CHAPTER 5

Stats 1939, p 82, amended

An act to amend Sections 6830 and 6870 of, and to add Section 6879.5 to, the Health and Safety Code, relating to the annexation of territory to a sanitary district, declaring the urgency thereof, and providing that it shall take effect immediately.

In effect immediately

[Approved by Governor January 24, 1941. Filed with Secretary of State January 24, 1941.]

The people of the State of California do enact as follows:

Stats 1939, p 664 See also Stats 1941, p. 1295

SECTION 1. Section 6830 of the Health and Safety Code is hereby amended to read as follows:

Territory may be annexed

6830. In the manner provided in this part, there may be annexed to a district any of the following territory which is in the same county as the district:

(a) Any territory contiguous to the district.

(b) Any territory separated from the district by a "separating barrier," which term includes a street, road, highway, railway line, railway crossing, railway right of way, water course, lagoon, or other natural barrier.

Any territory specified in this section may consist of one or more separate parcels of land, but it is not necessary that all parcels shall constitute in the aggregate one tract of land.

Stats 1939, p. 666

SEC. 2. Section 6870 of the Health and Safety Code is hereby amended to read as follows:

Annexation without election

6870. Any territory specified in Section 6830 of this code may be annexed without an election in the following manner.

New section

SEC. 3. Section 6879.5 is hereby added to the Health and Safety Code, to read as follows:

Exclusion of "separating barrier"

6879.5. If there is or has been presented to the board a petition containing the signatures of owners of real property in the territory proposed to be annexed, which real property represents at least 75 per cent of the total assessed valuation of the territory exclusive of any potential "separating barrier," as defined in Section 6830 of this code, the board may, in the manner specified in this article, proceed to publish the petition and notice of hearing and hear the petition. If, at the hearing, the board finds (a) that the territory described in the petition contains any potential "separating barrier," and (b) that such potential "separating barrier" would not be benefited by annexation and should be excluded from the territory to be annexed, the board shall modify the boundaries of the territory proposed to be annexed as set forth in the petition by excluding the "separating barrier."

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity: Urgency

Many sanitary districts have been organized in this State to provide sewage and drainage facilities necessary for the public health and safety and upon their organization have found it necessary to annex certain adjacent territory in order to provide sewage and drainage facilities immediately necessary for the public health of the inhabitants thereof. In many instances such annexed territory is technically separated from the district to which it is to be annexed by railroad crossings, rights of way, public streets, highways and streams, which condition does not change the essential contiguous character of the territory to be annexed, but by reason of legal doubts arising from such technical separation, such contiguous territory has not been able to receive the benefits of sewage and drainage facilities. Unless such annexed territory can be incorporated prior to February 1, 1941, the inhabitants thereof will be deprived of sanitary and sewage facilities for more than a year, thereby endangering the lives of the inhabitants and leading to possible epidemics deleterious to the public health and safety of the people of the State of California.

CHAPTER 6

An act to legalize bonds heretofore issued and sold or to be issued and sold by municipalities for flood control purposes under an act, or under color of an act entitled "An act authorizing the incurring of indebtedness by cities, towns and municipal corporations for municipal improvements, and regulating the acquisition, construction or completion thereof," which became law under constitutional provision without Governor's approval on February 25, 1901, where authority for such issuance has already been given by a vote of not less than two-thirds of the electors of such municipality voting upon the question of incurring such indebtedness and providing for a levy of taxes to pay the principal and interest of such bonds and declaring that this act shall take effect immediately.

Stats 1901, p 27

[Approved by Governor January 29, 1941. Filed with Secretary of State January 29, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. In all cases in which proceedings have been taken for the authorization and issuance of bonds of any municipality in this State for flood control purposes under an act, or Validation of proceedings: Flood control bonds

Stats 1901, p. 27

under color of an act entitled "An act authorizing the incurring of indebtedness by cities, towns and municipal corporations for municipal improvements, and regulating the acquisition, construction or completion thereof," which became law under constitutional provision without Governor's approval on February 25, 1901, and where the proposition of issuing such bonds has been submitted to the qualified electors of the municipality at an election held for the purpose of voting thereon, and not less than two-thirds of the voters voting upon such proposition voted for the issuance of such bonds, the power to issue such bonds under said act of 1901, as amended, and all of the acts and proceedings leading up to and including the issuance and sale of such bonds if such bonds have heretofore been issued and sold, and all acts and proceedings heretofore taken if such bonds have not been issued and sold, are hereby legalized, ratified, confirmed, validated and declared

Validation of bonds

legally effective. The bonds heretofore issued and sold are declared to be and shall be, in the actual form in which such bonds have been issued, the legal and binding obligations of the municipality issuing the same, and bonds hereafter issued and sold are declared to be and shall be the legal and binding obligations of the municipality issuing the same, and the full faith and credit of the municipality is hereby pledged for the prompt payment and redemption of the principal and interest of said bonds as the same mature.

Tax levy

SEC. 2. The legislative branch of such municipal corporation shall at the time of fixing the general tax levy and in the manner for such general tax levy provided, levy and collect annually each year until said bonds are paid, or until there shall be a sum in the treasury of said municipal corporation set apart for that purpose sufficient to meet all sums coming due for the principal and interest on such bonds, a tax sufficient to pay the annual interest on such bonds as the same becomes due, and also such part of the principal thereof as shall become due before the proceeds of a tax levied at the time for making the next general tax levy can be made available for the payment of such principal; provided, however, that if the maturity of the indebtedness created by the issue of bonds be made to begin more than one year after the date of the issuance of such bonds, such tax shall be levied and collected at the time and in the manner aforesaid annually each year, sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof on or before maturity. The taxes herein required to be levied and collected shall be in addition to all other taxes levied for municipal purposes and shall be collected at the time and in the same manner as other municipal taxes are collected and be used for no other purpose than for the payment of said bonds and the accruing interest thereon.

Exception

SEC. 3. This act shall not operate to legalize any bonds of any municipality that have not, at the time of the passage of this act, been authorized by the vote of not less than two-thirds

of the qualified electors of such municipality voting at any such election, or any bonds which have been sold for less than their par value, or any bonds which mature at a date more than 40 years from the time of their issuance.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity: Cities in this State have taken proceedings to incur bonded indebtedness for the construction of public works necessary to control flood waters that constitute a menace to life, health and property within such municipalities. Due to severe rain storms and floods of 1938, 1939, and 1940, perilous flood conditions have been created which menace municipalities of this State. Due to the change of courses of flood channels and the filling of natural water courses with sand and debris, many of said water courses are in such condition that even a minor flood may result in loss of life and heavy property damage due to the inadequacy of such natural courses to carry normal flows of storm waters. In the issuance of such bonds purported irregularities in such proceedings have delayed and will delay the issuance of the bonds voted and will prevent such municipalities obtaining necessary funds. The immediate validation of such bonds will permit the sale thereof at once or in the near future and will permit the immediate beginning of the necessary public improvements to control the flood and storm waters that now menace such cities, and thereby preserve and protect the public peace, health and safety. An act to repeal Sections 3519 and 3520 of, and to add Section 3520 to the Revenue and Taxation Code, relating to property taxation and property deeded to the State for taxes, to take effect immediately. Stats 1939, p 1274, amended

[Approved by Governor January 29, 1941. Filed with Secretary of State January 29, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Sections 3519 and 3520 of the Revenue and Taxation Code are hereby repealed. Repeals

SEC. 2. Section 3520 is hereby added to the Revenue and Taxation Code, to read as follows: New section See also Stats 1941, p 2463

3520. As used in this section, "lien" includes any lien for: "Lien"

(a) Interest and penalties or both on taxes or assessments or both.

(b) Amounts payable to cities or for their account on redemption of property from sale for taxes, assessments, or other amounts.

Title conveyed to State

The deed conveys to the State the absolute title to the property, free of all encumbrances, except:

(1) Liens for taxes levied for municipal, irrigation, reclamation, protection, flood control, public utility or other district purposes.

(2) Liens for special assessments collected on tax rolls.

(3) Liens or assessments for other amounts which by law are collected on tax rolls by or for account of cities.

When the land is owned by the United States or this State, the deed is prima facie evidence of the right of possession accrued as of the date of the deed without prejudice to the taxes or assessments which are a lien upon the property.

Operative date

SEC. 3. The provisions of Sections 1 to 2, inclusive, of this act are not operative until February 1, 1941, on and after which date they become and continue operative and applicable.

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately.

The following is a statement of facts constituting such necessity:

The Revenue and Taxation Code was given a future effective date in order that all officers and persons concerned with the administration of the law dealing with property taxation might become thoroughly familiar with the provisions of the code before commencement of operation under it. Also, it was contemplated that any incongruities, conflicts or errors in the text of the code would be discovered prior to the date fixed for the code becoming effective. As the first Monday in March, the lien date for property taxes, sets in motion the complex procedure for the assessing and collection of taxes for the next fiscal year, it was essential that the code take effect prior to the lien date. Likewise, it is imperative that the amendments to the Revenue and Taxation Code made by this act become effective prior to the lien date. It is also essential that this act, which corrects incongruities, conflicts and errors discovered in the text of the code, become effective no later than the effective date of the code in order that the transition from operating under the existing provisions of law to acting under the code may be made with a minimum of confusion and with the greatest continuity of action. For this act not to go into effect immediately would result in untold hardship to taxpayers and unnecessary litigation, possibly resulting in delayed collection or loss of large amounts of taxes.

claims and expenses, to be known as the "general tax" of the district. Said bond tax shall be levied upon such portion or all of the district benefited by said bonded debt, as stated by the board in its resolution declaring the necessity of incurring such bonded debt; said water tax shall be levied on such

portion or all of the district as is benefited by any such water system and as may be designated by resolution of the board, and said general tax shall be levied on all the property within the district.

Ascertainment of rate of tax

In ascertaining the rates of taxation to be levied, 15 per centum shall be deducted for anticipated delinquencies from the aggregate value of property to be levied on in respect of each separate rate, as shown by the assessment roll of the district, and then the sum necessary to be raised shall be divided by the remainder of the proper aggregate assessed value. The secretary must forthwith compute and enter in a separate column of the assessment roll the respective sums in dollars and cents, rejecting fractions of a cent, to be paid on the respective properties therein enumerated.

SEC. 4. Section 37.1 of said act, as amended, is hereby amended to read as follows:

Segregation and separate valuation of parcels

Sec. 37.1. At any time after taxes are due and prior to the date when the last installment of taxes becomes delinquent, any person, firm or corporation claiming any interest in any lot, piece, parcel, fractional part or undivided interest in land, which does not have a separate valuation on the assessment roll, may have the same segregated and separately valued on said roll in the manner hereinafter set out.

Application for segregation

Each applicant for segregation shall file with the collector an application for segregation and pay to the collector, for the district, a fee of fifty cents ($0.50) for each part into which the land is to be segregated. The collector shall forthwith submit a description of said lot, piece, parcel, fractional part, or undivided interest, together with the proposed segregation, to the assessor who must place a separate valuation on each part into which the land is to be segregated and on the improvements thereon and the relative proportion of the personal property, the tax on which is a lien thereon. The aggregate amount of assessed valuation of the parts so segregated shall remain the same as before such segregation. The assessor must transmit such valuations to the collector who shall cause a description of the parts of the property, together with separate valuations, to be entered on the assessment roll and compute and extend the tax and penalties, if any, and cancel the original description, valuation and tax and penalties, if any. Thereafter taxes, including proportionate accrued penalties, if any, on each segregated part may be paid separately from the whole assessment. The fee above specified shall not be required when any part of the land to be segregated has been twice assessed for the year in question.

In case the board of directors of the district shall find that any property has been assessed in any year more than once, or has been assessed by reason of a clerical error for more than its full cash value, or the assessment computed on an excessive acreage, or that any property assessed was not

in the district when so assessed, or was not legally assessable by the district, the board may authorize the collector to cancel or modify any such assessment as may be proper, and, in case of any such change in any assessment, the secretary shall credit the collector with the amount of said assessment, if it is canceled, or the amount by which it is reduced, if it is modified.

Cancellation of certificate or deed

If real property has been sold to the district for nonpayment of any tax levied as described in this section and a certificate of sale or deed therefor has been recorded, the order of the board shall also cancel such certificate or deed and shall be recorded.

Refunds

Any taxes, penalties or costs thereon, or portions thereof, provided for by this act, heretofore or hereafter paid more than once, or heretofore or hereafter erroneously or illegally collected, may, by order of the board of directors, be refunded by the district.

Verified claim

No order for the refund of taxes, penalties or costs under this section shall be made except on a verified claim therefor, verified by the person who has paid said taxes, penalties or costs, or by his guardian, or, in case of his death, by his executor or administrator, which said claim must be filed within one year after the making of the payment sought to be refunded.

Partial redemption

Sec. 46. In all cases where a lot, piece or parcel of land contained in any assessment has been sold or may hereafter be sold to the district for delinquent taxes and the time

for redemption has not expired, a partial redemption may be made by the owner or any person in interest separately from the whole assessment of any such lot, piece or parcel of land as follows: All applications for partial redemption shall be made to the collector, who shall collect from the applicant, for the district, a fee of fifty cents ($0.50) for each part into which the land is to be divided, under the application. If such lot, piece or parcel of land has a separate valuation shown on the assessment roll, the collector shall estimate the amount due according to the valuation shown on the assessment roll, and the redemption shall be made in the manner provided for in Sections 44 and 45 of this act. If such lot, piece or parcel of land or such fractional part of such lot, piece or parcel of, or undivided interest in, land does not have a separate valuation shown on the assessment roll, the collector shall submit the description on the assessment roll and the description of the lot, piece or parcel of land, or the fractional part thereof, or undivided interest therein, upon which redemption is requested, to the assessor, who must place a valuation thereon and on the improvements thereon and the relative proportion of the personal property, the tax on which is a lien thereon. The collector shall then enter on the assessment roll the description of the property to be redeemed and the property not to be redeemed, together with the separate valuations thereof, and extend the taxes, penalties, interest and costs and cancel the original description, valuation, tax, penalties and costs. Thereupon such redemption shall be made in the manner provided for in Sections 44 and 45 of this act. Upon the filing with the recorder of the certificate of partial redemption, the recorder shall note on the margin of the certificate of sale the words "Partially Redeemed" and the filing number and date of filing of the certificate of partial redemption. Urgency

SEC. 18. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately.

The facts constituting such necessity are as follows: One or more county water districts operating under the alternative tax provisions set out in Sections 30 to 51, inclusive, of the act have found that great savings of expense in tax assessment and collection can be made by turning over to county officers the collection of certain district taxes and retaining in the hands of district officers the collection of other taxes. The taxpayers of such districts are heavily burdened with taxation and must be given prompt relief from such unnecessary and excessive costs. Unless this act can go into effect immediately, it will be impossible to change the present system in the 1941 tax year.

Large amounts of property in such districts have been tax deeded to such districts and it is essential that certain of the foregoing amendments be promptly effective in order to enable the early return of such properties to the tax rolls, by facilitating quieting title and sales as early as possible.

Also technical clarifying amendments in respect of certain of said Sections 30 to 51, inclusive, should take effect immediately, in order to be applicable to 1941 tax proceedings.

Stats 1937, p. 185, amended

An act to add a new section to the Labor Code, to be numbered 204a, relating to the time for payment of wages of workers who are employed by employers who cooperate to establish a plan for the payment of wages at a central place or places in accordance with a unified schedule of pay days, this act to take effect immediately.

In effect immediately

[Approved by Governor January 30, 1941. Filed with Secretary of State January 30, 1941.]

The people of the State of California do enact as follows:

New section

SECTION 1. Section 204a is added to the Labor Code, to read as follows:

Payment at central place

204a. When workers are engaged in an employment that normally involves working for several employers in the same industry interchangeably, and the several employers, or some of them, cooperate to establish a plan for the payment of wages at a central place or places and in accordance with a unified schedule of pay days, all the provisions of this chapter except 201, 202, and 208 shall apply. All such workers,

including those who have been discharged and those who quit, shall receive their wages at such central place or places.

This section shall not apply to any such plan until 10 days after notice of their intention to set up such a plan shall have been given to the Labor Commissioner by the employers who cooperate to establish the plan. Having once been established, no such plan can be abandoned except after notice of their intention to abandon such plan has been given to the Labor Commissioner by the employers intending to abandon the plan.

SEC. 2. This act is hereby declared an urgency measure, being necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and as such shall take effect immediately. The facts constituting such necessity are as follows: Workers employed in certain industries of this State, because of the many employers for whom they work, experience great difficulty and hardship in the collection of their wages. The immediate effectiveness of this act is necessary so that a central wage payment plan can be set up to make possible the collection at a single time and place of wages earned in the employment of several different employers.

The people of the State of California do enact as follows:

SECTION 1. The Los Angeles Industrial Workshop Revolving Fund, heretofore created in the sum of twenty thousand dollars ($20,000) is hereby increased to forty thousand dollars ($40,000). SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall go into immediate effect.

Urgency

The following is a statement of the facts constituting such necessity:

The Los Angeles Industrial Workshop has contracted with various agencies of the United States Government to manufacture for the Army and Navy various items vitally needed for the National defense. These orders are large and large quantities of raw materials must be purchased for manufacture. The present revolving fund is not of sufficient size to permit the buying of the raw materials in the quantities needed in the period of time dictated by the National defense urgency.

An act relating to the operation of motor vehicles used in unemployment cooperative relief work, and declaring the urgency thereof and that this act shall go into immediate effect.

In effect immediately

The people of the State of California do enact as follows:

Permits for vehicles used in unemployment cooperative relief work

SECTION 1. (a) The Department of Motor Vehicles may, during the registration years of 1941 and 1942, issue a permit for any motor vehicle used exclusively in unemployment cooperative relief work by any cooperative association operating without profit, dues, or the payment of any salaries in the distribution of goods, wares and merchandise from one place to another, which permit shall allow the operation of any such motor vehicle while so used without the payment of the registration fees required by law.

Affidavit

(b) Every application for permit hereunder must be accompanied by an affidavit duly verified by the owner of the motor vehicle or motor vehicles for which permit is requested, which affidavit shall set forth such facts as in the opinion of the Department of Motor Vehicles will enable the department to determine if such vehicle or vehicles are entitled to be operated under such permit without payment of the registration fees therefor. The department shall withhold registration of the vehicles herein mentioned until it shall be convinced by affidavits of the applicant or upon evidence submitted by the county, State, or Federal relief authorities that the vehicles will be used exclusively for the purposes herein stated.

Operative date

SEC. 2. The provisions of this act shall operate and apply to registration during the registration year of 1941, as well as that of 1942, with the same force and effect as if it had gone into operation and effect as a statute on January 1, 1941.

Penalty

SEC. 3. Any person filing a false affidavit hereunder for the purpose of securing an exempt registration for license plates shall be guilty of a misdemeanor.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and as such shall go into immediate effect. Urgency

The following is a statement of facts constituting such necessity:

There are throughout the State of California a great number of unemployed and destitute people. Many persons and agencies have made available for the relief of such unemployed and destitute persons divers goods, wares and merchandise. It is necessary for the proper distribution of such goods, wares and merchandise that transportation facilities be furnished. Many persons own or possess motor vehicles, motor trucks, trailers and semitrailers available for the solicitation or transportation of such goods, wares and merchandise but such persons are financially unable to pay the required fees for the registration of such vehicles and the prompt and efficient distribution of the same and immediate unemployment relief will be impossible if this act does not go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 952 of the Agricultural Code is hereby amended to read as follows: Stats 1933, p 227

therefore shall take effect immediately. The facts constituting such necessity are as follows:

Since 1925 cotton growers in Riverside County have been restricted by law to the growing of one variety of short-staple cotton, to wit, Acala cotton. At present, due to war conditions, there is practically no open market for short-staple cotton, practically all such cotton being pledged for loans from the United States; such loans are hardly greater than the cost of production and growers are restricted by the United States from growing such cotton on more than a small percentage of their land. Long-staple cotton, on the other hand, has an open market, with active demand; the market price is greater than the government loans and no acreage restriction exists.

Cotton growers in Riverside County have generally, for many years, due to low prices and restriction of acreage with great difficulty received enough net income to support their families and many of them have been forced to quit farming and go on relief. If they can be permitted to plant long-staple cotton in the 1941 cotton season, which commences March 1, 1941, they will have a better opportunity to remain independent and self-supporting and the State Treasury will not be drawn on for their maintenance.

[Approved by Governor February 1, 1941. Filed with Secretary of State February 1, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Chapter 66 of the First Extraordinary Session of 1940, referred to in the title hereof, is hereby repealed. Stats. 1941, p. 175

SEC. 2. Section 33 of Chapter 47 of the First Extraordinary Session of 1940, referred to in the title hereof, is hereby repealed. Stats. 1941, p. 175

(a) The provisions of this act making amendments to the Revenue and Taxation Code shall take effect on the effective date of this act.

(b) The sections of the Political Code amended by this act are hereby repealed.

(c) All provisions added to the Political Code by this act shall take effect for one day and are then hereby repealed.

Sec. 35. This act may be known and cited as "The Tax Redemption Termination Act." Short title

SEC. 5. It is hereby declared to be the legislative intent in enacting this act to prevent any of the provisions of Chapter 47 of the First Extraordinary Session of 1940 from becoming effective prior to June 1, 1941. Notwithstanding the amending of Section 33 of Chapter 47 of the First Extraordinary Session of 1940 by Chapter 66 of the First Extraordinary Session of 1940, it is the intent of the Legislature to defer the effective date of any and all of the provisions of Chapter 47 and prevent the same from going into effect on the ninety-first day after final adjournment of the First Extraordinary Session of 1940. Declaration of intent

Urgency

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately.

The following is a statement of facts constituting such necessity:

Chapter 47 of the First Extraordinary Session of 1940 makes a revolutionary change in the law of property taxation as administered in this State. It will terminate the right of redemption both as to property deeded to the State for delinquent taxes prior to the effective date thereof as well as property deeded to the State for taxes subsequent thereto. After its enactment it was discovered that if its provisions as enacted were allowed to become effective, untold suffering would befall the citizens of the State of California whose property has become tax delinquent through no fault of their own, and who are now able or will be able within the near future to redeem their property due to the financial recovery now being experienced in this State. Also, it was discovered that the provisions of Chapter 47 are especially onerous to property owners whose property has been deeded to the State for delinquent assessments levied by assessment districts, which assessment districts are in the process of being or will shortly be refunded. To allow the provisions of Chapter 47 of the First Extraordinary Session of 1940 to become effective in their present form will ultimately result in the loss of large amounts of taxes, interest and penalties which would otherwise be recovered, as well as imposing great hardship on the citizens of the State of California.

CHAPTER 16

An act to validate the organization, boundaries, governing officers or boards, acts, proceedings, and bonds of school districts, to take effect immediately.

In effect immediately

[Approved by Governor February 1, 1941. Filed with Secretary of State February 1, 1941.]

The people of the State of California do enact as follows:

"School district"

SECTION 1. "School district," as used in this act, means any school district of whatever kind or class.

Validation Organization

SEC. 2. All school districts heretofore organized and functioning under, or under color of, any law, and all school districts which have been acting and existing for a period of three (3) months prior to the taking effect of this act are hereby declared to have been legally organized and to have been legally functioning as school districts. Every such district shall have all the rights, powers, and privileges, and be

subject to all the duties and obligations, of a school district regularly formed pursuant to law.

Boundaries

SEC. 3. The boundaries of every school district as heretofore established, defined, or recorded are hereby confirmed, validated, and declared legally established.

Governing officers

SEC. 4. In so far as any other matter to which this act relates is or may be affected, the members of the governing board or the governing officers of every school district heretofore elected or appointed and acting as such, are hereby declared legally appointed or elected, qualified and acting members of such board or officers of such district.

Bonds

SEC. 5. All acts and proceedings heretofore taken by any person or officer for the issuance, sale, or exchange of bonds of any such district for any public purpose are hereby confirmed, validated, and declared legally effective. This includes all acts and proceedings of the governing board of such district, of the electors, election officers, and of any other public officer or agency heretofore done or taken in connection with any election upon the question of the issuance, sale, or exchange of such bonds, if any election be required by law.

All of such bonds heretofore issued and delivered shall be, in the form and manner in which issued and delivered, legal, valid and binding obligations of the school district, and all of such bonds heretofore authorized but not yet issued and delivered shall be, when issued and delivered in substantial pursuance of the proceedings of authorization, legal, valid and binding obligations.

Expenditure of money

The expenditure of money arising from the issue, sale, or exchange of bonds for the purposes stated in proceedings for the issuance of such bonds is hereby authorized.

Scope of act

SEC. 6 This act is limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions, and it is the intent of this Legislature herein to validate the organization and existence of all school districts and all bonds issued by any school district and all proceedings to authorize bonds of school districts in so far as the Legislature has power to correct the defects, irregularities, or errors in the organization or creation of such school districts or in the issuance of bonds of such school districts.

Exceptions

Nothing contained in this act shall be construed to render the creation of any school district, or any change in the boundaries of any school district, effective for purposes of assessment or taxation unless the statement, together with the map or plat, required to be filed under Section 3720 of the Political Code, is filed in the manner and within the time required by that section.

Urgency

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and

shall take effect immediately. The following is a statement of the facts constituting such necessity:

Bonds have been voted by school districts for the construction of needed school buildings. In some districts the schools are overcrowded, in some the buildings now used have been condemned as unsafe for public use, and in some districts children now travel long distances, with the attendant hazards of traffic, to attend school in the present buildings, and the public health and safety require that adequate, safe and convenient school buildings be provided immediately. Bonds have been voted by certain districts to correct the conditions above mentioned but in some instances the bonds are not salable because of failure to comply with the School Code in the proceedings for the creation of the school district or in the proceedings for the issuance of bonds. The defects in such proceedings will be cured by this act and if it takes effect immediately such bonds can be issued and sold and construction begin so that the buildings will be ready for use at the beginning of the next school year. Otherwise it will not be possible for the districts to remedy the above mentioned conditions during the next school year.

Stats 1913, p 76, amended

An act to amend the title and Sections 1 and 2 of an act entitled "An act authorizing the investment and reinvestment and dispositions of any surplus moneys in the treasury of any county, city and county, incorporated city or town, or municipal utility district, or flood control district," approved April 23, 1913, relating to the investment of surplus moneys in the treasury of any county, city and county, incorporated city or town, municipal utility district, irrigation district or flood control district, and declaring the urgency hereof, to take effect immediately.

[Approved by Governor February 1, 1941. Filed with Secretary of State February 1, 1941.]

The people of the State of California do enact as follows:

Stats 1927, p 29

SECTION 1. The title of the act cited in the title hereof is hereby amended to read as follows:

Title

An act authorizing the investment and reinvestment and dispositions of any surplus moneys in the treasury of any county, city and county, incorporated city or town, municipal utility district, irrigation district, or flood control district.

Stats 1937, p 2489

SEC. 2. Section 1 of said act is hereby amended to read as follows:

Investment of surplus funds

Section 1. Any county, city and county, incorporated city or town, municipal utility district, irrigation district, or flood control district, which now has, or hereafter shall have, any surplus money in the treasury thereof, not required for the

immediate necessities of the said county, city and county, incorporated city or town, municipal utility district, irrigation district, or flood control district, is hereby authorized to invest such portion of any such surplus as to the governing body of the said county, city and county, incorporated city or town, flood control district, irrigation district, or municipal utility district, may be deemed wise or expedient in any bonds already issued or hereafter issued by such county, city and county, incorporated city or town, flood control district, irrigation district or municipal utility district respectively, or in bonds already issued or hereafter issued by any metropolitan water district, county water district or by any school district situated in whole or in part within the limits of such county, city and county, incorporated city or town, or within any county in which any part of such flood control district, irrigation district, or municipal utility district concerned is situated, or in bonds already issued or hereafter issued by the State of California, or the United States, or in any registered warrants already issued or hereafter issued by the State of California, and such investment may be made by direct purchase of any issue of bonds or registered warrants, or part thereof, at the original sale of such bonds or registered warrants, or by the purchase of such bonds or registered warrants after they have been thus issued. Any bonds or registered warrants thus purchased and held may, from time to time, be sold and the proceeds reinvested in bonds or registered warrants as above provided. Sales of any bonds or registered warrants thus purchased and held shall, from time to time, be made in season so that the proceeds may be applied to the purposes for which the money, with which the bonds or registered warrants were originally purchased, was placed in the treasury of the county, city and county, incorporated city or town, municipal utility district, irrigation district, or flood control district.

Sale of bonds

SEC. 3. Section 2 of said act is hereby amended to read as follows:

Stats 1927, p 29

Sec. 2. The functions and duties of this act authorized shall be performed by the legislative or governing body of the county, city and county, incorporated city or town, municipal utility district, irrigation district, or flood control district, or under its authority.

Bodies authorized to act

SEC. 3. This act is hereby declared to be an urgency measure within the meaning of Section 1 of Article IV of the Constitution necessary for the immediate preservation of the public peace, health and safety, and as such shall take effect immediately.

Urgency

The facts constituting such emergency are as follows:

Irrigation districts now have surplus funds in their treasuries upon which they are receiving no or slight return, the loss of which income adds in direct proportion to the assessment rates in the districts, which causes additional delinquent assessments, endangering the public peace, health and safety.

CHAPTER 18

Stats 1937, p 2035, amended

An act to amend Section 152.5 of the State Civil Service Act, relating to the right of reinstatement of State civil service employees entering military service, declaring the urgency thereof, and providing that this act shall take effect immediately.

In effect immediately

[Approved by Governor February 3, 1941 Filed with Secretary of State February 4, 1941.]

The people of the State of California do enact as follows:

Stats 1941, p 355

SECTION 1. Section 152.5 of the State Civil Service Act is hereby amended to read as follows:

Leaves during war or emergency

Sec. 152.5. Whenever the United States is engaged in war or whenever the Governor finds and proclaims that an emergency exists in preparing for the National defense, any permanent or probationary civil service employee of the State, in good standing who enters the military service of the United States, whether voluntarily or otherwise, shall have the absolute right to be restored to his former position with the same civil service status formerly had by him upon application by him to the board within 90 days after the termination of such military service. The provisions of this section shall apply to all such civil service employees who enter the military service during any such war or until the Governor finds and proclaims that the emergency no longer exists.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution. The following is a statement of the facts constituting such necessity:

In view of the apparent necessity for providing an adequate National Defense Program as promptly as possible, it is anticipated that many State employees may volunteer their services with the military and naval forces of the United States instead of awaiting conscription under the Federal Selective Military Service Law. It has, therefore, become necessary to provide for the retention of the civil service rights of those so going into service. The preservation of a sound civil service system requires that this protection be afforded to all civil service employees, whether permanent or probationary, and in order to make this act fully effective it is necessary that this act take effect immediately.

CHAPTER 19

An act to add Sections 518 and 519 to the Military and Veterans Code, relating to junior college cadets, to take effect immediately.

Stats 1935, p 1338, amended

[Approved by Governor February 3, 1941 Filed with Secretary of State February 4, 1941.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 518 is hereby added to the Military and Veterans Code, to read as follows:

New section

518. The provisions of this chapter shall apply to all junior colleges in this State, and the principals and governing boards of junior colleges shall have the same authority as similar officials of high schools.

Application to junior colleges

SEC. 2. Section 519 is hereby added to the Military and Veterans Code, to read as follows:

New section

519. Where a junior college is located in close proximity to any high school having a high school cadet company or companies, the governing boards of the junior college and high schools may by agreement provide for the joint organization of cadet companies.

Joint organization of cadet companies

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such to take effect immediately. The following is a statement of the facts constituting such necessity:

Urgency

An emergency exists in the United States and the State of California in providing adequate armies and facilities of defense. The National Guard which has heretofore been available to the State as a defense organization is being called into the service of the United States and it is necessary that provision be made to make the unorganized militia more readily available for defense in case of necessity. The existing organized militia must be recruited from young men, many of whom have received no prior military instruction, and more young men must be made immediately available for this purpose.

CHAPTER 20

Stats 1935, p 436, amended

An act to amend Section 10203 of the Insurance Code, relating to group life insurance, and declaring the urgency hereof, to take effect immediately.

In effect immediately

[Approved by Governor February 3, 1941. Filed with Secretary of State February 4, 1941.]

The people of the State of California do enact as follows:

Stats 1935, p 640

SECTION 1. Section 10203 of the Insurance Code is hereby amended to read as follows:

Associated persons in same occupation

10203. Life insurance conforming to all the following conditions is another form of group life insurance:

(a) Covering not less than 50 members of any of the following:

(1) Any labor union.

(2) The National Guard.

(3) Any association of governmental or public employees.

(b) Written under a policy issued to such union or association.

(c) The premium on the policy to be paid by the union or association or by the union or association and the members thereof jointly or by the insured members alone.

(d) Insuring only members of such union who are actively engaged in the same occupation or members of such association.

(e) Insuring for amounts of insurance based upon some plan which will preclude individual selection.

(f) Insuring for the benefit of persons other than the union or association or its officials.

(g) Insuring not less than 75 per cent of all members eligible for insurance under the policy, or 75 per cent of such members of any class thereof reasonably determined by conditions pertaining to employment or of any established unit thereof not formed for the purpose of procuring insurance; provided, that if a group policy is intended to insure several such classes or units it may be issued as respects any such class or unit of which 75 per cent are covered and extended to other such units or classes as 75 per cent thereof express the desire to be covered. In such case, when members apply and pay for additional amounts of insurance, a smaller percentage of members may be insured for such additional amounts of insurance. If any member fails to become insured under an existing policy when he becomes eligible and later wishes to become insured thereunder, the insurer may require satisfactory evidence of insurability before insurance is granted on such member.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the

public peace, health and safety within the meaning of Section 1 of Article IV of the State Constitution and shall therefore go into immediate effect. The statement of the facts constituting such necessity is as follows:

The Attorney General recently rendered an opinion to the effect that the law required, in certain cases of group life insurance, that 75 per cent of all persons eligible in a group must take such insurance before the same could go into effect. A plan of group life insurance for State employees was recently provided on the theory that 75 per cent of the members of a subgroup could be insured. Under the Attorney General's opinion of the law, as a practical matter, group life insurance for certain large groups is impossible. Such a result was not intended and certainly is not desirable and the law should be changed or made clear as provided in this act. A great uncertainty exists among a large number of State employees, as also exists among the members of other large groups, as to their group insurance under group plans in effect. There should be no uncertainty as to whether or not a person's life is legally insured and, therefore, this act should go into immediate effect in order that this uncertainty be immediately eliminated.

CHAPTER 21

An act to add Section 2457.5 to the Business and Professions Code, relating to fee and tax exemptions under the chapter on medicine thereof, declaring the urgency thereof to take effect immediately.

Stats 1937, p 1229, amended

[Approved by Governor February 3, 1941. Filed with Secretary of State February 4, 1941]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 2457.5 is hereby added to the Business and Professions Code, to read as follows:

New section

2457.5. Every person licensed under this chapter is exempt from the payment of the annual tax and registration fee in any one of the following instances:

Exemptions

(a) While engaged in full time active service in the medical corps of the Army, Navy or Marines or in the United States Public Health Service.

(b) While fulfilling his full time period of training and active service, whether as a draftee or volunteer, under the Selective Training and Service Act of 1940 and any amendments or additions thereto or acts supplementary thereof.

Every person exempted from the payment of the annual tax and registration fee by this section shall not engage in any private practice and shall become liable for such tax and fee upon the completion of his period of full time active service

and shall have a period of 60 days after becoming liable within which to pay the tax and fee before the delinquent fee becomes applicable. Any person who completes his period of full time active service within 60 days of the end of the calendar year is exempt from the payment of the tax and fee for that year.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety and shall therefore, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately.

The acts constituting the urgency are as follows:

In connection with the rearming necessary for the defense of the United States, persons in civil life are being called into the armed services. Such persons are with difficulty able to meet their civil liabilities during their period of service. To relieve licensees under the chapter on medicine of the Business and Professions Code from the burden imposed upon them by that law, it is necessary for this act to take effect immediately prior to the completion of the collection period for existing licensees, otherwise the burden can not be removed effectively, the licensees will continue burdened, and the dangers to the public peace, health and safety will thereby be increased.

CHAPTER 22

Stats 1935, p 1465, amended

An act to amend Section 1202a of the Penal Code and to repeal Section 2 of an act entitled "An act to establish the Southern California Prison under the management and control of the State Board of Prison Directors; to provide for purchase or acquirement of farm lands by unconditional gift or use of lands owned by the State therefor; and the construction of buildings and other improvements in connection therewith; to provide for the commitment and transfer of prisoners thereto and therefrom; to provide for the equipment, conduct and management thereof; and to make an appropriation therefor," approved July 9, 1935, relating to the execution of a sentence of imprisonment.

In effect immediately

[Approved by Governor February 3, 1941. Filed with Secretary of State February 4, 1941.]

The people of the State of California do enact as follows:

Stats. 1935, p. 1568

SECTION 1. Section 1202a of the Penal Code is hereby amended to read as follows:

Imprisonment in the State prison

1202a. If the judgment is for imprisonment in the State prison the judgment shall direct that the defendant be taken to the warden of the State Prison at San Quentin. Thereafter, and until the termination of the sentence, the State Board of

Prison Directors may transfer the prisoner from one State prison to another as in the opinion of the board the welfare of the prisoner and the safety of the State may require.

SEC. 2. Section 2 of an act entitled "An act to establish the Southern California Prison under the management and control of the State Board of Prison Directors; to provide for purchase or acquirement of farm lands by unconditional gift or use of lands owned by the State therefor; and the construction of buildings and other improvements in connection therewith; to provide for the commitment and transfer of prisoners thereto and therefrom; to provide for the equipment, conduct and management thereof; and to make an appropriation therefor," approved July 9, 1935, is hereby repealed. Stats 1935, p 1465

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall therefore go into effect immediately. A statement of the facts constituting such necessity is as follows: Urgency

The Southern California Prison at Chino will open in April of this year. Existing statutes permit any superior court to sentence any person to this prison. The limited facilities of this prison, designed for youthful offenders and persons capable of rehabilitation, can accommodate only 440 persons. Unless the law is changed to permit a coordinated plan, the purpose of the prison will be defeated by overcrowding. In order to insure the proper use of these facilities and to insure the safety of the State and the welfare of the prisoners it is necessary to permit the State Board of Prison Directors, with the assistance of experts, to determine and redetermine the place of confinement of all prisoners.

CHAPTER 23

Form

1690.1. Restricted licenses issued pursuant to Section 1690 shall be in one of the forms authorized for issuance by this

chapter but, as the commissioner in his discretion finds advisable in the public interest, may be restricted:

Right conferred

1690.3. A restricted license issued pursuant to Section 1690 does not confer any property right in the privileges to be exercised thereunder, and the holder of a restricted license does not have the right to renewal of such license.

Fees

The commissioner shall fix, charge and collect fees in connection with the filing of applications, examination, and issuance of restricted licenses not in excess of those applicable to the appropriate form of unrestricted license.

Revocation

The commissioner may, with or without hearing, revoke a restricted license whether the holder has violated any provision of this code or restriction or condition of the license or not.

Travel insurance agents

1691. Limited licenses as travel insurance agents may be issued to employees of railroad, steamship, airline, and other organizations engaged in transporting persons as common carriers and to individuals or employees of persons engaged in selling transportation on such common carriers.

Upon termination of the employment, the employer shall notify the commissioner and the licensee shall return the license to the commissioner for cancellation or shall furnish

proof of loss satisfactory to the commissioner. Upon receiving notice of termination of employment, the commissioner shall cancel the license.

Fee

The commissioner shall require in advance for filing application for each annual license as travel insurance agent, or renewal thereof, a fee of one dollar ($1).

The provisions of Article 1 of this chapter concerning procedure and time for filing applications for renewal of license are applicable to licenses authorized by this section.

Effect of employee's act upon employer's license

1670. A violation of any of the provisions of this article by any insurance solicitor or employee of any licensed agent or broker shall not cause a suspension or revocation of the license of the employer of such solicitor or employee unless it appears to the commissioner, upon a hearing, after reasonable notice to such employer, that the employer permitted such violation. This provision shall not relieve the employer from civil liability or his surety from liability under the bond filed as provided in this article.

States shall, for the period of military service, not be required to renew his license or licenses and they shall remain in full force and effect for the period of military service and until the termination of the license period during which his period of military service terminates. If his period of military service terminates during the last six months of the license period, no penalty shall attach for failure to file renewal application within the time required by law, and the time for filing such applications shall be extended for six months after termination of the license period.

Code provisions applicable

Exemptions

Insurance agents and brokers licensed under Article 1, Chapter 5, Part 2, Division 1, need not be licensed to act as motor club agents under this article.

Urgency

SEC. 20. This act is hereby declared to be an urgency measure within the meaning of Section 1 of Article IV of the Constitution of the State of California. The following is a statement of the facts constituting such necessity:

Under present provisions of the Insurance Code persons licensed to transact insurance who have been and will be called into the Military Service of the United States in the present emergency will forfeit their licenses and suffer loss of their business. By providing for the preservation of the licenses of such persons during such military service and by making it possible for such persons to designate other persons to care for their business during such military service under the jurisdiction of the Division of Insurance, this act will contribute to the public peace, health, and safety. Other provisions of this act eliminate conflicts in the laws relating to applications for, and issuance and renewal of, licenses, which conflicts have resulted in the imposition of penalties on persons who have endeavored in good faith to comply with the

law. It is essential that a change be made before the next renewal license period begins in order to avoid such harsh results which appear to be inevitable under the present law. Other provisions of this act eliminate provisions of the law which are obsolete in fact and which are not adapted to present conditions. The enforcement of such laws has caused much uncertainty and confusion among persons transacting insurance and those dealing with them to the detriment of the public peace, health and safety and it is desirable that these conditions be eliminated with a minimum of delay. Other provisions of this act clarify the status of many persons who perform acts in connection with insurance which under literal interpretation of the present law may require the possession of a license to transact insurance although in the past it has been generally considered that it was not necessary to possess a license in order to perform such acts. The public interest not requiring that such persons be licensed to transact insurance an immediate clarification of the status of such persons is necessitated by the public peace, health and safety.

CHAPTER 24

An act to add Section 1203b to the Penal Code, relating to granting probation.

[Approved by Governor February 3, 1941. Filed with Secretary of State February 4, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. A new section, to be numbered 1203b, is hereby added to the Penal Code, to read as follows: New section

Sec. 1203b. All courts having jurisdiction to impose punishment in misdemeanor cases shall have the power to grant probation summarily in misdemeanor cases without referring such cases to the probation officer. Summary probation

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall take effect immediately. The following is a statement of the facts constituting such necessity: Urgency

At the present time when a defendant in a criminal case in an inferior court seeks probation, the law requires that in every case his application be referred to the probation officer for investigation and report, notwithstanding the fact that in view of all the circumstances and evidence in many cases the court may already be satisfied that the granting of probation is justified. Under the present law until the probation officer's report is made to the court the defendant is frequently held in custody, in some cases for many days. This

procedure has resulted in unnecessarily delaying the action of the courts, in unnecessary confinement of a defendant and in great and unnecessary expense in connection with investigations by the probation officer. It is necessary that the congestion now existing be relieved immediately in order that such unnecessary delays be avoided. It is therefore necessary that this act take effect immediately.

The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which the corporate area of such municipality may be annexed to and become a part of the metropolitan water district. Such terms and conditions may provide, among other things, for the levy by such metropolitan water district of special taxes upon taxable property within such municipality in addition to the taxes elsewhere in this act authorized to be levied by such metropolitan water district, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed in the manner provided by law for elections in such municipality. If such proposition shall receive the affirmative vote of a majority of electors of such municipality voting thereon at such election, the governing body of such municipality shall certify the result of such election on said proposition to the board of directors of said district and a certificate of proceedings hereunder shall be made by the secretary of the district and filed with the Secretary of State. If any section, subsection, sentence, clause or phrase of this act, or of the act or acts of which this act is amendatory or supplemental, is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases of this act, or that any one or more sections, subsections, sentences, clauses or phrases of the act or acts of which this act is amendatory or supplemental, be declared unconstitutional. If any section, subsection, sentence, clause or phrase of this act for any reason be held to be unconstitutional and such unconstitutional provision shall have purported to repeal or amend any provision of the act or acts of which this act is amendatory or supplemental, the provision existing and in force at the time of the enactment of this act shall remain and be in full force and effect notwithstanding such purported repeal or amendment.

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity: Urgency

The inhabitants of a substantial portion of the County of Orange in the southern part of this State are in dire need of immediately obtaining an adequate supply of water for domestic and municipal use which can be obtained from The Metropolitan Water District of Southern California, a district duly organized and existing under the Metropolitan Water District Act of this State, but arrangements for obtaining such water by such inhabitants are dependent upon the formation of a proper district or public agency and annexation of that district or agency to said The Metropolitan Water District of Southern California. This can not be brought about effectually unless and until the amendments to the Municipal Water District Act of 1911, provided by the within and foregoing amendatory act, shall have become effective.

CHAPTER 27

An act to validate the organization and boundaries of fire protection districts, the acts and proceedings of the governing bodies thereof, and taxes and assessments levied in connection therewith, declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 3, 1941. Filed with Secretary of State February 4, 1941] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Every fire protection district heretofore organized and functioning under, or under color of, any law of this State is hereby declared to have been legally organized and to be legally functioning as such. Every such fire protection district shall have all the rights, powers and privileges and be subject to all the duties and obligations of a fire protection district regularly formed pursuant to law. Validation of fire protection districts: Organization

SEC. 3. The members of the governing board of every fire protection district heretofore appointed or elected are hereby declared to have been legally appointed or elected. Governing board

SEC. 4. Every act, proceeding or contract of any nature heretofore taken, performed or executed by the governing board of a fire protection district is hereby confirmed, validated and declared legally effective. Proceedings

Tax and assessments

SEC. 5. Every act or proceeding heretofore taken relative to the levy of a tax or assessment upon taxable property within a fire protection district by or for such district, and every such tax or assessment heretofore levied upon such property, are hereby confirmed, validated and declared legally effective.

Scope of act

SEC. 6. (a) This act is limited to the correction of defects, irregularities and ministerial errors which the Legislature originally could have omitted from the statutory requirements of law under which the acts or proceedings hereby confirmed, validated and declared legally effective were taken.

(b) This act is limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions.

(c) Nothing contained in this act shall be construed to render the creation of any fire protection district, or any change in the boundaries of any fire protection district, effective for purposes of assessment or taxation unless the statement, together with the map or plat, required to be filed under Section 3720 of the Political Code, is filed in the manner and within the time required by that section.

Urgency

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

The peace, health, safety and welfare of the citizens of this State depend in large part directly upon the orderly and proper functioning of fire protection districts during the time required before this act otherwise would become effective. It is imperative and essential that during such time the citizens of this State shall be afforded the benefit of organized fire protection districts; and that such districts shall be able effectively to furnish fire protection, meet their obligations and provide for and assure their revenues and finances for the coming fiscal year, unhampered by doubts as to the validity of their organization, acts and proceedings. These reasons necessitate the immediate validation of fire protection districts, their acts and proceedings as provided in this act.

CHAPTER 28

An act to add Section 4004.5 to the Political Code, relating to loans by counties to fire districts, validating loans heretofore made, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 3, 1941 Filed with Secretary of State February 4, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 4004.5 is hereby added to the Political Code, to read as follows: New section

Notwithstanding the provisions of Section 4004, any county may lend any of its available funds to any fire protection district located wholly within the county, whose funds are in the custody of the county or any officer of the county, in order to enable the district to perform its functions and meet its obligations. Every such loan may be made only after the adoption of a resolution by the board of supervisors. It shall not exceed 85 per cent of the district's anticipated revenue for the fiscal year in which it is made or for the next ensuing fiscal year, and shall be repaid out of such revenue prior to the payment of any other obligation of the district. Loan by county to fire protection district

SEC. 2. Every loan heretofore made by a county to a fire protection district located wholly within the county is hereby confirmed, validated and declared legally effective, notwithstanding any defect or irregularity therein or any want of statutory authority. Validation of loans

This section is limited to the validation of loans to the extent to which the same can be effectuated under the State Constitution.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity: Urgency

The peace, health, safety and welfare of the citizens of this State depend in large part directly upon the orderly and proper functioning of fire protection districts during the time required before this act otherwise would become effective. It is imperative and essential that during such time the citizens of this State shall be afforded the benefit of organized fire protection districts; and that such districts shall be able effectively to furnish fire protection, meet their obligations in connection therewith, and provide for and assure their revenues for the coming fiscal year. This act will accomplish these ends by authorizing counties to furnish

financial assistance to such districts, and validating assistance of like character previously given. It is therefore necessary that this act shall become effective at the earliest possible moment.

CHAPTER 29

Stats. 1937, p. 1410, amended

An act to amend the Coachella District Merger Act, approved June 21, 1937, by adding thereto a new section, to be numbered 13.1, relating to taxation for repair, operation and maintenance of improvements and declaring the urgency of this act and providing that it shall take effect immediately.

In effect immediately

[Approved by Governor February 3, 1941. Filed with Secretary of State February 4, 1941.]

The people of the State of California do enact as follows:

New section

SECTION 1. A new section is hereby added to the Coachella District Merger Act, approved June 21, 1937, to be numbered 13.1 and to read as follows:

Tax for repair, operation and maintenance

Sec. 13.1. Whenever improvements have been constructed by said storm water district and the cost thereof borne by the owners of particular land in said storm water district, all moneys required for repair, operation and maintenance of such improvements may be charged and collected by tax against said land, or, notwithstanding anything in the Storm-water District Act of 1909 to the contrary, the board of directors of the surviving district may, by ordinance, determine that such moneys shall be raised by tax on the entire storm water unit and thereafter such moneys shall be so raised.

Stats. 1909, p. 339

Urgency

SEC. 2. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately. The facts constituting such necessity are as follows:

Certain storm water protection works constructed by Coachella Valley Stormwater District and maintained at the expense of a small assessment district within said district now require extensive repair. The board of directors of the merged district considers said works and the repair thereof to be of benefit to the entire storm water unit of the district and that the cost of maintenance and repair thereof should be chargeable against the entire storm water unit of the district. It is necessary that such works be repaired as promptly as possible, for the protection of life and property and that the district be authorized to provide for the work in its 1941 tax levy.

An act to amend the title and Section 1 of, and to add Section 2 to, an act entitled "An act to authorize the legislative bodies of counties, cities and cities and counties, directly or through a duly authorized representative, to attend the sessions of the Legislature of the State of California and to appear before said Legislature and the committees thereof and making the cost incidental thereto a proper charge against the funds of the county, or city, or city and county, and declaring the urgency thereof," approved March 16, 1935, relating to representation of cities, counties and cities and counties, before the Legislature of this State and the Congress of the United States, and declaring the urgency hereof.

The people of the State of California do enact as follows:

Stats 1935, p 92

An act to authorize the legislative bodies of counties, cities and cities and counties, individually or in association, and directly, or through a duly authorized representative or representatives, to attend the sessions of the Legislature of the State of California and of the Congress of the United States and to appear before said Legislature and the committees thereof and before said Congress and the committees thereof and making the cost incidental thereto a proper charge against the funds of the county, or city or city and county, and declaring the urgency thereof.

SEC. 2. Section 1 of the act cited in the title hereof is hereby amended to read as follows:

Stats 1935, p 92

Section 1. The legislative body of any county or city, or city and county may, directly or through a duly authorized representative or representatives, attend the sessions of the Legislature of the State of California and the sessions of the Congress of the United States and present to said Legislature or to any committee thereof, or to said Congress or to any committee thereof, such information as the county or city, or city and county may deem necessary for the purpose of aiding in the passage of any legislation which, in the judgment of said county or city or city and county may be deemed beneficial thereto; or for the purpose of preventing the passage of any legislation which said legislative body of said county or city or city and county may deem detrimental to said county or city or city and county, and the cost and expense incident thereto shall be a proper charge against the funds of said county or city or city and county.

Counties and cities represented during legislative and congressional sessions

SEC. 3. Section 2 is hereby added to the act cited in the title hereof, to read as follows:

New section

Sec. 2. The legislative bodies of any county or city, or city and county may associate themselves together and through a

Association of counties and cities

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall therefore go into effect immediately. A statement of facts constituting such necessity is as follows:

Bills are now pending before the Legislature of this State, and the Congress of the United States that are of vital and of immediate importance to the counties, cities and cities and counties of the State of California. Many of these bills directly concern taxation, revenue, special assessment districts, publicly owned public utilities and other matters of moment to the finances of counties, cities and cities and counties, while others concern the social well-being and welfare of the citizens of the counties, cities and cities and counties. Because of the importance of these bills, it is both equitable and necessary that representatives from the counties, cities and cities and counties be permitted to attend and to appear before the Legislature of this State and before its committees and before the Congress of the United States and its committees and to the end that counties, cities and cities and counties may have the opportunity to be heard on all measures affecting said counties, or cities or cities and counties. Unless this authority is granted immediately and the expense of sending representatives is made a proper charge against the county, or city or city and county, the counties, cities and cities and counties will be precluded from proper representation before the Legislature and its committees and the Congress of the United States and its committees. Because of the direct concern of the counties, cities and cities and counties in bills now pending it is necessary that this act take effect immediately.

CHAPTER 31

An act to add Section 7.1 to The Personal Income Tax Act, relating to the tax on compensation received for services rendered for a period of five years or more, to take effect immediately.

Stats 1935, p. 1090, amended

[Approved by Governor February 3, 1941 Filed with Secretary of State February 4, 1941]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7.1 is hereby added to The Personal Income Tax Act, to read as follows:

New section

Sec. 7.1. In the case of compensation (a) received for personal services rendered by an individual in his individual capacity, or as a member of a partnership, and covering a period of five calendar years or more from the beginning to the completion of such services, (b) paid (or not less than 95 per cent of which is paid) only on completion of such services, and (c) required to be included in the gross income of such individual for any taxable year, beginning after December 31, 1939, the tax attributable to such compensation shall not be greater than the aggregate of the taxes attributable to such compensation had it been received in equal portions in each of the years included in such period.

Compensation for personal services for more than five years

SEC. 2. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and therefore shall take effect immediately. The facts constituting such necessity are as follows:

Urgency

There are many taxpayers in this State who have received in the past year lump sum payments for services rendered by them over the preceding five years or more. Since the State income tax rates are graduated, these individuals will be required to pay considerably more upon their income than they would have had to pay in the aggregate if their income had been received in equal portions during the years in which it was actually being earned. There is thus a clear disparity in the treatment of taxpayers who receive the same income, merely because of the fortuitous circumstance that some of them are paid all at once. Such a situation leads to economic inequality and is productive of unrest, thus directly affecting the public peace, health and safety.

This act will eliminate the inequality now existing, but since income tax returns must be filed and the tax for 1940 be paid on April 15 of this year, it is imperative that this act go into effect immediately.

SEC. 3. If any provision of this act, or the application thereof, to any person or circumstance, is held invalid, the remainder of the act, or the application of such provision to other persons or circumstances, shall not be affected thereby.

Constitutionality

CHAPTER 32

An act validating the formation, existence and boundaries of county water works districts and all proceedings for the issuance of bonds and all bonds heretofore issued or sold and all proceedings for the issuance of bonds heretofore had and taken by such districts, and providing for the payment of such bonds, declaring the urgency thereof, to take effect immediately.

In effect immediately [Approved by Governor February 5, 1941. Filed with Secretary of State February 6, 1941.]

The people of the State of California do enact as follows:

Validation of county water works districts: Organization Stats 1913, p 785

SECTION 1. In all cases where the board of supervisors of any county in this State has purported to form or create a county water works district under the provisions of an act known as the "County Water Works District Act," approved June 13, 1913, as amended, and bonds of such district have been voted or have been issued and sold, all acts and proceedings of such board of supervisors and all acts of all persons leading up to and including the formation of such district are hereby legalized, ratified and declared valid for all intents and purposes, and any such district is hereby declared to be a legally and validly formed and existing county water works district.

Bonds

SEC. 2. Where proceedings have been taken for the issuing and selling of bonds of any county water works district for any purpose or purposes, all acts and proceedings of the board of supervisors of the county in which such district is situated and all the acts of all public officials in connection therewith leading up to and including the issuance of such bonds if they have heretofore been issued and sold, and all such acts and proceedings heretofore had although the bonds or a part thereof are not yet issued or sold, are hereby legalized, ratified, confirmed and validated to all intents and purposes, and the power of the board of supervisors of the county in which the district is situated to issue and sell such bonds is hereby ratified, confirmed and declared, and the bonds heretofore sold are declared to be and shall be, in the form and manner in which said bonds have been actually sold and delivered, the legal and valid obligations of such district, and the bonds heretofore voted and hereafter sold and delivered are declared to be and shall be legal and binding obligations of such district, and the full faith and credit of such district is hereby declared to be pledged for the prompt payment of the principal and interest thereof. Funds for the payment of said bonds shall be raised as provided by said "County Water Works District Act."

Boundaries

SEC. 3. The boundaries of every county water works district as heretofore established, enlarged, defined or recorded are hereby confirmed, validated and declared legally established, and all acts or proceedings of any nature heretofore

taken or performed by the board of supervisors of any county in this State or by the governing board or the governing officers of any county water works district in this State for the establishment, enlargement, definition or recordation of the boundaries of any such district are hereby confirmed, validated and declared legally effective.

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. The facts constituting the necessity are as follows:

Many people in this State are now either without an adequate supply of water for their domestic, fire protection and irrigation needs, or, having such supply, lack utility facilities for the distribution of such water. This act, if it becomes effective immediately, will enable county water works districts to rectify this situation by removing all doubt as to the validity of annexation proceedings previously taken by such districts to embrace territory the inhabitants of which are in dire need of water and water utilities that can be supplied by such districts, and as to the validity of bonds issued to enable such districts to obtain additional necessary funds for these purposes.

CHAPTER 33

An act making an appropriation for the contingent expenses of the Assembly for the Fifty-fourth Session of the Legislature including expenses of committees created at that session, and declaring that this act shall take effect immediately.

[Approved by Governor February 6, 1941. Filed with Secretary of State February 6, 1941.]

In effect immediately

The people of the State of California do enact as follows:

Appropriation Contingent expenses of Assembly

SECTION 1. The sum of twenty-five thousand dollars ($25,000), or so much thereof as may be necessary, is hereby appropriated out of any money in the State Treasury not otherwise appropriated, for contingent expenses of the Assembly for the Fifty-fourth Session of the Legislature, including expenses of committees created at that session whether to meet and act during the constitutional recess or after final adjournment.

SEC. 2. This appropriation shall be available for the purposes for which it is appropriated without regard to fiscal years.

Current expenses

SEC. 3. Inasmuch as this act makes an appropriation for the usual current expenses of the State it shall, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately.

CHAPTER 34

An act relating to persons receiving training in cosmetology through the public school system, declaring the urgency thereof and providing that this act shall take effect immediately.

In effect immediately [Approved by Governor March 7, 1941. Filed with Secretary of State March 7, 1941.]

The people of the State of California do enact as follows:

Eligibility for registration

Chap 10, Div 3, B & P Code

SECTION 1. Every person successfully completing the courses in cosmetology given in a school under the public school system of this State shall be eligible for registration and license under the Cosmetology Act the same as though he had graduated from a licensed private school of cosmetology approved by the State Board of Cosmetology.

For this purpose, successful completion of courses in cosmetology given in public schools of the public school system equal to and the equivalent of the courses required to be given in licensed private schools of cosmetology approved by the State Board of Cosmetology shall be deemed to be the fulfillment of the requirements of the Cosmetology Act in regard to completion of courses in licensed schools of cosmetology approved by the State Board of Cosmetology.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and therefore shall take effect immediately. A statement of the facts constituting such urgency are as follows:

A large number of persons have completed an adequate and satisfactory course of training in the public school vocational education classes. Under the existing law such persons are not eligible to take an examination for a certificate of registration and license as a hairdresser and cosmetician or cosmetologist. Unless this act takes effect immediately, such persons will not be examined and entitled to engage in the practice of cosmetology, will, therefore, be without means of support and as a result will suffer from hardship and destitution, thereby becoming a burden upon the State of California and endangering the public peace, health and safety.

CHAPTER 35

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

Short title

6001. This part is known and may be cited as the "Sales and Use Tax Law."

"Use tax"

6004. "Use tax" means the tax imposed by Chapter 3 of this part.

"Person"

6005. "Person" includes any individual, firm, copartnership, joint adventure, association, social club, fraternal organization, corporation, estate, trust, business trust, receiver, syndicate, this State, any county, city and county, municipality, district, or other political subdivision thereof, or any other group or combination acting as a unit.

lease, or rental, conditional or otherwise, in any manner or by any means whatsoever, of the property for a consideration.

"Transfer of possession," "lease," or "rental" includes only transactions found by the board to be in lieu of a transfer of title, exchange, or barter.

"Sale" includes:

(a) The producing, fabricating, processing, printing, or imprinting of tangible personal property for a consideration for consumers who furnish either directly or indirectly the materials used in the producing, fabricating, processing, printing, or imprinting.

(b) The furnishing and distributing of tangible personal property for a consideration by social clubs and fraternal organizations to their members or others.

(c) The furnishing, preparing, or serving for a consideration of food, meals, or drinks.

(d) A transaction whereby the possession of property is transferred but the seller retains the title as security for the payment of the price.

(e) A transfer for a consideration of the title or possession of tangible personal property which has been produced, fabricated, or printed to the special order of the customer.

"Sale" does not include the transfer of any publication by the publisher thereof or subsequent distributors thereof if the publication is regularly issued at average intervals not exceeding one month. Exception

6007. A "retail sale" or "sale at retail" means a sale for any purpose other than resale in the regular course of business in the form of tangible personal property. "Retail sale"

The delivery in this State of tangible personal property by an owner or former owner thereof or by a factor, if the delivery is to a consumer pursuant to a retail sale made by a retailer not engaged in business in this State, is a retail sale in this State by the person making the delivery. He shall include the retail selling price of the property in his gross receipts.

6008. "Storage" includes any keeping or retention in this State for any purpose except sale in the regular course of business or subsequent use solely outside this State of tangible personal property purchased from a retailer. "Storage"

See also Stats 1941, p 1348

A transaction whereby the possession of property is transferred but the seller retains the title as security for the payment of the price is a purchase. A transfer for a consideration of tangible personal property which has been produced, fabricated, or printed to the special order of the customer is also a purchase.

Exception "Purchase" does not include the transfer of any publication by the publisher thereof or subsequent distributors thereof if the publication is regularly issued at average intervals not exceeding one month.

"Sales price" 6011. "Sales price" means the total amount for which tangible personal property is sold, without any deduction on account of any of the following:

(a) The cost of the property sold.

(b) The cost of materials used, labor or service cost, interest charged, losses, or any other expenses.

The total amount for which the property is sold includes all of the following:

(a) Any services that are a part of the sale, valued in money, whether paid in money or otherwise.

(c) The amount charged for labor or services rendered in installing or applying the property sold.

"Gross receipts" 6012. "Gross receipts" mean the total amount of the sale or lease or rental price, as the case may be, of the retail sales of retailers, without any deduction on account of any of the following:

(a) The cost of the property sold. However, in accordance with such rules and regulations as the board may prescribe, a deduction may be taken if the retailer has purchased property for some other purpose than resale, has reimbursed his vendor for tax which the vendor is required to pay to the State or has paid the use tax with respect to the property, and has resold the property prior to making any use of the property other than retention, demonstration, or display while holding it for sale in the regular course of business.

(b) The cost of the materials used, labor or service cost, interest paid, losses, or any other expense.

The total amount of the sale or lease or rental price includes all of the following:

(a) Any services that are a part of the sale, valued in money, whether received in money or otherwise.

(b) All receipts, cash, credits, and property of any kind.

(c) Any amount for which credit is allowed by the seller to the purchaser.

"Gross receipts" do not include any of the following:

(a) Cash discounts allowed and taken on sales.

(b) Sale price of property returned by customers upon rescission of the contract of sale when the full sale price is refunded either in cash or credit.

(c) The price received for labor or services used in installing or applying the property sold.

For purposes of the sales tax, if the retailers establish to the satisfaction of the board that the sales tax has been added to the total amount of the sale price and has not been absorbed by them, the total amount of the sale price shall be deemed to be the amount received exclusive of the tax imposed.

"Business"

6013. "Business" includes any activity engaged in by any person or caused to be engaged in by him with the object of gain, benefit, or advantage, either direct or indirect.

"Seller"

6014. "Seller" includes every person engaged in the business of selling tangible personal property the gross receipts from the retail sale of which are required to be included in the measure of the sales tax.

(a) Every person engaged in the business of making sales at retail or in the business of making retail sales at auction of tangible personal property owned by the person or others.

(b) Every person engaged in the business of making sales for storage, use, or other consumption or in the business of making sales at auction of tangible personal property owned by the person or others for storage, use, or other consumption.

Public or private schools, school districts, student organizations, and parent-teacher associations serving meals exclusively to students and teachers, and employers or employee organizations serving meals exclusively to employees are not retailers of the meals served by them.

When the board determines that it is necessary for the efficient administration of this part to regard any salesmen, representatives, peddlers, or canvassers as the agents of the dealers, distributors, supervisors, or employers under whom they operate or from whom they obtain the tangible personal property sold by them, irrespective of whether they are making sales on their own behalf or on behalf of such dealers, distributors, supervisors, or employers the board may so regard them and may regard the dealers, distributors, supervisors, or employers as retailers for purposes of this part.

"Tangible personal property"

6016. "Tangible personal property" means personal property which may be seen, weighed, measured, felt, or touched, or which is in any other manner perceptible to the senses.

"In this State" 6017. "In this State" or "in the State" means within the exterior limits of the State of California and includes all territory within these limits owned by or ceded to the United States of America.

CHAPTER 2. THE SALES TAX

Article 1. Imposition of Tax

Levy of tax; Rate 6051. For the privilege of selling tangible personal property at retail a tax is hereby imposed upon retailers at the rate of 2½ per cent of the gross receipts of any retailer from the sale of all tangible personal property sold at retail in this State on or after August 1, 1933, and to and including June 30, 1935, and at the rate of 3 per cent thereafter.

Collection 6052. The tax hereby imposed shall be collected by the retailer from the consumer in so far as it can be done.

Unlawful to advertise absorption of tax 6053. It is unlawful for any retailer to advertise or hold out or state to the public or to any customer, directly or indirectly, that the tax or any part thereof will be assumed or absorbed by the retailer or that it will not be added to the selling price of the property sold or that if added it or any part thereof will be refunded. Any person violating any provision of this section is guilty of a misdemeanor.

Separate statement of tax 6054. The board may by regulation provide that the amount collected by the retailer from the consumer in reimbursement of the tax be displayed separately from the list price, the price advertised in the premises, the marked price, or other price on the sales check or other proof of sale.

Article 2. Permits

Application for permit 6066. Every person desiring to engage in or conduct business as a seller within this State shall file with the board an application for a permit for each place of business. Every application for a permit shall be made upon a form prescribed by the board and shall set forth the name under which the applicant transacts or intends to transact business, the location of his place or places of business, and such other information as the board may require. The application shall be signed by the owner if a natural person; in the case of an association or partnership, by a member or partner; in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of his authority.

Fee 6067. At the time of making an application the applicant shall pay to the board a permit fee of one dollar ($1) for each permit.

Issuance of permit

6068. After compliance with Sections 6066, 6067, and 6701 by the applicant, the board shall grant and issue to each applicant a separate permit for each place of business within the State. A permit is not assignable and is valid only for the person in whose name it is issued and for the transaction of business at the place designated therein. It shall at all times be conspicuously displayed at the place for which issued.

Suspended permit: Renewal fee

6069. A seller whose permit has been previously suspended or revoked shall pay the board a fee of one dollar ($1) for the renewal or issuance of a permit.

Revocation or suspension of permit

6070. Whenever any person fails to comply with any provision of this part relating to the sales tax or any rule or regulation of the board relating to the sales tax prescribed and adopted under this part, the board upon hearing, after giving the person 10 days' notice in writing specifying the time and place of hearing and requiring him to show cause why his permit or permits should not be revoked, may revoke or suspend any one or more of the permits held by the person. The notice may be served personally or by mail in the manner prescribed for service of notice of a deficiency determination. The board shall not issue a new permit after the revocation of a permit unless it is satisfied that the former holder of the permit will comply with the provisions of this part relating to the sales tax and the regulations of the board.

New permit

Penalty

6071. A person who engages in business as a seller in this State without a permit or permits or after a permit has been suspended, and each officer of any corporation which so engages in business, is guilty of a misdemeanor.

Article 3. Presumptions and Resale Certificates

Gross receipts presumed taxable

6091. For the purpose of the proper administration of this part and to prevent evasion of the sales tax it shall be presumed that all gross receipts are subject to the tax until the contrary is established. The burden of proving that a sale of tangible personal property is not a sale at retail is upon the person who makes the sale unless he takes from the purchaser a certificate to the effect that the property is purchased for resale.

Resale certificate

Conditions of validity

6092. The certificate relieves the seller from the burden of proof only if taken in good faith from a person who is engaged in the business of selling tangible personal property and who holds the permit provided for in Article 2 of this chapter and who, at the time of purchasing the tangible personal property, intends to sell it in the regular course of business or is unable to ascertain at the time of purchase whether the property will be sold or will be used for some other purpose.

Contents of certificate

6093. The certificate shall be signed by and bear the name and address of the purchaser, shall indicate the number of the permit issued to the purchaser, and shall indicate the general character of the tangible personal property sold by the purchaser in the regular course of business. The certificate shall be substantially in such form as the board may prescribe.

Retail sales by purchaser giving certificate

6094. If a purchaser who gives a certificate makes any use of the property other than retention, demonstration, or display while holding it for sale in the regular course of business, the use shall be deemed a retail sale by the purchaser as of the time the property is first used by him, and the cost of the property to him shall be deemed the gross receipts from such retail sale. If the sole use of the property other than retention, demonstration, or display in the regular course of business is the rental of the property while holding it for sale, the purchaser may elect to include in his gross receipts the amount of the rental charged rather than the cost of the property to him.

CHAPTER 3. THE USE TAX

Article 1. Imposition of Tax

Levy of tax: Rate

6201. An excise tax is hereby imposed on the storage, use, or other consumption in this State of tangible personal property purchased from a retailer on or after July 1, 1935, for storage, use, or other consumption in this State at the rate of 3 per cent of the sales price of the property.

Liability for tax

6202. Every person storing, using, or otherwise consuming in this State tangible personal property purchased from a retailer is liable for the tax. His liability is not extinguished until the tax has been paid to this State except that a receipt from a retailer maintaining a place of business in this State or from a retailer who is authorized by the board, under such rules and regulations as it may prescribe, to collect the tax and who is, for the purposes of this part relating to the use tax, regarded as a retailer maintaining a place of business in this State, given to the purchaser pursuant to Section 6203, is sufficient to relieve the purchaser from further liability for the tax to which the receipt refers.

Collection of tax by retailers

6203. Every retailer maintaining a place of business in this State and making sales of tangible personal property for storage, use, or other consumption in this State, not exempted under Chapter 4 of this part, shall, at the time of making the sales or, if the storage, use, or other consumption of the tangible personal property is not then taxable hereunder, at the time the storage, use, or other consumption becomes taxable, collect the tax from the purchaser and give to the purchaser a receipt therefor in the manner and form prescribed by the board.

6204. The tax required to be collected by the retailer constitutes a debt owed by the retailer to this State. Tax a debt of retailer

6205. It is unlawful for any retailer to advertise or hold out or state to the public or to any customer, directly or indirectly, that the tax or any part thereof will be assumed or absorbed by the retailer or that it will not be added to the selling price of the property sold or that if added it or any part thereof will be refunded. Unlawful to advertise absorption of tax

6206. The tax required to be collected by the retailer from the purchaser shall be displayed separately from the list price, the price advertised in the premises, the marked price, or other price on the sales check or other proof of sales. Separate statement of tax

6207. Any person violating Sections 6203, 6205, or 6206 is guilty of a misdemeanor. Penalty

Article 2. Registration

6226. Every retailer selling tangible personal property for storage, use, or other consumption in this State shall register with the board and give the name and address of all agents operating in this State, the location of all distribution or sales houses or offices or other places of business in this State, and such other information as the board may require. Registration of retailers

Article 3. Presumptions and Resale Certificates

6241. For the purpose of the proper administration of this part and to prevent evasion of the use tax and the duty to collect the use tax, it shall be presumed that tangible personal property sold by any person for delivery in this State is sold for storage, use, or other consumption in this State until the contrary is established. The burden of proving the contrary is upon the person who makes the sale unless he takes from the purchaser a certificate to the effect that the property is purchased for resale. Presumption of taxability Resale certificate

6242. The certificate relieves the person selling the property from the burden of proof only if taken in good faith from a person who is engaged in the business of selling tangible personal property and who holds the permit provided for by Article 2, Chapter 2, of this part and who, at the time of purchasing the tangible personal property, intends to sell it in the regular course of business or is unable to ascertain at the time of purchase whether the property will be sold or will be used for some other purpose. Conditions of validity

6243. The certificate shall be signed by and bear the name and address of the purchaser, shall indicate the number of the permit issued to the purchaser, and shall indicate the general character of the tangible personal property sold by Contents of certificate

the purchaser in the regular course of business. The certificate shall be substantially in such form as the board may prescribe.

Use of property purchased under resale certificate

6244. If a purchaser who gives a certificate makes any storage or use of the property other than retention, demonstration, or display while holding it for sale in the regular course of business, the storage or use is taxable as of the time the property is first so stored or used. If the sole use of the property, other than retention, demonstration, or display in the regular course of business, is the rental of the property while holding it for sale, the purchaser may elect to pay the tax on the use measured by the amount of the rental charged rather than the sales price of the property to him.

Presumption

6245. It shall be further presumed that tangible personal property shipped or brought to this State by the purchaser was purchased from a retailer on or after July 1, 1935, for storage, use, or other consumption in this State.

A deficiency determination may be made of the amount due for more than one period.

Interest

6482. The amount of the determination, exclusive of penalties, shall bear interest at the rate of one-half of 1 per cent per month, or fraction thereof, from the fifteenth day after the close of the quarterly period for which the amount or any portion thereof should have been returned until the date of payment.

The estimate shall be made for the period or periods in respect to which the person failed to make a return and shall be based upon any information which is in the board's possession or may come in its possession. Upon the basis of this estimate

the board shall compute and determine the amount required to be paid to the State, adding to the sum thus arrived at a
Penalty penalty equal to 10 per cent thereof. A determination may be made for more than one period.

The amount determined is immediately due and payable.

When determination final 6537. If the amount specified in the determination is not paid within 10 days after service of notice thereof upon the person against whom the determination is made, the amount becomes final at the expiration of the 10 days, unless a petition for redetermination is filed within the 10 days, and the delinquency penalty and the interest provided in Section 6591 shall attach to the amount of the tax or the amount of the tax required to be collected.

Notice of the sale may be served upon the person who deposited the security personally or by mail; if by mail, service shall be made in the manner prescribed for service of a notice of a deficiency determination and shall be addressed to the person at his address as it appears in the records of the board. After receiving the notice the persons so notified shall neither transfer nor make any other disposition of the credits, other personal property, or debts in their possession or under their control at the time they receive the notice until the board consents to a transfer or disposition or until 20 days elapse after the receipt of the notice. In any action relating to the use tax brought under this part process may be served according to the Code of Civil Procedure and the Civil Code of this State or may be served upon any agent or clerk in this State employed by any retailer in a place of business maintained by the retailer in this State. (d) Whenever the estate and effects of an absconding, concealed, or absent person required to pay any amount under this part are levied upon by process of law.

This section does not give the State a preference over any recorded lien which attached prior to the date when the amounts required to be paid became a lien.

Recordation of certificate of delinquency

See also Stats 1941, p 1351

6757. If any amount required to be paid to the State under this part is not paid when due, the board may within three years after the amount is due file in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and last known address of the person liable for the sum, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien.

Lien

Release or subordination of lien

6758. The board may at any time release all or any portion of the property subject to any lien provided for in this part from the lien or subordinate the lien to other liens and encumbrances if it determines that the amount, interest, and penalties are sufficiently secured by a lien on other property or that the release or subordination of the lien will not jeopardize the collection of the amount, interest, and penalties.

Certificate of release or subordination

6759. A certificate by the board to the effect that any property has been released from the lien or that the lien has been subordinated to other liens and encumbrances shall be

conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Expenses of levying warrant
See also Stats 1941, p 1352

The board shall pay the sheriff or constable, upon the completion of his services pursuant to a warrant, the same fees, commissions, and expenses for his services as are provided by law for similar services pursuant to a writ of execution. The board, and not the court, shall approve the fees for publication in a newspaper.

6778. The fees, commissions, and expenses are the obligation of the person required to pay any amount under this part and may be collected from him by virtue of the warrant or in any other manner provided in this part for the collection of the tax.

Article 6. Seizure and Sale

Seizure of property

6796. At any time within three years after any person is delinquent in the payment of any amount, the board may forthwith collect the amount in the following manner: The board shall seize any property, real or personal, of the person and sell the property, or a sufficient part of it, at public auction to pay the amount due together with any interest or penalties imposed for the delinquency and any costs incurred on account of the seizure and sale.

Any seizure made to collect a sales tax due shall be only of property of the retailer not exempt from execution under Section 690 of the Code of Civil Procedure.

Notice of sale

6797. Notice of the sale and the time and place thereof shall be given to the delinquent person in writing at least 10 days before the date set for the sale in the following manner: The notice shall be inclosed in an envelope addressed to the person, in case of a sale for use taxes due, at his last known address or place of business, and, in case of a sale for sales taxes due, at his last known residence or place of business in this State. It shall be deposited in the United States mail, postage prepaid. The notice shall also be published for at least 10 days before the date set for the sale in a newspaper of general circulation published in the county in which the

property seized is to be sold. If there is no newspaper of general circulation in the county, notice shall be posted in three public places in the county 10 days prior to the date set for the sale. The notice shall contain a description of the property to be sold, a statement of the amount due, including interest, penalties, and costs, the name of the delinquent, and the further statement that unless the amount due, interest, penalties, and costs are paid on or before the time fixed in the notice for the sale, the property, or so much of it as may be necessary, will be sold in accordance with law and the notice.

Contents

Sale

6798. At the sale the board shall sell the property in accordance with law and the notice and shall deliver to the purchaser a bill of sale for the personal property and a deed for any real property sold. The bill of sale or deed vests the interest or title of the person liable for the amount in the purchaser. The unsold portion of any property seized may be left at the place of sale at the risk of the person liable for the amount.

Disposal of excess proceeds

6799. If upon the sale the moneys received exceed the total of all amounts, including interest, penalties, and costs due the State, the board shall return the excess to the person liable for the amounts and obtain his receipt. If any person having an interest in or lien upon the property files with the board prior to the sale notice of his interest or lien, the board shall withhold any excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the person liable for the amount is not available, the board shall deposit the excess moneys with the State Treasurer, as trustee for the owner, subject to the order of the person liable for the amount, his heirs, successors, or assigns.

Liability of purchaser

See also Stats 1941, p. 1352

6812. If the purchaser of a business or stock of goods fails to withhold purchase money as required, he becomes personally liable for the payment of the amount required to be withheld by him.

Article 8. Miscellaneous Provisions

Report of collections

6826. The board shall report to the Controller the amount of collections under this part, and he shall keep a record thereof.

Remedies cumulative

6827. The remedies of the State provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the State to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

Authority of board

6828. In all proceedings under this chapter the board may act on behalf of the people of the State of California.

Chapter 7. Overpayments and Refunds

Article 1. Claim for Refund

Credit or refund of overpayments

See also Stats 1941, p 1353

6901. If the board determines that any amount, penalty, or interest has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in the records of the board and shall certify to the State Board of Control the amount collected in excess of the amount legally due and the person from whom it was collected or by whom paid to the board. If approved by the State Board of Control the excess amount collected or paid shall be credited on any amounts then due from the person under this part, and the balance shall be refunded to the person, or his successors, administrators, or executors.

Use tax

Any overpayment of the use tax by a purchaser to a retailer who is required to collect the tax and who gives the purchaser a receipt therefor pursuant to Article 1, Chapter 3, of this part shall be credited or refunded by the State to the purchaser.

Time for filing claim

See also Stats 1941, p 1353

6902. No credit or refund shall be allowed unless a claim therefor is filed with the board within three years from the fifteenth day after the close of the quarterly period for which the overpayment was made, or, with respect to determinations made under Articles 2 or 3 of Chapter 5 of this part, within six months after the determinations become final, whichever period expires the later.

Use tax

6903. No credit or refund of any amount paid pursuant to Chapter 3 of this part shall be allowed on the ground that the storage, use, or other consumption of the property is exempted under Section 6401 unless in addition to the overpayment for which the claim is filed the claimant also reimburses his vendor for the amount of the sales tax imposed upon his vendor with respect to the sale of the property and paid by the vendor to the State.

Contents of claim

6904. Every claim shall be in writing and shall state the specific grounds upon which the claim is founded.

Waiver

6905. Failure to file a claim within the time prescribed in this article constitutes a waiver of any demand against the State on account of overpayment.

Notice

6906. Within 30 days after disallowing any claim in whole or in part the board shall serve notice of its action on the claimant in the manner prescribed for service of notice of a deficiency determination.

Interest

6907. Interest shall be paid upon any overpayment of any amount of tax at the rate of one-half of 1 per cent per month from the fifteenth day of the calendar month following the quarterly period for which the overpayment was made; but no refund or credit shall be made of any interest imposed upon the claimant with respect to the amount being refunded or credited.

The interest shall be paid:

(a) In the case of a refund, to the fifteenth day of the calendar month following the date upon which the claimant is notified by the board that a claim may be filed or the date upon which the claim is certified to the State Board of Control, whichever date is the earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

Disallowance of interest

6908. If the board determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

Article 2. Suit for Refund

Injunction against collection

6931. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this State or against any officer of the State to prevent or enjoin the collection under this part of any tax or any amount of tax required to be collected.

Claim for refund

6932. No suit or proceeding shall be maintained in any court for the recovery of any amount alleged to have been erroneously or illegally determined or collected unless a claim for refund or credit has been duly filed pursuant to Article 1 of this chapter.

Action to recover tax paid

6933. Within 90 days after the mailing of the notice of the board's action upon a claim filed pursuant to Article 1 of this chapter, the claimant may bring an action against the board on the grounds set forth in the claim in a court of competent jurisdiction in the County of Sacramento for the

recovery of the whole or any part of the amount with respect to which the claim has been disallowed.

Failure to bring action within the time specified constitutes a waiver of any demand against the State on account of alleged overpayments.

Failure to mail notice

6934. If the board fails to mail notice of action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the board of its action on the claim, consider the claim disallowed and bring an action against the board on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

Judgment

6935. If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited as follows:

(a) If the judgment is for a refund of sales taxes, it shall be credited on any sales or use tax or amount of use tax due from the plaintiff.

(b) If the judgment is for a refund of use taxes, it shall be credited on any use tax or amount of use tax due from the plaintiff under Chapter 3 of this part.

The balance of the judgment shall be refunded to the plaintiff.

Interest

6936. In any judgment, interest shall be allowed at the rate of 6 per cent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days, the date to be determined by the board.

Action in name of assignee

6937. A judgment shall not be rendered in favor of the plaintiff in any action brought against the board to recover any amount paid when the action is brought by or in the name of an assignee of the person paying the amount or by any person other than the person who paid the amount.

Article 3. Recovery of Erroneous Refunds

Erroneous refunds

6961. The Controller may recover any refund or part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California.

Venue

6962. The action shall be tried in the County of Sacramento unless the court with the consent of the Attorney General orders a change of place of trial.

Nothing in this article shall be construed or shall operate to release any property from any lien created by this part for or in respect to any license tax the collection of which is postponed or authorized to be postponed under this article.

Remedies cumulative 7982. The remedies of the State provided for in this chapter are cumulative, and no action taken by the Controller or the Attorney General constitutes an election by the State to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

Chapter 7. Overpayments and Refunds

Article 1. Refunds on Certain Sales

Tax refunds 8101. The following persons who have paid a license tax for motor vehicle fuel, either directly or to the vendor from whom it was purchased, or indirectly by the adding of the

amount of the tax to the price of the fuel, shall be reimbursed and repaid the amount of the tax:

(a) Any person who buys and uses the motor vehicle fuel for purposes other than in motor vehicles operated upon the public highways of the State.

(b) Any person who exports the motor vehicle fuel for use outside of this State. Motor vehicle fuel carried from this State in the fuel tank of a motor vehicle is not deemed to be exported from this State.

(c) Any employee of the United States who buys the motor fuel and uses it exclusively in the transportation of rural free delivery mail and special delivery mail.

(d) The United States or any department thereof which buys the motor vehicle fuel for official use and on which fuel no claim for exemption from payment of the tax could be filed in accordance with Chapter 3 of this part.

Affidavit

8102. The claimant of a refund shall present to the Controller an affidavit supported by the original invoice showing the purchase. The affidavit shall be verified by the oath of the claimant and shall state the total amount of the fuel purchased, the fact that the claimant has paid the price of the fuel, and the manner and the equipment in which the claimant has used the fuel.

Payment of refund

8103. The Controller, upon the presentation of the affidavit and the invoice, shall cause to be paid to the claimant from the license taxes collected under this part an amount equal to the license taxes collected on the motor vehicle fuel in respect to which the refund is claimed.

Examination of books, etc.

8104. In order to establish the validity of any claim the Controller may, upon demand, examine the books and records of the claimant for such purpose. The failure of the claimant to accede to such demand constitutes a waiver of all right to the refund claimed on account of the transactions questioned. The examination may be made either through employees of the office of the Controller or of the office of the board.

Time of application

8105. All applications for refund based upon exportation of motor vehicle fuel from this State shall be filed with the Controller within 90 days from the date of exportation. All other applications shall be filed within 12 months from the date of the purchase of the motor vehicle fuel. Any application filed after the time prescribed shall not be considered for any purpose by the Controller, the State Treasurer, or the State.

Credit in lieu of refund

8106. In lieu of the collection and refund of the tax on motor vehicle fuel used by a distributor in such a manner as would entitle a purchaser to claim refund under this article,

credit may be given the distributor upon his tax return and the determination of the amount of his tax.

Losses in handling, etc.

8107. No refund shall be granted for losses in handling, transporting, or storing motor vehicle fuel.

Article 2. Claim for Refund

Refunds

8126. If the board determines that any amount not required to be paid under this part has been paid by any person and that a correction of the erroneous payment can not be made pursuant to Section 8191, the board shall set forth in its records and certify to the State Board of Control the amount collected in excess of the amount legally due and the person from whom it was collected and, if the State Board of Control approves, shall certify the amount to the Controller for credit or refund.

Credit and refund

8127. The Controller shall thereupon credit the excess on any amounts then due from the person under this part and refund the balance to the person or his successors, administrators, executors, or assigns.

Time for filing claim

8128. No credit or refund under this article shall be allowed after three years from the date of overpayment unless a claim therefor is filed with the board within three years from the date of overpayment.

Contents

8129. The claim shall be in writing and shall state the specific grounds upon which it is founded.

Article 3. Suit for Refund

Injunction against collection

8146. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this State or against any officer of the State to prevent or enjoin the collection under this part of any license tax determined by the board.

Action to recover tax paid

8147. After payment of a license tax under protest duly verified and setting forth the grounds of objection to the legality of the tax, the distributor paying the tax may bring an action against the State Treasurer in the Superior Court of the County of Sacramento for the recovery of the tax so paid.

Waiver

8148. No action may be instituted more than 90 days after the last day prescribed for the payment of the license tax without penalty. Failure to bring suit within the 90 days constitutes a waiver of any demand against this State on account of alleged overpayment of license taxes.

8149. The court shall not consider any grounds of illegality of the license tax other than those set forth in the protest filed at the time of the payment of the license tax. Grounds of action

8150. If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any license taxes due from the plaintiff under this part, and the balance of the judgment shall be refunded to the plaintiff. Judgment

8151. In any judgment, interest shall be allowed at the rate of 7 per cent per annum upon the amount of the license tax found to have been illegally collected from the date of payment thereof to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days, the date to be determined by the board. Interest See also Stats 1941, p 2618

8152. A judgment shall not be rendered in favor of the plaintiff in any action brought against the State Treasurer to recover any license tax paid when the action is brought by or in the name of an assignee of the distributor paying the license tax or by any person other than the person who paid the license tax. Action in name of assignee

Article 4. Recovery of Erroneous Refunds

8171. The Controller may recover any refund or part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California. Erroneous refunds

8172. The action shall be tried in the County of Sacramento unless the court with the consent of the Attorney General orders a change of place of trial. Venue

8173. The Attorney General shall prosecute the action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings. Attorney General to prosecute

Article 5. Corrections and Cancellations

8191. If examinations of the records of distributors or investigations made by the board disclose that any reports of distributors filed with the board show incorrectly the amount of gallonage of motor vehicle fuel distributed or the tax accruing thereon, the board may make such changes in subsequent determinations of the taxes of the distributors as it deems necessary to correct the errors so disclosed. Correction of reports

Cancellation of illegal determinations

8192. If the board determines that any amount has been illegally determined to be due from any person and that a correction for the erroneous determination can not be made pursuant to Section 8191, the board shall set forth in its records and certify to the State Board of Control the amount determined in excess of the amount legally due and the person against whom the determination was made. If the State Board of Control approves, it shall authorize the cancellation of the amount upon the records of the Controller.

The amount determined is immediately due and payable.

When determination final 8827. If the amount of the tax, interest, and penalty specified in the jeopardy determination is not paid within 10 days after service upon the user of notice of the determination, the determination becomes final, unless a petition for redetermination is filed within the 10 days, and the delinquency penalty and interest provided in Article 6 of this chapter shall attach to the amount specified.

PART 4. MOTOR VEHICLE TRANSPORTATION LICENSE TAX

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

Short title

9601. This part is known and may be cited as the "Motor Vehicle Transportation License Tax Law."

"Operator"

9603. "Operator" includes:

(a) Any person engaging in the transportation of persons or property for hire or compensation by or upon a motor vehicle upon any public highway in this State, either directly or indirectly.

(b) Any person who furnishes any motor vehicle for the transportation of persons or property under a lease or rental agreement when pursuant to the terms thereof the person operates the motor vehicle furnished or exercises any control of, or assumes any responsibility for, or engages either in whole or in part in, the transportation of persons or property in the motor vehicle furnished.

(a) Any person transporting his own property in a motor vehicle owned or operated by him unless he makes a specific charge for the transportation. This subdivision does not in any way limit any other exemption granted by this section.

(b) Any farmer, resident of this State, who occasionally transports property for other farmers, or who transports his own farm products, or who transports laborers to and from farm work incidentally in his farming operations.

(c) Any nonprofit agricultural cooperative association, organized and acting within the scope of its powers under Chapter 4 of Division 6 of the Agricultural Code, to the extent only that it is engaged in the transporting of its own property or the property of its members.

(d) Any person whose sole transportation of persons or property for hire or compensation consists of the transportation of children to or from any public school and whose total compensation from all sources for providing such transportation does not exceed fifty dollars ($50) in any calendar month.

"Gross receipts" as applied in connection with operations under lease or rental agreements include such amounts as the board under such rules and regulations as it may prescribe determines to be reasonable compensation for the transportation services rendered by the operator.

"Department." 9607. "Department" means the Department of Motor Vehicles.

Every operator of a motor vehicle within this State who transports or desires to transport for compensation or hire persons or property upon any public highway within this State shall apply to the board, on such forms as the board may prescribe, for a license to operate motor vehicles for the transportation of persons or property for hire or compensation upon public highways in this State.

Fee 9702. Each application for a license shall be accompanied by a fee of five dollars ($5) payable to the board.

Issuance of license 9703. Upon the receipt of the application, accompanied by the required fee, the board shall issue to the applicant a license to transport for compensation or hire persons or property upon any public highway within this State. The board may refuse to issue a license to any person to whom a license was previously issued and subsequently revoked for a violation of this part.

9704. No license issued authorizes the operation of any motor vehicle upon the public highways of this State contrary to the laws in effect regulating the operation of motor vehicles. Effect of license

9705. No license issued is assignable by operation of law or otherwise. Nonassignable

9706. Every license issued expires on December 31st next succeeding the date upon which it is issued. Expiration
See also Stats 1941, p 3107

9707. If any person becomes an operator and fails to apply for the license and pay the fee required within 30 days thereafter or fails to apply for the renewal of a license and pay the license fee of five dollars ($5) prior to January 1st of the succeeding year and continues to act as an operator taxable under this part, the amount of five dollars ($5) shall be added to the license fee to be charged to the person. Penalty
See also Stats 1941, p 3107

Article 2. Emblems

9726. After obtaining the required license the operator shall obtain from the department number plates or emblems for each motor vehicle operated by him indicating, in such manner as the department may determine, that the license has been obtained. Emblems

9727. The number plates or emblems shall be attached to and conspicuously displayed upon each of the motor vehicles authorized to be operated by the license in such manner as the department may require. Display

9728. The department may charge and collect from operators required to display number plates or emblems the pro rata cost to the State of the designing, manufacturing, and distributing of the number plates or emblems. Cost

9729. Upon the issuance of any number plates or emblems for display on any motor vehicle licensed under this part, the department shall immediately notify the board thereof. Notice to board

Article 3. Revocation of License

9751. Whenever any operator licensed under this part fails to comply with any provision of this part or any rule or regulation of the board prescribed and adopted under this part, the board upon hearing, after giving the operator 10 days' notice in writing of the time and place of the hearing to show cause why his license should not be revoked, may revoke the license. Cause for revocation

9752. The department upon receiving written notice from the board that the license of an operator has been revoked by Suspension of vehicle registration

the board or that an operator has failed, neglected, or refused to obtain a license shall forthwith suspend the registration of the motor vehicles of the operator which are specified in the notice and shall cause to be removed from such motor vehicles all number plates or emblems issued by the department for display upon the vehicles.

Unlawful to operate after suspension

9753. After the suspension of registration of a motor vehicle and the removal of number plates or emblems therefrom it is a misdemeanor to operate the vehicle upon the public highways of this State until the operator fully complies with the provisions of this part, a certificate to that effect is issued by the board to the department, and the registration of the vehicle is restored by the department.

Impounding vehicles

9754. The board or its authorized representatives may impound the vehicles of an operator whose license has been revoked and who continues to engage in the transportation of persons or property for hire or compensation after having been duly notified by the board of the revocation. The board or its representatives may retain possession of the vehicles until all taxes, interest, and penalties due from the operator and all costs incurred in connection with the impounding or storage of the vehicles have been paid.

Article 4. Reinstatement of License

Reinstatement of license

9776. Subsequent to the revocation of the license of an operator the board shall reinstate the license when the operator pays the amount of license tax determined together with interest and penalties, fully complies with the provisions of this part, and pays a fee of five dollars ($5) to the board for reinstatement.

Restoration of registration

9777. The department shall restore the registration of the motor vehicles of the operator and the number plates and emblems removed therefrom upon the issuance by the board to the department of a certificate to the effect that the operator has fully complied with the provisions of this part and upon the payment by the operator to the department of a fee of five dollars ($5) for the restoration of the registration of each motor vehicle.

Re-registration or transfer of registration

9778. If the registration of any motor vehicle has been suspended under Article 3 of this chapter, the department shall not thereafter reregister the motor vehicle or transfer the registration of ownership thereof upon the records of the department until the board issues to the department a certificate to the effect that the operator has fully complied with the provisions of this part.

Certificate of license tax clearance

See also Stats 1941, p 3107

9779. Transfer by the department of the registered ownership of any motor vehicle licensed under this part may be

effected only after a certificate of license tax clearance has been issued therefor by the board. The certificate of license tax clearance completely extinguishes the lien provided for in Article 3, Chapter 5, of this part in the motor vehicle described in the certificate.

Payments by legal owner

9780. If the operator of any motor vehicle is merely the registered owner thereof and the legal owner of record repossesses the vehicle and pays the full amount of the license tax determined together with all interest and penalties, the legal owner shall not be required to pay the fees required for reinstatement of license and restoration of registration, nor shall any provision of Articles 3 and 4 of this chapter be applicable.

close of the month or months for which the deficiency determination is made until the date of payment.

Determinations on failure to make returns

See also Stats 1941, p 3108

9901. If any operator fails, neglects, or refuses to file a return within the time required, the board shall make an estimate of the amount of the taxable gross receipts of the operator for the month or months for which the operator failed to make a return. Upon the basis of this estimate the board shall compute and determine the tax payable by the operator,

Penalty

adding to the amount of tax so determined a penalty equal to 10 per cent thereof.

Additional penalty

9903. If the neglect or refusal of an operator to file a return is due to fraud or an intent to evade the tax, a penalty of 25 per cent of the tax shall be added thereto in addition to the 10 per cent penalty provided in Section 9901.

Amount of deposit

1584. The amount of such deposit shall be equal to the minimum amount of the paid-in capital required of incorporated insurers issuing policies on a reserve basis and doing the same classes of insurance for which such alien insurer is admitted. Such deposit may be treated as a part of the assets of the depositing insurer. For the purpose of computing the amount of the deposit, the value of the securities shall not be estimated in excess of the par value nor of the market value thereof.

Deposit in other State

1585. If such deposit is not so maintained in this State, it shall be deemed to be in existence as required by this article only when a certificate, issued by the proper authority of the State of deposit and showing in detail the constituent securities thereof and the purpose thereof, is delivered to the commissioner at least annually and at such other times as may be required by the commissioner.

Certificate of deposit

1589. Whenever such a deposit is made with the commissioner, he shall issue to the depositing insurer a certificate under his official seal stating the items and amount of securities so deposited, and their value, to the best of his knowledge. Such assets so deposited are designated "special State deposits." The value to be allowed in such statement for any special State deposit shall not exceed the liability secured thereby.

"Trusteed assets"

(c) All of its assets within the United States, other than general State deposits and special State deposits, held by any trustee for the benefit and security of all the policyholders, or of all the policyholders and creditors, of such alien insurer within the United States. Such assets so held are designated "trusteed assets."

Interest receivable

(d) The amount of interest receivable, accrued at the date of such statement on the general State deposits, the special State deposits, and the trusteed assets of such alien insurer, if such interest is collectible by the State or trustee.

"Liabilities in U. S." (e) All of the reserves and other liabilities arising out of policies or obligations issued, assumed or incurred by such alien insurer in the United States. Said reserves and other liabilities are designated as "liabilities in the United States."

Determination of liabilities in U. S. For the purpose of determining the liabilities in the United States of such alien insurer there may be deducted:

(1) From the amount of such liabilities for unpaid losses, the amount of reinsurance recoverable from insurers authorized to do business in any State in which such alien insurer maintains a general State deposit or a special State deposit.

(2) From the amount of such liabilities for unearned premiums, first, the unearned portion, included in such amount, of premiums receivable by such insurer from its agents or policyholders under policies issued by it in the United States and not more than 90 days past due on the date of such statement, and second, the amount of reinsurance premiums receivable by such alien insurer from other insurers authorized to do business in any State in which such alien insurer maintains a general State deposit or a special State deposit.

(3) Those liabilities in the United States, pertaining to any asset in the United States of such alien insurer for which no value is claimed or allowed in such statement, but such deduction shall in no case exceed the unclaimed or disallowed value of such asset.

(4) If such alien insurer is a life insurer, the amount of the unpaid principal and interest of any loan made by it to the holder of, and solely on the security of, any policy of life insurance issued or assumed by it, on the life of any person in the United States. Such amount shall in no case exceed the amount of the reserve required to be maintained on such policy by such insurer. Such amount is designated as "policy loans in the United States."

(f) Such further information required by the commissioner, as he deems necessary to apply the provisions of this article.

Statement to be verified 1592. The statement required by Section 1591 shall be verified in the manner prescribed in Sections 903 and 903.5 and there shall be filed therewith the certificate of each trustee in the United States holding trusteed assets of such alien insurer, showing the description and amount of such trusteed assets, and the purpose for which they are held. Said statement and two certified copies thereof shall be filed by such alien insurer with the office of the division in San Francisco. Of said certified copies, one shall be filed by the commissioner in the office of the division in Los Angeles, and one in the office of the division in Sacramento.

The commissioner may at other times require any admitted alien insurer to file with him similar statements, showing the information specified in Section 1591 with respect to such other date as he may prescribe.

"Trusteed surplus in U. S."

1593. The excess of the sum of those items in such statement, which are described in subdivision (a), (b), (c) and (d) of Section 1591, over the liabilities in the United States of such alien insurer is designated the "trusteed surplus in the United States" of such alien insurer.

Repair of deficiency

1594. Whenever it appears to the commissioner that the trusteed surplus in the United States of an alien insurer is less than the minimum amount of the capital paid in or available cash assets required by this code for the transaction of the classes of insurance for which such alien insurer is admitted, he shall determine the amount of such deficiency and make requisition upon such alien insurer in writing, addressed to its attorney in the United States or to its United States manager, to repair such deficiency within such time, not less than 60 nor more than 90 days from the service of such requisition as he may therein designate. The commissioner may revoke or suspend the certificate of authority of such alien insurer or order it to cease issuing new policies in the United States, while such deficiency exists.

Proceedings on failure to repair deficiency

If at the expiration of the period designated in such requisition such alien insurer has failed to repair such deficiency, the commissioner may proceed against it under the provisions of Article 14, Chapter 1, Part 2, Division 1 as against an insurer whose condition is such that its further transaction of business will be hazardous to its policyholders, or creditors, or to the public.

Nature of trustee

1595. Whenever an admitted alien insurer is required or permitted to deposit assets with a trustee for the benefit and security of its policyholders, or of its policyholders and creditors, in the United States, the trustee of any such trust hereafter created shall be a solvent bank or trust company in the United States acceptable to the commissioner and authorized to act as such trustee by the laws of any State or of the United States. All trusteed assets shall be continuously kept within the United States. Any such trust heretofore created and now existing and any such trust hereafter created and existing when such alien insurer seeks to be admitted, shall be continued in accordance with the terms of the instrument creating it, unless inconsistent with the provisions of this article, in which case said instrument shall, after reasonable notice to and hearing of the alien insurer by the commissioner, be amended to conform to the requirements of this article.

Amendment of deed of trust

No amendment of any deed of trust, whether heretofore or hereafter created, shall be effective unless approved in writing by the commissioner. If the trustees of any such trust heretofore created are natural persons, and if the number of such trustees is reduced, by death, resignation, or from any other cause, to less than three, then the commissioner shall require the substitution for such trustees of a solvent bank or trust company in the United States acceptable to him and authorized to act as such trustee by the laws of any

State or of the United States. The commissioner may from time to time approve modifications of, or variations in, any deed of trust, which in his judgment are not prejudicial to the interests of the people of this State.

Deed of trust

1596. To satisfy the purposes of this article, any alien insurer admitted or seeking to be admitted is hereby authorized to make and execute a deed of trust by virtue of which any assets of an alien admitted insurer are held by a trustee as trusteed assets within the meaning of subdivision (c) of Section 1591. Such deed of trust shall:

Legal title in trustee

New trustee

(b) Provide for the substitution of a new trustee in the event of a vacancy by death, resignation or from any other cause, subject to the approval of the commissioner;

Separation of trusteed assets

(c) Require that the trusteed assets shall at all times be maintained within the United States as a trust fund separate and distinct from all other assets, and that the trustee shall continuously maintain a record at all times sufficient to identify such fund;

Distribution of income

(d) Prescribe the conditions, satisfactory to the commissioner and not inconsistent with the purposes of this article, under which any or all income, earnings, dividends or interest accumulations of such fund may be paid over to the United States manager of such alien insurer;

Withdrawal of trusteed assets

(e) Prohibit the withdrawal, other than as provided in accordance with subdivision (d), of any trusteed assets from such fund without the written approval of the commissioner, except as follows:

1. For the purpose of making general State deposits required by law in any State.

2. For the purpose of paying obligations due from such alien insurer to policyholders and creditors in the United States, and for the purpose of making special State deposits required by law in any State, if such payments and deposits do not impair the trusteed surplus in the United States of such alien insurer to an amount less than the minimum amount specified in Section 1594, and such fact is certified to the trustee by the insurer or its United States manager duly authorized for that purpose.

3. For the purpose of substituting other assets permitted by law and at least equal in value to those to be withdrawn, upon the specific written direction of the United States manager or an assistant United States manager or other representative in the United States of such alien insurer when duly empowered and acting pursuant to either general or specific written authority previously given or delegated by the board of directors thereof, except as provided in the paragraph numbered 5 of this subdivision.

4. For the purpose of transferring such assets to an official conservator, rehabilitator, or liquidator pursuant to an order of a court of competent jurisdiction.

5. In the case of an alien life insurer organized under the laws of the Dominion of Canada or of any province thereof, the provisions of this section applicable to the United States manager or an assistant United States manager or other representative in the United States of such alien insurer shall be deemed to refer to the president, vice president, secretary or treasurer of such insurer at its principal place of business in said Dominion or province thereof, when duly authorized for such purpose.

Approval of officer of other State

1597. In respect of the appointment or substitution of a trustee in another State in which an admitted alien insurer is authorized to transact insurance, in respect of withdrawal of trusteed assets held in such another State (except withdrawals as provided in Section 1596), and in respect of the amendment of such deed of trust not affecting the interests or security of the beneficiaries thereof, written approval under any provision in the deed of trust which requires such written approval by the official of such other State, supervising insurance therein, shall be deemed compliance with any applicable approval requirements of Sections 1595 and 1596.

Canadian insurers

Where an alien insurer organized under the laws of the Dominion of Canada or of any province thereof maintains trusteed assets in another State and under the deed of trust written approval is required by an official supervising insurance in any State in which such insurer is authorized to transact insurance and in which it heretofore maintained and hereafter continues to maintain a general State deposit at least equal in amount to the deposit required by Section 1584, written approval by such official in respect of the appointment or substitution of a trustee thereunder, in respect of withdrawal of such trusteed assets (except withdrawals as provided in Section 1596), and in respect of the amendment of such deed of trust not affecting the interests or security of the beneficiaries thereof, shall also be deemed compliance with any applicable approval requirements of Sections 1595 and 1596.

Proof of approvals

The alien insurer shall furnish proof of approvals authorized by this section to and notify the commissioner in writing of such appointment or substitution, of the nature and extent of such withdrawal, and of the text of such amendment.

Examination of trusteed assets

1598. The commissioner may from time to time examine the trusteed assets of any alien admitted insurer pursuant to Section 736, and may from time to time require the trustee holding trusteed assets of an alien admitted insurer to file with the commissioner a statement, in such form as he may prescribe, certifying such trusteed assets and the amounts thereof. Refusal or neglect on the part of such trustee to comply with such requirement shall be ground for the revocation of such alien insurer's certificate of authority or for proceedings

Certificate of trustee

against it under the provisions of Article 14, Chapter 1, Part 2, Division 1.

Fee 1599. The commissioner shall require the payment of five dollars ($5) in lawful money of the United States, in advance, as a fee for filing each certificate of a trustee required to be filed by Section 1592.

Urgency SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1, Article IV of the Constitution of the State of California, and shall take effect immediately.

The following is a statement of facts constituting such necessity:

Present world conditions have directed attention to the large amount of their resources which alien insurance companies maintain in this country for the protection of their United States policyholders. This act affords necessary protection in the case of those alien admitted insurers which do not already conform to its provisions by compliance with similar provisions in the laws of other States, and it is therefore necessary that it be given immediate effect.

Urgency

This act is hereby declared to be an urgency measure, being necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and as such shall take effect immediately. The facts constituting such necessity are as follows:

The Legislature declares that:

(a) The prevalence of wars and general resort to force and violence in numerous areas throughout the world constitute a menace to the peace and safety of the United States, and render essential the fullest preparation and cooperation for the National defense.

(b) The precarious state of world affairs constitutes an emergency recognized by proclamation of the President of the United States and the Governor of the State of California, and by the enactment of various measures by Congress designed to strengthen the land, naval and air forces, of the Nation, including the Selective Training Act of 1940.

(c) In consequence of the vast program for National defense now developing, one of the greatest military concentrations of

military forces in the United States is now being made and centered at Fort Ord, adjacent to the Monterey Peninsula Airport District herein created.

(d) The existing municipal airport owned by the City of Monterey, in said district, is totally inadequate in size and character for the use of modern military or civil aircraft, and due to the conformation of the terrain in that vicinity is the only site capable of adequate development for airport purposes in that area.

(e) This airport has been certified by the War Department as of value for use by military aircraft and necessary for development in connection with the National Defense Preparedness Program.

(f) Pursuant to this certification, the President of the United States, on the twenty-seventh day of February, 1941, approved an appropriation in the sum of seven hundred four thousand three hundred thirteen dollars ($704,313) for the adequate improvement and enlargement of the airport facilities thereat.

(g) This appropriation does not include the cost of acquiring the additional land necessary for the enlargement of said airport, and such acquisition is immediately required in order to make the improvements and the expenditures therefor authorized by the President.

(h) The purpose of this act is to immediately form the "Monterey Peninsula Airport District" so that the area benefited will be enabled forthwith to improve said airport and to acquire the additional lands needed for military and civil airport purposes of Fort Ord, the Presidio of Monterey and the district in question.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The facts constituting such necessity are as follows: Urgency

The Federal Government is making preparations to defend this Nation against possible aggression, and in preparing for the National defense, it is necessary to construct large amounts of military weapons, stores and supplies. The Federal Government has requested that the facilities of the public schools be used to the fullest possible extent in training persons for such purposes. Under the present law of this State, the facilities of high schools will not be available on Saturdays on and after April 1, 1941, for such purposes. The inability to use the schools and the large amounts of equipment and other facilities of the schools to the fullest extent will hamper plans for the National defense. Upon this act becoming effective, the training facilities and the preparations for the defense of the State and Nation will be materially enhanced.

The people of the State of California do enact as follows:

Stats Ex Sess 1938, p 89

SECTION 1. Section 15 of the act cited in the title hereof is hereby amended to read as follows:

Settlement with bondholders of all outstanding bonds

Sec. 15. If the holders of all of the outstanding bonds agree to refund their bonds as proposed in the refunding proceeding, then all moneys in the interest and sinking fund of the district, all refunding bonds, all moneys collected on the reassessments levied in the refunding proceeding, and all public contributions (if any) shall be paid and delivered to the holders of the outstanding bonds, in such amounts and proportions as may be fixed by contract with such bondholders. Any contract with the holder of any bond may provide such terms and conditions of exchange as may be agreed upon by the holder and the legislative body, and

may contain such terms and conditions relating to time of performance, conditions precedent thereto, and the method and mode of performance, as may be agreed upon by said parties. Whenever the refunding bonds and moneys, if any, are delivered to said bondholders, said bondholders must concurrently deliver to the legislative body or its representative the outstanding unpaid bonds which are refunded and all outstanding unpaid interest coupons, constituting the entire indebtedness of said district, and the same shall forthwith be canceled.

Settlement with nonconsenting holders

In the event that the holders of one or more of the outstanding bonds do not enter any contract with the legislative body to refund the same, nevertheless if the holders of 75 per cent or more of the outstanding bonds do contract with the legislative body which conducts the refunding proceedings for the refunding of the bonds owned or held by them, said legislative body shall have authority to refund all of the bonds of said district under the provisions of this act, but in such event, prior to recording the reassessment levied under this act, sufficient moneys to adequately provide for the retirement or payment of the bonds of the nonconsenting holders must be provided and set aside in the proper fund for that purpose Any city or county or city and county which is authorized under this act to appropriate moneys to aid in refunding the bonds of the district, may make an advancement or contribution or an additional contribution in order to provide moneys to pay or retire bonds of such nonconsenting holders. Whenever any city or county or city and county or any person or corporation advances moneys to provide for the payment or retirement of the bonds of nonconsenting holders, the legislative body may deliver at par all or any portion of the refunding bonds which are not to be delivered to consenting bondholders to the person, corporation, city, county or city and county making such advance or advances, or sell at par all or any part of such refunding bonds not to be delivered to consenting bondholders, and from the proceeds thereof reimburse such person, corporation, city, county or city and county entirely or partially, and may contract to make such sale or delivery. If the legislative body makes all or any part of such advancement it may reimburse the city, county or city and county of which it is the legislative body, entirely or partially by taking all or any part of such refunding bonds at par. Any cash collected on reassessments and not required to pay consenting bondholders may also be used to reimburse in whole or in part any person, corporation, city, county or city and county making such advance or advances, and the legislative body may contract to so apply such cash. Contracts to pay in cash. Sale of refunding bonds

The legislative body conducting the refunding proceedings is authorized to advance from any fund or funds the amount of any reassessment levied upon public property and to enforce the payment of said reassessment, and said reassessment shall be and remain an enforceable obligation until it and all interest thereon are fully paid to the city or county which makes the advance.

It shall thereupon be the duty of the clerk, or the justice if there be no clerk, to transmit forthwith a copy of such memorandum to each party, or his attorney, who shall have appeared in such action or proceeding, except such party or parties as shall be present in person or by attorney when the declaration shall be made.

Affidavit in justices' court

In justices' courts when, before the trial, either party makes and files an affidavit that he believes that he can not have a fair and impartial trial before the justice before which the action is pending, by reason of the interest, prejudice or bias of the justice, the court may order the transfer of the action, and the provisions of Section 398 of this code shall apply to such transfer.

Statement in court of record

Whenever a judge of a court of record who shall be disqualified under the provisions of this section, to sit or act as such in any action or proceeding pending before him, neglects or fails to declare his disqualification in the manner hereinbefore provided, any party to such action or proceeding who has appeared therein may present to the court and file with the clerk a written statement objecting to the hearing of such matter or the trial of any issue of fact or law in such action or proceeding before such judge, and setting forth the fact or facts constituting the ground of the disqualification of such judge.

Consent or answer

Within five days after the presentation and filing of any such statement, the judge alleged therein to be disqualified may file with the clerk his consent in writing that the action or proceeding be tried before another judge, or may file with the clerk his written answer admitting or denying any or all of the allegations contained in such statement and setting forth any additional fact or facts material or relevant to the question of his disqualifications. The clerk shall forthwith transmit a copy of the judge's consent or answer to each party or his attorney who shall have appeared in such action or

Determination

No judge of a court of record, who shall deny his disqualification, shall hear or pass upon the question of his own disqualification; but in every such case, the question of the judge's disqualification shall be heard and determined by some other judge agreed upon by the parties who shall have appeared in the action or proceeding, or, in the event of their failing to agree, by a judge requested to act by the chairman of the Judicial Council, and, if the parties fail to agree upon a judge to determine the question of the disqualification, within five days after the expiration of the time allowed herein for the judge to answer, it shall be the duty of the clerk then to notify the chairman of the Judicial Council of that fact; and it shall be the duty of the chairman of the Judicial Council forthwith, upon receipt of notice from the clerk, to request some other judge, not disqualified, to hear and determine the question.

Substitute judge or justice

If such judge admits his disqualification, or files his written consent that the action or proceeding be tried before another judge, or fails to file his answer within the five days herein allowed, or if it shall be determined after hearing that he is disqualified, the action or proceeding shall be heard and determined by another judge or justice not disqualified, who shall be agreed upon by the parties, or, in the event of their failing to agree, appointed by the chairman of the Judicial Council; provided, however, that when there are two or more judges of the same court, one of whom is disqualified, the action or proceeding may be transferred to a judge who is not disqualified.

CHAPTER 73

An act to amend School Code Section 5.654, relating to the dismissal of permanent employees of a school district.

In effect September 13, 1941

[Approved by Governor April 4, 1941. Filed with Secretary of State April 4, 1941.]

The people of the State of California do enact as follows:

Stats 1937, p 1629

SECTION 1. School Code Section 5.654 is hereby amended to read as follows:

Hearing

5.654. When any employee who has been served with notice of the governing board's intention to dismiss him, shall demand such hearing, the governing board shall have the option either (1) to rescind its action, or (2) to file a complaint in the superior court of the county in which the school district or the major part thereof is located, setting forth the charges against such employee and asking that the court inquire into such charges and determine whether or not such charges are true, and if true, whether or not they constitute sufficient grounds for the dismissal of such employee, under the provisions of this code, and for judgment pursuant to its findings.

Filing complaint

If the board elects to file a complaint such complaint must be filed within 30 days from the date of the employee's demand for hearing. If the complaint be not filed within such period the board's action shall be deemed to be rescinded and all charges dismissed.

Procedure after service of summons

The employee within 10 days after service upon him of the summons, and a copy of the complaint may demur to such complaint or may file an answer, to which the governing board may demur. If the employee shall fail to answer or demur within such 10-day period, or any extension thereof, made by stipulation or order of court, his default shall be entered and judgment shall be entered by the court declaring the right of the governing board to dismiss such employee. Both the complaint and the answer shall be verified. Demurrers to the complaint or answer may be upon any of the grounds specified in the Code of Civil Procedure for demurrer to a complaint or answer, and procedure on such demurrer shall be the same as in any civil proceeding. When the employee has filed his answer to such complaint, either party may, upon five days' notice to the other, move the court to set the matter for trial. Such proceeding shall be set for trial at the earliest possible date and shall take precedence over all other cases, except older matters of the same character and matters to which special precedence may be given by law. Upon motion of either party, the court in its discretion, or on its own motion, may appoint three disinterested persons over 21 years of age as referees, to ascertain the facts and report their findings to the court. The persons appointed as such referees must be persons of suitable experience and educational qualifications, and in sympathy with the merit system for employing teachers.

Referees

The compensation of the referees shall be fixed by the court but shall not exceed ten dollars ($10) for each day served. Compensation of referees

Each of such referees within five days after his appointment must take and file with the court an oath to discharge his duties faithfully and impartially. If any of such referees fails to qualify, or resigns, or is removed by order of court, or is, or becomes unable to act, the vacancy so created shall be filled by the court. The referees shall at once organize by electing one of their number chairman, and shall fix a date and place for a hearing which date shall be not less than 10 days and not more than 20 days after the date of their appointment, but either the board or the employee shall have the right to one continuance for a period of not more than 10 days. The hearing shall be open to the public except upon stipulation of the parties. Written notice of the time and place of the trial or hearing shall be served upon the employee or his attorney at least five days before the date of the hearing. Upon the date set for the trial or hearing, both the board and the employee shall have the right to be represented by counsel, and to introduce such testimony and other evidence as may be relevant to the issue. The referees shall have power to examine witnesses under oath, to be administered by any of them, or affirmation. The referees and either party may have subpenas issued by the clerk of the court requiring the attendance of witnesses or the production of evidence before them. All records regularly kept by the governing board concerning employees which relate to the employee charged shall be admissible in evidence, but no dismissal, or judgment that a governing board may dismiss may be made on said records alone. Technical rules of evidence shall not apply to hearings before such referees. Rules of evidence They shall make and file with the court a written report of their findings, and of their necessary expenses, within 30 days after their appointment, but such time may be extended by the court, for good cause shown for an additional period not exceeding 60 days; provided, that if any vacancy in the referees is created and filled, or if new referees are appointed, or a new report from the same referees ordered, the time for the filing of such report shall run from the date of filling such vacancy or appointing of new referees or ordering a new report from the same referees. Any majority of such referees, who have been present during the entire hearing or trial and who agree thereto may make such report. Attached to such report shall be a complete transcript of all the testimony and evidence, which shall be taken by a competent reporter who shall be paid by such governing board. A copy of such report and such transcript shall be delivered to each of the parties. Referees' report

Upon the filing of such report the court, upon motion of either party, must set a day for hearing the same, not over 15 days thereafter. Notice of the time and place of such

hearing must be served upon the other party at least five days before the time so set.

Exceptions to report

Either party may file exceptions, in writing, to such report, specifying the grounds upon which such exceptions are based, at any time within not less than two days prior to the hearings; and any party so filing such exceptions may appear at the hearing of said report and contest the same.

After hearing the report and any exceptions thereto, the court may confirm the report or may set aside the report and order a new report from the same referees or from other referees appointed by it, in which case the same procedure shall be had as upon the first reference.

The court in its discretion may take additional evidence of or concerning any fact with respect to which the report of the referees is not sufficient to justify a judgment.

Evidence on matters which occurred over three years prior to complaint

No witness shall be permitted to testify at such trial or hearing before such referees, except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than three years prior to the date of the filing of such complaint. This shall not be construed to prevent the introduction in evidence of records regularly kept by the governing board concerning the employee, but no judgment permitting the dismissal or suspension of any employee shall be made or entered based on charges or evidence of any nature relating to matters occurring more than three years prior to the filing of such complaint.

Judgment

After the trial or after hearing the report of the referees, as hereinbefore provided, the court shall make and enter its judgment which judgment may be at variance with any report of any referees appointed by it, and which judgment shall determine whether or not the governing board may dismiss such employee.

If the judgment shall determine that such employee may be dismissed, the governing board may dismiss him upon entry of the judgment; otherwise the employee may not be dismissed as the result of such charges or of any charges which could have been made or heard at such hearing.

Leave of absence due to incompetence

Should the cause be incompetency due to physical or mental disability, in lieu of dismissal the judgment may require the employee to take a leave of absence for only such period as may be necessary for rehabilitation from such incompetency, such leave of absence not to exceed two years; in which event such employee shall be entitled to the benefits provided or authorized by this code to employees of school districts absent from their duties on account of sickness.

Costs

If the judgment shall determine that the employee may be dismissed, it shall provide that each party shall pay its own costs; if the judgment shall determine that the employee may not be dismissed, it shall provide that the district shall pay the costs and necessary disbursements of the employee, a memorandum of which costs and disbursements may be filed and taxed by the court within the time and in the manner

specified by Section 1033 of the Code of Civil Procedure relating to costs in actions in the superior and municipal courts of this State.

If the employee shall have been suspended pending the hearing, he shall be reinstated within five days after the entry of such judgment in his favor, and shall be paid full salary by the governing board for the period of his suspension. Either the employee or, the governing board may appeal from any such judgment to the district court of appeal, or Supreme Court of this State.

Assessments on district

(h) The amount, as near as may be determined, of the total principal sum of all special assessments levied or required or proposed to be levied under any completed or pending assessment proceedings, other than that contemplated in the instant

proceedings, whether direct or ad valorem, upon each parcel of the lands proposed to be assessed, which, if the proceedings therefor were begun after this division became effective, would require an investigation and report under this division.

Assessments on parcels

(i) The estimated amount of the assessment to be levied upon each parcel of land for the proposed acquisition or improvement.

If the assessment is to be made in proportion to the assessed value of lands as fixed for the purpose of general taxation, then the total estimated cost of the acquisition or improvement less the amount, if any, proposed to be paid toward the cost of such improvement or acquisition from any source other than special assessment upon benefited property and the assessed value of the lands to be assessed as shown on the last equalized assessment roll shall be the basis for computing the assessment on each parcel. If the district is to be divided into zones, such proposed zones and the percentage to be assessed against each such zone shall be shown on the district map and such estimated assessment shall also be proportioned, as nearly as may be, according to such zones and percentages.

Bonds

(j) The number of years within which the bonds, if any, to be issued shall mature, and the number of installments of the principal of such bonds, and the interest rate or maximum interest rate at which such bonds shall be issued if no definite interest rate is to be fixed until such bonds are sold.

Resolution

2826. A copy of the resolution or ordinance adopted pursuant to Section 2821 shall be attached to the report.

Estimates

2827. The assessments required to be set forth in the report shall be deemed to be estimates only and the final assessments levied under any street improvement law may differ therefrom in amount. The final assessments shall be subject to the limitations imposed by this division and shall be levied in accordance with the street improvement law designated and shall be subject to objection only in the manner provided in that street improvement law.

Information on report

2828. The person preparing the report shall appear at the hearing on the report and give all information concerning it to all interested property owners and to the legislative body.

Abandonment

2829. The legislative body may by order or resolution abandon the proposed acquisition or improvement during the preparation of the report or at any time thereafter until, but not after, the award of contract for the acquisition or improvement.

Approval

2830 When the report has been approved by the legislative body, the fact and date of such approval shall be indorsed thereon, and the report shall be filed with the clerk of the legislative body.

PART 3. HEARING UPON THE REPORT

Mailing time

2853. The notice of the hearing must be mailed at least 30 days prior to the date of the hearing.

Unknown owners

2854. If any parcel of land is assessed as owner unknown on the assessment roll, no notice need be sent for such parcel unless the name and address of a person claiming an interest in such property has been filed with the clerk, in which case notice shall be mailed to such person and address.

Errors

2855. In the absence of fraud no error or mistake in the mailing of the notices, or any of them, and no failure of any property owners to receive the same shall in any way affect the validity of the proceedings, but the clerk shall file his affidavit of mailing such notice, and such affidavit shall be conclusive evidence that the notices have been mailed as required by this division.

Protests

2856. At the hearing protests may be made orally or in writing by any person who would be entitled to protest or object to the ordering of the things proposed to be done at a hearing on the resolution of intention. However, all written protests shall be filed with the clerk of the legislative body at or before the time fixed for the hearing, and any protest relating to the regularity or sufficiency of the proceedings shall be in writing and shall clearly set forth the irregularity or defect to which objection is made.

The hearing may be continued from time to time not exceeding 30 days.

PART 4. ACTING UPON THE REPORT

Consideration of report

2880. If the hearing on the report is held before the legislative body, it may consider the report immediately after the hearing or at such time within 30 days as it may designate.

2881. If the hearing on the report is not held before the legislative body, then within 30 days after the report on the hearing has been filed, the report and the report on the hearing shall be considered and (except as to the map, plat or diagram and the assessed valuations and true valuations of and assessments and estimated assessments upon individual parcels of land) shall be read to the legislative body.

Determination to proceed

2882. If the legislative body determines that the public interest, convenience and necessity require the acquisition or improvement substantially as set forth in the report and that the project is feasible, it may proceed under the law stated in the report as the statute under which the proceeding is to be conducted, except as otherwise provided in this division.

Deviations from report

2883. The acquisition or improvement shall be deemed substantially the same as set forth in the report if the things proposed to be done in the report are not changed or modified by additions thereto or omissions therefrom amounting in estimated cost to more than one-tenth of the total estimated cost as stated in the report and no changes exceeding said one-tenth shall be made.

Same

2884. The legislative body may, without further notice or hearing, make such alterations or changes as will not exceed one-tenth of the total estimated cost. The person who prepares the plans and specifications shall estimate separately the cost of each addition to or omission from the things proposed to be done as set forth in the report, and file such estimate with the clerk of the legislative body. Such filed estimate shall be conclusive evidence of the cost of such changes.

Reading report

2885. At the hearing on the ordinance or resolution of intention, the reports (except as to the map, plat or diagram and the assessed valuations and true valuations of and the assessments and estimated assessments upon each parcel of land) shall be read to the legislative body prior to the consideration of protests and objections, if any.

PART 5. DEBT LIMITATIONS

Limitations on assessment

2900. If the report on the proposed acquisition or improvement shows that the estimated amount proposed to be assessed upon any parcel of land for the proposed acquisition or improvement will exceed one-half of the true value of such parcel as set forth in the report, or shows that the total estimated cost of the proposed improvement or acquisition, less any amount to be paid towards such cost from any source other than special assessments upon the lands benefited by the acquisition or improvement, when added to the aggregate totals of all unpaid assessments and estimated assessments, as such totals are stated in such report, will exceed in total amount one-half of the total true value of all the lands proposed to be assessed, the proposed proceeding shall be abandoned or so modified that the amount to be specially assessed for the cost thereof will be less than the limits hereby established, unless the excess of said cost and indebtedness over one-half of said true value shall be paid from some source other than by special assessment on said lands, or unless the limitation herein provided is overruled.

Limitations on total cost

2901. If the total cost of any improvement, including incidental expenses but excluding the actual cost of the acquisition of any property, exceeds the total estimated cost including incidental expenses, as stated in the report and the separate estimate for changes, if any, in the things to be done as filed with the clerk, by more than one-tenth of such estimated cost, no part of the excess over said one-tenth shall be assessed upon the lands to be assessed in the proceeding.

Same

2902. If the total cost including incidental expenses of any acquisition or improvement, less any amount to be paid toward such cost from any source other than special assessment upon the lands benefited thereby, when added to the aggregate totals of all assessments and estimated assessments as stated in such report, exceeds in total amount one-half of the total true value stated in the report of all the lands to be assessed to pay any part of the cost of such acquisition or improvement, no part of such excess shall be assessed upon such lands.

Payment of excess cost

2903. If the estimated or actual cost including incidental expenses of any acquisition or improvement exceeds the amounts that may be specially assessed upon benefited property, the legislative body may provide for the payment of such excess cost from any available funds under its control and the balance shall then be specially assessed in accordance with the statute under which the proceeding is conducted.

Same

See also Stats 1941, p. 2759

2904. Whenever an improvement contract has been awarded, the county or city, the legislative body of which is

conducting the proceeding, shall, if the actual cost of the improvement, including incidental expenses, exceeds the amount that may be specially assessed upon benefited property, pay such excess cost from the general or any fund available and the balance shall be specially assessed under the statute under which the proceeding is conducted.

If the property to be specially assessed is within the jurisdiction of more than one legislative body and consents to such proceeding have been given by all the legislative bodies having jurisdiction any such legislative body whose consent has been so given may appropriate all or any part of such excess cost from any available funds under its control and may pay the amount so appropriated into the treasury of the county or city whose legislative body has jurisdiction over the proceeding to be applied in payment of such excess cost.

Dispensing with limitations

2905. Notwithstanding anything in this division, if the legislative body conducting the proceedings, after the report or reports provided for in this division have been filed and considered and prior to the adoption of the ordinance or resolution of intention, finds by a four-fifths vote of all members thereof entered upon its minutes that the proposed project is feasible and that the lands to be assessed will be able to carry the burden of such proposed assessment, the limitations on the amounts of assessments provided for in this part may be disregarded, both with respect to the limitation on the district as a whole and as to the limitation on individual specific assessments. If the legislative body makes such a finding none of the limitations upon the amounts of assessments contained in this division shall thereafter apply to any assessment or assessment proceedings thereafter had or taken. However, if at the hearing on the report protests in writing are filed as provided in Section 2856 by the owners (as defined in the law under which the acquisition or improvement proceedings are to be taken) of a majority in area of the lands to be assessed, such limitations shall not be exceeded. A finding and determination by the legislative body that the limitation on assessments herein provided may be disregarded shall be final and conclusive upon all persons in the absence of actual fraud.

PART 6. MAJORITY PROTEST

Majority protest

2930. Notwithstanding anything in this division or in any law to which proceedings under this division are applicable, if at any time before the adoption of an ordinance or resolution of intention or within the time when protests may be filed under the provisions of any such law there is a written protest filed with the clerk of the legislative body by the owners (as defined in the act under which it is proposed to proceed) of a majority of the frontage of the property fronting on the acquisition or improvement in those cases where

the cost in whole or part of the acquisition or improvement is to be assessed upon the property fronting on the acquisition or improvement, or by the owners of more than one-half of the area of the property to be assessed for the acquisition or improvement in those cases where the cost in whole or part of the acquisition or improvement is to be assessed upon the property within a district, then the proposed proceedings shall be forthwith abandoned, and the legislative body shall not for one year from the filing of that written protest commence or carry on any proceedings for the same improvement or acquisition.

Same
Against part of project

2931. If any majority protest is against only a portion of the improvement or acquisition then all further proceedings to construct that portion of the improvement or to acquire that portion of the acquisition so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new proceedings not including any part of the improvement or acquisition so protested against.

PART 7. SUMMARY PROCEEDINGS

Notice of action

2950. If the legislative body finds, after taking the steps provided by Sections 2821, 2822 and 2823, that the probable assessments will not exceed the limitations set up by this division, it may cause the clerk to mail prepaid postcards giving notice of its findings and proposed action. Each such notice shall have attached thereto an addressed reply postcard with the return postage thereon guaranteed.

Mailing

The cards shall be mailed to each person to whom land in the proposed assessment district is assessed on the last equalized county assessment roll at his address as shown upon such roll and to any person whether owner in fee or having a lien upon or legal or equitable interest in any land within the proposed district who has filed with the clerk his name and address and the designation of the land in which he is interested.

Form of notice
See also Stats. 1941, p. 2759

2951. The notice of the proposed assessment shall be substantially in the following form (filling in the blanks):

NOTICE OF PROPOSED ASSESSMENT

Your land will be assessed to pay a part of the cost thereof. This questionnaire is sent to the property owners interested to ascertain whether or not the owners of as much as 15 per cent of the area of the proposed district demand proceeding under the "Special

Assessment Investigation, Limitation and Majority Protest Act of 1931." Under said investigation act information will be obtained and a report thereon made, open to public inspection, and stating among other things (1) the estimated cost of the proposed project; (2) the estimated amount of existing assessments upon each parcel of land in the district; (3) the estimated assessment upon your lands for the proposed project. In the event that you desire the proceeding under said investigation act, so indicate on the attached card and return the same to the clerk within 30 days from (here set forth the date, not earlier than one day subsequent to the mailing of the cards). Sign your name legibly and describe or designate the property owned by you.

(Signature) _____
(Description or designation of property) _____

Unknown owners

2952. If any parcel of land in the assessment district is assessed as owner unknown on the county assessment roll, no notice need be sent for such parcel unless the name and address of the person claiming an interest in that property is filed with the clerk, in which case notice shall be mailed to such person and address.

Errors

2953. In the absence of fraud no error in the mailing of the notices, and no failure of any person to receive the notices shall in any way affect the validity of the proceedings, but the clerk shall file an affidavit of mailing such notices and shall include therein a list of the names and addresses of the persons to whom such notices were sent.

Percentage of demand for investigation

2954. The return postcards shall be filed in the clerk's office and after the expiration of the 30-day period specified in the Notice of Proposed Assessment all demands for the investigation made to the legislative body shall be computed and it shall by order entered on its minutes determine whether or not the owners of 15 per cent of the area of the proposed assessment district have demanded such investigation. Such

determination shall be final and conclusive in the absence of actual fraud.

Proceeding without investigation

2955. If the owners (as defined in the law under which it is proposed to proceed) of 15 per cent of the area of the proposed assessment district do not so demand the making of the investigation provided by this division, the legislative body shall be at full liberty to proceed under the statute under which it has declared its intention to carry through the contemplated proceedings without any further restrictions whatsoever by reason of the terms or provisions of this division except that the majority protest provisions of this division shall apply.

Proceeding after demand

2956. If the owners of 15 per cent or more of the area of the proposed district so demand the making of such investigation, all provisions of this division shall apply to the proposed proceeding, if any further steps are taken therein by the legislative body.

PART 8. DETERMINATION OF TRUE VALUE

"True value of lands"

2980. As used in this division, the "true value of lands" means the value of such lands as determined in accordance with the provisions of this part.

Ratio of assessed to true value

See also Stats. 1941, p. 1683

2981. The State Board of Equalization shall biennially determine the average assessed value of property as assessed for taxation for general county purposes in each county for each one hundred dollars ($100) of true value of such property as determined by the State Board of Equalization in accordance with a uniform basis or standard. The determination of the Board of Equalization as to the ratio of assessed value to true value shall be final and conclusive.

Notice

See also Stats. 1941, p. 1683

2982. On or before the first Monday in December of each even-numbered year the State Board of Equalization shall notify the county clerk of each county and the clerk of each city by mail of the ratio of assessed value to true value in such county or in the county in which such city is situated, as the case may be, and such ratio shall be used for the purposes of this division for the two years beginning on the first day of January following such notification.

Failure to notify

Failure of the Board of Equalization to mail such notice or of any such clerk to receive such notice shall not affect the validity of any proceeding, but the proper ratio as herein prescribed shall be ascertained from the State Board of Equalization by the legislative body conducting any such proceeding and used therein.

Determination of true value

See also Stats. 1941, p. 1683

2983. To determine the true value of property for the purpose of this division, the assessed value of such property as

shown on the last equalized assessment roll of the county in which such property is situated shall be divided by the amount of assessed value for each one hundred dollars ($100) of true value in that county as fixed or hereafter determined by the Board of Equalization, and the quotient so obtained carried to two decimal places, shall be multiplied by 100, and the result expressed in dollars shall be the true value of such property.

Cities

2984. Notwithstanding the other provisions of this part, if the legislative body of any city desires to use the taxation assessment rolls of such city as a basis for computing the true value of the lands in such city, the legislative body shall establish a correction factor for such use in the following manner:

Correction factor

The legislative body shall determine the total assessed valuation for city purposes of all taxable lands in the city as the same is shown upon the last equalized taxation assessment roll of the city and the corresponding total assessed valuation of the lands in the city for county purposes as the same is shown upon the last equalized taxation assessment roll of the county in which the city is situated. The total amount of the valuation for city purposes shall be divided by the total amount of the valuation for county purposes and the quotient, expressed in decimals to two places, shall represent the correction factor. The determination of the correction factor by the legislative body shall be final and conclusive upon all persons, except in the case of actual fraud.

Determination of true value

See also Stats 1941, p 1683

2985. If a correction factor is established as provided in Section 2984, the standard or ratio of true value as established by the Board of Equalization for each hundred dollars ($100) of assessed value in the county within which the city is situated shall be multiplied by the correction factor and the product of such multiplication shall be used in calculating true value, in lieu of the standard or ratio established by the State Board of Equalization.

PART 9. COSTS OF PROCEEDINGS

Costs of proceedings

2995. If the improvement or acquisition is made, all or any part of the cost of the proceedings taken under this division may be included in the incidental expenses of such acquisition or improvement as a part of the amount for which special assessments may be levied or bonds payable by special assessments issued under the law under which the acquisition or improvement is made.

PART 10. OBJECTIONS AND LIMITATIONS

Limitations on objections

3010. All objections to the form, contents, validity or sufficiency of the report on the project and all objections to

the form, contents, validity or sufficiency of the notice of hearing on the report shall be made in writing and filed with the clerk of the legislative body at or before the time fixed for the hearing on the report, and if not so made at such time shall be waived and no objection thereto may be made thereafter except in case of actual fraud. Any such objections shall be heard and considered and at such hearing the report may be amended in accordance with the facts, and the hearing had upon such report as so amended.

Same

3011. All objections or protests relating to the validity of the proceedings had under this division, and not otherwise provided for in this division, shall be made in writing and filed in the manner and not later than the time at which protests or objections may be filed for the hearing designated in the resolution or ordinance of intention, and any protest or objection relating to the validity of the proceedings had under this division not made at such time and in such manner shall be waived and may not thereafter be urged, pleaded or raised in any action or proceeding, and the adoption of a resolution or ordinance finally ordering the acquisition or improvement shall be conclusive evidence that the proceedings prior thereto under this division are valid and sufficient.

Limitations on actions
See also Stats. 1941, p. 2761

3012. Any action or proceeding of any kind or nature in which the validity of any of the proceedings taken under this division is questioned or attacked shall be commenced within 60 days after the date of the adoption of the resolution or ordinance finally ordering the acquisition or improvement, and if such action is not brought within said 60 days, then thereafter all persons whatsoever shall be barred in any action or proceeding from pleading, asserting or claiming that any of the proceedings under this division were defective or invalid in any respect.

3261. The commissioners shall assess the amount thus determined upon the assessment district. The commissioners shall make the assessment upon the lands within the district in proportion to the benefit to be derived from the work, so far as the commissioners can reasonably estimate the benefit, including in such estimate the real property of any railroad company within the district. They may also include in such estimate any or all public property within the district.

Report to council

3262. The commissioners, having made their assessment of benefits and damage, shall with all diligence make a written report thereof to the city council, and shall accompany their report with a plat of the assessment district showing the land taken or to be taken for the work, and the lands assessed, showing the relative location of each lot or parcel of land and its dimensions, so far as the commissioners can reasonably ascertain them. Each lot or parcel of land taken or assessed shall be designated and described in the plat by an appropriate number, and a reference to it by such descriptive number shall be a sufficient description of it in any suit entered to condemn, and in all respects. When the report and plat are approved by the city council, a copy of the plat, appropriately designated, shall be filed by the clerk in the office of the county recorder.

Contents

3263. The report shall specify each lot or parcel of land taken or injured by the work, or assessed therefor, together with the name of the owners or claimants thereof, or of persons interested therein as lessees, encumbrances, or otherwise, so far as known to the commissioners, and the particulars of their interest, so far as can be ascertained, and the amount of value or damage, or the amount assessed, as the case may be.

Unknown owners

3264. If in any case the commissioners find that conflicting claims of title exist, or if they are in ignorance or doubt as to the ownership of any lot or parcel of land, or of any improvements thereon, or of any interest therein, it shall be

set down as belonging to unknown owners. Error in the designation of any owner of any land or improvements, or of the particulars of his interest, shall not affect the validity of the assessment or of the condemnation of the property to be taken.

Notice of filing report

3265. The report and plat shall be filed in the clerk's office, and thereupon the clerk shall give notice of such filing by publication for at least 10 days in one or more daily newspapers published and circulated in the city, or if there is no daily newspaper, then by three successive insertions in a weekly or semiweekly newspaper so published and circulated. The notice shall also require all persons interested to show cause, if any they have, why such report should not be confirmed, before the city council on or before a day fixed by the clerk and stated in the notice, which day shall not be less than 30 days from the first publication thereof.

Objections

3266. All objections shall be filed in writing with the clerk who shall, at the next meeting after the day fixed in the notice to show cause, place the objections before the city council. The council shall fix a time for hearing the objections and the clerk shall notify the objectors of such time in the same manner as he is required to notify objectors to the original resolution of intention.

Hearing

3267. At the time set, or at any other time to which the hearing may be adjourned, the city council shall hear and pass upon the objections. At such time, or, if there are no objections, at the first meeting after the day set in such order to show cause, or at such other time as may be fixed, the council shall proceed to pass upon the report, and may confirm, correct, or modify it, or may order the commissioners to make a new assessment, report, and plat, which shall be filed, notice given, and hearing had, as in the case of an original report.

CHAPTER 5. COLLECTING THE ASSESSMENT

Assessment roll

3280. The clerk shall forward to the street superintendent a certified copy of the report, assessment, and plat, as finally confirmed and adopted by the city council. Such certified copy shall thereupon be the assessment roll. Immediately upon receipt thereof by the street superintendent, the assessment therein contained shall become due and payable, and shall be a lien upon all the property contained or described therein.

Assessment notice

3281. The street superintendent shall thereupon give notice by publication for 10 days in one or more daily newspapers published and circulated in such city or by two successive insertions in a weekly or semiweekly newspaper so published and circulated. Such notice shall state that:

(a) He has received the assessment roll.

(b) All sums levied and assessed in the assessment roll are due and payable immediately.

(c) The payment of said sums is to be made to him within 30 days from the date of the first publication of the notice.

(d) All assessments not paid before the expiration of said 30 days will be declared to be delinquent, and that thereafter the sum of 5 per cent upon the amount of each delinquent assessment, together with the cost of advertising each delinquent assessment, will be added thereto.

Payment

3282. When payment of any assessment is made to the street superintendent, he shall write the word "Paid," and the date of the payment, opposite the respective assessment so paid, and the names of the persons by or for whom the assessment is paid, and shall, if so required, give a receipt therefor.

Delinquencies

3283. On the expiration of the 30 days, all assessments then unpaid shall be and become delinquent, and the street superintendent shall certify that fact at the foot of the assessment roll, and shall add 5 per cent to the amount of each assessment so delinquent.

Sales for delinquencies.

3284. The street superintendent shall, within five days from the date of delinquency, proceed to advertise and collect the various sums delinquent, and the whole thereof, including the cost of advertising, which last shall not exceed the sum of fifty cents ($0.50) for each lot or parcel of land separately assessed, by the sale of the assessed property in the same manner as is now or hereafter provided for the collection of county taxes. After the date of delinquency, and before the time of such sale, no assessment shall be received unless at the same time the 5 per cent added thereto, together with the costs of advertising then already incurred, shall be paid therewith.

Publication of delinquent list

3285. The list of delinquent assessments shall be published daily for five days in one or more daily newspapers published and circulated in the city, or by at least one insertion in a weekly newspaper so published and circulated, before the day of sale for such delinquent assessment. The time of sale shall not be less than seven days from the date of the first publication of the delinquent assessment list, and the place shall be in or in front of the office of the street superintendent.

Redemption

3286. All property sold shall be subject to redemption in the same time and manner as in sales for delinquent county taxes. The street superintendent may collect for each certificate fifty cents ($0.50), and for each deed one dollar ($1). All provisions of the law, in reference to the sale and redemption of property for delinquent county taxes in force at any given time, shall also then, so far as not in conflict with the

provisions of this part, be applicable to the sale and redemption of property for delinquent assessments under this part, including the issuance of certificates and execution of deeds.

Deed

3287. The deed of the street superintendent made after such sale, in case of failure to redeem, shall be prima facie evidence of the regularity of all proceedings under this part and of title in the grantee. It shall be conclusive evidence of the necessity of taking or damaging the lands taken or damaged, and of the correctness of the compensation awarded therefor.

Payments

3288. The street superintendent shall, from time to time, pay over to the city treasurer all moneys collected by him on account of any such assessments. The city treasurer shall, upon receipt thereof, place them in a separate fund, designating such fund by the name of the street for the work on which the assessment was made. Payments shall be made from that fund to the parties entitled thereto, upon warrants signed by at least a majority of the commissioners.

Supplementary assessment

3289. If after the sale of property for delinquent assessments there is a deficiency and there is unreasonable delay in collecting such deficiency, or if for the purpose of equalizing the assessments supplying a deficiency, or for any cause, it appears desirable, the commissioners may so report to the city council, which may order them to make a supplementary assessment and report the same in manner and form as the original, and subject to the same procedure.

Surplus

3290. If by reason of a supplementary assessment, or for any cause, a surplus remains after all claims against the fund devoted to the work have been paid the city council may either:

(a) Appropriate the surplus and declare a pro rata refund to the persons paying it. Upon demand such persons shall have the right to have the amount of such pro rata refunds refunded to them, or credited upon any subsequent assessment for taxes made against those persons in favor of the city.

(b) Appropriate and transfer the surplus to the General Fund for the fiscal year in which the surplus exists, if the surplus does not exceed 5 per cent of the total amount expended out of the fund devoted to the work. The surplus so transferred shall in no case exceed one thousand dollars ($1,000).

Chapter 6. Payment of Awards

Notice to claim award

3310. When there is in the fund devoted to the proposed work sufficient money to pay for the land and improvements taken or damaged, and when in the discretion of at least a majority of the commissioners the time has come to make

payments, the commissioners shall notify the owner, possessor, or occupant of any land or improvement thereon to whom damages have been awarded, that a warrant has been drawn for the payment thereof, and that he can receive such warrant at the office of the commissioners upon tendering a conveyance of any property to be taken. Such notification, except in the case of unknown owners, shall be made by depositing a notice, postage prepaid, in the post office addressed to his last known place of abode or residence.

Failure to claim award

3311. If, at the expiration of 30 days after the deposit of such notice, the person notified has not applied for his warrant, and tendered a conveyance of the property to be taken, the warrant so drawn shall be deposited with the county treasurer, and shall be delivered to such owner, possessor or occupant, upon tendering such a conveyance. If a judgment of condemnation is obtained, then the warrant shall be canceled.

Payment of warrants

3312. The treasurer shall pay such warrants out of the appropriate fund, and not otherwise, in the order of their presentation except that warrants for land or improvements taken or damaged shall have priority over warrants for charges and expenses, and the treasurer shall see that sufficient money is and remains in the fund to pay all warrants of the first class before paying any of the second.

Chapter 7. The Condemnation Action

Condemnation

3330. If any owner, possessor or occupant of land to be taken neglects or refuses to accept the warrant drawn in his favor, or objects to the report as to the necessity of taking his land, the commissioners, with the approval of the city council, may cause proceedings to be taken for the condemnation thereof, as provided by law under the right of eminent domain. The complaint may aver that it is necessary for the city to take or damage and condemn the said lands, or an easement therein, as the case may be, without setting forth the proceedings provided for in this part, and the resolution ordering the work to be done shall be conclusive evidence of such necessity.

Action

3331. Such condemnation proceedings shall be brought in the name of the city and shall have precedence so far as the business of the court will permit. Any judgment for damages therein rendered shall be payable out of such portion of the fund devoted to the work as may remain in the treasury, so far as the same can be applied.

Immediate possession

3332. At any time after trial and entry of judgment or preceding an appeal, the court may order the city treasurer

to set apart in the city treasury a sufficient sum from the fund devoted to the particular work to satisfy the judgment and all damages, and thereupon may authorize and order the city to enter upon the land and proceed with the proposed work.

Deficiency

3333. In case of a deficiency in said fund to pay the whole of the judgment and damages, the city council may order the balance thereof to be paid out of the general fund of the treasury or to be distributed by the commissioners over the property assessed by a supplementary assessment. In order to avoid delay, in the event of a supplementary assessment, the city council may advance such balance out of any appropriate fund in the treasury, and reimburse such fund from the collections of the assessment.

Stay of proceedings

3334. Pending the collection and payment of the amount of the judgment and damages, the court may order such stay of proceedings as may be necessary.

Title defects

3335. If any title attempted to be acquired by virtue of this part is found to be defective from any cause, the city council may again institute proceedings to acquire the cause as in this part provided, or otherwise, or may authorize the commissioners to purchase the cause and include the cost thereof in a supplementary assessment as provided in this chapter.

Chapter 8. Assessment on Entire City

Proceedings of general benefit

3350. If the city council deems it proper that the boundaries of the assessment district include the whole city, then the commissioners appointed shall proceed in a summary manner to purchase the lands to be taken or condemned from the owners and claimants thereof. If the commissioners and the owners and claimants can not agree upon the price to be paid for the lands, the commissioners shall proceed to view and value them and shall thereupon make a summary report to the city council.

City-wide assessment

3351. Upon final confirmation of the report, if there is not sufficient money available in the city treasury the city council shall cause all or part of the cost and expenses of the contemplated work to be assessed upon the whole of the taxable property of the city, and to be included in and form part of the next general assessment roll of the city, with like effect in all respects as if the assessment formed a part of the city or county taxes. When the assessment has been collected the city council shall cause the required land to be paid for or the value thereof tendered, and the contemplated work to be forthwith made and completed. All of the provisions of this part not in conflict with this chapter shall be applicable thereto.

PART 2. STREET OPENING BOND ACT OF 1921

CHAPTER 1. GENERAL PROVISIONS

Short title

3400. This part may be cited as the Street Opening Bond Act of 1921.

Construction

3401. Unless the particular provision or the context otherwise requires, the definitions and general provisions contained in this chapter shall govern the construction of this part.

Same

3402. This part shall be liberally construed in order to effectuate its purposes.

"Street Opening Act of 1889"
Stats 1889, p 70

3403. "Street Opening Act of 1889" or "Street Opening Act" refers to Part 1 of this division and to the act entitled "An act to provide for laying out, opening, extending, widening, straightening, or closing up, in whole or in part, any street, square, lane, alley, court, or place within municipalities, and to condemn and acquire any and all land and property necessary or convenient for that purpose," approved March 6, 1889, as amended.

"City council"

3404. "City council" means the legislative body of the city.

"Improvement bond"

3405. "Improvement bond" means a bond issued under the provisions of this part.

"Assessment"

3406. "Assessment" or "assessment roll" means a special assessment made under the provisions of the "Street Opening Act."

"Delinquency"

3407. "Delinquency" means delinquency in the payment of an assessment made under the "Street Opening Act," and "time of delinquency" means the time fixed in the "Street Opening Act" when assessments become delinquent.

CHAPTER 2. ISSUE OF BONDS

City payments

3419. The city council may, in the resolution of intention prescribed by the Street Opening Act of 1889, provide for the payment, out of a city fund to be therein designated, of some certain amount of the estimated costs and expenses of the work proposed, in which case the "notice of public work" prescribed by the Street Opening Act shall state the fact that such provision is made in the resolution of intention and that such sum shall be deducted from the total cost and expense of the proposed work, and the remainder of such cost and expense shall be assessed as prescribed by the Street Opening Act. At or before the time of ordering the work to be done the city council shall appropriate out of the proper

fund and pay into the special fund provided by the Street Opening Act, the sum specified in the resolution of intention.

Bonds

Bonds may then issue as provided in this part, to cover the assessment so made.

Determination to issue bonds

3420. The city council of any city may, at or before the time of the confirmation of any assessment or assessment roll in proceedings taken under the Street Opening Act, determine by ordinance or resolution that improvement bonds may issue to represent such assessment.

Election to have bonds issue

3421. Whenever such a determination to issue bonds has been made, the owner of any lot or parcel of land against which an assessment of fifty dollars ($50) or over has been made may, at any time prior to delinquency, elect to pay such assessment in installments and to have an improvement bond issued against such lot or parcel of land, in the form and manner and with the effect in this part provided.

Procedure

3422. The owner or his agent duly authorized in writing filed with the street superintendent, may make such election by filing with the street superintendent an affidavit that affiant or his principal, as the case may be, is the owner of the lot or parcel of land in question. A certificate of a searcher of records that affiant or his principal is such owner shall accompany the affidavit.

Payment agreement

3423. The owner or his agent shall also file with the street superintendent a written agreement upon the form fixed in this chapter, waiving all objections of whatsoever kind or nature against the assessment and all proceedings prior thereto, and undertaking to pay the amount of the assessment in either 5 or 10 annual installments, each of which shall be due on the first day of July of each year, and the first of which shall be due on the first day of July next following the date of such bond, with interest on all deferred payments at the rate of 8 per cent per annum, payable at the same time as the installments of principal.

Contents

3424. The agreement shall provide that in case of default in the payment of any installment of the principal provided for therein, or interest accrued on deferred payments, at the time called for by the agreement, then the entire remaining unpaid installments shall become immediately due and payable, and that the unpaid installments, and all liens and agreements which are security therefor, may be collected and enforced as provided in this part.

Form

3425. The agreement shall be in substantially the following form (filling blanks):

The undersigned, being the owner of the lot assessed in the assessment for _____ said lot being assessed therein for

the sum of _____ dollars ($___), does hereby expressly waive and release all objections of whatsoever kind or nature against the said assessment and all proceedings prior thereto, and in consideration of the benefit of said improvement and of the extension of time for paying therefor herein requested, do undertake and agree to pay the amount of said assessment, to wit: The sum of _____ dollars ($___) in _____ yearly installments, at the time, in the manner, and with the interest, specified and provided in the Street Opening Bond Act of 1921 (Part 2 of Division 5 of the Streets and Highways Code) and do request and elect to have a bond issued against said lot in the manner and form and with the effect there provided and do expressly agree that in case of default in the payment of any installment of the principal provided for in said bond, or interest accrued on deferred payments, then, and in that event, that the entire remaining unpaid installments shall become immediately due and payable, and that the unpaid installments, and all liens and agreements which are security therefor, may be collected and enforced as in that act provided.

Recording

3426. When an election is effected the street superintendent shall make a note thereof in his records opposite the assessment as to which the election is made. All agreements and affidavits made and filed under this part shall be bound in a substantial book and kept among the records of the superintendent of streets. At the time of delinquency, the street superintendent shall advise the city treasurer in writing respecting the assessments as to which the owners have elected to pay in installments. The city treasurer shall thereupon prepare a separate bond representing each assessment as to which such right of election has been exercised, running for either 5 or 10 years, as specified in the agreement.

Bond issuance

CHAPTER 3. FORM AND CONTENT OF BONDS

Bond form

3450. The bond shall be in substantially the following form (filling blanks):

Correction of errors

3451. Each bond shall be payable to the bearer. No mistake or error in the description in the bond of the lot or parcel of land assessed shall affect the validity or lien of the bond, unless the mistake or error is such that the lot or parcel of land can not be identified, and in such event the holder of such bond may have the description therein corrected upon application to the city treasurer and the officers or board who made the assessment to represent which such bond is issued.

Regularity

3452. Bonds issued under this part shall by their issuance be conclusive evidence of the regularity and validity of all proceedings prior thereto.

If the city advances money it may at any time sell the bonds to reimburse itself therefor. Purchase by city

Chapter 5. Payments on Bonds

3490. The city treasurer shall enter in a book kept for that purpose in his office, a record of each bond specifying the date of its issue, the amount for which issued, to whom delivered, its duration and a description of the lot or parcel of land against which it is issued. Bond record

3491. Payments of principal and interest on account of any bond shall be made to the city treasurer who shall keep a separate account of all such payments, entering each payment in the record required by this part to be kept. He shall place the payments in appropriate funds for the payment of principal and interest of the bonds on account of which paid, Payments

and shall, upon the surrender of the coupons attached to any bond, pay to the holder thereof, or his order, the amount called for by the coupons out of the funds in his possession applicable thereto.

CHAPTER 6. SALE FOR DELINQUENCY

Default

3501. Whenever, through the default of the owner of any lot or parcel of land upon which a bond is issued payment either of principal or of interest is not made when due, and the holder of the bond thereupon demands, in writing, that the city treasurer proceed to advertise and sell said lot or parcel of land as provided in this part, the whole bond or its unpaid remainder, with its accrued interest as expressed in the bond, shall become due and payable immediately, and on the day following shall become delinquent.

Notice of sale

Publication

3502. Upon the application of the holder of any delinquent bond, the city treasurer shall publish a notice twice in a newspaper of general circulation, to be designated by him, published in the city where his office is situated.

The notice shall contain:

(a) The date, number, and series of the delinquent bond.

(b) A description of the property mentioned in the bond.

(c) The name of the owner of such property if known, and if unknown, that fact shall be so stated.

(d) The amount due on the bond, and a statement that unless the amount of the bond and the interest due thereon, together with the cost of publication of such notice, are paid, the real property described in the bond will be sold at public auction on a day to be therein fixed, which shall not be less than 15 nor more than 30 days from the day of the first publication of the notice, and at a place which shall be in or in front of the office of the city treasurer.

Service

3503. Not less than 15 days before the day of sale a like notice shall be served upon any such owner, if known, either personally or by depositing the notice in the post office at such city addressed to such owner at his address, if known, with the postage thereon prepaid.

Redemption

3504. At any time prior to the sale, the owner or person in possession of any real estate offered for sale may pay the whole amount of the bond then due, with costs, and such bond shall thereupon be canceled.

Sale

3505. If payment is not made by or in behalf of such owner or person in possession, the property shall be sold at public auction to the bidder offering to pay the amount due on the bond with costs for the least portion of such lot or parcel of land offered for sale.

Affidavit of publication

3506. Before the day of sale the city treasurer shall file with the city clerk a copy of the published notice with an affidavit of the publisher of the newspaper, or someone in his behalf, attached thereto, that it is a true copy of the notice as published; that the publication was made in a newspaper, stating its name and place of publication and the date of each issue in which such publication was made. The affidavit shall be prima facie evidence of all the facts stated therein.

Fees

3507. The city treasurer shall collect, in addition to the amount due on the delinquent bond, the cost of the publication of such notice, and fifty cents ($0.50) for the certificate of sale delivered to the purchaser.

Record of sale

3508. Before delivering any certificate of sale the city treasurer shall enter in a book kept in his office for that purpose:

(a) The date, number and series of the bond.

(b) A description of the land sold corresponding with the description in the certificate, the date of sale, purchaser's name, and the amount paid.

(c) A number opposite each description on the margin of the book, and shall put a corresponding number on each certificate.

Such book shall be open to public inspection during office hours when not in actual use. The city treasurer then shall enter on the record of the bond the words "canceled by sale of the property," giving the date of such sale.

Purchaser's lien

3509. Immediately on the sale, the purchaser is vested with a lien on the property so sold to him, to the extent of his bid. He can be divested of such lien only by redemption.

CHAPTER 7. REDEMPTION

Redemption amount

3530. Redemption can be made only by the payment to the city treasurer of the purchase money, and costs as provided for in this part, with interest thereon at the rate of 1 per cent per month from the date of sale.

Time

3531. Redemption of the property sold may be made by the owner thereof, or any party in interest, within 12 months from the date of purchase, or at any time prior to the application for a deed. Redemption shall be made in lawful money of the United States.

Redemption funds

3532. When redemption is made to the city treasurer he shall credit the amount paid to the person named in his certificate, and pay it on demand to him or his assignees.

Recordation

3533. On receiving the certificate of sale, the county recorder shall file it, and make an entry in a book similar to

that required of the city treasurer. The recorder's filing fee shall be fifty cents ($0.50). On presentation of the receipt of the city treasurer for the total amount of the redemption money, the recorder shall, without charge, mark the word "redeemed," the date, and by whom redeemed, on the margin of the book where the entry of the certificate is made.

CHAPTER 8. CONVEYANCE ON FAILURE TO REDEEM

Notice to redeem

3550. The purchaser or his assignee or agent shall, 30 days prior to the expiration of the time for redemption, or 30 days before his application for a deed, serve upon the owner or agent of the property purchased, if named in such certificate of sale, and upon the party occupying the property, if it is occupied, a written notice stating that all or part of the property has been sold to satisfy the bond lien, date of sale, the date, number and series of the bond, the amount then due, and the time when the right of redemption will expire, or when the purchaser will apply for a deed. The owner shall have the right of redemption indefinitely, until such notice is given and the deed applied for, upon the payment of the fees, penalties, and costs required in this part. In case of unoccupied property a similar notice shall be posted in a conspicuous place upon the property at least 30 days before the purchaser applies for a deed.

Deed

3551. If the property is not redeemed within the time allowed, the city treasurer, or his successor in office, upon application of the purchaser or his assignee, shall make to the purchaser or his assignee a deed to the property, reciting in the deed substantially the matter contained in the certificate and that no person has redeemed the property during the time allowed for its redemption. The treasurer shall be entitled to receive from the purchaser for making the deed two dollars ($2) which, after payment is made therefrom for the acknowledgment of the deed, shall be deposited in the city treasury for the use of the city.

Affidavit of notice

3552. No deed to the property sold shall be issued by the city treasurer to the purchaser of such property until the purchaser files with the treasurer an affidavit showing that the notice required to be given has been given. The treasurer shall file and preserve the affidavit in his office.

Notice fee

3553. The purchaser shall be entitled to receive the sum of fifty cents ($0.50) for his service of such notice and the making of such affidavit, which sum shall be paid by the redemptioner at the time and in the same manner as the other sums, costs and fees are paid.

Effect of deed

3554. The deed when duly acknowledged or proved, shall be conclusive evidence of all things of which the bond upon

which it is based is conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issue of the bond. The deed conveys to the grantee the absolute title to the lands described therein free of all incumbrances, except the lien for State, county, and city taxes.

CHAPTER 2. NOTICE

Article 1. General Provisions

Notice How given 4030. Unless the particular provision or the context otherwise requires, whenever notice is required to be given by any provision in this part it shall be given in accordance with the provisions of this chapter.

No other requirements

4031. No publication or notice other than that provided in this part shall be necessary to give validity to any proceedings had under the provisions of this part.

Description of district by reference

4032. In all resolutions, notices, orders and determinations subsequent to the ordinance of intention, a description of the assessment district by reference to the ordinance of intention shall be sufficient, and in all resolutions, notices, orders, and determinations subsequent to the "notice of street work" a description of the work by reference to the ordinance of intention shall be sufficient.

Article 2. Notice by Publication

Generally

4040. Whenever in this part any notice is required to be given by publication and the time or method for such publication is not specified, it shall be published as provided in this article.

Time

4041. If the time of publication is not specified, the notice shall be published by two insertions, each one of which shall be made on separate days, and if the notice is a notice of a hearing the first publication shall be not less than 10 days before the time fixed for such hearing.

Method

4042. If the method of publication is not specified, publication shall be made as provided in this and the following sections. The notice shall be published in a daily or weekly newspaper published and circulated in the city conducting the proceeding, which has been designated by the legislative body of the city for that purpose or for the purpose of the publication of legal notices generally.

Cities

4043. If the city conducting the proceeding is not a county and there is no daily or weekly newspaper published and circulated in the city, then the notice shall be published in a daily or weekly newspaper published in the county in which the city is located, which is circulated in the city and which has been designated by the legislative body for that purpose or for the publication of notices generally.

Same

4044. If there is no daily or weekly newspaper published and circulated in the county, then the notice shall be posted in accordance with the provisions of Section 4050. If the notice is otherwise required to be posted, one posting in either manner shall constitute adequate notice within the meaning of this section.

Article 3. Notice by Posting

Time and method

4050. Whenever in this part notice is required to be given by posting and the time or method for such posting is not

specified, the clerk shall conspicuously post the notice in three public places in the county or city conducting the proceeding for the length of time required for publication in a weekly newspaper.

Article 4. Notice by Mail

Time and method

4060. Whenever in this part notice is required to be given by mail and the time or method for mailing is not specified, the notice shall be given by mail as follows:

(a) The clerk shall mail the notice, postage prepaid, to each person owning property in the assessment district, at his last known address as it appears on the tax rolls of the city or on file in the office of the clerk or to both addresses if they are not the same; or, when no address so appears, to the general delivery.

(b) If the notice is a notice of a hearing, it shall be mailed at least 15 days prior to the date fixed for that hearing.

Failure to mail

4061. The failure of the clerk to mail any notice or the failure of any person to receive it shall not affect in any way whatsoever the validity of any proceedings taken under this part, nor prevent the legislative body from proceeding with any hearing so noticed, nor prevent the legislative body from acquiring jurisdiction to order the improvement.

Article 5. Proof

Affidavit required

4070. Proof of publication of any notice required by this part shall be made by affidavit, as provided in the Code of Civil Procedure, and proof of the posting or mailing of any such notice shall be made by the affidavit of the person posting or mailing the notice, setting forth the facts regarding such posting or mailing. It shall be the duty of any officer who is required by this part to have any notice published or posted or mailed, to obtain and file in his office the affidavit or affidavits in proof thereof, but his failure so to do shall not affect the validity of any proceedings under this part. Any such affidavit so filed shall be prima facie evidence of the facts therein stated regarding such publication or posting or mailing.

Chapter 3. Power to Make Improvements

Authority to do work

4090. Whenever the public interest or convenience may require, the legislative body of any city shall have full power and authority:

Opening, etc.

(a) To order the laying out, opening, extending, widening, straightening, establishment or change of grade, in whole or in part, of any one or more of any public streets or parking places within the city.

Acquisition, etc.

(b) To acquire by condemnation any and all property necessary or convenient for any purpose specified in subdivision (a) of this section or any interest therein including an easement or easements for the construction and maintenance of any one or more of any public streets or walks, parking places, passages or ways upon the surface of the earth or in any designated levels or slopes, above or below such surface together with a sufficient clearance height thereabove. The legislative body shall conclusively determine and designate such clearance height and shall leave to the owner the right to maintain or construct and maintain any buildings or other structures above or below or above and below such streets, walks, parking places, passages, or ways, and the clearance height therefor so acquired by the city.

Joint proceedings

(c) To acquire by condemnation any and all property, rights of way or easements, or any interest therein, necessary or convenient for the purpose of constructing thereon any of the work or improvements of the character mentioned in the "Improvement Act of 1911," as contained in Division 7.

4092. In addition to any power and authority conferred upon any legislative body by this part, and when the public interest or convenience so requires, and whenever, in the opinion of the legislative body initiating the proceedings, the proposed improvement is of such a character that it directly and peculiarly affects property in two or more cities, or in one or more cities and unincorporated territory (or, if a county is initiating the proceedings, in the unincorporated territory of the county or in unincorporated territory of the county and the territory of one or more cities, or forming the exterior boundary of any city where it joins the unincorporated territory of the county), and that the purposes sought to be accomplished by such improvement can best be accomplished by a single, comprehensive scheme of acquisition, there is hereby conferred upon such legislative body full power and authority to extend such improvement or the boundaries of the assessment district therefor beyond the territorial limits of such city.

Authority to extend work

4093. The legislative body conducting the proceeding shall have full power and authority to order the laying out, opening, extending, widening, straightening, establishment or change of grade, in whole or in part, of any one or more of any public streets within the limits of the city or county conducting the proceeding and also into the limits of other cities or extending from the city through or over one or more other cities, or extending through or over one or more cities and into unincorporated territory of a county or extending along the exterior boundary between a city and unincorporated territory, or along the boundary between two cities, whether wholly or partly within or without that boundary, and to acquire by condemnation property necessary or convenient for that purpose.

Authority to extend assessment district

4094. The legislative body conducting the proceeding shall have full power and authority to include within the boundaries of an assessment district, lands lying within the boundaries of any one or more cities or in the unincorporated territory of the county in which the city conducting the proceeding is situated, when such lands in the opinion of the legislative body conducting the proceeding will be benefited by the proposed improvement.

Consent to extension

4095. The consent of the legislative body of any territory in which land is proposed to be assessed shall first be obtained to the formation of the assessment district and, if any of the lands to be acquired in such proceeding are situated within such territory, to the improvement described in the ordinance of intention and the assumption of jurisdiction thereover for the purposes aforesaid prior to the adoption of the ordinance of intention.

Submission of plans, etc

4096. The proposed ordinance of intention together with a copy of the maps, plats, plans, profiles or specifications required by this part shall be submitted to any such legislative body which has jurisdiction over the territory into which the proposed improvement or the assessment district therefor may extend.

Approval

4097. The ordinance of intention may be adopted only after the proposed ordinance of intention is approved and the consent of every legislative body whose consent is necessary is obtained to the improvement and the formation of the assessment district described in the ordinance of intention.

Payments toward cost

4098. If the assessment district includes property without the territorial jurisdiction of the legislative body conducting the proceeding, the legislative body of the city or county having jurisdiction thereover may order by resolutions entered upon its minutes, a copy of which shall be transmitted to the legislative body conducting the proceeding, that any part of the cost or expense of the improvement shall be paid out of the treasury of the city or county as the case may be, and a liability for the portion of the cost or expense set forth in that resolution shall thereby be created against that city or county.

Deduction of payments

4099. The street superintendent in making up the assessment shall deduct from the costs and expenses, in addition to any sum or percentage payable by the legislative body conducting the proceeding, such part thereof as has been so ordered to be paid out of the treasury of such other city or county.

CHAPTER 4. THE ORDINANCE OF INTENTION

Map

4120. Before ordering any improvement to be made, there shall be filed with and approved by the legislative body a map or plat indicating the land necessary or convenient to be taken for the proposed improvement and, by a boundary line, the territory proposed to be included in the assessment district together with a statement of the total sum of the estimated expense of the improvement.

Ordinance of intention

4121. Thereupon the legislative body shall pass an ordinance declaring its intention to order such improvement.

Contents

4122. The ordinance of intention shall be sufficient if it describes the land necessary or convenient to be taken for the proposed improvement, and describes briefly and in general terms the proposed improvement and the assessment district, and refers to maps, plats, plans, profiles and specifications, or such of them as may be suitable and proper, approved by the legislative body.

Filing maps, etc.

4123. Such maps, plats, plans, profiles and specifications as may be suitable and proper, shall be on file in the office of the clerk or engineer at the time of passing the ordinance of intention. The maps shall indicate the land necessary or convenient to be taken for the proposed improvement and shall indicate by a boundary line the extent of the territory to be included in the assessment district. The maps shall govern for all details as to the extent and description of the land to be taken for the proposed improvement and as to the extent of the assessment district.

Establishment of grade

4124. In the case of an establishment or change of grade for the whole or any part of any one or more of the streets dedicated to public use prior to the adoption of an ordinance of intention or which are to be acquired for public use in the condemnation proceedings authorized by this part, the ordinance of intention shall be sufficient if it contains a notice that such establishment or change of grade is proposed and refers to plans, profiles and specifications therefor, or such of them as may be suitable or proper for a full and detailed description of the proposed grades to which improvements may be made.

The adoption of the ordinance of intention shall be a determination and establishment of the grades therein referred to.

Notice of hearing

4125. The ordinance of intention shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed improvement may appear before the legislative body and show cause why the proposed improvement should not be carried out in accordance with the ordinance of intention. The time shall not be

less than 15 nor more than 60 days from the date of the passage of the ordinance of intention.

Publication of ordinance

4125.5. The clerk shall cause the ordinance of intention to be published twice in one or more newspapers published and circulated in the city. If no newspaper is published in the city, then the publication shall be made twice in some newspaper published in the county in which the city is located.

Consolidation of improvements

4126. The legislative body may in its discretion include in one proceeding under one ordinance of intention all or any of the improvements mentioned in this part, on any number of any public streets within such city or county or beyond the territorial limits of such city or county, or any portion or portions thereof whether contiguous or otherwise.

Payments by city

4127. The legislative body may in its discretion declare that the whole or any percentage of, or any sum toward the cost and expenses of the improvement shall be paid by the city in which case the sum or percentage to be so paid shall be stated in the ordinance of intention.

Payments by county

4128. If a board of supervisors is conducting the proceeding, it may order and declare that the whole or any part of the cost and expenses of the improvements shall be paid from the general fund of the county or general road fund of the county, or from the road district fund of the road district in which the improvement is to be made, in which case it shall be so stated in its resolution or ordinance of intention.

Chapter 5. Notice of Improvement

Posting notice

4140. The street superintendent shall thereupon cause to be conspicuously posted along all open streets within the assessment district and along all streets and parts of streets or other public places or rights of way where any property is to be taken for the widening or straightening thereof, and along or upon any private property which is to be taken for the opening or extending of any street or other public place, at not more than 300 feet apart, notices (not less than three in all) of the passage of the ordinance of intention.

Contents

4141. The notices shall be headed, "Notice of public improvement," in letters not less than one inch in length, shall be in legible characters, and shall:

(a) State the fact and date of the passage of the ordinance of intention.

(b) Describe briefly and in general terms the proposed improvement.

(c) Contain a map showing the boundaries of the proposed assessment district, the names of all open streets therein, the right of way to be acquired, a statement of the estimated cost of the improvement.

(d) Refer to the ordinance of intention and to the map on file in the office of the clerk or engineer for all details.

(e) State the day, hour and place when and where any and all persons having any objections to the proposed improvement may appear before the legislative body and show cause why the proposed improvement should not be carried out in accordance with the ordinance of intention.

Time for posting

4142. In every case all posting shall be fully completed at least 10 days before the day set for the hearing of protests or objections.

Mailing notice

4143. The clerk shall mail a notice as provided in Section 4060, notifying each property owner in the assessment district of the date of passage and number of the ordinance of intention, and the time and place set for the hearing of protests against the improvement.

Unknown owners

4144. If any lots or parcels of land in the assessment district are assessed to "unknown owners" on the tax rolls of the city, or if the address of any property owner is not on file in the office of the clerk, no notice shall be mailed to the owners thereof, and the publication of the ordinance of intention as provided in Chapter 4 of this part shall be deemed legal notice to such owners of the contemplated improvement.

Affidavits required

4145. The legislative body shall require affidavits to be filed showing the posting and the mailing of notices before it adopts the resolution ordering the improvement.

CHAPTER 6. HEARING OF OBJECTIONS

Protests

4160. Any persons interested, who object to the improvement, its proposed establishment or change of grade, or to the extent of the assessment district may, at any time not later than the hour set for hearing objections to the proposed improvement, file a written protest with the clerk.

Form

4161. Such protest shall be in writing and shall contain a description of the property in which each signer thereof is interested, sufficient to identify the property, and the legislative body shall consider no other protest or objection.

Indorsements

4162. The clerk shall indorse on every such protest the date of its reception by him.

Hearing

4163. At the time set for hearing protests, the legislative body shall proceed to hear and pass upon all protests and its decision shall be final and conclusive. If the protest is against the proposed improvement and the legislative body finds that such protest is made by the owners of more than one-half of the area of the property within the assessment district, no

Majority protest

further proceedings shall be taken for a period of six months from the date of the decision of the legislative body on the hearing, unless the protest is overruled by an affirmative vote of four-fifths of the members of the legislative body.

Authority to proceed

4164. If no protests in writing are filed within the time provided, or if any protest is found by the legislative body to be insufficient, or is overruled, or if a protest against the proposed assessment district is heard and denied, immediately thereupon the legislative body shall be deemed to acquire jurisdiction to order the proposed improvement.

Adjournment hearings

4165. The legislative body may adjourn the hearings from time to time.

Project changes

4166. Unless the power to proceed has ceased, the legislative body may, at the conclusion of the hearing, by resolution make such changes in the boundaries of the proposed assessment district, or in the property proposed to be acquired or change or modify the grades as set forth in the plans and specifications and referred to in the ordinance of intention as it shall find to be proper and advisable, and shall define and establish such boundaries and describe the property proposed to be acquired. The legislative body shall not have the power to modify such boundaries so as to include any territory which will not in its judgment be benefited by the improvement.

Resolution of modification

4167. If any changes are made in the grades as set forth in the plans and specifications and referred to in the ordinance of intention, such changes shall be set forth in the resolution adopted at the conclusion of the hearing, known as the resolution of modification.

Notice of intention

4168. The legislative body shall not modify such boundaries, make changes in the property proposed to be acquired, or make changes in the grades as set forth in the plans and specifications, and referred to in the ordinance of intention, except after notice of intention so to do given by one insertion in the newspaper in which the ordinance of intention was published describing the proposed modification or change and specifying the time for hearing objections to such modification or changes, which time shall be at least 10 days after the publication of the notice.

Objections

4169. Written objections to the proposed modification and changes may be filed with the clerk by an interested person at or before the time set for the hearing.

Hearing

4170. The legislative body shall hear and pass upon such objections at the time appointed, or at any time to which the hearing may be adjourned, and its decision thereon shall be final and conclusive.

CHAPTER 7. THE CONDEMNATION ACTION

Ordering improvement made

4185. Having acquired jurisdiction, the legislative body shall, by ordinance:

(a) Order the improvement to be made.

(b) Except as provided in Section 4186, direct the attorney to bring an action in the proper superior court, in the name of the city, for the condemnation of the property necessary or convenient to be acquired therefor. The ordinance need not describe the property to be acquired, nor the grades to which improvements may be made, nor the assessment district, but may refer to the ordinance of intention, and to the resolution of modification, if any was adopted, for all particulars.

Condemnation action

Same

4186. If such a condemnation action has already been brought by the attorney under authority of law prior to the adoption of the ordinance ordering the improvement to be made, then the ordinance ordering the improvement may refer to said action and direct the attorney to continue prosecution of it. That action shall then have like effect and be in lieu of and serve all the purposes of the action referred to in this chapter, and shall thereafter be carried on in the same manner and subject to the provisions stated in this part, except that the complaint in the action shall set forth or state the effect of the ordinance of intention in such proceedings but need not set forth or state the effect of the ordinance ordering the improvement.

Complaint

4187. If the complaint in such action omits to set forth or to state the effect of the ordinance of intention in such proceedings, the complaint may be amended as of course at any time before trial to set forth or state the effect of such matters and shall thereupon satisfy the requirement as to reference to the ordinance of intention.

Time and form of action

4188. Unless a condemnation action has already been brought, upon the passage of the ordinance ordering the improvement, the attorney shall bring such action, which action shall be commenced within a period not exceeding 180 days from the effective date of the ordinance ordering the improvement. The action shall in all respects be subject to and governed by those provisions of the Code of Civil Procedure which are applicable thereto, except in the particulars otherwise provided for in this part.

Form of complaint

4189. The complaint shall set forth, or state the effect of, the ordinance of intention, and the ordinance ordering the improvement, but need not set up any other proceedings had before the bringing of the action. In the action these ordinances shall be conclusive evidence of the public necessity of the proposed improvement, and also that the improvement is located in the manner which will be most compatible with the greatest public good and the least private injury.

CHAPTER 8. DETERMINATION OF COMPENSATION AND DAMAGES

Setting for trial

4199. When all parties defendant to the action have answered, or have been served with summons and their default entered, the plaintiff or any party defendant to the action whose default has not been so entered, may, upon five days' notice to the parties, except defendants in default, move the court to set the action for trial.

Referees

4200. If, upon the hearing of such motion, neither a trial by jury nor by the court without a jury is demanded by the defendants or any of them or by the plaintiff, such trial shall be waived, and the court shall appoint three disinterested persons as referees, to ascertain the compensation and damages to be paid to such defendants who thus waive trial. Such referees shall be residents of the city where such improvement is to be made, and over the age of 21 years. Each referee shall qualify by filing with the court an oath to discharge his duties faithfully and impartially. If any referee fails to qualify, or resigns, or is removed by order of court, or is or becomes unable to act, the court shall fill the vacancy.

Determination of damages

4201. The referees shall at once proceed to view the lands sought to be condemned, and ascertain the compensation and damages proper to be paid to such of the parties interested in each parcel of land as have waived trial. The referees may examine witnesses under oath, to be administered by any of them, and may have subpenas issued by the clerk of the court, requiring the attendance of witnesses or the production of evidence before them.

Report of findings

4202. The referees, or any two of them who are in agreement, shall, within 90 days after the date of their appointment, make and file with the court a written report of their findings and of their necessary expenses. The time so allowed may be extended, upon good cause shown, by the court or a judge thereof. If any vacancy occurs among the referees and is filled as provided in this chapter, or if new referees are appointed, or if a new report from the same referees is ordered, the time specified in this section for the filing of such report shall be deemed to be 90 days from the date of the order filling such vacancy, or appointing new referees, or ordering a new report from the same referees, and such time may be extended accordingly, as provided in this section.

Date of accrual of damages

4203. For the purpose of assessing the compensation and damages, the right thereto shall be deemed to have accrued at the date of the issuance of summons, and the actual value at that date shall be the measure of compensation for all property to be actually taken, and also the basis of damages to property not actually taken but injuriously affected, in all cases where such damages are allowed by the provisions of this

part. If, however, a motion to set the action for trial is not made within one year after the date of the issuance of the summons in the action, the right to compensation and damages shall be deemed to have accrued at the date of the hearing of the motion to set the action for trial, and the actual value at that date shall be the measure of compensation and the basis of damages.

Subsequent improvements

4204. No improvements placed upon the property proposed to be taken, subsequent to the date at which the right to compensation and damages has accrued, shall be included in the assessment of compensation or damages.

Immediate possession

4205. If the plaintiff takes immediate possession under a court order made pursuant to the provisions of Section 14 of Article I of the Constitution, then the compensation and damages awarded shall draw interest at the rate of 7 per cent per annum from the date of such order.

Findings

4206. The referees, or court, or jury, as the case may be, shall find separately:

Value of property

(a) The value of each parcel of property sought to be condemned, and of all improvements thereon pertaining to the realty, and of each separate estate or interest therein.

Severance damages

(b) If any parcel of property sought to be condemned is only a part of a larger parcel, the damages which will accrue to the portion not sought to be condemned, and to each separate estate or interest therein, by reason of its severance from the portion sought to be condemned, and the construction of the improvement in the manner proposed by the plaintiff. Such damages shall be fixed irrespective of any benefit from the improvement.

Change of grade damages

(c) In the case of an establishment of change of grade, the damages which will accrue to each parcel of property and to each separate interest therein abutting upon the exterior boundaries of any streets theretofore officially fixed and established or to be fixed and established in the proceedings, by reason of the construction of improvements to the grades so changed or established or both.

Hearing the report

4207. Upon the filing of the referees' report the court shall, upon motion of the plaintiff or of any defendant who has answered, by order appoint a day for hearing the report, which day shall be not less than 20 days after such order. At least 10 days before the time so appointed, notice of the time and place of the hearing shall be served on all the other parties, except defendants whose default has been entered.

Exceptions by parties

4208. At any time not less than one day prior to the hearing, the plaintiff, or any defendant who has answered, may file exceptions in writing to the report, specifying the grounds upon which such exceptions are based. Any party thus filing exceptions may appear at the hearing and contest the report.

Notice of hearing

4209. In addition to the notice already provided, the clerk of the court shall give notice of the filing of the report, and of the time and place appointed for the hearing of the report, to all persons owning or having an interest in any property included within the assessment district, by causing the notice last mentioned to be published for five days in a daily newspaper published and circulated in the city; and, if there is no such daily newspaper, then by two insertions in a weekly newspaper so published and circulated. Any publication of such notice shall commence at least 10 days before the time appointed for the hearing of the report.

Contents

4210. Such notice shall require every person owning or having an interest in any property included within the assessment district to intervene in the action, and to file, in the office of the clerk of the court, his exceptions in writing to the report, if any he has, specifying the grounds upon which such exceptions are based. The notice shall also contain a description of the assessment district as set forth in the ordinance of intention.

Intervention

4211. At any time within not less than one day prior to the hearing, any person not a party to the action, owning or having an interest in any property included within the assessment district, or any defendant whose default has been entered, may intervene in the action and file, in the office of the clerk of the court, his exceptions in writing to the report, specifying the grounds upon which such exceptions are based. Any such person so intervening may appear and contest the report, and introduce evidence in support of such exceptions.

Interlocutory judgment

4211.5. At the date set for the hearing of the referees' report, the court may enter an interlocutory judgment or judgments for all parcels of land with respect to which no exceptions have been filed.

Acting on report

4212. After hearing the report, and any exceptions thereto, the court may confirm the report, or may modify it and confirm it as modified, or may set it aside and order a new report from the same referees, or from new referees to be appointed. If new referees are appointed, the same proceedings shall be had as upon the first reference.

Notice of trial

4213. If there is a trial of the condemnation action by a jury, or by the court without a jury, the clerk of the court shall give notice of the time and place of such trial to all persons owning or having an interest in any property within the assessment district. The clerk of the court shall cause the notice to be published in the same manner and for the same time as the notice provided in Section 4209. Such notice shall require all persons owning or having an interest in any property included within the assessment district to intervene in

the action, and to appear at the trial thereof and introduce evidence relative to the compensation and damages to be awarded to the defendants in the action.

Intervention

4214. At any time within not less than one day prior to the trial, any person not a party to the action, having an interest in any property included within the assessment district, may intervene in the action, and, at the trial thereof, may appear and introduce evidence relative to the compensation and damages to be awarded to the defendants in the action.

Notice costs

4215. The cost of the publication of the notices required by this chapter, in connection with the hearing on the referees' report or the trial of the action, shall be paid by the plaintiff, and allowed as costs in the action.

Continuance

4216. When a time has been appointed for hearing the report of the referees, or for the trial of the action, and the clerk of the court has given notice thereof by publication as in this chapter provided, if the hearing or trial is postponed or continued by the court to any subsequent date, no such notice need be given by the clerk of the court of the hearing or trial upon any such postponement or continuance.

Interlocutory judgment

4217. Upon the confirmation of the report of the referees, or receipt of the verdict of the jury, or the filing of the findings of the court, the court shall make and enter an interlocutory judgment in accordance with such report, verdict or findings, adjudging that upon payment to the respective parties, or into court for their benefit, of the several amounts found due them as compensation and damages, and of the costs allowed to them, the property involved in the action shall be condemned to the use of the plaintiff, and dedicated to the use specified in the complaint.

Referees' compensation

4218. Upon the hearing of the report, the court shall allow to the referees, as costs to be paid by the plaintiff, a reasonable compensation for their services, the amount of which compensation shall be fixed by the court not to exceed the sum of fifty dollars ($50) per day and their necessary expenses.

Right to trial

4219. Nothing contained in this chapter shall prevent the trial of the action by the various methods specified elsewhere in this chapter. Any defendant may demand and shall be entitled to a jury trial irrespective of the fact that any other defendant may waive a trial by a court or jury and permit the matter of compensation and damages to be determined by referees.

Jury trials

4220. If any defendant demands a jury trial as to the interest alleged to be owned or claimed by him in any parcel sought to be condemned, the matter of the compensation and

damages payable for such parcel and of each and every interest or estate therein shall be determined at such trial irrespective of the demand of any other defendant claiming an interest in such parcel for a trial by the court without a jury or for the ascertainment of compensation and damages by the referees.

Nonjury trials

4221. Similarly, if any defendant demands a trial by the court without a jury as to his interest in any parcel sought to be condemned and no defendant claiming an interest in such parcel has demanded a trial by jury as to the interest of such defendant in such parcel, the matter of compensation and damages as to such parcel and of each and every interest or estate therein, shall proceed to trial by the court without a jury irrespective of the fact that any other defendant has waived trial by jury and trial by the court without a jury.

Separate and consolidated judgments

4222. Nothing contained in this part shall be deemed to prevent and authority is hereby expressly granted for, the entry of separate interlocutory judgments as to the separate parcels sought to be condemned, and such authority is hereby expressly granted for the entry of an interlocutory judgment or judgments relating to all parcels as to which the matter of compensation and damages has been referred to referees, excepting therefrom any parcels as to which exceptions are filed to the referees' report.

Same

4223. Included within the intent of this chapter is authorization for the entry of an interlocutory judgment as to all parcels mentioned in the referees' report as to which no exceptions have been filed, in order that the proceedings for acquisition may proceed prior to the final determination of compensation and damages with respect to those parcels as to which exceptions have been filed to the referees' report and prior to the entry of interlocutory judgments as to parcels as to which any defendants may demand a trial by jury or a trial by the court without a jury.

Appeals

4224. An appeal may be taken from any interlocutory judgment within 30 days from the entry thereof, and from any order granting or denying a new trial within 10 days after the entry thereof.

Chapter 9. Settlement of Compensation and Damages

Stipulated damages

4230. In addition to the procedure provided in Chapter 8 of this part as the method of determining the compensation for all property to be actually taken and the basis of damages to property not actually taken but injuriously affected in all cases where such damages are allowed by the provisions of this

part, and anything elsewhere in this part to the contrary notwithstanding, if the plaintiff and all parties owning or claiming an interest in any parcel of land sought to be acquired enter into a stipulation for the entry of an interlocutory judgment relating to such parcel of land, agreeing upon the actual value of any property to be actually taken and the amount of damages to property not actually taken but injuriously affected, such stipulation may be filed in court and upon motion of any party thereto the court may appoint a date for a hearing upon such stipulation and for the entry of an interlocutory judgment in accordance therewith not less than 20 days thereafter.

Notice of hearing

4231. Notice of the time and place of the hearing shall at least 10 days before the date so appointed be served on all parties to such stipulation, unless all parties in such stipulation waive the giving of such notice.

Same

4232. In addition to the notice hereinbefore provided the clerk of the court shall give notice of the filing of the stipulation and of the time and place appointed for the hearing thereon to all persons owning or having an interest in any lands included within the assessment district for the time and in the manner prescribed by Chapter 8 of this part for the notice of the filing of the referees' report.

Form and content

4233. The notice to be given by the clerk of the court shall be in the form mentioned in Chapter 8 of this part with such changes as may be applicable to the matter of a hearing upon such stipulation. It shall recite the names of the parties to whom payments are proposed to be made for interests in the land sought to be condemned, together with the amount of money so proposed to be paid to each of such parties, and shall contain a reference to the parcel of land for which such payment is proposed to be made, as that parcel is designated in the complaint.

Objections

4234. At any time not later than one day prior to the hearing any person owning or having any interest in any lands included within the assessment district, including any persons who are parties to the action, may intervene in the action and file their objections in writing to the entry of the proposed interlocutory judgment specifying the ground upon which such objections are based. Any person so intervening may appear and contest the motion for the entry of such interlocutory judgment and introduce evidence in support of such objections. The parties to the stipulation may likewise introduce evidence in support of the stipulation and the motion for the entry of the proposed interlocutory judgment.

Judgment

4235. At or after the time of the hearing, if no objections are filed to the entry of the interlocutory judgment, the court

may, without taking any evidence, enter an interlocutory judgment in accordance with such stipulation, adjudging that upon payment in accordance therewith, the property therein mentioned shall be condemned to the use of the plaintiff and dedicated to the use specified in the complaint.

Hearing

4236. If objections are filed against the entry of the interlocutory judgment, the court may similarly, after hearing such objections and any evidence introduced, enter an interlocutory judgment if the court finds that the amounts stipulated as the value of the property taken and the damages to property not actually taken but injuriously affected constitute just compensation.

Findings of fact

4237. Whether or not objections are filed to the entry of the interlocutory judgment, no findings of fact or conclusions of law need be prepared or filed.

Just compensation

4238. If the court finds that the amounts set forth in the stipulation constitute more or less than just compensation, no interlocutory judgments shall be entered and the action shall proceed as to the parcel of land as to which the stipulation is made, in accordance with the provisions of Chapter 8 of this part.

Reduction to just compensation

4239. However, if the amounts set forth in the stipulation are, in the opinion of the court, in excess of just compensation, the court may find what amounts constitute just compensation and enter an interlocutory judgment therefor, if the parties to such stipulation all consent thereto in open court or in writing within 10 days after such finding.

Purpose of chapter

4240. The purpose of this chapter is hereby declared to be the expeditious settlement of the matter of compensation and damages in any action in which the plaintiff and the owners or parties interested in any parcel of land sought to be condemned come to an agreement with respect to such compensation and damages, and this chapter shall not be construed to prevent the entry of the interlocutory judgment based upon such stipulation for the reason that any or all parties defendant have not been served in the action, if all parties specifically alleged in the complaint to own or claim an interest in the parcel of land mentioned in the stipulation are parties to such stipulation, or have defaulted in the action. The allegations in the complaint that defendants sued by fictitious names claim an interest in the parcel of land mentioned in the stipulation is not a specific allegation of an interest in the particular parcel of land mentioned in the stipulation.

Saving of expense

4241. An additional purpose of this chapter is hereby declared to be the saving of expense in the matter of ascertaining the compensation for property taken and damages

payable for property not taken but injuriously affected, and if no objections are filed to the stipulation it shall be unnecessary to introduce evidence before the court in the matter of the compensation and damages.

CHAPTER 10. ABANDONMENT OF PROCEEDINGS

Abandonment

4255. The legislative body may, at any time prior to the payment of the compensation awarded the defendants, abandon the proceedings, by ordinance, and cause the action to be dismissed, without prejudice. If any of the assessments levied to pay the expense of the improvements have been actually paid in money at the time of such abandonment, they shall be refunded to the person by whom they were paid. If the proceedings are abandoned or the action dismissed no attorney's fees shall be awarded to any defendant. Any expenses for the improvement for which the city is liable or which have been paid by the city may be charged as incidental expenses against the district benefited in any new proceeding had or taken for an improvement which includes substantially the same things to be done as those included in the abandoned proceedings.

CHAPTER 11. THE ASSESSMENT

Diagram

4270. Upon the entry of the interlocutory judgment, the legislative body shall order the engineer to make and deliver to the street superintendent a diagram of the improvement and of the property within the assessment district described in the ordinance of intention. The diagram shall show the land to be taken for the proposed improvement, and also each separate lot or parcel of land within the assessment district, and the dimensions of each such lot or parcel of land, and its relative location to the proposed improvement.

Assessment

4271. If the proceeding is not conducted by a county, the engineer shall deliver the diagram to the street superintendent and shall indorse thereon the date of such delivery. The street superintendent upon receiving the diagram (or, if the proceeding is conducted by a county, the county surveyor or other engineer upon the completion of the diagram) shall proceed to assess the total expense of the proposed improvement against the lands, including the property of any railroad or street railroad, within the assessment district, except the land to be taken for the improvement, in proportion to the benefits to be derived from the improvement. Before the total expense is assessed he shall deduct such percentage or sum as the legislative body has declared by the ordinance of intention that the city shall pay.

Time for completion

4272. The street superintendent shall complete the assessment within 60 days after the receipt or completion by him of

the diagram, but the legislative body may by order extend the time for completing the assessment for a period not exceeding an additional 90 days.

Total expense

4273. The total expense of the improvement so to be assessed shall include:

(a) The amounts awarded to the defendants by the interlocutory judgment in the condemnation action, together with their costs.

(b) The compensation and expenses of the referees as allowed by the court.

(c) All other costs of the plaintiff in the condemnation action.

(d) The expenses of making the assessment.

Same

4274. Such total expense may also include:

(a) All cost and expense incurred in carrying out the investigations and reports required by the provisions of the "Special Assessment Investigation, Limitation and Majority Protest Act of 1931."

(b) All expenses necessarily incurred by the city, in connection with the proposed improvement, for the publication of ordinances, posting and publication of notices, for maps, diagrams, plans, surveys, searches and certificates of title to the property to be taken, and all other matters incident thereto.

Public property omitted

4275. If any lot or parcel of land belonging to the United States, or to the State, or to any county, city, public agent, mandatory of the government, school board, educational, penal or reform institution, or institution for the feeble-minded, or the insane, is in use in the performance of any public function, and is included within the assessment district by the legislative body in the ordinance of intention, the legislative body may, in its discretion, in the ordinance of intention, declare that those lots or parcels of land, so owned and in use, or any of them, shall be omitted from the assessment to be made to cover the expense of the improvement.

Effect

4276. If any of such lots or parcels of land are by the ordinance omitted from the assessment, then the total expenses of the improvement shall be assessed on the remaining lots or parcels of land lying within the boundaries of the assessment district, without regard to such omitted lots or parcels of land.

Failure to omit

4277. If the legislative body in its ordinance of intention declares that any of such lots or parcels of land shall be included within the assessment, or if no declaration is made respecting such lots or parcels of land, then such sums as thereafter may be assessed against such lots or parcels of land shall be payable by the city out of the general fund, unless the legislative body shall in its ordinance of intention designate

another fund. Any such sums which may be assessed against such lots or parcels of land, shall not be payable by the city when such sums are paid by the owner of or the governing body controlling such lots or parcels of land.

Form of assessment

4278. The street superintendent shall make the assessment in writing. The assessment shall describe each lot or parcel of land assessed for the improvement, and shall designate each such lot or parcel of land with an appropriate number. The street superintendent shall also designate each such lot or parcel of land on the diagram, with the number corresponding with the number thereof in the assessment, and the diagram shall thereupon be attached to and become and be deemed to be a part of the assessment.

Contents

4279. The assessment shall show:

(a) The total sum to be raised thereby.

(b) The items of such total sum.

(c) Opposite each lot or parcel of land assessed, the amount assessed thereon, and the name of the owner thereof, if known to the street superintendent; or if the owner's name is unknown, the word "Unknown" shall be written instead of such name. Any error or mistake in the designation of the owner of any lot or parcel of land, or in the particulars of his interest therein, shall not affect the validity of the assessment.

Filing and notice

4280. As soon as the assessment is completed the street superintendent shall file it, with the diagram attached thereto and made a part thereof, with the clerk, who shall give notice of such filing by publication for at least 10 days in a daily newspaper published and circulated in the city, or if there is no such daily newspaper, by three successive insertions in a weekly newspaper so published and circulated.

Mailing

4281. The clerk shall mail a notice of such filing. The notice shall contain a designation by street number, or some other description, of the property assessed sufficient to enable the owner to identify it and the amount proposed to be assessed thereon.

Affidavits

4282. Upon the completion of the mailing of the notices, the clerk shall file with the legislative body an affidavit setting forth the time and manner of the compliance with the above requirement for mailing such notices. The mailing of such notices shall not be essential to obtaining jurisdiction by the legislative body, and the failure so to do shall not affect in any manner the validity of any proceedings taken under the provisions of this part.

Contents of notice

4283. The notices shall require all persons interested to file with the clerk any objections they may have to the confirmation of the assessment. Such objections shall be filed prior to

the date set for the confirmation of the assessment which date shall be stated in the notices and be at least 30 days from and after the date of mailing such notices.

Objection

4284. All objections shall be in writing and shall be filed with the clerk within the time prescribed in the notice. The clerk shall, on the date fixed for the confirmation of the assessment, lay the assessment and all objections so filed before the legislative body which shall hear all such objections at that hearing, or at any other time to which the hearing thereof may be adjourned.

Hearing

4285. At such hearing the legislative body may:

(a) Remedy and correct any error or informality in the proceedings.

(b) Confirm, amend, alter, modify or correct the assessment in such manner as it considers just.

(c) Instruct and direct the street superintendent to correct the assessment or diagram in any particular.

Decisions final

4286. All the decisions and determinations of the legislative body, made upon notice and hearing as provided in this part, shall be final and conclusive upon all persons entitled to file objections, as to all errors, informalities and irregularities which the legislative body might have avoided or remedied during the progress of the proceedings, or which it can at that time remedy.

Validity

4287. No assessment or diagram and no proceedings prior to the assessment shall be held invalid by any court for any error, informality, or other defect if the ordinance of intention has been actually published as provided in this part.

Confirmation of assessment

4288. When no objection is filed or when the orders and determinations of the legislative body at the hearing have been complied with, and the legislative body is satisfied with the corrections of the assessment or diagram, or both, thereupon the legislative body shall confirm the assessment.

Recording

4289. The clerk shall thereupon deliver to the street superintendent the assessment and diagram as confirmed by the legislative body, with his certificate of such confirmation and of the date thereof. The street superintendent shall thereupon record such assessment and diagram in his office, in a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording, and such record shall be the assessment roll.

Effect

4290. From the date of such recording all persons shall be deemed to have notice of the contents of such assessment roll. Immediately upon such recording, the several assessments contained in such assessment roll shall become due and payable,

and each of such assessments shall be a lien upon the property against which it is made.

Limitation on actions

4291. No action or proceeding to set aside, cancel, avoid, annul or correct any assessment or reassessment, or to review any of the proceedings, acts, or determinations therein, or to question the validity of, or to enjoin the collection of any assessment or reassessment, or to enjoin the issuance of bonds to represent any assessment or reassessment, shall be maintained by any person unless such action or proceeding is commenced within 30 days after the recording of the diagram and assessment or reassessment, and thereafter all persons shall be barred from any such action or proceeding or any defense of invalidity of the assessment or of bonds issued thereon or of any reassessment and of bonds issued thereon.

CHAPTER 12. PAYMENT OF ASSESSMENT BY OFFSET

Offset

4300. The owner of any property assessed, who is entitled to compensation under the award made by the interlocutory judgment, may, at any time after the assessment becomes payable, and before the sale of the property for nonpayment thereof, and before the issuance of bonds to represent the assessment, demand of the street superintendent that such assessment, or any number of assessments, be offset against the amount to which he is entitled under the interlocutory judgment.

Procedure

4301. If that amount is equal to or greater than such assessments, including any penalties and costs due thereon, the assessments shall be marked "Paid by Offset"; and if the amount is less than the assessments, and any penalties and costs due thereon, and no bonds are to be issued for such assessments, the person demanding such offset shall at the same time pay the difference to the street superintendent in money and on such payment the assessments shall be marked "Paid," the entry showing what part thereof is paid by offset and what part in money. When bonds are to be issued for such assessment the person demanding such offset shall not be required to pay the difference in money.

Conditions of offset

4302. As a condition of the offset, such person must execute to the city and deliver to the street superintendent duplicate receipts for such part of the amount due him under the interlocutory judgment as is offset against such assessments, penalties, and costs. One of the duplicate receipts shall be filed by the street superintendent in his office, the other shall be filed with the clerk of the superior court, and on such filing, the city shall be entitled to a satisfaction pro tanto of the interlocutory judgment.

Chapter 13. Delinquent Assessments

Mailed notice to pay assessments

4320. Upon the recording of the assessment the street superintendent shall mail, as provided in subdivision (a) of Section 4060, a statement containing:

Contents

(a) A designation by street number, or some other description, of the property assessed sufficient to enable the owner to identify it.

(b) The amount of the assessment.

(c) The date of the recordation of the assessment.

(d) The time and place of payment of the assessment and the effect of failure to pay within such time.

(e) If bonds are to be issued, a statement of that fact designating the act pursuant to which such bonds are to be issued.

Published notice

4321. The street superintendent also shall give notice by publication for 10 days in a daily newspaper, published and circulated in the city, or by three successive insertions in a weekly newspaper, so published and circulated. Such notice shall state:

Contents

(a) That the assessment has been recorded in the office of the street superintendent, and that all sums assessed therein are due and payable immediately.

(b) That the payment of said sums is to be made to the street superintendent within 30 days after the date of recording the assessment, which date shall be stated in the notice.

(c) If bonds are not to be issued, that all assessments will become delinquent if not paid before the expiration of that 30 days and that upon such delinquency 5 per cent of the amount of each such assessment will be added thereto.

(d) If bonds are to be issued, the effect of the failure to pay the assessments within the 30-day period.

Payment

4323. When any assessment is paid the street superintendent shall mark opposite such assessment the word "Paid," the date of payment, and the name of the person by or for whom the assessment is paid, and shall if so requested, give receipt therefor.

Delinquency

4324. On the expiration of the 30-day period all assessments then unpaid, for which bonds are not to be issued, shall become delinquent and the street superintendent shall certify such fact at the foot of the assessment roll, and mark each such assessment "Delinquent," and add 5 per cent to the amount of each delinquent assessment.

Publication of delinquent list

4325. The street superintendent shall, within 10 days from the date of such delinquency, begin the publication of a list of the delinquent assessments, which list shall contain a description of each parcel of property delinquent, and opposite each description, the name of the owner as stated in the assessment roll, and the amount of the assessment, penalty,

and costs due, including the cost of advertising which last shall not exceed the sum of fifty cents ($0.50) for each lot or parcel of land separately assessed.

The street superintendent shall append to and publish with the delinquent list a notice that unless each delinquent assessment, together with the penalty and costs thereon, is paid, the property upon which the assessment is a lien will be sold at public auction at a time and place to be specified in the notice.

Time and place of publication and sale

4326. The publication shall be made for a period of 10 days in some daily newspaper published and circulated in the city, or for three weeks in a weekly newspaper so published and circulated. The time of sale shall not be less than five days nor more than 10 days after the expiration of the period of publication of the delinquent list, and the place of sale shall be in, or in front of, the office of the street superintendent.

Redemption prior to sale

4327. At any time after such delinquency, and prior to the sale of any parcel of property assessed and delinquent, any person may pay the assessment on such parcel of property, together with the penalty, and costs then due, including the cost of advertising, if such payment is made after the first publication of the list of delinquent assessments. The street superintendent shall thereupon mark such assessment "Paid."

CHAPTER 14. SALE AND REDEMPTION OF DELINQUENT PROPERTY

Sale

4340. On the day fixed for the sale, the street superintendent shall, at the hour of 10 o'clock a.m., commence the sale of the property advertised, commencing at the head of the list, and continuing in numerical order of lots or parcels of land until all are sold. He may postpone or continue the sale from day to day until all the property is sold. Each lot or parcel of land separately assessed must be offered for sale separately, and the person who will take the least quantity of land, and then and there pay the amount of the assessment, penalty, and costs due, including fifty cents ($0.50) to the street superintendent for a certificate of sale, shall become the purchaser.

City purchase

4341. If there is no purchaser for any lot or parcel of land so offered for sale, it shall be struck off to the city as purchaser. The legislative body shall appropriate out of the general fund of the treasury the amount required for such purchase, and shall order the treasurer to place it in the special fund for the improvement. No charge shall be made for the certificate of sale when the city is the purchaser.

Certificate of sale

4342. After making the sale, the street superintendent shall execute, in duplicate, a certificate of sale setting forth a description of the property sold, the name of the owner thereof as given on the assessment roll, that the property was sold for a delinquent assessment (specifying the improvement for which the assessment was made), the amount for which such property was sold, the date of sale, the name of the purchaser, and the time when the purchaser will be entitled to a deed. The street superintendent shall file one copy of such certificate in his office, and deliver the other to the purchaser, or if the city is the purchaser, to the clerk, who shall file it in his office.

Purchaser's lien

4343. On the filing of the copy of such certificate in the office of the street superintendent, the lien of the assessment shall vest in the purchaser, and is only divested by a redemption of the property, as provided in this part. The street superintendent shall also enter on the assessment roll, opposite the description of each parcel of property offered for sale, a description of the part thereof sold, the amount for which it was sold, the date of the sale, and the name of the purchaser.

Redemption

4344. A redemption of any parcel of property sold for a delinquent assessment may be made by any party in interest, at any time prior to the execution and delivery of a deed for such parcel of property, by paying to the street superintendent the amount for which the property was sold, and in addition thereto 5 per cent of the amount of the delinquent assessment with interest thereon at the rate of 1 per cent per month until paid, interest to be computed from the date the assessment becomes delinquent and if such amount is not paid within six months thereafter, there shall be added thereto an additional penalty of 5 per cent of the principal amount due.

Record of redemption

4345. When redemption is made, the street superintendent shall note that fact on the duplicate certificate of sale on file in his office, and deposit the amount paid with the city treasurer, who shall credit the purchaser named in the certificate of sale with that amount, and pay it to such purchaser or his assignee, upon the surrender of the certificate of sale, and upon satisfactory proof of assignment thereof, if any. If the city is the purchaser, the treasurer shall notify the clerk of the redemption, and the clerk shall thereupon cancel the certificate of sale on file in his office.

Purchaser's deed

4346. At any time after the expiration of 12 months from the date of sale, the street superintendent shall execute to the purchaser, or his assignee on his application, if such purchaser or assignee has complied with the provisions of this chapter, a deed of the property sold, which shall recite substantially the matters contained in the certificate, also any assignment

thereof and the fact that no person has redeemed the property. The street superintendent shall receive from the applicant one dollar ($1) for making such deed, unless the city is the purchaser, in which case no charge shall be made.

Notice of application for deed

4347. The purchaser or his assignee shall, at least 30 days before he applies for a deed, serve upon the owner of the property, and upon the occupant of such property, if it is occupied, a written notice setting forth a description of the property, that the property has been sold for a delinquent assessment (specifying the improvement for which the assessment was made), the amount for which it was sold, the amount necessary to redeem at the time of giving notice, and the time when such purchaser or assignee will apply to the street superintendent for a deed. If the owner can not be found after due diligence, the notice shall be posted in a conspicuous place upon the property, at least 30 days before the time stated therein as the time at which the application for a deed will be made.

Affidavits

4348. The person applying for a deed shall file with the street superintendent an affidavit showing that notice of such application has been given, as required in this chapter, and that, if the notice was not served on the owner of the property personally, due diligence was used to find the owner. Such affidavit shall be filed by the street superintendent in his office. If redemption of the property is made after such affidavits are filed, and more than 11 months from the date of sale, the person making such redemption shall pay, in addition to the other amounts required, three dollars ($3) for the service of notice and the making of such affidavits, which amount shall be paid over to the purchaser or his assignee in the same manner as other sums paid for redemption.

Redemption amount

Conditions to deed issuance

4349. No deed for any property sold for delinquent assessment shall be made until the purchaser or his assignee has complied with all the provisions of this chapter, and filed the proper affidavits with the street superintendent.

Effect of deed

4350. The deed of the street superintendent shall be prima facie evidence of the truth of all matters recited therein, and of the regularity of all proceedings prior to the execution thereof, and of title in the grantee.

CHAPTER 15. SPECIAL FUND AND PAYMENT OF AWARDS

Improvement fund

4370. The street superintendent shall, from time to time, pay over to the treasurer all moneys collected by him on account of any assessment made under the provisions of this part. The treasurer shall, on receipt thereof, place such moneys in a special fund, designating such fund by the name

of the improvement for which the assessment was made. The legislative body shall, on or before the time when the assessments become delinquent, cause to be placed in the special fund the percentage of, or the sum toward, the total expense of the improvement to be paid by the city as declared in the ordinance of intention.

Payment of awards

4371. As soon as there is sufficient money in the special fund devoted to the proposed improvement, to pay the amounts awarded to the defendants by the interlocutory judgment in the condemnation action, or such parts thereof as have not been paid by offset against assessments, said amounts shall be paid to the parties entitled thereto or into court for their benefit.

Final judgment

4372. When satisfactory proof is made to the court of payment of the amounts awarded by the interlocutory judgment to the respective parties entitled thereto, or into court for their benefit, the court shall direct the interlocutory judgment to be satisfied, and shall make and enter a final judgment, condemning the lands described in the complaint to the use of the plaintiff for the purposes specified in the complaint.

Deficiency

4373. In case of a deficiency in the special fund for such improvement, the legislative body in its discretion may provide for such deficiency by an appropriation out of the general fund of the treasury, or by ordering a supplementary assessment to be made by the street superintendent upon the property in the assessment district in the same manner and form, and subject to the same procedure as the original assessment. In order to avoid delay in event of a supplementary assessment, the legislative body may advance such deficiency out of the treasury and reimburse the treasury from the collections under the supplementary assessment. In case of a surplus in the fund for the improvement, the legislative body may order such surplus refunded pro rata to the parties who paid the assessments.

Surplus

CHAPTER 16. REASSESSMENTS

"Bond Act of 1911"

4390. As used in this chapter, "Bond Act of 1911" refers to Part 2 of this division and to the act entitled "An act providing for the issuance of improvement bonds to represent certain special assessments for public improvements, and providing for the effect and enforcement of such bonds," approved April 27, 1911, as amended.

Reassessment

4391. A reassessment shall be issued in any of the following events:

Whenever any assessment heretofore or hereafter made, issued or filed in the office of the clerk, or whenever any bonds issued to represent the amounts of any such assessments in

accordance with the Bond Act of 1911 have been set aside by any court of competent jurisdiction or such court has refused to enforce any assessment or has decreed any such bonds issued under the Bond Act of 1911 not to constitute valid and subsisting liens against the lots or parcels of land upon which the assessments represented by them have been levied; or if for any reason such assessments or bonds, or both, are not effective through the curative and waiver provisions of this part or of the Bond Act of 1911 or any curative act now or hereafter passed by the Legislature in relation thereto to make them valid and enforceable.

Purpose

4392. The true intent and meaning of this chapter is to make the cost and expense of the improvements made or attempted to be made through an attempted compliance with this part payable by the real property benefited by such improvement by making a reassessment therefor. Such power of reassessment embraces both a full and partial reassessment and is not exhausted by a single attempted exercise thereof.

Reassessments

4393. A reassessment shall be ordered under any one of the following circumstances:

Basis for

(a) Whenever the owner or holder of any assessments or bonds issued to represent or be secured by assessments requests the legislative body to order a reassessment and the legislative body is of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner or the assessments represented or secured by the bonds owned or held by the petitioner.

(b) Whenever any court of competent jurisdiction in any suit involving the validity of the obligation of any bond or assessment has for any reason held the lien of the assessment or bond to be unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

(c) Whenever any court of competent jurisdiction in any suit to set aside the lien of any assessment or of any bond representing any assessment or in any suit to quiet title against the lien of any such assessment or bond or in any suit to enjoin the making, filing, confirmation or issuance of any assessment or bond to pay for the cost and expenses of any work done under this part, shall in its judgment decree such assessments or bonds to be void or unenforceable or shall enjoin the making, filing or issuance or confirmation of any such assessment or bond, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

(d) Whenever the lien of any assessment or bond is foreclosed or attempted to be foreclosed by sale by the treasurer as provided in this part or in the Bond Act of 1911, and

thereafter any court of competent jurisdiction in any suit contesting the validity and legal force and effect of such sale decrees such sale to be void or unenforceable for any reason, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such suit.

Manner of reassessment

4394. Upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body directing a reassessment, the street superintendent shall proceed to make a reassessment in the following manner:

If the reassessment is a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. If it is a full reassessment, then the street superintendent shall prepare and file with the reassessment a diagram showing the lots or parcels of land deemed by him to have been benefited by the improvement.

Amount of reassessment

4395. The reassessment shall assess upon and against each of the lots or parcels of land contained therein an amount arrived at as follows: The benefits derived, or to be derived by each of the lots or parcels of land from the improvement estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed. Then there shall be added thereto interest thereon from 30 days after the date of such filing of the original assessment at the rate of 7 per cent per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost and expenses of the improvement.

Form of reassessment

4396. Such reassessment need not be in any prescribed form, but shall refer to the original assessment filed, give the date of filing of the original assessment and state that it is made pursuant to the order of the legislative body or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots or parcels of land to be reassessed and their relation to the improvement.

Notice of hearing

4397. The reassessment shall then be presented to the legislative body, which shall fix a time for hearing before it, which shall be at least 20 days after the reassessment is so presented. The clerk shall then advertise the time of such hearing by publishing a notice in the newspaper in which the ordinance of intention for the improvement was published unless the legislative body directs publication in some other newspaper. If the reassessment is to be against the property in a district, then this fact shall be set forth and the assessment diagram referred to for particulars. Such notice shall be published for five insertions, if the newspaper is a daily, or by two insertions if the newspaper is published less frequently.

Hearing

4398. At the time fixed for the hearing, or at any time to which the hearing is adjourned, the legislative body shall consider the objections to the reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot or parcel of land thereby benefited the amount of the actual benefits derived from the improvement. When the reassessment is revised or corrected or modified to comply with the judgment of the legislative body, it shall pass a resolution confirming the reassessment.

Recordation

4399. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the clerk that it is the reassessment approved by the legislative body. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the original assessment together with interest on such payments at the rate of 7 per cent per annum from and after the date of such payments.

Enforcement

4400. The reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable in the same manner provided for enforcing an original assessment, and shall have the same weight in evidence. If bonds were issued under or upon the security of the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lots or parcels of land covered thereby.

Cancellation of original assessment

4401. When the reassessment is recorded the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New bonds shall not be issued until the original bonds are delivered up to the treasurer, who shall cancel them. The lien of the reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment.

CHAPTER 17. REASSESSMENTS TO RELIEVE OWNERS

Additional city payments

4430. Notwithstanding any other provisions of this part, the legislative body may:

(a) Provide by resolution adopted at any time that any sum toward the expense of the improvement shall be paid by the city, in which case such sum shall be in addition to, but not less than, the sum or percentage, if any, stated in the ordinance of intention.

(b) At any time prior to the confirmation of the assessment, reduce or direct the street superintendent to reduce the

amount of the proposed assessment in a sum equivalent to the sum to be so paid by the city.

(c) At any time after the confirmation of the assessment, either before or after the issuance of bonds thereon, determine that the public interest and necessity require further and additional sums to be paid by the city towards the expense of the improvement if the improvement is for a work of more than ordinary public benefit and involves a major thoroughfare of the city upon which the traffic is heavy and continuous and of benefit to the entire city.

Reassessment

4431. Whenever the legislative body so determines and makes an appropriation therefor it shall order the street superintendent to proceed to make a reassessment. The street superintendent shall then prepare and file with the reassessment a diagram showing the lots or parcels of land deemed by him to have been benefited by the improvement. The reassessment shall assess upon and against each of the lots or parcels of land within the assessment district the amount of the original assessment less a pro rata of the sum so appropriated, prorated in the same proportion that the original assessment against such lot or parcel of land bears to the total of such original assessment for the improvement.

Form

4432. Such reassessment need not be in any prescribed form but shall refer to the original assessment filed, giving the date of filing of the original assessment, and shall state that it is made pursuant to the order of the legislative body and shall be accompanied by a diagram showing the lots or parcels of land to be reassessed and their relation to the improvement. Such diagram may be the original assessment diagram if it otherwise conforms to the provisions of this chapter.

Notice of hearing

4433. The reassessment shall then be presented to the legislative body, which shall fix a time and place of hearing before it. Such time shall be at least 20 days after the reassessment is so presented. The clerk shall then advertise the time and place of such hearing by publishing a notice in the newspaper in which the ordinance of intention for the improvement was published unless the legislative body directs publication in some other paper. The notice shall contain a reference to the original assessment and diagram and reference shall also be made to the reassessment and diagram of the street superintendent for full particulars as to the extent of the district affected by these proceedings and for all other particulars.

Hearing

4434. At the time fixed for the hearing or at any time to which the hearing may be continued the legislative body shall consider any objections to the reassessment and may correct inequalities or mistakes therein. When the legislative body is satisfied with the correctness of the reassessment it shall confirm it.

Recording 4435. The street superintendent shall thereupon record the reassessment and diagram in his office, with a certificate at the end thereof executed by the clerk that it is the reassessment approved by the legislative body. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment or upon the bonds issued to represent the original assessment.

Enforcement 4436. The reassessment shall be collectible by and payable to the treasurer, or such other officer as the legislative body may designate, so far as practicable in the same manner as an original assessment and shall be enforceable by suit in the same manner provided for enforcing an original assessment and shall have the same weight in evidence. If bonds issued under or upon the security of the original assessment, no reassessment made pursuant to this chapter shall change the security or lien of any such bond in any manner whatsoever or the method of the enforcement thereof.

Lien The lien of the reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment.

City payments 4437. Upon confirming the reassessment the city shall transfer into the bond and assessment redemption fund the amount so apportioned among the several assessments.

Refunds 4438. Whenever prior to the confirmation of the reassessment any principal payments are made on any assessment, or on any bond issued to represent any such assessment, the owner of record of the property against which such assessment was levied at the time such payment was made, or if a purchaser under a contract of purchase or a lessee under a lease pursuant to the terms of which contract of purchase or lease is required to and has made such payments upon the original assessment or bonds, then such purchaser or lessee shall be entitled to receive a refund of an amount of the difference between the original assessment and the reassessment in the proportion that such payment made by him bears to the original assessment, with respect to the lot or parcel of land for which such payment or payments were made.

Payments 4439. The balance of any such appropriation, as determined by the reassessment, shall be credited pro rata to the bonds in payment thereof, applying such payment first to the interest due and then to the principal. Thereafter the treasurer shall pay to the holder of each bond the payment so credited from the bond and assessment redemption fund. The treasurer is hereby authorized and directed to make all payments of refunds as authorized by this chapter.

Notice to claim refund

4440. Whenever it shall appear to the legislative body that payments were made on any such assessments or bonds prior to the reassessment, it shall cause to be published in the newspaper in which the ordinance of intention for the improvement was published, unless the legislative body directs publication in some other newspaper, a notice stating the fact of such reassessment and calling upon all property owners affected by the improvement to make claim for refund within two years from the date of the first publication of the notice. Reference shall be made to the reassessment and diagram for all particulars. Such notice shall be published once a week for two weeks.

Limitation on refund claims

4441. In case claim for such refund is not made within the two-year period, then all claims therefor shall be barred and the amount remaining unclaimed shall revert to the fund from which the supplemental appropriation was made by the legislative body.

Limitation of actions

4442. No action shall be brought to contest, modify, annul, review or in any way attack the validity of such reassessment and the proceedings had under this chapter unless the action is commenced within 30 days after the recording of the diagram and reassessment, and thereafter persons shall be barred from any such action or any defense of invalidity of the reassessment and all bonds issued thereon.

Reassessment costs

4443. In making any such reassessment the street superintendent shall first deduct from the amount appropriated by the legislative body the estimated cost of the reassessment proceedings. If such estimate for any reason exceeds the actual cost thereof, then the excess of such fund reserved for the payment of the costs shall revert to the fund from which the appropriation was made. In the event that the estimate is insufficient to meet the costs of the reassessment, then the legislative body shall appropriate such additional sums as may be necessary to meet the excess costs and expenses thereof.

Additional reassessments

The making of any reassessment pursuant to the provisions of this chapter in any proceeding shall not constitute a bar or limit the right to make further reassessments as the legislative body may determine.

CHAPTER 2. DETERMINATION TO ISSUE BONDS

When bonds may issue

4530. The city council of any city may determine that serial bonds shall be issued as provided in this part to represent assessments of twenty-five dollars ($25) or over for the cost of any work or improvement authorized under the Street Opening Act of 1903, the Park Act, or under any act which may hereafter become a law providing for the acquiring of property, easements and rights of way necessary or convenient for the construction of sewers and drains by cities for sanitary or drainage purposes.

Resolution of intention

4531. Whenever the city council determines that serial bonds shall be issued to represent assessments it shall so declare in a resolution which may be adopted at the time of the confirmation of the assessment roll in any proceedings had or taken under any act to which this part is made applicable.

Contents

4532. The notice prescribed to be given for the hearing on the confirmation of the assessment roll shall contain a statement that the question of the issuance of bonds under this part will be determined at that hearing.

The resolution:

(a) Shall contain a notice that a bond will issue to represent the unpaid balance of each assessment which balance is twenty-five dollars ($25) or over, remaining unpaid 30 days after the date of the recordation of the assessment.

(b) Shall recite the term of the bonds and also the rate of interest the bonds shall bear which rate shall not exceed 6 per cent per annum.

The interest on the bonds shall be payable semiannually by coupon on the second days of January and July, respectively, of each year after their date, computed on all sums unpaid until the whole of the principal and interest is paid, but the first interest coupon on the bonds shall become due and payable on the second day of January next succeeding the October 15th or the second day of July next succeeding the April 15th, as the case may be, following the date of such bonds.

Bonds issued under this section shall be issued as provided in this part, and such bonds shall be subject to all of the provisions of this part.

CHAPTER 3. ISSUE OF BONDS

Unpaid assessment list

4550. After the full expiration of 30 days from the date of the recordation of the assessment, the street superintendent shall make and certify to the city treasurer a complete list of all assessments of which the amount remaining unpaid is twenty-five dollars ($25) or more.

Installment payments of principal and interest

4551. The principal of such unpaid assessments shall thereafter become due and payable to the treasurer in equal annual payments on the fifteenth day of each May succeeding the April 15th following the date of the bonds issued to represent such unpaid assessments. The number of annual payments shall correspond to the number of serial payments provided

to be made on the principal of the bonds. The interest on the unpaid assessments shall become due and payable on the fifteenth day of each May and November succeeding the filing of such list of unpaid assessments, but the first payment of interest shall become due and payable on the fifteenth day of May next succeeding the April 15th or the fifteenth day of November next succeeding the October 15th, as the case may be, following the date of the bonds.

Delinquency

4552. If any payment of principal or of interest on the unpaid assessments is not paid on the date on which the coupons representing it are payable as provided in this part, the city treasurer shall after the close of business on the due date add to the amount of principal or interest so delinquent a penalty of 5 per cent of the total amount of such delinquency. At the beginning of business on the first day of each succeeding month until such delinquent payment and all penalties thereon are fully paid, he shall add an additional penalty of 1 per cent of the amount of such delinquency. The treasurer shall collect such penalties with and as a part of such delinquent payments.

Penalty

Notice of date of payment

4553. The city treasurer shall, at least 15 days before each respective fifteenth day of May and November, until the assessment is paid in full, mail, postage prepaid, to each owner of property described in the assessment, at his last known address as it appears upon the tax rolls of the city, a notice of the amount due and the date when payment is due from him on the assessment and stating that the payment is subject to penalty if not paid on or prior to the due date of the coupons. The failure of the city treasurer to mail this notice or the failure of the property owner to receive it shall in nowise affect the validity of any penalty or invalidate any act or proceeding.

Bond issuance

4554. The city treasurer, upon the filing of the list of unpaid assessments, shall prepare a separate bond representing the total of the unpaid amount of each assessment as shown thereon if the unpaid assessment or the unpaid remainder thereof amounts to twenty-five dollars ($25) or over.

Chapter 4. Form and Effect of Bonds

Form of bond

4570. The bond shall be substantially in the following form:

Improvement Bond

Series_____

$_____ No._____

Under and by virtue of and pursuant to the provisions of Part 2 of Division 6 of the Streets and Highways Code, I,

out of the fund for the above designated improvement bonds, series _____, will pay to bearer the sum of _____ dollars ($_____) with interest at the rate of _____ per cent per annum as hereinafter specified, at the office of the city (or county) treasurer, of the City (or County) of _____, State of California. This bond is issued to represent an assessment for _____ in the City (or County) of _____, as the same is more fully described in the assessment therefor. Its amount is the amount assessed in said assessment against the lot or parcel of land numbered _____ thereon and in the diagram attached thereto, and which now remains unpaid; but until paid, with accrued interest, is a first lien upon the property affected thereby, as the same is described herein and in said recorded assessment with its diagram, to wit: The lot or parcel of land in the City of _____, County of _____, State of California, described as follows: _____.

This bond is payable exclusively from said fund, and neither the City (or County) of _____ nor any officer thereof, is to be holden otherwise for its principal or interest. The term of this bond is _____ years from July 2, 19_____, and at the expiration of said time the whole sum then unpaid shall be due and payable; but on the second day of July of each year, after the May 15th succeeding the April 15th following the date hereof, an even annual proportion of its principal is due and payable upon presentation of the coupon therefor, until the whole is paid, with accrued interest at the rate of _____ per cent per annum.

The interest is payable semiannually on the second day of January and July of each year hereafter upon presentation of the coupons therefor, the first of which is for the interest from date to the second day of _____, 19_____, and thereafter the interest coupons are for the semiannual interest.

This bond may be redeemed by the owner or any person interested in any lot or parcel of land described herein, in the manner provided in said code, at any time before maturity, and before commencement of proceedings for sale, upon payment to the city (or county) treasurer, for the holder of this bond of the amount then unpaid on the principal sum thereof, together with the amount of interest as shown on the two interest coupons maturing first after the date of such payment and all penalties accrued and unpaid.

Should default be made in the annual payment upon the principal, or in any payment of interest, the holder of this bond is entitled to declare the whole unpaid amount to be due and payable, and to have said lot or parcel of land advertised and sold forthwith in the manner provided by law. In case of such default, there shall be immediately added to such defaulted amount, 5 per cent of the amount thereof, and on the first day of each month following such default there shall be added a further penalty of 1 per cent to such defaulted amount. The city (or county) shall be entitled to one-half of the penalty first imposed, namely, 2½ per cent

and the other 2½ per cent and all subsequent penalties shall be paid to the holder of the bond along with and as part of such defaulted payment.

At said City (or County) of _____ this _____ day of _____ in the year 19_____.

_____

Treasurer of the City (or County) of _____

Bond payable to bearer

4571. The bonds shall be payable to the bearer and no mistake or error in the description in the bond of the lot or parcel of land assessed shall affect the validity or lien of the bond, unless the mistake or error is such that the lot or parcel of land can not be identified, and in such event the holder of such bond may have the mistake or error corrected upon application to the city treasurer and the officers or board which made the assessment to represent which the bond is issued.

Correction of error

Regularity of proceedings

4572. The bonds issued under this part shall by their issuance be conclusive evidence of the regularity and validity of all proceedings leading up thereto under the act under which the assessment was made, and under this part, and of the validity of the bonds.

Lien

4573. The amount due upon any such bond shall be a lien upon the lot or parcel of land described in such bond superior to all other liens, charges, and encumbrances except the liens of prior assessments and of municipal, State and county taxes.

Bond signatures

4574. If any officer whose signature or countersignature appears on any bond or coupon ceases to be such officer before delivery of the bonds to the purchaser thereof, such signature or countersignature appearing either on the bonds or on the coupons, or both, shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of the bonds.

Chapter 5. Bond Records and Payments

Bond record

4590. The city treasurer shall enter in a book kept for that purpose in his office, a record of each bond issued under this part, specifying the date of its issue, the amount for which issued, to whom delivered, its duration and a description of the lot or parcel of land against which issued.

Payment to treasurer

Record

4591. Payments of principal and interest on account of any bond issued under this part shall be made to the city treasurer. He shall keep a separate account of all such payments (entering them in the record herein required to be kept), and place them in appropriate funds for the payment of principal and interest of the bonds on account of which

Bond payments

paid. He shall, upon the surrender of the coupons attached to the bond, pay to the holder thereof, or his order, the amount called for by the coupons out of the funds in his possession applicable thereto.

Discharge of bonds

4592. The owner of or any person interested in any lot or parcel of land upon which a bond has been issued under this part may at any time before commencement of proceedings for sale pay off such bond and discharge the land described in the bond from the lien of the assessment, by paying to the city treasurer for the holder of such bond, the amount then unpaid on the principal sum thereof, together with the amount of interest as shown on the two interest coupons maturing first after the date of such payment, and all penalties accrued and unpaid.

Record of discharge

4593. Upon such payment being made to the city treasurer he shall forthwith mark paid in his record of the bond assessment to represent which the bond was issued, and thereupon the lien of the assessment shall cease and the city treasurer shall forthwith notify the holder of the bond and call in the bond. The city treasurer shall enter in his record of such bond the amount paid and the date of payment, and upon the lien of the assessment being extinguished, shall cancel the bond and file it in his office.

Interest payments

4594. The city treasurer may accept payments of interest unaccompanied by payments of principal installments due, and may mark his record accordingly, but the acceptance of such interest payments shall not affect the delinquent status of any installments of principal.

Chapter 6. New Bonds When Land Subdivided

Division of lot

4610. In the event of the division of any lot or parcel of land, for which a bond has been issued, into two or more separate lots or parcels of land, such bond may be surrendered and new bonds issued to the holder of the original bond as provided in this chapter.

Application for new bonds

4611. If it is desired that such new bonds be issued, an application in writing signed by the owner of any interest in any of the lots or parcels into which the original lot or parcel has been divided shall be filed with the street superintendent.

Request for apportionment

4612. Such application shall indicate how the original lot or parcel has been divided, and request the street superintendent to apportion the amount remaining unpaid on the assessment in accordance with such division, and be accompanied by a fee of five dollars ($5) for each separate part or parcel of the original lot or parcel, which sum the street superintendent shall deposit in the city treasury.

Apportionment

4613. The street superintendent thereupon shall apportion to each separate part of the original lot or parcel of land the proportionate part of the amount remaining unpaid on the assessment that would have been levied had such lot or parcel of land been so divided at the time the original assessment was made.

Issuance of new bonds

4614. When such determination has been made, an application signed by all persons owning an interest in the original lot or parcel of land and the holder of the original bond on such lot or parcel of land, shall be filed with the city treasurer requesting that new bonds be issued for the amounts shown by the apportioned assessment in accordance with this chapter. Such application shall be accompanied by evidence satisfactory to the city treasurer that it is signed by every person owning any interest in the original lot or parcel of land.

Change of diagram

4615. When the city treasurer has ascertained that the application is signed by all of the necessary persons, he shall so advise the street superintendent who shall thereupon amend the recorded diagram and assessment to conform to such division and apportionment and assign new assessment numbers to each separate part of the original lot or parcel of land.

Apportionment fee

4616. The city treasurer shall add to each such apportioned amount a sum equal to 5 per cent thereof but in no event more than the sum of ten dollars ($10), and shall make and sign a new bond of the same form as the original bond, to represent each such apportioned amount. The amount of such bond shall be equal to the sum of such apportioned amount and the amount added thereto by the city treasurer as prescribed in this chapter, and shall be payable in installments at the respective dates of the payment of principal and interest of the original bond, the number of such installments to be equal to the number of unpaid installments on the original bond.

Payment of bonds

Apportioned amount less than $25

4617. No new bond shall be issued when such apportioned amount is less than twenty-five dollars ($25), in which event such amount shall be paid to the city treasurer in cash for the benefit of the holder of the original bond.

Delivery of new bonds

4618. Upon the surrender of the original bond the city treasurer shall deliver to such bondholder or his agent or assigns the bonds issued for such apportioned assessments together with all payments of cash which may have been made pursuant to this chapter.

Chapter 7. Sale of Bonds

Notice of sale

4630. Upon the issuance of the bonds by the treasurer, the city council shall publish notice of the sale of the bonds, calling for bids therefor and fixing a time for the receipt of bids.

Sale to highest bidder

4631. Any number of improvement bonds, except as otherwise provided in Section 4637, shall be sold to the highest cash bidder after publication of a notice calling for bids, which notice shall be published for at least three times in a daily newspaper published and circulated in the city, or if there is no such newspaper, then such notice shall be published once in a weekly or semiweekly newspaper so published and circulated. The bonds shall not be sold for less than the amounts of the assessments for which they are issued.

Interest rate

4632. If the resolution of intention provides that the bonds shall be issued at a maximum rate of interest leaving the exact rate of interest at which the bonds are to be issued and sold to be determined at the sale of the bonds, then the notice calling for bids shall state that the bonds will bear interest at a rate not to exceed the maximum rate therefor named in the resolution of intention, stating that rate.

Determination of highest bidder

4633. At the time fixed for the receipt of such bids, or as soon thereafter as the city council can conveniently do so, it shall publicly open, examine and declare the bids. The bonds shall be sold to the best responsible bidder for cash therefor, and consideration shall be given to the rate of interest at which the bonds are offered to be purchased and the premium offered, if any.

Fixing interest rate

4634. The rate of interest at which the bonds are sold shall not exceed the maximum rate named in the resolution of intention. The rate of interest at which the legislative body sells the bonds shall thereupon be fixed as the rate of interest for the bonds, and such fixing and determination of such rate of interest shall be final and conclusive.

Disposition of proceeds

4635. If any bond is sold for an amount in excess of the amount for which it was issued, such excess shall be paid into the general fund of the city.

If the city advances money, as in this section provided, it shall have the same power and authority as other owners of bonds to sell or otherwise dispose of them.

CHAPTER 8. SALE FOR DELINQUENCY

Default

4650. Whenever, through the default of the owner of any lot or parcel of land upon which such bond is issued to represent the assessment, payment either of the principal or of the interest is not made when it is due, and the holder of the bond thereupon demands in writing that the city treasurer proceed to advertise and sell the lot or parcel of land as provided in this part, then the whole bond or its unpaid remainder, with its accrued interest, as expressed in the bond, shall become due and payable immediately and on the day following shall become delinquent.

Accelerated maturity

Notice of sale

4651. Upon such demand of the holder of any bond, the city treasurer shall publish twice in a newspaper of general circulation, to be designated by him, published in the city in which his office is situated, a notice which shall contain:

(b) A description of the property mentioned in the bond, and the name of the owner of such property if known. If the owner is unknown, the fact shall be so stated.

(c) The amount due thereon.

(d) A statement that unless the amount of the bond and the interest due thereon, together with the cost of publication of such notice are paid, the real property described in the bond will be sold at public auction on a day to be therein fixed, which day shall not be less than 15 nor more than 30 days from the day of the first publication of the notice.

(e) The place of the sale, which shall be the office of the city treasurer.

Notice by mail

Redemption

4653. At any time prior to the sale, the owner or person in possession of any real estate offered for sale under this part may pay the whole amount of the bond then due, with costs, and the bond shall thereupon be canceled. If such payment is not made by the owner or person in possession, or by someone in behalf of the owner or person in possession, the property subject thereto shall be sold at public auction to the bidder offering to pay the amount due on the bond with costs for the least portion of the lot or parcel of land offered for sale.

Affidavit of publication

4654. Before the day of sale the city treasurer shall file with the city clerk a copy of the publication of the notice of sale, with an affidavit of publication, attached thereto, certifying that it is a true copy of the publication; that the publication was made in a newspaper, stating its name and place

of publication and the date of each appearance in which such publication was made. Such affidavit is prima facie evidence of all the facts stated therein.

Costs

4655. The city treasurer shall collect, in addition to the amount due on such bond, the cost of the publication of such notice, and fifty cents ($0.50) for the certificate of sale delivered to the purchaser.

Record of sale

4656. Before delivering any certificate of sale the city treasurer shall, in a book kept in his office for that purpose, enter the date, number and series of the bond, a description of the land sold corresponding with the description in the certificate, the date of sale, purchaser's name, the amount paid, regularly number the descriptions on the margin of the book, and put a corresponding number on each certificate. He shall enter on the record of the bond the words "canceled by sale of the property," giving the date of such sale.

Such book shall be open to public inspection during office hours when not in actual use.

Purchaser's lien

4657. Immediately on the sale, the purchaser shall become vested with a lien on the property so sold to him, to the extent of his bid, and is only divested of such lien by the payment to the city treasurer of the purchase money, including the costs provided for in this part, with interest thereon at the rate of 1 per cent per month from the date of sale.

Certificate of sale

4658. The city treasurer shall issue for each sale an original and a duplicate certificate of sale reciting therein the date, number and series of the bond under which the sale was made, describing the land sold and giving the date of sale, purchaser's name, amount paid, and the number of the certificate. He shall deliver the original certificate to the purchaser and shall record the duplicate in the office of the recorder of the county in which the land sold is situated.

Recording sale and redemption

4659. The recorder shall collect a fee of fifty cents ($0.50) for such recording, and on presentation of the receipt of the city treasurer for the total amount of the redemption money he shall without charge mark the word "redeemed," the date, and by whom redeemed, on the margin of the book where the entry of such certificate is made.

CHAPTER 9. REDEMPTION AND DEED TO PURCHASER

Time and manner of redemption

4670. A redemption of the property sold may be made by the owner of the property, or any party in interest, within 12 months from the date of purchase, or at any time prior to the application for a deed. Redemption shall be made in lawful money of the United States, and when made to the city

treasurer he shall credit the amount paid to the person named in his certificate, and pay it on demand to him or his assignees.

Deed to purchaser

Form and fees for deed

4672. The deed shall recite substantially the matter contained in the certificate and that no person has redeemed the property during the time allowed for its redemption. The treasurer shall be entitled to receive from the purchaser two dollars ($2) for making the deed, the balance of which amount shall be deposited in the city treasury for the use of the city after payment has been made therefrom for the acknowledgment of the deed.

Notice of intention to apply for deed

4673. The purchaser of the property or his assignee or agent shall, 30 days prior to the expiration of the time of the redemption, or 30 days before his application for a deed, serve upon the owner or agent of the property purchased, if named in the certificate of sale, and upon the party occupying the property, if the property is occupied, a written notice, stating that the property or a portion thereof has been sold to satisfy the bond lien, the date of sale, the date, number, and series of the bond, the amount then due, and the time when the right of redemption will expire, or when the purchaser will apply for a deed. The owner of the property shall have the right of redemption indefinitely, until such notice is given and the deed applied for, upon the payment of the fees, penalties, and costs in this part required.

Posting notice

4674. In case of unoccupied property, a similar notice shall be posted in a conspicuous place upon the property at least 30 days before the purchaser applies for a deed.

Affidavit re notice

4675. No deed to the property sold shall be issued by the city treasurer to the purchaser of such property, until such purchaser has filed with the treasurer an affidavit showing that the notice required to be given has been given as required in this chapter. This affidavit shall be filed and preserved by the treasurer in the same manner as other records kept by him in his office.

Notice costs

4676. The purchaser shall be entitled to receive the sum of fifty cents ($0.50) for his service of such notice and the making of such affidavit, which sum of fifty cents ($0.50) shall be paid by the redemptioner at the time and in the same manner as the other sums, costs and fees are paid.

Effect of deed

4677. The deed, when duly acknowledged or proved, shall be conclusive evidence of all things of which the bond upon

which it is based is conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issue of the bond, and conveys to the grantee the absolute title to the lands described therein, free of all encumbrances, except the lien for State, county, and municipal taxes.

Work projects

5135. As an alternative procedure for the doing of work authorized by this division, the legislative body may pass a resolution of intention to do such work containing a provision that the work shall be done if any local, State or National agency or authority accepts the proposed work as a project for which a contribution of labor, or labor and any portion of materials, supplies or equipment will be made by such agency or authority. Under such alternative procedure the work to be done by the contractor shall consist of furnishing any or all of the materials, supplies or equipment necessary for the construction of the improvement. When this alternative procedure is adopted, the resolution of intention shall so state and shall recite what contribution is to be made and by whom. The resolution of intention shall also state what work shall be done by the contractor. In all other particulars, the resolution of intention shall be the same as any resolution of intention adopted pursuant to this chapter.

CHAPTER 4. ESTABLISHMENT OF GRADE FOR WORK

Alternative provisions

5150. The provisions of this chapter relating to grades are alternative provisions and shall not repeal any other provisions of this division or of this code relating to change of grade.

Official grade established by counties

5150.5. If a county is conducting the proceedings under this division, the legislative body may, by resolution, establish the official grade of any street, boulevard, park or place which is to be improved and for which no official grade has previously been established by ordinance or resolution, and the words "official grade" when used in this division in relation to a county and except where the official grade is established, changed or modified under the proceedings provided in Part 4 of this division shall mean the grade so established by resolution of the legislative body of the county.

Grade for work

5151. The grade to which any work shall be done shall be that which is shown on the plans or profiles therefor or it may be done on the grade formally established by the legislative body. If any official grade has already been adopted or established for any of the streets, avenues, or other places or property proposed to be improved, it shall be lawful for the resolution of intention to provide that said work shall be done to new grades or grades different from those so established or adopted, and shall refer to plans, profiles or specifications for the description of the grade at which the work is to be done.

Objection to change of grade

5152. Any property owner whose property is to be assessed to pay the costs and expenses of the proposed work may at the time fixed in the resolution of intention for hearing of objections to the proposed work, appear before the legislative body

and make objection to the proposed grade or proposed modification of grade. A failure to make objection at that time shall be deemed to be a waiver of all objections to the proposed grade or proposed change or modification of grade and shall operate as a bar to any claim for damages or any subsequent action looking to the prevention of the work or the recovery of damages on account of the performance of the work to such grade or changed grade.

CHAPTER 5. WORK AFFECTING DISTRIBUTION OF DOMESTIC WATER SUPPLY BY PUBLIC AGENCIES

Special proceedings

5170. If the work proposed to be done includes the laying of conduits, pipes, hydrants, or any appliance for the supplying or distributing of a domestic water supply, and the distribution of such domestic water supply in the territory in which the work is contemplated is under the management and control of a municipal water district, a municipal utility district, a public utility district, a metropolitan water district, or any public agency other than the city ordering the work done, the conduits, pipes, hydrants, or other appurtenances for supplying or distributing such domestic water supply shall be installed under the proceedings specified in this chapter, which must be taken prior to the adoption of the resolution of intention.

Plans and specifications

5171. Before requiring the plans, specifications and estimates provided for in Section 5130 the legislative body shall pass a resolution requesting the public agency having charge of the supplying and distribution of the domestic water supply in the district about to be improved to furnish to the legislative body plans and specifications for adequate and appropriate conduits, pipes, hydrants and other appurtenances necessary for that purpose. It shall be the duty of such public agency to furnish the plans and specifications so required, and the plans and specifications shall be submitted to the legislative body for its approval.

Adoption of plans and specifications

5172 The legislative body may adopt the plans and specifications furnished to it, but may not modify or change the same except with the consent of the public agency furnishing the plans and specifications. If no agreement can be reached the conduits, pipes and other appurtenances for supplying the water shall be omitted from the contemplated improvement. If the plans and specifications are adopted by the legislative body the engineer shall incorporate the plans and specifications in the plans and specifications furnished by him to the legislative body pursuant to Section 5130, and the plans and specifications shall thereupon be deemed incorporated in the plans and specifications for doing the work.

Inspection

5173. The public agency which supplies the plans and specifications may at all times maintain an inspector over the work to see that the plans and specifications which it has furnished have been complied with, and the cost of such inspection shall form a part of the incidental expenses of the work and be incorporated in the assessment as a part thereof.

Disposition of completed work

5174. After the work has been completed and accepted, the pipes, conduits, and other appliances for supplying or distributing water so installed shall constitute a part of the system of the public agency supplying the water, and shall at all times thereafter be used, operated, maintained, and managed by it as a part of such system.

CHAPTER 6. CREATING ASSESSMENT DISTRICTS

When district may be created

5180. If in the opinion of the legislative body the contemplated work is of more than local or ordinary public benefit, or if, according to the estimate furnished by the engineer, the total estimated costs and expenses thereof will exceed one-half the total assessed value of the lots or lands fronting upon the proposed work, if such lots or lands are assessed according to the valuation fixed by the last assessment roll whereon it was assessed for taxes for city purposes, and after allowing a reasonable depth from such frontage for lots or lands assessed in bulk, the legislative body may make the expense of such work chargeable upon a district, which the legislative body shall, in its resolution of intention, declare to be the district benefited by the work, and to be assessed to pay the cost and expense thereof.

Description

5181. The district may be described by:

(a) Stating its exterior boundaries.

(b) Giving a description thereof according to any official or recorded map.

(c) Referring to a plat or map on file in the office of the clerk or engineer at the time of passing the resolution of intention, which shall indicate by a boundary line the extent of the territory included in the proposed district, and shall govern for all details as to the extent of the assessment district.

Description by reference

5182. The assessment district need not be described in any of the notices, resolutions, orders or determinations provided for in this division, other than the resolution of intention. It shall be sufficient to refer to the resolution of intention for a description of the district.

CHAPTER 7. NOTICE OF IMPROVEMENT

Notice

Where posted

5190. After the adoption of the resolution of intention, the street superintendent shall cause to be conspicuously posted along the line of the contemplated work, at not more than 300

feet in distance apart, but not less than three in all, or when the work to be done is only upon an entire crossing or intersection or any part thereof, in front of each quarter block or irregular block liable to be assessed, notices of the passage of the resolution.

Same

5191. If the work is chargeable upon a district, copies of the notice shall also be posted on all the open streets within the district at not more than 300 feet in distance apart on each street so posted, but no proceeding shall ever be held invalid for failure to post any street if this section has been substantially complied with.

Time for

5192. In every case all posting must be fully completed at least 10 days before the day set for hearing protests or objections.

Form of

5193. The notices shall be headed "Notice of Improvement" in letters of not less than one inch in height; and shall in legible characters state the fact of the passage of the resolution of intention, its date, and briefly, the work proposed, an estimate of the total cost of the proposed work, the amount of any contribution of work or labor and any portion of materials, supplies or equipment which is to be made by any local, State or National agency or authority, and refer to the resolution of intention for further particulars. The notices shall contain also a statement of the day, hour and place when and where any and all persons having any objections to the proposed work may appear before the legislative body and show cause why the proposed work should not be carried out in accordance with the resolution.

Notice by mail

5194. The legislative body shall direct the clerk to and he shall give notice by mail of the adoption of the resolution of intention.

Contents

5195. The notice shall contain a statement of the time, place and purpose of the hearing on the resolution of intention and a statement of the total estimated cost of the proposed improvement, the amount of any contribution of work or labor and any portion of materials, supplies or equipment which is to be made by any local, State or National agency or authority, together with a statement that any person interested may file a protest as provided in this division.

Notice to owners of railway tracks

5196. If the doing of the work requires a change of grade of any railroad track or tracks, the legislative body shall direct the clerk to mail to the owner or reputed owner or operator or reputed operator thereof, at its last known address as the same appears on the tax rolls of the city, the legislative body of which is conducting the proceeding, or when no address so appears then to such owner or operator in care of general

delivery in such city and to the California Railroad Commission, printed copies of the resolution of intention within five days after the first publication thereof. Failure to mail said copies or failure of any such owner or operator to receive the same or any erroneous address thereon shall not affect the jurisdiction of the legislative body, but in such event the failure of the owner or operator of such tracks to make objection to the proposed grades shall not be deemed to be a waiver of all objections to the proposed grades or proposed change or modification of grade, nor operate as a bar to any claim for damages, if recoverable damages there be.

CHAPTER 8. PROTEST AND HEARING

Protests

5220. At any time not later than the hour set for hearing objections to the proposed work, any owner of property liable to be assessed for the work may make written protest against the proposed work or against the extent of the district to be assessed, or both. Such protest must be in writing and must contain a description of the property in which each signer thereof is interested, sufficient to identify the same, and be delivered to the clerk, and no other protests or objections shall be considered.

Hearing

5221. At the time set for hearing protests the legislative body shall proceed to hear and pass upon all protests so made as required by Section 5220 and its decision shall be final and conclusive. The legislative body may adjourn the hearings from time to time.

Majority protest

5222. If the protest is against the proposed work, and the cost thereof is to be assessed upon the property fronting thereon, and the legislative body finds that the protest is made by the owners of a majority of the property fronting on the proposed work, or if the protest is against the proposed work, and the cost thereof is to be assessed upon the property within a district, and the legislative body finds that the protest is made by the owners of more than one-half of the area of the property to be assessed for the improvements, no further proceedings shall be taken for a period of six months from the date of the decision of the legislative body on the hearing, unless the protests are overruled by an affirmative vote of four-fifths of the members of the legislative body.

Changes in work or district

5223. Unless because of a majority protest the power to proceed shall have ceased, the legislative body may, at the conclusion of the hearing, by resolution entered upon its minutes, make such changes in the boundaries of the proposed assessment district or changes in the work proposed to be done as it shall find to be proper and advisable, and shall define and establish such boundaries and the work proposed to be done.

However, the legislative body shall not modify the boundaries to include any territory which will not, in its judgment, be benefited by the work.

Notice

5224. The legislative body shall not modify the boundaries or change the work proposed to be done except after notice of its intention so to do. The notice shall be given by one insertion in the newspaper in which the resolution of intention was published and shall describe the proposed modification and specify the time for hearing objections to such modification, which time shall be at least 10 days after the publication of the notice. Written objections to the proposed modification may be filed with the clerk by any interested person at or before the time set for the hearing. The legislative body shall hear and pass upon such objections at the time appointed, or at any time to which the hearing thereof may be adjourned, and its decision thereon shall be final and conclusive.

Objections

Hearing

Jurisdiction to proceed

5225. If no protests or objections in writing have been delivered to the clerk up to the hour set for the hearing thereon or if protests have been found by the legislative body to be insufficient, or have been overruled, or if protests against the extent of the proposed district have been heard and denied, or if modification of the proposed district or proposed work has been made and all objections or protests thereto have been heard and denied, immediately thereupon the legislative body shall acquire jurisdiction to order the proposed work to be done.

CHAPTER 9. AWARD OF CONTRACT

Resolution ordering work

5240. Before the legislative body awards any contract for doing any work or for furnishing materials, supplies and equipment or any portion thereof, authorized by this division, the legislative body shall pass a resolution ordering the work.

Notice inviting bids

5241. Notice shall be posted inviting sealed proposals or bids for doing the work ordered, or for furnishing materials, supplies and equipment or any portion thereof. Notice inviting such proposals, and referring to the specifications on file, shall be published, but if there is no newspaper published in the city, then it shall only be posted. The time fixed for the opening of the bids shall be not less than 10 days from the time of the first publication or posting of the notice.

Security for bid

5242. All proposals or bids offered shall be accompanied by a certified check payable to the city, for an amount which shall not be less than 10 per cent of the aggregate of the proposal, or by a bond for that amount and so payable, signed by the bidder and two sureties, who shall justify, before any officer competent to administer an oath, in double that amount, and over and above all statutory exemptions.

Opening bids

5243. The proposals or bids shall be delivered to the clerk and the legislative body shall, in open session publicly open, examine and declare the same. No proposal or bid shall be considered unless accompanied by the check or bond satisfactory to the legislative body.

Rejections

5244. The legislative body may reject any and all proposals or bids should it deem this for the public good, and also the bid of any party who has been delinquent or unfaithful in any former contract with the city, and shall reject all proposals or bids other than the lowest regular proposal or bid of any responsible bidder, and may award the contract for said work or improvement to the lowest responsible bidder at the prices named in his bid. If the bids are rejected the legislative body shall thereupon return to each bidder the check or bond which accompanied his bid.

Readvertising for bids

5245. If the bids are rejected or no bids are received the legislative body may within six months thereafter readvertise for proposals or bids for the performance of the work as in the first instance, without further proceedings, and thereafter proceed in the manner provided in this chapter.

Disposal of successful bidder's security

5246. The check or bond accompanying any proposal or bid which is accepted shall be held by the clerk until the contract for doing the work has been entered into, either by the lowest bidder or by the owners of three-fourths part of the frontage, whereupon the certified check or bond shall be returned to the bidder. If the bidder fails, neglects or refuses to enter into the contract to perform the work, the certified check accompanying his bid and the amount therein mentioned, shall be declared to be forfeited to the city and shall be collected by it and paid into the general fund, and any bond forfeited may be prosecuted, and the amount due thereon collected and paid into the general fund.

Bids for materials, etc., only

5247. If any local, State or National agency or authority contributes the labor, or labor and any portion of the materials, supplies or equipment necessary for the construction of any improvement authorized under this division, the contract shall be for only those items which are not contributed by any such agency or authority. If proposals or bids are invited only for the furnishing of materials, supplies and equipment or any portion thereof not furnished by such agency or authority, the notice shall contain a statement to the effect that the legislative body may cancel the order for any undelivered materials, supplies or equipment by giving the successful bidder 24 hours notice of the cancellation, in which event the successful bidder will be entitled to compensation for only so much of the material, supplies and equipment as has been used prior to the giving of such notice of cancellation at the

Cancellation of orders

prescribed unit rates stated in the contract, and that the contractor shall agree to accept the return of any and all materials and supplies not used prior to the giving of such notice.

Notice of award

5248. Notice of the award of the contract shall be published by the clerk.

Performance of work by owners

5249. The owners of three-fourths of the frontage of lots and lands liable to be assessed, or their agents (who shall make oath that they are such owners or agents) shall not be required to present sealed proposals or bids, but may within 10 days after the first publication, or first posting if there is no publication, of the notice of the award of the contract, elect to take the work and enter into a written contract to do the whole work at the price at which the same has been awarded, and all work done under such contract shall be subject to such regulations as may be prescribed by ordinance of the legislative body.

Execution of contract

5250. If the owners fail to elect to take the work, and to enter into a written contract therefor within 10 days, or to commence the work within 15 days after the date of the written contract, and to prosecute the same with diligence to completion, the superintendent of streets shall enter into a contract with the original bidder to whom the contract was awarded, and at the prices specified in his bid.

Failure to enter into contract

Readvertisement

5251. If the original bidder neglects, fails or refuses, for 25 days after the first publication of the notice of the award of the contract, to enter into the contract, the legislative body, without further proceedings, shall again advertise for and receive proposals or bids, as in the first instance, and award the contract for the work to the then lowest regular bidder.

Same

5252. If no bids are received in response to this second call for bids, the legislative body may again advertise for and receive bids under the same proceedings at any time within six months from the time set for the first reception of bids, and let the contract to the then lowest bidder, and such delay shall in no way affect the validity of any of the proceedings or assessments levied thereunder.

Rejection of bids

5253. The bids of all persons and the election of all owners who have previously failed to enter into the contract shall be rejected in any bidding or election subsequent to the first for the same work.

Contractor's bond

5254. All contractors, contracting owners included, shall, at the time of executing any contract for street work, execute a bond to the satisfaction and approval of the superintendent of streets, with two or more sureties and payable to the city,

in a sum not less than 25 per cent of the amount of the contract, conditioned upon the faithful performance of the contract; and the sureties shall justify before any person competent to administer an oath, in double the amount mentioned in the bond, over and above all statutory exemptions.

Uncompleted contracts

5255. If the owner or contractor who may have taken any contract does not complete the work within the time limited in the contract, or within such further time as the legislative body may give him, the superintendent of streets shall report such delinquency to the legislative body which may relet the unfinished portion of the work, after following the procedure prescribed for letting the contract for the whole work in the first instance.

Advance of expenses

5256. Before being entitled to a contract, the bidder to whom the award was made, or the owners who have elected to take the contract, must advance to the superintendent of streets, for payment by him, the cost of publication of the notices, resolutions, orders and matters required under the proceedings prescribed in this division, and of such other notices as may be deemed requisite by the legislative body, together with all other incidental expenses incurred up to the time of entering into the contract.

Payment of expenses on abandonment

5257. If the work is abandoned by the city before work is actually started or before any materials, supplies or equipment have been furnished or used, the incidental expenses incurred previous to such abandonment shall be paid out of the city treasury, but such expense for which the city is liable and which shall have been paid by it may be charged as incidental expenses against the district benefited in any new proceeding had or taken for any work which includes substantially the same work as that which was included in the abandoned proceedings.

Notice of irregularities

5258. At any time within 10 days from the date of the first publication of the notice of award of the contract, any owner of, or other persons having any interest in, any lot or land liable to assessment, who claims that any of the previous acts or proceedings relating to the work are irregular, defective, erroneous or faulty, may file with the clerk a written notice specifying in what respect the said acts and proceedings are irregular, defective, erroneous or faulty. The notice shall state that it is made pursuant to this section.

Waiver of objections

5259. All objections to any act or proceeding occurring prior to the time within which such objections are permitted to be filed in relation to the work, not made in writing and in the manner and at the time specified, shall be waived, if the resolution of intention to do the work has been actually published, as provided in this division.

CHAPTER 10. DETERMINING VALIDITY OF PROCEEDINGS BEFORE WORK IS COMMENCED

Court action by legislative body

5265. At any time after bids have been received and prior to the date fixed for the beginning of work, the legislative body conducting the proceedings may bring an action in the superior court of the county in which it is situated to determine the validity of such proceedings and the validity of any contract entered or to be entered into pursuant thereto.

Court action by contractor

5266. Any contractor to whom a contract has been awarded may, if he believes that the proceedings are in any respect defective, erroneous or faulty and that a contract entered into pursuant thereto might be invalid, bring such an action to determine the validity of such proceedings, and of such contract.

Proceedings in rem

5267. Such an action shall be in the nature of a proceeding in rem, and jurisdiction of all parties interested may be had by publication of summons for at least once a week for three weeks in some newspaper of general circulation published in the county where the action is pending, such paper to be designated by the court having jurisdiction of the action. The summons shall contain a general description of the boundaries of the assessment district. Jurisdiction shall be complete within 10 days after the full publication of such summons in the manner herein provided.

Appearance

5268. Anyone interested may, at any time before the expiration of said 10 days, appear and by proper proceedings contest the validity of such proceedings and contract or uphold the same.

Service on legislative body

5269. If the contractor brings the action the summons shall be served upon the legislative body and upon the superintendent of streets personally, and they shall have the right to appear and contest the validity of the proceedings and contract, or uphold the same.

Trial

Appeal

5270. The action shall be speedily tried and judgment rendered declaring the matter so contested either valid or invalid. Either party shall have the right to appeal to the Supreme Court at any time within 30 days after the rendition of such judgment, which appeal must be heard and determined within three months from the time of taking such appeal. The motion for a new trial of any such action must be heard and determined within 10 days from the filing of the notice of intention to move for a new trial.

Immaterial defects

5271. The court hearing the action, in inquiring into the regularity, legality or correctness of the proceedings and of the contract made or proposed to be made, must disregard any

error, irregularity or omission which does not affect the substantial rights of the parties to said action or proceeding.

Pleading and practice

5272. All rules of pleadings and practice provided by the Code of Civil Procedure which are not inconsistent with the provisions of this division are applicable to the actions authorized by this chapter. All costs of such actions may be allowed and apportioned between the parties or taxed to the losing party in the discretion of the court.

Determination of validity of proceedings

5273. If the validity of the proceedings and of the contract or proposed contract is sustained, the validity of such proceedings or contract shall not thereafter be contested in any action, suit or proceeding, and the judgment entered in the action herein provided for shall be conclusive evidence of the validity of such contract and of all proceedings prior thereto. In such action, all findings, conclusions and determinations of the legislative body which conducted the proceedings shall be conclusive in the absence of actual fraud.

Effect of action on the contract

5274. If an action is commenced under the provisions of this chapter to determine the validity of any contract or proposed contract, and the contract has not been signed, the contractor shall not be obligated to sign the same until a judgment sustaining the validity of the proceedings and the proposed contract has become final. If the contractor has signed and executed the contract, he shall not be obligated to begin work until a judgment sustaining the validity of the proceedings and contract has become final. If a judgment is entered holding the contract invalid, the contractor shall be discharged and relieved of all obligation under the contract, and he and his sureties shall be discharged and relieved of all obligation upon any bond required by law in connection with such contract.

CHAPTER 11. PERFORMANCE OF THE CONTRACT

Authority of superintendent of streets

5280. The superintendent of streets is hereby authorized in his official capacity to make all written contracts, and to receive all bonds authorized by this division and to do any other act, either expressly or impliedly required by this division, that pertains to the street department.

Same

5281. He shall fix the time for the commencement, which shall not be more than 15 days from the date of the contract, and for the completion of the work under each contract entered into by him. The work shall be prosecuted with diligence from day to day thereafter to completion.

Extensions of time

5282. He may extend the time fixed for completion of the work from time to time, under the direction of the legislative body. All applications for extensions of time, if in writing,

must be filed in the office of the clerk before the expiration of the original time fixed in the contract, or of the time granted by extension, as the case may be. An extension of time may be granted by the legislative body after the expiration of the time originally fixed in the contract or as previously extended, and the extension so granted shall be deemed to commence and be effective from the date of such expiration. Any extension of time shall not release the sureties upon any bond required under this division.

Superintendence of work

5283. The work shall, in all cases, be done under the direction and to the satisfaction of the superintendent of streets and the materials used shall comply with the specifications and be to the satisfaction of the superintendent of streets and all contracts made therefor shall contain a provision to that effect unless the legislative body by resolution adopted within 10 days after the passage of the resolution ordering the work directs that the work shall be done under the direction of the engineer and the materials used shall comply with the specifications and be to the satisfaction of the engineer, instead of the superintendent of streets, and in such case the contract shall contain a provision to that effect.

Engineer may sign assessment

5284. The legislative body also may by resolution adopted within 10 days after the passage of the resolution ordering the work provide and direct that the assessment thereafter to be made in the proceeding shall be made and signed by the engineer instead of by the superintendent of streets.

Liability of city and its officers

5285. The contract shall contain express notice that, in no case, except where it is otherwise provided by law or by charter will the city, or any officer thereof, be liable for any portion of the expense, nor for any delinquency of persons or property assessed.

General rules for performance of work

5286. The legislative body may, by ordinance, prescribe general rules directing the superintendent of streets or the engineer, as the case may be, and the contractor as to the materials to be used, and the mode of executing the work, under all contracts thereafter made. The assessment and apportionment of the expenses of all such work shall be made by the superintendent of streets or the engineer, as the case may be, in the mode provided by this division.

Federal requirements

5287. If any fiscal agent of the United States Government contributes any money or materials to be used in the construction of any work provided for in this division, the requirements of the agency contributing such money or materials may be incorporated in the contract.

Cancellation

5288. If a contribution of labor or of labor and any portion of materials, supplies or equipment is to be made by any

local, State or National agency or authority, the contract shall contain a provision that the legislative body may cancel the order for any undelivered materials, supplies or equipment by giving the contractor 24 hours notice of said cancellation, and require the contractor to accept the return of the unused materials and supplies, in which event the contractor will be entitled to compensation for only so much of the materials, supplies and equipment as has been used prior to the giving of such notice. The contract shall also contain a provision that no materials, supplies or equipment shall be delivered until a delivery permit signed by the superintendent of streets has been received by the contractor.

CHAPTER 12. BOND FOR LABOR AND MATERIAL

Bond 5290. Every contractor, to whom is awarded any contract for street work under this division, shall at the time of signing and executing the contract, file with the superintendent of streets a good and sufficient bond, approved by the street superintendent in a sum not less than one-half of the total amount payable by the terms of the contract.

Amount 5291. The bond shall be executed either by two or more good and sufficient sureties who have each qualified before an officer competent to administer an oath, in an amount not less than the sum specified in the bond and over and above all statutory exemptions, or by one or more duly authorized corporate sureties, and must provide that if the contractor, or his subcontractor fails to pay for any materials, provisions, provender, or other supplies or use of implements or machinery used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, that the sureties will pay the same, to an amount not exceeding the sum specified in the bond.

Conditions

Claims 5292. Any person furnishing materials, provisions, provender or other supplies used in, upon, for or about the performance of the work contracted to be executed or performed, or any person renting or hiring teams or implements, or machinery for, or contributing to, the work to be done, or any person who performs work or labor upon the same, or any person who supplies both work and materials and whose claim has not been paid by the contractor or by the subcontractors of the contractor may, at any time within 30 days from the date of the recordation of the assessment file with the superintendent of streets a verified statement of his claim, together with a statement that the same, or some part thereof, has not been paid.

Claimants' lien 5293. Each person whose claim has not been paid by the contractor or his subcontractors, shall have a first lien upon

and against the assessment, any partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, which lien may be enforced by action brought within three months after the date of the filing of the verified statement in the superior court of the county in which such work is done.

Priority of claims

5294. No assignment by the contractor of the whole or any part of the money, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, due him or to be due him under the contract, or for "extras" in connection therewith, whether made before or after a verified claim is filed pursuant to this chapter, shall take priority over such claims, and such assignment shall have no binding force in so far as the rights of the claimants, or their assigns, are concerned.

Bond for disputed claims

5295. If any contractor disputes the correctness or validity of any claim filed pursuant to this chapter, the city or superintendent of streets in its or his discretion may permit the contractor to deliver to the city or superintendent of streets a bond executed by some corporation authorized to issue surety bonds in a penal sum equal to one and one-fourth times the amount of the claim.

Conditions of bond

5296. The bond shall guarantee the payment of any sum which the claimant may recover on the claim together with his costs of suit in the action, if he shall recover therein. If a bond is filed with the consent of the city or superintendent of streets, the city or superintendent of streets shall not withhold any funds, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment from the contractor on account of the claim. The sureties upon the bond shall be jointly and severally liable to the claimant with the sureties upon the contractor's original faithful performance bond posted by the contractor.

Action on bond

5297. Suit against the sureties on the bond of the contractor filed pursuant to this chapter may be brought by any claimant, or his assigns, at any time after the claimant has ceased to perform labor or furnish materials or both and until the expiration of six months after the period in which verified claims may be filed. The filing of a verified claim shall not be a condition precedent to the maintenance of such action against the sureties on the bond and an action on the bond may be maintained separately from and without the filing of an action against the city or officer by whom the contract was awarded. Upon the trial of the action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs, and to be included in the judgment therein rendered.

CHAPTER 13. GENERAL PROVISIONS RELATING TO ASSESSMENTS

Assessment of railroad rights of way

5300. Whenever a railroad, street or interurban railroad right of way shall front on or abut or parallel or be included with or divide longitudinally any street improved under this division or shall be included within any district to be assessed for the cost of any work provided in this division, such railroad right of way (whether it is owned in fee or as an easement) shall be included in the warrant, assessment and diagram and shall be assessed in the same manner and with the same effect as other lots, lands or parcels of land are assessed, and such railroad, street or interurban railroad right of way shall be subject to sale for nonpayment of assessments as provided in this division.

Omission of public property

5301. If any lot or parcel of land belonging to the United States, or to the State, or to any county, city, public agent, mandatory of the government, school board, educational, penal or reform institution or institution for the feeble-minded or the insane, is in use in the performance of any public function, and fronts upon the proposed work, or is included within the district to be assessed to pay the costs and expenses thereof, the legislative body may, in the resolution of intention, declare that such lots or parcels of land, or any of them, shall be omitted from the assessment thereafter to be made to cover the costs and expenses of the work.

Effect of

5302. If any such lots or parcels of land are omitted from the assessment, the total expense of all work done shall be assessed on the remaining lots or parcels of land fronting on the work, or lying within the limits of the assessment district, without regard to such omitted lots or parcels of land.

City liable for certain assessments

5303. If the legislative body, in the resolution of intention, declares that any such lots or parcels of land owned and used as provided in Section 5301 shall be included in the assessment, or if no declaration is made respecting any such lots or parcels of land, then the city shall be liable for such sums as may thereafter be assessed against such lots or parcels of land. The assessment shall be payable by the city out of the general fund unless the legislative body shall in its resolution of intention designate another fund. Any sums which may be assessed against any such lots or parcels of land shall not be payable by the city when such sums are paid by the owner of or the governing body controlling such lots or parcels of land.

CHAPTER 14. FRONTAGE ASSESSMENTS

When made

5315. The expenses incurred for any work authorized by this division, excluding the cost of any work done in such portion of any street as is required by law to be kept in order or repair by any person having railroad tracks thereon, and

excluding the cost of any work which has been declared in the resolution of intention to be assessed on a district benefited, shall be assessed upon the lots and lands fronting thereon, except as otherwise in this division specifically provided.

Front foot rate

5316. Each lot or portion of a lot shall be separately assessed, in proportion to the frontage, at a rate per front foot sufficient to cover the total expense of the work.

Main street crossings

5317. The expense of work done on main street crossings shall be assessed at a uniform rate per front foot of the quarter blocks and irregular blocks adjoining and cornering upon the crossings, and separately upon the whole of each lot or portion of a lot having any frontage in the blocks fronting on such main streets, half way to the next main street crossing, or to the end of such street if it does not meet another, and all the way on such blocks to a boundary line of the city where no such crossing intervenes, but only according to its frontage in such quarter blocks and irregular blocks.

Same

5318. Where a main street terminates in another main street, the expenses of the work done to one-half of the width of the street opposite the termination shall be assessed upon the lots in each of the two quarter blocks adjoining and cornering on that side, according to the frontage of such lots on the main streets, and the expenses of the work on the other half of the width of the street when the work is sewering of the terminating street only, shall be assessed upon the lots fronting on the termination and the lots adjacent to said lots on each side half way from the termination to the next terminating or intersecting street, according to the frontage of such lots on that side, and in all other work done on the termination, the property fronting on the termination shall be considered frontage and be assessed accordingly.

Alley and subdivision streets

5319. Where any alley or subdivision street crosses a main street, the expenses of all work done on the crossing shall be assessed on all lots or portions of lots half way on said alley or subdivision street to the next crossing or intersection, or to the end of such alley or subdivision street, if it does not meet another.

Same

5320. The expense of work done on alley or subdivision street crossings shall be assessed upon the lots fronting upon such alley or subdivision streets on each side thereof, in all directions, half way to the next street or place on either side, respectively, or to the end of such alley or subdivision street if it does not meet another.

Same

5321. Where a subdivision street or place terminates in another street or place, the expense of work done on one-half of the width of the subdivision street or place opposite the

termination shall be assessed upon the lot or lots fronting on such subdivision street or place so terminating, according to its frontage thereon, half way, on each side respectively, to the next street or place, or to the end of such street or place, if it does not meet another. The expense of the work on the other half of the width if the work is sewering of the terminating subdivision street or place shall be assessed upon the lots fronting on the termination and the lots adjacent to said lots on each side half way from the termination to the next terminating or intersecting street, according to the frontage of such lots on that side. In all other work done on the termination the property fronting on the termination shall be considered frontage and be assessed accordingly.

Work on one-half of the street

5322. Where any work except manholes, sewers, cesspools, culverts, crosswalks, piling and capping is done on one side of the center line of any street, or sewering or resewering is ordered to be done under the sidewalk on only one side of any street for any length thereof, the assessment for the expenses thereof shall be made only upon the lots and lands fronting nearest upon that side of the street and for intervening intersections only upon the two quarter blocks adjoining and cornering upon that side.

Grading by owners

5323. The owners of lots or lands fronting upon any street, the width and grade of which have been established by the legislative body, may perform, at their own expense (after obtaining permission from the legislative body so to do, but before the legislative body has passed its resolution of intention to order grading inclusive of this), any grading upon the street, to its full width, or to the center line thereof, and to its grade as then established.

Grading certificate

5324. Such owners may then procure, at their own expense, a certificate from the engineer, setting forth the number of cubic yards of cutting and filling made by them in the grading, and the proportions performed by each owner, and that the same is done to the established width and grade of the street, or to the center line thereof. The certificate may be filed with the superintendent of streets, who shall record the same in a properly indexed book kept for that purpose in his office.

Assessment credits

5325. Whenever the legislative body orders the grading of any portion of the street on which any grading certified as provided in Section 5324 has been done, the bids and contracts must express the price by the cubic yard for cutting and filling in grading. The owners or their successors in interest shall be entitled to credit on the assessment upon their lots and lands fronting on the street for the grading thereof, to the amount of the cubic yards of cutting and filling set forth in their certificate, at the prices named in the contract for said cutting and filling; or, if the grade meanwhile has been duly

altered, only for so much of said certified work as would be required for grading to the altered grade. However, the owners shall not be entitled to any credit in excess of the assessments for grading upon the lots and lands owned by them and proportionately assessed for the whole of the grading.

Same

5326. The superintendent of streets shall include in the assessment for the whole of the grading upon the same grade the number of cubic yards of cutting and filling set forth in all of the certificates recorded in his office, or for the whole of the grading to the duly altered grade so much of the certified work as would be required for grading thereto, and shall enter corresponding credits, deducting the same as payments upon the amounts assessed against the lots and lands owned, respectively, by the certified owners or their successors in interest. However, he shall not include any grading quantities or credit any sums in excess of the proportionate assessments for the whole of the grading which are made upon any lots and lands fronting upon the street and belonging to such certified owners or their successors in interest.

Work other than grading by owner

5327. Whenever any owners of any lots and lands fronting on any street do any work except grading on the street, in front of any block, at their own expense and the legislative body subsequently orders any work to be done of the same class in front of the same block, the work so done at the expense of such owners shall be excepted from the order ordering the work to be done if the work so done at the expense of such owners is upon the official grade, and in condition satisfactory to the street superintentendent at the time the order is passed.

Chapter 15. District Assessments

Previous chapter inapplicable

5340. The provisions of Chapter 14 of this division shall not apply to assessments upon an assessment district.

Diagram

5341. Whenever the resolution of intention declares that the cost and expenses of the work are to be assessed upon a district, the engineer shall prior to completion of the contract make a diagram of the property affected or benefited by the proposed work, as described in the resolution of intention, which is to be assessed to pay the costs and expenses thereof.

Contents

5342. The diagram shall show each separate lot or parcel of land, and the dimensions of each such lot or parcel of land, and the relative location of the same to the work proposed to be done, all within the limits of the assessment district. When the diagram has been approved by the legislative body, the clerk shall certify the fact and date thereof.

Assessment according to benefits

5343. Immediately after approval the diagram shall be delivered to the superintendent of streets, who shall immediately, after the contractor has fulfilled his contract to the

satisfaction of the superintendent of streets or the legislative body, on appeal, proceed to estimate upon the lots or parcels of land within the assessment district, as shown by the diagram, the benefits arising from such work, and to be received by each such lot or parcel of land. He shall thereupon assess upon and against the lands in the assessment district the total amount of the costs and expenses of such work, and in so doing shall assess the total sum upon the several lots or parcels of land in the assessment district, benefited thereby, in proportion to the estimated benefits to be received by each of the said several lots or parcels of land.

Next chapter applicable

5344. In other respects the assessment shall be made in accordance with the provisions of Chapter 16.

CHAPTER 16. MAKING AND CONFIRMING THE ASSESSMENT

Assessment

5360. After the contractor has fulfilled his contract to the satisfaction of the street superintendent, or the engineer if such power has been delegated to him, the superintendent or engineer, as the case may be, shall forthwith make an assessment to cover the sum due for the work performed and specified in the contract, including all incidental expenses, in conformity with the provisions of this part according to the character of the work done.

Contents

5361. The assessment shall briefly refer to the contract, the work contracted for and performed, and shall show the amount to be paid therefor, together with all incidental expenses, the amount of each assessment against each lot or portion of a lot, the number of each lot or portion or portions of a lot so assessed, and shall have attached thereto a diagram exhibiting each street or street crossing, place, property or rights of way on which any work has been done, showing the relative location of each lot or portion of lot to the work done, numbered to correspond with the numbers of the assessments.

Notice of filing

5362. The assessment shall be filed with the clerk. The clerk shall give notice of the filing of the assessment and of a time to be therein fixed by the clerk when all persons interested in the work done or in the assessment will be heard by the legislative body. The notice shall be posted and in addition be published.

Mailing

5363. Such notice shall also be given by mail.

Contents of notice

5364. Such notice shall designate the property within the assessment district belonging to the owner by street number, or some other description sufficient to enable the property owner to identify the property and a statement of the amount proposed to be assessed against such property.

Same

5365. Reference shall be made in the notices required by this chapter to the resolution of intention and the date of its passage or a description of the work therein mentioned and no other description thereof shall be necessary.

Appeal

5366. The owners, the contractor, or his assigns, and all other persons interested in any work done under this division, or in the assessment, feeling aggrieved by any act or determination of the superintendent of streets or engineer in relation thereto, or who claim that the work has not been performed according to the contract in a good and substantial manner or who claim that any portion of the work for any reason was omitted or illegally included in the contract or having or making any objection to the correctness of the assessment or diagram or other act, determination or proceedings of the superintendent of streets or engineer, shall prior to the day fixed for the hearing upon the assessment appeal to the legislative body by briefly stating in writing the grounds of appeal.

Correction of error

5367. Upon such appeal, the legislative body may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the street superintendent or engineer relative to said work; may confirm, amend, alter, modify or correct the assessment or diagram in such manner as to it shall seem just, and require the work to be completed according to the directions of the legislative body; and may instruct and direct the street superintendent to correct the warrant, assessment, or diagram in any particular.

Decisions final

5368. All the decisions and determinations of the legislative body, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appeal to the legislative body, as to all errors, informalities, and irregularities which the legislative body might have avoided, or have remedied during the progress of the proceedings or which it can at that time remedy.

Errors

5369. No assessment, warrant, or diagram, and no proceedings prior to the assessment, shall be held invalid by any court for any error, informality, or other defect in the same, where the resolution of intention of the legislative body to do the work, has been actually published as provided in this division.

Confirmation of proceedings

When no appeal is taken or when the orders and determinations of the legislative body upon appeal have been complied with, and the legislative body is satisfied with the correctness of the assessment, the legislative body shall forthwith confirm the proceedings and the assessment and the street superintendent shall attach thereto a warrant bearing the date of such confirmation.

Contribution

5370. Whenever the resolution of intention declares that a contribution of labor or of labor and any portion of materials, supplies or equipment for the proposed work will be made by any local, State or National agency or authority, an assessment shall be made to cover the sum due for furnishing the materials, supplies or equipment as specified in the contract including all incidental expenses. In all other particulars the assessment shall be made in conformity with this part relating to district assessments. However, if all of the work described in the resolution of intention is not completed because the agency or authority ceases to furnish the labor provided for in the resolution of intention, for a period of 90 days, the street superintendent shall notify the legislative body of such cessation in writing. The legislative body may by resolution declare the contract terminated and order the superintendent of streets to make the assessment to cover the portions of work completed and incidental expenses incurred, in accordance with the benefits to be received by each of the several lots or parcels of land in the district, pursuant to the provisions of this part relating to district assessments.

Failure to complete

Warrant

5371. To the assessment shall be attached a warrant, which shall be signed by the superintendent of streets, and countersigned by the mayor. The warrant shall be substantially in the following form:

Form

By virtue hereof, I (name of the superintendent of streets), of the City of _____, County of _____ (or County or City and County of _____), State of California, by virtue of the authority vested in me as said superintendent of streets, do authorize and empower (name of contractor) (his or their) agents or assigns, to demand and receive, the several assessments upon the assessment and diagram hereto attached and this shall be (his or their) warrant for the same.

Date: _____

_____

(Name of superintendent of streets.)

Countersigned by (name of mayor).

Recordation

5372. The warrant, diagram and assessment shall be recorded in the office of the superintendent of streets. When so recorded the several amounts assessed shall be a lien upon the lands, lots, or portion of lots assessed, respectively, and such lien shall so continue until it and any bonds issued to represent the assessment are discharged of record.

Lien priorities

5373. The lien, whether bonds issue to represent the assessment or otherwise, shall be subordinate to all special assessment liens previously imposed upon the same property, but it shall have priority over all special assessment liens which may thereafter be created against the property; and from and after the date of the recording of any warrant, assessment

and diagram, all persons shall be deemed to have notice of the contents thereof.

Delivery to contractor

5374. After the warrant, assessment and diagram are recorded, the same shall be delivered to the contractor, or his agent, or assigns, on demand, but not until after the payment to the superintendent of streets of the incidental expenses not previously paid by the contractor, his agent or his assigns.

CHAPTER 17. DEMANDING PAYMENT OF THE ASSESSMENT

Collection

5390. The warrant, after its delivery to the contractor or his assigns, shall be and constitute full authority to the contractor, his agents or assigns, to collect the assessments and they shall be free to make demands upon the owners by virtue of the warrant and to demand and receive payment of the same, and give receipt therefor. They shall not receive any payments on the assessment without delivering receipts therefor and the contractor, his agents or assigns, immediately shall report all payments to the street superintendent. The street superintendent shall file all reports of payments by attaching the same in the assessment book immediately following the record of the assessment, and shall mark upon the assessment the date and fact of payment. The street superintendent also shall, upon presentation of the receipt, mark upon the assessment the date and fact of payment.

Return of warrant

5391. The warrant shall be returned to the superintendent of streets on or after 30 days after the date of the recording of the same, with the written statement of all payments received upon the assessment, signed by the contractor or his assigns. Thereupon, the superintendent of streets shall file the statement so made with the record of the warrant and assessment by attaching it in the assessment book immediately following the record of the assessment. Upon such filing, the warrant shall be redelivered to the contractor or his assigns.

Time of payment

5392. The superintendent of streets is authorized at any time to receive the amount due upon any assessment and warrant issued by him and to give a good and sufficient discharge therefor if a bond was not issued to represent the assessment.

Notice of suit on assessment

5393. When suit has been brought to collect the amount due upon any assessment, the plaintiff shall file with the superintendent of streets a written notice of the pendency of the action showing the particular assessments affected by the action. After the filing of the notice, the superintendent of streets shall not receive any money on account of the assessment, and he shall have no authority to cancel the assessment or give any discharge thereof without the written consent of the owner of the assessment until judgment has been rendered in the action or the same has been dismissed and the street

superintendent shall omit from the list of properties provided to be sent to the tax collector, any property upon which the assessment described in the notice is a lien.

Duplicate warrant

5394. If any warrant is lost, upon proof of such loss a duplicate can be issued upon which collections may be made with the same effect as on the original.

Interest

5395. After the filing of the contractor's written statement of payments, all amounts remaining due on any assessment shall draw interest at the rate of 1 per cent per month until paid, the interest to be computed from the date of the filing of the contractor's statement.

Collection by street superintendent

5396. Notwithstanding any other provisions of this division, the legislative body may, by ordinance, provide that all payments made upon any assessment and warrant within 30 days from the recordation thereof, shall be made to the superintendent of streets, who shall mail a statement to each owner of real property within the assessment district whose name appears on the last equalized assessment roll, at the address appearing on said roll or on file in the office of the clerk, or to both such addresses, if they are not the same. The statement shall contain a designation of the property assessed by street number, or some other description sufficient to enable the property owner to identify the property, statement of the amount of the assessment, and the time and place of payment, the effect of failure to pay within such time and that, if bonds are to be issued, a statement of that fact, designating the provisions of law pursuant to which such bonds are to be issued.

Bond

5397. If the superintendent of streets is authorized by ordinance to collect the assessments, the ordinance shall also provide that the superintendent of streets shall furnish to the contractor or his assigns a good and sufficient surety bond conditioned upon the full and prompt payment by the superintendent of streets to the contractor or his assigns of all assessments so collected by him. The bond shall be in an amount not less than 10 per cent of the total amount of the assessment shown on the assessment roll if such total amount does not exceed two hundred fifty thousand dollars ($250,000) and shall be in the amount of twenty-five thousand dollars ($25,000) if the total amount of the assessments shown on the assessment roll exceeds the sum of two hundred fifty thousand dollars ($250,000). The premium on the bond shall be payable as a part of the incidental expenses of the proceeding.

List of delinquencies

See also Stats 1941, p 1963

5398. On or before the fourth Monday of September of each year the superintendent of streets shall certify to the tax collector who collects the taxes for the city a list of the

properties within the city upon which there is a lien for delinquent assessments, as shown by the records of the street superintendent.

Tax bill notice

5399. The tax collector shall cause to be pasted or attached to or printed or stamped upon the tax bill or tax receipt, a notice which shall in substance be as follows:

"Notice of Assessment."

"There is an assessment lien on this property which must be paid to city street superintendent (or bureau of assessments in cities where such bureau exists) to avoid foreclosure."

Preparation

5400. If the tax collector is a county officer, he may require the notice to be pasted to or printed or stamped upon the tax bill to be prepared by the superintendent of streets and forwarded to the county tax collector on or before the fourth Monday in September.

CHAPTER 18. COLLECTING THE ASSESSMENT BY ACTION

Applicable to cash assessments only

5410. The provisions of this chapter shall not be applicable to assessments represented by the issuance of bonds nor to assessments collected on the tax rolls but shall be applicable only to other cash assessments levied pursuant to this division.

Action on assessment

5411. At any time after the first day of July next succeeding nine months following the date of recording the assessment, the contractor or his assignee may sue in his own name the owner of the land, lots or portions of lots assessed on the day of the date of the recording of the warrant, assessment and diagram, and recover the amount of any assessment remaining unpaid together with interest and any penalties allowed under this chapter. If any State, county or municipal taxes or any other special assessment is delinquent on the property the action may be brought at any time after 90 days after the recording of the assessment.

Attorney's fees

5412. When an action has been brought for the recovery of any assessments, the plaintiff shall be entitled to have and recover attorney fees on each assessment sued on. If the action is settled or a tender made prior to the trial of the action, or if judgment is taken on default, the attorney's fees shall be five dollars ($5) plus one dollar ($1) additional for each lot or parcel of land included in one action. If the action proceeds to trial the court having jurisdiction of the cause shall fix and allow a reasonable attorney fee, which shall not exceed fifteen dollars ($15) plus one dollar ($1) additional for each lot or parcel of land included in one

action. The attorney's fee in either case shall be in addition to all taxable costs and the plaintiff may have judgment therefor.

Unnecessary actions

5413. If the court finds an unnecessary number of actions have been brought, where the parties are identical, it may allow the costs of one action only.

Jurisdiction

5414. An action for the recovery of any assessment may be brought in the superior court within whose jurisdiction the city is, in which the work has been done. If any of the assessments are made against lots, portions of lots, or lands, the service of process in the action may be made in the manner prescribed by law. A single action may be brought under any assessment irrespective of the number of lots assessed where the parties defendant are identical. If separate actions are brought, they may be consolidated by order of the court.

Proof

5415. The warrant, assessment and diagram, with proof of nonpayment shall be prima facie evidence of the regularity and correctness of the assessment and of the prior proceedings and acts of the superintendent of streets, and the legislative body upon which the warrant, assessment and diagram are based, and prima facie evidence of the right of the plaintiff to recover in the action.

Costs for title search

5416. The plaintiff in such action may recover the cost of any abstract or report of search of title procured in good faith in order to determine ownership. The search shall be made by a reputable abstractor or title company and the cost shall not exceed five dollars ($5) per lot. The abstract or report of search together with the affidavit of payment shall be filed in the action.

Complaint contents

5417. In a complaint in any action for the recovery of an assessment it shall be sufficient to allege briefly that the legislative body ordered the work, the performance of the work under the contract, the making of the assessment, the issuing of the warrant and the making of the diagram; that an assessment (naming the amount) was levied against that certain lot or parcel of land (describing it) which, according to the information and belief of the plaintiff, is owned by the defendant; and that payment of the assessment has not been made.

Description of land by reference

5418. In describing a lot or parcel of land in a complaint for the recovery of any assessment it shall be sufficient to refer to the same by its number upon the diagram; provided, a certified copy of the warrant, assessment and diagram shall have been previously filed in the office of the recorder of the county in which the lot or parcel of land is situated. It shall be the duty of the recorder to so file any such certified copy presented to him upon payment of the filing fee therefor, which fee is hereby fixed at fifty cents ($0.50).

Notice of judgment

5419. Upon the entry of judgment or dismissal of the action the county clerk shall forthwith mail to the street superintendent of the city having jurisdiction over the proceeding in which the assessment was levied, a certified copy of the judgment or other evidence sufficient to advise the street superintendent of the judgment of the court in the action.

Fraudulent demands

Penalty

5420. If the contractor or his agent or any person acting in behalf of the contractor shall, prior to the filing of a complaint for the recovery of any assessment, or subsequent to the filing of the action and prior to the allowance of attorney fees and costs, make any written demand upon or present any bill or notice in writing to the owner, demanding, requesting or notifying such owner to pay or that there is due, attorney's fees or court costs in connection with the collection of the assessment, then the superintendent of streets is authorized, upon written demand of the owner, accompanied by the affidavit of the owner, that such written demand, bill or notice for the payment of attorney's fees and costs, or either thereof, was made upon or presented to such owner prior to the commencement of the action, or subsequent to the filing of the action and prior to the allowance of attorney's fees and costs, together with such written demand, bill or notice to mark said assessment "paid" and such assessment shall thereby be deemed to be paid and the lien thereof released. This section shall not apply to the service of summons and complaint in a civil action.

Premature actions

5421. If an action is brought for the recovery of any assessment prior to the time permitted for bringing such action, the plaintiff shall not recover and the defendant shall be entitled to have and recover such attorney's fees as the court may deem reasonable in addition to all taxable costs and he may have judgment therefor.

Judicial sales

5422. The court in which an action for the recovery of an assessment is commenced shall have power to adjudge and decree a lien against the premises assessed, and to order such premises to be sold on execution, as in other cases of the sale of real estate by the process of the courts. On appeal, the appellate courts shall be vested with the same power to adjudge and decree a lien and to order such premises to be sold on execution or decree as is conferred on the court from which an appeal is taken. Such premises, if sold, may be redeemed as in other cases.

Laws applicable

5423. In all actions now pending or hereafter brought under this division to recover street assessments, the proceedings therein shall be governed and regulated by the provisions of this division, and also, when not in conflict herewith, by the laws of this State.

CHAPTER 19. REASSESSMENTS

When assessment made

5500. If any assessment heretofore or hereafter made, issued or filed in the office of the clerk is void or unenforceable for any cause or if bonds have been or are issued to represent or be secured by any assessments and such issuance was or is not effective through the curative provisions in relation thereto, or any curative act that may be passed by the Legislature in relation thereto to make them valid and enforceable, then, in any of such events a reassessment therefor may be issued.

Purpose

5501. The true intent and meaning of this chapter is to make the cost and expense of any work made through an attempted compliance with this division payable by the real estate benefited by such work by making a reassessment therefor.

Such power of reassessing embraces both a full and partial reassessment, and is not exhausted by a single attempted exercise thereof.

Basis for reassessment

5502. A reassessment shall be ordered under any one of the following circumstances:

Bondholder's petition

(a) Whenever the owner or holder of any assessments, or bonds issued under this division to represent or be secured by assessments, or the person who would own or hold any such assessment or bonds if they were issued, requests the legislative body to order a reassessment. In such event if the legislative body is of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented or secured by the bonds owned or held by such petitioner, or which would be owned or held by petitioner if issued.

Court order

(b) Whenever any court of competent jurisdiction in any action to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent or be secured by any assessments issued under this division for any reason holds such lien unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such action.

Same

(c) Whenever any court of competent jurisdiction in any action to set aside the lien of any assessment or of any bond representing any assessment or in any action to quiet title against the lien of any such assessment, or bond, or in any action to enjoin the making, filing, confirmation or issuance of any assessment or bond to pay for the cost and expenses of any work done under this division, in its judgment decrees such assessments or bonds to be void or unenforceable, or enjoins the making, filing or issuance or confirmation of any such assessment or bond, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such action.

(d) Whenever any contractor or assignee of a contractor has done or performed any work pursuant to proceedings had and taken in attempted compliance with this division, and whenever prior to the issuance of any assessment, any court of competent jurisdiction in any action to invalidate the contract or any of such proceedings for any reason declares the contract or other proceedings to be invalid, then such court shall in and by its decree direct the making of a reassessment for the reasonable value of the work actually done and performed in good faith by the contractor, or such portion thereof as was of a kind that could lawfully have been ordered under the provisions of this division. Contractor's reassessment

5503. The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body directing a reassessment, proceed to make a reassessment in the following manner: Manner of reassessment

(a) If the reassessment is a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment. Partial

(b) If it is a full reassessment: Full

(1) If the original assessment was made on the front-foot plan the reassessment shall be on the lots fronting on the work.

(2) If the original assessment was made against a district, the superintendent of streets shall prepare and file with the reassessment a diagram showing the lots or parcels of land deemed by him to have been benefited by the work. The reassessment shall assess upon and against each of the lots or parcels of land contained therein an amount arrived at as follows:

The benefits derived, or to be derived by each of the lots or parcels of land from the work estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed. Then there shall be added thereto interest thereon from 30 days after the date of such filing of the original assessment at the rate of 7 per cent per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost and expenses of the work. Interest

5504. The reassessment need not be in any prescribed form, but shall refer to the original assessment filed, give the date of filing of the original assessment and state that it is made pursuant to the order of the legislative body or decree of the court, as the case may be, and shall be accompanied by a diagram showing the lots or parcels of land to be reassessed and their relation to the work. Form

5505. The reassessment shall then be presented to the legislative body, which shall fix a time for hearing before it. Such Time for hearing

Notice

time must be at least 20 days after the reassessment is so presented. The clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the work for which the assessment was made was published, unless the legislative body directs publication in some other paper.

Same

5506. If the reassessment is to be against the lots fronting the improvement, this fact shall be stated in the notice. If the reassessment is to be against the property in a district, then this fact shall be stated in the notice and a description of the district shall be set forth and the assessment diagram referred to for particulars. Such notice shall be published for five insertions, if the paper is a daily, or by two insertions if the paper is published less frequently.

Hearing

5507. At the time fixed for the hearing, or at such time or times to which the hearing may be thereafter adjourned, the legislative body shall consider the objections to the reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable to apportion to each lot or parcel of land thereby benefited the amount of the actual benefits

Confirmation

derived from the work. When the reassessment is revised, or corrected or modified so as to comply with the judgment of the legislative body, then it shall pass a resolution confirming the reassessment.

Recording

5508. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the clerk, that it is the reassessment approved by the legislative body. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the original assessment, together with interest on such payments at the rate of 7 per cent per year from and after the date of such payments.

Enforcement

5509. The reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable by action in the same manner provided in this division for enforcing an original assessment, and shall have the same weight in evidence. If bonds issued under or upon the security of the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lots or parcels of land covered thereby.

Effect on original assessments and bonds

5510. When the reassessment is recorded the original assessment shall be canceled by the street superintendent so far as it affects the particular assessments involved. New

bonds shall not be issued until the original bonds are delivered up to the treasurer, who shall cancel them. The lien of the reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment.

Assessment for completed work

5511. If work done in attempted compliance with this division is fully completed to the satisfaction of the street superintendent or engineer, as the case may be, it shall nevertheless be the duty of the proper officer to make and file an assessment for the costs and expenses thereof, which shall form the basis of a reassessment if the assessment is unenforceable.

CHAPTER 20. REASSESSMENTS TO RELIEVE OWNERS

When made

5550. Notwithstanding any other provision of this division, the legislative body shall have power at any time before the assessments levied under this division are fully paid and discharged to order a reassessment under the terms and conditions set forth in this chapter.

City contributions

5551. Whenever the legislative body determines that the work for which an assessment was previously made was for the construction, alteration, repair, improvement or betterment of any major traffic artery, designed for or generally used by the people of the city as a whole, the legislative body may, in its discretion, determine to aid the same by appropriating any funds available for such purpose. It shall not be necessary to set forth or give notice of such contribution in the resolution of intention or other proceedings hereunder.

Apportionment

5552. Upon appropriating any such funds in aid of any work, the legislative body by resolution shall direct the street superintendent to apportion the sum thus appropriated pro rata between all properties assessed upon the original assessment or any reassessment made therefor, whichever is the latest in point of time. Such sum shall be apportioned in the same ratio that the original assessments bore to the total assessment against all properties assessed.

Reassessment

5553. The street superintendent shall thereupon prepare a reassessment after deducting such apportionment rebate and return the same to the legislative body. The reassessment need not be in any prescribed form but shall refer to the original assessment filed, giving the date of filing of the original assessment, and shall state that it was made pursuant to the order of the legislative body and shall be accompanied by a diagram showing the lots to be reassessed and their relation to the work. Such diagram may be the original assessment diagram if it otherwise conforms to the provisions of this chapter.

Time for hearing

5554. Upon receipt of the reassessment the legislative body shall fix a time and place when any and all persons objecting to the proposed reassessment may be heard. Such time must be at least 20 days after the reassessment has been presented.

Notice

The clerk shall then advertise the time of such hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the work for which the assessment was made was published, unless the legislative body directs publication in some other newspaper.

Contents

5555. The notice shall contain a reference to the original assessment and diagram and reference shall also be made to the reassessment and diagram of the street superintendent for full particulars, as to the extent of the district affected by these proceedings and for all other particulars.

Hearing

5556. At the time fixed for the hearing or at such time or times to which the hearing may be continued the legislative body shall consider all objections to the reassessment and may

Confirmation

correct inequalities or mistakes therein. When the legislative body is satisfied with the correctness of the reassessment it shall confirm the same.

Recording

5557. The street superintendent shall record the confirmed reassessment and diagram, in his office, with a certificate at the end thereof executed by the clerk that it is the reassessment approved by the legislative body. He shall also note opposite the several assessments in the original assessment that have been displaced by the reassessment the fact that the reassessment has been made, giving its date and shall credit upon such reassessments all payments theretofore made upon the original assessment or upon the bonds issued to represent the original assessment.

Enforcement

5558. The reassessment shall be collectible by and payable to the treasurer or such other officer as the legislative body may designate so far as practicable in the same manner as an original assessment and shall be enforceable by action in the manner provided in this division for enforcing an original assessment and shall have the same weight in evidence.

Effect on outstanding bonds

5559. If bonds issued under or upon the security of the original assessment, no reassessment made pursuant to this chapter shall change the security or lien of any such bond in any manner whatsoever or the method of the enforcement thereof. The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of filing of the original assessment. Upon confirming the reassessment, the city shall transfer into the bond and assessment redemption fund the amounts so apportioned among the several assessments.

Refunds

5560. Whenever prior to the confirmation of the reassessment any principal payments have been made on any assessment, or on any bond issue to represent any such assessment, the owner of record of the property against which such assessment was levied, at the time such payment was made, or where a purchaser under a contract of purchase or a lessee under a lease, pursuant to the terms of which contract of purchase or lease, is required to and has made such payments upon the original assessment or bonds, then such purchaser or lessee shall be entitled to receive a refund of an amount of the difference between the original assessment and the reassessment in the proportion that such payments made by him bears to the original assessment, with respect to the lot or parcel of land for which such payments were made. The balance of any such appropriation, as determined by the reassessment, shall be credited pro rata to the bonds in payment thereof, applying such payment first to the interest due and then upon the principal. Thereafter the treasurer shall pay to the holder of each bond the payment so credited from the bond and assessment redemption fund. The treasurer is hereby authorized and directed to make all payments of refunds as authorized by this chapter.

Notice of refund

5561. Whenever it shall appear to the legislative body that payments have been made on any such assessments or bonds prior to the reassessment, it shall be its duty to cause to be published in the newspaper in which the ordinance or resolution of intention for the work was published, unless the legislative body directs publication in some other paper, a notice stating the fact of such reassessment and calling upon all property owners affected by the work to make claim for refund within two years from date of the first publication of the notice. Reference shall be made to the reassessment and diagram for all particulars. Such notice shall be published once a week for two weeks.

Limitation on claims

5562. If claim for such refund is not made within the period specified, then all claims therefor shall be barred and the amount remaining unclaimed shall revert to the fund from which the supplemental appropriation was made by the legislative body.

Limitation on actions

5563. No action shall be brought to contest, modify, annul, review or in any way attack the validity of the reassessment and the proceedings had under this chapter unless the same shall have been commenced within 30 days after the recording of the diagram and reassessment, and thereafter all persons shall be barred from any such action or any defense of invalidity of the reassessment and all bonds issued thereon.

Reassessment costs

5564. In making the reassessment the street superintendent shall first deduct from the amount appropriated by the legislative body the estimated cost of the reassessment proceedings. If the estimate for any reason exceeds the actual cost thereof, then the excess of the fund reserved for the payment of costs shall revert to the fund from which the appropriation was made. If the estimate proves to be insufficient to meet the costs of the reassessment, the legislative body shall appropriate such additional sums as may be necessary to meet the excess costs and expenses thereof.

No bar to future reassessments

5565. The making of any reassessment pursuant to this chapter in any proceedings shall not constitute a bar or limit the right to make further reassessments as the legislative body may determine.

CHAPTER 21. MISCELLANEOUS ASSESSMENT PROVISIONS

Proportionate assessments

5580. The legislative body, instead of waiting until the completion of the work may, in its discretion, and not otherwise, upon the completion of two blocks or more of any work, order the street superintendent to make an assessment for the proportionate amount of the contract completed, and thereupon proceedings and rights of collection of that assessment shall be the same as provided in this part for the making and collection of other assessments.

Payments by tenants

5581. Any tenant or lessee of the lands or lots liable may pay the amount assessed against the property of which he is the tenant or lessee under the provisions of this division, or he may pay the price agreed on to be paid under the provisions of Section 5580, either before or after an action is brought, together with costs, to the contractor, or his assigns, or he may redeem the property, if sold on execution or decree for the benefit of the owner, within the time prescribed by law, and deduct the amount so paid from the rents due and to become due from him. For any sums so paid beyond the rents due from him, he shall have a lien upon and may retain possession of the land and lots until the amount so paid and advanced is satisfied, with legal interest, from accruing rents, or by payment by the owner.

Payments by city

5582. The legislative body may, in its discretion, provide by resolution that the whole or any part of the cost and expenses of any of the work mentioned in this division shall be paid out of the treasury of the city from such fund as the legislative body may designate, in which case it shall be so stated in the resolution of intention and the liability and obligation to pay any sum so provided for shall accrue and become fixed upon the date of the confirmation of the assessment by the legislative body, and thereupon the legislative body shall order that amount to be forthwith paid.

Deduction of city contributions

5583. Whenever a part of the cost and expenses of the work is to be paid by the city, the superintendent of streets, in making up the assessment, shall first deduct from the whole cost and expenses such part thereof as has been so ordered to be paid out of the city treasury, and shall assess the remainder of the cost and expenses proportionately upon the lots, parts of lots and lands fronting on the streets where the work was done, or liable to be assessed for such work, and in the manner provided for in this division.

County work Furnishing materials

5584. If a county is conducting the proceedings under this division the legislative body may also purchase all or any part of the materials to be used in doing any of the work mentioned in this division and furnish the same therefor. The purchase may be made from such funds of the county as the legislative body may designate.

If the county has a purchasing agent, the materials shall be purchased by him; otherwise the materials shall be purchased by the legislative body by contract let to the lowest responsible bidder after notice calling for bids has been published at least five days in a newspaper of general circulation in the county. If the county is to furnish materials the resolution of intention shall so provide. When such provision is made, the execution of the contract for the improvements shall create a liability on the part of the county to furnish the materials provided for in the resolution.

Chapter 22. Maintenance of Sidewalks

Article 1. General Provisions

"Sidewalk"

5600. As used in this chapter "sidewalk" includes a park or parking strip maintained in the area between the property line and the street line and also includes curbing, bulkheads, retaining walls or other works for the protection of any sidewalk or of any such park or parking strip.

Maintenance work

5601. This chapter shall only apply to maintenance and repair proceedings, whether upon work originally done under this division or otherwise, and shall not be used for the construction of new improvements. The "Special Assessment Investigation, Limitation and Majority Protest Act of 1931" shall not apply to proceedings taken under this chapter.

Alternate procedure

5602. This chapter constitutes a separate and alternate procedure for performing the works specified herein and no other provisions of this division shall apply to proceedings instituted hereunder.

Article 2. Repairs

Maintenance by lot owner

5610. The owners of lots or portions of lots fronting on any portion of a public street or place when that street or

place is improved or if and when the area between the property line of the adjacent property and the street line is maintained as a park or parking strip, shall maintain any sidewalk in such condition that the sidewalk will not endanger persons or property and maintain it in a condition which will not interfere with the public convenience in the use of those works or areas save and except as to those conditions created or maintained in, upon, along, or in connection with such sidewalk by any person other than the owner, under and by virtue of any permit or right granted to him by law or by the city authorities in charge thereof, and such persons shall be under a like duty in relation thereto.

Notice to repair

5611. When any portion of the sidewalk is out of repair or pending reconstruction and in condition to endanger persons or property or in condition to interfere with the public convenience in the use of such sidewalk, the superintendent of streets shall notify the owner or person in possession of the property fronting on that portion of such sidewalk so out of repair, to repair the sidewalk.

How given

5612. Notice to repair may be given by delivering a written notice personally to the owner or to the person in possession of the property facing upon the sidewalk so out of repair, or by mailing a postal card, postage prepaid, to the person in possession of such property, or to the owner thereof at his last known address as the same appears on the last equalized assessment rolls of such city or to the name and address of the person owning such property as shown in the records of the office of the clerk.

Posting

5613. The postal card shall contain a notice to repair the sidewalk so out of repair, and the superintendent of streets shall, immediately upon the mailing of the notice, cause a copy thereof printed on a card of not less than 8 inches by 10 inches in size, to be posted in a conspicuous place on the property.

Contents

5614. The notice shall particularly specify what work is required to be done, and how it is to be done, and what materials shall be used in the repair and shall further specify that if the repair is not commenced within three days after notice is given and diligently and without interruption prosecuted to completion, the superintendent of streets shall make such repair, and the cost of the same shall be a lien on the property.

Repair by city

5615. If the repair is not commenced and prosecuted to completion with due diligence, as required by the notice, the superintendent of streets shall forthwith repair the sidewalk.

Notice of cost

5616. Upon the completion of the repair, the superintendent of streets shall cause notice of the cost of the repair to be given in the manner specified in this article for the giving of

notice to repair, which notice shall specify the day, hour and place when the legislative body will hear and pass upon a report by the superintendent of streets of the cost of the repair, together with any objections or protests, if any, which may be raised by any property owner liable to be assessed for the cost of such repair and any other interested persons.

Report

5617. Upon the completion of the repair, the superintendent of streets shall prepare and file with the legislative body a report specifying the repairs which have been made, the cost of the repairs, a description of the real property in front of which the repairs have been made and the assessment against each lot or parcel of land proposed to be levied to pay the cost thereof. Any such report may include repairs to any number of parcels of property, whether contiguous to each other or not.

Hearing on cost

5618. Upon the day and hour fixed for the hearing the legislative body shall hear and pass upon the report of the superintendent of streets, together with any objections or protests which may be raised by any of the property owners liable to be assessed for the work of making such repair and any other interested persons. Thereupon the legislative body may make such revision, correction or modifications in the report as it may deem just, after which, by motion or resolution, the report as submitted, or as revised, corrected or modified, shall be confirmed. The legislative body may adjourn the hearings from time to time. The decisions of the legislative body on all protests and objections which may be made, shall be final and conclusive.

Article 3. Collection of Cost of Repair

Assessment of costs

5625. The cost of the repair may be assessed by the legislative body against the parcel of property fronting upon the sidewalk upon which such repair was made, and such cost so assessed, if not paid within five days after its confirmation by the legislative body, shall constitute a special assessment against that parcel of property, and shall be a lien on the property for the amount thereof which lien shall continue until the assessment and all interest thereon is paid, or until it is discharged of record.

Record of lien

5626. The superintendent of streets may file in the office of the county recorder of the county in which the parcel of property is located, a certificate substantially in the following form, to wit:

Form

Foreclosure

5627. From and after the date of the recording of the notice of lien, all persons shall be deemed to have had notice of the contents thereof. The notice of lien may include claims against one or more separate parcels of property, whether contiguous or not, together with the amount due, respectively, from each such parcel. The statute of limitation shall not run against the right of the city to enforce the payment of the lien. If any such lien is not paid the city may file and maintain an action to foreclose such lien in the same manner and under the same procedure, so far as applicable, as that under which delinquent bonds are foreclosed under this division.

Collection by tax collector

5628. As an alternative method of collection of the amount of the lien, the legislative body, after confirmation of the report of the superintendent of streets, may order the notice of lien to be turned over to the assessor and the tax collector of the city, whereupon it shall be the duty of those officers to add the amount of the assessment to the next regular bill for taxes levied against the lot or parcel of land. If city taxes are collected by the county officials, the notice of lien shall be delivered to the county auditor, who shall enter the amount thereof on the county assessment book opposite the description of the particular property and the amount shall be collected together with all other taxes thereon against the property. The notice of lien shall be delivered to the county

auditor before the date fixed by law for the delivery of the assessment book to the county board of equalization.

Enforcement

5629. Thereafter the amount of the lien shall be collected at the same time and in the same manner as ordinary city taxes are collected, and shall be subject to the same penalties and interest and to the same procedure under foreclosure and sale in case of delinquency as provided for ordinary city taxes. All laws applicable to the levy, collection and enforcement of city taxes and county taxes are hereby made applicable to such special assessment taxes.

Penalties

Chapter 23. Liability for Defective Streets

Liability of city

5640. If, because any graded street or sidewalk is out of repair and in condition to endanger persons or property passing thereon, any person, while carefully using the street or sidewalk and exercising ordinary care to avoid the danger, suffers damage to his person or property, through any such defect therein, no recourse for damages thus suffered shall be had against the city.

Liability of officers

5641. If the defect in the street or sidewalk has existed for a period of 24 hours or more after written notice thereof to the superintendent of streets, then the person on whom the law may have imposed the obligations to repair such defect in the street or sidewalk, and also the officer through whose official negligence such defect remains unrepaired, shall be jointly and severally liable to the party injured for the damage sustained; provided, that the superintendent of streets has the authority to make the repairs, under the direction of the legislative body, at the expense of the city.

Chapter 24. Limitation of Actions

Review of proceedings

5660. No action, suit, or proceeding to set aside, cancel, avoid, annul or correct any assessment or reassessment, or to review any of the proceedings, acts, or determinations therein, or to question the validity of, or to enjoin the collection of the assessments or reassessments, or to enjoin the issuance of bonds to represent the same, shall be maintained by any person unless such action is commenced within 30 days after the recording of the warrant, diagram and assessment or reassessment, and thereafter all persons shall be barred from any such action or any defense of invalidity of the assessment or of bonds issued thereon or of the reassessment if such is made and of bonds issued thereon.

Validity of proceedings

5661. No proceedings taken or had under this division shall ever be held to be invalid on the ground that the street, right of way, public property or any portion thereof, upon which

the work or any part thereof is or was done has not been lawfully dedicated or acquired; provided, the same is lawfully dedicated or acquired, or an order of immediate possession and use thereof has been obtained, at any time before judgment is entered in the action involving such proceeding.

CHAPTER 25. DUTIES OF OFFICERS

Article 1. The Superintendent of Streets

5680. The superintendent of streets shall keep a public office in some convenient place within the city, and shall keep such records as may be required by this division. The records so kept and signed by him shall have the same force and effect as other public records, and copies therefrom duly certified, may be used in evidence with the same effect as the originals. The records shall, during all office hours, be open to the inspection of any person wishing to examine them, free of charge.

5681. The superintendent of streets shall see that the laws, ordinances, orders, and regulations relating to the public streets are fully carried into execution, and that the penalties thereof are rigidly enforced. He shall keep himself informed of the condition of all the public streets and also of all public buildings, parks, lots, and grounds of the city, as may be prescribed by the legislative body.

Bond

5682. The superintendent of streets shall, before entering upon the duties of his office, give bonds to the city, with such sureties and for such sums as may be required by the legislative body. If he fails to see that the laws, ordinances, orders, and regulations relating to the public streets are carried into execution, after notice from any citizen of a violation thereof, he and his sureties shall be liable upon his official bond to any person injured in his person or property in consequence of said official neglect.

Sewer cleaning

5683. The superintendent of streets shall superintend and direct the cleaning of all sewers, and the expense of the same shall be paid out of the street or sewer fund of the city.

Records

5685. The superintendent of streets shall keep a record of the service of all notices which are served by him or with his permission.

Verifications

5686. For all purposes and in all cases where a verification is required under this division, such verification may be made

before the superintendent of streets who is hereby authorized to administer oaths for that purpose, or before any other person authorized to administer oaths.

Article 2. The Engineer

Surveying and engineering work

5700. The engineer or where there is no engineer, an engineer of work shall be the proper officer to do the surveying and other engineering work necessary to be done under this division, and to survey and measure the work to be done under contracts for grading, macadamizing, or improving streets and other work done under this division, and to estimate the costs and expenses thereof, and perform such other duties under this division as may be directed by the legislative body. Every certificate signed by him in his official capacity shall be prima facie evidence in all courts in this State of the truth of the contents. He shall also keep a record of all surveys made under the provisions of this division, as in other cases.

Engineer of work

5701. In its discretion, the legislative body may appoint an engineer of work, other than the engineer or in place of the engineer, and all provisions of this division applicable to the engineer shall apply to such engineer of work. The legislative body shall initially fix or thereafter confirm the compensation of the engineer or engineer of work.

Article 3. The Superintendent of Construction

Superintendent of construction

5710. The superintendent of streets, or the engineer, if the legislative body has by resolution directed that the work be done under his direction and to his satisfaction, shall, when in his judgment it is necessary, appoint a suitable person to take charge of and superintend the construction and improvement of any work authorized by this division, whose duty it shall be to see that the contract made for the doing of the work is strictly fulfilled in every respect and in case of any departure therefrom to report the same to the officer who appointed him. Such person shall be allowed for his time actually employed in the discharge of his duties such compensation as shall be just, but not to exceed ten dollars ($10) per day. The sum to which the party so employed shall be entitled shall be deemed to be incidental expenses within the meaning of those words as used in this division.

Article 4. Provisions Applicable to Counties Only

Performance of duties by others

5720. If a county is conducting the proceedings the legislative body may appoint any competent county officer, other than the county surveyor, without compensation, as the officer to perform any or all of the duties conferred upon the street superintendent or the engineer in this division.

Engineer of work

5721. If the legislative body of a county appoints an engineer of work in accordance with Article 2 of this chapter, it may provide that the work shall be done under his direction and to his satisfaction and that the materials used shall comply with the specifications and be to the satisfaction of such engineer of work and it may provide that the engineer of work shall make and sign the assessment. The contract shall nevertheless be entered into with the county surveyor, and the assessment and warrant when confirmed shall be recorded in the office of the county surveyor.

CHAPTER 26. COUNTY MAINTENANCE DISTRICTS

"Maintenance district"

5820. As used in this chapter, "maintenance district" means an assessment district which a county board of supervisors has created pursuant to the provisions of this chapter.

Creation of

See also Stats 1941, p 2766

5821. The board of supervisors may, in its resolution of intention to order work done or improvements made or by separate resolution of intention, declare its intention to order that the expenses of maintaining and operating any or all of the said improvements or any or all other existing improvements such as are permitted to be constructed under this division, including the cost of necessary repairs, replacements, fuel, power, electrical current, care, supervision, and any and all other items necessary for the proper maintenance and operation thereof, shall be assessed, either partly or wholly, upon the lands lying within the assessment district which is to be assessed to pay the cost of the construction of the said improvement, or upon such district as the board of supervisors determines will be benefited by the maintenance and operation of the improvement proposed to be maintained. The amounts so assessed shall be levied and collected in the same manner and by the same officers as taxes for county purposes are levied and collected.

Resolution of intention

5822. The resolution of intention shall describe the boundaries of the district which is to be assessed for such maintenance and operation, or if the improvements or any part thereof to be maintained or operated are constructed in the same proceeding, it may describe the maintenance district as having the same boundaries as those of the district to be assessed for the cost of constructing the improvement. In either case the maintenance district may be designated by a name by which it may thereafter be referred to in all subsequent proceedings, including proceedings for the levy and collection of taxes.

City territory

5823. The maintenance district may include property lying within one or more cities if the consent of the legislative body of each such city to the formation of such district expressed

by resolution, is first obtained before the resolution of intention is adopted by the board of supervisors.

Protests

5824. At any time not later than the hour for hearing objections to the proposed work as provided in this division, or at any time not later than the time fixed in the resolution of intention for the hearing of objections, if the resolution of intention provides for maintenance only, any person permitted by the provisions of this division to make written protest against the proposed work or against the extent of the district to be assessed therefor, or both, may make like protest and in like manner against the ordering of the formation of the maintenance district or against the extent of the maintenance district, or both.

Hearing

5825. The board of supervisors, in addition to hearing protests against the proposed work and the extent of the district to be assessed therefor, shall hear and pass upon all protests against the formation of the maintenance district and against the extent thereof, and its decision shall be final and conclusive.

Majority protest

5826. If the board of supervisors finds that the protest against the formation of the maintenance district is made by the owners of more than one-half of the area of the property included within such district, no further proceedings shall be taken, unless the protests are overruled by an affirmative vote of four-fifths of the members of the board of supervisors, for a period of six months from the date of the decision of the board of supervisors on the hearing. The board of supervisors may adjourn the hearing from time to time.

Notice

5827. If the board of supervisors, in its resolution of intention, declares its intention to order a maintenance district formed, the notice of improvement shall likewise give notice of such declaration of intention and that protests against such maintenance district may be filed and will be heard in accordance with the provisions of this chapter.

Ordering maintenance

5828. The board of supervisors shall acquire jurisdiction to order that the maintenance district be formed in the same manner prescribed in this division for the acquiring of jurisdiction to order the construction of improvements, and it may thereupon by resolution order the formation of such a maintenance district, which order may be contained in the resolution ordering the construction of the work in those cases where such work is provided to be done in the resolution of intention.

County assessor to segregate property

5829. A copy of the resolution ordering the formation of the maintenance district shall be filed in the office of the county assessor and the county assessor shall thereafter, in making up the assessment roll, segregate the property included within

such district on the assessment roll under the designation contained in the resolution.

Maintenance tax
See also Stats 1941, p 2767

5830. The board of supervisors shall thereafter, in each year, prior to the time for fixing the county tax rate, estimate the cost of maintaining and operating the improvements to be maintained and operated within the district during the ensuing year. The board shall decide whether or not the cost shall be borne in whole or in part by the maintenance district and shall, in addition to all other taxes, fix a special tax rate for the lands within the maintenance district that will raise an amount of money sufficient to cover the expense of maintaining and operating the improvements during the ensuing year, or that will raise such portion of the expense as the board of supervisors determines shall be borne by the district. The board of supervisors shall levy a special assessment tax each year upon the lands in such district sufficient to pay such expense or the portion thereof which must be paid by the district.

Levy and collection

5831. The special assessment tax shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes and when collected shall be paid into the county treasury to the credit of the fund of the maintenance district and be used for the payment of the expenses of such district. The board may control and order the expenditure thereof for such purposes.

County payments

5832. The board of supervisors may determine that the whole or any part of the expense of such maintenance shall be paid by the county. If the county is to contribute toward the expenses of such maintenance the resolution of intention shall so provide. When such provision is made the execution of the contract for maintenance shall create an obligation in the county to make the contribution provided for in the resolution.

Fund transfers

5832.5. The board of supervisors may temporarily transfer moneys to the maintenance district fund from other funds in which such moneys are not immediately needed. The money so transferred shall be used for the purposes provided in this chapter and be retransferred from the maintenance district fund out of the first available receipts.

Duties of board of supervisors

5833. The board of supervisors of the county in which a maintenance district is formed shall:

(a) Make and enforce all rules and regulations necessary for the administration, operation and government of such district.

(b) Execute all contracts and make all necessary provisions for the maintenance and operation of the district.

(c) Appoint and employ all necessary agents, superintendents, engineers and labor for the proper performance of the work.

(d) Perform all other acts necessary or proper to accomplish the purposes of this chapter.

Contracts

5834. All contracts shall be let to the lowest responsible bidder. The board shall advertise for two or more days in a newspaper of general circulation published in the county, inviting bids for furnishing labor, material or supplies before any contract is made therefor. The board may require such bonds as it may deem adequate from the successful bidder to secure the faithful performance of the contract and the payment of all claims for labor and materials, and may reject any and all bids.

County maintenance

5835. Nothing in this chapter shall be construed as prohibiting the county itself from maintaining and operating any or all of the improvements when ordered by the board of supervisors and from purchasing the materials and supplies and employing the labor necessary for such purpose.

Property ownership

5836. The title to all property acquired by a maintenance district shall be vested in the county. Upon the dissolution of the district by reason of all of its territory being included within a city, such property shall thereupon become the property of such city, and if all of the district is included within more than one city then such property shall be subject to the disposition of the board of supervisors of the county. Such disposition shall be between the several cities in such manner as to the board seems most just and equitable.

Alteration of boundaries

5837. The boundaries of any maintenance district may be altered, and contiguous territory whether it is within incorporated or unincorporated territory may be annexed thereto. If incorporated territory is sought to be annexed, consent thereto shall first be obtained from the legislative body of the city.

The board of supervisors may by resolution fix a time and place for hearing upon the question of annexation of such territory to an existing maintenance district. The resolution shall describe the boundaries of the contiguous territory proposed to be annexed.

The date set for the hearing on the proposed annexation shall be at least three weeks from and after the date of the adoption of the resolution setting the hearing.

Notice

5838. The board of supervisors shall cause notice of the time, place and purpose of the hearing to be given by post card mailed to each owner whose name and address appears on the last equalized assessment roll and who owns real property within the boundaries of the territory sought to be

annexed and within the district to which such territory is proposed to be annexed. The person directed by the board of supervisors to mail the post card notices shall file, upon the completion of the mailing, an affidavit setting forth the time and manner of the compliance with this section.

In addition, the board of supervisors shall cause copies of the resolution to be posted in three conspicuous places within the territory proposed to be annexed and within the maintenance district to which such territory is proposed to be annexed.

Hearing

5839. At the time fixed for the hearing or to which it may be continued the board of supervisors shall hear and pass upon the proposal and any objections which may be filed to the inclusion of any property within the proposed annexation.

The board of supervisors may, by order entered upon its minutes, determine that such territory or any part thereof will be benefited by annexation to the district and may order that the boundaries of the district be altered to include such benefited territory.

Overlapping districts

5840. If any portion of the territory annexed to a maintenance district comprises a portion of another maintenance district the annexation of such territory shall not become complete unless and until any outstanding contract of the other maintenance district of which such territory is a part has expired or such contract, with the consent of the parties thereto, has been modified or canceled so as to relieve the other maintenance district of further obligation to pay for future maintenance within the portion of the territory so withdrawn, and the funds of such other district remaining on hand upon the completion of such annexation shall have been apportioned between the maintenance district to which the territory was annexed and the other maintenance district from which it was withdrawn. The division of such funds shall be prorated in the proportion that the assessed value of the real property of the territory so withdrawn bore to the total assessed value of the real property within the maintenance district prior to such withdrawal.

Dissolution by annexation

5841. If the territory annexed to a maintenance district includes within its boundaries all of another maintenance district upon such annexation becoming complete by the adoption of the order of the board of supervisors the theretofore existing maintenance district so annexed shall thereupon be dissolved. Any funds of the maintenance district remaining on hand at the time of the annexation shall be transferred to the maintenance district to which such territory is annexed and any contracts or obligations of said previously existing maintenance district shall become the obligations of the maintenance district to which it is annexed.

Additional improvements

5842. If, after the formation of a maintenance district, additional improvements of the same type or nature are constructed within the boundaries of such district, the board of supervisors shall adopt a resolution declaring its intention that the cost of maintaining and operating such additional improvements shall be borne by the existing maintenance district. It shall fix a time and place for a hearing on such resolution, at which hearing any and all persons having any objections to the things proposed to be done may appear and be heard. The resolution shall contain a statement of the estimated annual cost of maintaining and operating such additional improvements.

Notice and hearing

5843. Notice of the hearing on the resolution shall be given to the persons within the existing maintenance district in the manner prescribed in Section 5838. At the hearing the board of supervisors shall hear and pass upon any and all protests to the maintaining and operating of such additional improvements by the existing maintenance district and its decision shall be final and conclusive. At the conclusion of the hearing the board of supervisors may by order, entered upon its minutes, make the expenses of maintaining and operating such additional improvements a charge upon the existing maintenance district.

Withdrawal of territory

5844. Any portion of any maintenance district which will not be benefited by remaining within the district, may be withdrawn therefrom. The board of supervisors may by resolution entered upon its minutes fix a time for a hearing on the question of the withdrawal of any portion of a maintenance district which will not be benefited by remaining within the district.

Notice

5845. The time for the hearing shall be not less than 10 nor more than 30 days after the date of the adoption of the resolution. The board of supervisors shall at least five days prior to the time so fixed cause a notice of such hearing to be published by one insertion in such daily, weekly or semiweekly newspaper printed, published and circulated in the county, as the board deems most likely to give notice to the inhabitants of the district of the proposed withdrawal. Copies of the notice also shall be posted at least one week prior to the date fixed for the hearing in three conspicuous places within that portion of the maintenance district sought to be withdrawn and in three conspicuous places within the remaining portion of the district.

Hearing

5846. Any person interested may appear at the hearing and object to the withdrawal of said portion from the maintenance district, or may object to the continuance of the remaining territory as a maintenance district. The board of supervisors shall consider and pass upon all objections and if

it finds that the portion of the district sought to be withdrawn will not be benefited by remaining within the maintenance district and that the remaining territory not sought to be withdrawn will be benefited by continuing as a maintenance district, then it shall order such withdrawal and the continuance of the remaining territory as a maintenance district.

Outstanding contracts

5847. No withdrawal of territory under the provisions of Section 5846 shall become effective unless and until any outstanding contract of the maintenance district from which a portion is sought to be withdrawn has expired, or such contract, with the consent of the parties thereto, has been modified or canceled so as to relieve such maintenance district of further obligation to pay for future maintenance within the territory so withdrawn.

Dissolution

5848. Any maintenance district may be dissolved by the board of supervisors. The board of supervisors upon its own motion may adopt a resolution declaring its intention to dissolve the maintenance district and may fix a time for a hearing upon such dissolution. The time for such hearing shall be not less than 10 days nor more than 30 days after the date of the adoption of such resolution, and the clerk of the board of supervisors shall, at least 15 days prior to the time so fixed, publish notice of such hearing by one insertion in a daily, weekly or semiweekly newspaper printed, published and circulated in the county, and cause printed copies of such notice to be posted in three conspicuous places within the maintenance district.

Hearing

5849. At the time appointed for such hearing, or at any time to which it is adjourned, the board of supervisors shall hear and pass upon the question of dissolution and all objections and protests and may grant or deny the same, and its decision thereon shall be final and conclusive. If the board of supervisors upon such hearing determines that the maintenance district shall be dissolved, the board of supervisors shall, by resolution, order the dissolution of the district and the district shall thereupon be dissolved. The maintenance and operation of the improvements of such district may be continued thereafter until the funds collected for the purpose of maintaining and operating them have been expended for that purpose.

Inclusion within cities

5850. Upon the inclusion of all of the territory of a maintenance district within one or more cities, either by reason of annexation proceedings or by reason of the incorporation of one or more cities, all funds paid into the county treasury to the credit of such district shall be paid over by the board of supervisors of such district as prescribed in this chapter.

Disposition of funds

5851. If the whole district is so included within one city, such funds shall be paid to the treasurer of that city and

administered by the legislative body of the city for the benefit of the district and the district shall thereupon, by reason of such inclusion, be dissolved.

Inclusion in more than one city

5852. If a part only of the district is so included within one city and the remaining part of the district is so included within one or more other cities, so that no portion of the district remains within unincorporated territory of the county, then such proportionate part of such funds shall be paid to the treasurer of each such city as the assessed valuation of the real property of the portion of the district included therein bore, before being so included, to the total assessed valuation of the real property of the district, and such funds shall be administered by the legislative bodies of such cities for the benefit of the district and the district shall thereupon, by reason of such inclusion, be dissolved.

Partial inclusion in cities

5853. If less than the whole of such a district is included within one or more cities either by reason of annexation or by reason of incorporation proceedings, the district shall continue in existence and shall continue to function without being affected thereby unless the district is dissolved as in this chapter provided. The fact that a portion of the district is so included within one or more cities shall not deprive the board of supervisors of the right to levy the special assessment tax, as provided in this chapter, upon the lands and improvements thereon in such district for the purpose of maintaining and operating the improvements thereof.

PART 4. CHANGE OF GRADE

CHAPTER 1. GENERAL PROVISIONS

Other applicable provisions

6000. The provisions of Part 3 of this division in regard to the assessment of the cost of work done pursuant to this part shall not apply to this part; nor shall the provisions of this division in regard to the issuing of bonds to represent the cost of the work, nor the provisions in regard to the right of protest against the work apply to this part. All other provisions of this division except those contained in Part 5 of this division, which are not in conflict with this part, shall apply to all matters contained in this part.

"Commissioners"

6001. As used in this part "commissioners" or "board of commissioners" means the following officers of the city conducting the proceedings acting as a board of commissioners:

(a) The mayor, engineer or surveyor and the street superintendent, or

(b) The board of public works if there is such a board.

CHAPTER 2. RESOLUTION OF INTENTION

Change of grade

6020. The legislative body may change or modify the grade of any public street or place, and regrade or repave the same to conform to such modified grade, in the manner provided in this part.

Resolution of intention

6021. Before any change of grade is ordered the legislative body shall pass a resolution of intention to make such change or modification of grade, and it may at the same time and in the same resolution provide for the actual cost of performing the work of regrading, repaving, sewering, sidewalking, or curbing of the street or portion of street, with the same or other material with which it was formerly graded, paved, sewered, sidewalked, or curbed; and that the cost of the same shall be assessed upon the same district which is declared to be benefited by such changed or modified grade. One or more streets or blocks of streets may be embraced in the same resolution.

Notice

6022. The resolution shall be published and shall describe the proposed change or modification of grade or regrading, and shall designate and establish the district to be benefited by such change or modification of grading or regrading, and to be assessed for the cost of the same. The superintendent of streets shall also cause to be conspicuously posted within the district designated in the resolution, notice of the passage of the resolution. The posted notice shall be the same in all requirements of contents and posting as the "notices of improvement" provided for in Chapter 7 of Part 3 of this division.

Objections

6023. If no objection to the proposed change or modifications of grade is filed with the clerk within 30 days from the first publication of the resolution of intention or, if objections are presented and after due notice and hearing are overruled by the legislative body, the legislative body may order and declare such grades to be changed and established in conformity to the resolution, and the order shall be posted.

CHAPTER 3. DETERMINATION OF DAMAGES AND BENEFITS

Damages

6040. Within 30 days after the first posting of the order for change of grade any person owning property fronting upon the portions of the street where such change of grade is made, may file a petition with the clerk showing the fact of such ownership, the description and situation of the property, its market value, and the estimated amount of damages over and above all benefits which the property would sustain by the proposed change if completed. Such petition shall be verified by the oath of the petitioners or their agents.

Assessment of damages

6041. Whenever any petitions have been filed, the board of commissioners shall assess the benefits, damages, and costs of the proposed change of grade upon each separate lot of land situated within the assessment district showing the same by a plat as the lot appears of record upon the last assessment roll.

Commissioners

6042. The commissioners shall be sworn to make the assessment of benefits and damages to the best of their judgment and ability, without fear or favor and they shall have power to subpena witnesses to appear before them to be examined under oath, which any one of the commissioners is authorized to administer.

Assessments by commissioners

6043. The commissioners having determined the damage which would be sustained by each petitioner, in excess of all benefits, shall proceed to assess the total amount thereof, together with the costs, charges, and expenses of the proceedings, upon the several lots of land benefited within the assessment district, so that each of the lots shall be assessed in accordance with its benefits caused by such work. During the progress of their work the commissioners shall make a report to the legislative body as often as it may be required.

Form of report

6044. The commissioners shall make their report in writing, and shall subscribe to the same and file it with the legislative body. In their report they shall describe separately each piece of property which will sustain damage, stating the amount of damages each will sustain over and above all benefits. They shall also give a brief description of each lot benefited within the assessment district, the name of the owner, if known, and the amount of benefits in excess of damages assessed against each lot. If the three commissioners do not agree, the award agreed upon by a majority of them shall be sufficient.

Descriptions of land

6045. In designating the lots to be assessed, reference may be had to a diagram of the property in the district affected and the diagram shall be attached to and made a part of the report of the commissioners. If the commissioners find that conflicting claims of title exist, or if they are in doubt as to the ownership of any lot or land, or any improvement thereon, or any interest therein, it shall be set down as belonging to unknown owners. Error in the designation of the owner of any land or improvements, or the particulars of his interest, shall not affect the validity of the assessment.

Notice of report

6046. On the filing of the report, the clerk shall give notice of such filing by publication. The notice shall require all persons interested to show cause, if any, why such report should not be confirmed before the legislative body, on a day to be fixed by the legislative body and stated in the notice,

which day shall not be less than 20 days from the first publication thereof.

Objections 6047. All objections to the report shall be in writing and filed with the clerk, who shall, at the next meeting after the date fixed in the notice to show cause, lay the objections, if any, before the legislative body, which shall fix a time for hearing the same. The clerk shall notify the objectors of the time fixed for the hearing by publication.

Hearing 6048. At the time set, or at such other time as the hearing may be adjourned, the legislative body shall hear such objections and pass upon them, and at such time shall proceed to pass upon such report, and may confirm, correct, or modify the same, or may order the commissioners to make a new assessment, report, and plat, which shall be filed, notice given and had, as in the case of an original report.

CHAPTER 4. BIDS AND AWARD OF CONTRACT

Advertising for bids 6070. If the resolution of intention also provides for assessing upon the district the cost of regrading or repaving the streets to the changed or modified grade, after the report of the commissioners as to the damages caused by such change of grade has been passed upon by the legislative body, it shall then advertise for bids to perform the work of regrading, repaving, sewering, sidewalking or curbing such streets with the same or other material with which the same had been formerly graded, paved, sewered, sidewalked, or curbed.

Notice 6071. A notice, containing specifications, and inviting sealed proposals or bids for doing such work shall be posted, and a notice of the work, inviting proposals or bids and referring to the specifications posted or on file, shall be published.

Bids 6072. All proposals or bids offered shall be accompanied by a certified check, payable to the city, which shall be not less than 10 per cent of the aggregate of the proposals or bids; or by a bond for that amount, signed by the bidder and two sureties, who shall justify under oath in double that amount over and above all statutory exemptions. The proposals or bids shall be delivered to the clerk, and the legislative body shall in open session publicly open, examine and declare them. No proposal or bid shall be considered unless accompanied by a check or a bond satisfactory to the legislative body.

Acceptance 6073. The legislative body may reject any and all bids, and may award the contract to the lowest responsible bidder. If no proposal or bid is accepted the legislative body may readvertise for proposals or bids in the same manner that

proposals or bids were advertised for in the first instance, and thereafter proceed in the manner provided in this chapter.

Checks accompanying bids

6074. All checks accompanying bids shall be held by the clerk until the successful bidder has entered into the contract for the work. If he refuses to enter into the contract the amount of his certified check shall be declared forfeited to the city, and shall be collected and paid into its general fund, and all bonds so forfeited shall be prosecuted, and the amount thereof collected and paid into such fund.

Notice of award

6075. Notice of the awards of the contracts shall be published and posted in the same manner as that provided for in this chapter for the publishing and posting of the notices inviting bids or proposals for such work.

CHAPTER 5. MAKING AND COLLECTING THE ASSESSMENT

Cost of work

6090. After the contract has been awarded and entered into, the clerk shall certify that fact to the legislative body, together with the total amount of the cost of the same, and the legislative body shall cause a copy of the certificate to be forwarded to the commissioners.

Assessment of cost

6091. The commissioners shall proceed to assess the cost of doing the work upon all the lots and land lying within the assessment district, distributed so that each lot will be assessed for its proportion of the costs, according to the benefits it receives from the work, and in the same manner in which the damages caused by the change of grade were assessed upon each such lot.

Form of assessment

6092. The commissioners in making the assessment shall show the total amount for which each lot or tract is assessed in excess of all benefits, for the total cost of changing and modifying the grade of the street, as well as for the regrading, repaving, sewering, sidewalking, and curbing, and costs or damages connected therewith.

Assessment roll

6093. The clerk shall forward a certified copy of the report, assessment, and plat, as finally confirmed and adopted by the legislative body to the street superintendent. That certified copy shall thereupon be the assessment roll, the cost of which shall be provided for by the commissioners, as a portion of the cost of the proceedings therein. Immediately upon receipt of the copy by the street superintendent, the assessment therein contained shall become due and payable, and shall be a lien upon all the property contained or described therein.

Notice of assessment

6094. The superintendent of streets shall give notice, by publication, that he has received the assessment roll, and that all sums levied and assessed in the assessment roll are due and

payable immediately, and that the payment of those sums is to be made to him within 30 days from the date of the first publication of the notice. The notice shall also contain a statement that all assessments not paid before the expiration of 30 days will be declared delinquent, and thereafter the sum of 5 per cent of the amount of such delinquent assessment, together with the cost of advertising each delinquent assessment will be added thereto.

Delinquency

6095. The superintendent of streets shall, within five days from the date of such delinquency, publish a list of delinquent assessments, including all penalties and costs, with a notice of the time and place of sale of the property affected thereby. The cost of advertising shall not exceed fifty cents ($0.50) for each lot or parcel of land separately assessed. The list shall be published before the day of sale for such delinquent assessment.

Sale

6096. The time of sale shall not be less than seven days from the date of the first publication of the delinquent assessment list, and the place shall be in or in front of the office of the superintendent of streets. If any assessment together with the penalty and costs is not paid before the time of sale the street superintendent shall proceed to sell and shall sell each lot or parcel of land separately assessed at public auction to the bidder offering to pay the amount due for the least portion of such lot or parcel of land so offered for sale, and shall issue a certificate therefor. If there is no bidder the property shall be struck off to the city.

Redemption

6097. All property sold shall be subject to redemption for one year by the payment of the amount of the assessment, penalty and costs and interest thereon at the rate of 10 per cent per annum from the date of sale. The superintendent of streets shall, if there is no redemption, make and deliver to the purchaser at such sale, or his consignee, a deed conveying the property sold, and shall collect for each deed one dollar ($1). The deed of the street superintendent, made after such sale, in case of failure to redeem, shall be prima facie evidence of the regularity of all proceedings under this part, and of title in the grantee.

Payments

6098. The superintendent of streets shall from time to time pay over to the city treasurer all moneys collected by him on account of any such assessments. The city treasurer shall, upon receipt thereof, place such moneys in a separate fund, designating each fund by the name of the street or place for the change of grade for which the assessment was made. Payments shall be made from the fund to the parties entitled thereto, upon warrants signed by the commissioners or a majority of them.

Chapter 6. Eminent Domain Proceedings

Notice to claim damages

6120. When sufficient money is in the hands of the treasurer, in the fund voted for the proposed work, to pay the total cost for damages, as well as for the cost of doing the work, and all other expenses connected therewith, the commissioners shall notify the owner, possessor, or occupant of the premises damaged, and to whom damages have been awarded, that a warrant has been drawn for the payment of the same, which can be received at the office of the commissioners. Such notification may be made by depositing a notice, postage prepaid, in the post office, addressed to his last known place of residence. If, after the expiration of three days from the service or deposit of the notice in the post office, he shall not have applied for the warrant, the warrant shall be drawn and deposited with the treasurer, to be delivered to him upon demand.

Condemnation proceedings

6121. If the owner of any premises damaged neglects or refuses to accept the warrant, for 10 days after it has been placed in the hands of the treasurer, subject to his demand, the legislative body may cause proceedings to be commenced, in the name of the city, to condemn the premises, as provided by law under the right of eminent domain. The resolution of intention shall be conclusive evidence of the necessity of the same. Such proceedings shall have precedence, so far as the business of the court will permit.

Payment of judgments

6122. Any judgment for damages in the eminent domain proceedings shall be payable out of a special fund in the treasury established for that purpose. At any time after the entry of judgment or prior to or pending appeal, the court may order the city treasurer to set apart in the city treasury a sufficient sum from the special fund to satisfy the judgment, and thereupon may authorize or order the city to proceed with the proposed work. In case of a deficiency in the special fund to pay the whole assessed judgment and damages, the legislative body may, in its discretion, order the balance thereof to be paid out of the general fund of the treasury, or to be distributed by the commissioners over the property assessed by a supplementary assessment. In order to avoid delay in the event of a supplementary assessment the legislative body may advance the balance out of any available fund in the treasury, and reimburse the same from the collection of assessments.

Supplemental assessment

Payment of warrants

6123. The treasurer shall pay such warrants in the order of their presentation, except that warrants for damages and for costs of performing the work shall have priority over warrants for charges and expenses, and the treasurer shall see that sufficient money remains in the fund to pay all warrants

of the first class before paying any of the second. The provisions of Section 1251 of the Code of Civil Procedure, requiring the payment of damages within 30 days after the entry of judgment, shall not apply to damages rendered in proceedings under this division.

PART 5. IMPROVEMENT BONDS

CHAPTER 1. DETERMINATION TO ISSUE BONDS

Serial bonds

6400. The legislative body of any city may determine that serial bonds shall be issued in the manner and form provided in this part to represent assessments of twenty-five dollars ($25) or over for the cost of any work authorized in Part 3 of this division.

Domestic water supply

6401. If the contemplated work consists only of the construction or installation of conduits, pipes, hydrants, meters, or other appurtenances for supplying and distributing a domestic water supply, the legislative body of any city may determine that serial bonds shall be issued in the manner and form provided in this part to represent assessments of ten dollars ($10) or over for the cost of such work.

Collection of small assessments

6402. If the amount of the unpaid assessment upon any lot or parcel of land is less than twenty-five dollars ($25), or less than ten dollars ($10) for work mentioned in Section 6401, the assessment shall be collected as provided in Part 3 of this division.

Declaration to issue bonds

6403. When the legislative body determines that serial bonds shall be issued to represent the expenses of any proposed work under this division, it shall so declare in the resolution of intention to do the work, and shall specify the rate of interest which the bonds shall bear.

Sales to public agencies

6404. Notwithstanding any other provision in this division, the legislative body may sell to any local, State or National public agency or authority authorized to purchase the same, all or any part of any bonds issued pursuant to the provisions of this part, or any bonds issued pursuant to the Improvement Bond Act of 1915, upon the security of assessments levied under this division. Any such bonds may be sold to any such public agency or authority without advertisement or bidding, but shall not be sold for less than par. The interest rate on such bonds shall be the rate fixed therefor by the legislative body, but may be for a lesser rate than that so fixed if the legislative body finds a purchaser at such lesser rate. Upon the sale of any such bonds to any such public agency or authority, the purchase price thereof shall be paid to the contractor or his assigns in lieu of the bonds and in satisfaction of the balance due upon the assessment.

CHAPTER 2. ISSUANCE OF BONDS

Assessment list

6420. After the full expiration of 30 days from the date of the warrant, the street superintendent shall make and certify to the treasurer a complete list of all assessments unpaid, which amount to twenty-five dollars ($25) or over, upon any assessment, or diagram number, or which amount to ten dollars ($10) or over, upon any assessment, or diagram number, for work mentioned in Section 6401.

Payment before bond issued

6421. If any person, or his authorized agent, shall at any time before the issuance of the bond for the assessment upon his lot or parcel of land present to the treasurer the following:

(a) His affidavit stating that he is the owner of a lot or parcel of land in the list.

(b) The certificate of a searcher of records that he is such owner of record, and

(c) A notice to the treasurer stating that he desires no bond to be issued for the assessments upon his lot or parcel of land, then no such bond shall be issued therefor, and the payee of the warrant, or his assigns, shall retain his right to enforce collection as if the lot or parcel of land had not been so listed by the street superintendent.

Issuance of bonds

6422. The treasurer shall upon the filing of the list, make out, sign, and issue to the contractor, or other person entitled to the proceeds of the warrant and assessment, a separate bond, representing upon each lot or parcel of land upon the list the total amount of the assessment against the same, as thereon shown.

Description of land

6423. If a lot or parcel of land is described upon the assessment and diagram by its number or block, or both, and is also designated by its number or block, or both, upon the official map of the city, or upon any map on file in the office of the county recorder of the county in which the lot or parcel of land is situated, it shall be a sufficient description of the lot or parcel of land in the bond to designate it by the number or block, or both, as it appears on the official or recorded map.

Payments

6424. The bonds and interest thereon shall be paid at the office of the treasurer, who shall keep a fund designated by the name of the bonds, into which he shall place all sums paid him for the principal of the bonds and the interest thereon, together with all penalties thereon, and from which he shall disburse such sums, upon the presentation of proper coupons. Under no circumstances shall the bonds or the interest thereon be paid out of any other fund.

Bond record

6425. The treasurer shall keep a register in his office, showing the series, number, date, amount, rate of interest, payee and indorsees of each bond, and the number and amount

of each coupon or principal or interest paid by him and shall cancel and file each coupon so paid.

Bond signatures

6426. If any officer whose signature or countersignature appears on any bond or coupon ceases to be such officer before delivery of the bonds to the purchaser thereof, the signature or countersignature appearing either on the bonds or on the coupons, or both, shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of such bonds.

Effect of bonds

6427. Bonds issued pursuant to this part shall by their issuance be conclusive evidence of the regularity of all proceedings under this division leading up to such issuance.

CHAPTER 3. PAYMENTS ON ASSESSMENTS AT BOND

Principal payments

6440. After the street superintendent files his list of unpaid assessments with the treasurer, the principal of each unpaid assessment shall thereafter become due and payable to the treasurer in equal annual payments on the fifteenth day of each November succeeding the October 15th following the filing of the list until fully paid. The number of annual payments shall correspond to the number of serial payments to be made on the principal of the bonds issued to represent the unpaid assessment.

Interest payments

6441. The first interest payment on the unpaid assessment shall be payable on the fifteenth day of May next succeeding the April 15th or the fifteenth day of November next succeeding the October 15th, as the case may be, next following the filing of the list of unpaid assessments. The following interest payments shall each be for six months interest and shall be payable on each fifteenth day of May and November, the last interest payment coming due 45 days before the last annual payment of the principal of the bonds issued to represent the unpaid assessment.

Delinquent penalties

6442. If any installment of the principal of the unpaid assessment or of interest thereon is not paid on the date upon which the coupons representing it are payable, the treasurer shall after the close of business on the due date add to the principal or interest so delinquent a penalty of 1 per cent of the total amount of such delinquency, and at the beginning of the business on the first day of each succeeding month until such delinquent payment and all penalties thereon are fully paid, he shall add an additional penalty of 1 per cent of the amount of such delinquency. The treasurer shall collect such penalties with and as a part of the delinquent payment.

Notice

6443. At least 15 days before each respective fifteenth day of May and November, until the assessment is paid in full,

the treasurer shall mail, postage prepaid, to each owner of property described in the assessment, at his last known address, as appears upon the tax rolls a postal card notifying him of the amount due and the date when payment is due from him on the assessment and stating that the payment is subject to penalty if not paid on or prior to the due date of the coupons. The failure of the treasurer to mail the card or the failure of the property owner to receive it shall not affect the validity of any penalty or invalidate any act or proceeding.

Interest payments

6444. The treasurer may accept payments of installments of interest unaccompanied by payments of installments of principal which are due. The acceptance of such interest payments shall not affect the delinquent status of any installments of principal.

Bond record

6445. The treasurer shall, in addition to his other duties, keep a record of all bonds issued by him, of all payments on the bonds with the dates thereof and of all penalties accruing thereon.

Reports of payment

6446. The treasurer shall report all payments of coupons or penalties upon the bonds, with the dates thereof, to the street superintendent, who shall forthwith indorse the payments upon the margin of the record of the assessment to the credit of which they are paid, and the assessment shall be a lien upon the property affected thereby, with priority as fixed in Section 5373, until the bond issued to represent the assessment and which it is hereby declared does represent the assessment, and the accrued interest thereon and the penalties, if any, shall be fully paid according to the terms thereof.

Lump sum payments

6447. The owner of or any person interested in any lot or parcel of land upon which a bond has been issued under the terms of this division may at any time before commencement of proceedings for sale pay off the bond and discharge the land described in the bond from the lien of the assessment. The discharge may be had by paying to the treasurer, for the holder of the bond, the amount then unpaid on the principal sum thereof, with interest thereon calculated up to the due date of the next maturing interest coupon at the rate named in the bond, and all penalties accrued and unpaid.

Payment reports

6448. When the payment is made to the treasurer, he shall report the same to the street superintendent, who shall forthwith mark paid on the margin of the record of the assessment to represent which the bond was issued.

Thereupon the lien of the assessment shall cease and the treasurer shall forthwith notify the holder of the bond and call in the bond. The treasurer shall enter in his record of the bond the amount paid and the date of payment, and upon the lien of the assessment being thus extinguished he shall cancel the bond and file it in his office.

However, bonds issued in place of bonds issued prior to August 27, 1937, may bear interest at a rate not exceeding 10 per cent per annum on all sums unpaid.

CHAPTER 5. DIVISION OF LAND AND BOND

Division of bond

6480. If any lot or parcel of land for which a bond has been issued is divided into two or more separate lots or parcels of land, the bond may be surrendered and new bonds issued to the holder of the existing bond in the manner prescribed in this chapter.

Application

6481. When it is desired that new bonds be issued, an application therefor in writing signed by the owner of any interest in any of the lots or parcel into which the original lot or parcel has been divided shall be filed with the street superintendent. The application shall indicate how the original lot or parcel has been divided, request the street superintendent to apportion the amount remaining unpaid on the assessment in accordance with the division, and be accompanied by

Fee

a fee of five dollars ($5) for each separate part or parcel of land into which the original lot or parcel has been divided. The street superintendent shall deposit all such fees in the treasury.

Apportionment of assessment

6482. Upon receipt of the application and fee the street superintendent shall apportion to each separate part of the original lot or parcel of land the proportionate part of the amount remaining unpaid on the assessment that would have been levied thereon had the lot or parcel of land been so divided at the time the original assessment was made.

Request for new bonds

6483. When the apportionment has been made an application signed by all persons owning an interest in the original lot or parcel of land and by the holder of the existing bond on such lot or parcel of land may be filed with the treasurer requesting that new bonds be issued for the amounts shown by the apportioned assessment. The application shall be accompanied by evidence satisfactory to the treasurer that it is signed by all of the necessary persons.

Amendments to assessment and diagram

6484. When the treasurer has ascertained that the application is signed by all the necessary persons he shall so advise the street superintendent. The street superintendent shall thereupon amend the recorded diagram and assessment to conform to such division and apportionment and assign new assessment numbers to each separate part of the original lot or parcel of land.

New bonds

6485. The treasurer shall add to each apportioned amount a sum equal to 5 per cent thereof but in no event more than ten dollars ($10) and shall make and sign a new bond in the same form as the existing bond, to represent each such apportioned amount, and the amount so added if the apportioned amount is twenty-five dollars ($25) or more.

Installments

6486. The bond shall be payable in installments at the respective dates of the payment of principal and interest on the existing bond, the number of such installments to be equal to the number of unpaid installments on the existing bond.

Cash payments of amounts under $25

6487. No new bond shall be issued when the apportioned amount is less than twenty-five dollars ($25). If it is less, the apportioned amount shall be paid to the treasurer in cash for the benefit of the holder of the existing bond at or prior to the time of filing the application referred to in Section 6483.

Delivery of new bonds

6488. Upon the surrender of the existing bond the treasurer shall deliver to the bondholder or his agent or assigns the bonds issued for such apportioned assessments together with all payments of cash which may have been made pursuant to Section 6487.

Chapter 6. Default and Sale for Delinquency

Sale for delinquency

6500. Whenever payment upon either the principal or the interest of any bond is not made when the same is due, and the holder of the bond demands in writing that the treasurer proceed to advertise and sell the lot or parcel of land described in the bond as being that upon which the assessment represented by the bond was levied, the treasurer shall proceed to advertise and sell the lot or parcel of land as provided in this chapter.

Notice of sale

6501. The treasurer shall mail a notice of sale to the owner of any property to be sold for nonpayment of either principal or interest upon any delinquent bond. The notice shall be mailed postage prepaid to his last known address as shown upon the tax rolls or as filed in the office of the clerk. The notice shall be substantially in the following form:

Form

Unless the amount of the unpaid principal on said bond, together with interest and penalties, is paid to the city (or county) treasurer on or before six months after the mailing of this notice, the date of which being this _____ day of _____, 19___, the undersigned will institute proceedings to foreclose the lien of said bond in the manner prescribed by law."

Failure to receive notice

6502. The failure of the property owner to receive the notice shall not affect the validity of the sale or invalidate any subsequent act or proceeding.

Publication of notice

6503. After the expiration of six months from the time of mailing the notice, the treasurer shall publish a notice of sale in a newspaper of general circulation, published in the city in which the bond was issued, or if no newspaper is published in the city, then in some newspaper having general circulation therein.

Form

6504 The notice of sale shall be in substantially (filling in all blanks) the following form:

Now, therefore, I give notice that I will on the _____ day of _____, 19___, at the hour of _____ o'clock __m., of said day, sell at public auction the lot or parcel of land mentioned in said bond, or so much thereof as may be necessary at (here state the place of sale, which shall be at the office of said treasurer or at some public place in said city (or county)) unless the amount due on said bond and the accrued interest thereon together with the cost of the publication of this notice are paid; and that I will so sell the same to the person who will take the least amount of said lot or parcel of land and pay the full amount of unpaid principal and interest on said bond, together with costs of publication. The lot or parcel of land mentioned in said bond and to be sold, is more particularly described, to wit: (here set forth the description of the lot or parcel of land as contained in the bond). The amount due on said bond up to the date of this notice is as follows: Due on the principal thereof, _____ dollars ($_____); due on account of interest _____ dollars ($_____) (here set forth the interest calculated and compounded semiannually up to the date on which the notice is dated at the interest rate named in said bond upon the unpaid principal for the full period for which no interest has been paid) due on account of penalties _____ dollars ($_____). Total amount due on said bond (here set forth the total of the foregoing items).

In order to avoid this sale, payment of the total amount above named will be required together with the cost of publications made before such payment and the additional interest accruing up to the date of payment. Bond may be reinstated upon payment of amounts due, interest, penalties, and fees, in the manner provided by law.

In the event of sale, such sale will include interest in addition to the above total amount due accruing up to date of sale, the cost of publication of notice of sale, and one dollar ($1)

for the issuing of certificate of sale. The_____ (here name newspaper) is designated as the newspaper in which this notice shall be published.
Dated_____

_____
Treasurer of the City (or County)
of _____"

Date of sale

6505. The day named in the notice for the sale shall not be less than 15 days from the date of the first publication of the notice.

Affidavit of publication

6506. An affidavit of publication setting forth a copy of the publication and stating that the publication was made in the newspaper named on specified dates shall be filed with the treasurer and shall be primary evidence of the publication of the notice.

Fee

6507. The treasurer shall collect the sum of one dollar ($1) for the issuance of the certificate of sale, which sum shall belong to and be subject to the disposition of the city.

Redemption

6508. If at any time prior to the sale any person interested in the lot or parcel of land described in the notice of sale pays the whole amount of the unpaid principal of the bond, the interest thereon compounded semiannually up to the date of such payment, at the rate named in the bond upon the amount of the principal remaining unpaid for the whole period for which interest has not been paid, and all penalties which have accrued, together with the cost of the publication of the notice of sale, the bond shall be canceled.

Sale

6509. If such payment is not made, the sale shall be made as advertised, and the lot or parcel described in the bond shall be sold to the purchaser who shall take the least amount of the lot or parcel and pay all of the sums specified in the notice of sale.

Sale for insufficient amount

6510. If through error or otherwise the total amount for which the sale is made is less than that required by the provisions of this chapter, and the holder of the bond either is the purchaser at the sale and elects to accept the certificate of sale hereinafter mentioned, or accepts from the treasurer the sum derived from the sale made to some other purchaser, the fact that the sale was made for less than the amounts specified in this chapter shall not affect or invalidate the sale, and the acceptance of the certificate or of the sum derived from the sale shall be a waiver on the part of the holder of the bond, and in such case the amount received on the sale shall be the amount upon which redemption from the sale shall be calculated the same as if the sale had been made for the full amount authorized by this chapter.

Sales record

6511. The treasurer, before delivering any certificate of sale, shall enter the following data in a book kept in his office for that purpose:

(a) The date, number, and series of the bond.

(b) A description of the land sold corresponding with the description of the certificate of sale.

(c) The date of sale, the purchaser's name, and the amount paid.

He shall regularly number the descriptions on the margin of the book, and put a corresponding number on each certificate. He shall enter on the record of the bond the words: "Canceled by sale of the property," giving the date of such sale.

Public inspection

6512. Such book shall be open to public inspection during office hours when not in actual use.

Certificate of sale

6513. The treasurer shall issue for each sale an original and a duplicate certificate of sale containing:

(a) The date, number and series of the bond under which the sale was made,

(b) A description of the land sold, and

(c) The date of the sale, the purchaser's name, the amount paid, and the number of the certificate.

Delivery and recordation

6514. The treasurer shall deliver the original certificate of sale to the purchaser and shall record the duplicate in the office of the recorder of the county in which the land sold is situated.

Payment of taxes

6515. At any time after its delivery to him the legal holder of the certificate of sale may pay any general taxes, street improvement assessments, or any other tax or statutory lien upon the property described in the certificate of sale which may be prior to his lien or he may redeem the property from any sale made in the collection or enforcement of such general taxes, or foreclosing street improvement assessments or other tax or statutory liens.

Record of tax payments

6516. Upon production by the holder of the certificate of sale of the official receipt for the amounts so paid by him, the treasurer shall make an indorsement upon the certificate of sale showing that receipts have been so produced and stating the nature of the tax or lien paid, and the amount thereof. He shall also make a like entry in the book containing the bond record and shall collect the amount so entered as a part of the amount represented by the certificate of sale together with interest thereon at the same rate as provided on the purchase money for redemption.

Purchaser's lien

6517. Immediately on the sale, the purchaser shall become vested with a lien on the property sold to him, to the extent

of his bid. He may only be divested of that lien by redemption.

CHAPTER 7. REDEMPTION OF DELINQUENT PROPERTY

Redemption

6530. A redemption of the property sold may be made by the owner or any party in interest within 12 months from the date of purchase, or at any time prior to the application by the purchaser for a deed. Redemption shall be made in lawful money of the United States.

Redemption amount

6531. Redemption can be made only by the payment to the treasurer of the following, together with interest at the rate of 1 per cent a month from the date of sale:

(a) The purchase money and costs.

(b) The moneys paid for taxes, street improvement assessments, or other taxes or statutory liens or to redeem the property from any sale in the collection or enforcement of any of the liens.

(c) The fee of the recorder for recording the certificate of sale.

Redemption record

6532. When the redemption is made to the treasurer he shall mark the word: "Redeemed," the date and by whom redeemed on the margin of the book where the entry of the certificate of sale is made. He shall credit the amount paid to the purchaser named in the certificate, and pay the money to the purchaser, or his assignee, upon the surrender of the certificate of sale, and upon satisfactory proof of an assignment thereof, if the certificate has been assigned.

CHAPTER 8. CONVEYANCE OF UNREDEEMED PROPERTY

Notice of intention to apply for deed

6550. In order to obtain a deed the purchaser of the property or his assignees shall, 30 days prior to the expiration of the time of redemption, or 30 days before the date of his application for a deed, serve upon the owner of the property purchased, or his agent if he is named in the certificate of sale and upon the party occupying the property, if the property is occupied, a written notice, stating:

(a) That the property or a portion of it has been sold to satisfy the bond lien;

(b) The date of sale;

(c) The date, number and series of the bond;

(d) The amount then due, and

(e) The time when the right of redemption will expire, or when the purchaser will apply for a deed.

If the property is unoccupied, a similar notice must be posted in a conspicuous place upon the property at least 30 days before the expiration of the time for redemption, or 30 days before the purchaser applies for a deed.

Time for redemption

6551. The owner of the property shall have the right of redemption indefinitely, until such notice is given and the

deed applied for, upon the payment of the fees, penalties and costs as required.

Affidavit

6552. No deed to the property sold shall be issued by the treasurer to the purchaser until the purchaser files with the treasurer an affidavit showing that the required notice has been given. The affidavit shall be filed and preserved by the treasurer with other records kept by him in his office.

Notice costs

6553. The purchaser shall be entitled to receive fifty cents ($0.50) for serving or posting the notice and making the affidavit. The fifty cents ($0.50) shall be paid by the redemptioner at the same time and in the same manner as the other sums, costs and fees are paid on redemption.

Deed

Fee

6554. If the property is not redeemed within the time allowed the treasurer shall upon application of the purchaser or his assignee make a deed to the property, reciting in the deed substantially the matter contained in the certificate of sale, and that no person has redeemed the property during the time allowed for its redemption. The treasurer shall be entitled to receive two dollars ($2) from the purchaser for making the deed. All money so received by the treasurer shall be deposited in the treasury for the use of the city after payment has been made therefrom for the acknowledgment of the deed.

Effect of deed

6555. The deed of the treasurer, when duly acknowledged or proved, is primary evidence of the regularity of all proceedings theretofore had, and conveys to the grantee the absolute title to the lands described therein, as of the date of the expiration of the period for redemption, free of all encumbrances, except the lien for State, county and municipal taxes.

CHAPTER 9. CONTESTING VALIDITY OF SALES AND DEEDS FOR DELINQUENCY

Mailing copy of certificate of sale

6570. Within 60 days after the sale of the property for delinquency, the purchaser may send to the person to whom the property is assessed for purposes of taxation as shown upon the last equalized assessment roll of the county in which the property lies, and to the person in whose name, on the date the sale is made, the legal title to the property appears by deed duly recorded in the office of the county recorder of the county in which the property lies, by registered mail, postage prepaid, a copy of the certificate of sale.

Limitation on actions

If a copy of the certificate of sale is sent as provided in this section, no action, suit or proceeding to set aside, cancel or in any manner attack or question the validity of any sale for delinquency, or any proceedings prior thereto, shall be commenced or maintained by any person unless the same shall be commenced within one year after the date of sale, and after

the year has expired all persons shall be barred from commencing or prosecuting any such action, suit or proceeding, and any and all persons shall be barred from asserting or maintaining in any action, suit or proceeding that the sale, or any proceedings prior thereto, was invalid.

Limitation on actions to contest deed

6571. Any action, suit or proceeding attacking or contesting the validity of any deed issued under the provisions of this division, or the validity of the proceedings subsequent to the issuance of the certificate of sale, must be brought within six months after the issuance of the deed, and if the validity of the deed or of the proceedings is not contested within that six months' period, it shall not be thereafter contested or questioned in any action, suit or proceeding.

Invalidity of sale does not release lien

6572. If any sale of lands for delinquency in the payment of principal or interest of any bond is held illegal or invalid, or any deed issued to the purchaser at any such sale is held illegal or invalid for any reason whatsoever, the lands described in the bond shall not be released from the lien of the assessment but shall be and remain subject to further proceedings for the enforcement of the assessment, and the further proceedings may include additional sales or the issuance of new deeds. In any event, the lien of the assessment shall continue until a valid sale is had and a valid deed issued.

Certificate of delinquent list

See also Stats 1941, p 1963

6590. One month prior to the date it is provided by ordinance or charter that taxes are due, or if taxes are collected by the county for the city, on or before the fourth Monday in September of each year, the treasurer shall certify to the tax collector, or if the city taxes are collected by the county, to the county tax collector, a list of the properties upon which any payment either of principal or of interest has not been paid when due upon any bond issued under this part.

Description of property

6591. In each list sent to the county tax collector, the description of the properties reported shall be the descriptions used for the same properties on the map books of the county assessor for the then current year.

Collection of city taxes by county

6593. If the county collects city taxes the notice which is to be attached to or pasted to the tax bill or tax receipt shall, if the county tax collector so requires, be prepared by the city treasurer and shall be forwarded to the county tax collector on or before the dates herein provided for forwarding the list and the city treasurer shall, if the county tax collector so requires, stamp or attach the notices to the tax bill or receipt.

CHAPTER 11. FORECLOSURE OF BOND LIEN

Foreclosure action

6610. As a separate, distinct and cumulative remedy, the holder of any bond upon which any payment either upon the principal or of the interest has become delinquent may, if the city which initiated the proceedings is not a county, at any time after three months after the date it is provided by ordinance or charter of the city that taxes are due, or if a county initiated the proceedings or collects the taxes for the city at any time after four months next succeeding the fourth Monday of September, following the date of delinquency of principal or interest and prior to the expiration of four years after the due date of the last installment upon any bond or of the last principal coupon attached thereto, file and maintain an action to foreclose the lien of the bond and recover the amount due thereon.

Demand for payment

6611. The action may be brought at any time following the expiration of 30 days after the service of personal demand for payment upon the owner of the premises. Such demand shall be served in the manner provided by law for making personal service of summons. If the action is brought costs for the service of the demand shall be allowed in an amount equivalent to the fees prescribed by law for the service of summons.

Form

The demand shall be in substantially the following form:

"Demand for Payment of
Street Improvement Bond

You are hereby notified that Bond No._____ Series No. _____for an improvement in the City (or County) of _____is delinquent. Unless the amount of the unpaid principal on said bond together with interest and penalties is paid to the city (or county) treasurer on or before 30 days after the service on you of this demand, the date of such service being this_____day of_____, 19____, the undersigned will institute suit to foreclose the lien of said bond in the manner prescribed by law."

Superior court action

6612. The action shall be brought in the superior court of the county in which the proceedings were initiated and if the owner of the lot or parcel of land covered by the bond can not with due diligence be found, the service of summons in such action may be had in the manner prescribed by law.

Contents of complaint

6613. The complaint in the action shall be sufficient if it sets forth a true copy of the bond and makes appropriate allegations regarding the payments made upon the principal and interest of the bond. If personal demand for payment is made the complaint shall so allege.

Evidence of nonpayment

6614. The bond, together with proof, either orally by the treasurer or by a certificate signed by him showing the non-payment of any of the principal or interest upon the bond, shall be prima facie evidence of the right of the plaintiff to recover in the action. If personal demand for payment was made, proof of personal service of the demand shall be required.

Judicial sale

6615. The court may adjudge and decree a lien against the lot or parcel of land covered by the bond and cause the premises to be sold as in other cases of the sale of real estate by the process of the court to satisfy and discharge the bond and lien, and the amount of interest and penalties due shall be calculated at the rates and in the manner specified in this part for such calculation of interest and penalties, and shall be calculated and allowed up to the date of judgment. The court having jurisdiction of the action shall also fix and allow a reasonable attorney's fee for the prosecution of the action.

Attorneys' fees

Abstract costs

6616. The plaintiff in the action may also recover the cost of any abstract or report of search of title procured in good faith, in order to determine ownership, if it is made by a reputable abstractor or title company, and the cost of the same does not exceed five dollars ($5) per lot, if the abstract or report of search with an affidavit of payment is filed in the action.

Redemption

6617. The premises, if sold, may be redeemed as in other cases.

Law applicable to action

6618. The action shall be governed and regulated by the provisions of this chapter and by the other provisions of law which are not in conflict herewith.

Notice of pendency of action

6619. A written notice of the pendency of any action for recovery on a bond shall be filed with the treasurer. After the filing of such notice the treasurer shall not receive any money on account of the bond and he shall have no authority to cancel the entries on the bond in his register or give a discharge of the bond without the written consent of the owner thereof until judgment has been rendered in the action or until it has been dismissed.

Penalty for premature actions

6620. If an action is brought for recovery on any bond prior to the time specified in this chapter, the plaintiff shall not recover in such action and the defendant shall be entitled

to have and recover such attorney fees as the court deems reasonable, in addition to all taxable costs.

Delivery of bond to plaintiff
See also Stats 1941, p 1350

6621. Whenever a bond is foreclosed pursuant to this chapter, the decree of foreclosure shall direct the county clerk to deliver the bond sued upon to the plaintiff or his attorney together with a memorandum setting forth the title and number of the action and the fact that the bond has been foreclosed. Thereupon it shall be the duty of the plaintiff or his attorney to deliver the bond and memorandum to the treasurer of the city which issued the bond.

Cancellation of bond

PART 6. IMPROVEMENT OF RAILWAY ROADBEDS

CHAPTER 1. GENERAL PROVISIONS

Applicable provisions

6750. None of the provisions of Part 3 of this division relating to protests against the work shall apply to any work undertaken pursuant to the provisions of this part. All of the provisions of Part 3 of this division which are not inconsistent with the provisions of this part shall apply hereto.

"Roadbed"

6751. As used in this part "roadbed" includes that portion of any street used by the track of any railroad between the rails and for two feet on each side thereof and between the tracks if there is more than one, and includes the rails of such track or tracks.

CHAPTER 2. NEW IMPROVEMENTS

Improvement of roadbed

6760. Whenever any railroad track or tracks of any description exist upon any streets upon which the legislative body has ordered an improvement to be made, and has excepted the roadbed therefrom, the order, unless the legislative body shall by resolution theretofore passed have

declared to the contrary, shall constitute a requirement that the person having the railroad track or tracks thereon shall improve the roadbed with improvements similar in all respects to, and with the same materials, under the same specifications and superintendence, and to the like inspection and satisfaction as, those ordered to be performed by the order ordering the work.

Pavement between racks

6761. The legislative body may by ordinance require increased depth of concrete between to the full depth of or under the ties, or both, if the legislative body in its judgment decides that this method of construction is necessary.

Pavement alongside racks

6762. The legislative body may also require by ordinance or otherwise, any person having railroad track or tracks on the street to pave alongside of and contiguous to its rails with special types of brick or paving blocks.

Notice

6763. The resolution of intention and notice of proposed improvement shall be notice to the person of the intention to order the improvement.

Performance of work by owner

6764. When the legislative body acquires jurisdiction to order the improvement to be made, the person having the track or tracks on the streets to be improved shall notify in writing the superintendent of streets if such person elects to enter upon the direct performance of such work at its own charge and expense. The notice shall be delivered to the superintendent of streets within 10 days after the first publication of the notice of award of contract. The omission or neglect to make such election shall constitute the superintendent of streets the agent of the owner of the track or tracks, with authority to enter into a contract in accordance with the provisions of this part for making the improvements. The superintendent of streets shall advertise for bids for the improvement of the roadbed. The legislative body shall award the contract for the making of the improvements to the lowest regular responsible bidder. The bidding and awarding of contracts shall be made in the manner provided in Part 3 of this division for the awarding of contracts for improvements except that no notice of award shall be published.

Performance by superintendent of streets

Competitive bidding

Contract

6765. Immediately upon the award of the contract, the superintendent of streets shall enter into a contract with the person to whom the contract was awarded for making the improvements upon the portions of the streets described in the notice inviting bids, and at the price stated in the bid. The contractor shall execute bonds in the manner required by Section 5254.

Certificate of completion

6766. Upon the completion of the work and its acceptance, the street superintendent shall make a certificate of completion, together with a statement of the amount due under the

terms of the contract for the performance of the work. The certificate shall be countersigned by the mayor and shall be recorded in the office of the superintendent of streets. The contractor thereupon shall be entitled to payment of the full amount of the contract price, and the recording of such certificate shall be sufficient notice to the owner of such track or tracks that the contract price is due and payable. Payment to contractor

6767. If the contract price is not paid within 30 days from the date of the recording of the certificate, the contractor may file a sworn statement to that effect with the superintendent of streets, who shall record the same in his office in the book in which the certificate of acceptance has been recorded. The contractor shall thereupon have a cause of action against the person owning the tracks for the amount of the contract, together with a reasonable attorney's fee, and shall also have as security for the recovery of such amount, a first lien upon that portion of the track and franchises of the railroad, between whose rails or tracks the work has been performed, which is contained within the corporate limits of the city. Certificate of nonpayment. Cause of action

6768. In the action the certificate of completion shall be and constitute prima facie evidence of the regularity of all proceedings and of the right of the contractor to recover judgment against the person owning the tracks. Execution may be taken out upon the entry of judgment, and levied upon any property of that person which is subject to execution. Effect of certificate of completion

6769. If the person files a written election to enter upon the direct performance of the work at its own cost and expense, no further proceedings shall be taken in the matter unless such person neglects or fails for 30 days, or for such further time as the legislative body may grant, to make the improvement. If the improvement of the portions of the street required to be improved by such person is not made with diligence or in all respects similar to the improvement of the rest of the street, or with the same materials or under the same specifications, and to the satisfaction of the superintendent of streets, the legislative body may, by resolution entered in its minutes, prescribe such terms and conditions as to it may seem fit and proper before permitting the said person to continue with the work. Performance of work by owner

6770. If the person shall, after three days' notice of the adoption of the resolution, fail to comply with the terms and conditions so prescribed, the legislative body may declare that person to have forfeited its privilege of performing such work under its own direction. Whereupon the street superintendent shall advertise for bids for the performance of the work, or such portion thereof as may remain uncompleted, and the contract therefor shall be awarded and entered into in the Forfeited privilege. Performance by contract

manner provided for in this part for the awarding and execution of contracts where the person owning the track has not elected to make the improvements under its own direction.

Certificate of completion

6771. Upon the completion of the improvement, the contractor to whom the contract has been awarded, or his assigns, shall be entitled to a certificate of completion from the street superintendent, and shall have the right to collect from said person by suit, the amount specified in the certificate in all respects the same as provided in this part where the contract is let for such work in the first instance.

Pavement alongside rails

6782. The legislative body may also require, by resolution, any such person to pave alongside of and contiguous to its rails with special type of brick or paving blocks or other material.

Service of resolution

6783. The resolution to require and order the work shall be personally served upon the person having or owning such railroad track or tracks, or service thereof may be made upon any agent, representative or officer of such person. When served the resolution shall constitute notice to that person of the intention to order the work designated in the resolution.

Election to perform work directly

6784. The person served shall notify, in writing, the superintendent of streets of the city where such work is to be done if such person elects to enter upon the direct performance of such work at his own charge or expense. The notice shall be delivered to the superintendent of streets within 10 days after the service of the resolution requiring the work.

Performance by street superintendent

6785. The omission or neglect to make such election by delivering the notice shall constitute the superintendent of streets the agent of the owner of the track or tracks with authority to enter into a contract made in accordance with this chapter for doing the work.

The superintendent of streets shall thereupon be vested with authority to and he shall advertise for bids for the work and fix in the notice the time for receiving bids which shall be not less than five days from the first publication thereof.

6786. The legislative body shall award the contract for doing the work to the lowest regular responsible bidder.

All bids offered shall be accompanied by a check or by a bond and shall be delivered, opened and award of contract made, all as provided by Chapter 9 of Part 3 of this division, except that no notice of award shall be published.

Upon the award being made, the superintendent of streets shall enter into a contract with the person to whom the contract was awarded for doing the work described in the notice inviting bids, and at the price stated in the bid.

The contractor shall execute a bond in the manner required by Section 5254.

Certificate of completion

6787. Upon the completion of the work and its acceptance, the street superintendent shall make a certificate of completion, together with a statement of the amount due under the terms of the contract for the performance of the work. The certificate shall be countersigned by the mayor, and shall be recorded in the office of the superintendent of streets.

Payment

6788. When the certificate of completion has been recorded the contractor shall be entitled to payment for the full amount of the contract price, and the recording of the certificate shall be sufficient notice to the owner of such track or tracks that such amount is due and payable.

Default

6789. If the contract price is not paid within 30 days from the date of the recording of the certificate of completion,

the contractor may file a sworn statement to that effect with the superintendent of streets, who shall record the same in his office in the book in which the certificate of completion has been recorded. The contractor shall thereupon have a cause of action against the person owning the tracks for the amount of the contract, together with a reasonable attorney's fee, to be fixed by the court, and shall also have as security for the recovery of such amount, a first lien upon that portion of the track and franchises of said railroad which is contained within the corporate limits of the city.

Cause of action

Effect of certificate of completion

6790. In the action, the certificate of completion shall be prima facie evidence of the regularity of all proceedings, and of the right of the contractor to recover judgment against the said person. Execution may be taken out upon the entry of judgment, and levied upon any property of that person which is subject to execution.

Direct performance of work

6791. If the person files a written election to enter upon the direct performance of such work at its own cost and expense, no further proceedings shall be taken in the matter unless such person neglects or fails for 30 days, or for such further time as the legislative body may, by resolution, grant, to make and complete the work.

Terms and conditions

6792. If the work is not done with diligence as in this chapter provided, the legislative body may, by resolution entered upon its minutes, prescribe such terms and conditions as to it may see fit and proper before permitting the person to continue with the work. If the person shall, after three days' notice of the adoption of the resolution, fail to comply with the terms and conditions so prescribed, the legislative body may, at any time thereafter, declare the person to have forfeited its privilege of performing such work under its own direction. Whereupon the street superintendent shall advertise for bids for the performance of the work, or such portion thereof as may remain uncompleted, and the contract therefor shall be awarded and entered into in the manner provided for in this chapter for the awarding and execution of contracts where the person has not elected to make the improvements under its own direction.

Forfeiture of privilege

Award of contract

Certificate of completion

6793. Upon the completion of the improvement, the contractor to whom the contract has been awarded, or his assigns, shall be entitled to a certificate of completion from the street superintendent, and shall have the right to collect from the person by suit the amount specified in the certificate in all respects the same as provided in this chapter where the contract is let for such work in the first instance.

Additional regulations

6794. The legislative body may, by ordinance, prescribe and enforce such additional regulations and penalties as it

may deem necessary to compel the doing of the work as provided in this chapter on any portion of any street occupied by any railroad track or tracks.

CHAPTER 1. IMPROVEMENTS AUTHORIZED

Authority

7100. Whenever the public interest or convenience may require, the legislative body of any city is hereby empowered to make any of the improvements authorized in this chapter.

Change of grade

7101. The legislative body may establish or change or modify the grade of all or any portion of any street or right of way in the city, and also the grade of the roadway of any avenues of public travel in, on, under, over or through any street or other land of the city, or in, on, under, over or through any land in which and where the city may then have an easement or right of way therefor.

Damage to private property

7102. If in the opinion of the legislative body any damage to private property would result from the improvement thereof, it may also order the whole or any part, either in length or width, of such street or right of way or other land of the city, in which and where the city may then have an easement or right of way therefor, to be improved to conform to such official grade by grading or regrading, paving or repaving, planking or replanking, macadamizing or remacadamizing, piling or repiling, capping or recapping, graveling or regraveling, oiling or reoiling, sewering or resewering, sidewalking or residewalking, curbing or recurbing, guttering or reguttering, or by the construction, reconstruction or repair of manholes, culverts, cesspools, conduits, crosswalks, steps, parking or parkways, or by the construction, reconstruction or repair of poles, posts, wires, conduits, lamps and other appurtenances for the lighting thereof; or by the construction, reconstruction or repair of wells, pumps, dams, reservoirs, storage tanks, channels, tunnels, conduits, hydrants, pipes, meters or other appurtenances for supplying or distributing a domestic water supply.

Other work authorized

7104. The legislative body may also order the doing of any other work which is necessary to improve the whole or any portion of such street or other land of the city, or any avenues of public travel now or hereafter constructed under the proceedings provided in this division.

Work on other streets authorized

7105. If in the opinion of the legislative body damage will result to private property from the making of the improvement contemplated by the proceedings, the provisions of this division shall apply equally in cases where the official grade of any street or right of way, or of the roadway of any avenues

of public travel in, on, under, over or through any street or other land of the city, or in, on, under, over or through any land in which and where the city may then have an easement or right of way therefor has previously been established or changed, and where such grade is established, modified or changed in whole or in part by the same proceedings by which the improvement is ordered.

CHAPTER 2. RESOLUTION OF INTENTION

Resolution of intention

7120. Before ordering any establishment, change or modification of grade, or any improvement made which is authorized by this division, the legislative body shall pass a resolution of intention so to do, referring to the street by its lawful or official name, or the name by which it is commonly known or, if the improvement is not upon a street or public way, then by briefly describing the property or right of way on which the improvement is to be constructed, and briefly describing the improvement.

Contents

7121. The resolution of intention shall declare that in the opinion of the legislative body damage to private property will result from such improvement.

Description of work

7122. The resolution of intention shall be sufficient if it states in general terms the class or kinds of work contemplated such as grading or regrading, paving or repaving, sewering or resewering or other work or improvements, and gives in general the location of the proposed improvement and refers to plans, profiles, detailed drawings and specifications or such of them as may be suitable or proper for the full and detailed description of the proposed improvement.

Notice of hearing

7123. The resolution of intention shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed improvement may appear before the legislative body and show cause why the proposed improvement should not be carried out in accordance with the resolution of intention. The day for the hearing shall not be less than 30 nor more than 60 days from the date of the passage of the resolution of intention.

Description of the district

7124. The resolution of intention shall describe the exterior boundaries of the assessment district or the district may be described by giving a description according to any official or recorded map or by referring to a plat or map (which is on file in the office of the city clerk or city engineer at the time of passing the resolution of intention), which indicates by a boundary line the extent of the territory included in the proposed district. Such map or plat shall govern for all details as to the extent of the assessment district.

Grade

7125. The grade to which any improvement is made shall be the grade shown on the plans, profiles or specifications for the improvement or the grade already formally established by the legislative body. If any official grade has already been adopted or established for any of the streets or other places or property proposed to be improved, the resolution of intention may provide that the improvement shall be made to new grades or grades different from those so established or adopted, and shall refer to plans, profiles or specifications for the description of the grade at which the work is to be done.

Single proceedings

7126. The legislative body may include in one improvement, under one resolution of intention and order and under one contract, the grade of all or any portion of one or more streets, rights of way or other land of the city, or land in which and where the city has an easement or right of way, established, changed, or modified, and the grade of the roadway of any avenue of public travel in, on, under, over or through any portion of any streets, right of way or other land of the city, or land in which and where the city has an easement or right of way, established, changed or modified, and the construction of any one or more or all of the different kinds of work authorized in this division, upon the same or any part or portion thereof, and may exclude therefrom any of such work already done.

If such lots or parcels of land, or any of them, are by the resolution of intention omitted from the assessment, then the total expense of all work done shall be assessed on the remaining lots or parcels lying within the assessment district without regard to such omitted lots or parcels of land.

Payment of assessments by city

7128. If the legislative body in its resolution of intention declares that such lots or parcels of land so owned and in use, or any of them, shall be included in the assessment, or if no declaration is made respecting such lots or parcels of land, then such sums as thereafter may be assessed against such lots or parcels of land so owned and used shall be payable by the city, out of its general fund, unless the resolution of intention shall designate another fund, and the contract for the improvement shall contain a provision to that effect. Any such sums which may be assessed against any such lots or

parcels of land shall not be payable by the city if such sums are paid by the owner of or the governing body controlling such lots or parcels of land.

CHAPTER 3. NOTICE AND HEARING

7140. The resolution of intention shall be conspicuously posted for two days on or near the chamber door of the legislative body and published by two insertions in a daily or weekly newspaper published and circulated in the city, and designated by the legislative body for the purpose. If no such newspaper is so published and circulated in the city, the posting of the resolution of intention shall be sufficient.

7147. The city clerk shall, upon the completion of the mailing of the postal cards, file in the office of the superintendent of streets an affidavit setting forth the time and manner of his compliance with that requirement. The failure of the city clerk to mail the postal cards, or the failure of the property owners, or any of them, to receive them, or the failure of the superintendent of streets to post the notices of street work, or to post proper notices thereof, shall not affect the validity of the proceedings or prevent the legislative body from acquiring jurisdiction to order the improvement.

When may be required

7148. The legislative body may require affidavits to be filed showing the posting and mailing of the required notices before it adopts the resolution ordering the improvement.

Objections

7149. At or before the time fixed for the hearing any person interested, who objects to the proposed improvement or to the extent of the assessment district described in the resolution of intention, may file a written protest with the clerk of the legislative body. Such protest shall be in writing and no other protest or objection shall be considered. The clerk shall indorse on every such protest the date it is filed with him, and at the time fixed for the hearing, or at any other time to which the hearing may be adjourned, he shall present to the legislative body all protests so filed with him.

Affidavits of notice required

7150. Before the hearing of any protest there shall be filed with the legislative body affidavits showing that the notices have been posted and published as required thus far in the proceedings. The legislative body shall thereupon cause to be entered in its minutes an order reciting that notice of the hearing has been posted and published as required by law, and such order shall be prima facie evidence of the truth of the facts therein recited.

Hearing

7151. The legislative body shall hear and pass upon the protests at that meeting, or at any time to which the hearing thereof may be continued, and its decision shall be final and conclusive.

Majority protest

7152. If the protests are against the proposed improvement, and the legislative body finds that such protests are signed by the owners of a majority of the frontage of the property fronting on the streets or parts of streets within the assessment district, all further proceedings shall be barred for six months after the filing of such majority protests, unless the owners of a majority of such frontage shall in the meantime petition for the improvement to be made.

If such protests are not signed by a majority of the owners of such property, and such protests are sustained, no further proceedings shall be had under that resolution of intention, but a new resolution of intention for the same improvement may be passed at any time.

Denial

7153. If the protests are denied, the proceedings shall continue as if they had not been made.

Jurisdiction to order work done

7154. If no protests are filed at or before the time fixed for the hearing thereof by the resolution of intention, or if protests are filed and after hearing are denied, the legislative body shall have jurisdiction to order the establishment, change or modification of grade or other improvement described in the resolution of intention.

Order

7155. Having acquired jurisdiction to do so, it shall by resolution order the establishment, change or modification of grade or such other improvement to be made, and refer that resolution to the commission provided for in this division, to estimate the damages caused thereby, and report an assessment of damages, and of all costs and expenses of the improvement, on the property benefited thereby.

Chapter 4. Determination of Damages

Commission

7170. In any city having a board of public works, that board, and in other cities the mayor, city engineer or surveyor and superintendent of streets, or if all of such officers last mentioned do not exist in cities having no board of public

works, any three competent and disinterested persons appointed by the legislative body, shall act as a commission to estimate the damages caused by the proposed improvement and to assess the damages, and all costs and expenses of the proposed improvement upon the property benefited thereby.

Such commissioners, if they are appointed by the legislative body, shall be sworn to make the assessment of benefits and damages faithfully, impartially and to the best of their ability.

The commission shall have power to subpena witnesses to appear before it to be examined under oath, which any of the commissioners may administer.

Time and place for hearing
Notice

7171. Upon the passage of the resolution ordering the improvement, the commission shall appoint a time and place for the hearing of petitions for damages caused by the improvement, and shall cause notice of such time and place to be published for at least five days in a daily newspaper, or three times in a weekly newspaper, published and circulated in the city, or if no such newspaper is so published and circulated, then by posting.

Notice by mail

7172. The commission shall also cause a similar notice to be mailed to each owner of property, abutting upon the improvement where any change of grade is to be made, at his last known address as it appears on the tax rolls of the city, or as known to the clerk. The failure of the commission to cause these notices to be mailed, or the failure of property owners or any of them to receive the notices, shall not affect the validity of the proceeding or the jurisdiction of the legislative body to proceed.

Time for hearing

7173. The time set for the hearing of petitions for damages shall be not less than 30 days from the first publication or posting of such notice. Before the hearing the commission shall view the location of the proposed improvement and the property affected thereby. The hearing may be continued from time to time by the commission.

Petition for damages

7174. At or before the time set for the hearing of petitions for damages any person owning property, and claiming that his property will be damaged by the proposed improvement, shall file a petition with the superintendent of streets, who shall transmit it to the commission. The petition shall show the fact of such ownership, a description of the property claimed to be damaged, its market value, the amount of damages which it is claimed such property will sustain by the proposed improvement, and the post-office address of the petitioner, or his agent. Every petition shall be verified by the petitioner or his agent.

Determination of damages

7175. After considering the petitions filed in accordance with this chapter, after hearing the petitioners who appear,

and after viewing the location of the proposed improvement and the property affected thereby, the commission shall proceed to determine the amount of damages, if any, which will accrue to each lot or parcel of land and to each separate estate or interest therein because of the proposed improvement.

Benefits to be received from the improvement shall not be considered in computing damages.

Failure to petition for damages

7176. Any property owner who fails to file any petition for damages shall waive his right (1) to a hearing with respect to any damages to any property owned by him, and (2) to object to the amount of such damages fixed by the commission.

Chapter 5. Award and Performance of Contract

Specifications and notice inviting bids

7190. Before awarding any contract for doing any work authorized by this division, the legislative body shall cause a notice with specifications to be posted conspicuously for five days on or near its chamber door, inviting sealed bids for doing the work ordered. It shall also cause a notice inviting bids, and referring to the specifications posted or on file, to be published for two days in a daily or weekly newspaper published and circulated in the city and designated by the legislative body for that purpose. If there is no newspaper published in the city, then the notice shall only be posted.

Bids and security

7191. Every bid shall be delivered to the clerk and shall be accompanied by a certified check, amounting to 10 per cent of the amount of the bid, payable to the order of the clerk, or by a bond for that amount, and so payable, signed by the bidder and by two sureties who shall justify before any officer competent to administer an oath, in double the amount of the bond, and over and above all statutory exemptions. The amount of the check or bond shall be forfeited to the city if the bidder depositing the check or bond does not, within 10 days after written notice that the contract has been awarded to him, enter into a contract with the city to do the work and furnish the bonds required.

Award of contract

7192. The legislative body shall open the bids in public session and publicly declare them, and no bid shall be considered unless accompanied by the required bond or certified check. The legislative body shall let the contract to the lowest responsible bidder, who shall give bond for the faithful performance of the work in such sum as the legislative body may require, with sureties satisfactory to the legislative body. The legislative body may reject any and all bids, if it deems this for the public good, and also the bid of any person who has been delinquent or unfaithful in the performance of any contract let by or under the authority of the city.

Acceptance of work

7193. The contract shall provide that the work is to be done under the supervision of the superintendent of streets, and no work shall be paid for until it has been accepted by the legislative body.

Application for acceptance

Notice of hearing

7194. Whenever the contractor desires all or any part of the work to be accepted, he shall make written application therefor to the legislative body. Upon the filing of such application, the clerk shall give not less than five days' notice by publication by two insertions in a daily or weekly newspaper published and circulated in the city, or by posting for two days in three public places in the city if no such newspaper is published and circulated in the city, that at a certain time and place named in the notice, the legislative body will hear and consider any objections to the acceptance of all or part of the work, for the acceptance of which the contractor has made such application. The legislative body shall not accept any work until after such a hearing.

Objections

7195. If upon such hearing any objections to the acceptance are made and sustained by the legislative body, the legislative body shall require the contractor to take such steps as will remove such objections. If the contractor fails to do so, within such time as the legislative body shall prescribe, the legislative body may relet such portion of the work, and may charge the contractor the cost thereof together with all expenses incident to the reletting. The legislative body may retain the amount of such cost and expenses out of any moneys due or to become due to him under the contract, and may also hold him and his sureties responsible therefor upon his bond.

Contract terms

7196. The contract shall provide that the work shall be commenced within 20 days after the contractor receives written notice from the superintendent of streets that there is sufficient money or bonds or money and bonds in the special fund devoted to the improvement to pay the contract price, and that the contractor shall complete the work within such time as the superintendent of streets shall prescribe.

Abandonment by contractor

7197. If the contractor abandons or fails to proceed with the work as required by his contract, the legislative body may either relet all or any portion of the contract or it may complete the work by the direct purchase of labor and materials, and pay the cost of completing the work, including any expenses incident thereto, out of the funds due or to become due the contractor. The legislative body may also hold the contractor and his sureties responsible upon his bond for such costs and expenses, and also any damages resulting from such abandonment or failure to proceed with the work as required by his contract.

Completion by city

7198. If the legislative body elects to complete the work, it shall serve not less than five days' written notice of its election upon the contractor or upon his agent having charge of the work. Such notice may be served by personally delivering such notice to the contractor, or to his agent having charge of the work, or by sending it by registered mail to the contractor or agent at his last known address (the period of five days to run from the date of registration in the post office). If the contractor or his agent has left the State or if his address is unknown, it shall be sufficient to post such notice in a conspicuous place upon the premises of work.

Chapter 6. Bond for Labor and Material

Labor and material-men's bond

7210. At the time of executing the contract, the contractor shall execute, deliver to, and file with the superintendent of streets a good and sufficient bond in a sum not less than one-half of the total contract price. The bond shall be executed by two or more good and sufficient sureties or by a corporate surety as provided by law, and shall provide that if the contractor or any of his subcontractors fail to pay (1) for any materials, provisions, provender or other supplies or teams, or (2) for the use of implements or machinery used in, upon, for or about the performance of the work contracted to be done, or (3) for any work or labor thereon of any kind, that the surety shall pay therefor in an amount not exceeding the sum specified in the bond, and (4) if an action is brought upon the bond, that the surety shall pay a reasonable attorney's fee to be fixed by the court.

The bond by its terms shall inure to the benefit of any and all persons entitled to file claims under this division, so as to give a right of action to them or their assigns in any action brought upon the bond.

Claims against contractor

7211. At any time prior to the expiration of the periods within which claims of lien are required to be filed for record by Section 1187 of the Code of Civil Procedure, a verified statement of claim, together with a statement that all or some part thereof has not been paid, may be filed with the superintendent of streets by any of the following whose claim has not been paid by the person to whom the contract was awarded, or by the subcontractors of such person:

(a) Any person furnishing materials, provisions, provender or other supplies used in, upon, for or about the performance of the work contracted to be executed or performed.

(b) Any person renting or hiring teams or implements, or machinery for, or contributing to, the work to be done.

(c) Any person who performs work or labor upon such work.

(d) Any person who supplies both work and materials.

Notice of completion

7212. The superintendent of streets may, within 10 days after the completion of any such contract or work of improvement, or within 10 days after a cessation of labor thereon for a period of 30 days, record in the office of the county recorder of the county where the property is situated, a notice giving the date on which such contract or work was completed or on which cessation from labor occurred, the name of the city, a description of the property or work of improvement sufficient for identification, and the name of the contractor and of the surety. Such notice shall be verified by the superintendent of streets, and if such notice is not recorded the failure so to record shall have the same effect as provided in Section 1187 of the Code of Civil Procedure, with reference to the "owner."

Claimants' lien

7213. Any person entitled to the benefit of this chapter, whose claim has not been paid by the contractor, or his subcontractors, shall severally have a first lien upon and against the assessment, any partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment. Any actions against the city or superintendent of streets to establish such liens brought by any claimant who has filed claims under this division, or by his assigns, shall be governed by the provisions of Sections 1184, 1184a, 1184b, and 1184c of the Code of Civil Procedure, and the verified notice provided for in the said sections shall be equivalent for all purposes to the verified claim provided for in this chapter.

Assignments by contractor

7214. No assignment by the contractor of all or any part of the money, assessment, partial assessment, any reassessment and any bonds which are issued to represent any assessment or reassessment, due him or to be due him, or for "extras" in connection therewith, whether made before or after a verified claim is filed as provided in this chapter, shall be held to take priority over claims filed under this chapter. Any such assignment shall have no binding force as against the rights of claimants or their assigns, who file claims under this chapter.

Payments to contractor

7215. Nothing in this chapter shall prohibit:

(a) Payment to the contractor or his assigns, so long as no verified claim is on file before the disbursing officer actually surrenders possession of the assessment, partial assessment, any reassessment, and any bonds issued to represent any assessment or reassessment.

(b) The payment to the contractor or his assigns of any assessment, partial assessment, any reassessment and any bonds issued to represent any assessment or reassessment, due him or his assigns over and above the total amount of the claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with those claims.

Action on bond

7216. Any claimant or his assign may bring an action against the sureties on the bond of the contractor at any time after the claimant has ceased to perform labor or furnish material or both and until the expiration of six months after the period in which verified claims may be filed. The filing of a verified claim shall not be a condition precedent to the maintenance of an action against the sureties on the bond and an action on the bond may be maintained separately from and without the filing of an action against the city or officer by whom such contract was awarded. Upon the trial of any such action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs, and to be included in the judgment rendered in the action.

Disputed claim

7217. If the contractor, subcontractor or other person against whom any claim is filed disputes the correctness or validity of the claim, the city or superintendent of streets by whom the contract was awarded, in its or his discretion, may permit the contractor to whom the contract was awarded to deliver to the city or superintendent of streets a bond executed by a corporate surety in a penal sum equal to one and one-fourth times the amount of the claim.

Bond guaranteeing payment

7218. Such bond shall guarantee the payment of any sum which the claimant may recover on his claim, together with his costs of suit if he recovers in the action. Upon the filing of such bond by and with the consent of the city or superintendent of streets, the city or superintendent of streets shall not withhold from the contractor on account of that claim any funds, assessment, partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment. The sureties upon the bond shall be jointly and severally liable to the claimant with the sureties upon the original bond inuring to the benefit of persons entitled to file claims under this chapter.

Chapter 7. Making the Assessment

Assessment

7230. The commission shall, as soon as practicable after determining what damage will be caused by the improvement, and after the signing of the contract for the work, assess the total amount of all the incidental expenses of such improvement upon the respective lots or parcels of land in the assessment district, in proportion to the benefits to be received by such lots or parcels of land, respectively, from the improvement. Such incidental expenses:

Incidental expenses

(a) Shall include the necessary expenses and disbursements of the commission, the cost of making the assessment, and all expenses necessarily incurred by the city in connection with the proposed improvement for maps, diagrams, plans, surveys and other matters incident to the improvement.

(b) May also include all cost and expense incurred in carrying out the investigations and reports required by the "Special Assessment Investigation, Limitation and Majority Protest Act of 1931."

Commission's report

7231. The commission shall make and file with the clerk of the legislative body a written report containing the following:

(a) A schedule describing the lots or parcels of land belonging to each petitioner for damages and which will be damaged by the improvement, stating its determination as to the owner of and damages to each such lot or parcel of land and to each separate estate or interest therein.

(b) A diagram of the assessment district, and also the boundaries and dimensions of each lot or parcel of land within the district. Each lot or parcel of land shall be given a separate number in red ink upon the diagram.

(c) A proposed assessment of the total amount of damages that the commission determines will be caused by the improvement, the total amount of the contract price for the work and the total amount of the incidental expenses thereof as above specified, upon the respective lots or parcels of land in the district in proportion to the benefits to be received by such lots or parcels of land, respectively, from the improvement. The assessment shall refer to such lots or parcels of land upon the diagram by the red ink numbers thereof, and need contain no other description thereof. The assessment shall show the names of the owners, if known, otherwise designating them as unknown; but no mistake in the name of the owner of any lot or parcel of land shall affect the validity of the assessment thereon.

In case the commissioners do not all agree, a majority of the whole number may make such report.

Time of hearing

7232. Upon the filing of the commission's report, the clerk of the legislative body shall present such report to the legislative body. The legislative body shall fix a day for the hearing thereof, which day shall not be less than 20 days from the date of filing the report.

Notice

7233. The legislative body shall cause a notice of such hearing to be published by the clerk thereof, by three insertions in a daily newspaper published and circulated in the city, or if there is no daily newspaper published and circulated in the city, then by two successive insertions in a weekly newspaper so published and circulated; or if no newspaper is so published and circulated, then by posting. Such publication or posting shall be completed at least 10 days before the date fixed for the hearing.

Contents

7234. The notice shall state that the report has been filed, and the date set for the hearing thereof, and require all persons interested to file with the clerk, at or before the time fixed

for the hearing, their objections, if any they have, to the confirmation of the report.

Notice by mail

7235. The clerk shall also give such notice by mailing a post card to each owner of property abutting upon the improvement at his last known address as it appears on the tax rolls of the city, or as known to the clerk. The clerk's failure to give such notice or of the person addressed to receive it shall not affect the jurisdiction of the legislative body to proceed with the hearing.

Objections

Hearing

7236. The owners and all other persons interested in the report may object thereto by filing with the clerk, prior to the date fixed for the hearing of the report, a brief written statement of the grounds for their objections. At the time fixed, or at any other time to which the hearing may be continued, the legislative body shall hear the report and any objections thereto.

Action on the report

7237. At the hearing the legislative body may remedy and correct any error or informality in the proceedings; may confirm, amend, modify or correct the report in such manner as to it seems just; and may instruct and direct the commission to correct the report in any particular.

Determinations final

All the decisions and determinations of the legislative body upon notice and hearing as provided in this chapter, shall be final and conclusive, except as to the damages to be caused by the improvement, upon all persons entitled to object under the provisions of this chapter, as to all errors, informalities and irregularities which the legislative body might have avoided or remedied during the progress of the proceeding, or which it could at that time remedy.

Validity

7238. Neither the report, nor any proceedings prior thereto, shall be held invalid by any court for any error, informality or other defect if the resolution of intention to do the work has been actually published as provided in this division.

Assessment roll

7239. If no objection is filed or when the orders and determinations of the legislative body made at the hearing have been complied with, and the legislative body is satisfied with the correctness of the report the clerk of the legislative body shall transmit to the superintendent of streets the diagram and assessment as finally confirmed. The superintendent of streets shall thereupon record such assessment and diagram in his office in a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording. Such record shall be the assessment roll. From the date of such recording all persons shall be deemed to have notice of the contents of the assessment roll.

Assessment lien

7240. Immediately upon such recording the several assessments contained in the assessment roll shall become due and

payable, and each of such assessments shall be a lien upon the property against which it is made, paramount to all other liens, except liens for State, county and municipal taxes. Such lien shall be subordinate to all special assessment liens previously imposed upon the property, but it shall have priority over all special assessment liens thereafter created against the same property. The liens shall only be discharged by payment of the assessment or by redemption of the land after sale for delinquency.

Notice of recording assessment

7241. The superintendent of streets shall, upon the recording of the assessment, give notice of such recording by publication for five days in a daily newspaper published and circulated in the city, or by two insertions in a weekly newspaper so published and circulated. If no daily or weekly newspaper is so published and circulated in the city, then he shall post such notice for four days in three public places in the city.

Contents

7242. Such notice shall state:

(a) That the assessment has been recorded in the office of the superintendent of streets and that all sums assessed therein are due and payable immediately.

(b) That payment of those sums must be made to the superintendent of streets within 30 days after the date of the first publication or posting, which date shall be stated in the notice.

(c) Assessments not paid before the expiration of the 30 days shall be delinquent, and thereupon 5 per cent shall be added to the amount thereof.

Payment

7243. When payment of any assessment is made the superintendent of streets shall mark opposite such assessment the word "paid," the date of payment, and the name of the person by or for whom the payment is paid, and shall give a receipt for such payment.

Delinquency

7244. Upon the expiration of the 30-day period specified in the notice, all assessments then unpaid shall be delinquent, and the superintendent of streets shall mark each such assessment "delinquent" on the assessment roll, and add 5 per cent to the amount thereof.

CHAPTER 8. SALE AND REDEMPTION OF DELINQUENT PROPERTY

Delinquent list

7260. The superintendent of streets shall within 30 days from the date of delinquency begin the publication of a list of the delinquent assessments. Such list shall contain a description of each lot or parcel of land delinquent, and opposite each description the name of the owner as stated in the assessment roll, and the amount of the assessment and costs due, including the cost of advertisement, which shall not exceed the sum of fifty cents ($0.50) for each lot or parcel of land assessed.

Notice of sale

7261. The superintendent of streets shall append to and publish with the delinquent list a notice that unless each delinquent assessment, together with the penalty and costs thereon, is paid, the property upon which such assessment is a lien will be sold at public auction at a time and place to be specified in the notice.

Time and manner of publication

7262. Such publication shall be made by five insertions in some daily newspaper published and circulated in the city, or by two insertions in a weekly newspaper so published and circulated. If no daily or weekly newspaper is so published and circulated in the city, such list of delinquent assessments and notice shall be posted in three public places in the city for five days.

Time of sale

7263. The time of sale shall not be less than five days nor more than 10 days after the last publication of the delinquent list, or after the completion of such posting, as the case may be, and the place of sale shall be in or in front of the office of the superintendent of streets.

Redemption prior to sale

7264. At any time after such delinquency and prior to the sale of any lot or parcel of land assessed and delinquent, any person may pay the assessment on such piece of property, together with the penalties and costs due thereon, including the cost of advertising, if such payment is made after the first publication of the list of delinquent assessments.

Sale

7265. At the time and place fixed for the sale the superintendent of streets shall, commencing at the head of the list, and continuing in numerical order, sell the lots or parcels of land advertised until all are sold. He may continue the sale from day to day until all the property is sold.

Terms of sale

7266. Each lot or parcel of land separately assessed shall be offered for sale separately, and the person who will take the least quantity of land and then and there pay the amount of the assessment, penalty and costs due, including fifty cents ($0.50) to the superintendent of streets for a certificate of sale, shall become the purchaser. If there is no other purchaser for any lot or parcel of land offered for sale, it shall be struck off to the city as purchaser.

After all sales have been made the superintendent of streets shall report to the city treasurer the amount collected.

Certificate of sale

7267. After making the sale the superintendent of streets shall execute in duplicate a certificate of sale setting forth:

(a) A description of the property sold.

(b) The name of the owner thereof as given in the assessment roll.

(c) A statement that the property was sold for a delinquent assessment, specifying the improvement for which the assessment was made.

(d) The amount for which such property was sold.

(e) The date of sale.

(f) The name of the purchaser.

(g) The time when the purchaser will be entitled to a deed.

Record of sale

7268. The superintendent of streets shall file one copy of the certificate of sale in his office, and deliver the other to the purchaser, or if the city is the purchaser, to the clerk of the legislative body, who shall file such copy in his office. Upon the filing of the copy of the certificate in the office of the superintendent of streets, the lien of the assessment shall vest in the purchaser and is only divested by a redemption of the property as provided in this division.

The superintendent of streets shall also enter upon the assessment roll opposite the description of each lot or parcel of land offered for sale, the description of the portion thereof sold, the amount for which it was sold, the date of the sale, and the name of the purchaser.

Redemption

7269. At any time before the expiration of one year from the date of the sale, any lot or parcel of land sold for a delinquent assessment may be redeemed by any party in interest by the payment to the superintendent of streets of the amount for which the property was sold, and in addition thereto, 10 per cent thereon if paid within six months from the date of sale; and 25 per cent if paid within 12 months.

Redemption record

7270. The superintendent of streets shall note any redemption made and the date thereof on the duplicate certificate of sale on file in his office, and deposit the amount paid with the city treasurer, who shall credit the purchaser named in the certificate of sale with that amount and pay that amount to the purchaser or to his assigns, upon the surrender of the certificate of sale and upon satisfactory proof of assignment thereof, if any. If the city is the purchaser, the superintendent of streets shall notify the clerk of the legislative body of the redemption, and the clerk shall thereupon cancel the certificate of sale on file in his office.

Deed

7271. At any time after the expiration of 12 months from the date of sale the superintendent of streets shall on request execute to the purchaser, or to his assignee, if such purchaser or assignee has complied with this chapter, a deed to the property sold, in which shall be recited substantially the matters contained in the certificate, also any assignment thereof, and the fact that no person has redeemed the property. The superintendent of streets shall receive one dollar ($1) for such deed unless the city is the purchaser, in which case no charge shall be made therefor.

Notice of application for deed

7272. The purchaser or his assignee shall, at least 30 days before he applies for a deed, serve upon the owner of the property, and upon the occupant of the property if it is occupied, a written notice, setting forth a description of the property, that the property has been sold for a delinquent assessment (specifying the improvement for which the assessment was made), the amount for which it was sold, the amount necessary to redeem at the time of giving notice, and the time when such purchaser or assignee will apply to the superintendent of streets for a deed.

Unknown owners

If the owner can not be found, after due diligence, the notice shall be posted in a conspicuous place upon the property at least 30 days before the time stated therein at which the application for a deed will be made.

Affidavits

7273. The person applying for a deed shall file with the superintendent of streets one or more affidavits, showing that notice of such application has been given, as required in this chapter, and if the notice was not served on the owner of the property personally, that due diligence was used to find the owner. The superintendent of streets shall file such affidavits in his office.

Service fees

If redemption of the property is made after such affidavits are filed, and more than 11 months from the date of sale, the person making such redemption shall pay, in addition to the other amounts required, three dollars ($3) for the service of notice and the making of such affidavits, which amount shall be paid over to the purchaser or his assignee, in the same manner as other sums paid for redemption.

When deed issues

7274. No deed for any property sold for a delinquent assessment shall be made until the purchaser, or his assignee, has complied with all of the provisions of this chapter, and filed the proper affidavits with the superintendent of streets. The deed shall be prima facie evidence of the truth of all matters recited therein, and of the regularity of all proceedings prior to the execution thereof, and of title in the grantee.

Chapter 9. Special Improvement Fund

Improvement fund

7290. The funds collected by the superintendent of streets under the proceedings provided for in this division, either upon voluntary payment or as the result of sales, shall be paid by the superintendent of streets as fast as collected to the city treasurer who shall place such funds in a special fund designated by the number or name of the proceedings, and payment shall be made out of the special fund only for the purposes provided for in this division.

Loans by city

7291. To expedite the making of any improvement under this division the legislative body may at any time transfer into the special fund out of any money in the general fund such sums as it may deem necessary. The sums so transferred

shall be deemed a loan to such special fund, and shall be repaid out of the proceeds of the assessments provided for in this division.

Contributions by city

7292. The legislative body of any city may order, by resolution entered upon its minutes, that the whole or any part of the costs and expenses of any of the work mentioned in this division shall be paid out of the treasury of the city from such fund as the legislative body may designate. Whenever a part of such cost and expenses is so ordered to be paid the commission in making up the assessment for such cost and expenses shall first deduct from the whole cost and expenses such part thereof as has been so ordered to be paid out of the city treasury, and shall assess the remainder of the costs and expenses proportionately upon the lots or parcels of land within the assessment district in the manner heretofore provided in this division.

Financing deficits

7293. If the first assessment for any improvement under this division, or if the sale of any bonds issued to represent assessments under this division, fails to raise sufficient money to pay all costs, damages and expenses of the improvement, including any judgments rendered in the action and proceedings mentioned in this chapter and the costs and expenses of such action or proceedings, the legislative body may pay the deficit out of the general fund, or may order a supplemental assessment to raise such deficit, which shall be made and collected in the same manner, as nearly as may be, as the first assessment, and so on until sufficient money is raised to pay for such improvement.

Notice of payments

7294. When sufficient money is in the special fund devoted to the proposed improvement to pay the total amount of estimated damages therefrom, all expenses of the proceedings and the cost of doing the work, the superintendent of streets shall:

(a) Notify the contractor for the work of that fact.

(b) Draw demands on the special fund for the respective amounts of damages awarded by the report.

(c) Notify the owner of each lot or parcel of land declared by the report to be damaged, if the name of such owner is stated in the report, that the awards of damages are payable, and that he may receive the sum awarded to him on executing a release to the city of all liability for damages caused by the improvement. Such notification may be given by depositing a notice, postage prepaid, in the post office addressed to such person at his last known residence.

Condemnation action

7295. If any owner of property that will be damaged by the improvement fails or refuses to accept the amount awarded to him by the report of the commission, the legislative body may cause proceedings to be brought against him in the name of the city, in the superior court, to have the damages to such

property determined. Such proceedings shall conform, as nearly as may be, to the provisions of the Code of Civil Procedure, regarding eminent domain, except that the plaintiff shall not be required to pay the amount of damages awarded within 30 days after judgment. In such proceeding the resolution ordering the improvement shall be conclusive evidence of the necessity of the improvement.

Owner's action against city

7296. If no such proceeding is brought against him, any owner of property damaged by the improvement may decline to accept the amount awarded him, if any, and bring an action against the city to recover the amount to which he claims to be entitled. Any such action shall be brought within 30 days after the final completion of the improvement. If in such action he fails to recover more than the amount awarded to him by the report of the commission, he shall not recover costs.

CHAPTER 10. REASSESSMENTS

Conditions of reassessment

7310. If any assessment heretofore or hereafter issued is void or unenforceable for want of sufficient authority for its issuance or from irregularities, or illegalities in the proceedings, or if bonds are heretofore or hereafter issued to represent any assessments and such issuance is not effective through the curative provisions thereof to make them valid and enforceable, then, in any of such events a reassessment therefor shall be issued.

Costs payable by benefited property

7311. The true intent and meaning of this chapter is to make the cost and expense of any work or improvement made through an attempted compliance with this division, payable by the lots or parcels of land benefited by such work or improvement by making a reassessment therefor.

The power of reassessment embraces both a full and a partial reassessment, and is not exhausted by a single attempted exercise thereof.

Reassessments

7312. A reassessment shall be ordered under any one of the following circumstances:

Request of bondholder

(a) Whenever the owner or holder of any assessments, or of bonds issued to represent assessments, requests the legislative body of the city in which the assessment is issued to order a reassessment. If the legislative body is of the opinion that the assessments or bonds in question are not enforceable, it shall order the making and issuing of a reassessment covering only the assessments owned or held by the petitioner, or the assessments represented by the bonds owned or held by the petitioner.

Court order

(b) Whenever any court of competent jurisdiction in any action to foreclose the lien of any assessment or to enforce the obligation of any bond issued to represent any assessment issued under this division, has for any reason held such lien

unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such action.

Court order

(c) Whenever any court of competent jurisdiction in any action to set aside the lien of any assessment or of any bond representing any assessment or in any action to quiet title against the lien of any such assessment or bond in its judgment decrees such assessments or bonds to be void or unenforceable, then it shall in and by its decree direct the making of a reassessment to cover the assessments involved in such action.

Making the reassessment

7313. The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body of the city directing a reassessment, assess upon and against the lots or parcels of land mentioned in the decree or order the benefits derived or to be derived by each from the work or improvement estimated as of the date of the original assessment.

To each sum so reassessed there shall be added interest thereon from the date of the original assessment at the rate of 7 per cent per annum.

Form

7314. The reassessment need not be in any prescribed form, but shall refer to the original assessment, give the date of the original assessment and state that it is made pursuant to the order of the legislative body of the city or decree of the court, as the case may be. It shall then be presented to the legislative body, which shall fix a time for hearing before it. Such time shall be at least 20 days after the reassessment is so presented.

Time of hearing

Notice

7315. The city clerk shall then advertise the time of the hearing before the legislative body by publishing a notice in the newspaper in which the notice of award of contract for the improvement for which the assessment was made, was published unless the legislative body directs publication in some other newspaper. Such notice shall be published for five insertions, if the newspaper is a daily, or by two insertions, if the newspaper is published less frequently.

Objections

7316. At the time fixed for the hearing or at any time to which it may be thereafter adjourned, the legislative body shall consider the objections to the reassessment and in its discretion informally direct the revision, correction or modification of such reassessment in such manner as is most equitable. When such reassessment is revised, corrected or modified to comply with the judgment of the legislative body, then it shall pass a resolution confirming the reassessment.

Recordation

7317. The street superintendent shall thereupon record the reassessment with a certificate at the end thereof by the city

clerk, that it is the reassessment approved by the legislative body. He shall also note opposite the several assessments in the original assessment that are displaced by the reassessment the fact that the reassessment has been made, giving its date, and shall credit upon such reassessment all payments theretofore made upon the original assessment, or upon the bonds issued to represent the original assessment, applying such payments first to the interest due and then upon the principal.

Enforcement

7318. A reassessment shall be collectible and payable in the same manner as an original assessment and shall be enforceable by action in the manner provided for enforcing an original assessment. If bonds issued under the original assessment they shall also issue upon the reassessment for such sum as may be reassessed against the lot or parcel of land covered thereby.

Bonds

Lien

The lien of such reassessment shall hold its relative rank as to other special assessment liens as of the date of the original assessment.

Chapter 11. Abandonment of Proceedings

Abandonment by city

7330. The legislative body may, at any time prior to the letting of the contract for any improvement under this division, determine that the proceedings shall be abandoned, which determination shall be declared by resolution entered upon its minutes.

Abandonment by contractor

7331. The legislative body may in like manner abandon such proceedings after the letting of such contract in any case where the contractor has failed to begin work within the time provided in this division, or has failed to complete the work within the time specified in the contract, or has failed to diligently prosecute the work after beginning it.

The legislative body may also in like manner abandon the proceedings when the contractor has failed, neglected or refused, for a period of 10 days after receiving the notice from the city treasurer that there is not enough money in the fund for the improvement to pay the incidental expenses and the awards of damages, to advance to that fund an amount sufficient for such purposes.

Reletting the contract

7332. Such legislative body may in any of the contingencies specified in this chapter, instead of abandoning the proceedings, direct the superintendent of streets to readvertise for bids for the doing of all or any part of the work, and the contract may be relet as in the first instance, but the bid of any contractor who has failed in any of the obligations imposed upon him by this division, or by his contract, shall not be considered in any subsequent bidding for the same work.

PART 4. BONDS

CHAPTER 1. DETERMINATION TO ISSUE BONDS

Bonds

7360. The legislative body may determine that serial bonds shall be issued in the manner and form provided in this part to represent assessments of twenty-five dollars ($25) or more for the cost and expenses of any work or improvements authorized by this division.

Period of bonds

7361. Such serial bonds shall extend over a period not to exceed 25 years from the second day of January next succeeding the issuance of the bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year after their date until the whole is paid. If the period over which the bonds are to extend exceeds 10 years, one-tenth of the principal sum thereof shall be payable by coupon on the second day of January of each of the last 10 years of that period. The interest on the bonds shall be payable semiannually by coupon on the second day of January and July respectively, of each year, at the rate of not to exceed 10 per cent per annum on all sums unpaid, until the whole of the principal and interest is paid.

Declaration in resolution of intention

7362. Whenever the legislative body of any city determines that serial bonds shall be issued to represent the cost and expenses of any proposed work or improvement under this division, it shall so declare in the resolution of intention to do the work, which resolution shall specify the rate of interest which they shall bear and the period of time over which they are to run, and shall also state that a bond will issue to represent each assessment of twenty-five dollars ($25) or more remaining unpaid at the expiration of 30 days after the first publication or posting of the notice of the recording of the assessment by the superintendent of streets.

Assessments less than $25

7363. If the amount of the unpaid assessment or reassessment upon any lot or parcel of land is less than twenty-five dollars ($25), then it shall be collected as is provided in this division.

CHAPTER 2. ISSUE OF BONDS

List of unpaid assessments

7370. Whenever it is determined that serial bonds shall be issued to represent assessments amounting to twenty-five dollars ($25) or over, the superintendent of streets shall, forthwith after the full expiration of 30 days from the date of the first publication of the notice of the recording of the assessment roll, or forthwith after the full expiration of 30 days from the recording of any reassessment that may be made, and after all previous payments have been credited on such reassessment, make and certify to the city treasurer a

complete list of all assessments unpaid, which amount to twenty-five dollars ($25) or over upon any assessment or diagram number.

Issuance of bonds

7371. Upon receiving the list of unpaid assessments the city treasurer shall make out and sign a separate bond for each lot or parcel of land representing the total amount of the assessments or reassessments, as the case may be, as shown on the list of unpaid assessments.

Description of land

7372. If any lot or parcel of land is described upon the assessment and diagram by its number or block, or both, upon the official map of the city, or upon any map on file in the office of the county recorder of the county in which the city is situated, then it shall be a sufficient description of the lot or parcel of land to designate it in the bond by the number or block, or both, as it appears on the official or recorded map.

Objection to issuance of bond

7373. If at any time before the issuance of the bond representing an assessment or reassessment upon his lot or parcel of land, the owner or his authorized agent presents to the city treasurer his affidavit made before a competent officer, that he is the owner of that lot or parcel of land, accompanied by the certificate of a searcher of records that he is such owner of record, and with such affidavit and certificate notifies the treasurer in writing that he desires no bond to be issued for the assessment upon that lot or parcel of land, then no such bond shall be issued therefor and the street superintendent shall retain his right to enforce collection of the assessment or reassessment as if the lot or parcel of land had not been included on the list of unpaid assessments prepared by the street superintendent.

Chapter 3. Form and Effect of Bonds

Bond form

7390. Each bond shall be substantially in the following form:

Improvement Bond

$_____ Series _____ No._____

Under and by virtue of and pursuant to the provisions of the Street Improvement Act of 1913 (Division 8 of the Streets and Highways Code), I, out of the fund for the above designated improvement bonds, series _____ will pay to bearer the sum of _____ dollars ($_____) with interest at the rate of _____ per cent per annum, as is hereinafter specified, at the office of the city treasurer of the City of _____, State of California. This bond is issued to represent an assessment for _____ in the City of _____, as the same is more fully described in the assessment therefor. Its amount is the amount assessed in said assessment against the lot numbered

Bond form (cont'd) ------ therein and in the diagram attached thereto, and which now remains unpaid; but until paid, with accrued interest, is a first lien upon the property affected thereby, as the same is described herein, and in said recorded assessment with its diagram, to wit: The lot or parcel of land in the City of ------, County of ------, State of California, described as follows:

This bond is payable exclusively from said fund, and neither the City of ------, nor any officer thereof is to be holden otherwise for its principal or interest. The term of this bond is ------ years from January 2, 19----, and at the expiration of said time the whole sum then unpaid shall be due and payable; but on the second day of January of each year, after the date hereof, an even annual proportion of its principal is due and payable upon presentation of the coupon therefor, until the whole is paid, with accrued interest, at the rate of ------ per cent per annum.

The interest is payable semiannually on the second day of January and July in each year hereafter upon presentation of the coupons therefor, the first of which is for the interest from date to the second day of ------, 19------, and thereafter the interest coupons are for the semiannual interest.

Should default be made in the first, or any succeeding payment of the principal, or in the payment of interest, by the owner of said lot, or any one in his behalf, the holder of this bond is entitled to declare the whole unpaid amount to be due and payable, and to have said lot or parcel of land advertised and sold forthwith, in the manner provided by law.

Dated at said City of ------, this ------ day of ------, in the year 19---.

City treasurer of the City of

Errors in description 7391. No mistake or error in the description in the bond of the lot assessed shall affect the validity or lien of the bond, unless the mistake or error is such that the lot can not be identified, and in such event the holder of such bond may have the description corrected upon application to the city treasurer and the officers or board who made the assessment to represent which the bond was issued.

Bond terms 7392. The bonds issued by the treasurer shall be payable to the bearer, shall be serial bonds, and shall bear interest at the rate specified in the resolution of intention to do the work.

Annual principal coupons 7393. The bonds shall have annual coupons attached thereto, payable in annual order on the second day of January in each year after the date of the bonds until all are paid, or

if the term of the bonds is more than 10 years, then the coupons shall be payable on the second day of January of each of the last 10 years of the term of the bonds. Each coupon shall be for an even annual proportion of the principal of the bond.

Annual interest coupons

7394. The bonds shall have semiannual interest coupons thereto attached, the first of which shall be payable upon the second day of January or July, as the case may be, next after its date, and shall be for the interest accrued at that time, and the rest of which shall be for the semiannual interest accruing from the second day of January or July, as the case may be.

Signatures

7395. If any officer whose signature or countersignature appears on any bond or coupon ceases to be such officer before delivery of such bonds to the purchaser thereof, such signature or countersignature appearing either on the bonds or on the coupons, or both, shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of such bonds.

Bond lien

7396. The improvement bonds issued under this part shall take the place of and have the same force, validity and effect as assessment liens that the assessments would have if no bonds had been issued, and the lien of the bonds shall not be held or construed to be merely contractual.

Effect of issuance

7397. The bonds shall by their issuance be conclusive evidence of the regularity and validity of all proceedings leading up thereto.

Bond lien

7398. The amount due upon any bond shall be a lien upon the lot described in such bond superior to all other liens, charges and incumbrances, except the liens of prior assessments and of municipal, State and county taxes.

Chapter 4. Bond Records and Payments

Bond record

7410. The city treasurer shall enter a record of each bond in a book kept for that purpose in his office. Such record shall specify:

(a) The date the bond was issued.
(b) The amount for which the bond was issued.
(c) To whom the bond was delivered.
(d) The duration of the bond.
(e) A description of the lot against which the bond was issued.

Record of payments

7411. Payments of principal and interest on account of any bond shall be made to the city treasurer at his office. The treasurer shall keep a separate account of all such payments, entering them in the record required to be kept. He

shall place the money so received in appropriate funds, designated by the name of the bonds, for the payment of principal and interest of the bonds on account of which paid. Upon the surrender of the coupons attached to any bond, the treasurer shall pay to the holder thereof, or his order, the amount called for by the coupons out of the funds in his possession applicable thereto.

Under no circumstances shall the bonds or the interest thereon be paid out of any other fund.

Bond register

7412. The city treasurer shall keep a register in his office which shall show the series, number, date, amount, rate of interest, payee and indorsees of each bond, and the number and amount of each coupon of principal or interest paid by him. He shall cancel and file each coupon so paid.

Payments in advance of maturity

7413. The owner of, or any person interested in, any lot or parcel of land upon which a bond is issued may at any time pay off such bond and discharge his land from the lien of the assessment, by paying to the city treasurer for the holder of such bond the amount then unpaid on the principal sum thereof, and all interest thereon which has accrued and is unpaid, together with the semiannual installment of interest which will next become due thereafter, and in addition thereto, interest for one year at the rate specified in the bond upon the unpaid amount of the principal. The treasurer shall thereupon make an entry upon his bond register that such bond has been paid in full.

Indorsements on assessment roll

7414. When all the coupons of principal and interest are paid or the bond is surrendered or satisfied, the city treasurer shall report that fact to the street superintendent, who shall forthwith indorse the same on the margin of the record of the assessment to the credit of which the same is paid.

CHAPTER 5. SALE OF BONDS

Sale to highest bidder

7430. Any number of such bonds, except as otherwise provided in this division, shall be sold to the highest cash bidder, after advertisement for bids, or shall be sold in such other manner as the legislative body may determine. Such advertisement for bids shall be published for at least three times in a daily newspaper published and circulated in the city, or if there is no such daily newspaper, then such advertisement shall be published at least once in a weekly or semiweekly newspaper so published and circulated.

Disposition of proceeds

7431. If any bond is sold for an amount in excess of par such excess shall be paid into such fund of the city as the legislative body thereof may prescribe. The proceeds of the sale of the bonds shall be paid into the fund of the proceeding to represent assessments for which the bonds were issued.

Issuance to contractor

7432. Any bonds not sold within 15 days after the completion of the publication of the advertisement for bids shall be turned into the fund for the improvement for which the assessment is made, and shall be treated as so much money in the fund, and shall upon final acceptance of the improvement be issued to and accepted by the contractor for the work, or his assigns, in payment pro tanto of the contract price of the improvement, if there is sufficient money in the fund to pay all incidental expenses and all awards of damages that are required to be paid prior to the doing of the work.

Advancements by contractor

7433. If, at the expiration of 15 days after the completion of the publication of the advertisement for bids, there is not sufficient money in the fund for the improvement to pay the incidental expenses and the amount of any awards of damages required to be paid prior to the doing of the work, the contractor may advance to the fund for the improvement an amount sufficient to pay the incidental expenses and damages, and receive therefor bonds in sufficient amount, at their par value and exclusive of any accrued interest thereon, to equal the amount so advanced by him.

Forfeiture of contract

7434. If the contractor fails, neglects or refuses for a period of 10 days after written notice from the city treasurer that the 15 days from the completion of the publication of the advertisement for bids has expired, and that there is not sufficient money in the fund to pay the incidental expenses and the awards of damages, to advance to the fund a sum sufficient for those purposes, the legislative body may declare the contracts forfeited, and the contractor shall thereupon lose all rights under the contract.

Bonds in payment of damages

7435. The owner of any property assessed, to whom damages have been awarded, may take bonds in lieu of, or in satisfaction pro tanto of, such damages. When so taken such bonds shall be deemed to have been sold to such owner and the amount of damages to which he is entitled shall be reduced by the amount of such bonds so taken at their par value.

Damages offset against assessments

7436. An owner may also, at any time after the assessment becomes payable and before the sale of the property for nonpayment thereof, demand of the street superintendent that such assessment, or any number of such assessments, be offset against the amount of damages to which he is entitled. Thereupon, if the amount of such damages is equal to or greater than the assessments, including any penalties and costs due thereon, the assessments shall be marked "paid by offset"; and if the amount is less than the assessments, and any penalties and costs due thereon, the person demanding such offset shall at the same time pay the difference to the street superintendent in money. The assessments shall, on

such payment, be marked paid, the entry showing what part thereof is paid by offset and what part in money.

Advances by city

7437. The legislative body may, upon the failure of any contractor to advance sufficient money to the fund devoted to any improvement to pay the incidental expenses and the awards of damages, advance from the general fund or from such fund as the legislative body may designate, to the improvement fund the amount necessary for such purposes. Whereupon the city treasurer shall issue to the city bonds of the improvement in an amount equal at their par value to the amount of money so advanced by the city. In any event the city may advance to the appropriate fund the par value of all or any part of the bonds, in which case the bonds shall be issued to the city, and the city shall have the same rights in respect to the enforcement and collection thereof as other purchasers. If the city advances money as in this section provided, it shall have full authority at any time to sell the bonds at a price acceptable to the legislative body thereof.

Disposition of unsold bonds

7438. Whenever the contractor or the city has advanced to the appropriate fund an amount sufficient to pay the incidental expenses and the damage awards, and has received bonds at their par value in an amount equal to the sum so advanced, the bonds remaining shall be turned into the improvement fund, and shall be treated and regarded as so much money in that fund. Upon final acceptance of the work these remaining bonds shall be issued to and received by the contractor in payment pro tanto of the contract price of the improvement.

CHAPTER 6. SALE FOR DELINQUENCY

Demand for sale

7450. Whenever payment, either of the principal or of the interest, is not made when due, and the holder of the bond thereupon demands, in writing, that the city treasurer proceed to advertise and sell the lot or parcel of land as provided in this part, then the whole bond or its unpaid remainder, with its accrued interest, as expressed in the bond, shall become due and payable immediately and on the day following shall become delinquent.

Notice of delinquency

7451. Upon the application of the holder of any bond that becomes delinquent the city treasurer shall publish twice in a newspaper of general circulation, published in the city and designated by him, a notice which shall contain:

(a) The date, number, and series of the delinquent bond.

(b) A description of the property mentioned in the bond.

(c) The name of the owner of such property (if known), and if unknown, a statement of that fact.

(d) The amount due thereon.

(e) A statement that unless the amount of the bond and the interest due thereon, together with the cost of publication of such notice are paid, the real property described in the bond will be sold at public auction on a day to be therein fixed, which shall not be less than 15 nor more than 30 days from the date of the first publication of the notice.

(f) The place of such sale, which shall be in or in front of the office of the city treasurer.

Personal service

7452. A like notice shall not less than 15 days before the day so fixed for the sale be served upon any such owner, if known, either personally or by depositing the notice in the post office at such city addressed to such owner at his address, if known, with the postage thereon prepaid.

Redemption prior to sale

7453. At any time prior to the sale, the owner or person in possession of the property may pay the whole amount of the bond then due, with costs, and the bond shall thereupon be canceled. If such payment is not made by the owner or person in possession, or by someone in behalf of the owner or person in possession, the property subject thereto shall be sold at public auction to the bidder offering to pay the amount due on the bond with costs for the least portion of such lot or parcel of land offered for sale.

Affidavits

7454. The city treasurer, before the day of sale, shall file with the city clerk a copy of the publication of the notice of sale, with an affidavit of the publisher of such newspaper, or someone in his behalf, attached thereto, that it is a true copy of the publication, that the publication was made in a newspaper, stating its name and place of publication and the date of each issue thereof in which such publication was made. Such affidavit is prima facie evidence of all the facts stated therein.

Costs

7455. The city treasurer shall collect, in addition to the amount due on such bond, the cost of the publication of such notice, and fifty cents ($0.50) for the certificate of sale which is delivered to the purchaser.

Record of sale

7456. The city treasurer, before delivering any certificate of sale, shall enter the following in a book kept in his office for that purpose:

(a) The date, number and series of the bond.

(b) A description of the lands sold, corresponding with the description in the certificate of sale.

(c) The date of sale.

(d) The purchaser's name.

(e) The amount paid.

He shall regularly number the descriptions on the margin of the book, and put a corresponding number on each certificate. Such book shall be open to public inspection during

office hours, when not in actual use, and he shall enter on the record of the bond the words "canceled by sale of the property," giving the date of such sale.

Purchasers lien

7457. Immediately on the sale, the purchaser is vested with a lien on the property, so sold to him, to the extent of his bid, and is only divested of such lien by a redemption.

CHAPTER 7. REDEMPTION AND DEED TO PURCHASER

Redemption

7470. A redemption of the property sold may be made by the owner of the property, or any party in interest, within 12 months from the date of purchase, or at any time prior to the application for a deed. Redemption shall be made in lawful money of the United States, and when made to the city treasurer he must mark the word "Redeemed," the date and by whom redeemed on the margin of the book where the entry of the certificate is made, and credit the amount paid to the purchaser named in the certificate, and pay that amount to such purchaser or his assignee, upon the surrender of the certificate of sale, and upon satisfactory proof of an assignment thereof, if any.

Deed

7471. If the property is not redeemed within the time allowed by this part, the city treasurer, upon application of the purchaser or his assignee shall make to the purchaser or his assignee a deed to the property, reciting in the deed, substantially, the matter contained in the certificate, and that no person has redeemed the property during the time allowed for its redemption. For making the deed, the treasurer shall be entitled to receive from the purchaser two dollars ($2), the amount of which shall be deposited in the city treasury for the use of the city after payment has been made therefrom for the acknowledgment of the deed.

Notice of intention to apply for deed

7472. The purchaser of the property or his assignee or agent shall, 30 days prior to the expiration of the time of the redemption, or 30 days before the date of his application for a deed, serve upon the owner or agent of the property purchased, if named in such certificate of sale, and upon any person occupying the property, a written notice, stating that the property or a portion thereof has been sold to satisfy the bond lien, the date of sale, the date, number, and series of the bond, the amount then due, and the time when the right of redemption will expire, or when the purchaser will apply for a deed. The owner of the property shall have the right of redemption until such notice is given and the deed applied for upon the payment of the fees, penalties, and costs required for redemption.

7473. In case of unoccupied property, a similar notice shall be posted in a conspicuous place upon the property at least 30 days before the purchaser applies for a deed. Posted notice

7474. No deed to the property sold shall be issued by the city treasurer to the purchaser of such property until such purchaser files with the treasurer an affidavit showing that the notice required to be given has been given as required. This affidavit shall be filed and preserved by the treasurer in the same manner as other records kept by him in his office. When deed issues

7475. The purchaser shall be entitled to receive the sum of fifty cents ($0 50) for his service of such notice and the making of such affidavit, which sum of fifty cents ($0.50) shall be paid by the redemptioner at the time and in the same manner as the other sums, costs and fees are paid. Service fees

7476. The deed, when duly acknowledged or proved, shall be conclusive evidence of all things of which the bond upon which it is based is conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issue of the bond, and conveys to the grantee the absolute title to the lands described therein, free of all incumbrances, except the lien for State, county and municipal taxes. Effect of deed

Any such affidavit so filed shall be prima facie evidence of the facts therein stated regarding such publication or posting.

Alternative system 8009. This part provides an alternative system of proceedings for changing or modifying the grades of streets in cities; and the provisions of this part shall not apply to or affect any other provisions of this code.

Provisions applicable When any proceedings are commenced under this part, the provisions of this part, and no other, shall apply to such proceedings.

CHAPTER 2. THE ORDINANCE OF INTENTION

Change of grade 8020. The city council of any city may change or modify the grade of streets therein, in the manner provided in this part.

Determination to proceed 8021. The election of the city council to proceed under the provisions of this part shall be expressed in its ordinance of intention to order any change or modification of grade.

Ordinance of intention 8022. Before any change or modification of grade is ordered, the city council shall pass an ordinance of intention to order such change or modification of grade. The ordinance of intention shall name or otherwise designate the street the grade of which, or any portion of which is proposed to be changed or modified, and shall set forth the change or modification of grade proposed to be made.

One or more streets or portions thereof may be included in the same ordinance of intention.

Posting and publication 8023. The ordinance of intention shall be posted conspicuously for two days on or near the chamber door of the city council, and shall be published by two insertions in a daily or

weekly newspaper published and circulated in the city, and designated by the council for that purpose. If no such newspaper is published and circulated in the city, the ordinance of intention shall be posted for two days on or near the council chamber door, and in two other public places in the city.

Street posting

8024. The street superintendent shall thereupon cause copies of the notice of the passage of the ordinance of intention to be conspicuously posted along all streets or portions thereof designated in the ordinance of intention, where such change or modification of grade is proposed to be made, at not more than 100 feet in distance apart, but not less than three notices in all.

Contents

8025. The notice shall be headed "Notice of Change of Grade," in letters of not less than one inch in height, and shall in legible characters state the fact of the passage of the ordinance of intention, its date, the name or other designation of the street or portion thereof the grade of which is proposed to be changed or modified, and shall refer to the ordinance of intention for further particulars.

Published notice

8026. The street superintendent shall also cause a notice similar in substance to be published for six days in a daily newspaper published and circulated in the city, and designated by the city council for that purpose, or in cities in which there is no daily newspaper, he shall cause the notice to be published by two insertions in a weekly newspaper so published, circulated and designated. If there is no daily or weekly newspaper published in the city, the notice shall be posted for six days on or near the council chamber door, and in two other public places in the city.

Chapter 3. Protests and Hearing

Protests

8040. Any person owning any real property fronting upon any street or portion thereof on which such change or modification of grade is proposed to be made, may, within 30 days after the first publication of the notice of the passage of the ordinance of intention, or within 30 days after the first posting thereof if no publication thereof is made, file with the clerk of the city council a written protest against such proposed change or modification of grade.

Contents

8041. Every protest shall contain a description of the property owned by each signer thereof, sufficient to identify the property, and if signed by more than one person, shall be accompanied by the affidavit of one of the signers that each signature thereto is the genuine signature of the person whose name purports to be thereto subscribed. If any signature is made by an agent, there shall be attached to the protest the affidavit of the agent that he is duly authorized to sign such

protest. Any protest which does not comply with the foregoing requirements shall not be considered by the city council.

Presentment to council

8042. The clerk of the city council shall indorse on every protest the date it is filed with him and at the next regular meeting of the city council after the expiration of the time for filing protests, shall present to the city council all protests so filed with him.

Majority protest

8043. If the city council finds that such protests are signed by the owners of a majority of the frontage of the property fronting on the street or portion thereof on which the change or modification of grade is proposed to be made, all further proceedings under the ordinance of intention shall be barred for six months from and after the filing of such majority protests, except as provided in this chapter, unless the owners of a majority of such frontage shall in the meantime petition the same change or modification of grade to be made. A new ordinance of intention to make a different change or modification of grade of the same street or portion thereof may be passed at any time.

Majority protest on intersecting streets

8044. If the ordinance of intention designates any street or portion thereof, the grade of which is proposed to be changed or modified, and there is included in the ordinance of intention any other street or portion thereof, intersecting therewith or terminating therein, the grade of which is also proposed to be changed or modified, neither proposed change or modification of grade shall be barred by any protests unless such protests are signed by the owners of a majority of the total frontage of the property fronting on all such streets or portions thereof where such change or modification of grade is proposed to be made.

Time for hearing

8045. If the city council finds that:

(a) Such protests are not signed by the owners of a majority of the property fronting on the street or portion thereof on which such change or modification of grade is proposed to be made; or

(b) The proposed change or modification of grade extends for a distance of not more than one block, and the grade of such street for at least one block thereof immediately adjacent to the block in which such change or modification of grade is proposed to be made, on each side thereof, has already been established; or

(c) The proposed change or modification of grade extends for a distance of not more than one block at the end of a street, and the grade thereof for at least one block thereof immediately adjacent to such block has already been established, the city council shall thereupon fix a time for hearing such protests, which time shall be not less than 10 days after the meeting of the council at which such time is so fixed.

Notice of hearing

8046. Thereupon the city council shall cause notice of the time and place of such hearing to be published for two days in a daily newspaper published and circulated in the city, or by one insertion in a weekly newspaper so published and circulated. If no daily or weekly newspaper is published and circulated in the city, then the notice shall be posted for two days on or near the council chamber door, and in two other public places in the city. Such publication or posting shall be completed at least five days before the hearing.

Disposition of protests

8047. At the time and place appointed for the hearing of protests or at any time to which the hearing thereof may be continued, the city council shall hear and pass upon the protests, and its decision thereon shall be final and conclusive. If the protests are sustained, no further proceedings shall be had under the ordinance of intention but a new ordinance of intention to make the same or a different change or modification of grade may be passed at any time. If the protests are denied, the proceedings shall continue as if such protests had not been filed.

"Owner" defined

8048. Except as otherwise provided in this chapter, the person owning the fee or the person in whom, on the day any protest or petition is filed, the legal title to real property appears, by deed duly recorded in the county recorder's office of the county in which the city is situated, shall be deemed to be the owner thereof for the purpose of this part. But any person in possession of real property as the executor, administrator, trustee, guardian, or other legal representative of the owner, or any person in possession of real property under a written contract of purchase duly recorded, shall be deemed to be the owner thereof for the purposes of this part.

Protests by coowners

8049. In the case of property held by tenancy in common, if any cotenant signs a protest under this part, only the proportionate share of the frontage thereof represented by his interest therein shall be counted in determining the amount of frontage represented by the protest. If the change or modification of grade proposed by the ordinance of intention is only on one side of any street or portion thereof, only the owners of the real property fronting on the side of such street or portion thereof where such change or modification of grade is proposed to be made, shall be entitled to make or file a protest under the provisions of this part.

Chapter 4. Ordering the Change of Grade

Ordinance changing grade

8060. If no protests are filed within the time provided, or if protests are filed and after hearing are denied, as provided in this part, the city council shall acquire jurisdiction to order

to be made and shall by ordinance order the change or modification of grade as proposed by and described in the ordinance of intention to be made.

Publication

8061. The ordinance ordering the change or modification of grade shall be published by two insertions in a daily or by one insertion in a weekly newspaper published and circulated in the city. If no such newspaper is published and circulated therein, the ordinance shall be posted for two days on or near the council chamber door, and in two other public places in the city.

Subsequent changes of grade

8062. If the grade of any street or portion thereof has been heretofore or is hereafter changed or modified, nothing in this part shall be construed to prevent any subsequent change or changes, modification or modifications of grade of any such street or portion thereof.

PART 4. NOTICE AND HEARING

List of unpaid assessments

8590. After confirmation of the assessment by the legislative body and after the return of the warrant attached thereto and after the filing of the statement of payments received upon the assessment by the contractor as provided by the law pursuant to which the work was done, or after 30 days from the date of the first publication of the notice of recording the assessment, if the work was done under the Street Opening Act of 1903, the street superintendent shall make and file with the clerk a complete list of all unpaid assessments, upon the assessment.

Notice of filing list

8591. The clerk shall give notice of the filing of the list and of a time and place, to be therein fixed by the clerk, when interested persons may appear before the legislative body and show cause why bonds should not be issued upon the security of the unpaid assessments shown on the list.

Posting and publishing notice

8592. The notice shall be posted and shall be published. The first publication shall be not less than five days before the time fixed for the hearing. If no newspaper is published in the city then in addition to the posting required by Section 8550, the notice shall also be posted in accordance with Section 8532. Copies of the notice shall also be mailed to the owner of each lot listed according to the name and address appearing on the last equalized assessment roll for the city, or as known to the clerk. The failure of the clerk to mail the notice or of the person addressed to receive the same shall not affect the jurisdiction of the legislative body to proceed with the hearing.

Description of work

8593. The notice may refer to the resolution of intention and the date of its passage for a description of the work and

for any other particulars therein set forth. No other description of the work shall be necessary.

He may show any act or determination done or made in the proceeding whereby he is aggrieved and any act or thing done in the proceeding which may be irregular, defective, erroneous or faulty, and may set forth what assessments are unpaid and what assessments have been paid. If he claims that the legislative body does not have jurisdiction to issue the bonds he shall set forth the grounds upon which his contention is made.

Hearing

8595. The legislative body shall at the time and place fixed in the notice hear any objections or matters presented to it, whether in writing or orally, and shall pass upon the same. It may continue the hearing from time to time. Evidence may be adduced going to any of the matters to be determined and in such order as the legislative body may direct. If the legislative body does not meet at the time fixed in the notice it may hear the matter at its first adjourned or regular meeting to be held thereafter.

Reassessment

8596. If at the hearing the legislative body determines that any assessment is void or unenforceable, it shall order a reassessment to be issued as provided in Part 9, and thereafter such proceedings shall be taken as are provided in that part.

PART 5. ISSUANCE OF BONDS

Determinations final

8620. All of the decisions and determinations of the legislative body upon the objections and matters submitted at the hearing, shall be final and conclusive upon all persons who were entitled to appear at the hearing.

Correction of errors

8621. Upon the conclusion of the hearing the legislative body may remedy and correct any error or informality in the proceedings and revise and correct any of the acts or determinations previously had relating to the work, and it may thereupon determine the assessments which are unpaid and the aggregate amount of the same.

Bond denominations

8622. The legislative body shall prescribe the denominations of the bonds, which shall be in convenient amounts, not necessarily equal, and shall provide for their issuance.

Delivery to contractor

8623. The bonds shall be immediately delivered to the contractor in satisfaction of the balance due him upon his assessment and warrant, or, if the work was done under the Street

Opening Act of 1903, the bonds shall be sold to the highest cash bidder after advertising for bids. The advertisement for bids shall be published for at least three times in a daily newspaper published and circulated in the city, or if there is no such daily newspaper, then the advertisement shall be published once in a weekly or semiweekly newspaper so published and circulated. The bonds shall not be sold for less than par.

Incidental expenses

8624. The estimated cost of the publications provided for in Parts 4 and 5 and the cost of printing the bonds shall constitute an incidental expense of the work and shall be included in the assessment issued to the contractor.

Effect of restraining orders

8625. If bonds can not be issued upon the security of any particular unpaid assessments because of a restraining order, injunction or other cause not applicable to other unpaid assessments, the issuance of bonds upon the security of the assessments not affected by such restraining order, injunction or other cause, shall not be delayed, and such bonds may be issued in advance of the issuance of the bonds so affected.

Disposition of bond proceeds

8626. If the work was done under the Street Opening Act of 1903 the proceeds of the sale of the bonds shall be paid into the fund of the proceeding to represent the assessments for which the bonds were issued. If the bonds are sold for an amount in excess of par, the excess shall be paid into the general fund of the city.

PART 6. FORM AND CONTENT OF BONDS

Bond terms

8650. The bonds shall be issued in series and an even annual proportion of the aggregate principal sum thereof shall be payable on the second day of July every year succeeding the first 10 months after their date, until the whole is paid. The bonds shall bear interest at a rate not in excess of 6 per cent per annum from the date of filing the unpaid assessment list with the clerk, or from 30 days after the first publication of the notice of recording the assessment, if the work was done under the Street Opening Act of 1903, on all sums unpaid, until the whole of the principal sum and interest are paid. However, bonds issued in place of bonds issued prior to August 27, 1937, may bear interest at a rate not exceeding 8 per cent per annum on all sums unpaid.

Interest rate

Interest shall be payable semiannually by coupon, on the second day of January and July, respectively, of each year. The first payment of interest shall not become due until six months before the maturity of the first series of bonds.

Maturity date

8651. The final series or installment of the bonds shall mature and be payable on a date which shall not exceed 14 years from the second day of July next succeeding 10 months from their date.

Form 8652. The bonds shall be substantially in the following form:

This bond is one of several annual series of bonds of like date, tenor and effect, but differing in amounts and maturities, issued by said city (or county) under said law for the purpose of providing means for paying for the work and improvements described in said resolution of intention, and is secured by the moneys in said redemption fund and by the unpaid assessments made for the payment of said work, and, including principal and interest, is payable exclusively out of said fund.

The interest is payable semiannually, to wit: On the second day of January and July in each year hereafter, upon presentation of the proper coupons therefor; provided, that the first of said coupons is for the interest to the second day of January, 19___, and thereafter the interest coupons are for the semiannual interest.

Treasurer

[SEAL] Clerk

Signatures on coupons

8653. The coupons affixed to the bonds shall be signed by the treasurer. However, the legislative body may by order authorize the use upon the coupons of an engraved, printed or lithographed signature of the treasurer in place of a signature by hand. Semiannual coupons shall be attached to the bonds, the first of which shall be payable upon the second day of January next before the maturity of the first series of bonds coming due, and shall be for the interest accrued at that time.

Bonds payable to bearer

8654. The bonds shall be payable to the party to whom they are issued, or to the bearer, and shall bear interest at the rate specified in the resolution of intention to do the work. The bonds maturing in any year shall constitute the annual series of that year and the aggregate principal of the bonds in such series shall equal the even annual proportion of the aggregate principal sum of the entire bond issue hereinbefore referred to.

Effect of issuance

8655. The bonds, by their issuance, shall be conclusive evidence of the regularity of all proceedings had prior thereto under this division and under the law pursuant to which the work was done.

PART 7. BOND RECORDS AND PAYMENTS

Payments

8670. The bonds and interest shall be paid at the office of the treasurer.

Redemption fund

8671. The treasurer shall keep a redemption fund designated by the name of the bonds, into which he shall place all sums received by him from the collection of the assessments made for the payment of the cost of the work or improvements upon which the bonds are issued and of the interest and penalties thereon and from which fund he shall disburse and pay the bonds and the interest due thereon upon presentation of the proper bonds and coupons. Under no circumstances shall the bonds or the interest thereon be paid out of any other fund.

Bond record

8672. The treasurer shall keep a register in his office showing the series, number, date, amount, rate of interest, and last known holder of each bond, and the number and

amount of each interest coupon paid by him. He shall cancel and file each bond and coupon which he pays.

Registration

8673. Bonds may be surrendered by the holder to the treasurer for registration in accordance with the provisions of any law applicable to the registration of other city bonds, and thereafter the principal and interest thereon shall be paid to the registered owner thereof.

PART 8. COLLECTION OF ASSESSMENTS

Payment of assessments

8680. The unpaid assessments shall be payable in annual series corresponding in number to the number of series of bonds issued. An even annual proportion of each assessment shall be payable in each year preceding the date of maturity of each of the several series of bonds which have been issued. The annual proportion of each assessment coming due in any year, together with the annual interest on such assessment, shall be payable in the same manner and at the same time and in the same installments as the general taxes of the city on real property are payable and the assessment installments and the annual interest on the assessment shall be payable and become delinquent at the same times and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as do the general taxes on real property of the city.

Interest

8681. Interest on all unpaid assessments shall begin to run from the date of filing of the contractor's statement, or as otherwise provided in the law pursuant to which the work was done or from 30 days after the first publication of notice of recording the assessment, if the work was done under the Street Opening Act of 1903, and shall be computed at the rate specified in the bonds secured by such assessments. Such interest shall for each year be computed and collected up to the next second day of July succeeding, no deduction being made by reason of any installment of such assessment being due or paid prior thereto in such year.

Auditor's record

8682. A copy of the order of the legislative body determining the assessments remaining unpaid and upon the security of which bonds are issued shall be filed in the office of the auditor. The auditor shall keep a record in his office showing the several installments of principal and interest on said assessments which are to be collected in each year during the term of the bonds. The auditor shall annually enter in his assessment roll on which taxes will next become due, opposite each lot or parcel of land affected in a space marked "public improvement assessment," or by other suitable designation, the several installments of such assessment coming due during the fiscal year covered by such assessment roll, including in each case the interest due on such total unpaid

assessments, and also including a percentage of one-fourth of 1 per cent of the amount of such installments and of such interest so entered. Such percentages when collected shall belong to the city and shall cover the expenses and compensation of the city treasurer incurred in the collection of such assessments, and of the interest and penalties thereon. No other percentage shall be claimed for any such collections. Addition of collection costs

8683. If the legislative body conducting the proceedings is not a county and collections of assessments are made by county officials the county auditor shall at the close of the tax collecting season promptly render to the city auditor a detailed report showing the amounts of such installments, interest, penalties and percentages so collected on each proceeding and from what property collected, and also giving a statement of the percentages retained for the expenses of making such collections. Collection by county for cities

8684. Taxpayers shall have the same right to pay assessments together with interest, and any penalties thereon, under protest as they have to pay general city taxes under protest, but their written protest must accompany each such payment. Payment under protest

8685. If any lot or parcel of land affected by any assessment is not separately assessed on the tax roll so that the installment of the assessment to be collected can be conveniently entered thereon, then the auditor shall enter on the roll a description of the lot or parcel affected, with the name of the owners if known, but otherwise the owners may be described as "unknown owners," and extend the proper installment opposite the same. Assessment roll entries

8686. If it appears to the legislative body that, according to the dates when taxes are collected in the city, there will be an insufficient amount on hand to pay the interest when due, according to the method of collection provided by the preceding provisions of this division, the legislative body may direct that such interest or some portion of it be collected in the year preceding that in which the same would otherwise be collected, and thereupon such interest or portion thereof shall be extended on the rolls for such preceding year and be due and collected therein. Advance collections to meet interest

8687. Any assessment may be paid by depositing with the treasurer the total unpaid balance due on the assessment together with the total interest which would become due on the assessment if it were paid in the regular way. If the amount of the payment is sufficient to provide surplus moneys with which to redeem any bond outstanding and not due on the next succeeding second day of July, the person making the payment may direct the treasurer to redeem that bond. The treasurer shall then give the proper notice for redeeming such Payments in advance of maturity

bond, by advancing its maturity in accordance with the provisions of Part 11 upon which redemption the person paying the assessment shall be entitled to credit and reimbursement for the par value of any coupons thereon which shall be canceled but not paid less any accrued interest paid thereon and less the premium paid on the bond, and less any costs incurred for publishing or serving the notice of redemption.

Tender of bond as payment

8688. Any interested owner shall have the right to tender to the treasurer in payment or part payment of any installment of his assessment or interest or penalties thereon which may be due or payable, any bond or coupon secured thereby, the said bond to be taken at par and the said coupons to be credited for the accrued interest shown thereby computed to date of such tender. The treasurer shall thereupon cancel such bond and all coupons so produced or which may have been attached thereto, and shall cause proper credit therefor to be entered on the records of such assessment, in the office of the auditor and tax collector.

PART 9. ASSESSMENT LIENS AND REASSESSMENTS

Trust fund

8700. In the event bonds are ordered to be issued, the unpaid assessments, as shown on the list filed by the street superintendent and determined by the legislative body, and any reassessments which may be issued thereon or in lieu thereof, together with interest thereon, shall remain and constitute a trust fund for the redemption and payment of the principal of the bonds and for the interest which may be due thereon.

Assessment lien

8701. Such assessments and reassessments and each installment thereof and the interest and penalties thereon shall constitute a lien against the lots and parcels of land on which they are made, until the same be paid, but for a period not exceeding the time within which an action might be brought on the last series of bonds issued upon the security of such unpaid assessments. Such lien shall be prior and superior to all other liens, except the lien for State, county and city taxes and public improvement assessments and reassessments which may have priority thereover.

Unmatured installments, interest and penalties secured by any such lien or liens shall not be deemed to be within the terms of any general warranty of title.

Reassessments

8702. If any assessment heretofore or hereafter issued is void or unenforceable, for any cause, or if bonds are issued to represent or be secured by any assessments and such issuance is not effective through the curative provisions in relation thereto under the law pursuant to which the work was done or under this division to make them valid and enforceable,

then a reassessment may be made. The reassessment shall be made upon the demand of the owner or holder of bonds aggregating one-third of the principal amount outstanding and shall be made in the manner and form provided by the law pursuant to which the work was done.

Trust fund

8703. When made the reassessment shall constitute a trust fund for the redemption and payment of the original bonds issued against the original assessment; or the legislative body may call in the original issue of bonds outstanding and issue new bonds upon the security of the reassessment in lieu thereof. If the legislative body determines that new serial bonds shall be issued upon the security of the reassessment, the notice of hearing upon the reassessment shall contain a declaration of intention to issue bonds substantially in the form provided for in Section 8573. Upon confirmation of the reassessment the legislative body may issue the new bonds after the same notice and hearing as is required for the original issuance of bonds.

New serial bonds

Advance maturity of old bonds

8704. If the legislative body calls in the original issue of outstanding bonds, the legislative body may direct the treasurer to, and the treasurer shall thereupon, advance the maturity of the outstanding bonds bearing interest in the manner provided in Part 11, notwithstanding the fact that there may not be surplus moneys in the redemption fund with which to pay the same. New bonds shall be issued in an aggregate amount equal to the total balance of the reassessment unpaid and shall bear interest from the date of recordation of the reassessment at the rate fixed by the legislative body.

New bonds

Issuance

8705. Upon the surrender of the outstanding bonds, the new bonds shall be issued ratably to the holders of the original outstanding bonds. Each holder of such original bonds shall be entitled to such proportion of the new bonds as the total amount of the principal and interest due him on his original bonds, upon the date of the recordation of the reassessment, bears to the total amount of the principal of the new bonds. In making distribution the legislative body may assign the different bonds and allot maturities in such manner as to it shall seem equitable.

PART 10. DIVISION OF LAND AND BOND

Apportionment of assessment

8730. If any lot or parcel of land upon which there is an unpaid assessment against which a bond has been issued under this division, is subdivided, or the ownership of a portion of such lot or parcel of land is transferred to another person, the legislative body may order the street superintendent to file with the clerk an amended assessment of the original parcel of land affected by such subdivision or transfer of ownership,

segregating and apportioning the unpaid installments of the original assessment in accordance with the benefits to the several parts of the original lot or parcel.

Report and amended assessment

8731. The street superintendent shall file with the clerk a report and an amended assessment of the lots or parcels of land described in the order of the legislative body, together with a map or plat showing how such lots or parcels have been divided. The total amount of the assessments of the several portions of any one original lot or parcel shall be equal to the unpaid assessments upon that original lot or parcel of land.

Time of hearing

Notice

8732. Upon the filing of the street superintendent's report and amended assessment the clerk shall fix a time and place for a hearing upon the amended assessment and shall give notice of the hearing by publication. The notice shall contain a statement of the time fixed for the hearing upon the amended assessment and any objections thereto, which time shall not be less than 15 days from the first publication of the notice. The notice shall contain a reference to the original assessment and to the improvement proceedings, and shall refer to the report and map or plat of the amended assessment for particulars and no other description of the lots or parcels of land affected thereby shall be necessary.

Protests

Hearing

8733. All persons interested in the original assessment, or in the lands affected thereby or in the bonds secured thereby, may, at the time of the hearing or at the time to which the hearing may be continued, appear and protest against the amended assessment. At the hearing the legislative body shall hear and determine all objections to the division of the assessments and shall confirm or modify the same. All determinations and decisions of the legislative body shall be conclusive upon all persons entitled to object under the provisions of this section. Final action of the legislative body upon the report and amended assessment shall be taken on or before the fifteenth day of July of any year.

Filing amended assessment

8734. The clerk shall file the amended assessment as confirmed or modified by the legislative body with the auditor, who shall annually thereafter enter upon the assessment roll the installments becoming due on each component part of the original parcel opposite a description of the respective parcels so assessed.

When a city is conducting the proceedings and collections upon the assessments are made by county officials the city clerk shall transmit a copy of the amended assessment to the county auditor.

PART 11. ADVANCE RETIREMENT OF BONDS

Advanced maturity

8750. By proceeding in accordance with the provisions of this part the treasurer may advance the maturity of any bond to the second day of January or July in any year and pay and cancel the same whenever there is sufficient surplus moneys in the redemption fund for its retirement.

Notice

8751. Notice of advanced maturity may be given in writing to the holder or owner of the bond by registered mail or personal service, or it may be addressed "To whom it may concern" and be given by publication. If the notice is given by publication a copy of the notice shall be mailed to the last known holder or owner of the bond at his last known address at least 60 days prior to the date of advanced maturity. If the notice is given:

(a) By personal service, service thereof shall be made at least 60 days before the date fixed for advanced maturity.

(b) By registered mail, the mailing shall be made at least 60 days before the date fixed for advanced maturity.

(c) By publication, the first publication shall be made at least 60 days before the date fixed for advanced maturity.

Surrender of bonds

Payment to owner

8752. If notice of advanced maturity is given, the bond shall mature and become payable on the date fixed for maturity in the notice. The holder or owner of the bond may prior to the date of advanced maturity surrender it and receive the principal and interest thereon to the date of payment together with a premium thereon equal to 5 per cent of the principal. If the bond has not been sooner surrendered on the date fixed for advanced maturity, the treasurer shall set aside to the credit of the owner of the bond the amount of principal and accrued interest then due on the bond together with the premium of 5 per cent of the principal, and the bond shall then be deemed to have matured and interest shall cease to accrue on the bond. The amount so set aside shall upon demand and upon the surrender and cancellation of the bond be paid to the holder or owner of the bond.

Costs

8753. The cost of serving or publishing the notice of advanced maturity shall be paid from the redemption fund.

Single notice

8754. More than one bond may be covered in a single notice of advanced maturity.

Tender of other bonds for cancellation

8755. Prior to the surrender of any bond or the setting aside of any funds, the treasurer may waive and vacate any notice of advanced maturity upon being tendered for cancellation some other bond or bonds of an equivalent amount and of a maturity not earlier than that noticed, if 10 days' notice of his intention so to do is first given by mail or otherwise to

the holder or owner of the bond noticed for advanced maturity and such holder or owner has not objected to such action.

Selection of bonds for advance maturity

8756. In selecting bonds for retirement, the treasurer shall choose the bond of earliest maturity that is feasible for retirement but shall make provision for returning to owners releasing unpaid assessments under Part 8 all interest not accrued less the premium and interest paid on the bonds retired and the cost of giving notice of advanced maturity.

PART 12. REDEMPTION FUND DEFICIENCIES

Withholding payments

Report

8770. If it appears to the treasurer that there is danger of an ultimate loss accruing to the bondholders for any reason, he shall withhold payment on all matured bonds and coupons and report the facts to the legislative body so that proper action may be taken by that body to equitably protect all bondholders.

Notice of hearing

8771. On receipt of the report, the legislative body shall fix a date for hearing thereon. The clerk shall give notice of the hearing by posting for 10 days. At the hearing the legislative body shall determine whether in its judgment there will ultimately be insufficient money in the redemption fund to discharge the unpaid bonds and interest coupons. If it determines that in its judgment there will be no such shortage, it shall direct the treasurer to pay matured bonds and coupons as presented as long as there is available money in the redemption fund.

Proportionate payments

8772. If the legislative body determines that in its judgment there will be a shortage in the redemption fund, it shall direct the treasurer to pay to the holders of all outstanding and unpaid bonds and coupons such proportion thereof as the amount of funds on hand bears to the total amount of the unpaid principal of the bonds and the interest which has accrued or will accrue thereon. Similar proportionate payments shall thereafter be made periodically as moneys come into the redemption fund.

Registration of bonds

8773. In order to facilitate the making of proportionate payments, the holders of outstanding bonds and coupons shall surrender them to the treasurer for registration and cancellation. Upon such cancellation each holder shall be credited with the amount of his bonds so canceled. Thereupon the treasurer shall by warrant pay to each holder such proportionate amount of principal and accrued interest due on his bonds as may be available from time to time out of the money in the redemption fund. Interest shall cease on payments made on account of principal from the date of payment, but interest shall continue to run on the unpaid principal at the rate specified in such bonds until payment thereof be made.

No premiums shall be paid on payments made in advance of the due date. If bonds or coupons are not surrendered for registration and payment the treasurer shall give notice to the holder thereof by registered mail, at the holder's address as last known to the treasurer, of the amount available for payment. Thereupon interest shall cease as to the amount so available for payment 10 days from the date of mailing of the notice.

Supplemental hearings

8774. The legislative body may hold supplemental hearings on like notice and such other and supplemental orders may be made from time to time as may be equitable and proper.

Temporary redemption fund deficiencies

8775. If a deficiency occurs in the redemption fund with which to pay past due bonds or past due coupons or bonds or coupons which will become due during the current tax collecting year, but it does not appear to the treasurer that there will be an ultimate loss to the bondholders, he shall pay matured bonds and coupons as presented as long as there are available funds in the redemption fund. If any matured bond or coupon is presented and not paid for lack of funds, the treasurer shall register such bond or coupon by noting the fact of nonpayment on the bond or coupon or on a slip affixed thereto and giving the bond or coupon a serial number. He shall keep a record of registered bonds and coupons and of the name and address of the holders of the same. Thereafter and as long as it appears that there will be no ultimate loss to the bond or coupon holders, registered bonds and coupons shall be first paid in order according to such serial numbers when funds therefor become available before other bonds or coupons are paid. Registered bonds and coupons shall bear interest, which shall not be compounded, until paid.

Payments to holders of registered bonds

8776. When funds become available for the payment of any registered bonds or coupons, the treasurer shall notify the holder thereof according to the address given, or as known to him, by registered mail and thereupon it shall be the duty of the holder to forthwith present his bond or coupon for payment. If the bond or coupon is not presented for payment within 10 days after the mailing of the notice, interest shall cease to run on such bond or coupon.

Supplemental assessment hearing

8778. If a deficiency remains in the redemption fund after one year from the issuance of the bonds, the legislative body may require all persons interested to appear before it at a day, hour and place fixed by it for a hearing and to show cause why a supplemental assessment should not be made to pay for the cost and incidental expenses of the original work done upon which the original assessments were made upon which the bonds were issued.

Notice

8779. Notice of the hearing shall be given by publication, and shall also be posted by the street superintendent in the same manner as provided by the law pursuant to which the work was done for the posting of notices of the passage of the resolution of intention. The first publication of the notice and the posting shall be completed 10 days before the time fixed for the hearing.

Levy of supplemental assessment

8780. At the time set for the hearing the legislative body shall proceed to hear any person appearing and may determine whether or not such deficiency was due to the fact that the original assessment for such cost and incidental expenses was not apportioned equitably or in accordance with benefits. The hearing may be postponed from time to time. If it appears to the legislative body that the amount apportioned to any lot was less than the amount which such lot should equitably bear according to the benefit which it received from the improvement, the legislative body may levy a supplemental assessment apportioning to such lot the additional sums which it should equitably bear according to such benefits.

Costs

8781. The cost of the publication and posting of the notice and of making the supplemental assessment may be included in the supplemental assessment. A copy of the order levying the supplemental assessment shall be recorded in the office of the street superintendent and from and after such recording, the sum therein levied on any lot shall be and constitute a lien thereon and thereafter bear interest at the rate specified in the bonds. The several amounts levied by the supplemental assessment shall be extended on the next succeeding tax rolls to be delivered to the tax collector and shall be collected in the manner provided for the collection of installments of the original assessments.

Lien

Collection

Installment payments

8782. The legislative body may provide in its order levying the supplemental assessment that the supplemental assessments may be collected in annual installments during the remaining term of years during which the bonds run, an equal proportion of principal coming due in each of the remaining years. However, any property owner may pay the whole of the supplemental assessment subsequent to the order of the legislative body and before the amount has been extended on the tax roll, whereupon interest shall cease on such assessment.

Disposition of proceeds on supplemental assessment

8783. All money collected on the supplemental assessment shall be paid into the redemption fund and be applied to the payment of the costs of publishing and posting the notice of hearing and of making the supplemental assessment and then to the payment of the bonds and interest thereon. After satisfaction of the bonds, repayment, if possible, of all funds collected on the supplemental assessment shall be made to those persons paying the same out of recoveries had through the

collection of the delinquent installments of the assessments upon which the bonds were originally issued and of the interest and penalties thereon, and then out of any surplus remaining in the redemption fund after repayment to the city of any special taxes levied by it for the purpose of paying for lands purchased by it under Part 13 of this division less its recovery on the lands purchased at such delinquent sale and any costs incurred by it under this division.

Disposition of surplus

8784. If there is a surplus remaining in the redemption fund after payment of all bonds and the interest thereon, that surplus shall first be applied to repayment to the city of any special taxes levied by it for the purpose of paying for lands purchased by it under Part 13 of this division less its recovery on the lands purchased at such delinquent sale, and also of any costs incurred by it under this division. The remainder shall be repaid in accordance with the provisions of Section 8783 to persons paying supplemental assessments, if any, and the balance shall be proportionately credited upon the final installments due upon the assessments securing the bonds and repaid to those persons whose assessments have been previously paid.

PART 13. SALE FOR DELINQUENCY

Sale

8800. Upon default in the payment of any installment of principal or interest on any assessment or reassessment, the lands securing such installments and assessments shall be sold in the same manner in which real property in such city is sold for the nonpayment of general city taxes, and be subject to redemption within one year from the date of sale in the same manner as such real property is redeemed from such delinquent sale, and if not redeemed it shall in like manner pass to the purchaser.

Effect of certificate of sale

8801. If any lot or parcel of land is sold for nonpayment of taxes and of any installment of the assessment thereon, or of the penalties, interest or costs on the same, or for the nonpayment of any installment of the assessment or of the penalties, interest or costs on the same, any certificate of such sale and deed issued pursuant thereto, is primary evidence of the regularity of all proceedings had prior thereto, and shall be conclusive evidence of all things of which bonds issued upon the security thereof are conclusive evidence, and prima facie evidence of the regularity of all proceedings subsequent to the issuance of the bonds, and such deed conveys to the grantee the absolute title to the lands described therein, free of all incumbrances, except the lien for other State, county and city taxes and unpaid installments, interest and penalties under the same proceeding and except all public improvement assessments which may have priority thereover.

Purchase by city

8802. The city may be the purchaser at any delinquent sale in the same manner in which it becomes or may become the purchaser of property sold for nonpayment of general city taxes. If the city becomes the purchaser it shall pay and transfer into the redemption fund the amount of the delinquent assessment and of the delinquent interest for which the property is sold.

Purchase by State

8803. If a county or a city whose taxes are collected by the county is conducting the proceedings and sales for nonpayment of such taxes are made to the State, the State shall be the purchaser at any such sale hereunder, but shall hold the title acquired at such sale upon behalf of the county or the city and shall account to the county or the city for any moneys received upon redemption or from the sale of such property. In such case for the purposes of this division the county or the city shall be deemed to be the real purchaser. In other cases where under the law the city is not always the purchaser at sales for delinquent city taxes, the city shall become such purchaser at any delinquent sale hereunder where there is no other purchaser.

Purchase by city

Payment of delinquent assessments by city

8804. If there are no available funds in the treasury with which to make payment of the amount of the delinquent assessment and interest for which the property was sold, the tax collector shall delay the entry of the certificate of sale until such funds are available, and shall in the meantime make demand upon the legislative body that a suitable amount be included in the next tax levy for the purpose of providing funds with which to make such payment. However, the period of redemption from such tax sale shall not be extended thereby nor shall the rights or privileges of the property owner be in any wise affected.

Subsequent sales

8805. If the city purchases any property for delinquency and any succeeding installment of the assessment or of the interest on the assessment is not paid in any future year, the property shall not be sold unless there has previously been a redemption from such sale or unless under the law the property is then being sold for delinquent taxes.

Payments by city

8806. The provisions of the preceding section notwithstanding, the city shall, unless a resale has been made by it, from time to time when due pay and transfer into the redemption fund the amount of any future delinquent installments of the assessment and interest thereon pending redemption, and no redemption shall be made until any such subsequent payments, with interest and penalties, shall also be paid.

Redemption sale

8807. The purchaser, at the tax collector's sale, or at a resale by the city if the city has become the purchaser, or at a foreclosure sale by order of court, shall take the property

subject to all unpaid installments, interest and penalties under the same proceeding and subject to all public improvement assessments which may have priority thereover.

Payment of taxes by city

8808. The city shall have the right to advance and pay any other taxes wherever necessary to protect its interest in property against which there is a delinquent assessment. It may also at its discretion temporarily transfer moneys into the redemption fund from other funds in which such moneys are not immediately needed, the moneys so transferred to be used to pay sums due from such redemption fund and to be retransferred therefrom out of the first available receipts.

Tax levy

8809. The legislative body may, and in the event of demand by the tax collector therefor as provided in Section 8804 hereof shall, at the time of fixing the annual tax rate and levying the taxes to be collected for general city purposes, levy a special tax upon the taxable property in the city for the purpose of paying for the lands purchased or to be purchased at tax sales held under the provisions of this part, but not to exceed for each local improvement ten cents ($0.10) on each one hundred dollars ($100) of assessable property. Such special tax shall be in addition to all other taxes levied for city purposes, and shall be computed, entered and collected in the same manner, and by the same persons and at the same time and with the same penalties and interest as are other taxes of the city.

PART 14. FORECLOSURE BY ACTION

Cumulative remedy

8830. As a cumulative remedy, if any assessment or reassessment or installment thereof, or of any interest thereon, together with any penalties and other charges accruing under the taxation ordinance of the city are not paid when due, the legislative body may, not later than four years after the due date of the last installment of principal, order that the same be collected by an action brought in the superior court to foreclose the lien thereof.

Costs

8831. Costs in the action shall be fixed and allowed by the court and shall include a reasonable attorney's fee, interest, penalties and other charges or advances authorized by this division, and when so fixed and allowed by the court the costs shall be included in the judgment.

Judicial sale

8832. The court shall have the power to adjudge and decree a lien against the lot or parcel of land covered by the assessment or reassessment for the amount of the judgment and to order the premises to be sold on execution as in other cases of the sale of real property by the process of the court, with the same rights of redemption.

The foreclosure action shall be governed and regulated by the provisions of this chapter, and also where not in conflict with this chapter, by the codes of this State.

Release of tax collector

8833. When any foreclosure actions are ordered the tax collector shall be credited upon the assessment roll then in his hands with the amount charged against him on account of the assessments or reassessments to be sued on and he shall be relieved of further duty in regard thereto.

Action

8834. The foreclosure action shall be brought in the name of the city, and may be brought at any time prior to the expiration of four years subsequent to the date of delinquency of the last installment due or to become due upon the assessment or reassessment sued on. The complaint may be brief and include substantially only the following allegations with reference to the assessment or reassessment sought to be collected:

Complaint

(a) That on a date stated the legislative body passed its resolution ordering certain work to be done, without describing the same.

(b) That work was done pursuant to the resolution.

(c) That an assessment and warrant to pay the cost of the work was duly given and made; and was returned on a stated date.

(d) That certain property (describing it) was therein assessed a stated amount and that bonds upon the security of such assessment were duly issued under this division giving the date of said bonds, their interest rate and the number of years the last installment of same were to run, but it shall not be necessary to state the amount, number, denomination or other terms of the bonds.

(e) That on a date stated a certain sum came due against the described property on the assessment and had not been paid and that the legislative body had ordered the action to foreclose.

Penalties

8835. The amount of penalties, costs and interest due shall be calculated up to the date of the judgment.

PART 15. MISCELLANEOUS PROVISIONS

Errors in computation

8850. No bond, coupon, assessment or installment thereof or of the interest or penalties thereon, or certificate of sale or deed shall be held invalid for any error in the computation of the proper amount due on the same, if the error is found to be comparatively negligible, or is found to be in favor of the owner of the real property affected thereby.

Examination by superintendent of banks

8851. Upon the application of the legislative body or of any holder or other interested party, the superintendent of banks shall examine into the regularity of the issuance of bonds under this division and the sufficiency of the security

provided for the payment thereof and if satisfied therewith he may certify the same as suitable for investment by savings banks and trustees whereupon the bonds may be used for investment of savings deposits and trust funds. The cost of any such examination may on approval of the legislative body be paid out of any surplus money in the redemption fund not required for the payment of the interest or principal of the bonds.

If the lots or parcels of land, or any of them, are omitted from the assessment by the resolution, the total cost and expense of all work done shall be assessed on the remaining lots lying within the limits of the assessment district, without regard to such omitted lots or parcels of land. If the city declares in the resolution of intention that the said lots or parcels of land, or any of them, shall be included in the assessment, or if no declaration is made respecting such lots or parcels of land, or any of them, the city shall be liable for such sums as may thereafter be assessed against such lots or parcels of land, and such sums shall be payable by the city out of the general fund unless the city council shall in its resolution of intention designate another fund. CHAPTER 3. THE PRELIMINARY REPORT

Report

18040. The city council shall, prior to the passage of the resolution of intention, order the board, commission or officer of the city having charge and control of the maintenance or servicing of street lighting systems or any competent person employed by the city for that purpose, as the city council may name in the order, and direct such board, commission, officer or person to make and file with the city clerk a report in writing.

Contents

18041. Such report shall contain the following:

(a) Plans and specifications of the proposed improvement. Plans and specifications shall be sufficient with respect to location of lights to be improved if such plans and specifications show or describe the approximate location of said lights.

(b) An estimate of the cost of the improvement, for the period of time during which it is proposed to be continued.

(c) A diagram showing the proposed assessment district and also the boundaries and dimensions of the respective lots or parcels of land within the district, each of which lots or

parcels shall be given a separate number upon the diagram. The diagram shall govern for all details as to the extent of the proposed assessment district.

(d) A proposed assessment of the total amount of the costs and expenses of the proposed improvement upon the several lots or parcels of land in the assessment district in proportion to the estimated benefits to be received by such lots or parcels, respectively, from said improvement. If any portion or percentage of the costs and expenses of such proposed improvement is ordered to be paid out of the city treasury, the amount of such portion or percentage shall first be deducted from the total estimated cost and expense of such improvement, and the assessment proposed in the report shall include only the remainder of the estimated costs and expenses. The proposed assessment shall refer to such lots or parcels upon the diagram by the respective numbers thereon and it shall show the names of the owners, if known, otherwise designating them as unknown. No mistakes in the name of the owner of any lot or parcel of land shall affect the validity of the assessment thereon.

Period of improvement

18062. The city council shall, in the resolution of intention, provide that the improvement of the street lighting system shall be for a period of time stated in the resolution of intention, which period of time shall not exceed five years. The dates of commencement and ending of that period shall be fixed by the city council on or before the date of execution of any contract as provided in this part, or, in the event that

no contract is let and the maintenance or servicing is furnished by the city, those dates shall be fixed by the city council on or before the date of ordering the maintenance or servicing by the city. The city council may subsequently postpone the dates of commencement and ending of the period for a reasonable time upon good and sufficient reason appearing therefor and may, in any advertisement for bids and in any contract entered into, reserve the right to make such postponement for such reason.

CHAPTER 5. PROTEST AND HEARING

Time of hearing

18070. After the adoption of the resolution of intention, the city council shall by resolution appoint a time and place for hearing protests in relation to the proposed improvement, which time shall not be less than 20 days from the date of the passage of the resolution of intention, and shall direct the clerk to give notice of the hearing in the manner provided in this part.

Posted notice

18071. After the passage of the resolution of intention the clerk, street superintendent, or other person designated by the city council shall cause to be conspicuously posted along all streets in the district where the improvement is proposed to be made or which is to be assessed for the benefits thereof, at not more than 300 feet apart, but not less than three in all, notices of the passage of the resolution. The notice shall:

Contents

(a) Be headed "Notice of local improvement," in letters of not less than one inch in height.

(b) In legible characters state the fact and date of the filing of the report and the passage of the resolution of intention.

(c) State the date, time and place fixed for the hearing of protests.

(d) Briefly describe the improvement proposed to be made and refer to the resolution of intention and report for further particulars.

Published notice

18072. The clerk shall also cause a notice, similar in substance, to be published by two successive insertions in a daily or weekly newspaper published and circulated in the city and designated by the city council for that purpose. The publication and posting of the notices shall be completed at least 10 days before the date set for the hearing of the protests.

Description of district by reference

18073. The assessment district need not be described in the notices or in any resolution provided for in this part other than the resolution of intention. All such notices and resolutions, if a description of the assessment district is necessary, shall refer to the resolution of intention for such description.

Protests

18074. Any person interested who objects to the proposed improvement or to the assessment therefor may file a written protest, stating his objections thereto, with the clerk at or before the hour set for the hearing of protests. The clerk shall indorse on every such protest the date and time of its reception by him, and at the time appointed for the hearing shall present to the governing body all protests so filed.

Hearing

18075. The city council shall hear, consider and pass upon the protests at the time appointed therefor, or at any time to which the hearings thereof may be adjourned, and may modify or correct the proposed assessment, and its decision on all matters of protest shall be final and conclusive. If such protests are sustained, the proceeding shall be abandoned but may be renewed at any time. If such protests are denied or if no protests are filed the proposed assessment as the same shall have been modified or corrected shall be confirmed, and the city council shall thereupon acquire jurisdiction to proceed with the improvement and may by resolution order the proposed improvement to be made.

CHAPTER 6. LEVYING AND COLLECTING THE ASSESSMENT

Assessments to meet annual costs

18090. After acquiring jurisdiction to proceed with the improvement, the city council shall levy the assessment for the portion or percentage required to pay for the improvement for the period of time beginning with the date of commencement of the improvement fixed by the city council and ending, as determined by and at the discretion of the city council either with the close of one 12-month period thereafter or with the close of the current or of the following fiscal year, upon all the respective lots or parcels of land in the assessment district. Thereafter during the period of time provided in the resolution of intention, the city council shall, on or before the beginning of the next succeeding 12-month period or the following fiscal year, levy in like manner and on the same lots or parcels of land the assessment for the portion or percentage required to pay for such improvement for such year, and said board, commission, or officer of the city authorized therefor shall, on or before 60 days prior to the commencement of each such period make and file with the city council a report in writing.

Annual reports

Contents

18091. Such report shall contain:

(a) An estimate of the cost and expense of the improvement for the ensuing 12-month period or the ensuing fiscal year.

(b) A diagram showing the assessment district referred to in the resolution of intention, also the boundaries and dimensions of the respective lots or parcels of land within the district as it existed at the time of the making of the last mentioned diagram, each of which lots or parcels shall be given a separate number on the diagram.

(c) A schedule showing the proportionate amount of the assessment to be charged in proportion to the benefits to be received by each lot or parcel shown on the diagram required by subdivision (b) of this section.

Unexpended balances

18092. Any unexpended balance remaining in the fund devoted to the improvement at the expiration of any preceding assessment period shall be credited to the fund to be raised for the next ensuing assessment period and the assessment to be levied for such ensuing period shall be only for the amount required therefor after deducting from such estimated amount the amount of any such unexpended balance. Any unexpended balance remaining in such fund at the expiration of the period of time provided for in the resolution of intention shall, upon demands therefor made upon the city council within one year from and after the expiration of the time specified in the resolution of intention, be repaid pro rata to the persons by whom such assessments were paid. Any such unexpended balance remaining in such fund at the expiration of such period, and not demanded within said period of one year, shall revert to the general fund of the city or be placed in such fund as the city council may order.

Deficiencies

18093. If for any reason there is a deficiency in the funds derived from the assessment for any improvement, including all incidental expenses thereof, the city council may meet such deficiency by an appropriation out of the general fund of the city or by ordering a supplemental assessment in the same manner as nearly as may be as the first assessment, except that protests may only be made against such supplemental assessment.

Transmission of records to tax collector

18094. Upon the levying of any assessment, the city clerk shall transmit the diagram and assessment upon which such levy is based, or a certified copy of said diagram and assessment to the city tax collector or to such other city officer or employee as the city council designates in the resolution levying the assessment or in case the city has adopted a method for collection of taxes by county officers then to the county tax collector, and such county tax collector shall have full power to perform the duties required in this part of the city tax collector.

Limitation on actions

18095. The validity of any assessment levied under this part shall not be contested in any action or proceeding unless such action or proceeding is commenced within 30 days after the time the assessment is levied, and any appeal from a final judgment in such an action or proceeding shall be perfected within 30 days after the entry of such judgment.

Recording assessment

18096. Upon the receipt of the diagram and assessment or a certified copy thereof, the tax collector shall record them in

a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording. Such record shall be the assessment roll. From the date of such recording all persons shall be deemed to have notice of the contents of such assessment roll. Immediately upon such recording, the several assessments contained in such assessment roll shall become due and payable, and each of such assessments shall be a lien upon the land against which it is made, paramount to all other liens except liens for State, county, and city taxes, and shall only be discharged by payment of the assessment or by redemption of the land after sale for delinquency.

Notice of assessment

18097. The tax collector shall, upon the recording of such diagram and assessment, give notice by publication for five days in a daily newspaper, published and circulated in the city, or by two insertions in a weekly newspaper so published and circulated, that the diagram and assessment has been recorded in his office and that all sums assessed therein are due and payable immediately, and that payment of said sums shall be made to him within 30 days after the date of the first publication or posting, which date shall be stated in the notice. The notice shall also contain the statement that all assessments not paid before the expiration of the said 30 days shall be delinquent, and thereupon 5 per cent of the amount of each such assessment shall be added thereto.

Payment

18098. When payment of any assessment is made, the tax collector shall mark opposite such assessment the word "paid," with the date of the payment thereof, and shall give a receipt therefor. Upon the expiration of said period of 30 days, all assessments then unpaid shall become delinquent, and the tax collector shall mark each such assessment "delinquent," and shall add 5 per cent to the amount thereof.

Delinquency

CHAPTER 7. SALE AND REDEMPTION OF DELINQUENT PROPERTY

Notice of sale

18120. The tax collector shall, within 30 days after the date of delinquency, begin the publication of a notice of sale of the land upon which the assessments have not been paid, which publication shall be made by two insertions in a daily or weekly newspaper published and circulated in the city. The dates fixed for the sale of such land shall be not less than five days nor more than 10 days after the last publication of said notice of sale, or after the completion of posting, as the case may be.

Contents

18121. The notice of sale so published shall contain a description sufficient to identify each lot or parcel of land delinquent, and opposite each description the name of its owner, if known, otherwise designating him as unknown, and the amount of the assessment and costs due, including the cost of advertisement, which cost of advertisement shall not exceed

the sum of fifty cents ($0.50) for each lot or parcel of land separately assessed. The tax collector shall append to and publish with the notice of sale a notice that unless each delinquent assessment, together with the penalties and costs thereon, is paid, the land upon which the assessment is a lien will be sold at public auction, at a time and place to be specified in the notice.

Redemption prior to sale

18122. At any time after such delinquency and prior to the sale of any lots or parcels of land assessed and delinquent, any person may pay the assessment thereon, together with the penalties and costs due thereon, including the cost of advertising, if such payment is made after the first publication of notice of sale.

Sale

18123. At the time and place fixed in the notice of sale the tax collector shall proceed with such sale, commencing at the head of the list of lands contained in such notice and continuing in the numerical order thereof until all the land is sold, except that he may postpone or continue the sale from day to day until the sale is completed. The tax collector shall separately sell each lot or parcel of land described in such notice, or so much thereof as is necessary to realize the amount assessed against the lot or parcel together with the penalties and costs, and fifty cents ($0.50) for a certificate of sale. If there is no other purchaser the lot or parcel shall be struck off to the city as purchaser.

Certificates of sale

18124. The tax collector shall issue for each sale an original and duplicate certificate of sale, referring to the proceedings, describing the lot or parcel of land sold, and giving the name of the purchaser and the amount for which the lot or parcel was sold. He shall deliver the original certificate to the purchaser, and he shall keep the duplicate on file in his office.

Redemption prior to deed

18125. At any time after the date of sale and prior to the issuance and delivery of a deed to the land sold, any land sold under the provisions of this chapter may be redeemed by the payment to the tax collector of the amount for which the land was sold, with an additional penalty of 1 per cent per month of said amount together with such other penalties as may be payable as provided in this chapter. Said 1 per cent penalties shall be added on the first day of each month following the date of the sale of the land.

Payment to certificate holders

18126. The redemption money shall be paid by the tax collector to the person holding the original certificate of sale upon his delivering up such certificate and receipting for the amount received from the tax collector therefor. Upon redemption of any lot or parcel of land the tax collector shall enter the fact and date of such redemption upon the duplicate certificate of sale thereof.

Deed

18127. At any time after the expiration of 12 months from the date of sale, the tax collector shall execute to the purchaser, or his assignee, on his application, if such purchaser or assignee has complied with the provisions of this chapter a deed of the land sold, in which shall be recited substantially the matters contained in the certificate, also any assignment thereof and the fact that no person has redeemed the land. The tax collector shall receive from the applicant for a deed one dollar ($1) for making such deed, unless the city is the purchaser, in which case no charge shall be made therefor.

Fee

Notice of intention to apply for deed

18128. The purchaser or his assignee shall, at least 30 days before he applies for a deed, serve upon the owner of the land, and upon the occupant of the land if it is occupied, a written notice setting forth:

(a) A description of the land.

(b) That the land has been sold for a delinquent assessment (specifying the improvement for which the assessment was made).

(c) The amount for which the land was sold.

(d) The amount necessary to redeem at the time of giving notice.

(e) The date when such purchaser or assignee will apply to the tax collector for a deed.

Absentee owners

18129. If the owner can not be found, after due diligence, the notice shall be posted in a conspicuous place upon the land at least 30 days before the date stated therein, at which the application for a deed will be made. The person applying for a deed shall file with the tax collector an affidavit showing that notice of such application has been given, as required, and if the notice was not served on the owner of the land personally, that due diligence was used to find the owner. The tax collector shall receive and file such affidavit in his office.

Affidavits

Service fees

18130. If redemption of the land is made after such affidavit is filed, and more than 11 months from the date of sale, the person making such redemption shall pay, in addition to the other amounts required, three dollars ($3) for the service of notice and the making of such affidavit, which amount shall be paid over to the purchaser or his assignee in the same manner as other sums paid for redemption. No deed for any land sold for delinquent assessments shall be delivered by the tax collector until the purchaser or his assignee has complied with all the provisions of this chapter and filed the proper affidavit with the tax collector.

Effect of deed

18131. The deed of the tax collector shall be prima facie evidence of the truth of all matters recited therein, and of the regularity of all proceedings prior to the execution thereof, and of title in the grantee.

CHAPTER 8. ALTERNATIVE PROCEDURE FOR INSTALLMENT ASSESSMENTS

Alternative procedure

18150. The procedure in this chapter shall be an alternative procedure to that provided in other sections of this part, and the city council may use this procedure or not, in its discretion, and when used the period for which the work is to be done shall be upon a fiscal year basis.

Addition to city tax roll

18151. When the assessment has been adopted and confirmed, as provided in Section 18075, the city clerk shall transmit the report, diagram and assessment, or a certified copy thereof, as finally adopted and confirmed to the city auditor, who shall record the same and thereafter enter on the assessment roll for general city taxes next coming due, opposite each lot or parcel of land affected, in a space marked "street lighting assessment" or other suitable designation, the assessment coming due thereon during the fiscal year covered by the assessment roll.

Installment payments

18152. Assessments coming due under this procedure in any year during the period of time stated in the resolution of intention shall be payable in annual or semiannual installments, accordingly as the general city taxes are payable in annual or semiannual installments, and shall be payable and become delinquent at the same times and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as general city taxes. Property securing such assessments shall be sold after delinquency in the same manner as property is sold for delinquent general city taxes, and shall be subject to redemption in the same manner as property is redeemable from sale for delinquent general city taxes.

Delinquent penalties

Purchase by city

18153. The city may be the purchaser at any delinquent sale under this chapter in like manner as it may become the purchaser of property sold for delinquent general city taxes, and when the city becomes the purchaser it shall transfer into the special fund devoted to the improvement the amount of the delinquent assessment, penalties and interest then due thereon. In cases where under the law the city is not always the purchaser at sales for delinquent general city taxes, the city shall become the purchaser at any delinquent sale under this chapter if there is no other purchaser.

Payments of assessments by city

18154. When the city becomes the purchaser the land shall not again be sold for any succeeding delinquent assessment, penalties and interest until it has been redeemed from the previous sale. The city shall, however, unless a resale has been made by it, from time to time when due transfer into said special fund, pending redemption, the amount of any succeeding delinquent assessment, penalties and interest. No

redemption shall be made until all delinquent assessments, penalties and interest are paid. The purchaser at any delinquent sale, or at any resale by the city if the city was the purchaser, shall take the land subject to all unpaid assessments, penalties and interest due under this chapter.

County collect on of city taxes

18155. If the procedure provided for in this chapter is adopted and the duties of assessing property and collecting city taxes are performed for the city by the county assessor and the county tax collector, in the manner provided by law, a certified copy of the diagram and assessment shall be filed with the county auditor on or before the tenth day of August. In each such diagram and assessment so filed with the county auditor, the descriptions of the properties reported shall be the descriptions used for the same properties on the map books of the county assessor for the then current year. The county auditor shall enter the amounts of the respective assessments on the county tax roll opposite the respective parcels of land and thereafter the said amounts shall be collected at the same time and in the same manner as county taxes are collected and all laws applicable to the levy, collection and enforcement of county taxes shall be and are hereby made applicable to such special assessment taxes.

CHAPTER 9. BIDS AND AWARD OF CONTRACT

Awarding contract

18170. At any time after the transmission of the diagram and assessment to the city tax collector or city auditor, the city council may let the contract for making such improvement. If the proceeding was commenced before the street lighting system referred to in the resolution of intention was installed or ordered installed, then such contract shall not be awarded until the street lighting system is installed or is duly ordered installed by the city council. If the installation of such proposed lighting system is abandoned, then the proceedings under this part shall be abandoned.

Bids

18171. Every such contract shall be let to the lowest responsible bidder after notice published by two insertions in some newspaper published in the city and designated by the city council for that purpose. Every bid shall be accompanied by a certified check amounting to not less than 10 per cent of the bid, payable to the order of the city clerk, and the check shall be forfeited to the city in case the bidder depositing it does not, within 15 days after the notice that the contract has been awarded to him, enter into a contract with the city for making the improvement, the faithful performance of which shall be secured by an undertaking in such penal sums as the city council shall require, with sureties satisfactory to that body. The contract shall require that the improvement be made, and the improvement shall be made, strictly in accordance with the plans and specifications contained in the report provided for in Chapter 3.

Supervision

18172. The improvement shall be made under the supervision of the board, officer or person designated by the city council, and no portion shall be paid for until it has been accepted by that board, officer or person.

Abandonment by contractor

18173. If the contractor abandons the making of the improvement, or fails to proceed with it as rapidly as required by his contract, the city council may relet the contract in the same manner as in the case of the first letting thereof and retain the amount of the cost of the portion relet, and of any expenses incidental to the reletting, out of any funds due or to become due to the contractor. The city council may also hold the contractor and his sureties responsible upon his bond for such cost and expense, and for any damages resulting from such abandonment or failure.

Performance by city

18174. The city council may, at any time within 20 days after the opening of bids, or, if no bids are received, at any time within 20 days after the time fixed for the opening of bids, order by resolution adopted by a vote of two-thirds of all of its members, that the city itself execute the work of the improvement, or any part thereof, in accordance with the plans and specifications adopted for such work, or for such part thereof, and employ the labor and provide the materials, appliances, supplies or illuminating agent necessary therefor. The cost and expenses of such work, or of such part thereof, shall be paid out of the special fund collected to pay for the improvement. If the city council orders that only a part of the work of the improvement be executed by the city then the city council may reject all bids, if any, received for such part of the work and may proceed with the award of the contract for the remaining part of the work.

Cost limitations

18175. If the work of the improvement, or any part thereof, is executed by the city, then the amount appropriated and used from the special fund to pay the costs and expenses of the work or part thereof executed by the city shall not exceed the amount of the respective lowest valid bid received for such work or for such part thereof, or, if no bids have been received and the work of the improvement is executed by the city the amount appropriated and used from the special fund to pay the costs and expenses of such work shall not exceed the amount of the respective estimate thereof provided for in Section 18041. If such costs and expenses exceed the amount of the said bid, or of the said estimate in case no bids are received, then such excess cost and expense shall be paid out of any moneys in the general fund in the city treasury.

Performance by city

18176. At any time after the funds for the proposed improvement, or any part thereof, are in the hands of the city treasurer, the city council may, without calling for bids, order

by resolution, adopted by a vote of two-thirds of all its members, that the city itself execute the work of such improvement, or any part thereof, in accordance with the plans and specifications adopted for such work or for such part thereof, and employ the labor, and provide the materials, appliances, supplies or illuminating agent necessary therefor. In such case the costs and expenses of such work, or of such part thereof, shall be paid out of the aforesaid funds, except that if such costs and expenses exceed the amount of the respective estimates provided for in Section 18041, then such excess shall be paid out of the moneys in the general fund in the city treasury.

CHAPTER 10. MISCELLANEOUS PROVISIONS

Improvement fund

18190. The money collected by the tax collector shall be paid by him, as fast as collected, to the city treasurer, who shall place it in a special fund designated by the name of the improvement proceeding, and payment shall be made out of said special fund only for the purposes provided for in this part. To expedite the making of any such improvement, the city council may at any time transfer into said special fund, out of any money in the general fund, such sums as it may deem necessary, and the sums so transferred shall be deemed a loan to such special fund, and shall be repaid out of the proceeds of the assessments provided for in this part.

Abandonment by city

18191. The city council may, at any time prior to the awarding of the contract for making the improvement, by resolution abandon the improvement proceeding, and upon such abandonment all money collected for such improvement shall be repaid to the several parties paying it.

18320. Whenever in the opinion of the city council the public interest or convenience may require, that body may: Improvements authorized

(a) Order any street lighting system to be maintained in or along the whole or any part of any one or more of the streets in such city.

(b) Order electric current or energy, gas, or other illuminating agent to be furnished for such street lighting system.

(c) Determine and declare the lands to be benefited by any such improvement.

(d) Assess, either partly or wholly, the costs and expenses (including all incidental expenses) of such improvement, or of any one or more of the items thereof, upon the lands benefited.

Period of work

18321. The improvement shall be for a period to commence at a time to be fixed by the city council but not exceeding five years from the date of commencement thereof.

Improvement of public utility systems

18322. The provisions of this part shall not be limited to the improvement of street lighting systems owned only by the city, but the city council may also order such improvement to be made upon street lighting systems provided and installed by, and remaining the property of, any public utility, public corporation, or other person with whom a contract is entered into for such improvement and may assess the costs and expenses thereof in accordance with this part.

Boundary line systems

18324. Whenever a street lighting system is installed along a boundary line or street of any city, the city council may, by resolution, assess the land abutting upon such boundary line or street for the estimated cost and expense of improving the system, even though the system is partially or entirely without the boundaries of the city.

Same

18325. If land has been assessed pursuant to Section 18324, the city council may proceed in all respects in connection therewith as though the street lighting system were entirely within the city limits; except that the city council may enter into a contract with the legislative body of the city or county having jurisdiction over the adjoining territory either to improve all or any portion of the street lighting system, or to have all or any portion of the system improved by the legislative body of the adjoining territory. The legislative body contracting to furnish such improvement may enter into any contract or issue any purchase order authorized in this part.

Contracts for improvement

CHAPTER 3. REPORT AND RESOLUTION OF INTENTION

Report

18340. The city council shall, prior to the adoption of the resolution of intention to order any improvement to be made, require the superintendent of streets to make and file with the clerk a written report containing the following:

Contents

(a) An estimate of the cost of such improvement and incidental expenses for the period of time recommended to be specified in the resolution of intention.

(b) A diagram or map showing the streets affected by the proceeding and in which street lighting systems have been installed and also each lot or parcel of land abutting such streets. Each lot or parcel of land shall be given a separate

number upon the diagram. The diagram, as finally approved by the city council, shall govern for all details as to the lots or parcels of land benefited by the proceeding.

(c) A proposed assessment of the total amount of the probable or estimated costs and expenses of the proposed improvement upon the several lots or parcels of land shown on the diagram or map referred to in subdivision (b) above, in proportion to the estimated benefits to be received by each such lot or parcel of land, respectively, for the period of time recommended for the continuance of the improvement and which is to be set out in the resolution of intention. The assessment shall refer to such lots or parcels of land upon the diagram or map by the respective numbers thereon.

(d) Plans and specifications which shall set out, among other things, the general type of street lighting system in each zone. The lighting systems to be improved shall be divided into zones and in each zone shall be grouped those systems of approximately the same general type. It shall be a sufficient description of the location of the lights to be improved if such plans or specifications show or describe the approximate location of the lights.

Approval

18341. Upon the filing of the report, the clerk shall present it to the city council for consideration at its next regular meeting, and that body may correct or modify it in any respect. The report as approved or as corrected or modified by the city council shall stand as the report for the purpose of all subsequent proceedings.

Resolution of intention

18342. When the report has been approved, the city council shall adopt a resolution of intention to order the improvement to be made. The resolution shall:

(a) Briefly describe the proposed improvement.

(b) Refer to the streets, by their lawful or official names or the names by which they are commonly known.

(c) If the improvement is not upon a street and there is no lawful or common name thereof, then briefly describe the land or right of way on which the improvement is to be made.

(d) Refer to the report of the superintendent of streets on file in the office of the city clerk.

(e) Fix the period of time for which the improvement is to be made.

(f) Appoint a time and place for hearing protests, which time shall be not less than 15 nor more than 60 days from the date of passage of the resolution.

Publication

18343. The city council shall direct the clerk to publish the resolution of intention by one insertion in a daily or weekly newspaper circulated and published in the city and designated by the city council for that purpose.

CHAPTER 4. PROTEST AND HEARING

Posted notice

18360. After the adoption of the resolution of intention, the superintendent of streets shall cause to be conspicuously posted along the line of the proposed improvement, at not more than 300 feet in distance apart, but not less than three in all, notices of the passage of the resolution of intention. No proceeding shall be held invalid for failure to post any street, if this section has been substantially complied with. In every case all posting shall be fully completed at least 10 days before the day set for the hearing of protests.

Contents

18361. The notices shall:

(a) Be headed "Notice of Street Lighting Assessment" in letters of not less than one inch in height.

(b) State in legible characters the fact of the passage of the resolution of intention, its date, and briefly the improvement proposed, and refer to the resolution of intention for further particulars.

(c) State in legible characters the day, hour and place when and where any and all persons having any protests to the proposed improvement may appear before the city council and show cause why the proposed improvement should not be carried out in accordance with the resolution of intention.

Protests

18362. At any time not later than the hour set for hearing protests any owner of any lot or parcel of land liable to be assessed for the improvement may make written protest against the proposed improvement, or against the estimated amount of the assessment, by filing his protest with the clerk. No other protests shall be considered by the city council except as provided in this chapter.

Hearing

18363. The city council shall hear and consider the protests at the time appointed therefor, or at any time to which it may adjourn the hearing thereof, and may confirm, correct or modify the proposed assessment.

Majority protest in zones

18364. If there is a majority protest by the landowners in any zone to the improvement in such zone, or if the street superintendent reports that it is practical to subdivide a zone and a majority of the landowners in such subdivided zone protest the improvement in such subdivided zone, the city council shall strike such zone or subdivided zone from the proceedings and correct the proposed assessment accordingly, unless that body, by a four-fifths affirmative vote of all its members finds that the public interest and convenience require that street lights in that zone or subdivided zone be improved. The determination of the city council shall be final and conclusive.

Proceeding after elimination of zones

18365. If a zone or subdivided zone is struck from the proceedings, the city council may proceed the same as though that zone or subdivided zone was not a part of the original proceedings.

Ordering improvement

18366. Immediately upon the city council's determination it shall have jurisdiction to confirm the report and assessment, and order the proposed improvement to be contracted for or supplied as provided in this part.

CHAPTER 5. LEVYING AND COLLECTING THE ASSESSMENT

Assessments to pay annual costs

18390. The city council shall thereafter levy an assessment upon each lot and parcel of land for the first contract year for the amount estimated to be necessary to improve the street lighting system for the ensuing contract year. Prior to the expiration of each contract year the city council shall by resolution fix and levy the assessment for the amount estimated to be necessary to improve the system for such ensuing contract year.

City contributions

18391. The city council may order by resolution that any part or amount of the next installment of the estimated cost and expense of any improvement be paid out of the city treasury from such fund as the city council may designate, in which case the liability and obligation to pay any sum so provided for shall accrue and become fixed upon the date of the levy of the installment assessment next succeeding the adoption of the resolution.

Computation of assessments

18392. Whenever a part of the next installment of the estimated cost and expense is to be paid by the city, the superintendent of streets, in making up the installment assessment for such cost and expense, shall first deduct from the whole estimated cost and expense that part or amount which is to be paid by the city, and shall assess the remainder of the cost and expense proportionately upon the lots or parcels of land liable to be assessed in the manner provided in this part.

Surplus assessments

18393. Any surplus assessments collected shall be applied by the city council to reduce the assessment to be levied either for the next ensuing contract year or for the last contract year under the proceedings, and for the latter purpose such surplus may be permitted to accumulate in the assessment fund. Such reductions shall be made as nearly as possible to the zones or subdivided zones from which such surplus assessments were collected.

Disposition of surplus

18394. If there is any surplus remaining at the close of the last contract year under any proceedings, such surplus shall be used as follows:

(a) If new proceedings are started within one year after the close of the last contract year, such surplus shall be applied toward a reduction of the first installment of the new assessment. Such part of the surplus as was collected from each zone or subdivided zone shall be applied to reduce the installment levied against that zone or subdivided zone.

(b) If new proceedings are not started within the one-year period or if one or more zones or subdivided zones are omitted for any reason from the new proceedings any such surplus shall become and remain a part of the general funds of the city.

Public property

18395. Whenever any lot or parcel of land belonging to the United States or to the State of California or to any county, city, public agent, mandatory of the government, school board, educational, penal or reform institution, or institution for the feeble-minded or the insane and being in use in the performance of any public function abuts the public streets, in which street lighting systems are located and are to be improved under the proceedings, the city council may, by resolution adopted prior to the levy of any installment assessment, declare that the said lots or parcels of land or any of them shall be omitted from the installment assessments thereafter to be levied to cover the costs and expenses of the improvement.

Omission from assessment

18396. If the lots or parcels of land, or any of them, are so omitted from any installment assessment then the total cost and expense of the improvement shall be assessed on the remaining lots or parcels of land lying within such zones or subdivisions of zones as the city shall direct in the resolution, without regard to such omitted lots or parcels of land.

Liability of city for assessments

18397. If in such resolution the city council declares that the lots or parcels of land owned as provided in Section 18395 shall be included in an installment assessment or if no declaration is made respecting such lots or parcels of land, or any of them, the city shall be liable for such sums as may thereafter be assessed against such lots or parcels of land, which sums shall be payable by the city out of the general fund unless the city council shall in the resolution designate another fund.

Payment by public agency

Any such sums which may be assessed against any such lots or parcels of land shall not be payable by the city when such sums are paid by the owner of or the governing body controlling such lots or parcels of land.

Limitation on actions

18398. The validity of any assessment levied under this part shall not be contested in any action or proceeding unless

such action or proceeding is commenced within 30 days after the city council has acquired jurisdiction to confirm the report and assessment and any appeal from a final judgment in such an action or proceeding shall be perfected within 30 days after the entry of such judgment.

Transmission of assessment to tax collector

18399. Upon the levying of an installment assessment the city clerk shall transmit the diagram and assessment and any modifications or corrections thereof made by the city council to the tax collector.

Recordation

18400. Upon the receipt of the diagram and installment assessment the tax collector shall record them in a suitable book to be kept for that purpose and append thereto his certificate of the date of such recording. Such record shall become a part of the assessment roll upon which other taxes of the city are entered and shall be collected at the same time, in the same manner and by the same officer as in the case of other city taxes.

Collection of city taxes by county

18401. Where the duties of assessing property and collecting city taxes are performed for the city by the county assessor and the county tax collector, in the manner provided by law, a certified copy of the diagram and assessment shall be filed with the county auditor on or before the tenth day of August. In each such diagram and assessment so filed with the county auditor, the descriptions of the properties reported shall be the descriptions used for the same properties on the map books of the county assessor for the then current year. The county auditor shall enter the amounts of the respective assessments on the county tax roll opposite the respective parcels of land and thereafter the amounts shall be collected at the same time and in the same manner as county taxes are collected and all laws applicable to the levy, collection and enforcement of county taxes shall be and are hereby made applicable to such special assessment taxes.

Improvement fund

18402. All sums collected on account of such assessment shall be placed in the city treasury to the credit of a special fund, which shall be designated by the name of the proceeding. The special fund shall be used only for paying the costs and expenses of the improvement described in the resolution ordering the work, including the cost of all posting and publication provided for in this part and any other incidental expenses connected with the proceeding. The city council may at any time advance to such special fund out of any available funds in the city treasury, sums in excess of the amount to be paid by the city toward the cost of such improvement and may reimburse the city for such advances by repaying the amount thereof out of any money that thereafter comes into such special fund.

Assessment lien

18403. When the diagram and installment assessment are recorded, the several amounts assessed shall be a lien upon the lots or parcels of land assessed, respectively. Such lien shall continue and be enforced in the same manner and with the same penalties as other taxes of the city are continued and enforced.

Chapter 6. Bids and Award of Contract

Notice inviting bids

18420. At any time after the installment assessment becomes delinquent, the superintendent of streets may call for bids for such improvement and may fix a date, not less than 20 nor more than 30 days after the publication of a notice inviting bids for such improvement, for the receipt of such bids at his office at an hour not later than 10 a. m. on such date. Such notice shall be published once in a daily or weekly newspaper published and circulated in the city and designated by the city council for that purpose.

Security for bids

18421. Every bid shall be accompanied by a certified check or a satisfactory corporate surety bond amounting to 10 per cent of the bid, payable to the order of the city clerk or securing the city. The check or bond shall be forfeited to the city if the bidder depositing it does not within 10 days after the publication of a notice of award of the contract to him, enter into the necessary contract with the city. Upon such publication of notice of award of contract all other checks or bonds shall be returned to the bidders depositing them.

Contract terms

18422. The contract shall specify a date certain when the improvement shall be started, the date to be not more than 30 days after the execution thereof, and that the contract shall continue in force for a period of one year from the effective date of the contract.

Same

18423. The city council may, by resolution passed prior to the notice inviting bids, impose such other reasonable conditions, including faithful performance bonds and materialmen's bonds, as may in its discretion appear to be necessary and proper.

Chapter 7. City Furnishing Maintenance and Service

Improvement by city-owned utility

18440. If the city owns or operates or owns and operates a public utility capable of furnishing the improvement provided for in this part, this section may be used as an alternative procedure to that provided in Chapter 6 of this part. The city council by resolution may direct the superintendent of streets, instead of calling for bids and entering into a contract, to issue an interdepartmental purchase order for the

improvement of the street lighting system upon such terms as may be agreed upon between the street superintendent and the public utility board or commission. Such purchase order shall not be effective until it is approved by the city council. The interdepartmental purchase order shall state the date on which the improvement shall be started and that it shall continue in force for a period of one year from the effective date thereof.

CHAPTER 2. AUTHORITY TO CREATE THE DISTRICT

Creating district 18630. Whenever the public interest or convenience may require, the city council of any city in which a street lighting system has been installed may order that the expenses of maintaining and operating the system be assessed, either partly or wholly, upon lands in the city lying within a district which will be benefited by such maintenance and operation.

Benefited lands 18631. The lands which will be benefited by, and which are to be assessed for, the maintenance and operation of the system shall form and be known as a lighting maintenance district.

Size of district 18632. Any number of public ways and one or more street lighting systems may be included in one district, but the district, the public ways and the street lighting systems must lie entirely within the city whose city council forms the district.

Resolution of intention 18633. Before forming any district or ordering any part of the expenses of the maintenance and operation of any street lighting system to be assessed upon the lands within a district formed under the provisions of this part, the city council shall adopt a resolution of intention so to do.

CHAPTER 3. PRELIMINARY REPORT AND RESOLUTION OF INTENTION

Engineer's report 18660. Before adopting a resolution of intention, the city council shall order the city engineer to prepare and file with it a report containing substantially the following matters:

Contents (a) A statement of the public ways or portions thereof to be lighted.

(b) A general description of the lighting systems to be maintained and operated.

(c) A statement of the general items of maintenance and operation proposed to be furnished the systems. Such items may include electric power, gas, repairs, replacements, and any other items necessary for the proper maintenance and operation of the systems.

(d) A statement of the estimated cost of maintenance and operation for the first year and an estimate of the amount of electric power necessary for the operation of the system each year.

District maps 18661. The city council shall order the engineer to prepare and file with the report a map or plat of the district to be benefited by the maintenance and operation and which

is to be assessed to pay the expenses thereof. The map or plat shall also show the public ways to be lighted under the proceedings and the approximate location of the lights to be maintained and operated thereon.

Approval

18662. The report and map shall be presented to the city council and examined by it and either the report or map, or both, may be modified by the city council at any time prior to the adoption of the resolution of intention. When the report and map are finally approved by the city council, they shall be filed with the clerk.

Contents of resolution of intention

18663. The resolution of intention shall contain:

(a) A statement of the public ways to be lighted.

(b) A general description of the lighting systems to be maintained and operated.

Such items may include electric power, gas, repairs, replacements, and any other items necessary for the proper maintenance of the street lighting systems.

(d) A statement of the estimated cost of all other items of maintenance and operation to be furnished the systems in the district for the first year and in addition thereto a separate estimate of the amount of gas or electric power necessary for the systems each year.

(e) A general description of the boundaries of the district to be benefited by and to be assessed to pay the costs of the maintenance and operation.

(f) A statement of the length of time, which shall not exceed five years from the date of the formation of the district, that the maintenance and operation shall be furnished for the systems.

(g) The designation of a time when and a place where all persons having any interest in lands within the district liable to be assessed for the expenses of the maintenance and operation may be heard and any of said persons may present any objections that they may have by written protest filed with the clerk at or before the time set for the hearing.

City contributions

18664. The city council may order in the resolution of intention that a certain percentage of the costs of such maintenance and operation shall be paid out of the treasury of the city from such fund as the city council may designate.

Description by reference

18665. The resolution shall refer to the map or plat on file with the clerk for the boundaries of the district to be assessed, the public ways to be lighted and the approximate location of the lights thereon.

Publication and posting of resolution of intention

18666. After the passage of the resolution of intention, the clerk shall publish it by at least two insertions in a daily or weekly newspaper of general circulation designated by the city council for that purpose. Copies of the resolution headed "Notice of formation of lighting maintenance district" in letters not less than one inch in height, and signed by the clerk shall be posted by the superintendent of streets not more than 300 feet apart, and not less than three in all, along all open streets within the district. The first posting of notice and the first publication of the resolution of intention shall each be at least 20 days before the date set for the hearing of protests.

CHAPTER 4. PROTEST AND HEARING

Hearing

18690. At the time and place fixed for the hearing of protests or at any time to which the hearing is adjourned, the city council shall hear the evidence introduced in support of the protests. At the hearing the city council may modify the provisions for the maintenance and operation as stated in the resolution of intention by omitting one or more of the items stated therein, and may modify the boundaries of the district, but any land not within the district as described in the resolution of intention may not be included therein. The city council may change the percentage of the total maintenance and operation cost to be paid by the city and by the district; but the percentage to be paid by the district shall not be increased without further notice being given and a hearing being held in the same manner as notice was given and a hearing held on the original resolution of intention.

Modifications of improvement

Action on protests

18691. The city council may, by four-fifths vote, deny all protests and its decision thereon shall be final and conclusive. If any protests on matters which can not be modified as provided in Section 18690 hereof are sustained, the proceedings shall be abandoned but may be renewed at any time. No land shall be included within the district which in the judgment of the city council will not be benefited by the street lighting system as that body has finally determined to maintain and operate it.

Jurisdiction to proceed

18692. If no protests are filed or if all protests filed are heard and denied, or if any of the authorized modifications are made and the city council after hearing evidence on the question of benefits, determines that the territory within the finally established boundaries of the district will be benefited by the maintenance and operation finally determined upon, then the city council shall have jurisdiction to proceed.

Chapter 5. The Final Resolution

Formation of district

18710. The city council may, by final resolution, order the district formed. The final resolution shall:

(a) Describe the boundaries of the district as finally established.

(b) List the items of maintenance and operation agreed to be furnished, and their estimated cost for the first year, and order that those items be furnished from time to time as necessary.

(c) Order that the percentage of the total expenses of the maintenance and operation to be paid by the district shall be paid by special assessment taxes levied upon all the lands, exclusive of improvements, within the district.

(d) Specify the percentages of the total expenses of maintenance and operation to be paid by the district and by the city respectively.

Notice to assessor

18711. A certified copy of the final resolution shall be filed with the assessor who makes the assessment for general city taxes. Thereafter the assessor in making up the city assessment roll shall segregate the property included within the district on the assessment roll under the district designation contained in the resolution.

Chapter 6. Levying and Collecting the Assessment

Cost estimates

18730. Each year during the existence of the district and at least 30 days prior to the making of the general tax levy for city purposes, the city engineer shall furnish to the city council an estimate of the expenses for the next year of the items of maintenance and operation provided for in the final resolution. The first year the engineer shall not make an estimate but the estimate in the final resolution shall be used. The city council shall at the time of making the next general tax levy in the city and in the manner provided for the general tax levy, levy a special assessment tax upon all the lands, exclusive of improvements, within the district which will be sufficient to raise that percentage of the total sum required in the estimate which is to be raised from the district.

Levy of assessments

Collection with city taxes

18731. The special assessment tax shall be levied, computed, entered, collected and enforced at the same time, in the same manner, by the same persons and with the same penalties as other taxes for city purposes and when collected shall be paid into the city treasury to the credit of the fund of the district and shall be used only for the payment of the expenses of the district.

Expenditure of funds

18732. The city council shall control and order the expenditure of the funds of the district for the purposes of maintenance and operation as provided in the final resolution.

If at the expiration of any year there is an unexpended balance in the district fund, the balance shall, to that extent, reduce the fund to be raised from the district for the next year. Any balance remaining in the fund at the end of the term for which the district is formed shall be used to help furnish electric current for the systems maintained and operated from the funds raised in whole or in part from the district.

City contributions

18733. Each year at the time of making the special assessment tax levy the city council shall appropriate from the fund designated in the resolution of intention or from any other available fund a sum sufficient to pay that percentage of the total expenses of the maintenance and operation which is to be paid by the city.

Loans by city

18734. The city council may also transfer from the general fund of the city to the fund of the district sufficient money to pay all or any part of the percentage of the yearly expenses of the maintenance and operation which is to be paid from funds raised from the district. The amount of money so transferred shall be deemed a loan to the district fund and shall be repaid to the general fund from the first money thereafter coming into the district fund from taxes levied upon lands within the district.

CHAPTER 7. BIDS AND AWARD OF CONTRACT

Contracts

18760. The city council shall make all contracts and all necessary provisions for the furnishing of the maintenance and operation finally determined upon for the lighting systems which are to be maintained and operated from funds of the district. Such contracts shall be made in the same manner and after the same notice and by the same persons as other city contracts for such items of maintenance and operation are made unless such contracts of the city are not required to be made after competitive bidding. In that case the contracts for the district shall be let only after competitive bidding and the officer whose duty it is to let contracts for such items for the city shall give or cause to be given a notice inviting sealed bids on the items to be purchased and fix a time and place at which the bids will be opened and declared in public. The contract shall be awarded to the lowest responsible bidder, or if necessary for the public good any and all bids may be rejected and in such case readvertisement shall be had in the same manner as before. The notice inviting bids shall be published at least twice and the first publication shall be at least 10 days before the time set for opening the sealed bids.

Competitive bidding

CHAPTER 8. MISCELLANEOUS PROVISIONS

Acts essential to jurisdiction

18780. The sole acts necessary to confer jurisdiction upon the city council to order the formation of a district under the provisions of this part and the furnishing of maintenance and operation for street lighting systems therein shall consist of the adoption of a resolution of intention and the publication of the same in accordance with the provisions of this part.

Effect of irregularities

18781. No error, defect, irregularity, informality, neglect or omission of any officer of any city in any proceeding taken under the provisions of this part, which does not affect the jurisdiction of the governing body to order the formation of a district shall avoid or invalidate the proceedings.

(c) Indicate the placing and installation of all lights and any and all subsequent additional lights.

(d) Receive bids, award and make contracts with lighting companies in the name of the district to its very best advantage for the installation and maintenance of the street lighting system or any portion thereof and for servicing the same.

The contract shall be awarded to the lowest responsible bidder. However, the rates to be paid therefor shall not exceed the rates paid at that time by the county for highway lighting in other portions of the county. The rates to be paid for service shall not be fixed for a term exceeding five years, and the governing body shall reserve the right to abrogate the contract whenever service is offered to be supplied at two-thirds of the fixed contract price.

Installation of system

19151. In granting authority to install the system and in contracting for service the governing body shall impose such restrictions and conditions, and provide for such locations of the various wires and lights, as will work the least possible public or private inconvenience.

CHAPTER 9. INSTALLATION OF ADDITIONAL LIGHTS

Petition

19160. On or before the first day of September in any year, a petition, signed by 25 or more taxpayers and residents of the district asking for the installation and maintenance of additional lights, may be filed with the governing body.

Installation

19161. Upon the receipt of the petition the governing body shall immediately estimate the cost of installing and maintaining the additional lights, and shall include in the tax levy for the ensuing fiscal year a tax upon the taxable property within the district, at the equalized value thereof for that year, sufficient to pay the cost of installing and maintaining the additional lights. After the tax levy has been made the governing body shall proceed with the installation of the additional lights.

CHAPTER 10. ESTIMATING AND LEVYING THE ASSESSMENT

Cost estimates

19180. On or before the first day of September of each year, the governing body shall make an estimate of the cost of conducting and maintaining the lighting district for the ensuing fiscal year, and shall include therein the cost of installing and maintaining such additional lights as may have been petitioned for by the residents of the district as well as the cost of any other things which may be necessary for carrying out the purposes of this part.

Levy of assessment

19181. When the estimate has been made, the board of supervisors of the county shall at the time of levying county taxes, levy a special tax upon all of the taxable property within the district at the equalized value thereof, sufficient to raise the amount of the estimate.

Two year levy

19182. If a lighting district is organized after the general county tax levy has been made in any year, the governing body may authorize the immediate installation of the lighting system in the district, and shall include in the levy of taxes for the lighting district for the ensuing fiscal year, a sum sufficient to pay the cost of the installation and maintenance of the system for that portion of the preceding fiscal year for which no levy of taxes was made for that purpose.

Inclusion of lights maintained by public subscription

19183. If any lights have been maintained by public subscription or by money supplied from the district road funds, within any territory which subsequently becomes a lighting

district organized under this part, at the time of the establishment of such lighting district, or at the time of expiration of any then existing contract for the maintenance of such lights; such lights and the future cost of maintaining and operating them shall be included in the estimate of the governing body and shall thenceforth be maintained as a part of the lighting system of the district.

CHAPTER 11. DISPOSITION OF FUNDS

Lighting fund

19200. The revenue derived from the special tax, together with all other moneys acquired by the district, shall be paid into the county treasury to the credit of the lighting fund of the district subject only to the order of the governing body and shall be expended by it only for and on behalf of the district.

Disposition of surplus funds

19201. Any funds arising from assessments made under this part remaining in the county treasury after the payment of all outstanding legal obligations incurred by the district, shall be ordered transferred by the governing body to the city treasurer of any city that has been incorporated since the formation of the district, and which includes the district or a considerable portion thereof within its corporate limits. If no such city has been incorporated then the funds so remaining in the county treasury shall be transferred to a separate fund and upon the order of the governing body shall be repaid pro rata to the persons by whom the assessments were originally paid.

CHAPTER 12. ANNEXATION OF TERRITORY

Petition

19210. Contiguous territory in the same county may be annexed to a highway lighting district. A petition for that purpose may be filed with the board of supervisors of the county in which the district is situated. The petition shall:

(a) Designate the boundaries of the contiguous territory proposed to be annexed to the district.

(b) Designate the number of owners of real property in such territory and the assessed value of the real property in the territory as shown by the last equalized assessment roll of the county.

(c) State that the territory proposed to be annexed is not within the limits of any other lighting district, and request that such territory be annexed to the lighting district.

(d) Be signed by the owners representing at least one-fourth of the total assessed valuation of the real property proposed to be annexed to the district, as shown by the last equalized assessment roll of the county, and by at least one-fourth of the total number of owners of real property in such territory.

Time for hearing

19211. At the first regular meeting after the petition has been filed with it, the board of supervisors shall fix a time for hearing the petition and the protests of interested parties,

Notice

and shall cause a notice of the filing of the petition and the time set for the hearing to be published in a newspaper published and circulated in the county in which the district is situated. If there is no such newspaper, copies of the notice shall be posted in three conspicuous places in the territory to be annexed, for three weeks prior to the date fixed for hearing the petition.

Hearing

19212. Upon the date fixed for the hearing, or at any time to which it is continued, the board of supervisors shall consider the petition, and any objections which may be filed against it or against the annexation of any territory to the district.

Order granting petition

The board of supervisors may by order entered on its minutes grant the petition either in whole or in part, and by order entered on its minutes alter the boundaries of the district, and annex thereto all or such portion of the contiguous territory described in the petition as will be benefited by inclusion in the district.

Certain territory not to be included

19213. Any territory which will not be benefited, by inclusion in the district, or which is not contiguous to the district, or which is not described in the petition, shall not be included in the district.

Effect of order of annexation

19214. The order of annexation shall be conclusive evidence of the validity of all prior proceedings leading to the annexation recited therein and after the making of the order, the territory shall become a part of the lighting district and shall be taxed, together with the remainder of the district, for all taxes thereafter levied by the board of supervisors for the maintenance of the district.

CHAPTER 13. WITHDRAWAL OF TERRITORY

Petition

19230. Any portion of the territory of a highway lighting district which will not be benefited by remaining within the district may be withdrawn therefrom. Proceedings for the withdrawal of territory may be instituted by filing with the board of supervisors a petition signed by 50 or more freeholders or by a majority thereof if there are less than 100, within the territory desired to be withdrawn from the district requesting the withdrawal of the territory because it will not be benefited by remaining in the district and describing the exterior boundaries of the territory so sought to be withdrawn.

Time for hearing

19231. The board of supervisors shall fix a time and place for the hearing of the petition and for hearing protests

against the continuance of the remaining territory as a highway lighting district. The time fixed for the hearings shall not be less than 15 nor more than 30 days after the receipt of the petition.

Publishing and posting notice

19232. At least 10 days before the time fixed for the hearing the board of supervisors shall publish a notice of the hearing by one insertion in the newspaper circulated in the district which the board believes will best serve to give notice to the inhabitants of the district of the proposed withdrawal of territory. The notice shall also be posted at least one week prior to the time fixed for the hearing in three public places within the district, one of which shall be within the portion of the district proposed to be withdrawn.

Objections

19233. Any person interested may appear at the hearing and object to the withdrawal of territory from the district or may object to the continuance of the remaining territory as a highway lighting district. The board of supervisors shall consider all objections and shall pass upon the same, and if it finds that a portion of the district described in the petition and sought to be withdrawn will not be benefited by remaining within the district and that the territory not sought to be withdrawn will be benefited by continuing as a highway lighting district, then the board of supervisors may grant the petition for withdrawal either in whole or in part and by resolution reestablish the boundaries of the district omitting therefrom the territory withdrawn.

Effect of withdrawal

Effective date of

19234. Upon the withdrawal of any territory from the district, the remaining territory in the district shall continue as a lighting district until dissolved. No withdrawal of territory shall become effective until any outstanding contract for service has expired or such contract has, with the consent of the person furnishing such service, been modified or canceled so as to relieve the district of further obligation to pay for future lighting service within the territory withdrawn.

CHAPTER 14. DISSOLUTION BY PETITION

Petition

19250. Proceedings for the dissolution of the district may be instituted by filing with the board of supervisors a petition signed by 50 or more property owners and residents of the district, asking for its dissolution. The board of supervisors shall, within 30 days after receiving the petition, by resolution, order that an election be held in the district for the determination of the question of dissolution. The board shall appoint three qualified electors of the district to conduct the election which shall be called and conducted in the same manner as other elections of the district.

Election

Two-thirds vote

19251. If two-thirds of the qualified electors of the district vote in favor of dissolution, the district shall be dissolved.

Disposition of property

19252. Upon the dissolution of the district the title to any property which it may have acquired shall vest in any city which has at that time a considerable portion of the territory of the lighting district within its boundaries. If there is no such city, the title to the property shall vest in the board of supervisors of the county wherein the district is situated until such a city is created.

Outstanding indebtedness

19253. If at the time of the election to dissolve the district there is any indebtedness of the district outstanding, the vote to dissolve shall dissolve the district for all purposes except the levy and collection of taxes for the payment of such outstanding indebtedness. From the time the district is thus dissolved until the indebtedness is fully paid, the legislative body of the city which is entitled to the property of the district as provided for in Section 19252, or if there is no such city, the board of supervisors of the county wherein the district is located shall be the ex officio governing body of the district. That body shall levy such taxes and perform such other acts as may be necessary to pay the outstanding indebtedness of the district.

CHAPTER 15. DISSOLUTION BY ANNEXATION OR INCORPORATION PROCEEDINGS

Inclusion in cities

19270. Upon the inclusion of all of the territory embraced in any highway lighting district within one or more incorporated cities, either by annexation proceedings or by the incorporation of the cities, all funds paid into the lighting fund of the district in the county treasury shall be paid over by the governing body of the district to such city or cities.

Disposition of funds

19271. If all of the territory of the district is included within one incorporated city, the money paid into the lighting fund shall be paid to the treasurer of that city, and administered by the legislative body thereof. The city legislative body shall have all of the powers and perform all of the duties granted to or imposed upon the board of supervisors of the county in which the district is located and shall carry out the provisions of this part as to such district to the same purpose and extent as if originally constituted the governing body thereof. The city shall be liable for all outstanding liabilities of the district incurred prior to the time the district was included within the city.

Liability for debts

Inclusion in more than one city

19272. If all of the territory of the district is included within more than one incorporated city, then such proportionate part of the money paid into the lighting fund shall be paid to the treasurer of each such city as the area of that

portion of the district included in that city bears to the total area of the district. The funds so paid shall be administered by the legislative body of each such city, and each of the said legislative bodies shall have all the powers and perform all of the duties, so far as that portion of the district within its boundaries is concerned, granted to or imposed upon the board of supervisors of the county in which the district is located and shall carry out this part as to the portion of the district included within its boundaries to the same purpose and extent as if originally constituted the governing body thereof.

Liability for debts

19273. Each city shall be liable for such proportionate part of all the outstanding liabilities of the district incurred prior to its inclusion within the cities as the area of that portion of the district included in each city bears to the total area of the district.

Dissolution

19274. After all of its territory has been included within one or more cities, upon the expenditure of its funds and the discharge of its obligations the district shall be ipso facto dissolved.

Chapter 16. Miscellaneous Provisions

Annexation of part of district to a city

19290. If less than the whole of the territory of the district is included within one or more cities, the district shall continue in existence and shall continue to function without being affected thereby, unless it is dissolved upon petition. The board of supervisors may levy a special tax upon all of the taxable property within the boundaries of the district for the purposes and in the manner provided in this part, the same as though all of such property is situated in the unincorporated territory of the county, and with the same effect.

Disposition of funds of particular districts

19291. If a portion of the territory embraced in any district has been detached therefrom prior to the twenty-ninth day of July, 1927, either by annexation or incorporation proceedings, and the portion of the territory of such district remaining unannexed or unincorporated has been dissolved instead of continuing its existence as a lighting district, and thereafter moneys are paid into the fund of such district by reason of the collection of delinquent taxes or otherwise, such portion of the subsequent fund accretions, as was provided by law at the time of such annexation or incorporation, shall be paid to the city or cities within which the detached portion of such district was included. The remainder of such moneys shall be paid into the road fund of the road district within which the remaining unannexed or unincorporated portion of such district lay.

22061. Except in the case of manifest public danger and immediate necessity, no such tree shall be wholly cut down or removed unless 10 days' notice in writing is given to the owner, tenant, or occupant, or agent of the owner, tenant or occupant of the land upon which the tree is situate.

Objections

22062. If the owner, tenant, occupant, or agent, within seven days after the giving of the notice, files with the board his objections in writing to the removal, the tree shall not be cut down or removed unless the board gives the owner, tenant, occupant, or agent a reasonable opportunity to be heard and shall thereafter approve in writing the removal of the tree.

Petition for improvement

22083. A proceeding for the planting, maintenance, or removal of trees may also be instituted by a petition to the council of property owners whose property will be among that to be assessed to pay the cost of the proposed improvement. Upon such petition being filed the city forester shall file with the city council a diagram similar to the one accompanying a written proposal of the board for similar improvements, which shall describe the improvement proposed by the petition.

Any planting, maintenance, or removal done under the circumstances specified in this section shall not require the initiation of any proceedings as elsewhere specified in this part, or any other proceedings, or any formal action by the board or by the city council.

Resolution of intention

22086. Before ordering any improvement specified in either the written proposal of the board or in the petition of

property owners, the city council shall adopt a resolution of intention declaring its intention so to do, briefly describing the improvement, the streets which are to be improved, the general nature and the estimated costs and expenses thereof, the kinds of trees to be planted, if any, and fixing a time when the city council shall hear and pass upon protests against the improvement.

Period of maintenance

22087. If the proposal or the petition contains a provision for the maintenance of trees which are already planted or are proposed to be planted, the resolution shall provide for the maintenance of the trees for the period specified in the proposal, but in any event not to exceed five years.

(f) That any lot owner may protest against the improvement as provided in the resolution of intention.

Majority protest

22092. If the owners of a majority of the front footage involved in the improvement object to the improvement, all further proceedings shall be terminated. If there is a majority protest the proceeding shall not be renewed for a period of six months, and then shall only be renewed by the adoption of another resolution of intention.

Hearing

22093. On the date fixed by the resolution of intention for the hearing of protests, the city council shall proceed to hear and pass on all protests filed with it, and its decision thereon shall be final and conclusive.

Decision

22094. After the hearing, the city forester, under the direction and supervision of the board, shall abandon the improvement or proceed with it, according to the decision of the city council.

Ordering the improvement

22095. If the council decides to proceed with the improvement, it shall, by resolution order the improvement to be made according to the resolution of intention, or with such alterations or changes as it may deem best.

Assessment of costs

22096. After deducting any contribution to be made by the city, the balance of the entire cost of the improvement between the lot lines, in front of any lot or parcel of land abutting on a street which is to be improved, shall be chargeable to and assessed upon such lots or parcels of land.

The work so contracted for shall be done under the supervision of the city forester.

Abandonment by contractor

22112. If the contractor abandons the work, or fails to proceed with it as rapidly as required by his contract, the city forester may relet the work in the same manner as in the first letting, or complete or cause it to be completed in any other manner he deems advisable. He may retain the amount of any expense incidental to the reletting, out of any funds due or to become due to the contractor, and may also hold him and the sureties upon his bond responsible for any additional expenses and for any damages resulting from the abandonment or failure to complete his contract.

Redemption prior to sale

22165. At the time and place stated in the notice the tax collector shall proceed with the sale, commencing at the head of the list of the lots and parcels of land contained in the notice and continuing in the numerical order thereof until all the lots and parcels are sold. He may postpone or continue the sale from day to day until it is completed. He shall separately sell each lot or parcel of land, or so much thereof Sale

Certificates of sale

22166. The tax collector shall issue for each sale an original and a duplicate certificate of sale, which shall refer to the proceedings, describe the lot or parcel sold, and give the name of the purchaser and the amount for which the sale was made. He shall deliver the original certificate to the purchaser, and he shall keep the duplicate on file in his office.

Redemption after sale

A statement of the facts constituting such necessity is as follows:

Investigation has recently shown that corruption in the conduct of horse races has existed and that great sums of money have been taken from the public through improper influencing of race results. This evil will continue to exist in race meetings conducted prior to the time this act would take effect in ordinary course, and it is therefore necessary for the immediate protection of the public from harmful practices that this act take effect immediately.

The board may appoint as superintendent of said school and as instructors therein such officer or officers as may be designated for that purpose by the Secretary of the Navy. The term "Port of San Francisco" as used in this act shall be deemed to include all of San Francisco, San Pablo, and Suisun bays and all rivers flowing into those bays or into the straits connecting the same. SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall therefore go into effect immediately. The following is a statement of the facts constituting such necessity:

Urgency

The Federal Government has been compelled to order the California Maritime Academy from its present site. The academy training ship is now on cruise and upon its return will have no place to dock unless another site is immediately provided. It is therefore imperative that construction work on a new site be started immediately so that at least a pier be constructed before the training ship returns. It is therefore essential that this act take effect immediately.

[Approved by Governor April 10, 1941. Filed with Secretary of State April 10, 1941.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 395.4 is hereby added to the Military and Veterans Code, to read as follows:

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and as such shall take effect immediately. The following is a statement of the facts constituting such necessity:

In view of the apparent necessity for providing an adequate National Defense Program as promptly as possible, it is anticipated that many public employees will volunteer their services with the armed forces of the United States instead of awaiting conscription under the Federal Selective Military Service Law. It has, therefore, become necessary to provide for the retention of the rights of those so going into the armed forces. The preservation of a sound system of public administration requires that this protection be afforded to all public employees and in order to make this act fully effective it is necessary that it take effect immediately.

In connection with such relocation, the United States is committed to the construction of a bridge across Pit River and over a portion of the proposed reservoir to serve jointly the highway and railroad as so relocated. It is essential to the completion and use of said bridge that an agreement be entered into at this time relating to the joint use and maintenance thereof. Such an agreement is ready for execution but the legal authority of any officer of the State to execute the same is questioned. In order that provision may be made for the completion and use of said bridge as contemplated, it is necessary that this act, which authorizes the execution of such an agreement by the State of California, take effect immediately.

20863. The device used for the indication of grade, brand or trade name as required by this article shall be so interlocked or interconnected with the valve or other device with which the selection of product is controlled, that any change in position of the controlling or selecting device shall automatically indicate the grade, brand, or trade name of the product which has been selected for measurement and delivery. Such device shall not permit the flow of products of different grades, brands or trade names at any given time.

Single meters

20864. Nothing in this chapter prohibits the use of a single meter, with its accessory devices and without a controlling or selecting mechanism, for the purpose of measuring the contents of one compartment only, or of two or more compartments if, or when, a product of a single grade, brand, or trade name is carried in all such compartments at any one time.

The product thus cleared may be returned to its appropriate compartment by means of the pump.

Quantity in meter

20868. If a single meter with its accessory devices, and without a controlling or selecting mechanism is used for the purpose of measuring the contents of one compartment only, or of two or more compartments, it is required that if such volume of liquid as may be retained in the discharge piping and devices shall exceed three and one-half gallons with a two-inch or smaller meter, or five and one-half gallons with a meter larger than two-inch, the quantity so remaining shall be replaced whenever a change is made in the grade, brand or trade name of a product which is carried in such compartment or compartments.

Whenever the remuneration for services of an employee is decreased by the employer or is made unreasonably small in amount but the employee is permitted, as an insurance agent, broker, or solicitor, to transact personal or controlled insurance, it shall be conclusively presumed that such employee receives the full amount of commission on such personal or controlled insurance.

"Year"

"Year" as used in this section means the calendar year. Suspension, revocation or denial of license for violation of this section may be ordered at any time within five years after the close of the year in which the violation occurred.

If commissions on personal or controlled insurance transacted by a life agent under his license as a life agent received in one year exceed the commissions received in that year on other insurance transacted by such licensee under his license as life agent, the receipt of commissions upon personal or controlled insurance in excess of those on such other insurance is an unlawful rebate.

"Year"

In no event, however, shall certificates of convenience be effective for any period longer than six months from and after the date when the first such certificate is issued to the applicant. Such certificate does not permit the holder thereof to transact insurance covering himself or any person specified in Section 760.5 except as permitted by the next paragraph nor to participate directly or indirectly in any commission paid thereunder or therefor. Solely for the purpose of determining the fees in respect thereto, such certificate shall be deemed a license. Certificate of convenience

(b) To a policyholder in any insurer for the purpose of inducing or tending to induce him to lapse, forfeit or surrender his insurance therein.

A person shall not make any representation or comparison of insurers or policies to an insured which is misleading, for the purpose of inducing or tending to induce him to lapse, forfeit, change or surrender his insurance, whether on a temporary or permanent plan.

SEC. 5. This act is hereby declared to be an urgency measure within the meaning of Section 1, Article IV of the Urgency

Constitution of the State of California. The following is a statement of the facts constituting such necessity:

Under the present provisions of the Insurance Code amended by this bill, it is extremely difficult, if not impossible, by means of questions and answers in applications for renewal of licenses to determine whether licensees of this division are conforming with the requirements of law. The taking of immediate effect of this act will permit appropriate application forms and questions to be prepared and lawfully used during the current renewal period. Applications must be filed before June 1st and in order to eliminate the attendant confusion and inconvenience to the public, it is therefore necessary that this act take effect immediately.

The term of imprisonment fixed by the judgment in a criminal action commences to run only upon the actual delivery of the defendant at the place of imprisonment, and if thereafter, during such term, the defendant by any legal means is temporarily released from such imprisonment and subsequently returned thereto, the time during which he was at large must not be computed as part of such term.

Warden to receive prisoners

2901. It is hereby made the duty of the wardens of the State prisons to receive persons sentenced to imprisonment in a State prison, and such persons shall be imprisoned until duly released according to law.

Federal prisoners

2902. All criminals sentenced to the State prisons by the authority of the United States shall be received and kept according to the sentence of the court by which they were tried, and the prisoners so confined shall be subject in all respects to discipline and treatment as though committed under the laws of this State.

Article 2. Credits on Term of Imprisonment

Reductions from terms Time credits

2920. Every prisoner who has committed no infraction of the rules or regulations of the prison, or the laws of the State, and who performs in a faithful, diligent, industrious, orderly and peaceable manner the work, duties and tasks assigned to him to the satisfaction of the prison officials, and in whose behalf the warden of the prison shall file a report certifying that his conduct and work have been satisfactory and recommending allowance of time credits to him, shall upon, but not until, the adoption of such recommendation by the board, be allowed time credit reductions from his term of confinement (instead of and in lieu of such time credits

The mode of reckoning credits, recommended by the warden and allowed by the board, shall be as shown by the following table:

Table

Number of years of sentence	Good time that may be earned	Total good time that may be earned	Time to be served if full credits earned allowed
1st year	2 months	2 months	10 months

9th year	5 months	3 years 1 month	5 years 11 months
10th year	5 months	3 years 6 months	6 years 6 months

And so on, through as many years as may be the time of confinement. Extra good time allowance

2921. The board may allow, in addition to time credits, an extra good time allowance for meritorious conduct and industry.

2922. before the commission of such offense and/or all time credits which he may thereafter earn, or the board may forfeit such part of such time credits as they may determine; such forfeitures, however, shall be made only by the board after due proof of the offense and notice to the offender unless such offender be outside the walls of the prison as an escape and fugitive from justice, and the board may restore time credits forfeited for good cause shown.

Hearing

2924. Such forfeiture of credits shall not be had except upon a hearing upon the question of such violation and an adjudication by the board that such prisoner was guilty thereof, which adjudication shall be final. At such hearing such prisoner, unless outside the walls of the prison as an escape and a fugitive from justice, shall be present and entitled to be heard and may present evidence and witnesses in his behalf.

See also Stats. 1941, p. 2253

elect, to immunity from having his hair cut, or from being shaved, for three calendar months immediately prior to his discharge. It shall not be lawful for the officers of the prison to furnish, or permit to be furnished, to anyone, for publication, the name of any prisoner about to be discharged.

3701. If, after his delivery to the warden for execution, there is good reason to believe that a defendant, under judgment of death, has become insane, the warden must call such fact to the attention of the district attorney of the county in which the prison is situated, whose duty it is to immediately file in the superior court of such county a petition, stating the conviction and judgment, and the fact that the defendant is believed to be insane, and asking that the question of his sanity be inquired into. Thereupon the court must at once cause to be summoned and impaneled, from the regular jury list of the county, a jury of 12 persons to hear such inquiry.

Hearing

The district attorney must attend the hearing, and may produce witnesses before the jury, for which purpose he may issue process in the same manner as for witnesses to attend before the grand jury, and disobedience thereto may be punished in like manner as disobedience to process issued by the court.

Effect of finding

When the defendant recovers his reason, the superintendent of such hospital must certify that fact to the Governor, who must thereupon issue to the warden his warrant appointing a day for the execution of the judgment, and the warden shall thereupon return the defendant to the State prison pending the execution of the judgment.

The provisions of Section 2012 apply to the proceedings upon such inquiry.

3706. If it is found that the female is not pregnant, the warden must execute the judgment; if it is found that she is pregnant the warden must suspend the execution of the judgment, and transmit a certified copy of the finding and certificate to the Governor. When the Governor receives from the warden a certificate that the defendant is no longer pregnant, he must issue to the warden his warrant appointing a day for the execution of the judgment. Effect of finding. Termination of pregnancy.

Federal prisoners

4005. The sheriff must receive, and keep in the county jail, any prisoner committed thereto by process or order issued under the authority of the United States, until he is discharged according to law, as if he had been committed under process issued under the authority of this State; provision being made by the United States for the support of such prisoner.

Sheriff answerable for safekeeping

4006. A sheriff, to whose custody a prisoner is committed as provided in the last section, is answerable for his safekeeping in the courts of the United States, according to the laws thereof.

Use of jail in contiguous county

4007. When there is no jail in the county, or when the jail becomes unfit or unsafe for the confinement of prisoners, the judge of the superior court may, by a written order filed with the county clerk, designate the jail of a contiguous county for the confinement of the prisoners of his county, or of any of them, and may at any time modify or vacate such order.

Removal to State prison for safekeeping

When there is any reasonable grounds to believe that a prisoner may be forcibly removed from a county jail the sheriff may remove such prisoner to any California State prison for safekeeping and it is hereby made the duty of the warden of such prison to accept and detain such prisoner in his custody until his removal is ordered by the superior court of the county from which he was delivered. Immediately upon receiving such prisoner the warden shall advise the Attorney General of that fact in writing.

Keeper of jail in contiguous county to receive prisoners

4008. A copy of the appointment, certified by the county clerk, must be served on the sheriff or keeper of the jail designated, who must receive into his jail all prisoners authorized to be confined therein, pursuant to the last section, and who is responsible for the safekeeping of the persons so committed, in the same manner and to the same extent as if he were sheriff of the county for whose use his jail is designated, and with respect to the persons so committed he is deemed the sheriff of the county from which they were removed.

When a jail is erected in a county for the use of which the designation was made, or its jail is rendered fit and safe for the confinement of prisoners, the judge of the superior court of that county must, by a written revocation, filed with the county clerk thereof, declare that the necessity for the designation has ceased, and that it is revoked.

Return to proper jail

4010. The county clerk must immediately serve a copy of the revocation upon the sheriff of the county, who must thereupon remove the prisoners to the jail of the county from which the removal was had.

4011. When a county jail or building contiguous to it is on fire, and there is reason to apprehend that the prisoners may be injured or endangered, the sheriff or jailer must remove them to a safe and convenient place, and there confine them as long as it may be necessary to avoid the danger. Removal in case of fire

When it is made to appear to a judge of the superior court by affidavit of the sheriff or district attorney and oral testimony that a prisoner confined in any city or county jail requires medical or surgical treatment necessitating hospitalization, which treatment can not be furnished or supplied at said city or county jail, the court in its discretion may order the removal of such person or persons from said city or county jail to the county hospital in said county; provided, if there is no county hospital in said county, then to any hospital designated by said court; and it shall be the duty of the sheriff to maintain the necessary guards for the safekeeping of such prisoner, the expense of which shall be a charge against the county. The said board of supervisors may, but need not, fix different rates for different classes of patients, or for different wards, and any and all such rates may be changed by the said board of supervisors at any time, but shall at all times approximate as nearly as may be, the average actual cost to the county of such hospital care and treatment either in such wards or for such classes of patients or otherwise. Cost of medical treatment

In the event such prisoner is financially able to pay for his care, support and maintenance, the medical superintendent of said hospital other than a county hospital may, with the approval of said judge of the superior court, enter into a special agreement with such person, or with his relatives or friends, for his care, support, maintenance and other hospital expenses.

Any prisoner may decline such care or treatment and provide other care and treatment for himself at his own expense. Removal in case of pestilence

4012. When a pestilence or contagious disease breaks out in or near a jail, and the physician thereof certifies that it is liable to endanger the health of the prisoners, the county judge may, by a written appointment, designate a safe and convenient place in the county, or the jail in a contiguous county, as the place of their confinement. The appointment must be filed in the office of the county clerk, and authorize the sheriff to remove the prisoners to the place or jail designated, and

there confine them until they can be safely returned to the jail from which they were taken.

Papers served on jailer for prisoner

4013. A sheriff or jailer upon whom a paper in a judicial proceeding, directed to a prisoner in his custody, is served, must forthwith deliver it to the prisoner, with a note thereon of the time of its service. For a neglect to do so he is liable to the prisoner for all damages occasioned thereby.
