The act provides for an increase in renewal, or continuation of license fees. This additional revenue is necessary for the effective enforcement of the provisions of this act. An act to amend Sections 1, 2 and 4 of an act entitled "An act creating the California Farm Debt Adjustment Commission, defining its powers and duties and making an appropriation therefor," approved July 16, 1935, relating to farm debt adjustment, including extension of the period of existence of the California Farm Debt Adjustment Commission, membership upon and appointment to the commission, and further definition of the powers and duties of the commission, to take effect immediately. Stats 1935, p 1905, amended

[Approved by Governor June 4, 1941. Filed with Secretary of State June 4, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. In view of the depressed economic condition of a large portion of our farming population, a condition which will continue to be aggravated by reason of the current European conflict and its consequences, it is vital that the performance of important functions committed to the California Farm Debt Adjustment Commission be continued and not suffer interruption. The existing law if not timely changed will result in cessation of the performance of those functions on September 15, 1941. Not only is the necessity great but the probability of tangible accomplishments in this field is appreciably enhanced by the recent holding of the Supreme Court of the United States sustaining as to its validity certain settlement of debt features of Section 75 of the Federal Bankruptcy Act. This act, if it takes effect immediately, will accomplish these purposes and prevent the cessation of and avoid any interruption in the continuous performance of these essential functions. Urgency

The members of the commission shall serve without compensation but shall be allowed reasonable expenses incurred in attending commission meetings.

SEC. 3. Section 2 of the act cited in the title hereof is hereby amended to read as follows:

Powers

Sec. 2. The commission shall meet immediately after its appointment and shall select one of its members as chairman. It shall have power to adopt by-laws for its governance and to provide therein for the appointment of such other officers as it may see fit, all of whom shall serve without pay. It shall be the duty of the commission to assist in the voluntary adjustment of farm obligations and to that end to appoint, by and with the consent of the Governor, local farm debt adjustment committees in each county of the State in which there is a sufficient agricultural population to justify such appointment, and to provide an agency and means through which farmer debtors and their creditors may enter into voluntary agreements satisfactorily to adjust their obligations.

The commission shall, in so far as possible, coordinate the work of and assist county committees aiding in the voluntary adjustment of farm obligations and shall in the performance of its duties, cooperate with all Federal agencies whose function is related to the work of farm debt adjustment

Investigation and recommendation

In furtherance of the performance of its duties, the commission shall investigate the farm debt situation in this State, and may cooperate and collaborate with any person, agency or group interested in seeking a solution to this problem when in the opinion of the commission such cooperation or collaboration will tend to facilitate the work of the commission in carrying out the objects and purposes of this act. The commission shall report to the Governor and the Legislature from time to time its findings as to the farm debt situation in California, together with such recommendations as it may have looking toward a solution thereof.

SEC. 4. Section 4 of the act cited in the title hereof is hereby amended to read as follows: Stats 1939, p 2640

In effect immediately

[Approved by Governor June 5, 1941. Filed with Secretary of State June 5, 1941.]

The people of the State of California do enact as follows:

New section

SECTION 1. Section 1.7 is hereby added to the Unemployment Relief Appropriation Act of 1940, to read as follows:

Appropriation: Unemployment relief

Of the money appropriated by this subdivision, sixty thousand six hundred forty-two and fifty-two hundredths dollars ($60,642.52) shall be drawn from that certain special deposit fund known and designated as "Unemployment Relief Donations, Horse Racing Tracks" and the remainder shall be drawn from the General Fund in the State Treasury.

Fiscal year

(b) Except for the apportionment for the administrative expenses of the Controller, all sums remaining unexpended under Sections 1, 1.5, 1.6 and 3 of this act shall be available for expenditure during the fourth quarter of the Ninety-second Fiscal Year by the Relief Administrator and the Relief Commission. Also, the Revenue and Taxation Code, which consolidates and revises the law relating to taxation and the raising of revenue, became effective on February 1, 1941. It is imperative that this act take effect immediately in order that the orderly process of property taxation may not be obstructed by this act's going into effect long after the lien date. [Approved by Governor June 6, 1941. Filed with Secretary of State June 6, 1941.] In effect September 13, 1941

The people of the State of California do enact as follows:

SECTION 1. Section 400.5 of the Civil Code is hereby repealed. Stats 1939, p 2219

SEC. 2. Section 404 of the Civil Code is hereby amended to read as follows: Stats 1939, p 2220

404. (A) A complaint for involuntary winding up or dissolution of a corporation other than one subject to the Bank Act, the Public Utility Act or the Building and Loan Act may be filed in the superior court of the county where the principal office is located either (a) by one-half of the directors or (b) by a shareholder or shareholders who have been record holders for a period of not less than six months and who hold not less than 33⅓ per cent of the number of outstanding shares or (c) under subdivision (7) of subparagraph (B) of this section by any shareholder. Involuntary dissolution Complaint

(B) The court, upon filing of a complaint duly verified, may entertain proceedings for the involuntary winding up or dissolution of a corporation, when it is made to appear that any one or more of the following reasons exist: Grounds for proceeding

(1) The corporation has abandoned its business for more than one year; or

(2) The corporation has an even number of directors who are equally divided and can not agree as to the management of its affairs, so that its business can not longer be conducted to advantage or so that there is danger that its property and business will be impaired and lost; or

(3) The holders of the voting shares of the corporation are so divided into factions that they can not agree upon or elect a board of directors consisting of an uneven number; or

(4) There is internal dissension and two or more factions of shareholders in the corporation are so deadlocked that its business can not longer be conducted with advantage to its shareholders; or

(5) The directors or those in control of the corporation have been guilty of persistent fraud or mismanagement or abuse of authority, or persistent unfairness toward minority

shareholders, or its property is being misapplied, wasted or lost by its directors or officers; or

(6) The liquidation is reasonably necessary for the protection of the rights or interests of any substantial number of the shareholders, or of the complaining shareholders; or

(7) The period for which the corporation was formed has terminated without extension of such period.

Provisional director

(C) Notwithstanding any provisions of the articles or by-laws of the corporation and whether or not an action is pending for an involuntary winding up or dissolution of the corporation, in case of a deadlock in the board of directors as set forth in paragraph (2) of subparagraph (B) of this section, the superior court of the county where the principal office of the corporation is located may, in an action for an involuntary winding up or dissolution of the corporation or in an independent action filed by one-half of the directors or by the holders of not less than 33⅓ per cent of the outstanding shares, appoint an impartial person, who is neither a shareholder nor a creditor of the corporation, nor related by consanguinity or affinity within the third degree to any of the other directors of said corporation, or to any judge of the court by which he is appointed, to act as a provisional director with all the rights and powers of a director, entitled to notice of the meetings of the board of directors and to vote at such meetings, until such time as the deadlock in the board of directors is broken or until he be removed by order of the court or by vote or written consent of the holders of a majority of the voting shares Such provisional director shall be entitled to receive such compensation as may be agreed upon between him and the corporation, and in the absence of such agreement he shall be entitled to such compensation as shall be fixed by the court.

Receiver

(D) If at the time of the filing of a complaint for involuntary dissolution or at any time thereafter, the court has reasonable grounds to believe that unless a receiver of the corporation be appointed the interests of the corporation and its shareholders will suffer pending the hearing and determination of the complaint, upon the application of the plaintiff, and after a hearing upon such notice to the corporation as it may direct and upon giving such security as is provided in Sections 566 and 567 of the Code of Civil Procedure, the court may appoint a receiver to take over and manage the business and affairs of the corporation and to preserve its property pending the hearing and determination of the complaint for dissolution.

Powers of court

(E) The court, at the time of the hearing, if cause be shown, may decree a winding up and dissolution of the corporation or, with or without winding up and dissolution, may make such orders and decrees and award such injunctions in the cause as justice and equity may require; provided, however, that in any such suit the holders of 50 per cent or more of the outstanding shares of the corporation shall have the right

to avoid the appointment of a receiver or of the dissolution of such corporation by purchasing the shares of stock owned by the plaintiffs at their fair cash value. If 50 per cent or more of the outstanding shares of the corporation elect to purchase the shares owned by the plaintiffs and are unable to agree with the plaintiffs upon the fair cash value of such shares, and give bond with sufficient security to protect the interests and rights of the plaintiffs and to assure unto the plaintiffs the payment of the value of their shares, the court shall stay the proceeding and shall proceed to ascertain and fix the value of the shares owned by the plaintiff. For such purpose the court shall appoint three disinterested commissioners to appraise the fair value of such shares and shall make an order referring the matter to the commissioners so appointed for the purpose of ascertaining such value and such order shall prescribe the time and manner of producing evidence, if evidence be required. The award of such commissioners or of a majority of them, when confirmed by the court, shall be final and conclusive upon all parties and the court shall enter a decree for the amount of such award against such shareholders so electing to purchase and the surety or sureties on such bond and such decree may be enforced in the same manner as other decrees and judgments of such court. Such decree may be in the alternative and provide for winding up and dissolution of the corporation unless payment is made for the shares within the time specified by the decree. Any shareholder feeling aggrieved by such action of the court shall have the right of appeal. The holders of 50 per cent or more of shares so electing to purchase shall pay to plaintiff shareholders the value of their shares ascertained and decreed as aforesaid or, in case of an appeal, as fixed on such appeal; and, on receiving such payment or the tender thereof, such plaintiff shareholders shall transfer their shares to the defendant shareholders.

Stats 1935, p 676

SEC. 9. Section 10870 of the Insurance Code is hereby amended to read as follows:

Required reserves

10870. Every insurer subject to the provisions of this chapter shall hold and maintain, upon every contract of life insurance issued on and after the date upon which it becomes subject to the provisions of this chapter, and prior to January 1, 1942, assets in excess of other liabilities, to provide for reserves not less than the minimum tabular reserves prescribed in subdivision (a). The statutory deposit required by law may be considered as a part of such reserves or of other required policy reserves.

(a) The basis for minimum reserves shall be the American Experience Table of Mortality, with Farr's Table No. 3 or Craig's Extension for ages under 10, and interest at 4 per centum per annum; provided, however, that contracts issued on a weekly premium basis and providing therein for valuation according to the Standard Industrial Table of Mortality and interest at 4 per centum per annum shall be valued according to such industrial table of mortality and rate of interest. Such contracts may provide for not more than one year preliminary term insurance by incorporating therein a clause plainly showing that the first year's insurance under such contracts is term insurance, purchased by the

whole or a part of the premiums to be received during the first contract year, and such contracts may be valued on the basis of the mortality table and interest rate above prescribed by the preliminary term plan; provided, however, that the reserve according to such standard for the first to the fifth policy years, inclusive, may be reduced by the following percentages: First year, 80 per cent; second year, 80 per cent; third year, 60 per cent; fourth year, 40 per cent; fifth year, 20 per cent; and provided further, that at no time shall the reserve be less than the value of any nonforfeiture provision contained in the policy.

(b) Every insurer subject to this chapter shall hold and maintain upon every contract of life insurance issued after December 31, 1941, assets in excess of other liabilities, to provide for reserves not less than minimum tabular reserves prescribed in this subdivision. The basis for computing the reserves required by this subdivision shall be the American Experience Table of Mortality with Farr's Table No. 3 or Craig's Extension for ages under 10, with interest at a rate of not more than 3½ nor less than 2½ per cent per annum. At the option of the insurer, its reserves may be computed by the modified preliminary term method described in subdivision (c).

(c) Life insurance policies may provide for not more than one year of preliminary term insurance by incorporating in the provision thereof specifying the premium consideration to be received by the insurer, a clause plainly showing that the first year's insurance under such policies is term insurance, purchased by the whole or a part of the premium to be received during the first policy year. Such policies may, in accordance with their terms be valued on the basis of the mortality tables and interest rates prescribed in subdivision (b) by the modified preliminary term plan described in subdivision (d).

(d) If the actuarial net preliminary term renewal premium in the case of

(1) Insurance under a limited-payment life preliminary term policy providing for the payment of all premiums thereon within less than 20 years from the date thereof; or

(2) Endowment insurance under an endowment preliminary term policy,

exceeds the actuarial net preliminary term renewal premium, calculated on the same table of mortality and rate of interest, for a 20-payment life policy, the reserve on such policy specified under (1) or (2) of this subdivision (d), as the case may be, at the end of any year, including the first, shall not be less than the sum of the reserve on a 20-payment life preliminary term policy issued at the same time on a life of the same age and the actuarial net level premium reserve for a pure endowment maturing at the end of the premium payment period, equal to the excess of the full net level premium reserve, at

the end of such premium payment period, on such policy specified under (1) or (2) of this subdivision (d), as the case may be, over the reserve, at the end of such premium payment period, of such 20-payment life preliminary term policy.

The premium payment period herein referred to is 20 years or the period, if less, during which premiums are actually payable under such policy specified in (1) or (2) of this subdivision (d), as the case may be.

(e) As used in subdivision (d), the term "20-payment life preliminary term policy" means a life insurance policy embodying all of the following attributes:

(1) It is whole-life insurance;

(2) The premium charged is payable annually or at lesser intervals until 20 annual premiums or a proportionately greater number of premiums payable at intervals less than one year shall have been paid, or until the prior death of the insured;

(3) The first year's insurance is term insurance purchased by the whole or part of the premium to be received during the first contract year.

In computing reserves as required by this section, no allowance or reduction may be made in consideration of the fact that members may be assessed to make up a deficiency. The statutory deposit required by law may be considered as a part of such reserves or of other required policy reserves.

This section exclusively fixes the life insurance reserve requirements for insurers subject to this chapter.

Time to meet requirements

SEC. 9.5. In the case of an insurer in conservatorship, it shall have 90 days or such further time as may be granted by the court, to meet the increased reserve requirements effected by this act.

Stats 1935, p. 677

SEC. 10. Section 10875 of the Insurance Code is hereby amended to read as follows:

Additional premiums or assessments

10875. All life contracts issued or delivered in this State by corporations subject to this chapter shall provide, in addition to the stipulated premiums, for the payment of additional premiums or assessments, to the extent needed to pay for their share of claims and expenses and to maintain the tabular reserves required by this chapter, or shall require such additional amount to be charged as an indebtedness, at a rate of interest specified in the contract, not exceeding the tabular reserves on the contract and shall provide for terminating the contract whenever the total indebtedness thereon equals such tabular reserves. On contracts issued prior to January 1, 1942, no liability may be charged in any valuation for any deficiency in future contributions so long as such payments are actually collected or such charges are actually made. No such additional premiums or assessments may be enforced against any holder of a life contract except upon due notice

to such holder. Every such holder shall have the option of paying such additional premiums or assessments in cash or permitting the same to be charged as an indebtedness against the tabular reserves as above provided but if no option selection is made within 30 days after the mailing of such notice the second option shall become applicable and said additional premiums or assessments shall become a lien upon said contract, and it is further provided that all said life contracts and notices of said additional premiums or assessments shall contain a statement to that effect.

SEC. 11. Section 10882 of the Insurance Code is hereby amended to read as follows: Stats 1935, p 678

10882. Thereafter the insurer shall not include in its policies the provisions required by the preceding article, but shall be subject as to subsequent business to the test of solvency provided for life, disability, and life and disability insurers by this code and to all other provisions relating to life and disability insurance not on the stipulated premium plan, other than the provisions of Chapter 7, Part 2, Division 2 of this code. But such election shall not affect the rights or obligations of the insurer or its members on any contract theretofore made, except that thereafter an assessment may not be levied by it upon any insured thereof under any disability policy theretofore issued by it on the stipulated premium plan, and except also that thereafter an assessment shall not be levied by it upon any insured thereof under any life policy theretofore issued by it on the stipulated premium plan unless such assessment shall first have been approved in writing by the commissioner. If a domestic insurer subject to the provisions of this chapter is possessed of admitted assets in excess of all liabilities in an amount equal to one hundred fifteen thousand dollars ($115,000), and has no life insurance in force and is engaged only in the business of disability insurance, it may, by amendment of its articles of incorporation provide for the writing only of disability insurance as a mutual disability insurer issuing nonassessable policies. Thereafter the insurer shall not include in its policies any provisions for assessment of any insured and such insurer shall be subject only to the provisions of this code applicable thereto other than the provisions of this chapter and other than the provisions of Chapter 7, Part 2, Division 2, of this code. Such transformation of any such insurer shall not affect the rights or obligations of the insurer or its insureds under any contract theretofore made, except that thereafter an assessment may not be levied by it upon any insured thereof. Change to mutual disability insurer

Stats 1935, p 679

SEC. 13. Section 10901 of the Insurance Code is hereby amended to read as follows:

The entire statutory deposit and reserves required by this chapter, up to the first two hundred fifty thousand dollars ($250,000) of such reserves, if invested, shall be invested in securities in which domestic incorporated insurers are allowed by this code to invest their capital. Of such securities an amount not less in value than twenty-five thousand dollars ($25,000) shall remain deposited in trust with the commissioner for the benefit of contract holders of the company. Any remaining assets may be invested in the purchase of or loans upon the securities set forth in Article 4, of Chapter 2, Part 2, Division 1, of this code.

An act to add Section 15.1 to the California Irrigation District Act, relating to the government of irrigation districts, authorizing them to acquire and improve land for airports or aviation schools and operate and lease the same, declaring the urgency hereof, and to take effect immediately.

In effect immediately

[Approved by Governor June 9, 1941. Filed with Secretary of State June 9, 1941.]

The people of the State of California do enact as follows:

New section

SECTION 1. Section 15.1 is hereby added to the act cited in the title hereof, to follow immediately after Section 15 and to read as follows:

Airports and aviation schools

Sec. 15.1. The board of directors may also purchase, lease, exchange other property for, take by gift, condemn, or otherwise acquire land, or use land already acquired, for an airport or aviation school or both and may improve such land for any of said purposes, including the erection of buildings or other structures thereon, or may sponsor any project undertaken by the United States or any agency thereof for the improvement of any such land for any of said purposes if all of the following are true:

(a) None of the land that may be outside of the district is more than seven miles from the nearest part of the boundaries of the district.

(b) The United States or any agency thereof shall agree to improve or contribute money for the improvement of the land for airport or aviation school purposes.

(c) The board finds that there is no other public agency able and willing to cooperate with the United States or its

agency in the improvement of the land proposed for either or both of said purposes.

But no irrigation district shall ever issue any bonds to acquire or improve any land for any of such purposes, nor shall it incur any indebtedness therefor which can not be paid out of revenue to be derived from such airport or aviation school or the leasing thereof.

The board may accept the appropriation of any funds by the United States or any agency thereof for the improvement of the land for an airport or aviation school on any conditions imposed by the United States or its agency if the use of such airport for commercial purposes is not thereby precluded.

Said board may operate any such airport or aviation school or may lease either or both of them on such terms as it deems proper.

Any irrigation district having acquired an airport or aviation school or both pursuant to the provisions of this section may accept contributions of money or property or both to be used in connection with the airport or aviation school or both.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately. Urgency

The following is a statement of facts constituting such necessity:

The defense of the United States and of this State is seriously threatened by a lack of airports and air training schools on the Pacific Coast. It is essential that the State of California and its agencies cooperate with the United States in carrying out plans for the establishment of airports and air training schools. In many localities irrigation districts are the only State agencies in a position immediately to undertake this vital work for our common defense. If this work is not immediately undertaken it will prolong the vulnerability of this State and of our Nation to attack from without.

On this _____ day of _____, A.D. 19____, _____, a person alleged to be mentally ill, was brought before me in open court for a hearing and examination on an allegation of mental illness, on the petition of _____, alleging that _____ is mentally ill, and on an order of detention issued thereon by _____, a judge of the superior court of this county, and upon the order of this court, fixing time and place for the hearing and examination made in open court. It appeared to the court that the alleged mentally ill person, when the order was made, was then and there personally present at the hearing before the judge of the court, and was then and there informed by an officer or judge of the court that __he was alleged to be mentally ill and in need of supervision, treatment, care or restraint and of h__ rights to make a defense to such allegation, and of h__ right to be represented by counsel, and to produce witnesses on h__ behalf, and to have subpenas issued to compel the attendance of witnesses, and that he was further informed that, if at such hearing and examination, __he should be ordered, restrained and cared for in a licensed hospital or sanitarium or committed to the Department of Institutions for placement in a designated State hospital, that __he might, within five days after the making of such order demand that the question of h__ mental illness be tried by a jury before the superior court.

It further appeared to the court, that the original order fixing time and place for hearing and examination was entered in the minutes of the court by the clerk thereof, and that a duly certified copy of the order was duly served on the alleged mentally ill person, and upon _____, respondents, and upon other relatives of the alleged mentally ill person,

Said medical examiners, after making the examination and hearing the testimony of the witnesses, and testifying as aforesaid, made a certificate required by Section 5055 of the Welfare and Institutions Code, which certificate is hereto attached and made a part hereof.

_____	_____
_____	_____
_____	_____
_____	_____

Now, therefore, after examination and certificate made as aforesaid, the court is satisfied of the truth of the matters set forth in the certificate, and from the testimony of said witnesses that_____is so mentally ill as to require supervision and treatment by physicians and hospital care, and that unless such supervision, care and restraint are provided he may endanger health, person and property, and that it is dangerous for life, health, person and property, for h___ to be without such supervision, treatment, care and restraint, and that h___ condition is such as to require such care and treatment in a licensed hospital or sanitarium; or that he is so dangerously mentally ill as to require commitment to the Department of Institutions for placement in a designated State hospital for the care and treatment of the insane.

It is therefore ordered, adjudged and decreed that_____ is a mentally ill person and that he be cared for and detained in the_____, a legally licensed sanitarium or hospital at _____until legally released therefrom upon further hearing and order of the court.

The sum of_____dollars having been found on the person of the mentally ill person at the time of h___ detention, the sheriff is ordered to take possession of the same and deliver it to the medical superintendent of said institution with the mentally ill person.

2762 Said department shall fix the rate to be expended for such labor at not to exceed two dollars and fifty cents ($2.50) per day for each day which each convict actually performs labor upon the construction, improvement or maintenance of a State highway, and shall monthly set aside funds to pay for such labor. Said department shall set up an account for each convict which shall be credited monthly with an amount computed by multiplying the daily rate by the number of days such convict actually performed labor during the month. Such account shall be debited monthly with such convict's expenses for transportation; his drawings from the commissary, such as clothing and toilet articles; and his proportionate share of all expenses for the proper maintenance of the road camp, including the expenses for food, medicine, medical attendance, clerical help, and the pro rata cost of reward for capturing escapes from the road camp, which award is hereby fixed at the sum of two hundred dollars ($200) for the capture of each escaped prisoner, payable to any individual or peace officer. The net credits to each convict's account shall not be permitted to exceed an average of seventy-five cents ($0.75) Payment for convict labor

per day for each day of actual work performed in the road camp.

The Department of Public Works, in computing the debits to be made to the convict's accounts, may add not to exceed 10 per cent on all items except transportation and awards for escapes. When any prisoner escapes the Department of Public Works, after debiting the accounts of the convicts in the camp from which the escape was made, shall set aside the sum of two hundred dollars ($200), and at any time within four years after said escape shall pay the award to the person entitled thereto. No such award can be claimed or paid more than four years after the escape to which it relates.

Stats 1941, p 1100

SEC. 2. Section 2763 of the Penal Code is hereby amended to read as follows:

Payment to dependents

2763. The Department of Public Works shall monthly pay from the net credit to each convict's account to his dependents who are receiving State aid such amounts as the department estimates will equal but will not exceed two-thirds of his total credits during the period of his employment. Immediately prior to or upon the termination of the employment hereunder of any convict for any reason, any additional payment necessary to such dependents to cause the total amount paid to them to equal two-thirds of the convict's net credits shall be made. If the convict's dependents are not receiving State aid, such convict by written order signed by him, may direct the department to likewise make such payments in the same manner to such dependents as he designates. In no event, however, shall payments be made to dependents until there is a net credit to the convict's account of at least twenty-five dollars ($25), and no payment shall be made to dependents which will reduce said net credit below the sum of twenty-five dollars ($25). If a convict is discharged from prison while he is in a road camp, all sums to his credit shall be paid to him on his release. All sums to the credit of any convict who is for any reason returned to the prison or is paroled from the road camp shall be paid to the warden of the prison, and by him shall be paid to the convict at such times and in such amounts as the board prescribes

In effect September 13, 1941

The people of the State of California do enact as follows:

SECTION 1. Section 7 of The Personal Income Tax Act is hereby amended to read as follows:

Stats. 1939, p. 2529

Sec. 7. (a) Gross income includes gains, profits, and income derived from salaries, wages, or compensation for personal service, of whatever kind and in whatever form paid, or from professions, vocations, trades, businesses, commerce, or sales, or dealings in property, whether real or personal growing out of the ownership or use of or interest in such property; also from interest, rent, dividends, securities, or the transaction of any business carried on for gain or profit, or gains or profits and income derived from any source whatever, and includes any salary, wages or compensation of any officer or employee of this State, or any political subdivision, district or municipality thereof, and any compensation of

Gross income

officers and employees of the United States or agencies or instrumentalities thereof to the extent the collection of State taxes thereon is not prohibited by the terms of the "Public Salary Tax Act of 1939," (it being hereby declared to be the policy of this State to comply with the provisions of said act) and all other gains, profits and income which the State may now or hereafter constitutionally tax.

Exemptions

(b) The following items shall not be included in gross income and shall be exempt from taxation under this act:

(1) Amounts received under a life insurance contract paid by reason of the death of the insured, whether in a single sum or otherwise (but if such amounts are held by the insurer under an agreement to pay interest thereon, the interest payments shall be included in gross income);

(2) Amounts received (other than amounts paid by reason of the death of the insured and interest payments on such amounts and other than amounts received as annuities) under a life insurance or endowment contract, but if such amounts (when added to amounts received before the taxable year under such contract) exceed the aggregate premiums or consideration paid (whether or not paid during the taxable year) then the excess shall be included in gross income. Amounts received as an annuity under an annuity or endowment contract shall be included in gross income; except that there shall be excluded from gross income the excess of the amount received in the taxable year over an amount equal to 3 per centum of the aggregate premiums or consideration paid for such annuity (whether or not paid during such year), until the aggregate amount excluded from gross income under this act in respect of such annuity increased by the amount which would have been excluded from gross income in respect of such annuity had this act been in effect continuously from and after the date at which payments under such annuity were first received equals the aggregate premiums or consideration paid for such annuity. In the case of a transfer for a valuable consideration, by assignment or otherwise, of a life insurance, endowment, or annuity contract, or any interest therein, only the actual value of such consideration and the amount of the premiums and other sums subsequently paid by the transferee shall be exempt from taxation under paragraph (1) or this paragraph;

(3) The value of property acquired by gift, bequest, devise, or inheritance (but the income from such property shall be included in gross income);

(4) Amounts received, through accident or health insurance or under workmen's compensation acts, as compensation for personal injuries or sickness, plus the amount of any damages received whether by suit or agreement on account of such injuries or sickness;

(5) The rental value of a dwelling house and appurtenances thereof furnished to a minister of the gospel as part of his compensation;

(6) Wages, fees, or salary of an employee of a foreign country (including a consular or other officer, or a nondiplomatic representative) received as compensation for official services to such country:

(A) If such employee is not a citizen of the United States; and

(B) If the services are of a character similar to those performed by employees of the United States in foreign countries; and

(C) If the foreign country and political subdivisions thereof do not tax the wages, fees or salaries of employees of the United States performing similar services in such foreign country.

(7) Income which this State is prohibited from taxing under the Constitution or laws of the United States of America or under the Constitution of this State.

Inventories

(c) Whenever in the opinion of the commissioner the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by such taxpayer upon such basis as the commissioner may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting the income.

(2) (A) A taxpayer may use the following method (whether or not such method has been prescribed under Subdivision (1) in inventorying goods specified in the application required under paragraph (B): (1) Inventory them at cost; (2) Treat those remaining on hand at the close of the taxable year as being: First, those included in the opening inventory of the taxable year (in the order of acquisition) to the extent thereof, and second, those acquired in the taxable year; and (3) Treat those included in the opening inventory of the taxable year in which such method is first used as having been acquired at the same time and determine their cost by the average cost method.

(B) The method described in paragraph (A) may be used (1) only in inventorying goods (required under Subdivision (1) to be inventoried) specified in an application to use such method filed at such time and in such manner as the commissioner may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the commissioner that the taxpayer has used no procedure other than that specified in (2) and (3) of paragraph (A) in inventorying (to ascertain income, profit, or loss, for credit purposes, or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries) such goods for any period beginning with or during the first taxable year for which the method described in paragraph (A) is to be used.

(C) The change to, and the use of, such method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(D) In determining income for the taxable year preceding the taxable year for which such method is first used, the closing inventory of such preceding year of the goods specified in such application shall be at cost.

(E) If a taxpayer, having complied with paragraph (B), uses the method described in paragraph (A) for any taxable year, then such method shall be used in all subsequent taxable years unless with the approval of the commissioner a change to a different method is authorized; or the commissioner determines that the taxpayer has used for any period beginning with or during any subsequent taxable year some procedure other than that specified in (2) of paragraph (A) in inventorying (for ascertaining income, profit, or loss, for credit purposes, or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries) the goods specified in the application, and requires a change to a method different from that prescribed in paragraph (A) beginning with such subsequent taxable year or any taxable year thereafter. In either of the above cases, the change to, and the use of, the different method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

Gain or loss on sale

(d) In the case of a sale or other disposition of property, the gain or loss shall be computed as provided in Sections 9.1, 9.2, and 9.3 of this act.

Sales of capital assets

(e) In the case of sales or exchanges of capital assets, the gain shall be taken into account in computing net income to the extent provided in Section 9.4 of this act.

Gross income of nonresidents

(f) In the case of taxpayers other than residents the gross income includes only the gross income from sources within this State. Gross income from sources within this State shall include rentals or royalties from property located in this State or from any interest in such property, including rentals or royalties for the use of, or for the privilege of using in this State, patents, copyright, secret processes and formulas, good will, trade-marks, trade brands, franchises, and other like property. Gross income from sources within and without this State shall be allocated and apportioned under rules and regulations to be prescribed by the commissioner.

Income of nonresidents from stocks, bonds, notes, or other intangible personal property shall not be considered income from sources within this State unless the property has acquired a business situs in this State, except that if a nonresident buys or sells such property in this State or places orders with brokers in this State to buy or sell such property so regularly, systematically, and continuously as to constitute doing business in this State, the profit or gain derived from such activity is income from sources within this State irrespective of the situs of the property.

Income of nonresident beneficiaries from estates or trusts is income from sources within this State only if distributed or

distributable out of income of the estate or trust derived from sources within this State. Dividends

(g) (1) The term "dividend" when used in this act means any distribution made by a corporation to its shareholders, whether in money or in other property, out of its earnings or profits accumulated after February 28, 1913, or out of the earnings or profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distributions made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made.

(2) For the purposes of this act every distribution is made out of earnings or profits to the extent thereof, and from the most recently accumulated earnings or profits. Any earnings or profits accumulated, or increase in value of property accrued, before March 1, 1913, may be distributed exempt from tax, after the earnings and profits accumulated after February 28, 1913, have been distributed, but any such tax free distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 9.3 (b).

(3) Amounts distributed in complete liquidation of a corporation shall be treated as in full payment in exchange for the stock and amounts distributed in partial liquidation of a corporation shall be treated as in part or full payment in exchange for the stock. The gain or loss to the distributee resulting from such exchange shall be determined under Section 9.1, and shall be recognized only to the extent provided in Section 9.2. Notwithstanding the provisions of Section 9.4, 100 per centum of the gain so recognized shall be taken into account in computing net income, except in the case of amounts distributed in complete liquidation of a corporation. For the purpose of the preceding sentence, "complete liquidation" includes any one of a series of distributions made by a corporation in complete cancellation or redemption of all of its stock in accordance with a bona fide plan of liquidation and under which the transfer of the property under the liquidation is to be completed within a time specified in the plan, not exceeding from the close of the taxable year during which is made the first of the series of distributions under the plan, (1) three years, if the first of such series of distributions is made in a taxable year beginning after December 31, 1940, or (2) two years, if the first of such series of distributions was made in a taxable year beginning before January 1, 1941. In the case of amounts distributed (whether before or after the effective date of this amendment) in partial liquidation (other than a distribution within the provisions of Subdivision (7) of this subsection of stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits. In the case of amounts distributed (whether before January 1, 1934, or on

Dividends

or after such date) in partial liquidation (other than a distribution within the provisions of Subdivision (7) of this subsection or stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits within the meaning of Subdivision (2) of this subsection for the purpose of determining the taxability of subsequent distributions by the corporation.

(4) If any distribution (not in partial or complete liquidation) made by a corporation to its shareholders is not out of increase in value of property accrued before March 1, 1913, and is not a dividend, then the amount of such distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 9.3 (b) of this act, and if in excess of such basis, such excess shall be taxable in the same manner as a gain from the sale or exchange of property.

(5) (A) A distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock shall not be treated as a dividend to the extent that it does not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States.

(B) Whenever a distribution by a corporation is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either (i) in its stock or in rights to acquire its stock, of a class which if distributed without election would be exempt from tax under paragraph (A), or (ii) in money or any other property (including its stock or rights to acquire its stock, of a class which if distributed without election would not be exempt from tax under paragraph (A)), then the distribution shall constitute a taxable dividend in the hands of all shareholders, regardless of the medium in which paid.

(6) If a corporation cancels or redeems its stock (whether or not such stock was issued as a stock dividend) at such time and in such manner as to make the distribution and cancellation or redemption in whole or in part essentially equivalent to the distribution of a taxable dividend, the amount so distributed in redemption or cancellation of the stock, to the extent that it represents a distribution of earnings or profits accumulated after February 28, 1913, shall be treated as a taxable dividend.

(7) The distribution heretofore or hereafter made to a distributee by or on behalf of a corporation of its stock or securities or stock or securities in another corporation shall not be considered a distribution of earnings or profits of any corporation:

(A) If no gain to such distributee from the receipts of such stock or securities was recognized under the provisions of the Federal Revenue Act of 1936 or prior Federal Revenue acts in effect at the time of the distribution, or

(B) If the distribution was not subject to tax in the hands of such distributee under the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution because it did not constitute income to him within the meaning of the Sixteenth Amendment to the Constitution of the United States or because exempted to him under Section 115(f) of the Federal Revenue Act of 1934, or a corresponding provision of a prior Federal revenue act. Dividends

As used in this subsection, the term "stock or securities" includes rights to acquire stock or securities.

(8) As used in this subsection the term "amount distributed in partial liquidation" means a distribution by a corporation in complete cancellation or redemption of a part of its stock, or one of a series of distributions in complete cancellation or redemption of all or a portion of its stock.

(9) If the whole or any part of a dividend is paid to a shareholder in any medium other than money the property received other than money shall be included in gross income at its fair market value at the time as of which it becomes income to the shareholder.

(10) The gain or loss realized from the sale or other disposition (after February 28, 1913) of property by a corporation for the purpose of the computation of earnings and profits of the corporation for any period beginning after February 28, 1913, shall be determined by using as the adjusted basis the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain. Gain or loss so realized shall increase or decrease the earnings and profits to, but not beyond, the extent to which such a realized gain or loss was recognized in computing net income under the law applicable to the year in which such sale or disposition was made. Where in determining the adjusted basis used in computing such realized gain or loss the adjustment to the basis differs from the adjustment proper for the purpose of determining earnings or profits, then the latter adjustment shall be used in determining the increase or decrease above provided.

Where a corporation receives (after February 28, 1913) a distribution from a second corporation which (under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second corporation, the amount of such distribution shall not increase the earnings and profits of the first corporation in the following cases:

(A) No such increase shall be made in respect of the part of such distribution which (under such law) is directly applied in reduction of the basis of the stock in respect of which the distribution was made.

(B) No such increase shall be made if (under such law) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received. For the purposes of this

subdivision, the words "law applicable to the year" shall be deemed to refer to this act or the United States Revenue Act in force for the year in which the sale or other disposition was made.

(11) (A) If any increase or decrease in the earnings or profits for any period beginning after February 28, 1913, with respect to any matter would be different had the adjusted basis of the property involved been determined without regard to its March 1, 1913, value, then, except as provided in paragraph (B), an increase (properly reflecting such difference) shall be made in that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

(B) If the application of Subdivision (10) to a sale or other disposition after February 28, 1913, results in a loss which is to be applied in decrease of earnings and profits for any period beginning after February 28, 1913, then, notwithstanding Subdivision (10) and in lieu of the rule provided in paragraph (A) of this subdivision, the amount of such loss so to be applied shall be reduced by the amount, if any, by which the adjusted basis of the property used in determining the loss, exceeds the adjusted basis computed without regard to the value of the property on March 1, 1913, and if such amount so applied in reduction of the decrease exceeds such loss, the excess over such loss shall increase that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

Cancellation of debt

(h) If the indebtedness of a taxpayer is canceled or forgiven in whole or in part without payment, the amount so canceled or forgiven shall constitute income to the extent the value of the property of the taxpayer exceeds his liabilities immediately after the cancellation or forgiveness. The remainder of the amount of indebtedness so canceled or forgiven, if any, shall be applied in reduction of the basis of the assets to the extent the basis thereof exceeds the value thereof immediately after the cancellation or forgiveness, such reduction to be made in accordance with regulations prescribed by the commissioner.

If an indebtedness is not paid by the time an action to enforce payment is barred by limitation, the indebtedness shall be considered canceled or forgiven within the meaning of this subsection unless it can be established that the period of limitation has been extended by a new promise in writing.

Excess value on purchase or exchange

(i) Where property is acquired in a transaction purporting to be a purchase or an exchange (including transactions described in Section 9.2, relating to the nonrecognition of gain, but excluding foreclosures or repossessions of properties held for security), and the value thereof is substantially in excess of the value of the money or property surrendered or agreed to be surrendered as a condition of such acquisition, the excess value shall be considered ordinary income taxable under the provisions of this act, unless it can be established (a) that the

sole consideration for the acquisition of the property was the money or property surrendered or agreed to be surrendered, or (b) that the excess value was a gift or (c) that for some other reason the excess value does not constitute income or the gain represented thereby is not recognized.

Annual financial estimates

each county official elective or appointive, or person in charge of any office, department, service, institution or district of the county, excepting irrigation and reclamation and any other district where a tax levy for such district is not carried on the regular county, or city and county assessment roll including township officers and the judges of any court of record, and the executive head of each special district whose affairs and funds are under the supervision and control of the county board of supervisors or for which the county board of supervisors is ex officio the governing body, shall file with the county auditor of such county, an itemized estimate showing both the probable revenues from sources other than taxation that will accrue to his department, office, service, institution, or district, during the fiscal year, to which the budget is intended to apply, and all expenditures required by such department, office, service, institution or district, for the same period, together with a brief explanatory statement of the requested increases in expenditures over the current fiscal year, or if such estimate is not presented before the first day of July, such statement should show the increases in expenditures over the last completed fiscal year. The county board of supervisors shall submit to the county auditor a statement showing all new road and bridge construction and grade separation, classified by funds from which the same are to be financed, for the fiscal year to which the budget is intended to apply, together with the estimated cost thereof. The county board of supervisors shall also submit a similar statement showing their road and bridge maintenance or betterment program, as nearly as can be estimated, as well as an estimate of all expenditures for construction or improvement purposes proposed to be made from the proceeds of bonds or other income not yet authorized; provided, that not to exceed 20 per cent of the moneys belonging to any road district may be carried in an "unappropriated reserve," and shall be available for the use of said district to cover expenditures that may have been insufficiently provided for or for unforeseen requirements as they may arise.

School district estimates

School district estimates shall be submitted on the twentieth day of July through the county superintendent of schools in the manner heretofore prescribed by law, on forms prescribed by the State Department of Education, all other estimates required in this section shall be submitted on forms prescribed by the State Department of Finance, and may only be varied or departed from with the approval of said department; provided, however, that any county may without disturbing the uniformity of the forms and data prescribed, add to the information required or show the same in more detail. The county auditor is hereby directed to provide such forms, and it is made his duty to prepare the estimates for interest and debt redemption requirements and any other estimates, the preparation of which properly falls within the duties of his office; provided, that in the absence, failure, or disability

of any official, or person, required to furnish estimates hereunder, such estimates shall be furnished by the official or employee in charge of such office, department, service, institution, or district, during such absence or disability, or such estimates may be prepared and furnished by the county board of supervisors.

Auditor's tabulation of proposed expenditures

2. From such estimates, the county auditor shall prepare a tabulation showing the complete expenditure program of the county, school districts and special districts for the fiscal year to which the budget is intended to apply, and the sources of revenue by which it is to be financed. Such tabulation shall set forth the estimated revenue from sources other than taxation for each office, department, service, institution, or district, for the fiscal year to which the budget is intended to apply, compared with the corresponding figures of the last completed fiscal year, the estimated unencumbered surplus, after allowing for outstanding orders, contracts or other commitments, at the close of the current fiscal year, if such estimate is presented before July 1st, or the actual unencumbered surplus at the close of the last completed fiscal year, if such estimate is presented after July 1st, and the amount proposed to be raised by taxation; the estimated expenditures for each office, department, service, institution, or district, for the fiscal year to which the budget is intended to apply, the actual expenditures for the last completed fiscal year, together with the actual expenditures that have accrued for the current fiscal year and an estimate of the expenditures that will accrue for the remainder of such current fiscal year, if such estimate is presented before July 1st, and the sums necessary to be provided as "general reserves," or a general reserve as hereinafter provided.

Classification of items

Such estimates of expenditures shall be classified to set forth the data by funds, organization units, character and objects of expenditure; the organization units may be subclassified by functions and activities at the discretion of the county board of supervisors, but the expenditures for each organization unit shall be classified under the general classes of (1) salaries and wages; (2) maintenance and operation; (3) capital outlay; (4) interest and debt redemption; and, (5) expenditures proposed to be made from bonds or other income not yet authorized.

Within the general class of "salaries and wages" each salary shall be set forth separately, together with the title or designation of the recipient; provided and excepted, that in counties empowered by charter to increase or decrease the number of deputies and assistants in any office an unitemized estimate may be made to cover the salaries and wages of such deputies and assistants. Wages for day labor may be given in totals by designating the general purpose or object for which the expenditure is to be made. Expenditures coming under the general classification of "maintenance and operation" shall show the major subdivisions and objects for which such

expenditure is to be made. Expenditures coming under the general classification of "capital outlay" shall show the major subdivisions and objects for which such expenditure is to be made, except that expenditures for structural or nonstructural improvements shall be listed separately as to each project. Under the general class of "interest and debt redemption" shall be set forth separately each series or issue of bonds, together with its individual requirements for interest and redemption. The total amount of emergency appropriations made during the last completed fiscal year shall be set forth separately together with a statement showing the amount issued for each emergency, a list of appropriations canceled showing the amount of each and a list showing each appropriation made from the unappropriated reserves and the amount thereof.

Consideration by supervisors

3. The said tabulation shall be submitted by the county auditor to the clerk of the county board of supervisors on or before the thirtieth day of July of each year, at such time as the county board of supervisors may direct. Said county board of supervisors shall, upon receipt thereof, consider the same in detail, and shall on or before the tenth day of August of each year at such time as the county board of supervisors may direct, make, except as otherwise provided in this section, any revisions, reductions or additions therein, that it may deem advisable, setting forth thereon such changes as have been made to make said budget conform to the judgment and conclusion of the county board of supervisors as to a proper financial program for the county for the fiscal year to which the budget is intended to apply; provided, however, that the estimate submitted by any official, or person, as designated herein shall not be increased or reduced until such official or person shall have first had a hearing thereon before said county board of supervisors; it is further provided, that no school district budget shall be revised, reduced or added to except by the board of school district trustees, except to bring it within the maximum tax limits provided by law. In counties empowered by charter to increase or decrease the compensation and number of deputies and assistants in any office, the county board of supervisors shall, on or before the thirtieth day of May of each year adopt a salary ordinance.

Unappropriated reserves

The county board of supervisors may, if it deem advisable, set aside a portion of each fund, other than school funds, to be known as "unappropriated reserves" which shall not exceed 10 per cent of the total amount of said fund exclusive of surplus; provided, that in any fund from which expenditures are to be made wholly from surplus 10 per cent of the estimated expenditures may be so reserved, or in lieu thereof a general unappropriated reserve which shall not exceed 10 per cent of the total budget exclusive of all items for bond interest and redemption. The money in such unappropriated reserves shall be available for appropriation by a four-fifths vote of the members of the county board of supervisors present

at any meeting of which all members shall have had reasonable notice, to cover expenditures that have not been provided for or that may have been insufficiently provided for or for unforeseen requirements as they may arise.

General reserves

Said budget shall contain an amount or amounts to be known as a general reserve or "general reserves," if carried in separate funds, in such sum or sums as the county boards of supervisors shall deem sufficient, for the fiscal year for which the budget is intended to apply, to meet the cash requirements of any fund to which the county's credit may be legally extended for that portion of such fiscal year prior to the receipt of taxes therein. Sums withdrawn from such "reserves" shall be returned thereto out of the respective appropriations in favor of which they were so withdrawn, and the amount thereof if found excessive, may, at the end of the fiscal year, be reduced by the county board of supervisors by applying such excess to the reduction of the tax levy. It shall be the duty of the county auditor or a deputy designated by him to attend the board's hearings on the matter contained in his tabulation and the preliminary budget, and to furnish said county board of supervisors with any additional data or information it may require.

Preliminary budget

Said tabulation with such revisions, additions, or changes as have been made therein as herein provided, shall constitute the preliminary county budget for the fiscal year to which the budget is intended to apply. Said budget in which shall be set forth the auditor's tabulation and each individual estimate required as per Subdivisions 1 and 2 hereof, shall, on or before the tenth day of August of each year at such time as the county board of supervisors may direct, be printed or mimeographed in full in pamphlet form in quantities sufficient to supply one copy to each taxpayer requesting same, and said county board of supervisors shall on or before such date cause to be published once in a newspaper of general circulation throughout the county, notice that said budget has been prepared and is available for distribution to the taxpayers desiring a copy thereof. Such printed or mimeographed budget shall show such tabulation and fiscal information as the Department of Finance may prescribe in order to provide for uniform reports as between various counties; provided, however, that any county may without disturbing the uniformity of data prescribed add to the information required or show the same in more detail. Such notice shall also set forth that on a date named therein, which date shall be not less than 10 days subsequent to date that said budget is available to taxpayers desiring a copy thereof, the county board of supervisors will meet for the purpose of fixing the final budget designating the time and place of such meeting, and setting forth that any taxpayer may appear thereat and be heard for or against any part of said budget.

Hearing on preliminary budget

4. On or before the twentieth day of August of each year at such time as the county board of supervisors may

direct, said board, shall meet at the time and place designated in the notice, provided in Subdivision 3 hereof, at which time and place any taxpayer may appear and be heard for or against any part of such budget. Such hearing shall be continued from day to day until concluded, but not to exceed a total of 10 days; provided, however, that such hearing shall be concluded before the expiration of 10 days if there are no requests or applications on file with the board for further hearing. The county board of supervisors shall have power to call in the official or person in charge of any office, department, service, institution, or district, other than school districts at the time the estimates for their respective offices are under consideration, for examination concerning such estimates, and such official or person shall be called by said county board of supervisors upon the request of any taxpayer for questioning upon such estimates.

The board of supervisors shall set aside at least one day of the period within which a hearing on the budget may be had, at which any authorized officer of any city within the county may appear and be heard on matters pertaining to the financing of streets, roads and highways both within and without the incorporated areas of the county.

Adoption of budget

Upon the conclusion of such hearing but not later than the thirtieth day of August of each year at such time as the county board of supervisors may direct, said board shall by resolution, adopt the budget as so finally determined, which resolution may specify appropriations by general classes for "salaries and wages," "maintenance and operation," and "interest and debt redemption," and shall specify by items all appropriations for "capital outlays" and shall file in their offices a copy of the completed budget. The several amounts specified in the resolution as finally enacted, shall be and become appropriated for the several offices, departments, services, institutions or districts, for the fiscal year to which the budget is intended to apply; provided, however, that if the budget as adopted, for any fund, special or school district, requires a tax levy greater than the legal limit as determined by the equalized valuations as shown on the assessment roll, such budget shall be decreased so as to come within the legal requirements, and this revised amount shall be the amount deemed to be appropriated for such purposes for such fiscal year. Nothing in this section shall be construed as removing or in any way affecting any tax limit heretofore fixed by law.

Levy of taxes

5. The county board of supervisors shall, not later than the first day of September, fix the rates of county and district taxes designating the number of cents levied for each fund upon each one hundred dollars ($100) of assessed value of the county for the current fiscal year to raise the amount of the estimated expenditures as finally determined, less the total of the estimated revenues from sources other than taxation, including available surplus, and such expenditures as are to be made from bond sources, and must levy the State, county and

district taxes. All taxes shall be levied, upon the taxable property in the county, as provided by law, in specific sums, and the tax for county and local purposes shall not exceed the amount specified in the budget, after allowing for delinquency as provided by law; provided, that it shall not be lawful for any board of supervisors of any county in the State to levy, nor shall any tax greater than seventy-five cents ($0.75) on each hundred dollars ($100) of property be levied and collected in any one year, to pay the bonded indebtedness or judgments arising therefrom, of this State, or of any county or municipality in this State.

Copies of budget and tax levy to State officers

The clerk of the county board of supervisors shall immediately forward a copy of the completed budget and tax levies to both the State Department of Finance and the State Controller.

Estimates adopted constitute appropriation

The estimates of expenditures, classified as required in Subdivision 2 hereof, and as finally fixed and adopted by said county board of supervisors, shall constitute the appropriations for the county for the fiscal year to which the budget is intended to apply and the county board of supervisors and every other county official, or person, including township officers and judges of any court of record, shall be limited in the making of expenditures or the incurring of liabilities to the amount of such appropriations and classifications respectively; provided, that upon a resolution, formally adopted by the county board of supervisors at a regular or special meeting, and entered upon its minutes, transfers or revisions within the general classes of "salaries and wages," "maintenance and operation," and "capital outlay" may be made. Transfers between the general classes provided in Subdivision 2 hereof, shall not be permitted; provided, that in the case of road and bridge maintenance appropriations, any lawful transfer, deemed necessary, may be made; and it is further provided, that the county board of supervisors may by a four-fifths vote of the members present at any meeting of which all members have had reasonable notice cancel any appropriation in whole or in part that is not needed, and return such amount to the "unappropriated reserve" of the fund from which such appropriation was originally made.

Where any budget shall contain an expenditure program to be financed from a bond issue to be authorized thereafter, no such expenditure shall be made or obligations therefor incurred, except such preliminary expenditures as may be now provided by law, until such bonds have been duly authorized and sold. Expenditures made, liabilities incurred, or warrants issued in excess of any of the budget appropriations as originally determined, or as thereafter increased from the "unappropriated reserves" or as thereafter revised by transfer, as herein provided, shall not be a liability of the county, but the official making or incurring such expenditure in an amount known by him to be in excess of the available balance of the appropriation against which it is drawn, shall be liable therefor

personally and upon his official bond. The county board of supervisors shall approve no claim, and the county auditor shall issue no warrant for any expenditure in excess of said budget appropriations, as finally adopted or as thereafter increased from the "unappropriated reserves" or by a transfer as herein provided by said county board of supervisors, or as revised under the provisions herein except upon an order of a court of competent jurisdiction, or for an emergency, as hereinafter provided.

Construction

Nothing herein contained shall be construed as affecting any authority now granted the county board of supervisors to enter into any contract for governmental services for a period exceeding one year; provided, that such contract shall only be considered an encumbrance of the fund from which it is to be liquidated in the amount of indebtedness accruing to June 30th of each fiscal year covered by such contract.

School districts included

It is expressly provided that school districts are included herein for the sole purpose of making possible the printing or mimeographing of a proposed expenditure program of moneys collected through county and district tax levies, in order to make possible a ready analysis of such tax levies by the taxpayers and county officials of the county, and it is further expressly provided that nothing in this section shall be construed as requiring any greater detail in school district budgets, nor as allowing any control, alteration or revision thereof or expenditure thereunder not heretofore provided by law, nor as placing any penalty upon any action of any school district board or officer not so heretofore provided.

Emergency expenditures

6. Upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, epidemic, riot, or insurrection, or for the immediate preservation of order or of public health, or for the restoration to a condition of usefulness of any public property, the usefulness of which has been destroyed by accident, or for the relief of a stricken community, overtaken by calamity, or the settlement of approved claims for personal injuries, or for property damages, exclusive of claims arising from the operation of any public utilities, owned by the county, or to meet mandatory expenditures required by law, the county board of supervisors may upon the adoption, by a four-fifths vote of the members present at any meeting, of the time and place of which all the members of such board shall have had reasonable notice, of a resolution stating the facts constituting the emergency and entering the same upon the minutes, make the expenditure necessary to meet such emergency.

All emergency expenditures shall be paid by warrant from any moneys on hand in the county treasury, in any fund properly chargeable with such expenditure, and the county treasurer is hereby authorized and directed to pay such warrants out of any moneys in the treasury in such fund. If, at any time, there shall be insufficient moneys on hand in the treasury to pay any of such warrants, then such warrant shall

be registered, bear interest, and be called in the manner provided by law for other county warrants.

Unencumbered balances

The unencumbered balance remaining in any fund at the end of the fiscal year shall be carried over to the credit of such fund for the next fiscal year, and shall be deducted from the amount finally determined as necessary to be expended by that fund, for such fiscal year; provided, however, that nothing in this act shall be construed as affecting the right of a county to levy, budget, and expend for highway purposes, the maximum tax provided in Sections 2653 and 4041 of the Political Code in addition to such unencumbered balance; provided, that all balances remaining to the credit of any fund which is not to be continued in the succeeding fiscal year, shall revert to the general fund, except as to such funds as belong to special districts and are not a part of general county finances.

All contractual services rendered or deliveries made prior to the first day of July of each fiscal year, shall be taken into account as expenditures of the year in progress.

If at the beginning of any fiscal year the appropriations necessary for the support of the various county officers, departments, services, institutions or districts for such fiscal year shall not have been made, the several amounts appropriated in the budget of the preceding year for the objects and purposes therein specified, so far as the same shall relate to the operation and maintenance expenses, shall be deemed to be reappropriated for the several objects and purposes specified in said previous year budget until the county board of supervisors shall complete the budget for the current fiscal year and the county auditor shall approve the payments necessary for the support of the various county offices, departments, services, institutions, or districts on the basis of the appropriations of the preceding fiscal year.

Monthly statement by county auditor

7. On or before the tenth day of each month, or such other date in any month as the county board of supervisors may direct, the county auditor shall submit to the county board of supervisors a statement showing such information with respect to the condition of each separate budget appropriation as the county board of supervisors may require.

Duty of State Department of Finance

8. It is hereby made the duty of the State Department of Finance to prescribe forms, to initiate or approve changes therein whenever in its judgment same are advisable, and to promulgate such rules, regulations and classifications as may be necessary to carry out the provisions of this act.

Constitutionality

9. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more of the sections, subsections, sentences, clauses or phrases, be declared unconstitutional.

Repeal

10. All acts and parts of acts in conflict with this act are hereby repealed.

Urgency

11. Inasmuch as this act provides the method by which the appropriations for the usual current expenses of the various counties and districts of the State are to be prepared and submitted and inasmuch as this information and data must be compiled before the beginning of the next fiscal year, it is hereby declared an urgency measure and shall under the provisions of Section 1 of Article IV of the Constitution of the State of California take effect immediately.

CHAPTER 680

Stats 1929, p 1505, amended

An act to amend Sections 4, 5 and 9 of an act entitled "An act providing for the supervision of dams by the Department of Public Works through the State Engineer for the purpose of safeguarding life and property, defining powers and duties concerning the supervision of dams, providing for the enforcement of said supervision and providing penalties for violation thereof and making an appropriation therefor," approved June 10, 1929, as amended, relating to maintenance and operation of dams.

In effect September 13, 1941

[Approved by Governor June 10, 1941. Filed with Secretary of State June 10, 1941.]

The people of the State of California do enact as follows:

Stats 1941, p. 1933

SECTION 1. Section 4 of the act cited in the title hereof is amended to read as follows:

Application for approval of dams constructed prior to August 14, 1929

Sec. 4. Every owner of a dam completed prior to the effective date of this act shall, within six months after the effective date of this act, file an application for the approval of such dam.

A separate application shall be made for each dam and shall be filed with the department upon forms to be supplied by it and shall supply such appropriate information concerning said dam as the department requires. Upon the expiration of said six months period, the department shall give notice to file to owners who have failed to do so as herein required, and a failure to file within 30 days after such notice shall be punishable as hereinafter provided. The notice herein provided for may be given by registered mail and a return receipt signed by such owner shall constitute prima facie evidence of service.

Inspection of dams

The department shall make inspections at State expense of all dams in the State completed prior to August 14, 1929. The

department shall require owners to perform at their expense such work or tests as necessary to disclose information sufficient to enable the department to determine whether to issue certificates of approval or to issue orders directing further work at the owner's expense necessary to safeguard life and property.

If, upon inspection, or, upon completion to the satisfaction of the department of all work that may be ordered, the department finds that the dam is safe to the full extent for which use is or will be made, a certificate of approval shall be issued.

SEC. 2. Section 5 of the act cited in the title hereof is amended to read as follows: Stats 1933, p. 2149

Sec. 5. After the effective date of this act construction of any new dam or the enlargement of any dam shall not be commenced until the owner has applied for and obtained from the department written approval of plans and specifications. Approval of plans for new dam

Enlargement within the meaning of this section constitutes any change in or addition to an existing dam, which shall or may raise the water storage elevation of the water impounded by the dam. Water storage elevation means that elevation of water surface which could be obtained by the existing dam, as previously operated, were there no outflow and were the reservoir full of water.

A separate application for each dam shall be filed with the department upon forms to be provided by it and shall give the name and address of the owner, the location, type, size and height of the proposed dam and appurtenant works, the storage capacity of the reservoir and such other pertinent information as the department shall require. It shall also give as accurately as may be readily obtained, the area of the drainage basin, rainfall and stream flow records and flood flow records and estimates. The department may also require data concerning subsoil and foundation conditions and may require that the site be drilled or otherwise prospected and may require such other appropriate information as may be necessary in a given instance but in instances wherein the physical conditions involved and the size of the dam are such as to render the above requirements as to drainage areas, rainfall, stream flow and flood flow and drilling or prospecting of site unnecessary, said requirements may be waived. Contents of application

The application shall set forth the purpose for which the impounded or diverted water is to be used and shall be accompanied by maps and plans and specifications of such character and size, and setting forth such pertinent details and dimensions as the department may require. Such maps and plans and specifications shall be a part of the application.

Also the application shall set forth the estimated cost, as hereinafter defined, of the dam or enlargement and shall be accompanied by a filing fee based upon said estimated cost and according to the following schedule, to wit: For the first one hundred thousand dollars ($100,000) a fee of 1½ per cent of the estimated cost; for the next four hundred thousand dollars Filing fee

($400,000) a fee of three-fourths of 1 per cent; for the next five hundred thousand dollars ($500,000) a fee of one-half of 1 per cent; and for all costs in excess of one million dollars ($1,000,000) a fee of one-fifth of 1 per cent.

In no case, however, shall the minimum fee be less than twenty dollars ($20).

One fee only shall be collected for an enlargement to be effected by flashboards, sandbags, earthen levees, gates or other works, devices, or obstructions which are, from time to time, to be removed and replaced or opened and shut and thereby operated so as to vary the surface elevation of the impounded water.

Estimated cost

For the purposes of this act, the estimated cost of the dam, or enlargement involved shall include the cost of all labor and materials entering into the construction of the dam and appurtenant works, the cost of preliminary investigations and surveys, and the cost of the construction plant properly chargeable to the cost of the dam; and any and all other items entering directly into the cost of the dam; provided, that the costs of right of way, detached powerhouses, electrical generating machinery and roads and railroads affording access to the dam shall not be included among the items used in the determination of cost. An application shall not be considered by the department until the filing fee is received. In the event that the actual cost exceeds the estimated cost by more than 10 per cent, a further fee shall be required by the department before final approval and shall be 110 per cent of the amount by which the original fee is less than it would have been had the cost it was based upon been the same as the actual cost.

Fee when actual cost exceeds estimated cost

Dams less than 90 per cent complete August 14, 1929

Any dam which the department finds was not 90 per cent constructed at the date this act goes into effect, shall be subject to the same provisions as a dam commenced after the effective date of this act; provided, however, that construction work on such a dam may proceed if an application for approval thereof is filed within 60 days after the effective date of this act, until an order from the department is received approving said dam or specifying how its construction must be made or altered to render it safe. After receipt of an order directing the construction of such a dam work thereafter must be in accordance with said order. Either an application for the approval of a dam under construction must be filed within 60 days after the effective date of this act or a statement must be filed showing that such dam was 90 per cent or more constructed at the effective date of this act. Dams found to be 90 per cent or more constructed at the effective date of this act shall be subject to the same supervision as dams which were completed prior to the effective date of this act. Applications for dams found by the department to have been less than 90 per cent constructed at the effective date of this act shall be accompanied by fees as much less than provided for dams commenced after the effective date of this act as the percentage of construction found by the department to have

Dams 90 per cent or more complete August 14, 1929

been completed at the effective date of this act. All filing fees collected under the provisions of this act shall be paid once each month into the State Treasury. SEC. 3. Section 9 of the act cited in the title hereof is amended to read as follows: Stats 1929, p 1510

Sec. 9. Immediately upon completion of a new dam or enlargement of a dam the owner shall give a notice of completion to the department and as soon thereafter as possible there shall be filed with the department supplementary drawings or descriptive matter showing or describing the dam as actually constructed, including a record of all grout holes and grouting; a record of permanent location points and bench marks; a record of tests of concrete or other material used in the construction of the dam; and any other items which may be of permanent value and have a bearing on the safety and permanency of the dam; provided, that in connection with the enlargement of a dam, the supplementary drawings and descriptive matter need apply only to the new work. New and enlarged dams

As soon as possible after giving notice of completion, the owner shall file an affidavit with the department stating the actual cost of the dam in such detail as the department requires to determine whether a further fee is due.

No certificate of approval shall be issued by the department until the above data and such other pertinent data as may be required by it are filed.

As soon as practicable the completed dam shall be inspected by the department and upon a finding that the work has been done in accordance with the approved plans and specifications or in accordance with the approved plans and specifications as same may have been revised and that the dam is safe for use to the full extent contemplated in the approved plans and specifications or in the approved plans and specifications as same may have been revised, a certificate of approval shall be issued forthwith. Pending issuance of a certificate of approval by the department the dam shall not be used except upon written consent from the department and subject to such conditions as may be imposed by it for the protection of life and property. Stats 1933, p 2599, and Stats 1939, p 1274, amended

An act to add a new section, to be numbered 5 3, to the Retail Sales Tax Act of 1933 and a new section, to be numbered 6384, to the Revenue and Taxation Code, both relating to the taxable status of certain sales to contractors; to defer final assessment and determination of sales and use taxes in certain instances, to define certain terms relating to said taxes, to declare the legislative intent with respect thereto, and providing that this act shall take effect immediately.

In effect immediately

[Approved by Governor June 11, 1941 Filed with Secretary of State June 11, 1941]

The people of the State of California do enact as follows:

New section

SECTION 1. A new section, to be numbered 5.3, is hereby added to the Retail Sales Tax Act of 1933, to read as follows:

Sales to Federal contractors

Sec. 5.3. Notwithstanding any other provision of law the tax imposed under this act shall apply to the gross receipts from the sale of any tangible personal property to contractors purchasing such property either as the agents of the United States or for their own account and subsequent resale to the United States for use in the performance of contracts with the United States for the construction of improvements on or to real property.

New section

SEC. 2. A new section, to be numbered 6384, is hereby added to the Revenue and Taxation Code.

Sales to Federal contractors

6384. Notwithstanding any other provision of law the tax imposed under this part shall apply to the gross receipts from the sale of any tangible personal property to contractors purchasing such property either as the agents of the United States or for their own account and subsequent resale to the United States for use in the performance of contracts with the United States for the construction of improvements on or to real property.

Stay of final determination

SEC. 3. Except as otherwise provided in this act, if a retailer, or other person authorized so to do, petitions in conformity with the requirements of Section 20 of the Retail Sales Tax Act of 1933, Section 12 of the Use Tax Act of 1935, or Section 6561 of the Revenue and Taxation Code for reassessment or redetermination of a tax computed on gross receipts from sales of, or the sales price of, tangible personal property purchased by contractors for use in the performance of contracts with the United States for construction of National defense facilities on a cost-plus-a-fixed-fee basis, pending a final decision in a court of last resort that the tax imposed under the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or the Revenue and Taxation Code, as the case may be, is applicable

with respect to transactions of such kind, the State Board of Equalization shall not initiate action to cause the assessment or determination to become final.

Prohibition of final determination

SEC. 4. Except as otherwise provided in this act, the State Board of Equalization shall not make a final assessment or determination with respect to a tax which is the subject of a petition for reassessment or redetermination under the conditions described in Section 3 hereof, and which is computed on gross receipts from, or the sales price of, a sale made prior to a decision such as is mentioned in said section or, if made subsequent to such a decision, at a price fixed by a contract which became binding prior to July 1, 1941, if it is established that the person liable for the tax has refrained from seeking reimbursement therefor only because of the insistence of those representing the United States with respect to such transactions and, after a reasonable effort to collect, can not be reimbursed therefor as a part of the sales or purchase price. As used in this section the term "reasonable effort to collect" shall not include nor require the institution of litigation until after such decision, and then only if it shall first have been established in a comparable matter, following a final assessment or determination made by the board pursuant to Section 6 of this act, that the person liable for the tax is entitled to be reimbursed for the amount thereof by his vendee.

Records of transactions

SEC. 5. Unless a person otherwise liable for a tax such as is described in Section 3 of this act shall maintain accurate records with respect to all transactions of the type therein described and shall report the transactions to the State Board of Equalization as required by the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or the Revenue and Taxation Code, as the case may be, said section shall not apply to such person or to any tax assessed against him.

Establishing validity of determinations

SEC. 6. Nothing contained in this act shall prevent the State Board of Equalization from making such final assessments or determinations of tax with respect to transactions of the type described in Section 3 of this act as it may deem necessary to establish the validity of assessments or determinations arising out of transactions of such kind, as well as to establish the right of the retailer or other person liable for the tax to be reimbursed for the amount thereof by his vendee, nor shall this act affect jeopardy assessments under Section 19 of the Retail Sales Tax Act of 1933, or jeopardy determinations under Section 11 of the Use Tax Act of 1935, or Section 6536 of the Revenue and Taxation Code.

Interest

SEC. 7. A taxpayer shall not be liable for interest with respect to any tax assessed or determined under the Retail Sales Tax Act of 1933 and Use Tax Act of 1935 or Revenue and Taxation Code, arising out of transactions described in Section 3 of this act, if such tax is paid within six months

after the effective date of the final decision in a court of last resort that the tax imposed under said acts is applicable, as the case may be, with respect to transactions of such kind, or on or before the date on which the assessment or determination becomes final whichever is the later.

Construction

SEC. 8. Nothing contained in this act shall be construed as a legislative intent, interpretation, or concession to the effect that the tax imposed under the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or Revenue and Taxation Code, as the case may be, is inapplicable with respect to any transaction or situation mentioned herein, and the Legislature hereby declares and reaffirms that the sales tax is not imposed upon any purchaser of tangible personal property in this State, but is for the privilege of engaging in the business of selling such property at retail. The Legislature hereby further declares that in enacting Section 5.1 of the Retail Sales Tax Act of 1933 and Section 6381 of the Revenue and Taxation Code, it did not intend to exempt from the sales tax the gross receipts from sales of tangible personal property used in the performance of contracts with the United States for the construction of improvements on or to real property.

Sales to contractors are retail sales

SEC. 9. Notwithstanding any of the provisions of this act, the Retail Sales Tax Act of 1933, the Use Tax Act of 1935 or the Revenue and Taxation Code, a sale of tangible personal property to a contractor or subcontractor for use in the performance of contracts with the United States for the construction of improvements on or to real property is hereby declared to be a retail sale within the meaning of that term as defined in said acts or said code, and, accordingly, the gross receipts from such a sale or the purchase price of property so sold shall be included in the measure of the tax imposed under said acts or said code, or any of them.

Constitutionality

SEC. 10. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portion of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

Tax levy

SEC. 11. This act, inasmuch as it provides for a tax levy for the usual current expenses of the State, shall, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately; provided, however, that the provisions hereof adding Section 6384 to the Revenue and Taxation Code shall become operative at the same time as Part 1, Division 2, of the Revenue and Taxation Code, passed by the Legislature at its Fifty-fourth Session.

CHAPTER 682

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety and shall, therefore, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately. A statement of the facts constituting such urgency follows: Urgency

The Federal Government and the State Relief Administration have established a revolving fund and are issuing Federal order stamps to persons in need. A traffic in these stamps has developed and it is necessary that this traffic be prohibited, otherwise the stamps will not be used for the purposes for which the law intends, people in need will not be assisted, unrest will develop and the public peace, health and safety endangered.

Resolution

9203. Any public cemetery district having acquired a cemetery within its district boundary lines, as hereinbefore provided, may, by resolution of its board of directors, if no human dead have been interred therein for a period of twenty-five (25) years immediately preceding the date of the resolution, declare the abandonment in whole or in part of the cemetery as a burial place for the human dead and for the removal of human remains interred therein to another cemetery or cemeteries within the boundaries of the district as in this chapter provided.

Contents of resolution

9204. Any resolution or declaration for abandonment and removal duly adopted and made under the provisions of this chapter shall specify and declare that at any time after the expiration of two months after the first publication of the notice of declaration of abandonment and removal required to be published, as in this chapter set forth, the human remains then remaining in the cemetery or part thereof will be removed by the district owning or controlling the cemetery.

Publication of notice

9205. Notice of the declaration of abandonment and the proposed removal of the human remains from any abandoned cemetery, or part thereof, shall be given, to all persons interested therein, by publication in a newspaper of general circulation published within the public cemetery district and most likely to give notice to the parties concerned. If no newspaper

of general circulation is published in the district, then publication shall be made in a newspaper of general circulation published in the county within which the district is located. Publication shall be made once a week for four consecutive times. The notice shall be entitled "Notice of the Declaration of Abandonment of Lands for Cemetery Purposes and of Intention to Remove the Human Bodies Interred Therein" and shall specify a date not less than two months after the first publication of the notice when the district owning or controlling the cemetery lands and causing the notice to be published will proceed to remove the human remains then remaining in such cemetery, or part thereof.

9206. Copies of the notice so published shall within 10 days after the first publication thereof be posted in at least three conspicuous places in the cemetery from which the removal of the human remains interred therein are to be made, and a further copy of the notice shall be mailed by registered letter to every person who owns or holds or has the right of burial in any lot, or plot in the cemetery, or part thereof, affected by the resolution or declaration of abandonment and removal, whose name appears as owner or controller upon the records of the cemetery. The notice so mailed shall be addressed to the last known post-office address of the respective lot owner or plot holder as the same appears from the records of the cemetery, and if no address appears or is known, then it shall be addressed to such persons at the county seat of the county in which the cemetery land is situated. Notice shall be mailed to any known living heir at law of any person whose remains are interred in the cemetery when the address of the heir is known.

Notice by relative or friend

Constitutionality

SEC. 11. The Legislature hereby declares that in enacting this act it intends, in so far as it constitutionally has the power so to do, to abrogate the effect of the repeal of Chapter 560 of the Statutes of 1917 by Chapter 60 of the Statutes of 1939, to recognize the continued existence of the Tamalpais Forest Fire District despite said repeal, and to provide for the continuation of said district during the further period provided for by this act.

Validation: Proceedings

SEC. 12. All acts and proceedings of any person purporting to act as an officer, employee, or agent of the Tamalpais Forest Fire District and all acts or proceedings of any other public officer in relation to the district purporting to have been the legally constituted Tamalpais Forest Fire District, which acts or proceedings purported to have been in conformity with, or pursuant to the provisions of, Chapter 560 of the Statutes of 1917, are hereby validated, confirmed, and declared to be legal in all respects from and after the time said acts were done or proceedings taken.

Transfer of title

SEC. 13. The title to all property, real or personal, heretofore transferred to the Tamalpais Forest Fire District is hereby confirmed in said district and no action shall be commenced nor defense interposed alleging as a ground of invalidity of any such title the nonexistence of a statute under which said district purported to be organized and existing.

Time for commencing action

If, notwithstanding the foregoing provisions of this section, any right of action shall exist in any person, to attack or question the acts or purported acts of the de jure or de facto officers of said district, which acts have heretofore or shall hereafter occur prior to the hour of dissolution specified in this act, then such right must be asserted by the commencement of an action thereon within six months from the said thirtieth day of June, 1941.

Contracts

SEC. 14. No contract by or on behalf of the Tamalpais Forest Fire District heretofore made shall be deemed to be invalid on the ground that said district lacked legal authority to make and perform such contract because of the nonexistence of a statute under which said district purported to be organized and existing.

Tax levy

SEC. 15. All acts or proceedings of any officer of the County of Marin in connection with the assessment, levy, or collection of any tax purported to have been assessed, levied, or collected in conformity with the provisions of Chapter 560 of the Statutes of 1917 are hereby validated, confirmed, and declared legally effective.

Existing officers

SEC. 16. The persons who, at the time this act takes effect, are acting as officers and employees of the Tamalpais Forest Fire District under the purported authority of Chapter 560 of the Statutes of 1917 shall continue to hold office and employment according to the tenure and conditions thereof and for

the same times and under the same conditions as would be applicable if said Chapter 560 of the Statutes of 1917 had not been repealed. All terms of office which have expired and all employments which have terminated since said repeal and prior to the effective date of this act shall be deemed to have lawfully expired or to have lawfully terminated to the same extent as they would have expired or terminated had said Chapter 560 of the Statutes of 1917 not been repealed.

Exception

SEC. 17. Nothing in this act shall be construed to validate, ratify or legalize any act, proceeding, or any other matter or thing which would have been unlawful had Chapter 560 of the Statutes of 1917 not been repealed by Chapter 60 of the Statutes of 1939.

Stats 1939, p 482

Declaration of intent

SEC. 18. Nothing in this act nor in any other provision of law, including Section 4041.6 of the Political Code, shall be construed to limit the powers of any county in relation to general fire protection therein or its powers to provide such fire protection as in the opinion of its board of supervisors shall be proper and adequate or to provide in the general budget and tax rate to be levied in such county, for the levy, collection and expenditure of such tax and other funds as in its opinion shall be necessary, proper, or adequate to provide fire protection for persons and property, game, and other resources therein.

Nonexistence of general law

SEC. 19. It is hereby found and determined that no general law exists under which Tamalpais Forest Fire District can be or could be or could have heretofore been organized in a manner or with the powers required, and that a special law for the creation of said district has at all times since the effective date of Chapter 560 of the Statutes of 1917, been required, for each of the following reasons: First, said district as hereinabove bounded has and at all of said times has had large numbers and resources of fish and game which have been imperiled and are now imperiled by fire hazards; that said district abounds in quail, deer, trout which are now and long have been specially protected by a game refuge established by law; that the creation of said district for the protection of these resources has at times been necessary whether or not the district was required for the protection of persons or property; second: said district is now required for the purpose of marshaling the assets and affairs of the formerly existing district and conducting the affairs thereof until the County of Marin has reorganized its facilities and prepared to take over the duties of the district; third: there is no general law which provides the means for speedy enough action to afford fire protection from the dangers of the immediate future; fourth: there is no general law under which fire protection can be gained during the immediate future for the purpose of National defense.

Urgency

SEC. 20. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California

and therefore shall take effect immediately. The following is a statement of the facts constituting such necessity:

The Tamalpais Forest Fire District was created by Chapter 560 of the Statutes of 1917. In enacting the Health and Safety Code in 1939 said Chapter 560 was inadvertently repealed. Notwithstanding said repeal the district has continued to function under the mistaken impression of all parties concerned that the basic act under which it was created was still in legal existence. The de facto district has operated during the period subsequent to the repeal of said act in the same manner as if said act had never been repealed, and it is necessary to validate the acts and proceedings of, and connected with, the de facto district and continue said district as a legal entity for the period provided for in this act. The area involved presents a serious fire problem during the summer months and it is necessary that the steps provided to be taken by this act be taken immediately in order that such fire hazards to valuable park property and agricultural and urban property may be overcome.

Urgency

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and as such shall take effect immediately. A statement of the facts constituting such necessity is as follows:

The preservation and maintenance of an adequate supply and balance of wild life in this State is a matter of vital interest to the people of this State. It is imperative to the existence of the fishing industry, essential to pest-free agriculture, and necessary to the recreational life of this State. In these far-reaching aspects wild life conservation directly affects the public peace, health, and safety.

To obtain a proper program of fish and game conservation which will produce effective results in the near future, it is necessary to establish policies now and without delay. To avoid uncertainty the policies should be formulated by the new Fish and Game Commission created on November 5, 1940. This can be accomplished only by the immediate conferring of powers and duties on the new commission.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore take effect immediately. The facts constituting such necessity are as follows:

The activities of certain nations whose philosophies and ambitions are hopelessly incompatible with our own have compelled the United States, in self-defense, to commit herself to a policy of adequate military and naval protection, to be achieved in part by the immediate building of additional aviation facilities and an augmented aviation reserve corps from which piloting material can be drawn readily in case of National emergency. One of the several agencies contributing towards the fruition of this policy is the California National Guard.

This act will enable the California National Guard to continue apace its work of diffusing military education and training in aviation. The present world crisis threatening our public peace, health and safety requires that it go into effect immediately.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall take effect immediately. The following is a statement of the facts constituting the necessity:

Urgency

An emergency exists in the United States and the State of California in providing adequate armies and facilities for defense. A large rearmament program is also under way, in which the manufacturing, airplane, shipbuilding and other plants of this State are taking their part. The National Guard, which has heretofore been available to this State as an organization for the defense and for the guarding of such plants and other places of strategic and military value is being called into the service of the United States and many units thereof have already left the State in such service. It is therefore necessary that steps be taken to provide troops to take

their place and to make the unorganized militia more readily available for defense in this emergency and for the guarding of such plants and places of military and strategic value. It is therefore necessary that this act take effect immediately.

Effective date

SEC. 4. If any part or provision of this act should, by reason of the provisions of Section 1 of Article IV of the Constitution, be delayed from taking immediate effect, the remainder of the act shall go into immediate effect notwithstanding the fact that some provisions may not become effective until 90 days following final adjournment of this Fifty-fourth Session of the Legislature enacting this law.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. Urgency

The following is a statement of facts constituting such necessity: This act will enable the obtaining of water for Pacific Colony-State Narcotic Hospital. It is essential that this water be furnished at once, in order to relieve a serious fire and health hazard now existent due to there being insufficient water available for the hospital. It is therefore imperative that this act go into effect immediately.

CHAPTER 758

An act to add Sections 28 and 28.1 to the Unemployment Insurance Act, relating to the obligations of this State for funds received from the United States, and to provide that this act take effect immediately. Stats. 1935, p. 1226, amended

[Approved by Governor June 17, 1941. Filed with Secretary of State June 17, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 28 is hereby added to the act cited in the title hereof, to read as follows: New section

Sec. 28. This State recognizes its obligations to replace, and hereby pledges the faith of this State that funds will be provided in the future, and applied to the replacement of, any moneys received after July 1, 1941, from the Social Security Board under Title 3 of the Social Security Act, any unencumbered balances in the Unemployment Administration Fund as of that date, any moneys thereafter granted to this State pursuant to the provisions of the Wagner-Peyser Act, and any moneys thereafter made available by this State or its political subdivisions matched by moneys granted to this State pursuant to the provisions of the Wagner-Peyser Act, which the Social Security Board finds have, because of any action or contingency, been lost or have been expended for purposes other than, or in amounts in excess of, those found necessary by the Social Security Board for the proper administration of this act. Such moneys shall be replaced within a reasonable time by moneys appropriated by the Legislature from the general funds of this State to the Unemployment Administration Fund. The commission shall report to the Director of Finance, in the same manner as is provided generally for the submission of financial requirements for the ensuing biennium, and the Governor shall include in his budget report to the next regular session of the Legislature, the amount required for such replacement. This section shall not be construed to relieve Replacement of Federal funds

4 Stats. at Lge., p. 113

this State of its obligation with respect to funds received prior to July 1, 1941, pursuant to the provisions of Title 3 of the Social Security Act.

So that this State may carry out its pledge given by this section:

(a) The commission shall be subject to and shall comply with all applicable provisions of the Political Code relating to contracts, budgets and other fiscal matters, including Section 677.5 of said code, in the same manner and to the same extent as other State agencies, in so far as such provisions are not inconsistent with the provisions of the Social Security Act and the rules and regulations of the Social Security Board.

(b) Each officer and employee of the commission whose duties include the handling of property or funds shall execute to the State of California an official bond conditioned upon the faithful performance of his duties in such amount as the Director of Finance shall fix.

New section

SEC. 1.5. Section 28.1 is hereby added to the act cited in the title hereof, to read as follows:

Expenditure of Social Security funds

SEC. 28.1. All moneys received from the Social Security Board pursuant to Section 302 of the Social Security Act shall be expended solely for the purposes and in the amounts found necessary by the Social Security Board for the proper and efficient administration of this act.

Appropriation

SEC. 1.7. The sum of twelve thousand dollars ($12,000), or so much thereof as may be necessary, is hereby appropriated out of any money in the State Treasury not otherwise appropriated for expenditure by the Department of Finance during the Ninety-third and Ninety-fourth Fiscal Years in carrying out the provisions of this act. Of such amount, not more than two thousand dollars ($2,000) shall be available for premiums on the official bonds required by Section 28 of the Unemployment Insurance Act.

Urgency

SEC. 2 This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, and shall therefore, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately.

The facts constituting the necessity are as follows:

Under the Federal Social Security Act it is made a condition for the continuance of administrative grants that State laws relating to unemployment insurance must contain a provision effective July 1, 1941, that moneys received from the Social Security Board will be expended in amounts found necessary by the board, and a further provision that funds lost or expended for purposes other than those approved by the board will be replaced by the State within a reasonable time. Unless such a provision is contained in the California Unemployment Insurance Act effective July 1, 1941, there will be no further administrative moneys received by the State of California from the Social Security Board, thereby resulting in a cessation of

operations of the Department of Employment. In such event, payment of unemployment insurance to thousands of unemployed individuals throughout the State would be discontinued, thus resulting in further unemployment and unrest and thereby endangering the public peace, health and safety.

CHAPTER 759

An act to add Section 1817 to Article 8, Chapter 1, Part 7 of the Labor Code, relating to working laws on public work and providing that this act shall take effect immediately.

Stats. 1937, p. 185, amended

[Approved by Governor June 17, 1941. Filed with Secretary of State June 17, 1941.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. A new section is hereby added to Article 8, Chapter 1, Part 7 of the Labor Code, to be numbered Section 1817, and to read as follows:

New section

1817. Notwithstanding the provisions of Sections 1810 to 1816, inclusive, of this code, and notwithstanding any stipulation inserted in any contract pursuant to the requirements of said sections, work performed by employees of contractors in excess of eight hours per day shall be permitted upon public work upon compensation for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay. The verified report required under Section 1813 need not include any instances in which such compensation for the excess hours is paid.

Overtime upon public work

This section shall remain in effect only until such time as the Governor finds and proclaims that the emergency in preparing for the National defense no longer exists.

Period in effect

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and therefore shall take effect immediately. A statement of the facts constituting such urgency is as follows:

Urgency

Under the existing law work in excess of eight hours a day on public work contracts is prohibited regardless of the payment of wages at a higher rate for overtime work, except in cases of extraordinary emergency, caused by fire, flood, or danger to life or property or except on work upon public military or naval defenses or works in time of war. Such restrictions are not applicable upon National defense projects or upon projects upon other than public works projects. Many projects of this State and of local governmental agencies, while not upon military or naval defenses, are directly

connected with the program of National defense. Under the present law workmen are constantly leaving projects of this State and local governmental agencies thereof to accept employment where the above restrictions are not applicable. The result is that this act must take immediate effect to prevent the serious curtailment of work upon these projects.

Appropriation

SEC. 2. The sum of five thousand dollars ($5,000) or so much thereof as may be necessary, is hereby appropriated out of any money in the State Treasury not otherwise appropriated for the purposes of this act, to be expended under the direction of the State Planning Board.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and as such shall take effect immediately. The following is a statement of the facts constituting such necessity:

An emergency exists in the United States and the State of California in providing adequate armies and facilities for defense. It is necessary that all information be gathered relating to National defense, and the facilities of agricultural and industrial production, of communication and transport, of the natural and productive resources of the State, and of the opportunities for sabotage and subversive activities, in order that by proper cooperation and coordination of Federal, State and private agencies the defenses of the State and Nation may be protected, and it is therefore necessary that this act take effect immediately.

Urgency SEC. 2. This act is hereby declared an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall, therefore, go into immediate effect. A statement of facts constituting such necessity is as follows:

Unprecedented floods and washouts subsequent to January 1, 1941, have created demands upon the forest service that can not be met from existing appropriations, and it is necessary that funds be immediately available in order to restore essential public service in forest areas for the preservation of life and property.

CHAPTER 763

An act making an appropriation to the Division of Forestry, Department of Natural Resources, for support, construction and equipment, declaring the urgency thereof, to take effect immediately.

In effect immediately [Approved by Governor June 17, 1941. Filed with Secretary of State June 17, 1941.]

The people of the State of California do enact as follows:

Appropriation: Division of Forestry SECTION 1. In addition to any money otherwise appropriated, the sum of one hundred five thousand four hundred four dollars and fifty cents ($105,404.50), or so much thereof as may be necessary, is hereby appropriated out of any money in the State Treasury not otherwise appropriated to the Division of Forestry, Department of Natural Resources, for support, construction and equipment during the Ninety-second and Ninety-third Fiscal Years.

Urgency SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the State Constitution, and shall, therefore, go into immediate effect. A statement of facts constituting such necessity is as follows:

The centering of vital National defense activities in California has caused a heavy influx of people, many of whom have taken to living in trailers, tents and camps along the highways because they have been unable to secure adequate housing facilities. This necessarily has greatly enhanced the possibility of brush and forest fires in this State. To combat this situation it is imperative that fire protection measures be instituted with the greatest possible speed. Such will be the result if this bill is enacted and becomes effective immediately.

SEC. 6. Section 2025 of said code is hereby repealed. Stats 1937, p 1081

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety and shall, therefore, under the provision of Section 1 of Article IV of the Constitution take effect immediately and become operative July 1, 1941. Urgency

The facts constituting such necessity are as follows:

New chapter SEC. 7. Chapter 3 is hereby added to Part 1 of Division 5 of the Welfare and Institutions Code, to read as follows:

CHAPTER 3. AID TO PARTIALLY SELF-SUPPORTING BLIND RESIDENTS

Article 1. General Provisions

Purpose 3400. The purpose of this chapter is to provide a plan for this State whereby the blind residents of this State may be encouraged to take advantage of and to enlarge their economic

opportunities, to the end that they may render themselves independent of public assistance and become entirely self-supporting.

To achieve this objective, resources and income beyond the necessities of bare decency and subsistence are required. This chapter, by allowing the retention of necessary income and resources by those of the blind showing a reasonable probability of being able and willing to undertake the acquisition of resources and income necessary for self-support, will encourage them in their efforts to become self-supporting.

Construction

3401. The provisions of this chapter shall be liberally construed to effect its objects and purposes.

Expenditure of aid

3402. No person concerned with the administration of this chapter shall dictate how any applicant shall expend the aid granted to him.

"Blind persons" defined

3403 As used in this chapter, "blind persons" means any person who by reason of loss or impairment of sight is unable to provide himself fully with the necessities of life and who has not income and resources through his own means, as defined under this chapter, sufficient to provide a reasonable and decent standard of living.

"Department of Social Welfare"

3404. As used in this chapter, "Department of Social Welfare" means the State Department of Social Welfare.

False statements

Restitution

3405. Any person who, in order to secure for himself or another the aid provided in this chapter, makes a false statement under oath, shall be deemed guilty of perjury. Whenever any person has, by means of false statement or representation or by impersonation or other fraudulent device obtained aid under this chapter, he shall make restitution and all actions necessary to secure restitution may be brought against him.

State share of refunds

3406. Whenever any aid under this chapter is refunded to a county, the State shall be entitled to a share of the amount received, proportionate to the amount of State funds paid.

Aid inalienable

3407. All aid given under this chapter shall be absolutely inalienable by any assignment, sale attachment, execution, or otherwise and in case of bankruptcy the aid shall not pass through any trustee or other person acting on behalf of creditors.

Article 2. State and County Aid

State appropriation to counties

3420. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated to every county in the State, maintaining, supporting, or caring for, as hereinafter provided in this chapter, any blind person, resident of such county, and not an inmate of any institution supported

in whole or in part by the State or any of its political subdivisions, aid not in excess of three hundred dollars ($300) per annum for each such blind person so maintained, supported and cared for, or aid not in excess of six hundred dollars ($600) per annum in the event such blind person has no county residence as provided in this chapter.

County aid

3421. It shall be the duty of each county to aid blind persons as provided in this chapter.

Article 3. Persons Eligible for Aid

Residents Age and residence

3430. No person who has become blind while a resident of the State is entitled to aid under the provisions of this chapter, unless he is at least 16 years of age and unless, except as provided in Section 3432, he has been a resident of the county in which his application is filed for a period of six months immediately preceding the filing of his application.

Nonresidents Same

3431. No person who became blind while he was a nonresident of the State, is entitled to aid under the provisions of this chapter, unless he is at least 16 years of age and unless, except as provided in Section 3432, he has been a resident of the county in which his application is filed, for a period of one year immediately preceding the filing of his application and a resident of the State for a period of 10 years immediately preceding the filing of his application.

Persons without county residence

3432. Any person otherwise eligible who has resided in the State for the required period and who has no county residence may file his application in the county in which he resides, and the aid, if granted to him, shall be paid entirely by the State until the first day of the first month beginning after the date upon which he gains such county residence unless the day upon which he gains county residence is the first day of the month in which event the county shall assume its share of the costs thereon.

Separate residence of spouses

3433. For the purposes of this chapter neither the residence nor domicile of the husband or wife shall be deemed the residence or domicile of the other, but each may have a separate residence or domicile dependent upon proof of the fact and not on legal presumptions.

Residence of minor child

For the purposes of this chapter a minor child shall be deemed to have resided in the State during any period in which such child has been physically present in the State.

Inmates of public institutions

3444. No applicant shall receive aid under the provisions of this chapter while he is an inmate of any institution supported in whole or in part by the State or any of its political subdivisions, but recipients of aid under the provisions of this chapter who are patients in a public hospital for a period not

exceeding 30 days, and blind persons employed in a shop maintained by the State when such shop does not provide board and room to the employee shall not be considered inmates of public institutions. No applicant shall be denied the aid provided for in this chapter, however, because he is attending or intends to attend any public high school in this State, the University of California, or any other institution of higher learning in this State. Students

Any such inmate, however, may make an application for aid under this chapter and have his application investigated and acted upon without delay, in the same manner as applications of other persons are acted upon, while he is such an inmate, and, if he is otherwise qualified under the terms of this chapter, such application shall be approved. Payment of the aid granted shall commence within one month following such approval and the applicant may remain an inmate until he receives his first monthly payment, whereupon he shall cease to be such inmate. Applications

If on the first day of the month a recipient of aid is eligible for aid though an inmate of an institution or hospital, he is entitled to receive aid for the month.

If a recipient of aid becomes ineligible for aid due to confinement in an institution or hospital, the order of the board of supervisors suspending his aid may provide that the aid shall be restored when the recipient ceases to be an inmate, without further order from the board of supervisors.

3445. No aid to needy blind shall be given under the provisions of this chapter to any individual who receives aid under the Old Age Security Law, which is Chapter 1, Division 3 of this code. Recipients of old age aid

3446. No person who publicly solicits alms in any part of the State shall be eligible to receive aid under the provisions of this chapter. "Publicly solicits" shall be construed to mean either wearing, carrying, or exhibiting signs denoting blindness for the securing of alms, or carrying receptacles, for the purpose of securing alms, or doing the same by proxy; or stationary or house to house begging; or any other means of publicly seeking alms. Persons who publicly solicit alms

3447. Aid shall not be received under the provisions of this chapter by any person who owns personal or real property, or both, the county assessed valuation of which, less all encumbrances thereon of record, is in excess of three thousand dollars ($3,000). Persons owning property in excess of $3,000

The term "personal property" shall not include a policy or policies of insurance which has or have been in effect at least five years prior to the date of application, if the value of the policy or policies at maturity is in an amount not exceeding one thousand dollars ($1,000). Insurance policies

Free board and lodging

3449. Free board and lodging supplied to an applicant, because of his necessity therefor, by a friend or relative who is not responsible for his support or who is financially unable to support him, shall not be a ground for refusing aid.

Removal from one county to another

3450. Any person qualified for and receiving aid under the provisions of this chapter in any county of the State, who removes to another county in the State, shall be entitled to aid under the provisions of this chapter upon the first day of the first month beginning after the date upon which he attained one year of residence in the county to which he has removed, unless the day upon which he attains one year of residence is the first day of the month in which event the transfer of costs shall take place upon this day, and such removal shall not work a forfeiture during such one-year period of the aid previously awarded under this chapter.

Presumptions as to residence

For the purposes of this section, it is presumed that the period of time for the acquisition of one year's residence in the county to which the person has removed, shall start to run upon the date of removal from the county in which he has previously acquired residence. Any residence once acquired is presumed to continue unless terminated by a subsequent act of the recipient. The county to which such person has removed shall provide the necessary medical or hospital care, or both, during the one-year period of establishment of residence under this section. The county providing such medical or hospital care, or both, may demand payment of the county granting the aid in an amount not in excess of the cost thereof and it shall be a proper charge and duty of the county granting the aid to pay such medical or hospital care, or both.

Any blind person who leaves his county for the purpose of attending an institution of learning located in the State shall be deemed, for the purposes of this chapter, not to have moved from his county.

If a recipient returns to the county granting aid to him, after an absence of less than one year, he shall not be deemed to have lost his residence therein.

Article 4. Administration and Procedure

Administration

3460. The administration of this chapter is vested in the State Department of Social Welfare and the counties to be performed in accordance with the provisions of this code applicable to aid to needy blind. Unless otherwise expressly provided in this chapter, all provisions of this code applicable to the powers and duties of the State Department of Social Welfare and the counties with respect to the needy blind shall apply to the powers and duties of the State Department of Social Welfare and the counties with respect to aid to the blind under this chapter.

Same

3461. The State Department of Social Welfare through the Division of the Blind shall supervise the administration of the provisions of this chapter.

Treatments for blind

3462. The privilege of treatment and operations for the prevention of blindness or the restoration of sight available to the needy blind under Section 3051 of this code shall be available to the blind receiving aid under this chapter.

Article 5. Terms and Conditions of Aid

Application for aid

3470. Each applicant for aid under the provisions of this chapter shall file with the county in which he resides, an application, accompanied by an affidavit, signed by himself, stating, if known, his age, sex, counties of residence during the preceding 10 years, his financial resources and income, the name and address of his spouse, parent, or adult child, the degree of his blindness, how long he has been blind, what employment and education he has had, his general physical condition, and such other statistical data as the Department of Social Welfare requires.

The application shall forthwith be transmitted to the board of supervisors of the county.

When certificate of qualification may be granted

3471. The county board of supervisors shall not grant any certificate of qualification for aid under the provisions of this chapter until it has been satisfied that the applicant is entitled to such aid by the evidence of two reputable citizens of the State that they know that the applicant has the required residential qualifications to entitle him to the aid asked for, and by the evidence of a duly licensed and practicing physician skilled in the diseases of the eye that the applicant is blind. The physician shall describe the condition of the applicant's eyes and testify to the degree of his blindness. The evidence of each person shall be in writing, signed by him, and he shall be subject to cross-examination by the county board of supervisors or any other person appointed by the board of supervisors to conduct such investigation.

Order for payment of aid

3472. If the county board of supervisors is satisfied that the applicant is entitled to aid under the provisions of this chapter, it shall, without delay, issue an order therefor. The amount of aid to which any applicant shall be entitled shall be, when added to the income of the applicant from all other sources, fifty dollars ($50) per month. Income from any of the following sources of a combined total value not exceeding four hundred dollars ($400) per annum shall not be considered for any purpose:

Income not considered

(a) Income from applicant's labor or services;

(b) The value of foodstuffs produced by the applicant or his family for his use or that of his family;

(c) The value of firewood and/or water produced on the premises of the applicant or given to him by another for the applicant's use;

(d) The value of gifts other than regular contributions by relatives legally responsible under this act;

(e) The value of the use and occupancy of premises owned and occupied by the applicant;

(f) The net income from real and personal property owned by the applicant.

Income in addition to the above specified shall be computed on the basis of net income.

Proof as to self-support

3473. An applicant for aid under this chapter shall in addition prove that he is able to secure and willing to use resources and income he is permitted to retain under this chapter, for the purposes of achieving self-support.

County to determine type of aid

The county shall determine whether the applicant has the qualifications necessary for aid under this chapter and may, despite his application, deny him aid under this chapter, and, if eligible thereunder, grant him aid to the needy blind under Chapter 1 of this part. Any applicant denied aid under this chapter may file an appeal with the State Social Welfare Board.

An applicant granted aid under this Chapter 3 shall not be eligible for aid under Chapter 1 of this part for a period of one year from the date upon which he filed his application for aid and an applicant granted aid under Chapter 1 of this part shall not be eligible for aid under this Chapter 3 for a period of one year from the date upon which he filed his application for aid under Chapter 1 of this part.

Annual redeterminations

At least annually, the county shall review the case of every applicant receiving aid under this chapter and shall redetermine whether he is eligible for aid under this chapter or should for the year following the then current year period, be granted aid, if eligible, under Chapter 1 of this part. Any redetermination by the county shall be subject to review by the State Social Welfare Board upon the appeal of the applicant.

Recovery of aid paid from recipient's kindred

3474. If any applicant receiving aid under the provisions of this chapter has residing within the State a spouse, parent, or adult child, pecuniarily able to support him, upon the failure of such kindred to perform their duty to support the blind person the board of supervisors may request the district attorney or other civil legal officer of the county to proceed against the kindred in the order of their responsibility for support.

Upon such request the district attorney, or other civil legal officer of the county granting aid may, on behalf of the county, maintain an action in the superior court of the county granting such aid, against such relatives, in the order named: (1) to recover for the county such portion of the aid granted as the courts find such relative or relatives pecuniarily able to pay and (2) to secure an order requiring the payment to the county of any sums which may become due in the future for which the relative may be liable. The receipt of aid by the applicant under the provisions of this chapter, however, shall not be contingent upon such recovery or such order. The sums so recovered shall be credited by the county in its settlement with the State.

Article 6. Fiscal Procedure

Payment of State funds to counties

3480. From the sums appropriated in Section 3420 of this code the State Treasurer shall pay to each county an amount, which shall be used exclusively for aid to the blind under this chapter, equal to one-half of the sums expended by the county as aid to the blind under this chapter, except that the State shall pay the county the full amount of aid granted any person otherwise qualified who has resided in the State for the required period and who has no county residence.

Method of computing and paying

3481. The method of computing and paying the amounts provided for in Section 3480 for each quarter shall be as follows:

(a) The Department of Social Welfare shall, prior to the beginning of each quarter, estimate the amount to be paid for such quarter to each county under Section 3480. This estimate shall be based on a report which shall be filed by each county containing (1) its estimate of the total sum to be expended in such quarter in accordance with the provisions of this chapter, and stating the amount appropriated or made available by the county for such expenditures in such quarter, and if the amount is less than that portion of the total sum of such estimated expenditures which is required under this chapter to be paid by each such county, the source or sources from which the difference is expected to be derived, (2) records, showing the number of blind individuals receiving aid under the authority of this chapter in the county, and (3) such other information and investigation as the Department of Social Welfare may find necessary.

(b) The Department of Social Welfare shall then certify to the State Controller the amounts so estimated by it for each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county under this chapter for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater or less than the amount estimated by the Department of Social Welfare for such prior quarter.

(c) The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the Department of Social Welfare, and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified. Upon the order of the Department of Social Welfare, the amount approved for the quarter, may be paid in monthly installments and, if paid in monthly installments, all necessary adjustments for the prior quarter shall be made by additions or deductions from the allowance for the first month of each new quarter or in the manner prescribed by the State Department of Social Welfare.

Reports of aid paid

3482. Reports of aid to blind paid out under this chapter shall be presented by the respective counties at times and in the form prescribed by the Department of Social Welfare. Such reports shall be audited by the Department of Social Welfare and the State Controller and, when and in the amount approved, shall be allowed to said county or city and county as a credit to apply against advances made under the terms of Section 3481.

Review by counties of grants to needy blind

SEC. 8. Between the effective date of this act and October 1, 1941, the counties shall review all grants of assistance under Chapter 1 of Part 1 of Division 5 of the Welfare and Institutions Code, relating to the needy blind, to determine which persons are eligible for assistance under Chapter 1 of Part 1 of Division 5 of the Welfare and Institutions Code, relating to the needy blind, and which persons are eligible for assistance under Chapter 3 of Part 1 of Division 5 of the Welfare and Institutions Code, relating to the partially self-supporting blind residents of this State. Any determination of the county shall be subject to review by the State Social Welfare Board upon the appeal of the person affected.

Urgency

SEC. 9. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety and shall, therefore, under the provisions of Section 1 of Article IV of the Constitution take effect immediately and become operative July 1, 1941.

The facts constituting such necessity are as follows:

In order to conform fully and completely to the requirements of the Federal Social Security Act, the public assistance program of this State for the blind must provide (a) methods relating to the establishment and maintenance of personnel standards on a merit basis, (b) a designation of a single State agency to supervise the administration of the law and, (c) after July 1, 1941, (i) that, in determining need, the income and resources of the individual shall be considered and (ii) that information concerning the persons assisted shall be used only for purposes directly connected with administration. If this is not done, the above mentioned public assistance program of this State will not be approved by the Federal Social Security Board and the State will not be eligible for Federal financial assistance. This act makes the changes necessary to provide complete conformity and to secure such approval and provides for the assistance of those blind residents of this State whose grants of assistance are adversely affected by such conformity. Unless this act takes effect immediately and provides the safeguards required, Federal financial assistance will be refused the State, the strain upon the revenues of the State and counties to carry the complete cost of this program of public assistance, now Federal financed in part, will threaten the solvency of the State, aid will not be available for those entitled thereto and the public peace, health and safety will thereby be endangered.

Collateral trust bonds or notes

(g) Collateral trust bonds or notes:

"Funded indebtedness" The term "funded indebtedness," wherever used in this paragraph (j), shall include any general obligation bonds of such city, or city and county, to the payment of the principal or interest of which the revenues from any such utility are required to be applied pursuant to any charter or statutory provision or pursuant to the proceedings taken for the issuance of such general obligation bonds.

In determining the net income of any utility for the purposes of this paragraph (j) there shall be included the net income from property acquired within the period with respect to which the tests provided by this paragraph (j) are to be made, or acquired subsequently to such period, or to be acquired out of the proceeds of bonds of the issue with respect to which application for certification is made, adjusted, as

nearly as practicable, to conform to the definition hereinabove set forth, for any portion of the period in question prior to such acquisition.

The legality of investments heretofore lawfully made pursuant to the provisions of this section, or of any law of this State as it existed on and subsequent to July 1, 1909, shall not be affected by any amendments to this section or this act; nor shall any such amendments require the changing of investments once lawfully made under this act.

Book value of bonds

Any bonds authorized by this section as a legal investment for savings banks may be carried on the books of said bank at their investment value, based on their market value at the time they were originally bought, unless the Superintendent of Banks shall require any or all of the bonds which may thereafter have a market value less than the original investment value to be written down to such new market value which shall be done gradually if practicable and in such manner as he may determine or he may, by a plan of amortization to be determined by him, require such gradual extinction of premium as would bring such bonds to par at maturity.

Bonds of railroads operating exclusively in California

When it shall be necessary to prevent loss to any savings bank on an obligation owned or on a debt previously contracted in good faith, it may, with the previous written consent of the Superintendent of Banks, purchase or acquire bonds of any railroad corporation incorporated under the laws of the State of California and operated exclusively therein notwithstanding such bonds do not conform to the requirements in this section contained; provided, any bond so purchased or acquired must be sold for the best price obtainable by any bank within five years after such purchase or acquisition.

In effect September 13, 1941

[Approved by Governor June 21, 1941. Filed with Secretary of State June 24, 1941.]

The people of the State of California do enact as follows:

New section

SECTION 1. Section 28.25 is hereby added to the act cited in the title hereof, to read as follows:

Abolition of divisions in certain districts having three divisions

Sec. 28.25. The board of directors of any existing irrigation district having less than 2,500 acres within its boundaries, having less than 25 electors residing within it, and having only three divisions may petition the board of supervisors of the county in which it or the greater portion of land in it is situated for an order by the board of supervisors abolishing the divisions in the district. The board of supervisors to which the petition is presented shall thereupon determine whether or not there are less than 2,500 acres in the district, less than 25 electors residing in it, and only three divisions in it. If the board of supervisors finds that there are less than 2,500 acres in the district, less than 25 electors residing in it, and only three divisions in it, the board of supervisors may order that there shall be no divisions in the district. Upon the making of the order, there shall be no divisions in the district, the directors of the district need only be voters and freeholders of the district, and the directors of the district shall be elected, and appointed to fill vacancies, at large

from the whole district. From the adoption of the order the district shall have three directors, and the offices of the directors shall have the numbers formerly identifying the division represented by each director, or if none, last incumbent director, and candidates for election for director shall be nominated and elected for a particular office. The making of the order does not change any term of office.

SEC. 2. Section 28.35 is hereby added to the act cited in the title hereof, to read as follows: New section

Sec. 28.35. In any irrigation district having no divisions, at least 60 days before any general election required to be held in irrigation districts, a majority of the electors in the district may file in the office of the district a petition signed by them requesting the board of directors to establish divisions. The petition shall contain a showing that it is expedient to divide the district into three divisions as nearly equal in area and population as may be practicable and to elect the directors of the district therefrom. The board of directors may independently investigate whether or not the facts are consistent with the showing made in the petition and shall hear any evidence produced to sustain or disprove the showing. Within 30 days after the filing of the petition, the board shall find whether or not it is expedient to divide the district into three divisions as nearly equal in area and population as may be practicable and to elect the directors of the district therefrom. If the board finds in the affirmative, it shall forthwith order the establishment of divisions in the district and divide the district into three divisions as nearly equal in area and population as may be practicable. At the general election next following the making of the order directors shall be elected at large in the district, one director to represent each division. The directors so elected shall at their first meeting classify themselves into two groups in the same manner and with the same effect as provided as to directors elected at an election for the organization of a district, except that the classification shall not affect the term of any offices other than those held by the directors. and reasons for its action on the petition and shall forthwith mail a copy of the order to the parties who have appeared in support of or in opposition to the petition for rehearing.

The person desiring a review shall pay to the secretary of the board the sum of twenty cents ($0.20) for each 100 words of the transcript of the record and proceedings certified to the court.

5571. A judgment of suspension or cancellation of a certificate by the superior court shall be subject to appeal or review in accordance with the provisions of law as to appeal from or review of judgments of superior courts.

There shall be no stay of execution or enforcement of the judgment pending such proceedings on appeal or review unless the appellant or applicant for review shall file a bond in all respects conditioned as, and similar to, the bond required to stay the effect of the board's decision in the first instance.

The recorder shall mark "suspended" or "revoked" on the certificate of the architect recorded in his office.

5573. After suspension of a certificate upon any of the grounds set forth in this chapter, the board may renew the certificate upon proof of compliance by the architect with all provisions of the decision as to renewal or, in the absence of such decision or any provisions therein as to renewal, in the sound discretion of the board.

After revocation of a certificate upon any of the grounds set forth in this chapter, the certificate shall not be renewed or reissued within a period of one year after the final decision of revocation and then only on the filing of an application with the board for a new certificate and on a proper showing that all loss caused by the act or omission for which the certificate was revoked has been fully satisfied and that all conditions imposed by the decision of revocation have been complied with.

Amendments to pleadings

5574. At any time before a case is finally submitted to the board for decision, whether upon an original hearing, or upon a rehearing, a complaint or answer may upon the motion of either party and with the consent of the board, or upon the board's own motion, be amended. If new charges are alleged in an amended complaint, the defendant may, upon request, be allowed not more than 20 days to prepare his defense to such new charges.

Exemptions which may become payable to the estate of such veteran shall be exempt.

(b) All property transferred to this State or to the United States or to societies, corporations and institutions now or hereafter exempted by law from taxation, or to any public corporation, or to any society, corporation, institution, or association of persons exclusively engaged in or devoted to any charitable, educational, public, or other like work (pecuniary profit not being its object or purpose); or to any person, society, corporation, institution, or association of persons in trust exclusively for or to be devoted exclusively to any charitable, educational, or public purpose, by reason whereof any such person or corporation shall become beneficially entitled in possession or expectancy to any such property or to the income thereof, shall be exempt; provided, however, that such society, corporation, institution or association be organized solely for charitable, educational, public or other like work under the laws of this State or of the United States, or that the property transferred be limited for use within this State; provided further, that if such society, corporation, institution or association be organized or existing under the laws of a Territory or State of the United States (other than California) or of a foreign state or country, all property transferred to such society, corporation, institution or association shall be exempt if at the date of decedent's death the said State or Territory or foreign state or country under the laws of which such society, corporation, institution or association was organized or existing did not impose a legacy or succession tax or a death tax of any character in respect of property transferred to such a society, corporation, institution or association organized or existing under the laws of this State, or if at the date of decedent's death the laws of the State or Territory or foreign state or country under which such society, corporation, institution or association was organized or existing contained a reciprocal provision under which transfers to such a society, corporation, institution or association organized or existing under the laws of another State or Territory or foreign state or country were exempted from legacy or succession taxes or death taxes of every character; providing, said other State or Territory or foreign state or country allowed a similar exemption to such a society, corporation, institution or association organized or existing under the laws of another State or Territory or foreign state or country.

(2) Property of the clear value of twenty-four thousand dollars ($24,000) transferred to the wife, and of twelve thousand dollars ($12,000) transferred to a minor child of the decedent, and of five thousand dollars ($5,000) transferred to each of the other persons described in the first subdivision of Section 4 shall be exempt.

In determining the net amount of previously taxed property being transferred in the present decedent's estate its value shall be taken as of the date of the prior decedent's death or as of the date of the present decedent's death, whichever is lower, and due allowance shall be made under rules prescribed by the Controller for the proportion of deductions and exemptions chargeable against such property in the prior decedent's estate and for the proportion of deductions chargeable against such property in the present decedent's estate.

"Proportionate exemption" means the amount which bears the same proportion to the exemption (other than the exemption allowed in this subdivision) allowed on all property transferred by the present decedent to the person to whom the previously taxed property is being transferred as the value of the net amount of previously taxed property bears to the value of the net amount of property transferred by the present decedent to the person to whom the previously taxed property is being transferred.

The net amount of previously taxed property, less the amount of the proportionate exemption, is exempt from the tax, except any tax levied under Subdivision (12) of Section 2.

(7) In computing the tax upon transfers subject to tax under the provisions of this act, the exemptions allowed in Subdivisions (2), (3), (4), (5) and (6) of this section shall be deducted from the aggregate amount of property transferred, and the transfer of the remainder of the property after making such deduction shall be taxed at the rates at which it would have been taxed had no exemption whatever been allowed.

(8) The tax imposed by this act in respect of intangible personal property shall not be payable if the decedent is a resident of a State or Territory of the United States or a foreign state or country which at the time of his death imposed a legacy, succession or death tax in respect of intangible personal property of residents of the State or Territory or foreign state or country, but did not impose a legacy or succession tax

or a death tax of any character in respect of intangible personal property of residents of this State, or if the laws of the State or Territory or foreign state or country of residence of the decedent at the time of his death contained a reciprocal provision under which nonresidents were exempted from legacy or succession taxes or death taxes of every character in respect of intangible personal property providing the State or Territory or foreign state or country of residence of such nonresidents allowed a similar exemption to residents of the State or Territory or foreign state or country of residence of such decedent.

For the purposes of this act, the District of Columbia is a Territory of the United States.

SEC. 2. Section 8 of said act is hereby amended to read as follows:

Immediate appraisement and payment

Sec. 8. (1) When any grant, gift, legacy, devise or succession upon which a tax is imposed by Section 2 of this act shall be an estate, income, or interest for a term of years, or for life, or determinable upon any future or contingent event, or shall be a remainder, reversion, or other expectancy, real or personal, the entire property or fund by which such estate, income, or interest is supported, or of which it is a part, shall be appraised immediately after the death of the decedent, and the market value thereof determined, in the manner provided in Section 16 or 17 of this act, and the tax prescribed by this act shall be immediately due and payable to the treasurer of the proper county, and together with the interest thereon, shall be and remain a lien on said property until the same is paid.

Contingent incumbrance

(2) In estimating the value of any estate or interest in property, to the beneficial enjoyment or possession whereof there are persons or corporations presently entitled thereto, no allowance shall be made on account of any contingent incumbrance thereon, nor on account of any contingency upon the happening of which the estate or property or some part thereof or interest therein might be abridged, defeated or diminished; provided, however, that in the event of such incumbrance taking effect as an actual burden upon the interest of the beneficiary, or in the event of the abridgment, defeat or diminution of said estate or property or interest therein as aforesaid, a return shall be made to the person properly entitled thereto of a proportionate amount of such tax on account of the incumbrance when taking effect, or so much as will reduce the same to the amount which would have been assessed on account of the actual duration or extent of the estate or interest enjoyed. Such return of tax shall be made in the manner provided by Subdivision 4 of Section 11 hereof upon order of the court having jurisdiction Said application for return of tax must be made within six months of the happening of said contingency.

Remainder

(3) When property is transferred in trust or otherwise, whereby any person becomes entitled to an estate or interest

for life or years therein and any other person to the remainder over, the executor or trustee shall pay the entire tax on all interests therein out of the corpus of the property transferred, and no part thereof shall be charged against the interest of or collected from the beneficiaries thereof.

Contingencies

(4) When property is transferred in trust or otherwise, and the rights, interest or estates of the transferees are dependent upon contingencies or conditions whereby they may be wholly or in part created, defeated, extended, or abridged, a tax shall be imposed upon said transfer at the highest rate which, on the happening of any of the said contingencies or conditions, would be possible under the provisions of this act, and such tax so imposed shall be due and payable forthwith by the executors or trustees out of the corpus of the property transferred and shall not be charged against the interest of or collected from the beneficiaries thereof; provided, however, that on the happening of any contingency whereby the said property, or any part thereof, is transferred to a person or corporation exempt from taxation under the provisions of this act, or to any person taxable at a rate less than the rate imposed and paid, the executors or trustees shall be entitled to a return of that part of the tax imposed and paid represented by the difference between the amount paid and the amount actually payable under the provisions of this act, and the amount returned shall go into and form a part of the corpus of the property transferred; such return of overpayment shall be made in the manner provided by Subdivision 4 of Section 11 of this act, upon motion made in the court having jurisdiction within six months after the happening of said contingency; provided, that the person or persons or body politic or corporate beneficially interested in the property chargeable with said tax or the trustees thereof may elect not to pay the same until such person or persons, or body politic or corporate beneficially interested in such property shall come into the actual possession or enjoyment thereof, and in that case such person or persons or body politic or corporate or trustees shall execute a bond to the people of the State of California in a penalty of the amount of said tax plus interest thereon for five years at the rate of 7 per cent per annum with such sureties as the said superior court may approve, conditioned for the payment of said tax or any lesser tax which may become payable on the happening of said contingency, and interest thereon at the rate of 7 per cent per annum commencing at the expiration of two years from the death of the decedent, at such time or period as they or their representatives may come into the actual possession or enjoyment of such property, and conditioned further, that if said bond be not renewed and the returns made as herein provided, the amount of said tax and interest thereon shall immediately become due and payable. Said bond shall be filed in the office of the county clerk of the proper county and a certified copy thereof shall be immediately transmitted to the State Controller; provided further, that such person or persons or body

politic or corporate, or trustees, shall enter into such security within a period of 90 days after the entry of the order or the decree fixing the inheritance tax charged against such transfer, or within such period thereafter as the court may in its discretion permit, and shall make a full and verified return of such property to said court and file the same in the office of the county clerk within one year from the date of such order or decree fixing tax, and at such times thereafter as the court on the application of the State Controller may require, and renew such security every five years after the date of the approval thereof by filing a new bond with such sureties as said superior court may approve, and transmitting a certified copy of said renewal bond to the State Controller. The penalty of each renewal bond shall be increased by five years interest at the rate of 7 per cent per annum on the unpaid tax. Upon the approval of said bond as herein provided, said tax shall cease to be a lien upon the property so transferred. If such security shall not be renewed before the expiration of each five-year period, said bond shall immediately become due and payable and if the same be not paid forthwith, the State Controller may file an action on the bond to recover the amount of said inheritance taxes on high contingency and the penalties provided in said bond, and no demand for payment shall be necessary before the institution of such suit. Whenever it shall be made to appear to the satisfaction of the court that any surety on such bond or undertaking has for any reason become insufficient, the court may on motion of the State Controller, after such notice to such person or persons, body politic or corporate, or trustees as the court may require, order the giving of a new undertaking with sufficient sureties in lieu of such insufficient undertaking. In case such new undertaking so required shall not be given within the time required by such order, or in case the sureties thereon fail to justify thereon when required, all rights obtained by the filing of such original undertaking, or subsequent undertaking, shall cease and the amount of said tax and interest thereon shall immediately become due and payable.

Renewal of bond

Compromise settlements of taxes

(5) Notwithstanding any provisions hereof whereby final determination of taxability of the transfer of property, or interests therein or income therefrom, is or may be deferred until the happening of certain contingencies or conditions, the State Controller may compromise, adjust and settle with the administrator, executor or trustee having charge of the estate or property in question the taxability of the transfer of such property and of each and every interest therein, including the income therefrom, whether such interests be absolute or qualified, perpetual or limited, present or future, vested or contingent, or otherwise.

Report of settlement

The inheritance tax appraiser, determining the inheritance tax payable, shall prepare a report in accordance with such settlement and if and when said report is confirmed by an

order of the superior court having jurisdiction said order shall be a final determination of the matters covered thereby and the payment of said tax as fixed by said order shall be a complete discharge to such administrator, executor, or trustee with respect to such taxes.

Estates which can be divested

(7) Where an estate or interest can be divested by the act or omission of the legatee or devisee it shall be taxed as if there were no possibility of such divesting.

Future, contingent or limited estates

(8) The value of every future or contingent or limited estate, income or interest, shall, for the purposes of this act be determined by the rule, methods and standards of mortality and of value that are set forth in the actuaries' combined experience tables of mortality for ascertaining the value of policies of life insurance and annuities and for the determination of the liabilities of life insurance companies, save that the rate of interest to be assessed in computing the present value of all future interests and contingencies shall be five (5) per cent per annum. For the purposes of this act, in determining the present value of such estate, income or interest, other than an annuity in a fixed amount, the yearly income or the annual value of the use or income of such estate or interest shall be 5 per cent of the appraised value of the property upon which said estate or interest is based. When an annuity or a life estate is terminated by the death of the annuitant or life tenant or by the happening of a contingency, and the tax upon such interest has not been fixed and determined, the value of said interest for the purpose of taxation under this act shall be the present value, at date of death of the decedent the transfer of whose estate is being taxed, of the amount of the annuity or income actually paid or payable to the annuitant or life tenant during the period for which such annuitant or life tenant was entitled to the annuity or was in possession of the life estate.

Compromise of taxes on claim decedent is domiciled elsewhere

(9) In all estates where a claim is made that the decedent was not domiciled in California at the time of his death the State Controller may, in his discretion, compromise the inheritance taxes payable in said estates, subject to the approval of the court.

The procedure shall conform to that set out in Subdivision (5) of this section.

SEC. 3. Section 11 of said act is hereby amended to read as follows:

Refund of debts proved after payments to distributee

SEC. 11. (1) If any debts shall be proved against the estate of a decedent after the payment of any legacy or distributive share thereof, from which any such tax has been deducted or upon which it has been paid by the person entitled to such legacy or distributive share, and such person is required by order of the superior court having jurisdiction on notice to the State Controller to refund the amount of such debts or any part thereof, an equitable proportion of the tax shall be repaid to him by the executor, administrator or trustee, if the tax has not been paid to the county treasurer; or if such

tax has been paid to such county treasurer, such officer shall refund out of any inheritance tax moneys in his hands or custody such equitable proportion of the tax and credit himself with the same in the account required to be rendered by him under this act.

For the purposes of the inheritance tax, there is no limitation governing the time within which debts may be proved against the estate of a decedent after the payment of any legacy or distributive share thereof, but the application for refund shall be made within one year after such debt is allowed by the court.

Tax or deductions for debts erroneously allowed

(2) Where it shall be proved to the satisfaction of the superior court that deductions for debts were allowed upon the appraisal, since proved to have been erroneously allowed, it shall be lawful for such superior court to enter an order assessing the tax upon the amount wrongfully and erroneously deducted and if debts are established against the estate after the order fixing inheritance tax is made the order may on petition after notice to the State Controller be modified equitably.

For the purposes of the inheritance tax there is no limitation governing the time within which it may be proved that deductions for debts were erroneously allowed nor the time within which the order assessing the tax on the amount erroneously deducted may be made, nor the time within which debts may be established against the estate after the order fixing the inheritance tax is made, but the petition to have the order modified after establishment of such debts shall be made within a year after such debts are established.

If order is modified or reversed

(3) If, after the payment of any tax in pursuance of an order fixing such tax, made by the superior court having jurisdiction, such order be modified or reversed by the superior court having jurisdiction by any of the methods provided by law, or be modified or reversed on an appeal taken therefrom within the time allowed by law, on due notice to the State Controller, the county treasurer shall refund to the executor, administrator, trustee, person or persons by whom such tax was paid the amount of any moneys paid or deposited on account of such tax in excess of the amount of tax fixed by the order modified or reversed, out of any inheritance tax moneys in his hands or custody, and credit himself with the same in the account required to be rendered by him to the Controller on his settlement; but no application for such refund shall be made after one year from such reversal or modification, unless an appeal shall be taken therefrom, in which case no such application shall be made after one year from the final determination on such appeal, and the representatives of the estate, legatees, devisees, or distributees entitled to any refund under this section shall not be entitled to any interest upon such refund, and no judgment for such refund shall bear interest until said judgment shall have become final in the highest court to which the matter is carried

and until refund is refused upon demand after such final judgment and then only from the date of such refusal. The State Controller shall deduct from the fees allowed by this act to the county treasurer the amount theretofore allowed him upon such overpayment, as if the amount refunded were the last payment made to the county treasurer in the year in which such overpayment was made.

Order to refund tax erroneously paid

(4) When any amount of said tax shall have been erroneously paid, the superior court having jurisdiction, on application after notice to the State Controller, and on satisfactory proof to it, shall by order, direct the county auditor to draw his warrant upon the county treasurer in favor of the executor, administrator, trustee, person or persons who have paid any such tax in error in the amount of such tax so erroneously paid; provided, that all applications for such repayment of such tax so erroneously paid shall be made within one year of the date of the entry of the order fixing tax or of the decree of final distribution of the estate. Such refund shall be made by said treasurer out of any inheritance tax moneys in his hands or custody and he shall credit himself with the same in the account required to be rendered by him to the Controller on settlement; and the State Controller shall deduct from the fees allowed by this act to the county treasurer the amount theretofore allowed him upon such erroneous payment, as if the amount refunded were the last payment made to the county treasurer in the year in which such overpayment was made.

Stats 1923, p 571, and Stats 1939, p 1274, amended

[Approved by Governor June 24 1941 Filed with Secretary of State June 25, 1941.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. A new section, to be numbered 10a, is hereby added to the Motor Vehicle Fuel License Tax Act, to read as follows:

New section

Sec. 10a. The provisions of this act exempting motor vehicle fuel sold to the Government of the United States from the measure of the license tax imposed hereunder shall not apply to any motor vehicle fuel sold to contractors purchasing such fuel either for their own account or as the agents of the United States for use in the performance of contracts with the United States.

Fuel sold to contractors

SEC. 2. A new section, to be numbered 7406, is hereby added to the Revenue and Taxation Code, to read as follows:

New section

7406. The provisions of Section 7401 exempting motor vehicle fuel sold to the Government of the United States from the measure of the license tax imposed hereunder shall not apply to any motor vehicle fuel sold to contractors purchasing such fuel either for their own account or as the agents of the United States for use in the performance of contracts with the United States.

Fuel sold to contractors

SEC. 3. Except as otherwise provided in this act, pending a final decision in a court of last resort to the effect that the license tax imposed by the Motor Vehicle Fuel License Tax Act or by Part 2 of Division 2 of the Revenue and Taxation Code, as the case may be, is applicable with respect to sales of motor vehicle fuel used in the performance of contracts with the United States for the construction of National defense facilities on a cost-plus-a-fixed-fee basis, the State Board of Equalization shall exclude such sales in computing any assessment made pursuant to Section 6 of the Motor Vehicle Fuel License Tax Act and any determination made pursuant to Section 7654 of the Revenue and Taxation Code, regardless of whether such fuel is sold to the contractors so purchasing it directly by the distributor thereof, or by a consignee or vendee of such distributor.

Exclusion of certain sales

Determinations prohibited

SEC. 4. Except as otherwise provided in this act, the State Board of Equalization shall not make an assessment or determination of license tax arising out of transactions such as are described in Section 3 hereof when the distribution of the fuel is made prior to a decision such as is mentioned in said section, or when made within six months subsequent to such a decision at a price fixed by contract which became binding prior to such decision, if it is established that the person liable for the license tax has refrained from seeking reimbursement therefor only because of the insistence of those representing the United States with respect to such transactions and after reasonable effort to collect can not be reimbursed therefor as a part of the sales price of the fuel. As used in this section the term "reasonable effort to collect" shall not include nor require institution of litigation until after such decision, and then only if it shall have first been established in a comparable matter, following an assessment or determination made by the board pursuant to Section 6 of this act, that the person liable for the license tax is entitled to be reimbursed for the amount thereof by his vendee.

Record and report of transactions

SEC. 5. Unless a person liable for a license tax such as is described in Sections 3 and 4 of this act shall maintain accurate records with respect to all transactions of the type therein described and shall report the transactions to the State Board of Equalization as required by the Motor Vehicle Fuel License Tax Act or the Revenue and Taxation Code, as the case may be, said sections shall not apply to such person or to any license tax assessed against him.

Determinations permitted

SEC. 6 Nothing contained in this act shall prevent the State Board of Equalization from making such assessments or determinations of license tax with respect to transactions of the type described in Sections 3 and 4 of this act as it may deem necessary to establish the validity of assessments or determinations arising out of transactions of such kind, as well as to establish the right of the distributor liable for the license tax to be reimbursed for the amount thereof by his vendee, nor shall this act affect the power and duty of the board to make an assessment or determination if the board believes that the collection of any license tax imposed by or under the Motor Vehicle Fuel License Tax Act or Part 2 of Division 2 of the Revenue and Taxation Code will be jeopardized by delay.

Claims for refund

SEC. 7. Any claim for refund of the amount of license tax included in the sales price of fuel sold under circumstances such as are described in Section 3 hereof may be filed with the State Controller within 60 days after the filing with that official of the assessment roll showing the license tax to be due with respect to the distribution of such fuel, notwithstanding any other provisions to the contrary in Section 11

of the Motor Vehicle License Tax Act or Section 8105 of the Revenue and Taxation Code.

Construction

SEC. 8. Nothing contained in this act shall be construed as a legislative intent, interpretation, or concession to the effect that the license tax imposed under the Motor Vehicle Fuel License Tax Act or Part 2 of Division 2 of the Revenue and Taxation Code, as the case may be, is inapplicable with respect to sales of the kind mentioned herein, or that the motor vehicle fuel license tax is imposed otherwise than upon the distributor for the privilege of distributing motor vehicle fuel in this State.

Constitutionality

SEC. 9. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portion of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

Tax levy

SEC. 10. This act, inasmuch as it provides for a tax levy for the usual current expenses of the State, shall, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately; provided, however, that the provisions of the Motor Vehicle Fuel License Tax Act as they existed on January 1, 1941, are hereby continued in force until May 1, 1941, and that the provisions hereof adding a new section to the Revenue and Taxation Code shall become operative at the same time as Part 1, Division 2, of the Revenue and Taxation Code passed by the Legislature at its Fifty-fourth Session.

CHAPTER 841

Stats. 1937, p. 1005, amended

An act to amend Section 124 of the Welfare and Institutions Code, relating to the Social Welfare Fund and the purposes for which the money therein may be used and making an appropriation, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1941. Filed with Secretary of State June 25, 1941.]

The people of the State of California do enact as follows:

Stats. 1939, p. 1438

SECTION 1. Section 124 of the Welfare and Institutions Code is hereby amended to read as follows:

Social Welfare Fund

124. There is a Social Welfare Fund established in the State Treasury, in which fund there shall be deposited:

(a) All grants of money received by this State from the United States, the expenditure of which is administered through or under the direction of the State Department of Social Welfare.

(b) All money appropriated by the State for the support of the State Department of Social Welfare. The department may use the money within this subdivision for the purposes for which the money in subdivision (a) is made available by the United States for expenditure by this State but all money so used by the department shall be returned to the support appropriation from the next subsequent grant or grants of the United States but in no event any later than one year from the time it was so used by the department. The money to be deposited in the Social Welfare Fund under this subdivision shall be transferred to the Social Welfare Fund monthly, in case of a biennial appropriation, in amounts of not more than one-twentieth of the appropriation or, in cases of appropriations for greater or lesser periods, in amounts of not more than 20 per cent more than an equal monthly rate determined by the number of complete calendar months within the period.

The State Department of Social Welfare shall keep a record of the classes and sources of income credited to the Social Welfare Fund and of the disbursements therefrom.

Unless otherwise expressly provided, all money deposited in the Social Welfare Fund under an appropriation by the State shall be available for all expenditures incurred for the purposes for which it was appropriated during the period thereof, and three years from the time the appropriation

became available, the unexpended amount thereof shall revert to the State fund from which the appropriation was made.

Appropriation State Department of Social Welfare

SEC. 2. There is hereby appropriated from any money in the State Treasury not otherwise appropriated, thirty-eight thousand six hundred ninety-six dollars and twenty-three cents ($38,696.23) to be expended by the State Department of Social Welfare during the Ninety-second Fiscal Year to cover a deficiency in the Federal grants administered by the department.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety and shall, therefore, under the provisions of Section 1 of Article IV of the Constitution take effect immediately.

The facts constituting such necessity are as follows:

The Federal Government made a deduction from the money otherwise available to this State, for interest received by this State upon money previously granted by the Federal Government. This appropriation is necessary to cover the deficiency without which the functions of the department will be impaired and it will not be able to function normally for the purposes for which it is established, to the consequent detriment of the State.

CHAPTER 842

Stats 1941, p 363, amended

An act to amend Section 1 of "An act making an appropriation for the reconstruction, replacement and repair of buildings and physical facilities of elementary and secondary schools damaged or destroyed by earthquakes, to take effect immediately," approved December 7, 1940, relative to reconstruction, replacement and repair of school buildings, making an appropriation, to take effect immediately.

[Approved by Governor June 24, 1941. Filed with Secretary of State June 25, 1941.]

In effect immediately

The people of the State of California do enact as follows:

Stats 1941, p 363

SECTION 1. Section 1 of the act cited in the title hereof is hereby amended to read as follows:

Appropriation Earthquake damage

Section 1. The sum of one hundred thousand dollars ($100,000), or so much thereof as may be necessary, is hereby appropriated out of any money in the State Treasury not otherwise appropriated, which sum shall be allocated by the Director of Education, with the approval of the Director of Finance, during the Ninety-second and Ninety-third Fiscal Years, in such amounts as he deems necessary, to elementary or secondary school districts, the amount so allocated to be used solely for the reconstruction, replacement, and repair of buildings and physical facilities of schools in such district that were damaged or destroyed by earthquakes which occurred in the month of May, 1940.

None of the money hereby appropriated shall be allocated to any district unless and until such district shall have provided through any lawful means for the raising of money equal to or in excess of the amount to be allocated from this appropriation for the purposes herein provided, to the end that any money expended from this appropriation shall be matched by like or greater amount from sources other than the State.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. The following is a statement of facts constituting such necessity:

Severe earthquakes occurring in the month of May, 1940, have damaged or destroyed school buildings and other physical facilities of elementary and secondary school districts in Imperial County. Unless these buildings and facilities are replaced without delay, the educational opportunities of the children in these districts will be curtailed, and the health of the residents of a large area of the State will be endangered by the use of temporary and makeshift structures. The responsibility of providing for the education of these children and for the protection of the health of the community is an obligation of the State which must be discharged immediately.

Certain school districts in need of the money appropriated by this act have not been, and will not be, able to raise the matching funds required within the Ninety-second Fiscal Year. By extending the period of time within which they may raise such funds, these districts will be enabled to obtain the benefit of this act.

CHAPTER 843

Stats 1935, p 1693 See also Stats 1941, p 2680

SECTION 1. Section 2 of the act cited in the title hereof is hereby amended to read as follows:

Distributors license

Sec. 2. Every person, firm, association or corporation before becoming a distributor shall make an application to

the State Board of Equalization for a license authorizing such distributor, person, firm, association or corporation to engage in business as a distributor. Applications for such licenses must be made to the State Board of Equalization on forms to be prescribed, prepared and furnished by said board. It shall be unlawful for any person, firm, association or corporation to be a distributor without first securing from the State Board of Equalization a license for which provision is made in this section. Before granting any license authorizing any person, firm, association or corporation to engage in business as a distributor, the State Board of Equalization must require such person, firm, association or corporation to file with said board, in such form as shall be prescribed by said board, a bond duly executed by such person, firm, association or corporation as principal and a corporation such as is mentioned in Section 1056 of the Code of Civil Procedure of this State, as surety, payable to the people of the State of California, conditioned upon faithful performance of all the requirements of this act and expressly providing for the payment of all license taxes, penalties and other obligations of such person, firm, association or corporation arising out of this act.

Application

Bond

The total amount of the bond or bonds required of any distributor shall be fixed by the State Board of Equalization and may be increased or reduced by said board at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds required of any distributor, the State Board of Equalization must require a bond or bonds equivalent in total amount to twice his estimated monthly license tax determined in such manner as said board may deem proper; provided, however, that, subject to such terms and conditions as the State Board of Equalization may prescribe, any distributor may undertake to pay on each Tuesday the license tax accruing on all of his distributions of motor vehicle fuel during the week ending the Saturday next preceding, and, if any distributor shall so bind himself, said board shall fix his bond or bonds in a total amount equivalent to twice the license tax accruing on account of his estimated weekly distributions determined in such manner as said board may deem proper; and further provided, that the total amount of the bond or bonds required of any distributor shall never be less than one thousand dollars ($1,000) nor more than one hundred thousand dollars ($100,000). No recoveries on any bond or any execution of any new bond shall invalidate any bond and no revocation of any license shall affect the validity of any bond.

Amount of bond

Weekly payments permitted

In lieu of any such bond or bonds in total amount as fixed hereunder, any distributor may deposit with the State Treasurer, under such terms and conditions as said board may prescribe, a like amount of lawful money of the United States, or bonds or other obligations of the United States, the State of California, or any county or city and county of this State, of an actual market value not less than the amount so fixed by said board. All licenses issued to distributors under this

Deposit in lieu of bond

section shall be valid until revoked by the State Board of Equalization.

Monthly statement

Nothing in this section shall be construed as relieving any distributor of the duty of filing the sworn monthly statement required by Section 6 of this act. The assessment of any distributor who makes weekly payments shall be shown on the assessment roll prepared under said Section 6 in the same manner as the assessments of other distributors are shown thereon, and the Controller shall apply such payments to the credit of such distributor on the assessment roll for the month during which the distributions covered by such payments were made.

Default in weekly payments

Whenever any distributor undertaking to pay his license tax in weekly installments, as provided in this section, shall fail to pay the full amount thereof in accordance with the terms and conditions prescribed by the State Board of Equalization, his license may be revoked forthwith, unless he complies immediately with the requirement of this section relating to the filing of a bond or bonds equivalent in total amount to twice the estimated monthly license tax. In the event of nonpayment of any weekly installment of the license tax, or any part thereof, pursuant to the undertaking of any distributor, the full amount of the license tax accrued against such distributor shall become immediately due and payable and the Controller and the Attorney General shall proceed forthwith to collect the license tax due from such distributor in the manner prescribed by Section 4 of this act with reference to delinquency in the payment of the monthly license tax. All provisions of said Section 4 shall apply with full force and effect to collections required to be made under this section; provided, however, that the 10 per cent penalty for delinquency for which provision is made under Section 4 hereof shall accrue only as provided in said section, and there shall be added to any weekly installment of license tax remaining unpaid at 5 o'clock in the afternoon of the Tuesday following the close of such week, a penalty of 5 per cent on account of such delinquency; the accrual of any such penalty of 5 per cent shall not in anywise affect the 10 per cent penalty for delinquency imposed under Section 4 hereof, but such 10 per cent penalty shall not be computed upon any amount added to such weekly license tax as a penalty under this section.

Penalty for delinquency

License not transferable

The license issued hereunder to any distributor shall not be transferable. Whenever a distributor ceases to engage in business as a distributor within the State of California by reason of the discontinuance, sale or transfer of such business, he shall give notice in writing thereof to the State Board of Equalization on or before the date of such discontinuance, sale or transfer. Such notice shall give the date of discontinuance and, in the event of a sale or transfer of the business, the date thereof and the name and address of the purchaser or transferee. All taxes and penalties under this act, not yet due and payable under other provisions hereof,

Sale or transfer of business

shall become due and payable concurrently with such discontinuance, sale or transfer, and the distributor shall forthwith make a report and pay all such taxes and penalties, and shall surrender to the State Board of Equalization the license theretofore issued. Unless such notice shall have been given as hereinbefore provided, such purchaser or transferee shall be liable for all taxes and penalties under this act accrued against the vendor or transferor to the date of such sale or transfer, but only to the extent of the value of the property and business thereby acquired.

Producer or broker's license

Every person, firm, association or corporation before becoming a producer or broker shall apply for a license on forms prescribed by the State Board of Equalization. Each such application shall be accompanied by a license fee of ten dollars ($10) payable to the State Board of Equalization.

Upon the receipt of such application, accompanied by such license fee, the State Board of Equalization shall issue to every such applicant, except as otherwise provided herein, a license to engage in such business from the date of the issuance thereof, until and including the following December 31st, unless sooner canceled or revoked. Before January 1st of each year an application shall be filed and a license obtained by each such producer or broker for the succeeding calendar year. If any producer or broker shall fail to apply for the license hereby required and to pay the fee hereby specified prior to January 1st of each year, then there shall be added to the amount of such fee a penalty of 25 per cent on account of such delinquency. Any license so issued shall not be transferable and may be revoked by the State Board of Equalization as hereinafter provided. All license fees collected under the provisions of this section shall be credited to the "Motor Vehicle Fuel Fund" hereinafter created.

Refusal of license

In the event that an application for a distributor's, producer's or broker's license shall be filed hereunder by an applicant formerly holding under this act any license which, prior to the time of filing such application, shall have been revoked for cause by said board, or in the event that said board shall determine that such application is not filed in good faith or not made by the real person in interest, then, and in any of said events, said board may refuse to issue a license to the applicant. Before such refusal, however, said board shall grant the applicant a hearing and shall give the applicant at least 10 days' written notice of the time and place thereof. Such notice may be served personally or by mail. If by mail, service shall be made in the manner prescribed by Section 1013 of the Code of Civil Procedure and addressed to the applicant at his address as the same appears in the records of said board.

Stats 1933, p 1636

SEC. 2. Section 5 of the act cited in the title hereof is hereby amended to read as follows:

Every distributor must take a physical inventory of the petroleum products on hand at least once each month as prescribed by said board and must have the record of such inventory and of the other matters mentioned in this section, available at all times for the inspection of said board or its representatives. If said board or its representatives are dissatisfied with the accuracy of said physical inventory, they are hereby authorized and empowered to take a physical inventory of the petroleum products. Upon demand of said board or its representatives every distributor must furnish a statement under oath reflecting the contents of any records to be kept under this section.

Monthly inventory

Producer's record

Every producer must keep a true and accurate record in such form as the State Board of Equalization may prescribe of all manufacture and distribution of any petroleum product or products used in, or which may be used in, the blending, compounding or manufacturing of motor vehicle fuel, and every broker must likewise keep a true and accurate record of all purchases of motor vehicle fuel and such petroleum products in such manner as to disclose the vendor, the quantity purchased, the correct description of the commodity and the means of transportation to said broker, as well as all of the sales of motor vehicle fuel and such petroleum products in such manner as to disclose the vendee, the quantity sold, the correct description of the commodity and the means of transportation from said broker to the vendee. All such records required by this section must be available at all times for the inspection of said board or its representatives. On or before the fifteenth day of each month, each producer and each broker shall file on forms prescribed by the board a report showing such information with respect to the operations of the preceding calendar month as the board may require to carry out the provisions hereof.

SEC. 3. Section 6 of the act cited in the title hereof is hereby amended to read as follows:

Distributor's monthly statement

Sec. 6. Each distributor shall on or before the fifteenth day of each and every month, file with the State Board of Equalization on forms prescribed by said board, a sworn statement showing the total number of gallons of motor vehicle

fuel produced, refined, manufactured or compounded by such distributor within this State and sold during the preceding calendar month, or monthly period ended during that calendar month as prescribed by said board, by such distributor within this State; the total number of gallons of motor vehicle fuel imported into this State by such distributor and sold or distributed within this State by such distributor during such month, or monthly period, when sold or distributed otherwise than in the original packages or containers in which imported into this State or used by such importer; also the number of gallons of such fuel acquired by him in the original package or container in which the same was imported into this State and thereafter sold, distributed or used by him; and such other information as the State Board of Equalization may require. If any distributor shall fail, neglect or refuse to file said report within the time prescribed by this section, the State Board of Equalization must note such failure, neglect, or refusal upon the tax roll hereinafter described, and must estimate the motor vehicle fuel distributions of said distributor, assessing the license tax thereon, adding to said license tax a penalty of 15 per cent thereof for failure, neglect or refusal to report, and said distributor shall be estopped from complaining of the amount of said estimate. Said penalty for failure to report shall not be in lieu of the penalty for delinquency prescribed by Section 4 of this act, but the penalty for delinquency shall not apply to or be charged against the penalty for failure to report. The State Board of Equalization shall on or before the twenty-second day of each calendar month assess the license tax due hereunder, and prepare and complete an assessment roll showing the amount of the license tax assessed against each distributor, and immediately deliver said assessment roll to the State Controller.

SEC. 7. Section 10 of the act cited in the title hereof is hereby amended to read as follows:

Exemptions

Sec. 10. In support of any exemption from license taxes claimed under this section on account of the exportation of motor vehicle fuel, every distributor must execute an export certificate in such form as shall be prescribed by the State Board of Equalization, containing a sworn statement, made by some

person having actual knowledge of the fact of such exportation, that the motor vehicle fuel has been exported from the State of California, and giving such details with reference to such shipment as said board may require. All export certificates must be completed and on file in the office of the State Board of Equalization within 60 days after the close of the calendar month in which the shipments to which they relate are made, and no certificate not completed and filed within such period shall be recognized for any purpose by the State of California or any agency thereof. The State Board of Equalization may demand of any distributor such additional data as are deemed necessary by said board in support of any such certificate, and failure to supply such data will constitute a waiver of all right to exemption claimed by virtue of such certificate.

Sales to United States

Any claim for exemption based on a sale to the United States Government or any department thereof may be made by the distributor at any time within six months from the date of sale by filing such claim in the office of the State Board of Equalization, but no claim made after the expiration of said period of six months shall be recognized for any purpose by the State or any agency thereof.

As this State is the source of petroleum products for other States, if such examination or investigation necessitates collaboration or conference with motor vehicle fuel tax officials of other States, at places either inside or outside this State, such collaboration or conference is hereby declared to be a necessary function in the administration of this act.

Changes in assessments to correct errors

If such examinations or investigations made by said board shall disclose that any reports of distributors of motor vehicle fuel theretofore filed with said board by said distributors pursuant to the requirements of this act, have shown incorrectly the amount of gallonage of motor vehicle fuel distributed or the tax accruing thereon, said board shall have the power, and is hereby authorized, to make such changes in subsequent assessments of said distributors under this act as it may deem necessary to correct the errors disclosed by its examination of the records of said distributors or its investigations as hereinbefore authorized.

The State Department of Social Welfare, with the approval of the Department of Finance, may secure armored car service and provide means to safeguard the money and assets in the revolving fund from losses. The State shall be responsible to the Federal Government for all stamps received by it from the Federal Government and not disposed of by the State for the purposes for which the Federal Government granted them.

Fund abolished Stats 1941, p 1462

SEC. 3. The revolving fund created by Section 2.5 of the California Unemployment Relief Act of 1935 is hereby abolished.

SEC. 4. The Controller, the State Department of Social Welfare and the Relief Administrator may make the necessary transfers upon their books to accomplish the purposes of this act in order to avoid the unnecessary sale of registered General Fund warrants.

Urgency

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and as such shall take effect immediately. The facts constituting such necessity are as follows:

The Federal Government has established plans for the distribution of food, goods, commodities and other forms of personal property to persons eligible for public assistance Unless the money appropriated therefor is made available immediately, it will not be possible for the State to continue the financing of the present Federal commodity distribution plans. This act, by taking effect immediately, will make money available for the continuance of complete, State-wide operations of the Federal plans, thereby reducing the causes of unrest throughout the State and removing the dangers to the public peace, health and safety.

CHAPTER 879

An act making an appropriation to the State Department of Social Welfare for administrative costs incurred by the department in connection with, and sponsorship contributions for, Federal public assistance programs, declaring the urgency thereof to take effect immediately.

In effect immediately [Approved by Governor July 1, 1941. Filed with Secretary of State July 1, 1941.]

The people of the State of California do enact as follows:

Appropriation WPA and CCC

Certification of persons eligible

SEC. 2. Any county may certify to the State Department of Social Welfare persons determined by the county to be eligible under Federal statutes and rules and regulations for public assistance under the Works Project Authority program and the Civilian Conservation Corps program of the Federal Government upon projects sponsored or supported in whole or in part by the State Department of Social Welfare and upon projects sponsored and supported entirely by the Federal Government.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and as such shall take effect immediately.

The facts constituting such necessity are as follows:

The Federal Government maintains and operates two programs of public assistance in connection with which this State by complying with the Federal requirements has been able to save large sums of money which otherwise would have had to have been expended for public assistance in this State. This act, by making an appropriation for the costs required to be borne by this State in connection with such Federal programs will thereby make available Federal public assistance for those residents of this State in need thereof without imposing too burdensome a load upon the public revenues of this State. Unless this act takes effect immediately such Federal programs of public assistance will not be available for the residents of this State and hardship and suffering will result and the public peace, health and safety will be endangered.

The partial payment of such claims shall not be considered as full payment and the claimants may file for the completion of payment of any unpaid balance as otherwise provided, and the Registrar may continue suspension or revocation of any license involved until such time as such claim or claims are satisfied in full. If the board shall by rule require the filing of such bond or the posting of such cash deposit by such applicant, the failure of such applicant to file the said required bond or post the said required deposit shall constitute grounds for denying him a license or the renewal of his license, and the failure of such applicant or contractor to file the required bond or post the required deposit, shall constitute grounds for denying or revoking his license.

Such bond or cash deposit shall remain in force and with the Registrar during the time for which such year's license is issued to such applicant or contractor, and during such additional time as there may be unsatisfied claims outstanding against the same.

CHAPTER 886

An act to amend Sections 3520 and 3712 of, and to add Section 3695.3 to, the Revenue and Taxation Code, relating to property taxation and tax-deeded property, including the assessment of property, declaring the urgency thereof, to take effect immediately. Stats. 1939, p. 1274, amended

[Approved by Governor June 28, 1941. Filed with Secretary of State July 1, 1941.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 3520 of the Revenue and Taxation Code is hereby amended to read as follows: Stats. 1941, p. 407

3520. As used in this section, "lien" includes any lien for: "Lien"

(a) Interest and penalties or both on taxes or special assessments or both.

(b) Amounts payable to cities or for their account on redemption of property from sale for taxes, special assessments, or other amounts

The deed conveys to the State the absolute title to the property, free of all encumbrances, except:

(1) Liens for taxes levied for municipal, irrigation, reclamation, protection, flood control, public utility or other district purposes, not included among those taxes and assessments for delinquency in the payment of which the property is conveyed to the State.

(2) Liens for special assessments collected on tax rolls.

(3) Liens or assessments for other amounts which by law are collected on tax rolls by or for account of cities.

(4) Easements constituting servitudes upon or burdens to the property; water rights, the record title to which is held separately from the title to the property; and restrictions of record.

Where the tax collector executes a single deed conveying property to the State for the delinquent taxes and assessments of the county and of revenue districts, the tax and assessment liens of such revenue districts are extinguished by the conveyance to the State and are not included in the exceptions

enumerated in subparagraphs (1), (2) and (3) of this section. Each such revenue district, however, shall retain an equitable lien in the property and there shall be paid by the county to each such district its pro rata share of the proceeds of any resale by the State, or redemption from the State, and such lien and right shall be terminated in the manner and at the time that the county's rights in the property are terminated.

When the land is owned by the United States or this State, the deed is prima facie evidence of the right of possession accrued as of the date of the deed without prejudice to the taxes or assessments which are a lien upon the property.

New section SEC. 3. Section 3695.3 is hereby added to the Revenue and Taxation Code, to read as follows:

"Assessments" 3695.3. As used in Section 3695, "assessments" does not include assessments which were, at the time of the sale to the State or to the taxing agency, not included in the amount required to redeem from the sale to the State or to the taxing agency.

Stats 1939, p 1338 SEC. 4. Section 3712 of the Revenue and Taxation Code is hereby amended to read as follows:

Title conveyed 3712. The deed conveys title to the purchaser free of all encumbrances of any kind existing before the sale, except:

(a) Any lien for installments of assessments, which installments will become due after the time of the sale;

(b) The lien for taxes or assessments or other rights of any taxing agency which does not consent to the sale under this chapter;

(c) Liens for special assessments levied upon the property conveyed which were, at the time of the sale under this chapter, not included in the amount necessary to redeem the property from the sale to the State, and, where a taxing agency which collects its own taxes has consented to the sale under this chapter, not included in the amount required to redeem from sale to such taxing agency;

(d) Easements constituting servitudes upon or burdens to the property; water rights, the record title to which is held separately from the title to the property; and restrictions of record.

Urgency SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore take effect immediately.

The facts constituting such necessity are as follows:

At the present time large amounts of property are tax-delinquent and are not bearing their share of the tax burden, thus placing a staggering burden upon those whose property

appears upon the tax rolls. One of the chief impediments to returning such delinquent property to the tax rolls is that great doubt exists as to the title obtained by the State on deed to the State of tax-delinquent property due to the uncertainty as to what encumbrances are extinguished by such deed. This act clearly expresses what encumbrances are extinguished upon the deed to the State of tax-delinquent property and the encumbrances such property is subject to on deed to private purchaser after sale by the State. Thus, it is imperative that this act go into effect immediately as it will enable large amounts of tax-delinquent property to be quickly returned to the tax rolls for the ensuing fiscal year.

CHAPTER 887

An act to add Section 37b to the Reclamation Board Act, relating to flood control and the advancement to the United States of funds to be used therefor, declaring the urgency of this act, to take effect immediately.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of this State, and as such shall take effect immediately. The following is a statement of the facts constituting such necessity:

Urgency

The high waters of the Winter of 1940-1941 caused great damage to the flood control works of the Sacramento and San

Joaquin River systems and necessitates the immediate prosecution of remedial and other construction in order to provide safety from devastating floods in the coming rainy season. It is necessary that this work be done during the current construction season. This act provides for the financing of such work in cooperation with the Federal Government and it is necessary that its provisions take immediate effect in order that the contemplated work may be commenced at once.

The following is a statement of facts constituting such necessity:

Due to the widespread depression, out of which we are just beginning to emerge, many taxpayers have been unable to pay their taxes, or to redeem their property from sale to the State for delinquency. By permitting redemption without penalties, many taxpayers will be able to redeem their property, restore the same to the tax rolls and thereby add needed revenue for the operation and maintenance of government.

Exceptions

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. Urgency

The facts constituting the necessity are as follows: There exists in the State of California at the present time an emergency due to existing economic conditions, which economic conditions have resulted in a great increase in population in California, and in attendance upon schools, the housing and facilities of which have not, due to depression conditions in recent years, been expanded sufficiently to meet present demands. The increase in direct taxes due to National defense and other necessary measures have made it necessary for districts to resort to bond issues in order to obtain necessary funds for new buildings, for alterations and additions to and rebuilding of existing buildings, for the purchase of furniture and necessary apparatus of a permanent nature, and making other improvements This act constitutes a means whereby issuance and sale of such bonds may be facilitated.

Stats. 1931, p. 587, amended

[Approved by Governor June 28, 1941. Filed with Secretary of State July 1, 1941.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Chapter 3, comprising Sections 259, 259.1 and 259.2, is hereby added to Division 2 of the Probate Code, to read as follows:

New chapter

CHAPTER 3. INHERITANCE RIGHTS OF ALIENS

259. The rights of aliens not residing within the United States or its territories to take either real or personal property or the proceeds thereof in this State by succession or testamentary disposition, upon the same terms and conditions as residents and citizens of the United States is dependent in each case upon the existence of a reciprocal right upon the part of citizens of the United States to take real and personal property and the proceeds thereof upon the same terms and conditions as residents and citizens of the respective countries of which such aliens are inhabitants and citizens and upon the rights of citizens of the United States to receive by payment to them within the United States or its territories money originating from the estates of persons dying within such foreign countries.

Right of aliens to inherit, etc

259.1. The burden shall be upon such nonresident aliens to establish the fact of existence of the reciprocal rights set forth in Section 259.

Burden of proof

259.2. If such reciprocal rights are not found to exist and if no heirs other than such aliens are found eligible to take such property, the property shall be disposed of as escheated property.

When property escheats

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

A great number of foreign nations are either at war, preparing for war or under the control and domination of conquering nations with the result that money and property left to citizens of California is impounded in such foreign countries or taken by confiscatory taxes for war uses. Likewise money and property left to friends and relatives in such foreign countries by persons dying in California is often never received by such nonresident aliens but is seized by these foreign governments and used for war purposes. Because the foreign governments guilty of these practices constitute a direct threat to the Government of the United States, it is immediately necessary that the property and money of citizens dying in this country should remain in this country and not be sent to such foreign countries to be used for the purposes of waging a war that eventually may be directed against the Government of the United States.

An act concerning the ascertainment of principal and income and the apportionment of receipts and expenses among tenants and remaindermen.

Definitions

SECTION 1. "Principal" as used in this act means any realty or personalty which has been so set aside or limited by the owner thereof or a person thereto legally empowered that it and any substitutions for it are eventually to be conveyed, delivered or paid to a person, while the return therefrom or use thereof or any part of such return or use is in the meantime to be taken or received by or held for accumulation for the same or another person;

"Income" as used in this act means the return derived from principal;

"Tenant" as used in this act means the person to whom income is presently or currently payable, or for whom it is accumulated or who is entitled to the beneficial use of the principal presently and for a time prior to its distribution;

"Remainderman" as used in this act means the person ultimately entitled to the principal, whether named or designated by the terms of the transaction by which the principal was established or determined by operation of law;

"Trustee" as used in this act includes the original trustee of any trust to which the principal may be subject and also any succeeding or added trustee.

Scope of act

SEC. 2. This act shall govern the ascertainment of income and principal, and the apportionment of receipts and expenses between tenants and remaindermen, in all cases where a principal has been established with or, unless otherwise stated hereinafter, without the interposition of a trust; except that in the establishment of the principal provision may be made touching all matters covered by this act, and the person establishing the principal may himself direct the manner of ascertainment of income and principal and the apportionment of receipts and expenses or grant discretion to the trustee or other person to do so, and such provision and direction, where not otherwise contrary to law, shall control notwithstanding this act. The exercise by the trustee or other designated person, of such discretionary power if in good faith and according to his best judgment, shall be conclusive, irrespective of whether it may be in accordance with the determination which the court having jurisdiction would have made.

Income

SEC. 3. (1) All receipts of money or other property paid or delivered as rent of realty or hire of personalty, or interest on money loaned, or interest on or the rental or use value of

property wrongfully withheld or tortiously damaged, or otherwise in return for the use of principal, shall be deemed income unless otherwise expressly provided in this act. Dividends on corporate shares, payable in stock or otherwise, shall be deemed income except as provided in Section 5.

Principal

(2) All receipts of money or other property paid or delivered as the consideration for the sale or other transfer, not a leasing or letting, of property forming a part of the principal, or as a repayment of loans, or in liquidation of the assets of a corporation, or as the proceeds of property taken on eminent domain proceedings where separate awards to tenant and remainderman are not made, or as proceeds of insurance upon property forming a part of the principal except where such insurance has been issued for the benefit of either tenant or remainderman alone, or otherwise as a refund or replacement or change in form of principal, shall be deemed principal unless otherwise expressly provided in this act. Any profit or loss resulting upon any change in form of principal shall inure to or fall upon principal, except in the case of property referred to and defined by Section 11A, in which case the provisions of Section 11A shall govern.

Disposition

(3) All income after payment of expenses properly chargeable to it shall be paid and delivered to the tenant or retained by him if already in his possession or held for accumulation where legally so directed by the terms of the transaction by which the principal was established; while the principal shall be held for ultimate distribution as determined by the terms of the transaction by which it was established or by law, except in the case of property referred to and defined by Section 11A, in which case the provisions of Section 11A shall govern.

Death of tenant

SEC. 4. Whenever a tenant's right to income shall cease by death, or in any other manner, all payments theretofore actually paid to the tenant or in the hands of the trustee for payment to the tenant shall belong to the tenant or to his personal representative; all income actually received by the trustee after such termination shall be paid to the person next entitled to income by the terms of the transaction by which the principal was established.

Dividends

SEC. 5. (1) All dividends on shares of a corporation forming a part of the principal which are payable in shares of the corporation of the same kind and rank as the stock on which such dividend is paid, and dividends payable in shares of whatever kind or rank, to the extent that they represent a capitalization of surplus not derived from earnings, shall be deemed principal. Subject to the provisions of this section, all dividends payable otherwise than in such shares, including ordinary and extraordinary dividends and dividends payable in shares or other securities or obligations of corporations other than the declaring corporation, shall be deemed income. Where the trustee shall have the option of receiving a dividend either in cash or in the shares of the declaring corporation, it shall be

considered as a cash dividend and deemed income, irrespective of the choice made by the trustee.

Subscription rights

(2) All rights to subscribe to the shares or other securities or obligations of a corporation accruing on account of the ownership of shares or other securities in such corporation, and the proceeds of any sale of such rights, shall be deemed principal. All rights to subscribe to the shares or other securities or obligations of a corporation accruing on account of the ownership of shares or other securities in another corporation, and the proceeds of any sale of such rights shall be deemed income.

Liquidation of corporation

(3) Where the assets of a corporation are liquidated, amounts paid upon corporate shares as cash dividends declared before such liquidation occurred or as arrears of preferred or guaranteed dividends shall be deemed income; all other amounts paid upon corporate shares on disbursement of the corporate assets to the stockholders shall be deemed principal. All disbursements of corporate assets to the stockholders, whenever made, which are designated by the corporation as a return of capital or division of corporate property shall be deemed principal.

Merger, etc

(4) Where a corporation succeeds another by merger, consolidation or reorganization or otherwise acquires its assets, and the corporate shares of the succeeding corporation are issued to the shareholders of the original corporation in like proportion to, or in substitution for, their shares of the original corporation, the two corporations shall be considered a single corporation in applying the provisions of this section. But two corporations shall not be considered a single corporation under this section merely because one owns corporate shares of or otherwise controls or directs the other.

Date of dividend

(5) In applying this section the date when a dividend accrues to the person who is entitled to it shall be held to be the date specified by the corporation as the one on which the stockholders entitled thereto are determined, or in default thereof the date of declaration of the dividend.

Reliance upon statements

(6) The trustee or tenant may rely upon the statement of the paying corporation as to whether dividends are paid from profits or earnings or are a return of capital or division of corporate property, and as to any other fact, relevant under any provision of this act, concerning the source or character of dividends or disbursements of corporate assets

Bonds

SEC. 6. Where any part of the principal consists of bonds or other obligations for the payment of money, they shall be deemed principal at their inventory value as fixed by the appraiser or appraisers regularly appointed by the court, or, in default thereof, at their market value at the time the principal was established, or at their cost where purchased later, regardless of their par or maturity value; and upon their respective maturities or upon their sale or other disposition any loss or gain realized thereon shall fall upon or inure to the principal, except in the case of property referred to and

defined by Section 11A, in which case the provisions of Section 11A shall govern. Where any part of the principal consists of a bond or other obligation for the payment of money, bearing no stated interest but redeemable at maturity or a future time at an amount in excess of the amount in consideration of which it was issued, such accretion, as when realized, shall inure to income.

Carrying on business

SEC. 7. (1) Whenever a trustee or a tenant is authorized by the terms of the transaction by which the principal was established or by law, to use any part of the principal in the continuance of a business which the original owner of the property comprising the principal had been carrying on, the net profits of such business attributable to such principal shall be deemed income.

(2) Where such business consists of buying and selling property, the net profits for any period shall be ascertained by deducting from the gross returns during and the inventory value of the property at the end of such period, the expenses during and the inventory value of the property at the beginning of such period.

(3) Where such business does not consist of buying and selling property, the net income shall be computed in accordance with the customary practice of such business, but not in such way as to decrease the principal.

(4) Any increase in the value of the principal used in such business shall be deemed principal, and all losses in any one calendar year, after the income from such business for that year has been exhausted, shall fall upon principal.

Animals employed in business

SEC. 8. Where any part of the principal consists of animals employed in business, the provisions of Section 7 shall apply; and in other cases where the animals are held as a part of the principal partly or wholly because of the offspring or increase which they are expected to produce, all offspring or increase shall be deemed principal to the extent necessary to maintain the original number of such animals and the remainder shall be deemed income; and in all other cases such offspring or increase shall be deemed income.

Natural products

SEC. 9. (1) Where any part of the principal consists of property in lands from which may be taken timber, minerals, oils, gas or other natural resources, and the trustee or tenant in possession is not under a duty to change the form of the investment of the principal, or (the duty to change the form of the investment being absent) is authorized by law or by the terms of the transaction by which the principal was established, to lease or otherwise develop such natural resources, and no provision is made for the disposition of the net proceeds thereof after the payment of expenses and carrying charges on such property, such proceeds shall be deemed income, whether received as rent or bonus on a lease or as a consideration, by way of royalties or otherwise for the permanent severance of such natural resources from the lands A duty to change the form of the investment shall be negatived, and authority to

develop such natural resources shall be deemed to exist (not excluding other cases where appropriate intent is manifested) where (a) the resources or the right to exploit them is specifically devised or granted, or (b) where development or exploitation of the resources had begun prior to the transaction by which the principal was established, or (c) where by the terms of that transaction a general authority to lease or otherwise develop is conferred, or (d) where the lands are directed to be retained. The fact that such property, where held in trust and received from the testator or settlor, does not fall within the category of investments which the trustee would be authorized to make under the law or the terms of the particular trust, nor the conferring of a mere authority, as distinguished from a direction, to sell such property, shall not be deemed to evidence an intent that the form of the investment shall be changed.

(2) Where any part of the principal consists of property in lands containing such natural resources, and the conditions under which the proceeds thereof become income shall not exist, then in the absence of the expression of contrary intent in the terms of the transaction by which the principal was established, all such proceeds from such resources, not in excess of 5 per centum per annum of the inventory value of such resources as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof their fair market value at the time the principal was established, or their cost if acquired later, shall be deemed income and the remainder principal.

(3) Nothing in this section shall be construed to abrogate or extend any right which may otherwise have accrued by law to a tenant to develop or work such natural resources for his own benefit.

Leaseholds, patents, etc

SEC. 10. Where any part of the principal consists of property subject to depletion, such as leaseholds, patents, copyrights and royalty rights, and the trustee or tenant in possession is not under a duty to change the form of the investment of the principal, the full amount of rents, royalties or income from the property shall be income to the tenant; but where the trustee or tenant is under a duty to change the form of the investment, either at once or as soon as a reasonable price, not representing an undue sacrifice of value, may be obtained, then the rents, royalties or income from such property not in excess of 5 per centum per annum of its inventory value as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof its market value at the time the principal was established, or at its cost where purchased later, shall be deemed income and the remainder principal.

Delayed income

SEC. 11. (1) Where any part of a principal in the possession of a trustee consists of realty or personalty which for more than a year and until disposed of as hereinafter stated has not produced an average net income of at least 1 per centum per

annum of its inventory value as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof its market value at the time the principal was established or of its cost where purchased or otherwise acquired later, and the trustee is under a duty to change the form of the investment as soon as a reasonable price, not representing an undue sacrifice of value, may be obtained and such change is delayed, but is made before the principal is finally distributed, then the tenant shall be entitled to share in the net proceeds received from the property as delayed income to the extent hereinafter stated.

(2) Such income shall be the difference between the net proceeds received from the property and the amount which, had it been placed at simple interest at the rate of 5 per centum per annum for the period during which the change was delayed, would have produced the net proceeds at the time of change, but in no event shall such income be more than the amount by which the net proceeds exceed the inventory value of the property as fixed by the appraiser or appraisers regularly appointed by the court, or in default thereof its market value at the time the principal was established or its cost where purchased later. The net proceeds shall consist of the gross proceeds received from the property less any expenses incurred in disposing of it and less all carrying charges which have been paid out of principal during the period while it has been unproductive.

(3) The change shall be taken to have been delayed from the time when the duty to make it first arose, which shall be presumed in the absence of evidence to the contrary, to be one year after the trustee first received the property if then unproductive, otherwise one year after it became unproductive.

(4) If the tenant has received any income from the property or has had any beneficial use thereof during the period while the change has been delayed, his share of the delayed income shall be reduced by the amount of such income received or the value of the use had.

(5) As between successive tenants, or a tenant and a remainderman, delayed income shall be apportioned in the same manner as provided for income by Section 4 of this act.

Mortgages, etc

SEC. 11A. (1) Where any part of the principal in possession of the trustee consists of an obligation for the payment of money secured by a mortgage or other hypothecation of real or personal property, and by reason of the enforcement of such obligation or by agreement in lieu of enforcement the trustee acquires any property, real or personal, of whatsoever kind, including a money judgment, said property shall be treated as a single substituted asset, and thereafter all income therefrom, expenses incident thereto and proceeds received upon sale, satisfaction or transfer thereof, not a leasing or letting, excepting gain or profit on such sale, satisfaction or transfer, shall be apportioned in the same manner as provided

by this act for property of like character acquired by purchase or held as a part of the trust estate at the time the principal was established.

Gain or profit realized on sale, satisfaction or transfer, not a leasing or a letting, of property referred to in this section shall be credited to the income in an amount up to but not exceeding the accrued unpaid interest on the original obligation secured by said property as of the date of its acquisition by enforcement of the obligation or agreement in lieu thereof and the balance shall be credited to principal. Said credit to income on account of accrued interest shall be in addition to any and all other credits due income by the terms of any other section of this act. Should any portion of said credit to income on account of accrued interest be in a form other than cash, then and in that event the full amount of such credit to income shall be paid first out of any sums received from the conversion of said asset into cash whether by payment, sale or transfer before any sums so received shall be paid to principal.

As between successive tenants or a tenant and a remainderman, all sums paid hereunder on account of accrued interest shall be apportioned in the same manner as provided for income by Section 4 of this act.

Cost price

The cost price of the property to the trust shall be the unpaid balance of the principal sum of the debt secured by said property, plus all sums whenever paid on any of the following items:

1. All costs, charges and expenses incident to the acquisition of said property;

2. All taxes, bonds and assessments, or any of them, which were payable at the date of the acquisition of said property by trustee, excepting, however, interest accruing thereon from the date of the acquisition of said property by trustee; and all said sums shall be a charge against principal.

(2) Upon the sale, surrender or other disposition of a bond, debenture, note or other evidence of an indebtedness, voluntarily created, or of a certificate of deposit evidencing the deposit of any such instrument with a protective or reorganization committee, or of stock or other security received through participation in the enforcement of such obligation or the foreclosure of the security therefor, upon which bond or other obligation there is overdue unpaid interest which accrued during the existence of the trust, the proceeds realized upon such sale, surrender or other disposition, after repayment (1) of expenses incurred in connection therewith and (2) of any sums paid to protect or preserve such security, shall be divided pro rata between income and principal, computing interest at the rate specified in such obligation. The amount allocable to income shall in no case exceed the interest accrued and unpaid on the original obligation up to the time of such sale or other disposition or, where another security has been received in lieu of the original obligation, the income which would have

accrued on the latter up to such time, less income received from the original or the substituted security. The terms sale, surrender or other disposition, as above used, shall include compromise, settlement, accord and satisfaction, and similar arrangements.

Expenses

SEC. 12. (1) All ordinary expenses incurred in connection with the trust estate or with its administration and management, including regularly recurring taxes assessed against any portion of the principal, water rates, premiums on insurance taken upon the estates of both tenant and remainderman, interest on mortgages on the principal, ordinary repairs, compensation of assistants and court costs on regular accountings, except attorneys' fees and trustees' compensation, shall be paid out of income. But such expenses where incurred in disposing of, or as carrying charges on, unproductive estate as defined in Section 11, shall be paid out of principal, subject to the provisions of Subsection (2) of Section 11. Attorneys' fees for ordinary or current services and trustees' compensation for both ordinary and extraordinary services, exclusive of compensation for acceptance or distribution, shall be paid one-half out of income, one-half out of principal, or in such other proportion as the court may direct; except that in the case of testamentary trusts where on any current trustees' accounting there are found to be insufficient principal moneys available for the payment of trustees' compensation, the court may direct that for such period the whole or any part of such compensation shall be paid out of any income available, subject to such conditions, if any, relative to reimbursement out of principal as the court may direct.

(2) The trustees' compensation upon or for acceptance or distribution of principal, attorneys' fees and other costs incurred in maintaining or defending any action to protect the trust or the property or assure the title thereof, unless due to the fault or cause of the tenant, costs of, or assessments for, improvements to property forming part of the principal, brokers' commissions, title charges and other costs (exclusive of trustees' compensation, if any) incurred in connection with purchasing, selling or leasing trust property, or investing or reinvesting principal, and all other expenses, except as specified in Subsection (1) of this section, shall be paid out of principal. Any tax levied by any authority, Federal, State or foreign, upon profit or gain defined under the terms of Subsection (2) of Section 3 shall be paid out of principal, notwithstanding said tax may be denominated a tax upon income by the taxing authority.

(3) The trustee may allocate expenses which are payable out of income throughout an entire year or part thereof, or throughout a series of years. Unless the trustee shall make such allocation over a period of time in accordance with the foregoing provisions, the expenses shall be considered to have accrued as of the date when they shall become due and payable. In cases where such allocation of expenses shall be

made over a period of time, and where the right of the tenant ends during the period, the expenses shall be apportioned between tenant and remainderman on the basis of such allocation.

Short title SEC. 13. This act may be cited as the Principal and Income Act.

Repeals SEC. 14. All acts or parts of acts which are inconsistent with the provisions of this act are hereby repealed; provided,
Effect of act however, that nothing in this act shall affect the provisions of The Personal Income Tax Act, the Bank and Corporation Franchise Tax Act, and The Corporation Income Tax Act.

Application SEC. 15. This act shall apply to all transactions by which a principal shall be established which become legally effective on or after the effective date of this act. It shall also apply to all revocable trusts existing on and prior to that date and to all other trusts to the extent to which they may be at that or any later time amendable by the settlor in respect to matters covered by this act; but provisions of such trusts inconsistent with the provisions of this act shall govern to the extent provided in Section 2.

CHAPTER 899

Stats 1935, p. 61, amended *An act relating to State School lands, declaring the rights of holders of certificates of purchase affected by "An act relating to and providing for a moratorium with respect to forfeitures of State school lands as provided for in Section 3513 of the Political Code, to take effect immediately," approved January 31, 1935 (Chapter 8, Statutes of 1935), repealing Section 2 of said act, providing for the protection from forfeiture of the interests of persons having a conveyance of all or part of the lands described in certificates of purchase, declaring the urgency of this act, and providing that this act shall take effect immediately.*

In effect immediately [Approved by Governor June 28, 1941. Filed with Secretary of State July 1, 1941.]

The people of the State of California do enact as follows:

Rights of State barred SECTION 1. In any case where the holder of a certificate of purchase of State school lands affected by the moratorium
Stats 1935, p. 61 declared by Chapter 8 of the Statutes of 1935, was not entitled to claim the benefit of said moratorium because of the provisions of Section 2 of said chapter, and if notice of the forfeiture of any such certificate of purchase has not heretofore been entered upon the records of the State Lands Commission and notice thereof forwarded to the recorder of the county in which the lands are situated, pursuant to Section 3513 of the Political Code, any right which the State had or may have to the forfeiture of said certificate of purchase or the rights of

the holder thereof or to declare any such certificate void because of the provisions of said Section 2 of Chapter 8 of the Statutes of 1935, is hereby forever barred. All such certificates of purchase and patents issued under any such certificates are hereby declared to have the same validity, force and effect as if said Section 2 of Chapter 8 of the Statutes of 1935 had not been enacted.

Stats 1935, p 62

SEC. 2. Section 2 of an act entitled "An act relating to and providing for a moratorium with respect to forfeiture of State school lands as provided for in Section 3513 of the Political Code, and declaring the urgency thereof, to take effect immediately, approved January 31, 1935" (Chapter 8 of the Statutes of 1935), is hereby repealed.

Protection from forfeiture

SEC. 3. Any person having a conveyance of the whole or any portion of the lands described in any certificate of purchase, but to whom the certificate has never been surrendered, may protect his lands from forfeiture by paying such proportion of the interest delinquent upon all the lands in such certificate described as the acreage claimed by him bears to the aggregate acreage embraced in such certificate. He shall first, however, file with the State Lands Commission satisfactory evidence of his possessory right to such land. Upon such payment being made within the time prescribed by law such land shall be, and hereby is, excepted from the forfeiture prescribed by law. Said certificate of purchase shall become null and void only as to the remaining lands therein described. Should due compliance be made with all other provisions of law governing the issuance of patents, a patent shall issue in the name of the original purchaser of such excepted land, but shall be delivered to the person by whom such payment was made, and the title thereby granted shall inure to the benefit of such person, his heirs or assigns.

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and as such shall take effect immediately. A statement of the facts constituting such necessity is as follows:

Persons who have a conveyance of the whole or any portion of lands described in any certificate of purchase who desire to protect their lands from forfeiture have only a short time within which to act under the existing provisions of law providing for a moratorium on forfeitures and prescribing procedure for payment of delinquent interest. Unless this act takes effect immediately it will not become operative until a day subsequent to the last date for action to protect such lands from forfeiture which would result in hardship and suffering and would remove lands from the tax rolls. It is therefore necessary that this act take effect immediately in order that its provisions will be effective to accomplish the desired purpose.

Constitutionality

CHAPTER 902

An act to add Sections 2.170-1 and 4.720-1 to the School Code, relating to the public school system and elementary school districts, declaring the urgency thereof, and providing that this act shall take effect immediately.

The people of the State of California do enact as follows:

New section SECTION 1. Section 2.170-1 is hereby added to the School Code, to read as follows:

Average daily attendance Elementary 2.170-1. The average daily attendance of pupils residing in an elementary school district and attending the seventh and eighth grades of a junior high school, and credited to the elementary school district, constitutes average daily attendance in the elementary school district for all the purposes of this article.

SEC. 2. Section 4.720-1 is hereby added to the School Code, to read as follows:

Maintenance of chool 4.720-1. An elementary school district which during any school year provides for the education of pupils residing within the district under the provisions of this code, for not less than 170 days shall be deemed to have maintained school for not less than 170 days of actual teaching during such school year.

Urgency SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of California and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Certain elementary school districts are providing for the education of the pupils residing in such elementary school districts by other elementary school districts and high school districts in the manner provided for by certain provisions of the School Code. However, because of other provisions of the School Code, this following procedure results in the suspension or lapsing of the elementary school districts providing for the education of the pupils residing in the districts in such manner and the witholding of apportionments of State funds to such districts. In order that these results may not obtain, it is necessary that this act go into immediate effect.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution. A statement of the facts constituting such urgency is as follows:

The Government of the United States of America has in recent months made funds available to the public schools for the training of workers in industries essential to National defense. These funds and the programs of training for which they are made available are administered through the State educational authorities. It is expected that additional funds will be made available in the near future by the Government of the United States of America under similar conditions, for the same and similar purposes. In order to adequately provide for the efficient administration of such funds and programs it is necessary that this act take effect immediately.

CHAPTER 905

Stats 1921, p 1306, amended

An act to amend Section 11 of an act entitled "An act to restrict the running of dogs at large; to protect live stock from depredations of dogs; to provide for the issuance of dog license tags by counties, and the disposition of funds received as fees therefor; making the violation of the provisions of this act a misdemeanor and providing penalties therefor, and providing for the collection of damages by owners of live stock injured by dogs," approved June 3, 1921, relating to the enforcement of this act and the payment of fees, salaries, costs, and expenses therefor from live stock indemnity funds, declaring the urgency thereof and providing that this act shall take effect immediately.

In effect immediately

[Approved by Governor June 28, 1941. Filed with Secretary of State July 1, 1941.]

The people of the State of California do enact as follows:

Stats 1939, p 2823

SECTION 1. Section 11 of the act cited in the title hereof is hereby amended to read as follows:

Live stock indemnity fund

Sec. 11. All fees for the issuance of dog license tags and all fines collected under the provisions of this act, shall be paid into the county treasury and shall constitute a fund to be known as the "live stock indemnity fund," which shall be used: First, to pay fees for the issuance of dog license tags; second, notwithstanding any other provision of this act or of any other law, to pay fees, salaries, costs, expenses, or any or

all of them (which the board of supervisors is hereby authorized to do) for the enforcement of this act and all ordinances made pursuant to this act; third, to pay damages to owners of live stock killed by dogs; provided, that each such claim shall be verified by the affidavits of two disinterested witnesses who shall fix the value of such live stock, such affidavits to be executed within four days after the finding of the carcasses of each animal and to establish the fact beyond reasonable doubt that such animal was killed by a dog or dogs. Such claims shall be paid from the fund herein provided in the same manner as other claims against the county are paid.

Urgency

SEC. 2. Any action heretofore taken by any county, its board of supervisors, or any county officers which action would hereafter be in conformity with the terms of Section 11 of the act cited in the title hereof is hereby validated.

SEC 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall therefore take effect immediately. A statement of the facts constituting such necessity is as follows:

Doubt has been thrown upon the ability of counties to provide for the compensation by salary of persons engaged in carrying out the provisions of the act cited in the title hereof.

It is immediately necessary for the public safety that counties be enabled to carry out the provisions of the act cited in the title hereof as extensively as possible and in order to do so that counties be able to compensate the persons engaged in enforcing the provisions of the act cited in the title hereof by salary rather than by occasional fees.

CHAPTER 906

CHAPTER 910

Stats 1931, p 2263, amended

An act to add Section 12b to the California Districts Securities Commission Act, relating to notice and hearing of certain proceedings before the California District Securities Commission and relating to the change, modification or amendment of refunding plans and of the terms and conditions of refunding bonds of irrigation districts, to take effect immediately.

In effect immediately

[Approved by Governor June 28, 1941. Filed with Secretary of State July 1, 1941.]

The people of the State of California do enact as follows:

New section

SECTION 1. Section 12b is hereby added to the act cited in the title hereof, to read as follows:

Application to exchange securities

Sec. 12b. Pursuant to this act the commission has been and is authorized in the instance of any application for the issuance of securities in exchange for one or more bona fide outstanding securities, claims or property interests, or partly in such exchange and partly for cash, to approve the terms and conditions of such issuance and exchange and the fairness of such terms and conditions after a hearing upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange shall have the right to appear.

Approval of modification of refunding plan

Pursuant to law the commission has been, and is, authorized to approve the terms and conditions of any modification, alteration or amendment of any refunding plan of any irrigation district or of the terms and conditions of the refunding bonds issued thereunder and the fairness of all such terms and conditions, after a hearing upon the fairness of such terms and conditions at which all persons interested, including all persons owning or holding any refunding bonds issued under such refunding plan or plans shall have the right to appear. The commission has been, and is hereby, authorized to fix and determine the time and manner of giving notice and the place of hearing.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately. The facts constituting such urgency are as follows: Urgency

That existing economic conditions in general, and in particular with respect to the market for agricultural products, have created and there now exist conditions requiring immediate relief. That an acute condition of unemployment exists and irrigation districts because of such economic conditions have been unable to meet their bonded indebtedness as the same has matured and is maturing and the normal and necessary operations and improvements within such districts have been curtailed. Many districts have arranged with their creditors whereby funds may be obtained to carry on needed public works which are necessary for the protection of the health and safety of inhabitants within the district and which works must be commenced immediately to be effective, and can not be delayed without serious injury to public health and safety. That among such needed work is the matter of drainage. That legislation has heretofore been enacted authorizing such districts to enter into arrangements and compositions with their creditors and to amend and modify refunding plans and the terms and conditions of refunding bonds issued thereunder in order to make available funds for such needed work and to protect and preserve the public health and safety. That such legislation expressly contemplated that action would be taken only after due notice and hearing in accordance with the usual and customary procedure of the California Districts Securities Commission whose meetings are at all times open to the public, but it has been contended that the statute under which such commission operates does not, in so many words, state that the action of the commission with respect to the modification and amendment of plans and the issuance and exchange of securities shall be upon notice after a hearing upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities, or who by reason of their ownership of bonds are interested in such modifications or amendments, shall have the right to appear. While such claims are without foundation as all such persons have had the right to appear at all meetings of the California Districts Securities Commission, nevertheless in order to set at rest such contentions and thereby make possible the immediate carrying out of such modifications and changes in refunding plans and the terms and conditions of refunding bonds and thereby permit such districts affected thereby to obtain moneys for immediate needs, it is necessary that this act go into effect immediately whereby districts will be able to obtain funds for the preservation of the public health, peace and safety.

Stats 1937, p. 1156

SECTION 1. Section 6655 of the Welfare and Institutions Code is hereby amended to read as follows:

Payment by guardian of estate

6655. If any person committed to a State mental hospital has sufficient estate for the purpose, the guardian of his estate shall pay for his care, support, maintenance, and necessary expenses at the mental hospital to the extent of the estate. Such payment may be enforced by the order of the judge of the superior court where the guardianship proceedings are pending. On the filing of a petition therein by the secretary of the department, showing that the guardian has failed, refused, or neglected to pay for such care, support, maintenance, and expenses, the court, by order, shall direct the payment by the guardian. Such order may be enforced in the same manner as are other orders of the court.

Sale of property

If at any time there is not sufficient money on hand in the estate of a committed person to pay the claim of a State mental hospital for his care, support, maintenance, and expenses therein, the court may, on petition of the guardian of the estate, or if the guardian fails, refuses, or neglects to apply, on the petition of the secretary of the department, make an order directing the guardian to sell so much of the other personal or real property or both, of the person as is necessary to pay for the care, support, maintenance, and expenses of the person at the mental hospital. From the proceeds of such sale, the guardian shall pay the amount due for the care, support, maintenance, and expenses at the mental hospital, and also such other charges as are allowed by law.

When payment not exacted

Payment for the care, support, maintenance, and expenses of a person at a State hospital shall not be exacted, however, if there is likelihood of the patient's recovery or release from the hospital and payment will reduce his estate to such an extent that he is likely to become a burden on the community in the event of his discharge from the hospital. If a certificate from the medical superintendent of the State hospital in

which the person is confined as a patient is filed in the office of the county clerk with the papers in the guardianship proceedings of the patient, in which certificate the medical superintendent states that the patient is suffering from a chronic form of insanity, and that in his opinion a recovery is beyond reasonable hope and that the patient will in all probability continue to be a charge in a State hospital until death, such certificate shall be prima facie evidence that the patient is not likely to recover or to be released from the hospital, and the guardian shall pay the amount due for his care, support, maintenance, and expenses at the hospital and such other charges as are allowed by law out of any moneys of the estate in his possession.

6660. If any incompetent person, who has no guardian and who has been committed to the Department of Institutions for placement in any designated State hospital or State home for the feeble-minded is the owner of any property, the Department of Institutions, acting through its secretary or other designated officer, may apply to a court of competent jurisdiction for its appointment as guardian of the estate of such incompetent person.

In effect immediately

[Approved by Governor July 2, 1941. Filed with Secretary of State July 3, 1941.]

The people of the State of California do enact as follows:

Charter cities, etc., acting by ordinance

SECTION 1. Whenever any city, city and county, or county organized or governed under the provisions of any charter or amendments thereof, adopted pursuant to the provisions of the Constitution of the State of California is required by the terms of such charter to take legislative action by ordinance, such city, city and county or county may avail itself of any general law of the State of California and of the rights, powers and privileges granted or conferred by such general law, by passing or adopting, in accordance with its charter requirements, an ordinance in lieu of and as a substitution for any resolution required by the terms of such general law, and whenever in any act of the Legislature of the State of California any such city, city and county or county is required to act by resolution, such action for the purposes of such general law shall be deemed to have been duly and legally taken if taken by ordinance passed and adopted in accordance with its charter requirements.

SEC. 2. This act shall be liberally construed to effect its purpose. It is the intent of the Legislature to permit by this act any city, city and county or county organized or governed by any freeholders' charter to follow the procedure prescribed in its charter for the adoption of ordinances or to follow the procedure prescribed in any general law by the adoption of a resolution or resolutions. Construction

SEC. 3. This act is hereby declared to be an urgency measure within the meaning of Section 1, Article IV of the Constitution of the State of California, and it is deemed necessary for the immediate preservation of the public peace, health and safety that this law shall go into effect, and therefore this act shall become effective immediately. Many essential projects necessary for the public peace, health and safety of the people of the State of California have been instituted by cities, cities and counties and counties organized or governed under charters adopted pursuant to the Constitution of the State of California Many general laws of the State of California require legislative action to be taken by resolution. Many freeholders' charters require that all legislative action be taken by ordinance. Many essential projects are now being delayed and impeded and obstructed by litigation due to the uncertainty of action heretofore taken by ordinance under such general laws providing that such action shall be taken by resolution. Unless these projects can be instituted immediately and completed many persons will be without homes, without adequate water supply or sanitary sewage disposal systems or adequate fire protection, to the great detriment of the peace of the State of California and the health and safety of its inhabitants.

CHAPTER 931

An act to add Section 30.1 to the Public Utility District Act, relating to the powers of public utility districts, empowering them to make contracts for the joint acquisition, construction, maintenance, or use of sewers and sewage works, plants, and disposal facilities and to make leases or contracts for the use of sewers, sewage works, plants, and disposal facilities constructed by public utility districts, to take effect immediately. Stats 1921, p 906, amended

[Approved by Governor July 2, 1941 Filed with Secretary of State July 3, 1941] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 30.1 is hereby added to the act cited in the title hereof, to read as follows: New section

Sec. 30.1. Any public utility district incorporated under this act shall have power to contract with any county, city Contracts for joint use, etc., of works

and county, municipal corporation, district or other public corporation or with any person, firm or corporation for the joint acquisition or construction or use of any sewer or sewers or other works or facilities for the handling, treatment or disposal of sewage from the public utility district and such other area as may be designated in said contract, when in the judgment of the board of directors of said public utility district it is for the best interests of the district so to do. Any such contract may provide for the construction and maintenance of such sewer or sewers, or such other works or facilities, and for the payment by or for the parties thereto of such proportionate part of the cost of the acquisition, construction or maintenance of such sewer or sewers or other works or facilities as may be stated in said contract, the payments to be made at such times and in such amounts as may be provided by said contract. Any such contract may provide for the joint use of any sewer or sewers, works or facilities for the handling, treatment or disposal of sewage upon such terms and conditions as may be agreed upon by the parties thereto, and for the flowage, treatment or disposal of sewage from such area for each of the parties thereto as may be described in the contract.

Any public utility district which has acquired or constructed, or which proposes to acquire or construct, any sewer or sewers, or works or other facilities for the handling, treatment or disposal of sewage, may contract with any county, city and county, municipal corporation, district or other public corporation or with any person, firm or corporation for the use of any such sewer or sewers, works or facilities by any such county, city and county, municipal corporation, district or other public corporation, or for the flowage, treatment or disposal of sewage from any area designated by such person, firm or corporation so contracting, upon such terms and conditions as may be provided in said contract.

No agreement under this section shall run for a longer period than twenty-five (25) years.

This section shall be liberally construed to the end that sewer systems may be planned for areas requiring sewers, which may not all be in one district, and any sewer or sewers, or other works or facilities for the handling, treatment or disposal of sewage, acquired or constructed by any public utility district, may be used to the fullest capacity thereof, and any contract or agreement made hereunder shall not be subject to the limitations provided in Section 30, Subsection Fifth of this act.

Constitutionality

SEC. 2. This act shall be liberally construed to the end that the purposes hereof may be made effective. If any paragraph, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion or portions hereof. The Legislature hereby declares that it would have passed this

act irrespective of the fact that any one or more sections, subsections, paragraphs, sentences, clauses or phrases thereof be declared unconstitutional.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

Public utility districts have constructed, or are contemplating the construction of, sewers, works and other facilities for the collection, handling, treatment and disposal of sewage. In many instances the facilities constructed or to be constructed should be planned of such size as will exceed the present needs of the district. Some of the territory nearby requires the use of sewers, facilities and works for the handling, treatment and disposing of sewage, and in some of such territory plants engaged in the production of material and equipment vital to National defense are located, and in some of such territory airports and other facilities necessary for National defense have been or are being constructed. The public health demands that the territory surrounding these National defense projects, in which many residences must be constructed at once, be furnished with adequate sewer facilities, which can not be provided under the existing law. If public utility districts are empowered to make the contracts herein provided, sewers and facilities and works for the handling of sewage can thereby be provided for the territory aforementioned. The building of the National defense projects and the providing of residences nearby for the persons engaged therein are matters of great urgency and will not admit of delay. If this act should not take effect immediately, it will not be possible to provide facilities for the handling of sewage in these areas in sufficient time to permit the early building of housing and other projects therein. If this act takes effect immediately, contracts can be entered into at once and sewage facilities provided for said areas without delay.

Stats 1937, p 1005, amended

An act to add Division 2.5, comprising Chapter 1, Sections 1700 to 1783, inclusive, to the Welfare and Institutions Code, creating a Youth Correction Authority, prescribing its powers and duties, providing for commitments thereto of convicted persons under 23 years of age at the time of their apprehension and making an appropriation therefor.

In effect September 13, 1941

[Approved by Governor July 9, 1941. Filed with Secretary of State July 10, 1941.]

The people of the State of California do enact as follows:

New division

SECTION 1. Division 2.5, comprising Chapter 1, Sections 1700 to 1783, inclusive, is hereby added to the Welfare and Institutions Code, to read as follows:

DIVISION 2.5. YOUTHS

CHAPTER 1. THE YOUTH CORRECTION AUTHORITY

Article 1. General Provisions and Definitions

Purpose

1700. The purpose of this chapter is to protect society more effectively by substituting for retributive punishment methods of training and treatment directed toward the correction and rehabilitation of young persons found guilty of public offenses. To this end it is the intent of the Legislature that the chapter be liberally interpreted in conformity with its declared purpose.

Short title

1701. This chapter may be cited as the Youth Correction Authority Act.

Application of chapter

1702. This chapter shall apply only to public offenses committed subsequently to the date upon which it becomes effective.

Definitions

1703. As used in this chapter

(a) "Public offenses" means public offenses as that term is defined in the Penal Code;

(b) "Court" includes any official authorized to impose sentence for a public offense;

(c) The masculine pronoun includes the feminine.

Construction

1704. Nothing in this chapter shall be deemed to interfere with or limit the jurisdiction of the juvenile court.

Article 2. Creation and Organization of a Youth Correction Authority

Youth Correction Authority

1710. There is hereby created a Youth Correction Authority for this State, hereinafter called "the Authority," whose function is to provide and administer preventive and corrective training and treatment for persons committed to it as hereinafter provided.

Membership

1711. The Authority shall consist of three members, who shall devote their entire time to its work. A majority shall constitute a quorum.

Appointment

1712. Of the three positions on the Authority, one position shall be filled by appointment by the Governor of a person who meets the requirements of this chapter.

The second and third positions on the Authority shall be filled by appointment by the Governor from the list of persons recommended by the Advisory Panel for that appointment.

Advisory Panel

1713. The following persons are hereby constituted the Advisory Panel: The President of the California Conference of Social Work, the President of the California Probation and Parole Officers Association, the President of the State Bar of California, the President of the California Medical Association and the President of the Prison Association of California.

Meetings, recommendations

1714. Within 30 days after the effective date of this act, the Secretary of State shall notify each member of the panel by registered mail to meet in the office of the Secretary of State at the State Capitol in Sacramento at 10 o'clock a.m. on the third Monday after the date of the notice. Upon such day the Advisory Panel shall meet, and shall recommend to the Governor at least six persons who meet the requirements of this chapter.

Thereafter the Secretary of State shall notify the members of the Advisory Panel at least 60 days prior to the expiration

of the term of any member of the Authority filling positions No. 2 or 3, to meet in the office of the Secretary of State at 10 o'clock a.m. on the third Monday following the date of such notice and upon such day the board shall meet and recommend to the Governor at least three persons who meet the requirements of this chapter.

In the case of a vacancy occurring in the second or third positions on the Authority by reason of a cause other than expiration of a term, the Secretary of State shall within 10 days thereof notify the members of the Advisory Panel to meet in the office of the Secretary of State in Sacramento on the third Monday thereafter and the panel shall meet on that day and recommend to the Governor at least three persons who meet the requirements of this chapter.

Expenses

1715. The members of the Advisory Panel shall receive their necessary expenses in connection with their duties under this act.

Quorum

1716. Three members of the Advisory Panel shall constitute a quorum of the Advisory Panel and may act for the panel. If on the day fixed by this chapter for a meeting of the Advisory Panel a quorum does not attend, a lesser number than a quorum may adjourn from time to time, but not beyond the thirtieth day after the date fixed by this chapter for the meeting of the Advisory Panel. If the Advisory Panel does not transmit its recommendations to the Governor within 40 days after the date fixed by this chapter for the meeting of the Advisory Panel the Governor may appoint any qualified person to the position for which the meeting was to recommend persons.

Appointments to vacancies

1717. All appointments to a vacancy occurring by reason of any cause other than the expiration of a term shall be for the unexpired term. Each member shall hold until the appointment and qualification of his successor.

Confirmation by Senate

1718. All appointments to membership on the Authority shall be subject to confirmation by the Senate, as provided in this article.

If the first appointments to the Authority, or any of the succeeding appointments to fill vacancies, are made while the Senate is not in session, the persons appointed shall immediately undertake the performance of their duties and their names shall be submitted to the Senate for confirmation at the session of the Legislature first occurring thereafter, whether regular or extraordinary. As used in this section, the Senate is in session when it has convened, has not adjourned sine die, and has not recessed for more than three days. Failure of the Senate to confirm or reject the appointments, unless it adopts the resolution provided for in the next succeeding section, is equivalent to confirmation.

Unconfirmed appointments

1719. If the Senate, in lieu of failing to confirm, finds that it can not consider all or any of the appointments to the Authority adequately because the amount of legislative business and the probable duration of the session do not permit, it may adopt a single house resolution by a majority vote of all members elected to the Senate to that effect and requesting the resubmission of the unconfirmed appointment or appointments at a succeeding session of the Legislature, whether regular or extraordinary, convening on or after a date fixed in the resolution. This resolution shall be filed immediately after its adoption in the office of the Secretary of State and the appointee or appointees affected shall serve subject to later confirmation or rejection by the Senate.

Term of office

1720. The term of office of members of the Authority shall be four years, except that the terms of the first members shall expire as follows: One member, October 1, 1943; one member, October 1, 1944; and one member, October 1, 1945. The first members of the Authority shall determine the assignment of the initial terms by lot. Members shall be eligible for reappointment.

Qualifications

1721. All persons appointed to the Authority shall, in so far as possible, have legal and administrative ability, educational experience, and experience in the study of youthful offenders and in planning corrective training and treatment for such offenders. A person peculiarly well qualified for such appointment may be appointed, even though such person is not, at the time of the appointment, a resident of this State.

Salary and expenses

1722. The members of the Authority shall receive a salary of ten thousand dollars ($10,000) a year and their actual necessary traveling expenses to the same extent as is provided for other State officers.

Chairman

1723. The members of the Authority shall annually elect one of their number chairman of the Authority. He shall continue to serve as such until another member is elected by the Authority to that position. No member shall be ruled ineligible to serve as chairman by reason of any previous service as chairman.

Removal

1724. The Governor may remove any member of the Authority for misconduct, incompetency and neglect of duty, after serving charges in writing upon such member and affording him an opportunity to be heard.

Article 3. Commitments to Youth Correction Authority

Prerequisites to commitments to Authority

1730. (a) No person may be committed to the Authority until the Authority has certified in writing to the Governor that it has approved or established places of preliminary

detention and places for examination and study of persons committed, and has other facilities and personnel sufficient for the proper discharge of its duties and functions.

(b) Before certification to the Governor as provided in subsection (a), a court shall, upon conviction of a person under 23 years of age at the time of his apprehension, deal with him without regard to the provisions of this chapter.

Determining age of offender

1731. When in any criminal proceeding in a court of this State a person has been convicted of a public offense for which the court has power under this chapter to commit to the Authority, the court shall determine whether the person was less than 23 years of age at the time of the apprehension from which the criminal proceeding resulted. Proceedings in a juvenile court in respect to a juvenile are not criminal proceedings as that phrase is used in this chapter.

Conditions for commitment to Authority

1731.5. After certification to the Governor as provided in this article and until January 1, 1944, a court shall commit to the Authority any person convicted of a public offense whom the Authority believes can be materially benefited by the procedure herein provided for, and for whose care and maintenance there exists, in the opinion of the Authority, proper and adequate facilities, and who

(a) Is found to be less than 23 years of age at the time of apprehension

(b) Is not sentenced to death, imprisonment for life, imprisonment for not more than 90 days, or the payment of a fine.

Same

1732. Except as otherwise provided in this chapter the court shall commit to the Authority every person convicted of a public offense after January 1, 1944, who

(a) Is found to be less than 23 years of age at the time of apprehension, and

(b) Is not sentenced to death, imprisonment for life, imprisonment for not more than 90 days, or the payment of a fine, and

(c) Is not granted probation.

Place of imprisonment

1732.4. A person who is convicted of a public offense, who is found to have been less than 23 years of age at the time of apprehension, and who is sentenced to not more than 90 days imprisonment, may be imprisoned only in a place which has been approved for that purpose by the Authority.

Commitment only where prior conviction, etc

1732.7. A person who is convicted of a public offense for which the maximum penalty provided by law is imprisonment for not more than 90 days, and who is found to be less than 23 years of age at the time of his apprehension, may be committed to the Authority only if it is brought to the court's knowledge that the person has been previously convicted of a public offense or has been a ward of the juvenile court by reason of a public offense and the court is satisfied that society will best be protected by commitment to the Authority.

Revocation or suspension of license

1733. Nothing in this chapter prevents a court from revoking or suspending any license issued to the defendant under any law of this State where such revocation or suspension is otherwise provided for.

When probation refused

1734. The court shall not grant probation to a person subject to commitment to the Authority if the order granting probation requires more than three months imprisonment.

Nonpayment of fine

1735. If the court sentences a person under 23 years of age at the time of his apprehension to the payment of a fine and the fine is not paid, the court may either remit the fine in whole or in part, or commit him to confinement for a length of time permitted by the statutes relating to imprisonment for failure to pay fines. But such confinement may be only in a place approved by the Authority.

Juvenile court commitments

1736. The juvenile court may in its discretion commit persons subject to its jurisdiction to the Authority, and the Authority may in its discretion accept such commitments.

Suspension of execution

1737. After a court has committed a person to the Authority such court has no power to suspend execution of the commitment.

Order to place of detention

1738. When the court commits a person to the Authority the court may order him conveyed forthwith to some place of detention approved or established by the Authority or may direct that he be left at liberty until otherwise ordered by the Authority under such conditions as in the court's opinion will insure his submission to any orders which the Authority may issue.

New trial or appeal

1739. (a) The right of a person who has been convicted of a public offense to a new trial or to an appeal from the judgment of conviction shall not be affected by anything in this chapter.

Stay of execution

(b) When a person who has been convicted and committed to the Authority appeals from the conviction, the execution of the commitment to the Authority shall not be stayed by the taking of the appeal except as provided in subsection (c). The person so committed shall remain subject to the control of the Authority, until final disposition of the appeal.

Bail

(c) A person convicted and committed to the Authority may be admitted to bail under the provisions of Section 1272 of the Penal Code, or in the discretion of the court, may be left at liberty, under such conditions as in the court's opinion will insure his cooperation in reasonable expedition of the appellate proceedings and his submission to the control of the Authority at the proper time.

Copy of order

1740. When a court commits a person to the Authority such court shall at once forward to the Authority a certified copy of the order of commitment.

Report on person committed

1741. The judge before whom the person was tried and committed, the district attorney or other official who conducted the prosecution, and the probation officer of the county, shall obtain and with the order of commitment furnish to the Authority, in writing, all information that can be given in regard to the career, habits, degree of education, age, nationality, parentage and previous occupations of such person, together with a statement to the best of their knowledge as to whether such person was industrious, and of good character, the nature of his associates and his disposition.

The reports required by this section shall be made upon forms furnished by the Authority or according to an outline furnished by it.

When a person has been committed to the Authority, the court and the prosecuting and police authorities and other public officials shall make available to the Authority all pertinent data in their possession in respect to the case.

Article 4. Powers and Duties of Youth Correction Authority

Expenditures

1750. The Authority is limited in its expenditures to funds specifically made available for its use.

Rules

1751. The Authority is authorized to make and enforce all rules appropriate to the proper accomplishment of its functions.

Powers

1752. To the extent that necessary funds are available for the purposes, the Authority may

(a) Establish and operate a treatment and training service and such other services as are proper for the discharge of its duties;

(b) Create administrative districts suitable to the performance of its duties;

(c) Employ and discharge all such persons as may be needed for the proper execution of its duties. Such employment and discharge shall be in accord with the civil service laws of this State.

Youth delinquency work

1752.5. The Authority may establish or assist in the establishment of any public council or committee, and may assist and cooperate with any existing agency, having as its object the prevention or decrease of delinquency among youths; and the Authority may cooperate with or participate in the work of any such councils, or any existing councils, including the improving of recreational, health and other conditions in the community affecting youths.

Utilization of facilities

1753. For the purpose of carrying out its duties, the Authority is authorized to make use of law enforcement, detention, probation, parole, medical, educational, correctional, segregative and other facilities, institutions and agencies, whether public or private, within the State. The Authority may enter into agreements with the appropriate public officials for separate care and special treatment in existing institutions of persons subject to the control of the Authority.

Limitations on Authority

1754. Nothing in this chapter shall be taken to give the Authority control over existing facilities, institutions or agencies; or to require them to serve the Authority inconsistently with their functions, or with the authority of their officers, or with the laws and regulations governing their activities; or to give the Authority power to make use of any private institution or agency without its consent; or to pay a private institution or agency for services which a public institution or agency is willing and able to perform.

Duty of public institutions and agencies

1755. Public institutions and agencies are hereby required to accept and care for persons sent to them by the Authority in the same manner as they would be required to do had such persons been committed by a court of criminal jurisdiction.

Transfers to State hospital, etc.

1756. No person under the control of the Authority shall be transferred to any State hospital or home for the insane or feeble-minded, except for observation and diagnosis, unless such person is committed to such hospital or home in accordance with the procedure prescribed in the Welfare and Institutions Code.

Inspection

1757. The Authority is hereby given the right to inspect all public institutions and agencies whose facilities it is authorized to utilize and all private institutions and agencies whose facilities it is using. Every institution or agency, whether public or private, is required to afford the Authority reasonable opportunity to examine or consult with persons committed to the Authority who are for the time being in the custody of the institution or agency.

Control of persons placed

1758. Placement of a person by the Authority in any institution or agency not operated by the Authority, or the discharge of such person by such an institution or agency, shall not terminate the control of the Authority over such person.

Release

1759. No person placed in such an institution or under such an agency may be released by the institution or agency until after approval of the release by the Authority, unless the institution or agency would have power under the law to release at its own discretion persons committed to it by order of a court. In the latter case, it may not release a person placed by the Authority until a reasonable time after it has notified the Authority of its intention to release him.

Establishment and operation of facilities

1760. The Authority is hereby authorized when necessary and when funds are available for such purposes to establish and operate

(a) Places for the detention, prior to examination and study, of all persons committed to it;

Examination of person committed

1761. When a person has been committed to the Authority it shall under rules established by it forthwith examine and study him and investigate all the pertinent circumstances of his life and the antecedents of the violation of law because of which he has been committed to it.

Re-examinations

1762. The Authority shall make periodic re-examinations of all persons within its control for the purpose of determining whether existing orders and dispositions in individual cases should be modified or continued in force. These examinations may be made as frequently as the Authority considers desirable and shall be made with respect to every person at intervals not exceeding one year.

Records

1763. The Authority shall keep written records of all examinations and of the conclusions predicated thereon and of all orders concerning the disposition or treatment of every person subject to its control.

Failure to examine or re-examine

1764. Failure of the Authority to examine a person committed to it, or to re-examine him within two years of a previous examination, shall not of itself entitle the person to discharge from the control of the Authority, but shall entitle him to petition the superior court of the county from which he was committed for an order of discharge, and the court shall discharge him unless the Authority satisfies the court of the need for further control.

Continued study

1765. (a) Except as otherwise provided in this chapter, the Authority shall keep under continued study a person in its control and shall retain him, subject to the limitations of this chapter, under supervision and control so long as in its judgment such control is necessary for the protection of the public.

(b) The Authority shall discharge such person as soon as in its opinion there is reasonable probability that he can be given full liberty without danger to the public. Discharge

1766. (a) When a person has been committed to the Authority it may Discretionary powers

(1) Permit him his liberty under supervision and upon such conditions as it believes conducive to law-abiding conduct;

(2) Order his confinement under such conditions as it believes best designed for the protection of the public;

(3) Order reconfinement or renewed release under supervision as often as conditions indicate to be desirable;

(4) Revoke or modify any order except an order of discharge as often as conditions indicate to be desirable;

(5) Discharge him from its control when it is satisfied that such discharge is consistent with the protection of the public.

1767. Every order granting probation to, committing to an institution, granting and revoking parole and issuing final discharges to any person under the control of the Authority shall be made by the Authority and the Authority may not delegate the making of such decisions to any other body or person. Orders; delegation of powers

All other powers conferred on the Authority may be exercised through subordinates under rules established by the Authority. Any person subjected to an order of such subordinates may petition the Authority for review. The Authority may review such orders under appropriate rules and regulations.

1768. As a means of correcting the socially harmful tendencies of a person committed to it, the Authority may Corrective powers

(a) Require participation by him in vocational, physical, educational and corrective training and activities;

(b) Require such conduct and modes of life as seem best adapted to fit him for return to full liberty without danger to the public welfare;

(c) Make use of other methods of treatment conducive to the correction of the person and to the prevention of future public offenses by him.

1769. Every person committed to the Authority by a juvenile court shall be discharged upon the expiration of a two-year period of control or when the person reaches his twenty-first birthday, whichever occurs later. Discharge Persons committed by juvenile court

1770. Every person convicted of a misdemeanor and committed to the Authority shall be discharged upon the expiration of a two-year period of control or when the person reaches his twenty-third birthday, whichever occurs later. Same Misdemeanants

Every person convicted of a felony and committed to the Authority shall be discharged when such person reaches his twenty-fifth birthday, unless a petition is filed under Article 5 of this chapter. In the event such a petition is filed, the Authority shall retain control until the final disposition of the proceeding under Article 5.

Release from penalties for offense for which committed

1772. Every person discharged from control by the Authority who has not, during the period of control by the Authority, been placed by the Authority in a State prison may petition the court which committed him, and the court may upon such petition set aside the verdict of guilty and dismiss the accusation or information against the petitioner who shall thereafter be released from all penalties and disabilities resulting from the offense or crime for which he was committed.

Every person discharged from control by the Authority shall be informed of this privilege in writing at the time of discharge.

Article 5. Commitment to State Prison After Expiration of Control

Petition

1780. If the date of discharge occurs before the expiration of a period of control equal to the maximum term prescribed by law for the offense of which he was convicted, and if the Authority believes that unrestrained freedom for said person would be dangerous to the public, the Authority shall petition the court by which the commitment was made.

The petition shall be accompanied by a written statement of the facts upon which the Authority bases its opinion that discharge from its control at the time stated would be dangerous to the public, but no such petition shall be dismissed merely because of its form or an asserted insufficiency of its allegations; every order shall be reviewed upon its merits.

Notice

1781. Upon the filing of a petition under this article, the court shall notify the person whose liberty is involved, and if he is a minor his parent or guardian if practicable, of the application and shall afford him an opportunity to appear in court with the aid of counsel and of process to compel attendance of witnesses and production of evidence. When he is unable to provide his own counsel, the court shall appoint counsel to represent him.

Order

1782. Such committing court may thereupon discharge the person, admit him to probation or may commit him to the State prison. The maximum term of imprisonment for a person committed to a State prison under this section shall be a period equal to the maximum term prescribed by law for the offense of which he was convicted less the period during which he was under the control of the Authority. The State Board of Prison Directors may, upon the recommendation of

the Authority allow any such person time credit reductions from his term of confinement according to the table set forth in Section 2920 of the Penal Code for the time during which such person was under the control of the Authority.

1783. An appeal may be taken from the order of the court committing a person to the State prison under this chapter in the same manner as appeals are taken from convictions in the criminal cases under the Penal Code. Appeal

If any article, section, subdivision, sentence, clause, or phrase of this act is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portion of this act. After December 31, 1940, employers shall pay into the Unemployment Fund contributions upon all wages with respect to which contributions become due and payable for employment subject to this act at rates as provided in this section. The contribution rate for an employer for any rating period shall be:

New section

SEC. 2. Section 41.1 is hereby added to the act cited in the title hereof, to read as follows:

Statements to employers

Sec. 41.1. (a) The commission shall furnish each employer with itemized statements showing the charges to his account and with statements showing the credits to his account, the net balance of his reserve and his contribution rate for the next succeeding rating period. Such statements shall be furnished not less frequently than annually. Such statement or statements of account shall be mailed to each employer at his last known address as shown on the records of the commission.

Protest

(b) The employer shall have 60 days after the date of mailing of any statement within which to protest any of the items shown thereon. The commission may for good cause extend the time for the filing of any such protest. Unless such protest is filed within the period prescribed herein or within any extended period, such statement shall be conclusively presumed to be correct; provided, that the commission upon its own initiative after notice to the employer and opportunity for him to protest may amend any statement if it subsequently finds any entries thereon to be incorrect.

Refunds or credit

(c) In the event that a protest proceeding is pending with respect to any statement provided for above when any contribution becomes due, the employer shall pay the contribution at the rate indicated by the commission's computation. If a determination indicating that a lesser contribution rate should have been computed is subsequently made in favor of the employer, the commission immediately either shall

refund to the employer or credit to his account any amount so determined to have been paid in excess of the amount which he would have been required to pay had the computation been made correctly. Such refund or credit also shall be made to the employer if the commission on its own initiative finds that an excessive contribution rate was computed for the employer. An amendment by the commission on its own initiative shall not affect the contribution rate for any rating period preceding the rating period during which such amendment was made but if such amendment results in a determination that a different contribution rate should have been computed for the current rating period the commission shall compute the proper contribution rate which rate shall be effective for the current rating period. Any additional contributions thus required to be paid shall be deemed to be due as contributions for the quarter in which the employer is notified of such determination.

Action to recover overpayments

C. A., 1873-4, p. 336

When the judgment or order appealed from is made payable in a specified kind of money or currency, the judgment entered against the sureties upon the undertaking must be made payable in the same kind of money or currency.

If the undertaking in this section first provided for be executed on the part of the appellant by a corporate surety authorized to execute the same by Section 1056 of this code, such undertaking shall be sufficient in amount if the surety be bound in one and one-half times the amount named in the judgment or order appealed from.

Notwithstanding the sentence next preceding, "prior service" as applied to a person, employed by the State, including the university, who became a member while employed on a part-time basis, because of amendments to this retirement act, or as applied to a person who became a member prior to said amendments, because of a change in the employment status to a full-time basis, shall mean all State service rendered before the effective date of said membership. "Prior service" as applied to an employee of the State or an employee of a contracting city shall be limited to service rendered as an employee of the State or of the contracting city, as the case may be.

"Prior service"

SEC. 1.5. Section 30 of said act is hereby amended to read as follows:

Stats 1939, p 2607

Sec. 30. Elective officers, other than elective State officers who file with the Board of Administration an election in writing to become members; provided, that any person so excluded from membership, who later becomes a member hereof, shall have the option of making contributions to the retirement system in the amount which he would have contributed had he not been so excluded, and he shall then receive credit for prior service in the same manner as if he had not been so excluded. If he shall affirmatively exercise the option, the contributions of the State, or of the contracting city because of his membership, shall be the same as they would have been had he not been so excluded.

Elective officers

SEC. 2. Section 34 of said act is hereby amended to read as follows:

Stats 1939, p 2592

Sec. 34. Employees serving on a part-time basis unless such employees are members at July 1, 1941, or at any time

of employment after that date on a part-time basis, or unless such employment is regular and continuous and in the opinion of the employing power will extend for more than one year, and requires service for at least one-half the time required of employees in the same group or class, serving on a full-time basis. Any employee who is a member at July 1, 1941, and who is serving on a part-time basis not requiring at least one-half the time required of employees in the same group or class serving on a full-time basis, may elect to terminate his membership in the system. Any employee so electing shall be considered as permanently separated from State service, solely for the purposes of Section 75 of this act.

Stats 1939, p 2640

SEC. 2.3. Section 35 of said act is hereby amended to read as follows:

Persons exempt

Sec. 35. Persons in State service on June 30, 1933, or prior thereto, whose compensation equals or exceeds four hundred sixteen dollars and sixty-six cents ($416.66) per month, and who file, or have filed, with the Board of Administration an election not to become members, providing, that any person so excluded from membership may at any subsequent time file with the Board of Administration an election to become a member, and shall become a member of the retirement system on the date of filing such election. Such persons shall receive credit for prior service regardless of the effective date of membership, and shall have the option of paying to the retirement system all or part of the amount which he would have contributed had he not been so excluded but had been a member to and including the date of filing such election to become a member, plus interest which would have accumulated thereon through such date. Upon the retirement of such person under Section 78 or Section 79, the pensions provided by contributions of the State under Sections 82 and 83 shall be the same as if such person affirmatively exercised the option to pay to the retirement system all of that amount with accumulated interest.

Exception

Stats 1931, p 1446

SEC. 2.5. Section 46 of said act is hereby amended to read as follows:

Service credits

Sec. 46. It shall fix and determine how much service rendered in any fiscal year shall be the equivalent of a year of service and parts thereof, but shall credit one year for 250 or more days of service rendered by employees on a per diem basis and one year for 10 months or more of service rendered by employees on a monthly basis, but not more than one year for all service in any fiscal year. In determining the credit to be granted for service rendered on a part-time basis, for purposes of calculating retirement allowances, the service shall be reduced to a full-time basis according to the service required, in the next preceding sentence, for credit for one year of service. In calculating benefits based on service so determined, compensation earnable shall be taken as the compensation which would be earnable if the employment had been on a full-time basis, and with a compensation derived by

Part-time services

multiplying the member's compensation by the ratio of full time to the time he was required by his employment to engage in his duties. In calculating the credit to be granted for service rendered on a part-time basis, for purposes of determining qualification for retirement, and of calculating benefits payable upon death before retirement, the service required in this paragraph for credit for a year of service shall not be used, but instead, a year of service shall be credited for each year during which the member was employed throughout the year on a part-time basis and was engaged in his duties the full amount of time he was required by his employment to be so engaged. Credit for fractional years will be granted to the extent of the fraction derived by dividing the time during which the member was engaged in his duties within the year, by the time he was required by his employment to be so engaged.

SEC. 2.7. Section 49 of said act is hereby amended to read as follows: Stats 1939, p 2610

Sec. 49. Credit for prior service shall be granted to each person other than persons who are employees of the university or of a contracting city at the time of becoming members of the retirement system, who has rendered such service as defined in this act, and who has become a member of the retirement system on January 1, 1932, or within three years after last rendering prior service, the prior service credited, however, to be one-half year less than the total prior service rendered by him. Credit for prior service shall be granted to each person who is employed by the university at the time of becoming a member of the retirement system regardless of whether he has been retired under the system prior to the effective date hereof, who has rendered such service as defined in this act and who has become a member of the retirement system on August 27, 1937, or within three years after last rendering prior service, the prior service credited, however, to be one-half year less than the total prior service rendered by him. Notwithstanding the two sentences next preceding, credit for prior service shall be granted to each person employed by the State including the university, who became a member while employed on a part-time basis, because of amendments to this retirement act, or who became a member prior to said amendments, because of a change in status to a full-time basis, but the prior service credited shall be one-half year less than the total prior service rendered by him. The credit for prior service to be granted persons employed by a contracting city who are included under the retirement system shall be established by contract between the board and the legislative body of such city; and such credit as may be granted to a person shall be in the form of a percentage, for each year of prior service, of his final compensation or average compensation earnable during the three years immediately preceding the date upon which the group or class in which

Credit for prior service

said person was employed, is included in the system; and provided further, that said percentage shall be uniform for all city firemen and city policemen employed by any contracting city, according to age at entry into the service of the city, and uniform for all other employees of such city regardless of age at said entry. Prior service so credited shall be the basis for a retirement allowance or benefit as provided in this act only if the membership in the retirement system continues unbroken until retirement on retirement allowance or until the granting of such other benefit; provided, that termination of membership by withdrawal of accumulated contributions followed by the redeposit of such contributions upon reentrance into State service as herein provided shall not constitute a break in membership, but this section shall not be construed to entitle any person to credit as prior service for time during which he was not in State service as defined in this act.

Stats 1939, p 2595

SEC. 4. Section 76 of said act is hereby amended to read as follows:

Redeposit of refund

Sec. 76. Any member may redeposit in the retirement fund, in one sum or in not to exceed 12 monthly or 24 semimonthly payments, an amount equal to that which he withdrew therefrom at the last termination of his membership, subject to minimum monthly or semimonthly payments as fixed by the Board of Administration. If a member, upon reentering the retirement system after a termination of his membership, does not elect to make or, having so elected, subsequently does not make such redeposit, he shall reenter as a new member without credit for any service except the prior service credited to him before said termination, and the rate of his contribution for future years shall be the normal rate provided for in this act at his age of reentrance; otherwise his rate of contribution for future years shall be the same as his rate prior to the last termination of his membership, and his membership shall be the same as if unbroken by such last termination. Regardless of whether such redeposit is made, the documents held by the retirement system as executed by said member prior to termination of membership shall be held by the system for the same purposes as prior to said termination, and beneficiaries nominated in such documents shall continue unchanged until changed as provided herein.

Stats 1941, p 1200

SEC. 4 5. Section 79 of said act is hereby amended to read as follows:

Retirement age, etc

Sec. 79. Upon attaining the age of 60 or more years and completing 20 years of continuous State service credited under this act, among which must be included one year of service after becoming a member of the retirement system, any member, who is not a member of the California Highway Patrol, city fireman or city policeman, shall be retired upon his written application to the board.

A member who is also a member of the California Highway Patrol and who has completed 20 years of continuous State

Highway Patrol service credited under this act and attained the age of 50 or more years shall be retired upon his written application to the board.

A city fireman or city policeman who has completed at least 20 years of continuous State service credited under this act, and who has attained at least the minimum optional retirement age, which shall be not less than 55 years or more than 60 years, specified in the contract provided by Section 38c, in lieu of 60 years required of other members, shall be retired upon his written application to the board. Any member, other than members employed by a contracting city and members of the California Highway Patrol, who is separated from State service because of a curtailment of such service or a change in the manner of performing such service, but not because of resignation or dismissal under charges, and who has attained the age of 50 years and is credited with 15 or more years of State service, shall be retired upon his written application to the board; provided, said board determines said separation to be of an extended and uncertain duration, and not the separation normally experienced by members in positions known at the time of employment to be of limited duration or employed on a seasonal or intermittent basis.

SEC. 5. Section 85a of said act is hereby amended to read as follows: Stats Ex Sess 1938, p 72

Sec. 85a. Subject to the requirements as to service and cause of disability stated in Section 85 and upon the application of a member or upon the application of the head of the office or department in which such member is or was last employed, or upon application of the university if such member is an employee of the university, or any other person on behalf of such member, while such member is in State service, within four months after such member's discontinuance of State service, or while such member continuously, from the date of discontinuance of State service to the time of the application or motion, is physically or mentally incapacitated to perform his duties, may apply for, or the board upon its own motion may order, a medical examination to determine the existence of such incapacity. Upon the receipt of such application, the board shall order such medical examination. If the medical examination and other available information show to the satisfaction of the board, that the member is incapacitated physically or mentally for the performance of his duties in the State service, the board shall forthwith retire the member for disability. The board shall secure such medical service and advice as is necessary to carry out the purpose of this section and of Sections 90 to 94, inclusive, of this act, and shall pay for such medical services and advice such compensation as the board deems reasonable. Physical examination

Medical assistance

Stats 1939, p 2620

SEC. 6. Section 90 of said act is hereby amended to read as follows:

Medical examination

Sec. 90. The Board of Administration, may, at its pleasure require any disability beneficiary, under the age of 60, to undergo medical examination Such examination shall be made by a physician or surgeon, appointed by the board, at the place of residence of said beneficiary or other place mutually agreed upon. Upon the basis of such examination and other available information, the board shall determine whether said disability beneficiary is still incapacitated, physically or mentally, for service in the office or department of the State or of the contracting city, where he was employed and in the position held by him when retired for disability. If the Board of Administration determines that said beneficiary is not so incapacitated, his retirement allowance shall be canceled forthwith. If he was an employee of the State he shall be reinstated to the position held by him when retired for disability. If he was an employee of a contracting city, the board shall notify the proper official of said city that said disability has been terminated and that said person is eligible for reinstatement to duty. The fact that said person was retired for disability shall not prejudice any right to reinstatement to duty which he may have or claim to have.

In the case of such a member who is an employee of a contracting city, and who for any reason is not so reinstated or is not reemployed by said city in a position subject to the retirement system, he shall be paid an amount which is the actuarial equivalent of his annuity at that time, as based on a disabled life, but said amount shall not exceed the amount of his accumulated contributions as such amount stood at the time of his retirement for disability.

Stats 1931, p 1455

SEC. 7. Section 92 of said act is hereby amended to read as follows:

Gainful occupation, etc.

Sec. 92. Should a disability beneficiary, prior to attaining age 60, engage in a gainful occupation not in the State service or should he reenter the State service in a capacity ineligible for membership in the retirement system, the Board of Administration shall reduce the amount of his retirement allowance to an amount which, when added to the compensation earned by him in such occupation, shall not exceed the amount of his compensation at the time of his retirement. Should the earning capacity of such beneficiary be further altered, the board may further alter his retirement allowance to an amount which shall not exceed the amount upon which he was originally retired, but which, subject to such limitation, shall equal, when added to the compensation earned by him, the amount of his final compensation on the basis of which his retirement allowance was determined. When such a disability beneficiary reaches age 60, his retirement allowance shall be made equal to the amount upon which he was originally retired, and shall not again be modified for any cause.

SEC. 8. Section 101 of said act is hereby amended to read as follows: Stats 1939, p 2621

Sec. 101. No modification of the benefits provided herein shall be made on account of any amounts payable to a beneficiary, as defined herein, under Division 4 of the Labor Code, except that the portion of any retirement allowance or death allowance which is provided by contributions of the State or of a contracting city and which is payable by the retirement system because of the death or retirement of any member of the California Highway Patrol or of any city policeman or city fireman, as a result of injury or illness arising out of and in the course of employment, shall be reduced in the manner hereinafter described, by the amount of any benefits, other than medical benefits, payable to or on account of such member under Division 4 of the Labor Code, because of his death or the disability resulting in his retirement. Effect of workmen's compensation laws

If said benefits under Division 4 of the Labor Code shall run concurrently with said allowance hereunder and shall be due the beneficiary in payments which are equal to or less than said portion of the retirement allowance or death allowance, then said portion shall be reduced each month by the amount of said benefits so due during said month, and the beneficiary shall have no more right to such reduction than if the retirement system had never existed.

If said benefits under Division 4 of the Labor Code shall run concurrently with the allowance hereunder and shall be due to the beneficiary in payments which are greater than said portion of the retirement allowance or death allowance, then payment of said portion shall be withheld until the total of the amounts so withheld shall equal the total of said benefits paid, and the beneficiary shall have no more right to such amounts withheld than if the retirement system had never existed.

It is the purpose of the preceding paragraphs of this section to reduce the portion of the retirement or death allowance payable from the retirement fund and which is provided by contributions of the State or by a contracting city, by the amount of benefits, other than medical benefits, due to the beneficiary concurrently with said portion, under Division 4 of the Labor Code, and the payment before due date by the commutation through compromise or otherwise of such benefits shall not prevent the reduction of said portion, as provided in this section, in the amounts which would have been payable concurrently with the retirement allowance in the absence of such commutation.

If any benefits, other than medical benefits, shall have been paid under Division 4 of the Labor Code because of a permanent disability concurrently with payments of wages or salary, to said beneficiary, then payment of said portion of the retirement allowance or death allowance shall be withheld until the total of the amounts so withheld shall equal the total of such benefits paid because of the permanent disability, and the

Effect of workmen's compensation laws

beneficiary shall have no more right to such amounts withheld than if the retirement system had never existed. Said benefits which are payable for time during which salary is not paid and prior to the effective date of the retirement or death allowance, shall not be considered hereunder.

If an injury, known to result in the retirement of and/or the death of a member of the California Highway Patrol or of a city policeman or city fireman, is the proximate consequence of the act of a person other than his employer, the retirement system shall have the right to recover from said person an amount which shall be the actuarial equivalent of the benefits for which it shall be liable because of said injury and/or death, and said right shall be determined under the provisions of Chapter 5 of Part 1, Division 4 of the Labor Code. Any claim in favor of the retirement system, now pending or which shall arise under this paragraph, may be settled and compromised, and the proceeds of such settlement and compromise shared between the retirement system and said retired employee, or person entitled to benefits under the retirement system because of the death of said employee, in such amounts as may be recommended by the President of the Board of Administration, and approved by the Attorney General. Said retirement system may join with the employer and/or its compensation insurance carrier in any proceeding under said section, and any amount recovered by any of the parties shall be applied first on the amounts which the employer or its insurance carrier shall have paid or become obligated to pay, and second, on the amounts which the retirement system shall have paid or become obligated to pay.

Amounts by which retirement and death allowances are reduced and amounts recovered from third persons under the provisions of this section shall be paid by the retirement system to the Motor Vehicle Support Fund, or any other fund out of which the compensation of members who are also members of the California Highway Patrol is paid, or to the contracting city in the case of a city policeman or city fireman.

(3) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may purchase or acquire from, or handle on behalf of, any and all producers thereof, in intrastate commerce, during any specified period or periods under a uniform rule, applicable to all handlers so regulated based upon the amounts produced or sold by such producers in a prior period which the director finds to be representative, or upon the current season's production or sales of such producers, or both, to the end that the total quantity of such commodity, or of any grade, size or quality thereof, so purchased or handled in intrastate commerce shall be apportioned equitably among the producers thereof.

Allotment of quantity processed, etc

(4) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may process, distribute or handle in intrastate commerce under a uniform rule, applicable to all handlers so regulated, based upon the quantities of such commodity or of any grade, size or quality thereof of the current season's crop which each such handler has available for such processing, distribution or handling, or upon the quantities of such commodity or

of any grade, size or quality thereof so processed, distributed or handled by each such handler in a prior period which the director finds to be representative, or based upon both, to the end that the total quantity of such commodity or any grade, size or quality thereof, processed, distributed or handled in intrastate commerce during any specified period or periods shall be equitably apportioned among all such handlers thereof.

Periods of processing

(5) Provisions regulating the period, or periods, during which any agricultural commodity, or any grade, size or quality of such commodity, may be processed, distributed or otherwise marketed within this State by any and all persons engaged in such processing, distributing or marketing within this State; provided, that the total quantity of such commodity so regulated and permitted to be processed, distributed or otherwise marketed during such period or periods, shall not be less than the quantity which the director finds is necessary to reasonably supply the needs of consumers of such commodity.

The director is hereby authorized to prepare, issue, administer and enforce plans for promoting the sale of any agricultural commodity.

Provided, that any such plan shall be directed toward increasing the sale of such commodity without reference to a particular brand or trade name, and

Provided, further, that no advertising or sales promotion program shall be issued by the director which shall make use of false or unwarranted claims in behalf of any such product, or disparage the quality, value, sale or use of any other agricultural commodity.

(9) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the processing, distribution or handling of agricultural commodities within this State, the director is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practice affecting the processing, distributing or handling of any agricultural commodity within this State which the director finds, after a hearing thereupon in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of this act. 1300.14. (a) After such notice and hearing the director shall issue a marketing order if he finds and sets forth in such marketing order that such order will, with respect to any or all of the following, tend to: Findings relative to marketing order

(1) Reestablish or maintain such level of prices for such agricultural commodity as will provide a purchasing power

for such agricultural commodity which is adequate to maintain in the business of producing such agricultural commodity such number of producers as is required to provide such supply of the quantities and qualities of such agricultural commodity as is necessary to fulfill the normal requirements of consumers thereof.

(2) Approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for such commodity.

(3) Prevent the unreasonable or unnecessary waste of agricultural wealth because of improper preparation of such agricultural commodity for market, prevent lack of uniform grading and inspection, or prevent excessive shipments to markets.

(4) Protect the interests of consumers of such commodity, by exercising the powers of this chapter only to such extent as is necessary to establish the equality of purchasing power described in Subsection (1) of this section.

(b) In making the findings with respect to any or all of the objectives set forth in paragraph (a) of this section, the director shall, whenever any or all of the following economic factors are relevant, take into consideration any and all facts available to him with respect thereto:

(2) The quantity of such agricultural commodity normally required by consumers.

(3) The cost of producing such agricultural commodity as determined by available statistics and surveys.

(4) The purchasing power of consumers as indicated by reports and indices.

(5) The level of prices of other commodities which compete with or are utilized as substitutes for such agricultural commodity.

(6) The level of prices of other commodities, services and articles which farmers commonly buy.

Existing orders

Any marketing order heretofore duly issued by the director pursuant to this chapter and now in effect shall continue in full force and effect; provided, that the director finds that such marketing order is in conformity with the provisions of this section as amended. Such finding may be made without the necessity of a hearing thereon and without the necessity of the re-execution or reissuance of a marketing agreement or marketing order and such finding need not be incorporated in a marketing agreement or marketing order.

Stats 1939, p 3132

SEC. 2½. Section 1300 16 of the Agricultural Code is hereby amended to read as follows:

Written assent to marketing orders: Handlers

1300.16. (a) (1) No marketing order or amendment thereto, directly affecting handlers, issued pursuant to this chapter, shall become effective unless and until the director finds that

such marketing order or amendment thereto has been assented to in writing by the handlers engaged in the marketing activity or activities regulated by such marketing order who handle not less than sixty-five per cent (65%) of the volume of the agricultural commodity regulated thereby which is processed or distributed within the area defined in such marketing order or amendment thereto, or that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five per cent (65%) of the number of handlers engaged in the marketing activity or activities regulated by such marketing order; provided, however, that any marketing order or amendment thereto directly affecting processors engaged in the operation of canning of fresh fruits or vegetables or canning or packing of dried fruits shall not be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto who process not less than sixty-five per cent (65%) of the volume of such agricultural commodity which is processed within the area defined in such marketing order or amendment thereto and by sixty-five per cent (65%) of the number of such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto. Processors

(2) No marketing order or amendment thereto, directly affecting producers or producer marketing, issued pursuant to this chapter, shall be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five per cent (65%) of the producers who are engaged, within the area specified in such marketing order or amendment thereto, in the production for market, or engaged in such producer marketing of not less than fifty-one per cent (51%) of the agricultural commodity specified therein in commercial quantities, or that such marketing order or amendment thereto has been assented to in writing by producers who produce not less than sixty-five per cent (65%) of the volume of such agricultural commodity and by fifty-one per cent (51%) of the total number of producers so engaged. Producers

(3) In finding whether such marketing order or amendment thereto is assented to in writing pursuant to the provisions of this chapter, the director shall consider the approval of any nonprofit agricultural cooperative marketing association, which is authorized by its members so to assent, as the approval of the producers who are members of, or stockholders in, such nonprofit agricultural cooperative marketing association. Marketing associations

(b) Subject to the provisions, restrictions and limitations imposed herein, the director may issue marketing orders regulating producer marketing, the processing, distributing or handling in any manner of agricultural commodities by

any and all persons engaged in such producer marketing, processing, distributing or handling of such agricultural commodities within this State.

Suspension or termination of marketing orders

(c) The director shall suspend or terminate any marketing order, whenever he finds, after a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, that such marketing order is contrary to or does not tend to effectuate the declared purposes or provisions of this chapter within the standards and subject to the limitations and restrictions herein imposed; provided, that such suspension or termination shall not become effective until the expiration of the marketing season then current. If the director finds that the termination of any marketing order is requested in writing by more than forty per cent (40%) of the producers, who are engaged within the State of California in the production for market of the agricultural commodity specified in such marketing order, and who produce forty per cent (40%) of the volume of such agricultural commodity produced within the State of California for market, and finds that the termination of such marketing order is requested in writing by handlers who handle more than forty per cent (40%) of the volume of the agricultural commodity covered thereby and by more than forty per cent (40%) of the number of handlers of the agricultural commodity covered thereby, the director shall, if he finds such marketing order is contrary to or does not tend to carry out the declared policy of this chapter, terminate such marketing order; provided, that such termination shall be effective only if announced on or before such date (prior to the end of the marketing period then current) as may be specified in such marketing order.

Amendments

(d) The director may amend any marketing order if such amendment or amendments have been considered at a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, and after appropriate findings have been made by the director pursuant to Section 1300.14 of this chapter; and provided, that no amendment shall be made effective unless the director finds that such amendment has been assented to in writing in accordance with the provisions of this section.

Posting and publication of notice

(e) Upon issuance of any order making effective a marketing order, or any suspension, amendment or termination thereof, a notice thereof shall be posted on a public bulletin board to be maintained by the director in his office and a copy of such notice shall be published in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe. No marketing order or any suspension, amendment or termination thereof shall become effective until the termination of a period of five (5) days from the date of such posting and publication. It shall also be the duty of the director to mail a copy of the notice of said issuance to all persons, directly

affected by the terms of such marketing order, suspension, amendment or termination, whose names and addresses may be on file in the office of the director and to every person who files in the office of the director a written request for such notice.

SEC. 3. Section 1300.17 of the Agricultural Code is hereby amended to read as follows: Stats 1939, p 2134

1300.17. (a) For the purpose of providing funds to defray the necessary expenses incurred by the director in the formulation, issuance, administration and enforcement of any marketing order issued by the director hereunder, each and every person engaged in the production, processing, distributing or handling of any agricultural commodity within this State, and directly regulated by any marketing order issued pursuant to this chapter, for such commodity, shall pay to the director, at such times and in such installments as the director may prescribe, an assessment based upon the units in which such agricultural commodity is marketed, or upon any other uniform basis which the director determines to be reasonable and equitable, but in amounts which in the case of producers will not exceed two and one-half per cent ($2\frac{1}{2}\%$) of the gross dollar volume of sales, of the commodity affected, by all such producers, regulated by such marketing order or in amounts which in the case of processors, distributors or other handlers will not exceed two and one-half per cent ($2\frac{1}{2}\%$) of the gross dollar volume of purchases of the commodity affected by the marketing order from producers or of the gross dollar volume of sales of the commodity affected by the marketing order and handled by all such processors, distributors or other handlers regulated by such marketing order during the marketing season or seasons during which such marketing order is effective; provided, that assessments shall be required from producers alone if producers only are regulated, as to the commodity affected, by the marketing order; that assessments shall be required from producers and from processors, distributors or other handlers if both such groups are regulated, as to the commodity affected, by the marketing order; and that assessments shall be required from processors, distributors or other handlers alone if only processors or distributors or other handlers are regulated, as to the commodity affected, by such marketing order. Assessment. From whom required.

The director may require each and every producer, processor, distributor or handler directly regulated by any marketing order to deposit with him in advance, an amount based upon the estimated number of units to be marketed by such producer or handled by such processor, distributor or handler, or upon any other uniform basis which the director determines to be reasonable and equitable, such bases to be applicable during the marketing season or seasons during which such marketing order is effective. At the close of each Deposit in advance.

marketing season the sums so deposited shall be adjusted to the amount which is chargeable against such producer, processor, distributor or handler upon the basis of the actual number of units marketed by such producer or handled by such processor, distributor or handler, or upon the same uniform basis under which such funds were assessed by the director, during such marketing season.

The director shall prescribe the rules and regulations with respect to the assessment and collection of such funds for such purposes.

Additional assessment

(b) For the purpose of providing funds to cover the necessary costs of any advertising or sales promotion plan authorized in any marketing order issued by the director pursuant to this chapter, each and every person engaged in the production, processing, distributing or handling of any agricultural commodity within this State, and directly regulated by any such marketing order issued pursuant to this chapter for such commodity, shall pay to the director, at such times and in such installments as the director may prescribe, an additional assessment based upon the units in which such agricultural commodity is marketed, or upon any other uniform basis which the director determines to be reasonable and equitable, but in amounts which will not exceed four per cent (4%) of the gross dollar volume of sales by all producers, or by all processors, distributors or other handlers of such agricultural commodity, regulated by such marketing order during the marketing season or seasons during which such marketing order is effective; provided, that assessments shall be required from producers alone if producers only are regulated, as to the commodity affected, by the marketing order; that assessments shall be required from producers and from processors, distributors or other handlers if both such groups are regulated, as to the commodity affected, by the marketing order; and that assessments shall be required from processors, distributors or other handlers alone if only processors or distributors or other handlers are regulated, as to the commodity affected, by such marketing order. Whenever both producers and processors, distributors or other handlers are regulated by a marketing order, the assessment for advertising or sales promotion may in the case of producers be based upon the form in which the agricultural commodity is delivered by producers to processors, distributors or other handlers and in the case of processors, distributors and other handlers upon the processed form of such commodity as sold by processors, distributors or other handlers; provided, that no producer, processor, distributor or other handler shall be subject to such assessment for advertising or sales promotion covering the same agricultural commodity in more than one existing marketing order.

From whom required

Deposit in advance

For the purpose of providing funds to cover the costs of such advertising or sales promotion plans incurred prior to the receipt of sufficient funds from assessments as provided

herein, the director may require each person so assessed to deposit with him in advance an amount not exceeding twenty-five per cent (25%) of such assessment, based upon the estimated number of units of such commodity to be marketed or handled by such person, or upon any other uniform basis which the director determines to be reasonable and equitable, during such marketing season. At the close of such marketing season the sum so deposited by such person shall be adjusted to the amount which is properly chargeable against such person pursuant to the assessment authorized herein.

The director shall prescribe the rules and regulations with respect to the assessment and collection of such funds for such purposes.

Deposit of moneys

(c) Any moneys collected by the director pursuant to this act shall be deposited in a bank or banks, or other depository, approved by the Director of Finance, allocated to each marketing order under which they are collected, and disbursed by the director only for the necessary expenses incurred by the advisory board and the director and approved by the director with respect to each such separate marketing order. Funds so collected shall be deposited and disbursed in conformity with appropriate rules and regulations prescribed by the director. The expenditure of such funds shall be exempt from the provisions of Section 669 of the Political Code. Any moneys now in the State Treasury to the credit of the "State Marketing Act Trust Fund" shall be withdrawn and deposited in accordance with the provisions of this subdivision.

Refund

Any moneys remaining in such fund, allocable to any particular agricultural commodity affected by a marketing order, at the discretion of the director, may be refunded at the close of any marketing season upon a pro rata basis, to all persons from whom such funds were collected; provided, that, upon termination by the director of any marketing order, any and all moneys remaining, and not required by the director to defray the expenses of such marketing order, shall be returned by the director upon a pro rata basis, to all persons from whom such funds were collected; provided further, however, that if the director finds that the amounts so returnable are so small as to make impractical the computation and remitting of such pro rata refund to such persons, the director may use such funds to defray the expenses incurred by him in the formulation, issuance, administration or enforcement of any subsequent marketing order for such commodity. At the expiration of a period of two years from the date of such finding by the director, any of such moneys remaining and not so used by the director shall become available for use by the director for marketing functions and said sums shall be transferred to the then current appropriation for support for the Department of Agriculture payable from the General Fund.

In the event of failure of such person or persons to pay any such assessment upon the date determined by the director, the director may file a complaint against such person or persons in a State court of competent jurisdiction for the collection thereof.

Failure to pay

In the event any producer or handler duly assessed pursuant to the provisions of this act fails to pay to the director the amount so assessed on or before the date specified by the director, the director is hereby authorized to add to such unpaid assessment an amount not exceeding ten per cent (10%) of such unpaid assessment to defray the cost of enforcing the collection of such unpaid assessment.

Stats 1939, p 2137

SEC. 5. Section 1300.23 of the Agricultural Code is hereby amended to read as follows:

Deposit for expense of marketing order

1300.23. (a) Prior to the issuance of any marketing order by the director, under this chapter, the director may require the applicants therefor to deposit with him such amount as the director may deem necessary to defray the expenses of preparing and making effective such marketing order. Such funds shall be received, deposited and disbursed by the director in accordance with the provisions set forth in Section 1300.17 hereof.

Reimbursement

The director may reimburse the applicant in the amount of any such deposit from any funds received by the director pursuant to the provisions of paragraph (a) of Section 1300.17.

The director may also reimburse the applicant from any funds received by the director pursuant to the provisions of paragraph (a) of Section 1300.17, for any necessary expenses incurred by the applicant in preparing and in obtaining approval upon such marketing order upon receipt of a verified statement of such expenses approved by the director

1300.28. The director shall have power to terminate any such marketing agreement or license, or both, and to amend such marketing agreement or license, or both, as provided in Section 1300.16 hereof.

Ratification and validation

SEC. 7. Any marketing order issued by the director pursuant to Chapter 10, Division 6, of the Agricultural Code and

in effect upon the twenty-sixth day of June, 1939, which by its terms was to remain in effect until the first day of January, 1941, or later, and as to which the director prior to the effective date of this act did not make a finding that such order was in conformity with Section 1300.14 of the Agricultural Code as amended by Chapter 665 of the Statutes of 1939, is hereby validated, ratified, approved and confirmed.

Urgency

SEC. 8. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and therefore shall take effect immediately.

The following is a statement of facts constituting such necessity:

The orderly marketing of agricultural crops is essential to the welfare of the people of this State. The economic conditions of many agricultural producers throughout the State are such as to require immediate assistance, if their purchasing power and taxpaying ability are to continue and their morale and standard of living are not to be undermined. Seasonal and accumulated surpluses of agricultural commodities which have a seriously depressing effect upon marketing conditions must be directed into channels of trade and consumption through the aid of orderly marketing procedure, including sound advertising and sales promotion plans. To make the services rendered expeditious and responsive to needs, an improved means for depositing and disbursing funds collected by assessment must be provided. To be of maximum benefit, the provisions of this act must be made available for application during the current harvest season; hence, it is necessary that this act take effect immediately.

CHAPTER 962

An act to amend Section 356a of the Political Code, relating to contracts between different State agencies.

All moneys received by any agency, other than The Regents of the University of California, under the provisions of this section shall be deposited in the State Treasury and shall be used in augmentation of the appropriation made for such agency; if received by The Regents of the University of California, such moneys shall be added to the other funds provided for or accruing to the use of the University of California, to be used in the same manner and for the same purposes as other funds made available to the university.

CHAPTER 963

Stats 1937, p 1005, amended

An act to add Chapter 7, comprising Sections 7300 to 7310, inclusive, to Part 4 of Division 6 of the Welfare and Institutions Code, relating to the establishment and maintenance of an acute neuropsychiatric hospital, creating a board of trustees therefor, and providing for the powers and duties of the Department of Institutions and The Regents of the University of California in connection therewith.

In effect September 13, 1941

[Approved by Governor July 12, 1941. Filed with Secretary of State July 15, 1941.]

The people of the State of California do enact as follows:

New chapter

SECTION 1. Chapter 7, comprising Sections 7300 to 7310, inclusive, is hereby added to Part 4 of Division 6 of the Welfare and Institutions Code, to read as follows:

CHAPTER 7. LANGLEY PORTER CLINIC

The Langley Porter Clinic

7300. There is an acute neuropsychiatric hospital located on grounds adjacent to the campus of the University of California Medical School which shall be The Langley Porter Clinic.

Jurisdiction

7301. The Langley Porter Clinic is under the jurisdiction of the Department of Institutions.

7302. The Langley Porter Clinic shall be conducted and maintained for the purpose of treating incipient and acute mental and nervous cases. All admissions shall be on a voluntary basis. There shall be conducted and maintained in conjunction with the hospital unit an out-patient clinic. Purpose

7303. The Regents of the University of California deeded unconditionally to the Department of Institutions the land upon which The Langley Porter Clinic is constructed. The purpose of the deed of gift was to provide for the State a suitable site whereon through the agency of the Department of Institutions there might be constructed, and thereafter maintained and operated, an acute neuropsychiatric hospital unit. There has been constructed upon that land The Langley Porter Clinic. It was the further purpose of the regents to enable the State, through the Department of Institutions, to develop as far as possible preventive work in the field of mental disorders, and to make full provision for the diagnosis of such disorders in their incipient and earliest stages with a view to instituting timely and more effective treatment. It was the further purpose of the regents to insure to the State through the proximity of The Langley Porter Clinic to the Medical Center of the University of California, full opportunity for consultation with the university's personnel at the Medical Center, and to provide opportunities for the State and the University of California to cooperate in prevention, diagnosis, treatment and promotion of research in the field of mental disorder, and advancement of the learning and knowledge of students of the university, and others whose work lies in the fields of surgery and medicine, and, in particular, in those branches of medical science which have to do with mental and nervous diseases and disorders. It is, therefore, the intent of the Legislature that all the facilities and services of the Department of Institutions at The Langley Porter Clinic be made available to The Regents of the University of California at the desire of the Department of Institutions to make such facilities and services available. The people of the State of California do enact as follows:

Stats 1937, p 1417

SECTION 1. Section 61 of the act cited in the title hereof is hereby amended to read as follows:

Power to incur indebtedness restricted

Sec. 61. The board of directors or other officers of the district shall have no power to incur any debt or liability whatever, either by issuing bonds or otherwise, in excess of the express provisions of this act; and any debt or liability incurred in excess of such express provisions shall be and remain absolutely void, except that for the purposes of organization, or for any of the purposes of this act, the board of directors may, before the levying of the first assessment, incur indebtedness in such sum or sums as shall amount to two thousand dollars ($2,000), or, if the district shall contain more than 4,000 acres, to one-half as many dollars as there are acres of land in the district, and may cause warrants of the district to be issued therefor, bearing interest at not more than 7 per centum per annum, said rate to be fixed by the board of directors. Each such warrant shall be made payable on a date not later than the first day of July next after the first assessment in the district shall be levied, and if not paid when presented on the due date or thereafter shall be registered and the amount due thereon shall draw interest as provided in Section 61a of this act. Nothing contained in this section shall be construed

Contracts or leases

as limiting the right of the board to enter into any contract or lease for any lands, waters, water rights or other property necessary in the judgment of the board for any of the uses or purposes of the district, and by such lease or contract to bind the district for the payment of the consideration specified in such lease or contract as may be provided therein, but if the largest payment to be made under any one such lease or contract in any year exceeds an amount equal to one-fourth of 1 per cent of the total valuation of the land in the district according to the assessment book thereof last equalized before the making of such lease or contract, such lease or contract shall not be valid unless approved by the California District Securities Commission, or unless an assessment sufficient to meet all the principal payments to become due under such lease or contract shall have been or shall be authorized for that purpose in accordance with Section 59 of this act.

Warrants

If any such contract shall provide for any future payment or payments, the board may cause warrants to be issued for such payment or payments, which warrants shall be made payable

at the time or times provided in said contract for such payment or payments. If a special assessment shall have been voted as provided in Section 59 of this act, the board may cause warrants, in an amount or amounts equal to the amount of said assessment, to be issued for the purpose or purposes thereof, which warrants shall be made payable at such time or times as the board may estimate that provision for their payment may be made from the proceeds of said assessment. In case any district shall have outstanding any warrants registered as provided in Section 61a of this act, such warrants or any thereof and the accrued interest thereon may be refunded by the issuance of warrants payable at stated times to be fixed by the board, and such warrants may be exchanged for such registered warrants or may be sold for not less than the par value thereof to provide funds for the payment of such registered warrants or any thereof and the accrued interest thereon. The board may also issue warrants payable at a future time or times in consideration of money loaned to the district for the purchase of any of its outstanding bonds or the refinancing or retiring of any outstanding contract; provided, that the annual interest payable on the warrants so issued shall be less than the annual interest on the bonds purchased or contract refinanced or retired with the proceeds of said warrants. Any warrant made payable as aforesaid at a future date shall draw interest at a rate to be fixed by the board, not to exceed 6 per cent per annum, payable annually or semiannually as the board may prescribe, and the board may cause coupons, payable to bearer and in such form and to be signed as the board may prescribe, to be attached to such warrant to evidence such interest. No warrants made payable more than five years from the date thereof shall be valid unless the issuance of such warrants shall have been authorized by a majority of the electors voting at a special election called within the district by the board for the purpose of determining whether such warrants shall be authorized. Notice of any such election shall be given and such election shall be held and the result thereof determined as provided in Section 30d of this act. In case any district shall issue warrants payable at specified future dates as herein provided and such district shall own any land or other property which it is authorized by law to lease or sell, the board may, in the contract providing for the issuance of such warrants, agree that the proceeds of the leasing or sale of such land or other property, not required by law to be used for other purposes, may be allocated to the payment of such warrant or warrants, and in such case the income or proceeds of said land or other property so allocated shall not be diverted to any other purpose until such warrant or warrants shall have been paid in full.

No waiver of any default or breach of duty or contract, whether by any bondholders or any trustee therefor, shall extend to or shall affect any subsequent default or breach of duty or contract or shall impair any rights or remedies thereon. All provisions of this act applicable to the issuance of revenue bonds shall be applicable to such funding or refunding bonds and to the issuance, sale or exchange thereof. Funding or refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds to be funded or refunded thereby and, in addition, for the payment of all expenses incident to the calling, retiring or paying of such outstanding bonds and the issuance of such funding or refunding bonds, including (among other things) the difference in amount between the par value of said funding or refunding bonds and any amount less than that for which such funding or refunding bonds may be sold and also any amount necessary to be made available for the payment of interest upon such funding or refunding bonds from the date of sale thereof to the date of payment of the bonds to be funded or refunded out of the proceeds of the sale thereof or the date upon which the bonds to be funded or refunded will be paid pursuant to the call thereof or agreement with the holders thereof, and also the premium, if any, necessary to be paid in order to call or retire such outstanding bonds, and the interest accruing thereon to the date of such call or retirement.

The powers conferred by this act shall be in addition and supplemental to, and not in substitution for, and the limitations imposed by this act shall not affect, the powers conferred by any other law. Any enterprise as herein defined may be acquired, constructed or improved and bonds may be issued under this act for said purposes, notwithstanding that any law may provide for the acquisition, construction or improvement of a like enterprise or the issuance of bonds for like purposes, and without regard to the requirements, restrictions, debt or other limitations or other provisions contained in any other law. In so far as the provisions of this act are inconsistent with the provisions of any other law, the provisions of this act shall be controlling. This act shall be liberally construed to promote the objects hereof. No error, defect, irregularity, informality, and no neglect or omission of any officer or any municipality in any proceedings taken hereunder, which does not affect the jurisdiction of the governing body to order the doing of the things proposed to be done, shall void or invalidate such proceedings or any bonds issued hereunder.

SEC. 21. Excision of Unconstitutional or Ineffective Parts of Act. It is hereby declared that the sections, clauses, sentences and parts of this act are severable, are not matters of mutual essential inducement, and any of them may be exscinded by any court of competent jurisdiction if this act would otherwise be unconstitutional or ineffective; it is the intention hereof to confer upon every municipality the whole or any part of the powers in this act provided for, and if any one or more sections, clauses, sentences and parts of this act shall for any reason be questioned in any court of competent jurisdiction, and shall be adjudged unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provision or provisions so held unconstitutional or invalid, and the inapplicability or invalidity of any section, clause, sentence or part of this act in any one or more instances shall not be taken to affect or prejudice in any way its applicability or validity in any other instance. To be effective such renewal application must be made upon forms prescribed by the board and must be accompanied by the annual renewal fee prescribed by this chapter or fixed by the board. Otherwise a Application for renewal

license, application for renewal of which has not been so filed on or before June 30th of each fiscal year, shall be ipso facto suspended until a renewal application is properly filed, and shall be renewable only if the application for the renewal thereof is filed with the registrar not later than September 30th of each year on a form prescribed by the board and is accompanied by the penalty fee prescribed by this chapter, or fixed by the board, in addition to the current renewal fee.

Time of filing

No license shall be renewed under any conditions unless the prescribed renewal application, together with all prescribed fees, is filed with the registrar on or before September 30th of each year.

Effect of filing

7141. The filing of a renewal application within the time, in the form and with the fees prescribed in this article, authorizes operation as a contractor by the licensee until the actual issuance of the renewal license for the ensuing fiscal year; provided, that the license of said applicant is not otherwise under suspension by reason of the decision of the registrar in a disciplinary proceeding.

Should a license otherwise entitled to be renewed be under suspension during the time within which a renewal application may be filed, and such application for renewal is filed, but

the suspension is not lifted or the license reinstated within a year from the date it was imposed, said application for renewal shall be denied and the fees tendered returned to the applicant with notice thereof and grounds therefor.

Failure to comply with rules

7145. The registrar may refuse the issuance of a renewal license to a licensee, otherwise entitled to the issuance of such license, for the failure or refusal on the part of such licensee to complete the renewal application form prescribed by the board, or to otherwise comply with rules and regulations adopted by the board relative to the issuance of renewal licenses, and which are not inconsistent with the provisions of this chapter.

At the option of the county superintendent of schools, a member employed in more than one district in any county may be counted in each of such districts as a fraction of one determined by dividing one by the number of such districts or may be counted as one in one of such districts and the pro rata portions of said six dollars ($6) transferred by the county superintendent of schools to said district from the funds of the respective other districts; otherwise each of said districts shall contribute six dollars ($6). The board shall transmit immediately said certificate to the State Controller with a statement of the amount due from each school district to the permanent fund and the amount due to said fund on account of the county superintendent of

schools and his deputies and certificated employees. The said Controller shall deduct from the apportionment of State funds payable to said county for the school districts therein in installments next following said April and November, respectively, a sum equal to six dollars ($6) for each of such members as calculated by the retirement board for each school district, and shall deduct from the apportionment of said funds payable to said county for the unapportioned county elementary school fund a sum similarly calculated by the retirement board for the county superintendent of schools and his deputies and certificated employees, and no payment of apportioned funds of said county shall be made until said deductions are made. If the apportionment installment to any district or to the unapportioned county elementary school fund be less than the contributions required in this section of said district or fund, said contributions shall be deducted from the total amount of the apportionment payable to said county and the county superintendent of schools shall transfer to the county treasurer from the funds of said district and/or from the unapportioned county elementary school fund such amounts as may be necessary to complete the crediting of the apportionment to the various districts and funds by the county treasurer as required in the School Code. Transfer to permanent fund

If such members are employed by any agency of the State, remittances to the retirement board of six dollars ($6) for each such member must be made in April and November of each year by the disbursing officer of the agency by which such members are employed, and such remittances shall be made out of funds provided for the support of such agency. Amounts due the permanent fund under this paragraph shall be calculated on the basis of the number of members on the last pay rolls in the current school year, prior to April 15th and November 15th respectively, or who, at the end of the respective periods covered by said pay rolls, were on leave of absence, serving in the armed forces of the United States of America, or of the State of California, as provided in Section 5.822 hereof.

(b) "Gift tax" means the tax levied under this act.

(c) "Includible gift" means the total gift, before allowance of any exemptions other than the intangibles or charitable exemptions, the transfer of which was subject to gift tax where the same transfer is also subject to inheritance tax at the death of the donor.

(d) The inheritance tax payable on an includible gift shall be reduced by a gift tax credit equal to the gift tax paid on the includible gift, subject to the limitations of this section.

(e) The gift tax paid in any year on the includible gift is deemed to be that proportion of the entire tax on all gifts by the donor to the donee in that year which the amount of the includible gift bears to the total gifts by the donor to such donee in that year.

(f) "Proportionate annual exemption" means the amount which bears the same proportion to the total annual exemption allowed for all gifts to the donee in the year the includible gift was made as the value of the includible gift at the date of gift or date of death, whichever is lower, bears to the total value at date of gift of all gifts by the donor to such donee in that year.

"Net includible gift" means the value of the includible gift at the date of gift or date of death, whichever is lower, less the proportionate annual exemption.

The gift tax credit shall not exceed an amount which bears the same proportion to the total inheritance tax imposed because of the donor's death on transfers (within the meaning of "transfer" as defined in Subdivision (3) of Section 1 of

the Inheritance Tax Act of 1935) to the donee as the net reduced includible gift bears to the gross value of property transferred to the donee.

SEC. 7. Section 36.5 is hereby added to said act, to read as follows: New section

A copy of the election shall be served on the inheritance tax appraiser prior to or concurrently with the filing of the election or, if the appraiser has not yet been appointed when the election is filed, the copy shall be served on the appraiser immediately after his appointment.

As soon as possible after the filing and serving of such election, the inheritance tax appraiser shall without charge appraise the property as of the date of gift and send a report in the form prescribed by the Controller to the person filing the election showing the value of the gift for gift tax purposes. The original of this report shall be filed as part of the gift return and constitutes prima facie evidence of the value of the gift or gift tax purposes. If the appraiser's report is

not received in time so that it can be filed as part of the gift return within the time during which the gift return may be filed without penalty, the gift return shall contain a statement of the facts and may be filed without the report, and the Controller shall in such cases by rule prescribe for the manner of filing the report thereafter or for other means of determining the value of the property.

If the failure to make a gift return or the failure to include any transfers in a gift return is the result of fraudulent intent to evade the tax, an additional penalty of 25 per cent attaches to the tax on the transfers not included in a gift return. The penalties imposed by this section attach as of the date of the gift and notice of the determination of the tax and penalty shall be sent to the donor or to the person liable for the tax in the same manner as any other determination of tax. These penalties shall be considered as part of the tax for the purpose of determining the date when the tax and these penalties are delinquent and for the purpose of determining the penalty for delinquency.

SEC. 3. Section 2 of the Motor Vehicle Fuel License Tax Act is hereby amended to read as follows:

Distributor's license

Sec. 2. Every person, firm, association or corporation before becoming a distributor shall make an application to the State Board of Equalization for a license authorizing such distributor, person, firm, association or corporation to engage

Application

in business as a distributor. Applications for such licenses must be made to the State Board of Equalization on forms to be prescribed, prepared and furnished by said board. It shall be unlawful for any person, firm, association or corporation to be a distributor without first securing from the State Board of Equalization a license for which provision is made

in this section. Before granting any license authorizing any person, firm, association or corporation to engage in business as a distributor, the State Board of Equalization must require such person, firm, association or corporation to file with said board, in such form as shall be prescribed by said board, a bond duly executed by such person, firm, association or corporation as principal and a corporation such as is mentioned in Section 1056 of the Code of Civil Procedure of this State, as surety, payable to the people of the State of California, conditioned upon faithful performance of all the requirements of this act and expressly providing for the payment of all license taxes, penalties and other obligations of such person, firm, association or corporation arising out of this act. Bond

The total amount of the bond or bonds required of any distributor shall be fixed by the State Board of Equalization and may be increased or reduced by said board at any time subject to the limitations herein provided. In fixing the total amount of the bond or bonds required of any distributor, the State Board of Equalization must require a bond or bonds equivalent in total amount to twice his estimated monthly license tax determined in such manner as said board may deem proper; provided, however, that, subject to such terms and conditions as the State Board of Equalization may prescribe, any distributor may undertake to pay on each Tuesday the license tax accruing on all of his distributions of motor vehicle fuel during the week ending the Saturday next preceding, and, if any distributor shall so bind himself, said board shall fix his bond or bonds in a total amount equivalent to twice the license tax accruing on account of his estimated weekly distributions determined in such manner as said board may deem proper; and further provided, that the total amount of the bond or bonds required of any distributor shall never be less than one thousand dollars ($1,000) nor more than one hundred thousand dollars ($100,000). Amount of bond

Any recovery on a bond shall decrease the liability of the surety thereon to the extent of the recovery, but the mere recovery of part of the penalty of a bond shall not of itself cancel the remaining liability under the bond; neither shall the execution of a new bond nor the revocation of any license affect existing liabilities under any bond. A surety, however, may relieve itself of further liability pursuant to Section 2851 of the Civil Code.

In lieu of any such bond or bonds in total amount as fixed hereunder, any distributor may deposit with the State Treasurer, under such terms and conditions as said board may prescribe, a like amount of lawful money of the United States, or bonds or other obligations of the United States, the State of California, or any county or city and county of this State, of an actual market value not less than the amount so fixed by said board. All licenses issued to distributors under this section shall be valid until revoked by the State Board of Equalization. Discharge of bond

If weekly installment payment undertaken

Nothing in this section shall be construed as relieving any distributor of the duty of filing the sworn monthly statement required by Section 6 of this act. The assessment of any distributor who makes weekly payments shall be shown on the assessment roll prepared under said Section 6 in the same manner as the assessments of other distributors are shown thereon, and the Controller shall apply such payments to the credit of such distributor on the assessment roll for the month during which the distributions covered by such payments were made. Whenever any distributor undertaking to pay his license tax in weekly installments, as provided in this section, shall fail to pay the full amount thereof in accordance with the terms and conditions prescribed by the State Board of Equalization, his license may be revoked forthwith, unless he complies immediately with the requirement of this section relating to the filing of a bond or bonds equivalent in total amount to twice the estimated monthly license tax. In the event of nonpayment of any weekly installment of the license tax, or any part thereof, pursuant to the undertaking of any distributor, the full amount of the license tax accrued against such distributor shall become immediately due and payable and the Controller and the Attorney General shall proceed forthwith to collect the license tax due from such distributor in the manner prescribed by Section 4 of this act with reference to delinquency in the payment of the monthly license tax. All provisions of said Section 4 shall apply with full force and effect to collections required to be made under this section; provided, however, that the 10 per cent penalty for delinquency for which provision is made under Section 4 hereof shall accrue only as provided in said section, and there shall be added to any weekly installment of license tax not paid on Tuesday following the close of such week, a penalty of 5 per cent on account of such delinquency. The weekly installment shall be deemed not paid on the Tuesday on which required to be paid if not paid prior to 5 p.m. of that day, if paid in person, or, if paid by mail, if the envelope in which the remittance is inclosed bears a post-office cancellation mark dated later than 12 p.m. of that day. The accrual of any such penalty of 5 per cent shall not in anywise affect the 10 per cent penalty for delinquency imposed under Section 4 hereof, but such 10 per cent penalty shall not be computed upon any amount added to such weekly license tax as a penalty under this section.

Discontinuance

The license issued hereunder to any distributor shall not be transferable. Whenever a distributor ceases to engage in business as a distributor within the State of California by reason of the discontinuance, sale or transfer of such business, he shall give notice in writing thereof to the State Board of Equalization on or before the date of such discontinuance, sale or transfer. Such notice shall give the date of discontinuance and, in the event of a sale or transfer of the business, the date

thereof and the name and address of the purchaser or transferee. All taxes and penalties under this act, not yet due and payable under other provisions hereof, shall become due and payable concurrently with such discontinuance, sale or transfer, and the distributor shall forthwith make a report and pay all such taxes and penalties, and shall surrender to the State Board of Equalization the license theretofore issued. Unless such notice shall have been given as hereinbefore provided, such purchaser or transferee shall be liable for all taxes and penalties under this act accrued against the vendor or transferor to the date of such sale or transfer, but only to the extent of the value of the property and business thereby acquired.

Producers' and brokers' license

Every person, firm, association or corporation before becoming a producer or broker shall apply for a license on forms prescribed by the State Board of Equalization. Each such application shall be accompanied by a license fee of ten dollars ($10) payable to the State Board of Equalization.

Issuance of license

Upon the receipt of such application, accompanied by such license fee, the State Board of Equalization shall issue to every such applicant, except as otherwise provided herein, a license to engage in such business from the date of the issuance thereof, until and including the following December 31st, unless sooner canceled or revoked. Before January 1st of each year an application shall be filed and a license obtained by each such producer or broker for the succeeding calendar year. If any producer or broker shall fail to apply for the license hereby required and to pay the fee hereby specified prior to January 1st of each year, then there shall be added to the amount of such fee a penalty of 25 per cent on account of such delinquency. Any license so issued shall not be transferable and may be revoked by the State Board of Equalization as hereinafter provided. All license fees collected under the provisions of this section shall be credited to the "Motor Vehicle Fuel Fund" hereinafter created.

Refusal

In the event that an application for a distributor's, producer's or broker's license shall be filed hereunder by an applicant formerly holding under this act any license which, prior to the time of filing such application, shall have been revoked for cause by said board, or in the event that said board shall determine that such application is not filed in good faith or not made by the real person in interest, then, and in any of said events, said board may refuse to issue a license to the applicant. Before such refusal, however, said board shall grant the applicant a hearing and shall give the applicant at least 10 days' written notice of the time and place thereof. Such notice may be served personally or by mail. If by mail, service shall be made in the manner prescribed by Section 1013 of the Code of Civil Procedure and addressed to the applicant at his address as the same appears in the records of said board.

The unsold portion of any property so seized may be left at the place of sale at the risk of the distributor. If, upon any such sale, the moneys so received shall exceed the amount of all license taxes, penalties and costs due the State from such distributor, any such excess shall be returned to the distributor, and his receipt therefor obtained. If, for any reason, the receipt of such distributor shall not be available, the Controller shall deposit such excess moneys with the State Treasurer, as trustee for such owner, subject to the order of such distributor, his heirs, successors or assigns.

The Controller must also immediately transmit notice of such delinquency to the Attorney General who shall at once proceed to collect all sums due to the State from any such distributor hereunder by bringing suit against the necessary parties to effect forfeiture of the bond or bonds of the distributor or of the money or securities deposited by the distributor with the State Treasurer in accordance with the terms of Section 2 of this act, reducing any deficiency to judgment against the distributor.

It is expressly provided that the foregoing remedies of the State shall be cumulative and that no action taken by the Controller or the Attorney General shall be or be construed to be an election on the part of the State or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this act. In any suit brought to enforce the rights of the State hereunder the assessment roll prepared by the State Board of Equalization pursuant to Section 6 of this act, or a copy of so much thereof as is applicable in such suit, duly certified by the Controller showing unpaid license taxes assessed against any distributor, shall be prima facie evidence of the assessment of the license tax, the delinquency thereof, the amount of the license tax, penalties and costs due and unpaid to the State, that the

CHAPTER 1038

An act to amend Section 137 of the Civil Code, relating to domestic relations, including actions for the support and maintenance of children.

In effect September 13, 1941

[Approved by Governor July 12, 1941. Filed with Secretary of State July 16, 1941.]

The people of the State of California do enact as follows:

Stats 1929, p 161

SECTION 1. Section 137 of the Civil Code is hereby amended to read as follows:

Alimony, permanent and temporary support, and costs of prosecution

137. When an action for divorce is pending, the court may, in its discretion, require the husband or wife, as the case may be, to pay as alimony any money necessary to enable the wife, or husband, to support herself and her children, or to support himself and his children, as the case may be, or to prosecute or defend the action. When the husband or wife wilfully deserts the wife or husband, as the case may be, or when the husband or wife has any cause of action for divorce as provided in Section 92 of this code, he or she may, without applying for divorce, maintain in the superior court an action against her or him for permanent support and maintenance of himself or herself or of himself and children, or of herself and children. When the husband wilfully fails to provide for the wife, she may, without applying for divorce, maintain in the superior court an action against him for permanent support and maintenance of herself or of herself and children. When a father wilfully fails to provide for his children, the mother of the children may, without applying for a divorce or maintenance for herself, maintain in the superior court an action against him solely for the support and maintenance of the children. During the pendency of any such action the court may, in its discretion, require the husband or wife, as the case may be, to pay as alimony or as costs of action or as

attorney's fees any money necessary for the prosecution of the action and for support and maintenance, and execution may issue therefor in the discretion of the court. The court, in granting the husband or wife permanent support and maintenance of himself or herself, or of himself and children or herself and children, in any such action, shall make the same disposition of the community property and of the homestead, if any, as would have been made if the marriage had been dissolved by the decree of a court of competent jurisdiction. The final judgment in such action may be enforced by the court by such order or orders as in its discretion it may from time to time deem necessary, and such order or orders may be varied, altered, or revoked at the discretion of the court.

CHAPTER 1039

An act to amend the Agricultural Code by amending Sections 795, 828, 828.5, 828.85, 829.1 thereof, by adding new sections thereto, to be numbered 795.1, 795.2, 796, 796.1, 828.83, and by repealing Sections 796 and 797 thereof; and to provide standards for oranges, grapefruit, lemons and other citrus fruits and for the enforcement thereof, to provide for mandatory standard containers for citrus fruits and the marking thereof.

Stats. 1933, p. 60, amended

[Approved by Governor July 12, 1941. Filed with Secretary of State July 16, 1941.]

In effect September 13, 1941

The people of the State of California do enact as follows:

SECTION 1. Section 795 of the Agricultural Code is hereby amended to read as follows:

Stats. 1939, p. 1770

795. Oranges, lemons and limes shall be mature and free from decay; free from serious damage due to freezing, drying at the stem or blossom end (resulting from causes other than freezing), splits, bruises or punctures, and in addition lemons shall be free from serious damage due to sunburn or internal decline. Damage by drying at the stem or blossom end of all oranges, lemons and limes (resulting from causes other than freezing), and by internal decline or drying due to sunburn of lemons, is not serious unless 20 per cent or more of the pulp shows staining, drying or desiccation. Damage from freezing to any one fruit is not serious unless (a) it causes a drying or desiccation in 20 per cent or more of the exposed pulp as shown on a transverse cut through the center or (b) it causes, before the drying process develops, a water-soaked appearance, or evidence of previous water-soaking, or the presence of crystals or crystalline deposit, on the two surface membranes of each of two or more segments as shown on the separation of two or more segments of a section, which section shall not be less than one inch or more than one and

Citrus fruits

Freezing damage

one-half inches in thickness, obtained from the central portion of the fruit by cutting off a portion of each end—such evidence of freezing injury to show for the entire length but not necessarily the entire area of the surface membranes.

The percentage of serious damage to oranges, lemons and limes in containers, or in bulk, may be established by inspection of a representative sample which shall consist of not less than 100 fruits. Damage caused by splits, bruises or punctures in any such citrus fruit is not serious if the injury is well healed and free from mold or decay. Damage other than drying, caused by sunburn to lemons, is not serious unless it affects the edible portion of the fruit.

With the exception of serious damage caused by freezing, not more than 10 per cent, by count, of the oranges, lemons and limes in any one container or bulk lot may be below these requirements but with the exception of serious damage by sunburn and internal decline of lemons, or by drying at the stem or blossom end of oranges, lemons and limes (resulting from causes other than freezing), not to exceed one-half of this tolerance shall be allowed for any one cause. In the case of serious damage by freezing injury, when the determination of serious freezing damage is based on a water-soaked appearance, or evidence of previous water-soaking, or the presence of crystals or crystalline deposit, on the surface membranes of the segments, as herein defined, and before the drying process develops, not more than 15 per cent, by count, of the oranges, lemons and limes in any one container or bulk lot may be below these requirements. After the drying process develops and the determination of serious freezing damage is based on a transverse cut, as herein defined, not more than 15 per cent, by count, of the oranges, lemons and limes in any one container or bulk lot may be below these requirements, but not to exceed one-third of this tolerance shall be allowed for oranges, lemons and limes which show a drying or desiccation in 40 per cent or more of the exposed pulp, as shown on a transverse cut through the center. The total tolerance for a combination of defects shall not exceed the tolerance permitted for any one cause by more than 5 per cent, by count.

New section

SEC. 2. A new section is hereby added to the Agricultural Code, to be numbered Section 795.1 and to read as follows:

Mature oranges

795.1. Oranges, except bloods, tangerines and mandarins, shall not be considered mature unless the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of eight parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), and unless, before picking, they have attained at least 25 per cent of characteristic color.

"Twenty-five per cent of characteristic color" in the case of oranges is defined as that color designated by the Munsell

color notation as hue one and fourteen one-hundredths green-yellow, value five and twenty-three one-hundredths chroma four and three-tenths (1.14GY5.23/4 3). Oranges shall be considered as having exceeded 25 per cent color if the average hue of the surface of each fruit is numerically less than one and fourteen-hundredths green-yellow, regardless of the other components of the color.

SEC. 3. A new section is hereby added to the Agricultural Code, to be numbered Section 795.2 and to read as follows: New section

795.2. Lemons shall not be considered mature unless they have reached that stage of ripeness which will insure the proper completion of the ripening process after they have been picked from the tree. Mature lemons

SEC. 4. Section 796 of the Agricultural Code is hereby repealed. Stats. 1937, p. 711

SEC. 5. A new section is hereby added to the Agricultural Code, to be numbered Section 796 and to read as follows: New section

796. Grapefruit shall be (1) mature, (2) free from serious decay, (3) free from serious damage by freezing or drying due to any cause, (4) free from serious injury due to any cause, (5) free from serious scars, including those caused by insects, (6) free from serious scale, (7) free from serious dirt, smudge stain, sooty mold, rot residues or other foreign material, (8) free from serious staining, (9) free from serious greenish or brownish rind oil spots, (10) free from serious spotting or pitting, (11) free from serious roughness, (12) free from serious aging, (13) free from serious softness, (14) free from serious sunburn, (15) free from serious sheepnose. Mature grapefruit

The following standards shall be applied in determining whether or not grapefruit meet the requirements of this section:

(1) Grapefruit are not mature unless (a) at the time of picking and at all times thereafter the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of five and one-half parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), except that in view of differences in climatic conditions prevailing south and east of San Gorgonio Pass, which result in the grapefruit grown in that area having, at maturity, a higher percentage of soluble solids to acid than the mature grapefruit grown in the area north and west of said San Gorgonio Pass, grapefruit produced in the area south and east of San Gorgonio Pass are considered mature if at the time of picking and at all times thereafter the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of six parts to every part of acid contained in the juice (the acidity

Mature grapefruit

of the juice to be calculated as citric acid without water of crystallization), and (b) 90 per cent or more of the grapefruit, by count, at time of picking and at all times thereafter have attained, on at least two-thirds of the fruit surface, at least a minimum characteristic yellow or grapefruit color, as indicated by Color Plate No. 19 L3 in "Dictionary of Color," Maerz & Paul first edition 1930. Grapefruit produced outside of this State under climatic conditions similar to those prevailing in the area south and east of San Gorgonio Pass and offered for sale in this State shall meet the same maturity standard as that prescribed for grapefruit produced south and east of said San Gorgonio Pass.

(2) Decay is serious if any part of the grapefruit is affected with decay.

(3) Damage by freezing or drying due to any cause is serious if 20 per cent or more of the pulp or edible portion of the grapefruit shows evidence of drying or a mushy condition; and damage by freezing or drying due to any cause is very serious if 40 per cent or more of the pulp or edible portion of the grapefruit shows evidence of drying or a mushy condition. Evidence of damage shall be determined by as many cuts of each individual grapefruit as are necessary.

(4) Injury due to any cause is serious if the skin (rind) is broken and the injury is not healed.

(5) Scars, including those caused by insects, are serious if they are dark, or rough, or deep and if they aggregate 25 per cent or more of the fruit surface.

(6) Scale is serious if 50 per cent or more of the fruit surface shows scale infestation in excess of 50 scales per square inch.

(7) Dirt, smudge stain, sooty mold, rot residues, or other foreign material are serious if an aggregate area of 25 per cent or more of the fruit surface is affected.

(8) Staining of the skin (rind) is serious if 50 per cent or more of the fruit surface is affected with a pronounced discoloration.

(9) Greenish or brownish rind oil spots are serious if they cover an aggregate area of 25 per cent or more of the fruit surface.

(10) Spotting or pitting is serious if the spots or pits are sunken and cover an aggregate area of 10 per cent or more of the fruit surface.

(11) Roughness is serious if 90 per cent or more of the fruit surface is rough and coarse, or lumpy.

(12) Aging is serious if one-third or more of the surface of the grapefruit is dried and hard.

(13) Softness is serious if the grapefruit is flabby.

(14) Sunburn is serious if it causes decided flattening of the fruit and drying and discoloration of the skin (rind) affecting more than one-third of the fruit surface.

(15) Sheepnose is serious if the stem end of the grapefruit protrudes decidedly.

Representative sample

The compliance or noncompliance with the standards for grapefruit prescribed in this chapter, except as to maturity, may be determined from a representative sample taken as follows:

(a) When in containers the sample shall consist of not less than 10 per cent, by count, of the grapefruit in each of the containers selected as the sample.

(b) When in bulk the sample shall consist of not less than 100 grapefruit, except that where the total number of grapefruit in the bulk lot is less than 1,000 grapefruit a representative sample shall consist of 10 per cent of the grapefruit.

Each individual grapefruit may be examined for one or all of the defects, except as to maturity, but only one defect shall be counted or scored against any individual grapefruit.

The official sample for testing for maturity of grapefruit shall consist of not less than 30 grapefruit.

Any such sample so taken shall constitute prima facie evidence of the character of the entire lot from which such sample was taken, as provided in Section 782 of this code.

Tolerances to be applied to certain of the foregoing standards are hereby established. The grapefruit in any one container or bulk lot shall be deemed as a whole to meet the requirements of Standards Numbers 2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 of this section so long as not over 10 per cent, by count, of the individual grapefruit in such container or bulk lot are below said standards, and so long as not over 5 per cent, by count, thereof are below any one of said standards. The grapefruit in any one container or bulk lot shall be deemed, as a whole, to meet the requirements of Standard Number 3 of this section so long as not more than 15 per cent, by count, of the individual grapefruit in such container or bulk lot are seriously damaged by freezing or drying due to any cause, but not to exceed one-third of this tolerance shall be allowed for very serious damage by freezing or drying due to any cause.

It shall be unlawful to mix or blend any lot of grapefruit which fails to conform to the requirements of this chapter with other lots which conform to such requirements, for the purpose of selling, marketing or transporting the fruit which has thus failed to conform to the requirements of this chapter.

New section

SEC. 6. A new section is hereby added to the Agricultural Code, to be numbered 796.1 and to read as follows:

Mixing or blending

796.1. No lot of citrus fruit failing to conform to the requirements because of serious damage caused by freezing injury may be mixed or blended with other lots of citrus fruit which conform to these requirements, resulting in the concealment of inferior fruit, thereby reducing the percentage of defective fruits in the seriously damaged lots to within the tolerance which is permitted for errors in grading only.

Any packed, wrapped citrus fruit which has been in storage or after being shipped fails to meet the requirements of the standards for citrus fruits established in this chapter only by reason of brown rot, blue mold, or green mold which has occurred after packing, shall not be held for violation of the provisions of this chapter on account of such deterioration.

Oranges (except tangerines and mandarins), grapefruit, and lemons when packed shall be in standard containers as provided and designated for each such citrus fruit in Section 828.83.

All containers of packed citrus fruits when packed and lidded shall bear upon them in plain sight and in plainly legible letters on one outside end: The name of the packer thereof together with a sufficiently explicit address to permit ready location of such packer; the number and average diameter of the citrus fruit in the container, except that containers of tangerines, mandarins and limes when not regularly packed, may instead be marked with the cubical capacity of the container; in the case of oranges and grapefruit the name of the variety, if known, and when not known, the words "unknown variety" or "seedlings."

Stats 1933, p 178

SEC. 7. Section 797 of the Agricultural Code is hereby repealed.

Stats 1939, p. 1482

SEC. 7.5. Section 828 of the Agricultural Code is hereby amended to read as follows:

Standard containers

828. There are hereby established standard containers and standard packs for the fruits, nuts and vegetables mentioned in Section 829, when being packed or placed in any container, or after packing, or when delivered for shipment, loaded, shipped, being transported, or sold in any container. These standard containers are permissive unless otherwise provided in this chapter. The words "standard" or "standard container" shall not be placed on any container unless such container conforms to the requirements specified for the standard containers of such fruit, nut or vegetable. When the fruit, nut or vegetable is packed in a standard container and in conformity to the standard pack established for such product, and then only, may the container be marked with the words "standard pack" or "standard container and pack."

The numbers, names, and dimensions of standard containers are set forth in the following sections. All measurements, unless otherwise specified, are measurements inside in inches, and reading from left to right are measurements of depth, width, and length, respectively.

Stats 1939, p 1484

SEC. 8. Section 828.5 of the Agricultural Code is hereby amended to read as follows:

These standard containers are hereinafter referred to by their respective numbers.

SEC. 10. Section 829.1 of the Agricultural Code is hereby amended to read as follows: Stats 1941, p 1275

whether or not the same arose out of or in the course of the employment of such employee, the amount deducted from the salary due him for any month or months in which such absence occurs shall not exceed the sum which shall actually have been paid a substitute employee employed to fill his position during his absence.

Excepting in a district the governing board of which has adopted a salary schedule for substitute employees of the district under School Code Section 5.736, the amount paid such substitute employee during any such month or months shall be less than the salary due the employee absent from his duties.

When a person employed in a position requiring certification qualifications is absent from his duties on account of illness for a period of more than five school months, or when a person is absent from his duties for a cause other than illness, the amount deducted from the salary due him for the month or months in which such absence occurs shall be determined according to the rules and regulations established by the governing board of the district; provided, however, that such rules and regulations do not conflict with rules and regulations of the State Board of Education.

Notice of incompetency

The term "incompetency" as used in this section means, and refers only to, the incompetency particularly specified as a cause for dismissal in School Code Section 5.650 and does not include any other cause for dismissal specified in School Code Section 5.650.

On and after July 1, 1941, in order to qualify for a rectifier's license, a person must actually be engaged at the time the license is issued or renewed or within 30 days thereafter, in the bottling of distilled spirits owned by him. Said distilled spirits so owned by him shall comprise at least 50 per cent of the total distilled spirits bottled by him. Licenses

Provided, however, that nothing in this section shall be construed to prohibit the issuance of a distilled spirits manufacturer's agent's license to any person who is engaged in the bottling of distilled spirits owned solely by other manufacturer's agents, rectifiers, wholesalers or manufacturers.

A rectifier who also performs the functions of a distilled spirits wholesaler shall comply with all the provisions of this act applicable to a holder of a distilled spirits wholesaler's license.

(d) Any importer's license authorizes the person to whom issued to become an importer of alcoholic beverages specified in the license and to export such alcoholic beverages, and to transfer such beverages to himself under another license.

No wholesale license shall be issued to any other person who does not in good faith actually carry on or intend to carry on a bona fide wholesale business, by sale to retail licensees, of the alcoholic beverage designated in such wholesale license and the board may revoke any

(i) An industrial alcohol dealer's license authorizes the sale of undenatured ethyl alcohol in packages of more than one gallon for use in the trades, professions or industries and not for beverage consumption.

(j) Any on-sale license authorizes the sale of the alcoholic beverage specified in the license for consumption on the premises where sold. An on-sale distilled spirits license authorizes the purchase and possession of distilled spirits in packages of not more than one gallon capacity and of not less than one-half pint capacity; except that nothing in this act shall be deemed to prevent the purchase or possession in packages of less than one-half pint capacity of bitters or other aromatic or flavoring or medicinal preparations, which are classed for taxing purposes as distilled spirits, by on-sale licensees. An on-sale beer and an on-sale beer and wine license also authorizes the exercise, with respect to the particular beverage or beverages mentioned in such license, of the rights and privileges granted by an off-sale beer and wine license; provided, however, that none of the licensees mentioned in this sentence shall have the right by reason of any such license in this sentence mentioned, to label, bottle or package or refill any package with any alcoholic beverage. On trains and boats, under such licenses, alcoholic beverages may be served only to passengers or employees.

(m) Any manufacturer's, manufacturer's agent's, importer's, rectifier's or wholesaler's license shall also authorize the transfer of title to such alcoholic beverages to other licensed manufacturers, manufacturer's agents, importers, rectifiers and wholesalers when such alcoholic beverages are in storage in a licensed public warehouse, United States customs bonded warehouse or United States internal revenue bonded warehouse or United States bonded storerooms located at any place within the State without any additional or other license therefor.
