Processor's
bond

1300.1a. Before any license is issued to any processor who buys or otherwise takes title to or possession of farm products from the producer thereof, except by payment to the producer at the time of obtaining such possession or control of the full agreed price in lawful money of the United States, the applicant shall execute and deliver to the director a surety bond in the sum of five thousand dollars (\$5,000) executed by the applicant as principal and by a surety company qualified and authorized to do business in this State as surety.

Demand
against bond

Said bond shall be conditioned upon compliance with the provisions of the chapter and upon the faithful and honest handling of farm products in accordance with the terms of this chapter. Said bond shall be to the State in favor of every producer-creditor of farm products grown within the State of California. Any producer-creditor of farm products grown within the State of California claiming to be injured by the fraud, deceit or wilful negligence of any processor may bring action upon said bond against both principal and surety in any court of competent jurisdiction to recover the damages caused by such fraud, deceit or wilful negligence, or the failure to comply with the provisions of this chapter. In case of failure by a processor to pay producer-creditors for farm products received from said producer-creditors, the director shall proceed forthwith to ascertain the names and addresses of all producer-creditors of such processor, together with the amounts due and owing to them and each of them by such processor, and shall request all such producer-creditors to file a verified statement of their respective claims with the director. Such request shall be addressed to each known producer-creditor at his last known address. If a producer-creditor so addressed fails, refuses or neglects to file in the office of the director his verified claim as requested by the director within 90 days from the date of such request, the director shall thereupon be relieved of further duty or action hereunder on behalf of said producer-creditor. Upon ascertaining all claims and statements in the manner herein set forth, the director may then make demand upon the bond on behalf of those claimants whose statements have been filed, and shall have the power to settle or compromise said claims with the surety company on the bond, and is empowered in such cases to execute and deliver a release and discharge of the bond involved. Upon the refusal of the surety company to pay the demand, the director shall thereupon bring an action on the bond in behalf of said producer-creditors. Upon any action being commenced on said bond, the director may require the filing of a new bond and immediately upon the recovery in any action on such bond such processor shall file a new bond and upon failure to file the same within 10 days in either case, such

failure shall constitute grounds for the suspension or revocation of his license.

SEC. 5. Section 1300.4a of said code is amended to read :

1300.4a. The director may refuse to grant a license and may revoke or suspend any license, as the case may require, when after a hearing as herein provided he is satisfied of the existence of any of the following facts, the existence of which is hereby declared to be a violation of this chapter :

Additional
grounds for
revocation or
suspension
of license

(a) That the applicant, or licensee, has failed or refused to pay for farm products at the time and in the manner specified in the contract with the producer, or as otherwise in this chapter provided ;

(b) That the applicant, or licensee, has rejected, without reasonable cause, or has refused to accept, without reasonable cause, any farm product bought or contracted to be bought from a producer by such applicant or licensee ;

(c) That the licensee has knowingly employed an agent, as defined in this chapter, without causing said agent to comply with the licensing requirements of this chapter applicable to agents ;

(d) That the applicant, or licensee, has otherwise violated any provision of this chapter or Chapter 6, Division 6, of the Agricultural Code.

p 1226,
amended

[Approved by Governor May 31, 1945. Filed with Secretary of State May 31, 1945.]

In effect
September
15, 1945

The people of the State of California do enact as follows:

SECTION 1. Section 41.1 of the Unemployment Insurance Act is amended to read:

Stats 1941,
p 2534

Sec. 41.1. (a) The commission shall furnish each employer with itemized statements showing the charges to his account and with statements showing the credits to his account, the net balance of his reserve and his contribution rate for the next succeeding rating period. Such statements shall be furnished not less frequently than annually. Such statement or statements of account shall be mailed to each employer at his last known address as shown on the records of the commission.

Statements
to employers

(b) The employer within 60 days after the date of mailing of any such statement, may protest any of the items shown thereon except charges for benefit payments where the employer was notified, as required by the act or authorized regulations, of the claimant's eligibility for such benefits. The commissioner may for good cause extend the time for the filing of any such protest. Unless such protest is filed within the period prescribed herein or within any extended period, such statement shall be conclusively presumed to be correct; provided, that the commission upon its own initiative after notice to the employer and opportunity for him to protest may amend any statement if it subsequently finds any entries thereon to be incorrect. A decision of the appeals board in any such protest proceeding shall be subject to judicial review, as provided by law, if an appropriate proceeding is filed by the employer within 60 days of the date of mailing of such decision; provided, however, that the commission may in writing extend the time for a period not exceeding two years from the time within which such proceeding may be instituted if written request for such extension is filed with the commission within the 60-day period.

Protest

(c) In the event that a protest proceeding is pending with respect to any statement provided for above when any contribution becomes due, the employer shall pay the contribution at

Refunds or
credit

the rate indicated by the commission's computation. If a determination indicating that a lesser contribution rate should have been computed is subsequently made in favor of the employer, the commission immediately either shall refund to the employer or credit to his account any amount so determined to have been paid in excess of the amount which he would have been required to pay had the computation been made correctly. Such refund or credit also shall be made to the employer if the commission on its own initiative finds that an excessive contribution rate was computed for the employer. An amendment by the commission on its own initiative shall not affect the contribution rate for any rating period preceding the rating period during which such amendment was made but if such amendment results in a determination that a different contribution rate should have been computed for the current rating period the commission shall compute the proper contribution rate which rate shall be effective for the current rating period. Any additional contributions thus required to be paid shall be assessed as provided in this act and shall be deemed to be due as contributions for the quarter in which the employer is notified of such determination and shall be considered as "contributions paid on his own behalf" if paid on or before the delinquent date for the quarter in which he is notified of the determination.

(b) At any time within three years after any employing unit is delinquent in the payment of any amount required to be paid by this act, or within three years after the last recording of an abstract under Section 45.9 or of a certificate under this section, the commission or its authorized representative may issue a warrant for the enforcement of any liens and for the collection of any amount required to be paid to the State under this act. The warrant shall be directed to any sheriff, marshal or constable and shall have the same effect as a writ of execution. The warrant shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution. The commission shall pay the sheriff, marshal or constable, upon the completion of his services pursuant to a warrant, the same fees, commissions, and expenses for his services as are provided by law for similar services pursuant to a writ of execution. The commission, and not the court, shall approve the fees for publication in a newspaper. The fees, commissions, and expenses are the obligation of the person required to pay any amount under this act and may be collected from him by virtue of the warrant or in any other manner provided in this act for the collection of the tax.

SEC. 36. Section 45.11 is added to said act, to read:

Sec. 45.11. (a) If the commission determines that any amount of contributions, penalty or interest has been erroneously or illegally collected it shall set forth in its records the amount collected in excess of the amount legally due and the name of the employing unit or other person by whom it was paid and shall if a claim has not already been filed give notice to such employing unit or other person of such amount. The excess amount shall be credited on any amounts then due from or accrued against the employing unit and the balance shall be refunded to the employing unit or its successor, administrators or executors. No refund or credit shall be allowed, however, unless

(1) A claim therefor is filed with the commission within three years from the last day of the calendar month following the close of the calendar quarter for which the overpayment was made or with respect to assessments made under Sections 45.5 or 45.6 of this act within six months after the assessments become final or within 60 days from the date of overpayment, whichever period expires the later, and

(2) The employing unit conforms to authorized rules and regulations with respect to the refund to workers entitled thereto of any moneys deducted by the employing unit under Section 44 of this act.

Every claim shall be in writing and shall state the specific grounds upon which the claim is founded. Failure to file a claim with the commission or after denial thereof by the commission, to file a petition for review with the appeals board within the time prescribed by this section constitutes a waiver of any demand against the State or the commission on account of overpayment.

If the petition is filed within the time prescribed the appeal board shall review the claim and, if requested by the claimant, shall, unless a hearing has previously been afforded claimant on the same grounds on which the claim is based, grant a hearing before the board or its duly authorized representative, giving 10 days notice of the time and place of the hearing. (d) No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding, in any court against this State or against any officer thereof to prevent or enjoin under this act the collection of any contribution sought to be collected. No suit or proceedings shall be maintained in any court for the recovery of any amount of contributions, interest or penalties alleged to have been erroneously or illegally assessed or collected unless a claim for refund or credit has been filed pursuant to this section. bring an action against the commission on the grounds set forth in the claim in a court of competent jurisdiction in the County of Sacramento for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed, provided however that the commission may in writing extend for a period of not exceeding two years the time within which such action may be instituted if written request for such extension is filed with the commission within the 90-day period. Failure to bring action within the time specified constitutes a waiver of any demand against the State on account of alleged overpayments. If the commission fails within 60 days to mail notice of an action on a claim after the claim is filed the claimant may consider the claim denied and file a petition for review of the denial with the appeals board as set forth in this section. Stats 1937, p 1898, amended

An act adding Section 97 to the County Employees Retirement Act of 1937, relating to contributions of members who have been in the armed forces of the United States, declaring the urgency thereof, and that this act shall take immediate effect.

In effect immediately

[Approved by Governor May 31, 1945 Filed with Secretary of State May 31, 1945.]

The people of the State of California do enact as follows:

New section

SECTION 1. Section 97 is added to the County Employees Retirement Act, to read :

Past due contributions Elections Election not to deduct

Sec. 97. If any member resigns to enter and does enter the armed forces of the United States during war or National emergency proclaimed by the President or the Congress of the United States or enters into such service under act of Congress providing for peacetime induction or conscription, and within

90 days after the termination of such service, reenters county service, or if any member obtains a leave of absence to enter and does enter the armed forces of the United States under such circumstances, and within one year after the termination of such leave of absence reenters county service, and such member has not contributed to the retirement fund the total percentage of his compensation earnable due under this act for the entire period during which he was out of service, he may, not less than 90 days after his reentrance into county service file with the board his election that no further contributions be deducted from his compensation except contributions due because of current service.

Unless such person has reentered the service as a new member or unless such person has filed such election, the county auditor or other officer charged with the duty of drawing salary or wage warrants shall deduct past due contributions as provided in the by-laws or regulations of the board, or if there are no such by-laws or regulations, as provided in this act. The filing of an election shall apply only to salary or wage warrants delivered 30 or more days after the filing of such election, and no refund of any deduction legally made shall be due because of such election.

If such member files such election, the auditor or other officer charged with the duty of drawing salary or wage warrants shall deduct current contributions only from salary or wage warrants delivered 30 or more days after the filing of such election. Such current contributions shall be calculated as if the age of such member were his actual age upon his first entry into the retirement system plus one month for every month for which no contribution was deducted.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and as such shall go into immediate effect.

The following is a statement of facts constituting such necessity:

Although the war is not yet over, nevertheless many persons in the armed forces of the United States have been, and are now being discharged who have and are now reentering county service in those counties which have adopted the provisions of the County Employees Retirement Act of 1937, of which this act is an amendment. Many of such persons because of low pay received while in such armed forces, numerous obligations accruing during their service in such armed forces, and other reasons, were unable to contribute the required percentage of their compensation earnable to the retirement fund, and upon their return to service, are or will be unable to do so. Unless this act takes immediate effect such persons who reenter county service prior to the ninety-first day after the adjournment of the Legislature will be compelled to sacrifice all credit for service prior to their entrance into the armed forces.

The people of the State of California do enact as follows:

SECTION 1. Section 35 of the Agricultural Code is hereby amended to read:

35. The Legislature hereby declares that in order to protect the agricultural interests of the people of this State and to conserve the agricultural wealth of the State and protect the health and general welfare of our citizens during the continuance of the wars in which the United States is now engaged, and in order to maintain or enforce State laws, orders or regulations prescribing conditions, standards or prices it is necessary that provision be made for the formulation of conditions, standards, or prices to take the place of those conditions, standards or prices which are rendered ineffectual or unenforceable by reason of any conflict with a Federal law, order or regulation made under the Federal war powers.

Temporary
measures to
comply with
Federal
wartime
orders, etc.

Whenever the director shall be notified in writing by the Attorney General of this State that any provision, condition, standard or price established by or under authority of this code is in conflict with a Federal law, order or regulation made under the Federal war powers, and is thereby rendered ineffectual and unenforceable, he shall prepare proposed new provisions, conditions, standards or prices to take the place of such provisions, conditions, standards or prices declared by the Attorney General to be in conflict as aforesaid, and shall as soon as reasonably possible call a public hearing to consider the same at a place within the State that he deems suitable.

Notice of such hearing shall be given at least five days prior thereto by publication in a newspaper of general circulation printed and published in the County of Sacramento and in a similar newspaper printed and published in the county where such hearing is held.

At such hearing the director shall receive and hear the evidence of all interested persons which shall be taken under oath, and all written evidence and exhibits introduced at such hearing shall be preserved and open to inspection by any interested person.

If from the evidence and data produced at such hearing and from such other knowledge and information as the director may have he shall find in writing:

1. That the conflict between the existing provision, condition, standard or price and the Federal law, order or regulation and the consequent unenforceability of such provision, condition, standard or price seriously impairs or prevents the effectuation of the purpose and intent of such provision, condition, standard or price or of the statute of which it is a part;

2. That the effectuation of the purpose and intent of such provision, condition, standard or price or of the statute of which it is a part will be best served by the adoption of such new provision, condition, standard or price as will remove such conflict with the Federal law, order or regulation;

3. That the new provision, condition, standard or price is as similar to the existing provision, condition, standard or price as is reasonably possible without being in conflict with such Federal law, order or regulation;

4. That the new provision, condition, standard or price will protect the agricultural interests of the people of this State and conserve the agricultural wealth of the State and protect the health and general welfare of our citizens during the life of the Federal law, order or regulation in conflict with the existing provision, condition, standard or price;

Recommen-
dations to
Governor

Then, and upon such findings, the director shall transmit his determination and recommendations thereon to the Governor. The Governor shall review the determination and recommendations so submitted and if he finds that the purposes and objectives of this section are to be attained thereby shall issue an order formulating and making effective such new provision, condition, standard or price.

Such new provisions, conditions, standards or prices so formulated and made effective shall continue in force and effect only during the life of such Federal law, order or regulation in conflict with the original existing provision, condition, standard or price, and while in force and effect shall supersede the original existing provision, condition, standard or price and be administered and enforced by the director in the same manner and to the same extent, and violations thereof shall be subject to the same penalties, as provided in the case of such original existing provisions, conditions, standards or prices.

Upon the termination of this act all provisions, conditions, standards and prices formulated and made effective hereunder shall immediately terminate and cease and be of no further force or effect and any and all original existing provisions, conditions, standards or prices so temporarily superseded shall be and become in full force and effect as though no new provision, condition, standard or price had been formulated and made effective hereunder. The same shall be true at any sooner time upon the expiration of the life of any such conflicting Federal law, order or regulation as to the particular provisions, conditions, standards or prices affected thereby.

As used in this section, "director" means Director of Agriculture, except with reference to Article 1 of Chapter 3 of Division 5 and Article 4 of Chapter 8 of Division 5 of this code; and as to those articles only, "director" means Director of Public Health.

Effective
period

This article shall remain in force until the ninety-first day after final adjournment of the Fifty-seventh Regular Session

of the Legislature or until the cessation of hostilities in all wars in which the United States is now engaged, whichever first occurs.

The people of the State of California do enact as follows:

SECTION 1. Section 6925 of the Business and Professions Code is amended to read: See also

Ch. 631

6925. The Secretary of State, the board, or any person aggrieved may file with the chief, the board or the Secretary of State, a written statement charging any licensee with specific acts of misconduct or violations of law. All such statements shall be referred to the chief for investigation and report. Charges
against
licensees

Upon completion of each investigation, the chief shall file the statement of charges together with his written findings thereon with the board.

It shall also be the duty of the chief to initiate and conduct investigations into the business and affairs of licensees on his own motion and report any evidence and findings of misconduct or violation of law to the board. Investi-
gations

SEC. 2. Section 6926 of said code is amended to read:

6926. If the board determines from the findings of the chief or otherwise, that substantial evidence exists of the guilt of the licensee charged, it shall prepare a written accusation setting forth in ordinary and concise language the acts or omissions with which the licensee is charged, to the end that the licensee will be able to identify the transaction and to prepare his defense. It shall specify the statutes and rules alleged to have been violated, but shall not consist merely of charges phrased in the language of such statutes and rules. The accusation shall be verified by the presiding officer or by a majority of the board but may be verified upon information or belief. See also
Stats 1945,
Ch. 631
Formal
accusation

Should the board determine the evidence to be insufficient to warrant filing of a formal accusation it shall so order.

If the original statement of charges was filed by the Secretary of State or an aggrieved third person, a copy of the order shall be mailed to such complainant. If the accuser is dissatisfied with the order of the board, he may, within twenty (20) days after the mailing of the order, prepare and file with the board his own formal accusation against the licensee, which accusation shall conform to the requirements of an accusation prepared by the board except that it shall be verified by the accuser or someone in his behalf having personal knowledge of the facts alleged.

SEC. 3. Section 6927 of said code is amended to read:

6927. The board shall serve a copy of each formal accusation prepared by or filed with it on the licensee or licensees charged See also

Service of
accusation

in the manner hereinafter provided. Each copy of the accusation shall be accompanied by a post card or other form entitled "Notice of Defense" which, when signed by or on behalf of the licensee and returned to the board, will acknowledge service of the accusation and constitute a notice of defense under Section 6928 of this chapter. The copy of the accusation shall include or be accompanied by a statement that the licensee may request a hearing by filing the notice of defense with the board within twenty (20) days after service of the accusation upon licensee and that failure to do so will constitute a waiver of the right to a hearing.

The accusation, notice and statement may be sent to the licensee by any means selected by the board. No order other than dismissal of the proceeding shall be made by the board in any case unless the licensee shall have been served personally or by registered mail with return receipt requested as hereafter provided, or unless he shall have filed a notice of defense or otherwise appeared. Personal service may be proved in the manner now or hereafter authorized in civil actions. Service by registered mail shall be effective if the notice is shown by a returned receipt to have been delivered to the licensee, or if the receipt shows that the licensee refused to receive the registered mail and if written notice of such refusal accompanied by the material originally sent is forthwith sent to licensee by ordinary mail. Service by registered mail shall be deemed complete on the date endorsed on the returned receipt by the post office as the date of delivery or the date of refusal.

Notice of
defense

SEC. 4. Section 6928 of said code is amended to read:

6928 Within twenty (20) days after service upon him of the accusation the licensee may file with the board a notice of defense in which he may:

- (1) Request a hearing;
- (2) Object to the accusation upon the ground that it does not state acts or omissions upon which the board may proceed;
- (3) Object to the form of the accusation on the ground that it is so indefinite or uncertain that he can not identify the transaction or prepare his defense.

Within the time specified licensee may file one or more notices of defense upon any or all of these grounds, but all such notices must be filed within that period unless the board in its discretion authorizes the filing of a later notice.

The licensee shall be entitled to a hearing on the merits if he files a notice of defense, and any such notice shall be deemed a specific denial of the accusation. Failure to file such notice shall constitute a waiver of licensee's right to a hearing, but the board in its discretion may nevertheless grant a hearing. Unless objection is taken as provided in subsection (3) of this section, all objections to the form of the accusation shall be deemed waived.

The notice of defense shall be in writing but need not be verified or follow any particular form.

If the formal accusation was prepared and filed by any accuser other than the board, then the board shall forthwith mail a copy of the notice of defense to the accuser, and if the notice of defense objects to the sufficiency of the accusation pursuant to subsections (2) or (3) of this section, the board shall order the accuser to file an amended or supplemental accusation.

At any time before the matter is submitted for decision an amended or supplemental accusation may be filed and served in the same manner as the original accusation but without the notice of defense or statement required by Section 6927. If the amended or supplemental accusation presents new charges, the board may grant licensee a reasonable continuance to prepare his defense thereto, but he shall not be entitled to file a further pleading unless the board in its discretion so orders, in which event a copy of the further pleading shall be mailed to any third party accuser. Any new charges shall be deemed controverted and any objections to the amended or supplemental accusation may be made orally.

SEC. 5. Section 6929 of said code is amended to read:

6929. The board shall determine the time and place of hearing and shall have the power to grant continuances at any stage of the proceeding. The board shall deliver or mail a notice of hearing to the licensee at least ten (10) days prior to the hearing. The hearing shall not be prior to the expiration of the time within which the licensee is entitled to file a notice of defense.

In any case in which formal accusation was filed by a third party accuser, appropriate notice of the time and place of hearing shall likewise be given to such accuser who shall also be entitled to be present at the hearing, to be represented by counsel, to examine and cross-examine witnesses, present evidence and have subpoenas and subpoenas duces tecum issued in his behalf.

SEC. 6. Section 6930 of said code is amended to read:

6930. If the licensee fails to file a notice of defense or to appear at the hearing, the board may take disciplinary action based upon the licensee's express admissions or upon other evidence. Nothing herein shall be construed to deprive the licensee of the right to make any showing by way of mitigation.

SEC. 7. Section 6931 of said code is amended to read:

6931. Before the hearing has commenced any member of the board or the chief shall issue subpoenas and subpoenas duces tecum at the request of any party. After the hearing has commenced the board or the hearing officer may issue subpoenas and subpoenas duces tecum.

Such process shall extend to all parts of the State and may be served in the manner provided for service of accusations in Section 6927 of this chapter. No witness shall be obliged to attend at a place out of the county in which he resides unless the distance be less than one hundred (100) miles from his place of residence.

SEC. 8. Section 6932 of said code is amended to read:

6932. The board may, upon the verified petition of any party, or on its own motion, order that the testimony of any material witness residing within or without the State be taken by deposition in the manner now or hereafter prescribed by law for depositions in civil actions. The petition shall set forth the nature of the pending proceeding; the name and address of the witness whose testimony is desired; a showing of the materiality of his testimony; a showing that the witness will be unable or can not be compelled to attend; and shall request an order requiring the witness to appear and testify before an officer named in the petition for that purpose. Where the witness resides outside of the State and where the board has ordered the taking of his testimony by deposition, the board shall obtain an order of court to that effect by filing a petition therefor in the superior court. The proceedings thereon shall be in accordance with the provisions of Section 353 of the Political Code.

SEC. 9. Section 6933 of said code is amended to read:

6933. All contested cases shall be heard by the board and presided over by the hearing officer. The hearing officer shall rule on the admission and exclusion of evidence, conduct the order of hearing, and exercise such other powers relating to the hearing as may be expressly delegated to him by the board.

The hearing officer in any case shall be any member of the board who is also an attorney at law duly licensed to practice in this State, or any attorney at law licensed to practice in California who may be selected by the board to preside at a particular case in the event an attorney board member is not available.

Any hearing officer or board member shall voluntarily withdraw from any case in which he is subject to disqualification. Any party may request the disqualification of any hearing officer or board member by filing an affidavit, prior to the taking of evidence at a hearing, setting forth with particularity the grounds of the alleged disqualification. Where the request concerns a board member the question of qualification shall be determined by the other members of the board, and where the request concerns a hearing officer the issue shall be determined by the hearing officer. No board member shall withdraw voluntarily or be subject to disqualification if his disqualification would prevent the existence of a quorum qualified to act in the particular case.

Evidence

SEC. 10. Section 6934 of said code is amended to read:

6934. Oral evidence shall be taken only on oath or affirmation. Each party shall have these rights: To call and examine

witnesses; to introduce exhibits; to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party first called him to testify; and to rebut the evidence against him. If the licensee does not testify in his own behalf he may be called and examined as if under cross-examination.

In any case investigated by the chief, it shall be the duty of the chief to present any evidence known to him which is material and relevant to the issues and charges involved. The evidence and testimony presented by the chief shall be subject to the same rules as other evidence.

The board and hearing officer shall not be bound by technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence but shall not be sufficient in itself to support a finding unless sufficient for that purpose in civil actions. The board shall give effect to the rules of privilege to the same extent that they are now or hereafter may be recognized in civil actions, and it shall exclude irrelevant and unduly repetitious evidence.

SEC. 11. Section 6935 of said code is amended to read:

6935. Evidence may be introduced in affidavit form in lieu of oral testimony, provided that the opposing party shall have the right, on request made prior to submission, to cross-examine the affiant. At the time the affidavit is introduced a copy shall be delivered to the opposing party.

Amendments

Prior to the hearing the board may mail or deliver any affidavits to the licensee, together with a statement that it proposes to introduce such affidavits at the hearing in lieu of oral testimony, and that unless licensee, within ten (10) days after such mailing or delivery, or the expiration of the time to request a hearing, whichever is later, files a request to cross-examine an affiant, the affidavit of that affiant may be introduced in evidence only if the right to cross-examine him is afforded at the hearing.

If licensee fails to file a notice of defense or to appear at the hearing affidavits may be filed on behalf of the board or third party accuser and may thereupon be used as proof without any notice to licensee.

SEC. 12. Section 6936 of said code is amended to read:

6936. In reaching a decision the board may take official notice, either before or after submission of the case, of any generally accepted technical or scientific matter within its special field, and of any fact which may be judicially noticed by the courts of this State. Parties shall be informed of the matters to be noticed, and those matters shall be noted in the record, referred to therein, or appended thereto. Any party shall be

SEC. 13. Section 6937 of said code is amended to read:

6937. If any person in proceedings before the board disobeys or resists any lawful order or refuses to respond to a subpoena, or refuses to take the oath or affirmation as a witness or thereafter refuses to be examined, or is guilty of misconduct during a hearing or so near the place thereof as to obstruct the proceeding, the board shall certify the facts to the superior court in and for the county where the proceedings are held. The court shall thereupon issue an attachment in the form usual in the superior court, directed to the sheriff of the county, commanding the sheriff to attach such person, to deliver to him a copy of the certified statement of facts and forthwith to bring him before the court. On the return of the attachment and the production of the person attached the superior court shall have jurisdiction of the matter. The same proceedings shall be had, the same penalties may be imposed, and the person charged may purge himself of the contempt in the same way, as in the case of a person who has committed a contempt in the trial of a civil action before a superior court.

SEC. 14. Section 6938 of said code is amended to read:

Amendment
of accusation

6938. The board may order amendment of the accusation after submission of the case for decision. The licensee shall be given notice of the intended amendment and the opportunity to show that he will be prejudiced thereby unless the case is reopened to permit the introduction of additional evidence in his behalf.

SEC. 15. Section 6939 of said code is amended to read:

Decision by
board

6939. In contested cases the decision shall be made by the board. The hearing officer who presided at the hearing shall be present during the consideration of the case to assist and advise the board at its request. No member of the board who has not heard the evidence shall have the right to vote on the decision.

If no oral evidence is introduced in an uncontested case, the pleadings and written evidence may be circulated among the members of the board, and each member may vote by mail.

SEC. 16. Section 6940 of said code is amended to read:

Decision

6940. If it be found upon the hearing, or from the evidence in uncontested cases, that the licensee has wilfully violated any of the provisions of this chapter, or the rules and regulations established under it, or that he has been guilty of fraud or misrepresentation, or any act or omission inconsistent with the faithful discharge of his duties or obligations, or that a final judgment of conviction of felony has been entered against him, or that he has violated or failed to comply with any conditions imposed upon him by a decision of the board, the board shall, within thirty (30) days after final submission of the case, render the decision which may:

(a) Order the revocation of the license or licenses of the licensee or licensees accused.

(b) Order the license or licenses suspended for such period of time as may be designated.

(c) Impose upon the licensee or licensees compliance with such just and reasonable conditions as may be specified.

(d) Dismiss the accusation as to any one or more of the licensees accused.

SEC. 17. Section 6941 of said code is amended to read:

6941. The decision shall contain findings of fact, a determination of guilt or innocence and the penalty, if any. The findings may be stated in the language of pleadings. The decision shall be in writing and signed by a member of the board. Contents of

Such petition may be filed within fifteen (15) days after the delivery or mailing of the decision to the accused. The petition may be granted or denied in whole or in part by the board but if no action is taken within the time allowed the petition shall be deemed denied. SECTION 1. Section 3086.1 is added to the Welfare and Institutions Code, to read:

3086.1. No filing fee shall be required from an applicant for or recipient of aid under this chapter for the filing of a petition in the superior court for a review of the proceedings in his case. Court review

Within ten (10) days after being served with notice of the filing of the petition, the State Department of Social Welfare shall cause to be filed with the clerk of the court the record of the proceedings in the case, and no further pleadings shall be required to bring the matter to issue.

No bond shall be required in the case of any petition for review, nor in any appeal therefrom.

If the decision of the court is in favor of the applicant for or recipient of aid, aid shall be paid from the first of the month following date of application therefor, and the applicant or recipient shall be entitled to reasonable attorney's fees and costs.

SEC. 2. Section 3087.5 is added to said code, to read:

3087.5. The board shall immediately notify the applicant in writing of its decision, and that he may, upon application to the board within 30 days, appear before the board at a time to be fixed by the board, and show cause why the action of the board is not satisfactory. The hearing shall be held within 30 days from the time of application for hearing. Upon good cause shown, the board may reconsider its previous action, and take whatever action the board deems proper upon the application. The decision of the board confirming or reconsidering Hearing by
board of
supervisors

its previous action shall be rendered within 15 days after the hearing.

The right of hearing by the board of supervisors provided by this section is intended as an alternative to direct appeal to the State Social Welfare Board, and an applicant who has applied for hearing before the board of supervisors shall not appeal to the State Social Welfare Board until the decision of the board of supervisors has been rendered. After the decision of the board of supervisors has been rendered, the applicant may appeal therefrom to the State Social Welfare Board. An applicant who does not apply for hearing before the board of supervisors may appeal directly to the State Social Welfare Board as provided in Section 3086.

SEC. 3. Section 3088.5 is added to said code, to read :

3088.5. If any applicant or recipient is dissatisfied with the action of the board of supervisors, without the necessity of the filing of a claim with the board of supervisors, he shall, upon filing a petition with the State Department of Social Welfare, have the right of appeal and shall be accorded an opportunity for a fair hearing. The Social Welfare Department shall set such appeal for hearing before the State Social Welfare Board and shall give all parties concerned written notice of the time and place of such hearing. At such hearing the applicant or recipient may appear in person with counsel of his own choosing or in person and without such counsel.

The State Social Welfare Board shall consider the appeal, and shall dismiss the appeal or award aid as prescribed in this chapter. The county board of supervisors shall then pay to such blind person the sum awarded without such blind person establishing a present need, if any, by the State Social Welfare Board, the payments, if awarded, to commence from the date the applicant was first entitled thereto.

Payments of aid shall be commenced as of the first day of the month in which the application is granted, unless otherwise directed by the State Social Welfare Board in cases in which an appeal is taken; but in no event shall the aid commence prior to the date of application.

An applicant whose application for aid under this chapter has been rejected may not again apply for such aid until the expiration of one year from the date of the previous application, except with the consent of the county or an order of the State Department of Social Welfare, or until the condition because of which his application was rejected has been eliminated.

If the applicant or recipient feels himself aggrieved by any decision of the State Welfare Board, he may file with the superior court of the county in which he resides, a petition, praying for a review of the entire proceedings in the matter, upon questions of law involved in the case. Such review is a distinct and cumulative remedy. The State Social Welfare Board shall be the sole respondent in such proceedings.

(b) The tabulation shall also contain an amount to be known as the general reserve in such sum as the governing board may deem sufficient, for the next succeeding school year, to meet the cash requirements to which the district's credit may be legally extended for that portion of said next succeeding school year until adequate proceeds of the taxes levied for, or apportionment of State funds made to, the district during such succeeding school year are available to the district.

(c) The tabulation may also contain an amount to be known as the undistributed reserve. The funds in the undistributed reserve shall be available for appropriation by a two-thirds vote of the members of the governing board, to cover expenditures that have not been provided for or that may have been insufficiently provided for, or for unforeseen requirements as they may arise.

SEC. 2. Section 6302 of the Education Code is amended to read:

6302. (a) From the records of the county auditor, the county superintendent of schools shall secure the cash balances of the district or shall make estimates thereof if information on

The cash balances shall be exclusive of receipts from bond sales and gifts or donations by reason of bond sales. The tabulation also shall show estimated apportionments from the State School Fund, the State High School Fund, the State Junior College Fund, the State Vocational Education Fund, and the State General Fund for the ensuing fiscal year, the actual income from these sources for the last preceding fiscal year also shall be shown.

(b) In addition to the above information the governing board shall furnish the county superintendent of schools with an estimate of the revenues from sources other than taxes on property anticipated during the year to which the budget is intended to apply, and the sources whence derived, compared with the estimated receipts from the same sources for the last preceding school year. Should the governing board fail to provide this information, it shall be supplied by the county superintendent of schools from his own records.

SEC. 3. Section 6303 of the Education Code is amended to read:

Form of budget

6303. The budget shall be made in quadruplicate in the form and upon the blanks prescribed by the Superintendent of Public Instruction. In the case of districts which are not required to hold a public hearing, the preliminary budget as approved by the governing board shall be filed with the county superintendent of schools county auditor, and the county board of supervisors immediately after its approval.

(b) The county superintendent of schools shall approve the budget for each school district as officially adopted and submitted by its governing board and, not later than the fifteenth day of August, shall file one copy of the approved budget of each school district with the board of supervisors and one copy with the auditor of his county, together with a statement showing the amount of school district taxes required by each school district of the county.

Publication shall be made during the last week in July of each year, and shall contain a notice that a public hearing will be held before the governing board of the school district, in a schoolhouse in the district, or in some other place conveniently accessible to the residents of the district, during the first week of August, at which any taxpayer in the district may appear and object to the proposed budget or any item of the budget. The hearing may be concluded on such preliminary budget when there are no requests on file for further hearing. The budget shall not be finally adopted by the governing board of the district until after the public hearing has been held.

CHAPTER 636

An act to add Section 2611 to the Welfare and Institutions Code, relating to public assistance, and providing limitations on the taking of security for aid granted to indigent persons.

In effect
September
15, 1945

[Approved by Governor May 31, 1945. Filed with Secretary of State
May 31, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 2611 is added to Article 4 of Chapter 2 of Division 4 of the Welfare and Institutions Code, to read:

Exempt
property

2611. There shall be exempt from the transfers and grants authorized by Section 2601 and from attachment and execution on claims under Section 2603 against property acquired by persons for the support of whom public moneys have been expended all of the following property:

(a) Insurance policies to the actual cash surrender value of two hundred fifty dollars (\$250).

(b) Cash to the amount of fifty dollars (\$50).

(c) Personal effects and household furniture to the value of five hundred dollars (\$500).

No county shall withhold emergency medical or hospital care from any person pending his signature or execution of any document or paper giving security for reimbursement to the county for the care or hospitalization to be provided to him.

CHAPTER 637

An act to amend Sections 3620 and 3637 of the Revenue and Taxation Code, relating to a taxpayer's action to contest the validity of a tax sale or tax deed, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor May 31, 1945. Filed with Secretary of State
May 31, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 3620 of the Revenue and Taxation Code is amended to read:

Person
bringing
action

3620. The owner of any real property deeded to the State for taxes, or sold to the State by operation of law prior to July 1, 1939, or any other person who may redeem such property, may bring an action in the superior court of the county wherein the real property is located, to contest the validity of the tax sale or the tax deed to the State.

SEC. 2. Section 3637 of said code is amended to read:

Time
limitation

3637. Any proceedings brought in accordance with the provisions of this chapter can only be commenced within one year after the date of execution of the tax deed, or within one year after January 2, 1947, whichever is later.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Thousands of parcels of property, because of the inability of taxpayers to pay their taxes were sold or tax deeded in the years prior to 1939, before we emerged out of the countrywide depression. The appellate courts of this State have heretofore determined that many of said tax deeds or taxes were and are invalid. To permit an action by the taxpayer to contest the validity of tax sales and tax deeds would not only determine the validity of said tax sales and said tax deeds for the benefit of the State, but would also immediately restore properties to the tax rolls and thereby add to the needed revenue for the operation and maintenance of government.

CHAPTER 638

An act to amend Sections 1011, 1012, and 1013 of, and to add Sections 1010, 1012.5 and 1012.6 to, the Agricultural Code, relating to spray residue.

This provision shall not be construed to prevent the owner or bailee from inspecting any produce so seized, nor from taking therefrom, in the presence of a person designated by the director, a reasonable sample for evidence.

SEC. 4. A new section to be numbered Section 1012.5 is hereby added to the Agricultural Code, to read:

The produce after reconditioning is subject to all the provisions of this article pending final release by the director under the provisions of paragraph (b) of this section. Disposition

(d) Whenever the lot or lots of produce seized and held are found to carry excess spray residue, the owner or bailee thereof may appeal the result of the examination to the director by letter, telegram, or other writing, within three days of the notice to said owner or bailee provided for in paragraph (a). Upon receipt of such appeal, then, upon reasonable notice to the owner if known, and if not known then to the bailee, a further sample shall be taken by the director and submitted under an individual lot number to the headquarters laboratory of the department at Sacramento for an appeal chemical analysis. The owner shall be permitted to be present in person or by his representative at the taking of the sample to be submitted for such appeal chemical analysis. The cost of such sampling and analysis shall be at the expense of the owner or bailee. The findings from such analysis shall be binding on both parties. Appeal

Disposition

If the determination made by the appeal analysis shows that the lot of produce does not carry spray residue in excess of any maximum provided by this article or in excess of a permissible tolerance, the director shall forthwith release the lot from the seizure and remove the hold order or tag.

SEC. 5. A new section to be numbered 1012.6 is hereby added to the Agricultural Code, to read:

Public nuisance

1013. Any lot of produce found to carry spray residue in excess of any maximum provided in this article or in excess of a permissible tolerance, together with its containers, is a public nuisance, and if not disposed of as provided in Section 1012.5 shall be subject to disposal on complaint of the director to a court of competent jurisdiction.

Action

The district attorney of the county in which any such nuisance is found, on the relation of the director, shall maintain, in the name of the people of the State of California, a civil action to abate and prevent such nuisance; and upon judgment and by order of the court, such nuisance shall be condemned and destroyed in the manner directed by the court, or denatured or otherwise processed, or released upon such conditions as the court in its discretion may impose to insure that the nuisance will be abated.

Sec. 6. The Governor may at any time revoke, suspend or modify any permit. Upon proof being made that the terms and conditions of any such permit have been violated, or that the department which recommended the issuance of said permit finds that the same is no longer necessary in increasing production and furthering the war effort, it may recommend to the Governor that the permit be suspended, modified or revoked; provided, however, that no such recommendation shall be made until the employer has been given 15 days notice of the intention to make such recommendation.

May 31, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 6007 is added to the Government Code, to read:

Discontinu-
ance due to
war condi-
tions

6007. The status of a newspaper of general circulation remains unchanged in the event that the publication of the newspaper is discontinued by reason of economic or other conditions induced by any war to which the United States is a party and the publication is then renewed either while the war is still pending or within a period of one year from and after the date on which hostilities officially terminate.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution of California and as such shall take effect immediately. A statement of the facts constituting such necessity is as follows:

Because of war conditions various newspapers of general circulation have suspended publication and such newspapers and others which are likely to suspend publication because of the drafting of their owners will lose their status as newspapers of general circulation. Such status is valuable and the inequity of depriving persons of valuable assets because of war conditions is apparent. Inasmuch as the elimination of this situation will permit absent newspaper men to return to their former business after the war and in the meantime fulfill their war duties with peace of mind as to their business affairs at home, this act should take immediate effect.

Limitation of expenditures to object categories

SEC. 2.5. In providing that certain appropriations in Section 2 of this act are to be expended in accordance with a schedule set forth after each such appropriation item, it is the intent of the Legislature, except as specifically provided in other sections of this act relating to the category "Salaries and Wages," to limit thereby the amount of money to be expended from each such appropriation item for certain specified object categories, such as, "Salaries and Wages," "Operating Expenses," or "Equipment," using in that connection the same terms as used in the detailed budget of the officer, department, division, bureau or other agency to whom the appropriation is made, as contained in that document entitled "State of California Budget for the

Biennium July 1, 1945 to June 30, 1947," submitted by the Governor to the Legislature at the Fifty-sixth Session. Each such schedule in this act is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in such schedules:

"Salaries and Wages" shall include all expenditures for payment of officers and employees of the State but does not include compensation of independent contractors rendering personal services to the State under contract. "Salaries and Wages"

"Operating Expenses" shall include all expenditures for purchase of materials, supplies (including expendable equipment), services (other than services of State officers and employees), and all other proper expenses (other than the acquisition of unexpendable tangible property). "Operating Expenses"

"Equipment" shall include all expenditures for the acquisition or replacement of non-expendable tangible property. "Equipment"

"Salary Restoration" shall include the provision made for the filling of vacant positions and shall be available only for allocation to the "Salaries and Wages" category as provided in Item 276.5. "Salary Restoration"

For the purpose of further interpreting the meaning of the words, terms, and phrases used in such schedules, reference is hereby made to the aforementioned budget document, the uniform accounting system prescribed by the Department of Finance under the provisions of Section 677 of the Political Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every State agency to whom appropriations are made under this act. Interpretation

SEC. 2.6. The Director of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for an object category designated in any schedule set forth for such appropriation in Section 2 by transfer from any of the other designated object categories within the same schedule. The Director of Finance shall present to the Joint Legislative Budget Committee assembled in meeting a report on all authorizations given pursuant to this section during the preceding quarter. Transfers from object categories

SEC. 2.7. The Director of Finance may, upon request of an officer, department, division, bureau or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for an object category designated in any schedule set forth for such appropriation in Section 2 hereof in the amount of any funds which he estimates will be received by said officer, department, division, bureau or other agency during the Ninety-seventh and Ninety-eighth Fiscal Years from any other State agency, from any agency of Augmentation

local government or the Federal Government, from any appropriation made by the Legislature at the Fifty-sixth Session or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration.

Publications **SEC. 3.** When any State publication is printed and paid for out of any appropriation in this act, the disposition of the same shall be subject to the provisions of Section 22041 of the Education Code of the State of California. The sums that are herein appropriated for expenses of the Senate and Assembly shall be disbursed under the direction of the bodies to which they respectively belong, and shall not be subject to any of the provisions of Sections 669 and 677.5 of the Political Code; provided, that the State Controller shall not be required to draw such warrants until the original claims and vouchers, itemized and properly sworn to, are filed with him. SEC. 4. The State Controller is hereby expressly prohibited from allowing any demands payable out of any appropriation herein contained, unless the same are presented in accordance with the provisions of Section 669 of the Political Code; provided, that in instances where the duties of any State officers or board make necessary the use of moneys for purposes of a confidential nature, the State Controller may audit claims for such expense without requiring itemization or vouchers; but such claims must be accompanied by a statement of the fact surrounding the expenditure, which statement must be filed in the office of the State Controller; provided further, that the total amount so allowed for such confidential purposes from the moneys herein appropriated shall not exceed in any one fiscal year the sum of two thousand dollars (\$2,000), except in the case of the Attorney General's office, whose expenditures for such confidential purposes shall be governed by Section 476 of the Political Code. All bills and vouchers, which shall be presented for supplies furnished or services rendered, shall be original bills and vouchers of the parties furnishing supplies and rendering services; provided, that no officer shall use or appropriate any money, appropriated by this act, for any purpose whatever, unless authorized thereto by law; and provided, that any officer, board, commission, or department for whom any appropriation is made herein, may, without at the time furnishing vouchers and itemized statements, draw from such appropriations a sum not to exceed 1 per cent of the total amount appropriated for any such officer, board, commission or department; and provided further, that any officer, board, commission or department for whom any appropriation is made herein, may with the permission and the approval of the Department of Finance, and without at the time furnishing vouchers or itemized statements, draw from such appropriation a sum in excess of 1 per cent, but not to exceed 5 per cent of the

Any sums drawn under the provisions of this section without at the time furnishing vouchers and itemized statements, shall be considered to have been withdrawn from the amount appropriated for the Ninety-eighth Fiscal Year and need not be returned at the close of the Ninety-seventh Fiscal Year, and shall be used as a revolving fund where payment of compensation earned, traveling expense advances, or other cash payments are necessary, and at the close of each biennium, or at any other time, upon the demand of the Department of Finance, must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Controller.

"Taxable year" means, in the case of a return made for a fractional part of a year under this part or under regulations prescribed by the commissioner, the period for which the return is made.

SEC. 7. Section 17058 is added to said code, to read:

Inclusion of
back pay

17058. If the amount of the back pay received or accrued by an individual during the taxable year exceeds 15 per centum of the gross income of the individual for such year, the part of the tax attributable to the inclusion of such back pay in gross income for the taxable year shall not be greater than the aggregate of the increases in the taxes which would have resulted from the inclusion of the respective portions of such back pay

in gross income for the taxable years to which such portions are respectively attributable, as determined under regulations prescribed by the commissioner.

SEC. 8. Section 17059 is added to said code, to read:

17059. For the purposes of Section 17058, "back pay" ^{"Back pay"} means (A) remuneration, including wages, salaries, retirement pay, and other similar compensation, which is received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which would have been paid prior to the taxable year except for the intervention of one of the following events: (i) bankruptcy or receivership of the employer; (ii) dispute as to the liability of the employer to pay such remuneration, which is determined after the commencement of court proceedings; (iii) if the employer is the United States, a State, a Territory, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any of the foregoing, lack of funds appropriated to pay such remuneration; or (iv) any other event determined to be similar in nature under regulations prescribed by the commissioner; and (B) wages or salaries which are received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which constitute retroactive wage or salary increases ordered, recommended, or approved by any Federal or State agency, and made retroactive to any period prior to the taxable year; and (C) payments which are received or accrued during the taxable year as the result of an alleged violation by an employer of any State or Federal law relating to labor standards or practices, and which are determined under regulations prescribed by the commissioner to be attributable to a prior taxable year. Amounts not includible in gross income shall not constitute "back pay."

SEC. 9. Section 17107 of said code is amended to read:

17107. An installment payment shall be considered a ^{Installment as periodic payment} periodic payment for the purposes of Sections 17104 and 17105 if the principal sum, by the terms of the decree or instrument, may be or is to be paid within a period ending more than 10 years from the date of such decree or instrument. But it shall be considered a periodic payment only to the extent that the installment payment for the taxable year of the wife (or if more than one installment payment for the taxable year is received during the taxable year, the aggregate of these installment payments) does not exceed 10 per cent of the principal sum. For the purposes of Section 17106 and this section, the portion of a payment of the principal sum which is allocable to a period after the taxable year of the wife in which it is received shall be considered an installment payment for the taxable year in which it is received.

employer's contribution is deductible under Article 1.5 of Chapter 4 of this part, or Section 8 (p) of the Bank and Corporation Franchise Tax Act or Section 7 (m) of the Corporation Income Tax Act, or if an annuity contract is purchased for an employee by an employer exempt under Section 4 (6) of the Bank and Corporation Franchise Tax Act, or Section 4 of the Corporation Income Tax Act, the employee shall include in his income the amounts received under such contract for the year received. If the employee paid any of the consideration for the annuity, the annuity shall be included in his income as provided in Sections 17123, 17124 and 17125. The consideration for the annuity is the amount contributed by the employee.

But if the estate of the decedent is not liable to discharge the obligation to which the deduction relates, the amount of the deduction shall be allowed to the person who, by reason of the death of the decedent or by bequest, devise, or inheritance acquires, subject to that obligation, from the decedent an interest in property of the decedent.

Sections 17321 to 17322.3, inclusive, shall not apply in respect of any contract if the taxpayer shows to the satisfaction of the commissioner that a different method of accounting for the amount of the payment, repayment, or disallowance clearly reflects income, and in such case the payment, repayment, or disallowance shall be accounted for with respect to the taxable year provided for under that method.

17343. For the purposes of Sections 17338, 17339, 17340, 17341, and 17342, an allowable deduction for any taxable year on account of the destruction or seizure of property described in Sections 17325 to 17333, inclusive, shall, to the extent not allowed in computing the tax of the taxpayer for the taxable year, be considered an allowable deduction which did not result in a reduction of any tax of the taxpayer under this part.

17344. For the purposes of Sections 17337 to 17343, inclusive, the restoration in whole or in part of the value of any interest described in Sections 17330, 17331 and 17332 by reason of any recovery of money or property in respect of property to which the interest related and which was considered under Sections 17325 to 17329, inclusive, as destroyed or seized shall be deemed a recovery of property in respect of property considered under Sections 17325 to 17333, inclusive, as destroyed or seized.

SEC. 30. Section 17346 of said code is amended to read:

Amount

17346. The unadjusted basis shall be an amount equal to the fair market value of that property, determined as of the date of the recovery, reduced by an amount equal to the excess of the aggregate of the fair market value and the amounts of previous recoveries of money or property in respect of property considered under Sections 17325 to 17333, inclusive, as destroyed or seized over the aggregate of the allowable deductions in prior taxable years on account of the destruction or seizure of property described in Sections 17325 to 17333, inclusive, and increased by that portion of the amount of the recovery which under Section 17341 is treated as a recognized gain from the involuntary conversion of property.

SEC. 32. Section 17348 of said code is amended to read:

Corporate
liquidation

17348. If: (a) A taxpayer owns not less than 50 per cent of each class of stock of a corporation; and

(d) That corporation completely liquidates within one year after that property is deemed to be destroyed or seized, or by December 31, 1943, whichever is later; and

(e) The liquidation is accomplished by distributing all the assets which it is able to distribute and all its rights to assets

which it is not able to distribute, including the right to the recovery of the property described in Sections 17325 to 17329, inclusive;

Then that part of the loss by the taxpayer on the liquidation which would be attributable to the destruction or seizure of the property, as established to the satisfaction of the commissioner, shall be treated for the purposes of this part as a loss by the taxpayer upon the destruction or seizure of the part of the stock or other interest of the taxpayer to which such loss is allocable. That part of the stock or other interest of the taxpayer shall be treated for the purposes of Sections 17334 to 17347, inclusive, as property described in Sections 17330, 17331 and 17332.

SEC. 35. Section 17350 of said code is amended to read:

17350. The determination, for the purposes of Section 17348, as to whether and to what extent an allowable deduction on account of the destruction or seizure of property described in Sections 17325 to 17333, inclusive, did or did not result in a reduction of any tax of the taxpayer under this chapter shall be made in accordance with regulations prescribed by the commissioner.

SEC. 36. Section 17354 of said code is amended to read:

17354. In computing net income no deduction shall be allowed under Section 17301, relating to expenses incurred, or under Section 17304, relating to interest accrued:

(a) If such expenses or interest are not paid within the taxable year or within two and one-half months after the close thereof; and

(b) If, by reason of the method of accounting of the person to whom the payment is to be made, the amount thereof is not, unless paid, includible in the gross income of that person for the taxable year in which or with which the taxable year of the taxpayer ends; and

(c) If, at the close of the taxable year of the taxpayer or at any time within two and one-half months thereafter, both the taxpayer and the person to whom the payment is to be made are persons between whom losses would be disallowed under Sections 17352 and 17353.

accounting

SEC. 37. Section 17506 of said code is amended to read: 17506. If a taxpayer, having complied with Section 17503, uses the method described in Section 17502 for any taxable year, that method shall be used in all subsequent taxable years unless

(a) With the approval of the commissioner a change to a different method is authorized; or

(b) The commissioner determines that the taxpayer has used for any such subsequent taxable year some procedure other than that specified in subdivision (b) of Section 17502 in inventorying the goods specified in the application to ascertain the income, profit, or loss of such subsequent taxable year for the purpose of a report or statement covering such taxable year to shareholders, partners, or other proprietors, or beneficiaries, or for credit purposes, and requires a change to a method different from that prescribed in Section 17502 beginning with such subsequent taxable year or any taxable year thereafter.

In either of the above cases, the change to, and the use of, the different method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

SEC. 38. Section 17508 of said code is amended to read:

Adjustments
of net
income

17508. The net income of the taxpayer otherwise determined for the year of involuntary liquidation shall be adjusted according to the provisions of Sections 17509 and 17510:

(a) If, for any taxable year beginning after December 31, 1942, and prior to the termination of the present war as proclaimed by the President of the United States, the closing inventory of a taxpayer inventorying goods under the method provided in this section reflects a decrease from the opening inventory of goods for this year; and

(b) If, at the time of the filing of the taxpayer's income tax return for such year, the taxpayer elects to have the provisions of this section apply and so notifies the commissioner; and

(c) If, at the time of such election, it is established to the satisfaction of the commissioner, in accordance with rules and regulations prescribed by the commissioner, that such decrease is attributable to the involuntary liquidation of the inventory as defined in Section 17507; and

(d) If the closing inventory of a subsequent taxable year, ending not more than three years after the termination of the present war as proclaimed by the President of the United States,

reflects a replacement, in whole or in part, of the goods so previously liquidated.

SEC. 39. Section 17511 of said code is amended to read :

17511. If, in the case of any taxpayer subject to the provisions of Section 17508, the closing inventory of the taxpayer for a taxable year, subsequent to the year of involuntary liquidation but prior to the complete replacement of the goods so liquidated, reflects an increase over the opening inventory of the goods for the taxable year, the goods reflecting such increase shall be considered, in the order of their acquisition, as having been acquired in replacement of the goods most recently liquidated (whether or not in a year of involuntary liquidation) and not previously replaced. If the liquidation was an involuntary liquidation, the goods reflecting the increase shall be taken into purchases and included in the closing inventory of the taxpayer for the year of replacement at the inventory cost basis of the goods replaced.

Increase over opening inventory

SEC. 40. Section 17513 of said code is amended to read :

17513. If the adjustments specified in Section 17509 are, with respect to any taxable year, prevented, on the date of the filing of the income tax return of the taxpayer for the year of the replacement, or within three years from such date, by any provision or rule of law (other than this section), such adjustments shall nevertheless be made if, in respect of the taxable year for which the adjustment is sought, a notice of proposed additional assessment is mailed or a claim for refund is filed, as the case may be, within three years after the date of the filing of the income tax return for the year of replacement.

Adjustments prevented by other law

SEC. 41. Section 17514 of said code is amended to read :

17514. If, at the time of the mailing of the notice of proposed additional assessment or the filing of the claim for refund, the adjustment is so prevented, then the amount of the adjustment authorized by this article shall be limited to the increase or decrease of the tax imposed by this part previously determined for the taxable year which results solely from the effect of Sections 17508 to 17510, inclusive. The tax previously determined shall be ascertained in accordance with rules and regulations prescribed by the commissioner.

Same Limitation of adjustment

SEC. 42. Section 17516 of said code is amended to read :

17516. The amount of the adjustment shall not be diminished by any credit or set-off based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of Sections 17508 to 17510, inclusive. The amount, if paid, shall not be recovered by a claim or suit for refund, or suit for erroneous refund based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of Sections 17508 to 17510, inclusive.

Credit, etc., against adjustment

SEC. 43. Section 17521 of said code is amended to read :

17521. In any case of two or more persons, organizations, trades, or businesses (whether or not incorporated, whether or not organized in this State, and whether or not affiliated) owned or controlled directly or indirectly by the same interests, the

Organizations owned by same interests

commissioner may distribute, apportion, or allocate gross income or deductions between or among such organizations, trades, or businesses, if he determines that such distribution, apportionment, or allocation is necessary (a) in order to prevent evasion of taxes of any taxpayer or (b) clearly to reflect the income of any of such persons, organizations, trades, or businesses where the income of any taxpayer is affected thereby in such manner as to permit evasion of taxes.

SEC. 44. Section 17559 of said code is amended to read :

Separate
return on
change in
accounting
period

17559. SEC. 45. Section 17560 of said code is amended to read :

Separate
return for
"short
period"

17560. If a separate return is made under Section 17558 on account of a change in the accounting period, the net income, computed on the basis of the period for which the separate return is made, hereafter referred to as the "short period," shall be placed on an annual basis by multiplying the amount thereof by 12 and dividing by the number of months in the short period. The tax shall be such part of the tax computed on such annual basis as the number of months in the short period is of 12 months.

SEC. 46. Section 17560.7 of said code is amended to read :

Minimum
"short
period" tax

17560.7. The tax computed under Section 17560.3 shall in no case be less than the tax computed on the net income for the short period without placing the net income on an annual basis. The benefits of Section 17560.3 shall not be allowed unless the taxpayer makes application therefor in accordance with and at such time as regulations prescribed hereunder require, but not after the time prescribed for the filing of the return for the first taxable year which ends on or after 12 months after the beginning of the short period.

SEC. 47. Section 17561 of said code is amended to read :

Fractional
year return

17561. In the case of a return made for a fractional part of a year, under Section 18641, the personal exemption and the credit for dependents shall be reduced respectively to amounts which bear the same ratio to the full credits provided as the number of months in the period for which return is made bears to 12 months.

SEC. 48. Section 17562 of said code is amended to read :

Inclusion of
gross income
items

17562. The amount of all items of gross income shall be included in the gross income for the taxable year in which received by the taxpayer unless under the methods of accounting permitted under Sections 17556 and 17557 any such items are to be properly accounted for as of a different period. In the case of the death of a taxpayer, whose net income is computed upon the basis of the accrual method of accounting, amounts (except amounts includible in computing a partner's net income under Chapter 9 of this part) accrued only by

reason of the death of the taxpayer shall not be included in computing net income for the period in which falls the date of the taxpayer's death.

SEC. 49. Section 17564 of said code is amended to read:

17677. Where upon an exchange the taxpayer receives as part of the consideration property which would be permitted by Section 17676 or 17676.1 to be received without the recognition of gain if it were the sole consideration, and as part of the consideration another party to the exchange assumes a liability of the taxpayer or acquires from the taxpayer property subject to a liability, the assumption or acquisition shall not be considered as "other property or money" received by the taxpayer within the meaning of Sections 17682 and 17684 and shall not prevent the exchange from being within the provisions of Section 17676 or 17676.1; except that if, taking into consideration the nature of the liability and the circumstances in the light of which the arrangement for the assumption or acquisition was made, it appears that the principal purpose of the taxpayer with respect to the assumption or acquisition was a purpose to avoid State tax on the exchange, or, if not such purpose, was not a bona fide business purpose, the assumption or acquisition (in the amount of the liability) shall, for the

purposes of this article, be considered as money received by the taxpayer upon the exchange.

In any suit or proceeding where the burden is on the taxpayer to prove that the assumption or acquisition is not to be considered as money received by the taxpayer, the burden shall not be considered sustained unless the taxpayer sustains the burden by the clear preponderance of the evidence.

Gain on exchange

17682. If an exchange would be within Sections 17674, 17675, 17676, 17678 or 17686 if it were not for the fact that the property received in exchange consists not only of property permitted by those sections to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

SEC. 55. Section 17684 of said code is amended to read:

Loss on exchange

17684. If an exchange would be within Sections 17674, 17675, 17676, 17678 or 17676.1 or within the provisions of 17686, if it were not for the fact that the property received in exchange consists not only of property permitted by those sections to be received without the recognition of gain or loss, but also of other property or money, no loss from the exchange shall be recognized.

SEC. 55.5. Section 17686 is added to said code, to read:

For the purposes of Section 17672 as made applicable by the provisions of this section, stock of a corporation operating a radio broadcasting station, whether or not representing control of such corporation, shall be treated as property similar or related in service or use to the property so converted. The part of the gain, if any, upon such sale or exchange to which Section 17672 is not applied shall nevertheless not be recognized, if the taxpayer so elects, to the extent that it is applied to reduce the basis for determining gain or loss upon sale or exchange of property, of a character subject to the allowance for depreciation under Section 17313, remaining in the hands of the taxpayer immediately after the sale or exchange, or acquired in the same taxable year. The manner and amount of such reduction shall be determined under regulations prescribed by the commissioner. Any election made by the taxpayer under this section shall be made by a statement to that effect in his return for the taxable year in which the sale or exchange takes place, and such election shall be binding for the taxable year and all subsequent taxable years.

"Property used in trade or business"

17721. For the purposes of this section and Section 17722, the term "property used in the trade or business" means property used in the trade or business, of a character which is subject to the allowance for depreciation provided in Section 17313, and real property used in the trade or business, which is not

(a) Property of a kind which would properly be includible in the inventory of the taxpayer if on hand at the close of the taxable year. or

(b) Property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

Such term also includes timber with respect to which Sections 17725 and 17726 are applicable.

Determination of gains over losses

17723. In determining, for purposes of Section 17722, whether gains exceed losses, the gains and losses described therein shall be included only if and to the extent taken into account in computing net income except that Sections 17712 and 17717 shall not apply.

In case such election has been made, gain or loss to the taxpayer shall be recognized in an amount equal to the difference between the adjusted basis for depletion of such timber in the hands of the taxpayer and the fair market value of such timber. Such fair market value shall be the fair market value as of the first day of the taxable year in which such timber is cut, and shall thereafter be considered as the cost of such cut timber to the taxpayer for all purposes for which such cost is a necessary factor. If a taxpayer makes an election under this section such election shall apply with respect to all timber which is owned by the taxpayer or which the taxpayer has a contract right to cut and shall be binding upon the taxpayer for the taxable year for which the election is made and for all subsequent years, unless the commissioner, on showing of undue hardship, permits the taxpayer to revoke his election; such revocation, however, shall preclude any further elections under this section except with the consent of the commissioner.

17743.1. If the facts necessary to determine the basis in the hands of the donor or the last preceding owner are unknown to the donee, the commissioner shall, if possible, for purposes of Section 17743, obtain such facts from such donor or last preceding owner, or any other person cognizant thereof. If the commissioner finds it impossible to obtain such facts, the basis in the hands of such donor or last preceding owner shall be the fair market value of such property as found by the commissioner as of the date or approximate date at which, according to the best information that the commissioner is able to obtain, such property was acquired by such donor or last preceding owner.

SEC. 67. Section 17747 of said code is amended to read :

17747. If the property was acquired, after February 28, 1913, upon an exchange described in Sections 17673 to 17676, inclusive, Section 17678, and Sections 17682 to 17684, inclusive, or Section 17686, the basis shall be the same as in the

case of the property exchanged, decreased in the amount of any money received by the taxpayer and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized upon the exchange under the law applicable to the year in which the exchange was made.

If the property so acquired consisted in part of the type of property permitted by Sections 17673 to 17676, inclusive, and Section 17678, or Section 17686 to be received without the recognition of gain or loss, and in part of other property, the basis provided in this section shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. CHAPTER 647

An act relating to a public works construction program for the prevention of unemployment upon the relaxation of the war effort and during the postwar period of adjustment from a war economy to a peacetime economy, creating therefor the "Postwar Unemployment and Construction Fund" in the State treasury, declaring the policy of the Legislature and prescribing the powers and duties of public officers in respect thereto, and transferring moneys to said fund.

"The Post-war Unemployment and Construction Act"

[Approved by Governor June 5, 1945 Filed with Secretary of State June 5, 1945]

In effect September 15, 1945

The people of the State of California do enact as follows:

SECTION 1. The termination of the present war will inevitably create serious economic problems for the people of this State. Declaration of policy

The change from a war economy to a peacetime economy and the tremendous and sudden increase in population in this State necessitate a corresponding increase in public works and facilities which is so widespread that it is a matter of State interest, necessary for the state-wide protection of the public health, safety and public welfare.

The prevention of unemployment and the relief of hardship and destitution due to and caused by postwar unemployment is a joint obligation and duty of the Nation and the State within the limits of their resources. Postwar unemployment and its attendant misfortunes can partially be averted and alleviated by the construction of an extensive program of public works to be constructed and engaged in during the period of postwar adjustment and until such time as private industry and commerce can provide employment for the men and women who will be discharged from the armed forces or who will be released from their present employment upon the termination of war-time activities. The experience of this State during the depression years of unemployment and its attendant hardships points to the necessity for a public works employment program. Failure to make provision for an adequate public works program in time to meet the economic problems which will rise upon termination of the war will require the State to expend large sums to provide direct relief to persons who might otherwise be usefully employed in constructing necessary public works.

The Legislature hereby declares that the State has a direct interest in the construction of public works projects and public improvements that will provide employment for citizens released from the armed forces and private enterprise following the relaxation of the war effort, and that the public works projects and public improvements contemplated by this act are a furtherance of its plans to provide employment for its citizens during the period of economic readjustment that will result upon the termination of the war or the substantial diminishing of war production in this State.

Pos war Un-
employment
and Con-
struction
Fund

SEC. 2. The sum of ninety million dollars (\$90,000,000) out of unappropriated moneys in the State treasury is hereby set aside and transferred in the State treasury to the Postwar Unemployment and Construction Fund, which fund is hereby created and established. No money shall be expended from or withdrawn from said fund except and only when appropriated by the Legislature for public works projects and public improvements which will provide employment of citizens released from the armed forces following the cessation of war, and which public works projects and public improvements will create employment in various parts of the State and thus prevent and alleviate unemployment in all parts of the State.

Allocation,
etc., of fund

SEC. 3. The Legislature shall have the exclusive power to allocate, appropriate and provide for the expenditure of all or any part of the fund hereby created for any public works projects or public improvements in which the State shall have an interest, and will aid in preventing or alleviating unemployment in all parts of the State following the cessation of the war.

Investment

SEC. 4. The moneys deposited in the "Postwar Unemployment and Construction Fund" shall be invested and reinvested by the Director of Finance in bonds or other obligations of the United States, or for which the full faith and credit of the United States are pledged, having maturity dates not more than three years from the date of investment, and such securities may be sold or exchanged by the Director of Finance if in his opinion such sale or exchange is in the best interests of the State in effectuating the purposes of this act. The increment from such investments shall accrue to the "Postwar Unemployment and Construction Fund."

Constitu-
tionality

SEC. 5. If any provision of this act, or the application thereof to any person or circumstance, is held invalid, the remainder of the act, or the application thereof to other persons or circumstances, shall not be affected thereby.

Short title

SEC. 6. This act shall be known and may be cited as "The Postwar Unemployment and Construction Act."

Sec. 5. Any authority incorporated as herein provided shall have power:

Powers of
authority

(1) To have perpetual succession.

(2) To sue and be sued in all actions and proceedings and in all courts and tribunals of competent jurisdiction.

(3) To adopt a corporate seal and alter it at pleasure.

(4) To take by grant, purchase, bequest, devise or lease, and to hold, enjoy, lease, sell or otherwise dispose of, any and all real and personal property of any kind within or without the authority and within and without the State necessary or convenient to the full exercise of its powers; also to acquire, construct or operate, control and use any and all works, facilities and means necessary or convenient to the exercise of its powers, both within and without the authority, and within and without the State, and to do and perform any and all things necessary or convenient to the full exercise of the powers herein granted.

(5) To have and exercise the power of eminent domain and, in the manner provided by law for the condemnation of private property for public use, to take any property necessary to the exercise of the powers herein granted. In any proceeding relative to the exercise of such power of eminent domain, the authority shall have the same rights, powers and privileges as a municipal corporation.

(6) To construct and maintain works and establish and maintain facilities across or along any public street or highway and in, upon or over any vacant public lands which are now, or may become the property of the State of California; provided, however, that the authority shall promptly restore any such street or highway to its former state of usefulness as nearly as may be, and shall not use the same in such manner as to completely or unnecessarily impair the usefulness thereof. The grant of the right to use such vacant State lands shall be effective upon the filing by such authority with the Division of State Lands of the Department of Finance, of an application showing the boundaries, extent and locations of the lands, rights of way, or easements desired for such purposes. If the land, rights of way or easement for which application shall be made is for the construction of any aqueduct, ditch, pipe line, conduit, tunnel or other works for the conveyance of water, or for roads, or for poles, or towers and wires for the conveyance of electrical energy or for telephonic or telegraphic communication, no compensation shall be charged the authority therefor, unless, in the opinion of the Chief of such Division of State Lands the construction of such works will render the remainder of the legal subdivision through which such works are to be constructed valueless or unsalable, in which event the authority shall pay for the lands to be taken and for such portion of any legal subdivision which, in the opinion of said Chief of the Division of State Lands, are rendered valueless or unsalable. If the lands for which application is made are for purposes other than the construction of roads or for works for the conveyance of water, or electricity or telephonic or telegraphic communication, such authority shall pay to the State for such lands at the reasonable rate determined by the Division of State Lands. Upon filing such application, accompanied by map or plat showing the location or proposed

The Chief of the Division of State Lands may reserve in such patents, grants or permits, easements and rights of way across any lands therein described for the construction of streets, roads and highways. Before any such patent, grant or permit shall be executed any compensation due to the State under the provisions hereof, must be paid. In the event that the duties or titles of any of the officers herein mentioned shall be changed by lawful authority, the functions herein required to be performed shall be performed by the appropriate officer or officers of the State of California. No fee shall be exacted from such authority for any patent, permit or grant so issued or for any service rendered hereunder. In the use of streets or highways the authority shall be subject to the reasonable rules and regulations of the governmental agency in charge thereof, concerning excavations and the refilling of excavations, the relaying of pavements and the protection of the public during periods of construction; provided, that the authority shall not be required to pay any license or permit fees, or file any bonds. The authority may be required to pay reasonable inspection fees.

(7) To borrow money and incur indebtedness and to issue bonds or other evidence of such indebtedness; provided, however, that no authority incorporated hereunder shall incur indebtedness which, in the aggregate, shall exceed fifteen (15) per cent of the taxable property of the authority as shown by the last equalized assessment roll of the county in which the authority is located.

(8) To levy and collect taxes for the purpose of carrying on the operations and paying the obligations of the authority; provided, however, that such taxes levied under this section exclusive of any tax levied to meet the bonded indebtedness of such authority and the interest thereon and exclusive of any tax levied to meet any obligation to the United States of America or to any board, department or agency thereof, shall not exceed five cents (\$.05) on each such one hundred dollars (\$100) of assessed valuation.

(9) To enter into contracts, employ and retain personal services and employ laborers; to create, establish and maintain such offices and positions as shall be necessary and convenient for the transaction of the business of the authority, and to

(10) To join with one or more other public corporations for the purpose of carrying out any of its powers, and for that purpose to contract with such other public corporation or corporations for the purpose of financing such acquisitions, constructions and operations. Such contracts may provide for contributions to be made by each party thereto and for the division and apportionment of the expenses of such acquisitions and operations, and the division and apportionment of the benefits, the services and products therefrom. water is needed or required by any public agency, the corporate area of which is included within said authority, for domestic, municipal or other beneficial uses therein; to fix the rates therefor, and to acquire, construct, operate and maintain any and all works, facilities, improvements and property necessary or convenient therefor.

(12) To cooperate and contract with United States under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto, or any other act of Congress heretofore or hereafter enacted authorizing or permitting such cooperation, for the purposes of construction of works, necessary or proper for carrying out the purposes of said authority, or for the acquisition, purchase, extension, operation or maintenance of constructed works, or for a water supply, or for the assumption as principal or guarantor of indebtedness to the United States; also to borrow or procure money from the United States, or any agency thereof for the purpose of financing any of the operations of the authority.

Said bond shall be conditioned upon compliance with the provisions of the chapter and upon the faithful and honest handling of farm products in accordance with the terms of this chapter. Said bond shall be to the State in favor of every producer-creditor of farm products grown within the State of California. Any producer-creditor of farm products grown within the State of California claiming to be injured by the fraud, deceit or wilful negligence of any dealer may bring action upon said bond against both principal and surety in any court of competent jurisdiction to recover the damages caused by such fraud, deceit or wilful negligence, or the failure to comply with the provisions of this chapter. In case of failure by a dealer to pay producer-creditors for farm products received from said producers, the director shall proceed forthwith to ascertain the names and addresses of all producer-creditors of such dealer, together with the amounts due and owing to them and each of them by such dealer, and shall request all such producer-creditors to file a verified statement of their respective claims with the director. Such request shall be addressed to each known producer-creditor at his last known address. If a producer-creditor so addressed fails, refuses or neglects to file in the office of the director his verified claim as requested by the director within 90 days from the date of such request, the director shall thereupon be relieved of further duty or action hereunder on behalf of said producer-creditor. Upon ascertaining all claims and statements in the manner herein set forth, the director may then make demand upon the bond on behalf of those claimants whose statements have been filed, and shall have the power to settle or compromise said claims with the surety company on the bond, and is empowered in such cases to execute and deliver a release and discharge of the bond involved. Upon the refusal of the surety company to pay the demand, the director shall thereupon bring an action on the bond in behalf of said producer-creditors. Upon any action being commenced on said bond, the director

may require the filing of a new bond and immediately upon the recovery in any action on such bond such dealer shall file a new bond and upon failure to file the same within 10 days in either case, such failure shall constitute grounds for the suspension or revocation of his license.

SEC. 6. Section 1267 of said code is amended to read :

1267. For the purpose of enforcing the provisions of this chapter the director is authorized to receive verified complaints from producers against any commission merchant, dealer, broker, cash buyer, or agent or any person, assuming or attempting to act as such, and upon receipt of such verified complaint shall have full authority to make any and all necessary investigations relative to the said complaint. He shall have at all times free and unimpeded access to all buildings, yards, warehouses, storage and transportation facilities in which any produce is kept, stored, handled or transported. He shall have full authority to administer oaths and take testimony thereunder, to issue subpoenas requiring the attendance of witnesses before him, together with all books, memoranda, papers, and other documents, articles or instruments; to compel the disclosure by such witnesses of all facts known to them relative to the matters under investigation, and all parties disobeying the orders or subpoenas of said director shall be guilty of contempt and shall be certified to the superior court of the State for punishment for such contempt. Copies of records, inspection certificates, certified reports, findings and all papers on file in the office of the director shall be prima facie evidence of the matters therein contained.

SEC. 7. Section 1268 of said code is amended to read :

1268. The director on his own motion may or upon the verified complaint of any interested party shall investigate, examine or inspect any transaction involving solicitation, receipt, sale or attempted sale of farm products by any person or persons acting or assuming to act as a commission merchant, dealer, broker, cash buyer, or agent; failure to make proper and true account of sales and settlement thereof as in this chapter required; the intentional making of false statements as to condition and quantity of any farm products received or in storage; the intentional making of false statements as to market conditions; the failure to make payment for farm products within the time required by this chapter; or investigate, examine or inspect any and all other injurious transactions, and in furtherance of any such investigation, examination or inspection, the director or any authorized representative, may examine that portion of the ledgers, books, accounts, memoranda and other documents, farm products, scales, measures, and other articles and things used in connection with the business of such person relating to the transactions involved. When a producer-consignor or seller of farm products fails to obtain settlement satisfactory to him in any transaction after having notified the consignee, or buyer, a verified complaint may be filed with the director who shall undertake to effect a settlement, and in the event that he

shall fail to effect such settlement, he shall call a hearing as provided for herein.

Hearing of
complaint

The director, after due hearing, may refuse to grant any license herein provided, and may, upon his own motion, after hearing, or upon a verified complaint signed and filed with the director by any interested person, revoke, suspend or refuse renewal of any such license as the case may require, when he is satisfied that any applicant or licensee has violated any provision of this chapter. Upon the filing of such a verified complaint, the director shall cause a copy thereof, together with a notice of the time and place of hearing of such complaint to be served personally or by mail upon the person or persons named as respondent or respondents therein. Such service shall be made at least ten (10) days before said hearing, which shall be held in the city or town in which is situated the principal place of business of the licensee or respondent, or in which the transaction or violation complained of is said to have occurred, or in the county seat of the county in which the transaction or violation complained of is said to have occurred, or in the nearest office of the State Department of Agriculture, at the discretion of the director. At the time and place appointed for such hearing the director or his agents shall hear the parties to said complaint, and shall enter in the office of the director at Sacramento a decision either dismissing such complaint or specifying the facts established on such hearing. Such decision may include an order refusing, revoking or suspending the license applied for or held by the respondent, or affixing such other conditional and probationary orders as may be proper for the enforcement of this chapter. A copy of the decision shall be furnished to the licensee and complainant.

After any decision including any conditional or probationary orders, should respondent fail, refuse or neglect to comply with any of such orders, the director may thereupon and in the premises issue to and serve upon said respondent an order directing said respondent to show cause why the license of said respondent should not be suspended or revoked for the failure to comply with such conditional or probationary orders as above described. A copy of the said order to show cause, together with the notice of the time and place of hearing upon said order shall be served personally or by mail upon said respondent. Said order shall refer to an attached copy of the conditional or probationary orders in such a way as to advise and inform the respondent of the charge or violation upon which said order is based and pursuant to which it is issued. Such service shall be made at least ten (10) days before said hearing, which shall be held in the city or town in which is situated the principal place of business of the respondent, or in which the transaction or violation complained of is said or charged to have occurred, or in the county seat of the county in which the transaction or violation complained of is said or charged to have occurred, or at the nearest office of the State Department of Agriculture at the discretion of the director.

At the time and place appointed for such hearing the director or his agents shall hear the matter set forth in the order, and the showing of the licensee in the premises, and shall enter in the office of the director at Sacramento an order and decision specifying the facts, dismissing the order to show cause or directing the suspension or revocation of the license or licenses held by the licensee, or making such further conditional or probatory orders as the director may deem proper, upon the evidence presented at such hearing. A copy of said order and decision shall be furnished to the licensee. Previous violation by any applicant or by any person connected with said applicant of any provision of this chapter shall be good and sufficient ground for denial, revocation or suspension of a license.

Should either party to the hearing request a continuance after due notice as herein provided, the party requesting the continuance must make such request forty-eight (48) hours prior to the time of hearing; provided further, that the party requesting such continuance shall be required to pay the costs attached to such continuance.

Nothing in this section contained may be construed as limiting the power of the director, after hearing, to revoke or suspend a license when he is satisfied of the existence of any of the facts specified in Section 1269 of this chapter.

SEC. 8. Section 1269 of said code is amended to read:

1269. (1) The director may refuse to grant a license and may revoke or suspend any license, as the case may require, when after a hearing as herein provided, he is satisfied of the existence of any of the following facts, the existence of which is hereby declared to be a violation of this chapter:

(a) That fraudulent charges or returns have been made by the applicant, or licensee, for the handling, sale or storage of, or for rendering of any service in connection with the handling, sale or storage of any farm products.

(b) That the applicant, or licensee, has failed or refused to render a true account of sales, or to make a settlement thereon, or to pay for farm products received, within the time and in the manner required by this chapter.

(c) That the applicant, or licensee, has made any false statement as to the condition, quality or quantity of farm products received, handled, sold or stored by him.

(d) That the applicant, or licensee, directly or indirectly, has purchased for his, or its own account farm products received by him upon consignment without prior authority from consignor together with price fixed by consignor or without promptly notifying the consignor of such purchase. This shall not prevent any commission merchant from taking to account of sales, in order to close the day's business, miscellaneous lots or parcels of farm products remaining unsold, if such commission merchant shall forthwith enter such transaction on his account of sales.

Refusal,
revocation,
suspension
of license
after hearing

(e) That the applicant, or licensee, has intentionally made any false or misleading statement as to the conditions of the market for any farm products.

(f) That the applicant, or licensee, has made fictitious sales or has been guilty of collusion to defraud the producer.

(g) That a commission merchant to whom any consignment is made has reconsigned such consignment to another commission merchant and has received, collected, or charged by such means more than one commission for making the sale therefor for the consignor, unless by written consent of such consignor.

(h) That the licensee was intentionally guilty of fraud or deception in the procurement of such license.

(i) That the licensee or applicant has failed or refused to file with the director a schedule of his charges for services in connection with produce handled on account of or as an agent of another; that the applicant, or licensee has indulged in any unfair practice.

(j) That the licensee has rejected, without reasonable cause, or has refused to accept, without reasonable cause, any farm product bought or contracted to be bought from a producer by such licensee.

(k) That the licensee has otherwise violated any provision of this chapter.

(l) That the licensee has knowingly employed an agent, as defined in this chapter, without causing said agent to comply with the licensing requirements of this chapter applicable to agents.

(m) That the applicant or licensee has in the handling of any farm products been guilty of fraud, deceit, or wilful negligence.

(2) Previous violation by the applicant or by any person connected with him or it of any of the provisions of this chapter or Chapter 9, Division 6, of the Agricultural Code shall be good and sufficient ground for denial of a license.

(3) The director, after hearing, or investigation may refuse to grant a license and may revoke or suspend any license as the case may require, when he is satisfied that the licensee has become bankrupt or insolvent, and is thereby unable to pay producer-creditors of the licensee, or producers with whom the licensee has executory or executed contracts for the purchase of farm products, or for the handling of farm products on consignment.

In such cases, if the director is satisfied that to permit the dealer or commission merchant to continue to purchase or to receive further shipments or deliveries of farm products would be likely to cause serious and irreparable loss to said producer-creditors, or to producers with whom the said dealer or commission merchant has said contracts, then the director within his discretion may thereupon and forthwith shorten the time herein provided for hearing upon an order to show cause why the license of said dealer or commission merchant should not be forthwith suspended or revoked; provided, however, that

the time of notice of said hearing shall in no event be less than 24 hours, and shall within that period call a hearing, at which the dealer or commission merchant proceeded against shall be ordered to show cause why his or its license should not be suspended, or revoked, or continued under such conditions and provisions, if any, as the director may consider just and proper and for the protection of the best interests of the producer-creditors involved. Said hearing, in the case of such emergency, may be called upon written notice, said notice to be served personally or by mail on the dealer or commission merchant involved, and may be held at the nearest office of the director or at such place as may be most convenient at the discretion of the director, for the attendance of all parties involved.

SEC. 9. Section 1272 of said code is amended to read :

1272. When requested by his consignor, a commission merchant shall before the close of the next business day following the sale of any farm products consigned to him transmit or deliver to the owner or consignor of the farm products a true written report of such sale, showing the amount sold, and the selling price. Remittance in full of the amount realized from such sales, including all collections, overcharges and damages, less the agreed commission and other charges, together with a complete account of sales, shall be made to the consignor within 10 days after receipt of the moneys by the commission merchant, unless otherwise agreed in writing. In the account the names and addresses of purchasers need not be given, except as required in Section 1271.

Reports of
sales and
remittances

Every commission merchant shall retain a copy of all records covering each transaction, for a period of one year from the date thereof, which copy shall at all times be available for, and open to, the confidential inspection of the director and the consignor, or authorized representative of either. In the event of any dispute or disagreement between a consignor and a commission merchant arising at the time of delivery as to condition, quality, grade, pack, quantity or weight of any lot, shipment or consignment of farm products, the department shall furnish upon the payment of a reasonable fee therefor by the requesting party a certificate establishing the condition, quality, grade, pack, quantity, or weight of such lot, shipment or consignment. Such certificate shall be prima facie evidence in all courts of this State as to the recitals thereof. The burden of proof shall be upon the commission merchant to prove the correctness of his accounting as to any transaction which may be questioned.

Retention
of records

Every dealer must pay for farm products delivered to him or it at the time and in the manner specified in the contract with the producer, but if no time is set by such contract, or at the time of said delivery, then within 30 days from the delivery or taking possession of such farm products.

Time of
payment

No claim may be made as against the seller of farm products by a dealer or cash buyer under this chapter, and no credit may be allowed to such dealer or cash buyer as against a

producer of farm products by reason of damage to or loss, dumping, or disposal of farm products sold to said dealer or cash buyer, in any payment, accounting or settlement made by said dealer or cash buyer to said producer, unless said dealer or cash buyer has secured and is in possession of a certificate, issued by an agricultural commissioner, county health officer, director, a duly authorized officer of the State Board of Health, or by some other official now or hereafter authorized by law, to the effect that the farm products involved have been damaged, dumped, destroyed or otherwise disposed of as unfit for human consumption or as in violation of the fruit and vegetable standards of the Agricultural Code as contained in Division 5, Chapter 2 thereof. Such certificate will not be valid as proof of proper claim, credit or offset unless issued within 24 hours of the receipt by the dealer or cash buyer of the farm products involved.

SEC. 10. Section 1273 of said code is amended to read:

Penalties

1273. (1) Any person is guilty of a misdemeanor and is punishable by a fine of not more than one thousand dollars (\$1,000), or by imprisonment in the county jail for not more than one year or by both who assumes or attempts to act or acts as a commission merchant, dealer, broker, cash buyer, or agent without a license, or who:

(a) Imposes false charges for handling or services in connection with farm products.

(b) Fails to account promptly, correctly, fully and properly and to make settlement therefor as herein provided.

(c) Intentionally makes false or misleading statement or statements as to market conditions.

(d) Makes fictitious sales or is guilty of collusion to defraud the producer.

(e) Directly or indirectly purchases for his own account, goods received by him upon consignment without prior authority from the consignor, or fails promptly to notify the consignor of such purchases, if any, on his own account. This clause does not prevent any commission merchant from taking to account of sales, in order to close the day's business, miscellaneous lots or parcels of farm products remaining unsold, if such commission merchant forthwith enters such transaction on his account of sales.

(f) Intentionally makes false statement or statements as to the grade, conditions, markings, quality or quantity of goods shipped or packed in any manner.

(g) Fails to comply in every respect with the provisions of this chapter.

(2) Civil suits and criminal prosecutions arising by virtue of any of the provisions of this chapter may be commenced and tried in either the county where the products were received by the commission merchant, dealer, broker, cash buyer, or agent, or within the county in which the principal place of business of such commission merchant, dealer, broker, cash buyer, or agent

is located, or within the county in which the violation of this chapter occurred.

(3) The director may bring an action to enjoin the violation or the threatened violation of any provision of this chapter or of any order made pursuant to this chapter in the superior court in the county in which such violation occurs or is about to occur. There may be enjoined in one proceeding any number of defendants alleged to be violating the same provisions or orders, although their properties, interests, residences, or places of business may be in several counties and the violations separate and distinct. Any proceeding brought hereunder shall be governed in all other respects by the provisions of Chapter 3, Title 7 of Part 2 of the Code of Civil Procedure.

(4) Any person who violates any provision of this chapter shall be liable civilly in an amount not to exceed the sum of five hundred dollars (\$500) for each and every violation, such sum to be recovered in an action by the director in any court of competent jurisdiction. All sums recovered under this section shall be deposited in the State treasury to the credit of the Department of Agriculture Fund.

Code to read:

CHAPTER 13.5. EQUALIZATION OF STATE AID FOR THE SUPPORT
OF ELEMENTARY SCHOOLS

Article 1. Computation of Foundation Program of
School Support

Computation
of foundation
program

6921. The Superintendent of Public Instruction shall compute for each elementary school district the amount of a foundation program of school support therefor in the following manner:

(a) For each district which had an average daily attendance during the preceding school year of 95 or more, he shall multiply the number of units of average daily attendance in such district during the preceding school year by ninety-five dollars (\$95).

(b) For each district which had an average daily attendance during the preceding school year of less than 95, he shall compute two thousand two hundred fifty dollars (\$2,250) for each 26 units of average daily attendance or any fraction thereof.

Union,
joint union,
or unified
districts

6922. If such elementary school district is a union elementary school district or a joint union elementary school district or a unified school district, a foundation program shall be computed in the manner provided in this article for each elementary school district included within the union elementary school district or joint union elementary school district or unified school district and the total of the foundation programs so computed shall be the foundation program of the union elementary school district, joint union elementary school district or unified school district.

Duration

This section shall remain in effect until there is enacted a law providing for the apportionment of State funds to each union elementary school district, joint union elementary school district and unified school district for the payment, in whole or in part, of the cost of transportation provided by such district for the pupils thereof, in an amount equivalent to that received by such district by reason of this section over and above that which such district would have received had not this section been enacted.

Article 2. Computation of Equivalent of Basic
State Aid

Teacher units
allowed

6931. For the purposes of this article, the Superintendent of Public Instruction shall allow:

(a) One teacher unit to each elementary school district for each 35 or fraction of 35 units of average daily attendance of pupils in the district during the preceding school year, exclusive of the average daily attendance of pupils in emergency schools maintained within the school district by the county superintendent of schools and exclusive of the average daily attendance of pupils in schools maintained by the district in connection with the detention home of a county under Article 5 of Chapter 2 of Division 2 of the Welfare and Institutions Code.

(b) One teacher unit to each elementary school district for each 25, or fraction not less than five, units of average daily attendance during the preceding school year in schools maintained by the district in connection with the detention home of a county under Article 5 of Chapter 2 of Division 2 of the Welfare and Institutions Code.

(c) One additional teacher unit to each union elementary school district and to each elementary school district which is not a part of a union elementary school district for each 300 units of average daily attendance in the aggregate during the preceding school year, exclusive of the average daily attendance of pupils in emergency schools maintained within the school district by the county superintendent of schools.

(d) One teacher unit to each elementary school district which was organized during the preceding school year and in which school was not maintained during the school year.

(e) One teacher unit to the county elementary school supervision fund of each county for the first 300 or major fraction of 300 units of average daily attendance in the aggregate in all the elementary districts of the county, including union elementary school districts, having less than 300 units of average daily attendance during the preceding school year and in the emergency schools maintained within the elementary school districts of the county by the county superintendent of schools during the preceding school year. One teacher unit shall be allowed to the fund for the next 300, or any fraction of 300, units of average daily attendance, and one teacher unit shall be allowed to the fund for each succeeding 300, or major fraction of 300 units of average daily attendance.

(f) One teacher unit to the unapportioned county elementary school fund of each county for each 35 or fraction of 35 units of average daily attendance of pupils in attendance upon emergency schools maintained in each elementary school district of the county by the county superintendent of schools during the preceding school year.

6932. He shall then compute the amounts which would have been apportioned to each elementary school district and to the unapportioned county elementary school fund and the county elementary school supervision fund of each county, exclusive of apportionments for the excess cost of educating physically handicapped children, from the State School Fund under the provisions of this code in effect during the school years 1943-1944 and 1944-1945 which, as revised and restated by this section, required him to apportion from the State School Fund during each school year a total amount, exclusive of amounts provided for the excess cost of educating physically handicapped children, of not less than thirty-three dollars (\$33) per pupil in average daily attendance in the public day and evening elementary schools in the public school system by apportioning:

Apportionments from State School Fund

(a) To each elementary school district seven hundred eighty-five dollars (\$785) for each teacher unit allowed to the district by the report of the county, or city and county, superintendent of schools during the preceding school year.

(b) To the county elementary school supervision fund of each county seven hundred eighty-five dollars (\$785) for each teacher unit allowed to the fund by the report of the county superintendent of schools for the preceding school year.

(c) To each elementary school district in which one or more 24-hour elementary schools are established, an amount equal to one-half of the excess cost of educating pupils in the schools during the next preceding school year as computed by the various county superintendents of schools. The apportionment shall not exceed one hundred dollars (\$100) per pupil for each pupil in average daily attendance at the school during the year.

No allowance shall be made hereunder unless the 24-hour elementary schools meet the requirements of the Superintendent of Public Instruction based upon educational standards and standards established by State agencies as authorized by law to inspect or supervise child-caring institutions.

(d) To the unapportioned county elementary school fund of each county seven hundred eighty-five dollars (\$785) for each teacher unit allowed to the fund on account of emergency schools maintained in the elementary school districts of the county during the preceding school year by the county superintendent of schools.

(e) To the several elementary school districts of the State and to the several unapportioned county elementary school funds the remainder of the State School Fund, after making all other apportionments required from the State School Fund, pro rata on the total average daily attendance credited to the districts and funds during the preceding school year as reported by the county superintendent of schools.

Apportion-
ments from
State Gen-
eral Fund

6933. He shall then compute the total amount which would have been required to be apportioned from the State General Fund pursuant to Section 15 of Article XIII of the State Constitution to each county under the provisions of this code and of the Constitution in effect during the school years 1943-1944 and 1944-1945, which required him to compute the total amount to be apportioned from the State General Fund to each county for elementary schools by comparing the amount to be apportioned to the county from the State School Fund under the provisions of this code in effect during the school years 1943-1944 and 1944-1945, as revised and restated in Sections 6931 and 6932 of this code with an amount equal to thirty-three dollars (\$33) for each unit of average daily attendance in the day and evening elementary schools of the county during the preceding school year and taking the larger of the two amounts.

Same

6934. He shall then compute the amounts which would have been required to be apportioned to the elementary schools of each county from the State General Fund under the provi-

sions of this code in effect during the school years 1943-1944 and 1944-1945 which, as revised and restated by this section, required him:

(a) To allow to each elementary school district seven hundred eighty-five dollars (\$785) for each teacher unit allowed to the elementary school district.

(b) To allow to the county elementary school supervision fund of each county seven hundred eighty-five dollars (\$785) for each teacher unit allowed to the fund.

(c) To allow to each elementary school district in which one or more 24-hour elementary schools are established, an amount equal to one-half of the excess cost of educating pupils in the schools during the next preceding school year as computed by the various county superintendents of schools. The allowance shall not exceed one hundred dollars (\$100) per pupil for each pupil in average daily attendance at the school during the year.

No allowance shall be made hereunder unless the 24-hour elementary schools meet the requirements of the Superintendent of Public Instruction based upon educational standards and standards established by State agencies authorized by law to inspect and supervise child-caring institutions.

(d) To allow to the unapportioned county elementary school fund of each county seven hundred eighty-five dollars (\$785) for each teacher unit allowed to the fund on account of emergency schools maintained in the elementary school district of the county during the preceding school year by the county superintendent of schools, together with such additional amounts as shall be estimated by the county superintendent of schools and approved by the Superintendent of Public Instruction as the amount needed in the unapportioned county elementary school fund for the current school year.

The total of the amounts computed for the unapportioned county elementary school funds of all counties under this subdivision, exclusive of amounts computed for teacher units allowed such funds, shall notwithstanding anything in Section 5182 to the contrary, not exceed by more than 10 per cent the amount obtained by multiplying the total average daily attendance in the elementary schools of the State during the next preceding school year by an amount derived by dividing the total amount apportioned, exclusive of amounts apportioned on account of teacher units allowed such funds, to the unapportioned county elementary school funds of all the counties of the State during the school year 1944-1945, exclusive of amounts apportioned on account of teacher units allowed such funds, under Section 6977 as that section was in effect during the school year 1944-1945, by the total number of units of average daily attendance during the school year 1943-1944 in the elementary schools of the counties to which apportionments, exclusive of apportionments made on account of teacher units allowed said funds, were made under said Section 6977 during the school year 1944-1945.

(e) To prorate the remainder of the apportionment to each county from the State General Fund to the several elementary school districts of the county and to the unapportioned county elementary school fund on the basis of the total average daily attendance credited to the districts and fund during the preceding school year.

Computation
of total

6935. He shall then compute the total of the amounts computed for each elementary school district and to the unapportioned county elementary school fund and to the county elementary supervision fund of each county under Sections 6932 and 6934 of this code.

"Elementary
school
district"

6936. The term "elementary school district" as used in this article means each elementary school district which is composed of a single elementary school district and each elementary school district included within a union elementary school district or a joint union elementary school district or a unified school district. The total of allowances and computations made to or for the elementary school districts included within a union elementary school district or a joint union elementary school district or a unified school district shall be the allowances or computations made to or for such union elementary school district or joint union elementary school district or unified school district.

Article 3. Computation of District Aid

District tax

6941. The Superintendent of Public Instruction shall then compute the amount which a tax of twenty cents (\$0.20) levied on each one hundred dollars (\$100) of 90 per cent of the assessed valuation in each elementary school district or unified school district as shown by the equalized assessment roll of the district for the preceding year would produce, if levied.

Article 4. Computation of State Equalization Aid

State Equal-
ization Aid

6951. The Superintendent of Public Instruction shall then compare the total of the amounts computed for each elementary district or unified school district pursuant to Articles 2 and 3 of this chapter with the amount of the Foundation Program of School Support computed for each district pursuant to Article 1 of this chapter.

If the total amount computed for any district pursuant to Articles 2 and 3 of this chapter is less than the amount of the Foundation Program of School Support computed for such district pursuant to Article 1 of this chapter he shall add to the amount computed for such district pursuant to Articles 2 and 3 of this chapter such additional amount, to be known as State Equalization Aid, as may be necessary to equal that computed for such district pursuant to Article 1 of this chapter.

Article 4.5. Computation of Apportionment for Education of Physically Handicapped Children

6955. The Superintendent of Public Instruction shall then compute for each elementary school district an amount equal to the excess cost to such district of educating physically handicapped children but not in excess of two hundred dollars (\$200) for each unit of average daily attendance of physically handicapped children in the district during the next preceding school year.

Article 4.6. Minimum Total Amount to be Computed for All Districts of a County

6958. If the total of the amounts computed for all the elementary school districts and unified school districts of a county under Articles 2, 4 and 4.5 of this chapter is an amount equal to less than seventy dollars (\$70) for each unit of average daily attendance in the elementary schools of such county during the preceding school year, the Superintendent of Public Instruction shall add to such total such an amount as will increase such total to an amount equal to seventy dollars (\$70) for each unit of average daily attendance in the elementary schools of the county during the preceding school year. Such additional amount shall be apportioned to each elementary school district and unified school district of the county pro rata on the basis of the average daily attendance credited to such districts during the preceding school year.

Article 5. Computation and Apportionment State Equalization Balance

6961. The Superintendent of Public Instruction shall divide the total amount computed for each county under Articles 2, 4, 4.5 and 4.6 of this chapter by the average daily attendance in the elementary schools of the county during the preceding school year.

(a) If the quotient so secured is eighty dollars (\$80) or less, he shall compute an amount equal to fifty dollars (\$50) for each such unit of average daily attendance and shall assume such amount as apportioned from the State General Fund. He shall then compute an amount equal to the remainder of such quotient for each such unit of average daily attendance and shall assume such amount as apportioned from the State School Fund.

(b) If the quotient so secured is more than eighty dollars (\$80), he shall assume 37½ per cent of the total amount computed for the county as apportioned from the State School Fund and the remainder, or 62½ per cent thereof as apportioned from the State General Fund.

6962. If the total amount assumed to be apportioned from the State School Fund under Section 6961 is less than the

total of the State School Fund, the balance of the State School Fund, to be known as the State School Equalization Balance, shall be assumed to be apportioned to school districts by the Superintendent of Public Instruction on a pro rata basis of pupils in average daily attendance credited to the districts during the preceding school year.

Reduction
in amount

6963. (2) From the Retirement Annuity Fund, an amount equal to the difference between the benefits paid from the Retirement Annuity Fund during the preceding year to persons who are

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect, to become operative July 1, 1945. A statement of the facts constituting such necessity is as follows:

The study of the administration, organization, and financial support of the public school system of the State made by the State Reconstruction and Reemployment Commission pursuant to Chapter 36 of the Statutes of the Fourth Extraordinary Session of the Fifty-fifth Legislature shows conclusively that while the public elementary schools of California are relatively well supported, the present system of State support is inadequate in that it fails to recognize the differences in the ability of elementary school districts to support schools and results in inequities which do not permit an acceptable minimum foundation program of elementary education to be made available to all children of the State. Inasmuch as the purpose of this act is to remove, so far as may be possible, the inequities now existing in the distribution of funds by the State to elementary school districts, and which result in an untenable discrimination against many children and to establish within the limits of the Constitution a method of distributing State funds for the support of public day and evening elementary schools on an equitable basis to the end that all the children of the State shall be assured at least a minimum foundation program of elementary education, it is necessary, in order that such purpose be accomplished without delay, that this act take immediate effect.

CHAPTER 692

An act to amend Section 7729 of the Public Resources Code, relative to the issuance of patents for State lands, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 5, 1945. Filed with Secretary of State June 5, 1945.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7729 of the Public Resources Code is amended to read:

7729. Whenever a person becomes entitled to a patent, the Patent commission, upon the surrender of the certificate of purchase,

shall prepare a patent for the land. The patent shall be issued in the name of the original applicant. The commission shall send it to the Governor, together with a certificate that the laws in relation thereto have been complied with, that payment in full has been made, and that the person named in the prepared patent is entitled to it. The patent so issued shall inure to the benefit of the assigns, grantees, or successors in interest of said original applicant.

Loss of
certificate of
purchase

If the certificate of purchase has been lost or destroyed, or is beyond the control of the owner of the land, the commission shall require the owner to furnish an affidavit as to the loss of the certificate of purchase or as to his inability to surrender it, together with such other documentary evidence of his ownership of the land as the commission may require. The commission may, upon finding the facts stated in such affidavit to be true, thereupon prepare the patent for issuance as above provided.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall, therefore, go into immediate effect. A statement of the facts constituting such necessity is as follows:

This act will permit patents to be issued for the lands specified therein without the surrender of the certificates of purchase. In many instances the certificates have been lost or mislaid, and can not be surrendered, and as a result the patents can not now be issued. The inability to obtain patents prevents the transfer of the lands, many of which are lands suitable for the grazing of live stock, into the hands of persons who will use them for that purpose. A severe shortage of meat exists, which menaces the health of the civilian population. When this act becomes effective, the lands affected can be transferred to persons who will use them for grazing live stock, and as a result the production of meat will be increased, and the health of the people of the State protected. It is therefore necessary that this act take effect immediately.

An act to amend Section 4004.5 of the Political Code, relating to loans by counties to fire districts and park, recreation and parkway districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 6, 1945. Filed with Secretary of State ^{In effect} June 6, 1945.] _{immediately}

The people of the State of California do enact as follows:

SECTION 1. Section 4004.5 of the Political Code is amended to read:

4004.5. Notwithstanding the provisions of Section 4004, any ^{Loans to} county may lend any of its available funds to any fire protection _{districts by} district or park, recreation and parkway district located wholly within the county, whose funds are or will be when available in the custody of the county or any officer of the county, in order to enable the district to perform its functions and meet its obligations. SEC. 2. This act is hereby declared to be an urgency measure ^{Urgency} necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall take effect immediately. The following is a statement of the facts constituting such necessity:

There has been a serious increase in juvenile delinquency in this State which vitally affects the public peace, health, safety and welfare. There have been organized in this State recreation park and parkway districts for the purpose of organizing, sponsoring and supervising recreational programs which will give to juveniles wholesome recreational activities and interests and thus keep them from becoming juvenile delinquents.

Funds are not now available to these newly formed districts and will not be available until after the next summer school vacation period. During such vacation period many juveniles will be in danger of becoming delinquents unless adequate wholesome recreational facilities are provided for them. It is urgently necessary for these districts to have funds immediately with which to carry on juvenile prevention work. This act will accomplish these ends by making it possible for such districts to obtain loans of county funds for this work until such time as district tax funds become available to such districts. It is therefore necessary that this act shall become effective at the earliest possible moment.

An act to amend Section 690 of, and add Section 690.26 to, the Code of Civil Procedure, relating to exemptions from executions.

In effect
September
15, 1945

[Approved by Governor June 7, 1945. Filed with Secretary of State June 7, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 690 of the Code of Civil Procedure is amended to read :

Property
exempt from
execution or
attachment

690. The property mentioned in Sections 690.1 to 690.24, inclusive, this code, is exempt from execution or attachment, except as therein otherwise specially provided when claim for exemption is made to the same by the judgment debtor or defendant as is hereinafter in Section 690.26 provided.

SEC. 2. Section 690.26 is added to said code, to read :

Verified
claim to
exemption

690.26. If the property mentioned in Sections 690.1 to 690.25 inclusive, shall be levied upon under writ of attachment or execution the defendant or judgment debtor, in order to avail himself of his exemption rights as to such property, shall deliver a verified claim to exemption under his oath or the oath of his agent, together with a copy thereof, specifying the section or sections of this code on which he relies for his claim to exemption, and all facts necessary to support his claim to the officer making the levy.

Such officer must release the property unless the plaintiff or the person in whose favor the writ runs within five days after written demand by such officer, which written demand shall include a copy of the claim of exemption, files a counter-affidavit alleging that the property is not exempt within the meaning of the section or sections relied upon, or if the claim to exemption be based on Sections 690.1, 690.3, 690.6, 690.8, 690.9, 690.12, 690.17, 690.18, 690.21, 690.24, alleging the value of the property claimed exempt to be in excess of the value stated by said sections. If such counter-affidavit is filed, then on motion of either the plaintiff or the person in whose favor the writ runs or the defendant or judgment debtor shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the validity of the claim for exemption, or the value of the property claimed exempt whether or not the value of the property determines the right to exemption.

Release of
property un-
less counter-
affidavit filed

Such hearing must be granted by the court upon motion made by either the plaintiff or the person in whose favor the writ runs, or the defendant or judgment debtor, which motion must be made within five days after service on the plaintiff or the party in whose favor the writ runs of the copy of the claim to exemption left with the officer making the levy. Such hearing must be had within 10 days from the date of the filing of such petition unless continued as herein provided. The party making the motion for hearing must give five days' notice of such hearing to the officer making the levy and to the other party to this exemption proceeding, which notice must specify that the hearing is for the purpose of determining the claim to exemption, provided that no such notice need be given to the party making the motion. The court may continue the hearing beyond the 10-day period but good cause must be shown for any such continuance.

Hearing

The officer making the levy in all cases shall retain physical possession of the property levied upon if it be capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect until the determination of the claim for exemption; provided, however, that no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide. The court may order the sale of any perishable property held by such officer and direct the disposition of the proceeds of such sale. The court may make such other orders as may be proper under the particular circumstances of the particular case. Any orders so made by the court or judge may be modified or vacated by the court or judge granting the same, or by the court in which the proceedings is pending at any time prior to the termination of the proceedings upon such terms as may be just. At the hearing had for the purpose of determining the claim to exemption, the party claiming the exemption shall have the burden of proof. The verified claim to exemption filed with the officer shall be

filed by the officer with the court and shall constitute the pleading of such claimant to exemption, subject to the power of the court to permit an amendment in the interests of justice and it shall be deemed controverted by the affidavit of the plaintiff or the person in whose favor the writ runs. Nothing herein contained shall be construed to deprive anybody of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as is the trial of an action. No findings shall be required in a proceeding under this section. At the conclusion of the hearing the court shall give judgment determining whether the claim for exemption shall be allowed or not, which judgment shall be conclusive as to the right of the plaintiff or the person in whose favor the writ runs to have such property taken and held by the officer, or to subject the property to payment or other satisfaction of his judgment. In such judgment the court may make the proper orders for the disposition of such property or the proceeds thereof.

Jury trial

Appeal

An appeal lies from any judgment under this section; such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had.

The writ of attachment or execution shall continue in force pending the determination of the proceedings, except that the sale on execution shall be continued by the officer until final judgment shall have been entered in such proceeding. A copy of any judgment so entered shall be forthwith transmitted to the officer making the levy in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal be waived from the judgment of the court, may continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final, either before or after appeal.

Release where no counter-affidavit filed

In all cases where no counter-affidavit is filed by the plaintiff or person in whose favor the writ runs, after the five-day period has expired the property claimed to be exempt by the defendant shall be released to the defendant by the officer making the levy. When a verified claim for exemption is filed in accord with Section 690.11 the defendant shall be entitled to an immediate release of one-half of his earnings earned within 30 days, next preceding the date of levy or execution.

The people of the State of California do enact as follows:

SECTION 1. Section 86a is added to the Code of Civil Procedure, to read:

86a. All records, papers, and exhibits filed or kept in a municipal court in any civil action or special proceeding, except actions or proceedings in which a sale of real property under execution or foreclosure shall have been had, and except in all cases the register of actions and minutes, may, upon order of the presiding judge of such court, be destroyed by the clerk after the lapse of 15 years from the date on which judgment in such case became final, or in the event the same has not been prosecuted to judgment, after a like period from either the date of the commencement of the action or proceeding, or from the last extended date for trial established by stipulation of the parties pursuant to Section 583 of this code and filed in the action or proceeding.

CHAPTER 720

An act to add Section 207 to the Streets and Highways Code, relating to investment of moneys in the State Highway Fund, and declaring the urgency hereof, to take effect immediately.

[Approved by Governor June 8, 1945 Filed with Secretary of State
June 8, 1945]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. A new section is added to the Streets and Highways Code, to be numbered 207, and to read as follows:

207. Whenever it is determined by the California Highway Commission that any money in the State Highway Fund is not immediately required for State highway purposes, the commission may by resolution authorize the department to invest such excess money in bonds or interest bearing notes or obligations of the United States for which the faith and credit of the United States are pledged, for the payment of principal and interest. The department may, with the approval of the State Treasurer and of the Director of Finance, invest such excess funds in accordance with said resolution. All such bonds, notes or obligations purchased under the provisions of this section must be delivered to the State Treasurer, who shall keep them as a

portion of the State Highway Fund, and all interest thereon when collected shall be paid into and become a part of the State Highway Fund.

All investments under this section shall be liquidated as soon as the funds invested are required for State highway purposes.

Urgency

SEC. 2. This act is hereby declared an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The State treasury has a large surplus at the present time, and the longer the investment of the surplus is delayed the smaller will be the accrual to the State from such investment.

The United States is now engaged in a costly and deadly war and it is in need of funds to successfully prosecute the war. It is to the interest of the peace, health and safety of the State that its surplus funds be made immediately available to the United States for the prosecution of the war.

In effect

[Approved by Governor June 8, 1945. Filed with Secretary of State

The people of the State of California do enact as follows:

Repeal

SECTION 1. Sections 19810 and 19811 of the Health and Safety Code are repealed.

Stats 1945,
Ch 20

SEC. 2. Section 19810 is added to the Health and Safety Code, to read:

"Article"

19810. (a) "Article" as used in this chapter means and includes any article of wearing apparel, cloth, drapery or other fabric or material made from or containing any natural or synthetic fiber.

"Vendor"

(b) "Vendor" as used in this chapter means any individual, firm or corporation engaged in the manufacture or sale of articles as herein defined.

"Inflam-
mable
article"

(c) "Inflammable article" as used in this chapter is any article made from or containing natural or synthetic fiber and determined by the Fire Marshal to be so highly inflammable as to constitute a dangerous risk of fire and hazard of injury to persons and property, taking into consideration the use or uses for which the article is made and designed to serve.

Use of
inflammable
fibers

(d) It has recently come to notice that of the various natural or synthetic fibers adapted and adaptable for use in the making of articles, as herein defined, some are so inflammable as to constitute a dangerous risk of fire and hazard of injury to persons and property. Provision should be made for the avoidance of such risks and hazards by preventing the use of such highly inflammable fibers. It is not feasible by statute to prescribe more specific tests than those herein prescribed, for it would appear that none such have yet been fully developed. It is necessary, therefore, to commit to the State Fire Marshal the conduct of research in these matters, the development of tests for these materials, and the administration of the provisions of this chapter for the prevention of the risks and the avoidance of the hazards described.

Research
and tests

SEC. 3. Section 19811 is added to the Health and Safety Code, to read:

Fire
Marshal
Investiga-
tions

19811. The Fire Marshal of the State of California or any Deputy State Fire Marshal has right of access to the premises of any vendor during business hours for the purpose of deter-

mining whether inflammable articles are being manufactured or offered for sale therein and may take either an entire article or samples thereof in such quantities as may be necessary for analysis.

SEC. 4. Section 19812 is added to the Health and Safety Code, to read:

19812. Any article or samples taken under the provisions of Section 19811 hereof shall be subjected to tests by the Fire Marshal and determination made by him as to whether or not the article or samples are inflammable articles as defined in Section 19810. Tests of articles or samples

SEC. 5. Section 19813 is added to the Health and Safety Code, to read:

19813. The State Fire Marshal may make such rules and regulations relating to inflammable articles as defined in Section 19810 as may reasonably be necessary to effectuate the purposes of this act and prevent the risk of fire and avoid the hazards of injury to life and property in this chapter described. He shall mail copies of all rules and regulations and amendments thereto to all vendors and trade associations filing a written request for such notification with him. Rules and regulations

SEC. 6. Section 19814 is added to the Health and Safety Code, to read:

19814. Any inflammable article in the possession of any vendor in violation of the rules or regulations of the State Fire Marshal shall be subject to seizure by the State Fire Marshal or any Deputy State Fire Marshal. Any inflammable article seized under this section may be disposed of by the State Fire Marshal by summary destruction at any time subsequent to 30 days from such seizure or 10 days from the final termination of proceedings under the provision of Section 19815, whichever is the later. Seizure of inflammable articles

SEC. 7. Section 19815 is added to the Health and Safety Code, to read:

19815. Any vendor whose property is seized under the provisions of Section 19814 may within 10 days after such seizure petition the State Fire Marshal to return the property seized upon the ground that such property was illegally or erroneously seized. Any petition filed hereunder shall be considered by the State Fire Marshal within 60 days after filing and an oral hearing granted the petitioner if requested. Notice of the decision of the Fire Marshal shall be served upon the petitioner. The Fire Marshal may order the property seized under this act disposed of or returned to the petitioner if illegally or erroneously seized. The determination of the Fire Marshal is final unless within 60 days an action is commenced in a court of competent jurisdiction in the State of California for the recovery of the property seized by the Fire Marshal. Return of seized articles

SEC. 8. Section 19816 is added to the Health and Safety Code, to read:

Penalty

19816. Any vendor who knowingly and wilfully violates any rule or regulation of the Fire Marshal relating to inflammable articles shall be guilty of a misdemeanor.

Constitutionality

SEC. 9. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portions of this act, irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

Urgency

SEC. 10. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

It has been ascertained that a few types of articles are of a highly inflammable nature. Most California manufacturers and sellers of articles have not the facilities to determine whether such articles are highly inflammable, and the result of such uncertainty is that in some instances highly inflammable articles will remain where they are dangerous to life and property while in other instances manufacture or sale of useful and safe articles will be discontinued by California firms and may even be destroyed. It is necessary that the State Fire Marshal immediately be given the regulatory powers granted by this act in order that he may prescribe general and uniform regulations which will reduce the risk of fire and hazard of injury to persons and property and at the same time prevent serious and unnecessary economic injury to many California citizens.

CHAPTER 729

An act to add Sections 3473.1, 3473.2, and 3474.5 to, the Welfare and Institutions Code, relating to aid to partially self-supporting blind residents, and providing for procedures and actions in relation thereto.

June 8, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 3473.1 is added to the Welfare and Institutions Code, to read:

Court review:
Filing fee: 3473.1. No filing fee shall be required from an applicant for or recipient of aid under this chapter for the filing of a petition in the superior court for a review of the proceedings in his case.

Pleadings: Within ten (10) days after being served with notice of the filing of the petition, the State Department of Social Welfare shall cause to be filed with the clerk of the court the record of the proceedings in the case, and no further pleadings shall be required to bring the matter to issue.

Bond: No bond shall be required in the case of any petition for review, nor in any appeal therefrom.

Decision: If the decision of the court is in favor of the applicant for or recipient of aid, aid shall be paid from the first of the month following date of application therefor, and the applicant or recipient shall be entitled to reasonable attorney's fees and costs.

SEC. 2. Section 3473.2 is added to said code, to read:

Notice of decision: 3473.2. The board shall immediately notify the applicant in writing of its decision, and that he may, upon application to the board within 30 days, appear before the board at a time to be

fixed by the board, and show cause why the action of the board is not satisfactory. The hearing shall be held within 30 days from the time of application for hearing. Upon good cause shown, the board may reconsider its previous action, and take whatever action the board deems proper upon the application. The decision of the board confirming or reconsidering its previous action shall be rendered within 15 days after the hearing.

The right of hearing by the board of supervisors provided by this section is intended as an alternative to direct appeal to the State Social Welfare Board, and an applicant who has applied for hearing before the board of supervisors shall not appeal to the State Social Welfare Board until the decision of the board of supervisors has been rendered. After the decision of the board of supervisors has been rendered, the applicant may appeal therefrom to the State Social Welfare Board. An applicant who does not apply for hearing before the board of supervisors may appeal directly to the State Social Welfare Board as provided in Section 3086.

SEC. 3. Section 3474.5 is added to said code, to read:

3474.5. If any applicant or recipient is dissatisfied with the action of the board of supervisors, without the necessity of the filing of a claim with the board of supervisors, he shall, upon filing a petition with the State Department of Social Welfare, have the right of appeal and shall be accorded an opportunity for a fair hearing. The Social Welfare Department shall set such appeal for hearing before the State Social Welfare Board and shall give all parties concerned written notice of the time and place of such hearing. At such hearing the applicant or recipient may appear in person with counsel of his own choosing or in person and without such counsel.

The State Social Welfare Board shall consider the appeal, and shall dismiss the appeal or award aid as prescribed in this chapter. The county board of supervisors shall then pay to such blind person the sum awarded without such blind person establishing a present need, if any, by the State Social Welfare Board, the payments, if awarded, to commence from the date the applicant was first entitled thereto.

Payments of aid shall be commenced as of the first day of the month in which the application is granted, unless otherwise directed by the State Social Welfare Board in cases in which an appeal is taken; but in no event shall the aid commence prior to the date of application.

An applicant whose application for aid under this chapter has been rejected may not again apply for such aid until the expiration of one year from the date of the previous application, except with the consent of the county or an order of the State Department of Social Welfare, or until the condition because of which his application was rejected has been eliminated.

If the applicant or recipient feels himself aggrieved by any decision of the State Social Welfare Board, he may file with the superior court of the county in which he resides, a petition, pray-

ing for a review of the entire proceedings in the matter, upon questions of law involved in the case. Such review is a distinct and cumulative remedy. The State Social Welfare Board shall be the sole respondent in such proceedings.

1. Real property, standing upon the records of the county in the name of the defendant, must be attached, by filing with the recorder of the county a copy of the writ, together with a description of the property attached, and a notice that it is attached, and by serving an occupant of the property, if there is one upon the property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the property, then, by posting the same in a conspicuous place on the property attached. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence with any person of suitable age and discretion, found upon the property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff, constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to exceed five days. In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time

SECTION 1. Section 57.7 of the Unemployment Insurance Act is amended to read:

Benefit
rights of
trainees

Sec. 57.7. Notwithstanding any inconsistent provisions of this act the benefit rights of trainees shall be determined in accordance with the following provisions of this section for

the periods and with respect to the matters specified herein. Except as herein otherwise provided, all other provisions of this act shall continue to be applicable in connection with such benefits.

(1) The term "military service" as used in this section means active service in the land or naval forces of the United States, but the service of an individual in any reserve component of the land or naval forces of the United States who is ordered to active duty in any such force for a period of 30 days or less shall not be deemed to be active service in such force during such period.

"Military service"

(2) The term "trainee" as used in this section means an individual who entered military service after April 1, 1940, and who continued such service for not less than 90 consecutive days and whose military service was terminated on or before October 1, 1947.

"Trainee"

(3) (a) With respect to any trainee who has an unexpired benefit year at the time of induction into the armed forces, the unexpended balance of benefits remaining to his account shall be reestablished beginning with the first day of the first week succeeding the date of his termination of service. Whenever this balance is exhausted the trainee may file a claim and his base period shall be determined in accordance with the provisions of subsection (4) hereof, except that all reestablished balances shall lapse 65 weeks after termination of such military service.

Reestablishment of unexpended benefits after army service, etc

(b) The benefit year of all other trainees shall be 52 weeks from the first day of the first week following the date of termination of military service.

Benefit year

(4) With respect to the determination of the benefit rights of any trainee, the base period shall consist of the first four out of the last five completed calendar quarters, excluding those quarters during which the trainee was in military service 60 days or more. For all quarters so excluded there shall be substituted an equal number of quarters immediately preceding his entry into military service, except that the quarter of entry into military service shall be counted as a completed quarter if the commission finds that the inclusion thereof would be more equitable to the trainee.

Base period

(5) No disqualification shall be applied to any trainee after the termination of his military service, by reason of any act or course of action on his part prior to the date of his entry into such service.

Acts prior to military service

(6) If, under an act of Congress, payments with respect to the unemployment of individuals who have completed a period of military service are payable by the United States, a trainee shall be disqualified for benefits with respect to any week for which he receives such benefits and no benefits shall be paid under this section until he has exhausted all his rights to such payments from the United States.

Sec. 6. This act shall be known as the "Federal Surplus Property Acquisition Act of 1945."

Short title

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety and shall take effect immediately.

Urgency

The facts constituting such necessity are as follows :

The act cited in the title hereof took effect immediately as an urgency measure necessitated by the facts stated in Section 5 thereof, which statement of facts is incorporated herein by this reference. A doubt has been suggested as to the sufficiency of the word "municipalities," as used in the title of the act hereby amended, to indicate and include all of the several public or governmental agencies indicated in the title of this amendatory act. To resolve that doubt and to avoid any delay which might otherwise occur it is necessary that this amendatory act take effect immediately, but no inference is to be drawn herefrom that the word "municipalities" does not include within the scope of its meaning all of such agencies.

SEC. 4. Section 3714.2 is added to said code, to read :

Form of
estimates

3714.2. Estimates required in Section 3714.1 shall be submitted on forms prescribed by the State Controller, and may only be varied or departed from with the approval of said department; provided, however, that any county may, without disturbing the uniformity of the forms and data prescribed, add to the information required or show the same in more detail. The county auditor is hereby directed to provide such forms, and it is made his duty to provide the estimates for interest and debt redemption requirements for the county, for special districts and for school districts and any other estimates for the fiscal year for which the budget is intended to apply and for such further period as will elapse before sufficient proceeds of a new tax levy are available, the preparation of which properly falls within the duties of his office; provided, that in the absence, failure, or disability of any official, or person, required to furnish estimates required in this section or in Section 3714.1, such estimates shall be furnished by the official or employee in charge of such office, department, service, institution, or district, during such absence or disability, or such estimate may be prepared by the county auditor.

expenditures

3714.3. (1) From such estimates the county auditor shall prepare a tabulation showing the complete expenditure program of the county and special districts for the period to which the budget is intended to apply, and the sources of revenue by which it is to be financed. Such tabulation shall set forth the amount of estimated revenue, for the fiscal year to which the budget is intended to apply, from

Estimated

Contents of
tabulation

(2) The tabulation shall show the estimated available surplus, after allowing for outstanding orders, contracts, and other commitments, at the close of the current fiscal year, and the amount proposed to be raised by taxation in addition to the taxes mentioned in paragraph (1) of this section; the estimated expenditures for each office, department, service, institution, and district, for the period to which the budget is intended to apply, the actual expenditures for the last completed fiscal year, together with the sum of the actual expenditures that have accrued for the current fiscal year and an estimate of the total expenditures that will accrue for the current fiscal year in

SEC. 6. Section 3714.4 is added to said code, to read :

3714.4. Such estimates of expenditures shall be classified to set forth the data by funds, organization units, character and objects of expenditure; the organization units may be subclassified by functions and activities at the discretion of the board, but the expenditures shall be classified under the general classes of

Wages for day labor may be given in totals by designating the general purpose or object for which the expenditure is to be made.

Expenditures coming under the general classification of maintenance and operation shall be arranged to show the major subdivisions and objects for which such expenditures are to be made.

Expenditures coming under the general classification of capital outlay shall be arranged to show the major subdivisions and objects for which such expenditures are to be made, except that expenditures for structural or nonstructural improvements shall be listed separately as to each project.

Under the general class of interest and debt redemption shall be set forth separately each series or issue of bonds together with its individual requirements for interest and redemption.

The total amount of emergency appropriations made during the last completed fiscal year shall be set forth separately together with a statement showing the amount issued for each emergency; a list of appropriations canceled showing the amount of each and a list showing each appropriation made from the unappropriated reserve and the amount thereof shall be included.

Said county board of supervisors shall, upon receipt thereof, consider the same in detail and shall, on or before the tenth day of August of each year, at such time as the county board of supervisors may direct, make, except as otherwise provided in this chapter, any revisions, reductions, or additions therein that it may deem advisable, setting forth thereon such changes as have been made to make said budget conform to the judgment and conclusion of the county board of supervisors as to a proper financial program for the county for the period to which the budget is intended to apply; provided, however, that the estimate submitted by any official or person, as designated in this chapter, shall not be increased or reduced until such official or person shall have first had a hearing thereon before said board.

Unappropriated
reserve

3714.7. The county board of supervisors may, if it deems it advisable, set aside a portion of each fund, to be known as unappropriated reserve, which shall not exceed 10 per cent of the total amount of the appropriations from said fund, exclusive of the amount of such reserve and general reserve; provided, however, that if no salary fund unappropriated reserve is established the general fund unappropriated reserve may exceed 10 per cent of the total appropriations of such fund but not to exceed 10 per cent of the appropriations of the general fund and salary fund; said unappropriated reserve shall be in addition to any and all other items contained in the budget; in lieu thereof a general unappropriated reserve may be established which shall not exceed 10 per cent of the total appropriations contained in the budget exclusive of all items for bond interest and redemption and exclusive of the amount of such reserve and general reserve.

Appropriation of unappropriated
reserve

The money in such unappropriated reserves, including accretions thereto from cancellations as hereinafter in this chapter provided, together with money received from subventions, grants, gifts or donations which is not specifically set forth in the budget, shall be available for appropriation by a four-fifths vote of the members of the county board of supervisors at any meeting of which all members shall have had reasonable notice, to cover expenditures that have not been provided for or not sufficiently provided for or for unforeseen requirements as they may arise.

SEC. 10. Section 3714.8 is added to said code, to read:

General
reserve

3714.8. Said budget may contain an amount or amounts to be known as a general reserve, or general reserves if carried in separate funds, in such sum or sums as the county board of supervisors shall deem sufficient, for the next succeeding fiscal year, to meet the cash requirements of any funds to which the county's credit may be legally extended for that portion of said next succeeding fiscal year until adequate proceeds of a new tax levy are available and to meet emergencies as hereinafter provided. The county board of supervisors may, if it deems it advisable, provide for the cancellation of such general

reserve or reserves at the end of each fiscal year and for the reestablishment of such reserve or reserves in each annual budget or may carry it forward as encumbered surplus and may add to it if deemed advisable. Funds provided through the medium of such general reserve or reserves shall be available for appropriation to cover expenditures made necessary upon the happening of any emergency as defined, and in the manner provided, in Section 3714.19.

SEC. 11. Section 3714.9 is added to said code, to read:

3714.9. The budget may include appropriations for proposed expenditures which are contingent upon the receipt of money from sources other than local taxation, which money shall be identified in the budget, but expenditures shall not be made from such appropriations in excess of such money actually received from such sources. Contingent expenditures

The board of supervisors shall provide for the cancellation of any such reserve or reserves at the end of each fiscal year and the reestablishment thereof in each annual budget as specific appropriations and/or reserves or may carry it forward as encumbered surplus, adding to it if necessary or desirable. Reserves for accumulative funds

SEC. 13. Section 3714.11 is added to said code, to read:

3714.11. Said tabulation provided for in Section 3714.3, with such revisions, additions, and changes as have been made therein as provided in this chapter, shall constitute the preliminary county budget for the period to which it is intended to apply. Preliminary county budget

On or before the tenth day of August in each year, at such time as the county board of supervisors may direct, said preliminary budget, in which shall be set forth the revised individual estimates and the tabulation thereof, shall be printed or otherwise reproduced in full in pamphlet form; such tabulation shall be in such form and there shall also be shown such fiscal information, as the State Controller may prescribe to provide for uniform reports as between various counties; provided, however, that any county may, without disturbing the uniformity of data presented, add to the information required or show the same in more detail. A sufficient number of such budget pamphlets shall be provided so that each taxpayer so desiring may obtain one. A copy thereof shall immediately be forwarded to the State Controller by the auditor, in accordance with the approved forms. On or before said date, the county board of supervisors shall publish a notice once in a newspaper of general circulation throughout the county, stating that the preliminary budget pamphlets are available to taxpayers requesting them; that on a date, stated in the notice, not less Pamphlets of preliminary budget
Notice of budget hearing

than 10 days after the date when the budget pamphlets are available, and at a time and place also stated in the notice, the county board of supervisors will meet for the purpose of fixing the final budget and that any taxpayer may appear thereat and be heard regarding the increase, decrease, or omission of any item of said budget, or for the inclusion of additional items therein.

SEC. 14. Section 3714.12 is added to said code, to read:

Auditor
Duties

3714.12. It shall be the duty of the county auditor or a deputy designated by him to attend the board's hearings on the matter contained in his tabulation and the preliminary budget, and to furnish said county board of supervisors with any additional data or information it may require.

SEC. 15. Section 3714.13 is added to said code, to read:

Hearing on
budget

3714.13. On or before the twentieth day of August of each year, at such time as the county board of supervisors may direct, said board shall meet at the time and place designated in the notice provided in Section 3714.11, at which time and place any taxpayer may appear and be heard regarding the increase, decrease or omission of any item of such budget, or for the inclusion of additional items therein. Such hearing shall be continued from day to day until concluded, but not to exceed a total of 10 days; provided, however, that such hearing shall be concluded before the expiration of 10 days if there are no requests or applications on file with the board for further hearing. The county board of supervisors shall have power to call in the official or person in charge of any office, department, service, institution, or district other than school districts, at the time the estimates for their respective offices are under consideration, for examination concerning such estimates, and such official or person shall be called by said county board of supervisors upon the request of any taxpayer for questioning upon such estimates.

Hearing on
streets and
roads

The board of supervisors shall upon request set aside at least one day of the period within which a hearing on the budget may be had at which any authorized officer of any city within the county may appear and be heard on matters pertaining to the financing of streets, roads and highways both within and without the incorporated areas of the county, provided such a hearing is requested on or before the first day of the budget hearings.

SEC. 16. Section 3714.14 is added to said code, to read:

Adoption
of budget

3714.14. After the conclusion of such hearing and not later than the thirtieth day of August of each year at such time as the county board of supervisors may direct, said board, after making any revisions of, deductions from or increases or additions to said preliminary budget that it may deem advisable during or after the public hearing thereon, shall by resolution adopt the budget as so finally determined, provided that no increases or additions shall be made unless such items were proposed in writing and filed with the board

of supervisors before the close of the budget hearings. The resolution shall specify Contents of
resolution

- (1) Appropriations
 - (a) By general classes for
 - (I) Salaries and wages,
 - (II) Maintenance and operation,
 - (III) Capital outlay, equipment,
 - (IV) Interest and debt redemption;
 - (b) By items, for capital outlay, structural and non-structural improvements;
- (2) Reserves, by funds and purposes;
- (3) The means of financing the expenditure program.

The several amounts of proposed expenditures specified in the resolution as finally adopted shall be and become appropriated for the several offices, departments, services, institutions and districts, for the period to which the budget is intended to apply; provided, however, that, if the appropriations and reserves as adopted for any fund or special district require a tax levy greater than the legal limit as determined by the equalized valuations as shown on the assessment roll, such appropriations or reserves or both shall be decreased so as to come within the legal requirements and these revised amounts shall be the amounts deemed to be appropriated for such purposes for such period. Nothing in this chapter shall be construed as removing or in any way affecting any tax limit fixed by law. A copy of the completed budget shall be filed in the office of the county board of supervisors. Appropriations

Sec. 17. Section 3714.15 is added to said code, to read :

3714.15. On or before the first day of September, the county board of supervisors shall fix the rates of county and district taxes, other than the taxes mentioned in paragraph (1) of Section 3714.3, designating the number of cents levied for each fund on each one hundred dollars (\$100) of taxable value in the county for the current fiscal year and shall levy the State, county, and district taxes. The rate shall be such as will produce after due allowance for delinquency as fixed by law or as fixed by the board of supervisors at the same time and in same manner as tax rates are fixed the amount found by deducting, from the total of appropriations and reserves established as provided in Section 3714.14: Fixing tax
rates

(a) The amount of estimated revenue from other sources, mentioned in paragraph (1) of Section 3714.3;

(b) Available surplus. Such revenue and surplus may be reestimated at the time of making the tax levies and may be either increased or decreased and the amounts so determined by the board of supervisors shall be conclusive and final.

All taxes shall be levied, upon the taxable property in the county, as provided by law, in specific sums. The tax for county and local purposes shall not exceed the amount specified in the budget, after allowing for delinquency as fixed by law or as fixed by the board of supervisors the amount of which shall be estimated in the budget and may be increased or Levy of taxes

decreased at the time of fixing the tax rates; provided, however, that when in the determination of any tax rate, a fraction of a cent occurs, the county board of supervisors, in its discretion, may adopt a rate ending in the next higher cent, or it may so adjust certain fractional rates that the total thereof, to be used in the computation of the total of a group of taxes for entry on the roll, will end in a full cent; an excess over the amount specified in the budget, arising from the use of such full cent tax rates, shall not be deemed a violation of the preceding provision. Any cash collections resulting from such excess or from an excess resulting from any other cause shall not invalidate the levies but shall be applied in the next succeeding budget year as available surplus unless its expenditure is otherwise authorized by law.

Any resolution fixing tax rates shall be sufficient if it specifies after the name of each entity or fund the amount of the corresponding rate. Such entity or fund may be designated in any manner sufficient to identify it. Each such rate shall be deemed to be upon each one hundred dollars (\$100) of assessed valuation of property and only such property which is legally subject to such tax. The current rates for property not sufficiently secured as provided in Article 13, Section 9a of the California Constitution shall be deemed levied in the amounts as therein provided and need not be formally levied by the board of supervisors.

SEC. 18. Section 3714.16 is added to said code, to read:

Copies to
State
Controller

3714.16. The auditor shall immediately forward a copy of the completed budget and tax levies to the State Controller in accordance with the form approved by the State Controller.

SEC. 19. Section 3714.17 is added to said code, to read:

Transfers
and revisions

3714.17. Transfers or revisions may be made within any of the three general classes, salaries and wages, maintenance and operation, and capital outlay, by a resolution formally adopted by the county board of supervisors at a regular or special meeting and entered in its minutes. In the case of road and bridge maintenance appropriations, any lawful transfer deemed necessary may be made; and it is further provided that the county board of supervisors may, by a four-fifths vote of the members, at any meeting of which all members have had reasonable notice, cancel any appropriation in whole or in part that is not needed and return the amount canceled to the undistributed reserve (which if not previously created is thereby established) of the fund from which such appropriation was originally made.

SEC. 20. Section 3714.18 is added to said code, to read:

Budget ap-
propriations

3714.18. The people of the State of California do enact as follows:

SECTION 1. Section 4a is added to the State Employees' Retirement Act, to read: New section

Sec. 4a. When any person who is an employee of the State within the meaning of Section 4 is assigned to the performance of work for which his compensation is paid, pursuant to a stat- Inclusion of State employee paid other than by State

This section shall apply to service rendered prior to its effective date by any member who, within 90 days after said effective date, notifies the Retirement Board that he elects to be credited with service so rendered, and who makes contributions in respect to all such service not constituting prior service as provided in Section 67. SEC. 2. Section 67 of said act is amended to read:

Sec. 67. The Board of Administration shall certify to the head of each office or department of the State and to the comptroller of the university the normal rate of contribution as provided in this act for each member in such office, department, or the university respectively. The head of each office or department of the State shall apply such rate of contribution to so much of the compensation of each member as does not exceed four hundred sixteen dollars and sixty-six cents (\$416 66) per month and shall certify to the State Controller on each and every pay roll the amount to be contributed and shall furnish immediately to the Board of Administration a copy of each and every such pay roll; and each such amount shall be deducted by the head of each office or department and shall be remitted to the board.

Contribu-
tions of
members

than by
State

When a member employed by the State is assigned to service for which he is compensated from funds not directly controlled by the State, he shall contribute to the Retirement Fund at the rate certified by the Board of Administration, applied to the compensation earnable by him immediately preceding such assignment. The head of each State office or department in which a member assigned to such service is employed shall notify the member of his individual rate of contribution and the amount of the monthly contribution payable by him to the Retirement Fund, and shall furnish monthly to the Board of Administration a list of the employees so assigned during the preceding month, together with the rate of compensation earnable by each. Within 15 days of the receipt of compensation for such service in any month, the member rendering such service shall transmit his contribution in respect to such service to the office of the Retirement System in Sacramento. Any such contribution remaining unpaid for 30 days after the completion of the assignment of the member and his return to the State pay roll shall be deducted from his compensation for the

next succeeding month or months as the Board of Administration may provide by rule. Every member who has elected pursuant to Section 4a to be credited with service rendered prior to the effective date of Section 4a shall contribute to the Retirement Fund, at times and in a manner fixed by the Board of Administration, amounts equal to the contributions which he would have made to the fund during the time he was rendering so much of such service as does not constitute prior service if he had then been a member of the Retirement System, on the basis of his compensation earnable at the time he was assigned to service for which he was compensated from funds not directly controlled by the State. Time during which a member serves under such assignment shall be considered for the purpose of qualification for retirement and death benefits, but shall not be considered for calculation of retirement benefits unless the member has contributed as provided in this paragraph. When any such contributions have been made, the State shall thereupon contribute an amount equal to that which it would have contributed under Sections 108 and 109 of this act if the contributions had been deducted from compensation to the member from funds directly controlled by the State, and for the purposes of said sections the compensation paid to the member shall be deemed to have been paid from the support fund of the State department or office by which the member was employed during such service.

The comptroller of the university shall apply the rate of contribution certified to him by the board to so much of the compensation of each member employed by the university as does not exceed four hundred sixteen dollars and sixty-six cents (\$416.66) per month, and the contributions so determined shall be deducted by the comptroller of the university from the compensation of each such member; each such amount shall be remitted to the board and the comptroller of the university shall furnish to the board a copy of each and every salary roll and pay roll from which such amounts have been deducted.

Each contribution deducted and remitted or otherwise paid to the board shall be credited by the board, together with regular interest, to an individual account of the member for whom the contribution was made. Payment of salaries or wages less such contribution shall be full and complete discharge and acquittance of all claims and demands whatsoever for the service rendered by members during the period covered by such payment, except their claims to the benefits to which they may be entitled under the provisions of this act.

SEC. 3. Section 20307 is added to Article 1 of Chapter 3 of Part 3 of Division 5 of Title 2 of the Government Code, to read:

20307. When any person who is an employee of the State within the meaning of Section 20012 is assigned to the performance of work for which his compensation is paid, pursuant to statute or duly authorized contract entered into by the State or the State agency by which the person is employed, out of funds not directly controlled by the State, such person shall continue

This section shall apply to service rendered prior to its effective date by any member who, within 90 days after said effective date, notifies the Retirement Board that he elects to be credited with service so rendered, and who makes contributions in respect to all such service not constituting prior service as provided in Section 20681.5. 20681.5. When a member employed by the State is assigned to service for which he is compensated from funds not directly controlled by the State, he shall contribute to the Retirement Fund at the rate certified by the board, applied to the compensation earnable by him immediately preceding such assignment. The head of each State agency in which a member assigned to such service is employed shall notify the member of his individual rate of contribution and the amount of the monthly contribution payable by him to the Retirement Fund, and shall furnish monthly to the board a list of the employees so assigned during the preceding month, together with the rate of compensation earnable by each. Within 15 days of the receipt of compensation for such service in any month, the member rendering such service shall transmit his contribution in respect to such service to the office of this system in Sacramento. Any such contribution remaining unpaid for 30 days after the completion of the assignment of the member and his return to the State pay roll shall be deducted from his compensation for the next succeeding month or months as the board may provide by rule. Every member who has elected pursuant to Section 20307 to be credited with service rendered prior to the effective date of Section 20307 shall contribute to the Retirement Fund, at times and in a manner fixed by the board, amounts equal to the contributions which he would have made to the fund during the time he was rendering so much of such service as does not constitute prior service if he had then been a member of this system, on the basis of his compensation earnable at the time he was assigned to service for which he was compensated from funds not directly controlled by the State. Time during which a member serves under such assignment shall be considered for the purpose of qualification for retirement and death benefits, but shall not be considered for calculation of retirement benefits unless the member has contributed as provided in this section. When any such contributions have been made, the State shall thereupon contribute an amount equal to that which it would have contributed under Chapter 6 of this part if the contributions had been deducted from compensation to the member from funds directly

controlled by the State, and for the purposes of Chapter 6 the compensation paid to the member shall be deemed to have been paid from the support fund of the State agency by which the member was employed during such service.

SEC. 5. Section 20684 of the Government Code is amended to read :

20684. Each member's contribution deducted and remitted or otherwise paid to the board shall be credited by the board, together with regular interest, to an individual account of the member for whom the contribution was made. Payment of salaries or wages less such contribution is in full discharge of all claims and demands whatsoever for the service rendered by the members during the period covered by such payment, except the benefits afforded by this part.

SEC. 3. Section 6 of the Corporation Income Tax Act is hereby amended to read as follows: Stats 1913,
p 1347

Sec. 6. (a) "Gross income" includes gains, profits, and income derived from salaries, wages, or compensation for personal service, of whatever kind and in whatever form paid, or from professions, vocations, trades, businesses, commerce, or sales, or dealings in property, whether real or personal, growing out of the ownership or use of or interest in such property; also from interest, rent, dividends, securities, or the transaction of any business carried on for gain or profit, or gains or profits and income derived from any source whatever, including interest which now or hereafter constitutionally may be taxed Gross
income

(b) The following items shall not be included in gross income and shall be exempt from taxation under this act: Exclusions

(1) Amounts received under life insurance policies and contracts paid by reason of the death of the insured, but if such amounts are held by the insurer under an agreement to pay interest thereon, the interest payments shall be included in gross income.

(2) Amounts received (other than amounts paid by reason of the death of the insured) under life insurance, endowment or annuity contracts, either during the term or at maturity or upon surrender of the contract, equal to the total amount of premiums paid thereon. In the case of a transfer for a valuable consideration by assignment or otherwise, of a life insurance, endowment or annuity contract or any interest therein, only the actual value of such consideration and the amount of the premiums and other sums subsequently paid by the transferee shall be excluded from gross income under paragraph (1) of this subsection. The preceding sentence shall not apply in the case of such a transfer if such contract or interest therein has a basis for determining gain or loss in the hands of a transferee determined in whole or in part by reference to such basis of such contract or interest therein in the hands of the transferor.

(3) Income which this State is prohibited from taxing under the Constitution or laws of the United States of America or under the Constitution of this State.

(4) Income, other than rent, derived by a lessor of real property upon the termination of a lease, representing the value of such property attributable to buildings erected or other improvements made by the lessee.

(5) Income attributable to the recovery during the taxable year of a bad debt, prior tax, or delinquency amount, to the extent of the amount of the recovery exclusion with respect to such debt, tax, or amount. For the purposes of this paragraph:

(A) The term "bad debt" means a debt on account of worthlessness or partial worthlessness of which a deduction was allowed for a prior taxable year.

(B) The term "prior tax" means a tax on account of which a deduction or credit was allowed for a prior taxable year.

(C) The term "delinquency amount" means an amount paid or accrued on account of which a deduction or credit was allowed for a prior taxable year and which is attributable to failure to file return with respect to a tax, or pay a tax, within the time required by the law under which the tax is imposed, or to failure to file return with respect to a tax or pay a tax.

(D) The term "recovery exclusion," with respect to a bad debt, prior tax, or delinquency amount, means the amount, determined in accordance with regulations prescribed by the commissioner of the deductions or credits allowed, on account of such bad debt, prior tax, or delinquency amount, which did not result in a reduction of the taxpayer's tax under this act or the Bank and Corporation Franchise Tax Act, reduced by the amount excludible in previous taxable years with respect to such debt, tax, or amount under this paragraph.

Stats 1929,
p 19

(6) The amount of any income of a corporation attributable to the discharge, within the taxable year, of any indebtedness of the taxpayer (or for which a corporation is liable) evidenced by a security (as hereinafter in this paragraph defined) if a corporation makes and files at the time of filing the return, in such manner as the commissioner by regulations prescribes, its consent to the regulations prescribed under Section 12 (b) (3). In such case the amount of any income of a corporation attributable to any unamortized premium (computed as of the first day of the taxable year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the taxable year in which such discharge occurred) with respect to such indebtedness shall not be allowed as a deduction. As used in this paragraph the term "security" means any bond, debenture, note, or certificate, or other evidence of indebtedness, issued by any corporation.

(7) The amount of any income attributable to the discharge, within the taxable year, of any indebtedness of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, to the extent that such income is deemed to have been realized by reason of a modification in or cancellation in whole or in part of such indebtedness pursuant to an order of a court in a receivership proceeding or in a proceeding under Section 77 of the National Bankruptcy Act, as amended. In such case the amount of any income of the corporation attributable to any unamortized premium (computed as of the first day of the taxable year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the taxable year in which such discharge occurred) with respect to

such indebtedness shall not be allowed as a deduction. Subsection 6 (b) (6) shall not apply with respect to any discharge of indebtedness to which this paragraph applies.

(c) (1) The term "dividend" when used in this act means Dividends any distribution made by a corporation to its shareholders, whether in money or in other property, out of its earnings or profits accumulated after February 28, 1913, or out of the earnings or profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distributions made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made.

(2) For the purposes of this act every distribution is made out of earnings or profits to the extent thereof, and from the most recently accumulated earnings or profits. Any earnings or profits accumulated, or increase in value of property accrued, before March 1, 1913, may be distributed exempt from tax, after the earnings and profits accumulated after February 28, 1913, have been distributed, but any such tax-free distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 12.

(3) Amounts distributed in complete liquidation of a corporation shall be treated as in full payment in exchange for the stock and amounts distributed in partial liquidation of a corporation shall be treated as in part or full payment in exchange for the stock. The gain or loss to the distributee resulting from such exchange shall be determined under Section 10. In the case of amounts distributed (whether before or after the effective date of this amendment) in partial liquidation (other than a distribution within the provisions of subdivision (7) of this subsection of stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits. In the case of amounts distributed (whether before January 1, 1934, or on or after such date) in partial liquidation (other than a distribution within the provisions of subdivision (7) of this subsection or stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits within the meaning of subdivision (2) of this subsection for the purpose of determining the taxability of subsequent distributions by the corporation.

(4) If any distribution (not in partial or complete liquidation) made by a corporation to its shareholders is not out of increase in value of property accrued before March 1, 1913, and is not a dividend, then the amount of such distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 12, and if in excess of such basis, such excess shall be taxable in the same manner as a gain from the sale or exchange of property.

(5) (A) A distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock shall be treated as a dividend to the extent that it constitutes income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States.

(B) Whenever a distribution by a corporation is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either (i) in its stock or in rights to acquire its stock, of a class which if distributed without election would be exempt from tax under paragraph (A), or (ii) in money or any other property (including its stock or rights to acquire its stock, of a class which if distributed without election would not be exempt from tax under paragraph (A)), then the distribution shall constitute a taxable dividend in the hands of all shareholders, regardless of the medium in which paid.

(6) If a corporation cancels or redeems its stock (whether or not such stock was issued as a stock dividend) at such time and in such manner as to make the distribution and cancellation or redemption in whole or in part essentially equivalent to the distribution of a taxable dividend, the amount so distributed in redemption or cancellation of the stock, to the extent that it represents a distribution of earnings or profits accumulated after February 28, 1913, shall be treated as a taxable dividend.

(7) The distribution heretofore or hereafter made to a distributee by or on behalf of a corporation of its stock or securities or stock or securities in another corporation shall not be considered a distribution of earnings or profits of any corporation:

(A) If no gain to such distributee from the receipts of such stock or securities was recognized under the provisions of the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution, or

(B) If the distribution was not subject to tax in the hands of such distributee under the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution because it did not constitute income to him within the meaning of the Sixteenth Amendment to the Constitution of the United States or because exempted to him under Section 115 (f) of the Federal Revenue Act of 1934, or a corresponding provision of a prior Federal revenue act.

As used in this subsection, the term "stock or securities" includes rights to acquire stock or securities.

(8) As used in this subsection the term "amount distributed in partial liquidation" means a distribution by a corporation in complete cancellation or redemption of a part of its stock, or one of a series of distributions in complete cancellation or redemption of all or a portion of its stock.

(9) If the whole or any part of a dividend is paid to a shareholder in any medium other than money the property received other than money shall be included in gross income at its fair

market value at the time as of which it becomes income to the shareholder.

(10) The gain or loss realized from the sale or other disposition (after February 28, 1913) of property by a corporation for the purpose of the computation of earnings and profits of the corporation for any period beginning after February 28, 1913, shall be determined by using as the adjusted basis the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain. Gain or loss so realized shall increase or decrease the earnings and profits to, but not beyond, the extent to which such a realized gain or loss was recognized in computing net income under the law applicable to the year in which such sale or disposition was made. Where in determining the adjusted basis used in computing such realized gain or loss the adjustment to the basis differs from the adjustment proper for the purpose of determining earnings or profits, then the latter adjustment shall be used in determining the increase or decrease above provided. For the purposes of this subsection, a loss with respect to which a deduction is disallowed under Section 7(d) of this act or Section 8(d) of the Bank and Corporation Franchise Tax Act shall not be deemed to be recognized.

Where a corporation receives (after February 28, 1913) a distribution from a second corporation which (under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second corporation, the amount of such distribution shall not increase the earnings and profits of the first corporation in the following cases:

(A) No such increase shall be made in respect of the part of such distribution which (under such law) is directly applied in reduction of the basis of the stock in respect of which the distribution was made.

(B) No such increase shall be made if (under such law) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received.

For the purposes of this subdivision, the words "law applicable to the year" shall be deemed to refer to this act or, prior to January 1, 1937, the United States Revenue Act in force for the year in which the distribution, sale or other disposition was made.

(11) (A) If any increase or decrease in the earnings or profits for any period beginning after February 28, 1913, with respect to any matter would be different had the adjusted basis of the property involved been determined without regard to its March 1, 1913, value, then, except as provided in paragraph (B), an increase (properly reflecting such difference) shall be made in that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913

(B) If the application of subdivision (10) to a sale or other disposition after February 28, 1913, results in a loss which is

to be applied in decrease of earnings and profits for any period beginning after February 28, 1913, then, notwithstanding subdivision (10) and in lieu of the rule provided in paragraph (A) of this subdivision, the amount of such loss so to be applied shall be reduced by the amount, if any, by which the adjusted basis of the property used in determining the loss, exceeds the adjusted basis computed without regard to the value of the property on March 1, 1913, and if such amount so applied in reduction of the decrease exceeds such loss, the excess over such loss shall increase that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

Canceled
debts

(d) (1) If the indebtedness of a corporation is canceled or forgiven in whole or in part without payment, the amount so canceled or forgiven shall constitute income to the extent the value of the property (including franchises) of the corporation exceeds its liabilities immediately after the cancellation or forgiveness. The remainder of the amount of indebtedness so canceled or forgiven, if any, shall be applied in reduction of the basis of the assets to the extent the basis thereof exceeds the value thereof immediately after the cancellation or forgiveness, such reduction to be made in accordance with regulations prescribed by the commissioner.

If an indebtedness is not paid by the time an action to enforce payment is barred by limitation, the indebtedness shall be considered canceled or forgiven within the meaning of this subsection unless it can be established that the period of limitation has been extended by a new promise in writing.

(2) If a stockholder of a corporation cancels any indebtedness owing to the stockholder by the corporation, such cancellation shall not constitute income to the corporation except to the extent that the corporation received a tax benefit, under this act, from such indebtedness.

SEC. 4. Section 7 of the Corporation Income Tax Act is hereby amended to read as follows:

Deductions
from gross
income
Expenses

Sec. 7. In computing "net income" the following deductions shall be allowed:

(a) (1) All the ordinary and necessary expenses paid or incurred during the taxable year in carrying on business, including a reasonable allowance for salaries or other compensation for personal services actually rendered, and rentals or other payments required to be made as a condition to the continued use or possession for business purposes of property to which the taxpayer has not taken or is not taking title or in which it has no equity.

(2) No deduction shall be allowable under paragraph (1) and (3) to a corporation for any contribution or gift which would be allowable as a deduction under subsection (1) were it not for the 5 per centum limitation therein contained and for the requirement therein that payment must be made within the taxable year.

(3) All the ordinary and necessary expenses paid or incurred during the taxable year for the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income shall be allowed.

(b) Interest paid or accrued during the taxable year on indebtedness of the taxpayer to the extent that such interest exceeds the corporation's income from interest and dividends (other than dividends deductible under the provisions of subdivision (h) of this section and other than dividends from corporations, 50 per centum or more of the outstanding stock of which is owned by the taxpayer) which is exempt from the tax imposed by this act; or to the extent of interest and dividends included in the measure of the tax imposed by this act, whichever is the greater.

(c) (1) Taxes or licenses paid or accrued during the taxable year, other than taxes paid to the State under this act, and other than taxes on or according to or measured by income or profits paid or accrued within the taxable year imposed by the authority of (a) the Government of the United States or any foreign country, (b) any State, Territory, county, city and county, school district, municipality, or other taxing subdivision of any State or Territory, and other than taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this shall not exclude the allowance as a deduction of so much of said taxes assessed against local benefits as is properly allocable to maintenance or interest charges.

(2) In the case of a tax imposed by any State, Territory, district, or possession of the United States, or any political subdivision thereof, upon persons engaged in selling tangible personal property at retail, which is measured by the gross sales price or the gross receipts from the sale or which is a stated sum per unit of such property sold, or upon persons engaged in furnishing services at retail, which is measured by the gross receipts for furnishing such services, if the amount of such tax is separately stated, then to the extent that the amount so stated is paid by the purchaser (otherwise than in connection with the purchaser's trade or business) to such person such amount shall be allowed as a deduction in computing the net income of such purchaser as if such amount constituted a tax imposed upon and paid by such purchaser.

(d) Losses sustained during the taxable year and not compensated for by insurance or otherwise, except that such losses may, with the consent of the commissioner, be accounted for as of a different period. In the case of any loss claimed to have been sustained in any sale or other disposition of shares of stock or securities where it appears that within 30 days before or after the date of such sale or other disposition, the taxpayer has acquired (otherwise than by bequest or inheritance) or has entered into a contract or option to acquire substantially identical property and the property so acquired is held by the taxpayer for any period after such sale or other disposition, no

deduction for the loss shall be allowed unless the claim is made by a taxpayer, a dealer in stocks or securities, and with respect to a transaction made in the ordinary course of its business. If such acquisition or the contract or option to acquire is to the extent of part only of substantially identical property, then only a proportionate part of the loss shall be disallowed. Upon the subsequent sale or disposition of shares of stock or securities, in respect of which a loss has been disallowed, the basis for measuring gain or loss in the case of the property so acquired shall be the basis in the case of the stock or securities so sold or disposed of, except that if the repurchase price was in excess of the sale price such basis shall be increased in the amount of the difference, or if the repurchase price was less than the sale price such basis shall be decreased in the amount of the difference.

Worthless
debts

(e) Debts which become worthless within the taxable year, or, in the discretion of the commissioner, a reasonable addition to a reserve for bad debts. When satisfied that a debt is recoverable in part only the commissioner may allow such debt as a deduction in an amount not in excess of the part charged off within the taxable year as a deduction; provided, however, that if a debt was actually worthless prior to January 1, 1943, but was not ascertained to be worthless and charged off prior to said date, a deduction may be taken therefor during the first taxable year ending after December 31, 1942; and, provided, that if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt which in any prior year was charged off, regardless of whether claimed as a deduction in such prior year.

Obsoles-
cence, etc.,
of property

(f) A reasonable allowance for exhaustion, wear and tear and obsolescence of property used in the trade or business, or of property held for the production of income. The basis on which such allowance is to be computed in respect of any property is the adjusted basis provided in Section 12(b) for the purpose of determining the gain upon the sale or other disposition of such property. A taxpayer may elect to claim a deduction for amortization of emergency facilities (as defined by Section 124 of the Internal Revenue Code as amended) under regulations prescribed by the commissioner.

Depletion

(g) (1) In the case of mines, oil and gas wells, other natural deposits and timber, a reasonable allowance for depletion and for depreciation of improvements, according to the peculiar conditions in each case, such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the commissioner. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases

the deductions shall be equitably apportioned between the lessor and the lessee.

(2) (A) The basis upon which depletion is to be allowed in respect of any property shall be the adjusted basis provided in Section 12(b) for the purpose of determining the gain upon the sale or other disposition of such property, except as provided in paragraphs (B), (C) and (D) of this subsection. Basis for depletion allowance

(B) In the case of mines (other than metal, coal, fluorspar, flake graphite, vermiculite, beryl, feldspar, mica, talc, lepidolite, spodumene, barite, potash, ball and sagger clay, rock asphalt or sulphur mines) discovered by the taxpayer after February 28, 1913, the basis for depletion shall be the fair market value of the property at the date of discovery or within 30 days thereafter, if such mines were not acquired as the result of purchase of a proven tract or lease, and if the fair market value of the property is materially disproportionate to the cost. The depletion allowance under subdivision (1) of this subsection based on discovery value provided in this paragraph shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property upon which the discovery was made, except that in no case shall the depletion allowance under subdivision (1) of this subsection be less than it would be if computed without reference to discovery value. Discoveries shall include minerals in commercial quantities contained within a vein or deposit discovered in an existing mine or mining tract by the taxpayer after February 28, 1913, if the vein or deposit thus discovered was not merely the uninterrupted extension of a continuing commercial vein or deposit already known to exist, and if the discovered minerals are of sufficient value and quantity that they could be separately mined and marketed at a profit. Mines

(C) In the case of oil and gas wells the allowance for depletion under subdivision (1) of this subsection shall be 27½ per centum of the gross income from the property during the taxable year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance under subdivision (1) of this subsection be less than it would be if computed without reference to this paragraph. Oil and gas wells

(D) (1) The allowance for depletion under subdivision (1) of this subsection shall be, in the case of coal mines, 5 per centum, in the case of metal mines, fluorspar, flake graphite, vermiculite, beryl, feldspar, mica, talc, lepidolite, spodumene, barite, ball and sagger clay or rock asphalt mines, and potash mines or deposits 15 per centum, and, in the case of sulphur mines or deposits, 23 per centum, of the gross income from the property during the taxable year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not Coal mines, etc

exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance under subsection (1) of this section be less than it would be if computed without reference to this paragraph.

(2) As used in (D) (1) hereof, the term "gross income from the property" means the gross income from mining. The term "mining," as used herein, shall be considered to include not merely the extraction of the ores or minerals from the ground but also the ordinary treatment processes normally applied by mine owners or operators in order to obtain the commercially marketable mineral product or products. The term "ordinary treatment processes," as used herein, shall include the following: (i) In the case of coal—cleaning, breaking, sizing, and loading for shipment; (ii) in the case of sulphur—pumping to vats, cooling, breaking, and loading for shipment; (iii) in the case of iron ore, bauxite, ball and sagger clay, rock asphalt, and minerals which are customarily sold in the form of a crude mineral product—sorting, concentrating, and sintering to bring to shipping grade and form, and loading for shipment; and (iv) in the case of lead, zinc, copper, gold, silver, or fluorspar ores, potash, and ores which are not customarily sold in the form of the crude mineral product—crushing, grinding, and beneficiation by concentration (gravity, flotation, amalgamation, electrostatic, or magnetic), cyanidation, leaching, crystallization, precipitation (but not including as an ordinary treatment process electrolytic deposition, roasting, thermal or electric smelting, or refining), or by substantially equivalent processes or combination of processes used in the separation or extraction of the product or products from the ore, including the furnacing of quicksilver ores.

the purpose of purchasing, or producing, supplies and equipment for the use of members or other persons, and turning over such supplies and equipment to them at actual cost, plus necessary expenses, all income resulting from or arising out of such business activities for or with their members carried on by them or their agents; or when done on a nonprofit basis for or with nonmembers.

(2) A corporation, trust, or community chest, fund, or foundation, created or organized in the United States or in any possession thereof or under the law of the United States, or of any State or Territory, or of the District of Columbia, or of any possession of the United States, organized and operated exclusively for religious, charitable, scientific, veteran rehabilitation service, literary, or educational purposes or for the prevention of cruelty to children (but in the case of contributions or gifts to a trust, chest, fund, or foundation, payment of which is made within a taxable year beginning after the date of the cessation of hostilities in the present war, as proclaimed by the President, only if such contributions or gifts are to be used within the United States or any of its possessions exclusively for such purposes), no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation; or

Such contributions or gifts shall be allowable as deductions

Contribu-
tions of
employer to
stock bond,
etc., plans.

(m) (1) If contributions are paid by an employer to or under a stock bonus, pension, profit-sharing, or annuity plan, or if compensation is paid or accrued on account of any employee under a plan deferring the receipt of such compensation, such contributions or compensation shall not be deductible under subsection (a) but shall be deductible, if deductible under subsection (a) without regard to this subsection, under this subsection but only to the following extent:

(A) In the taxable year when paid, if the contributions are paid into a pension trust, and if such taxable year ends within or with a taxable year of the trust for which the trust is exempt under Section 12 (f) of The Personal Income Tax Act, in an amount determined as follows:

Stats 1935,
p. 1090
See Sec.
18156,
R & T C.

(i) An amount not in excess of 5 per centum of the compensation otherwise paid or accrued during the taxable year to all the employees under the trust, but such amount may be reduced for future years if found by the commissioner upon periodical examinations at not less than five-year intervals to be more than the amount reasonably necessary to provide the remaining unfunded cost of past and current service credits of all employees under the plan, plus

(ii) Any excess over the amount allowable under clause (i) necessary to provide with respect to all of the employees under the trust the remaining unfunded cost of their past and current service credits distributed as a level amount, or a level percentage of compensation, over the remaining future service of each such employee, as determined under regulations prescribed by the commissioner, but if such remaining unfunded cost with respect to any three individuals is more than 50 per centum of such remaining unfunded cost, the amount of such unfunded cost attributable to such individuals shall be distributed over a period of at least five taxable years, or

(iii) In lieu of the amounts allowable under (i) and (ii) above, an amount equal to the normal cost of the plan, as determined under regulations prescribed by the commissioner, plus, if past service or other supplementary pension or annuity credits are provided by the plan, an amount not in excess of 10 per centum of the cost which would be required to completely fund or purchase such pension or annuity credits as of the date when they are included in the plan, as determined under regulations prescribed by the commissioner, except that in no case shall a deduction be allowed for any amount (other than the normal cost) paid in after such pension or annuity credits are completely funded or purchased.

(iv) Any amount paid in a taxable year in excess of the amount deductible in such year under the foregoing limitations shall be deductible in the succeeding taxable years in order of time to the extent of the difference between the amount paid and deductible in each such succeeding year and the maximum

amount deductible for such year in accordance with the foregoing limitations.

(B) In the taxable year when paid, in an amount determined in accordance with subparagraph (A) of this paragraph, if the contributions are paid toward the purchase of retirement annuities and such purchase is a part of a plan which meets the requirements of Section 12(f) of The Personal Income Tax Act, and if refunds of premiums, if any, are applied within the current taxable year or next succeeding taxable year toward the purchase of such retirement annuities.

(C) In the taxable year when paid, if the contributions are paid into a stock bonus or profit-sharing trust, and if such taxable year ends within or with a taxable year of the trust with respect to which the trust is exempt under Section 12(f) of The Personal Income Tax Act, in an amount not in excess of 15 per centum of the compensation otherwise paid or accrued during the taxable year to all employees under the stock bonus or profit-sharing plan. If in any taxable year beginning after December 31, 1942, there is paid into the trust, or a similar trust then in effect, amounts less than the amounts deductible under the preceding sentence, the excess, or if no amount is paid, the amounts deductible shall be carried forward and be deductible when paid in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any such succeeding taxable year shall not exceed 15 per centum of the compensation otherwise paid or accrued during such succeeding taxable year to the beneficiaries under the plan. In addition, any amount paid into the trust in a taxable year beginning after December 31, 1942, in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any one such succeeding taxable year together with the amount allowable under the first sentence of this subparagraph shall not exceed 15 per centum of the compensation otherwise paid or accrued during such taxable year to the beneficiaries under the plan. The term "stock bonus or profit-sharing trust," as used in this subparagraph, shall not include any trust designed to provide benefits upon retirement and covering a period of years, if under the plan the amounts to be contributed by the employer can be determined actuarially as provided in subparagraph (A). If the contributions are made to two or more stock bonus or profit-sharing trusts, such trusts shall be considered a single trust for the purposes of applying the limitations in this subparagraph.

(D) In the taxable year when paid, if the plan is not one included in paragraphs (A), (B), or (C), if the employees' rights to or derived from such employer's contribution or such compensation are nonforfeitable at the time the contribution or compensation is paid.

(E) For the purposes of subparagraphs (A), (B), and (C), a taxpayer on the accrual basis shall be deemed to have made a

payment on the last day of the year of accrual if the payment is on account of such taxable year and is made within 60 days after the close of the taxable year of accrual.

(F) If amounts are deductible under subparagraphs (A) and (C), or (B) and (C), or (A), (B), and (C), in connection with two or more trusts, or one or more trusts and an annuity plan, the total amount deductible in a taxable year under such trusts and plans shall not exceed 25 per centum of the compensation otherwise paid or accrued during the taxable year to the persons who are the beneficiaries of the trusts or plans. In addition, any amount paid into such trust or under such annuity plans in a taxable year beginning after December 31, 1942, in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any one such succeeding taxable year together with the amount allowable under the first sentence of this subparagraph shall not exceed 30 per centum of the compensation otherwise paid or accrued during such taxable years to the beneficiaries under the trusts or plans. This subparagraph shall not have the effect of reducing the amount otherwise deductible under subparagraphs (A), (B), and (C), if no employee is a beneficiary under more than one trust, or a trust and an annuity plan.

If there is no plan but a method of employer contributions or compensation has the effect of a stock bonus, pension, profit-sharing, or annuity plan, or similar plan deferring the receipt of compensation, this paragraph shall apply as if there were such a plan.

(2) Any deduction allowable under this act (as it read prior to the 1943 amendment) for a taxable year beginning before January 1, 1943, which was apportioned to any taxable year beginning after December 31, 1943, shall be allowed as a deduction for the years to which so apportioned to the extent allowable under this subsection as it then read if it had remained in force with respect to such year.

(3) In the case of a stock bonus, pension, profit-sharing or annuity plan in effect on or before September 1, 1943:

(A) Such a plan shall not become subject to the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code until the beginning of the first taxable year beginning after December 31, 1943.

(B) Such a plan shall be considered as satisfying the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code for the period beginning with the beginning of the first taxable year following December 31, 1943, and ending December 31, 1945, if the provisions of the plan satisfy such requirements by December 31, 1945, and if by that time, all provisions of such plan which are necessary to satisfy such requirements are in effect and have been made effective for all purposes with respect to the portion of such period after December 31, 1943.

(C) If the contribution of an employer to such a plan in the employer's taxable year beginning in 1943, exceeds the maximum amount deductible for such year under paragraphs (1) and (2) the amount deductible in such year shall not be less than the sum of:

(i) The amount paid in such taxable year prior to September 1, 1943, and deductible under Section 7 (a) ; and

(ii) With respect to the amount paid in such taxable year on or after September 1, 1943, that proportion of the amount deductible for the taxable year under paragraphs (1) and (2) which the number of months after August 31, 1943, in the taxable year bears to 12.

(4) In the case of a stock bonus, pension, profit-sharing or annuity plan put into effect after September 1, 1943, such a plan shall be considered as satisfying the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code for the period beginning with the date on which such plan was put into effect and ending December 31, 1945, if all of the provisions of the plan which are necessary to satisfy such requirements are in effect by the end of such period and have been made effective for all purposes with respect to the portion of such period after December 31, 1943.

(5) In the case of a stock bonus, pension, profit-sharing or annuity plan put into effect after December 31, 1944, the plan will be considered as satisfying the requirements of Sections 18159, 18160, 18161, 18162, 18163, and 18164 of the Revenue and Taxation Code for the period beginning with the date on which it was put into effect and ending with the fifteenth day of the third month following the close of the taxable year of the employer in which the plan was put into effect if all provisions of the plan which are necessary to satisfy such requirements are in effect by the end of such period and have been made effective for all purposes with respect to the whole of such period.

(n) In the case of a bondholder, who makes the election in the method and under the conditions prescribed in Section 7 (n) (4), the deduction for amortizable bond premium provided in subsection 7 (n) (1), (2) and (3). Amortizable
bond
premiums

(1) In the case of any bond, as defined in subsection (3), the following rules shall apply to the amortizable bond premium (determined under subsection (2)) on the bond for any taxable year beginning after December 31, 1942: Rules
applicable

(A) In the case of a bond (other than a bond the interest on which is excludible from gross income), the amount of the amortizable bond premium for the taxable year shall be allowed as a deduction.

(B) In the case of any bond the interest on which is excludible from gross income, no deduction shall be allowed for the amortizable bond premium for the taxable year.

(2) (A) For the purposes of paragraph (B), the amount of bond premium, in the case of the holder of any bond, shall be

determined with reference to the amount of the basis (for determining loss on sale or exchange) of such bond, and with reference to the amount payable on maturity or on earlier call date, with adjustments proper to reflect unamortized bond premium with respect to the bond, for the period prior to the date as of which subsection (1) becomes applicable with respect to the taxpayer with respect to such bond.

(B) The amortizable bond premium of the taxable year shall be the amount of the bond premium attributable to such year.

(C) The determinations required under paragraphs (A) and (B) shall be made—

(i) In accordance with the method of amortizing bond premium regularly employed by the holder of the bond, if such method is reasonable;

(ii) In all other cases, in accordance with regulations prescribing reasonable methods of amortizing bond premium, prescribed by the commissioner.

“Bond”

(3) As used in this section, the term “bond” means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by any bank or corporation and bearing interest (including any like obligation issued by a government or political subdivision thereof), with interest coupons or in registered form, but does not include any such obligation which constitutes stock in trade of the taxpayer or any such obligation of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

Election

(4) The amount of the amortizable bond premium for the taxable year shall be allowed as a deduction only if a taxpayer has elected to claim such deduction. Such elections shall be made in accordance with such regulations as the commissioner shall prescribe. If such election is made with respect to any bond, it shall also apply to all such bonds held by the taxpayer at the beginning of the first taxable year to which the election applies and to all such bonds thereafter acquired by it, and shall be binding for all subsequent taxable years with respect to all such bonds of the taxpayer, unless, upon application by the taxpayer, the commissioner permits him, subject to such conditions as the commissioner deems necessary, to revoke such election.

SEC. 6. Section 9 of the Corporation Income Tax Act is hereby amended to read as follows:

Inventories

Sec. 9. (1) Whenever in the opinion of the commissioner, the use of inventories is necessary clearly to determine the income of any taxpayer, inventory shall be taken by such taxpayer upon such basis as the commissioner may prescribe, conforming as nearly as may be to the best accounting practice and most clearly reflecting the income.

Methods

(2) (A) A taxpayer may use the following method (whether or not such method has been prescribed under subdivision (1)) in inventorying goods specified in the application required under paragraph (B): (1) Inventory them at cost; (2) treat those remaining on hand at the close of the taxable year as being: First, those included in the opening inventory of the taxable year (in the order of acquisition) to the extent thereof, and second, those acquired in the taxable year; and (3) treat those included in the opening inventory of the taxable year in which such method is first used as having been acquired at the same time and determine their cost by the average cost method.

(B) The method described in paragraph (A) may be used (1) only in inventorying goods (required under subdivision (1) to be inventoried) specified in an application to use such method filed at such time and in such manner as the commissioner may prescribe; and (2) only if the taxpayer establishes to the satisfaction of the commissioner that the taxpayer has used no procedure other than that specified in subparagraphs (2) and (3) of paragraph (A) in inventorying such goods to ascertain the income, profit, or loss of the first taxable year for which the method described in paragraph (A) is to be used, for the purpose of a report or statement covering such taxable year (i) to shareholders, partners, or other proprietors, or to beneficiaries, or (ii) for credit purposes.

(C) The change to, and the use of, such method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(D) In determining income for the taxable year preceding the taxable year for which such method is first used, the closing inventory of such preceding year of the goods specified in such application shall be at cost.

Change
in method

(E) If a taxpayer, having complied with paragraph (B), uses the method described in paragraph (A) for any taxable year, then such method shall be used in all subsequent taxable years unless with the approval of the commissioner a change to a different method is authorized; or the commissioner determines that the taxpayer has used for any such subsequent taxable year some procedure other than that specified in (2) of paragraph (A) in inventorying the goods specified in the application to ascertain the income, profit, or loss of such subsequent taxable year for the purpose of a report or statement covering such taxable year (i) to shareholders, partners, or other proprietors, or beneficiaries, or (ii) for credit purposes; and

requires a change to a method different from that prescribed in paragraph (1) beginning with such subsequent taxable year or any taxable year thereafter.

In either of the above cases, the change to, and the use of, the different method shall be in accordance with such regulations as the commissioner may prescribe as necessary in order that the use of such method may clearly reflect income.

(3) (A) If, for any taxable year beginning after December 31, 1942, and prior to the termination of the present war as proclaimed by the President of the United States, the closing inventory of a taxpayer inventorying goods under the method provided in this subsection reflects a decrease from the opening inventory of such goods for such year, and if, at the time of the filing of the taxpayer's income tax return for such year, the taxpayer elects to have the provisions of this paragraph apply and so notifies the commissioner, and if, at the time of such election, it is established to the satisfaction of the commissioner, in accordance with such regulations as the commissioner may prescribe, that such decrease is attributable to the involuntary liquidation of such inventory as defined in subparagraph (B), and if the closing inventory of a subsequent taxable year, ending not more than three years after the termination of the present war as proclaimed by the President, reflects a replacement, in whole or in part, of the goods so previously liquidated, the net income of the taxpayer otherwise determined for the year of such involuntary liquidation shall be adjusted as follows:

(i) Increased by an amount equal to the excess, if any, of the aggregate cost of such goods reflected in the opening inventory of the year of involuntary liquidation over the aggregate replacement cost; or

(ii) Decreased by an amount equal to the excess, if any, of the aggregate replacement cost of such goods over the aggregate cost thereof reflected in the opening inventory of the year of the involuntary liquidation.

The taxes imposed by this act for the year of such liquidation and for all taxable years intervening between such year and the year of replacement shall be redetermined, giving effect to such adjustments. Any increase in such taxes resulting from such adjustments shall be assessed and collected as a deficiency but without interest, and any overpayment so resulting shall be credited or refunded to the taxpayer without interest.

(B) The term "involuntary liquidation," as used in this paragraph, means the sale or other disposition of goods inventoried under the method described in this subsection, either voluntary or involuntary, coupled with a failure on the part of the taxpayer to purchase, manufacture, or otherwise produce and have on hand at the close of the taxable year in which such sale or other disposition occurred such goods as would, if on hand at the close of such taxable year, be subject to the application of the provisions of this subsection, if such failure on the part of the taxpayer is due, directly and exclusively, (i) to enemy capture or control of sources of limited foreign supply;

(ii) to shipping or other transportation shortages; (iii) to material shortages resulting from priorities or allocations; (iv) to labor shortages; or (v) to other prevailing war conditions beyond the control of the taxpayer.

Increase

(C) If, in the case of any taxpayer subject to the provisions of subparagraph (A), the closing inventory of the taxpayer for a taxable year, subsequent to the year of involuntary liquidation but prior to the complete replacement of the goods so liquidated, reflects an increase over the opening inventory of such goods for the taxable year, the goods reflecting such increase shall be considered, in the order of their acquisition, as having been acquired in replacement of the goods most recently liquidated (whether or not in a year of involuntary liquidation) and not previously replaced, and if the liquidation was an involuntary liquidation shall be taken into purchases and included in the closing inventory of the taxpayer for the year of replacement at the inventory cost basis of the goods replaced.

Election

(D) An election by the taxpayer to have the provisions of this paragraph apply, once made, shall be irrevocable and shall be binding for the year of the involuntary liquidation and for all determinations for subsequent taxable years insofar as they are related to the year of liquidation or replacement.

Prevented
adjustment:

(E) If the adjustments specified in subparagraph (A) are, with respect to any taxable year, prevented, on the date of the filing of the income tax return of the taxpayer for the year of the replacement, or within three years from such date, by any provision or rule of law (other than this subparagraph), such adjustments shall nevertheless be made if, in respect of the taxable year for which the adjustment is sought, a notice of deficiency is mailed or a claim for refund is filed, as the case may be, within three years after the date of the filing of the income tax return for the year of replacement. If, at the time of the mailing of such notice of deficiency or the filing of such claim for refund, the adjustment is so prevented, then the amount of the adjustment authorized by this paragraph shall be limited to the increase or decrease of the tax imposed by this act previously determined for such taxable year which results solely from the effect of subparagraph (A), and such amount shall be assessed and collected, or credited or refunded, in the same manner as if it were a deficiency or an overpayment, as the case may be, for such taxable year and as if, on the date of the filing of the income tax return for the year of the replacement, three years remain before the expiration of the periods of limitation upon assessment or the filing of claim for refund for the taxable year. The tax previously determined shall be ascertained in accordance with rules and regulations prescribed by the commissioner. The amount to be assessed and collected under this paragraph in the same manner as if it were a deficiency or to be credited or refunded in the same manner as if it were an overpayment shall not be diminished by any credit or set-off based upon any item, inclusion, deduction, credit, exemption,

gain, or loss, other than one resulting from the effect of subparagraph (A). Such amount, if paid, shall not be recovered by a claim or suit for refund, or suit for erroneous refund based upon any item, inclusion, deduction, credit, exemption, gain, or loss, other than one resulting from the effect of subparagraph (A).

SEC. 7. Section 11 of the Corporation Income Tax Act Stats 1943,
p 1347 is hereby amended to read as follows:

Sec. 11. (a) Upon the sale or exchange of property, the Recognition
of gain
or loss entire amount of the gain or loss, determined under Section 10, shall be recognized, except as hereinafter provided in this section.

(b) (1) No gain or loss shall be recognized if property held for productive use in trade or business or for investment (not including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

(2) No gain or loss shall be recognized if common stock in a corporation is exchanged solely for common stock in the same corporation, or if preferred stock in a corporation is exchanged solely for preferred stock in the same corporation.

(3) No gain or loss shall be recognized if stock or securities in a corporation a party to a reorganization are, in pursuance of the plan of reorganization, exchanged solely for stock or securities in such corporation or in another corporation a party to the reorganization.

(4) No gain or loss shall be recognized if a corporation a party to a reorganization exchanges property, in pursuance of the plan of reorganization, solely for stock or securities in another corporation a party to the reorganization.

(5) No gain or loss shall be recognized if property is transferred to a corporation by one or more taxpayers solely in exchange for stock or securities in such corporation, and immediately after the exchange such taxpayer or taxpayers are in control of the corporation; but in the case of an exchange by two or more taxpayers this paragraph shall apply only if the amount of the stock and securities received by each is substantially in proportion to its interest in the property prior to the exchange.

Where the transferee assumes a liability of a transferor, or where the property of a transferor is transferred subject to a liability, then for the purpose only of determining whether the amount of stock or securities received by each of the transferors is in the proportion required by this paragraph, the amount of such liability (if under subsection (k) it is not to be considered as other property or money) shall be considered as stock or securities received by such transferor.

(6) No gain or loss shall be recognized upon the receipt by a corporation of property distributed in complete liquidation of another corporation. For the purposes of this paragraph a

distribution shall be considered to be in complete liquidation only if:

(A) The corporation receiving such property was, on the date of the adoption of the plan of liquidation, and has continued to be at all times until the receipt of the property, the owner of stock (in such other corporation) possessing at least 80 per centum of the total combined voting power of all classes of stock entitled to vote and the owner of at least 80 per centum of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends), and was at no time on or after the date of the adoption of the plan of liquidation and until the receipt of the property the owner of a greater percentage of any class of stock than the percentage of such class owned at the time of the receipt of the property; and

(B) No distribution under the liquidation was made before the first day of the first taxable year of the corporation beginning after December 31, 1935; and either

(C) The distribution is by such other corporation in complete cancellation or redemption of all its stock, and the transfer of all the property occurs within the taxable year; in such case the adoption by the shareholders of the resolution under which is authorized the distribution of all the assets of such corporation in complete cancellation or redemption of all its stock, shall be considered an adoption of a plan of liquidation, even though no time for the completion of the transfer of the property is specified in such resolution; or

(D) Such distribution is one of a series of distributions by such other corporation in complete cancellation or redemption of all its stock in accordance with a plan of liquidation under which the transfer of all the property under the liquidation is to be completed within three years from the close of the taxable year during which is made the first of the series of distributions under the plan, except that if such transfer is not completed within such period, or if the taxpayer does not continue qualified under subparagraph (A) until the completion of such transfer, no distribution under the plan shall be considered a distribution in complete liquidation.

If such transfer of all the property does not occur within the taxable year the commissioner may require of the taxpayer such bond, or waiver of the statute of limitations on assessment and collection, or both, as he may deem necessary to insure, if the transfer of the property is not completed within such three-year period, or if the taxpayer does not continue qualified under subparagraph (A) until the completion of such transfer, the assessment and collection of all taxes imposed by this act then due or to become due, to the extent attributable to property so received. A distribution otherwise constituting a distribution in complete liquidation within the meaning of this paragraph shall not be considered as not constituting such a distribution merely because it does not constitute a distribution or liquidation within the meaning of the corporate law under which the distribution is made; and for the purposes of this paragraph a

transfer of property of such other corporation to the taxpayer shall not be considered as not constituting a distribution (or one of a series of distributions) in complete cancellation or redemption of all the stock of such other corporation, merely because the carrying out of the plan involves (i) the transfer under the plan to the taxpayer by such other corporation of property, not attributable to shares owned by the taxpayer, upon an exchange described in paragraph (4) of this subsection, and (ii) the complete cancellation or redemption under the plan, as a result of exchanges described in paragraph (3) of this subsection, of the shares not owned by the taxpayer.

(7) No gain or loss shall be recognized to a shareholder from a distribution of stocks or securities in liquidation of a corporation made pursuant to an order of the Federal Securities and Exchange Commission under authority vested in it by that act of Congress known as the Public Utility Holding Company Act of 1935 as amended.

U. S. C.,
Tit. 15,
Ch. 2C

(8) No loss shall be recognized if property of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, is transferred, after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership proceeding, or

(B) In a proceeding under Section 77 of the National Bankruptcy Act, as amended, to a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding. The term "reorganization," as used in this paragraph, shall not be limited by the definition of such term in subsection (g).

(9) No gain or loss shall be recognized if property of a corporation (other than a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended) is transferred in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership, foreclosure, or similar proceeding, or

(B) In a proceeding under Section 77B or Chapter X of the National Bankruptcy Act, as amended, to another corporation organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, in exchange solely for stock or securities in such other corporation.

(c) (1) If an exchange would be within the provisions of subsection (b) (1), (2), (3), or (5), or within the provisions of subsection (L), of this section if it were not for the fact that the property received in exchange consists not only of property permitted by such paragraph or by subsection (L) to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(2) If a distribution made in pursuance of a plan of reorganization is within the provisions of paragraph (1) of this subsection but has the effect of the distribution of a taxable dividend, then there shall be taxed as a dividend to each distributee such an amount of the gain recognized under paragraph (1) as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under paragraph (1) shall be taxed as a gain from the exchange of property.

(d) If an exchange would be within the provisions of subsection (b) (4) or (9) of this section if it were not for the fact that the property received in exchange consists not only of stock or securities permitted by such paragraph to be received without the recognition of gain, but also of other property or money, then:

(1) If the corporation receiving such other property or money distributes it in pursuance of the plan of reorganization, no gain to the corporation shall be recognized from the exchange, but

(2) If the corporation receiving such other property or money does not distribute it in pursuance of the plan of reorganization, the gain, if any, to the corporation shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property so received, which is not so distributed.

(e) If an exchange would be within the provisions of subsection (b) (1) to (5), or (9) or within the provisions of subsection (L), inclusive, of this section if it were not for the fact that the property received in exchange consists not only of property permitted by such paragraph to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

Involuntary
conversion

(f) If property (as a result of its destruction in whole or in part, theft or seizure, or an exercise of the power of requisition or condemnation, or the threat or imminence thereof) is compulsorily or involuntarily converted into property similar or related in service or use to the property so converted, or into money which is forthwith in good faith, under regulations prescribed by the commissioner, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund, no gain shall be recognized, but loss shall be recognized. If any part of the money is not so expended, the gain, if any, shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more taxable years and regardless of whether or not the money which is not so expended constitutes gain).

(g) As used in this section (other than subsection (b) (9) and subsection (L)) and Section 12 (other than subsection (a) (18)):

Definitions

(1) The term "reorganization" means (A) a statutory merger or consolidation, or (B) the acquisition by one corporation in exchange solely for all or a part of its voting stock: Of at least 80 per centum of the voting stock and at least 80 per centum of the total number of shares of all other classes of stock of another corporation; or of substantially all the properties of another corporation, but in determining whether the exchange is solely for voting stock, the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded, or (C) a transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor or its shareholders or both are in control of the corporation to which the assets are transferred, or (D) a recapitalization, or (E) a mere change in identity, form, or place of organization, however effected.

"Reorganization"

(2) The term "a party to a reorganization" includes a corporation resulting from a reorganization and includes both corporations in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

"Party to reorganization"

(h) As used in this section the term "control" means the ownership of stock possessing at least 80 per centum of the total combined voting power of all classes of stock entitled to vote and at least 80 per centum of the total number of shares of all other classes of stock of the corporation.

"Control"

(i) In determining the extent to which gain shall be recognized in the case of any of the exchanges (made after the date of the enactment of this act) described in subsection (b) (3), (4), (5), or (6), or described in so much of subsection (c) as refers to subsection (b) (3) or (5), or described in subsection (d), a corporation created or organized in a foreign country shall not be considered as a corporation unless, prior to such exchange, it has been established to the satisfaction of the commissioner that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of income taxes or franchise taxes imposed by this State.

Exchange of property of foreign corporation

(j) For nonrecognition of gain or loss in the case of installment obligations, see Section 10 (e) (4).

Installment obligations

(k) Where upon an exchange the taxpayer receives as part of the consideration property which would be permitted by subsection (b) (4) or (5) or (9) of this section to be received without the recognition of gain if it were the sole consideration, and as part of the consideration another party to the exchange assumes a liability of the taxpayer or acquires from the taxpayer property subject to a liability, such assumption or acquisition shall not be considered as "other property or money" received by the taxpayer within the meaning of subsection (c), (d) or (e) of this section and shall not prevent the exchange from being within the provisions of subsection (b)

Assumption of taxpayer's liability

(4) or (5) or (9); except that if, taking into consideration the nature of the liability and the circumstances in the light of which the arrangement for the assumption or acquisition was made, it appears that the principal purpose of the taxpayer with respect to the assumption or acquisition was a purpose to avoid State tax on the exchange, or, if not such purpose, was not a bona fide business purpose, such assumption or acquisition (in the amount of the liability) shall, for the purposes of this section, be considered as money received by the taxpayer upon the exchange. In any suit or proceeding where the burden is on the taxpayer to prove that such assumption or acquisition is not to be considered as money received by the taxpayer, such burden shall not be considered as sustained unless the taxpayer sustains such burden by the clear preponderance of the evidence.

Burden
of proof

(l) No gain or loss shall be recognized upon an exchange consisting of the relinquishment or extinguishment of stock or securities in a corporation the plan of reorganization of which is approved by the court in a proceeding described in subsection (b) (9), in consideration of the acquisition solely of stock or securities in a corporation organized or made use of to effectuate such plan of reorganization.

Reorganiza-
tion approved
by court

(m) If the sale or exchange of property (including stock in a corporation) is certified by the Federal Communications Commission to be necessary or appropriate to effectuate the policies of the commission with respect to the ownership and control of radio broadcasting stations, such sale or exchange shall, if the taxpayer so elects, be treated as an involuntary conversion of such property within the meaning of subsection (f) of this section. For the purposes of subsection (f) of this section as made applicable by the provisions of this subsection, stock of a corporation operating a radio broadcasting station, whether or not representing control of such corporation, shall be treated as property similar or related in service or use to the property so converted. The part of the gain, if any, upon such sale or exchange to which subsection (f) of this section is not applied shall nevertheless not be recognized, if the taxpayer so elects, to the extent that it is applied to reduce the basis for determining gain or loss upon sale or exchange of property, of a character subject to the allowance for depreciation under Section 7 (f), remaining in the hands of the taxpayer immediately after the sale or exchange, or acquired in the same taxable year. The manner and amount of such reduction shall be determined under regulations prescribed by the commissioner. Any election made by the taxpayer under this subsection shall be made by a statement to that effect in the return for the taxable year in which the sale or exchange takes place and such election shall be binding for the taxable year and all subsequent taxable years.

SEC. 8. Section 12 of the Corporation Income Tax Act Stats 1943,
p 1347 is hereby amended to read as follows:

SEC. 12. (a) The basis of property shall be the cost of such Basis of
property property; except that:

(1) If the property should have been included in the last inventory, the basis shall be the last inventory value thereof.

(2) If the property was acquired by gift after December 31, 1920, the basis shall be the same as it would be in the hands of the donor or the last preceding owner by whom it was not acquired by gift, except that if such basis (adjusted for the period prior to the date of the gift as provided in subsection (b)) is greater than the fair market value of the property at the time of the gift, then for the purpose of determining loss the basis shall be such fair market value. If the facts necessary to determine the basis in the hands of the donor or the last preceding owner are unknown to the donee, the commissioner shall, if possible, obtain such facts from such donor or last preceding owner, or any other person cognizant thereof. If the commissioner finds it impossible to obtain such facts, the basis in the hands of such donor or last preceding owner shall be the fair market value of such property as found by the commissioner as of the date or approximate date at which, according to the best information that the commissioner is able to obtain, such property was acquired by such donor or last preceding owner.

(3) If the property was acquired after December 31 1920, by a transfer in trust (other than by a transfer in trust by a gift, bequest or devise) the basis shall be the same as it would be in the hands of the grantor, increased in the amount of gain or decreased in the amount of loss recognized to the grantor upon such transfer under the law applicable to the year in which the transfer was made.

(4) If the property was acquired, after February 28 1913, upon an exchange described in Section 11 (b) to (e), inclusive, or Section 11 (L), the basis (except as provided in paragraph (12) of this subsection) shall be the same as in the case of the property exchanged, decreased in the amount of any money received by the taxpayer and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized upon such exchange under the law applicable to the year in which the exchange was made. If the property so acquired consisted in part of the type of property permitted by Section 11 (b) or Section 11 (L), to be received without the recognition of gain or loss, and in part of other property, the basis provided in this paragraph shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. Where as a part of the consideration to the taxpayer another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for the purposes of this paragraph, be considered as money

received by the taxpayer upon the exchange. This paragraph shall not apply to property acquired by a corporation by the issuance of its stock or securities as the consideration in whole or in part for the transfer of the property to it.

(5) If the property was acquired:

(A) After December 31, 1917, and in a taxable year beginning before January 1, 1936, by a corporation in connection with a reorganization, and immediately after the transfer an interest or control in such property of 50 per centum or more remained in the same persons or any of them; or

(B) In a taxable year beginning after December 31, 1935, by a corporation in connection with a reorganization, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was made. This paragraph shall not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the issuance of stock or securities of the transferee as the consideration in whole or in part for the transfer.

(6) If the property was acquired after December 31, 1920, by a corporation:

(A) By the issuance of its stock or securities in connection with a transaction described in Section 11 (b) (5) (including, also, cases where part of the consideration for the transfer of such property to the corporation was property or money, in addition to such stock or securities), or

(B) As paid in surplus or as a contribution to capital, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain or decreased in the amount of loss recognized to the transferor upon such transfer under the law applicable to the year in which the transfer was made.

(7) If the property was acquired, after February 28, 1913, as the result of a compulsory or involuntary conversion described in Section 11 (f), the basis shall be the same as in the case of the property so converted, decreased in the amount of any money received by the taxpayer which was not expended in accordance with the provisions of law (applicable to the year in which such conversion was made) determining the taxable status of the gain or loss upon such conversion, and increased in the amount of gain or decreased in the amount of loss to the taxpayer recognized upon such conversion under the law applicable to the year in which such conversion was made.

(8) If the property consists of stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility (under Section 7 (d) of this act, relating to wash sales) of the loss from the sale or other disposition of substantially identical stock or securities, then the basis shall be the basis of the stock or securities so sold or disposed of, increased or decreased, as the case may be, by the difference, if any, between the price at which the property was

acquired and the price at which such substantially identical stock or securities were sold or otherwise disposed of.

(9) In the case of property acquired by a corporation, during a period of affiliation, from a corporation with which it was affiliated, the basis of such property, after such period of affiliation, shall be determined, in accordance with regulations prescribed by the commissioner, without regard to intercompany transactions in respect of which gain or loss was not recognized. The basis in case of property acquired by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or the Federal Revenue Act of 1938, shall be determined in accordance with regulations prescribed under Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936 or the Federal Revenue Act of 1938. The basis in the case of property held by a corporation during any period, in the taxable year 1929 or any subsequent taxable year, in respect of which a consolidated return is made by such corporation under Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or the Federal Revenue Act of 1938, shall be adjusted in respect of any items relating to such period, in accordance with regulations prescribed under Section 141 of the Federal Revenue Act of 1928 or the Federal Revenue Act of 1932 or the Federal Revenue Act of 1934 or the Federal Revenue Act of 1936, or the Federal Revenue Act of 1938, applicable to such period.

(10) If the property was acquired, after February 28, 1913, in any taxable year beginning prior to January 1, 1934, and the basis thereof, for the purposes of the Federal Revenue Act of 1932 was prescribed by Section 113 (a) (6), (7), or (9) of such act, then for the purpose of this act the basis shall be the same as the basis therein prescribed in the Federal Revenue Act of 1932.

(11) In the case of property acquired before March 1, 1913, if the basis otherwise determined under this subsection, adjusted (for the period prior to March 1, 1913) as provided in subsection (b), is less than the fair market value of the property as of March 1, 1913, then the basis for determining gain shall be such fair market value. In determining the fair market value of stock in a corporation as of March 1, 1913, due regard shall be given to the fair market value of the assets of the corporation as of that date.

(12) If the property was received by a corporation upon a distribution in complete liquidation of another corporation within the meaning of Section 11 (b) (6), then the basis shall be the same as it would be in the hands of the transferor.

(13) If the property was acquired after February 28, 1913, in any taxable year beginning prior to January 1, 1936, and the basis thereof, for the purposes of the Federal Revenue Act of 1934 was prescribed by Section 113 (a) (6), (7), or (8) of such act, then for the purposes of this act the basis shall be the same as the basis therein prescribed in the Federal Revenue Act of 1934.

(14) (A) If the property was acquired by a shareholder in a corporation and consists of rights to acquire stock in such corporation acquired by him after February 28, 1913, in a distribution by such corporation, and (1) the right to acquire such stock was acquired in a taxable year beginning before January 1, 1937 (except as provided in subparagraph (B)), or (2) the right to acquire such stock was acquired in a taxable year beginning after December 31, 1936, and its distribution did not constitute income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States, then the basis of the stock in respect of which the rights were declared and the right to acquire stock, respectively, shall, in the shareholder's hands be determined by allocating between the stock and the right to acquire stock the adjusted basis of the stock, such allocation to be made under regulations which shall be prescribed by the commissioner.

(B) If a stock right was acquired prior to January 1, 1937, and it constituted income within the purview of the Sixteenth Amendment to the Constitution of the United States, the basis of the stock in respect of which the rights were declared shall not be affected and the basis of the right shall be its fair market value as of the date of its acquisition.

(C) Where the shareholder acquired the right to acquire such stock in a taxable year beginning before January 1, 1943, and sold the same, and there was included in the gross income for such year of sale the entire amount of the proceeds of such sale, then if before the effective date of the 1943 amendments to this act the taxpayer has not asserted (by claim for a refund or credit or otherwise), that any part of the proceeds of the sale of such rights should be excluded from gross income for the year of its sale, the basis of the stock shall be determined without regard to paragraphs (A) and (B) and no part of the proceeds of the sale of such rights shall ever be excluded from the gross income for the year of such sale.

(15) If the property of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, was acquired after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation—

(A) In a receivership proceeding, or

(B) In a proceeding under Section 77 of the National Bankruptcy Act, as amended,

and the acquiring corporation is a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, organized or made use of to effectuate a plan or reorganization approved by the court in such proceeding, the basis

shall be the same as it would be in the hands of the railroad corporation whose property was so acquired. The term "reorganization," as used in this paragraph, shall not be limited by the definition of such term in Section 11 (g).

(16) If the property of any street, suburban, or interurban electric railway corporation engaged as a common carrier in the transportation of persons or property in interstate commerce was acquired after December 31, 1942, in pursuance of an order of the court having jurisdiction of such corporation in a proceeding under Section 77B of the National Bankruptcy Act, as amended, and the acquiring corporation is a street, suburban, or interurban electric railway engaged as a common carrier in the transportation of persons or property in interstate commerce, organized or made use of to effectuate a plan of reorganization approved by the court in such proceeding, then, notwithstanding the provisions of Section 270 of Chapter X of the National Bankruptcy Act, as amended, the basis, for any taxable year beginning after December 31, 1942, shall be the same as it would be in the hands of the corporation whose property was so acquired. The term "reorganization," as used in this paragraph, shall not be limited by the definition of such term in Section 11 (g).

(17) In the case of stocks or securities received by a taxpayer on or after January 1, 1943, under circumstances described in Section 11 (b) (7), the basis of such stocks or securities shall be the same as that of the stocks or securities for the surrender of which they were acquired.

(18) If the property was acquired by a corporation upon a transfer to which Section 11 (b) (9), or so much of Section 11 (d) or (e) as relates to Section 11 (b) (9), is applicable, the basis in the hands of the acquiring corporation shall be the same as it would be in the hands of the corporation whose property was so acquired, increased in the amount of gain recognized to the corporation whose property was so acquired under the law applicable to the year in which the acquisition occurred, and such basis shall not be adjusted under subsection (b) (3) by reason of a discharge of indebtedness pursuant to the plan of reorganization under which such transfer was made.

(b) The adjusted basis for determining the gain or loss from the sale or other disposition of property, whenever acquired, shall be the basis determined under subsection (a), adjusted as hereinafter provided.

(1) Proper adjustment in respect of the property shall in all cases be made:

(A) For expenditures, receipts, losses, or other items, properly chargeable to capital account, but no such adjustment shall be made for taxes or other carrying charges for which deductions have been taken by the taxpayer in determining net income for the taxable year or prior taxable years;

(B) For exhaustion, wear and tear, obsolescence, amortization, and depletion, to the extent sustained prior to January 1, 1937, and for periods thereafter to the extent allowed (but not

less than the amount allowable) under this act; provided, however, that if a taxpayer has not claimed an amortization deduction for an emergency facility, an adjustment shall be made only to the extent ordinarily provided under Section 7 (f).

(C) In the case of stock (to the extent not provided for in the foregoing subparagraphs) for the amount of distributions previously made which, under the law applicable to the year in which the distribution was made, either were tax-free or were applicable in reduction of basis (not including distributions made by a corporation, which was classified as a personal service corporation, under the provisions of the Federal Revenue Act of 1918 or 1921, out of its earnings or profits which were taxable in accordance with the provisions of Section 218 of the Federal Revenue Act of 1918 or 1921).

(D) In the case of any bond (as defined in Section 7 (n) (3)) the interest on which is wholly exempt from the tax imposed by this act, to the extent of the amortizable bond premium disallowable as a deduction pursuant to Section 7 (n) (1) (B), and in the case of any other bond (as defined in such section) to the extent of the deductions allowable pursuant to Section 7 (n) (1) (A) with respect thereto.

Substituted
basis"

(2) The term "substituted basis" as used in this subsection means a basis determined under any provision of subsection (a) of this section, providing that the basis shall be determined:

(A) By reference to the basis in the hands of a transferor, donor, or grantor, or

(B) By reference to other property held at any time by the person for whom the basis is to be determined.

Whenever it appears that the basis of property in the hands of the taxpayer is a substituted basis, then the adjustments provided in paragraph (1) of this subsection shall be made after first making in respect of such substituted basis proper adjustments of a similar nature in respect of the period during which the property was held by the transferor, donor, or grantor, or during which the other property was held by the person for whom the basis is to be determined. A similar rule shall be applied in the case of a series of substituted bases.

(3) Where in the case of a corporation any amount is excluded from gross income under Section 6 (b) (6) on account of the discharge of indebtedness the whole or a part of the amount so excluded from gross income shall be applied in a reduction of the basis of any property held (whether before or after the time of the discharge) by the taxpayer during any portion of the taxable year in which such discharge occurred. The amount to be so applied (not in excess of the amount so excluded from gross income, reduced by the amount of any deduction disallowed under Section 6 (b) (6)) and the particular properties to which the reduction shall be allocated, shall be determined under regulations (prescribed by the commissioner) in effect at the time of the filing of the consent by the taxpayer referred to in Section 6 (b) (6). The reduction shall

be made as of the first day of the taxable year in which the discharge occurred except in the case of property not held by the taxpayer on such first day, in which case it shall take effect as of the time the holding of the taxpayer began.

(c) Neither the basis nor the adjusted basis of any portion of real property shall, in the case of the lessor of such property, be increased or diminished on account of income derived by the lessor in respect of such property and excludible from gross income under Section 6 (b) (4). If an amount representing any part of the value of real property attributable to buildings erected or other improvements made by a lessee in respect of such property was included in gross income of the lessor for any taxable year beginning before January 1, 1943, the basis of each portion of such property shall be properly adjusted for the amount so included in gross income. Leased property

SEC. 9. Section 14.1 is added to the Corporation Income Tax New section Act, to read as follows:

Sec. 14.1. (a) If (1) any person or persons acquire, on or after October 8, 1940, directly or indirectly, control of a corporation, or (2) any corporation acquires, on or after October 8, 1940, directly or indirectly, property of another corporation, not controlled, directly or indirectly, immediately prior to such acquisition, by such acquiring corporation or its stockholders, the basis of which property, in the hands of the acquiring corporation, is determined by reference to the basis in the hands of the transferor corporation, and the principal purpose for which such acquisition was made is evasion or avoidance of tax under this act by securing the benefit of a deduction, credit, or other allowance which such person or corporation would not otherwise enjoy, then such deduction, credit, or other allowance shall not be allowed. For the purposes of clauses (1) and (2), control means the ownership of stock possessing at least 50 per centum of the total combined voting power of all classes of stock entitled to vote or at least 50 per centum of the total value of shares of all classes of stock of the corporation. Acquisition of corporation

(b) In any case to which subsection (a) is applicable the commissioner is authorized— Authority of commissioner

(1) To allow as a deduction or allowance any part of any amount disallowed by such subsection, if he determines that such allowance will not result in the evasion or avoidance of tax for which the acquisition was made; or

(2) To distribute, apportion, or allocate gross income, and distribute, apportion, or allocate the deductions or allowances the benefit of which was sought to be secured, between or among the corporations, or properties, or parts thereof, involved, and to allow such deductions or allowances so distributed, apportioned, or allocated, but to give effect to such allowance only to such extent as he determines will not result in the evasion or avoidance of tax for which the acquisition was made; or

(3) To exercise his powers in part under paragraph (1) and in part under paragraph (2).

SEC. 10. Section 15 of the Corporation Income Tax Act is hereby amended to read as follows:

Annual
accounting
period

Sec. 15. 'The net income shall be computed upon the basis of the taxpayer's annual accounting period, fiscal year or calendar year as the case may be, in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made in accordance with such method as in the opinion of said commissioner does clearly reflect the income. If the taxpayer's annual accounting period is other than a fiscal year, or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year.

Increase in
redemption
price

If, in the case of a taxpayer owning any noninterest-bearing obligation issued at a discount and redeemable for fixed amounts increasing at stated intervals, the increase in the redemption price of such obligation occurring in the taxable year does not (under the method of accounting used in computing its net income) constitute income to taxpayer in such year, such taxpayer may, at its election made in its return for any taxable year beginning after December 31, 1942, treat such increase as income received in such taxable year. If any such election is made with respect to any such obligation, it shall apply also to all such obligations owned by the taxpayer at the beginning of the first taxable year to which it applies and to all such obligations thereafter acquired by taxpayer and shall be binding for all subsequent taxable years, unless upon application by taxpayer the commissioner permits taxpayer, subject to such conditions as the commissioner deems necessary, to change to a different method. In the case of any such obligations owned by the taxpayer at the beginning of the first taxable year to which its election applies, the increase in the redemption price of such obligations occurring between the date of acquisition and the first day of such taxable year shall also be treated as income received in such taxable year.

Election

Change in
accounting
period

If the taxpayer changes its accounting period from fiscal year to calendar year, from calendar year to fiscal year, or from one fiscal year to another, the net income shall, with the approval of the commissioner, be computed on the basis of such new accounting period subject to the following provisions:

Separate
return

(a) If a taxpayer, with the approval of the commissioner, changes the basis of computing net income from fiscal year to calendar year, a separate return shall be made for the period between the close of the last fiscal year for which return was made and the following December 31st. If the change is from calendar year to fiscal year, a separate return shall be made for the period between the close of the last calendar year for which return was made and the date designated as the beginning of the fiscal year. If the change is from one fiscal year to another fiscal year a separate return shall be made for the

period between the close of the former fiscal year and the date designated as the beginning of the new fiscal year.

(b) Where a separate return is made under paragraph (a) on account of a change in the accounting period then the income shall be computed on the basis of the period for which separate return is made. The due date of the separate return for such period is the fifteenth day of the third month following the close of that period. Basis of computation

(c) The tax for any period beginning in one calendar year (hereinafter in this section called "first calendar year") and ending in the following calendar year (hereinafter in this section called "second calendar year") where the law applicable to the computation of taxes for the taxpayers reporting on a calendar year basis differs for the second calendar year from the law applicable to the first calendar year, shall (except as otherwise provided) be the sum of (1) the same proportion of a tax for the entire period, determined under the law applicable to the first calendar year and at the rates for such year, which the portion of such period falling within the first calendar year is of the entire period; and (2) the same proportion of a tax for the entire period, determined under the law applicable to the second calendar year and at the rates for such year, which the portion of such period falling within the second calendar year is of the entire period. Change in law applicable to tax computation

Any tax that has been paid under the law applicable to the first calendar year if in excess of the tax imposed by this section shall be refunded or credited to the taxpayer as provided in Section 20. Any tax in addition to that paid under the law applicable to the first calendar year made necessary by this section shall be immediately due and payable upon notice and demand from the commissioner.

Sec. 11. Section 17 of the Corporation Income Tax Act is hereby amended to read as follows: Stats 1937, p 2184

Sec. 17. (a) One-half the amount of tax disclosed by the return shall be due and payable as the first installment of the tax on or before the due date for filing the return as provided herein, or the due date as extended by the commissioner. The balance of the tax shall be due and payable as the second installment on or before the fifteenth day of the ninth month following the close of the taxable year. A tax imposed by this act or any installment thereof may be paid at the election of the taxpayer, prior to the date prescribed for its payment. Payment of taxes

(b) The tax, and any additions thereto, imposed by this act, shall be paid to the commissioner at Sacramento, or to his authorized representatives at any branch office. Remittances may be in the form of uncertified check, payable to the Franchise Tax Commissioner, during such time and under such regulations as the commissioner may prescribe, but if a check so received is not paid by the bank on which it is drawn, the taxpayer by whom such check is tendered shall remain liable for the payment of the tax, and all additions thereto, the same as if such check had not been tendered.

SEC. 12. Section 18 of the Corporation Income Tax Act is hereby amended to read as follows:

Failing
to make
return
Penalties

Sec. 18. (a) If any taxpayer fails to make and file a return required by this act on or before the due date of the return or the due date as extended by the commissioner, then, unless it is shown that such failure is due to reasonable cause and not due to wilful neglect, 5 per centum of the tax shall be added to the tax for each 30 days or fraction thereof elapsing between the due date of the return and the date on which filed, but the total addition shall not exceed 25 per centum of the tax. The amount so added to the tax shall be due and payable upon notice and demand from the commissioner.

Demand

If any taxpayer, upon notice and demand by the commissioner, fails or refuses to make and file a return required by this act, the commissioner is authorized to make an estimate of the net income and to compute and levy the amount of the tax due under this act from any available information, and in such case 25 per centum of the tax (in addition to the amounts added under the provisions of the preceding paragraph of this subsection) shall be added to the tax and shall be due and payable upon notice and demand from the commissioner.

Refusing
information

If any corporation fails or refuses to furnish any information as requested in writing by the commissioner, the commissioner may add a penalty of 25 per centum of the amount of any additional tax assessed by the commissioner concerning the determination of which such information was required.

Neglect
to pay

(b) If any part of any deficiency is due to negligence, or intentional disregard of rules and regulations but without intent to defraud, 5 per centum of the total amount of the deficiency (in addition to such deficiency and other additions provided in this section) shall be assessed, collected, and paid in the same manner as if it were a deficiency.

Fraud

If any part of any deficiency is due to fraud with intent to evade tax, then 50 per centum of the total amount of the deficiency (in addition to such deficiency and other additions provided in this section) shall be assessed, collected and paid in the same manner as if it were a deficiency.

Failure
to pay
Interest

(c) If the tax imposed by this act (whether determined by the commissioner or the taxpayer) or any installment or portion thereof is not paid on or before the date prescribed for its payment, there shall be collected as a part of the tax interest upon such unpaid amount at the rate of 6 per centum per year from the date prescribed for its payment until it is paid.

Extension
of time

If the time for the payment of the tax or any installment thereof is extended by the commissioner, or if the collection of a jeopardy assessment is stayed under Section 18.1 of this act, there shall be collected as part of such tax interest thereon at the rate of 6 per centum a year from the date upon which such payment should have been made if no extension had been granted or collection had not been stayed until the date the tax is paid.

Interest upon the amount determined as a deficiency shall be assessed and paid at the same time as the deficiency at the rate of 6 per centum per year from the date prescribed for the payment of the tax (or, if the tax is paid in installments, from the date prescribed for the payment of the first installment) to the date the deficiency is assessed; provided, however, if any portion of the deficiency is paid prior to the date it is assessed, interest shall accrue on such portion only to the date paid.

Where a deficiency, or any interest or additional amounts assessed in connection therewith, or any addition to the tax in case of delinquency provided for in subsection (a) of this section, is not paid in full within 10 days from the date of notice and demand from the commissioner, there shall be collected as a part of the tax, interest upon the unpaid amount at the rate of 6 per centum a year from the date of such notice and demand until it is paid.

SEC. 13. Section 19 of the Corporation Income Tax Act is hereby amended to read as follows: Stats 1943,
p 1347

Sec. 19. (a) As soon as practicable after the return is filed, the commissioner shall examine it and shall determine the correct amount of the tax. If the commissioner determines that the tax disclosed by the original return is less than the tax disclosed by his examination he shall mail notice or notices to the taxpayer at its post-office address (which must appear on its return) of the additional tax proposed to be assessed against it. Each notice shall set forth the details of the proposed additional assessment and of computing said tax. Notice of
additional
tax

(b) Within 60 days after the mailing of said notice the taxpayer may file with the commissioner a written protest against the levy of the proposed additional tax, as computed by the commissioner, specifying therein the grounds upon which the protest is based. Protest

(c) If no such protest is so filed the amount of the tax shall be final upon the expiration of said 60-day period. If a protest is so filed it shall be the duty of the commissioner to reconsider the computation and levy of the tax complained of, and if the taxpayer has so requested in its protest, it shall be the duty of the commissioner to grant said taxpayer, or its authorized representatives, an oral hearing. After consideration of the protest and the evidence adduced in the event of such oral hearing, the commissioner's action upon the protest shall be final upon the expiration of 30 days from the date when he mails to the taxpayer notice of his action, unless within that 30-day period the taxpayer appeals in writing from the action of the commissioner to the State Board of Equalization. The appeal must be addressed and mailed to the State Board of Equalization at Sacramento, and a copy of the appeal addressed and mailed at the same time to the commissioner at Sacramento. Said board shall hear and determine the same and thereafter shall forthwith notify the taxpayer and the commissioner of its determination, and the reasons therefor. Such determination shall be final upon the expiration of 30 days from the time of Hearing

such determination unless within such 30-day period the taxpayer or the commissioner files a petition for rehearing with said board, in which event the board's determination shall not become final until the expiration of 30 days from the time the board issues its opinion on said petition.

Notice and demand

(d) When a deficiency has been determined and the tax has become final under the provisions of this section, the commissioner shall mail notice and demand to the taxpayer for the payment thereof, and such tax shall be due and payable at the expiration of 10 days from the date of such notice and demand.

Certificate of commissioner

(e) A certificate by the commissioner or of said board, as the case may be, of the mailing of the notices specified in this section shall be prima facie evidence of the computation and levy of the deficiency in tax and of the giving of said notices.

Limitation

(f) Except in the case of a fraudulent return, every notice of additional tax proposed to be assessed hereunder shall be mailed to the taxpayer within four years after the return was filed and no deficiency shall be assessed or collected with respect to the year for which such return was filed unless such notice is mailed within such period; provided, that in the case of any taxpayer which shall agree with the United States Commissioner of Internal Revenue for an extension (or renewals thereof) of the period for proposing and assessing deficiencies in Federal income tax for any year, the period for mailing notices of proposed deficiency tax pursuant to this section shall (unless otherwise agreed between the commissioner and the taxpayer) be four years after the return was filed or six months after the date of the expiration of the agreed period for assessing deficiencies in Federal income tax, whichever period expires the later. For the purposes of this paragraph a return filed before the last day prescribed by law for the filing thereof shall be considered as filed on such last day.

Extension of assessment period

(g) Where before the expiration of the time prescribed in this section for the assessment of the tax, the taxpayer has consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

Excess tax due to mathematical error

(h) Any amount of tax in excess of that disclosed by the return, due to a mathematical error, or failure of the taxpayer to compute properly the liability based on the net income reported on its return, notice of which has been mailed to the taxpayer, shall not be considered a deficiency assessment within the meaning of this section. The taxpayer shall have no right of protest or appeal as herein provided, based on such notice, nor shall such assessment or collection be prohibited by any of the provisions of this section.

Bankruptcy, etc

(i) Upon the adjudication of bankruptcy of any taxpayer in any bankruptcy proceeding or the appointment of a receiver for any taxpayer in any receivership proceeding before any court of the United States or of any State or Territory or of

the District of Columbia, any deficiency (together with all interest, additional amounts, or additions to the tax provided for by law) determined by the commissioner in respect of a tax imposed by this act upon such taxpayer may be immediately assessed. In such cases the trustee in bankruptcy or receiver shall give notice in writing to the commissioner of the adjudication of bankruptcy or the appointment of the receiver, and the running of the statute of limitations on the making of assessments shall be suspended for the period from the date of adjudication in bankruptcy or the appointment of the receiver to a date 30 days after the date upon which the notice from the trustee or receiver is received by the commissioner; but the suspension under this sentence shall in no case be for a period in excess of two years. Claims for the deficiency and such interest, additional amounts and additions to the tax may be presented, for adjudication in accordance with law, to the court before which the bankruptcy or receivership proceeding is pending, despite the pendency of proceedings for the redetermination of the deficiency in pursuance of a petition to the State Board of Equalization but no petition for any such redetermination shall be filed with said board after the adjudication of bankruptcy or the appointment of the receiver. Any portion of the claim allowed in such bankruptcy or receivership proceeding which is unpaid shall be paid by the taxpayer upon notice and demand from the commissioner after determination of such proceeding and may be collected in the manner provided in this act for the collection of delinquent taxes at any time within six years after termination of such proceeding.

SEC. 14. Section 19.1 of the Corporation Income Tax Act is hereby amended to read as follows: Stats 1939,
p 2902

Sec. 19.1. (a) When the correction of an erroneous inclusion or deduction of an item in the computation of income of any year results in an overpayment for one year and a deficiency for another year, the overpayment, if the period within which credit for the overpayment may be allowed has not expired, shall be credited on the deficiency, if the period within which the deficiency may be proposed has not expired, and the balance, if any, shall be credited or refunded as provided in Section 20. No interest shall be assessed on such portion of the deficiency as is extinguished by the credit for the period of time subsequent to the date the overpayment was made. Notwithstanding the provisions of Section 20, no interest shall in any case be allowed on any overpayment to the extent credited on deficiencies pursuant to the provisions of this section. Over-

(b) The preceding paragraph is not intended, nor shall it be construed, as a limitation on the commissioner's right to offset or recoup barred assessments against overpayments.

SEC. 15. Section 20 of the Corporation Income Tax Act is hereby amended to read as follows: Stats 1943,

an overpayment of tax, penalty or interest by a taxpayer for any year for any reason, the amount of such overpayment shall be credited against any taxes then due from the taxpayer under this act, and the balance shall be refunded to the taxpayer or its successor through reorganization, merger, or consolidation, or to stockholders upon dissolution. No such credit or refund shall be allowed or made until approved by the State Board of Control. No such credit or refund shall be allowed or made after four years from the last day prescribed for filing the return or after one year from the date of overpayment, whichever period expires the later, unless before the expiration of such period a claim therefor is filed by the taxpayer, or unless before the expiration of such period the commissioner has certified the overpayment to the State Board of Control for approval of the refunding or the crediting thereof. If (a) the taxpayer has, within the period prescribed in the preceding sentence, agreed in writing, under the provisions of Section 19, to extend the time within which the commissioner may propose an additional assessment, or (b) if the taxpayer has agreed with the United States Commissioner of Internal Revenue for an extension (or renewals thereof) of the period for proposing and assessing deficiencies in Federal income tax for any year, the period within which a claim for credit or refund may be filed, or credit or refund allowed or made if no claim is filed, shall be the period within which the commissioner may make an assessment under such circumstances, except that the provisions of the preceding sentence shall apply to any claim filed, or credit or refund allowed or made, before the execution of such agreement. Insofar as the claim for credit or refund relates to an overpayment on account of the deductibility, under Section 7 (e), of a debt as one which became worthless, or an erroneous inclusion of an amount attributable to the recovery of a bad debt, prior tax or delinquency amount, under Section 6 (b) (5) due to an adjustment of a bad debt deduction under Section 7 (e), in lieu of the period of limitation prescribed in the second preceding sentence, the period shall be seven years from the date prescribed by law for filing the return for the year with respect to which the claim is made. A refund claim upon which action has become final shall not thereafter be considered a refund claim within the meaning of the foregoing provision except to the extent allowed. Every claim for refund must state the specific grounds upon which the claim is founded.

(b) If the commissioner disallows any claim for refund, he shall notify the taxpayer accordingly. At the expiration of 90 days from the mailing of such notice, the commissioner's action upon the claim shall be final unless, within such 90-day period, the taxpayer appeals in writing from the action of the commissioner to the State Board of Equalization. Such determination shall be final upon the expiration of 30 days from the time of such determination unless within such 30-day period the taxpayer or the commissioner files a petition for rehearing with said board, in which event the board's determination shall not become final until the expiration of 30 days from the time the board issues its opinion on said petition.

(2) In the case of a refund, from the date of the overpayment to a date preceding the date of the refund warrant by not more than 30 days, such date to be determined by the commissioner.

(d) Any refund or any portion thereof which is erroneously made, and any credit or any portion thereof which is erroneously allowed, may be recovered, together with interest at the rate of 6 per centum per annum from the date the refund was made or the credit allowed, in an action brought by the commissioner in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California, and such actions shall be tried in the County of Sacramento unless the court, with the consent of the Attorney General or the counsel for the commissioner, orders a change of place of trial. The Attorney General or the counsel for the commissioner must prosecute such action and the provisions of the Code of Civil Procedure, relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings herein provided for.

SEC. 17. Section 23 of the Corporation Income Tax Act is hereby amended to read as follows:

Sec. 23. (a) No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the assessment or collection of any tax under this act, but any taxpayer claiming that the tax computed and levied against it pursuant to Sections 18.1 and 19 of this act is void in whole or in part may bring an action against the commissioner for the recovery of the whole or any part of the amount paid. Such action must be filed within four years from the last date prescribed for filing the return or within one year from the date the tax was paid, whichever period expires the later; provided, that no action shall be filed for the recovery of a deficiency assessment unless the taxpayer has made protest to the commissioner of the computation and levy complained of under the provisions of Section 19 hereof, or unless the taxpayer has filed a claim for refund for the tax in question under the provisions of Section 20.

Limitation

(b) Within 90 days after the mailing of the notice of the commissioner's action upon any refund claim, or in case of an appeal to the State Board of Equalization from the disallowance of any refund claim, within 90 days after the mailing of the notice of the board's determination of the appeal, the taxpayer may bring an action against the commissioner on the grounds set forth in such claim for the recovery of the whole or any part of the amount claimed as an overpayment.

If the commissioner fails to mail notice of action on any refund claim within six months after the claim was filed, the taxpayer may, prior to mailing of notice of action on the refund claim, consider the claim disallowed and bring an action against the commissioner on the grounds set forth in such claim for the recovery of the whole or any part of the amount claimed as an overpayment.

(c) Whenever under the provisions of this section an action ^{Service of} is commenced against the commissioner, a copy of the complaint ^{process} and the summons must be served upon the commissioner, or the assistant commissioner. (e) In all actions now pending against the State Treasurer ^{Substitution} under the provisions of this act, the commissioner shall be substituted for the State Treasurer by the court wherein the action is pending. CHAPTER 863

An act to amend Section 14135 of the Education Code and to add Section 14135.1 to said code, relating to classified employeecs, declaring the urgency thereof, to take effect immediately.

In effect immediately [Approved by Governor June 14, 1945. Filed with Secretary of State June 14, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 14135 of the Education Code is hereby amended to read as follows:

Layoffs 14135. Classified employees shall be subject to layoff for lack of work or lack of funds. Whenever a classified employee is laid off, the order of layoff within the class shall be determined by length of service. The employee who has been employed by the shortest time in the class, plus higher classes, shall be laid off first. Reemployment shall be in the reverse order of layoff.

SEC. 2. Section 14135.1 is hereby added to the Education Code, to read as follows:

Reemployed after resignation 14135.1. Whenever any noncertificated employee of any school district who, at the time of his resignation, was classified as permanent, is, or has been, reemployed within three years after his last day of service, the governing board of the district shall disregard the break in service of said employee and classify him as, and restore to him all of the rights of, a permanent employee; provided, that if said employee at the time of resignation was a member of any State or district retirement system, he shall be reinstated as a member of said system or systems with all rights previously held, including any credit for prior service; provided, further, that the period of the absence from service shall not be counted as time served for any purpose.

Urgency SEC. 3. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and as such shall take effect immediately.

The facts constituting such urgency are as follows:

Veterans are returning in considerable numbers to claim their former positions in the classified service of the schools. As they come back persons who have been promoted to take their place fall back to their former positions. Unless such persons can count the seniority gained in the higher position they may find themselves junior to others who entered their regular class later than they. In case of layoff after their return to their regular position the alleged promotion would in such cases count against them unless they were able to accrue seniority while occupying the higher position.

Because of the effects of the war upon noncertificated school personnel an acute manpower shortage has developed in many sections of the State, thus seriously impairing the educational system of the State. It has become necessary to induce those who have resigned to return to school service. Restoration of classification, retirement, and other rights lost by reason of separation, will assist in securing the return of many competent school employees and thus help to relieve the manpower shortage.

Acquiring jurisdiction on service of accusation

11505 (a) Upon the filing of the accusation the agency shall serve a copy thereof on the respondent as provided in subdivision (c). The agency may include with the accusation any information which it deems appropriate, but it shall include a post card or other form entitled Notice of Defense which, when signed by or on behalf of the respondent and returned to the agency, will acknowledge service of the accusation and constitute a notice of defense under Section 11506. The copy of the accusation shall include or be accompanied by a statement that respondent may request a hearing by filing a notice of defense as provided in Section 11506 within 15 days after service upon him of the accusation, and that failure to do so will constitute a waiver of his right to a hearing.

(b) The statement to respondent shall be substantially in the following form:

Unless a written request for a hearing signed by or on behalf of the person named as respondent in the accompanying accusation is delivered or mailed to the agency within 15 days after the accusation was personally served on you or mailed to you, [here insert name of agency] may proceed upon the accusation without a hearing. The request for a hearing may be made by delivering or mailing the enclosed form entitled Notice of Defense, or by delivering or mailing a notice of defense as provided by Section 11506 of the Government Code to: [here insert name and address of agency].

(c) The accusation and all accompanying information may be sent to respondent by any means selected by the agency. But no order adversely affecting the rights of the respondent shall be made by the agency in any case unless the respondent shall have been served personally or by registered mail as provided herein, or shall have filed a notice of defense or otherwise appeared. - (4) Admit the accusation in whole or in part;
- (5) Present new matter by way of defense.

Within the time specified respondent may file one or more notices of defense upon any or all of these grounds, but all such notices shall be filed within that period unless the agency in its discretion authorizes the filing of a later notice.

(b) The respondent shall be entitled to a hearing on the merits if he files a notice of defense, and any such notice shall be deemed a specific denial of all parts of the accusation not expressly admitted. Failure to file such notice shall constitute a waiver of respondent's right to a hearing, but the agency in its discretion may nevertheless grant a hearing. Unless objection is taken as provided in subdivision (a) (3), all objections to the form of the accusation shall be deemed waived.

(c) The notice of defense shall be in writing signed by or on behalf of the respondent and shall state his mailing address. It need not be verified or follow any particular form.

11507. At any time before the matter is submitted for decision the agency may file or permit the filing of an amended or supplemental accusation. All parties shall be notified thereof. If the amended or supplemental accusation presents new charges the agency shall afford respondent a reasonable opportunity to prepare his defense thereto, but he shall not be entitled to file a further pleading unless the agency in its discretion so orders. Any new charges shall be deemed controverted, and any objections to the amended or supplemental accusation may be made orally and shall be noted in the record.

Amendment
of accusation

11508. The agency shall determine the time and place of hearing. The hearing shall be held in San Francisco if the transaction occurred or the respondent resides within the First

Time and
place of
hearing

District Court of Appeal district, in the County of Los Angeles if the transaction occurred or the respondent resides within the Second or Fourth District Court of Appeal districts, and in the County of Sacramento if the transaction occurred or the respondent resides within the Third District Court of Appeal district. Provided that the agency, if the transaction occurred in a district other than that of respondent's residence, may select the county appropriate for either district; the agency may select a different place nearer the place where the transaction occurred or the respondent resides; or the parties by agreement may select any place within the State.

Notice of
hearing

11509. The agency shall deliver or mail a notice of hearing to all parties at least 10 days prior to the hearing. The hearing shall not be prior to the expiration of the time within which the respondent is entitled to file a notice of defense.

The notice to respondent shall be substantially in the following form but may include other information:

You are hereby notified that a hearing will be held before [here insert name of agency] at [here insert place of hearing] on the ____ day of _____, 19____, at the hour of _____, upon the charges made in the accusation served upon you. You may be present at the hearing, may be but need not be represented by counsel, may present any relevant evidence, and will be given full opportunity to cross-examine all witnesses testifying against you. You are entitled to the issuance of subpoenas to compel the attendance of witnesses and the production of books, documents or other things by applying to [here insert appropriate office of agency].

Subpoenas

11510. (a) Before the hearing has commenced the agency shall issue subpoenas and subpoenas duces tecum at the request of any party in accordance with the provisions of Section 1985 of the Code of Civil Procedure. After the hearing has commenced the agency itself hearing a case or a hearing officer sitting alone may issue subpoenas and subpoenas duces tecum.

(b) The process issued pursuant to subdivision (a) shall extend to all parts of the State and shall be served in accordance with the provisions of Sections 1987 and 1988 of the Code of Civil Procedure. No witness shall be obliged to attend at a place out of the county in which he resides unless the distance be less than 100 miles from his place of residence, except that the agency, upon affidavit of any party showing that the testimony of such witness is material and necessary, may indorse on the subpoena an order requiring the attendance of such witness.

(c) All witnesses appearing pursuant to subpoena, other than the parties or officers or employees of the State or any political subdivision thereof, shall receive fees, and all witnesses appearing pursuant to subpoena, except the parties, shall receive mileage in the same amount and under the same circumstances as prescribed by law for witnesses in civil actions in a superior court. Witnesses appearing pursuant to subpoena, except the parties, who attend hearings at points so far removed from their

residences as to prohibit return thereto from day to day shall be entitled in addition to fees and mileage to a per diem compensation of \$3 for expenses of subsistence for each day of actual attendance and for each day necessarily occupied in traveling to and from the hearing. Fees, mileage and expenses of subsistence shall be paid by the party at whose request the witness is subpoenaed.

11511. On verified petition of any party, an agency may ^{Depositions} order that the testimony of any material witness residing within or without the State be taken by deposition in the manner prescribed by law for depositions in civil actions. The petition shall set forth the nature of the pending proceeding; the name and address of the witness whose testimony is desired; a showing of the materiality of his testimony; a showing that the witness will be unable or can not be compelled to attend; and shall request an order requiring the witness to appear and testify before an officer named in the petition for that purpose. Where the witness resides outside the State and where the agency has ordered the taking of his testimony by deposition, the agency shall obtain an order of court to that effect by filing a petition therefor in the superior court in Sacramento County. The proceedings thereon shall be in accordance with the provisions of Section 11189 of the Government Code.

11512. (a) Every hearing in a contested case shall be ^{Conduct of hearing} presided over by a hearing officer. The agency itself shall determine whether the hearing officer is to hear the case alone or whether the agency itself is to hear the case with the hearing officer.

(b) When the agency itself hears the case the hearing officer shall preside at the hearing, rule on the admission and exclusion of evidence, and advise the agency on matters of law; the agency itself shall exercise all other powers relating to the conduct of the hearing but may delegate any or all of them to the hearing officer. When the hearing officer alone hears a case he shall exercise all powers relating to the conduct of the hearing.

(c) A hearing officer or agency member shall voluntarily disqualify himself and withdraw from any case in which he can not accord a fair and impartial hearing or consideration. Any party may request the disqualification of any hearing officer or agency member by filing an affidavit, prior to the taking of evidence at a hearing, stating with particularity the grounds upon which it is claimed that a fair and impartial hearing can not be accorded. Where the request concerns an agency member the issue shall be determined by the other members of the agency. Where the request concerns the hearing officer the issue shall be determined by the agency itself if the agency itself hears the case with the hearing officer, otherwise the issue shall be determined by the hearing officer. No agency member shall withdraw voluntarily or be subject to disqualification if his disqualification would prevent the existence of a quorum qualified to act in the particular case.

(d) The proceedings at the hearing shall be reported by a phonographic reporter.

Evidence:

11513. (a) Oral evidence shall be taken only on oath or affirmation.

(b) Each party shall have these rights: to call and examine witnesses; to introduce exhibits; to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party first called him to testify; and to rebut the evidence against him. If respondent does not testify in his own behalf he may be called and examined as if under cross-examination.

(c) The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining any direct evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. The rules of privilege shall be effective to the same extent that they are now or hereafter may be recognized in civil actions, and irrelevant and unduly repetitious evidence shall be excluded.

Affidavit, in
lieu of oral
evidence

11514. (a) Evidence may be introduced by any party in affidavit form in lieu of oral testimony and shall be given the same effect as if the affiant had testified orally, provided that the opposing parties shall have the right, on request made prior to submission of the case for decision, to cross-examine the affiant. At the time the affidavit is introduced the agency shall give notice of the right of cross-examination and copies shall be delivered to the opposing parties.

(b) Prior to the hearing the agency may mail or deliver any affidavits to respondent, together with a notice that it proposes to introduce such affidavits at the hearing in lieu of oral testimony, and that unless respondent, within 10 days after such mailing or delivery, or the expiration of the time to request a hearing, whichever is later, files a request to cross-examine a particular affiant at the hearing, his right to cross-examine such affiant shall be deemed waived. If within such time respondent requests the right to cross-examine an affiant, the affidavit of that affiant may be introduced in evidence only if the right to cross-examine him is afforded at the hearing.

(c) The notice to the respondent shall be substantially in the following form:

The accompanying affidavit of [here insert name of affiant] will be introduced as evidence against you. [Here insert name of affiant] will not be called to testify orally and you will not be entitled to question him unless you notify [here insert name of agency] at [here insert address of agency] that you wish

to cross-examine him. To be effective your request must be received by [here insert name of agency] on or before [here insert date].

(d) If the respondent fails to file a notice of defense or to appear at the hearing affidavits may be filed in support of the accusation and may thereupon be used as proof without any notice to respondent.

11515. In reaching a decision official notice may be taken, either before or after submission of the case for decision, of any generally accepted technical or scientific matter within the agency's special field, and of any fact which may be judicially noticed by the courts of this State. Parties present at the hearing shall be informed of the matters to be noticed, and those matters shall be noted in the record, referred to therein, or appended thereto. Any such party shall be given a reasonable opportunity on request to refute the officially noticed matters by evidence or by written or oral presentation of authority, the manner of such refutation to be determined by the agency.

11516. The agency may order amendment of the accusation after submission of the case for decision. Each party shall be given notice of the intended amendment and opportunity to show that he will be prejudiced thereby unless the case is reopened to permit the introduction of additional evidence in his behalf. If such prejudice is shown the agency shall reopen the case to permit the introduction of additional evidence.

11517. (a) If a contested case is heard before an agency itself the hearing officer who presided at the hearing shall be present during the consideration of the case and if requested, shall assist and advise the agency. Where a contested case is heard before an agency itself, no member thereof who did not hear the evidence shall vote on the decision.

(b) If a contested case is heard by a hearing officer alone, he shall prepare a proposed decision in such form that it may be adopted as the decision in the case. A copy of the proposed decision shall be filed by the agency as a public record. The agency itself may adopt the proposed decision in its entirety, or may reduce the proposed penalty and adopt the balance of the proposed decision.

(c) If the proposed decision is not adopted as provided in subdivision (b) each party shall be furnished with a copy of the proposed decision. The agency itself may decide the case upon the record, including the transcript, with or without taking additional evidence, or may refer the case to the same or another hearing officer to take additional evidence. If the case is so assigned to a hearing officer he shall prepare a proposed decision as provided in subdivision (b) upon the additional evidence and the transcript and other papers which are part of the record of the prior hearing. A copy of such proposed decision shall be furnished to each party. The agency itself shall decide no case provided for in this subdivision without affording the parties the opportunity to present either oral or written argument before the agency itself. If additional oral evidence

is introduced before the agency itself no agency member may vote unless he heard the additional oral evidence.

Form and
notice of
decision

11518. The decision shall contain findings of fact, a determination of the issues presented and the penalty, if any. The findings may be stated in the language of the pleadings or by reference thereto. The decision shall be in writing and certified as correct by the agency. Copies of the decision shall be delivered to the parties personally or sent to them by registered mail.

Effective
date of
decision

11519. The decision shall become effective 30 days after it is delivered or mailed to respondent unless: a reconsideration is ordered within that time, or the agency itself orders that the decision shall become effective sooner, or a stay of execution is granted. A stay of execution may be included in the decision or if not included therein may be granted by the agency at any time before the decision becomes effective.

If respondent was required to register with any public officer, a notification of any suspension or revocation shall be sent to such officer after the decision has become effective.

Defaults and
uncontested
cases

11520. If the respondent fails to file a notice of defense or to appear at the hearing, the agency itself may take action based upon the respondent's express admissions or upon other evidence. Nothing herein shall be construed to deprive the respondent of the right to make any showing by way of mitigation.

Reconsid-
eration

11521. (a) The agency itself may order a reconsideration of all or part of the case on its own motion or on petition of any party. The power to order a reconsideration shall expire 30 days after the delivery or mailing of a decision to respondent, or on the date set by the agency itself as the effective date of the decision if such date occurs prior to the expiration of the 30-day period. If no action is taken on a petition within the time allowed for ordering reconsideration the petition shall be deemed denied.

(b) The case may be reconsidered by the agency itself on all the pertinent parts of the record and such additional evidence and argument as may be permitted, or may be assigned to a hearing officer. A reconsideration assigned to a hearing officer shall be subject to the procedure provided in Section 11517. If oral evidence is introduced before the agency itself no agency member may vote unless he heard the evidence.

Reinstatement and
reduction of
penalty

11522. A person whose license has been revoked or suspended may petition the agency for reinstatement or reduction of penalty after a period of not less than one year has elapsed from the effective date of the decision or from the date of the denial of a similar petition. The agency shall give notice to the Attorney General of the filing of the petition and the Attorney General and the petitioner shall be afforded an opportunity to present either oral or written argument before the agency itself. The agency itself shall decide the petition, and the decision shall include the reasons therefor. This section shall not apply if the

statutes dealing with the particular agency contain different provisions for reinstatement or reduction of penalty.

11523. Judicial review may be had by filing a petition for a writ of mandate in accordance with the provisions of the Code of Civil Procedure. Except as otherwise provided in this section any such petition shall be filed within 30 days after the last day on which reconsideration can be ordered. The right to petition shall not be affected by the failure to seek reconsideration before the agency. The complete record of the proceedings, or such parts thereof as are designated by the petitioner, shall be prepared by the agency and shall be delivered to petitioner, within 20 days after a request therefor by him, upon the payment of the expense of preparation and certification thereof. The complete record includes the pleadings, all notices and orders issued by the agency, any proposed decision by a hearing officer, the final decision, a transcript of all proceedings, the exhibits admitted or rejected, the written evidence and any other papers in the case. Where petitioner, within 10 days after the last day on which reconsideration can be ordered, requests the agency to prepare all or any part of the record the time within which a petition may be filed shall be extended until five days after its delivery to him. The agency may file with the court the original of any document in the record in lieu of a copy thereof.

11524. The agency may grant continuances at any stage of the proceedings.

11525. If any person in proceedings before an agency disobeys or resists any lawful order or refuses to respond to a subpoena, or refuses to take the oath or affirmation as a witness or thereafter refuses to be examined, or is guilty of misconduct during a hearing or so near the place thereof as to obstruct the proceeding, the agency shall certify the facts to the superior court in and for the county where the proceedings are held. The court shall thereupon issue an order directing the person to appear before the court and show cause why he should not be punished as for contempt. The order and a copy of the certified statement shall be served on the person. Thereafter the court shall have jurisdiction of the matter. The same proceedings shall be had, the same penalties may be imposed and the person charged may purge himself of the contempt in the same way, as in the case of a person who has committed a contempt in the trial of a civil action before a superior court.

11526. The members of an agency qualified to vote on any question may vote by mail.

11527. Any sums authorized to be expended under this chapter by any agency shall be a legal charge against the funds of the agency.

11528. In any proceedings under this chapter any agency, agency member, secretary of an agency or hearing officer has power to administer oaths and affirmations and to certify to official acts.

CHAPTER 868

An act to add Section 1091.5 to the Code of Civil Procedure, relating to the judicial review of administrative decisions.

In effect
September
15, 1945

[Approved by Governor June 15, 1945 Filed with Secretary of State
June 15, 1945]

The people of the State of California do enact as follows:

SECTION 1. Section 1094.5 is added to the Code of Civil Procedure, to read:

Court review
of admini-
trative
orders

1094.5. (a) Where the writ is issued for the purpose of inquiring into the validity of any final administrative order or decision made as the result of a proceeding in which by law a hearing is required to be given, evidence is required to be taken and discretion in the determination of facts is vested in the inferior tribunal, corporation, board or officer, the case shall be heard by the court sitting without a jury. All or part of the record of the proceedings before the inferior tribunal, corporation, board or officer may be filed with the petition, may be filed with respondent's points and authorities or may be ordered to be filed by the court. If the expense of preparing all or any part of the record has been borne by the prevailing party, such expense shall be taxable as costs.

Jurisdiction

(b) The inquiry in such a case shall extend to the questions whether the respondent has proceeded without, or in excess of jurisdiction; whether there was a fair trial; and whether there was any prejudicial abuse of discretion. Abuse of discretion is established if the respondent has not proceeded in the manner required by law, the order or decision is not supported by the findings, or the findings are not supported by the evidence.

Abuse of
discretion

(c) Where it is claimed that the findings are not supported by the evidence, in cases in which the court is authorized by law to exercise its independent judgment on the evidence, abuse of discretion is established if the court determines that the findings are not supported by the weight of the evidence; and in all other cases abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

Relevant
evidence

(d) Where the court finds that there is relevant evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before respondent, it may enter judgment as provided in subdivision (e) of this section remanding the case to be reconsidered in the light of such evidence; or, in cases in which the court is authorized by law to exercise its independent judgment on the evidence, the court may admit such evidence at the hearing on the writ without remanding the case.

Judgment

(e) The court shall enter judgment either commanding respondent to set aside the order or decision, or denying the writ. Where the judgment commands that the order or decision be set aside, it may order the reconsideration of the case

in the light of the court's opinion and judgment and may order respondent to take such further action as is specially enjoined upon it by law but the judgment shall not limit or control in any way the discretion legally vested in the respondent.

(f) The court in which proceedings under this section are instituted may stay the operation of the administrative order or decision pending the judgment of the court, provided that no such stay shall be imposed or continued if the court is satisfied that it is against the public interest. If an appeal is taken from a denial of the writ, the order or decision of the agency shall not be stayed except upon the order of the court to which such appeal is taken. If an appeal is taken from the granting of the writ, the order or decision of the agency is stayed pending the determination of the appeal unless the court to which such appeal is taken shall otherwise order. Where any final administrative order or decision is the subject of proceedings under this section, if the petition shall have been filed while the penalty imposed is in full force and effect the determination shall not be considered to have become moot in cases where the penalty imposed by the administrative agency has been completed or complied with during the pendency of such proceedings.

Stay of order
or decision

All departments, agencies, officers and employees of the State shall give the department ready access to their records and full information and reasonable assistance in any matter of research requiring recourse to them or to data within their knowledge or control.

SECTION 1. Section 120 of the Agricultural Code is amended to read:

120. It is unlawful to sell any nursery stock without first having obtained an annual license so to do from the director. Such license for the fiscal year shall be issued to any person who sells plants at any place in the State upon receipt of payment of a minimum fee of ten dollars (\$10), to which shall be added the sum of two dollars (\$2) for each branch sales yard, store or sales location owned and operated in the State as an additional fee, and the sum of fifty cents (\$.50) for each acre or portion thereof after the first acre; provided, that in no case shall the fee for such acreage exceed fifteen dollars (\$15). The applicant shall further satisfy the director of his or its character and good faith in seeking to carry on the business of selling nursery stock.

The fees for the renewal of the annual license shall be paid between the first day of April and the first day of July of each year for the fiscal year beginning July 1st of such year. Failure to pay the renewal license fee prior to the eleventh day of July of each year, for the year ensuing, shall ipso facto work a forfeiture of the right to sell nursery stock. Any person who has been previously licensed to sell nursery stock and whose right to so sell has been forfeited shall not be issued a renewal license except upon written application to the department, accompanied by a sum equal to the regular license fee plus a restoration fee in an amount equal to the regular license fee; but no such restoration fee shall be required of any person whose application for renewal of license is accompanied by his affidavit that prior to the date of his application he has not sold any nursery stock during any part of the fiscal year for which he applies for renewal of license.

A person not regularly engaged in the nursery business, shall not be required to pay the above-mentioned fee if his sales of plants amount to less than one hundred dollars (\$100) within any one fiscal year and if he has reported to the commissioner his intention to make such sales. All plants sold by him must be of his own production, and sold for planting within the county where grown. Exception

The license may be suspended or revoked or issuance refused when, after investigation and hearing, it is determined that the licensee or the applicant has wilfully refused to comply with the laws and regulations relative to nursery stock or to any pest which might be carried by such nursery stock. The proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the director shall have all the powers granted therein. Revocation, etc

Retail florists and others who sell plants at retail for indoor decorative purposes only are exempt as to such plants from the provisions of this section.

Persons who sell seeds and who do not sell or ship any other kinds of nursery stock are exempt from the provisions of this section.

SEC. 2. Section 215.12 of said code is amended to read :

In effect
September
15, 1945

[Approved by Governor June 15, 1945 Filed with Secretary of State
June 15, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 10331.5 is added to the Insurance Code, to read:

"Schedule type policies"

10331.5. As used in this article, "schedule type policies" means policies which by their terms afford insurance only with respect to such and so many of the various types of coverage described in the forms thereof as for which separate premium charges are made and specified in a schedule on the first page thereof.

SEC. 2. Section 10332 of said code is amended to read:

Contract

10332. There shall be a standard provision relative to the contract which shall be in one of the following three forms. Form (A) shall be used in policies which do not provide for reduction of indemnity on account of change of occupation, and form (B) shall be used in policies which do so provide. Form (C) shall be used in all policies providing for reduction of indemnity on account of change of occupation only as respects part of the accident coverage or part of the health coverage thereunder. If form (B) or form (C) is used and the policy provides indemnity against loss from sickness, the words "or contracts sickness" may be inserted therein immediately after the words "in the event that the insured is injured." If form (C) is used and the policy provides indemnity against loss from sickness the words "or sickness" may be

inserted therein immediately after the words "where the injuries."

(A) 1. This policy includes the endorsements and attached papers, if any, and contains the entire contract of insurance. No reduction shall be made in any indemnity herein provided by reason of change in the occupation of the insured or by reason of his doing any act or thing pertaining to any other occupation.

(B) 1. This policy includes the endorsements and attached papers, if any, and contains the entire contract of insurance except as it may be modified by the insurer's classification of risks and premium rates in the event that the insured is injured after having changed his occupation to one classified by the insurer as more hazardous than that stated in the policy, or while he is doing any act or thing pertaining to any occupation so classified, except ordinary duties about his residence or while engaged in recreation, in which event the insurer will pay only such portion of the indemnities provided in the policy as the premium paid would have purchased at the rate but within the limits so fixed by the insurer for such more hazardous occupation.

If the law of the State in which the insured resides at the time this policy is issued requires that prior to its issue a statement of the premium rates and classification of risks pertaining to it shall be filed with the State official having supervision of insurance in such State, then the premium rates and classification of risks mentioned in this policy shall mean only such as have been last filed by the insurer in accordance with such law, but if such filing is not required by such law, then they shall mean the insurer's premium rates and classification of risks last made effective by it in such State prior to the occurrence of the loss for which the insurer is liable.

(C) 1. This policy includes the endorsements and attached papers, if any, and contains the entire contract of insurance except as it may be modified by the insurer's classification of risks and premium rates in the event that the insured is injured after having changed his occupation to one classified by the insurer as more hazardous than that stated in the policy, or while he is doing any act or thing pertaining to any occupation so classified, except ordinary duties about his residence or while engaged in recreation, in which event the insurer will pay only such portion of the indemnities provided in the policy as the premium paid would have purchased at the rate but within the limits so fixed by the insurer for such more hazardous occupation. No such mentioned modification or reduction shall be effective with respect to indemnities which by the terms of the policy, including any riders attached thereto, are not subject to modification or reduction where the injuries do not arise out of or in the course of the insured's occupation or employment.

If the law of the State in which the insured resides at the time this policy is issued requires that prior to its issue a statement of the premium rates and classification of risks pertaining

to it shall be filed with the State official having supervision of insurance in such State then the premium rates and classification of risks mentioned in this policy shall mean only such as have been last filed by the insurer in accordance with such law, but if such filing is not required by such law then they shall mean the insurer's premium rates and classification of risks last made effective by it in such State prior to the occurrence of the loss for which the insurer is liable.

SEC. 3. Section 10335 of said code is amended to read:

Notice of
claim

10335. There shall be a standard provision relative to time of notice of claim, which shall be in any of the three following forms: Form (A) shall be used in policies which insure only against loss from accident; form (B) shall be used in policies which insure only against loss from sickness, and form (C) shall be used in policies which insure against loss from both accident and sickness and in all schedule type policies. If form (A) or form (C) is used the insurer may at its option add thereto the following: "In event of accidental death immediate notice thereof must be given to the insurer." The words in parentheses may be used only in schedule type policies.

(A) 4. Written notice of injury on which claim may be based must be given to the insurer within 20 days after the date of the accident causing such injury.

(B) 4. Written notice of sickness on which claim may be based must be given to the insurer within 10 days after the commencement of the disability from such sickness.

(C) 4. Written notice of injury or of sickness (if covered by this policy) on which claim may be based must be given to the insurer within 20 days after the date of the accident causing such injury or within 10 days after the commencement of disability from such sickness.

SEC. 4. Section 10338 of said code is amended to read:

Proof of loss

10338. There shall be a standard provision relative to filing proof of loss which shall be in the one of the following forms appropriate to the indemnities provided. The words in parentheses may be used only in schedule type policies.

(A) 7. Affirmative proof of loss must be furnished to the insurer at its said office within 90 days after the date of the loss for which claim is made.

(B) 7. Affirmative proof of loss must be furnished to the insurer at its said office within 90 days after the termination of the period of disability for which the company is liable.

(C) 7. Affirmative proof of loss must be furnished to the insurer at its said office in case of claim for loss of time from disability (if covered by this policy) within 90 days after the termination of the period for which the insurer is liable, and in case of claim for any other loss, within 90 days after the date of such loss.

SEC. 5. Section 10340 of said code is amended to read:

Time of
payments

10340. There shall be a standard provision relative to the time within which payments other than those for loss of time on account of disability shall be made. Such provision shall

be in either of the following two forms and may be omitted from any policy providing only indemnity for loss of time on account of disability. Appropriation to San Bernardino County Flood Control District

Approval of Director of Finance

District upon order of the Director of Finance after application therefor has been made to him by said San Bernardino County Flood Control District showing the necessity, purpose and use to be made of said funds or by showing that said San Bernardino County Flood Control District had made necessary advances or incurred obligations for the purpose of expediting the project hereinabove referred to and giving such other information as he may require. Expenditures of said sums shall be reported to the Director of Finance as and when required by him. Such report shall give such information as he may require. The Director of Finance may refuse to make any order transferring any of said funds if the provisions hereof are violated. The director shall render a report to the Legislature respecting the expenditure of said appropriation.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

That the flood control project contemplated in this act has been recommended by the United States Army Engineers for immediate construction so as to prevent the interruption in the movement of war freight and troops to the Pacific War Zone and the Federal Government has made available funds to meet the cost for the construction of such project and has made available material and labor so that the work of construction may go forward immediately. That unless the floods from the Lytle and Cajon Creeks are controlled by the immediate construction of such project, three transcontinental railroads, two main State highways, numerous war industries, as well as the City of San Bernardino and the City of Colton and the inhabitants thereof will be exposed to the dangers from floods during the coming winter. That heretofore floods from said Lytle and Cajon Creeks have assumed such proportions that the transportation systems of said railroads have been completely paralyzed for long periods of time, State highways and bridges have been destroyed, interrupting the flow of traffic and preventing the transportation of army supplies and troops to the Pacific War Zone. That the prosecution of the Pacific war and the movement of war material and troops into that war zone is largely dependent upon the said railroad system and highways, and that interruption of such traffic will materially endanger the prosecution of such war. That the seriousness of such condition is emphasized by the demand of the United States Army Engineers that the work upon such project be commenced immediately and prosecuted diligently to completion. That in order to proceed with such project and have said work proceed forthwith, it is necessary that the moneys herein appropriated be made available immediately for the purposes herein stated.

The projects involved are necessary for the preservation of lives and property of citizens of this State, and it is therefore necessary that this act take effect immediately.

Upon the basis of such examination said board shall determine whether such retired member is still incapacitated, physically or mentally, for service in the position held by him at the time of his retirement. If said board determines that such retired member is not so incapacitated, his pension shall be canceled forthwith, and subject to rules and regulations which may have been adopted by the county for the reinstatement or reemployment of personnel, he shall be eligible for reinstatement to a position in the class in which he was employed at time of retirement.

Cancellation

ment

Should the pension of any such retired member be canceled, there shall be paid to him immediately out of said fund, an amount equal to his accumulated contributions, as of the date of his retirement, together with all interest which shall have been credited to his account as provided for herein, less an

amount equal to one-half of the pension payments made to him during the period of his retirement.

He shall also receive credit for all service rendered by him prior to the time of his disability retirement; provided, that he shall have deposited into said fund within six months after his reinstatement or reemployment an amount equal to the amount paid to him upon cancellation of his pension.

Estimates of amounts 32201. Annually, at least 15 days before the first day of the month in which county taxes are levied, the board of directors of each local hospital district shall furnish to the board of supervisors of the county in which the district or any part thereof is situated an estimate in writing of the amount of money necessary to be raised by taxation for all purposes required under the provisions of this division during the next ensuing fiscal year.

Special tax 32202. The board of supervisors shall thereupon levy a special tax upon all taxable property of the county lying within the district sufficient in amount to maintain the district.

Tax limitation 32203. The tax shall in no case exceed the rate of 20 cents (\$0.20) on each one hundred dollars (\$100) of the assessed valuation of all taxable property within the district, but it may be in addition to all other taxes allowed by law to be levied upon such property.

Method of computation, collection, etc 32204. The tax shall be computed, entered upon the tax rolls and collected in the same manner as county taxes are computed, entered and collected. All moneys so collected shall be paid into the county treasury to the credit of the particular local hospital district fund and shall be paid out on the order of the district board, signed by the president and secretary thereof.

Apportionment between counties 32205. If the district embraces territory lying in more than one county, the amount estimated shall be ratably apportioned among the several counties in the district in proportion to the assessed value of the property in the several counties included within said district as shown upon the last assessment rolls of the said counties, and the estimates apportioned to the several counties shall be rendered to their respective boards of supervisors and the tax shall be levied and collected by the officials of each county upon the property of the district lying therein.

Article 2. Capital Outlays

Discontinuance of fund 32223. Whenever a capital outlay fund is established, it shall be used only for such purposes, except the board of directors may, by a four-fifth vote of all members, if it finds that the

fund is no longer necessary or that there remain in the fund moneys which are no longer required for such purpose, discontinue the fund or transfer so much thereof as is no longer required for capital outlay purposes to the repayment of any bonds outstanding, or if there are no bonds outstanding, to any fund used for the payment of current expenses of the district.

Article 3. Special Assessments

32240. Whenever it is desired that expenditures be made by the district for the acquisition, construction, maintenance, or alteration of work for the purpose of facilitating the carrying out of the purpose of this division in any district, the board of directors thereof may submit to the electors of the district the question of whether or not the additional expenditure shall be made out of the proceeds of a special assessment to be levied in like manner and on the same basis as the regular annual assessment made by the district. Special assessments

32241. An election shall be held to authorize such assessment and may be called by the board of directors of the district in its discretion. Such an election shall be called upon presentation to the board of directors of a petition requesting the levy of the assessment and specifying the object and purposes for which the proceeds thereof shall be expended. Such petition must be signed by electors entitled to cast a number of votes at district elections equal to at least 15 per cent vote of the number of votes cast at the last district election. Election

The resolution of the board of directors calling an election to decide whether a special assessment shall be levied, in addition to all other matters required by this division for a resolution calling an election, shall state the amount of the proposed expenditure for which assessment is to be levied, the amount of the assessment which will be levied to raise such amount for expenditure, allowing for a delinquency of 15 per cent, and the rate of the assessment necessary to raise such amount. Contents of resolution

32243. If two-thirds of the votes cast at the election are in favor of the special assessment, the board of directors shall cause the assessment to be levied in like manner as a regular assessment to pay the regular annual expenses of the district. Such special assessment shall be in addition to the limitation prescribed in Section 32203. Levy

CHAPTER 4. BONDS

32300. Bonds may be issued by a district for the purpose of acquiring, maintaining, constructing, or altering work, when, in the opinion of the directors, a special assessment would be inadvisable, and the expenses of such operations will be in excess of an amount which can reasonably be raised by the regular annual assessment for the running expenses of the district. Issuance of bonds

- Election** 32301. An election shall be held to authorize the issuance of any bonds of a district. The board of directors of a district may call such election at its discretion, and it shall call such election upon presentation to it of a petition requesting the issuance of bonds, specifying the purpose to which the proceeds are to be applied, and signed by electors of the district entitled to cast votes equal in number to at least 15 per cent of the total number of votes of all the electors of the district.
- Contents of resolution** 32302. The resolution of the board of directors calling a bond election, in addition to all of the matters required by this division for a resolution calling an election, shall state the amount of the proposed bond issue, the rate of interest thereon, and the maximum date of maturity of the bonds. If two-thirds of the votes cast at the bond election are in favor of the issuance of the bonds, the board of directors shall cause bonds to be issued.
- Powers of board of directors** 32303. The board of directors of any district issuing bonds shall, prior to the issuance of such bonds, determine by resolution entered on its minutes:
- (a) The denomination or denominations of the bonds.
 - (b) The aggregate par value of the bond issued.
 - (c) The date or dates of issuance of the bond.
 - (d) The date or dates of the maturity of the bond; but no bond shall mature more than 20 years after the date of issuance.
 - (e) The number and numerical sequence of the bonds maturing at each date of maturity.
 - (f) The annual rate of interest which the bonds shall bear.

 - (h) The technical form and language of the bonds and of the interest coupons attached thereto.
- Maturity** 32304. Bonds first to mature in each issue shall mature not later than five years from the date of issuance thereof; and those last to mature of each issue shall mature not later than 20 years from the date of issuance thereof.
- Interest** 32305. The rate of interest to be borne by bonds issued under the authority of this chapter shall be uniform for all bonds of the same issue, and shall be fixed by the governing body issuing the bonds according to the then prevailing market conditions. The rate of interest shall not exceed a rate of 6 per cent per annum. The determination by the board of directors of the rate of interest shall be conclusive as to the then prevailing market conditions.
- Denomination** 32306. Bonds issued under the authority of this chapter shall be of a denomination not less than one hundred dollars (\$100), nor more than one thousand dollars (\$1,000).
- Signatures** 32307. All bonds issued pursuant to this chapter shall be signed by the presiding officer and attested by the secretary of the board of directors of the district, and shall be valid as to future sale thereafter, regardless of whether at the time of sale the officer so signing is still the incumbent of such office.
- Legal investment** 32308. Where the total of the principal amounts of the bonds authorized to be issued by any hospital district does not exceed

10 per cent of the assessed valuation of all the property in the district as shown by the last equalized county assessment rolls of the county in which the district lies such bonds are legal investments for savings banks and may lawfully be purchased or received in pledge by banks and trust companies. Whenever any money or funds may be invested in bonds of any county, city and county, city, or other municipal or corporate body, such money or funds may be invested in bonds of hospital districts which are legal investments for savings banks.

32309. After the bonds have been issued, the board of directors may, from time to time, sell bonds in such quantities as may be necessary and most advantageous to raise money for the purposes for which they were issued. Sale of bonds

32310. Bonds shall be sold for at least par value. Before making any sales, the board of directors of the district shall, by resolution entered on its minutes, declare its intention to sell a specified amount of bonds, and the day, hour, and place of such sale. Notice of the sale shall be given by publication, and shall state that sealed proposals for the purchase of bonds will be received by the board of directors at its office until the day and hour named in the resolution. Same Notice

32311. At the time appointed, the board of directors shall open the proposals, and may sell the bonds or any portion thereof to the highest responsible bidder or bidders. Any and all bids may be rejected and no proposal shall be accepted unless accompanied by a certified check for such reasonable percentage of the amount of the bid as shall be determined by the board of directors, to apply to the purchase price of the bonds. The amount of such check shall be forfeited if, after the acceptance of the proposal the bidder refuses to accept the bond and to complete his purchase thereof on conditions stated in his bid. In case no award is made the board of directors thereafter may again advertise the bonds or any part thereof for sale. Acceptance or rejection of bids

32312. Bonds and the interest thereon shall be paid from revenues derived from assessments levied pursuant to this division. Payment

32313. The board of directors of every local hospital district in which bonds are issued, shall include in the annual assessment to pay the expenses of operation of the district a sum sufficient to pay the interest for the period covered by the assessments on all bonds outstanding and in addition a sum which, with approximately equal amounts each year thereafter until the maturity of the last issued, will be sufficient to make available sufficient moneys to pay the principal of each issue at maturity. In effect
September

I object to the item of \$12,000,000 in Section 5 of Senate Bill No 608, and I reduce said amount to \$6,000,000 My reason for making this reduction is that an identical appropriation is made by Assembly Bill No 2180 I am similarly reducing the appropriation made by that bill in order that the total appropriation made by the two bills shall equal the sum of \$12,000,000.

EARL WARREN
Governor of California

The people of the State of California do enact as follows:

SECTION 1. Declaration of Policy. The Congress of the United States has enacted the Federal-Aid Highway Act of 1944 in which the sum of one hundred fifty million dollars (\$150,000,000) has been authorized to be appropriated for projects on the principal secondary and feeder roads, including farm to market roads, rural free delivery mail and public school bus routes in the various States. By apportionment of the authorization made pursuant to said Federal act, it is anticipated that the sum of approximately fifteen million dollars (\$15,000,000) will be made available for expenditure on such roads in California in the three-year period immediately following termination of the war on the basis provided in the Federal-Aid Highway Act. Said apportionment to California is to be made available for expenditure on either State highways or county highways which qualify under the Federal law. County highways throughout the State have deteriorated to such an extent as to be a matter of primary State concern. It is, therefore, determined by the Legislature that, insofar as permissible under Federal law, rules and regulations, at least eighty-seven and one-half per cent (87½%) of the money apportioned to California for such projects as are mentioned in subdivision (b) of Section 3 of the Federal-Aid Highway Act of 1944 should be expended for the improvement of the county highways in this State. Inasmuch as these county highways are a matter of State concern and many of the counties are financially unable to furnish funds to be used with the Federal funds as required by Federal law, funds should be provided from State sources therefor.

Ch 626

SEC. 2 As used in this act, "county highway" means county highway as defined by Section 25 of the Streets and Highways Code, which is on the system of secondary and feeder roads as defined by the Federal-Aid Highway Act of 1944

"County
highway"

Inasmuch as the funds available for construction of highways pursuant to the provisions of subdivision (b) of Section 3 of the

"Counts"

Federal-Aid Highway Act of 1944 may not be expended in any municipality of 5,000 or more population, "county" as used in this act does not include a city and county.

"Construction"

As used in this act, "construction" means construction as defined by the Federal-Aid Highway Act of 1944.

Effect on status of county highway

SEC. 3. The provisions of this act or any action taken pursuant to it (including construction on any county highway) shall not be deemed to change the status of any county highway into that of a State highway notwithstanding any other provision of law.

Public interest

SEC. 4. (a) It is in the interest of the State of California and of the counties of the State that at least eighty-seven and one-half per cent (87½%) of the moneys available for construction of highways in this State pursuant to the provisions of subdivision (b) of Section 3 of the Federal-Aid Highway Act of 1944 be apportioned for expenditure among the counties of this State in the manner and in accordance with the formula prescribed in subdivision (b) of Section 4 of said Federal act for apportionment among the States.

Recommendation of projects

(b) The Department of Public Works shall in behalf of the State and the counties recommend such projects and take such other action within the powers conferred on it by law as to comply with paragraph (a) of this section and the other provisions of this act as fully as applicable Federal laws, rules, or regulations permit.

Appropriation

SEC. 5. Out of any moneys in the State treasury not otherwise appropriated, there is hereby appropriated the sum of twelve million dollars (\$12,000,000), which sum shall be transferred by the State Controller on the effective date of this act to the State Highway Fund and shall be expended by the Department of Public Works to pay the State's share for construction of county highways as provided in this act. The said sum of twelve million dollars (\$12,000,000) hereby appropriated shall be apportioned for expenditure in the counties of the State on the same formula as provided in subdivision (b) of Section 4 of said Federal act for apportionment of said Federal moneys among the several States. None of the appropriation hereby made shall be expended on any highway, street, or road which is not a county highway, except as expressly otherwise provided in this act.

Submission of projects

SEC. 6. The Department of Public Works shall notify each county on the effective date of this act or as soon thereafter as possible of the amount of money to be available for expenditure in said county from said Federal apportionment and of the amount of money available from the appropriation hereby made to pay the State's share in conjunction with the Federal aid in the county. Each county shall within six months after such notice submit to the department a description of the projects on county highways in said county which are approved by the county and are eligible for such Federal aid under said Federal-Aid Highway Act of 1944.

The boards of supervisors of the several counties and the department are authorized and directed to enter into cooperative agreements and to do all other things necessary and proper in their respective jurisdictions to secure such Federal aid for construction of county highways in accordance with the intent of this act. Any such agreement shall provide that the county will maintain the project when completed as required by Federal law, rules and regulations

Cooperative
agreements

SEC. 7. If any county notifies the department that it refuses to accept the benefits of this act on the terms and conditions specified herein and in the Federal law, rules and regulations, or if any county fails to submit a description of the projects desired by it within the six months period provided in Section 6 or within such further period of time not exceeding an additional six months as may be extended by the department, the amount of the appropriation hereby made available for expenditure in said county may be expended in the discretion of the California Highway Commission on any other highway, State or county, on the approved system of secondary and feeder roads within or without said county.

Nonaccept-
ance by
county

SEC. 8. The appropriation hereby made shall continue indefinitely to be available in the State Highway Fund to be used as provided in this act.

of appro-
priation

Financial corporations. Tax imposed

(2) Each such financial corporation shall be entitled to an offset against said franchise tax, in the manner hereinafter

Same. Offset

Other corporations doing business in State

(3) With the exception of financial corporations, every corporation doing business within the limits of this State and not expressly exempted from taxation by the provisions of the Constitution of this State or by this act, shall annually pay to the State, for the privilege of exercising its corporate franchises within this State, a tax according to or measured by its net income, to be computed, in the manner hereinafter provided, at the rate of 4 per centum upon the basis of its net income for the next preceding fiscal or calendar year. In any event, each such corporation shall pay annually to the State, for the said privilege, a minimum tax of twenty-five dollars (\$25).

Stock or bond holding corporation

(4) Any corporation organized to hold the stock or bonds of any other corporation or corporations, and not trading in such stock or bonds or other securities held, and engaging in no other activities than the receipt and disbursement of dividends from such stock or interest from such bonds, shall not be considered a corporation doing business in this State for the purposes of this act.

Corporations not otherwise taxed

(5) Every corporation not otherwise taxed in pursuance of this section and not expressly exempted by the provisions of this act or the Constitution of this State shall pay annually to the State a tax of twenty-five dollars (\$25).

Exemptions

(6) The following corporations shall be exempt from taxation under this act:

(a) Incorporated labor organizations.

(b) Corporations organized for the exclusive purpose of holding title to property, collecting income therefrom, and turning over the entire amount thereof, less expenses, to an organization which itself is exempt from the tax imposed by this act.

(c) Corporations classified as diversified management companies under Section 5 of the Federal Investment Company Act of 1940, and registered as provided in that act.

(d) Cemetery companies owned and operated exclusively for the benefit of their members; or which are not operated for profit; or any corporation chartered for cemetery purposes and permitted by its charter to engage in any business related to that purpose, no part of the net earnings of which inures to the benefit of any shareholder or member thereof.

(e) Corporations organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation.

Any amount so included in the gross income of a member shall be treated as a dividend received.

(7) Taxes under this section and under Sections 1 and 2 of this act shall accrue on the last day of the "income year," as defined in Section 11 hereof. When taxes accrue

Taxes under this section shall be in lieu of all ad valorem taxes and assessments of every kind and nature upon the general corporate franchises of the corporations taxable hereunder but shall not be in lieu of any taxes or assessments upon special franchises owned, held or used by said corporations. All such special franchises shall be assessed annually by the State Board of Equalization (at their actual value) in the same manner as is provided for the assessment of other property to be assessed by said board under Section 14 of Article XIII of the Constitution of this State, and shall be subject to taxation to the same extent and in the same manner as other property so assessed by said board. Said board is hereby authorized and directed to assess said special franchises as of the first Monday in March of 1935 and annually thereafter. Taxes in lieu of ad valorem taxes, etc

SEC. 2. Section 6 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows: Stats 1913, p. 1403

Sec. 6. (a) The term "gross income," as herein used, includes gains, profits and income derived from business, of whatever kind and in whatever form paid; gains, profits or income from dealings in real or personal property; gains, profits or income received as compensation for services, as interest, rents, commissions, brokerage or other fees, or otherwise received in carrying on such business; all interest received from Federal, State, municipal or other bonds, and, except as hereinafter otherwise provided, all dividends received on stocks. Items included in gross income

Items exempt
from taxa-
tion

(b) The term "gross income" does not include the following items which shall be exempt from taxation under this act:

(1) Amounts received under life insurance policies and contracts paid by reason of the death of the insured but if such amounts are held by the insurer under an agreement to pay interest thereon, the interest payments shall be included in gross income.

(2) Amounts received (other than amounts paid by reason of the death of the insured) under life insurance, endowment or annuity contracts, either during the term or at maturity or upon surrender of the contract, equal to the total amount of premiums paid thereon. In the case of a transfer for a valuable consideration by assignment or otherwise, of a life insurance, endowment or annuity contract or any interest therein, only the actual value of such consideration and the amount of the premiums and other sums subsequently paid by the transferee shall be excluded from gross income under paragraph (b) (1) of this section. The preceding sentence shall not apply in the case of such a transfer if such contract or interest therein has a basis for determining gain or loss in the hands of a transferee determined in whole or in part by reference to such basis of such contract or interest therein in the hands of the transferor.

(3) Income, other than rent, derived by a lessor of real property upon the termination of a lease, representing the value of such property attributable to buildings erected or other improvements made by the lessee.

(4) Income attributable to the recovery during the income year of a bad debt, prior tax, or delinquency amount, to the extent of the amount of the recovery exclusion with respect to such debt, tax, or amount. For the purposes of this paragraph:

"Bad debt"

(A) The term "bad debt" means a debt on account of worthlessness or partial worthlessness of which a deduction was allowed for a prior income year.

"Prior tax"

(B) The term "prior tax" means a tax on account of which a deduction or credit was allowed for a prior income year.

"Delinquent
amount"

(C) The term "delinquency amount" means an amount paid or accrued on account of which a deduction or credit was allowed for a prior income year and which is attributable to failure to file return with respect to a tax, or pay a tax, within the time required by the law under which the tax is imposed, or to failure to file return with respect to a tax or pay a tax.

"Recovery
exclusion"

(D) The term "recovery exclusion," with respect to a bad debt, prior tax, or delinquency amount, means the amount, determined in accordance with regulations prescribed by the commissioner, of the deductions or credits allowed, on account of such bad debt, prior tax, or delinquency amount, which did not result in a reduction of the taxpayer's tax under this act or the Corporation Income Tax Act, reduced by the amount excludible in previous income years with respect to such debt, tax, or amount under this paragraph.

(5) The amount of any income of a bank or corporation attributable to the discharge, within the income year, of any

indebtedness of the taxpayer (or for which the taxpayer is liable) evidenced by a security (as hereinafter in this paragraph defined) if the taxpayer makes and files at the time of filing the return, in such manner as the commissioner by regulation prescribes, its consent to the regulations prescribed under Section 21 (b) (3). In such case the amount of any income of the taxpayer attributable to any unamortized premium (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be allowed as a deduction. As used in this paragraph the term "security" means any bond, debenture, note, or certificate, or other evidence of indebtedness, issued by any corporation.

(6) The amount of any income attributable to the discharge, within the income year, of any indebtedness of a railroad corporation, as defined in Section 77m of the National Bankruptcy Act, as amended, to the extent that such income is deemed to have been realized by reason of a modification in or cancellation in whole or in part of such indebtedness pursuant to an order of a court in a receivership proceeding or in a proceeding under Section 77 of the National Bankruptcy Act, as amended. In such case the amount of any income of the taxpayer attributable to any unamortized premium (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be allowed as a deduction. Subsection 6 (b) (5) shall not apply with respect to any discharge of indebtedness to which this paragraph applies.

(c) (1) The term "dividend" when used in this act means "Dividend" any distribution made by a corporation to its shareholders, whether in money or in other property, out of its earnings or profits accumulated after February 28, 1913, or out of the earnings or profits of the income year (computed as of the close of the income year without diminution by reason of any distributions made during the income year), without regard to the amount of the earnings and profits at the time the distribution was made.

(2) For the purposes of this act every distribution is made out of earnings or profits to the extent thereof, and from the most recently accumulated earnings or profits. Any earnings or profits accumulated, or increase in value of property accrued, before March 1, 1913, may be distributed without being included in the gross income of the recipient, after the earnings and profits accumulated after February 28, 1913, have been distributed, but any such distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 21 (b).

(3) Amounts distributed in complete liquidation of a corporation shall be treated as in full payment in exchange for the stock and amounts distributed in partial liquidation of a corporation shall be treated as in part or full payment in exchange for the stock. The gain or loss to the distributee resulting from such exchange shall be determined under Section 19. In the case of amounts distributed (whether before or after the effective date of this amendment) in partial liquidation (other than a distribution within the provisions of subdivision (7) of this subsection of stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits. In the case of amounts distributed (whether before January 1, 1934, or on or after such date) in partial liquidation (other than a distribution within the provisions of subdivision (7) of this subsection or stock or securities in connection with a reorganization) the part of such distribution which is properly chargeable to capital account shall not be considered a distribution of earnings or profits within the meaning of subdivision (2) of this subsection for the purpose of determining the taxability of subsequent distributions by the corporation.

(4) If any distribution (not in partial or complete liquidation) made by a corporation to its shareholders is not out of increase in value of property accrued before March 1, 1913, and is not a dividend, then the amount of such distribution shall be applied against and reduce the adjusted basis of the stock provided in Section 21, and if in excess of such basis, such excess shall be included in gross income in the same manner as a gain from the sale or exchange of property.

(5) (A) A distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock shall be treated as a dividend to the extent that it constitutes income to the shareholder within the meaning of the Sixteenth Amendment to the Constitution of the United States.

(B) Whenever a distribution by a corporation is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either (i) in its stock or in rights to acquire its stock, of a class which if distributed without election would not be included in gross income under paragraph (A), or (ii) in money or any other property (including its stock or rights to acquire its stock, of a class which if distributed without election would be included in gross income under paragraph (A)), then the distribution shall constitute a taxable dividend in the hands of all shareholders, regardless of the medium in which paid.

(6) If a corporation cancels or redeems its stock (whether or not such stock was issued as a stock dividend) at such time and in such manner as to make the distribution and cancellation or redemption in whole or in part essentially equivalent to the distribution of a taxable dividend, the amount so distributed in redemption or cancellation of the stock, to the extent that it

represents a distribution of earnings or profits accumulated after February 28, 1913, shall be treated as a taxable dividend.

(7) The distribution heretofore or hereafter made to a distributee by or on behalf of a corporation of its stock or securities or stock or securities in another corporation shall not be considered a distribution of earnings or profits of any corporation:

(A) If no gain to such distributee from the receipts of such stock or securities was recognized under the provisions of the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution, or

(B) If the distribution was not subject to tax in the hands of such distributee under the Federal Revenue Act of 1936 or prior Federal revenue acts in effect at the time of the distribution because it did not constitute income to him within the meaning of the Sixteenth Amendment to the Constitution of the United States or because exempted to him under Section 115 (f) of the Federal Revenue Act of 1934, or a corresponding provision of a prior Federal revenue act.

As used in this subsection, the term "stock or securities" includes rights to acquire stock or securities. "Stock or securities"

(8) As used in this subsection the term "amount distributed in partial liquidation" means a distribution by a corporation in complete cancellation or redemption of a part of its stock, or one of a series of distributions in complete cancellation or redemption of all or a portion of its stock. "Amount distributed in partial liquidation"

(9) If the whole or any part of a dividend is paid to a shareholder in any medium other than money the property received other than money shall be included in gross income at its fair market value at the time as of which it becomes income to the shareholder.

(10) The gain or loss realized from the sale or other disposition (after February 28, 1913) of property by a bank or corporation for the purpose of the computation of earnings and profits of the bank or corporation for any period beginning after February 28, 1913, shall be determined by using as the adjusted basis the adjusted basis (under the law applicable to the year in which the sale or other disposition was made) for determining gain. Gain or loss so realized shall increase or decrease the earnings and profits to, but not beyond, the extent to which such a realized gain or loss was recognized in computing net income under the law applicable to the year in which such sale or disposition was made. Where, in determining the adjusted basis used in computing such realized gain or loss, the adjustment to the basis differs from the adjustment proper for the purpose of determining earnings or profits, then the latter adjustment shall be used in determining the increase or decrease above provided. For the purposes of this subsection, a loss with respect to which a deduction is disallowed under Section 8 (d) of this act or Section 7 (d) of the Corporation Income Tax Act shall not be deemed to be recognized.

Where a bank or corporation receives (after February 28, 1913) a distribution from a second bank or corporation which

(under the law applicable to the year in which the distribution was made) was not a taxable dividend to the shareholders of the second bank or corporation, the amount of such distribution shall not increase the earnings and profits of the first bank or corporation in the following cases:

(A) No such increase shall be made in respect of the part of such distribution which (under such law) is directly applied in reduction of the basis of the stock in respect of which the distribution was made.

(B) No such increase shall be made if (under such law) the distribution causes the basis of the stock in respect of which the distribution was made to be allocated between such stock and the property received.

For the purposes of this subdivision, the words "law applicable to the year" shall be deemed to refer to this act or, prior to January 1, 1928, the United States Revenue Act in force for the year in which the distribution, sale or other disposition was made.

(11) (A) If any increase or decrease in the earnings or profits for any period beginning after February 28, 1913, with respect to any matter would be different had the adjusted basis of the property involved been determined without regard to its March 1, 1913, value, then, except as provided in paragraph (B), an increase (properly reflecting such difference) shall be made in that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

(B) If the application of subdivision (10) to a sale or other disposition after February 28, 1913, results in a loss which is to be applied in decrease of earnings and profits for any period beginning after February 28, 1913, then, notwithstanding subdivision (10) and in lieu of the rule provided in paragraph (A) of this subdivision, the amount of such loss so to be applied shall be reduced by the amount, if any, by which the adjusted basis of the property used in determining the loss, exceeds the adjusted basis computed without regard to the value of the property on March 1, 1913, and if such amount so applied in reduction of the decrease exceeds such loss, the excess over such loss shall increase that part of the earnings and profits consisting of increase in value of property accrued before March 1, 1913.

Canceled or
forgiven
indebtedness

(d) (1) If the indebtedness of a bank or corporation is canceled or forgiven in whole or in part without payment, the amount so canceled or forgiven shall constitute income to the extent the value of the property (including franchises) of the bank or corporation exceeds its liabilities immediately after the cancellation or forgiveness. The remainder of the amount of indebtedness so canceled or forgiven, if any, shall be applied in reduction of the basis of the assets to the extent the basis thereof exceeds the value thereof immediately after the cancellation or forgiveness, such reduction to be made in accordance with regulations prescribed by the commissioner.

If an indebtedness is not paid by the time an action to enforce payment is barred by limitation, the indebtedness shall be considered canceled or forgiven within the meaning of this subsection unless it can be established that the period of limitation has been extended by a new promise in writing.

(2) If a stockholder of a bank or corporation cancels any indebtedness owing to the stockholder by the bank or corporation, such cancellation shall not constitute income to the bank or corporation except to the extent that the bank or corporation received a tax benefit, under this act, from such indebtedness.

Sec. 3. Section 8 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Sec. 8. In computing "net income" the following deductions shall be allowed:

(a) (1) All the ordinary and necessary expenses paid or incurred during the income year in carrying on business, including a reasonable allowance for salaries or other compensation for personal services actually rendered, and rentals or other payments required to be made as a condition to the continued use or possession for business purposes of property to which the taxpayer has not taken or is not taking title or in which it has no equity.

(2) No deduction shall be allowable under paragraph (1) to a bank or corporation for any contribution or gift which would be allowable as a deduction under subsection (i) were it not for the 5 per centum limitation therein contained and for the requirement therein that payment must be made within the income year.

(b) All interest paid or accrued during the income year on indebtedness of the taxpayer to the extent in excess of income of the taxpayer from interest and dividends (other than dividends deductible under the provisions of subdivision (h) of this section and other than dividends from corporations, 50 per centum or more of the outstanding stock of which is owned by the taxpayer), which is not included in the measure of the tax imposed by this act; or to the extent of interest and dividends included in the measure of the tax imposed by this act, whichever is the greater.

(c) (1) Taxes or licenses paid or accrued during the income year, other than taxes paid to the State under this act, and other than taxes on or according to or measured by income or profits paid or accrued within the income year imposed by the authority of (a) the Government of the United States or any foreign country, (b) any State, Territory, county, city and county, school district, municipality, or other taxing subdivision of any State or Territory, and other than taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this shall not exclude the allowance as a deduction of so much of said taxes assessed against local benefits as is properly allocable to maintenance or interest charges.

Taxes or
licenses

(2) In the case of a tax imposed by any State, Territory, district, or possession of the United States, or any political subdivision thereof, upon persons engaged in selling tangible personal property at retail, which is measured by the gross sales price or the gross receipts from the sale or which is a stated sum per unit of such property sold, or upon persons engaged in furnishing services at retail, which is measured by the gross receipts for furnishing such services, if the amount of such tax is separately stated, then to the extent that the amount so stated is paid by the purchaser (otherwise than in connection with the purchaser's trade or business) to such person such amount shall be allowed as a deduction in computing the net income of such purchaser as if such amount constituted a tax imposed upon and paid by such purchaser.

Uncompen-
sated losses

(d) Losses sustained during the income year and not compensated for by insurance or otherwise, except that such losses may, with the consent of the Franchise Tax Commissioner, hereinafter designated "commissioner," be accounted for as of a different period. In the case of any loss claimed to have been sustained in any sale or other disposition of shares of stock or securities where it appears that within 30 days before or after the date of such sale or other disposition, the taxpayer has acquired (otherwise than by bequest or inheritance) or has entered into a contract or option to acquire substantially identical property and the property so acquired is held by the taxpayer for any period after such sale or other disposition, no deduction for the loss shall be allowed unless the claim is made by a taxpayer, a dealer in stocks or securities, and with respect to a transaction made in the ordinary course of its business. If such acquisition or the contract or option to acquire is to the extent of part only of substantially identical property, then only a proportionate part of the loss shall be disallowed. Upon the subsequent sale or disposition of shares of stock or securities, in respect of which a loss has been disallowed, the basis for measuring gain or loss in the case of property so acquired shall be the basis in the case of the stock or securities so sold or disposed of, except that if the repurchase price was in excess of the sale price such basis shall be increased in the amount of the difference, or if the repurchase price was less than the sale price such basis shall be decreased in the amount of the difference.

Bad debts

(e) Debts which become worthless within the income year, or, in the discretion of the commissioner, a reasonable addition to a reserve for bad debts. When satisfied that a debt is recoverable in part only the commissioner may allow such debt, in an amount not in excess of the part charged off within the income year, as a deduction; provided, however, that if a debt was actually worthless prior to January 1, 1943, but was not ascertained to be worthless and charged off prior to said date, a deduction may be taken therefor during the first income year ending after December 31, 1942; and, provided, that if a portion of a debt is claimed and allowed as a deduction in any

year no deduction shall be allowed in any subsequent year for any portion of the debt which in any prior year was charged off, regardless of whether claimed as a deduction in such prior year.

(f) A reasonable allowance for exhaustion, wear and tear ^{Depreciation} and obsolescence of property used in the trade or business. The basis on which such allowance is to be computed in respect of any property is the adjusted basis provided in Section 21 (b) for the purpose of determining the gain upon the sale or other disposition of such property. A taxpayer may elect to claim a deduction for amortization of emergency facilities (as defined by Section 124 of the Internal Revenue Code as amended) under regulations prescribed by the commissioner.

(g) (1) In the case of mines, oil and gas wells, other natural ^{Depletion} deposits and timber, a reasonable allowance for depletion and for depreciation of improvements according to the peculiar conditions in each case, such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the commissioner. In any case in which it is ascertained as a result of operations or of development work that the recoverable units are greater or less than the prior estimate thereof, then such prior estimate (but not the basis for depletion) shall be revised and the allowance under this subsection for subsequent taxable years shall be based upon such revised estimate. In the case of leases the deductions shall be equitably apportioned between the lessor and the lessee.

(2) (A) The basis upon which depletion is to be allowed in respect of any property shall be the adjusted basis provided in Section 21 (b) for the purpose of determining the gain upon the sale or other disposition of such property, except as provided in paragraphs (B), (C), and (D) of this subsection.

(B) In the case of mines (other than metal, coal, fluor spar, flake graphite, vermiculite, beryl, feldspar, mica, talc, leucodolite, spodumene, barite, potash, ball and sagger clay, rock asphalt or sulphur mines) discovered by the taxpayer after February 28, 1913, the basis for depletion shall be the fair market value of the property at the date of discovery or within 30 days thereafter, if such mines were not acquired as the result of purchase of a proven tract or lease, and if the fair market value of the property is materially disproportionate to the cost. The depletion allowance under subdivision (1) of this subsection based on discovery value provided in this paragraph shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property upon which the discovery was made, except that in no case shall the depletion allowance under subdivision (1) of this subsection be less than it would be if computed without reference to discovery value. Discoveries shall include minerals in commercial quantities contained within a vein or deposit discovered in an existing mine or mining tract by the taxpayer after February 28, 1913, if the vein or deposit thus discovered was not merely the uninterrupted extension of a continuing commercial vein or deposit already known to exist, and if the discovered minerals

are of sufficient value and quantity that they could be separately mined and marketed at a profit.

(C) In the case of oil and gas wells the allowance for depletion under subdivision (1) of this subsection shall be 27½ per centum of the gross income from the property during the income year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance under subdivision (1) of this subsection be less than it would be if computed without reference to this paragraph.

(D) (1) The allowance for depletion under subdivision (1) of this subsection shall be, in the case of coal mines, 5 per centum, in the case of metal mines, fluorspar, flake graphite, vermiculite, beryl, feldspar, mica, talc, lepidolite, spodumene, barite, ball and sagger clay or rock asphalt mines, and potash mines or deposits 15 per centum, and, in the case of sulphur mines or deposits, 23 per centum, of the gross income from the property during the income year, excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not exceed 50 per centum of the net income of the taxpayer (computed without allowance for depletion) from the property except that in no case shall the depletion allowance under subsection (1) of this section be less than it would be if computed without reference to this paragraph.

(2) As used in (D) (1) the term "gross income from the property" means the gross income from mining. The term "mining," as used herein, shall be considered to include not merely the extraction of the ores or minerals from the ground but also the ordinary treatment processes normally applied by mine owners or operators in order to obtain the commercially marketable mineral product or products. Rules appli-

amortizable

miums

(o) (1) In the case of any bond, as defined in subsection (3), the following rules shall apply to the amortizable bond premium (determined under subsection (2)) on the bond for any income year beginning after December 31, 1942.

(A) In the case of a bond, the amount of the amortizable bond premium for the income year shall be allowed as a deduction.

(2) (A) For the purposes of paragraph (B), the amount of bond premium, in the case of the holder of any bond, shall be determined with reference to the amount of the basis (for determining loss on sale or exchange) of such bond, and with reference to the amount payable on maturity or on earlier call date, with adjustments proper to reflect unamortized bond premium with respect to the bond, for the period prior to the date as of which subsection (1) becomes applicable with respect to the taxpayer with respect to such bond.

(B) The amortizable bond premium of the income year shall be the amount of the bond premium attributable to such year.

(C) The determinations required under paragraphs (A) and (B) shall be made—

(i) In accordance with the method of amortizing bond premium regularly employed by the holder of the bond, if such method is reasonable;

(ii) In all other cases, in accordance with regulations prescribing reasonable methods of amortizing bond premium, prescribed by the commissioner.

(3) As used in this section, the term "bond" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by any corporation and bearing interest (including any like obligation issued by a government or political subdivision thereof), with interest coupons or in registered form, but does not include any such obligation which constitutes stock in trade of the taxpayer or any such obligation of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the income year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

(4) The amount of the amortizable bond premium for the income year shall be allowed as a deduction only if a taxpayer has elected to claim such deduction. Such election shall be made in accordance with such regulations as the commissioner shall prescribe. If such election is made with respect to any bond, it shall also apply to all such bonds held by the taxpayer at the beginning of the first income year to which the election applies and to all such bonds thereafter acquired by it, and shall be binding for all subsequent income years with respect to all such bonds of the taxpayer, unless, upon application by the taxpayer, the commissioner permits him, subject to such conditions as the commissioner deems necessary, to revoke such election.

(p) (1) If contributions are paid by an employer to or under a stock bonus, pension, profit-sharing, or annuity plan, or if compensation is paid or accrued on account of any employee under a plan deferring the receipt of such compensation, such contributions or compensation shall not be deductible under subsection (a) but shall be deductible, if deductible under subsection (a) without regard to this subsection, under this subsection but only to the following extent:

Contributions by employer to or under stock bonus, etc

(A) In the income year when paid, if the contributions are paid into a pension trust, and if such income year ends within or with an income year of the trust for which the trust is exempt under Section 12 (f) of The Personal Income Tax Act, in an amount determined as follows:

(i) An amount not in excess of 5 per centum of the compensation otherwise paid or accrued during the income year to all the employees under the trust, but such amount may be reduced for future years if found by the commissioner upon periodical examinations at not less than five-year intervals to be more than the amount reasonably necessary to provide the remaining

unfunded cost of past and current service credits of all employees under the plan, plus

(ii) Any excess over the amount allowable under clause (i) necessary to provide with respect to all of the employees under the trust the remaining unfunded cost of their past and current service credits distributed as a level amount, or a level percentage of compensation, over the remaining future service of each such employee, as determined under regulations prescribed by the commissioner, but if such remaining unfunded cost with respect to any three individuals is more than 50 per centum of such remaining unfunded cost, the amount of such unfunded cost attributable to such individuals shall be distributed over a period of at least five income years, or

(iii) In lieu of the amounts allowable under (i) and (ii) above, an amount equal to the normal cost of the plan, as determined under regulations prescribed by the commissioner, plus, if past service or other supplementary pension or annuity credits are provided by the plan, an amount not in excess of 10 per centum of the cost which would be required to completely fund or purchase such pension or annuity credits as of the date when they are included in the plan, as determined under regulations prescribed by the commissioner, except that in no case shall a deduction be allowed for any amount (other than the normal cost) paid in after such pension or annuity credits are completely funded or purchased.

(iv) Any amount paid in an income year in excess of the amount deductible in such year under the foregoing limitations shall be deductible in the succeeding income years in order of time to the extent of the difference between the amount paid and deductible in each succeeding year and the maximum amount deductible for such year in accordance with the foregoing limitations.

(B) In the income year when paid, in an amount determined in accordance with subparagraph (A) of this paragraph, if the contributions are paid toward the purchase of retirement annuities and such purchase is a part of a plan which meets the requirements of Section 12 (f) of The Personal Income Tax Act, and if refunds of premiums, if any, are applied within the current income year or next succeeding income year towards the purchase of such retirement annuities.

(C) In the income year when paid, if the contributions are paid into a stock bonus or profit-sharing trust, and if such income year ends within or with an income year of the trust with respect to which the trust is exempt under Section 12 (f) of The Personal Income Tax Act, in an amount not in excess of 15 per centum of the compensation otherwise paid or accrued during the income year to all employees under the stock bonus or profit-sharing plan. If in any income year beginning after December 31, 1942, there is paid into the trust, or a similar trust then in effect, amounts less than the amounts deductible under the preceding sentence, the excess, or if no amount is paid, the amounts deductible, shall be carried forward and be deductible

when paid in the succeeding income years in order of time, but the amount so deductible under this sentence in any such succeeding income year shall not exceed 15 per centum of the compensation otherwise paid or accrued during such succeeding income year to the beneficiaries under the plan. In addition, any amount paid into the trust in an income year beginning after December 31, 1942, in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding income years in order of time, but the amount so deductible under this sentence in any one such succeeding income year together with the amount allowable under the first sentence of this subparagraph shall not exceed 15 per centum of the compensation otherwise paid or accrued during such income year to the beneficiaries under the plan. The term "stock bonus or profit-sharing trust," as used in this subparagraph, shall not include any trust designed to provide benefits upon retirement and covering a period of years, if under the plan the amounts to be contributed by the employer can be determined actuarially as provided in subparagraph (A). If the contributions are made to two or more stock bonus or profit-sharing trusts, such trusts shall be considered a single trust for the purposes of applying the limitations in this subparagraph.

(D) In the income year when paid, if the plan is not one included in paragraphs (A), (B), or (C), if the employees' rights to or derived from such employer's contribution or such compensation are nonforfeitable at the time the contribution or compensation is paid.

(E) For the purposes of subparagraphs (A), (B), and (C), a taxpayer on the accrual basis shall be deemed to have made a payment on the last day of the year of accrual if the payment is on account of such income year and is made within 60 days after the close of the income year of accrual.

(F) If amounts are deductible under subparagraphs (A) and (C), or (B) and (C), or (A), (B), and (C), in connection with two or more trusts, or one or more trusts and an annuity plan, the total amount deductible in an income year under such trusts and plans shall not exceed 25 per centum of the compensation otherwise paid or accrued during the income year to the persons who are the beneficiaries of the trusts or plans. In addition, any amount paid into such trust or under such annuity plans in an income year beginning after December 31, 1942, in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding income years in order of time, but the amount so deductible under this sentence in any one such succeeding income year together with the amount allowable under the first sentence of this subparagraph shall not exceed 30 per centum of the compensation otherwise paid or accrued during such income years to the beneficiaries under the trusts or plans. This subparagraph shall not have the effect of reducing the amount otherwise deductible under subparagraphs (A), (B), and (C), if no employee is a beneficiary under more than one trust, or a trust and an annuity

plan. If there is no plan but a method of employer contributions or compensation has the effect of a stock bonus, pension, profit-sharing, or annuity plan, or similar plan deferring the receipt of compensation, this paragraph shall apply as if there were such a plan.

(2) Any deduction allowable under this act (as it read prior to the 1943 amendment) for a 1 income year beginning before January 1, 1943, which was apportioned to any income year beginning after December 31, 1943, shall be allowed as a deduction for the years to which so apportioned to the extent allowable under this subsection as it then read if it had remained in force with respect to such year.

Recomputa-
tion of tax
where
deductions

criminatory
or invalid

(q) If any deduction provided for in this section is finally adjudged discriminatory against a National banking association contrary to Section 5219 of the Revised Statutes of the United States, or is for any reason finally adjudged invalid, in that event the tax of the favored taxpayer shall be recomputed by the commissioner for the taxable year in question, as of the time of allowance of the deduction, by disallowing the deduction, and any difference between the amount of the tax as recomputed and the amount of the tax as originally computed shall be subject to the provisions hereof relating to original computations.

SEC. 4. Section 9 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Nondeduct-
ible items

Sec. 9. In computing net income no deduction shall be allowed for:

(a) Any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property; or for

(b) Any amount expended in restoring property or in making good the exhaustion thereof for which an allowance is or has been made; or for

(c) Premiums paid on any life insurance policy covering the life of any officer or employee, or of any person financially interested in any trade or business carried on by the taxpayer, when the taxpayer is directly or indirectly a beneficiary under such policy.

(1) Any amount paid or accrued on indebtedness incurred or continued to purchase a single premium life insurance or endowment contract. For the purposes of this paragraph, if substantially all the premiums on a life insurance or endowment contract are paid within a period of four years from the date on which such contract is purchased, such contract shall be considered a single premium life insurance or endowment contract;

(2) Amounts paid or accrued for such taxes and carrying charges as, under regulations prescribed by the commissioner, are chargeable to capital account with respect to property, if the

taxpayer elects, in accordance with such regulations, to treat such taxes or charges as so chargeable.

(e) (1) Except in case of distributions in liquidation losses from sales or exchanges of property directly or indirectly between an individual and a corporation or bank in which such individual owns directly or indirectly more than 50 per centum in value of the outstanding stock.

(2) For the purpose of this subsection an individual shall be considered as owning the stock owned directly or indirectly by his family and the family of an individual shall include only his brothers and sisters (whether by the whole or half blood), spouse, ancestors and lineal descendants.

(f) In computing net income no deduction shall be allowed under Section 8 (a), relating to expenses incurred, or under Section 8 (b), relating to interest accrued:

(1) If such expenses or interest are not paid within the income year or within two and one-half months after the close thereof; and

(2) If, by reason of the method of accounting of the person or corporation to whom the payment is to be made, the amount thereof is not, unless paid, includible under the provisions of The Personal Income Tax Act, Corporation Income Tax Act or this act in the gross income of such person or corporation for the taxable year in which or with which the income year of the taxpayer ends; and

(3) If, at the close of the income year of the taxpayer or at any time within two and one-half months thereafter, both the taxpayer and the person to whom the payment is to be made are persons between whom losses would be disallowed under Section 9 (e), or if the corporation to which payment is to be made owns, or is owned by, the taxpayer to the extent of more than 50 per centum in value of the outstanding stock.

The amount of expenses incurred or interest accrued, the deduction of which is disallowed under this subsection in the year incurred or accrued, may be deducted in the year paid.

SEC. 5. Section 11 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows: Stats 1943,
p 1403

Sec. 11. (a) The term "income year," as herein used, means the calendar year, or the fiscal year ending during such calendar year, upon the basis of which the net income is computed herein. "Income year" means, in the case of a return made for a fractional part of a year, the period for which such return is made. Definitions

(b) The term "taxable year," as herein used, means the calendar year, or the fiscal year ending during such calendar year, for which the tax is payable. A "taxable year" may constitute a period of 12 months or of less duration.

(c) The term "fiscal year," as herein used, means an accounting period of 12 months or less ending on the last day of any month other than December.

(d) The terms "paid or incurred" and "paid or accrued" shall be construed according to the method of accounting upon the basis of which the net income is computed hereunder.

(e) For the purposes of this act, unless otherwise required by the context, the word "State" shall include the Territories of Alaska and Hawaii, the District of Columbia, and the possessions of the United States.

p. 1403

SEC. 6. Section 12 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Basis of
computation

Sec. 12. The net income shall be computed upon the basis of the taxpayer's annual accounting period, fiscal year or calendar year as the case may be, in accordance with the method of accounting regularly employed in keeping the books of such taxpayer; but if no such method of accounting has been so employed, or if the method employed does not clearly reflect the income, the computation shall be made in accordance with such method as in the opinion of said commissioner does clearly reflect the income. If the taxpayer's annual accounting period is other than a fiscal year, or if the taxpayer has no annual accounting period or does not keep books, the net income shall be computed on the basis of the calendar year.

Increase in
redemption
price of
obligations
Election

If, in the case of a taxpayer owning any noninterest-bearing obligation issued at a discount and redeemable for fixed amounts increasing at stated intervals, the increase in the redemption price of such obligation occurring in the income year does not (under the method of accounting used in computing its net income) constitute income to taxpayer in such year, such taxpayer may, at its election made in its return for any income year beginning after December 31, 1942, treat such increase as income received in such income year. If any such election is made with respect to any such obligation, it shall apply also to all such obligations owned by the taxpayer at the beginning of the first income year to which it applies and to all such obligations thereafter acquired by taxpayer and shall be binding for all subsequent income years, unless upon application by the taxpayer the commissioner permits taxpayer, subject to such conditions as the commissioner deems necessary, to change to a different method. In the case of any such obligations owned by the taxpayer at the beginning of the first income year to which its election applies, the increase in the redemption price of such obligations occurring between the date of acquisition and the first day of such income year shall also be treated as income received in such income year.

Change of
accounting
period

If the taxpayer changes his accounting period from fiscal year to calendar year, from calendar year to fiscal year, or from one fiscal year to another, the net income shall, with the approval of the commissioner, be computed on the basis of such new accounting period subject to the following provisions:

(a) If a taxpayer, with the approval of the commissioner, changes the basis of computing net income from fiscal year to calendar year, a separate return shall be made for the period between the close of the last fiscal year for which return was

made and the following December 31st. If the change is from calendar year to fiscal year, a separate return shall be made for the period between the close of the last calendar year for which return was made and the date designated as the beginning of the fiscal year. If the change is from one fiscal year to another fiscal year a separate return shall be made for the period between the close of the former fiscal year and the date designated as the beginning of the new fiscal year.

(b) Where a separate return is made under paragraph (a) on account of a change in the accounting period then the income shall be computed on the basis of the period for which separate return is made. The due date of the separate return for such period is the fifteenth day of the third month following the close of that period.

(c) (1) If a separate return is made under paragraph (a) on account of a change in the accounting period, the net income, computed on the basis of the period for which separate return is made (referred to in this subsection as "the short period"), shall be placed on an annual basis by multiplying the amount thereof by 12, and dividing by the number of months in the short period. The commissioner shall compute the amount of a tax on the income placed on such annual basis, and shall allow the offset provided for in Section 26 from such tax. The tax due under this section (which shall not be subject to offset) shall be such part of the tax (less the offset allowed) computed on such annual basis as the number of months in the short period is of 12 months.

(2) If the taxpayer establishes the amount of its net income for the period of 12 months beginning with the first day of the short period, computed as if such 12-month period were an income year, under the law applicable to such year, then the tax for the short period shall be reduced to an amount which is such part of the tax computed on the net income for such 12-month period as the net income computed on the basis of the short period is of the net income for the 12-month period. The taxpayer (other than a taxpayer to which the next sentence applies) shall compute the tax and file his return without the application of this paragraph. If the taxpayer has disposed of substantially all its assets prior to the end of such 12-month period, then in lieu of the net income for such 12-month period there shall be used for the purposes of this paragraph the net income for the 12-month period ending with the last day of the short period. The tax computed under this paragraph shall in no case be less than the tax computed on the net income for the short period without placing such net income on an annual basis. The benefits of this paragraph shall not be allowed unless the taxpayer, at such time as regulations prescribed hereunder require (but not after the time prescribed for the filing of the return for the first income year which ends on or after 12 months after the beginning of the short period), makes application therefor in accordance with such regulations. Such application, in case the return was filed without regard

to this paragraph, shall be considered a claim for credit or refund with respect to the amount by which the tax is reduced under this paragraph. The commissioner shall prescribe such regulations as he may deem necessary for the application of this paragraph.

(d) The tax on any bank or corporation for a period beginning in one calendar year (hereinafter in this section called "first calendar year") and ending in the following calendar year (hereinafter in this section called "second calendar year") where the law applicable to the computation of taxes for calendar year banks or corporations for the second calendar year is different from the law applicable to computation of taxes for calendar year banks or corporations for the first calendar year, shall (except as otherwise provided) be the sum of: (1) The same proportion of a tax for the entire period, determined under the law applicable to the first calendar year and at the rates for such year, which the portion of such period falling within the first year is of the entire period; and (2) the same proportion of a tax for the entire period, determined under the law applicable to the second calendar year and at the rates for such year, which the portion of such period falling within the second calendar year is of the entire period.

Any tax that has been paid under the law applicable to the first calendar year if in excess of the tax imposed by this section shall be refunded or credited to the bank or corporation as provided in Section 27. Any tax in addition to that paid under the law applicable to the first calendar year made necessary by this section shall be immediately due and payable upon notice and demand from the commissioner.

(e) Where a corporation is engaged in the performance of a contract in this State which will require more than a year to complete, the commissioner may require that the income from the contract be reported on the basis of percentage of completion unless the corporation furnishes bond or other security guaranteeing the payment of a tax measured by the income received on the completion of the contract, even though the corporation is not doing business in this State in the year subsequent to the year of completion.

SEC. 7. Section 13 of the Bank and Corporation Franchise Tax Act is hereby amended to read as follows:

Returns

Sec. 13. (a) Every bank and corporation subject to the tax imposed by this act shall, within two months and 15 days after the close of its income year, transmit to the commissioner a return in a form prescribed by him, specifying, for the income year, all such facts as he may by rule, or otherwise, require in order to carry out the provisions of this act. Any return filed under the provisions of the Corporation Income Tax Act, which discloses the net income for any period, shall likewise constitute a return filed for the same period under this act, if the corporation should have filed a return under this act.

Stats 1937,
p 2184

In the event that taxes, interest and penalties have been or shall be assessed against, paid by or collected from a corporation under this act, which assessment, payment or collection should have been made under the Corporation Income Tax Act, such taxes, interest and penalties shall be considered as having been assessed, paid or collected under the Corporation Income Tax Act as of the date or dates they were made.

Taxes under
Corporation
Income
Tax Act

(b) A corporation which incorporates or organizes under the laws of this State or qualifies to do business in this State, after the effective date of this act, shall thereupon prepay the minimum tax hereunder, which prepayment must be made before the corporation files with the Secretary of State its articles of incorporation or duly certified copy thereof as the case may be.

Prepayment
of taxes

(c) If a bank or a corporation commences to do business in this State during its first taxable year its tax for that year shall be adjusted upon the basis of the net income received during that taxable year, at the rate applicable to that year, a credit being allowed for the prepayment of the minimum tax. The return for the first taxable year, which shall be filed within two months and 15 days after the close of that year, shall also, in accordance with Sections 23 to 26, inclusive, be the basis for the tax of said bank or corporation for its second taxable year, if its first taxable year is a period of 12 months. In every case in which the first taxable year of a bank or corporation constitutes a period of less than 12 months, or in which a bank or corporation does business for a period of less than 12 months during its first taxable year, said bank or corporation shall pay as a prepayment of the tax for its second taxable year a tax based on the income for the first taxable year computed under the law and at the rate applicable to the second taxable year, the same to be due and payable at the same times and in the same manner as if that amount were the entire amount of its tax for that year; and upon the filing of its tax return within two months and 15 days after the close of the second taxable year it shall pay a tax for said year, at the rate applicable to that year, based upon its net income received during that year, allowing a credit for the prepayment; but in no event shall the tax for the second taxable year be less than the amount of the prepayment for that year, and said return for its second taxable year shall also, in accordance with Sections 23 to 26, inclusive, be the basis for the tax of said bank or corporation for its third taxable year.

Tax for first
and second
taxable year

(d) (1) When any bank or corporation commences to do business in this State for the first time in any taxable year other than the year of incorporation or qualification, its tax for that taxable year and for the succeeding taxable year shall be computed in accordance with the provisions of subdivision (c) of this section relative to first and second taxable years, a credit being allowed for any tax payable under subdivision (b) of Section 4 hereof, for the year in which it commences to do business.

Business

(2) Notwithstanding the provisions of subdivision (c) and paragraph (1) of this subdivision, if a corporation, which has been subject to the California Corporation Income Tax Act, commences to do business in this State, its tax shall be computed as follows:

(A) Such corporation shall pay a tax under said Corporation Income Tax Act for the whole of the year it commences to do such business;

(B) Such corporation shall, for the taxable year succeeding the year it commences to do business in this State, pay a tax under this act measured by its income for that taxable year;

(C) Such corporation shall, for its third taxable year, pay a tax, under this act, measured by its income for its second taxable year;

(E) Notwithstanding any other provisions of this act, such corporation shall file its return for such second and third taxable years on or before the fifteenth day of the third month following the close of its second taxable year.

Adjusted tax

(e) The adjusted tax, as provided in subdivisions (c) and (d) of this section, for any taxable year in excess of the prepayment for that year, shall be due and payable in one amount on or before the fifteenth day of the third month following the close of that taxable year, or on or before the expiration of the period of extension where an extension has been granted by the commissioner under the provisions of Section 15 of this act, and, if not so paid, interest shall be added thereto in the manner and at the rate or rates provided in Section 24 of this act.

Deferred income

(f) In the case of a bank or corporation taxable in the manner provided in subdivisions (c) and (d) of this section, reporting income from any source on a deferred basis, the commissioner is authorized to distribute or apportion such income, or deductions applicable thereto, if he determines that such distribution or apportionment is necessary in order to prevent avoidance of taxes or clearly to reflect the income of such bank or corporation.

Reorganized banks and corporations

(g) Subsections (c), (d), and (e) of this section shall not apply to a bank or corporation which commences to do business in this State, pursuant to a reorganization of a bank or corporation as defined in subsection (j) of this section.

Business, etc., transferred to other bank or corporation

(h) (1) Where, pursuant to a reorganization, all or a substantial portion of the business or property of a bank or corporation, a party to the reorganization, is transferred to another bank or corporation, a party to the reorganization: (A) The net income of the transferor from the business or property so transferred to any bank or corporation for the taxable year in which the transfer occurs, shall be included in the measure of the tax on the transferee for the taxable year succeeding the taxable year in which the transfer occurs if the taxable year of the transferee in which the transfer occurs ends at the same time as or before the time the taxable year of the transferor in which the transfer occurs ends. Income of the

transferor so included in the measure of the tax on the transferee shall be considered the income of the transferee for the purposes of this act.

(B) If the taxable year of the transferee in which the transfer occurs ends after the taxable year of the transferor in which the transfer occurs ends, the transferee shall, within two months and 15 days after the close of the taxable year of the transferor in which the transfer occurs, file a return disclosing the net income of the transferor from the business or property transferred for the taxable year in which the transfer occurs, and pay a tax measured by such income.

(2) If, at the time of any of the transfers referred to in the preceding subdivision (1), the transferor has not become subject to a tax measured by its income for the taxable year preceding the taxable year in which the transfer occurs, the transferee shall within two months and 15 days after the close of the month in which the transfer occurs file a return disclosing the net income of the transferor for such preceding year and pay a tax measured by such income.

(3) Whenever under this subsection the transferee is required to pay a tax measured by the income of the transferor, the rate of tax applicable to the transferee shall apply.

(4) The transferee shall, pursuant to the provisions of Sections 4 and 26 of this act, be entitled to the same offset against any tax imposed on it measured by the income of the transferor for taxes on the business or property transferred as would have been allowed the transferor had the reorganization not occurred.

(i) Where income of the transferor is required to be included in the computation of a tax on the transferee, such income shall not thereafter be included in the measure of a tax on the transferor. Income of transferor

(j) The term "reorganization" as used in this section means "Reorganization"

As "Control"
 used in this paragraph the term "control" means the ownership of at least 80 per centum of the voting stock and at least 80 per centum of the total number of shares of all other classes of stock of the bank or corporation.

(k) (1) Any bank or corporation which is dissolved and any foreign corporation which withdraws from the State during any taxable year shall pay a tax hereunder only for the months of such taxable year which precede the effective date of such dissolution or withdrawal, according to or measured by (A) the net income of the preceding income year or (B) a percentage of such net income determined by ascertaining the ratio Dissolved banks and corporations

which the months of the taxable year, preceding the effective date of dissolution or withdrawal, bears to the months of such income year, whichever is the lesser amount; provided, however, that in the case of any bank or corporation which is dissolved, or which withdraws from the State during any taxable year, the offset from the tax for the months of such taxable year prior to the effective date of such dissolution or withdrawal shall not exceed that proportion of the offset computed under Section 26 which the number of said months prior to the effective date of such dissolution or withdrawal bears to the number of months of the preceding income year; and provided further, that the taxes levied under this act shall not be subject to abatement or refund because of the cessation of business or corporate existence of any bank or corporation pursuant to a reorganization, consolidation, or merger. In any event, each such corporation shall pay a tax not subject to offset for such period in an amount equal to the minimum tax provided for in Section 4 of this act.

(2) A bank or corporation subject to Section 4 (a) of this act shall, if it dissolves or withdraws prior to the date the rate is determined under Section 4 (a), pay a tax under the preceding paragraph at the maximum rate prescribed by said Section 4 (a); if the rate is subsequently determined to be less than the maximum prescribed by Section 4 (a), a refund shall, within thirty (30) days of such determination, be made as prescribed by Section 27 of this act; that part of the tax thus determined which is in excess of four per centum (4%) shall be collected as a demand for second installment under Section 23 of this act.

Discontinuing business

(1) (1) When a corporation discontinues doing business within the State during any taxable year and does not dissolve or withdraw from the State during that year, and does not resume doing business during the succeeding taxable year, its tax for the year in which it resumes doing business shall be computed upon the basis of the net income for the year in which it discontinued doing business (except where such income has already been included in the measure of a tax imposed by this act), a credit being allowed for any tax payable under subdivision (5) of Section 4 of this act. One-half the amount of such tax shall be due and payable at the time the corporation resumes doing business, or on or before the fifteenth day of the third month following the close of its income year, whichever is later, and the balance shall be due and payable within six months of the time the corporation resumes doing business, or on or before the fifteenth day of the ninth month following the close of the income year, whichever is later, but, in no event shall the balance of the tax be due and payable later than the close of the taxable year in which it resumes doing business. All the provisions of this act relating to delinquent taxes shall be applicable to such tax if it is not paid on or before its due date.

(2) Paragraph (1) of this subsection shall not be applicable to a corporation which became subject to the California Corporation Income Tax Act after it discontinued doing business in this State; see subsection (d) (2), *supra*.

(m) The tax of any bank or corporation which has suffered the suspension or forfeiture provided in Section 32 of this act, and which revives in any taxable year other than the taxable year in which suspension or forfeiture occurred, but did not transact business, as defined in Section 5 of this act, during the period of such suspension or forfeiture, shall be computed in the same manner as provided in subdivisions (c) and (d) of this section relative to the computation of taxes of banks and corporations commencing to do business for the first time after incorporation or qualification. Such a bank or corporation shall, in addition to the taxes, penalties, and interest specified in Section 33 of this act, prepay a tax in an amount equal to the minimum tax provided for in Section 4 of this act as a condition precedent to the issuance of a certificate of revivor. Sec. 13½. (1) An affiliated group of corporations shall, subject to the provisions of this section, have the privilege of making a consolidated return for the taxable year in lieu of separate returns.
