys and, second, to any funds appropriated from the general fund for the support of the commission.

ment to be paid on or before March 1, 1934, and each succeeding installment on or before March first of the year in which such installment is due. No other amount shall be required to be paid in order to effect such redemption either by way of penalties for delinquencies, redemption penalties or costs. This act is not intended to repeal or modify any of the provisions of the California Irrigation District Act, nor any of the provisions of the Palo Verde Irrigation District Act, as amended, except as to those sales for delinquent assessments made prior to April 1, 1933.

Applicability of other provisions.

SEC. 2. In the event that such property is not redeemed in accordance with section 1 of this act such property can be redeemed only in accordance with the provisions of law which would govern the redemption of such property but for the provisions of this act, and any moneys paid pursuant to the provisions of section 1 of this act shall be credited on the amount necessary for redemption.

Effect of act.

SEC. 3. This act shall not be construed to affect taxes accruing after April 1, 1933, on any property subject to the provisions of this act.

Emergency.

SEC. 4. The Legislature hereby declares that a public emergency of grave character now exists which requires the enactment of the foregoing legislation under the exercise of the police power of the State and in order to conserve the public welfare.

The following is a statement of facts constituting the emergency:

Due to the agricultural depression which has existed for the past several years, many landowners in irrigation districts in the State have been unable to meet their annual taxes and assessments with the result that their land has been sold to the district. The heavy penalties necessary to be paid as now provided by law, and which continually increase, makes it impossible for the landowner to redeem his land and thousands of landowners are now threatened with the loss of their land. If the land is not redeemed and it is deeded to the district, it then becomes nonassessable for district purposes, and the burden becomes all the heavier on the other landowners in the district, causing more delinquency and loss. The Legislature hereby declares that the welfare of the State requires that the landowner in these districts be not dispossessed of his land, and that the land be redeemed so as to thenceforth bear its just proportion of taxation.

[Approved by the Governor June 12, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

SECTION 1. That section 26a of an act entitled "An act to provide for the laying out, opening, extending, widening, straightening, establishment or change of grade, in whole or in part, of public highways, roads, streets, squares, lanes, alleys, courts, and places, within municipalities, or within unincorporated territory and one or more municipalities, or lying within two or more municipalities; for the condemnation of property necessary or convenient for such purposes, or of any interest therein, and for the establishment of assessment districts and the assessment of property therein to pay the expense of such improvement, and providing for aid from the county or municipalities toward the expense of such improvement," approved March 24, 1903, is hereby amended to read as follows: Stats 1913, p. 420.

Sec. 26a. Whenever any assessment heretofore made or issued or filed or which may be hereafter made, issued or filed in the office of the city clerk, or whenever any bond or bonds issued to represent the amounts of any such assessments in accordance with the provisions of "An act providing for the issuance of improvement bonds to represent certain special assessments for public improvements, and providing for the effect and enforcement of such bonds, approved April 27, 1911, and all acts supplementary thereto or amendatory thereof, have been set aside by any court of competent jurisdiction or such court has refused to enforce any assessment or has decreed any such bond or bonds issued under the above-mentioned statute, approved April 27, 1911, not to constitute valid and subsisting liens against the lots, pieces or parcels of land upon which the assessments represented by them have been levied; that is to say, if for any reason such assessments and/or bonds shall not have been or shall not be effective through the curative and waiver provisions of this statute and/or the curative and waiver provisions of the above-mentioned statute, approved April 27, 1911, or any curative act that may be or may have been passed by the Legislature in relation thereto to make them valid and enforceable, then in any of such events a reassessment therefor must be issued. The true intent and meaning of this section is to make the cost and expense of the improvements made or attempted to be made through an attempted compliance with this act payable by the real property benefited by such work or improvement by making a reassessment therefor. Such power of reassessment embraces both a full and partial New assessment when first one set aside. Stats. 1911, p 1192 Reassessment.

When ordered

reassessment and is not exhausted by a single attempted exercise thereof. A reassessment shall be ordered under any one of the following circumstances:

First: Where the owner or holder of any assessments or bonds issued to represent or be secured by assessments requests the legislative body of the city in which the assessment has been or shall be made, filed or issued, to order a reassessment. In such event if such legislative body be of the opinion that the assessments or bonds in question are not enforceable it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner or the assessments represented or secured by the bonds owned or held by such petitioner.

Second: Whenever any court of competent jurisdiction in any suit involving the validity of the obligation of any bond or assessment has for any reason held the lien of the assessment and/or bond to be unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Third: Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment or in any suit to quiet title against the lien of any such assessment or bond or in any suit to enjoin the making, filing, confirmation or issuance of any assessment or bond to pay for the cost and expenses of any work done hereunder, shall in its judgment decree such assessments or bonds to be void or unenforceable or shall enjoin the making, filing or issuance or confirmation of any such assessment or bond, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Fourth: Whenever the lien of any assessment or bond has been or shall hereafter be foreclosed or attempted to be foreclosed by sale by the city treasurer as provided in this act or in the statute hereinbefore mentioned, approved April 27, 1911, and thereafter any court of competent jurisdiction in any suit contesting the validity and legal force and effect of such sale shall in its judgment decree such sale to be void or unenforceable for any reason, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit

Manner of making, issuing and enforcing reassessment.

The manner of making, issuing and enforcing the reassessments shall be as follows:

The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, proceed to make a reassessment in the following manner:

If the reassessment be a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. If it be a full reassessment, however, then the superintendent of streets shall prepare and file with the reassessment a diagram showing the

lots, pieces or parcels of land deemed by him to have been benefited by the work or improvement. The reassessment shall assess upon and against each of the lots, pieces or parcels of land contained therein an amount arrived at as follows: The benefits derived, or to be derived by each of said lots, pieces or parcels of land from the work or improvement estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed. Then there shall be added thereto interest thereon from thirty days after the date of such filing of the original assessment at the rate of seven per cent per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost and expenses of the work or improvement. Such assessment need not be in any prescribed form, but shall refer to the original assessment filed, give the date of filing of said original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time must be at least twenty days after the reassessment is so presented. The city clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the ordinance of intention for the improvement for which the assessment was made was published unless the legislative body directs publication in some other paper. If the reassessment is to be against the property in a district, then this fact shall be set forth and the assessment diagram referred to for particulars. Such notice shall be published for five insertions, if the paper be a daily, or by two insertions if the paper be published less frequently. At the time fixed for said hearing, or at such time or times to which the same may be thereafter adjourned, the legislative body shall consider the objections to said reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot, piece or parcel of land thereby benefited the amount of the actual benefits derived from said improvement. When such reassessment shall have been revised, or corrected, or modified so as to comply with the judgment of said legislative body, then it shall pass a resolution confirming the reassessment. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city clerk, that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the same together with

[Approved by the Governor June 12, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

SECTION 1. Section 43 of the act cited in the title hereof is hereby amended to read as follows: Stats 1927, p. 1215.

43. (a) No public road, highway or street shall hereafter be constructed across the track of any railroad corporation at grade, nor shall the track of any railroad corporation be constructed across a public road, highway or street at grade, nor shall the track of any railroad corporation be constructed across the track of any other railroad or street railroad corporation at grade, nor shall the track of a street railroad corporation be constructed across the track of a railroad corporation at grade, without having first secured the permission of the commission; provided, that this subsection shall not apply to the replacement of lawfully existing tracks. The commission shall have the right to refuse its permission or to grant it upon such terms and conditions as it may prescribe. Grade crossings.

(b) The commission shall have the exclusive power to determine and prescribe the manner, including the particular point of crossing, and the terms of installation, operation, maintenance, use and protection of each crossing of one railroad by another railroad or street railroad, and of a street railroad by a railroad, and of each crossing of a public or publicly used road or highway by a railroad or street railroad, and of a street by a railroad or vice versa, subject to the provisions of section 2694 of the Political Code so far as applicable, and to alter, relocate or abolish by physical closing any such crossing heretofore or hereafter established, and to require, where in its judgment it would be practicable, a separation of grades at any such crossing heretofore or hereafter established and to prescribe the terms upon which such separation shall be made and the proportions in which the Powers of commission. Stats Ex Sess 1911, p 138.

expense of the construction, alteration, relocation or abolition of such crossings or the separation of such grades shall be divided between the railroad or street railroad corporations affected or between such corporations and the State, county, municipality or other political subdivision affected. It shall be the duty of each corporation and political subdivision to which any of the expense is apportioned to pay from the funds available therefor in its treasury the amount apportioned to it at the time and to the parties specified by the order of the commission and if the same is not paid in accordance with the commission's order the corporation or political subdivision entitled thereto under the commission's order shall have the right to sue therefor in any court of competent jurisdiction. If no such funds are available as aforesaid, it shall be the duty of the appropriate boards, officers and employees intrusted with the levy and collection of the taxes or assessments of such political subdivision to do all acts necessary to include in the next succeeding tax or assessment levy the amount due and to collect the same, whereupon the amount due shall be paid over to the corporation or corporations, the State, political subdivision, or political subdivisions entitled thereto under the commission's order. The commission shall have the power by order to designate the State, certain of said corporations, and political subdivisions, affected, to do all or specified portions of the acts required by any order of the commission made under the provisions of this subsection, and to prescribe the manner and the time within which the parties so designated shall be paid or reimbursed by the other corporations, the State and political subdivisions among which the expense of the work has been apportioned by the commission.

Payment of expense

Tax levy.

Assessments against districts

If the legislative body of the political subdivision deems that special benefits will accrue from the separation of grades to a district or districts within such political subdivision, and has made a finding to such effect and that the cost thereof other than the portion to be paid by the railroad, interurban railroad or street railroad involved should be paid in whole by such district or districts or partly by such district or districts and partly by such political subdivision, then the commission shall have power to provide that such proportion of the total cost of such separation of grades including the acquisition of property, the damage to property or an interest therein as shall not be payable by the owners of the railroad, interurban railroad or street railroad involved, may be assessed upon a district or districts within such political subdivision or that a part thereof may be paid by such district and a part by such political subdivision in accordance with the finding of the legislative body of such political subdivision and that the physical work of making such grade separation as well as the proceedings for letting contracts therefor, collecting and enforcing the assessments and making payment for damages and for the acquisition of property shall be done

through the agency of such political subdivision in accordance with such statutory methods as may be provided. Power shall be given in and by the order of the commission to the officers of the political subdivision to enter upon so much of the right of way of the railroad, interurban railroad or street railroad as may be necessary to effect the physical grade separation.

Modification of order

If any order of the commission heretofore or hereafter made shall provide for the payment of a portion of the cost of any such grade separation by such political subdivision without authorizing the assessment of the same or any part thereof upon a benefited district, then the legislative body of such political subdivision may at any time thereafter apply to the commission to have such order modified in accordance with any finding made by such legislative body and the commission shall thereupon have the same power to make a new or modified order as if such application had been made to it before the making of such order.

Power to fix just compensation

(c) 1. The commission shall have power in accordance with the procedure provided in this subsection to fix the just compensation to be paid for property or any interest in or to property to be taken or damaged in the separation of grades at any crossing specified in subsection (b) hereof, or for property or any interest in or to property to be taken or damaged in the construction, alteration or relocation, under the order or with the approval of the commission, of elevated tracks or subways for any railroad or street railroad over or under any public road, street, highway or private right of way, or of any public road, street or highway over or under the tracks of any railroad corporation or street railroad corporation; and upon the payment of the just compensation so fixed to make a final order of condemnation as hereinafter provided.

2. Proceedings under subsection (c) hereof may be commenced by order on the commission's own motion or by a petition filed by the State, county, city and county, incorporated city or town, other political subdivision, railroad corporation, or street railroad corporation affected. Any proceeding commenced under this subsection may be made a part of any proceeding commenced under subsection (b) hereof. Said petition shall set forth the name and interest of the petitioner, and said order on the commission's own motion and said petition shall set forth a statement of the purpose of the proceedings and the use for which property or interest in or to property is sought to be taken, a description of each piece of land or other property or interest in or to property sought to be taken, and whether the same includes the whole or only a part of an entire parcel or tract or piece of property or interest in or to property and the names and addresses of all owners and claimants thereof, if known, or a statement that they are unknown, and a statement of each railroad corporation, the State and political subdivision which in the opinion of the commission or the petitioner has an interest in the pro-

Said petition shall be duly verified and at the time the same is filed with the commission the petitioner shall also file the additional copies thereof equal in number to three or more than the number of owners and claimants named in the petition

Verification.

Order to appear

3. Upon the filing of said petition with the commission or the making of said order on the commission's own motion, the commission shall make its order specifying the nature of the proceeding, containing a general description of the property and interest in or to property to be condemned, and directing the owners and claimants and the railroad corporations, street railroad corporations, and governmental authorities in interest named in said petition or order on the commission's own motion, who shall also be named in said order to show cause, to appear before the commission at a time and place specified in said order, to show cause, if any they have, why the commission should not proceed after hearing to fix the just compensation to be paid for the acquisition of or damage to the property and interest in or to property specified in said petition or order on the commission's own motion, to designate the party or parties to the proceeding who shall pay such compensation and the owners and claimants to whom such compensation shall be paid and to make its final order of condemnation. Said order to show cause shall direct the secretary of the commission to serve or cause to be served upon each said owner and claimant, railroad corporation, street railroad corporation and governmental authority in interest a copy of said order certified under the seal of the commission to which shall be attached a true and correct copy of the petition or order on the commission's own motion; provided, that when the proceeding is commenced by order on the commission's own motion said order to show cause may be incorporated in said order on the commission's own motion.

Personal service.

Personal service shall be made in accordance with the provisions of the Code of Civil Procedure of the State of California; provided, that service may also be made by depositing a copy of said order to show cause certified under seal of the commission with a true copy of the petition or order on the commission's own motion attached thereto or made a part thereof in the United States mail, inclosed in a sealed envelope, registered, with postage prepaid, addressed to each owner or claimant, railroad corporation, street railroad corporation and

governmental authority in interest named in said petition or order on the commission's own motion.

Service by publication.

If any owner or claimant named in the petition, or order on the commission's own motion resides out of the State or has departed from the State or can not after due diligence be found within the State, or conceals himself to avoid service, or is a corporation having no managing or business agent, cashier or secretary or other officer upon whom summons may be served, who, after due diligence, can not be found within the State, and the fact appears by affidavit to the satisfaction of the commission, and it also appears by such affidavit or by the petition or order on the commission's own motion that a cause of action exists against such owner or claimant on whom service is to be made and that he is a necessary or proper party to the proceeding, the commission may make an order that the service be made on such owner or claimant by publication of the commission's said order to show cause. Said order of the commission shall direct that the publication be made in a newspaper to be designated by the commission as likely to give notice to the owner or claimant to be served, and for such time as the commission may find to be reasonable, at least once a week, but publication against an owner or claimant residing out of the State or absent therefrom shall not be less than two months. If the address of any owner or claimant as stated in the petition or order on the commission's own motion is out of the State, the secretary of the commission shall within fifteen days after the making and filing of said order to show cause, deposit or cause to be deposited a copy of said order to show cause certified under the seal of the commission, with a true and correct copy of the petition or order on the commission's own motion attached thereto or made part thereof, in the United States mail, inclosed in a sealed envelope, registered, with postage prepaid, addressed to such owner or claimant at the address specified in the petition or order on the commission's own motion. Personal service of a copy of the order to show cause and of the petition or order on the commission's own motion out of the State is equivalent to publication and deposit in the United States mail.

Notice of hearing.

Within ten days prior to the time set for the first hearing on the petition or order on the commission's own motion, which time shall be not less than thirty days after the filing of said petition or the making of said order on the commission's own motion, the secretary shall serve or cause to be served upon the petitioner a written notice of such hearing, specifying the time and place at which such hearing shall be had. In all respects not in this paragraph otherwise provided, service and the proof of service shall be made as provided by the Code of Civil Procedure of the State of California. Upon the completion or service upon the petitioner or upon any owner or claimant, railroad corporation, street railroad corporation or governmental authority in interest

named in the petition or order on the commission's own motion, the commission shall have full and complete jurisdiction in so far as such petitioner, owner or claimant, railroad corporation, street railroad corporation, or governmental authority in interest is concerned, to make each finding hereinafter referred to, to fix the just compensation to be paid for the acquisition of or damage to any property or interest in or to property specified in the petition or order on the commission's own motion, to designate the party or parties to the proceeding who shall pay such compensation and the owner or claimant to whom such compensation shall be paid and to make its final order of condemnation. The failure to make such service upon any person alleging that he is an owner or claimant or party in interest but not named in the petition or order on the commission's own motion or to acquire jurisdiction over such person shall in no way affect the jurisdiction of the commission over owners and claimants and parties in interest on whom service has been made as in this paragraph provided.

Amendment of petition

The commission shall have power at any time subsequent to the filing of the petition, and prior to making and filing its finding of just compensation, to authorize the amendment of the petition, or in case the proceeding is by order on the commission's own motion to amend said order, by altering or modifying the description of said property, or interest in or to property, or by adding to or deducting from said property or interest in or to property, or by bringing in any additional party or parties and in each other respect including each jurisdictional allegation.

Hearing and finding.

4. At the time and place specified in said order to show cause, or at such other time and place as, for good cause, may be otherwise ordered by the commission, the commission shall proceed to a hearing upon the petition or order on the commission's own motion. When the proceeding has been submitted the commission shall make and file its finding upon the question whether the use to which the property or interest in or to property is to be applied is a use authorized by law and whether the taking is necessary to such use, and shall make and file its written finding and fixing the just compensation to be paid for said property or interest in or to property; provided, that if the commission finds that severance damages should be paid, the just compensation for such damages shall be found and stated separately. Said just compensation shall be fixed by the commission as of the day on which the petition was filed or the order on the commission's own motion was made. The commission shall also make its order designating the party or parties to the proceeding who shall pay the just compensation so fixed, or any portion thereof, the amounts in which it shall be paid, the times at which it shall be paid, the property or interest in or to property for which it shall be paid, and the owners and claimants of such property or interest in or to property to whom it shall be paid. The commission may prescribe any other terms or conditions with reference to the

payment of such compensation as to the commission may seem proper, including a provision that the money due be paid to the commission to be distributed to the parties entitled thereto. The party or parties whom the commission may designate to pay such compensation or any part thereof shall thereupon become liable therefor, and may be sued in any court of competent jurisdiction by the party or parties entitled to such compensation as provided in the commission's order; provided, that in cases in which the order of the commission authorizing any work to be done under the provisions of this section is permissive in character and not mandatory, the commission may prescribe the time within which the party receiving such permission must elect to proceed and notify the commission thereof, and only in the event such party elects to proceed and so notifies the commission shall any liability arise in such cases to pay the just compensation or any part thereof under the provisions of this subsection. When any political subdivision of the State is designated by the commission to pay such compensation or any portion thereof the same shall be collectible in the manner provided in subsection (b) hereof for the collection of expenses apportioned by the commission to political subdivisions of the State.

Final order of condemnation

5. When the just compensation has been paid in accordance with the commission's order made under the provisions of this subsection for property or interest in or to property, the commission shall make its final order of condemnation which must describe the property or interest in or to property condemned and the purpose of such condemnation. A copy of said order certified under the seal of the commission shall thereupon be filed in the office of the recorder of the county in which the property or interest in or to property therein described is situated, and thereupon the property or interest in or to property described therein shall vest in the parties and for the purposes specified in said order.

Finding is final.

6. The finding of the commission on the question of the necessity for the taking and the finding, fixing the just compensation to be paid for any property or interest in or to property under the provisions of this subsection shall be final and shall not be subject to modification, alteration, reversal or review by any court of this State. The provisions of this act with reference to rehearing and review shall be applicable to the findings of the commission made and filed under the provisions of this section. Petitions for rehearing must be filed within twenty days from the date of making and filing the finding as to which a rehearing is desired. If a finding of the commission made and filed under the provisions of this section is set aside by the Supreme Court of the State of California, the matter shall be referred back to the commission for further action in a proceeding before the commission, and the commission shall have the right, on taking further action, to consider the entire testimony theretofore taken in the proceeding before the commission as well as such further testimony, if any, as may be presented in connection with such further action.

Rehearing and review.

Procedure not exclusive.

7. The procedure provided in this section shall be alternative and cumulative and not exclusive to the right to pursue any other procedure now or hereafter establishing providing for the acquisition under eminent domain proceedings of property or interest in or to property.

Germane to jurisdiction

8. The Legislature hereby declares that subsection (c) hereof is enacted as a germane and cognate part of and as an aid to the jurisdiction of the Railroad Commission in the supervision and regulation of railroad and street railroad corporations.

Right to damages

9. Nothing in this section shall be construed to entitle any owner or claimant of property and interest in or to property to receive damages when the right to receive such damages does not exist under the laws of this State apart from the provisions of this section.

Germane to jurisdiction

(d) The Legislature hereby declares that subsections (a) and (b) hereof are, and each of them is, enacted as germane and cognate parts of and as aids to the jurisdiction vested in the Railroad Commission for the supervision, regulation and control of railroad and street railroad corporations in this State, and the Legislature hereby further declares that the authority and jurisdiction thus vested in the Railroad Commission involve matters of state-wide importance and concern and have been enacted in aid of the health, safety and welfare of the people of this State.

All vacancies occurring in the office of directors shall be filled by appointment by the remaining directors elected and the person so appointed shall have all of the qualifications necessary to be elected a director, and shall hold office during the unexpired term.

Each certificate shall contain the name of one candidate and no more. Each signer must be a qualified elector residing within said district, must not at the time of signing a certificate have his name signed to any other certificate for any other candidate for the same office, nor, in case there are several places to be filled in the same office, signed to more certificates for candidates for that office than there are places to be filled in such office. Each signer must verify his certificate and make oath that the same is true, before a notary public or a certification deputy, as provided for in this section. Each certificate shall further contain the name and address of the person to whom the petition is to be returned in case said petition is found insufficient.

The application shall set forth that the signers thereto desire to procure the necessary signatures of electors for the nomination of candidates for office in said county water district at an election therein specified, and that the applicants desire the person or persons whose names and addresses are given appointed as verification deputies, who shall upon appointment be authorized and empowered to take the oath of verification of the signers of petitions of nomination. Such verification deputies need not use a seal, and shall not have power to take oaths for any other purposes whatsoever, and their appointments shall continue only until all petitions of nomination, under this section, shall have been filed by the county clerk.

Presentation of petition.

(7) A petition of nomination, consisting of not less than twenty-five individual certificates for any one candidate, may be presented to the county clerk not earlier than forty-five days nor later than thirty days before the election. The county clerk shall endorse thereon the date upon which the petition was presented to him.

Examination of petition

(8) When a petition of nomination is presented for filing to the county clerk, he shall forthwith examine the same, and ascertain whether or not it conforms to the provisions of this section. If found not to conform thereto, he shall then and there in writing designate on said petition the defect or omission or reason why such petition can not be filed, and shall return the petition to the person named as the person to whom the same may be returned in accordance with this section. The petition may then be amended and again presented to the clerk as in the first instance. The clerk shall forthwith proceed to examine the petition as hereinbefore provided. If necessary, the board of supervisors shall provide extra help to enable the clerk to perform satisfactorily and promptly the duties imposed by this section.

Signer may withdraw name

(9) Any signer to a petition of nomination and certificate may withdraw his name from the same by filing with the county clerk a verified revocation of his signature before the filing of a petition by the clerk, and not otherwise. He shall then be at liberty to sign a petition for another candidate for the same office.

Candidate may withdraw

(10) Any person whose name has been presented under this section as a candidate may, not later than twenty-five days before the day of election, cause his name to be withdrawn from nomination by filing with the county clerk a request therefor in writing, and no name so withdrawn shall be printed upon the ballot. If, upon such withdrawal, the number of candidates remaining does not exceed the number to be elected, then other nominations may be made by filing petitions therefor not later than twenty-five days prior to such election.

Petition filed

(11) If either the original or amended petition of nomination be found sufficiently signed as hereinbefore provided, the clerk shall file the same twenty-five days before the date of the election. When a petition of nomination shall have been filed by the clerk it shall not be withdrawn or added to and no signature shall be revoked thereafter.

Petitions preserved

(12) The county clerk shall preserve in his office for a period of two years, all petitions of nomination and all certificates belonging thereto, filed under this section.

List of candidates

(13) Immediately after such petitions are filed, the county clerk shall enter the names of the candidates in a list, with the offices to be filled, and shall not later than twenty days before the election certify such list as being the list of candidates nominated as required by the provisions of this act, and the board of supervisors shall cause said certified list of names and the offices to be filled, to be published in a proclamation calling an election at least once a week for two successive weeks next before the day of the election, in some newspaper of general circulation published in the county water district and designated by the board of directors of the county water district. In case there is no newspaper of general circulation published in the district, such board of directors may

designate any newspaper of general circulation published in the county. Such proclamation shall conform in all respects to the general State law governing the conduct of general elections now or hereafter in force, applicable thereto, except as otherwise herein provided.

(14) The county clerk shall cause the ballots to be printed and bound and numbered as provided by said general State law, except as otherwise required in this act. The ballots shall contain the list of names and the respective offices as published in the proclamation and shall be in substantially the following form: Ballots.

Form.

General (Or Special) District Election,
_____ County Water District.
(Inserting date thereof).

Instructions to Voters: To vote, stamp or write a cross (+) opposite the name of the candidate for whom you desire to vote. All marks otherwise made are forbidden. All distinguishing marks are forbidden and make the ballot void. If you wrongly mark, tear or deface this ballot, return it to the inspector of election, and obtain another.

(15) All ballots printed shall be precisely on the same size, quality, tint of paper, kind of type, and color of ink, so that without the number it would be impossible to distinguish one ballot from another; and the names of all candidates printed upon the ballot shall be in type of the same size and style. A column may be provided on the right-hand side for questions to be voted upon at municipal water district elections, as provided for under this act. The names of the candidates for each office shall be arranged in alphabetical order, and nothing on the ballot shall be indicative of the source of the candidacy or of the support of any candidate. How printed

(16) The name of no candidate who has been duly and regularly nominated, and who has not withdrawn his name as herein provided shall be omitted from the ballot. No candidate omitted

(17) The offices to be filled shall be arranged in the following order: "For director vote for (giving number)." Arrangement

(18) Half-inch square shall be provided at the right of the name of each candidate wherein to mark the cross. Voting squares.

(19) Half-inch spaces shall be left below the printed names of candidates for each office equal in number to the number to be voted for, wherein the voter may write the name of any person or persons for whom he may wish to vote. Write-in blanks

(20) The county clerk shall cause to be printed sample ballots, identical with the ballot to be used at the election, and shall furnish copies of the same on application to registered voters at his office at least five days before the date fixed for such election, and shall mail one such ballot to each voter entitled to vote at such election, so that all of said sample ballots shall have been mailed at least three whole days before said election. Sample ballots.

Votes necessary to elect.

(21) In case there is but one person to be elected to an office, the candidate receiving a majority of the votes cast for the candidates for that office shall be declared elected; in case there are two or more persons to be elected to an office, as that of director, then those candidates equal in number to the number to be elected, who receive the highest number of votes for such office shall be declared elected; provided, however, that no person shall be declared elected to any office at such first election unless the number of votes received by him shall be greater than one-half the number of ballots cast at such election.

First election considered primary.

(22) If at any election held as above provided there be any office to which the required number of persons was not elected, then as to such office the said first election shall be considered to have been a primary election for the nomination of candidates, and a second election shall be held to fill said office. The candidates not elected at such first election, equal in number to twice the number to be elected to any given office, or less if so there be, who receive the highest number of votes for the respective offices at such first election, shall be the only candidates at such second election; provided, that if there be any person who, under the provisions of this subdivision, would have been entitled to become a candidate for any office, except for the fact that some other candidate received an equal number of votes therefor, then all such persons receiving such equal number of votes shall likewise become candidates for such office. The candidates equal in number to the persons to be elected who shall receive the highest number of votes at such second election shall be declared elected to such office.

Second election.

(23) The said second election, if necessary to be held, shall be held three weeks after the first election.

(24) All the provisions and conditions above set forth as to the conduct of an election, so far as they may be applicable, shall govern the second election, except that notice of election need be published twice only; and provided, also, that the same precincts and polling places shall, if possible, be used.

Failure to qualify.

(25) If a person elected fails to qualify, the office shall be filled as if there were a vacancy in such office, as hereinafter provided.

Informality not to invalidate

(26) No informality in conducting district elections shall invalidate the same.

SEC. 7. A new section is hereby added to said act, as amended, to be numbered 22b and to read as follows:

Petition re land irrigated from another system.

Sec. 22b. Whenever the board of directors of any county water district shall by ordinance have found and determined that, in view of the circumstances existing in the district, it is just and reasonable that such petitions as are referred to in this section should be heard and determined, then anyone having an interest in any land within the district may file with the secretary of the board of directors a verified petition, alleging that said land, or some described portion thereof, was prior to the acquisition or establishment by the district of any water system or waterworks serving the territory in which said land is situate, irrigated from another system of works than said system of works of the district and has continued ever since to be exclusively so irrigated, and is entitled to a special rate of taxation, and praying the board to determine what percentage of the regular rates of taxation of the district should be used in levying taxes on the land described in the petition. The board shall set a time and place for the hearing of said petition, or of all of the petitions so filed if more than one has been filed, and shall cause notice thereof to be given in a newspaper published in the county wherein the office of the district is located. The notice shall state that a petition has been, or petitions have been

presented to the board praying for a determination that certain lands described therein, but which need not be described in the notice, are entitled to a special rate or rates of taxation and giving the names of the petitioner, or petitioners, and the time and place set for the hearing. The board shall meet at the time and place so set and proceed in such order as it may deem proper, to hear the petition or petitions and shall hear all competent and relevant evidence offered in support of any petition or in opposition thereto, and may adjourn the hearing from time to time. A fee of ten dollars must be paid to the secretary before the filing of any such petition, and the money shall be applied to the cost of the publication of the notice and other expenses of the hearing. If there shall be any balance after the conclusion of the hearing, it shall be returned to the petitioner or divided among the petitioners contributing thereto in proportion to the respective areas described in their petitions. After the conclusion of the hearing, if the board shall find that any of the land described in any petition or petitions has been irrigated as alleged and is not and will not be so benefited by the operations of the district as to justify its taxation at the same rate as other lands in the district not so irrigated, which rate may be referred to as the regular rate of taxation, the board shall, in an ordinance or resolution which shall be entered in full upon its minutes, describe the land entitled to a special rate of taxation, or the respective parcels thereof if separate parcels are to be assessed, and shall determine and fix the percentage of the regular rate of taxation which shall be applied in levying district taxes on said land, or on each parcel thereof if various parcels are found to be entitled to different special rates, in order that the taxes to be levied on said land may be in accordance with the benefits which it receives or will receive from the operations of the district. If the board shall determine that any land is entitled to a special rate of taxation, a certified copy of the ordinance or resolution so determining shall be delivered to the assessor, and thereafter, until notified of a change in such determination, he shall enter the land described therein separately on the assessment roll and so designate it and the percentage of the regular rate of taxation to which it is entitled that it may readily be distinguished from other land not entitled to a special rate. Thereafter the officer charged with the duty of entering on the assessment roll the amount of district taxes on the lands in the district shall in making such entry observe and conform to such ordinance or resolution of the board. The determination of the board with respect to any land after a hearing as aforesaid shall not be changed unless the board, on petition of a party affected, shall consent to another hearing, or on its own motion shall cause notice to be served on the owner of the land to show cause why the determination should not be changed, in either of which cases another hearing shall be advertised and held as hereinabove provided.

SEC. 9. Section 26 of said act, as amended, is hereby amended to read as follows:

Construction of act.

Sec. 26. Nothing in this act shall be so construed as repealing or in anywise modifying the provisions of any other act relating to water or the supply of water to, or the acquisition thereof by counties or municipalities within this State, and notwithstanding any of the provisions of this act or of any other act the holder or holders of title or evidence of title of any tract or tracts of land which may be within the boundaries of any county water district formed under the provisions of this act may petition for the inclusion of such land, and such land may be included within an irrigation district formed under the California Irrigation District Act, under the same conditions and in the same manner as if such land was not within the boundaries of such county water district, but such inclusion shall not be made unless it shall appear and the board of directors of the irrigation district within which such lands are about to be included shall find that the county water district within which such lands are situated shall have been in existence for not less than five years immediately preceding the date of the filing of the petition for inclusion with the secretary of the board of directors of the irrigation district and that at the date of the filing of such petition such county water district shall not be delivering and is not prepared to deliver water from the irrigation works owned by such county water district to such lands for irrigation purposes. No lands, however, within such county water district so included within the boundaries of an irrigation district shall be released from any of the burdens, obligations or liabilities of such county water district because of such inclusion within an irrigation district but shall, so far as such inclusion is concerned, continue to be in all respects a part of such county water district. SEC. 5. Signatures to the petition may be withdrawn at any time before the publication of the petition, by filing with the clerk of the board of supervisors with whom the petition is filed a declaration signed by the petitioner stating that it is the intention of the petitioner to withdraw his signature from the petition. Withdrawal of signatures

An additional bond may be subsequently required by the board of supervisors if, in its judgment, the cost of organization will exceed one-half of the undertaking first approved.

Filing and hearing of petition

SEC. 8. The petition shall be filed with the board of supervisors of the county in which is located the largest amount in value, as shown by the last equalized county assessment rolls, of the land situated within the proposed district. An election shall be held to authorize such assessment and may be called by the board of directors of the district in its discretion. Such an election must be called upon presentation to the board of directors of a petition requesting the levy of the assessment and specifying the object and purposes for which the proceeds thereof shall be expended. The people of the State of California do enact as follows:

Stats. 1931, p. 2045

SECTION 1. Section 36 of said act is hereby amended to read as follows:

Bonded indebtedness

Sec. 36. The district may incur a bonded indebtedness for any purpose for which the board of directors is authorized to expend the funds of the district in the manner in this act set forth.

Report.

The board of directors, whenever the interest of the district shall require, may cause a report to be made to the effect that the acquisition of certain property or works or the construction of such works is convenient or necessary to serve or fulfill the purpose for which the district exists and that the cost of such property or works can not be paid for out of the annual

revenue of the district. Such report shall be in such detail and be accompanied by such exhibits as will disclose the purpose sought to be accomplished and the means to be employed therefor. Such report shall be printed in convenient form for distribution to the electors of the district.

Election.

After the printing of said report the board of directors by resolution adopted by a majority of the members of the board may call an election to be held in the district for the purpose of authorizing the incurring of a bonded indebtedness by the district. Such resolution shall specify the purpose for which the indebtedness is to be incurred, the amount of bonds which it is proposed shall be issued, the maximum rate of interest such bonds shall bear, and the number of years, not exceeding twenty-five, the whole or any part of said bonds are to run until maturity. It shall further provide for submitting the question of the incurring of such indebtedness to the qualified electors of the district at an election called for that purpose, and the words to appear upon the ballot shall be "Bonds—Yes," and "Bonds—No," or words of similar import, together with a general statement of the amount and purpose of the bonds to be issued. Several propositions may be submitted at the same election. None but qualified electors of the district shall be permitted to vote at such election.

Notice of election.

A notice shall be given of such election by publication in a newspaper of general circulation published in the district once a week for at least three weeks if published in a weekly or semiweekly newspaper or for at least ten days if published in a daily newspaper and the first publication shall be at least thirty days prior to the day fixed for the election.

Such notice shall state the time and place for holding the election, the names or numbers of the election precincts, which may be the general election precincts established by the board of supervisors for general State or county elections, or a consolidation of such precincts, or such other special precincts for the purpose of such bond election as the board of directors of such water conservation district may designate and establish, the location of the polling places and the names of the election officers appointed to conduct such election. Such notice shall also state the amount of the debt that it is proposed to incur, a brief statement of the purpose thereof and refer to the report hereinbefore provided to be made for further particulars, the number of years the bonds or any part thereof are to run before the maturity thereof and the maximum rate of interest such bonds shall bear.

Conduct of election

The manner of holding and conducting such election, the selection of officers to conduct the same, the designation of precincts and polling places, the preparation of ballots and the receipt, counting and return of the same, and the canvassing and determining the results thereof shall be as provided for the election of directors as provided in this act as nearly as practicable, and in particulars not so provided shall be in accordance with the general laws of the State relative to elec-

tions whereat propositions are submitted and voted upon. In the event that such election has been fairly held and conducted, no informality nor omission to perform a prescribed duty shall be held to invalidate or affect the legality of any bonded debt authorized to be incurred.

Votes necessary

If two-thirds of the votes cast upon the proposition shall have been marked and counted "Bonds—Yes" or appear to favor the proposition submitted, then such proposition shall be deemed to have been accepted by the voters and to authorize the incurring of a bonded debt and the issuance of bonds therefor to the amount of and for the purpose stated in the proposition.

Issuance of bonds

Thereafter the board of directors of the district may issue the bonds of the district for the whole or for any part of the amount of the indebtedness so authorized, and may, from time to time, provide for the issuance of such amounts as the necessity therefor shall appear, until the full amount of such bonds authorized shall have been issued. Each separate issue shall be given a serial number or letter.

Form and provisions of bonds

The board of directors shall, by a resolution adopted by a majority of its members, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment may be deferred for a period not longer than five years from the date of the bond, and not less than four per cent of the principal sum shall be paid each year at and following the date when the first installment becomes due and payable. The bonds shall bear interest at a rate not exceeding six per centum per annum, payable semiannually.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred nor more than one thousand dollars. The principal and interest shall be payable in gold coin of the United States at the office of the treasurer of the county or such other place as may be designated or at either place at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president of the district and attested by the secretary with the official seal of the district. The interest coupons shall bear the actual or facsimile signature of the president of the district.

Sale of bonds

The bonds as the same shall be issued may be sold at such times and in such amounts as the board of directors shall deem expedient, after a notice inviting bids therefor shall have been given by publication in a newspaper of general circulation published in the district for a period of at least ten days prior to such sale. A certified check payable to the district for at least five per cent of the amount of the bonds offered shall accompany each bid conditioned that the bidder will accept and pay for the bonds bid for if awarded to him, otherwise such check shall be forfeited to the district and the amount

thereof paid into the treasury. In case no bids are received the bonds offered may be sold at private sale.

Disposition of proceeds

The proceeds arising from the sale of bonds shall be paid into the treasury of the district and placed to the credit of a special fund and expended only for the purpose for which the indebtedness was created.

Tax levy.

It shall be the duty of the board of supervisors of the county or counties within which the district is situated to provide for the levy and collection of an assessment tax upon the lands within the district as in this act provided sufficient and in season to pay any installment of principal and all interest on the bonds that may become due during the year following the levy of such assessment tax.

The petition shall state the grounds and reasons upon which

it is claimed that such lands should be excluded and shall describe the boundaries thereof, and also the lands of such petitioner or petitioners which are included within such boundaries; but the description of such lands need not be more particular or certain than is required when the lands are entered in the assessment book by the county assessor. Such petition must be acknowledged in the manner and form as is required in the case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such a conveyance.

Notice of filing of petition

Sec. 53. The time to be specified in the notice at which they shall be required to show cause shall be the regular meeting of the board next after the expiration of the time for the publication of the notice. In the case of water conservation districts heretofore organized under the provisions of this act, said petition or petitions shall be filed within three months after the taking effect of the provisions herein for the exclusion of lands, and in the case of water conservation districts hereafter to be organized under this act within one year after the organization of such districts.

Sec. 55. Evidence

In a complaint in any such action it shall be held sufficient to allege briefly that the city council ordered the work, the performance of the work under the contract, the making of the assessment, the issuing of said warrant and the making of said diagram; that an assessment (naming the amount) was levied against that certain lot or parcel of land (describing the same) which, according to the information and belief of the plaintiff, is owned by the defendant; that payment of said assessment has not been made. Upon the entry of judgment or dismissal of said suit the county clerk shall forthwith mail to the street superintendent of the city having jurisdiction over the proceeding in which said assessment was levied, a certified copy of said judgment or evidence sufficient to advise the street superintendent of the judgment of the court in said action.

Complaint.

In describing said lot or parcel of land in said complaint it shall be sufficient to refer to the same by its number upon said diagram, provided a certified copy of said warrant, assessment and diagram shall have been previously filed in the office of the recorder of the county or city and county in which the same is situated. It shall be the duty of such recorder to so file any such certified copy presented to him upon payment of the filing fee therefor, which fee is hereby fixed at fifty (50) cents.

Description of lots

If the contractor or his agent or any person acting in behalf of the contractor shall, prior to the filing of a complaint for the recovery of any assessment as herein provided or subsequent to the filing of suit and prior to the allowance of attorney fees and costs as herein provided, make any written demand upon or present any bill or notice in writing to such owner, demanding, requesting or notifying such owner to pay or that there is due, attorney's fees or court costs in connection with

Unlawfully demanding attorney's fees

the collection of such assessment, then, the superintendent of streets is authorized, upon written demand of such owner, accompanied by the affidavit of such owner, that such written demand, bill or notice for the payment of attorney's fees and costs, or either thereof, was made upon or presented to such owner prior to the commencement of suit, or subsequent to the filing of suit and prior to the allowance of attorney's fees and costs, together with such written demand, bill or notice to mark said assessment "paid" and such assessment shall thereby be deemed to be paid and the lien thereof released; provided, that this clause shall not be held to apply to the service of summons and complaint in a civil action.

Premature suits.

Should suit be brought for the recovery of any assessment prior to the time permitted for bringing same as herein provided, then in such action, so brought, the plaintiff shall not recover and defendant shall be entitled to have and recover such attorney's fees as the court may deem reasonable in addition to all taxable costs and he may have judgment therefor.

SEC. 3. Section 28 of said act is hereby amended to read as follows:

Reassessments.

SEC. 28. Whenever any assessment heretofore made or issued or filed or which may be hereafter made, issued or filed in the office of the clerk is or shall be void, or unenforceable, for any cause or if bonds shall have been, or shall be, issued to represent or be secured by any assessments and such issuance shall not have been, or shall not be effective through the curative provisions in relation thereto, or any curative act that may be passed by the Legislature in relation thereto to make them valid and enforceable, then, in any of such events a reassessment therefor may be issued. The true intent and meaning of this section is to make the cost and expense of work or improvement made through an attempted compliance with this act, payable by the real estate benefited by such work or improvement by making a reassessment therefor.

Such power of reassessing embraces both a full and partial reassessment, and is not exhausted by a single attempted exercise thereof.

When to be ordered

A reassessment shall be ordered under any one of four circumstances:

First—Where the owner or holder of any assessments, or bonds issued under this act to represent or be secured by assessments, or the person who would own or hold any such assessment or bonds if the same were issued, request the legislative body of the city in which the assessment has been or shall be made, filed or issued to order a reassessment. In such event if said legislative body be of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented or secured by the bonds owned or held by

such petitioner, or which would be owned or held by petitioner if issued.

Second—Whenever any court of competent jurisdiction in any suit to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent or be secured by any assessments issued under this act, has for any reason held such lien unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Third—Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment, or in any suit to quiet title against the lien of any such assessment, or bond, or in any suit to enjoin the making, filing, confirmation or issuance of any assessment or bond to pay for the cost and expenses of any work done hereunder, shall in its judgment decree such assessments or bonds to be void, or unenforceable, or shall enjoin the making, filing or issuance or confirmation of any such assessment or bond, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Fourth—Whenever any contractor or assignee of a contractor shall have done or performed any work or improvements pursuant to proceedings had and taken in attempted compliance with the provisions of this act, and whenever prior to the issuance of any assessment, any court of competent jurisdiction in any suit to invalidate the contract or any of such proceedings shall for any reason declare said contract or other proceedings to be invalid, then such court shall in and by its decree direct the making of a reassessment for the reasonable value of the work and improvement actually done and performed in good faith by the contractor, or such portion thereof as was of a kind that could lawfully have been ordered under the provisions of this act.

Manner of making reassessment

The manner of making, issuing and enforcing the reassessments shall be as follows:

The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, proceed to make a reassessment in the following manner:

If the reassessment be a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. If it be a full reassessment, however, then it shall be upon the lots fronting on said work if the original assessment was one made on the front-foot plan; if the original assessment was one made against a district, then the superintendent of streets shall prepare and file with the reassessment a diagram showing the lots, pieces or parcels of land deemed by him to have been benefited by the work or improvement. The reassessment

shall assess upon and against each of the lots, pieces or parcels of land contained therein an amount arrived at as follows:

The benefits derived, or to be derived by each of said lots, pieces or parcels of land from the work or improvement estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed. Then there shall be added thereto interest thereon from thirty days after the date of such filing of the original assessment at the rate of seven per cent per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost and expenses of the work or improvement. Such assessment need not be in any prescribed form, but shall refer to the original assessment filed, give the date of filing of said original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time must be at least twenty days after the reassessment is so presented. The city clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the improvement for which the assessment was made, was published unless the legislative body directs publication in some other paper. If the reassessment is to be against the lots fronting the improvement, this fact shall be stated in the notice. If the reassessment is to be against the property in a district, then this fact shall be stated in the notice and a description of the district shall be set forth and the assessment diagram referred to for particulars. Such notice shall be published for five insertions, if the paper be a daily, or by two insertions if the paper be published less frequently. At the time fixed for said hearing, or at such time or times to which the same may be thereafter adjourned, the legislative body shall consider the objections to said reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot, piece or parcel of land thereby benefited the amount of the actual benefits derived from said improvement. When such reassessment shall have been revised, or corrected or modified so as to comply with the judgment of said legislative body, then it shall pass a resolution confirming the reassessment. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city clerk, that it is the reassessment approved by the legislative body of the city. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all

payments theretofore made upon the original assessment, or upon the bonds issued to represent the same, together with interest on such payments at the rate of seven per cent per annum from and after the date of such payments. Such reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable by suit in the same manner provided in this act for enforcing an original assessment, and shall have the same weight in evidence. In the event that bonds issued under or upon the security of the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lots, pieces or parcels of land covered thereby. When the reassessment is recorded the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New bonds shall not be issued until the original bonds are delivered up to the city treasurer, who shall cancel the same. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment.

Collection

In the event such work or improvement made in attempted compliance with this act, is fully completed to the satisfaction of the street superintendent or city engineer as the case may be, then it shall be the duty nevertheless of the proper officer to make and file an assessment for the costs and expenses thereof, so as to form the basis of a reassessment in the event such assessment should be unenforceable

The interest shall be payable semiannually, by coupon, on the second days of January and July, respectively, of each year after their date, at the rate of not to exceed ten per cent per annum on all sums unpaid, until the whole of said principal and interest is paid; provided, however, that the first interest coupon on said bonds shall become due and payable on the second day of January next succeeding the October fifteenth or the second day of July next succeeding the April fifteenth, as the case may be, following their date.

Bonds Payment in advance

The owner of or any person interested in any lot or parcel of land upon which a bond has been issued under the terms of this act may at any time before commencement of proceedings for sale pay off such bond and discharge the land described in the bond from the lien of the assessment, by paying to the city treasurer, for the holder of such bond, the amount then unpaid on the principal sum thereof, with interest thereon calculated up to the due date of the next maturing interest coupon at the rate named in the bond, and all penalties accrued and unpaid. Upon such payment being made to the city treasurer he shall report the same to the street superintendent, who shall forthwith mark paid on the margin of the record of the assessment, the assessment to represent which such bond was issued, and thereupon the lien of said assessment shall cease and the city treasurer shall forthwith notify the holder of the bond and call in the same. The city treasurer shall enter in his record of such bond the amount paid and the date of payment, and upon the lien of the assessment being extinguished as aforesaid, shall cancel said bond and file it in his office.

SEC. 5. Section 62 of said act is hereby amended to read as follows:

Unpaid assessments and interest

After the full expiration of thirty days from the date of the warrant, the street superintendent shall make and certify the city treasurer a complete list of all assessments unpaid, which amount to twenty-five dollars or over, upon any assessment, or diagram number; the principal of said unpaid assessment shall thereafter become due and payable to said treasurer in equal annual payments on the fifteenth day of each November succeeding the October fifteenth following the filing of said list until fully paid; the number of said annual payments shall correspond to the number of serial payments provided to be made on the principal of the bonds issued to represent said unpaid assessments; the interest of said unpaid assessments shall be payable on each fifteenth day of May next succeeding the April fifteenth or the fifteenth day of November next succeeding the October fifteenth, as the case may be, following the filing of such list of unpaid assessments, the last interest payment coming due forty-five days before the last annual payment of the principal of the bonds issued to represent said unpaid assessments; the first payment of the installment of interest shall be paid as set forth in section 60 hereof; the following shall each be for six months' interest. Should any

payment of principal of said unpaid assessments or of interest thereon be not paid on the date upon which the coupon or coupons representing it are payable, the city treasurer shall after the close of business on said due date add to the amount of principal or interest so delinquent a penalty of one per cent of the total amount of such delinquency, and at the beginning of the business on the first day of each succeeding month until such delinquent payment and all penalties thereon be fully paid, he shall add an additional penalty of one per cent of the amount of such delinquency, and said treasurer shall collect such penalties with and as a part of such delinquent payments.

Provided, that the failure of the city treasurer to mail said cards or the failure of the property owner to receive the same shall in nowise affect the validity of any penalty or invalidate any act or proceeding.

This bond is payable exclusively from said fund, and neither the municipality nor any officer thereof is to be holden for payment otherwise of its principal or interest. SEC. 7. Section 65a of said act is hereby amended to read as follows: Stats 1931, p 1567.

Sec. 65a. In the event of the division of any lot or parcel of land for which a bond has been issued pursuant to section 63 hereof into two or more separate lots or parcels of land, such bond may be surrendered and new bonds issued to the holder of the original bond in the manner hereinafter prescribed. When it is desired that such new bonds shall be issued, an application in writing signed by the owner of any interest in any of the lots or parcels into which the original lot or parcel has been divided shall be filed with the street superintendent. Such application shall indicate how the original lot or parcel has been divided, and request the street superintendent to apportion the amount remaining unpaid on said assessment in accordance with such division, and be accompanied by a fee of five dollars ($5) for each separate part or parcel of said original lot or parcel, which sums shall be deposited by said street superintendent in the city treasury. The street superintendent thereupon shall apportion to each separate part of said original lot or parcel of land the proportionate part of the amount remaining unpaid on said assessment that would have been levied thereon had such lot or parcel of land been so divided at the time the original assessment was made. When such determination has been made an application signed by all persons owning an interest in the original lot or parcel of land and the holder of the original bond on such lot or parcel of land, may be filed with the city treasurer requesting that new bonds be issued for the amounts shown by the apportioned assessment in accordance with this section. Such application shall be accompanied by evidence satisfactory to said city treasurer that it is signed by every person owning any interest in said original lot or parcel of land and the holder of the original bond. When the city treasurer shall have ascertained that the application is signed by all the necessary persons he shall so advise the street superintendent who shall thereupon amend the recorded diagram and assessment to conform to such division and apportionment and assign new assessment numbers to each separate part of the original lot or parcel of land. The city treasurer shall add to each such apportioned amount a sum equal to five per cent thereof but in no event more than the sum of ten dollars ($10) and shall make and sign a new bond of the same form as the original bond, to represent each such apportioned amount. The amount of such bond shall be equal to the sum of such apportioned amount and the amount

Provided, however, that no new bond shall be issued when such apportioned amount shall be less than twenty-five dollars, in which event the said amount shall be paid to the city treasurer in cash for the benefit of the holder of the original bond at or prior to the time of filing the application last hereinabove mentioned. Upon the surrender of the original bond the city treasurer shall deliver to such bondholder or his agent or assigns the bonds issued for such apportioned assessments together with all payments of cash which may have been made pursuant hereto.

District budget

SEC. 17. The board of directors, on or before the time of the first meeting of the board of supervisors of said Orange County in August of each year, must furnish said board of supervisors and the auditor of said Orange County with an estimate in writing of the amount of money needed for the initiated or authorized purposes of the district for the current fiscal year. This amount, together with available moneys on hand, must be sufficient to provide the necessary funds to initiate, carry on and complete any of the powers, projects, and purposes for which this district is organized, and which the board of directors shall deem advisable to be initiated or authorized for the current fiscal year; to pay the estimated cost of maintenance, operation and repairs of works and projects of the district, the incidental expenses of the district, and the estimated amount necessary for the payment

of the costs of any action or proceeding which may be taken or assumed by the district, including the cost of employment of attorneys and engineers; and if bonds have been voted by the district, said estimate shall include an amount sufficient to raise the interest and principal on the outstanding bonds accruing during the current fiscal year and/or to provide for a sinking fund from which to pay the principal of said bonds when due; and if said district shall have voted a special assessment as provided in section 35 hereof, said estimate shall also include the amount of any installment of said special assessment, to be levied during said year; provided, however, that if at the time of making said estimates the district shall not have voted a special assessment as provided in section 35 hereof, and said district shall not have voted bonds as in this act provided, then the amount of the assessment levied during any year for the raising of funds shall not exceed five cents for each one hundred dollars or fraction thereof of assessed valuation of assessable property in the district, according to the last assessment rolls of said Orange County; provided, however, that after the expiration of five (5) years next succeeding the date when this act shall become effective, the amount of said assessment during any year shall not exceed two cents for each one hundred dollars or fraction thereof of assessed valuation of property in said district; but if a special assessment and/or if bonds have been voted by the district, then there shall be assessed an additional amount sufficient to pay the installment of said special assessment for the current fiscal year and/or the principal and interest on said bonds accruing during said year and/or said annual sinking fund for said year, but no more. Fiscal year as herein used means from July first of any year to July first of the next succeeding year.

Limitation on assessments.

SEC. 18. The board of supervisors of said Orange County at the time of the levying county taxes annually must levy an assessment sufficient to raise the amount or amounts specified in said estimates of said directors, as herein provided. Said board of supervisors must determine the rate of such assessment by deducting fifteen per cent for anticipated delinquencies from the assessed value of the assessable real property in the district on which an assessment is to be levied, as it appears on the assessment roll of the county, and then dividing the sum or sums reported by the board of directors as required to be raised by the remainder of such total assessed value. All assessments levied and/or collected under the terms of this act shall be levied and collected on real property including assessable rights therein and improvements thereon, but not on personal property.

Levy of assessment.

SEC. 19. The assessment so levied by said district shall be computed and entered on the assessment roll by the county auditor, and if the board of supervisors fail to levy the assessment as provided in the preceding section, then the auditor must do so. Creation of district funds

SEC. 20. The following funds are hereby created and established for said district to which the moneys of the district shall be apportioned by the treasurer in accordance with the aforesaid estimate by the board of directors, to wit, bond fund, construction fund and general fund. Whenever an object for which money has been specifically provided has been accomplished and any money provided therefor remains unexpended the same shall, in the discretion of the board of directors, be transferred to any of said funds, provided that all surplus moneys received from the sale of bonds shall be transferred only to the bond fund.

Survey and estimated cost of proposed project.

SEC. 21. For the purpose of constructing, purchasing, leasing or otherwise acquiring necessary waterworks or other works or machinery, canals, conduits, dams and reservoirs; and of purchasing, leasing or otherwise acquiring water, water rights, storage sites, spreading grounds, watersheds, lands, rights and privileges useful or necessary for the purposes of said district, and otherwise carrying out the provisions of this act, and before any such purposes or projects are instituted and carried out, the board of directors of said district shall determine whether any such purpose or project is feasible and necessary and of general benefit to the lands in the district, and shall also estimate and determine the amount of money necessary to be raised for each or any of said purposes or projects. For the purpose of ascertaining the feasibility, necessity and general benefit of any such purposes or projects and the amount of money necessary to be raised for the same or any of them, said board shall cause such engineering investigations, surveys, examinations, drawings, plans and reports to be made as shall furnish the proper basis for said purposes or projects, and said estimates of the cost thereof. Said engineering investigations, drawings, plans and reports, and the estimates based thereon may provide that the works necessary for a completed purpose or project shall be constructed progressively during a period of years. In the estimate of the amount of money necessary to be raised by any issue of bonds, the board of directors may include a sum sufficient to pay the interest on all of said bonds for one year. All engineering investigations, examinations, drawings, plans and reports shall be made under the direction of a competent engineer or engineers selected by the directors, and shall be certified by him or them. All data obtained by Orange County Flood Control District and all other available engineering data shall be made use of in all of said engineering investigations.

Board to institute project.

SEC. 22. If it shall appear from said engineer's report or reports that any such purpose or project is feasible and of necessity and of general benefit to the lands in the district, the board of directors by resolution entered in its minutes shall so find and shall declare the purpose or project duly

instituted; and if bonds are to be issued for said purpose or project, said board in said resolution shall determine and declare the respective amounts of bonds that should be issued in order to raise the amount of money necessary for each purpose or project and the denomination and rate of interest of said bonds. Said board shall cause a copy of said resolution duly certified by the secretary, to be filed for record in the office of the recorder of Orange County within five days after its issuance. From and after said filing the institution of said purpose or project included in said resolution shall be complete.

Special bond election.

SEC. 23. After the filing for record of the resolution specified in section 22 of this act, providing said resolution calls for the issuance of bonds, said board of directors shall call a special election at which shall be submitted to the owners of assessable property in said district, the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual assessments levied upon the property assessable by this district situated within the district, and all such assessable property shall be and remain liable to be assessed for such payments as provided in this act.

Notice of bond election.

SEC. 24. Notice of a bond election called under the provisions of this act must be given by posting notices in three public places in each division in said district, at least twenty days before the election and by publication of said notice in some newspaper of general circulation published within the district, once a week for at least three successive weeks prior to the election. Said notices must specify the time of holding the election and the amount of and the purposes for which the bonds are proposed to be issued; and said election must be held and the result thereof determined and declared in all respects as nearly as practicable in conformity with the provisions of this act governing the election of directors; provided, that no informalities in conducting such an election shall invalidate the same if the election shall have been fairly conducted and the result not changed by the informality.

Submission of question

SEC. 25. At said election questions as to the issuance of bonds may be submitted separately on the same ballot if estimates of the cost of the respective purposes or projects have been made, and the respective propositions have been stated in the notices of the election. At said election the ballots shall contain a general statement of the proposition or propositions to be voted upon, including the amount of bonds proposed to be issued for each purpose or project, but no informality in said statement shall vitiate the election. Each proposition shall be followed by the words "Yes" and "No" on separate lines, with a small inclosed space after each of said words. The voters shall vote for or against any proposition by stamping a cross (+) in the voting space after the

word "Yes" or "No" respectively. On the ballot shall be printed the following under the heading "Instructions to voters": "To vote for a proposition, stamp a cross (+) in the voting space after the word 'Yes' following the proposition. To vote against a proposition, stamp a cross (+) in the voting space after the word 'No' following the proposition." If not less than two-thirds of the votes cast for and against any proposition are "Yes," the board of directors shall declare the bonds carried and shall cause bonds in the amount specified in such proposition to be issued. If the number of votes for any proposition is less than two-thirds of the votes cast, the bonds shall be declared defeated and the result of the vote on said proposition shall be entered in the minutes of the board, but said proposition may be again submitted to the electors of the district at a special election at any time subsequent to twelve months after the date of said bond election.

Necessary votes.

Bonds.

SEC. 26. Subject to the provisions of this act, the board of directors shall prescribe the form of the bonds issued by the district and of the interest coupons to be attached thereto. An issue of bonds is hereby defined to be all the bonds issued in accordance with a proposal approved by the voters of the district. The bonds of each issue shall be numbered consecutively. The board of directors shall fix the date of said bonds, or may divide any issue into two or more divisions and fix different dates for the bonds of each respective division. The date of any bond must be subsequent to the election at which its issuance was authorized and prior to its delivery to a purchaser from the district. The date of issue of any bond authorized under this act and issued in pursuance of this act shall be deemed to be the apparent date of the said bond appearing on the face thereof. Each bond shall be signed by the president and secretary of the board of directors of the district who shall be in office at the date of said bond or at any time thereafter prior to the delivery of said bond to the purchaser thereof from the district, and the seal of the district shall be impressed on each bond. The interest coupons shall also bear the signature of the secretary of the board of directors, who shall be in office at the date of said bond or at any time thereafter prior to the delivery of said bond to the purchaser thereof from the district, or a facsimile of such signature. The board of directors shall fix the denominations of said bonds, which shall not be less than one hundred dollars nor more than one thousand dollars. Said bonds shall bear interest at a rate to be fixed by the board of directors, but the rate shall not exceed five per centum per annum. The interest shall be payable on the first day of January and the first day of July of each year at the office of the treasurer of the county of Orange. Said bonds shall be payable in lawful money of the United States at the office of said treasurer of said county of Orange. Bonds shall be made payable on the first day of January or the first day of July of the years designated

by the board of directors but in no case shall the maturity of any bond be more than fifty years from the date thereof. Each bond shall be made payable at a given time for its full face value and not for a percentage thereof. The board of directors may provide for the call and redemption of any of said bonds in numerical order, or by lot, on any interest payment date prior to their fixed maturity, at not exceeding the par value thereof and accrued interest, in which event a statement to that effect shall be set forth in the face of the bond. Notice of such redemption shall be published once a week for three successive weeks in a newspaper of general circulation printed and published within the said county of Orange, the first publication of which shall be at least thirty days prior to the date fixed for such redemption. On or after the date fixed for such redemption, when the district shall have provided funds available for the payment of the principal and interest of the bonds so called, interest on said bonds thereupon shall cease. The board of directors prior or subsequent to the issuance of bonds may provide for the creation of an annual sinking fund for the payment of said bonds in such amounts as may be determined by the board of directors, provided that the amount of said sinking fund payments may be modified from time to time by the board of directors. Whenever said sinking funds shall contain at least ten thousand dollars, the board of directors may by notice published at least once a week for three successive weeks in some newspaper published in the said county of Orange, and, in its discretion, in any other newspaper or newspapers, invite sealed proposals for the sale to the district of any of its outstanding bonds, for the payment of which such sinking fund was created. Said notice shall state the amount available for the redemption of such bonds and shall specify the time and place when such proposals will be opened. All such proposals shall be opened by the board of directors in open meeting at the time specified in said notice, or at some subsequent time to which said meeting shall be adjourned. Any or all of said proposals may be rejected, in the discretion of the board of directors. If no bids are received, or if the bids received and accepted are not sufficient to exhaust the moneys so on hand and available for the purpose, the board of directors may purchase at private sale with any available money in the sinking fund, any of said bonds for the payment of which said sinking fund was created. No proposal to sell bonds to the district at a price in excess of the par value thereof shall be accepted. All bonds so purchased from sinking fund moneys shall be forthwith canceled. The board of directors may invest any money in the sinking funds in bonds of the United States or of the State of California and shall hold the bonds so purchased together with the income therefrom, as part of the sinking fund until such time as the board of directors may determine that it is for the best interests of the district that said bonds or any of them be sold. Before making any sale of bonds the board by resolution regularly adopted, shall declare its intention to sell a specified amount of the bonds, and the day and hour and place of the sale, and shall cause said resolution to be entered in the minutes, and notice of the sale to be given by publication thereof at least once a week for three weeks prior to the date of sale in some newspaper published in the district and in any other newspaper at its discretion. The notice shall state that sealed proposals will be received by the board at their office, for the purchase of bonds, till the day and hour named in the resolution. At the time appointed the board shall open the proposals and award the purchase of the bonds or any portion or portions thereof to the highest responsible bidder or bidders; provided, however, that they may reject any or all bids; and provided further, that no proposal shall be accepted which is not accompanied by a certified check for such reasonable percentage of the amount of the bid as shall be determined by the board of directors, but in no event less than two per cent of the amount thereof to apply on the purchase price of the bonds, the amount of which check shall be forfeited if after the acceptance of the proposal the bidder shall refuse to accept said bonds and complete his purchase thereof on the conditions stated in his proposal. In case no award is made, the board thereafter may readvertise said bonds or any part thereof for sale.

SEC. 35. The board of directors at any time may call a special election and submit to the qualified voters of the district, the question whether a special assessment shall be levied for the purpose of raising money to be applied to any of the purposes of this act or of any act supplementary hereto. Anyone interested may at any time before the expiration of said ten days appear and by proper proceedings contest the validity of said bonds or assessments. Said action shall be speedily tried and judgment rendered declaring the matter so contested either valid or invalid. Either party may have the right to appeal to the Supreme Court at any time within thirty days after the rendition of said judgment, which appeal must be heard and determined within three months from the time of taking such appeal.

Limitation of actions

SEC. 48. No contest of any thing or matter herein provided for shall be made other than within the time and manner herein specified, and in any such contest the findings of facts or conclusions of said board of directors, upon all matters, shall be conclusive, unless the action be instituted within six months after such finding or conclusion was made.

Penalty for violation of duty.

SEC. 49. For any wilful violation of any express duty herein provided for, on the part of any officer herein named, he shall be liable upon his official bond, and be subject to removal from office, by proceedings brought in the superior court of Orange County by any assessment payer of the district; but no officer of said district shall be personally liable for any damage resulting from the operations of the district or from the negligence or misconduct of any of its officers or employees unless the damage was proximately caused by the officer's own negligence or misconduct or by his wilful violation of official duty.

Boundary changes

SEC. 50. The boundaries of the district may be changed to include in the district additional land as hereinafter in this act provided, and the inclusion within the district of any land not contiguous thereto shall be deemed to effect a change of the boundaries of said district; but no change in the boundaries of the district shall impair or affect its organization or its right in or to property, or any of its right or privileges of whatever kind or nature, nor shall it affect, impair or discharge any contract, obligation, lien or charge for or upon which it was or might become liable or chargeable had such change of its boundaries not been made.

Petition for inclusion of land

SEC. 51. The holder or holders of title, or a majority of the holders of title, of any tract or parcel of land contiguous and adjacent to the boundaries of the district may file in the office of the board of directors of the district, a petition praying that said tract or parcel of land be included within said district; provided, that if there is more than one holder of title of said land, the petitioners must include the holders of title of at least one-half of the area of said land. If any petitioner is the owner of an undivided interest in any land described in the petition, he shall be deemed to be the owner of such proportion of the area of the land in which he has an interest as his interest bears to the whole of such land. Each signature to such petition shall be acknowledged as provided by law for signatures to an instrument to entitle it to be recorded.

Notice of filing of petition

SEC. 52. The secretary of the board of directors shall cause a notice of the filing of said petition to be given and published in the same manner and for the same time as notices of special elections for the issuance of bonds are required in this act to be given and published. The notice shall state the purpose of the petition and describe the boundaries of the tract of land proposed to be included and give the names of the petitioners, and it shall notify all persons interested in or that may be affected by the proposed inclusion of said land within the district to appear at the office of said board at a time named in said notice for the hearing of said petition, and objections thereto and show cause in writing, if any they have, why said land or any of it should not be included as proposed in said petition. The time to be specified in the notice for the hearing of said petition and any objections thereto shall be the regular meeting of the board next after the expiration of the time for the publication of said notice. The petitioners shall advance to the secretary sufficient money to pay for the publication of said notice, otherwise the secretary shall refuse to publish the same.

Hearing

SEC. 53. The board of directors, at the time and place mentioned in the said notice, or at such other time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition, and all the objections thereto, presented in writing by any person showing cause as aforesaid why said proposed change of the boundaries of the district should not be made. The failure by any person interested in said district, or in the matter of the proposed change of its boundaries, to show cause, in writing, as aforesaid, shall be deemed and taken as an assent on his part to a change of the boundaries of the district as prayed for in said petition, or to such a change thereof as will include a part of said lands. And the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent on the part of each and all of such petitioners to such a change of said boundaries that they will include the whole or any portion of the lands described in said petition.

Condition precedent.

SEC. 54. The board of directors to whom said petition is presented may require, as a condition precedent to the granting of the same, that the petitioners shall severally pay to the district, such respective sums, as nearly as the same can be estimated (the several amount to be determined by the board), as said petitioners or their grantors would have paid in the aggregate to said district had said lands been included in such district at the time the same was originally formed.

Inclusion of land, order.

SEC. 55. If the board of directors, after the hearing provided for in section 53 hereof, then shall determine that said petition complies with the requirements of section 51 hereof, and that the inclusion within the district of the tract of land described in said petition, or some portion or portions thereof, will be for the best interests of the district, and if no protest against the inclusion of such land is made as provided in section 53 hereof, or if such protest be made and enough signatures be withdrawn therefrom so that said protest is no longer sufficient, the board shall order the boundaries of the district to be changed so that said tract of land, or such portion or portions thereof as the board shall deem it for the best interests of the district to include, shall be included within the district, but no land shall be so included in said district unless the board, after the hearing aforesaid, shall determine that it can be benefited by means of some of the works of the district, and if the board determines that only a portion or certain portions of the tract of land described in said petition should be included, said petition shall be dismissed unless the petitioners include a majority of the holders of title of said portion, or of each of said portions, of said tract, representing also at least one-half the area of said portion, or of each of said portions, or unless, within sixty days from the time such determination is made, there shall be filed with the board the consent in writing, acknowledged or proved as required in section 51 hereof, of a majority of the holders of title of said portion, or of each of said portions of said tract of land, representing also at least one-half of the area of said portion or of each of said portions. The order shall describe the boundaries of the land so included within the district, and if said land adjoins any portion of the district, the order shall also describe that portion of the boundary of the district which coincides with the boundary of the land so included, and for the purposes of said order the board may cause a survey to be made of such portions of said boundaries as may be deemed necessary. If more than one petition for the inclusion of land has been presented, the board may in one order include within the district any number of separate tracts of land. When the board finds that the inclusion of any land within the district without condition, would work an injury to the land already within the district, the board may prescribe conditions upon such inclusion of land either by providing for priority of right for the land already in the district, or for the payment of an additional annual charge upon the land included or such other

conditions as the board may deem just. If any such conditions are prescribed by the board all the owners of the land subject to such conditions must, before any order for its inclusion is made, sign an agreement with the district and project, describing the land so to be included and specifying such conditions. The signatures to said agreement must be acknowledged or proved as provided by law for the signatures of instrument to be recorded, and said agreement must be recorded in the office of the county recorder of the county in which such lands are situated, and thereupon and upon the recording of a copy of the order including said lands as hereinafter provided, said lands shall become a part of the district, subject to the conditions of said agreement.

Notice of hearing

Or in lieu of the execution and recording of said agreement signed and acknowledged by the owners of land to be included subject to said conditions, the board of directors may adjourn said hearing for not less than thirty days nor more than sixty days and shall give notice of the time and place of such adjourned hearing by publication in a newspaper of general circulation published in said county not less than once a week for three consecutive weeks; said notice so published shall set out at length the conditions proposed to be imposed and direct all persons interested to appear at the time and place specified in said notice and show cause, if any they have, why said conditions should not be imposed. At said hearing, or at any adjournment thereof duly entered upon the minutes, the board of directors by resolution may adopt, reject, or modify said conditions as may be just and make the order hereinabove provided for containing such of said conditions as may have been adopted and said order shall be final and conclusive upon a copy thereof duly certified by the secretary of the board being recorded in the office of the county recorder of said Orange County; provided, that said certified copy of said order shall not be recorded for a period of thirty days from and after the making of said order, during which thirty days a majority of the holders of title of the land described in the petition for inclusion and representing also more than one-half of the area of said tract or tracts of land, may file with the secretary of the board of directors a statement or statements in writing signed and acknowledged in the form required for the conveyance of real property, objecting to the inclusion of said lands with the conditions imposed thereon, whereupon said objections shall be laid before the board of directors and if the board finds the same to be in the form required by this section and signed by a majority of the holders of title of the tract or tracts of land described in said petition for inclusion, and representing more than one-half of the area of land described in said petition, then the board of directors shall enter in its minutes an order dismissing said petition for inclusion and no further proceedings shall be had thereon, but said order of dismissal shall be without prejudice to the filing of another

Order.

Objections.

petition or other petitions for inclusion of the same land or any part thereof.

Protest against inclusion of lands.

SEC. 56. If a protest against the inclusion of said lands, signed by not less than three per cent of the holders of title or evidence of title to lands already within the district and holding the title or evidence of title to not less than three per cent in value of the lands within the district according to the last equalized assessment roll of said district, shall have been presented to the board of directors drawn, or after the withdrawal therefrom of any signatures it shall still be signed by not less than three per cent of the holders of title or evidence of title to lands within the district and holding the title or evidence of title to not less than three per cent in value of the lands within the district according to the last equalized assessment roll of said district, or if the board of directors deem it not for the best interests of the district to include therein the lands described in said petition for inclusion, or any of them, the board shall adopt a resolution stating the facts and describing the boundary of the tract of land proposed to be included in the district; but before calling the election provided for in the next section, the board may require an undertaking with sufficient sureties, from the petitioners for the inclusion of said land conditioned that the petitioners or the sureties will pay all the costs of holding said election in case such inclusion shall be denied.

Election

SEC. 57. Upon the adoption of the resolution mentioned in the last preceding section, the board shall order that an election be held within said district, to determine whether the boundaries of the district shall be changed as mentioned in said resolution; and shall fix the time at which said election shall be held, and cause notice thereof to be given and published. Said notice shall be given and published, and said election shall be held and conducted, the returns thereof shall be made and canvassed, and the result of the election ascertained and declared, and all things pertaining thereto conducted in the manner prescribed by this act in case of a special election to determine whether bonds of the district shall be issued. The ballots cast at said election shall contain the words "For change of boundary," or "Against change of boundary," or words equivalent thereto The notice of election shall describe the proposed change of the boundaries in such manner and terms that it can readily be traced.

Order for boundary change.

SEC 58. If a majority of all the votes cast at said election shall be against such change of the boundaries of the district, the board shall order that said petition be denied, and shall proceed no further in that matter. But if a majority of such votes be in favor of such change of the boundaries of the district, the board shall thereupon order that the boundaries be changed in accordance with said resolution adopted by the board. The said order shall describe the entire boundaries of said district, and for that purpose the board

may cause a survey of all such portions thereof to be made as the board may deem necessary

After protest

SEC. 59. If a sufficient protest against the inclusion of any lands shall have been presented to the board of directors and maintained as provided in section 56, and the board of directors nevertheless finds and declares that the inclusion of said lands or a portion thereof with certain conditions imposed will be for the best interests of the district, the board shall proceed the same as if no protest had been filed until the conditions imposed shall become final as provided by section 55 except that the order changing the boundaries of the district, with such conditions upon the lands to be included as may have been imposed shall not be recorded in the office of the county recorder and said order shall not be effective for any purpose until, as the result of an election thereon, which the board shall thereupon order as provided by section 57 it is found and declared by the board that a majority of all the votes cast at said election were in favor of said change in boundaries with the conditions named. Thereupon a certified copy of the order changing the boundaries with the conditions imposed set out therein, together with a certified copy of the order declaring the result of said election, shall be recorded as provided by section 55 and become final. The same procedure regarding such election shall be followed as provided by section 57, except that the ballot cast at said election shall contain the words "For change of boundaries with conditions" or "Against change of boundaries with conditions" and the notice of election in addition to other requirements, shall contain a brief statement of the conditions imposed. If a majority of all the votes cast at said election shall be against such change of boundaries with conditions, the board shall order that the petition be denied.

Recording of order.

SEC. 60. Upon a change of the boundaries of a district, a copy of the order of the board of directors ordering said change, certified by the president and secretary of the board, shall be filed for record in the recorder's office of said Orange County, and thereupon the district shall be and remain a district, as fully, and to every intent and purpose, as if the lands which are included in the district by the change of the boundaries, as aforesaid, had been included therein at the original organization of the district.

Evidence

SEC. 61. Upon the filing of the copies of the order, as in the last preceding section mentioned, the secretary shall record in the minutes of the board the petition aforesaid; and the said minutes, or a certified copy thereof, shall be admissible in evidence, with the same effect as the petition.

Personal representative may petition.

SEC. 62. A guardian, an executor or an administrator of an estate, who is appointed as such under the laws of this State, and who, as such guardian, executor, or administrator, is entitled to the possession of the lands belonging to the estate which he represents on behalf of his ward, or of the

estate which he represents, upon being thereunto authorized by the proper court, may sign and acknowledge the petition in this act mentioned, and may show cause, as in this act mentioned, why the boundaries of the district should not be changed.

Liability of included land

SEC. 63. Any land added to the district as hereinabove provided shall become liable for all the obligations of the district existing at the time of the inclusion of said land therein.

Reestablishment of divisions and precincts

SEC. 64. In case land is included within the district as aforesaid, the board of directors thereof, not less than thirty days before any election in said district thereafter, shall reestablish the boundaries of the divisions and election precincts within said district, so as to include said land therein and so as to make said divisions as nearly equal in area as may be practicable. In case of the inclusion of any land less than thirty days before an election within said district, the inhabitants of the land so included shall not be entitled to vote at said election.

Effect of boundary change

SEC. 65. The boundaries of the district may be changed, and tracts of land which were included within the boundaries of the district at or after its organization under the provisions of this act, may be excluded therefrom, in the manner herein prescribed; but neither such change of the boundaries of the district nor such exclusion of lands from the district shall impair or affect its organization, or its right in or to property, or any of its rights or privileges of whatever kind or nature; nor shall it affect, impair, or discharge any contract, obligation, lien, or charge for or upon which said district was and may become liable or chargeable, had such change of its boundaries not been made, or had not such land been excluded from the district.

Petition for exclusion of lands

SEC. 66. The owners or owners in fee of one or more tracts of land which constitute a portion of the district may jointly or severally file with the board of directors of the district a petition, praying that such tract or tracts, and any other tracts contiguous thereto, may be excluded and taken from said district. The petition shall state the grounds and reasons upon which it is claimed that such lands should be excluded, and shall describe the boundaries thereof, and also the lands of such petitioner or petitioners which are included within such boundaries; but the description of such lands need not be more particular or certain than is required when the lands are entered in the assessment book by the county assessor. Such petition must be acknowledged in the same manner and form as is required in the case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such a conveyance.

Notice of filing of petition

SEC. 67. The secretary of the board of directors shall cause a notice of the filing of such petition to be published for at least two weeks in some newspaper published in the district where the office of the board of directors is situated; or if no newspaper be published therein, then by posting such notice

for the same time in at least three public places in said district, and in case of the posting of said notices, one of said notices must be so posted on the lands proposed to be excluded. The notice shall state the filing of such petition, the names of the petitioners, a description of the lands mentioned in said petition, and the prayer of said petition; and it shall notify all persons interested in, or who may be affected by such change of the boundaries of the district, to appear at the office of said board at a time named in said notice, and show cause, in writing, if any they have, why the change of the boundaries of said district, as proposed in said petition, should not be made. The time to be specified in the notice at which they shall be required to show cause shall be the regular meeting of the board next after the expiration of the time for the publication of the notice.

Hearing.

SEC. 68. The board of directors, at the time and place mentioned in the notice, or at the time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition, and all evidence or proofs that may or shall be introduced by or on behalf of the petitioner or petitioners, and all objections to such petition that may or shall be presented in writing by any person showing cause as aforesaid, and all evidence and proofs that may be introduced in support of such objections. The failure of any person interested in said district, other than the holders of bonds thereof outstanding at the time of the filing of said petition with said board, to show cause, in writing, why the tract or tracts of land mentioned in said petition should not be excluded from said district, shall be deemed and taken as an assent by him to the exclusion of such tract or tracts of land, or any part thereof, from said district; and the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent by each and all such petitioners to the exclusion from such district of the lands mentioned in the petition, or any part thereof. The expenses of giving said notice and of the aforesaid proceeding shall be paid by the person or persons filing such petition.

Order.

SEC. 69. If, upon the hearing of any such petition, no evidence or proofs in support thereof be introduced, or if the evidence fail to sustain said petition, or if the board deem it not for the best interest of the district that the lands, or some portion thereof, mentioned in the petition, should be excluded from the district, the board shall order that said petition be denied as to such lands; but if the said board deem it for the best interest of the district that the lands mentioned in the petition, or some portion thereof, be excluded from the district, and if no person interested in the district show cause in writing why the said lands or some portion thereof, should not be excluded from the district, or if, having shown cause, withdraws the same, or upon the hearing fails to establish such objections as he may have made, then it shall be the duty of the board to, and it shall forthwith, make an order that the

lands mentioned and described in the petition, or some defined portion thereof, be excluded from said district; provided, that it shall be the duty of said board to order, upon petition therefor as aforesaid, that all lands so petitioned to be excluded from said district shall be excluded therefrom which in the judgment of the board will not be benefited by the operations of the district. Whenever lands included in any municipal corporation use water from a source or sources outside the watershed of the Santa Ana River or outside the underground water basin or basins fed by the Santa Ana River, the board of directors may consider such use as grounds for excluding said lands from the district in a proceeding for exclusion instituted in accordance with section 66 hereof.

Assent of bondholders

SEC 70. If there be outstanding bonds of the district at the time of the filing of said petition, the holders of such outstanding bonds may give their assent, in writing, to the effect that they severally consent that the lands mentioned in the petition, or such portion thereof as may be excluded from said district by order of said board, may be excluded from the district; and if said lands, or any portion thereof, be thereafter excluded from the district, the lands so excluded shall be released from the lien of such outstanding bonds. The assent must be acknowledged by the several holders of such bonds in the same manner and form as is required in case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such conveyance. The assent shall be filed with the board, and must be recorded in the minutes of the board; and said minutes, or a copy thereof, certified by the secretary of said board, shall be admissible in evidence, with the same effect as the said assent, and such certified copy thereof may be recorded in the office of the county recorder of the county wherein said lands are situated.

Exclusion of lands.

SEC. 71. In the event the said board of directors shall exclude any lands from said district upon petition therefor, it shall be the duty of the board of directors to make an entry in the minutes of the board, describing the boundaries of the district, should the exclusion of said lands from said district change the boundaries of said district, and for that purpose the board may cause a survey to be made of such portions of the district as the board may deem necessary; and a certified copy of the entry in the minutes of the board excluding any land, certified by the president and secretary of the board, shall be filed for record in the recorder's office of each county within which are situated any of the lands of the district; but said district, notwithstanding such exclusion, shall be and remain a district as fully, to every intent and purpose, as it would be had no change been made in the boundaries of the district, or had the lands excluded therefrom never constituted a portion of the district.

Reestablishment of boundaries.

SEC. 72. In case land is excluded from the district as aforesaid, the board of directors thereof not less than thirty days

before any election in such district thereafter, shall reestablish the boundaries of the divisions and election precincts within said district, so as to make said divisions as nearly equal in area as may be practicable.

Personal representative may petition

SEC. 73. [Approved by the Governor June 14, 1933. In effect August 21, 1933.]

The people of the State of California do enact as follows:

Stats 1915, p 1141

SECTION 1. Section 10 of the act cited in the title hereof is hereby amended to read as follows:

Registration of bonds

Sec. 10. (a) Said bonds may be surrendered by the holder to the treasurer for registration in accordance with the provisions of any law applicable to the registration of the municipal bonds of the city, and thereafter the principal and interest thereon shall be paid to the proper registered owner thereof.

Duty to withhold payment

(b) In the event that it shall appear to the treasurer that there is danger of an ultimate loss accruing to the bond

holders for any reason, then it shall be the duty of the treasurer to withhold payment on any due bonds and coupons and to report the facts to the city council so that proper action may be taken by the council to equitably protect all bond holders.

Notice and hearing

On receipt of said report, the council shall fix a date for hearing thereon, notice of which hearing shall be given by the clerk by posting such notice on or near the council chamber door for ten days. At such hearing the council shall determine whether in its judgment there will ultimately be a shortage in the redemption fund with which to discharge the unpaid bonds and interest coupons. If it determines that in its judgment there will be no such shortage, it shall direct the treasurer to pay matured bonds and coupons as presented so long as available moneys be in the redemption fund. If, however, the council shall determine that in its judgment there will be such a shortage, then it will direct the treasurer to pay to the holders of all outstanding and unpaid bonds and coupons such proportion thereof as the amount of funds on hand bears to the total amount of the unpaid principal of said bonds and of the interest thereon accrued and to accrue. Similar proportionate payments shall thereafter be made periodically as moneys come into such redemption fund. In order to facilitate such payments, the holders of such outstanding bonds and coupons shall surrender the same to the treasurer for registration and cancelation. Upon such cancellation the respective holders thereof shall be credited, severally and respectively, with the amounts of same. Thereupon the treasurer shall by warrant pay to such holders such proportionate amount of principal and accrued interest due on said bonds as may be available from time to time out of the moneys in said redemption fund. Interest shall cease on payments made on account of principal from date of payment, but interest shall continue to run on the unpaid principal at the rate specified in such bonds until payment thereof be made. No premiums shall be paid on payments made in advance of the due date. If bonds or coupons be not so surrendered for registration and payment the treasurer shall give notice to the holder thereof by registered mail, at the holder's address as last known to the treasurer, of the amount available for payment. Thereupon interest shall cease as to the amount so available ten days from the date of mailing such notice. Supplemental hearings on like notice may be had by the council and such other and supplemental orders be made from time to time as may be equitable and proper.

Proportionate payment

Deficiency in redemption fund

(c) In the event of a deficiency occurring in the redemption fund with which to pay past due bonds or past due coupons or bonds or coupons which may come due during the current tax collecting year, but it does not appear to the treasurer that there will be an ultimate loss to the bond holders for any reason, then it shall be the duty of the treasurer to pay matured bonds and coupons as presented so long as

available funds be in the redemption fund. If, in such event, any matured bond or coupon be presented and not paid for lack of funds, then the treasurer shall note that fact on the bond or coupon or on a slip affixed to same and shall give the bond or coupon a serial number and keep a record of the same and of the name and address of the holder thereof. Thereafter such bonds and coupons shall be first paid in order according to such serial numbers when funds therefor become available before other bonds or coupons be paid, so long as it still appears that there will be no ultimate loss to the bond or coupon holders. Bonds and coupons so given serial numbers shall bear interest until paid, provided, that interest shall not be compounded. When funds shall become available for payment of any such bonds or coupons, the treasurer shall notify the holder thereof according to the address given, or as known to him, by registered mail and thereupon it shall be the duty of such holder to forthwith present his bond or coupon for payment. After mailing of such notice interest shall cease to run on the bond or coupon therein described ten days after such mailing if it be not presented on or prior to the expiration of such time.

SEC. 2. Section 15 of the said act is hereby amended to read as follows: Stats 1923, p 301

Sec. 15. Any interested owner may release and pay any such unpaid assessment by depositing with the city treasurer the total unpaid balance of any such assessment together with the total interest which would become due on such assessment were it paid in the regular way; provided, that if the amount of same be sufficient to provide surplus moneys with which to redeem any bond outstanding and not due the next second day of July, then such person so releasing such assessment may direct the treasurer to redeem such bond, and the treasurer shall then give the proper notice for redeeming such bond, by advancing its maturity as hereinbefore provided upon which redemption the person releasing such assessment shall be entitled to credit and reimbursement for the par value of any coupons thereon which shall be canceled but not paid less any accrued interest paid thereon and less the premium paid on said bond as hereinbefore provided, and less any costs incurred for publishing or serving any notice of redemption. Any interested owner shall have the right to tender to the treasurer in payment or part payment of any installment of his assessment or interest or penalties thereon which may be due or payable, any bond or coupon secured thereby, the said bond to be taken at par and the said coupons to be credited for the accrued interest shown thereby computed to date of such tender. The treasurer shall thereupon cancel such bond and all coupons so produced or which may have been attached thereto, and shall cause proper credit therefor to be entered on the records of such assessment, in the office of the auditor and tax collector. Release of assessments

Sec. 31. (1) Whenever any petition or petitions, each signed by electors of the district equal in number to fifteen per centum of all the votes cast within the territory of the district at the last preceding general election held for the election of State and county officers, shall be presented to the board of directors asking for the construction, completion or acquisition of the public utility or utilities or public utility works therein named, it shall be the duty of the clerk of the district to immediately proceed to examine and verify the signatures to such petition or petitions and to certify the result of such examination to the board of directors. If the required number of signatures be found to be genuine, the clerk shall transmit to the president of the board of directors an authentic copy of such petition or petitions, without the signatures thereto.

(2) Upon receiving the petition or petitions, with the certificate of the clerk stating that it or they contain the required number of signatures, the board of directors shall formulate for submission to the electors of the district at a general district election or at a special election called for that purpose, a separate proposition for the construction, completion, or acquisition of each public utility or public utility works named in such petition or petitions.

Estimates.

In the formulation of the proposition or propositions the board of directors must procure plans and estimates of the cost of original construction and completion by the district of such public utility or public utilities or in the case of the proposed acquisition of an existing utility works the cost of original construction and completion by the district of similar works. The board of directors must also procure an estimate of the revenues that can be expected to be derived from the public utility or utilities or public utility works named in said petition or petitions.

In securing estimates of the cost of original construction and completion of waterworks by the district, the board of directors must procure and place on file plans and estimates of the cost of obtaining, from such sources as the board of directors may find and designate as available, a sufficient supply of good, pure water for the district.

Offers for sale of existing utilities.

(3) Before submitting propositions to the electors for the acquisition, by condemnation or otherwise, the construction or completion of any public utility or utilities or utility works, the board of directors must solicit and consider offers for the sale to the district of existing utilities, or utility works of the same character, or such portion thereof, as would be useful to the district, in order that the district may have the benefit of acquiring the same at the lowest possible cost thereof. The board of directors may apply to the Railroad Commission of

the State of California to ascertain the value of such existing utility works for the purpose of submitting to the electors estimates of the cost of acquiring such public utility or utilities or public utility works. Such valuation by the Railroad Commission shall be made in accordance with the provisions of section 47 of the Public Utilities Act of the State of California, and said Railroad Commission shall have power upon such application, and it shall be its duty, to make such valuation without delay. When the Railroad Commission shall have made and filed its findings and decision, the board of directors of the public utility district may have said findings reviewed, as in sections 47 and 70 of said Public Utilities Act provided; or such board of directors may immediately adopt such findings and decision as the basis of its estimate of the cost of acquiring such public utility or utilities or public utility works by purchase or by condemnation.

Sufficiency of revenues

(4) Upon the filing of the plans and estimates, as hereinbefore provided, the board of directors shall determine whether the cost of the public utility or public utilities or public utility works proposed for acquisition, construction or completion can be paid from revenues of the district from the operation of its public utilities in addition to the other necessary expenses of the district.

Submission of proposition.

(5) When the cost of any public utility or utilities or public utility works named in such petition or petitions can be paid out of the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, each proposition therefor, submitted to the electors, shall specify the cost of the public utility or public utility works therein proposed for acquisition, construction, or completion by the district, the proposed method and manner of payment thereof, and the board of directors shall submit therein to the electors the question whether the same shall be acquired upon such terms

If bond issue necessary

(6) If, however, the cost of any public utility or public utilities or public utility works named in such petition or petitions shall so far exceed the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, so as to render it necessary to incur a district bonded indebtedness therefor, each such proposition shall specify the amount of the bonded indebtedness necessary therefor, and the rate of interest thereon, and the board of directors shall submit to the electors, at such election, the question of whether such bonded indebtedness shall be incurred.

Election.

(7) At the next regular meeting after the formulation of the proposition or propositions for the acquisition, construction or completion of the public utility or utilities or public utility works named in said petitions, the board of directors of the district by ordinance shall submit the proposition or propositions to the electors of the district at a general district election or at a special district election called for the purpose.

All propositions formulated under the provisions of subdivision two of this section shall be submitted within six months after the filing of such petition or petitions, unless more time is required by reason of the making of a valuation applied for to the Railroad Commission under the provisions of subdivision three of this section, in which case the said proposition or propositions shall be submitted as soon as may be possible after such valuation shall have been made and become final.

Necessary vote.

(8) The affirmative vote of a majority of the electors voting upon the proposition shall be necessary to accept any proposition submitted under the provisions of subdivision five of this section. Whenever a proposition is submitted under subdivision six of this section the affirmative vote of at least two-thirds of the electors voting at such election upon the proposition shall be necessary to approve the construction, completion or acquisition of any public utility or utilities or public utility works and to warrant the issuance of district bonds therefor.

Contracts, etc.

(9) At as early a date after the determination of the result of such election as the board of directors shall deem for the best interests of the district, it shall undertake proceedings and enter into such negotiations and contracts as may be necessary for the acquisition, construction, or completion of any public utility or utilities or public utility works named in any proposition or propositions approved by the majority of the electors voting thereon at such election.

Determination to acquire utility.

(10) Whenever the board of directors shall determine that the public interest or necessity of the district demands the acquisition, construction or completion of any public utility or utilities or public utility works, it shall specifically declare such determination by a resolution.

Offers.

(11) The board of directors shall procure plans and estimates and negotiate for offers for the sale to the district of existing public utility works in the same manner as specified in subdivisions two and four of this section.

Ordinance specifying cost.

(12) When the cost of such public utility or utilities or public utility works can be paid out of the revenues of the district, derived from the operation of its public utilities, in addition to the other necessary expenses of the district, the board of directors shall, as soon after the filing of the plans and estimates as it may deem for the best interests of the district by ordinance determine to acquire, construct or complete such utility or utilities or public utility works. Such ordinance shall be published for at least two weeks in some newspaper or newspapers of general circulation printed and published in the district or, if there be no such newspaper in the district, then in some newspaper of general circulation printed and published in the county where such district or some part thereof is situated, and shall state the proposed cost of such acquisition, construction or completion and the proposed method and manner of payment therefor; and provided, fur-

ther, that no such ordinance, in case it involves the expenditure of more than one hundred thousand dollars, shall become effective before thirty days from and after its final passage.

If bond issue necessary.

(13) If, however, the cost of such public utilities, or any of them, or of such public utility works, shall so far exceed the revenues of the district derived from the operation of its public utilities, in addition to the other necessary expenses of the district, so as to render it necessary to incur a district bonded indebtedness therefor, the board of directors shall, at a regular meeting held, within sixty days after the filing of the plans and estimates of cost thereof and expected revenue therefrom, by ordinance, submit the proposition or propositions as to whether bonded indebtedness shall be incurred for the acquisition, construction or completion thereof, to the electors of the district at a general district election or at a special district election called for the purpose. Such propositions shall specify the amount of bonded indebtedness necessary for the acquisition, construction or completion of the public utility or utilities or public utility works therein named, and the rate of interest thereon, and the board of directors shall submit to the electors the question or questions whether such bonded indebtedness shall be incurred. The affirmative vote of at least two-thirds of the electors voting at such election upon the proposition or propositions shall be necessary to warrant the issuance of district bonds for the acquisition, construction, or completion of such public utilities or public utility works, or any of them.

Special election.

(14) Whenever under the provisions of section thirty-one of this act, of which this subdivision is a part, a special election is called for the purpose of submitting to the electors a proposition or propositions, the board of directors shall pass an ordinance calling such election.

At such special election all propositions formulated under the provisions of this section may be submitted to the electors of the district, but no question other than such propositions shall be submitted at such special election.

The ordinance calling such election shall set forth the purposes for which it is called, the estimated cost of each utility or utility works proposed for acquisition, construction or completion by the district, the proposed method and manner of payment thereof, and shall fix a day on which such special election shall be held, the manner of holding such election, and the manner of voting for or against each proposition thereat submitted to the electors; and if it shall be necessary to incur a district indebtedness for any utility or utilities or public utility works therein proposed, the ordinance shall specify the objects and purposes for which such indebtedness is proposed to be incurred, and that bonds of the district shall issue for the payment of the cost of such utility or utilities or public utility works, as in said ordinance set forth if the proposition or propositions therefor be accepted by the elec-

SEC. 13. A new section is hereby added to said act to be numbered 51a, to read as follows:

New section.

51a. Unincorporated territory contiguous to the district may be annexed to said district in the manner following:

Annexation of unincorporated contiguous territory.

(1) A petition signed by not less than fifteen per cent of the qualified electors residing in the territory proposed to be annexed, describing said territory and asking that proceedings be taken for its annexation, may be addressed to the board of directors and filed with the secretary of the district. Thereupon the secretary shall compare the signatures of said petition with the affidavits of registration on file with the county clerk of the county or counties wherein said territory proposed to be annexed is situated, and if he finds that said petition has been signed by the required number of electors

he shall attach his signature thereto and present said petition to the board of directors of the district.

Terms and conditions of annexation.

(2) If the board of directors shall determine that the annexation of said territory will facilitate the acquisition, construction or completion or operation of any public utility, public utilities or public utility works of the district, or will be for the advantage of the said district, and that the territory proposed to be annexed will be benefited by such annexation, then said board shall determine the terms and conditions upon which said annexation should be made. In the terms and conditions so determined provision may be made, among other things, for the payment of special taxes within the territory to be annexed in addition to the taxes elsewhere in this act provided for, the fixing of rates, rentals and charges differing from those fixed, or existing elsewhere, within the utility district, the incurring or assumption of indebtedness or the making of a payment or payments, or the transfer of property, real or personal, or other assets to said utility district by the territory proposed to be annexed, in such manner as the board of directors shall deem just for the purpose of equalizing the proportionate obligations, expenditures and costs of operation between the territory within the district and the territory proposed to be annexed. Such terms and conditions shall become effective and be binding upon the utility district and upon the territory to be annexed when approved in the manner hereinafter set forth.

The boundaries of the territory proposed to be annexed need not be coterminous with any election precincts.

Ordinance and notice

(3) The board of directors of said utility district shall by ordinance describing the territory proposed to be annexed, and setting forth such terms and conditions at length, declare its intention of approving such annexation and terms and conditions. Said ordinance, together with a notice fixing the time and place for hearing thereon, and notifying all persons interested in or that may be affected by the proposed annexation of said territory within the district to appear at such meeting and show cause in writing, if any they have, why said territory or any of it should not be annexed as proposed in said petition, shall be published in a newspaper of general circulation printed and published in said utility district, or if there be no such newspaper then in some newspaper of general circulation printed and published in the county where such district or some part thereof is situated. A copy of said ordinance and notice shall be filed with the secretary of said utility district. The time fixed for such hearing shall be not less than thirty nor more than sixty days from the date of the first publication of said ordinance. Said notice and ordinance shall be posted in three public places in the territory proposed to be annexed at least thirty days before the date set for said meeting.

Hearing.

At such hearing any person interested may file with the board of directors of the utility district written protest to the

proposed annexation or to the approval of such terms and conditions. Upon such hearing the board of directors of the utility district shall hear and determine all protests so filed and all evidence relevant thereto; said board shall thereupon determine whether said territory shall be annexed and shall determine upon what terms and conditions, if any, said annexation shall be made.

Assent.

Failure of any person interested in said utility district or in the matter of the proposed annexation on the terms and conditions set forth in said ordinance to show cause by written protest as aforesaid, shall be deemed and taken as an assent on his part to a change in the boundaries in the utility district upon the terms and conditions, if any, set forth.

Adjourned hearing.

Any such hearing may be adjourned from time to time or from place to place by the board of directors without further notice other than an order to be entered upon the minutes of the meeting at the time of adjourning fixing the time and place that such meeting shall reconvene.

Annexation order

In the event that the board of directors after such hearing by resolution approves the proposed annexation of the territory described in said petition with or without terms or conditions, and said annexation is also approved either by a written consent containing a description of the territory proposed to be annexed and setting forth the terms and conditions, if any, of such annexation signed by a majority of the electors who were registered in the territory to be annexed at the date of the presentation of the petition or petitions for annexation, which written consent is filed with the secretary of the board who shall thereupon verify the signatures thereon in the same manner as the signatures to the petitions for annexation are required to be verified by the provisions of subdivision (1) of this section, or by a majority vote in favor of annexation at an election called and held as hereinafter in this section provided within the territory proposed to be annexed; it shall make an order describing the boundaries of said territory proposed to be annexed and also describing the exterior boundaries of the district as they shall exist after said annexation. For the purposes of said order the board may cause a survey to be made of said boundaries or such portions thereof as may be deemed necessary. Said order shall also set forth in detail the conditions and terms, if any, of the annexation. Said order shall be set forth in full upon the minutes of the board.

Election.

(4) The board of directors, after its approval of said annexation by resolution as hereinbefore provided, may call an election to determine whether said annexation is approved by the electors of said territory proposed to be annexed, but before calling such election it may require an undertaking with sufficient sureties from the petitioners for the annexation, conditioned that the petitioners or their sureties will pay all costs to the district of such election in case such annexation be disapproved by such election.

Notice. In calling such election the board shall fix the time at which such election shall be held and cause notice thereof to be given and published. Such notice shall be given and published and such election shall be held and conducted and returns thereof shall be made and canvassed and the result of the election ascertained and declared, and all things pertaining thereto conducted in the manner prescribed by said act in case of a special election to determine whether bonds of a public utility district shall be issued. The ballots cast at such election shall contain the words "for change of boundary" or "against change of boundary," or words equivalent thereto. The notice of election shall describe the territory proposed to be annexed in such manner that it can be readily understood and shall set forth the terms and conditions, if any, of such annexation.

Qualifications of electors. At such election only electors registered at the time of the presentation of the petition for annexation and who at the time of said election are still electors in said territory shall be

Necessary votes. qualified to vote. If at such election a majority of all the votes cast on the proposition shall be against such annexation the board shall order that the petition be denied and shall proceed no further in that matter, but if a majority of such votes be in favor of such annexation the board shall thereupon in the manner provided in subdivision (3) of this section order that the annexation be made.

Recording of annexation order (5) Upon the making of such order changing the boundaries of the district as aforesaid a copy of the order of the board of directors ordering such change certified by the president and secretary of the board shall be filed for record in the recorder's office in each county within which the district and any part thereof and within which the territory annexed or any part thereof is situated, and thereupon the district, including the territory annexed, shall be and remain a public utility district as fully and to every intent and purpose as if the lands which are included in the district by the change of the boundaries as aforesaid has been included therein at the original organization of the district, except that this provision shall not modify or impair the terms and conditions upon which said annexation shall be made.

Evidence. (6) Upon the filing of the copies of the order, as in the last preceding section mentioned, the secretary shall record in the minutes of the board the petition aforesaid; and the said minutes, or a certified copy thereof, shall be admissible in evidence, with the same effect as the petition.

Reestablishment of boundaries (7) In case land is annexed to any district as aforesaid, the board of directors thereof shall, but not less than thirty days before any election in such district, reestablish the boundaries of the units and election precincts within such district, so as to include such land therein in the same manner and with the same effect as set forth in section twelve hereof. In case of the annexation of any land less than thirty days before an election within such district, the inhabitants of the lands so included shall not be entitled to vote at such election.

SEC. 14. A new section is hereby added to said act to be numbered 51b, to read as follows: New section.

CHAPTER 1016

An act to provide a five-day week for State employees during the present unemployment emergency, and declaring the urgency thereof.

This bill having been returned by the Governor with his objections thereto, and, after reconsideration, having passed both houses by the constitutional majority, has become a law this nineteenth day of July, A.D. 1933.

WALTER J. LITTLE,
Speaker of the Assembly.

FRANK F. MERRIAM,
President of the Senate

[In effect immediately]

The people of the State of California do enact as follows:

Five-day week in State employment.

SECTION 1. In order that available work may be divided among as many employees as is practicable and consistent with State budget limitations and with proper living standards, the five-day week shall be adopted in State employment, and in the employment of persons to render service or labor, directly or

by contract, in carrying on work of the State. This five-day week shall be in effect during the economic emergency existing when this act takes effect, but thereafter State employment shall as far as possible be conducted in the manner provided prior to the date this act takes effect.

Duty of department heads

SEC 2. During the said emergency, it shall be the duty of each department head, so far as practicable, so to arrange and assign the work of his department that the employees therein shall work not more than five days in any calendar week.

Present economic emergency defined

SEC. 3. For the purpose of this act the present economic emergency shall be deemed to now exist and to continue until:

(a) At any time prior to July 1, 1935, the Governor, after such inquiry as to him seems proper, determines that the economic situation of the State is such that the said economic emergency is over. Thereupon he shall by proclamation state that the economic emergency is over. Thereafter, beginning with the first day of the calendar month next ensuing after the issue of such proclamation, said employment shall again be conducted, as to days of labor, as nearly as practicable in the manner provided prior to the date this act takes effect.

(b) If the Governor does not issue such proclamation prior to July 1, 1935, said emergency shall be deemed to terminate at that time, and on and after that day said employment shall be conducted, as to days of labor, as nearly as practicable in the manner provided prior to the date this act takes effect.

Urgency.

SEC. 4. This act is declared to be an urgency measure deemed necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of article four of the Constitution and shall take effect immediately.

The following is a statement of the facts constituting such necessity: According to the estimate of the State Unemployment Commission, the number of persons affected by unemployment in California is 1,589,000, which includes 700,000 unemployed and 889,000 dependents. As a result of this condition of joblessness, poverty, destitution, and pauperism have become a grave menace to the health, safety, morals, and welfare of the people of the State. Because hundreds of thousands of self-respecting citizens, able and willing to work, are unable to find employment to support themselves and their families, it is essential that a policy of work-spreading and a shorter work-week should be put into effect at once. The State, by adopting such a policy for the period of the present emergency, can furnish employment to many unemployed workers and can thereby give added impetus to the practice of work-spreading in private industry. This act constitutes one of the means of adopting such a policy and therefore should be adopted as an emergency measure.

CHAPTER 1017.

Stats. 1925, p. 648, amended.

An act to amend section 7 of an act entitled "An act authorizing the establishing of municipal courts, prescribing their constitution, regulation, government, procedure and jurisdiction, and providing for the election and appointment of the judges, clerks and other attaches of such courts, their terms of office, qualification and compensation and for the selection of jurors therein," approved May 23, 1925, relating to municipal courts.

This bill having been returned by the Governor with his objections thereto, and, after reconsideration, having passed both houses by the constitutional majority, has become a law this eighteenth day of July, A.D. 1933.

WALTER J. LITTLE,
Speaker of the Assembly

FRANK F. MERRIAM,
President of the Senate

[In effect October 25, 1933.]

The people of the State of California do enact as follows:

Stats. 1931, p. 1537.

SECTION 1. Section 7 of the act cited in the title hereof is hereby amended to read as follows:

Municipal courts Cities of first and one-half class (Los Angeles).

Sec. 7. The municipal court in a city or city and county of the first and one-half class shall be constituted, and the judges, officers and attaches thereof shall be as herein enumerated and shall have the qualifications and shall receive the compensation herein affixed, as follows.

There shall be thirty judges, each of whom must be registered and qualified electors of the city wherein they are to serve and must have had at least five years active practice of law in this State prior to their election or appointment and each of whom shall receive six thousand five hundred dollars, payable in equal monthly installments; one clerk to be appointed by the judges of the court who shall receive four hundred fifty dollars per month; one marshal to be appointed by the judges of the court, who shall receive four hundred fifty dollars per month; one referee to be appointed by the judges of the court who shall receive three hundred twenty-five dollars per month.

CHAPTER 1018.

ing the urgency of this act and providing that it shall take effect immediately.

[Approved by the Governor July 22, 1933. In effect immediately.]

The people of the State of California do enact as follows:

New section "Taxes" defined

3817b. The word "taxes," wherever used in this section, includes all taxes and assessments and annual installments of assessments charged on the tax roll.

Manner of redemption of property sold to State for taxes

In all cases where real estate has been sold to the State on or before September 6, 1933, for delinquent taxes, and the State has not disposed of the same, the person whose estate has been sold, his heirs, executors, administrators or other successors in interest shall, at any time on or before the twentieth day of April, 1934, have the right to redeem such property by paying to the county treasurer of the county wherein the real estate may be situated, the amount of taxes due thereon at the time of such sale, and also all taxes that were a lien upon said real property at the time said taxes became delinquent, and also all unpaid taxes of every description assessed against the property together with all taxes that are a lien against the property, for each year since the sale, as shown on the delinquent assessment rolls in the then permanent custody of the county auditor, or, if not so assessed, then upon the value of the property as assessed in the year nearest the time of such redemption, with interest on the whole amount of such taxes at the rate of seven per cent per annum computed from the first day of July, 1932, to the time of such redemption, except that interest upon taxes, assessed or unassessed, for the fiscal year 1932–1933, shall be computed from July 1, 1933, to the time of such redemption.

Effect of section

The provisions of this section shall be deemed to allow the redemption of such real estate, on or before the twentieth day of April, 1934, free from the payment of any costs, interest (other than the interest hereinbefore in this section provided), penalties for delinquency, or redemption penalties, which may have accrued against said real estate on or before April 20, 1934. The provisions of this section shall have no application to the amount or rate of penalties for delinquency or upon redemption, for taxes of the fiscal year 1933–1934.

Except as otherwise in section 3817c and this section provided, such redemption shall be made in the manner prescribed in section 3817 of this code.

New section.

SEC. 2. A new section is hereby added to the Political Code, to be numbered 3817c and to read as follows:

"Taxes" defined.

3817c. The word "taxes," wherever used in this section, includes all taxes and assessments and annual installments of assessments charged on the tax roll.

Optional extension of redemption period

In all cases where real estate has been sold to the State on or before September 6, 1933, for delinquent taxes, and the State has not disposed of the same, the person whose estate

has been sold, his executors, administrators, or other successors in interest shall on or before April 20, 1934, have the right to elect to pay such delinquent taxes in installments as hereinafter provided and by the payment of each of such installments, together with current State and county taxes, to extend the period of redemption of such real estate and to postpone the date of sale of such property at auction, as provided in section 3771a of this code, and time of making a deed of such property to the State, as provided in section 3785, and in the event such property has been deeded to the State, postpone the resale of such real estate by the State as provided in section 3897 of this code.

Installment redemption payments authorized

Upon payment to the county treasurer on or before April 20, 1934, of ten per cent, or more, of an amount equal to the total of unpaid taxes computed as prescribed in section 3817b of this code, plus interest on the whole of said amount at the rate of seven per cent per annum from July, 1932, to date of such payment, (except that interest upon taxes for the fiscal year 1932–1933 shall be computed from July 1, 1933), and by the further payment on or before April 20, 1934, of all State and county taxes levied and assessed for the fiscal year 1933–1934, together with penalties and costs due thereon, the right of redemption in installments hereunder shall be extended to and including April 20, 1935, during which time no sale at auction of such property shall be made as provided in section 3771a of this code, and no deed to the State shall be made as provided in section 3785 and no resale by the State shall be made in accordance with the provisions of section 3897 of this code.

Redemption period

Upon payment to the county treasurer, on or before April 20, in each of the years of 1935 to 1943, inclusive, or until said amount has been paid, of ten per cent or more of said total amount together with interest, at the same rate from the date of the preceding payment, on that part of said total amount remaining unpaid after such preceding payment, and upon payment on or before April 20 in each of the years of 1935 to 1943, inclusive, of State and county taxes for each of said years, with penalties and costs thereon, the right of redemption shall be extended, the time of sale at auction to the public and of deed to the State shall be postponed and resale by the State shall be suspended, for successive periods of one year.

Effect of default

In the event of failure to make any of the payments herein specified to be made on or before the dates herein set forth, the right to pay such delinquent taxes in installments shall cease and terminate and such property shall thereupon be subject to sale at auction or may be deeded to the State or resold by the State, in the same manner as though no election to pay delinquent taxes in installments had been made.

Effect of installment payments

No such payment, nor all of them, shall be deemed a redemption of real estate nor affect the right, title or interest of the State thereto, but shall be deemed and considered as compensation for the use and occupancy of said real estate; provided, that if each installment of delinquent taxes and

interest be paid on or before the respective dates specified in this section, and if redemption of such property shall be made, on or before the twentieth day of April, 1938, in the manner hereinafter in this section provided, the amounts previously paid under the authority of this section shall be credited on the amount to be paid for such redemption.

Redemption by April 20, 1938

The amount to be paid on or before the twentieth day of April, 1938, to effect redemption of such property under this section shall be the sum of the following amounts:

(a) Unpaid taxes computed as prescribed in section 3817b of this code, with interest thereon equal to the amount of interest included in all installment payments previously made, as authorized by this section, and, in addition, interest equal to the amount of interest due at the time of such redemption on the remainder, if any, of the amount payable in installments, as authorized by this section;

(b) Unpaid taxes for the fiscal years following the year ending June 30, 1933, with redemption penalties thereon computed in accordance with section 3817 of this code.

Manner of redemption

Except as in this section otherwise provided, such redemption shall be made in the manner prescribed in section 3817 of this code.

Distribution of interest payments

All interest received by the county treasurer pursuant to the provisions of this and the preceding section shall be distributed in the same manner as redemption penalties in accordance with section 3816 of this code.

New section

SEC. 3. A new section is hereby added to the Political Code, to be numbered 3817d and to read as follows:

No sale at auction before Jan. 1, 1935.

3817d. Notwithstanding the provisions of sections 3764 and 3771a of this code no sale at auction to the public shall be made of unredeemed property in the years of 1933 or 1934, but at the day and hour fixed for the sale in accordance with subdivision two of section 3764 of this code, all property otherwise subject to sale to the public shall be deeded to the State as provided in section 3785 of this code. No sale of any property shall be made in accordance with the provisions of section 3897 of this code after the effective date of this act and prior to the first day of January, 1935.

New section

SEC. 4. A new section is hereby added to the Political Code, to be numbered 3817e and to read as follows:

Quiet title suits against State authorized

3817e. In any case where real estate is redeemed after it has been sold to the State for delinquent taxes or where real property deeded to the State for delinquent taxes has been purchased from the State, any person who has redeemed the same or purchased the same from the State and any other person claiming any interest in such real property through such person is hereby authorized to bring suit against the said State to quiet title to said real property or any portion thereof and to prosecute the same to final judgment.

Constitutionality.

SEC. 5. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the

remaining portion of this act. The Legislature hereby declares that it would have passed this act irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Urgency.

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of section 1 of Article IV of the Constitution and shall take effect immediately.

The facts constituting the urgency are as follows: Due to the widespread depression, many taxpayers have been unable to pay their taxes, or to redeem their property from sale to the State for delinquency. By permitting redemption in installments and with minimized penalties, many taxpayers will be enabled to redeem their property, restore the same to the tax rolls and thereby add revenue for the operation and maintenance of local government.

CHAPTER 1019.

Stats 1925, p. 849

An act to provide for the postponement of the collection of assessments levied to pay principal or interest due on bonds issued under the authority of the Acquisition and Improvement Act of 1925 during the existence of an economic emergency.

This bill having been returned by the Governor with his objections thereto, and, after reconsideration, having passed both houses by the constitutional majority, has become a law this twentieth day of July, A.D. 1933.

WALTER J. LITTLE,
Speaker of the Assembly

FRANK F. MERRIAM,
President of the Senate.

[In effect immediately.]

The people of the State of California do enact as follows:

Collection of assessments under Acquisition and Improvement Act of 1925 postponed.

SECTION 1. The collection of an assessment now due, payable or delinquent, to pay the principal or interest due on bonds issued under the authority of the Acquisition and Improvement Act of 1925 may be postponed for a period not to exceed six months but in no event beyond December 1, 1933, if, in the judgment of the board of supervisors, city council, or other legislative body charged with the levying of such assessment, the collection of any particular assessment would, because of adverse economic conditions or the existence of a financial crisis, amount to an undue hardship on the property owners within the district or would result in the confiscation of their property. The determination of such question by the board of supervisors, city council or other legislative body shall be by four-fifths vote of such body.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution of the State of California and shall therefore go into immediate effect. Urgency.

The following is a statement of the facts constituting such necessity: Due to the existence of the present economic depression, many home owners and other property owners within assessment districts formed under the Acquisition and Improvement Act of 1925 have been unable to pay the assessments as levied and by reason of their failure their property is being foreclosed and they are therefore not only without means of support but are deprived of a home to live in. It is essential that such property owners be given the opportunity of a delayed payment until such time as financial conditions will permit the collection of assessments under the Acquisition and Improvement Act of 1925.

CHAPTER 1020.

An act imposing a tax for the privilege of selling tangible personal property and for the privilege of furnishing, preparing or serving tangible personal property, providing for permits to retailers, providing for the levying, assessing, collecting, paying and disposing of such tax, making an appropriation for the administration hereof, prescribing penalties for violations of the provisions hereof, and providing this act shall take effect immediately.

[Approved by the Governor July 31, 1933. In effect immediately.]

The people of the State of California do enact as follows:

SECTION 1. This act is known and may be cited as the "Retail Sales Tax Act of 1933." Short title.

For the purpose of this act the total amount of the sale price above mentioned shall be deemed to be the amount received exclusive of the tax hereby imposed; provided, that the retailers shall establish to the satisfaction of the board that the tax imposed hereunder had been added to the sale price and not absorbed by the retailer.

(g) "Board" means the State Board of Equalization.

Rate of tax.

SEC. 3. For the privilege of selling tangible personal property at retail a tax is hereby imposed upon retailers at the rate of two and one-half per cent of the gross receipts of any such retailer from the sale of all tangible personal property sold at retail in this State on and after August 1, 1933, and to and including June 30, 1935; and at the rate of two per cent of the gross receipts of any such retailer from the sale of all tangible personal property sold at retail in this State on and after July 1, 1935. Such tax shall be paid at the time and in the manner hereinafter provided and shall be in addition to any and all other taxes.

Tax on motor vehicle fuel refunds.

The tax by this act imposed upon those sales of motor vehicle fuel which are subject to tax and refund under the "Motor Vehicle Fuel License Act" shall be collected by the State Controller by way of deduction from refunds otherwise allowable under said act. The amount of such deductions, he shall transfer from the motor vehicle fuel fund to the retail sales tax fund.

Constitutionality.

This section is hereby declared to be separable and distinct from all other portions of this act, and shall not be deemed a consideration or inducement for the enactment of the whole or any portion of this act. If this section be for any reason declared invalid, the remainder of this act shall remain in full force and effect and shall be as completely operative as though this section had not been included herein.

Governmental agency defined.

SEC. 7. As used in this section governmental agency means the State, any county, city and county, city or district thereof.

If the board is satisfied that the foregoing conditions and requirements have been complied with, it shall certify the amount of the refund payable to the governmental agency to the State Board of Control. Upon approval by the State Board of Control, the State Controller shall draw his warrant on the sales tax fund in the amount specified, payable to the governmental agency, and the State Treasurer shall pay the same.

SEC. 8. It shall be unlawful for any retailer to advertise or hold out or state to the public or to any customer, directly or indirectly, that the tax or any part thereof imposed by this act will be assumed or absorbed by the retailer or that it will not be added to the selling price of the property sold, or if added that it or any part thereof will be refunded. Any person violating any of the provisions of this section shall be guilty of a misdemeanor.

Retailer to collect tax.

SEC. 8½. The tax hereby imposed shall be collected by the retailer from the consumer in so far as the same can be done. This section is hereby declared to be separable and distinct from all other portions of this act, and shall not be deemed a consideration or inducement for the enactment of the whole or any portion of this act. If this section be for any reason declared invalid, the remainder of this act shall remain in full force and effect and shall be as completely operative as though this section had not been included herein.

Tax returns

SEC. 9. The tax levied hereunder shall be a direct obligation of the retailer and shall be due and payable in quarterly installments on or before the fifteenth day of the month next succeeding each quarterly period, the first of such quarterly periods being the period commencing with August 1, 1933, and ending on the thirtieth day of September, 1933. The retailer shall on or before the fifteenth day of the month following the close of the first quarterly period as above defined, and on or before the fifteenth day of the month following each subsequent quarterly period of three months, make out a return for the preceding quarterly period in such form as may be prescribed by the board showing the gross receipts of the retailer, the amount of the tax for the period covered by such return and such information as the board may deem necessary for the proper administration of this act. The retailer shall deliver the return together with a remittance of the amount of the tax due to the office of the board. SEC. 7. This act is declared to be an urgency measure deemed necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution, and as such it shall take effect immediately.

The following is a statement of the facts constituting such necessity: The Congress of the United States has enacted the National Industrial Recovery Act in which the Congress declares that a national emergency productive of widespread unemployment and disorganization of industry affecting the public welfare and undermining the standards of living of the American people exists. Such emergency is hereby declared to exist in the State of California, as shown by the estimate of the State Unemployment Commission of the number of persons affected by unemployment. The Congress in said act has made provision for Federal emergency administration of public works for the purpose of providing immediate employment to a large number of persons. It is necessary that the provisions of this act become effective at once in order that the State of California may meet the terms of the said National Industrial Recovery Act and the rules and regulations of the President and other officers of the government of the United States thereunder, so that the program proposed by the Congress can be put into effect immediately in the State of California.

Exchange of waters.

In the construction and operation by the authority of any project under the provisions of this act, no exchange of the waters of any watershed or area for the waters of any other watershed or area may be made by the authority unless the water requirements of the watershed or area wherein such exchange is made are first and at all times met and satisfied to the extent that such requirements would have been met were the exchange not made, and no right to the use of water shall be gained or lost by reason of any such exchange thereof.

Acquisition of rights, etc.

SEC. 12 For the purpose of constructing, maintaining and operating said Central Valley Project the authority is hereby empowered to acquire for and in the name of the State of California, by gift, by exchange, by purchase or by eminent domain proceedings any and all water, water rights, rights of way, easements, lands, electric energy, power resources and facilities, and property or appurtenances thereto of every kind and description and any appurtenances to any such property as said authority shall determine to be required and necessary for the proper construction, maintenance and operation of said Central Valley Project, and for effectuating the purposes and objects to be accomplished by the construction, maintenance and operation of said project. The authority shall have no power to take or destroy the whole or any part of the line or plant of any common carrier railroad or State agency, or the appurtenances thereof, either in the construction of any dam, canal, or other works or by including the same within the area of any reservoir, unless and until the authority shall have provided and substituted for the facilities so to be taken or destroyed, new facilities of like character, and at least equal in usefulness, with suitable adjustment for any increase or decrease in the cost of operating and maintenance thereof, or unless and until such taking or destruction shall have been permitted by agreement duly executed between the authority and such common carrier, public utility or State agency, and the expense of the authority in complying with these requirements shall be deemed part of the cost of constructing such project.

Arbitration of dispute

In the event such authority and any common carrier railroad or other public utility or State agency fail to agree as to the character or location of new facilities to be provided as in this section required, the character and location of such new facilities and any other controversy concerning requirements imposed by this section shall be submitted to and determined and decided by the Railroad Commission of the State

of California; provided further that nothing in this section contained, shall in any way interfere with or abridge the right of the authority or of any State agency to acquire any property through the exercise of the right of eminent domain.

Compensation for property taken

The authority in the name of and for the State of California, may take immediate possession and use of any property required for the construction, operation or maintenance of said Central Valley Project upon first commencing eminent domain proceedings according to law in a court of competent jurisdiction, and thereupon giving such security in the way of money deposited as the court in which such proceedings are pending may direct, and in such amounts as the court may determine to be reasonably adequate to secure to the owner of the property sought to be taken, immediate compensation for such taking, and any damage incident thereto, including damages sustained by reason of an adjudication that there is no necessity for taking the property.

Disposition of property

The authority is empowered to sell or otherwise dispose of any rights of way, easements or property when it shall determine that the same is no longer needed for the purposes of this act, or to lease or rent the same or otherwise take and receive and apply, for the purposes and objects of this act, or any thereof, the income or profit and revenue therefrom.

Bonds issued under the provisions of this act shall not constitute or be a debt, liability or obligation of the State, and the payment of both principal and interest of all such bonds shall be secured only by the rates, charges, and revenues established or accruing from the use or operation of the said Central Valley Project, and shall be paid from such revenues or from such contributions or appropriations as may be made available under the terms of this act. All bond redemption and interest payments shall constitute a first and direct charge and lien on all revenues received from the operation of said Central Valley Project, on all interest accruing from said revenues and on all sinking funds created out of said revenues The collection of said revenues shall be continued until all bonds issued hereunder, together with interest thereon, are fully redeemed and paid.

CHAPTER 1043.

An act providing for the incorporation, government, and management of regional park districts including therein city and county territory, for the purpose of acquiring, improving, and maintaining parks, playgrounds, beaches, parkways, scenic drives, boulevards and other facilities for public recreation; providing for the management and government of such districts; authorizing such districts to incur bonded indebtedness and to levy and collect taxes to pay the principal and interest on bonds and for carrying out the purposes of this act; and providing for the powers of such districts; and imposing certain duties and functions in connection with such districts upon certain county officers; and providing that this act shall take effect immediately.

[Approved by the Governor August 7, 1933. In effect immediately.]

The people of the State of California do enact as follows:

Regional park districts SECTION 1. Regional Park Districts. A regional park district may be created as herein provided, and when so created may exercise the powers herein granted. Two municipalities, together with one or more other municipalities and/or any parcel or parcels of city or county territory, whether in the same or different counties, may so organize and incorporate; provided that all the territory in such proposed district must be contiguous.

Provided further, however, that all the territory in such proposed district shall be located within the boundaries of a municipal utility district organized and existing under and in compliance with the provisions of an act entitled "An act to provide for the organization, incorporation and government of municipal utility districts, authorizing such districts to incur bonded indebtedness for the acquisition and construction of works and property, and to levy and collect taxes to pay the principal and interest thereon."

Stats 1921, p. 245.

Procedure, petition by electors. SEC. 2 Procedure, Petition by Electors. The procedure for organizing and creating a regional park district under the provisions of this act is as follows:

Whenever the people of such proposed regional park district shall desire to organize such a district, their petition shall request the creation and maintenance of a regional park district, and shall describe the exterior boundaries of the proposed district, and said petition shall be signed by at least five thousand electors residing within the territory proposed to be included in said district, and shall be presented to the board of supervisors of the county containing the largest area within the proposed district. A petition may consist of any number of separate instruments, all of which together shall constitute one petition, but each instrument shall contain the affidavit of the party who circulated it, certifying that each name signed thereto is the true signature of the person whose name it purports to be. Every elector signing any such petition shall write his address opposite his signature. The clerk of the board of supervisors of said county having the largest area within the proposed district, shall proceed to check and verify the signatures to such petition, and to certify the result of such examination to said board of supervisors. If said petition contains names of electors residing in another county than the one having the largest area within the proposed district, and does not contain the requisite number of signatures of electors residing in the county having the largest area within the proposed district, then a duplicate original of such petition shall be filed with the board of supervisors of such other county, and the clerk of the board of supervisors of such other county shall likewise check and verify the signatures to such petition, and certify the result to the board of supervisors of such other county, and thereupon copies of the clerk's certificates shall be transmitted to each county affected. If said petition contains sufficient signatures of electors residing in the county having the largest area within the proposed district, but the petition includes, nevertheless, land within another county or other counties, then the clerk of the board of supervisors of the county having the largest area within the proposed district shall transmit a certified copy of said petition and of his certificate to the board of supervisors of such other county or counties.

Hearing in county not having largest area in proposed district.

If the clerk's certificate or certificates indicate that the petition has been properly signed, the board of supervisors of the county or counties not having the largest area within the proposed district, shall, by resolution, fix a time and place for a hearing upon the question whether the territory described within the boundaries of such county will be benefited and should be included in the proposed regional park district. Notice of such hearing, specifying the time and place, shall be published twice in a newspaper of general circulation in the county conducting such hearing, the first publication to be at least ten days before the day of said hearing. Such hearing may be continued from time to time, but not exceeding four weeks in all. At the conclusion of such hearing, the board of supervisors conducting the same shall pass a resolution,

either approving in whole or in part the inclusion within the proposed regional park district of the territory within their county described in said petition, or disapproving the same; and if they approve it in part only, they shall in such resolution describe the territory in their county as to the inclusion of which they approve, and they shall thereupon cause a certified copy of said resolution to be immediately transmitted to the clerk of the board of supervisors of the county having the largest area within the proposed district.

Hearing in county having largest area in proposed district

The board of supervisors of said county having the largest area within the proposed district, shall then, by resolution, fix a time and place for a hearing upon the question whether the petition should be granted and further proceedings taken under this act, and whether the property described in the petition will be benefited and should be included in the proposed regional park district. Notice of such hearing, specifying the time and place, shall be published twice in a newspaper of general circulation in the county conducting such hearing, the first publication to be at least ten days before the day of said hearing. Said hearing may be continued from time to time, but not exceeding four weeks in all. At the conclusion of such hearing, the board of supervisors conducting the same shall pass a resolution, either approving the said petition in whole or in part, or denying the same; provided, that, if they approve it in part only, they shall describe in such resolution the territory proposed to be included in said regional park district; and provided, further, that they shall not include in said description any territory, the inclusion of which has not been approved by the board of supervisors of the county in which the same is located.

Where all the territory described in the petition is located entirely within one county, the board of supervisors of said county shall, after the same has been checked and certified by the clerk, proceed in the first instance as provided hereinabove for the county having the largest area within the proposed district.

Election.

SEC. 3. Election. The board of supervisors of the county having the largest area within the proposed district, shall, after the hearing provided for in section 2 hereof, if said petition has been approved in whole or in part, have jurisdiction to proceed further with the calling of an election within the boundaries of said proposed district as described in said resolution passed at the conclusion of said hearing, and shall, either as a part of the same resolution or by a later resolution, call an election within said proposed district for the purpose of determining whether the said proposed district shall be created and established, also for the purpose of electing the first board of directors therefor in case the same is created.

Division of district into wards

SEC. 4. Division of District Into Wards. Before calling said election the board of supervisors shall divide the proposed district into five wards or subdistricts, the boundaries of which

shall be so drawn that each shall contain approximately an equal number of electors, as nearly as may be. The municipalities and any other territory included in the proposed district may be divided for the purpose of establishing the boundaries of said wards or subdistricts, provided no election precinct shall be divided therefor.

Notice of election

SEC. 5. Notice of Election. Ballot. Canvass of Results. Upon establishing the wards as aforestated, the board of supervisors of said county shall give notice of an election to be held within the proposed district for the purpose of determining whether the same shall be created and established, also for the purpose of electing directors if established. Said notice shall state the name of the proposed district, and describe the boundaries thereof; it shall also describe the boundaries of the wards or subdistricts provided for the purpose of electing directors. Said notice shall be published once a week for at least three weeks before the day of said election in each municipality included in the proposed district. In case no newspaper of general circulation is published in any of the municipalities included therein said notice shall be posted for at least three weeks in not less than three public places in each of such municipalities. In case unincorporated territory is included therein said notice shall be posted for a like period in at least three public places in such unincorporated territory.

Ballot.

The ballot for said election shall contain such instructions as are required by law to be printed thereon, and in addition thereto shall appear thereon the following:

Shall the (giving the name thereof) regional park district be created and established?	Yes	
	No	

Said ballots shall also contain the names of the persons nominated in each ward to serve as a member of the board of directors from such ward, showing separately each ward and its nominees. Any person may be nominated for the office of director upon written petition of fifty or more qualified electors of the ward or subdistrict in which such person resides.

General laws to govern.

(a) General Laws to Govern. Said election, including the nomination and election of directors and all matters pertaining thereto not otherwise provided for herein, shall be held and conducted and the result thereof ascertained, determined and declared in accordance with the general election laws of the State, as nearly as may be, and no person shall be entitled to vote at said election unless he or she be a qualified elector of the territory included in the proposed district. Said election may be held on the same day as any other State, county or city election and be consolidated therewith.

Canvass of votes.

(b) Canvass of Votes. The election returns of said election shall be forwarded to the board of supervisors of the

county having the largest area within the proposed district, and said board of supervisors shall meet on Monday next succeeding the day of said election, and canvass the votes cast thereat, and shall order and declare said district created and established; provided, that a majority of those who shall have voted on the proposition shall vote in favor of the creation of said district. In case it appears from said canvass that a majority of the electors voting at such election shall have voted against the formation of the district, the proceedings shall fail entirely, and in that case there shall be no similar proceedings instituted within said territory within six (6) months from the date of said election.

No person shall be entitled to serve as a director unless he be a resident and elector of the district as finally determined, and any vacancies on the board of directors caused by the elimination of territory shall be filled by the remaining directors, in which case ward lines may be disregarded in their appointments thereof. Said board of supervisors shall also canvass the returns of the election with respect to the persons voted for as directors, and shall declare the persons receiving the highest number of votes, for each ward, respectively, to be duly elected as directors of said district, providing they are residents and electors thereof as finally determined.

Declaration of result

(c) Declaration of Result, Cost of Election. The board of supervisors of said county shall cause a certified copy of said order declaring said district created and established, declaring the result of such election, and describing the boundaries of the district, to be recorded with the county recorder of each county in which any portion of the district is situated and to be filed in the office of the Secretary of State of California, from and after which the creation and establishment of said regional park district shall be deemed complete, and the persons elected as directors thereof shall enter immediately upon their official duties after qualifying according to law. Said directors shall hold their respective offices only until the first Monday after the first day of January next following the next general election as provided by section 1041 of the Political Code, and until their successors are elected and qualified.

Cost of election

The board of supervisors calling the election shall make all provision for the holding thereof throughout the entire district as proposed, and shall pay the cost thereof. In case a special election is held exclusively on the proposition of organizing such a district, the expenditure therefor shall be reimbursed to the county which called the election by means of a special tax on all the taxable property within the municipalities and unincorporated territory which was proposed to be included in the district, which tax shall be added to the next county tax bills by the proper officials of the counties involved, respectively.

Informality not to invalidate proceedings.

(d) Informality Not to Invalidate Proceedings. No informality in any proceeding or in the conduct of said election,

not substantially affecting adversely the legal rights of any person, shall be held to invalidate the incorporation of any regional park district, and any proceedings wherein the validity of such incorporation is attacked shall be commenced within three months from the date of filing the aforesaid order with the Secretary of State; otherwise, such incorporation and the legal existence of said regional park district shall be held to be valid, and in every respect legal and incontestable.

Board of directors of district.

SEC. 6. Board of Directors of District. The government of every regional park district so created and established shall be vested in a board of five directors, one from each of the wards or subdistricts hereinafter mentioned, together with the other officers hereinafter mentioned. Said directors shall be residents and electors of the respective wards or subdistricts from which they are respectively nominated. They shall be elected at large, and every qualified elector in the proposed district may vote for all of the directors to be elected.

Subsequent elections.

SEC. 7. Subsequent Elections. Term of Directors. Except as otherwise provided herein, all subsequent elections and nominations of candidates for directors to be elected thereat shall be held and conducted in accordance with the general election laws of the State as near as they may be applicable.

Notice.

Notice of election shall be given by publication once a day for at least seven days in one or more newspapers of general circulation published and circulated at least six days a week in such district, or once a week for two weeks in some newspaper published less than six days a week in such district; and one insertion each week for two succeeding weeks shall be a sufficient publication in such newspaper published less than six days per week. In districts where no such newspaper is published, such notice shall be posted in three public places therein for two succeeding weeks. No other notice of such election need be given. Said notice shall refer to the wards as previously established by resolution or ordinance of the board of directors.

Conduct.

The board of directors shall in the notice, ordinance or resolution calling an election consolidate the same with the election to be held at the same time in the respective counties wherein the district is located and shall authorize the respective boards of supervisors to canvass the returns of such district election and certify the result of said canvass to the directors of said district and it shall be the duty of the board or boards of supervisors to so consolidate said election, canvass such returns and cause the result thereof to be properly certified to the board of directors of said district.

Such election shall be held in all respects as if there were only one election, and only one ticket or ballot shall be used thereat. Nomination papers shall be circulated throughout the district. Urgency.

SEC. 31. Urgency Measure. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of article four of the Constitution of the State of California and shall take effect immediately. The facts constituting such a necessity are as follows: Various regional regions exist within the State of California where the congestion of population has increased with great rapidity and no proper provisions have been made for adequate park and playground facilities and for property rights assuring an adequate approach to the beaches. That due to this condition, children are, in many instances, forced to conduct their outdoor play in the streets where their life and health are endangered by heavy traffic, and the public will soon be prevented from using the beaches for swimming or recreation, unless immediate steps are taken to preserve the permanent access to such beaches. That the lack of park and playground facilities and proper access to the beaches and other facilities for public recreation and outdoor exercise will,

unless taken care of promptly, become a general menace to life and health. That this act is necessary to afford the means of combined action in these matters by the different communities in the regional regions.

CHAPTER 1044.

An act to add a new section to the Political Code to be numbered 3714b, relating to expenditures of counties, cities and counties, municipalities, districts or other political subdivisions of the State, declaring the urgency thereof and to provide that this act shall take effect immediately.

[Approved by the Governor August 7, 1933. In effect immediately.]

The people of the State of California do enact as follows:

New section.

SECTION 1. A new section is hereby added to the Political Code to be numbered 3714b, to read as follows:

Application for permission to exceed limitation on expenditures.

3714b. The tax levying authority or the governing body of any county, city and county, municipality, district or other political subdivision of this State may apply to the State Board of Equalization for permission to exceed in any year the limitations on expenditures set forth in section 20 of Article XI of the Constitution of this State. The application shall be in writing and must be filed with the board at least thirty days before the date fixed for the determination of the tax rate of such county, city and county, municipality, district or other political subdivision for the year for which permission to exceed the limitations on expenditures is requested. The board shall meet to consider such application and shall grant a hearing thereon if requested by such tax levying authority or governing body. In acting upon any such application the board shall give due weight to changes

in population, economic conditions, and such other factors or circumstances as may influence or affect the need for increased governmental expenditures. Within twenty days after filing any such application, the board shall approve or disapprove such application either in whole or in part, and shall immediately send notice thereof to the tax levying or governing body making such application. Any increase authorized by the board as herein provided shall not be considered in determining the maximum amount permitted to be expended by any such county, city and county, municipality, district or other political subdivision during the succeeding year.

Action by board.

Reduction of school district expenditures

The board of supervisors of each county, or city and county, shall have power and it shall be its duty at the time of levying school district taxes to reduce the total amount of the expenditures of the school district proposed to be made during the current school year by such amount as may be necessary to prevent such proposed expenditures from exceeding the actual expenditures of the school district during the preceding school year by more than five per cent; provided that the board of supervisors shall not reduce the proposed expenditures of any school district which has secured written permission from the State Board of Equalization, or which has been authorized by a two-thirds vote of the electors thereof, to exceed the limitations on expenditures set forth in section 20 of Article XI of the Constitution of this State.

Revision of estimates

The superintendent of schools of each county, or city and county, shall have power at any time prior to the levy of school district taxes to revise estimates of income from the several sources as indicated in the budgets submitted by governing boards of school districts for the school year 1933–1934; provided that no revision of estimates of school district income so made shall operate to increase the expenditures proposed in such school district budgets.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution and should go into effect immediately.

The following is a statement of the facts constituting such necessity: County, city, and school district budgets for the 1933–1934 fiscal year are now in the process of preparation and must soon be finally prepared, approved and adopted. These budgets will be subject to the limitations contained in section 20 of Article XI of the Constitution and in view of the possible necessity of exceeding the constitutional limitations for unemployment relief and for other reasons it is essential that this act take effect immediately in order to provide the proper machinery for exceeding such limitations in the manner provided in section 20 of Article XI of the Constitution.

CHAPTER 1046.

An act making an appropriation to pay the claim of C. D. Plum against the State of California.

[Approved by the Governor August 22, 1933. In effect October 25, 1933.]

The people of the State of California do enact as follows:

Special appropriation.

SECTION 1. The sum of two thousand dollars ($2,000) is hereby appropriated out of any money in the State treasury not otherwise appropriated to pay the claim of C. D. Plum against the State of California.

CHAPTER 1047.

An act to amend section 4.377 of the School Code relating to school district tax rates, declaring the urgency thereof, and providing that this act shall take effect immediately.

[Approved by the Governor August 22, 1933. In effect immediately.]

The people of the State of California do enact as follows:

Stats. 1931, p. 2492.

SECTION 1. Section 4.377 of the School Code is hereby amended to read as follows:

School district tax rates.

4.377. Increase in tax rates, as provided in this article, shall remain in effect only for the period specified on the ballot.

The maximum rate of district tax of any school district, as said tax rate existed prior to August 21, 1933, shall continue to be the maximum rate of district tax for such school district until July 1, 1934.

Ch. 490, Stats. 1933, superseded

SEC. 2. The provisions of this act shall supersede the amendment of section 4.377 contained in the provisions of chapter 490 of the Statutes of 1933. It is hereby declared to be the intent of the Legislature that the said amendment contained in said chapter shall be without effect as to any portion thereof which conflicts with this act.

Urgency.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution, and shall, therefore, go into immediate effect.

The facts constituting the necessity are as follows:

A number of school districts in California have heretofore increased their maximum rates of school district tax under School Code sections 4.375, 4.376 and 4.377 of the School Code, under which sections the maximum rate of school district tax, as increased by the voters of a school district, remained the maximum rate of school district tax in such district until diminished or further increased by the voters thereof. Under

the provisions of chapter 490 of the Statutes of 1933, which becomes effective August 21, 1933, increases in the maximum tax rate of a school district may be made by the voters of a district only for a period specified on the ballot of the election for an increase in such rates. There is a grave possibility that chapter 490 of the Statutes of 1933 may be construed so as to have a retroactive effect, and thus render ineffective increases in the maximum school district tax rates heretofore voted by the electors of school districts. If such a construction is made, there will not be sufficient time between August 21, 1933, when said chapter 490 of the Statutes of 1933 takes effect, and the first day of September, when school district taxes are levied, to permit the voters of a school district to increase the maximum district tax rate established by law for such district. This would prevent the electors of a school district from voting the necessary increase in the maximum tax rate of such school district and would operate to the detriment of the public schools and the children attending upon such schools.

CHAPTER 1048.

An act to amend section 6¾ of the Inheritance Tax Act, relating to exemptions and rates of tax. Stats 1921, p 1500, amended.

[Approved by the Governor August 22, 1933 In effect October 25, 1933]

The people of the State of California do enact as follows:

SECTION 1. Section 6¾ of the act cited in the title hereof is hereby amended to read as follows: Stats. 1929, p 1834.

Sec. 6¾. Property of the clear value of twenty-five thousand dollars transferred to the wife of decedent shall be exempt and when the market value of such property or interest passed or transferred exceeds twenty-five thousand dollars, the rates of tax upon such excess shall be as follows: Exemptions. Rates of tax.

(a) Upon all in excess of twenty-five thousand dollars and up to fifty thousand dollars, two per centum of such excess.

(b) Upon all in excess of fifty thousand dollars and up to one hundred thousand dollars, four per centum of such excess.

(c) Upon all in excess of one hundred thousand dollars and up to two hundred thousand dollars, six per centum of such excess.

(d) Upon all in excess of two hundred thousand dollars and up to three hundred thousand dollars, seven per centum of such excess.

(e) Upon all in excess of three hundred thousand dollars, eight per centum of such excess.

[Approved by the Governor August 22, 1933. In effect immediately.]

The people of the State of California do enact as follows:

SEC. 22. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section 1 of Article IV of the Constitution and shall therefore go into immediate effect.

The facts constituting the necessity are as follows: The people of the State of California having on June 27, 1933, adopted an amendment to the Constitution of this State, providing, among other matters, that the Legislature shall apportion to each county, or city and county, of this State an amount equal to the entire amount required to be raised by each such county, or city and county, respectively, under the provisions of section 6 of Article IX of the Constitution, and providing that all sums so apportioned shall be considered as though derived from county and city county school taxes for the support of county and city and county government and not money provided by the State within the meaning of said section, it is imperative that legislation providing for the making of such apportionments be enacted immediately if the public elementary and high schools of this State are to be given the support guaranteed by the Constitution. Without such immediate support the public elementary and high schools of this State will be unable to serve the citizens of this State, and their children, who would therefore be deprived of the benefits of the public school system.

An act to amend section 3342 of the Civil Code, relating to liability of public officers, agents and employees, under unconstitutional statutes, declaring the urgency thereof, and providing that this act shall take effect immediately.

[Approved by the Governor August 25, 1933. In effect immediately.]

The people of the State of California do enact as follows:

SECTION 1. Section 3342 of the Civil Code is hereby amended to read as follows:

Stats 1933, Ch 248

Liability of public officers, etc., acting under statutes later declared unconstitutional.

3342. A State, county, district, or municipal officer, agent, or employee, or any officer, agent, or employee of any political subdivision, acting in good faith and without malice under the apparent authority of any law of this State, whether enacted by the Legislature or by the people of the State through initiative action, which law subsequently is judicially declared to be unconstitutional as in conflict with the Constitution of this State or of the United States, shall not be held civilly liable in any action in which he would not have been liable if such law had not been declared unconstitutional, nor shall he be liable to any greater extent than he would have been if such law had not been declared unconstitutional.

SEC. 2. The provisions of this act shall supersede the provisions of section 3342 of the Civil Code contained in Chapter 248 of the Statutes of 1933. It is hereby declared to be the intent of the Legislature that said provisions contained in said chapter shall be without effect as to any portion thereof which conflicts with this act.

Urgency.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of section 1 of Article IV of the Constitution, and shall therefore go into effect immediately. The following is a statement of the facts constituting such necessity:

There are at the present time many irrigation, reclamation and other districts operating in this State under general statutes the constitutionality of which has never been determined by the higher State courts. For this reason the officers of such districts are hesitant about performing certain of their duties provided by said statutes, thereby jeopardizing the best interests of the people of such districts. The provisions of this act will relieve district officers, agents and employees of any greater liability which would result if the statute under which they act is subsequently declared unconstitutional.

If a purchaser for any bad or doubtful debt or claim can not be obtained and it appears improbable that recovery thereon can be had and that the costs of action to enforce collection of the same would probably be lost, the court may direct that suit thereon need not be brought. For the purpose of executing and performing any of the powers and duties hereby conferred upon him, the commissioner may in the name of such association or in his own name prosecute and defend any and all suits and other legal proceedings and may in the name of such association or in his own name as commissioner execute, acknowledge and deliver any and all deeds, assignments, releases, requests for reconveyance, and other instruments necessary and proper to effectuate any sale of real or personal property or other transaction in connection with the liquidation of such association; and any deed, assignment, release, request for reconveyance or other instrument executed pursuant to the authority hereby given shall be valid and effectual for all purposes as though the same had been executed by the officers of such association by authority of its board of directors. In case any of the real property so sold is located in a county other than the county in which the application to the court for leave to sell the same is made, the commissioner shall cause a certified copy of the order authorizing or ratifying such sale to be recorded in the office of the recorder of the county in which such real property is located.

Inventory of assets

Upon determining to liquidate an association, the commissioner shall cause an inventory of all the assets of such association to be made in duplicate, the original to be filed with the court and the duplicate in the office of the commissioner.

Notice to creditors

He shall cause notice to be given by publication once a week for four successive weeks in some newspaper of general circulation published at or near the principal place of business in this State of such association, to all persons having claims against it as creditors or investors or otherwise, to present and file same and make legal proof thereof at a place and within a time to be designated in such publication, which time shall be not less than two months after such first publication; and within ten days after such first publication he shall cause a copy of such notice to be mailed to all persons whose names appear of record upon its books as creditors or investors; and upon the expiration of the time fixed for the presentation of claims, the commissioner shall prepare or cause to be prepared in duplicate a full and complete schedule of all claims presented, specifying by classes those that have been approved

and those that have been disapproved and shall file the original with the court and the duplicate in the office of the commissioner. Not later than five days after the time of filing such schedule with the court, written notice shall be mailed to all claimants whose claims have been rejected. Action to enforce the payment of or to establish any rejected claim must be brought and service had within four months from and after the date of filing of the schedule of claims with the proper court; otherwise all such actions shall be forever barred. All claims of creditors, investors or other persons against the association or against any property owned or held by it must be presented to the commissioner in writing verified by the claimant or some one in his behalf within the period limited in the above-mentioned notice for the presentation of claims; and any claim not so presented shall be forever barred; provided, however, that the claim of any investor, appearing upon the books of the association to be a valid claim, presented after the expiration of the time fixed in said notice, shall be entitled to share in any dividends declared subsequent to the presentation of such claim.

Rejected claims.

Presentation of claims

The commissioner may under his hand and official seal appoint one or more special deputies to assist in the duties of liquidation and distribution under his direction and may also employ such special legal counsel, accountants and assistants as may be needful and requisite and fix the salaries and compensation to be allowed and paid to each. All such salaries and compensation with such other reasonable and necessary expenses as may be incurred in the liquidation shall be paid by the commissioner from the funds of such association in his hands. From the net realization of assets in excess of such salaries, compensation and expenses, the commissioner shall first pay all approved claims other than to shareholders and stockholders, without distinction or preference as between the claims of certificate holders and other creditors; and thereafter he shall distribute and pay dividends in liquidation first to the shareholders until their claims are fully paid or such assets or funds are exhausted, and second, if any such assets or funds remain, to the stockholders until such assets or funds are exhausted; provided, however, notwithstanding anything to the contrary herein contained, in the case of any association in which shareholders shall have heretofore been granted the right and option by the association to exchange their shares for investment certificates of equal value he shall distribute and pay dividends in liquidation to such shareholders without distinction or preference as between the claims of such shareholders and the claims of certificate holders and other creditors. Such distributions shall be made as funds are available therefor to the extent of ten per cent or more of the approved claims of the class of claimants then entitled to distribution, and shall continue until all the assets have been realized upon and a final dividend in liquidation shall be declared and paid.
