CHAPTER 3

An act to add Sections 73c and 73d to the Code of Civil Procedure, relating to hearings by superior courts, declaring the urgency thereof, to take effect immediately.

In effect immediately [Approved by Governor January 23, 1945. Filed with Secretary of State January 22, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 73c is added to the Code of Civil Procedure, to read:

Superior
court
hearings
Building
and loan
associations

73c. Notwithstanding anything to the contrary contained in Sections 73 and 142 of this code, or contained in any other law of this State, the judge or judges of the superior court of the county in which is located the principal office in this State of any building and loan association of whose business, property and assets possession shall have been taken by the Building and Loan Commissioner, may, in his or their discretion, whenever such judge or judges deem it necessary or advisable, hold hearings relating to the sale, exchange or other disposition of any parcel of real property or any item of personal property of such association, regardless of the location of such property, at the county seat of any county in this State or at such places in the county in which the principal office in this State of such association is located at which sessions of such superior court shall be held as provided in this code.

SEC. 2. Section 73d is added to the Code of Civil Procedure, to read:

Expenses of
hearings

73d. Whenever, under the provisions of Section 73c of this code, it becomes necessary for a judge, clerk, deputy clerk, court reporter or bailiff of or sitting in the superior court of the county in this State in which is located the principal office of any building and loan association whose business, property and assets are in the possession of the Building and Loan Commissioner, to travel to another county, there temporarily to attend hearings relating to the sale, exchange or other disposition of real or personal property of such association, each such judge, clerk, deputy clerk, court reporter or bailiff shall be allowed his necessary expenses in going to, returning from and attending upon the business of such court. Such expenses shall upon order of such court, be a charge against the funds of such association and paid out of such funds by the Building and Loan Commissioner.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution of the State of California, and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The Building and Loan Commissioner is in possession of property, business and assets worth many millions of dollars

of insolvent building and loan associations. Due to statewide and branch office operations, the property and assets of such associations are located throughout the State, and as a result superior court hearings relating to the sale, exchange or other disposition of real or personal property of such associations, if conducted in the counties wherein their principal offices are located, are in many instances hundreds of miles distant from the properties involved. Such hearings are in character similar to auctions, and by reason of the distances involved and the fact that the present war in which the United States is engaged has seriously affected hotel and transportation facilities, persons most likely to be interested in properties being disposed of and who would bid in open court the highest and best prices therefor, do not attend such hearings, thereby causing considerable loss to the many thousands of investors and creditors of such associations. The provisions of this act will enable the superior court having jurisdiction to make and enter orders authorizing the Building and Loan Commissioner to sell, exchange or otherwise dispose of real or personal property of associations in his possession, to conduct hearings at or near the place where such properties are located, thus enabling persons most likely to be interested in such properties, and who will pay the highest and best prices therefor, to attend such hearings, with the result that substantially greater recoveries will be made for the investors and creditors of such associations. It is therefore essential to the immediate preservation of the public peace, health and safety that each and every part of this act be enacted and be immediately effective.

CHAPTER 4

An act to amend Section 13.16 of an act entitled "An act to define building and loan associations and to regulate them and their organization, business, operation, merger, consolidation and liquidation, and (without limiting the generality of the foregoing) also to do the following: To define and regulate the agents, salesmen and collectors of such associations, and to regulate their officers, directors and employees; to define, authorize, and regulate the issuance of, shares, stock and investment certificates of such associations, and to prescribe the rights, remedies and liabilities of holders thereof, and to make such investment certificates legal investments for certain purposes; to prescribe the rights, powers, remedies, duties and liabilities of such associations and the rights and remedies of their creditors; to regulate the investments, loans and borrowings of such associations, and their accounts, reports, audits, statements and advertising; to create and continue the Office of Building and Loan Commissioner, provide for and define the rights, powers, remedies and duties of the commissioner and his assistants and employees; to provide penalties for offenses

[Approved by Governor January 22, 1945 Filed with Secretary of State
January 22, 1945]

The people of the State of California do enact as follows:

Stats 1935,
p 1497

SECTION 1. Section 13.16 of the act cited in the title hereof is amended to read:

Powers of
commissioner upon
liquidation

Sec. 13.16. Powers upon Liquidation. In liquidating the affairs of an association, the commissioner shall have power to collect all moneys due to, and claims of, such association and to give full receipt therefor; to release or reconvey all real or personal property pledged, hypothecated or transferred in trust as security for loans; to approve and pay all just and equitable claims; provided, that shares shall participate ratably with investment certificates in the case of any association in which shareholders shall have heretofore been granted the right and option by the association to exchange their shares for investment certificates of equal value; to commence and prosecute all actions and proceedings necessary to enforce liquidation; and on the order of the superior court of the county in which the principal office in this State of such association is located, given and made after a hearing on such notice as the court shall prescribe, to compound bad or doubtful debts or claims, or to borrow money, or to sell, convey or transfer real or personal property. Notwithstanding anything to the contrary contained in Sections 73 and 142 of the Code of Civil Procedure, or contained in any other law of this State, the judge or judges of such superior court, may, in his or their discretion, whenever such judge or judges deem it necessary or advisable, hold hearings relating to the sale, exchange or other disposition of any parcel of real property or any item of personal property of such association regardless of the location of such property, at the county seat of any county in this State or at such places in the home county of such superior court at which sessions shall be held as provided in the Code of Civil Procedure. Whenever it becomes necessary for a judge, clerk, deputy clerk, court reporter or bailiff of or sitting in such superior court, to travel to another county, there to attend hearings relating to the sale, exchange or other disposition of real or personal property of such association, each such judge, clerk, deputy clerk, court reporter or bailiff shall be allowed his necessary expenses in going to, returning from and attending upon the business of such court. Such expenses shall upon order of

Hearings

such court, be a charge against the funds of such association and paid out of such funds by the commissioner. If a purchaser for any property or any bad or doubtful debt or claim can not be obtained and it appears improbable in the case of any such bad or doubtful debt or claim that recovery thereon can be had, and that the cost of action to enforce collection of the same would probably be lost, the court may direct that suit thereon need not be brought, and if in the case of any such property it appears improbable that anything can be realized therefrom and that the cost of maintaining, preserving or protecting said property would probably be lost, the court may direct the commissioner to abandon the same. For the purpose of executing and performing any of the powers and duties hereby conferred upon him, the commissioner may in the name of such association or in his own name prosecute and defend any and all suits and other legal proceedings and may in the name of such association or in his own name as commissioner execute, acknowledge and deliver any and all deeds, assignments, releases, requests for reconveyance, and other instruments necessary and proper to effectuate any sale of real or personal property or other transaction in connection with the liquidation of such association; and any deed, assignment, release, request for reconveyance or other instrument executed pursuant to the authority hereby given shall be valid and effectual for all purposes as though the same had been executed by the officers of such association by authority of its board of directors. In case any of the real property so sold is located in a county other than the county in which the application to the court for leave to sell the same is made, the commissioner shall cause a certified copy of the order authorizing or ratifying such sale to be recorded in the office of the recorder of the county in which such real property is located.

Upon determining to liquidate an association, the commissioner shall cause an inventory of all the assets of such association to be made in duplicate, the original to be filed with the court and the duplicate in the office of the commissioner. He shall cause notice to be given by publication once a week for four successive weeks in some newspaper of general circulation published at or near the principal place of business in this State of such association, to all persons having claims against it as creditors or investors or otherwise, to present and file same and make legal proof thereof at a place and within a time to be designated in such publication, which time shall be not less than six months after such first publication; and within 10 days after such first publication he shall cause a copy of such notice to be mailed to all persons whose names appear of record upon its books as creditors or investors; and upon the expiration of the time fixed for the presentation of claims, the commissioner shall prepare or cause to be prepared in duplicate a full and complete schedule of all claims presented, specifying by classes those that have been approved and those that have been disapproved and shall file the original with the court and the dup-

licate in the office of the commissioner. Not later than five days after the time of filing such schedule with the court, written notice shall be mailed to all claimants whose claims have been rejected. Action to enforce the payment of or to establish any rejected claim must be brought and service had within four months from and after the date of filing of the schedule of claims with the proper court; otherwise all such actions shall be forever barred. All claims, demands or causes of action of whatever nature, and regardless of whether or not a suit shall be pending to enforce the same at the time of the taking possession of the assets of the association by the commissioner, of creditors, and persons other than investors against the association or against any property owned or held by it in trust or otherwise, must be presented to the commissioner in writing, verified by the claimant, or someone in his behalf, within the period limited in the above mentioned notice for the presentation of claims; and the commissioner shall have no power to approve any claim not so presented, and any such claim, demand or cause of action not so presented shall be forever barred. Any investor, without presenting a claim, shall be entitled, as to any dividends hereafter declared, to share in such dividends to the extent, and in the proper relative order of priority, of any claim shown by the books of the association to exist in his favor against the association.

Appointing
deputies

The commissioner may under his hand and official seal appoint one or more special deputies to assist in the duties of liquidation and distribution under his direction and may also employ such special legal counsel, accountants and assistants as may be needful and requisite and fix the salaries and compensation to be allowed and paid to each. All such salaries and compensation with such other reasonable and necessary expenses as may be incurred in the liquidation shall be paid by the commissioner from the funds of such association in his hands. Such expenses shall include, among other things, that part of the salary of the commissioner and of his deputies, examiners, accountants, appraisers and other assistants, and that part of the general expenses of the commissioner's office, as shall fairly represent, in the opinion of the commissioner, the proportion thereof properly attributable to such liquidation. From the net realization of assets in excess of such salaries, compensation and expenses, the commissioner shall first pay all claims heretofore or hereafter approved by him in the sum of less than ten dollars (\$10), other than the claims of shareholders or stockholders, and other than the claims of certificate holders or other creditors who shall object in writing to such payment. Such claims of less than ten dollars (\$10) shall be paid at their surrender value as estimated by the commissioner and fixed and determined by the court on the same basis as claims are received in payment of real property as provided for by Section 13.16a, and all such claims shall thereupon be canceled. The commissioner shall then pay all claims approved in the sum of ten dollars (\$10) or more, other than the claims of shareholders and stock-

holders, without distinction or preference as between the claims of certificate holders and other creditors; and thereafter he shall distribute and pay dividends in liquidation first to the shareholders until their claims are fully paid or such assets or funds are exhausted, and second, if any such assets or funds remain, to the stockholders until such assets or funds are exhausted; provided, however, notwithstanding anything to the contrary herein contained, in the case of any association in which shareholders shall have heretofore been granted the right and option by the association to exchange their shares for investment certificates of equal value he shall distribute and pay dividends in liquidation to such shareholders without distinction or preference as between the claims of such shareholders and the claims of certificate holders and other creditors. Such distributions shall be made as funds are available therefor to the extent of 10 per cent or more of the approved claims of the class of claimants then entitled to distribution, and shall continue until all the assets have been realized upon and a final dividend in liquidation shall be declared and paid. Where the commissioner shall have taken possession of an association and commenced paying dividends in liquidation prior to the effective date of this section, as amended, he shall nevertheless pay the claims of certificate holders or other creditors approved in the original sum of less than ten dollars (\$10), as hereinabove provided for, before paying other dividends in liquidation to those claimants whose claims were originally approved in the sum of ten dollars (\$10) or more. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate thereof shall be filed in the office of the commissioner and after due hearing and approval by the court, the liquidation shall be deemed to be closed.

Distribution

The determination by the commissioner to liquidate any association, evidenced by filing written notice of such determination with the court, shall operate to stay or dissolve any or all actions or attachments instituted or levied within 30 days next preceding the taking of possession of such association by the commissioner, and pending the process of liquidation as herein provided no attachment or execution shall be levied or lien created upon any of the property of such association.

Stay of process, etc

Whenever in the case of any association which shall have issued stock, the commissioner shall have fully liquidated all claims other than claims of stockholders, and shall have made due provision for any and all known but unclaimed liabilities, excepting claims of stockholders, and shall have paid all expenses of liquidation, then upon the written request of the holders of a majority of the stock of such association any surplus that may then remain in his hands, together with all the records and effects, shall be delivered to the association or its trustees, and thereafter such association or its trustees shall have title thereto free from any claim of the commissioner.

A statement of the facts constituting such necessity is as follows:

SECTION 1. Those provisions of Section 5 of Article XI of the State Constitution which prohibit the increase of compensation of any county, township or municipal officer after his election or during his term of office are hereby suspended for

the period commencing upon the effective date of this act and continuing until six months after hostilities terminate in each of the wars in which the United States is now engaged, whichever last terminate, as proclaimed by the President of the United States.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and shall go into effect immediately. The facts constituting such necessity are as follows:

In order to provide for proper class rooms and other school facilities, authorization must be granted to school districts to extend their school grounds in the only direction possible. Such temporary licenses are revocable at the pleasure of the board with or without cause. A temporary license to act as a bar pilot shall not be issued while the number of bar pilots licensed pursuant to Section 1160 is less than 20. If the number of outstanding licenses to act as bar pilot issued pursuant to Section 1160 falls below 20 and there are at the time outstanding temporary licenses to act as bar pilot, persons holding such temporary licenses shall be entitled to be licensed under Section 1160 in the relative order in which they received their temporary licenses and prior to any other person, but the number of licenses issued and outstanding under Section 1160 shall not at any time exceed 20.

This act provides for an increase in the number of bar pilots under Division 5, Chapter 2 of the Harbors and Navigation Code. Emergency conditions made necessary by the war and the volume and manner of shipping to and from San Francisco

Officers and employees (i) holding positions on July 1, 1944, exempt from civil service under paragraph (11) of subdivision (a) of Section 4 of Article XXIV of the Constitution, (ii) on the effective date absent due to service for which a right to return is granted by the State Civil Service Act, and (iii) otherwise continuously for six months prior to January 1, 1945, employed in the service of the Board of Prison Directors, the wardens, the department or any of them.

Permanent positions (b) Such personnel shall be included in the State civil service in permanent positions subject to a probationary period pursuant to subdivision (e) of Section 5 of Article XXIV of the Constitution, the probationary period to begin with respect to Class 2 personnel from the date they resume their position.

(c) An officer or employee, directly or indirectly, entitled to or having permanent status under this section, who is displaced by one having a right of return shall be accorded the

same rights to elect demotion in lieu of layoff granted by Section 172 of the State Civil Service Act as though he had had permanent status at all times in any previous position.

(d) The State Civil Service Act shall govern with respect to conflicting claims to the same position after the effective date, the same as though the position were at all times subject to civil service.

(e) After the effective date the director shall be the appointing authority for all positions not otherwise provided for and, pursuant to the State Civil Service Act, may employ and fix the compensation for the personnel for such positions

(f) Appointees of the Governor and persons holding positions designated to be confidential pursuant to paragraph (5) of subdivision (a) of Section 4 of Article XXIV (for the purposes of which paragraph the Adult Authority, the Youth Authority and the Director of Corrections shall be considered separate boards, commissions and officers) shall remain exempt from civil service.

(g) "Right of return" and "right to return" as used in this section refer to rights expressly provided by the State Civil Service Act to return to a position after military service in time of war or during a period of preparation for National defense or service as a seaman as described in Section 174 of the State Civil Service Act, and refers to rights which may hereafter be granted expressly by the State Civil Service Act to return to a position after service to the Nation.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

That the reorganization of the administration of the State prisons has resulted in uncertainty as to the civil service status and rights of employees at said institutions which is causing dissatisfaction upon the part of said employees, many of whom will resign unless their civil service status and rights are clarified; that due to wartime shortage replacement of said employees would be exceedingly difficult; that the retention of competent personnel is highly essential to the efficient administration and operation of the State prisons, the proper functioning of which is necessary in the public interest; that prevention of disruption of the organization of the State prisons is imperative and this act should therefore go into effect immediately.

district

SECTION 1. The purported annexation or admission of a union elementary school district to another union elementary school district situated in the same county between July 1, 1944, and August 1, 1944, pursuant to Article 4 of Chapter 9 of Division 2 of the Education Code shall be deemed, for all purposes, to have resulted in the uniting of said union elementary school districts to form a new union elementary school district and the said new union elementary school district shall be deemed, for all purposes, to have been formed pursuant to the provisions of Article 1 of Chapter 9 of Division 2 of the Education Code.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall take effect immediately. The following is a statement of the facts constituting such necessity.

The provisions of the Education Code relating to the annexation of one union elementary school district to another union elementary school district are ambiguous. As a result there exists considerable doubt as to whether such annexation can be had and as to the effect thereof. In order to establish definitely the validity of proceedings already had and the effect thereof and thus avoid confusion which would result in the impairment of the ability of the public school system to adequately serve the children of the State, it is necessary that this act take effect immediately.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Urgency

In order to make it unnecessary to dispose of Government bonds prior to the date when the interest on such bonds becomes due and payable, it is necessary to change the existing law so that moneys which must be transferred to the State's fiscal agent in New York City may not have to be forwarded until 10 days prior to the due date, instead of 30 days prior to such due date as now is required by law.

SEC. 2. Section 20 of the Unemployment Insurance Act is amended to read:

Sec. 20. The State Treasurer shall be ex officio the treasurer and custodian of the Unemployment Fund, and shall administer such fund in accordance with the directions of the commission. There shall be maintained within the fund three separate accounts:

- (1) A clearing account,
- (2) An Unemployment Trust Fund account, and
- (3) A benefit account

Contributions

All contributions and amounts payable to the fund, upon receipt thereof by the commission, shall be forwarded to the Treasurer who shall, after proper clearance, immediately deposit them in the clearing account. Refunds or judgments payable pursuant to this act may be paid from the clearing account or from the benefit account with respect to any moneys erroneously deposited therein, upon warrants issued by the Controller under the direction of and in accordance with authorized regulations. There is hereby continuously appropriated without regard to fiscal years such sums as may be necessary for such refunds. Immediately after clearance thereof, all other moneys in the clearing account excepting interest on contributions, penalties and fines collected shall be deposited in or invested in the obligations of the Unemployment Trust Fund of the United States of America or its authorized agent to the credit of this State, any provisions of law in this State relating to the deposit, administration, release, or disbursement of moneys in the possession or custody of this State to the contrary notwithstanding. The amounts so deposited or invested shall be entered in the Unemployment Trust Fund account.

Penalties

The benefit account shall consist of all moneys requisitioned from this State's account in the Unemployment Trust Fund, and any moneys so requisitioned shall be transferred out of the Unemployment Trust Fund account into the benefit account. Except as herein otherwise provided, moneys in the clearing and benefit accounts may be deposited by the Treasurer, under the direction of the commission, in any bank or public depository in which public funds of the State may be deposited, but no public deposit insurance charge or premium shall be paid out of the fund. Moneys in the clearing and benefit accounts shall not be commingled with other State funds, but shall be maintained in a separate account on the books of the depository. Such moneys shall be secured by said bank or public depository to the same extent and in the same manner as required by the General Depository Law of the State and collateral pledged shall be maintained in a separate custody account. The official bond of the State Treasurer shall cover the faithful performance of his duties as treasurer of the Unemployment Fund. Such amounts of interest, penalties and fines so certified for transfer shall be deemed to have been erroneously deposited in the clearing account and the transfer thereof to the Department of Employment Contingent Fund shall be deemed to be a refund of such erroneous deposits. All amounts in the Department of Employment Contingent Fund are hereby continuously appropriated without regard to fiscal years for the administration of the Department of Employment, provided, however, that no expenditure shall be made from this fund except under an authorization made by the Director of Finance in the manner prescribed in Section 661 of the Political Code; provided further that no such authorization shall be made as a substitution for a grant of Federal funds, or for any portion thereof, which in the absence of said authorization would be available to the Department of Employment.

IV, of the Constitution and it shall therefore go into immediate effect. The statement of the facts constituting such necessity is as follows:

Apparently through oversight Section 20 as it now reads makes no provision for the payment of refunds authorized under Section 44.2 of the Unemployment Insurance Act. These refunds become payable to workers after January 1, 1945. This amendatory act will remedy this defect and preclude misunderstanding, confusion and expensive correspondence with respect to the many workers throughout the State who have become eligible for a refund under the provisions of the Unemployment Insurance Act.

It is also urgently necessary to provide some means of financing the operations of the department in times of emergency. The administrative costs of the department are financed by Federal grants allocated by the Social Security Board on a fiscal year basis. The imminent probability of large numbers of workers becoming unemployed on short notice and the resulting increase in administrative costs of the department would jeopardize the proper administration of the entire unemployment insurance program if Federal funds were not immediately available. This act would provide for a special fund to be available with the approval of the Director of Finance and the Governor for emergency costs of administration pending receipt of Federal grants.

Benefit rights of trainees

SECTION 1. Section 57.7 of the Unemployment Insurance Act Sec. 57.7. Notwithstanding any inconsistent provisions of this act the benefit rights of trainees shall be determined in accordance with the following provisions of this section for the periods and with respect to the matters specified herein. Except as herein otherwise provided, all other provisions of this act shall continue to be applicable in connection with such benefits.

"Military service"

(1) The term "military service" as used in this section means active service in the land or naval forces of the United States, but the service of an individual in any reserve component of the land or naval forces of the United States who is ordered to active duty in any such force for a period of 30 days or less shall not be deemed to be active service in such force during such period.

(2) The term "trainee" as used in this section means an individual who entered military service after April 1, 1940, and who continued such service for not less than 90 consecutive days and whose military service was terminated on or before October 1, 1945. "Trainee"

(3) (a) With respect to any trainee who has an unexpired benefit year at the time of induction into the armed forces, the unexpended balance of benefits remaining to his account shall be reestablished beginning with the first day of the first week succeeding the date of his termination of service. Whenever this balance is exhausted the trainee may file a claim and his base period shall be determined in accordance with the provisions of subsection (4) hereof, except that all reestablished balances shall lapse 65 weeks after termination of such military service. Reestablishment of unexhausted benefits

(b) The benefit year of all other trainees shall be 52 weeks from the first day of the first week following the date of termination of military service. Benefit year

(4) With respect to the determination of the benefit rights of any trainee, the base period shall consist of the first four out of the last five completed calendar quarters, excluding those quarters during which the trainee was in military service 60 days or more. For all quarters so excluded there shall be substituted an equal number of quarters immediately preceding his entry into military service, except that the quarter of entry into military service shall be counted as a completed quarter if the commission finds that the inclusion thereof would be more equitable to the trainee. Base period

(5) No disqualification shall be applied to any trainee after the termination of his military service, by reason of any act or course of action on his part prior to the date of his entry into such service. Disqualification

(6) If, under an act of Congress, payments with respect to the unemployment of individuals who have completed a period of military service are payable by the United States, a trainee shall be disqualified for benefits with respect to any week for which he receives such benefits and no benefits shall be paid under this section until he has exhausted all his rights to such payments from the United States. U S benefits

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1, Article IV, of the Constitution and it shall therefore go into immediate effect. The statement of the facts constituting such necessity is as follows: Urgency

Through apparent oversight Section 57.7 as it now reads prevents the payment of benefits to honorably discharged veterans based on wages earned after discharge, unless the veteran has exhausted any and all allowances payable to him under the Federal Servicemen's Readjustment Act, although it permits the payment of such benefits to dishonorably discharged veterans. This denial of the same right to unemployment insurance enjoyed by other workers in covered employment does not

encourage the increasing number of returning servicemen to seek employment at a time when there is an urgent need of workers. The foregoing amendment would permit honorably discharged veterans to claim unemployment insurance benefits based on earnings in employment after discharge to the same extent as any other claimant.

CHAPTER 19

Stats 1953, p 1226, amended *An act to add Section 9.1 to the Unemployment Insurance Act relating to unemployment insurance and the definition of employer thereunder, declaring the urgency thereof, to take effect immediately.*

In effect immediately [Approved by Governor January 29, 1945. Filed with Secretary of State January 29, 1945]

The people of the State of California do enact as follows:

New section SECTION 1. Section 9.1 is added to the Unemployment Insurance Act, to read:

"Employer" Sec 9.1. Notwithstanding any other provision of this act, "employer" also means any employing unit which during the period, February 1, 1945 through March 31, 1945, or during any subsequent calendar quarter, pays wages for employment in excess of three thousand dollars (\$3,000) and which has four or more individuals in employment on any one day during such period.

Urgency SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution, and shall therefor go into immediate effect. The statement of the facts constituting such necessity is as follows:

A large source of revenue is lost by the State of California, and the operation and administration of the unemployment insurance law is seriously impaired by virtue of the existing provisions of Section 9 of the Unemployment Insurance Act whereby a large number of individuals, many of whom have war contracts and large pay rolls, have employed several thousand workers continuously for periods as long as nine consecutive months without paying or collecting any unemployment insurance taxes. In addition to the loss of revenue this condition prevents all of the workers employed from acquiring the benefit of unemployment insurance wage credits, creates difficulty in the proper administration of the law, and results in confusion, uncertainty and hardship among the workers. The foregoing amendment will remedy this defect without bringing under the Unemployment Insurance Act any employer with less than four employees or any employer with more than four employees whose pay roll does not exceed a specified amount.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California, and as such shall take effect immediately. The following is a statement of facts showing such necessity:

Due to the present wording of the act several commonly used and widely known drugs necessary to the maintenance of public health and particularly beneficial in the treatment of common colds and infections are included within the restrictions of the act permitting retail sale only on the prescription of a physician and surgeon. The inclusion of these preparations by the last Legislature was by inadvertence in the wording of this act, and was without intent by its authors or sponsors. Immediate elimination of such restrictions on the sale of such preparations is essential in order that citizens of this State may readily purchase and beneficially use such preparations and in order that the time of the pharmacists, physicians and surgeons of this State may be conserved for activities essential to the health of the citizens of this State.

CHAPTER 24

An act to amend Section 257 of the Vehicle Code, relating to junior drivers licenses, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor January 29, 1945. Filed with Secretary of State January 29, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 257 of the Vehicle Code is hereby amended to read as follows:

Age limit for
operators
Junior
licenses

257. Age Limit for Operators.

Junior Licenses. No operator's license shall be issued to any person under the age of 16 years except that a junior operator's license may be issued to any person 14 years of age but less than 16 years of age upon application as required of other minors under Section 350 hereof.

Restrictions

Such license shall be restricted to the operation of a motor vehicle registered to the licensee's parent, guardian, or

employer, either to or from school, to or from work, or on the business of the parent, guardian, or employer, unless the licensee is accompanied by and under the immediate supervision of an adult.

The possession of a junior license shall not authorize the licensee to operate a motor vehicle in violation of any law, nor in violation of any rule or regulation of the State or Federal authorities relating to employment of minors. The department may issue a junior license for a period of less than four years and may cancel any such license at any time before the person is 16 years of age whenever in the opinion of the department the safety of such person or of other persons upon the highways may require such cancellation.

The department may impose such further restrictions as it may deem necessary to assure the safe operation of a motor vehicle by the licensee. Instruction
permit

The department may issue an instruction permit to any physically and mentally qualified person taking a course in driver instruction in a public school without further examination; provided, the instruction permit is restricted to the operation of a motor vehicle when accompanied by and under the immediate supervision of a regularly certificated teacher for the purpose of instruction.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such urgency is as follows: Urgency

The Government of the United States now being engaged in war, Federal authorities have requested that the State of California, along with the other States of the Union, provide driver training for those persons approaching the age of induction into the military services with a view that this training will expedite their orientation into the military and reduce the period of training necessary before such persons will be sufficiently trained to engage in combat operations. Approximately 300 high schools in California are undertaking driver instruction in compliance with the request of the Federal authorities but are unable to give driver instruction under actual driving conditions because the provisions of the Vehicle Code now requires a showing of actual present necessity on the part of the individual before he can be issued a permit authorizing actual driver's training on streets and highways.

It is therefore necessary that these provisions of the Vehicle Code be amended in order to permit the instruction considered necessary by Federal authorities to meet the urgent needs of National defense.

CHAPTER 25

An act to amend Sections 4455 and 4459, and to repeal Sections 4456, 4457, 4458 and 4460 of, and to add a new Section 4460 to, the Public Resources Code, relating to forest insect control, declaring the urgency thereof, to take effect immediately.

In effect immediately [Approved by Governor February 10, 1945 Filed with Secretary of State February 13, 1945]

The people of the State of California do enact as follows:

SECTION 1. Section 4455 of the Public Resources Code is amended to read:

Infested timber on private land

4455. Whenever the State Forester determines that there exists an infestation of pine beetles or other insect pests injurious to timber or forest growth on privately owned lands and that said infestation is of such a character as to be a menace to the timber or timberlands of adjacent owners, the State Forester with the approval of the State Board of Forestry may declare the existence of a zone of infestation, and describe and fix its boundaries.

Powers of State Forester

Thereupon the State Forester or his agents shall have the power to go upon the land within said zone of infestation and shall cause the insect infestation to be eradicated and destroyed in a manner approved by the State Board of Forestry and in order to accomplish the eradication and destruction of such infestation, the State Forester may enter into cooperative agreement with private timberland owners, Federal Government and other public or private agencies, using such funds as have been or may hereafter be made available for such purpose; provided, however, that the State Board of Forestry shall set the ratio of State to private cooperation.

SEC. 2. Section 4459 of said code is amended to read:

Dissolving zone of infestation

4459. Whenever the State Board of Forestry determines that insect control work within the designated zone of infestation is no longer necessary or feasible, then the board shall instruct the State Forester by written order to dissolve the zone of infestation.

Repeals

SEC. 3. Sections 4456, 4457, 4458 and 4460 of said code are repealed.

Urgency

SEC. 4. This act is declared to be an urgency measure within the meaning of Section 1 of Article IV of the State Constitution, necessary for the immediate preservation of the public peace, health and safety. A statement of the facts constituting such necessity is as follows:

Serious infestation of forest insects now exists in valuable timber lands within the State. This infestation has increased approximately 400 per cent in the last year and if allowed to continue unabated all indications are that the infestations will rapidly extend into adjacent areas and destroy additional large volumes of merchantable timber.

It is estimated at the present time that there are 32,200 acres of private land in need of treatment, involving over 5,000 trees of unmerchantable size and nearly 4,000 merchantable trees which may be salvaged having a total volume of 4,155,000 board feet of lumber. If control measures are not taken immediately, it is safe to assume that the infested area will greatly expand and the loss in the volume of merchantable timber may be many times the present loss.

It is felt that the State of California has a direct interest in protecting this basic resource and the taxable values involved, approximately 50 per cent of the control cost. If this work is not accomplished between now and early summer while the insects are in their dormant state the infestation may assume catastrophic proportions.

CHAPTER 26

An act to provide for the making, investing in and purchasing loans made to veterans, which are wholly or partially guaranteed by the United States or any agency thereof under the provisions of the "Servicemen's Readjustment Act of 1944" by banks, insurance companies, building and loan companies, personal finance companies, mortgage loan companies, mortgage insurance companies, trust companies, fiduciaries or fiduciary institutions and to add Sections 67.2 and 80.2 to the Bank Act, Section 9.19 to the Building and Loan Association Act, and Sections 1176.5 and 1176.6 to the Insurance Code, declaring the urgency thereof, to take effect immediately.

If the whole or any portion of a loan is guaranteed by the Administrator of Veterans' Affairs under Title III of the "Servicemen's Readjustment Act of 1944" or any act of Congress supplementary or amendatory thereof, such loan may be made on any terms, plans, practices or procedures now or hereafter authorized or required by the Administrator of Veterans' Affairs

thereunder, provided such terms, plans, practices or procedures are approved by the commissioner as affording reasonable protection to associations and investors.

SEC. 4. Section 1176.5 is added to the Insurance Code, to read:

Same

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

Congress has enacted and the President has signed Public Law 346 of the Seventy-eighth Congress, known as the Servicemen's Readjustment Act of 1944. This statute was enacted, in order, among other purposes, to facilitate means by which persons who have served in the active military or naval service of the United States at any time on or after September 16, 1940, and prior to the termination of World War II, and who shall have been discharged or released from such military or naval service under conditions other than dishonorable after active service of 90 days or more, may obtain loans for the purpose

of the purchase or construction of homes, or for the purchase of farms and farm equipment, or for the purchase of business properties. Many veterans will not have the financial means for their readjustment to civilian activity, and the Federal act does not provide for direct loans to these veterans, but provides certain guarantees. The authorization for investments under the law of this State are not sufficiently comprehensive to permit the making of the loans which are guaranteed under the provisions of the Servicemen's Readjustment Act of 1944. Since many of these veterans are now returning and seeking to readjust themselves to civilian life, it is necessary that this act take effect immediately.

CHAPTER 27

An act to amend the heading of Article 1, Chapter 2, Part 2, Division 1, of the Insurance Code, and to add Section 1141 to said code, relating to insurance, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor March 22, 1945. Filed with Secretary of State
March 22, 1945]

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 1, Chapter 2, Part 2, Division 1, of the Insurance Code is amended to read:

Article 1. General

SEC. 2. Section 1141 is added to said code, to read:

Liability for
failure to

levy, etc

1141. No director, trustee, officer or agent of any insurer shall be subject to personal liability by reason of any payment or any determination not to contest or seek recovery of any payment made subsequent to June 4, 1944, or hereafter made, by or on behalf of such insurer on account of any tax, license, fee, deposit or other charge paid pursuant to the terms of any statute, law or ordinance of this or any other State, county, city or taxing authority, unless prior to such payment or determination such statute, law or ordinance shall have been judicially rendered invalid by action of the State court having final appellate jurisdiction in the premises or by action of the Supreme Court of the United States. This section is applicable not only to directors, trustees, officers and agents of insurers generally but also to reciprocal or interinsurance exchanges, members of their subscribers' boards, their attorneys in fact and any director, trustee, officer and agent thereof.

Urgency

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of

Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The Supreme Court of the United States has recently decided that insurance is commerce, thereby overruling its previous decisions of long standing that insurance was not commerce. The decision imparts to insurance, when transacted across State boundaries, the character of interstate commerce, the power to regulate which is vested in the Congress of the United States by the Federal Constitution. The laws of this State and of other States requiring payment of taxes, licenses, fees, deposits and other charges by insurers were adopted on the basis of such previous decisions that insurance is not commerce, and the recent decision has caused uncertainty and doubt as to the validity of many of such laws. In consequence, question has arisen as to the personal liability of directors, trustees, officers and agents of insurers in the event they authorize payments pursuant to such laws. The failure to make such payments or the determination to contest them would cause expensive and prolonged litigation, might result in the imposition of heavy statutory penalties or prevent insurers from doing business in many States, deprive authorities in many States of revenues necessary to continue their regulation, and deprive policyholders of needed protection and advantages obtained from such regulation. In many cases, such payments must be made at once. To insure the prompt and orderly payment of these taxes, fees, licenses, deposits and other charges and to preserve the fiscal and public policies upon which they are based, it is necessary that this act take effect immediately.

CHAPTER 28

An act to add Section 1142.5 to the Probate Code, relating to the duties of a public administrator, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 5, 1945. Filed with Secretary of State April 5, 1945.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1142.5 is added to the Probate Code, to read:

1142.5. The assistant public administrator or a deputy public administrator shall in addition to his other powers possess every power and perform all and every duty belonging to the office of the public administrator, or required in the administration of the estates in which the public administrator is acting, when the public administrator, or in the case of his sickness, absence or other disability, a judge of the superior court acting as probate judge, shall designate and authorize the assistant or deputy so to act, such designation and authority to be duly filed

Authority of assistant or deputy public administrator

in the office of the county clerk of the county. Such authority to the assistant public administrator or deputy public administrator shall cease and determine upon the written direction of the public administrator or of the judge of the superior court to that effect filed in the office of the county clerk.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Under provisions of Section 7 of the Government Code, deputies may exercise the powers and perform the duties of all county officers in their absence, and as a result the work of practically all officers is carried on at all times. In the single instance of the public administrator, however, due to the requirements of probate law at present for the personal performance by any administrator of certain functions, such as allowing or rejecting creditors' claims and the execution of conveyances, assignments and transfers of title, a widespread belief has grown up that the deputy of a public administrator may not perform many of the functions of that office in the administration of estates and in consequence the work of the office is handicapped and even substantially stops when the public administrator is not present. Due to the manpower shortage and the extra work cast upon all public officers under present conditions serious illness may interrupt the work of any public administrator or of several administrators throughout the State of California at any time, and public administrators are occasionally necessarily absent from the State on business; that in order to provide for the continuance of the business of the public administrator's office during his inability to act provision should be made for the performance of his functions by assistant or deputy.

Any dependent of a veteran who has applied for aid pursuant to this article while under 21 years of age and has entered upon a course of training or education and received aid under this article and arrives at the age of 21 before completing the course may continue the course and continue to receive the benefits of this article until the course is completed or until he attains the age of 27 years, whichever first occurs.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The necessity for more education has never been more apparent than during the present war. Boys and girls who

should be continuing their education are being attracted to private industry and away from institutions of learning. After the termination of the war there will be a period when trained personnel will be needed in all lines of endeavor and unless those who are now in school can continue their education there will be a serious shortage of such trained personnel. To enable veterans' dependents to continue their education during the summer terms of schools and colleges, it is necessary that this act take effect immediately.

CHAPTER 34

An act to add Section 1241.5 to the Water Code, relating to the forfeiture of water rights, declaring the urgency of this act, to take effect immediately.

[Approved by Governor April 18, 1945. Filed with Secretary of State April 18, 1945.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1241.5 is added to the Water Code, to read:

1241.5. The period of time during which water appropriated for mining purposes is not beneficially used because of the suspension or limitation of the mining operations in which the water is used shall not be counted in computing the three year period referred to in Section 1241 if such suspension or limitation of mining operations is due to an order or directive of an agency of the United States. Water appropriated for mining

This section shall remain in effect until the ninety-first day after final adjournment of the Fifty-seventh Regular Session of the Legislature of California. Duration

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall take immediate effect. The following constitutes a statement of the facts constituting such necessity: Urgency

The United States Government has effectively prohibited the mining of precious metals in order to promote the war effort. The result has been that many mines in the State have suspended operations and as a result have ceased to use water appropriated for mining purposes. Nonuse of such water for a three year period will terminate the right to use such water. Inasmuch as some of the water rights are of great value the owners of such rights will make every effort to retain them and such efforts may well lead to friction, unrest, and possible violations of the law or the Federal regulations involved. In order that the owners of these rights may be protected by law it is necessary that this act go into immediate effect.

CHAPTER 35

An act to provide for the employment of prisoners in State prisons in the production and harvesting of crops and the fighting of forest and range fires, to permit their removal for such work, to provide the conditions and regulations for the governance of such work, to authorize the establishment of camps for their housing in such work, to provide for the financing of such work from prisoners' earnings and public funds by creating a Prisoners' Harvest Fund and appropriating said fund, by repealing Section 2715 of the Penal Code and by adding Article 6 to Chapter 5 of Title 1 of Part 3 of the Penal Code, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor April 18, 1945. Filed with Secretary of State April 18, 1945.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Section 2715 of the Penal Code, as added by Chapter 46, Statutes of 1943, is repealed.

SEC. 2. Article 6 is added to Chapter 5 of Title 1 of Part 3 of the Penal Code, to read:

Article 6. Employment in Farm Work and Fighting Fires

Authority for removal of prisoners

2800. The Adult Authority, under such conditions as it shall prescribe, may authorize the temporary removal from prison of prisoners under the custody of prison officials for the purpose of:

Harvesting crops

1. Accepting employment in the production and harvesting of crops, either at camps established under this article or as day labor, and

Fire fighting

2. Fighting forest and range fires.

Prisoners eligible

The Adult Authority may establish, and modify lists of prisoners who shall be eligible for such temporary removal. The Director of Corrections, in his discretion, may order the temporary removal of any prisoner from prison for the purposes herein specified of any prisoner who has been designated by the Adult Authority as eligible for such temporary removal. The director shall return to prison any prisoner when so directed by the Adult Authority and may return to prison any prisoner whose employment is not necessary or who violates any rule or regulation of the prison or camp or any provision of this article.

Harvest camps

2801. The Director of Corrections may establish harvest camps at such places, under such conditions, and for such periods of time as he deems necessary, for the housing of prisoners whose temporary removal from prison has been authorized pursuant to Section 2800 of this code. Subject to the provisions of law, he may lease, purchase, or otherwise acquire such real property and such housing and equipment

as may be necessary for the establishment and maintenance of such camps.

2802. Prisoners whose temporary removal from prison is authorized by the Adult Authority pursuant to Section 2800 may contract with any person, firm, association or corporation, for the performance of labor in the producing or harvesting of crops. Such contracts may be either written or oral, but shall be upon the following conditions:

Contract for services

1. That the prisoner shall receive the prevailing rate of wages in the locality as determined by the Director of Corrections for work of the character to be performed by the prisoner,

2. That the prisoner shall be considered an employee within the meaning of the workmen's compensation laws of this State,

3. That all work shall be performed under the supervision of prison officials,

4. That the Director of Corrections shall specify the hours and conditions of labor, and

5. That all sums due to the prisoner shall be paid to the Department of Corrections.

2803. Prior to the execution of any contract authorized by Section 2802 of this code, the person, firm, or corporation seeking to employ a prisoner shall certify to the Director of Corrections that a diligent effort has been made to secure emergency labor from other sources.

Certificate of employer

2804. All sums paid to the Department of Corrections by reason of the labor of any prisoner under this article shall be deposited in the State treasury in a fund to be known as the "Prisoners' Harvest Fund," which fund is hereby created. The earnings of each prisoner shall be carried in a separate account and all of his earnings under this article shall be credited to his account. There shall be debited to that account:

Prisoners' Harvest Fund

1. The prisoner's drawings from the commissary,

2. Such part of his earnings as the Director of Corrections shall determine to be necessary to meet the expenses of his transportation, guarding, and feeding while removed from prison under this article,

3. Such part of his earnings as the Director of Corrections shall determine to be necessary to meet the expenses of any clothing furnished to the prisoner because of his employment under this article, and

Credits and debits

4. In addition to the above, when confined in a camp established under this article, such part of his earnings as the Director of Corrections shall determine to be necessary to meet all of the expenses necessary to the proper maintenance of the camp in which he is confined.

Of the balance credited to any prisoner, there shall be paid to him, while he is confined in a penal institution, such amounts as may be determined by the Director of Corrections, upon his release on parole, such amount as may be determined by the Adult Authority, and upon his discharge from custody, the entire balance credited to him.

Balance credited to prisoner

Appropriation of money in fund

An amount in the Prisoners' Harvest Fund equal to the total amount debited to the accounts of all prisoners in said fund is hereby appropriated and shall be available for expenditure as a revolving fund from which shall be paid all expenses incurred by the Department of Corrections under this article. It is the intent of the Legislature that the expenses of the program prescribed by this article shall be wholly paid from the earnings of prisoners. But if at any time there shall be insufficient funds available in the Prisoners' Harvest Fund to meet the expenses necessary under this article, then said expenses may be paid from the then current appropriation for the support of the Department of Corrections. Any expenditures made from said appropriation shall be repaid as an abatement to said appropriation as soon as money is available for expenditure in the Prisoners' Harvest Fund. Any sums remaining in the Prisoners' Harvest Fund and available for expenditure under this article and unencumbered at the termination of this act shall abate to the current appropriation for the support of the Department of Corrections.

Forfeiture of earnings

2805. When any prisoner, temporarily removed from prison under this article is guilty of escape, or shall wilfully violate any rule of the Department of Corrections, or the terms of his parole, the Adult Authority shall determine what portion of the prisoner's earnings shall be forfeited by said prisoner and said forfeiture shall be deposited in the Prisoners' Harvest Fund and shall remain available for expenditure as are amounts debited to the prisoner's account and shall revert in the same manner.

Transfers to fund

2806. Any money deducted from prisoners' earnings under Section 2715 of this code as added by Statutes of 1943 Chapter 46 and remaining unexpended shall be transferred to the Prisoners' Harvest Fund upon the effective date of this article and shall be available for expenditure in the same manner and for the same purposes as are the amounts to remain deducted from prisoners' earnings under Section 2804 of this code.

2807. The Director of Corrections may order the temporary removal from prison of any prisoner eligible for such removal for the purpose of fighting fires upon demand of the Division of Forestry in the Department of Natural Resources or of Federal officials charged with the duty of suppressing and preventing fires in National forests within California. He may specify the conditions and regulations governing such removal. He may authorize the use of prisoners in fighting fires in areas adjacent to the prisons and institutions under the jurisdiction of the Department of Corrections.

Duration

SEC. 3. The article of the Penal Code added by this act shall remain in effect until April 15, 1947, or until the termination of the present National emergency declared to exist by the President of the United States by his proclamation of September 8, 1939, or until the termination of the present war and six months thereafter, whichever of the foregoing first occurs.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall take effect immediately. The facts constituting such necessity are as follows:

At the Fifty-fifth Session of the Legislature of California, the Legislature found that due to the necessities of the war then in progress, the demands of the United States Army and Navy and of defense industry had resulted in a manpower shortage, and that said shortage made it necessary that prisoners be employed in the harvesting, growing, and planting of crops and fighting of fires. The act then adopted, Statutes 1943 Chapter 46, expires on April 15, 1945. The situation then existing which caused the Legislature to authorize the employment of prisoners in such work still exists and it is necessary to public welfare of this State and the public health and safety that the program instituted under the Act of 1943 be continued without interruption.

CHAPTER 36

An act to add Section 652 to the Penal Code, relating to offers of rewards for the apprehension or capture of persons.

CHAPTER 38

An act to add Section 988j to the Code of Civil Procedure, relating to practice and procedure on appeals from municipal courts in civil cases, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor April 18, 1945 Filed with Secretary of State
April 18, 1945]

The people of the State of California do enact as follows:

SECTION 1. Section 988j is added to the Code of Civil Procedure, to read:

Appeals from
municipal
courts

988j. In appeals from municipal courts in civil cases, the practice and procedure on appeal, and the time and manner in which records on appeal shall be made up and filed, shall be prescribed in rules adopted by the Judicial Council. Until such rules are adopted, the practice and procedure, and the time and manner provided by statutes in force on the thirtieth day of June, 1943, shall govern. All proceedings taken since the thirtieth day of June, 1943, for the preparation of records on appeal from the municipal courts in civil cases, which are in accordance with such laws, are hereby confirmed and validated.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall therefore take effect immediately.

The facts constituting such necessity are as follows: The legal question has arisen whether the records on appeal from municipal courts shall be prepared in accordance with the Rules on Appeal relating to appeals from superior courts, which took effect on July 1, 1943, or in accordance with the laws in force before that date. Since that date many records on appeal from municipal courts have been prepared and are now being prepared in accordance with the laws previously in effect, and many appellants may be deprived of the benefit of their appeals if said laws are held not to be applicable, and many parties who have taken or are about to take appeals from municipal courts are uncertain how to proceed in the preparation of the records, and it is urgent that said uncertainty be cleared up at the earliest possible date, without awaiting the passing of other legislation or the preparation of rules by the Judicial Council.

It is also necessary that rules of the Judicial Council cover the whole field of practice and procedure in such appeals, in order that doubt and confusion might be removed as to whether such statutes or such rules are applicable.

CHAPTER 39

fact on
appeal

956a. In all cases where trial by jury is not a matter of right or where trial by jury has been waived, the Supreme Court or

a district court of appeal may make findings of fact contrary to, or in addition to, those made by the trial court. The said courts of appellate jurisdiction may, for the purpose of making such findings or for any other purpose in the interest of justice, take, pursuant to such rules, additional evidence of or concerning facts occurring at any time prior to the decision of the appeal and may give or direct the entry of any judgment or order and make such further or other order as the case may require. Such forest practice rules shall apply to old growth and second growth timber and shall include, but not be limited to: fire protection devices and practices, protection against operations in logging which unnecessarily destroy young timber growth or timber growing conditions of the soil, protection and prevention from damage by forest insects and disease, and provisions for the restocking of the land after cutting, by natural or artificial methods.

The district forest practice committee shall adopt forest practice rules for the forest district after due notice and hearings held for the purpose. When such forest practice rules

have been submitted to the private timber owners and have been approved by two-thirds of the private timber ownership in the district, such percentage to be measured by the acreage of timber and cutover land privately owned in the district, they shall be submitted to the State Board of Forestry for approval.

The committee may receive and approve forest management plans which may be submitted by owners of forest land in the forest district as an alternate for the forest practice rules approved for that district. Forest
management
plans

If in the judgment of the State Board of Forestry such rules of forest practice and such forest management plans are deemed sufficient to accomplish the purposes and intent of this act, they shall be approved by the board.

In the event that any of the rules so submitted are disapproved by the board, they shall be returned to the district forest practice committee with recommendations for amendments. Action upon such recommended amendments shall follow the same procedure as hereinbefore provided for the adoption of the initial rules.

In the event that the board deems that a forest management plan which has been submitted for approval is inadequate, it shall return such forest management plan to the district forest practice committee and the timber owner who submitted such forest management plan, for concurrence in suggested amendments which will fulfill the purposes and intent of this act.

Forest practice rules and forest management plans approved by the State Board of Forestry shall have the force of law within the forest district in which such rules originated, and all timber owners in the forest district shall be subject to compliance with such forest practice rules, excepting, however, that if any owner of forest land has submitted a forest management plan which has been approved by the State Board of Forestry, he shall be subject only to compliance with such forest practices as may be a part of such approved forest management plan; and excepting in such cases where timberland owners can give satisfactory proof that the forest lands in process of cutting or to be cut are to be devoted, in a bona fide manner, to other than a timber growing use.

Upon receipt by the State Board of Forestry of a petition, signed by 50 per cent of the private timber and cutover land ownership in an established forest district, requesting amendments to the forest practice rules of the forest district, the State board shall order the district forest practice committee to review the petition and to conduct public hearings in connection therewith. Should the district forest practice committee conclude after such public hearings that the forest practice rules should be amended to meet any or all the demands of said petition, they shall proceed to the adoption of such amendments under the procedure heretofore set forth for the adoption of the original forest practice rules. (b) The duties performed by the employee or employees so laid off may be assigned to any other employee or employees in the State agency holding positions in appropriate classes.

(c) With the approval of the board, only the employees of a designated geographical, organizational or functional subdivision of a State agency need be considered for layoff, and in such event reemployment lists shall be established for such subdivision, which lists shall take priority over the departmental and other reemployment or employment lists.

In determining seniority two points shall be allowed for each complete year of State service performing work which would fall in the series of classes related to the employee's present class.

(e) The employee or employees in the class under consideration having the lowest combined score or scores for efficiency and seniority, up to the number of positions to be abolished or discontinued, shall be laid off, but as between two or more such employees who have the same score, their respective performance rating or ratings shall be considered, and such employee or employees having the lowest performance rating or ratings shall be the first laid off.

(f) When an employee has previously served the State with permanent status in any class below that of the class under consideration or its equivalent in any previous classification, the employee shall be afforded the option of being demoted to the lower class in lieu of being laid off to replace the employee in said lower class having the lowest score for efficiency and

Any employee demoted pursuant to the provisions of subdivisions (f) or (g) shall receive the maximum of the salary range of the class to which such employee is demoted ; provided, that such salary is not greater than the salary he received at the higher classification at the time of demotion.

(h) The names of employees thus laid off or demoted shall be placed upon the reemployment list for the subdivision from which they were laid off, if such a subdivision was created pursuant to paragraph (c) of this section, upon the departmental reemployment list for the class from which they were laid off or demoted and also upon the general reemployment list for such class, and for such other appropriate classes as the board may determine. Any employee certified to a position from any reemployment list for a class different than that held by him when laid off shall serve a probationary period before attaining permanent status in such position. Any employee who is recertified to a position in a class after layoff, or demotion in lieu of layoff, from a position in said class shall receive the same salary as such employee previously received in said position prior to such layoff or demotion.

(i) Whenever any employee accepts a voluntary demotion under the provisions of Section 147, or is demoted to a lower class by reason of a layoff or replacement in accordance with subdivision (f) or (g), his performance rating in such lower class shall be the same as his last previous rating in such class, if any, and shall continue to be for all purposes until the first regular date, next following such demotion, for making and submitting performance ratings.

(j) All employees compensated on a monthly basis who are to be laid off under the provisions of this act shall be given 15 days' notice of such layoff prior to the effective date thereof.

(k) Any employee may appeal to the board within 30 days ^{Appeal} of receiving notice of layoff on the grounds that the procedure herein prescribed has not been complied with or that the layoff has not been made in good faith or was otherwise improper. The board shall within 30 days of such appeal hold such hearing or investigation as it may deem necessary. The board may also conduct any such hearing or investigation within 30 days of receiving a notice of layoff on its own motion. In rendering a decision as a result of any hearing or investigation held pursuant to this subdivision the board may order the reinstatement of the employee with or without pay if it appears that the

If said acquisition and improvement are ordered, the legislative body shall fix and establish the boundaries of the district and shall declare that the same has been duly formed under the provisions of this act. Such determination and order shall be by ordinance. Each vehicle parking district formed hereunder shall be numbered and the designation of such district shall be substantially (using appropriate number) "Vehicle Parking District No. ----- of the City of -----."

It shall fix, regulate and collect rentals, fees or charges for the parking of vehicles therein and may provide different rates for different classes of customers or users. Commission-
ers' powers

The providing of adequate public parking places in cities largely depends upon the formation of local vehicle parking districts. Such districts will be created and will be successful only if so operated as to serve the property within the district adequately. It is the intent of this act that the owners of real property in a vehicle parking district which is created hereunder to provide parking places to solve the parking problems of the district may receive preferential rates, charges, or rentals for themselves, their tenants and the classes of persons who call upon or do business with them, all to the end that the property which bears the burden and provides a solution for the parking problem shall receive a special benefit. Intent re
property
owners

Public parking places All parking places acquired and constructed under this act shall be public parking places; but nevertheless the board of parking place commissioners having jurisdiction over the parking places for any district may restrict or partially restrict the use of such parking places to owners and tenants, and classes of persons designated by such owners or tenants of real property in the vehicle parking district, and may establish rates or charges or rentals for the owners and tenants of such properties and classes of persons designated by such owners or tenants which differ from and are less than the rates, charges, or rentals charged other persons.

Rentals, fees, etc. Such rentals, fees and charges shall be fixed after public hearing following such notice as the board of parking place commissioners may prescribe. It shall appoint such employees, said employees to be selected as other city employees are selected, as it deems necessary and shall have complete charge, supervision and control of all parking places acquired and constructed through taxation or assessment upon lands in such district, or acquired or constructed for the use or benefit of the district and paid for in any other manner.

Title to property

Sec. 4. Section 48 of said act is amended to read as follows:
Sec. 48. All real property shall be acquired or condemned in the name of the city and title to such property shall be in the city; provided, however, that such property shall be held by the city subject to the provisions of this act. All contracts for the lease or purchase, or both, of real property hereunder shall be made by the legislative body of the city.

Acquisition of additional space

Whenever the board of parking place commissioners of a vehicle parking district determines by resolution that the public interest and necessity and the needs of the district require that additional parking places be acquired for the district, it shall also determine whether property for the parking places be leased, or acquired by contracts with installment payments, or on lease with option to purchase, or by a lump sum payment from funds raised as provided in Section 49 hereof, and shall designate the property to be so leased or acquired. When a certified copy of such resolution is filed with the legislative body of the city, said legislative body shall proceed to acquire or lease the property pursuant to said resolution. Such property for additional parking places may be:

How acquired

The purchase price shall be paid from special ad valorem taxes levied upon all land in the vehicle parking district or from revenues derived from operation of parking places of the district or both.

(2) Leased; provided that no such lease shall run for a period longer than ten (10) years. Rental on any lease shall be paid from revenues derived from the operation of parking places of the district or from special taxes levied on taxable real property

in the district, in the manner provided in Section 46 of this act, or from both such sources.

No lease or contract of purchase hereunder shall bind the city to pay the rental or purchase price from funds other than those provided under the authority of this act.

Upon recommendation of the board of parking place commis- Levy of annual tax
sioners, the legislative body shall levy an annual tax upon all taxable lands in the vehicle parking district to create a fund for the purchase of any property upon which it has a lease with an option to purchase. All moneys derived from said tax shall be placed in a special fund and used only for the purpose for which said fund is created.

Proceeds of taxes levied under Section 46 may also be used for the maintenance, operation, repair, and improvement of any parking places held under lease or contract of purchase, or lease with option to purchase.

ure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into effect immediately. The following is a statement of facts constituting such necessity: Shopping districts in cities which have had great increases in population due to war production in California are congested, making traffic both difficult and dangerous, and causing delays in the finding of parking places and shopping, all of which impedes our production for war and endangers pedestrians and drivers of automobiles. When this

act takes effect, it will be possible to establish parking places to serve these congested areas, thereby removing traffic from the streets and reducing greatly the time necessary for parking and shopping. It is therefore necessary that this act take effect immediately.

Thereafter no payment shall be made upon such contract to the contractor or any assignee of the contractor until the further bonds or additional surety has been furnished.

completion
of work

14376. Every contract shall contain a provision in regard to the time when the whole or any specified portion of the work contemplated shall be completed, and shall provide that for each day completion is delayed beyond the specified time, the contractor shall forfeit and pay to the State a specified sum of money, to be deducted from any payments due or to become due to the contractor.

performance

14394. If the director deems that a contractor has failed to supply an adequate working force, or material of proper quality, or has failed in any other respect to prosecute the work with the diligence and force specified by the contract, the director may:

(a) After written notice of at least five days to the contractor, specifying the defaults to be remedied, provide any such labor or materials and deduct the cost from any money due or to become due to the contractor under the contract; or

(b) If he considers that the failure is sufficient ground for such action, he may give written notice of at least five days to

the contractor and the contractor's sureties, that if the defaults are not remedied the contractor's control over the work will be terminated.

14395. If the defaults are not remedied within the time specified in the notice, the contractor's control shall terminate as of the expiration of that time. Termination of contractor's control

14396. Upon such termination, the director may take possession of and use all or any part of the contractor's materials, tools, equipment, and appliances upon the premises to complete the contract. All or any part of the work may be completed by day's labor or by employment of other contractors on informal contracts, or both. Completion of work

14399. If the control of a contractor is terminated or he abandons the work, he is not entitled to receive any portion of the amount to be paid under the contract until it is fully completed. After completion, if the unpaid balance exceeds the sum of the amount expended by the State in finishing the work, plus all damages sustained or to be sustained by the State, the excess not otherwise required by law to be retained shall be paid to the contractor, but if such sum exceeds the unpaid balance, the contractor and his surety are liable to the State for the excess. Payment of contractor

14400. On the completion of the contract, the contractor is entitled to the return of all his unused materials, and his equipment, tools, and appliances, except that he shall have no claim on account of usual and ordinary depreciation loss, and wear and tear. Return of materials, etc

CHAPTER 3. DUPLICATE BONDS

'Instrument'

16700. As used in this chapter, "instrument" means bonds, coupons, and other evidences of State indebtedness, except warrants.

Lost or destroyed instruments

16701. Whenever it appears to the Treasurer upon competent proof that any instrument has been lost or destroyed and the required security is deposited, he may issue or cause to be issued instruments similar as to form and content, except that they shall be signed and countersigned by the corresponding officials in office at the time the new instruments are issued. If the indebtedness evidenced by the instrument has matured and is due and payable, he may pay it if his records show the instrument is outstanding and unpaid.

Application to court

16702. If the Treasurer refuses to issue or cause to be issued new instruments to replace those lost or destroyed, the owner may apply to the Superior Court of the County of Sacramento for an order requiring the Treasurer to show cause why he should not be required to issue or cause to be issued new instruments.

Service of petition

16703. A copy of the petition for the order to show cause shall be served upon the Treasurer not less than 10 days prior to the time set for the hearing.

Order of court

16704. If the court finds that the petitioner is the lawful owner of the instruments described in the petition, that they have been lost or destroyed and can not after due diligence be found, and that no sufficient cause has been shown why new instruments to replace them should not be issued, it may make an order requiring the Treasurer to issue and deliver or cause to be issued and delivered to the petitioner new instruments in place of the lost or destroyed instruments, upon the petitioner's giving the security required by this chapter.

Security

16705. Before the Treasurer may issue a new instrument or pay the indebtedness represented by a lost or destroyed instrument the owner shall give security in double the amount of the lost or destroyed instrument to indemnify the State against loss or damage that may be incurred on account of the lost or destroyed instrument. The security may be specified by, is subject to the approval of, and, after approval is endorsed thereon, shall be filed with, the Treasurer.

Costs and expenses

16706. The owner shall pay all costs and expenses in connection with the issuance of any new instrument.

Contents of new instrument

16707. Every new instrument and every coupon of any instrument so issued shall state upon its face the number and

denomination of the instrument for which it is issued; that it is issued in the place of the instrument claimed to have been lost or destroyed; that it is issued as a duplicate; and that if both the original and duplicate instruments are presented to and paid by the Treasurer, he shall not be held responsible for the duplicate payment but may rely on the security given.

The indorsement shall indicate that the claim has previously been paid from a revolving fund.

Procedure when only part of claim is paid 17051. Whenever any warrant is drawn in favor of a payee having a claim against the State and is delivered to a State agency for delivery to a payee, and prior to delivery to the payee any facts or circumstances exist which would affect the validity or alter the amount of the claim, the person authorized to make payments out of any funds under the direct control of the State agency may indorse and deposit the warrant in the treasury to the credit of the fund or appropriation upon which it was drawn or deposit it to the credit of the appropriate account under his control. Where such a warrant is deposited to the account under the control of the State agency, it shall, when necessary, pay the portion of the claim then due and payable and return the balance to the treasury to the credit of the fund or appropriation upon which the warrant was drawn.

17073. Warrants canceled under this article are void. Effect of cancellation

Article 5. Lost or Destroyed Warrants

17090. Whenever any warrant lawfully drawn by the Controller is lost or destroyed before it is paid by the Treasurer, the owner or custodian may procure the issuance of a duplicate warrant upon compliance with this article. Duplicate warrants

Article 1. General

17200. All provisions of this chapter referring to registered warrants are applicable to "reimbursement warrants" and "refunding warrants," unless the context otherwise requires. Application of chapter

17201. The Board of Control may make rules and regulations governing the issuance and sale of registered warrants and may facilitate and regulate the transaction of the State's fiscal business, by the creation of new funds and accounts. Power of Board of Control

- Legal investments** 17202. All registered warrants issued by the State are legal investments for all:
- (a) Trust funds.
 - (b) Funds of all insurers.
 - (c) Funds of building and loan associations.
 - (d) Funds of all banks, including any legal combination of commercial banks, savings banks and trust companies.
 - (e) Funds of all counties, municipal corporations, districts, public corporations, political subdivisions, or State agencies.
- Security for faithful performance** 17203. Such registered warrants are acceptable and may be used as security for the faithful performance of any public or private trust or obligation or for the performance of any act, including the use of such registered warrants by banks as security for deposits of funds of any county, municipal or public corporation, district, political subdivision, or State agency.
- Investment for State agencies** 17204. Any State agency that is authorized to invest funds in the treasury in securities which are legal investments for savings banks may invest the funds in registered warrants of the State.
- Negotiable instruments** 17205. All registered warrants are negotiable instruments.
- Request for cancellation by State agency** 17206. Whenever a registered warrant is issued for the purpose of making an interdepartmental payment or in error the State agency having legal ownership of the warrant may present it to the Controller for cancellation and credit to the fund on which it was drawn. The warrant shall be accompanied by a report in writing requesting the cancellation, explaining the reason for the request and specifying the proper appropriation to be credited with the amount of the warrant.
- Cancellation** 17207. After verification of the proper appropriation to be credited, the Controller shall cancel the warrant and credit the amount to the proper fund or appropriation in the same manner as other money paid into the State treasury.

- Opinion re validity** 17209. Whenever the Controller deems that it will increase the salability or the price of registered warrants to obtain, prior to or after sale, a legal opinion as to the validity of the warrants from attorneys other than the Attorney General, the Controller may obtain such a legal opinion. Payment for such legal services shall be made only upon the filing of a verified demand by the attorneys who have rendered the opinion and the approval of the Board of Control.
- Payment** 17210. Registered warrants shall be paid by the Treasurer in conformity with law.

Article 2. Registration

- Definitions** 17220. As used in this chapter:
- (a) "Unapplied money" means money in the General Fund in the treasury for which outstanding warrants have not already

been drawn and which would remain in the General Fund if all outstanding warrants theretofore drawn were paid.

(b) "Committee" means the Governor, Treasurer and Controller, acting as a committee.

17221. Whenever the Controller draws his warrant upon the Treasurer payable out of the General Fund in an amount in excess of the unapplied money in the General Fund, the Controller shall upon the same day present it to the Treasurer. The Treasurer shall indorse upon its back the date of presentation by the Controller; that it is not paid for want of funds; and that it bears interest at the rate fixed pursuant to law from the date of such registration to and including the date of maturity, or the date upon which the Treasurer first advertises that it is payable upon presentation if it bears no date of maturity. Warrants so indorsed by the Treasurer are registered warrants.

17222. By a majority vote the committee shall fix the rate of interest paid on registered warrants at not more than 5 per cent per annum.

17223. The Controller shall furnish the Treasurer with a separate register for registered warrants, and the Treasurer shall stamp on the register the date on which each warrant is registered and the date on which it is first advertised as payable.

17224. After registration the Treasurer shall return the warrant to the Controller for distribution.

Article 3. Reimbursement and Refunding Warrants

17240. As used in this chapter:

(a) "Reimbursement warrants" refers to warrants drawn by the Controller on the General Fund pursuant to this article to reimburse the General Cash Revolving Fund for demands against the General Fund for which warrants were drawn against the General Cash Revolving Fund.

(b) "Refunding warrants" refers to warrants drawn by the Controller on the General Fund pursuant to this article to provide funds for the payment of reimbursement warrants bearing a fixed maturity date.

17241. To reimburse the General Cash Revolving Fund, the Controller may draw reimbursement warrants on the General Fund in the same manner as if General Cash Revolving Fund warrants had not been issued to meet the demands for which they were drawn.

17242. If a reimbursement warrant represents an amount in excess of the unapplied money in the General Fund, it shall be registered by the Treasurer pursuant to Article 2.

17243. The Controller may fix a maturity date for reimbursement warrants, and cause the Treasurer to indorse upon each such warrant, the date upon which it will be paid and redeemed.

17244. In lieu of prescribing a precise interest rate on registered reimbursement warrants, the committee may fix a maximum rate of interest for the warrants, and prescribe that the

interest rate thereon (not in excess of such maximum) shall be fixed in accordance with the best bids for the warrants. Different rates of interest for any reimbursement warrants may be so fixed by the Controller.

Sale 17245. Registered reimbursement warrants shall be sold by the Controller to the best bidders.

Notice of sale 17246. Notice of sale of registered reimbursement warrants shall be given by the Controller by publication, not less than three days prior to sale, at least once in a newspaper published in the City of Sacramento.

Contents of notice 17247. The notice of sale shall specify the amount of warrants to be sold, and the minimum amount for which the Controller will consider bids, and shall invite sealed bids for the purchase of the warrants. The notice shall state that no bid will be accepted which is less than the face value of the warrants bid for, and that the warrants will be awarded to the persons making the best bids as determined by the Controller, considering the interest rate and premium offered, if any.

Additional notice 17248. The Controller may give additional notice of any such sale in such form and manner as he may determine.

Bids 17249. At the time specified in the notice of sale, the Controller shall open the bids, and award the warrants to the persons making the best bids as determined by him. The Controller may reject any and all bids. No bid for less than the face value of any warrants shall be accepted.

Endorsement 17250. The Controller shall endorse any registered reimbursement warrant so sold or to be sold in the name of and on behalf of the payee named in the warrant. The endorsement transfers to the holder the warrant and the claims in pursuance of which it was drawn, irrespective of whether the claimants have received the amount of such claims through warrants drawn on the General Cash Revolving Fund.

Effect of registration 17251. The cancellation, invalidity or abatement, in whole or in part, of any such claim, or of any warrant drawn against the General Cash Revolving Fund, does not invalidate or otherwise affect any registered reimbursement warrant. The certificate of the Controller relative to any of the matters required to be found, determined or exist as a condition to or in connection with the issuance, registration or sale of registered reimbursement warrants, or the making or auditing of any demand, or in respect to the issuance of warrants on the General Cash Revolving Fund is conclusive in favor of any holder of any registered reimbursement warrant.

Validity of sale 17252. It is not essential to the validity of the sale of any reimbursement warrant that it be actually registered prior to sale.

Proceeds of sale 17253. The proceeds of the sale of any registered reimbursement warrant shall be deposited in the State treasury; an amount equal to its face value shall be credited to the General Cash Revolving Fund; and any premium received shall be credited to the General Fund.

Article 4. Payment

17270. All warrants are payable in such coin or currency of the United States of America as at the time of payment is legal tender for the payment of public and private debts. The Controller shall cause to be endorsed upon the face of each warrant drawn upon the Treasurer a provision that it is so payable. Payment in legal tender

17271. A registered warrant that bears a maturity date shall be paid by the Treasurer upon that date out of any unapplied money in the General Fund on the due date, available therefor. Warrants bearing maturity date

17272. Registered warrants not bearing a maturity date, and registered warrants bearing a maturity date, but for the payment of which refunding warrants have not been sold or unapplied money is not available on the due date, shall be paid, together with all interest due, at such times as the Controller determines, with the approval of the committee. Upon approval the Controller shall notify the Treasurer of the numbers of the warrants which are to be redeemed. Warrants without maturity date

17273. The Treasurer shall immediately publish notice that such registered warrants are redeemable by advertising for six consecutive days, Sundays excepted, in newspapers publishing legal notices in the cities of Sacramento, San Francisco, and Los Angeles. Publication of notice of redemption

17274. The notice of redemption shall read substantially as follows: Form of notice

“NOTICE TO HOLDERS OF STATE OF CALIFORNIA
WARRANTS

State Controller's warrants number ----- to number -----, inclusive, drawn against the General Fund in the State treasury are now payable upon presentation to the State Treasurer.

(Name of State Treasurer)
State Treasurer.”

17275. A registered warrant ceases to bear interest on the first of the following dates: Termination of interest

(a) The maturity date indorsed on its face, if any, if on that date unapplied money or the proceeds of refunding warrants are available for its payment.

(b) The date following the day it is first advertised as payable, pursuant to this article.

17276. If on the maturity date indorsed on a registered reimbursement warrant, there is no money available for its payment, either from unapplied money, or from the proceeds of refunding warrants the registered reimbursement warrant shall continue to bear interest and shall become payable in the same manner as registered warrants not bearing maturity dates. Nonpayment on maturity date

17277. If it appears to the Controller that, on the maturity date on the face of any registered reimbursement warrant, there will be insufficient unapplied money in the General Fund Issuance of refunding warrants

available for its payment he may issue a refunding warrant, with the written approval of the Treasurer. The refunding warrant shall be issued and registered not less than five nor more than 15 days before the maturity date of the registered reimbursement warrant for which there will be insufficient unapplied money available.

Form, etc 17278. Refunding warrants issued, registered, and sold for the purpose of paying and retiring registered reimbursement warrants theretofore issued shall be based upon the same claims and shall be identical in form and amount to the warrants to be paid and retired except as to serial number, date of registration, due date, and interest rate. The provisions of this chapter applicable to reimbursement warrants are applicable to refunding warrants.

Maturity, etc 17279. Refunding warrants may be issued with or without a fixed maturity date and shall be sold in the same manner as reimbursement warrants. The proceeds shall be held by the Treasurer and applied exclusively to the payment of the registered reimbursement warrants for the payment of which the refunding warrants were issued.

Priority of payments on State bonds 17280. If at any time it is necessary to register warrants for the payment of principal and interest on State bonds, warrants so registered have a prior lien in the order of their issuance on any money thereafter received into the General Fund, and shall be paid before any other warrants regardless of the prior issuance of the latter.

Payment upon separation from service

Such sum shall be computed by projecting the accumulated time on a calendar basis so that the lump sum will equal the amount which the employee would have been paid had he taken the time off but not separated from the service. Persons

Temporary and permanent separation

19500. The tenure of every permanent employee holding a position is during good behavior. Any such employee may be temporarily separated from the State civil service through layoff, leave of absence, or suspension, permanently separated through resignation or removal for cause, or permanently or temporarily separated through retirement.

Suspension

19501. An appointing power or any officer or employee authorized by the appointing power may, for disciplinary purposes, immediately suspend an employee without pay for not exceeding 30 days in any calendar year by notifying the employee thereof. Such suspension without pay is valid only if written reasons are filed with the board and served on the employee within five working days of the date of suspension,

setting out clearly the delinquency for which the suspension was made.

The suspended employee may file with the board and the appointing power a written answer or explanation of such reasons. He may appeal to the board within 30 days after service of the written reasons for the suspension on the grounds that the reasons were untrue or that the suspension was not made in good faith. Within 30 days after receiving such an appeal the board shall hold such hearing or investigation as it deems necessary. It shall render a decision in which it may affirm or disaffirm the suspension.

19502. Resignations from the State civil service are subject to board rules. A resignation does not jeopardize any rights and privileges of the employee except those pertaining to the position from which he resigns. Resignation

19503. Absence without leave, whether voluntary or involuntary, for 10 consecutive working days is an automatic resignation from State service, and the separation shall be entered in the official roster. Absence
without
leave

Within 30 days of the date of his separation by reason of automatic resignation, an employee may apply to the board for reinstatement. Reinstatement may be granted only if the employee makes a satisfactory explanation to the board as to the cause of his absence and his failure to obtain leave therefor, and the board finds that he is ready, able, and willing to resume the discharge of the duties of his position or, if not, that he has obtained the consent of his appointing power to a leave of absence to commence upon reinstatement. Reinstatement

An employee so reinstated shall not be paid salary for the period of his absence or separation or for any portion thereof.

Article 2. Layoff and Demotion

of staff

19531. The duties performed by any employee laid off may be assigned to any other employee or employees in the State agency holding positions in appropriate classes. Assignment
of duties

19532. With the approval of the board, only the employees of a designated geographical, organizational or functional subdivision of a State agency need be considered for layoff, and reemployment lists shall be established for such subdivision. Such lists take priority over the departmental and other reemployment or employment lists. Subdivi-
sional lists

19533. Layoff shall be made in accordance with the relative efficiency and seniority of the employees of the class in which the layoff is to be made as determined by seniority and by performance reports on file with the board. Demotion in
lieu of lay off

19535. When an employee has previously served the State with permanent status in any class below that of the class under consideration or its equivalent in any previous classification, in lieu of being laid off he has the option of being demoted to that lower class to replace the employee having the lowest score for efficiency and seniority in that class if such score is lower than that of the employee being demoted.

Within 30 days after such an appeal, the board shall hold such hearing or investigation as it deems necessary.

On its own motion the board may also conduct such a hearing or investigation within 30 days after receiving a notice of layoff.

In rendering a decision on a layoff, the board may order the reinstatement of the employee with or without pay if it appears that the required procedure was not followed or that the ayoff was not made in good faith or was otherwise improper.

CHAPTER 4. CONTRACT MEMBERS

Article 1. General

- Participation by public agency 20450. Any public agency may participate in and make all or part of its employees members of this system by contract entered into between its governing body and the board pursuant to this part.
- Request for quotation 20451. When the governing body of a public agency desires to consider the participation of the agency in this system, it shall ask the board for a quotation of the approximate contribution to this system which would be required of the agency for such participation.
- Furnishing of information 20452. On request of the board, the public agency shall furnish such data concerning its employees as the board requires to make the necessary valuations and investigation into the experience among such employees.
- Actuarial valuations 20453. The approximate contribution quoted by the board and the actual contribution to be made if a contract results shall be determined by actuarial valuations of the prior and future service liability under this system, on account of the employees involved in the computation, in the same manner as the contribution required of the State on account of its employees was originally determined, except that in consideration of the number of employees of the agency or other circumstances, a different manner of determining such contribution may be adopted by the board, upon recommendation of the actuary.
- Consulting actuary 20454. At the option of the board the public agency shall have such valuations and investigation made through a consulting actuary selected by the board, under contract between the consulting actuary and the public agency. Such a contract is subject to the approval of the board, and the valuations shall be made under the direction of the actuary of this system. Serv-

ices under such a contract are rendered to the public agency and not to the State.

20455. Whether the valuations are made by the consulting actuary or by the system actuary, all data in connection therewith, including work sheets, final results, and reports are the property of the board and shall be delivered to it at the conclusion of the valuations.

Delivery of work sheets, etc

20456. The approximate and actual contributions are similar to premiums under insurance policies. The approximate contribution quoted by the board to the public agency is subject to the contingency that the actual contribution certified by the board after the approval of a contract may differ from the approximate contribution because of:

Differences between approximate and actual contributions

(a) Change in number or salaries of employees included.

(b) Change in prior service benefits.

(c) Time elapsed between the quotation and effective date of the contract.

(d) Change in effective date of membership.

(e) Change in manner of determining contributions.

(f) Any changes in the facts or assumptions upon which the quotation was based.

20457. If after receiving the approximate contribution quotation the governing body intends to approve the proposed contract, it shall adopt a resolution giving notice of such intention. The resolution shall contain a summary of the major provisions of the proposed retirement plan. The contract shall not be approved unless an election has been held to permit the employees proposed to be included in this system to express by secret ballot their approval or disapproval of the retirement proposal. The ballot at such election shall include the summary of the retirement plan as set forth in the resolution. The election shall be conducted in the manner prescribed by the governing body which shall be such as to permit the firemen, the policemen, and the other employees proposed to be included in this system to express separately their approval or disapproval.

Resolution of intention and election of employees

20458. The governing body shall not include in this system any of the three groups, a majority of whose members voted to disapprove the proposed plan.

Noninclusion See also Stats 1945, Ch 1224

20459. If the public agency has an existing local retirement, pension or annuity fund or system, and the proposed contract is to make all or part of the members of the local system members of this system, the employees voting shall be limited to active members of the local system voting as a unit, and a two-thirds vote of approval by such employees is necessary.

Approval of members of local system

20460. Approval of the contract shall be by ordinance adopted by the affirmative vote of two-thirds of the members of the governing body, not less than 20 days after the adoption of the resolution of intention, or by ordinance adopted by a majority vote of the electorate of the public agency voting thereon.

Ordinance

- Modification of contracts
See also
Stats 1945,
Ch 1224
20461. Errors in any contract may be corrected through amendments approved by the adoption of suitable resolutions by the contracting parties. Excluded employees may be included by groups through amendments approved in the manner prescribed for the approval of the contracts. Additional benefits for prior service provided in this part but not included in a contract, may be included through amendments so approved except that an election among employees is not required.
- Resolution
20462. If a governing body is permitted by law to act by resolution, any action required by this part to be taken by ordinance may also be taken by adoption of a resolution.

Article 2. Contract Provisions

- Provisions

- Exclusions
20492. The contract shall include in this system all firemen, policemen, and other employees of the contracting agency, except as exclusions in addition to the exclusions applicable to State employees may be agreed to by the agency and the board. Such exclusions shall be based on groups of employees such as by departments, duties or age, and not on individual employees. The board may disapprove the exclusion of any group, if in its opinion the exclusion adversely affects the interests of this system. Membership in this system is compulsory for all employees included under a contract.
- Minimum age
20493. The contract may specify a minimum age for voluntary service retirement of local safety members which shall be not less than 55 nor more than 60 years.

Article 3. Operation and Expense

- Inclusion of local members
20520. All members of a local system included by contract in this system thereupon become subject to this part and cease to be members of the local system. Payments being made to pensioners or annuitants of the local system on the date of approval of the contract shall be continued and paid at their existing rates by this system. The liability for such payments shall be included in the computation of the prior service liability of the contracting agency.
- Continuation of local system

Stats 1945,
Ch 1224
20522. Any cash and securities to the credit of the local system and held on account of persons who become members of this system shall be transferred to this system, as of the date of approval of the contract. The value at which the securities

shall be credited to the contracting agency shall be determined by the board. As of the date of such approval, the governing body or head of the local system shall certify the proportion, if any, of its funds that represents the accumulated contributions of the members, and the relative shares of the members.

20523. Such shares shall be credited to the respective individual accounts of the members included in this system, and administered as if made during membership in this system, except that the annuity provided by such contributions with accumulated interest shall be deducted from the pension which otherwise would be payable on account of prior service. The total of the funds transferred to this system shall be offset against the prior service liability before determining the contribution to be paid by the contracting agency. Crediting accounts

20524. If all members of the local system become members of this system, the operation of the local system shall be discontinued as of such date as is provided for in the contract. Discontinuance of local system

20525. The contracting agency shall make such contribution for its employees in this system, as is recommended by the actuary and approved by the board and certified by it to the contracting agency. Contribution of contracting agency

20526. The contribution may consist of fixed sums, percentages of compensation of contract members, or both, and shall be paid to this system as provided in the contract. Payment of contributions

20527. This actual contribution is subject to such adjustment by the board as may be necessary on account of any additional prior service credits which the contracting agency may desire to provide for its employees in this system or on account of experience under this system as determined by periodical investigation, valuation and determination required to be made by the board. Adjustment

20528. Contributions required because of prior service to two or more school districts having governing boards composed of the same persons shall be paid by the districts by which the member is employed at the time he becomes a member of this system, and in proportion to the compensation paid by the respective districts to the member at that time. Contributions of certain school districts

Contributions required because of current service shall be paid by the respective districts, according to the compensation paid to the member by the districts.

20529. The board may make arrangements with any contracting agency for the payment of the prior service liability on such terms as its financial condition will permit. Payment of prior service liability

20530. The expense of determining initially the approximate and actual contributions, with respect to its employees, shall be assessed against and paid by the public agency on whose account it is incurred. Payment shall be made directly to the consulting actuary, if any, and directly to the board for services rendered by its employees. Expenses

20531. The board may include each year in the contribution required of the contracting agency a reasonable amount, which may differ from agency to agency, to cover the costs of administration. Costs of administration

20532. The governing body of a contracting agency having taxing power shall levy and collect annually a special tax upon the assessable property within the agency in the number of cents per one hundred dollars (\$100) of assessable property as will be sufficient to raise the amount estimated by the governing body to be required to provide sufficient revenue to meet the obligations of the agency for contributions to this system under and after termination of the contract. This rate of taxation may be in addition to the annual rate of taxation allowed by law to be levied in that agency. Any member of, or recipient of a benefit from, this system by reason of such a contract may maintain any appropriate action or proceeding to require performance of the duty herein and by Section 20564 imposed on a governing body.

Article 4. Termination

Action of
governing
body

20560. If the contract was approved by an ordinance adopted by the governing body of the contracting agency, the governing body may terminate it by the adoption of a resolution giving notice of intention to terminate, and by the adoption, not less than one year thereafter by the affirmative vote of two-thirds of the members of the governing body, of an ordinance terminating the contract.

Vote of
electorate

20561. If the contract was approved by an ordinance adopted by a majority vote of the electorate termination by the contracting agency may be effected only under authority granted by ordinance adopted by a majority vote of the electorate of the contracting agency voting thereon.

Nonpayment
of contri-
butions

20562. If a contracting agency fails for one year to pay any installment of contributions required by its contract, the board shall terminate that contract by resolution adopted by a majority vote of its members effective 60 days after notice of its adoption has been mailed by registered mail to the governing body of the contracting agency.

Refunds

Stats 1945,
Ch 1224
and 1366

20563. Upon the termination of a contract, the board shall refund to the contracting agency such portion of the accumulated contributions then held by this system and credited to or as having been made by it as is in excess of an amount actuarially equivalent, as determined by the actuary and approved by the board, to all benefits the system is obligated to pay after the effective date of termination to or on account of persons who are or have been employed by and on account of service rendered by them, to the agency.

Deficiency
contributions

20564. If the accumulated contributions credited to, or as being made by the contracting agency at the date of termination, are not at least equal to the actuarial equivalent, the agency shall contribute to this system under terms fixed by the board, an amount equal to the difference between the accumulated con-

tributions and the actuarial equivalent. If the agency fails to pay to the board the amount of the difference, all benefits under the contract, payable after the board declares the agency in default therefor, shall be reduced by the percentage that the accumulated contributions credited to, or as having been made by the agency are less than the actuarial equivalent as of the date the board declared the default.

The right of an employee of a contracting agency, or his beneficiary, to a benefit under the system, whether before or after retirement or death, is subject to such reduction.

20565. Upon the termination of a contract, all memberships in this system existing because of that contract, are terminated. Termination of memberships

20566. Any event occurring on or after the date on which termination of a contract becomes effective shall not be considered in determining the right of any member to retire for service or disability or the rights of his beneficiaries. See also Stats. 1945, Ch. 1366
Rights of members

20567. The right to a retirement allowance, of a person who has retired prior to the effective date of the termination of a contract, or who has qualified and applied for retirement by written document received at the board's office in Sacramento, California, prior to the effective date, even though the board does not approve the application until a later date, and the right of any person to a benefit on account of a death which occurred prior to the effective date, is not affected by termination of the contract, unless the contracting agency fails to make the contributions required of it because of the participation of its employees in this system. Rights of retired persons

20568. The board may postpone the payment of any amount due a contracting agency on termination of a contract if payment would require the sale of securities, which, in the opinion of the board, would affect adversely the interests of this system. Postponement of payment

If the board delays such a payment longer than the period reasonably necessary for the determination of the amount due and for the necessary action by the board, interest shall be allowed on the amount remaining due and unpaid from time to time at the rate then in use under this system, and paid to the contracting agency at the same time and in the manner as the original amount due.

CHAPTER 5. MEMBER CONTRIBUTIONS

Article 1. Normal Contributions

20600. The normal rates of contribution of all members, except patrol and local safety members, shall be based on sex and age at the nearest birthday at the time of entrance into this system. One schedule of rates for males and one for females may be adopted. Schedules of normal rates
See also Stats. 1945, Ch. 1421

20601. Patrol

See also
Stats 1945,

20602. The normal rate of contribution of each patrol member shall be based on his age at entrance into this system, and, if he is entitled to credit for prior service, his age when he entered highway patrol service, both ages being taken to the preceding completed quarter year. The age at entrance into the highway patrol service prior to July 1, 1935 shall be determined by deducting the total of such service credited to the member at July 1, 1935, from his age at that date.

The age at entrance into the retirement system prior to July 1, 1935, shall be his age at the date of such entrance if the member made the contributions required to entitle him to have his age at entrance taken as his age at that date; if he did not, his age at entrance into the retirement system shall be taken as his age at July 1, 1935.

Same

20603. For each patrol member who became a member of this system, or, if entitled to credit for prior service, who entered highway patrol service, at or below age 45, the normal rate of contribution shall be such as will provide, on the average, a service retirement annuity at age 60, or upon completion of 20 years of highway patrol service at an age higher than 60 years, equal to one-fourth of his final compensation less one-half of his prior service pension.

The age at entrance into fire or police service shall be determined by deducting the amount of such service for which credit for prior service is granted from his age at his entrance into the retirement system.

Same

20607. For each local safety member who became a member of this system, or, if entitled to credit for prior service, who entered fire or police service at or below age 45, as computed under Section 20606, the normal rate of contribution shall be such as, on the average will provide a service retirement annuity at the minimum age at which retirement for service is permitted or upon completion of 20 years of service at an age higher than the minimum which, with one-half of his prior service pension, if any, will equal one-fourth of his final compensation.

20608. For each local safety member who entered fire or police service at an age greater than 45 years, as computed under Section 20606, the normal rate of contribution shall be such as on the average will provide an annuity at age 65 equal to one-eighthieth of his final compensation for each year of current fire or police service. His accumulated contributions remain in or if redeposited shall be credited to his individual account.

20610. The normal rate of contribution established for age 64 is the rate for any member who has attained a greater age before entrance into this system, and that established for age 16 is the rate for any member who enters this system at a lesser age. Maximum and minimum age rates
See also Stats 1945, Ch 1265

20611. The actual amount of annuity receivable by member upon retirement shall be the actuarial equivalent of his accumulated contributions. Annuity receivable

Article 2. Additional Contributions

20630. Subject to rules prescribed by the board any member may elect to make contributions at rates in excess of his normal contributions, for the purpose of providing additional benefits. The exercise of this privilege by a member does not require his employer to make any additional contributions. Upon application, the board shall furnish information concerning the nature and amount of additional benefits to be obtained from additional contributions. Additional contributions

Article 3. Return of Contributions

20650. A member who, because of his employment by the State, is required to become a member of any other retirement system supported in whole or in part by public funds, shall, with respect to his right to withdraw his accumulated contributions, be considered as permanently separated from State service. Member of other retirement system

20651. If a member becomes a member of the retiring annuities system of the university he shall be considered as temporarily separated from State service, with respect to his right to withdraw contributions, during his continued membership in the university system, and shall not contribute to this system on account of service rendered as a member of the university system. Member of university retiring annuities system

20652. If the State service of a member is discontinued except by death or retirement, or his membership is terminated or he elects to terminate his membership or resign from this system pursuant to this part, he shall, six months after date of discontinuance, termination, or resignation, be paid such part of his accumulated contributions as he demands, except that if he is credited with less than 20 years of State service and, in the opinion of the board, is permanently separated from Discontinuance of State service

Withholding
by board

20653. The board may withhold for not more than one year after a member last rendered State service all or part of his accumulated normal contributions if after a previous discontinuance of State service he withdrew all or a part of his accumulated normal contributions and failed to redeposit such withdrawn amount in the retirement fund.

Redeposit
See also
Stats 1945,
Ch 1224

20654. A member may redeposit in the retirement fund, in one sum or in not to exceed 12 monthly or 24 semimonthly payments, an amount equal to the accumulated contributions that he withdrew at the last termination of his membership, subject to minimum payments fixed by the board.

Rate of con-
tribution,
etc

20655. If he redeposits his accumulated normal contributions, his normal rate of contribution for future years is the same as it was prior to the last termination of his membership, and his membership is the same as if it were unbroken by such last termination.

Same

20656. Upon reentering this system after a termination of his membership, if a member does not elect to make or, having so elected, subsequently does not make such redeposit, he reenters as a new member without credit for any service except the prior service credited to him before termination, and his normal rate of contribution for future years is that for his age at reentrance.

Article 4. Procedure

Certification
of rates
by board

20684. Each member's contribution deducted and remitted to the board shall be credited by the board to an individual account of the member for whom the contribution was made. Payment of salaries or wages less such contribution is in full discharge of all claims and demands whatsoever for the service rendered by the members during the period covered by such payment, except the benefits afforded by this part.

CHAPTER 6. STATE CONTRIBUTIONS

20750. The State's contribution to the Retirement Fund is a sum equal to:

See also
Stats 1945,
Ch 1201,
1345, and
1421

(b) 13 40/100 per cent of the compensation paid State Patrol members.

As used in subdivisions (a) and (b) "compensation paid" includes the compensation a member absent on military service would have received were it not for his absence in such service, if he makes the normal contributions for the period of absence. The rate of his compensation shall be his compensation at the commencement of his absence.

20751. From the General Fund in the State treasury there is appropriated monthly to the Retirement Fund the State's contribution for:

Appropriation from
General Fund

(a) All State miscellaneous members whose compensation is paid from the General Fund.

(b) All university members whose compensation is paid from funds of the university.

(c) All State miscellaneous members who are employed by the Department of Education and whose compensation is paid from the Vocational Education Fund, the Vocational Rehabilitation Fund, or any other fund received, in whole or in part, as a donation to the State under restrictions preventing its use for State contributions to the retirement system.

20752. From each other fund in the State treasury there is appropriated monthly to the Retirement Fund the State's contribution for all members whose compensation is paid from that fund and in respect to which compensation the State's contribution is not required to be made from the General Fund.

Appropriation from
special funds

20754. The board shall certify to the Controller at the end of each month the total amount of compensation in respect to which State contributions are payable from the general and each other fund in the treasury, and the Controller shall thereupon transfer the State's contribution from each such fund, respectively, to the Retirement Fund.

Certification
to Controller

20755. The State's contributions shall be applied by the board during each fiscal year to meet the State's obligations under this system as follows:

Application
of State's
contributions
See also
Stats 1945,
Ch. 1224

(a) First, in an amount equal to the liabilities accruing because of State service of State members for which normal contributions have been made and on account of current service pensions and disability retirement pensions. Such amount

shall be determined by the most recent actuarial valuation as interpreted by the actuary.

(b) Second, in an amount equal to the payments of death benefits made from State contributions during such year.

(c) Third, the balance of such contributions, on the liabilities accrued on account of prior service pensions.

Reimburse

20756. Any State fund out of which payments are made under this article may be reimbursed to the extent of such payments by transfer of a sufficient sum from other funds under the control of the same disbursing officer. The disbursing officer shall certify to the Controller the amounts to be thus transferred, the funds from and to which the transfer is to be made, and the Controller shall make the transfer as directed in the certificate.

Continuing
obligations

20757. All payments required by this article to be made by the State to the Retirement Fund, are continuing obligations of the State.

CHAPTER 7. SERVICE

Article 1. General

Definitions

20800. Unless the context otherwise requires, the definitions set forth in this article govern the construction of this part.

"State
service"

20801. "State service" means service rendered as an employee or officer (employed, appointed or elected) of the State, the university or a contracting agency, for compensation, and only while he is receiving compensation from the State, the university or the contracting agency therefor, except as provided in Article 4.

"Highway
patrol
service"

20802. "Highway patrol service" means service rendered as a member of the California Highway Patrol or, after August 31, 1923, the highway patrol of any county, only while he is receiving compensation from the State or county for such service, except as provided in Article 4.

"Fire serv-
ice" and
"police
service"

20803. "Fire service" and "police service" mean service rendered as a local fireman or policeman, respectively, only while receiving compensation from a public agency for such service, except as provided in Article 4.

"Current
service"

20804. "Current service" means all State service rendered by a member on and after the date upon which he first became a member, except as provided in Section 20656.

"Prior
service"

20805. (a) "Prior service" as applied to a State member who while employed on a part-time basis became a member because of amendments of the laws governing this system or because of a change in his employment status to at least a half-time basis, means all State service rendered by him prior to the time he became a member.

(b) As applied to other members, "prior service" means all State service rendered by:

(1) A university member prior to August 27, 1937.

(2) A State member other than a university member, prior to January 1, 1932.

(3) A local member prior to the effective date of the contract under which he became a member.

20806. "Continuous service" as applied to "prior service" means all prior service, regardless of interruptions and, as applied to current service, means employment in State service uninterrupted by a continuous absence of more than three years. The period for which a member receives credit for service under Article 4 shall be excluded in calculating such continuous absence.

20807. Service by a member in two or more school districts having governing boards composed of the same persons, shall be considered as though the service were rendered in one school district.

20808. If a person is employed concurrently by more than one contracting agency or the State and one or more contracting agencies, his status under this system is the same as if he were employed in more than one State agency.

20809. A person shall not receive credit for the same service in two retirement systems supported wholly or in part by public funds under any circumstance.

Article 2. Prior Service

20830. Credit for prior service shall be granted to each member who was employed by the university at the time of becoming a member and who became a member on August 27, 1937 or within three years after last rendering prior service.

20831. Credit for prior service shall be granted to each member who was employed by the State, but not by the university, at the time of becoming a member and who became a member on January 1, 1932 or within three years after last rendering prior service.

20832. Credit for prior service shall also be granted to each State member who became a member while employed on a part-time basis, as a result of amendments of the laws governing this system, or who became a member prior to such amendments, because of a change in status to a full-time basis.

20833. The prior service credited under Sections 20830, 20831 and 20832 shall be one-half year less than the total prior service rendered.

20834. Credit for prior service shall be granted to each person who was employed by a contracting agency at the time of becoming a member, and who became a member within three years after last rendering prior service.

20835. The credit for prior service to be granted local members shall be established by contract between the board and the governing body of such agency. It shall be in the form of a percentage for each year of prior service of:

(a) The final compensation of local safety members.

(b) The average compensation earnable during the three years immediately preceding the date upon which the group or class in which a local miscellaneous member was employed was included in this system.

Limitation
See also
Stats 1947,
Ch 1224

20836. Such percentages shall not exceed the analogous percentage applicable to members employed by the State, and shall be uniform for all local safety members, according to age at entry into the service of the contracting agency, and uniform for all local miscellaneous members regardless of age at entry.

Unbroken
membership

20837. Prior service credited to a local member shall be the basis for a retirement allowance or benefit only if his membership continues unbroken until retirement on retirement allowance or until the granting of such other benefit, except where his membership was terminated by withdrawal of accumulated contributions and such contributions were redeposited upon reentrance into State service pursuant to Section 20655.

Article 3. Computation

Absence from
service

20860. Except as provided in Article 4, time during which a member is absent from State service without compensation shall not be allowed in computing service.

Amount of
credit

20861. Credit for more than one year of service shall not be allowed for service rendered in any fiscal year.

Year of
service

20862. The board shall prescribe how much service rendered in any fiscal year is the equivalent of all or part of a year of service, but shall credit one year for 250 or more days of service rendered by employees on a per diem basis and one year for 10 months or more of service rendered by employees on a monthly basis.

Part-time
service

20863. For the purpose of calculating retirement allowances, credit for service rendered on a part-time basis in each fiscal year shall be based on the ratio that the service rendered bears to 250 days if rendered on a per diem basis or 10 months if rendered on a monthly basis.

Compensa-
tion earnable

20864. For the purpose of calculating retirement benefits based on part-time service, except under Section 21258, compensation earnable shall be taken as the compensation which would have been earnable if the employment had been on a full-time basis and the member had worked full time.

Credit

20865. In determining qualification for retirement and calculating benefits payable upon death before retirement, a year of service shall be credited for each year during which the member was employed throughout the year on a part-time basis and was engaged in his duties the full amount of time he was required by his employment to be so engaged. Credit for fractional years shall be granted to the extent of the fraction derived by dividing the time during which the member was engaged in his duties within the year, by the time he was required by his employment to be so engaged.

Temporary
separation

20866. A member who is considered temporarily separated from State service because he becomes a member of the retiring annuities system of the university shall receive credit under this system for service rendered to the university while so separated solely for qualification for death benefit and for

retirement, and not in the calculation of death benefits or retirement allowances.

20867. If a member has been employed by the State or one or more contracting agencies in any relative order, a break of one year or less between such employments does not affect his right to receive credit nor the liability of such employers for all State service rendered in their respective employments. Employment by State and contracting agency

If the break is more than one year no liability exists, and he shall not receive credit, for State service rendered prior to such break except for prior service as a State member.

Article 4. Absences

20890. A member is absent on military service when he is absent from State service by reason of service with the armed forces or the Merchant Marine of the United States, or on ships operated by or for the United States Government, either during a war involving the United States as a belligerent or in any other National emergency, and for 90 days thereafter. Military service See also Stats 1945, Ch 1048

20891. Any member so absent may contribute to this system, either during his absence on military service or upon his return to State service, at times and in the manner prescribed by the board, amounts equal to the contributions which would have been made by him to the system on the basis of his compensation earnable at the commencement of his absence if he had remained in State service. When made, such contributions are normal contributions. Contributions

20892. If he does so contribute, he shall receive credit for the absence as State service in the same manner as if he had not been absent from State service. If he does not contribute he shall receive credit for the absence as State service solely for the purpose of qualification for retirement and death benefits. Credit

20893. Any member absent on military service or absent from State service by reason of having been ordered by an authorized official of this State or the United States to duties outside State service shall be paid his accumulated contributions upon his request. Such payment terminates any election by such member to contribute. Payment of accumulated contributions

20894. Whenever a member elects to continue and continues such contributions, the same contributions shall be made by the State or contracting agency in respect to such absence that would have been made if the member had not been absent on military service. Payment of contributions

20895. Time during which a member is absent from State service by reason of injury or illness determined within one year after the end of such absence to have arisen out of and in the course of his employment shall be considered as spent in State service for the purpose of qualification for retirement and death benefits, but not for calculation of retirement benefits, except as he receives compensation as distinguished from disability indemnity under the Labor Code, during the absence, and then only to the extent of compensation received. Compensable injury, etc

21022. Any patrol or local safety member incapacitated for the performance of duty as the result of an industrial disability shall be retired for disability, pursuant to this chapter, regardless of age or amount of service.

Patrol and local safety member

Application
for retire-
ment

21023. Application to the board for retirement of a member for disability may be made by:

(a) The head of the office or department in which the member is or was last employed.

(b) The university if the member is an employee of the university.

(c) The member or any person in his behalf.

Time of
application

21024. The application shall be made only while the member is in State service, within four months after his discontinuance of State service, or while he is physically or mentally incapacitated to perform his duties from the date of discontinuance of State service to the time of application or motion. On receipt of an application the board shall, or of its own motion it may, order a medical examination of a member who is otherwise eligible to retire for disability to determine whether he is incapacitated for the performance of duty.

Determina-
tion of board

21025. If the medical examination and other available information show to the satisfaction of the board, that the member is incapacitated physically or mentally for the performance of his duties in the State service and is eligible to retire for disability, the board shall forthwith retire him for disability.

21026. The Industrial Accident Commission shall determine, in the same manner as for all other State employees, whether the incapacity for performance of duty of a patrol or local safety member is the result of an industrial disability.

21027. In the absence of an application to the Industrial Accident Commission, filed by a proper party, the board shall proceed with retirement and with the payment of benefits payable when disability is not industrial. If the Industrial Accident Commission determines on the basis of such an application subsequently filed, that disability is industrial, an amount equal to the benefits paid shall be deducted from the benefits payable under this system because of such determination.

21028. The board may require any recipient of a disability retirement allowance under the age of 60 to undergo medical examination. Such examination shall be made by a physician or surgeon, appointed by the board, at the place of residence of the recipient or other place mutually agreed upon. Upon the basis of such examination the board shall determine whether he is still incapacitated, physically or mentally, for service in the State agency, the university, or contracting agency, where he was employed and in the position held by him when retired for disability, or for duties proposed to be assigned to him.

Termination
of disability

21029. If the board determines that such recipient is not so incapacitated, his disability retirement allowance shall be canceled forthwith. If he was an employee of the State or of the university he shall be reinstated to the position held by him when retired for disability or to a position in the same classification with duties within his capacity. If he was an employee of a contracting agency, the board shall notify it that his disability has terminated and that he is eligible for reinstatement

to duty. The fact that he was retired for disability does not prejudice any right to reinstatement to duty which he may claim.

21030. If the disability retirement allowance of an employee of a contracting agency is so canceled, and, for any reason, he is not so reinstated or is not reemployed in a position subject to this system, he shall be paid an amount which is the actuarial equivalent of his annuity at cancellation, as based on a disabled life, but not exceeding the amount of his accumulated contributions at the time of his retirement for disability.

Failure to
reinstated

21031. If any recipient of a disability retirement allowance under age 60 refuses to submit to medical examination the pension portions of his allowance may be discontinued until his withdrawal of such refusal. If such refusal continues for one year his disability retirement allowance may be canceled.

21032. If a recipient of a disability retirement allowance reenters State service and is eligible for membership in this system, his allowance shall be canceled and he shall immediately become a member of this system. His rate of contribution for future years is that established for his age at the time of such reentry. His individual account shall be credited with an amount which is the actuarial equivalent of his annuity at that time, as based on a disabled life, but not exceeding the amount of his accumulated contributions at the time of his retirement for disability. He shall receive credit for prior service in the same manner as though he had never been retired for disability.

Effect of re-
instatement

21033. If the retirement allowance of any person retired for disability is canceled for any cause other than reentrance into State service he shall be paid an amount which is the actuarial equivalent of his annuity at cancellation, based on a disabled life, but not exceeding the amount of his accumulated contributions at the time of his retirement for disability.

Payment so made is a full discharge of the board and this system. The person shall account to the minor for the money when the minor reaches the age of majority.

This subdivision is not applicable to members who have become members of the retiring annuities system of the university.

21297. In no event shall the disability retirement pension under Sections 21295 and 21296 be more than sufficient to make the disability retirement allowance, exclusive of any annuity provided by accumulated additional contributions, exceed the service retirement allowance, exclusive of any annuity purchased by accumulated additional contributions, receivable by the member should he retire at the lowest age at which he would be eligible for service retirement.

When he reaches age 60, his retirement allowance shall be made equal to the amount upon which he was originally retired, and shall not again be modified for any cause.

Article 4. Optional Settlements

21330. In lieu of the retirement allowance for his life alone, a member or retired member may elect, or revoke or change a previous election prior to the approval of the previous election, to have the actuarial equivalent of his retirement allowance as of the date of retirement applied to a lesser retirement allowance, in accordance with one of the optional settlements specified in this article.

Article 5. Death

Death benefits

21360. Upon the death before retirement of a member while in the State service, or within four months after discontinuance of State service, or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of State service, this system is liable for either the basic or special death benefit.

Basic death benefit

21361. The basic death benefit is payable in all cases where the special death benefit is not payable.

The basic death benefit shall consist of:

(a) His accumulated contributions.

(b) An amount, provided from contributions by the State, or contracting agency, equal to one-twelfth of the annual compensation earnable by the deceased during the 12 months immediately preceding his death, multiplied by the number of completed years of service under the system, but not to exceed one-half of such compensation.

Payment

21362. A member or his beneficiary, after death of the member, may elect by a writing filed with the board to have the basic death benefit paid in monthly installments, fixed in number or amount, subject to such rules as the board may adopt. Regular interest shall be credited on the unpaid balance of such benefit.

Special death benefit

21363. The special death benefit is payable if the deceased was a patrol, prison, or local safety member, if his death was industrial, as determined by the Industrial Accident Commission in the same manner as for all other State or city employees,

21364. The special death benefit consists of :

21365. The special death benefit shall be paid in monthly installments to the surviving wife and children as prescribed in Section 21364.

Payment

21366. If payment of the special death benefit is stopped because of remarriage of the widow or attainment of the age of 18 years by a child, before the sum of the monthly payment made equals the basic death benefit, a lump sum equal to the difference shall be paid the remarried widow, or if there is no widow, to the surviving children of the deceased member, share and share alike.

Termination of installment payments

21367. In the absence of an application to the Industrial Accident Commission, filed by a proper party, the board shall proceed with the payment of the basic death benefit. If the Industrial Accident Commission determines on the basis of such an application subsequently filed, that death was industrial, an amount equal to the portion of the basic death benefit that was provided by contributions of the State or the contracting agency, shall be deducted from the special death benefit.

Determination of industrial death

21368. in the groups preceding it and that the estate of the deceased will not be probated, is in full discharge of the board and system on account of the death.

Payment
to funeral
director

21370. If the estate of the deceased member is his beneficiary, or if no beneficiary has been designated by him, or if the designated beneficiary can not be found by the board, it may in its discretion pay to the funeral director who conducted the funeral, or to any person or organization that has paid the funeral director from his or the organization's funds, all or a portion of any amount payable under this system, but not more than the expenses of the funeral or the portion of such expenses paid by the person or organization, as evidenced by the sworn itemized statement of the funeral director and by such other documents as the board may require. Payment so made is a full discharge of the board and system for the amount so paid.

Contracts for
recovery

21452. The board may contract with the State Fund for the recovery by the State Fund on behalf of this system of any amounts which the board might recover from third persons under this chapter, or Chapter 5, Part 1, Division 4 of the Labor Code, or which an insurer might recover under Section 11662 of the Insurance Code, or otherwise.

The State Fund may compromise claims before or after commencement of suit for such amount as may be approved by a person duly authorized by the board for such purpose. The agreed cost of such service and the expense incidental thereto is a proper charge against the fund out of which the compensation of the injured or deceased person was paid or the contracting agency by which a local member was employed.

Disposition
of amounts
recovered

21454. Any amount recovered by way of subrogation by the employer, workmen's compensation insurer or this system shall be applied first to the amounts which the employer or its insurer has paid or become obligated to pay, and second to the amounts which this system has paid or become obligated to pay.

The delegates from each county to the joint committee of supervisors may enter into an agreement with delegates from the other counties on behalf of the county appointing them, binding the county to the joint enterprise and apportioning the cost of constructing, establishing, and maintaining the joint detention home. Money due from any county under the agreement may be collected by the joint committee of supervisors, or on its behalf, by the board of supervisors of any county in the group, by action in the county in which the detention home is situated.

682. Each county in the group shall pay its proportionate share to the joint committee of supervisors of an amount designated by said committee to constitute a cash revolving fund to carry on the usual work and expense of the joint detention home. Urgency

Because of the effects of the war on the attendance of pupils in many school districts of the State the governing boards of such districts have dismissed many permanent employees thereof, and, so long as such conditions continue, will be required to dismiss many additional permanent employees. The statutory provisions governing the relative priorities of such employees, both as to the sequence in which they shall suffer dismissal and the order in which they may be reinstated, and governing their rights when reinstated, are ambiguous and of uncertain meaning and application, resulting in confusion and inefficiency in the administration of the public schools. This bill is designed to resolve such ambiguities and it is necessary that same become effective prior to the close of the present school year.

The people of the State of California do enact as follows:

SECTION 1. Section 13004.1 is added to the Education Code, to read:

Order of em-
ployment of
certificated
employees

13004.1. The governing board of every school district shall establish the order of employment of all present and future certificated employees of the district in the manner prescribed by this section and shall keep a roster of same as a public record.

Unless otherwise specified in this code, any probationary or permanent employee shall be deemed to have been employed on

the date upon which he first accepted employment in a probationary position.

In case two or more employees accepted employment at the same time, the board shall determine the order of employment by lots drawn by the employees concerned; provided, that any such employee may be represented at said drawing by proxy of his own choosing.

In the absence of records as to the time of acceptance, the board, in accordance with evidence presented, shall determine the order of employment after giving employees concerned a reasonable opportunity to present such evidence.

SEC. 2. Section 13004.2 is added to said code, to read:

13004.2. In areas in which two or more districts have governing boards composed of the same personnel, when any school or part thereof shall have been transferred from one district to another within the jurisdiction of the said board, employment shall date from the original acceptance of employment in the school or part thereof so transferred.

SEC. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Because of the effects of the war on the attendance of pupils in many school districts of the State, the governing boards of such districts have dismissed many permanent employees thereof, and, so long as such conditions continue, will be required to dismiss many additional permanent employees. The statutory provisions governing the relative priorities of such employees are ambiguous and of uncertain meaning and application, resulting in confusion and inefficiency in the administration of the public schools. This bill is designed to resolve such ambiguities and uncertainties and it is necessary that it take effect prior to the close of the present school year.

In effect immediately

[Approved by Governor May 3, 1945 Filed with Secretary of State May 3, 1945.]

The people of the State of California do enact as follows:

SECTION 1. Section 705 5 is added to the Vehicle Code, to read:

regardless of weight, if such log is hauled on a combination of vehicles consisting of a three-axle tractor and a two-axle semi-trailer. When so transported said vehicle shall not be operated over any bridge or causeway at a speed of more than 15 miles per hour or on the highway at more than 35 miles per hour.

This section shall remain in effect until the ninety-first day ^{Duration} after the final adjournment of the Fifty-seventh Regular Session of the Legislature or until the cessation of hostilities in all wars in which the United States is now engaged, whichever first occurs. While this section is in effect, it shall supersede Section 705, subdivision (b), of this code; but Section 705, subdivision (b), is not repealed by this section and after this section is no longer effective, Section 705, subdivision (b), shall have the same force as though this section had not been enacted.

SEC. 2. The following is a statement of the facts constituting such necessity:

The present limitations on the weights carried on vehicles using the highways prohibits the hauling of certain large logs and consequently prevents the United States from obtaining the lumber from such logs for use for war purposes and also restricts the supply of lumber available for essential civilian uses. The need for a greater supply of lumber is urgent and in order that it may be provided it is necessary that this act take immediate effect.

58 Fed.
Stats,
Ch 479

The Congress of the United States enacted and the President of the United States approved, October 3, 1944, the "Surplus Property Act of 1944." The Federal act provides for the distribution of Government surplus property and makes special provision for disposal of such property to local governments. The Surplus Property Board, created by the Federal act, must provide priority to States and their political subdivisions in the disposal of such property.

The Surplus Property Board has been appointed and Federal surplus property is being disposed of at the rate of several million dollars per month. Some municipalities can not take advantage of the Federal law in the acquisition of such property because they must either advertise for or invite bids, or such municipalities are unable to pay cash without first auditing claims, approving warrants, etc. Other municipalities are in doubt as to their power. In order to enable all municipalities to take advantage of the provisions of the Surplus Property Act of 1944, or regulations adopted by the Surplus Property Board pursuant to such law, it is necessary that this act go into immediate effect.

disposal works, sewers, water mains, and other conduits for the use of two or more municipal corporations, sanitary or sanitation districts, as joint owners or otherwise, and to make and enter into contracts for said purposes and to issue bonds to pay the cost of construction or for any property or rights acquired under such contracts.

 SEC. 2. Section 7 is added to the act cited in the title hereof, to read :

Agreement
 for joint
 sanitary
 facilities

Sec. 7. Any municipal corporation, sanitary or sanitation district, upon such terms and conditions as may be prescribed by the legislative body thereof, is authorized and empowered to enter an agreement with any municipal corporation or corporations, sanitary or sanitation district or districts providing for the joint construction, joint ownership, or joint use of sewage treatment plants and other sewage disposal works, or an agreement with any municipal corporation or corporations, sanitary or sanitation district or districts providing for the purchase or sale of any percentage of or portion of the capacity in any sewage treatment plant or plants or sewage disposal works. Said contracts also may provide for the maintenance and operation of said plant or plants or sewage disposal works and the amounts, percentages or proportions thereof to be paid by the municipal corporations, sanitary or sanitation districts entering such agreement or agreements.

Issuance
 of bonds

Any municipal corporation, sanitary or sanitation district may issue bonds for the purpose of paying all or any part of the cost of construction of or ownership in any such sewage treatment plant or sewage disposal works or of purchasing capacity therein or a right to the use thereof, as provided in any such contract. Bonds issued by a municipal corporation under the authority of this section shall be issued substantially in the manner provided in an act entitled "An act authorizing the incurring of indebtedness by cities, towns, and municipal corporations for municipal improvements, and regulating the acquisition, construction, or completion thereof," Statutes 1901, page 27, as amended, except that in charter cities such bonds shall be issued in the manner provided in the city charter. Existing law

SEC. 3. This act shall not restrict or limit any authority granted for the same or similar purposes by any other act or acts now existing, but is intended to provide additional authority for the subject to which it relates.

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into effect immediately. The following is a statement of facts constituting such necessity: Insufficient sewage treatment and disposal facilities have created conditions which seriously menace the public health in some areas in the State of California and have

resulted in the closing of some bathing beaches to public use. The public health requires that these conditions be remedied as quickly as possible. Some attorneys doubt if existing law sufficiently authorizes cities and districts to construct or own sewage treatment plants and disposal facilities for the use of two or more cities and districts. The enactment of this statute will remove any doubt as to such authority, and its adoption as an urgency measure will expedite the financing of sewage treatment plants and disposal facilities which are to be used by more than one city and district, thereby making it possible to remedy existing conditions which menace public health at a much earlier date than otherwise. It is therefore necessary that this act take effect immediately.

Every manufacturer of, importer of, or dealer in any economic poison, except dealers or agents selling economic poison which has been registered by the manufacturer or wholesaler thereof and persons selling raw material to manufacturers of economic poisons, before the same is offered for sale shall obtain a license from the department. The annual fee is fifty dollars (\$50), payable to the director. The payment of such fee shall permit the registrant to manufacture, import, or deal in 10 variously labeled economic poisons of varying name or composition, and for each such variety over 10 an additional fee of two dollars (\$2) shall be paid. Persons manufacturing an economic poison in either case (1) which does not exceed a total retail value of five hundred dollars (\$500) per annum and is intended to be used in households or their immediate environment, which intent must be expressed on the label of said economic poison; or (2) licensed pest control operators manufacturing an economic poison that does not exceed a total retail value of five hundred dollars (\$500) per annum, that is not sold to the general public and is intended to be sold only by being used in connection with their own pest control service work, which intent must be expressed on the label of said economic poison, shall pay an annual license fee of ten dollars (\$10) to the director. The payment of such fee shall permit the registrant to manufacture, import, or deal in two variously labeled economic poisons of varying name or composition, and for each such variety over two, an additional fee of two dollars (\$2) shall be paid. County, State, and Federal officers or employees selling economic poison at cost shall not be required to pay a license fee.

In the event the director finds that such registration can not be permitted and the license can not be issued, due to noncompliance with this article or the rules and regulations thereunder, he may after reasonable notice call a hearing for the purpose of determining whether the application shall be reconsidered or denied. All licenses and registrations expire on June thirtieth of each year and may be

1071.2. Each applicant for a license shall also file a statement of the brands, trademarks, and kinds of economic poisons intended to be manufactured or sold, the correct name and percentage of each active ingredient and the total percentage of inert ingredients contained therein. Article 6. Acquisition, Administration, Protection and Reforestation of Forest Lands

State policy

4421. It is hereby declared to be in the interest of the welfare of the people of the State of California and their industries and other activities involving the use of wood, lumber, poles, piling, and other forest products, that desirable cutover forest lands, including those having young and old timber growth, be made fully productive and that the holding and reforestation of such lands is a necessary measure predicated on waning supplies of original old growth timber. It is further declared to be the policy of the State to acquire by purchase, exchange, lease or grant (1) such cutover lands, the reforestation of which is not assured under private ownership, to reforest such lands during periods of unemployment and at other times, and (2) virgin and other timber lands deemed suitable by the State

Board of Forestry for use as areas for the demonstration, protection and management of cutting and logging practices designed to promote reforestation; and to protect and manage such lands to the end that they will produce as nearly as possible their maximum yield of useful forest products on a basis of continuous production.

[Approved by Governor May 11, 1945 Filed with Secretary of State May 11, 1945] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1060 is added to the Civil Code, to read: See also Stats 1947, Ch 834
1060. 1. Any power, which is exercisable by deed, by will, by deed or will, or otherwise, whether general or special, other than a power in trust which is imperative, is releasable, either with or without consideration, by written instrument signed by the donee and delivered as hereinafter provided unless the instrument creating the power provides otherwise. Release of power

2. A power which is releasable may be released with respect to the whole or any part of the property subject to such power and may also be released in such manner as to reduce or limit the persons or objects, or classes of persons or objects, in whose favor such powers would otherwise be exercisable. No release

of a power shall be deemed to make imperative a power which was not imperative prior to such release, unless the instrument of release expressly so provides.

3. Such release may be delivered to any of the following:

(a) Any person specified for such purpose in the instrument creating the power.

(b) Any trustee of the property to which the power relates.

(c) Any person, other than the donee, who could be adversely affected by an exercise of the power.

(d) The county recorder of the county in which the donee resides, or has a place of business, or in which the deed, will or other instrument creating the power is filed, and from the time of filing the same for record, notice is imparted to all persons of the contents thereof.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

The necessity of increased Federal taxation for war purposes has resulted in legislation which will subject transfers, on or after July 1, 1945, by release of powers of appointment, to Federal taxation. It is therefore necessary that a procedure be adopted to enable taxpayers to immediately release powers of appointment to alleviate higher taxes and meet the greater costs of living incident to the present war.

CHAPTER 325

An act to amend Section 25(a) of the California Water Storage District Act, relating to the formation, organization and powers of water storage districts, to assessments levied against lands in such districts, and to actions to determine the validity of such assessments.

[Approved by Governor May 11, 1945. Filed with Secretary of State May 11, 1945]

In effect September 15, 1945

The people of the State of California do enact as follows:

SECTION 1. Section 25(a) of the California Water Storage District Act is amended to read:

Sec. 25(a). Any water storage district heretofore or hereafter organized is authorized and empowered to cooperate and

contract with the United States whether under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto, or under any other act of Congress heretofore or hereafter enacted authorizing or permitting such cooperation or contract, for purposes of construction of works, whether for irrigation, drainage, storage or flood control, or for the generation and distribution of hydro-electric energy incidental thereto, or for the acquisition, purchase, extension, operation or maintenance of such works, or for a water supply, or for any or all thereof, or for the assumption as principal or guarantor of indebtedness to the United States, and to carry out and perform the terms of any contract so made; provided, that any such contract made between any water storage district and the United States may designate and describe the lands which are to be served with water from the water works or system contemplated under such contract and, in that case, only said lands may be charged with any of the assessments mentioned in this section.

"United States"

The term "United States" as used in this act shall include besides the United States any board, bureau, agency, officer or officers, department or corporation of the United States.

Making of contracts

The board of directors shall generally perform all such acts as shall be necessary to carry out the enlarged powers in this section enumerated. Said board may enter into any obligation or contract with the United States for the aforesaid purposes and may provide therein for the delivery and distribution of water for the lands of such district under any acts of Congress and under any rules and regulations established thereunder. Before entering into any such contract on behalf of the district, the board of directors shall make a report thereon complying with the provisions of Section 17 of this act and setting forth the substantial terms and provisions of such proposed contract, which report may be either the original report of the board of directors or a supplemental or additional report, and which may embody other features in addition to such proposed contract. Thereupon the same proceedings for the adoption or rejection of such report, and in case of the adoption thereof, for the levying, apportionment and collection of any assessment or assessments which may be necessary to meet any payments in the nature of capital charges required by such contract, and the other costs of the project described in said report, and for the issuance of bonds, shall be taken with respect to such report as are hereby provided to be taken in connection with the acquisition or construction of works contemplated by an original project.

Assessments

If such contract, in addition to payment of capital charges, also requires the payment by the district of periodic service charges the amount thereof shall be levied from time to time as an assessment on lands in the district on the same basis as any assessment of capital charges shall already have been levied pursuant to the provisions of this section; and such assessment shall thereafter be collected as provided in Section 21 of this act.

If such contract does not provide for any payment or payments in the nature of capital charges, the assessment commissioners appointed under Section 19 hereof shall determine the portion of the total benefits to accrue to the district under such contract which will be realized by each parcel of land in separate ownership in the district, which determination shall be stated in apportionment rolls to be prepared, certified and filed and substantially in form and manner as provided in Section 19, except that the apportionment of benefits shall be stated in percentages of benefits to the district as a whole, or in such other manner as may be determined upon by the commissioners; and thereafter all assessments levied in order to meet the payments due or to become due under such contract shall be apportioned among the respective tracts of land in accordance with said rolls.

In case any contract is made with the United States, bonds of the district which have been authorized either under Section 23 or Section 24 of this act may be transferred to, or deposited with, the United States if so provided by said contract, at not less than their par value, to the amount to be paid by the district to the United States or to any part thereof; and the interest or principal, or both, of said bonds, may be regularly paid to the United States and applied as provided in said contract but said bonds may call for the payment of such interest not exceeding 6 per cent per annua, may be of such denomination, and may call for the repayment of the principal at such times as shall be specified in said contract. The contract with the United States may likewise call for the payment of the amount or amounts to be paid by the district to the United States or any part thereof at such times and in such installments and with such interest charges not exceeding the aforesaid rate, as may be provided in said contract. The board may accept on behalf of the district appointment of the district as fiscal agent of the United States or authorization of the district by the United States to make collection of moneys for and on behalf of the United States and to assume the duties and liabilities incident to such action, and said board shall have full power to do any and all things required by the Federal statutes now or hereafter enacted in connection therewith and all things required by any rules or regulations now or hereafter established under any said Federal statutes.

All water, the right to use of which is acquired by the district under any contract with the United States, may be distributed and apportioned by the district in accordance with the acts of Congress applicable thereto and any rules or regulations thereunder; and provision may be made in the contract between the district and the United States for the refusal of water service to any or all lands which may become delinquent in the payment of any assessment levied for the purpose of carrying out any contract between the district and the United States

As partial consideration for any privileges obtained by the district under any said contract with the United States any

Transfer,
etc., of
bonds

Distribution
of water

rights of way or rights to water or other property owned or acquired by the district may be conveyed by the board to the United States insofar as the same may be needed for the construction, operation and maintenance of works by the United States for the benefit of the district under any contract that may be entered into with the United States pursuant to the provisions hereof.

Dissolution,
etc

Where a contract shall have been entered into between the district and the United States the contract may provide that the district shall not be dissolved nor shall the boundaries be changed except upon written consent of a specified official of the United States filed with the official records of the district. If such consent be given and lands be excluded the areas excluded shall be free from all liens and charges for payments to become due to the United States under any such contract.

Action to
validate
assessment

At any time within thirty (30) days after any assessment under this section has become a lien upon the lands therein described an action may be commenced in the superior court of any said counties by the board of directors of said water storage district, in the name of the district as plaintiff and the defendant shall be described as "All persons claiming any interest in any lands within the said (Name) Water Storage District," to have it determined that said assessment is a valid assessment and that any contract with the United States or any of its officers, departments, bureaus, corporations, or agencies in respect of which said assessment is levied in whole or in part is a legal obligation of such water storage district; and in the event no such action is brought then the same may be commenced by any landowner in the district within sixty (60) days after the expiration of the period within which said action might have been brought by the board of directors. It shall be sufficient to describe said lands as all lands in the district (naming it) without a more specific description. The summons shall be published once a week for four (4) successive weeks in the county where the action is pending and in any other county wherein any of the lands of the district are situated. If said summons is published in more than one county, then it shall be published on the same day in each said county for its first publication. Said summons shall include the following statement:

"The purpose of this action is to have it determined that an assessment which became a lien upon the lands in the district under date of (specifying the date for each county) and amounting to (inserting amount) is a valid assessment and that any contract with the United States or any of its officers, departments, bureaus, corporations, or agencies in respect of which said assessment is levied in whole or in part is a legal obligation of said district (naming it)."

Answer

Within sixty (60) days after the first publication of summons, any owner of land in such district, or any person interested, may appear and answer the complaint, which answer shall set

forth the facts relied upon to show the invalidity of said assessment, or of said contract. The default of all defendants not so appearing may be entered. Judgment shall be rendered ^{Judgment} declaring such matters so contested either valid or invalid. Any party not in default shall have the right to appeal within the time required by law. Judgment for the plaintiff in such proceedings shall be a judgment in rem and shall be conclusive against said district and against all lands therein and against all owners thereof and against all other interested persons.

collect fees

Against any person required to take out a license or pay fees under the provisions of this code and who fails, neglects, or refuses to take out such license or pay such fees, or who carries on or attempts to carry on the business or do any act for which such license or payment of such fees is required without such license or payment of fees, the director in addition to other remedies provided by law may direct suit in the name of the people of the State of California as plaintiff, to be brought for the recovery of the license or other fees; and in such case the director may make the necessary affidavit for and a writ of attachment may issue, without any bonds being given on behalf of the plaintiff.

Whenever the director finds the amounts due under any section of this code to be so small in amount as not to justify the cost of their collection or for any reason believes that collection is improbable and provided the amount involved in either instance is not in excess of one dollar (\$1) then the director may remove the amounts so due from the records of the department and he shall not be held accountable for their collection

Whenever the director finds that the amount of any refund authorized under the provisions of this section will be less than one dollar (\$1) or that after computation of the amount of any refund authorized to be made by any other sections of this code will be less than one dollar (\$1), he may retain such amounts for use for the same purpose for which the original payment was made, unless demand for the payment of such refund is made prior to the expiration of six months after the refund becomes due or six months after the effective date of this provision, whichever last occurs, and if such demand is made, the refund shall be paid.

Said notice shall also contain a statement that for any reassessment not paid before the expiration of said 30 days, a bond will issue in the manner and form provided in this act and shall state the period over which said bond shall extend and the rate of interest which shall be payable thereon. Notice shall also be given by mailing a post card to the owner of each lot, piece or parcel of land reassessed according to the name and address appearing on the last equalized assessment roll for county taxes prior thereto or as known to the superintendent or surveyor; provided, that a failure of the superintendent or surveyor to give such notice by mailing or of the person addressed to receive the same shall not affect the validity of the proceedings or the validity of the lien of any reassessment or of any bond issued thereon. Upon payment of any reassessment, the superintendent of streets or the county surveyor with which the said reassessment is recorded shall

mark upon the said reassessment note of the said paymer and shall cancel the said reassessment, and upon request, said superintendent of streets or county surveyor shall also give a receipt to the person paying the said reassessment.

Any reassessment upon public property shall be paid by the officer or board having charge of the disbursement of the funds of the owner of such property, and said reassessment shall be an enforceable obligation against the owner of or the governing body controlling the said property. If for any reason there are no moneys available for the payment of said reassessment then the board or officer whose duty it is to levy taxes for the said owner of said public property shall include in the next tax levy an amount, in addition to moneys for all other purposes, sufficient to pay said reassessment and the interest thereon from the date the reassessment is recorded at the rate to be stated in the refunding bonds, and when the moneys received from said tax levy are available, said reassessment and such interest thereon shall be paid by the officer or board having charge of the disbursement of the funds of the owner of such land.

Payment of
reassessment
upon public
property

In any action or proceeding to enforce or compel the payment of said reassessment or the levy of the tax to provide funds therefor, the complaint or petition shall be sufficient if it alleges substantially the following: That on a date stated the legislative body passed its resolution ordering the refunding under this act; that the reassessment levied in the refunding proceeding was recorded on a certain date, designating said date; that certain public property (describing it) was therein reassessed a stated amount, designating the sum; that the amount of said reassessment has not been paid; that the property is owned by the city, county, district or other public corporation named in the complaint or petition; and that the complainant or petitioner is the owner of said reassessment and the interest thereon, or is the owner of the right to receive moneys derived from the payment of said reassessment and the interest thereon.

Complaint
and petition

After the expiration of the 30-day period, hereinabove provided for the cash payment of reassessments, failure to pay the reassessment shall be prima facie evidence in any action or proceeding in court or otherwise that there are no moneys available for the payment of said reassessment. Any board or officer whose duty it is to levy taxes for the owner of said public property shall, if the reassessment is not paid within the 30-day period, levy the tax to pay the principal thereof and the interest thereon; provided, however, that if the principal of and interest on said reassessment are paid in full before the tax is levied, the board or officer shall not levy a tax therefor, but if the principal and interest are paid in part only, and not in full prior to the date for the tax levy, the board or officer shall levy a tax sufficient to pay the unpaid balance of said reassessment and the interest thereon.

Said action shall be brought in the name of the city or county the legislative body of which levied said reassessment upon the request of any person entitled to any portion of the moneys to be derived from said reassessment. The person requesting that said foreclosure action be brought must advance the plaintiff's costs and expenses thereof and said action may be brought by any competent attorney appointed by the legislative body which levied said reassessment. In any case in which the reassessment is levied by the legislative body of a county, the same shall be foreclosed as hereinbefore provided, except that the various officers designated in said Section 27 shall be the corresponding county officers as designated in the County Improvement Act of 1921, as amended. No refunding bond shall issue against public property, and the list of unpaid reassessments to be filed with the treasurer shall not include any unpaid reassessment upon public property.

1046. If it appears necessary or proper that a guardian of the estate of a veteran be appointed, the court in its discretion may, upon application of the board, acting through its designated officer, appoint the home as guardian of such estate and

Estates of
incompetent
veterans

cause letters of guardianship of such estate to be issued to the home.

Veterans' Home a corporation

For the purposes of this chapter, the home is made a corporation and, acting through an officer designated by the board, may act as guardian of estates, assignee, receiver, depository or trustee, under appointment of any court or by authority of any law of this State, and transact business in such capacity in like manner as an individual, and for this purpose may sue and be sued in any of the courts of this State.

Appointment of home

The home shall be appointed as guardian, assignee, receiver, depository or trustee without bond. The officer designated by the board shall be required to give a surety bond in such amount as may be deemed necessary from time to time by the board, but in no event shall the initial bond be less than ten thousand dollars (\$10,000) which bond shall be for the joint benefit of the several estates, the board, and the State of California. The home shall receive such reasonable fees as shall be allowable for its expenses for filing fees, attorneys' fees, and bond premiums. The court shall allow to the home at the time of its appointment as guardian of an estate an amount which the court estimates would be the bond premium for the estate if a separate bond were required for the estate. The fees paid to the home may be used as a trust account from which may be drawn expenses for filing fees, attorneys' fees, and bond premiums in all estates it undertakes to administer. Whenever the balance remaining in such trust account shall exceed a sum deemed necessary by the board for the payment of the filing fees, attorneys' fees, and bond premiums incurred in the various estates, such excess shall be paid quarterly into the post fund of the home.

Deposit of funds, etc

The home when acting as guardian of a veteran may deposit the funds of the estate in the special deposit fund of the home, and may invest and reinvest such funds in securities which are legal investments for savings banks in this State.

CHAPTER 402

An act to amend Sections 7058, 7066 and 7067 of the Welfare and Institutions Code, relating to defective and psychopathic delinquents and providing for their commitment and parole or discharge.

In effect
September
15, 1945

[Approved by Governor May 18, 1945 Filed with Secretary of State
May 18, 1945]

The people of the State of California do enact as follows:

SECTION 1. Section 7058 of the Welfare and Institutions Code is amended to read:

Defective or
psychopathic
delinquent
observation
and diagnosis

7058. If the court after hearing the evidence is of the opinion that or in doubt whether the minor is a defective or psychopathic delinquent, the court may commit the minor to the department for placement in a State institution for defective or psychopathic delinquents for observation and diagnosis for a period not to exceed ninety (90) days, with the further provision in said order that the superintendent of such institution shall, within the ninety (90) day period, report to the court his diagnosis and recommendations concerning such minor. The court shall attach to the order of 90-day commitment its findings and conclusions, together with all the social and other data it has bearing upon the case, and the same shall be delivered to the institution with such order.

Report of
institution

The medical superintendent or other person in charge of the State institution in which the minor has been placed for observation pursuant to this section shall, within 90 days, examine the person and forward to the committing court a report, diagnosis and recommendation concerning the minor's future care, supervision and treatment.

If the medical superintendent or other person in charge of the State institution in which the minor has been placed for observation reports to the court that the minor is not a defective or psychopathic delinquent, he shall be returned to the court and the court shall proceed with the case and make such other disposition thereof as the court may deem necessary and proper under all circumstances.

If the medical superintendent or other person in charge of the State institution in which the minor has been placed for observation reports to the court that the minor is a defective or psychopathic delinquent, and recommends that the minor be so committed, the court shall proceed with the case and make such orders for the return of the minor to the court and for the time, place and notice of the further hearing as the court may deem necessary and proper under all the circumstances. The court may accept the report and recommendation of the medical superintendent or other person in charge of the State institution, if verified, in lieu of the examination by and testimony of court appointed psychologists or psychiatrists, or may consider the report and recommendation as additional evidence.

Upon such further hearing, the court may make an order committing the person to the department for placement in a State institution for defective or psychopathic delinquents for an indeterminate period. No person shall be committed for an indeterminate period as a defective or psychopathic delinquent unless an observation commitment has been reported, diagnosed and recommended upon as provided in this section.

If the department has designated a particular State institution to receive designated minors committed for observation or for an indeterminate period as defective or psychopathic delinquents, all commitments shall be made to the department for placement in the institution so designated. On the presentation of either order designated herein, the superintendent of the institution to which the minor is committed may receive him therein if there is room in the unit designated under Section 7051 and if the fund available for its support is not exhausted. Before any such person is conveyed to the institution it shall be ascertained from the superintendent thereof that such person has been accepted as herein set forth.

SEC. 2. Section 7066 of said code is amended to read:

7066. Any person committed under the provisions of this chapter may be paroled by the medical superintendent of the institution wherein the person is confined whenever thereafter the medical superintendent is of the opinion that the person has improved to such an extent that he is no longer a menace to the health and safety of others or that the person will receive benefit from such parole, and the medical superintendent certifies such opinion to the committing court. Unless within 30 days after the receipt of such certification the committing court orders the return of the person to await the further action of the court, the medical superintendent may parole the person under such terms and conditions as may be specified by the superintendent. Any such paroled inmate may at any time during the parole period be recalled to the institution. The period of parole shall in no case be less than five years, and shall be on the same general rules and conditions as parole of the insane. When any person has been paroled for five consecutive years, if in the opinion of the medical superintendent and the Director of Institutions the person is no longer a menace to the health, person,

or property of himself or of any other person, the medical superintendent, subject to the approval of the Director of Institutions, may discharge the person.

Return to
committing
court

When, in the opinion of the medical superintendent, a person who is committed under this chapter has been sufficiently treated, or will not benefit by further care and treatment in the institution, or has improved to such an extent that he is no longer a menace to the health and safety of others, the medical superintendent may return the person to the court for further disposition of his case by the court.

SEC. 3. Section 7067 of said code is amended to read:

Minor,

7067. If, when a minor is brought before a juvenile court or charged with crime in any court, it appears to the court, either before or after adjudication, that the minor is a defective or psychopathic delinquent, the court may adjourn or suspend the proceedings or suspend the sentence, as the case may be, and direct some suitable person to take proceedings under this chapter against the minor in the superior court, and the court may order that, pending the preparation, filing and hearing of the petition, the minor before the court be detained in a place of safety.

If, upon the hearing of the petition, or upon a subsequent hearing under this chapter, the minor is found not to be a defective or psychopathic delinquent, the superior court shall return the person to the court in which the case originated for such disposition as that court may deem necessary and proper.

If, upon the hearing of the petition, the court is of the opinion that or in doubt whether the minor is a defective or psychopathic delinquent, the court shall proceed in accordance with the provisions of Section 7058 for the commitment of the minor or other disposition of the case.

[Approved by Governor May 23, 1945. Filed with Secretary of State
May 23, 1945]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 3490 of the Revenue and Taxation Code is amended to read:

SEC. 3. Section 3493 of the Revenue and Taxation Code is amended to read:

3493. The notices required by Sections 3354 and 3359 in the years 1943, 1944, 1945 and 1946 shall show:

(a) A list of descriptions of the property. The assessments contained in this notice of sale shall be numbered in ascending numerical order.

(f) The amount for which the property was sold to the State.

(g) The date of the notice.

(h) The name of the assessee for the fiscal year for which the tax was levied.

SEC. 4. Section 3494 of the Revenue and Taxation Code is amended to read:

3494. Notwithstanding the provisions of Chapters 4.3, 7, and 8 of Part 6, Division 1 of this code no sale shall be made according to the provisions of said chapters from the effective date of this act, and prior to June 1, 1947, of property deeded to the State on and after October 6, 1942. Provided, however, that sales under said Chapter 8 may be made if before the sale is made the county tax collector approves the sales agreement in writing.

SEC. 5. Section 3495 of the Revenue and Taxation Code is amended to read:

3495. The right of redemption of property deeded to the State on and after October 6, 1942, shall not be terminated after the effective date of this act and prior to June 1, 1947, except by sales permitted under Section 3494 of this code.

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into effect

immediately. The facts constituting the necessity are as follows:

Due to the existing state of war many taxpayers are serving in the armed forces of the United States in various places all over the world who would be deprived of their property without the enactment of protective measures. The Congress of the United States recognized the inability of the members of the armed forces to protect themselves against the loss of their property in enacting the Soldiers and Sailors Relief Act of 1940 and the amendments thereto effective October 6, 1942 by providing limitations upon the sale of tax-deeded property and granting to the members of such armed forces certain privileges of redemption. Without the enactment of proper laws to postpone the sale of real property to enforce the collection of taxes and to postpone the termination of the privilege of redemption under certain circumstances a chaotic condition would immediately follow due to conflict between the laws of this State relating to real property taxation and the Soldiers and Sailors Relief Act of 1940 as amended.

CHAPTER 428

An act to add Section 13502 to the Education Code, relating to the rights of permanent certificated employees of school districts after resignation, defining their rights, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 23, 1945 Filed with Secretary of State
May 23, 1945.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 13502 is added to the Education Code, to read:

13502. Whenever any certificated employee of any school district who, at the time of his resignation, was classified as permanent, is, or has been, reemployed within three years after his last day of service the governing board of the district shall disregard the break in service of said employee and classify him as, and restore to him all of the rights of, a permanent employee; provided, that if said employee at the time of resignation was a member of any State or district retirement system, he shall be reinstated as a member of said system or systems with all rights previously held, including any credit for prior service; provided, further, that the period of the absence from service shall not be counted as time served for any purpose.

SEC. 2. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into

immediate effect. A statement of the facts constituting such necessity is as follows:

Because of the effects of the war upon enrollment at teacher-training institutions and the withdrawal of teachers from the profession to go into war service, a serious teacher shortage has developed in many sections of the State, thus seriously impairing the educational system of the State. It has become necessary to induce those who have resigned to return to teaching, and service. Restoration of classification, retirement and other rights, lost by reason of such resignations, will assist in securing the return of many competent teachers to teaching service, and thus help to relieve such teacher shortage.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution of the State of California and as such shall take effect immediately. The following is a statement of the facts constituting such necessity: Urgency

The establishment of a Naval Ordnance Testing Station in Kern, Inyo and San Bernardino Counties as a permanent military station engaged in work of the most important nature comprising a great area of what was prior to the establishment of such station sparsely settled territory with a low assessed valuation and at which are stationed or employed a great number of persons makes necessary the establishment of permanent and adequate public school facilities for the children of such persons. This act provides the most desirable procedure for the establishment of necessary public school facilities and in order that they may be immediately established, it is necessary that this act take effect immediately.

CHAPTER 431

Stats 1938

In effect
September

[Approved by Governor May 23, 1945. Filed with Secretary of State
May 23, 1945.]

The people of the State of California do enact as follows:

Stats. 1938
ex. sess.,
p. 9

Creation
of housing
authorities

Resolution
determining
need

SECTION 1. Section 4 of the act referred to in the title hereof is hereby amended to read as follows:

Sec. 4. Creation of Housing Authorities. In each city (as herein defined) and in each county of the State there is hereby created a public body corporate and politic to be known as the "housing authority" of the city or county; provided, however, that such authority shall not transact any business or exercise its powers hereunder until or unless the governing body of the city or the county, as the case may be, by proper resolution shall declare at any time hereafter that there is need for an authority to function in such city or county. The determination as to whether there is such need for an authority to function (a) may be made by the governing body on its own motion or (b) may be made by the governing body upon the filing of a petition signed by 25 residents of the city or county, as the case may be, asserting that there is need for an authority to function in such city or county and requesting that the governing body so declare.

Precedent
findings

The governing body may adopt a resolution declaring that there is need for a housing authority in the city or county, as the case may be, if it shall find (a) that insanitary or unsafe inhabited dwelling accommodations exist in such city or county or (b) that there is a shortage of safe or sanitary dwelling accommodations in such city or county available to persons of low income at rentals they can afford. In determining whether dwelling accommodations are unsafe or insanitary said governing body may take into consideration the degree of over-crowding, the percentage of land coverage, the light, air, space and access available to the inhabitants of such dwelling accommodations, the size and arrangement of the rooms, the

sanitary facilities, and the extent to which conditions exist in such buildings which endanger life or property by fire or other causes.

In any suit, action or proceeding involving the validity or enforcement of or relating to any contract of the authority, the authority shall be conclusively deemed to have become established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution by the governing body declaring the need for the authority. Such resolution or resolutions shall be deemed sufficient if it declares that there is such need for an authority and finds in substantially the foregoing terms (no further detail being necessary) that either or both of the above enumerated conditions exist in the city or county, as the case may be. A copy of such resolution duly certified by the clerk shall be admissible in evidence in any suit, action or proceeding.

If, after the lapse of two years following adoption of a resolution declaring that there is need for a housing authority to function in a city or county, as the case may be, the governing body of such city or county finds that such housing authority has failed to transact any business or exercise any of its powers, such governing body may adopt a resolution declaring that thereafter such authority shall not transact any business or exercise its powers hereunder, and that the offices of the commissioners of such authority are vacated; provided, that the adoption of a resolution by the governing body of a city or county, as the case may be, declaring that such authority shall not transact any business or exercise its powers hereunder and that the offices of the commissioners are vacated shall not prevent such governing body at any time thereafter from declaring by proper resolution that there is need for an authority to function in such city or county, such determination to be made in the manner provided in this section.

CHAPTER 432

An act to add Section 862e to an act entitled "An act to provide for the organization, incorporation, and government of municipal corporations," approved March 13, 1883, relating to powers of cities of the sixth class and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 23, 1945 Filed with Secretary of State May 23, 1945]

The people of the State of California do enact as follows:

SECTION 1. Section 862e is added to the act cited in the title hereof, to read:

Sec. 862e. Whenever it shall appear to the council that the public interest and convenience requires that any public building and site dedicated to a public use be disposed of and conveyed, the council shall adopt a resolution of its finding and of

its intention to dispose of such property. Such resolution shall fix a time for hearing objections thereto; for publication thereof; the time when final action will be taken thereon and shall contain an accurate description of the property intended to be disposed of.

Publication

Such resolution shall be published at least once in a daily newspaper published and circulated in such city or, if there be no such newspaper, in such newspaper published in the county as the council may designate. Such resolution shall also be published by posting for not less than ten (10) days in at least three conspicuous places upon each parcel of real property affected thereby.

Protest

At any time prior to final action, any person interested may protest the proposed sale. Such protest may be in writing delivered to the clerk of the council or orally in the meeting called to consider such resolution. The council shall hear and pass upon any such protest or objection. In the event no protests are received or in the event the council overrules such protests or objections by a four-fifths vote of the members thereof, the council may proceed with such sale. In the event four-fifths of the members of the council do not vote to complete such sale, the council shall be without authority to renew any negotiations for or to take any further steps for the sale of such property until after the expiration of at least six months from the date of such final action unless it shall first adopt an ordinance to call a special election at a time to be fixed therein to submit the proposition of the disposition of such property to the qualified voters of such city. If upon such election a majority of the votes shall be in favor of the proposition, the council may proceed to sell or dispose of such property.

Procedure
cumulative

The provisions hereby made for such sale or disposition are cumulative to any other method or methods now permitted by law. Whenever, upon proceedings heretofore taken by any council, the procedure herein provided has been substantially followed and heretofore voted upon by electors at any election, such proceedings shall be deemed valid and shall have the same force and effect as if such proceedings were had and taken after the effective date of this section.

Temporary
occupancy
after sale

Nothing herein shall be deemed to limit the right of the council to agree with any purchaser of such property for the temporary occupancy after such sale by such city of the property sold or conveyed until new or other arrangements may be completed by the city. The right of the council to make any such agreement is hereby expressly recognized. For said purposes, the council may agree to include the value of any such occupancy in the purchase price of the property or to enter into a separate lease or rental agreement.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into imme-

mediate effect. A statement of the facts constituting such necessity is as follows:

Various cities in the State have obsolescent public buildings which they propose to replace with structures on new locations at the first opportunity, which buildings can not be replaced at this time due to shortage of materials and labor. This act provides a procedure whereby such cities can sell the sites on which the obsolete buildings are situated and retain temporary possession and occupancy of the buildings until new quarters are constructed, thereby enabling the cities to take advantage of current prices of real property, with corresponding savings to the taxpayers.

CHAPTER 433

"Obligee of the authority"

SEC 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows: Urgency

Some housing projects have already been constructed, lying partly in one city which has a housing authority under the provisions of this act, and partly within an adjoining city. The problem thus created as to the jurisdiction of the one housing authority over the whole of said project is a difficult one and calls for immediate answer. For this reason it is necessary that this act take immediate effect.

An act to add Section 7071.3 to the Business and Professions Code, relating to the licensing of contractors, declaring the urgency thereof, to take effect immediately.

In effect
immediately

[Approved by Governor May 24, 1945. Filed with Secretary of State

Designation
of agent

7071.3. for the licensee shall terminate. The annual renewal fee shall be paid for any such licensee so designating others to act for him.

Any license shall remain in full force and effect for 30 days after the entrance of the licensee into the armed forces, but he shall prior to the expiration of such 30-day period provide the Registrar with the name or names of the persons so designated to conduct his business. The Registrar may qualify such persons in any manner he may adopt. Persons so designated shall possess the good character required of an applicant for license.

Persons so designated committing any of the acts which would be grounds for the revocation or suspension of a license shall be removed from the business of such licensee after a hearing as provided in this chapter.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Many members of the armed services who hold current valid licenses will be unable to return before the expiration thereof; that it is unjust that licensees be deprived of the benefits of their licenses or be forced to abandon their businesses by reason of their absence in the service of their country; that many such licensees have contracts which they are unable to complete due to their entrance into the armed services; that it is equitable that such licensees be able to maintain and continue their business through responsible agents so that they may return to said businesses upon termination of their service with the armed forces.

Sec. 4. There shall be paid into said fund the following moneys, to wit:

Normal rate
of members'
contribution

(a) The normal rates of contribution of members shall be based on age at the nearest birthday at the time of entrance into the retirement system. The normal rates of contribution shall be such as will provide an average annuity at the lowest age at which the respective members shall be eligible for service retirement equal to one-half of terminal salary, according to the tables adopted by said board, subject to adjustment as provided for in subsection (f) of Section 3 hereof.

Table of
rates

(b) Until revised as a result of the actuarial investigation and valuation provided for in subsection (f) of Section 3 hereof, the rate of contribution of each member shall be that percentage of the salary actually paid to him, disregarding any portion thereof in excess of three hundred dollars (\$300) per month, shown in the following table according to age at the time of entry into said retirement system:

(c) The rate of contribution of members shall apply to so much of the salary actually paid to them, plus the monetary value as determined by the board of retirement of board, lodging, fuel, laundry and other advantages of any nature furnished to him made in payment for his services as does not exceed three hundred dollars (\$300) per month, and shall be deducted by the county auditor or other officer charged with the duty of drawing salary or wage warrants from the first salary or wage warrant drawn in each month in favor of each member of said retirement system which shall be paid by such auditor or other officer to the county treasurer and placed to the credit of each individual member's account. Payment of salaries and wages less such contribution shall be full and complete discharge and acquittance of all claims and demands whatsoever for service rendered by such members during the period covered by such payment except their claims to the benefits to which they may be entitled as pensioners of such retirement system. Computation

(d) Upon election by any person to come within the provisions of this act, said person shall automatically be excluded from any other retirement system as aforementioned, and any sums due or to the credit of such person under such other system, shall be transferred to this pension system, to the credit of such person, in accordance with the law made and provided for such cases, it being the intention that the retirement system provided by this act shall be exclusive and that the persons, who having elected to come under the provisions of this act shall not participate in any other system now or hereafter provided by law for county or township officers or employees; provided, however, that where such person elects to come within the provisions of this act and elects to secure credit for prior service as a county peace officer under this act, and where the sum to the credit of such member so transferred from some other system to this system exceeds that necessary to entitle such member to credit for said prior service as a peace officer under this system, there shall be refunded to such member such portion of the sum so transferred to the credit of such member, as exceeds the amount necessary to entitle such member to the credit claimed for such prior service. Credit for
prior service

(e) An amount to be determined and appropriated each year by the board of supervisors. Said amount to be sufficient, together with the contribution of peace officers to meet all of the current demands, including interest, against said pension fund and shall in no event be less than the total amount which will be contributed by members during such year. County's
contribution

The board of supervisors may add to the appropriation an additional amount not to exceed the sum which would result

from a tax levy on all of the property in the county subject to taxation of one-half cent (\$.005) per one hundred dollars (\$100) of assessed valuation, to reduce or eliminate any deficit in the fund. The board shall monthly deposit all contributions received in the county treasury to the credit of said fund.

From and after the date any system created by this act becomes operative, the board of supervisors shall in the preparation and adoption of the county budget, add to the appropriation for salaries and wages and include therein an appropriation equal in amount to that determined upon, otherwise 8.70 per cent of the total salaries provided for those employees who are members of the retirement system.

[Approved by Governor May 26, 1945. Filed with Secretary of State May 26, 1945.] In effect immediately

The people of the State of California do enact as follows.

SECTION 1. Section 1 of the act referred to in the title hereof is hereby amended to read as follows:

Stats 1943,
p 825

Section 1. All moneys belonging to or in the custody of any county, city and county, city, town, municipality or other public or municipal corporation within the State, including all moneys collected by, or paid to the treasurer of any county, city and county, city, town, municipality, or other public or municipal corporation within the State, or other official having authority to collect or receive the same, for the payment of principal, interest or penalties of bonds required by law, ordinance or resolution, to be paid to, or collected by, such treasurer or other official, shall, so far as possible, be deposited in such State or National bank or banks in the State as the treasurer of the county, city and county, city, town, municipality or other public or municipal corporation, as the case may be, or other official having the legal custody thereof, shall select for safe-keeping of such deposits, and any sum so deposited shall be deemed to be in the treasury of such county, city and county, city, town, municipality or other public or municipal corporation; provided, that the bank or banks in which such money is deposited shall furnish security as hereinafter provided; and said bank or banks are hereby empowered so to do. Such depositary bank or banks shall be selected from those agreeing to pay the highest rate of interest, not less than 2 per centum per annum, for such deposits, as may be determined by bids to be submitted at such times and in such manner as the treasurer shall direct; provided, however, that until and including September 1, 1947, such treasurer may in the absence of a higher bid or bids deposit such moneys upon interest of not less than one-half of 1 per centum per annum on active deposits and one-half of 1 per centum per annum on inactive deposits; and provided further, that such deposit shall not exceed the paid-up capital, exclusive of reserve and surplus of any depositary bank. Any and all bids may be rejected by the treasurer and new bids asked for. The expenses of transportation of moneys to and from such depositaries shall be borne by such depositaries and they shall handle, collect and pay all checks,

drafts and other exchange without cost to such county, city and county, city, town, municipality or other public or municipal corporation. Such deposits, with interest thereon, shall be subject to withdrawal at any time upon the demand of the treasurer or other authorized official; provided, however, that all inactive deposits shall be subject to notice of at least 30 days for the payment thereof; and provided further, that the treasurer may, with the consent of the governing body of the county, city and county, city, town, municipality or other public or municipal corporation, deposit any part of such moneys for a definite term and may agree with any depository bank or banks as to the period of time of any deposit or deposits, but no such agreement shall provide for the deposit of any of said moneys for a longer period than one year; and provided further, that such treasurer is hereby authorized, under such conditions as he, with the approval of the governing body of such county, city and county, city, town, municipality or other public or municipal corporation may fix, to deposit moneys in any bank, or banks within or without this State, necessary for the payment of the principal and interest of bonds at the place or places at which the same are payable, and the requirements of this act shall not apply to deposits for such purposes.

Urgency **SEC. 2.** This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution, and shall, therefore, go into immediate effect. The facts constituting such necessity are as follows:

Unless this act becomes effective immediately, grave doubt may exist as to the validity of many millions of dollars of public funds which may be on deposit in banks on September 1, 1945, due to inability to effect deposits in compliance with the terms of the present law and unless this act is in effect on that date, treasurers of cities, counties, school districts, and other political subdivisions of this State may be compelled to withdraw from banks large sums of public money then on deposit at interest, and either hold the same in currency in their offices or deposit the same without interest. It is necessary that the withdrawal of such an amount of currency from circulation at one time, and the loss of interest thereon, be prevented, and that the radical and objectionable changes in the handling of public financial transactions that would immediately ensue as an inevitable consequence of such withdrawal and holding of currency be obviated, and that the means of deriving revenue from the deposit of such public funds be impeded as little as possible.

Such unknown defendants may be described in said complaint as follows: "also all other persons unknown claiming any right to membership in the plaintiff corporation or any right or interest in the property and assets of the plaintiff other than the right to repayment of funds deposited with the plaintiff, with interest accrued and to accrue thereon." Within one year after the filing of the complaint a summons must be issued which shall contain the matters required by Section 407 of the Code of Civil Procedure and in addition a statement of the object of the action. In said summons said unknown defendants shall be designated as in the complaint. Within thirty (30) days after the issuance of the summons, the plaintiff shall post or cause to be posted a copy thereof in a conspicuous place on the principal banking premises of the plaintiff and at the courthouse of the county or city and county where said action is pending, and shall record in the office of the recorder of the said county or city and county, a notice of the pendency of said action, containing the names of the parties and the object of said action. At any time after the issuance of the summons the plaintiff shall cause to be filed an affidavit of its president and of its secretary wherein there shall be stated the following matters:

- (a) The names of all the defendants who have been served personally, if any. If there is none, that fact shall be stated.
- (b) The names of the defendants who reside out of the State and their places of residence, if known to the plaintiff; and
- (c) The names of the defendants residing in or out of the State whose place of residence is unknown to the plaintiff.

Each of the defendants residing in the State of California whose place of residence is known to the plaintiff shall be served personally with said summons; provided, that any person who conceals himself to avoid service of summons may be served as provided in Sections 412 and 413 of the Code of Civil Procedure. Upon the making and filing of the aforesaid affidavit, the court or a judge thereof shall make an order directing the said summons to be served upon the defendants

residing out of the State, whose place of residence is known to the plaintiff, and upon the defendants residing in or out of the State, whose place of residence is unknown to the plaintiff, and upon all of the unknown defendants as stated in the complaint and summons, by publication in some daily or weekly newspaper of general circulation, printed and published in the county or city and county where the principal place of business of the plaintiff is situated, and if there be no such paper in such county or city and county, then in some adjoining county, to be designated by the court or the judge thereof, which publication shall be once a week during four consecutive weeks, that is to say, there shall be at least four weekly insertions and publications of said summons in said newspaper. Within ten (10) days after the making of said order directing publication of summons, a copy of the summons and complaint, properly addressed and with the postage thereon fully prepaid, shall be mailed to each of the defendants whose names are known, who reside out of the State, at their place of residence, if known, and also to each of the defendants whose names are known, residing in or out of the State, whose place of residence is unknown to plaintiff, addressed to them at the county seat of the county or city and county where the action is commenced. All such unknown persons so served shall have the same rights as are provided by law in cases of all other defendants named, upon whom service is made by publication, or personally, and the action shall proceed against such unknown persons in the same manner as against the defendants who are named upon whom service is made by publication or personally, and with like effect; and any such unknown person who has or claims to have any right of membership in plaintiff or any right or interest in the property or assets of the plaintiff at the time of the commencement of the action, who has been duly served as aforesaid, and any one claiming under such unknown persons, shall be concluded by the judgment in such action as effectually as if the action was brought against the said person by his or her name and personal service of process was obtained, notwithstanding any such unknown person may be under legal disability. Service shall be deemed complete upon the completion of the mailing and publication. When the summons has been served as herein provided and the time for answering has expired, the court shall enter the default of all defendants who shall not have answered plaintiff's complaint. At any time after the entry of such default, the plaintiff may apply to the court for a judgment that the defaulting party has no membership and no right or interest in the property or assets of plaintiff and for such other relief to which plaintiff may be entitled. The allegations contained in the answer filed by each of said defendants shall be deemed to be controverted by the plaintiff and by each of the other defendants who appears and answers plaintiff's complaint to the extent that said answer conflicts with any claim of said plaintiff or said other defendants or any of them. Said answer shall

Thereafter such proceedings shall be had in said action as provided by the laws of this State in the case of an ordinary civil action; and the issues of law and of fact arising in said action shall be disposed of in like manner as issues of law and fact are by said laws provided to be disposed of in ordinary civil actions, with a like right to a motion for a new trial and appeal; and the provisions of the Code of Civil Procedure regulating the mode of procedure for the trial of civil actions, the taking of depositions, the making of motions for a new trial, records on motions for a new trial and on appeal, the mode of taking and perfecting appeals, and the time within which such appeals shall be taken, shall be applicable thereto. All defenses available to said plaintiff and defendants with respect to said claims of plaintiff and defendants or any of them, which under the law of the State of California would be available to said plaintiff and said defendants in the event that said action was an ordinary civil action instituted by claimants to enforce such claims or any of them, including defenses based upon the statute of limitations as provided in the Code of Civil Procedure and the defense of laches, shall be and are hereby made available upon the trial to the plaintiff and each of said defendants, as defenses to such claims, with the same force and effect as if specifically pleaded as such defenses. The judgment after it has become final shall be conclusive against all of the persons named in the summons and complaint who have been served, and against all unknown persons, as stated in the complaint and summons, who have been served by publication, and said judgment shall have the effect of a judgment in rem.

The remedy provided by this section shall be cumulative and not exclusive of any other remedy, form or right of action or proceeding allowed by law, but where issues of law and fact or either thereof, shall have been litigated under the provisions of this act, the determination thereof, as herein provided, shall be conclusive in such action or proceeding; provided, however, that such determination shall not be conclusive as to any issue of law or fact in any action pending at the time of the institution of the action commenced hereunder and brought to establish or enforce any such claim, or as to any of the parties to such pending action, and the right to prosecute any such pending action to final judgment shall not be affected hereby.

An act to amend Sections 1300.10, 1300.11, 1300.12, 1300.13, 1300.14, 1300.15, 1300.16, 1300.17, 1300.19 of the Agricultural Code, relating to the marketing of agricultural products, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 28, 1945. Filed with Secretary of State May 28, 1945.]

In effect
immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1300.10 of the Agricultural Code is amended to read:

1300.10. (a) It is hereby declared that the marketing of agricultural commodities in this State in excess of reasonable and normal market demands therefor; disorderly marketing of such commodities; improper preparation for market and lack of uniform grading and classification of agricultural commodities; unfair methods of competition in the marketing of such commodities; and the inability of individual producers to maintain present markets or to develop new or larger markets for California grown agricultural commodities, results in an unreasonable and unnecessary economic waste of the agricultural wealth of this State. Such conditions and the accompanying waste jeopardize the future continued production of adequate food supplies for the people of this and other States, and prevent agricultural producers from obtaining a fair return from their labor, their farms and the agricultural commodities which they produce. As a consequence, the purchasing power of such producers has been in the past, and may continue to be in the future, unless such conditions are remedied, low in relation to that of persons engaged in other gainful occupations within this State. Agricultural producers are thereby prevented from maintaining a proper standard of living and from

Legislative
declaration

contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of other citizens of this State.

State policy

(b) These conditions vitally concern the health, peace, safety and general welfare of the people of this State. It is hereby declared to be the policy of this State to aid agricultural producers in preventing economic waste in the marketing of their agricultural commodities, to develop more efficient and equitable methods in the marketing of agricultural commodities and to aid agricultural producers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

Public interest

(c) The marketing of agricultural commodities within this State is hereby declared to be affected with a public interest. The provisions of this chapter are enacted in the exercise of the police powers of this State for the purpose of protecting the health, peace, safety and general welfare of the people of this State.

Sec. 2. Section 1300.11 of the Agricultural Code is amended to read:

Purposes of chapter

1300.11. The purposes of this chapter are:

(a) To enable agricultural producers of this State, with the aid of the State, more effectively to correlate the marketing of their agricultural commodities with market demands therefor.

(b) To establish orderly marketing of agricultural commodities.

(c) To provide for uniform grading and proper preparation of agricultural commodities for market.

(d) To provide methods and means for the maintenance of present markets or for the development of new or larger markets for agricultural commodities grown within this State or for the prevention, modification or elimination of trade barriers which obstruct the free flow of such agricultural commodities to market.

(e) To eliminate or reduce economic waste in the marketing of agricultural commodities, and

(f) To restore and maintain adequate purchasing power for the agricultural producers of this State.

Sec. 3. Section 1300.12 of the Agricultural Code is amended to read:

(a) The Director of Agriculture shall administer and enforce the provisions of this act and shall have and may exercise any or all of the administrative powers conferred by Section 353 of the Political Code upon the head of a department of the State. In order to effectuate the declared purposes of this act, the Director of Agriculture is hereby authorized to issue, administer and enforce the provisions of marketing orders hereunder regulating producer marketing or the handling of agricultural commodities in intrastate commerce.

Marketing
order

(b) Whenever the director has reason to believe that the issuance of a marketing order, or amendments to an existing marketing order, will tend to effectuate the declared policy of this act with respect to any agricultural commodity, he shall, either upon his own motion or upon application of any producer or handler of such commodity, or any organization of such persons, give due notice of, and an opportunity for, a public hearing upon a proposed marketing order or such amendments to such existing marketing order.

Public
hearing

(c) (1) Notice of any hearing called for such purpose shall be given by the director by publishing a notice of such hearing for a period of not less than five (5) days in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe. No such public hearing shall be held prior to five (5) days after the last day of such period of publication.

(2) The director shall also mail a copy of such notice of hearing and a copy of such proposed marketing order, or proposed amendments, to all producers or handlers of such agricultural commodity whose names and addresses appear upon lists of such persons, on file in the Department of Agriculture, who may be directly affected by the provisions of such proposed marketing order or such proposed amendments.

(3) Such notice of hearing shall set forth the date and place of said hearing, the agricultural commodity, and the area, covered by such proposed marketing order or such proposed amendments and a statement that the director will receive, at such hearing, in addition to testimony and evidence as to other necessary and relevant matters set forth in Section 1300.14 hereof, testimony and evidence with respect to the accuracy and sufficiency of lists on file with the director which show the names and addresses of producers or handlers of such agricultural commodity directly affected by such proposed marketing order or proposed amendments, and the quantities of such commodity delivered by such producers to handlers or handled by such handlers in the marketing season next preceding such hearing.

A full and complete record of all proceedings at such hearing shall be made and maintained on file in the office of the director. (d) The quantities of such agricultural commodity received by such handler from each such producer in the marketing season next preceding the filing of such report.

(2) Said notice to handlers requiring them to file said report shall be published by the director for a period of not less than five (5) days in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe.

The director shall also mail a copy of such notice to file such report to all handlers of such agricultural commodity whose names and addresses appear upon the lists on file in the Department of Agriculture who may be directly affected by the provisions of such proposed marketing order.

Filing of
report by
handlers

Each handler of such agricultural commodity, directly affected by the provisions of such proposed marketing order shall file such verified report with the director within the time specified herein. Failure or refusal of any handler to file such report as herein specified shall not invalidate any proceeding taken or marketing order issued hereunder. The director is authorized and directed to proceed upon the basis of such information and reports as may otherwise be available.

Use of
reports by
director

(3) From such reports so filed and the information so received or available to the director, including any proper corrections, the director shall prepare a list of the names and addresses of such producers and the volume of such commodity produced or marketed by all such producers and a list of the names and addresses of such handlers and the volume of such commodity handled by all such handlers, directly affected by the provisions of such proposed marketing order, or amendments thereto, in the preceding marketing season. Marketing
agreements
and orders

any agricultural commodity, regulating the handling of such agricultural commodity which said marketing agreement shall be binding upon the signatories thereto exclusively. The execution of such marketing agreement shall in no manner affect the issuance, administration or enforcement of any marketing order provided for in this act. The director may issue such marketing order without executing a marketing agreement or may execute a marketing agreement without issuing a marketing order, or may execute a marketing agreement and issue a marketing order covering the same commodity. The director, in his discretion, may hold a concurrent hearing upon a proposed marketing agreement and proposed marketing order in the manner provided for giving due notice and opportunity for hearing for a marketing order as provided in this act.

SEC. 5. Section 1300.14 of the Agricultural Code is amended to read:

1300.14. (a) After such notice and hearing and before issuing a marketing order or amendments thereto for the written assent of producers or handlers, which contain provisions for correlating the supply of the agricultural commodity affected with market demands therefor by means of restrictions upon the total quantity of such commodity or restrictions upon the total quantity of any grade, size, quality or condition thereof which restrictions have the effect of limiting the total quantity of such commodity which may be marketed during any marketing season and which restricted portion of such commodity might otherwise be marketed by producers in compliance with other laws of this State or of the United States or in compliance with established commercial practice during such marketing season, the director shall find with respect to such marketing order or amendments thereto:

Governing
standards for
marketing
order

(1) That such provisions are necessary in order to effect a reasonable correlation of such supply of the agricultural commodity affected with market demands therefor and that such marketing order or amendments thereto will tend to reestablish or maintain such level of prices for such agricultural commodity as will provide a purchasing power for such agricultural commodity which is adequate to maintain in the business of producing such agricultural commodity such number of producers as is required to provide such supply of the quantities and qualities of such agricultural commodity as is necessary to fulfill the normal requirements of consumers thereof.

(2) That such marketing order or amendments thereto will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for such commodity.

(3) That such marketing order or amendments thereto are in conformity with the provisions of this chapter and within the applicable limitations and restrictions set forth therein and will tend to effectuate the declared purposes and policies of this chapter.

(4) That such marketing order or amendments thereto will protect the interests of consumers of such commodity, by exercising the powers of this chapter only to such extent as is necessary to establish the equality of purchasing power described in paragraph (1) of subsection (a) of this section.

Economic
factors

(b) In making the findings with respect to any or all of the objectives set forth in paragraph (a) of this section, the director shall, whenever any or all of the following economic factors are relevant, take into consideration any and all facts available to him with respect thereto:

(1) The quantity of such agricultural commodity available for distribution.

(2) The quantity of such agricultural commodity normally required by consumers.

(3) The cost of producing such agricultural commodity as determined by available statistics and surveys.

(4) The purchasing power of consumers as indicated by reports and indices.

(5) The level of prices of other commodities which compete with or are utilized as substitutes for such agricultural commodity.

(6) The level of prices of other commodities, services and articles which farmers commonly buy.

Orders
prescribing
standards for
marketing

(c) If the marketing order or amendments thereto contain provisions only for the purpose of regulating the flow of the commodity or any grade, size or condition thereof to market without directly restricting the total quantity which may be marketed during the marketing season, or if the marketing order or amendments thereto contain provisions only for the establishment of grade, size, quality or condition specifications or for uniform grading and inspection or the elimination of unfair trade practices or provisions for advertising or sales promotion, or for research, the director may issue such marketing order or amendments thereto if he finds:

(1) That such marketing order or amendments thereto are reasonably calculated to attain the objectives sought in such marketing order.

(2) That such marketing order or amendments thereto are in conformity with the provisions of this chapter and within the applicable limitations and restrictions set forth therein and will tend to effectuate the declared purposes and policies of this chapter.

(3) That the interests of consumers of such commodity are protected in that the powers of this chapter are being exercised only to the extent necessary to attain such objectives.

(d) In making any findings pursuant to paragraph (c) hereof the director shall base his findings upon the facts, testimony and evidence received at the public hearing together with any other relevant facts available to him from official publications or institutions of recognized standing.

(e) Any marketing order heretofore duly issued by the director pursuant to this chapter and now in effect shall continue in full force and effect and shall be conclusively presumed to be in conformity with the provisions of this section as amended unless the director, following a public hearing held in conformance with the provisions of this chapter, finds, within 90 days after the effective date of the amendments to this section, that such marketing order is not in conformity with the provisions of this section as amended.

Previous marketing orders

SEC. 6. Section 1300.15 of the Agricultural Code is amended to read:

The members of the board shall be appointed by the director and may hold office at the pleasure of the director. If the marketing order affects directly only producers of a particular commodity the members of the board shall be producers. If the marketing order affects directly only handlers of a particular commodity the members of the board shall be handlers. If the marketing order affects directly both producers and handlers of a particular commodity, such board shall be composed of both producers and handlers. The number of producers or handlers upon any such board shall be of such number of producers or handlers as the director finds is necessary to assist properly in the administration of such order. Upon the recommendation of the board, the director may appoint one person who is neither a producer nor a handler to represent the Department of Agriculture or the public generally.

Advisory boards

(2) No member of any such board shall receive a salary but each shall be entitled to his actual expenses incurred while engaged in performing his duties herein authorized. The director may authorize such board: To enter into contracts or agreements, to employ necessary personnel including attorneys engaged in the private practice of the law, fix their compensation and terms of employment; and to incur such expenses, to be paid by the director from moneys collected as herein provided, as the director may deem necessary and proper to enable such board properly to perform such of its duties as are authorized herein. The duties of any such board shall be administrative only and may include only the following:

Provisions of
marketing
order

(b) Subject to the legislative restrictions and limitations set forth herein any marketing order issued by the director pursuant to this chapter may contain any or all of the following provisions for regulating or providing methods for regulating producer marketing or the handling or any of the operations of processing or distributing by handlers of any agricultural commodity within this State, but no others:

Surplus

(1) Provisions for determining the existence and extent of the surplus of any agricultural commodity, or of any grade, size or quality thereof, and providing for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers, processors, distributors or other handlers affected.

Limitation
on quantity
to be
marketed

(2) Provisions for limiting the total quantity of any agricultural commodity, or of any grade, size or quality thereof, which may be marketed by producers, processed, distributed or otherwise handled in intrastate commerce, during any specified period or periods, by any and all persons engaged in such producer marketing, processing, distributing or handling; provided, that any such limitation shall be applied under a uniform rule applicable to all such persons so regulated. The total quantity of any such commodity so regulated and permitted to be marketed by producers, processed, distributed or otherwise handled, shall not be less than the quantity which the director finds is reasonably necessary to supply the market demands of consumers of such commodity.

Allotment
of quantity
acquired
from
producer

(3) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may purchase or acquire from, or handle on behalf of, any and all producers thereof, in intrastate commerce, during any specified period or periods under a uniform rule, applicable to all handlers so regulated based upon the amounts produced or sold by such producers in a prior period which the director finds to be representative, or upon the current season's production or sales of such producers, or both, to the end that the total quantity of such commodity or of any grade, size or quality thereof, so purchased or handled in intrastate commerce shall be apportioned equitably among the producers thereof.

Allotment
of quantity
handled

(4) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may process, distribute or handle in intrastate commerce under a uniform rule, applicable to all handlers so regulated, based upon the quantities of such commodity or of any grade, size or quality thereof of the current season's crop which each such handler has available for such processing, distribution or handling, or upon the quantities of such commod-

ity or of any grade, size or quality thereof so processed, distributed or handled by each such handler in a prior period which the director finds to be representative, or based upon both, to the end that the total quantity of such commodity or any grade, size or quality thereof, processed, distributed or handled in intrastate commerce during any specified period or periods shall be equitably apportioned among all such handlers thereof.

(5) Provisions regulating the period, or periods, during which any agricultural commodity, or any grade, size or quality of such commodity, may be processed, distributed or otherwise marketed within this State by any and all persons engaged in such processing, distributing or marketing within this State; provided, that the total quantity of such commodity so regulated and permitted to be processed, distributed or otherwise marketed during such period or periods, shall not be less than the quantity which the director finds is necessary to reasonably supply the needs of consumers of such commodity.

Period for
handling or

Whenever the marketing order authorizes the establishment of any such pool or pools the advisory board shall have power to receive such commodity from each producer or handler and to handle the same according to the grade, size, quality or condition thereof and to account to each producer or handler participating therein upon a pro rata basis for the net proceeds derived from the sale thereof.

Surplus,
stabilization,
or by-product
pools

Power of
advisory
board

The contents of any surplus pool shall not be marketed by the board in any form which would compete directly with that portion of the commodity which is marketed in regular channels of trade. However, any portion of any surplus pool may be transferred by the board upon any gratuitous basis to charitable organizations and other similar agencies under proper safeguards to insure that none of such commodity shall compete directly with the unrestricted portion of such commodity. The board may dispose of the contents of a stabilization pool in the regular marketing channels in such manner and at such times as the board deems advisable, consistent with the maintenance of stabilized marketing conditions for such commodity. The board may dispose of the contents of any by-product pool only for by-products or for other similar purposes under proper safeguards to prevent such portion of the commodity so disposed of from directly competing with that part of the commodity which is marketed in the usual form or in the regular channels of trade.

Surplus pool

Stabilization
pool

By-product
pool

Whenever the marketing order authorizes the establishment of a surplus, stabilization, or by-product pool, the board shall have authority to arrange for and operate any necessary facilities for storing, financing, etc.

Facilities for
storing, fi-
nancing, etc

ties for the storing, financing, grading, packing, servicing, processing, preparing for market, selling, and disposing of the contents of any pools provided for in this section; provided, however, the board shall not have authority to engage in commercial warehousing.

loans

The board shall have power to pledge all of the commodity in any such pools with banks or other lending agencies for the purpose of obtaining loans thereon. The board shall have title, for the purpose of financing and handling, to all of the commodity in any such pools.

Equalization
fund

Whenever the marketing order authorizes the establishment of any type of pool authorized in this section, the board shall have authority to create, by a uniform assessment upon producers, or upon some other uniform and equitable basis, maintain, and disburse an equalization fund to be used for the removal of any inequalities between producers or handlers participating in any pool resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to by-products, relief, or other noncompetitive purposes pursuant to the provisions of the marketing order.

Uniform
grading and
inspection

(7) Provisions for the establishment of uniform grading and inspection of any agricultural commodity delivered by producers to handlers or others engaging in the handling thereof and for the establishment of grading standards of quality, condition, size or pack for any agricultural commodity, and the inspection and grading of such commodity in accordance with such grading standards so established, such grading standards for any such commodity shall not be established below any minimum standards now prescribed by law for such commodity.

Advertising

(8) Provisions for the establishment of plans for advertising and sales promotion to maintain present markets or to create new or larger markets for agricultural commodities grown in the State of California, or for the prevention, modification or removal of trade barriers which obstruct the free flow of agricultural commodities to market. The director is hereby authorized to prepare, issue, administer and enforce plans for promoting the sale of any agricultural commodity.

Provided, that any such plan shall be directed toward increasing the sale of such commodity without reference to a particular brand or trade name, and

Provided, further, that no advertising or sales promotion program shall be issued by the director which shall make use of false or unwarranted claims in behalf of any such product, or disparage the quality, value, sale or use of any other agricultural commodity.

Unfair trade
practices

(9) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the processing, distribution or handling of agricultural commodities within this State, the

director is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practice affecting the processing, distributing or handling of any agricultural commodity within this State which the director finds, after a hearing thereupon in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of this act.

(10) Provisions for the application for, review, certification and equitable payment of, production adjustment benefits to growers from funds collected for such purpose on a uniform basis from all commercial growers of any agricultural commodity in the State, for which production adjustment payments are made. Such funds may be supplemented by funds, if any, received from Federal, State or other agencies for such purpose.

Production
adjustment
benefits

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by State or Federal agencies or such other data as the director deems to be representative and reliable.

(11) Provisions for carrying on research studies in the production, processing or distribution of any agricultural commodity and for the expenditure of moneys for such purposes. In any research in production or processing carried on hereunder, the Dean of the College of Agriculture of the University of California and the advisory board provided for in Section 1300.15 hereof shall cooperate in selecting the research project or projects to be carried on from time to time. Insofar as practicable such projects shall be carried out by said College of Agriculture, but if the dean of said college and the advisory board determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the advisory board.

SEC. 7. Section 1300.16 of the Agricultural Code is amended to read:

1300.16. (a) (1) No marketing order or amendment thereto, directly affecting handlers, issued pursuant to this chapter, shall become effective unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by the handlers engaged in the marketing activity or activities regulated by such marketing order who handle not less than sixty-five per cent (65%) of the volume of the agricultural commodity regulated thereby which is processed or distributed within the area defined in such marketing order or amendment thereto, or that such marketing order or amendment thereto has been assented to in writing by not less than

Handlers'
assent

sixty-five per cent (65%) of the number of handlers engaged in the marketing activity or activities regulated by such marketing order; provided, however, that any marketing order or amendment thereto directly affecting processors engaged in the operation of canning of fresh fruits or vegetables or canning or packing of dried fruits shall not be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto who processed not less than sixty-five per cent (65%) of the volume of such agricultural commodity which is processed within the area defined in such marketing order or amendment thereto and by sixty-five per cent (65%) of the number of such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto.

Producers'
assent

(2) No marketing order or amendment thereto, directly affecting producers or producer marketing, issued pursuant to this chapter, shall be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five per cent (65%) of the producers who are engaged, within the area specified in such marketing order or amendment thereto, in the production for market, or engaged in such producer marketing of not less than fifty-one per cent (51%) of the agricultural commodity specified therein in commercial quantities, or that such marketing order or amendment thereto has been assented to in writing by producers who produce not less than sixty-five per cent (65%) of the volume of such agricultural commodity and by fifty-one per cent (51%) of the total number of producers so engaged.

Assent by
cooperatives

(3) In finding whether such marketing order or amendment thereto is assented to in writing pursuant to the provisions of this chapter, the director shall consider the approval of any nonprofit agricultural cooperative marketing association, which is authorized by its members so to assent, as the approval of the producers who are members of, or stockholders in, such nonprofit agricultural cooperative marketing association.

Regulation
of producer
marketing,
etc

(b) Subject to the provisions, restrictions and limitations imposed herein, the director may issue marketing orders regulating producer marketing, the processing, distributing or handling in any manner of agricultural commodities by any and all persons engaged in such producer marketing, processing, distributing or handling of such agricultural commodities within this State.

Suspension
and termina-
tion of mar-
keting order

(c) The director shall suspend or terminate any marketing order, whenever he finds, after a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, that such marketing order is contrary to or does not tend to effectuate the declared purposes or provisions of this chapter within the standards and subject to the limitations and restrictions herein imposed; provided, that such suspension or

termination shall not become effective until the expiration of the marketing season then current. If the director finds that the termination of any marketing order is requested in writing by more than forty per cent (40%) of the producers, who are engaged within the State of California in the production for market of the agricultural commodity specified in such marketing order, and who produce forty per cent (40%) of the volume of such agricultural commodity produced within the State of California for market, and finds that the termination of such marketing order is requested in writing by handlers who handle more than forty per cent (40%) of the volume of the agricultural commodity covered thereby and by more than forty per cent (40%) of the number of handlers of the agricultural commodity covered thereby, the director shall, if he finds such marketing order is contrary to or does not tend to carry out the declared policy of this chapter, terminate such marketing order; provided, that such termination shall be effective only if announced on or before such date (prior to the end of the marketing period then current) as may be specified in such marketing order.

(d) The director may amend any marketing order if such amendments have been considered at a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, and after appropriate findings have been made by the director pursuant to Section 1300.14 of this chapter; and provided, that no such amendments shall be made effective until the director finds that such amendments have been assented to in writing in accordance with the provisions of this section. The director may amend any marketing order by approving minor amendments to such marketing order if such amendments are recommended to him by the advisory board concerned and if the director finds that such minor amendments conform with the applicable legislative standards set forth in Section 1300.14 of this chapter. A "minor amendment" shall mean and include only amendments for the purpose of clarifying the meaning of any provision of any marketing order without altering the purpose or the extent or degree of regulation of such provision and of such marketing order.

(e) Upon issuance of any order making effective a marketing order, or any suspension, amendment or termination thereof, a notice thereof shall be posted on a public bulletin board to be maintained by the director in his office and a copy of such notice shall be published in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe. No marketing order or any suspension, amendment or termination thereof shall become effective until the termination of a period of five (5) days from the date of such posting and publication. It shall also be the duty of the director to mail a copy of the notice of said issuance to all persons, directly affected by the terms of such marketing order, suspension, amendment or termination, whose names and addresses may be on file in the

At the close of each marketing season the sums so deposited shall be adjusted to the amount which is chargeable against such producer, processor, distributor or handler upon the basis of the actual number of units marketed by such producer or handled by such processor, distributor or handler, or upon the same uniform basis under which such funds were assessed by the director, during such marketing season. (c) In lieu of the assessments to defray the costs of formulation, issuance, administration and enforcement and advertising or sales promotion provided for in paragraphs (a) and (b) hereof, if the marketing order contains provisions for advertising or sales promotion as authorized in this chapter, the director may approve and fix one assessment not exceeding six and one-half per cent (6½%) of the gross dollar volume of sales of such commodity by all producers, or by all processors, distributors or other handlers of such agricultural commodity regulated by such marketing order during the marketing season or seasons during which such marketing order is effective. The method and manner of assessment and collection thereof, and the limitations and restrictions applicable thereupon, shall conform in all respects with the provisions of paragraph (b) hereof, except as to the maximum amount of such assessment. In such case the advisory board shall recommend and the director may approve the proportions of such assessments which may be expended to defray the costs of formulation, issuance, administration and enforcement of the marketing order and of such advertising or sales promotion program; provided, that, the proportion of such assessments which may be allocated in such manner to defray the costs of such administrative activities for such marketing order shall in no case exceed the maximum amount authorized in paragraph (a) of this section.

The director shall prescribe the rules and regulations with respect to the assessment and collection of such funds for such purposes.

marketing order under which they are collected, and disbursed by the director only for the necessary expenses incurred by the advisory board and the director and approved by the director with respect to each such separate marketing order. Funds so collected shall be deposited and disbursed in conformity with appropriate rules and regulations prescribed by the director. The expenditure of such funds shall be exempt from the provisions of Section 669 of the Political Code. Thereafter, if there are any such moneys remaining which have not been used by the director as hereinabove provided, same shall be withdrawn from the approved depository and paid into the State treasury as unclaimed trust moneys.

SEC. 10. A statement of the facts constituting such necessity is as follows:

The necessity for orderly and stabilized marketing of agricultural products is imperative as an aid to the remainder of the war effort and to prevent chaotic production and distribution of agricultural products under postwar conditions. By reason of changes in Government purchases and other factors producers in several large California agricultural industries face serious surplus conditions for the 1945 and subsequent crops. Orderly and stabilized marketing conditions will aid the war effort and assist agricultural producers in readjusting to peace-time levels of production and prices.
