(c) When any vehicle is found upon such property and report has previously been made that the vehicle has been stolen or complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

(d) When the person or persons in charge of a vehicle upon such property are by reason of physical injuries or illness incapacitated to such an extent as to be unable to provide for its custody or removal.

The person causing removal of such vehicle shall comply with the requirements of Sections 22852 and 22853 relating to notice.

CHAPTER 519

An act to amend Sections 2019 and 2020 of the Code of Civil Procedure, relating to discovery in civil cases.

[Approved by Governor May 21, 1963. Filed with Secretary of State May 21, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 2019 of the Code of Civil Procedure is amended to read:

2019. (a) (1) A party desiring to take the deposition of any person upon oral examination shall give notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. Such notice must be at least 10 days, adding also one day for every 300 miles of the distance of the place of examination from the residence of the person to whom the notice is given, except that on motion of any party, with or without notice, and for good cause shown, the court may enlarge or shorten the time, or may stay the taking of the deposition until the hearing and determination of a motion for an order pursuant to subdivision (b) of this section. Service of such notice or motion may be made upon any party or his attorney in the manner provided in Chapter 5 (commencing with Section 1010) of Title 14 of Part 2 of this code.

(2) If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions.

(3) If an adverse party is in default for not appearing within the time allowed by the law or the court, or if, in a special proceeding, some or all of the parties interested have not appeared, a deposition may be taken without the giving of any notice to the party so in default or not appearing; and in any case on motion of any party, with or without notice,

and for good cause shown, the court may authorize the taking of a deposition without the giving of notice to parties who have not been served with summons.

(4) In the case of depositions of a party to the record of any civil action or proceeding or of anyone who at the time of taking the deposition is an officer, director or managing agent of any such party, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney for such party or to the party, if he has no attorney. In the case of depositions of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of anyone who at the time of taking the deposition is an officer, director or managing agent of any such person, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney of the party prosecuting or defending the action or proceeding for the immediate benefit of the deponent or to such party, if he has no attorney. A notice to take the deposition of a person described in this subdivision (4) cannot require the attendance of such person at a place more than 150 miles from the residence of such person, unless the party desiring to take such deposition first obtains an order pursuant to the provisions of Section 2019(b)(2) of this code.

(b) (1) After notice is served for taking a deposition by oral examination, upon motion seasonably made by any party or by the person to be examined and upon notice, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case for good cause shown, the court in which the action is pending may make an order that the deposition shall not be taken, or that it may be taken only at some designated time or place other than stated in the notice, or that it shall not be taken except by allowing written interrogatories by one or more parties, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs and expenses, including attorney's fees, as the court may deem reasonable.

(2) Notwithstanding Section 1989, the court may, upon motion on 10 days' written notice and for good cause shown, make an order requiring a deponent who is a party to the record of any civil action or proceeding or is a person for

whose immediate benefit said action is prosecuted or defended or is at the time of the taking of the deposition an officer, director or managing agent of any such party or person to attend a deposition at a place more than 150 miles from the residence of such deponent. In granting or refusing such order, the court shall consider whether the moving party selected the forum, whether the deponent will be present at the trial, the convenience of the deponent, the suitability of discovery through a deposition by written interrogatories or other discovery methods, the number of depositions sought under this section, the expense to the parties of requiring the deposition to be taken within 150 miles of the residence of the deponent, the whereabouts of the deponent at the time the deposition is scheduled to be taken, and all other factors tending to show whether or not the interests of justice and the convenience of the parties and witnesses will be served by requiring the deponent to appear for his deposition at a place more than 150 miles from his residence. Such order may provide that the party desiring to take such deposition shall pay the reasonable expenses incurred by the deponent in attending such deposition and that he furnish an undertaking approved by the court to secure such payment and may contain such other terms and conditions as are equitable and just.

(c) The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.

(d) At any time during the taking of the deposition, on motion of any party or of the deponent, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or the superior court in the county where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subdivision (b) of this section. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending. Upon demand of the objecting

party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs or expenses, including attorney's fees, as the court may deem reasonable.

(e) When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress under subdivision (d) of Section 2021 of this code the court holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(f) (1) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in an envelope endorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly file it with the court in which the action is pending or send it by registered mail to the clerk thereof for filing.

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

(g) (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving the notice to pay such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

(2) If the party giving the notice of the taking of a deposition of a witness fails to serve a subpoena upon him and the witness because of such failure does not attend, and if another party attends in person or by attorney because he expects the deposition of that witness to be taken, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

SEC. 2. Section 2020 of said code is amended to read:

2020. (a) A party desiring to take the deposition of any person upon written interrogatories shall serve them upon every other party with a notice stating the name and address of the person who is to answer them and the name or descriptive title and address of the officer before whom the deposition is to be taken. Within 10 days thereafter a party so served may serve cross-interrogatories upon the party proposing to take the deposition. Within five days thereafter the latter may serve redirect interrogatories upon a party who has served cross-interrogatories. Within five days after being served with redirect interrogatories, a party may serve recross-interrogatories upon the party proposing to take the deposition.

(b) A copy of the notice and copies of all interrogatories served shall be delivered by the party taking the deposition to the officer designated in the notice, who shall proceed promptly, in the manner provided by subdivisions (c), (e) and (f) of Section 2019 of this code, to take the testimony of the witness in response to the interrogatories and to prepare, certify, and file or mail the deposition, attaching thereto the copy of the notice and the interrogatories received by him.

(c) When the deposition is filed the party taking it shall promptly give notice thereof to all other parties.

(d) After the service of interrogatories and prior to the taking of the testimony of the deponent, the court in which the action is pending, on motion promptly made by a party or a deponent upon notice, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case for good cause shown, may make any order specified in Section 2019 of this code which is appropriate and just or an order that the deposition shall not be taken before the officer designated in the notice or that it shall not be taken except by allowing oral examination by one or more parties

(e) Service of any interrogatories, notices, motions, or orders under this section may be made upon any party or his attorney in the manner provided in Chapter 5 (commencing with Section 1010) of Title 14 of Part 2 of this code.

409. Route 109 is from Sunset Cliffs Boulevard to Route 5 in San Diego.

SEC. 3. Section 2 of this act shall become operative only if Senate Bill No. 64 is enacted by the Legislature at its 1963 Regular Session, and in such case at the same time as Senate Bill No. 64 takes effect, and as an amendment thereof, regardless of the order of enactment; concurrently therewith Section 586 of the Streets and Highways Code as added by Section 1 of this act is repealed.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This change in description is necessary in order that proper considerations may be given to alternate locations for this freeway. Part of the freeway in one location would traverse certain river dike lands and the right-of-way for such lands in that location must be obtained from the United States government within one year. It is important that the location be fixed, so that right-of-way acquisition may be commenced at the earliest possible moment if the location is placed over such river dike lands. It is therefore necessary for this act to go into immediate effect.

Surfperch of these three species which have been taken north of the line during the open season and shipped south of the line may be sold or purchased under such regulations as the commission may prescribe.

SEC. 2. Section 9006 is added to said code, to read:

9006. In Districts 11, 12, and 13 traps not to exceed 24 inches in length, 12 inches in width, and 12 inches in height, with one opening not to exceed 2 inches in diameter, may be used to take shiner perch (Cymatogaster aggregata), staghorn sculpin (Leptocottus armatus) and mudsuckers (Gillichthys mirabilis).

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

If the benefits of this act are to be available during the 1963 season this act must be in effect immediately.

CHAPTER 529

For any such purpose, one authority may provide by resolution that another authority with which it has joined or is co-operating in the exercise of powers is authorized to act on its behalf with respect to any or all of the powers, as its agent or otherwise, in its name, the name of such other authority, or in the names of the authorities which have joined or are co-operating.

CHAPTER 530

An act to amend Section 4741 of, and to add Section 4759.1 to, the Health and Safety Code, relating to sanitation districts.

[Approved by Governor May 21, 1963. Filed with Secretary of State May 21, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 4741 of the Health and Safety Code is amended to read:

4741. It may acquire, construct and complete within or without the district, sewage collection, treatment and disposal works, including sewage treatment plants, outfalls, intercepting, collecting and lateral sewers, pipes, pumps, machinery, easements, rights-of-way, and other works, property or structures necessary or convenient for sewage collection, treatment and disposal. No such sewerage system shall be constructed,

maintained, or operated in any city not in the district except by consent granted by an affirmative vote by a majority of the full membership of the governing body of the city; provided, however, that the district may construct, operate and maintain intercepting, trunk and outfall sewerlines, other than ocean outfall lines and other terminal outfall lines, together with pumps and like machinery necessary for sewage transportation, in a city pursuant to Section 4759.1 of this article. For the purposes of this section the term "terminal outfall lines" means any outfall sewerlines that discharge within the city any effluent from a sewer treatment plant or any sewage.

It may also acquire lands and acquire and construct refuse transfer or disposal facilities, or both, within or without the district, and it may maintain and operate within the district boundaries a system for transfer or disposal of refuse, or both; provided, however, that such system shall not include "refuse collection" which is defined as the house-to-house pickup of refuse or any part thereof.

A district shall not acquire land for, or establish and operate a refuse transfer or disposal facility within either a city or the unincorporated area of a county until the city council, if the facility is proposed to be located in the city, or the board of supervisors of the county, if it is proposed to be located in the unincorporated area of the county, has by resolution, consented to the use of the proposed site for that purpose.

If 90 percent or more of the total area of the district is unincorporated territory, and the land proposed to be acquired for a refuse transfer or disposal facility is located in the unincorporated territory of the county, the board of supervisors shall, before adopting any resolution consenting to the use of land for that purpose, hold a public hearing upon the question of the adoption of the resolution. Notice of such hearing shall be given by publication in the area pursuant to Section 6066 of the Government Code, not more than 30 nor less than 10 days prior to the hearing. If at any time before the hearing, there is filed with the board of supervisors a written objection to the use of the proposed site for a refuse transfer or disposal facility, signed by 2 percent or more of the registered voters of the district, the board shall submit the matter of the proposed use to the voters of the district at an election. The proposition shall be submitted to the voters in the manner and under the procedure prescribed in Article 5 of this chapter for submission of the proposition of incurring a bonded indebtedness. If a majority of the votes cast in such an election are in favor of the proposed use the board shall adopt the resolution consenting thereto, but if a majority of the votes cast are against the proposed use the board shall dismiss the proceedings, and no resolution consenting to the use of any of such land shall be adopted by the board for at least one year from the date of the election.

SEC. 2. Section 4759.1 is added to said code, to read:

4759.1. (a) There is granted to every district the right to construct, operate and maintain outfall, intercepting and trunk sewerlines, other than ocean outfall lines and other terminal outfall lines, together with pumps and like machinery necessary for sewage transportation, across, along, in, under, over or upon any road, street, alley, avenue or highway within any city, in such a manner as to afford security for life and property. For the purposes of this section the term "terminal outfall lines" means any outfall sewerlines that discharge within the city any effluent from a sewage treatment plant or any sewage. Any use, under this section, of a public highway now or hereafter constituted a state highway shall be subject to the provisions of Chapter 3 (commencing with Section 660) of Division 1 of the Streets and Highways Code.

(b) A district exercising its rights under this section shall restore the road, street, alley, avenue or highway so used to its former state of usefulness as nearly as may be, and shall locate such sewerlines and machinery so as to interfere as little as possible with other existing uses of such road, street, alley, avenue or highway.

Nothing in this section prohibits the use of bait nets in Districts 19A and 19B for taking fish for use as fishfood in state fish hatcheries.

The people of the State of California do enact as follows:

SECTION 1. Article 17 (commencing with Section 31880) is added to Chapter 3, Part 3, Division 4, of Title 3 of the Government Code, to read:

Article 17. Cost of Living Adjustment

31880. The board shall before April 1 of each year determine whether there has been an increase or decrease in the cost of living as provided in this section. Notwithstanding Section 31481 or any other provision of this chapter (commencing with Section 31450), every retirement allowance, optional death allowance, or annual death allowance payable to or on account of any member, of this system or a superseded system, who retires or dies or who has retired or died shall, as of July 1st of each year, be increased or decreased by a percentage of the total allowance then being received found by the board to approximate to the nearest one-half of 1 percent and rounded off to the nearest whole dollar, the percentage of annual increase or decrease in the cost of living as of January 1st of each year as shown by the then current Bureau of Labor Statistics Consumers Price Index for the area in which the county seat is situated, but such change shall not exceed 2 percent per year; however, the amount of any cost of living increase or decrease in any year which is not met by the maximum annual change of two (2) percent in allowances shall be accumulated to be met by increases or decreases in allowances in future years; except that no decrease shall reduce the allowance below the amount being received by the member or his beneficiary on the effective date of the allowance or the application of this article, whichever is later.

31881. Any such increases in allowances which are based upon service rendered prior to the applicable date of this article (as fixed pursuant to Section 31884) shall be funded insofar as possible from the moneys in the reserve described in Section 31592 which are in excess of one (1) percent of the assets of the retirement system; except that in counties which have applied Section 31592.2 the board of supervisors may fund all or part of such increases from the county advance reserves.

31882. Any such increases in allowances which are not funded as provided in Section 31881 and any such increases which are based upon service rendered after the applicable

date of this article (as fixed pursuant to Section 31884) shall be funded by contributions set by the board, as it determines necessary.

31883. Any increases in contributions shall be shared equally between the county or district and the contributing members, with the individual members' contributions based upon their sex and age at their nearest birthday at time of entrance into the retirement system.

31884. This article (commencing with Section 31880) may be made applicable in any county on the date specified in the ordinance, or if no such date is specified, on the first day of the month after the effective date of an ordinance adopted by the board of supervisors to this effect, provided that an actuarial survey of the retirement system has been made by the adopting county prior to the passage of said ordinance.

CHAPTER 625

An act to validate a distribution of money to school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 27, 1963. Filed with Secretary of State May 27, 1963.]

The people of the State of California do enact as follows:

SECTION 1. There is hereby ratified, confirmed, and validated any distribution made by a county auditor or other appropriate county officer of money from the State School Fund arising from pupil attendance during the 1960-61 fiscal year in a city high school district having an average daily attendance of 100,000 or more during that fiscal year and from which district one or more unified school districts were formed under the optional reorganization sections of the Education Code, said new districts being effective for all purposes on July 1, 1961.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is an ambiguity in the law concerning the distribution of certain State School Fund money to school districts which have been reorganized under the provision for the optional reorganization of school districts. Funds were distributed to reorganized school districts during the 1961-1962 fiscal year in an equitable manner and in conformity with the understanding upon which the approval, by the electors, of the reorganization proposal was based. The funds so distributed have been expended by the school districts for district expenses in the same 1961-1962 fiscal year. In order to clarify the law

concerning the distribution of funds to reorganized school districts and to prevent the disruption of the finances and consequently the educational programs of reorganized school districts to the detriment of the education of the children of the district, it is necessary that this act take effect immediately.

CHAPTER 626

An act to amend Sections 4125, 4126.5, and 4142 of, to repeal Section 4280.1 of, and to add Section 4280.2 to, the Agricultural Code, relating to milk and dairy products.

[Approved by Governor May 27, 1963. Filed with Secretary of State May 27, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 4125 of the Agricultural Code is amended to read:

4125. In the marketing of market milk, cream and dairy products the methods of doing business or trade practices described in this article, of manufacturers, distributors, producers, wholesale customers, retail stores, consumers, or any representatives thereof, are hereby declared unfair practices and are unlawful.

SEC. 2. Section 4126.5 of said code is amended to read:

4126.5. The payment or gift or the offer or promise of any payment or gift of money or other thing of value by a producer or distributor, directly or indirectly or through any agent or other intermediary, to any person with the purpose or design of inducing such person to become or remain a wholesale customer of any distributor is an unfair practice.

SEC. 3. Section 4142 of said code is amended to read:

4142. Solicitation by, or collusion or joint participation between or among, any manufacturer, distributor, producer, wholesale customer, retail store, consumer, or any representative thereof, to commit any of the aforesaid unfair practices, or the use of any misrepresentation, threat, intimidation, or boycott to effectuate the commission of said unfair practices, shall make all persons participating therein subject to the penalties of this chapter.

SEC. 4. Section 4280.1 of said code is repealed.

SEC. 5. Section 4280.2 is added to said code, to read:

4280.2. Each such plan shall contain provisions for prohibiting producers and distributors from engaging in the unfair practices hereinafter set forth:

(a) The payment or gift or the offer or promise of any payment or gift of money or other thing of value, directly or indirectly or through any agent or other intermediary, to any person with the purpose or design of inducing such person to become or remain the wholesale customer of any distributor.

(b) The payment or gift or the offer or promise of any payment or gift of money or other thing of value by any person, directly or indirectly, or through any agent or other intermediary, to any distributor or producer, or the acceptance by any distributor or producer of such payment or gift or thing of value:

(1) For the purpose of inducing a distributor or producer to enter into a new contract, or to renew, extend, or modify an existing contract, for the purchase of fluid milk by a distributor from a producer; or

(2) As a condition upon which a distributor will enter into a new contract, or renew, extend, or modify an existing contract for the purchase of fluid milk from a producer; or

(3) For the purpose of enabling a distributor to pay to a producer, or a producer to receive from a distributor, less than the minimum class usage prices established by the director to be paid by distributors to producers for fluid milk.

CHAPTER 627

An act to amend Section 6702 of the Financial Code, relating to savings and loan associations.

CHAPTER 628

An act to amend Section 450 of, and to add Sections 450.1 and 474 to, the Military and Veterans Code, relating to military courts and disciplinary punishments within the California National Guard, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 28, 1963. Filed with Secretary of State May 28, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 450 of the Military and Veterans Code is amended to read:

450. The military courts of this State are: (a) general courts-martial; (b) special courts-martial; (c) summary courts-martial; and (d) courts of inquiry.

SEC. 2. Section 450.1 is added to said code, to read:

450.1. (a) Under such regulations as the Governor may prescribe, and under such additional regulations as may be prescribed by the Adjutant General, limitations may be placed on the powers granted by this section with respect to the kind and amount of punishment authorized, the categories of commanding officers and warrant officers exercising command authorized to exercise those powers, the applicability of this section to an accused who demands trial by court-martial, and the kinds of courts-martial to which the case may be referred upon such a demand. Except in the case of the imposition of fines upon officers and warrant officers, punishment may not be imposed upon any member of the California National Guard under this section if the member has, before the imposition of such punishment, demanded trial by court-martial in lieu of such punishment. Under similar regulations, rules may be prescribed with respect to the suspension of punishments authorized hereunder. If authorized by regulations

of the Adjutant General, a commanding officer who under the Uniform Code of Military Justice would exercise general court-martial jurisdiction or an officer of general rank in command may delegate his powers under this section to a principal assistant.

(b) Subject to subdivision (a) of this section, any commanding officer may, in addition to or in lieu of admonition or reprimand, impose one or more of the following disciplinary punishments for minor offenses without the intervention of a court-martial:

(1) Upon officers of this command:

(A) Restriction to certain specified limits, with or without suspension from duty, for not more than 30 consecutive days.

(B) If imposed by an officer who under the Uniform Code of Military Justice would exercise general court-martial jurisdiction or an officer of general rank in command:

(i) Arrest in quarters for not more than 30 consecutive days.

(ii) Impose a fine of not more than 15 days pay per month for two months.

(iii) Restriction to certain specified limits with or without suspension from duty for not more than 60 consecutive days.

(iv) Detention of not more than 15 days' pay per month for three months.

(2) Upon other personnel of his command:

(A) Correctional custody for not more than seven consecutive days.

(B) Impose a fine of not more than seven days' pay.

(C) Reduction to the next inferior pay grade, if the grade from which demoted is within the promotion authority of the officer imposing the reduction or any officer subordinate to the one who imposes the reduction.

(D) Extra duties, including fatigue or other duties, for not more than 14 consecutive days.

(E) Restriction to certain specified limits, with or without suspension from duty, for not more than 14 consecutive days.

(F) Detention of not more than 14 days' pay.

(G) If imposed by an officer of the grade of major or above:

(i) Correctional custody for not more than 30 consecutive days.

(ii) Impose a fine of not more than 15 days' pay per month for two months.

(iii) Reduction to the lowest or any intermediate pay grade, if the grade from which demoted is within the promotion authority of the officer imposing the reduction or any officer subordinate to the one who imposes the reduction, but an enlisted member in a pay grade above E-4 may not be reduced more than two pay grades.

(iv) Extra duties, including fatigue or other duties, for not more than 45 consecutive days.

(v) Restrictions to certain specified limits, with or without suspension from duty, for not more than 60 consecutive days.

(vi) Detention of not more than 15 days' pay per month for three months.

The punishments heretofore prescribed by subdivision (b) (1) A, B(i) and (iii) and subdivision (b) (2) A, D, E, G(i), (iv) and (v) hereof may be imposed only during annual active duty for training or active state service, except that extra duties may be imposed upon enlisted men while in armory drill status for two hours (to be completed not later than 2400 hours) for two consecutive drills.

Detention of pay shall be for a stated period of not more than one year but if the offender's term of service expires earlier, the detention shall terminate upon that expiration. No two or more of the punishments of arrest in quarters, correctional custody, extra duties, and restriction may be combined to run consecutively in the maximum amount imposable for each. Whenever any of those punishments are combined to run consecutively, there shall be an apportionment. In addition, forfeiture of pay may not be combined with detention of pay without an apportionment. For the purposes of this subdivision, 'correctional custody' means the physical restraint of a person during duty or nonduty hours and may include extra duties, fatigue duties, or hard labor. If practicable, correctional custody shall not be served in immediate association with persons awaiting trial or held in confinement pursuant to trial by court-martial.

(c) An officer in charge may impose upon enlisted members assigned to the unit of which he is in charge such of the punishments authorized under subdivision (b)(2)(A) to (G), inclusive, as the Adjutant General may specifically prescribe by regulation.

(d) The officer who imposes the punishment authorized in subdivision (b), or his successor in command, may, at any time, suspend probationally any part or amount of the unexecuted punishment imposed and may suspend probationally a reduction in grade or a fine imposed under subdivision (b), whether or not executed. In addition, he may, at any time, remit or mitigate any part or amount of the unexecuted punishment imposed and may set aside in whole or in part the punishment, whether executed or unexecuted, and restore all rights, privileges, and property affected. He may also mitigate reduction in grade to a fine or detention of pay. When mitigating:

(1) arrest in quarters to restriction;
(2) correctional custody to extra duties or restriction, or both; or
(3) extra duties to restriction;

the mitigated punishment shall not be for a greater period than the punishment mitigated. When mitigating a fine to detention of pay, the amount of the detention shall not be greater than the amount of the fine. When mitigating reduction in grade to a fine or detention of pay, the amount of the fine or detention shall not be greater than the amount that

could have been imposed initially under this article by the officer who imposed the punishment mitigated.

(e) A person punished under this section who considers his punishment unjust or disproportionate to the offense may, through the proper channel, appeal to the next superior authority. The appeal shall be promptly forwarded and decided, but the person punished may in the meantime be required to undergo the punishment adjudged. The superior authority may exercise the same powers with respect to the punishment imposed as may be exercised under subdivision (d) by the officer who imposed the punishment. Before acting on an appeal from a punishment of:

(1) arrest in quarters for more than seven days;
(2) correctional custody for more than seven days;
(3) a fine of more than seven days' pay;
(4) reduction of one or more pay grades from the fourth or a higher pay grade;
(5) extra duties for more than 14 days;
(6) restriction for more than 14 days; or
(7) detention of more than 14 days' pay;

the authority who is to act on the appeal shall refer the case to a judge advocate of the California National Guard for consideration and advice, and may so refer the case upon appeal from any punishment imposed under subdivision (b).

(f) The imposition and enforcement of disciplinary punishment under this section for any act or omission is not a bar to trial by court-martial for a serious crime or offense growing out of the same act or omission, and not properly punishable under this section; but the fact that a disciplinary punishment has been enforced may be shown by the accused upon trial, and when so shown shall be considered in determining the measure of punishment to be adjudged in the event of a finding of guilty.

(g) The Adjutant General may, by regulation, prescribe the form of records to be kept of proceedings under this article and may also prescribe that certain categories of those proceedings shall be in writing.

SEC. 3. Section 474 is added to said code, to read:

474. The Adjutant General, under procedures established by him and approved by the Governor, and acting through a board of officers appointed by him, may correct any military record of a California National Guardsman when he considers it necessary to correct an error or remove an injustice.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The stated intent of the Legislature (Sections 100, 101 and 451, Military and Veterans Code) is to conform the organization and procedure of the California National Guard to the custom and practices of the Armed Forces of the United

States. By congressional action (Section 815, Title 10, United States Code) an Executive Order of the President of the United States (Executive Order No. 11081, dated January 29, 1963), Article 15 of the Uniform Code of Military Justice, has been amended to change the authority of Commanding Officers of the Federal Military Forces to impose disciplinary measures in their commands. It is necessary that this act take effect immediately to provide similar authority to Commanding Officers of the California National Guard consistent with the legislative policy mentioned above.

DIVISION 4. LOCAL EDUCATIONAL AGENCIES

CHAPTER 1. SCHOOL DISTRICTS

Article 1. Naming of Districts

911. The first governing board of any new district shall, at the first meeting of the board or as soon as practicable thereafter, name the district.

The name of an elementary district shall be in the form of "_____ District (using the name of the district), of _____ County" (using the name of the county in which the district is situated). The name of an elementary district shall not include a number or the word "elementary."

The name of a unified school district shall be in the form of "_____ (using the name of the district) Unified School District." A number shall not be used as a part of the designation of any unified school district.

The governing board of any high school district maintaining a junior college may, pursuant to Section 913, request that the name of the district be changed to include the words "high school district and junior college."

Any union high school district or joint union high school district shall be so designated as part of its name.

912. Whenever a petition is presented to the board of supervisors, signed by at least 15 qualified electors of any school district, asking that the name of the district be changed, the board of supervisors shall designate a day upon which it will act upon the petition, which shall not be less than 10 days nor more than 40 days after the receipt of the petition.

The clerk of the board of supervisors shall give notice to all parties interested by sending by registered mail to each of the governing board members of the school district a notice of the time for the hearing of the petition. Notices shall be mailed at least 10 days before the day set for hearing. At the hearing the board shall by resolution either grant or deny the petition, and, if granted, the clerk shall notify the county superintendent of the change of the name of the district.

913. In addition to the procedures set forth in Sections 911 and 912, a petition may be presented to the superintendent of schools having jurisdiction of any high school district signed by at least two-thirds of the members of the governing board of the high school district asking that the name of the district be changed and stating the new name desired. The procedure shall thereafter be the same as is provided for electors' petitions in Section 912, except:

(a) The clerk of the board of supervisors shall give notice to all persons interested, by publication in a newspaper published within the high school district, or, if there is none, then in any newspaper published in the county, of the time set for the hearing of the petition, instead of by registered mail. The notice shall be published at least twice before the day set for hearing.

(b) In addition to notification of the county superintendent of schools, the change shall be certified to the county clerk of each county in which any part of the high school district is situated and entered by him in his record of high school districts.

Article 2. Boundaries of Districts

915. Every county superintendent shall inquire and ascertain whether the boundaries of the school districts in his

county are definitely and plainly described in the records of the board of supervisors and keep in his office a full and correct transcript of the boundaries.

If the boundaries of districts are conflicting or incorrectly described, or if, by reason of the resubdivision of land or other change of property lines, the location of the boundaries becomes indefinite or conflicts with lines of assessment, the board of supervisors may correct and relocate the boundaries to follow definite, established property lines, conforming as nearly as practicable to the general location of the former boundaries.

Where boundary lines are corrected or relocated, the relocation of the new lines shall be made in such a manner that the majority of the area of the parcel or property affected determines the district in which the parcel or property is located. Nothing herein contained authorizes the board of supervisors, in relocating the boundaries, to substantially alter the former boundaries of school districts.

916. Whenever the boundary line of any school district is described as being "to" or "from" the ocean shore, such description means to or from a point three miles seaward from the shore.

Whenever the boundary line of any school district is described as being "along," "with," "by," or "on" the ocean shore, such description means on a line parallel with and three miles seaward from the shore.

Nothing contained in this section shall retroactively alter, enlarge, diminish or otherwise affect the powers, jurisdiction, rights, duties, responsibilities, obligations or liabilities of any such school district.

917. Whenever any school district has been or is hereafter intersected by any county boundary line in the formation of any new county, or in changing the boundary of any county, and portions of the district then lie in different counties, the district shall, by operation of law, constitute and become established as a joint school district, at the time of the intersection, unless otherwise provided.

CHAPTER 2. SCHOOL DISTRICT GOVERNING BOARDS

Article 1. General Provisions

921. Every school district shall be under the control of a board of school trustees or a board of education.

923. Except as otherwise provided, the governing board of a school district shall consist of five members elected at large by the qualified voters of the district. The terms of the members shall, except as otherwise provided, be for four years and staggered so that as nearly as practicable one-half of the members shall be elected in each odd-numbered year.

923.5. A unified school district formed pursuant to the provisions of Chapter 10 (commencing with Section 3101) of Division 5 of this code may have a governing board of seven

members in the event the proposal for unification has specified a governing board of seven members. The members of such board shall be elected at large or by trustee areas as designated in the proposal for unification and shall serve four-year terms of office.

924. Notwithstanding the provisions of Section 923, and except as provided in this section and Section 1120, the governing board of an elementary school district other than a union or joint union elementary school district shall consist of three members selected at large from the territory comprising the district. Whenever, in any such elementary school district the average daily attendance during the preceding fiscal year is 300 or more, the procedures prescribed by Section 1120 shall be undertaken.

925. The governing board of each school district shall prescribe and enforce rules not inconsistent with law or with the rules prescribed by the State Board of Education, for its own government.

926. In any junior college district coterminous with a single high school district, of any type, the governing board of the high school district shall constitute the junior college board and after organizing as a junior college board shall have the management and control of the junior college in the district.

A junior college district coterminous with a single unified school district shall be governed by the governing board of the unified school district.

This section does not apply to junior college districts formed pursuant to Article 3 (commencing with Section 2551) of Chapter 6 of Division 5 of this code.

Article 2. School District Officers and Agents

931. The governing board of each school district shall fix and prescribe the duties to be performed by all persons in public school service in the school district.

932. Every school district governing board consisting of five or more members shall, at its initial meeting and at each annual meeting, elect a president from among its members.

932.1. The governing board of each school district of every kind or class shall annually at its initial meeting select one of its members as its representative who shall have one vote in determining the number of members, and one vote for each member to be elected to the county committee provided by Article 3 (commencing with Section 3161) of Chapter 10 of Division 5 of this code. The secretary or clerk of the district shall furnish the county superintendent of schools with a certificate naming the representative selected by the board.

933. The governing board of any school district may appoint an executive committee. In the case of a governing board which has appointed a clerk, the committee shall consist of the president, the clerk, and one other member of the board.

In the case of a governing board which has not appointed a clerk the committee shall consist of the president and two members of the board. The committee shall attend to the routine business of the board. Its action shall be reported to the board for ratification at its first meeting ensuing.

934. The governing board of any school district may employ a person not a member of the board to act as secretary and bookkeeper for the board, and may delegate to such secretary the duties prescribed in paragraphs (a) and (c) of Section 1031.

935. The governing board of any school district employing eight or more teachers, and the governing board of any junior college district, may employ a district superintendent for one or more schools and may delegate to the district superintendent any of the duties provided for in Section 1031.

936. The governing board of any school district employing a district superintendent of schools and having an average daily attendance of 1,500 or more pupils may employ such deputy, associate, and assistant district superintendents of schools as the board deems necessary.

937. No person shall be eligible to hold a position as city superintendent, district superintendent, deputy superintendent, associate superintendent, or assistant superintendent of schools unless he is the holder of both a valid school administration certificate and a valid teacher's certificate, but any person employed as a deputy, associate, or assistant superintendent in a purely clerical capacity shall not be required to hold any certificate.

938. Any district superintendent of schools, or deputy, associate, or assistant superintendent of schools, may be elected for a term of four years. The governing board of any school district, with the consent of the employee concerned, may at any time terminate, effective on the next succeeding first day of July, the term of employment of, and any contract of employment with, the superintendent of schools, or any associate, deputy, or assistant superintendent of schools of the district, and re-elect or re-employ the employee, on such terms and conditions as may be mutually agreed upon by the board and the employee, for a new term to commence on the effective date of the termination of the existing term of employment. In the event the governing board of a school district determines the superintendent of schools of the district is not to be re-elected or re-employed as such superintendent upon the expiration of his term, the superintendent of schools shall be given written notice thereof by the governing board at least six months in advance of the expiration of his term. In the event the governing board of a district fails to re-elect or re-employ the superintendent of schools of the district as such superintendent and the written notice herein provided for has not been given, the superintendent of schools shall be deemed re-elected for a term of the same length as the one completed, and under the same terms and conditions and with the same compensation.

938.2. If a unified school district is formed pursuant to Chapter 10 (commencing with Section 3101) of Division 5 of this code to comprise all the territory of only one elementary school district, the governing board of the unified district may elect and re-elect as district superintendent of schools of the unified district for a four-year term, the person employed as district superintendent of schools of the elementary school district at the time of the formation of the unified school district. The person may perform service as district superintendent of schools of the unified district for the term to which he is elected or re-elected without possessing the certification document otherwise required if he has served continuously as district superintendent of the elementary district for at least 10 years and if he is elected as district superintendent of the unified district pursuant to this section.

938.5. (a) The members of the governing board of each unified school district shall elect a superintendent of schools, for a term of four years, who shall be executive officer and secretary of said governing board. Where the entire area of a county is included within one unified school district or where the entire area of a county is included within one unified school district except for such portions of the county as are included in a school district which is under the jurisdiction of the county superintendent of schools of another county, the county superintendent of schools may be employed as the superintendent of schools of the unified school district; provided, he is the holder of a certification document authorizing him to perform such services. If a county superintendent of schools is employed as the superintendent of schools of a unified school district, he may be paid such salary, in addition to that provided by law for his office of county superintendent of schools, as he and the governing board of the unified school district may agree upon.

(b) Any county superintendent of schools who is employed as a district superintendent of a unified school district on the effective date of this section, may continue to perform such services without possessing the certification document otherwise required as long as he remains continuously employed or re-employed in his position.

939. The superintendent of each school district shall, in addition to any other powers and duties granted to or imposed upon him:

(a) Be the chief executive officer of the governing board of the district.

(b) Excepting in districts where the governing board has appointed or designated an employee other than the superintendent, or a deputy, or assistant superintendent, to prepare and submit a budget, prepare and submit to the governing board of the district, at such time as it may direct, the budget of the district for the next ensuing school year, and revise and take such other action in connection with the budget as the board may desire.

(c) Subject to the approval of the governing board, assign all employees of the district employed in positions requiring certification qualifications, to the positions in which they are to serve.

(d) Determine that each employee of the district in a position requiring certification qualifications has a valid certificated document registered as required by law authorizing him to serve in the position to which he is assigned.

(e) Enter into contracts for and on behalf of the district pursuant to Section 15961.

940. Any district governing board not employing a district superintendent, or employing a district superintendent but not delegating to him those duties prescribed in Section 1031 which are not delegated to a secretary as provided in Section 934, shall, at its initial meeting and at each annual meeting, appoint a clerk, who shall perform all duties prescribed in Section 1031 not delegated by the governing board to the secretary or to the district superintendent.

941. Except as provided in Section 1232, the clerk shall be a member of the board.

942. In any district the governing board of which is required by the provisions of Section 940 to appoint a clerk, the superintendent of schools of the county shall appoint one of the members of the governing board to fill the office of district clerk if a clerk is not appointed by the governing board on the date prescribed, or if, except as provided in Section 943, a vacancy occurs in the position of district clerk.

943. If the clerk of the district refuses to perform the duties prescribed in Section 1031 or by the governing board, the board may at a regular meeting dismiss him and appoint another member clerk. It shall immediately notify the superintendent of schools of the county of its action.

944. The clerk, secretary, and superintendent of the district shall, in addition to the duties prescribed by this chapter, perform such other duties as may be prescribed by the governing board of the district.

945. Anything in a city, county, or city and county charter to the contrary notwithstanding, when the average daily attendance of any school district, or of two or more school districts governed by governing boards of identical personnel, is 40,000 or more, the governing board or boards of the district, or districts, may appoint an administrative adviser and fix and order paid his compensation. The duties of the administrative adviser are to render administrative advice to the superintendent of schools and to other officers and employees of the school district, or districts, such other administrative duties as may be assigned by the superintendent of schools and the governing board, or boards, of the district, and to assist the legal counsel of the district, or districts, in the preparation and conduct of school district litigation. The employee shall have been admitted to practice law in the State, and shall not be required to have any certification qualifications. The employee

shall be employed under the same conditions for employment as set forth in Sections 13303, 13304, and 13306.

946. The governing boards of each school district shall employ a principal for each school under its control.

947. Whenever in their judgment it is deemed advisable, the governing boards of any two or more school districts may jointly employ a supervising principal or a supervisor of instruction, who shall devote such time to the supervision of instruction in the several school districts as may be agreed upon by the several boards of trustees.

948. The governing board of each school district shall provide for the payment of the traveling expenses of any representatives of the board when performing services directed by the board.

949. The governing board of any school district having an average daily attendance of 10,000 or more may appoint a director of school building planning, who shall be a person qualified by training, experience and demonstrated ability to manage the building, construction and contracting business of the district. The director shall be responsible for the co-ordination of the building program of the district and shall advise the superintendent of schools and other employees of the district with respect to the negotiation and performance of school building construction contracts let by the governing board of the school district.

Article 3. Meetings

961. Subject to the provisions of this article the governing board of any school district shall by rule and regulation fix the time and place for its regular meetings. Such action shall be proper notice to all members of the board of the regular meetings.

962. The governing board of any junior college district composed of two or more high school districts, and the governing board of any union or joint union high school district, shall hold its regular meetings either monthly or quarterly. The governing board of any other junior college district, and the governing board of any other high school district, shall hold its regular meetings monthly.

963. Subject to the provisions of Section 962, the times at which the regular meetings of the governing board of a junior college district and the governing board of a high school district are to be held shall be prescribed by the rules and regulations adopted by each such board for its own government.

964. The governing board of any school district shall meet annually on the first day of July and elect its officers as provided in this chapter. Governing boards of high school districts, including union and joint union districts, and of junior college districts, shall meet at 12 o'clock noon, unless at a meeting held between May 15 and June 15 the board shall set some other hour. In case such action is taken, the clerk of the board shall

notify in writing all members and members-elect of the time of the annual meeting and shall also publish this action of the governing board.

965. A special meeting of the governing board of a school district may be called at any time by the presiding officer of the board, or by a majority of the members thereof, by delivering personally or by mail written notice to each member of the board, and to each local newspaper of general circulation, radio or television station requesting notice in writing. Such notice must be delivered personally or by mail at least 24 hours before the time of such meeting as specified in the notice. The call and notice shall specify the time and place of the special meeting and the business to be transacted. No other business shall be considered at such meetings by the governing board. Such written notice may be dispensed with as to any member who at or prior to the time the meeting convenes files with the clerk or secretary of the board a written waiver of notice. Such waiver may be given by telegram. Such written notice may also be dispensed with as to any member who is actually present at the meeting at the time it convenes.

966. Except as provided in Section 967, all meetings of the governing board of any school district shall be open to the public, and all actions authorized or required by law of the governing board shall be taken at such meetings.

967. Notwithstanding the provisions of Section 966 of this code and Section 54950 of the Government Code, the governing body of a school district may hold executive sessions to consider the expulsion, suspension, or disciplinary action in connection with any pupil of the school district, if a public hearing upon such question would lead to the giving out of information concerning school pupils which would be in violation of Section 10751 of the Education Code.

Before calling such executive session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the pupil is a minor, notify the pupil and his parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board of the district to call and hold such executive session. Unless the pupil, or his parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters may be conducted by the governing board in executive session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public. Whether the matter is considered at an executive session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.

968. Each member of the governing board of a school district may be allowed for travel necessary to attend annual,

regular monthly, and special meetings of the governing board the rate of mileage determined by the governing board but not to exceed ten cents ($0.10) a mile. Mileage shall not be allowed to any member to attend any meeting except for travel required in excess of 10 miles. Orders for travel allowances shall be drawn upon the funds of the district and signed by a majority of the governing board exclusive of the payee.

969. Meetings of the governing board of a high school district shall be held in the high school building. If there is no high school building in the high school district, or if in the judgment of the board, the interests of the district may be better served by holding its meetings elsewhere, it may meet at such other place in the high school district as it may by resolution determine.

Except as otherwise provided in this section, all meetings of the governing board of a junior college district shall be held at the junior college building. If no junior college building exists in the district, or if the junior college consists of a single high school district, the junior college board may meet at any place in the district as it may by resolution determine.

If a junior college district consists of more than one high school district, or of more than one unified district, or of at least one high school district and one unified district, the junior college governing board may meet at any high school building in any of such districts, if a notice identifying the high school building in which the meeting will be held and the time and date of the meeting therein is posted in each junior college maintained by the district at least 30 days prior to the meeting and remains so posted to and including the time of the meeting.

Chapter 3. Powers and Duties of School District Governing Boards

Article 1. General Provisions

1001. The governing board of any school district may execute any powers delegated by law to it or to the district of which it is the governing board, and shall discharge any duty imposed by law upon it or upon the district of which it is the governing board.

1002.5. Every official action taken by the governing board of every school district shall be affirmed by a formal vote of the members of the board, and the governing board of every school district shall keep minutes of its meetings, and shall maintain a journal of its proceedings in which shall be recorded every official act taken.

The minutes and journal shall be open to inspection by any citizen during business hours.

1003.5. Except where otherwise provided, all of the provisions of this code applicable to the government, maintenance, support, functions, and administration of elementary, high school, and junior college districts are applicable to the government, maintenance, support, and administration of unified school districts.

1004. The governing board of a suspended district shall have, among other powers possessed by said board, power to repair and insure the school property of the district and to contract for the transportation of the children eligible to attend the school of and resident in the district to the adjoining school district or districts where they are attending public schools, and for these purposes the board may expend any money available for such purposes and credited to the district. The insurance shall be written in any admitted insurer.

Article 2. Liabilities

1011. The governing board of any school district is liable as such in the name of the district for all debts and contracts, including the salary due any teacher, not made in excess of the school moneys accruing to the district and usable for the purposes of the debts and contracts during the school year for which the debts and contracts are made. The district shall not be liable for debts and contracts made in violation of this section.

1013. The governing board of any school district shall pay any judgment for debts, liabilities, or damages out of the school funds to the credit of the district, subject to the limitation on the use of the funds provided in the Constitution. If any judgment is not paid during the tax year in which it was recovered:

(a) And if, in the opinion of the board, the amount is not too great to be paid out of taxes for the ensuing year, the board shall include in its budget for the ensuing tax year a provision to pay the judgment, and shall pay it immediately upon the obtaining of sufficient funds for that purpose.

(b) And if, in the opinion of the board, the amount of the judgment is so great that undue hardship will arise if the entire amount is paid out of taxes for the next ensuing tax year, the board shall provide for the payment of the judgment in not exceeding three annual installments with interest thereon, at a rate not exceeding 4 percent per annum, up to

the date of each payment, and shall include provision for the payment in each budget for not exceeding three consecutive tax years next ensuing. Each payment shall be of an equal portion of the principal of the judgment.

1014. All claims for money or damages against a school district are governed by Chapter 2 (commencing with Section 700) of Division 3.5 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

1016. The governing board of any school district may contract for the services of an attorney in private practice to prepare and conduct school district litigation, or to assist it in the preparation and conduct of school district litigation, and compensation of such attorney pursuant to contract shall be a proper use of school district funds.

1017. The governing board of any school district shall insure against the liability (other than a liability which may be insured against under the provisions of Divisions 4 and 5 of the Labor Code) of the district and against the personal liability of the members of the board and of the officers and employees of the district, for damages to property or damage by reason of the death of, or injury to, any person or persons, as the result of any negligent act by the district, or by a member of the board, or any officer or employee when acting within the scope of his office or employment, and may also insure against the personal liability of the members of the board or any officer or employee of the district as an individual, for any act or omission performed in the line of official duty. The insurance may be written in any insurance company authorized to transact the business of insurance in the State, or in a nonadmitted insurer to the extent and subject to the conditions prescribed by Section 1763 of the Insurance Code.

Article 3. Instructions From Electors

1021. The governing board of a school district, except a district having a city board of education, may, and upon a petition signed by a majority of the electors resident in the district shall, call meetings of the qualified electors of the district for consultation in regard to any affairs in the district. A

meeting so called shall be competent to instruct the governing board, and the board shall, in all cases, be bound by such instructions upon the following subjects:

(a) The location or change of location of the schoolhouse, if the proposal to instruct the board in regard to changing the location of the schoolhouse is passed by a vote of two-thirds of all the electors voting at the meeting upon the proposition.

(b) The use of the schoolhouse for other than school purposes, but in no case shall the schoolhouse be used for purposes which necessitate the removal of any school desks or other school furniture.

(c) The sale and purchase of school sites.

(d) The prosecution, settlement, or compromise of any litigation in which the district is engaged, or is likely to become engaged.

The meeting may vote money not exceeding one hundred dollars ($100) in any one year, for any of these purposes in addition to any amount which may be raised by the sale of district school property, and the insurance of property destroyed by fire, except that the proceeds of the insurance of the library and apparatus shall be paid into the library fund. All funds raised by the sale of school property may be disposed of by direction of a district meeting.

1022. The meeting provided for in Section 1021 shall be called by posting three notices in public places, one of which shall be in a conspicuous place on the schoolhouse, for not less than 10 days prior to the time for which the meeting is called. The notices shall specify the purposes for which the meeting is called, and no other business shall be transacted at the meeting.

1023. Any district meeting called pursuant to Sections 1021 and 1022 shall be organized by choosing a chairman from the electors present. The district clerk or secretary shall be clerk of the meeting, and shall enter the minutes on the records of the district. Any district meeting may be adjourned from time to time as found necessary. All votes instructing the board of trustees shall be taken by ballot, or by "ayes" and "noes" vote as the meeting may determine.

Article 4. Records and Reports

1031. The governing board of every school district shall:

(c) Make an annual report, on or before the first day of July, to the county superintendent of schools in the manner and form and on the blanks prescribed by the Superintendent of Public Instruction.

(d) Make or maintain such other records or reports as are required by law.

1032. Whenever in any school year the school register of any teacher, or other records of any school district are destroyed by conflagration or public calamity, preventing the teacher and school officers from making their annual reports in the usual manner and with accuracy, affidavits of the teacher, the school principals, or other officers of the school district, certifying as to the contents of the destroyed register or other records, shall be accepted by all school authorities for all school purposes appertaining to the school district, except that of average daily attendance.

1033. Whenever the average daily attendance of any school district has been materially affected in any school year by conflagration, public calamity, or epidemic of unusual duration and prevalence, the regular annual reports of the teacher, the school principal, or officers of the school district, shall be accepted by all school officers for all school matters appertaining to the school district, except that of average daily attendance.

1034. the voters approve the proposed increase in the number of board members.

If the voters at such election do not approve such an increase in membership of the governing board, the same question may be submitted to the voters at subsequent governing board member elections so long as the district continues to have an average daily attendance of 300 or more. Requests to the county superintendent to submit the question to the voters of a district shall be filed with him by the governing board of the district no later than 100 days prior to the election.

If, pursuant to either subdivision (a) or subdivision (b) of this section, two additional governing board members are authorized and elected, the one receiving the higher number of votes shall hold office for a term of four years from July 1st succeeding the election, and the other one shall hold office for a term of two years from July 1st succeeding the election. The date on which each signature was placed on the petition shall be indicated thereon either by the signer or by the person circulating the petition.

1138. Each separate paper of each recall petition shall have attached to it an affidavit. The affidavit shall state that the affiant is a registered voter of the district; that the affiant circulated that particular paper and saw each signer write his signature and residence thereon; and that according to the best information and belief of the affiant:

(a) Each is the genuine signature of the person whose name it purports to be.

(b) Each signer is a registered voter of the district.

(c) Each signature was obtained on the date indicated on the petition.

1139. No petition shall be valid for the purpose for which it was circulated unless it shall be filed for verification of signatures within six months after the date on which a copy of the text of the petition was filed.

1140. The signatures to the recall petition shall be verified as follows:

(a) If the school district is situated wholly in one county, the county superintendent of schools shall send the petition to the county clerk immediately upon the filing of the petition for verification of signatures. The county clerk shall examine the signatures and from the records of registration ascertain whether or not the petition is signed by the requisite number of registered voters. Within 10 days after the county clerk receives the petition, he shall attach to it his certificate showing the results of his examination and shall return the petition to the county superintendent.

(b) If the school district is situated in more than one county, the county superintendent shall, immediately upon the filing of the petition for verification of signatures, send each separate paper constituting the recall petition to the county clerk of the county designated on each paper. Each county clerk shall examine the signatures and from the records of registration ascertain the number of signatures of registered voters in the portion of the district lying in his county. The county clerk shall attach to the papers his certificate showing the results of his examination and also showing the total number of registered voters in the portion of the district lying in his county. Within 10 days after each county clerk

receives the papers he shall return them to the county superintendent.

1141. If the number of signatures is not sufficient, a supplemental petition, in form a duplicate of the original petition, but bearing additional signatures, may be filed with the county superintendent of schools having jurisdiction within 10 days from the date on which the county superintendent received the last of the county clerks' certificates. In the manner provided in Section 1140, the county superintendent shall send the supplemental petition to the county clerks of the counties in which the district is situated, and the county clerks shall examine, certify, and return the supplemental petition to the county superintendent. If the signatures to the petition are still insufficient, no action shall be taken thereon. The petition shall remain on file as a public record, and the failure to secure sufficient signatures shall not prejudice the filing later of an entirely new petition to the same effect.

1142. If the county superintendent of schools finds the petition, together with supplementary petitions, if any, sufficient he shall at once call a special election to be held in the district within not less than 51 nor more than 56 days after the date of the call, to determine whether the voters will recall the governing board member. If a regular election for the election of members of the governing board of the district is to occur not less than 51 nor more than 56 days from the date of the call for the special election, the county superintendent may, in his discretion, order the holding of the special election at the time the regular election is held.

1143. The county superintendent of schools shall call the recall election by posting election notices in three public places in the district at least 35 days before the election, and by publishing a notice of the election in the district pursuant to Section 6063 of the Government Code. If there is no newspaper of general circulation published in the district, notice need not be published.

1144. Except as provided in this article, the recall election shall be held and conducted by the county superintendent of schools having jurisdiction in substantially the same manner as elections held under Article 2 of this chapter and under Chapter 6 of this division.

1145. The county superintendent of schools may consolidate recall elections of two or more governing board members.

1146. Any registered voter of the district, except the governing board member whose recall is sought, may become a candidate for election at a recall election in the manner provided Article 2 of this chapter. The nomination by sponsors or the declaration of candidacy, shall, in addition to the requirements of Article 2, state that the proposed candidate is a candidate in the recall election to succeed the incumbent (naming him) if he is recalled.

1147. If a vacancy occurs in the office of the member sought to be recalled after a recall petition is filed for verification of

signatures, the election shall nevertheless proceed as provided in this article.

1148. The county superintendent of schools having jurisdiction shall mail to each registered voter within the district a sample ballot on which there shall be printed in not more than 200 words the statement of the grounds on which the recall is sought set forth in the recall petition. Upon the same ballot there shall also be printed, in not more than 200 words, any statement submitted by the member sought to be recalled justifying his course in office.

1149. There shall be printed on the recall ballot, as to every member whose recall is sought, the following question: "Shall (name of person against whom the recall petition has been filed) be recalled from the office of (title of the office)?" following which question shall be the words "Yes" and "No" on separate lines, with a blank space at the right of each, in which the voter shall indicate, by stamping or writing a cross (+), his vote for or against the recall.

1150. On the recall ballots, under each question, there shall be printed the names of the candidates to succeed the incumbent if he is recalled. Following each list of candidates, the ballot shall provide one blank line with a blank square following, to allow the voter to write in a name not printed on the ballot. When the recall election is held on the third Tuesday in April of an odd-numbered year, the candidates for the office to succeed the incumbent if he is recalled shall be listed separately from the candidates to succeed governing board members whose recall is not sought.

1151. On the recall ballots there shall be printed the same statements which were printed on the sample ballots.

1152. No vote cast in the recall election shall be counted for any candidate for the office unless the voter also voted for or against the recall of the person sought to be recalled from that office.

1153. If a majority or exactly half of those voting on the question of the recall of any incumbent from office vote "No," the incumbent shall continue in office. If a majority vote "Yes," the incumbent shall be deemed recalled from office, upon the qualification of his successor.

1154. The inspector of the election shall deliver the returns to the county superintendent of schools having jurisdiction. At the time and place fixed in the notice of the election, the county superintendent shall publicly canvass the returns and declare the results. If a majority of the votes cast favor the recall of the member, the county superintendent shall declare the candidate who has received the highest number of votes for the office elected for the remainder of the term and shall issue a certificate of election to him. If the elected candidate fails to qualify within 10 days after receiving the certificate of election, the office shall become vacant and shall be filled as provided in Article 4 of this chapter.

Article 4. Vacancies

1161. Vacancies on school district governing boards are caused by any of the events specified in Section 1770 of the Government Code, or by a failure to elect. A vacancy resulting from resignation occurs when the written resignation is filed with the county superintendent of schools having jurisdiction over the district.

1162. When such a vacancy occurs prior to January 1st of an odd-numbered year, the remaining members of the board shall appoint an eligible person to hold the office until the following June 30th. If the remaining members of the board fail to fill the vacancy within 60 days, the county board of education having jurisdiction shall appoint a person to fill the vacancy and shall immediately thereafter transmit the name of the appointee to the county superintendent of schools having jurisdiction over the district. At the next regular election for governing board members, in addition to filling the offices of members whose terms are expiring, an election shall be held to fill the vacancy for the unexpired term.

When such a vacancy occurs between January 1st and June 30th, inclusive, of a school year, the remaining members of the board shall appoint an eligible person to hold the office for the unexpired term or until June 30th of the next succeeding odd-numbered year, whichever occurs first. If the remaining members of the board fail to fill the vacancy within 60 days, the county board of education having jurisdiction shall appoint a person to fill the vacancy. At the regular election for governing board members held in such succeeding odd-numbered year, in addition to filling the offices of members whose terms are expiring, an election shall be held to fill the vacancy for the remainder of the unexpired term.

1163. When vacancies exist in a majority of the positions on the governing board of any school district the county superintendent of schools having jurisdiction, with the approval of the county board of education, may call a special election within the district at which election the vacancies shall be filled. Those elected shall fill out the unexpired terms to which they were respectively elected. If called, the election shall be held and conducted by the county superintendent of schools in as nearly the same manner as is practicable as are elections of governing boards.

1164. If for any reason vacancies should occur in all of the offices on any school district governing board, the county superintendent of schools having jurisdiction shall have all the powers and perform all the duties of the governing board until one or more members are appointed and qualified.

1165. Whenever any of the offices on any school district governing board is vacant, the remaining governing board member or members, if any, and any governing board member or members appointed to fill the vacancies or elected, who have qualified, shall have all the powers and perform all the duties of the governing board.

Article 5. Corrupt Practices

1171. The offering of any valuable thing to any member of the governing board of any school district, with the intent to influence his action in regard to the granting of any teacher's certificate, the appointment of any teacher, superintendent, or other officer or employee, the adoption of any textbook, or the making of any contract to which the board of which he is a member is a party, or the acceptance by any member of the governing board of any valuable thing, with corrupt intent, is a misdemeanor.

1172. Any contract or appointment obtained from the governing board of any school district by corrupt means is void.

1173. Any person may be compelled to testify in any lawful investigation or judicial proceeding against any person who is charged with any offense described in Sections 1171 or 1172.

1174. No member of the governing board of any school district shall be interested in any contract made by the board of which he is a member.

1174.5. Except as provided in Section 1175, no contract or other transaction entered into by the governing board of any school district is either void or voidable under the provisions of Section 1174, nor shall any member of such board be disqualified or deemed guilty of misconduct in office under said provisions, if the circumstances specified in the following subdivisions exist:

(a) The fact of such interest is disclosed or known to the governing board and noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract or transaction in good faith by a vote sufficient for the purpose without counting the vote or votes of such interested member or members, and

(b) The contract or transaction is just and reasonable as to the school district at the time it is authorized or approved.

1175. The provisions of Section 1174.5 shall not be applicable if the circumstances specified in any of the following subdivisions exist:

(a) The contract or transaction is between the school district and a member of the governing board of that district.

(b) The contract or transaction is between the school district and a partnership or unincorporated association of which any member of the governing board of that district is a partner or in which he is the owner or holder, directly or indirectly, of a proprietorship interest.

(c) The contract or transaction is between the school district and a corporation in which any member of the governing board of that district is the owner or holder, directly or indirectly, of five percent (5%) or more of the outstanding common stock.

(d) A board member is interested in a contract or transaction within the meaning of Section 1174, and without first

disclosing such interest to the governing board at a public meeting of the board, influences or attempts to influence another member or members of the board to enter into the contract or transaction.

1175.5. The question of the validity or invalidity of a contract or other transaction entered into by the governing board of any school district where a member of the governing board of that district is interested in such contract or transaction, as well as the question of disqualification or misconduct in office of such interested member, shall be exclusively governed by the provisions of the Education Code which are hereby declared to and shall supersede (1) any and all provisions of law contained in any code or law of this State, except those which specifically refer to members of the governing board of school districts and which might otherwise be applicable and (2) any and all provisions of law contained in any charter or ordinance of a city, county or city and county, which might otherwise be applicable.

1176. A board member shall not be deemed to be interested in a contract within the meaning of Section 1174 of this code solely by reason of his membership in a nonprofit corporation formed under the Agricultural Code, or in a nonprofit corporation formed under the Corporations Code for the sole purpose of engaging in the merchandising of agricultural products providing that the fact of such membership is disclosed or known to the governing board and noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract in good faith by a vote sufficient for the purpose without counting the vote of such member.

1176.5. In a school district which during the preceding fiscal year had an average daily attendance of 70 or less, a member of the governing board may receive a reasonable compensation from the district for necessary work and labor performed by him for the district in repairing the schoolhouse, fences, and other property belonging to the district, or in furnishing wood or other necessary supplies. In all such cases the requisition drawn in his favor in payment of services or supplies shall be signed by the other members of the governing board and shall be subject to approval by the county superintendent of schools.

1177. Any contract made in violation of Sections 1174 or 1176.5 is void.

Article 6. Personal Liability of Governing Board Members

1181. No member of the governing board of any school district shall be held personally liable for accidents to children going to or returning from school, or on the playgrounds, or in connection with schoolwork.

No member of the governing board of any school district shall be held personally liable for the death of, or injury to, any pupil enrolled in any school of the district, resulting from

his participation in any classroom or other activity to which he has been lawfully assigned as a pupil in the school unless negligence on the part of the member of the governing board is the proximate cause of the injury or death.

CHAPTER 5. BOARDS OF EDUCATION

Article 1. Districts Governed by Boards of Education

1201. Any unified school district which is coterminous with or includes within its boundaries a chartered city or city and county shall be governed by the board of education provided for in the charter of the city or city and county. Sections 924, 1102, 1105, 1111, 1119, 1131, 1161, and 1162 shall not apply to such unified school districts, except as follows:

(a) As provided in the charter of the city or city and county.

(b) If the charter of the city or city and county fails to provide for a board of education or for any or all of the matters specified in Sections 1223, 924, 1102, 1105, 1111, 1119, 1131, 1161, and 1162 shall apply as to the matter not provided for in the charter.

1202. A school district, a portion of which is embraced within the limits of any city governed by a charter proposed and adopted as provided by Section 8 of Article XI of the Constitution, may be subject to, controlled, and governed by the provisions of the charter relating to and providing for the management of public schools in the manner hereinafter in this article provided, upon approval of a majority of the electors of the districts voting at a regular biennial school district governing board member election.

The governing board of any such school district may, in the resolution specifying the order of any such regular governing board member election, require that the question of whether the district shall be governed by the provisions of the charter be submitted to the voters of the district.

If the governing board so requires, the ballots used at the election shall contain the words "Shall the (name of district) be governed by the charter of the City of _____?" and the words "Yes" and "No" so placed that the voters may clearly indicate their choice in this connection.

If it appears from the returns that a majority of the votes cast on the proposition is in favor of the proposal, then the county superintendent of schools having jurisdiction shall certify the result to the board of education provided for in the charter of the city. From and after the date of the certificate the school district shall be governed by the provisions of the charter relating to the establishment, management, and control of the public schools, and all of the qualified electors residing in the district, whether residing within or without the boundaries of the city, shall be entitled to vote for members of the board of education at any election held for that purpose.

1202.5. If any school district or portion of any school district is embraced within the corporate limits of a city having a charter, and the electors of the school district have participated in and voted at any school election held subsequent to the adoption of and under the provisions of the charter, they shall be deemed to have submitted to be governed in all matters relating to the management of public schools within the school district or high school district as fully and to all intents and purposes as though the electors of the school district or high school district had by their votes elected to be governed by the provisions of the charter.

1203. If the charter of any city provides for or has within two years prior to January 1, 1955, provided for a board of education of five members of a unified school district, and said charter has been or is hereafter amended so that it fails to provide for a board of education, a new board of education composed of five members is created under this section immediately upon the effective date of such amendment; the positions thereto shall be filled by appointment of the county superintendent of schools. The terms of the members first so appointed shall expire the last day of June of an odd-numbered year next following the effective date of such charter amendment, and an election shall be held for the members of such board at the time fixed by law for the regular election of members of governing boards of school districts, and the members so elected shall assume office on the first day of July following. If the effective date of such charter amendment is such that a legal election for board members cannot be held as aforesaid prior to the first day of July of an odd-numbered year next following such charter amendment, then the county superintendent of schools shall again appoint the members of such board who shall assume office on the first day of July as aforesaid. The terms of the board members who take office on the first day of July as aforesaid and thereafter shall be as follows:

(a) If such members were elected, the three receiving the largest number of votes shall serve for four-year terms, and the remaining two members shall serve for two-year terms; and all subsequent members shall serve for four-year terms.

(b) If such members were appointed, the county superintendent of schools, upon making the appointments, shall designate three members to serve for four-year terms, and two members to serve for two-year terms.

Except as herein otherwise provided, the members of the board shall be elected at the last time fixed by law for the election of members of governing boards of school districts prior to the commencement of a new term of office. If a general municipal election is to be held within 60 days prior to the time when an election for board members would be held as aforesaid, the board of education may, by resolution filed with the governing body of such city at least 60 days prior to such municipal election, call the school district election to

coincide with the municipal election and request the governing body of such city to consolidate such elections in that portion of the school district which lies within such city, and the governing body of such city shall order such elections to be consolidated and to be held as are consolidated elections under the provisions of the Elections Code relating to consolidated elections, in which event the school district shall simultaneously with the holding of such consolidated election conduct an election in any portion of the district not included within such municipality. In the event of the holding of such consolidated election, the school district shall reimburse the city for its proportionate share of the costs of conducting such consolidated election in an amount to be agreed upon between the governing bodies of such school district and such city.

1204. The governing board of any elementary school district having an average daily attendance of 1,000 or more pupils and an assessed valuation of twenty million dollars ($20,000,000) or more may, and upon petition signed by 25 percent of the heads of families resident in the district, shall order an election to determine whether or not, it shall have the rights, powers, and duties of a city board of education and whether or not the district shall for all purposes be deemed to be a district governed by a city board of education.

If the governing board of the district consists of three members, there shall be elected at the election, to take office if the proposal for change in the rights, powers, and duties of the board is approved, two additional members to the board. If the change is approved by a majority of the qualified electors voting on the proposition at the election, the board shall have the rights, powers, and duties of a city board of education, and the district shall for all purposes be deemed to be a district governed by a city board of education. Also, if the change is so approved, the two additional board members shall take office, the one receiving the highest number of votes to serve until the first day of July following the second succeeding regular election at which board members are elected, and the one receiving the next highest number of votes to serve until the first of July following the next such regular election. Thereafter, the governing board of the district shall consist of five members elected in the manner prescribed for other school districts for terms of four years and until their successors are qualified, provided that vacancies shall be filled in the manner provided for unified school districts.

1205. Whenever a unified school district has within its boundaries a chartered city or a city of the first to the fifth classes, inclusive, or whenever the average daily attendance of a unified school district is 1,500 or more, for all purposes the district shall be deemed a city school district governed by a city board of education and the governing board thereof shall be deemed a city board of education.

1206. When outside territory has been annexed to a city for school purposes, the outside territory shall be deemed to

be a part of the city for all matters connected with the school department of the city, for the annual levying and collecting of the property tax for the school fund of the city, and for all purposes specified in Sections 21701 to 21801, inclusive, and Sections 21803 to 22152, inclusive.

The last assessment roll made by the county assessor shall be the only basis of taxation for the school district on the property outside the corporate limits annexed for school purposes.

Article 2. Elections

1221. Boards of education are elected in cities under the provisions of the laws governing the respective cities, except as otherwise provided in this chapter.

1222. Whenever the charter of a city comprising in whole or in part an elementary school district, fails to provide for the manner in which, the times at which, and the terms for which the members of the board of education of such city are appointed, and for the number which shall constitute such board, the governing board of the elementary school district within which the city is located or with which the city is coterminous is the board of education of the city.

1223. Except as provided in Section 1222, whenever the charter of any city fails to provide for the manner in which, the times at which, or the terms for which the members of the city board of education shall be elected or appointed, for their qualifications, removal, or for the number which shall constitute such board, the provisions of this division shall apply to the matter not provided for.

1224. The members of any elective city board of education shall be elected at large from the territory within the boundaries of the school district or districts which are under the jurisdiction of the city board of education, whether sitting as a board of education, high school board, or junior college board, and any qualified elector of the territory shall be eligible to be a member of such city board of education.

When outside territory has been annexed to a city for school purposes it shall be deemed a part of the city for the purpose of holding the general municipal election, and shall form one or more election precincts, as may be determined by the legislative authority of the city. The qualified electors of the annexed territory shall vote only for the board of education or the board of school trustees.

1225. In any school district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, the governing board shall be composed of seven members holding office numbers 1, 2, 3, 4, 5, 6, and 7, and shall be elected at large at the same time and in the same manner as the members of the city council of said city, and shall serve for a term of four years. The four members of such board whose terms of office expire July 1, 1947, shall be considered as holding office numbers 1, 3, 5, and 7

(such members within 15 days after the effective date of Chapter 725 of the Statutes of 1945 to determine by lot at a regular board meeting the number of the office each holds), and the remaining offices shall be known as office numbers 2, 4, and 6 (to be allocated by lot in the same manner as hereinbefore provided for office numbers 1, 3, 5, and 7). All such members' terms shall commence on the first day of July next succeeding their election.

1225.5. Notwithstanding the provisions of Section 1130, when a unified school district is formed pursuant to Chapter 9 (commencing with Section 3101) of Division 5 which includes a city school district having a city board of education as provided under Section 1225 of this code, the unified school district shall be governed by said city board of education and the governing board members thereof shall continue in office for the remainder of their terms as elected pursuant to the provisions of Section 1225.

1226. Elections of members of city boards of education, primary, general, or recall, may be consolidated with municipal elections, primary, general, or special, in accordance with the provisions of Chapter 4 of Part 2 of Division 12 of the Elections Code. In event of consolidation, the cost and expense of the election shall be apportioned between the city and districts, elementary, high school, or junior college, as provided in Section 1227.

1227. In those cases in which the boundaries of the school district, high school district, or junior college district, governed by a city board of education, are not coterminous with the boundaries of the city, and where elections, either primary, general, or recall, of members of the board of education are by the provisions of the laws governing the cities held at times other than on the day of municipal elections, general or special, the cost and expense of the district elections shall be a legal charge against the funds of the district or districts governed by the board of education. The city shall be reimbursed by the district or districts for its actual cost and expense incurred in the conduct of the election or elections. The cost and expense of conducting the election in territory common to two or more districts shall be borne by the districts in equal shares. In territory within a single district the cost shall be borne by the district.

In those cases in which the school district, high school district, or junior college district is governed by a city board of education, and elections, either primary, general, or recall, of members of the board of education are by the provisions of the laws governing the cities held on the same day as municipal elections, general or special, a proportionate part of the actual cost and expense of the election shall be a legal charge against the school districts governed by the board of education. The city shall be reimbursed for the proportionate cost and expense incurred in the conduct of the election. The cost and expense of the elections within the boundaries of the city shall be

apportioned between the city and the districts in the ratio that the total number of offices to be filled and propositions to be voted upon by the electors of the city and the school district or districts, respectively, bears to the total number of offices to be filled and propositions submitted. The cost and expense of the election in territory outside of the municipal boundaries shall be borne by the districts affected. As between the districts, costs and expense shall be apportioned as follows: In territory common to two or more districts the cost of conducting the election shall be borne in equal shares, and in territory within a single district the cost shall be borne by the district.

1228. An election for members of the governing board of a junior college district which has been divided into wards as provided in Section 1127 may be held, at the discretion of the governing board, on the same date and in the same manner as the city election for any chartered city located within the boundaries of the junior college district. Such election when held shall be conducted by the chartered city on behalf of the junior college district with the expenses of the election within the boundaries of the city apportioned between the city and the school districts in the manner prescribed by Section 1227.

Where a city charter does not specify a date for such elections, city boards of education may, by unanimous vote, determine that governing board member elections for that district shall be held on the date prescribed for the regular biennial school district governing board member elections, in which event the provisions of Chapter 6 of Division 4 of this code relating to the consolidation of governing board member elections shall apply.

1229. If a unified district governed by a board of education of five members includes a chartered city, the charter of which provides for a board of education, the members of which are to be elected pursuant to this code and to hold office for the terms provided by this code, and three members of such board of education were elected to hold office for a term expiring during the school year commencing on the date the district was formed for all purposes, the office of three members of the board of education shall be filled at the first election of governing board members following such date of formation for all purposes.

The term of office of such three members shall be determined by lot. The term of one member shall expire on June 30th of the next succeeding odd-numbered year following his election; and the terms of two members shall expire on June 30th of the second succeeding odd-numbered year following their election. The persons elected to succeed such three members shall hold office for four years.

In a unified school district formed pursuant to Chapter 10 (commencing with Section 3101) of Division 5 which includes a chartered city, the governing board of the district shall be the board of education of such city or city and county; provided, that all qualified electors residing within the unified

school district are eligible to vote at all elections held for the election of members of the city board of education and any elector residing in the district, or in a trustee area if the district is divided into trustee areas, is eligible to serve as a member of said board.

In the event a unified district includes a chartered city and the charter does not provide for a method of selecting the governing board of education of the city or the charter provides that this code shall apply, the governing board of the unified district shall be elected at large or by trustee areas, as designated by the unification proposal, and any elector residing in the district, or in a trustee area if the district is divided into trustee areas, is eligible to serve as a member of the board.

Article 3. Officers and Agents

1231. In any school district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, each member of the city board of education shall receive as compensation for his services the sum of fifty dollars ($50) for each meeting of the board actually attended, not to exceed five hundred dollars ($500) per month. In any school district which is situated wholly or partly within a city containing a population of over 250,000 and less than 1,900,000 according to the 1950 federal census and which is not a city and county, each member of the city board of education may receive as compensation for his services the sum of twenty-five dollars ($25) for each meeting of the board actually attended, not to exceed one hundred dollars ($100) in any month. A member may be paid for any meeting when absent if the board by resolution duly adopted and spread upon its minutes finds that at the time of the meeting he is performing services outside the meeting for the school district or districts. The compensation shall be a charge against the funds of the school district. If the city board of education is the governing board of more than one school district the compensation shall be charged against and paid by the respective school districts in the same proportion as the salary of the city superintendent of schools is charged against them. Compensation shall be reduced by an amount equal to any salary or compensation paid to the members of the city board of education from any funds of the city.

1232. In any school district organized under the provisions of Section 1974 and which is also a high school district, and which districts are governed by a board of school trustees, and which districts have an average daily attendance in the elementary school district of at least 800, as shown by the last report of the principal of schools in the elementary school district, on file in the office of the county superintendent of schools, the trustees of the school district may appoint a clerk, who shall not be one of their own number, to act for the elementary district trustees and the high school district trustees

to hold office at the pleasure of the board of trustees. The board may fix the salary of the clerk at a sum not exceeding twenty-five dollars ($25) per month for the two districts, which shall be paid in the same manner and from the same funds as other incidental expenses of the districts are paid.

1233. In each city school district governed by a city board of education, the board may employ a city superintendent of schools and such associate superintendents of schools, and deputy or assistant city superintendents of schools as it deems necessary, and may fix and order paid their compensation, unless otherwise prescribed by law. Nothing contained herein shall be construed as prohibiting the board of education of the district from providing protection against such liability partly

1310. The governing board of a district having 500 or less average daily attendance during the preceding fiscal year may, except where the precincts of the district are being used for a high school district or junior college district election, designate polling hours less than 12 hours, but in no case less than six hours. When less than 12 hours are specified the polls shall not be opened before 9 o'clock a.m. nor kept open after 8 o'clock p.m.

1311. The governing board of any school district may subdivide the district into precincts for the holding of elections, and may change and alter the precincts from time to time. The board shall number the precincts consecutively and each precinct shall for the purpose of any school district election be known by the number designated. If the governing board does not subdivide the district into precincts, the entire district shall constitute one precinct.

If the governing board or boards concerned fail to designate the precincts in the specification of the election order, or, in the case of a consolidated election, fail to notify the county superintendent of schools of their decision as to precincts within 60 days preceding the election, the county superintendent of schools having jurisdiction may subdivide the district or area into precincts and number them consecutively.

1312. The governing board of the district shall designate one polling place in each precinct, which shall be a public school building if there is one in the precinct.

When a consolidated election is required to be held in any district or area, the governing boards of the districts concerned shall agree upon the polling places and shall inform the county superintendent of schools of their decision.

If the governing board concerned fails to designate the polling places in the specification of the election order, or if, in a consolidated election, the boards concerned fail to notify the county superintendent of schools of their decision as to polling places within 60 days preceding the election, the county superintendent of schools having jurisdiction shall designate them.

1313. Whenever by this code the governing board of any school district is authorized or required to prepare for, hold or conduct any election in any school district governed by it, such governing board may contract with the county clerk, or with the registrar of voters if such office has been established in the county, for the performance of any or all of the duties incident to the preparation for and holding of such election.

Article 2. Order and Call of Elections

1321. The act authorized by this code of any officer, board, county committee, group of electors, or any other persons or agencies which commences an election proceeding, and any mandatory provision of this code requiring that an election be held, is an "order of election."

1322. Whenever a valid and verified petition, authorized by this code and requesting that a school election be held in any school district or in territory contained in one or more school districts, is received by the officer or board designated by law to receive the petition, such petition shall be deemed an order for calling such election unless the officer or board is by law authorized to take some action upon the petition other than ordering the election requested in the petition. If an election is ordered, the county superintendent having jurisdiction shall prepare a resolution setting forth the specifications required in Section 1323 as preliminary procedure to the call of such election.

1323 Whenever an election is ordered, the governing board of the district or the board or officer authorized by this code to make such designations shall, concurrently with or after the order of election but not less than 75 days prior to the date set for the election, by resolution delivered to the county superintendent of schools specify the following, or such of the following as he or it may have authority to designate.

(a) The date of the election.

(b) The purpose of the election.

(c) The election precincts.

(d) The polling places.

(e) The polling hours.

The resolution or resolutions shall be known as "specifications of the election order" and shall set forth the authority for ordering the election, the authority for the specification of the election order and the signature of the officer or the clerk of the board by law authorized to make the designations therein contained.

1324. The county superintendent having jurisdiction shall at least 120 days prior to the date of a governing board member election consolidated pursuant to Section 1331 of this code, notify the governing boards concerned of the order of consolidation of governing board elections under his jurisdiction. Such notice of consolidation shall be given in writing.

1325. At least 60 days prior to the date specified for the holding of any school election, the county superintendent of schools shall deliver to the county clerk or registrar of voters, if such office has been established in the county where the election is to be held, copies of:

(a) The order of election.

(b) If the election is to be consolidated, the order of consolidation.

(c) The official notice of election.

1326. Any school district election ordered to be held in accordance with the provisions of this code shall be called by the county superintendent of schools having jurisdiction of the election by causing the:

(a) Posting of notices of elections.

(b) Publication of notices of elections.

(c) Delivery of a copy of the official notice of election to the county clerk or registrar of voters at least 60 days prior to the date of the election.

Article 3. Consolidation of Elections

1331. School district governing board member elections for two or more school districts of any type to be held in the same district or area on the same day shall be consolidated so that a person entitled to vote in both or all of such elections may do so at the same time and place and using the same ballot.

When a consolidated election is required by this section to be held, the basic unit for conducting the election shall be the

elementary district, and the county superintendent of schools having jurisdiction over the elementary districts affected shall order the consolidation of governing board elections at least 120 days prior to the date of the election, by notifying in writing the governing boards concerned that a consolidated election is required to be held.

1332. When a consolidated school district governing board member election is required to be held there shall be as many separate lists of candidates as there are school districts for which governing board members are to be elected. Each list of candidates shall be headed by the name of the school district for which the persons listed are governing board member candidates. The name of each school district shall be printed in capital letters, and shall be separated from the list of candidates beneath it by a line. The names of the school districts with the list of candidates for governing board member of each district following each name shall be arranged in the following order, as the case may require:

(a) First, elementary school district; second, high school district; third, junior college district, if there be one; or

(b) First, unified district; second, junior college district; or

(c) First, high school district; second, junior college district.

The names of the candidates for the office of governing board member of one district shall not be separated from each other on the ballot by the names of candidates for governing board member of another district, and the list of candidates for each district shall be separated from the other lists by two double rules, one below the list of candidates and one above the name of the district which precedes the list. Within each series or list the order of candidates' names shall be alphabetical, except the names of the incumbents, so designated, shall appear first in alphabetical order on the ballot. The name of each candidate shall be printed or typewritten on the ballot with a blank square after each name in which the voter may place his cross (+). Following each list of candidates, the ballot shall provide at least as many blank lines, with blank squares following, as there are members to be elected in the particular school district concerned.

Candidates for office in each school district shall be listed on the ballot as follows, whether on a separate ballot for the district or on the list for the district on a consolidated ballot:

(a) The candidates shall be placed on a single list on the ballot regardless of how many members are to be elected;

(b) In an election held under Section 1120 to elect additional governing board members, the candidates for the new offices shall be listed separately from the candidates for the existing office and shall be voted for separately;

(c) When an election to recall a governing board member is held on the third Tuesday in April, the candidates for the office to succeed the incumbent if he is recalled shall be listed

separately from the candidates to succeed governing board members whose recall is not sought.

1333. Whenever any school district election is scheduled to be held on the same day, in the same territory, or in territory that is in part the same, as an election or elections called to be held by any other district, city, county or other political subdivision, the school district election may be either completely or partially consolidated with such election or elections pursuant to the provisions of Chapter 4 of Part 2 of Division 12 of the Elections Code.

Such consolidation shall be effected by the county superintendent of schools having jurisdiction of the school district upon receipt of both of the following:

(a) Written request for such consolidation by the governing board of the school district in which the election is to be held

(b) Written approval of consent by the governing body of the other political subdivision or subdivisions holding an election or elections.

1334. If any school district election is completely or partially consolidated with any other election, the notice of election need not set forth the precincts, place or places of holding the election, or the names of the officers appointed to conduct the election, but may instead state that the precincts, place or places of holding the elections and officers appointed to conduct the election shall be the same as those provided for such other election within the territory affected by the consolidation and set forth in the ordinance, order, resolution, or notice calling, providing for or giving notice of such other election, and reference shall be made to such ordinance, order, resolution, or notice by number and title or date of adoption, or by date or proposed date of publication and the name of the newspaper in which publication has been or will be made, or by any other definite description, except that no such reference need be made if the election is completely or partially consolidated with a statewide election.

1335. Within the territory affected by the order of consolidation the election precincts, polling places, voting booths and polling hours shall, in every case, be the same and there shall be only one set of election officers in each of the precincts. When the returns of elections consolidated pursuant to Chapter 4 of Part 2 of Division 12 of the Elections Code are required to be canvassed by different canvassing boards, the elections shall be conducted separately in the same manner as if they had not been consolidated, except as provided in this section.

1336. In the event of consolidation of any school district election with any other election the provisions of law governing such other election with respect to the manner of marking ballots shall also apply to the school district election consolidated therewith.

1337. Except as otherwise provided by Chapter 4 of Part 2 of Division 12 of the Elections Code, the county superin-

tendent of schools having jurisdiction shall canvass the returns of any school district election consolidated with any other election pursuant to Section 1333 of this code.

1338. Except as otherwise provided by Chapter 4 of Part 2 of Division 12 of the Elections Code, in any school election consolidated with any other election as provided in Sections 1333 to 1338, inclusive, of this code, the county superintendent of schools having jurisdiction shall certify the results of the school election as provided in Article 9 of this chapter.

Article 4. Election Notice

1341. As used in this chapter "formal notice" means the notice of election which is required to be published and posted in public places, and "card notice" means the notice of election which is required to be mailed to the registered voters of the area in which the election is to be held.

1342. The formal notice of election for any school district election shall be prepared by the county superintendent of schools and shall contain the following:

(a) The date of the election.

(b) The purpose of the election.

(c) The designation of election precincts.

(d) The location of the polls.

(e) The hours during which the polls will be kept open.

(f) The day and hour when the election returns will be canvassed by the county superintendent of schools which shall be within 24 hours after the deadline for the receipt of the absentee ballots.

(g) The place where the election returns will be canvassed.

(h) Instructions for obtaining absent voter ballots.

(i) The deadline for the receipt of absentee ballots.

1343. As an alternative to publication by newspaper pursuant to Section 1344, publication of formal notice may be effected pursuant to this section. Not later than 20 days prior to the date of any school district election the county superintendent of schools having jurisdiction shall cause to be posted the formal notice of the election in public view at:

(a) Every schoolhouse in the territory, district or districts in which the election is to be held.

(b) At three public places in the territory, district or districts.

(c) At each polling place designated for the election if any such polling place be other than a public school.

1344. Except where the procedure prescribed by Section 1343 is utilized, and except as otherwise provided for consolidated elections, the county superintendent of schools having jurisdiction over any school district election shall cause formal notice of such election to be published in a newspaper of general circulation published within the district. If there is no newspaper of general circulation published in the district, notice need not be published.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or oftener, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient.

The first publication shall be made not more than 60 days, and the last publication shall be made not less than seven days, prior to the date set for the election.

Proof of such publication may be by affidavit.

1345. In the case of any school district election called or conducted under the provisions of this code, except as hereafter provided in this section, the county clerk, or the registrar of voters if such office has been established, of the county in which the majority of the territory of the district is located, shall, at least 30 days before the day fixed for the election, mail to each registered voter residing within the district, a card designating the polling place and time of the election and containing a statement of the purposes of the election.

In any district or territory located wholly or partially in a county with a population of less than 60,000 as determined by Section 28020 of the Government Code, the governing board of the school district, rather than the county clerk or registrar of voters, shall mail the card notice required in this section.

Article 5. Precinct Election Officers

1351. The governing board of the school district in which the election is to be held shall appoint the precinct election officers after checking the eligibility of such election officers with the clerk or registrar of voters.

When a consolidated election is required to be held in any district or area the governing boards of the districts concerned shall agree upon the persons to be appointed as election officers for the precincts in the districts or area and shall inform the county superintendent of schools having jurisdiction of their decision.

If any governing board fails to appoint some or all of the election officers, or if, in the case of a consolidated election the governing boards of the districts concerned fail to agree upon the election officers, by the 60th day preceding the election, the county superintendent of schools having jurisdiction shall appoint them.

1353. The precinct election officers for any school district election shall be an inspector and two judges. In addition, the officer or board appointing the precinct election officers may appoint not more than two additional judges of election for any precinct.

1354. In the event some or all of the election precinct officers are not present at the time for the opening of the polls, the registered voters present may appoint substitutes for them. The substitutes, together with any inspector or judge appointed

for the election who is present, shall proceed to conduct the election.

1356. Any inspector and judge of election serving at any school district election may be paid out of the funds of the district as compensation for his services as an election officer such sum as the governing board may determine, not to exceed the amount paid from the county treasury to officers of the last preceding general election. In districts in which the polls are not kept open for the same number of hours as at the last general election, the maximum compensation for election officers shall be the sum bearing the same relation to the amount paid to election officers of the last preceding general election as the number of hours the polls were open at the election bears to the number of hours the polls were open in the preceding general election.

Article 6. Voters

1361. As used in this chapter "voter" means registered voter. In any school district election, any resident of the district, who is a voter of the county and who is registered in a general election precinct wholly or partially within the school district at least 54 days before the election, may vote at the election.

1362. A voter shall cast his ballot only in the school district precinct in which his place of residence is located.

1363. Any voter desiring to vote at the election shall write his name and address, or if he is unable to write, shall have his name and address written for him, on a roster of voters provided for that purpose. He shall announce his name and address to one of the election officers, who shall in an audible tone of voice repeat the name and address. If another election officer finds the name on the printed index, and it has not been canceled, he shall in like manner repeat the name and address and deliver to the voter a ballot which he shall be allowed to vote.

The election clerk having in charge the copy of the index to the register or affidavits of registration shall, in like manner, repeat the name and shall write in the ruled space opposite the name, in figures, the line number designating the position of the name of the voter on the roster.

1364. In casting his vote the voter shall stamp or place a cross (+) in the square space immediately following the name of the candidate or candidates of his choice, or his choice of "Yes" or "No" to any proposition printed thereon. If the voter desires to vote for a person whose name does not appear on the ballot, he shall himself write the name of the person in the space provided for that purpose on the ballot. When the voter writes the name of a person on the ballot he may, but need not, place a cross (+) after the name. After properly marking his ballot the voter shall hand it to the inspector who

shall, in the presence of the voter, deposit the ballot in the ballot box.

1365. Any person offering to vote may be challenged at any time before his ballot has been deposited in the ballot box, by any person entitled to vote in the election. The judges of the election shall thereupon administer to the person challenged an oath, in substance as follows: "You do swear (or affirm) that you are a citizen of the United States, that you are 21 years of age, that you have resided in this State one year, in this county 90 days, and in this school district 54 days preceding this election, that you reside in this school district precinct, and that your name is on the great register of this county, and was on the great register of a general election precinct wholly or partially within this school district at least 54 days before this election, and that you have not before voted this day." If he takes the oath prescribed in this section, his vote shall be received, otherwise his vote shall be rejected, and if he has already marked his ballot, it shall be cancelled.

1366. No electioneering shall be carried on within any building in which the polls are located or within 100 feet of any entrance to the building.

Article 7. Election Procedure

1381. In any school district election, the officer or board designating the polling places for the election shall furnish, or cause to be furnished, a sufficient number of places, booths, or compartments at or in which voters may conveniently mark their ballots so that they are screened from the observation of others.

1382. The county superintendent of schools having jurisdiction, at the time that any school district election is ordered, shall in writing, not less than 40 days before the election, officially request the county clerk or registrar of voters of each county or city and county within which the school district is wholly or partially situated to furnish copies not exceeding four, of the index of the registration book, as of the fifty-fourth day preceding the election, for each precinct in the county or city and county contained in whole or in part in the school district.

Upon receipt of the request, the county clerk or registrar of voters shall forward to the county superintendent of schools having jurisdiction the number of copies of the index requested. Copies of the index shall be supplied from any available copies in the custody of the county clerk or registrar of voters. If no copies are available, copies of the index of the registration book or any supplements thereto, shall be prepared by the county clerk or registrar of voters. It shall be arranged in lines so as to give room for at least five candidates for each governing board position for each district participating in the election or room for the propositions or measures to be voted upon in the election The name of the district shall be clearly indicated above the candidates for governing board of that district or the measures or propositions pertaining to that district. It shall be vertically ruled, providing for counting the votes under a tally system. The final column shall have as its heading: "Total votes cast for each candidate, or measure or proposition " At the bottom of the page shall be provided a space for the signatures of the election officers and over these signatures shall be printed the words: "We hereby certify that this is a correct report of the election held in precinct of _____ of _____ school district (or districts, giving names of all districts for which elections are being held) on _____ of _____, 19___."

1385. The county superintendent of schools having jurisdiction shall provide each precinct election board of officers with sufficient envelopes for secured delivery of election returns as provided hereafter:

1387. Subject to the provisions of Sections 1115 and 1332 of this code, the ballot used in any school district governing board election shall be subject to the following requirements:

(a) It shall be printed upon paper of number 4 sulphite bond quality, tinted or colored, and of sub 20 weight, or paper of the same or like quality and weight.

The profession, vocation or occupation so designated shall be the same as appears in the affidavit of registration of the candidate. Notwithstanding any other provision of law, if upon checking the nomination paper the officer in charge of the election finds the wording to be different than that upon the registration affidavit, he shall notify the candidate by registered mail, return receipt requested. The candidate shall within three days from the date of receipt of the notice appear before the officer and reregister to conform with the request for the designation that appears on his nomination paper. If the candidate does not appear within three days the officer shall leave the designation under his name blank (no designation).

The board of supervisors shall at the time and place fixed in the notice hear all persons interested in the matter and may continue the hearing from time to time but for not more than

1794. When a district or part of a district is attached to another district by annexation, transfer, or otherwise, any maximum tax rate previously established for the former district is not thereby transferred to the district to which the territory is attached, except as provided in this article.

1795. When a unified district is formed because the boundaries of an elementary district and a high school district become coterminous, and either or both of the former districts had established a district tax rate in excess of the maximum prescribed by Section 20751, the amount of the excess portion of the rate for either or both districts shall, if the governing board of the unified school district so determines, be continued and added to the maximum rate otherwise prescribed for the unified district for a period not to exceed the remaining number of years for which the excess tax rate was previously authorized.

1796. If a junior college district is formed with boundaries which are coterminous with the boundaries of a single high school district of any type and both districts are thereafter governed by governing boards of identical personnel, and if prior to the formation of the junior college district the high school district had established a district tax rate in excess of the maximum rate prescribed by Section 20751, such excess tax rate shall be continued at the option of the governing boards of the high school and junior college districts as the maximum

combined tax rate of both districts for combined high school and junior college purposes for a period not to exceed the remaining number of years for which the excess tax rate was previously authorized by the voters of the high school district.

Whenever the excess tax rate is continued as the maximum combined rate of both districts and the boundaries of the high school and junior college districts thereafter become noncoterminous as a result of any junior college district organization or reorganization proceedings, the excess tax rate shall be continued at the option of the governing board of the high school district as the maximum tax rate of such district for high school purposes for a period not to exceed the remaining number of years for which the excess tax rate was previously authorized by the voters of the high school district.

Article 8. Disposition of Records, Funds, Property, and Obligations When Districts Are Reorganized

1821. When school districts are created or abolished, or the boundaries thereof changed, the liability to taxation for the outstanding bonded indebtedness of the district is, when not otherwise prescribed by this code, as provided in this article. The authorities whose duty it is to levy taxes for the payment of principal and interest on the outstanding bonds, shall levy the taxes upon the districts affected in such proportions as are provided in or are determined under the authority of this article.

1822. In any action to annex or transfer districts or to transfer territory pursuant to Chapters 3, 4, and 5 (commencing with Sections 2091, 2191, and 2301, respectively) the agreement to annexation or transfer may include a provision for the assumption by the annexed or transferred territory or district of a proportionate share of the outstanding bonded indebtedness of the district to which the territory or district is annexed or transferred, or a provision for the assumption by the district to which the other district is transferred of outstanding bonded indebtedness of such other district or for the assumption by the district to which the territory is transferred of all or a part of the outstanding indebtedness of the district from which the territory is transferred, or any combination of such provisions.

It shall be specified in such a provision whether the assumption of indebtedness is a condition to the annexation or transfer so that the annexation or transfer will be completed only if the indebtedness is assumed by the requisite number of votes at an election for the assumption of the indebtedness held in the territory or district proposed to assume the indebtedness.

1822.1. If the assumption, referred to in Section 1822, is made a condition to the transfer or annexation pursuant to Section 1822, the election for the assumption of indebtedness shall be combined with the election for the transfer or annexation pursuant to Section 1644, or, if no election is required for

the annexation or transfer, the election for the assumption shall be held before the board of supervisors makes its order pursuant to Section 1647. If the assumption is not made a condition of the annexation or transfer, the election for assumption may, if so specified in the agreement, be combined with the election for the transfer or annexation pursuant to Section 1644, or at some other time, in which case the election on assumption shall be ordered, called, held, and conducted pursuant to Section 1644 or 1823, as the case may be.

1822.2. Upon petition of 10 percent of the qualified electors residing in any district wholly included in a new or existing district requiring the governing board of such new or existing district to do so, or upon the adoption of a resolution by the governing board of such new or existing district, the governing board of such new or existing district shall order an election in such district to determine whether it shall assume the bonded indebtedness of the included district.

1822.3. When a portion of a district is included in a new or existing district and the portion remains liable for the bonded indebtedness of the district of which it was a part, the governing board of such new or existing district shall order an election in such district upon receiving a petition of 10 percent of the qualified electors residing in such portion requesting it to do so or upon adopting a resolution of the governing board of such new or existing district, to determine whether the new or existing district shall assume the portion of the bonded indebtedness of the district of which the portion was formerly a part and for which the portion remains liable after being included in the new or existing district. The election shall be called, held, and conducted by the county superintendent of schools pursuant to Section 1644.

1822.4. The indebtedness, referred to Sections 1822, 1822.1, 1822.2, and 1822.3, is assumed if at the election on assumption provided for in such sections two-thirds of the votes cast on the question of assumption favor the assumption.

1823. No territory which comprises the whole or a part of a district and which is made a part of another district or of a new district through any proceeding involving any affirmative action taken by the residents of such territory shall be liable for any of the then outstanding bonded indebtedness of the district of which it is made a part unless such liability is specifically authorized by a vote of two-thirds of the electors of the territory or district voting at an election called for that purpose in accordance with Section 1644.1 or Sections 1822, 1822.1, 1822.2, 1822.3, and 1822.4.

1825. For the purposes of this article "affirmative action" includes but is not limited to the following:

(a) The signing of a petition to organize or reorganize a school district by the electors residing in the territory or district affected, in accordance with this division.

(b) The voting at an election on the question of the organization or reorganization of a school district conducted in the

territory or district affected, in accordance with this division.

(c) Whenever territory which comprises the whole or part of a district and which is made a part of a unified district because of annexation of such territory to the city in which is situated all or part of such unified district by means of an election, such election shall constitute affirmative action taken by the residents of such territory for the purposes of Section 1823. This subdivision applies to any such annexation to a city which was completed on or after November 20, 1952.

1826. When any school district is united or in any manner merged with one or more school districts so as to form a single district by a procedure which does not involve affirmative action by residents of the district, the district so formed is liable for all the outstanding bonded indebtedness of the districts united or merged.

1827. When territory is taken from one school district and annexed or transferred to another by a procedure which does not involve any affirmative action by the residents of the territory, the territory becomes liable to taxation for the bonded indebtedness of the district to which it is annexed.

The board of supervisors of the county in which the territory is situated shall, by order entered on its minutes, within 60 days after the changes, determine what proportion of the outstanding bonded indebtedness of the district from which it was taken was incurred for the acquisition or improvement of school lots or buildings, or fixtures therein, situated in the territory transferred. The district to which the territory was annexed or transferred shall thereupon become liable for the proportion of the indebtedness so determined.

1828. When a portion of a school district is taken from the district and annexed to, transferred to, or included in, any other district, with or without affirmative action taken by the residents within such portion and real property or fixtures of the district from which the portion is taken are situated in such portion, or when a high school district or unified district ceases to maintain a junior college by virtue of its inclusion in a new or reorganized junior college district, the district in which the portion is annexed, transferred or included, or the new junior college district, as the case may be, if it receives the property of the other district pursuant to this division and if it does not assume the bonded indebtedness incurred by the other district on account of the acquisition or improvement of the property, shall pay the other school district for the use of such property as provided in this section.

Within 60 days after the annexation, transfer, or inclusion has been effected, the board of supervisors of the county which has jurisdiction over the district from which the property is taken shall, by order entered upon its minutes, determine what proportion of the then outstanding bonded indebtedness of the school district from which the property was taken was incurred for the acquisition or improvement of the real property and all fixtures therein or thereon. Commencing one year after the

date of the determination, the school district receiving the property of the other district shall pay annually to the other school district for the use of such property an amount equal to the annual amount required for the payment of interest and redemption of the portion of the bonded indebtedness determined by the board of supervisors.

The rate of tax required of the district to provide funds for the making of the payments required by this section shall be in addition to the maximum rate of tax for the district fixed under Sections 20751 and 20803.

1829. Whenever territory is taken from a district of any kind or class, the territory withdrawing shall continue to be liable for such portion of the bonded indebtedness of the district incurred before the withdrawal as it would have been liable for had it not withdrawn.

If the territory is included in a district which assumes a portion of the bonded indebtedness of the district from which the territory was taken or makes payments to the district equal to the principal and interest of such portion of bonded indebtedness as it falls due, such assumption or repayment shall be deemed to fulfill the obligation of the transferred territory with respect to the liability imposed by this section

1830. When any school district is wholly annexed to another district or is included in a new district, all property, funds and obligations of the former district, except for bonded indebtedness, shall accrue to the annexing district or to the new district, as the case may be. Any funds derived from the sale of school bonds issued by the former district shall be used for the acquisition, construction, or improvement of school property only in the territory which comprised the former district or to discharge bonded indebtedness of the former district.

This section does not apply to an annexed district which becomes a component district of its annexing district or the new district.

1831. When the entire territory of a school district is divided and the parts thereof are included in two or more other districts, and when the allocation of funds, property and obligations is not fixed by terms, conditions, or recommendations as provided by law, the funds, property, and obligations of the former district except for bonded indebtedness, shall be allocated as herein provided:

(b) All other property and funds, after all obligations except bonded indebtedness have been discharged, shall be divided pro rata among the districts in which the territory of the former district is included. The basis for the division and allocation shall be the assessed valuation of the part of the former district which is included within each of the districts

1832. When a portion of the territory of a district is withdrawn and annexed to or included in another district or is formed into a new district and a division of funds, property, and obligations is not set forth in terms and conditions or recommendations as provided by law, the funds, property, and obligations of the district from which the territory is taken, except for bonded indebtedness, shall be allocated as herein provided:

The amount so allocable to the junior college district shall be transferred to, and deposited in, the general fund of that district.

(c) The balance remaining in the special reserve fund of the high school or unified district at the end of the last year in which the district maintained a junior college, deposited there by the district governing board to be used for junior college purposes, shall be transferred to the junior college district and deposited in the special reserve fund of that district.

1834. (a) All records of the original school district which are required by law to be kept on file shall be deposited with the governing board of the school district which, after the reorganization has become effective for all purposes, has located within

its boundaries the former office of the superintendent of the original school district.

(b) Records of employees shall be transferred to the school district thereafter employing the personnel or thereafter maintaining the last place of employment.

Article 9. Inclusion of All Elementary Districts in High School or Unified Districts

1861. The Legislature hereby declares as its policy that all elementary school districts shall be included in a high school district or in a unified school district.

1862. The county committee of each county in which there is any elementary school district not included within a high school district shall formulate plans and recommendations to be submitted to the State Board of Education for one of the following:

(a) The formation of high school districts or unified school districts comprising one or more of such elementary school districts and the annexation of any such elementary school dis-

tricts not included therein to the existing high school district or unified school district whose high school is most easily accessible to the pupils of the elementary school district.

(b) The annexation of each of the elementary districts to the existing high school district or unified school district whose high school is most easily accessible to the pupils of the elementary school district.

1863. The county committee of each county in which there is a portion of any elementary school district not included within a high school district shall formulate plans and recommendations to be submitted to the State Board of Education for the annexation or transfer of such portion of such elementary school district to the existing high school district or unified school district whose high school is most easily accessible to the pupils of the elementary school district.

1864. Plans and recommendations submitted to the State Board of Education which include the territory of two or more counties, which provide for annexation or transfer to a district under the jurisdiction of another county, or, which provide for the formation of a joint district shall be concurred in by the county committee of each such county.

1865. When territory has been selected for the tentative preparation of plans and recommendations, the county committee shall hold one or more public hearings in the territory at which any interested person may be heard. Any public hearing may be continued from time to time. Notice of the hearing shall be given in the manner provided in Section 3295. The notice shall contain a general statement of the purpose of the hearing and the time and place thereof.

1866. Plans and recommendations required by this article shall be formulated and submitted by county committees to the State Board of Education on or before December 1, 1957.

1867. The State Board of Education shall consider plans and recommendations submitted to it by a county committee and shall either approve or reject them. If the plans and recommendations submitted by a county committee provide for the inclusion of an elementary district which is coterminous with the boundaries of the county in a high school district or a unified district the State Board of Education may postpone any action until such time as they deem it appropriate for action to be taken.

1868. If the State Board of Education approves plans and recommendations submitted to it by a county committee, it shall enter an order of such approval in its minutes. The order shall describe the boundaries of a new high school district or unified school district and the boundaries as changed in an existing high school district or unified school district.

If the State Board of Education rejects plans and recommendations submitted to it by a county committee, it shall order the county committee to formulate and submit, in the manner provided in this article, new plans and recommenda-

tions to the board within such time as may be determined by the board.

1869. The State Board of Education may, when it deems advisable, refer the recommendation of a county committee relating to a single elementary school district to a board of review consisting of three county superintendents of schools of counties not contiguous to the county in which the school district is located. Such board of review shall be appointed by the Superintendent of Public Instruction. The board of review shall investigate and shall conduct a hearing to be held in the school building maintained by the district in question and the recommendation of the review board shall be filed with the State Board of Education. The recommendation shall be either to approve or to reject the plans and recommendations of the county committee.

1870. If a petition signed by two-thirds of the registered voters residing in any elementary school district, is filed with the State Board of Education within 60 days of the receipt of the plans and recommendations of the county committee affecting such district, protesting the plans and recommendations, the State Board of Education shall reject the plans and recommendations. Prior to being filed with the State Board of Education the signatures on the petition shall be verified by the county superintendent of schools who shall attach his affidavit that the signatures have been verified and that the petition is sufficient.

1871. Upon approval of plans and recommendations submitted to it by a county committee, the State Board of Education shall notify all school districts affected and the board of supervisors and the county superintendent of schools of each county in which any part of the territory affected is situated.

The board of supervisors shall issue the necessary orders and take such other action as set forth in Section 1647.

Article 1. General Provisions

1972. The State Board of Education shall establish minimum standards for the formation of districts which it shall apply in approving or disapproving petitions for the formation of new districts.

1973. When a petition for a new district is to be heard by the State Board of Education pursuant to this chapter the State Superintendent of Public Instruction may, if he deems it advisable, make a survey of the districts or territory proposed to be included in the new district and of the districts contiguous thereto. He shall report the findings of the survey to the State Board of Education together with his recommendations concerning the petition. The cost of the survey shall be borne by the districts proposed to be included in

the new district, and it shall be divided among them in proportion to the assessed valuation of territory of each district proposed to be included in the new district.

1974. Every city organized before September 11, 1957, except a general law city, constitutes a separate school district unless otherwise prescribed in its original city charter. The district shall be governed by the board of education or board of school trustees of the city. Every chartered city organized on and after September 11, 1957, unless otherwise provided in its original charter, constitutes a separate school district if approved by the State Board of Education. The approval shall be by resolution. The State Board of Education shall approve such district only if it has received the favorable recommendation of the county committee and the county superintendent of schools of the county in which the city is situated. Sections 2304 to 2306, inclusive, shall apply to any annexation of territory to a city constituting a separate school district under this section. If the consent of the governing board of the district is first obtained, territory within the exterior boundaries of a city may be withdrawn from the school district of that city and annexed or transferred to an adjoining school district in the manner provided elsewhere in this code for the change of school district boundaries.

1976. Whenever the boundaries of an elementary school district and a high school district become coterminous, the districts shall be merged into a new unified district.

Article 2. Formation of New Elementary, High School, and Junior College Districts From Territory of Existing Districts

1991. A new elementary, high school, or junior college district may be formed pursuant to this article to include all or part of the territory of one or more existing districts of the same kind as the new district or to include territory which is a part of a district not of the same kind as the new district, or both. If a new district is to be formed only from all of the territory of two or more districts of the same kind as the new district, the district shall be formed pursuant to Article 3 (commencing with Section 2021) and not pursuant to this article.

1992. An action to form a new elementary district is initiated upon the filing with the county superintendent of schools of a petition for the new district. The petition shall be signed by at least 25 percent of the registered electors residing in the territory proposed to be included in the new district.

An action to form a new high school district or junior college district is initiated upon the filing with the county superintendent of schools of a petition for the new district signed by either of the following:

(a) At least 25 percent of the registered voters residing in the territory proposed to be included in the new district.

(b) A majority of the members of the governing board of each district which would be components of the proposed new district.

1993. The county superintendent of schools shall, within 20 days after the petition for a new district is filed, examine the petition, and, if he finds it to be sufficient and signed as required by law, transmit the petition to the office of the secretary of the State Board of Education.

1994. When a petition for a new district is received in the office of the secretary of the State Board of Education the secretary shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing he shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each school district whose boundaries would be affected.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

1995. After hearing those who present themselves to speak on the petition and after hearing any findings and recommendations of the State Superintendent of Public Instruction, the State Board of Education shall approve or disapprove the formation of the proposed new district. If the board approves the formation, it shall determine whether the election shall be held only in the territory or district proposed to be included in the new district or whether the election shall be held in the district or in each of the districts from which territory would be removed to form the new districts.

1996. If the State Board of Education approves the formation of the proposed new district the secretary of the board shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall call an election, in the manner prescribed in Division 4 of this code, in the territory or districts as determined by the State Board of Education. The ballot used in the election shall contain the words "For the formation of the new____ ____district" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

The ballot shall contain the words "For the formation of the new _____ district" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice. If a majority of the votes cast in each of the districts is in favor of the new district, it shall be formed.

Article 4. Formation of Consolidated High School Districts

2031. A majority of the registered voters residing in each of two or more elementary, union elementary, or joint union elementary school districts which are part of one or more high school districts, may present to the county superintendent of schools who has jurisdiction over the elementary school districts or a majority thereof, a petition asking for the organization of a consolidated high school district to include all of the territory of the elementary school districts represented in the petition if all of the following conditions exist:

(a) The assessed valuation of the elementary districts totals twenty-five million dollars ($25,000,000) or more.

(e) The high school districts from which territory is withdrawn to form a consolidated high school district shall be left with an average daily attendance in grades 9 through 12 of not less than 500.

The county superintendent shall, within 20 days after receiving the petition, examine the petition and, if he finds it to be sufficient and signed as required by law, submit the petition to the county committee for approval.

2032. Upon the receipt of the petition, the county committee shall consider it and final action taken on the petition to form a consolidated high school district shall be taken only in accordance with the procedures set forth under the provisions of Chapter 10 (commencing with Section 3101) of this

division embodying approval by the State Board of Education and by the electorate of the proposed consolidated high school district subject to the following exceptions:

(a) The county committee shall provide in its plan submitted to the State Board of Education for trustee areas, not to exceed seven, with each trustee area comprising at least one of the component elementary districts.

(b) The ballots used in the election shall contain the words "new consolidated high school district—yes, and new consolidated high school district—no"

(c) Candidates for the position of member of the governing board of the consolidated high school district shall be members of the governing boards of the respective component elementary school districts.

2034. The first governing board of the consolidated high school district shall be elected at an election held separately but simultaneously with the election to form the consolidated high school district.

2035. Any consolidated high school district formed under this article shall be lapsed in the manner provided in Article 1 (commencing with Section 2701) of Chapter 7 of this division, upon failure, within two years after the making of the order specified in Section 1647, to issue bonds in an amount which will produce proceeds sufficient to enable the acquisition of one or more sites and the acquisition or construction of one or more high schools. The procedures necessary to obtain authorization to issue bonds may be consolidated with the procedures for formation of the consolidated high school district.

2036. The allocation and assumption of portions of existing bonded indebtedness and the allocation and transfer of assets of any high school district from which territory is withdrawn in the formation of a consolidated high school district pursuant to this article shall be governed by the applicable provisions of Chapter 1 (commencing with Section 1601) of this division, and Article 7 (commencing with Section 16301) of Chapter 2 of Division 12.

CHAPTER 3. ANNEXATION OF DISTRICTS

2091. Any district may be annexed to a contiguous district of the same kind so that the annexed district ceases to exist and its territory is merged with and becomes a part of the annexing district.

2092. An elementary or high school district may be annexed to a contiguous unified district so that the annexed district ceases to exist and the territory is merged with and becomes a part of the annexing district.

2093. A high school or unified district may be annexed to a contiguous junior college district so that the annexed district becomes a component district of the annexing district.

2094. Whenever provision is made in this chapter for the annexation of one school district to another, two or more school

districts adjoining each other may be annexed simultaneously to a school district contiguous to one or more of the adjoining districts. If the proposed annexation of one of the adjoining districts fails and by reason of the failure any of the districts voting to be annexed would be noncontiguous to the annexing district, the annexation of the district or districts shall be void and of no effect.

2095. An annexation action pursuant to this chapter is initiated upon the filing with the county superintendent of schools of a petition for annexation and an agreement to the annexation.

2096. The petition for annexation shall be signed by 25 percent of the registered electors of the district proposed to be annexed or by a majority of the members of the governing board of that district.

2097. The agreement to the annexation shall be signed by a majority of the members of the governing board of the district to which annexation is proposed. It shall set forth any terms or conditions for the annexation which may have been agreed to by the governing boards of the districts affected thereby. If terms or conditions are included in the agreement, it shall be signed by a majority of the members of each governing board agreeing thereto.

2098. The county superintendent of schools shall, within 20 days after receiving the petition for annexation, examine the petition and agreement and, if he finds them to be sufficient and signed as required by law, order an election to be held in the petitioning district to determine the question. The ballot used in the election shall contain the words "For annexation of the (name of petitioning district) District to the (name of annexing district) District" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

CHAPTER 4. TRANSFER OF COMPONENT DISTRICTS BETWEEN HIGH SCHOOL DISTRICTS OR BETWEEN JUNIOR COLLEGE DISTRICTS

2191. An elementary district may be transferred from one high school district to another and a high school or unified district may be transferred from one junior college district to another pursuant to this chapter.

2192. An action to transfer a component district from one high school or junior college district to another district of the same kind is initiated upon the filing with the county superintendent of schools of a petition for transfer and an agreement to the transfer.

2193. The petition shall be signed by 25 percent of the registered electors residing in the component district or by the governing board of the high school or junior college district of which the component district is a part.

2194. The agreement to the transfer shall be signed by a majority of the members of the governing board of the high

school or junior college district to which it is proposed to transfer the component district.

2195. The county superintendent of schools shall, within 20 days after the filing of the petition for transfer, examine the petition and if he finds it to be sufficient and signed as required by law, transmit the petition to the office of the secretary of the State Board of Education.

2196. When a petition for transfer of a component district is received in the office of the secretary of the State Board of Education the secretary shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing, he shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each school district whose boundaries would be affected by the proposed transfer.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

2197. After hearing those who present themselves to speak on the petition, the State Board of Education shall approve or disapprove the proposed transfer of the component district. If the board approves the transfer, it shall determine whether the election shall be held only in the component district proposed to be transferred or whether the election shall be held in the whole of the high school or junior college district from which the component district would be removed.

2198. If the State Board of Education approves the proposed transfer of the component district, the secretary of the board shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall order an election in the district as determined by the State Board of Education. The ballot used in the election shall contain the words "For the transfer of_____district from the _____ (high school or junior college) district to the _____ (high school or junior college) district" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

CHAPTER 5. TRANSFER OF TERRITORY

Article 1. General Provisions

2301. Whenever a district acquires or leases for a year or more a school site which is contiguous to its boundaries but which is not included in the boundaries of a chartered city, the site is transferred to the district which acquired or leased it. The county superintendent shall certify to the county

board of supervisors that the property has been acquired or leased and the board shall issue the boundary change orders as provided in Section 1647 of this code.

2302. When territory is acquired or leased by a high school or junior college district and is transferred thereto pursuant to Section 2301 the territory is transferred also to a component district of the high school or junior college district.

2303. No proceedings affecting school district boundaries shall operate to exclude a school site from the school district owning the same if after such proceedings are complete the school site remains contiguous to the boundaries of the district. The school site remains contiguous for the purpose of this section although separated from the boundaries of the district by a road, street, stream, or other natural or artificial barrier or right-of-way. Notwithstanding such proceedings the site shall continue to be a part of the district owning or occupying the same, and the buildings and improvements thereon shall remain the property of such district.

2304. Territory annexed to a city which is not contiguous to a school district within the city shall not automatically become a part of any school district within such city pursuant to Section 1974.

2305. When territory is annexed to a city pursuant to the Annexation Act of 1913 (commencing with Government Code Section 35100) or the Annexation of Uninhabited Territory Act of 1939 (commencing with Government Code Section 35300), the territory does not thereby become a part of the school district of the city pursuant to Section 1974 unless the resolution required by Government Code Section 35117 or Section 35306, as the case may be, contains a statement that the annexed territory shall become a part of the school district of the city. A statement to transfer the annexed territory to the city school district shall not be included in such a resolution unless the territory is contiguous to the school district of the city and the governing boards of each of the districts whose boundaries would be changed have agreed in writing to the transfer. If the boundaries of three or more districts would be affected and only one of the districts is not in agreement with the others, the matter may be referred to the State Board of Education whose decision in the matter will be final.

2306. Territory annexed to a city pursuant to Articles 3, 4, 7, and 8 (commencing with Sections 35200, 35250, 35450, and 35470, respectively) of Chapter 1, Part 2, Division 2, Title 4 of the Government Code shall not automatically become a part of any school district within such city pursuant to Section 1974.

2307. Whenever a city is incorporated, except a general law city, the board of supervisors of the county may transfer to the city for school purposes only, the remainder, or any part of the remainder, of the district or districts from which the city was organized, whenever a majority of the electors residing therein petition for such transfer.

The board of supervisors either when the district is formed or subsequently may include more territory than the remainder of the district or districts from which the city was organized, whenever a petition for this purpose is presented to them, signed by the majority of the electors residing in the additional territory.

The territory transferred may be in either the same or a different county than that of the school district to which it is transferred. If the territory transferred lies in a county other than the county in which the school district to which the territory is transferred lies, the school district shall not become a joint school district by reason of the transfer of such territory.

Article 3. Transfer of Territory From One Elementary or Unified District to Another

2361. Any part of an elementary or unified district which is less than the whole of the district may be transferred from that district to another elementary or unified district pursuant to this article.

2362. An action to transfer territory from an elementary or unified district to another elementary or unified district is initiated upon the filing with the county superintendent of schools of a petition for transfer and an agreement to the transfer.

2363. The petition for the transfer of territory shall be signed by 25 percent of the registered electors residing in the territory proposed to be transferred or by a majority of the members of the governing board of the district in which the territory is situated.

2364. The agreement to the transfer shall be signed by a majority of the members of the governing board of the district to which it is proposed to transfer the territory.

2365. The county superintendent of schools shall within 20 days after the filing of the petition and agreement, examine them and, if he finds them to be sufficient and signed as required by law, transmit the petition to the county committee or to the State Board of Education as provided in this section.

In the case of a petition to transfer territory from a unified district formed under provisions in Chapter 10 (commencing with Section 3101) of this division, the petition shall be transmitted to the State Board of Education. In the case of a petition to transfer territory from any other unified district or from an elementary district the petition shall be transmitted to the county committee.

2366. A petition transmitted to the State Board of Education pursuant to this article shall be heard by the board in the same manner as a petition for a new district as provided in Section 1994. After hearing those who present themselves to speak on the petition and after hearing any findings and recommendations by the State Superintendent of Public Instruction, the State Board of Education shall approve or disapprove the proposed transfer of territory. Thereafter, the secretary of

the board shall return the petition to the county superintendent of schools together with a notice of the decision of the state board.

2367. A petition transmitted to the county committee pursuant to this article shall be considered at the next regular meeting of the county committee following the county superintendent's transmittal thereof or at a special meeting called for the purpose, and the consideration may be continued for a period not to exceed 30 days. The county committee shall report in writing to the board of supervisors and to the governing boards of the district affected as to whether in the opinion of the county committee the proposed transfer would adversely affect the school district organization of the county and whether it is compatible with any master plans adopted by the county committee. The report may include also any other matter which the county committee desires to bring to the attention of the board of supervisors in connection with the proposed transfer of territory.

2368. When the State Board of Education has approved a petition for transfer of territory or when the county committee has adopted its report concerning such a petition, the county superintendent of schools shall set the matter for hearing by the board of supervisors at a regular meeting of the board. The county superintendent shall file the petition and agreement with the board together with a copy of a notice containing a general statement of the purpose of the petition, and of the proposed transfer of territory and the time and place when and where the petition will be heard.

At least 10 days prior to the date of the hearing the county superintendent shall send by registered mail a copy of the notice and a copy of the report of the county committee or a statement as to the approval of the State Board of Education to the chief petitioners, if any have been designated, and to each member of the governing board of each school district whose boundaries would be affected by the proposed change, and shall post copies of the notice as provided in Section 1343 or publish a copy of the notice as provided in Section 1344.

2369. After hearing all persons interested in the petition the board of supervisors shall grant or deny the petition or it shall require an election held on the question. If the board grants the petition it shall determine whether all or only a part of the territory petitioned for shall be transferred. If the board requires an election to be held it shall determine whether the election shall be in the whole elementary or unified district from which the territory would be transferred or whether the election shall be only in the territory proposed to be transferred. The county superintendent of schools shall call, hold, and conduct the election in the manner prescribed in Division 4 of this code.

In the case of a petition to transfer territory from a unified district formed under Chapter 10 (commencing with Section 3101) of this division to a contiguous unified district, the

county superintendent of schools shall within 30 days after receiving notice from the State Board of Education that it approves the transfer, call, hold and conduct, in the manner prescribed in Division 4 of this code, an election in the unified school district from which the territory is to be transferred. The ballots at the election shall contain the words "For Transfer—Yes," and "For Transfer—No."

Article 4. Transfer of Part of a Component District From One High School or Junior College District to Another District of the Same Kind

2391. Whenever parts of an elementary district are included in more than one high school district or whenever parts of a high school or unified district are included in more than one junior college district, any part or parts of the component districts may be transferred to the high school or junior college district which includes another part of the same component district pursuant to this article.

2392. An action to transfer a part of a component district from one high school or junior college district to another pursuant to this article is initiated upon the filing with the county superintendent of schools of a petition and agreement for transfer.

2393. The petition shall be signed by 25 percent of the registered electors residing in the part of the district proposed to be transferred or by a majority of the members of the governing board of the high school or junior college district from which the territory would be taken.

2394. The agreement to the transfer shall be signed by a majority of the members of the governing board of the high school or junior college district to which it is proposed to transfer the territory.

2395. The petition shall be acted upon in the same manner as is a petition for transfer of territory pursuant to Sections 2365 to 2369, inclusive.

CHAPTER 7. LAPSATION AND DISSOLUTION OF DISTRICTS

Article 1. Lapsation of Districts

2701. Any school district which has been organized for more than three years shall be lapsed as provided in this article if the number of registered electors in the district is less than six or if the average daily attendance of pupils in the school or schools maintained by the district is less than six in grades one through eight or is less than 11 in grades 9 through 12 or less than 11 in grades 13 through 14.

2702. The attendance of pupils residing in a unified district in high schools in an adjoining state pursuant to Section 10815 or Article 2 (commencing with Section 20151), Chapter 1 of Division 15 shall be deemed for the purposes of this

article to be in high schools established and maintained by the unified district.

2703. Within 30 days after the close of each school year the county superintendent of schools shall report to the county board of supervisors the name of any school district under his jurisdiction wherein the number of registered electors is less than six or the average daily attendance during the school year has been less than the numbers specified in Section 2701. The county superintendent shall at the same time recommend to the board of supervisors the district or districts to which the territory may best be annexed after the district has been lapsed.

2704. When the county board of supervisors receives the report of the county superintendent as provided in Section 2703 it shall order the district or districts to be lapsed. It shall also either order the territory of the lapsed district annexed to one or more adjoining districts as the county superintendent has recommended or it shall order a public hearing to be held on the question. If a public hearing is ordered the board shall fix the time thereof and shall provide that a notice be sent by registered mail at least 10 days before the hearing to each member of the governing boards of each of the districts which adjoin the lapsed district and to the persons who were members of the governing board of the lapsed district immediately prior to its lapsation. After the hearing the board of supervisors shall order the territory of the lapsed district annexed to one or more adjoining districts as seems to the board to be in the best interests of the adjoining districts and of the residents of the lapsed district.

2705 If the board of supervisors orders the territory of a lapsed district annexed to more than one adjoining district it may provide for such a division of the funds, property, and obligations of the lapsed district as it deems most equitable in the circumstances. If no division is provided for by the board the general provisions of Article 8 (commencing with Section 1821), Chapter 1 of this division shall apply to the division of funds, property, and obligations of the lapsed district.

Article 2. Dissolution of Union and Joint Union Elementary Districts

2741. Any union or joint union elementary school district formed by combining previously existing districts of the same kind, and which has been in existence three years or more, may be dissolved and the former districts composing the union or joint union elementary school district re-established in the manner prescribed by this article.

2742. An action to dissolve a union district and to re-establish the former districts is initiated upon the filing with the county superintendent of schools of a petition signed by two-thirds of the electors residing in the district who have children attending the school or schools of the district. The petition

shall set forth briefly the reasons for dissolution and request that the question be submitted to the voters in the district.

2743. When a petition for dissolution is presented pursuant to this article the county superintendent shall examine the petition and if he finds it to be sufficient and signed as required by law he shall, within 20 days after such finding, call, hold, and conduct, in the manner prescribed in Division 4 of this code, an election in the district. The ballot shall contain the words "For dissolution of the _____ Union District and re-establishment of the _____ and _____ Districts" followed by the words "yes" and "no" so placed that the voter may clearly indicate his choice.

2744. If two-thirds of all the votes cast at the election are in favor of dissolution, the district shall be dissolved and the former districts shall be re-established.

2745. If a majority of all the votes cast at the election is opposed to dissolution, no further petition shall be entertained or election ordered for a similar purpose within three years following the election.

2746. Within 30 days after the close of the last school year of the dissolved district the county superintendent of schools shall report to the county board of supervisors the name of any former district in the dissolved district wherein the average daily attendance of pupils residing within the boundaries of the former district has been less than six during the last year of the dissolved district. Any such former district shall be lapsed and its territory attached to one or more adjoining districts in the manner provided in Article 1 of this chapter.

CHAPTER 9 COUNTY MASTER PLANS FOR SCHOOL DISTRICT ORGANIZATION

3001. This chapter shall be administered by the Superintendent of Public Instruction.

3002. The State Board of Education shall adopt rules and regulations, not inconsistent with the provisions of this chapter, to carry out the provisions of this chapter.

3003. On or before September 15, 1963, each county committee shall prepare and submit to the State Board of Education a master plan for including all the territory of the county, including territory of adjacent counties where necessary, in school districts so that each school district shall provide an educational program including all grades from kindergarten or grade 1 through grade 12 together with other types of reorganization which would constitute intermediate steps to the establishment of districts operating all grades through grade 12. The master plan may include consideration of grades 13 and 14 and the establishment of districts for the provision of an educational program for these grades.

3004. If a county committee fails to prepare and submit a master plan on or before September 15, 1963, the State Department of Education shall prepare the master plan for the

county, and shall, on or before September 15, 1965, submit it to the State Board of Education for its approval.

3005. Within one year after the approval of a master plan by the State Board of Education a county committee may make alterations in the master plan and submit such alterations to the State Board of Education for its approval.

3006. The State Board of Education may approve all or any portion of a master plan or alterations thereof submitted by a county committee. When the State Board of Education approves all or part of a master plan it shall notify the county superintendent of schools and the county board of supervisors of the county or counties involved.

3007. Any elections required to carry out the proposals of a master plan or alterations of the master plan shall be called and conducted by the county superintendent of schools of the county in which all or the greater portion of the area is situated at the time recommended by the county committee but shall be held within two years after the date upon which the State Board of Education notifies the county superintendent of its approval.

3008. The procedures contained in Chapter 10 (commencing with Section 3101) of this division shall be used in the study and preparation of the master plan. Nothing in this chapter shall prohibit a county committee from making plans and recommendations, as authorized by Chapter 10 of this division, prior to the time when the State Board of Education approves the master plan for the county.

3009. If the State Board of Education does not approve all or any part of a master plan submitted by a county committee the board shall so notify the committee setting forth the reasons for not approving and the nature of additional data or study which it deems necessary. The county committee shall thereupon reconsider the matter and resubmit a plan covering the area, the original plan for which was not approved, within six months from the date of the notice from the State Board of Education.

CHAPTER 10. OPTIONAL REORGANIZATION OF SCHOOL DISTRICTS BY ELECTORS

Article 1. General Provisions

3101. As used in this chapter "unified school district" means a unified school district formed under this chapter.

3102. As used in this chapter "reorganization" means the formation, annexation, transfer, uniting, unification, unionization, merger, division, transfer of territory, or change of boundaries, of school districts authorized by this code.

3104. Each county superintendent of schools, every other county officer, and officers or employees of any school district in any county shall furnish to the county committee any records, reports, documents, maps, or other data pertaining to

the survey of the area by the county committee and shall confer with the county committee concerning the problems of such county or portion thereof, when requested to do so by the county committee.

3105. If the reorganization of a school district under this chapter results in the relocation of district boundaries so that a portion of the students will not be residents of the district thereafter maintaining a school previously attended by the students, and if there is in the school an organized student body, the property, funds, and obligations of the student body shall be divided as determined by the augmented committee except that the share shall not exceed an amount equal to the ratio which the number of students leaving the school bears to the total number of students enrolled. The ownership of the property, funds, and obligations, which is the proportionate share of each segment of the student body, shall be transferred to the student body of the school or schools in which the students are first enrolled during the school year next succeeding the reorganization. Funds from devises, bequests, or gifts made to the organized student body of a school shall remain the property of the organized student body of that school and shall not be divided.

3106. An elementary school which has been included in a unified district because of a reorganization of districts under provisions of this chapter shall be maintained as an elementary school by the unified district unless discontinued as provided in this section. The governing board of the unified district may adopt a resolution or order to discontinue the elementary school at any regular or special meeting of the board and the order or resolution shall be in effect after 30 days unless within this period of time a petition is filed with the governing board requesting the continuance of the school signed by the parents or guardians of at least 10 or one-third, whichever number is the greater, of children of elementary school age, at the time of the petition. The signature of one parent is sufficient to represent all of the children of such parent. The parents or guardians eligible to sign such petition shall be residents within the boundaries of the component elementary school district which maintained the school prior to the establishment of the unified school district and shall be qualified electors within such district at the time the petition is filed. If a school is discontinued as herein provided the governing board of the unified school district may maintain the building for community and civic center and other lawful purposes.

3107. The county committee shall prepare and submit to the Superintendent of Public Instruction, upon his request, a report and recommendations respecting the urgency of need for school plant facilities, the kind and extent of the facilities required, and the development of improved local school administrative units and attendance areas in the case of school districts that seek state assistance in providing school plant facilities.

3108. The formation of a unified school district shall be deemed a unification of school districts within the meaning of Sections 13321 and 13322.

3109. Any employee, other than special teachers, whose assignment to duties is on a districtwide level and requires certification qualifications, and any principal, in any school district, which district is included in whole in a unified school district, shall continue as an employee of the unified school district under the terms of his then current contract; providing that the term of such employment shall not be less than two years; and provided also, that the governing board of the unified school district may make any reasonable reassignment of his duties.

If any school district is included in part in a unified district any employee, other than special teachers, in a position requiring certification qualifications and whose assignment to duties is on a districtwide level may elect to remain an employee of the original district or to become an employee of the unified district and accept employment as provided in the first paragraph of this section.

If all of the territory of any school district becomes part of two or more unified districts and the inclusion in the two or more unified districts of the several portions of territory comprising the whole of such district is effective for all purposes upon the same date, any principal shall continue as an employee of the unified district in which the school to which he was assigned is included, and any employee, other than special teachers, in a position requiring certification qualifications and whose assignment to duties is on a districtwide level shall continue as an employee of one of the unified districts in which a portion of the former district is included, at the election of such employee. Continued employment shall be under the terms of the employee's current contract; providing that the term of such employment shall not be less than two years; and provided also, that the governing board of the unified school district may make any reasonable reassignment of his duties.

3110. All provisions of this code relating to unified school districts not in conflict with, or inconsistent with this chapter apply to unified school districts formed under this chapter and are hereby made a part of this chapter with the same force and effect as though set forth in this chapter as a part hereof.

Article 2. Statewide Survey of School Districts

3131. The State Board of Education shall:

(a) Determine policies for, direct, and govern a statewide survey of all school districts for the purpose of effecting feasible unifications or other reorganizations of school districts.

(b) Approve plans formulated by county committees for the unification or other reorganization of school districts prior to the submission of the plans to the people of the areas affected for approval.

(c) Establish standards which shall be applied in approving plans for the unification or other reorganization of school districts.

(d) Utilize the resources, records, and personnel of the State Department of Education, whenever advantageous in carrying out the provisions of this chapter.

Article 3. County Committee on School District Organization

3161. There is continued in existence in each county, except a county which is also a city and county, a county committee on school district organization. Each county committee shall be composed of an odd number of members not less than 5 nor more than 11 qualified electors of the county. The number of members of the county committee in each county shall be determined by the representatives of the governing boards of all school districts of the county or the county superintendent of schools, as provided in this article.

3162. If all of the territory of a county under the jurisdiction of the county superintendent of schools of the county is included in one unified school district the governing board of the unified school district shall constitute the county committee.

3163. Except as provided in Section 3162, if there are less than six districts under the jurisdiction of the county superintendent of schools of the county, he shall determine the number of, and appoint, the members of the county committee.

3164. In every county with six or more school districts under the jurisdiction of the county superintendent of schools of the county, a majority of the representatives of the governing boards, provided for in Section 932.1, at their annual meeting shall determine the number of, and elect, the members of the county committee and may change the number of members of the county committee. No action to elect, or change a number of, members of a county committee shall be taken at an annual meeting unless a quorum of the representatives is present.

An annual meeting of the representatives shall be called by the county superintendent of schools which shall be held between October 1 and December 1. Notice of the meeting shall be deemed sufficient and complete when deposited in the United States mail with postage prepaid, addressed to the clerk or secretary of the governing board of each district.

If the representatives fail to elect members of the county committee, the county superintendent of schools shall appoint the members.

3165. If the number of districts in a county with six or more districts decreases to less than six, Section 3162 or 3163, as the case may be, shall apply or if the number of districts in a county with less than six districts increases to six or more, Section 3164 shall apply. Each member of the county commit-

tee of a county in which such a change occurs shall serve out his term of office.

3166. Neither the county superintendent of schools nor any member of his staff nor any employee of a school district shall be a member of the county committee. At least one member of the county committee shall be elected from among the qualified electors of each county supervisorial district in the county.

3167. The term of office of each member of the county committee shall begin upon election or appointment and shall be for four years and until his successor is elected or appointed, as the case may be, and qualified. The terms of the members first selected shall be determined by lot so that as nearly as possible thereafter one-fourth ($\frac{1}{4}$) of the members shall be elected annually.

3168. Vacancies in the membership of the county committee are caused by the happening of any of the events specified in Section 1770 of the Government Code. In a county in which the members of the county committee are appointed by the county superintendent of schools, he shall fill any vacancies. In a county in which the members of the county committee are elected by the representatives of the governing boards, vacancies shall be filled by the remaining members of the committee or, if they fail to fill such vacancies with qualified electors within 60 days, by the county superintendent of schools.

3169. The members of the county committee shall serve without pay, but they shall receive their actual and necessary travel expenses incurred in the performance of their duties. The expenses shall be allowed by the board of supervisors, and be paid out of the county general fund.

3170. The county committee shall organize by electing from its membership a chairman and a vice chairman. The county superintendent of schools shall act as the secretary of the county committee. Meetings of the county committee shall be held upon call of the chairman or of a majority of the members thereof. The first meeting of the county committee shall be held within 30 days after election or appointment on a call issued by the county superintendent of schools. A majority of the county committee shall constitute a quorum.

Article 4. Formulation of Plans and Recommendations for the Reorganization of Districts

3201. Each county committee shall study the school district organization of the county and shall, under the direction of the State Board of Education, formulate plans and recommendations for the unification or other reorganization of the school districts in the county or any portion thereof including, if necessary, a portion of one or more adjacent counties. It shall transmit the final plans and recommendations to the State Board of Education.

3202. On receipt of a petition signed by at least 10 percent or 250, whichever is the lesser, of the qualified electors residing

in any district for a consideration of unification or other reorganization of any area, the county committee shall hold a public hearing and determine, following such hearing, whether the committee shall study further the matter petitioned in the manner herein described in this chapter. If the petition involves territory already under study by the county committee, no further hearings shall be required.

The public hearing required by this section shall be called by:

(a) Sending a notice to the governing board of each school district involved at least 10 days prior to the hearing, and

(b) Posting a notice of the hearing as provided in Section 1343 or publishing a notice of the hearing as provided in Section 1344.

The notices shall contain information as to the time, place, and purpose of the hearing.

3203. The county committee may select all or any portion of the county to be studied for possible recommendations for reorganization. The territory selected may include portions of one or more adjacent counties.

3204. At any time, and from time to time, after the county committee has selected all or any part of the county for study for possible recommendation for reorganization and prior to the adoption by the augmented county committee of plans and recommendations for unification or other reorganization, a majority of the county committee as established in Section 3161 may change the territory selected for study for possible recommendation for reorganization.

3205. When the county committee has selected all or any portion of the county to be studied for possible recommendation for reorganization, the county committee shall be augmented as set forth below in this section for purposes of the study and the adoption of any plans and recommendations for reorganization of the territory selected:

(a) If the study is to consider a possible recommendation for reorganization other than for the formation of a junior college district, each member of the governing board of each school district included in whole or in part within the territory to be considered shall be included in the membership of the committee.

(b) If the study is to consider a possible recommendation for reorganization consisting of the formation of a junior college district, each member of the governing board of each high school district, unified district, and junior college district included in whole or in part within the territory to be considered shall be included in the membership of the committee.

(c) If the territory selected for study is changed pursuant to Section 3204, the membership of the augmented county committee is changed immediately thereafter to exclude the members of the governing boards of districts no longer included in the territory to be studied and to include on the augmented committee each member of the governing board of

each district newly included, in whole or in part, in the territory to be studied.

3206. The county superintendent of schools shall notify by letter each person included as a member of an augmented county committee and each person excluded as a member pursuant to Section 3205.

3207. For the purposes of constituting a quorum at the committee meetings, all of the members of the governing board of one school district attending the meeting shall count only as one member of the committee. For the purposes of voting upon a recommendation, each school district represented on the committee shall have only one vote and shall be entitled to vote only if the recommendation would affect that district. The district vote shall represent the decision of a majority of the members of the governing board of that district.

3208. Notice of each meeting of the augmented committee shall be mailed to all members appointed pursuant to Section 3205 by the county superintendent of schools at least 10 days prior to the date of such meeting.

3209. The augmented county committee shall adopt a tentative recommendation following which action it shall hold one or more public hearings in the area proposed for reorganization at least 30 days prior to submission of a final recommendation for unification or other reorganization to the State Board of Education. The public hearing shall be called in the same manner as specified in Section 3202.

3210. No final recommendation for reorganization to be submitted to the State Board of Education shall be made until the augmented county committee has adopted the recommendation by a majority of all entitled to vote and no such action shall be taken prior to the third meeting following the date when the members of the governing boards of all districts included in the recommendation have been members of the augmented committee nor prior to the public hearing specified in Section 3209.

3211. Prior to submitting plans and recommendations for the unification of a school district or districts to the State Board of Education, and for the purposes of Section 3294 the county committee shall notify, in writing, the board of supervisors of each county affected.

3212. When a county committee selects an area for study for possible recommendation for reorganization which includes territory of one or more school districts under the jurisdiction of the county superintendent of schools of another county, the county committee shall so notify the members of the county committee of such other county. Thereafter the members of the county committee of such other county shall be notified by mail of each public hearing or meeting of the county committee, or augmented county committee, at which the proposed reorganization will be considered at least 10 days prior to the day of such hearing or meeting.

3213. If plans and recommendations adopted by an augmented county committee propose changes in the boundaries or status of school districts under the jurisdiction of the superintendent of any adjacent county, the county committee of each such adjacent county shall be requested in writing to concur in the plans and recommendations.

If the county committee of an adjacent county concurs in the plans and recommendations, the concurrence shall accompany the recommendations transmitted to the State Board of Education.

If the county committee of an adjacent county fails to respond to the request for concurrence within 90 days of the date of the request, such failure shall be deemed to be a concurrence in the plans and recommendations.

If a county committee of an adjacent county does not concur in the plans and recommendations, it shall so notify the other county committee in writing and accompany the notification with plans and recommendations for the reorganization of school districts of its county including territory that would be affected by the plans and recommendations of the other county committee. After 60 days from the notification of nonconcurrence, if the county committees are still unable to agree upon plans and recommendations for reorganization of the territory, the county committees, or any of them, may submit plans and recommendations to the State Board of Education and the board may approve or reject the plans, or any of them, in the same manner as other plans and recommendations.

Article 5. Contents of Plans and Recommendations

3252. In any county in which property representing more than 35 percent of the total assessed valuation of property in the county is situated in one elementary school district with an average daily attendance of less than 1,500, the county committee may formulate plans for the establishment of a countywide unified school district. The proposal shall contain a provision for division of the county into trustee areas of an odd number not to exceed 15.

The governing board shall consist of one member from each trustee area to be elected at large by the electors of the county. The terms of office of the members of the first governing board shall be determined by lot, and shall be staggered so that as nearly as possible an equal number of terms shall expire on June 30th of each year. Except for members of the first governing board, the term of office shall be four years.

3253. The plans and recommendations formulated by the augmented county committee may include recommendations with reference to the location of school building or buildings after reorganization is accomplished. Suggestions made in accordance with this section shall not be considered a part of the reorganization proposition to be voted upon at the election for

the adoption or rejection of the plans and recommendations of the county committee.

3254. In any proposal for unification recommended by an augmented county committee, the augmented county committee may include a provision for a governing board of either five or seven members and may include a provision for trustee areas In establishing trustee areas each augmented county committee shall provide for representation in accordance with population and geographic factors of the entire area of the unified school district. As many trustee areas as needed, not to exceed seven, may be established. The augmented county committee shall designate the number of members of the governing board to be elected from among the registered voters of each trustee area so that a governing board of either five or seven members is provided. If the committee includes a provision for trustee areas, it shall also include a provision for the election of members of the governing board by the registered voters of the entire school district or for the election of the member or members residing in each trustee area by the registered voters of that particular trustee area.

Provisions regarding the number of trustees or trustee areas and the election of trustees by the district at large or by the registered voters of each particular trustee area shall be considered as an inherent part of the proposal and not to be construed as a separate proposition. A provision for trustee areas shall indicate the boundaries of the proposed trustee areas.

3255 In any proposal for unification recommended by an augmented county committee, the committee may include a provision for the authorization of a maximum tax rate for the proposed unified district. Such provision shall be considered an inherent part of the proposal and shall not be construed as a separate proposition. If the unification is approved by the registered voters of the area, such tax rate shall be the maximum tax rate for the unified district in lieu of any rate specified in Section 20751 until changed by the registered voters of the district in the manner prescribed in Section 20803. The tax rate established by the augmented county committee shall not be less than the tax rates for a unified district provided in Section 20751 nor more than a rate which would produce revenue for the proposed unified district equal to the sum of the revenue of each of the districts proposed to be wholly or partially included therein had the maximum allowable tax rate been in effect in each such district during the school year immediately preceding the date upon which the unification would be effective for all purposes.

3256. The augmented county committee may propose a maximum tax rate in excess of that provided in Section 3255 as a separate proposition for which a ballot of a different color shall be provided. The ballot shall contain substantially the words "shall the maximum tax rate of the proposed new district be _____ per one hundred dollars ($100) of assessed

valuation." Opposite such words in separate lines, the words "yes" and "no" shall be printed with a voting square opposite each word. In event the committee proposes a maximum tax rate under the provisions of both this section and Section 3255 the rate proposed under this section shall be the maximum tax rate for the district if a majority of votes cast are in favor of the proposition.

3257. The plans and recommendations formulated by the augmented county committee may include recommendations for the assumption by any new school district the formation of which is recommended by the augmented county committee of all or any part of the bonded indebtedness of any existing school district included in whole or in part in the new school district.

3258. The augmented county committee may propose plans and recommendations which include either one or both of the following provisions:

(a) Plans for the use of the school property of the districts proposed to be wholly or partially included in a new district, as provided in Sections 3260, 3347, and 3348.

(b) Plans for dividing the property, other than real property, of any school district proposed to be divided between two or more school districts, or proposed to be partially included in one or more school districts.

3259. The plans and recommendations formulated by an augmented committee may provide for the division of funds, obligations, other than bonded indebtedness, and property, other than real property, of a district whose territory is proposed to be divided. In providing for this division, the committee may consider the assessed valuation of each portion of the district, the number of children of school age residing in each portion of the district, the value and location of the school property, and such other matters as the members of the augmented committee deem important and pertinent.

3259.1. During the first fiscal year of the existence of a newly formed unified school district, including districts which became effective for all purposes on July 1, 1953, under the provisions of this chapter the county superintendent of schools having jurisdiction over the districts affected shall draw his requisition upon the county auditor to the credit of the districts affected in the amounts necessary to accomplish the division of funds required by, as the case may be, Section 3259 or 3262.

3260. When the county committee includes in its plans and recommendations proposals for the use of the school property of the component districts as provided in Sections 3258 and 3347, such proposal shall be deemed to be an integral part of the plans and recommendations, and a favorable vote on the question of reorganization, as provided in Article 6 (commencing with Section 3291) of this chapter, shall be deemed to be a favorable vote upon the plans and recommendations as a whole.

3261. When the augmented county committee includes in its plans and recommendations proposals for the division of the school property of an existing district under Sections 3258 and 3259, the plans and recommendations may require the incurring of a bonded indebtedness in any district or portion of a district remaining upon the unification or other reorganization in order to provide funds to equalize the division of school property among the newly reorganized districts. The total amount of bonds required may be in excess of the limitation provided in Sections 21702 and 21704.

3262. When the augmented county committee includes in its plans and recommendations proposals for the division of the school property of an existing district under Sections 3258 and 3259, the proposal shall be deemed to be an integral part of the plans and recommendations and, except as provided in this section, a favorable vote by a majority of the voters on the question of reorganization, as provided in Article 6 (commencing with Section 3291) of this chapter, shall be deemed to be a favorable vote upon the plans and recommendations as a whole.

If the plans and recommendations require the incurring of a bonded indebtedness in any district or portion of a district remaining upon the unification or other reorganization in order to provide funds to equalize the division of the school property among the newly organized districts, then the proposition for the incurring of the bonded indebtedness shall be submitted as a separate proposition to the electors of the district or portion thereof which is to incur such indebtedness at the same election at which the proposition of approving the plans and recommendations is submitted to vote of the electors of the proposed unified or otherwise reorganized districts. A ballot of a different color shall be used for such proposition at the election. The plans and recommendations shall not be deemed to have been approved unless the proposition of incurring such indebtedness is approved by two-thirds ($\frac{2}{3}$) vote of the voters of the district or portion thereof which is to incur the indebtedness voting on such proposition at the election.

The proceedings for the issuance and sale of the bonds shall be taken in substantial conformity with the provisions of Sections 21701 to 21800, inclusive, and Sections 21803 to 22152, inclusive, except that the bond election shall be called and canvassed by the county superintendent of schools and the proposition submitted thereat shall be

"Shall _____ District incur a bonded indebtedness in the aggregate principal amount of $_____ for the purpose of paying its share of the equitable adjustment resulting from the reorganization of said school district?"

3263. If the plans and recommendations of a county committee for an area provide for the exclusion of territory from a school district, the county committee shall determine if as to that district the election shall be held only in such territory.

The election shall be held in the district or portion thereof in accordance with such determination.

Article 6. Approval and Adoption of Plans and Recommendations

3291. After the State Board of Education has approved the plans and recommendations for the unification or other reorganization of the school districts in any area, the secretary of the State Board of Education shall give notice of the approval to the county superintendent of schools having jurisdiction over any of the districts whose boundaries or status would be affected by the reorganization as proposed.

3292. When a county committee submits a proposal providing for a reorganization of districts other than the formation of a new district, the approval of the proposal by the State Board of Education shall be deemed to be the filing of a verified petition with the county superintendent of schools, as required by other chapters of this division, and the proposed reorganization of districts shall then be acted upon in accordance with the applicable provisions of other chapters of this division, except that not less than 30 days prior to action by the State Board of Education the county committee shall conduct a public hearing as provided in Section 3209. After approval by the State Board of Education, the county superintendent of schools shall set the matter for hearing or for an election to decide the adoption or rejection of the proposal.

3293. Except as otherwise provided in Section 3263, the county superintendent of schools shall call, hold, and conduct, in the manner prescribed in Division 4 of this code, a special election in the elementary school district or unified school district, or districts included in whole or in part in the plans and recommendations of the county committee or committees for the formation of a unified school district for the purpose of adopting or rejecting the plans and recommendations.

3294. The election required by Section 3293 shall be held in the school year in which the county superintendent of schools was given notice of the approval of the plans and recommendations by the State Board of Education, except that if the notice is not received on or before May 1, the election may be held during the following school year.

If the notice to the board of supervisors required by Section 3211 is not given on or before April 1 of the school year preceding notice by the State Board of Education under Section 3291, and if funds are not available for the conduct of the election, the board of supervisors of any such county may require the county superintendent of schools charged with the duty of holding the election on such plans and recommendations to postpone the holding of the election until on or after July 1 of the school year following the notice required by Section 3211.

3295. At least 10 days prior to the election the county committee or committees shall hold one or more public hearings within the area included in a proposal for unification. The county committee or committees may designate any member to hold and conduct any public hearing required to be held. The hearing shall be called by the county superintendent of schools, who shall post a notice of the hearing as provided in Section 1343 or publish a notice of the hearing as provided in Section 1344.

3296. The county superintendent of schools calling such election shall cause to be prepared and distributed, at least 10 days prior to the election, to each registered voter in each such district or portion of a district, as the case may be, in which the election is to be held a copy of the recommendations of the county committee. The copy of the recommendations shall include any proposal made in accordance with Section 3254.

3297. The county superintendent of schools calling the election shall cause to be prepared and distributed a statement setting forth arguments for and against the recommendations of the county committee. The arguments shall not exceed 500 words. The argument in favor of the recommendations shall be prepared by the chairman of the county committee, or by a proponent of the recommendations designated by the chairman. The argument against the recommendations shall be prepared by a member of the county committee who voted against the recommendations, or, if there be none, by an elector designated by the county superintendent of schools who has appeared before the committee or at a public hearing in opposition to the recommendations.

3298. The cost of preparation and distribution of the statement setting forth the arguments in favor of, and those opposed to, the recommendations of county committees and the cost of any election held hereunder shall be a charge against the general fund of the county in which the elementary school district or unified district is situated. If such district is situated in more than one county, the cost shall be prorated against each county in the same proportion as the area of the district lying in such county bears to the total area of the district.

3299. Every qualified elector residing within the boundaries of each elementary school district or unified school district, or portion of district, as the case may be, in which the election is called shall be eligible to vote at such election.

3300. If the proposal for reorganization involves a question as to whether a countywide unified school district shall be established, the proposal may be submitted at a special election or at an election consolidated with a general, county or state election. If so consolidated, the polling places shall be those used in the general election.

3301. If the recommendations of the county committee include a recommendation made pursuant to Section 3257, an ad-

ditional ballot shall be used at the election on the question of assumption of indebtedness and such additional ballot shall be of a different color than the ballot on the question of unification.

If the plans and recommendations of the county committee include a proposal for a maximum tax rate pursuant to Section 3256 or a proposal for the issuance of bonds by a district or part of a district remaining upon the unification or other reorganization to provide funds to equalize the division of school property pursuant to Sections 3258, 3259, and 3262, or both such proposals, a separate ballot for each such proposal shall be provided and each ballot at the election shall be of a different color.

3302. The words to appear upon the ballots used for voting upon the adoption or rejection of the plans and recommendations of the county committee with respect to the unification of school districts shall be "Unification of school districts—Yes," and "Unification of school districts—No," or words of similar import. If the county committee made a proposal for trustee areas in accordance with Section 3254 such proposal shall be considered a part of the reorganization proposition to be voted upon and the ballot shall include wording to that effect.

The words to appear upon the ballots used for voting upon the adoption or rejection of the plans and recommendations of the county committee made pursuant to Section 3257 with respect to the assumption of bonded indebtedness by any school district created as a result of the unification of school districts recommended by the county committee shall contain the words "Assumption of bonded indebtedness—Yes" and "Assumption of bonded indebtedness—No" or words of similar import.

The words to appear on the ballots used for voting upon maximum tax rate or the issuance of bonds to equalize a division of property shall be in accordance with Section 3256 or 3262, as the case may be.

3303. Upon the completion of the canvass of the election returns and the absentee ballots the county superintendent of schools shall tabulate such returns and the absentee ballots and notify the board of supervisors of the number of votes cast for, and the number of votes cast against, the unification of school districts in each elementary school district or unified school district and also the total number of votes cast for, and the total number of votes cast against, the unification of school districts.

3304. Except as otherwise provided in Section 3262 and in this section, when a majority of all the votes cast are cast in favor of the unification, the proposal carries. If the voters in one district, or portion of a district, cast a majority of all the votes cast at the election, then, the proposal must carry by a majority in such district, or portion of a district, and, in addition, by a majority of the combined votes of all the other districts or portion of districts, as the case may be, concerned.

3305. If two-thirds of all the votes cast in each district at the election on the question of the assumption of bonded indebtedness by a school district created as the result of the unification of school districts recommended by the county committee are cast in favor of the assumption of such bonded indebtedness, the district created shall be liable for the assumption of such bonded indebtedness.

3306. If the plans and recommendations of the county committee are rejected by the voters, the county committee shall resurvey the territory in the manner hereinbefore provided and make plans and recommendations.

When the new plans and recommendations are identical with those previously submitted, the augmented county committee, without resubmitting the plans to the State Board of Education, may determine that a second election shall be held thereon not later than a year from the previous election. The county superintendent of schools shall thereupon call and conduct an election as provided in this article.

When the new plans and recommendations are not identical with those previously submitted to the State Board of Education, or when they are identical but the augmented county committee does not make the determination referred to above in this section, the county committee shall transmit the new plans and recommendations to the State Board of Education. If the State Board of Education approves the new plans and recommendations, the county superintendent of schools shall thereupon call and conduct the election as provided in this article.

Article 7. Tax Rates, Property, Funds, and Obligations of Unified and Reorganized Districts

3341. If a proposal for the assumption of bonded indebtedness is approved by the voters the assumption shall become effective on the same date as the unification of the school districts becomes effective

3342. If bonds are authorized to be issued pursuant to Section 3262 by a district or portion of a district remaining upon the unification or other reorganization in order to provide funds to equalize the division of the school property among the newly reorganized districts, the county superintendent of schools shall certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district, all proceedings had in the premises and the board of supervisors shall cause the bonds to be issued and sold as provided in Sections 21701 to 21800, inclusive, and Sections 21803 to 22152, inclusive, except that the proceeds of sale of the bonds shall be deposited to the credit of the reorganized district entitled to the proceeds pursuant to the plans and recommendations providing for the division of school property and incurring of bonded indebtedness referred to in Sections 3258, 3259 and 3261.

3343. The bonded indebtedness of any district included as a whole in a unified school district outstanding at the time of unification shall, except as otherwise provided in this chapter, remain an obligation of the district so included.

3344. Each district included in whole in a unified school district formed under this chapter the boundaries of which are not coterminous with the unified school district in which it is included shall be continued in existence for the purpose of retaining liability for the bonded indebtedness of such district.

3345. Each district included in whole in a unified school district formed under this chapter, the boundaries of which are coterminous with the unified school district in which it was included, shall cease to remain in existence and the liability for the bonded indebtedness of such district shall become the liability of the unified school district.

3346. Except as provided in Section 3348 all property, funds, and obligations of a district included in whole in a unified school district, other than the bonded indebtedness thereof as provided in this article, and other than funds derived from the sale of bonds issued by the included district, shall become the property, funds, and obligations of the unified school district. Any funds derived from such bonds issued by the included district shall be expended by the governing board of the unified district either for the retirement of the bonds or for the acquisition of school property only in the area comprising the included district.

3347. Any unified or otherwise reorganized district which includes at the time of unification or other reorganization under this chapter any district having outstanding bonded indebtedness shall pay, in accord with proposals made under Sections 3258 and 3260, for the use of the school property of the included district acquired or constructed from the proceeds of its own bonds, an annual charge to the account of such included district, to be administered as a trust fund by or under the direction of the county superintendent of schools. The annual charge shall be equal to the annual amount required for the interest and redemption of the bonds.

The county superintendent of schools may apply the annual charge to the interest and bond redemption of the included district or use it for any other lawful purpose for the use and benefit of the area comprising the included district.

The governing board of any unified school district shall include in its annual budget an amount equal to the annual charge. If it fails to do so, the county superintendent of schools shall add the amount to the budget submitted by the governing board.

The county board of supervisors shall include in the annual tax to be levied upon the assessed valuation of the unified district a tax sufficient to provide for the annual charge. The tax may be at a rate in excess of the maximum rate provided in Section 20751. While the annual charge is in effect, the board

of supervisors need not levy a tax on the assessed valuation of the included district for its interest and bond redemption if the amount of the annual charge upon the unified district is sufficient for and is actually used for the interest and bond redemption.

The annual charge shall continue for the entire period during which any bonded indebtedness is outstanding against any included district. Upon the retirement of the entire bonded indebtedness of the included district the charge shall cease to accrue, and the school property of the included district shall become the property of the unified district.

3348. Any unified or otherwise reorganized district acquiring the use of school property under Section 3347 shall fully maintain the property and keep it in repair during the period of its use by the unified district. The cost of the maintenance shall be a lawful charge against the funds of the unified district.

Any school property acquired or constructed by any district included in a unified or otherwise reorganized district as a result of the sale of the bonds of the included district shall remain its property until the bonds are retired.

3349. Where any unified or otherwise reorganized district located entirely within one county which was unified or otherwise reorganized between January 1, 1950, and January 1, 1952, which included at the time of unification or other reorganization any district or districts having any outstanding bonded indebtedness, and no proposals were made under Sections 3258 and 3260 for the use of the school property of such included district or districts, the board of supervisors of the county may, within 60 days after July 1, 1953, fix and determine the amount of the annual charge for the use of the school property of such included district or districts acquired or constructed from the proceeds of the bonds of such included district or districts. Such annual charge shall be in the amount and subject to the terms, provision, and conditions of Sections 3347 and 3348.

3352. If a recommendation is made for the unification of an area which is coterminous with a union high school district, or a city high school district, and if the voters of the high school district at an election prior to reorganization had voted a special tax for a specified period of years, the tax shall, if the unified district is subsequently established by the voters, be continued at the option of the governing board of the newly formed unified school district for only those purposes for which the tax was originally voted and for a period not to exceed the number of years for which the tax was previously authorized.

3353. If a recommendation is made for the unification of an area which is coterminous with an elementary school district and if the voters of the elementary school district at an election prior to the reorganization had voted a district tax rate in excess of the maximum tax rate prescribed by Section 20751, the tax shall, if the unified district is subsequently established

by the voters, be continued at the option of the governing board of the newly formed unified school district for a period not to exceed the remaining number of years for which the tax was previously authorized. This section shall apply to unified districts in existence for all purposes on and after July 1, 1954.

Article 8. Dissolution of Unified Districts

3381. After three years from the effective date of its formation, a unified school district may be dissolved in the manner prescribed by this article.

3382. An action to dissolve a unified district is initiated upon the filing with a county superintendent of schools having jurisdiction over the district of a petition signed by 25 percent of the registered voters residing in the district. The petition shall set forth briefly the reasons for dissolution and pray that the question be submitted to the county committee of the county whose superintendent has jurisdiction over the district for study and recommendations.

3383. When a petition for dissolution is presented to the county superintendent of schools, he shall examine the petition and if he finds it to be sufficient and signed as required by law he shall transmit the petition to the county committee.

3384. When the county committee has received a petition for dissolution as provided in this article, the committee shall be augmented to include the members of the governing board of the unified district, and it shall study the district in the manner provided in Article 4 of this chapter.

3385. The augmented county committee shall study the territory included in the unified school district and shall formulate plans and recommendations to be submitted to the State Board of Education for the dissolution of the unified school district.

The State Board of Education shall act on the matter within 90 days of the receipt of the plans and recommendations of the county committee.

3386. The plans and recommendations of the county committee formulated pursuant to Section 3385 shall include the following:

(a) The description of each elementary or unified school district proposed to be established in the territory of the dissolved unified district.

(b) The inclusion of the territory of the dissolved unified district in a new high school district, unified districts or in an existing contiguous high school district or districts, or in an existing contiguous unified district or districts.

(c) Proposals for the division of property other than real property, funds, and obligations including bonded indebtedness of the unified district among the districts in which the territory is included.

Any real property used for elementary school purposes shall become the property of the elementary district in which it is

located following the dissolution. Any real property used for high school or junior high school purposes shall become the property of the high school district in which it is located following the dissolution.

The provisions of Section 21883 notwithstanding, the bonded indebtedness of the unified district shall become the bonded indebtedness of the elementary or high school districts in accordance with the plans and recommendations and shall be considered as bonded indebtedness of such districts for the purposes of determining the limitation of bonded indebtedness under Sections 21702 and 21802.

3387. After the State Board of Education has approved the plans and recommendations for the dissolution of the unified school district, the secretary of the board shall so notify the county superintendent of schools having jurisdiction of the district. Thereupon the county superintendent of schools shall call and conduct a special election in the unified school district in the manner prescribed by Article 6 (commencing with Section 3291) of this chapter, except that the ballots used for voting upon the adoption or rejection of the plans and recommendations of the county committee shall have printed on them the words "For dissolution—Yes" and "For dissolution—No."

3388. If a majority of all the votes cast at the election is opposed to dissolution, no further petition shall be entertained or election ordered for a similar purpose within three years following the election.

3389. When a unified district is dissolved pursuant to this article, all property of the district, together with any money in the treasury to the credit of the dissolved district, shall be transferred to the credit of the newly formed school districts that composed the dissolved district in accordance with the plans and recommendations of the county committee. Within 30 days after the dissolution of the unified school district becomes effective for all purposes, the county auditor of the county whose superintendent of schools has jurisdiction over the district shall determine the balance of the funds standing to the credit of the dissolved unified school district as of the effective date of such dissolution. Thereupon he shall transfer from the general fund of the unified school district to the general fund of each of the newly established districts such sums as may be necessary to give effect to the plans and recommendations of the county committee. With respect to property other than funds of the district, the board of supervisors of the county whose superintendent of schools has jurisdiction of the unified school district shall make such orders as may be necessary to give effect to the plans and recommendations of the county committee.

Immediately following the payment of the final premium the county superintendent of schools shall transfer from the funds of each insured district to the county school service fund an amount which bears the same ratio to the premium as the payroll of each district bears to the total payroll of all the insured districts.

Any dividends earned on the premiums paid under the provisions of this section shall be credited to the individual districts in proportion to the amount of the premium charged to each district.

[Approved by Governor May 28, 1963. Filed with Secretary of State May 28, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 840 of the Agricultural Code is amended to read:

840. When used in this chapter:

(a) "Container" means any box, crate, chest, carton, barrel, keg or any other receptacle containing honey.

(b) "Subcontainer" means any "section box" or other receptacle used within a container.

(c) "Clean and sound containers" means containers which are virtually free from rust, stains or leaks.

(d) "Section box" means the wood or other frame in which bees have built a small comb of honey.

(e) "Pack," or "packing" or "packed," means the arrangement of all or a part of the subcontainers in any container.

(f) "Deceptive pack" means any container or subcontainer of honey which has, in any exposed surface, honey or honeycomb, so superior in quality, appearance, condition or in any other respect to that in the interior of the container or subcontainer, or the unexposed portion, as to materially misrepresent the contents. The pack shall be considered deceptive even though the honey in a container is virtually uniform in quality as defined in this chapter, when the outer or exposed surface is composed of honey which is not an accurate representation of the variation in quality of the honey in the entire container. Any pack shall be considered deceptive which is "slack-filled" unless the container is so marked, even though such containers are marked with the proper net weight of the honey contained therein.

(g) "Slack-filled" means that the contents of any container occupy less than 85 percent of the volume of the closed container.

(h) "Deceptive arrangement" or "deceptive display" means any lot or load, arrangement or display of honey which has in any exposed surface, honey which is so superior in quality, appearance or condition, or in any other respects, to any of that which is concealed or unexposed as to materially misrepresent any part of the lot, load, arrangement or display.

(i) "Mislabeled" means the placing or presence of any false or misleading statement, design or device upon, or in connection with, any container or lot of honey, or upon the label, lining, or wrapper of any such container, or any placard used in connection therewith, and having reference to such honey. A statement, design or device is false and misleading, when the honey to which it apparently or actually refers does not conform in every respect to such statement.

(j) "Placard" is any sign, label, or designation, other than an oral designation, used in connection with any honey as a description or identification thereof.

(k) "Honey" means the nectar of floral exudations of plants gathered and stored in the comb by honeybees (Apis mellifica). It is a levorotatory, contains not more than twenty (20) percent of water, not more than twenty-five (25) one hundredths of 1 percent of ash, not more than eight (8) percent of sucrose, its specific gravity is not less than 1.412, its weight not less than eleven (11) pounds, twelve (12) ounces per standard gallon of 231 cubic inches at sixty-eight (68) degrees Fahrenheit.

(*l*) "Comb honey" means honey in the comb.

(m) "Adulterated honey" shall mean any honey to which has been added honeydew, glucose, dextrose, molasses, sugar, sugar sirup, invert sugar, or any other similar product or products, other than the nectar of floral exudations of plants gathered and stored in the comb by honeybees.

(n) "Extracted honey" means honey which has been removed from the comb.

(o) "Crystallized honey" means honey which has assumed a solid form due to the crystallization of one or more of the natural sugars therein.

(p) "Honeydew" means (1) the saccharine exudation of plants or insects, other than nectareous exudations, gathered and stored in the comb by honeybees (Apis mellifica) and (2) it is dextrorotatory.

(q) "Foreign material" means pollen, wax particles, insects or other materials not deposited by bees but shall not include decorative artificial leaves or blossoms.

(r) "Foreign honey" means any honey not produced within the State of California.

(s) "Agent" includes broker, commission merchant, auctioneer, solicitor, seller on consignment, and any other person acting upon the actual or implied authority of another.

SEC. 2. Section 844 of said code is amended to read:

844. All comb honey shall be conspicuously marked, either on the section or on its individual container, with (1) the name and address of the producer or distributor; (2) the net weight of the comb section, stated in terms of whole ounces; and (3) one of the United States grades established for honey by the United States Department of Agriculture.

Opaque containers of bulk or chunk comb honey shall be marked with the color the honey would be if extracted except when in the unclassified grade.

All comb honey shall meet the requirements of the color classification and grades as defined in United States grades, color standards, and packing requirements for honey by the United States Department of Agriculture, according to the color classification and grade as marked.

Comb honey which has crystallized shall be conspicuously marked with the word "crystallized" upon the container of honey or the label of any such container, or on a placard used in connection therewith having reference to such honey.

In order to allow for variations incident to proper grading and handling, not more than 5 percent, by count, of the containers or of the subcontainers in any lot of honey may be below the requirements for the grade.

SEC. 3. Section 844.1 of said code is amended to read:

844.1. All containers or subcontainers of extracted honey shall be conspicuously marked with (1) the name and address

of the producer or distributor; (2) the net weight of the honey in the container; (3) one of the United States grades established for honey by the United States Department of Agriculture; and (4) in the case of opaque containers, with the color of the honey.

All extracted honey shall meet the requirements of the color classifications and grades as defined in United States grades, color standards, and packing requirements for honey by United States Department of Agriculture, according to the color classification and grade as marked.

However, all honey regardless of grade term as marked, must be free from serious damage and at least as free from excessive foreign material as honey that has been strained through standard bolting cloth of 23 meshes per inch. Serious damage shall be deemed to mean any injury or defect that seriously affects the appearance or edibility of the honey such as overheating, which destroys both natural color and flavor, fermentation, which causes either foam and/or sourness, and objectionable flavor from any substance or thing other than floral source.

All containers or subcontainers of extracted honey which is produced entirely within the State may be conspicuously marked with the name "California."

As applied to extracted honey:

(a) If the color of the honey is designated on the container or subcontainer or upon a placard having reference to such honey it must conform to the color definitions provided in this chapter.

(b) Any honey which is a blend of two or more floral types of honey shall not be labeled as honey from any one particular floral source alone unless one floral type is predominant in which case such honey may be labeled as to the predominant oral type, as determined by flavor

(c) Any "slack-filled" container shall be conspicuously marked "slack-filled."

In order to allow for variations incident to proper grading and handling, not more than 5 percent, by count, of the containers or of the subcontainers in any lot of honey may be below the requirements for the grade, but no part of this tolerance shall be allowed for defects causing serious damage.

Extracted honey in containers holding five ounces or more, shall be packed, offered for sale and sold in the exact units of weight as set forth in the table of standard weights of honey in containers provided for in Section 845.

When the combined net weight of the extracted honey in all subcontainers contained in one master container is equal to one of the units of weight specified in Section 845, the unit is a standard unit of weight if sold as a unit directly to the consumer.

SEC. 4. Section 844.2 of said code is amended to read:

844.2. As applied to comb and extracted honey:

(a) No containers or subcontainers of honey shall be marked or labeled with the name "California" unless the honey is produced entirely within the State.

(b) Any containers or subcontainers of honey imported from any territory or foreign country shall be labeled with the name of the territory or country of origin.

(c) Where the floral flavor of the honey is stated on the container the honey contained therein must be true to such flavor unless the honey is a blend of two or more floral types and one floral type is predominant, in which case the honey may be labeled as to the predominant floral type as determined by flavor.

CHAPTER 658

An act to add Article 4 (commencing with Section 30900) to Chapter 3 of Division 17 of the Streets and Highways Code, relating to toll ferry franchises, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 28, 1963 Filed with Secretary of State May 28, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 4 (commencing with Section 30900) is added to Chapter 3 of Division 17 of the Streets and Highways Code, to read:

Article 4. Toll Ferries in Cities

30900. Notwithstanding any other provision of this code, the legislative body of a city may grant upon such terms, limitations, conditions, and restrictions and under such supervision as in its judgment are necessary and proper, franchises, privileges, or licenses for the construction, maintenance, and operation of toll ferries and for the taking and keeping of tolls from such ferries when the following conditions exist:

(a) The toll ferry is operated wholly within the boundaries of such city.

(b) None of the route or routes of such toll ferry constitute a part or an extension of a state highway or a state highway route.

(c) No part of the route or routes of the toll ferry for which a franchise, privilege or license is being processed is within 10 miles of a toll bridge in operation or under construction over any body of water across which said toll ferry is to operate.

(d) The director finds that no toll bridge is planned or contemplated in a location where such ferry would compete with it. Failure of the director to make a finding and advise the legislative body of the city of such finding in writing within 30 days after being advised in writing by the legislative body of a city that it is considering granting a franchise, privilege, or license to operate a toll ferry that such a toll bridge is planned or contemplated shall be deemed a finding that no such toll bridge is planned or contemplated.

30901. In granting any such franchise, privilege, or license, the legislative body may require the grantee thereof to pay an annual fee either in a flat amount or a percentage of the gross receipts derived from the operation of such toll ferry.

30902. The provisions of this article do not relieve the operator of a toll ferry from obtaining and maintaining a current and valid certificate of public convenience and necessity from the Public Utilities Commission when such certificate is otherwise required.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is essential that the provisions of this act delegating the authority to the legislative bodies of cities to grant franchises, privileges and licenses to construct, maintain and operate toll ferries be made effective at the earliest possible date to assure that the ferry service from Balboa Peninsula to Balboa Island in Newport Bay in the City of Newport Beach, County of Orange, will not be interrupted. Such interruption would severely hamper effective police and fire protection for the area and disrupt an essential transportation service for the people of this State.

In order to reinstate the license and certificate, the licensee shall either file an additional bond or restore the bond on file to the original amount, or shall terminate the outstanding judgment for which he and the bonding company are liable.

(c) From and after the effective date of this section, a dealer's license, or renewal of such license, shall not be issued to any applicant therefor, unless and until such applicant shall file with the department a good and sufficient instrument in writing in which he shall appoint the director as the true and lawful agent of said applicant upon whom all process may be served in any action, or actions, which may thereafter be commenced against such applicant, arising out of any claim for

damages suffered by any firm, person, association or corporation, by reason of the violation of said applicant of any of the terms and provisions of this code or any condition of the dealer's bond. Said applicant shall further stipulate and agree in writing that the agency created by said appointment shall continue for and during the period covered by any license that may be issued and so long thereafter as the applicant may be made to answer in damages for a violation of this code or any condition of his bond, as aforesaid. The instrument appointing the director as the agent for the applicant for service of process shall be acknowledged by the applicant before a notary public. In any case wherein the licensee be served with process by service thereof upon the director one copy of the summons and complaint shall be left with the director or in his office in Sacramento or mailed to the office of the director in Sacramento. A fee of five dollars ($5) shall also be paid to the director at the time of service of the copy of the summons and complaint. The director shall keep a record of all process so served upon him which record shall show the day and hour of service and shall retain the summons and complaint so served on him on file. Where the licensee is served with process by service thereof upon the director, the licensee shall have and be allowed thirty (30) days from and after the service thereof within which to answer any complaint or other pleading which may be filed in said cause; and provided further, that for purposes of venue, where the licensee is served with process by service thereof upon the director, the service shall be deemed to have been made upon the licensee in the county in which he has or last had his established place of business.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are a number of older employees who will be able to receive benefits under the Federal Social Security Act if the public agency's retirement system can be integrated with the federal program, prior to the retirement of those older employees. Since compulsory retirement provisions make it impossible for some of these employees to delay retirement until these provisions take effect, it is necessary that this measure take effect immediately to allow these employees to receive benefits under the federal program.

Sec. 42. Whenever the board deems it necessary for the district to incur a general obligation bonded indebtedness for the acquisition, construction, completion or repair of any or all improvements, works, property or facilities, authorized by this act or necessary or convenient for the carrying out of the powers of the district, it shall, by ordinance, adopted by two-thirds of all members of the board, so declare and call an election to be held in said district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of general obligation bonds of said district. Said ordinance shall state:

(a) The purpose for which the proposed debt is to be incurred, which may include expenses of all proceedings for the authorization, issuance and sale of the bonds.

(b) The estimated cost of accomplishing said purpose.

(c) The amount of the principal of the indebtedness.

(d) The maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years from the date thereof or the date of each series thereof.

(e) The maximum rate of interest to be paid, which shall not exceed 6 percent per annum.

(f) The proposition to be submitted to the voters.

(g) The date of the election.

(h) The manner of holding the election and the procedure for voting for or against the measure.

Notice of the holding of such election shall be given by publishing, pursuant to Section 6066 of the Government Code, the ordinance calling the election in at least one newspaper published in such district. No other notice of such election need be given. Except as otherwise provided in the ordinance, the election shall be conducted as other district elections.

If any proposition is defeated by the electors, the board shall not call another election on a substantially similar proposition to be held within six months after the prior election. If a petition requesting submission of such a proposition, signed by 15 percent of the district electors, as shown by the votes cast for all candidates for Governor at the last election, is filed with the board, it may call an election before the expiration of six months.

If two-thirds of the electors voting on the proposition vote for it, then the board may, by resolution, at such time or times as it deems proper, issue bonds of the district for the whole or any part of the amount of the indebtedness so authorized and may from time to time, in such resolution or resolutions, provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates and different dates of payment fixed for the bonds of each series. A bond need not mature on an anniversary of its date. The maximum term the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively. In such resolution or resolutions the board shall prescribe the form of the bonds and the form of any coupons to be attached thereto. the registration, conversion and exchange privileges, if any, pertaining thereto, and fix the time when the whole or any part of the principal shall become due and payable.

The bonds shall bear interest at a rate or rates not exceeding 6 percent per annum, payable semiannually, except that the first interest payable on the bonds or any series thereof may be for any period not exceeding one year as determined by the board. In the resolution or resolutions providing for the issuance of such bonds the board may also provide for call and

redemption of such bonds prior to maturity at such times and prices and upon such other terms as it may specify, provided that no bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon. The denomination or denominations of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars ($1,000). The principal of and interest on such bonds shall be payable in lawful money of the United States at the office of the treasurer of the district or at such other place or places as may be designated, or at either place or places at the option of the holders of the bonds. The bonds shall be dated, numbered consecutively and shall be signed by the chairman and treasurer, countersigned by the clerk and the official seal of the district attached. The interest coupons of such bonds shall be signed by the treasurer. All such signatures, countersignatures and seal may be printed, lithographed or mechanically reproduced, except that one of such signatures or countersignatures on the bonds shall be manually affixed. If any officer whose signature or countersignature appears on bonds or coupons ceases to be such officer before the delivery of the bonds, his signature is as effective as if he had remained in office.

The bonds may be sold as the board determines by resolution but for not less than par. Before selling the bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

Delivery of any bonds may be made at any place either inside or outside the State, and the purchase price may be received in cash or bank credits.

All accrued interest received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds and the remainder of the proceeds of the bonds shall be placed in the treasury to the credit of the proper improvement fund and applied exclusively to the purpose for which the debt was incurred; provided, however, that when said purpose has been accomplished any moneys remaining in such improvement fund (a) shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, or (b) shall be placed in a fund to be used for the purchase of outstanding bonds of the district. The bonds may be purchased only after publishing pursuant to Section 6066 of the Government Code in the district a notice inviting sealed proposals for the sale of bonds to the district. Such notice shall state the time and place when proposals will be opened and the amount of money available for the purchase

of the bonds and the maximum price to be paid for said bonds so purchased. Said notice may be published elsewhere in the United States in the discretion of the board. The board may reject any or all proposals and if it rejects all thereof, may within a period of 30 days thereafter purchase for cash any outstanding bonds of the district but in that event the purchase price shall not be more than the lowest purchase price at which bonds were tendered to the district in the public bidding Any bonds so purchased shall be canceled immediately.

After the expiration of three years after a general obligation bond election the board may determine, by ordinance adopted by two-thirds of all the members of the board, that any or all of the bonds authorized at said election remaining unsold shall not be issued or sold. When the ordinance takes effect, the authorization to issue said bonds shall become void.

Whenever the board deems that the expenditure of money for the purpose for which the bonds were authorized by the voters is impractical or unwise, it may, by ordinance adopted by two-thirds of all members of the board, so declare and call an election to be held in the district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of such bonds for some other purpose. The procedure, so far as applicable, shall be the same as when a bond proposition is originally submitted.

The board may provide for the issuance, sale or exchange of refunding bonds to redeem or retire any bonds issued by the district upon the terms, at the times and in the manner which it determines Refunding bonds may be issued in a principal amount sufficient to pay all or any part of the principal of such outstanding bonds, the interest thereon and the premiums, if any, due upon call and redemption thereof prior to maturity and all expenses of such refunding. The provisions for this section for authorization, issuance and sale of bonds shall apply to the authorization, issuance and sale of such refunding bonds; except that when refunding bonds are to be exchanged for outstanding bonds the method of exchange shall be as determined by the board.

The district shall not incur a general obligation bonded indebtedness which in the aggregate exceeds 15 percent of the assessed value of all real and personal property in the district.

To the extent that, pursuant to this act or otherwise, moneys are on hand and have been set aside in the proper special fund for the purpose of paying such principal and interest, the amount of money required to be raised by taxation during the fiscal year may be reduced and if all of the moneys required to be raised by such annual tax levy are actually on hand and have been set aside in said fund for said purpose from some such other source, the tax levy hereinbefore required for such year need not be made.

CHAPTER 676

An act to amend Section 226 of the Civil Code, relating to adoption proceedings.

[Approved by Governor May 31, 1963 Filed with Secretary of State June 1, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 226 of the Civil Code is amended to read:

226. Any person desiring to adopt a child may for that purpose petition the superior court of the county in which the

petitioner resides and the clerk of the court shall immediately notify the State Department of Social Welfare at Sacramento in writing of the pendency of the action and of any subsequent action taken. In all cases in which consent is required, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, unless an agency licensed by the State Department of Social Welfare to find homes for children and place children in homes for adoption joins in the petition for adoption, the petition shall contain an allegation that the petitioners will file promptly with the department or the county adoption agency information required by the department in the investigation of the proposed adoption. The department or county adoption agency shall interview the parties to the adoption as soon as possible and in any event within 45 days after the filing of the adoption petition. The consent of the natural parent or parents to the adoption by the petitioners must be signed in the presence of an agent of the State Department of Social Welfare or of a licensed county adoption agency on a form prescribed by such department and filed with the clerk of the superior court, in the county of the petitioner's residence.

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to accept the consent of the natural parents to the adoption of the child by the petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing its report with the court.

In all cases in which the consent of the natural parent or parents is not necessary and an agency licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare or the licensed county adoption agency shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social Welfare or the licensed county adoption agency unless the child's welfare will be promoted by the adoption.

Except in the case of the adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the

granting of the petition within 180 days after the filing of the petition. In those cases in which the investigation establishes that there is a serious question concerning the suitability of the petitioners or the care provided the child or the availability of the consent to adoption the report shall be filed immediately. The court may allow such additional time for the filing of said reports as in its discretion it may see fit, after at least five days' notice to the petitioner or petitioners and opportunity for such petitioner or petitioners to be heard with respect to the request for additional time. The report required of the Department of Social Welfare or of the licensed county adoption agency may be waived by the department in all cases in which an agency, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Whenever any report or findings are submitted to the court by the Department of Social Welfare or by a licensed county adoption agency under any provision of this section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of record, or to the petitioner.

If the findings of the State Department of Social Welfare or the county adoption agency are that the home of the petitioners is not suitable for the child or that the required consents are not available and it recommends that the petition be denied, or if the petitioners desire to withdraw the petition, and it recommends that the petition be denied, the county clerk upon receipt of the report of the State Department of Social Welfare or the county adoption agency shall immediately refer it to the superior court for review.

Upon receipt of such reports the court shall set a date for a hearing of the petition and shall give reasonable notice of such hearing to the agency, the petitioners, and the natural parents, by certified mail to the address of each as shown in the proceeding.

The department or county agency shall appear to represent the child.

In case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare.

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts, and in such case the consent of the Department of Social Welfare or of a licensed county adoption agency will also be necessary, but such consent shall not be necessary where the adoption is by a stepparent and one natural parent retains custody and control of the child

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation by reason of such minority.

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare or the licensed county adoption agency fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department or agency fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department or agency shall within 10 days file a report of its findings and the reasons for its failure or refusal or consent to the adoption or to accept the consent of the natural parent After the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department or agency to consent thereto, grant the petition without such consent.

[Approved by Governor May 31, 1963. Filed with Secretary of State June 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13 of the Napa County Flood Control and Water Conservation District Act (Chapter 1449, Statutes of 1951) is amended to read:

Sec. 13. The board shall have power, in any year:

1. To levy ad valorem taxes or assessments upon all property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district; provided, however, that said ad valorem tax or assessment shall not exceed fifteen cents ($0 15) on each one hundred dollars ($100) of assessed valuation.

3. To levy taxes or assessments by either method authorized by subdivision 2 of this section in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district taxes or assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of subdivision 2 or 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

SEC. 2. Section 14 of said act is amended to read:

Sec. 14. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the recorder of Napa County within five (5) days after its issuance From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue

derived from annual taxes or assessments levied as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published pursuant to Government Code Section 6066 in a newspaper of general circulation circulated in each zone and participating zone affected. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election two-thirds (⅔)

of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of a bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring a bonded indebtedness to be undertaken by such zone.

SEC. 3. Section 15 of said act is amended to read:

Sec. 15. Such project can be financed only by bonds of such zone to be authorized at a bond election which must be held in said zone as soon as possible. The amendments to the Napa County Flood Control and Water Conservation District Act set forth in this act must be effective before said bond election is called so that said zone may be properly formed and so that, if said bonds are authorized at said election, said project can be properly financed on terms that are in the best interests of said district by a bond issue that is marketable and that will not jeopardize the financing of future projects in said district. It is accordingly necessary that this act take effect immediately.

Sec. 6. All powers, privileges and duties vested in or imposed upon any authority incorporated hereunder shall be exercised and performed by and through a board of directors; provided, however, that the exercise of any and all executive, administrative and ministerial powers may be by said board of directors delegated and redelegated to any of the offices created hereby or by the board of directors acting hereunder.

The board of directors herein referred to shall consist of at least one representative from each public agency, the area of which shall lie within the authority. Such representatives shall

be designated and appointed by the chief executive officers of said public agencies, respectively, with the consent and approval of the legislative bodies of the said public agencies, respectively.

Members of the board of directors shall hold office for a term of six years, and until their successors are appointed and qualified; provided, that the terms of the members of the first board shall be determined by lot so that the terms of not less than one-half of the members shall be for three years and the terms of the remainder shall be six years; provided further, that every member shall be subject to recall by the voters of the public agency from which such member is appointed, in accordance with the recall provisions of the freeholders' charter or other law applicable to such public agency; and provided further, that any member may be recalled by the majority vote of the governing body of the public agency from which such member is appointed.

The affirmative votes of members representing more than fifty (50) percent of the total number of votes of all the members shall be necessary, and, except as otherwise herein provided, shall be sufficient to carry any order, resolution or ordinance coming before the board of directors; provided, however, any meeting may be adjourned or recessed from day to day or from time to time, by vote of the director or directors present, irrespective of the number of directors present or the number of votes represented at such meeting. For the purposes of this section, the term "major fractional part" shall be deemed to mean a fractional part larger than one-half.

If at any time, whether before or after the final submission of the case to the jury, a juror dies or becomes ill, or upon other good cause shown to the court is found to be unable to perform his duty, or if a juror requests a discharge and good cause appears therefor, the court may order him to be discharged and draw the name of an alternate, who shall then take his place in the jury box, and be subject to the same rules and regulations as though he had been selected as one of the original jurors.

or water rights within or without the district, used or useful for any purpose of the district or of common benefit to any land situated therein, or involving the wasteful use of water therein; to commence, maintain, intervene in, defend and compromise and to assume the cost and expenses of any and all actions and proceedings now or hereafter begun; to prevent interference with or diminution of, or to declare rights in the natural flow of any stream or surface or subterranean supply of waters used or useful for any purpose of the district or of common benefit to the lands within the district or to its inhabitants; to prevent unlawful exportation of water from said district; to prevent contamination, pollution or otherwise rendering unfit for beneficial use the surface or subsurface water used or useful in said district, and to commence, maintain and defend actions and proceedings to prevent any such interference with the aforesaid waters as may endanger or damage the inhabitants, lands, or use of water in, or flowing into, the district; provided, however that said district shall not have power to intervene or take part in, or to pay the costs or expenses of, actions or controversies between the owners of lands or water rights which do not affect the interests of the district.

7. To control the flood and storm waters of said district and the flood and storm waters of streams that have their source outside of said district, but which streams and the floodwaters thereof, flow into said district, and to conserve such waters for beneficial and useful purposes within said district by retarding, spreading, storing, retaining and causing to percolate into the soil within or without said district, or to save and conserve in any manner all or any of such waters and protect from damage from such flood or storm waters and watercourses, watersheds, harbors, public highways, life and property in said district.

8. To have and exercise the right of eminent domain, either within or without said district, and in the manner provided by law for the condemnation of private property for public use to take any property necessary to carry out any of the objects or purposes of this act, whether such property be already devoted to the same use by any district or other public corporation or agency or otherwise, and to condemn, any existing works or improvements in said district now or hereafter used to control flood or storm waters or to conserve such flood or storm waters or to protect any property in said district from damage from such flood or storm waters, and it is hereby declared that the use of the property, lands, rights-of-way, easements, or materials which may be condemned, taken or appropriated under the provisions of this act, is a public use subject to the regulation and control of the State in the manner prescribed by law; provided, however, that nothing in this act contained shall be deemed to authorize said district, or any person or persons to divert the waters of any river, creek, stream, irrigation system, canal or ditch,

from its channel, to the injury or detriment of any person, or persons, having any interest in such river, creek, stream, irrigation system, canal or ditch, or the waters thereof or therein, unless compensation be first ascertained and paid therefor, under the laws of this State authorizing the taking of private property for public use, except as provision is made in the Constitution of the State for the taking of immediate possession of certain properties; provided further, however, that the district in exercising such powers shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction or relocation of any structure, railroads, mains, pipes, conduits, wires, cable, poles of any public utility which is required to be reconstructed or relocated.

12. To make contracts and to employ labor and professional services and to do all acts necessary for the full exercise of all powers vested in said district, or any of the officers thereof by this act.

Provided, that in the exercise of the powers vested in it by this act, with respect to lands lying without the exterior boundaries of the County of San Mateo, said San Mateo County Flood Control District shall obtain, prior to the taking of any action to carry out the purposes of this act without said boundaries, written approval of the action from the governing body of each affected county, city and county, and city.

13. To plan, improve, operate, maintain, and keep in a sanitary condition, a system of public parks, playgrounds, beaches, swimming areas and other facilities for public recreation, for the use and enjoyment of all inhabitants of the district, as an incident to the carrying out of the projects of the district and on land acquired or used for the flood control drainage and water conservation purposes of this act; to construct, maintain, and operate any other amusement or recreational facilities on such lands, including picnic benches and tables, bathhouses, golf courses, tennis courts, or other special amusements and forms of recreation; to fix and collect reasonable fees for the use by the public of any such special facilities, services or equipment; and to adopt such rules and regulations as in the discretion of the board are necessary to the orderly operation and control of the use by the public of such lands and facilities for recreational purposes; provided, however, that the board shall not, for the purposes specified in this subdivision, interfere with control or operation of any existing public park, playground, beach, swimming area, parkway, recreation ground, or other public property, owned or controlled by any other district or municipality, except with the consent of the governing body of such district or municipality, and upon terms as may be mutually agreed upon between the board and the governing body.

SEC. 3. Section 8 of said act is amended to read:

Sec. 8. The board of supervisors of said district shall have power, in any year:

1. To levy taxes or assessments in each or any of the zones of the district to pay the cost and expenses of administering, engineering, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said zone or zones, according to the benefits derived or to be derived by said respective zones, by either of the following methods:

(a) By a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property;

(b) By a levy or assessment upon all real property within a zone or participating zone, including both land and improvements thereon.

It is declared that for the purposes of any tax or assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

2. To levy taxes or assessments by either method authorized by subdivision 1 of this section in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, administering, engineering, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said zone or zones.

3. To levy taxes or assessments for any improvements to be made within a zone within which one or more subzones are established pursuant to Section 10.1 of this act in the manner provided by, and subject to the limitations of, that section.

4. Said taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from said taxes shall be paid into the county treasury to the credit of said district, and said board of supervisors shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of subdivision 1 of this section shall be expended for administering, engineering, constructing, maintaining, operating, extending, repairing, or otherwise improving any works or improvements located in any other zone except as provided in Section 11 hereof; and provided, further, however, that the maximum tax or assessment rate for any zone or subzone established pursuant to Section 10 hereof shall be fixed by the board in its resolution establishing the zone or subzone but the aggregate taxes or assessments levied in any zone or subzone established under this act for any fiscal year shall not exceed the maximum tax or assessment rate so established by the board, nor shall such taxes or assessments exceed forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation of the taxable property in such zone or subzone, whichever is less, exclusive of any tax levied to meet the bonded indebtedness of any such zone or subzone and the interest thereon, unless a majority of the electors voting at an election held for that purpose are in favor of a higher maximum tax or assessment rate for such zone or subzone. Any election on the question of increasing the maximum tax or assessment rate to be levied in any such zone or subzone shall be held and conducted in the same manner as is provided in this act for the holding and conducting of special bond elections within zones.

SEC. 2. Section 10.1 is added to the San Mateo County Flood Control District Act (Ch. 2108, Stats. 1959), to read:

Sec. 10.1. The board shall, by resolution, at the time of the establishment of a zone pursuant to Section 10 of this act, order the formation of any subzone within such a zone where, in the opinion of the board, the contemplated improvements authorized by this act will be financed by the incurring of a bonded indebtedness and are of special benefit to any such subzone, and are not of equal benefit to the entire zone within which any such subzone is proposed to be established. Notice of the intention to form any such subzone or subzones within a zone shall be given in the same manner as the notice of hearing on the formation of a zone pursuant to Section 10 of this act. Any such subzone may be formed within the zone without regard to the boundaries of any natural drainage basin and the board may form as many subzones within a zone as may, in the opinion of the board, be necessary. At the time of the formation of any such subzone the board shall determine, after engineering studies for such purpose, the percentage (%) of benefit from the improvements proposed to be made within the zone to inure to the property in any such subzone. In the event that any bonded indebtedness is thereafter incurred within a zone established pursuant to Section 10 of this act which contains one or more such subzones, the property within each such subzone shall be taxed to pay that percentage (%) of the principal and interest of such bonded indebtedness determined to be the percentage (%) of benefit to the property within such subzone, by the board in the manner above mentioned. In the event that any tax or assessment for improvements is thereafter levied within a zone established pursuant to Section 10 of this act which contains one or more such subzones, the property within each such subzone shall be taxed or assessed to pay that percentage of the improvement costs determined to be the percentage of benefit to the property within such subzone by reason of such improvements.

The board may, after the establishment of any zone pursuant to Section 10 of this act, establish any such subzone after such notice and public hearing as the board may deem necessary in connection therewith and may fix the percentage (%) of benefit therefor in the same manner and for the same purpose as for a subzone established at the time of the establishment of the zone, provided, however, that no such subzone established within a zone after a bonded indebtedness has been approved by the voters within such zone shall be effective for the purpose of determining the percentage of principal and interest on any such bonded indebtedness to be borne by such subzone except with respect to a bonded indebtedness approved by the voters after the formation of such subzone. In the event that one or more subzones have been established within a zone pur-

suant to this section, any proposition for the incurring of a bonded indebtedness within a zone, or for increasing the maximum tax rate within the zone or subzone, shall indicate the fact that such subzone or subzones have been established in such manner as the board may deem appropriate.

The procedure for the levy and collection of taxes within each such subzone for the purpose herein provided in this section shall be the same as the procedure for the levy and collection of taxes within a zone established pursuant to Section 10 of this act.

SEC. 3. Section 10.2 is added to said act, to read:

Sec. 10.2. In any fiscal year in which a tax or assessment is to be levied within a zone or subzone which contains part or all of the territory of any city, any such city may, if the express approval of the board is obtained, pay, in lieu of such tax or assessment to be levied in such city, from any funds of the city available therefor, an amount equal to the total taxes or assessments which would otherwise be derived from the taxable property of such city by the levy of the tax or assessment during such fiscal year within the zone or subzone containing such taxable property of such city. In the event that the payment in lieu of taxes or assessments herein provided for is made by a city prior to the commencement of any fiscal year, no tax or assessment levied within the zone or subzone containing the taxable property of such city shall be levied or collected within the territory of the city during such fiscal year. In the event that a city elects to, and does, with the approval of the board, make any such payment in lieu of a tax or assessment for any one fiscal year for the purpose herein provided, such city shall continue to be obligated to make such payments in lieu of such tax or assessment in succeeding fiscal years unless on or before February 1st of any year the legislative body of such city notifies the board that the city will not make such payments during subsequent fiscal years commencing on the July 1st after the giving of such notice.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act would add provisions which will enable the San Mateo Flood Control District to undertake certain urgently needed flood control projects. Unless these projects can be begun during the summer of 1963, there may be a dangerous threat of flooding in the winter of 1963-4 when the heavy rainfall begins. The possible loss of life and property requires that the projects be started at the earliest possible moment. It is therefore essential that this act go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 25350 of the Government Code is amended to read:

25350. No purchase of real property, including any water right or other interest therein, of which the purchase price is

If no newspaper is published in the county, the notice shall be posted at least three weeks prior to the time the board meets to consummate the purchase in at least three public places in each supervisorial district. The notice shall contain a description of the property proposed to be purchased, the price, the vendor, and a statement of the time the board will meet to consummate the purchase.

Nothing contained in this section shall be deemed to preclude the settlement of an action in eminent domain or the acquisition of any real property or interest therein for the uses and purposes of county highways without compliance with this section.

CHAPTER 731

An act to add Section 31469.6 to the Government Code, relating to the County Employees Retirement Law of 1937.

[A.B. 1363 having remained with the Governor 10 days (Sundays excepted), and the Legislature being in session, it became law without his signature. (See Section 9516, Government Code.) Filed with Secretary of State June 3, 1963.]

CHAPTER 732

An act to amend Section 446 of the Code of Civil Procedure, relating to verification of pleadings.

[Approved by Governor June 4, 1963. Filed with Secretary of State June 4, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 446 of the Code of Civil Procedure is amended to read:

446. Every pleading (except in justice courts when the pleadings are oral) shall be subscribed by the party or his

attorney. When the State, any county thereof, city, or school district, or any officer of the State, or of any county thereof, city, or school district, in his official capacity, is plaintiff, the answer shall be verified, unless an admission of the truth of the complaint might subject the party to a criminal prosecution, or, unless a county thereof, city, or school district, or an officer of the State, or of any county, city, or school district, in his official capacity, is defendant. Except in justice courts, when the complaint is verified, the answer shall be verified. In all cases of a verification of a pleadings, the affidavit of the party shall state that the same is true of his own knowledge, except as to the matters which are therein stated on his information or belief, and as to those matters that he believes it to be true; and where a pleading is verified, it shall be by the affidavit of a party, unless the parties are absent from the county where the attorney has his office, or from some cause unable to verify it, or the facts are within the knowledge of his attorney or other person verifying the same. When the pleading is verified by the attorney, or any other person except one of the parties, he shall set forth in the affidavit the reasons why it is not made by one of the parties.

When a corporation is a party, the verification may be made by any officer thereof. When the State, any county thereof, city, or school district, or any officer of the State, or of any county thereof, city, or school district, in his official capacity is plaintiff, the complaint need not be verified; and if the State, any county thereof, city, or school district, or an officer of such state, county, city, or school district in his official capacity is defendant, its or his answer need not be verified.

When the verification is made by the attorney for the reason that the parties are absent from the county where he has his office, or from some other cause are unable to verify it, or when the verification is made on behalf of a corporation or public agency by any officer thereof, such attorney's or officer's affidavit shall state that he has read the pleading and that he is informed and believes the matters therein to be true and on that ground alleges that the matters stated therein are true; provided that in such cases the pleading shall not otherwise be considered as an affidavit or declaration establishing the facts therein alleged.

A person verifying a pleading need not swear to the truth or his belief in the truth of the matters stated therein but may, instead, assert the truth or his belief in the truth of such matters "under penalty of perjury."

CHAPTER 733

An act to amend Section 2943 of, and to repeal Section 2954, as added by Chapter 1561 of the Statutes of 1961, of the Civil Code, relating to mortgages and deeds of trust.

[Approved by Governor June 4, 1963. Filed with Secretary of State June 4, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 2943 of the Civil Code is amended to read:

2943. A mortgagee or beneficiary of a deed of trust, or his assignees, or his authorized agent, shall, on the written demand of the mortgagor or trustor, or his authorized agent or his successor in interest, made before the recording of a notice of default under a deed of trust containing a power of sale or before the commencement of a foreclosure proceeding or recordation of notice of default, prepare and deliver to him a written statement showing:

(a) The amount of the unpaid balance of the obligation secured by the mortgage or deed of trust and the interest rate.

(b) The amounts of periodic payments, if any.

(c) The date on which the obligation is due in whole or in part.

(d) The date to which real estate taxes and special assessments have been paid to the extent such information is known to the lender.

(e) The amount of hazard insurance in effect and the term and premium of such insurance to the extent such information is known to the lender.

(f) The amount in an account, if any, maintained for the accumulation of funds with which to pay taxes and insurance premiums.

If demand is made by an agent of the trustor or by the successor in interest of the trustor, the beneficiary may, before delivering a statement, require reasonable proof that the person making the demand is, in fact, an authorized agent or a successor in interest, in which event the beneficiary shall not be subject to the penalties of this section until 21 days after receipt of statement by the trustor or his successor in interest appointing the authorized agent or successor in interest. A statement in writing signed by the trustor or his successor in interest appointing an authorized agent when delivered personally to the mortgagee or beneficiary or delivered by registered return receipt mail shall constitute reasonable proof as to the identity of an agent. Similar delivery of a policy of title insurance, preliminary report issued by a title company, original or photographic copy of a grant deed or certified copy of letters

testamentary, guardianship, or conservatorship shall constitute reasonable proof as to the identity of a successor in interest, provided the person demanding a statement is named as successor in interest in the document.

Delivery of the statement by the mortgagee or beneficiary, as herein referred to, shall mean depositing or causing to be deposited in the United States mail an envelope, with postage prepaid, containing a copy of the statement, addressed to the person whose name and address is set forth in the demand therefor.

If a mortgagee or beneficiary under a deed of trust, or his assignee, for a period of 21 days after receipt of such written demand willfully fails to prepare and deliver such statement, he is liable to the mortgagor or trustor or his successor in interest for all damages which he may sustain by reason of such refusal and, whether or not actual damages are sustained, he shall forfeit to the mortgagor or trustor the sum of one hundred dollars ($100). Each such failure to prepare and deliver such a statement, occurring at a time when, pursuant to this section, the mortgagee or trustee, is required to prepare and deliver the statement, creates a separate cause of action, but a judgment awarding a mortgagor or trustor such forfeiture, or damages and forfeiture, for any such failure to prepare and deliver a statement bars recovery of such damages and forfeiture for any other failure to prepare and deliver a statement, with respect to the same obligation, in compliance with a demand therefor made within six months before or after the demand as to which the award was made.

If the mortgagee or beneficiary of a deed of trust, or his assignee, has more than one branch, office or other place of business, then the demand shall be made to the branch or office at which the payments of the obligation are made, and the statement, unless it specifies otherwise, shall be deemed to apply only to the unpaid balance owing to or payable at the branch or office secured by the mortgage or deed of trust.

The mortgagee or beneficiary of a deed of trust, or his assignees, may make a charge not to exceed fifteen dollars ($15) for furnishing the required statement, except that no charge shall be made for such statement unless such charge has been specifically provided for in such mortgage or deed of trust, and that this requirement for provision for such charge in the instrument shall not apply to mortgages or deeds of trust insured by the Federal Housing Administrator or guaranteed by the Administrator of Veterans Affairs.

This section applies only to mortgages and deeds of trust executed on or after January 1, 1964.

SEC. 2. Section 2954 of said code, as added by Chapter 1561, Statutes of 1961, is repealed.

SECTION 1. Section 6503 of the Public Resources Code is amended to read:

6503. Upon receipt of an application to lease lands under this chapter, the commission shall appraise the lands and fix the annual rental per acre or other consideration therefor; provided, no rental fee shall be charged for private recreational piers constructed for the use of a littoral land owner. A littoral land owner, as used in this section, shall be only a natural person or persons, using the littoral land solely for a private single-family dwelling house and shall not include the owner of unimproved land.

[Approved by Governor June 4, 1963. Filed with Secretary of State June 4, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 813 is added to the Civil Code, to read:

813. The holder of record title to land may record in the office of the recorder of any county in which any part of the land is situated, a notice of consent to the use of his land, or any portion thereof, for the purpose described in the notice. The recorded notice of consent is evidence that subsequent use of the land for such purpose is permissive and with consent. The notice of consent may be revoked by the holder of record title by recording a notice of revocation in the office of the recorder wherein the notice of consent is recorded.

In the event of use by other than the general public, any such notices, to be effective, shall also be served by registered mail on the user.

[Approved by Governor June 4, 1963. Filed with Secretary of State June 4, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any provision of the Small Craft Harbors Law (Division 5.7 (commencing with Section 5801) of the Public Resources Code), the City of Santa Barbara may use all or any portion of the loan of one hundred eighty thousand dollars ($180,000) authorized to be made to it by the Small Craft Harbors Commission to reimburse itself for expenditures that have been made by it in the development of its small craft harbor subsequent to the authorization of such loan and in anticipation of the receipt thereof.

SEC. 2. The Legislature hereby finds and declares that this special act relating only to the City of Santa Barbara is necessary in view of the special facts existing only with respect to the city. A loan of seven hundred thousand dollars ($700,000) had been made to the city for the development of a small craft harbor project. Due to various factors, expenditure of additional money became necessary in order to complete the project. In November of 1962, the Small Craft Harbors Commission authorized an additional loan of one hundred eighty thousand dollars ($180,000) to the city for the completion of the project. Upon such authorization being made, the city, acting in good faith and in the belief that when the additional loan was actually made it could reimburse itself from the proceeds, went ahead with work on the project, expending its own funds. There is no authority granted by the Small Craft Harbors Law for the use of loan proceeds for such reimbursement. This act is necessary, therefore, to provide an equitable remedy for this special problem affecting the City of Santa Barbara.

CHAPTER 740

The limitations contained in Sections 1192.4 and 1198 are not applicable to such investments.

Such investments shall not be included in determining the propriety of other investments of the company. The liability of the company with respect thereto, but only to the extent prescribed in the agreement, shall be shown on the statement of the company in the manner prescribed by the commissioner. Amounts allocated by an insurance company to separate accounts in the exercise of the power granted by this section shall be owned by the company, and the company shall not be, or hold itself out to be, a trustee in respect to such amounts.

(b) The provisions of this section shall not apply to amounts contributed by a participant who is entitled to retirement or other incidental benefits under a pension, retirement or profit-sharing plan nor to any amounts which have been applied to the purchase of retirement or other incidental benefits under the policies or contracts of the company.

SECTION 1. Article 7.6 (commencing with Section 53850) of Chapter 4, Part 1, Division 2, Title 5 of the Government Code is repealed.

SEC. 2. Article 7.6 (commencing with Section 53850) is added to Chapter 4, Part 1, Division 2, Title 5 of said Code, to read:

Article 7.6. Temporary Borrowing

53850. As used in this article, "local agency" means county, city and county, city, school district of any type, junior college district, or any other municipal or public corporation or district.

53851. The powers conferred by this article are in addition to and an alternative to any power conferred by any other law for borrowing by a local agency and any amount borrowed hereunder shall not be considered in any limitation on the amount which may be borrowed by any such local agency under any other law.

53852. On or after the first day of any fiscal year a local agency may borrow money pursuant to this article, such indebtedness to be represented by a note or notes issued to the lender pursuant to this article. The money borrowed may be used and expended by the local agency for any purpose for which the local agency is authorized to expend funds, including but not limited to current expenses, capital expenditures, and the discharge of any obligation or indebtedness of the local agency.

53853. The note or notes shall be issued pursuant to a resolution authorizing the issuance thereof adopted by the legislative body of the local agency, except that the note or notes of a school or junior college district shall be issued in the name of the school or junior college district by the board of supervisors of the county, the county superintendent of which has jurisdiction over the school or junior college district, as soon as possible following receipt of a resolution of the governing board of the school or junior college district requesting the borrowing. Notes authorized to be issued may be issued from time to time as provided in said resolution. Said resolution shall set forth the form and the manner of execution of the note or notes.

53854. Any note issued under this article may be negotiable, may be payable to order or to bearer, may be in any denomination, shall be payable not later than the last day of the fiscal year in which it is issued, and may bear interest not to exceed 6 percent per annum, payable as provided therein. Such interest may be represented by coupons attached to said note.

53855. The resolution authorizing the issuance of any note may provide that such note shall be subject to call and redemption prior to maturity, at the option of the local agency, at such price or prices as may be fixed in the resolution, not exceeding a premium of 3 percent of the par value of the note so subject to redemption. The resolution shall fix the method of giving notice of redemption to the holder of the note to be redeemed and the price or prices at which the note shall be subject to redemption. A note so subject to call and redemption prior to maturity shall contain a recital to that effect on its face, and no note shall be subject to call or redemption prior to its fixed maturity date unless it contains such recital.

53856. Any taxes, income, revenue, cash receipts or other funds of the local agency, including funds deposited in inactive or term deposits, may be pledged to the payment of the

note or notes and the interest thereon, except, however, that no funds which, when received by the local agency, will be encumbered for a special purpose may be pledged for the payment of the note or notes or the interest thereon unless an equivalent amount of the proceeds from said note or notes is set aside for and used for said special purpose. The note or notes and the interest thereon are a first lien upon and charge against the taxes, income, revenue, cash receipts or other funds pledged for the payment thereof.

53857. Notwithstanding the provisions in Section 53856, any note issued pursuant to this article shall be a general obligation of the local agency and, to the extent not paid from the taxes, income, revenue, cash receipts or other funds of the local agency pledged for the payment thereof, shall be paid with the interest thereon from any other funds of the local agency lawfully available therefor.

53858. Notes shall not be issued pursuant to this article in any fiscal year in an amount which, when added to the interest payable thereon, shall exceed 85 percent of the estimated amount of the then uncollected taxes, income, revenue, cash receipts and other funds of the local agency which will be available in said fiscal year for the payment of said notes and the interest thereon; provided, however, that to the extent that any principal of or interest on such notes is secured by a pledge of the amount in any inactive or term deposit of the local agency, the term of which will terminate during said fiscal year, such principal and interest may be disregarded in computing said limit.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of municipal and public corporations and such functioning depends upon the power of such municipal and public corporations to borrow money in any fiscal year before the receipt of taxes, income, revenue, cash receipts or other funds, and it is therefore imperative and essential that such power be granted so that during the period before this act would otherwise become effective municipal and public corporations can borrow funds to be used to pay current expenses, capital expenditures, and the discharge of any obligation or indebtedness of such corporations, including but not limited to, the expenditure of funds to provide police and fire protection, safety, sanitary facilities, waterworks, schools and other facilities and works immediately needed for the public peace, health and safety.

The resolution shall be passed by a vote of at least two-thirds of the members of the governing body. It shall describe the sewer work or improvement in general terms. For the purpose of such description, reference may be made to maps, plats, plans, or other documents on file in the office of the clerk of the city. Any sewer work or improvement may be combined into a single project, the indebtedness for which is to be submitted to the electors as a single proposition.

SEC. 16. Section 4610.5 is added to said code, to read:

4610.5. Copies of the resolution shall also be posted in three public places within the proposed district not earlier than the 60th day or later than the 30th day prior to the hearing. Not earlier than 60 nor later than 30 days prior to the hearing, a copy of the resolution shall also be mailed,

postage prepaid, to each person to whom land in the proposed district is assessed as such owner is shown on the last equalized county assessment roll, at his address as shown upon the roll, and to each person who has any interest in any land within the proposed district whose name and address and a designation of the land in which he is interested is on file in the office of the city clerk. Any error, omission, or mistake in such mailing, or any failure of any person to receive such copy shall not invalidate the proceedings pursuant to this chapter.

SEC. 17. Section 4611 of said code is amended to read:

4611. On the day fixed for the hearing, or any day to which the hearing is continued, the governing body shall hear and consider all written and oral objections presented to the formation of the district, the inclusion of any lands in the district, or the doing of the sewer work or improvement which is proposed.

At the hearing, the governing body may make changes in the sewer work or improvement but the estimated costs and expenses of the sewer work or improvement as changed, as determined by the governing body at the time of the change, shall not exceed by more than 10 percent the amount determined under Section 4607.

At the hearing, the governing body may exclude from the district any territory that in its opinion would not be benefited by the sewer work or improvement as finally determined. The governing body shall not, however, modify the boundaries of the proposed district so as to exclude from it any land which would in the judgment of the governing body be benefited by the sewer work or improvement as finally determined nor shall the governing body include in the proposed district any lands which will not in its judgment be so benefited.

SEC. 18. Section 4611.5 is added to said code, to read:

4611.5. At the hearing, the governing body may add territory to the district if the owners of all of the land in the territory which is proposed to be added to the district have requested such addition in writing, or the governing body has first adopted a resolution of intention to do so. The resolution shall describe the boundaries of the territory which is proposed to be added to the district and shall state the time and place to which the hearing will be continued for the purpose of hearing objections to the proposed addition. Not later than 20 days before the time of such continued hearing, a copy of such resolution shall be mailed, postage prepaid, to each person to whom land in the territory which is proposed to be added to the district is assessed, as such owner is shown on the last equalized county assessment roll, at his address as shown upon the roll. A copy of such resolution shall also be mailed to each person who has any interest in any land within such territory whose name and address and a designation of the land in which he is interested is on file in the office of the city clerk. Any error, omission, or mistake in such mailing, or any

failure of any person to receive such copy shall not invalidate the proceedings pursuant to this chapter.

At the continued hearing, the governing body shall hear all objections to the proposed addition and may then take action adding to the district all or part of the territory which is described in the resolution of intention.

SEC. 19. Section 4612 of said code is amended to read:

4612. After making all necessary and proper changes in the boundaries, or in the sewer work or improvement, the governing body may, by a resolution which is passed by a vote of two-thirds of all of its members, establish the district, fix and determine its boundaries, and generally describe the sewer work or improvement as finally determined. This resolution, together with the names of the members of the governing body voting for and against it shall be spread upon the minutes of the governing body.

SEC. 20. Section 4613 is added to said code, to read:

4613. A certified copy of the resolution which establishes the district shall be recorded in the office of the county recorder. Certified copies of such resolution, together with a map or plat which shows such boundaries, shall also be filed with the county assessor, the county clerk, and the State Board of Equalization. Upon such recordation in the office of the county recorder, the district is organized. No action or proceeding which contests the validity of the district or its organization shall be had or taken in any court, state or federal, unless it is commenced within 60 days from the date of the recordation of the resolution establishing the district in the office of the county recorder.

SEC. 21. Section 4614 1 of said code is amended to read:

4614.1. Districts may be formed pursuant to this article for the purpose of doing any sewer work or improvement which will be of benefit to territory partially within the initiating city and partially within any other city or within unincorporated area of the same county, or both.

SEC. 22. Section 4614 2 of said code is amended to read:

4614.2. Any city may initiate proceedings for the formation of a district and the doing of sewer work or improvement pursuant to this article whenever the governing body of such city determines that it is desirable that a district be organized pursuant to this article. Except as otherwise provided in this article, the procedure for the formation of a district pursuant to this article shall be the same as the procedure which is provided in this chapter where the district is within a single city.

SEC. 23. Section 4614 3 of said code is amended to read:

4614.3. If the proposed district includes any part of any other incorporated city, the governing body of the initiating city shall file with the governing body of each such other city a certified copy of its resolution adopted pursuant to Section 4607, which resolution shall contain a request that the governing body of each such other city consent to the formation of such district. The governing body of the initiating city shall

not form the district unless prior to the conclusion of the hearing which is provided for by Section 4611 the governing body of each city, any part of which is proposed to be included in the district, by resolution, consents to the formation of the district.

The governing body of the initiating city shall not form the district unless prior to the conclusion of the hearing which is provided for by Section 4611 the board of supervisors of the county in which such unincorporated territory is located, by resolution, consents to the formation of the district which will include such unincorporated territory within its boundaries.

Whenever the governing body of each city which is included in whole or in part within the district which is to be organized, and the board of supervisors if the district includes any unincorporated territory, has consented to the formation of the district by filing a resolution of concurrence with the governing body of the initiating city, the governing body of the initiating city has full jurisdiction to proceed with the formation of the proposed district. Upon the filing with the governing body of the initiating city of all necessary concurring resolutions of the governing body of any city or of the board of supervisors of the county, as the case may be, the governing body of the initiating city has the sole and exclusive jurisdiction to proceed with the formation of the district, to conduct all hearings on the formation of the district, to make all necessary changes in the boundaries of the proposed district or the sewer work or improvement, to conduct all proceedings on the formation of the district and to take any other action permitted by this chapter with like force and effect as though such district were wholly within the boundaries of the initiating city. The governing body of the initiating city shall not, however, add to the district at the hearing which is provided for by Section 4611 any territory within another city or within unincorporated territory unless it first obtains a consent to such addition which is expressed by a resolution adopted by the governing body of such other city or by the board of supervisors, as the case may be.

The county auditor shall determine the rate of taxation which shall be clearly sufficient to raise such amount. The county auditor shall compute and enter in a separate column in the county assessment roll the respective sums to be paid as the district tax on the taxable property in the district. The board of supervisors of the county in which the district is located shall, at the time of fixing the general county tax levy and in the manner which is provided for such tax levy, levy and collect each year upon all of the taxable property in the district a tax in accordance with Section 4638 and, if applicable, Section 4639.5. 4647. After making all necessary and proper changes in the boundaries, the governing body may, by a resolution passed by a two-thirds vote of all its members order the annexation to the district of all or such part of the territory originally proposed to be annexed as the governing body determines will be benefited by such annexation and shall describe the boundaries of the territory annexed. This resolution, together with the names of the members of the governing body voting for and against the resolution, shall be spread upon the minutes of the governing body. SECTION 1. Section 1263 of the Agricultural Code is amended to read:

1263. No person shall act as a commission merchant, dealer, broker, cash buyer, or agent without having obtained a license as provided in this chapter. Every person, before acting as a commission merchant, dealer, broker, cash buyer, or agent, as herein defined, shall file an application with the director for a license to transact the business of commission merchant, dealer, broker, cash buyer, or agent, and such application shall be accompanied by the license fee herein provided for each specified class of business. Separate applications shall be filed for each class of business.

The application shall in each case state the class or classes of farm products applicant proposes to handle, the full name

of the person applying for such license, and if the applicant be a firm, exchange, association or corporation, the full name of each member of the firm, or the names of the officers of the exchange, association or corporation shall be given in the application. Such application shall further state the principal business address of the applicant in the State of California and elsewhere and the name or names of the person or persons authorized to receive and accept service of summons and legal notices of all kinds for the applicant. The director shall require the applicant to make a showing of character, responsibility and good faith in seeking to carry on the business stated in the application, and may make investigations, hold hearings, and make determinations respecting such matters.

Should the applicant be a corporation or partnership, it shall likewise satisfy the director of the character, responsibility, and good faith of any or all persons connected with it in a responsible or managing position, such as manager, superintendent, officer, or director of a corporation, or manager, superintendent, or member of a partnership. Failure of any such person to satisfy the director of his character, responsibility, or good faith may be considered by the director as adverse to a showing of such qualifications by such corporation or partnership, and shall be good and sufficient grounds for the denial of an application for license or of the renewal thereof.

Previous conviction of a felony, previous bankruptcy, voluntary or involuntary, or previous violation of this chapter shall be considered by the director as adverse to a showing of such character, responsibility, or good faith on the part of any applicant, or on the part of any manager, superintendent, director, or officer of an applicant corporation, or on the part of any superintendent, manager, or member of an applicant partnership. The same considerations are applicable to an individual applicant who has previously been in a responsible or managing position with a corporation or partnership which has suffered revocation or suspension of license by reason of violation of this chapter or by reason of violation of Chapter 9, Division 6, of the Agricultural Code.

Any person adjudged a bankrupt, or any person against whose bondsman or bondsmen a claim or claims have been collected by the director in accordance with the provisions of this chapter or Chapter 9 (commencing at Section 1299.18) of Division 6 of this code, and who has not made full settlement with all producer-creditors, shall not be licensed by the director during the period of three (3) years from the date of such adjudication or collection.

In addition to the general requirements applicable to all classes of applications as in this section set forth, the following requirements shall apply to the class of applications noted:

(a) Commission Merchants. Each application shall include a complete schedule of commissions, together with itemized

listing of all charges for all services, and such designated commissions and charges shall not be changed or varied for the license period except by written contract between the parties or by written notice to the director. If changed by a written contract, such charges shall be clearly set forth in detail in said written contract Any services rendered for which charges are made, if not listed in the schedule on the application, shall be rendered on a strictly cost basis.

(b) Agents. Each application shall include such information as the director may consider proper or necessary, and shall include the name and address of applicant, and the name and address of the commission merchant, dealer, broker, or cash buyer represented or sought to be represented by said agent, and the written endorsement or nomination of such commission merchant, dealer, broker, or cash buyer.

The director shall thereupon issue to such applicant a license entitling the applicant to conduct the business described in the application at the place named in the application for a year from the date thereof or until the same shall have been suspended or revoked for cause; provided, however, that licenses of agents shall expire upon the date of expiration of the license of the principal for whom the agent acts. The director may also issue to each agent a card or cards, which shall bear the signature of said agent, separate cards being required for each principal. Any agent shall show said card or cards upon the request of any interested person. Any agent who displays a void or expired license card is guilty of a misdemeanor, punishable as provided in Section 1273 of this chapter.

Fraud or misrepresentation in making any application shall ipso facto work a revocation of any license granted thereunder. All indicia of the possession of a license shall be at all times the property of the State of California and each licensee shall be entitled to the possession thereof only for the duration of said license.

For filing the application herein described, each applicant must pay a fee as follows:

(a) Commission Merchants. Eighty dollars ($80) for each year; provided, that a person licensed as a slaughterer under the provisions of Article 13 (commencing at Section 359) of Chapter 2 of Division 3 of this code shall be entitled to be licensed as a commission merchant without payment of further fees.

(b) Dealers. Eighty dollars ($80) for each year.

(c) Brokers. Eighty dollars ($80) for each year.

(d) Cash Buyers. Eighty dollars ($80) for each year.

(e) Agents. Ten dollars ($10) for each license period of the principal.

Should any commission merchant, dealer, broker, or cash buyer fail, refuse, or neglect to apply for the renewal of a pre-existing license on or before the date of the expiration thereof, a penalty of ten dollars ($10) shall apply to and be

added to the original fee of eighty dollars ($80), and shall be paid by the applicant before the renewal license may be issued.

Any person who has applied for and obtained a license within the classification of commission merchant, or dealer, or broker, or cash buyer, in the manner and upon payment of the fee herein set forth, may apply for and secure a license in any or all of the remaining such classifications upon payment of a further fee in the amount of twenty-five dollars ($25) for each additional classification for which application is made, and upon further complying with those parts of this chapter regulating the licensing of the other particular classification involved. All licenses held by any licensee under the provisions of this section shall automatically expire on the expiration date of the original license for which the license fee of eighty dollars ($80) was paid.

SEC. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

Agent: Each application shall include such information as the director may consider proper or necessary, and shall include the name and address of the applicant, the name and address of the processor represented or sought to be represented by said agent, and the written endorsement or nomination of such processor.

Upon the filing of the application and fee as herein provided, the director shall issue to the applicant a license entitling the applicant to conduct the business described in the application. The license of an agent shall expire upon the date of expiration of the license of the processor for whom the

1571. In all cases in which the whereabouts of the parent is unknown, the county department shall refer the applicant to the district attorney at the time the application for assistance is signed.

In all cases in which the absent parent is in the county and his whereabouts is known, it shall be the duty of the county department to interview him as soon as possible after the application for assistance is signed. The county department shall determine his ability to support his children, make arrangements for his complying with his obligation to support, discuss his parental responsibilities, and explore the possibility of a reconciliation and the resumption of a parental relationship with his children. If the county department is unable to enter into a satisfactory support agreement with the absent parent within 45 days after the application for assistance is signed, the county department shall refer the case to the district attorney unless it has definitely determined that the man is financially incapable of supporting the child. If the absent parent is residing out of the county and his whereabouts is known, the county department may within its discretion at-

tempt to interview him for the same purposes and under the same condition as stated above.

Anything in this section to the contrary notwithstanding, it shall be the duty of the county department to refer to the district attorney any case in which one or more of the following factors appear:

5. Legal action is necessary to establish paternity.

6. The absent parent has entered into an agreement with the county department to support his child and without good cause has failed to comply with that agreement for an unreasonable period which in no event shall exceed 60 days.

The county department shall co-operate with the district attorney and shall report to him all information contained in the case record which concerns the question of nonsupport and the suitability of prosecution as a method of obtaining support for the child in each case.

Upon referral the district attorney shall immediately investigate the question of nonsupport and shall take all steps necessary to obtain support for the needy child. However, upon the advice of the county department that a child is being considered for adoption, the district attorney shall delay his investigation and other action with respect to the case until advised that the adoption is no longer under consideration.

The granting of aid to the applicant shall not be delayed or contingent upon investigation by the district attorney.

The county department shall immediately notify the district attorney of the county whenever aid is granted to a child who is not being supported by a parent unless it is definitely established that the parent is financially incapable of providing such support. Such notice shall require no action by the district attorney unless and until the case has been referred to him by the county department.

As soon as possible after the person is apprehended, the district attorney of the county in which the person is present shall file a petition in the superior court alleging the facts of the escape, and requesting an immediate hearing on the question of whether the person has escaped from a public mental hospital in another state within five years prior to his apprehension. The hearing shall be held within three days after the day on which the person was taken into custody. If the court finds that the person has not escaped from such a hospital within five years prior to his apprehension, he shall be released immediately.

If the court finds that the person did escape from a public mental hospital in another state within five years prior to his apprehension, the superintendent or physician in charge of the quarters provided in such county hospital or state hospital may care for and treat the person, and the district attorney of the county in which such person is present immediately shall present to a judge of the superior court a petition asking that the person be committed to a state hospital in this State. The hearing on the petition shall be held within seven days after the court's determination in the original hearing that the person did escape from a public mental hospital in another state within five years prior to his apprehension. Proceedings shall thereafter be conducted as on a petition of mental illness. If the court finds that the person is mentally ill it shall order him

committed to a state hospital in this State; otherwise, it shall order him to be released. successor in office, in his official capacity as such, and direct the commissioner forthwith to take possession of all of its books, records, property, real and personal, and assets, and to conduct, as conservator, the business of said person, or so much thereof as to the commissioner may seem appropriate, and enjoining said person and its officers, directors, agents, servants, and employees from the transaction of its business or disposition of its property until further order of said court:

(d) It appears to the commissioner that the dealer is in an unsafe condition or is conducting his business in an unsafe or injurious manner such as to render its further proceeding hazardous to the public or to any or all persons dealing with him.

(e) The dealer or any manager or any managing officer, partner, or managing representative or agent thereof refuses to be examined upon oath concerning the affairs of his business.

(f) The dealer or any officer or representative or agent of the dealer has embezzled, sequestered, or wrongfully diverted any of the assets of the dealer, or funds of others held in trust by the dealer.

(g) The commissioner finds that the dealer, after investigation, is insolvent in that assets are impaired to such an extent that they are inadequate to pay debts as they fall due in the general course of business or insolvent in that the aggregate of his business property subject to legal process without his consent, exclusive of property transferred, removed, concealed, or permitted to have been so done, shall not at a fair market value be sufficient in amount to pay all business debts.

10239.2. Said order shall continue in force and effect until, on the application either of the commissioner or of such person, it shall, after a full hearing, appear to said court that the ground for said order directing the commissioner to take title and possession does not exist or has been removed and that said person can properly resume title and possession of its property and the conduct of its business.

10239.4. Whenever the commissioner makes any seizure as provided in Section 10239.3, it shall, on the demand of the commissioner, be the duty of the sheriff of any county of this State, and of the police department of any municipal corporation therein, to furnish him with such deputies, patrolmen or officers as may be necessary to assist the commissioner in making and enforcing any such seizure.

10239.5. Immediately after such seizure, the commissioner shall institute a proceeding as provided for in Section 10239.1 and thereafter shall proceed in accordance with the provisions of this article.

10239.6. If at any time after the issuance of an order under Section 10239.1, or if at the time of instituting any proceeding under this article, it shall appear to the commissioner that it would be futile to proceed as conservator with the conduct of the business of such person, he may apply to the court for an order to liquidate and wind up the business of said person. Upon a full hearing of such application, the court may make an order directing the winding up and liquidation of the business of such person by the commissioner, as liquidator, for the purpose of carrying out the order to liquidate and wind up the business of such person.

10239.9. Upon the issuance of an order of liquidation under Section 10239.6, the rights and liabilities of any such person and of creditors, policyholders, shareholders and members, and all other persons interested in its assets, including the State of California, shall, unless otherwise directed by the

court, be fixed as of the date of the entry of the order in the office of the clerk of the county wherein the application was made.

10239.10. Upon the issuance of an order either under Sections 10239.1 or 10239.6, or at any time thereafter, the court shall issue such other injunctions or orders as may be deemed necessary to prevent any or all of the following occurrences:

(a) Interference with the commissioner or the proceeding.

(b) Waste of assets of such persons.

(c) The institution or prosecution of any actions or proceedings.

(d) The obtaining of preferences, judgments, attachments, or other liens against such person or its assets.

(e) The making of any levy against any such person or its assets.

(f) The sale or deed for nonpayment of taxes or assessments levied by any taxing agency of property:

(1) Owned by such person.

(2) Upon which such person holds an encumbrance.

(3) Upon which such person has prior thereto commenced an action to foreclose any deed of trust or mortgage or has exercised the power of sale under any trust deed or mortgage which sale or foreclosure proceedings have not yet been completed or upon which no trustee's deed or judgment of court or sheriff's certificate of sale has been issued. "Taxing agency," as used in this section, has the meaning ascribed to it by Section 121 of the Revenue and Taxation Code. The injunctions or orders authorized by this subdivision may be modified, dissolved or rescinded by the court on motion of the commissioner, the State Controller, the person charged with the collection of taxes or assessments on such property, or any person beneficially interested in the property. The recording in the office of the county recorder of this section, shall constitute service of such order or injunction upon any taxing agency with respect to property or interests therein located in such county.

10239.11. Upon the making of an order to liquidate the business of such person, the commissioner shall cause to be published notice to its policyholders, creditors, shareholders, and all other persons interested in its assets. Such notice shall require claimants to file their claims with the commissioner, together with proper proofs thereof, within six months after the date of first publication of such notice, in the manner specified in this article.

10239.12. Such notice shall be published in a newspaper of general circulation, published in the county in which the proceeding is pending, not less than once a week for four successive weeks. A copy of the notice, accompanied by an affidavit of due publication, including a statement of the date of first publication, shall be filed with the clerk of the court.

10239.13. A claim shall set forth, under oath, on the form prescribed by the commissioner:

(a) The particulars thereof, and the consideration therefor.

(b) Whether said claim is secured or unsecured, and, if secured, the nature and amount of such security.

(c) The payments, if any, made thereon.

(d) That the sum claimed is justly owing from such person to the claimant.

(e) That there is no offset to the claim.

(f) Such other data or supporting documents as the commissioner requires.

10239.14. Unless such claim is filed in the manner and within the time provided in Section 10239.11, it shall not be entitled to filing or allowance, and no action may be maintained thereon. In the liquidation, pursuant to the provisions of this article, the commissioner shall, within 30 days after the last day set for the filing of claims, make a list of the persons who have not filed proofs of claim with him and to whom, according to the books of said dealer, there are amounts owing, and he shall set opposite the name of each person the amount so owing to such person. Each person whose name shall appear upon said list shall be deemed to have duly filed, prior to the last day set for the filing of claims, a claim for the amount set opposite his name on said list.

10239.15. Claims founded upon unliquidated or undetermined demands must be filed within the time limit provided in this article for the filing of claims, but claims founded upon such demands shall not share in any distribution to creditors of a person proceeded against under Section 10239.6 until such claims have been definitely determined, proved and allowed. Thereafter, such claims shall share ratably with other claims of the same class in all subsequent distributions.

An unliquidated or undetermined claim or demand within the meaning of this article shall be deemed to be any such claim or demand upon which a right of action has accrued at the date of the order of liquidation and upon which the liability has not been determined the amount thereof liquidated.

10239.16. A claim of a secured claimant shall not be allowed in a sum greater than the excess over the value of the security of the amount for which the claim would be allowable if unsecured, unless the claimant surrenders the security to the liquidator. Upon such surrender the claim may be allowed in the full amount for which it is valued.

10239.17. The value of the security to be credited upon such claim shall be determined by an appraiser appointed by the liquidator and approved by the court. Such claimant shall elect to accept the security or to release it to the liquidator.

10239.18. In all cases of mutual debts or mutual credits between the person in liquidation under Section 10239.6 and any other person, such credits and debts shall be set off and the balance only shall be allowed or paid, but no setoff shall

be allowed in favor of such other person where any of the following facts exist:

(a) The obligation of the person in liquidation to such other person does not entitle such other person claiming such setoff to share as a claimant in the assets of such person in liquidation.

(b) The obligation of the person in liquidation to such other person was purchased by, or transferred to, such other person.

(c) The obligation of such other person to the person in liquidation is to pay an assessment levied against such other person or to pay a balance upon a subscription for shares of the capital stock of the person in liquidation.

10239.19. When a claim is rejected by the commissioner, written notice of rejection shall be given by mail, addressed to the claimant at the address set forth in his claim. Within 30 days after the mailing of the notice the claimant may apply to the court in which the liquidation proceeding is pending for an order to show cause why the claim should not be allowed.

10239 21. After the issuance of an order of liquidation under Section 10239 6, any of the following transactions occurring within four months prior to the application for such order shall be voidable by the commissioner if such transaction has the effect of giving to or enabling any creditor of such person to obtain a preference over any other creditor of the same class, or a greater percentage of his debt than any other creditor of the same class:

(a) A transfer of property of such person.

(b) The creation of a lien on the property of such person.

(c) The suffering of a judgment against such person.

10239.22. In any proceeding under this article, the commissioner shall have the power to appoint and employ under his hand and official seal, special deputy commissioners, as his agents, and to employ such clerks and assistants and to give to each of them such power as may by him be deemed necessary. The compensation of special deputy commissioners, clerks and assistants appointed to carry out the provisions of this

article, and all expenses of taking possession, of conserving, conducting, liquidating, disposing of or otherwise dealing with the business and property of such person under this article, shall be fixed by the commissioner, subject to the approval of the court, and shall be paid out of the assets of such person. In the event the property of such person does not contain cash or liquid assets sufficient to defray the cost of the services required to be performed under the terms of this article, the commissioner may at any time or from time to time pay the cost of such services out of the appropriation for the maintenance of the State Real Estate Division. Any amounts so paid shall be deemed expense of administration and shall be repaid to said fund out of the first available moneys in the estate.

10239.23. The Attorney General shall have the power to appoint and employ such legal counsel as may by him be deemed necessary to assist the commissioner in the performance of his duties under this article. The compensation of such legal counsel shall be fixed by the Attorney General, subject to the approval of the court, and shall be paid out of the assets of the person against whom the commissioner has proceeded under this article.

10239.24. Upon taking possession of the property and business of any person in any proceeding under this article, the commissioner, exclusively and except as otherwise expressly provided by this article, either as conservator or liquidator:

(a) Shall have authority to collect all moneys due such person, and to do such other acts as are necessary or expedient to collect, conserve or protect its assets, property and business, and to carry on and conduct the business and affairs of any such person or so much thereof as to him may seem appropriate.

(b) Shall collect all debts due and claims belonging to said person, and shall have the authority to sell, compound, compromise or assign, for the purpose of collection upon such terms and conditions as he deems best, any bad or doubtful debts.

(c) Shall have authority to compound, compromise or in any other manner negotiate settlements of claims against such person upon such terms and conditions as he shall deem to be most advantageous to the estate of the person being administered or liquidated or otherwise dealt with under this article.

(d) Shall have authority without notice, to acquire, hypothecate, encumber, lease, improve, sell, transfer, abandon or otherwise dispose of or deal with, any real or personal property of any such person at its reasonable market value, or, in cases other than acquisition, sale or transfer on the basis of reasonable market value, upon such terms and conditions as he may deem proper; provided, however, that no transaction involving real or personal property shall be made where the market value of the property involved exceeds the sum of one thousand dollars ($1,000) without first obtaining permission of said court, and then only in accordance with such terms as said court may prescribe.

(e) Shall have authority to transfer to a trustee or trustees, under a voting trust agreement, the stock of a dealer heretofore or hereafter issued to him as conservator or as liquidator in connection with a rehabilitation agreement, or any other proceeding under this article. Such voting trust agreement shall confer upon the trustee or trustees the right to vote or otherwise represent such stock, and shall not be irrevocable for a period of more than twenty-one (21) years.

In cases where any real property sold by the commissioner under this article is located in a county other than the county wherein the proceeding is pending, the commissioner shall cause a certified copy of the order of his appointment, or order authorizing or ratifying the sale, to be filed in the office of the county recorder of the county in which said property is located.

(g) Shall have authority to invest and reinvest, in such manner as he may deem suitable for the best interests of the creditors of such person, such person, such portions of the funds and assets of such person in his possession, and which funds and assets are not immediately distributable to creditors; provided, however, that no such investment or reinvestment shall be made which exceeds the sum of one thousand dollars ($1,000) without first obtaining permission of said court, and then only in accordance with such terms as said court may prescribe.

(h) Within six months after taking possession of the property and business of any dealer, the commissioner may terminate or adopt any executory contract to which the dealer may be a party including leases of real or personal property. Claims for damages resulting from the termination of any such contract or lease may be filed and allowed, but no claim of a landlord for damages resulting from the rejection of an unexpired lease of real property or under any covenant of such lease shall be allowed in an amount greater than due under the lease for a period of one year following the surrender of the premises.

The enumeration, in this article, of duties, powers and authority of the commissioner in proceedings under this article

shall not be construed as a limitation upon the commissioner, nor shall it exclude in any manner his right to perform and to do such other acts not herein specifically enumerated, or otherwise provided for, which he may deem necessary or expedient for the accomplishment or in aid of the purpose of such proceedings.

10239.25. Any application under Sections 10239.1 or 10239.6 shall be served upon the person named in such application in the manner prescribed by law for personal service of summons or as provided by Section 10239.26.

10239.26. In lieu of the service required by Section 10239.25, service may, upon application to said court, be made in such manner as the court directs whenever it is satisfactorily shown by affidavit (a) in the case of a corporation, that the officers of the corporation upon whom service is required to be made as above provided, have departed from the State or keep themselves concealed therein with intent to avoid the service, or, (b) in the case of a natural person, that the natural person upon whom service is required to be made as above provided, has departed from the State or keeps himself concealed therein with intent to avoid the service.

10239 27. [Approved by Governor June 8, 1963. Filed with Secretary of State June 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. The Commercial Code is enacted, to read:

COMMERCIAL CODE

DIVISION 1. GENERAL PROVISIONS

CHAPTER 1. SHORT TITLE, CONSTRUCTION, APPLICATION AND SUBJECT MATTER OF THE CODE

1101. This code shall be known and may be cited as Uniform Commercial Code.

1102. (1) This code shall be liberally construed and applied to promote its underlying purposes and policies.

(2) Underlying purposes and policies of this code are

(a) To simplify, clarify and modernize the law governing commercial transactions;

(b) To permit the continued expansion of commercial practices through custom, usage and agreement of the parties;

(c) To make uniform the law among the various jurisdictions.

(3) The effect of provisions of this code may be varied by agreement, except as otherwise provided in this code and except that the obligations of good faith, diligence, reasonableness and care prescribed by this code may not be disclaimed by agreement but the parties may by agreement determine the

standards by which the performance of such obligations is to be measured if such standards are not manifestly unreasonable.

(4) The presence in certain provisions of this code of the words "unless otherwise agreed" or words of similar import does not imply that the effect of other provisions may not be varied by agreement under subdivision (3).

(5) In this code unless the context otherwise requires

(a) Words in the singular number include the plural, and in the plural include the singular;

(b) Words of the masculine gender include the feminine and the neuter, and when the sense so indicates words of the neuter gender may refer to any gender.

1103. Unless displaced by the particular provisions of this code, the principles of law and equity, including the law merchant and the law relative to capacity to contract, principal and agent, estoppel, fraud, misrepresentation, duress, coercion, mistake, bankruptcy, or other validating or invalidating cause shall supplement its provisions.

1104. This code being a general act intended as a unified coverage of its subject matter, no part of it shall be deemed to be impliedly repealed by subsequent legislation if such construction can reasonably be avoided.

1105. (1) Except as provided hereafter in this section, when a transaction bears a reasonable relation to this State and also to another state or nation the parties may agree that the law either of this State or of such other state or nation shall govern their rights and duties. Failing such agreement this code applies to transactions bearing an appropriate relation to this State.

(2) Where one of the following provisions of this code specifies the applicable law, that provision governs and a contrary agreement is effective only to the extent permitted by the law (including the conflict of laws rules) so specified:

Rights of creditors against sold goods. Section 2402.

Applicability of the division on bank deposits and collections. Section 4102.

Bulk transfers subject to the division on bulk transfers. Section 6102.

Applicability of the division on investment securities. Section 8106.

Policy and scope of the division on secured transactions. Sections 9102 and 9103.

1106. (1) The remedies provided by this code shall be liberally administered to the end that the aggrieved party may be put in as good a position as if the other party had fully performed but neither consequential or special nor penal damages may be had except as specifically provided in this code or by other rule of law.

(2) Any right or obligation declared by this code is enforceable by action unless the provision declaring it specifies a different and limited effect.

1107. Any claim or right arising out of an alleged breach can be discharged in whole or in part without consideration by a written waiver or renunciation signed and delivered by the aggrieved party.

1108. If any provision or clause of this code or application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the code which can be given effect without the invalid provision or application, and to this end the provisions of this code are declared to be severable.

CHAPTER 2. GENERAL DEFINITIONS AND PRINCIPLES OF INTERPRETATION

1201. Subject to additional definitions contained in the subsequent divisions of this code which are applicable to specific divisions or chapters thereof, and unless the context otherwise requires, in this code:

(1) "Action" in the sense of a judicial proceeding includes recoupment, counterclaim, setoff, suit in equity and any other proceedings in which rights are determined.

(2) "Aggrieved party" means a party entitled to resort to a remedy.

(3) "Agreement" means the bargain of the parties in fact as found in their language or by implication from other circumstances including course of dealing or usage of trade or course of performance as provided in this code (Sections 1205 and 2208). Whether an agreement has legal consequences is determined by the provisions of this code, if applicable; otherwise by the law of contracts (Section 1103). (Compare "contract.")

(4) "Bank" means any person engaged in the business of banking.

(5) "Bearer" means the person in possession of an instrument, document of title, or security payable to bearer or indorsed in blank.

(6) "Bill of lading" means a document evidencing the receipt of goods for shipment issued by a person engaged in the business of transporting or forwarding goods, and which, by its terms, evidences the intention of the issuer that the person entitled under the document (Section 7403 (4)) has the right to receive, hold and dispose of the document and the goods it covers. Designation of a document by the issuer as a "bill of lading" is conclusive evidence of such intention. "Bill of lading" includes an airbill. "Airbill" means a document serving for air transportation as a bill of lading does for marine or rail transportation, and includes an air consignment note or air waybill.

(7) "Branch" includes a separately incorporated foreign branch of a bank.

(8) "Burden of establishing" a fact means the burden of persuading the triers of fact that the existence of the fact is more probable than its nonexistence.

(9) "Buyer in ordinary course of business" means a person who in good faith and without knowledge that the sale to him is in violation of the ownership rights or security interest of a third party in the goods buys in ordinary course from a person in the business of selling goods of that kind but does not include a pawnbroker. "Buying" may be for cash or by exchange of other property or on secured or unsecured credit and includes receiving goods or documents of title under a preexisting contract for sale but does not include a transfer in bulk or as security for or in total or partial satisfaction of a money debt.

(10) "Conspicuous." A term or clause is conspicuous when it is so written that a reasonable person against whom it is to operate ought to have noticed it. A printed heading in capitals (as: NONNEGOTIABLE BILL OF LADING) is conspicuous. Language in the body of a form is "conspicuous" if it is in larger or other contrasting type or color. But in a telegram any stated term is "conspicuous." Whether a term or clause is "conspicuous" or not is for decision by the court.

(11) "Contract" means the total legal obligation which results from the parties' agreement as affected by this code and any other applicable rules of law. (Compare "agreement.")

(12) "Creditor" includes a general creditor, a secured creditor, a lien creditor and any representative of creditors, including an assignee for the benefit of creditors, a trustee in bankruptcy, a receiver in equity and an executor or administrator of an insolvent debtor's or assignor's estate.

(13) "Defendant" includes a person in the position of defendant in a cross-action or counterclaim.

(14) "Delivery" with respect to instruments, documents of title, chattel paper or securities means voluntary transfer of possession.

(15) "Document of title" includes bill of lading, dock warrant, dock receipt, warehouse receipt, gin ticket, compress receipt, and also any other document which in the regular course of business or financing is treated as adequately evidencing that the person entitled under the document (Section 7403 (4)) has the right to receive, hold and dispose of the document and the goods it covers To be a document of title a document must purport to be issued by a bailee and purport to cover goods in the bailee's possession which are either identified or are fungible portions of an identified mass.

(16) "Fault" means wrongful act, omission or breach.

(17) "Fungible" with respect to goods or securities means goods or securities of which any unit is, by nature or usage of trade, the equivalent of any other like unit.

(18) "Genuine" means free of forgery or counterfeiting.

(19) "Good faith" means honesty in fact in the conduct or transaction concerned.

(20) "Holder" means a person who is in possession of a document of title or an instrument or an investment security drawn, issued or indorsed to him or to his order or to bearer or in blank.

(21) To "honor" is to pay or to accept and pay, or where a credit so engages to purchase or discount a draft complying with the terms of the credit.

(22) "Insolvency proceedings" includes any assignment for the benefit of creditors or other proceedings intended to liquidate or rehabilitate the estate of the person involved..

(23) A person is "insolvent" who either has ceased to pay his debts in the ordinary course of business or cannot pay his debts as they become due or is insolvent within the meaning of the federal bankruptcy law.

(24) "Money" means a medium of exchange authorized or adopted by a domestic or foreign government as a part of its currency.

(25) A person has "notice" of a fact when

(a) He has actual knowledge of it; or

(b) He has received a notice or notification of it; or

(c) From all the facts and circumstances known to him at the time in question he has reason to know that it exists.

A person "knows" or has "knowledge" of a fact when he has actual knowledge of it. "Discover" or "learn" or a word or phrase of similar import refers to knowledge rather than to reason to know. The time and circumstances under which a notice or notification may cease to be effective are not determined by this code.

(26) A person "notifies" or "gives" a notice or notification to another by taking such steps as may be reasonably required to inform the other in ordinary course whether or not such other actually comes to know of it. A person "receives" a notice or notification when

(a) It comes to his attention; or

(b) It is duly delivered at the place of business through which the contract was made or at any other place held out by him as the place for receipt of such communications.

(27) Notice, knowledge or a notice or notification received by an organization is effective for a particular transaction from the time when it is brought to the attention of the individual conducting that transaction, and in any event from the time when it would have been brought to his attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information.

(28) "Organization" includes a corporation, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, two or more persons having a joint or common interest, or any other legal or commercial entity.

(29) "Party," as distinct from "third party," means a person who has engaged in a transaction or made an agreement within this division.

(30) "Person" includes an individual or an organization. (See Section 1102.)

(32) "Purchase" includes taking by sale, discount, negotiation, mortgage, pledge, lien, issue or reissue, gift or any other voluntary transaction creating an interest in property.

(33) "Purchaser" means a person who takes by purchase.

(34) "Remedy" means any remedial right to which an aggrieved party is entitled with or without resort to a tribunal.

(35) "Representative" includes an agent, an officer of a corporation or association, and a trustee, executor or administrator of an estate, or any other person empowered to act for another.

(36) "Rights" includes remedies.

(37) "Security interest" means an interest in personal property or fixtures which secures payment or performance of an obligation. The retention or reservation of title by a seller of goods notwithstanding shipment or delivery to the buyer (Section 2401) is limited in effect to a reservation of a "security interest." The term also includes any interest of a buyer of accounts, chattel paper, or contract rights which is subject to Division 9. The special property interest of a buyer of goods on identification of such goods to a contract for sale under Section 2501 is not a "security interest," but a buyer may also acquire a "security interest" by complying with Division 9. Unless a lease or consignment is intended as security, reservation of title thereunder is not a "security interest" but a consignment is in any event subject to the provisions on consignment sales (Section 2326). Whether a lease is intended as security is to be determined by the facts of each case; however, (a) the inclusion of an option to purchase does not of itself make the lease one intended for security, and (b) an agreement that upon compliance with the terms of the lease the lessee shall become or has the option to become the owner of the property for no additional consideration or for a nominal consideration does make the lease one intended for security.

(38) "Send" in connection with any writing or notice means to deposit in the mail or deliver for transmission by any other usual means of communication with postage or cost of transmission provided for and properly addressed and in the case of an instrument to an address specified thereon or otherwise agreed, or if there be none to any address reasonable under the circumstances. The receipt of any writing or notice within the time at which it would have arrived if properly sent has the effect of a proper sending.

(39) "Signed" includes any symbol executed or adopted by a party with present intention to authenticate a writing.

(40) "Surety" includes guarantor.

(41) "Telegram" includes a message transmitted by radio, teletype, cable, any mechanical method of transmission, or the like.

(42) "Term" means that portion of an agreement which relates to a particular matter.

(43) "Unauthorized" signature or indorsement means one made without actual, implied or apparent authority and includes a forgery.

(44) "Value." Except as otherwise provided with respect to negotiable instruments and bank collections (Sections 3303, 4208 and 4209) a person gives "value" for rights if he acquires them

(a) In return for a binding commitment to extend credit or for the extension of immediately available credit whether or not drawn upon and whether or not a chargeback is provided for in the event of difficulties in collection; or

(b) As security for or in total or partial satisfaction of a pre-existing claim; or

(c) By accepting delivery pursuant to a pre-existing contract for purchase; or

(d) Generally, in return for any consideration sufficient to support a simple contract.

(45) "Warehouse receipt" means a document evidencing the receipt of goods for storage issued by a warehouseman (Section 7102), and which, by its terms, evidences the intention of the issuer that the person entitled under the document (Section 7403(4)) has the right to receive, hold and dispose of the document and the goods it covers. Designation of a document by the issuer as a "warehouse receipt" is conclusive evidence of such intention.

(46) "Written" or "writing" includes printing, typewriting or any other intentional reduction to tangible form.

1202. A document in due form purporting to be a bill of lading, policy or certificate of insurance, official weigher's or inspector's certificate, consular invoice, or any other document authorized or required by the contract to be issued by a third party shall be prima facie evidence of its own authenticity and genuineness and of the facts stated in the document by the third party.

1203. Every contract or duty within this code imposes an obligation of good faith in its performance or enforcement.

1204. (1) Whenever this code requires any action to be taken within a reasonable time, any time which is not manifestly unreasonable may be fixed by agreement.

(2) What is a reasonable time for taking any action depends on the nature, purpose and circumstances of such action.

(3) An action is taken "seasonably" when it is taken at or within the time agreed or if no time is agreed at or within a reasonable time.

1205. (1) A course of dealing is a sequence of previous conduct between the parties to a particular transaction which is fairly to be regarded as establishing a common basis of understanding for interpreting their expressions and other conduct.

(2) A usage of trade is any practice or method of dealing having such regularity of observance in a place, vocation or trade as to justify an expectation that it will be observed with respect to the transaction in question. The existence and scope of such a usage are to be proved as facts. If it is established that such a usage is embodied in a written trade code or similar writing the interpretation of the writing is for the court.

(3) A course of dealing between parties and any usage of trade in the vocation or trade in which they are engaged or of which they are or should be aware give particular meaning to and supplement or qualify terms of an agreement.

(4) The express terms of an agreement and an applicable course of dealing or usage of trade shall be construed wherever reasonable as consistent with each other; but when such construction is unreasonable express terms control both course of dealing and usage of trade and course of dealing controls usage of trade.

(5) An applicable usage of trade in the place where any part of performance is to occur shall be used in interpreting the agreement as to that part of the performance.

(6) Evidence of a relevant usage of trade offered by one party is not admissible unless and until he has given the other party such notice as the court finds sufficient to prevent unfair surprise to the latter.

1206. (1) Except in the cases described in subdivision (2) of this section a contract for the sale of personal property is not enforceable by way of action or defense beyond five thousand dollars ($5,000) in amount or value of remedy unless there is some writing which indicates that a contract for sale has been made between the parties at a defined or stated price, reasonably identifies the subject matter, and is signed by the party against whom enforcement is sought or by his authorized agent.

(2) Subdivision (1) of this section does not apply to contracts for the sale of goods (Section 2201) nor of securities (Section 8319) nor to security agreements (Section 9203).

1207. A party who with explicit reservation of rights performs or promises performance or assents to performance in a manner demanded or offered by the other party does not thereby prejudice the rights reserved. Such words as "without prejudice," "under protest" or the like are sufficient.

1208. A term providing that one party or his successor in interest may accelerate payment or performance or require collateral or additional collateral "at will" or "when he deems himself insecure" or in words of similar import shall be construed to mean that he shall have power to do so only if he

in good faith believes that the prospect of payment or performance is impaired. The burden of establishing lack of good faith is on the party against whom the power has been exercised.

DIVISION 2. SALES

CHAPTER 1. SHORT TITLE, GENERAL CONSTRUCTION AND SUBJECT MATTER

2101. This division shall be known and may be cited as Uniform Commercial Code—Sales.

2102. Unless the context otherwise requires, this division applies to transactions in goods; it does not apply to any transaction which although in the form of an unconditional contract to sell or present sale is intended to operate only as a security transaction nor does this division impair or repeal any statute regulating sales to consumers, farmers or other specified classes of buyers.

2103. (1) In this division unless the context otherwise requires

(a) "Buyer" means a person who buys or contracts to buy goods.

(b) "Good faith" in the case of a merchant means honesty in fact and the observance of reasonable commercial standards of fair dealing in the trade.

(c) "Receipt" of goods means taking physical possession of them.

(d) "Seller" means a person who sells or contracts to sell goods.

(3) The following definitions in other divisions apply to this division:
"Check." Section 3104.
"Consignee." Section 7102.
"Consignor." Section 7102.
"Consumer goods." Section 9109.
"Dishonor." Section 3507.
"Draft." Section 3104.

(4) In addition Division 1 contains general definitions and principles of construction and interpretation applicable throughout this division.

2104. (1) "Merchant" means a person who deals in goods of the kind or otherwise by his occupation holds himself out as having knowledge or skill peculiar to the practices or goods involved in the transaction or to whom such knowledge or skill may be attributed by his employment of an agent or broker or other intermediary who by his occupation holds himself out as having such knowledge or skill.

(2) "Financing agency" means a bank, finance company or other person who in the ordinary course of business makes advances against goods or documents of title or who by arrangement with either the seller or the buyer intervenes in ordinary course to make or collect payment due or claimed under the contract for sale, as by purchasing or paying the seller's draft or making advances against it or by merely taking it for collection whether or not documents of title accompany the draft. "Financing agency" includes also a bank or other person who similarly intervenes between persons who are in the position of seller and buyer in respect to the goods (Section 2707).

(3) "Between merchants" means in any transaction with respect to which both parties are chargeable with the knowledge or skill of merchants.

2105. (1) "Goods" means all things (including specially manufactured goods) which are movable at the time of identification to the contract for sale other than the money in which the price is to be paid, investment securities (Division 8) and things in action. "Goods" also includes the unborn young of animals and growing crops and other identified things attached to realty as described in the section on goods to be severed from realty (Section 2107).

(2) Goods must be both existing and identified before any interest in them can pass. Goods which are not both existing and identified are "future" goods. A purported present sale of future goods or of any interest therein operates as a contract to sell.

(3) There may be a sale of a part interest in existing identified goods.

(4) An undivided share in an identified bulk of fungible goods is sufficiently identified to be sold although the quantity of the bulk is not determined. Any agreed proportion of such a bulk or any quantity thereof agreed upon by number, weight or other measure may to the extent of the seller's interest in the bulk be sold to the buyer who then becomes an owner in common.

(5) "Lot" means a parcel or a single article which is the subject matter of a separate sale or delivery, whether or not it is sufficient to perform the contract.

(6) "Commercial unit" means such a unit of goods as by commercial usage is a single whole for purposes of sale and division of which materially impairs its character or value on the market or in use. A commercial unit may be a single article (as a machine) or a set of articles (as a suite of furniture or an assortment of sizes) or a quantity (as a bale, gross, or carload) or any other unit treated in use or in the relevant market as a single whole.

2106. (1) In this division unless the context otherwise requires "contract" and "agreement" are limited to those relating to the present or future sale of goods. "Contract for sale" includes both a present sale of goods and a contract to sell goods at a future time. A "sale" consists in the passing of title from the seller to the buyer for a price (Section 2401). A "present sale" means a sale which is accomplished by the making of the contract.

(2) Goods or conduct including any part of a performance are "conforming" or conform to the contract when they are in accordance with the obligations under the contract.

(3) "Termination" occurs when either party pursuant to a power created by agreement or law puts an end to the contract otherwise than for its breach. On "termination" all obligations which are still executory on both sides are discharged but any right based on prior breach or performance survives.

(4) "Cancellation" occurs when either party puts an end to the contract for breach by the other and its effect is the same as that of "termination" except that the cancelling party also retains any remedy for breach of the whole contract or any unperformed balance.

2107. (1) A contract for the sale of minerals or the like or a structure or its materials to be removed from realty is a contract for the sale of goods within this division if they are to be severed by the seller but until severance a purported present sale thereof which is not effective as a transfer of an interest in land is effective only as a contract to sell.

(2) A contract for the sale apart from the land of growing crops or other things attached to realty and capable of severance without material harm thereto but not described in subdivision (1) or of timber to be cut is a contract for the sale of goods within this division whether the subject matter is to

be severed by the buyer or by the seller even though it forms part of the realty at the time of contracting, and the parties can by identification effect a present sale before severance.

(3) The provisions of this section are subject to any third party rights provided by the law relating to realty records, and the contract for sale may be executed and recorded as a document transferring an interest in land and shall then constitute notice to third parties of the buyer's rights under the contract for sale.

CHAPTER 2. FORM, FORMATION AND READJUSTMENT OF CONTRACT

2201. (1) Except as otherwise provided in this section a contract for the sale of goods for the price of $500 or more is not enforceable by way of action or defense unless there is some writing sufficient to indicate that a contract for sale has been made between the parties and signed by the party against whom enforcement is sought or by his authorized agent or broker. A writing is not insufficient because it omits or incorrectly states a term agreed upon but the contract is not enforceable under this paragraph beyond the quantity of goods shown in such writing.

(2) Between merchants if within a reasonable time a writing in confirmation of the contract and sufficient against the sender is received and the party receiving it has reason to know its contents, it satisfies the requirements of subdivision (1) against such party unless written notice of objection to its contents is given within 10 days after it is received.

(3) A contract which does not satisfy the requirements of subdivision (1) but which is valid in other respects is enforceable

(a) If the goods are to be specially manufactured for the buyer and are not suitable for sale to others in the ordinary course of the seller's business and the seller, before notice of repudiation is received and under circumstances which reasonably indicate that the goods are for the buyer, has made either a substantial beginning of their manufacture or commitments for their procurement; or

(c) With respect to goods for which payment has been made and accepted or which have been received and accepted (Section 2606).

2202. Terms with respect to which the confirmatory memoranda of the parties agree or which are otherwise set forth in a writing intended by the parties as a final expression of their agreement with respect to such terms as are included therein may not be contradicted by evidence of any prior agreement or of a contemporaneous oral agreement but may be explained or supplemented

(a) By course of dealing or usage of trade (Section 1205) or by course of performance (Section 2208); and

(b) By evidence of consistent additional terms unless the court finds the writing to have been intended also as a complete and exclusive statement of the terms of the agreement.

2204. (1) A contract for sale of goods may be made in any manner sufficient to show agreement, including conduct by both parties which recognizes the existence of such a contract.

(2) An agreement sufficient to constitute a contract for sale may be found even though the moment of its making is undetermined.

(3) Even though one or more terms are left open a contract for sale does not fail for indefiniteness if the parties have intended to make a contract and there is a reasonably certain basis for giving an appropriate remedy.

2205. An offer by a merchant to buy or sell goods in a signed writing which by its terms gives assurance that it will be held open is not revocable, for lack of consideration, during the time stated or if no time is stated for a reasonable time, but in no event may such period of irrevocability exceed three months; but any such term of assurance on a form supplied by the offeree must be separately signed by the offeror.

2206. (1) Unless otherwise unambiguously indicated by the language or circumstances

(a) An offer to make a contract shall be construed as inviting acceptance in any manner and by any medium reasonable in the circumstances;

(b) An order or other offer to buy goods for prompt or current shipment shall be construed as inviting acceptance either by a prompt promise to ship or by the prompt or current shipment of conforming or nonconforming goods, but such a shipment of nonconforming goods does not constitute an acceptance if the seller seasonably notifies the buyer that the shipment is offered only as an accommodation to the buyer.

(2) Where the beginning of a requested performance is a reasonable mode of acceptance an offeror who is not notified of acceptance within a reasonable time may treat the offer as having lapsed before acceptance.

2207. (1) A definite and seasonable expression of acceptance or a written confirmation which is sent within a reasonable time operates as an acceptance even though it states terms additional to or different from those offered or agreed upon, unless acceptance is expressly made conditional on assent to the additional or different terms.

(2) The additional terms are to be construed as proposals for addition to the contract. Between merchants such terms become part of the contract unless:

(a) The offer expressly limits acceptance to the terms of the offer;

(b) They materially alter it; or

(c) Notification of objection to them has already been given or is given within a reasonable time after notice of them is received.

(3) Conduct by both parties which recognizes the existence of a contract is sufficient to establish a contract for sale although the writings of the parties do not otherwise establish a contract. In such case the terms of the particular contract consist of those terms on which the writings of the parties agree, together with any supplementary terms incorporated under any other provisions of this code.

2208. (1) Where the contract for sale involves repeated occasions for performance by either party with knowledge of the nature of the performance and opportunity for objection to it by the other, any course of performance accepted or acquiesced in without objection shall be relevant to determine the meaning of the agreement.

(2) The express terms of the agreement and any such course of performance, as well as any course of dealing and usage of trade, shall be construed whenever reasonable as consistent with each other; but when such construction is unreasonable, express terms shall control course of performance and course of performance shall control both course of dealing and usage of trade (Section 1205).

(3) Subject to the provisions of the next section on modification and waiver, such course of performance shall be relevant to show a waiver or modification of any term inconsistent with such course of performance

2209. (1) An agreement modifying a contract within this division needs no consideration to be binding.

(2) A written contract within this division may only be modified by a written agreement or by an oral agreement fully executed by both parties.

(4) Although an attempt at modification or rescission does not satisfy the requirements of subdivision (2), it can operate as a waiver.

(5) A party who has made a waiver affecting an executory portion of the contract may retract the waiver by reasonable notification received by the other party that strict performance will be required of any term waived, unless the retraction would be unjust in view of a material change of position in reliance on the waiver.

2210. (1) A party may perform his duty through a delegate unless otherwise agreed or unless the other party has a substantial interest in having his original promisor perform or control the acts required by the contract. No delegation of performance relieves the party delegating of any duty to perform or any liability for breach.

(2) Unless otherwise agreed all rights of either seller or buyer can be assigned except where the assignment would materially change the duty of the other party, or increase materially the burden or risk imposed on him by his contract, or impair materially his chance of obtaining return performance. A right to damages for breach of the whole contract or a right arising out of the assignor's due performance of his entire obligation can be assigned despite agreement otherwise.

(3) Unless the circumstances indicate the contrary a prohibition of assignment of "the contract" is to be construed as barring only the delegation to the assignee of the assignor's performance.

(4) An assignment of "the contract" or of "all my rights under the contract" or an assignment in similar general terms is an assignment of rights and unless the language or the circumstances (as in an assignment for security) indicate the contrary, it is a delegation of performance of the duties of the assignor and its acceptance by the assignee constitutes a promise by him to perform those duties. This promise is enforceable by either the assignor or the other party to the original contract.

(5) The other party may treat any assignment which delegates performance as creating reasonable grounds for insecurity and may without prejudice to his rights against the assignor demand assurances from the assignee (Section 2609).

Chapter 3. General Obligation and Construction of Contract

2301. The obligation of the seller is to transfer and deliver and that of the buyer is to accept and pay in accordance with the contract.

2303. Where this division allocates a risk or a burden as between the parties "unless otherwise agreed," the agreement may not only shift the allocation but may also divide the risk or burden.

2304. (1) The price can be made payable in money or otherwise. If it is payable in whole or in part in goods each party is a seller of the goods which he is to transfer.

(2) Even though all or part of the price is payable in an interest in realty the transfer of the goods and the seller's obligations with reference to them are subject to this division, but not the transfer of the interest in realty or the transferor's obligations in connection therewith.

2305. (1) The parties if they so intend can conclude a contract for sale even though the price is not settled. In such a case the price is a reasonable price at the time for delivery if

(a) Nothing is said as to price; or

(b) The price is left to be agreed by the parties and they fail to agree; or

(c) The price is to be fixed in terms of some agreed market or other standard as set or recorded by a third person or agency and it is not so set or recorded.

(2) A price to be fixed by the seller or by the buyer means a price for him to fix in good faith.

(3) When a price left to be fixed otherwise than by agreement of the parties fails to be fixed through fault of one party the other may at his option treat the contract as canceled or himself fix a reasonable price.

(4) Where, however, the parties intend not to be bound unless the price be fixed or agreed and it is not fixed or agreed there is no contract. In such a case the buyer must return any goods already received or if unable so to do must pay their reasonable value at the time of delivery and the seller must return any portion of the price paid on account.

2306. (1) A term which measures the quantity by the output of the seller or the requirements of the buyer means such actual output or requirements as may occur in good faith, except that no quantity unreasonably disproportionate to any stated estimate or in the absence of a stated estimate to any normal or otherwise comparable prior output or requirements may be tendered or demanded.

(2) A lawful agreement by either the seller or the buyer for exclusive dealing in the kind of goods concerned imposes unless otherwise agreed an obligation by the seller to use best efforts to supply the goods and by the buyer to use best efforts to promote their sale.

2307. Unless otherwise agreed all goods called for by a contract for sale must be tendered in a single delivery and payment is due only on such tender but where the circumstances give either party the right to make or demand delivery in lots the price if it can be apportioned may be demanded for each lot.

2308. Unless otherwise agreed

(a) The place for delivery of goods is the seller's place of business or if he has none his residence; but

(b) In a contract for sale of identified goods which to the knowledge of the parties at the time of contracting are in some other place, that place is the place for their delivery; and

(c) Documents of title may be delivered through customary banking channels.

2309. (1) The time for shipment or delivery or any other action under a contract if not provided in this division or agreed upon shall be a reasonable time.

(2) Where the contract provides for successive performances but is indefinite in duration it is valid for a reasonable time but unless otherwise agreed may be terminated at any time by either party.

(3) Termination of a contract by one party except on the happening of an agreed event requires that reasonable notification be received by the other party and an agreement dispensing with notification is invalid if its operation would be unconscionable

2310. Unless otherwise agreed

(a) Payment is due at the time and place at which the buyer is to receive the goods even though the place of shipment is the place of delivery; and

(b) If the seller is authorized to send the goods he may ship them under reservation, and may tender the documents of title, but the buyer may inspect the goods after their arrival before

payment is due unless such inspection is inconsistent with the terms of the contract (Section 2513); and

(c) If delivery is authorized and made by way of documents of title otherwise than by subdivision (b) then payment is due at the time and place at which the buyer is to receive the documents regardless of where the goods are to be received; and

(d) Where the seller is required or authorized to ship the goods on credit the credit period runs from the time of shipment but postdating the invoice or delaying its dispatch will correspondingly delay the starting of the credit period.

2311. (1) An agreement for sale which is otherwise sufficiently definite (subdivision (3) of Section 2204) to be a contract is not made invalid by the fact that it leaves particulars of performance to be specified by one of the parties. Any such specification must be made in good faith and within limits set by commercial reasonableness.

(2) Unless otherwise agreed specifications relating to assortment of the goods are at the buyer's option and except as otherwise provided in subdivisions (1)(c) and (3) of Section 2319 specifications or arrangements relating to shipment are at the seller's option.

(3) Where such specification would materially affect the other party's performance but is not seasonably made or where one party's co-operation is necessary to the agreed performance of the other but is not seasonably forthcoming, the other party in addition to all other remedies

(a) Is excused for any resulting delay in his own performance; and

(b) May also either proceed to perform in any reasonable manner or after the time for a material part of his own performance treat the failure to specify or to co-operate as a breach by failure to deliver or accept the goods.

2312. (1) Subject to subdivision (2) there is in a contract for sale a warranty by the seller that

(a) The title conveyed shall be good, and its transfer rightful; and

(b) The goods shall be delivered free from any security interest or other lien or encumbrance of which the buyer at the time of contracting has no knowledge.

(2) A warranty under subdivision (1) will be excluded or modified only by specific language or by circumstances which give the buyer reason to know that the person selling does not claim title in himself or that he is purporting to sell only such right or title as he or a third person may have.

(3) Unless otherwise agreed a seller who is a merchant regularly dealing in goods of the kind warrants that the goods shall be delivered free of the rightful claim of any third person by way of infringement or the like but a buyer who furnishes specifications to the seller must hold the seller harmless against any such claim which arises out of compliance with the specifications.

2313. (1) Express warranties by the seller are created as follows:

(a) Any affirmation of fact or promise made by the seller to the buyer which relates to the goods and becomes part of the basis of the bargain creates an express warranty that the goods shall conform to the affirmation or promise.

(b) Any description of the goods which is made part of the basis of the bargain creates an express warranty that the goods shall conform to the description.

(c) Any sample or model which is made part of the basis of the bargain creates an express warranty that the whole of the goods shall conform to the sample or model.

(2) It is not necessary to the creation of an express warranty that the seller use formal words such as "warrant" or "guarantee" or that he have a specific intention to make a warranty, but an affirmation merely of the value of the goods or a statement purporting to be merely the seller's opinion or commendation of the goods does not create a warranty.

2314. (1) Unless excluded or modified (Section 2316), a warranty that the goods shall be merchantable is implied in a contract for their sale if the seller is a merchant with respect to goods of that kind. Under this section the serving for value of food or drink to be consumed either on the premises or elsewhere is a sale.

(2) Goods to be merchantable must be at least such as

(a) Pass without objection in the trade under the contract description; and

(b) In the case of fungible goods, are of fair average quality within the description; and

(c) Are fit for the ordinary purposes for which such goods are used; and

(d) Run, within the variations permitted by the agreement, of even kind, quality and quantity within each unit and among all units involved; and

(e) Are adequately contained, packaged, and labeled as the agreement may require; and

(f) Conform to the promises or affirmations of fact made on the container or label if any.

(3) Unless excluded or modified (Section 2316) other implied warranties may arise from course of dealing or usage of trade.

2315. Where the seller at the time of contracting has reason to know any particular purpose for which the goods are required and that the buyer is relying on the seller's skill or judgment to select or furnish suitable goods, there is unless excluded or modified under the next section an implied warranty that the goods shall be fit for such purpose.

2316. (1) Words or conduct relevant to the creation of an express warranty and words or conduct tending to negate or limit warranty shall be construed wherever reasonable as consistent with each other; but subject to the provisions of

this division on parol or extrinsic evidence (Section 2202) negation or limitation is inoperative to the extent that such construction is unreasonable.

(2) Subject to subdivision (3), to exclude or modify the implied warranty of merchantability or any part of it the language must mention merchantability and in case of a writing must be conspicuous, and to exclude or modify any implied warranty of fitness the exclusion must be by a writing and conspicuous. Language to exclude all implied warranties of fitness is sufficient if it states, for example, that "There are no warranties which extend beyond the description on the face hereof."

(3) Notwithstanding subdivision (2)

(a) Unless the circumstances indicate otherwise, all implied warranties are excluded by expressions like "as is," "with all faults" or other language which in common understanding calls the buyer's attention to the exclusion of warranties and makes plain that there is no implied warranty; and

(b) When the buyer before entering into the contract has examined the goods or the sample or model as fully as he desired or has refused to examine the goods there is no implied warranty with regard to defects which an examination ought in the circumstances to have revealed to him; and

(c) An implied warranty can also be excluded or modified by course of dealing or course of performance or usage of trade.

(4) Remedies for breach of warranty can be limited in accordance with the provisions of this division on liquidation or limitation of damages and on contractual modification of remedy (Sections 2718 and 2719).

2317. Warranties whether express or implied shall be construed as consistent with each other and as cumulative, but if such construction is unreasonable the intention of the parties shall determine which warranty is dominant. In ascertaining that intention the following rules apply:

(a) Exact or technical specifications displace an inconsistent sample or model or general language of description.

(b) A sample from an existing bulk displaces inconsistent general language of description.

(c) Express warranties displaced inconsistent implied warranties other than an implied warranty of fitness for a particular purpose.

2319. (1) Unless otherwise agreed the term F.O.B. (which means "free on board") at a named place, even though used only in connection with the stated price, is a delivery term under which

(a) When the term is F.O.B. the place of shipment, the seller must at that place ship the goods in the manner provided in this division (Section 2504) and bear the expense and risk of putting them into the possession of the carrier; or

(b) When the term is F.O.B. the place of destination, the seller must at his own expense and risk transport the goods to

that place and there tender delivery of them in the manner provided in this division (Section 2503);

(c) When under either (a) or (b) the term is also F.O.B. vessel, car or other vehicle, the seller must in addition at his own expense and risk load the goods on board. If the term is F.O.B. vessel the buyer must name the vessel and in an appropriate case the seller must comply with the provisions of this division on the form of bill of lading (Section 2323).

(2) Unless otherwise agreed the term F.A.S. vessel (which means "free alongside") at a named port, even though used only in connection with the stated price, is a delivery term under which the seller must

(a) At his own expense and risk deliver the goods alongside the vessel in the manner usual in that port or on a dock designated and provided by the buyer; and

(b) Obtain and tender a receipt for the goods in exchange for which the carrier is under a duty to issue a bill of lading.

(3) Unless otherwise agreed in any case falling within subdivision (1)(a) or (c) or subdivision (2) the buyer must seasonably give any needed instructions for making delivery, including when the term is F.A.S. or F.O.B. the loading berth of the vessel and in an appropriate case its name and sailing date. The seller may treat the failure of needed instructions as a failure of co-operation under this division (Section 2311). He may also at his option move the goods in any reasonable manner preparatory to delivery or shipment.

(4) Under the term F.O.B. vessel or F.A.S. unless otherwise agreed the buyer must make payment against tender of the required documents and the seller may not tender nor the buyer demand delivery of the goods in substitution for the documents.

2320. (1) The term C.I F. means that the price includes in a lump sum the cost of the goods and the insurance and freight to the named destination. The term C. & F. or C.F. means that the price so includes cost and freight to the named destination.

(2) Unless otherwise agreed and even though used only in connection with the stated price and destination, the term C.I.F. destination or its equivalent requires the seller at his own expense and risk to

(a) Put the goods into the possession of a carrier at the port for shipment and obtain a negotiable bill or bills of lading covering the entire transportation to the named destination; and

(b) Load the goods and obtain a receipt from the carrier (which may be contained in the bill of lading) showing that the freight has been paid or provided for; and

(c) Obtain a policy or certificate of insurance, including any war risk insurance, of a kind and on terms then current at the port of shipment in the usual amount, in the currency of the contract, shown to cover the same goods covered by the bill of lading and providing for payment of loss to the order of the

buyer or for the account of whom it may concern; but the seller may add to the price the amount of the premium for any such war risk insurance; and

(d) Prepare an invoice of the goods and procure any other documents required to effect shipment or to comply with the contract; and

(e) Forward and tender with commercial promptness all the documents in due form and with any indorsement necessary to perfect the buyer's rights.

(3) Unless otherwise agreed the term C. & F. or its equivalent has the same effect and imposes upon the seller the same obligations and risks as a C I.F. term except the obligation as to insurance.

(4) Under the term C.I.F. or C. & F. unless otherwise agreed the buyer must make payment against tender of the required documents and the seller may not tender nor the buyer demand delivery of the goods in substitution for the documents.

2321. Under a contract containing a term C.I.F. or C. & F.

(1) Where the price is based on or is to be adjusted according to "net landed weights," "delivered weights," "out turn" quantity or quality or the like, unless otherwise agreed the seller must reasonably estimate the price. The payment due on tender of the documents called for by the contract is the amount so estimated, but after final adjustment of the price a settlement must be made with commercial promptness.

(2) An agreement described in subdivision (1) or any warranty of quality or condition of the goods on arrival places upon the seller the risk of ordinary deterioration, shrinkage and the like in transportation but has no effect on the place or time of identification to the contract for sale or delivery or on the passing of the risk of loss.

(3) Unless otherwise agreed where the contract provides for payment on or after arrival of the goods the seller must before payment allow such preliminary inspection as is feasible; but if the goods are lost delivery of the documents and payment are due when the goods should have arrived.

2322. (1) Unless otherwise agreed a term for delivery of goods "ex-ship" (which means from the carrying vessel) or in equivalent language is not restricted to a particular ship and requires delivery from a ship which has reached a place at the named port of destination where goods of the kind are usually discharged.

(2) Under such a term unless otherwise agreed

(a) The seller must discharge all liens arising out of the carriage and furnish the buyer with a direction which puts the carrier under a duty to deliver the goods; and

(b) The risk of loss does not pass to the buyer until the goods leave the ship's tackle or are otherwise properly unloaded.

2323. (1) Where the contract contemplates overseas shipment and contains a term C.I.F. or C. & F. or F.O.B. vessel,

the seller unless otherwise agreed must obtain a negotiable bill of lading stating that the goods have been loaded on board or, in the case of a term C.I.F. or C. & F., received for shipment.

(2) Where in a case within subdivision (1) a bill of lading has been issued in a set of parts, unless otherwise agreed if the documents are not to be sent from abroad the buyer may demand tender of the full set; otherwise only one part of the bill of lading need be tendered. Even if the agreement expressly requires a full set

(a) Due tender of a single part is acceptable within the provisions of this division on cure of improper delivery (subdivision (1) of Section 2508); and

(b) Even though the full set is demanded, if the documents are sent from abroad the person tendering an incomplete set may nevertheless require payment upon furnishing an indemnity which the buyer in good faith deems adequate.

(3) A shipment by water or by air or a contract contemplating such shipment is "overseas" insofar as by usage of trade or agreement it is subject to the commercial, financing or shipping practices characteristic of international deepwater commerce.

2324. Under a term "no arrival, no sale" or terms of like meaning, unless otherwise agreed,

(a) The seller must properly ship conforming goods and if they arrive by any means he must tender them on arrival but he assumes no obligation that the goods will arrive unless he has caused the nonarrival; and

(b) Where without fault of the seller the goods are in part lost or have so deteriorated as no longer to conform to the contract or arrive after the contract time, the buyer may proceed as if there had been casualty to identified goods (Section 2613).

2325. (1) Failure of the buyer seasonably to furnish an agreed letter of credit is a breach of the contract for sale.

(2) The delivery to seller of a proper letter of credit suspends the buyer's obligation to pay. If the letter of credit is dishonored, the seller may on seasonable notification to the buyer require payment directly from him.

(3) Unless otherwise agreed the term "letter of credit" or "banker's credit" in a contract for sale means an irrevocable credit issued by a financing agency of good repute and, where the shipment is overseas, of good international repute. The term "confirmed credit" means that the credit must also carry the direct obligation of such an agency which does business in the seller's financial market.

2326. (1) Unless otherwise agreed, if delivered goods may be returned by the buyer even though they conform to the contract, the transaction is

(a) A "sale on approval" if the goods are delivered primarily for use, and

(b) A "sale or return" if the goods are delivered primarily for resale.

(2) Except as provided in subdivision (3), goods held on approval are not subject to the claims of the buyer's creditors until acceptance; goods held on sale or return are subject to such claims while in the buyer's possession.

(3) Where goods are delivered to a person for sale and such person maintains a place of business at which he deals in goods of the kind involved, under a name other than the name of the person making delivery, then with respect to claims of creditors of the person conducting the business the goods are deemed to be on sale or return. The provisions of this subdivision are applicable even though an agreement purports to reserve title to the person making delivery until payment or resale or uses such words as "on consignment" or "on memorandum." However, this subdivision is not applicable if the person making delivery

(b) Establishes that the person conducting the business is generally known by his creditors to be substantially engaged in selling the goods of others, or

(c) Complies with the filing provisions of the division on secured transactions (Division 9).

(4) Any "or return" term of a contract for sale is to be treated as a separate contract for sale within the statute of frauds section of this chapter (Section 2201) and as contradicting the sale aspect of the contract within the provisions of this chapter on parol or extrinsic evidence (Section 2202).

2327. (1) Under a sale on approval unless otherwise agreed

(a) Although the goods are identified to the contract the risk of loss and the title do not pass to the buyer until acceptance; and

(b) Use of the goods consistent with the purpose of trial is not acceptance but failure seasonably to notify the seller of election to return the goods is acceptance, and if the goods conform to the contract acceptance of any part is acceptance of the whole; and

(c) After due notification of election to return, the return is at the seller's risk and expense but a merchant buyer must follow any reasonable instructions.

(2) Under a sale or return unless otherwise agreed

(a) The option to return extends to the whole or any commercial unit of the goods while in substantially their original condition, but must be exercised seasonably; and

(b) The return is at the buyer's risk and expense.

2328. (1) In a sale by auction if goods are put up in lots each lot is the subject of a separate sale.

(2) A sale by auction is complete when the auctioneer so announces by the fall of the hammer or in other customary manner. Where a bid is made while the hammer is falling in acceptance of a prior bid the auctioneer may in his discretion reopen the bidding or declare the goods sold under the bid on which the hammer was falling.

(3) Such a sale is with reserve unless the goods are in explicit terms put up without reserve. In an auction with reserve the auctioneer may withdraw the goods at any time until he announces completion of the sale. In an auction without reserve, after the auctioneer calls for bids on an article or lot, that article or lot cannot be withdrawn unless no bid is made within a reasonable time. In either case a bidder may retract his bid until the auctioneer's announcement of completion of the sale, but a bidder's retraction does not revive any previous bid.

(4) If the auctioneer knowingly receives a bid on the seller's behalf or the seller makes or procures such a bid, and notice has not been given that liberty for such bidding is reserved, the buyer may at his option avoid the sale or take the goods at the price of the last good faith bid prior to the completion of the sale. This subdivision shall not apply to any bid at a forced sale.

CHAPTER 4. TITLE, CREDITORS AND GOOD FAITH PURCHASERS

2401. Each provision of this division with regard to the rights, obligations and remedies of the seller, the buyer, purchasers or other third parties applies irrespective of title to the goods except where the provision refers to such title. Insofar as situations are not covered by the other provisions of this chapter and matters concerning title become material the following rules apply:

(1) Title to goods cannot pass under a contract for sale prior to their identification to the contract (Section 2501), and unless otherwise explicitly agreed the buyer acquires by their identification a special property as limited by this code. Any retention or reservation by the seller of the title (property) in goods shipped or delivered to the buyer is limited in effect to a reservation of a security interest. Subject to these provisions and to the provisions of the division on secured transactions (Division 9), title to goods passes from the seller to the buyer in any manner and on any conditions explicitly agreed on by the parties.

(2) Unless otherwise explicitly agreed title passes to the buyer at the time and place at which the seller completes his performance with reference to the physical delivery of the goods, despite any reservation of a security interest and even though a document of title is to be delivered at a different time or place; and in particular and despite any reservation of a security interest by the bill of lading

(a) If the contract requires or authorizes the seller to send the goods to the buyer but does not require him to deliver them at destination, title passes to the buyer at the time and place of shipment; but

(b) If the contract requires delivery at destination, title passes on tender there.

(3) Unless otherwise explicitly agreed where delivery is to be made without moving the goods,

(a) If the seller is to deliver a document of title, title passes at the time when and the place where he delivers such documents; or

(b) If the goods are at the time of contracting already identified and no documents are to be delivered, title passes at the time and place of contracting.

(4) A rejection or other refusal by the buyer to receive or retain the goods, whether or not justified, or a justified revocation of acceptance revests title to the goods in the seller. Such revesting occurs by operation of law and is not a "sale."

2402. (1) Except as provided in subdivisions (2) and (3), rights of unsecured creditors of the seller with respect to goods which have been identified to a contract for sale are subject to the buyer's rights to recover the goods under this division (Sections 2502 and 2716).

(2) A creditor of the seller may treat a sale or an identification of goods to a contract for sale as void if as against him a retention of possession by the seller is fraudulent under any rule of law of the state where the goods are situated, except that retention of possession in good faith and current course of trade by a merchant-seller for a commercially reasonable time after a sale or identification is not fraudulent.

(3) Nothing in this division shall be deemed to impair the rights of creditors of the seller

(a) Under the provisions of the division on secured transactions (Division 9); or

(b) Where identification to the contract or delivery is made not in current course of trade but in satisfaction of or as security for a pre-existing claim for money, security or the like and is made under circumstances which under any rule of law of the state where the goods are situated would apart from this division constitute the transaction a fraudulent transfer or voidable preference.

2403. (1) A purchaser of goods acquires all title which his transferor had or had power to transfer except that a purchaser of a limited interest acquires rights only to the extent of the interest purchased. A person with voidable title has power to transfer a good title to a good faith purchaser for value. When goods have been delivered under a transaction of purchase the purchaser has such power even though

(a) The transferor was deceived as to the identity of the purchaser, or

(b) The delivery was in exchange for a check which is later dishonored, or

(c) It was agreed that the transaction was to be a "cash sale," or

(d) The delivery was procured through fraud punishable as larcenous under the criminal law.

(2) Any entrusting of possession of goods to a merchant who deals in goods of that kind gives him power to transfer all rights of the entruster to a buyer in ordinary course of business.

(3) "Entrusting" includes any delivery and any acquiescence in retention of possession for the purpose of sale, obtaining offers to purchase, locating a buyer, or the like, regardless of any condition expressed between the parties to the delivery or acquiescence and regardless of whether the procurement of the entrusting or the possessor's disposition of the goods have been such as to be larcenous under the criminal law.

(4) The rights of other purchasers of goods are governed by the divisions on secured transactions (Division 9), bulk transfers (Division 6) and documents of title (Division 7).

CHAPTER 5. PERFORMANCE

2501. (1) The buyer obtains a special property and an insurable interest in goods by identification of existing goods as goods to which the contract refers even though the goods so identified are nonconforming and he has an option to return or reject them. Such identification can be made at any time and in any manner explicitly agreed to by the parties. In the absence of explicit agreement identification occurs

(a) When the contract is made if it is for the sale of goods already existing and identified;

(b) If the contract is for the sale of future goods other than those described in paragraph (c), when goods are shipped, marked or otherwise designated by the seller as goods to which the contract refers;

(c) If the contract is for the sale of unborn young or future crops, when the crops are planted or otherwise become growing crops or the young are conceived.

(2) The seller retains an insurable interest in goods so long as title to or any security interest in the goods remains in him and where the identification is by the seller alone he may until default or insolvency or notification to the buyer that the identification is final substitute other goods for those identified.

(3) Nothing in this section impairs any insurable interest recognized under any other statute or rule of law.

2502. (1) Subject to subdivision (2) and even though the goods have not been shipped a buyer who has paid a part or all of the price of goods in which he has a special property under the provisions of the immediately preceding section may on making and keeping good a tender of any unpaid portion of their price recover them from the seller if the seller becomes insolvent within 10 days after receipt of the first installment on their price.

(2) If the identification creating his special property has been made by the buyer he acquires the right to recover the goods only if they conform to the contract for sale.

2503. (1) Tender of delivery requires that the seller put and hold conforming goods at the buyer's disposition and give the buyer any notification reasonably necessary to enable him to take delivery. The manner, time and place for tender are determined by the agreement and this chapter, and in particular

(a) Tender must be at a reasonable hour, and if it is of goods they must be kept available for the period reasonably necessary to enable the buyer to take possession; but

(b) Unless otherwise agreed the buyer must furnish facilities reasonably suited to the receipt of the goods.

(2) Where the case is within the next section respecting shipment tender requires that the seller comply with its provisions.

(3) Where the seller is required to deliver at a particular destination tender requires that he comply with subdivision (1) and also in any appropriate case tender documents as described in subdivisions (4) and (5) of this section.

(4) Where goods are in the possession of a bailee and are to be delivered without being moved

(a) Tender requires that the seller either tender a negotiable document of title covering such goods or procure acknowledgment by the bailee of the buyer's right to possession of the goods; but

(b) Tender to the buyer of a nonnegotiable document of title or of a written direction to the bailee to deliver is sufficient tender unless the buyer seasonably objects, and receipt by the bailee of notification of the buyer's rights fixes those rights as against the bailee and all third persons; but risk of loss of the goods and of any failure by the bailee to honor the nonnegotiable document of title or to obey the direction remains on the seller until the buyer has had a reasonable time to present the document or direction, and a refusal by the bailee to honor the document or to obey the direction defeats the tender.

(5) Where the contract requires the seller to deliver documents

(a) He must tender all such documents in correct form, except as provided in this division with respect to bills of lading in a set (subdivision (2) of Section 2323); and

(b) Tender through customary banking channels is sufficient and dishonor of a draft accompanying the documents constitutes nonacceptance or rejection.

2504. Where the seller is required or authorized to send the goods to the buyer and the contract does not require him to deliver them at a particular destination, then unless otherwise agreed he must

(a) Put the goods in the possession of such a carrier and make such a contract for their transportation as may be reasonable having regard to the nature of the goods and other circumstances of the case; and

(b) Obtain and promptly deliver or tender in due form any document necessary to enable the buyer to obtain possession of the goods or otherwise required by the agreement or by usage of trade; and

(c) Promptly notify the buyer of the shipment.

Failure to notify the buyer under paragraph (c) or to make a proper contract under paragraph (a) is a ground for rejection only if material delay or loss ensues.

2505. (1) Where the seller has identified goods to the contract by or before shipment:

(a) His procurement of a negotiable bill of lading to his own order or otherwise reserves in him a security interest in the goods. His procurement of the bill to the order of a financing agency or of the buyer indicates in addition only the seller's expectation of transferring that interest to the person named.

(b) A nonnegotiable bill of lading to himself or his nominee reserves possession of the goods as security but except in a case of conditional delivery (subdivision (2) of Section 2507) a nonnegotiable bill of lading naming the buyer as consignee reserves no security interest even though the seller retains possession of the bill of lading.

(2) When shipment by the seller with reservation of a security interest is in violation of the contract for sale it constitutes an improper contract for transportation within the preceding section but impairs neither the rights given to the buyer by shipment and identification of the goods to the contract nor the seller's powers as a holder of a negotiable document.

2506. (1) A financing agency by paying or purchasing for value a draft which relates to a shipment of goods acquires to the extent of the payment or purchase and in addition to its own rights under the draft and any document of title securing it any rights of the shipper in the goods including the right to stop delivery and the shipper's right to have the draft honored by the buyer

(2) The right to reimbursement of a financing agency which has in good faith honored or purchased the draft under commitment to or authority from the buyer is not impaired by subsequent discovery of defects with reference to any relevant document which was apparently regular on its face.

2507. (1) Tender of delivery is a condition to the buyer's duty to accept the goods and, unless otherwise agreed, to his duty to pay for them. Tender entitles the seller to acceptance of the goods and to payment according to the contract.

(2) Where payment is due and demanded on the delivery to the buyer of goods or documents of title, his right as against the seller to retain or dispose of them is conditional upon his making the payment due.

2508. (1) Where any tender or delivery by the seller is rejected because nonconforming and the time for performance has not yet expired, the seller may seasonably notify the buyer

of his intention to cure and may then within the contract time make a conforming delivery.

(2) Where the buyer rejects a nonconforming tender which the seller had reasonable grounds to believe would be acceptable with or without money allowance the seller may if he seasonally notifies the buyer have a further reasonable time to substitute a conforming tender.

2509. (1) Where the contract requires or authorizes the seller to ship the goods by carrier

(a) If it does not require him to deliver them at a particular destination, the risk of loss passes to the buyer when the goods are duly delivered to the carrier even though the shipment is under reservation (Section 2505); but

(b) If it does require him to deliver them at a particular destination and the goods are there duly tendered while in the possession of the carrier, the risk of loss passes to the buyer when the goods are there duly so tendered as to enable the buyer to take delivery.

(2) Where the goods are held by a bailee to be delivered without being moved, the risk of loss passes to the buyer

(a) On his receipt of a negotiable document of title covering the goods; or

(b) On acknowledgment by the bailee of the buyer's right to possession of the goods; or

(c) After his receipt of a nonnegotiable document of title or other written direction to deliver, as provided in subdivision (4)(b) of Section 2503.

(3) In any case not within subdivision (1) or (2), the risk of loss passes to the buyer on his receipt of the goods if the seller is a merchant; otherwise the risk passes to the buyer on tender of delivery.

(4) The provisions of this section are subject to contrary agreement of the parties and to the provisions of this division on sale on approval (Section 2327) and on effect of breach on risk of loss (Section 2510)

2510. (1) Where a tender or delivery of goods so fails to conform to the contract as to give a right of rejection the risk of their loss remains on the seller until cure or acceptance.

(2) Where the buyer rightfully revokes acceptance he may to the extent of any deficiency in his effective insurance coverage treat the risk of loss as having rested on the seller from the beginning.

(3) Where the buyer as to conforming goods already identified to the contract for sale repudiates or is otherwise in breach before risk of their loss has passed to him, the seller may to the extent of any deficiency in his effective insurance coverage treat the risk of loss as resting on the buyer for a commercially reasonable time.

2511 (1) Unless otherwise agreed tender of payment is a condition to the seller's duty to tender and complete any delivery.

(2) Tender of payment is sufficient when made by any means or in any manner current in the ordinary course of business unless the seller demands payment in legal tender and gives any extension of time reasonably necessary to procure it.

(3) Subject to the provisions of this code on the effect of an instrument on an obligation (Section 3802), payment by check is conditional and is defeated as between the parties by dishonor of the check on due presentment.

2512. (1) Where the contract requires payment before inspection nonconformity of the goods does not excuse the buyer from so making payment unless (a) the nonconformity appears without inspection.

(2) Payment pursuant to subdivision (1) does not constitute an acceptance of goods or impair the buyer's right to inspect or any of his remedies.

2513. (1) Unless otherwise agreed and subject to subdivision (3), where goods are tendered or delivered or identified to the contract for sale, the buyer has a right before payment or acceptance to inspect them at any reasonable place and time and in any reasonable manner. When the seller is required or authorized to send the goods to the buyer, the inspection may be after their arrival.

(2) Expenses of inspection must be borne by the buyer but may be recovered from the seller if the goods do not conform and are rejected.

(3) Unless otherwise agreed and subject to the provisions of this division on C.I.F. contracts (subdivision (3) of Section 2321), the buyer is not entitled to inspect the goods before payment of the price when the contract provides

(a) For delivery "C.O.D." or on other like terms; or

(b) For payment against documents of title, except where such payment is due only after the goods are to become available for inspection.

(4) A place or method of inspection fixed by the parties is presumed to be exclusive but unless otherwise expressly agreed it does not postpone identification or shift the place for delivery or for passing the risk of loss. If compliance becomes impossible, inspection shall be as provided in this section unless the place or method fixed was clearly intended as an indispensable condition failure of which avoids the contract.

2514. Unless otherwise agreed documents against which a draft is drawn are to be delivered to the drawee on acceptance of the draft if it is payable more than three days after presentment; otherwise, only on payment.

2515. In furtherance of the adjustment of any claim or dispute

(a) Either party on reasonable notification to the other and for the purpose of ascertaining the facts and preserving evidence has the right to inspect, test and sample the goods including such of them as may be in the possession or control of the other; and

(b) The parties may agree to a third party inspection or survey to determine the conformity or condition of the goods and may agree that the findings shall be binding upon them in any subsequent litigation or adjustment.

CHAPTER 6. BREACH, REPUDIATION AND EXCUSE

2601. Subject to the provisions of this division on breach in installment contracts (Section 2612) and unless otherwise agreed under the sections on contractual limitations of remedy (Sections 2718 and 2719), if the goods or the tender of delivery fail in any respect to conform to the contract, the buyer may

(a) Reject the whole; or

(b) Accept the whole; or

(c) Accept any commercial unit or units and reject the rest.

2602. (1) Rejection of goods must be within a reasonable time after their delivery or tender. It is ineffective unless the buyer seasonably notifies the seller.

(2) Subject to the provisions of the two following sections on rejected goods (Sections 2603 and 2604),

(a) After rejection any exercise of ownership by the buyer with respect to any commercial unit is wrongful as against the seller; and

(b) If the buyer has before rejection taken physical possession of goods in which he does not have a security interest under the provisions of this division (subdivision (3) of Section 2711), he is under a duty after rejection to hold them with reasonable care at the seller's disposition for a time sufficient to permit the seller to remove them; but

(c) The buyer has no further obligations with regard to goods rightfully rejected.

(3) The seller's rights with respect to goods wrongfully rejected are governed by the provisions of this division on seller's remedies in general (Section 2703).

2603. (1) Subject to any security interest in the buyer (subdivision (3) of Section 2711), when the seller has no agent or place of business at the market of rejection a merchant buyer is under a duty after rejection of goods in his possession or control to follow any reasonable instructions received from the seller with respect to the goods and in the absence of such instructions to make reasonable efforts to sell them for the seller's account if they are perishable or threaten to decline in value speedily. Instructions are not reasonable if on demand indemnity for expenses is not forthcoming.

(2) When the buyer sells goods under subdivision (1), he is entitled to reimbursement from the seller or out of the proceeds for reasonable expenses of caring for and selling them, and if the expenses include no selling commission then to such commission as is usual in the trade or if there is none to a reasonable sum not exceeding 10 percent on the gross proceeds.

(3) In complying with this section the buyer is held only to good faith and good faith conduct hereunder is neither acceptance nor conversion nor the basis of an action for damages.

2604. Subject to the provisions of the immediately preceding section on perishables if the seller gives no instructions within a reasonable time after notification of rejection the buyer may store the rejected goods for the seller's account or reship them to him or resell them for the seller's account with reimbursement as provided in the preceding section. Such action is not acceptance or conversion.

2605. (1) The buyer's failure to state in connection with rejection a particular defect which is ascertainable by reasonable inspection precludes him from relying on the unstated defect to justify rejection or to establish breach

(a) Where the seller could have cured it if stated seasonably; or

(b) Between merchants when the seller has after rejection made a request in writing for a full and final written statement of all defects on which the buyer proposes to rely.

(2) Payment against documents made without reservation of rights precludes recovery of the payment for defects apparent on the face of the documents.

2606. (1) Acceptance of goods occurs when the buyer

(a) After a reasonable opportunity to inspect the goods signifies to the seller that the goods are conforming or that he will take or retain them in spite of their nonconformity; or

(b) Fails to make an effective rejection (subdivision (1) of Section 2602), but such acceptance does not occur until the buyer has had a reasonable opportunity to inspect them; or

(c) Does any act inconsistent with the seller's ownership; but if such act is wrongful as against the seller it is an acceptance only if ratified by him.

(2) Acceptance of a part of any commercial unit is acceptance of that entire unit.

2607 (1) The buyer must pay at the contract rate for any goods accepted.

(2) Acceptance of goods by the buyer precludes rejection of the goods accepted and if made with knowledge of a nonconformity cannot be revoked because of it unless the acceptance was on the reasonable assumption that the nonconformity would be seasonably cured but acceptance does not of itself impair any other remedy provided by this division for nonconformity.

(3) Where a tender has been accepted

(a) The buyer must within a reasonable time after he discovers or should have discovered any breach notify the seller of breach or be barred from any remedy; and

(b) If the claim is one for infringement or the like (subdivision (3) of Section 2312) and the buyer is sued as a result of such a breach he must so notify the seller within a reasonable time after he receives notice of the litigation or be barred from any remedy over for liability established by the litigation

(4) The burden is on the buyer to establish any breach with respect to the goods accepted.

(5) Where the buyer is sued for breach of a warranty or other obligation for which his seller is answerable over

(a) He may give his seller written notice of the litigation. If the notice states that the seller may come in and defend and that if the seller does not do so he will be bound in any action against him by his buyer by any determination of fact common to the two litigations, then unless the seller after seasonable receipt of the notice does come in and defend he is so bound

(b) If the claim is one for infringement or the like (subdivision (3) of Section 2312) the original seller may demand in writing that his buyer turn over to him control of the litigation including settlement or else be barred from any remedy over and if he also agrees to bear all expense and to satisfy any adverse judgment, then unless the buyer after seasonable receipt of the demand does turn over control the buyer is so barred.

(6) The provisions of subdivisions (3), (4) and (5) apply to any obligation of a buyer to hold the seller harmless against infringement or the like (subdivision (3) of Section 2312).

2608 (1) The buyer may revoke his acceptance of a lot or commercial unit whose nonconformity substantially impairs its value to him if he has accepted it

(a) On the reasonable assumption that its nonconformity would be cured and it has not been seasonably cured; or

(b) Without discovery of such nonconformity if his acceptance was reasonably induced either by the difficulty of discovery before acceptance or by the seller's assurances

(2) Revocation of acceptance must occur within a reasonable time after the buyer discovers or should have discovered the ground for it and before any substantial change in condition of the goods which is not caused by their own defects. It is not effective until the buyer notifies the seller of it

(3) A buyer who so revokes has the same rights and duties with regard to the goods involved as if he had rejected them

2609. (1) A contract for sale imposes an obligation on each party that the other's expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party the other may in writing demand adequate assurance of due performance and until he receives such assurance may if commercially reasonable suspend any performance for which he has not already received the agreed return.

(2) Between merchants the reasonableness of grounds for insecurity and the adequacy of any assurance offered shall be determined according to commercial standards.

(3) Acceptance of any improper delivery or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance.

(4) After receipt of a justified demand failure to provide within a reasonable time not exceeding 30 days such assurance

of due performance as is adequate under the circumstances of the particular case is a repudiation of the contract.

2610. When either party repudiates the contract with respect to a performance not yet due the loss of which will substantially impair the value of the contract to the other, the aggrieved party may

(a) For a commercially reasonable time await performance by the repudiating party; or

(b) Resort to any remedy for breach (Section 2703 or Section 2711), even though he has notified the repudiating party that he would await the latter's performance and has urged retraction; and

(c) In either case suspend his own performance or proceed in accordance with the provisions of this division on the seller's right to identify goods to the contract notwithstanding breach or to salvage unfinished goods (Section 2704).

2611. (1) Until the repudiating party's next performance is due he can retract his repudiation unless the aggrieved party has since the repudiation canceled or materially changed his position or otherwise indicated that he considers the repudiation final.

(2) Retraction may be by any method which clearly indicates to the aggrieved party that the repudiating party intends to perform, but must include any assurance justifiably demanded under the provisions of this division (Section 2609).

(3) Retraction reinstates the repudiating party's rights under the contract with due excuse and allowance to the aggrieved party for any delay occasioned by the repudiation.

2612. (1) An "installment contract" is one which requires or authorizes the delivery of goods in separate lots to be separately accepted, even though the contract contains a clause "each delivery is a separate contract" or its equivalent.

(2) The buyer may reject any installment which is nonconforming if the nonconformity substantially impairs the value of that installment and cannot be cured or if the nonconformity is a defect in the required documents; but if the nonconformity does not fall within subdivision (3) and the seller gives adequate assurance of its cure the buyer must accept that installment.

(3) Whenever nonconformity or default with respect to one or more installments substantially impairs the value of the whole contract there is a breach of the whole. But the aggrieved party reinstates the contract if he accepts a nonconforming installment without seasonably notifying of cancellation or if he brings an action with respect only to past installments or demands performance as to future installments.

2613. Where the contract requires for its performance goods identified when the contract is made, and the goods suffer casualty without fault of either party before the risk of loss passes to the buyer, or in a proper case under a "no arrival, no sale" term (Section 2324) then

(a) If the loss is total the contract is avoided; and

(b) If the loss is partial or the goods have so deteriorated as no longer to conform to the contract the buyer may nevertheless demand inspection and at his option either treat the contract as avoided or accept the goods with due allowance from the contract price for the deterioration or the deficiency in quantity but without further right against the seller.

2614. (1) Where without fault of either party the agreed berthing, loading, or unloading facilities fail or an agreed type of carrier becomes unavailable or the agreed manner of delivery otherwise becomes commercially impracticable but a commercially reasonable substitute is available, such substitute performance must be tendered and accepted.

(2) If the agreed means or manner of payment fails because of domestic or foreign governmental regulation, the seller may withhold or stop delivery unless the buyer provides a means or manner of payment which is commercially a substantial equivalent. If delivery has already been taken, payment by the means or in the manner provided by the regulation discharges the buyer's obligation unless the regulation is discriminatory, oppressive or predatory.

2615. Except so far as a seller may have assumed a greater obligation and subject to the preceding section on substituted performance:

(a) Delay in delivery or nondelivery in whole or in part by a seller who complies with paragraphs (b) and (c) is not a breach of his duty under a contract for sale if performance as agreed has been made impracticable by the occurrence of a contingency the nonoccurrence of which was a basic assumption on which the contract was made or by compliance in good faith with any applicable foreign or domestic governmental regulation or order whether or not it later proves to be invalid.

(b) Where the causes mentioned in paragraph (a) affect only a part of the seller's capacity to perform, he must allocate production and deliveries among his customers but may at his option include regular customers not then under contract as well as his own requirements for further manufacture. He may so allocate in any manner which is fair and reasonable.

(c) The seller must notify the buyer seasonably that there will be delay or nondelivery and, when allocation is required under paragraph (b), of the estimated quota thus made available for the buyer.

2616. (1) Where the buyer receives notification of a material or indefinite delay or an allocation justified under the preceding section he may by written notification to the seller as to any delivery concerned, and where the prospective deficiency substantially impairs the value of the whole contract under the provisions of this division relating to breach of installment contracts (Section 2612), then also as to the whole,

(a) Terminate and thereby discharge any unexecuted portion of the contract; or

(b) Modify the contract by agreeing to take his available quota in substitution.

(2) If after receipt of such notification from the seller the buyer fails so to modify the contract within a reasonable time not exceeding 30 days the contract lapses with respect to any deliveries affected

(3) The provisions of this section may not be negated by agreement except insofar as the seller has assumed a greater obligation under the preceding section.

CHAPTER 7. REMEDIES

2701. Remedies for breach of any obligation or promise collateral or ancillary to a contract for sale are not impaired by the provisions of this division.

2702. (1) Where the seller discovers the buyer to be insolvent he may refuse delivery except for cash including payment for all goods theretofore delivered under the contract, and stop delivery under this division (Section 2705).

(2) Where the seller discovers that the buyer has received goods on credit while insolvent he may reclaim the goods upon demand made within 10 days after the receipt, but if misrepresentation of solvency has been made to the particular seller in writing within three months before delivery the 10-day limitation does not apply. Except as provided in this subdivision the seller may not base a right to reclaim goods on the buyer's fraudulent or innocent misrepresentation of solvency or of intent to pay.

(3) The seller's right to reclaim under subdivision (2) is subject to the rights of a buyer in ordinary course or other good faith purchaser under this division (Section 2403). Successful reclamation of goods excludes all other remedies with respect to them.

2703. Where the buyer wrongfully rejects or revokes acceptance of goods or fails to make a payment due on or before delivery or repudiates with respect to a part or the whole, then with respect to any goods directly affected and, if the breach is of the whole contract (Section 2612), then also with respect to the whole undelivered balance, the aggrieved seller may

(a) Withhold delivery of such goods;

(b) Stop delivery by any bailee as hereafter provided (Section 2705);

(c) Proceed under the next section respecting goods still unidentified to the contract;

(d) Resell and recover damages as hereafter provided (Section 2706);

(e) Recover damages for nonacceptance (Section 2708) or in a proper case the price (Section 2709);

(f) Cancel.

2704. (1) An aggrieved seller under the preceding section may

(a) Identify to the contract conforming goods not already identified if at the time he learned of the breach they are in his possession or control;

(b) Treat as the subject of resale goods which have demonstrably been intended for the particular contract even though those goods are unfinished.

(2) Where the goods are unfinished an aggrieved seller may in the exercise of reasonable commercial judgment for the purposes of avoiding loss and of effective realization either complete the manufacture and wholly identify the goods to the contract or cease manufacture and resell for scrap or salvage value or proceed in any other reasonable manner.

2705. (1) The seller may stop delivery of goods in the possession of a carrier or other bailee when he discovers the buyer to be insolvent (Section 2702) and may stop delivery of carload, truckload, planeload or larger shipments of express or freight when the buyer repudiates or fails to make a payment due before delivery or if for any other reason the seller has a right to withhold or reclaim the goods.

(2) As against such buyer the seller may stop delivery until

(a) Receipt of the goods by the buyer; or

(b) Acknowledgment to the buyer by any bailee of the goods except a carrier that the bailee holds the goods for the buyer; or

(c) Such acknowledgment to the buyer by a carrier by reshipment or as warehouseman; or

(d) Negotiation to the buyer of any negotiable document of title covering the goods.

(3) (a) To stop delivery the seller must so notify as to enable the bailee by reasonable diligence to prevent delivery of the goods.

(b) After such notification the bailee must hold and deliver the goods according to the directions of the seller but the seller is liable to the bailee for any ensuing charges or damages.

(c) If a negotiable document of title has been issued for goods the bailee is not obliged to obey a notification to stop until surrender of the document.

(d) A carrier who has issued a nonnegotiable bill of lading is not obliged to obey a notification to stop received from a person other than the consignor.

2706. (1) Under the conditions stated in Section 2703 on seller's remedies, the seller may resell the goods concerned or the undelivered balance thereof. Where the resale is made in good faith and in a commercially reasonable manner the seller may recover the difference between the resale price and the contract price together with any incidental damages allowed under the provisions of this division (Section 2710), but less expenses saved in consequence of the buyer's breach.

(2) Except as otherwise provided in subdivision (3) or unless otherwise agreed resale may be at public or private sale including sale by way of one or more contracts to sell or of

identification to an existing contract of the seller. Sale may be as a unit or in parcels and at any time and place and on any terms but every aspect of the sale including the method, manner, time, place and terms must be commercially reasonable. The resale must be reasonably identified as referring to the broken contract, but it is not necessary that the goods be in existence or that any or all of them have been identified to the contract before the breach.

(3) Where the resale is at private sale the seller must give the buyer reasonable notification of his intention to resell.

(4) Where the resale is at public sale

(a) Only identified goods can be sold except where there is a recognized market for a public sale of futures in goods of the kind; and

(b) It must be made at a usual place or market for public sale if one is reasonably available and except in the case of goods which are perishable or threaten to decline in value speedily the seller must give the buyer reasonable notice of the time and place of the resale; and

(c) If the goods are not to be within the view of those attending the sale the notification of sale must state the place where the goods are located and provide for their reasonable inspection by prospective bidders; and

(d) The seller may buy.

(5) A purchaser who buys in good faith at a resale takes the goods free of any rights of the original buyer even though the seller fails to comply with one or more of the requirements of this section.

(6) The seller is not accountable to the buyer for any profit made on any resale. A person in the position of a seller (Section 2707) or a buyer who has rightfully rejected or justifiably revoked acceptance must account for any excess over the amount of his security interest, as hereinafter defined (subdivision (3) of Section 2711).

2707. (1) A "person in the position of a seller" includes as against a principal an agent who has paid or become responsible for the price of goods on behalf of his principal or anyone who otherwise holds a security interest or other right in goods similar to that of a seller.

(2) A person in the position of a seller may as provided in this division withhold or stop delivery (Section 2705) and resell (Section 2706) and recover incidental damages (Section 2710).

2708. (1) Subject to subdivision (2) and to the provisions of this division with respect to proof of market price (Section 2723), the measure of damages for nonacceptance or repudiation by the buyer is the difference between the market price at the time and place for tender and the unpaid contract price together with any incidental damages provided in this division (Section 2710), but less expenses saved in consequence of the buyer's breach.

(2) If the measure of damages provided in subdivision (1) is inadequate to put the seller in as good a position as performance would have done then the measure of damages is the profit (including reasonable overhead) which the seller would have made from full performance by the buyer, together with any incidental damages provided in this division (Section 2710), due allowance for costs reasonably incurred and due credit for payments or proceeds of resale.

2709. (1) When the buyer fails to pay the price as it becomes due the seller may recover, together with any incidental damages under the next section, the price

(a) Of goods accepted or of conforming goods lost or damaged within a commercially reasonable time after risk of their loss has passed to the buyer; and

(b) Of goods identified to the contract if the seller is unable after reasonable effort to resell them at a reasonable price or the circumstances reasonably indicate that such effort will be unavailing.

(2) Where the seller sues for the price he must hold for the buyer any goods which have been identified to the contract and are still in his control except that if resale becomes possible he may resell them at any time prior to the collection of the judgment. The net proceeds of any such resale must be credited to the buyer and payment of the judgment entitles him to any goods not resold.

(3) After the buyer has wrongfully rejected or revoked acceptance of the goods or has failed to make a payment due or has repudiated (Section 2610), a seller who is held not entitled to the price under this section shall nevertheless be awarded damages for nonacceptance under the preceding section.

2710. Incidental damages to an aggrieved seller include any commercially reasonable charges, expenses or commissions incurred in stopping delivery, in the transportation, care and custody of goods after the buyers' breach, in connection with return or resale of the goods or otherwise resulting from the breach.

2711. (1) Where the seller fails to make delivery or repudiates or the buyer rightfully rejects or justifiably revokes acceptance then with respect to any goods involved, and with respect to the whole if the breach goes to the whole contract (Section 2612), the buyer may cancel and whether or not he has done so may in addition to recovering so much of the price as has been paid

(a) "Cover" and have damages under the next section as to all the goods affected whether or not they have been identified to the contract; or

(b) Recover damages for nondelivery as provided in this division (Section 2713).

(2) Where the seller fails to deliver or repudiates the buyer may also

(a) If the goods have been identified recover them as provided in this division (Section 2502); or

(b) In a proper case obtain specific performance or replevy the goods as provided in this division (Section 2716).

(3) On rightful rejection or justifiable revocation of acceptance a buyer has a security interest in goods in his possession or control for any payments made on their price and any expenses reasonably incurred in their inspection, receipt, transportation, care and custody and may hold such goods and resell them in like manner as an aggrieved seller (Section 2706).

2712. (1) After a breach within the preceding section the buyer may "cover" by making in good faith and without unreasonable delay any reasonable purchase of or contract to purchase goods in substitution for those due from the seller.

(2) The buyer may recover from the seller as damages the difference between the cost of cover and the contract price together with any incidental or consequential damages as hereinafter defined (Section 2715), but less expenses saved in consequence of the seller's breach.

(3) Failure of the buyer to effect cover within this section does not bar him from any other remedy.

2713. (1) Subject to the provisions of this division with respect to proof of market price (Section 2723), the measure of damages for nondelivery or repudiation by the seller is the difference between the market price at the time when the buyer learned of the breach and the contract price together with any incidental and consequential damages provided in this division (Section 2715), but less expenses saved in consequence of the seller's breach.

(2) Market price is to be determined as of the place for tender or, in cases of rejection after arrival or revocation of acceptance, as of the place of arrival.

2714. (1) Where the buyer has accepted goods and given notification (subdivision (3) of Section 2607) he may recover as damages for any nonconformity of tender the loss resulting in the ordinary course of events from the seller's breach as determined in any manner which is reasonable.

(2) The measure of damages for breach of warranty is the difference at the time and place of acceptance between the value of the goods accepted and the value they would have had if they had been as warranted, unless special circumstances show proximate damages of a different amount.

(3) In a proper case any incidental and consequential damages under the next section may also be recovered.

2715. (1) Incidental damages resulting from the seller's breach include expenses reasonably incurred in inspection, receipt, transportation and care and custody of goods rightfully rejected, any commercially reasonable charges, expenses or commissions in connection with effecting cover and any other reasonable expense incident to the delay or other breach

(2) Consequential damages resulting from the seller's breach include

(a) Any loss resulting from general or particular requirements and needs of which the seller at the time of contracting had reason to know and which could not reasonably be prevented by cover or otherwise; and

(b) Injury to person or property proximately resulting from any breach of warranty.

2716. (1) Specific performance may be decreed where the goods are unique or in other proper circumstances.

(2) The decree for specific performance may include such terms and conditions as to payment of the price, damages, or other relief as the court may deem just.

(3) The buyer has a right of replevin for goods identified to the contract if after reasonable effort he is unable to effect cover for such goods or the circumstances reasonably indicate that such effort will be unavailing or if the goods have been shipped under reservation and satisfaction of the security interest in them has been made or tendered.

2717. The buyer on notifying the seller of his intention to do so may deduct all or any part of the damages resulting from any breach of the contract from any part of the price still due under the same contract.

2718. (1) Damages for breach by either party may be liquidated in the agreement but only at an amount which is reasonable in the light of the anticipated or actual harm caused by the breach, the difficulties of proof of loss, and the inconvenience or nonfeasibility of otherwise obtaining an adequate remedy. A term fixing unreasonably large liquidated damages is void as a penalty.

(2) Where the seller justifiably withholds delivery of goods because of the buyer's breach, the buyer is entitled to restitution of any amount by which the sum of his payments exceeds

(a) The amount to which the seller is entitled by virtue of terms liquidating the seller's damages in accordance with subdivision (1), or

(b) In the absence of such terms, 20 percent of the value of the total performance for which the buyer is obligated under the contract or five hundred dollars ($500), whichever is smaller.

(3) The buyer's right to restitution under subdivision (2) is subject to offset to the extent that the seller establishes

(a) A right to recover damages under the provisions of this chapter other than subdivision (1), and

(b) The amount or value of any benefits received by the buyer directly or indirectly by reason of the contract.

(4) Where a seller has received payment in goods their reasonable value or the proceeds of their resale shall be treated as payments for the purposes of subdivision (2); but if the seller has notice of the buyer's breach before reselling goods received in part performance, his resale is subject to the conditions laid down in this division on resale by an aggrieved seller (Section 2706).

2719. (1) Subject to the provisions of subdivisions (2) and (3) of this section and of the preceding section on liquidation and limitation of damages,

(a) The agreement may provide for remedies in addition to or in substitution for those provided in this division and may limit or alter the measure of damages recoverable under this division, as by limiting the buyer's remedies to return of the goods and repayment of the price or to repair and replacement of nonconforming goods or parts; and

(b) Resort to a remedy as provided is optional unless the remedy is expressly agreed to be exclusive, in which case it is the sole remedy.

(2) Where circumstances cause an exclusive or limited remedy to fail of its essential purpose, remedy may be had as provided in this code.

(3) Consequential damages may be limited or excluded unless the limitation or exclusion is unconscionable. Limitation of consequential damages for injury to the person in the case of consumer goods is prima facie unconscionable but limitation of damages where the loss is commercial is not.

2720. Unless the contrary intention clearly appears, expressions of "cancellation" or "rescission" of the contract or the like shall not be construed as a renunciation or discharge of any claim in damages for an antecedent breach.

2721. Remedies for material misrepresentation or fraud include all remedies available under this division for nonfraudulent breach. Neither rescission or a claim for rescission of the contract for sale nor rejection or return of the goods shall bar or be deemed inconsistent with a claim for damages or other remedy.

2722. Where a third party so deals with goods which have been identified to a contract for sale as to cause actionable injury to a party to that contract

(a) A right of action against the third party is in either party to the contract for sale who has title to or a security interest or a special property or an insurable interest in the goods; and if the goods have been destroyed or converted a right of action is also in the party who either bore the risk of loss under the contract for sale or has since the injury assumed that risk as against the other;

(b) If at the time of the injury the party plaintiff did not bear the risk of loss as against the other party to the contract for sale and there is no arrangement between them for disposition of the recovery, his suit or settlement is, subject to his own interest, as a fiduciary for the other party to the contract;

(c) Either party may with the consent of the other sue for the benefit of whom it may concern.

2723. (1) If an action based on anticipatory repudiation comes to trial before the time for performance with respect to some or all of the goods, any damages based on market price (Section 2708 or Section 2713) shall be determined according

to the price of such goods prevailing at the time when the aggrieved party learned of the repudiation.

(2) If evidence of a price prevailing at the times or places described in this division is not readily available the price prevailing within any reasonable time before or after the time described or at any other place which in commercial judgment or under usage of trade would serve as a reasonable substitute for the one described may be used, making any proper allowance for the cost of transporting the goods to or from such other place.

(3) Evidence of a relevant price prevailing at a time or place other than the one described in this division offered by one party is not admissible unless and until he has given the other party such notice as the court finds sufficient to prevent unfair surprise.

2724. Whenever the prevailing price or value of any goods regularly bought and sold in any established commodity market is in issue, reports in official publications or trade journals or in newspapers or periodicals of general circulation published as the reports of such market shall be admissible in evidence. The circumstances of the preparation of such a report may be shown to affect its weight but not its admissibility.

(2) The provisions of this division are subject to the provisions of the division on bank deposits and collections (Division 4) and secured transactions (Division 9)

3104. (1) Any writing to be a negotiable instrument within this division must

(a) Be signed by the maker or drawer; and

(b) Contain an unconditional promise or order to pay a sum certain in money and no other promise, order, obligation or power given by the maker or drawer except as authorized by this division; and

(c) Be payable on demand or at a definite time; and

(d) Be payable to order or to bearer.

(2) A writing which complies with the requirements of this section is

(a) A "draft" ("bill of exchange") if it is an order;

(b) A "check" if it is a draft drawn on a bank and payable on demand;

(c) A "certificate of deposit" if it is an acknowledgment by a bank of receipt of money with an engagement to repay it;

(d) A "note" if it is a promise other than a certificate of deposit.

(3) As used in other divisions of this code, and as the context may require, the terms "draft," "check," "certificate of deposit" and "note" may refer to instruments which are

not negotiable within this division as well as to instruments which are so negotiable.

3105. (1) A promise or order otherwise unconditional is not made conditional by the fact that the instrument

(a) Is subject to implied or constructive conditions; or

(b) States its consideration, whether performed or promised, or the transaction which gave rise to the instrument, or that the promise or order is made or the instrument matures in accordance with or "as per" such transaction; or

(c) Refers to or states that it arises out of a separate agreement or refers to a separate agreement for rights as to prepayment or acceleration; or

(d) States that it is drawn under a letter of credit; or

(e) States that it is secured, whether by mortgage, reservation of title or otherwise; or

(f) Indicates a particular account to be debited or any other fund or source from which reimbursement is expected; or

(g) Is limited to payment out of a particular fund or the proceeds of a particular source, if the instrument is issued by a government or governmental agency or unit; or

(h) Is limited to payment out of the entire assets of a partnership, unincorporated association, trust or estate by or on behalf of which the instrument is issued.

(2) A promise or order is not unconditional if the instrument

(a) States that it is subject to or governed by any other agreement; or

(b) States that it is to be paid only out of a particular fund or source except as provided in this section.

3106. (1) The sum payable is a sum certain even though it is to be paid

(a) With stated interest or by stated installments; or

(b) With stated different rates of interest before and after default or a specified date; or

(c) With a stated discount or addition if paid before or after the date fixed for payment; or

(d) With exchange or less exchange, whether at a fixed rate or at the current rate; or

(e) With costs of collection or an attorney's fee or both upon default.

(2) Nothing in this section shall validate any term which is otherwise illegal.

3107. (1) An instrument is payable in money if the medium of exchange in which it is payable is money at the time the instrument is made. An instrument payable in "currency" or "current funds" is payable in money.

(2) A promise or order to pay a sum stated in a foreign currency is for a sum certain in money and may be satisfied by payment of that number of dollars which the stated foreign currency will purchase at the buying sight rate for that currency on the day on which the instrument is payable or, if payable on demand, on the day of demand.

3108. Instruments payable on demand include those payable at sight or on presentation and those in which no time for payment is stated.

3109. (1) An instrument is payable at a definite time if by its terms it is payable

(a) On or before a stated date or at a fixed period after a stated date; or

(b) At a fixed period after sight; or

(c) At a definite time subject to any acceleration; or

(d) At a definite time subject to extension at the option of the holder, or to extension to a further definite time at the option of the maker or acceptor or automatically upon or after a specified act or event.

(2) An instrument which by its terms is otherwise payable only upon an act or event uncertain as to time of occurrence is not payable at a definite time even though the act or event has occurred.

3110. (1) An instrument is payable to order when by its terms it is payable to the order or assigns of any person therein specified with reasonable certainty, or to him or his order, or when it is conspicuously designated on its face as "exchange" or the like and names a payee. It may be payable to the order of

(a) The maker or drawer; or

(b) The drawee; or

(c) A payee who is not maker, drawer or drawee; or

(d) Two or more payees together or in the alternative; or

(e) An estate, trust or fund, in which case it is payable to the order of the representative of such estate, trust or fund or his successors; or

(f) An office, or an officer by his title as such in which case it is payable to the principal but the incumbent of the office or his successors may act as if he or they were the holder; or

(g) A partnership or unincorporated association, in which case it is payable to the partnership or association and may be indorsed or transferred by any person thereto authorized.

(2) An instrument not payable to order is not made so payable by such words as "payable upon return of this instrument properly indorsed."

(3) An instrument made payable both to order and to bearer is payable to order unless the bearer words are handwritten or typewritten.

3111. An instrument is payable to bearer when by its terms it is payable to

(a) Bearer or the order of bearer; or

(b) A specified person or bearer; or

(c) "Cash" or the order of "cash," or any other indication which does not purport to designate a specific payee.

3112. (1) The negotiability of an instrument is not affected by

(a) The omission of a statement of any consideration or of the place where the instrument is drawn or payable; or

(b) A statement that collateral has been given to secure obligations either on the instrument or otherwise of an obligor on the instrument or in case of default on such obligations the holder may realize on or dispose of the collateral; or

(c) A promise or power to maintain or protect collateral, to give additional collateral, to furnish financial information or to do or refrain from doing any other act for the protection of the obligation expressed in the instrument not involving the payment of money on account of the indebtedness evidenced by the instrument; or

(d) A term authorizing a confession of judgment on the instrument if it is not paid when due; or

(e) A term purporting to waive the benefit of any law intended for the advantage or protection of any obligor; or

(f) A term in a draft providing that the payee by indorsing or cashing it acknowledges full satisfaction of an obligation of the drawer; or

(g) A statement in a draft drawn in a set of parts (Section 3801) to the effect that the order is effective only if no other part has been honored.

(2) Nothing in this section shall validate any term which is otherwise illegal.

3113. An instrument otherwise negotiable is within this division even though it is under a seal.

3114. (1) The negotiability of an instrument is not affected by the fact that it is undated, antedated or postdated.

(2) Where an instrument is antedated or postdated the time when it is payable is determined by the stated date if the instrument is payable on demand or at a fixed period after date.

(3) Where the instrument or any signature thereon is dated, the date is presumed to be correct.

3115. (1) When a paper whose contents at the time of signing show that it is intended to become an instrument is signed while still incomplete in any necessary respect it cannot be enforced until completed, but when it is completed in accordance with authority given it is effective as completed.

(2) If the completion is unauthorized the rules as to material alteration apply (Section 3407), even though the paper was not delivered by the maker or drawer; but the burden of establishing that any completion is unauthorized is on the party so asserting.

3116. An instrument payable to the order of two or more persons

(a) If in the alternative is payable to any one of them and may be negotiated, discharged or enforced by any of them who has possession of it;

(b) If not in the alternative is payable to all of them and may be negotiated, discharged or enforced only by all of them.

3117. An instrument made payable to a named person with the addition of words describing him

(a) As agent or officer of a specified person is payable to his principal but the agent or officer may act as if he were the holder;

(b) As any other fiduciary for a specified person or purpose is payable to the payee and may be negotiated, discharged or enforced by him;

(c) In any other manner is payable to the payee unconditionally and the additional words are without effect on subsequent parties.

3118. The following rules apply to every instrument:

(a) Where there is doubt whether the instrument is a draft or a note the holder may treat it as either. A draft drawn on the drawer is effective as a note.

(b) Handwritten terms control typewritten and printed terms, and typewritten control printed.

(c) Words control figures except that if the words are ambiguous figures control.

(d) Unless otherwise specified a provision for interest means interest at the judgment rate at the place of payment from the date of the instrument, or if it is undated from the date of issue.

(e) Unless the instrument otherwise specifies two or more persons who sign as maker, acceptor or drawer or indorser and as a part of the same transaction are jointly and severally liable even though the instrument contains such words as "I promise to pay."

(f) Unless otherwise specified consent to extension authorizes a single extension for not longer than the original period. A consent to extension, expressed in the instrument, is binding on secondary parties and accommodation makers. A holder may not exercise his option to extend an instrument over the objection of a maker or acceptor or other party who in accordance with Section 3604 tenders full payment when the instrument is due.

3119. (1) As between the obligor and his immediate obligee or any transferee the terms of an instrument may be modified or affected by any other written agreement executed as a part of the same transaction, except that a holder in due course is not affected by any limitation of his rights arising out of the separate written agreement if he had no notice of the limitation when he took the instrument.

(2) A separate agreement does not affect the negotiability of an instrument.

3120. An instrument which states that it is "payable through" a bank or the like designates that bank as a collecting bank to make presentment but does not of itself authorize the bank to pay the instrument.

3121. An instrument which states that it is payable at a bank is not of itself an order or authorization to the bank to pay it unless the bank is the drawee.

3122. (1) A cause of action against a maker or an acceptor accrues

(a) In the case of a time instrument on the day after maturity;

(b) In the case of a demand instrument upon its date or, if no date is stated, on the date of issue.

(2) A cause of action against the obligor of a demand or time certificate of deposit accrues upon demand, but demand on a time certificate may not be made until on or after the date of maturity.

(3) A cause of action against a drawer of a draft or an indorser of any instrument accrues upon demand following dishonor of the instrument. Notice of dishonor is a demand.

(4) Unless an instrument provides otherwise, interest runs at the rate provided by law for a judgment

(a) In the case of a maker, acceptor or other primary obligor of a demand instrument, from the date of demand;

(b) In all other cases from the date of accrual of the cause of action.

3123. Every instrument is payable at the time fixed therein without grace. When the day of maturity falls upon Sunday, Saturday or a holiday, the instrument is payable on the next succeeding business day which is not a Saturday. Where the day of maturity of the instrument falls on an optional bank holiday or the instrument would except for the foregoing provision be payable on an optional bank holiday and it is payable by or at a banking house or any branch or separate office thereof, and the particular banking house or branch or separate office thereof by or at which the instrument is payable is open for the transaction of business on such optional bank holiday, the holder of the instrument may at his option present the instrument for payment at the banking house or branch or separate office thereof by or at which the instrument is payable on the optional bank holiday or on the next succeeding business day which is not a Saturday. An instrument payable on demand is not to be presented for payment on Sunday, Saturday, or a holiday but is to be presented for payment on the next succeeding business day which is not a Saturday, except that where the instrument is payable by or at a banking house or any branch or separate office thereof and the particular banking house or branch or separate office thereof by or at which the instrument is payable is open for the transaction of business on an optional bank holiday, the holder of the instrument may at his option present the instrument for payment at the banking house or branch or separate office thereof by or at which the instrument is payable on such optional bank holiday or on the next succeeding business day which is not a Saturday. For the purpose of this section an optional bank holiday is every holiday referred to in Sections 6700 and 6701 of the Government Code, except the following: January 1st, May 30th, July 4th, September 9th, known as "Admission Day," and December 25th, any Monday following any Sunday on which any such day falls, the first Monday in

September, Good Friday from 12 noon until 3 p.m., the Thursday in November appointed as Thanksgiving Day, and every Sunday.

CHAPTER 2. TRANSFER AND NEGOTIATION

3201. (1) Transfer of an instrument vests in the transferee such rights as the transferor has therein, except that a transferee who has himself been a party to any fraud or illegality affecting the instrument or who as a prior holder had notice of a defense or claim against it cannot improve his position by taking from a later holder in due course.

(2) A transfer of a security interest in an instrument vests the foregoing rights in the transferee to the extent of the interest transferred.

(3) Unless otherwise agreed any transfer for value of an instrument not then payable to bearer gives the transferee the specifically enforceable right to have the unqualified indorsement of the transferor. Negotiation takes effect only when the indorsement is made and until that time there is no presumption that the transferee is the owner.

3202. (1) Negotiation is the transfer of an instrument in such form that the transferee becomes a holder. If the instrument is payable to order it is negotiated by delivery with any necessary indorsement; if payable to bearer it is negotiated by delivery.

(2) An indorsement must be written by or on behalf of the holder and on the instrument or on a paper so firmly affixed thereto as to become a part thereof

(3) An indorsement is effective for negotiation only when it conveys the entire instrument or any unpaid residue. If it purports to be of less it operates only as a partial assignment.

(4) Words of assignment, condition, waiver, guaranty, limitation or disclaimer of liability and the like accompanying an indorsement do not affect its character as an indorsement.

3203. Where an instrument is made payable to a person under a misspelled name or one other than his own he may indorse in that name or his own or both; but signature in both names may be required by a person paying or giving value for the instrument.

3204. (1) A special endorsement specifies the person to whom or to whose order it makes the instrument payable. Any instrument specially indorsed becomes payable to the order of the special indorsee and may be further negotiated only by his indorsement.

(2) An indorsement in blank specifies no particular indorsee and may consist of a mere signature An instrument payable to order and indorsed in blank becomes payable to bearer and may be negotiated by delivery alone until specially indorsed.

(3) The holder may convert a blank indorsement into a special indorsement by writing over the signature of the indorser

in blank any contract consistent with the character of the indorsement.

3205. An indorsement is restrictive which either

(a) Is conditional; or

(b) Purports to prohibit further transfer of the instrument; or

(c) Includes the words "for collection," "for deposit," "pay any bank," or like terms signifying a purpose of deposit or collection; or

(d) Otherwise states that it is for the benefit or use of the indorser or of another person.

3206. (1) No restrictive indorsement prevents further transfer or negotiation of the instrument.

(2) An intermediary bank, or a payor bank which is not the depositary bank, is neither given notice nor otherwise affected by a restrictive indorsement of any person except the bank's immediate transferor or the person presenting for payment.

(3) Except for an intermediary bank, any transferee under an indorsement which is conditional or includes the words "for collection," "for deposit," "pay any bank," or like terms (paragraphs (a) and (c) of Section 3205) must pay or apply any value given by him for or on the security of the instrument consistently with the indorsement and to the extent that he does so he becomes a holder for value. In addition such transferee is a holder in due course if he otherwise complies with the requirements of Section 3302 on what constitutes a holder in due course.

(4) The first taker under an indorsement for the benefit of the indorser or another person (paragraph (d) of Section 3205) must pay or apply any value given by him for or on the security of the instrument consistently with the indorsement and to the extent that he does so he becomes a holder for value. In addition such taker is a holder in due course if he otherwise complies with the requirements of Section 3302 on what constitutes a holder in due course. A later holder for value is neither given notice nor otherwise affected by such restrictive indorsement unless he has knowledge that a fiduciary or other person has negotiated the instrument in any transaction for his own benefit or otherwise in breach of duty (subdivision (2) of Section 3304).

3207. (1) Negotiation is effective to transfer the instrument although the negotiation is

(a) Made by an infant, a corporation exceeding its powers, or any other person without capacity; or

(b) Obtained by fraud, duress or mistake of any kind; or

(c) Part of an illegal transaction; or

(d) Made in breach of duty.

(2) Except as against a subsequent holder in due course such negotiation is in an appropriate case subject to rescission, the declaration of a constructive trust or any other remedy permitted by law.

3208. Where an instrument is returned to or reacquired by a prior party he may cancel any indorsement which is not necessary to his title and reissue or further negotiate the instrument, but any intervening party is discharged as against the reacquiring party and subsequent holders not in due course and if his indorsement has been cancelled is discharged as against subsequent holders in due course as well.

CHAPTER 3. RIGHTS OF A HOLDER

3301 The holder of an instrument whether or not he is the owner may transfer or negotiate it and, except as otherwise provided in Section 3603 on payment or satisfaction, discharge it or enforce payment in his own name.

3302 (1) A holder in due course is a holder who takes the instrument

(a) For value; and

(b) In good faith; and

(c) Without notice that it is overdue or has been dishonored or of any defense against or claim to it on the part of any person.

(2) A payee may be a holder in due course.

(3) A holder does not become a holder in due course of an instrument:

(a) By purchase of it at judicial sale or by taking it under legal process; or

(b) By acquiring it in taking over an estate; or

(c) By purchasing it as part of a bulk transaction not in regular course of business of the transferor.

(4) A purchaser of a limited interest can be a holder in due course only to the extent of the interest purchased.

3303. A holder takes the instrument for value

(a) To the extent that the agreed consideration has been performed or that he acquires a security interest in or a lien on the instrument otherwise than by legal process; or

(b) When he takes the instrument in payment of or as security for an antecedent claim against any person whether or not the claim is due; or

(c) When he gives a negotiable instrument for it or makes an irrevocable commitment to a third person.

3304. (1) The purchaser has notice of a claim or defense if

(a) The instrument is so incomplete, bears such visible evidence of forgery or alteration, or is otherwise so irregular as to call into question its validity, terms or ownership or to create an ambiguity as to the party to pay; or

(b) The purchaser has notice that the obligation of any party is voidable in whole or in part, or that all parties have been discharged.

(2) The purchaser has notice of a claim against the instrument when he has knowledge that a fiduciary has negotiated

the instrument in payment of or as security for his own debt or in any transaction for his own benefit or otherwise in breach of duty.

(3) The purchaser has notice that an instrument is overdue if he has reason to know

(a) That any part of the principal amount is overdue or that there is an uncured default in payment of another instrument of the same series; or

(b) That acceleration of the instrument has been made; or

(c) That he is taking a demand instrument after demand has been made or more than a reasonable length of time after its issue. A reasonable time for a check drawn and payable within the states and territories of the United States and the District of Columbia is presumed to be 30 days.

(4) Knowledge of the following facts does not of itself give the purchaser notice of a defense or claim

(a) That the instrument is antedated or postdated;

(b) That it was issued or negotiated in return for an executory promise or accompanied by a separate agreement, unless the purchaser has notice that a defense or claim has arisen from the terms thereof;

(c) That any party has signed for accommodation;

(d) That an incomplete instrument has been completed, unless the purchaser has notice of any improper completion;

(e) That any person negotiating the instrument is or was a fiduciary;

(f) That there has been default in payment of interest on the instrument or in payment of any other instrument, except one of the same series.

(5) The filing or recording of a document does not of itself constitute notice within the provisions of this division to a person who would otherwise be a holder in due course.

(6) To be effective notice must be received at such time and in such manner as to give a reasonable opportunity to act on it.

3305. To the extent that a holder is a holder in due course he takes the instrument free from

(1) All claims to it on the part of any person; and

(2) All defenses of any party to the instrument with whom the holder has not dealt except

(a) Infancy, to the extent that it is a defense to a simple contract; and

(b) Such other incapacity, or duress, or illegality of the transaction, as renders the obligation of the party a nullity; and

(c) Such misrepresentation as has induced the party to sign the instrument with neither knowledge nor reasonable opportunity to obtain knowledge of its character or its essential terms; and

(d) Discharge in insolvency proceedings; and

(e) Any other discharge of which the holder has notice when he takes the instrument.

3306. Unless he has the rights of a holder in due course any person takes the instrument subject to

(a) All valid claims to it on the part of any person; and

(b) All defenses of any party which would be available in an action on a simple contract; and

(c) The defenses of want or failure of consideration (Section 3408), nonperformance of any condition precedent, nondelivery, or delivery for a special purpose; and

(d) The defense that he or a person through whom he holds the instrument acquired it by theft, or that payment or satisfaction to such holder would be inconsistent with the terms of a restrictive indorsement The claim of any third person to the instrument is not otherwise available as a defense to any party liable thereon unless the third person himself defends the action for such party.

3307. (1) Unless specifically denied in the pleadings each signature on an instrument is admitted. When the effectiveness of a signature is put in issue

(a) The burden of establishing it is on the party claiming under the signature; but

(b) The signature is presumed to be genuine or authorized except where the action is to enforce the obligation of a purported signer who has died or become incompetent before proof is required.

(2) When signatures are admitted or established, production of the instrument entitles a holder to recover on it unless the defendant establishes a defense.

(3) After it is shown that a defense exists a person claiming the rights of a holder in due course has the burden of establishing that he or some person under whom he claims is in all respects a holder in due course.

CHAPTER 4. LIABILITY OF PARTIES

3401. (1) No person is liable on an instrument unless his signature appears thereon.

(2) A signature is made by use of any name, including any trade or assumed name, upon an instrument, or by any word or mark used in lieu of a written signature.

3402. Unless the instrument clearly indicates that a signature is made in some other capacity it is an indorsement.

3403. (1) A signature may be made by an agent or other representative, and his authority to make it may be established as in other cases of representation No particular form of appointment is necessary to establish such authority.

(2) An authorized representative who signs his own name to an instrument

(a) Is personally obligated if the instrument neither names the person represented nor shows that the representative signed in a representative capacity;

(b) Except as otherwise established between the immediate parties, is personally obligated if the instrument names the

person represented but does not show that the representative signed in a representative capacity, or if the instrument does not name the person represented but does show that the representative signed in a representative capacity.

(3) Except as otherwise established the name of an organization preceded or followed by the name and office of an authorized individual is a signature made in a representative capacity.

3404. (1) Any unauthorized signature is wholly inoperative as that of the person whose name is signed unless he ratifies it or is precluded from denying it; but it operates as the signature of the unauthorized signer in favor of any person who in good faith pays the instrument or takes it for value.

(2) Any unauthorized signature may be ratified for all purposes of this division. Such ratification does not of itself affect any rights of the person ratifying against the actual signer.

3405. (1) An indorsement by any person in the name of a named payee is effective if

(a) An imposter by use of the mails or otherwise has induced the maker or drawer to issue the instrument to him or his confederate in the name of the payee; or

(b) A person signing as or on behalf of a maker or drawer intends the payee to have no interest in the instrument; or

(c) An agent or employee of the maker or drawer has supplied him with the name of the payee intending the latter to have no such interest.

(2) Nothing in this section shall affect the criminal or civil liability of the person so indorsing.

3406. Any person who by his negligence substantially contributes to a material alteration of the instrument or to the making of an unauthorized signature is precluded from asserting the alteration or lack of authority against a holder in due course or against a drawee or other payor who pays the instrument in good faith and in accordance with the reasonable commercial standards of the drawee's or payor's business.

3407. (1) Any alteration of an instrument is material which changes the contract of any party thereto in any respect, including any such change in

(a) The number or relations of the parties; or

(b) An incomplete instrument, by completing it otherwise than as authorized; or

(c) The writing as signed, by adding to it or by removing any part of it.

(2) As against any person other than a subsequent holder in due course

(a) Alteration by the holder which is both fraudulent and material discharges any party whose contract is thereby changed unless that party assents or is precluded from asserting the defense;

(b) No other alteration discharges any party and the instrument may be enforced according to its original tenor, or as to incomplete instruments according to the authority given.

(3) A subsequent holder in due course may in all cases enforce the instrument according to its original tenor, and when an incomplete instrument has been completed, he may enforce it as completed.

3408. Want or failure of consideration is a defense as against any person not having the rights of a holder in due course (Section 3302), except that no consideration is necessary for an instrument or obligation thereon given in payment of or as security for an antecedent obligation of any kind. Nothing in this section shall be taken to displace any statute outside this code under which a promise is enforceable notwithstanding lack or failure of consideration. Partial failure of consideration is a defense pro tanto whether or not the failure is in an ascertained or liquidated amount.

3409. (1) A check or other draft does not of itself operate as an assignment of any funds in the hands of the drawee available for its payment, and the drawee is not liable on the instrument until he accepts it.

(2) Nothing in this section shall affect any liability in contract, tort or otherwise arising from any letter of credit or other obligation or representation which is not an acceptance.

3410. (1) Acceptance is the drawee's signed engagement to honor the draft as presented. It must be written on the draft, and may consist of his signature alone. It becomes operative when completed by delivery or notification.

(2) A draft may be accepted although it has not been signed by the drawer or is otherwise incomplete or is overdue or has been dishonored.

(3) Where the draft is payable at a fixed period after sight and the acceptor fails to date his acceptance the holder may complete it by supplying a date in good faith.

3411. (1) Certification of a check is acceptance. Where a holder procures certification the drawer and all prior indorsers are discharged.

(2) Unless otherwise agreed a bank has no obligation to certify a check.

(3) A bank may certify a check before returning it for lack of proper indorsement. If it does so the drawer is discharged.

3412. (1) Where the drawee's proffered acceptance in any manner varies the draft as presented the holder may refuse the acceptance and treat the draft as dishonored in which case the drawee is entitled to have his acceptance canceled.

(2) The terms of the draft are not varied by an acceptance to pay at any particular bank or place in the United States, unless the acceptance states that the draft is to be paid only at such bank or place.

(3) Where the holder assents to an acceptance varying the terms of the draft each drawer and indorser who does not affirmatively assent is discharged.

3413. (1) The maker or acceptor engages that he will pay the instrument according to its tenor at the time of his engagement or as completed pursuant to Section 3115 on incomplete instruments.

(2) The drawer engages that upon dishonor of the draft and any necessary notice of dishonor or protest he will pay the amount of the draft to the holder or to any indorser who takes it up. The drawer may disclaim this liability by drawing without recourse.

(3) By making, drawing or accepting the party admits as against all subsequent parties including the drawee the existence of the payee and his then capacity to indorse.

3414. (1) Unless the indorsement otherwise specifies (as by such words as "without recourse") every indorser engages that upon dishonor and any necessary notice of dishonor and protest he will pay the instrument according to its tenor at the time of his indorsement to the holder or to any subsequent indorser who takes it up, even though the indorser who takes it up was not obligated to do so.

(2) Unless they otherwise agree indorsers are liable to one another in the order in which they indorse, which is presumed to be the order in which their signatures appear on the instrument.

3415. (1) An accommodation party is one who signs the instrument in any capacity for the purpose of lending his name to another party to it.

(2) When the instrument has been taken for value before it is due the accommodation party is liable in the capacity in which he has signed even though the taker knows of the accommodation.

(3) As against a holder in due course and without notice of the accommodation oral proof of the accommodation is not admissible to give the accommodation party the benefit of discharges dependent on his character as such. In other cases the accommodation character may be shown by oral proof.

(4) An indorsement which shows that it is not in the chain of title is notice of its accommodation character.

(5) An accommodation party is not liable to the party accommodated, and if he pays the instrument has a right of recourse on the instrument against such party.

3416. (1) "Payment guaranteed" or equivalent words added to a signature mean that the signer engages that if the instrument is not paid when due he will pay it according to its tenor without resort by the holder to any other party.

(2) "Collection guaranteed" or equivalent words added to a signature mean that the signer engages that if the instrument is not paid when due he will pay it according to its tenor, but only after the holder has reduced his claim against the maker or acceptor to judgment and execution has been returned unsatisfied, or after the maker or acceptor has become insolvent or it is otherwise apparent that it is useless to proceed against him.

(3) Words of guaranty which do not otherwise specify guarantee payment.

(4) No words of guaranty added to the signature of a sole maker or acceptor affect his liability on the instrument. Such words added to the signature of one of two or more makers or acceptors create a presumption that the signature is for the accommodation of the others.

(5) When words of guaranty are used presentment, notice of dishonor and protest are not necessary to charge the user.

(6) Any guaranty written on the instrument is enforceable notwithstanding any statute of frauds.

3417. (1) Any person who obtains payment or acceptance and any prior transferor warrants to a person who in good faith pays or accepts that

(a) He has a good title to the instrument or is authorized to obtain payment or acceptance on behalf of one who has a good title; and

(b) He has no knowledge that the signature of the maker or drawer is unauthorized, except that this warranty is not given by a holder in due course acting in good faith

(i) To a maker with respect to the maker's own signature; or

(ii) To a drawer with respect to the drawer's own signature, whether or not the drawer is also the drawee; or

(iii) To an acceptor of a draft if the holder in due course took the draft after the acceptance or obtained the acceptance without knowledge that the drawer's signature was unauthorized; and

(c) The instrument has not been materially altered, except that this warranty is not given by a holder in due course acting in good faith

(i) To the maker of a note; or

(ii) To the drawer of a draft whether or not the drawer is also the drawee; or

(iii) To the acceptor of a draft with respect to an alteration made prior to the acceptance if the holder in due course took the draft after the acceptance, even though the acceptance provided "payable as originally drawn" or equivalent terms; or

(iv) To the acceptor of a draft with respect to an alteration made after the acceptance.

(2) Any person who transfers an instrument and receives consideration warrants to his transferee and if the transfer is by indorsement to any subsequent holder who takes the instrument in good faith that

(a) He has a good title to the instrument or is authorized to obtain payment or acceptance on behalf of one who has a good title and the transfer is otherwise rightful; and

(b) All signatures are genuine or authorized; and

(c) The instrument has not been materially altered; and

(d) No defense of any party is good against him; and

(e) He has no knowledge of any insolvency proceeding instituted with respect to the maker or acceptor or the drawer of an unaccepted instrument.

(3) By transferring "without recourse" the transferor limits the obligation stated in subdivision (2)(d) to a warranty that he has no knowledge of such a defense.

(4) A selling agent or broker who does not disclose the fact that he is acting only as such gives the warranties provided in this section, but if he makes such disclosure warrants only his good faith and authority.

3418. Except for recovery of bank payments as provided in the division on bank deposits and collections (Division 4) and except for liability for breach of warranty on presentment under the preceding section, payment or acceptance of any instrument is final in favor of a holder in due course, or a person who has in good faith changed his position in reliance on the payment.

3419. (1) An instrument is converted when

(a) A drawee to whom it is delivered for acceptance refuses to return it on demand; or

(b) Any person to whom it is delivered for payment refuses on demand either to pay or to return it; or

(c) It is paid on a forged indorsement.

(2) In any action under subdivision (1), the measure of liability is presumed to be the face amount of the instrument.

(3) Subject to the provisions of this code concerning restrictive indorsements a representative, including a depositary or collecting bank, who has in good faith and in accordance with the reasonable commercial standards applicable to the business of such representative dealt with an instrument or its proceeds on behalf of one who was not the true owner is not liable in conversion or otherwise to the true owner beyond the amount of any proceeds remaining in his hands.

(4) An intermediary bank or payor bank which is not a depositary bank is not liable in conversion solely by reason of the fact that proceeds of an item indorsed restrictively (Sections 3205 and 3206) are not paid or applied consistently with the restrictive indorsement of an indorser other than its immediate transferor.

CHAPTER 5. PRESENTMENT, NOTICE OF DISHONOR AND PROTEST

3501. (1) Unless excused (Section 3511) presentment is necessary to charge secondary parties as follows:

(a) Presentment for acceptance is necessary to charge the drawer and indorsers of a draft where the draft so provides, or is payable elsewhere than at the residence or place of business of the drawee, or its date of payment depends upon such presentment. The holder may at his option present for acceptance any other draft payable at a stated date;

(b) Presentment for payment is necessary to charge any indorser;

(c) In the case of any drawer, the acceptor of a draft payable at a bank or the maker of a note payable at a bank, presentment for payment is necessary, but failure to make presentment discharges such drawer, acceptor or maker only as stated in Section 3502(1)(b).

(2) Unless excused (Section 3511)

(a) Notice of any dishonor is necessary to charge any indorser;

(b) In the case of any drawer, the acceptor of a draft payable at a bank or the maker of a note payable at a bank, notice of any dishonor is necessary, but failure to give such notice discharges such drawer, acceptor or maker only as stated in Section 3502(1)(b).

(3) Unless excused (Section 3511) protest of any dishonor is necessary to charge the drawer and indorsers of any draft which on its face appears to be drawn or payable outside of the states and territories of the United States and the District of Columbia The holder may at his option make protest of any dishonor of any other instrument and in the case of a foreign draft may on insolvency of the acceptor before maturity make protest for better security

(4) Notwithstanding any provision of this section, neither presentment nor notice of dishonor nor protest is necessary to charge an indorser who has indorsed an instrument after maturity.

3502 (1) Where without excuse any necessary presentment or notice of dishonor is delayed beyond the time when it is due

(a) Any indorser is discharged; and

(b) Any drawer or the acceptor of a draft payable at a bank or the maker of a note payable at a bank who because the drawee or payor bank becomes insolvent during the delay is deprived of funds maintained with the drawee or payor bank to cover the instrument may discharge his liability by written assignment to the holder of his rights against the drawee or payor bank in respect of such funds, but such drawer, acceptor or maker is not otherwise discharged.

(2) Where without excuse a necessary protest is delayed beyond the time when it is due any drawer or indorser is discharged.

3503. (1) Unless a different time is expressed in the instrument the time for any presentment is determined as follows:

(a) Where an instrument is payable at or a fixed period after a stated date any presentment for acceptance must be made on or before the date it is payable;

(b) Where an instrument is payable after sight it must either be presented for acceptance or negotiated within a reasonable time after date or issue whichever is later;

(c) Where an instrument shows the date on which it is payable presentment for payment is due on that date;

(d) Where an instrument is accelerated presentment for payment is due within a reasonable time after the acceleration;

(e) With respect to the liability of any secondary party presentment for acceptance or payment of any other instrument is due within a reasonable time after such party becomes liable thereon.

(2) A reasonable time for presentment is determined by the nature of the instrument, any usage of banking or trade and the facts of the particular case. In the case of an uncertified check which is drawn and payable within the United States and which is not a draft drawn by a bank the following are presumed to be reasonable periods within which to present for payment or to initiate bank collection:

(a) With respect to the liability of the drawer, 30 days after date or issue whichever is later; and

(b) With respect to the liability of an indorser, seven days after his indorsement.

(3) Where any presentment is due on a day which is not a full business day for either the person making presentment or the party to pay or accept, presentment is due on the next following day which is a full business day for both parties.

(4) Presentment to be sufficient must be made at a reasonable hour, and if at a bank during its banking day.

3504. (1) Presentment is a demand for acceptance or payment made upon the maker, acceptor, drawee or other payor by or on behalf of the holder.

(2) Presentment may be made

(a) By mail, in which event the time of presentment is determined by the time of receipt of the mail; or

(b) Through a clearinghouse or a place designated by the party who is to pay or accept; or

(c) At the place of acceptance or payment specified in the instrument or if there be none at the place of business or residence of the party to accept or pay. If neither the party to accept or pay nor anyone authorized to act for him is present or accessible at such place presentment is excused.

(3) It may be made

(a) To any one of two or more makers, acceptors, drawees or other payors; or

(b) To any person who has authority to make or refuse the acceptance or payment.

(4) A draft accepted or a note made payable at a bank in the United States must be presented at the separate office or branch of the bank at which such instrument was made payable.

(5) In the cases described in Section 4210 presentment may be made in the manner and with the result stated in that section.

3505. (1) The party to whom presentment is made may without dishonor require

(a) Exhibition of the instrument; and

(b) Reasonable identification of the person making presentment and evidence of his authority to make it if made for another; and

(c) That the instrument be produced for acceptance or payment at a place specified in it, or if there be none at any place reasonable in the circumstances; and

(d) A signed receipt on the instrument for any partial or full payment and its surrender upon full payment.

(2) Failure to comply with any such requirement invalidates the presentment but the person presenting has a reasonable time in which to comply and the time for acceptance or payment runs from the time of compliance.

3506. (1) Acceptance may be deferred without dishonor until the close of the next business day following presentment. The holder may also in a good faith effort to obtain acceptance and without either dishonor of the instrument or discharge of secondary parties allow postponement of acceptance for an additional business day.

(2) Except as a longer time is allowed in the case of documentary drafts drawn under a letter of credit, and unless an earlier time is agreed to by the party to pay, payment of an instrument may be deferred without dishonor pending reasonable examination to determine whether it is properly payable, but payment must be made in any event before the close of the next business day following the day of presentment.

3507. (1) An instrument is dishonored when

(a) A necessary or optional presentment is duly made and due acceptance or payment is refused or cannot be obtained within the prescribed time or in case of bank collections the instrument is seasonably returned by the midnight deadline (Section 4301); or

(b) Presentment is excused and the instrument is not duly accepted or paid.

(2) Subject to any necessary notice of dishonor and protest, the holder has upon dishonor an immediate right of recourse against the drawers and indorsers.

(3) Return of an instrument for lack of proper indorsement is not dishonor.

(4) A term in a draft or an indorsement thereof allowing a stated time for re-presentment in the event of any dishonor of the draft by nonacceptance if a time draft or by nonpayment if a sight draft gives the holder as against any secondary party bound by the term an option to waive the dishonor without affecting the liability of the secondary party and he may present again up to the end of the stated time.

3508. (1) Notice of dishonor may be given to any person who may be liable on the instrument by or on behalf of the holder or any party who has himself received notice, or any other party who can be compelled to pay the instrument. In

addition an agent or bank in whose hands the instrument is dishonored may give notice to his principal or customer or to another agent or bank from which the instrument was received.

(2) Any necessary notice must be given by a bank before its midnight deadline and by any other person before midnight of the third business day after dishonor or receipt of notice of dishonor.

(3) Notice may be given in any reasonable manner. It may be oral or written and in any terms which identify the instrument and state that it has been dishonored. A misdescription which does not mislead the party notified does not vitiate the notice. Sending the instrument bearing a stamp, ticket or writing stating that acceptance or payment has been refused or sending a notice of debit with respect to the instrument is sufficient.

(4) Written notice is given when sent although it is not received.

(5) Notice to one partner is notice to each although the firm has been dissolved.

(6) When any party is in insolvency proceedings instituted after the issue of the instrument notice may be given either to the party or to the representative of his estate.

(7) When any party is dead or incompetent notice may be sent to his last known address or given to his personal representative.

(8) Notice operates for the benefit of all parties who have rights on the instrument against the party notified.

3509. (1) A protest is a certificate of dishonor made under the hand and seal of a United States consul or vice consul or a notary public or other person authorized to certify dishonor by the law of the place where dishonor occurs. It may be made upon information satisfactory to such person.

(2) The protest must identify the instrument and certify either that due presentment has been made or the reason why it is excused and that the instrument has been dishonored by nonacceptance or nonpayment.

(3) The protest may also certify that notice of dishonor has been given to all parties or to specified parties.

(4) Subject to subdivision (5) any necessary protest is due by the time that notice of dishonor is due.

(5) If, before protest is due, an instrument has been noted for protest by the officer to make protest, the protest may be made at any time thereafter as of the date of the noting.

3510. The following are admissible as evidence and create a presumption of dishonor and of any notice of dishonor therein shown:

(a) A document regular in form as provided in the preceding section which purports to be a protest;

(b) The purported stamp or writing of the drawee, payor bank or presenting bank on the instrument or accompanying it stating that acceptance or payment has been refused for reasons consistent with dishonor;

(c) Any book or record of the drawee, payor bank, or any collecting bank kept in the usual course of business which shows dishonor, even though there is no evidence of who made the entry.

3511. (1) Delay in presentment, protest or notice of dishonor is excused when the party is without notice that it is due or when the delay is caused by circumstances beyond his control and he exercises reasonable diligence after the cause of the delay ceases to operate.

(2) Presentment or notice or protest as the case may be is entirely excused when

(a) The party to be charged has waived it expressly or by implication either before or after it is due; or

(b) Such party has himself dishonored the instrument or has countermanded payment or otherwise has no reason to expect or right to require that the instrument be accepted or paid; or

(c) By reasonable diligence the presentment or protest cannot be made or the notice given.

(3) Presentment is also entirely excused when

(a) The maker, acceptor or drawee of any instrument except a documentary draft is dead or in insolvency proceedings instituted after the issue of the instrument; or

(b) Acceptance or payment is refused but not for want of proper presentment.

(4) Where a draft has been dishonored by nonacceptance a later presentment for payment and any notice of dishonor and protest for nonpayment are excused unless in the meantime the instrument has been accepted.

(5) A waiver of protest is also a waiver of presentment and of notice of dishonor even though protest is not required.

(6) Where a waiver of presentment or notice of protest is embodied in the instrument itself it is binding upon all parties; but where it is written above the signature of an indorser it binds him only

CHAPTER 6. DISCHARGE

3601. (1) The extent of the discharge of any party from liability on an instrument is governed by the sections on

(a) Payment or satisfaction (Section 3603); or

(b) Tender of payment (Section 3604); or

(c) Cancellation or renunciation (Section 3605); or

(d) Impairment of right of recourse or of collateral (Section 3606); or

(e) Reacquisition of the instrument by a prior party (Section 3208); or

(f) Fraudulent and material alteration (Section 3407); or

(g) Certification of a check (Section 3411); or

(h) Acceptance varying a draft (Section 3412); or

(i) Unexcused delay in presentment or notice of dishonor or protest (Section 3502).

(2) Any party is also discharged from his liability on an instrument to another party by any other act or agreement with such party which would discharge his simple contract for the payment of money.

(3) The liability of all parties is discharged when any party who has himself no right of action or recourse on the instrument

(a) Reacquires the instrument in his own right; or

(b) Is discharged under any provision of this division, except as otherwise provided with respect to discharge for impairment of recourse or of collateral (Section 3606).

3602. No discharge of any party provided by this division is effective against a subsequent holder in due course unless he has notice thereof when he takes the instrument.

3603. (1) The liability of any party is discharged to the extent of his payment or satisfaction to the holder even though it is made with knowledge of a claim of another person to the instrument unless prior to such payment or satisfaction the person making the claim either supplies indemnity deemed adequate by the party seeking the discharge or enjoins payment or satisfaction by order of a court of competent jurisdiction in an action in which the adverse claimant and the holder are parties. This subdivision does not, however, result in the discharge of the liability

(a) Of a party who in bad faith pays or satisfies a holder who acquired the instrument by theft or who (unless having the rights of a holder in due course) holds through one who so acquired it; or

(b) Of a party (other than an intermediary bank or a payor bank which is not a depositary bank) who pays or satisfies the holder of an instrument which has been restrictively indorsed in a manner not consistent with the terms of such restrictive indorsement.

(2) Payment or satisfaction may be made with the consent of the holder by any person including a stranger to the instrument. Surrender of the instrument to such a person gives him the rights of a transferee (Section 3201)

3604. (1) Any party making tender of full payment to a holder when or after it is due is discharged to the extent of all subsequent liability for interest, costs and attorney's fees.

(2) The holder's refusal of such tender wholly discharges any party who has a right of recourse against the party making the tender.

(3) Where the maker or acceptor of an instrument payable otherwise than on demand is able and ready to pay at every place of payment specified in the instrument when it is due, it is equivalent to tender

3605. (1) The holder of an instrument may even without consideration discharge any party

(a) In any manner apparent on the face of the instrument or the indorsement, as by intentionally canceling the instru-

ment or the party's signature by destruction or mutiliation, or by striking out the party's signature; or

(b) By renouncing his rights by a writing signed and delivered or by surrender of the instrument to the party to be discharged.

(2) Neither cancellation nor renunciation without surrender of the instrument affects the title thereto.

3606. (1) The holder discharges any party to the instrument to the extent that without such party's consent the holder

(a) Without express reservation of rights releases or agrees not to sue any person against whom the party has to the knowledge of the holder a right of recourse or agrees to suspend the right to enforce against such person the instrument or collateral or otherwise discharges such person, except that failure or delay in effecting any required presentment, protest or notice of dishonor with respect to any such person does not discharge any party as to whom presentment, protest or notice of dishonor is effective or unnecessary; or

(b) Unjustifiably impairs any collateral for the instrument given by or on behalf of the party or any person against whom he has a right of recourse.

(2) By express reservation of rights against a party with a right of recourse the holder preserves

(a) All his rights against such party as of the time when the instrument was originally due; and

(b) The right of the party to pay the instrument as of that time; and

(c) All rights of such party to recourse against others.

CHAPTER 7. ADVICE OF INTERNATIONAL SIGHT DRAFT

3701. (1) A "letter of advice" is a drawer's communication to the drawee that a described draft has been drawn.

(2) Unless otherwise agreed when a bank receives from another bank a letter of advice of an international sight draft the drawee bank may immediately debit the drawer's account and stop the running of interest pro tanto. Such a debit and any resulting credit to any account covering outstanding drafts leaves in the drawer full power to stop payment or otherwise dispose of the amount and creates no trust or interest in favor of the holder.

(3) Unless otherwise agreed and except where a draft is drawn under a credit issued by the drawee, the drawee of an international sight draft owes the drawer no duty to pay an unadvised draft but if it does so and the draft is genuine, may appropriately debit the drawer's account.

CHAPTER 8. MISCELLANEOUS

3801. (1) Where a draft is drawn in a set of parts, each of which is numbered and expressed to be an order only if no

other part has been honored, the whole of the parts constitutes one draft but a taker of any part may become a holder in due course of the draft.

(2) Any person who negotiates, indorses or accepts a single part of a draft drawn in a set thereby becomes liable to any holder in due course of that part as if it were the whole set, but as between different holders in due course to whom different parts have been negotiated the holder whose title first accrues has all rights to the draft and its proceeds.

(3) As against the drawee the first presented part of a draft drawn in a set is the part entitled to payment, or if a time draft to acceptance and payment. Acceptance of any subsequently presented part renders the drawee liable thereon under subdivision (2). With respect both to a holder and to the drawer payment of a subsequently presented part of a draft payable at sight has the same effect as payment of a check notwithstanding an effective stop order (Section 4407).

(4) Except as otherwise provided in this section, where any part of a draft in a set is discharged by payment or otherwise the whole draft is discharged.

3802. (1) Unless otherwise agreed where an instrument is taken for an underlying obligation

(a) The obligation is pro tanto discharged if a bank is drawer, maker or acceptor of the instrument and there is no recourse on the instrument against the underlying obligor; and

(b) In any other case the obligation is suspended pro tanto until the instrument is due or if it is payable on demand until its presentment. If the instrument is dishonored action may be maintained on either the instrument or the obligation; discharge of the underlying obligor on the instrument also discharges him on the obligation.

(2) The taking in good faith of a check which is not postdated does not of itself so extend the time on the original obligation as to discharge a surety.

3803. Where a defendant is sued for breach of an obligation for which a third person is answerable over under this division he may give the third person written notice of the litigation, and the person notified may then give similar notice to any other person who is answerable over to him under this division. If the notice states that the person notified may come in and defend and that if the person notified does not do so he will in any action against him by the person giving the notice be bound by any determination of fact common to the two litigations, then unless after seasonable receipt of the notice the person notified does come in and defend he is so bound.

3804. The owner of an instrument which is lost, whether by destruction, theft or otherwise, may maintain an action in his own name and recover from any party liable thereon upon due proof of his ownership, the facts which prevent his production of the instrument and its terms. The court shall re-

quire a sufficient indemnity bond indemnifying the defendant against loss by reason of further claims on the instrument.

3805. This division applies to any instrument whose terms do not preclude transfer and which is otherwise negotiable within this division but which is not payable to order or to bearer, except that there can be no holder in due course of such an instrument.

DIVISION 4. BANK DEPOSITS AND COLLECTIONS

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

4101. This division shall be known and may be cited as Uniform Commercial Code—Bank Deposits and Collections.

4102. (1) To the extent that items within this division are also within the scope of Divisions 3 and 8, they are subject to the provisions of those divisions. In the event of conflict the provisions of this division govern those of Division 3 but the provisions of Division 8 govern those of this division.

(2) The liability of a bank for action or nonaction with respect to any item handled by it for purposes of presentment, payment or collection is governed by the law of the place where the bank is located. In the case of action or nonaction by or at a branch or separate office of a bank, its liability is governed by the law of the place where the branch or separate office is located.

4103. (1) The effect of the provisions of this division may be varied by agreement except that no agreement can disclaim a bank's responsibility for its own lack of good faith or failure to exercise ordinary care or can limit the measure of damages for such lack or failure; but the parties may by agreement determine the standards by which such responsibility is to be measured if such standards are not manifestly unreasonable.

(2) Federal Reserve regulations and operating letters, clearinghouse rules, and the like, have the effect of agreements under subdivision (1), whether or not specifically assented to by all parties interested in items handled.

(3) Action or nonaction approved by this division or pursuant to Federal Reserve regulations or operating letters constitutes the exercise of ordinary care and, in the absence of special instructions, action or nonaction consistent with clearinghouse rules and the like or with a general banking usage not disapproved by this division, prima facie constitutes the exercise of ordinary care.

(4) The specification or approval of certain procedures by this division does not constitute disapproval of other procedures which may be reasonable under the circumstances.

(5) The measure of damages for failure to exercise ordinary care in handling an item is the amount of the item reduced by an amount which could not have been realized by the use of ordinary care, and where there is bad faith it includes other damages, if any, suffered by the party as a proximate consequence.

4104. (1) In this division unless the context otherwise requires

(a) "Account" means any account with a bank and includes a checking, time, interest or savings account;

(b) "Afternoon" means the period of a day between noon and midnight;

(c) "Banking day" means that part of any day on which a bank is open to the public for carrying on substantially all of its banking functions;

(d) "Clearinghouse" means any association of banks or other payors regularly clearing items;

(e) "Customer" means any person having an account with a bank or for whom a bank has agreed to collect items and includes a bank carrying an account with another bank;

(f) "Documentary draft" means any negotiable or non-negotiable draft with accompanying documents, securities or other papers to be delivered against honor of the draft;

(g) "Item" means any instrument for the payment of money even though it is not negotiable but does not include money;

(h) "Midnight deadline" with respect to a bank is midnight on its next banking day following the banking day on which it receives the relevant item or notice or from which the time for taking action commences to run, whichever is later;

(i) "Properly payable" includes the availability of funds for payment at the time of decision to pay or dishonor;

(j) "Settle" means to pay in cash by clearinghouse settlement, in a charge or credit or by remittance, or otherwise as instructed. A settlement may be either provisional or final;

(k) "Suspends payments" with respect to a bank means that it has been closed by order of the supervisory authorities, that a public officer has been appointed to take it over or that it ceases or refuses to make payments in the ordinary course of business.

(2) Other definitions applying to this division and the sections in which they appear are:

"Collecting bank" Section 4105.

"Depositary bank." Section 4105.

"Intermediary bank." Section 4105.

"Payor bank." Section 4105.

"Presenting bank." Section 4105.

"Remitting bank." Section 4105.

(3) The following definitions in other divisions apply to this division:

"Acceptance" Section 3410.

"Certificate of deposit." Section 3104.

"Certification." Section 3411.

"Check" Section 3104.

"Draft" Section 3104.

"Holder in due course." Section 3302.

"Notice of dishonor." Section 3508.

"Presentment." Section 3504.

"Protest." Section 3509.

"Secondary party." Section 3102.

(4) In addition Division 1 contains general definitions and principles of construction and interpretation applicable throughout this division.

4105. In this division unless the context otherwise requires:

(a) "Depositary bank" means the first bank to which an item is transferred for collection even though it is also the payor bank;

(b) "Payor bank" means a bank by which an item is payable as drawn or accepted;

(c) "Intermediary bank" means any bank to which an item is transferred in course of collection except the depositary or payor bank;

(d) "Collecting bank" means any bank handling the item for collection except the payor bank;

(e) "Presenting bank" means any bank presenting an item except a payor bank;

(f) "Remitting bank" means any payor or intermediary bank remitting for an item.

(g) Each branch or separate office of a bank shall be deemed a separate bank for the purpose of the definitions in this section.

4106. A branch or separate office of a bank is a separate bank for the purpose of computing the time within which and determining the place at or to which action may be taken or notices or orders shall be given under this division and under Division 3, and the receipt of any notice or order by, or the knowledge of, one branch or separate office of a bank is not actual or constructive notice to or knowledge of any other branch or separate office of the same bank and does not impair the right of such other branch or separate office to be a holder in due course of an item.

4107. (1) For the purpose of allowing time to process items, prove balances and make the necessary entries on its books to determine its position for the day, a bank may fix an afternoon hour of 2 p.m or later as a cutoff hour for the handling of money and items and the making of entries on its books.

(2) Any item or deposit of money received on any day after a cutoff hour so fixed or after the close of the banking day may be treated as being received at the opening of the next banking day.

4108. (1) Unless otherwise instructed, a collecting bank in a good faith effort to secure payment may, in the case of specific items and with or without the approval of any person involved, waive, modify or extend time limits imposed or permitted by this code for a period not in excess of an additional banking day without discharge of secondary parties and without liability to its transferor or any prior party.

(2) Delay by a collecting bank or payor bank beyond time limits prescribed or permitted by this code or by instructions is excused if caused by interruption of communication facilities, suspension of payments by another bank, war, emergency conditions or other circumstances beyond the control of the bank provided it exercises such diligence as the circumstances require.

CHAPTER 2. COLLECTION OF ITEMS: DEPOSITARY AND COLLECTING BANKS

4201. (1) Unless a contrary intent clearly appears and prior to the time that a settlement given by a collecting bank for an item is or becomes final (subdivision (3) of Section 4211 and Sections 4212 and 4213) the bank is an agent or subagent of the owner of the item and any settlement given for the item is provisional This provision applies regardless of the form of indorsement or lack of indorsement and even though credit given for the item is subject to immediate withdrawal as of right or is in fact withdrawn; but the continuance of ownership of an item by its owner and any rights of the owner to proceeds of the item are subject to rights of a collecting bank such as those resulting from outstanding advances on the item and valid rights of setoff. When an item is handled by banks for purposes of presentment, payment and collection, the relevant provisions of this division apply even though action of parties clearly establishes that a particular bank has purchased the item and is the owner of it.

(2) After an item has been indorsed with the words "pay any bank" or the like, only a bank may acquire the rights of a holder

(a) Until the item has been returned to the customer initiating collection; or

(b) Until the item has been specially endorsed by a bank to a person who is not a bank.

4202. (1) A collecting bank must use ordinary care in

(a) Presenting an item or sending it for presentment; and

(b) Sending notice of dishonor or nonpayment or returning an item other than a documentary draft to the bank's transferor after learning that the item has not been paid or accepted, as the case may be; and

(c) Settling for an item when the bank receives final settlement; and

(d) Making or providing for any necessary protest; and

(e) Notifying its transferor of any loss or delay in transit within a reasonable time after discovery thereof.

(2) A collecting bank taking proper action before its midnight deadline following receipt of an item, notice or payment acts seasonably; taking proper action within a reasonably longer time may be seasonable but the bank has the burden of so establishing.

(3) Subject to subdivision (1)(a), a bank is not liable for the insolvency, neglect, misconduct, mistake or default of another bank or person or for loss or destruction of or inability to obtain repossession of an item in transit or in the possession of others.

4203. Subject to the provisions of Division 3 concerning conversion of instruments (Section 3419) and the provisions of both Division 3 and this division concerning restrictive indorsements only a collecting bank's transferor can give instructions which affect the bank or constitute notice to it and a collecting bank is not liable to prior parties for any action taken pursuant to such instructions or in accordance with any agreement with its transferor.

4204. (1) A collecting bank must send items by reasonably prompt method taking into consideration any relevant instructions, the nature of the item, the number of such items on hand, and the cost of collection involved and the method generally used by it or others to present such items.

(2) A collecting bank may send

(a) Any item direct to the payor bank;

(b) Any item to any nonbank payor if authorized by its transferor;

(c) Any item other than documentary drafts to any nonbank payor, if authorized by Federal Reserve regulation or operating letter, clearinghouse rule or the like;

(d) Any item to any Federal Reserve bank; and

(e) Any item to any other bank or agency thereof.

Items may be sent to the place of business of, or to any place designated by, those to whom items may be sent under paragraphs (a), (b), (c), (d) or (e).

4205. (1) A depositary bank which has taken an item for collection may supply any indorsement of the customer which is necessary to title unless the item contains the words "payee's indorsement required" or the like. In the absence of such a requirement a statement placed on the item by the depositary bank to the effect that the item was deposited by a customer or credited to his account is effective as the customer's indorsement.

(2) An intermediary bank, or payor bank which is not a depositary bank, is neither given notice nor otherwise affected by a restrictive indorsement of any person except the bank's immediate transferor.

4206 Any agreed method which identifies the transferor bank is sufficient for the item's further transfer to another bank.

4207. (1) Each customer or collecting bank who obtains payment or acceptance of an item and each prior customer and collecting bank warrants to the payor bank or other payor who in good faith pays or accepts the item that

(a) He has a good title to the item or is authorized to obtain payment or acceptance on behalf of one who has a good title; and

(b) He has no knowledge that the signature of the maker or drawer is unauthorized, except that this warranty is not given by any customer or collecting bank that is a holder in due course and acts in good faith

(i) To a maker with respect to the maker's own signature; or

(ii) To a drawer with respect to the drawer's own signature, whether or not the drawer is also the drawee; or

(iii) To an acceptor of an item if the holder in due course took the item after the acceptance or obtained the acceptance without knowledge that the drawer's signature was unauthorized; and

(c) The item has not been materially altered, except that this warranty is not given by any customer or collecting bank that is a holder in due course and acts in good faith

(i) To the maker of a note; or

(ii) To the drawer of a draft whether or not the drawer is also the drawee; or

(iii) To the acceptor of an item with respect to an alteration made prior to the acceptance if the holder in due course took the item after the acceptance, even though the acceptance provided "payable as originally drawn" or equivalent terms; or

(iv) To the acceptor of an item with respect to an alteration made after the acceptance.

(2) Each customer and collecting bank who transfers an item and receives a settlement or other consideration for it warrants to his transferee and to any subsequent collecting bank who takes the item in good faith that

(a) He has a good title to the item or is authorized to obtain payment or acceptance on behalf of one who has a good title and the transfer is otherwise rightful; and

(b) All signatures are genuine or authorized; and

(c) The item has not been materially altered; and

(d) No defense of any party is good against him; and

(e) He has no knowledge of any insolvency proceeding instituted with respect to the maker or acceptor or the drawer of an unaccepted item.

In addition each customer and collecting bank so transferring an item and receiving a settlement or other consideration engages that upon dishonor and any necessary notice of dishonor and protest he will take up the item.

(3) The warranties and the engagement to honor set forth in the two preceding subdivisions arise notwithstanding the absence of indorsement or words of guaranty or warranty in the transfer or presentment and a collecting bank remains liable for their breach despite remittance to its transferor. Damages for breach of such warranties or engagement to honor shall not exceed the consideration received by the customer or collecting bank responsible plus finance charges and expenses related to the item, if any.

(4) Unless a claim for breach of warranty under this section is made within a reasonable time after the person claiming learns of the breach, the person liable is discharged to the extent of any loss caused by the delay in making claim.

4208. (1) A bank has a security interest in an item and any accompanying documents or the proceeds of either

(a) In case of an item deposited in an account to the extent to which credit given for the item has been withdrawn or applied;

(b) In case of an item for which it has given credit available for withdrawal as of right, to the extent of the credit given whether or not the credit is drawn upon and whether or not there is a right of chargeback; or

(c) If it makes an advance on or against the item.

(2) When credit which has been given for several items received at one time or pursuant to a single agreement is withdrawn or applied in part the security interest remains upon all the items and any accompanying documents or the proceeds of either. For the purpose of this section, credits first given are first withdrawn.

(3) Receipt by a collecting bank of a final settement for an item is a realization on its security interest in the item, accompanying documents and proceeds To the extent and so long as the bank does not receive final settlement for the item or give up possession of the item or accompanying documents for purposes other than collection, the security interest continues and is subject to the provisions of Division 9 execept that

(a) No security agreement is necessary to make the security interest enforceable (subdivision (1)(b) of Section 9203); and

(b) No filing is required to perfect the security interest; and

(c) The security interest has priority over conflicting perfected security interests in the item, accompanying documents or proceeds.

4209. For purposes of determining its status as a holder in due course, the bank has given value to the extent that it has a security interest in an item provided that the bank otherwise complies with the requirements of Section 3302 on what constitutes a holder in due course.

4210. (1) Unless otherwise instructed, a collecting bank may present an item not payable by, through or at a bank by sending to the party to accept or pay a written notice that the bank holds the item for acceptance or payment. The notice must be sent in time to be received on or before the day when presentment is due and the bank must meet any requirement of the party to accept or pay under Section 3505 by the close of the bank's next banking day after it knows of the requirement.

(2) Where presentment is made by notice and neither honor nor request for compliance with a requirement under Section 3505 is received by the close of business on the day after ma-

turity or in the case of demand items by the close of business on the third banking day after notice was sent, the presenting bank may treat the item as dishonored and charge any secondary party by sending him notice of the facts.

4211. (1) A collecting bank may take in settlement of an item

(a) A check of the remitting bank or of another bank on any bank except the remitting bank; or

(b) A cashier's check or similar primary obligation of a remitting bank which is a member of or clears through a member of the same clearinghouse or group as the collecting bank; or

(c) Appropriate authority to charge an account of the remitting bank or of another bank with the collecting bank; or

(d) If the item is drawn upon or payable by a person other than a bank, a cashier's check, certified check or other bank check or obligation; or

(e) Credit on the books of any federal reserve bank or of any bank designated as a depositary by the collecting bank; or

(f) Money.

(2) If before its midnight deadline the collecting bank properly dishonors a remittance check or authorization to charge on itself or presents or forwards for collection a remittance instrument of or on another bank which is of a kind approved by subdivision (1) or has not been authorized by it, the collecting bank is not liable to prior parties in the event of the dishonor of such check, instrument or authorization.

(3) A settlement for an item by means of a remittance instrument or authorization to charge is or becomes a final settlement as to both the person making and the person receiving the settlement

(a) If the remittance instrument or authorization to charge is of a kind approved by subdivision (1) or has not been authorized by the person receiving the settlement and in either case the person receiving the settlement acts seasonably before its midnight deadline in presenting, forwarding for collection or paying the instrument or authorization—at the time the remittance instrument or authorization is finally paid by the payor by which it is payable;

(b) If the person receiving the settlement has authorized remittance by a nonbank check or obligation or by a cashier's check or similar primary obligation of or a check upon the payor or other remitting bank which is not of a kind approved by subdivision (1)(b)—at the time of the receipt of such remittance check or obligation; or

(c) If in a case not covered by paragraphs (a) or (b) the person receiving the settlement fails to seasonably present, forward for collection, pay or return a remittance instrument or authorization to it to charge before its midnight deadline—at such midnight deadline.

4212. (1) If a collecting bank has made provisional settlement with its customer for an item and itself fails by reason

of dishonor, suspension of payments by a bank or otherwise to receive a settlement for the item which is or becomes final, the bank may revoke the settlement given by it, charge back the amount of any credit given for the item to its customer's account or obtain refund from its customer whether or not it is able to return the items if by its midnight deadline or within a longer reasonable time after it learns the facts it returns the item or sends notification of the facts. These rights to revoke, charge back and obtain refund terminate if and when a settlement for the item received by the bank is or becomes final (subdivision (3) of Section 4211 and subdivisions (2) and (3) of Section 4213).

(3) A depositary bank which is also the payor may charge back the amount of an item to its customer's account or obtain refund in accordance with the section governing return of an item received by a payor bank for credit on its books (Section 4301).

(4) The right to charge back is not affected by

(a) Prior use of the credit given for the item; or

(b) Failure by any bank to exercise ordinary care with respect to the item but any bank so failing remains liable.

(5) A failure to charge back or claim refund does not affect other rights of the bank against the customer or any other party.

(6) If credit is given in dollars as the equivalent of the value of an item payable in a foreign currency the dollar amount of any chargeback or refund shall be calculated on the basis of the buying sight rate for the foreign currency prevailing on the day when the person entitled to the chargeback or refund learns that it will not receive payment in ordinary course.

(7) The right to obtain refund is not affected by

(a) Prior use of the credit given for the item; or

(b) Failure by any bank to exercise ordinary care with respect to the item except to the extent of the bank's liability therefor.

4213. (1) An item is finally paid by a payor bank when the bank has done any of the following, whichever happens first:

(a) Paid the item in cash; or

(b) Settled for the item without having a right to revoke the settlement under any of the following: statute, clearinghouse rule, agreement, or reservation thereof; or

(d) Settled for the item having a right to revoke the settlement under any one or more of the following: statute, clearinghouse rule, agreement or reservation thereof, and failed to revoke the settlement in the time and manner permitted under such right.

Upon final payment under paragraphs (b) or (d) the payor bank shall be accountable for the amount of the item.

(2) If provisional settlement for an item between the presenting and payor banks is made through a clearinghouse or

by debits or credits in an account between them, then to the extent that provisional debits or credits for the item are entered in accounts between the presenting and payor banks or between the presenting and successive prior collecting banks seriatim, they become final upon final payment of the item by the payor bank.

(3) If a collecting bank receives a settlement for an item which is or becomes final (subdivision (3) of Section 4211, subdivision (2) of this section) the bank is accountable to its customer for the amount of the item and any provisional credit given for the item in an account with its customer becomes final.

(4) Subject to any right of the bank to apply the credit to an obligation of the customer, credit given by a bank for an item in an account with its customer becomes available for withdrawal as of right

(a) In any case where the bank has received a provisional settlement for the item—when such settlement becomes final and the bank has had a reasonable time to learn that the settlement is final;

(b) In any case where the bank is both a depositary bank and a payor bank and the item is finally paid—at the opening of the bank's second banking day following receipt of the item.

(5) A deposit of money in a bank is final when made but, subject to any right of the bank to apply the deposit to an obligation of the customer, the deposit becomes available for withdrawal as of right at the opening of the bank's next banking day following receipt of the deposit.

4214. (1) Any item in or coming into the possession of a payor or collecting bank which suspends payment and which item is not finally paid shall be returned by the receiver, trustee or agent in charge of the closed bank to the presenting bank or the closed bank's customer.

(2) If a payor bank finally pays an item and suspends payments without making a settlement for the item with its customer or the presenting bank which settlement is or becomes final, the owner of the item has a preferred claim against the payor bank.

(3) If a payor bank gives or a collecting bank gives or receives a provisional settlement for an item and thereafter suspends payments, the suspension does not prevent or interfere with the settlement becoming final if such finality occurs automatically upon the lapse of certain time or the happening of certain events (subdivision (3) of Section 4211, subdivisions (1)(d), (2) and (3) of Section 4213).

(4) If a collecting bank receives from subsequent parties settlement for an item which settlement is or becomes final and suspends payments without making a settlement for the item with its customer which is or becomes final, the owner of the item has a preferred claim against such collecting bank.

CHAPTER 3. COLLECTION OF ITEMS: PAYOR BANKS

4301. (1) Where an authorized settlement for a demand item (other than a documentary draft) received by a payor bank otherwise than for immediate payment over the counter has been made before midnight of the banking day of receipt the payor bank may revoke the settlement and recover any payment if before it has made final payment (subdivision (1) of Section 4213) and before its midnight deadline it

(a) Returns the item; or

(b) Sends written notice of dishonor or nonpayment if the item is held for protest or is otherwise unavailable for return.

(2) If a demand item is received by a payor bank for credit on its books it may return such item or send notice of dishonor and may revoke any credit given or recover the amount thereof withdrawn by its customer, if it acts within the time limit and in the manner specified in the preceding subdivision.

(3) Unless previous notice of dishonor has been sent an item is dishonored at the time when for purposes of dishonor it is returned or notice sent in accordance with this section.

(4) An item is returned:

(a) As to an item received through a clearinghouse, when it is delivered to the presenting or last collecting bank or to the clearinghouse or is sent or delivered in accordance with its rules; or

(b) In all other cases, when it is sent or delivered to the bank's customer or transferor or pursuant to his instructions.

4302. In the absence of a valid defense such as breach of a presentment warranty (subdivision (1) of Section 4207), settlement effected or the like, if an item is presented on and received by a payor bank the bank is accountable for the amount of

(a) A demand item other than a documentary draft whether properly payable or not if the bank, in any case where it is not also the depositary bank, retains the item beyond midnight of the banking day of receipt without settling for it or, regardless of whether it is also the depositary bank, does not pay or return the item or send notice of dishonor until after its midnight deadline; or

(b) Any other properly payable item unless within the time allowed for acceptance or payment of that item the bank either accepts or pays the item or returns it and accompanying documents.

4303. (1) Any knowledge, notice or stop order received by, legal process served upon or setoff exercised by a payor bank, whether or not effective under other rules of law to terminate, suspend or modify the bank's right or duty to pay an item or to charge its customer's account for the item, comes too late to so terminate, suspend or modify such right or duty if the knowledge, notice, stop order or legal process is received or served and the bank does not have a reasonable time to act

thereon before, or the setoff is exercised after, the happening of any of the following:

(a) The bank has accepted or certified the item;

(b) The bank has paid the item in cash;

(c) The bank has settled for the item without having a right to revoke the settlement under any of the following: statute, clearinghouse rule, agreement, or reservation thereof;

(d) The cutoff hour (Section 4107) or the close of the banking day if no cutoff hour is fixed of the day on which the bank received the item;

(e) The bank has become accountable for the amount of the item under subdivision (1)(d) of Section 4213 and Section 4302 dealing with the payor bank's responsibility for late return of items; or

(f) The item has been deposited or received for deposit for credit in an account of a customer with the payor bank.

(2) Subject to the provisions of subdivision (1) items may be accepted, paid, certified or charged to the indicated account of its customer in any order convenient to the bank and before or after its regular banking hours. A bank is under no obligation to determine the time of day an item is received and without liability may withhold the amount thereof pending a determination of the effect, consequence or priority of any knowledge, notice, stop order or legal process concerning the same, or interplead such amount and the claimants thereto.

CHAPTER 4. RELATIONSHIP BETWEEN PAYOR BANK AND ITS CUSTOMER

4401. (1) As against its customer, a bank may charge against his account any item which is otherwise properly payable from that account even though the charge creates an overdraft and in such event recover or obtain refund of the amount of the overdraft.

(2) A bank which in good faith makes payment to a holder may charge the indicated account of its customer according to

(a) The original tenor of his altered item; or

(b) The tenor of his completed item, even though the bank knows the item has been completed unless the bank has notice that the completion was improper.

4402. A payor bank is liable to its customer for damages proximately caused by the wrongful dishonor of an item. When the dishonor occurs through mistake liability is limited to actual damages proved.

4403. (1) A customer, or any customer if there is more than one, or any person authorized to sign checks or make withdrawals thereon may stop payment of any item payable for or drawn against such customer's or customers' account but the bank may disregard the same unless the order is in writing, is signed by such customer or authorized person, describes with certainty the item on which payment is to be stopped, and is received by the bank in such time and in such

manner as to afford the bank a reasonable opportunity to act on it prior to the happening of any of the events described in Section 4303.

(2) An order may be disregarded by the bank six months after receipt unless renewed in writing.

(3) The bank is liable to its customer for the actual loss incurred by him resulting from the payment of an item contrary to a binding stop payment order, not exceeding the amount of the item unless the bank is guilty of negligence. The burden of establishing the fact and amount of loss resulting from the payment of an item contrary to a binding stop payment order is on the customer.

4404. A bank is under no obligation to a customer having a checking account to pay a check, other than a certified check, which is presented more than six months after its date, but it may charge its customer's account for a payment made thereafter.

4405. (1) A payor or collecting bank's authority to accept, pay or collect an item or to account for proceeds of its collection if otherwise effective is not rendered ineffective by incompetence of a customer of either bank existing at the time the item is issued or its collection is undertaken if the bank does not know of an adjudication of incompetence. Neither death nor incompetence of a customer revokes such authority to accept, pay, collect or account until the bank knows of the fact of death or of an adjudication of incompetence and has reasonable opportunity to act on it.

(2) Even with knowledge of the death of a customer or of any person authorized to sign checks or make withdrawals a bank may, for 10 days after the date of death, pay or certify checks drawn by the decedent on or prior to that date unless the bank has received notice pursuant to Section 852 or Section 952 of the Financial Code.

(3) Even with knowledge of the incompetence of a customer, whether adjudicated or not, a bank may, if the item would have been effective prior to such incompetence, accept, pay, collect and account for the proceeds of any item drawn by any other customer or person authorized by such other customer, unless the bank has received notice pursuant to Section 852 or Section 952 of the Financial Code.

(4) A bank may refuse to pay a check, draft or other order for the withdrawal of money from an account, whether commercial or savings, if it believes or receives an affidavit stating that the person drawing, indorsing or presenting the instrument is or was at the time of signing, indorsing or presenting it so under the influence of liquor or drugs or so mentally or physically disabled as to raise doubt whether such person is or was competent to transact business. No damages shall be awarded in any action against the bank, or its officers or other employees, for refusing in good faith to pay any such instrument for that reason or in relying upon such affidavit.

4406. (1) When a bank sends to its customer a statement of account accompanied by items paid in good faith in support of the debit entries or holds the statement and items pursuant to a request or instructions of its customer or otherwise in a reasonable manner makes the statement and items available to the customer, the customer must exercise reasonable care and promptness to examine the statement and items to discover his unauthorized signature or any alteration on an item and must notify the bank promptly after the discovery thereof.

(2) If the bank establishes that the customer failed with respect to an item to comply with the duties imposed on the customer by subdivision (1) the customer is precluded from asserting against the bank

(a) His unauthorized signature or any alteration on the item if the bank also establishes that it suffered a loss by reason of such failure; and

(b) An unauthorized signature or alteration by the same wrongdoer on any other item paid in good faith by the bank after the first item and statement was available to the customer for a reasonable period not exceeding 14 calendar days and before the bank receives notification from the customer of any such unauthorized signature or alteration

(3) The preclusion under subdivision (2) does not apply if the customer establishes lack of ordinary care on the part of the bank in paying the item(s).

(4) Without regard to care or lack of care of either the customer or the bank a customer who does not within one year from the time the statement and items are made available to the customer (subdivision (1)) discover and report his unauthorized signature or any alteration on the face or back of the item or any unauthorized indorsement, and if the bank so requests exhibit the item to the bank for inspection, is precluded from asserting against the bank such unauthorized signature or indorsement or such alteration. The burden of establishing the fact of such unauthorized signature or indorsement or such alteration is on the customer.

(5) If under this section a payor bank has a valid defense against a claim of a customer upon or resulting from payment of an item and waives or fails upon request to assert the defense the bank may not assert against any collecting bank or other prior party presenting or transferring the item a claim based upon the unauthorized signature or alteration giving rise to the customer's claim.

4407. If a payor bank has paid an item over the stop payment order of the drawer or maker or otherwise under circumstances giving a basis for objection by the drawer or maker, to prevent unjust enrichment and only to the extent necessary to prevent loss to the bank by reason of its payment of the item, the payor bank shall be subrogated to the rights

(a) Of any holder in due course on the item against the drawer or maker; and

(b) Of the payee or any other holder of the item against the drawer or maker either on the item or under the transaction out of which the item arose; and

(c) Of the drawer or maker against the payee or any other holder of the item with respect to the transaction out of which the item arose.

Chapter 5. Collection of Documentary Drafts

4501 A bank which takes a documentary draft for collection must present or send the draft and accompanying documents for presentment and upon learning that the draft has not been paid or accepted in due course must seasonably notify its customer of such fact even though it may have discounted or bought the draft or extended credit available for withdrawal as of right.

4502. When a draft or the relevant instructions require presentment "on arrival," "when goods arrive" or the like, the collecting bank need not present until in its judgment a reasonable time for arrival of the goods has expired. Refusal to pay or accept because the goods have not arrived is not dishonor; the bank must notify its transferor of such refusal but need not present the draft again until it is instructed to do so or learns of the arrival of the goods.

4503. Unless otherwise instructed and except as provided in Division 5 a bank presenting a documentary draft

(a) Must deliver the documents to the drawee on acceptance of the draft if it is payable more than three days after presentment; otherwise, only on payment; and

(b) Upon dishonor, either in the case of presentment for acceptance or presentment for payment, may seek and follow instructions from any referee in case of need designated in the draft or if the presenting bank does not choose to utilize his services it must use diligence and good faith to ascertain the reason for dishonor, must notify its transferor of the dishonor and of the results of its effort to ascertain the reasons therefor and must request instructions.

But the presenting bank is under no obligation with respect to goods represented by the documents except to follow any reasonable instructions seasonably received; it has a right to reimbursement for any expense incurred in following instructions and to prepayment of or indemnity for such expenses.

4504. (1) A presenting bank which, following the dishonor of a documentary draft, has seasonably requested instructions but does not receive them within a reasonable time may store, sell, or otherwise deal with the goods in any reasonable manner.

(2) For its reasonable expenses incurred by action under subdivision (1) the presenting bank has a lien upon the goods or their proceeds, which may be foreclosed in the same manner as an unpaid seller's lien.

DIVISION 5. LETTERS OF CREDIT

5101. This division shall be known and may be cited as Uniform Commercial Code—Letters of Credit.

5102. (1) This division applies

(a) To a credit issued by a bank if the credit requires a documentary draft or a documentary demand for payment; and

(b) To a credit issued by a person other than a bank if the credit requires that the draft or demand for payment be accompanied by a document of title; and

(c) To a credit issued by a bank or other person if the credit is not within paragraph (a) or (b) but conspicuously states that it is a letter of credit or is conspicuously so entitled.

(2) Unless the engagement meets the requirements of subdivision (1), this division does not apply to engagements to make advances or to honor drafts or demands for payment, to authorities to pay or purchase, to guarantees or to general agreements.

(3) This division deals with some but not all of the rules and concepts of letters of credit as such rules or concepts have developed prior to this act or may hereafter develop. The fact that this division states a rule does not by itself require, imply or negate application of the same or a converse rule to a situation not provided for or to a person not specified by this division.

5103. (1) In this division unless the context otherwise requires

(a) "Credit" or "letter of credit" means an engagement by a bank or other person made at the request of a customer and of a kind within the scope of this division (Section 5102) that the issuer will honor drafts or other demands for payment upon compliance with the conditions specified in the credit. A credit may be either revocable or irrevocable. The engagement may be either an agreement to honor or a statement that a bank or other person is authorized to honor.

(b) A "documentary draft" or a "documentary demand for payment" is one honor of which is conditioned upon the presentation of a document or documents. "Document" means any paper including document of title, security, invoice, certificate, notice of default and the like.

(c) An "issuer" is a bank or other person issuing a credit.

(d) A "beneficiary" of a credit is a person who is entitled under its terms to draw or demand payment.

(e) An "advising bank" is a bank which gives notification of the issuance of a credit by another bank.

(f) A "confirming bank" is a bank which engages either that it will itself honor a credit already issued by another bank or that such a credit will be honored by the issuer or a third bank.

(g) A "customer" is a buyer or other person who causes an issuer to issue a credit. The term also includes a bank which

procures issuance or confirmation on behalf of that bank's customer.

(2) Other definitions applying to this division and the sections in which they appear are:

"Notation of credit." Section 5108.

"Presenter." Section 5112(3).

(3) Definitions in other divisions applying to this division and the sections in which they appear are:

"Accept" or "acceptance." Section 3410.

"Contract for sale." Section 2106.

"Draft." Section 3104.

"Holder in due course." Section 3302.

"Midnight deadline." Section 4104.

"Security." Section 8102.

(4) In addition, Division 1 contains general definitions and principles of construction and interpretation applicable throughout this division

5104. (1) Except as otherwise required in subdivision (1)(c) of Section 5102 on scope, no particular form of phrasing is required for a credit. A credit must be in writing and signed by the issuer and a confirmation must be in writing and signed by the confirming bank. A modification of the terms of a credit or confirmation must be signed by the issuer or confirming bank.

(2) A telegram may be a sufficient signed writing if it identifies its sender by an authorized authentication. The authentication may be in code and the authorized naming of the issuer in an advice of credit is a sufficient signing.

5105. No consideration is necessary to establish a credit or to enlarge or otherwise modify its terms.

5106. (1) Unless otherwise agreed a credit is established

(a) As regards the customer as soon as a letter of credit is sent to him or the letter of credit or an authorized written advice of its issuance is sent to the beneficiary; and

(b) As regards the beneficiary when he receives a letter of credit or an authorized written advice of its issuance.

(2) Unless otherwise agreed once an irrevocable credit is established as regards the customer it can be modified or revoked only with the consent of the customer and once it is established as regards the beneficiary it can be modified or revoked only with his consent.

(3) Unless otherwise agreed after a revocable credit is established it may be modified or revoked by the issuer without notice to or consent from the customer or beneficiary.

(4) Notwithstanding any modification or revocation of a revocable credit any person authorized to honor or negotiate under the terms of the original credit is entitled to reimbursement for or honor of any draft or demand for payment duly honored or negotiated before receipt of notice of the modification or revocation and the issuer in turn is entitled to reimbursement from its customer.

5107. (1) Unless otherwise specified an advising bank by advising a credit issued by another bank does not assume any obligation to honor drafts drawn or demands for payment made under the credit but it does assume obligation for the accuracy of its own statement.

(2) A confirming bank by confirming a credit becomes directly obligated on the credit to the extent of its confirmation as though it were its issuer and acquires the rights of an issuer.

(3) Even though an advising bank incorrectly advises the terms of a credit it has been authorized to advise the credit is established as against the issuer to the extent of its original terms.

(4) Unless otherwise specified the customer bears as against the issuer all risks of transmission and reasonable translation or interpretation of any message relating to a credit.

5108. (1) A credit which specifies that any person purchasing or paying drafts drawn or demands for payment made under it must note the amount of the draft or demand on the letter or advice of credit is a "notation credit."

(2) Under a notation credit

(a) A person paying the beneficiary or purchasing a draft or demand for payment from him acquires a right to honor only if the appropriate notation is made and by transferring or forwarding for honor the documents under the credit such a person warrants to the issuer that the notation has been made; and

(b) Unless the credit or a signed statement that an appropriate notation has been made accompanies the draft or demand for payment the issuer may delay honor until evidence of notation has been procured which is satisfactory to it but its obligation and that of its customer continue for a reasonable time not exceeding 30 days to obtain such evidence.

(3) If the credit is not a notation credit

(a) The issuer may honor complying drafts or demands for payment presented to it in the order in which they are presented and is discharged pro tanto by honor of any such draft or demand;

(b) As between competing good faith purchasers of complying drafts or demands the person first purchasing has priority over a subsequent purchaser even though the later purchased draft or demand has been first honored.

5109. (1) An issuer's obligation to its customer includes good faith and observance of any general banking usage but unless otherwise agreed does not include liability or responsibility

(a) For performance of the underlying contract for sale or other transaction between the customer and the beneficiary; or

(b) For any act or omission of any person other than itself or its own branch or for loss or destruction of a draft, demand or document in transit or in the possession of others; or

(c) Based on knowledge or lack of knowledge of any usage of any particular trade.

(2) An issuer must examine documents with care so as to ascertain that on their face they appear to comply with the terms of the credit but unless otherwise agreed assumes no liability or responsibility for the genuineness, falsification or effect of any document which appears on such examination to be regular on its face.

(3) A nonbank issuer is not bound by any banking usage of which it has no knowledge.

5110. (1) Unless otherwise specified a credit may be used in portions in the discretion of the beneficiary.

(2) Unless otherwise specified a person by presenting a documentary draft or demand for payment under a credit relinquishes upon its honor all claims to the documents and a person by transferring such draft or demand or causing such presentment authorizes such relinquishment. An explicit reservation of claim makes the draft or demand noncomplying.

5111. (1) Unless otherwise agreed the beneficiary by transferring or presenting a documentary draft or demand for payment warrants to all interested parties that the necessary conditions of the credit have been complied with. This is in addition to any warranties arising under Divisions 3, 4, 7, and 8.

(2) Unless otherwise agreed a negotiating, advising, confirming, collecting or issuing bank presenting or transferring a draft or demand for payment under a credit warrants only the matters warranted by a collecting bank under Division 4 and any such bank transferring a document warrants only the matters warranted by an intermediary under Divisions 7 and 8.

5112. (1) A bank to which a documentary draft or demand for payment is presented under a credit may without dishonor of the draft, demand or credit

(a) Defer honor until the close of the third banking day following receipt of the documents; and

(b) Further defer honor if the presenter has expressly or impliedly consented thereto.

Failure to honor within the time here specified constitutes dishonor of the draft or demand and of the credit.

(2) Upon dishonor the bank may unless otherwise instructed fulfill its duty to return the draft or demand and the documents by holding them at the disposal of the presenter and sending him an advice to that effect.

(3) "Presenter" means any person presenting a draft or demand for payment for honor under a credit even though that person is a confirming bank or other correspondent which is acting under an issuer's authorization.

5113. (1) A bank seeking to obtain (whether for itself or another) honor, negotiation or reimbursement under a credit may give an indemnity to induce such honor, negotiation or reimbursement.

(2) An indemnity agreement inducing honor, negotiation or reimbursement unless otherwise explicitly agreed applies to defects in the documents but not in the goods.

5114. (1) An issuer must honor a draft or demand for payment which complies with the terms of the relevant credit regardless of whether the goods or documents conform to the underlying contract for sale or other contract between the customer and the beneficiary. The issuer is not excused from honor of such a draft or demand by reason of an additional general term that all documents must be satisfactory to the issuer, but an issuer may require that specified documents must be satisfactory to it.

(2) Unless otherwise agreed when documents appear on their face to comply with the terms of a credit but a required document does not in fact conform to the warranties made on negotiation or transfer of a document of title (Section 7507) or of a security (Section 8306) or is forged or fraudulent or there is fraud in the transaction

(a) The issuer must honor the draft or demand for payment if honor is demanded by a negotiating bank or other holder of the draft or demand which has taken the draft or demand under the credit and under circumstances which would make it a holder in due course (Section 3302) and in an appropriate case would make it a person to whom a document of title has been duly negotiated (Section 7501) or a bona fide purchaser of a security (Section 8302); and

(b) In all other cases as against its customer, an issuer acting in good faith may honor the draft or demand for payment despite notification from the customer of fraud, forgery or other defect not apparent on the face of the documents.

(3) Unless otherwise agreed an issuer which has duly honored a draft or demand for payment is entitled to immediate reimbursement of any payment made under the credit and to be put in effectively available funds not later than the day before maturity of any acceptance made under the credit.

5115. (1) When an issuer wrongfully dishonors a draft or demand for payment presented under a credit the person entitled to honor has with respect to any documents the rights of a person in the position of a seller (Section 2707) and may recover from the issuer the face amount of the draft or demand together with incidental damages under Section 2710 on seller's incidental damages and interest but less any amount realized by resale or other use or disposition of the subject matter of the transaction. In the event no resale or other utilization is made the documents, goods or other subject matter involved in the transaction must be turned over to the issuer on payment of judgment.

(2) When an issuer wrongfully cancels or otherwise repudiates a credit before presentment of a draft or demand for payment drawn under it the beneficiary has the rights of a seller after anticipatory repudiation by the buyer under Section 2610 if he learns of the repudiation in time reasonably to

avoid procurement of the required documents. Otherwise the beneficiary has an immediate right of action for wrongful dishonor.

5116. (1) The right to draw under a credit can be transferred or assigned only when the credit is expressly designated as transferable or assignable.

(2) Even though the credit specifically states that it is nontransferable or nonassignable the beneficiary may before performance of the conditions of the credit assign his right to proceeds. Such an assignment is an assignment of a contract right under Division 9 on secured transactions and is governed by that division except that

(a) The assignment is ineffective until the letter of credit or advice of credit is delivered to the assignee which delivery constitutes perfection of the security interest under Division 9; and

(b) The issuer may honor drafts or demands for payment drawn under the credit until it receives a notification of the assignment signed by the beneficiary which reasonably identifies the credit involved in the assignment and contains a request to pay the assignee; and

(c) After what reasonably appears to be such a notification has been received the issuer may without dishonor refuse to accept or pay even to a person otherwise entitled to honor until the letter of credit or advice of credit is exhibited to the issuer.

As used in paragraphs (b) and (c) of this subdivision (2), the word "issuer" includes any confirming bank.

(3) Except where the beneficiary has effectively assigned his right to draw or his right to proceeds, nothing in this section limits his right to transfer or negotiate drafts or demands drawn under the credit.

5117. (1) Where an issuer or an advising or confirming bank or a bank which has for a customer procured issuance of a credit by another bank becomes insolvent before final payment under the credit and the credit is one to which this division is made applicable by paragraph (a) or (b) of Section 5102(1) on scope, the receipt or allocation of funds or collateral to secure or meet obligations under the credit shall have the following results:

(a) To the extent of any funds or collateral turned over after or before the insolvency as indemnity against or specifically for the purpose of payment of drafts or demands for payment drawn under the designated credit, the drafts or demands are entitled to payment in preference over depositors or other general creditors of the issuer or bank; and

(b) On expiration of the credit or surrender of the beneficiary's rights under it unused any person who has given such funds or collateral is similarly entitled to return thereof; and

(c) A charge to a general or current account with a bank if specifically consented to for the purpose of indemnity against or payment of drafts or demands for payment drawn under

the designated credit falls under the same rules as if the funds had been drawn out in cash and then turned over with specific instructions.

(2) After honor or reimbursement under this section the customer or other person for whose account the insolvent bank has acted is entitled to receive the documents involved.

DIVISION 6. BULK TRANSFERS

6101. This division shall be known and may be cited as Uniform Commercial Code—Bulk Transfers.

6102. (1) A "bulk transfer" is any transfer in bulk and not in the ordinary course of the transferor's business of a substantial part of the materials, supplies, merchandise, or other inventory (Section 9109) of an enterprise subject to this division.

(2) A transfer of a substantial part of the equipment (Section 9109) of such an enterprise is also a bulk transfer.

(3) The enterprises subject to this division are all those whose principal business is that of a baker, cafe or restaurant owner, garage owner, cleaner and dyer, or retail or wholesale merchant.

(4) Except as limited by the following section all bulk transfers of goods located within this State are subject to this division.

(5) The word "transfer" as used in this division includes the creation of a security interest.

6103. The following transfers are not subject to this division:

(1) Those made to give

(a) A purchase money security interest (Section 9107);

(b) A security interest in or to inventory consisting of durable goods having a unit retail value of at least five hundred dollars ($500) or motor vehicles, house trailers, trailers, semitrailers, farm and construction machinery and repair parts thereof, or aircraft; or

(c) A security interest in the inventory of a wholesale merchant;

(2) General assignments for the benefit of all the creditors of the transferor, and subsequent transfers by the assignee thereunder;

(3) Transfers of property subject to a lien or other security interest in settlement or realization of such lien or other security interest, if there was compliance with this division in connection with the creation of such lien or security interest or such creation was exempt from compliance with this division;

(4) Sales by executors, administrators, receivers, trustees in bankruptcy, or any public officer under judicial process;

(5) Sales made in the course of judicial or administrative proceedings for the dissolution or reorganization of a corporation and of which notice is sent to the creditors of the cor-

poration pursuant to order of the court or administrative agency;

(6) Transfers of property which is exempt from execution;

(7) The transfer of goods in a warehouse where a warehouse receipt has been issued therefor by a warehouseman (Section 7102) and a copy of such receipt is kept at the principal place of business of the warehouseman and at the warehouse in which said goods are stored.

6105. Any bulk transfer subject to this division except one made by auction sale (Section 6108) is fraudulent and void against any creditor of the transferor unless the transferee gives notice of the transfer in the manner and within the time hereafter provided (Section 6107).

6107. (1) The notice to creditors (Section 6105) shall state:

(a) That a bulk transfer is about to be made; and

(b) The names and business addresses of the transferor and transferee, and all other business names and addresses used by the transferor within three years last past so far as known to the transferee; and

(c) The location and general description of the property to be transferred; and

(d) The place, and the date on or after which, the bulk transfer is to be consummated.

(2) The notice shall be

(a) Recorded in the office of the county recorder in the county or counties in which the property to be transferred is located at least 10 days before the bulk transfer is to be consummated or the sale by auction is to be commenced; and

(b) Published at least once in a newspaper of general circulation published in the judicial district in which the property is located, if there is one, and if there is none, then in a newspaper of general circulation in the county embracing such judicial district, at least five days before the bulk transfer is to be consummated or the sale by auction is to be commenced.

6108. (1) A bulk transfer is subject to this division even though it is by sale at auction, but only in the manner and with the results stated in this section.

(2) The person or persons other than the transferor who direct, control or are responsible for the auction are collectively called the "auctioneer." The auctioneer shall be responsible for giving the notice of the transfer (Section 6107). In the case of a sale by auction, in addition to the matters specified in Section 6107, the notice shall state that the sale is to be by auction, the name of the auctioneer, and the time and place of the auction.

(3) Failure of the auctioneer to give the notice of the transfer does not affect the validity of the sale to or the title of the purchasers, but such failure renders the auctioneer liable to the creditors of the transferor as a class for the sums owing to them from the transferor up to but not exceeding the reason-

able value of the assets sold. If the auctioneer consists of several persons their liability is joint and several.

6109. The creditors of the transferor mentioned in this division are those holding claims based on transactions or events occurring before the bulk transfer.

6110. When the title of a transferee to property is subject to a defect by reason of his noncompliance with the requirements of this division, then:

(1) A purchaser of any such property from such transferee who pays no value or who takes with notice of such noncompliance takes subject to such defect, but

(2) A purchaser for value in good faith and without such notice takes free of such defect.

6111. No action under this division shall be brought nor levy made more than one year after the date on which the transferee took possession of the goods unless the transfer has been concealed. If the transfer has been concealed, an action may be brought or levy made within one year after its discovery by the creditor bringing such action or making such levy or after it should have been discovered by such creditor in the exercise of reasonable diligence, whichever first occurs.

DIVISION 7. WAREHOUSE RECEIPTS, BILLS OF LADING AND OTHER DOCUMENTS OF TITLE

CHAPTER 1. GENERAL

7101. This division shall be known and may be cited as Uniform Commercial Code—Documents of Title.

7102. (1) In this division, unless the context otherwise requires:

(a) "Bailee" means the person who by a warehouse receipt, bill of lading or other document of title acknowledges possession of goods and contracts to deliver them.

(b) "Consignee" means the person named in a bill to whom or to whose order the bill promises delivery.

(c) "Consignor" means the person named in a bill as the person from whom the goods have been received for shipment.

(e) "Document" means document of title as defined in the general definitions in Division 1 (Section 1201).

(f) "Goods" means all things which are treated as movable for the purposes of a contract of storage or transportation.

(g) "Issuer" means a bailee who issues a document. Issuer includes any person for whom an agent or employee purports to act in issuing a document if the agent or employee has real or apparent authority to issue documents, notwithstanding that the issuer received no goods or that the goods were misdescribed or that in any other respect the agent or employee violated his instructions.

(h) "Warehouseman" is a person engaged in the business of storing goods for hire.

(2) Other definitions applying to this division or to specified chapters thereof, and the sections in which they appear are:

"Duly negotiate." Section 7501.

"Person entitled under the document." Section 7403(4).

(3) Definitions in other divisions applying to this division and the sections in which they appear are:

"Contract for sale." Section 2106.

"Overseas." Section 2323.

"Receipt" of goods. Section 2103.

(4) In addition Division 1 contains general definitions and principles of construction and interpretation applicable throughout this division.

7103. To the extent that any treaty or statute of the United States, regulatory statute of this State, or tariff, classification or regulation filed or issued pursuant thereto is applicable, the provisions of this division are subject thereto.

7104. (1) A warehouse receipt, bill of lading or other document of title is negotiable

(a) If by its terms the goods are to be delivered to bearer or to the order of a named person; or

(b) Where recognized in overseas trade, if it runs to a named person or assigns.

(2) Any other document is nonnegotiable. A bill of lading in which it is stated that the goods are consigned to a named person is not made negotiable by a provision that the goods are to be delivered only against a written order signed by the same or another named person.

(3) A nonnegotiable warehouse receipt and a nonnegotiable bill of lading must be conspicuously (Section 1201) marked "nonnegotiable." In case of the bailee's failure to do so, a holder of the document who purchased it for value supposing it to be negotiable may, at his option, treat such document as imposing upon the bailee the same liabilities he would have incurred had the document been negotiable.

7105. The omission from either Chapter 2 or Chapter 3 of this division of a provision corresponding to a provision made in the other chapter does not imply that a corresponding rule of law is not applicable.

CHAPTER 2 WAREHOUSE RECEIPTS: SPECIAL PROVISIONS

7201. (1) A warehouse receipt may be issued by any warehouseman.

(2) Where goods including distilled spirits and agricultural commodities are stored under a statute requiring a bond against withdrawal or a license for the issuance of receipts in the nature of warehouse receipts, a receipt issued for the goods has like effect as a warehouse receipt even though issued by a person who is the owner of the goods and is not a warehouseman

7202. (1) A warehouse receipt need not be in any particular form.

(2) Unless a warehouse receipt embodies within its written or printed terms each of the following, the warehouseman is liable for damages caused by the omission to a person injured thereby:

(a) The location of the warehouse where the goods are stored;

(b) The date of issue of the receipt;

(c) The consecutive number of the receipt;

(d) A statement whether the goods received will be delivered to the bearer, to a specified person, or to a specified person or his order;

(e) The rate of storage and handling charges, except that where goods are stored under a field warehousing arrangement a statement of that fact is sufficient on a nonnegotiable receipt and except that where goods are stored in a public utility warehouse having a lawful tariff on file with the Public Utilities Commission, a statement that the rate of storage and handling charges are as provided in such tariff is sufficient;

(f) A description of the goods or of the packages containing them;

(g) The signature of the warehouseman, which may be made by his authorized agent;

(h) If the receipt is issued for goods of which the warehouseman is owner, either solely or jointly or in common with others, the fact of such ownership; and

(i) A statement of the amount of advances made and of liabilities incurred for which the warehouseman claims a lien or security interest (Section 7209). If the precise amount of such advances made or of such liabilities incurred is, at the time of the issue of the receipt, unknown to the warehouseman or to his agent who issues it, a statement of the fact that advances have been made or liabilities incurred and the purpose thereof is sufficient.

(3) A warehouseman may insert in his receipt any other terms which are not contrary to the provisions of this code and do not impair his obligation of delivery (Section 7403) or his duty of care (Section 7204). Any contrary provisions shall be ineffective.

7203. A party to or purchaser for value in good faith of a document of title other than a bill of lading relying in either case upon the description therein of the goods may recover from the issuer damages caused by the nonreceipt or misdescription of the goods, except to the extent that the document conspicuously indicates that the issuer does not know whether any part or all of the goods in fact were received or conform to the description, as where the description is in terms of marks or labels or kind, quantity or condition, or the receipt or description is qualified by "contents, condition and quality unknown," "said to contain" or the like, if such indication be true, or the party or purchaser otherwise has notice.

7204. (1) A warehouseman is liable for damages for loss of or injury to the goods caused by his failure to exercise such

care in regard to them as a reasonably careful man would exercise under like circumstances but unless otherwise agreed he is not liable for damages which could not have been avoided by the exercise of such care.

(2) Damages may be limited by a term in the warehouse receipt or storage agreement limiting the amount of liability in case of loss or damage, and setting forth a specific liability per article or item, or value per unit of weight, beyond which the warehouseman shall not be liable; provided, however, that such liability may on written request of the bailor at the time of signing such storage agreement or within a reasonable time after receipt of the warehouse receipt be increased on part or all of the goods thereunder, in which event increased rates may be charged based on such increased valuation, but that no such increase shall be permitted contrary to a lawful limitation of liability contained in the warehouseman's tariff, if any, nor permit recovery in excess of the actual value of the goods. No such limitation is effective with respect to the warehouseman's liability for conversion to his own use.

(3) Reasonable provisions as to the time and manner of presenting claims and instituting actions based on the bailment may be included in the warehouse receipt or tariff.

(4) This section does not impair or repeal Section 1630 of the Civil Code nor any of the provisions of the Public Utilities Code or the Agricultural Code or any lawful regulations issued thereunder.

7205. A buyer in the ordinary course of business of fungible goods sold and delivered by a warehouseman who is also in the business of buying and selling such goods takes free of any claim under a warehouse receipt even though it has been duly negotiated.

7206. (1) A warehouseman may on notifying the person on whose account the goods are held and any other person known to claim an interest in the goods require payment of any charges and removal of the goods from the warehouse at the termination of the period of storage fixed by the document, or, if no period is fixed, within a stated period not less than 30 days after the notification. If the goods are not removed before the date specified in the notification, the warehouseman may sell them in accordance with the provisions of the section on enforcement of a warehouseman's lien (Section 7210).

(2) If a warehouseman in good faith believes that the goods are about to deteriorate or decline in value to less than the amount of his lien within the time prescribed in subdivision (1) for notification, advertisement and sale, the warehouseman may specify in the notification any reasonable shorter time for removal of the goods and in case the goods are not removed, may sell them at public sale held not less than one week after a single advertisement or posting.

(3) If as a result of a quality or condition of the goods of which the warehouseman had no notice at the time of deposit the goods are a hazard to other property or to the warehouse or to persons, the warehouseman may sell the goods at public or

private sale without advertisement on reasonable notification to all persons known to claim an interest in the goods. If the warehouseman after a reasonable effort is unable to sell the goods he may dispose of them in any lawful manner and shall incur no liability by reason of such disposition.

(4) The warehouseman must deliver the goods to any person entitled to them under this division upon due demand made at any time prior to sale or other disposition under this section and payment of any amount necessary to satisfy the warehouseman's lien and reasonable expenses incurred under this section.

(5) The warehouseman may satisfy his lien from the proceeds of any sale or disposition under this section but must hold the balance for delivery on the demand of any person to whom he would have been bound to deliver the goods.

7207. (1) Unless the warehouse receipt otherwise provides, a warehouseman must keep separate the goods covered by each receipt so as to permit at all times identification and delivery of those goods except that different lots of fungible goods may be commingled.

(2) Fungible goods so commingled are owned in common by the persons entitled thereto and the warehouseman is severally liable to each owner for that owner's share. Where because of overissue a mass of fungible goods is insufficient to meet all the receipts which the warehouseman has issued against it, the persons entitled include all holders to whom overissued receipts have been duly negotiated.

7208. Where a blank in a negotiable warehouse receipt has been filled in without authority, a purchaser for value and without notice of the want of authority may treat the insertion as authorized. Any other unauthorized alteration leaves any receipt enforceable against the issuer according to its original tenor.

7209. (1) A warehouseman has a lien against the bailor on the goods deposited or on the proceeds thereof in his possession for charges for storage, processing incidental to storage, or transportation, including demurrage and terminal charges, insurance, labor, or charges present or future in relation to the goods, and for expenses necessary for preservation of the goods or reasonably incurred in their sale pursuant to law. If the person on whose account the goods are held is liable for like charges or expenses in relation to other goods whenever deposited, the warehouseman also has a lien against him for such charges and expenses whether or not the other goods have been delivered by the warehouseman. But against a person to whom a negotiable warehouse receipt is duly negotiated a warehouseman's lien is limited to charges specified on the receipt or if no charges are so specified then to a reasonable charge for storage of the goods covered by the receipt subsequent to the date of the receipt.

(2) The warehouseman may also reserve a security interest against the bailor for charges other than those specified in

subdivision (1), such as for money advanced and interest, but if a receipt is issued for the goods such a security interest is not valid as against third persons without notice unless the maximum amount thereof is conspicuously specified (Section 1201) on the receipt. Such a security interest is governed by the division on secured transactions (Division 9).

(3) A warehouseman's lien for charges and expenses under subdivision (1) or a security interest under subdivision (2) is also effective against any person who so entrusted the bailor with possession of the goods that a pledge of them by him to a good faith purchaser for value would have been valid but is not effective against a person as to whom the document confers no right in the goods covered by it under Section 7503.

(4) A warehouseman loses his lien on any goods which he voluntarily delivers or which he unjustifiably refuses to deliver.

7210. (1) Except as provided in subdivision (2), a warehouseman's lien may be enforced by public or private sale of the goods in bloc or in parcels, at any time or place and on any terms which are commercially reasonable, after notifying all persons known to claim an interest in the goods. Such notification must include a statement of the amount due, the nature of the proposed sale and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the warehouseman is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. If the warehouseman either sells the goods in the usual manner in any recognized market therefor, or if he sells at the price current in such market at the time of his sale, or if he has otherwise sold in conformity with commercially reasonable practices among dealers in the type of goods sold, he has sold in a commercially reasonable manner. A sale of more goods than apparently necessary to be offered to insure satisfaction of the obligation is not commercially reasonable except in cases covered by the preceding sentence.

(2) A warehouseman's lien on goods other than goods stored by a merchant in the course of his business may be enforced only as follows:

(a) All persons known to claim an interest in the goods must be notified.

(b) The notification must be delivered in person or sent by registered or certified letter to the last known address of any person to be notified.

(c) The notification must include an itemized statement of the claim, a description of the goods subject to the lien, a demand for payment within a specified time not less than 10 days after receipt of the notification, and a conspicuous statement that unless the claim is paid within that time the goods will be advertised for sale and sold by auction at a specified time and place.

(d) The sale must conform to the terms of the notification.

(e) The sale must be held at the nearest suitable place to that where the goods are held or stored

(f) After the expiration of the time given in the notification, an advertisement of the sale must be published once a week for two weeks consecutively in a newspaper of general circulation published in the judicial district where the sale is to be held. The advertisement must include a description of the goods, the name of the person on whose account they are being held, and the time and place of the sale. The sale must take place at least 15 days after the first publication. If there is no newspaper of general circulation published in the judicial district where the sale is to be held, the advertisement must be posted at least 10 days before the sale in not less than six conspicuous places in the neighborhood of the proposed sale.

(3) Before any sale pursuant to this section any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred under this section. In that event the goods must not be sold, but must be retained by the warehouseman subject to the terms of the receipt and this division.

(4) The warehouseman may buy at any public sale pursuant to this section.

(5) A purchaser in good faith of goods sold to enforce a warehouseman's lien takes the goods free of any rights of persons against whom the lien was valid, despite noncompliance by the warehouseman with the requirements of this section.

(6) The warehouseman may satisfy his lien from the proceeds of any sale pursuant to this section but must hold the balance, if any, for delivery on demand to any person to whom he would have been bound to deliver the goods.

(7) The rights provided by this section shall be in addition to all other rights allowed by law to a creditor against his debtor.

(8) Where a lien is on goods stored by a merchant in the course of his business the lien may be enforced in accordance with either subdivision (1) or (2).

(9) The warehouseman is liable for damages caused by failure to comply with the requirements for sale under this section and in case of willful violation is liable for conversion.

CHAPTER 3. BILLS OF LADING: SPECIAL PROVISIONS

7301 (1) A consignee of a nonnegotiable bill who has given value in good faith or a holder to whom a negotiable bill has been duly negotiated relying in either case upon the description therein of the goods, or upon the date therein shown, may recover from the issuer damages caused by the misdating of the bill or the nonreceipt or misdescription of the goods, except to the extent that the document indicates that the issuer does not know whether any part or all of the goods

in fact were received or conform to the description, as where the description is in terms of marks or labels or kind, quantity, or condition or the receipt or description is qualified by "contents or condition of contents of packages unknown," "said to contain," "shipper's weight, load and count" or the like, if such indication be true.

(2) When goods are loaded by an issuer who is a common carrier, the issuer must count the packages of goods if package freight and ascertain the kind and quantity if bulk freight. In such cases "shipper's weight, load and count" or other words indicating that the description was made by the shipper are ineffective except as to freight concealed by packages.

(3) When bulk freight is loaded by a shipper who makes available to the issuer adequate facilities for weighing such freight, an issuer who is a common carrier must ascertain the kind and quantity within a reasonable time after receiving the written request of the shipper to do so In such cases "shipper's weight" or other words of like purport are ineffective.

(4) The issuer may by inserting in the bill the words "shipper's weight, load and count" or other words of like purport indicate that the goods were loaded by the shipper; and if such statement be true the issuer shall not be liable for damages caused by the improper loading. But their omission does not imply liability for such damages

(5) The shipper shall be deemed to have guaranteed to the issuer the accuracy at the time of shipment of the description, marks, labels, number, kind, quantity, condition and weight, as furnished by him; and the shipper shall indemnify the issuer against damage caused by inaccuracies in such particulars. The right of the issuer to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.

7302. (1) The issuer of a through bill of lading or other document embodying an undertaking to be performed in part by persons acting as its agents or by connecting carriers is liable to anyone entitled to recover on the document for any breach by such other persons or by a connecting carrier of its obligation under the document but to the extent that the bill covers an undertaking to be performed overseas or in territory not contiguous to the continental United States or an undertaking including matters other than transportation this liability may be varied by agreement of the parties.

(2) Where goods covered by a through bill of lading or other document embodying an undertaking to be performed in part by persons other than the issuer are received by any such person, he is subject with respect to his own performance while the goods are in his possession to the obligation of the issuer. His obligation is discharged by delivery of the goods to another such person pursuant to the document, and does not include liability for breach by any other such persons or by the issuer.

(3) The issuer of such through bill of lading or other document shall be entitled to recover from the connecting carrier or such other person in possession of the goods when the breach of the obligation under the document occurred, the amount it may be required to pay to anyone entitled to recover on the document therefor, as may be evidenced by any receipt, judgment, or transcript thereof, and the amount of any expense reasonably incurred by it in defending any action brought by anyone entitled to recover on the document therefor.

7303. (1) Unless the bill of lading otherwise provides, the carrier may deliver the goods to a person or destination other than that stated in the bill or may otherwise dispose of the goods on instructions from

(a) The holder of a negotiable bill; or

(b) The consignor on a nonnegotiable bill notwithstanding contrary instructions from the consignee; or

(c) The consignee on a nonnegotiable bill in the absence of contrary instructions from the consignor, if the goods have arrived at the billed destination or if the consignee is in possession of the bill; or

(d) The consignee on a nonnegotiable bill if he is entitled as against the consignor to dispose of them.

(2) Unless such instructions are noted on a negotiable bill of lading, a person to whom the bill is duly negotiated can hold the bailee according to the original terms.

7304. (1) Except where customary in overseas transportation, a bill of lading must not be issued in a set of parts. The issuer is liable for damages caused by violation of this subdivision.

(2) Where a bill of lading is lawfully drawn in a set of parts, each of which is numbered and expressed to be valid only if the goods have not been delivered against any other part, the whole of the parts constitute one bill.

(3) Where a bill of lading is lawfully issued in a set of parts and different parts are negotiated to different persons, the title of the holder to whom the first due negotiation is made prevails as to both the document and the goods even though any later holder may have received the goods from the carrier in good faith and discharged the carrier's obligation by surrender of his part.

(4) Any person who negotiates or transfers a single part of a bill of lading drawn in a set is liable to holders of that part as if it were the whole set.

(5) The bailee is obliged to deliver in accordance with Chapter 4 of this division against the first presented part of a bill of lading lawfully drawn in a set. Such delivery discharges the bailee's obligation on the whole bill.

7305 (1) Instead of issuing a bill of lading to the consignor at the place of shipment a carrier may at the request of the consignor procure the bill to be issued at destination or at any other place designated in the request.

(2) Upon request of anyone entitled as against the carrier to control the goods while in transit and on surrender of any outstanding bill of lading or other receipt covering such goods, the issuer may procure a substitute bill to be issued at any place designated in the request.

7306. An unauthorized alteration or filling in of a blank in a bill of lading leaves the bill enforceable according to its original tenor.

7307. (1) A carrier has a lien on the goods covered by a bill of lading for charges subsequent to the date of its receipt of the goods for storage or transportation (including demurrage and terminal charges) and for expenses necessary for preservation of the goods incident to their transportation or reasonably incurred in their sale pursuant to law. But against a purchaser for value of a negotiable bill of lading a carrier's lien is limited to charges stated in the bill or the applicable tariffs, or if no charges are stated then to a reasonable charge.

(2) A lien for charges and expenses under subdivision (1) on goods which the carrier was required by law to receive for transportation is effective against the consignor or any person entitled to the goods unless the carrier had notice that the consignor lacked authority to subject the goods to such charges and expenses. Any other lien under subdivision (1) is effective against the consignor and any person who permitted the bailor to have control or possession of the goods unless the carrier had notice that the bailor lacked such authority.

(3) A carrier loses his lien on any goods which he voluntarily delivers or which he unjustifiably refuses to deliver.

7308. (1) A carrier's lien may be enforced by public or private sale of the goods, in bloc or in parcels, at any time or place and on any terms which are commercially reasonable, after notifying all persons known to claim an interest in the goods. Such notification must include a statement of the amount due, the nature of the proposed sale and the time and place of any public sale The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the carrier is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. If the carrier either sells the goods in the usual manner in any recognized market therefor or if he sells at the price current in such market at the time of his sale or if he has otherwise sold in conformity with commercially reasonable practices among dealers in the type of goods sold he has sold in a commercially reasonable manner. A sale of more goods than apparently necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable except in cases covered by the preceding sentence.

(2) Before any sale pursuant to this section any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred under this section. In that event the goods must not be sold, but must

be retained by the carrier subject to the terms of the bill and this division.

(3) The carrier may buy at any public sale pursuant to this section.

(4) A purchaser in good faith of goods sold to enforce a carrier's lien takes the goods free of any rights of persons against whom the lien was valid, despite noncompliance by the carrier with the requirements of this section.

(5) The carrier may satisfy his lien from the proceeds of any sale pursuant to this section but must hold the balance, if any, for delivery on demand to any person to whom he would have been bound to deliver the goods.

(6) The rights provided by this section shall be in addition to all other rights allowed by law to a creditor against his debtor.

(7) A carrier's lien may be enforced in accordance with either subdivision (1) or the procedure set forth in subdivision (2) of Section 7210.

(8) The carrier is liable for damages caused by failure to comply with the requirements for sale under this section and in case of willful violation is liable for conversion.

7309. (1) A carrier who issues a bill of lading whether negotiable or nonnegotiable must exercise the degree of care in relation to the goods which a reasonably careful man would exercise under like circumstances. This subdivision does not repeal or change any law or rule of law which imposes liability upon a common carrier for damages not caused by its negligence.

(2) Damages may be limited by a provision that the carrier's liability shall not exceed a value stated in the document if the carrier's rates are dependent upon value and the consignor by the carrier's tariff is afforded an opportunity to declare a higher value or a value as lawfully provided in the tariff, or where no tariff is filed he is otherwise advised of such opportunity; but no such limitation is effective with respect to the carrier's liability for conversion to its own use.

(3) Reasonable provisions as to the time and manner of presenting claims and instituting actions based on the shipment may be included in a bill of lading or tariff.

CHAPTER 4. WAREHOUSE RECEIPTS AND BILLS OF LADING: GENERAL OBLIGATIONS

7401. The obligations imposed by this division on an issuer apply to a document of title regardless of the fact that

(a) The document may not comply with the requirements of this division or of any other law or regulation regarding its issue, form or content; or

(b) The issuer may have violated laws regulating the conduct of his business; or

(c) The goods covered by the document were owned by the bailee at the time the document was issued; or

(d) The person issuing the document does not come within the definition of warehouseman if it purports to be a warehouse receipt.

7402. Neither a duplicate nor any other document of title purporting to cover goods already represented by an outstanding document of the same issuer confers any right in the goods, except as provided in the case of bills in a set, overissue of documents for fungible goods and substitutes for lost, stolen or destroyed documents. But the issuer is liable for damages caused by his overissue or failure to identify a duplicate document as such by conspicuous notation on its face.

7403. (1) The bailee must deliver the goods to a person entitled under the document who complies with subdivisions (2) and (3), unless and to the extent that the bailee establishes any of the following:

(a) Delivery of the goods to a person whose receipt was rightful as against the claimant;

(b) Damage to or delay, loss or destruction of the goods for which the bailee is not liable, but the burden of establishing negligence in case of damage or destruction by fire is on the person entitled under the document;

(c) Previous sale or other disposition of the goods in lawful enforcement of a lien or on warehouseman's lawful termination of storage;

(d) The exercise by a seller of his right to stop delivery pursuant to the provisions of the division on sales (Section 2705);

(e) A diversion, reconsignment or other disposition pursuant to the provisions of this division (Section 7303) or tariff regulating such right;

(f) Release, satisfaction or any other fact affording a personal defense against the claimant;

(g) Any other lawful excuse.

(2) A person claiming goods covered by a document of title must satisfy the bailee's lien where the bailee so requests or where the bailee is prohibited by law from delivering the goods until the charges are paid.

(3) The person claiming must surrender for cancellation or notation of partial deliveries any outstanding negotiable document covering the goods, and the bailee must cancel the document or conspicuously note the partial delivery thereon or be liable to any person to whom the document is duly negotiated.

(4) "Person entitled under the document" means holder in the case of a negotiable document, or the person to whom delivery is to be made by the terms of or pursuant to written instructions under a nonnegotiable document.

7404. A bailee who in good faith including observance of reasonable commercial standards has received goods and delivered or otherwise disposed of them according to the terms of the document of title or pursuant to this division is not liable therefor. This rule applies even though the person from whom he received the goods had no authority to procure the

document or to dispose of the goods and even though the person to whom he delivered the goods had no authority to receive them.

Chapter 5. Warehouse Receipts and Bills of Lading: Negotiation and Transfer

7501. (1) A negotiable document of title running to the order of a named person is negotiated by his indorsement and delivery. After his indorsement in blank or to bearer any person can negotiate it by delivery alone.

(2) (a) A negotiable document of title is also negotiated by delivery alone when by its original terms it runs to bearer.

(b) When a document running to the order of a named person is delivered to him the effect is the same as if the document had been negotiated.

(3) Negotiation of a negotiable document of title after it has been indorsed to a specified person requires indorsement by the special indorsee as well as delivery.

(4) A negotiable document of title is "duly negotiated" when it is negotiated in the manner stated in this section to a holder who purchases it in good faith without notice of any defense against or claim to it on the part of any person and for value.

(5) Indorsement of a nonnegotiable document neither makes it negotiable nor adds to the transferee's rights.

(6) The naming in a negotiable bill of a person to be notified of the arrival of the goods does not limit the negotiability of the bill nor constitute notice to a purchaser thereof of any interest of such person in the goods.

7502. (1) Subject to the following section and to the provisions of Section 7205 on fungible goods, a holder to whom a negotiable document of title has been duly negotiated acquires thereby:

(a) Title to the document;

(b) Title to the goods;

(c) All rights accruing under the law of agency or estoppel, including rights to goods delivered to the bailee after the document was issued; and

(d) The direct obligation of the issuer to hold or deliver the goods according to the terms of the document free of any defense or claim by him except those arising under the terms of the document or under this division.

(2) Subject to the following section, title and rights so acquired are not defeated by any stoppage of the goods represented by the document or by surrender of such goods by the bailee, and are not impaired even though the negotiation or any prior negotiation constituted a breach of duty or even though any person has been deprived of possession of the document by misrepresentation, fraud, accident, mistake, duress, loss, theft or conversion, or even though a previous sale or

other transfer of the goods or document has been made to a third person.

7503. (1) A document of title confers no right in goods against a person who before issuance of the document had a legal interest or a perfected security interest in them and who neither

(a) Delivered nor entrusted them nor any document of title covering them to the bailor or his nominee with actual or apparent authority to ship, store or sell or with power to obtain delivery under this division (Section 7403) or with power of disposition under this code (Sections 2403 and 9307) or other statute or rule of law.

(3) Title to goods based upon a bill of lading issued to a freight forwarder is subject to the rights of anyone to whom a bill issued by the freight forwarder is duly negotiated; but delivery by the carrier in accordance with Chapter 4 of this division pursuant to its own bill of lading discharges the carrier's obligation to deliver.

7504. (1) A transferee of a document, whether negotiable or nonnegotiable, to whom the document has been delivered but not duly negotiated, acquires the title and rights which his transferor had or had actual authority to convey.

(2) In the case of a nonnegotiable document, until but not after the bailee receives notification of the transfer, the rights of the transferee may be defeated

(a) By those creditors of the transferor who could treat the sale as void under Section 2402; or

(b) By a buyer from the transferor in ordinary course of business if the bailee has delivered the goods to the buyer or received notification of his rights; or

(c) As against the bailee by good faith dealings of the bailee with the transferor.

(3) A diversion or other change of shipping instructions by the consignor in a nonnegotiable bill of lading which causes the bailee not to deliver to the consignee defeats the consignee's title to the goods if they have been delivered to a buyer in ordinary course of business and in any event defeats the consignee's rights against the bailee.

(4) Delivery pursuant to a nonnegotiable document may be stopped by a seller under Section 2705, and subject to the requirement of due notification there provided. A bailee honoring the seller's instructions is entitled to be indemnified by the seller against any resulting loss or expense.

7505. The indorsement of a document of title issued by a bailee does not make the indorser liable for any default by the bailee or by previous indorsers.

7506. The transferee of a negotiable document of title has a specifically enforceable right to have his transferor supply any necessary indorsement but the transfer becomes a negotiation only as of the time the indorsement is supplied.

7507. Where a person negotiates or transfers a document of title for value otherwise than as a mere intermediary or

secured party under the next following section, then unless otherwise agreed he warrants to his immediate purchaser only in addition to any warranty made in selling the goods

(a) That the document is genuine; and

(b) That he has no knowledge of any fact which would impair its validity or worth; and

(c) That his negotiation or transfer is rightful and fully effective with respect to the title to the document and the goods it represents.

7508. A collecting bank or other intermediary known to be entrusted with documents on behalf of another or with collection of a draft or other claim against delivery of documents, and a holder of documents for security, warrant by delivery of documents against payment only their own good faith and authority. This rule applies even though the intermediary has purchased or made advances against the claim or draft to be collected.

7509. The question whether a document is adequate to fulfill the obligations of a contract for sale or the conditions of a credit is governed by the divisions on sales (Division 2) and on letters of credit (Division 5).

Chapter 6. Warehouse Receipts and Bills of Lading: Miscellaneous Provisions

7601. (1) If a document has been lost, stolen or destroyed, a court may order delivery of the goods or issuance of a substitute document and the bailee may without liability to any person comply with such order. If the document was negotiable the claimant must post security approved by the court to indemnify any person who may suffer loss as a result of nonsurrender of the document. If the document was not negotiable, such security may be required at the discretion of the court. The court may also in its discretion order payment of the bailee's reasonable costs and counsel fees.

(2) A bailee who without court order delivers goods to a person claiming under a missing negotiable document is liable to any person injured thereby, and if the delivery is not in good faith becomes liable for conversion. Delivery in good faith is not conversion if made in accordance with a filed classification or tariff or, where no classification or tariff is filed, if the claimant posts security with the bailee in an amount at least double the value of the goods at the time of posting to indemnify any person injured by the delivery who files a notice of claim within one year after the delivery.

7602. Except where the document was originally issued upon delivery of the goods by a person who had no power to dispose of them, no lien attaches by virtue of any judicial process to goods in the possession of a bailee for which a negotiable document of title is outstanding unless the document be first surrendered to the bailee or its negotiation enjoined, and the bailee shall not be compelled to deliver the goods pursuant

to process until the document is surrendered to him or impounded by the court. One who purchases the document for value without notice of the process or injunction takes free of the lien imposed by judicial process.

7603. If more than one person claims title or possession of the goods, the bailee or warehouseman is excused from delivery until he has had a reasonable time to ascertain the validity of the adverse claims or to bring an action to compel all claimants to interplead and may compel such interpleader, either in defending an action for nondelivery of the goods, or by original action, whichever is appropriate.

DIVISION 8. INVESTMENT SECURITIES

CHAPTER 1. SHORT TITLE AND GENERAL MATTERS

8101. This division shall be known and may be cited as Uniform Commercial Code—Investment Securities.

8102. (1) In this division unless the context otherwise requires

(a) A "security" is an instrument which

(i) Is issued in bearer or registered form; and

(ii) Is of a type commonly dealt in upon securities exchanges or markets or commonly recognized in any area in which it is issued or dealt in as a medium for investment; and

(iii) Is either one of a class or series or by its terms is divisible into a class or series of instruments; and

(iv) Evidences a share, participation or other interest in property or in an enterprise or evidences an obligation of the issuer.

(b) A writing which is a security is governed by this division and not by Uniform Commercial Code—Commercial Paper even though it also meets the requirements of that division. This division does not apply to money.

(c) A security is in "registered form" when it specifies a person entitled to the security or to the rights it evidences and when its transfer may be registered upon books maintained for that purpose by or on behalf of an issuer or the security so states.

(d) A security is in "bearer form" when it runs to bearer according to its terms and not by reason of any indorsement.

(3) A "subsequent purchaser" is a person who takes other than by original issue.

(4) Other definitions applying to this division or to specified chapters thereof and the sections in which they appear are:

"Adverse claim." Section 8301.

"Bona fide purchaser." Section 8302.

"Broker." Section 8303.

"Guarantee of the signature." Section 8402.

"Intermediary Bank." Section 4105.

"Issuer." Section 8201.

"Overissue." Section 8104.

(5) In addition Division 1 contains general definitions and principles of construction and interpretation applicable throughout this division.

(6) A "clearing corporation" is a corporation, all of the capital stock of which is held by or for a national securities exchange registered under a statute of the United States such as the Securities Exchange Act of 1934.

(7) A "custodian bank" is any bank or trust company which is supervised by state or federal authority having supervision over banks and which is acting as custodian for a clearing corporation.

8103. A lien upon a security in favor of an issuer thereof is valid against a purchaser only if the right of the issuer to such lien is noted conspicuously on the security.

8104. (1) The provisions of this division which validate a security or compel its issue or reissue do not apply to the extent that validation, issue or reissue would result in overissue; but

(a) If an identical security which does not constitute an overissue is reasonably available for purchase, the person entitled to issue or validation may compel the issuer to purchase and deliver such a security to him against surrender of the security, if any, which he holds; or

(b) If a security is not so available for purchase, the person entitled to issue or validation may recover from the issuer the price he or the last purchaser for value paid for it with interest from the date of his demand.

(2) "Overissue" means the issue of securities in excess of the amount which the issuer has corporate power to issue.

8105. (2) In any action on a security

(a) Unless specifically denied in the pleadings, each signature on the security or in a necessary indorsement is admitted;

(b) When the effectiveness of a signature is put in issue the burden of establishing it is on the party claiming under the signature but the signature is presumed to be genuine or authorized;

(c) When signatures are admitted or established production of the instrument entitles a holder to recover on it unless the defendant establishes a defense or a defect going to the validity of the security; and

(d) After it is shown that a defense or defect exists the plaintiff has the burden of establishing that he or some person under whom he claims is a person against whom the defense or defect is ineffective (Section 8202).

8106. (1) The validity of a security and the duty of an issuer to register a transfer (Section 8401) are governed by the law of the jurisdiction of organization of the issuer or, in the case of any national bank or other corporation organized under the laws of the United States, by the law of the jurisdiction in which such bank or other corporation has its principal place of business. (See Section 8107)

(2) Except as provided in subdivision (1), the rights and duties of the issuer with respect to registration of transfer are governed by this division, if the books upon which such transfer is sought or made are regularly kept within this State.

(3) Subject to the provisions of subdivisions (1) and (2), the provisions of this division apply to any issue or transfer of a security made in this State.

(4) This division applies to the rights and duties of a person other than the corporation and its transfer agents with regard to acts and omissions in this State in connection with the acquisition, disposition, assignment or transfer of a security by or to a fiduciary and of a person who guarantees in this State the signature of a fiduciary in connection with such a transaction.

8107. Nothing in this division shall be construed to modify any of the provisions of the Corporate Securities Law the Insurance Code, the Financial Code, or the Public Utilities Code.

CHAPTER 2. ISSUE—ISSUER

8201. (1) With respect to obligations on or defenses to a security "issuer" includes a person who

(a) Places or authorizes the placing of his name on a security (otherwise than as authenticating trustee, registrar, transfer agent or the like) to evidence that it represents a share, participation or other interest in his property or in an enterprise or to evidence his duty to perform an obligation evidenced by the security; or

(b) Directly or indirectly creates fractional interests in his rights or property which fractional interests are evidenced by securities; or

(c) Becomes responsible for or in place of any other person described as an issuer in this section.

(2) With respect to obligations on or defenses to a security a guarantor is an issuer to the extent of his guaranty whether or not his obligation is noted on the security.

(3) With respect to registration of transfer (Chapter 4 of this division) "issuer" means a person on whose behalf transfer books are maintained.

8202. (1) Even against a purchaser for value and without notice, the terms of a security include those stated on the security and those made part of the security by reference to another instrument, indenture or document or to a constitution, statute, ordinance, rule, regulation, order or the like to the extent that the terms so referred to do not conflict with the stated terms. Such a reference does not of itself charge a purchaser for value with notice of a defect going to the validity of the security even though the security expressly states that a person accepting it admits such notice.

(2) (a) A security other than one issued by a government or governmental agency or unit even though issued with a

defect going to its validity is valid in the hands of a purchaser for value and without notice of the particular defect unless the defect involves a violation of constitutional provisions in which case the security is valid in the hands of a subsequent purchaser for value and without notice of the defect;

(b) The rule of paragraph (a) applies to an issuer which is a government or governmental agency or unit only if either there has been substantial compliance with the legal requirements governing the issue or the issuer has received a substantial consideration for the issue as a whole or for the particular security and a stated purpose of the issue is one for which the issuer has power to borrow money or issue the security.

(3) Except as otherwise provided in the case of certain unauthorized signatures on issue (Section 8205), lack of genuineness of a security is a complete defense even against a purchaser for value and without notice.

(4) All other defenses of the issuer including nondelivery and conditional delivery of the security are ineffective against a purchaser for value who has taken without notice of the particular defense.

(5) Nothing in this section shall be construed to affect the right of a party to a "when, as and if issued" or a "when distributed" contract to cancel the contract in accordance with its terms.

8203. (1) After an act or event which creates a right to immediate performance of the principal obligation evidenced by the security or which sets a date on or after which the security is to be presented or surrendered for redemption or exchange, a purchaser is charged with notice of any defect in its issue or defense of the issuer

(a) If the act or event is one requiring the payment of money or the delivery of securities or both on presentation or surrender of the security and such funds or securities are available on the date set for payment or exchange and he takes the security more than one year after that date; and

(b) If the act or event is not covered by paragraph (a) and he takes the security more than two years after the date set for surrender or presentation or the date on which such performance became due.

(2) A call which has been revoked is not within subdivision (1).

8204. Unless noted conspicuously on the security a restriction on transfer imposed by the issuer even though otherwise lawful is ineffective except against a person with actual knowledge of it.

8205. An unauthorized signature placed on a security prior to or in the course of issue is ineffective except that the signature is effective in favor of a purchaser for value and without notice of the lack of authority if the signing has been done by

(a) An authenticating trustee, registrar, transfer agent or other person entrusted by the issuer with the signing of the security or of similar securities or their immediate preparation for signing; or

(b) An employee of the issuer or of any of the foregoing entrusted with responsible handling of the security.

8206. (1) Where a security contains the signatures necessary to its issue or transfer but is incomplete in any other respect

(a) Any person may complete it by filling in the blanks as authorized; and

(b) Even though the blanks are incorrectly filled in, the security as completed is enforceable by a purchaser who took it for value and without notice of such incorrectness.

(2) A complete security which has been improperly altered even though fraudulently remains enforceable but only according to its original terms.

8207. (1) Prior to due presentment for registration of transfer of a security in registered form the issuer or indenture trustee may treat the registered owner as the person exclusively entitled to vote, to receive notifications and otherwise to exercise all the rights and powers of an owner.

(2) Nothing in this division shall be construed to affect the liability of the registered owner of a security for calls, assessments or the like.

8208. (1) A person placing his signature upon a security as authenticating trustee, registrar, transfer agent or the like warrants to a purchaser for value without notice of the particular defect that

(a) The security is genuine; and

(b) His own participation in the issue of the security is within his capacity and within the scope of the authorization received by him from the issuer; and

(c) He has reasonable grounds to believe that the security is in the form and within the amount the issuer is authorized to issue.

(2) Unless otherwise agreed, a person by so placing his signature does not assume responsibility for the validity of the security in other respects.

CHAPTER 3. PURCHASE

8301. (1) Upon delivery of a security the purchaser acquires the rights in the security which his transferor had or had actual authority to convey except that a purchaser who has himself been a party to any fraud or illegality affecting the security or who as a prior holder had notice of an adverse claim cannot improve his position by taking from a later bona fide purchaser. "Adverse claim" indicates a claim that a transfer was or would be wrongful or that a particular adverse person is the owner of or has an interest in the

security and in the case of a purchase of a limited interest includes only a claim adverse to the interest purchased.

(2) A bona fide purchaser in addition to acquiring the rights of a purchaser also acquires the security free of any adverse claim.

(3) A purchaser of a limited interest acquires rights only to the extent of the interest purchased.

8302. A "bona fide purchaser" is a purchaser for value in good faith and without notice of any adverse claim who takes delivery of a security in bearer form or of one in registered form issued to him or indorsed to him or in blank or who takes delivery in the manner specified in Section 8320.

8303. "Broker" means a person engaged for all or part of his time in the business of buying and selling securities, who in the transaction concerned acts for, or buys a security from or sells a security to a customer. Nothing in this chapter determines the capacity in which a person acts for purposes of any other statute or rule to which such person is subject.

8304. (1) A purchaser (including a broker for the seller or buyer but excluding an intermediary bank) of a security is charged with notice of adverse claims if

(a) The security whether in bearer or registered form has been indorsed "for collection" or "for surrender" or for some other purpose not involving transfer; or

(b) The security is in bearer form and has on it an unambiguous statement that is the property of a person other than the transferor. The mere writing of a name on a security is not such a statement.

(2) The fact that the purchaser (including a broker for the seller or buyer) has notice that the security is held for a third person or is registered in the name of or indorsed by a fiduciary does not create a duty of inquiry into the rightfulness of the transfer or constitute notice of adverse claims. If, however, the purchaser (excluding an intermediary bank) has knowledge that the proceeds are being used or that the transaction is wrongfully for the individual benefit of the fiduciary or otherwise in breach of duty, the purchaser is charged with notice of adverse claims.

8305. An act or event which creates a right to immediate performance of the principal obligation evidenced by the security or which sets a date on or after which the security is to be presented or surrendered for redemption or exchange does not of itself constitute any notice of adverse claims except in the case of a purchase

(a) After one year from any date set for such presentment or surrender for redemption or exchange; or

(b) After six months from any date set for payment of money against presentation or surrender of the security if funds are available for payment on that date.

8306. (1) A person who presents a security for registration of transfer or for payment or exchange warrants to the issuer that he is entitled to the registration, payment or ex-

change. But a purchaser for value without notice of adverse claims who receives a new, reissued or reregistered security on registration of transfer warrants only that he has no knowledge of any unauthorized signature (Section 8311) in a necessary indorsement.

(2) A person by transferring a security to a purchaser for value warrants only that

(a) His transfer is effective and rightful; and

(b) The security is genuine and has not been materially altered; and

(c) He knows no fact which might impair the validity of the security.

(3) Where a security is delivered by an intermediary known to be entrusted with delivery of the security on behalf of another or with collection of a draft or other claim against such delivery, the intermediary by such delivery warrants only his own good faith and authority even though he has purchased or made advances against the claim to be collected against the delivery.

(4) A pledgee or other holder for security who redelivers the security received, or after payment and on order of the debtor delivers that security to a third person makes only the warranties of an intermediary under subdivision (3).

(5) A broker gives to his customer and to the issuer and a purchaser the warranties provided in this section and has the rights and privileges of a purchaser under this section. The warranties of and in favor of the broker acting as an agent are in addition to applicable warranties given by and in favor of his customer.

8307. Where a security in registered form has been delivered to a purchaser without a necessary indorsement he may become a bona fide purchaser only as of the time the indorsement is supplied, but against the transferor the transfer is complete upon delivery and the purchaser has a specifically enforceable right to have any necessary indorsement supplied.

8308. (1) An indorsement of a security in registered form is made when an appropriate person signs on it or on a separate document an assignment or transfer of the security or a power to assign or transfer it or when the signature of such person is written without more upon the back of the security.

(2) An indorsement may be in blank or special. An indorsement in blank includes an indorsement to bearer. A special indorsement specifies the person to whom the security is to be transferred, or who has power to transfer it. A holder may convert a blank indorsement into a special indorsement.

(3) "An appropriate person" in subdivision (1) means

(a) The person specified by the security or by special indorsement to be entitled to the security; or

(b) Where the person so specified is described as a fiduciary but is no longer serving in the described capacity—either that person or his successor; or

(d) Where the person so specified is an individual and is without capacity to act by virtue of death, incompetence, infancy or otherwise—his executor, administrator, guardian or like fiduciary; or

(e) Where the security or indorsement so specifies more than one person as tenants by the entirety or with right of survivorship and by reason of death all cannot sign—the survivor or survivors; or

(f) A person having power to sign under applicable law or controlling instrument; or

(g) To the extent that any of the foregoing persons may act through an agent—his authorized agent.

(4) Unless otherwise agreed the indorser by his indorsement assumes no obligation that the security will be honored by the issuer.

(5) An indorsement purporting to be only of part of a security representing units intended by the issuer to be separately transferable is effective to the extent of the indorsement.

(6) Whether the person signing is appropriate is determined as of the date of signing and an indorsement by such a person does not become unauthorized for the purposes of this division by virtue of any subsequent change of circumstances.

(7) Failure of a fiduciary to comply with a controlling instrument or with the law of the state having jurisdiction of the fiduciary relationship, including any law requiring the fiduciary to obtain court approval of the transfer, does not render his indorsement unauthorized for the purposes of this division.

8309. An indorsement of a security whether special or in blank does not constitute a transfer until delivery of the security on which it appears or if the indorsement is on a separate document until delivery of both the document and the security.

8310. An indorsement of a security in bearer form may give notice of adverse claims (Section 8304) but does not otherwise affect any right to registration the holder may possess.

8311. Unless the owner has ratified an unauthorized indorsement or is otherwise precluded from asserting its ineffectiveness

(a) He may assert its ineffectiveness against the issuer or any purchaser other than a purchaser for value and without notice of adverse claims who has in good faith received a new, reissued or reregistered security on registration of transfer; and

(b) An issuer who registers the transfer of a security upon the unauthorized indorsement is subject to liability for improper registration (Section 8404).

8312. (1) Any person guaranteeing a signature of an indorser of a security warrants that at the time of signing

(a) The signature was genuine; and

(b) The signer was an appropriate person to indorse (Section 8308); and

(c) The signer had legal capacity to sign.

But the guarantor does not otherwise warrant the rightfulness of the particular transfer.

(2) Any person may guarantee an indorsement of a security and by so doing warrants not only the signature (subdivision 1) but also the rightfulness of the particular transfer in all respects. But no issuer may require a guarantee of indorsement as a condition to registration of transfer.

(3) The foregoing warranties are made to any person taking or dealing with the security in reliance on the guarantee and the guarantor is liable to such person for any loss resulting from breach of the warranties.

8313. (1) Delivery to a purchaser occurs when

(a) He or a person designated by him acquires possession of a security; or

(b) His broker acquires possession of a security specially indorsed to or issued in the name of the purchaser; or

(c) His broker sends him confirmation of the purchase and also by book entry or otherwise identifies a specific security in the broker's possession as belonging to the purchaser; or

(d) With respect to an identified security to be delivered while still in the possession of a third person when that person acknowledges that he holds for the purchaser; or

(e) Appropriate entries on the books of a clearing corporation are made under Section 8320.

(2) The purchaser is the owner of a security held for him by his broker, but is not the holder except as specified in paragraphs (b), (c) and (e) of subdivision (1) of this section. Where a security is part of a fungible bulk, the purchaser is the owner of a proportionate property interest in the fungible bulk and is a bona fide purchaser if when the broker takes delivery as a holder neither he nor the purchaser has notice of any adverse claim and the purchaser takes his interest for value.

(3) Notice of an adverse claim to the broker or to the purchaser after the broker takes delivery as a holder without notice of any adverse claim is not notice of the adverse claim to either the broker or the purchaser.

8314. (1) Unless otherwise agreed where a sale of a security is made on an exchange or otherwise through brokers

(a) The selling customer fulfills his duty to deliver when he places such a security in the possession of the selling broker or of a person designated by the broker or if requested causes an acknowledgment to be made to the selling broker that it is held for him; and

(b) The selling broker including a correspondent broker acting for a selling customer fulfills his duty to deliver by placing the security or a like security in the possession of the buying broker or a person designated by him or by effecting clearance of the sale in accordance with the rules of the exchange on which the transaction took place.

(2) Except as otherwise provided in this section and unless otherwise agreed, a transferor's duty to deliver a security under a contract of purchase is not fulfilled until he places the security in form to be negotiated by the purchaser in the possession of the purchaser or of a person designated by him or at the purchaser's request causes an acknowledgment to be made to the purchaser that it is held for him. Unless made on an exchange a sale to a broker purchasing for his own account is within this subdivision and not within subdivision (1).

8315. (1) Any person against whom the transfer of a security is wrongful for any reason, including lack of delivery or his incapacity, may against any purchaser except a bona fide purchaser reclaim possession of the security or obtain possession of any new security evidencing all or part of the same rights or have damages.

(2) If the transfer is wrongful because of an unauthorized indorsement, the owner may also reclaim or obtain possession of the security or new security even from a bona fide purchaser if the ineffectiveness of the purported indorsement can be asserted against him under the provisions of this division on unauthorized indorsements (Section 8311).

(3) The right to obtain or reclaim possession of a security may be specifically enforced and its transfer enjoined and the security impounded pending the litigation.

8316. Unless otherwise agreed the transferor must on due demand supply his purchaser with any proof of his authority to transfer or with any other requisite which may be necessary to obtain registration of the transfer of the security but if the transfer is not for value a transferor need not do so unless the purchaser furnishes the necessary expenses. Failure to comply with a demand made within a reasonable time gives the purchaser the right to reject or rescind the transfer.

8317. (1) No attachment or levy upon a security or any share or other interest evidenced thereby which is outstanding shall be valid until: (a) the security is actually seized by the officer making the attachment or levy, or (b) in the case of a security held in escrow pursuant to the provisions of the Corporate Securities Law, a copy of the writ and a notice that the securities are attached or levied upon in pursuance of such writ is served upon the escrow holder; but a security which has been surrendered to the issuer may be attached or levied upon at the source.

(2) A creditor whose debtor is the owner of a security shall be entitled to such aid from courts of appropriate jurisdiction, by injunction or otherwise, in reaching such security or in satisfying the claim by means thereof as is allowed at law or in equity in regard to property which cannot readily be attached or levied upon by ordinary legal process.

8318. An agent or bailee who in good faith (including observance of reasonable commercial standards if he is in the business of buying, selling or otherwise dealing with securities) has received securities and sold, pledged or delivered

them according to the instructions of his principal is not liable for conversion or for participation in breach of fiduciary duty although the principal had no right to dispose of them.

8319. (1) A contract for the sale of securities is not enforceable by way of action or defense unless

(a) There is some writing signed by the party against whom enforcement is sought or by his authorized agent or broker sufficient to indicate that a contract has been made for sale of a stated quantity of described securities at a defined or stated price; or

(b) Delivery of the security has been accepted or payment has been made but the contract is enforceable under this provision only to the extent of such delivery or payment; or

(c) Within a reasonable time a writing in confirmation of the sale or purchase and sufficient against the sender under paragraph (a) has been received by the party against whom enforcement is sought and he has failed to send written objection to its contents within 10 days after its receipt.

(2) A contract relating to the purchase or sale of securities between a broker acting as an agent and his principal is not subject to the provisions of this section.

8320. (1) If a security

(a) Is in the custody of a clearing corporation or of a custodian bank or a nominee of either subject to the instructions of the clearing corporation; and

(b) Is in bearer form or indorsed in blank by an appropriate person or registered in the name of the clearing corporation or custodian bank or a nominee of either; and

(c) Is shown on the account of a transferor or pledgor on the books of the clearing corporation;

then, in addition to other methods, a transfer or pledge of the security or any interest therein may be effected by the making of appropriate entries on the books of the clearing corporation reducing the account of the transferor or pledgor and increasing the account of the transferee or pledgee by the amount of the obligation or the number of shares or rights transferred or pledged.

(2) Under this section entries may be with respect to like securities or interests therein as a part of a fungible bulk and may refer merely to a quantity of a particular security without reference to the name of the registered owner, certificate or bond number or the like and, in appropriate cases, may be on a net basis taking into account other transfers or pledges of the same security.

(3) A transfer or pledge under this section has the effect of a delivery of a security in bearer form or duly indorsed in blank (Section 8301) representing the amount of the obligation or the number of shares or rights transferred or pledged and if a pledge or the creation of a security interest is intended, the making of entries has the effect of a taking of delivery by the pledgee or a secured party (Sections 9304 and

9305). A transferee or pledgee under this section is a holder.

(4) A transfer or pledge under this section does not constitute a registration of transfer under Chapter 4 of this division.

(5) That entries made on the books of the clearing corporation as provided in subdivision (1) are not appropriate does not affect the validity or effect of the entries nor does it affect the liabilities or obligations of the clearing corporation to any person adversely affected thereby.

Chapter 4. Registration

8401. (1) Where a security in registered form is presented to the issuer with a request to register transfer, the issuer is under a duty to register the transfer as requested if

(a) The security is indorsed by the appropriate person or persons (Section 8308); and

(b) Reasonable assurance is given that those indorsements are genuine and effective (Section 8402); and

(c) The issuer has no duty to inquire into adverse claims or has discharged any such duty (Section 8403); and

(d) Any applicable law relating to the collection of taxes has been complied with; and

(2) Where an issuer is under a duty to register a transfer of a security the issuer is liable to the person presenting it for registration or his principal for loss resulting from any unreasonable delay in registration or from failure or refusal to register the transfer, but in any such case the plaintiff must allege and prove that the transfer requested was in fact rightful or that he was a bona fide purchaser.

8402. (1) The issuer may require the following assurance that each necessary indorsement (Section 8308) is genuine and effective.

(a) In all cases, a guarantee of the signature (subdivision (1) of Section 8312) of the person indorsing; and

(b) Where the indorsement is by an agent, appropriate assurance of authority to sign;

(c) Where the indorsement is by a fiduciary, appropriate evidence of appointment or incumbency;

(d) Where there is more than one fiduciary, reasonable assurance that all who are required to sign have done so;

(e) Where the indorsement is by a person not covered by any of the foregoing, assurance appropriate to the case corresponding as nearly as may be to the foregoing.

(2) A "guarantee of the signature" in subdivision (1) means a guarantee signed by or on behalf of a person reasonably believed by the issuer to be responsible. The issuer may adopt standards with respect to responsibility provided such standards are not manifestly unreasonable.

(3) "Appropriate evidence of appointment or incumbency" in subdivision (1) means

(a) In the case of a fiduciary appointed or qualified by a court, a certificate issued by or under the direction or supervision of that court or an officer thereof and dated within 60 days before the date of presentation for transfer; or

(b) In any other case, a copy of a document showing the appointment or a certificate issued by or on behalf of a person reasonably believed by the issuer to be responsible or, in the absence of such a document or certificate, other evidence reasonably deemed by the issuer to be appropriate. The issuer may adopt standards with respect to such evidence provided such standards are not manifestly unreasonable. The issuer is not charged with notice of the contents of any document obtained pursuant to this paragraph (b) except to the extent that the contents relate directly to the appointment or incumbency.

8403. (1) An issuer to whom a security is presented for registration is under a duty to inquire into adverse claims if

(a) A written notification of an adverse claim is received at a time and in a manner which affords the issuer a reasonable opportunity to act on it prior to the issuance of a new, reissued or reregistered security and the notification identifies the claimant, the registered owner and the issue of which the security is a part and provides an address for communications directed to the claimant.

(2) The issuer may discharge any duty of inquiry by any reasonable means, including notifying an adverse claimant by registered or certified mail at the address furnished by him or if there be no such address at his residence or regular place of business that the security has been presented for registration of transfer by a named person, and that the transfer will be registered unless within 30 days from the date of mailing the notification, either

(a) An appropriate restraining order, injunction or other process issues from a court of competent jurisdiction; or

(b) An indemnity bond sufficient in the issuer's judgment to protect the issuer and any transfer agent, registrar or other agent of the issuer involved, from any loss which it or they may suffer by complying with the adverse claim is filed with the issuer.

(3) Unless an issuer receives notification of an adverse claim under subdivision (1) of this section, where a security presented for registration is indorsed by the appropriate person or persons the issuer is under no duty to inquire into adverse claims.

(4) An issuer registering a security in the name of a person who is a fiduciary or who is described as a fiduciary is not bound to inquire into the existence, extent, or correct description of the fiduciary relationship and thereafter the issuer may assume without inquiry that the newly registered owner continues to be the fiduciary until the issuer receives written notice that the fiduciary is no longer acting as such with respect to the particular security.

(5) An issuer registering transfer on an indorsement by a fiduciary is not bound to inquire whether the transfer is made in compliance with a controlling instrument or with the law of the state having jurisdiction of the fiduciary relationship, including any law requiring the fiduciary to obtain court approval of the transfer, even though the transfer is made on the indorsement of a fiduciary to the fiduciary himself or his nominee.

(6) The issuer is not charged with notice of the contents of any court record or file or other recorded or unrecorded document even though the document is in its possession and even though the transfer is made on the indorsement of a fiduciary to the fiduciary himself or to his nominee.

(7)(a) No person who participates in the acquisition, disposition, assignment or transfer of a security by or to a fiduciary including a person who guarantees the signature of the fiduciary is liable for participation in any breach of fiduciary duty by reason of failure to inquire whether the transaction involves such a breach unless it is shown that he acted with knowledge that the proceeds were being used or that the transaction was wrongfully for the individual benefit of the fiduciary or otherwise in breach of duty.

(b) If a corporation or transfer agent makes a transfer pursuant to an assignment by a fiduciary, a person who guaranteed the signature of the fiduciary is not liable on the guarantee to any person to whom the corporation or transfer agent by reason of subdivision (1) of Section 8404 incurs no liability.

(c) This subdivision (7) does not impose any liability upon the corporation or its transfer agent.

8404. (1) Except as otherwise provided in any law relating to the collection of taxes, the issuer is not liable to the owner or any other person suffering loss as a result of the registration of a transfer of a security if

(a) There were on or with the security the necessary indorsements (Section 8308); and

(b) The issuer had no duty to inquire into adverse claims or has discharged any such duty (Section 8403).

(2) Where an issuer has registered a transfer of a security to a person not entitled to it the issuer on demand must deliver a like security to the true owner unless

(a) The registration was pursuant to subdivision (1); or

(b) The owner is precluded from asserting any claim for registering the transfer under subdivision (1) of the following section; or

(c) Such delivery would result in overissue, in which case the issuer's liability is governed by Section 8104.

8405. (1) Where a security has been lost, apparently destroyed or wrongfully taken and the owner fails to notify the issuer of that fact within a reasonable time after he has notice of it and the issuer registers a transfer of the security before receiving such a notification, the owner is precluded from asserting against the issuer any claim for registering the trans-

fer under the preceding section or any claim to a new security under this section.

(2) Where the owner of a security claims that the security has been lost, destroyed or wrongfully taken, the issuer must issue a new security in place of the original security if the owner

(a) So requests before the issuer has notice that the security has been acquired by a bona fide purchaser; and

(b) Files with the issuer a sufficient indemnity bond; and

(c) Satisfies any other reasonable requirements imposed by the issuer.

(3) If, after the issue of the new security, a bona fide purchaser of the original security presents it for registration of transfer, the issuer must register the transfer unless registration would result in overissue, in which event the issuer's liability is governed by Section 8104. In addition to any rights on the indemnity bond, the issuer may recover the new security from the person to whom it was issued or any person taking under him except a bona fide purchaser.

8406. (1) Where a person acts as authenticating trustee, transfer agent, registrar, or other agent for an issuer in the registration of transfers of its securities or in the issue of new securities or in the cancellation of surrendered securities

(a) He is under a duty to the issuer to exercise good faith and due diligence in performing his functions; and

(b) He has with regard to the particular functions he performs the same obligation to the holder or owner of the security and has the same rights and privileges as the issuer has in regard to those functions.

(2) Notice to an authenticating trustee, transfer agent, registrar or other such agent is notice to the issuer with respect to the functions performed by the agent.

DIVISION 9. SECURED TRANSACTIONS; SALES OF ACCOUNTS, CONTRACT RIGHTS AND CHATTEL PAPER

CHAPTER 1. SHORT TITLE, APPLICABILITY AND DEFINITIONS

9101. This division shall be known and may be cited as Uniform Commercial Code—Secured Transactions.

9102. (1) Except as otherwise provided in Section 9103 on multiple state transactions and in Section 9104 on excluded transactions, this division applies so far as concerns any personal property and fixtures within the jurisdiction of this State

(a) To any transaction (regardless of its form) which is intended to create a security interest in personal property including goods, documents, instruments, general intangibles, chattel paper, accounts or contract rights; and also

(b) To any sale of accounts, contract rights or chattel paper; and also

(c) To any transaction (regardless of its form) which is intended to create a security interest in goods which are or later become "fixtures" under the law of this State, but as against third parties having or acquiring an interest in or a lien on the real property, the rights and duties of the parties to the secured transaction are governed by the law of this State relating to real property and fixtures.

(2) This division applies to security interests created by contract including pledge, assignment, chattel mortgage, chattel trust, trust deed, inventory lien, equipment trust, conditional sale, trust receipt, other lien or title retention contract and lease or consignment intended as security. This division does not apply to statutory liens except as provided in Section 9310.

(3) The application of this division to a security interest in a secured obligation is not affected by the fact that the obligation is itself secured by a transaction or interest to which this division does not apply.

(4) Notwithstanding anything to the contrary in this division, no nonpossessory security interest, other than a purchase money security interest, may be given or taken in or to the inventory of a retail merchant held for sale, except in or to inventory consisting of durable goods having a unit retail value of at least five hundred dollars ($500) or motor vehicles, house trailers, semitrailers, farm and construction machinery and repair parts thereof, or aircraft.

9103. (1) If the office where the assignor of accounts or contract rights keeps his records concerning them is in this State, the validity and perfection of a security interest therein and the possibility and effect of proper filing is governed by this division; otherwise by the law (including the conflict of laws rules) of the jurisdiction where such office is located.

(2) If the chief place of business of a debtor is in this State, this division governs the validity and perfection of a security interest and the possibility and effect of proper filing with regard to general intangibles or with regard to goods of a type which are normally used in more than one jurisdiction (such as automotive equipment, rolling stock, airplanes, roadbuilding equipment, commercial harvesting equipment, construction machinery and the like) if such goods are classified as equipment or classified as inventory by reason of their being leased or held for lease by the debtor to others. Otherwise, the law (including the conflict of laws rules) of the jurisdiction where such chief place of business is located shall govern. If the chief place of business is located in a jurisdiction which does not provide for perfection of the security interest by filing or recording in that jurisdiction, then the security interest may be perfected by filing in this State. For the purpose of determining the validity and perfection of a security interest in an airplane, the chief place of business of a debtor who is a foreign air carrier under the Federal Aviation Act of 1958,

as amended, is the designated office of the agent upon whom service of process may be made on behalf of the debtor.

(3) If personal property other than that governed by subdivisions (1) and (2) is already subject to a security interest when it is brought into this State, the validity of the security interest in this State is to be determined by the law (including the conflict of laws rules) of the jurisdiction where the property was when the security interest attached. However, if the parties to the transaction understood at the time that the security interest attached that the property would be kept in this State and it was brought into this State within 30 days after the security interest attached for purposes other than transportation through this State, then the validity of the security interest in this State is to be determined by the law of this State. If the security interest was already perfected under the law of the jurisdiction where the property was when the security interest attached and before being brought into this State, the security interest continues perfected in this State for four months and also thereafter if within the four-month period it is perfected in this State. The security interest may also be perfected in this State after the expiration of the four-month period; in such case perfection dates from the time of perfection in this State. If the security interest was not perfected under the law of the jurisdiction where the property was when the security interest attached and before being brought into this State, it may be perfected in this State; in such case perfection dates from the time of perfection in this State.

(4) Notwithstanding subdivisions (2) and (3), if personal property is covered by a certificate of title or ownership issued under a statute of this State or any other jurisdiction which requires indication on a certificate of title or ownership of any security interest in the property as a condition of perfection, then the perfection is governed by the law of the jurisdiction which issued the certificate.

(5) Notwithstanding subdivision (1) and Section 9302, if the office where the assignor of accounts or contract rights keeps his records concerning them is not located in a jurisdiction which is a part of the United States, its territories or possessions, and the accounts or contract rights are within the jurisdiction of this State or the transaction which creates the security interest otherwise bears an appropriate relation to this State, this division governs the validity and perfection of the security interest and the security interest may only be perfected by notification to the account debtor.

9104. This division does not apply

(a) To a security interest subject to any statute of the United States such as the Ship Mortgage Act, 1920, to the extent that such statute governs the rights of parties to and third parties affected by transactions in particular types of property; or

(c) To a lien given by statute or other rule of law for services or materials except as provided in Section 9310 on priority of such liens; or

(d) To a transfer of a claim for wages, salary or other compensation of an employee; or

(e) To an equipment trust covering railway rolling stock; or

(f) To a sale of accounts, contract rights or chattel paper as part of a sale of the business out of which they arose, or an assignment of accounts, contract rights or chattel paper which is for the purpose of collection only, or a transfer of a contract right to an assignee who is also to do the performance under the contract; or

(g) To any loan made by an insurance company pursuant to the provisions of a policy or contract issued by it and upon the sole security of such policy or contract; or

(h) To a right represented by a judgment; or

(i) To any right of setoff; or to a security interest of a bank, savings and loan association, credit union or like organization in any deposit, savings, passbook or like account maintained with such organization; or

(j) To the creation or transfer of an interest in or lien on real estate, including a lease or rents thereunder; or

(k) To a transfer in whole or in part of any claim arising out of tort.

9105. (1) In this division unless the context otherwise requires:

(a) "Account debtor" means the person who is obligated on an account, chattel paper, contract right or general intangible;

(b) "Chattel paper" means a writing or writings which evidence both a monetary obligation and a security interest in or a lease of specific goods. When a transaction is evidenced both by such a security agreement or a lease and by an instrument or a series of instruments, the group of writings taken together constitutes chattel paper;

(c) "Collateral" means the property subject to a security interest, and includes accounts, contract rights and chattel paper which have been sold;

(d) "Debtor" means the person who owes payment or other performance of the obligation secured, whether or not he owns or has rights in the collateral, and includes the seller of accounts, contract rights or chattel paper. Where the debtor and the owner of the collateral are not the same person, the term "debtor" means the owner of the collateral in any provision of the division dealing with the collateral, the obligor in any provision dealing with the obligation, and may include both where the context so requires;

(e) "Document" means document of title as defined in the general definitions of Division 1 (Section 1201);

(f) "Goods" includes all things which are movable at the time the security interest attaches or which are fixtures (other than goods incorporated into a structure in the manner of lumber, bricks, tile, cement, glass, metalwork and the like unless the structure remains personal property under applicable

law), but does not include money, documents, instruments, accounts, chattel paper, general intangibles, contract rights and other things in action. "Goods" also include the unborn young of animals, growing crops, and standing timber which is to be cut and removed under a conveyance or contract for sale;

(g) "Instrument" means a negotiable instrument (defined in Section 3104), or a security (defined in Section 8102) or any other writing which evidences a right to the payment of money and is not itself a security agreement or lease and is of a type which is in ordinary course of business transferred by delivery with any necessary indorsement or assignment;

(h) "Security agreement" means an agreement which creates or provides for a security interest;

(i) "Secured party" means a lender, seller or other person in whose favor there is a security interest, including a person to whom accounts, contract rights or chattel paper have been sold. When the holders of obligations issued under an indenture of trust, equipment trust agreement or the like are represented by a trustee or other person, the representative is the secured party.

(j) "New value" includes new advances or loans made, or new obligations incurred, or the release of a valid and existing security interest, or the release of a claim to proceeds; but "new value" shall not be construed to include extension or renewals of existing obligations of the debtor, nor obligations substituted for such existing obligations.

(2) Other definitions applying to this division and the sections in which they appear are:

"Account." Section 9106.

"Consumer goods." Section 9109(1).

"Contract right." Section 9106.

"Equipment." Section 9109(2).

"Farm products." Section 9109(3).

"General intangibles." Section 9106.

"Inventory." Section 9109(4).

"Lien creditor." Section 9301(3).

"Proceeds." Section 9306(1).

"Purchase money security interest." Section 9107.

(3) The following definitions in other divisions apply to this division:

"Check." Section 3104.

"Contract for sale." Section 2106.

"Holder in due course." Section 3302.

"Note." Section 3104.

"Sale." Section 2106.

(4) In addition Division 1 contains general definitions and principles of construction and interpretation applicable throughout this division.

9106. "Account" means any right to payment for goods sold or leased or for services rendered which is not evidenced by an instrument or chattel paper. "Contract right" means

any right to payment under a contract not yet earned by performance and not evidenced by an instrument or chattel paper. "General intangibles" means any personal property (including things in action) other than goods, accounts, contract rights, chattel paper, documents, and instruments. Any interest or claim in or under any policy of insurance is a general intangible.

9107. A security interest is a "purchase money security interest" to the extent that it is

(a) Taken or retained by the seller of the collateral to secure all or part of its price; or

(b) Taken by a person who by making advances or incurring an obligation gives value to enable the debtor to acquire rights in or the use of collateral if such value is in fact so used.

9108. Where a secured party makes an advance, incurs an obligation, releases a perfected security interest, or otherwise gives new value which is to be secured in whole or in part by afteracquired property his security interest in the afteracquired collateral shall be deemed to be taken for new value and not as security for an antecedent debt if the debtor acquires his rights in such collateral either in the ordinary course of his business or under a contract of purchase made pursuant to the security agreement within a reasonable time after new value is given.

9109. Goods are (1) "consumer goods" if they are used or bought for use primarily for personal, family or household purposes;

(2) "Equipment" if they are used or bought for use primarily in business (including farming or a profession) or by a debtor who is a nonprofit organization or a governmental subdivision or agency or if the goods are not included in the definitions of inventory, farm products or consumer goods;

(3) "Farm products" if they are crops or livestock or supplies used or produced in farming operations or if they are products of crops or livestock in their unmanufactured states (such as ginned cotton, wool clip, maple sirup, honey, milk and eggs), and if they are in the possession of a debtor engaged in raising, fattening, grazing or other farming operations. If goods are farm products they are neither equipment nor inventory;

(4) "Inventory" if they are held by a person who holds them for sale or lease or to be furnished under contracts of service or if he has leased or so furnished them, or if they are raw materials, work in process or materials used or consumed in a business. Inventory of a person is not to be classified as his equipment.

9110. For the purposes of this division any description of personal property or real estate is sufficient whether or not it is specific if it reasonably identifies what is described. Personal property may be referred to by general kind or class if the property can be reasonably identified as falling within

such kind or class or if it can be so identified when it is acquired by the debtor. The use of the word "proceeds" is sufficient without further description to cover proceeds of any character

9111. The creation of a security interest under this division may be a bulk transfer under Division 6, except as specified in subdivision (1) of Section 6103.

9112. Unless otherwise agreed, when a secured party knows that collateral is owned by a person who is not the debtor, the owner of the collateral is entitled to receive from the secured party any surplus under Section 9502(2) or under Section 9504(2), and is not liable for the debt or for any deficiency after resale, and he has the same right as the debtor

(a) To receive statements under Section 9208;

(b) To receive notice of and to object to a secured party's proposal to retain the collateral in satisfaction of the indebtedness under Section 9505;

(c) To redeem the collateral under Section 9506;

(d) To obtain injunctive or other relief under Section 9507(1); and

(e) To recover losses caused to him under Section 9208(2).

9113. A security interest arising solely under the division on sales (Division 2) is subject to the provisions of this division except that to the extent that and so long as the debtor does not have or does not lawfully obtain possession of the goods

(a) No security agreement is necessary to make the security interest enforceable; and

(b) No filing is required to perfect the security interest; and

(c) The rights of the secured party on default by the debtor are governed by the division on sales (Division 2).

CHAPTER 2. VALIDITY OF SECURITY AGREEMENT AND RIGHTS OF PARTIES THERETO

9201. Except as otherwise provided by this code a security agreement is effective according to its terms between the parties, against purchasers of the collateral and against creditors. Nothing in this division validates any charge or practice illegal under any statute or regulation thereunder governing usury, small loans, retail installment sales, or the like or extends the application of any such statute or regulation to any transaction not otherwise subject thereto.

9202. Each provision of this division with regard to rights, obligations and remedies applies whether title to collateral is in the secured party or in the debtor.

9203. (1) Subject to the provisions of Section 4208 on the security interest of a collecting bank and Section 9113 on a security interest arising under the division on sales, a security interest is not enforceable against the debtor or third parties unless

(a) The collateral is in the possession of the secured party; or

(b) The debtor has signed a security agreement which contains a description of the collateral and in addition, when the security interest covers crops or oil, gas or minerals to be extracted or timber to be cut, a description of the land concerned.

(2) A transaction, although subject to this division, is also subject to the Retail Installment Sales Act, Title 2 (commencing at Section 1801) of Part 4, Division 3 of the Civil Code; the Automobile Sales Finance Act, Chapter 2b (commencing at Section 2981) of Title 14, Part 4, Division 3 of the Civil Code; the Industrial Loan Law, Division 7 (commencing at Section 18000) of the Financial Code; the Pawnbroker Law, Division 8 (commencing at Section 21000) of the Financial Code; the Personal Property Brokers Law, Division 9 (commencing at Section 22000) of the Financial Code; and the California Small Loan Law, Division 10 (commencing at Section 24000) of the Financial Code, and in the case of conflict between the provisions of this division and any such statute, the provisions of such statute control. Failure to comply with any applicable statute has only the effect which is specified therein.

9204. (1) A security interest cannot attach until there is agreement (subdivision (3) of Section 1201) that it attach and value is given and the debtor has rights in the collateral. It attaches as soon as all of the events in the preceding sentence have taken place unless explicit agreement postpones the time of attaching.

(2) For the purposes of this section the debtor has no rights

(a) In crops until they are planted or otherwise become growing crops, in the young of livestock until they are conceived;

(b) In fish until caught, in oil, gas or minerals until they are extracted;

(c) In a contract right until the contract has been made;

(d) In an account until it comes into existence.

(3) Except as provided in subdivision (4) a security agreement may provide that collateral, whenever acquired, shall secure all obligations covered by the security agreement.

(4) No security interest attaches under an afteracquired property clause

(b) To consumer goods other than accessions (Section 9314) or replacements when given as additional security unless the debtor acquires rights in them within 10 days after the secured party gives value.

(5) Obligations covered by a security agreement may include future advances or other value whether or not the advances or value are given pursuant to commitment.

9205. A security interest is not invalid or fraudulent against creditors by reason of liberty in the debtor to use, commingle or dispose of all or part of the collateral (including returned or repossessed goods) or to collect or com-

promise accounts, contract rights or chattel paper, or to accept the return of goods or make repossessions, or to use, commingle or dispose of proceeds, or by reason of the failure of the secured party to require the debtor to account for proceeds or replace collateral. This section does not relax the requirements of possession where perfection of a security interest depends upon possession of the collateral by the secured party or by a bailee.

9206. (1) Subject to any statute which establishes a different rule for buyers or lessees of consumer goods, an agreement by a buyer or lessee that he will not assert against an assignee any claim or defense which he may have against the seller or lessor is enforceable by an assignee who takes his assignment for value, in good faith and without notice of a claim or defense, except as to defenses of a type which may be asserted against a holder in due course of a negotiable instrument under the division on commercial paper (Division 3). A buyer who as part of one transaction signs both a negotiable instrument and a security agreement makes such an agreement.

(2) When a seller retains a purchase money security interest in goods the division on sales (Division 2) governs the sale and any disclaimer, limitation or modification of the seller's warranties.

9207. (1) A secured party must use reasonable care in the custody and preservation of collateral in his possession. In the case of an instrument or chattel paper reasonable care includes taking necessary steps to preserve rights against prior parties unless otherwise agreed.

(2) Unless otherwise agreed, when collateral is in the secured party's possession

(a) Reasonable expenses (including the cost of any insurance and payment of taxes or other charges) incurred in the custody, preservation, use or operation of the collateral are chargeable to the debtor and are secured by the collateral;

(b) The risk of accidental loss or damage is on the debtor to the extent of any deficiency in any effective insurance coverage;

(c) The secured party may hold as additional security any increase or profits (except money) received from the collateral, but money so received, unless remitted to the debtor, shall be applied in reduction of the secured obligation;

(d) The secured party must keep the collateral identifiable but fungible collateral may be commingled;

(e) The secured party may repledge the collateral upon terms which do not impair the debtor's right to redeem it.

(3) A secured party is liable for any loss caused by his failure to meet any obligation imposed by the preceding subdivisions but does not lose his security interest.

(4) A secured party may use or operate the collateral for the purpose of preserving the collateral or its value or pursuant to the order of a court of appropriate jurisdiction or, except in the case of consumer goods, in the manner and to the extent provided in the security agreement.

9208. (1) A debtor may sign a statement indicating what he believes to be the aggregate amount of unpaid indebtedness as of a specified date and may send it to the secured party with a request that the statement be approved or corrected and returned to the debtor. When the security agreement or any other record kept by the secured party identifies the collateral a debtor may similarly request the secured party to approve or correct a list of the collateral.

(2) The secured party must comply with such a request within two weeks after receipt by sending a written correction or approval. If the secured party claims a security interest in all of a particular type of collateral owned by the debtor he may indicate that fact in his reply and need not approve or correct an itemized list of such collateral. If the secured party without reasonable excuse fails to comply he is liable for any loss caused to the debtor thereby; and if the debtor has properly included in his request a good faith statement of the obligation or a list of the collateral or both the secured party may claim a security interest only as shown in the statement against persons misled by his failure to comply. If he no longer has an interest in the obligation or collateral at the time the request is received he must disclose the name and address of any successor in interest known to him and he is liable for any loss caused to the debtor as a result of failure to disclose. A successor in interest is not subject to this section until a request is received by him.

(3) A debtor is entitled to such a statement once every six months without charge. The secured party may require payment of a charge not exceeding ten dollars ($10) for each additional statement furnished.

(4) If the secured party is an organization maintaining branches or branch offices the requests herein provided for shall be sent to the branch or branch office at which the security transaction was entered into or at which the debtor is to make payment of his obligation, and the secured party's statement, unless otherwise specified, shall be deemed to apply only to indebtedness entered into at or payable to such branch or branch office and to any collateral taken by such branch or branch office.

CHAPTER 3. RIGHTS OF THIRD PARTIES; PERFECTED AND UNPERFECTED SECURITY INTERESTS; RULES OF PRIORITY

9301. (1) Except as otherwise provided in subdivision (2), an unperfected security interest is subordinate to the rights of

(a) Persons entitled to priority under Section 9312;

(b) A person who becomes a lien creditor after the security interest attaches and before it is perfected unless the security interest is perfected within 10 days after it attaches and a person who becomes a lien creditor before the security interest attaches;

(c) In the case of goods, instruments, documents, and chattel paper, a person who is not a secured party and who is a transferee in bulk or other buyer not in ordinary course of business to the extent that he gives value and receives delivery of the collateral without knowledge of the security interest and before it is perfected;

(d) In the case of accounts, contract rights, and general intangibles, a person who is not a secured party and who is a transferee to the extent that he gives value without knowledge of the security interest and before it is perfected.

(2) If the secured party files with respect to a purchase money security interest before or within 10 days after the collateral comes into possession of the debtor, he takes priority over the rights of a transferee in bulk or other buyer not in the ordinary course of business which arise between the time the security interest attaches and the time of filing.

(3) A "lien creditor" means a creditor who has acquired a lien on the property involved by attachment, levy or the like.

9302. (1) A financing statement must be filed to perfect all security interests except the following:

(a) A security interest in collateral in possession of the secured party under Section 9305;

(b) A security interest temporarily perfected in instruments or documents without delivery under Section 9304 or in proceeds for a 10-day period under Section 9306;

(c) A purchase money security interest in farm equipment having a purchase price not in excess of two thousand five hundred dollars ($2,500); but compliance with subdivision (4) is required for a motor vehicle required to be registered;

(d) A purchase money security interest in consumer goods; but compliance with subdivision (4) is required for a motor vehicle or boat required to be registered;

(f) A security interest of a collecting bank (Section 4208) or arising under the division on sales (see Section 9113) or covered in subdivision (3) of this section;

(g) A security interest in general intangibles; provided, however, that as between bona fide assignees for value without notice of the same general intangible consisting of any right to payment, the assignee first giving notice thereof to the account debtor in writing shall have priority, but the assignment of such general intangible shall not be of itself notice to the account debtor so as to invalidate any payments made by him to the transferor;

(h) An assignment of any claim against the United States made pursuant to and in conformity with 31 U.S.C. Section 203 or 41 U.S.C. Section 15 (the Assignment of Claims statutes) or any statutes amendatory thereof or in substitution therefor.

(2) If a secured party assigns a perfected security interest, no filing under this division is required in order to continue the perfected status of the security interest against creditors of and transferees from the original debtor.

(3) The filing provisions of this division do not apply to a security interest

(a) In property subject to a statute of the United States which provides for a national registration or filing of all security interests in such property; or

(b) In a vehicle required to be registered under the Vehicle Code, unless such vehicle is inventory, or in a boat required to be registered under the Harbors and Navigation Code, unless such boat is inventory.

(4) A security interest in property subject to a statute of the United States which provides for national registration or filing of all security interests in such property may be perfected only by filing or registration under such statute. A security interest in a vehicle required to be registered under the Vehicle Code which is not inventory may be perfected only as provided in the Vehicle Code. A security interest in a boat required to be registered under the Harbors and Navigation Code which is not inventory may be perfected only as provided in the Harbors and Navigation Code.

9303. (1) A security interest is perfected when it has attached and when all of the applicable steps required for perfection have been taken. Such steps are specified in Sections 9302, 9304, 9305 and 9306. If such steps are taken before the security interest attaches, it is perfected at the time when it attaches.

(2) If a security interest is originally perfected in any way permitted under this division and is subsequently perfected in some other way under this division, without an intermediate period when it was unperfected, the security interest shall be deemed to be perfected continuously for the purposes of this division.

(3) A security interest in crops growing or to be grown, which is perfected by filing with the county recorder (Section 9401(1)(b)), ceases to be a perfected security interest as to crops which have been severed and removed from the premises of the grower; but if the financing statement covers proceeds, the security interest remains perfected in any proceeds resulting from a sale or other disposition of the crops.

(4) If a security interest in goods is perfected in accordance with this division, such security interest does not become unperfected by reason of a subsequent change in the use to which the goods are put. For the purpose of this division, if goods of a kind ordinarily bought for use primarily for personal, family or household purposes are sold at retail subject to a purchase money security interest, and the security agreement recites that they are sold for personal, family or household use, it shall be conclusively presumed that they are consumer goods so long as the purchase money security interest exists.

9304. (1) A security interest in chattel paper or negotiable documents may be perfected by filing. A security interest in instruments (other than instruments which constitute part of

chattel paper) can be perfected only by the secured party's taking possession, except as provided in subdivisions (4) and (5).

(2) During the period that goods are in the possession of the issuer of a negotiable document therefor, a security interest in the goods is perfected by perfecting a security interest in the document, and any security interest in the goods otherwise perfected during such period is subject thereto.

(3) A security interest in goods in the possession of a bailee other than one who has issued a negotiable document therefor is perfected by issuance of a document in the name of the secured party or by the bailee's receipt of notification of the secured party's interest or by filing as to the goods.

(4) A security interest in instruments or negotiable documents is perfected without filing or the taking of possession for a period of 21 days from the time it attaches to the extent that it arises for new value given under a written security agreement.

(5) A security interest remains perfected for a period of 21 days without filing where a secured party having a perfected security interest in an instrument, a negotiable document or goods in possession of a bailee other than one who has issued a negotiable document therefor

(a) Makes available to the debtor the goods or documents representing the goods for the purpose of ultimate sale or exchange or for the purpose of loading, unloading, storing, shipping, trans-shipping, manufacturing, processing or otherwise dealing with them in a manner preliminary to their sale or exchange; or

(b) Delivers the instrument to the debtor for the purpose of ultimate sale or exchange or of presentation, collection, renewal or registration of transfer.

(6) After the 21-day period in subdivisions (4) and (5) perfection depends upon compliance with applicable provisions of this division.

9305. A security interest in letters of credit and advices of credit (subdivision (2)(a) of Section 5116), goods, instruments, negotiable documents or chattel paper may be perfected by the secured party's taking possession of the collateral. If such collateral other than goods covered by a negotiable document is held by a bailee, the secured party is deemed to have possession from the time the bailee receives notification of the secured party's interest. A security interest is perfected by possession from the time possession is taken without relation back and continues only so long as possession is retained, unless otherwise specified in this division. The security interest may be otherwise perfected as provided in this division before or after the period of possession by the secured party.

9306. (1) "Proceeds" includes whatever is received when collateral or proceeds is sold, exchanged, collected or otherwise disposed of. The term also includes the account arising when the right to payment is earned under a contract right.

Money, checks and the like are "cash proceeds." All other proceeds are "noncash proceeds."

(2) Except where this division otherwise provides, a security interest continues in collateral notwithstanding sale, exchange or other disposition thereof by the debtor unless his action was authorized by the secured party in the security agreement or otherwise, and also continues in any identifiable proceeds including collections received by the debtor.

(3) The security interest in proceeds is a continuously perfected security interest if the interest in the original collateral was perfected but it ceases to be a perfected security interest and becomes unperfected 10 days after receipt of the proceeds by the debtor unless

(a) A filed financing statement covering the original collateral also covers proceeds; or

(b) The security interest in the proceeds is perfected before the expiration of the 10-day period.

(4) In the event of insolvency proceedings instituted by or against a debtor, a secured party with a perfected security interest in proceeds has a perfected security interest

(a) In identifiable noncash proceeds and in a separate bank account containing only proceeds;

(b) In identifiable cash proceeds in the form of money which is not commingled with other money or deposited in a bank account prior to the insolvency proceedings;

(c) In identifiable cash proceeds in the form of checks and the like which are not deposited in a bank account prior to the insolvency proceedings; and

(d) In all cash and bank accounts of the debtor in which proceeds have been commingled with other funds, but the perfected security interest under this paragraph (d) is

(i) Subject to any right of setoff; and

(ii) Limited to an amount not greater than the amount of any cash proceeds received by the debtor within 10 days before the institution of the insolvency proceedings less the sum of (I) the payments to the secured party on account of cash proceeds received by the debtor during such period and (II) the cash proceeds received by the debtor during such period to which the secured party is entitled under paragraphs (a) through (c) of this subdivision (4).

(5) If a sale of goods results in an account or chattel paper which is transferred by the seller to a secured party, and if the goods are returned to or are repossessed by the seller or the secured party, the following rules determine priorities:

(a) If the goods were collateral at the time of sale for an indebtedness of the seller which is still unpaid, the original security interest attaches again to the goods and continues as a perfected security interest if it was perfected at the time when the goods were sold. If the security interest was originally perfected by a filing which is still effective, nothing further is required to continue the perfected status; in any other case,

the secured party must take possession of the returned or repossessed goods or must file.

(b) An unpaid transferee of the chattel paper has a security interest in the goods against the transferor. Such security interest is prior to a security interest asserted under paragraph (a) to the extent that the transferee of the chattel paper was entitled to priority under Section 9308.

(c) An unpaid transferee of the account has a security interest in the goods against the transferor. Such security interest is subordinate to a security interest asserted under paragraph (a).

(d) A security interest of an unpaid transferee asserted under paragraph (b) or (c) must be perfected for protection against creditors of the transferor and purchasers of the returned or repossessed goods.

9307. (1) A buyer in ordinary course of business (subdivision (9) of Section 1201) other than a person buying farm products from a person engaged in farming operations takes free of a security interest created by his seller even though the security interest is perfected and even though the buyer knows of its existence.

9308. A purchaser of chattel paper or a nonnegotiable instrument who gives new value and takes possession of it in the ordinary course of his business and without knowledge that the specific paper or instrument is subject to a security interest has priority over a security interest which is perfected under Section 9304 (permissive filing and temporary perfection). A purchaser of chattel paper who gives new value and takes possession of it in the ordinary course of his business has priority over a security interest in chattel paper which is claimed merely as proceeds of inventory subject to a security interest (Section 9306), even though he knows that the specific paper is subject to the security interest.

9309. Nothing in this division limits the rights of a holder in due course of a negotiable instrument (Section 3302) or a holder to whom a negotiable document of title has been duly negotiated (Section 7501) or a bona fide purchaser of a security (Section 8302) and such holders or purchasers take priority over an earlier security interest even though perfected. Filing under this division does not constitute notice of the security interest to such holders or purchasers.

9310. When a person in the ordinary course of his business furnishes services or materials with respect to goods subject to a security interest, a lien upon goods in the possession of such person given by statute or rule of law for such materials or services takes priority over a perfected security interest unless the lien is statutory and the statute expressly provides otherwise.

9311. The debtor's rights in collateral may be voluntarily or involuntarily transferred (by way of sale, creation of a security interest, attachment, levy, garnishment or other judicial process notwithstanding a provision in the security agreement

prohibiting any transfer but a provision in the security agreement making the transfer constitute a default is valid.

9312. (1) The rules of priority stated in the following sections shall govern where applicable: Section 4208 with respect to the security interest of collecting banks in items being collected, accompanying documents and proceeds; Section 9301 on certain priorities; Section 9304 on goods covered by documents; Section 9306 on proceeds and repossessions; Section 9307 on buyers of goods; Section 9308 on possessory against nonpossessory interests in chattel paper or nonnegotiable instruments; Section 9309 on security interests in negotiable instruments, documents or securities; Section 9310 on priorities between perfected security interests and liens by operation of law; Section 9314 on security interests in accessions as against interest in goods; Section 9315 on conflicting security interests where goods lose their identity or become part of a product; and Section 9316 on contractual subordination.

(3) A purchase money security interest in inventory collateral has priority over a conflicting security interest in the same collateral if

(a) The purchase money security interest is perfected at the time the debtor receives possession of the collateral; and

(b) Any secured party whose security interest is known to the holder of the purchase money security interest or who, prior to the date of the filing made by the holder of the purchase money security interest, had filed a financing statement covering the same items or type of inventory, has received notification of the purchase money security interest before the debtor receives possession of the collateral covered by the purchase money security interest; and

(c) Such notification states that the person giving the notice has or expects to acquire a purchase money security interest in inventory of the debtor, describing such inventory by item or type.

(4) A purchase money security interest in collateral other than inventory has priority over a conflicting security interest in the same collateral if the purchase money security interest is perfected at the time the debtor receives possesson of the collateral or within 10 days thereafter.

(5) In all cases not governed by other rules stated in this section (including cases of purchase money security interests which do not qualify for the special priorities set forth in subdivisions (3) and (4) of this section), priority between conflicting security interests in the same collateral shall be determined as follows:

(a) In the order of filing if both are perfected by filing, regardless of which security interest attached first under Section 9204(1) and whether it attached before or after filing;

(b) In the order of perfection unless both are perfected by filing, regardless of which security interest attached first under

Section 9204(1) and, in the case of a filed security interest, whether it attached before or after filing; and

(c) In the order of attachment under Section 9204(1) so long as neither is perfected.

(6) For the purpose of the priority rules of the immediately preceding subdivision, a continuously perfected security interest shall be treated at all times as if perfected by filing if it was originally so perfected and it shall be treated at all times as if perfected otherwise than by filing if it was originally perfected otherwise than by filing.

(7) The secured party takes priority as to the future advances specified below from the time his security interest was originally perfected:

(a) If a maximum amount to be secured is stated in the filed financing statement (or in a security agreement where a financing statement is not required to be filed), as to all advances up to that amount outstanding at any one time (without regard to advances already repaid or discharged), whether the making of such advances is optional with or obligatory upon the secured party;

(b) If a maximum amount to be secured is not so stated, as to all obligatory advances, and as to all optional advances made by the secured party without knowledge of an intervening right; and

(c) In all cases, as to advances and expenditures made by the secured party for the protection, maintenance, preservation or repair of the collateral.

Accrued interest has the same priority as the advance or expenditure to which it relates. Repayment in full of amounts owing under a security agreement covering future advances does not extinguish the security interest of the secured party.

This subdivision (7) does not apply to conflicting security interests in the same collateral, priorities among which are governed by subdivisions (3), (4) and (5) of this section.

9314. (1) A security interest in goods which attaches before they are installed in or affixed to other goods takes priority as to the goods installed or affixed (called in this section "accessions") over the claims of all persons to the whole except as stated in subdivision (3) and subject to Section 9315(1).

(2) A security interest which attaches to goods after they become part of a whole is valid against all persons subsequently acquiring interests in the whole except as stated in subdivision (3) but is invalid against any person with an interest in the whole at the time the security interest attaches to the goods who has not in writing consented to the security interest or disclaimed an interest in the goods as part of the whole.

(3) The security interests described in subdivisions (1) and (2) do not take priority over

(a) A subsequent purchaser for value of any interest in the whole; or

(b) A creditor with a lien on the whole subsequently obtained by judicial proceedings; or

(c) A creditor with a prior perfected security interest in the whole to the extent that he makes subsequent advances if the subsequent purchase is made, the lien by judicial proceedings obtained or the subsequent advance under the prior perfected security interest is made or contracted for without knowledge of the security interest and before it is perfected. A purchaser of the whole at a foreclosure sale other than the holder of a perfected security interest purchasing at his own foreclosure sale is a subsequent purchaser within this section.

(4) When under subdivisions (1) or (2) and (3) a secured party has an interest in accessions which has priority over the claims of all persons who have interests in the whole, he may on default subject to the provisions of Chapter 5 remove his collateral from the whole but he must reimburse any encumbrancer or owner of the whole who is not the debtor and who has not otherwise agreed for the cost of repair of any physical injury but not for any diminution in value of the whole caused by the absence of the goods removed or by any necessity for replacing them. A person entitled to reimbursement may refuse permission to remove until the secured party gives adequate security for the performance of this obligation.

9315. (1) If a security interest in goods was perfected and subsequently the goods or a part thereof have become part of a product or mass, the security interest continues in the product or mass if

(a) The goods are so manufactured, processed, assembled or commingled that their identity is lost in the product or mass; or

(b) A financing statement covering the original goods also covers the product into which the goods have been manufactured, processed or assembled.

In a case to which paragraph (b) applies, no separate security interest in that part of the original goods which has been manufactured, processed or assembled into the product may be claimed under Section 9314.

(2) When under subdivision (1) more than one security interest attaches to the product or mass, they rank equally according to the ratio that the cost of the goods to which each interest originally attached bears to the cost of the total product or mass.

9316. Nothing in this division prevents subordination by agreement by any person entitled to priority.

9317. The mere existence of a security interest or authority given to the debtor to dispose of or use collateral does not impose contract or tort liability upon the secured party for the debtor's acts or omissions.

9318. (1) Unless an account debtor has made an enforceable agreement not to assert defenses or claims arising out of a sale as provided in Section 9206 the rights of an assignee are subject to

(a) All the terms of the contract between the account debtor and assignor and any defense or claim arising therefrom; and

(b) Any other defense or claim of the account debtor against the assignor which accrues before the account debtor receives notification of the assignment.

(2) So far as the right to payment under an assigned contract right has not already become an account, and notwithstanding notification of the assignment, any modification of or substitution for the contract made in good faith and in accordance with reasonable commercial standards is effective against an assignee unless the account debtor has otherwise agreed but the assignee acquires corresponding rights under the modified or substituted contract The assignment may provide that such modification or substitution is a breach by the assignor.

(3) The account debtor is authorized to pay the assignor until the account debtor receives notification that the account has been assigned and that payment is to be made to the assignee. A notification which does not reasonably identify the rights assigned is ineffective. If requested by the account debtor, the assignee must seasonably furnish reasonable proof that the assignment has been made and unless he does so the account debtor may pay the assignor.

(4) A term in any contract between an account debtor and an assignor which prohibits assignment of an account or contract right to which they are parties or which requires the account debtor's consent to such assignment is ineffective.

CHAPTER 4. FILING

9401. (1) The proper place to file in order to perfect a security interest is as follows:

(a) When the collateral is equipment used in farming operations, or farm products other than crops, or accounts or contract rights arising from or relating to the sale of farm products by a farmer, or consumer goods, then in the office of the county recorder in the county of the debtor's residence or if the debtor is not a resident of this State then in the office of the county recorder in the county where the goods are kept;

(b) When the collateral is crops or timber to be cut, then in the office of the county recorder in the county where the land on which the crops are growing or to be grown or on which the timber is standing is located;

(c) In all other cases, in the office of the Secretary of State.

(2) A filing which is made in good faith in an improper place or not in all of the places required by this section is nevertheless effective with regard to any collateral as to which the filing complied with the requirements of this division and is also effective with regard to collateral covered by the financing statement against any person who has knowledge of the contents of such financing statement.

(3) A filing which is made in the proper place in this State continues effective even though the debtor's residence or the location of the collateral or its use, whichever controlled the original filing, is thereafter changed.

(4) If collateral is brought into this State from another jurisdiction, the rules stated in Section 9103 determine whether filing is necessary in this State.

(5) The county of residence of an organization is the county in which it has its chief place of business in fact.

9402. (1) A financing statement is sufficient if it is signed by the debtor and by the secured party, gives the name and mailing address of the secured party, the name and mailing address of the debtor and contains a statement indicating the types of collateral or describing the items of collateral. The financing statement shall also set forth: if the debtor is an individual, the address of his residence and the address of his chief place of business, if any; if the debtor is an organization, the address of its chief place of business; if the debtor is doing business under a trade name or style, such trade name or style. A financing statement may be filed before a security agreement is made or before a security interest otherwise attaches. When the financing statement covers crops growing or to be grown or timber to be cut, the statement must also contain a description of the real property concerned. A copy of the security agreement is sufficient as a financing statement if it contains the above information and is signed by both parties.

(2) A financing statement which otherwise complies with subdivision (1) is sufficient although it is signed only by the secured party when it is filed to perfect a security interest in

(a) Collateral already subject to a security interest in another jurisdiction when it is brought into this State. Such financing statement must state that the collateral was brought into this State under such circumstances;

(b) Proceeds under Section 9306, if the security interest in the original collateral was perfected. Such a financing statement must describe the original collateral.

(3) A form substantially as follows is sufficient to comply with subdivision (1):

FINANCING STATEMENT

Name of debtor_____
Mailing address of debtor_____
Name of secured party_____
Mailing address of secured party_____
Address of debtor's residence (if an individual) _____ and address of his chief place of business (if any)_____
Address of chief place of business of debtor (if an organization) _____
The debtor is doing business under the following trade name or style _____

(1) This financing statement covers the following types (or items) of property: (description of the collateral)

(2) (If collateral is crops or timber) The above described crops or timber are growing or are to be grown on or are standing on: (description of real property)

(3) (If proceeds or products of collateral are claimed) (Proceeds) (Products) of the collateral are also covered

(4) (Optional) The maximum amount of the indebtedness to be secured at any one time is _____ dollars ($_____).

Date: _____ 19___

Signature of debtor
Signature of secured party

(If the transaction consists of a sale of accounts, contract rights or chattel paper, the term seller or assignor may be substituted for debtor and the term buyer or assignee may be substituted for secured party.)

(4) The term "financing statement" as used in this code means the original financing statement and any amendments signed by the debtor and the secured party or a financing statement signed only by the secured party under Section 9402(2) and any amendments thereto, but if any amendment adds collateral, it is effective as to the added collateral only from the filing date of the amendment.

(5) A financing statement substantially complying with the requirements of this section is effective even though it contains minor errors which are not seriously misleading.

9403 (1) Presentation for filing of a financing statement, tender of the filing fee and acceptance of the statement by the filing officer constitutes filing under this code.

(2) A filed financing statement is effective for a period of five years from the date of filing. The effectiveness of a filed financing statement lapses on the expiration of such five-year period unless a continuation statement is filed prior to such lapse. Upon such lapse the security interest becomes unperfected.

(3) A continuation statement may be filed by the secured party of record within six months prior to the end of the five-year period. Any such continuation statement must be signed by the secured party of record, identify the original statement by giving the date and the names of the parties thereto and the file number thereof and state that the original statement is continued. Upon timely filing of the continuation statement, the effectiveness of the original statement is continued for five years from the time when it would otherwise have lapsed, whereupon it lapses in the same manner as provided in subdivision (2) unless another continuation statement is filed prior to such lapse. Succeeding continuation statements may be filed in the same manner to continue the effectiveness of the original financing statement.

(4) (a) The filing officer shall mark each financing statement with a consecutive file number and with the date and time of filing. He shall index the statement according to the name of the debtor (or assignor or seller) and shall note in the index the file number and the mailing address of the debtor (or assignor or seller) given in the statement.

(b) The filing officer shall mark each such continuation statement with the date and time of filing and shall index the same under the name of the debtor (or assignor or seller) and under the file number of the original financing statement.

(c) A financing or continuation statement relating to crops or timber shall also be indexed by the filing officer in the real property index of grantors under the name of the debtor. A financing or continuation statement relating to crops or timber so indexed and containing a description of real property affected thereby shall constitute constructive notice from the time of its acceptance for filing to any purchaser or encumbrancer of said real property of the security interest in the crops or timber.

(5) The uniform fee for filing, indexing and furnishing filing data (subdivision (1) of Section 9407) for an original or a continuation statement on a form conforming to standards prescribed by the Secretary of State shall be two dollars ($2) or, if the statement otherwise conforms to the requirements of this division, three dollars ($3).

9404. (1) Whenever there is no outstanding secured obligation and no commitment to make advances, incur obligations or otherwise give value, the secured party of record must on written demand by the debtor send the debtor a statement that he no longer claims a security interest under the financing statement, which shall be identified by file number. If the affected secured party of record fails to send such a termination statement within 10 days after proper demand therefor he shall be liable to the debtor for all actual damages suffered by the debtor by reason of such failure, and if the failure is in bad faith for a penalty of one hundred dollars ($100).

(2) The filing officer shall mark each such termination statement with the date and time of filing and shall index the same under the name of the debtor and under the file number of the original financing statement.

(3) The uniform fee for filing, indexing and furnishing filing data (subdivision (1) of Section 9407) for a termination statement on a form conforming to standards prescribed by the Secretary of State shall be two dollars ($2) or, if such a statement otherwise conforms to the requirements of this section, three dollars ($3).

9405. (1) A secured party of record may by a writing release his security interest in all or a part of the collateral covered by a filed financing statement. A statement of release is sufficient if it is signed by the secured party of record, contains a statement describing the collateral being released, the

name and address of the debtor, and the file number of the original financing statement.

(2) The filing officer shall mark each such statement with the date and time of filing and index the same under the name of the debtor and under the file number of the original financing statement.

(3) The uniform fee for filing, indexing and furnishing filing data (subdivision (1) of Section 9407) for a statement of release on a form conforming to standards prescribed by the Secretary of State shall be two dollars ($2) or, if such a statement otherwise conforms to the requirements of this section, three dollars ($3).

9406. (1) If a secured party assigns or transfers his security interest in any collateral as to which a financing statement has been filed, a statement of such assignment may be filed. Such statement shall be signed by the secured party, describe the collateral as to which the security interest has been assigned, give the name and mailing address of the assignee or transferee, the name and address of the debtor and the file number of the original financing statement.

(2) The filing officer shall mark each such statement of assignment or transfer with the date and time of filing and shall index the same under the name of the debtor and under the file number of the original financing statement.

(3) A statement of assignment may be filed at the time of the filing of the financing statement, in which event the filing officer shall first file the financing statement and index the assignment under the name of the debtor and under the file number given the financing statement. An assignment endorsed on the financing statement before it is filed with the filing officer need not be indexed by him.

(4) The uniform fee for filing, indexing and furnishing filing data (subdivision (1) of Section 9407) for a separate statement of assignment on a form conforming to standards prescribed by the Secretary of State shall be two dollars ($2) or, if such a statement otherwise conforms to the requirements of this section, three dollars ($3).

(5) Whenever a continuation statement, an amendment to a financing statement, a termination statement, a statement of release or a statement of assignment signed by one other than the secured party of record is presented for filing it must be accompanied by a statement of assignment signed by the secured party of record covering the collateral to which such continuation statement, amendment, termination statement, release, or assignment applies.

(6) Wherever in this code reference is made to the secured party of record it means the secured party named in the original financing statement or, if a statement of assignment has been filed, the assignee or transferee of the security interest in the collateral affected. Any continuation statement, amendment to a financing statement, termination statement, statement of release or statement of assignment signed by one other than the

secured party of record as to the collateral affected thereby shall be ineffective for any purpose except as between the parties thereto.

9407. (1) If the person filing any financing statement, termination statement, statement of assignment, or statement of release, furnishes the filing officer a copy thereof, the filing officer shall upon request note upon the copy the file number and date and hour of the filing of the original and deliver or send the copy to such person.

(2) Upon request of any person, the filing officer shall issue his certificate showing whether there is on file on the date and hour stated therein, any presently effective financing statement naming a particular debtor and any statement of assignment thereof and if there is, giving the date and hour of filing of each such statement and the names and addresses of each secured party therein. The uniform fee for such a certificate shall be one dollar ($1) plus one dollar ($1) for each financing statement and for each statement of assignment reported therein. Upon request the filing officer shall furnish a copy of any filed financing statement or statement of assignment for a uniform fee of one dollar ($1) for the first page and fifty cents ($.50) for each page thereafter.

9408. Unless a filing officer has notice of an action pending relative thereto, he may remove from the files and destroy

(1) A lapsed financing statement, a lapsed continuation statement, a statement of assignment or release relating to either, one year or more after lapse; and

(2) A termination statement and the financing statement to which it relates, together with any related continuation statement or statement of asssignment or release, one year or more after the filing of the termination statement.

Chapter 5. Default

9501. (1) When a debtor is in default under a security agreement, a secured party has the rights and remedies provided in this chapter and except as limited by subdivision (3) those provided in the security agreement. He may reduce his claim to judgment, foreclose or otherwise enforce the security interest by any available judicial procedure. If the collateral is documents the secured party may proceed either as to the documents or as to the goods covered thereby. A secured party in possession has the rights, remedies and duties provided in Section 9207. The rights and remedies referred to in this subdivision are cumulative.

(2) After default, the debtor has the rights and remedies provided in this chapter, those provided in the security agreement and those provided in Section 9207.

(3) To the extent that they give rights to the debtor and impose duties on the secured party, the rules stated in the subdivisions referred to below may not be waived or varied except as provided with respect to redemption of collateral (Sec-

tion 9506) but the parties may by agreement determine the standards by which the fulfillment of these rights and duties is to be measured if such standards are not manifestly unreasonable:

(a) Subdivision (2) of Section 9502 and subdivision (2) of Section 9504 insofar as they require accounting for surplus proceeds of collateral;

(b) Subdivision (3) of Section 9504 which deals with disposition of collateral;

(c) Section 9505 which deals with acceptance of collateral as discharge of obligation;

(d) Section 9506 which deals with redemption of collateral; and

(e) Subdivision (1) of Section 9507 which deals with the secured party's liability for failure to comply with this chapter.

(4) If the security agreement covers both real and personal property, the secured party may proceed under this chapter as to the personal property or he may proceed as to both the real and the personal property in accordance with his rights and remedies in respect of the real property in which case the provisions of this chapter do not apply.

(5) When a secured party has reduced his claim to judgment the lien of any levy which may be made upon his collateral by virtue of any execution based upon the judgment shall relate back to the date of the perfection of the security interest in such collateral. A judicial sale, pursuant to such execution, is a foreclosure of the security interest by judicial procedure within the meaning of this section, and the secured party may purchase at the sale and thereafter hold the collateral free of any other requirements of this division.

9502. (1) When so agreed and in any event on default the secured party is entitled to notify an account debtor or the obligor on an instrument to make payment to him whether or not the assignor was theretofore making collections on the collateral, and also to take control of any proceeds to which he is entitled under Section 9306.

(2) A secured party who by agreement is entitled to charge back uncollected collateral or otherwise to full or limited recourse against the debtor and who undertakes to collect from the account debtors or obligors must proceed in a commercially reasonable manner and may deduct his reasonable expenses of realization from the collections. If the security agreement secures an indebtedness, the secured party must account to the debtor for any surplus, and unless otherwise agreed, the debtor is liable for any deficiency. But, if the underlying transaction was a sale of accounts, contract rights, or chattel paper, the debtor is entitled to any surplus or is liable for any deficiency only if the security agreement so provides.

9503. Unless otherwise agreed a secured party has on default the right to take possession of the collateral. In taking

possession a secured party may proceed without judicial process if this can be done without breach of the peace or may proceed by action. If the security agreement so provides the secured party may require the debtor to assemble the collateral and make it available to the secured party at a place to be designated by the secured party which is reasonably convenient to both parties. Without removal a secured party may render equipment unusable, and may dispose of collateral on the debtor's premises under Section 9504.

9504. (1) A secured party after default may sell, lease or otherwise dispose of any or all of the collateral in its then condition or following any commercially reasonable preparation or processing. Any sale of goods is subject to the division on sales (Division 2). The proceeds of disposition shall be applied in the order following to

(a) The reasonable expenses of retaking, holding, preparing for sale, selling and the like and, to the extent provided for in the agreement and not prohibited by law, the reasonable attorneys' fees and legal expenses incurred by the secured party;

(b) The satisfaction of indebtedness secured by the security interest under which the disposition is made;

(c) The satisfaction of indebtedness secured by any subordinate security interest in the collateral if written notification of demand therefor is received before distribution of the proceeds is completed. If requested by the secured party, the holder of a subordinate security interest must seasonably furnish reasonable proof of his interest, and unless he does so, the secured party need not comply with his demand.

(2) If the security interest secures an indebtedness, the secured party must account to the debtor for any surplus, and, unless otherwise agreed, the debtor is liable for any deficiency. But if the underlying transaction was a sale of accounts, contract rights, or chattel paper, the debtor is entitled to any surplus or is liable for any deficiency only if the security agreement so provides.

(3) A sale or lease of collateral may be as a unit or in parcels, at wholesale or retail and at any time and place and on any terms, provided the secured party acts in good faith and in a commercially reasonable manner. Unless collateral is perishable or threatens to decline speedily in value or is of a type customarily sold on a recognized market, the secured party must give to the debtor, and to any other person who has a security interest in the collateral and who has filed with the secured party a written request for notice giving his address, a notice in writing of the time and place of any public sale or of the time on or after which any private sale or other intended disposition is to be made. Such notice must be delivered personally or be deposited in the United States mail postage prepaid addressed to the debtor at his address as set forth in the financing statement or as set forth in the security

agreement or at such other address as may have been furnished to the secured party in writing for this purpose, or, if no address has been so set forth or furnished, at his last known address, and to any other secured party at the address set forth in his request for notice, at least five days before the date fixed for any public sale or before the day on or after which any private sale or other disposition is to be made. Notice of the time and place of a public sale shall also be given at least five days before the date of sale by publication once in a newspaper of general circulation published in the county in which the sale is to be held. Any public sale shall be held in the county or place specified in the security agreement, or if no county or place is specified in the security agreement, in the county in which the collateral or any part thereof is located or in the county in which the debtor has his residence or chief place of business, or in the county in which the secured party has his residence or a place of business if the debtor does not have a residence or chief place of business within this State. If the collateral is located outside of this State or has been removed from this State, a public sale may be held in the locality in which the collateral is located Any public sale may be postponed from time to time by public announcement at the time and place last scheduled for the sale. The secured party may buy at any public sale and if the collateral is customarily sold in a recognized market or is the subject of widely or regularly distributed standard price quotations he may buy at private sale. Any sale of which notice is delivered or mailed and published as herein provided and which is held as herein provided is a public sale.

(4) When collateral is disposed of by a secured party after default, the disposition transfers to a purchaser for value all of the debtor's rights therein, discharges the security interest under which it is made and any security interest or lien subordinate thereto. The purchaser takes free of all such rights and interest even though the secured party fails to comply with the requirements of this chapter or of any judicial proceedings

(a) In the case of a public sale, if the purchaser has no knowledge of any defects in the sale and if he does not buy in collusion with the secured party, other bidders or the person conducting the sale; or

(b) In any other case, if the purchaser acts in good faith.

(5) A person who is liable to a secured party under a guaranty, indorsement, repurchase agreement or the like and who receives a transfer of collateral from the secured party or is subrogated to his rights has thereafter the rights and duties of the secured party. Such a transfer of collateral is not a sale or disposition of the collateral under this division

9505. (2) After default a secured party in possession may propose to retain the collateral in satisfaction of the obligation. Written notice of such proposal shall be sent to the debtor and, except in the case of consumer goods, to any

other secured party who has a security interest in the collateral and who is entitled to notice of sale under subdivision (3) of Section 9504. If the debtor or other person entitled to receive notification objects in writing within 30 days from the receipt of the notification, or if any other secured party objects in writing within 30 days after the secured party obtains possession, the secured party must dispose of the collateral under Section 9504. In the absence of such written objection, the secured party may retain the collateral in satisfaction of the debtor's obligation. The notice to the debtor or other secured party provided for by this section must inform the person to whom sent of the requirement of a written objection within 30 days in order to obtain disposition of the collateral under Section 9504.

9506. At any time before the secured party has disposed of collateral or entered into a contract for its disposition under Section 9504 or before the obligation has been discharged under Section 9505 the debtor or any other secured party may unless otherwise agreed in writing after default redeem the collateral by tendering fulfillment of all obligations secured by the collateral as well as the expenses reasonably incurred by the secured party in retaking, holding and preparing the collateral for disposition, in arranging for the sale, and to the extent provided in the agreement and not prohibited by law, his reasonable attorneys' fees and legal expenses.

9507. (1) If it is established that the secured party is not proceeding in accordance with the provisions of this chapter disposition may be ordered or restrained on appropriate terms and conditions. If the disposition has occurred the debtor or any person entitled to notification or whose security interest has been made known to the secured party prior to the disposition has a right to recover from the secured party any loss caused by a failure to comply with the provisions of this chapter.

(2) The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the secured party is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. If the secured party either sells the collateral in the usual manner in any recognized market therefor or if he sells at the price current in such market at the time of his sale or if he has otherwise sold in conformity with reasonable commercial practices among dealers in the type of property sold he has sold in a commercially reasonable manner. The principles stated in the two preceding sentences with respect to sales also apply as may be appropriate to other types of disposition A disposition which has been approved in any judicial proceeding or by any bona fide creditors' committee or representative of creditors shall conclusively be deemed to be commercially reasonable, but this sentence does not indicate that any such approval must be obtained in any case nor does it

indicate that any disposition not so approved is not commercially reasonable.

DIVISION 10. EFFECTIVE DATE AND REPEALER

10101. This code shall become effective on January 1, 1965. It applies to transactions entered into and events occurring after that date.

10102. Transactions validly entered into before the effective date specified in Section 10101 and the rights, duties and interests flowing from them remain valid thereafter and may be terminated, completed, consummated or enforced as required or permitted by any statute or other law amended or repealed by this act as though such repeal or amendment had not occurred; provided, however, that the perfection of a security interest (other than a security interest in a motor vehicle or boat required to be registered under the Vehicle Code or the Harbors and Navigation Code unless such vehicle or boat is inventory), as defined in this code (Section 1201), and however denominated in any law repealed by this act,

(a) Which was perfected when this act takes effect by a filing or recording under a law repealed by this act and requiring a further filing or recording to continue its perfection, continues until and will lapse on the date provided by the law so repealed for such further filing or recording;

(b) Which was perfected when this act takes effect by a filing or recording under a law repealed by this act and requiring no further filing or recording to continue its perfection, continues until and will lapse 12 months after the date this act takes effect;

(c) Which was perfected when this act takes effect without any filing or recording, but with respect to which a financing statement is required to be filed in order for it to be perfected under this code, continues until and will lapse 12 months after this act takes effect;

unless, in each case, a continuation statement is filed by the secured party within 12 months before the perfection of the security interest would otherwise lapse. Any such continuation statement must be signed by the secured party, identify the original security agreement, however denominated, state the office where and the date when last filed or refiled, or recorded or rerecorded, and the filing number or recordation data and further state that the original security agreement is still effective. Section 9401(1) determines the proper place to file such a continuation statement. Except as herein specified the provisions of Section 9403(3) apply to such a continuation statement.

10103. Except as provided in the following section, all acts and parts of acts inconsistent with this act are hereby repealed.

10104. The division on documents of title (Division 7) does not repeal or modify any laws prescribing the form or contents

of documents of title or the services or facilities to be afforded by bailees, or otherwise regulating bailees' businesses in respects not specifically dealt with herein; but the fact that such laws are violated does not affect the status of a document of title which otherwise complies with the definition of a document of title (Section 1201).

SEC. 2. Title 1 (commencing at Section 1721) of Part 4 of Division 3; Articles 3A (commencing at Section 1858), 3B (commencing at Section 1858.01) and 3C (commencing at Section 1858.90) of Chapter 2 of Title 3 of Part 4 of Division 3; Article 3 (commencing at Section 2126) of Chapter 3 of Title 7 of Part 4 of Division 3; Article 8 (commencing at Section 2858) of Title 13 of Part 4 of Division 3; Article 3 (commencing at Section 2955) of Chapter 2 of Title 14 of Part 4 of Division 3; Chapter 3 (commencing at Section 2986); Chapter 3a (commencing at Section 3012), Chapter 3b (commencing at Section 3017), and Chapter 3c (commencing at Section 3030) of Title 14 of Part 4 of Division 3; and Title 15 (commencing at Section 3082) of Part 4 of Division 3, of the Civil Code are repealed.

SEC. 3. Section 955 of the Civil Code is amended to read:

955. A transfer other than one intended to create a security interest (Section 9102(1)(a) of the Uniform Commercial Code) of a nonnegotiable instrument which is otherwise negotiable within Division 3 of the Uniform Commercial Code but which is not payable to order or to bearer and a sale of accounts, contract rights or chattel paper as part of a sale of the business out of which they arose (Section 9104(f) of the Uniform Commercial Code) shall be deemed perfected against third persons when such property rights have been endorsed or assigned in writing and in the case of such instruments or chattel paper delivered to the transferee, whether or not notice of such transfer or sale has been given to the obligor; but such endorsement, assignment or delivery shall not be, of itself, notice to the obligor so as to invalidate any payments made by him to the transferor.

SEC. 4. Section 955.1 of the Civil Code is amended to read:

955.1. Except as provided in Section 955, a transfer other than one intended to create a security interest (Section 9102(1)(a) of the Uniform Commercial Code) of any general intangible (Section 9106 of the Uniform Commercial Code) consisting of any right to payment and the transfer of any right represented by a judgment (Section 9104(h) of the Uniform Commercial Code) and any transfer of accounts, contract rights or chattel paper excluded from the coverage of Division 9 of the Uniform Commercial Code by Section 9104(f) thereof shall be deemed perfected as against third persons upon there being executed and delivered to the transferee an assignment thereof in writing; provided, however, that as between bona fide assignees of the same right for value without notice, the assignee first giving notice thereof to the obligor in writing shall have priority; but such assignment

shall not be, of itself, notice to the obligor so as to invalidate any payments made by him to the transferor.

SEC. 5. Section 1624a of the Civil Code is repealed.

SEC. 6. Section 1802.6 of the Civil Code is amended to read:

1802.6 "Retail installment contract" or "contract" means any contract for a retail installment sale between a buyer and seller, entered into or performed in this State, which provides for repayment in installments, whether or not such contract contains a title retention provision, and in which a time price differential is computed upon and added to the unpaid balance at the time of sale or where no time price differential is added but the goods or services are available at a lesser price if paid by cash or where the buyer, if he had paid cash, would have received any additional goods or services or any higher quality goods or services at no added cost over the total amount he pays in installments. When taken or given in connection with a retail installment sale, the term includes but is not limited to a security agreement and a contract for the bailment or leasing of goods by which the bailee or lessee contracts to pay as compensation for their use a sum substantially equivalent to or in excess of their value and by which it is agreed that the bailee or lessee is bound to become, or has the option of becoming, the owner of the goods upon full compliance with the terms of the contract.

SEC. 7. Section 1803.2 of the Civil Code is amended to read:

1803.2. Except as provided in Section 1808.3, every retail installment contract shall be contained in a single document which shall contain:

(a) The entire agreement of the parties with respect to the cost and terms of payment for the goods and services, including any promissory notes or any other evidences of indebtedness between the parties relating to the transaction, and including any promise, whether made in writing or orally, by the seller, made as an inducement to the buyer to become a party to the contract or which is part of the contract or which is made incidental to negotiations between the seller and the buyer with respect to the sale of the goods or services that are the subject of the contract, that the seller will compensate the buyer for referring customers or prospective customers to the seller for goods or services which the seller has for sale or for referring the seller to such customers or prospective customers In any case in which, pursuant to the preceding provisions, the contract contains a promise to compensate the buyer for referring customers or prospective customers to the seller or the seller to such customers, the contract must contain a provision to the effect that the amount otherwise owing under the contract a any time is reduced by the amount of compensation owing pursuant to such promise.

(b) Either at the top of the contract or directly above the space reserved for the signature of the buyer, the words "Se-

curity Agreement" or "Lien Contract," as the case may be, shall appear in at least 10-point bold type where a security interest in the goods is retained or a lien on other goods or realty is obtained by the seller as security for the goods or services purchased. Either at the top of the contract or directly above the space reserved for the signature of the buyer, the words "Retail Installment Contract" shall appear in at least 10-point bold type where security is not obtained by the seller for the goods or services purchased.

(c) A notice in at least eight-point bold type reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank space. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the service charge."

2. If carried by sea from a foreign country, it may be delivered at the wharf where the ship moors, within a reasonable distance from the place of address; or, if there is no wharf, on board a lighter alongside the ship; or,

3. Subject to Section 7303 of the Uniform Commercial Code, in other cases, it must be delivered to the consignee or his agent, personally, if either can, with reasonable diligence, be found.

2980.5. For the purposes of this section bovine animals of the Galloway, Hereford, Polled Hereford, Aberdeen Angus, shorthorn (other than milking shorthorn), and Brahma breeds or crossbreeds within any of said breeds, and steers of any breed or crossbreed, including dairy breeds and crossbreeds, are not "dairy cattle."

(b) Unless any such contract is recorded in accordance with subsection (d) of this section within 10 days after the contract is executed, every provision therein reserving title or property in any such chattels to the lessor after possession of the chattels is delivered to the lessee shall be void as to any purchaser, creditor or encumbrancer who, without actual knowledge of such provision, in good faith and for value purchases the chattels from the lessee or acquires a security interest therein or lien thereon by security agreement attachment or levy, before the contract is so recorded, and as to any other creditor who, without actual knowledge of such provision, in good faith and for value becomes a creditor after possession of the chattels is delivered to the lessee and before the contract is so recorded, and as against any such purchaser, creditor or secured party title or property in any such chattels shall be conclusively presumed to have been transferred to the lessee unless the contract is so recorded.

(c) Without limiting the generality of subsection (b) of this section, for the purposes of this section a secured party having a security interest in livestock or other animate chattels and whose security agreement provides that it shall cover any such chattels subsequently acquired by the debtor shall be deemed to acquire a security interest upon any such chattels, the possession of which is thereafter delivered to the debtor under any contract as above defined, at the time possession thereof is acquired by the debtor, and such security interest shall be prior

and superior to the right, title or interest of the lessor under any such contract unless the contract is recorded within 10 days after the contract is executed.

(d) Any such contract must be acknowledged or proved and certified and must be recorded in the office of the county recorder of the county where the chattels are located at the time the contract is executed and also in the county where the lessee resides unless the lessee is a nonresident. Where the lessee is a corporation or a partnership the county of residence thereof for the purpose of recording such contract shall be deemed to be the county wherein such corporation or partnership has its principal place of business within this State.

3440. Every transfer of personal property and every lien on personal property made by a person having at the time the possession or control of the property, and not accompanied by an immediate delivery followed by an actual and continued change of possession of the things transferred, is conclusively presumed fraudulent and void as against the transferor's creditors while he remains in possession and the successors in interest of those creditors, and as against any person on whom the transferor's estate devolves in trust for the benefit of others than the transferor and as against purchasers or encumbrancers in good faith subsequent to the transfer.

The notice shall contain a general statement of the character of the personal property intended to be transferred and leased back, and show the date when and place where the transaction is to be consummated.

(3) The transferor (lessee) or the transferee (lessor) publishes a copy of the notice pursuant to Section 6061 of the Government Code in a newspaper of general circulation published in the judicial district in which the personal property is situated, if there is one, and if there is none in the judicial district, then in a newspaper of general circulation in the county embracing the judicial district. The publication shall be completed not less than five days before the date of the intended transfer and leaseback.

This section shall not affect the rights of a secured party who acquires from the transferee or his successor a security interest in the personal property transferred if

1. The intended debtor or secured party records at least 10 days before the consummation of the security agreement in the office of the county recorded in the county or counties in which the personal property is situated, a notice of the transfer and intended security agreement which states the names and addresses of the transferor and transferee and of the intended debtor and secured party. The notice shall contain a general statement of the character of the personal property transferred and intended to be subject to the security interest, and show the date when and place where the security agreement is to be consummated, and

2. The intended debtor or secured party publishes a copy of the notice pursuant to Section 6061 of the Government Code in a newspaper of general circulation published in the judicial district in which the personal property is situated, if there is one, and if there is none in the judicial district, then in a newspaper of general circulation in the county embracing the judicial district. The publication shall be completed not less than five days before the date of the intended security agreement.

542. 1. Real property, standing upon the records of the county in the name of the defendant, must be attached, by recording with the recorder of the county a copy of the writ, together with a description of the property attached, and a notice that it is attached, and by serving an occupant of the property, if there is one upon the property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the property, then, by posting the same in a conspicuous place on the property attached. Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

2. Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon the records of the county in the name of the defendant by the provisions of subdivision 1 of this section and the notice of attachment shall state that the real property therein described, and any interest of the defendant therein held by or standing on the records of the county in the name of such other person (naming him), are attached. Growing crops (which, until severance, shall be deemed personal property not capable of manual delivery), or any interest therein, belonging to the defendant, and growing upon real property held by any other person or standing upon the records of the county in the name of any other person, must be attached in the same manner as growing crops growing upon real property standing upon the records of the county in the name of the defendant are attached by the provisions of subdivision 1a of this section, and the notice of attachment shall state that the crops therein described or any interest of the defendant therein, held by, or standing upon

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and with or without notice as the court directs to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold under execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

3. Personal property, capable of manual delivery, in the possession of the defendant, must be attached by taking it into custody.

4. In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff, constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to exceed 15 days. In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each. Such demand must be served as provided in Section 1011 of this code, or by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence. In the event that the money so demanded is not paid, the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless the

provisions of this section shall have been fully complied with There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

5. Debts and credits and other personal property not capable of manual delivery must be attached by leaving with the persons owing such debts, or having in his possession, or under his control, such credits and other personal property, or with his agent or, in the case of a corporation, with the president of the corporation, vice president, secretary, assistant secretary, cashier, or managing agent thereof, a copy of the writ, and, if the demand as stated in the writ does not exceed three hundred dollars ($300) exclusive of interest, attorney's fees and costs, a copy of the complaint in the action from which the writ issued, and, in every case, a notice that the debts owing by him to the defendant, or the credits and other personal property in his possession, or under his control, belonging to the defendant, are attached in pursuance of such writ; provided, that debts owing to defendant arising from personal services rendered at any time within 30 days next preceding the levy of attachment such attachment is subject to the provisions of Section 690.11 of the Code of Civil Procedure; provided, however, that debts owing to the defendant by any of the following financial institutions: (a) banks; (b) savings and loan associations; (c) title insurance companies or underwritten title companies (as defined in Section 12402 of the Insurance Code); (d) industrial loan companies (as defined in Section 18003 of the Financial Code), maintaining branch offices, or credits or other personal property whether or not the same is capable of manual delivery, belonging to the defendant and in the possession of or under the control of such financial institution must be attached by leaving a copy of the writ and the notice, together with a copy of the complaint if required hereunder, with the manager or other officer of such financial institution at the office or branch thereof at which the account evidencing such indebtedness of the defendant is carried, or at which such financial institution has credits or other personal property belonging to the defendant in its possession or under its control; and no attachment shall be effective as to any debt owing by such financial institution if the account evidencing such indebtedness is carried at an office or branch thereof not so served, or as to any credits or other personal property in its possession or under its control at any office or branch thereof not so served. Whenever wages have been attached under the provisions of this subdivision, the notice described above shall state the provisions of Section 690.11 of this code, and shall state that the debtor, to avail

himself of an exemption of more than one-half of his wages earned the preceding 30 days, must file an affidavit with the levying officer as provided in Section 690.26 of this code.

6. Checks, drafts, money orders and other orders for the withdrawal of money from a banking corporation or association, which are in the possession of and payable to the defendant or judgment debtor on demand, must be attached by taking the same into custody, and the sheriff, constable, or marshal, to whom the writ is directed and delivered, shall promptly thereafter endorse the same and present, or cause the same to be presented, for payment. The sheriff, constable, or marshal shall endorse such check, draft, money order or other order for the withdrawal of money by writing the name of the defendant or judgment debtor thereon and the name and official title of the officer making the levy with the statement that such endorsement is made pursuant to levy of writ of attachment or execution and giving the title of court and cause in which such writ was issued, and such endorsement shall be sufficient endorsement and no banking corporation or association on which said check, draft, money order or other order for the withdrawal of money is drawn shall incur any liability to any person, firm or corporation by reason of paying to such officer such check, draft, money order or other order for withdrawal of money by reason of such endorsement, nor shall the officer making the levy incur any liability by reason of his endorsing and presenting for and obtaining payment of such check, draft, money order or other order for the payment of money; provided, however, that the funds or credit resulting from the payment of such check, draft, money order or other order for withdrawal of money shall be held by said officer subject to the levy of said writ of attachment or execution. If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy shall not endorse said check, draft, money order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

SEC. 26 Section 726 of the Code of Civil Procedure is amended to read:

726. There can be but one form of action for the recovery of any debt, or the enforcement of any right secured by mortgage upon real property, which action must be in accordance with the provisions of this chapter. In such action the court may, by its judgment, direct the sale of the encumbered property (or so much thereof as may be necessary), and the application of the proceeds of the sale to the payment of the costs of court, and the expenses of the sale, and the amount due plaintiff, including, where the mortgage provides for the payment of attorney's fees, such sum for such fees as the court shall find reasonable, not exceeding the amount named in the mortgage.

The court may, by its judgment, or at any time after judgment, appoint a commissioner to sell the encumbered property. It must require of him an undertaking in an amount fixed by the court, with sufficient sureties, to be approved by the judge, to the effect that the commissioner will faithfully perform the duties of his office according to law. Before entering upon the discharge of his duties he must file such undertaking, so approved, together with his oath that he will faithfully perform the duties of his office.

The decree for the foreclosure of a mortgage or deed of trust secured by real property or any interest therein shall declare the amount of the indebtedness or right so secured and, unless judgment for any deficiency there may be between the sale price and the amount due with costs is waived by the judgment creditor, shall determine the personal liability of any defendant for the payment of the debt secured by such mortgage or deed of trust and shall name such defendants against whom a deficiency judgment may be ordered following the proceedings hereinafter prescribed. In the event of such waiver the decree shall so declare and there shall be no judgment for a deficiency. In the event that a deficiency is not waived and it is decreed that any defendant is personally liable for such debt, then upon application of the plaintiff filed at any time within three months of the date of the foreclosure sale and after a hearing thereon at which the court shall take evidence and at which hearing either party may present evidence as to the fair value of the property or the interest therein sold as of the date of sale, the court shall render a money judgment against such defendant or defendants for the amount by which the amount of the indebtedness with interest and costs of sale and of action exceeds the fair value of the property or interest therein sold as of the date of sale; provided, however, that in no event shall the amount of said judgment, exclusive of interest from the date of sale and of costs exceed the difference between the amount for which the property was sold and the entire amount of the indebtedness secured by said mortgage or deed of trust. Notice of such hearing must be served upon all defendants who have appeared in the action and against whom a deficiency judgment is sought, or upon their attorneys of record, at least 15 days before the date set for such hearing.

Upon application of any party made at least 10 days before the date set for such hearing the court shall, and upon its own motion the court at any time may, appoint one of the inheritance tax appraisers provided for by law to appraise the property or the interest therein sold as of the time of sale. Such appraiser shall file his appraisal with the clerk and the same shall be admissible in evidence. Such appraiser shall take and subscribe an oath to be attached to the appraisal that he has truly, honestly and impartially appraised the property to the best of his knowledge and ability. Any appraiser so appointed may be called and examined as a witness by any party or by the court itself. The court must fix the compensation, not to exceed $5 per day, and expenses for the time actually engaged in such appraisal, which may be taxed and allowed in like manner as other costs.

No person holding a conveyance from or under the mortgagor of the property mortgaged, or having a lien thereon, which conveyance or lien does not appear of record in the proper office at the time of the commencement of the action need be made a party to such action, and the judgment therein rendered, and the proceedings therein had, are as conclusive against the party holding such unrecorded conveyance or lien as if he had been a party to the action.

If the court appoint a commissioner for the sale of the property, he must sell it in the manner provided by law for the sale of like property by the sheriff upon execution; and the provisions of Chapter 1, Title 9, Part 2, of this code are hereby made applicable to sale made by such commissioner, and the powers therein given and the duties therein imposed on sheriffs are extended to such commissioner.

In all cases heretofore, now or hereafter pending in the courts of this State, in the event of the death, absence from the State, other disability or disqualification of the commissioner appointed to sell encumbered property under the foregoing provisions of this section, the court may, upon the happening of either the death, absence from the State, other disability or disqualification of the commissioner, appoint an elisor to perform the duties of such commissioner which are then to be performed in such action. The elisor so appointed shall give the undertaking, and take the oath hereinbefore provided to be given and taken by a commissioner, before entering upon the discharge of his duties, and shall thereafter perform all duties left unperformed by the commissioner whom he is appointed to succeed, with like effect as if such duties had been performed by the commissioner.

If the land mortgaged consists of a single parcel, or two or more contiguous parcels, situated in two or more counties, the court may, in its judgment, direct the whole thereof to be sold in one of such counties by the sheriff, commissioner or elisor, as the case may be, and upon such proceedings, and with like effect, as if the whole of the property were situated in that county.

CHAPTER 836

An act to amend Section 16 of, and to add Sections 36 and 37 to, the Mojave Water Agency Law (Chapter 2146, Statutes of 1959), relating to the Mojave Water Agency, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 8, 1963. Filed with Secretary of State June 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 16 of the Mojave Water Agency Law (Chapter 2146, Statutes of 1959) is amended to read:

SEC. 16. The agency may annually levy an assessment against pumping within the agency as limited in subdivision (b) of Section 37 and shall fix and collect rates and charges for water sold by the agency which together with the assessment against pumping will be in an amount sufficient to pay not less than the variable costs under any contract entered into with the State, for the purchase of water, and shall annually, at the time county taxes are levied, levy an ad valorem tax on land only within the agency not to exceed 45 cents per $100 assessed valuation for the purpose of paying all other costs, expenses and obligations of the agency under any such contract. If such an ad valorem tax on land only at 45 cents per $100 assessed valuation will not yield adequate revenue for such purpose, the agency shall at the same time levy a further ad valorem tax on all taxable property, exclusive of personal property, within the agency for the additional revenue required for the purpose of paying all other costs, expenses and obligations of the agency under any such contract. For the purposes of this section, the term "variable costs" shall mean those costs paid by the agency which constitute operation, maintenance, power and replacement costs incurred in an amount which is dependent upon and varies with the amount of project water delivered to the agency by the State.

To accomplish the administration of the agency there shall be levied a tax not to exceed ten cents ($0.10) on each one hundred dollars ($100) of the assessed valuation of all taxable property in the agency exclusive of personal property. Taxes to provide the principal and interest on bonded indebtedness shall be levied on all the property in the area subject to such taxation when duly authorized by a vote of the electors. These taxes shall be levied and collected with, and not separately from, taxes for county purposes and the revenue derived from these taxes shall be paid into the treasury of the county to the credit of the agency and the board shall have the power to control and order the expenditure thereof. The provisions of the laws of the State of California prescribing the priority, time, and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency and the redemption from such sale and the duties

of the various county officers with respect thereof, are, so far as they are applicable and not in conflict with the specific provisions of this act, hereby adopted for the agency and made a part hereof. Such officers shall be liable upon their several bonds for the faithful discharge of the duties imposed upon them by this act.

SEC. 2. Section 36 is added to said act, to read:

Sec. 36. The board of directors, so far as practicable, shall fix such rates and charges for water for delivery within the agency and within each improvement district therein as will result in revenues which will pay not less than the amount required to: (a) pay the related operating expenses of the agency, and the improvement district, including variable costs as defined in Section 16 of that portion of water received by the agency from the State, (b) provide for repairs, (c) provide for other expenses of the agency, (d) provide for development of other waters, (e) provide a reasonable surplus for improvements, extensions, and enlargements, (f) pay the interest on any bonded debt, and (g) provide a sinking or other fund for the payment of the principal of such debt as it may become due. Said rates and charges for water in each improvement district may vary from the rates and charges of the agency and of other improvement districts therein.

SEC. 3. Section 37 is added to said act, to read:

Sec. 37. (a) The Mojave Water Agency shall have the power to initiate in the name of the agency before any court of the United States or the State of California an adjudication of substantially all of the rights of whatever nature to extract water from any of the ground water basins underlying or affecting the water supply or to divert flowing water within any natural drainage area and to determine the natural safe yield of such ground water basins and stream systems affecting the water supply within the Mojave Water Agency. Any person claiming any right, title or interest to the natural waters within the Mojave Water Agency including those persons set forth in the complaint filed by the agency shall within 30 days after completion of the publication of summons or personal service, appear by answer setting forth the rights so claimed

(b) At the conclusion of the adjudication provided for in subdivision (a), of all or substantially all of the rights of whatever nature to extract water from any ground water basin underlying or effecting the water supply in the Mojave Water Agency and to divert flowing water within the natural drainage area of the Mojave Water Agency and a determination of the natural safe yield of the basin and stream system affecting the water supply in the Mojave Water Agency and a determination of the amount or extent of which the rights so adjudicated may be exercised without exceeding the natural safe yield of such water supply, the board shall recognize such judicial determination by exempting from assessments against pumping the amount of water obtained by each person whose rights have been so adjudicated which does not exceed his

proportionate share of natural safe yield of the water supplies within the adjudicated area. The assessment against pumping may thenceforth be levied on each producer by multiplying the production in acre-feet of water so produced by such producer's water producing facility in excess of his allocated share of the safe yield by the rate of the assessment against pumping fixed and levied by the board for the fiscal year in which such production shall occur.

(c) To the extent that water supplies are augmented under this act, no person shall acquire any property or other right in water distributed by the agency.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The amendments made by the act will make changes in the law which are necessary in order for the Mojave Water Agency to be able to enter into a contract with the State for delivery of water from the State Water Facilities. Under the terms of the existing contracts with other Southern California water districts and agencies, it is necessary for the Mojave Water Agency to enter into such a contract by June 30, 1963, in order to participate in negotiations as to the timing of the construction of the East Branch Aqueduct. In view of this, it is essential that this act go into immediate effect.

No exhibit shall be ordered destroyed or otherwise disposed of pursuant to the provisions of this section which conveys title to or creates a lien on real property, or where a party to the action or proceeding files a written notice with the court requesting the preservation of any exhibit for a stated time. Such exhibit may be destroyed after such time unless another notice is filed.

CHAPTER 838

An act to amend Section 2984 of the Civil Code, relating to automobile sales financing.

A correction which will increase the amount of the contract balance or the amount of any installment as such amounts appear on the conditional sale contract shall not be effective unless the buyer concurs in writing to the correction. If notified in writing by the buyer of such a failure to comply with any provision of this chapter, the correction shall be made within 10 days of notice. Where any provision of a conditional sale contract fails to comply with any provision of this chapter, the correction shall be made by mailing or delivering a corrected copy of the contract to the buyer. Any amount improperly collected by the holder from the buyer shall be credited against the indebtedness evidenced by the contract or returned to the buyer. A violation corrected as provided in this section shall not be the basis of any recovery by the buyer or affect the enforceability of the contract by the holder and shall not be deemed to be a substantive change in the agreement of the parties.

CHAPTER 839

An act to add Part 5 (commencing with Section 50000) to Division 10 of the Public Utilities Code, to provide for the creation of the Stockton Metropolitan Transit District, prescribing the powers and duties thereof, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 8, 1963. Filed with Secretary of State June 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Part 5 (commencing with Section 50000) is added to Division 10 of the Public Utilities Code, to read:

PART 5. STOCKTON METROPOLITAN TRANSIT DISTRICT

CHAPTER 1. GENERAL PROVISIONS

Article 1. Definitions

50000. This part shall be known and cited as the "Stockton Metropolitan Transit District Act of 1963."

50001. Unless the context otherwise requires, the provisions of this article govern the construction of this part.

50002. "District" means the Stockton Metropolitan Transit District formed under this part.

50003. "Board" means the board of directors of this district.

50004. "Voter" means any elector who is registered under the Elections Code.

50005. "Transit" means the transportation of passengers and their incidental baggage by any means.

50006. "Transit works" or "transit facilities" means all real and personal property, equipment, rights, or interests owned or to be acquired by the district for transit service.

Article 2. General Provisions

50010. It is necessary that a transit district be established in the Stockton metropolitan area which includes the City of Stockton and adjacent territory situated in San Joaquin County in order to meet the transit problem of the area. The problem is unique in that presently there are several existing transportation facilities serving various parts of the area but independently operated, without interchange of transportation services, and without possibility of merger. The geographic location of the city to the area requiring transportation services makes it necessary to develop a single transit system to protect the public interest.

50011. The Stockton Metropolitan Transit District may be created as provided in this part and when so created may exercise the powers herein granted.

50012. Except as otherwise provided in this part elections shall be held and conducted and the result ascertained, determined, and declared in, all respects as nearly as practicable in conformity with the general election laws of the State.

50013. Except as otherwise provided in this part all ordinances and notices which are required to be published shall be published within the district pursuant to Section 6066 of the Government Code.

50014. Whenever the signature of any officer or employee of a district or of any member of the retirement board or of any officer or employee of the retirement system is authorized or required under the provisions of this part, except in the single instance provided in Section 50243, the signature may be made by the use of a plate bearing facsimiles of such signatures.

CHAPTER 2. FORMATION OF DISTRICT

Article 1. General Provisions

50020. The City of Stockton, together with unincorporated territory, may organize and incorporate as the Stockton Metropolitan Transit District.

50021. The request for the formation of the Stockton Metropolitan Transit District may be made by resolution or by petition as set out in this chapter.

Article 2. Request by Resolution

50025. The legislative body of the City of Stockton may pass a resolution declaring that in its opinion public interest or necessity demands the creation and maintenance of the Stockton Metropolitan Transit District.

50026. The resolution may state the transit facilities proposed to be first acquired, but failure to acquire such transit facilities shall not affect the validity of the district. The resolution shall set forth and describe the boundaries of the proposed district.

50027 Certified copies of the resolution shall be presented to the Board of Supervisors of San Joaquin County requesting the board of supervisors to call an election without delay for determining whether the district will be created.

Article 3. Request by Petition

50030. Instead of a resolution, a petition may be presented to the board of supervisors signed by voters within the proposed district equal in number to at least 25 percent of the total vote cast at the last general election.

50031. The petition shall contain substantially the same declarations and statements required to be contained in the resolution presented to the board of supervisors under this chapter, including the description of the boundaries, and declare that, in the opinion of the petitioners, public interest or necessity demands the creation and maintenance of the metropolitan transit district.

50032. The petition may be on separate papers, but each paper shall contain the affidavit of the person who circulated it certifying that each name signed thereto is a true signature of the person whose name it purports to be.

50033. The County Clerk of the County of San Joaquin shall compare the signatures to the petition with the affidavits of registration and certify to their sufficiency or insufficiency.

Article 4. Election

50035. Upon receipt of certified copies of the resolution or of a sufficient petition, the board of supervisors shall hold a hearing on the question of forming a Stockton Metropolitan Transit District. All interested persons shall be given an opportunity to express their views at the hearing.

50036. The board of supervisors shall have the power to exclude unincorporated areas which, in the board's determination, would not receive reasonable benefit from inclusion in the district.

50037. At the conclusion of the hearing, if the board of supervisors approves the resolution or petition as originally presented or in modified form, it shall by resolution entered upon its minutes:

(a) Fix and describe the exterior boundaries of the proposed district as determined by the board of supervisors.

(b) Fix the date on which an election will be held in the proposed district and the hours during which the polls will be open.

(c) State the purpose for which the election is held.

50038. The election shall be held not less than 60 days nor more than 90 days from the date of the adoption of the resolution prescribed by Section 50037.

50039. The election shall be called by publishing notice calling the election pursuant to Section 6066 of the Government Code not less than 20 days before the election. Said notice need only specify the time and place of the election, the hours during which the polls will be open, the purpose of the election, and the description of the exterior boundaries of the proposed district as determined by the board of supervisors.

No notice of the election other than the notice prescribed by this section need be given except that the county clerk shall mail notice of polling place and purpose of election to each qualified elector of the proposed district.

50040. The ballot for the election shall contain such instructions as are required by law to be printed thereon and in addition thereto the following:

Shall the "Stockton Metropolitan Transit District" be created and established?	YES	
	NO	

50041. No person shall be entitled to vote at the election unless he is a voter of the territory included in the proposed district.

50042. The election may be held on the same day as any other state, county, or city election, and be consolidated therewith.

50043. The board of supervisors shall meet on the Tuesday next succeeding the day of the election and canvass the returns.

50044. The board of supervisors shall make all provisions for the holding of the election throughout the entire district as proposed, and shall pay the cost thereof.

50045. If a special election is held exclusively on the proposition of organizing the district, the expenditure therefor shall be reimbursed to the county by means of a tax on all the taxable property within the territory which was proposed to be included in the district, and this tax shall be added to the next county tax bills by the proper official of the county.

Article 5. Establishment of the District

50050. If a majority of the electors voting on the proposition vote in favor of the creation and establishment of the district, the board of supervisors shall cause a certified copy of the order declaring the result of the election to be filed in the office of the Secretary of State, from and after which the establishment of the district shall be deemed complete.

Article 6. Contest of Incorporation

50055. No informality in any proceeding or in the conduct of the election, not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate the incorporation of the district. Any proceedings wherein the validity of incorporation is denied shall be commenced within three months from the date of filing the order declaring the result of the election with the Secretary of State, otherwise the incorporation and the legal existence of the district shall be held to be valid and in every respect legal and incontestable.

Chapter 3. Internal Organization of District

Article 1. Government

50060. The government of the district shall be vested in a board of five members. Two of the directors shall be ap-

pointed by the Board of Supervisors of the County of San Joaquin. Two of the directors shall be appointed by the City Council of the City of Stockton. The board of supervisors, together with five members of the city council appointed by the mayor shall constitute a board of election to appoint the other director. This director shall be chairman of the board. A majority vote is necessary for the appointment of the chairman of the board.

50061. These appointments shall be made within 30 days after the formation of the district.

50062. A vacancy on the board shall be filled by the body which appointed the director whose office is vacated and the new appointee shall hold his office for the unexpired term.

50063. Each director shall, within 10 days after his appointment and before entering upon the discharge of his duties of his office, take and subscribe to an oath in the form set forth in Section 3 of Article XX of the Constitution of California before an officer authorized by law to administer oaths. The oaths shall be filed in the office of the district.

50064. A person shall not be appointed to or be a member of the board unless he is a resident of the district and has resided within the district at least one year immediately prior to his appointment to the board.

Article 2. Terms of Office

50067. The term of office of each director is four years from the time of his appointment, except that the chairman first appointed shall hold office for two years, and the remaining directors first appointed to the board shall classify themselves by lot, so that the two appointed by the board of supervisors shall hold office for one and three years and the two appointed by the city council shall hold office for two and four years.

Article 3. Powers and Duties of Directors

50070. The chairman is the presiding officer of the board and he shall vote on the propositions passed upon by the board.

50071. The first meeting of the board shall be held within 10 days of the appointment of its chairman. The board may make its own rules of procedure and determine the place and time of its meeting.

50072. The board shall select one of its members vice chairman, who shall preside in the absence of its chairman. The board shall provide for and select such officers as it deems necessary to conduct the affairs of the district.

50073. All matters and things necessary for the proper administration of the affairs of the district which are not provided for in this part shall be provided for by the board.

50074. The board shall supervise and regulate every transit facility owned and operated by the district, including

the fixing of rates, rentals, charges and classifications, and the making and enforcement of rules, regulations, contracts, practices, and schedules, for or in connection with any transit facility owned or controlled by the district.

50075. The board may either operate the transit system itself, or it may contract with the City of Stockton, or with any other public or private agency, to operate the transit system for the district.

50076. The board may adopt a personnel system for the purpose of recruiting and maintaining an effective working force with good morale. The board shall by resolution determine and create such number and character of positions as are necessary properly to carry on the functions of the district and shall establish an appropriate salary, salary range, or wage for each position so created. The board may by resolution abolish any such position. Except as otherwise provided, appointments to such positions shall be made by the general manager.

50097. The general manager need not be a resident of this State at the time of his appointment.

50098. The general manager may be removed by the board upon the adoption of a resolution by the affirmative vote of not less than a majority of the board. Before the general manager may be removed, he shall, if he demands it, be given a written statement of the reasons alleged for his removal and he shall have the right to be publicly heard thereon at a meeting of the board prior to the final vote on the resolution providing for his removal, but pending and during such hearing the board may suspend him from office. The board may not reduce the salary of the general manager below the amount fixed at the time of his original appointment except upon the adoption of a resolution by a like vote and after a like opportunity to be heard. The action of the board in suspending or removing the general manager or reducing his salary, if approved by a majority of the membership of the board, is final.

50099. Notwithstanding anything to the contrary in Section 50098, until such time as the district has operated, controlled, or used facilities or parts of facilities for providing the inhabitants within the boundaries of the district with transit services for a period of six months, the board may, but is not required to, appoint a general manager. 50109. The general manager shall provide for the custody of the funds of the district and the keeping of accounts of all receipts and disbursements. Payments shall be made only upon warrants duly and regularly signed by the chairman or vice chairman of the board, or other person authorized by the board so to do, and by the general manager or secretary.

50110. With the consent of the board, the general manager may:

(a) Authorize the trust department of any state or national bank in this State, or a trust company authorized to act as such in this State, to receive as his agent deposits of any securities acquired by the district.

CHAPTER 4. LABOR PROVISIONS

50120. Whenever a majority of the employees employed by said transit district in a unit appropriate for collective bargaining indicate a desire to be represented by a labor organization, the board, upon determining as provided in Section 50121 that said labor organization represents the employees in the appropriate unit, and the accredited representative shall bargain in good faith and make all reasonable efforts to reach agreement on the terms of a written contract governing wages, salaries, hours, working conditions and grievance procedures. In case of a dispute over the terms of a written contract governing wages, salaries, hours or working conditions, which is not resolved by negotiations in good faith between the board and the representatives of the employees, the board and the representatives of the employees shall submit said dispute to the decision of the majority of an arbitration board, and the decision of a majority of such arbitration board shall

be final. The arbitration board shall be composed of two representatives of the transit board and two representatives of the labor organization, and they shall endeavor to agree upon the selection of a fifth member. If they are unable to agree, the fifth member shall be designated by the Secretary of the Judicial Council and shall be a person experienced in labor arbitrations. The expenses of such impartial arbitrator shall be provided half by the transit board and half by the labor organization.

No contract or agreement shall be made with any labor organization, association, group or individual where such organization, association, group or individual denies membership on the grounds of race, creed or color, provided such organization may preclude from membership any individual who advocates the overthrow of the government by force or violence.

50121. If there is a question whether a labor organization represents a majority of employees or whether the proposed unit is or is not appropriate, such matters shall be submitted to the State Conciliation Service for disposition. The State Conciliation Service shall promptly hold a public hearing and may, by decision, establish the boundaries of any collective bargaining unit and provide for an election to determine the question of representation. Provided, however, any certification of a labor organization to represent or act for the employees in any collective bargaining unit shall not be subject to challenge on the ground that a new substantial question of representation within such collective bargaining unit exists until the lapse of one year from the date of certification or the expiration of any collective bargaining agreement, whichever is later.

50122. Whenever any district acquires existing facilities from a publicly or privately owned public utility either in proceedings by eminent domain or otherwise, to the extent necessary for operation of facilities, all of the employees of such public utility whose duties pertain to the facilities acquired who have been employed by said utility for at least seventy-five (75) days shall be appointed to comparable positions in the district without examination and shall be governed thereafter by the personnel system adopted by the board, and these employees shall be given sick leave, seniority and vacation credits in accordance with the records of the acquired public utility.

The provisions of this section shall apply only to those officers or supervisory employees of the acquired utility as shall be designated by the board.

50123. Whenever any district acquires existing facilities from a publicly or privately owned public utility, either in proceedings in eminent domain or otherwise, that has a pension plan in operation, members and beneficiaries of such pension plan shall continue to have the rights, privileges, benefits, obligations and status with respect to such established system.

Whenever any such facilities are acquired by the district, the board shall consider and take into account the outstanding obligations and liabilities of the publicly or privately owned public utility by reason of such pension plan and shall negotiate an allowance in the purchase price of such utility for the assumption of such obligations and liabilities when acquiring the facilities.

50124. The persons entitled to pension benefits as provided for in Section 50123 and the benefits which are provided shall be specified in the agreement or order by which any public utility is acquired by the district.

50125. All persons receiving pension benefits from such acquired public utility and all persons entitled to pension benefits under the pension plan of such acquired public utility may become members or receive pensions under the retirement system established by the district by mutual agreement of such persons and the district.

50126. Notwithstanding any provisions of the Government Code, the board may authorize payment of any or all of the premiums on any group life, accident and health insurance, health and welfare plan, or pension or retirement plan, on officers or employees of a district. Upon authorization by its employees, a district may make deductions from the wages and salaries of its employees:

(a) Pursuant to a collective bargaining agreement with a duly designated or certified labor organization for the payment of union dues, fees, or assessments.

(b) For the payment of contributions pursuant to any health and welfare, pension, or retirement plan.

(c) For any purpose for which deductions may be authorized by employees of any private employer.

CHAPTER 5. RETIREMENT SYSTEM

Article 1. Establishment

50130. The board may establish a retirement system for the officers and employees of the district and provide for the payment of annuities, pensions, retirement allowances, disability payments, and death benefits or any of them.

50131. The district may maintain its own retirement fund or may provide for benefits to eligible officers and employees, or their beneficiaries, by means of group insurance, or other insurance, or by such means as in the opinion of the board will satisfactorily provide an adequate and sure method of meeting the payments contemplated by the retirement system.

50132. Before establishing any retirement system the board shall secure a report from a qualified actuary, which shall show the cost of the benefits provided by the system, and the prospective assets and liabilities of the system.

50133. The board may adopt all ordinances and resolutions and perform all acts necessary or convenient to the initiation, maintenance, and administration of the retirement system.

50134. Nothing in this chapter prevents a district from participating in and making all or part of its employees members of the State Employees' Retirement System by contract entered into between the district and the board of administration of the system under the State Employees' Retirement Law or from participating in the Federal Social Security Act pursuant to Part 4 (commencing with Section 22000), Division 5, Title 2 of the Government Code, and the district may perform all acts necessary or convenient for such participation.

50135. The board may classify and determine the officers and employees who shall be included as members in the retirement system and may change the classification from time to time. Membership of all officers and employees so classified and included in the retirement system is compulsory. The retirement system shall not apply to members of the board.

Article 2. Benefits and Contributions

50140. The board may prescribe the terms and conditions upon which the officers and employees of the district or their beneficiaries shall be entitled to benefits and the amounts thereof.

50141. The retirement allowance may be predicated in part upon service rendered the district by a member prior to the establishment of the retirement system, which service is known as "prior service."

50142. The board shall provide that both the district and the members shall contribute to the retirement system. The rate of contribution by an officer or employee of the district becoming a member of the retirement system shall be so fixed as to provide, with accumulated interest and based on tables and assumptions adopted by the board, substantially one-half the value of any retirement allowance granted for service, exclusive of any credits allowed for prior service.

50143. All members of the retirement system shall contribute in the manner and amount fixed by the board and such contributions may be collected by deducting the amounts thereof from the salary, wages, or compensation due such members.

50144. Liabilities accruing under the retirement system because of benefits other than such as are the equivalent of contributions by the members, with accumulated interests, shall be met by contributions by the district. Prior service or other liabilities of the district may be met by annual appropriations instead of by one appropriation for the total of the liabilities; but until the present value of regular contributions for current service, together with assets then available, equals the present value of all allowances and benefits granted or to be granted under the system, the appropriation for any one

year when added to any unused balance of any previous appropriations for such purpose shall not be less than the amount disbursed during that year on account of prior service or other liabilities of the district.

50145. If any member withdraws from the retirement system prior to retirement the total amount contributed by him with such interest as may be credited thereto shall be returned to him; provided, however, that the board may prescribe the terms and conditions upon which a member, whose district service is terminated except by death or retirement, may elect to leave his contributions and interest thereon in the retirement fund, and the terms and conditions upon which a retirement allowance may be made to him after such termination based upon his contributions prior to such termination.

50146. All money received by any person as an annuity, pension, retirement allowance, disability payment, or death benefit from the retirement system, and all contributions and interest thereon returned to any member of the retirement system, whether in the actual possession of such person or deposited, loaned, or invested by him, is exempt from execution, garnishment, or attachment and is unassignable.

Article 3. Retirement Board

50150. The board shall create a retirement board of not more than five members, at least two members of which shall be the elected representatives of the employees, to administer the retirement system, and shall define its powers and duties and the tenure of the members.

50151. All members of the retirement board shall serve without pay.

50152. The retirement board shall determine the eligibility of officers, employees, and their dependents to participation in the system and shall be the sole authority and judge under such ordinances as may be adopted by the board as to the conditions under which persons may be admitted to and continue to receive benefits of any sort under the retirement system, and may modify allowances for service and disability. The determination of the retirement board shall be final and conclusive and shall not be modified or set aside except for fraud or abuse of discretion.

50153. If the district maintains its own retirement fund the retirement board shall have exclusive control of the administration, investment, and disbursement of such fund. Investment of the fund shall be subject to the terms, conditions, limitations, and restrictions imposed by the laws of this State upon savings banks in the making of investments by savings banks, and cash may be deposited in any licensed national bank or banks in this State or in any bank, banks, or corporations authorized or licensed to do a banking business and organized under the laws of this State.

Article 4. Investigation and Penalties

50155. At least once in each four-year period after the establishment of the retirement system the board shall cause to be made an actuarial valuation of the assets and liabilities of the retirement fund, and upon the basis of such investigation and valuation shall make such revision or change of the rates of contribution, the periods and conditions of service, and amounts of retirement allowances as may be necessary.

50156. Except as herein provided, no member of the board or of the retirement board, nor any member of the retirement system or employee of the district, shall have any interest direct or indirect in the making of any investment or in the gains or profits accruing therefrom, and no such person, directly or indirectly, for himself or as an agent or partner of others, shall borrow any of its funds, nor shall any such person in any manner use the same except to make such current and necessary payments as are authorized by the retirement board, nor shall such a person become an endorser or surety as to, or in any manner an obligor for investments of the retirement fund.

50162. The district shall have or exercise the right of eminent domain in the manner provided by law for the condemnation of private property for public use. The district may take any property necessary or convenient to the exercise of the powers granted in this part whether the property is already devoted to the same use or otherwise. In the proceedings, venue, and trial relative to the exercise of the right, the district has all the rights, powers, and privileges of an incorporated city and all rights, powers, and privileges conferred in this part. The district shall proceed in the name of the district in condemnation proceedings. The district, in exercising such power shall, in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction, or relocation of any structure, railways, mains, pipes, conduits, cables, or poles of any public utility or public district which is required to be moved to a new location.

The board may reject any and all bids and readvertise in its discretion.

50171. If after rejecting bids the board determines and declares by a four-fifths vote of all its members that in its opinion the supplies, equipment and materials may be purchased at a lower price in the open market, the board may proceed to purchase the supplies, equipment and materials in the open market without further observance of the provisions requiring contracts, bids or notice.

50172. In case of any great public calamity, such as an extraordinary fire, flood, storm, epidemic, or other disaster, the board may, by resolution passed by a four-fifths vote of all its members declare and determine that public interest and necessity demand the immediate expenditure of public money to safeguard life, health, or property, and thereupon proceed to expend or enter into a contract involving the expenditure of any sum needed in such emergency without observance of the provisions requiring contracts, bids, or notice.

Article 4. Property

50175. The district may take by grant, purchase, gift, devise or lease, or condemn in proceedings under eminent domain, or otherwise acquire, and hold and enjoy, real and personal property of every kind within or without the district necessary to the full or convenient exercise of its powers. in its judgment it is for the best interests of the district so to do.

50176. Whenever the board by resolution determines that any record, map, book, or paper in the possession of the district or any officer or employee thereof is of no further value to the district, the board may authorize its sale, destruction, or other disposition.

Article 5. Transit Facilities and Service

50181. The district may without limitation by any other provisions of this part requiring approval of indebtedness, accept contributions of money, rights-of-way, labor, materials, and any other property for the acquisition, construction, maintenance, and operation of transit facilities, and may without limitation by any other provisions of this part enter into any contracts and co-operation with and accept co-operation from the State, or any department, instrumentality, or agency thereof, or any public agency in the acquisition, construction, maintenance, and operation of, and in financing the acquisition, construction, maintenance, and operation of, any such transit facilities.

The district may borrow money for the purpose of defraying the expenses of the district lawfully incurred after the commencement of the fiscal year, but prior to the time moneys from the tax levy for the fiscal year are received by the district, in a sum which shall not exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation of taxable property in the district at the time the moneys are borrowed, and may evidence such borrowing by notes bearing interest at a rate not to exceed 6 percent per annum. The notes shall be payable from the tax levy from the then current fiscal year, which levy shall contain a sum sufficient to provide for the payment of the notes and the interest thereon. The

50212. The board shall, in addition to the general tax levy as set forth in Section 50210, levy and collect annually until the district's bonds are paid, or until there is a sum in the treasury of the district set apart for that purpose to meet all sums coming due for principal and interest on the bonds as they become due a tax sufficient to pay the annual interest on

the bonds and such part of the principal thereof as becomes due before the proceeds of a tax levied at the next general tax levy will be available. If the maturity of the indebtedness created by the issue of bonds begins more than one year after the date of the issuance thereof, the tax shall be levied and collected annually at the time and in the manner aforesaid, sufficient to pay the interest on the indebtedness as it falls due and to constitute a sinking fund for the payment of the principal on or before maturity.

50213. The board may provide for the assessment, levy, and collection of taxes by the district, including the sale of property to the district for delinquent taxes, with penalties, interest, and cost.

50214. The board shall avail itself of the assessments made by the assessor of the county and of the assessments made by the State Board of Equalization for the county and shall take such assessments as the basis for district taxation and have its taxes collected by the tax collector of the county.

50215. In such case the county auditor shall, on or before the third Monday in August of each year, transmit to the board a statement in writing showing the total value of all property within the district, ascertained from the assessments referred to in Section 50214 as equalized.

50216. The board shall, on or before the first weekday in September, or if such weekday falls upon a holiday then on the first business day thereafter, fix the rate of taxes, designating the number of cents upon each hundred dollars, using as a basis the value of property transmitted to the board by the county auditors, which rate of taxation shall be sufficient to raise the amount previously fixed by the board. These acts by the board shall constitute a valid assessment of the property and a valid levy of the taxes so fixed, but the rate of taxation shall not exceed the limit imposed by this article.

50217. The board shall immediately after fixing the rate of taxes as above provided transmit to the county auditor of the county a statement of the rate of taxes fixed by the board.

50218. The districts's taxes so levied shall be collected at the same time and in the same manner as county taxes. When collected the net amount, ascertained as provided in this article, shall be paid to the treasurer of the district, under the general requirements and penalties provided by law for the settlement of other taxes

50219. Whenever any real property has been sold for taxes and has been redeemed, the money paid for redemption shall be apportioned and paid to the district by the county treasurer in the proportion which the tax due to the district bears to the total tax for which the property was sold.

50220 The compensation to be charged by and paid to any county for the performance of services under this article shall be fixed by agreement between the board of supervisors of the county and the board. The compensation shall in no event exceed one-half of 1 percent of all money collected

for the district. The compensation collected by the county shall be placed to the credit of the county general fund.

All taxes levied under this part are a lien on the property on which they are levied and shall become a lien at the same time as county taxes. The enforcement of the collection of such taxes shall be in the same manner and by the same means provided by law for the enforcement of liens for county taxes, all the provisions of law relating to the enforcement of the latter being made a part of this part so far as applicable.

CHAPTER 7. BONDS

Article 1. Issuance

50225. The district may from time to time incur a bonded indebtedness as provided in this chapter to pay the cost of acquiring, constructing, or completing the whole or any portion of any transit facilities, or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district.

50226. Whenever the board by resolution passed by vote of two-thirds of all its members determines that the public interest or necessity demands the acquisition, construction, or completion by the district of any transit facilities or any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, the cost of which will be too great to be paid out of the ordinary annual income and revenue of the district, it may at any subsequent meeting of the board provide by ordinance for the submission of the proposition of incurring a bonded indebtedness for the purpose set forth in the resolution to the voters of the district at a special bond election held for that purpose.

50227. In lieu of a resolution passed by the board, proceedings for the issuance of bonds for the purposes provided in this chapter may be initiated by petition of the voters of the district.

50228. Whenever any petition signed by voters within the district equal in number to at least 15 percent of the total vote cast at the last general statewide election is presented to the board asking for the acquisition, construction, or completion of the whole or any portion of any transit facilities or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, and also asking that a bonded indebtedness be incurred to pay for the cost thereof, the secretary of the district shall immediately examine and verify the signatures of the petition and certify the result of the examination to the board.

50229. If the required number of signatures is found to be genuine, the secretary shall transmit to the board an authentic copy of the petition without the signatures.

50230. Upon receiving a petition with the certificate of the secretary stating that it contains the required number of signatures, the board shall formulate for submission to the voters of the district at a special bond election called for that purpose the proposition of incurring a bonded indebtedness for the purposes set forth in the petition. In its discretion the board may defer the calling of the election until the next general election to be held in the district in order to consolidate them.

50231. The ordinance calling a special bond election shall fix the date on which the election will be held, and the manner of holding the election and of voting for or against incurring the indebtedness. It shall also recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the transit facilities, works, lands, structures, rights, equipment, or other property proposed to be acquired, constructed, or completed, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness, which shall not exceed 6 percent per annum, payable semiannually or annually the first year and thereafter semiannually.

50232. Propositions for incurring indebtedness for more than one object or purpose may be submitted at the same election.

50233. Any special bond election may be held separately, or may be consolidated with any other election authorized by law at which the voters of the district may vote. If a special bond election is consolidated with any other election, the provisions of this chapter setting forth the procedure for the calling and holding of the special bond election shall be complied with, except that the ordinance calling the election need not set forth the election precincts, polling places, and officers of election, but may provide that the precincts, polling places, and officers of election shall be the same as those set forth in the ordinance, notice, or other proceedings calling the election with which the special bond election is consolidated, and shall refer to the ordinance, notice, or other proceedings by number and title, or by other definite description.

50234. The ordinance shall be published, and no other notice of election need be given.

50235. The board shall comply with the provisions of Article 3 (commencing with Section 3780) of Chapter 2 of Division 4 of the Elections Code, the provisions of which are applicable to any bond election held pursuant to this article. Wherever the words "county clerk" appear in the Elections Code the words "secretary of the board" shall be substituted, for the purposes of this article, and wherever the words "board

of supervisors" appear in the Elections Code, the words "board of directors" shall be substituted, and wherever the words "district attorney or county counsel" appear in the Elections Code, the words, "attorney for the district" shall be substituted.

50236. The votes of a majority of all the voters voting on the proposition at the election are required to authorize the issuance of bonds under this chapter.

50237. If the proposition submitted at a special bond election fails to receive the requisite number of votes, the board shall not within six months after the election hold another special election for the submission of a proposition of incurring a bonded indebtedness substantially the same as the proposition voted upon at the prior election unless a petition signed by voters within the district equal in number to at least 15 percent of the total vote cast at the last general statewide election is filed with the board, requesting that the proposition, or a proposition substantially the same, be submitted at an election to be called for that purpose.

Article 2. Form and Content

50240. Bonds authorized by this chapter shall mature serially in amounts to be fixed by the board; except that payment shall begin not later than 10 years from the date thereof and shall be completed in not more than 50 years from that date.

The board may divide any issue of bonds authorized pursuant to this chapter into two or more series, and may fix different dates of issuance and different maturity dates for the bonds of each series. The bonds of each series shall mature serially in amounts to be fixed by the board, and the board shall fix a date not more than 10 years from the date of issuance of each series for the earliest maturity of such series, and shall fix a date not more than 50 years from the date of issuance of each series for the final maturity of such series.

Pending the actual issuance or delivery of bonds, a district may issue temporary or interim bonds, certificates, or receipts, of any denomination whatsoever, with or without coupon, and in such form as may be prescribed by the board, to be exchanged for definite bonds when ready for delivery.

50241. The bonds shall be issued in such denominations as the board determines, except that no bonds shall be of a denomination less than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000) or any multiple thereof, and shall be payable on the day and at the place or places fixed in the bonds, and with interest at the rate specified therein, payable semiannually.

50242. The board may at any time prior to the issuance and sale of any bonds provide for the call and redemption of any or all of the bonds on any interest payment date prior to

their fixed maturity at not exceeding the par value and accrued interest plus a premium of not exceeding 5 percent upon the principal amount of the bonds, in which event the call price fixed by the board shall be set forth on the face of the bond. Notice of such redemption shall be published. If there is no newspaper of general circulation printed and published within the district, then the publication shall be made in a newspaper of general circulation printed and published within the county in which the district or any part thereof is situated. The first publication shall be at least 30 days prior to the date fixed for the redemption. After the date fixed for such redemption interest on the bonds thereafter shall cease.

50243. The bonds shall be signed by the president of the board or by such officer of the district as the board shall by resolution authorize and designate for that purpose. They shall also be signed by the treasurer, and be countersigned by the secretary. The coupons of the bonds shall be numbered consecutively and be signed by the treasurer. All signatures and countersignatures, except one of the signatures or countersignatures on the bonds, may be printed, lithographed, or engraved. If any officer whose signature or countersignature appears on the bonds or coupons ceases to be such officer before the delivery of the bonds to the purchaser, the signature or countersignature is nevertheless valid and sufficient for all purposes as if he had remained in office until the delivery of the bonds.

Article 3. Issue and Sale

50245. The bonds may be issued and sold for not less than their par value, but otherwise as the board determines. Before selling any bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as the board may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either again give notice inviting bids or sell the bonds at private sale.

50246. All premiums and accrued interest received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds. The remainder of the proceeds of the bonds shall be placed in the district treasury to the credit of the proper fund, and shall be used exclusively for the objects or purposes for which the bonds were voted; provided that when such objects and purposes have been accomplished any moneys remaining shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, and that when all principal of and interest on the bonds shall have been paid, any balance of money then remaining shall be transferred to the general fund of the district.

50247. In lieu of the immediate levy of a tax to pay the interest or any part thereof on any bonded indebtedness incurred in accordance with this division, the board may in the estimate of the amount of money necessary to be raised by the bonds include a sum sufficient to pay interest on all of the bonds or part thereof during the period of acquisition, construction, or completion, but for no period in excess of five years.

Article 4. Refunding

50250. Whenever the board by resolution passed by a vote of two-thirds of all its members determines that the refunding of the whole or any portion of the bonded indebtedness will be of advantage to the district the board may refund the bonded indebtedness or any portion thereof and issue refunding bonds of the district therefor.

50251. The issuance of refunding bonds shall not be construed as the incurring or increase of an indebtedness within the meaning of this act, and the approval of the voters is not required for the issuance of refunding bonds. The board may provide for the call and redemption of any or all of the bonds on any interest payment date prior to their fixed maturity in the ordinance authorizing the issuance of the refunding bonds.

50252. Except as otherwise provided, the provisions of this chapter shall substantially govern as to all matters pertaining to the issuance of refunding bonds, including and without limiting the generality of the foregoing, the form, execution, issuance, maturity, redemption, refunding, validation, the payment of interest from bond funds, and the status of the bonds as investments.

50253. Refunding bonds shall bear interest at a rate not exceeding the interest rate on the refunded bonds, but payment of the refunding bonds shall begin not later than one year from the date thereof and be completed in not more than 40 years from that date.

50254. The proceeds of the sale of refunding bonds shall be applied only to the purchase, or retirement at not more than par and accrued interest, or the call price, of the bonded indebtedness for which the refunding bonds were issued.

50255. In lieu of selling refunding bonds and using the proceeds to purchase or retire the bonds to be refunded, the board may exchange refunding bonds at not less than par and accrued interest for the bonds so refunded.

50256. Whenever outstanding bonds are refunded they shall be surrendered to the treasurer of the district, who shall cancel them by endorsing on their face the manner in which the refunding was effected (whether by exchange or purchase, and the amount for which so purchased, if any) and by perforating through each bond and each coupon attached thereto the word "canceled" together with the date of cancellation.

Article 5. Status as Investments

50260. All bonds including refunding bonds issued by a district are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the State School Fund and for all sinking funds under the control of the State Treasurer. Whenever any money or funds may by law be invested in or loaned upon the security of bonds of cities, cities and counties, counties, or school districts, in the State, such money or funds may be invested in or loaned upon the security of the bonds of the district; and whenever bonds of cities, cities and counties, counties, or school districts by law may be used as security for the faithful performance or execution of any court or private trust or of any other act, bonds of the district may be so used.

50261. All bonds of the district, to the same extent as bonds of any other municipality, are legal for use by any state or national bank or banks in the the State as security for the deposit of funds of the State or of any county, city and county, city, municipality or other public or municipal corporation within the State.

Article 6. Validation

50263. An action to determine the validity of bonds, including refunding bonds, may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

Article 7. Revenue Bonds

50265. As an alternative procedure for the raising of funds, the district may issue bonds, payable from revenues of any facility or enterprise to be acquired or constructed by the district, in the manner provided by the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code), all of the provisions of which are applicable to the district.

50266. The district is a local agency within the meaning of the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code). The term "enterprise" as used in the Revenue Bond Law of 1941 shall, for all purposes of this part, include transit facilities and any and all parts thereof and all additions, extensions and improvements thereto and all other facilities authorized to be acquired, constructed or completed by the district. A district may issue revenue bonds under the Revenue Bond Law of 1941, for any one or more facilities or enterprises authorized to be acquired, constructed, or completed by a district or, in the alternative, may issue revenue bonds under the Revenue Bond Law of 1941, for the acquisition, construction and completion of any one of such facilities.

Nothing in this article shall prevent the district from availing itself of, or making use of, any procedure provided in this part for the issuance of bonds of any type or character for any of the facilities or works authorized hereunder, and all proceedings may be carried on simultaneously or, in the alternative, as the directors may determine.

CHAPTER 8. ANNEXATION

50270. Territory may be annexed to the district in the manner provided in this chapter.

50271. Whenever the board finds and determines that additional territory will be benefited by annexation to the district, it shall pass a resolution to that effect.

50272. The resolution shall be passed by a vote of two-thirds of the members of the board and be approved by the board of supervisors of the county in which the territory is situated.

50273. The resolution shall:

(a) Describe the boundaries of the territory proposed to be annexed.

(b) Designate the proposed annexation by an appropriate name.

(c) Declare that the area to be annexed to the district will be benefited by such annexation.

(d) Name the time and place for the hearing of objections by any person interested in the proposed annexation.

50274. The resolution, together with the names of the members of the board, voting for and against it shall be published pursuant to Section 6066 of the Government Code in a newspaper published in the territory proposed to be annexed, or if there is no such paper, then in some newspaper of general circulation, circulated in such territory.

50275. On the day fixed for hearing or any day to which the hearing is adjourned, the board shall hear and consider any objections presented to the annexation of the territory. After the hearing of objections, if it shall be determined by a vote of two-thirds of all the members of the board that the territory proposed to be annexed will be benefited by such annexation, the board shall proceed to fix and determine the boundaries of the territory to be annexed to the district.

50276. After making all necessary and proper changes in the boundaries, by a resolution passed by a vote of two-thirds of the members, the board shall order the annexation of the territory so described. The resolution, together with the names of the members of the board voting for and against the same shall be spread upon the minutes of the board.

50277. Whenever any territory is annexed to the district it shall thereupon become a part of the district subject to all the liabilities and entitled to all the benefits of the district.

CHAPTER 9. DISSOLUTION

50500. If the district operates no transit facilities, or its exterior boundaries become coincident with the boundaries of a single city, the board may call an election at any time for the purpose of submitting to the voters of the district the question of whether the district will be dissolved. Upon the filing with the secretary of the district of a petition signed by voters within the district equal in number to at least 25 percent of the total vote cast at the last general statewide election, asking that the question of dissolution of the district be submitted to the voters of the district, the board shall call such an election.

50501. The election for the purpose of submitting to the voters of the district the question of whether or not the district shall be dissolved shall be held within 60 days next succeeding the date on which the petition is filed.

50502. Notice of any election for dissolution, whether called because of the filing of a petition or ordered by the board without petition, shall be published. The date fixed for the election shall not be less than 30 days from the date of the first publication of the notice.

50503. The ballots for the election shall contain substantially the instructions required to be printed on ballots for use at general state and county elections and in addition the following:

Shall the Stockton Metropolitan Transit District be dissolved?	YES	
	NO	

50504. The board shall canvass the vote. If a majority of the votes favor dissolution, the board shall by resolution dissolve the district

50505. The board shall file a certified copy of the resolution with the Secretary of State and for record in the office of the county recorder.

50506. Upon dissolution the right, title, and interest to property owned or controlled by the district situated within the limits of any city vests absolutely in the city. If such property is situated outside the limits of a city, it vests in the county in which it is situated.

50507. The board of supervisors is, ex officio, the governing body of any dissolved district. It may levy taxes and assessments and perform other acts necessary to wind up the district affairs and to raise money for the payment of outstanding indebtedness.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into effect immediately. The facts constituting such necessity are:

The existing transportation facilities serving the Stockton metropolitan area are provided by several privately owned

public utilities, one of which serves the City of Stockton and which is presently subsidized by local downtown merchants and business establishments of the city. Necessity for such subsidy resulted from failure and refusal on the part of the utility serving the downtown area to arbitrate differences regarding conditions of employment with its employees causing a work stoppage to the detriment of the community served by the utility. In order to eliminate the possibility of a further stoppage of public transportation services at the expiration of the present subsidy agreement, it is necessary that this act take effect immediately.

CHAPTER 840

An act to amend Sections 13055 and 13056 of the Education Code, relating to personnel of the public school system, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 8, 1963. Filed with Secretary of State June 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13055 of the Education Code is amended to read:

13055. Any person employed by a school district, including a district having the merit system as outlined in Article 5 of Chapter 3 of this division, or by a county superintendent of schools in a position in which 50 percent or more of his duties regularly performed during the school year consist of rendering service in directing, co-ordinating, supervising or administering any portion or all of the types of functions listed below in this section shall hold a valid teaching or service credential issued or renewed pursuant to this code. Those persons so employed before, on, or after the effective date of this section but prior to July 1, 1963, who held or hold valid credentials during the entire period of such employment shall be deemed to be or to have been certificated employees for the entire period of such employment. On and after July 1, 1963, no school district shall employ a person to render such service unless a person holds a valid teaching or service credential, and also holds a supervision credential or an administration credential authorizing the particular service. Any person who was employed by a district on or before February 1, 1963, to perform any of the services designated by the State Board of Education to require a supervision or administration credential, may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed to perform the same services in that district in which he was employed on that date, or is continuously employed to perform the same services in a district which results from a reorganization involving the same district. The State Board of

Education shall, on or before July 1, 1963, determine whether a supervision credential or an administration credential shall authorize the service of directing, co-ordinating, supervising or administering all or any portion or portions of the types of functions listed below in this section. On or before such date the board shall establish standards for and issue credentials authorizing such service if such service is not authorized by an administration or supervision credential which the board is authorized to issue under other provisions of law in effect on such date.

(f) Research connected with the evaluation and efficiency of the instructional program.

(g) The school health program.

(h) Activities connected with the enforcement of the laws relating to compulsory education, co-ordination of child welfare activities involving the school and the home, and the school adjustment of pupils

(i) The school library services.

(j) The preparation and distribution of instructional materials.

(k) The inservice training of certificated personnel.

(*l*) The interpretation and evaluation of the school instructional program.

(m) The preparation of budgets of funds to be used for educational purposes.

(n) The interpretation or evaluation from an educational standpoint of equipment, material, and housing.

(o) The interpretation and evaluation of school information in terms of educational significance and from an educational standpoint or viewpoint.

SEC. 2. Section 13056 of said code is amended to read.

13056. (a) Any person employed by a school district, including a district having the merit system as outlined in Article 5 of Chapter 3 of this division, at a particular school maintained by the district, in a directing, co-ordinating, supervising, or administrative capacity in connection with the instructional or guidance program for pupils or employees in positions requiring certification qualifications shall hold a valid

teaching or service credential issued or renewed pursuant to this code.

(b) Any person employed by a school district, including a district having the merit system as outlined in Article 5 of Chapter 3 of this division, as a director, co-ordinator, or supervisor in the area of the school cocurricular program related to and an outgrowth of the instructional and guidance program of the school shall be deemed to be employed in a certificated position and shall hold a valid teaching or service credential issued or renewed pursuant to this code.

(c) Those persons so employed before, on, or after the effective date of this section but prior to July 1, 1963, who held or hold valid teaching or service credentials during the entire period of such employment shall be deemed to be or to have been certificated employees for the entire period of such employment. On and after July 1, 1963, no school district shall employ a person to render such service unless the person holds a valid teaching or service credential and also holds a supervision credential authorizing such service. Any person who was employed by a district on or before February 1, 1963, to perform any of the services designated by the State Board of Education to require a supervision credential, may continue to perform such services, without possessing the credential otherwise required as long as he remains continuously employed to perform the same services in that district which he was performing on that date. The State Board of Education shall, on or before July 1, 1963, establish standards for and issue supervision credentials authorizing such service, if such service is not authorized by an administration or supervision credential which the board is authorized to issue under other provisions of law in effect on such date.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Unless this act is to take effect immediately certain school district personnel will be unable to continue to perform certain services requiring a supervision credential.

CHAPTER 841

An act to add Sections 16606.5 and 16633.5 to the Education Code, relating to child care centers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 8, 1963. Filed with Secretary of State June 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 16606.5 is added to the Education Code, to read:

16606.5. The county superintendent of schools of each county, with the approval of the county board of education, shall have the authority to establish and maintain child care centers in the same manner and to the same extent as governing boards of school districts, except that nothing in this section shall be construed as vesting in the county superintendent of schools any authority to alone effect the levy and collection of any county, school, or other local taxes for the support of any such child care center.

The establishment and maintenance of any child care center by the county superintendent of schools shall be undertaken, subject to the prior approval of the county board of education, upon the application of one or more school districts under his jurisdiction, and such establishment and maintenance shall be upon such terms and conditions as may be provided for in a written contract entered into between the county superintendent of schools and the governing board of any such district.

SEC. 2. Section 16633.5 is added to said code, to read:

16633.5. Any school district, the governing board of which has entered into a contract with the county superintendent of schools for the establishment and maintenance of a child care center pursuant to Section 16606.5, shall be deemed, for purposes of Section 16633, to be maintaining a child care center

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is an urgent need for all-day child care for farm laborers during the harvest season. In order that child care centers may be established and operating during the spring and summer harvests of 1963, it is necessary that this act take effect immediately.

CHAPTER 842

An act to amend Section 11524 of the Government Code, relating to administrative adjudication.

[Approved by Governor June 8, 1963. Filed with Secretary of State June 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 11524 of the Government Code is amended to read:

11524. CHAPTER 857

[A.B. 940 having remained with the Governor 10 days (Sundays excepted), and the Legislature being in session, it became law without his signature. (See Section 9516, Government Code.) Filed with Secretary of State June 10, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 258 of the Probate Code is amended to read:

258. No person who has unlawfully and intentionally caused the death of a decedent, and no person who has caused the death of a decedent in the perpetration or attempt to perpetrate arson, rape, robbery, burglary, mayhem, or any act punishable under Section 288, Penal Code, shall be entitled to succeed to any portion of the estate or to take under any will of the decedent; but the portion thereof to which he would otherwise be entitled to succeed goes to the other persons entitled thereto under the provisions of this chapter or under the will of the decedent. A conviction or acquittal on a charge of murder or voluntary manslaughter shall be a conclusive determination of the unlawfulness or lawfulness of a causing of death, for the purposes of this section.

CHAPTER 858

An act to add Section 273 to the Revenue and Taxation Code, relating to the welfare exemption, and declaring the urgency thereof, to take effect immediately.

[A.B 1346, having remained with the Governor 10 days (Sundays excepted), and the Legislature being in session, it became law without his signature. (See Section 9516, Government Code.) Filed with Secretary of State June 10, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 273 is added to the Revenue and Taxation Code, to read:

273. If an organization qualified for the welfare exemption pursuant to Section 214 owned property of a kind that, as its principal place of business, qualified for the exemption on the lien date for the fiscal year commencing during the calendar year 1961 and subsequent to that lien date sold the property to a public agency for community redevelopment purposes, any tax or penalty or interest thereon for such fiscal year on other property owned by such organization which was acquired by it prior to August 1, 1961, for use as its principal place of business, and of a kind that presently qualifies for the welfare exemption and that would have so qualified for such fiscal year had it been owned by such organization on such lien date, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some organizations qualified for the welfare exemption were compelled to sell their property, constituting their principal place of business, to public agencies for community redevelopment purposes and purchased other property during the 1961 calendar year, after the lien date for that year, which other property was used as their principal place of business and taxed for the fiscal year 1961-62, although it would have been exempt from taxation for that year by reason of the welfare exemption had it been acquired prior to such lien date. If required to meet such tax obligation, the ability of such organization to function effectively will be seriously impaired, to the great detriment of our State. This act will remedy that situation, and in doing so the public policy of the

State for the exemption of property owned by organizations qualified for the welfare exemption, as expressed in Section 1c of Article XIII of the Constitution, will be subserved and the State as a whole will benefit.

CHAPTER 859

176. The provisions of the interstate compact between the States of Arizona and California referred to in Section 175 are as follows:

INTERSTATE COMPACT DEFINING THE BOUNDARY BETWEEN THE STATES OF ARIZONA AND CALIFORNIA

Article I. Purpose.

The boundary between the States of Arizona and California on the Colorado River has become indefinite and uncertain because of meanderings in the main channel of the Colorado River with the result that a state of confusion exists as to the true and correct location of the boundary, and the enforcement and administration of the laws of the two states and of the United States have been rendered difficult.

The purpose of this compact is to fix by reference to stations of longitude and latitude the location of the boundary line between Arizona and California on the Colorado River from the southern boundary of the State of Nevada to the point on

the international boundary which is common to the boundaries of Arizona and California and the United Mexican States.

Article II. Description.

The boundary between the States of Arizona and California on the Colorado River from the point where the oblique boundary between California and Nevada intersects the thirty-fifth degree of north latitude, said point being common to the boundaries of the States of Arizona, California and Nevada, to the point on the international boundary which is common to the boundaries of Arizona, California and the United Mexican States, shall be in accordance with the following description in general terms of 34 points on the boundary:

Point No. 6, which is the center of the overflow section of Parker Dam across the Colorado River; thence downstream midway between the shore lines on the right and left banks of the Colorado River to

Point No. 7, which lies in the center of the Colorado River approximately 2,050 feet upstream from the earthfill of Headgate Rock Dam; thence on a straight line to

Point No. 18, which is at the center of the overflow section of Laguna Dam; thence on a straight line to

Point No. 19, which lies on the centerline of the Colorado River approximately 5,800 feet southwesterly of Point 18; thence down the Colorado River midway between the shore lines on the right and left banks, around a curve to the eastward to

Point No. 20, which lies on the centerline of the Colorado River where said centerline intersects the section line between Sections 4 and 9, Township 8 South, Range 22 West, Gila and Salt River Meridian; thence departing from the river on a

westerly course along the extension of the above-mentioned section line about 0.65 mile to

Point No. 21, which will be the northwest corner of the northeast quarter of Section 8, Township 8 South, Range 22 West, Gila and Salt River Meridian, which shall be resurveyed in establishing this boundary; thence southerly along the centerline of said Section 8 about one-half mile to

Point No. 22, which is the northeast corner of the southwest quarter of Section 8, Township 8 South, Range 22 West, Gila and Salt River Meridian; thence westerly about one and one-half miles to

Point No. 23, which is the west quarter corner of Section 7, Township 8 South, Range 22 West, Gila and Salt River Meridian; thence southerly about one-half mile to

Point No. 24, which is the southwest corner of Section 7, Township 8 South, Range 22 West, Gila and Salt River Meridian; thence westerly about one mile to

Point No. 25, which is the southwest corner of Section 12, Township 8 South, Range 23 West, Gila and Salt River Meridian, thence southerly about one-half mile to

Point No. 26, which is the west quarter corner of Section 13, Township 8 South, Range 23 West, Gila and Salt River Meridian; thence westerly about 1.93 miles to

Point No. 27, which lies on the east shoulder of the north-south road through the Indian School approximately 370 feet due east of the northwest corner of the southwest quarter of the southwest quarter of Section 25, Township 16 South, Range 22 East, San Bernardino Meridian; thence southerly along and with the easterly shoulder line of the said north-south road approximately 700 feet to

Point No 28, which lies on the easterly shoulder line of said north-south road due east of the northeast corner of the stone retaining wall around the Indian School Hospital; thence due west to

Point No. 29, which is the base of the northeast corner of said retaining wall; thence southerly along and with the westerly shoulder of said north-south road to

Point No. 30, which lies on the westerly shoulder line of said north-south road 330 feet south of and approximately 110 feet east of the northeast corner of Section 35, Township 16 South, Range 22 East, San Bernardino Meridian; thence due west approximately 110 feet to

Point No. 31, which lies on the east line of Section 35, Township 16 South, Range 22 East, San Bernardino Meridian, exactly 330 feet south of the northeast corner of said Section 35, thence southerly along the east line of said Section 35 to

Point No. 32, which lies at the center of the Colorado River, i.e., midway between the north and south shore lines just downstream from the centerline of the old U. S. Highway 80 Bridge across the Colorado River; thence down the center line of the

Colorado River midway between the shore lines on the right and left banks to

Point No. 33, which is a point in the Colorado River vertically below the center of the new U. S. Highway 80 Bridge; thence down the centerline of the Colorado River midway between the shore lines on the right and left banks to

Point No. 34, which is the intersection of the centerline of the Colorado River and the International Boundary Line between California and the United Mexican States, which point is common to the boundaries of Arizona, the United Mexican States, and California.

These points will be marked on existing bridges and dams and where appropriate will be monumented. Between each of these points will be a number of subpoints not monumented. The total number of points and subpoints will approximate 234. The United States Coast and Geodetic Survey will locate the above-mentioned 34 points on the boundary by precise geodetic surveys. The Coast and Geodetic Survey will locate the remaining approximately 200 unmonumented subpoints by precise photogrammetric methods and will provide a list of the geographic positions and state coordinate positions (transverse Mercator system for Arizona and Lambert system for California) of each of the 234 points on the boundary. The approximately 200 unmonumented subpoints will be identified on copies of the aerial photographs by the State of Arizona and California to define the boundary; the Coast and Geodetic Survey will then locate the points so identified by analytic aerotriangulation (photogrammetric methods).

When the survey and boundary description has been completed by the United States Coast and Geodetic Survey and the Boundary Commissions of Arizona and California have each certified that it is in conformity with the General Description of Boundary between Arizona and California set forth herein, it shall be attached hereto and marked Exhibit "A" and made a part hereof as though fully incorporated herein as the permanent description of the boundary between the states of Arizona and California.

Article III. Ratification and Effective Date.

This compact shall become operative when it has been ratified and approved by the legislatures of the states of Arizona and California, and approved by the Congress of the United States.

Executed in duplicate this 12th day of March, A.D., One Thousand Nine Hundred and Sixty-three, at Sacramento, California.

The Secretary of State of the State of California shall transmit a duly certified copy of this act to the Governor of the State of Arizona. The Governor of this state, whenever officially advised that the State of Arizona has ratified and approved the compact set forth in Section 1 and whenever the Congress of the United States has approved the compact, shall make proclamation of that fact. A copy of such proclamation shall be published one time in one newspaper of general circulation in the county seat of Imperial, Riverside and San Bernardino Counties.

SEC. 3. *Petition to Congress*

The Congress of the United States, as soon as the State of Arizona has ratified and approved the compact set forth in

Section 1 and when Exhibit "A" has been attached thereto as provided for in the compact, is petitioned pursuant to Article I, Section 10, clause 3 of the United States Constitution, to give its consent to the compact between the States of Arizona and California, as set forth in Section 1. The Secretary of State of the State of California, in concurrence with the Secretary of State of the State of Arizona, shall transmit duly certified copies of this act to the presiding officers of the Senate and House of Representatives of the United States and to the several Senators and Representatives from the States of Arizona and California to the Congress of the United States, who are petitioned to take such action as they deem proper to procure the consent of the Congress of the United States to this compact between the States of Arizona and California.

SEC. 4. Preservation of Rights

Nothing contained in the provisions of this act, or any operation thereof, shall prejudice the titles, rights or claims of any person, public or private, natural or artificial, to any of the lands herein involved, whether such titles, rights or claims arise or exist upon the basis that the lands affected by the designation of boundary as set forth in the compact and in this act were previously a part of the State of Arizona and have now become a part of the State of California, or were previously a part of the State of California and have now become a part of the State of Arizona, or otherwise; and no person shall be prejudiced in the water rights which he now has by reason of anything contained in this act.

SEC. 5. Recordation of Documents

Upon approval by the Congress of the United States of the compact set forth in Section 1 of this act, the Secretary of State shall cause to be recorded in each of the offices of the County Recorders of Imperial, Riverside and San Bernardino Counties a certified copy of this act. As to lands theretofore considered a part of the State of Arizona which, under the terms of said compact, are within the boundaries of the State of California, from and after the date of such recording, certified copies of patents, deeds, and other instruments affecting the title to the lands which shall have been recorded in the office of the county recorder of the county in Arizona in which the lands were so considered to be located shall be accepted and recorded by the county recorder of the county in California in which the lands are located under the terms of the compact, without charge therefor. Recordings made under the provisions of this section shall have retroactive effect as constructive notice to the date of their original recording in the State of Arizona.

A true and complete copy of the compact with Exhibit "A" attached thereto shall be filed for a permanent public record in the office of the California Secretary of State by the Colorado River Boundary Commission of California, and certified copies thereof shall be filed in the office of the California State Lands Commission, and thereupon the Executive Officer of the State

Lands Commission shall cause to be recorded in Imperial, Riverside and San Bernardino Counties true copies thereof certified by him. Upon recordation thereof, such certified copy shall be notice to all persons of the particulars of the compact and survey and boundary description.

CHAPTER 860

An act to add Title 6 (commencing with Section 1350) to Part 4, Division Second, of the Civil Code, to add Section 783 to the Civil Code, to add Section 752b to the Code of Civil Procedure, to add Section 2188.3 to the Revenue and Taxation Code, and to add Section 11535.1 to the Business and Professions Code and Section 659 of the Civil Code, relating to condominiums.

[Approved by Governor June 11, 1963. Filed with Secretary of State June 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 783 is added to the Civil Code, to read:

783. A condominium is an estate in real property consisting of an undivided interest in common in a portion of a parcel of real property together with a separate interest in space in a residential, industrial or commercial building on such real property, such as an apartment, office or store. A condominium may include in addition a separate interest in other portions of such real property.

Such estate may, with respect to the duration of its enjoyment, be either (1) an estate of inheritance or perpetual estate, (2) an estate for life, or (3) an estate for years.

SEC. 2. Section 752b is added to the Code of Civil Procedure, to read:

752b. Where several persons own condominiums, as defined in Section 783 of the Civil Code, in a condominum project, as defined in Section 1350 of the Civil Code, an action may be brought by one or more of such persons for partition thereof by sale of the entire project, as if the owners of all of the condominiums in such project were tenants-in-common in the entire project in the same proportion as their interests in the common areas, provided, however, that a partition shall be made only upon the showing that (1) three years after damage or destruction to the project which renders a material part thereof unfit for its use prior thereto, the project has not been rebuilt or repaired substantially to its state prior to its damage or destruction, or (2) that three-fourths or more of the project has been destroyed or substantially damaged, and that condominium owners holding in aggregate more than a 50 percent interest in the common areas are opposed to repair or restoration of the project, or (3) that the project has been in existence

in excess of 50 years, that it is obsolete and uneconomic, and that condominium owners holding in aggregate more than a 50 percent interest in the common areas are opposed to repair or restoration of the project, or (4) that conditions for such a partition by sale set forth in restrictions entered into with respect to such project, pursuant to the provisions of Chapter 1 (commencing with Section 1350), Title 6, Part 4, Division Second of the Civil Code have been met.

SEC. 3. Title 6 is added to Part 4, Division Second of the Civil Code, to read:

TITLE 6. CONDOMINIUMS

CHAPTER 1. GENERAL PROVISIONS

1350. As used in this title unless the context otherwise requires:

1. "Condominium" means a condominium as defined in Section 783 of the Civil Code.

2. "Unit" means the elements of a condominium which are not owned in common with the owners of other condominiums in the project.

3. "Project" means the entire parcel of real property divided, or to be divided into condominiums, including all structures thereon.

4. "Common areas" means the entire project excepting all units therein granted or reserved.

5. "To divide" real property means to divide the ownership thereof by conveying one or more condominiums therein but less than the whole thereof.

1351. The provisions of this chapter shall apply to property divided or to be divided into condominiums only if there shall be recorded in the county in which such property lies a plan consisting of (i) a description or survey map of the surface of the land included within the project, (ii) diagrammatic floor plans of the building or buildings built or to be built thereon in sufficient detail to identify each unit, its relative location and approximate dimensions, and (iii) a certificate consenting to the recordation of such plan pursuant to this chapter signed and acknowledged by the record owner of such property and all record holders of security interests therein. Such plan may be amended or revoked by a subsequently acknowledged recorded instrument executed by the record owner of such property and by all record holders of security interests therein. Until recordation of a revocation, the provisions of this chapter shall continue to apply to such property. The term "record owner" as used in this section includes all of the record owners of such property at the time of recordation, but does not include holders of security interests, mineral interests, easements or rights of way.

1352. Unless otherwise expressly stated therein, any transfer or conveyance of a unit or an apartment, office or store

which is a part of a unit, shall be presumed to transfer or convey the entire condominium.

1353. Unless otherwise expressly provided in the deeds, declaration of restrictions or plan, the incidents of a condominium grant are as follows:

(a) The boundaries of the unit granted are the interior surfaces of the perimeter walls, floors, ceilings, windows and doors thereof, and the unit includes both the portions of the building so described and the airspace so encompassed. The following are not part of the unit: bearing walls, columns, floors, roofs, foundations, elevator equipment and shafts, central heating, central refrigeration and central air-conditioning equipment, reservoirs, tanks, pumps and other central services, pipes, ducts, flues, chutes, conduits, wires and other utility installations, wherever located, except the outlets thereof when located within the unit. In interpreting deeds and plans the existing physical boundaries of the unit or of a unit reconstructed in substantial accordance with the original plans thereof shall be conclusively presumed to be its boundaries rather than the metes and bounds expressed in the deed or plan, regardless of settling or lateral movement of the building and regardless of minor variance between boundaries shown on the plan or in the deed and those of the building.

(b) The common areas are owned by the owners of the units as tenants in common, in equal shares, one for each unit.

(c) A nonexclusive easement for ingress, egress and support through the common areas is appurtenant to each unit and the common areas are subject to such easements.

(d) Each condominium owner shall have the exclusive right to paint, repaint, tile, wax, paper or otherwise refinish and decorate the inner surfaces of the walls, ceilings, floors, windows and doors bounding his own unit.

1354. Except as provided in Section 752b of the Code of Civil Procedure, the common areas shall remain undivided, and there shall be no judicial partition thereof. Nothing herein shall be deemed to prevent partition of a cotenancy in a condominium.

1355. The owner of a project shall, prior to the conveyance of any condominium therein, record a declaration of restrictions relating to such project, which restrictions shall be enforceable equitable servitudes where reasonable, and shall inure to and bind all owners of condominiums in the project. Such servitudes, unless otherwise provided, may be enforced by any owner of a condominium in the project, and may provide, among other things:

(a) For the management of the project by one or more of the following management bodies: the condominium owners, a board of governors elected by the owners, or a management agent elected by the owners or the board or named in the declaration; for voting majorities, quorums, notices, meeting dates, and other rules governing such body or bodies; and for recordation from time to time, as provided for in the declara-

tion, of certificates of identity of the persons then composing such management body or bodies, which certificates shall be conclusive evidence thereof in favor of any person relying thereon in good faith.

(b) As to any such management body:

(1) For the powers thereof, including power to enforce the provisions of the declaration of restrictions;

(2) For maintenance by it of fire, casualty, liability, workmen's compensation and other insurance insuring condominium owners, and for bonding of the members of any management body;

(3) For provision by it of and payment by it for maintenance, utility, gardening and other services benefiting the common areas; for employment of personnel necessary for operation of the building, and legal and accounting services;

(4) For purchase by it of materials, supplies and the like and for maintenance and repair of the common areas;

(5) For payment by it of taxes and special assessments which would be a lien upon the entire project or common areas, and for discharge by it of any lien or encumbrance levied against the entire project or common areas;

(6) For payment by it for reconstruction of any portion or portions of the project damaged or destroyed;

(7) For delegation by it of its powers;

(8) For entry by it or its agents into any unit when necessary in connection with maintenance or construction for which such body is responsible;

(9) For an irrevocable power of attorney to the management body to sell the entire project for the benefit of all of the owners thereof when partition of the project may be had under Section 752b of the Code of Civil Procedure, which said power shall: (i) be binding upon all of the owners, whether they assume the obligations of the restrictions or not; (ii) if so provided in the declaration, be exercisable by less than all (but not less than a majority) of the management body; (iii) be exercisable only after recordation of a certificate by those who have power to exercise it that said power is properly exercisable hereunder, which certificate shall be conclusive evidence thereof in favor of any person relying thereon in good faith.

(c) For amendments of such restrictions which amendments, if reasonable and made upon vote or consent of not less than a majority in interest of the owners in the project given after reasonable notice, shall be binding upon every owner and every condominium subject thereto whether the burdens thereon are increased or decreased thereby, and whether the owner of each and every condominium consents thereto or not.

(d) For independent audit of the accounts of any management body.

(e) (1) For reasonable assessments to meet authorized expenditures of any management body, and for a reasonable method for notice and levy thereof, each condominium to be

assessed separately for its share of such expenses in proportion (unless otherwise provided) to its owner's fractional interest in any common areas;

(2) For the subordination of the liens securing such assessments to other liens either generally or specifically described.

(f) For the conditions upon which partition may be had of the project pursuant to Section 752b of the Code of Civil Procedure. Such right to partition may be conditioned upon failure of the condominium owners to elect to rebuild within a certain period, specified inadequacy of insurance proceeds, specified damage to the building, a decision of an arbitrator, or upon any other reasonable condition.

(g) For restrictions upon the severability of the component interests in real property which comprise a condominium as defined in Section 783 of the Civil Code. Such restrictions shall not be deemed conditions repugnant to the interest created within the meaning of Section 711 of the Civil Code; provided, however, that no such restrictions shall extend beyond the period in which the right to partition a project is suspended under Section 752b of the Code of Civil Procedure.

1356. A reasonable assessment upon any condominium made in accordance with a recorded declaration of restrictions permitted by Section 1355 shall be a debt of the owner thereof at the time the assessment is made. The amount of any such assessment plus any other charges thereon, such as interest, costs (including attorneys' fees), and penalties, as such may be provided for in the declaration of restrictions, shall be and become a lien upon the condominium assessed when the management body causes to be recorded with the county recorder of the county in which such condominium is located a notice of assessment, which shall state the amount of such assessment and such other charges thereon as may be authorized by the declaration of restrictions, a description of the condominium against which the same has been assessed, and the name of the record owner thereof. Such notice shall be signed by an authorized representative of the management body or as otherwise provided in the declaration of restrictions Upon payment of said assessment and charges in connection with which such notice has been so recorded, or other satisfaction thereof, the management body shall cause to be recorded a further notice stating the satisfaction and the release of the lien thereof.

Such lien shall be prior to all other liens recorded subsequent to the recordation of said notice of assessment except that the declaration of restrictions may provide for the subordination thereof to any other liens and encumbrances. Unless sooner satisfied and released or the enforcement thereof initiated as hereafter provided such lien shall expire and be of no further force or effect one year from the date of recordation of said notice of assessment; provided, however, that said one-year period may be extended by the management body for not to exceed one additional year by recording a written extension thereof.

Such lien may be enforced by sale by the management body, its attorney or other person authorized to make the sale, after failure of the owner to pay such an assessment in accordance with its terms, such sale to be conducted in accordance with the provisions of Sections 2924, 2924b and 2924c of the Civil Code, applicable to the exercise of powers of sale in mortgages and deeds of trust, or in any other manner permitted by law. Unless otherwise provided in the declaration of restrictions, the management body shall have power to bid in the condominium at foreclosure sale and to hold, lease, mortgage and convey the same.

1357. No labor performed or services or materials furnished with the consent of or at the request of a condominium owner or his agent or his contractor or subcontractor, shall be the basis for the filing of a lien against the condominium of any other condominium owner, or against any part thereof, or against any other property of any other condominium owner, unless such other owner has expressly consented to or requested the performance of such labor or furnishing of such materials or services. Such express consent shall be deemed to have been given by the owner of any condominium in the case of emergency repairs thereto. Labor performed or services or materials furnished for the common areas, if duly authorized by a management body provided for in a declaration of restrictions governing the property, shall be deemed to be performed or furnished with the express consent of each condominium owner. The owner of any condominium may remove his condominium from a lien against two or more condominiums or any part thereof by payment to the holder of the lien of the fraction of the total sum secured by such lien which is attributable to his condominium.

1358. Unless otherwise provided by a declaration of restrictions under Section 1355, the management body, if any, provided for therein, may acquire and hold, for the benefit of the condominium owners, tangible and intangible personal property and may dispose of the same by sale or otherwise; and the beneficial interest in such personal property shall be owned by the condominium owners in the same proportion as their respective interests in the common areas, and shall not be transferable except with a transfer of a condominium. A transfer of a condominium shall transfer to the transferee ownership of the transferor's beneficial interest in such personal property.

1359. Any deed, declaration or plan for a condominium project shall be liberally construed to facilitate the operation of the project, and its provisions shall be presumed to be independent and severable.

CHAPTER 2. ZONING

1370. Unless a contrary intent is clearly expressed, local zoning ordinances shall be construed to treat like structures,

lots, or parcels in like manner regardless of whether the ownership thereof is divided by sale of condominiums or into community apartments as defined in Section 11004 of the Business and Professions Code, rather than by lease of apartments, offices or stores.

SEC. 4. Section 11535.1 is added to the Business and Professions Code, to read:

11535.1. For purposes of Section 11535, "subdivision" includes a condominium project, as defined in Civil Code Section 1350, containing five or more condominiums, and a community apartment project, as defined in Business and Professions Code Section 11004, containing five or more parcels; but maps of such projects need not show the buildings or the manner in which the buildings or the airspace above the property shown on the map are to be divided, nor shall the governing body have the right to refuse approval of a tentative or final map of such a project on account of design or location of buildings on the property shown on the map not violative of local ordinances or on account of the manner in which airspace is to be divided in conveying the condominium. Fees and lot design requirements shall be computed and imposed with respect to such maps on the basis of parcels or lots of the surface of the land shown thereon as included in the project. Nothing herein shall be deemed to limit the power of the governing body to regulate the design or location of buildings in such a project by or pursuant to local ordinances.

SEC. 5. Section 659 of the Civil Code is amended to read:

659. Land is the material of the earth, whatever may be the ingredients of which it is composed, whether soil, rock, or other substance, and includes free or occupied space for an indefinite distance upwards as well as downwards, subject to limitations upon the use of airspace imposed, and rights in the use of airspace granted, by law.

SEC. 6. Section 2188.3 is added to the Revenue and Taxation Code, to read:

2188.3. Whenever real property has been divided into condominiums, as defined in Section 783 of the Civil Code, (a) each condominium owned in fee shall be separately assessed to the owner thereof, and the tax on each such condominium shall constitute a lien solely thereon; (b) each condominium not owned in fee shall be separately assessed, as if it were owned in fee, to the owner of the condominium or the owner of the fee or both (and the tax on each such condominium shall be a lien solely on the interest of the owner of the fee in the real property included in such condominium and on such condominium), if so agreed by the assessor in a writing of record; such an agreement shall be binding upon such assessor and his successors in office with respect to such project so long as it continues to be divided into condominiums in the same manner as that in effect when the agreement was made

CHAPTER 861

An act to amend Section 139 of the Civil Code, relating to support of spouse and children.

[Approved by Governor June 11, 1963. Filed with Secretary of State June 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 139 of the Civil Code is amended to read:

In any interlocutory or final decree of divorce or in any final judgment or decree in an action for separate maintenance, the court may compel the party against whom the decree or judgment is granted to make such suitable allowance for support and maintenance of the other party for his or her life, or for such shorter period as the court may deem just, having regard for the circumstances of the respective parties and also to make suitable allowance for the support, maintenance and education of the children of said marriage during their minority, specifying in such judgment or decree the name, age and amount of support for each child, and said decree or judgment may be enforced by the court by execution or by such order or orders as in its discretion it may from time to time deem necessary.

That portion of the decree or judgment making any such allowance or allowances, and the order or orders of the court to enforce the same, including any order for support of children based on a provision for such support in an integrated property settlement agreement, may be modified or revoked at any time at the discretion of the court except as to any amount that may have accrued prior to the order of modification or revocation.

Except as otherwise agreed by the parties in writing, the obligation of any party in any decree, judgment or order for the support and maintenance of the other party shall terminate upon the death of the obligor or upon the remarriage of the other party.

The amendments to the second paragraph of this section enacted at the 1959 Regular Session of the Legislature are effective only with respect to property settlement agreements entered into after the effective date of such amendments.

SEC. 2. The 1963 amendments to Section 139 of the Civil Code apply only with respect to property settlement agreements entered into after the effective date of such amendments.

CHAPTER 862

The people of the State of California do enact as follows:

SECTION 1. Section 35311 of the Government Code is amended to read:

35311. The city clerk of the annexing city shall cause a copy of the resolution to be published at least twice, but not oftener than once a week, in a newspaper of general circulation published in the city, and also in a newspaper of general circulation published outside of the city but in the county in which is located the territory proposed to be annexed; publication to be complete at least 20 days prior to the date set for the hearing. CHAPTER 863

An act to amend Section 1120 of the Probate Code, relating to administration of testamentary trusts.

[Approved by Governor June 11, 1963. Filed with Secretary of State June 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1120 of the Probate Code is amended to read

1120. When a trust created by a will continues after distribution, the superior court shall not lose jurisdiction of the estate by final distribution, but shall retain jurisdiction for the purpose of determining to whom the property shall pass and be delivered upon final or partial termination of the trust, to the extent that such determination is not concluded by the decree of distribution, of settling the accounts and passing upon the acts of the trustee, of authorizing the trustee to accept additions to the trust from sources other than the estate of the decendent, and for the other purposes hereinafter set forth. Any trustee appointed by will, or appointed to execute a trust created by will, may, from time to time pending the execution of his trust, or at the termination thereof, render for settlement his accounts and report his acts as such trustee, before the superior court in which the will was probated. For that purpose, the trustee, or, in case of his death, his legal representatives, shall present to the court his verified account and report, setting forth his accounts in detail, reporting his acts as trustee, and showing the condition of the trust estate. The trustee may also petition such court, from time to time, for instructions as to the administration of the trust and for authority to accept additions to the trust from any source or sources other than the estate of the decedent.

When it appears from the allegations of the petition that the trustee seeks instructions to exercise a power not conferred upon him the petition shall set forth the particulars of and the necessity for the action sought to be taken.

The clerk shall set the account and report or petition for settlement or hearing by the court and give notice thereof for the period and in the manner required by Section 1200 of this code. The trustee shall cause notice of the hearing to be mailed to the beneficiaries, including all persons in being who shall or may participate in the corpus or income of the trust, at their last known addresses, as provided in said Section 1200, whether they have requested special notice or given notice of appearance or not. SEC. 3. The heading of Chapter 4 (commencing with Section 983) of Title 13 of Part 2 of said code is renumbered and amended to read:

CHAPTER 3. APPEALS FROM MUNICIPAL AND JUSTICE COURTS

SEC. 4. Section 983 of said code is amended to read:

983. (a) An appeal may be taken from a municipal or justice court on questions of law alone, in the following cases:

1. From a final judgment entered in an action or special proceeding commenced therein or transferred thereto from another court;

2. From an order granting a new trial or denying a motion for judgment notwithstanding the verdict;

3. From an order discharging or refusing to discharge an attachment;

4. From an order changing or refusing to change the place of trial;

5. From an order granting or dissolving an injunction, or refusing to grant or dissolve an injunction;

6. From an order appointing a receiver;

7. From any special order made after final judgment;

8. From an order granting a motion to quash service of summons.

(b) An appeal may also be taken from the final judgment of a justice court on questions of fact or on questions of both law and fact. On such appeal the action shall be tried anew.

SEC. 5. Section 985 of said code is amended to read:

985. If a stay of execution is desired on any appeal from a municipal or justice court taken pursuant to subdivision (a) of Section 983, an undertaking must be filed on the part of the appellant with two or more sureties, for the sums and containing the conditions hereinafter stated, to wit:

1. When the judgment or order is for the recovery of money, the undertaking shall be for a sum equal to twice the amount of the judgment, including costs, and must be conditioned that if the judgment or order appealed from, or any part thereof, be affirmed or the appeal withdrawn or dismissed, the appellant will pay the amount directed to be paid by such judgment or order, or the part of such amount as to which the judgment or order is affirmed, if affirmed only in part, and that if the appellant does not make such payment within 30 days after the filing of the remittitur from the reviewing court in the court from which the appeal was taken, judgment may be entered on motion of the respondent in his favor against the sureties for such amount, together with the interest that may be due thereon and the damages and costs which may be awarded against the appellant on the appeal;

2. When the judgment is for the recovery of specific personal property, the undertaking shall be for a sum equal to twice the value of the property and the costs included in the judgment, and must be conditioned that the appellant will pay the judgment appealed from, including costs, and obey the order of the court made therein, if the appeal be withdrawn or dismissed or the judgment be affirmed;

3. When the judgment directs the delivery of possession of real property, the undertaking shall be for such sum as may be fixed by a judge of the court, and must be conditioned that during the possession of such property by the appellant, he will not commit, or suffer to be committed, any waste thereon, and that if the appeal be withdrawn or dismissed, or the judgment affirmed, he will pay the value of the use and occupation of the property from the time of the appeal until the delivery of possession thereof, not exceeding the sum specified in the undertaking;

4. If the judgment direct the sale of personal property upon the foreclosure of a mortgage or other lien thereon, the undertaking shall be for such amount as may be fixed by a judge of the court, and must be conditioned that the appellant will, on demand, deliver the said property to the proper officer, if the appeal be withdrawn or dismissed or the judgment affirmed, and that in default of such delivery the appellant and sureties will, on demand, pay to the proper officer the full value of such property at the date of the appeal.

A deposit with the clerk of the court, or judge if there be no clerk, of such sum as is provided for in any paragraph of this section shall be equivalent to the filing of an undertaking to stay execution in the sum provided for in such paragraph. Upon the affirmance of the judgment or order appealed from, or the withdrawal or dismissal of the appeal, the court may order any money so deposited to be applied in accordance with the conditions required for the undertaking in place of which it was deposited.

SEC. 6. Section 985.5 is added to said code, to read:

985.5. An appeal from a judgment in a justice court pursuant to subdivision (b) of Section 983 is not effectual for any purpose, unless an undertaking be filed with two or more sureties in the sum of one hundred dollars ($100) for the payment of the costs on the appeal, or, if a stay of proceedings be claimed, in the sum of one hundred dollars ($100) plus a sum equal to twice the amount of the judgment, including costs, when the judgment is for the payment of money; or plus twice the value of the property including costs, when the judgment is for the recovery of specific personal property; and must be conditioned, when the action is for the recovery of money, that the appellant will pay the amount of the judgment appealed from, and all costs, if the appeal be withdrawn or dismissed, or the amount of any judgment and all costs that may be recovered against him in the action in the reviewing court.

When the action is for the recovery of or to enforce or foreclose a lien on specific personal property, the undertaking must be conditioned that the appellant will pay the judgment and costs appealed from, and obey the order of the court made therein, if the appeal be withdrawn or dismissed, or any judgment and costs that may be recovered against him in said action in the reviewing court, and will obey any order made by the court therein.

When the judgment appealed from directs the delivery of possession of real property, the execution of the same cannot be stayed unless a written undertaking be executed on the part of the appellant, with two or more sureties, to the effect that during the possession of such property by the appellant, he will not commit, or suffer to be committed any waste thereon, and that if the appeal be dismissed or withdrawn, or judgment be recovered against him in the action in the reviewing court, he will pay the value of the use and occupation of the property from the time of the appeal until the delivery

of possession thereof; or that he will pay any judgment and costs that may be recovered against him in said action in the reviewing court, not exceeding a sum to be fixed by the judge of the court from which the appeal is taken, and which sum must be specified in the undertaking.

A deposit of the sum of one hundred dollars ($100) for the payment of the costs on the appeal, or if a stay of proceedings be claimed, in the sum of one hundred dollars ($100) plus the amount of the judgment, including all costs appealed from, or plus the value of the property, including all costs, in actions for the recovery of specific personal property, with the judge is equivalent to the filing of the undertakings above provided for, and in such cases, the judge must transmit the money to the clerk of the superior court, to be by him paid out on the order of the reviewing court.

SEC. 7. Section 986 of said code is amended to read:

986. The undertaking must be filed within five days after the filing of the notice on appeal, and notice of the filing of the undertaking must be given to the respondent. The adverse party may except to the sufficiency of the sureties within five days after service of written notice of the filing of the undertaking, and unless they or other sureties justify before a judge, or the clerk, of the court within five days thereafter, upon notice to the adverse party, to the amounts stated in their affidavits, proceedings may be had as if no such undertaking had been given.

SEC. 8. Section 988g of said code is amended to read:

988g. Upon the final determination by the reviewing court of an appeal taken pursuant to subdivision (a) of Section 983, the clerk of said court must remit to the municipal or justice court a certified copy of the judgment of the reviewing court and of its opinion, if any. The clerk of the municipal court must file such certified copy of the judgment and opinion of the reviewing court, must attach the same to the judgment roll if the appeal was from a judgment, and must enter a note of the judgment of the reviewing court stating whether the judgment or order appealed from has been affirmed, reversed or modified, in the margin of the original entry of such judgment or order, and also in the register of actions. The clerk of the justice court, or the judge if there be no clerk, shall file the certified copy of the judgment in such an appeal in the records of the court and shall enter a note of the judgment of the reviewing court in the margin of the docket opposite the original entry of such judgment or order.

SEC. 9. Section 988h of said code is amended to read:

988h. Upon an appeal from a municipal or justice court taken pursuant to subdivision (a) of Section 983, the reviewing court may review the verdict or decision and any intermediate ruling, proceeding, order or decision which involves the merits or necessarily affects the judgment or order appealed from or which substantially affects the right of a party, including, on any appeal from the judgment, any order

on motion for a new trial, and may affirm, reverse or modify any judgment or order appealed from, and may direct the proper judgment or order to be entered, and may, if necessary or proper, direct a new trial or further proceedings to be had. The respondent, or party in whose favor the judgment was given, may, without appealing from such judgment, request the court to and it may review any of the foregoing matters for the purpose of determining whether or not the appellant was prejudiced by the error or errors upon which he relies for reversal or modification of the judgment from which the appeal is taken. If a new trial is ordered by the reviewing court, it must be had in the superior court to which the appeal was taken unless the appeal is from a municipal court in which case the new trial must be had in the court from which the appeal was taken. If it appears to the reviewing court that any appeal was taken solely for delay, it may, on dismissal of such appeal or affirmance of the judgment or order appealed from, add to the costs of appeal such damages as may be just, not exceeding 25 percent of the judgment appealed from, if it be a judgment for money, or 25 percent of the value of the property if it be a judgment for the recovery of specific personal property.

SEC. 10. Section 988i of said code is amended to read:

988i. In all cases in which the appeal is taken pursuant to subdivision (a) of Section 983 and where trial by jury is not a matter of right or where trial by jury has been waived, the reviewing court may make findings of fact contrary to or in addition to those made by the municipal or justice court. Such findings may be based on the evidence adduced before the trial court either with or without the taking of evidence by the reviewing court. The reviewing court may for the purpose of making such findings of fact or for any other purpose in the interests of justice, take additional evidence of or concerning facts occurring at any time prior to the decision of the appeal, and may give or direct the entry of any judgment or order and make such further or other order as the case may require. The mode of procedure for taking such additional evidence may be regulated by the rulemaking authority. This section shall be liberally construed to the end among others that wherever possible causes may be finally disposed of by a single appeal and without further proceedings in the trial court except where the interests of justice require a new trial in the municipal court.

SEC. 11. Section 988j of said code is amended to read:

988j. In appeals from municipal or justice courts in civil cases, the practice and procedure on appeal, and the time and manner in which records on appeal shall be made up and filed, shall be prescribed in rules adopted by the Judicial Council.

SEC. 12. Section 117jj of said code is repealed.

SEC. 14. Section 117n of said code is repealed.

SEC. 16. This act shall become operative July 1, 1964, and shall not govern any appeal from the justice court in a civil action for which a notice of appeal was filed prior to said date. Appeals in such cases shall not be affected by this act.

[Approved by Governor June 11, 1963. Filed with Secretary of State June 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 581 of the Code of Civil Procedure is amended to read:

581. An action may be dismissed in the following cases:

1. By plaintiff, by written request to the clerk, filed with the papers in the case, or by oral or written request to the judge where there is no clerk, at any time before the actual commencement of trial, upon payment of the costs of the clerk or judge; provided, that a counter claim has not been set up, or affirmative relief sought by the cross-complaint or answer of the defendant. If a provisional remedy has been allowed, the undertaking shall upon such dismissal be delivered by the clerk or judge to the defendant who may have his action thereon. A trial shall be deemed to be actually commenced at the beginning of the opening statement of the plaintiff or his counsel, and if there shall be no opening statement, then at the time of the administering of the oath or affirmation to the first witness, or the introduction of any evidence.

2. By either party, upon the written consent of the other. No dismissal mentioned in subdivisions 1 and 2 of this section shall be granted unless upon the written consent of the attorney of record of the party or parties applying therefor, or if such consent is not obtained upon order of the court after notice to such attorney.

3. By the court, when either party fails to appear on the trial and the other party appears and asks for the dismissal, or when a demurrer is sustained without leave to amend, or when, after a demurrer to the complaint has been sustained with leave to amend, the plaintiff fails to amend it within the time allowed by the court, and either party moves for such dismissal.

4. By the court, with prejudice to the cause, when upon the trial and before the final submission of the case, the plaintiff abandons it.

5. The provisions of subdivision 1, of this section, shall not prohibit a party from dismissing with prejudice, either by written request to the clerk or oral or written request to the judge, as the case may be, any cause of action at any time before decision rendered by the court. Provided, however, that no such dismissal with prejudice shall have the effect of dismissing a counterclaim or cross-complaint filed in said action or of depriving the defendant of affirmative relief sought by his answer therein. Dismissals without prejudice may be had in either of the manners provided for in subdivision 1 of this section, after actual commencement of the trial, either by consent of all of the parties to the trial or by order of court on showing of just cause therefor.

If the election is called for the payment of a contract entered into by the commission the order shall state the terms of the contract in such manner as will advise the electors of its contents. CHAPTER 878

An act to amend Sections 416.1, 527, and 1005 of the Code of Civil Procedure, relating to time for notice of motion.

[Approved by Governor June 11, 1963. Filed with Secretary of State June 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 416.1 of the Code of Civil Procedure is amended to read:

416.1. Any defendant or cross-defendant upon whom service of summons has been made may serve and file, on or before the last day on which he is required to plead, or within such further time as the court may for good cause allow, a notice of motion to quash the service of summons, upon the ground of lack of jurisdiction of the court over him. The notice shall designate as the time of making such motion a date not more than 15 days following the filing of such notice of motion. In the event of the service and filing of such motion, the time of the moving party to plead to the complaint or cross-complaint shall be extended, and no default may be entered against him, until the expiration of 15 days following service upon him of written notice of entry of an order of the court denying the motion. Upon good cause being shown, the court may extend the latter 15-day period for an additional period not exceeding 20 days. Neither an application to the court by any defendant or cross-defendant for an extension of time within which to plead, nor the granting of such extension nor entering into a stipulation of the parties for such extension, shall constitute a general appearance by said defendant or cross-defendant.

SEC. 2. Section 527 of said code is amended to read:

527. An injunction may be granted at any time before judgment upon a verified complaint, or upon affidavits if the complaint in the one case, or the affidavits in the other, show satisfactorily that sufficient grounds exist therefor. A copy of the complaint or of the affidavits, upon which the injunction was granted, must, if not previously served, be served therewith.

No preliminary injunction shall be granted without notice to the opposite party; nor shall any temporary restraining order be granted without notice to the opposite party, unless it shall appear from facts shown by affidavit or by the verified complaint that great or irreparable injury would result to the applicant before the matter can be heard on notice. In case a temporary restraining order shall be granted without notice, in the contingency above specified, the matter shall be made returnable on an order requiring cause to be shown why the injunction should not be granted, on the earliest day that the business of the court will admit of, but not later than

15 days from the date of such order. When the matter first comes up for hearing the party who obtained the temporary restraining order must be ready to proceed and must have served upon the opposite party at least two days prior to such hearing, a copy of the complaint and of all affidavits to be used in such application and a copy of his points and authorities in support of such application; if he be not ready, or if he shall fail to serve a copy of his complaint, affidavits and points and authorities, as herein required, the court shall dissolve the temporary restraining order. The defendant, however, shall be entitled, as of course, to one continuance for a reasonable period, if he desire it, to enable him to meet the application for the preliminary injunction. The defendant may, in response to such order to show cause, present affidavits relating to the granting of the preliminary injunction, and if such affidavits are served on the applicant at least two days prior to the hearing, the applicant shall not be entitled to any continuance on account thereof. On the day upon which such order is made returnable, such hearing shall take precedence of all other matters on the calendar of said day, except older matters of the same character, and matters to which special precedence may be given by law. [Approved by Governor June 12, 1963. Filed with Secretary of State June 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 13 (commencing with Section 47900) is added to Part 9 of Division 14 of the Water Code, to read:

CHAPTER 13. ALTERNATE PROVISIONS FOR COLLECTION AND ENFORCEMENT OF DISTRICT ASSESSMENTS BY THE COUNTY

Article 1. Collection of Assessments by the County

47900. This chapter provides an alternative method for the collection and enforcement of district assessments.

47901. The board may elect to avail itself of the assessor, auditor and tax collector of the county or counties in which the district is situated to collect assessments levied and called pursuant to this part.

47902. The board shall declare its election by a resolution and shall file a certified copy of said resolution with the auditor, assessor, tax collector and treasurer of each county within which the district is situated on or before February 1, following the adoption of such resolution.

47903. An election pursuant to Section 47902 is effective with respect to all assessments levied or called after February 1, next succeeding the date upon which the certified copy is filed. Thereafter, all assessments shall be collected by the tax collectors of the county or counties in which the district is situated until the board, by resolution, elects otherwise. When the board elects otherwise, a certified copy of such resolution shall be filed with the auditor, assessor, tax collector and treasurer of each county within which the district is situated and it is effective, with respect to all assessments levied or called, after February 1, next succeeding the date upon which the certified copy is filed.

47904. On or before the first day of August, the board shall determine by resolution the percentage of any assessment theretofore levied that shall be called and collected.

47905. A certified copy of the resolution provided for in Section 47904 shall be filed by the secretary of the district with the county treasurer and county auditor of each affected county on or before the third Monday in August.

47906. The county treasurer, upon receipt of the certified copy of the resolution, provided for by Sections 47904 and 47905, shall forthwith discontinue making collections on the affected assessment and shall transfer to the county auditor the assessment rolls designated in the resolution together with an accounting of all payments made on the assessments so transferred.

47907. The county auditor, on receipt of said affected assessment rolls from the county treasurer, shall compute the amount to be collected from each parcel of land in the district held in separate ownership as shown on the transferred assessment rolls and the county tax roll, and shall enter in a separate column in the county assessment books, headed "Water Storage District Assessment, _ __ ___ Water Storage District (naming it)," the sums in dollars and cents to be collected against the respective parcels of land.

On any parcel of land on which payments have been made on such assessment prior to the receipt of the resolution by the county treasurer, credit for the amount so paid shall be given in determining the amount payable.

47908. Assessments called pursuant to this chapter shall be collected at the same time and in the same manner as county taxes. When collected, the net amount, as provided by this chapter, shall be paid to the treasurer of the district, under the general requirements and penalties provided by law for the settlement of county taxes.

47909. Each county assessor, auditor, treasurer and tax collector shall file annually with the board of supervisors of his county, itemized statements showing the additional expenses to his office caused by performance of the duties imposed upon him by this chapter. Upon the filing of such statements the board of supervisors, by an order upon its minutes, shall deduct such expenses from the assessment money of the district while in the hands of such tax collector and transfer the amount deducted into the county general fund.

47910. The board of supervisors may provide extra help for their county offices or officers as in their judgment is necessary for the proper performance of their duties under this article.

47911. Whenever any real property situated in any district which availed itself of county collection of assessments under this chapter has been sold for taxes and has been redeemed, the money paid for redemption shall be apportioned and paid by the county treasurer receiving it, to the district in the proportion which the assessment due to the district shares to the total tax and assessment for which the property was sold.

47912. Notwithstanding the provisions of Sections 47902 and 47903, any district organized pursuant to this division, which organization was completed prior to the effective date of this section, may, prior to July 1, 1963, adopt the resolution and file a certified copy thereof with the auditor, assessor, tax collector and treasurer of each county within which the district is situated, which resolution shall be effective on filing notwithstanding the provisions of Section 47903.

Article 2. Placing of Delinquent Assessments on County Tax Rolls

47930. The board, by resolution, in lieu of enforcing collection of delinquent assessments pursuant to Chapter 5 (commencing with Section 46670) of this part, may include in the resolution provided by Section 47904 an order directing that all delinquent assessments be transferred to the county tax rolls for collection.

On receipt of the certified copy of the resolution containing such order, the county treasurer shall forthwith close the delinquent rolls and transfer the same to the county auditor whose duty it shall be to compute the amount of the delinquency, with interest and penalties, and add such amounts chargeable against the various parcels of land in a column on the county assessment roll designated, "delinquent assessments", such entry to be made in dollars and cents and to include interest to the date that the payments on the county assessment roll are due.

Article 3. Enforcement of Delinquencies

47960. The provisions of Chapter 5 (commencing with Section 46670) of this part, shall not be applicable to the collection of assessments made under this chapter in the event that the board elects to proceed under Section 47930 of this code.

47961. The enforcement of the collection of district assessments under this chapter may be had in the same manner and by the same means as provided by law for the enforcement of liens of county taxes.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Rosedale-Rio Bravo Water Storage District is holding off the sale of property on which there are delinquent assessments. However, the district is in need of the funds covered by these assessments and also will be needing funds for next year. If this measure is effective by May, it will be possible to put the assessments which the board can levy for next year's maintenance and operation on the county tax roll which will bring it the money by the first of 1964.

CHAPTER 906

Time of employment in such case shall be counted only if, after the transfer or change in organization, the real or ultimate ownership of the contracting party is the same or substantially similar to that which existed before such transfer or change in organization. (a) An officer shall not be deemed to be interested in a contract entered into by a body or board of which he is a member within the meaning of Section 36525 if he has only a remote interest in the contract and if the fact of such interest is disclosed to the body or board of which he is a member and noted in its official records, and thereafter the body or board authorizes, approves, or ratifies the contract in good faith by a vote of its membership sufficient for the purpose without counting the vote or votes of the officer or member with the remote interest.

(b) As used in this article "remote interest" means:

(1) That of a nonsalaried officer of a nonprofit corporation;

(2) That of an employee or agent of the contracting party, if such contracting party has 10 or more other employees and if the officer was an employee or agent of said contracting party for at least three years prior to his initially accepting his office.

For the purposes of this subsection, time of employment with the contracting party by the officer shall be counted in computing the three-year period specified in this subsection even though such contracting party has been converted from one form of business organization to a different form of business organization within three years of the initial taking of office by such officer. Time of employment in such case shall be counted only if, after the transfer or change in organization, the real or ultimate ownership of the contracting party is the same or substantially similar to that which existed before such transfer or change in organization. For the purposes of this subsection, stockholders, bondholders, partners, or other persons holding an interest in the contracting party are regarded as having the "real or ultimate ownership" of such contracting party.

(3) That of a parent in the earnings of his minor child for personal services;

(4) That of a landlord or tenant of the contracting party;

(5) That of an attorney of the contracting party; or

(6) That of a member of a nonprofit corporation formed under the Agricultural Code or a nonprofit corporation formed under the Corporations Code for the sole purpose of engaging in the merchandising of agricultural products.

(c) The provisions of this section shall not be applicable to any officer interested in a contract who influences or attempts to influence another member of the body or board of which he is a member to enter into the contract.

(d) The willful failure of an officer to disclose the fact of his interest in a contract pursuant to this section shall be punishable as provided in Section 36528. Such violation shall not void the contract however, unless the contracting party had knowledge of the fact of the remote interest of the officer at the time the contract was executed.

CHAPTER 911

An act to add Title 7.1 (commencing with Section 66500) to the Government Code, relating to the Bay Area Transportation Study Commission.

[Approved by Governor June 13, 1963. Filed with Secretary of State June 13, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Title 7.1 (commencing with Section 66500) is added to the Government Code, to read:

TITLE 7.1. BAY AREA TRANSPORTATION STUDY COMMISSION

66500. This title shall be known and may be cited as the Bay Area Transportation Study Commission Act.

66501. The Legislature hereby finds and declares that there is an urgent need for the creation of a Bay Area Transportation Study Commission, based upon the following facts:

(a) While an abundance of local planning exists in the San Francisco Bay area, the problems of regional transportation by highways, bridges, and rail are incapable of complete

solution by the individual local governments acting separately.

(b) While there is also a considerable amount of information available from previous and current land use inventories and plans, economic development studies, and traffic and transportation studies and plans, due to various factors, such as use of different source data and projection assumptions, different criteria, and limited coverage, such studies and plans cannot serve as the basic data for a comprehensive Bay area transportation study and plan embracing all modes of transportation and properly integrated with land use projections and plans.

(c) Such a comprehensive transportation study and plan is essential in order to provide a solution for the land use and transportation problems which are increasing in size and complexity due to the rapid expansion in population and industrial development in the San Francisco Bay area, to assist public decisions affecting the growing traffic congestion problem, and to reduce the alarming toll of accidents and the other hazards accompanying transportation, such as noise and fumes.

(d) It is estimated that more than 7 billion dollars will be expended for public transportation facilities in the Bay area by 1980 and that millions of dollars will be expended for transportation planning of one kind or another. Much of this effort will be on a piecemeal basis and of limited value unless steps are taken to provide for a co-ordinated and comprehensive transportation study and planning process which will reduce ultimate costs and improve overall results. Agencies of the federal government as well as the State are encouraging such an approach to metropolitan area problems and have funds available for study and planning purposes.

(e) Much progress has been made in recent years in the methodology of transportation study and planning, including the integration of traffic and land use analyses and the development of computer techniques, which can be of inestimable value in developing a realistic and viable plan for the Bay area.

(f) In order to establish an official agency composed of representatives of local, state, and federal governments, and representatives of the public, to conduct a comprehensive Bay area transportation study, to formulate a master Bay area regional transportation plan, and to find ways and means of implementing the plan and keeping it current, the enactment of this special law is necessary.

66502. The Legislature hereby declares that in creating the Bay Area Transportation Study Commission and in providing for a comprehensive regional transportation study of the San Francisco Bay area and ultimate master Bay area regional transportation plan, it is not the intention of the Legislature in any way to interfere with or impede the execution by federal, state or local public agencies of any projects affecting transportation in the Bay area which have already been planned by such public agencies or which may be planned

during the period of the comprehensive transportation study; nor is it the intention of the Legislature to require any such public agency to submit its plans for any such project to the study commission for its approval prior to execution thereof.

The Legislature further declares, however, that it is in the best interests of the people of the State, and particularly of the people of the San Francisco Bay area, that Bay area transportation plans and projects of each federal, state and local public agency should be co-ordinated to the fullest extent possible; that information and data compiled by the study commission should be taken into consideration by such public agencies in the planning and execution of such transportation projects; and that all such public agencies should co-operate in carrying out these objectives by advising and consulting with the study commission from time to time in connection with such transportation plans and projects.

66503. There is hereby created the Bay Area Transportation Study Commission, which shall consist of 37 members, as follows:

(a) Two members each from the City and County of San Francisco and the Counties of Alameda, Contra Costa, Solano, Napa, Sonoma, Marin, San Mateo, and Santa Clara. With respect to the members representing the City and County of San Francisco, one shall be appointed by the mayor and one shall be appointed by the board of supervisors. With respect to the members representing each of the other counties, the board of supervisors of the county shall appoint one of its members and the city selection committee of the county shall appoint one member from among the mayors and city councilmen of the cities in such county. The city selection committee shall consist of the mayor of each incorporated city within the county, or, if there is no mayor, by the chairman or president of the city council.

(b) The Administrator of Highway Transportation, the Planning Officer, and one representative each of the Bureau of Public Roads, the Housing and Home Financing Agency, the Bay Area Rapid Transit District, the Association of Bay Area Governments, the Alameda-Contra Costa Transit District, and the Golden Gate Bridge and Highway District.

(c) Seven at-large members appointed by the Governor, all of whom shall be residents of the Bay area, and three of whom shall be representatives of bona fide labor organizations.

(d) Two Members of the Senate, appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker. The Members of the Legislature shall participate on the study commission to the extent that such participation is not incompatible with their positions as Members of the Legislature. The Members of the Legislature shall constitute a joint interim investigating committee on the subject of this title and as such shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and Assembly.

66504. The members of the study commission, except the Members of the Legislature serving thereon, shall serve for four years or until the termination of the study commission, whichever is earlier. A vacancy in the membership of the study commission shall be filled by the appointing power of the particular member.

66505. Pursuant to such terms as may be established in agreements or contracts with agencies of the federal, state, and local governments whereby funds are contributed for the Bay area regional transportation study, each member of the study commission shall receive his necessary actual expenses incurred in the performance of his duties.

66505.5. All meetings of the study commission shall be open and public, and all persons shall be permitted to attend any meetings of the commission.

66506. The study commission shall conduct a comprehensive study of the regional transportation problems affecting the San Francisco Bay area, which, for the purposes of this title, is comprised of the City and County of San Francisco and the Counties of Alameda, Contra Costa, Solano, Napa, Sonoma, Marin, San Mateo, and Santa Clara. After careful consideration of all pertinent facts, including but not limited to those relating to geological and topographical conditions as well as growth and traffic patterns, the study commission shall determine which of the enumerated counties, or portions thereof, in the San Francisco Bay area, as defined, should be included in a master Bay area regional transportation plan. Thereafter, the study commission shall prepare a master Bay area regional transportation plan for that portion of the San Francisco Bay area that is so determined should be included in said plan.

66507. The study commission shall limit its studies of interregional transportation facilities, such as airports, seaports, and railroads, to the extent of their influence on intraregional transportation planning requirements by reason of their generation and attraction of traffic within the Bay area.

66508. The study commission shall co-ordinate its work closely with the continuing regional planning program of the Association of Bay Area Governments. It shall make maximum use of that program and of all other pertinent studies and plans in the Bay area.

66509. The study commission shall be responsible for conducting studies and developing specific recommendations as to ways and means of implementing the regional transportation plan which it is to prepare. For this purpose it shall give first consideration to the use of existing governmental agencies to achieve expeditious implementation of the plan and a maximum of co-ordination among transportation activities and between transportation and general planning in the Bay area. However, if the study commission finds that the purpose and intent of this section may be advanced thereby, it may make studies and develop recommendations for a possible reorgani-

zation or realignment of responsibilities of public agencies dealing with transportation problems in the Bay area.

The study commission shall also make studies and take steps to provide for an orderly transition of its responsibilities to appropriate permanent agencies to the end that studies will be continued and the transportation plan amended to reflect emerging conditions and be continually co-ordinated with all other planning activities in the Bay area.

66510. The powers of the study commission shall include the following:

(a) The study commission may accept grants, contributions and appropriations from any public agency.

(b) The study commission may appoint committees from its membership and from other interested public and private groups.

(c) The study commission may contract for or employ any professional services required by the district or for the performance of work and services which in its opinion cannot satisfactorily be performed by its officers and employees.

(d) The study commission may do any and all other things necessary to carry out the purposes of this title.

66511. The chairman and vice chairman of the study commission shall be residents of the Bay area. The Governor shall appoint the chairman and vice chairman from among the at-large members appointed by him. The chairman shall call the first meeting of the study commission at the earliest possible time. At this meeting the commission shall organize and shall elect a secretary and treasurer.

66512. The study commission shall appoint a study director who shall have charge of the conduct of the regional transportation study and plan formulation, subject to the direction and policies of the study commission. The study director shall be a prominent and nationally recognized authority in the field of transportation problems.

The study director shall, subject to approval of the study commission, appoint such employees as may be necessary in order to carry out the functions of the study commission. The salary of the study director and of the other employees of the study commission shall be established in the contracts or agreements with agencies of the federal and state governments pursuant to which funds are contributed for the Bay area regional transportation study.

66513. Within a reasonable time, but not to exceed one year from the date of the first meeting of the study commission, the chairman of the study commission, in collaboration with and with the concurrence of the study commission, shall appoint a citizens' advisory committee to assist and advise the study commission in carrying out its functions. The advisory committee shall consist of not more than 50 members, who shall be appointed so as to include civic and governmental leaders

and a broad representation of business and labor, and so as to assure adequate geographical representation throughout the San Francisco Bay area. All meetings of the advisory committee shall be open and public, and all persons shall be permitted to attend any meetings of the committee. At least two members of the advisory committee shall be representatives of public agencies having jurisdiction over harbor or airport facilities, or both.

66514. (a) It is the intention of the Legislature that the federal government, the State, and local agencies in the study area will participate in support of the study and planning work of the study commission The Legislature further intends that financial support of the study commission's activities will be made available from federal, state and local sources which would normally be available for transportation and general planning purposes in the Bay area.

(b) The study commission and the State Highway Transportation Agency shall negotiate contracts or agreements whereby federal-aid highway funds available for planning, and the necessary state matching funds from the State Highway Fund, may be made available for support of the commission's activities insofar as they relate to highway, road, and street planning for the area.

(c) The study commission shall also negotiate, either directly or through the State Office of Planning or other appropriate agency, with the United States Housing and Home Finance Agency for grants or contributions of federal funds which may be available to support the study and planning activities of the study commission.

(d) The study commission shall negotiate equitable agreements with the City and County of San Francisco, and other counties and cities of the Bay area, the San Francisco Bay Area Rapid Transit District, the Alameda-Contra Costa Transit District, and the Golden Gate Bridge and Highway District for the contribution of funds or services for the general support of the commission's activities and for such required matching of federal funds as may be made available under paragraph (c) of this section. Any county or city may use a portion of the motor vehicle license fee funds which it receives from the State for these purposes.

(e) The study commission shall make a complete report of all contracts or agreements for financial or other support which it has negotiated to the Legislature not later than the 10th legislative day of the 1964 Regular Budget Session and of each regular legislative session thereafter until the termination of the study commission.

66515. The study commission shall report to the Governor and to the Legislature by March 1, 1965, including in the report a statement as to its progress and an estimate of the time necessary to complete the balance of the work required in

order to formulate a master Bay area regional transportation plan.

The existence of the study commission shall terminate on the 90th day after final adjournment of the 1965 Regular Session of the Legislature unless continued by the Legislature at that session. The Legislature shall determine what, if any, further time should be allowed to the study commission for the completion of its work, but in no event shall the existence of the commission be extended for more than two additional years.

If the minor is not brought before a judge or referee of the juvenile court within the period prescribed by this section, he shall be released from custody.

(e) The name or names and residence address, if known to petitioner, of all parents and guardians of such minor. If there is no parent or guardian residing within the State, or if his place of residence is not known to petitioner, the petition must also contain the name and residence address, if known, of any adult relative residing within the county, or, if there be none, the adult relative residing nearest to the location of the court.

(f) A concise statement of facts, separately stated, to support the conclusion that the minor upon whose behalf the petition is being brought is a person within the definition of each of the sections and subdivisions under which the proceedings are being instituted.

658. Upon the filing of the petition, the clerk of the juvenile court shall issue a notice, to which shall be attached a copy of the petition, and he shall cause the same to be served upon each of the persons described in subsections (d) and (e) of Section 656 whose residence addresses are set forth in said petition and thereafter before the hearing upon all such persons whose residence addresses become known to the clerk.

SEC. 8. Section 659 of said code is amended to read:

(d) Each section and subdivision under which the proceeding has been instituted.

(e) A statement that the minor and his parent or guardian or adult relative, as the case may be, to whom notice is required to be given, are entitled to have an attorney present at the hearing on the petition, and that, if the parent or guardian or such adult relative is indigent and cannot afford an attorney, and the minor or his parent or guardian or such adult relative desires to be represented by an attorney, such parent or guardian or adult relative shall promptly notify the clerk of the juvenile court.

SEC. 9. Section 700 of said code is amended to read:

700. At the beginning of the hearing on a petition filed pursuant to Article 7 (commencing with Section 650), the judge or clerk shall first read the petition to those present and upon request of the minor upon whose behalf the petition has been brought or upon the request of any parent, relative or guardian, the judge shall explain any term of allegation contained therein and the nature of the hearing, its procedures, and possible consequences. The judge shall ascertain whether the minor and his parent or guardian or adult relative, as the case may be, has been informed of the right of the minor to be represented by counsel, and if not, the judge shall advise the minor and such person, if present, of the right to have counsel present. If such person is indigent and desires to have the minor represented by counsel, the court may appoint counsel to represent the minor, and in such case the court must appoint counsel if the minor is charged with misconduct which would constitute a felony if committed by an adult The court may continue the hearing for not to exceed seven days, as necessary to make an appointment of counsel, or to enable counsel to acquaint himself with the case, or to determine whether the parent or guardian or adult relative is indigent and unable to afford counsel at his own expense.

SEC 10. Section 702 of said code is amended to read:

702. After hearing such evidence, the court shall make a finding, noted in the minutes of the court, whether or not the

minor is a person described by Sections 600, 601, or 602. If it finds that the minor is not such a person, it shall order that the petition be dismissed and the minor be discharged from any detention or restriction theretofore ordered. If the court finds that the minor is such a person, it shall make and enter its findings and order accordingly and shall then proceed to hear evidence on the question of the proper disposition to be made of the minor. Prior to doing so, it may continue the hearing, if necessary, to receive the social study of the probation officer or to receive other evidence on its own motion or the motion of a parent or guardian for not to exceed 10 judicial days if the minor is detained during such continuance, provided, however, such hearing shall not be continued for more than five judicial days if the minor has been detained for more than 10 judicial days prior to the hearing set pursuant to Section 657, or, if the minor is not detained, it may continue the hearing to a date not later than 30 days after the date of filing of the petition. The court may, for good cause shown continue the hearing for an additional 15 days. if the minor is not detained. The court may make such order for detention of the minor or his release from detention, during the period of the continuance, as is appropriate.

SEC. 11. Section 778 of said code is amended to read:

778. Any parent or other person having an interest in a child who is a ward or dependent child of the juvenile court or the child himself through a properly appointed guardian may, upon grounds of change of circumstance or new evidence, petition the court in the same action in which the child was found to be a ward or dependent child of the juvenile court for a hearing to change, modify, or set aside any order of court previously made or to terminate the jurisdiction of the court. The petition shall be verified and, if made by a person other than the child, shall state the petitioner's relationship to or interest in the child and shall set forth in concise language any change of circumstance or new evidence which are alleged to require such change of order or termination of jurisdiction.

If it appears that the best interests of the child may be promoted by the proposed change of order or termination of jurisdiction, the court shall order that a hearing be held and shall give prior notice, or cause prior notice to be given, to such persons and by such means as prescribed by Sections 776 and 779, and, in such instances as the means of giving notice is not prescribed by such sections, then by such means as the court prescribes.

SEC. 12. Section 800 of said code is amended to read:

800. A judgment or decree of a juvenile court or final order of a referee which becomes effective without approval of a judge of the juvenile court assuming jurisdiction and declaring any person to be a person described in Section 600, 601, or 602, or on denying a motion made pursuant to Section 567, may be appealed from in the same manner as any final judgment, and any subsequent order may be appealed from as from

SECTION 1. Section 232 of the Civil Code is amended to read:

232. An action may be brought for the purpose of having any person under the age of 21 years declared free from the

custody and control of either or both of his parents when such person comes within any of the following descriptions:

(a) Who has been left by either or both of his parents in the care and custody of another without any provision for his support, or without communication from either or both of his parents, for the period of one year with the intent on the part of such parent or parents to abandon such person. Such failure to provide, or such failure to communicate for the period of one year, shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that either or both parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents.

When any person under the age of 21 years has been left by either or both of his parents in the care and custody of another without any provision for his support, or without communication from either or both of his parents for the period of six months, the petition provided for in Section 233 may be filed with respect to such person. The jurisdiction of the court extends to such person as fully as if such conditions had existed for a period of one year but no order or judgment freeing such person from the custody and control of either or both of his parents shall be made until such conditions of nonsupport or noncommunication shall have existed for a period of at least one year.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 1620 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(b) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody because of such cruel treatment or neglect, for the period of one year continuously immediately prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(c) Whose parent or parents are habitually intemperate, or morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such intemperance, or moral depravity, for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such habitually intemperate or morally depraved parent or parents.

(d) Whose parent or parents are deprived of their civil rights due to the conviction of a felony, if the felony of which such parent or parents were convicted is of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child, or if any term of sentence of such parent or parents is of such length that the child will be deprived of a normal home for a period of years.

(e) Whose parent or parents have, in a divorce action, been found to have committed adultery and been divorced on that ground, if the court finds that the future welfare of the child will be promoted by an order depriving such parent or parents of the control and custody of the child.

(f) Whose parent or parents have been declared by a court of competent jurisdiction to be mentally deficient or mentally ill, if the State Director of Mental Hygiene and the superintendent of the state hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

The officer shall not replace such flares unless he is reasonably satisfied that such person in fact placed the flares for which replacement is requested, and the person receiving the flares shall sign a receipt therefor on a form provided by the department.

(b) If Congress enacts legislation exempting nonprofit organizations from the provisions of Section 3303 of the Federal Unemployment Tax Act, a nonprofit organization may, when requested by a written petition signed by a majority of its employees to be covered by the election, elect to become an employer subject to this division for not less than two calendar years with respect to all of its employees who are covered by the election, and may file its written election with the director. If the director finds that a majority of the employees to be covered by the election to become an employer have signed the petition, the nonprofit organization shall, upon the written approval of the director, become an employer subject to this division to the same extent as other employers, and services performed by its employees covered by the election, shall constitute employment subject to this division. Beginning at that time it shall withhold from the wages of employees covered by the election the contributions required for unemployment compensation disability benefits. A nonprofit organization may exclude from coverage under an election pursuant to this section any of the following service:

(1) Service performed in any calendar quarter in the employ of any such nonprofit organization exempt from federal income tax if the remuneration for such service is less than fifty dollars ($50).

(2) Service performed in the employ of a school, college, or university, if such service is performed by a student who is enrolled and is regularly attending classes at such school, college or university.

(1) To pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (d) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits paid with respect to employment for the nonprofit organization. Benefits otherwise payable irrespective of this section shall be charged to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid pursuant to this section shall be borne solely by the appropriate nonprofit organization. If benefits are based on wages paid by two or more nonprofit organizations, the benefits shall be borne by each of the nonprofit organizations in the proportion that the total wages paid to the individual in employment by each nonprofit organization bears to the total wages paid to the individual in employment by all nonprofit organizations during the base period. "Total wages paid" as used in this subdivision include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930.

(2) To pay into the Unemployment Fund the cost of benefits paid with respect to employment for the nonprofit organization and charged to its account in accordance with Section 1026, pursuant to authorized regulations which shall prescribe the rate or amount, time, manner, and method of payment of contributions and the extent to which the reserve account elements of any nonprofit organization that has made contributions pursuant to an elective coverage agreement either under Section 702 or this section may be included in its account under this subdivision (c)(2). Sections 712, 1030, 1031, and 1032 shall not apply to an election under this subdivision (c)(2).

(3) Two or more nonprofit organizations that have elected coverage under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purpose of determining the

rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to employment for such nonprofit organizations. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits paid with respect to employment for such members, or to share the cost of benefits paid with respect to employment for such members and charged to the joint account in accordance with Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in accordance with Section 1026. Sections 1030, 1031, and 1032 shall not apply to any joint account established pursuant to this subdivision.

(d) In making the payments prescribed by subdivision (c)(1) of this section, and by subdivision (c)(3) of this section for a joint account on an additional cost basis, there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each nonprofit organization on an additional cost basis under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the nonprofit organization the amount determined with respect to it. The contributions due from the nonprofit organization shall be paid to the Unemployment Fund by the nonprofit organization.

(e) After the termination of any election under this section, nonprofit organizations shall remain liable for their proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to their accounts in accordance with Section 1026, which are based on wages paid for services during the period of the election.

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

SEC. 2. Section 5076 of said code is amended to read:

5076. There is hereby established the California Beef Council which consists of 19 members and 19 alternates, all of whom shall be citizens and residents of this State and producers.

The director shall appoint to the council six range cattlemen, six cattle feeders, and seven dairymen nominated as producers as hereinafter provided for, giving due regard to proper geographic distribution, but this requirement shall not operate to remove from office any member of the council. As soon as feasible after the effective date of this section, as amended, the director shall classify the present members of the council and shall adopt a schedule for new appointments to the council so that, as present terms of office of members expire, the vacancies will be filled with producers in the classifications and numbers specified in this section. The first appointments made under this chapter shall be so made that the terms of six members and their alternates shall expire at the end of one year, six members and their alternates shall expire at the end of two years, and seven members and their alternates shall expire at the end of three years. The director, whenever he deems necessary, shall obtain additional nominations for membership on the council from producers.

Any vacancy occurring during the unexpired term shall be filled by the director for the unexpired term from the eligible nominees. No council member or alternate shall serve more than two consecutive three-year terms. Service as an alternate does not disqualify a person to then serve two such terms as a member, provided that a member who was appointed for a one- or two-year term may serve two additional three-year terms.

The director may remove any member of the council or alternate for cause and upon such removal there shall be a vacancy which shall be filled in the manner as provided for the unexpired term.

SEC. 4. Section 5078 of said code is amended to read:

Members and their alternates shall be appointed from the lists of those persons nominated for membership on the council. Notice of a call for nominations shall be given by the director by publishing notice thereof in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers or by such other means as the director shall determine to be necessary to give reasonable notice of such nominations to producers in the State. Such notice shall state that nominations made by mail to the director at his office in Sacramento, setting forth the names, addresses, citizenships, and types of producers of each of the proposed nominees, and bearing the signature and address of the nominator, if received by the director, within the time designated by him, will be considered by the director.

SEC. 5. Section 5080 of said code is amended to read:

5080. The council shall have two regular meetings in each year at times and places fixed by the council. The times for regular meetings shall be fixed so that there shall be an interval of at least four calendar months between such meetings. The council may meet in special meetings at any time and place at the call of the chairman or upon the written request of five members of the council. The executive committee shall have two regular meetings each year at times and places fixed by it, and may meet in special meetings at any time and place at the call of the chairman or on call of a majority of the members of the executive committee.

5100. The duties of the council shall be advisory, except as to those duties which may be delegated to it by the director, and may include the following:

(a) To recommend to the director administrative rules and regulations relating to the administration and enforcement of this chapter;

(b) To investigate all matters affecting the administration of this chapter, and to report violations thereof to the director;

(c) To employ and, at its pleasure, discharge a manager and such clerical help and other employees as it deems necessary, and to prescribe their duties and powers and fix their compensation;

(d) To contract with, or employ, and, at its pleasure, discharge such other persons as it deems necessary, and in the cases of such of them as it shall employ, to outline their powers and duties and fix their compensation;

(e) To establish offices, and incur expenses incidental thereto;

(f) To make such contracts and other agreements as may be proper to promote the sale of beef and beef products on either a local, state, national or international basis;

(g) To co-operate with any other local, state, or national commission, organization, or agency, whether voluntary or created by state or federal law, and engaged in work or activities similar to the work and activities of the council created by this chapter, and recommend to the director the making of contracts and agreements with such organizations or agencies for carrying on joint programs of education, research, publicity and advertising; provided, however, that in matters of research, the council shall co-operate with organizations of recognized professional standing which are adequately equipped with facilities for the research contemplated;

(h) To recommend to the director the institution and promotion of scientific research to develop or discover, or both, the health, food, therapeutic, dietetic, industrial, or other uses of beef and its products.

Funds may be allocated to agencies not specifically or solely engaged in carrying on research or promotion for beef, provided the council and the director are satisfied that such allocations will be beneficial to the California beef industry, and will tend to effectuate the declared purposes of this act.

The exercise of the foregoing powers of the council shall in all instances be subject to the approval of the director.

SEC. 7. Section 5102 of said code is amended to read:

5102. No program or activity conducted or sponsored under this chapter shall make false or unwarranted claims, or disparage the quality, value, use, or sale of any commodity authorized by law to be marketed in this State, nor shall any such program be conducted with reference to a private brand or trade name referring to beef or a beef product.

SEC. 8. Section 5107 is added to said code, to read:

5107. Any time after the effective date of this section, the director shall on a petition of 3,000 of the State's producers, who signed the petition not more than six months prior to its presentation to the director, conduct a referendum among producers to ascertain whether producers favor the carrying on of a mandatory promotion and research program for beef as prescribed in Section 5101. At the time any person starts to circulate such a petition he shall notify the director of such action. The period of time established by the director during which such referendum shall be conducted shall be not less than 30 days nor more than 90 days. The director shall count and tabulate the ballots received, and announce the results at the close of the referendum period. If the director finds from the ballots cast that 65 percent or more of the producers voting in such referendum favor carrying on such a promotion and research program, the director shall declare the program a mandatory promotion and research program, provided that

35 percent of all producers, as established by the directors list, have voted.

If the promotion and research program is declared to be mandatory Section 5127 shall be of no further force or effect and the purpose expressed in subdivision (c) of Section 5026 shall be to provide funds by fees rather than voluntary contributions.

If the director finds that the above required numbers of producers voting in the referendum have not voted in favor of carrying on such a mandatory promotion program, the director shall declare this result and shall instruct the council to carry on the current program.

If such a promotion and research program fails to receive the required favorable vote another referendum shall not be petitioned for until after the expiration of a period of two years from the close of the period of the referendum which failed.

SEC. 9. Section 5125 of said code is amended to read:

5125. In order to carry out the programs and administer the activities conducted pursuant to this chapter, a fee of ten cents ($0.10) per head on cattle and calves shall be charged and collected from the seller at the same time that brand inspection fees are collected as provided in Article 10 (commencing at Section 353) of Chapter 2 of Division 3 of the Agricultural Code, except that such fee shall not be charged upon the following:

(a) Hides, skins or reduction animals;

(b) Any cattle transported for purposes other than for sale or slaughter and without a change of ownership;

(c) Any animal less than three months of age;

(d) Any animal sold for milk or calf production.

Such fees shall not be charged or collected more than once from each owner upon the same animal.

It is the purpose of this section that a fee be paid for each head of cattle originating in other states and slaughtered in this State, other than those specifically excepted herein, and if not otherwise paid shall be collected from the purchaser or slaughterer.

Failure to remit fees due within 90 days of the date of inspection shall make the person for whom the inspection was made, whether or not a complaint has been filed against such person, subject to an amount not to exceed 10 percent of such unpaid assessment, or ten dollars ($10) whichever is greater, to defray the cost of enforcing the collection of such unpaid fees.

Any person who fails to remit fees due when called for by the director shall be liable civilly in an amount not to exceed the cost of the total amount of fees and the cost of the civil suit for each and every violation thereof. Civil suits and the amounts recovered thereby shall not be affected by claims of exemption made after the fee becomes due under this section.

SEC. 10. Section 5200 of said code is amended to read:

5200. The provisions of this chapter shall continue to be operative permanently except as provided in this section. A referendum among the State's producers shall be conducted by the director (a) whenever the director, on his own motion or at the request of the council, determines that it is no longer in the best interest of the State to continue the existence of the council and the programs established and maintained pursuant to the provisions of this chapter, or (b) upon the receipt by the director of a petition for such a referendum signed by 3,000 of the State's producers who signed the petition not more than six months prior to its presentation to the director. No one who holds a current exemption certificate may petition to terminate or participate in the referendum. In either such event, the director shall thereupon prepare and mail to each producer as shown in the records of the department a ballot form and self-addressed envelope.

The ballot form shall be substantially as follows:

If upon a count of the ballots the director finds that less than 51 percent of the total number of producers voting have assented to such discontinuance and termination, he shall make a finding to that effect and the council and programs established and maintained pursuant to this chapter shall continue to remain in full force and effect.

(b) Determine the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise involving a gross annual production of more than twenty-five thousand dollars ($25,000) value, but less than three hundred fifty thousand dollars ($350,000) value and authorize or prohibit such action. The Correctional Industries Commission shall determine the gross annual production, within the limit set above, of each new enterprise at the time of its establishment. The annual production so set shall not be increased until a public hearing concerning the proposed increase has been held before the Correctional Industries Commission. It shall be the duty of the commission annually, to adjust the maximum gross annual production value of three hundred fifty thousand dollars ($350,000) permitted for each enterprise, the purpose of such adjustment being to keep said limit in balance with changes in population

of state correctional institutions and changes in cost of production. Such adjustment shall be made in the following manner:

1. The maximum limitation of three hundred fifty thousand dollars ($350,000) shall serve as a base figure as of December 31, 1954, for such computation.

2. The maximum limitation shall be increased or decreased in the same proportion as the population of state correctional institutions shall have increased or decreased in comparison with their population on December 31, 1954.

The maximum gross annual limitation on production as adjusted in accordance with the above formula shall replace and serve in lieu of the three hundred fifty thousand dollars ($350,000) limitation until the next annual adjustment is made by the commission. It shall apply to enterprises previously authorized as well as to those authorized during the current period, and such adjustment may be made without public hearing.

"Population of state correctional institutions," as used in this subsection, is the total number of persons in institutions subject to the jurisdiction of the Department of Corrections under Section 5003 of the Penal Code and the number of persons in institutions subject to the jurisdiction of the Youth Authority under Section 1000 of the Welfare and Institutions Code.

(c) Hold hearings pursuant to Section 5092, and make rules for the conducting of such hearings. However, the commission may, in its discretion, hold public hearings on any subject within its jurisdiction.

[Approved by Governor June 17, 1963. Filed with Secretary of State June 18, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 25505 of the Education Code is amended to read:

The governing board of any district maintaining a junior college may admit nonresident students. The attendance of nonresident students shall be computed in the same manner as prescribed by this code for resident students.

As used in this section "nonresident student" shall have the same meaning as is given the phrase by provisions of this code prescribing fees for attendance at state colleges, except that a person who has lived in the State less than one year and whose parent or guardian is living in the State at the time of the person's registration at the junior college may at the option of the governing board be deemed to be a resident student. When such provisions refer to the trustees the reference shall for the purpose of this section be deemed to be to the governing board of the district and, except in subdivision (a) and (b) of Section 23759, when such provisions refer to a state college the reference shall be deemed to be to the junior college.

SEC. 2. Section 25505.5 of said code is amended to read:

25505.5. The governing board of any district maintaining a junior college shall charge a nonresident fee to those students attending the junior college, who qualify as nonresident students under the provisions of Section 25505, except that in lieu of charging the students, the governing board may contract with another state or with an appropriate agency of another state, for the payment of the fee of the students in attendance from such state. Students attending the junior college, who are citizens of a foreign country, military personnel or the dependents of military personnel may be subject to the payment of a nonresident fee as determined by the governing board of the district in an amount not to exceed the total nonresident fee set by the State Board of Education. The determination that students attending junior college who are military personnel or the dependents of military personnel may be subject to the payment of a nonresident fee shall be made with respect to all such students, and shall not be made on an individual basis and the fee, if any, shall be the same amount for all such students; the determination that students attending junior college who are citizens of a foreign country may be subject

to the payment of a nonresident fee shall be made with respect to all such students, and shall not be made on an individual basis and the fee, if any, shall be the same amount for all such students; except that a different uniform fee may be charged such students who are residents of a foreign country or who are military personnel or the dependents of military personnel and who are attending on less than a full-time basis as fixed by the State Board of Education in accordance with the provisions of this section set forth below. The governing board of the district maintaining a junior college may exempt students who enroll for six units or less from the payment of a nonresident fee.

The fee which shall be uniform throughout the State except for foreign students, military personnel, or the dependents of military personnel and which shall be paid in two equal installments at the beginning of each semester, shall be set by the State Board of Education not later than January first of each year.

The fee established by the State Board of Education shall represent the amount per student enrolled in junior colleges in all the districts of the State, which is expended by all the district from district tax funds for the costs of instruction as defined by the California School Accounting Manual for pupils enrolled in grades 13 and 14.

The amount per pupil enrolled shall be derived by dividing the costs of instruction expended from district funds during the preceding year by the quotient of the average daily attendance during the same year in grades 13 and 14 of all districts maintaining junior colleges in the State divided by 1.2. The same fee shall be charged irrespective of the type of class in which the student is enrolled.

The State Board of Education shall also adopt a per-unit tuition fee for nonresident students attending junior colleges on less than a full-time basis. Such a fee per unit shall be derived by dividing the fee determined by the State Board of Education for full-time students by 30 (units). The same per-unit rate shall be charged of all nonresident students, attending any summer sessions maintained by the junior college.

Each district maintaining a junior college shall report annually to the State Department of Education on the number of nonresident students enrolled in each of the following categories: (1) nonresident students who are residents of foreign countries, (2) nonresident students who are military personnel or the dependents of military personnel, and (3) other nonresident students. The report shall set forth the above information separately for part-time nonresident students and for full-time nonresident students in each of the three categories. The report shall show the total amount of money received for each category and the total received for all nonresident students.

The provisions of this section which require a mandatory fee for nonresident students shall not apply to any college in which during the school year 1962-63 more than 25 percent of the students enrolled were residents of another state; except that the provisions of this section shall apply to such colleges beginning with the school year 1970-71 and except that the provisions of this section which require annual reports to be filed with the State Department of Education on the number of nonresident students enrolled shall apply to such colleges in the same manner as to any junior college.

The court shall further order canceled the public agency's portion of any prorated current tax. The subject of the amount of the taxes which may be due on the property shall not be considered relevant on any issue in the condemnation action, and the mention of said subject, either on the voir dire exam-

In determining the values of the securities for a group of loans, the commissioner may use his appraisal of each security or his estimate of the total value of such securities based upon his appraisal of a reasonable sample thereof. If any association contests the validity of the estimate based upon a sample, it may have an appraisal under Section 7252 of all the group from which the sample was drawn.

DIVISION 1.5. CALIFORNIA COMMISSION ON MANPOWER, AUTOMATION AND TECHNOLOGY

160. The Legislature hereby finds and declares that experience has shown that automation and other forms of rapid technological change can cause industrial displacement and unemployment which seriously depresses the morale and productive capacity of the work force of the State; that many of those displaced or not hired because of such developments find that there is no longer a market, or a very limited market, for their skills; that such developments generate demands for new and different skills and capabilities from those possessed by the work force; that current and prospective manpower surpluses and shortages generated by rapid technological change should be identified and appropriate steps be taken to plan

for their amelioration; that advance knowledge of impending changes in work processes and their consequent manpower requirements be secured as a basis for the planning of corrective measures; that the effectiveness of public and private training and educational resources should be reappraised continuously to evaluate their capacity to produce the skills needed in a changing technology; that the steps being taken by labor and management to adjust to these changes should be identified and made known; and that it is in the interest of the State of California that such appraisals of the impact of automation and technological development on the skills required in the work force and the job opportunities available to them be made and continuously reappraised, and that the information and knowledge so gained be made available to labor, to management, and to public agencies as a basis for the planning of programs and actions to develop the skills of our work force for a changing technology, to deal more effectively with the problems of unemployment and to further the economic growth and development of the State and the well-being of its people.

161. The California Commission on Manpower, Automation and Technology is hereby created.

162. The commission shall consist of 4 Members of the Senate appointed by the Senate Committee on Rules, 4 Members of the Assembly appointed by the Speaker, 15 members appointed by the Governor, and 6 ex officio members. In appointing the 15 members appointed by the Governor, the Governor shall appoint 6 who represent management, 6 who represent labor, and 3 who represent the general public. Of the six who represent management, one shall be from the agricultural industry. The ex officio members are the Commissioner of the Economic Development Agency and the directors of the following state departments: Agriculture, Industrial Relations, Employment, Education, and Social Welfare.

163. The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power and shall participate in the activities of the commission to the extent that such participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this division, the Members of the Legislature appointed to the commission shall constitute a joint legislative investigating committee on the subject of this division and as such shall have all powers and duties conferred and imposed upon such committees by the Joint Rules of the Senate and Assembly.

164. Each member of the commission, appointed by the Governor, shall hold office for a term of four years and until the appointment and qualification of his successor.

165. Vacancies shall be filled by the appointing power. Vacancies in the terms of members appointed by the Governor shall be filled for the remainder of the unexpired term.

166. The members of the commission shall serve without compensation but shall be reimbursed in accordance with law for any actual and necessary expenses incurred in connection with the performance of their duties.

167. The Governor shall designate one of the members of the commission as the chairman of the commission. The chairman of the commission shall have the powers conferred upon heads of state departments by Section 11181 of the Government Code.

168. The commission shall meet on the call of the chairman and at such other times as the commission may, by rule, determine.

171. Every department, board, agency, officer and employee of the state government shall give and furnish to the commission upon its request such information, records and documents, including information, records, and documents required by law to be kept confidential, as the commission deems necessary or proper for the achievement of purposes of this division. If the commission obtains confidential information, records, or documents, pursuant to this section, the commission shall treat such information, records, and documents as confidential and shall not reveal nor make them available for public inspection in any manner so as to disclose information concerning an individual company or concern.

The State Department of Industrial Relations, Employment, and Education shall assign staff, conduct studies, make surveys and perform similar functions within the structure of the respective departments for the purposes of this division as requested by the commission, and subject to the direction of the commission.

The commission may utilize personnel of the government of the United States to the extent permissible by law.

172. The commission shall:

(a) Study the introduction of modern production and distribution techniques in California to determine the impact of automated processes and other technological advancements on employment opportunities, the skill requirements of industry, business, and government, the displacement of employees, and the obsolescence of skills among members of the labor force.

(b) Study and analyze the processes of adjustment to automation and other technological advancements in the State's economy.

(c) Study and analyze surveys of current public and private programs in the field of job training, retraining, and skill developments generally to evaluate their effectiveness in providing employable skills in reference to both the changing

composition of the State's labor force and the changing skill requirements of industry.

(d) Recommend co-ordinated surveys in the various labor markets of the State to project as best possible the basic skill requirements of industry, business, and government sufficiently in advance of need, and in the approximate quantity needed, to the end that such projections shall provide a body of usable information for the development of sound job training, retraining, and skill development programs by labor and management and responsible government agencies. Such surveys shall consider, but shall not necessarily be limited to the consideration of, the skills presently available to industry, business, and government, the present skill requirements of industry and the future skill requirements of industry.

(e) Encourage labor and management to undertake jointly similar surveys and projections within their respective industries and occupations to maintain a high level of private initiative in meeting the skill development requirements of both employees and employers.

172.5. The following members of the commission representing the designated fields may be constituted by the Governor as the State Manpower Advisory Committee:

Public: The three members representing the general public.

Labor: Three of the members representing labor.

Management: Three of the members representing management.

Agriculture: The State Director of Agriculture.

Education: The State Superintendent of Public Instruction.

The chairman of the commission shall be a member of and serve as chairman of the committee.

The committee shall co-operate with and assist the National Manpower Advisory Committee as established by the United States Manpower Development and Training Act of 1962.

173. The commission, with the approval of the Director of Finance, may accept grants of funds from the government of the United States, from any department or agency of the State of California, or from any person or private agency.

174. The information received from any group, firm, or individual in response to the commission's request shall be for the confidential information of the commission insofar as it relates to planning, manning, personnel, union membership and related matters. Except as otherwise provided by law, the records of the commission shall be open to inspection by the public during regular office hours. All meetings of the commission shall be open and public.

175. The commission may enter agreements and contract with the United States or any agency thereof, or with any state or agency thereof, or any private organization or individual engaged in functions comparable to those performed

[Approved by Governor June 19, 1963 Filed with Secretary of State June 19, 1963]

The people of the State of California do enact as follows:

(5) Used vehicle
(6) Passenger vehicle

(b) As used in this chapter, "motor vehicle pollution control device" means equipment designed for installation on a motor vehicle for the purpose of reducing the pollutants emitted from the vehicle, or a system or engine modification on a motor vehicle which causes a reduction of pollutants emitted from the vehicle.

(c) As used in this chapter, "certified device" means a motor vehicle pollution control device for the control of emissions of pollutants from a vehicle from a particular source of emissions from the vehicle, including, but not limited to, the exhaust system, the crankcase, the carburetor, and the fuel tank, for which standards have been set by the state department under Section 426 5 and for which a certificate of approval has been issued by the Motor Vehicle Pollution Control Board. Whenever under this chapter or any other law a motor vehicle is required to be equipped with a certified device, such requirement refers to the certified device for the control of emissions of pollutants from the particular source involved.

SEC. 2. Section 24386 of said code is amended to read:

(3) To determine and publish the criteria for approval of motor vehicle pollution control devices. In determining the criteria the board shall take into consideration the cost of the device and its installation, its durability, the ease and facility of determining whether the device, when installed on a motor vehicle, is properly functioning, and any other factors which, in the opinion of the board, render such a device suitable or unsuitable for the control of motor vehicle air pollution or for the health, safety, and welfare of the public.

(4) To issue certificates of approval for any motor vehicle pollution control device where, after being tested by the board or tested and recommended by a laboratory designated by the board as an authorized vehicle pollution control testing laboratory, the board finds that the device operates within the standards set by the state department under Section 426.5 and meets the criteria adopted under subdivision (3) of this section.

(5) To exempt from Article 3 of this chapter designated classifications of motor vehicles for which certified devices are not available, and motor vehicles whose emissions are found by appropriate tests to meet state standards without additional equipment, and motor-driven cycles, implements of husbandry, and vehicles which qualify for special license plates under Section 5004 of the Vehicle Code.

(6) To revoke, suspend, or restrict a certificate of approval previously issued or an exemption previously granted, upon a determination by the board that the device or motor vehicle no longer operates within the standards set by the state department under Section 426.5 or no longer meets the criteria adopted under subdivision (3) of this section or no longer should be exempted. [Approved by Governor June 20, 1963. Filed with Secretary of State June 21, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 24755 of the Business and Professions Code is amended to read:

24755. (a) No package of distilled spirits which bears the brand, trademark or name of the owner or person in control shall be sold at retail in this State for consumption off the license premises unless a minimum retail price for such package first shall have been filed with the department in accordance with the provisions of this section.

(b) A price for each of such packages shall be in a minimum retail price schedule setting forth with respect to each package the exact brand, trademark or name, capacity, and type of package, type of distilled spirits, age and proof, where stated on the label, and the minimum selling price at retail. The price for any such package may be filed separately and differently for the trading area of Southern California and the trading area of Northern California. The trading area of Southern California shall consist of the Counties of Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Bernardino, Imperial and San Diego. The Northern California trading area shall consist of the other counties of the State.

No more than one person shall file a schedule for the same package for the same trading area. Any person filing such schedule shall cause such schedule to be published in a manner which will result in each retailer affected by such schedule being advised of the contents of such schedule prior to the effective date thereof,

(c) Such schedule shall be filed by (1) the owner of the brand, if licensed in the State; (2) any licensee, other than a retailer, selling the brand and who is authorized in writing by the brand owner to file such schedule if the brand owner is not licensed in this State; (3) a manufacturer or rectifier licensed in this State and who bottles under the brand owned by a retailer; or (4) any licensee with the approval of the department, if the owner of the brand does not file or is unable to file a schedule or authorize a licensee other than a retailer to file such schedule.

(d) Schedules filed pursuant to this section may be amended, changed, or modified by filing such amendments, change, or modification with the department on or before the 15th day of any month to take effect on the first day of the second succeeding calendar month; except that prices filed for a brand, size, or type not included in a schedule in effect at the time such brand, size, or type is filed, and prices filed to meet the price of a competitive brand, may be filed on or before the 15th day of any month to take effect on the first day of the following month. For the purpose of this section, a competitive brand shall mean any brand of the same type of distilled spirits having a filed selling price at retail within one dollar ($1) per gallon of the brand for which a competitive price is filed.

No retailer shall sell any package of distilled spirits as a loss leader. "Loss leader," as used in this section, means a sale below cost as such cost is defined in Sections 17026 to 17029, inclusive, of this code, except that a sale below cost made under the provisions of Section 17050 of this code shall not be deemed a loss leader sale.

The department shall reject any price schedule which does not comply with this subdivision.

(e) No offsale licensee shall sell any package of distilled spirits at any price less than the effective filed price of such package unless written permission is granted by the department, for good cause shown and for reasons not inconsistent with this division.

(f) The provisions of this section shall not apply to:

(1) A closeout sale made in good faith and approved by the department when the following conditions exist: (i) the stock of distilled spirits sought to be closed out has been in this State, either in the possession of the vendor who sold it to the retailer or in the possession of the retailer who seeks to close out the brand, for a period of not less than six months; (ii)

the stock of distilled spirits to be closed out was not brought into this State for the purpose of offering it, or any part of it, at a closeout sale; (iii) at least 10 days prior to filing a request with the department for approval to sell the stock at a closeout sale, the retailer had offered to return the distilled spirits, at his original invoice cost, to both the vendors from whom he purchased them or to his successor and to the licensee who filed the minimum price schedule under the provisions of this section; (iv) such offer of return was not accepted.

At the place of any closeout sale and upon any package of distilled spirits to be so sold and in any advertisement in connection therewith, public notice shall be given of the sale as a closeout sale. Following the conclusion of a closeout sale, the retailer who conducted such sale shall not sell the same brands of distilled spirits for a period of at least one year.

(2) Sales made with the approval of the department when the distilled spirits or the package is damaged or deteriorated in quality and notice of this fact is given to the public at the place of any such sale and upon the package offered for sale and in any advertisement in connection therewith.

(3) Sales made by any officer acting under the orders of any court.

(4) Sales of distilled spirits for use in the manufacture or production of food products which are unfit for beverage use as provided in Section 23112, if such distilled spirits are sold to a person who holds a permit and identification number authorizing the filing of a claim for drawback of federal distilled spirits excise taxes under the Federal Non-Beverage Drawback Regulations.

(g) A minimum retail price schedule containing a minimum retail price for each package of any brand of beer may be filed under the provisions of this chapter by the person in control of such brand and when so filed, the provisions of this chapter and any rules adopted by the department for the administration of the provisions of this chapter shall apply to the sale of packages of such brand of beer.

SEC. 2. Section 32214 is added to the Revenue and Taxation Code, to read:

32214. If taxes have been paid on distilled spirits sold to a person who holds a permit and identification number authorizing the filing of a claim for drawback of federal distilled spirits excise taxes under the Federal Non-Beverage Drawback Regulations and the distilled spirits have been used in the manufacture of food products, the taxpayer may claim and shall be allowed credit with respect to the taxes in any report or return made under this part.

33889. The legislative body of any community may abolish the redevelopment revolving fund whenever it finds that the purposes for which it was established have been accomplished.

The legislative body of any community may, with the consent of the agency, withdraw money from the redevelopment revolving fund whenever and to the extent that it finds that the amount of money therein exceeds the amount necessary to finance existing or planned purposes for which its expenditure is authorized by the provisions of this article. All money withdrawn from the fund by reason of its being reduced in size, or its abolition, and all money which, after abolition, would have

been required to be deposited or redeposited in the fund, shall be transferred to the general obligation bond redemption fund of the community or to the general fund of the community, as directed by the legislative body.

SEC. 2. Section 33626 of said code, as added by Assembly Bill No. 1734, is amended to read:

SEC. 3. Section 2 of this act becomes operative only if Assembly Bill No. 1734 is enacted by the Legislature at its 1963 Regular Session, and in such case at the same time as said bill takes effect, at which time Section 33889 of the Health and Safety Code, as amended by Section 1 of this act is repealed.

CHAPTER 1026

An act to add Section 23053.5 to the Business and Professions Code, relating to alcoholic beverages, and making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 25, 1963. Filed with Secretary of State June 25, 1963.]

SECTION 1. Section 23053.5 is added to the Business and Professions Code, to read:

23053.5. The department shall have the function of investigation of violations of Chapters 10, 11 and 15 of this division and rules of the department relating thereto. To the end that such provisions are more adequately and strictly enforced, funds for support of this program shall be derived as follows: in addition to fees otherwise provided for in this division, the following amounts shall be paid to the department by holders of the following types of licenses:

(e) Distilled spirits manufacturer's license_ $52 per year
(f) Distilled spirits importer's general license _____ $52 per year

Payment of such amounts shall be made upon issuance or transfer of said types of licenses, and shall be made by the holders of said types of licenses at the time specified in this division for payment of annual renewal fees therefor.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Numerous offsale general licensees conduct their business in intentional violation of the law of the State. The Department of Alcoholic Beverage Control has insufficient investigative personnel at present to detect and discipline all such licensees.

Payment of the annual amounts for the licenses set out in Section 1 of this act are payable on or before June 30 of each year. Unless this act takes effect immediately such amounts would not be payable until June 30, 1964, and the enforcement program could not commence until after June 30, 1964.

CHAPTER 1027

An act to amend Sections 160.2, 160.6, 160.9, 1038, 1071, and 1079 of the Agricultural Code, relating to agricultural license fees and other fees, to take effect immediately, tax levy.

[Approved by Governor June 25, 1963. Filed with Secretary of State June 26, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 160.2 of the Agricultural Code is amended to read:

160.2. It is unlawful for any person to engage for hire in the business of pest control without first procuring from the director a license for each calendar year or portion thereof. Applications for such license shall be in the form prescribed

by the director, and shall state the name and address of the applicant and the type of pest control in which he intends to engage. The application, except as hereinafter provided, shall be accompanied by a fee of fifty dollars ($50). Each applicant shall further satisfy the director of his character, qualifications, responsibility, and good faith in seeking to carry on the business of pest control.

The director shall thereupon issue to such applicant a license entitling the applicant to conduct the business described in the application for the calendar year for which the license is issued, unless the license is sooner revoked or suspended. Such license may be renewed annually upon application to the director, accompanied by the proper fee, on or before the last day of January of the calendar year for which the license is issued. To any fee not paid when due, there shall accrue and be added a penalty of five dollars ($5).

A person not regularly engaged in the business of pest control and operating only in the vicinity of his own property and for the accommodation of his neighbors shall not be required to procure a license, but shall obtain a permit from the director, register with the commissioner as provided in Section 160.3, and be subject to all other provisions of the chapter. The determination of the director that a person is engaged in the business of pest control beyond the vicinity of his own property or for the accommodation of others than his neighbors shall be final.

The director may refuse to grant a license or renewal of license and may revoke or suspend any license, as the case may require, when, after a hearing as herein provided, he is satisfied that the applicant or licensee is not qualified to perform the type of pest control under the conditions and in the locality in which he intends to operate, or, that he has committed any of the following acts, each of which is declared to be a violation of this chapter:

(a) Making false or fraudulent claims, or misrepresenting the effects of materials or methods to be applied, or applying worthless or improper materials, or otherwise engaging in unfair practices;

(b) Operating in a faulty, careless or negligent manner;

(c) Refusing or neglecting to comply with the provisions of this chapter, or of rules and regulations issued hereunder, or of any lawful order of the commissioner;

(d) Refusing or neglecting to keep and maintain the records required by this chapter, or to make reports when and as required;

(e) Making false or fraudulent records or reports;

(f) Operating in any county without first having registered with the commissioner, as hereinafter provided;

(g) Operating equipment with incompetent or unqualified persons in charge thereof;

(h) Fraud or misrepresentation in making application for a license or for renewal of a license;

(i) Failure to comply with the provisions of Article 4 (commencing at Section 1080) of Chapter 7 of Division 5 of this code.

SEC. 2. Section 160.6 of said code is amended to read:

160.6. It is unlawful to operate any aircraft in the business of pest control unless the pilot operating the aircraft holds (a) a valid certificate of qualification issued by the director or (b) a valid apprentice certificate issued by the director. A fee of twenty-five dollars ($25) shall accompany each application for each such certificate.

Before a certificate of qualification may be issued, the applicant shall pass an examination to demonstrate to the director his ability to conduct pest control operations, and his knowledge of the nature and effect of materials used in pest control. Certificates of qualification issued to successful candidates shall disclose therein in which of three general classes of pest control operations, to wit: the use of herbicides and defoliants, the use of pesticides other than herbicides and defoliants (dust) and the use of pesticides other than herbicides and defoliants (liquid), the applicant is qualified and the holder of a certificate of qualification shall only be authorized to conduct those pest control operations in which he is found qualified.

No certificate of qualification shall be issued to any applicant, other than the holder of a valid apprentice certificate, who has not had in effect a valid certificate of qualification issued to him by the director within the previous two calendar years.

No certificate of qualification shall be issued to the holder of an apprentice certificate until he shall have served as an apprentice pursuant to a certificate issued under the provision of this chapter for one year and until he shall present to the director satisfactory documentary proof consisting of a certified statement by a licensed agricultural aircraft operator of his completion of not less than one hundred fifty (150) hours of operation of fixed-wing aircraft or fifty (50) hours of operation of non-fixed-wing aircraft within the past two calendar years in agricultural pest control activities.

In the case of applicants for apprentice certificate, the examination shall be designed to demonstrate the candidate's ability to conduct the specific pest control operations listed in his application. Successful candidates for apprentice certificates shall be authorized to conduct only the specific kinds of pest control operations for which they are found to be qualified and such operations shall be listed on their apprentice certificates.

The applicant for an apprentice certificate shall satisfy the director, through documentary evidence or other suitable information, that he will be employed by a person holding a license currently in effect and that he will be employed under the direct and personal supervision of a person holding a valid certificate of qualification. All certificates issued after the effective date of this section shall expire on the last day of the calendar year for which they were issued. Certificates

may be renewed upon application to the director, accompanied by a renewal fee of fifteen dollars ($15), within the calendar year next following the date of expiration.

The director may refuse to issue such certificate or renewal of certificate to any pilot, and may revoke or suspend the certificate of any pilot when, after a hearing, he is satisfied that the pilot is not qualified to conduct pest control operations or has violated any of the provisions of this chapter, or rules or regulations issued hereunder, or has failed or refused to comply with any lawful order of the commissioner or the director.

It is unlawful for the holder of an apprentice certificate to conduct pest control operations in accordance with the provisions of his certificate unless he is employed under the direct and personal supervision of a person holding a valid certificate of qualification.

In the event the holder of a valid certificate of qualification or a valid apprentice certificate shall be called to active duty as a member of the Armed Forces of the United States of America, the holder, upon the termination of such active duty, shall be entitled to renewal of such certificate, notwithstanding any other provisions of this section, upon application to the director and payment of the renewal fee; provided, that such holder shall not be entitled to renewal of a certificate of qualification until he shall have demonstrated to the director his ability to conduct pest control operations and his knowledge of the nature and effect of materials used in pest control.

SEC. 3. Section 160.9 of said code is amended to read:

160.9. Any moneys derived under the provisions of Sections 160.2 and 160.6 shall be paid into the State Treasury to the credit of the Department of Agriculture Fund. Money in the Department of Agriculture Fund derived under the provisions of this chapter and Article 2 (commencing with Section 1021) and Article 3 (commencing with Section 1061) of Chapter 7 of Division 5 of this code may be expended for the administration and enforcement of any or all of the provisions of this chapter and Article 2 and Article 3 of Chapter 7, of Division 5, notwithstanding any other provisions of law limiting the expenditure of any such money to the specific purposes or to the administration or enforcement of each of these chapters separately.

SEC. 4. Section 1038 of said code is amended to read:

1038. Upon any sale not exempt from the provisions of this article, of commercial fertilizer, the registered person selling the same shall pay fourteen cents ($0.14) per ton or fraction thereof, and upon such a sale of agricultural minerals, five cents ($0.05) per ton or fraction thereof, except where the agricultural mineral is sold to be used and is used in the manufacture of commercial fertilizer. A commercial fertilizers registrant selling agricultural minerals to an unregistered person in the original and properly labeled lots or packages of

an agricultural minerals registrant shall pay thereon the agricultural minerals tonnage tax required by this section. Each registered person shall keep accurate accounts of sales of commercial fertilizers and/or agricultural minerals, and such accounts shall be open at all times to inspection by the director. A statement of sales shall be rendered to the director quarterly within one calendar month after March 31st, June 30th, September 30th, and December 31st, of each year, and shall be accompanied by the amount of tonnage license tax required by this section. Any delinquency in making a statement and return, or any deficiency in any return, shall subject the registrant to the payment of a penalty of ten percent (10%) of the amount due.

Whenever a registered person shall have paid the tonnage license tax herein required, any person acting as his selling agent shall not be required to pay the tonnage license tax.

The Licensing of Certificated Personnel Law of 1961 (Chapter 848, Statutes of 1961) becomes operative July 1, 1963. In order to allow adequate time for institutions of higher educa-

The people of the State of California do enact as follows:

SECTION 1. Section 6913.1 of the Education Code is amended to read:

6913.1. The maximum rate of school district tax for any school year is hereby increased by such amount as the governing board of any school district required to provide educational services or facilities for mentally retarded minors who come within the provisions of Section 6902 may include in its budget for the purposes of meeting the mandatory provisions of Section 6902 and the optional provisions of Section 6903 if such services are provided, and the board of supervisors shall levy a school district tax necessary to raise such amount. No amounts shall be included in its budget for the purchase or improvement of school sites or the construction of school buildings.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in the tax rate hereby provided, such balance shall be used exclusively in the following fiscal year for the expenditures of the school district during that fiscal year required or authorized for the education of mentally retarded minors who come within the provisions of Section 6902 and Section 6903.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts which are levying the maximum rate of school district tax allowed by law may obtain funds to provide for the education of mentally retarded minors in the 1963-1964 fiscal year, and thus continue to provide the essential function of educating such children without interruption because of lack of funds, it is necessary that this act take effect immediately.

The district may levy an assessment to pay the expenses of its formation, or to pay any warrants issued therefor in an amount not exceeding 2 percent of the assessed valuation of the land within the district as shown on the last equalized county assessment roll, and such expenses shall be considered incidental expenses of the district.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is necessary to form districts having the power to operate and maintain existing levees and other reclamation works in the State in areas where no district or agency exists to operate and maintain such existing works; there is no practicable method by which the costs and expenses of forming such a district can be equitably distributed among the landowners in the area affected, with the result that such districts are not formed and said existing levees and works are not being properly maintained.

CHAPTER 1041

An act to amend Sections 19615 and 19663.5 of the Education Code, relating to state school building aid.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 19615 of the Education Code is amended to read:

19615. If, on or before June 30th of any fiscal year, the governing board of any school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter or Chapter 8, commencing with Section 19401, of this division, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, having once been filed with the State Controller, shall remain in effect each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

As used in the preceding paragraph, "any school district" means a district which is liable for the repayment of the principal amount of apportionments made to the district under the provisions of Chapter 8, commencing with Section 19401, of this division and which has received a conditional apportionment under this chapter.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district, during the fiscal year in which the annual repayment is to be deducted pursuant to Sections 19436 and 19611, for the payment of principal and interest on (a) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter, (b) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter, and (c) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter (Sections 19551 to 19689, inclusive). To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under

Chapter 8, commencing with Section 19401, of this division and under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under Chapter 8, commencing with Section 19401, of Division 14 of this chapter for such grade level. It is hereby declared that this paragraph is not intended as a change in the present law but rather as a declaration of existing law.

There shall be computed the amount which would be produced by a tax of forty-five cents ($0.45) on each one hundred dollars ($100) of assessed valuation of the district during such year, to be known as the "45-cent tax amount." The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 45-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of Finance to, and the Director of Finance shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 19433 and

Section 19604, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years. Any repayments by a district of a deferred amount shall be first applied to loans granted under Chapter 8, commencing with Section 19401, of this division.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 19439 or Section 19614, as the case may be, there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 19439 or Section 19614, as the case may be, shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 19440 or Section 19616, whichever is applicable.

SEC. 2. Section 19663.5 of said code is amended to read:

19663.5. If a unified school district, after the effective date of this section, applies for and is granted an apportionment under this chapter on the basis of grade levels as defined in Section 19553.1, all unpaid balances of prior apportionments made to the district, subject to the provisions of Section 19663, shall be added to the balances of the apportionments made on the basis of the provisions of Section 19553.1. In such cases, no further computations or repayments under Sections 19601, 19602, 19603, 19604, and 19615 shall be made with respect to the prior apportionments alone, but such computations and repayments shall thenceforth be based solely upon the combined apportionments, and shall be made as provided in Sections 19601.1, 19602, 19603, 19604, and 19615.

The governing body of any public agency, whether within or without the counties in which the authority is organized, may apply to the board of directors of the authority for consent to annex the corporate area of such public agency or a portion thereof to the authority upon the following conditions: (a) that the authority will be without power to levy the authority assessment within the area proposed to be annexed; (b) that the governing body of the applying public agency shall have the right to appoint a representative upon the board of directors of the authority who shall hold office at the pleasure of the appointing governing body and shall have one vote; (c) that upon dissolution of the authority the applying public agency, if then a member agency, shall not receive any portion of funds of the authority; and (d) that the applying public agency if it shall become a member agency may at any time by resolution of its governing body determine and declare that the public interest demands the withdrawal of such member agency from the authority and that upon the filing of a certified copy of such resolution with the secretary of the authority and with the Secretary of State the area of such member agency shall cease to be a part of the authority.

The board of directors may grant or deny such application. The action of the board of directors evidenced by resolution shall be promptly transmitted to the governing body of such applying public agency, and if such action shall grant consent to such annexation such governing body may thereupon file with the board of directors of the authority a certificate of proceedings hereunder which shall contain a legal description of the boundaries of such public agency or a portion thereof, accompanied by a map or plat indicating such boundaries. CHAPTER 1049

An act to add Chapter 6 (commencing with Section 31625) to Part 6, Division 12 of the Water Code, relating to the Kings County Water District.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 31625) is added to Part 6, Division 12 of the Water Code, to read:

CHAPTER 6. KINGS COUNTY WATER DISTRICT IMPROVEMENT DISTRICT

31625. An improvement district may be formed in the Kings County Water District which includes all of the land in the district in the manner prescribed in Chapter 5 (commencing with Section 31585) of this part for capital outlay

purposes, including, but not limited to, the acquisition of stock of mutual water companies. If the improvement district is formed, assessments shall be levied, collected, and enforced exclusively upon land within the improvement district to raise the funds necessary for the purposes of the improvement district. Such assessments shall be levied, collected, and enforced at the same time and as nearly as may be practicable as annual taxes for the purposes of the district.

SEC. 2. It is hereby declared to be necessary to enact the special law contained in Section 1 of this act with respect to the Kings County Water District because of special facts and circumstances existing therein. There are shares of capital stock of several existing mutual water companies within the district which the district has the opportunity to acquire. These mutual water companies own water rights which will be of immeasurable benefit to the district in perpetuity. The taxation of all the property in the district to raise funds to purchase the stock of these mutual water companies would be for a capital outlay purpose and would bear unfairly upon householders and persons owning personal property within the district. As there is, at present, no way under the County Water District Law by which assessments may be levied exclusively upon land within a district to pay the costs of such capital outlays it is necessary that this special law contained in Section 1 of this act be enacted to permit this to be done in the Kings County Water District.

Whenever appropriation is made in accordance with a schedule set forth after such appropriation, the expenditures from such item for each category or project included in the schedule shall be limited to the amount specified for such category or project, except as otherwise provided in this act. Each such schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to such schedules "category" or "project" means a class of expenditures such as, but not limited to:

(a) "Personal services" which shall include all expenditures for payment of officers and employees of the State; including salaries and wages, the State's contributions to the Employees' Retirement Fund, the Old Age and Survivors' Insurance Revolving Fund, the State Employees' Contingency Reserve Fund, and the State's cost of a basic health benefits plan; but do not include compensation of independent contractors rendering personal services to the State under contract, or payments into a private fund as authorized by Section 18853.5 of the Government Code;

(b) "Operating expenses and equipment" which shall include all expenditures for purchase of materials, supplies, equipment, services (other than services of state officers and employees), and all other proper expenses;

(c) "Construct" or "construction" when used in connection with a capital outlay project shall include all such related things as fixtures, installed equipment, and auxiliary facilities;

(d) "Working drawings" are defined as a complete set of plans and specifications showing and describing all phases of a project, architectural, structural, mechanical, electrical, civil engineering, and landscaping systems to the degree necessary for the purposes of accurate bidding by contractors and for the use of artisans in constructing the project. All necessary professional fees and administrative service costs are included in the preparation of such drawings.

(e) "Minor projects" include construction, improvements, repairs and equipment projects not specifically set forth in the schedule.

For the purpose of further interpreting the meaning of the words, terms and phrases used in such schedules, reference is hereby made to that document entitled, "State of California Budget for the fiscal year July 1, 1963, to June 30, 1964," submitted by the Governor to the Legislature at the 1963 Reg-

ular Session, the uniform accounting system prescribed by the Department of Finance under the provisions of Section 13290 of the Government Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every state agency to whom appropriations are made under this act.

SEC. 26.5. Whenever herein an appropriation is made for support or other expenses for an institution, department, board, bureau, commission, officer, employee, or other agency, there shall be charged to such appropriation from which salaries and wages are paid: the State's contribution to the State Employees' Retirement Fund as provided by Sections 20751 and 20752 of the Government Code, the State's contribution to the Old Age and Survivors' Insurance Revolving Fund as provided by Sections 20782 and 20783 of the Government Code, the State's contribution to the State Employees' Contingency Reserve Fund and the State's contribution for the cost of a basic health benefits plan as provided by Sections 22828 and 22829 of the Government Code.

The appropriations made by Sections 20751, 20752, 20782, 20783, 22828, and 22829 shall continue to be available for expenditure, and shall be charged for any expenditure which is not chargeable to an appropriation for support or other expenses as provided in this section.

SEC. 27. The Director of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for a category or project designated in any schedule set forth for such appropriation by transfer from any of the other designated categories or projects within the same schedule. The Director of Finance shall furnish the Joint Legislative Budget Committee a report on all authorizations given pursuant to this section during the preceding quarter.

SEC. 28. The Director of Finance may authorize the augmentation of the amount available for expenditure for any category in the schedule set forth for any appropriation in this act or any additional category in the amount of any funds which he estimates will be received by an officer, department, division, bureau, or other agency during the 1963-64 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration.

The Director of Finance may also reduce any category whenever he determines that funds to be received will be less than the amount taken into consideration in the schedule.

SEC. 29. Premiums for official bonds may be paid out of appropriations contained in this act, notwithstanding the period covered by such bonds.

SEC. 30. Whenever an expenditure is authorized from the Emergency Fund, from price increase funds, from the salary increase funds, or from a special fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures may, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

SEC. 31. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new positions or change in grade or class of an existing position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency and submitted to the Department of Finance the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any salary savings reserve may be expended to pay increases in salary ranges established after July 1, 1963, unless the Department of Finance certifies to the State Personnel Board, or other salary-fixing authority, prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that such expenditures comply with the provisions of this section.

SEC. 31.5. All appropriations under this act for the support of the state colleges and the Trustees of the California State Colleges shall be subject to the provisions of Section

13320 of the Government Code and Section 31 of this act, with the following exceptions: The Trustees of the California State Colleges may approve any transfer of funds within the major budgetary functions of administration, instruction, plant operation, agriculture, off-campus centers, summer session, extension, special projects, and reimbursements, as provided in fiscal year budgets of the state colleges approved by the Department of Finance; provided, that no transfers between the categories of personal services, operating expenses and equipment shall be made without the approval of the Director of Finance. In addition, the trustees may approve the substitution of one item of equipment for another within such aforementioned budgetary functions and the use of savings in equipment allotments, and may approve travel, both within and outside the State, and the payment of allowances and expenses related to travel, moving and the relocation of employees in accordance with the allowances established by the State Board of Control and within funds appropriated by this act for this purpose.

Subject to the foregoing, the trustees may approve adjustments in programs, within appropriations as adjusted for changes in enrollments approved by the Director of Finance.

Any transfers of funds, substitution of items of equipment, use of equipment savings, or approval of travel, moving or relocation allowances made under provision of this section shall be reported to the Director of Finance at such times and on forms prescribed by him.

SEC. 32. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the State in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the State in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

SEC. 33. If any item of appropriation in this act is vetoed, eliminated or reduced by the Governor under Sections 16 and 34 of Article IV of the Constitution while approving portions of this act, such veto, elimination or reduction shall not affect the other portions of this act and these other portions of this act, so approved, shall have the same effect in law as if any

vetoed or eliminated items of appropriation had not been present in this act and as if any reduced item of appropriation had not been reduced.

SEC. 34. If any section, subsection, sentence, clause, or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared unconstitutional.

SEC. 35. This act, inasmuch as it provides for an appropriation for the usual current expenses of the State, shall, under the provisions of Section 1 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36 This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the state government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the State. If they are not available for expenditure on July 1, 1963, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the State's business requires the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect.

CHAPTER 1051

An act to amend Section 9302 of the Education Code, relating to school textbooks.

[Approved by Governor June 28, 1963 Filed with Secretary of State June 29, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 9302 of the Education Code is amended to read:

9302. The State Board of Education shall adopt one or more basic textbooks in each of the subjects prescribed for the

elementary schools by Section 7604 of this code, except in art and in foreign language. The board may adopt a single textbook covering two or more of these subjects. The board may adopt other textbooks, supplementary textbooks, and teachers' manuals for use in the elementary schools. The board may adopt teachers' manuals for use in the kindergarten schools. The board shall determine the grade or grades for which each basic textbook, other textbook, supplementary textbooks, and teachers' manual is adopted.

The board shall determine the period for which each basic textbook, other textbook, supplementary textbook, and teachers' manual is adopted, which period shall not be less than four years nor more than eight years. After an original adoption period has expired, the board may extend the adoption period of such books for not less than one year nor more than four years.

Nothing in this section shall be construed as prohibiting the governing board of any school district, or any county library from ordering and purchasing such supplementary textbooks as are required.

CHAPTER 1052

An act to add Section 13010 to the Education Code, relating to school employees.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13010 is added to the Education Code, to read:

13010. Any school employee of a school district who is absent because of injury or illness which arose out of and in the course of his employment, and for which he is receiving temporary disability benefits under the workmen's compensation laws of this State, shall not be entitled to receive wages or salary from the district which, when added to the temporary disability benefits, will exceed a full day's wages or salary.

During such periods of temporary disability so long as the employee has available for his use sick leave, vacation, compensating time off or other paid leave of absence, the district shall require that temporary disability checks be endorsed payable to the district. The district shall then cause the employee to receive his normal wage or salary less appropriate deductions including but not limited to employee retirement contributions.

When sick leave, vacation, compensating time off or other available paid leave is used in conjunction with temporary

disability benefits derived from workmen's compensation, as provided in this section, it shall be reduced only in that amount necessary to provide a full day's wage or salary when added to the temporary disability benefits.

CHAPTER 1053

An act to amend Sections 803 and 806 of the Agricultural Code, and to amend Sections 803 and 806 of the Agricultural Code as proposed to be amended by Senate Bill 1253 of the 1963 Regular Session, relating to fruit standards, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 803 of the Agricultural Code is amended to read:

803 Fresh peaches shall be mature but not overripe; free from insect injury which has penetrated or damaged the flesh, split pits which are open at the stem end, and from mold, brown rot, and decay, and free from serious damage, due to cuts or skin breaks, growth cracks, bruises, scab, rust, blight, disease, hail, or other causes. Damage to any one peach is not serious unless it causes a waste of 10 percent, by weight, of the individual peach.

Not more than 10 percent, by count, of the peaches in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause; provided, however, that individual containers in any lot may contain not more than 1½ times the tolerances specified if the percentage of defects in the entire lot averages within the tolerances.

Packed peaches shall not vary in size between the fruits, in any one container, more than three-eighths of an inch in diameter, when measured through the widest portion of the cross section.

Peaches of the freestone variety shall not be considered mature unless at the time of picking, the flesh breaks free from the pit. In addition the flesh of peaches of the Elberta variety shall be a yellowish color.

All containers of fresh peaches shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the peaches or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description,

when the peaches are packed in the four-basket crate, or the count when wrapped and packed throughout, in straight side containers in uniform layers and rows.

In the case of the four-basket crate the numerical description of the pack in the top layer of the baskets shall be used to designate size. When the count is used to designate the contents of the container a variation of four peaches more or less than the number stated shall be allowed.

Peaches, when packed, shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9A, 9B, 12B, 22D, 25, 26, 27, 27A, 27B, or 27C. Containers of peaches placed in molded forms shall be marked with the exact number of peaches placed therein, and may be packed in standard container number 31. Other size containers may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such container, in letters not less than one-half inch in height, "irregular container."

SEC. 2. Section 806 of said code is amended to read:

806. Plums and fresh prunes shall be mature but not overripe, shall be free from insect injury which has penetrated or damaged the flesh, and from unsealed skin breaks or cuts, mold, brown rot, decay, and free from serious damage due to bruises, growth cracks, sunburn, hail, doubles, insects, internal growth cracks, cavities, gum spots or other causes.

Damage to any one plum or fresh prune is serious if it is caused by:

(a) Bruises which affect the flesh more than three-sixteenths of an inch in depth or more than an aggregate surface area of one-half of an inch in diameter.

(b) Growth cracks over one-half of an inch in length or over three-sixteenths of an inch in depth.

(c) Sunburn affecting the flesh.

(d) Hail resulting in one or more depressions over three-sixteenths of an inch in depth or affecting more than an aggregate surface area of one-half of an inch in diameter.

(e) Doubles, when one portion is one-fourth or less in size than the other portion of the plum or fresh prune.

(f) Thrip marks or other similar insect injury when 15 percent or more of the surface of the plum or fresh prune is affected or causing one or more depressions or raised portions (bumps or welts) one-fourth of an inch or more in depth or height.

(g) Internal growth cracks, cavities, or gum spots when they cause the plum to be seriously malformed.

Not more than 10 percent, by count, of the plums or fresh prunes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause; provided, however, that individual containers in any lot may contain not more than 1½ times the tolerances specified if the percentage of defects in the entire lot averages within the tolerances.

An additional tolerance of 10 percent, by count, of the plums or fresh prunes in any one container or bulk lot shall be permitted for plums or fresh prunes damaged by hail, providing that:

(1) In the case of plums or fresh prunes having a minimum diameter of $1\frac{7}{16}$ inches or larger, the hail damage on each individual plum or fresh prune, permitted in said additional tolerance, does not exceed a depth which is three-sixteenths of the minimum diameter of the plum or fresh prune, or an aggregate surface area with a diameter equal to one-half of the minimum diameter of the plum or fresh prune; or

(2) In the case of plums or fresh prunes having a minimum diameter of less than $1\frac{7}{16}$ inches, the hail damage on each individual plum or fresh prune, permitted in said additional tolerance, does not exceed a depth of one-quarter of an inch or an aggregate surface area of eleven-sixteenths of an inch in diameter; and

(3) The containers in which they are placed or packed are plainly and conspicuously marked, on the outside end of each container on which appears the other required markings, in letters not less than one-half inch in height, with the words "Hail Marked" or when in bulk lots they are conspicuously placarded "Hail Marked."

Plums and fresh prunes shall not vary in size between the fruits, in any one container, more than one-fourth of an inch in diameter when measured through the widest portion of cross section.

All containers of plums and fresh prunes, shall bear upon them in plain sight and in plain letters on one outside end all of the following information:

(a) The name of the person who authorized the packing of the plums and fresh prunes or the name under which he is engaged in business.

(b) A sufficiently explicit address to permit ready location of such person.

(c) The name of the variety of plums or fresh prunes, if known, and if not known, the words "unknown variety."

(d) A designation indicating the size of the plums or fresh prunes in the container as follows:

(1) When packed in the four-basket crate, the description of the arrangement of the pack in the top layer of the baskets.

(2) When wrapped and packed throughout in a straight side container, or when packed without wrappers, in molded forms, cups, or similar packing devices, the count.

(3) When packed without wrappers throughout the container or by the "face and fill" method, in any container other than the four-basket crate and the "round stave" baskets, the "row count" directly followed by the word "row," "rows" or the letter "R" all in like-size type, or the numerical description.

(4) When loose in any closed container other than "round stave" baskets, the numerical description.

"Row count" shall mean the number of rows of plums or fresh prunes packed laterally across the end of the container.

"Numerical description" shall mean the numerical arrangement which the plums and fresh prunes would pack in the top layer of a basket if packed in the standard four-basket crate and the designations shall indicate the minimum diameters as follows:

"4 x 4 size" means $1\frac{11}{16}$ inches minimum diameter
"4 x 5 size" means $1\frac{9}{16}$ inches minimum diameter
"5 x 5 size" means $1\frac{7}{16}$ inches minimum diameter
"5 x 6 size" means $1\frac{5}{16}$ inches minimum diameter
"6 x 6 size" means $1\frac{3}{16}$ inches minimum diameter

Other sizes, larger or smaller than the numerical descriptions defined herein shall have proportionate minimum diameter requirements.

The "minimum diameter" shall mean the smallest diameter measured through the center of the plum or fresh prune at a right angle to a straight line drawn from the stem end to the distal end thereof.

When the numerical description is used to designate the contents of a container the plums or fresh prunes therein shall conform to the minimum diameter requirements for the numerical description marked on the container.

When the actual count is used to designate the contents of the container, a variation of four plums or fresh prunes more or less than the number stated shall be allowed.

Plums and fresh prunes shall be in standard containers numbers 1, 1A, 5, 6, 7, 8, 9, 9C, 12A, 12B, 14, 15, 16, 17, 18A, 22B, 22D, 23, 24, 25, 26 or 27.

Container number 23 shall be standard for plums and fresh prunes only when such fruits are wrapped and packed throughout the container.

Container number 25 shall be standard for plums and fresh prunes only when used with a three-eighths-inch cleat or an eleven-sixteenths-inch cleat regardless of any other provision of Section 828.85.

Container number 25 may be used without a cleat or with any cleat other than those provided for in this section and other size containers than those provided in this section may be used if conspicuously marked on the outside of the end which bears any marks intended to describe the contents of such containers, in letters not less than one-half inch in height, "irregular container."

SEC. 3. Section 803 of the Agricultural Code as proposed to be amended by Senate Bill 1253 of the 1963 Regular Session is amended to read:

803. Fresh peaches shall be mature but not overripe; free from insect injury which has penetrated or damaged the flesh,

split pits which are open at the stem end, and from mold, brown rot, and decay, and free from serious damage, due to cuts or skin breaks, growth cracks, bruises, scab, rust, blight, disease, hail, or other causes. Damage to any one peach is not serious unless it causes a waste of 10 percent, by weight, of the individual peach.

Not more than 10 percent, by count, of the peaches in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause; provided, however, that individual containers in any lot may contain not more than 1½ times the tolerances specified if the percentage of defects in the entire lot averages within the tolerances.

Packed peaches shall not vary in size between the fruits, in any one container, more than three-eighths of an inch in diameter, when measured through the widest portion of the cross section.

Peaches of the freestone variety shall not be considered mature unless at the time of picking, the flesh breaks free from the pit. In addition the flesh of peaches of the Elberta variety shall be a yellowish color.

All containers of fresh peaches shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the peaches or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known the words "unknown variety"; the size description, when the peaches are packed in the four-basket crate, or the count when wrapped and packed throughout, in straight side containers in uniform layers and rows.

In the case of the four-basket crate the numerical description of the pack in the top layer of the baskets shall be used to designate size. When the count is used to designate the contents of the container a variation of four peaches more or less than the number stated shall be allowed.

SEC. 4. Section 806 of the Agricultural Code as proposed to be amended by Senate Bill 1253 of the 1963 Regular Session is amended to read:

806. Plums and fresh prunes shall be mature but not overripe, shall be free from insect injury which has penetrated or damaged the flesh, and from unsealed skin breaks or cuts, mold, brown rot, decay, and free from serious damage due to bruises, growth cracks, sunburn, hail, doubles, insects, internal growth cracks, cavities, gum spots or other causes.

Damage to any one plum or fresh prune is serious if it is caused by:

(a) Bruises which affect the flesh more than three-sixteenths of an inch in depth or more than an aggregate surface area of one-half of an inch in diameter.

(b) Growth cracks over one-half of an inch in length or over three-sixteenths of an inch in depth.

(c) Sunburn affecting the flesh.

(d) Hail resulting in one or more depressions over three-sixteenths of an inch in depth or affecting more than an aggregate surface area of one-half of an inch in diameter.

(e) Doubles, when one portion is one-fourth or less in size than the other portion of the plum or fresh prune.

(f) Thrip marks or other similar insect injury when 15 percent or more of the surface of the plum or fresh prune is affected or causing one or more depressions or raised portions (bumps or welts) one-fourth of an inch or more in depth or height.

(g) Internal growth cracks, cavities, or gum spots when they cause the plum to be seriously malformed.

Not more than 10 percent, by count, of the plums or fresh prunes in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause; provided, however, that individual containers in any lot may contain not more than $1\frac{1}{2}$ times the tolerances specified if the percentage of defects in the entire lot averages within the tolerances.

An additional tolerance of 10 percent, by count, of the plums or fresh prunes in any one container or bulk lot shall be permitted for plums or fresh prunes damaged by hail, providing that:

(1) In the case of plums or fresh prunes having a minimum diameter of $1\frac{7}{16}$ inches or larger, the hail damage on each individual plum or fresh prune, permitted in said additional tolerance, does not exceed a depth which is three-sixteenths of the minimum diameter of the plum or fresh prune, or an aggregate surface area with a diameter equal to one-half of the minimum diameter of the plum or fresh prune; or

(2) In the case of plums or fresh prunes having a minimum diameter of less than $1\frac{7}{16}$ inches, the hail damage on each individual plum or fresh prune, permitted in said additional tolerance, does not exceed a depth of one-quarter of an inch or an aggregate surface area of eleven-sixteenths of an inch in diameter; and

All containers of plums and fresh prunes, shall bear upon them in plain sight and in plain letters on one outside end all of the following information:

(a) The name of the person who authorized the packing of the plums and fresh prunes or the name under which he is engaged in business.

(b) A sufficiently explicit address to permit ready location of such person.

(c) The name of the variety of plums or fresh prunes, if known, and if not known, the words "unknown variety."

(d) A designation indicating the size of the plums or fresh prunes in the container as follows:

(1) When packed in the four-basket crate, the description of the arrangement of the pack in the top layer of the baskets.

(2) When wrapped and packed throughout in a straight side container, the count.

(3) When packed without wrappers throughout the container or by the "face and fill" method, in any container other than the four-basket crate and the "round stave" baskets, the "row count" directly followed by the word "row," "rows" or the letter "R" all in like size type, or the numerical description.

(4) When loose in any closed container other than "round stave" baskets, the numerical description.

"Row count" shall mean the number of rows of plums or fresh prunes packed laterally across the end of the container.

"Numerical description" shall mean the numerical arrangement which the plums and fresh prunes would pack in the top layer of a basket if packed in the standard four-basket crate and the designations shall indicate the minimum diameters as follows:

"4 x 4 size" means $1\frac{11}{16}$ inches minimum diameter
"4 x 5 size" means $1\frac{9}{16}$ inches minimum diameter
"5 x 5 size" means $1\frac{7}{16}$ inches minimum diameter
"5 x 6 size" means $1\frac{5}{16}$ inches minimum diameter
"6 x 6 size" means $1\frac{3}{16}$ inches minimum diameter

Other sizes, larger or smaller than the numerical descriptions defined herein shall have proportionate minimum diameter requirements.

The "minimum diameter" shall mean the smallest diameter measured through the center of the plum or fresh prune at a right angle to a straight line drawn from the stem end to the distal end thereof.

When the numerical description is used to designate the contents of a container the plums or fresh prunes therein shall conform to the minimum diameter requirements for the numerical description marked on the container.

When the actual count is used to designate the contents of the container, a variation of four plums or fresh prunes more or less than the number stated shall be allowed.

SEC. 5. Sections 3 and 4 of this act shall become operative on January 1, 1964, and only if Senate Bill No. 1253 is enacted by the Legislature at its 1963 Regular Session, and in such case Sections 1 and 2 of this act are repealed, such repeal to be operative January 1, 1964.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That application of tolerances to individual lots instead of individual containers will improve efficiency in grading and packing operations, will prevent loss and deterioration of fruit now resulting from repeated inspection and resorting and will bring the law into conformance with U S. grades. With the harvesting season at hand it must take effect as soon as possible to avoid losses to growers and deterioration of food.

CHAPTER 1054

An act to amend Section 9005 of the Fish and Game Code, relating to fish traps, and declaring the urgency thereof, in effect immediately.

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 9005 of the Fish and Game Code is amended to read:

9005. Traps not to exceed 12 inches in breadth, 12 inches in height, and 36 inches in greatest length with entrance at small ends of funnels or fykes not to exceed 3 inches in circumference may be used in tidewaters of Districts 3½, 4, 4⅛, 4¾, 15, 16, 17, and 21, that portion of District 10 south of the City of San Francisco, and in Salton Sea, Imperial and Riverside Counties, to take mudsuckers and California killifish (Fundulus parvipinnis) only.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

[Approved by Governor June 28, 1963. Filed with Secretary of State June 29, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 13197.1 of the Education Code is amended to read:

13197.1. The minimum requirements for the standard supervision credential shall be all of the following, except that for the purposes of supervision of trade and industrial education and of trade and industrial schools, the State Board of Education may by rule establish the total education required as other than that required in subdivision (a) and (c) below:

(a) Six (6) years, or its equivalent, of college or university education including (1) a baccalaureate or higher degree from an institution approved by the State Board of Education and (2) two years of acceptable postgraduate education in a

college or university approved by the State Board of Education.

(b) When the credential specified in (c) authorizes the holder to serve as a teacher, five years of successful teaching experience in the public elementary or secondary schools, or in private schools of equivalent status. When the credential specified in (c) authorizes the holder to perform a health, pupil personnel, or library service, five years of successful experience in that service in the foregoing schools, or five years of any combination of such teaching and service. Teaching or service performed under a credential authorizing teaching or service as a part of an internship program approved by the State Board of Education shall be accepted toward meeting this requirement.

(c) The possession of a valid credential issued or renewed by the State Board of Education authorizing teaching or service in the public schools, with the following exceptions: a credential issued upon less than complete fulfillment of requirements, a designated subjects teaching credential issued pursuant to Section 13197.5, an exchange credential, a limited credential, and a provisional credential.

(d) Such additional requirements as may be prescribed by the State Board of Education. Such additional requirements shall be prescribed by the board on or before July 1, 1963

SEC 2. Section 13197.15 of said code is amended to read:

13197.15. The standard supervision credential shall authorize the holder to serve as a supervisor, consultant, co-ordinator or equivalent supervisorial or intermediate administrative position at all grade levels and in all areas his credential, as specified in subdivision (c) of Section 13197.1, authorizes him to teach or serve.

The standard supervision credential (except such a credential issued upon less than complete fulfillment of requirements, or issued as an exchange, limited, or provisional credential) shall also authorize the holder to serve as a principal of any school in which he is authorized to teach, if he meets the requirements of one of the following subdivisions:

(a) When the credential held in fulfillment of subdivision (c) of Section 13197.1 is a standard teaching credential with a specialization in elementary teaching or a general elementary credential, and his college or university preparation included either a major (defined by the State Board of Education pursuant to Section 13189) in an academic subject matter area or a diversified major established pursuant to Section 13189.

(b) When the credential held in fulfillment of subdivision (c) of Section 13197.1 is a standard teaching credential with a specialization in secondary teaching or a general secondary credential, and his college or university preparation included a major (defined by the State Board of Education pursuant to Section 13191) in an academic subject matter area.

(c) When the credential held in fulfillment of subdivision (c) of Section 13197.1 is a standard teaching credential with

a specialization in junior college teaching or a junior college credential, and his college or university preparation included a major (defined by the State Board of Education pursuant to Section 13193) in an academic subject matter area.

SEC. 3. Section 13197.2 of said code is amended to read:

(b) The possession of a valid standard teaching credential with a specialization in elementary teaching, secondary teaching, or junior college teaching; or a general elementary credential, a general secondary credential, or a junior college credential. An exchange credential, a limited credential, a provisional credential, or a credential issued upon other than completion of requirements does not fulfill this requirement.

(c) A minimum of five (5) years of successful full-time classroom teaching experience in the public elementary or secondary schools, or in private schools of equivalent status. Teaching performed under a credential authorizing teaching as a part of an internship program approved by the State Board of Education shall be accepted toward meeting this requirement.

The operative date of the Licensing of Certificated Personnel Law of 1961 is imminent. This act, among other things, modifies the provision for experience necessary for the supervision credential described in such licensing law. In order that regulations required to be enacted by July 1, 1963, may relate to such modified requirement, it is necessary that this act take effect immediately.

CHAPTER 1058
