(3) If a consolidated return is made subject to the provisions of this section, the tax imposed under this act shall be computed as a unit upon the consolidated net income of the group except as hereinafter provided. The parent corporation and each subsidiary, a member of the group during any part of a consolidated Computation of tax

period, shall be severally liable for the tax (including any deficiency in respect thereof) computed upon the consolidated net income of the group. If a subsidiary by reason of a bona fide sale of stock for fair value has ceased to be a member of the affiliated group, its liability shall remain unchanged, except that if such cessation occurred prior to the date upon which any such deficiency is assessed, such deficiency, in the case of such former subsidiary, shall be reduced to an amount equal to such part as may be allocable to it upon the basis of the consolidated net income properly assignable to it. In no case, however, shall any demand for the payment of any deficiency be made, or any proceeding in court for the collection thereof be begun against such former subsidiary prior to the determination by the commissioner that the amount of the deficiency can not be collected from the parent corporation and the corporations (if any) remaining members of the affiliated group.

Commencement of business after effective date of act

Where a member of an affiliated group filing a consolidated return is a corporation commencing to do business in this State for the first time after the effective date of this act, its tax for its first and second taxable years shall be computed without regard to this section but in accordance with the provisions of Section 13 of this act. The tax of the remaining members of the group for the taxable year succeeding the year in which such corporation commenced to do business shall be computed as if such corporation were not a member of the affiliated group.

"Affiliated group"

(4) As used in this section an "affiliated group" means one or more chains of corporations connected through stock ownership with a common parent corporation if during the period when the income was accrued or realized and on the sixteenth day of the first month after the close of the income year—

(a) At least 95 per centum of the stock of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations; and

(b) The common parent corporation owns directly at least 95 per centum of the stock of at least one of the other corporations; and

(c) Each of the corporations is either (1) a corporation whose principal business is that of a common carrier by railroad or (2) a corporation the assets of which consist principally of stock in such corporations and which does not itself operate a business other than that of a common carrier by railroad. For the purpose of determining whether the principal business of a corporation is that of a common carrier by railroad, if a common carrier by railroad has leased its railroad properties and such properties are operated as such by another common carrier by railroad, the business of receiving rents for such railroad properties shall be considered as the business of a common carrier by railroad.

"Stock"

As used in this subsection (except in paragraph (c)) the term "stock" does not include nonvoting stock which is limited and preferred as to dividends.

SEC. 9. Section 14.1 is hereby added to the Bank and Corporation Franchise Tax Act: New section

Sec. 14.1. (a) If (1) any person or persons acquire, on or after October 8, 1940, directly or indirectly, control of a corporation, or (2) any corporation acquires, on or after October 8, 1940, directly or indirectly, property of another corporation, not controlled, directly or indirectly, immediately prior to such acquisition, by such acquiring corporation or its stockholders, the basis of which property, in the hands of the acquiring corporation, is determined by reference to the basis in the hands of the transferor corporation, and the principal purpose for which such acquisition was made is evasion or avoidance of tax under this act by securing the benefit of a deduction or other allowance which such person or corporation would not otherwise enjoy, then such deduction or other allowance shall not be allowed. For the purposes of clauses (1) and (2), control means the ownership of stock possessing at least 50 per centum of the total combined voting power of all classes of stock entitled to vote or at least 50 per centum of the total value of shares of all classes of stock of the corporation. Basis of computation of acquired property

(b) In any case to which subsection (a) is applicable the commissioner is authorized—

(1) To allow as a deduction or allowance any part of any amount disallowed by such subsection, if he determines that such allowance will not result in the evasion or avoidance of tax for which the acquisition was made; or

(2) To distribute, apportion, or allocate gross income, and distribute, apportion, or allocate the deductions or allowances the benefit of which was sought to be secured, between or among the corporations, or properties, or parts thereof, involved, and to allow such deductions or allowances so distributed, apportioned, or allocated, but to give effect to such allowance only to such extent as he determines will not result in the evasion or avoidance of tax for which the acquisition was made; or

(3) To exercise his powers in part under paragraph (1) and in part under paragraph (2).

SEC. 10. Section 17 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows: Stats. 1943, p. 1403

Sec. 17. (1) Whenever, in the opinion of the commissioner, the use of inventories is necessary clearly to determine the income of any taxpayer, inventory shall be taken by such taxpayer upon such basis as the commissioner may prescribe, conforming as nearly as may be to the best accounting practice and most clearly reflecting the income. Inventories

(2) (A) A taxpayer may use the following method (whether or not such method has been prescribed under subdivision (1)) in inventorying goods specified in the application required under paragraph (B): (1) Inventory them at cost; (2) Treat those remaining on hand at the close of the income year as being: First, those included in the opening inventory of the income year (in order of acquisition) to the extent thereof, and second, Permissible method of making inventory

those acquired in the income year; and (3) Treat those included in the opening inventory of the income year in which such method is first used as having been acquired at the same time and determine their cost by the average cost method.

(B) The method described in paragraph (A) may be used (1) only in inventorying goods (required under subdivision (1) to be inventoried) specified in an application to use such method filed at such time and in such manner as the commissioner may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the commissioner that the taxpayer has used no procedure other than that specified in subparagraphs (2) and (3) of paragraph (A) in inventorying such goods to ascertain the income, profit, or loss of the first income year for which the method described in paragraph (A) is to be used, for the purpose of a report or statement covering such income year (i) to shareholders, partners, or other proprietors, or to beneficiaries, or (ii) for credit purposes.

(C) The change to, and the use of, such method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(D) In determining income for the income year preceding the income year for which such method is first used, the closing inventory of such preceding year of the goods specified in such application shall be at cost.

(E) If a taxpayer, having complied with paragraph (B), uses the method described in paragraph (A) for any income year, then such method shall be used in all subsequent income years unless with the approval of the commissioner a change to a different method is authorized; or the commissioner determines that the taxpayer has used for any such subsequent income year some procedure other than that specified in (2) of paragraph (A) in inventorying the goods specified in the application to ascertain the income, profit, or loss of such subsequent income year for the purpose of a report or statement covering such income year (i) to shareholders, partners, or other proprietors, or beneficiaries, or (ii) for credit purposes; and requires a change to a method different from that prescribed in paragraph (1) beginning with such subsequent income year or any income year thereafter.

In either of the above cases, the change to, and the use of, the different method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(3) (A) If, for any income year beginning after December 31, 1942, and prior to the termination of the present war as proclaimed by the President of the United States, the closing inventory of a taxpayer inventorying goods under the method provided in this subsection reflects a decrease from the opening inventory of such goods for such year, and if, at the time of the filing of the taxpayer's income tax return for such year, the taxpayer elects to have the provisions of this paragraph

Decrease
due to
involuntary
liquidation

apply and so notifies the commissioner, and if, at the time of such election, it is established to the satisfaction of the commissioner, in accordance with such regulations as the commissioner may prescribe, that such decrease is attributable to the involuntary liquidation of such inventory as defined in subparagraph (B), and if the closing inventory of a subsequent income year, ending not more than three years after the termination of the present war as proclaimed by the President, reflects a replacement, in whole or in part, of the goods so previously liquidated, the net income of the taxpayer otherwise determined for the year of such involuntary liquidation shall be adjusted as follows:

(i) Increased by an amount equal to the excess, if any, of the aggregate cost of such goods reflected in the opening inventory of the year of involuntary liquidation over the aggregate replacement cost; or

(ii) Decreased by an amount equal to the excess, if any, of the aggregate replacement cost of such goods over the aggregate cost thereof reflected in the opening inventory of the year of the involuntary liquidation.

The taxes imposed by this act for the year of such liquidation and for all income years intervening between such year and the year of replacement shall be redetermined, giving effect to such adjustments. Any increase in such taxes resulting from such adjustments shall be assessed and collected as a deficiency but without interest, and any overpayment so resulting shall be credited or refunded to the taxpayer without interest.

(B) The term "involuntary liquidation," as used in this paragraph, means the sale or other disposition of goods inventoried under the method described in this subsection, either voluntary or involuntary, coupled with a failure on the part of the taxpayer to purchase, manufacture, or otherwise produce and have on hand at the close of the income year in which such sale or other disposition occurred such goods as would, if on hand at the close of such income year, be subject to the application of the provisions of this subsection, if such failure on the part of the taxpayer is due, directly and exclusively, (i) to enemy capture or control of sources of limited foreign supply; (ii) to shipping or other transportation shortages; (iii) to material shortages resulting from priorities or allocations; (iv) to labor shortages; or (v) to other prevailing war conditions beyond the control of the taxpayer.

"Involuntary
liquidation"

(C) If, in the case of any taxpayer subject to the provisions of subparagraph (A), the closing inventory of the taxpayer for an income year, subsequent to the year of involuntary liquidation but prior to the complete replacement of the goods so liquidated, reflects an increase over the opening inventory of such goods for the income year, the goods reflecting such increase shall be considered, in the order of their acquisition, as having been acquired in replacement of the goods most recently liquidated (whether or not in a year of involuntary liquidation)

and not previously replaced, and if the liquidation was an involuntary liquidation shall be taken into purchases and included in the closing inventory of the taxpayer for the year of replacement at the inventory cost basis of the goods replaced.

(D) An election by the taxpayer to have the provisions of this paragraph apply, once made, shall be irrevocable and shall be binding for the year of the involuntary liquidation and for all determinations for subsequent income years insofar as they are related to the year of liquidation or replacement.

(E) If the adjustments specified in subparagraph (A) are, with respect to any income year, prevented, on the date of the filing of the income tax return of the taxpayer for the year of the replacement, or within three years from such date, by any provision or rule of law (other than this subparagraph), such adjustments shall nevertheless be made if, in respect of the income year for which the adjustment is sought, a notice of deficiency is mailed or a claim for refund is filed, as the case may be, within three years after the date of the filing of the income tax return for the year of replacement. If, at the time of the mailing of such notice of deficiency or the filing of such claim for refund, the adjustment is so prevented, then the amount of the adjustment authorized by this paragraph shall be limited to the increase or decrease of the tax imposed by this act previously determined for such income year which results solely from the effect of subparagraph (A), and such amount shall be assessed and collected, or credited or refunded, in the same manner as if it were a deficiency or an overpayment, as the case may be, for such income year and as if, on the date of the filing of the income tax return for the year of the replacement, three years remain before the expiration of the periods of limitation upon assessment or the filing of claim for refund for the income year. The tax previously determined shall be ascertained in accordance with rules and regulations prescribed by the commissioner. The amount to be assessed and collected under this paragraph in the same manner as if it were a deficiency or to be credited or refunded in the same manner as if it were an overpayment shall not be diminished by any credit or set-off based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of subparagraph (A). Such amount, if paid, shall not be recovered by a claim or suit for refund, or suit for erroneous refund based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of subparagraph (A).

Recognition
of gain or
loss on sale
or exchange

Exceptions

SEC. 11. Section 20 of the Bank and Corporation Franchise Tax Act is hereby amended as follows:

Sec. 20. (a) Upon the sale or exchange of property the entire amount of the gain or loss, determined under Section 19, shall be recognized, except as hereinafter provided in this section.

(b) (1) No gain or loss shall be recognized if property held for productive use in trade or business or for investment (not

including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

(2) No gain or loss shall be recognized if common stock in a corporation is exchanged solely for common stock in the same corporation, or if preferred stock in a corporation is exchanged solely for preferred stock in the same corporation.

(3) No gain or loss shall be recognized if stock or securities in a corporation a party to a reorganization are, in pursuance of the plan of reorganization, exchanged solely for stock or securities in such corporation or in another corporation a party to the reorganization.

(4) No gain or loss shall be recognized if a corporation a party to a reorganization exchanges property, in pursuance of the plan of reorganization, solely for stock or securities in another corporation a party to the reorganization.

(5) No gain or loss shall be recognized if property is transferred to a corporation by one or more taxpayers solely in exchange for stock or securities in such corporation, and immediately after the exchange such taxpayer or taxpayers are in control of the corporation; but in the case of an exchange by two or more taxpayers this paragraph shall apply only if the amount of the stock and securities received by each is substantially in proportion to its interest in the property prior to the exchange. Where the transferee assumes a liability of a transferor, or where the property of a transferor is transferred subject to a liability, then for the purpose only of determining whether the amount of stock or securities received by each of the transferors is in the proportion required by this paragraph, the amount of such liability (if under subsection (k) it is not to be considered as other property or money) shall be considered as stock or securities received by such transferor.

(6) No gain or loss shall be recognized upon the receipt by a corporation of property distributed in complete liquidation of another corporation. For the purposes of this paragraph a distribution shall be considered to be in complete liquidation only if:

(A) The corporation receiving such property was, on the date of the adoption of the plan of liquidation, and has continued to be at all times until the receipt of the property, the owner of stock (in such other corporation) possessing at least 80 per centum of the total combined voting power of all classes of stock entitled to vote and the owner of at least 80 per centum of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends), and was at no time on or after the date of the adoption of the plan of liquidation and until the receipt of the property the owner of a greater percentage of any class of stock than the

percentage of such class owned at the time of the receipt of the property; and

(B) No distribution under the liquidation was made before the first day of the first taxable year of the corporation beginning after December 31, 1935; and either

(C) The distribution is by such other corporation in complete cancellation or redemption of all its stock, and the transfer of all the property occurs within the income year; in such case the adoption by the shareholders of the resolution under which is authorized the distribution of all the assets of such corporation in complete cancellation or redemption of all its stock, shall be considered an adoption of a plan of liquidation, even though no time for the completion of the transfer of the property is specified in such resolution; or

(D) Such distribution is one of a series of distributions by such other corporation in complete cancellation or redemption of all its stock in accordance with a plan of liquidation under which the transfer of all the property under the liquidation is to be completed within three years from the close of the taxable year during which is made the first of the series of distributions under the plan, except that if such transfer is not completed within such period, or if the taxpayer does not continue qualified under subparagraph (A) until the completion of such transfer, no distribution under the plan shall be considered a distribution in complete liquidation.

If such transfer of all the property does not occur within the income year the commissioner may require of the taxpayer such bond, or waiver of the statute of limitations on assessment and collection, or both, as he may deem necessary to insure, if the transfer of the property is not completed within such three-year period, or if the taxpayer does not continue qualified under subparagraph (A) until the completion of such transfer, the assessment and collection of all taxes imposed by this act then due or to become due, to the extent attributable to property so received. A distribution otherwise constituting a distribution in complete liquidation within the meaning of this paragraph shall not be considered as not constituting such a distribution merely because it does not constitute a distribution or liquidation within the meaning of the corporate law under which the distribution is made; and for the purposes of this paragraph a transfer of property of such other corporation to the taxpayer shall not be considered as not constituting a distribution (or one of a series of distributions) in complete cancellation or redemption of all the stock of such other corporation, merely because the carrying out of the plan involves (i) the transfer under the plan to the taxpayer by such other corporation of property, not attributable to shares owned by the taxpayer, upon an exchange described in paragraph (4) of this subsection, and (ii) the complete cancellation or redemption under the plan, as a result of exchanges described in paragraph (3) of this subsection, of the shares not owned by the taxpayer.

(7) No gain or loss shall be recognized to a shareholder from a distribution of stocks or securities in liquidation of a corporation made pursuant to an order of the Federal Securities and Exchange Commission under authority vested in it by that act of Congress known as the Public Utility Holding Company Act of 1935 as amended.

(8) No loss shall be recognized if property of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, is transferred, after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership proceeding, or

(B) In a proceeding under Section 77 of the National Bankruptcy Act, as amended, to a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding. The term "reorganization," as used in this paragraph shall not be limited by the definition of such term in subsection (g).

(9) No gain or loss shall be recognized if property of a corporation (other than a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended) is transferred in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership, foreclosure, or similar proceeding, or

(B) In a proceeding under Section 77B or Chapter X of the National Bankruptcy Act, as amended, to another corporation organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, in exchange solely for stock or securities in such other corporation.

(c) (1) If an exchange would be within the provisions of subsection (b) (1), (2), (3), or (5), or within the provisions of subsection (L), of this section if it were not for the fact that the property received in exchange consists not only of property permitted by subsection (b) (1), (2), (3), or (5), or by subsection (L) to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

Exchange
Recognition
of gain or
loss

(2) If a distribution made in pursuance of a plan of reorganization is within the provisions of paragraph (1) of this subsection but has the effect of the distribution of a taxable dividend, then there shall be treated as a dividend to each distributee such an amount of the gain recognized under paragraph (1) as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under paragraph (1) shall be treated as a gain from the exchange of property.

Same

(d) If an exchange would be within the provisions of subsection (b) (4) or (9) of this section if it were not for the fact that the property received in exchange consists not only of stock or securities permitted by such paragraph to be received without the recognition of gain, but also of other property or money, then:

(1) If the corporation receiving such other property or money distributes it in pursuance of the plan of reorganization, no gain to the corporation shall be recognized from the exchange, but

(2) If the corporation receiving such other property or money does not distribute it in pursuance of the plan of reorganization, the gain, if any, to the corporation shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property so received, which is not so distributed.

Same

(e) If an exchange would be within the provisions of subsection (b) (1) to (5), or (9), or within the provisions of subsection (L), inclusive, of this section if it were not for the fact that the property received in exchange consists not only of property permitted by such paragraphs to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

Compulsory
or involuntary
conversion

(f) If property (as a result of its destruction in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation, or the threat or imminence thereof) is compulsorily or involuntarily converted into property similar or related in service or use to the property so converted, or into money which is forthwith in good faith, under regulations prescribed by the commissioner, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund, no gain shall be recognized, but loss shall be recognized. If any part of the money is not so expended, the gain, if any, shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more income years and regardless of whether or not the money which is not so expended constitutes gain).

Definitions

(g) As used in this section (other than subsection (b) (9) and subsection (L)) and Section 21 (other than subsection (a) (19)):

"Reorganiza-
tion"

(1) The term "reorganization" means (A) a statutory merger or consolidation, or (B) the acquisition by one corporation in exchange solely for all or a part of its voting stock: Of at least 80 per centum of the voting stock and at least 80 per centum of the total number of shares of all other classes of stock of another corporation; or of substantially all the properties of another corporation, but in determining whether the exchange is solely for voting stock, the assumption by the acquiring corporation of a liability of another, or the fact that property acquired is subject to a liability, shall be disregarded, or (C)

a transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor or its shareholders or both are in control of the corporation to which the assets are transferred, or (D) a recapitalization, or (E) a mere change in identity, form, or place of organization, however effected.

(2) The term "a party to a reorganization" includes a corporation resulting from a reorganization and includes both corporations in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another. "Party to reorganization"

(h) As used in this section the term "control" means the ownership of stock possessing at least 80 per centum of the total combined voting power of all classes of stock entitled to vote and at least 80 per centum of the total number of shares of all other classes of stock of the corporation. "Control"

(i) In determining the extent to which gain shall be recognized in the case of any of the exchanges (made after the date of the enactment of this act) described in subsection (b) (3), (4), (5), or (6), or described in so much of subsection (c) as refers to subsection (b) (3) or (5), or described in subsection (d), a corporation created or organized in a foreign country shall not be considered as a corporation unless, prior to such exchange, it has been established to the satisfaction of the commissioner that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of income taxes or franchise taxes imposed by this State. Recognition of gain in case of exchange

(j) For nonrecognition of gain or loss in the case of installment obligations, see Section 19 (e) (4). Installment obligations

(k) Where, upon an exchange, the taxpayer receives as part of the consideration property which would be permitted by subsection (b) (4) or (5) or (9) of this section to be received without the recognition of gain if it were the sole consideration, and as part of the consideration another party to the exchange assumes a liability of the taxpayer or acquires from the taxpayer property subject to a liability, such assumption or acquisition shall not be considered as "other property or money" received by the taxpayer within the meaning of subsection (c), (d) or (e) of this section and shall not prevent the exchange from being within the provisions of subsection (b) (4) or (5) or (9); except that if, taking into consideration the nature of the liability and the circumstances in the light of which the arrangement for the assumption or acquisition was made, it appears that the principal purpose of the taxpayer with respect to the assumption or acquisition was a purpose to avoid State tax on the exchange, or, if not such purpose, was not a bona fide business purpose, such assumption or acquisition (in the amount of the liability) shall, for the purposes of this section, be considered as money received by the taxpayer upon the exchange. In any suit or proceeding where the burden is on the taxpayer to prove that such assumption or acquisition is not to be considered as money received by the taxpayer, such burden Liability

shall not be considered as sustained unless the taxpayer sustains such burden by the clear preponderance of the evidence.

Reorganiza-
tion approved
by court

(l) No gain or loss shall be recognized upon an exchange consisting of the relinquishment or extinguishment of stock or securities in a corporation the plan of reorganization of which is approved by the court in a proceeding described in subsection (b) (9), in consideration of the acquisition solely of stock or securities in a corporation organized or made use of to effectuate such plan of reorganization.

Certification
by Federal
Communications
Commission

(m) If the sale or exchange of property (including stock in a corporation) is certified by the Federal Communications Commission to be necessary or appropriate to effectuate the policies of the commission with respect to the ownership and control of radio broadcasting stations, such sale or exchange shall, if the taxpayer so elects, be treated as an involuntary conversion of such property within the meaning of subsection (f) of this section. For the purposes of subsection (f) of this section as made applicable by the provisions of this subsection, stock of a corporation operating a radio broadcasting station, whether or not representing control of such corporation, shall be treated as property similar or related in service or use to the property so converted. The part of the gain, if any, upon such sale or exchange to which subsection (f) of this section is not applied shall nevertheless not be recognized, if the taxpayer so elects, to the extent that it is applied to reduce the basis for determining gain or loss upon sale or exchange of property, of a character subject to the allowance for depreciation under Section 8 (f), remaining in the hands of the taxpayer immediately after the sale or exchange, or acquired in the same taxable year. The manner and amount of such reduction shall be determined under regulations prescribed by the commissioner. Any election made by the taxpayer under this subsection shall be made by a statement to that effect in the return for the income year in which the sale or exchange takes place and such election shall be binding for the income year and all subsequent income years.

p 1403

SEC. 12. Section 21 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Cost of
property
as basis for
determina-
tion of gain
or loss

Sec. 21. (a) The basis of property shall be the cost of such property; except that:

(1) If the property should have been included in the last inventory, the basis shall be the last inventory value thereof.

(2) If the property was acquired by gift after December 31, 1920, the basis shall be the same as it would be in the hands of the donor or the last preceding owner by whom it was not acquired by gift, except that if such basis (adjusted for the period prior to the date of the gift as provided in subsection (b)) is greater than the fair market value of the property at the time of the gift, then for the purpose of determining loss the basis shall be such fair market value. If the facts necessary to determine the basis in the hands of the donor or the last preceding owner are unknown to the donee, the commissioner shall, if possible, obtain such facts from such donor or last preceding

owner, or any other person cognizant thereof. If the commissioner finds it impossible to obtain such facts, the basis in the hands of such donor or last preceding owner shall be the fair market value of such property as found by the commissioner as of the date or approximate date at which, according to the best information that the commissioner is able to obtain, such property was acquired by such donor or last preceding owner.

(3) If the property was acquired after December 31, 1920, by a transfer in trust (other than by a transfer in trust by a gift, bequest or devise) the basis shall be the same as it would be in the hands of the grantor, increased in the amount of gain or decreased in the amount of loss recognized to the grantor upon such transfer under the law applicable to the year in which the transfer was made.

(4) If the property was acquired, after February 28, 1913, upon an exchange described in Section 20 (b) to (e), inclusive, or Section 20 (L), the basis (except as provided in paragraph (12) of this subsection) shall be the same as in the case of the property exchanged, decreased in the amount of any money received by the taxpayer and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized upon such exchange under the law applicable to the year in which the exchange was made. If the property so acquired consisted in part of the type of property permitted by Section 20 (b) or Section 20 (L) to be received without the recognition of gain or loss, and in part of other property, the basis provided in this paragraph shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. Where, as part of the consideration to the taxpayer, another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for the purposes of this paragraph, be considered as money received by the taxpayer upon the exchange. This paragraph shall not apply to property acquired by a corporation by the issuance of its stock or securities as the consideration in whole or in part for the transfer of the property to it.

(5) If the property was acquired :

(A) After December 31, 1917, and in an income year beginning before January 1, 1936, by a corporation in connection with a reorganization, and immediately after the transfer an interest or control in such property of 50 per centum or more remained in the same persons or any of them, or

(B) In an income year beginning after December 31, 1935, by a corporation in connection with a reorganization, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was

made. This paragraph shall not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the issuance of stock or securities of the transferee as the consideration in whole or in part for the transfer.

(6) If the property was acquired after December 31, 1920, by a corporation:

(A) By the issuance of its stock or securities in connection with a transaction described in Section 20 (b) (5) of this act or Section 9.2 (b) (4) of The Personal Income Tax Act or Section 11 (b) (5) of the Corporation Income Tax Act (including, also, cases where part of the consideration for the transfer of such property to the corporation was property or money, in addition to such stock or securities), or

(B) As paid-in surplus or as a contribution to capital, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was made.

(7) If the property was acquired, after February 28, 1913, as the result of a compulsory or involuntary conversion described in Section 20 (f), the basis shall be the same as in the case of the property so converted, decreased in the amount of any money received by the taxpayer which was not expended in accordance with the provisions of law (applicable to the year in which such conversion was made) determining the taxable status of the gain or loss upon such conversion, and increased in the amount of gain or decreased in the amount of loss to the taxpayer recognized upon such conversion under the law applicable to the year in which such conversion was made.

(8) If the property consists of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility (under Section 8 (d) of this act, relating to wash sales) of the loss from the sale or other disposition of substantially identical stock or securities, then the basis shall be the basis of the stock or securities so sold or disposed of, increased or decreased, as the case may be, by the difference, if any, between the price at which the property was acquired and the price at which such substantially identical stock or securities were sold or otherwise disposed of.

(9) In the case of property acquired by a corporation, during a period of affiliation, from a corporation with which it was affiliated, the basis of such property, after such period of affiliation, shall be determined, in accordance with regulations prescribed by the commissioner without regard to intercompany transactions in respect of which gain or loss was not recognized. The basis in case of property acquired by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Section 13½ of this act or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932

or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, shall be determined in accordance with regulations prescribed under Section 13 $\frac{1}{2}$ of this act or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936. The basis in the case of property held by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Section 13 $\frac{1}{2}$ of this act or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, shall be adjusted in respect of any items relating to such period, in accordance with regulations prescribed under Section 13 $\frac{1}{2}$ of this act or Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, applicable to such period.

(10) If the property was acquired, after February 28, 1913, in any income year beginning prior to January 1, 1934, and the basis thereof, for the purposes of the Revenue Act of 1932 was prescribed by Section 113 (a) (6), (7), or (9) of such act, then for the purposes of this act the basis shall be the same as the basis therein prescribed in the Revenue Act of 1932.

(11) In the case of property acquired before March 1, 1913, if the basis otherwise determined under this subsection, adjusted (for the period prior to March 1, 1913) as provided in subsection (b), is less than the fair market value of the property as of March 1, 1913, then the basis for determining gain shall be such fair market value. In determining the fair market value of stock in a corporation as of March 1, 1913, due regard shall be given to the fair market value of the assets of the corporation as of that date.

(12) If the property was received by a corporation upon a distribution in complete liquidation of another corporation within the meaning of Section 20 (b) (6), then the basis shall be the same as it would be in the hands of the transferor.

(13) Whenever a corporation has realized gain or loss upon the receipt after January 1, 1928, at a time when it was subject to a tax under this act measured by income, of all or substantially all of the business or property of a corporation over which it exercised control within the meaning of subsection 20 (h), and such gain or loss actually was not taken into account in the computation of taxes imposed by this act, the basis of the property or business acquired shall be the same as it was in the hands of the transferor.

(14) If the property was acquired after February 28, 1913, in any income year beginning prior to January 1, 1937, and the basis thereof, for the purposes of the Federal Revenue Act of 1934 was prescribed by Section 113 (a) (6), (7), or (8) of such act, then for the purposes of this act the basis shall be the same as the basis therein prescribed in the Federal Revenue Act of 1934.

(15) (A) If the property was acquired by a shareholder in a corporation and consists of rights to acquire stock in such cor-

poration acquired by him after February 28, 1913, in a distribution by such corporation, and (1) the right to acquire such stock was acquired in an income year beginning before January 1, 1937 (except as provided in subparagraph (B)), or (2) the right to acquire such stock was acquired in an income year beginning after December 31, 1933, and its distribution did not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States, then the basis of the stock in respect of which the rights were declared and the right to acquire stock, respectively, shall, in the shareholder's hands be determined by allocating between the stock and the right to acquire stock the adjusted basis of the stock, such allocation to be made under regulations which shall be prescribed by the commissioner.

(B) If a stock right was acquired prior to January 1, 1928, and it constituted income within the purview of the Sixteenth Amendment to the Constitution of the United States, the basis of the stock in respect of which the rights were declared shall not be affected and the basis of the right shall be its fair market value as of the date of its acquisition.

(C) Where the shareholder acquired the right to acquire such stock in an income year beginning before January 1, 1943, and sold the same, and there was included in the gross income for such year of sale the entire amount of the proceeds of such sale, then if before the effective date of the 1943 amendments to this act the taxpayer has not asserted (by claim for a refund or credit or otherwise) that any part of the proceeds of the sale of such rights should be excluded from gross income for the year of its sale, the basis of the stock shall be determined without regard to paragraphs (A) and (B), and no part of the proceeds of the sale of such rights shall ever be excluded from the gross income for the year of such sale.

(16) If the property of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, was acquired after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership proceeding, or

(B) In a proceeding under Section 77 of the National Bankruptcy Act, as amended,

and the acquiring corporation is a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, the basis shall be the same as it would be in the hands of the railroad corporation whose property was so acquired. The term "reorganization," as used in this paragraph, shall not be limited by the definition of such term in Section 20 (g).

(17) If the property of any street, suburban, or interurban electric railway corporation engaged as a common carrier in the transportation of persons or property in interstate commerce was acquired after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation in a pro-

ceeding under Section 77B of the National Bankruptcy Act, as amended, and the acquiring corporation is a street, suburban, or interurban electric railway engaged as a common carrier in the transportation of persons or property in interstate commerce, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, then, notwithstanding the provisions of Section 270 of Chapter X of the National Bankruptcy Act, as amended, the basis, for any income year beginning after December 31, 1942, shall be the same as it would be in the hands of the corporation whose property was so acquired. The term "reorganization," as used in this paragraph, shall not be limited by the definition of such term in Section 20 (g).

(18) In the case of stocks or securities received by a taxpayer on or after January 1, 1943, under circumstances described in Section 20 (b) (7), the basis of such stocks or securities shall be the same as that of the stocks or securities for the surrender of which they were acquired.

(19) If the property was acquired by a corporation upon a transfer to which Section 20 (b) (9), or so much of Section 20 (d) or (e) as relates to Section 20 (b) (9), is applicable, the basis in the hands of the acquiring corporation shall be the same as it would be in the hands of the corporation whose property was so acquired, increased in the amount of gain recognized to the corporation whose property was so acquired under the law applicable to the year in which the acquisition occurred, and such basis shall not be adjusted under subsection (b) (3) by reason of a discharge of indebtedness pursuant to the plan of reorganization under which such transfer was made.

(b) The adjusted basis for determining the gain or loss from the sale or other disposition of property, whenever acquired, shall be the basis determined under subsection (a), adjusted as hereinafter provided.

Adjusted
basis for de-
termination
of gain or
loss

(1) Proper adjustment in respect of the property shall in all cases be made—

(A) For expenditures, receipts, losses, or other items properly chargeable to capital account, but no such adjustment shall be made for taxes or other carrying charges for which deductions have been taken by the taxpayer in determining net income for the income year or prior income years;

(B) For exhaustion, wear and tear, obsolescence, amortization, and depletion, to the extent sustained prior to January 1, 1928, and to the extent allowed (but not less than the amount allowable) under this act, except that no deduction shall be made for (1) amounts in excess of the amount which would have been allowable had depreciation not been computed on the basis of January 1, 1928, value; (2) amounts in excess of the adjustments required by Section 113 (b) (1) (B) of the Federal Revenue Act of 1938 for depletion prior to January 1, 1932; provided, however, that if a taxpayer has not claimed an amortization deduction for an emergency facility, an adjustment

shall be made only to the extent ordinarily provided under Section 8 (f).

(C) In the case of stock (to the extent not provided for in the foregoing subparagraphs) for the amount of distributions previously made which, under the law applicable to the year in which the distribution was made, either were tax-free or were applicable in reduction of basis (not including distributions made by a corporation, which was classified as a personal service corporation under the provisions of the Federal Revenue Act of 1918 or 1921, out of its earnings or profits which were taxable in accordance with the provisions of Section 218 of the Federal Revenue Act of 1918 or 1921).

(D) In the case of any bond (as defined in Section 8 (o) (3)) to the extent of the deductions allowable pursuant to Section 8 (o) (1) (A) with respect thereto.

"Substituted basis"

(2) The term "substituted basis" as used in this subsection means a basis determined under any provision of subsection (a) of this section providing that the basis shall be determined:

(A) By reference to the basis in the hands of a transferor, donor, or grantor, or

(B) By reference to other property held at any time by the person for whom the basis is to be determined.

Whenever it appears that the basis of property in the hands of the taxpayer is a substituted basis, then the adjustments provided in paragraph (1) of this subsection shall be made after first making in respect of such substituted basis proper adjustments of a similar nature in respect of the period during which the property was held by the transferor, donor, or grantor, or during which the other property was held by the person for whom the basis is to be determined. A similar rule shall be applied in the case of a series of substituted bases.

(3) Where in the case of a bank or corporation any amount is excluded from gross income under Section 6 (b) (5) on account of the discharge of indebtedness the whole or a part of the amount so excluded from gross income shall be applied in a reduction of the basis of any property held (whether before or after the time of the discharge) by the taxpayer during any portion of the income year in which such discharge occurred. The amount to be so applied (not in excess of the amount so excluded from gross income, reduced by the amount of any deduction disallowed under Section 6 (b) (5)) and the particular properties to which the reduction shall be allocated, shall be determined under regulations (prescribed by the commissioner) in effect at the time of the filing of the consent by the taxpayer referred to in Section 6 (b) (5). The reduction shall be made as of the first day of the income year in which the discharge occurred except in the case of property not held by the taxpayer on such first day, in which case it shall take effect as of the time the holding of the taxpayer began.

(c) Neither the basis nor the adjusted basis of any portion of real property shall, in the case of the lessor of such property, be increased or diminished on account of income derived by the

Increase or
diminution
of basis or
adjusted
basis

lessor in respect of such property and excludible from gross income under Section 6 (b) (3). If an amount representing any part of the value of real property attributable to buildings erected or other improvements made by a lessee in respect of such property was included in gross income of the lessor for any such year beginning before January 1, 1942, the basis of each portion of such property shall be properly adjusted for the amount so included in gross income.

SEC 13. Section 24 of the Bank and Corporation Income Tax Act is hereby amended to read as follows: Stats 1943,
p 1403

Sec. 24. (a) If any taxpayer fails to make and file a return required by this act on or before the due date of the return or the due date as extended by the commissioner, then, unless it is shown that such failure is due to reasonable cause and not due to wilful neglect, 5 per centum of the tax shall be added to the tax for each 30 days or fraction thereof elapsing between the due date of the return and the date on which filed, but the total addition shall not exceed 25 per centum of the tax. The amount so added to the tax shall be due and payable upon notice and demand from the commissioner. Penalties
and forfeitures.
Failure to
file return
on time

If any taxpayer, upon notice and demand by the commissioner, fails or refuses to make and file a return required by this act, the commissioner is authorized to make an estimate of the net income and to compute and levy the amount of the tax due under this act from any available information, and in such case 25 per centum of the tax (in addition to the amounts added under the provisions of the preceding paragraph of this subsection) shall be added to the tax and shall be due and payable upon notice and demand from the commissioner. Failure or
refusal to
make return
on notice
and demand

If any bank or corporation fails or refuses to furnish any information as requested in writing by the commissioner, the commissioner may add a penalty of 25 per centum of the amount of any additional tax assessed by the commissioner concerning the determination of which such information was required. Failure or
refusal to
furnish
information

(b) If any part of any deficiency is due to negligence, or intentional disregard of rules and regulations but without intent to defraud, 5 per centum of the total amount of the deficiency (in addition to such deficiency and other additions provided in this section) shall be assessed, collected and paid in the same manner as if it were a deficiency. Deficiency
due to negli-
gence or
disregard
of rules

If any part of any deficiency is due to fraud with intent to evade tax, then 50 per centum of the total amount of the deficiency (in addition to such deficiency and other additions provided in this section) shall be assessed, collected and paid in the same manner as if it were a deficiency. Deficiency
due to fraud

(c) If the tax imposed by this act (whether determined by the commissioner or the taxpayer) or any installment or portion thereof is not paid on or before the date prescribed for its payment, there shall be collected as a part of the tax interest upon such unpaid amount at the rate of 6 per centum per year from the date prescribed for its payment until it is paid. Interest

If the time for the payment of the tax or any installment thereof is extended by the commissioner, or if collection of a jeopardy assessment is stayed under Section 24.1 of this act, there shall be collected as part of such tax interest thereon at the rate of 6 per centum a year from the date upon which such payment should have been made if no extension had been granted or collection had not been stayed until the date the tax is paid.

Interest upon the amount determined as a deficiency shall be assessed and paid at the same time as the deficiency at the rate of 6 per centum per year from the date prescribed for the payment of the tax (or, if the tax is paid in installments, from the date prescribed for the payment of the first installment) to the date the deficiency is assessed; provided, however, if any portion of the deficiency is paid prior to the date it is assessed, interest shall accrue on such portion only to the date paid.

Where a deficiency, or any interest or additional amounts assessed in connection therewith, or any addition to the tax in case of delinquency provided for in subsection (a) of this section, is not paid in full within 10 days from the date of notice and demand from the commissioner, there shall be collected as a part of the tax, interest upon the unpaid amount at the rate of 6 per centum a year from the date of such notice and demand until it is paid.

Credit of
overpayment.

(d) (1) When the correction of an erroneous inclusion or deduction of an item in the computation of income of any year results in an overpayment for one year and a deficiency for another year, the overpayment, if the period within which credit for the overpayment may be allowed has not expired, shall be credited on the deficiency, if the period within which the deficiency may be proposed has not expired, and the balance, if any, shall be credited or refunded as provided in Section 27. No interest shall be assessed on such portion of the deficiency as is extinguished by the credit for the period of time subsequent to the date the overpayment was made.

Interest on
overpayments

Notwithstanding the provisions of Section 27, no interest shall in any case be allowed on any overpayment to the extent credited on deficiencies pursuant to the provisions of this section.

(2) The preceding paragraph is not intended nor shall it be construed as a limitation on the commissioner's right to offset or recoup barred assessments against overpayments.

SEC. 14. Section 25 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Examination
of return

Sec. 25. (a) As soon as practicable after the return is filed, the commissioner shall examine it and shall determine the correct amount of the tax. If the commissioner determines that the tax disclosed by the original return is less than the tax disclosed by his examination he shall mail notice or notices to the taxpayer at its post-office address (which must appear on its return) of the additional tax proposed to be assessed against it. Each notice shall set forth the details of the proposed additional assessment and of computing said tax.

Notice of
additional
tax

(b) Within 60 days after the mailing of said notice the taxpayer may file with the commissioner a written protest against the levy of the proposed additional tax, as computed by the commissioner, specifying therein the grounds upon which the protest is based. Protest

(c) If no such protest is so filed the amount of the tax shall be final upon the expiration of said 60-day period. If a protest is so filed it shall be the duty of the commissioner to reconsider the computation and levy of the tax complained of, and if the taxpayer has so requested in its protest, it shall be the duty of the commissioner to grant said taxpayer, or its authorized representatives, an oral hearing. After consideration of the protest and the evidence adduced in the event of such oral hearing, the commissioner's action upon the protest shall be final upon the expiration of 30 days from the date when he mails to the taxpayer notice of his action, unless within that 30-day period the taxpayer appeals in writing from the action of the commissioner to the State Board of Equalization. The appeal must be addressed and mailed to the State Board of Equalization at Sacramento, and a copy of the appeal addressed and mailed at the same time to the commissioner at Sacramento. Said board shall hear and determine the same and thereafter shall forthwith notify the taxpayer and the commissioner of its determination, and the reasons therefor. Such determination shall be final upon the expiration of 30 days from the time of such determination unless within such 30-day period the taxpayer or the commissioner files a petition for rehearing with said board, in which event the board's determination shall not become final until the expiration of 30 days from the time the board issues its opinion of said petition. Hearing on protest
Appeal

(d) When a deficiency has been determined and the tax has become final under the provisions of this section, the commissioner shall mail notice and demand to the taxpayer for the payment thereof, and such tax shall be due and payable at the expiration of 10 days from the date of such notice and demand. Notice and demand for payment

(e) A certificate by the commissioner or of said board, as the case may be, of the mailing of the notices specified in this section shall be prima facie evidence of the computation and levy of the deficiency in tax and of the giving of said notices. Certificate of commissioner

(f) Except in the case of a fraudulent return, every notice of additional tax proposed to be assessed hereunder shall be mailed to the taxpayer within four years after the return was filed and no deficiency shall be assessed or collected with respect to the year for which such return was filed unless such notice is mailed within such period; provided, that in the case of any taxpayer which shall agree with the United States Commissioner of Internal Revenue for an extension (or renewals thereof) of the period for proposing and assessing deficiencies in Federal income tax for any year, the period for mailing notices of proposed deficiency tax pursuant to this section shall (unless otherwise agreed between the commissioner and the taxpayer) be four years after the return was filed or six months after the Limitation for notice of additional tax

date of the expiration of the agreed period for assessing deficiencies in Federal income tax, whichever period expires the later. For the purposes of this paragraph a return filed before the last day prescribed by law for the filing thereof shall be considered as filed on such last day.

Assessment
by consent

(g) Where, before the expiration of the time prescribed in this section for the assessment of the tax, the taxpayer has consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

Mathemati-
cal error

(h) Any amount of tax in excess of that disclosed by the return, due to a mathematical error, or failure of the taxpayer to compute properly the liability based on the net income reported on its return, notice of which has been mailed to the taxpayer, shall not be considered a deficiency assessment within the meaning of this section. The taxpayer shall have no right of protest or appeal as herein provided, based on such notice, nor shall such assessment or collection be prohibited by any of the provisions of this section.

Adjudication
of bank-
ruptcy or
appointment
of receiver

(i) Upon the adjudication of bankruptcy of any taxpayer in any bankruptcy proceeding or the appointment of a receiver for any taxpayer in any receivership proceeding before any court of the United States or of any State or Territory or of the District of Columbia, any deficiency (together with all interest, additional amounts, or additions to the tax provided for by law) determined by the commissioner in respect of a tax imposed by this act upon such taxpayer may be immediately assessed. In such cases the trustee in bankruptcy or receiver shall give notice in writing to the commissioner of the adjudication of bankruptcy or the appointment of the receiver, and the running of the statute of limitations on the making of assessments shall be suspended for the period from the date of adjudication in bankruptcy or the appointment of the receiver to a date 30 days after the date upon which the notice from the trustee or receiver is received by the commissioner; but the suspension under this sentence shall in no case be for a period in excess of two years. Claims for the deficiency and such interest, additional amounts and additions to the tax may be presented, for adjudication in accordance with law, to the court before which the bankruptcy or receivership proceeding is pending, despite the pendency of proceedings for the redetermination of the deficiency in pursuance of a petition to the State Board of Equalization but no petition for any such redetermination shall be filed with said board after the adjudication of bankruptcy or the appointment of the receiver. Any portion of the claim allowed in such bankruptcy or receivership proceeding which is unpaid shall be paid by the taxpayer upon notice and demand from the commissioner after determination of such proceeding and may be collected in the manner provided in this act for the collection of delinquent

taxes at any time within six years after termination of such proceeding.

SEC. 15. Section 27 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows: Stats. 1943,
p. 1403

Sec. 27. (a) If, in the opinion of the commissioner, or the State Board of Equalization, as the case may be, there has been an overpayment of tax, penalty or interest by a taxpayer for any year for any reason, the amount of such overpayment shall be credited against any taxes then due from the taxpayer under this act, and the balance shall be refunded to the taxpayer or its successor through reorganization, merger, or consolidation, or to stockholders upon dissolution. No such credit or refund shall be allowed or made until approved by the State Board of Control. No such credit or refund shall be allowed or made after four years from the last day prescribed for filing the return or after one year from the date of the overpayment, whichever period expires the later, unless before the expiration of such period a claim therefor is filed by the taxpayer, or unless before the expiration of such period the commissioner has certified the overpayment to the State Board of Control for approval of the refunding or the crediting thereof. If (a), the taxpayer has, within the period prescribed in the preceding sentence, agreed in writing, under the provisions of Section 25, to extend the time within which the commissioner may propose an additional assessment, or (b) if the taxpayer has agreed with the United States Commissioner of Internal Revenue for an extension (or renewals thereof) of the period for proposing and assessing deficiencies in Federal income tax for any year, the period within which a claim for credit or refund may be filed, or credit or refund allowed or made if no claim is filed, shall be the period within which the commissioner may make an assessment under such circumstances, except that the provisions of the preceding sentence shall apply to any claim filed, or credit or refund allowed or made, before the execution of such agreements. Insofar as the claim for credit or refund relates to an overpayment on account of the deductibility under Section 8 (e) of a debt as one which became worthless, or an erroneous inclusion of an amount attributable to the recovery of a bad debt, prior tax or delinquency amount under Section 6 (b) (4), due to an adjustment of a bad debt deduction under Section 8 (e), in lieu of the period of limitation prescribed in the second preceding sentence, the period shall be seven years from the date prescribed by law for filing the return for the year with respect to which the claim is made. A refund claim upon which action has become final shall not thereafter be considered a refund claim within the meaning of the foregoing provision except to the extent allowed. Every claim for refund must state the specific grounds upon which the claim is founded.

(b) If the commissioner disallows any claim for refund, he shall notify the taxpayer accordingly. At the expiration of 90 days from the mailing of such notice, the commissioner's action upon the claim shall be final unless within such 90-day period, Disallow-
ance Notice

Appeal

the taxpayer appeals in writing from the action of the commissioner to the State Board of Equalization. If the commissioner fails to mail notice of action on any refund claim within six months after the claim was filed, the taxpayer may, prior to mailing of notice of action on the refund claim, consider the claim disallowed and appeal to said board. Appeals must be addressed and mailed to the State Board of Equalization at Sacramento, and a copy of the appeal addressed and mailed at the same time to the commissioner at Sacramento. Said board shall hear and determine the same and thereafter shall forthwith notify the taxpayer and the commissioner of its determination. Such determination shall be final upon the expiration of 30 days from the time of such determination unless within such 30-day period the taxpayer or the commissioner files a petition for rehearing with said board, in which event the board's determination shall not become final until the expiration of 30 days from the time the board issues its opinion on said petition.

Interest

(c) Interest shall be allowed and paid upon any overpayment of any tax, if the overpayment was not made because of an error or mistake on the part of the taxpayer, at the rate of 6 per centum per annum as follows:

(1) In the case of a credit, from the date of the overpayment to the date of the allowance of the credit. Any interest allowed on any credit shall first be credited on any taxes due from the taxpayer under this act.

(2) In the case of a refund, from the date of the overpayment to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the commissioner.

Recovery of
erroneously
refund or
credit

(d) Any refund or any portion thereof which is erroneously made, and any credit or any portion thereof which is erroneously allowed, may be recovered, together with interest at the rate of 6 per centum per annum from the date the refund was made or the credit allowed, in an action brought by the commissioner in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California, and such actions shall be tried in the County of Sacramento, unless the court, with the consent of the Attorney General or the counsel for the commissioner, orders a change of place of trial. The Attorney General or the counsel for the commissioner must prosecute such action, and the provisions of the Code of Civil Procedure, relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for.

Cancellation

In the event that a tax has been illegally levied against a taxpayer, the commissioner shall set forth on his records the reasons therefor and thereafter shall authorize the cancellation of such tax.

Payment
under protest

(e) If, after filing a protest or an appeal to the State Board of Equalization, pursuant to Section 25, a taxpayer pays the tax protested, before the commissioner acts upon the protest

or the board on the appeal, the commissioner or the board shall treat the protest or the appeal as a claim for refund or an appeal from the denial of a claim for refund filed under this section.

SEC. 16. Section 28 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows: Stats 1943, p 1403

Sec. 28. (a) If any taxpayer files a false or fraudulent return, or fails or neglects to file a return, with intent to evade tax, the commissioner, at any time, may require a return, or a supplementary return, under oath, or may make an estimate of the net income from any available information, and may propose to assess the amount of tax, interest and penalties due under this act. All the provisions of this act relative to delinquent taxes shall be applicable to the tax, interest and penalties computed hereunder. Assessment by commissioner

(b) When any assessment is proposed under the preceding paragraph, the taxpayer shall have the right to protest the same and to have an oral hearing thereon if requested; also to appeal to the board from the commissioner's action on the protest; the taxpayer must proceed under this paragraph in the manner and within the time prescribed by Section 25. Protest

SEC. 17. Section 30 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows: Stats 1943, p 1403

Sec. 30. (a) No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the assessment or collection of any tax under this act but any taxpayer claiming that the tax computed and levied against it pursuant to Sections 24.1 and 25 of this act is void in whole or in part may bring an action against the commissioner for the recovery of the whole or any part of the amount paid. Such action must be filed within four years from the last date prescribed for filing the return or within one year from the date the tax was paid, whichever period expires the later; provided, that no action shall be filed for the recovery of a deficiency assessment unless the taxpayer has made protest to the commissioner of the computation and levy complained of under the provisions of Section 25 hereof or unless the taxpayer has filed a claim for refund for the tax, in question, under the provisions of Section 27. Process not to issue to prevent assessment or collection

"County
Highway Aid
Act of
1945"

An act relating to a highway construction and improvement program, county and State, including cooperation with the Federal Government in furtherance of the purposes of the Federal-Aid Highway Act of 1944 and the expenditure of Federal-Aid moneys, and making an appropriation for the purposes of this act.

In effect
September

[Approved by Governor June 19, 1945 Filed with Secretary of State
June 19, 1945]

I object to the item of \$12,000,000 in Section 5 of Assembly Bill No. 2480, and I reduce said amount to \$8,000,000. My reason for making this reduction is that an identical appropriation is made by Senate Bill No. 608. I am similarly reducing the appropriation made by that bill in order that the total appropriation made by the two bills shall equal the sum of \$12,000,000.

EARL WARREN
Governor of California

The people of the State of California do enact as follows:

Legislative
declaration
58 Fed
Stats.,
Ch. 626

SECTION 1. Declaration of Policy. The Congress of the United States has enacted the Federal-Aid Highway Act of 1944 in which the sum of one hundred fifty million dollars (\$150,000,000) has been authorized to be appropriated for projects on the principal secondary and feeder roads, including farm to market roads, rural free delivery mail and public school bus routes in the various States. By apportionment of the authorization made pursuant to said Federal act, it is anticipated that the sum of approximately fifteen million dollars (\$15,000,000) will be made available for expenditure on such roads in California in the three-year period immediately following termination of the war on the basis provided in the Federal-Aid Highway Act. Said apportionment to California is to be made available for expenditure on either State highways or county highways which qualify under the Federal law. County highways throughout the State have deteriorated to such an extent as to be a matter of primary State concern. It is, therefore, determined by the Legislature that, insofar as permissible under Federal law, rules and regulations, at least eighty-seven and one-half per cent (87½%) of the money apportioned to California for such projects as are mentioned in subdivision (b) of Section 3 of the Federal-Aid Highway Act of 1944 should be expended for the improvement of the county highways in this State. Inasmuch as these county highways are a matter of State concern and many of the counties are financially unable to furnish funds to be used with the Federal funds as required by Federal law, funds should be provided from State sources therefor.

"County
highway"

SEC. 2. As used in this act, "county highway" means county highway as defined by Section 25 of the Streets and Highways Code, which is on the system of secondary and feeder roads as defined by the Federal-Aid Highway Act of 1944.

Inasmuch as the funds available for construction of highways pursuant to the provisions of subdivision (b) of Section 3 of the Federal-Aid Highway Act of 1944 may not be expended in any municipality of 5,000 or more population, "county" as used in this act does not include a city and county.

As used in this act, "construction" means construction as defined by the Federal-Aid Highway Act of 1944.

SEC. 3. The provisions of this act or any action taken pursuant to it (including construction on any county highway) shall not be deemed to change the status of any county highway into that of a State highway notwithstanding any other provision of law.

Status of
county
highway

SEC. 4. (a) It is in the interest of the State of California and of the counties of the State that at least eighty-seven and one-half per cent (87½%) of the moneys available for construction of highways in this State pursuant to the provisions of subdivision (b) of Section 3 of the Federal-Aid Highway Act of 1944 be apportioned for expenditure among the counties of this State in the manner and in accordance with the formula prescribed in subdivision (b) of Section 4 of said Federal act for apportionment among the States.

Apportion-
ment of Fed-
eral moneys

(b) The Department of Public Works shall in behalf of the State and the counties recommend such projects and take such other action within the powers conferred on it by law as to comply with paragraph (a) of this section and the other provisions of this act as fully as applicable Federal laws, rules, or regulations permit.

Recommen-
dation of
projects

SEC. 5. Out of any moneys in the State treasury not otherwise appropriated, there is hereby appropriated the sum of twelve million dollars (\$12,000,000), which sum shall be transferred by the State Controller on the effective date of this act to the State Highway Fund and shall be expended by the Department of Public Works to pay the State's share for construction of county highways as provided in this act. The said sum of twelve million dollars (\$12,000,000) hereby appropriated shall be apportioned for expenditure in the counties of the State on the same formula as provided in subdivision (b) of Section 4 of said Federal act for apportionment of said Federal moneys among the several States. None of the appropriation hereby made shall be expended on any highway, street, or road which is not a county highway, except as expressly otherwise provided in this act.

Appropri-
ation

Apportion-
ment of
State moneys

SEC. 6. The Department of Public Works shall notify each county on the effective date of this act or as soon thereafter as possible of the amount of money to be available for expenditure in said county from said Federal apportionment and of the amount of money available from the appropriation hereby made to pay the State's share in conjunction with the Federal aid in the county. Each county shall within six months after such notice submit to the department a description of the projects on

Notice of

county highways in said county which are approved by the county and are eligible for such Federal aid under said Federal-Aid Highway Act of 1944.

Cooperative agreements

The boards of supervisors of the several counties and the department are authorized and directed to enter into cooperative agreements and to do all other things necessary and proper in their respective jurisdictions to secure such Federal aid for construction of county highways in accordance with the intent of this act. Any such agreement shall provide that the county will maintain the project when completed as required by Federal law, rules and regulations.

Refusal to accept benefits

SEC. 7. If any county notifies the department that it refuses to accept the benefits of this act on the terms and conditions specified herein and in the Federal law, rules and regulations, or if any county fails to submit a description of the projects desired by it within the six months period provided in Section 6 or within such further period of time not exceeding an additional six months as may be extended by the department, the amount of the appropriation hereby made available for expenditure in said county may be expended in the discretion of the California Highway Commission on any other highway, State or county, on the approved system of secondary and feeder roads within or without said county.

Continuing appropriation

SEC. 8. The appropriation hereby made shall continue indefinitely to be available in the State Highway Fund to be used as provided in this act.

State highway in county

SEC. 9. Any county may by resolution of its board of supervisors request the department to expend all or any portion of the moneys available for expenditure in said county under this act on any State highway in the county, and in that event the department may pursuant to the provisions of the Federal-Aid Highway Act of 1944 as amended and supplemented expend such money on such State highway notwithstanding any other provisions of this act.

Highways outside county limits

SEC. 10. Any county may enter into an agreement with any other county or counties or joint highway district or other public agency for the expenditure of moneys available pursuant to this act for expenditure in such county on any public highway system outside its limits, if such highway is eligible for Federal aid under subdivision (b) of Section 3 of the Federal-Aid Highway Act of 1944. The Department of Public Works may then expend the money in accordance with such contract.

Short title

SEC. 11. This act shall be known and may be cited as the County Highway Aid Act of 1945.

amended *An act to amend Section 8 of the Bank and Corporation
Franchise Tax Act, relating to bank and corporation taxes.*

In effect
September
15, 1945 [Approved by Governor June 22, 1945 Filed with Secretary of State
June 22, 1945.]

The people of the State of California do enact as follows:

Stats 1945,
Ch 946 SECTION 1. Section 8 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Deductions
from gross
income
Business
expenses Sec. 8. In computing "net income" the following deductions shall be allowed:

(a) (1) All the ordinary and necessary expenses paid or incurred during the income year in carrying on business, including a reasonable allowance for salaries or other compensation for personal services actually rendered, and rentals or other payments required to be made as a condition to the continued use or possession for business purposes of property to which the taxpayer has not taken or is not taking title or in which it has no equity.

(2) No deduction shall be allowable under subparagraph (1) to a bank or corporation for any contribution or gift which would be allowable as a deduction under subsection (i) were it not for the 5 per centum limitation therein contained and for the requirement therein that payment must be made within the income year.

Interest
on debts (b) All interest paid or accrued during the income year on indebtedness of the taxpayer to the extent in excess of income of the taxpayer from interest and dividends (other than dividends deductible under the provisions of subdivision (h) of this section and other than dividends from corporations, 50 per centum or more of the outstanding stock of which is owned by the taxpayer), which is not included in the measure of the tax imposed by this act; or to the extent of interest and dividends included in the measure of the tax imposed by this act, whichever is the greater.

Taxes (c) (1) Taxes or licenses paid or accrued during the income year, other than taxes paid to the State under this act, and other than taxes on or according to or measured by income or profits paid or accrued within the income year imposed by the authority of (1) the Government of the United States or any foreign country, (2) any State, Territory, county, city and county, school district, municipality, or other taxing subdivision of any State or Territory, and other than taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this shall not exclude the allowance as a deduction of so much of said taxes assessed against local benefits as is properly allocable to maintenance or interest charges.

Sales taxes (2) In the case of a tax imposed by any State, Territory, district, or possession of the United States, or any political sub-

division thereof, upon persons engaged in selling tangible personal property at retail, which is measured by the gross sales price or the gross receipts from the sale or which is a stated sum per unit of such property sold, or upon persons engaged in furnishing services at retail, which is measured by the gross receipts for furnishing such services, if the amount of such tax is separately stated, then to the extent that the amount so stated is paid by the purchaser (otherwise than in connection with the purchaser's trade or business) to such person such amount shall be allowed as a deduction in computing the net income of such purchaser as if such amount constituted a tax imposed upon and paid by such purchaser.

(d) Losses sustained during the income year and not compensated for by insurance or otherwise, except that such losses may, with the consent of the Franchise Tax Commissioner, hereinafter designated "commissioner," be accounted for as of a different period. In the case of any loss claimed to have been sustained in any sale or other disposition of shares of stock or securities where it appears that within 30 days before or after the date of such sale or other disposition, the taxpayer has acquired (otherwise than by bequest or inheritance) or has entered into a contract or option to acquire substantially identical property and the property so acquired is held by the taxpayer for any period after such sale or other disposition, no deduction for the loss shall be allowed unless the claim is made by a taxpayer, a dealer in stocks or securities, and with respect to a transaction made in the ordinary course of its business. If such acquisition or the contract or option to acquire is to the extent of part only of substantially identical property, then only a proportionate part of the loss shall be disallowed. Upon the subsequent sale or disposition of shares of stock or securities, in respect of which a loss has been disallowed, the basis for measuring gain or loss in the case of property so acquired shall be the basis in the case of the stock or securities so sold or disposed of, except that if the repurchase price was in excess of the sale price such basis shall be increased in the amount of the difference, or if the repurchase price was less than the sale price such basis shall be decreased in the amount of the difference.

(e) Debts which become worthless within the income year, or, in the discretion of the commissioner, a reasonable addition to a reserve for bad debts. When satisfied that a debt is recoverable in part only the commissioner may allow such debt, in an amount not in excess of the part charged or within the income year, as a deduction; provided, however, that if a debt was actually worthless prior to January 1, 1943, but was not ascertained to be worthless and charged off prior to said date, a deduction may be taken therefor during the first income year ending after December 31, 1942; and, provided, that if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt which in any prior year was charged off, regardless of whether claimed as a deduction in such prior year.

Obsolescence (f) A reasonable allowance for exhaustion, wear and tear and obsolescence of property used in the trade or business. The basis on which such allowance is to be computed in respect of any property is the adjusted basis provided in Section 21 (b) for the purpose of determining the gain upon the sale or other disposition of such property. A taxpayer may elect to claim a deduction for amortization of emergency facilities (as defined by Section 124 of the Internal Revenue Code as amended) under regulations prescribed by the commissioner.

Depletion (g) (1) In the case of mines, oil and gas wells, other natural deposits and timber, a reasonable allowance for depletion and for depreciation of improvements according to the peculiar conditions in each case, such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the commissioner. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee.

Basis for depletion (2) (A) The basis upon which depletion is to be allowed in respect of any property shall be the adjusted basis provided in Section 21 (b) for the purpose of determining the gain upon the sale or other disposition of such property, except as provided in paragraphs (B), (C), and (D) of this subsection.

Mines (B) In the case of mines (other than metal, coal, fluor spar, flake graphite, vermiculite, beryl, feldspar, mica, talc, lepidolite, spodumene, barite, potash, ball and sagger clay, rock asphalt or sulphur mines) discovered by the taxpayer after February 28, 1913, the basis for depletion shall be the fair market value of the property at the date of discovery or within 30 days thereafter, if such mines were not acquired as the result of purchase of a proven tract or lease, and if the fair market value of the property is materially disproportionate to the cost. The depletion allowance under subdivision (1) of this subsection based on discovery value provided in this paragraph shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property upon which the discovery was made, except that in no case shall the depletion allowance under subdivision (1) of this subsection be less than it would be if computed without reference to discovery value. Discoveries shall include minerals in commercial quantities contained within a vein or deposit discovered in an existing mine or mining tract by the taxpayer after February 28, 1913, if the vein or deposit thus discovered was not merely the uninterrupted extension of a continuing commercial vein or deposit already known to exist, and if the discovered minerals are of sufficient value and quantity that they could be separately mined and marketed at a profit.

(C) In the case of oil and gas wells the allowance for depletion under subdivision (1) of this subsection shall be $27\frac{1}{2}$ per centum of the gross income from the property during the income year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance under subdivision (1) of this subsection be less than it would be if computed without reference to this paragraph.

(D) (1) The allowance for depletion under subdivision (1) of this subsection shall be, in the case of coal mines, 5 per centum, in the case of metal mines, fluorspar, flake graphite, vermiculite, beryl, feldspar, mica, talc, lepidolite, spodumene, barite, ball and sagger clay or rock asphalt mines, and potash mines or deposits, 15 per centum, and, in the case of sulphur mines or deposits, 23 per centum, of the gross income from the property during the income year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property except that in no case shall the depletion allowance under subsection (1) of this section be less than it would be if computed without reference to this paragraph.

(2) As used in (D) (1) the term "gross income from the property" means the gross income from mining. The term "mining," as used herein, shall be considered to include not merely the extraction of the ores or minerals from the ground but also the ordinary treatment processes normally applied by mine owners or operators in order to obtain the commercially marketable mineral product or products. The term "ordinary treatment processes," as used herein, shall include the following: (i) In the case of coal—cleaning, breaking, sizing, and loading for shipment; (ii) in the case of sulphur—pumping to vats, cooling, breaking, and loading for shipment; (iii) in the case of iron ore, bauxite, ball and sagger clay, rock asphalt, and minerals which are customarily sold in the form of a crude mineral product—sorting, concentrating, and sintering to bring to shipping grade and form, and loading for shipment; and (iv) in the case of lead, zinc, copper, gold, silver, or fluorspar ores, potash, and ores which are not customarily sold in the form of the crude mineral product—crushing, grinding, and beneficiation by concentration (gravity, flotation, amalgamation, electrostatic, or magnetic), cyanidation, leaching, crystallization, precipitation (but not including as an ordinary treatment process electrolytic deposition, roasting, thermal or electric smelting, or refining), or by substantially equivalent processes or combination of processes used in the separation or extraction of the product or products from the ore, including the furnacing of quicksilver ores.

Dividends
taxed to
corporation
declaring

(h) (1) Dividends received during the income year declared from income which has been included in the measure of the tax imposed by this act upon the bank or corporation declaring the dividends, or from income which has been taxed under the provisions of the Corporation Income Tax Act to the corporation declaring the dividends.

Gifts

(i) In the case of a bank or corporation, contributions or gifts payment of which is made within the income year to or for the use of:

(1) The United States, any State, Territory, or any political subdivision thereof or the District of Columbia, or any possession of the United States, for exclusively public purposes; or

Contributions to stock bonus, etc. plans

(p) (1) If contributions are paid by an employer to or under a stock bonus, pension, profit-sharing, or annuity plan, or if compensation is paid or accrued on account of any employee under a plan deferring the receipt of such compensation, such contributions or compensation shall not be deductible under subsection (a) but shall be deductible, if deductible under subsection (a) without regard to this subsection, under this subsection but only to the following extent:

(A) In the income year when paid, if the contributions are paid into a pension trust, and if such income year ends within or with an income year of the trust for which the trust is exempt under Section 12 (f) of The Personal Income Tax Act, in an amount determined as follows:

(i) An amount not in excess of 5 per centum of the compensation otherwise paid or accrued during the income year to all the employees under the trust, but such amount may be reduced for future years if found by the commissioner upon periodical examinations at not less than five-year intervals to be more than

the amount reasonably necessary to provide the remaining unfunded cost of past and current service credits of all employees under the plan, plus

(ii) Any excess over the amount allowable under clause (i) necessary to provide with respect to all of the employees under the trust the remaining unfunded cost of their past and current service credits distributed as a level amount, or a level percentage of compensation, over the remaining future service of each such employee, as determined under regulations prescribed by the commissioner, but if such remaining unfunded cost with respect to any three individuals is more than 50 per centum of such remaining unfunded cost, the amount of such unfunded cost attributable to such individuals shall be distributed over a period of at least five income years, or

(iii) In lieu of the amounts allowable under (i) and (ii) above, an amount equal to the normal cost of the plan, as determined under regulations prescribed by the commissioner, plus, if past service or other supplementary pension or annuity credits are provided by the plan, an amount not in excess of 10 per centum of the cost which would be required to completely fund or purchase such pension or annuity credits as of the date when they are included in the plan, as determined under regulations prescribed by the commissioner, except that in no case shall a deduction be allowed for any amount (other than the normal cost) paid in after such pension or annuity credits are completely funded or purchased.

(iv) Any amount paid in an income year in excess of the amount deductible in such year under the foregoing limitations shall be deductible in the succeeding income years in order of time to the extent of the difference between the amount paid and deductible in each such succeeding year and the maximum amount deductible for such year in accordance with the foregoing limitations.

(B) In the income year when paid, in an amount determined in accordance with subparagraph (A) of this paragraph, if the contributions are paid toward the purchase of retirement annuities and such purchase is a part of a plan which meets the requirements of Section 12 (f) of The Personal Income Tax Act, and if refunds of premiums, if any, are applied within the current income year or next succeeding income year towards the purchase of such retirement annuities.

(C) In the income year when paid, if the contributions are paid into a stock bonus or profit-sharing trust, and if such income year ends within or with an income year of the trust with respect to which the trust is exempt under Section 12 (f) of The Personal Income Tax Act, in an amount not in excess of 15 per centum of the compensation otherwise paid or accrued during the income year to all employees under the stock bonus or profit-sharing plan. If in any income year beginning after December 31, 1942, there is paid into the trust, or a similar trust then in effect, amounts less than the amounts deductible under the preceding sentence, the excess, or if no amount is

paid, the amounts deductible, shall be carried forward and be deductible when paid in the succeeding income years in order of time, but the amount so deductible under this sentence in any such succeeding income year shall not exceed 15 per centum of the compensation otherwise paid or accrued during such succeeding income year to the beneficiaries under the plan. In addition, any amount paid into the trust in an income year beginning after December 31, 1942, in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding income years in order of time, but the amount so deductible under this sentence in any one such succeeding income year together with the amount allowable under the first sentence of this subparagraph shall not exceed 15 per centum of the compensation otherwise paid or accrued during such income year to the beneficiaries under the plan. The term "stock bonus or profit-sharing trust," as used in this subparagraph, shall not include any trust designed to provide benefits upon retirement and covering a period of years, if under the plan the amounts to be contributed by the employer can be determined actuarially as provided in subparagraph (A). If the contributions are made to two or more stock bonus or profit-sharing trusts, such trusts shall be considered a single trust for the purposes of applying the limitations in this subparagraph.

(D) In the income year when paid, if the plan is not one included in paragraphs (A), (B), or (C), if the employees' rights to or derived from such employer's contribution or such compensation are nonforfeitable at the time the contribution or compensation is paid.

(E) For the purposes of subparagraphs (A), (B), and (C), a taxpayer on the accrual basis shall be deemed to have made a payment on the last day of the year of accrual if the payment is on account of such income year and is made within 60 days after the close of the income year of accrual.

(F) If amounts are deductible under subparagraphs (A) and (C), or (B) and (C), or (A), (B), and (C), in connection with two or more trusts, or one or more trusts and an annuity plan, the total amount deductible in an income year under such trusts and plans shall not exceed 25 per centum of the compensation otherwise paid or accrued during the income year to the persons who are the beneficiaries of the trusts or plans. In addition, any amount paid into such trust or under such annuity plans in an income year beginning after December 31, 1942, in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding income years in order of time, but the amount so deductible under this sentence in any one such succeeding income year together with the amount allowable under the first sentence of this subparagraph shall not exceed 30 per centum of the compensation otherwise paid or accrued during such income years to the beneficiaries under the trusts or plans. This subparagraph shall not have the

effect of reducing the amount otherwise deductible under subparagraphs (A), (B), and (C), if no employee is a beneficiary under more than one trust, or a trust and an annuity plan. If there is no plan but a method of employer contributions or compensation has the effect of a stock bonus, pension, profit-sharing, or annuity plan, or similar plan deferring the receipt of compensation, this paragraph shall apply as if there were such a plan.

(2) Any deduction allowable under this act (as it read prior to the 1943 amendment) for an income year beginning before January 1, 1943, which was apportioned to any income year beginning after December 31, 1943, shall be allowed as a deduction for the years to which so apportioned to the extent allowable under this subsection as it then read if it had remained in force with respect to such year.

(3) In the case of a stock bonus, pension, profit-sharing or annuity plan in effect on or before September 1, 1943:

(A) Such a plan shall not become subject to the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code until the beginning of the first income year beginning after December 31, 1943.

(B) Such a plan shall be considered as satisfying the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code for the period beginning with the beginning of the first income year following December 31, 1943, and ending on December 31, 1945, if the provisions of the plan satisfy such requirements by December 31, 1945 and if by that time all provisions of such plan which are necessary to satisfy such requirements are in effect and have been made effective for all purposes with respect to the portion of such period after December 31, 1943.

(C) If the contribution of an employer to such a plan in the employer's income year beginning in 1943 exceeds the maximum amount deductible for such year under Section 8(p)(1), the amount deductible in such year shall not be less than the sum of:

(i) The amount paid in such income year prior to September 1, 1943, and deductible under Section 8(a); and

(ii) With respect to the amount paid in such income year on or after September 1, 1943, that proportion of the amount deductible for the taxable year under Section 8(p)(1) which the number of months after August 31, 1943, in the income year bears to 12.

(4) In the case of a stock bonus, pension, profit-sharing or annuity plan put into effect after September 1, 1943, such a plan shall be considered as satisfying the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code for the period beginning with the date on which such plan was put into effect and ending December 31, 1945, if all provisions of the plan which are necessary to

satisfy such requirements are in effect by the end of such period and have been made effective for all purposes with respect to the portion of such period after December 31, 1943.

(5) In the case of a stock bonus, pension, profit-sharing or annuity plan put into effect after December 31, 1944, the plan will be considered as satisfying the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code for the period beginning with the date on which it was put into effect and ending with the fifteenth day of the third month following the close of the income year of the employer in which the plan was put into effect if all provisions of the plan which are necessary to satisfy such requirements are in effect by the end of such period and have been made effective for all purposes with respect to the whole of such period.

(q) If any deduction provided for in this section is finally adjudged discriminatory against a National banking association contrary to Section 5219 of the Revised Statutes of the United States, or is for any reason finally adjudged invalid, in that event the tax of the favored taxpayer shall be recomputed by the commissioner for the taxable year in question, as of the time of allowance of the deduction, by disallowing the deduction, and any difference between the amount of the tax as recomputed and the amount of the tax as originally computed shall be subject to the provisions hereof relating to original computations.

procedure

supervisors of any county, the provisions of this chapter shall be applicable to such county, provided that such resolution must be adopted prior to the time the county auditor is required to compute and enter on the secured roll the respective amounts due in installments as taxes for the assessment year in which such resolution shall become effective. The provisions of this chapter shall apply only to such a county and shall then apply until otherwise ordered by a resolution of the board of supervisors.

Delinquent
penalties:
1st install-
ment

2704. All taxes due November 1st, if unpaid, are delinquent December 5th at 5 p.m., and thereafter a delinquent penalty of 6 per cent attaches to them. Urgency

SEC. 2. This act is hereby declared to be an emergency measure necessary for the immediate preservation of public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of this State, and shall, therefore, go into immediate effect. A statement of the facts constituting such necessity is as follows:

The provisions of this act will result in substantial reductions in the work load performed by auditors and tax collectors in the computation of taxes and installments thereof resulting in more judicious use of personnel during the current manpower shortage.

The orderly collection of taxes is essential to the general welfare of people of this State, and the peace, health, safety and general welfare of such citizens depends upon the orderly, proper and unhampered function of such public officers during the time this act would require before otherwise becoming effective. Uncertainty and confusion in the administration of those provisions which are amended by this act will result in lack of uniformity in the application of this law in the several counties and unnecessary duplication in the work of computing taxes, unless the act is effective immediately. Such public officers perform certain acts and initial proceedings for the purpose of providing and assuring revenues and finances for general purposes during the coming fiscal year; it is essential that such officers become thoroughly familiar with the provisions of the code as amended before commencing operations thereunder, and that the transition from operating under provisions of existing law to operating under same as amended may be made with the minimum of confusion and greatest continuity of action, all of which require that this act go into immediate effect.

For this act not to go into immediate effect would result in untold hardship to such public officers and taxpayers, unnecessary litigation, and in delayed collection or loss of large amounts of taxes.

CHAPTER 982

An act to amend Section 12500 of the Health and Safety Code, relating to fireworks, declaring this act to be an urgency measure, and providing that it shall take effect immediately.

In effect
immediately

[Approved by Governor June 23, 1945. Filed with Secretary of State June 23, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 12500 of the Health and Safety Code is amended to read:

"Dangerous
fireworks"

12500. "Dangerous fireworks," as used in this part, includes any of the following:

Pyrotechnics or fireworks containing phosphorous, sulphocyanide, mercury, chlorate of potash and sulphur or chlorate of potash and sugar;

Firecrackers, salutes and other explosive articles of similar nature.

Blank cartridges;

Sky rockets, including all devices which rise in the air during discharge;

Roman candles, including all devices discharging balls of fire into the air;

Chasers, including all devices which dart or travel about the surface of the ground during discharge;

Snakes, boa constrictors and snake nests, containing bichloride of mercury;

All articles for pyrotechnic display, which contain gunpowder;

Articles commonly known as son-of-a-gun, devil-on-the-rock, crackit sticks and automatic torpedoes which contain arsenic;

Explosives known as devil-on-the-walk, or any other article of similar character which explodes through means of friction, and all other similar fireworks, unless otherwise designated;

Toy torpedoes of all kinds except those specifically designed for use only with toy pistol paper caps containing not more than twenty-five hundredths grain of explosive compound to each paper cap.

SEC. 2. This act is hereby declared to be an emergency ^{Urgency} measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1, Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

Since 1942 when the Commanding General of the Western Defense Command by proclamation prohibited the use of fireworks within the area of the Western Defense Command there has been a very great reduction in the number of fires and injuries to persons on and around July 4th of each year. This record is directly attributable to the prohibition against fireworks. The proclamation of the Commanding General of the Western Defense Command being no longer required as a matter of military necessity, has been rescinded. Unless this act shall take immediate effect the prohibition against the unregulated sale and use of firecrackers, salutes, and other explosive articles of similar nature which this act imposes in the interests of the public peace, health and safety, will not be effective on July 4, 1945, thereby continuing to permit the unregulated sale and use of such firecrackers with attendant fires and injuries to persons.

CHAPTER 983

(a) To the home and care of some reputable person of good moral character.

The Youth Authority shall accept such person if it believes that the person can be materially benefited by its reformatory and educational discipline, and if it has adequate facilities to provide such care. No such person shall be transported to any facility under the jurisdiction of the Youth Authority, until the director thereof has notified the committing court of the place to which said person is to be transported and the time at which he can be received.

(f) To the detention home or if said ward is of the age of 18 years or over and the court finds it necessary and advisable to the county jail.

(g) To any other State or county institution now or hereafter established for the purpose of caring for and training persons that come within the provisions of this chapter.

Before any such person is conveyed to any such institution it shall be ascertained from the superintendent thereof that such person can be received.

Whenever the court, after hearing, is of the opinion that any person alleged or adjudged to come within the provisions of Section 700 or 701 of this code is mentally ill or if the court is in doubt concerning the mental health of any such person, the court may order that such person be held temporarily in the psychopathic ward of the county hospital for observation and recommendation concerning the future care, supervision and treatment of such person.

Whenever a person has been adjudged a ward of the juvenile court and has been committed or otherwise disposed of as provided in this chapter for the care of wards of the juvenile court, the court may order that said ward be detained in the detention home, or if said ward is of the age of 18 years or more, in the county jail, or otherwise, as to the court seems fit, until the execution of the order of commitment or of other disposition.

Sec. 9. If, after receiving a petition for the establishment of a proration zone and a proposed marketing program therefor, the director determines that such proposed zone and proposed marketing program are consistent with the provisions of this act, the director on behalf of the commission shall hold a public hearing at some central point located within the area described in said petition and proposed to be established as a proration zone. In the event that the director determines that the proposed zone or proposed marketing program is not consistent with the provisions of this act the director shall refer such determination to the commission. If the commission concurs in the director's determination no hearing need be held. If the commission does not concur with the determination of the director and determines that the proposed zone and marketing program are consistent with the provisions of this act the commission may request the director to hold a hearing thereon. Prior to holding such public hearing the director may require the petitioners to file with the Department of Agriculture a good and sufficient undertaking to cover the probable cost of conducting the hearing and instituting a marketing program.

Findings
required

SEC. 8. Section 10 of said act is amended to read:

Sec. 10. (a) Before issuing a marketing program for the written assent of producers, which contains provisions for correlating the supply of the agricultural commodity affected with market demands therefor by means of restrictions upon the total quantity of such commodity or restrictions upon the total quantity of any grade, size, quality or condition thereof which restrictions have the effect of limiting the total quantity of such commodity which may be marketed during any marketing season and which restricted portion of such commodity might otherwise be marketed by producers in compliance with other laws of this State or of the United States or in compliance with established commercial practice during such marketing season the director shall find with respect to such marketing program:

(1) That such marketing program will tend to re-establish or maintain such level of prices for such agricultural commodity as will provide a purchasing power for such agricultural commodity which is adequate to maintain in the business of producing such agricultural commodity such number of producers as is required to provide such supply of the quantities and qualities of such agricultural commodity as is necessary to fulfill the normal requirements of consumers thereof;

(2) That such marketing program will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for such commodity;

(3) That such marketing program is in conformity with the provisions of this act and within the limitations and restrictions set forth therein and will tend to effectuate the declared purposes and policies of this act;

(4) That such marketing program will protect the interest of consumers of such commodity through the exercise of the powers of this act only to such an extent as is necessary to establish the level of purchasing power described in subdivision (1) of paragraph (a) of this section.

(b) Before issuing a marketing program, for the written assent of producers, which contains provisions for the purpose of regulating the flow of the commodity or any grade or size thereof to market without restricting the total quantity which may be marketed during the season or which marketing program provides for the establishment of grade, size, quality or condition specifications or for uniform grading and inspection or for advertising and trade promotion, the director shall find with respect to such marketing program:

(1) That such marketing program will tend to attain the objectives sought by said marketing program;

(2) That such marketing program is in conformity with the provisions of this act and within the limitations and restrictions set forth therein and will tend to effectuate the declared purposes and policies of this act;

(3) That such marketing program will protect the interests of consumers in that the powers of this act are being exercised only to the extent necessary to attain such objectives.

(e) In making the findings required pursuant to paragraph (a) of this section, the director shall take into consideration any and all facts available to him with respect to the following economic factors:

(1) The quantity of such agricultural commodity available for distribution;

(2) The quantity of such agricultural commodity normally entered into primary channels of trade;

(3) The necessary costs of producing such agricultural commodity as determined by available surveys or other facts;

(4) The purchasing power of consumers as indicated by available reports and indices;

(5) The level of prices of other commodities which compete with or are utilized as substitutes for such agricultural commodity;

(6) The level of prices of other commodities, services, and articles which producers commonly purchase.

(d) In making any findings pursuant to paragraph (b) hereof the director shall base his findings upon the facts, testimony and evidence received at the public hearing together with any other relevant facts available to him from official publications or institutions of recognized standing.

(e) In addition to either of the applicable findings of paragraphs (a) or (b) of this section the director shall find that the proposed proration zone includes all of the area within this State reasonably necessary to carry out and attain the objectives of this act.

(f) The director shall submit his findings, together with a summary of the evidence received at any hearing or hearings

authorized in this act to the commission for approval prior to the establishment of any zone or issuance of any marketing program. Upon the approval of the findings by the commission, the director shall establish such zone and issue such marketing program for the written assent of producers. If the commission does not approve of the findings of the director the commission shall examine the evidence and prepare its own findings and thereupon instruct the director to proceed in accordance with such findings.

Additional
territory

(g) If, at a public hearing which includes a consideration of the establishment of the boundaries of a zone, it shall appear that the inclusion of territory additional to that described in the petition being heard, is necessary to the proper administration or enforcement of the proposed program the director shall postpone further proceedings until notice shall have been given by the director to the producers within such additional territory in the manner provided for in Section 9 hereof. Thereafter the director may conclude said hearing, and prepare his findings.

Management
of zone

(h) Each zone shall constitute a separate public corporate entity and its affairs shall be managed by a program committee appointed in accordance with Section 15 of this act.

Prior
marketing
programs

(i) Any marketing program or any amended marketing program heretofore duly issued by the director pursuant to this act and now in effect shall continue in full force and effect and shall be conclusively presumed to be in conformity with the provisions of this section as amended unless the director or the commission, after a public hearing held in conformance with the provisions of this act, finds within ninety (90) days after the effective date of the amendments to this section that such marketing program is not in conformity with the provisions of this section as amended. In no event however, shall any marketing program be suspended or terminated unless such suspension or termination is in accordance with the provisions of Section 23 of this act.

Report of
handlers

SEC. 9. Section 11 of said act is amended to read:

Sec. 11. Prior to holding a public hearing upon a proposed proration zone and a proposed marketing program the Director of Agriculture shall establish a list of producers of the agricultural commodity affected within the area comprising the zone. In establishing such list of producers the director may issue a notice to handlers requiring them to file with the director a certified report showing:

- (1) The name and mail address of such handler;
- (2) The quantities of the agricultural commodity to be affected, handled by such handler in the marketing season next preceding the filing of such report, together with a reasonable determination of the quantity so handled which was produced within the proposed boundaries of the zone;
- (3) The correct names and mail addresses of producers, whose producing operations are located within the proposed zone, from whom such handler received the agricultural commodity to be affected, during the next preceding season;

(4) The quantities of such agricultural commodity received by such handler from each such producer in the marketing season next preceding the filing of such report.

Said notice to handlers requiring them to file said lists shall be published by the director for a period of not less than five (5) days in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may require and shall be mailed to all handlers of the commodity directly affected, of record with the department. Said lists of producers shall be filed by handlers within ten (10) days from the last date of publication of said notice. In addition the director may obtain lists of producers affected, whenever and in such manner as he may deem necessary or advisable for the purpose of checking, comparing or correcting such lists. Also the director shall maintain a current list of producers based upon the records of operations under each marketing program. Such producer list established in accordance with this section shall, subject to any proper corrections, be final and conclusive in making determinations relative to the assent by producers upon a marketing program.

Any producer producing the commodity affected by any proposed or existing marketing program whose name does not appear upon the director's list of producers affected may have his name established thereon by filing with the director a signed statement advising that he produced such commodity in the next preceding season and giving the quantity produced and the quantity delivered into primary channels of trade in such season.

SEC. 10. Section 14 of said act is repealed.

SEC. 11. Section 15 of said act is amended to read :

Sec. 15. The director shall appoint the initial program committee from nominations received at the public hearing upon the proposed program. The term of office of the initial program committee shall be for one marketing season. The term of office of subsequent program committees for each marketing program shall be two (2) years or until their successors have been appointed and have qualified. The beginning date of the term of office shall be set forth in the marketing program. For terms subsequent to the term of the initial committee members and their respective alternates shall be selected and appointed in accordance with the following procedure: The director shall divide the proration zone into as many districts as may be necessary for the proper administration of such program, and allot to each district the proper number of producers to be appointed to serve as members and alternate members upon a program committee so as to give as nearly as possible adequate representation to all producers in all such districts. Members and their respective alternate members shall be appointed by the director with the approval of the commission from lists of producers eligible to serve on the program committee. Eligible lists shall be established by the director either by means of a meeting or meetings of producers in each district or by means of mail ballot

The method to be used shall be determined by the director with the approval of the commission; provided, that a mail ballot shall be granted upon a written request of ten (10) per cent of the producers. Each producer shall be entitled to one vote and voting by proxy shall not be permitted. From nominations made, not less than three eligible persons shall be selected for each member of the committee. Persons nominated must be producers with producing properties located within the district for which nominated. In the event a corporation or a partnership is a producer, it may designate a representative who may be a nominee. Each respective alternate shall be appointed from the same eligible list from which the member is appointed. Each district in the zone shall be entitled to at least one member and one alternate member on said committee. The program committee may at any time invite handlers or other persons to their meetings to serve in an advisory capacity and may authorize, subject to the approval of the director, the payment of compensation and necessary expenses to persons serving in such advisory capacity at rates not to exceed those granted to program committee members. The director may, if requested by the producer members of the program committee, appoint on said committee, in addition to said producer members, not more than three handler members and their respective alternates who are handlers of the commodity affected by the marketing program of the zone. The appointments of the director shall be subject to approval by the commission. Such approval may be given by the commission, in lieu of approval at a meeting of the commission, by written approval of a majority of the commission members other than the director.

SEC. 12. Section 16 of said act is amended to read:

Sec. 16. Upon the issuance of a marketing program for the written assent of producers the director shall submit a copy of such marketing program in full to each of the producers of the commodity or their duly authorized agent to be affected within the proposed zone as shown by the lists of producers compiled in accordance with the provisions of this act, accompanied by a printed, typewritten or mimeographed form upon which the producer can record his assent to the program. A nonprofit

cooperative association may assent on behalf of any of its members only if authorized so to do by an instrument in writing signed by the member; provided, that such authority may be revoked as to him by any such member by an instrument in writing filed with the director and with such association, which revocation shall become effective three (3) days after its receipt by the director. A copy of any written authorization of a producer to the nonprofit cooperative association of which he is a member shall be forwarded to the director by the association and likewise a copy of any revocation of such authority. When the director finds that the marketing program has been assented to in writing by not less than sixty-five (65) per cent of the producers in the zone who produced for market not less than fifty-one (51) per cent of the quantity of the agricultural commodity or is assented to by not less than fifty-one (51) per cent of such producers who produced for market not less than sixty-five (65) per cent of the quantity of such commodity produced in said zone in the next preceding season, he shall make the marketing program effective.

Institution
of program

The director may at the time of mailing to producers a marketing program or amendments thereto for written assent, establish a closing date after which assents will not be counted. In such event the closing date upon which assents must be post-marked in order to be counted must be shown on the assent form and be announced by a press release for general dissemination issued by the director. In the event the closing date is not established at the time assent forms are mailed to producers, and the director subsequently finds that because of the oncoming harvesting season or because of any other relevant reason it is desirable to fix a closing date for filing assents, he may do so by publishing a notice in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe not less than ten (10) days prior to such closing date and such closing date shall also be announced by a press release for general dissemination issued by the director at least ten (10) days prior to such closing date.

Closing date
for assent

Whenever the director makes a marketing program or amendments thereto effective he shall publish a notice of such effective date in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe, not less than five (5) days prior to such effective date.

Vacancies

Vacancies on the program committee occasioned by the expiration of term of office shall be filled from eligible lists of producers selected in each district obtained as set forth in Section 15 hereof. Vacancies occasioned by the death or resignation of any member, or by removal for incompetence or inattention or neglect of duties as a member of the program committee, by the director, with the approval of the commission, or by a member ceasing to qualify as a producer or handler of the commodity concerned, shall be filled from persons remaining on the eligible lists of producers from which the appointments for the current term were made, or from new lists obtained as set forth in Section 15 hereof.

Modification
of program

SEC. 15. Section 18.1 of said act is amended to read:

Sec. 18.1. Minor amendments may be made to an effective marketing program upon the recommendation of not less than three-fourths or seventy-five (75) per cent of the producer members of the program committee, with the approval of the director; provided, the director finds that such amendments are in conformity with the applicable provisions and procedures of Section 10 hereof. If the director deems it advisable he may, on behalf of the commission, hold a public hearing upon such minor

amendment prior to such approval. Any public hearing held for this purpose shall be held within the boundaries of the zone.

Any amendment to a marketing program involving the addition to or deletion from such marketing program of any one or more of the particulars set forth in paragraphs (a), (b), (c), (d), (e), (f) or (g) of Section 19.1 hereof is hereby declared a major amendment and shall not be made effective unless a public hearing is held thereon in accordance with the provisions of Section 9 of this act for the establishment or institution of a marketing program, and until the director finds that such major amendment is in conformity with the applicable provisions and procedures of Section 10 of this act; and, provided further, that the director finds that such amendment is assented to in writing by producers as prescribed in Section 16 of this act.

Sec. 16. Section 19 of said act is amended to read:

Sec. 19. The program committee with the approval of the director is authorized:

(a) To appoint subcommittees in any producing areas within the zone to facilitate the carrying out of the purposes of this act.

(b) To collaborate and cooperate with agencies or organizations with similar purposes, whether of this State, other States or of the United States, in the formulation and execution of marketing programs or marketing orders having common objectives; provided, that in proper cases the commission or director may require such collaboration and cooperation.

(c) To cooperate with duly constituted authorities in the enforcement of other laws of this State, or of the United States, enacted to protect producers or the consuming public from fraud or deception.

(d) To make contracts and agreements in the furtherance of any of the powers of the program committee.

Sec. 17. Section 19.1 of said act is amended to read:

Sec. 19.1. The program committee for the purpose of minimizing the effect of surpluses or other adverse market conditions may be empowered in any marketing program in any one or more of the following particulars:

(a) To establish and maintain stabilization and surplus pools. The program committee shall be authorized to receive from each producer for delivery into a stabilization or surplus pool the uncertificated portions of the agricultural commodity regulated by a marketing program and market the same by varieties, grades or sizes for the account of such producers when such uncertificated portion can be disposed of advantageously either in its original or converted state. The program committee shall designate the quantity or the percentage of the marketable supply of such commodity that shall be placed in the stabilization pool and the quantity or the percentage of the marketable supply of such commodity that shall be placed in the surplus pool. Quantities or percentages so established shall be applicable to each producer. In operating any stabilization or surplus pool, the program committee may receive and account

for the commodity on the basis of variety, grade or size classifications and may fix servicing charges to be assessed against the total quantity of a any commodity received into such pools. The program committee shall have title to all of the commodity in each of such pools and shall handle all of such commodity received into each of such pools and account for the same to each producer who is beneficially interested therein upon a pooled basis.

(1) In the case of a stabilization pool, the contents thereof may be disposed of or may be marketed from time to time as the program committee deems advisable, consistent with the maintenance of stabilized marketing conditions.

(2) In the case of a surplus pool, the contents of any such pool shall not be marketed in any form which would directly compete with that portion of the commodity which is regularly certificated or which is in a stabilization pool. However, any part of any such surplus pool may be transferred by a program committee on a gratuitous basis to charitable organizations, self-help cooperatives and similar agencies under proper safeguards to prevent any part of the commodity so disposed of from directly competing with the part of the commodity marketed through the usual channels of trade.

Diversion or
substandard
pools

(b) To establish and maintain diversion or substandard pools The program committee shall be authorized to receive from each producer for delivery into a diversion or a substandard pool such quantity of each producer's production or deliveries as fails to qualify for marketing or sale in regular marketing channels, under grade, quality or size regulations established in the marketing program or under standardization laws or other laws of the State or of the United States. In operating any such diversion or substandard pool, the program committee may fix servicing charges to be assessed against the commodity received into such pool and may receive and account for such commodity on a basis of variety, grade and size classifications. The program committee shall have title to all of the commodity in either of such pools and shall handle all of such commodity received into either of such pools and account for the same to each producer who is beneficially interested therein upon a pooled basis. The contents of any diversion or substandard pool shall be disposed of for by-products or for other purposes under proper safeguards to prevent that part of the commodity so disposed of from directly competing with the part of the commodity marketed in its usual form through the usual channels of trade.

Facilities for
storage,
financing,
etc

(c) To create, establish or otherwise obtain and operate facilities for the storing, financing, grading, packing, servicing, processing, preparing for market, selling and disposal of the contents of any pools provided for in this section; but nothing in this act shall authorize a program committee to engage in public warehousing.

The program committee shall have power to pledge all of the commodity in any pools established under the provisions of this

section with a bank or other lending agency for the purpose of obtaining loans thereon. The program committee shall have title to all of the commodity in any such pools for the purpose of financing and handling same.

(d) To create, by a uniform assessment upon producers based upon the volume of the commodity marketed by each or upon some other uniform and equitable basis, maintain and disburse an equalization fund to be used for the removal of any inequalities between producers as to the total volume marketed through prorated channels resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to relief, by-products, or other noncompetitive purposes pursuant to a marketing program. Assessment upon producers

No part of any funds raised for equalization fund purposes as specified in this paragraph shall be applied to the cost of maintenance of the commission and the Department of Agriculture.

(e) To establish, adopt and apply methods for correlating the marketable supply of any commodity to the reasonable market demands therefor by means of volume limitation, time limitation, diversion, or by grade, quality or size regulations applicable to the total production of any commodity, or to that portion of any commodity which qualified for marketing pursuant to standards authorized in the marketing program or standardization laws or other laws of this State, or of the United States; provided that, if grade, quality or size regulations, are authorized under any marketing program for any commodity used for canning, freezing, fermenting or distilling, and such regulations are not an integral part of a proration plan for the purpose of controlling a surplus condition in such commodity, such grade, quality or size regulations or interpretations, or modifications thereof must be approved by a grading committee appointed by the director consisting of the program committee, or a subcommittee thereof, of at least seven members and an equal number of processor representatives nominated by the industry engaged in the processing of the commodity involved; provided, further, that any action of such grading committee must be concurred in by a majority of the processor members and by a majority of the producer members and by the director. Correlating supply and demand

(f) To broaden distribution and increase consuming outlets by appropriate educational and trade stimulation efforts of a general industry nature and not unfairly depreciative of the quality of any other food product. Distribution and consumption

Educational and trade stimulation efforts may include efforts to prevent, modify or remove trade barriers directly affecting the commodity to which the marketing program applies and may also include the presentation of facts to and negotiations with State, Federal or foreign governmental agencies on matters which affect the marketing of such commodity.

For the purpose of providing funds to defray the cost of formulating, administering and enforcing such educational and trade stimulation efforts a fee or assessment shall be established and collected upon the volume of the commodity marketed or upon some other uniform and equitable basis; such fee may be collected separately by the program committee or such fee may be combined with any fee collected for general administrative purposes, in which case the program committee may recommend to the director, and the director may approve, the proportions of such combined fee which may be expended for each of such purposes.

Any portion of the funds so collected during any marketing season or seasons to accomplish the purposes of this paragraph may, subject to the approval of the director, be carried forward for expenditure during seasons subsequent to the season or seasons during which such funds are collected.

Any educational and trade stimulation efforts authorized by any marketing program when approved by growers, either by written assent or by referendum ballots, for a specified period of time but not exceeding four (4) years, may be carried out for such period without the necessity of a biennial referendum as required in Section 25.2.

Producer.
adjustmen.

(g) To provide for the adjustment of production of any agricultural commodity by means of tree or vine pulling. The program committee may receive applications from producers for acreage adjustment payments. The program committee shall, upon proper review and certification, make such acreage adjustment payments on an equitable basis from funds collected for such purpose under the marketing program on a uniform basis from all commercial producers of such agricultural commodity within the zone, or from funds received from Federal, State or other agencies for such purpose.

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by State or Federal agencies or such other data as the director deems to be representative and reliable.

Research

(h) If the program committee finds that the results of research would be advantageous in the administration of a marketing program it is empowered, subject to the approval of the director, to authorize and arrange for such research to be conducted. The cost of such research shall be considered a part of the cost of the administration of that portion of the marketing program for which such research is authorized. In any such research carried on hereunder, the Dean of the College of Agriculture of the University of California and the program com-

mittee shall cooperate in selecting the research project or projects to be carried on from time to time. Insofar as practicable, such project shall be carried out by said College of Agriculture, but if the dean of said college and the program committee determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the program committee.

Sec. 21. The proportion of the fees payable to the commission and to the Department of Agriculture may vary upon a seasonal basis for each program according to the estimated expense to be incurred by the director and the commission in administering such program; provided, that the amount so required shall not exceed fifteen per cent (15%) of the certificate fees collected by the zone agent specifically for administrative purposes and in addition such proportion of fees collected for any educational and trade stimulation program as may be required by the commission and the director to administer such program which shall in no event exceed five per cent (5%) of the fees collected for such purpose, unless the payment of a larger proportion of such funds is approved by the program committee for such marketing program.

Surplus
funds

At the end of any marketing season as designated in each marketing program, after proper provision has been made for the payment of all necessary expense incurred in connection therewith, any moneys remaining to the credit of the program committee, other than those collected to carry out the purposes of paragraph (f) of Section 19.1, shall be refunded upon a pro rata basis to all persons from whom certificate fees were collected; provided, that, if the marketing program continues in effect, such refund may, upon the resolution of the program committee with the approval of the director, be deferred so as to permit the program committee to use such residual funds to meet operating expenses in the succeeding season or until sufficient funds have been collected or the collection of sufficient funds is assured to enable such committee to make such refund and to defray the expenses of the then current marketing season, including an allowance for preliminary expenses of the next succeeding season. At the time such refund is made, the program committee shall file with the director a claim for such refund to growers entitled thereto. If the director finds that as of the end of any marketing season the amount remaining to the credit of the program committee is so small as to make impractical the computation and remitting of such pro rata refund, the director may authorize the transfer of such funds to the then current marketing season for expenditure in carrying out the marketing program. Unexpended balances of moneys collected to carry out the purposes of paragraph (f) of Section 19.1 sufficient in amount to warrant incurring the expense of making a refund shall be refunded following the termination of any marketing program containing provisions authorized by said paragraph (f) or following the suspension or termination of educational and trade stimulation provisions of any marketing program and such refund shall be made upon such pro rata basis as the program committee and the director determine to be equitable. If such unexpended balance is so small as to make impractical the computation and remitting of a pro rata refund, the director may authorize the transfer of such funds to the administrative account of the marketing program or to the Department of Agriculture Fund for the support of the commission and the Department of Agriculture in carrying out their duties in the administration of this act.

Minimum
refund

Unless otherwise requested by the program committee, the Director of Agriculture shall not be required to issue refunds to any producer in an amount less than one dollar (\$1).

Any checks or warrants drawn against the fund to any marketing program remaining unclaimed or uncashed for a period of six months from date of issuance shall be canceled and the money retained for disbursement to the original payee or claimant upon satisfactory identification for a period of one year from the time said checks or warrants are canceled. The money so retained, if not claimed within said period of one year shall be credited to the then currently operating marketing program for the commodity under which the funds so retained were collected. If there is no program then in effective operation for such commodity the funds shall be credited to the unexpended balance, if any, of the last previous marketing program for such commodity. In the event there is no marketing program then in current operation or no balance exists from any previous marketing program to which such funds may be credited, then the funds so retained shall be deposited in the State treasury as unclaimed trust moneys.

Unclaimed funds

No agent or employee of the program committee shall have or receive any funds collected pursuant to the provisions of this act until such agent or employee has filed with the director a bond in such form and in such penal sum as the director may prescribe.

Bond

Upon the recommendation of the program committee the director may relieve the zone agent of the responsibility of collecting any amounts due and unpaid not exceeding one dollar (\$1) when the director determines that the collection thereof is improbable or the cost of collecting the same would exceed the amount involved.

Sec. 22. The director shall have power to establish such rules and regulations consistent with this act as may be necessary to carry out the purposes and attain the objectives thereof.

Rules and regulations

The exercise of the powers granted to a program committee in its administration of a marketing program made effective in accordance with the provisions of this act shall be subject to the approval of the director. In the event the director disapproves of an action taken by a program committee or does not within a reasonable time approve of an action of a program committee, said committee may appeal to the commission. The commission shall make a review of the subject matter under consideration and make a determination. In such event the director shall proceed in accordance with the determination of the commission.

The director through his duly authorized representatives and agents, including any zone agent in charge of a proration program, shall have access, solely for the purposes of investigating possible violations of any program, to the records of producers, dealers, distributors, public and private property transportation agencies, and handlers of a commodity as to which a proration program has been instituted, and shall have at all times free and unimpeded access to all buildings, yards, warehouses, stores and transportation facilities and other places in which any commodity under a proration program is kept, stored,

Termination
of program
Application

Sec. 23. After the institution of any marketing program, such program shall be terminated when there is filed with the director an application for its termination signed by not less than forty (40) per cent of the producers who produced not less than forty (40) per cent of the commodity affected within the zone during the last preceding season. The signatures of the producers upon the application shall be those of the producers whose names appear on the list or lists provided for in Section 11 or on any corrected list which the director shall have had prepared during the existence of the program, or their successors in interest. Each petitioner shall upon affixing his signature thereto write in the date of signing, and no signature to such petition shall be valid for any purpose if affixed thereto more than six months prior to the filing of such application with the director. Such petition shall be accompanied by a good and sufficient undertaking in an amount equal to the probable costs incident to conducting said hearing and making of findings. A hearing must be held by the director upon the petition to determine the sufficiency of the signatures thereto, which hearing must be held within sixty (60) days after the presentation of the petition. If from a check of such petition together with the facts and evidence adduced at said hearing, it shall be established that the petition to terminate is signed by said required forty (40) per cent of the producers who produced at least forty (40) per cent of the agricultural commodity affected, the director, with the approval of the commission, shall thereupon terminate the program; provided, that any marketing program on a seasonal crop shall not be terminated except at the end of its marketing season.

Undertaking

Hearing

Costs of
hearing

In such case the costs incident to conducting such hearing and making of findings shall be paid from the funds of the program to the extent that they are available and thereafter from the undertaking. In the event the petition be found insufficiently signed, the entire cost of conducting such hearing shall be paid from the undertaking. In the event of the termination of a program, any funds remaining for the use of the program committee not otherwise disposed of by the provisions of this act shall be deposited in the State treasury to the credit of the Department of Agriculture Fund.

Investigation
re necessity

The director, on behalf of the commission, may at any time initiate an investigation to determine whether or not the facts specified in Section 10 hereof continue to exist. Upon a finding that any one or more of the prerequisite facts no longer exist, the director, with the approval of the commission, shall terminate or suspend said program and may dissolve the zone. In no case shall any program on a seasonal crop be terminated or suspended except at the end of its marketing season.

shall, therefore, go into immediate effect. A statement of the facts constituting such necessity is as follows:

The necessity for orderly and stabilized marketing conditions for agricultural products is imperative as an aid to the completion of the war effort and to prevent adverse conditions of production and of the distribution of agricultural products under the war conditions. By reason of probable changes in Government purchases and other factors producers of many California agricultural commodities face possible surpluses and other adverse marketing conditions for the 1945 harvesting and marketing season and for subsequent seasons. Orderly and stabilized marketing conditions will aid in the war effort and will assist agricultural producers in readjusting to peacetime levels of production and prices.

CHAPTER 991

An act to add Article 4, comprising Sections 16470 to 16476, inclusive, to Chapter 3 of Part 2 of Division 4 of the Government Code, relating to investment of surplus State funds, creating the Surplus Money Investment Fund, making an appropriation, and declaring the urgency of this act, to take effect immediately.

In effect
immediately

[Approved by Governor June 23, 1945 Filed with Secretary of State
June 23, 1945]

The people of the State of California do enact as follows:

SECTION 1. Article 4, comprising Sections 16470 to 16476, inclusive, is added to Chapter 3 of Part 2 of Division 4 of the Government Code, to read:

Article 4. Special Fund Investments

Investment
of surplus
money

16470. The State Treasurer, State Controller, and Director of Finance shall, at such times as they deem necessary, determine whether any portion of the money then on deposit in the State treasury to the credit of any fund, exclusive of the General Fund and exclusive of any special funds the investment of which is otherwise provided for by law, is not necessary for immediate use; and if so, they shall determine the amount thereof in each such fund, which amount shall thereupon be designated as "surplus money." This article does not apply to the State Highway Fund.

Surplus
Money
Investment
Fund

16471. Upon the determination and designation of surplus money in any special fund, the State Treasurer shall, on order of the State Controller, transfer from such fund to the Surplus Money Investment Fund in the State treasury, which fund is hereby created, the amount of surplus money so determined and designated. Nothing herein contained shall authorize the

transfer of money from any special fund to the Surplus Money Investment Fund, if such transfer will interfere with the carrying out of the purpose for which such special fund was created. No money shall be transferred to the Surplus Money Investment Fund and no investments, reinvestments, or exchanges of securities shall be made therein after December 31, 1947. Duration

16472. All moneys transferred to or deposited in the Surplus Money Investment Fund are hereby appropriated to carry out the purposes of this article. The appropriation herein contained shall be exempt from the provisions of Section 435 of the Political Code or Section 16304 of the Government Code. Appropriation

16473. The State Treasurer, State Controller, and Director of Finance shall, at such times as they deem necessary, determine whether any portion of the money theretofore transferred to and remaining in the Surplus Money Investment Fund from any special fund is needed by such special fund to carry out the purposes for which it was created; and if so, they shall determine the amount thereof. Thereupon, they shall reduce the amount of surplus money theretofore designated with respect to such special fund by the amount determined to be needed by such fund. Upon such reduction of the surplus money in any special fund, the State Treasurer shall, on order of the State Controller, transfer from the Surplus Money Investment Fund to such special fund an amount of money equal to that by which the surplus money of such fund was reduced. Retransfer to special fund

16474. The money in the Surplus Money Investment Fund, exclusive of interest earned or other increment derived from the investment thereof, may be invested and reinvested by the State Treasurer in bonds or other obligations of the United States or for which the full faith and credit of the United States are pledged, having maturity dates not more than one year from the date of such investment, or redeemable by the United States Treasury at the owner's option at fixed redemption values within one year from the date of such investment. Such securities may be sold by the State Treasurer or exchanged by him for other securities of the kind authorized to be purchased hereunder, if, in his discretion, such sale or exchange appears to be in the best interests of the State. Investments

16475. Interest earned and other increment derived from investments made pursuant to this article shall, on order of the Controller, be deposited in the Surplus Money Investment Fund. During the months of January and July of each year, the Controller shall apportion to the following funds in the State treasury all interest earned or increment derived from the investments authorized by this article and deposited in the Surplus Money Investment Fund during the six calendar months immediately preceding the month in which such apportionment is made: Apportionment of interest, etc

(a) The General Fund;

(b) Each fund into which are deposited or which contains moneys collected from any tax now or hereafter imposed by

the State upon the manufacture, sale, distribution, or use of motor vehicle fuel, for use in motor vehicles upon the public streets and highways;

(c) Each fund into which are deposited or which contains moneys collected from motor vehicle and other vehicle registration license fees or from any other tax or license fee now or hereafter imposed by the State upon vehicles, motor vehicles or the operation thereof, except those taxes and license fees which, by the provisions of Section 4 of Article XXVI of the Constitution of this State are exempted from the provisions of Section 2 of said Article XXVI;

(d) Each fund into which are deposited or which contains moneys collected under the provisions of any law of this State relating to the protection, conservation, propagation, or preservation of fish, game, mollusks, or crustaceans, and fines imposed by any court for the violation of any such law.

Determina-
tion of ap-
portionment

Such apportionments shall be determined in the following manner:

(1) All money not apportioned to the funds referred to in (b), (c), and (d) herein shall be apportioned to the General Fund.

(2) There shall be apportioned to each of the funds referred to in (b), (c), and (d) herein an amount equal to the product obtained by multiplying by the apportionment factor applicable to such fund the total amount available for apportionment to all funds. The apportionment factor applicable to each such fund shall be that fraction whose numerator is the sum of the products obtained by multiplying each amount transferred from such fund to the Surplus Money Investment Fund by the number of days during the apportionment period during which such amount remained in the Surplus Money Investment Fund, and whose denominator is the sum of the products obtained by multiplying each amount transferred from any fund to the Surplus Money Investment Fund by the number of days during the apportionment period during which each such amount remained in the Surplus Money Investment Fund. A 360-day year shall be employed in all calculations provided by this section.

Upon order of the State Controller, the State Treasurer shall transfer to each fund the amount apportioned thereto.

Constitu-
tionality

16476. If any provision of this article, or the application thereof to the money in any fund referred to herein, is held invalid, the remaining provisions of this article shall not be affected thereby.

Urgency

SEC. 2. This act is hereby declared an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The State treasury has a large surplus at the present time, and the longer the investment of the surplus is delayed the smaller will be the accrual to the State from such investment.

The United States is now engaged in a costly and deadly war and it is in dire need of funds to successfully prosecute the war. It is to the interest of the peace, health and safety of the State that its surplus funds be made immediately available to the United States for the prosecution of the war.

See Sec 8
for effective
date

[Approved by Governor June 25, 1945 Filed with Secretary of State
June 25, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Article 7 is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 7. Cooperation with United States in Settling Veterans on Federal Lands

Declaration
of policy

997. The purposes and policy of this article is as follows:
Large areas of land of the United States within this State are

susceptible of being opened to entry by veterans. Portions of such lands may be made highly productive by bringing irrigation water to such lands. The cost of the necessary works to bring such water to the land would in most instances be prohibitive if attempted by an individual, whereas the works for the bringing of such water to large tracts of land would in many cases render such lands productive at a cost commensurate with the additional value of such lands.

997.1. The Veterans Welfare Board shall administer the provisions of this article and may conduct such investigations and enter into such negotiations with the United States or any branch or agency of the government thereof as may be necessary for the formation of projects whereby Federal lands of suitable area are opened to entry only by veterans as defined in this chapter.

Duty of
Veterans
Welfare
Board

997.2. If the board finds that a tract or tracts of Federal land have been opened to entry exclusively by such veterans and that such lands may be supplied with irrigation water brought to such land by the construction of works for the entire tract and that the cost of such works would be commensurate with the increased value of such land the board may cause such works to be constructed pursuant to this article.

Irrigation of
Federal land

997.3. Before constructing any such works the board shall assure itself that pursuant to Act of Congress or valid regulation of any agency of the United States the land to be benefited has been dedicated to entry exclusively by veterans and that the provisions relating to the requirements for taking title by such veterans are such that the veteran may develop and operate such land at a return sufficient to support himself and family and to pay the costs of construction, maintenance, and operation of such works as may be apportioned to his land.

Dedication
of land to
entry by
veterans

997.4. Provision shall be made by the board with the cooperation of the United States or the appropriate agency thereof for apportioning all of the costs of construction, operation and maintenance of works constructed by it to the lands benefited or to be benefited by such works in such manner that the initial cost of such works will be returned to the State over a period of not to exceed 40 years together with interest on such investment at a rate to be fixed by the board and not exceeding 5 per cent per annum and also in such manner that such works will be adequately maintained, operated, and kept in repair throughout such period. The board may enter into such contracts with the United States or any agency thereof, with public districts or agencies of this State, or with veterans, or with any or all thereof, as may be necessary to carry out the provisions of this chapter. No expenditure shall be made pursuant to this article until the Attorney General has investigated the project on which the proposed expenditure is to be made and has approved the project. The Attorney General shall approve a project only if he finds in relation thereto all of the following:

Apportion-
ment of cost

Contracts

Approval of
project

(a) That the Federal law and regulations pursuant thereto conform to the prerequisites of this article.

(b) That the investment of the State will be protected despite the default or failure of any veteran to make any payments or take any steps necessary to vest title in him to the land he seeks to acquire and that in case of any such default or failure the State will be protected by subrogation to the rights of such veteran or by other adequate safeguards.

(c) That the project is otherwise legally sound.

Maximum investment

997.5. The board shall not, at any one time, have a total investment outstanding under this article of more than three million dollars (\$3,000,000). All money received by the board pursuant to this article shall be deposited in the Veterans Farm and Home Building Fund of 1943 and shall be available for the purposes of carrying out the provisions of this article.

Scope of article

997.6. This article shall be supplementary to the provisions of the Veterans Farm and Home Purchase Act of 1943.

Effective date

SEC. 2. The provisions added to the Military and Veterans Code by this act shall take effect only if the Veterans Bond Act of 1945 is enacted and in that event shall take effect at the same time said act takes effect.

[Approved by Governor June 25, 1945. Filed with Secretary of State June 25, 1945.]

In effect
September
15, 1945

The people of the State of California do enact as follows:

SECTION 1. Section 2.04 of the act cited in the title hereof is hereby amended to read as follows: Stats 1943, p 1299

Sec. 2.04. Articles To Be Approved by Commissicner. Approval of articles
Before the articles of incorporation of any proposed domestic association, or the articles of incorporation, certificate of incorporation, charter, or any similar document relating to any foreign association, shall hereafter be filed in the office of the Secretary of State of California, there must be attached thereto a certificate of the commissioner approving the same. Such articles, certificate, charter, or other similar document shall be submitted to the commissioner with a copy of the by-laws and an application, signed by a majority and verified by one of the directors, requesting such approval; which application shall set forth (a) the names and addresses of the incorporators, directors and officers, with a statement of their character, experience and general fitness to engage in the building and oan business; (b) an itemized statement of the estimated receipts and expenditures of such association for the first year or such longer period as the commissioner in his discretion may require; (c) a showing that the public convenience and advantage will

be promoted by the formation of such association or its qualification to do business in this State; and (d) such other matters as the commissioner may require. Upon receipt of such articles, certificates, charter, or other similar document, and of such application, the commissioner shall immediately examine and investigate into all the facts connected with the formation or qualification of such association, including its incorporators, directors and officers, its proposed location, its estimated receipts and expenditures and whether the public convenience and advantage will be promoted by the formation or qualification of such association. The commissioner may refuse to execute his certificate of approval, if, upon his examination and investigation, he has reason to believe that the corporation is to be formed or qualified for any business other than legitimate building and loan business, or that the incorporators, directors or officers lack the character, experience or general fitness to engage in such business, or that such association's financial program is unsound, or that the public convenience and advantage will not be promoted by the formation or qualification of such association. The commissioner, however, shall not execute such certificate until he has given written notice by mail to each association then existing in this State, directed to it with postage thereon prepaid at its principal office in this State, that an application for the issuance by him of such certificate has been made, together with the name of the association in respect of which such application shall have been made, and that a hearing will be held by him at a time and place to be therein specified which shall not be less than 10 days after the mailing thereof; and the commissioner shall give such notices, and at the time and place specified in such notices shall hold a hearing at which any person, firm or corporation may appear in person or by agent or attorney, and orally or in writing show cause why such certificate should not be issued upon any relevant ground, including among others the ground that the name of such association is the same as one already adopted or appropriated by any association then existing in this State, or so similar thereto as to be likely to mislead the public; and if, upon such hearing or his examination or investigation, the commissioner shall have reason to believe that the name of the association is the same as one already adopted or appropriated by any association then existing in this State, or so similar thereto as to be likely to mislead the public, he shall refuse to issue such certificate; and the commissioner shall conclusively presume that the use of any word or words in the name of the association the same as or similar in spelling or sound to any word or words already adopted, appropriated, or used in its corporate name by any association then existing in this State, except the words: "the," "and," "mutual," "guaranty," "guarantee," "building," "loan," "savings," or "association," constitutes such similarity of names as to be likely to mislead the public; provided, further, that if any and all associations then existing in this State causing such presumption file consent in writing thereto

with the commissioner, the commissioner may nevertheless issue such certificate. Wherever in this section reference is made to the by-laws, incorporators, directors and officers, such reference in the case of a proposed domestic association shall refer to the proposed by-laws, incorporators, directors and officers thereof.

No domestic association hereafter incorporated, and no foreign association hereafter qualifying to do business in the State, which shall include the word "mutual" in its name, shall be permitted to issue stock without first eliminating from its name the word "mutual." The term "existing in this State," wherever used in this section, shall include foreign associations licensed to do building and loan business in this State.

Sec. 2.07. Branches. No association shall open, maintain or conduct a branch without first applying for and obtaining from the commissioner a license for such branch. The application for such license shall be in such form as the commissioner shall require, and shall include an itemized statement of the estimated receipts and expenditures of such association in connection with such branch for the first year or such longer period as the commissioner in his discretion may require and a showing that the public convenience and advantage will be promoted by the operation of such branch. If satisfied that the operation of such branch is in the interest of such association and that the public convenience and advantage will be promoted by the operation of such branch, the commissioner shall issue his license for such branch; otherwise such license shall be refused. The commissioner, however, shall not execute such license until he has given written notice by mail to each association then existing in this State, directed to it with postage thereon prepaid at its principal office in this State, that an application for the issuance by him of such license has been made, together with the name of the association applying for such license and the name of the city or town in which such branch is proposed, and that a hearing will be held by him at a time and place to be therein specified which shall not be less than 10 days after the mailing thereof; and the commissioner shall give such notices, and at the time and place specified in such notices shall hold a hearing at which any person, firm or corporation may appear in person or by agent or attorney, and orally or in writing show cause why such license should not be issued upon any relevant ground. The applicant shall pay for such license a fee of fifty dollars (\$50) and such license shall continue in force and effect until canceled by the commissioner for cause. No association issuing investment certificates shall open, maintain or conduct any such branch unless the amount of its investment certificate reserve as defined in Section 5.03 of this act shall exceed the amount required by said Section 5.03 by the sum of twenty-five thousand dollars (\$25,000) for each branch opened, maintained or

SEC. 3. Section 3 02 of said act is hereby amended to read as follows:

Withdraw-
able shares

Sec 3.02. Description of Withdrawable Shares. Withdrawable shares shall be of the par value of one hundred dollars (\$100) or two hundred dollars (\$200) each, as provided in the articles of incorporation or by-laws, and shall be paid for by the subscribers or shareholders as provided in the by-laws. Such payments may be, and are hereafter sometimes in this act, called dues. Certificates evidencing shares, with or without pass-books, shall be issued to each shareholder on the first payment of dues by him. When the dues paid on any share, together with the dividends or profits apportioned thereto, shall equal the par value thereof, such share shall have reached its matured value. Except in connection with mergers, consolidations or transfers pursuant to Section 2.06 of this act, no shares shall be issued for any consideration other than cash or cancellation of outstanding shares of the same association of equal value or, with the approval of the commissioner, of different values. All shares matured in respect of which payment shall have been made by the association to the shareholder, and all shares surrendered or canceled, may be reissued. Accumulative shares may be issued with the provision that at all times the holder or holders thereof shall be the owners of the number of shares and a fraction of a share determined by dividing the value of such shares as defined in Section 1.01 of this act by the par value thereof. Shares may be issued as full paid shares, installment shares, accumulative shares or prepaid shares. Differences, if any, between the rates of return or the bases of participation for two or more of such classes of shares may be prescribed in the by-laws.

Reissuance

Full paid
shares

(a) Full Paid Shares. Full paid shares shall be shares upon which a single payment of dues amounting to the par value of said shares shall be paid at the time of subscription and upon which the holder shall be entitled to such participation in the net profits, not exceeding the rate apportioned to installment shares, as the board of directors shall determine. All such shares may be issued in one or more classes as to participation, under regulations prescribed in the by-laws and which must be fully set forth in or upon each certificate issued.

(b) **Installment Shares.** Installment shares shall be either "serial" or "nonserial" in form. When issued in "serial" form the periodical dues on shares in each series shall commence with the date of the issue of such series and the holder must pay such dues per share and at such times as the by-laws provide, and such payments shall continue on each share until, with the dividends or profits apportioned thereto, it reaches its matured value or is withdrawn or canceled. On all serial issues the dividends or profits shall be apportioned and credited equally to each share in the same series. No share of a prior series shall be issued after the issue of shares in a new series, except by way of transfer. Installment shares issued in "nonserial" form may be issued at any time and the dividends thereon shall be credited to such shares. Shares of either form may be issued in "classes" with a different periodical payment for each class, to be specified in the by-laws, and shall be issued with full participation in the profits subject to apportionment as dividends; provided, however, that associations issuing stock may, if their by-laws so provide, issue installment shares limited to a maximum rate of dividend.

Installment
shares

(c) **Accumulative Shares.** Accumulative shares are shares which shall participate in the apportionment of net profits and be credited therewith at a rate not exceeding the rate apportioned to installment shares, as the board of directors shall determine, and upon which the dues may be paid in at such times and in such amounts as the holder thereof may elect and as the association may permit until said shares reach their matured value or are canceled or withdrawn.

Accumulative
shares

(d) **Prepaid Shares.** Prepaid shares shall be shares not full paid, upon which a single payment shall have been made, and which are to reach their matured value through crediting on such shares, dividends or earnings thereon. The holders of prepaid shares shall be entitled to such participation in the net profits, not exceeding the rate apportioned to installment shares, as the board of directors shall determine.

Sec. 3.03. **Maturity of Shares.** When any share shall have reached its matured value, payment of dues thereon shall cease. Borrowing shareholders whose loans are fully paid shall have their securities released and returned to them. Holders of free shares shall upon the presentation of such shares for cancellation and upon giving a receipt for payment, be entitled to the payment of the matured value thereof with interest or earnings thereon at the rate last paid or apportioned upon the same class of shares from the time the board of directors shall have declared such shares to have matured until paid. Such payment shall be subject to the provisions of Article 6 of this act applicable thereto.

Investmen.
certificates

Sec. 5.01. Description of Investment Certificates. An association may issue investment certificates, with or without passbooks. The holders of investment certificates shall have no liability for debts or assessments, and shall be entitled upon liquidation of an association to receive payment in full before any payment or distribution shall be made to shareholders or stockholders. The holders of investment certificates shall have no right to participate in the profits or dividends. Except in connection with mergers, consolidations or transfers pursuant to Section 2.06 of this act, no investment certificate shall hereafter be issued for a consideration other than cash or cancellation of outstanding investment certificates of the same association of equal value or, with the approval of the commissioner, of different values. Subject to the provisions of this act and of the respective investment certificates, certificate holders shall be entitled to have interest paid or credited at the rate determined pursuant to Section 8.10 and to the return of their principal with accrued interest upon withdrawal, redemption or maturity. Investment certificates may be issued as full paid investment certificates, installment investment certificates, accumulative investment certificates, minimum term investment certificates or prepaid investment certificates. If so provided in any investment certificate, interest thereon shall not exceed a specified rate. Subject to the provisions of Section 5.06 and 5.07 of this act, interest on installment investment certificates hereafter issued and on prepaid investment certificates hereafter issued shall continue to accrue after the maturity thereof until such certificates shall be withdrawn.

Types

Full paid
certificate

(a) Full Paid Certificates. A full paid investment certificate shall be an investment certificate, without an expressed date of maturity, for which the association shall have received the principal amount thereof at or prior to the time of the issuance thereof.

Installmen.
certificates

(b) Installment Certificates. An installment investment certificate shall be an investment certificate not full paid, upon which the holder shall be obligated to make payments at the times and in the amounts specified therein.

Accumulative
certificates

(c) Accumulative Certificates. An accumulative investment certificate shall be an investment certificate, not full paid and without an expressed date of maturity, upon which the holder shall have the option of making payments at such times and in such amounts as such holder may elect and as the association may permit.

Definite term
certificates

(d) Definite Term Certificates. A definite term investment certificate shall be an investment certificate, for which the association shall have received a single payment equal to the principal amount thereof, and which shall have a date of maturity expressed therein, which date shall be at least one year from the issuance of such certificate. On or after such maturity date, without any prior notice of intention to withdraw, the

holder of a definite term investment certificate shall be entitled, subject to Section 6.02 of this act, to receive the full principal amount thereof together with accrued interest thereon, if any such interest be unpaid on such date. Unless otherwise specified in a definite term investment certificate, no interest shall accrue thereon after the date of its maturity except that if the association on or after the maturity date of any such certificate shall fail to make payment thereon upon such certificate being tendered for surrender, then interest shall continue to accrue on such certificate from such maturity date until such certificate is paid, or until such association shall have funds available for the payment thereof and shall have notified the holder of such certificate that such funds are so available. At the option of an association, any definite term investment certificate issued by it may provide that if the holder does not tender such certificate for surrender within a period specified therein (which period shall not be less than 30 days) after the date of maturity specified therein, then such maturity date shall be postponed until a future date specified in such certificate; and if any certificate containing such provision shall not be tendered for surrender within the period so specified, such future date shall thereafter become and be the date of maturity of such certificate for all purposes. Any certificate containing such provision may also provide for one or more additional postponements of the date of maturity, in the manner and with the effect aforesaid. No single postponement pursuant to either of the foregoing provisions shall be for a longer period than the initial term of the certificate. An association at its option may provide in any definite term investment certificate issued by it that if the holder does not tender such certificate for surrender within a period specified therein (which period shall not be less than 30 days) after the date of maturity specified therein, then such holder shall have no right to withdraw as the holder of a definite term investment certificate; and if any certificate containing such provision shall not be tendered for surrender within the period so specified, such certificate shall cease to be a definite term investment certificate and shall become and be a full paid investment certificate, subject to the same withdrawal rights and restrictions as a full paid investment certificate. No association shall hereafter issue any definite term investment certificates except in lieu of definite term investment certificates heretofore issued by it.

(e) Minimum Term Investment Certificates. A minimum term investment certificate shall be an investment certificate, for which the association shall have received a single payment equal to the principal amount thereof and which shall have a date expressed therein before which notice of intention to withdraw can not be given, or which shall require written notice from the holder to the association for a period specified therein before the expiration of which period notice of intention to withdraw can not be given. On and after such date, or upon and after the expiration of the specified period following such

Until such notice shall have been so given, such association may conclusively presume that investment certificates and shares have not been transferred or encumbered, and may, in the absence of such notice, make any and all payments or issue new investment certificates or shares to or in the name or names of the person or persons in whose name or names its certificates or shares are issued, whether or not such investment certificates or shares are presented at the time of such payment or issuance, and shall have no responsibility to a transferee or lienholder with respect to any investment certificates or shares, or parts thereof, so paid or reissued.

The rate or rates of return on such shares or investment certificates or both shall be determined during, or within 30 days before the beginning of, or within 30 days after the end of, each quarterly or semiannual period by the board of directors of the association and, except in the case of an association (a) issuing neither investment certificates nor stock or (b) having no matured withdrawal claims as such term is defined in Section 6.02, shall be subject to the approval of the commissioner. The commissioner shall approve such rate or rates unless he finds the same unfair, unjust or inequitable, having due regard to the earnings of the association, the nature and amount of its assets and liabilities, and the amount of its undivided profits, reserves, surplus and capital; and if, within 10 days after the commissioner shall have been advised in

Distributors who are subject to minimum wholesale and minimum retail prices for fluid milk as established by the director shall pay to the director on all milk fat contained in fluid milk purchased from producers, including their own production, if any, a fee in mills per pound of milk fat equal to that required to be deducted from the payments due producers of fluid milk under Section 737.6 of this code. Such assessed fees received by the director shall be used in the administration and enforcement of this chapter.

Distributors who are subject to the provisions of any minimum wholesale and minimum retail prices for fluid cream as established by the director shall pay to the director on all milk fat contained in fluid cream purchased from producers, or fluid milk for fluid cream purchased from producers, including their own production, if any, a fee in mills per pound of milk fat equal to that required to be deducted from the payments due producers of fluid milk for fluid cream or fluid cream under Section 737.6 of this code. Such assessed fees received by the director shall be used in the administration and enforcement of this chapter.

At the close of each fiscal year any amounts which have been collected and which the director finds are in excess of those which may reasonably be required for the administration and enforcement of this chapter shall be refunded pro rata to all distributors from whom such sums were due and collected pursuant to the provisions of this section.

SEC. 6. Section 736.15 of the Agricultural Code is amended to read:

736.15. The director may appoint local control boards for the marketing areas established pursuant to this chapter to assist and advise him in matters pertaining to the marketing, distribution and sale of fluid milk or fluid cream or both. The board shall consist of nine members, who shall be residents of or engaged in business within the marketing area for which they are appointed by the director, four of whom shall be persons whose major interest is the distribution, marketing or sale of fluid milk or fluid cream or both, one producer-distributor, two retail storekeepers, one person active in the restaurant business or a person representing restaurants and one person, representative of the consuming public, who has no connection with the milk or cream business. In marketing areas where organized labor is the collective bargaining agent of milk plant employees the director may, upon recommendation of a majority of the board members, add a representative of organized labor to the local distributor board. The terms of office of each member shall be two years, unless the plan is terminated before said term expires. Said local board may meet in regular session each month, and each member shall be allowed ten dollars (\$10) per diem and mileage at the rate of five cents (\$.05) per mile for attending such regular meetings. The board, or any member thereof, may be allowed actual and necessary expenses incurred in attending any meeting or conference called or authorized by the director within or outside of the boundaries of the State of California. Said board with the previous approval of the director may employ such personnel as may be necessary in the performance of its duties and shall adopt rules and regulations for its conduct. The board shall submit a budget of its expenses to the director for his approval. The funds to be used for the maintenance of the board shall be paid from the proceeds of fees and licenses paid to the director under the plan upon verified claims presented by the board to the director. The board shall not incur any expenses other than those for per diem and mileage, unless approved by the director.

SEC. 7. Section 737.5 of the Agricultural Code is amended to read:

737.5. (a) No distributor shall deal in fluid milk or fluid cream without first having obtained a license from the director. The special licenses provided in this section are in addition to any and all licenses required by any other section of Division 4, Agricultural Code, or any law or ordinance of any county or municipality of this State. Applications for

the licenses herein provided shall be made on forms prescribed by the director and shall state the name and address of the applicant and such details as to the nature of the applicant's business as the director may require. Such applicant shall further satisfy the director of his or its character, responsibility and good faith in seeking to carry on the business stated in the application. Licenses shall be issued for a period of twelve (12) months from the first day of each year or for the remainder of the calendar year from the date of issuance. Application for renewal of a license for the following year by a licensee, together with the application fee, shall be made prior to the expiration date of the license held, and if not so made the applicant shall pay an additional sum equal to 100 per cent of the application fee before such license shall be issued.

Bond

(b) Every distributor before purchasing any fluid milk or fluid cream from a producer must execute and deliver to the director a surety bond in the minimum sum of one thousand dollars (\$1,000), executed by the applicant as principal and by a surety company qualified and authorized to do business in this State as surety. Said bond shall be upon a form approved by the director, and shall be conditioned upon the payment in the manner required by this chapter, of all amounts due to producers for fluid milk and fluid cream purchased by such licensee or applicant during the license year. Said bond shall be to the State in favor of every producer of fluid milk and fluid cream. In case of failure by a distributor to pay any producer or producers for fluid milk or fluid cream in the manner required by this chapter, the director shall proceed forthwith to ascertain the names and addresses of all producer-creditors of such distributor, together with the amounts due and owing to them and each of them by such distributor, and shall request all such producer-creditors to file a verified statement of their respective claims with the director. Thereupon the director shall bring an action on the bond on behalf of said producer-creditors. Upon any action being commenced upon said bond, the director may require the filing of a new bond and immediately upon a recovery in any action upon such bond, such distributor shall file a new bond, and upon failure to file same within ten (10) days in either case, such failure shall constitute grounds for the revocation or suspension of the license of such distributor. In the event that recovery upon the bond is not sufficient to pay all of the claims as finally determined and adjudged by the court, any such amount recovered shall be divided pro rata among said producer-creditors.

Amount of
bond

The minimum bond of one thousand dollars (\$1,000) shall be required of distributors purchasing an average daily quantity of fluid milk of less than 100 gallons; distributors purchasing an average daily quantity of 100 gallons and less than 200 gallons during any calendar month during a license year must post

a bond in the amount of two thousand dollars (\$2,000); distributors purchasing an average daily quantity of 200 gallons and less than 300 gallons during any calendar month during a license year must post a bond in the amount of three thousand dollars (\$3,000); distributors purchasing an average daily quantity of 300 gallons or more during any calendar month during a license year shall post a bond in the sum of five thousand dollars (\$5,000).

The same bond requirements shall apply to purchases of fluid cream, except that for the purposes of computation of the required bond, 10 gallons of fluid cream shall be deemed the equivalent of 100 gallons of fluid milk.

In the event that any distributor so increases his purchases of fluid milk or fluid cream during the license year that said purchases exceed the amount for which said distributor is bonded, said distributor shall forthwith post such additional bond or bonds as may be required to comply with the provisions of this section.

The licenses and bonds provided for in this section shall be required for each distributor, and for the purposes of this section each subsidiary milk plant or branch milk plant whether under one ownership or not shall be considered as an individual distributor.

Failure of any distributor who purchases fluid milk or fluid cream from producers to execute and deliver the bond as herein provided and required shall constitute a violation of this chapter; failure of any such distributor to post such additional bond or bonds as may be required to comply with the provisions of this chapter shall likewise constitute a violation of this chapter.

SEC. 8. Section 737.6 of the Agricultural Code is amended to read:

737.6. (a) For filing the application herein described, each applicant shall pay a fee of three dollars (\$3).

(b) Distributors who are subject to the provisions of any stabilization and marketing plan made effective by this chapter, shall deduct from payments due producers for fluid milk, fluid cream or both, including each distributor's own production, the sum of two mills (\$.002) per pound milk fat on all milk fat contained in fluid milk, fluid cream or both, or in the case of distributors who do not purchase or receive fluid milk, in milk fat pounds, the sum of seven mills (\$.007) for each 10 gallons of fluid milk sold. The amount of the assessments so deducted shall be paid to the director on or before the fifteenth of the month following the month during which such fluid milk or fluid cream was received. The amounts of all such assessments so received by the director shall be used in the administration and enforcement of this chapter, or any stabilization and marketing plan established by this chapter.

Refunds

At the close of each fiscal year any amounts which have been collected and which the director finds are in excess of those which may reasonably be required for the administration and enforcement of this chapter shall be refunded pro rata to all producers and/or distributors from whom such sums were due and collected pursuant to the provisions of paragraph (b) of this section.

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The requirements for support of the Department of Motor Vehicles are such as to exceed the limitations of existing law as to said department's apportionment from the Motor Vehicle Fund and unless provision is made for adequate revenues to meet the requirements of the Department of Motor Vehicles, it will be necessary to reduce law enforcement and other functions of the department which are necessary or to provide additional funds from some other source. It is necessary that permanent provision be made to provide adequate revenues for the Department of Motor Vehicles to meet successive budgets of the department hereafter. A permanent solution of the problems involved which will provide sufficient revenues for support of the Department of Motor Vehicles without disrupting budgets for State and county highway purposes with attendant confusion is required and in order that such a solution may be made effective at the beginning of the coming biennium under the Budget Act and to avoid confusion in fiscal affairs, it is necessary that this act go into immediate effect.

p 2590,
amended

An act to amend Section 2 of an act entitled "An act to aid the prosecution of the war by authorizing housing authorities to develop or administer projects to provide housing for persons engaged in war industries or activities and to cooperate with the Federal Government in making housing available for such persons: to grant certain powers to public bodies," approved May 27, 1943, relating to war housing projects and housing authorities, and declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor June 25, 1945 Filed with Secretary of State
June 25, 1945]

The people of the State of California do enact as follows:

Stats 1943,
p 2590

SECTION 1. Section 2 of the act cited in the title is amended to read:

Cooperation
with Federal
Government

SEC. 2. For the purposes of developing or administering War Housing Projects to aid in the prosecution of the war, any

housing authority established and authorized to transact business on or before June 15, 1945, pursuant to Chapter 4 of the Statutes of 1938, Extra Session, as amended (herein called the "Housing Authorities Law") may cooperate with, act as agent for, or lease such War Housing Project from, the Federal Government; provided, that a War Housing Project owned, leased, or administered under this act by a housing authority, shall not be subject to the limitations provided in Section 10 or in the second sentence of Section 9 of the Housing Authorities Law.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The life of the act cited in the title is to be extended to May 15, 1945. The limitations imposed by Section 10 and the second sentence of Section 9 of the Housing Authorities Law, if they are to be applicable to operations by housing authorities under the act of May 27, 1943, would be prohibitive, and would necessitate housing construction being done by the Federal Government, with employees subject to civil service regulations. In the limited time between now and May 15th, it is impracticable to do this. It is therefore imperative, in the interests of the National defense that this act take immediate effect.

reporters

The judges of such court may appoint as many additional reporters as the business of the court may require, who shall be known as official reporters pro tempore, and who shall serve without salary, but shall receive the fees provided by Section 274 of the Code of Civil Procedure, except that in lieu of the per diem fees provided in said section for reporting testimony and proceedings, said official reporters pro tempore shall in all cases receive twenty dollars (\$20) per day, which shall, upon order of the court, be paid from said reporters' salary fund.

All per diem fees otherwise payable by law by the parties to proceedings in said court to official reporters or official reporters pro tempore shall be paid to the clerk of the court, who shall deposit the same in the reporters' salary fund.

Fees

Fees for transcription of testimony and proceedings in such court shall be paid by the parties to official reporters and official reporters pro tempore as otherwise provided by law, and in all cases where, by law, the court may direct the payment of transcription fees out of the county treasury, such fees shall, upon order of the court, be paid from the reporters' salary fund, except fees for transcription of testimony and proceedings in felony cases, which shall be paid from the county treasury.

There shall be set aside from the revenue of said court, in the manner and at the times hereinafter provided, a revolving fund, to be known as the reporters' salary fund, in the amount of ten thousand dollars (\$10,000).

At the time of each monthly distribution of the revenue of said court to the city and the county within which such court is established, the clerk of the court shall deduct proportionately from their respective total shares thereof such sum as will, when added to the sum then remaining in said fund, if any, equal ten thousand dollars (\$10,000), and deposit the same in said fund.

Deductions from the county's share of said revenue shall be made from that portion thereof distributable to the salary fund of the county, and deductions from the city's share shall be made from that portion thereof distributable to the general fund of the city.

For the purposes of this act the "revenue" of said court is defined to include all fines, forfeitures, and fees accruing to the city or the county, except law library fees.

In the event said reporters' salary fund shall at any time be insufficient, then the amount of such deficiency shall, upon order of the court, be paid from the general fund of the county.

The county treasurer shall be the depository, and the county auditor the disbursing agent, for said fund.

Retirement

Official reporters of such court shall be members of any retirement system which includes attaches thereof. For the purposes of such retirement system, the salary herein provided for such reporters shall be deemed their entire compensation, except that where credit is claimed for service rendered prior to the establishment of such salary, the actual compensation paid to them by the county shall be the basis for contributions for such prior service, and continuous employment in such municipal court, or a court superseded by it, prior to membership in said retirement system, shall be considered as "prior service" therein upon the payment by such reporters of the sums due, if any, under said retirement system.

CHAPTER 1058

An act to add a new section to the Streets and Highways Code, to be numbered 100.7, relating to powers of the Department of Public Works with respect to bridges acquired under the California Toll Bridge Authority Act, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor June 26, 1945. Filed with Secretary of State June 26, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 100.7 is added to the Streets and Highways Code, to read as follows:

Insurance
of bridges
Stats 1929,
p 1489

100.7. The department may, for the protection of the State of California, insure any bridge on the State Highway System acquired or constructed under provisions of the California Toll Bridge Authority Act against all risks in any amount up to the full insurable value thereof. In case of damage or destruction, the proceeds of such insurance shall be applied to the restoration of such bridge. Any such bridge may be so insured irrespective of the retirement of all indebtedness incurred for its acquisition or construction, and the cost of such insurance shall be paid from any funds available to the department for highway purposes.

Free
bridges

Any such bridge shall, after retirement of all indebtedness incurred for its acquisition or construction, be maintained and operated as a free bridge and the cost thereof charged to funds available for maintenance of State highways. Nothing in this section contained shall repeal or impair the provisions of Chapter 24 of the Statutes of 1933, providing for the continued collection of tolls on the San Francisco-Oakland Bay Bridge until moneys advanced by the State are reimbursed, and said Chapter 24 is continued in full force and effect.

Urgency

SEC. 2. This act is hereby declared an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

It is anticipated that sufficient funds will be accumulated for the retirement of all indebtedness against the Carquinez and Antioch Bridges prior to the date on which this act otherwise would become effective, and there is no provision of law authorizing carrying of insurance on said bridges after the retirement of such indebtedness. Damage or destruction of said bridges, or either of them, would require expenditure of large sums of money and would place an unreasonable burden upon highway funds of this State. It is necessary that funds be available for the immediate repair or reconstruction of such bridges in order to preserve the public peace, health and safety and the facilities for public travel and transportation which said bridges now afford.

This act is necessary in order that such funds be immediately available for the financing of such repair or restoration of said bridges. It is, therefore, essential that this act go into immediate effect, and the legislature so determines that it shall become effective immediately.

It is also necessary that immediate provision be made for the maintenance and operation of said bridges as free bridges in order to avoid any necessity for continued collection of tolls thereon for purposes of maintenance or operation by reason of the provisions of Section 6 of Chapter 927 of the Statutes of 1937. It is therefore necessary that this act go into immediate effect in order to permit the maintenance and operation of each of said bridges as a toll-free bridge as well as the insurance of the same.

When a judgment under Section 1268 Code of Civil Procedure shall have become final the money and proceeds from the property shall be transferred to the School Land Fund for the support of the common schools.

Recovery of
property
delivered
to State

1274.10. Any person who claims property so delivered to the State Treasurer or State Controller on the presumption of abandonment shall file a verified petition in the Superior Court in and for the County of Sacramento, stating facts necessary for the court to determine his right thereto. At least 20 days before the hearing of the petition, a copy of the petition and notice of hearing must be served on the Attorney General, who may answer the same at his discretion. If, upon trial of the issues, the court is satisfied of the claimant's right or title to the money or property claimed, it shall grant him a certificate to that effect under its seal. Upon presentation of such certificate, the State Controller shall draw his warrant on the State Treasurer for the amount of money covered thereby, without interest or costs to the State, and if the certificate covered any property, upon presentation of such certificate the State Controller shall direct the State Treasurer to deliver the property to the claimant, and the certificate shall serve as sufficient authority for the delivery of the property to the claimant.

Claims of
less than
\$300

Whenever the money claimed by any person, or the total value of property, including money claimed, is less than three hundred dollars (\$300) any such claimant may, in lieu of filing such petition, present his claim for the money or other property to the State Board of Control, stating the facts necessary for the board to determine his right thereto. The board may, in its discretion, upon recommendation of the Attorney General, allow and order paid such claim, without interest or cost to the State, or order the delivery of the property to the claimant. When payment has been made or the property has been delivered under this section to any claimant, no suit shall thereafter be maintained by any other claimant against the State or any officer thereof for or on account of such money or property.

Whenever the holder of such property has erroneously delivered the same to the State Treasurer or State Controller the same may be refunded or returned to said holder on order of the Board of Control.

Appropriation

Said Abandoned Property Fund is hereby appropriated to pay the warrants drawn by the State Controller upon presentation of the certificate of the superior court, or upon the order of the State Board of Control for the payment of a claim or refund allowed by it, all as provided for in this section.

Alternative
remedy for
delivery of
property and
establishing
abandonment

1274.11. If no return and notice thereof has been posted or published as hereinbefore provided, as an alternative remedy, the Attorney General may at any time commence an action or actions in the name of the State of California, in the Superior Court in and for the County of Sacramento, to compel any person or persons to deliver to the State Treasurer or State

Controller property presumed to be abandoned, and have it determined that such property is actually abandoned or that the owner thereof has died and there is no person entitled to it. There may be joined in one action any number of persons who are the holders of property presumed to be abandoned for the same reason and the owners thereof without separately stating a cause of action as to each of them, and such action shall be tried in the County of Sacramento unless the court, with the consent of the Attorney General, orders a change of the place of trial.

Service of process in such action or actions shall be made by service of summons on the holders of such property in the manner provided for service in civil actions, and by publication of a copy of such summons in a newspaper in the County of Sacramento at least once a week for four consecutive weeks. At the time of issuing the summons the clerk shall also issue a notice signed by him, giving the title and number of said action, and referring to the complaint therein, and directed to all persons, other than those named as defendants therein, claiming any interest in any property mentioned in said complaint and requiring them to appear within 60 days after the first publication of such summons, and show cause, if any they have, why the property involved in such action should not be declared abandoned or that the owners thereof have died and there is no person entitled to it, and delivered to the State Treasurer, if money, or delivered to the State Controller for deposit in the State treasury, if other than money, and notifying them that if they do not so appear and show cause the State will apply to the court for the relief demanded in the complaint. A copy of said notice shall be attached to and published with a copy of said summons, and at the end of the copy of such notice so published there shall be a statement of the date of the first publication of said summons and notice. Any person interested may appear in said action and become a party thereto. Upon the completion of the publication of the summons and notice, and the service of the summons on the holders of such property, the court shall have full and complete jurisdiction over the State and said property, and of the person of everyone having or claiming any interest therein, and shall have full and complete jurisdiction to hear and determine the issues therein, and render the appropriate judgment thereon.

Upon the trial the court shall hear all parties who have appeared, and if it determines that the property has actually been abandoned or that the owner thereof has died and there is no person entitled to it, the court shall render judgment in favor of the State declaring that the property has actually been abandoned or that the owner has died and there is no person entitled to it, and vesting title thereto in the State, and commanding the holder of such property to deliver it to the State Treasurer or State Controller, to be received, invested, accounted for and paid out in the same manner and by the

same officers, as is provided in this title for money and property in the Abandoned Property Fund.

Petition for
recovery of
property

Within five years after such judgment any person who has not appeared in said proceedings and who claims any property included in such judgment shall file a verified petition in the Superior Court in and for the County of Sacramento, or file a claim therefor with the Board of Control in the manner provided in Section 1274.10 Code of Civil Procedure.

Limitation
of action

All persons who fail to appear and file their petitions within the time limited are forever barred; saving however, to infants, and persons of unsound mind, the right to appear and file their petitions at any time within the time limited, or within one year after their respective disabilities cease.

When a judgment under this section shall have become final the money and proceeds from the property shall be transferred to the School Land Fund for the support of the common schools.

Dispositor
of property

1274.12. The State Controller may sell on behalf of and in the name of the State of California any property delivered to him and deposited by him in the State treasury pursuant to this title in the manner and with the same authority as provided by Section 1274 Code of Civil Procedure, and may dispose of or manage said property in the manner and with the same authority provided in Section 1274e Code of Civil Procedure. The proceeds from any such sale or disposition shall be deposited with the State Treasurer to the credit of the Abandoned Property Fund. With the consent of the State Board of Control, the State Controller may destroy or otherwise dispose of any of such property, determined by him to be valueless or of such little value that the costs of conducting a sale would probably exceed the amount realized therefrom; and neither the State Treasurer or State Controller can be held to respond in damages at the suit of any person claiming loss by reason of such destruction or other disposition.

Investment
of fund

1274.13. Whenever and as often as there is in the State treasury to the credit of the Abandoned Property Fund (in excess of the retention hereinafter provided for) the sum of ten thousand dollars (\$10,000) or more, the Director of Finance must invest the same in bonds of this State, or in the bonds of the United States, or in the bonds of the several counties, cities and counties, permanent road districts, cities and towns, metropolitan water districts, municipal utility districts or school districts of this State; the investments to be made in such manner and on such terms as the director shall deem best for the fund. No investment shall be made which with the amounts previously invested shall reduce the uninvested portion of the fund below the amount of ten thousand dollars (\$10,000), and whenever a demand presented against said fund will reduce the amount of cash therein below the specific amount of ten thousand dollars (\$10,000) it shall be the duty of the director to sell such bonds belonging to said fund as he may deem proper, for the purpose of making good the cash retention of ten thousand dollars (\$10,000). Bonds purchased under the provisions

of this section must be delivered to the State Treasurer, who shall keep them as a portion of said Abandoned Property Fund, and the interest upon such bonds shall be paid into the State School Fund and apportioned like other moneys employed for the support of common schools.

1274.14. The expiration of any period of time specified by law, during which an action or proceeding may be commenced or enforced to secure payment of a claim for money or recovery of property, shall not prevent any such money or property from being deemed abandoned property, nor affect any duty to file a report required by this title or to deliver to the State Treasurer or State Controller any such abandoned property; and shall not serve as a defense in any action or proceeding brought under the provisions of this title to compel the filing of any report or the delivery of any abandoned property required by this title or to enforce or collect any penalty provided by this title.

Explanation

no defense,
etc

1274.15. The care and custody of all property delivered to the State Treasurer or State Controller pursuant to this title is assumed by the State for the benefit of those entitled thereto, and the State is responsible for the payment of all claims established thereto pursuant to law, less any lawful deductions.

1274.16. Any person who violates any of the provisions of this title shall forfeit to the State of California the sum of one hundred dollars (\$100) a day for each and every day such violation shall continue, except that the State Controller may extend the time for making any report or delivering any property to the State Treasurer or State Controller as required in this title and may waive the payment of any penalty or part thereof provided for by this section.

1268. The Attorney General shall, from time to time, commence actions on behalf of the State for the purpose of having it adjudged that title to real or personal property, to which the State has become entitled by escheat, has vested in the State, and for the purpose of having it adjudged that property has been actually abandoned or that the owner thereof has died and there is no person entitled thereto and the same has escheated and vested in the State; provided, however, that any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, may be instituted and prosecuted by the Attorney General or by the district attorney of the county in which such real or personal property is situated. The provisions of Section 1239 of this code, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1271 of this code, relating to appearances and pleadings, shall be applicable to any proceeding had under this section; provided, however, that in any action for the escheat of real or personal property under the provisions of the Alien Land Law, as amended, all of the provisions of the Alien Land Law, as amended, relating to the commencement and prosecution of such actions shall have the same effect as though incorporated in the provisions of this section, and the provisions of Section 1269 of this code, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1271 of this code relating to appearances and pleadings, shall, insofar as they are applicable, cover such actions.

Upon the filing of the petition, the court shall make an order requiring all persons interested in the property or estate to appear on a day not more than 90 days or less than 60 days from the date of the order and show cause, if any they have, why title to the property should not vest in the State of California.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution and shall, therefore, go into

immediate effect. A statement of the facts constituting such necessity is as follows:

As a result of the impossibility of making satisfactory arrangements with outside organizations for the operation of school cafeterias, certain school districts are faced with the problem of taking over the operation of their cafeterias at the close of the current school year. Budget requirements must be estimated, food and supplies purchased, and other arrangements and plans must be perfected for the immediate operation of cafeterias by the school districts. Additionally, present code restrictions make it impractical, if not impossible, for school districts to purchase adequate stocks of perishable foods, seasonal commodities, and surplus food commodities released by the Federal Government. An emergency has thus arisen making it imperative that this act take immediate effect.

Sec. 9. Annexation to any metropolitan water district organized hereunder may be effected by either of the following methods:

Annexed territory subject to taxation

(a) Subject to the provisions of Section 9.1 of this act, whenever any area shall be annexed to or consolidated with the area of any municipality, the area of which, as a unit, shall have become a part of any metropolitan water district organized hereunder, such annexed or consolidated area shall, by virtue of its annexation to or consolidation with such municipality, become and be a part of such district and the taxable property

therein shall be subject to taxation thereafter for the purposes of said metropolitan water district, including the payment of bonds and other obligations of such district at the time authorized or outstanding.

(b) The governing or legislative body of any municipality may apply to the controller of any metropolitan water district for a statement showing the amount of the bonded and other indebtedness of the district, the assessed value of the taxable property therein according to the most recent assessment, and the names of all municipalities, the areas of which as units respectively, shall have been included within the district, and it shall thereupon be the duty of the controller to furnish such information to the applicant. After consideration of such statement the governing body of such municipality may apply to the board of directors of such metropolitan water district for consent to annex the corporate area of such municipality to the metropolitan water district. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which the corporate area of such municipality may be annexed to and become a part of the metropolitan water district. Such terms and conditions may provide, among other things, for the levy by such metropolitan water district of special taxes upon taxable property within such municipality in addition to the taxes elsewhere in this act authorized to be levied by such metropolitan water district, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. The action of the board of directors evidenced by order made on motion shall be promptly transmitted to the governing body of such applying municipality, which governing body may thereupon submit to the qualified electors of such municipality, at any general or special election held therein, the proposition of such annexation subject to the terms and conditions fixed as herein provided. Notice of such election shall be given by posting or publication; when given by posting such notice shall be posted at least 10 days and in three public places in the municipality; when given by publication such notice shall be published once at least 10 days before the date fixed for the election in a newspaper of general circulation published in the municipality. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed in the manner provided by law for elections in such municipality. If such proposition shall receive the affirmative vote of a majority of electors of such municipality voting thereon at such election, the governing body of such municipality shall certify the result of

such election on said proposition to the board of directors of said district and a certificate of proceedings hereunder shall be made by the secretary of the district and filed with the Secretary of State. Upon the filing thereof in the office of the Secretary of State, the corporate area of such municipality shall become, and be, an integral part of such metropolitan water district, and the taxable property therein shall be subject to taxation thereafter for the purposes of said metropolitan water district, including the payment of bonds and other obligations of such district at the time authorized or outstanding, and the board of directors of such metropolitan water district shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized. Upon the filing in his office of the aforesaid certificate of proceedings the Secretary of State shall, within 10 days, issue his certificate, reciting the filing of said papers in his office and the annexation of the corporate area of such municipality to such metropolitan water district. The Secretary of State shall transmit the original of his said certificate to the secretary of such metropolitan water district and shall forward a certified copy thereof to the county clerk of each county in which is situated such metropolitan water district or any portion thereof. The secretary of such metropolitan water district shall file with the county assessor of each county within which such metropolitan water district or any part thereof shall lie and with the State Board of Equalization a statement of the change of boundaries of such metropolitan water district setting forth the corporate names of the municipalities the corporate areas of which shall be included within such metropolitan water district, which statement also shall contain a legal description of the boundaries of such annexed corporate area of such municipality unless a statement and map or plat indicating the boundaries of such last-mentioned municipality theretofore shall have been filed with the county assessor of each county within which such municipality or any part thereof shall lie and with the State Board of Equalization, pursuant to Section 3720 of the Political Code or other applicable provisions of law. Such statement so filed by the secretary of such metropolitan water district shall be accompanied by a map or plat indicating the boundaries of such metropolitan water district as so changed. If such statement and map or plat be so filed on or before the first of February but subsequent to the thirtieth day of June next preceding, all taxable property within the corporate area of such municipality so annexed shall be subject to taxation by such metropolitan water district for the purposes hereinabove in this section and elsewhere in this act provided, commencing with the fiscal year beginning on July 1st next ensuing. If such statement and map or plat be so filed subsequent to February 1st but before July 1st and if a statement and map or plat indicating the boundaries of such municipality shall have been filed with the county assessor of each county

within which such municipality or any part thereof shall lie and with the State Board of Equalization, on or before said first day of February, pursuant to Section 3720 of the Political Code, or other applicable provisions of law then all taxable property within such annexed corporate area of such municipality, the taxes upon which are a lien upon land sufficient in value to secure their payment, shall be subject to such taxation by such metropolitan water district commencing with the fiscal year beginning on said first day of July and all taxable property within such annexed corporate area of such municipality, the taxes upon which are not a lien upon land sufficient in value to secure their payment, shall be subject to such taxation by such metropolitan water district commencing with the fiscal year beginning on the first day of July in the calendar year next succeeding the calendar year in which the statement and map or plat are so filed by the secretary of such metropolitan water district. If such last-mentioned statement and map or plat be so filed subsequent to February 1st but before July 1st and if a statement and map or plat indicating the boundaries of such municipality shall not have been filed in the aforesaid manner on or before said first day of February, then all taxable property within such annexed corporate area of such municipality shall be subject to such taxation by such metropolitan water district commencing with the fiscal year beginning on the first day of July in the calendar year next succeeding the calendar year in which the statement and map or plat are so filed by the secretary of such metropolitan water district.

SEC. 5. Section 9.1 of said act is amended to read:

Sec. 9.1. No annexation or addition shall be made to the corporate area of any municipal water district, municipal utility district, public utility district, county water district, or county water authority, referred to in Section 2 of this act, and the corporate area of which, as a unit, shall have been included in or annexed to a metropolitan water district, without first obtaining the consent of the board of directors of such metropolitan water district. Consent to such annexation or addition may be conditioned upon terms providing, among other things, for the levy by such metropolitan water district of special taxes within the area so sought to be annexed, in addition to the taxes elsewhere in this act authorized to be levied by such metropolitan water district upon the completion of such annexation or addition, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions, shall specify the aggregate

Political
Code
requirements

SEC. 25. Notwithstanding Section 3720 of the Political Code of the State of California the Riverside County Flood Control and Water Conservation District is validly created for purposes of assessment and taxation. The information and maps relating to the Riverside County Flood Control and Water Conservation District and the zones thereof, required by Section 3720 of the said Political Code, shall be filed with the county assessor and the State Board of Equalization as soon as practicable after the effective date of this act, but no later than February 1, 1946; provided, however, that until the requirements of Section 3720 of the Political Code have been fully complied with all taxes levied shall be at a uniform rate for all zones in the district.

Fiscal
Year
1945-46
Taxes

SEC. 26. For the fiscal year 1945-46, but for no other fiscal year, notwithstanding Section 25 of this act, the assessment and equalization of property for the purpose of district taxation shall be effected as provided in this section.

Taxes of the district for the fiscal year 1945-46 are liens on property the same as if they were county taxes, except that the district tax liens attach as of noon on the day after this act becomes effective.

It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the fiscal year 1945-46 are the correct assessments for purposes of taxation by the Riverside County Flood Control and Water Conservation District and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and col-

lecting the taxes for the district. If the ownership or taxable situs or value of any property changes between noon on the first Monday of March, 1945, and the date on which attaches the lien for taxes of the Riverside County Flood Control and Water Conservation District for the fiscal year 1945-46, then, on petition of the taxpayer effected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of taxation by the Riverside County Flood Control and Water Conservation District.

In equalizing the assessments made by the county assessor the board of supervisors sitting as the county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of taxation by the Riverside County Flood Control and Water Conservation District in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

If, for the purposes of taxation by the Riverside County Flood Control and Water Conservation District, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes, is conclusively presumed to be the correct assessment for taxation purposes of the Riverside County Flood Control and Water Conservation District.

The board of supervisors may, by ordinance, prescribe any necessary procedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying and collecting taxes for the Riverside County Flood Control and Water Conservation District for the fiscal year 1945-46. Except as provided in this section, Section 25 of this act is applicable to the assessment and equalization of property for the purpose of district taxation for the fiscal year 1945-46.

SEC. 27. The bonds of said Riverside County Flood Control and Water Conservation District issued for any zone thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the State school funds, and whenever any money or funds may by law, now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or fund may be invested in the said bonds of said district issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted, be used as security

for the performance of any act, such bonds of said district may be so used.

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

The said board of supervisors of said district shall advertise by three (3) insertions in a daily newspaper of general circulation or two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction of, the improvement or work before any contract shall be made therefor, and may let by contract separately any part of said work or improvement. The board shall require the successful bidder to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Chapter 3 of Division 5 of Title 1 of the Government Code and to be subject to the provisions of that chapter. The board shall also have the right to reject any and all bids. In the event all proposals are rejected or no proposals are received pursuant to advertisement therefor, or where the estimated cost of such work does not exceed the sum of five thousand dollars (\$5,000), or the work consists of channel protection, or maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may without advertising for bids therefor have said work done by force account. SEC. 31. Whenever bonds have been authorized by any zone of said district and the proceeds of the sale thereof have been expended as in this act authorized, and said board of supervisors shall by resolution passed by a vote of all of its members determine that additional bonds should be issued for carrying out the work of flood control, or for any of the purposes of this act, said board of supervisors may again proceed as in this act provided, and submit to the qualified voters of said zone the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all the above provisions of this act for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds.

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public health and safety within the meaning of Section 1 of Article IV of the Constitution and shall go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

With the shortage of meats and other protein products, and the tremendous demands for fish and fish products, unless immediate protection be granted to the species of marine fish especially salmon, there will be such a depletion of salmon that, in the near future, the food supplies of State and Nation will be jeopardized, as well as the future of that species. Further, that the present laws relating to the taking of salmon are so confusing that but very few persons are able to interpret said laws, and thus be able to take salmon without violating some of those laws. In order to provide the protection for salmon which use our State waters for their normal functions of reproduction during the spring and summer months, it is declared necessary that this act take effect immediately.

Sec. 7. Any real property hereafter acquired in fee in violation of the provisions of this act by any alien mentioned in Section 2 of this act, or by any company, association or corporation mentioned in Section 3 of this act, shall escheat as of the date of such acquiring, to, and become and remain the property of the State of California. The Attorney General shall institute proceedings to have the escheat of such real property adjudged and enforced in the manner provided by Section 474 of the Political Code and Title 8, Part 3 of the Code of Civil Procedure. When requested by the Attorney General it shall be the duty of the district attorney or the county counsel of the proper county to join him in the enforcement of all the provisions of this act and in the investigation of violations thereof and the instituting and carrying on of escheat proceedings under this section. The Attorney General shall supervise the work of the district attorneys and county counsels in all such matters. Upon the entry of final judgment in such proceedings, the title to such real property shall pass to the State of California, as of the date of such acquisition in violation of the provisions of this act. The provisions of this section and of Sections 2 and 3 of this act shall not apply to any real property hereafter acquired in the enforcement or in satisfaction of any lien now existing upon or interest in such property so long as such real property so acquired shall remain the property of the alien, company, association or cor-

Sale

Sec. 7.5. Whenever any real property is acquired by the State by reason of the violation of this act, either by escheat or by other method, the State Controller is authorized, upon such terms and subject to such conditions as in his judgment is for the best interests of the State, to sell the real property for cash or on deferred payments. The sale may be at public auction or at private sale. If the sale is made at public auction, it shall be made to the highest bidder, after notice thereof, stating the terms of sale, given in the manner and for the time prescribed in Section 1274 of the Code of Civil Procedure. If the real property is sold at private sale, the sale and all the terms thereof shall be subject to the approval of the Director of Finance.

Whenever, in the judgment of the State Controller, he can not immediately sell such real property to the best interests of the State, he may take possession of the real property, and rent or lease for cash rental or share rental, manage, repair, insure against fire, and otherwise operate and control the property until such time as an advantageous sale can be made.

Notwithstanding any other provision of law to the contrary, any sale made by the State Controller of lands acquired under this act shall convey the full title so acquired, without any reservations.

The proceeds of any sale, lease, rental or other income from transactions made with respect to real or personal property pursuant to the provisions of this act, or upon the recovery of any money resulting from a proceeding to escheat real or personal property, or from a conveyance thereof to the State without such a proceeding, shall be deposited in the State treasury in the Alien Land Law Fund, which fund is hereby created. The Controller shall maintain a separate account in such fund covering the receipts and disbursements of moneys arising from the sale, rental or other transactions affecting real or personal property related to each escheat proceeding or to each conveyance or transfer to the State without such proceeding, as in this act provided.

All moneys deposited in the Alien Land Law Fund are hereby appropriated to pay the apportionments herein provided; to wit:

During the first 10 days of January, April, July, and October in each year, the Controller shall apportion and pay the balance remaining in each such separate account in the Alien Land Law Fund, as of the last day of the calendar month preceding the date of such apportionment, as follows: One-half thereof shall be transferred, on order of the Controller, to the School Land Fund, and one-half thereof shall be paid, by Controller's warrant, to the treasurer of the county in which was situated, in

each case, as of the date of its escheat, conveyance or transfer to the State, the real or personal property from which the money so apportioned was derived.

Whenever all or any part of the balance in any such account in the Alien Land Law Fund was derived from real property or a leasehold interest in real property situated in more than one county, the amount thereof to be apportioned to such counties shall be apportioned and paid to each such county in the proportion which the acreage of such real property situated in such county bears to the total acreage of all such counties. The acreage to be employed by the Controller in making such apportionment shall be determined and furnished to him by the county surveyor of the county or counties participating in such apportionment. All money received by a county under this act shall be expended for the enforcement of this act and of other State laws or for the accomplishment of any other State purpose.

SEC. 3. Section 8 of said act is amended to read :

Sec. 8. Whenever any leasehold or other interest in real property, including cropping contracts which are hereby declared to constitute an interest in real property, but excluding interests in real property covered by Section 7 of this act, is hereafter created by any landlord or owner and acquired by any alien mentioned in Section 2 of this act, or any company, association or corporation mentioned in Section 3 of this act, in violation of the provisions of this act, then and in such event, all of the right, title and interest of such landlord or owner in and to said real property, other than a landlord or owner who has acted in good faith and after reasonable investigation, and the interest of such alien or such company, association, or corporation, in the real property shall escheat to the State of California as of the date of the creation and acquiring in violation of the provisions of this act. The Attorney General shall institute proceedings against both such landlord or such owner and such alien mentioned in Section 2 of this act or such company, association or corporation mentioned in Section 3 of this act, to have such escheat adjudged and enforced in the same manner as is provided in Section 7 of this act. When requested by the Attorney General it shall be the duty of the district attorney or the county counsel of the proper county to join him in the enforcement of all the provisions of this act and in the investigation of violations thereof and the instituting and carrying on of escheat proceedings under this section. The Attorney General shall supervise the work of the district attorneys and county counsels in all such matters. In the event that the interest of such landlord or owner is an interest less than the fee, then in such proceedings the court shall determine the value of all of the right, title, and interest of such landlord or owner, if any, and such alien, company, association, or corporation, as of the date of such acquisition in violation of the provisions of this act, and enter judgment for the State for the amount thereof together with costs. Thereupon the court shall order the sale of the right, title and

interest of such landlord or owner and such alien or such company, association, or corporation as provided in Section 1271 of the Code of Civil Procedure. Upon the confirmation of such sale the court shall fix and determine the total costs and expenses of the county in which the case is tried in preparing and prosecuting such escheat cause, and same shall thereupon be repaid to said county out of the proceeds of the sale and the balance shall be paid into the State treasury.

The provisions of this section shall not apply to any real property hereafter acquired in the enforcement or satisfaction of any lien now existing upon or interest in such property so long as such real property so acquired shall remain the property of the alien, company, association, or corporation acquiring the same in such manner. No alien, company, association or corporation mentioned in Section 2 or in Section 3 of this act shall hold for a longer period than two years in possession of any agricultural land acquired in the enforcement of or in satisfaction of a mortgage or other lien hereafter made or acquired in good faith to secure a debt. Exceptions

The provisions of this section shall not operate to divest any bona fide interest of any person, firm, corporation, or association, which is acquired in good faith and for value and not in violation of this act prior to the filing of a notice of lis pendens in connection with an action for escheat under the provisions of this act.

Any share of stock or the interest of any member in a company, association or corporation hereafter acquired in violation of the provisions of Section 3 of this act shall escheat to the State of California as of the date of such acquiring, and it is hereby declared that any such share of stock or the interest of any member in such a company, association or corporation so acquired in violation of the provisions of Section 3 of this act is an interest in real property. Such escheat shall be adjudged and enforced in the same manner as is provided in this section for the escheat of a leasehold or other interest in real property. Interests in shares of stock

SEC. 4. Section 9 of said act is amended to read :

Stats 1923, p. 1020

Sec. 9. Every transfer of real property, or of an interest therein, though colorable in form, shall be void as to the State and the interest thereby conveyed or sought to be conveyed shall escheat to the State as of the date of such transfer, if the property interest involved is of such a character that an alien mentioned in Section 2 hereof is inhibited from acquiring, possessing, enjoying, using, cultivating, occupying, transferring, transmitting or inheriting it, and if the conveyance is made with intent to prevent, evade or avoid escheat as provided for herein. Void conveyance in colorable form

A prima facie presumption that the conveyance is made with such intent shall arise upon proof of any of the following group of facts: Basis of presumption

(a) The taking of the property in the name of a person other than the persons mentioned in Section 2 hereof if the con-

sideration is paid or agreed or understood to be paid by an alien mentioned in Section 2 hereof;

(b) The taking of the property in the name of a company, association or corporation if the memberships or shares of stock therein held by aliens mentioned in Section 2 hereof, together with the memberships or shares of stock held by others but paid for or agreed or understood to be paid for by such aliens, would amount to a majority of the membership or issued capital stock of such company, association or corporation;

(c) The execution of a mortgage in favor of an alien mentioned in Section 2 hereof if such mortgagee is given possession, control or management of the property.

Burden
of proof

In each of the foregoing instances the burden of proof shall be upon the defendant to show that the conveyance was not made with intent to prevent, evade or avoid escheat.

Enforce-
ment of
act.

When requested by the Attorney General it shall be the duty of the district attorney or the county counsel of the proper county to join him in the enforcement of all the provisions of this act and in the investigation of violations thereof and the instituting and carrying on of escheat provisions. The Attorney General shall supervise the work of the district attorneys and county counsels in all such matters.

The enumeration in this section of certain presumptions shall not be so construed as to preclude other presumptions or inferences that reasonably may be made as to the existence of intent to prevent, evade or avoid escheat as provided for herein.

Urgency

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall take effect immediately. The following is a statement of the facts constituting such necessity:

A large number of violations of the Alien Land Laws of California have taken place, over a considerable period of time, as a result of which substantial areas of land have been illegally acquired and are now being held by aliens ineligible to citizenship. This not only deprives citizens and those eligible to become such of the right to acquire and enjoy the use of these lands, but it engenders a lack of respect for the laws of this State and their enforcement, both on the part of ineligible aliens and citizens. There exists a feeling of uncertainty and distrust as to the lawful ownership of land in many localities of the State, with resultant growing resentment and threatened unrest. The prosecution of proper proceedings to escheat lands illegally acquired to the State and bring about their sale to those legally qualified to own and enjoy them is necessary at this time. Because of the crafty manner in which the subterfuges and evasions have been perpetrated, the task of uncovering these violations and conducting the necessary legal proceedings is extremely difficult, and requires the combined effort of the law agencies of the State. To meet the need the Attorney General must be fully implemented and the district attorneys and county

counsels must join in this important work, with appropriate provision for the allocation and payment to the counties of a proper share of whatever proceeds result from escheat proceedings involving property situate therein.

CHAPTER 1130

An act to add Sections 8007 and 8008 to the Education Code, relating to the maintenance of public schools, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1945 Filed with Secretary of State July 9, 1945.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 8007 is added to the Education Code, to read:

8007. Whenever a school building or buildings of a school district are or have been destroyed, or made unusable through any cause for the maintenance of school, and the Superintendent of Public Instruction is satisfied no suitable quarters for the school can be or could have been obtained within the district, he may authorize the governing board of the district to maintain a school elsewhere than within the district or to contract for the education of the pupils of such district with the governing board of another district and may approve any such action heretofore taken during the school year 1944-1945 by the governing board of a school district.

Maintaining school outside of district, where building destroyed or unusable

The maintenance of a school by a district outside the boundaries of the district or the making of a contract by the governing board of a district as provided in this article shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district.

This section shall remain in effect until the ninety-first day after final adjournment of the Fifty-seventh Regular Session of the Legislature. While this section is in effect it shall supersede any existing provisions of law which are in conflict with this section; but such provisions are not repealed by this section and after this section is no longer effective shall have the same force as though this section had not been enacted.

Duration

SEC. 2. Section 8008 is added to said code, to read:

8008. Whenever the governing board of a school district is unable to maintain the school or schools in the district because of its inability to secure a teacher, or teachers, the board may, with the approval of the county superintendent of schools having jurisdiction and the Superintendent of Public Instruction, maintain the school, or schools, of the district elsewhere than within the district or contract for the education of the pupils of such school, or schools, with the governing board of another district.

Maintaining school outside district, etc., when unable to secure teachers

The maintenance of a school by a district outside the boundaries of the district or the making of a contract by the governing board of a district as provided in this article shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district.

Duration

This section shall remain in effect until the ninety-first day after final adjournment of the Fifty-seventh Regular Session of the Legislature. While this section is in effect it shall supersede any existing provisions of law which are in conflict with this section; but such provisions are not repealed by this section and after this section is no longer effective shall have the same force as though this section had not been enacted.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Conditions now existing resulting from the war in which the United States is now engaged have made it impossible for the governing boards of several districts, the school buildings of which have been destroyed or made unusable, to secure housing for such schools within the districts. In order to make possible the uninterrupted education of the children affected in such cases, it is necessary that this act take immediate effect.

CHAPTER 1131

An act to add Chapter 4 to Part 3 of the Harbors and Navigation Code, relating to the issuance of revenue bonds, and declaring emergency.

In effect immediately

[Approved by Governor July 9, 1945. Filed with Secretary of State July 9, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 is hereby added to Part 3 of the code cited in the title to read as follows:

CHAPTER 4. REVENUE BONDS

Revenue bonds

6100. Pursuant to this chapter a district may create a revenue bond indebtedness for the acquisition and construction, or acquisition or construction of any improvements or property or facilities contained within its powers.

Issuance

6101. The issuance of said bonds shall be authorized by ordinance adopted by two-thirds of all the members of the board, to take effect upon its publication.

Publication of ordinance

6102. The secretary shall publish said ordinance once in a newspaper of general circulation printed in said district, and if there is none, then in such newspaper published in the county in which said district is located.

Contents of ordinance

6103. Said ordinance shall specify the total amount, denomination, method of maturity, and the rate or maximum rate

of interest of said bonds, and in general terms, the acquisitions and improvements to be constructed thereby; and, in addition, shall contain such other and further provisions as in the judgment of the board are deemed advisable.

6104. The proceeds of said bonds shall be placed in an account in the treasury of the district to be entitled Harbor District Revenue Construction Fund No. _____, and used exclusively for the objects and purposes mentioned in the ordinance. Bonds Proceeds

6105. The lien of said bonds of the same issue shall be prior and superior to all revenue bonds subsequently issued. Lien of bonds

6106. Proceedings for the issuance of said bonds shall be had, the board shall have such powers and duties, and the bondholders shall have such rights and remedies, all in substantial accordance with and with like legal effect as now or hereafter provided in the applicable provision of subdivisions (d) and (f) of Section 3, and Sections 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20 and 21 of the Sanitation and Sewer Revenue Bond Act of 1941. As used therein the word "resolution" shall mean ordinance, the word "municipality" shall mean district, and the words "governing body" shall mean board. Law applicable to proceedings, etc.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

Because of the questionable amount of benefit of a harbor development to land in the vicinity of some harbors, revenue bonds lend themselves advantageously to the development of such harbors. In such areas the assessed valuation of the properties in the district are seldom sufficient to support a bond issue in an amount sufficient to acquire or construct adequate improvements. Harbors so situated and requiring improvements are engaged in industries which further the war effort, and which will promote the postwar economic and general welfare

CHAPTER 1132

An act to amend Section 5216 of the Education Code, and to add Sections 6929.1 and 6931.1 to said code, all relating to the supervision of instruction in elementary schools, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1945. Filed with Secretary of State July 9, 1945.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Education Code Section 5216 is amended to read:

5216. There shall be in each county treasury a fund known as the county elementary school supervision fund, into which County elementary school supervision fund

SEC. 3. Section 6931.1 is added to said code, to read:

Article 7. Classification and Examination

Classes of
licenses

8971. The commissioner shall have the power to adopt rules and regulations classifying yacht and ship brokers or salesmen, on the following basis:

A license issued to a broker or salesman shall be limited to the class or classes for which the applicant has demonstrated his qualifications and fitness by his application and examination.

No salesman shall be licensed in any class other than that for which the employing broker is licensed.

A person shall be deemed qualified to be licensed as a broker only if, as shown by the affidavits of two responsible persons, he has:

(a) held master papers for a period of one year or has owned and operated a shipyard, or ship repair facility, or a landing or mooring basin, or has been a marine surveyor, or has been a foreman or superintendent of a shipyard for a period of one year, prior to making an application;

The commissioner may issue one license covering two or more of the classes, other than class (a), hereinbefore described.

8972. Each applicant for a license shall take a written examination to determine his qualification and fitness to engage in the activities of the class or classes for which he makes application. Examinations

Each licensee, other than one belonging to general class (a), may make written application to broaden the scope of his original license by including therein the activities of any other class. Before being granted such a license, the applicant must take a written examination covering the requirements for such additional class or classes.

A licensed broker may request the withdrawal of an application for one of his salesmen before such salesman has taken his written examination; but in such case, the commissioner shall retain the examination fee but shall return to the broker the original license fee.

The failure of an applicant for a license to appear at the time and place designated by the commissioner for the written examination, unless such applicant has a valid excuse, shall act as a forfeiture of the examination fee, and any such applicant shall be required to pay an additional fee before being permitted again to take the written examination.

8973. The commissioner shall select suitable and appropriate questions for the written examination for each class for which the applicant has made application, in order to determine the applicant's knowledge of and experience in the following subjects: Examination subjects

No examination shall be required for this purpose, but any licensee may request and shall then be given an examination for the purpose of determining his qualification and fitness for any other class or classes. Upon the reclassification, anyone holding a class (a) license shall be entitled, in the absence of a supervening disqualification, to have such license reissued to him, unless he otherwise elects.

Repeals

SEC. 4. Section 6a of the act cited in the title hereof and Section 347½ of the Penal Code are, and each of them is, repealed.

Urgency

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Under the present law sulfanilamides and substituted sulfanilamides, or compounds or mixtures thereof, for the treatment of poultry can be acquired by poultrymen only after considerable delay and the consequences of such delay may be the serious depletion of the poultrymen's flocks because of disease which could be cured by such preparations. Certain diseases of poultry may break out at any time in any flock and unless measures are taken to provide for the immediate application of necessary remedies there is a danger that the meat supply of the State will be seriously affected. Consequently, in order to assure a continued supply of poultry meat to the people of the State it is necessary that this act take effect immediately.

CHAPTER 1194

An act to provide for the repair, restoration and maintenance of the Jenner Jetty on the Russian River, and making an appropriation therefor, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 10, 1945. Filed with Secretary of State July 10, 1945.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. The sum of forty thousand dollars (\$40,000) is hereby appropriated to the Water Resources Revolving Fund, one-half from the Fish and Game Preservation Fund, and one-half from the State Beach Fund, to be expended by the Department of Public Works, hereinafter referred to as "department," acting through the State Engineer, to be expended during the Ninety-seventh and Ninety-eighth Fiscal Years for the repair, restoration and maintenance of the jetty near Jenner at the mouth of the Russian River.

Appropriation for Jenner Jetty

SEC. 2. Plans and specifications for the work provided for in this act shall be prepared by the department and approved by the Director of Natural Resources before commencement of said work.

Plans and specifications

SEC. 3. It shall be the duty of the department to exercise jurisdiction over said Jenner Jetty for the purpose of repairing, restoring and maintaining the same, from time to time, as may be necessary. Such jurisdiction shall be limited to the purpose specified in this section but shall continue to be exercised by the department until otherwise provided by law.

Jurisdiction of Department of Natural Resources

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Urgency

Performance of the work is dependent on the placing of concrete at the lowest possible elevations thereby securing a satisfactory and dependable job. The work should be done during the months of May and June when tide and surf conditions are most favorable. In order to allow time for preparation of plans and specifications, advertising for bids and award of contract, and performance of preparatory work on the quarry, roads, and concrete aggregate plant, it is necessary that this act take effect immediately.

CHAPTER 1195

An act to repeal Section 114 of, and to add Section 114 to, the Business and Professions Code, relating to the renewal of licenses, declaring the urgency hereof, to take effect immediately.

In effect
immediately

[Approved by Governor July 10, 1945 Filed with Secretary of State
July 10, 1945.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Section 114 of the Business and Professions Code is repealed.

SEC. 2. Section 114 is added to the Business and Professions Code, to read:

Renewal of
licenses by
persons in
military
service

114. Notwithstanding any other provision in this code, any person holding a valid unexpired license issued by any board, commission, or bureau in the department, who enters any branch of the armed services of the United States in time of war or during a national emergency, shall not be required to renew such license at any time while exclusively engaged in such service.

A licensee, having availed himself of the provisions of this section, shall apply for the renewal of his license immediately upon re-entry into the private practice of his profession or vocation, and in no case shall application for renewal of a license be made later than one year from date of discharge from active service or return to inactive military status. The licensee applying for renewal of his license at a time more than one year from date of discharge or return to inactive military status may be subjected to re-examination or to the payment of penalties as prescribed in this code or both.

For the purposes of this section, time spent by a licensee in receiving treatment or hospitalization in any Veterans' Facility during which he is prevented from practicing his profession or vocation shall be excluded from said period of one year.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution, and shall, therefore, go into immediate effect. A statement of the facts constituting such necessity is as follows:

Licenses are daily returning from the armed forces in ever increasing numbers. Many of those who are being discharged do not immediately resume practice of their professions or vocations because they need time in which to readjust themselves mentally and physically and to reestablish their homes and otherwise take care of their personal affairs. Moreover, no allowance for time required for hospitalization following discharge is now permitted.

CHAPTER 1196

An act to add Division 22 to the Health and Safety Code, to repeal Section 347½ of the Penal Code, and to amend Section 5a and repeal Section 6a of an act entitled "An act to regulate the sale and use of poisons in the State of California and providing a penalty for the violation thereof," approved March 6, 1907, and to amend Section 26251 of the Health and Safety Code, all relating to the possession and sale of dangerous drugs as defined therein and providing penalties for the violation thereof, declaring the urgency hereof, to take effect immediately.

In lieu of making two or more separate loans, each secured by mortgage, trust deed or pledge of one or more properties or securities in amounts permitted by this act, an association may make a single loan secured by all such properties and/or by all such securities, if the principal amount of such single loan does not exceed the aggregate of the principal amounts which would be permitted for such separate loans.  July 10, 1945.]

The people of the State of California do enact as follows:

Stats 1943, SECTION 1. Section 9.09 of the act cited in the title hereof
 p 1323 is hereby amended to read as follows:

Loan terms: Sec. 9.09. Loan Terms. For the purposes of this act, an
 amortized loan shall be one which provides for payments to be
 made on the principal in installments to be paid at regular
 intervals at least semiannually and to commence not later than
 one year after the date of the loan. Such installments may
 include interest and either as to principal alone or as to com-
 bined principal and interest shall be at least of a sufficient
 amount so that the smallest installment provided in the note
 evidencing said loan (other than the last installment) if con-
 tinued at such regular intervals would result in paying the
 entire principal in not more than 20 years (or, in the case of
 loans pursuant to Section 9.18 or 9.19, within 25 years) from the
 due date of the first installment, whether or not such loan be
 written for a shorter period. Such loans may provide for
 payment of interest or principal or both, in addition to such
 regular installments and in the event such regular install-
 ments are not sufficient to pay the entire principal within the
 term thereof, such loans must provide that the entire amount
 unpaid come due and payable within not more than six months
 after the due date of the last regular installment; provided,
 however, that the commissioner may by rules permit and pre-
 scribe a longer maximum term than as herein provided in the
 case of amortized loans upon particular classes of security,
 which classes he shall have power to prescribe and define.

Payments
 on principal

Loans may be made by an association which may or may not
 provide for payments on account of the principal thereof dur-
 ing an initial period not to exceed three years. If any loan
 does not provide for the payment, commencing not later than
 one year after the date thereof, of installments either of prin-
 cipal alone or of combined principal and interest at a rate at
 least equal to the rate hereinabove provided for an amortized
 loan, the same shall not be an amortized loan for the purpose
 of Section 9.10 of this act; but for the purpose of Section 9.14

of this act, any loan held by an association may be classified as an amortized loan during any period within which payments are being made, or within which the note or obligation representing such loan provides for payments to be made, of installments either of principal alone or combined principal and interest thereof at a rate not less than that hereinabove provided for an amortized loan.

Solely for the purposes of this section, Section 9.12a and Section 9.14 of this act, but not for any other purpose, ^{Loans on mutual plan} or loans made on the mutual plan where the installments are to be applied in payment of its own membership shares pledged therewith, such installments together with accumulated earnings thereon shall be construed as having been applied to the principal of such loans.

In the case of all loans hereafter made on the mutual plan, the note or other obligation of the borrower shall expressly provide that in the event such association shall thereafter sell, exchange, transfer, or otherwise dispose of such note or obligation, or in the event such association shall thereafter be liquidated, either voluntarily or involuntarily, then the value of the shares pledged therefor, plus the accrued earnings thereon to the date of such sale or disposition or to the date of the commencement of such liquidation, shall be applied first to advances on account of such loans, second to the interest accrued and unpaid thereon, and third to the principal thereof; and said note or other obligation shall also expressly provide that in the event such association shall thereafter pledge, hypothecate or otherwise encumber such note or obligation, then the value of the shares pledged therefor, plus the accrued earnings thereon to the date of such pledge, hypothecation or encumbrance may, at the option of such association, be applied as aforesaid, and that if the association shall not exercise said option at the time of such pledge, hypothecation or other encumbrance then in the event such note or obligation shall be sold pursuant to such pledge, hypothecation or other encumbrance, the value of such shares, plus the accrued earnings thereon to the date of such sale, shall be applied as aforesaid. In any such case such shares from the time of such application shall be deemed surrendered to the association and canceled. In computing accrued earnings in any such case, the rate used in the last apportionment shall be applied.

The provisions of this section are subject to the provisions of Section 9.18 and of Section 9.19.

SEC. 2. Section 9.10 of said act is hereby amended to read ^{Stats 1933, p 1089} as follows:

Sec. 9.10. Loans upon Real Property. Loans may be made upon the security of improved real property in an amount not in excess of 60 per cent of the appraised value of such real property; provided, however, that amortized loans may be made in an amount not in excess of 70 per cent of the appraised value of such real property; provided further, that amortized loans upon the security of improved real property may be made in an ^{Loans upon real property}

amount not in excess of 80 per cent of the appraised value of such real property if such appraised value does not exceed ten thousand dollars (\$10,000), or not in excess of 80 per cent of the first ten thousand dollars (\$10,000) of such appraised value if it exceeds ten thousand dollars (\$10,000) plus 70 per cent of the remainder of such appraised value, subject to the following conditions in the case of each such loan exceeding 70 per cent: (1) the principal improvement on such real property shall consist of a single family dwelling; and (2) the note or other obligation evidencing such loan shall provide for reduction of principal by monthly installments commencing in the case of construction loans not later than nine months after the date of such loan, and in case of any other loan not later than three months after the date of such loan.

Loans may be made upon the security of unimproved real property in an amount not in excess of 33 $\frac{1}{3}$ per cent of the appraised value of such real property.

Improvements

In respect of any loan made upon the security of real property where it is agreed and/or contemplated that improvements will be made thereon to become a part of such security, said real property shall be deemed to be improved real property and the cost of such proposed improvements shall be included in the appraised value of such real property; provided, however, that at no time shall the amount advanced by the association on such loan exceed the ratio of loan to value authorized by this section in respect to such loan, excluding from such value the value of such proposed building or buildings but including in such value the actual cost of such building or buildings to such time.

The provisions of this section are subject to the provisions of Section 9.18 and of Section 9.19.

Stats 1933,
p. 1089

SEC. 3. Section 9.12 of said act is hereby amended to read as follows:

Loans upon
collateral
security

Sec. 9.12. Loans upon Collateral Security. Loans may be made by any association secured by the pledge of notes or other obligations evidencing loans which are secured by property or securities upon which the association might make a direct loan, if such collateral loans do not exceed 90 per cent of whichever of the following is the lesser: (a) the unpaid principal of the notes or other obligations pledged as collateral security or (b) the amount which the association would be permitted to make as a direct loan on the same property or securities. Loans secured by the pledge of bonds, treasury certificates, notes, mortgage participation certificates or other securities referred to in subdivisions (3), (4), (5), (6), (7), (8) and (9) of Section 9.02 may be made by any association to the extent of not more than 90 per cent of the unpaid principal amount or market value thereof, whichever is less, if at the time of such collateral loans thereon such association would be authorized pursuant to this act to invest in such bonds, treasury certificates, notes, mortgage participation certificates or other securities in an amount at least equal to such unpaid principal amount or market value, whichever is less.

SEC. 2. Section 6.01 of said act is hereby amended to read as follows:

Notice of
intention to
withdraw

Sec. 6.01. Notice of Intention to Withdraw. Each association must prescribe by its by-laws, or by contract with its shareholders or certificate holders, or by both, the period of notice of intention to withdraw which such association at its option may require, which period shall be six months in the case of all shares or investment certificates issued after the effective date of this section; provided that nothing contained in this section shall be deemed to forbid an association from (a) issuing shares or investment certificates prescribing the same period of notice of intention to withdraw as prescribed in shares or certificates theretofore outstanding, if such new shares or investment certificates are issued in lieu of such shares or certificates theretofore outstanding; nor (b) receiving additional funds upon installment shares, accumulative shares, installment investment certificates or accumulative investment certificates outstanding at the date this section takes effect, or upon shares or certificates issued in lieu thereof. All certificates hereafter issued evidencing shares or investment certificates shall state the period of such notice and shall also state that the right of the holder thereof to withdraw funds evidenced thereby is subject to the provision of Article VI of this act. Each association may prescribe by its by-laws, or by contract with its shareholders or certificate holders, or both, the terms and conditions of withdrawal, provided such terms and conditions shall not be contrary to the provisions of this act.

Terms of
withdrawal

Void
notice

Any notice of intention to withdraw shall be invalid unless it is given in writing to the office of the association at which the shares or investment certificates in question were issued, or at which the account of such association as to such shares or investment certificates is kept, or to the principal office of such association, signed by a holder entitled to make a withdrawal, or by his attorney or agent. A shareholder or certificate holder may at any time revoke or waive, either in whole or in part, a notice of intention to withdraw and thereupon such notice shall become invalid either in whole or as to such part, as the case may be.

Order of
filing

All notices of intention to withdraw shall be filed when and as received by each association or by the several offices thereof in the order in which they are received, and each shall be kept on file with the exact time of the receipt thereof noted thereon or recorded, until it is paid or becomes invalid. When any notice shall have been on file for the period prescribed therefor, or for the period stated in such notice as the period to elapse previous to making the withdrawal (whichever shall be longer) such notice shall be a "matured notice" for all the purposes of this act; provided, however, that withdrawal claims on behalf of any one investor in an association or by two or more investors in an association, holding shares or investment certificates in common or in joint tenancy, shall mature in installments if such claims shall be for any sum greater than two hundred fifty dol-

lars (\$250), the first of such installments being hereinafter referred to as the "initial installment" and the remaining installment or installments being hereinafter referred to as the "successive installments." Withdrawal claims maturing in installments shall be matured withdrawal claims, within the meaning of this act, only to the extent that such claims are matured as provided in this section, notwithstanding anything to the contrary contained in this act.

The initial installment shall mature: (1) in the case of withdrawal claims filed pursuant to Sections 3.05 and 6.01 of this act, when the notice of intention of withdrawal shall have matured; (2) in the case of withdrawal of definite term investment certificates, upon the express date of maturity of such certificates; (3) in the case of notices of modification given pursuant to Section 5.07 of this act, upon the date of the expiration of the period of such notices of modification; and (4) in the case of maturity of shares pursuant to Section 3.03 of this act, upon the declaration of such maturity by the board of directors of the association. The first successive installment shall mature 30 days after the payment of the initial installment, and the other successive installments shall mature respectively 30 days after the payment of the next preceding successive installment.

In the case of withdrawal claims representing investment certificates or shares having a value in excess of two hundred fifty dollars (\$250), but not greater than one thousand two hundred fifty dollars (\$1,250), each installment shall be two hundred fifty dollars (\$250), or the portion of the claim remaining unpaid at the time such installment matures, whichever is lesser; in the case of withdrawal claims representing investment certificates or shares having a value in excess of one thousand two hundred fifty dollars (\$1,250), but not greater than twenty thousand dollars (\$20,000), each installment shall be one-fifth of such value at the time the initial installment matures or the portion of such claim remaining unpaid at the time such installment falls due, whichever is lesser; and in the case of claims representing investment certificates or shares having a value greater than twenty thousand dollars (\$20,000), each installment shall be four thousand dollars (\$4,000), or the portion of the claim remaining unpaid at the time such installment matures, whichever is lesser.

The provisions of this section shall govern the withdrawal and other rights of the holders of all shares and investment certificates whether heretofore or hereafter issued, and whether or not withdrawal claims shall have heretofore been filed unless such previously filed claims shall have heretofore matured.

No shareholder or certificate holder whose shares or investment certificates are pledged as security for a loan from the association issuing such shares or investment certificates shall be permitted to make a withdrawal or be entitled to give any valid notice of intention to withdraw in respect of such shares or investment certificates until the indebtedness for which such shares or investment certificates are security has been fully

Withdrawals
prohibited

paid, except that withdrawals therefrom may be made without notice provided the full amount of such withdrawals shall be used to pay such indebtedness or any part thereof; provided that in the case of loans upon the mutual plan, such withdrawals without notice shall be permitted only at the option of the association unless the entire indebtedness shall be simultaneously paid.

No valid notice of intention to withdraw may be given in respect of minimum term investment certificates during the minimum term thereof or in respect of definite term investment certificates, nor shall the holders thereof be entitled to withdraw during the minimum term thereof or prior to the maturity thereof, respectively, except at the option of the association issuing such certificates.

Tender of
certificate's

If the shareholder or certificate holder shall tender his certificate for surrender, duly indorsed, within 10 days after any valid notice of intention to withdraw shall have matured, he shall be entitled, subject to Section 6.02 of this act, to receive the withdrawal value of his shares or investment certificates or of that part thereof referred to in such notice, which withdrawal value is hereby defined as the full amount paid in upon the shares or investment certificates surrendered exclusive of the entrance fee, if any, together with dividends, profits or interest, if any, applicable thereto, subject to such adjustment of earnings or interest as may be provided by by-law or contract. Shareholders or certificate holders who shall have given notice of intention to withdraw and who shall fail to tender their certificates for surrender within 10 days after notice from the association that funds are available for the payment thereof shall have no right to withdraw except after giving new notice of intention to do so and such prior notice of intention to withdraw shall become invalid for all of the purposes of this act; provided such notice from the association shall have stated that unless such certificates shall be tendered for surrender within such 10 day period the holder shall have no right to withdraw except after giving new notice of intention to do so.

Failure to
tender in
time

"Association
on notice"

If in the case of any association the sum of the matured withdrawal claims, as defined in this act, shall exceed 5 per cent of the value of all outstanding shares and investment certificates of such association, then such association shall be an "association on notice" for all the purposes of this act. An association which is on notice shall continue to be on notice notwithstanding the fact that the sum of the matured withdrawal claims may become less than said percentage, unless and until all of the matured withdrawal claims shall be paid or funds shall be set aside for the payment thereof; provided, however, that if, in the case of any association which is on notice, the sum of the matured withdrawal claims shall become less than 3 per cent of the value of all outstanding shares and investment certificates of such association, then, with the prior approval of the commissioner, its board of directors may at their option, by resolution, declare such association to be no longer on notice,

and thereupon such association shall cease to be an association on notice for all the purposes of this act, subject to becoming an association on notice as before. In making computations for the purpose of this paragraph, shares and investment certificates shall not be deemed to be unpaid if the association has funds set aside for the payment thereof and has given notice of that fact to the respective holders thereof.

SEC. 3. Sections 6.01a and 6.01b of said act are hereby Repeals repealed.

SEC. 4. Section 6.02 of said act is hereby amended to read Stats 1935, p 798 as follows:

Sec. 6.02. Limitation on Withdrawals. The term "Matured withdrawal claims," as used in this article, shall include each Limitation on withdrawals and all of the following, to wit, (1) the value of all shares or investment certificates or parts thereof, in respect of which valid notices of intention to withdraw shall be on file, matured and unpaid, including notices of intention to withdraw by defaulting shareholders pursuant to Section 3.05 of this act, as well as notices of withdrawal generally pursuant to Section 6.01 of this act; (2) the value of all shares which shall have matured pursuant to Section 3.03 of this act and which shall be unpaid; (3) the value of all investment certificates in respect of which the holders, pursuant to Section 5.07 of this act but subject to Section 6.02 of this act, shall be entitled to receive the redemption price, but which shall be unpaid; and (4) the value of all definite term investment certificates which shall have reached the expressed date of their maturity but which shall be unpaid.

Regardless of whether or not an association is on notice, its Matured claims obligations to pay matured withdrawal claims, and the right of shareholders and certificate holders to receive payment of matured withdrawal claims, shall be secondary and subsequent to the right of such association to pay, and to provide a reasonable fund for the payment of, the following: Taxes, assessments, insurance, repairs, alterations and other sums necessary to protect and preserve or to furnish or equip its properties and its interest in properties (including those on the security of which it holds loans); principal and interest on borrowings by such association; interest on investment certificates and dividends on shares; rent, compensation of officers, agents, salesmen and other employees, and other usual and ordinary operating expenses of such association; and commitments on its incomplete loans or investments; provided, however, that an association on notice shall not pay any dividends on its stock or distribute any profits to its stockholders or make any loans or investments, except loans or investments pursuant to its obligations incurred before it became an association on notice and except loans expressly permitted by Section 9 01 of this act; provided further, that an association on notice may with the prior consent of the commissioner, and an association not on notice may without the necessity of obtaining the consent of the commissioner, in lieu of paying matured withdrawal claims,

make or purchase loans or investments not exceeding the principal amount of moneys borrowed by such association from a Federal home loan bank, or other similar Federal agency, and not theretofore repaid; and provided further, that an association which is on notice may with the prior consent of the commissioner, and an association which is not on notice may without the necessity of obtaining the consent of the commissioner, in lieu of paying matured withdrawal claims, invest in stock issued by any Federal home loan bank or other similar Federal agency of which such association may be eligible to be a member. Moreover, regardless of whether or not an association is on notice, its obligation to pay matured withdrawal claims, and the right of shareholders and certificate holders to receive payment of matured withdrawal claims, shall be limited to payments from its cash on hand or in bank, proceeds from sale of investments and loans and other cash receipts of such association; and shall be further limited to payments pursuant to the subsequent provisions of this section. The cash, proceeds and other receipts aforesaid which shall remain after deducting therefrom all payments, reserves, loans and investments above mentioned in this paragraph, are hereafter in this Section 6.02 called the "available funds."

"Unrestricted funds"

The term "unrestricted funds," as hereafter used in this Section 6.02, is hereby defined as that part of the available funds which may be used at the option of the association to pay any or all withdrawals without requiring notice of intention to withdraw or before the maturity of a notice of intention to withdraw and regardless of the nonpayment of any or all matured withdrawal claims, or any or all minimum term investment certificates before the end of their minimum term or any or all definite term investment certificates before the expressed date of maturity subject to such adjustment of interest, if any, as may be provided in such certificates, or for the purpose of making loans or investments, or for any other purpose not prohibited by law.

If there are no matured withdrawal claims (excepting claims for the payment of which funds have been set aside by the association) then all of the available funds shall be unrestricted funds.

If there are matured withdrawal claims (for the payment of any of which funds have not been set aside by the association), then, whether or not the association is on notice, not to exceed one-third of the available funds shall be unrestricted funds, and at least two-thirds of the available funds shall be applied to the payment of withdrawals. In applying such portion of the available funds to the payment of withdrawals, not to exceed one-third of the available funds may be applied at the option of the association to pay not to exceed one hundred dollars (\$100) per person in each month to any one or more of its shareholders or certificate holders, with or without requiring notice of intention to withdraw and regardless of the nonpayment of any or all matured withdrawal claims (in addition to any unrestricted

funds so applied); and the balance (which in no case shall be less than one-third of the available funds) shall be applied to the payment of matured withdrawal claims as follows:

First—To the payment of withdrawals in respect of investment certificates pursuant to Section 6.01 of this act, to the payment of definite term investment certificates which have reached the date of their maturity and to withdrawals through payments following notice of modifications pursuant to Section 5.07 of this act, without preference of one type of such withdrawal over the other, according to the priority in time of the maturity of the claims for such withdrawals, which in the case of withdrawals pursuant to said Section 6.01 shall be deemed to be the time notice of intention of such withdrawal shall have matured, in the case of withdrawals through payment of definite term investment certificates shall be deemed to be the date of maturity of such certificates, and in the case of withdrawals through payments following notice of modifications pursuant to Section 5.07 of this act shall be deemed to be the date of the expiration of the period of such notice of modifications; provided that as between the holders of certificates upon which the claim for withdrawal shall have matured at the same time, payment shall be made in the order of demand for or notice of such withdrawal, which in the case of definite term investment certificates shall be deemed to be the date of issuance thereof.

Notwithstanding anything to the contrary in this act, however, withdrawals may be made at any time without notice from pledged shares and investment certificates, whether or not the association is on notice, provided the full amounts of such withdrawals shall be used to pay the indebtedness for which such shares or investment certificates are pledged, or any part thereof; and provided further, that in the case of loans upon the mutual plan, such withdrawals without notice shall be permitted only at the option of the association unless the entire indebtedness shall be simultaneously paid.

If in any month an association has not used as unrestricted funds or for payments of not more than one hundred dollars

(\$100) per month per person the full amounts which such association is permitted by this Section 6.02 to use for such respective purposes, then the amounts not so used shall be available to the association in any subsequent month for such respective purposes until such amounts shall be so used, in addition to the amounts, if any, which would otherwise be available for such respective purposes in such subsequent month.

Stabilization and
marketing
plan
Unfair
practices

SECTION 1. Section 736.3 of the Agricultural Code is amended to read:

736.3. Any stabilization and marketing plan shall contain the following provisions:

(a) Provisions for prohibiting distributors and retail stores from engaging in the unfair practices hereinafter set forth:

(1) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

(2) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer.

(3) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions.

(4) The false or misleading advertising of fluid milk or fluid cream as defined in Section 654a of the Penal Code.

Contracts

(5) The purchase of any fluid milk in excess of 200 gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period; the quantity of such milk to be paid for as Class 1, and the price to be paid for all milk received, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment for such fluid milk, which shall not be later than the last day of the month following the month during which the fluid milk was purchased, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso

to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 4, as said class is defined in Section 735.3 of this code. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution.

(6) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(7) The payment of a lesser price by a distributor to any producer for fluid milk or fluid cream which is distributed to any person, including agencies of the Federal, State or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk or fluid cream for said marketing area.

(b) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers, for fluid milk in one or more of the various classes; provided, however, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid milk for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid milk over and above costs incurred in producing and marketing manufacturing milk; and provided further, the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome milk.

Minimum
milk prices
to producers

Any stabilization and marketing plan may contain the following provisions:

(c) Provisions whereby distributors shall report to each producer from whom fluid milk is secured, the volume of fluid milk received from such producer in pounds of milk, the milk fat test of such milk and the amount of fluid milk in milk fat pounds paid for in the several classes and the prices paid for the various classes for each month.

Report of
milk
received

(d) Provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid cream; provided, that the prices so designated or prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing cream, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above costs incurred in producing and marketing manufacturing milk and

Minimum
cream
prices to
producers

provided further, that the director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream.

Equalization
pools

(e) Provisions whereby the director may provide methods for the establishment of minimum prices for fluid milk or fluid milk for fluid cream received within a marketing area regardless of whether such fluid milk or fluid milk for fluid cream is subsequently sold or distributed within or without such marketing area or within or without the jurisdiction of the State of California. Such stabilization and marketing plans may provide for the establishment of prices for fluid milk or fluid milk for fluid cream whether or not such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect. The stabilization and marketing plan may provide that producers shall be paid not less than the minimum prices established for the marketing area wherein such fluid milk or fluid milk for fluid cream is ultimately sold or distributed, and may further provide that in the event such fluid milk or fluid milk for fluid cream is subsequently sold or distributed in any place within the jurisdiction of the State of California where no stabilization and marketing plan is in effect, then such fluid milk or fluid milk for fluid cream may be paid by the distributor to the producer thereof at not less than the average price paid by distributors to producers for fluid milk or fluid milk for fluid cream of similar grade and quality at the plants in the vicinity where such fluid milk or fluid milk for fluid cream is so sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to this section.

The director may issue and make effective provisions establishing minimum prices to be paid by distributors to producer-distributors for milk which is not used by the purchasing distributor as Class 1 or Class 2 milk and which provisions may provide that such milk if used in classes other than Class 1 or Class 2 by the purchasing distributor may be paid for at the minimum prices established by the director for such other usage but which shall not be less than the prices as found by the director to be paid by manufacturing milk plants in or adjacent to the area using milk for similar purposes. Such prices shall remain in effect only for the period during which, as determined by the director, there is a surplus of producer-distributor milk.

Operation of
equalization
pools

(f) Provisions whereby the director designates or prescribes methods to provide uniform prices to be paid to all producers supplying fluid milk to distributors for pasteurization purposes in the marketing area involved by pooling the returns of all such fluid milk; provided, that no equalization pool shall be established unless the director, after hearing, determines that producers who supply distributors with not less than sixty-five (65) per cent of the total volume of fluid milk used for pasteurization

zation purposes and who represent not less than sixty-five (65) per cent of the total number of such producers desire the establishment of such pool, but no hearing shall be necessary if said sixty-five (65) per cent, by volume and production, of such producers petition the director in writing to establish such equalization pool as a part of the plan. If the director finds that an equalization pool is necessary to carry out the provisions of this chapter he shall make provision therefor. The director may designate the local control board for the marketing area as his agency to operate the equalization pool and may permit such local board to employ a pool manager and such other necessary personnel and to incur such expenses incidental to the operation of the pool as the director finds are necessary. The director is hereby empowered to require distributors to make reports to the pool manager at such intervals and in such detail as he finds is necessary for the operation of the pool which reports shall be kept confidential as to any individual distributor but shall be available to the director or his agents and the pool manager, and such employees of the pool as are necessary to the operation of the equalization pool.

No provision of any pooling program shall prevent any distributor from paying premiums for quality; provided, all producers supplying fluid milk of like quality to such distributor are paid similar premiums, nor shall any provision prohibit the paying of different prices to producers based on differentials in transportation, adjustments or deductions made by a cooperative association of producers to its members, including the blending of proceeds received from the sale of fluid milk by such cooperative in other markets. Distributors who purchase fluid milk from producers for pasteurization purposes shall deduct from payments due such producers at such time and in such manner such sums as the director determines are sufficient to insure uniform prices to all producers subject to the provisions of the equalization pool, irrespective of the usage of such fluid milk by the distributors. Distributors shall make, in addition to the deductions herein prescribed, such additional deductions per pound milk fat as the director finds necessary to pay all expenses incidental to the operation of the equalization pool, including the establishment of a reserve account to insure prompt payments to producers. The deductions herein prescribed are in addition to any other deductions prescribed by this chapter.

All moneys received by the director pursuant to this section shall be deposited in the Department of Agriculture Fund in the State treasury allocated to each separate marketing area from which they are collected and disbursed only for the purposes specified subject to the approval of the director.

Money
received by
director

Any money received by the director in excess of the amount required for any program shall be returned at such time as the director may determine on a pro rata basis to the persons from whom such funds were collected.

(b) The stabilization, maintenance, and expansion of the dairy industry of California, and of the State, nation-wide, and foreign markets for its products are necessary to assure the consuming public an adequate supply of foods which are indispensable in a proper human diet, to protect, for the State and its political subdivisions, a necessary source of tax revenue, to provide and maintain an adequate standard of living for a great segment of the population of this State, to maintain proper wage scales for those engaged in the dairy industry, and to maintain existing employment.

(c) The essentiality of milk and other dairy products in a proper human nutrition and to the maintenance of a high level of public health is such as to require that the public be made thoroughly aware thereof, and be protected against misrepresentation and deception, by the dissemination of accurate and scientific information relative to the healthful qualities of dairy products, their various classifications and the food values and industrial and medicinal uses thereof, the methods, care and precautions necessary to their proper production, processing, manufacture, and distribution, and the necessary costs and expenses thereof, and the necessity and desirability on the part of the public of using and consuming dairy products of the highest standards of quality.

The statements shall describe the programs of research, education, publicity, and advertising, relative to different dairy products which are contemplated or recommended by the board, shall set forth the amounts deemed necessary and proposed to be allocated by the director to effectuate said programs and to perform his administrative duties hereunder, which shall include reasonable amounts for contingencies, and shall be in such form and detail as the director, in the reasonable exercise of his judgment, shall deem necessary adequately to show whether or not said activities are warranted by the facts disclosed by the aforesaid statements and investigations and are authorized by this chapter.  Producer
 and
 producer-
 handler

746. For the fiscal year, or remainder thereof, during which this chapter is enacted, each producer and each producer-handler shall pay a fee of one-half cent (\$.005) per pound milkfat, or fraction thereof, on all milkfat which is produced by him in this State during the first calendar month following the effective date of this chapter and sold by him in unprocessed form to a handler, or possession or control of which is delivered by him to a handler. Each such producer and each such producer-handler shall also pay a fee of one-half cent (\$.005) per pound milkfat, or fraction thereof, on all milkfat which is produced by him in this State during May of said fiscal year and sold by him in unprocessed form to a handler, or possession or control of which is delivered by him to a handler. Such fees shall be collected by the first handler who purchases, or otherwise acquires possession or control of such milkfat by deducting the same from payments due said producer for milk, cream, or milkfat in any other form. Each producer-handler shall, in addition, pay the aforesaid fees on his own production used by him for processing. For the purposes of this section, a handler who sells unprocessed milkfat, of which he has the right to possession or control by contract or otherwise, to another handler, and delivers said milkfat in unprocessed form to such other handler or causes such milkfat to be delivered to such other handler directly from the producer, shall nevertheless be deemed to be the first handler of such milkfat.

Fees:
 Handlers

746.1. For the fiscal year aforementioned, or remainder thereof, each handler in this State, including each producer-handler, shall pay a fee of one-half cent (\$.005) per pound milkfat or fraction thereof, on all unprocessed milkfat which, during the calendar months mentioned in the preceding section, is purchased by such handler or producer-handler from a producer, or possession or control of which such handler or producer-handler acquires from a producer. Each producer-handler shall include in such payment the aforesaid fees computed on his own production and used by him for processing.

Computation

746.2. For each fiscal year following that in which this chapter is enacted, the fees to be paid hereunder shall be computed and paid in the manner prescribed in the two preceding sections hereof on milkfat produced and handled during the months of October and May in each fiscal year.

Payment
 of fees

746.3. The fees prescribed in Sections 746, 746.1, and 746.2 of this chapter shall be paid to the director by handlers or producer-handlers, as the case may be, not later than the thirtieth day after the calendar months mentioned in said sections. All untested milk and cream purchased in bulk and not tested for milkfat content shall be deemed to weigh and test as follows: milk, eight and six-tenths (8.6) pounds per gallon, milkfat content four per cent (4%); cream, eight (8) pounds per gallon, milkfat content thirty-two per cent (32%); and any fractional or greater measurement shall be on the above basis.

Penalty

To the amount of fees unpaid when due, there shall be added a penalty of ten per cent (10%), and the amount due, with

penalty added, shall bear interest at the rate of one-half of one per cent ($\frac{1}{2}$ of 1%) per month.

All moneys heretofore or hereafter received by the director under the provisions of this chapter shall be accounted for and reported monthly to the Controller, and at the same time such moneys shall be deposited in the State Dairy Products Trust Fund in the State treasury, which fund is hereby created. The director shall maintain a record of the receipts and disbursements of all moneys collected and disbursed by him under this chapter, showing the source of moneys received and the purposes for which it was disbursed.

All money in the State Dairy Products Trust Fund is hereby appropriated to the Department of Agriculture to carry out the duties imposed upon the director and the board under the provisions of this chapter. The appropriation herein made shall be exempted from the operation of Section 435 of the Political Code. The moneys in the State Dairy Products Trust Fund shall be disbursed by the director only for the necessary expenses incurred by the board and the director to carry out the purposes of this chapter, including the payment of refunds authorized hereunder. The director may disburse the moneys in said fund in authorized activities related to particular dairy products without reference to the branches of the dairy industry from which said funds are derived.

The director may, with the approval of the Department of Finance and without at the time furnishing vouchers or itemized statements, withdraw from the State Dairy Products Trust Fund such amount as the director may require, to be used as a cash revolving fund to be disbursed by the director to carry out the purposes of this chapter. Such revolving fund shall be deposited in such bank or banks under such conditions as the director determines, with the approval of the Department of Finance. The Controller shall draw his warrants in favor of the director for the amounts so withdrawn, and the Treasurer shall pay such warrants. Any sums withdrawn under the provisions of this section without at the time furnishing vouchers or itemized statements therefor must, at least once a year, be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Controller. Reimbursement of the revolving fund for disbursements therefrom shall be made upon the presentation to and audit by the Controller of vouchers covering expenditures, in such form as the Controller may require.

All disbursements from the State Dairy Products Trust Fund shall be made in conformity with appropriate rules and regulations prescribed by the director and approved by the Board of Control.

The director, after consultation with the board, shall prepare an annual budget setting forth in reasonable detail the proposed expenditures which he deems necessary for the performance by him and by the department of the duties imposed upon them by this chapter, and he shall prepare and submit to the board an

annual statement, in reasonable detail, of his expenditures hereunder.

Recovery
of fees

The director, by action prosecuted by him, may recover from handlers and producer-handlers all fees which, as prescribed herein, have been or should have been collected by them on milkfat of producers and on producer-handlers' own production and fees on milkfat which they purchased or possession or control of which was acquired by them, or which they produced and used for processing, and all penalties and interest which may have accrued thereon under the provisions of this chapter.

Records of
handlers

746.4. All handlers, including producer-handlers, shall keep complete and accurate records of all milkfat which they purchase, or possession or control of which they acquire from producers in the form of unprocessed milk, cream, or in any other unprocessed form. Producer-handlers shall include their own production in such records. They shall also keep complete and accurate records of all milkfat utilized by them for processing. Such records shall be in such form and contain such information, relevant to the purposes of this chapter, as the director may, by order or regulation, prescribe, shall be preserved for a period of two (2) years, and shall be open to inspection at any time on the request of the director. The director may, by rule, order, or regulation, require every such handler and producer-handler to file with him returns on forms to be prescribed and furnished by him, giving the information, or any part thereof, of which said first handlers are required to keep records, as aforesaid. In the case of any failure of any handler or producer-handler to make adequate returns, when required, the director shall estimate the amount of delinquency from the records of the department, or from such other source or sources of information as may be available, and in any action by the director to recover fees hereunder, a certificate of the director showing the amount determined by it to be required to be paid by the person required to pay the fees shall be prima facie evidence of the fact of delinquency of the amount due.

Returns

Any ballot filed or record or report made to the director pursuant to the provisions of this chapter shall be confidential and shall not be divulged except when necessary for the proper determination of any court proceedings or hearing before the director.

(c) He was able to work and available for work for such week.

(d) He has been unemployed for a waiting period of one week. No week shall be counted as a week of unemployment for the purposes of this subsection:

SEC. 2. Section 11 of the Unemployment Insurance Act is amended to read:

"Wages"

Sec. 11. (a) Except as hereinafter in this section provided, the term "wages" means:

(1) All remuneration payable for personal services, whether by private agreement or consent or by force of statute, including commissions and bonuses, and the cash value of all remuneration payable in any medium other than cash.

(2) If tips or gratuities are customarily received and retained by a worker in the course of his employment from persons other than his employing unit, and if (1) such tips or gratuities, or (2) such tips or gratuities plus the excess of the minimum wage required to be paid by law over and above the amount of such tips or gratuities, constitute substantially the only wage payable to the worker, then such tips or gratuities shall for the purposes of this act be treated as wages paid by his employing unit.

(3) If the remuneration of an individual is not based upon a fixed period or duration of time or if the individual's wages are paid at irregular intervals or in such manner as not to extend regularly over the period of employment, the wages for any week or for any calendar quarter for the purpose of computing an individual's right to unemployment benefits only shall be determined in such manner as may by authorized regulations be prescribed. Such regulations shall, so far as possible, secure results reasonably similar to those which would prevail if the individual were paid his wages at regular intervals.

(4) The reasonable cash value of remuneration paid in any medium other than cash shall be determined and the reasonable

amount of tips or gratuities may be estimated in accordance with authorized regulations.

(b) The term "wages" does not include the actual amount of any required or necessary business expense incurred by an individual in connection with his employment, or, in lieu of the actual amount of such expenses, the reasonably estimated amount allowed therefor in accordance with such authorized regulations as may be prescribed.

(c) If, when, and during such time as the definition of the term "wages," as contained in the Federal Unemployment Tax Act excludes from "wages" any one or more of the following types of payments, then such type or types of payments as are so excluded shall likewise be excluded from the definition of wages as contained in subsection (a) of this section:

(1) That part of the remuneration which, after remuneration equal to three thousand dollars (\$3,000) has been paid to a worker by an employer with respect to employment during any calendar year, is paid to such worker by such employer with respect to employment during such calendar year;

(2) The amount of any payment made to, or on behalf of, an employee under a plan or system established by an employer which makes provision for his employees generally or for a class or classes of his employees (including any amount paid by an employer for insurance or into a fund, to provide for any such payment), on account of (a) retirement, or (b) sickness or accident disability, or (c) medical and hospitalization expenses in connection with sickness or accident disability (d) or death, provided the employee (i) has not the option to receive, instead of provisions for such death benefits, any part of such payment, or if such death benefit is insured, any part of the premiums (or contributions to premiums) paid by the employer and (ii) has not the right, under the provisions of the plan or system or policy of insurance providing for such death benefits, to assign such benefits, or to receive a cash consideration in lieu of such benefits either upon his withdrawal from the plan or system providing for such benefit or upon termination of such plan or system or policy of insurance or of his employment with such employer.

(3) The payment by an employer (without deduction from the remuneration of the employee)

(a) Of the tax imposed upon such employee under Section 1400 of the Federal Internal Revenue Code, or

(b) Of any payment required from such employee under this act.

(4) Dismissal payments which the employer is not legally required to make.

[Approved by Governor July 10, 1945. Filed with Secretary of State July 10, 1945.]

The people of the State of California do enact as follows:

Stats 1945, p 3002. SECTION 1. Section 23 of the Unemployment Insurance Act is amended to read:

Unemploy-
ment Adm-
istration
Fund

Sec. 23. There is hereby created in the State treasury a special fund to be known as the Unemployment Administration Fund. All moneys which are deposited or paid into this fund are hereby continuously appropriated and made available to the commission without regard to fiscal years. All moneys in this fund shall be expended solely for the purpose of defraying the cost of the administration of this act, and for no other purpose whatsoever, and all moneys received from the Social Security Board for the fund pursuant to Section 302 of the Social Security Act shall be expended solely for the purposes and in the amounts found necessary by the Social Security Board for the proper and efficient administration of this act. The fund shall consist of all moneys appropriated by this State for the purpose of administering this act, and all moneys received from the United States of America, or any agency thereof, including the Social Security Board, the Railroad Retirement Board and the United States Employment Service, or from any other source, for such purpose. All moneys in this fund shall be deposited, administered, and disbursed, in the same manner and under the same conditions and requirements as is provided by law for other special funds in the State treasury; except that the commission may draw, without at the time furnishing vouchers and itemized statements, sums not to exceed in the aggregate five hundred thousand dollars (\$500,000), said sum so drawn to be used as a revolving fund where payment of compensation earned, traveling expense advances, or other cash payments are necessary, and at the close of each fiscal year or at any other time, upon the demand of the Department of Finance, the moneys so drawn must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Controller. Moneys in this fund shall not be commingled with other State funds, but shall be maintained in a separate account on the books of the depository. Such moneys shall be secured by the depository in which they are held to the same extent and in the same manner as required by the General Depository Law of the State, and collateral pledged shall be maintained in a separate custody account. Any balances in this fund shall not lapse at any time, but shall be continuously available to the commission for expenditure consistent with this act. The State Treasurer shall be liable on his official bond for the faithful performance of his duties in connection with the

Unemployment Administration Fund provided for under this act. Such liability on the official bond shall be effective immediately upon the enactment of this provision, and such liability shall exist in addition to any liability upon any separate bond existent on the effective date of this provision, or which may be given in the future. All sums recovered on the official bond for losses sustained by the Unemployment Administration Fund shall be deposited in said fund. Moneys received from the Railroad Retirement Board as compensation for services or facilities supplied to said board shall be deposited in this fund. All moneys in the Unemployment Administration Fund, in excess of current requirements, and not otherwise invested, may be deposited by the State Treasurer in banks and otherwise held and invested by him in the same manner as provided by law in the case of other special funds in the State treasury, and under the same rules and regulations that govern the deposit of other public funds.

SEC. 2. Section 24 of the Unemployment Insurance Act is amended to read: Stats 1945,
Ch. 17

Sec. 24. There is hereby created in the State treasury a separate fund to be known as the Department of Employment Contingent Fund into which shall be deposited or transferred all interest on contributions, penalties and fines collected under this act. There shall be transferred to this fund from the clearing account in the Unemployment Fund upon certification of the commission the amount of interest on contributions, penalties and fines deposited each month in the clearing account provided that there shall be withheld from any such transfer the amount certified by the commission to be required under this act to pay refunds of amounts collected after January 29, 1945 and erroneously paid into the Department of Employment Contingent Fund and interest on refunds and judgments. Such amounts of interest, penalties and fines so certified for transfer shall be deemed to have been erroneously deposited in the clearing account and the transfer thereof to the Department of Employment Contingent Fund shall be deemed to be a refund of such erroneous deposits. All amounts in the Department of Employment Contingent Fund are hereby continuously appropriated without regard to fiscal years for refund of amounts collected after January 29, 1945 and erroneously deposited therein, for interest payable under this act on refunds and judgments and for the administration of the Department of Employment, provided, however, that no expenditure for administration shall be made from this fund except under an authorization made by the Director of Finance in the manner prescribed in Section 661 of the Political Code; provided further that no such authorization shall be made as a substitution for a grant of Federal funds, or for any portion thereof, which in the absence of said authorization would be available to the Department of Employment. Department
of Employment
Contingent Fund

Any amount authorized to be expended for administration pursuant to this section may be transferred to the Unemployment Administration Fund; provided, however, that any

amount not needed for the purpose for which authorized shall, upon order of the Director of Finance, be retransferred to the Department of Employment Contingent Fund.

Refunds of interest, penalties and fines collected after January 29, 1945 and interest payable on refunds and judgments pursuant to this act may not be paid from the benefit account but may be paid from the clearing account, but only to the extent that interest, penalties and fines collected are currently on deposit in that account. There is hereby continuously appropriated without regard to fiscal years such sums as may be necessary for such refunds. Immediately after clearance thereof, all other moneys in the clearing account excepting interest on contributions, penalties and fines collected shall be deposited in or invested in the obligations of the Unemployment Trust Fund of the United States of America or its authorized agent to the credit of this State, any provisions of law in this State relating to the deposit, administration, release, or disbursement of moneys in the possession or custody of this State to the contrary notwithstanding. The amounts so deposited or invested shall be entered in the Unemployment Trust Fund account.

Benefit
account

The benefit account shall consist of all moneys requisitioned from this State's account in the Unemployment Trust Fund, and any moneys so requisitioned shall be transferred out of the Unemployment Trust Fund account into the benefit account. Except as herein otherwise provided, moneys in the clearing and benefit accounts may be deposited by the treasurer, under the direction of the commission, in any bank or public depository in which public funds of the State may be deposited, but no public deposit insurance charge or premium shall be paid out of the fund. Moneys in the clearing and benefit accounts shall not be commingled with other State funds, but shall be maintained in a separate account on the books of the depository. Such moneys shall be secured by said bank or public depository

to the same extent and in the same manner as required by the General Depositary Law of the State and collateral pledged shall be maintained in a separate custody account. The official bond of the State Treasurer shall cover the faithful performance of his duties as treasurer of the Unemployment Fund. The Unemployment Fund shall be administered by the commission without liability upon the part of the State beyond the amounts paid into and earned by the fund.

If, however, the employing contracting agency does not so elect, then as to the local members employed by that agency retired for disability, the requirements for obtaining the disability retirement allowance are the same as those for State members so retired, but the disability retirement pension shall be such an amount as with that portion of his annuity provided by his accumulated normal contributions, will make his disability retirement allowance equal:

In the preparation of budgets for fire protection the total funds available or estimated to be available shall be allocated to the areas to be protected in conformance to such fire protection plan, and if the funds so available are less than the estimated adequate cost of such plan the Board of Forestry shall determine whether the intensities of fire protection shall be reduced or withdrawn, maintaining uniform consideration for all lands in each type. In those counties assuming responsibility under subdivision (a) of this section for fire protection and suppression of the lands

Classification of lands

Nothing herein contained shall be construed to deprive the Department of Natural Resources of the power and duty to require that the money paid by said department under said contract to such county shall be expended by said county for fire prevention and suppression in that area the protection of which is assumed by said county under subdivision (a) hereof.

[Approved by Governor July 10, 1945. Filed with Secretary of State July 10, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 3659 of the Revenue and Taxation Code is amended to read:

“Tax Deeded
Land Rental
Trust Fund”

3659. All moneys received by the Controller under this chapter and Section 3441 after the effective date of this amendment shall be placed by the Controller in the “Tax-Deeded Land Rental Trust Fund” in the State treasury, which fund is hereby created and appropriated to carry out the provisions of this section, and shall be remitted to the treasurer of the county in which the moneys were received between the fifteenth and thirtieth days of January and June of each year, which said remittance shall include all moneys in said fund to the credit of said county on the first day of the month preceding such remittance less any sums refunded or held for refund as provided by law. The Controller shall send concurrently with each remittance a statement to the auditor showing in detail the source of the revenue remitted. The treasurer shall upon receipt of such money, report its receipt to the county auditor. The auditor shall mail a copy of the Controller’s statement or applicable portion thereof to the secretary or the clerk of the governing board of each taxing agency, levying and collecting taxes or assessments, other than the State and county. The auditor shall also include a notice for claim specifying that claim on the amount received from the Controller shall be made within 60 days after mailing of notice for claim, and if the claim is not received by the auditor on or before the last day of the 60-day period all rights of the taxing agency failing to file a claim to any of the proceeds to be distributed shall be forfeited.

SEC. 2. Section 3659.3 of said code is amended to read:

Share claim

3659.3. On receipt of the notice for claim the governing board of each taxing agency levying and collecting taxes or assessments on the property shall forward a share claim to the county auditor which share claim shall include the taxes or assessments of any revenue district for which it collects and shall be the amount of the taxes or assessments on the property for the first year of delinquency exclusive of penalties, interest or costs; provided, however, that where any such agency has bonds outstanding and assessment calls are being made thereon to service such bonds, then the proportion for that agency shall be computed based upon the total tax and assessment liens for the first year of delinquency in the payment of assessments during

which assessments were called for the payment of both principal and interest maturing on such bonds. If the taxing agency levies taxes or assessments in one year covering payment for more than one year the amount attributable to the first year shall constitute the share claim to be filed by said taxing agency.

SEC. 3. Section 3659.5 of the said code is amended to read:

3659.5. If the share claims are correct, the board of supervisors shall order the money received from the State Controller to be distributed pro rata among the county and the taxing agencies having filed share claims. By "pro rata" is meant the division of the amount to be distributed in the proportion that the total tax and assessment liens for the first year of delinquency, exclusive of penalties, interest and costs, of each agency, including the taxes or assessments of revenue districts which each agency collects, bears to the total tax and assessment liens exclusive of interest, penalties and costs for the first year of delinquency of all such agencies. The county and the taxing agencies shall place their pro rata share in the general fund or comparable fund of each agency.

Distribution
of money

Where the county collects taxes for a city the city shall receive a pro rata share which shall be distributed to that city and placed in its general fund. The city's pro rata share shall be the division of the amount distributed to the county in the proportion that the total taxes and assessments levied by the city for the first year of delinquency, exclusive of interest, penalties and costs, bears to the total of the taxes and assessments levied for such first year, exclusive of interest, penalties and costs by all such agencies. No revenue district other than a city shall share in the distribution of the money under this chapter.

SEC. 4. Section 3902 of the said code is amended to read as follows:

3902. In all cases where any lands or real property within the State is located within one or more taxing agencies, including but not confined to a county, city and county, city, irrigation district, reclamation district, or other taxing agency, having power to assess, levy and collect taxes or assessments, and one or more of such taxing agencies has heretofore or may hereafter assess and levy taxes or assessments upon such real property within its boundaries, and such taxes or assessments have become delinquent, or may hereafter become delinquent and in accordance with the law relating to such taxing agency or agencies, tax or assessment deed to such property has been or may hereafter be made to the taxing agency, or to the State vesting title to said property in the taxing agency or the State, the following steps and proceedings may be taken by any one or more or all of such taxing agencies within the boundaries of which the affected land or real property is located:

Land located
in more than
one taxing
agency

(a) The first taxing agency, excluding the State, acquiring title to such real property through tax or assessment proceedings vesting title to said real property in such taxing agency or in the State, but including any county or city and county

Election to
be exclusive
rental and
sales agency

within the boundaries of which real property has been deeded to the State by tax deed, may elect to be the exclusive rental and sales agency for said tax-deeded property by the passage of a resolution and by filing with the office of the State Controller and with the governing board of each taxing agency within the boundaries of which the real property is located of a certified copy thereof, accompanied by a list showing the descriptions of the properties on forms prescribed by the State Controller, by the governing body of such taxing agency or such county or city and county indicating such election, and when such resolution so passed is filed with the State Controller, the exclusive right to rent or sell said land shall thereby be vested in such taxing agency or such county or city and county in accordance with the provisions hereinafter contained and notwithstanding any other provisions of this code, and the power of the tax collector of any county or city and county to sell or offer for sale at public auction or private sale any real property that has theretofore been deeded to the State for nonpayment of delinquent taxes shall be suspended during the time the provisions of this chapter are effective as to any parcel of tax-deeded property.

Election by
agency sub-
sequently
acquiring
tax title

(b) If the taxing agency first to acquire title to real property within its boundaries has not elected to become the exclusive rental or sales agency for the property, or if any rental or sales agency is terminated, any other taxing agency, excluding the State, subsequently acquiring tax title to said property or any county or city and county within the boundaries of which real property has been deeded to the State by tax deed shall likewise be entitled to elect by the same proceedings as set forth under subparagraph (a) hereof to become the exclusive rental and sales agency of said property.

Contract
with other
taxing
agencies

(c) Any taxing agency, including a county or city and county authorized by this chapter to become the exclusive rental or sales agency of real property within its boundaries is also hereby authorized and empowered, by and through its governing body, to contract with any other taxing agency within the boundaries of which the affected land is located, to act as the exclusive rental or sales agency of said property, and any and all taxing agencies within the boundaries of which the affected property is located, whether they have or have not acquired final assessment or tax deed to said property, may contract with any other taxing agency which has acquired title to said property, to act for or with the taxing agency having title to said property in the matter of the renting or sale of said tax-deeded property.

Contract as
to rental,
etc., apper-
tinent

(d) Any taxing agency electing to be the exclusive rental or sales agency shall endeavor to contract with the governing bodies of the other interested taxing agencies, including a county or city and county within the boundaries of which real property has been deeded to the State by tax deed, as to the rental or sale of tax-deeded property located within the boundaries of the respective taxing agencies, and the contract

may provide a minimum rental and a minimum sale price for the rental or sale of the affected property, and may provide for the method and amount and portion of the receipts from rentals and/or sales to be paid to each such taxing agency. In cases in which the agreement does not otherwise provide, the share of rentals received by a taxing agency pursuant to the agreement shall not be distributed to a revenue district other than a city and shall be paid into the general or comparable fund of the taxing agency, including cities. If no agreement for pro-^{Lease or sale} portioning of revenues from rental or sales is agreed upon, the affected property shall only be leased or sold by the taxing agency electing to become the sole rental or sales agency after offering said property for lease or sale after public notice,^{Notice} stating the time and place when and where bids will be received for the sale or lease of the property, of not less than 10 days subsequent to the first publication of such notice in a newspaper of general circulation published in the county or city and county within which said property is situated. Such notice may be published one or more times in the discretion of the taxing agency. No inferior bid shall be accepted if a better or^{Bids} more favorable offer of sale, lease, or method of operation is available.

Unless all interested taxing agencies having delinquent^{Apportion-} taxes or assessments against the affected property do agree^{ment of} upon the proportions of rental or sales receipts to be received^{proceeds} by each taxing agency: (1) The proceeds realized from any sales of the affected property shall be apportioned and divided between all interested taxing agencies in the proportion that the total tax and assessment liens for the first year of delinquency, exclusive of penalties, interest, and costs, of each agency, including the interest of revenue districts, bears to the total tax and assessment liens for the first year of delinquency, exclusive of interest, penalties and costs of all such agencies; provided, however, that where any such agency has bonds outstanding and assessment calls are being made thereon to service such bonds, then the proportion for that agency shall be computed based upon the total tax and assessment liens for the first year of delinquency in the payment of assessments during which assessments were called for the payment of both principal and interest maturing on such bonds. If the taxing agency levied taxes or assessments in one year covering payment for more than one year, the amount attributable to the first year shall constitute the share of such taxing agency. Taxing agencies other than counties shall prorate on the same basis the money they so receive to themselves and to the revenue districts for which they collect taxes or assessments. Counties shall distribute the money they so receive in the manner provided in Part 8 of this division. Whenever one taxing agency holds a tax deed and another taxing agency otherwise entitled to levy taxes or assessments on the property is unable by reason of such public ownership to levy taxes thereon, and has no delinquent taxes thereon, the last assessment of the taxing agency

shall, for the purpose of the apportionment of sales and rentals, be deemed to be its first year of delinquency. (2) The proceeds realized from any rentals of the affected property shall be apportioned and divided and placed in funds as provided in Sections 3659.3 and 3659.5 as to money received from the State Controller but without any requirement for filing share claims.

Apportionment where title in one agency

(e) Where there has been deeded to the State by tax deed any real property within the boundaries of any said taxing agency, including any county or city and county, and title has heretofore been acquired or may hereafter be acquired by any of said taxing agencies or the State by tax title through delinquent tax proceedings, or purchase of tax title and/or in or by any of the methods provided for in this code, so that any one taxing agency acquires the interest of the State and of all other interested taxing agencies, the rental hereafter received relating to the affected property shall be apportioned between or among said taxing agencies in such proportions and amounts as the said respective taxing agencies through their respective governing bodies shall by agreement determine, and in the event that all of the interested governing bodies can not agree upon a method of apportioning, then the rentals received from such property shall be apportioned and divided and placed in funds as provided in Sections 3659.3 and 3659.5 as to money received from the State Controller but without any requirement for filing share claims.

[Approved by Governor July 11, 1945 Filed with Secretary of State July 11, 1945] In effect
immediately

The people of the State of California do enact as follows.

SECTION 1. Education Code Section 20461 is repealed. Repeal

SEC. 2. Article 6.5 is added to Chapter 2 of Division 10 of said code, to read:

Article 6.5. Summer Sessions

20471. A State college may, with the approval of the Director of Education, annually conduct and maintain a summer session. Summer
sessions

20472. Tuition fees adequate, in the long run, to meet the cost of maintaining summer sessions in the State colleges, shall be required of, and collected from, students enrolled in each such summer session under and pursuant to rules and regulations prescribed by the Director of Education. Tuition

20473. Special fees to cover cost of materials for specific services and other fees to cover the cost of accommodation services and other services provided students, may be collected, if authorized by the Director of Education, from students enrolled in each summer session. Special fees

This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The present method of providing for the support of State college summer sessions by requiring each such summer session to be entirely self-supporting has resulted in the imposition of gross inequities upon the State colleges and the students thereof enrolled in the summer sessions of the State colleges. The State colleges enrolling large numbers of students in summer sessions have been required to contribute to the support of the summer sessions of other State colleges. In order that this situation may not obtain with respect to the 1945 State college summer session, it is necessary that this act take effect immediately.

[Approved by Governor July 11, 1945. Filed with Secretary of State July 11, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 19400 is added to the Government Code, to read as follows:

Reinstatement after military service
Determination of ability

19400. When an employee has been reinstated after military service in accordance with Section 19390, and any question arises relative to his ability or inability for any reason arising out of such military service to perform the duties of the position to which he has been reinstated, the board shall, upon the request of the appointing power or of the employee, hear the matter and may on its own motion or at the request of either party take any and all necessary testimony of every nature necessary to a decision on the question; if the board finds that the employee is not able for any reason arising out of such military service to carry out the usual duties of the position he then holds, it shall order the employee placed in a position in which the board finds he is capable of performing the duties in the same class or a comparable class in the same or any other State department, bureau, board, commission or office, under this part and the rules of the board covering transfer of an

Transfer

employee from a position under the jurisdiction of one appointing power to a position under the jurisdiction of another appointing power, except that the consent of such appointing powers shall not be necessary for such transfer, where a vacancy may be made available to him under the provisions of this part and the rules of the board, but in no event shall the transfer constitute a promotion within the meaning of this part and the rules of the board. If a layoff is made necessary to place an employee in a position in the same class or a comparable class in accordance with the provisions of this section, such layoff shall be made under the provisions of Section 19533, provided that no employee who was employed prior to September 16, 1940, shall be laid off as a result of the placing of an employee in the same class or a comparable class under this section.

The Personnel Board may order such employee restored to a position in the class in the same State department, bureau, board, commission or office from which he was transferred upon the request of the State department, bureau, board, commission or office in which reinstatement was made or to which transfer was made, or upon the request of the employee, if, after a hearing as provided in this section, the board finds that such employee is at the time of the hearing able to perform the duties of the position he shall be reinstated thereto.

SEC. 2. Whenever, heretofore or hereafter, by any law of this State a public officer or employee is entitled to return to, or to be reinstated in, his office or employment within a specified period after his separation from the military service of the United States, including any uniformed auxiliary of such service, and in connection with his separation he is required to furnish, and does furnish, evidence that he will engage in civilian work of a specified category and subsequent to his discharge he does engage in such work, such officer or employee shall be deemed to be separated from such military service for purposes of such return or reinstatement and all rights and privileges connected therewith as of the date upon which he terminated such civilian work.

SEC. 3. In no event shall any person be deemed to be separated from military service pursuant to Section 2 later than 60 days after the cessation of hostilities in all wars in which the United States is now engaged.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

A doubt has been expressed as to the time of separation in certain cases from the military service of the United States for the purposes of return or reinstatement in public offices and employments, including those of the State, counties, cities, municipal corporations, political subdivisions, public districts,

and other public agencies of the State. The Legislature hereby declares that Section 2 of this act is intended not as a change in, but as a statement and declaration of the law as the Legislature intended it to be prior to the enactment of this act. To resolve any doubt and to avoid any delay in the reinstatement and reemployment of public officers and employees who have served in the military service, it is necessary that this act take effect immediately, but no inference is to be drawn herefrom that the law prior to the enactment of Section 2 of this act differed in any manner from the provisions of that section.

CHAPTER 1285

An act to add Section 583.5 to the Code of Civil Procedure, relating to dismissal of actions, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor July 11, 1945 Filed with Secretary of State
July 11, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 583.5 is added to the Code of Civil Procedure, to read:

Failure to
bring action
to trial due
to war

583.5. Where it appears to the satisfaction of the court, upon application by the plaintiff upon notice to the defendant, made prior to the termination of hostilities between the United States and the nations with which the United States is now at war as determined by Act of Congress or Proclamation of the President and filed within five years after plaintiff shall have filed his action, that such action has not been brought to trial because the presence of a material witness can not be obtained by reason of the existence of said hostilities, the court, in its discretion, may from time to time extend for terms of not more than one year each the time for bringing the action to trial but in no event shall the aggregate of such extensions extend beyond one year after the termination of hostilities as herein provided.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Many persons who are material witnesses in cases pending are now absent in the military service or otherwise absent by reason of hostilities and in some cases have been absent for a long period. In order that parties may not be deprived of the opportunity to present their cases in court, it is necessary that provision be made whereby the dismissal of these actions may be avoided until the return of these witnesses. Since many of these actions have been pending for several years, and will have to be dismissed under existing law if not brought to trial, it is necessary that this act take effect immediately.

CHAPTER 1286

SECTION 1. Section 14075 of the Health and Safety Code is amended to read:

14075. The district board shall purchase and maintain all necessary and convenient engines, hose, hose carts, or carriages, and other appliances and supplies for the full equipment of a fire company or department, may purchase and maintain ambulances, and shall appoint fire company officers and employees sufficient to maintain and operate equipment purchased for such district. Purchase and maintenance of equipment

The board is authorized, but not required, by resolution thereof, to provide for payment to each officer and employee of such fire department the sum of not more than one dollar (\$1) for each fire attended by such officer or employee. Payment to employees

SEC. 2. Section 14114 is added to said code, to read:

14114. The holder of any elective office of any fire protection district organized or existing under this chapter may be removed or recalled at any time by the electors; provided he has held office for at least six months. The provisions of this section are intended to apply to officials now in office, as well as to those hereafter elected. Removal of elective officers

The procedure to effect such removal or recall shall be as follows: A petition demanding the election of a successor to the person sought to be removed shall be filed with the secretary of the district board, which petition shall be signed by registered electors of such district equal in number to at least 25 per cent of the highest vote cast within such district for candidates for the office, the incumbent of which is sought to be removed, at the last general election in such district at which an incumbent of such office was elected; and said petition shall contain a statement of the grounds on which the removal or recall is sought, which statement is intended solely for the information of the electors. Any insufficiency of form or substance in such statement shall in nowise affect the validity of the election and proceedings held thereunder. The signatures to the petition need not all be appended to one paper. Each signer shall add to his signature his place of residence, and if within a town having named streets and numbered houses, street and number. Each such separate paper shall have attached thereto an affidavit made by an elector of the district and sworn to before an officer competent to administer oaths, stating that the affiant circulated that particular paper and Procedure

saw written the signatures appended thereto; and that according to the best information and belief of the affiant, each is the genuine signature of the person whose name purports to be thereunto subscribed and of a qualified elector of the district.

Within 10 days from the date of filing such petition, the secretary of the board shall examine and from the records of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and he shall attach to said petition his certificate showing the result of said examination.

If by the said certificate the petition is shown to be insufficient, it may be supplemented within 10 days from the date of such certificate, by the filing of additional papers, duplicates of the original petition except as to the names signed. The secretary shall, within 10 days after such supplementing papers are filed, make like examination of such supplementing petitions, and if a certificate shall show that all the names to such petition, including the supplemental papers, are still insufficient, no action shall be taken thereon; but the petition, including all supplemental papers, shall remain on file as a public record; and the failure to secure sufficient names shall be without prejudice to the filing later of an entirely new petition to the same effect.

If the petition, including any supplemental paper, shall be found to be sufficient, the secretary shall submit the same to the district board without delay, whereupon the board shall forthwith cause a special election to be held within not less than 35 nor more than 40 days after the date of the order calling such election, to determine whether the voters will recall such officer; provided, that if a general election is to occur within 60 days from the date of the order calling for such election, the board may in its discretion postpone the holding of such election to such general election or submit such recall election at any such general election for officers of such district occurring not less than 35 days after such order. If a vacancy occur in said office after a recall petition is filed, the recall election shall nevertheless proceed as in this section provided. One petition is sufficient to propose a removal and election of one or more elective officials. One election is competent for the removal and election of one or more elective officials.

Vacancy

Nomination
procedure

Nominations for any office under such recall election shall be made in the manner prescribed as follows: Not less than 15 days before such recall election any 10 or more qualified electors in the district may file with the district board a nomination petition requesting that the names of certain electors of the district, specified in such nomination petition be placed on the ballot as candidates for the offices named therein. Such nomination petitions shall not specify more than one name for each office to be voted upon at such recall election. The name of the incumbent officer sought to be recalled shall not be named in any nomination petition. The names proposed by the various

nomination petitions so filed, and no others, shall be printed on the ballots, but there shall be sufficient blank spaces left in which electors may write other names if they so desire. The nomination petitions shall be preserved in the office of the secretary of the district.

There shall be printed on the recall ballot, as to every officer ^{Ballot} whose recall is to be voted on thereat, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office of (title of the office)?" following which questions shall be the words "Yes" and "No" on separate lines, with a blank space at the right of each, in which the voter shall indicate, by stamping a cross (X), his vote for or against such recall. On such ballots, under each such question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the person recalled, in case he shall be removed from office by said recall election; but no vote shall be counted for any candidate for said office unless the voter also voted on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office nor shall the name thereof be written in any blank space provided for said office.

If a majority of those voting on said question of the recall of any incumbent from office shall vote "No", said incumbent shall continue in said office. If a majority shall vote "Yes", said incumbent shall thereupon be deemed removed from such office, upon the qualification of his successor. The election shall be conducted, canvass of all votes for candidates for said office shall be made, and the result declared in like manner as in a regular election within such district. If the vote at any such recall election shall recall the officer, then the candidate who has received the highest number of votes for the office shall be thereby declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within 10 days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law. If the vote at any such recall election shall not recall the officer, no further petition for the recall of such officer shall be filed before the expiration of six months from the date of such recall election.

SEC. 20. Notwithstanding Section 3720 of the Political Code, the San Luis Obispo County Flood Control and Water Conservation District is validly created for the purposes of assessment and taxation. The creation of any zone in the San Luis Obispo County Flood Control and Water Conservation

District shall not be effective for purposes of assessment or taxation for the Fiscal Year 1944-1945 and shall not be effective for such purposes for any fiscal year thereafter unless the statement and map or plat required by Section 3720 of the Political Code are filed with the county assessor and the State Board of Equalization on or before the first of February of the year in which the assessments or taxes are to be levied. Until such time as the creation of any zone shall be effective for purposes of assessment or taxation, any tax or assessment levied by the board shall be levied at a uniform rate on all property in the San Luis Obispo County Flood Control and Water Conservation District.

For the Fiscal Year 1945-1946, but for no other fiscal year, notwithstanding Section 19 of this act, the assessment and equalization of property for the purpose of district taxation shall be effected as provided in this section.

Assessments of the district for the Fiscal Year 1944-1945 are liens on the property the same as if they were county taxes, except that the district assessment liens attach as of noon on the day after this act becomes effective.

It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the Fiscal Year 1944-1945 are the correct assessments for purposes of assessment by the district and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and collecting the assessments for the district. If the ownership or taxable situs or value of any property changes between noon on the first Monday in March, 1945, and the date on which attaches the lien for assessments of the district for the Fiscal Year 1945-1946, then, on petition of the taxpayer affected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of assessment by the district.

In equalizing the assessments made by the county assessor, the Board of Supervisors of San Luis Obispo County, sitting as the county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of assessment by the district in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

If, for purposes of assessments by the district, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes, is conclusively presumed to be the correct assessment for assessment purposes of the district.

The board may prescribe by ordinance any necessary procedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying, and collecting taxes or assessments for the district for the Fiscal Year 1945-1946. Except as provided in this section, Section 19 of this act is applicable to the assessment and equalization of property for the purpose of district assessments for the Fiscal Year 1945-1946.

The board shall make call for bids and advertise such call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. percentage of the total amount of net income, allocable to this
State, of every corporation taxable under subdivision (3) of
Section 4 of this act, for the next preceding calendar year or
fiscal years ended during such calendar year, required to be

The commissioner, after public hearing and opportunity given to examine the data on which his determination is based, shall determine not later than the thirty-first day of December of each year the average percentage of net income above specified, and, within 30 days after his determination, shall mail notice of his determination and the amount of tax payable on the basis of such determination to all banks and financial corporations affected thereby, which are then classified on his records as banks or financial corporations, but such determination shall not be considered a deficiency assessment within the meaning of Section 25 hereof. The data gathered by the commissioner in determining the rate, referred to herein, shall be made available to the taxpayers affected by such determination at the time and in the manner prescribed by regulations adopted by the commissioner.

Determination by commissioner

If it be judicially determined that the rate of tax on any bank or corporation is higher than is authorized by law such bank or corporation shall be relieved of liability for any tax imposed by this act only to the extent of the excess beyond that legally authorized.

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare to accept the consent of the natural parents to the adoption of the child by petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing the report with the court.

In all cases in which the consent of the natural parent or parents is not necessary and a society licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social Welfare unless the child's welfare will be promoted by the adoption.

Except in the case of the adoption of a child by a stepparent where one natural parent retains his or her custody

and control of the child, it shall be the duty of the Department of Social Welfare to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition; provided, however, that the court may allow such additional time for the filing of said report as in its discretion it may see fit. The report required of the Department of Social Welfare may be waived by the department in all cases in which a society, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Whenever any report or findings are submitted to the court by the Department of Social Welfare under any provision of this section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of record, or to the petitioner.

In case of an adoption of a child by a stepparent where one natural parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare. Adoption by stepparent

If the father or mother of a child to be adopted resides outside the State of California, his or her consent may be signed before a notary and in such case the consent of the Department of Social Welfare will also be necessary. Consent of nonresident parent

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation upon such parent reaching his or her majority. Minor parents

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department shall within 10 days file a report of its findings and the reasons for its failure or refusal to consent to the adoption or to accept the consent of the natural parent. After Appeal

the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court; or if the appeal be from the refusal of said department to consent thereto, grant the petition without such consent.

SEC. 2. Section 227 of said code, is amended to read:

Appearance
at hearing

227. The person or persons desiring to adopt a child, and the child proposed to be adopted, must appear before the court; provided, that if said adoptive parent is then commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, so that it is impossible or impracticable, because of such person's absence from the State of California, or otherwise, for said person to make such appearance in person, and said circumstances are established by satisfactory evidence, said appearance may be made for such person by his or her counsel, commissioned and empowered in writing so to do and which said power of attorney may be incorporated in the petition for adoption. The court must examine all persons appearing before it pursuant to this section, each separately, and if satisfied that the interest of the child will be promoted by the adoption, the party or parties adopting shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party or parties, and the court shall thereupon make an order awarding the custody of the child to the adopting parent or parents. In a case where the adopting parent is permitted to appear by counsel, the agreement may be executed and acknowledged by such counsel for such absent party, or may be executed by such absent party before a notary public, or any other person authorized to take acknowledgments including the persons authorized by Sections 1183 and 1183.5 of this code; provided, that in any case where said adoptive parent is permitted to appear by counsel hereunder, or otherwise, the court may, in its discretion, cause such examination of said adoptive parent, other interested party, or witness to be made upon deposition, as it deems necessary, said deposition to be taken upon commission, as prescribed by the Code of Civil Procedure, and the expense thereof to be borne by the petitioner. The petition, relinquishment, agreement, order, and any power of attorney and deposition must be filed in the office of the county clerk and shall not be open to inspection by any other than the parties to the action and their attorneys and the State Department of Social Welfare except upon the written authority of the judge of the superior court.

The people of the State of California do enact as follows:

SECTION 1. Section 224 of the Civil Code is amended to read:

224. A legitimate child can not be adopted without the consent of its parents if living; provided, however, that after the custody of any child has by any judicial decree, been given to the mother, and the father for a period of one year shall wilfully fail to pay for the care, support and education of such child when able to do so, then the mother alone may consent to such adoption, but only after the father has been personally served with a copy of a citation requiring him to appear at the time and place set for the appearance in court under Section 227 of this code; if the father can not be located for personal service, the same may be made by publication as provided for the publication of summons in Section 413 of the Code of Civil Procedure; nor an illegitimate child without the consent of its mother if living; except that the consent of a father or mother is not necessary in the following cases:

Consent to
adoption

3. Where such father or mother of any child has relinquished said child for adoption as provided in Section 224m of this code.

4. Where such father or mother, whose consent is otherwise required, has been declared by a court of competent jurisdiction of this or any other State to be feeble-minded or insane, if the State Director of Institutions or the superintendent of the State hospital of which, if any, such father or mother, is an inmate or patient, certify that such father or mother will not be capable of supporting or controlling the child in a proper manner.

SEC. 3. Section 226 of said code is amended to read:

226. Any person desiring to adopt a child may for that purpose petition the superior court of the county in which the petitioner resides and the clerk of the court shall immediately notify the State Department of Social Welfare at Sacramento in writing of the pendency of the action and of any subsequent action taken. In all cases in which consent is required, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, unless a society licensed by the State Department of Social Welfare to find homes for children and place children in homes for adoption joins in the petition for adoption, the consent of the natural parent or parents to the adoption by the petitioners must be signed in the presence of an agent of the State Department of Social Welfare on a form prescribed by such department and filed with the clerk of the superior court, in the county of the petitioner's residence.

Consent

Effect of
consent

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

Duty of
Department
of Social
Welfare

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare to accept the consent of the natural parents to the adoption of the child by petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing report with the court.

When
consent
unnecessary

In all cases in which the consent of the natural parent or parents is not necessary and a society licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social

Welfare unless the child's welfare will be promoted by the adoption.

Except in the case of the adoption of a child by a stepparent ^{Report to court} where one natural or adoptive parent retains his or her custody and control of the child, it shall be the duty of the Department of Social Welfare to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition; provided, however, that the court may allow such additional time for the filing of said report as in its discretion it may see fit. The report required of the Department of Social Welfare may be waived by the department in all cases in which a society, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Whenever any report or findings are submitted to the court by the Department of Social Welfare under any provision of this section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of record, or to the petitioner.

In case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare. ^{Adoption by stepparent}

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts, and in such case the consent of the Department of Social Welfare will also be necessary, but such consent shall not be necessary where the adoption is by a stepparent and one natural parent retains custody and control of the child. ^{Consent of parents outside State}

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation upon such parent reaching 18 or her majority. ^{Minor parents}

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department fails or refuses to file or to give its consent to an adoption in those cases where ^{Appeal}

its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department shall within 10 days file a report of its findings and the reasons for its failure or refusal to consent to the adoption or to accept the consent of the natural parent. After the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department to consent thereto, grant the petition without such consent.

SEC. 4. Section 227a of said code is amended to read:

Investigation 227a. The probation officer in the county in which the action for adoption is pending shall make an investigation of each case of adoption by a stepparent where one natural parent retains custody and control of the child. No order of adoption shall be made by the court until after such probation officer shall have filed his report and recommendation and the same shall have been considered by the court.

SEC. 5 Section 227aa of said code is amended to read:

Adoption by stepparent in military service
 Appearance at hearing
 Agreement
 Order awarding adoption
 Duration 227aa. In the case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the stepparent may appear by attorney if he or she is in the military, naval or marine service of the United States. The natural or adoptive parent retaining custody of the child and the child proposed to be adopted must appear before the court; provided, that if said natural or adoptive parent is then commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, so that it is impossible or impracticable, because of such person's absence from the State of California, or otherwise for said person to make such appearance in person, and said circumstances are established by satisfactory evidence, said appearance may be made for such person by his or her counsel, commissioned and empowered in writing so to do and which said power of attorney may be incorporated in the petition for adoption. The court must examine all persons appearing before it pursuant to this section, each separately, and if satisfied that the interests of the child will be promoted by the adoption shall order that the stepparent shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party. The agreement shall be executed or acknowledged before a notary public or other person authorized under Civil Code Sections 1182, 1183 and 1183.5 to acknowledge instruments or a commissioned officer in command of the stepparent executing or acknowledging the agreement. If the court approves the agreement, it shall thereupon make an order awarding the adoption. This section shall remain in effect until the ninety-first day after final adjournment of the Fifty-seventh Regular

Session of the Legislature or until the cessation of hostilities in all wars in which the United States is now engaged, whichever first occurs. While this section is in effect it shall supersede any existing provisions of law which are in conflict with this section; but such provisions are not repealed by this section and after this section is no longer effective shall have the same force as though this section had not been enacted.

SEC. 6. Section 227aaa is added to said code, to read:

227aaa. Notwithstanding any other provision of law, the State Department of Social Welfare, and any holder of a license or permit to place children for adoption issued by the State Department of Social Welfare may furnish information relating to any adoption petition to the juvenile court, to any county welfare department, to any public welfare agency, or to any private welfare agency licensed by the State Department of Social Welfare whenever it is believed the welfare of a child will be promoted thereby.

CHAPTER 1326

"Community
Redevelop-
ment Act"

An act relating to land use and development, including particularly the rehabilitation and redevelopment of blighted areas in urban and suburban communities in this State, and providing ways and means therefor, and for assisting public and private enterprise in the attainment of the objectives and carrying out the purposes of this act.

In effect
September
15, 1945

[Approved by Governor July 11, 1945. Filed with Secretary of State July 11, 1945.]

The people of the State of California do enact as follows:

Article 1. Short Title

Short title

SECTION 1. This act shall be known and may be cited as the "Community Redevelopment Act."

Article 2. Legislative Finding, Policy of State and Purpose of Act

Legislative
declaration

SEC. 2. It is hereby found and declared that there exist in many communities in this State blighted areas which constitute

either social or economic liabilities, or both, requiring redevelopment in the interest of the health, safety and general welfare of the people of the communities in which they exist and of the people of this State generally. These blighted areas are characterized by one or more of the following conditions:

(a) The existence of buildings and structures, either used or intended to be used for living, commercial, industrial or other purposes, or any combination of such uses, which by reason of defective design and character of physical construction, faulty interior arrangement and exterior spacing, high density of population and overcrowding, inadequate provision for ventilation, light, sanitation, open spaces and recreation facilities, age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses to which they are put, or any combination of such factors and characteristics, are unfit or unsafe to occupy for residential, commercial, industrial or other purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency and crime.

(b) An economic dislocation, deterioration or disuse, as a result of faulty planning, the subdividing and the sale of lots of irregular form and shape and inadequate size for proper usefulness and development, the laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions, or the existence of inadequate streets, open spaces and utilities, or of lots or other areas which are subject to being submerged by water.

(c) A prevalence of depreciated values, impaired investments and social and economic maladjustment to such an extent that there exists a reduced capacity to pay taxes and consequent inadequacy of tax receipts in relation to the cost of public services rendered.

(d) A growing and in some instances a total lack of proper utilization of areas, resulting in a stagnant and unproductive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare; and in other areas a loss of population and reduction of useful utilization of the area, resulting in the further deterioration thereof and in added costs to the taxpayer supporting governmental entities for the creation of new public facilities and services elsewhere.

It is further found and declared that the existence of blighted areas characterized by any or all of such conditions, separately or collectively, constitutes a serious and growing menace which is hereby condemned as injurious and inimical to the public health, safety and welfare of the people of the communities in which they exist and of the people of the State generally; that such areas present difficulties and handicaps which are beyond remedy and control solely by regulatory processes in the exercise of the police power; that they contribute substantially and increasingly to the problems of, and necessitate excessive and disproportionate expenditures for, crime prevention, correction, prosecution and punishment, the treatment of juvenile

Further
declarations

delinquency, the preservation of the public health and safety and the maintaining of adequate police, fire and accident protection and other public services and facilities; that this menace is becoming increasingly direct and substantial in its significance and effect; that the benefits which will result from the remedying of these conditions and the redevelopment of these areas of blight will accrue to all the inhabitants and property owners of the communities in which they exist.

It is further found and declared that such conditions of blight tend to further obsolescence, deterioration and disuse because of the lack of incentive to the individual landowner and his inability to improve, modernize or rehabilitate his own particular property while the condition of the neighboring properties remains unchanged; that as a consequence the process of deterioration of a blighted area frequently can not be halted or corrected except by redeveloping the entire area, or substantial portions thereof; that such conditions of blight are chiefly found in areas which have been subdivided into small parcels, that in most instances the lands are held in divided and widely scattered ownerships, frequently under defective titles, that in many such instances the private assembly of the lands in blighted areas for purposes of redevelopment is so difficult and costly that it is uneconomic and as a practical matter impossible for individual owners independently or collectively to undertake to remedy such conditions because of lack of the legal power necessary for, and the excessive costs involved in, the private acquisition of the real property of the area; that the remedying of such conditions may require the public acquisition at fair prices of adequate areas, the clearance of the areas through demolition of existing obsolete, inadequate, unsafe and insanitary buildings and the redevelopment of the areas suffering from such conditions under proper supervision, with appropriate planning, and continuing land use and construction policies.

Policy of
State

For these reasons it is hereby declared to be the policy of this State to protect and promote the sound development and redevelopment of blighted areas within this State and the general welfare of the inhabitants of the communities in which they exist by remedying such injurious conditions through the employment of all means appropriate for that purpose; that whenever the redevelopment of blighted areas can not be accomplished by private enterprise alone, without public participation and assistance in the acquisition of land, in planning and in the financing of land assembly, in the work of clearance and in the making of improvements necessary therefor, it is in the public interest to employ the power of eminent domain, to advance or expend public funds for these purposes and to provide a means whereby the blighted areas within this State may be redeveloped or rehabilitated; that the redevelopment of such blighted areas and the provision for appropriate continuing land use and construction policies therein, constitute public uses and purposes for which public money may be advanced or

expended and private property acquired, and are governmental functions of State concern in the interest of the health, safety and welfare of the people of the State generally and particularly of the people of the communities of the State in which such areas exist; that it is in the public interest that work on such projects be commenced as soon as possible in order to create postwar employment; and that the necessity in the public interest for the provisions hereinafter enacted is hereby declared to be a matter of legislative determination.

SEC. 35. If any suit, action or proceeding involving the validity or enforcement of, or relating to, any contract by or on

money

The money so apportioned shall be paid to the several counties and district agricultural associations as soon as such apportionment is determined.

Advances

The Department of Finance, out of any money on hand to be apportioned, may advance to any county or district agricultural association, for the purpose of paying premiums, at any time during the year, any portion of the money to which, in the opinion of the Director of Finance, the county or district agricultural association will become entitled for that year.

Deposit

The county or district agricultural association shall deposit such money in a separate bank account approved by the Director of Finance in accordance with the provisions of Section 10

of an act entitled "An act to authorize and control the deposit in banks of money belonging to or in the custody of the State and to repeal all acts or parts of acts in conflict with this act," approved April 12, 1923, as amended. Such money may be expended for premiums, capital outlay, including purchase of land, construction, improvements, equipment, or other purposes for the encouragement of county or district agricultural association fairs pursuant to a budget submitted to, and approved by, the Department of Finance subject to the provisions of Section 677.5 of the Political Code.

For any fair operated prior to 1933 which received, or was qualified to receive, money from appropriations for the support of agricultural fairs, the basis may be increased 10 per cent for each year in which a fair was held from the time the fair was first held, except that if no fair was held by the county or district for a period of five or more years the percentage of increase shall apply only from the first fair held after said period. Any fair may pay premiums in an amount greater than that used as the base of apportionment to it.

The Department of Finance shall prescribe rules and regulations for the judging of exhibits, and the maximum amount of premiums which may be offered and paid for all classes, sections, and types of exhibits. No fair shall receive any apportionment of funds under this section unless it complies with such rules and regulations.

Rules and regulations

No allotment from the apportionment herein provided shall be made for more than one fair in any one year in any county or district. A certified copy of said resolution shall be filed with the Department of Finance. Upon adoption of said resolution by the board of supervisors, and the filing thereof as herein provided, the county referred to shall no longer be eligible to receive allotments under this section and the district agricultural association which becomes eligible to receive an allotment due to the adoption of said resolution shall, for the purpose of determining the maximum base of allocation for said association, be entitled to receive credit for the fairs previously held by said county and said fairs shall be considered as fairs

The people of the State of California do enact as follows:

SECTION 1. Section 1 of the Highway Carriers' Act is amended to read: Stats 1937,

However, it does not include the following:

(1) Carriers operating exclusively within the limits of a single incorporated city or city and county;

(2) Any farmer resident of this State who occasionally transports from the place of production to a warehouse, regular market, place of storage, or place of shipment the farm products of neighboring farmers in exchange for like services or for a cash consideration or farm products for compensation. "Occasionally" as used in this section shall be construed to mean occasionally or for a total annual compensation from all

sources for providing such transportation for hire of not more than six hundred dollars (\$600), and provided that such transportation shall constitute the sole transportation of persons or property for hire or compensation. Any such farmer shall keep available an account of each time he has transported such farm products and the compensation received therefor. The account of transportation performed and compensation received therefor, as herein provided, may be any simple method of record keeping and in cases where record keeping practices are such that reports upon truck operations are reported at the end of the operating season, such end-of-the-season reports shall be deemed adequate for the purposes of this section.

Repeal

SEC. 2. Section 1.5 of the act cited in the title hereof is repealed.

CHAPTER 1343

An act relating to real property of a city, county, or city and county, situate without the territorial boundaries of the owner, prescribing regulations concerning the handling and disposition of such property, whether by sale, lease, license or otherwise, and providing for the administration and enforcement of the provisions of this act.

In effect
September
15, 1945

[Approved by Governor July 12, 1945 Filed with Secretary of State
July 12, 1945]

The people of the State of California do enact as follows:

"Local
agency"

SECTION 1. (a) "Local agency" as used herein means a city, a county or a city and county, whether governed under general laws or under a charter framed for its own government.

(b) "Real property" as used herein is coextensive with lands, tenements and hereditaments and includes land or any interest or estate in land and any servitude upon land. "Real property"

(c) This act shall apply only to the real property belonging to a local agency which is situate within another local agency, and then only if the owner agency owns in excess of fifty per cent (50%) of all of the land situate in such other local agency, excluding from the computation all land owned by the United States or by the State of California. Application of act

SEC. 2. No local agency shall make, demand or receive any charge in excess of a reasonable charge for the sale or other disposition or for the leasing, licensing or other use of any of its real property. Charge for selling, etc

The economic utility of the property to the user of it for the purpose or purposes to which it is suited is the prime factor in determining the reasonableness of any such charge. For example, in the case of a lease for the grazing of livestock, the value of the forage to the livestock producer, taking into consideration the number of livestock the property reasonably will support when used in a manner that will conserve it as a grazing resource and the monetary return to the livestock producer by such use of the property, is the prime factor in determining the reasonableness of the rental charge.

SEC. 3. In making a sale or lease of any of its real property, a local agency must first give preference to the person or persons, if any, who have occupied or used that property or any portion of it for not less than two years within the next preceding three years, and an opportunity, within a reasonable period of time from and after written notice to him or them, to buy or lease it at a reasonable price or rental. Preference

SEC. 4. With the approval of the legislative body of a local agency, the board or officer having charge or control of real property belonging to that local agency, upon a finding that the public interest would be furthered thereby, may sell or lease said property without advertising and without inviting or calling for bids therefor. Sale without advertising or bids

SEC. 5. If a local agency receives in excess of a reasonable charge for the sale or other disposition or for the leasing, licensing or other use of any of its real property, it shall repay the amount of such excess, with interest from the date of collection, to the person or persons from whom received. Excessive charge

SEC. 6. It is against public policy to permit a person to waive, and no person may waive the benefit of any of the provisions of this act, nor may he waive any right of action accruing to him hereunder, nor any right he may have as to the place of commencement or trial of any such action. Waiver

SEC. 7. The Legislature finds and declares that there are communities in this State in which a considerable portion of the agricultural lands and of the improved commercial and business sites thereof are properties as herein defined owned by local governmental agencies situate in distant parts of the Legislative declaration

State. These circumstances give rise to relationships, interrelationships and interests between the inhabitants of such communities and the local governmental agencies thereof and the owners of such properties which call forth and require the exercise of the police power inherent in the State as sovereign, for the reconciliation of the respective rights, duties, powers and privileges of the inhabitants of these communities and of the various local governmental agencies thus involved. These conditions are accentuated by the recent and current inflationary tendencies in respect to real property sales prices and rental rates, particularly in those areas in which a distant local agency owns and controls the greater part of the lands that are not owned by the State or the United States.

Constitutionality

SEC. 8. If any provision of this act, or the application thereof to any person or circumstance, is held invalid, the remainder of the act, or the application of such provision to other persons or circumstances, shall not be affected thereby.

CHAPTER 1344

An act to add Sections 106.5 and 1203 to the Water Code, relating to water and the use thereof, declaring a State policy in relation to water and water rights owned by municipalities, and providing for the application of water in excess of the needs of municipalities to beneficial uses by others.

municipal
water
rights

106.5. It is hereby declared to be the established policy of this State that the right of a municipality to acquire and hold rights to the use of water should be protected to the fullest extent necessary for existing and future uses, but that no municipality shall acquire or hold any right to waste water, or to use water for other than municipal purposes, or to prevent the appropriation and application of water in excess of its reasonable and existing needs to useful purposes by others subject to the rights of the municipality to apply such water to municipal uses as and when necessity therefor exists.

SEC. 2. Section 1203 is added to said code, to read:

Appropriation of
water in
excess of
needs

1203. Any water the right to the use of which is held by any municipality which is in excess of the existing municipal needs therefor may be appropriated by any person entitled to the possession of land upon which such excess water may be put to beneficial use but the right of such person to use such water shall continue only for such period as the water is not needed

by the municipality. This section supplements but does not otherwise affect Sections 1460 to 1464, inclusive.

SEC. 3. The purpose of this act is to effectuate the policy declared in Section 2 of this act and this act shall be liberally construed by the judicial and executive branches of the State Government to carry out its purpose. Construction of act
