Prima facie speed limits

511. Prima Facie Speed Limits. The speed of any vehicle upon a highway not in excess of the limits specified in this section or established as authorized in this code is lawful unless clearly proved to be in violation of the basic rule declared in Section 510 hereof.

The speed of any vehicle upon a highway in excess of any of the limits specified in this section or established as authorized in this code is prima facie unlawful unless the defendant establishes by competent evidence that any said speed in excess of said limits did not constitute a violation of the basic rule declared in Section 510 hereof at the time, place and under the conditions then existing.

The prima facie limits referred to above are as follows and the same shall be applicable unless changed as authorized in this code and, if so changed, then only when signs have been

erected giving notice thereof, in which event the speed designated on the sign shall be the prima facie limit:

Fifteen miles

(a) Fifteen miles per hour:

(1) When passing a school building, or the grounds thereof, contiguous to the highway during school recess or while children are going to or leaving such school during opening or closing hours or while the playgrounds of any such school are in use by school children.

The authority having jurisdiction over the highway may erect such signs whenever considered necessary for the protection of life or property.

Increasing 25 mile limit

511.1. Authority to Increase 25-Mile Limit. Whenever the Department of Public Works determines upon the basis

of an engineering and traffic investigation that a speed of 35 miles per hour or 45 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any State highway otherwise subject to a prima facie limit of 25 miles per hour under this code, the department may determine and declare a prima facie speed of 35 or 45 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

New section

SEC. 5. Section 511.2 is hereby added to the Vehicle Code, to read as follows:

Decreasing 55 mile limit

511.2. Authority to Decrease 55-Mile Limit. Whenever the Department of Public Works determines upon the basis of an engineering and traffic investigation that the prima facie limit of 55 miles per hour is more than is reasonable or safe upon any portion of a State highway for a distance of not exceeding 1,500 feet in length between districts, either business or residence, or 1,000 feet at the end of either thereof, the department may determine and declare a reasonable and safe prima facie limit thereon lower than 55 miles per hour, but not less than 25 miles per hour, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon said highway.

New section

SEC. 6. Section 511.3 is hereby added to the Vehicle Code, to read as follows:

Whenever speed restriction signs have been erected upon any highway as authorized in this code, the prima facie speed upon such highway so signposted shall be presumed to be that displayed upon such signs unless it is established by clear and competent evidence that the nature of the district or the provisions of this code do not substantiate the speed restrictions as set forth upon such signs.

CHAPTER 1061

Stats 1933, p 60, amended

An act to amend Section 92 of the Agricultural Code, relating to district agricultural fairs.

In effect September 13, 1941

[Approved by Governor July 12, 1941. Filed with Secretary of State July 16, 1941.]

The people of the State of California do enact as follows:

Stats 1939, p 2385

SECTION 1. Section 92 of the Agricultural Code is hereby amended to read as follows:

State premium money

92. The Department of Finance shall apportion any money appropriated by the State for the encouragement of county, district or combined county and district fairs to the various agricultural fairs on the basis of the amount which each fair actually paid in premiums for agricultural, horticultural, mineral and live stock exhibits, and exhibits of domestic arts and agricultural mechanics made or manufactured for other than

commercial purposes, in each year. The money so apportioned shall be paid to the several counties and district agricultural associations as soon as such apportionment is determined.

Advances

The Department of Finance, out of any money on hand to be apportioned, may advance to any county or district agricultural association, for the purpose of paying premiums, at any time during the year, any portion of the money to which, in the opinion of the Director of Finance, the county or district agricultural association will become entitled for that year.

Deposit in bank

The county or district agricultural association shall deposit such money in a separate bank account approved by the Director of Finance in accordance with the provisions of Section 10 of an act entitled "An act to authorize and control the deposit in banks of money belonging to or in the custody of the State and to repeal all acts or parts of acts in conflict with this act," approved April 12, 1923, as amended.

Stats 1935, p 461

Expenditures

Such money may be expended for premiums, capital outlay, including purchase of land, construction, improvements, equipment, or other purposes for the encouragement of county or district agricultural association fairs pursuant to a budget submitted to, and approved by, the Department of Finance subject to the provisions of Section 677.5 of the Political Code.

All sums expended from such moneys for construction and improvements by counties shall be subject to the provisions of Section 4041.18 of the Political Code.

Statement of premiums paid

The county auditor or secretary of any such fair desiring to share in any such appropriation shall file with the Department of Finance on or before December 31st, of each year, a sworn statement setting forth the actual amount paid for premiums by such fair held in that year.

Allocation base

Six thousand dollars ($6,000) shall be the maximum base of allocation paid any fair for its first year of operation, and thereafter in each subsequent year in which a fair is held the maximum base of allocation shall increase by 10 per cent over the maximum base for the year in which a fair was last held.

In the event the premiums paid during any year in which a fair is held are less than the maximum base of allocation for that year, the base of allocation for that year shall be the premiums so paid during such year. For any fair operated prior to 1933 which received, or was qualified to receive, money from appropriations for the support of agricultural fairs, the basis may be increased 10 per cent for each year in which a fair was held from the time the fair was first held, except that if no fair was held by the county or district for a period of five or more years the percentage of increase shall apply only from the first fair held after said period. Any fair may pay premiums in an amount greater than that used as the base of apportionment to it.

Department of Finance Rules and regulations

The Department of Finance shall prescribe rules and regulations for the judging of exhibits, and the maximum amount of premiums which may be offered and paid for all classes,

sections, and types of exhibits. No fair shall receive any apportionment of funds under this section unless it complies with such rules and regulations.

Restrictions on allotments

No allotment from the appropriation herein provided shall be made for more than one fair in any one year in any county or district. The fact that a county or district contracts one with the other or with a county fair association, to hold an agricultural fair shall not bar it from receiving a proper proportion of the moneys herein appropriated, except that no county or district may hold a joint or combined fair and receive an allotment of money under the provisions of this section. No fair for which a separate appropriation is made by the State shall participate in the apportionment of any money appropriated for the encouragement of county and district agricultural fairs.

Examination of books and records

The Department of Finance, in its discretion, may at any time examine the books and records of any fair to determine the correctness of any statement or report filed with the Department of Finance.

5726. If it appears, and the board of supervisors finds that it is necessary, in order to make a sufficient and adequate examination, to continue the hearing beyond 90 days, the board may

for that purpose continue the hearing for not longer than six months from the date of the presentation of the petition.

Additional development work

5727. The board of supervisors is not bound by the improvement or development work described in the petition, or by the estimated cost set forth, but it may find that other, different, or less amount of improvement or development work should be done, and find the estimated cost and the incidental expenses.

5770. Bonds issued are obligations of the district. The governing board shall annually, before the time of fixing the general tax levy for county purposes, estimate the amount of money necessary to be raised by taxation to meet the payment of principal and interest on outstanding bonds which will become payable before the proceeds of another tax levy made at the time of the next general tax levy for county purposes can be made available for payment of such principal and interest.

The total estimate shall be divided by the governing board in proportion to the value of the real property of the district in each county. The value shall be determined from the equalized values of the last assessment rolls of the counties. If not, the board of supervisors of the county in which the harbor or greatest part by area is located succeeds to and is vested with the maintenance, management and control of the harbor. This board of supervisors may employ and pay all necessary agents, servants and employees to manage, maintain and control it.

The board of supervisors maintaining, managing and controlling the harbor shall do so for the benefit of the entire district and shall use funds received solely from operating receipts of the harbor, or from taxes levied only in its county.

SEC. 3. Section 19.1 of the Agricultural Prorate Act is hereby amended to read as follows:

Powers of program committee re adverse marketing conditions

Sec. 19.1. The program committee for the purpose of minimizing the effect of surpluses or other adverse market conditions may be empowered in any program in any one or more of the following particulars:

(a) To establish and maintain surplus, stabilization or diversion pools. The program committee shall be authorized to receive from each producer for delivery into a surplus pool or stabilization pool the uncertificated portions of the marketable supply of the agricultural commodity covered by a marketing program and market the same by grades or sizes for the account of such producers when it can be advantageously disposed of either in its original or converted state. The program committee shall designate the quantity or the percentage of the marketable supply of such commodity that shall be placed in the stabilization pool and the quantity or the percentage of the marketable supply of such commodity that shall be placed in the surplus pool. The program committee shall be authorized to receive from each producer for delivery into a diversion pool such quantity or percentage of the production, of each producer, which fails to qualify for marketing or sale under grade, quality or size regulations established in the marketing program or under standardization laws or other laws of this State or of the United States. In operating any such stabilization, surplus or diversion pool, the program committee may fix grading, packing and servicing charges to be assessed against such commodities received into such pools and requiring such handling. The program committee shall have title to all of the commodity in each of such pools and shall handle all of such commodity received into each of such pools and account for the same to each producer who is beneficially interested therein upon a pooled basis.

(1) In the case of surplus pools, the contents of any such pool shall not be marketed in any form which would directly compete with that part of the crop which is regularly certificated or which is in a stabilization pool. However, any part of any such surplus pool may be turned over by a program committee to charitable organizations, self-help cooperatives, and similar agencies under proper safeguards to prevent any part of the commodity so disposed of from directly competing with the part of the crop marketed through the usual channels of trade.

(2) In the case of any stabilization pool, the contents thereof may be disposed of or may be marketed from time to time as the program committee deems advisable, and

consistent with the maintenance of stabilized marketing conditions.

(3) In the case of any diversion pool, the contents thereof shall be disposed of for by-products or for other diversion purposes under proper safeguards to prevent any part of the commodity so disposed of from directly competing with the part of the crop marketed through the usual channels of trade.

(b) To create, establish or otherwise obtain and operate facilities for the financing, grading, packing, servicing, processing, preparing for market and disposal of such surplus in such manner as to maintain stability in the markets and to dispose of such surplus or the contents of established pools and/or any of their derived products.

(c) To create, maintain and disburse an equalization fund to be used for the removal of any inequalities between producers as to the total volume marketed through prorated channels resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to relief, by-products, or other noncompetitive purposes pursuant to a marketing program.

(d) To establish, adopt and apply methods for correlating the marketable supply of any commodity to the reasonable market demands therefor by means of volume limitation, time limitation, diversion, or by grade, quality or size regulations applicable to the total production of any commodity, or to that portion of any commodity which qualifies for marketing pursuant to standards authorized in the marketing program or standardization laws or other laws of this State, or of the United States.

(e) To broaden distribution and increase consuming outlets by appropriate educational and trade stimulation efforts of a general industry nature and not unfairly depreciative of the quality of any other food product.

Cost

The cost of the exercise of such powers as are herein granted to the program committee shall be a part of the cost of the operation of the program and shall be obtained through fees in the same manner as other costs of the program; provided, that no part of any funds raised for equalization fund purposes specified in subsection (c) of this section shall be applied to the cost of maintenance of the commission and the Department of Agriculture.

Liability for errors, etc.

No member or alternate member of any program committee nor any employee thereof shall be held liable individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member or employee, except for acts of dishonesty.

Acreage adjustment payments

(f) For the purpose of providing for the adjustment of production of any agricultural commodity by means of tree or

vine pulling, the program committee may receive applications from growers for acreage adjustment payments. The program committee shall, upon proper review and certification, make such acreage adjustment payments on an equitable basis from funds collected for such purpose on a uniform basis from all commercial growers of such agricultural commodity in this State, or from funds received from Federal, State or other agencies for such purpose.

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by State or Federal agencies or such other data as the director deems to be representative and reliable.

Stats 1939, p. 2499

SEC. 4. Section 21 of the Agricultural Prorate Act is hereby amended to read as follows:

Fees

Sec. 21. The zone agent for each marketing program shall collect, either for each primary certificate or for each secondary certificate or for both such kinds of certificates issued to producers, a reasonable and proportional fee to be fixed by the program committee, subject to the approval of the director, so calculated as to provide an amount adequate to defray the necessary expenses of instituting and carrying out such marketing program and a proper proportion of the cost of the maintenance of the commission and of the Department of Agriculture in the performance of duties required by this act. The proportion of the fees payable to the commission and to the Department of Agriculture may vary upon a seasonal basis for each program according to the estimated expense to be incurred by the director and the commission in administering such program; provided, that the amount so required shall not exceed fifteen per cent (15%) of the certificate fees collected by the zone agent specifically for administrative purposes and in addition such proportion of fees collected for any trade stimulation or sales promotion program as may be required by the commission and the director to administer such program which shall in no event exceed five per cent (5%) of the fees collected for such purpose, unless the payment of a larger proportion of such funds is approved by the program committee for such marketing program.

Upon request of any program committee of any marketing program, the commission shall confer with said committee or its representatives prior to fixing the amount or proportion of any fees of said marketing program payable to the Department of Agriculture for maintenance of the commission and the department in the performance of the duties required by this act.

All such fees shall be deposited promptly by the zone agent in a bank or banks approved by the Director of Finance, and shall be accounted for forthwith to the Director of Agriculture. Such deposit shall be made in the name of the zone under which such funds are collected and shall be disbursed by the director, pursuant to rules and regulations prescribed by the director, and approved by the commission, only for the expenditures incurred by the program committee in carrying out the specific purposes and provisions of such marketing program, including all necessary expenses incurred in the formulation, administration and enforcement of such marketing program. Deposit and disbursement

The proportionate amount of fees payable, as determined herein, to the Department of Agriculture shall be withdrawn from such funds monthly by the director and paid into the Department of Agriculture Fund in the State Treasury and shall be used only for the support of the commission and of the Department of Agriculture in carrying out their duties as required by this act. Amount payable to Department of Agriculture

At the end of any marketing season as designated in each marketing program, after proper provision has been made for the payment of all necessary expenses incurred in connection therewith, any funds remaining to the credit of the program committee shall be refunded upon a pro rata basis to all persons from whom such funds were collected; provided, that, if the program continues in effect, such refund may be deferred for a period not to exceed six months from the date of the close of the next preceding marketing season so as to permit the program committee to use such residual funds to meet operating expenses in such succeeding season until sufficient funds have been collected to enable such committee to make such refund and to defray current operating expenses. At the time such refund is made, the program committee shall file with the director a claim for such refund to growers entitled thereto; provided, however, that, if the director finds that the amounts so returnable are so small as to make impractical the computation and remitting of such pro rata refund to such persons, the director may authorize the retention of such funds to the credit of the program committee for subsequent use in carrying out such marketing program; provided further, that on or after the effective date of this act the director may authorize the transfer of any balances remaining from previous seasons to the fund available for the then current season and any balances so transferred shall be used for carrying out the marketing program in such current season or the next succeeding season. Surplus funds Refund Claim

No agent or employee of the program committee shall have or receive any funds collected pursuant to the provisions of this act until such agent or employee has filed with the director a bond in such form and in such penal sum as the director may prescribe. Bond

Payments by State agencies for costs of administration

Sec. 59. Every State agency which is supported in whole or in part otherwise than by appropriations from the General Fund shall pay monthly to the board that proportion of the cost of administering the State Civil Service Act which that part of the State agency's pay roll, paid out of appropriations from a fund other than the General Fund and paid to civil service employees, bears to that part of the total pay rolls of all State agencies which is paid to civil service employees.

SEC. 3. Section 172 of the State Civil Service Act is hereby amended to read as follows: Stats 1941, p 1795

Sec. 172. (a) Whenever it is necessary because of lack of work or lack of funds or whenever it is advisable in the interests of economy to reduce the staff of any State agency, the appointing power may lay off employees according to the procedure set forth in this act and the rules of the board. Lay-off

(b) The duties performed by the employee or employees so laid off may be assigned to any other employee or employees in the State agency holding positions in appropriate classes.

(c) With the approval of the board, only the employees of a designated geographical, organizational or functional subdivision of a State agency need be considered for layoff, and in such event reemployment lists shall be established for such subdivision, which lists shall take priority over the departmental and other reemployment or employment lists.

In determining seniority two points shall be allowed for each complete year of State service performing work which would fall in the series of classes related to the employee's present class.

(e) The employee or employees in the class under consideration having the lowest combined score or scores for efficiency and seniority, up to the number of positions to be abolished or discontinued, shall be laid off, but as between two or more such employees who have the same score, their respective performance rating or ratings shall be considered, and such employee or employees having the lowest performance rating or ratings shall be the first laid off.

(f) When an employee has previously served the State with permanent status in any class below that of the class under consideration or its equivalent in any previous classification, the employee shall be afforded the option of being demoted to the lower class in lieu of being laid off to replace the employee in said lower class having the lowest score for efficiency and seniority; provided, such score is lower than that of the employee being demoted.

(g) Any employee replaced by such demotion who has previously served the State with permanent status in the class or its equivalent in any previous classification below that in which he was serving at the time of replacement shall have the same option of demotion as though his position were abolished or discontinued, and under the conditions provided in this act may replace the employee in said lower class.

(h) The names of employees thus laid off or demoted shall be placed upon the reemployment list for the subdivision

Lay-off from which they were laid off, if such a subdivision was created pursuant to paragraph (c) of this section, upon the departmental reemployment list for the class from which they were laid off or demoted and also upon the general reemployment list for such class, and for such other appropriate classes as the board may determine. Any employee certified to a position from any reemployment list for a class different than that held by him when laid off shall serve a probationary period before attaining permanent status in such position. Any employee who is recertified to a position in a class after layoff, or demotion in lieu of layoff, from a position in said class shall receive the same salary as such employee previously received in said position prior to such layoff or demotion.

(i) Whenever any employee accepts a voluntary demotion under the provisions of Section 147, or is demoted to a lower class by reason of a layoff or replacement in accordance with subdivision (f) or (g), his performance rating in such lower class shall be the same as his last previous rating in such class, if any, and shall continue to be for all purposes until the first regular date, next following such demotion, for making and submitting performance ratings.

(j) All employees compensated on a monthly basis who are to be laid off under the provisions of this act shall be given 15 days' notice of such layoff prior to the effective date thereof.

Appeal (k) Any employee may appeal to the board within 30 days of receiving notice of layoff on the grounds that the procedure herein prescribed has not been complied with or that the layoff has not been made in good faith or was otherwise improper. The board shall within 30 days of such Hearing appeal hold such hearing or investigation as it may deem necessary. The board may also conduct any such hearing or investigation within 30 days of receiving a notice of layoff on its own motion. In rendering a decision as a result of any hearing or investigation held pursuant to this subdivision the board may order the reinstatement of the employee with or without pay if it appears that the proper procedure has not been followed or that the layoff was not made in good faith or was otherwise improper.

New section SEC. 4. A new section to be numbered 151.6 is hereby added to the State Civil Service Act, to read as follows:

Absence because of compensable injury Sec. 151.6. No period of time during which an employee is required to be absent from his position by reason of an injury or disease for which he is entitled to receive compensation under the provisions of Division 4 of the Labor Code shall be considered a break in his continuous service for the purpose of his right to salary adjustments, sick leave, vacation, or seniority.

Stats 1937, p 2097 SEC. 5. Section 90 of the State Civil Service Act is hereby amended to read as follows:

CHAPTER 1170

An act to add Section 222 to the Welfare and Institutions Code, relating to the payment of county warrants issued for aid to indigents, needy children, to the needy blind and the needy aged.

Stats 1937, p 1005, amended

[Approved by Governor July 14, 1941. Filed with Secretary of State July 16, 1941.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 222 is hereby added to the Welfare and Institutions Code, to read as follows:

New section

222. No county warrant issued for the giving of aid to an indigent, a needy aged person, a needy child or a needy blind person shall be paid by the county treasurer unless such warrant is presented to him for payment within six months after the date of its issuance.

Time for presenting county warrant for payment

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the State Constitution, and as such it shall take effect immediately. The following is a statement of the facts constituting such necessity:

Urgency

The Federal Social Security Act provides for quarterly payments to eligible States for use in aiding the needy aged, the needy blind and needy dependent children; such payments being based in part on State reports of estimated needs filed at the commencement of each quarterly period, and in part on semiannual investigations and audits conducted by Federal agents. In the case of California, which is one of the States eligible for payments, serious administrative difficulties have been experienced in connection with these reports and audits for the reason that under the existing law warrants issued by county auditors for the extension of aid need not, and frequently are not, presented for payment within a period of six months after their issuance. Unless this situation is corrected there is danger of a withholding by the Federal Government of Social Security funds to which this State is justly entitled. This act provides the remedy and, if made to take effect at the earliest time possible, will ward off all possibility of such withholding.

Such certificates of investment shall require uniform weekly, semimonthly or monthly payments over the period of the loan, final payment not to be payable until the maturity date of the loan. Such certificates of investment shall be purchased by the borrower simultaneously with each loan transaction, of a face value not exceeding the face amount of the loan, and shall be pledged with the corporation as security for said loan.

Second—To sell or negotiate investment certificates either in certificates, or in receipt book form, in addition to the sale of installment investment certificates with loans, for the payment of money at any time, either fixed or uncertain, and to receive payments therefor in installments or otherwise, with or without an allowance of interest upon such installments. Nothing herein contained shall be construed to authorize corporations hereunder to receive deposits or to issue certificates of deposit. The investment certificates herein authorized shall bear the indorsement on the face of the instrument, "this is not a certificate of deposit." Sale of investment certificates

Third—In addition to the interest rate charged, to charge and deduct in advance, the sum of two dollars ($2) or less on every fifty dollars ($50) or fraction thereof loaned, for fees, bonuses, commissions, brokerage, discounts, expenses and other forms of costs charged, contracted for or received by an industrial loan company and all other persons from the borrower in connection with the investigating, arranging, negotiating, procuring, guaranteeing, securing, making, and servicing of a loan or forbearance of money, credit, goods or things in action, or for any other service or services rendered in relation thereto, except as hereinafter provided. Fees, brokerage, etc

In the event that any borrower shall be in default for a period of more than 15 days in the payment of any loan or in the payment upon any installment investment certificate issued in connection with such loan, the industrial loan company, in addition to the interest and charges permitted by this act and deducted in advance, may charge and collect for enforcing and collecting such loan, including attorneys' fees, a sum which when added to the interest, brokerage and all other charges deducted in advance or otherwise charged, contracted for or received, shall not exceed the maximum rates hereinafter provided. Attorney's fees, etc

However, it is hereby provided that the interest, brokerage and all other charges by an industrial loan company, broker and all other persons on any loan, forbearance of money, credit, goods or things in action under this act, shall not exceed in the aggregate 2½ per cent per month on that portion of the unpaid principal balance up to, including but not in excess of one hundred dollars ($100), 2 per cent per month on that portion of the unpaid principal balance in excess of one hundred dollars ($100) up to, including but not in excess of three hundred dollars ($300), and 10 per cent per annum on that portion of the unpaid principal balance in excess of three hundred dollars ($300). excess of three hundred dollars ($300). All payments made by the borrower on the installment investment certificates purchased by the borrower in connection with the making of the loan shall be regarded as payments on the loan and shall be applicable, first, to interest and all other charges within the maximum statutory rate provided in this paragraph and, secondly, to reduction of the unpaid principal of the loan advanced to the borrower in determining the "unpaid principal balance" as hereinabove referred to.

Other charges

However, it is provided that nothing in this section denies the right to the industrial loan company in addition to interest, brokerage and all other charges herein provided to contract for, collect and receive at the time of making the loan or at any time thereafter, the statutory fee paid by it to any public officer for acknowledging, filing, recording or releasing in any public office any instrument securing the loan or executed in connection therewith. Also, nothing in this section prohibits the lender from collecting in addition to the interest, brokerage and all other charges herein provided the costs for insurance, of tangible personal or real property offered as security for a loan, reasonably insured against loss for a reasonable term considering the circumstances of the loan; provided, such insurance is sold at standard rates through a duly licensed insurance agent.

Costs of collection

Nothing in this section shall deny the right to any industrial loan company in the enforcing and collecting of a delinquent loan of an unpaid principal balance in excess of three hundred dollars ($300):

(b) To contract for, collect and receive the bona fide expenses actually incurred and paid by the industrial loan company, not exceeding 10 per cent of the unpaid principal balance of the loan where no judgment at law is sought.

No charge shall be collected unless a loan shall have been made. Whenever the interest and/or charges deducted in advance shall exceed the maximum provided by this section, by reason of subsequent repayment of the loan or any portion thereof prior to maturity or prepayment of installments on the investment certificate purchased with the loan, such excess shall be refunded to the borrower or credited on any balance owing by the borrower to the company.

Establishment of offices

Fourth—To establish offices or places of business within the county in which its principal place of business is located and elsewhere within and without the county within a radius of 100 miles from its principal place of business.

Such order shall become effective upon receipt by such company of notice hereof and

shall continue in full force and effect until rescinded or modified by the Corporation Commissioner in writing and delivered to the manager or executive officer thereof. Whenever in the judgment of the Corporation Commissioner the condition of any such company warrants such action, the liabilities, the payment of which has been so suspended, may be paid in lawful money by such company in whole or pro rata in part upon such terms and conditions as the Corporation Commissioner may prescribe.

Nothing herein contained shall affect the right of any such company to pay its current operating expenses and liabilities incurred during such period of suspension or limitation.

After such order of suspension or limitation and until such order of suspension or limitation shall be rescinded, no assignment or hypothecation shall be made by such company of any indebtedness due to it from an investor without first crediting thereon the investment liability of the company to such investor-borrower.

Powers of commissioner

The Corporation Commissioner is hereby authorized and empowered to prescribe such rules and regulations as he may deem necessary to carry out the provisions of this act.

Nothing herein contained shall be construed to limit the powers of the commissioner pursuant to this act or any other laws now in effect.

The authority herein contained is in addition to the other powers provided in this act, and in the discretion of the commissioner, may be exercised by him in conjunction therewith or independently thereof.

Violation

Whenever the commissioner shall believe from evidence satisfactory to him that any company, director, officer, agent or employee thereof has violated or is about to violate any of the provisions of this act, or any order, license, permit, decision, demand or requirement of the commissioner, or any part or provision thereof, he may bring an action in the name of the people of the State of California in the superior court of the State of California against such company, director, officer, agent or employee thereof to enjoin such company, director, officer, agent or employee thereof from continuing such violation or engaging therein or the attempt to violate said act or doing any act or acts in furtherance thereof. In said action an order or judgment may be entered awarding such preliminary or final injunction as may be proper.

Powers of Commissioner of Corporations not affected

SEC. 12. Nothing in this act contained shall be deemed or construed as a limitation or restriction of or as in any way affecting the power or discretion of the Commissioner of Corporations under the Corporate Securities Act or any other statute now or hereafter in effect, to issue a permit authorizing any corporation under the provisions of this act to issue and dispose of choses in action, including certificates of investment to be used in connection with loan transactions, in such amount and upon such terms and conditions as he may in such permit provide and to impose such conditions as he

may deem necessary to the issue of such securities and to establish such rules and regulations as may be reasonable or necessary to insure the disposition of the proceeds of such securities in the manner and for the purposes provided in such permit and from time to time for cause to amend, alter or revoke any permit issued by him or to refuse to issue such permit or otherwise authorize the issue of such securities.

Bond

SEC. 13. At the time of filing an application for a permit to issue securities, the applicant shall file with the Commissioner of Corporations a bond to be approved by the commissioner in which the applicant shall be the obligor, in the sum of one thousand dollars ($1,000) with one or more sureties, to be approved by the commissioner, whose liability as such sureties need not exceed the said sum in the aggregate. The said bond shall run to the State for the use of the State and of any person or persons who may have cause of action against the obligor of said bond under the provisions of this act. Such bond shall be conditioned that the said obligor will faithfully conform to and abide by the provisions of this act and of the Corporate Securities Act, and of all rules and regulations lawfully made by the commissioner under either of said acts, and will pay to the State and to any such person or persons any and all moneys that may become due or owing to the State or to such person or persons from said obligor under and by virtue of the provisions of this act and of the Corporate Securities Act.

Stats 1917, p 673

Additional bond

If the commissioner shall find at any time that the bond is insecure or exhausted in whole or in part or otherwise doubtful, an additional bond to be approved by him, with one or more sureties to be approved by him and of the character specified in this section, in the sum of not more than one thousand dollars ($1,000), shall be filed by the industrial loan company within 10 days after written demand upon the industrial loan company by the commissioner.

If a bond or additional bond as hereinabove required is already on file, no further bond may be required to be filed with subsequent applications. This provision, however, does not prevent the commissioner from requiring additional bonds as above provided in connection with or without any relation to any application to sell and issue securities.

Duties of companies

SEC. 19. Every industrial loan company hereunder shall:

(1) Deliver or cause to be delivered to the borrowers, or any one thereof, at the time the loan is made, a statement in the English language showing in clear and distinct terms the name and address of such industrial loan company and the broker, if any; the date, amount and maturity of the loan contract, how and when repayable, the nature of the security, if any, for the loan, and the agreed rate of charge.

However, reasonable insurance, considering the circumstances of the loan, shall not be deemed such collateral sale, purchase, or agreement when the policy is payable to the borrower or any member of his family, even though the customary mortgage clause is attached or the industrial loan company is made a coassured; provided, that such insurance is sold at standard rates through duly licensed insurance agents.

Any profit or advantage of any kind whatsoever that any industrial loan company or broker or any other person may contract for, collect, receive or in any wise obtain by a collateral sale, purchase or agreement, in connection with the negotiating, arranging, making or otherwise in connection with any loan, except commissions received as a licensed insurance agent or broker on insurance sold at standard rates, shall be deemed to be charges for the purpose of regulation under this act. The increasing complexity of economic relationships has resulted in a rapid extension of the field of administrative law, and a growing need for the development of an administrative procedure, particularly including the review of administrative decisions, that assuredly will afford adequate protection to the citizen without impairment of expedition in the transaction of the public business. Much research in relation to the method and manner of the review of such decisions has been done by the State Bar of California, the American Bar Association, the American Law Institute, the National Conference of Commissioners on Uniform State Laws, and other agencies and groups. 1. By failing to appear at the trial;

2. By written consent filed with the clerk or justice;

3. By oral consent, in open court, entered in the minutes or docket;

4. By failing to announce that a jury is required, at the time the cause is first set upon the trial calendar if it be set upon notice or stipulation, or within five days after notice of setting if it be set without notice or stipulation; provided, that in justices' courts such waiver may be made by failure of either party to demand a jury within two days after service upon him of the notice provided for in Section 594 of this code; provided further, that in any superior court action if a jury is demanded by either party in the memorandum to set cause for trial and such party thereafter by announcement or by operation of law waives a trial by jury, then in said event any and all adverse party or parties shall be given 10 days' written notice by the clerk of the court of such waiver, whereupon, notwithstanding any rule of the court to the contrary, such adverse party or parties shall have not exceeding five days immediately following the receipt of such notice of waiver, within which to file and serve a demand for a trial by jury and deposit advance jury fees for the first day's trial whenever such deposit is required by rule of court, and if it is impossible for the clerk of the court to give such 10 days' notice by reason of the trial date, or if for any cause said notice is not given, the trial of said action shall be continued by the court for a sufficient length of time to enable the giving of such notice by the clerk of the court to such adverse party.

Regardless of anything contained in the foregoing to the contrary, the court may in its discretion, upon such terms as may be just, allow a trial by jury to be had, although there has been a waiver of such a trial.

In justices' courts such deposit must be made two days prior to the date set for trial or prior to the date to which the trial has been postponed because of the demand for a jury trial; in other courts such deposit must be made 10 days prior to the date set for trial.

6. By failing to deposit with the clerk or justice, promptly after the impanelment of the jury, a sum equal to the mileage or transportation (if any be allowed by law) of the jury accrued up to that time;

Stats 1933, p 60, amended

An act to amend the Agricultural Code by adding a new section thereto to be numbered Section 796.2, by amending Section 829.5 thereof and by repealing Section 795.5, and to require uniformity of size, regularity of packing and the use of lidded standard containers in connection with the marketing of citrus fruit.

In effect September 13, 1941

[Approved by Governor July 15, 1941. Filed with Secretary of State July 17, 1941.]

The people of the State of California do enact as follows:

Legislative finding

SECTION 1. It is hereby found and declared that the citrus industry of California is a permanent industry upon which the prosperity of the State in a large measure depends; that the citrus industry is now, and has for several years been, threatened with severe losses because of low prices received for fruit in markets outside of the State of California and resulting low returns to producers; that unless such conditions are remedied recurring losses in the future are likely to occur; that the effect thereof is to seriously imperil the citrus

industry; that such low prices are in part caused by demoralization of out-of-state markets through the use in the marketing and shipment of citrus fruits from California of deceptive packs and packing containers; that the packing of oranges, lemons or grapefruit in loose or "jumble" packed containers, unlidded, permits the filling of an otherwise standard package with a deceptively small quantity of irregularly sized fruit as compared to the standard package in competition with which it is sold; that these conditions are not so prevalent in markets within the State of California because transportation conditions are such as to cause the greater portion of the fruit sold in such markets to be in loose form; that certain small consumer packages designed for sale in unbroken packages to the consumer do not have at this time these same deceptive or demoralizing tendencies.

SEC. 2. A new section is hereby added to the Agricultural Code to be numbered Section 796.2, and to read as follows: New section

796.2. All oranges, grapefruit or lemons intended for shipment out of the State of California, before being so shipped, shall be regularly packed throughout in lidded standard containers, as specified in this code for such fruit, and shall be uniform in size. As used in this section the term "regularly packed throughout" means that the individual fruits shall be packed in the container in straight rows; and the term "uniform in size" shall mean that not more than 5 per cent, by count, of the fruits in any one container may be more than 15 per cent larger or smaller in diameter than the average diameter of the fruit in the container as marked on the outside end thereof, and that none thereof may be more than 20 per cent larger or smaller in diameter than such average diameter as so marked. Packing of citrus fruit for out-of-State shipment

The provisions of this section shall not apply to (1) the sale, marketing or transportation for sale or marketing of oranges, grapefruit or lemons for charitable purposes, unemployment relief or for use by the United States Government or its agencies for relief distribution, or (2) the sale, marketing or transportation for sale or marketing of oranges, grapefruit or lemons in closed containers intended for sale to the consumer in their unbroken form and the net contents of which do not exceed 15 pounds. Exceptions

SEC. 3. Section 829.5 of the Agricultural Code is amended to read as follows: Stats 1937, p 1195

829.5. Nothing in this chapter prohibits the preparation, packing, shipment or sale of fruits, nuts or vegetables in any experimental type of containers not conforming to the standards prescribed in this chapter, if: Experimental containers

(a) Each such container is conspicuously marked, in letters not less than one-half inch in height, "Experimental Container"; and

(b) Notice of intention to use such containers, stating the quantity intended to be shipped, is given to the director by the person intending to use the same at least 15 days before shipment; and

(c) The quantity of any particular fruit, nut or vegetable shipped in any such experimental type of container in any one calendar year by any person does not exceed 1 per cent of the total car lot quantity of such fruit, nut or vegetable shipped in all types of containers by such person in the preceding calendar year.

Any type of container which is uniformly marked as provided in paragraph (a) of this section and which is not used for shipping fruits, nuts and vegetables in excess of the quantities permitted by paragraph (c) of this section shall be deemed an experimental type of container within the meaning of this section.

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of this State and therefore shall take effect immediately. The following is a statement of the facts constituting such necessity:

The taking of fish for commercial purposes in the districts affected by this act utilizes a natural resource of this State and supplies a valuable food to the people of the State and at the same time furnishes a livelihood to a number of residents. Under the present law such commercial fishing is seriously impeded because of restrictions imposed for the protection of sport fishing. The provisions of this act are necessary in order to permit a reasonable utilization of the fish resources of the State and the conservation of the supply of both commercial and sporting fish, and in order that such benefits will become available during the current and impending fishing seasons it is necessary that this act take immediate effect.

An act to amend Section 5.722 of the School Code, relating to sabbatical leaves.

In effect September 13, 1941

[Approved by Governor July 16, 1941. Filed with Secretary of State July 19, 1941.]

The people of the State of California do enact as follows:

Stats 1939, p 1810

SECTION 1. School Code Section 5.722 is hereby amended to read as follows:

Leave of absence

5.722. The governing board of any school district, of any type or class, including junior college districts, shall have the power, subject to the provisions of this section, to grant any employee of the district employed in a position requiring certification qualifications, a leave of absence for not to exceed one year for the purpose of permitting study or travel by said employee which will benefit the schools and pupils of the district.

Rules and regulations

No leave of absence shall be granted to any employee under this section who has not rendered service to the district for at least seven consecutive years preceding the granting of such leave, and not more than one such leave of absence shall be granted in each seven-year period. The governing board

granting said leave of absence shall have the power, subject to the rules and regulations of the State Board of Education, to prescribe the standards of service which shall entitle the employee to such leave of absence. Said leave of absence shall not be considered as a break in the continuity of service toward retirement under this code except that such leave of absence shall not be counted as a year of service toward retirement under this code.

Compensation during leave

Every employee granted a leave of absence under the provisions of this section may be required to perform such services and may receive such compensation during such leave as the governing board of the district, with the approval of the county superintendent of schools, and the employee may agree upon in writing, but such compensation shall be the difference between the salary of the employee on leave and the salary of a substitute employee in the position which the employee held prior to the granting of such leave; provided, however, that the governing board of any district which has adopted a rule governing the payment of salaries to employees absent from duty because of illness may, at its option, agree to pay, and pay, to employees taking leaves of absence under the provisions of this section, compensation at the same rate as provided by such rule governing absences because of illness.

Installments

Such compensation as may be granted by the governing board to said employee on leave may be paid in two equal annual installments during the first two years of service rendered in the employ of said governing board following the return of the employee from said leave of absence; provided, however, that said compensation shall be paid said employee while on said leave of absence in the same manner as if the said employee was teaching in the district, upon the furnishing by the employee of a suitable bond indemnifying the governing board of the district against loss in the event that the said employee fails to render at least two years' service in the employ of said governing board following the return of the employee from said leave of absence, but such bond shall be exonerated in event the failure of such employee to return and render such two years' service is caused by the death or physical or mental disability of the employee; provided further, that if the governing board finds and by resolution declares that the interests of the district will be protected by the written agreement of the employee to return to the service of the district and render at least two years' service therein following return of such employee from such leave, such governing board in its discretion may waive the furnishing of such bond and pay the employee on leave in the same manner as though a bond had been furnished.

Bond

At the expiration of the leave of absence of said employee, he shall, unless he otherwise agrees, be reinstated in the position held by him at the time of the granting of the leave of absence.

Powers of director

(b) The director is hereby declared to be the instrumentality of this State for the purpose of administering and enforcing the provisions of this chapter and to execute the legislative intent herein expressed, and is hereby vested with the administrative authority:

(1) To investigate any and all transactions between producers and distributors or among distributors or between distributors and retail stores or between distributors and consumers or between retail stores and consumers, and for that purpose the director or his authorized agents shall have access to and may enter at all reasonable hours all places where milk is being stored, bottled or manufactured, or where milk or milk products are being bought, sold or handled, or where the books, papers, records or documents relating to such transactions are kept, and shall have power to inspect and copy the same in any place within the State.

(2) To issue licenses to distributors and require the registration of producers.

(3) To formulate any stabilization and marketing plan as prescribed in this chapter and declare the same effective after public hearing and reasonable notice by mail or otherwise to all producers and distributors of record with the director, affected by such plan.

(4) To prescribe minimum prices to be paid by distributors in accordance with a stabilization and marketing plan for fluid milk and classify said milk according to usage by distributors; provided, that the prices so prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above such costs incurred in producing and marketing manufacturing milk.

(5) To prescribe minimum prices to be paid by distributors for fluid cream in accordance with a stabilization and marketing plan; provided, that the prices so prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred

in producing and marketing fluid cream over and above such costs incurred in producing and marketing manufacturing milk.

(6) (a) To amend or terminate any stabilization and marketing plan, after notice and public hearing as prescribed in Section 736.1, in the event that he finds that such plan is no longer in conformity with the standards prescribed in, or will not tend to effectuate the purposes of, this chapter. Such hearing may be held upon the motion of the director and shall be held upon receipt of a petition signed by producers representing not less than 55 per cent of the total number of all producers and not less than 55 per cent of the total production of all producers who are eligible to petition the director for the formulation of such plan.

(b) To amend, after notice and public hearing called and held in the same manner as provided in Section 736.12, any minimum wholesale and retail prices established under the provisions of Article 2a of this chapter, in the event that he finds that any such price is, or that any such prices are, no longer in conformity with the standards prescribed therefor, or will not tend to effectuate the purposes of this chapter.

(c) To terminate any such minimum wholesale and retail prices without notice or hearing at any time that there is no stabilization and marketing plan in force and effect in such marketing area.

(7) To appoint a local control board for any marketing area, in the event that he deems such board necessary or advisable.

SEC. 3. Section 736.3 of the Agricultural Code is hereby amended to read as follows: Stats 1937, p. 1989

736.3. Any stabilization and marketing plan shall contain the following provisions: Required provisions

(a) Provisions for prohibiting distributors and retail stores from engaging in the unfair practices hereinafter set forth: Prohibition of unfair practices

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

(2) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer.

(3) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions.

Unfair practices

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Section 654a of the Penal Code.

(5) The purchase of any fluid milk in excess of 200 gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period; the quantity of such milk to be paid for as Class 1, and the price to be paid for each of the several classes, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 4, as said class is defined in Section 735.3 of this code. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution.

(6) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(7) The payment of a lesser price by a distributor to any producer for fluid milk or fluid cream which is distributed to any person, including agencies of the Federal, State or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk or fluid cream for said marketing area.

(8) The purchasing or receiving of any fluid milk or fluid cream by distributors from producers within a marketing area wherein a stabilization and marketing plan is in effect for less than the minimum prices established in such plan, regardless of whether such milk or cream is subsequently sold or distributed within or without such marketing area, or within or without the jurisdiction of the State of California; provided, however, that if such fluid milk or fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect, then the distributor shall pay the producer thereof not less than the minimum prices established in such plan in the marketing area wherein such milk or cream is sold or distributed; and provided further, that in the event such fluid milk or fluid cream is subsequently sold or distributed in any

place within the jurisdiction of the State of California where no stabilization and marketing plan is in effect, then such milk or cream may be paid for by the distributor to the producer thereof at not less than the average price paid by distributors to producers for milk or cream of similar grade and quality at the plants in the vicinity where such milk or cream is so sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to this section.

Designation of minimum fluid milk prices

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk; and provided further, the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk.

Optional provisions

Any stabilization and marketing plan may contain the following provisions:

Distributors' reports

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured, the volume of fluid milk received from such producer in pounds of milk, the milk fat test of such milk and the amount of fluid milk in milk fat pounds paid for in the several classes and the prices paid for the various classes for each month.

Designation of minimum fluid cream prices

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream; provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above costs incurred in producing and marketing manufacturing milk; and provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream.

Uniform prices

(e) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk; provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five (65) per cent of the total volume of fluid milk

Equalization pool

used for pasteurization purposes and who represent not less than sixty-five (65) per cent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five (65) per cent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

Local control board

Reports

Premiums

No provision of any pooling program shall prevent any distributor from paying premiums for quality; provided, all producers supplying fluid milk of like quality to such distributor are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. The deductions herein prescribed are in addition to any other deductions prescribed by this chapter.

Price differentials

Deductions

Advertising programs

(2) Provision whereby sales stimulation or consumer educational programs may be formulated and administered to increase the consumption of fluid milk and fluid cream, or other dairy products; provided, that such programs shall be carried on without reference to a particular brand or trade name; and provided further, that no such sales stimulation or consumer educational program shall be carried on which shall make use of false or unwarranted claims on behalf of such products or which disparages the quality, value, sale or

use of any fluid milk or fluid cream or any other agricultural commodity authorized by law to be marketed within such marketing area.

Petition

Before any stabilization and marketing plan may provide for sales stimulation and consumer educational programs, not less than 65 per cent of the producers and who produce not less than 65 per cent of the total volume of fluid milk consumed in any marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan. If such a program is requested by distributors it shall be necessary that not less than 65 per cent of the total number of distributors and who distribute not less than 65 per cent of the total volume of fluid milk for consumption in the marketing area shall petition the director in writing for the inclusion of such a program as part of the stabilization and marketing plan.

The petition shall bear the signatures of petitioners, their addresses and the approximate daily volume of fluid milk handled in gallons and milk fat pounds and the type of product distributed, together with the estimated cost of the program each month and the number of months the program is to continue in operation.

A sales stimulation and consumer educational program instituted by producers shall be financed by all producers supplying fluid milk to the marketing area. Such program, if instituted by distributors, shall be financed by all distributors supplying fluid milk to the marketing area. If such program is instituted by both producers and distributors, both producers and distributors shall finance the program equally.

Assessments

If the program is instituted by producers the director is hereby empowered to require producers to pay assessments of not more than two mills per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills for each 10 gallons of fluid milk received by distributor, including the production of distributors who are also producers.

If the program is instituted by distributors the director is hereby empowered to require distributors to pay assessments of not more than two mills per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills for each 10 gallons of fluid milk received by distributors, including the production of distributors who are also producers.

If the program is instituted by both producers and distributors, the director is hereby empowered to require both producers and distributors to pay assessments for the purpose of providing funds for formulating, administering, and carrying on such program. The assessments to be paid by distributors shall not exceed two mills per pound milk fat, or if the program is instituted upon a gallonage basis not more than seven mills for each 10 gallons of fluid milk received by distributors including the production of distributors who are

likewise producers. Assessments of not more than two mills per pound milk fat, or if the program is instituted upon a gallonage basis, not more than seven mills for each 10 gallons of fluid milk produced by producers and received by distributors, shall likewise be paid by producers. In no instance shall the combined assessments exceed four mills per pound milk fat, or if the program is instituted upon a gallonage basis not more than 14 mills for each 10 gallons of fluid milk received from producers and processed by distributors for distribution in the marketing area in the form of whole milk, fluid cream, or manufactured dairy products derived from fluid milk.

Hearing Before a program may be instituted a public hearing shall be called by the director, the procedure for which public hearing is to be the same as that required for the institution of a stabilization and marketing plan for fluid milk. At such public hearing testimony and evidence shall be taken to determine the necessity of such a program, the estimated costs of the program, the time during which the program is to be continued, and such other matters as are necessary in the institution of the program.

Order If, after public hearing and consideration of the testimony and evidence presented at said hearing, the director finds that a sales stimulation and consumer educational program will tend to effectuate the purposes of this chapter, he shall issue an order making effective such program. Such order shall state the number of months the program shall continue in operation, the rate of assessment per pound milk fat or per gallon to be paid by those petitioning for the program, the names, addresses and business locations of the persons appointed to administer the program and such order may contain other provisions which are necessary and incidental to the operation of the program.

Administrator The person named in the order to administer the program shall be selected by the director in the following manner and in the following number:

(a) If the program was instituted by producers the director shall name five representative producers from nominations made at the public hearing by the petitioners.

(b) If the program was instituted by distributors the director shall name five representative distributors from nominations made at the public hearing by the petitioners.

(c) If the program was instituted by both producers and distributors the director shall name three representative producers from nominations made at the public hearing by the petitioning producers and three representative distributors from nominations made at the public hearing by petitioning distributors.

(d) Distributors who are also producers shall be eligible to nomination for service on, and may be named by the director to serve on the committee to administer any program for which they will be required to pay assessments, and at least

one of the persons named by the director to serve on any committee to administer any program for which distributors who are also producers will be required to pay assessments shall be a distributor who is also a producer.

All programs shall be administered by the persons named in the order of the director making the program effective, and shall be administered subject to the approval of the director. All amounts required to be paid to the director under this section by producers or distributors shall be paid to such director on or before the fifteenth day of the month following the month during which such fluid milk was received by distributors and all distributors receiving milk from producers in any area where the provisions of this section are in effect whereby the director is empowered to require payments from producers shall deduct and pay to the director such payments provided for under this section from the payments due for such distributors to such producers for fluid milk.

Termination

Upon the termination of any program, if there are any obligations arising thereunder, the final accrual or ascertainment of which requires further acts by any producer or distributor or by the persons appointed to administer the program or by the director, the power or duty to perform such further acts shall continue, notwithstanding such termination.

Deposit of funds

All moneys received by the director pursuant to this section shall be deposited in the Department of Agriculture Fund in the State Treasury allocated to each separate marketing area from which they are collected and disbursed only for the purposes specified subject to the approval of the director.

Any money received by the director in excess of the amount required for any program shall be returned at such time as the director may determine on a pro rata basis to the persons from whom such funds were collected.

SEC. 5. Section 736 13 of the Agricultural Code is hereby amended to read as follows:

Stats. 1937, p 1375

Such filings shall be made in such office of the director as he shall designate. Such prices shall not become effective until the fifth day after filing. Offers and agreements to sell, as used herein shall include offers and agreements which are conditional, or which shall become effective, upon the filing thereafter of amended prices by the distributor making such offer. Upon receipt of such amendments the director shall forthwith date, file, and index the same in such manner that the information therein contained shall at all times be kept current and be readily available to any interested party desiring to inspect the same. Any other distributor in the marketing area may meet any such prices so filed; provided, that such distributor shall file with the director a schedule of prices not exceeding the prices so met by him within 24 hours after meeting the same.

Fee

736.14. Distributors who are subject to the provisions of this article shall pay to the director on all milk fat contained in fluid milk and fluid cream purchased from producers, including their own production, if any, a fee in mills per pound of milk fat equal to that required to be deducted from the payments due producers of fluid milk under Section 737.6 of this code. The amount so received by the director shall be used in the administration and enforcement of this chapter or any stabilization or marketing plan established by this

chapter. Any amounts in excess of that required for this purpose shall be returned pro rata, at such times as the director may determine, to distributors from whom such sums were collected.

SEC. 7. Section 737.5 of the Agricultural Code is hereby amended to read as follows: Stats 1939, p 2649

737.5. (a) After thirty (30) days after the effective date of this chapter no distributor shall deal in fluid milk or fluid cream without first having obtained a license from the director. The special licenses provided in this section are in addition to any and all licenses required by any other section of Division 4, Agricultural Code, or any law or ordinance of any county or municipality of this State. Applications for the licenses herein provided shall be made on forms prescribed by the director and shall state the name and address of the applicant and such details as to the nature of the applicant's business as the director may require. Such applicant shall further satisfy the director of his or its character, responsibility and good faith in seeking to carry on the business stated in the application. Licenses shall be issued for a period of twelve (12) months from the first day of each year or for the remainder of the calendar year from the date of issuance. Application for a new license for the following year by a licensee shall be made at least thirty (30) days prior to the commencement of such year, and if not so made the applicant shall pay an additional sum equal to 50 per cent of the license fee before such license shall be issued. License Application

(b) Every distributor before purchasing any fluid milk or fluid cream from a producer must execute and deliver to the director a surety bond in the minimum sum of one thousand dollars ($1,000), executed by the applicant as principal and by a surety company qualified and authorized to do business in this State as surety. Said bond shall be upon a form approved by the director, and shall be conditioned upon the payment in the manner required by this chapter, of all amounts due to producers for fluid milk and fluid cream purchased by such licensee or applicant during the license year. Said bond shall be to the State in favor of every producer of fluid milk and fluid cream. In case of failure by a distributor to pay any producer or producers for fluid milk or fluid cream in the manner required by this chapter, the director shall proceed forthwith to ascertain the names and addresses of all producer-creditors of such distributor, together with the amounts due and owing to them and each of them by such distributor, and shall request all such producer-creditors to file a verified statement of their respective claims with the director. Thereupon the director shall bring an action on the bond on behalf of said producer-creditors. Upon any action being commenced upon said bond, the director may require the filing of a new bond and immediately upon Bond Action on bond

a recovery in any action upon such bond, such distributor shall file a new bond, and upon failure to file same within ten (10) days in either case, such failure shall constitute grounds for the revocation or suspension of the license of such distributor. In the event that recovery upon the bond is not sufficient to pay all of the claims as finally determined and adjudged by the court, any such amount recovered shall be divided pro rata among said producer-creditors.

Minimum bond

The minimum bond of one thousand dollars ($1,000) shall be required of distributors purchasing an average daily quantity of fluid milk of less than 100 gallons; distributors purchasing an average daily quantity of 100 gallons and less than 200 gallons must post a bond in the amount of two thousand dollars ($2,000); distributors purchasing an average daily quantity of 200 gallons and less than 300 gallons must post a bond in the amount of three thousand dollars ($3,000); distributors purchasing an average daily quantity of 300 gallons or more shall post a bond in the sum of five thousand dollars ($5,000).

The same bond requirements shall apply to purchases of fluid cream, except that for the purposes of computation of the required bond, 10 gallons of fluid cream shall be deemed the equivalent of 100 gallons of fluid milk.

Additional bond

In the event that any distributor so increases his purchases of fluid milk or fluid cream during the license year that said purchases exceed the amount for which said distributor is bonded, said distributor shall forthwith post such additional bond or bonds as may be required to comply with the provisions of this section.

The licenses and bonds provided for in this section shall be required for each distributor, and for the purposes of this section each subsidiary milk plant or branch milk plant whether under one ownership or not shall be considered as an individual distributor.

Failure of any distributor who purchases fluid milk or fluid cream from producers to execute and deliver the bond as herein provided and required shall constitute a violation of this chapter; failure of any such distributor to post such additional bond or bonds as may be required to comply with the provisions of this chapter shall likewise constitute a violation of this chapter.

SEC. 8. Section 737.7 of the Agricultural Code is hereby amended to read as follows:

Violations

737.7. (a) The violation of any provision of this chapter, or of any provision of any stabilization and marketing plan or any order of the director establishing minimum wholesale and minimum retail prices for fluid milk or fluid cream formulated under the provisions of this chapter, or of any of the unfair practices set forth in this chapter, is a misdemeanor, and is furthermore ground for revocation or suspension of

license in the manner set forth in this chapter. The unfair practice provisions described in this chapter are hereby declared to apply to all distributors, whether or not a plan is in effect in the area in which a distributor is licensed or carries on business.

(b) Every distributor must pay for fluid milk or fluid cream delivered to him or it at the time and in the manner specified in the contract with the producer; failure to make such payment is hereby declared to be a violation of this chapter, and ground for refusal, suspension or revocation of license in the manner set forth in this chapter.

(c) Any person who violates any provision of a stabilization and marketing plan or any order of the director establishing minimum wholesale and minimum retail prices for fluid milk or fluid cream shall be liable civilly in the sum of five hundred dollars ($500) for each and every violation, such sum to be recovered by the director in any court of competent jurisdiction. All sums recovered under this section shall be deposited in the State Treasury to the credit of the Department of Agriculture Fund.

SEC. 9. Section 737.11 of the Agricultural Code is hereby amended to read as follows: Stats 1939, p 2645

737.11. (a) The director may refuse to grant any license herein provided and may, after due hearing upon a verified complaint signed and filed with the director by any interested person, revoke or suspend any such license as the case may require, when he is satisfied that any applicant or licensee has violated any provision of this chapter, or any provision of any stabilization and marketing plan formulated under the provisions of this chapter, or of any order of the director establishing minimum wholesale and minimum retail prices for fluid milk or fluid cream formulated under the provisions of this chapter. Upon the filing of such a verified complaint, the director shall cause a copy thereof, together with a notice of the time and place of hearing of such complaint, to be served personally or by mail upon the person or persons named as respondent or respondents therein. Such service shall be made at least ten (10) days before said hearing, which shall be held in the city or town in which is situated the principal place of business of the licensee or respondent, or in which the transaction or violation complained of is said to have occurred, or in the county seat of the county in which the transaction or violation complained of is said to have occurred, or in the nearest office of the State Department of Agriculture, at the discretion of the director. Previous violation by any applicant or by any person connected with said applicant of any provision of this chapter or of any stabilization and marketing plan formulated thereunder or of any order of the director establishing minimum wholesale and minimum retail prices for fluid milk and fluid cream shall be good and sufficient ground for denial, revocation or suspension of a license.

CHAPTER 1215

An act for the protection of the domestic water supplies of cities, towns or districts from pollution by placer mining operations, providing a method of recording information with respect to operators using such methods, and providing penalties for the violation of this act.

[Approved by Governor July 16, 1941. Filed with Secretary of State July 19, 1941.] In effect September 13, 1941

The people of the State of California do enact as follows:

SECTION 1. Any person, firm or corporation, other than placer mine operators who hold permits from the California Debris Commission to operate, who has been engaged or who shall engage in the operation of a placer mine on any stream or on the watershed of any stream tributary directly or indirectly to the Sacramento or San Joaquin rivers shall record in the office of the county recorder of the county in which its mine is situate, within 60 days from and after the effective date of this act, or, if operations are commenced after the effective date, then within 30 days after the commencement of such operations, a verified statement verified by the operator or by some one in behalf of the operator, showing: Statement of placer mining operator

(1) A description of the ground proposed to be mined by placer mining methods, described by United States Government subdivisions where possible. Contents

(2) The names and addresses of the owners of the ground.

(3) The names and addresses of the operators of the mine.

(4) The proposed means or method of placer mining operation.

(5) The means which the operator proposes to use to prevent the pollution of any stream by the effluent from such operations.

In the event an owner or operator changes his address, or of a transfer of ownership or change of operator of any such mining property, then within 10 days after any such transfer or change, a notice setting forth the names and addresses of the new owners or operators shall be filed in the office of the county recorder.

Prevention of stream pollution

SEC. 2. No placer mining operator who does not hold a permit to operate from the California Debris Commission shall mine by placer process on any stream or on the watershed of any stream tributary directly or indirectly to the Sacramento or San Joaquin rivers without taking the following precautions to prevent pollution of the stream by the effluent from operations:

(1) Constructing a settling pond or ponds of sufficient size to permit the clarification of water used in the mining processes before the water is discharged into the stream.

(2) Mixing with the effluent from mining operations aluminum sulphate and lime, or an equivalent clarifying substance which will cause the solid material in the effluent to coagulate and thus avoid rendering the water in the stream unfit for domestic water supply purposes.

(3) Notwithstanding the provisions of Subdivision 2 of this section, any placer miner who is operating by dredging process and who desires to transport his dredger across a stream where the expense of constructing settling ponds in the stream itself would, in the opinion of the operator, be unduly heavy, shall have the right to conduct the dredger across the stream without constructing a settling pond under the following procedure: The operator shall give to the clerk or secretary, as the case may be, of each city or district owning or operating a domestic water supply the clarity of which is likely to be affected by the crossing operation, notice of the intent of the operator to cross the stream. Such notice shall be given at least seven days in advance of the date that the operator expects to cross the stream with his dredger. Upon the expiration of the notice the operator may during the following 48 hours conduct his dredger across the stream even though some turbidity may be caused by the crossing operation. Having crossed the stream the operator shall thereupon and thereafter in its further operations observe the provisions of Subdivision 2 of this section.

Violations

SEC. 3. Any person, firm or corporation who fails to record the notice provided for in Section 1, or to install the protective devices or to give the notice provided for in Section 2, or both, shall be guilty of a misdemeanor. The operation of any placer mine on ground not covered by a permit to the operator from the California Debris Commission, without compliance with the provisions of both Sections 1 and 2 hereof, is hereby declared to be a public nuisance which may be enjoined upon suit brought by the district attorney of the county in which the operation has been conducted, or by any city or district whose domestic water supply is rendered unfit or dangerous for human consumption by the acts, or failure to act, of the operator. The superior court of the county in which the operation is conducted shall have jurisdiction to hear and determine the action and to award such relief as may be proper therein. Nothing in this act contained, however,

shall be deemed or construed to deprive the State, any city, city and county, county, district, person, firm or corporation of any right to bring and maintain any action or proceeding, in any jurisdiction, which it was entitled to bring or maintain prior to the enactment of this act, or to receive or obtain in any such action any remedy accorded to it under existing law.

Constitutionality

SEC. 4. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

(2) Amounts received (other than amounts paid by reason of the death of the insured and interest payments on such amounts and other than amounts received as annuities) under a life insurance or endowment contract, but if such amounts (when added to amounts received before the taxable year

under such contract) exceed the aggregate premiums or consideration paid (whether or not paid during the taxable year) then the excess shall be included in gross income. Amounts received as an annuity under an annuity or endowment contract shall be included in gross income; except that there shall be excluded from gross income the excess of the amount received in the taxable year over an amount equal to 3 per centum of the aggregate premiums or consideration paid for such annuity (whether or not paid during such year), until the aggregate amount excluded from gross income under this act in respect of such annuity increased by the amount which would have been excluded from gross income in respect of such annuity had this act been in effect continuously from and after the date at which payments under such annuity were first received equals the aggregate premiums or consideration paid for such annuity. In the case of a transfer for a valuable consideration, by assignment or otherwise, of a life insurance, endowment, or annuity contract, or any interest therein, only the actual value of such consideration and the amount of the premiums and other sums subsequently paid by the transferee shall be exempt from taxation under paragraph (1) or this paragraph;

(3) The value of property acquired by gift, bequest, devise, or inheritance (but the income from such property shall be included in gross income);

(4) Amounts received, through accident or health insurance or under workmen's compensation acts, as compensation for personal injuries or sickness, plus the amount of any damages received whether by suit or agreement on account of such injuries or sickness; Accident or health insurance

(5) The rental value of a dwelling house and appurtenances thereof furnished to a minister of the gospel as part of his compensation;

(6) Wages, fees, or salary of an employee of a foreign country (including a consular or other officer, or a nondiplomatic representative) received as compensation for official services to such country:

(A) If such employee is not a citizen of the United States; and

(B) If the services are of a character similar to those performed by employees of the United States in foreign countries; and

(C) If the foreign country and political subdivisions thereof do not tax the wages, fees or salaries of employees of the United States performing similar services in such foreign country.

(7) Income which this State is prohibited from taxing under the Constitution or laws of the United States of America or under the Constitution of this State.

(c) (1) Whenever in the opinion of the commissioner the use of inventories is necessary in order clearly to determine the income of any taxpayer, inventories shall be taken by Inventories

Inventories

such taxpayer upon such basis as the commissioner may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting the income.

(2) (A) A taxpayer may use the following method (whether or not such method has been prescribed under Subdivision (1)) in inventorying goods specified in the application required under paragraph (B): (1) Inventory them at cost; (2) Treat those remaining on hand at the close of the taxable year as being: First, those included in the opening inventory of the taxable year (in the order of acquisition) to the extent thereof, and second, those acquired in the taxable year; and (3) Treat those included in the opening inventory of the taxable year in which such method is first used as having been acquired at the same time and determine their cost by the average cost method.

(B) The method described in paragraph (A) may be used (1) only in inventorying goods (required under Subdivision (1) to be inventoried) specified in an application to use such method filed at such time and in such manner as the commissioner may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the commissioner that the taxpayer has used no procedure other than that specified in (2) and (3) of paragraph (A) in inventorying (to ascertain income, profit, or loss, for credit purposes, or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries) such goods for any period beginning with or during the first taxable year for which the method described in paragraph (A) is to be used.

(C) The change to, and the use of, such method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(D) In determining income for the taxable year preceding the taxable year for which such method is first used, the closing inventory of such preceding year of the goods specified in such application shall be at cost.

(E) If a taxpayer, having complied with paragraph (B), uses the method described in paragraph (A) for any taxable year, then such method shall be used in all subsequent taxable years unless with the approval of the commissioner a change to a different method is authorized; or the commissioner determines that the taxpayer has used for any period beginning with or during any subsequent taxable year some procedure other than that specified in (2) of paragraph (A) in inventorying (for ascertaining income, profit, or loss, for credit purposes, or for the purpose of reports to shareholders, partners, or other proprietors, or to beneficiaries) the goods specified in the application, and requires a change to a method different from that prescribed in paragraph (A) beginning with such subsequent taxable year or any taxable year thereafter. In either of the above cases, the change to, and the

use of, the different method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

Gain or loss on sale

(d) In the case of a sale or other disposition of property, the gain or loss shall be computed as provided in Sections 9.1, 9.2 and 9.3 of this act.

Gain on sale of capital assets

(e) In the case of sales or exchanges of capital assets, the gain shall be taken into account in computing net income to the extent provided in Section 9.4 of this act.

Gross income of nonresidents

(f) In the case of taxpayers other than residents the gross income includes only the gross income from sources within this State. Gross income from sources within this State shall include rentals or royalties from property located in this State or from any interest in such property, including rentals or royalties for the use of, or for the privilege of using in this State, patents, copyrights, secret processes and formulas, good will, trade-marks, trade brands, franchises, and other like property. Gross income from sources within and without this State shall be allocated and apportioned under rules and regulations to be prescribed by the commissioner.

Income of nonresidents from stocks, bonds, notes, or other intangible personal property shall not be considered income from sources within this State unless the property has acquired a business situs in this State, except that if a nonresident buys or sells such property in this State or places orders with brokers in this State to buy or sell such property so regularly, systematically, and continuously as to constitute doing business in this State, the profit or gain derived from such activity is income from sources within this State irrespective of the situs of the property.

Income of nonresident beneficiaries from estates or trusts is income from sources within this State only if distributed or distributable out of income of the estate or trust derived from sources within this State.

Dividends

(g) (1) The term "dividend" when used in this act means any distribution made by a corporation to its shareholders, whether in money or in other property, out of its earnings or profits accumulated after February 28, 1913, or out of the earnings or profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distributions made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made.

(2) For the purposes of this act every distribution is made out of earnings or profits to the extent thereof, and from the most recently accumulated earnings or profits. Any earnings or profits accumulated, or increase in value of property accrued, before March 1, 1913, may be distributed exempt from tax, after the earnings and profits accumulated after February 28, 1913, have been distributed, but any such tax free distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 9.3 (b).

Distributions on complete liquidation of corporation

(3) Amounts distributed in complete liquidation of a corporation shall be treated as in full payment in exchange for the stock and amounts distributed in partial liquidation of a corporation shall be treated as in part or full payment in exchange for the stock. The gain or loss to the distributee resulting from such exchange shall be determined under Section 9.1, and shall be recognized only to the extent provided in Section 9.2. Notwithstanding the provisions of Section 9.4, 100 per centum of the gain so recognized shall be taken into account in computing net income, except in the case of amounts distributed in complete liquidation of a corporation. For the purpose of the preceding sentence, "complete liquidation" includes any one of a series of distributions made by a corporation in complete cancellation or redemption of all of its stock in accordance with a bona fide plan of liquidation and under which the transfer of the property under the liquidation is to be completed within a time specified in the plan, not exceeding from the close of the taxable year during which is made the first of the series of distributions under the plan (1) three years, if the first of such series of distributions is made in a taxable year beginning after December 31, 1940, or (2) two years if the first of such series of distributions was made in a taxable year beginning before January 1, 1941 In the case of amounts distributed (whether before or after the effective date of this amendment) in partial liquidation (other than a distribution within the provisions of Subdivision (7) of this subsection of stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits. In the case of amounts distributed (whether before January 1, 1934, or on or after such date) in partial liquidation (other than a distribution within the provisions of Subdivision (7) of this subsection of stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits within the meaning of Subdivision (2) of this subsection for the purpose of determining the taxability of subsequent distributions by the corporation.

(4) If any distribution (not in partial or complete liquidation) made by a corporation to its shareholders is not out of increase in value of property accrued before March 1, 1913, and is not a dividend, then the amount of such distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 9.3 (b) of this act, and if in excess of such basis, such excess shall be taxable in the same manner as a gain from the sale or exchange of property.

(5) (A) A distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock shall not be treated as a dividend to the extent that it does not constitute income to the shareholder within the meaning of the

Sixteenth Amendment to the Constitution of the United States. Distributions

(B) Whenever a distribution by a corporation is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either (i) in its stock or in rights to acquire its stock, of a class which if distributed without election would be exempt from tax under paragraph (A), or (ii) in money or any other property (including its stock or rights to acquire its stock, of a class which if distributed without election would not be exempt from tax under paragraph (A)), then the distribution shall constitute a taxable dividend in the hands of all shareholders, regardless of the medium in which paid.

(6) If a corporation cancels or redeems its stock (whether or not such stock was issued as a stock dividend) at such time and in such manner as to make the distribution and cancellation or redemption in whole or in part essentially equivalent to the distribution of a taxable dividend, the amount so distributed in redemption or cancellation of the stock, to the extent that it represents a distribution of earnings or profits accumulated after February 28, 1913, shall be treated as a taxable dividend.

(7) The distribution heretofore or hereafter made to a distributee by or on behalf of a corporation of its stock or securities or stock or securities in another corporation shall not be considered a distribution of earnings or profits of any corporation:

(A) If no gain to such distributee from the receipts of such stock or securities was recognized under the provisions of the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution, or

(B) If the distribution was not subject to tax in the hands of such distributee under the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution because it did not constitute income to him within the meaning of the Sixteenth Amendment to the Constitution of the United States or because exempted to him under Section 115 (f) of the Federal Revenue Act of 1934, or a corresponding provision of a prior Federal revenue act.

As used in this subsection, the term "stock or securities" includes rights to acquire stock or securities.

(8) As used in this subsection the term "amount distributed in partial liquidation" means a distribution by a corporation in complete cancellation or redemption of a part of its stock, or one of a series of distributions in complete cancellation or redemption of all or a portion of its stock.

(9) If the whole or any part of a dividend is paid to a shareholder in any medium other than money the property received other than money shall be included in gross income at its fair market value at the time as of which it becomes income to the shareholder.

Distributions (10) The gain or loss realized from the sale or other disposition (after February 28, 1913) of property by a corporation for the purpose of the computation of earnings and profits of the corporation for any period beginning after February 28, 1913, shall be determined by using as the adjusted basis the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain. Gain or loss so realized shall increase or decrease the earnings and profits to, but not beyond, the extent to which such a realized gain or loss was recognized in computing net income under the law applicable to the year in which such sale or disposition was made. Where in determining the adjusted basis used in computing such realized gain or loss the adjustment to the basis differs from the adjustment proper for the purpose of determining earnings or profits, then the latter adjustment shall be used in determining the increase or decrease above provided.

Where a corporation receives (after February 28, 1913) a distribution from a second corporation which (under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second corporation, the amount of such distribution shall not increase the earnings and profits of the first corporation in the following cases:

(A) No such increase shall be made in respect of the part of such distribution which (under such law) is directly applied in reduction of the basis of the stock in respect of which the distribution was made.

(B) No such increase shall be made if (under such law) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received.

For the purposes of this subdivision, the words "law applicable to the year" shall be deemed to refer to the State act or the United States Revenue Act in force for the year in which the sale or other disposition was made.

(11) (A) If any increase or decrease in the earnings or profits for any period beginning after February 28, 1913, with respect to any matter would be different had the adjusted basis of the property involved been determined without regard to its March 1, 1913, value, then, except as provided in paragraph (B), an increase (properly reflecting such difference) shall be made in that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

(B) If the application of Subdivision (10) to a sale or other disposition after Feburary 28, 1913, results in a loss which is to be applied in decrease of earnings and profits for any period beginning after February 28, 1913, then, notwithstanding Subdivision (10) and in lieu of the rule provided in paragraph (A) of this subdivision, the amount of such loss so to be applied shall be reduced by the amount, if any, by which the adjusted basis of the property used in determining the loss,

exceeds the adjusted basis computed without regard to the value of the property on March 1, 1913, and if such amount so applied in reduction of the decrease exceeds such loss, the excess over such loss shall increase that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

Cancellation of debt

(h) If the indebtedness of a taxpayer is canceled or forgiven in whole or in part without payment, the amount so canceled or forgiven shall constitute income to the extent the value of the property of the taxpayer exceeds his liabilities immediately after the cancellation or forgiveness. The remainder of the amount of indebtedness so canceled or forgiven, if any, shall be applied in reduction of the basis of the assets to the extent the basis thereof exceeds the value thereof immediately after the cancellation or forgiveness, such reduction to be made in accordance with regulations prescribed by the commissioner.

If an indebtedness is not paid by the time an action to enforce payment is barred by limitation, the indebtedness shall be considered canceled or forgiven within the meaning of this subsection unless it can be established that the period of limitation has been extended by a new promise in writing.

Excess value on purchase or exchange

(i) Where property is acquired in a transaction purporting to be a purchase or an exchange (including transactions described in Section 9.2, relating to the nonrecognition of gain, but excluding foreclosures or repossessions of properties held for security), and the value thereof is substantially in excess of the value of the money or property surrendered or agreed to be surrendered as a condition of such acquisition, the excess value shall be considered ordinary income taxable under the provisions of this act, unless it can be established (a) that the sole consideration for the acquisition of the property was the money or property surrendered or agreed to be surrendered, or (b) that the excess value was a gift or (c) that for some other reason the excess value does not constitute income or the gain represented thereby is not recognized.

Construction

(j) The repeal in 1937 of Sections 2 (o) and 34 of The Personal Income Tax Act of 1935 shall not be construed to sanction double taxation of income.

Stats 1939, p 2534

SEC. 4. Section 8 of The Personal Income Tax Act is hereby amended to read as follows:

Deductions from gross income:

Sec. 8. In computing net income there shall be allowed as deductions:

Business expenses

(a) All the ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business, including a reasonable allowance for salaries or other compensation for personal services actually rendered; traveling expenses (including the entire amount expended for meals and lodging) while away from home in the pursuit of a trade or business; and rentals or other payments required to be made as a condition to the continued use or possession, for purposes of the trade or business, of property to which the taxpayer has not taken or is not taking title or in which he has no equity.

In the case of any taxpayer the deductions permitted by this subsection shall not be allowed if, and to the extent that they are connected with the production of income not taxable under this act, and proper apportionment and allocation of such deductions with respect to taxable and nontaxable income shall be determined under rules and regulations to be prescribed by the commissioner.

Interes. on debts

(b) All interest paid or accrued within the taxable year on indebtedness of the taxpayer; provided, however, in the case of any taxpayer the deduction permitted by this subdivision shall not be allowed if, and to the extent that such deduction is connected with income not taxable under this act; and provided further, no such deduction shall be allowed or taken for interest paid or accrued within the taxable year on indebtedness incurred or continued to purchase or carry obligations, the interest upon which is wholly exempt from taxes imposed by this act. The proper apportionment and allocation of such deductions with respect to taxable and nontaxable income shall be determined under rules and regulations to be prescribed by the commissioner.

Taxes or licenses

(c) Taxes or licenses paid or accrued during the taxable year, other than taxes paid or accrued to the State under this act, and other than taxes on or according to or measured by income or profits paid or accrued within the taxable year imposed by the authority of (1) the Government of the United States or any foreign country, (2) any State, Territory, county, city and county, school district, municipality or other taxing subdivision of any State or Territory, and other than estate, inheritance, legacy, succession and gift taxes, and other than taxes computed as an addition to, or as a percentage of taxes which are not deductible hereunder and other than taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this shall not exclude the allowance as a deduction of so much of said taxes assessed against local benefits as is properly allocable to maintenance or interest charges. Taxes or licenses paid or accrued to this State or its political subdivisions which are deductible under the provisions of this subsection shall be deductible by nonresidents even though not connected with income from sources within this State.

Losses

(d) Losses sustained during the taxable year and not compensated for by insurance or otherwise:

(1) If incurred in trade or business; or

(2) If incurred in any transaction entered into for profit, though not connected with the trade or business; or

(3) Of property not connected with the trade or business, if the loss arises from fires, storms, shipwreck, or other casualty, or from theft.

The basis for determining the amount of deduction for losses sustained, to be allowed under this subsection shall be the adjusted basis provided in Section 9.3 (b) of this act for

determining the loss from the sale or other disposition of property.

(e) Losses from wagering transactions shall be allowed only to the extent of the gains from such transactions. Wagering losses

(f) (1) Debts ascertained to be worthless within the taxable year and charged off (or in the discretion of the commissioner a reasonable addition to a reserve for bad debts) and when satisfied that a debt is recoverable only in part, the commissioner may allow such debt as a deduction, in an amount not in excess of the amount ascertained to be worthless in the taxable year and charged off; provided, however, that if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt ascertained in any prior year to be worthless, regardless of whether charged off or claimed as a deduction in such prior year. This paragraph shall not apply with respect to a debt evidenced by a security as defined in paragraph (3) of this subsection. Worthless debts

(2) If any securities (as defined in paragraph (3) of this subsection) are ascertained to be worthless within the taxable year and are charged off and are capital assets, the loss resulting shall be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets.

(3) As used in this subsection, the term "securities" means bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including those issued by a government or political subdivision thereof) with interest coupons or in registered form.

(g) In the case of any loss claimed to have been sustained from any sale or other disposition of shares of stock or securities where it appears that, within a period beginning 30 days before the date of such sale or disposition and ending 30 days after such date, the taxpayer has acquired (by purchase or by an exchange upon which the entire amount of gain or loss was recognized by law) or has entered into a contract or option so to acquire, substantially identical stock or securities, then no deduction for the loss shall be allowed. If the amount of stock or securities acquired (or covered by the contract or option to acquire) is less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the loss from the sale or other disposition of which is not deductible shall be determined under rules and regulations prescribed by the commissioner. Loss from disposition of securities

If the amount of stock or securities acquired (or covered by the contract or option to acquire) is not less than the amount of stock or securities sold or otherwise disposed of, then the particular shares of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility of the loss shall be determined under the rules and regulations prescribed by the commissioner.

Loss from sale or exchange of capital assets

(h) (1) Losses from sales or exchanges of capital assets shall be allowed only to the extent provided in Section 9.4 of this act.

(2) If any securities (as defined in paragraph (3) of this subsection) become worthless during the taxable year and are capital assets, the loss resulting therefrom shall, for the purposes of this act, be considered as a loss from the sale or exchange, on the last day of the taxable year, of capital assets.

(3) As used in this subsection, the term "securities" means (A) shares of stock in a corporation, and (B) rights to subscribe for or to receive such shares.

Obsolescence, etc

(i) A reasonable allowance for the exhaustion, wear and tear of property used in the trade or business, including a reasonable allowance for obsolescence. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each.

Depletion

(j) In the case of mines, oil and gas wells, other natural deposits, and timber, a reasonable allowance for depletion and for depreciation of improvements, according to the peculiar conditions in each case; such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the commissioner. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee. In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each. The percentage of depletion allowable under this subsection shall be computed in accordance with the provisions of Section 9.5 (b) (3) and (4) of this act.

(k) The basis upon which depletion, exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be as provided in Section 9.5 of this act.

(*l*) In the case of an individual, contributions or gifts payment of which is made within the taxable year to or for the use of: Gifts

(1) The United States, any State, Territory or any political subdivision thereof, or the District of Columbia, for exclusively public purposes;

(2) A corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation;

(3) The special fund for vocational rehabilitation authorized by Section 12 of the World War Veterans' Act, 1924;

(4) Posts or organizations of war veterans, or auxiliary units or societies of any such posts or organizations, if such posts, organizations, units, or societies are organized in the United States or any of its possessions, and if no part of their net earnings inures to the benefit of any private shareholder or individual; or

(5) A fraternal society, order, or association; operating under the lodge system, but only if such contributions or gifts are to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals.

The deductions under this subsection shall be allowed to an amount which in all the above cases combined does not exceed 15 per centum of the taxpayer's net income as computed without the benefit of this subsection. Such contributions or gifts shall be allowed as deductions only if verified under rules and regulations prescribed by the commissioner. Limitation

In the case of an individual if in the taxable year and in each of the 10 preceding taxable years the amount of the contributions or gifts described in this subsection plus the amount of income, war profits, or excess profits taxes paid during such year in respect of preceding taxable years, exceeds 90 per centum of the taxpayer's net income for each such year, as computed without the benefit of this subsection then the 15 per centum limit imposed herein shall not be applicable.

In the case of a taxpayer other than a resident the deductions under this subsection shall be allowed only as to contributions or gifts to corporations or associations incorporated by or organized under the laws of this State or to the vocational rehabilitation fund above mentioned or to this State or any political subdivision thereof for exclusively public purposes.

(m) An employer establishing or maintaining a pension trust to provide for the payment of reasonable pensions to his employees (if such trust is exempt from tax under subsection (f) of Section 12, relating to trusts created for the exclusive benefit of employees) shall be allowed as a deduction (in Pension trust

addition to the contributions to such trust during the taxable year to cover the pension liability accruing during the year, allowed as a deduction under subsection (a) of this section) a reasonable amount transferred or paid into such trust during the taxable year in excess of such contributions, but only if such amount (1) has not theretofore been allowable as a deduction, and (2) is apportioned in equal parts over a period of 10 consecutive years beginning with the year in which the transfer or payment is made.

Nonresidents

(n) In the case of a taxpayer other than a resident the deductions allowed by this section shall unless otherwise provided in this section be allowed only if and to the extent that they are connected with the income arising from sources within this State and taxable under this act to a nonresident taxpayer, and the proper apportionment and allocation of the deductions with respect to sources of income within and without the State shall be determined under rules and regulations to be prescribed by the commissioner.

Stats 1939, p 2541

SEC. 5. Section 9.2 of The Personal Income Tax Act is hereby amended to read as follows:

Recognition of gain or loss

Sec. 9.2. (a) Upon the sale or exchange of property the entire amount of the gain or loss, determined under Section 9.1, shall be recognized, except as hereinafter provided in this section.

(b) (1) No gain or loss shall be recognized if property held for productive use in trade or business or for investment (not including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

(2) No gain or loss shall be recognized if common stock in a corporation is exchanged solely for common stock in the same corporation, or if preferred stock in a corporation is exchanged solely for preferred stock in the same corporation.

(3) No gain or loss shall be recognized if stock or securities in a corporation a party to a reorganization are, in pursuance of the plan of reorganization, exchanged solely for stock or securities in such corporation or in another corporation a party to the reorganization.

(4) No gain or loss shall be recognized if property is transferred to a corporation by one or more persons solely in exchange for stock or securities in such corporation, and immediately after the exchange such person or persons are in control of the corporation; but in the case of an exchange by two or more persons this paragraph shall apply only if the amount of the stock and securities received by each is substantially in proportion to his interest in the property prior to the exchange. Where the transferee assumes a liability of a transferor, or where the property of a transferor is transferred subject to a liability, then for the purpose only of determining whether the

amount of stock or securities received by each of the transferors is in the proportion required by this paragraph, the amount of such liability (if under subsection (i) it is not to be considered as "other property or money") shall be considered as stock or securities received by such transferor.

(5) No gain or loss shall be recognized to a shareholder from a distribution of stocks or securities in liquidation of a corporation made pursuant to an order of the Federal Securities and Exchange Commission under authority vested in it by that act of Congress known as the Public Utility Holding Company Act of 1935, as amended prior to January 1, 1939. U S C, Tit 15, Sec 79, et seq

(c) (1) If an exchange would be within the provisions of subsection (b) (1), (2), (3), or (4) of this section if it were not for the fact that the property received in exchange consists not only of property permitted by such paragraph to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(2) If a distribution made in pursuance of a plan of reorganization is within the provisions of paragraph (1) of this subsection but has the effect of the distribution of a taxable dividend, then there shall be taxed as a dividend to each distributee such an amount of the gain recognized under paragraph (1) as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under paragraph (1) shall be taxed as a gain from the exchange of property.

(d) If an exchange would be within the provisions of subsection (b) (1) to (4), inclusive, of this section if it were not for the fact that the property received in exchange consists not only of property permitted by such paragraph to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

(e) If property (as a result of its destruction in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation, or the threat or imminence thereof) is compulsorily or involuntarily converted into property similar or related in service or use to the property so converted, or into money which is forthwith in good faith, under regulations prescribed by the commissioner, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund, no gain or loss shall be recognized. If any part of the money is not so expended, the gain, if any, shall be recognized, but in an amount not in excess of the money which is not so expended.

(f) As used in this section and Section 9.3:

"Reorganization" (1) The term "reorganization" means (A) a statutory merger or consolidation, or (B) the acquisition by one corporation in exchange solely for all or a part of its voting stock: Of at least 80 per centum of the voting stock and at least 80 per centum of the total number of shares of all other classes of stock of another corporation; or of substantially all the properties of another corporation, but in determining whether the exchange is solely for voting stock the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded, or (C) a transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor or its shareholders or both are in control of the corporation to which the assets are transferred, or (D) a recapitalization, or (E) a mere change in identity, form, or place of organization, however effected.

"Party to a reorganization" (2) The term "a party to a reorganization" includes a corporation resulting from a reorganization and includes both corporations in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

"Control" (g) As used in this section the term "control" means the ownership of stock possessing at least 80 per centum of the total combined voting power of all classes of stock entitled to vote and at least 80 per centum of the total number of shares of all other classes of stock of the corporation.

(h) In determining the extent to which gain shall be recognized in the case of any of the exchanges (made after the date of the enactment of this act) described in subsection (b) (3) or (4), or described in so much of subsection (c) as refers to subsection (b) (3) or (4), or described in subsection (d), a corporation created or organized in a foreign country shall not be considered as a corporation unless, prior to such exchange, it has been established to the satisfaction of the commissioner that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of income or franchise taxes.

(i) Where upon an exchange the taxpayer receives as part of the consideration property which would be permitted by subsection (b) (4) of this section to be received without the recognition of gain if it were the sole consideration, and as part of the consideration another party to the exchange assumes a liability of the taxpayer or acquires from the taxpayer property subject to a liability, such assumption or acquisition shall not be considered as "other property or money" received by the taxpayer within the meaning of subsections (c) and (d) of this section and shall not prevent the exchange from being within the provisions of subsection (b) (4) except that if, taking into consideration the nature of the liability and the circumstances in the light of which the arrangement for the assumption or acquisition was made, it

appears that the principal purpose of the taxpayer with respect to the assumption or acquisition was a purpose to avoid State tax on the exchange, or, if not such purpose, was not a bona fide business purpose, such assumption or acquisition (in the amount of the liability) shall, for the purposes of this section, be considered as money received by the taxpayer upon the exchange. In any suit or proceeding where the burden is on the taxpayer to prove that such assumption or acquisition is not to be considered as money received by the taxpayer, such burden shall not be considered as sustained unless the taxpayer sustains such burden by the clear preponderance of the evidence.

SEC. 6. Section 9.3 of The Personal Income Tax Act is hereby amended to read as follows: Stats 1939, p 2543

Sec. 9.3. (a) The basis of property shall be the cost of such property; except that: Basis of property

(1) If the property should have been included in the last inventory, the basis shall be the last inventory value thereof.

(2) If the property was acquired by gift after December 31, 1920, the basis shall be the same as it would be in the hands of the donor or the last preceding owner by whom it was not acquired by gift, except that for the purpose of determining loss the basis shall be the basis so determined or the fair market value of the property at the time of the gift, whichever is lower. If the facts necessary to determine the basis in the hands of the donor or the last preceding owner are unknown to the donee, the commissioner shall, if possible, obtain such facts from such donor or last preceding owner, or any other person cognizant thereof. If the commissioner finds it impossible to obtain such facts, the basis in the hands of such donor or last preceding owner shall be the fair market value of such property as found by the commissioner as of the date or approximate date at which, according to the best information that the commissioner is able to obtain, such property was acquired by such donor or last preceding owner.

(3) If the property was acquired after December 31, 1920, by a transfer in trust (other than by a transfer in trust by a bequest or devise) the basis shall be the same as it would be in the hands of the grantor, increased in the amount of gain or decreased in the amount of loss recognized to the grantor upon such transfer under the law applicable to the year in which the transfer was made.

(4) If the property was acquired by gift or transfer in trust on or before December 31, 1920, the basis shall be the fair market value of such property at the time of such acquisition.

(5) If the property was acquired by bequest, devise, or inheritance, or by the decedent's estate from the decedent, the basis shall be the fair market value of such property at the time of such acquisition. In the case of property transferred in trust to pay the income for life to or upon the order or direction of the grantor, with the right reserved to the grantor Bequests, devises, etc

at all times prior to his death to revoke the trust, the basis of such property in the hands of the persons entitled under the terms of the trust instrument to the property after the grantor's death shall, after such death, be the same as if the trust instrument had been a will executed on the day of the grantor's death. For the purpose of this paragraph property passing without full and adequate consideration under a general power of appointment exercised by will shall be deemed to be property passing from the individual exercising such power by bequest or devise.

Exchanges (6) If the property was acquired, after February 28, 1913, upon an exchange described in Section 9.2 (b) to (d), inclusive, the basis shall be the same as in the case of the property exchanged, decreased in the amount of any money received by the taxpayer and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized upon such exchange under the law applicable to the year in which the exchange was made. If the property so acquired consisted in part of the type of property permitted by Section 9.2 (b) to be received without the recognition of gain or loss, and in part of other property, the basis provided in this paragraph shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. Where, as part of the consideration to the taxpayer, another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for the purposes of this paragraph, be considered as money received by the taxpayer upon the exchange.

(7) If the property was acquired, after February 28, 1913, as the result of a compulsory or involuntary conversion described in Section 9.2 (e), the basis shall be the same as in the case of the property so converted, decreased in the amount of any money received by the taxpayer which was not expended in accordance with the provisions of law (applicable to the year in which such conversion was made) determining the taxable status of the gain or loss upon such conversion, and increased in the amount of gain or decreased in the amount of loss to the taxpayer recognized upon such conversion under the law applicable to the year in which such conversion was made.

(8) If the property consists of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility (under Section 8 (g) of this act, relating to wash sales) of the loss from the sale or other disposition of substantially identical stock or securities, then the basis shall be the basis of the stock or securities so sold or disposed of, increased or decreased, as the case may be, by

the difference, if any, between the price at which the property was acquired and the price at which such substantially identical stock or securities were sold or otherwise disposed of.

(9) If the property was acquired after February 28, 1913, in any taxable year beginning prior to January 1, 1934, and the basis thereof, for the purposes of the Federal Revenue Act of 1932 was prescribed by Section 113 (a) (6), (7), or (9) of such act, then for the purposes of this act the basis shall be the same as the basis therein prescribed in the Federal Revenue Act of 1932.

(10) If the property was acquired after February 28, 1913, by a partnership and the basis is not otherwise determined under any other paragraph of this subsection, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was made. If the property was distributed in kind by a partnership to any partner, the basis of such property in the hands of the partner shall be such part of the basis in his hands of his partnership interest as is properly allocable to such property.

(11) In the case of property acquired before March 1, 1913, if the basis otherwise determined under this subsection, adjusted (for the period prior to March 1, 1913) as provided in subsection (b), is less than the fair market value of the property as of March 1, 1913, then the basis for determining gain shall be such fair market value. In determining the fair market value of stock in a corporation as of March 1, 1913, due regard shall be given to the fair market value of the assets of the corporation as of that date.

(12) If the property was acquired after February 28, 1913, in any taxable year beginning prior to January 1, 1936, and the basis thereof, for the purposes of the Federal Revenue Act of 1934 was prescribed by Section 113 (a) (6), (7), or (8) of such act, then for the purposes of this act the basis shall be the same as the basis therein prescribed in the Federal Revenue Act of 1934.

(13) In the case of stocks or securities received by a taxpayer on or after January 1, 1939, under circumstances described in Section 9.2 (b) (5) the basis of such stocks or securities shall be the same as that of the stocks or securities for the surrender of which they were acquired.

Stock rights

(14) (A) If the property was acquired by a shareholder in a corporation and consists of rights to acquire stock in such corporation acquired by him after February 28, 1913, in a distribution by such corporation, and (1) the right to acquire such stock was acquired in a taxable year beginning before January 1, 1937 (except as provided in subparagraph (B)), or (2) the right to acquire such stock was acquired in a taxable year beginning after December 31, 1936, and its distribution did not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the

Stock rights United States, then the basis of the stock in respect of which the rights were declared and the right to acquire stock, respectively, shall, in the shareholder's hands be determined by allocating between the stock and the right to acquire stock the adjusted basis of the stock, such allocation to be made under regulations which shall be prescribed by the commissioner.

(B) If a stock right was acquired prior to January 1, 1935, and it constituted income within the purview of the Sixteenth Amendment to the Constitution of the United States, the basis of the stock in respect of which the rights were declared shall not be affected and the basis of the right shall be its fair market value as of the date of its acquisition.

(C) Where the shareholder acquired the right to acquire such stock in a taxable year beginning before January 1, 1941, and sold the same, and there was included in the gross income for such year of sale the entire amount of the proceeds of such sale, then if before the effective date of the 1941 amendments to this act the taxpayer has not asserted (by claim for a refund or credit or otherwise) that any part of the proceeds of the sale of such rights should be excluded from gross income for the year of its sale, the basis of the stock shall be determined without regard to paragraphs (A) and (B), and no part of the proceeds of the sale of such rights shall ever be excluded from the gross income for the year of such sale.

(b) The adjusted basis for determining the gain or loss from the sale or other disposition of property, whenever acquired, shall be the basis determined under subsection (a), adjusted as hereinafter provided.

(1) Proper adjustment in respect of the property shall in all cases be made:

(A) For expenditures, receipts, losses, or other items, properly chargeable to capital account, including taxes and other carrying charges on unimproved and unproductive real property, but no such adjustment shall be made for taxes or other carrying charges for which deductions have been taken by the taxpayer in determining net income for the taxable year or prior taxable years;

(B) For exhaustion, wear and tear, obsolescence, amortization, and depletion, to the extent sustained prior to January 1, 1935, and for periods thereafter to the extent allowed (but not less than the amount allowable) under this act;

(C) In the case of stock (to the extent not provided for in the foregoing subparagraphs) for the amount of distributions previously made which, under the law applicable to the year in which the distribution was made, either were tax-free or were applicable in reduction of basis (not including distributions made by a corporation, which was classified as a personal service corporation under the provisions of the Federal Revenue Act of 1918 or 1921, out of its earnings or profits which were taxable in accordance with the provisions of Section 218 of the Federal Revenue Act of 1918 or 1921).

(2) The term "substituted basis" as used in this subsection means a basis determined under any provision of subsection (a) of this section, providing that the basis shall be determined: "Substituted basis"

(A) By reference to the basis in the hands of a transferor, donor, or grantor, or

(B) By reference to other property held at any time by the person for whom the basis is to be determined.

Whenever it appears that the basis of property in the hands of the taxpayer is a substituted basis, then the adjustments provided in paragraph (1) of this subsection shall be made after first making in respect of such substituted basis proper adjustments of a similar nature in respect of the period during which the property was held by the transferor, donor, or grantor, or during which the other property was held by the person for whom the basis is to be determined. A similar rule shall be applied in the case of a series of substituted bases.

SEC. 7. Section 12 of The Personal Income Tax Act is hereby amended to read as follows: Stats 1939, p. 2549

Sec. 12. (a) The taxes imposed by this act upon individuals shall apply to, and be imposed upon, the income of estates or of any kind of property held in trust (other than so-called Massachusetts trusts), including: Tax on income of estates and trusts

(1) Income accumulated in trust for the benefit of unborn or unascertained persons or persons with contingent interests, and income accumulated or held for future distribution under the terms of the will or trust;

(2) Income which is to be distributed currently by the fiduciary to the beneficiaries, and income collected by a guardian of an infant which is to be held or distributed as the court may direct;

(3) Income received by estates of deceased persons during the period of administration or settlement of the estate; and

(4) Income which, in the discretion of the fiduciary, may be either distributed to the beneficiaries or accumulated.

(b) For the purposes of this section the word "settlor" shall mean and include every creator of a trust and every decedent and where in this section the settlor is spoken of as a resident or a nonresident the same shall be taken to include a decedent who upon his or her death is a resident or a nonresident as the case may be.

(c) Except as otherwise provided in subsections (d), (g) and (h) of this section, the income of an estate or trust shall be taxable to the estate or trust. The tax shall apply to the entire net income if, in the case of an estate, the decedent was a resident, regardless of the residence of the fiduciary or beneficiary, and in the case of trusts, if the fiduciary or beneficiary is a resident, regardless of the residence of the settlor.

Where the taxability of income under this subsection depends on the residence of the fiduciary and there are two or more fiduciaries for the trust, the income taxable under this

subsection shall be apportioned according to the number of fiduciaries resident in this State, such apportionment being determined according to rules and regulations prescribed by the commissioner.

Where the taxability of income under this subsection depends on the residence of the beneficiary and there are two or more beneficiaries for the trust, the income taxable under this subsection shall be apportioned according to the number and interest of beneficiaries resident in this State, such apportionment being determined according to rules and regulations prescribed by the commissioner.

Taxes on income of an estate or trust which is taxable to the estate or trust shall be a charge upon the estate or trust and shall be paid by the fiduciary.

If, for any reason, the taxes imposed on income of a trust which is taxable to the trust because the fiduciary or beneficiary is a resident of this State are unpaid when due and remain unpaid when such income is distributable to the beneficiaries, or in case such income is distributable to the beneficiaries before the taxes are due, if such taxes are unpaid when due, such income shall be taxable to the beneficiaries when distributable to them except that in the case of nonresident beneficiaries such income shall be taxable only to the extent provided in subsection (f) of Section 7 of this act.

Computation of net income.

(d) The net income of the estate or trust shall be computed in the same manner and on the same basis as in the case of an individual, except that:

Deductions

(1) There shall be allowed as a deduction (in lieu of the deduction for charitable, etc., contributions authorized by Subsection (1) of Section 8), any part of the gross income, without limitation, which pursuant to the terms of the will or deed creating the trust, is during the taxable year paid or permanently set aside for the purposes and in the manner specified in Subsection (1) of Section 8 or is to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, or for the establishment, acquisition, maintenance or operation of a public cemetery not operated for profit;

(2) There shall be allowed as an additional deduction in computing the net income of the estate or trust the amount of the income of the estate or trust for its taxable year which is to be distributed currently by the fiduciary to the beneficiaries, and the amount of the income collected by a guardian of an infant which is to be held or distributed as the court may direct, but the amount so allowed as a deduction shall be included in computing the net income of the beneficiaries whether distributed to them or not. For the purpose of this paragraph amounts currently distributable to beneficiaries are distributable out of income of the estate or trust for the taxable year if there is income of the estate or trust for the taxable year out of which such distributions may be

made and if, under the terms of the will or trust instrument, the distributions may be made out of such income, regardless of the fact that the will or trust instrument provides that the distributions may be made out of the corpus of the estate or trust. Any amount allowed as a deduction under this paragraph shall not be allowed as a deduction under paragraph (3) of this subsection in the same or any succeeding taxable year. In the case of the income of a beneficiary, not a resident, derived through such an estate or trust, such income will be taxable only to the extent provided in subsection (f) of Section 7 of this act;

(3) In the case of income received by estates of deceased persons during the period of administration or settlement of the estate, and in the case of income which, in the discretion of the fiduciary, may be either distributed to the beneficiary or accumulated, there shall be allowed as an additional deduction in computing the net income of the estate or trust the amount of the income of the estate or trust for its taxable year, which is properly paid or credited during such year to any legatee, heir, or beneficiary, but the amount so allowed as a deduction shall be included in computing the net income of the legatee, heir or beneficiary. In such cases the income of the legatee, heir, or beneficiary, not a resident, shall be taxable only to the extent provided in subsection (f) of Section 7 of this act.

(e) If the taxable year of a beneficiary is different from that of the estate or trust, the amount which he is required, under subsection (d) (2) of this section, to include in computing his net income, shall be based upon the income of the estate or trust for any taxable year of the estate or trust ending within or with his taxable year.

(f) A trust forming part of a stock bonus, pension, or profit-sharing plan of an employer for the exclusive benefit of some or all of his employees, to which contributions are made by such employer, employee, or both, for the purpose of distributing to such employees the earnings and principal of the fund accumulated by the trust in accordance with such plan, shall not be taxable under this section, but the amount actually distributed or made available to any distributee shall be taxable to him in the taxable year in which so distributed or made available to the extent that it exceeds the amounts paid in by him; provided, however, where the combined normal annual contributions of the employer and employee to one or more trusts for the benefit of any employee exceed five thousand dollars ($5,000) in any taxable year of the employee, the income of the trust from contributions by the employee shall be taxable as provided in subsection (h) of this section and the contributions of the employer and the income of the trust therefrom shall be taxable to the employee when the employee's right to receive such amounts (whether immediately or in the future) becomes certain and not subject to forfeiture.

(g) Where the title to any part of the corpus of the trust may at any time revest in the grantor without the consent of any person having a substantial adverse interest in any part of the corpus or the income therefrom, and the revesting is not contingent upon the death of all the beneficiaries, then the income of such part of the trust shall be included in computing the net income of the grantor if the grantor is a resident. If the grantor is a nonresident, such income shall be included in computing his income only to the extent derived from sources within this State; the balance of such income shall be taxable either to the trust or to the beneficiaries in accordance with the provisions of subsections (c) and (d) of this section.

(h) Where any part of the income of a trust:

(1) Is, or in the discretion of the grantor or of any person not having a substantial adverse interest in the disposition of such part of the income may be held or accumulated for future distribution to the grantor; or

(2) May, in the discretion of the grantor or of any person not having a substantial adverse interest in the disposition of such part of the income, be distributed to the grantor; or

(3) Is, or in the discretion of the grantor or of any person not having a substantial adverse interest in the disposition of such part of the income may be, applied to the payment of premiums upon policies of insurance on the life of the grantor (except policies of insurance irrevocably payable for the purposes and in the manner specified in Subsection (1) of Section 8, relating to the so-called "charitable contribution" deduction); then such part of the income of the trust shall be included in computing the net income of the grantor if the grantor is a resident. If the grantor is a nonresident, such income shall be included in computing his income only to the extent derived from sources within this State; the balance of such income shall be taxable either to the trust or to the beneficiaries in accordance with the provisions of subsections (c) and (d) of this section.

"In the discretion of the grantor"

(i) As used in subsections (g) and (h) of this section the term "in the discretion of the grantor," means "in the discretion of the grantor, either alone or in conjunction with any person not having a substantial adverse interest in the disposition of the part of the income in question."

Stats 1935, p 1107

SEC. 8. Section 14 of The Personal Income Tax Act is hereby amended to read as follows:

Time, place and method of paying tax

Sec. 14. (a) The tax imposed under this act is not a surtax, and such tax shall be paid on the fifteenth day of April following the close of the calendar year, or, if the return should be made on the basis of a fiscal year, then on the fifteenth day of the fourth month following the close of the fiscal year unless on or before such date the taxpayer elects to pay the tax in three equal installments, in which case the first installment shall be paid on the date prescribed for the payment of the tax, the second installment shall be paid on the

fifteenth day of the fourth month, and the third installment on the fifteenth day of the eighth month, after such date. If any installment is not paid on or before the date fixed for its payment, the whole amount of tax unpaid shall be paid upon notice and demand from the commissioner.

(b) The tax imposed under this act, or any installment thereof, may be paid, at the election of the taxpayer, prior to the date prescribed for its payment.

(c) The tax, and any additions thereto, imposed by this act, shall be paid to the commissioner at Sacramento, or to his authorized representatives at any branch office. Remittances may be in the form of uncertified check, payable to the State Treasurer, during such time and under such regulations as the commissioner may prescribe, but if a check so received is not paid by the bank on which it is drawn, the taxpayer by whom such check is tendered shall remain liable for the payment of the tax, and all additions thereto, the same as if such check had not been tendered.

SEC. 9. Section 15 of The Personal Income Tax Act is hereby amended to read as follows: Stats 1939, p 2553

Sec. 15. (a) (1) If any taxpayer fails to make and file a return required by this act on or before the due date of the return or the due date as extended by the commissioner, then, unless it is shown that such failure is due to reasonable cause and not due to wilful neglect, 5 per centum of the tax shall be added to the tax for each 30 days or fraction thereof elapsing between the due date of the return and the date on which filed, but the total addition shall not exceed 25 per centum of the tax. The amount so added to the tax shall be due and payable upon notice and demand from the commissioner. Interest and additions to the tax. Failure to file return

(2) If any taxpayer, upon notice and demand by the commissioner, fails or refuses to make and file a return required by this act, the commissioner is authorized to make an estimate of the net income and to compute and levy the amount of the tax due under this act from any available information, and in such case 25 per centum of the tax (in addition to the amounts added under the provisions of paragraph (1) of this subsection) shall be added to the tax and shall be due and payable upon notice and demand from the commissioner.

If any taxpayer fails or refuses to furnish any information as requested in writing by the commissioner, the commissioner may add a penalty of 25 per centum of the amount of any additional tax assessed by the commissioner concerning the determination of which such information was required.

(b) (1) If any part of any deficiency is due to negligence, or intentional disregard of rules and regulations but without intent to defraud, 5 per centum of the total amount of the deficiency (in addition to such deficiency and other additions provided in this section) shall be assessed, collected, and paid in the same manner as if it were a deficiency. Penalties for certain deficiencies

(2) If any part of any deficiency is due to fraud with intent to evade tax, then 50 per centum of the total amount of the deficiency (in addition to such deficiency and other additions provided in this section) shall be assessed, collected and paid in the same manner as if it were a deficiency.

Interest

(c) (1) If the tax imposed by this act (whether determined by the commissioner or the taxpayer) or any installment or portion thereof is not paid on or before the date prescribed for its payment, there shall be collected as a part of the tax interest upon such unpaid amount at the rate of 6 per centum per year from the date prescribed for its payment until it is paid.

(2) If the time for the payment of the tax or any installment thereof is extended under the provisions of Section 13 of this act, or collection of a jeopardy assessment is stayed under Section 18 of this act, there shall be collected as part of such tax interest thereon at the rate of 6 per centum a year from the date upon which such payment should have been made if no extension had been granted or collection had not been stayed until the date the tax is paid.

(3) Interest upon the amount determined as a deficiency shall be assessed and paid at the same time as the deficiency at the rate of 6 per centum per year from the date prescribed for the payment of the tax (or, if the tax is paid in installments, from the date prescribed for the payment of the first installment) to the date the deficiency is assessed; provided, however, if any portion of the deficiency is paid prior to the date it is assessed, interest shall accrue on such portion only to the date paid.

(4) Where a deficiency, or any interest or additional amounts assessed in connection therewith under subsections (a) (1) and (b) and (c) (3) of this section, or any addition to the tax in case of delinquency provided for in subsections (a) (1) and (2) of this section, is not paid in full within 10 days from the date of notice and demand from the commissioner, there shall be collected as a part of the tax, interest upon the unpaid amount at the rate of 6 per centum a year from the date of such notice and demand until it is paid. If any part of such amount prorated to any unpaid installment is not paid in full on or before the date prescribed for the payment of such installment, there shall be collected as a part of the tax, interest upon the unpaid amount at the rate of 6 per centum a year from such date until it is paid.

Overpayment Credit on deficiency

(d) (1) Where an overpayment is made by any taxpayer for any year, and a deficiency is owing from the husband or wife of the taxpayer for the same year, and both husband and wife notify the commissioner in writing prior to the expiration of the time within which credit for the overpayment may be allowed, that the overpayment may be credited against the deficiency, no interest shall be assessed on such portion of the deficiency as is extinguished by the credit for the period of time subsequent to the date the overpayment was made.

(2) When the correction of an erroneous inclusion or deduction of an item in the computation of income of any year results in an overpayment for one year and a deficiency for another year, the overpayment, if the period within which credit for the overpayment may be allowed has not expired, shall be credited on the deficiency, if the period within which the deficiency may be proposed has not expired, and the balance, if any, shall be credited or refunded as provided in Section 20. No interest shall be assessed on such portion of the deficiency as is extinguished by the credit for the period of time subsequent to the date the overpayment was made.

(3) Notwithstanding the provisions of Section 20, no interest shall in any case be allowed on any overpayment to the extent credited on deficiencies pursuant to the provisions of paragraphs (1) and (2) of this subsection.

SEC. 10. Section 16 of The Personal Income Tax Act is hereby amended to read as follows: Stats 1939, p 2555

Sec. 16. (a) The net income shall be computed upon the basis of the taxpayer's annual accounting period (fiscal year or calendar year, as the case may be) in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made in accordance with such method as in the opinion of the commissioner does clearly reflect the income. If the taxpayer's annual accounting period is other than a fiscal year as defined in Section 2 (i) or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year. Computation of tax Accounting period

(b) If a taxpayer, with the approval of the commissioner, changes the basis of computing net income from fiscal year to calendar year a separate return shall be made for the period between the close of the last fiscal year for which return was made and the following December 31st. If the change is from calendar year to the fiscal year, a separate return shall be made for the period between the close of the last calendar year for which return was made and the date designated as the close of the fiscal year. If the change is from one fiscal year to another fiscal year a separate return shall be made for the period between the close of the former fiscal year and the date designated as the close of the new fiscal year. Change in accounting period

(1) Where a separate return is made under subsection (b) of this section on account of a change in the accounting period, and in all other cases where a separate return is required or permitted, by regulations prescribed by the commissioner, to be made for a fractional part of a year, then the income shall be computed on the basis of the period for which separate return is made.

(2) If a separate return is made under subsection (b) of this section, on account of a change in the accounting period, the net income, computed on the basis of the period for which

separate return is made, shall be placed on an annual basis by multiplying the amount thereof by 12 and dividing by the number of months included in the period for which the separate return is made. The tax shall be such part of the tax computed on such annual basis as the number of months in such period is of 12 months.

(c) In the case of a return made for a fractional part of a year, except a return made under subsection (b), on account of a change in the accounting period, the personal exemption and the credit for dependents shall be reduced respectively to amounts which bear the same ratio to the full credits provided as the number of months in the period for which return is made bears to 12 months.

(d) The amount of all items of gross income shall be included in the gross income for the taxable year in which received by the taxpayer, unless, under the methods of accounting permitted under subsection (a) of this section, any such amounts are to be properly accounted for as of a different period. In the case of the death of the taxpayer there shall be included in computing net income for the taxable period in which falls the date of his death, amounts accrued up to the date of his death if not otherwise properly includible in respect of such period or a prior period.

(e) The deductions and credits provided for in this act shall be taken for the taxable year in which "paid or accrued" or "paid or incurred," dependent upon the method of accounting upon the basis of which the net income is computed, unless in order clearly to reflect the income the deductions or credits should be taken as of a different period. In the case of the death of a taxpayer there shall be allowed as deductions and credits for the taxable period in which falls the date of his death, amounts accrued up to the date of his death (except deductions under Subsection 8(*l*)) if not otherwise properly allowable in respect of such period or a prior period.

Change in law applicable to tax computation

(f) The tax for any period beginning in one calendar year (hereinafter in this section called "first calendar year") and ending in the following calendar year (hereinafter in this section called "second calendar year") where the law applicable to the computation of taxes for taxpayers reporting on a calendar year basis differs for the second calendar year from the law applicable to the first calendar year, shall be the sum of: (1) the same proportion of a tax for the entire period, determined under the law applicable to the first calendar year and at the rates for such year, which the portion of such period falling within the first calendar year is of the entire period; and (2) the same proportion of a tax for the entire period, determined under the law applicable to the second calendar year and at the rates for such year, which the portion of such period falling within the second calendar year is of the entire period.

Any tax that has been paid under the law applicable to the first calendar year if in excess of the tax imposed by this section shall be refunded or credited to the taxpayer as provided in Section 20. Any tax in addition to that paid under the law applicable to the first calendar year made necessary by this section shall be immediately due and payable upon notice and demand from the commissioner.

Change in status of taxpayer

(g) When the status of a taxpayer changes from resident to nonresident, or from nonresident to resident, there shall be included in determining income from sources within or without this State, as the case may be, income and deductions accrued prior to the change of status even though not otherwise includible in respect of the period prior to such change, but the taxation or deduction of items accrued prior to the change of status shall not be affected by the change.

SEC. 11. Section 18 of The Personal Income Tax Act is hereby amended to read as follows:

Jeopardy assessments

Sec. 18. (a) If the commissioner finds that the assessment or the collection of a tax or a deficiency for any year, current or past, will be jeopardized in whole or in part by delay, he may mail or issue notice of such finding to the taxpayer, together with a demand for immediate payment of the tax or the deficiency declared to be in jeopardy (including interest, penalties and additions thereto). In the case of a tax for a current period, the commissioner may declare the taxable period of the taxpayer immediately terminated and shall cause notice of such finding and declaration to be mailed or issued to the taxpayer, together with a demand for immediate payment of the tax based on the period declared terminated, including therein income accrued and deductions incurred up to such date of termination if not otherwise properly includible or deductible in respect of such period, and such tax shall be immediately due and payable whether or not the time otherwise allowed by law for filing the return and paying the tax has expired.

(b) The jeopardy assessments provided for in this section shall be immediately due and payable and proceedings for collection may be commenced at once; provided, that the taxpayer may stay collection and prevent the jeopardy assessment from becoming final by filing, within 10 days after the date of mailing or issuing the notice of jeopardy assessment, a petition for reassessment, accompanied by a bond or other security in such amount as the commissioner may deem necessary, not exceeding double the amount (including interest, penalties, and additions thereto) as to which the stay is desired. The commissioner shall consider such petition for reassessment, and notify the taxpayer of his decision thereon, which decision shall be final. If the taxpayer has so requested in its petition, it shall be the duty of the commissioner to grant said taxpayer, or its authorized representative, an oral hearing. If petition for reassessment, accompanied by bond or other security, is not filed within the 10-day period, the assessment shall become final.

Jeopardy assessments

(c) In any proceedings brought to enforce payment of taxes made due and payable by virtue of the provisions of this section, the finding of the commissioner, made as herein provided, whether made after notice to the taxpayer or not, shall be for all purposes presumptive evidence that the assessment or collection of the tax or the deficiency was in jeopardy. A certificate of the commissioner of the mailing or issuing the notices specified in this section shall be presumptive evidence that such notices were mailed or issued.

(d) If any taxpayer fails to file a return, or files a false or fraudulent return with intent to evade tax, for any taxable year, the tax may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time.

(e) Upon the adjudication of bankruptcy of any taxpayer in any bankruptcy proceeding or the appointment of a receiver for any taxpayer in any receivership proceeding before any court of the United States or of any State or Territory or of the District of Columbia, any deficiency (together with all interest, additional amounts, or additions to the tax provided for by law) determined by the commissioner in respect of a tax imposed by this act upon such taxpayer may be immediately assessed. In such cases the trustee in bankruptcy or receiver shall give notice in writing to the commissioner of the adjudication of bankruptcy or the appointment of the receiver, and the running of the statute of limitations on the making of assessments shall be suspended for the period from the date of adjudication in bankruptcy or the appointment of the receiver to a date 30 days after the date upon which the notice from the trustee or receiver is received by the commissioner; but the suspension under this sentence shall in no case be for a period in excess of two years. Claims for the deficiency and such interest, additional amounts and additions to the tax may be presented, for adjudication in accordance with law, to the court before which the bankruptcy or receivership proceeding is pending, despite the pendency of proceedings for the redetermination of the deficiency in pursuance of a petition to the State board; but no petition for any such redetermination shall be filed with the State board after the adjudication of bankruptcy or the appointment of the receiver. Any portion of the claim allowed in such bankruptcy or receivership proceeding which is unpaid shall be paid by the taxpayer upon notice and demand from the commissioner after termination of such proceeding and may be collected in the manner provided in this act for the collection of delinquent taxes at any time within six years after termination of such proceeding.

(f) The commissioner is hereby authorized to prescribe such rules and regulations as may be necessary properly to carry out the provisions of this section.

SEC. 12. Section 19 of The Personal Income Tax Act is hereby amended to read as follows: Stats 1939, p 2557

Sec. 19. As soon as practicable after the return is filed, the commissioner shall examine it and shall determine the correct amount of the tax. If the commissioner determines that the tax disclosed by the original return is less than the tax disclosed by his examination he shall mail notice or notices to the taxpayer of the deficiency proposed to be assessed. Each notice shall set forth the details and computation of such deficiency. Assessment of deficiency tax Notice

In the case of a joint return filed by husband and wife, such notice of deficiency may be a single joint notice, except that if the commissioner has been notified by either spouse that separate residences have been established, then, in lieu of the single joint notice, duplicate originals of the joint notice shall be sent by mail to each spouse.

Within 60 days after mailing of said notice the taxpayer may file with the commissioner a written protest against the levy of the proposed deficiency, specifying therein the grounds upon which the protest is based. The protest must be under oath. Protest

If no such protest is so filed the amount of the deficiency shall be final upon the expiration of said 60-day period. If a protest is so filed it shall be the duty of the commissioner to reconsider the computation and levy of the deficiency complained of, and, if the taxpayer has so requested in his protest, it shall be the duty of the commissioner to grant said taxpayer, or his authorized representatives, an oral hearing.

The commissioner's action upon the protest shall be final upon the expiration of 30 days from the date when he mails notice of his action to the taxpayer, unless within that 30-day period the taxpayer appeals in writing from the action of the commissioner to the State board. The appeal must be addressed and mailed to the State Board of Equalization at Sacramento, California, and a copy of the appeal addressed and mailed at the same time to the commissioner at Sacramento, California. Said board shall hear and determine the same and thereafter shall forthwith notify the taxpayer and the commissioner of its determination, and the reasons therefor. Such determination shall be final upon the expiration of 60 days from the time of such determination unless within such 60-day period the determination is modified in which event it shall become final upon the expiration of 60 days from the time it is modified. Appeal

When a deficiency has been determined and the tax has become final under the provisions of this section, the commissioner shall mail notice and demand to the taxpayer for the payment thereof, and such tax shall be due and payable at the expiration of 10 days from the date of such notice and demand, unless the taxpayer has elected to pay the tax Notice and demand

in installments, in which case the deficiency shall be prorated to the three installments. Except as provided in Section 18 (relating to jeopardy assessments), that part of the deficiency so prorated to any installment, the date for payment of which has not arrived, shall be collected at the same time as, and as part of, such installment. That part of the deficiency so prorated to any installment the date for payment of which has arrived shall be due and payable at the expiration of 10 days from the date of such notice.

A certificate by the commissioner or of said board, as the case may be, of the mailing of the notices specified in this section shall be prima facie evidence of the computation and levy of the deficiency in tax and of the giving of said notices.

Time for mailing notice

Except in the case of a fraudulent return, every notice of a proposed deficiency tax shall be mailed to the taxpayer within four years after the return was filed and no deficiency shall be assessed or collected with respect to the year for which such return was filed unless such notice is mailed within such period; provided that, in the case of any taxpayer who shall agree with the United States Commissioner of Internal Revenue for an extension (or renewals thereof) of the period for proposing and assessing deficiencies in Federal income taxes for any year, the period for mailing notices of proposed deficiency tax pursuant to this section shall be four years after the return was filed or six months after the date of the expiration of the agreed period for assessing deficiencies in Federal income tax, whichever period expires the later. For the purposes of this paragraph a return filed before the last day prescribed by law for the filing thereof shall be considered as filed on such last day.

Extension of assessment period

Where before the expiration of the time prescribed in this section for the assessment of the tax, the taxpayer has consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

Any amount of tax in excess of that disclosed by the return, due to a mathematical error, notice of which has been mailed to the taxpayer, shall not be considered a deficiency assessment within the meaning of this section. The taxpayer shall have no right of protest or appeal as herein provided, based on such notice, nor shall such assessment or collection be prohibited by any of the provisions of this section.

SEC. 13. Section 20 of The Personal Income Tax Act is hereby amended to read as follows:

Credits and refunds

Sec. 20. If, in the opinion of the commissioner, or the State board, as the case may be, there has been an overpayment of tax, penalty or interest by a taxpayer for any year for any reason, the amount of such overpayment shall be credited against any taxes then due from the taxpayer under this act,

Claim

and the balance refunded to the taxpayer. No such credit or

refund shall be allowed or made until approved by the State Board of Control. No such credit or refund shall be allowed or made after four years from the last day prescribed for filing the return or after one year from the date of the overpayment, whichever period expires the later, unless before the expiration of such period a claim therefor is filed by the taxpayer, or unless before the expiration of such period the commissioner has certified the overpayment to the State Board of Control for approval of the refunding or the crediting thereof. A refund claim upon which action has become final shall not thereafter be considered a refund claim within the meaning of the foregoing provision except to the extent allowed. Every claim for refund must be in writing under oath and must state the specific grounds upon which the claim is founded.

Disallowance Notice

If the commissioner disallows any claim for refund, he shall notify the taxpayer accordingly. At the expiration of 90 days from the mailing of such notice, the commissioner's action upon the claim shall be final unless within such 90-day period, the taxpayer appeals in writing from the action of the commissioner to the State Board of Equalization. If the commissioner fails to mail notice of action on any refund claim within six months after the claim was filed, the taxpayer may, prior to mailing of notice of action on the refund claim, consider the claim disallowed and appeal to said board. Appeals must be addressed to the State Board of Equalization at Sacramento, California, and a copy of the appeal addressed and mailed at the same time to the commissioner at Sacramento, California. Said board shall hear and determine the same and thereafter shall forthwith notify the taxpayer and the commissioner of its determination. Such determination shall be final upon the expiration of 60 days from the time of such determination unless within such 60-day period the determination is modified in which event it shall become final upon the expiration of 60 days from the time it is modified.

Appeal

Interest

Interest shall be allowed and paid upon any overpayment of any tax, if the overpayment was not made because of an error or mistake on the part of the taxpayer, at the rate of 6 per centum per annum as follows:

(1) In the case of a credit, from the date of the overpayment to the date of the allowance of the credit. Any interest allowed on any credit shall first be credited on any taxes due from the taxpayer under this act.

(2) In the case of a refund, from the date of the overpayment to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the commissioner.

Recovery of erroneous refund

Any refund or any portion thereof which is erroneously made, and any credit or any portion thereof which is erroneously allowed, may be recovered, together with interest at the rate of 6 per centum per annum from the date the refund was made or the credit allowed, in an action brought by the commissioner in a court of competent jurisdiction in the County of

Sacramento in the name of the people of the State of California, and such action shall be tried in the County of Sacramento unless the court with the consent of the prosecutor, orders a change of place of trial. The Attorney General or the counsel for the commissioner must prosecute such action, and the provisions of the Code of Civil Procedure, relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for.

In the event that a tax has been illegally levied against a taxpayer, the commissioner shall set forth on his records the reasons therefor and thereafter shall authorize the cancellation of such tax.

Stats 1939, p 2560

SEC. 14. Section 21 of The Personal Income Tax Act is hereby amended to read as follows:

Action to recover tax paid

Sec. 21. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the assessment or collection of any tax under this act, but any taxpayer claiming that the tax computed and levied against him pursuant to Sections 18 and 19 of this act is void in whole or in part may bring an action against the commissioner for the recovery of the whole or any part of the amount paid. Such action must be filed within four years from the last date prescribed for filing the return or within one year from the date the tax was paid, whichever period expires the later; provided, however, no action shall be filed for the recovery of a deficiency assessment unless the taxpayer has made protest to the commissioner of the computation and levy complained of under the provisions of such section.

Limitation

Within 90 days after the mailing of the notice of the commissioner's action upon any refund claim, or in case of an appeal to the State Board of Equalization, from the disallowance of any refund claim, within 90 days after the mailing of the notice of the board's determination of the appeal the taxpayer may bring an action against the commissioner on the grounds set forth in such claim for the recovery of the whole or any part of the amount claimed as an overpayment. If the commissioner fails to mail notice of action on any refund claim within six months after the claim was filed, the taxpayer may, prior to mailing of notice of action on the refund claim, consider the claim disallowed and bring an action against the commissioner on the grounds set forth in such claim for the recovery of the whole or any part of the amount claimed as an overpayment.

Interest

In any judgment of any court rendered for any overpayment in respect of any tax imposed by this act, interest shall be allowed at the rate of 6 per centum per annum upon the amount of the overpayment, from the date of the payment or collection thereof to the date of allowance of credit on account of such judgment or to a date preceding the date of the refund

warrant by not more than 30 days, such date to be determined by the commissioner.

Substitution

In all actions now pending against the State Treasurer under the provisions of this act, the commissioner shall be substituted for the State Treasurer by the court wherein the action is pending. This substitution shall not in any way affect the rights of the plaintiff in said action.

Service of papers

Whenever under the provisions of this section an action is commenced against the commissioner, a copy of the complaint and the summons must be served upon the commissioner or the assistant commissioner. A second copy of the complaint and the summons must be furnished to the commissioner, but this requirement shall not be considered jurisdictional. At the time the commissioner demurs or answers, he may demand that the action be tried in the Superior Court of the County of Sacramento, which demand must be granted. The Attorney General or the counsel for the commissioner of the State of California must defend the action. A failure to begin such action within the time herein specified shall be a bar against the recovery of such taxes.

If judgment is rendered against the commissioner, the amount thereof shall first be credited against any taxes and interest due from the taxpayer under this act and the remainder refunded to the taxpayer by the State Treasurer on warrants drawn by the Controller.

SEC. 15. Section 22 of The Personal Income Tax Act is hereby amended to read as follows:

Partnership not taxable

Sec. 22. (a) An individual carrying on business in partnership shall be liable for income tax only in his individual capacity and shall include in his gross income the distributive share of the net income of the partnership received by him or distributable to him during the taxable year.

(b) The net income of the partnership shall be computed in the same manner and on the same basis as in the case of an individual, except that the deduction provided for in Subsection 8 (*l*) shall not be allowed to the partnership, but each partner shall be considered as having made payment, within his taxable year, of his distributive share of any contribution or gift, payment of which was made by the partnership within its taxable year, of the character which would be allowed as a deduction to the partnership under such subsection if this exception had not been enacted.

(c) Every partnership shall make a return for each taxable year, stating specifically the items of gross income and the deductions allowed by this act, and shall include in the return the names and addresses of the individuals, whether residents or nonresidents, who would be entitled to share in the net income if distributed and the amount of the distributive share of each individual. The return shall be sworn to by any one of the partners.

(d) If the taxable year of a partner is different from that of the partnership, the distributive share of the net

income of the partnership to be included in computing the net income of the partner for his taxable year shall be based upon the net income of the partnership for any taxable year of the partnership ending within or with the taxable year of the partner.

Information and withholding at source

Sec. 23. (a) Every individual, partnership, corporation, joint stock company or association, insurance company, business trust, or so-called Massachusetts trust, being a resident or having a place of business in this State, in whatever capacity acting, including lessees or mortgagors of real or personal property, fiduciaries, employers and all officers and employees of this State or any political subdivision of this State, having the control, receipt, custody, disposal or payment of interest (other than interest coupons payable to bearer), dividends, rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments or other fixed or determinable annual or periodical gains, profits and income amounting to one thousand dollars ($1,000) or over, paid or payable during any year to any taxpayer, shall make complete return thereof under oath, to the commissioner, under such regulations and in such form and manner and to such extent as may be prescribed by him.

(b) Such returns may be required, regardless of amounts, (1) in the case of payments of interest upon bonds, mortgages, deeds of trust, or other similar obligations of corporations, (2) in the case of dividends paid by corporations, and (3) in the case of collections of items (not payable in the United States) of interest upon the bonds of foreign countries and interest upon the bonds of and dividends from foreign corporations by persons undertaking as a matter of business or for profit the collection of foreign payments of such interest or dividends by means of coupons, checks, or bills of exchange.

(c) When necessary to make effective the provisions of this section the name and address of the recipient of income shall be furnished upon demand of the person paying the income.

(d) The provisions of this section shall not apply to the payment of interest obligations not taxable under this act.

(e) (1) The commissioner may, by regulation, require any person including any officer or department of the State or any political subdivision or agency of the State to withhold from payments of interest (other than interest coupons payable to bearer), dividends, rent, prizes, winnings, and compensation for personal services, including bonuses, an amount equal to the tax that would be imposed by this act upon such payments if they, together with all similar payments since the beginning of the calendar year, represented net income and the only net income of the payee and to transmit the amounts withheld to the commissioner at such

time as he may designate. Any person who fails to withhold from any payments and transmit to the commissioner any amounts required by the commissioner pursuant to this paragraph to be withheld and transmitted shall be liable for any taxes due from the taxpayer to whom such payments are made for the year in which made to an extent not in excess of the amounts required to be withheld, unless it is shown that such failure was due to reasonable cause.

(2) The commissioner may by notice served personally or by registered mail require any person, including any officer or department of the State or any political subdivision or agency of the State, to withhold from any payments of any nature to any taxpayer the amount of any tax, interest or penalties due from the taxpayer under this act and to transmit the amount withheld to the commissioner at such times as he may designate. Any person failing to withhold the tax due from any taxpayer and transmit the same to the commissioner as required by the commissioner pursuant to this paragraph shall be liable for such tax.

(3) Any person required to withhold and transmit any amount pursuant to this section must comply with such requirement without resort to any legal or equitable action in a court of law or equity, and any person paying to the commissioner any amount required by him to be paid pursuant to paragraphs (1) and (2) of this subsection shall not be liable therefor to the person from whom withheld unless the amount withheld is refunded to the withholding agent.

(4) Any taxpayer from whom a tax has been collected by withholding under this section shall be entitled to the remedies set forth in Sections 20 and 21 of this act; provided, however, that any refund of such tax under Section 20 shall be made to the withholding agent instead of directly to the taxpayer, if requested in writing by the withholding agent at the time the amounts refundable were transmitted to the commissioner.

SEC. 17. Section 26 of The Personal Income Tax Act is hereby amended to read as follows: Stats 1939, p 2562

Sec. 26. (a) If the value of the assets of an estate at the death of decedent exceeds twenty thousand dollars ($20,000), and if any beneficiary lives outside this State, the final account of the fiduciary shall not be allowed by the probate court unless the fiduciary obtains from the commissioner and files with the court a certificate to the effect that all taxes imposed by this act upon the estate or decedent which have become payable, have been paid, and that all taxes which may become due are secured by bond, deposit or otherwise. Within 30 days after receiving a request for a certificate, the commissioner shall either issue the certificate or notify the person requesting the certificate of the amount of tax that must be paid or the amount of bond, deposit or other security that must be furnished as a condition of issuing the certificate. The certificate of the commissioner Tax upon settlement of fiduciary's account

shall not relieve the estate for whom the fiduciary acts of liability for any taxes due and unpaid at the time the certificate is issued or which may become due from said decedent or estate under this act after the issuance of the certificate nor shall it relieve the fiduciary of the liability imposed by subsection (b) of this section.

(b) Every fiduciary who pays, in whole or in part, any claim, other than claims for taxes, expenses of administration, funeral expenses, expenses of last illness, and family allowance, against the person, estate or trust for whom or for which he acts, or who makes any distribution of the assets of such person, estate or trust, before he satisfies and pays taxes, including all increases, interest and penalties, except penalties due from a decedent, imposed by this act on the person, estate or trust for whom or for which he acts, or which constitute a claim against such person, estate or trust, or which are a lien or charge on or against the assets of such person, estate or trust, shall be personally liable therefor to the extent of such payments and distributions.

In the case of income received or accrued during the lifetime of a decedent, or by his estate during the period of administration, or by a trust, notices proposing to assess the tax shall be mailed, and any proceeding in court without assessment for the collection of the tax shall be begun, within 18 months after written request therefor (filed after the return is made) by the fiduciary of the estate or trust or by any other person liable for the tax or any portion thereof.

(c) Any person acting in a fiduciary capacity shall assume the duties, and, upon notice to the commissioner, shall assume the rights and privileges of the taxpayers in respect of any tax imposed by this act (except as otherwise specifically provided), until notice is given that the fiduciary capacity has terminated. Notice under this section shall be given in accordance with rules and regulations prescribed by the commissioner.

SEC. 18. Section 28 of The Personal Income Tax Act is hereby amended to read as follows:

Enforcement of tax: Certificate of delinquency

Sec. 28. In any case in which any tax or any portion or installment thereof, interest or penalty imposed under this act is not paid when due, the commissioner may file in the office of the County Clerk of Sacramento County, or any other county, a certificate specifying the amount of the tax, penalty and interest due, the name and last known address of the taxpayer liable for the same, that the commissioner has complied with all the provisions of this act in relation to the computation and levy of the tax and a request that judgment be entered against the taxpayer in the amount of the tax, penalty and interest set forth in the certificate. The county clerk immediately upon the filing of such certificate shall enter a judgment for the people of the State of California against the taxpayer in the amount of the tax, penalty and interest set forth in the certificate. The judgment may be filed

by the county clerk in a loose-leaf book entitled "Personal Income Tax Judgments."

An abstract of such judgment or a copy thereof may be recorded with the county recorder of any county and from the time of such recording, the amount of the taxes, penalty and interest therein set forth shall constitute a lien upon all property of the taxpayer in such county, owned by him or which he may afterwards and before the lien expires acquire, which lien shall have the force, effect and priority of a judgment lien and shall continue for five years from the date of the recording of the judgment by the county clerk unless sooner released or otherwise discharged. Within five years from the date of the recording of the judgment by the county clerk, or within five years from the date of the last extension of the lien in the manner herein provided, the lien may be extended by recording in the office of the county recorder of any county an abstract or copy of the judgment, and from the time of such recording the lien shall be extended to the property in such county for five years unless sooner released or otherwise discharged. Execution shall issue upon such a judgment upon request of the commissioner in the same manner as execution may issue upon other judgments, and sales shall be held under such execution as prescribed in the Code of Civil Procedure. In all proceedings under this section the commissioner shall be authorized to act on behalf of the people of the State of California.

Tax lien

Extension

In any case in which any tax, interest or penalty imposed under this act is not paid when due, the commissioner may file in the office of any county recorder a certificate specifying the amount of the tax, interest and penalty due, owing and/or unpaid, the name and last known address of the taxpayer liable for the same, and that the commissioner has complied with all provisions of this act in relation to the computation and levy of the tax. From the time of such recording the amount of the tax, interest and penalty therein set forth shall constitute a lien upon all property of the taxpayer in such county, owned by him or which he may afterwards and before the lien expires acquire, which lien shall have the force, effect and priority of a judgment lien and shall continue for five years from the date of the recording of the certificate by the county clerk unless sooner released or otherwise discharged. Within five years from the date of the recording of the certificate by the county clerk, or within five years from the date of the last extension of the lien in the manner herein provided, the lien may be extended by recording in the office of the county recorder of any county a new certificate, and from the time of such recording the lien shall be extended to the property in such county for five years unless sooner released or otherwise discharged.

Extension

A warrant may be issued by the commissioner or his duly authorized representative for the collection of any tax, interest or penalty and for the enforcement of any lien, directed

Warrant

to any sheriff, constable or marshal; and shall have the same force and effect as a writ of execution. It may and shall be levied and sale made pursuant to it in the same manner and with the same force and effect as a levy of and sale pursuant to a writ of execution. The sheriff, constable or marshal shall receive upon the completion of his services pursuant to said warrant and the commissioner is authorized to pay to said sheriff, constable or marshal the same fees, commissions and expenses in connection with services pursuant to said warrant as are provided by law for similar services pursuant to a writ of execution; provided, that fees for publication in a newspaper shall be subject to approval by the commissioner rather than by the court; said fees, commissions and expenses shall be an obligation of the taxpayer and may be collected from the taxpayer by virtue of the warrant or in any other manner provided in this act for the collection of a tax.

Release from lien

The commissioner may, at any time, release all or any portion of the property subject to the lien from the lien or subordinate the lien to other liens if he determines that the taxes are sufficiently secured by a lien on other property of the taxpayer or that the release or subordination of the lien will not endanger or jeopardize the collection of such taxes. A certificate by the commissioner to the effect that any property has been released from the lien or that such lien has been subordinated to other liens shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Action to recover tax

The commissioner may, at any time, bring an action in a court of competent jurisdiction, in the name of the people of the State of California, to recover the amount of any taxes, penalties, and interest due under this act. The Attorney General or the franchise tax counsel for the commissioner of this State must prosecute such action and such action shall be tried in the County of Sacramento unless the court with the consent of the prosecutor, orders a change of place of trial. In such action a writ of attachment may be issued, and no bond or affidavit previous to the issuing of said attachment is required. In such action a certificate by the commissioner showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency and of compliance by the commissioner and the State board with all the provisions of this act in relation to the computation and levy of the tax.

The commissioner may bring an appropriate action (whether in the form of a common law action of debt or indebitatus assumpsit, or a code or other action), in any court of competent jurisdiction in the United States or in a foreign country, in the name of the people of the State of California, to recover the amount of any taxes and interest due under this act. The Attorney General or the franchise tax counsel for the commissioner of this State must prosecute such action.

Remedies cumulative

It is expressly provided that the foregoing remedies of the State shall be cumulative and that no action taken by

the commissioner shall be or be construed to be an election on the part of the State or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this act.

762.5. The director shall inspect all deliveries of tomatoes for canning purposes, except those accompanied by a certificate issued in accordance with Chapter 1 of this division. Such inspection shall be conducted at the point of delivery specified in the contract between the producer and the canner or if no such point is specified at the cannery to determine if the tomatoes delivered are suitable for canning purposes as required by Section 762; and the director shall issue a rejection order if found unsuitable in accordance with Section 763. Rules and regulations

Said director may promulgate and enforce such rules and regulations as may be necessary for the enforcement of this chapter and may adopt a schedule of uniform fees to defray

Fees and inspection costs

the cost of the required inspection and of certification. Each canner receiving deliveries of tomatoes for canning purposes is hereby designated as the authorized agent of the director to collect the inspection and certification fees chargeable to him and to each producer delivering such tomatoes. The cost of such inspection shall be borne equally by both the canner and the producer, but the total cost of such inspection shall in no event exceed 20 cents ($0.20) per ton. Moneys collected under the provisions of this section shall be remitted to the director weekly during the tomato canning season for deposit

into the Department of Agriculture Fund to be used in carrying out the purposes of this chapter. Any money so collected and not used for the purposes of this chapter shall be returned to the canners and producers from whom it was received.

Time for inspection

Any load of tomatoes so offered for inspection and delivery that is rendered unsuitable for canning purposes as a direct result of unwarranted delay in inspection, wilfully or negligently caused or permitted by the canner, shall be paid for by the canner at the full price agreed upon for tomatoes suitable for canning purposes and on the basis that such tomatoes were of the grade, quality, and condition stipulated in the contract. If no price is stipulated in the contract, payment shall be made by the canner to the grower on the basis of the then prevailing market price for tomatoes of the grade, quality and condition specified in the contract. Damage due to delay in inspection by canner

In addition to any other remedy, the grower so offering for inspection and delivery any load of tomatoes who has incurred any added handling costs as a direct result of the unwarranted delay in inspection and delivery, wilfully or negligently caused or permitted by a canner, may recover the amount of such added handling costs by an action at law against such canner. Handling costs recoverable

Delay in such inspection and acceptance for delivery for a period of six hours or more after a load of tomatoes is offered for inspection and delivery in accordance with the terms of a contract between the grower and the canner shall be prima facie evidence that such delay was unwarranted and caused by wilfulness or negligence on the part of the canner; provided, however, that during 15 24-hour peak periods in any tomato canning season, delay in such inspection and acceptance of delivery shall not be prima facie evidence that such delay was caused by wilfulness or negligence on the part of the canner unless such delay covered a period of more than 12 hours. Such peak periods shall be the periods of maximum delivery as shown by the records of the canner and shall be designated by the canners for each cannery or other specified inspection point promptly after the close of each tomato canning season by posting a notice of the peak periods for each cannery or inspection point in a conspicuous place at such cannery or inspection point. Presumption

No grower shall have any rights under this section unless he shall register each load of tomatoes with the canner at the time he offers such load for inspection and delivery. Such Registration

registration shall be made by obtaining from the canner a certificate, which such canner is hereby required to furnish, stating the time of arrival of the load at the cannery or other specified inspection point.

including such aforesaid rights, to lands contained in the district may for his benefit and on his behalf be exercised by, and are hereby extended to, his legal representative in all cases where said legal representative is an official of said corporation owning land within the district or is a guardian, executor, or administrator of an estate who is appointed as such under the laws of this State and who as such is entitled to the possession of lands included within said water storage and conservation district belonging to the estate which he represents and who has been by the court duly authorized to exercise the particular right, privilege or immunity which he seeks to exercise; provided, however, that he must, before he casts a ballot at any election of the district, present the board of election or some clerk thereof with a certified copy of his authority, which must be kept and filed with the returns of the election.

Upon approval by said board of said undertaking, the board shall fix a time for the hearing of said petition, which shall not be less than 30 days nor more than 60 days thereafter, and the clerk of said board shall cause a notice of the filing of said petition and of the time and place for said hearing to be published at least once a week for three successive weeks in a newspaper of general circulation published in the county in which the lands within said proposed district are situated, or in each county in which any of the lands within said proposed district are situated if said proposed district includes land in more than one county. The board shall have power to make the necessary rules and regulations to carry out the provisions of this section.

SEC. 35. For any of the purposes of this act, including payment of interest and principal on bonds issued under this

If the board of directors recommends that said project be carried out in accordance with the plans and specifications in its said report contained, the State Engineer shall make such investigation of such project as is in his judgment desirable and shall make and file with the directors of the district an order either approving and confirming said report and recommendation or disapproving the same.

Modification of report

SEC. 68. If the result of such election shows a majority of all votes cast are "Completion of Project—Yes" said report and recommendation shall be deemed to be adopted by the district.

Apportionment of cost

SEC. 71. In case of the adoption of said report and recommendation the State Engineer shall forthwith appoint three assessors whose duty it shall be to assess the cost of the project, or in the event said board shall have divided the project into units of construction, the cost of the unit or units specified for immediate construction, upon the benefited lands within the district, and the said cost shall be apportioned in accordance with the benefits that will accrue to each tract of land held in separate ownership in said district by reason of the expenditures of said sums of money, and the completion of the project, or such unit or units thereof as have been specified for immediate construction, such assessment to be in lawful money of the United States; provided, that where any such tract of land consists of more than one section such apportionment to such tract of land shall be made according to legal subdivisions thereof or to other boundaries sufficient to identify the same in subdivisions not greater than one section in area, but any failure or defect in complying with this requirement shall not invalidate said apportionment or said assessment.

Qualifications of assessors

SEC. 72. One of said assessors shall be a civil engineer and one shall have a practical knowledge of irrigation,

and none of said assessors shall have any interest in any land in the district either directly or indirectly, and each assessor before entering upon his duties shall take and subscribe an oath that he is not in any manner interested directly or indirectly in any land in the district and that he will perform the duties of assessor to the best of his ability, and said assessors shall be paid as compensation for the services rendered by them such sum, or sums, as the board of directors shall fix and determine, which shall be considered a part of the cost of the project, and the board of directors may issue warrants therefor, which shall be payable out of the funds of said district. The said assessors shall receive from the board of directors of the district a copy of the detailed plans, specifications, and estimate of the costs of the project, which have been duly filed with the State Engineer.

Certification of assessment to State Engineer

SEC. 73. The said assessors shall thereupon prepare and certify to the State Engineer in triplicate rolls which shall contain:

(1) A description of each tract held in separate ownership by legal subdivisions, governmental surveys or other boundaries sufficient to identify the same; provided, however, that if any area composed of more than one tract held in separate ownership is not assessed because the lands therein will not be benefited by the expenditure of the funds to be raised by the assessment, a description of such area as a whole without a description of each tract thereof shall be sufficient;

(2) The number of acres in each tract;

(3) The name and address of the owner of each tract, if known, and if unknown, that fact, but no mistake or error in the name of the owner or supposed owner of the property assessed, and no mistake in any other particular, shall render the assessment thereof invalid;

(4) The rate per acre of such assessment upon each tract assessed and if no assessment is made upon any tract, or area composed of more than one tract, a statement of that fact;

(5) The total amount of the assessment as computed;

(6) Any other statement which may be required by the State Engineer and as to which notice is given in writing to the assessors at the time of transmitting the plans and specifications and costs of the work for the district before mentioned.

The roll shall be separately made for lands lying within different counties contained within said district.

Filing with State Engineer, etc

SEC. 74. Said rolls when completed shall be duly certified by said assessors and forthwith by them filed in the office of the State Engineer. Said State Engineer shall forthwith transmit two copies of said rolls to the board of directors of said district, who shall file one copy in their records and thereupon transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county.

Adjustment board

SEC. 75. Thereafter the board of directors of the water storage and conservation district in which the lands described in said rolls are situated shall become and constitute a board, in the nature of a board of equalization, which shall be known and designated as the "adjustment board" and whose functions shall be to consider and act upon objections, if any, presented as herein provided to the assessment made by said assessors. For that purpose said adjustment board shall at once organize by the election from its members of a president and a secretary and shall thereupon appoint times and places not less than 30 days after said rolls have been filed in the records of said board of directors when and where it will meet within each county wherein lands of said district are situated for the purpose of hearing objections to said assessments, and notice of such hearing shall be published at least once a week for three successive weeks in each county in which any land within said district may be situated. Said objections, if any, must be in writing verified and filed with the board of directors and a copy thereof filed with the State Engineer, and shall set forth the grounds of such objections. Such verification shall be made by the affidavit of the objector or some other person who is familiar with the facts. Said adjustment board may postpone such hearings from time to time.

Hearings

SEC. 76. At such hearings the adjustment board shall hear such evidence as may be offered touching the correctness of such assessment, and may modify, amend or approve the said assessment in any particular and may reapportion the whole or any part thereof; provided, however, that no assessment shall be increased except after personal notice or notice by registered mail given to the owner, if known, by depositing in the post office at the place in which the office of said district is located, in a sealed envelope addressed to each of such owners at his last known, if any, place of residence or business, otherwise at the county seat of the county in which any portion of his lands are situated, with full postage paid, at least 10 days before the making of the order increasing said assessment.

Approval of assessment

SEC. 77. Said adjustment board, after said hearings, must make an order approving such assessment as finally fixed or modified, which order shall be filed with and entered in the records of the district and the State Engineer, and the apportionment and determination of said adjustment board shall be final and conclusive, and no action or defense shall ever be maintained attacking the same in any respect.

Certification of approved assessment

SEC. 78. Two copies of said assessment roll as finally fixed and approved by the adjustment board shall be forthwith certified by the secretary of such adjustment board and transmitted to the secretary of the board of directors of the said district, who shall file one copy in their records and thereupon immediately transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county together with a copy of the order of approval of

such assessment roll by said adjustment board. Thereafter said assessment roll shall be conclusive evidence before any court or tribunal that said assessment has been made and levied according to law.

Lien of charges assessed

SEC. 79. When the secretary of the board of directors shall have filed with the county treasurer of a county within such district the said assessment list or roll as finally approved as hereinbefore provided the charges assessed thereby upon the several tracts of land within the county shall constitute a lien thereon which shall be prior to all other liens except State, county and municipal taxes, and assessments or taxes levied or assessed by or under statutory authority and shall impart notice thereof to all persons. Thereafter, no act or conduct on the part of such board of directors, or any officer herein mentioned, shall invalidate any such assessment after the same shall have become a lien in the manner herein provided.

Construction of units

SEC. 80. In the event of the division of the project into units of construction, and the specifications of one or more units for future construction, the board of directors shall at such time as it shall determine upon the construction of any such unit or units, pass a resolution to that effect and cause a certified copy thereof to be transmitted to the State Engineer. At such time the board may amend the plans, specifications and estimates of costs of such unit or units by making such changes therein, modifications thereof, and additions thereto, as it shall deem desirable, and in the event of any such change, modification, or addition, the board shall cause to be filed with the State Engineer, the plans, specifications and estimates of costs of such unit or units as amended. Upon receipt by the State Engineer, of such certified copy of resolution and such amended plans, specifications and estimates of cost, if any, the same proceedings for levying, approving and collecting an assessment to meet the cost of the unit or units to be constructed shall be had as hereinbefore provided for an assessment to meet the cost of the unit or units first constructed.

Reapportionment of assessment

SEC. 81. When any tract of land upon which any assessment provided for by this act has been levied shall be subdivided into smaller parcels, the board of directors of this district shall, upon the written request of the owner of such tract or of any of such smaller parcels and after hearing, reapportion the said assessment in such manner as will in the judgment of the board charge each of said smaller parcels with a just portion of such assessment. Supplementary assessment rolls, showing such reapportionment shall be made and shall be made separately for lands lying within different counties. Said board of directors shall thereafter file copies of said supplementary assessment rolls with the State Engineer and shall also file with the county treasurer of each county in which any portion of said tract so subdivided is situated the supplementary assessment roll relating to the lands in such

county, and from and after such filing the said assessment shall be an assessment upon each of said smaller parcels in accordance with such reapportionment and not an assessment upon said tract as a whole; and such supplementary assessment rolls shall be deemed to be a part of and amendatory of the assessment roll or rolls theretofore filed for all purposes. Such reapportionment shall in no wise affect the assessment except as to the lands included in the supplementary assessment rolls.

Period of payment

SEC. 82. The assessment list of each county must remain open for payment in full in the office of the county treasurer of the respective counties within the district for a period of 60 days; and during the time they so remain any person may pay the amount of the charge assessed against any tract of land to the county treasurer in lawful money of the United States.

The board of directors, at the time and place mentioned in the notice, or at the time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition, and all evidence or proofs that may or shall be introduced by or on behalf of the petitioner or petitioners, and all objections to such petition that may or shall be presented in writing by any person showing cause as aforesaid, and all evidence and proofs that may be introduced in support of such objections. Such evidence shall be taken down in shorthand, and a record made thereof and filed with the board. The failure of any person interested in said district, other than the holders of bonds thereof outstanding at the time of the filing of said petition with said board, to show cause, in writing, why the tract or tracts of land mentioned in said petition should not be excluded from said district, shall be deemed and taken as an assent by him to the exclusion of such tract or tracts of land, or any part thereof, from said district; and the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent by each and all such petitioners to the exclusion from such district of the lands mentioned in the petition, or any part thereof. The expenses of giving said notice and of the aforesaid proceeding shall be paid by the person or persons filing such petition.

Assent of outstanding bondholders

SEC. 161. If there be outstanding bonds of the district at the time of the filing of said petition, the holders of such outstanding bonds may give their assent, in writing, to the effect that they severally consent that the lands mentioned in the petition, or such portion hereof as may be excluded from said district by order of said board, may be excluded from the district; and if said lands, or any portion thereof, be thereafter excluded from the district, the lands so excluded shall be released from the lien of such outstanding bonds. The assent must be acknowledged by the holders of such bonds in

the same manner and form as is required in case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such conveyance. The assent shall be filed with the board, and must be recorded in the minutes of the board; and said minutes, or a copy thereof, certified by the secretary of said board, shall be admissible in evidence, with the same effect as the said assent, and such certified copy thereof may be recorded in the office of the county recorder of the county wherein said lands are situated.

Exclusion of lands

SEC. 162. Upon the hearing the board of directors shall exclude and only exclude land which in its judgment it believes should be excluded, and in the event the said board of directors shall exclude any lands from said district upon petition therefor, it shall be the duty of the board of directors to make an entry in the minutes of the board, describing the boundaries of the district, should the exclusion of said lands from said district change the boundaries of said district, and for that purpose the board may cause a survey to be made of such portions of the district as the board may deem necessary; and a certified copy of the entry in the minutes of the board excluding any land, certified by the president and secretary of the board, shall be filed for record in the recorder's office of each county within which are situated any of the lands of the district; but said district, notwithstanding such exclusion shall be and remain a water storage and conservation district as fully, to every intent and purpose, as it would be had no change been made in the boundaries of the district, or had the lands excluded therefrom never constituted a portion of the district.

Signature of petition, etc., by representatives

SEC. 163. A guardian and executor, or an administrator of an estate, who is appointed as such under the laws of this State, and who, as such guardian, executor, or administrator, is entitled to the possession of the lands belonging to the estate which he represents, may, on behalf of his ward, or the estate which he represents, upon being thereto properly authorized by the proper court, sign and acknowledge the petition in this act mentioned, and may show cause, as in this act provided, why the boundaries of the district should not be changed.

Lien of outstanding indebtedness, etc

SEC. 164. Nothing in this act provided shall, in any manner, operate to release any of the lands so excluded from the district from any obligation to pay, or any lien thereon, of any valid outstanding bonds or other indebtedness of said district at the time of the filing of said petition for the exclusion of said lands, but upon the contrary, said lands shall be held subject to said lien, and answerable and chargeable for and with the payment and discharge of all of said outstanding obligations at the time of filing of the petition for the exclusion of said land, as fully as though said petition for such exclusion were never filed and said order or decree of exclusion

never made; and for the purpose of discharging such outstanding indebtedness, said lands so excluded shall be deemed and considered as part of said water storage and conservation district the same as though said petition for its exclusion had never been filed or said order or decree of exclusion never made; and all provisions which may have been resorted to to compel the payment by said lands of its quota or portion of said outstanding obligations, had said exclusion never been accomplished, may, notwithstanding said exclusion, be resorted to, to compel and enforce the payment on the part of said lands of its quota and portion of said outstanding obligations of said district for which it is liable, as herein provided. But said land so excluded shall not be held answerable or chargeable for any obligation of any nature or kind whatever, incurred after the filing with the board of directors of said district of the petition for the exclusion of said lands from the said district; provided, that the provisions of this section shall not apply to any outstanding bonds, the holders of which have assented to the exclusion of such lands from said district, as hereinbefore provided.

INCLUSION

Change of boundaries to include land

SEC. 165. The boundaries of any water storage and conservation district organized or existing under the provisions of this act may be changed to include within such district additional land, whether contiguous thereto or not, as hereinafter in this act provided; but no change in the boundaries of any district shall impair or affect its organization or its right in or to property, or any of its rights or privileges of whatsoever kind or nature, nor shall it affect, impair or discharge any contract, obligation, lien or charge for or upon which it was or might become liable or chargeable had such change of its boundaries not been made.

Petition to include lands

SEC. 166. The holder or holders of title, or evidence of title, or a majority of holders of title, or evidence of title of any tract or tracts of land may file in the office of the board of directors of any water storage and conservation district a petition praying that said tract or tracts of land be included within said districts; provided, that if there is more than one holder of title or evidence of title of said land the petitioners must include the holders of title or evidence of title of at least one-half of the area of said land. If any petitioner is the owner of an undivided interest in said land, or any of it, he shall be deemed to be the owner of such proportion of the area of the land in which he has an interest as his interest bears to the whole of such land. Each signature to such petition shall be acknowledged or proved as provided by law for signatures to an instrument to entitle it to be recorded.

Notice of filing petition

SEC. 167. The secretary of the board of directors shall cause a notice of the filing of said petition to be given and published once a week for four consecutive weeks in some newspaper published in the county where the district was organized and if any portion of such territory to be included lie within other county or counties, then such notice shall be so published within each of said counties; or if no newspaper be published therein, then by posting such notice for the same time in at least three public places in said district and in case of the posting of said notices, one of said notices must be so posted on the lands proposed to be included. The notice shall state the purpose of the petition and describe the boundaries of the tract or tracts of land proposed to be included and give the names of the petitioners, and it shall notify all persons interested in or that may be affected by the proposed inclusion of said land within the district to appear at the office of said board at a time named in said notice for the hearing of said petition and objections thereto and show cause in writing, if any they have, why said land or any of it should not be included as proposed in said petition. The time to be specified in the notice for the hearing of said petition and any objections thereto shall be the regular meeting of the board next after the expiration of the time for the publication of said notice. The petitioners shall advance to the secretary sufficient money to pay for the publication of said notice.

Hearing of petition

SEC. 168. The board of directors, at the time and place mentioned in the said notice, or at such other time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition and all the objections thereto presented in writing by any person showing cause as aforesaid why said proposed change of the boundaries of the district should not be made. The failure by any person interested in said district, or in the matter of the proposed change of its boundaries, to show cause, in writing, as aforesaid, shall be deemed and taken as an assent on his part to a change of the boundaries of the district as prayed for in said petition, or to such change thereof as will include a part of said lands. And the filing of such petition with said board, as aforesaid, shall be deemed and taken as an assent on the part of each and all of such petitioners to such a change of said boundaries that they may include the whole or any portion of the lands described in said petition.

Condition to grant of petition

SEC. 169. The board of directors to whom such petition is presented, may require, as a condition precedent to the granting of the same, that the petitioners shall severally pay to such district such respective sums, as nearly as the same can be estimated (the several amounts to be determined by the board), as said petitioners or their grantors would have been required to pay to such district as taxes or assessments, had such lands been included in such district at the time the same was originally formed.

Order including and

SEC. 170. If the board of directors, after the hearing herein provided for, shall determine that said petition complies with the requirements hereof and that the inclusion within the district of the tract or tracts of land described in said petition, or some portion or portions thereof, will be for the best interests of the district and if no protest against the inclusion of such land is made, or if such protest be made and enough signatures be withdrawn therefrom so that said protest is no longer sufficient, the board shall order the boundaries of the district to be changed so that said tract or tracts of land, or such portion or portions thereof as the board shall deem it for the best interests of the district to include, shall be included within the district, but no land shall be so included unless the board, after hearing aforesaid, shall determine that it can be irrigated by means of some of the works of the district or by means of practicable works connecting therewith and will be benefited by such irrigation; and if the board determines that only a portion or certain portions of the tract or tracts of land described in said petition should be included, said petition shall be dismissed unless the petitioners include a majority of the holders of title or evidence of title of said portion or of each of said portions, of said tract, representing also at least one-half of the area of said portion or of each of said portions, or unless, within 60 days from the time such determination is made, there shall be filed with the board the consent in writing of a majority of the holders of title or evidence of title of said portions, or of each of said portions of said tract or tracts of land, representing also at least one-half of the area of said portion or of each of said portions. The order shall describe the boundaries of the land so included within the district, and if said land adjoins any portion of the district the order shall also describe that portion of the boundary of the district which coincides with the boundary of the land so included, and for the purposes of said order the board may cause a survey to be made of such portions of said boundaries as may be deemed necessary. If more than one petition for the inclusion of lands has been presented, the board may in one order include within the district any number of separate tracts of land; but the owner or owners of separate tracts of land may join in a single petition the application for inclusion of separate tracts of land. Any public land of the United States of America may be included within any water storage and conservation district by such order of the board of directors without any petition therefor except as may be required by the laws of the United States, if such land can be irrigated by means of any of the works of the district or by any practicable works connecting therewith and will be benefited by such irrigation.

Conditions of inclusion

SEC. 171. When land is included within a water storage and conservation district and the board of directors finds that such inclusion without condition would work an injury to the

land already within the district either by an impairment of water rights or by requiring a greater expense for furnishing water to the lands proposed to be included, the board may prescribe conditions upon such inclusion of land, either by providing for priority of right to water for the land already in the district or for the payment of an additional annual charge upon the land included or such other conditions as may to the board seem just. If any such conditions are prescribed by the board all the owners of the land subject to such conditions must, before any order for its inclusion is made, sign an agreement with the district describing the land so to be included and specifying such conditions. The signatures to said agreement must be acknowledged or proved as provided by law for the signatures of instruments to be recorded, and said agreement must be recorded in the office of the county recorder of the county in which such lands are situated, and thereupon and upon the recording of a copy of the order including such lands as hereinafter provided, such lands shall become a part of the district subject to the conditions of said agreement.

Protest against inclusion

SEC. 172. If a protest against the inclusion of such lands, signed by not less than 3 per cent of the holders of title or evidence of title to lands within the district and holding the title or evidence of title to not less than 3 per cent in value of the lands within the district according to the last equalized assessment roll of said district, shall have been presented to the board of directors and upon the hearing of said matter said protest shall not be withdrawn, or after the withdrawal therefrom of any signatures it shall still be signed by not less than 3 per cent of the holders of title or evidence of title to lands within the district and holding the title or evidence of title to not less than 3 per cent in value of the lands within the district according to the last equalized assessment roll of said district, or if the board of directors deem it not for the best interests of the district to include therein the lands described in said petition for inclusion, or any of them, the board shall adopt a resolution stating the facts and describing the boundary of the tract of land proposed to be included in the district; but before calling the election provided for in the next section, the board may require an undertaking, with sufficient sureties, from the petitioners for the inclusion of said land conditioned that the petitioners or the sureties will pay all the cost of holding such election in case such inclusion shall be denied.

Election upon inclusion

SEC. 173. Upon the adoption of the resolution mentioned in the last preceding section, the board shall order that an election be held within said district, to determine whether the boundaries of the district shall be changed as mentioned in said resolution; and shall fix the time at which such election shall be held, and cause notice thereof to be given and published. Such notice shall be given and published, and such

election shall be held and conducted, the returns thereof shall be made and canvassed, and the result of the election ascertained and declared, and all things pertaining thereto conducted in the manner prescribed by said act in case of a special election to determine whether bonds of a water storage and conservation district shall be issued. The ballots cast at said election shall contain the words "For change of boundary," and "Against change of boundary," or words equivalent thereto. The notice of election shall describe the proposed change of the boundaries in such manner and terms that it can readily be traced.

Effect of vote

SEC. 174. If at such election a majority of all the votes cast at said election shall be against such change of the boundaries of the district, the board shall order that said petition be denied, and shall proceed no further in that matter. But if a majority of such votes be in favor of such change of the boundaries of the district, the board shall thereupon order that the boundaries be changed in accordance with said resolution adopted by the board. The said order shall describe the entire boundaries of said district, and for that purpose the board may cause a survey of such portions thereof to be made as the board may deem necessary.

Recording order changing boundaries

SEC. 175. Upon a change of the boundaries of a district being made, a copy of the order of the board of directors ordering such change, certified by the president and secretary of the board, shall be filed for record in the recorder's office of each county within which are situated any of the lands of the district, and thereupon the district shall be and remain a water storage and conservation district, as fully, and to every intent and purpose, as if the lands which are included in the district by the change of the boundaries, as aforesaid, had been included therein at the original organization of the district.

Minutes

SEC. 176. Upon the filing of the copies of the order, as in the last preceding section mentioned, the secretary shall record in the minutes of the board the petition aforesaid; and the minutes, or a certified copy thereof, shall be admissible in evidence, with the same effect as the petition.

Signature of petition, etc., by representative

SEC. 177. A guardian, an executor or an administrator of an estate, who is appointed as such under the laws of this State, and who, as such guardian, executor, or administrator, is entitled to the possession of the lands belonging to the estate which he represents, may, on behalf of his ward, or the estate which he represents, upon being thereunto authorized by the proper court, sign and acknowledge the petition in this act mentioned, and may show cause, as in this act mentioned, why the boundaries of the district should not be changed.

FEDERAL COOPERATION

Cooperation with United States

SEC. 178. In addition to the powers with which water storage and conservation districts are vested under this act, the districts organized hereunder shall have the following powers: To cooperate and contract with the United States under any act of Congress heretofore or hereafter enacted authorizing or permitting such cooperation, for the purposes of the construction of works for irrigation or drainage, or for the acquisition, purchase, extension, operation or maintenance of constructed works for irrigation or drainage, or for a water supply, or for the assumption as principal or guarantor of indebtedness to the United States on account of district lands; also to borrow or procure money from the United States or any agency thereof for the purpose of financing or refinancing the obligations of the district, including any outstanding warrants or any other indebtedness, or the funding or refunding or purchase of the bonds of the district or for any of the purposes of the district authorized by law.

Same

SEC. 179. The board of directors shall generally perform all such acts as shall be necessary to carry out the powers in this act enumerated. Said board may enter into any obligation or contract with the United States for the aforesaid purposes, and may provide therein for the delivery and distribution of water for the lands of such district under the aforesaid acts of Congress and the rules and regulations established thereunder. The contract may provide for the conveyance to the United States a partial consideration for the privileges obtained by the district under said contract, of water rights or other property of the district; and in case contract may hereafter be made with the United States as herein provided, bonds of the district may be transferred to or deposited with the United States, if so provided by said contract and authorized as hereinafter set forth, at not less than 95 per cent of their par value, to the amount to be paid by the district to United States or any part thereof; the interest or principal, or both, on said bonds to be raised by assessment and levy as hereinbefore prescribed, and to be regularly paid to the United States and applied as provided in said contract. Bonds transferred to or deposited with the United States may call for the payment of such interest not exceeding 6 per cent per annum, may be of such denomination, and may call for the repayment of the principal at such times as may be agreed upon between the board and the contracting officer of the United States. The contract with the United States may likewise call for the payment of the amount or amounts to be paid by the district to the United States or any part thereof at such times and in such installments and with such interest charges not exceeding the aforesaid rate as may be agreed upon, and for assessment and levy therefor as hereinafter provided.

Elections upon cooperation proposals

SEC. 180. Any proposal to enter into a contract with the United States for the repayment of construction moneys, the cost of a water supply or the acquisition of property, and to issue bonds, if any be proposed, shall be voted upon at an election wherein proceedings shall be had in so far as applicable in the manner provided in the case of the ordinary issuance of district bonds. Said proposal, with such plans and estimates of cost as have been made in connection therewith, shall be submitted to the State Engineer for his examination and report, and the proceedings in that regard shall be in accord with the provisions of this act, in so far as the same may be applicable. Notice of the election herein provided for shall contain in addition to the information required in the case of ordinary bond election a statement of the maximum amount of money to be payable to the United States for construction purposes, cost of water supply and acquisition of property, exclusive of penalties and interest, together with a general statement of the property, if any, to be conveyed by the district as hereinabove provided. The ballots at such election shall contain a brief statement of the general purpose of said contract and the amount of the obligation to be assumed, as aforesaid, with the words "Contract—Yes" and "Contract—No," or "Contract and Bonds—Yes" and "Contract and Bonds—No," as the case may be. The board of directors may submit any such contract or proposed contract and bond issue if any, to the superior court of the county wherein is located the office of said board to determine the validity thereof and the authority of the board to enter into such contract, and the authority for and validity of the issuance and deposit or transfer of said bonds; whereupon the same proceedings shall be had as in the ordinary case of the judicial determination of the validity of bonds and with like effect.

Distribution of water under contracts

SEC. 181. All water, the right to use of which is acquired by the district under any contract with the United States shall be distributed and apportioned by the district in accordance with the terms of such contracts, and provision may be made in the contract between the district and the United States for the refusal of water service to any or all lands which may become delinquent in the payment of any assessment, water tolls and charges, levied for the purpose of carrying out any contract between the district and the United States.

Conveyance of rights of way of district

SEC. 182. Any right of ways or other property owned or acquired by the district may be conveyed by the board to the United States in so far as the same may be needed for the construction, operation and maintenance of works by the United States for the benefit of the district under any contract that may be entered into with the United States pursuant to this act.

Assessment to meet payments to United States

SEC. 183. The assessment required in any year to meet the payment due to the United States for all purposes under the contract as in this act provided may be apportioned in accordance with the benefits, and in the ascertainment of such benefits there shall be taken into account the provisions of the contract between the United States and the district, and in case such contract is for the assumption by the district as principal or guarantor of indebtedness to the United States theretofore existing on account of district lands, there shall be further taken into account the provisions of existing contracts carrying such indebtedness and the amounts of such liens as may be released in pursuance of the contract between the United States and the district.

Dissolution after contract with United States

SEC. 184. Where a contract shall have been entered into between the United States and any water storage and conservation district, the district shall not be dissolved, nor shall the boundaries be changed, except upon written consent of the officer in control of any department or agency of the United States with which contract has been made, said consent shall be filed with the official records of the district. If such consent be given and lands be excluded, the areas excluded shall be free from all liens and charges for payments to become due to the United States.

Construction of works by district under contract with United States

SEC. 185. In addition to the other powers enumerated in this act, in any case where the United States or any department thereof under United States authority, is about to construct or is authorized to construct works for the benefit of any water storage and conservation district and such district is obligated by contract or otherwise to repay the construction cost thereof in whole or in part to the United States or such department thereof, then such district may by resolution of its board of directors enter into contract with the United States or such department therefor for the construction of such works or may submit bids for construction thereof the same as any other person or corporation could submit bids for the construction of public works, and in the event such district shall become the successful bidder for such works or any part thereof the district is authorized to cause to be executed at the cost of the district a bond or bonds for the faithful performance of the work and to do any and all things required by the United States or such department thereof as would be required of any other successful bidder on such works, and such district shall upon the execution of such construction contract proceed with the work in the same manner and under the same laws, rules and regulations as would apply to such district in the construction of any works which such district is authorized to construct and for the purpose of providing the necessary moneys to carry on such construction work the board of directors of such district is authorized to borrow money for a term not exceeding five years and at rates of interest to be fixed by the board of directors, not

exceeding 7 per centum per annum, and issue notes, warrants or other evidence of indebtedness which shall at no time exceed one-half of the total construction cost as provided by the contract therefor; and provided further, that any moneys received by such district from the United States or any department thereof under such contract shall first be applied to the retirement of such notes, warrants or other evidence of indebtedness.

Borrowing from United States

SEC. 186. In addition to other powers in this act conferred, water storage and conservation districts shall have authority to borrow or procure money from the United States or any agency thereof, for the purpose of financing any of the operations of the district or financing or refinancing any or all of the obligations of the district, including outstanding warrants or any other indebtedness, or the funding or refunding or purchase of the bonds of the district, or for any of the other purposes of the district authorized by this act. As evidence of such loan or loans and the obligations of such district to repay the same to the United States or any agency thereof, any water storage and conservation district, upon being authorized so to do as provided by Section 65 of this act as hereinafter in this section modified, may make and enter into contract or contracts with the United States or any agency thereof, as a condition or requirement to the making of such loan or loans. Such district may issue bonds of the district as may be required by the contract last above provided for or without such contract, containing such terms and conditions and payable in such manner and from such source or sources of income and/or revenue as may be agreed upon between the district and the United States or agency and may obligate and bind the district for the payment of such bonds according to the terms thereof. Such bonds may be serial or sinking fund bonds and may be made callable either by number or by lot and may be made payable to bearer or to the United States or any agency thereof and shall be in the form and authorized and issued in the manner substantially as provided for in this act.

Contract to pay part of construction cost of dams or reservoirs

When districts organized under the provisions of this act undertake the construction of dams and reservoirs for the storage of flood waters upon streams subject to devastating, and destructive floods for the purpose of storing and conserving such flood waters for irrigation, the directors of the district shall have the power in addition to other powers enumerated in this act to enter into contracts and/or agreements with the War Department or the Department of Agriculture of the United States as provided by Act of Congress of the United States. Public No. 738 Seventy-fourth Congress, approved June 22, 1936, and Act of Congress of the United States, Public No. 761 Seventy-fifth Congress, approved June 28, 1938 (which acts authorize the construction of certain public works on rivers and harbors for flood control, and for other

purposes) providing for the payment of a portion of the cost of construction of said dams and reservoirs or the payment in whole or in part by the United States of the cost of all lands, easements, and right of ways necessary for the dam and reservoir project for flood control. When contracts are entered into between the district and the departments or agencies of government of the United States as above mentioned, the district shall contract with such departments or agencies for the operation of the dams and reservoirs in such manner as will provide and protect the use of said dams and reservoirs and the flood waters stored and conserved therein for the maximum use and benefit of the district for irrigation purposes. Notwithstanding any provision of this act, a proposal to enter into and execute any contract with the United States or any agency thereof as provided for by this section need not be submitted to the State Engineer and a majority vote shall be sufficient to authorize the execution thereof, and the notice of election and ballot need contain only the information required in the case of ordinary bond election and that a proposal to enter into such contract and to issue bonds, if any, may be voted upon together as a single proposition.

Minimum of levy of assessment

SEC. 187. When the security underlying the indebtedness of any district has been or is hereafter appraised by the Reconstruction Finance Corporation or any agency of the United States, or said corporation or any agency of the United States, with or without such appraisal, has loaned or hereafter loans any such district money to fund or refund any of its indebtedness or to finance any of its operations, such district shall have and is hereby given power and authority in contracting for such loan to enter into an agreement that it will not thereafter during the life of such loan, levy any assessment for a less amount than required by the provisions of this act, or by the terms of such contract, and when such district shall have so contracted, the California Districts Securities Commission shall not thereafter have jurisdiction or authority to approve or give its consent to the levy of an assessment in any amount less than required to be levied by the provisions of the contract and of this act.

If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each of said parts thereof, irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional.

CHAPTER 1254

Stats 1937, p 1005, amended

An act to amend Sections 2181 and 2221 of the Welfare and Institutions Code, relating to aid to the aged.

In effect September 13, 1941

[Approved by Governor July 17, 1941. Filed with Secretary of State July 19, 1941.]

The people of the State of California do enact as follows:

SECTION 1. Section 2181 of the Welfare and Institutions Code is hereby amended to read as follows:

Investigation

2181. The board of supervisors, directly or through an authorized investigator, shall upon receipt of an application for aid, promptly, without any unnecessary delay, and with all diligence, make the necessary investigation. The board shall upon receipt of the report of the investigation determine the ability of responsible relatives to contribute to the support of applicant and designate the amount of aid, if any, to be granted. The maximum degree of liability of the responsible relative shall be determined by "Relatives' Contribution Scale." In determining ability to contribute, the financial circumstances of responsible relatives shall be given due consideration and, in unusual cases, contributions at less than the amount fixed by "Relatives' Contribution Scale" may be made as the board of supervisors may deem justifiable.

In effect immediately

[Approved by Governor July 19, 1941. Filed with Secretary of State July 19, 1941.]

The people of the State of California do enact as follows:

New section

After 30 days from the effective date hereof no person shall be eligible to hold office or employment of any kind under this State, or under any county, city and county, city, district or other political or governmental unit of this State, who, while either a citizen or a resident of the United States, has by oath bound himself to support, maintain or further the military or political activities or policies of any foreign government or of any official thereof or society or association

therein or to obey the orders or directions of any foreign government or of any official thereof. Nothing in this section shall, however, disqualify any person from holding any office or employment by reason of any oath taken by him during the war between the Allied Powers and Germany-Austria, 1914-1918, inclusive, in connection with service in the military forces of any sovereignty allied with the United States in that war. Relief from disability

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and therefore shall take effect immediately. The following is a statement of the facts constituting such necessity: Urgency

Many nations in recent months have lost their liberties and fallen under the political and military domination and economic servitude of aggressive dictatorial rulers. The most effective and disabling weapon of these aggressors has been so-called "fifth column activity," or the use of agents who have penetrated into the civil and military services of the nations victimized.

To prevent such intrigue and attack on our own Government, and provide immediate strength and protection for the National Defense Program, it is necessary that this act shall become effective at the earliest possible moment.

The contractor shall not, after any such violation, recover thereon for any of the work done or materials furnished on such public work or improvement.

The failure on the part of a contractor to comply with any provision of this act shall not constitute a defense to such contractor in any action brought against him by a subcontractor.

Contracts to which act inapplicable

This act shall not apply to contracts for the construction or improvement or repair of State highways, including bridges, nor to city or county projects financed in whole or in part with motor vehicle fuel funds.

service of such officer or employee in the military or naval forces of the United States in any war in which the United States has engaged, shall not be deemed to be absence from service for the purposes of the Retirement System, and such officer or employee shall receive credit under the Retirement System for the period of such absence, in the same manner as if he had not been absent.

Contributions to Retirement Fund by persons in military service

Any member of the Retirement System who is absent after September 14, 1940, from the service of the City and County, by reason of service or training in the military or naval forces of the United States or other armed forces of the United States of a comparable category hereafter created, or in the National Guard of California, or by reason of any other service connected with the national defense, all in response to an order or call of the Government of the United States or of the State of California or an authorized officer thereof, may elect within four months after the effective date hereof or within four months after the beginning of such absence, to contribute to said Retirement System while serving in said forces, and at times and in a manner to be fixed by the Retirement Board, amounts equal to the contributions which he would have made from the beginning of said absence or from the date of said election, had he remained on duty in the position he occupied and at the compensation being earned by him immediately prior to the beginning of said absence. That said Board of Supervisors caused copies of said Charter amendments to be printed in convenient pamphlet form and type of not less than ten point, and caused copies of said amendments as so printed to be mailed to each of the qualified electors of said City and County, and from the 24th day of September, 1940, until the day fixed for the election on said amendments advertised in said "The San Francisco News", on all of the days on which said newspaper was published, a notice that copies of said amendments could be had on application therefor at the office of said Board of Supervisors;

That said general election was held in the City and County of San Francisco on the said 5th day of November, 1940, and each of the aforesaid Charter amendments appeared upon the official ballot for said election;

That the Board of Supervisors of said City and County did thereafter, in regular meeting assembled, by resolution duly adopted by said Board and entered in the minutes thereof, direct that a canvass of said election held on the 5th day of November, 1940, be immediately begun and made by the Registrar of Voters of said City and County, it appearing to said Board of Supervisors that at the time of commencement of said canvass all of the returns of said election held on the 5th day of November, 1940, from each election precinct in the City and County of San Francisco in which polls were opened had theretofore been received by the said Registrar of Voters; and

That pursuant to said resolution, the said Registrar of Voters did duly canvass all of the returns from each of the election precincts in the City and County of San Francisco in which polls were opened for voting on the said 5th day of November, 1940, and did thereafter, and upon the completion of said canvass, report and make to the Board of Supervisors of said City and County of San Francisco his official statement of the votes cast at said general election held on Tuesday, the 5th day of November, 1940, showing the vote cast for and against each of the aforesaid Charter Amendments voted upon at such election;

CHAPTER 16

Senate Joint Resolution No. 6—Relative to the construction of necessary roads required by the Army and Navy.

[Filed with Secretary of State January 27, 1941.]

Construction of access roads

WHEREAS, The Federal Government is at present working on an elaborate defense program, including the construction of numerous military establishments in all branches of the service and the enlargement of establishments already built in California, for the purpose of training new Army and Navy personnel; and

WHEREAS, The construction of adequate highways leading to these camps and other military areas to provide connections with the main arteries of the State is of vital importance to the rapid handling of supplies and troops; and

WHEREAS, The construction of these access roads is primarily an obligation of the Federal Government; and

WHEREAS, California with a registration of nearly 3,000,000 motor vehicles is contributing in excess of thirty-two million dollars ($32,000,000) each biennium to the Federal Government through gasoline taxes and excise taxes on motor vehicles; and

WHEREAS, Federal aid regularly contributed to the State under the terms of the Hayden-Cartright Act is a main essential in the improvement of structures and highways on the Federal system with the State to standards required of the State by Federal engineers affecting roadways, shoulder widths and bridges as part of the new military defense road system; and

WHEREAS, The regular allocations in Federal aid received by California have been gradually getting less each biennium for a series of years, despite the enormous traffic requirements peculiar to this State with its ever increasing record of out of State cars now to be further increased through the operation of military vehicles in great number bringing about congestion in the vicinity of all plants operating under the National Defense Program; and

WHEREAS, The expense of building a system of access roads is beyond the financial ability of the State, counties and cities; and

WHEREAS, The California Highway Department is now doing all that is necessary in making surveys and estimates on proposed highway construction leading to the military units in the State; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California does hereby urge and recommend the National Government to enact legislation that will provide immediate Federal money in sufficient amount to acquire all necessary property and to construct all necessary access roads required by the Army and Navy without disturbing the present payments to California of regular Federal aid funds and the rules governing such payments; and be it further

Resolved, That the Senate and the Assembly of the State of California call upon the members of the California delegation in Congress to caucus for the express purpose of consideration of this highly important military access roads problem as affecting this State, using the full influence of the delegation in behalf of the proposal for full payment of the planning and construction of the access roads by the Federal Government; and be it further

Resolved, That copies of this resolution be respectfully submitted to the President of the United States, the President of the Senate, the Speaker of the House of Representatives and to each of the Senators and Representatives of the State of California in Congress and to the Secretary of War and of the Navy.

CHAPTER 17

Senate Joint Resolution No. 7—Relative to memorializing Congress to provide funds for greater speed in completion of the Central Valley Project in aid of the National defense.

[Filed with Secretary of State January 27, 1941]

Central Valley Project

WHEREAS, The Central Valley Project of California now under construction by the Federal Government will afford in a major degree a solution to the multiplying water problems of California by improving navigation on the Sacramento and San Joaquin rivers, by control of floods, by salinity control, and by making available for irrigation, domestic and industrial uses ample supplemental water supplies for many areas in dire need thereof; and

WHEREAS, Said project when completed and in operation will also be capable of the economic production of electric energy in large quantities; and

WHEREAS, Under the present construction program it is not contemplated that the project will be ready for operation prior to 1945; and

WHEREAS, The National Defense Program demands and requires an ample supply of electric energy largely in excess of present plant capacities in northern California; and

WHEREAS, By increasing the rate of construction of the Central Valley Project, the necessity for such additional supplies of electric energy in aid of the National emergency can be met and supplied by said project; and

WHEREAS, Unless additional appropriations for purposes of advancing the time for completion of said project are made immediately available the necessary increase of electric energy may be supplied by the construction by private enterprise of additional power plant capacity which would seriously interfere with and hamper the absorption of Central Valley Project power, and interfere with and delay the return to the United States Treasury of funds expended for construction of said project; and

WHEREAS, The availability of adequate funds to complete construction of said project earlier than now contemplated would afford widespread benefits to people of the State of California and to the Nation at large and would materially advance the National Defense Program; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the State of California, through its Legislature, recommends to the President and to the Congress of the United States that in order to afford solution to the many pressing water problems of California, and to aid the National defense, adequate and immediate provision be made by the Congress for continued and enlarged appropriations to enable greater speed in completion of the Central Valley Project; and be it further

[Filed with Secretary of State January 27, 1941.]

Resolved by the Assembly and the Senate of the State of California, jointly, That the Congress of the United States be

CHAPTER 21

Assembly Joint Resolution No. 8—Relative to Excess Profits Tax Legislation.

[Filed with Secretary of State January 27, 1941.]

Exemption of gold mining income from excess profits tax

WHEREAS, It has always been the policy of our Government to encourage the production of gold as a basis for our currency and as the ultimate and universal standard of value in trade among the peoples of the world, and the continued and increased production of gold is vital to the maintenance of our public credit; and

WHEREAS, Owing to the fact that the price of gold is fixed, the current increases in the cost of labor and materials are now seriously limiting the opportunity for profitable mining of gold, and any further handicaps on gold production will further discourage investment in gold mining enterprises; and

WHEREAS, The production of gold and its sale at a fixed price amounts in fact merely to the marketing and ultimate exhaustion of existing assets, and no excess profits can be earned from such production, but the rate of production only can be increased or diminished; and

WHEREAS, Many gold mining enterprises have been conducted and are being conducted by companies with limited capital, and have operated without substantial profits in past years, and the imposition of excess profits taxes on such companies would seriously cripple all such small enterprises; and

WHEREAS, All gold mining companies which have been operating at a profit expend very substantial amounts out of their earnings in prospecting and exploratory work, a large part of which would necessarily be curtailed in the event that the profits heretofore devoted to such work were taken in excess profits taxes; and

WHEREAS, For the foregoing reasons, excess profits taxes on the production of gold are economically unsound, and result in the discouragement of investment in gold mining, curtail production and increase unemployment, and strike all mining enterprises, large and small; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California hereby memorializes the Congress and the President of the United States to exempt all income from gold mining from all excess profits taxes, as was done under the Excess Profits Tax Law of 1917; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President of the United States, the Secretary of the Treasury, the respective Chairmen of the Senate Finance Committee and of the House Ways and Means Committee, and to each of the Senators and Representatives in Congress from the State of California.

CHAPTER 22

Assembly Joint Resolution No. 16—Relative to memorializing Congress to render continued aid to Great Britain.

[Filed with Secretary of State January 27, 1941.]

Aid to Great Britain

WHEREAS, There is being presently waged on the continents of Europe and Africa a grim and deadly struggle which will determine for generations to come the peace, happiness and welfare of the world; and

WHEREAS, This grave and bitter battle represents not so much a clash between nations as it does a struggle between two conflicting ideologies—two ways of life: The one, founded on fear, fed on the oppression of minorities, preaching class hatred, suppressing individual liberties; the other, upholding and defending those fundamental principles of life, liberty and property, inherent in and constituting the cornerstone of American democratic representative government as enunciated by the Constitution of the United States of America; and

WHEREAS, The people of Great Britain are today defending with their life blood the preservation of those democratic principles sacred to the people of America; and

WHEREAS, The people of Great Britain are dependent on the United States of America for continued aid and assistance in the prosecution of their titanic struggle against the totalitarian forces now avowedly seeking to destroy democratic representative government throughout the world; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the President and the Congress of the United States of America are hereby respectfully urged to continue to render all possible material aid short of war to Great Britain, in the form of equipment and supplies; and be it further

Resolved, That the Chief Clerk of the Assembly send copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and to each Member of the House of Representatives from California in the Congress of the United States.

CHAPTER 23

Assembly Joint Resolution No. 17—Relative to Sacramento River Flood Control Project.

[Filed with Secretary of State January 27, 1941.]

Sacramento River Flood Control Project

WHEREAS, The Congress of the United States passed and adopted a certain act on the fifteenth day of May, 1928, which was approved by the President on February 28, 1929 (U. S. Statutes At Large, Volume 45, Page 534), which said act adopted the Sacramento River Flood Control Project and authorized certain funds to be appropriated by Congress for the construction thereof; and

WHEREAS, The contribution of the United States for the construction of said Sacramento River Flood Control Project as authorized by said act has been exhausted except for a small amount; and

WHEREAS, Pursuant to the provisions of an act adopted by Congress on the twenty-second day of June, 1936, the Secretary of War was authorized and directed to cause a new examination and survey of the Sacramento River and its tributaries to be made and to report thereon; and

WHEREAS, This survey and report is not expected to be completed until early in the year 1942; and

WHEREAS, The partially completed project will be endangered if construction thereon is not immediately and continuously carried on; and

WHEREAS, Said project is designed to protect and does protect a large portion of the most fertile lands of the entire Sacramento valley from floods, together with many cities and towns, public works and buildings and the lives and property of all of the residents of said area; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States be and it is hereby respectfully petitioned and urgently requested to make available such funds as may be recommended in an interim report of the Secretary of War in connection with said Sacramento River Flood Control Project, with which to continue and carry on construction of said project until such time as the final survey and report of the Secretary of War will be available for consideration and appropriate action by the Congress; and be it further

Resolved, That a copy of this resolution be transmitted to the President of the United States, the Vice President of the United States, the Speaker of the House of Representatives of the United States, the Secretary of War of the United States and to each Senator and Representative in Congress from the State of California.

CHAPTER 24

Assembly Joint Resolution No. 19—Relative to memorializing and petitioning Congress to enact legislation giving to draftees and others entering the military and naval service of the United States adequate insurance protection for themselves in the form of permanent total disability insurance as well as life insurance protection.

[Filed with Secretary of State January 27, 1941.]

Insurance for draftees, etc

WHEREAS, From 1919 up to and including October 8, 1940, persons entering the military and naval service of the United States were given the privilege of applying for United States Government (Converted) Life Insurance, including the permant total disability features thereof, which protected the soldier himself; and

WHEREAS, Congress in the passage of the National Service Life Insurance Act of 1940, approved October 8, 1940, provided

in Section 611 of said act that, "No United States Government Life Insurance shall be granted hereafter to any person under the provisions of Section 300 of the World War Veterans Act of 1924, as amended"; and

WHEREAS, The National Service Life Insurance Act does not provide permanent total disability benefit features or protection for the soldier himself and protects only the dependents and near relatives of the soldier; and

WHEREAS, It is estimated that 90 per cent of those hereafter entering the military and naval service will be without dependents and therefore not in need of such insurance but are in need of insurance with permanent total disability features protecting the soldier himself; and

WHEREAS, Experience during and since the World War has adequately proved and demonstrated the merits of permanent total disability features of Government insurance, particularly as relates to the so-called "misconduct" cases, which are noncompensable for both compensation and pension, thereby taking care of these unfortunates who would otherwise be thrown upon the local communities for care and sustenance; and

WHEREAS, It appears that in the passage of the National Service Life Insurance Act of 1940, including Section 611 thereof which prevented further application for United States Government Life Insurance with total permanent disability features thereof, those persons, including National Guard units entering Federal service after October 8, 1940, were discriminated against and were denied the privilege of taking out United States Government (Converted) Life Insurance with permanent total disability features thereof, whereas those persons, including National Guard units entering Federal service prior to October 8, 1940, were allowed and permitted to take out such insurance; and

WHEREAS, We believe in order to give to every commissioned officer and enlisted man and every member of the Army Nurses Corps (female) and the Navy Nurses Corps (female) when employed in active service under the War Department or Navy Department, proper protection for themselves and their dependents, the United States should again permit such persons, including draftees, the opportunity to apply for and be granted either National Service Life Insurance or United States Government (Converted) Life Insurance with permanent total disability features as now constituted; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California hereby memorializes and petitions Congress to enact legislation which will provide that such persons so entering the military and naval service of the United States, including draftees, shall be given the opportunity of taking either National Service Life Insurance or United States Government (Converted) Life Insurance, at their option, including the permanent total disability features thereof; and be it further

Resolved, That a copy of this joint resolution be transmitted to the President of the United States, to the Vice President of the United States, and to each member of the Senate and the House of Representatives of the United States, and that the Senators and Representatives representing the State of California in Congress be urged actively to support such legislation.

CHAPTER 28

Assembly Concurrent Resolution No. 13—Relative to the creation of a Joint Fact-Finding Committee on Un-American Activities in California to investigate the activities of persons and groups known or suspected to be foreign dominated or controlled and recommend legislation for their regulation.

[Filed with Secretary of State January 27, 1941.]

Joint Fact-Finding Committee on Un-American Activities

WHEREAS, These are times of public danger. Subversive persons and groups are endangering our domestic unity so as to leave us unprepared to resist aggression. Under color of the protection afforded by the Bill of Rights these persons and groups seek to destroy our liberties and our freedom by force, threats and sabotage and to subject us to the domination of foreign powers.

Recent announcements by responsible officials of the Federal Government indicate the seriousness of the problem. In his message to the Congress on January 3, 1941, the President said: "The first phase of the invasion of this hemisphere would not be the landing of regular troops. The necessary strategic points would be occupied by secret agents and their dupes—and great numbers of them are already here, and in Latin America." State legislation to meet the problem and to assist law enforcement officers can best be based on a thorough and impartial investigation by a competent and active legislative committee; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That there is hereby created a Joint Fact-Finding Committee on Un-American Activities in California which shall investigate, ascertain, collate and appraise all facts causing or constituting interference with the National Defense Program in California or rendering the people of the State, as a part of the Nation, less fit physically, mentally, morally, economically or socially; and be it further

The powers specified in such rules may be exercised by the committee after the final adjournment of this session; (iii) all powers necessary or convenient to accomplish the objects and purposes of this resolution, including but not limited to the following duties and powers:

(1) To select a chairman from its membership and to employ and fix the compensation of a secretary and such clerical, expert and technical assistants as it may deem necessary;

(2) To create subcommittees from its membership, assigning to the subcommittee any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and exercise all of the powers conferred upon the committee limited by the express terms of the resolution or resolutions of the latter defining the powers and duties of the subcommittee, which powers may be withdrawn or terminated at any time by the committee;

(8) To act during this session of the Legislature, including any recess hereof, and after final adjournment hereof, until the commencement of the Fifty-fifth Legislature;

(9) To file a report with the Legislature during any session of the Fifty-fourth Legislature and with the Legislature during the regular session of the Fifty-fifth Legislature;

CHAPTER 53

Assembly Joint Resolution No. 32—Relative to Kings River flood control.

[Filed with Secretary of State April 15, 1941.]

Kings River flood control

WHEREAS, The floods of the Kings River from time to time constitute a serious menace in that they cause soil erosion, obstruction of the river by debris, destruction of live stock and poultry, damage to homes and farms, and destruction of millions of dollars of farm crops along the river course and on its deltas; and

WHEREAS, The control of the waters of the river by the construction of dams would within a few years save sufficient property to pay the cost of such dams; and

WHEREAS, There are 1,000,000 acres of land which are irrigated from the waters of Kings River directly by gravity flow or from thousands of electric pumping plants; and

WHEREAS, Flood conditions are generally caused by excessive run-off due to the melting of the snows in the high mountains and not only menace the irrigated lands within the lower areas, but in many seasons, cause a lack of gravity water for irrigation in the higher areas, thereby forcing the farmers to operate their pumping plants, which greatly diminishes the stored water under the surface; and

WHEREAS, The construction of such dams would assist in the prevention of soil erosion, result in a more equitable and beneficial distribution of the water for irrigation purposes, aid in controlling subsurface waters, and help to reclaim water-logged land; and

WHEREAS, The construction of such dams, together with hydroelectric power houses, would result in the generation of electric power which is much needed in the adjacent territory, and the sale of which would go far toward liquidating the cost of the project; and

WHEREAS, The need for such dams is forcibly brought to the fore by the present threatening flood conditions; and

WHEREAS, The people along the river and on the delta land are financially unable of constructing such projects; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the President and the Congress of the United States be memorialized to include the construction of dams on the Kings River as one of the Federal construction projects and that Federal moneys be appropriated in sums sufficient to complete the construction of the dams and other works at the earliest possible moment; and be it further

Resolved, That a copy of this resolution be sent to the President and Vice President of the United States and to the Speaker of the House of Representatives of the Congress of the United States, and to each Senator and Member of the House of Representatives in California in the Congress of the United States, and that the Senators and Representatives of California are hereby respectfully requested to urge such action.

CHAPTER 65

Senate Joint Resolution No. 17—Relative to memorializing Congress to enact legislation requiring Federal Governmental agencies to comply with California minimum price laws for milk.

[Filed with Secretary of State April 28, 1941.]

Federal milk purchases below minimum State prices

WHEREAS, Prior to 1935 unfair, unjust, destructive, and demoralizing trade practices had been carried on in the production and distribution of fluid milk and fluid cream, which practices constituted a constant menace to the health and welfare of the inhabitants of the State of California, and tended to undermine sanitary regulations and standards of content and purity of fluid milk and fluid cream; and

WHEREAS, In the opinion of the Legislature of the State of California, health regulations were insufficient to prevent disturbances in the milk industry, which disturbances threatened to destroy and seriously to impair the future supply of fluid milk; and

WHEREAS, To safeguard the consuming public from future inadequacy of supply of this necessary commodity, the Legislature of the State of California in 1935 declared that it was the policy of the State of California to promote, foster, and encourage the intelligent production and orderly marketing of commodities necessary to its citizens, including milk, and to eliminate speculation, waste, improper marketing, unfair and destructive trade practices, and improper accounting for milk purchased from producers of such milk; and

WHEREAS, As a result of such declaration of policy, the Legislature of the State of California declared that the production, transportation, processing, storage, distribution, and sale of fluid milk and fluid cream in the State of California is an industry affecting the public health and welfare, and thereupon enacted a law providing for the stabilization of marketing of fluid milk and fluid cream, which law is Chapter 10 of Division 4 of the Agricultural Code of the State of California, and bestowed upon the Director of Agriculture of the State of California the administrative authority, after investigation and public hearing, to prescribe marketing areas wherein different prices and regulations should be defined; and

WHEREAS, Under said law the Director of Agriculture of the State of California has established stabilization and marketing plans in 16 marketing areas within said State of California, providing minimum prices to be paid to producers of fluid milk, and in connection with said plans has established in 13 marketing areas within said State of California schedules of minimum wholesale and minimum retail prices for fluid milk; and

WHEREAS, Approximately 85 per cent of the fluid milk produced and distributed in the State of California is marketed under said market controls, said 85 per cent being approximately equivalent to 73,000,000 pounds of milk fat yearly, to an approximate value of forty-two million dollars ($42,000,000) to California producers of fluid milk; and

WHEREAS, Since the adoption of the California State Milk Control Law, the dairy industry, with the aid of the State, has corrected certain evils and has developed and maintained satisfactory marketing conditions and has brought about a reasonable amount of stability and prosperity in the production and marketing of fluid milk and fluid cream; and

WHEREAS, The expansion and extension of the National Defense Program has resulted in the great and continuing increase in the number and personnel of defense units quartered in the State of California and in milk marketing areas thereof, and a great and continuing increase, in said areas, of the consumption of fluid milk, whereby a large and increasing percentage of the fluid milk marketed in California is sold to and consumed by said defense units; and

WHEREAS, Quartermasters, Purchasing Officers and other Supply Officers of the Army, Navy, Marine Corps, CCC, Air Corps, Flying Schools, and of other military and naval units of the United States are directed or required by Federal law, rule, order or regulation to make purchases of food supplies, including fluid milk, at competitive bid prices, regardless of minimum price regulations and schedules established by the Director of Agriculture of the State of California; and

WHEREAS, The Attorney General of the State of California has advised the Director of Agriculture of the State of California that said director is without power or jurisdiction to apply or enforce minimum producer price schedules or minimum resale price schedules as to fluid milk sold or delivered to agencies or units of the United States Government quartered on property or premises ceded to or owned by the United States Government; and

WHEREAS, Distributors of fluid milk in competing for the fluid milk business of said defense units so situated make bids and offers of sales and actual sales of fluid milk for delivery to said units at prices below the minimum prices established by the Director of Agriculture, and in turn pay and return to the producers supplying such fluid milk prices below the minimum prices established and ordered by said director to be paid

to said producers, resulting in severe operating losses which can not at this time be approximated, but which may be estimated at many thousands of dollars per day to aggregate California producers supplying such milk for such purposes; and

WHEREAS, From the foregoing there have resulted enormous and continuing losses to California producers of fluid milk, unutterable confusion and chaotic marketing conditions, and breakdown of the law and of minimum producer price and minimum resale schedules established thereunder; and

WHEREAS, If said situation is permitted to continue, California producers of fluid milk face loss of income, possible bankruptcy, and financial disaster; and

WHEREAS, California producers of fluid milk are in the premises forced to shoulder an unfair and disproportionate part of the cost, duty and burden imposed by the National Defense Program on all citizens, thus resulting in disorganization and unstabilization of the fluid milk business of the State of California, resulting in turn in great and inestimable losses to producers and distributors of fluid milk; and

WHEREAS, It is vital to the dairy industry of the State of California, which, as aforesaid, is an industry affecting the public health and welfare of the people of the State of California, that not less than the minimum prices fixed by the Director of Agriculture of the State of California be charged in such areas; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of this State hereby memorializes and recommends to the Congress of the United States that it pass and enact, forthwith and as an emergency measure, such laws, statutes, rules or regulations, as will direct and require purchasing officers of the Army, Navy, Marine Corps, Air Corps, or such others as may be in authority over the purchasing of food supplies for the above and other defense units or other agencies of the United States quartered in the State of California, and in milk marketing areas in said State, to regard as unlawful and to refuse to entertain or consider or accept bids or offers from any distributor or producer of fluid milk, which bids or offers are below the minimum prices established by the Director of Agriculture pursuant to the provisions of California's Milk Stabilization Law or amendments thereof, and that said Congress declare, by joint congressional statute, or otherwise, that where the minimum price of fluid milk and fluid cream is fixed by competent State legal authority, said purchases by the Federal Government within the geographical areas of the State of California, and upon territory ceded by such State to the Federal Government, shall be at prices not less than the minimum prices declared by such competent State legal authority.

CHAPTER 68

Assembly Joint Resolution No. 44—Relative to Sacramento River north from Chico Landing.

[Filed with Secretary of State April 28, 1941]

Sacramento River control north of Chico Landing

WHEREAS, During the past 30 years the Sacramento River from the Chico Landing north has received no attention or care whatever from Federal or State agencies, although it is navigable to Red Bluff; and

WHEREAS, Gold mining operations and bank and soil erosion have resulted in the creation of snags, sand bars and banks in the Sacramento River; and

WHEREAS, These snags, sand bars and banks have deflected the river's current and caused new channels to form with accompanying erosion to valuable farm lands adjacent to the river; and

WHEREAS, Thousands of acres of valuable farm land, assessed as high as one hundred dollars ($100) per acre, have been swept away by the Sacramento River and destroyed, and additional thousands of acres of valuable farm land are threatened with destruction; and

WHEREAS, County and State roads, bridges and other properties have been damaged and destroyed by channel changes, thereby becoming useless for State and county purposes and for purposes of National defense; and

WHEREAS, Dirt swept down the Sacramento River has been deposited in the lower Sacramento River channel, with consequent creation of deltas raising the bed of the channel and causing great and devastating floods in the flat valley lands south of the Chico Landing and all along the Sacramento River as far south as the City of Sacramento; and

WHEREAS, Unless immediate steps are taken to relieve the situation herein described, untold loss of life and property will inevitably occur; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California hereby respectfully urges the President and the Congress of the United States to render such immediate aid as may be necessary to correct the conditions and avoid the calamity herein described; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives of the Congress of the United States, to each Senator and Representative from California in the Congress of the United States, to the chairmen of the flood control committees of the Senate and of the House of Representatives of the Congress of the United States, to the Chief of the United States Army Engineers, Department of War, United States Army, Washington, D. C., to the Reclamation Board of the State of California, and to the United States Army Engineers, Department of War, District of California.

CHAPTER 69

Assembly Joint Resolution No. 45—Relative to flood and seepage conditions along the Sacramento River and its tributaries in northern California.

[Filed with Secretary of State April 28, 1941.]

Sacramento River seepage damage

WHEREAS, Land adjoining the Sacramento River, approximately 70 miles in length and four miles in width, representing some 280 square miles, has been seriously affected by seepage as a consequence of a rise in the flood plane since the inception of the present flood control plan; and

WHEREAS, Orchards consisting of large acreages of prune, walnut and other trees having tap roots, have been and will continue to be destroyed by such seepage; and

WHEREAS, Hundreds of acres of alfalfa and other perennial crops have been drowned and totally destroyed; and

WHEREAS, Thousands of acres of early-sown grain land have been drowned and many acres of seeded grain can not be planted until so late in the season that satisfactory crops can not be obtained; and

WHEREAS, In seasons of normal and above normal rainfall, seepage water has remained on land until so late in the year that even Summer-planted crops such as grain sorghums, beans and peas can not be grown; and

WHEREAS, Many acres of late Spring-planted crops such as rice and sugar beets can not be planted; and

WHEREAS, Acre upon acre of formerly rich river land is becoming impregnated with alkali, thus destroying its productivity and value; and

WHEREAS, The Winter season of 1940-41 wrought untold damage to orchards, lands and crops from Stony Creek in Glenn County to Knights Landing, in Yolo County; and

WHEREAS, This damage has affected lands on both the east and west banks of the Sacramento River in the counties of Glenn, Colusa, Sutter and Yolo; and

WHEREAS, The invasion of seepage waters has greatly impaired sanitary sewer systems and rendered useless septic tanks within the rural areas; and

WHEREAS, In seven out of eight cemeteries in the affected localities interments have been impossible for the past several months; and

WHEREAS, The lands affected by the present deplorable seepage conditions are in the main the most productive and highly assessed farming lands in their respective counties; and

WHEREAS, The cost of attempted farming operations on these lands has greatly increased because of seepage; and

WHEREAS, The county tax rolls will of necessity be greatly reduced within the affected seepage areas, thereby placing an increased tax burden upon lands not so affected; and

WHEREAS, Federal Land Bank loans and liens on affected lands are seriously jeopardized and impaired; and

WHEREAS, Unless immediate and prompt assistance towards relieving the situation is granted, crops will be lost, lands will become worthless, and bankruptcy will follow; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California hereby respectfully urges the President and the Congress of the United States to render such immediate aid as may be necessary to correct the conditions and avoid the calamity herein described; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives of the Congress of the United States, to each Senator and Representative from California in the Congress of the United States, to the chairmen of the flood control committees of the Senate and of the House of Representatives of the Congress of the United States, to the Chief of the United States Army Engineers, Department of War, United States Army, Washington, D. CHAPTER 70

Assembly Joint Resolution No. 42—Relative to memorializing the United States Department of Interior, Fish and Wild Life Service, to permit controlled feeding of migratory wild fowl on hunting clubs in the State of California, and to provide for the feeding of grain on migratory wild fowl refuges in this State, in order to relieve farmers from severe losses to grain crops caused annually by such wild fowl.

[Filed with Secretary of State May 1, 1941.]

Feeding of migratory wild fowl on hunting clubs

WHEREAS, The rice-growing area of California is concentrated in the counties of Butte, Sutter, Glenn, Colusa, and other counties in the general area wherein is situate, the Sacramento Valley Migratory Wild Fowl Refuge and the Gridley Migratory Wild Fowl Refuge, and in this area many thousands of acres of land are producing rice, wheat and other grains in great quantities; and

WHEREAS, The annual migrations of wild fowl from Alaska and Canada down the Pacific Coast and into California are on the increase; and

WHEREAS, By regulation of the United States Department of Interior, Fish and Wild Life Service, no feeding of grain is permitted on hunting clubs and insufficient feed for migratory wild fowl is found in this State, with the exception of the said Sacramento Valley area; and

WHEREAS, The millions of wild fowl in their annual flights to this State congregate in said Sacramento Valley area and are thereby causing vast and increasing damage to grain crops grown therein, due to the fact that such wild fowl can not find feed elsewhere; and

WHEREAS, No provision is made by the United States Department of Interior, Fish and Wild Life Service, for the raising of grain on wild fowl refuges by such service or for the purchase of grain in lieu thereof so that migratory wild fowl will not leave such refuges to feed on grain crops of adjoining landowners; and

WHEREAS, The great flight of wild fowl now concentrated in said Sacramento Valley area could be scattered and spread out over a large portion of the State, particularly around the San Francisco Bay area and in the San Joaquin Valley, if feeding of grain were permitted on flooded areas in hunting clubs under a permit system or under such regulations as the Fish and Wild Life Service might adopt; and

WHEREAS, Such diffusion of the flight of wild fowl brought about by said regulated feeding and land flooding would be of inestimable value to the farmers; and

WHEREAS, Such feeding of wild fowl on hunting clubs and such diffusion of flight would not result in an increased killing of such fowl by sportsmen under proper regulations as

to feeding and the enforcement of reasonable shooting restrictions; and

WHEREAS, The California Farm Bureau Federation and other farm groups, together with Associated Sportsmen of California, have gone on record as favoring the adoption of a program by the United States Fish and Wild Life Service as herein set forth; and

WHEREAS, The migratory wild fowl situation in California differs from the problem existing in other parts of the country and warrants regulations suitable to the peculiar situation existing in this State; now, therefore, be it

Resolved by the Assembly and Senate, jointly, That the United States Department of the Interior, Fish and Wild Life Service, be memorialized to immediately adopt regulations permitting the feeding of migratory wild fowl on hunting clubs in the State of California for such period of time each year and under such regulations as may be advisable, and that provision be made by such Fish and Wild Life Service for the raising by it of adequate quantities of grain or for the purchase of grain, if necessary, for the feeding of migratory wild fowl on wild fowl refuges in this State, and be it further

Resolved, That the Chief Clerk of the Assembly is hereby requested to transmit copies of this resolution to the President and Vice President of the United States, the Secretary of the United States Department of Interior, and to the Chief of the Fish and Wild Life Service, and to the Senators and Representatives from California in the Congress of the United States.

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Fish and Game Commission is hereby requested to reconsider its recommendation that the trout season in the waters referred to in this resolution be closed until May 31, 1941, and to request the Director of Natural Resources to rescind said order; and be it further

Resolved, That copies of the order of rescission be posted and published as provided for by law for the posting and publishing of orders closing streams to trout fishing under Sections 629 and 631, inclusive, of the Fish and Game Code; and be it further

Resolved, That from and after the completion of publication and the posting of the notice of such rescission, the order so rescinded shall be considered as of no further force or effect.

Assembly Joint Resolution No. 1—Relative to the hunting season on migratory wild fowl.

[Filed with Secretary of State May 9, 1941.]

WHEREAS, California as determined by the Federal Department of Agriculture relative to migratory wild fowl, is classed as one of the central States and its open season for shooting wild migratory fowl has been fixed as that of other central States; and Duck seasons

WHEREAS, California is a semiarid State and a semitropical State, its Summers are long and without rains, its grains, fruits, vegetables and other agricultural products are largely produced by irrigation thereby using the waters from its rivers for irrigation and domestic purposes rather than as in

earlier years when lakes, swamps and other watering places used by migratory wild fowls were formed; and

WHEREAS, The lack of such watering places in the early Winter months has discouraged the southern flight of migratory wild fowl until the seasonal rains of the Winter months usually occurring about January 1st have begun; and

WHEREAS, The concentration of hunters on and around the few watering places during the present early hunting season brings about an undue slaughter of the local ducks which are hatched in this State; and

WHEREAS, The conservation of the local duck population should be encouraged by this further protection during the weeks or months preceding the regular southern flight of northern hatched birds; and

WHEREAS, The Federal Duck Stamp purchasers contribute very materially to the protection of migratory fowl throughout the United States and should be encouraged to continue the purchase of Federal Duck Stamps; and

WHEREAS, It appears that should the open shooting season of ducks and other migratory fowl be set at a time when the seasonal Winter rains begin and which form lakes and ponds in numerous places of the State thereby scattering the assemblage of such waterfowl, it would be a forward step in the conservation of locally hatched ducks and would also be of assistance to such duck stamp purchasers as are not members of gun clubs; and

WHEREAS, Because of the great length of the State, its sharply varying topography, and its marked differences in climatic conditions, it is essential that there be fixed two shooting seasons for ducks in this State, one for the northern portion of the State, and one for the balance of the State; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Secretary of Interior be requested to establish two duck shooting seasons within California, the dividing line to be determined by the Director of Interior; and be it further

WPA sewing projects

WHEREAS, The Work Projects Administration is required by law to remove from employment all relief workers who have been continuously employed on WPA projects for 18 months; and

WHEREAS, The requirement is especially severe in its application to older women employed on sewing projects, as their opportunities for private employment are more limited than the opportunities of others; and

WHEREAS, It appears that a more equitable and personal method might be employed on the sewing projects, which would secure a greater degree of security for our older women, at no great additional cost to the Nation; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the President and the Congress are hereby respectfully urged and requested to enact legislation which will modify the severities of the aforesaid requirement as applied to older persons employed on sewing projects and will enable those who are unable to obtain other employment to be safe from destitution; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to send copies of the resolution to the President of the United States, the Vice President of the United States, the Speaker of the House of Representatives and to every Representative of California in Congress.

Assembly Constitutional Amendment No. 53—A resolution to propose to the people of the State of California that the Constitution of this State be amended by adding Section 14⅘ to Article XIII thereof, relating to taxation of insurers.

[Filed with Secretary of State May 14, 1941.]

Constitution, Art XIII, Sec. 14 4/5

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its Fifty-fourth Regular Session commencing on the sixth day of January, 1941, two-thirds of the members elected to each of the two houses of the Legislature voting in favor thereof, hereby proposes to the people of the State of California that the Constitution of this State be amended by adding Section 14⅘ to Article XIII thereof, to read as follows:

Insurance taxation

14⅘. (a) Those provisions of Section 14¾ of this article relating to taxation of insurance companies and associations shall remain effective as to business done in this State prior to January 1, 1943, and as to the assessment, levy, collection and adjustment of taxes with respect to such business done prior to that date; but as to such business done subsequent to December 31, 1942, those provisions of Section 14¾ relating to taxation of insurance companies and associations shall not apply, and this section shall apply thereto.

Definitions

(b) "Insurer," as used in this section, includes insurance companies or associations and reciprocal or interinsurance exchanges. As used in this paragraph, "companies" includes persons, partnerships, joint stock associations, companies and corporations.

(c) An annual tax is hereby imposed on each insurer doing business in this State after December 31, 1942, on the bases, at the rates, and subject to the deductions from the tax hereinafter specified.

(d) In the case of an insurer not transacting title insurance in this State, the "basis of the annual tax" is, in respect to each year, the amount of gross premiums, less return premiums, received in such year by such insurer upon its business done in this State, other than premiums received for reinsurance and for ocean marine insurance.

In the case of an insurer transacting title insurance in this State, the "basis of the annual tax" is, in respect to each year, all income upon business done in this State, except:

(1) Interest and dividends.

(2) Rents from real property.

(3) Profits from the sale or other disposition of investments.

(4) Income from investments.

"Investments" as used in this subdivision (d) includes property acquired by such insurer in the settlement or adjustment of claims against it but excludes investments in title plants and title records. Income derived directly or indirectly from the use of title plants and title records is included in the basis of the annual tax.

In the case of an insurer transacting title insurance in this State which has a trust department and does a trust business under the banking laws of this State, there shall be excluded from the basis of the annual tax imposed by this section, the income of, and from the assets of, such trust department and such trust business, if such income is taxed by this State or included in the measure of any tax imposed by this State.

Rate of tax

(e) The rate of tax to be applied to the basis of the annual tax in respect to each of the years set forth below is the percentage set forth below opposite such year:

Year	Percentage
1943	2.55
1944	2.50
1945	2.45
1946	2.40
1947 and each year thereafter	2.35

Deductions

(f) The deductions which may be made from the tax are:

(1) The principal office deduction.

(2) The real estate deduction.

"Principal office deduction"

(g) The "principal office deduction" consists of the right to deduct from the annual tax imposed by this section upon an insurer in respect to a particular year the amount of real estate taxes paid by it, in that year, before, or within 30 days after, becoming delinquent, on real property owned by it at the time of payment, and in which was located, in that year, its home office or principal office in this State. Such real property may consist of one building or of two or more adjacent buildings in which such an office is located, the land on which they stand, and so much of the adjacent land as may be required for the convenient use and occupation thereof.

Where as a result of merger, consolidation, or other method of acquisition of substantially all of the assets of one or more insurers by another insurer, effected prior to January 1, 1939, an insurer owns more than one parcel of real property in this State in which was located a home office or principal office of an insurer immediately prior to such acquisition, the owner shall designate one of such properties as its home or principal office. Real estate taxes paid by it in any of the years 1943 to 1952, inclusive, before, or within 30 days after, becoming delinquent, on such property owned by it at the time of payment and not so designated may also be deducted

from the annual tax imposed by this section in respect to such year and are included within the principal office deduction.

"Real estate deduction"

(h) Subject to the limitations hereinafter expressed, the "real estate deduction" consists of the right to deduct from the annual tax imposed by this section upon an insurer in respect to any of the years set forth below, the amount of taxes paid by it in that year on real estate owned by it in this State at the time of payment, not in excess of the percentage, set forth below opposite such year, of deductible taxes paid by it in 1939 on real estate owned by it in this State in 1939:

Year	Percentage
1943	75
1944	55
1945	35
1946	15

Limitations on real estate deduction

The limitations hereinabove referred to are:

(1) The real estate deduction defined by this subdivision (h) is not applicable to and shall not be allowed on the annual tax imposed by this section with respect to any year after the year 1946.

(2) In computing the real estate deduction, there shall be excluded from the amount of taxes paid on such real estate the amount of such taxes constituting and included within the principal office deduction, under subdivision (g).

(3) In computing the percentage of deductible taxes paid by an insurer in 1939, there shall be excluded from such deductible taxes the amount of taxes, paid by it in 1939, which would, if subdivision (g) were applicable to the year 1939, constitute or be included within the principal office deduction.

(4) Taxes otherwise conforming to the requirements of this subdivision (h) shall not be allowed as part of the real estate deduction unless paid before, or within 30 days after, becoming delinquent. The date of payment of such taxes shall be conclusively established by the time of payment shown on the official tax receipt.

In lieu nature of tax; exceptions

(i) The tax imposed on insurers by this section is in lieu of all other taxes and licenses, State, county, and municipal, upon such insurers and their property, except:

(1) Taxes upon their real estate.

(2) That an insurer transacting title insurance in this State which has a trust department or does a trust business under the banking laws of this State is subject to taxation with respect to such trust department or trust business to the same extent and in the same manner as trust companies and the trust departments of banks doing business in this State.

(3) When by the laws of any other State or country any taxes, fines, penalties, licenses, fees, deposits of money or securities or other obligations or prohibitions are imposed on insurers of this State doing business in such other State or

country, or upon their agents therein, in excess of those imposed upon insurers of such other State or country or upon their agents therein, so long as such laws continue in force, the same obligations and prohibitions of whatsoever kind may be imposed by the Legislature upon insurers of such other State or country doing business in this State, or upon their agents herein.

(4) The tax on ocean marine insurance.

(j) Every insurer transacting the business of ocean marine insurance in this State shall annually pay to the State a tax measured by that proportion of the underwriting profit of such insurer from such insurance written in the United States, which the gross premiums of the insurer from such insurance written in this State bear to the gross premiums of the insurer from such insurance written within the United States, at the rate of 5 per centum, which tax shall be in lieu of all other taxes and licenses, State, county and municipal, upon such insurer, except taxes upon real estate, and such other taxes as may be assessed or levied against such insurer on account of any other class of insurance written by it. Deductions from the annual tax pursuant to subdivision (f), (g) and (h) can not be made from the ocean marine tax. The Legislature shall define the terms "ocean marine insurance" and "underwriting profit," and shall provide for the assessment, levy, collection and enforcement of the ocean marine tax.

Assessment (k) The taxes provided for by this section shall be assessed by the State Board of Equalization.

Change of rates (*l*) The Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof, may by law change the rate or rates of taxes herein imposed upon insurers.

(m) This section is not intended to and does not change the law as it has previously existed with respect to the meaning of the words "gross premiums, less return premiums, received" as used in this section or as used in Section 14 or 14¾ of this article.

CHAPTER 90

Assembly Concurrent Resolution No. 43—Relating to mediation of certain labor controversies.

[Filed with Secretary of State May 16, 1941.]

Mediation of labor controversies in canning industry

WHEREAS, There presently exists a controversy between the canning industry and its employees concerning wages and the terms and conditions of employment of the workers employed in food canning and preserving plants, especially in the canning of fruits and vegetables; and

WHEREAS, At the present time this controversy has closed some 20 canneries located in the Counties of Sacramento, San Joaquin, Solano and Santa Clara and said plants are not receiving any agricultural products for canning purposes by reason of said controversy; and

WHEREAS, The asparagus producing area of the State of California is located almost exclusively in the aforementioned counties wherein approximately 400 producers of asparagus are engaged in the production of some 68,000 acres of asparagus, and said 400 producers are unable by reason of said controversy between canneries and workers, to market the asparagus now grown upon their lands; and

WHEREAS, The aforementioned asparagus producers are producing a daily output of 30,000 cases of canned asparagus representing a value to the producers of seventy-five thousand dollars ($75,000) per day, and said producers are compelled, by reason of the natural growth and the manner of producing asparagus, daily to cut over the total acreage of said asparagus in order to protect and maintain its productivity, thus adding to said growers a total daily expense of approximately eighteen thousand dollars ($18,000), or a total loss to producers of ninety-three thousand dollars ($93,000) per day; and

WHEREAS, The estimated daily pay roll loss to the workers employed in the canning industry who would be employed for the asparagus canning season is approximately thirty thousand dollars ($30,000); and

WHEREAS, If the labor controversy between the canneries and the workers employed in canneries continues beyond May 16, 1941, from 8,000 to 10,000 field workers ordinarily, usually and seasonally engaged in the cultivation and production of the asparagus produced on the 68,000 acres heretofore mentioned, will be forced out of employment by reason of the fact that the growers would be unable to finance the production, cutting and destruction of the asparagus grown on the said 68,000 acres, thus incurring a daily loss in wages to the said field workers of approximately forty thousand dollars ($40,000) per day; and

WHEREAS, Unless the controversy presently existing between the canning industry and the workers is terminated immediately, the canning season which ordinarily continues until July 20th, will terminate immediately with the consequent loss and economic waste of approximately three million dollars ($3,000,000) to growers and workers and the consequent economic waste and loss of vital food during a period when National defense and the conservation of food production is essential to the well being of the Nation, and the asparagus growers will lose their entire crop and receive no returns for their year's work; and

WHEREAS, The Sacramento and San Joaquin Delta area did, prior to 1936, produce 100 per cent of all fresh and canning asparagus produced in the United States, and now by reason of the economic effect of increased production costs this same area produces only 70 per cent of all fresh and canning asparagus produced in the United States; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California hereby respectfully urges the workers engaged by the canning industry who would now be working at the process of canning asparagus were it not for the labor controversy herein referred to, to return to their work immediately so that the tremendous economic waste resulting from the inability of the asparagus producers to market their crop can be avoided; and be it further

Resolved, That the Legislature of the State of California hereby recommends to the parties engaged in the labor controversy that the problems involved in said labor controversy be mediated by the United States Labor Conciliation Board so that during said period of mediation the asparagus producers of California can market their asparagus crop, both cannery workers and field workers engaged in this industry be employed, a valuable food be preserved for the benefit of National defense, and tremendous economic waste be prevented; and be it further

Resolved, That a copy of this resolution be sent to the United States Conciliation Board, the President of the United States, the Governor of the State of California, the Growers and Processors League of California, and the representative of

the American Federation of Labor representing the workers, in order that immediate steps may be taken whereby all of the interested parties immediately commence mediation of the labor controversy herein mentioned and the employees involved in the canning industry labor controversy return to work.

Second: For the payment of principal and interest, or either, upon any bonds issued for the purpose of acquiring, constructing, completing or improving any such airport, airports, works, structures, equipment or facilities for the promotion or accommodation of air commerce, air navigation, air transportation or air craft; provided, there is hereby appropriated from said fund, each year, for said purpose an amount equal to the total balance which, at the close of the preceding fiscal year, remained in said fund over and above the amount of outstanding demands and liabilities payable out of such fund; and provided further, that the amount so appropriated shall not exceed, in any event, the amount of such principal and interest due or to become due during said year.

In all cases such claim shall be approved or rejected in writing, and the date thereof given. Failure to act upon any claim or demand within ninety (90) days from the date the same is filed with the City Clerk shall be deemed to be a rejection thereof: provided, however, that the filing of any such claim with the City Clerk, as above provided, or its presentation to the board, officer or employee authorized by this Charter to incur or pay the expenditure or alleged indebtedness or liability represented thereby, shall constitute a compliance with the provisions of Section 376 as to the presentation of a claim prior to suit or action thereon.

CHARTER AMENDMENT NO. 12

The Charter of the City of Los Angeles is hereby amended by amending Section 29 of Article III, the same to read as follows:

The City Clerk shall endorse thereon the date of its return to him, and shall at the first meeting of the Council thereafter present the same, with the objections of the Mayor, to that body. Thereupon the Council shall proceed to reconsider the passage of the ordinance. Upon such reconsideration it shall in all cases require the votes of two-thirds of the whole Council to pass such ordinance over the veto of the Mayor, but where two-thirds vote or more is required for the original ordinance, a three-fourths vote shall be required to pass it over the veto of the Mayor. The power of the Council to pass any ordinance over the veto of the Mayor shall continue for the period of not to exceed sixty (60) days after the objections of the Mayor are presented to the Council.

CHARTER AMENDMENT NO. 14

The Charter of the City of Los Angeles is hereby amended by amending Sections 291 and 293 of Article XXVII to read as follows:

Recall elections: Ballots

Sec. 291. The ballots used at every recall election shall have printed thereon, as to every officer whose recall is to be voted on thereat, the following question:

"Shall (*inserting the name of the officer sought to be removed*) be removed from the office of (inserting the name of his office) by the recall?"

And opposite such question to be voted on, and to the right thereof, the words "Yes" and "No" shall be printed on separate lines, with voting squares. If an elector shall stamp a cross (X) in the voting square after the printed word "Yes", his vote shall be counted in favor of the recall of such officer, and if he shall stamp a cross (X) in the voting square after the word "No", his vote shall be counted against such recall.

On such ballots, under each question, there shall also be printed the names of all persons who have been nominated as candidates to succeed the person whose removal is sought, in case he shall be removed from office by vote of the electors. The nomination of such candidates shall be made as hereinafter provided, but no vote cast shall be counted for any candidate for said office unless the voter also voted on said

question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If a majority of those voting on said question of the recall of any incumbent from office shall vote "No," said incumbent shall continue in office. If a majority shall vote "Yes", said incumbent shall thereupon be deemed removed from such office upon the qualification of his successor. All votes upon the question of the recall and for candidates for said office, shall be canvassed in like manner as in a regular election, and the City Council shall declare the result thereof. If the vote at any such recall election shall recall the officer, then the candidate who has received the highest number of votes for the office shall be thereby declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within ten (10) days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law.

Declaration of vote result

Sec. 293. Any elective officer for whose recall and removal from office an election is held, shall continue to perform the duties of his office until such time as the Council, after a canvass of the vote at such recall election, shall declare that a majority of the electors voting on the question as to whether such person shall be recalled and removed from office, have voted in favor of his recall and removal from office, and the person so declared elected shall have qualified. But if such person shall resign at any time after the date of the certificate of the City Clerk certifying that the petition for his recall is sufficient and prior to the declaration of the result of such election thereby creating a vacancy in such office, or a vacancy occurs therein during such time from any cause, such vacancy may be filled in the same manner as other vacancies occurring in such office, but in that event the person appointed to fill such vacancy shall hold his office only until the person declared by the Council to have been elected at the recall election shall qualify. Proceedings for the recall of any elective officer shall be deemed to be pending from the date of the certificate of the City Clerk certifying that the recall petition is sufficient, and if he shall resign at any time subsequent thereto the recall election shall be held notwithstanding such resignation.

Resignation of recalled officer

Should the City Planning Commission recommend approval or fail to make any recommendation within the time mentioned herein, said Council may adopt such ordinance, order or resolution by a majority vote of the whole Council.

The Director of Planning shall make such investigation relative to such proposed ordinance, order or resolution as the City Planning Commission may require, and shall file his report thereon with the Commission.

Zoning Administrator

Sec. 98. There is hereby created the office of Zoning Administrator. Said Zoning Administrator shall be appointed by the Director of Planning, subject to the Civil Service provisions of this Charter. He shall have the following powers and duties, subject, however, to the supervision and direction of the City Planning Commission as to matters of policy:

(a) He shall have the control of and be responsible for the administration and enforcement of all zoning ordinances.

Upon the receipt of such report and recommendation the City Planning Commission shall consider such applications and may approve or deny the same. If approved, such applications, together with the approval of the Commission, shall be presented to the Council, which may adopt the change in said ordinance by a majority vote If any such application is denied by the City Planning Commission, its action thereon

shall be final, except that applicant may appeal to the Council, which may then adopt such change in said ordinance only by a two-thirds vote of the Council. The City Planning Commission shall act upon such applications within thirty (30) days from the date the same are filed and it shall not be necessary to hold more than one hearing upon any such application.

(c) Subject to such rules and regulations as the Council may by ordinance prescribe he shall investigate, hear and determine all applications for variances from the rules, regulations, restrictions and requirements of the zoning ordinances and shall have power to grant such variances as may be in harmony with the general purpose and intent of said ordinances and in accordance with the general and specific rules therein contained and subject to such conditions and safeguards as he may impose. He shall have authority to grant variances only when practical difficulties, unnecessary hardships or results inconsistent with the general purposes of the zoning regulations may result from the strict and literal interpretation and enforcement of the provisions thereof and before any variance may be granted, it shall appear and the Zoning Administrator shall specify in his findings the facts in each case which shall establish beyond a reasonable doubt:

1. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved or to the intended use of the property, that do not apply generally to the property or class of uses in the same district or zone;
2. That such variance is necessary for the preservation and enjoyment of a substantial property right of the petitioner, possessed by other property in the same zone and vicinity; and
3. That the granting of such variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or district in which the property is located; and
4. That the granting of such variance will not adversely affect the master plan.

The determination of the Zoning Administrator shall be final except that appeals therefrom may be taken to the Board of Zoning Appeals, as hereinafter provided, by any person aggrieved or by an officer, board, department or bureau of the City. Upon making a ruling or determination upon any matter under his jurisdiction, the Zoning Administrator shall forthwith furnish a copy thereof to the applicant, to the Director of Planning and to the City Planning Commission. No variance granted by the Zoning Administrator shall become effective until after an elapsed period of ten (10) days, during which time an appeal may be filed with the Board of Zoning Appeals. An appeal stays all proceedings in furtherance of the action appealed from.

Sec. 98½. There is hereby created a Board of Zoning Appeals, consisting of three (3) members, who shall be

appointed by the Mayor subject to confirmation of the Council, one of whom may be a member of the City Planning Commission. The term of the members of said Board shall be for six (6) years, except that one of the members of the Board first appointed shall be appointed for the term of two (2) years, one member thereof for the term of four (4) years, and the third member thereof for the term of six (6) years. Their successors shall be appointed for the full term of six (6) years. The members of said Board shall take office and their terms shall commence on the first day of July following the taking effect of this Charter provision.

The members of said Board shall receive such compensation as the Council may from time to time fix and determine, and they shall be exempt from the Civil Service provisions of this Charter.

Board of Zoning Appeals

Sec. 99. The Board of Zoning Appeals shall have and exercise the following powers:

(a) To hear and determine appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by the Zoning Administrator in the enforcement of the provisions of any ordinance adopted by the Council creating zoning districts or regulating the use of property in the City.

(b) To hear and determine appeals from the rulings, decisions and determinations of the Zoning Administrator granting or denying applications for variances from any rule, regulations, restriction or requirement of the zoning ordinances, or any section thereof.

Upon the hearing of such appeals said Board may affirm, change or modify the ruling, decision or determination appealed from, or in lieu thereof make such other or additional determination as it shall deem proper in the premises, subject to the same limitations as are placed upon the Zoning Administrator by this Charter.

Appeals

Sec. 99¼. The Council shall prescribe by ordinance rules and regulations providing for the time, manner, method and procedure for the taking and hearing of such appeals; pro vided, however, that the said Board may adopt such other and additional rules as it may deem necessary to carry out the rules and regulations prescribed by ordinance and which are not in conflict or inconsistent therewith. All said rules and regulations shall be kept posted in the office of the Board and a copy thereof furnished to any applicant. At least two (2) members shall sit at all hearings, and the concurring vote of at least two (2) members shall be necessary in the determination of any appeal.

Board of Administrative Appeals

Sec. 99½. In the event of the adoption of a Charter amendment creating a Board of Administrative Appeals, all appeals which are to be taken to the Board of Zoning Appeals, as hereinabove provided, shall be taken to the said Board of Administrative Appeals, and wherever the term "Board of

Zoning Appeals" is hereinabove used it shall be taken to mean "Board of Administrative Appeals," and Section 98½, creating said Board of Zoning Appeals, shall be inoperative for any purpose.

WHEREAS, The State of California was admitted to the Union on a basis of equality with the original States, possessing and enjoying all the attributes of sovereignty residing in the original States, including the ownership of the tide and submerged lands within its borders; and

WHEREAS, Such ownership has long been recognized by the Supreme Court of the United States of America and by other Federal departments and agencies, and has not been questioned until recently, with the result that the State of California and its grantees, both public and private, relying thereon, have expended vast sums of money in the development of such lands, including harbor facilities, reclamation and filling in, and the erection of costly structures; and

WHEREAS, This Legislature is informed that plans are being made to initiate litigation against the State of California, or its grantees, to assert a pretended Federal claim to such lands, whether with or without the authorization of the Congress; and

WHEREAS, Any such litigation could only result in a decision in favor of this State or its grantees, would be unjust in view of the concomitant vexation and annoyance, and would seriously impair the further development of such lands and the financing thereof until the final decision; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the State of California hereby solemnly and firmly asserts the title of the State and its grantees in such lands within this State; and be it further

Assembly Joint Resolution No. 57—Relative to expressing the regret of the people of the State of California upon the retirement of the Honorable Charles Evans Hughes, Chief Justice of the Supreme Court of the United States.

[Filed with Secretary of State June 10, 1941.]

Retirement of Charles Evans Hughes

WHEREAS, The people of the State of California have learned with exceeding regret that the Honorable Charles Evans Hughes, Chief Justice of the Supreme Court of the United States, will retire on July 1st of this year from his position as the head of that august and respected tribunal; and

WHEREAS, The Honorable Charles Evans Hughes has had a brilliant and distinguished career as a statesman and jurist rarely paralleled in the annals of American history: He was Governor of New York for two terms, Associate Justice of the United States Supreme Court under appointment by President Taft, and Secretary of State in the Cabinet of President Harding; and

WHEREAS, As the crowning achievement of a career already thrice illustrious, he was appointed in 1930 to his present position as the leader of the highest court of the land, guiding it with a firm and understanding hand through more than a decade of the most dramatic years in American political, social, and economic life, years in which the more impulsive were impatient to depart from sound principles of constitutional government built up painstakingly through decades of American life, years in which the more fearful refused to recognize the constitutionally planned flexibility of those principles and to adapt them to the changing times, and years in which Charles Evans Hughes, heeding neither radical nor reactionary, molded the supreme law of the land in accordance with the soundest legal concepts, yet recognizing at all times that the law is but an instrument to govern the conduct of man towards man; and

WHEREAS, The retirement of the Honorable Charles Evans Hughes from active public life will deprive America of the services of a brilliant scholar, able thinker, distinguished jurist, and devoted servant; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the people of the State of California

express their extreme regret at the coming retirement from public life of the Honorable Charles Evans Hughes, Chief Justice of the Supreme Court of the United States; and be it further

Resolved, That the people of this State wish him every happiness in his many years to come of private life and hope that he will continue as a private citizen to give the Nation the benefit of his years of experience and wisdom; and be it further

Resolved, That the Chief Clerk of the Assembly of the State of California is hereby directed to send a suitably engrossed copy of this resolution to the Honorable Charles Evans Hughes.

CHAPTER 120

Senate Joint Resolution No. 20—Relative to memorializing the President and the Congress of the United States to abolish tax-exempt bonds.

[Filed with Secretary of State June 11, 1941.]

Tax exempt bonds

WHEREAS, It is being suggested that Federal taxes be increased sharply to meet the costs of the Nation's defense needs; and

WHEREAS, It is generally believed that numerous individuals and corporations having large incomes are escaping a considerable portion of their just taxes through the device of purchasing tax-exempt bonds; and

WHEREAS, It is unfair and inconsistent to increase the taxes of those in the lower and middle income brackets while those in the upper brackets thus escape a considerable share of their taxes; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby respectfully urges the President and the Congress of the United States to take steps looking to the abolishment of tax-exempt bonds; and be it further

Resolved, That the Secretary of the Senate is hereby directed to send copies of this resolution to the President and the Vice President of the United States, the Speaker of the House of Representatives, and to each member of the Senate and the House of Representatives in the Congress of the United States from California.

CHAPTER 121

Senate Concurrent Resolution No. 50—Relative to the observance of the centennial of the raising of the Bear Flag of the "California Republic" at Sonoma, June 14, 1846.

[Filed with Secretary of State June 12, 1941.]

Bear Flag Centennial

On June 14, 1946, will occur the hundredth anniversary of the raising of the Bear Flag of the "California Republic"

in the Plaza at Sonoma, one of the most outstanding incidents in the early cradling of California history, prefacing the State's entrance into the Union of States.

Recognizing the importance of the historical act previously mentioned, the State of California 30 years ago officially by enactment proclaimed the "Bear Flag," the State Flag of California and erected the "Bear Flag Monument" in the Plaza at Sonoma as a perpetual tribute to the "Bear Flag Party" and there proclaiming of "The California Republic."

Contemplating State-wide interest in the "Bear Flag Centennial Year" in 1946, the people of Sonoma and the famous "Sonoma Valley," still rich in historical markings and the preservation of outstanding historic shrines, have inaugurated preparations for a colorful commemoration of the hundredth anniversary of the "Raising of the Bear Flag," so that the intervening time may be utilized in the fulfillment of the desire to achieve outstanding success of an event so indelibly inscribed in the annals of California. It is intended the observance of the centenary shall radiate from Sonoma, the place where the Bear Flag was first flung to the breeze; the seat of government of the short life of the "California Republic," the home of the illustrious General M. G. Vallejo, the place where the last mission to the north on "El Camino Real" was built and the center of many other historical incidents.

It will be sponsored by civic, patriotic and fraternal groups of Sonoma and the surrounding valley and the celebration will continue from June 14, to September 9, 1946, the latter the birthday of California. It is planned that the centennial program shall include a colorful pageant which will be presented several times weekly. In addition to this outstanding feature will be added the visits and gatherings of many State-wide groups figuring in the fraternal and historic life of California.

In accordance with the express desire that the California Legislature at this session indicate its approval of the observance of the centennial of the State Flag and the heralding of such as "California's Bear Flag Centennial Year"; therefore, be it

Resolved by the Senate of the State of California, the Assembly concurring, That 1946 be designated as "California's Bear Flag Centennial Year" State-wide, with special reference to the official observance thereof in the City of Sonoma, Sonoma County, California, during the dates mentioned and that we commend the people of Sonoma in their efforts to stage what will undoubtedly be a colorful remembrance of pioneer days.

WHEREAS, In the past 50 years the university has fulfilled the high hopes voiced by Leland Stanford, then a United States Senator, upon its founding and has emerged triumphant through its many early financial struggles and the setback suffered from the 1906 earthquake to become what it is today—one of the leading universities of the world; and

WHEREAS, There is a growing need for the supply of power for the pumping of water for irrigation of said great quantity of valley land, and for the use of power for domestic purposes, such as the demands of people of cities, towns and industry located therein; and

WHEREAS, There is a great demand for the solving of the most feasible way and manner and the soundest economic way of distributing such water and power; and

WHEREAS, There are great demands made upon the members of the Legislature to provide for the distribution of such water and power in several different ways: One, by complete governmental control; two, by as near complete private control as possible; three, by a combination of city, town, district and State control, with private control of distribution; four, by a combination of State and Federal control; and

WHEREAS, These various methods are urged upon us as the result of the near completion of the Central Valley Water Project and a growing demand for water and power, and, therefore, of great interest to the people of the State; and

WHEREAS, There is much confusion in the minds of our people and in the minds of members of the Legislature, which confusion becomes the greater in the absence of a thorough study of present conditions and in the presence of widely divergent views and opinions heralded and expressed in the spirit and atmosphere of political partisanship; and

WHEREAS, Diverse methods of financing are presented to us, including the method of revenue bonds in their several forms; and

WHEREAS, Perhaps the most crucial problem now before the State is that of determining the basic principle which should be adopted in the solving of these issues, including the avoidance of bureaucratic extravagance as well as private monopoly, either of which might result in costly administration of water and power; and

WHEREAS, A long term program should be devised, formulated and adopted, comprehending all future demands for water and power for the agricultural lands of the Great Central Valley of California, and the conservation, development, utilization and regulation of the water resources of the State

for the purposes of flood control, river flow control and equation, domestic use, irrigation, reclamation, power development and other beneficial uses, in furtherance of which it is necessary that the Legislature have available to it information adequate to enable its members to legislate advisedly and appropriately in respect to any and all phases of this subject; now, therefore, be it

Purposes *Resolved by the Senate of the State of California, the Assembly thereof concurring,* That a committee, to be known as the Joint Committee on Water Problems, consisting of the Speaker of the Assembly and five members of the Assembly appointed by the Speaker, and the President pro tempore of the Senate and four members of the Senate appointed by the Committee on Rules thereof, is hereby created, to make a thorough study of the water problems of the State, including any and all aspects thereof indicated in the above recitals hereof and to report to the Legislature from time to time, its final report to be submitted to the Legislature within 30 days from the date of convening of the Legislature at its Fifty-fifth Session, together with the recommendations of the committee as to needed legislation upon any phase of this subject, which report, among other things, shall include findings as to

(b) The demand for water both now and in the future for the development of all the agricultural lands under the Central Valley Project,

(c) The amount of water required for saline control within the project,

(d) The amount of water from these projects that can be controlled and used to assist flood control, and how it can be utilized in aid of navigation,

(e) As definitely as possible, how much water there will remain that can be used for primary power after fulfilling the requirements of the needs hereinbefore mentioned,

(f) What methods of distribution adopted to fulfill the needs hereinbefore mentioned will be most feasible and economic to the people of the State of California,

(g) What methods of financing of the distribution of power and water may be used or adopted and what method is the more economic and feasible to the people of the State of California, and

(h) How, after the adoption of any of the suggested plans for distribution of water and power, the plan may be continued in operation free from selfishness either of private enterprise or political control;

All of which findings shall be detailed and specific, showing every element and factor upon which the findings and the accompanying recommendations are based; and

Powers The committee in exercising its powers and performing the functions vested in it by this resolution shall have all the powers conferred upon legislative committees by Article 8,

(3) To adopt and from time to time amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may to it appear appropriate;

(4) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created;

(6) To make a complete study, survey and investigation of every phase of the subject of this resolution, including but not limited to the operation, effect, administration, enforcement, and needed revision of any and all laws in any wise bearing upon or relating to the subject of this resolution;

(7) To meet at any and all places in this State, in public or executive session;

CHAPTER 131

Senate Joint Resolution No. 27—Relative to the investigation by the Joint Committee on Water Problems of water service from Shasta Reservoir to the area lying south of the Pit River and memorializing Congress to investigate and make provision for serving water to this land.

[Filed with Secretary of State June 16, 1941.]

Water service to area south of Pit River

WHEREAS, In 1915 the United States Reclamation Service projected a dam at Sheeps Rock and a tunnel which would pass through the ridge that divides the Pit River basin from those lands lying to the south, the tunnel to be about 13,000 feet long and eight feet wide by 10 feet high; and

WHEREAS, The elevation of the mouth of the projected tunnel will be covered by the water in Shasta Reservoir upon the completion of Shasta Dam; and

WHEREAS, 80,000 acres of land presently semiarid may be converted into prosperous farming land by the application of water to be impounded in Shasta Reservoir thereto; and

WHEREAS, If this project is not immediately carried out, it will never be feasible from an engineering standpoint as the

mouth of the tunnel will be covered by water nor from a legal standpoint as the land lying below Shasta Dam will become irrevocably entitled to the water to be impounded therein; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California does hereby respectfully urge the President of the United States, the Congress of the United States, and the Commissioner of the United States Bureau of Reclamation to investigate further the economic and engineering feasibility of serving water to the land lying south of the Pit River with water to be impounded in the Shasta Reservoir and if found to be feasible, to make provision for this service; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, the Senators and Representatives of the State of California in the Congress, and the Commissioner of the United States Bureau of Reclamation; and be it further

Resolved, That the Joint Committee on Water Problems created pursuant to Senate Concurrent Resolution No. 11 investigate and report upon the economic and engineering feasibility of serving water to the land lying south of the Pit River as a part of the Central Valley Project.

CHAPTER 132

Assembly Joint Resolution No. 33—Relative to the extension of flood control works in the Los Angeles River and the construction of such works in the San Fernando Valley.

[Filed with Secretary of State June 16, 1941.]

Flood control works in Los Angeles River and San Fernando Valley

WHEREAS, Recent storms have resulted in a recurrence of serious floods in the San Fernando Valley in California; and

WHEREAS, Such floods will continue to occur annually unless adequate works are constructed to control the flow of storm waters; and

WHEREAS, Such floods constitute a serious menace to the health, safety and welfare and further interfere with the operation of numerous defense industry plants in the San Fernando Valley and vicinity thereof; and

WHEREAS, Such floods and their consequences can be avoided by the carrying out of plans for the construction of flood control works, including the straightening, rectification and deepening of a portion of the Los Angeles River channel and the construction of works and a channel or channels extending from the Los Angeles River to the San Fernando Reservoirs and the Hansen Dam; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the President and Congress of the United States are hereby respectfully memorialized to include the foregoing flood control works and rectification of the Los Angeles River channel in connection therewith as one of the Federal construction projects, and that Federal moneys be appropriated in sums sufficient to provide therefor at the earliest possible time; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives of the Congress of the United States, to each Senator or Member of the House of Representatives from California, and that the Senators and Representatives from California are hereby respectfully requested to urge such action.

CHAPTER 133

Assembly Joint Resolution No. 49—Relative to real estate brokers and salesmen.

[Filed with Secretary of State June 16, 1941.]

Real estate brokers and salesmen Unemployment insurance

WHEREAS, Real estate brokers and salesmen are not exempt from taxation under the Federal Social Security Act and are therefore subjected to tax by the California Unemployment Insurance Act; and

WHEREAS, It is administratively difficult to determine the amount of benefits a real estate broker and salesman is entitled to have under the Unemployment Insurance Act of this State; and

WHEREAS, It is the desire of the Legislature of the State of California to exempt real estate brokers and salesmen entirely from the contribution and benefit provisions of the Unemployment Insurance Act of this State; and

WHEREAS, This is not possible unless and until proper amendments are made in the Federal Unemployment Tax Act provisions; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is hereby memorialized to make the necessary amendments to the Federal Unemployment Tax Act in order that the State of California may make amendments in the Unemployment Insurance Act of this State granting an exemption from the contribution and benefit provisions of the State act to real estate brokers and salesmen; and be it further

Resolved, That copies of this resolution shall immediately be dispatched by the Chief Clerk of the Assembly to the Senators and Representatives in Congress from the State of California.

CHAPTER 134

Assembly Joint Resolution No. 55—Memorializing Congress to enact legislation on social security and old age pensions.

[Filed with Secretary of State June 16, 1941.]

Social Security and old age pensions

WHEREAS, Under the present Social Security Act there are many inequalities due to the varying rates of old age assistance paid in the different States, and such differences in payments have caused much dislocation and confusion among our senior citizens; and

WHEREAS, Many elderly people migrate to the States paying the higher rates of assistance, which increases the tax burden in such States in order to meet the expense of caring for such large numbers of elderly people during the period they must reside in such States to qualify for old age assistance; and

WHEREAS, Many different State laws are being constantly changed and thereby add to the inconvenience, expense and confusion; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of this State hereby indorses the following recommendations of the Congressional Subcommittee on Social Security and Old Age Pensions of the House Conference on Unemployment and respectfully requests the President and the Congress of the United States of America to take the necessary steps at once to enact legislation to put them into effect.

This committee believes that the establishment of an old age pension program which will not only protect against want and insecurity for the older people of America, but will also be means of maintaining a balance between the power to produce and their power to consume is vital to the welfare of the United States.

While the committee believes major emphasis should probably be placed upon old age pensions it recognizes the absolute necessity of continuing and extending the program of aid to dependent children, widowed mothers, the blind and the disabled. We believe that it is not our function to indorse any bill but instead to recommend a general policy to be adopted; and be it further

Resolved, That the Chief Clerk of the Assembly send copies of this resolution to the President, Vice President, to the Speaker of the House of Representatives of the United States of America and to the Senators and Congressmen from California in the Congress of the United States; and be it further

Resolved, That the Senators and Congressmen from California in the Congress of the United States are respectfully requested to urge the legislation set forth in this resolution.

CHAPTER 135

Assembly Joint Resolution No. 60—Relative to condemnation of lands for wildfowl refuge purposes by United States Department of Interior, Fish and Wildlife Service.

[Filed with Secretary of State June 16, 1941.]

Wildfowl refuge

WHEREAS, The United States Government has heretofore acquired by purchase a tract of approximately 11,000 acres of valley land in Glenn and Colusa counties, for a migratory wildfowl refuge; and

WHEREAS, About ten per cent (10%) of this refuge area has been flooded with water creating lakes and ponds leaving approximately 10,000 acres unused or undeveloped; and

WHEREAS, This refuge since its establishment in 1936 and the flooding of only 10 per cent of its area for resting ponds for migratory wildfowl has accumulated wild ducks, geese, snipe, mudhens and other wildfowl in ever-increasing numbers during the early Fall months and before crops of rice, corn and grain are harvested with the result that the farms in the Sacramento Valley have sustained ever-increasing losses to crops before harvest and to stubble feed after harvest; and

WHEREAS, The Fish and Wildlife Service, U. S. Department of Interior, on May 21, 1941, filed a suit in condemnation in the United States District Court at Sacramento for the procurement of 9,273.95 acres of land in the counties of Glenn and Colusa adjoining and to be added to and become a part of the migratory wildfowl refuge aforesaid, thereby taking from the tax rolls of Glenn and Colusa counties more than 20,000 acres of land for refuge purposes situated in the center of the valley; and

WHEREAS, If the Government acquires this additional land for resting grounds for ducks and geese, the rate of loss to farm crops will increase in the Sacramento Valley area in direct ratio to the increase in refuge area with the result that a large area now growing planted crops under irrigation within the feeding range of wildfowl will become worthless; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California hereby declares that the acquiring by the Government of the United States of additional property for wildfowl refuge purposes in the Sacramento Valley in the State of California and the consequent withdrawal of large areas of lands from the tax rolls is against and contrary to the best interests of the State, and respectfully urges the Secretary of the Interior and the Chief of the Department of Fish and Wildlife Service of the United States of America to dismiss the suit filed in the United States District Court at Sacramento on May 21, 1941, in which action the Government seeks to acquire by condemnation 9,273.95 acres of land in Glenn and Colusa counties, California, for additional refuge area to that already acquired and used for refuge purposes.

CHAPTER 136

Assembly Concurrent Resolution No. 21—Relative to peace in industry.

[Filed with Secretary of State June 16, 1941.]

Settlement of industrial disputes

WHEREAS, It is of the highest moment to the safety and well-being of this country that the wheels of industry continue to turn uninterrupted by strikes and other industrial disputes; and

WHEREAS, The laboring people of the United States have an overwhelming stake in the continuance of free institutions, and the stopping of the spread of the menace of dictatorship; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That it is the sense of the Legislature of the State of California that disputes arising in industry, especially in industries essential to the National defense, between employers and employees, should be settled by the mutual good will of the parties, and failing that, that the disputes should be submitted to arbitration; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to forward copies of this resolution to Mr. William Green, President of the American Federation of Labor; Mr. Phillip Murray, President, Congress of Industrial Organizations and to the respective California State heads of those organizations.

In the exercise of the power granted by this rule, each committee may appoint a secretary and adopt such rules as may appear necessary and proper to carry out the powers granted and duties imposed under this rule. The Sergeant-at-Arms of the Senate or Assembly, or other person designated by such Sergeant-at-Arms or by the committee, shall serve any and all subpenas, orders and other process that may be issued by the committee, when directed to do so by the chairman or by a majority of the membership of the committee.

All officers of the State, including the Legislative Counsel and the heads of each department, agency and subdivision thereof, and all employees of such departments, agencies and subdivisions, and all other persons whether connected with the State Government or not, shall give and furnish to these committees upon request such information, records and documents as the committees deem necessary or proper for the achievement of the purposes for which each such committee was created.

Each such committee may either during the session or during the constitutional recess, meet at the State Capitol or at any other place in the State of California and do any and all things necessary or convenient to enable it to exercise the powers and perform the duties herein granted to it and may expend such money as may be made available to it for such purpose; but no committee shall incur any indebtedness unless money shall have been first made available therefor.

The chairman of each committee shall audit and approve the expense claims of the members of the committee and shall certify the amount approved to the Controller, and the Controller shall draw his warrants upon the certification of the chairman.

Assembly Concurrent Resolution No. 52—Relative to improvement of road from State Highway 119, at Paicines to New Idria Mine, in San Benito County.

[Filed with Secretary of State June 16, 1941.]

Road from State Highway 119, at Paicines to New Idria Mine

WHEREAS, During the present period of intensive National rearmament it is of the highest moment to facilitate the production of munitions and explosives; and

WHEREAS, Mercury is indispensable, in the form of fulminate of mercury, in the manufacture of detonators for all forms of explosives; and

WHEREAS, The largest mercury producing mine in the Nation, the New Idria Quicksilver Mining Company, is situated in San Benito County in this State and two new mines are preparing to commence production in the vicinity; and

WHEREAS, The only means of access thereto is by the road from State Highway 119, at Paicines; and

WHEREAS, The said road is in a deplorable condition and during the past winter it was not possible to transport supplies to the mine, which was thereby threatened with a shutdown due to lack of fuel oil, mining timbers, and other necessary material; and

WHEREAS, The entire production of the said mine, amounting to approximately 500 flasks a month, has been contracted for by the United States Government; and

WHEREAS, In order to assure the continuous and dependable delivery of mercury it is necessary that supplies be available at all times during the Winter season; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Division of Highways of the State Department of Public Works is hereby directed to request the appropriate agencies of the United States Government, including the Bureau of Public Roads and the Office of Production Management, to incorporate this highway project in the Military Access Road Program because of its strategic location and the value of the resources it would make available; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Public Works, the Bureau of Public Roads, and the Office of Production Management.

CHAPTER 139

Assembly Concurrent Resolution No. 59—Relative to the provisions of Sections 10, 11 and 12 of the Budget Act of 1941, and the transfer of funds pursuant thereto.

[Filed with Secretary of State June 16, 1941.]

Budget Bill Transfer of funds

Resolved by the Assembly of the State of California, the Senate thereof concurring, That it is the intent of the Legislature in considering and acting upon the Budget Act of 1941 (Assembly Bill No. 1800 of the Fifty-fourth Session of the Legislature), and particularly in including therein the provisions of Sections 10, 11 and 12 thereof, to permit transfers of unneeded funds from one institution to another within the Department of Institutions, from one State school or college to another within the Department of Education, and from one State prison to another, upon and subject to the following conditions, limitations and restrictions:

(1) If the transfer is from an item for support it must be to an item for support, not to an item for construction, improvement and equipment;

(2) If the transfer is from an item for construction, improvement and equipment, it must be to an item for construction, improvement and equipment, not to an item for support;

(3) If the item from which the transfer is made is one to which a schedule of limitations (Salaries and Wages, Operating Expenses, Equipment) is appended, the State Board of Control at the time of authorizing the transfer shall specify the purpose (Salaries and Wages, Operating Expenses, or Equipment) for which the funds to be transferred are not needed, whereupon the amount of money limited in such schedule for said purpose is automatically and forthwith reduced in the amount of said transfer;

(4) If the item to which the transfer is made is one to which such a schedule of limitations is appended, the funds transferred shall be available for expenditure solely for the same type of purpose (Salaries and Wages, Operating Expenses, or Equipment) as the purpose in respect to which the limitation in the schedule under the item from which the transfer being made is reduced; but after the transfer none of such funds shall become available for expenditure unless and until augmentation of the amount limited for such purpose (in the schedule appended to the item to which the transfer is made) is authorized by unanimous vote of the State Board of Control pursuant to and upon compliance with all of the provisions of Section 13.5 of said Budget Act; and be it further

Resolved, That in its monthly report submitted pursuant to the provisions of Section 13.5 of said act, the State Board of Control include a report of all authorizations given by it pursuant to any of the provisions of Sections 10, 11 and 12

of said act, including therein such information regarding each such authorization as shall be sufficient to apprise the members of the Legislature as to the reasons and necessity therefor; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of Finance, the State Controller, and each member of the State Board of Control.

CHAPTER 140

Assembly Concurrent Resolution No. 60—Relative to civics textbooks for use in the public schools.

[Filed with Secretary of State June 16, 1941]

Civics textbooks for public schools

WHEREAS, The Legislature at its Fifty-fourth Session has passed Assembly Bill No. 93, relating to the teaching of civics in elementary schools, which bill will add a section to the School Code as follows:

"6.261a. The State Board of Education shall include in textbooks and teachers' manuals adopted for prescribed subjects a textbook for use in elementary schools for the teaching of civics, particularly the Declaration of Independence and the Constitution of the United States. This textbook shall be in simple form and suited to the comprehension of the pupils"; and

WHEREAS, It further appears that the civics textbooks used in the higher grades are deficient in that they do not provide the students with an adequate concept of the Constitution of the United States and of this State, the Declaration of Independence, or of the principles upon which our form of government is based; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the textbook prepared pursuant to Section 6.261a of the School Code shall be printed in large readable type and in language that will be easily understood by students in the third to sixth grades, inclusive, and that the textbook shall include the following:

(c) A clear and unbiased exposition of the principles of the form of government of the United States including an explanation of the provisions of the Constitution of the United States.

(d) An explanation of the functions, powers, and duties, and the division of responsibility between the Federal, State, and local governments; and be it further

Resolved, That the State Board of Education is also requested to provide for a revision of the civics textbooks used in the higher grades to the end that the students will have a thorough understanding of the Constitution of the United

States and of this State, the Declaration of Independence and of the principles and theories upon which our form of government is based; and be it further

Resolved, That a copy of this resolution shall be transmitted by the Chief Clerk to the State Superintendent of Public Instruction and to each member of the State Board of Education.

CHAPTER 141

The committee shall conduct such studies and investigations as to any such matters, and report thereon to the Legislature, as the committee shall determine.

The committee is further authorized to collaborate with and assist any other interim committee of the Legislature, or of either house, in the accomplishment of the purposes of such other committee, upon the request of the latter.

The enumeration herein of specific duties and powers is not intended and shall not be construed as a withdrawal or diminution of any of the powers conferred upon the Legislative Budget Committee by the provisions of Joint Rule No. 36.

CHAPTER 142

Senate Constitutional Amendment No. 8—A resolution to propose to the people of the State of California an amendment to the Constitution of said State by adding Section 1b to Article IV thereof, relating to the power of the Legislature or the people (1) to confer power on administrative officers, boards or commissions to make decisions, and (2) to provide for appropriate judicial review of such decisions.

[Filed with Secretary of State June 16, 1941.]

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California, at its Fifty-fourth Regular Session commencing on the sixth day of January, 1941, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that Section 1b be added to Article IV of the Constitution, to read as follows: Constitution, Art IV Sec 1b

Sec 1b. Nothing in this Constitution shall be construed as denying to the Legislature power to vest in administrative officers, boards, commissions or agencies authority to decide, in the first instance, any questions of law or fact upon which the exercise of any function conferred upon them by law depends or power to provide that a finding of fact made by any administrative officer, board, commission or agency in the exercise of his or its functions shall not be set aside by any court if there is substantial evidence to support it. When any city or city and county, which has adopted or shall adopt a charter in pursuance of this Constitution, has provided or shall provide by charter, by any amendment thereof, or by ordinance, that decisions of questions of fact made by any administrative officer, board, commission or agency in respect to municipal affairs shall be final, no court of this State shall have power to set aside such finding of fact if there is substantial evidence to support it. Nothing in this section shall be construed as limiting the power of any county, city, or city and county under this Constitution to make and enforce within its limits local, police, sanitary and other regulations and, when not in conflict with general law, to provide by ordinance that decisions of questions of fact made by any administrative officer, board, commission or agency shall be final. Administrative determination of facts

The Legislature is hereby vested with plenary power, unlimited by any provision of this Constitution except as provided in this section, to prescribe procedures by which judicial review of decisions of administrative officers, boards, commissions or agencies may be obtained and the scope of review which the reviewing court may give, including power to make any prescribed review either alternative to or exclusive of any review the courts are now authorized to give, and for these purposes the Legislature shall have plenary power to enlarge or restrict the jurisdiction of any court of this State; Review of administrative decisions

provided, however, that any enlargement of the original jurisdiction of the Supreme Court shall be subject to the power given that court by Section 4c of Article VI of this Constitution. Review by any court of any administrative decision may be reviewed in any higher court in the manner and to the extent that the Legislature may prescribe.

No court of this State except the Supreme Court shall have power to review any order or decision of the State Railroad Commission; and no court of this State except an appellate court shall have power to review any decision or award of the Industrial Accident Commission.

CHAPTER 143

Reapportionment Commission

Each subsequent reapportionment shall carry out these provisions and shall be based upon the last preceding Federal census But in making such adjustments no persons who are not eligible to become citizens of the United States, under the naturalization laws, shall be counted as forming a part of the population of any district Until such districting as herein provided for shall be made, Senators and Assemblymen shall be elected by the districts according to the apportionment now provided for by law.
