STATUTES OF CALIFORNIA

PASSED AT THE 1963 REGULAR SESSION OF THE LEGISLATURE

CHAPTER 1

An act to amend Sections 26 and 27 of the Orange County Water District Act (Chapter 924, Statutes of 1933), relating to the Orange County Water District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor Jan 30, 1963. Filed with Secretary of State Jan. 30, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 26 of the Orange County Water District Act (Chapter 924, Statutes of 1933) is amended to read:

Sec. 26. On the second Wednesday in February of each year, the engineering investigation and report shall be delivered to the secretary of said district in writing. Said secretary shall publish pursuant to Section 6061 of the Government Code a notice of the receipt of such report and of the public hearing to be held on the second Wednesday of March in a newspaper of general circulation, printed and published within said district, at least 10 days prior to the date at which the public hearing regarding ground water conditions shall be held. Said notice, among other information which the district may provide therein, shall contain an invitation to all operators of water-producing facilities within said district to call at the offices of said district to examine said engineering investigation and report.

There shall be held, by the board of directors, on the second Wednesday of March of each year, at the district offices a public hearing at which time any operator of a water-producing facility within said district or any person interested in the condition of the ground water supplies of said district may in person or by representative appear and submit evidence concerning the ground water conditions of said district. Appearances, also, may be made supporting or protesting said written engineering investigation and report. Said board of directors shall, before the levy of the replenishment assessments, find and determine the average annual overdraft for the immediate past 10 water years; the estimated annual overdraft for the current water year; the estimated annual

overdraft for the ensuing water year; the accumulated overdraft as of the last day of the preceding water year; the estimated accumulated overdraft as of the last day of the current water year; the amount of water which should be purchased for the replenishment of the ground water supplies of said district for the ensuing water year, and the sum of money necessary therefor.

Such finding and determination by said board shall be conclusive and binding upon all persons and parties.

SEC. 2. Section 27 of said act is amended to read:

Sec. 27. If the board of directors finds and determines that an overdraft, either annual or accumulated, does exist, then said board may levy and assess a charge or replenishment assessment against all persons operating water-producing facilities and producing water during the ensuing water year, which assessment or charge shall be computed and fixed at a uniform rate per acre-foot of such water production.

The total of the replenishment assessment levied in any year shall not exceed an amount of money found to be necessary to purchase sufficient water to replenish the average annual overdraft for the immediate past 10 water years plus an additional amount of water sufficient to eliminate over a period of not less than 10 years nor more than 20 years, the accumulated overdraft; provided, further, that the replenishment assessment in any year as computed and fixed at a uniform rate per acre-foot of water produced shall not exceed five dollars and fifty cents ($5.50) per acre-foot of water produced except upon the vote of eight directors of said district.

On the second Wednesday in April of each year at the hour of 2 p.m. at the offices of said district, the board of directors shall hold a public hearing for the purpose of determining the need and desirability of levying a replenishment assessment and fixing the rate thereof. In computing and fixing the replenishment assessment rate, there shall be allowed such percent, not to exceed 10 percent, as shall be determined by the board of directors of the district for delinquencies. Notice of such hearing shall be published in the district pursuant to Section 6061 of the Government Code, at least 10 days prior to the date set for said hearing.

Any replenishment assessment levied by this section shall be in addition to any general assessment levied by said district.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly assessed, or in the making or extension of any assessment upon the records, which do not affect the substantial rights of the assessee or assessees, shall not invalidate the assessment.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is highly desirable that the amendments made by this act become effective in time to permit the levy of replenishment assessments in and for 1963 in accordance with such amendments, so that the maximum benefit from the changes made by such amendments may be obtained at the earliest possible date.

CHAPTER 2

An act authorizing the Director of Agriculture to adopt emergency regulations relating to lettuce, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 13, 1963. Filed with Secretary of State February 13, 1963.]

The people of the State of California do enact as follows:

SECTION 1. During the period commencing with the effective date of this act and ending March 15, 1963, the Director of Agriculture may modify by rule or regulation the arrangement and the counts of heads of lettuce established in Section 814 of the Agricultural Code, as he finds is necessary to permit the proper marketing of lettuce otherwise not practical due to freezing damage to the lettuce or the effect of the cold temperature on its growth.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That the recent freezing temperatures in the lettuce-growing areas of this State will require unusual trimming of mature heads of lettuce which will result in smaller sizes for otherwise marketable heads of lettuce and the prolonged cold temperatures will result in the lettuce maturing at a smaller size than normally and therefore emergency standards for arrangements and counts of heads in containers must take effect as soon as possible to avoid loss of this valuable food commodity.

CHAPTER 3

An act to add Sections 1403.1, 1403.2, 1403.3 and 1403.4 to the Education Code, relating to junior college districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 18, 1963 Filed with Secretary of State February 18, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1403.1 is added to the Education Code, to read:

1403.1. Notwithstanding any provision of law to the contrary, if upon the establishment of trustee areas in a junior college district it appears that one or more trustee areas in the district will not be represented in the membership of the governing board during the next succeeding school year, the county superintendent of schools having jurisdiction shall within 30 days after the election establishing trustee areas or within 30 days after the effective date of this section, whichever is the later, call and set the date of an election for the purpose of electing to the membership of the governing board the allotted number of representatives for each respective trustee area in the district. The election shall be called, held and conducted as are elections for members of governing boards of elementary school districts.

The terms of this section shall expire 91 days after the adjournment of the 1963 General Session.

SEC. 2. Section 1403.2 is added to said code, to read:

1403.2. In the event an election is called as provided in Section 1403.1, the county superintendent of schools having jurisdiction shall, as to each trustee area having more than its allotted number of representatives in the membership of the governing board for the next succeeding school year, determine by lot which of said representatives shall relinquish their offices either immediately upon the election and qualification of the governing board members who are elected as provided in Section 1403.1, or on the first day of July next succeeding the election establishing trustee areas in the district, whichever is the later.

SEC. 3. Section 1403.3 is added to said code, to read:

1403.3. The terms of office of the governing board members who are elected pursuant to Section 1403.1 shall be determined by lot at the first meeting of the full membership of the board. If the board is composed of five members, the terms of office of the members elected pursuant to Section 1403.1 shall be fixed so that the entire board is composed of two members whose terms expire on June 30 of the next succeeding odd-numbered year following the establishment of trustee areas in the district and three members whose terms expire on June 30 of the second succeeding odd-numbered year following the

establishment of trustee areas in the district. If the board is composed of seven members, the terms of office of the board members elected pursuant to Section 1403.1 shall be fixed so that the entire board is composed of three members whose terms expire on June 30 of the next succeeding odd-numbered year following the establishment of trustee areas in the district and four members whose terms expire on June 30 of the second succeeding odd-numbered year following the establishment of trustee areas in the district.

SEC. 4. Section 1403.4 is added to said code, to read:

1403.4. Any election called pursuant to Section 1403.1 may be consolidated with an election held to elect members of the governing board of a school district. Notwithstanding the provisions of Section 942, if the elections are consolidated, the notice of election required in Section 942 need be posted for only 30 days and publication of the notice need not be completed until 10 days before the election.

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act provides for the election of persons to represent newly established trustee areas in junior college districts. In order that such trustee areas may receive the representation to which they are entitled, at the earliest possible time, it is essential that this act go into effect immediately.

CHAPTER 4

An act to amend Section 35790 of the Vehicle Code, relating to permits to tow overwidth trailer coaches, declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 26, 1963. Filed with Secretary of State February 27, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 35790 of the Vehicle Code is amended to read:

35790. (a) The Department of Public Works or local authorities with respect to highways under their respective jurisdictions may upon application in writing and if good cause appears issue a special or annual permit in writing authorizing the applicant to move any trailer coach in excess of the maximum width but not exceeding 10 feet in width, exclusive of lights and devices provided for in Sections 35112, 35109, and 35110, upon any highway under the jurisdiction of the party granting such permit.

(b) A public agency in the exercise of its discretion in granting permits for the movement of overwidth trailer coaches, and in considering the individual circumstances of each case, may use merchandising or relocation of residence as a basis for movement for good cause.

(c) The application for a special permit shall specifically describe the trailer coach to be moved and the particular highways over which the permit to operate is requested, and whether the permit is requested for a single trip or for continuous operation.

The application for an annual permit shall specifically describe the power unit to be used to tow the overwidth trailers and the particular highways over which the permit to operate is requested. The annual permit shall be subject to all of the conditions of this section and any additional conditions imposed by the public agency.

(d) The Department of Public Works or local authority is authorized to establish seasonal or other time limitations within which a trailer coach may be moved on the highways indicated, and may require an undertaking or other security as may be deemed necessary to protect the highways and bridges from injury or to provide indemnity for any injury resulting from the operation.

(e) Permits for the movement of trailer coaches as provided for in this section may not be issued except to licensed manufacturers, dealers and transporters and only under the following conditions:

1. The power unit used to tow overwidth trailers having a gross weight of 18,000 pounds or less must be a three-quarter-ton truck or tractor, or a truck or tractor of greater power, equipped with dual wheels. The power unit used to tow an overwidth trailer having a gross weight of more than 18,000 pounds must be a ton-and-one-half truck or tractor or truck or tractor of greater power, equipped with dual wheels.

2. The trailer coach for which the permit is issued shall comply with the provisions of Sections 35550 and 35551 of this code.

3. A permit which has been issued for the movement of any trailer coach shall not be valid between sunset and sunrise of the following day, nor between sunset on Friday to sunrise on Monday following, nor on any days declared to be legal holidays by the State.

(f) The Department of Public Works or local authority shall have the authority to establish additional reasonable permit regulations as they may deem necessary in the interest of public safety, which regulations shall be consistent with this section.

(g) Every permit shall be carried in the trailer coach or power unit to which it refers and shall be open to inspection of any peace officer or traffic officer, any authorized agent of the Department of Public Works or any other officer or employee charged with the care and protection of the highways.

(h) It is a misdemeanor for any person to violate any of the terms or conditions of any such permit.

(i) To the extent that the application of this section to highways which are a part of the National System of Interstate and Defense Highways (as referred to in subdivision (a) of Section 108 of the Federal-aid Highway Act of 1956) would cause this State to be deprived of any federal funds for highway purposes, this section to such extent shall not be applicable to highways which are a part of such system.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In 1961, provisions contained in Section 35790 of the Vehicle Code authorizing the issuance of annual permits for the movement of overwidth trailer coaches were inadvertently omitted from legislation which amended said section in other respects. Also, the law at the present time limits the issuance of permits for the movement of overwidth trailer coaches to trailer coaches having a gross weight not in excess of 18,000 pounds. In view of the increased size and weight of many of the new trailer coaches, this overall weight limitation is no longer realistic. The amendments to Section 35790 of the Vehicle Code made by this bill are urgently needed for the economical, orderly, and equitable administration of the laws relating to movement of overwidth trailer coaches, and it is therefore necessary that this act go into immediate effect.

CHAPTER 5

An act to amend Section 20004 of the Education Code, relating to the Junior College Tax Relief Act, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 5, 1963. Filed with Secretary of State March 5, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 20004 of the Education Code is amended to read:

20004. A junior college district eligible for a tax relief grant may file with the State Department of Education one or more applications for a grant within 19 months after the effective date of this chapter. The form of the application shall be prescribed by the Superintendent of Public Instruction. The Superintendent of Public Instruction shall examine and approve within 24 months after the effective date of this chapter all applications of junior college districts eligible for a tax relief grant under this chapter.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Certain junior college districts whose architectural plans for future construction are not quite complete are threatened with loss of their tax relief grant unless the time for approval of their applications is extended. Extension of the time to 24 months would continue the availability of the relief until the districts' amended applications could be filed and approved. It is therefore necessary that this act take effect immediately.

CHAPTER 6

An act to amend Section 26310 of the Vehicle Code, relating to compressed airbrake safety devices, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 5, 1963. Filed with Secretary of State March 5, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 26310 of the Vehicle Code is amended to read:

26310. Every vehicle using compressed air for the actuating of the brakes shall be equipped with a safety device approved by the department which will prevent the loss of air pressure if an air line breaks or a diaphragm is ruptured, and will permit the effective application of the remaining brakes of the vehicle, or other safety device approved by the department which will, upon loss of air pressure, automatically apply the brakes to the wheels of the vehicles.

The department is hereby empowered to determine and to establish the specifications required of any such device or devices for departmental approval and, in the conducting of any test or tests of any such device or devices, the department may determine the costs of any such tests, and may require that the manufacturers of any such device being tested provide the department with the amount of money necessary to cover the costs of any such tests. The department may employ the services of private firms, individuals or public institutions in the conduct of such tests. The department may accept tests by accredited laboratories. No device shall be approved by the department that creates a hazard on the highway or increases the stopping distance of a truck or combination of vehicles.

This section shall not take effect until September 20, 1963.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Department of the California Highway Patrol, pursuant to Section 26310 of the Vehicle Code, has approved a list of compressed airbrake safety devices required by that section to be installed on specified vehicles as of March 16, 1963. However, some of these devices have proved to be defective and the certificates of approval that have been issued respecting them have been revoked by the Department of the California Highway Patrol. It is a possibility that other certificates of approval may also be revoked. The March 15, 1963 date is therefore not now a realistic date for requiring compliance with Section 26310 of the Vehicle Code. This bill will remedy the situation, and in the interest of the public's safety, it is necessary that it go into immediate effect.

CHAPTER 7

An act to validate the organization, boundaries, acts, proceedings and bonds of public bodies, as herein defined, and to provide limitations of time within which actions may be commenced in connection therewith, declaring the urgency thereof, to take effect immediately.

SEC. 2. All public bodies heretofore organized or existing under, or under color of, any law are hereby declared to have been legally organized and to be legally functioning as such public body. Every such public body shall have all the rights, powers, and privileges, and be subject to all the duties and obligations of such a public body regularly formed pursuant to law.

SEC. 3. The boundaries of every public body as heretofore established, defined, or recorded, or as heretofore actually shown on maps or plats used by the assessor, are hereby confirmed, validated, and declared legally established.

SEC. 4. All acts and proceedings heretofore taken by any public body under any law, or under color of any law, for the annexation or inclusion of territory into any such public body or for the annexation of any such public body to any other such public body or for the withdrawal or exclusion of territory from any such public body are hereby confirmed, validated, and declared legally effective. This shall include all acts and proceedings of the governing board of such public body and of any person, public officer, board or agency heretofore done or taken upon the question of the annexation or inclusion or of the withdrawal or exclusion of such territory.

SEC. 5. All acts and proceedings heretofore taken by or on behalf of any public body under any law, or under color of any law, for the authorization, issuance, sale, or exchange of bonds of any such public body for any public purpose are hereby confirmed, validated, and declared legally effective. This shall include all acts and proceedings of the governing board of such public body and of any person, public officer, board or agency heretofore done or taken upon the question of the authorization, issuance, sale, or exchange of such bonds.

All bonds of any public body heretofore issued shall be, in the form and manner in which issued and delivered, the legal, valid and binding obligations of the public body. All such bonds heretofore authorized to be issued and hereafter issued and delivered in accordance with such authorization shall be the legal, valid and binding obligations of the public body. Whenever an election has heretofore been called for the purpose of submitting to the voters of any public body the question of issuing bonds for any public purpose, such bonds, if hereafter authorized by the required vote and in accordance with the proceedings heretofore taken, and issued and delivered in accordance with such authorization, shall be the legal, valid and binding obligations of the public body.

SEC. 6. (a) The foregoing provisions of this act shall operate to supply such legislative authorization as may be necessary to validate any such acts and proceedings heretofore taken which the Legislature could have supplied or provided for in the law under which such acts or proceedings were taken.

(b) The foregoing provisions of this act shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions.

(c) The foregoing provisions of this act shall not operate to confirm, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal proceeding now pending and undetermined or which may be pending or undetermined during the period of

30 days from and after the effective date of this act, and shall not operate to confirm, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void or ineffective.

(d) This act shall not operate to confirm, validate, or legalize a contract between any district and the United States.

SEC. 7. Any action or proceeding contesting the validity of any action or proceeding heretofore taken under any law, or under color of any law, for the formation, organization or incorporation of any public body, or for any annexation thereto, exclusion therefrom or other change of boundaries thereof, or for the authorization, issuance, sale or exchange of bonds thereof upon any ground involving an alleged defect or illegality not effectively validated by the prior provisions of this act and not otherwise barred by any statute of limitations or by laches must be commenced within six months of the effective date of this act; otherwise each and all of said matters shall be held to be valid and in every respect legal and incontestable. This section shall not extend the period in which any action may be brought beyond the period in which it would be barred by any presently existing valid statute of limitations.

SEC. 8. Nothing contained in this act shall be construed to render the creation of any city or district, or any change in the boundaries of any city or district, effective for purposes of assessment or taxation unless the statement, together with the map or plat, required to be filed under Sections 54900 to 54904, inclusive, of the Government Code, is filed within the time and substantially in the manner required by said sections.

SEC. 9. As used in this act, the word "now" means the date this act takes effect; the word "heretofore" means any time prior to such effective date; and the word "hereafter" means any time subsequent to such effective date.

SEC. 10. This act may be cited as the First Validating Act of 1963.

SEC. 11. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of public bodies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of public bodies, and upon the validity of acts, proceedings, and bonds of public bodies, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the State can be afforded the protection of the police, fire, safety, sanitary, and other regulations and protections provided by public bodies;

(2) Public works and construction by public bodies can be commenced and continued without delay or restriction, to provide sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety, and immediately needed to provide for an increased population;

(3) Public bodies can issue and sell bonds heretofore authorized for the purpose of providing sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some public body or in the authorization of such bonds, which defects will be cured by this act.

CHAPTER 8

An act to add Section 19591.3 to the Education Code, relating to state school building aid, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 5, 1963. Filed with Secretary of State March 5, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 19591.3 is added to the Education Code, to read:

19591.3. Notwithstanding any provision of Section 19590 to the contrary, a final apportionment may be made to a district which did not, on the date a conditional apportionment was made, have outstanding bonds exceeding 95 percent of the maximum amount of bonds which it could have had outstanding under law, if all of the following conditions exist:

(a) The issuance of district bonds was authorized at an election held prior to the making of the conditional apportionment in an amount which was based on an estimate of assessed valuation because of a protest against part of the assessment roll on which the bonding capacity of the district was determined; and as a result of such protest and legal proceedings in connection therewith, the period for which that the conditional apportionment would remain in effect was extended under Section 19580.

(b) The amount of bonds authorized at such election was in an amount which, if sold and added to outstanding district

bonds, would have, on the basis of the estimate of assessed valuation used by the district, qualified the district for a final apportionment.

(c) As a result of the final determination of such legal proceedings, it was determined that the total assessed valuation of the district was an amount greater than that estimated by the district in prescribing the amount of bonds to be authorized at such election.

(d) The amount of the bonds authorized to be issued at such election was not more than twenty-five thousand dollars ($25,000) less than the amount which would be required by Section 19590 to be issued and sold as a condition to the making of a final apportionment on the basis of the assessed valuation of the district as determined by the final determination of such legal proceedings.

(e) The district issues and sells prior to the date of the final apportionment district bonds authorized by the election referred to in subdivision (a) of this section and makes the proceeds of the bonds available for the purposes specified in the conditional apportionment.

Notwithstanding the terms of the conditional apportionment, a final apportionment shall be made to such district without the district being required to issue and sell bonds in the amount of the difference computed on the basis of the bonding capacity as estimated by the district at the time of the district bond election referred to in subdivision (a) of this section and the bonding capacity as determined on the basis of the bonding capacity determined under the final determination of legal proceedings referred to in such subdivision.

This section applies to any district holding a bond election on or after November 7, 1961, and receiving a conditional apportionment on or after April 10, 1962.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of litigation in some counties over the assessment and valuation of property for taxation purpose, the amount of assessed valuation of taxable property of school districts in those counties used as a basis for determining the bonding capacity and financial eligibility of the school district for state school building aid is held in question for one or two years thus making it almost impossible for a district to determine the amount of district bonds it must issue in order to be eligible for state aid. One effect of such litigation is to delay, necessarily, the processing of the district application for state aid until the legal proceedings are settled so that the financial eligibility of the district can be determined. In such cases, the school district in order to proceed with its building program

to provide essential classroom facilities for the pupils of the district must hold an election to authorize the issuance of bonds necessary to qualify for such state aid. For this purpose the district may submit to the voters a proposal for the issuance of bonds in an amount based on an assessed valuation and bonding capacity which the district estimates rather than the assessed valuation as shown on the contested assessment roll. In some instances it develops that the estimate used by the district is too low, when the amount of the assessed valuation of the county is finally settled by legal proceedings one or two years after the district held the bond election.

In order that the districts which need state school aid for the construction of essential classrooms and whose application has been delayed because of litigation over the amount of assessed valuation in the district should not be further penalized by the delays which would be caused by holding additional bond elections to authorize the issuance of relatively small amounts, it is necessary that this act take effect immediately.

CHAPTER 9

An act to add Section 23.1 to the Citrous Pest District Control Act (Chapter 89, Statutes of 1939), relating to citrous pest control districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 6, 1963. Filed with Secretary of State March 6, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 23.1 is added to the Citrous Pest District Control Act (Chapter 89, Statutes of 1939), to read:

Sec. 23.1. Every district heretofore formed, or hereafter formed, under the provisions of this act shall have all of the powers provided for in Section 45 of this act and other sections of this act, including the power to eradicate, remove, or prevent the spread of each and every citrous pest as defined in this act, regardless of any language in the petition for formation for any district or in any of the proceedings leading to formation which might seem to limit the power of said district to the control or eradication of one or more citrous pests in particular.

SEC. 2. The addition of Section 23.1 to the Citrous Pest District Control Act by the 1963 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the pre-existing law.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

There is a recent serious infestation of quick decline, otherwise known as tristeza, in the citrous-growing areas in the San Joaquin Valley. This disease is a very serious threat to the citrous industry in California and could produce a very detrimental effect on the economy of the areas affected and the entire State. There are citrous pest control districts organized in the San Joaquin Valley covering all of the major citrous-producing areas and these districts desire to extend immediately their operation to assist in the control of quick decline. Some of said citrous pest control districts when organized under the provisions of the Citrous Pest District Control Act had language in their formation petitions and proceedings which would seem to limit their activities to a citrous disease or pest known as "Red Scale," although these said districts do not believe that they are so limited. This addition of Section 23.1 to the said act is necessary to remove any doubt that said districts are empowered to combat all citrous pests and diseases as defined in said act so that the said districts can take immediate action to combat this very serious threat to the citrous industry.

CHAPTER 10

An act to amend Section 32221 of the Health and Safety Code, relating to hospital districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 7, 1963. Filed with Secretary of State March 7, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 32221 of the Health and Safety Code is amended to read:

32221. The board of directors may establish a fund for capital outlays; provided, that no part of said fund except such part as received through gifts, donations, devises, or bequests, or from sources other than the tax levy specified by Section 32202, shall be used for acquisition of additional patient bed capacity by lease or purchase of any hospital buildings or facilities or for new construction of additional patient bed capacity for an existing hospital in excess of one hundred fifty thousand dollars ($150,000) over a period of four years (other than remodeling, alteration or conversion of existing facilities) unless a majority of the district electors voting at an election held for that purpose approve such new construction proposal. If such fund is established, it shall include in the estimate required to be furnished to the board of supervisors a statement of the amount to be included in the annual

assessment for this purpose. The amount to be raised shall be included in the tax limitation prescribed by Section 32203.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Unprecedented demands for hospital services are being made upon the hospitals of local hospital districts. These demands are the result of the tremendous increase which has taken place in the population of such districts. To enable the hospitals adequately to meet these demands, it is imperative that immediate action be taken to permit the districts which maintain the hospitals to expend additional tax revenues for the acquisition or construction of additional patient bed capacity for the hospitals. It is, therefore, necessary that this act take effect immediately.

CHAPTER 11

An act to amend Sections 2898 and 2901.5 of, and to add Section 10815 to, the Education Code, relating to attendance of public school pupils.

[Approved by Governor March 12, 1963. Filed with Secretary of State March 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 2898 of the Education Code is amended to read:

2898. Whenever any unified school district fails to establish a high school within its boundaries within three years following the effective date of the establishment of the district for all purposes, or whenever the average daily attendance of pupils in grades 9 through 12 of any unified school district is 10 or less, the county superintendent of schools shall, during July of the next fiscal year, report the fact to the board of supervisors. The attendance of pupils in high schools in an adjoining state pursuant to Article 2 (commencing at Section 20151), Chapter 1 of Division 15, or pursuant to Section 10815 of this code, shall be deemed for the purposes of this section to be in high schools established and maintained by the unified district. Upon receiving the report of the county superintendent of schools the board of supervisors shall declare the unified school district lapsed and attach the territory of the lapsed district to a contiguous unified district or to a contiguous elementary district which is part of a high school district. The property, funds, and obligations of the lapsed district shall become the property, funds, and obligations of the district to which the territory is attached.

SEC. 2. Section 2901.5 of said code is amended to read:

2901.5. Whenever any unified school district provides for the high school education of the pupils of the district who reside in the district by the attendance of such pupils at the schools of a school district in an adjoining state pursuant to Article 2 (commencing at Section 20151), Chapter 1 of Division 15, or pursuant to Section 10815 of this code, such unified school district shall be deemed to have complied with the requirement of Section 2901 that every unified school district shall maintain at least one four-year high school or one junior high school and one senior high school.

SEC. 3. Section 10815 is added to said code, to read:

10815. The governing board of a unified school district, whose boundaries are coterminous with the boundaries of a county, and which is contiguous to an adjoining state, may provide for the education of all or any number of the high school pupils of the district who reside in the district by the attendance of such pupils at the schools of a school district of an adjoining state. The governing board of the unified school district may enter an agreement with the school district of an adjoining state for the education of such pupils, subject to the terms and conditions agreed upon. The provisions of Sections 20151 to 20162, inclusive, do not apply to pupils educated pursuant to an agreement authorized by this section. The average daily attendance of pupils educated pursuant to such an agreement shall be credited to the district of residence for apportionment purposes. The superintendent of schools of the district, or the principal of the school, in the adjoining state attended by the pupils under such an agreement shall, not later than July 2 of each year, certify, to the county superintendent of schools having jurisdiction over the school district of residence of the pupils, the average daily attendance of the pupils of the district attending the schools of the school district in the adjoining state. Certification shall be made on forms furnished by the Superintendent of Public Instruction. The county superintendent of schools shall report such average daily attendance to the Superintendent of Public Instruction, who shall include such average daily attendance in his report of average daily attendance in all of the duly established schools of the State for the last preceding school year certified by him to the State Controller.

CHAPTER 12

An act to add Sections 15654 and 16069 to the Education Code, relating to auxiliary facilities of school districts maintaining junior colleges, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 12, 1963. Filed with Secretary of State March 12, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 15654 is added to the Education Code, to read:

15654. The governing board of any district maintaining a junior college, if the board determines it to be necessary or advisable, may construct and maintain student centers, student union or activity buildings or facilities, vehicle parking facilities, health service facilities, bookstores or other auxiliary facilities for use by students or faculty members of the junior college or employees of the district.

SEC. 2. Section 16069 is added to the Education Code, to read:

16069. Notwithstanding any of the provisions of this article to the contrary, the governing board of any school district maintaining a junior college may lease real property owned by the school district to a student body organization established pursuant to Section 10701, upon such terms and conditions as the board may determine, for use as a student center, student union or activity building or facility, food service facility, health service facility, bookstore or any combination of such facilities. Such a student body organization may agree to lease real property pursuant to this section.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The vital needs of education in the State include provision for auxiliary facilities for students in junior colleges. To facilitate the financing of such facilities and of housing facilities for students in junior colleges, it is essential that the powers of school districts maintaining junior colleges be immediately clarified in the manner provided in this act. Such clarification will make it possible for such districts to obtain loans from the United States of America under the college housing loan program of the Housing and Home Finance Agency, with which to finance urgently needed housing and other student facilities, including loans heretofore negotiated but delayed pending such clarification.

CHAPTER 13

An act to add Section 33205 to the Health and Safety Code, relating to redevelopment agencies, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 19, 1963. Filed with Secretary of State March 19, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 33205 is added to the Health and Safety Code, to read:

33205. In any case where an agency was activated in a community by a resolution adopted pursuant to Section 33201 prior to January 1, 1951, and where thereafter and prior to January 1, 1951, the legislative body of the community purported to dissolve the agency under circumstances where Section 33203 was not applicable, and where as a result of such purported dissolution the agency was inactive for a period of at least 10 years, and where subsequent to January 1, 1962, the legislative body of the community adopted an ordinance pursuant to Section 33201 declaring that there is need for an agency to function in the community, which ordinance was not suspended by referendum, and where subsequent to the adoption of such ordinance new members of the agency were appointed pursuant to Section 33230, such agency is a valid and existing agency with full power to transact any business and exercise its powers and the members appointed subsequent to the adoption of such ordinance are the legally appointed and existing members of the agency, each for the term designated in his appointment. For the purpose of applying Section 33203 to such agency, the two-year period referred to in that section shall be measured from the date of adoption of such ordinance.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In at least one city in California the factual situation set forth in the section added by this act has caused doubt and confusion as to the legal existence of the redevelopment agency of that city and the legal status of its present members. Unless these questions are resolved the agency will be hindered and delayed in going forward with a redevelopment project urgently needed for the preservation of the public peace, health and safety, and it is therefore necessary that this act go into immediate effect.

CHAPTER 14

An act to add Section 9001.5 to the Fish and Game Code, relating to prawn or shrimp traps, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 20, 1963. Filed with Secretary of State March 20, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 9001.5 is added to the Fish and Game Code, to read:

9001.5. Prawn or shrimp traps may be used in waters of this State north of Point Conception throughout the year to take prawn and shrimp only. These traps may not exceed six feet in greatest dimension, and no opening from exterior to interior may be greater than five inches in any dimension.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to properly utilize the shrimp and prawn resources of this area the traps authorized by this act should be available for use as soon as possible, therefore this act should take effect immediately.

CHAPTER 15

An act to amend Section 14552 of the Revenue and Taxation Code, relating to hearings by inheritance tax appraisers.

[Approved by Governor March 20, 1963. Filed with Secretary of State March 20, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 14552 of the Revenue and Taxation Code is amended to read:

14552. Upon the filing of the petition the court shall, by order, designate and appoint an inheritance tax appraiser to ascertain and report to the court the amount of tax, if any, due and payable on the transfer for which the petitioner is liable. Upon the entry of such order, the petition and the matter to which it relates shall be deemed referred to such appraiser for all purposes.

CHAPTER 16

An act to amend Section 262 of the Revenue and Taxation Code, relating to the church exemption, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 20, 1963. Filed with Secretary of State March 20, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 262 of the Revenue and Taxation Code is amended to read:

262. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, or 1962 on property as to which the church exemption was available for such fiscal year shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously, and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected.

SEC. 2. This act is an urgency measure, necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some churches have inadvertently failed to file the required affidavit in support of the tax exemption of their property which is granted by the State Constitution, and as a result now are confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the State as expressed in the Constitution will be entirely fulfilled and the State as a whole will benefit.

CHAPTER 17

An act to amend Section 28141 of the Government Code, relating to compensation for public service in counties.

[Approved by Governor March 20, 1963. Filed with Secretary of State March 20, 1963.]

SECTION 1. Section 28141 of the Government Code is amended to read:

28141. In a county of the 41st class the following shall receive as compensation for the services required of them by law or by virtue of their offices the following sums:

In lieu of mileage, supervisors may use automobiles provided and maintained by the county in connection with the performance of their official duties.

(d) Trial jurors in the superior court shall receive six dollars ($6) for each day's attendance and mileage at the rate of ten cents ($0.10) for each mile actually and necessarily traveled from their residences to the county seat. Grand jurors shall receive seven dollars ($7) for each day's attendance and ten cents ($0 10) for each mile actually traveled. The fees and mileage shall be paid by the treasurer of the county out of the general fund of the county upon warrants drawn by the county auditor upon the written order of the judge of the superior court.

The compensation provided by this section shall be payable to incumbent officers.

CHAPTER 18

An act to amend Section 24100 of the Water Code, relating to irrigation districts.

[Approved by Governor March 20, 1963. Filed with Secretary of State March 20, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 24100 of the Water Code is amended to read:

24100. An act to add Section 6854.3 to the Business and Professions Code, and to add Section 12055 to the Insurance Code, relating to credit insurance, declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 20, 1963. Filed with Secretary of State March 20, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 6854.3 is added to the Business and Professions Code, to read:

6854.3. "Collection agency" does not include any insurer admitted in the State to transact credit insurance, as defined in Sections 113 and 12055 of the Insurance Code, and subject to the jurisdiction of the Insurance Commissioner.

SEC. 2. Section 12055 is added to the Insurance Code, to read:

12055. An insurer admitted in the State to transact credit insurance may also acquire and dispose of debts so insured and collect any debts owed to such insurer or to any person so insured by it. In performing any such act the credit insurer shall be under the jurisdiction of the Insurance Commissioner.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of the ambiguity of the present California statutes relating to credit insurers, there is a possible conflict of jurisdiction between the Insurance Commissioner and the Collection Agency Bureau. The enforcement officials involved and the admitted credit insurers are entitled to a resolution of such ambiguities at the earliest possible time, and the amendment contained herein is necessary to remove such ambiguities.

CHAPTER 20

An act to amend Section 28157 of the Government Code, relating to county officers.

The county clerk shall certify to the auditor the number of days' attendance and number of miles traveled by each juror. The auditor shall draw his warrant therefor, and the treasurer shall pay the warrant.

SEC. 3. Section 27361.8 is added to said code, to read:

27361.8. The fee for preparing a true copy of a document not sufficiently legible to reproduce a readable photographic record is twenty-five cents ($0.25) per folio.

CHAPTER 23

An act to amend Section 27320 of the Government Code, relating to recordation of documents.

[Approved by Governor April 1, 1963. Filed with Secretary of State April 1, 1963.]

The people of the State of California do enact as follows:

SECTION 1. The parcel to which the provisions of this act are applicable consists of that portion of the tide and submerged lands heretofore conveyed to the City of Vallejo upon certain trusts and conditions by Chapter 310 of the Statutes of 1913, more fully described as follows:

H. Rowe filed in the Office of the County Recorder of Solano County, California on September 19, 1868 in Book 1 of Maps at Page 123;

The area hereinbefore described being that strip of land lying between the combined U. S. Pierhead and Bulkhead line and the boundaries of tideland Surveys No. 3, 4, 21 and 22.

SEC. 2. (a) In addition to the purposes expressed in Chapter 310 of the Statutes of 1913, the tide and submerged lands

included in the parcel described in Section 1 may be used by the City of Vallejo and its successors for purposes in which there is a general statewide purpose as follows:

Such lease or leases, franchises and privileges may be for any and all purposes which shall not interfere with commerce and navigation. (h) Said lands are granted subject to the express reservation and condition that the State may at any time in the future use said lands or any portion thereof for highway purposes without compensation to the city, its successors or assigns, or any person, firm or public or private corporation claiming under it, except that in the event improvements, betterments or structures have been placed upon the property taken by the

State for said purposes, compensation shall be made to the person entitled thereto for the value of his interest in the improvements, betterments or structures taken or the damages to such interest.

(i) The State Lands Commission shall, at the cost of the city, survey and monument said lands and record a description and plat thereof in the office of the County Recorder of Solano County.

(j) If said lands, or any part thereof, are not used for the additional purposes authorized by this section within 10 years from the effective date of said section, or if such use is discontinued thereafter, the right, title, and interest of the city in and to said lands shall cease and said lands shall revert and rest in the State.

SEC. 3. Notwithstanding any provision in Chapter 310 of the Statutes of 1913 and notwithstanding any provision of this act, the State hereby consents and authorizes the City of Vallejo to grant its right, title and interest in and to all or a portion of the tide and submerged lands described in Section 1 of this act, whether filled or unfilled, to the Redevelopment Agency of the City of Vallejo, a public body, corporate and politic, organized and activated under the provisions of the Community Redevelopment Law as contained in Part 1 (commencing with Section 33000), Division 24 of the Health and Safety Code, to be held in trust by said agency for the uses and purposes and upon the conditions and limitations and to be vested with the rights and powers set forth in Section 2 of this act and in Chapter 310 of the Statutes of 1913

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The City of Vallejo, through the Redevelopment Agency of the City of Vallejo, has undertaken an urban renewal program for a project area containing 125 acres, 25 acres of which are located between the combined Pierhead-Bulkhead line and the existing shore, and essentially within the parcel of tidelands described in this act. The area lying between these two waterfront developments is a part of the urban renewal project which specifies the building of a permanent seawall and filling in of the waterfront area behind the seawall to create new land which could be easily utilized to promote commerce, navigation and fisheries in place of tidal mudflats which have retarded such development. The earth to be used for filling the waterfront area is located eastward of the tidelands and is contained within the balance of the redevelopment project so that the installation of the seawall on the tideland parcel described in this act must precede the cut and fill and grading operations in the balance of the project area and thus must precede the redevelopment and renewal of essentially all of the

project area necessitating basically a standstill of action by the Redevelopment Agency of the City of Vallejo until bids are called for the construction of the seawall, and such bids cannot be called for until conveyance of the rights, title and interests of the City of Vallejo in the tidelands area described in this act can be conveyed to the Redevelopment Agency and until the trust purposes in the 1913 grant to the City of Vallejo are amended by this act to conform to identical trust purposes established for other portions of this original tidelands grant by prior legislative action. The Redevelopment Agency of the City of Vallejo has outstanding $1,240,000 in tax allocation bonds and $7,500,000 in other indebtedness upon which interest and charges are accumulating and will continue to accumulate pending the completion of this project. There exists an urgent necessity to begin building this project in order to effect a substantial financial savings to the City of Vallejo and to the Redevelopment Agency of the City of Vallejo, a state agency, and to secure commitments for the redevelopment of this tideland area for the furtherance of the trust purposes of commerce, navigation and fisheries, and unless authority is granted to convey title to the Redevelopment Agency of the City of Vallejo these advantages to these public agencies will be lost.

SEC. 2. Section 17765 of said code is amended to read:

17765. The application for license shall be accompanied by a bond payable to this State and duly executed by the trading stamp company and a corporate surety qualified to do business in this State, which is conditioned upon the performance by the company of its obligations to redeem trading stamps issued under this chapter in this State when they are duly presented for redemption by the rightful holders

The people of the State of California do enact as follows:

SECTION 1. Section 13242 of the Public Utilities Code is amended to read:

13242. The bonds shall be issued in such denominations as the board determines, except that no bonds shall be of a denomination less than one hundred dollars ($100), nor of a greater denomination than five thousand dollars ($5,000), and shall be payable on the day and at the place or places fixed in the bonds, and with interest at the rate specified therein, payable semiannually.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present secondary bond market is highly favorable to bonds issued by municipal utility districts in denominations in excess of one thousand dollars ($1,000). Substantial savings in interest and fiscal costs will be available only if the districts are immediately given authority to permit bidders to offer bonds of large denominations in the secondary market. To achieve this end this act must take effect immediately.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some persons and organizations have inadvertently failed to file the required affidavit in support of the tax exemption of their property which is granted by the State Constitution, and as a result now are confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the State as expressed in the Constitution will be entirely fulfilled and the State as a whole will benefit.

SEC. 22.1. Section 3078.3 of said code is amended to read:

3078.3. Notwithstanding any other provision of this chapter or Chapter 3 (commencing with Section 3400) of this part, whenever a former recipient of aid under this chapter or Chapter 3 (commencing with Section 3400) of this part whose aid has been canceled or discontinued for any cause requests restoration of aid before the expiration of one year from the date of such cancellation or discontinuance and if it is determined that he is eligible therefor, aid shall be granted to him beginning not later than the first day of the month immediately following the date of such request for restoration, and no new application shall be required.

SEC. 22.5. Section 3083.3 of said code is amended to read:

3083.3. The application, evidence and documents submitted by an applicant for aid under this chapter may be used to grant the applicant aid under Chapter 3 of this part, if he is eligible therefor, and the application, evidence, and documents submitted by an applicant for aid under Chapter 3 (commencing with Section 3400) of this part may be used to grant the applicant aid under this chapter, if he is eligible therefor.

SEC. 23. Section 3081 of said code is amended to read:

3081. Each applicant for aid under this chapter or Chapter 3 (commencing with Section 3400) of this part shall file with the county agency designated to administer aid to the blind an application, accompanied by an affidavit, signed by him, stating, if known, his age, sex, counties of residence during the preceding 10 years, his financial resources and income, the name and address of his spouse and of each of his adult children and parents, the degree of his blindness, where and when he became blind, what employment and education he has had, his general physical condition, and such other data as are necessary to establish his eligibility for aid to the blind. The applicant's sworn statements in his application shall constitute prima facie evidence of the facts stated, except with

respect to degree of blindness and residence. This section shall not be interpreted to preclude a full and complete investigation by the agency administering aid to the blind.

SEC. 24. Section 3083 of said code is amended to read:

3083. The county board of supervisors shall not grant any certificate of qualification for aid under the provisions of this chapter or Chapter 3 (commencing with Section 3400) of this part until it has been satisfied that the applicant is entitled to such aid by the evidence of one reputable citizen of the State that he knows that the applicant has the required residential qualifications to entitle him to the aid asked for, or, in case such citizen is not available, then by such other evidence as is acceptable to the State Department of Social Welfare, and by the evidence of a duly licensed and practicing physician skilled in the diseases of the eye or of a duly licensed and practicing physician skilled in neurology or psychiatry or of a duly licensed and practicing optometrist that the applicant is blind. The physician skilled in the diseases of the eye shall describe the condition of the applicant's eyes and testify to the degree of his blindness. Whenever a physician skilled in the diseases of the eye is unable to find sufficient pathology to account for the degree of visual impairment claimed by the applicant, and whenever such physician skilled in the diseases of the eye shall recommend a further examination by a physician skilled in neurology or psychiatry, the applicant shall have the right to be examined by a physician skilled in neurology or psychiatry, who shall determine whether the degree of visual impairment claimed by the applicant is substantiated by the results of a neurological or psychiatric examination. The duly licensed and practicing optometrist shall testify to the degree of the applicant's blindness. The cost of such examination shall be paid entirely by the county in the same manner as other expenses of the county are paid. The evidence of each person shall be in writing, signed by him, and he shall be subject to cross-examination by the county board of supervisors or any other person appointed by the board of supervisors to conduct such investigation.

The State Social Welfare Board may appoint an advisory committee of six optometrists which shall serve in a consulting capacity, and which shall make recommendations and give advice to the board on rules and regulations governing all questions relating to the services of optometrists under this chapter and under Chapter 3 of this part. Each member of the committee shall be appointed for a term of two years. The members of the committee shall receive no compensation for their services but shall be allowed their actual traveling expenses incurred in the discharge of their duties.

The State Social Welfare Board shall make rules and regulations to prescribe the qualifications, number, and geographical distribution of such physicians and optometrists as are necessary to carry out the eye examinations provided under this chapter and Chapter 3 of this part.

SEC. 25. Section 3083.1 of said code is amended to read:

3083.1. No applicant for or recipient of aid under this chapter or Chapter 3 (commencing with Section 3400) of this part shall be required to pay any part of the cost of an eye examination as required by the Department of Social Welfare in connection with his application for or continued receipt of aid under this chapter or Chapter 3 (commencing with Section 3400) of this part. The costs of all such eye examinations shall be paid entirely by the county in the same manner as other expenses of the county are paid.

SEC. 25.5. Section 3084 of said code is amended to read:

3084. Any applicant shall be entitled to an amount of aid which, when added to the income of the applicant from all other sources, equals one hundred twenty dollars ($120) per month plus any adjustment reflecting cost of living changes subsequent to January 1, 1960.

The amount of the grant as set forth in this section and Section 3084.01 shall be adjusted annually by the State Social Welfare Board to reflect any increases in the cost of living occurring after January 1, 1960. The average of the separate indices of cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics, shall be used as the basis for determining the changes in the cost of living. Whenever the cost of living increases by a percentage which when multiplied by one hundred fifteen dollars ($115) results in a product of one dollar ($1) or more, this product adjusted to the nearer dollar amount shall be added to the monetary amount specified in the preceding paragraph and to the corresponding figure specified in Section 3084.01. The resultant sum shall be declared by formal action of the State Social Welfare Board to be the monthly grants payable under this section and Section 3084.01, respectively. In giving effect to the cost of living increase feature of this section the State Social Welfare Board shall select a base month for computation of the percentage change in the cost of living since January 1, 1960. The same month shall be used annually thereafter. The ordered change in maximum grant shall become effective on the first day of the month following the expiration of a ninety (90) day period following the date of the formal action of the board directing the change.

In computing the amount of income determined to be available to support a recipient under this chapter the value of currently used resources shall be included but the value of earned income which is exempt pursuant to Section 3084.3 and the value of casual income and inconsequential resources shall be excluded.

In any case where it is found that the need of an applicant exceeds the maximum provided by this section an additional amount of aid shall be paid as provided by Section 3084.01 of this code.

The State Department of Social Welfare may provide by rule that any change in grant for an amount of two dollars

($2) or less may be delayed for not more than two months beyond the month in which the recipient reported the change in circumstances.

SEC. 25.6. Section 3084.01 of said code is amended to read:

3084.01. Any recipient whose need exceeds the amount of the maximum grant payable under Section 3084 of this code shall be entitled to receive an additional amount as necessary to meet his need but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month.

The additional amount granted by this section is intended to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients, which are not included or not adequately covered by the allowance provided by Section 3084.

In determining the amount of grant payable under this section no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the State Social Welfare Board and is not covered by an assistance allowance under this chapter, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

SEC. 26. Section 3084.1 of said code is repealed.

SEC. 27. Section 3087 of said code is repealed.

SEC. 28. Section 3087.1 of said code is repealed.

SEC. 28.5. Section 3087.5 of said code is amended to read:

3087.5. The board shall immediately notify the applicant in writing of its decision, and that he may, upon application to the board within 30 days, appear before the board at a time to be fixed by the board and show cause why the action of the board is not satisfactory. The hearing shall be held within 30 days from the time of application for hearing. Upon good cause shown, the board may reconsider its previous action, and take whatever action the board deems proper upon the application. The decision of the board confirming or reconsidering its previous action shall be rendered within 15 days after the hearing.

The right of hearing by the board of supervisors provided by this section is intended as an alternative to direct appeal to the State Social Welfare Board, and an applicant who has applied for hearing before the board of supervisors shall not appeal to the State Social Welfare Board until the decision of the board of supervisors has been rendered. After the decision of the board of supervisors has been rendered, the applicant may appeal therefrom to the State Social Welfare Board. An

applicant who does not apply for hearing before the board of supervisors may appeal directly to the State Social Welfare Board as provided in Section 104.1.

The right of appeal to the board of supervisors, provided in this section, shall also be available to an applicant for aid under Chapter 3 (commencing with Section 3400) of this part.

SEC. 29. Section 3088.5 of said code is amended to read:

3088.5. Payment of aid under this chapter or Chapter 3 (commencing with Section 3400) of this part shall be made promptly and shall be commenced as of the first day of the month in which the application is granted, unless an earlier date is required by Section 3082 or unless otherwise directed by the State Social Welfare Board in cases in which an appeal is taken; aid shall not commence prior to the date of application, unless otherwise directed by the State Social Welfare Board in cases in which an appeal has been taken on the ground that the county has refused to accept a signed application for aid.

All payments of aid under this chapter or Chapter 3 (commencing with Section 3400) of this part shall be made monthly in advance and shall be paid as of the first day of each month. The warrant shall be placed in the mail in time for delivery on the first postal delivery day of each month.

An applicant whose application for aid under this chapter or Chapter 3 (commencing with Section 3400) of this part has been rejected may not again apply for such aid until the expiration of 90 days from the date the previous application was denied, except with the consent of the county or an order of the State Department of Social Welfare, or until the condition because of which his application was rejected has been eliminated

SEC. 30 1. Section 3447 of said code is amended to read:

3447. Aid shall not be denied under the provisions of this chapter to any person who owns, in addition to property authorized by Chapter 6 (commencing with Section 450) of Division 1 of this code, personal or real property, or both, the county assessed valuation of which, less all encumbrances thereon of record, is in excess of five thousand dollars ($5,000). Aid shall not be denied under the provisions of this chapter to any blind person with a plan for achieving self-support on the ground that he owns personal property in addition to that authorized in Chapter 6 (commencing with Section 450) of Division 1 of this code; provided, that such additional property is necessary to implement his plan for achieving self-support; and provided, that the county-assessed valuation of such additional personal property does not exceed five thousand dollars ($5,000).

The term "personal property," insofar as applicants or recipients of aid under this chapter are concerned, shall not include a policy or policies of life insurance on the life of the applicant or recipient which has or have been in effect at least five years prior to the date of application, if the value of the

policy or policies at maturity is in an amount not exceeding one thousand dollars ($1,000).

No life insurance policy shall be valued at more than its present surrender value to the applicant or recipient. Premiums paid on life insurance policies shall not be deemed income or resources of the applicant or recipient, whether or not the person by whom the premiums are paid is a responsible relative of the applicant or recipient, and no deduction therefor shall be made from the amount of aid granted to the recipient.

Funds for readers, or an educational scholarship, or both, which have been awarded by a high school, college, or university to any recipient of aid under this chapter while he is regularly attending any public school in this State, the University of California, or any other institution of higher learning in this State, shall not be deemed property, income, or resource of the recipient for any purpose and no deduction therefor shall be made from the recipient's amount of aid.

SEC. 30.2. Section 3447.1 of said code is amended to read:

3447.1. For the purposes of this chapter and Chapter 6 (commencing with Section 450) of Division 1 of this code, as the latter applies to recipients of aid under this chapter, the term personal property does not include interment plots as defined in Section 7022 of the Health and Safety Code, nor money placed in trust or insurance for funeral or interment expenses or similar purposes, nor any contract rights connected therewith if such money, insurance, or contract rights do not exceed five hundred dollars ($500) in value.

SEC. 30.3. Section 3447.2 of said code is repealed.

SEC. 31. Section 3460 of said code is amended to read:

3460. The administration of this chapter is vested in the State Department of Social Welfare and the counties to be performed in accordance with the provisions of this code applicable to aid to the blind under Chapter 1 (commencing with Section 3000) of this part. Unless otherwise expressly provided in this chapter, all provisions of this code applicable to the powers and duties of the State Department of Social Welfare and the counties with respect to the blind shall apply to the powers and duties of the State Department of Social Welfare and the counties with respect to aid to the blind under this chapter.

SEC. 32. Section 3472 of said code is amended to read:

3472. Any applicant shall be entitled to an amount of aid which, when added to the income of the applicant from all other sources, equals one hundred twenty dollars ($120) per month.

The amount of the grant as set forth in this section and Section 3472.01 shall be adjusted annually by the State Social Welfare Board to reflect any increases in the cost of living occurring after January 1, 1960. The average of the separate indices of cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics, shall be used as the basis for determining the changes in the

cost of living. Whenever the cost of living increases by a percentage which when multiplied by one hundred fifteen dollars ($115) results in a product of one dollar ($1) or more, this product adjusted to the nearer dollar amount shall be added to the monetary amount specified in the preceding paragraph and to the corresponding figure specified in Section 3472.01. The resultant sum shall be declared by formal action of the State Social Welfare Board to be the monthly grants payable under this section and Section 3472.01, respectively. In giving effect to the cost of living increase feature of this section the State Social Welfare Board shall select a base month for computation of the percentage change in the cost of living since January 1, 1960. The same month shall be used annually thereafter. The ordered change in maximum grant shall become effective on the first day of the month following the expiration of a ninety (90) day period following the date of the formal action of the board directing the change.

In computing the amount of income determined to be available to support a recipient under this chapter the value of currently used resources shall be included but the value of earned income which is exempt pursuant to this section and the value of casual income and inconsequential resources shall be excluded.

In any case where it is found that the need of an applicant exceeds the maximum provided by this section an additional amount of aid shall be paid as provided by Section 3472.01 of this code.

Annual net income from any of the following sources of a combined total value not exceeding one thousand two hundred dollars ($1,200) increased by one-half of that part of the recipient's annual income which is in excess of one thousand two hundred dollars ($1,200) shall not be considered for any purpose:

SEC. 32.6. Section 3472.01 of said code is amended to read:

3472.01. Any recipient whose need exceeds the amount of the maximum grant payable under Section 3472 of this code shall be entitled to receive an additional amount as necessary to meet his need but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month.

The additional amount granted by this section is intended to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients, which are not included or not adequately covered by the allowance provided by Section 3472.

In determining the amount of grant payable under this section no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the State Social Welfare Board and is not covered by an assistance allowance under this chapter, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

SEC. 33. Section 3472.1 of said code is amended to read:

It is the intent of the Legislature that should the federal government require that any increase in assistance to the blind in this State granted by it after November 1, 1956, be considered necessary to meet medical or health needs of the applicant or recipient, an increase in aid to the potentially self-supporting blind resulting therefrom shall be considered necessary to meet the medical or health needs of applicants or recipients.

SEC. 34. Section 3473 of said code is amended to read:

3473. An applicant for aid under this chapter shall in addition prove that he is able to secure and willing to use resources and income he is permitted to retain under this chapter, for the purposes of achieving self-support.

The county shall determine whether the applicant has the qualifications necessary for aid under this chapter and may,

despite his application, deny him aid under this chapter, and, if eligible thereunder, grant him aid to the blind under Chapter 1 of this part. Any applicant denied aid under this chapter may file an appeal with the State Social Welfare Board.

An applicant granted aid under this Chapter 3 shall not be eligible for aid under Chapter 1 of this part.

At least annually, the county shall review the case of every applicant receiving aid under this chapter and shall redetermine whether he is eligible for aid under this chapter or should be granted aid, if eligible under Chapter 1 of this part. SEC. 34.5. Section 4162 is added to said code, to read:

4162. Any person who qualifies for assistance under the provisions of Chapter 1 (commencing with Section 4700) of Part 4 of Division 5 of this code, and who is confined as an inpatient in a hospital or nursing home, shall be presumed to be a needy disabled person within the meaning of Section 4000 of this code.

This act makes numerous technical and clarifying changes in code sections relating to public assistance. In order that substantive changes in those sections, proposed by the Legislature in other bills introduced at the 1963 session, may be directed at the law as it is proposed to be amended by this act, thereby eliminating the necessity of directing those changes at both this act and existing sections of the code, it is essential that this act take effect immediately.

CHAPTER 44

An act to add Sections 2020.001 and 3084.05 to the Welfare and Institutions Code, relating to attendant and other special services for recipients of public assistance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 2, 1963. Filed with Secretary of State April 2, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 2020.001 is added to the Welfare and Institutions Code, to read:

2020.001. When the physical or mental condition of an applicant for or a recipient of aid under this chapter is such that he requires the services of a full-time or part-time attendant to permit him to remain in his own home or requires out-of-home care in a nonmedical facility, he shall be entitled to a grant in an amount sufficient to enable him to pay for those services or that care, provided that he would apparently be eligible for assistance as provided under Chapter 1 (commencing with Section 4000) of Part 2 of Division 5 of this code and would be transferred to the program of aid to the needy disabled solely for the purposes of providing such services or care.

The grant payable to an applicant or recipient under this section shall not be subject to the maximum monetary limitations set forth in Sections 2020 and 2020.002 of this code.

SEC. 2. Section 3084 05 is added to said code, to read:

3084.05. When the physical or mental condition of an applicant for or a recipient of aid under this chapter or Chapter 3 (commencing with Section 3400) of this part is such that he requires the services of a full-time or part-time attendant to permit him to remain in his own home or requires out-of-home care in a nonmedical facility, he shall be entitled to a grant in an amount sufficient to enable him to pay for those services or that care, provided that otherwise he would apparently be eligible for assistance as provided under Chapter 1 (commencing with Section 4000) of Part 2 of Division 5 of this code and would be transferred to the program of aid to the needy disabled solely for the purposes of providing such services or care. The grant payable to an applicant or recipient under this section shall not be subject to the maximum monetary limitations set forth in Sections 3084, 3084.01, 3472, and 3472.01 of this code.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At the present time it is the practice of those administering the public assistance programs to transfer any applicant for or recipient of old age assistance or aid to the blind, whose physical or mental condition is such that he requires attendant care, to the aid to the needy disabled program. This results in a substantial increase in administrative costs, which will be avoided if payment for attendant services is made in conjunction with the old age assistance and aid to the blind programs. This act will accomplish this, and in order that a reduction in costs may be effected at the earliest possible time, it is essential that it take effect immediately.

CHAPTER 45

An act to add Section 16410 to the Education Code, relating to school property, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 2, 1963. Filed with Secretary of State April 2, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 16410 is added to the Education Code, to read:

16410. Notwithstanding any other provision of law, the governing board of any school district owning land upon

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The bidding procedures generally applicable to the sale of school property are not workable where a school district desires to sell crops grown on its land There are presently crops on lands owned by school districts which need harvesting. Unless this act takes effect immediately it will be difficult to harvest such crops

CHAPTER 46

An act to add Section 16866 to the Education Code, relating to junior college bus transportation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 3, 1963 Filed with Secretary of State April 3, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 16866 is added to the Education Code, to read:

16866. The governing board of any school district maintaining a junior college may use school buses to transport students attending the junior college of the district and teachers or other employees employed by the district to and from places which are located within a 1,500-mile geographical radius of the district and which are located in this State or in any other state of the United States in connection with courses in geology or archaeology offered by the junior college

In computing the average daily attendance of the district, there shall be excluded the attendance of such pupils while being transported on such educational excursions.

Any school district which transports pupils, teachers or other employees of the district in school buses pursuant to the provisions of this section, shall report to the Superintendent of Public Instruction on forms prescribed by him the total mileage of school buses used in connection with such educational excursions. In computing the additional allowance to such school district for transportation there shall be deducted therefrom an amount equal to the depreciation of school buses used for such transportation in accordance with rules and regulations adopted by the Superintendent of Public Instruction.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Junior colleges have planned as an integral part of certain courses of study field trips wherein students are given the opportunity to utilize the theoretical knowledge they have gained in the classroom. In order that these courses of study may be conducted as planned and yield the maximum benefit to all the students, it is necessary that this act go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 1435.9 of the Probate Code is amended to read:

1435.9. The court shall require the petitioner to give a bond conditioned on the duty of the petitioner to account for and apply the proceeds of the transaction to be received by him only as the court may by its order or any subsequent order direct. The court in its order may, however, for cause shown, reduce or dispense with such bond.

CHAPTER 48

[Approved by Governor April 8, 1963. Filed with Secretary of State April 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 19593 of the Education Code is amended to read:

19593. The election by a school district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 19590 may be called and held either before or after the making of an apportionment except that no such election shall be held within 45 days of a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

SEC. 2. Section 20804.3 of said code is amended to read:

20804.3. Notwithstanding any provision of law to the contrary, no election for the purpose of increasing or decreasing any maximum tax rate for any school district shall be held within 45 days of a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

SEC. 3. Section 21701.5 of said code is amended to read:

21701.5. Notwithstanding any provision of law to the contrary, no election shall be held pursuant to this chapter (commencing with Section 21701) within 45 days of a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

SEC. 4. Section 23313 of the Elections Code is amended to read:

23313. Where the precinct boundaries of a school district do not fully coincide with the boundaries of the precincts established for a statewide election, any school district election governed by Sections 19593, 20804.3, and 21701.5 of the Education Code shall be either partially or completely consolidated with the statewide election. Such partial or complete consolidation shall constitute full compliance with the requirements of Sections 19593, 20804.3, and 21701.5 of the Education Code.

CHAPTER 49

An act to amend Section 12816 of the Vehicle Code, relating to drivers' licenses, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 8, 1963. Filed with Secretary of State April 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 12816 of the Vehicle Code is amended to read:

12816. (a) Every original driver's license issued after September 10, 1957, shall expire on the third birthday of the applicant following the date of the application for the license.

(b) Renewal of any driver's license shall be made for a term which shall expire on the fifth birthday of the applicant following the expiration of the license renewed except that such renewal of a license shall expire on the third birthday of the applicant following the expiration of the license renewed if within the past two years the applicant has:

(1) Except for parking violations, and violations committed as a pedestrian or bicyclist, been convicted of three or more violations of Division 10 (commencing with Section 20000) or of Division 11 (commencing with Section 21000) of this code, or

(2) Been convicted of any felony in the commission of which a motor vehicle was used.

(c) The department may accept application for a renewal of a driver's license made not more than six months prior to the date of expiration and the renewal license when issued shall expire as stated in subdivision (b) above. If renewal is not applied for within 90 days after expiration of the license, the application and fee shall be considered the same as an application for an original license to be issued for the term indicated in subdivision (a) above.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A reduction in revenue will occur unless a provision is made for the continued issuance of short term drivers' licenses. In 1961, the Legislature combined operators' licenses and chauffeurs' licenses under the identity of drivers' licenses. The number of convictions of traffic violations under which two year term licenses would be issued was not changed

As there are a large number of these licenses as well as drivers' licenses of persons with three or more convictions now being renewed, it is necessary that this act take effect immediately to provide effective and uniform administration and to prevent a reduction in revenue.

CHAPTER 50

An act to amend Section 537 of the Code of Civil Procedure, relating to attachment.

[Approved by Governor April 8, 1963. Filed with Secretary of State April 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 537 of the Code of Civil Procedure is amended to read:

537. The plaintiff, at the time of issuing the summons, or at any time afterward, may have the property of the defendant attached, as security for the satisfaction of any judgment that may be recovered, unless the defendant gives security to pay such judgment, as in this chapter provided, in the following cases:

In an action upon a contract, express or implied, for the direct payment of money, where the contract is made or is payable in this State, and is not secured by any mortgage, deed of trust or lien upon real or personal property, or any pledge of personal property, or, if originally so secured, such security has, without any act of the plaintiff, or the person to whom the security was given, become valueless. An action upon any liability, existing under the laws of this State, of a spouse, relative or kindred, for the support, maintenance, care or necessaries furnished to the other spouse, or other relatives or kindred, shall be deemed to be an action upon an implied contract within the term as used throughout all subdivisions of this section. 2. In an action upon a contract, express or implied, against a defendant not residing in this State, or who has departed from the State, or who cannot after due diligence be found within the State, or who conceals himself to avoid service of summons.

4. In an action in unlawful detainer where it appears from the verified complaint on file therein that rent is actually due and payable from the defendant to the plaintiff for the premises sought to be recovered in said action; provided, the payment of such rent is not secured by any mortgage or lien upon real or personal property, or pledge of personal property,

or, if originally so secured, such security has, without any act of the plaintiff or the person to whom the security was given, become valueless.

5. In an action by the State of California or any political subdivision thereof, for the collection of taxes due said State or political subdivision, or for the collection of any moneys due upon any obligation or penalty imposed by law.

The people of the State of California do enact as follows:

SECTION 1. Section 844 of the Probate Code is amended to read:

844. The executor or administrator may lease real property without an order of court when the rental does not exceed two hundred fifty dollars ($250) a month and the term does not exceed one year or, regardless of the amount of rental, when the lease is from month to month.

CHAPTER 52

An act to amend Section 36 of the Civil Code, relating to contracts of minors.

[Approved by Governor April 8, 1963. Filed with Secretary of State April 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 36 of the Civil Code is amended to read:

2. A contract or agreement pursuant to which such person is employed or agrees to render artistic or creative services in motion pictures, television, the production of phonograph records, the legitimate or living stage, or otherwise in the entertainment field, including, but without being limited to, services as an actor, actress, dancer, musician, comedian, singer, or other performer or entertainer, or as a writer, director, producer, production executive, choreographer, composer, conductor or designer, where such contract or agreement has been approved by the superior court in the county in which such minor resides or is employed.

3. A contract or agreement pursuant to which such person is employed or agrees to render services as a participant or player in professional sports, including, but without being limited to, professional boxers, professional wrestlers and professional jockeys, where such contract or agreement has been approved by the superior court in the county in which such minor resides or is employed.

4. The approval of the superior court referred to in subsections 2 and 3 of this section may be given upon the petition of either party to the contract or agreement after such reasonable notice to the other party thereto as may be fixed by said court, with opportunity to such other party to appear and be heard; and its approval when given shall extend to the whole of said contract or agreement, and all of the terms and provisions thereof, including, but without being limited to, any optional or conditional provisions contained therein for extension, prolongation or termination of the term thereof.

CHAPTER 53

An act to amend Section 12880 of the Water Code, relating to state financial assistance for local water projects, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 8, 1963. Filed with Secretary of State April 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 12880 of the Water Code is amended to read:

12880. In furtherance of the development, control and conservation of the water resources of the State and the State Water Resources Development System it is the policy of the State to provide financial assistance to public agencies for the construction of water projects to meet local requirements in which there is a statewide interest by making grants or loans,

or both, and by participating in the construction and operation of water projects, and also to provide financial assistance to public agencies for the preparation of certain feasibility reports on such water projects by making loans, in accordance with this chapter.

(a) As used in this chapter, "project" means any construction or improvement by a public agency for the diversion, storage, or distribution of water primarily for domestic, municipal, agricultural, industrial, flood control or power production purposes. "Public agency" means any city, county, district or other political subdivision of the State. "Feasibility report" means such report on the feasibility of a public agency's proposed project as the department may require the public agency to file with the department in support of an application by the public agency under this chapter for a loan for the construction of the proposed project.

(b) The proposed project may be approved for assistance only if it is determined that the project substantially conforms to The California Water Plan, is engineeringly feasible, economically justified, and, if a loan is proposed, that there is reasonable assurance, commensurate with the need for the proposed project, that the public agency can repay it. A loan for the preparation of a proposed feasibility report on a proposed project may be approved only if it is determined that there is reasonable assurance that the public agency can repay the loan and only if the agency receives a favorable written reply from the department on a written request for a preliminary determination of eligibility for a loan for the construction of the proposed project filed with the department by the agency under the regulations of the department promulgated pursuant to this chapter.

(c) Grants in furtherance of a project may be made for the following purposes:

(1) For the part of the construction cost of the proposed project properly allocated to the enhancement of fish and wildlife incidental to the primary functions of the project.

(2) For the part of the construction cost of the dam and reservoir of the proposed project properly allocated to recreational functions of statewide interest that are incidental to the primary functions of the project. Such construction costs may include expenditures for lands located above the high waterline of reservoirs which are necessary or desirable for public recreation in connection with the reservoir.

(d) Loans may be made only for projects primarily for domestic, municipal, agricultural, or industrial purposes. Such loans may be made for all or any part of the construction cost of any such project but in no event shall any such loan be in an amount which is greater than the portion of the construction cost of the project which the department finds to be beyond the reasonable ability of the public agency to finance from other sources. Such loans shall be repayable over a period not to exceed 50 years. A period of development of not exceeding

10 years may be allowed within such maximum 50-year repayment period, during which no payments on the principal of such loans shall be required, when in the department's judgment such development period is justified under the circumstances.

(e) Loans may be made for all or any part of the cost of the preparation of proposed feasibility reports on proposed projects, but in no event shall any such loan be in an amount which is greater than the portion of the cost of the preparation of the proposed feasibility report which the department finds to be beyond the reasonable ability of the public agency to finance from other sources. Such loans shall be repayable over a period not to exceed 10 years.

(f) If in order to accomplish the objectives of this chapter it is necessary to construct a project that is beyond the requirements of the public agency constructing the project, the State may participate in planning, designing, constructing, operating and maintaining the project, and in financing those costs of the project in excess of the costs necessary to meet the requirements of the public agency, on terms agreed upon with the agency, to the end that the project shall accomplish the maximum water development objectives at a minimum total expenditure.

(g) Applications for loans or grants or financial participation by the State under this chapter shall be made to the department in such form and with such supporting material as may be prescribed by the department. A report on each application shall be prepared by the department and filed with the Legislature. In such reports the department shall make findings as to the nature and extent of the statewide interest in the project, the public necessity for the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project; provided, that in the case of reports on applications for loans for the preparation of proposed feasibility reports, in lieu of the above findings, the department shall make findings with respect to the public necessity for and urgency of need of the proposed project and the ability of the applicant to repay the requested loan for the preparation of the proposed feasibility report.

(h) Notwithstanding any provision of law to the contrary, every public agency empowered by law to construct and operate a project, as defined in subdivision (a) of this section, is hereby granted, in addition to and not in derogation or limitation of the powers conferred upon the public agency by any other law, the power:

(1) To borrow money from and repay the same with interest to the State in accordance with this chapter on behalf of the entire public agency or of any portion or portions thereof for which the law applicable to the agency authorizes an indebtedness or liability to be incurred, including any improvement district, distribution district, or zone within the public

agency, notwithstanding any debt limitation or other provision in the law applicable to such agency which might otherwise preclude or limit such borrowing.

(2) To enter into a contract with the department, on behalf of the entire public agency, or of any portion or portions thereof referred to in paragraph (1) of this subdivision (h), for a loan or grant under this chapter or for participation by the State in a local project under subdivision (f) of this section and to use the loan or grant contracted for as an additional or alternative means of financing the project proposed by the public agency.

(3) To comply with the provisions of any contract entered into with the department under this chapter, including any provision which obligates the public agency, or any specified portion or portions thereof, to meet all commitments, financial or otherwise, undertaken by the public agency in such contract notwithstanding any individual default by its constituents or others in the payment to the public agency of taxes, assessments, tolls, or other charges levied by the public agency.

(4) To include recreation and enhancement of fish and wildlife, or either of them, as functions incidental to the primary functions of a project which the public agency is empowered by law to construct and operate, and to construct and operate the project for such incidental recreation and enhancement of fish and wildlife functions, or either of them, in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of the project facilities for fishing and other recreational activities.

(5) To construct and operate such onshore recreational facilities, fish and wildlife enhancement facilities or other facilities as the department or the Legislature may require in connection with a grant to the public agency under this chapter, and to construct and operate such facilities in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of such facilities for fishing and other recreational activities.

(6) To annually levy or cause to be levied upon all property in the public agency, or in any portion or portions thereof, subject to taxation or assessment by the public agency an ad valorem tax or assessment, based upon the assessed valuation of such property, necessary and sufficient to meet all commitments, financial or otherwise, of the public agency that are set forth in any contract which the agency enters into with the department under this chapter, in addition to any other taxes or assessments which the public agency is authorized to levy or cause to be levied on such property and notwithstanding any provision in the law applicable to such agency which might otherwise preclude or limit such taxing or assessing. Where the law applicable to such public agency does not set forth a procedure for levying and collecting taxes or assessments on an ad valorem basis, such public agency shall utilize

the procedure for levying and collecting taxes for the payment of principal and interest on general obligation bonds of municipal water districts, set forth in the Municipal Water District Act of 1911 (Chapter 671, Statutes of 1911), as it may now or hereafter be amended, for the purpose of levying and collecting taxes or assessments necessary and sufficient to meet commitments in a contract entered into under this chapter.

(7) To make charges for the furnishing of services from the project for which the public agency receives financial assistance under this chapter and to pledge and use any or all revenues received from the collection of such charges for the purpose of meeting the commitments, financial or otherwise, of the public agency that are set forth in any contract which the public agency enters into with the department under this chapter.

(8) To perform all acts and do all things that are necessary or convenient to carry out the above powers

(i) Except in the case of a grant to a public agency where the applicable law contains provisions for the election of the members of the governing body of the agency or where a county board of supervisors acts as the governing body of the agency, before a public agency may enter into a contract with the department for a construction loan or a grant under this chapter, the public agency shall hold an election on the proposition of whether or not the public agency shall enter into the proposed contract and more than 50 percent of the votes cast at such election must be in favor of such proposition; provided, that if a higher percentage of favorable votes is required for the issuance of any bonds by the public agency or is required by the Constitution before the public agency may incur an indebtedness, such higher percentage shall apply in lieu of the percentage set forth in this subdivision. Such election shall be held in accordance with the following provisions:

(1) The procedure for holding an election on the incurring of bonded indebtedness by such public agency shall be utilized for an election on the proposed contract as nearly as the same may be applicable. Where the law applicable to such agency does not contain such bond election procedure, the procedure set forth in the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) Part 1, Division 2, Title 5 of the Government Code), as it may now or hereafter be amended, shall be utilized as nearly as the same may be applicable.

(2) No particular form of ballot is required.

(3) The notice of the election shall include a statement of the time and place of the election, the purpose of the election, the general purpose of the contract, and the maximum amount of money to be borrowed from the State under the contract.

(4) The ballots for the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of the election, shall state the maximum

amount of money to be borrowed from the State under the contract, and shall contain the words "Execution of contract—Yes" and "Execution of contract—No."

(5) The election shall be held in the entire public agency except where the public agency proposes to contract with the department on behalf of a specified portion, or of specified portions, of the public agency, in which case the election shall be held in such portion or portions of the public agency only.

(j) Every public agency is hereby granted the power to bring an action in the superior court of the county in which the office of such agency is situated to determine the validity of any contract made with the department under this chapter and the authority of the public agency to enter into the contract. The action shall be had as in the case of the judicial determination of the validity of the public agency's bonds, as nearly as the same may be applicable, and with like effect. Where the law applicable to such agency does not set forth a procedure for the judicial determination of the validity of the public agency's bonds, the action shall be had as in the case of the judicial determination of the general obligation bonds of irrigation districts under the Irrigation District Law (Division 11 (commencing with Section 20500) of this code), as it may now or hereafter be amended, as nearly as the same may be applicable, and with like effect.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The money applied for under the terms of the Davis-Grunsky Act which can be used pursuant to this act is necessary for the development of recreation and public fishing facilities that will serve thousands of visitors to the Santa Cruz area

Unless this act takes effect immediately, it will mean a delay of up to one year in the progress of this and other vital projects in this State.

CHAPTER 54

An act to amend Section 807 of the Agricultural Code, relating to pomegranates.

[Approved by Governor April 8, 1963. Filed with Secretary of State April 8, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 807 of the Agricultural Code is amended to read:

807. Pomegranates shall be mature, free from rot, and decay; and free from serious damage, due to sunburn, growth

cracks, cuts or bruises, or other causes. Damage to any one pomegranate, except damage caused by sunburn, is not serious unless it causes a waste of 10 percent, by weight, of the fruit. Damage caused by sunburn is not serious unless 20 percent of the seed arils of the fruit fail to show the characteristic reddish color of normal matured fruit.

Not more than 10 percent, by count, of the pomegranates in any one container or bulk lot may be below these requirements, but not to exceed one-half of this tolerance shall be allowed for any one cause.

Packed pomegranates shall not vary in any one container more than one-half of an inch in diameter, when measured through the widest portion of the cross section.

Pomegranates shall not be considered mature unless the juice from a composite sample of at least 10 percent of the fruit in any container contains not to exceed 1.85 percent of acid; however, no lot of pomegranates shall be considered as failing to meet the maturity requirements of this section because the sample from one container fails to meet the required test. In addition, pomegranates shall not be considered mature unless the juice is at least as dark in color as the shade of red shown by the Lovibond tintometer scale, red 20 plus yellow one, when measured in a $\frac{1}{4}$-inch cell.

All containers of pomegranates shall bear upon them in plain sight and in plain letters on one outside end: the name of the person who first authorized the packing of the pomegranates, or the name under which such packer is engaged in business, together with sufficiently explicit address to permit ready location of such packer; the name of the variety, if known, and when not known, the words "Unknown Variety"; and the count when packed.

The bag limit on such clams is 50 per day, in the aggregate. Not more than one daily bag limit of such clams may be possessed by any person during one day.

Clams of the species herein designated, when legally taken outside the State and brought within the State pursuant to this code, may be possessed, transported, and sold without restrictions, except that all shipments of such clams into this State shall be accompanied by a bill of lading, or invoice, showing the species, total number or weight, and the origin of the clams.

so nominated for any one or more of said offices, and a petition signed by 5 percent of the voters requesting that the election be held has not been presented to the board, an election shall not be held.

50741. In such case the publication provided for in Section 50732 shall instead of calling an election state that no election is to be held but that the board of supervisors will appoint those nominated for the positions of trustee; if no person has been nominated for said position, the board of supervisors will appoint any qualified person or persons.

50742 If pursuant to Section 50740 a district election is not held, the board of supervisors of the county in which the district, or the largest part thereof in area, is situated shall at its next regular meeting appoint to the positions of trustees those persons nominated, or if no persons have been nominated for said positions, the board of supervisors shall appoint any qualified person or persons, and such person or persons shall qualify, take office, and serve exactly as if elected at a general district election.

An act to amend Section 12880 of the Water Code, relating to state financial assistance for local water projects, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 11, 1963. Filed with Secretary of State April 11, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 12880 of the Water Code is amended to read:

12880. In furtherance of the development, control and conservation of the water resources of the State and the State Water Resources Development System it is the policy of the State to provide financial assistance to public agencies for the construction of water projects to meet local requirements in which there is a statewide interest by making grants or loans, or both, and by participating in the construction and operation of water projects, and also to provide financial assistance to public agencies for the preparation of certain feasibility reports on such water projects by making loans, in accordance with this chapter.

(a) As used in this chapter, "project" means any construction or improvement by a public agency for the diversion, storage, or distribution of water primarily for domestic, municipal, agricultural, industrial, flood control or power production purposes. "Public agency" means any city, county, district or other political subdivision of the State. "Feasibility report" means such report on the feasibility of a public agency's proposed project as the department may require the public agency to file with the department in support of an application by the public agency under this chapter for a loan for the construction of the proposed project.

(b) The proposed project may be approved for assistance only if it is determined that the project substantially conforms to the California Water Plan, is engineeringly feasible, economically justified, and, if a loan is proposed, that there is reasonable assurance, commensurate with the need for the proposed project, that the public agency can repay it. A loan for the preparation of a proposed feasibility report on a

proposed project may be approved only if it is determined that there is reasonable assurance that the public agency can repay the loan and only if the agency receives a favorable written reply from the department on a written request for a preliminary determination of eligibility for a loan for the construction of the proposed project filed with the department by the agency under the regulations of the department promulgated pursuant to this chapter.

(c) Grants in furtherance of a project may be made for the following purposes:

(1) For the part of the construction cost of the proposed project properly allocated to the enhancement of fish and wildlife incidental to the primary functions of the project.

(2) For the part of the construction cost of the dam and reservoir of the proposed project properly allocated to recreational functions of statewide interest that are incidental to the primary functions of the project. Such construction costs may include expenditures for lands located above the high waterline of reservoirs which are necessary or desirable for public recreation in connection with the reservoir.

(d) Loans may be made only for projects primarily for domestic, municipal, agricultural, or industrial purposes Such loans may be made for all or any part of the construction cost of any such project but in no event shall any such loan be in an amount which is greater than the portion of the construction cost of the project which the department finds to be beyond the reasonable ability of the public agency to finance from other sources. Such loans shall be repayable over a period not to exceed 50 years. A period of development of not exceeding 10 years may be allowed within such maximum 50-year repayment period, during which no payments on the principal of such loans shall be required, when in the department's judgment such development period is justified under the circumstances.

(e) Loans may be made for all or any part of the cost of the preparation of proposed feasibility reports on proposed projects, but in no event shall any such loan be in an amount which is greater than the portion of the cost of the preparation of the proposed feasibility report which the department finds to be beyond the reasonable ability of the public agency to finance from other sources. Such loans shall be repayable over a period not to exceed 10 years.

(f) If in order to accomplish the objectives of this chapter it is necessary to construct a project that is beyond the requirements of the public agency constructing the project, the State may participate in planning, designing, constructing, operating and maintaining the project, and in financing those costs of the project in excess of the costs necessary to meet the requirements of the public agency, on terms agreed upon with the agency, to the end that the project shall accomplish the maximum water development objectives at a minimum total expenditure.

(g) Applications for loans or grants or financial participation by the State under this chapter shall be made to the department in such form and with such supporting material as may be prescribed by the department. A report on each application shall be prepared by the department and filed with the Legislature. In such reports the department shall make findings as to the nature and extent of the statewide interest in the project, the public necessity for the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project; provided, that in the case of reports on applications for loans for the preparation of proposed feasibility reports, in lieu of the above findings, the department shall make findings with respect to the public necessity for and urgency of need of the proposed project and the ability of the applicant to repay the requested loan for the preparation of the proposed feasibility report.

(h) Notwithstanding any provision of law to the contrary, every public agency empowered by law to construct and operate a project, as defined in subdivision (a) of this section, is hereby granted, in addition to and not in derogation or limitation of the powers conferred upon the public agency by any other law, the power:

(1) To borrow money from and repay the same with interest to the State in accordance with this chapter on behalf of the entire public agency or of any portion or portions thereof for which the law applicable to the agency authorizes an indebtedness or liability to be incurred, including any improvement district, distribution district, or zone within the public agency, notwithstanding any debt limitation or other provision in the law applicable to such agency which might otherwise preclude or limit such borrowing.

(2) To enter into a contract with the department, on behalf of the entire public agency, or of any portion or portions thereof referred to in paragraph (1) of this subdivision (h), for a loan or grant under this chapter or for participation by the State in a local project under subdivision (f) of this section and to use the loan or grant contracted for as an additional or alternative means of financing the project proposed by the public agency.

(3) To comply with the provisions of any contract entered into with the department under this chapter, including any provision which obligates the public agency, or any specified portion or portions thereof, to meet all commitments, financial or otherwise, undertaken by the public agency in such contract notwithstanding any individual default by its constituents or others in the payment to the public agency of taxes, assessments, tolls, or other charges levied by the public agency.

(4) To include recreation and enhancement of fish and wildlife, or either of them, as functions incidental to the primary functions of a project which the public agency is empowered by law to construct and operate, and to construct and operate the project for such incidental recreation and enhancement of

fish and wildlife functions, or either of them, in accordance with the provisions of a grant contract entered into with the department, including provisions for public use of the project facilities for fishing and other recreational activities

(6) To annually levy or cause to be levied upon all property in the public agency, or in any portion or portions thereof, subject to taxation or assessment by the public agency an ad valorem tax or assessment, based upon the assessed valuation of such property, necessary and sufficient to meet all commitments, financial or otherwise, of the public agency that are set forth in any contract which the agency enters into with the department under this chapter, in addition to any other taxes or assessments which the public agency is authorized to levy or cause to be levied on such property and notwithstanding any provision in the law applicable to such agency which might otherwise preclude or limit such taxing or assessing. Where the law applicable to such public agency does not set forth a procedure for levying and collecting taxes or assessments on an ad valorem basis, such public agency shall utilize the procedure for levying and collecting taxes for the payment of principal and interest on general obligation bonds of municipal water districts, set forth in the Municipal Water District Act of 1911 (Chapter 671, Statutes of 1911), as it may now or hereafter be amended, for the purpose of levying and collecting taxes or assessments necessary and sufficient to meet commitments in a contract entered into under this chapter.

(7) To make charges for the furnishing of services from the project for which the public agency receives financial assistance under this chapter and to pledge and use any or all revenues received from the collection of such charges for the purpose of meeting the commitments, financial or otherwise, of the public agency that are set forth in any contract which the public agency enters into with the department under this chapter

(8) To perform all acts and do all things that are necessary or convenient to carry out the above powers.

(i) Except in the case of a grant to a public agency where the applicable law contains provisions for the election of the members of the governing body of the agency or where a county board of supervisors acts as the governing body of the agency, before a public agency may enter into a contract with the department for a construction loan or a grant under this chapter, the public agency shall hold an election on the proposition of whether or not the public agency shall enter into the proposed contract and more than 50 percent of the votes cast

at such election must be in favor of such proposition; provided, that if a higher percentage of favorable votes is required for the issuance of any bonds by the public agency or is required by the Constitution before the public agency may incur an indebtedness, such higher percentage shall apply in lieu of the percentage set forth in this subdivision. Such election shall be held in accordance with the following provisions:

(1) The procedure for holding an election on the incurring of bonded indebtedness by such public agency shall be utilized for an election on the proposed contract as nearly as the same may be applicable. Where the law applicable to such agency does not contain such bond election procedure, the procedure set forth in the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) Part 1, Division 2, Title 5 of the Government Code), as it may now or hereafter be amended, shall be utilized as nearly as the same may be applicable.

(2) No particular form of ballot is required.

(3) The notice of the election shall include a statement of the time and place of the election, the purpose of the election, the general purpose of the contract, and the maximum amount of money to be borrowed from the State under the contract.

(4) The ballots for the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of the election, shall state the maximum amount of money to be borrowed from the State under the contract, and shall contain the words "Execution of contract—Yes" and "Execution of contract—No."

(5) The election shall be held in the entire public agency except where the public agency proposes to contract with the department on behalf of a specified portion, or of specified portions, of the public agency, in which case the election shall be held in such portion or portions of the public agency only.

(j) Every public agency is hereby granted the power to bring an action in the superior court of the county in which the office of such agency is situated to determine the validity of any contract made with the department under this chapter and the authority of the public agency to enter into the contract. The action shall be had as in the case of the judicial determination of the validity of the public agency's bonds, as nearly as the same may be applicable, and with like effect. Where the law applicable to such agency does not set forth a procedure for the judicial determination of the validity of the public agency's bonds, the action shall be had as in the case of the judicial determination of the general obligation bonds of irrigation districts under the Irrigation District Law (Division 11 (commencing with Section 20500) of this code, as it may now or hereafter be amended, as nearly as the same may be applicable, and with like effect.

The people of the State of California do enact as follows:

SECTION 1. Section 19615.5 of the Education Code is amended to read:

19615.5. The provisions of this section shall apply: (1) to any school district which has succeeded to and become vested with all duties, powers, purposes, jurisdiction, and responsibility with respect to a portion of an apportionment determined or redetermined to have been expended, or to be expendable, for property acquired or to be acquired by it, and which has become liable for a portion of the annual repayment of a portion of an apportionment, as provided in Sections 19662; and (2) to any state-aided district a portion of the territory of which was transferred to a district described in

(1), above, and in connection with which territory a portion of an apportionment made to such state-aided district has or will be expended for property acquired or to be acquired.

If, on or before June 30th of any fiscal year, the governing board of any such school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, once filed with the State Controller, shall remain in effect in each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district during the fiscal year in which the annual repayment is to be deducted pursuant to Section 19611, for the payment of principal and interest on: (a) that portion of the annual repayment and all other payments due the State under Section 19604 and other provisions of this chapter with respect to the portion of the apportionment for which the district has been determined to be liable under Section 19662; (b) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter; (c) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter; and (d) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under this chapter for such grade level.

There shall be computed the amount which would be produced by a tax of forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation of the district during such year, to be known as the "40-cent tax amount." The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 40-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of Finance to, and the Director of Finance shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 19604, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 19614 there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 19614 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 19616.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

A state-aided school district, which has lost territory in connection with which an acquiring district has assumed a portion of a state school building aid repayment obligation, may upon receiving subsequent building aid loans, incur excessive repayment obligations because additional new bonded indebtedness incurred is not includable in modifying the repayment computation for the earlier apportionment. It is necessary that the law be revised to make adequate provision for adjusting repayment computations to eliminate this inequity. Because one or more school district reorganization proposals are to be submitted to the district electors in the immediate future it is necessary that this act take effect immediately.

CHAPTER 98

An act to add Article 15 (commencing with Section 6450) to Chapter 6 of Division 6 of the Education Code, relating to special educational programs for culturally disadvantaged children, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 17, 1963. Filed with Secretary of State April 19, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Article 15 (commencing with Section 6450) is added to Chapter 6 of Division 6 of the Education Code, to read:

Article 15. Special Compensatory Educational Programs for Culturally Disadvantaged Children

6450. This article may be cited as the McAteer Act.

6451. The Legislature finds and declares that because of home and community environmental conditions which give rise to language, cultural, and economic disadvantages, the latent talents of many minors in the elementary and secondary schools in the State remain undiscovered and are not adequately developed by the general educational programs afforded by the public school system. It is the intent and purpose of the Legislature to encourage the establishment and development of programs by local officers and agencies of the public school system directed to identifying those pupils affected by language, cultural, and economic disadvantages who are potentially capable of completing the regular courses of instruction leading to graduation from the public elementary and secondary schools, and by special services, techniques, and activities to stimulating their interest in intellectual, cultural and educational attainment. The Legislature finds that such special undertakings are essential to the conservation and development of the cultural, economic, and intellectual resources of the State and nation. The provisions of this article shall be liberally construed to carry out these intents and purposes.

6452. As used in this article, the following definitions shall, unless the context otherwise requires, govern the meanings of terms:

(a) A "culturally disadvantaged minor" is a minor who:

(1) Is enrolled or required to be enrolled in any one of grades kindergarten through 12 in the public schools.

(2) Is potentially capable of successfully completing a regular educational program leading to graduation from the public elementary or secondary school in which he is enrolled or required to be enrolled.

(3) Is, because of home and community environment, subject to such language, cultural, economic, and like disadvantages as will make improbable his completion of the regular program leading to graduation without special efforts on the part of public school authorities, over, above, and, in addition to those involved in providing the regular educational programs, directed to the positive stimulation of his educational and cultural propensities.

(b) A "program for compensatory education" is an undertaking by any school district maintaining any of grades kindergarten through 12, which is over, above, and in addition to, the regular educational programs of the district, having the purpose of providing positive stimulation of the educational and cultural propensities of culturally disadvantaged minors, and which embodies a positive plan for the identification of culturally disadvantaged minors and any one or

more of the following elements designed to meet the needs of such minors:

(1) Individualized psychological evaluation.

(2) Individualized instruction.

(3) Remedial assistance.

(4) Dissemination of educational and career information.

(5) Broadening of cultural experience.

(6) Working relationships with and the enlistment of the encouragement and support of persons in the home of such minors.

(7) Teaching English as a second language.

(8) Intensified guidance and counseling of such minors and persons in the homes of such minors.

(9) Liaison with the community and nonschool agencies who may render assistance, including local public and private welfare agencies and organizations.

(10) Activities involving motivation and stimulation of the minors' educational and cultural propensities.

(11) Development of community leadership aimed at achieving co-operation with the school district among those families and groups for whom the program is designed.

6453. The standards to be used to evaluate a program for compensatory education shall include the following:

(a) The existence of residential areas within the school district likely to produce substantial numbers of culturally disadvantaged children, which areas may properly be characterized as slum or depressed urban areas, areas of retarded socioeconomic development, remote rural areas, areas including impoverished homes, areas with concentrations of non-English-speaking populations, Indian reservations, areas with concentrations of recent in-migrant families, areas with concentrations of migrant farm families, areas with concentrations of low-income racial and nationality minority populations.

(b) The general adequacy of the program in terms of the degree to which talent, knowledge, and information has been mobilized, precision in the definition of objectives and the particular types of services, activities, and identification methods to be utilized, the projected term of the undertaking with reference to time required to accomplish objectives, and the measures provided to enable periodic evaluations of accomplishments.

(c) The operational promise of the program in terms of the adequacy of the district's facilities and resources to carry it out, the background and competency of program supervisors and personnel and any special training previously afforded them, and the degree to which the program is likely to enhance the skill and competency of supervisors and personnel in achieving the objectives of the program or other such programs.

(d) The economic efficiency of the program in terms of specific district expenditures actually being made over and above those incurred in carrying out the regular educational program, the justification of expenditures by procedures to be followed, the existence of a direct relationship between proposed expenditures and anticipated results, and the adequacy of financing to accomplish stated objectives.

(e) The extent to which the program will serve to facilitate the development of data and information which will serve to increase the general effectiveness of programs for education of culturally disadvantaged minors.

6454. The State Board of Education shall establish within the Department of Education the office of Consultant on Compensatory Education. The chairman of the Advisory Committee on Compensatory Education shall appoint a Consultant on Compensatory Education, subject to approval by a majority vote of the members of the Advisory Committee on Compensatory Education. The Department of Education shall provide the Consultant on Compensatory Education with such facilities and technical and clerical assistance as will enable him to carry out duties assigned to the department under the provisions of this article.

6455. The office of Consultant on Compensatory Education shall serve and shall act as an advisor and consultant within the Department of Education for purposes of carrying out the provisions of this article.

The office shall conduct continuing research and study of the subject of programs of compensatory education, involving not only the examination and evaluation of programs established under the provisions of this article but comparable undertakings in other states, to the end of effecting improvement in the administration of the programs for compensatory education established under the provisions of this article. He shall serve as a clearing house and center of information, and shall issue and disseminate to school districts participating in programs established under this article or otherwise affected by problems presented by the presence of culturally disadvantaged minors anywhere, such publications and results of investigations as will tend to foster the establishment of sound programs for compensatory education and to enhance their effectiveness.

The office of Consultant on Compensatory Education shall have overall direction of programs of compensatory education, and shall take action necessary to co-ordinate the programs established throughout the State.

6456. The governing board of any school district may provide programs for compensatory education for culturally disadvantaged minors residing in the district. The governing board may, subject to such terms or conditions as may be agreed upon, contract with any other school district or with the county superintendent of schools for furnishing programs for such minors. The governing board of a school district or any county superintendent of schools may contract with any

public or private university or college for services or other assistance in establishing or conducting a program for compensatory education.

6457. The Superintendent of Public Instruction may agree with school districts and county superintendents of schools to jointly conduct compensatory education programs and to conduct research and evaluation projects related to such programs. From moneys specially appropriated therefor, he may make grants to school districts and county superintendents of schools with whom he has entered into such contracts, to reimburse them for a portion of the excess expense incurred in conducting such programs. Grants for such reimbursement shall, during any school year, in no event exceed two-thirds of such excess expense and shall in no event exceed the rate of twenty-four dollars ($24) per culturally disadvantaged minor fully participating in a program for the entire school year.

For purposes of selection of programs of compensatory education with respect to which he may enter into contracts with school districts or county superintendents of schools and provide grants of state funds, the Superintendent of Public Instruction may array or rank programs with reference to the standards prescribed by subdivision (b) of Section 6452, and by Section 6453. For the first two school years following the effective date of the provisions of this article he shall, for those purposes, give special weight to the standards prescribed by subdivision (e) of Section 6453.

6458. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article, including rules and regulations which:

(a) Prescribe the procedure by which a district shall identify culturally disadvantaged minors.

(b) Establish minimum standards for programs.

(c) Require the submission of such reports by school districts as will permit the evaluation of the programs of compensatory education and the accumulation of data and information which will be useful in developing suggestions, policies, and requirements for improvement of such programs generally.

6459. The Superintendent of Public Instruction shall adopt rules and regulations necessary to enable him to carry out his duties and responsibilities under this article, including the definition of "excess expense" of programs of compensatory education.

6460. There is in the state government the Advisory Committee on Compensatory Education. It shall be comprised of 17 members. Eleven of the members shall be appointed by and serve at the pleasure of the Governor, and shall be selected by him on the basis of their demonstrated interest in the problems of culturally disadvantaged minors. Six of the members appointed by the Governor shall be selected from among persons in administrative and teaching or academic positions in the public school system or in public higher education, and five shall be selected from the public generally.

6460.1. The other six members shall consist of two Members of the Assembly appointed by the Speaker, two Members of the Senate appointed by the Senate Committee on Rules, and two lay members, one each appointed by the Speaker of the Assembly and the Senate Committee on Rules.

The Members of the Legislature appointed to the committee shall participate in the activities of the committee to the extent that such participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this act, such Members of the Legislature shall constitute a joint interim investigating committee on the subject of this act and as such shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and Assembly.

6460.2. The chairman and vice chairman of the committee shall be designated by the Governor from among the 17 members.

6460.3. The members of the committee shall serve without compensation, but shall be reimbursed for necessary traveling and other expenses incurred in performing their duties and responsibilities.

6460.4. The committee shall serve as an advisory body to the State Board of Education and the Superintendent of Public Instruction and shall formulate and present such policy recommendations as it determines will effect statewide co-ordination of programs for education of culturally disadvantaged minors and otherwise render more effective the implementation of the provisions of this article.

6460.5. All meetings of the committee shall be open and public, and all persons shall be permitted to attend any meetings of the committee.

SEC. 2. This act shall be operative on and after a date prescribed by the State Board of Education which date may be no earlier than the effective date of necessary implementing regulations adopted by the board.

SEC. 3. The provisions of this act shall terminate on June 30, 1965, and it is the intention of the Legislature that after such date no funds shall be expended for programs for the education of culturally disadvantaged minors or for positions established by or pursuant to Section 6454 of the Education Code, unless continued following legislative review of the program.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that state financial and technical assistance may be provided, commencing with the 1963-64 school year, for the establishment and operation of the urgently needed programs for culturally disadvantaged minors, it is necessary that this act take immediate effect.

The people of the State of California do enact as follows:

SECTION 1. In enacting this act it is the purpose of the Legislature to draw together various sections relating to junior

colleges and place them, without substantive change, in a separate division. The sections of law added or amended by this act, insofar as they are substantially the same as existing statutory provisions relating to the same subject matter shall be construed as restatements and continuations and not as new enactments.

SEC. 2. Division 18.5 (commencing with Section 25410) is added to the Education Code, to read:

DIVISION 18.5. JUNIOR COLLEGES

CHAPTER 1. GOVERNING BOARDS

Article 1. Composition and Organization

25410. In any junior college district coterminous with a single high school district, of any type, the governing board of the high school district shall constitute the junior college board and after organizing as a junior college board shall have the management and control of the junior college in the district.

25410.5. In every junior college district which was divided into five wards on or before September 7, 1955, one member of the board shall be elected from each ward by the registered voters of the ward. On or before January 1st of a fiscal year the governing board of the district may rearrange the boundaries of the wards to provide for representation in accordance with population and geographic factors or may abolish the wards.

25411. The county committee on school district organization, upon petition of the governing board of any junior college district, may provide for trustee areas in junior college districts or the rearrangement of trustee areas in the same manner as trustee areas may be provided for in unified districts under Sections 3128 to 3134, inclusive. The governing board of a junior college district shall be composed of five or seven members elected for a four-year term when trustee areas are provided under this section.

25411.5. In every junior college district formed pursuant to Chapter 2 (commencing with Section 25430) of this division, there shall be a governing board of five members elected at large from the district to serve a term of four years, except that if trustee areas are formed the governing board shall consist of a member from each trustee area elected by the voters of the entire district.

25412. Upon the formation of a junior college district the county superintendent of schools having jurisdiction shall call and set the date of an election for the purpose of electing the governing board of the district. Such call shall be issued not later than 30 days after the formation of the district. The election shall be called, held, and conducted as are elections for members of governing boards of elementary school districts.

25412.5. The first members of the governing board shall take office on the third Monday following their election. The term of office of subsequent members of the board shall begin on July 1st following their election.

25413. At the initial meeting of the governing board of a newly formed junior college district it shall elect one of its members as chairman, and shall designate a secretary.

When the number on the governing board is five the term of office of each member of the first governing board shall be determined by lot. The term of two members shall expire on June 30th of the next succeeding odd-numbered year following their election and the term of three members shall expire on June 30th of the second succeeding odd-numbered year following their election.

In the event that provision is made for a governing board of seven members, the governing board shall determine by lot the term of office of each member of the first governing board. The term of three members shall expire on June 30th of the next succeeding odd-numbered year following their election and the terms of four members shall expire on June 30th of the second succeeding odd-numbered year following their election.

25413.5. Any vacancy on the governing board of a junior college district shall be filled by appointment of the remaining members of the board for the remainder of the unexpired term. If the remaining members of the board fail to agree within 60 days, the county board of education shall appoint a person to fill the vacancy for the remainder of the unexpired term.

25414. Governing board members may be recalled in the manner provided in Sections 1261 to 1285, inclusive.

25414.5. In any junior college board member election including recall elections, at least one polling place in each of the elementary and unified school districts located in the junior college district shall be designated; provided, that, except when a consolidated election is being conducted in which the suspended district participates, a suspended elementary school district may be combined with a contiguous elementary school district for the purpose of the election and the voters of both shall vote at the polling place designated in the active school district.

25415. Within 20 days after the appointment of the junior college board provided for by Section 25411.5, the county superintendent of schools having jurisdiction shall call a meeting of the board by giving at least 10 days' notice by registered mail to each member, for the purpose of organizing the junior college board.

25415.5. At the meeting the junior college board shall organize by electing a president from its members and a secretary, and may transact any other business relating to the affairs of the junior college district.

25416. Junior college boards shall meet on the first day in July of each year at 11 o'clock a.m., and organize by electing a president from its members, and a secretary.

Any junior college board may, at a meeting held between May 15 and June 15, determine that the meeting on the next succeeding July 1 shall be held at some other time than 11 a.m. In case such action is taken, the clerk of the board shall notify in writing all members and members-elect of the time of the July 1 meeting and shall also publish this action of the governing board.

Article 2. Powers and Duties

25420. Every junior college board shall hold regular monthly meetings at such times as may be provided in the rules and regulations adopted by them for their own government, except that in junior college districts composed of two or more high school districts, the regular meetings may be quarterly.

25420.5. Special meetings may be held at the call of the president of the board or upon a call issued in writing and signed by a majority of the members of the board, except that by unanimous consent a special meeting may be convened at any time.

25421. The date set for special meetings shall be at least 24 hours subsequent to the completion of the call.

25421.5. No business shall be transacted at a special meeting other than that specified in the call, except that by unanimous consent any business matter may be transacted at any special meeting.

25422. Except as otherwise provided in this section, all meetings of the junior college board shall be held at the junior college building. If no junior college building exists in the district, or if the junior college consists of a single high school district, the junior college board may meet at any place in the district as it may by resolution determine.

If the junior college district consists of more than one high school district, or of more than one unified district, or of at least one high school district and one unified district, the junior college governing board may meet at any high school building in any of such districts, if a notice identifying the high school building in which the meeting will be held and the time and date of the meeting therein is posted in each junior college maintained by the district at least 30 days prior to the meeting and remains so posted to and including the time of the meeting.

25422.5. Except as otherwise provided in this code, the powers and duties of junior college boards are such as are assigned to high school boards.

25423. The governing board of any school district which maintains a junior college may rent or purchase academic caps and gowns for faculty use at ceremonies.

25423.5. The governing board of a district maintaining a junior college may employ as a junior college teacher of an academic subject matter area or areas a person who does not hold a credential issued by the State Board of Education authorizing such service if the person has been granted a master's degree or a doctor's degree in the academic subject matter area for which he is employed to teach. No such person shall teach classes in grades below grades 13 and 14 in any junior college. No such person shall be employed for an aggregate period which is greater than three school years unless he fulfills the requirements of Section 13132 and of subdivision (c) of Section 13193.

No person shall be employed pursuant to this section until he has complied with the prerequisites to issuance of a certification document prescribed by Sections 13121, 13123, 13124, 13126, and 13127, and no person shall be so employed who has been determined to come within any of the provisions of Section 13129 or Section 13130. The State Board of Education shall make necessary provision for enforcing compliance with the preceding sentence.

The governing board of each school district maintaining a junior college shall, in the manner and form prescribed by the State Board of Education, promptly after the close of each school year file with the Department of Education a report identifying each person employed pursuant to this section during the preceding school year and certifying that all applicable laws, rules, and regulations were complied with in his employment. The Department of Education shall compile and maintain a roster of the individuals employed under this section, to be utilized in administering the provisions of this section.

Any person employed pursuant to this section shall be deemed to be a certificated employee in a position requiring certification qualifications for all purposes.

For the purposes of this section "academic subject matter area" shall have the meaning set forth in Section 13188.

25424. The governing board of any district maintaining a junior college may accept on behalf of, and in the name of, the district such gifts, donations, bequests, and devises as are made to the district for junior college purposes or to or for the benefit of any junior college administered by the district. Such gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the governing board may prescribe. In no event shall the approval of any state agency be a prerequisite to acceptance of such a gift, donation, bequest, or devise. No real or personal property, including money, accepted by a governing board pursuant to this section shall be considered in determining the eligibility of the district for an apportionment from the State School Fund nor in determining the amount thereof.

CHAPTER 2. DISTRICT ORGANIZATION

Article 1. Standards for Formation of Junior College Districts and Maintenance of Additional Junior Colleges

25430. Upon receiving a petition for the formation of a junior college district, the State Board of Education shall submit a copy of the petition to the Coordinating Council for Higher Education.

25430.5. Within 90 days after receiving a copy of the petition, the Coordinating Council for Higher Education shall prepare and transmit to the State Board of Education a report on the proposal including the recommendations, if any, of the council concerning the proposal.

The report of the council is advisory only. The State Board of Education may approve or disapprove a petition for the formation of a junior college district before or after receiving the report of the council.

25431. Except as provided in Section 25432.5, no junior college district shall be formed, and the State Board of Education shall not approve a petition to form a junior college district if the estimated potential average daily attendance of the district is less than 1,000 units of average daily attendance.

25431.5. Except as provided in Section 25432.5, no junior college district shall be formed and the State Board of Education shall not approve a petition to form a junior college district if the assessed valuation of taxable property in the proposed district is less than one hundred fifty thousand dollars ($150,000) for each unit of estimated potential average daily attendance. For the purposes of this section, the assessed valuation of the territory in the district shall be that shown by the last equalized assessment roll of the county or counties in which the district will be located as of the time the petition to form the district is presented to the State Board of Education.

25432. For the purposes of Sections 25431 and 25431.5, the estimated potential average daily attendance means the estimate made pursuant to this section.

For each petition for the formation of a junior college district, the Department of Education shall estimate the attendance of resident pupils who will be in grades 13 and 14 of the proposed district during the second school year after the date the district is in existence for all purposes.

As used in this section, "resident pupils" means pupils who reside or will reside in the proposed district.

25432.5. If the State Board of Education determines that the proposed district will serve an area which is isolated from other existing junior colleges or if existing junior colleges are inaccessible to residents of the area to be served, the State Board of Education may approve the formation of a new district junior college with a smaller estimated potential aver-

age daily attendance or assessed valuation for each unit of estimated potential average daily attendance than that required by Sections 25431 and 25431 5.

25433. This article does not apply to the formation of a new junior college district which consists wholly or partially of territory of a unified district or union high school district maintaining a junior college on September 15, 1961.

Article 2. Formation

25435. Junior college districts shall be formed pursuant to this article.

25435.5. "High school district," as used in this chapter, means high school district or unified school district.

25436. A junior college district shall include all the territory in one high school district or in two or more contiguous high school districts.

25436 5. A junior college district may also include all the territory in one or more high school districts and one or more unified school districts if all such districts are contiguous.

25437. A junior college district may be formed to include all the territory of an existing junior college district and one or more high school districts if all such districts are contiguous.

25437.5. The State Board of Education shall establish minimum standards for the formation of junior college districts.

25438. The governing board of any high school district or the governing boards of two or more contiguous high school districts, or the governing board of an existing junior college district and the governing board of one or more contiguous high school districts, may present to the State Board of Education a petition in the form prescribed by the Superintendent of Public Instruction, asking permission to call an election for the formation of a junior college district to include all the territory in the high school district or districts, as the case may be. The petition may include a proposal to form trustee areas in the proposed junior college district, and shall state whether five or seven members shall constitute the governing board of the district if formed. The Superintendent of Public Instruction shall make or cause to be made a survey of the proposed junior college district and of high school districts contiguous to the proposed junior college district, which may appropriately be included in the proposed district and the proposal to form trustee areas

25438 5. The cost of the survey shall be borne by the high school district, the governing board of which signed the petition, or, if there are two or more high school districts petitioning the cost shall be borne by the high school districts in proportion to their assessed valuation. The cost of the survey to a high school district is a proper charge against the maintenance fund of the district.

25439. Upon the completion of the survey the Superintendent of Public Instruction shall report the findings to the State Board of Education together with his recommendations as to the action to be taken on the petition.

25439.5. If the State Board of Education approves the petition, it shall within 30 days after approval notify the superintendent of schools of the county in which the greatest area of the proposed junior college district lies.

25440. Within 30 days after receiving the notice the superintendent of schools of the county within which the greatest area of the proposed junior college district lies, shall call an election to be held in every elementary district and unified district in the proposed junior college district. He shall establish one or more precincts in each elementary or unified district and appoint three qualified electors in each precinct to conduct the election.

25440.5. The election shall be called by posting notices in three public places in each district, one of which shall be a public schoolhouse of the district, at least two weeks before the election, and by publishing the notice at least once a week for two successive weeks in a newspaper having a general circulation in the proposed junior college district. The first publication shall be not less than two weeks before the election. The notice shall specify the polling places, and, in cities, the precinct lines.

25441. The expenses of printing notices and ballots and other necessary expenses incurred in the calling, holding, and conducting of the election shall be paid by the board of supervisors out of the county general fund.

25441.5. The election shall be held separately and simultaneously at a public schoolhouse in each elementary school district or in each precinct, and shall be conducted in the manner provided for conducting elections of governing boards of elementary school districts.

25442. The ballots used at the election in each district shall contain the words "Junior college district—Yes" and "Junior college district—No." Each elector voting at the election shall make a cross with a pencil, ink, or rubber stamp after the answer he desires to give.

25442.5. The election officers in each district or precinct shall canvass the vote of the election as soon as the polls are closed. They shall report the result to the superintendent of schools who called the election within five days after the election.

25443. Within 10 days after receiving the returns of the election, the superintendent of schools shall combine the votes "for" and the votes "against" the formation of the junior college district and declare and record the result, with the details of the vote in each district, in a book kept by him for that purpose.

25443.5. If a majority of the votes cast at the elections is in favor of the formation of the junior college district, he

shall file with the county clerk of the county or of each of the counties in which the proposed junior college district lies, a certificate showing the total number of votes cast in each district in favor of the junior college district, the total number of votes in each district against the junior college district, the aggregate result of the election, and the boundaries of the proposed district.

25444. If it appears from the certificate filed by the superintendent of schools that a majority of the votes cast at the election is in favor of the formation of the junior college district, the junior college district is formed effective as provided in Sections 1601 and 1603 of this code. The county clerk shall record the certificate in full in his record of school districts.

25444.5. If a unified district is formed to include a city high school district and the boundaries of the high school district are coterminous with a junior college district and with the boundaries of the newly formed unified school district, the junior college district shall remain a separate district and shall not become an integral part of the unified district.

This section applies only to a unified district heretofore or hereafter formed, the formation of which will be effective for all purposes on July 1, 1961.

The governing board of the unified district shall constitute the governing board of the junior college district, and after organizing as a junior college board shall have the management and control of the junior college district, provided, however, should any territory be included within the boundaries of such junior college district by annexation thereto or by change of boundaries thereof, which territory is not included within the unified district, such junior college district shall be governed by a board of five members who shall be elected in the same manner, for the same terms, and at the same time as are members of the governing boards of other junior college districts. Within 15 days after the effective date of the annexation or change of boundaries for the purpose of electing members of the governing board, the county superintendent of schools having jurisdiction over the junior college district shall call an election. The election shall be called and conducted pursuant to Section 937 of this code.

A junior college district remaining a separate district pursuant to this section shall not be deemed a newly created district within the meaning of Chapter 8 (commencing with Section 54900), Part 1, Division 2, Title 5 of the Government Code.

25445. Upon the formation of a junior college district the boundaries of which are coterminous with the boundaries of a single existing high school district of any type and which said districts are thereafter governed by governing boards of identical personnel, if prior to the formation of such junior college district the voters of the high school district at an election had voted a district tax rate in excess of the maximum rate pre-

scribed by Section 20751 of this code such excess tax rate shall be continued at the option of the governing boards of the high school and junior college districts as the maximum combined tax rate of both of said districts for combined high school and junior college purposes for a period not to exceed the period of time for which such excess tax rate was so previously authorized by the voters of the high school district.

25445.5. Every junior college district formed under the provisions of this article shall be given the name selected for it by the governing board of the district and shall be designated as the "_____ (using the name of the district) Junior College District." In the name by which the district is so designated the district and its governing board may sue and be sued and hold and convey property for the benefit of the district.

Article 3. Formation From Unified Districts

25447. A junior college district may be formed to comprise two or more unified school districts in the same manner as the formation of other junior college districts, except that a majority vote in favor of the formation of the district in each unified school district is required.

25447.5. Each junior college district comprising two or more unified school districts shall be governed by a board of five members who shall be elected in the same manner, for the same terms, and at the same time as are members of governing boards of other junior college districts.

Within 15 days after the formation of a junior college district comprising two or more unified school districts, the county superintendent of schools having jurisdiction over the junior college district shall appoint a board of five members to govern the district until the next succeeding election.

25448. Each unified school district created under Sections 1481 to 1493, inclusive, Sections 2811 to 2931, inclusive, and Sections 813, 13005, 13554 and 21802 which includes a junior college district shall be considered as a junior college district for purposes of the apportionment of state junior college funds and for purposes of nonresident county junior college tuition.

25448.5. A junior college district may be formed to comprise a single unified school district in the same manner as the formation of other junior college districts, except that a majority vote in favor of the formation of the district is required.

25449. A junior college district formed to comprise a single unified school district shall be considered a junior college district only for the purposes of State apportionments and nonresident county junior college tuition. For all other purposes it shall be considered an integral part of the unified school district and shall be governed by the governing board of the unified school district.

Article 4. Separation of Junior College From High School or Unified District and Formation of a New Junior College District

25451. As used in this article:

(a) "County committee" means the county committee on school district organization of any county in which a junior college is maintained by a school district.

(b) "Junior college" means a public institution of higher learning offering a regular daytime program of instruction in grades 13 and 14 and any night school or ungraded classes maintained in connection with the regular daytime program. When the term "junior college" is used in connection with a high school district or unified district maintaining a four-year junior college pursuant to Section 25501 or any other law, the term shall be deemed to refer to that portion of the four-year junior college which is included in the definition set forth in the first sentence of this subdivision.

25451.5. On or after July 1, 1963, the county committee may, and upon the petition of 10 percent of the registered voters residing in a high school district or unified district maintaining a junior college, shall, adopt a resolution directing the county superintendent of schools to call an election to form a new junior college district to include all the territory of the high school district or unified district and hold an election on the same date to elect members of the governing board of the new district. No person shall be eligible for the board who is at the same time a member of the governing board of another school district. The committee shall transmit a copy of the resolution to the county superintendent of schools.

25452.5. The county superintendent of schools shall call the election to be held at a date which is not more than 90 days from the date of the adoption of the resolution. There shall be included in the boundaries all of the territory of the high school district or unified district maintaining a junior college. The committee may include additional territory. The boundaries shall be set forth in the resolution directing the superintendent to call the formation election. The county committee shall determine whether the governing board of the proposed district shall consist of five or seven members and shall prescribe the number in the resolution.

25453 5. If it appears from the certificate filed by the county superintendent of schools pursuant to Section 25443.5 that a majority of the votes cast at the election on the formation of the district is in favor of the formation, the county clerk shall file the certificate in full in his record of school district. The action to form a junior college district shall be complete upon such filing. The action shall become effective for all purposes on the next succeeding July 1 if it is completed prior to February 1 of a school year, and if not so completed, the action shall become effective on the second next succeeding July 1. For the purposes enumerated in Section 1603 the action shall be effective on the date the action is completed.

After the expiration of one year from the date of the filing, the certificate shall be conclusive evidence that the junior college district has been legally organized or the boundaries of the district legally changed, as the case may be, and no suit shall be maintained which questions the validity thereof.

25454. No apportionment of funds from the State School Fund shall be made to the high school district or the unified district on account of pupils attending junior college in such district during the school year in which the new junior college district becomes effective for all purposes or thereafter.

25457.5. The county committee on school district organization of each county shall prepare plans and recommendations for the formation of one or more junior college districts in the county. (3) Form with other contiguous high school districts a separate junior college district, provided that the assessed valuation of such proposed junior college district shall be not less than fifty million dollars ($50,000,000), and that no fewer than 400 pupils shall be enrolled therein.

As used in this section, high school district does not mean unified district.

25461.5. The initiation of proceedings referred to in Section 25461 shall be undertaken and completed in any of the following ways:

The petition shall be accompanied by an agreement, signed by a majority of the members of the governing board of the junior college district to which annexation is desired, and by a majority of the trustees of the high school district, consenting to the annexation and setting forth

the terms of the annexation. The superintendent of schools shall, after verifying the signatures and finding them sufficient, transmit the petition and agreement to the board of supervisors of his county with his recommendations.

25465.5. The board of supervisors, after receiving the petition and agreement, and the recommendation of the superintendent, may make an order annexing the high school district to the junior college district upon the terms agreed on.

25466. Whenever it appears that the terms agreed upon by the trustees of the high school district seeking to be annexed and the junior college board include the assumption by the high school district of its pro rata portion of any bonded indebtedness existing against the junior college district, the board of supervisors shall call an election in the high school district proposing to assume the indebtedness for the purpose of determining whether the indebtedness shall be authorized and assumed.

25466 5. The election shall be held in the same manner as are elections for the issuance of high school district bonds, except that the returns shall be made to the board of supervisors.

25467. If it appears from the returns of the election that two-thirds of the votes cast at the election are in favor of the assumption by the district seeking to be annexed of its pro rata portion of the bonds, the high school district shall be annexed to the junior college district.

25467.5. If the bonded indebtedness is assumed by the annexed high school district, all levies of taxes made for the payment of the bonds and interest thereon, shall be upon the property of the annexed high school district at the same rate as levied upon the property of the original junior college district.

of schools of which has jurisdiction over the high school district, to annex the high school district to the junior college district.

Where a junior college was maintained by a high school district which has been formed as a junior college district or portion thereof, the governing board of the junior college district so formed may petition the board of supervisors of the county, the superintendent of schools of which has jurisdiction over another high school district, to annex such other high school district if it does not maintain its own junior college and if it is contiguous to the junior college district and the principal of the junior college presents to the governing board of the junior college district a statement, made under oath, that the average daily attendance in the junior college of pupils whose parents reside in such other high school district was three or more for the two school years next preceding, setting forth the names of the pupils.

25470 5. Upon presentation of the petition, accompanied by the sworn statement of the principal of the junior college concerning the attendance and residence of the pupils, and the verification of the facts by the county superintendent of schools having jurisdiction over the junior college district, the board of supervisors shall set the petition for hearing at a regular meeting of the board and shall publish in a newspaper of general circulation in the county once each week for at least two weeks prior to the hearing a notice containing a general statement of the purpose of the petition and the time and place when and where the petition will be heard The clerk of the board of supervisors shall mail a copy of the notice to each of the trustees of the high school district at least 10 days prior to the hearing.

25471. The board of supervisors shall at the time and place named in the notice meet to receive any protest which interested persons may present. If no protest is filed it shall make an order annexing the high school district to the junior college district.

25471.5. If a petition protesting against the annexation, signed by 20 percent or more of the qualified electors of the high school district, as shown by the affidavit of one of the petitioners, is filed at the meeting, the board of supervisors shall order an election to be held in the high school district within 30 days after the making of the order, to determine the question. The election shall be called and held in the same manner as the elections for high school district bonds, except that the words to appear upon the ballot shall be "For annexation to (insert name of) junior college district—Yes" and "For annexation to (insert name of) junior college district—No," and except that the returns shall be made to the board of supervisors.

25472. If it appears that a majority of the votes cast at the election is in favor of the annexation, the board of supervisors shall make an order annexing the high school district to the

junior college district. The order shall be entered by the clerk of the board in his record of high school districts. He shall send a copy of the order to the county clerk of each county in which any part of the junior college district is situated, who shall enter it in his record of junior college districts.

25472.5. If it appears that a majority of the votes cast at the election is against the annexation, no other election shall be called on the question of annexation until one year from the date of the filing of the original petition.

25473. Whenever the governing board of each of two or more junior college districts, under the provisions of this article, petitions the board of supervisors having jurisdiction for the annexation of the same high school district, the board shall refer the matter to the county superintendent of schools having jurisdiction over the high school district. The county superintendent shall make a recommendation on the matter, after which the board of supervisors shall make an order stating to which of the junior college districts the high school district may be annexed.

25473.5. Whenever a high school district is annexed to a junior college district pursuant to this article, the territory annexed to the junior college district shall not be liable for the payment of any part of the interest on, or principal of any bonded indebtedness of the junior college district theretofore incurred, unless a pro rata portion of the indebtedness is assumed pursuant to this article. Whenever a high school district is annexed to any junior college district, the junior college district shall constitute the same type of junior college district as if the district were newly formed and shall be governed and administered as such.

25474. After the annexation of a high school district pursuant to this article, all property belonging to the original junior college district is the property of the new junior college district so formed.

Article 10. Annexation of High School Districts Upon Election

The governing board of a high school district in which reside persons attending a regular day junior college in a contiguous junior college district may petition the board of supervisors of the county having jurisdiction over the high school district to annex the high school district to the junior college district.

25476.5. The petition shall be accompanied by a verified copy of a resolution adopted by the governing board of the junior college district named in the petition consenting to the annexation thereto of the high school district. The resolution consenting to the annexation may stipulate that the high school district shall assume a proportionate share of the outstanding bonded indebtedness of the junior college district as a condition to the annexation. Upon receipt of the petition and the

resolution of consent, the board of supervisors shall call an election to be held in each elementary school district in the high school district named in the petition for the purpose of determining whether the high school district shall be annexed to the junior college district.

25477. The election shall be called, held, and conducted in the same manner as are the elections of governing boards of elementary school districts, except that the words to appear upon the ballot shall be:

(a) If the assumption of bonded debt is not involved: "For annexation to _____ (insert name) Junior College District—Yes" and "For annexation to _____ (insert name) Junior College District—No."

(b) If the assumption of bonded debt is stipulated in the resolution of the governing board of the junior college district: "For annexation to _____ (insert name) Junior College District and the assumption of bonded debt—Yes" and "For annexation to _____ (insert name) Junior College District and the assumption of bonded debt—No," and except that the returns shall be made to the board of supervisors.

25477.5. If the assumption of bonded debt is not involved and if it appears that a majority of all votes cast at the election were cast in favor of the annexation or if the assumption of bonded debt is stipulated in the resolution of the governing board of the junior college district and it appears that two-thirds of the votes cast at the election were in favor of the annexation, the board of supervisors shall make an order annexing the high school district to the junior college district. Upon the making of the order the annexation shall be deemed to have been made effective pursuant to the provisions of Sections 1601 and 1603 of this code.

Article 11. Annexation of One Junior College District by Another

25480. A junior college district, hereinafter in this article called the petitioning district, may be annexed to another contiguous junior college district, hereinafter in this article called the admitting district, upon such terms and conditions as may be agreed upon between the governing board of the petitioning district and the governing board of the admitting district.

25480.5. The proceedings for annexation of one junior college district to another junior college district may be commenced by the petitioning district in either of the following ways:

(a) The presentation to the superintendents of schools of each county in which any of the area of the petitioning district and of the admitting district lies, of a petition asking for the annexation of the district to a contiguous junior college district, signed by 25 percent of the registered electors of the petitioning district.

(b) The presentation to the superintendent of schools of each county in which any of the area of the petitioning district and of the admitting district lies, of a resolution of the governing board of the petitioning district asking for the annexation of the district to a contiguous junior college district.

The petition or resolution presented pursuant to this section shall be accompanied by an agreement signed by a majority of the members of the governing board of the admitting district consenting to and agreeing to the annexation and setting forth the terms and conditions upon which the annexation shall be made.

25481. Upon presentation of a petition, the county superintendent or superintendents of schools, as the case may be, shall, after verifying the signatures thereon and finding them sufficient, within 20 days, call an election in the petitioning district in his county for the determination of the question and shall appoint three qualified electors in each component elementary or unified school district of the petitioning district to conduct the election.

Upon presentation of a resolution of the governing board of the district, the county superintendent or superintendents of schools shall, within 20 days, call the election in the petitioning district in his county for determination of the question and shall appoint three qualified electors in each elementary or unified school district of the petitioning district to conduct the election.

25481.5. The election shall be called in all respects as specified in Sections 1941 to 1948, inclusive, except that the form of the ballot shall be: "For annexation to the _____ Junior College District—Yes" and "For annexation to the _____ Junior College District—No" or words of similar import. If a majority of the votes cast in the entire petitioning district is in favor of the annexation, the annexation is complete. The result of the election shall be reported by the election officers in each elementary or unified school district to each superintendent of schools of any county in which the district is situated within five days after the election.

25482. Whenever a junior college district is annexed to another junior college district pursuant to this article, all funds, property, and obligations of the petitioning district shall become the funds, property, and obligations of the admitting district. The bonded indebtedness of any district incurred prior to the annexation shall remain the sole obligation of the territory of the district as it existed prior to the annexation.

25482.5. Upon the effective date of the annexation of the district, for all purposes, to another district, the governing board of the district annexed ceases to exist.

Article 12. Automatic Change of Boundaries

25484. The boundaries of every junior college district shall be coextensive with the boundaries of the high school district or districts included in the junior college district. If the boundary of any high school district included in a junior college district is changed by annexation, withdrawal, operation of law or in any other manner, such change shall automatically effect a corresponding change in the junior college district boundary, and any such change in junior college district boundaries shall be effective at the same time as the change in high school district boundaries is effective, except that if a new high school district is formed from territory entirely within an existing junior college district, the new high school district shall continue to be part of the junior college district.

25484.5. The boundaries of every junior college district as the same were established for the purpose of the levy and collection of taxes for the fiscal year 1947-48, are hereby confirmed, validated, and declared legally effective for all purposes.

Article 13. Exclusion of High School Districts

25486. On or before the first day of February in any school year a majority of the electors residing in a junior college district, and two-thirds of the electors residing in any high school district which is a part of the junior college district, as shown by the affidavit of one or more of the petitioners, may present to the superintendent of schools who has jurisdiction over the junior college district, petitions asking for the exclusion of the high school district from the junior college district for the purpose of permitting the territory in the high school district to be formed into a junior college district or to become a part of another junior college district. The petitions shall be accompanied by an agreement signed by a majority of the governing board of the junior college district, and a majority of the trustees of the high school district consenting to the exclusion and setting forth the terms of the agreement. The superintendent of schools shall, after verifying the signatures to the petitions and agreements and finding them sufficient, transmit the petitions and agreement to the board of supervisors of his county with his recommendations.

25486.5. The board of supervisors, after the receipt of the petitions and agreements, together with the recommendations of the superintendent of schools, may make an order excluding the high school district from the junior college district upon the terms agreed on. The order withdrawing the high school district from the junior college district shall not become effective until the high school district becomes a junior college district or becomes a part of a junior college district.

25487. Any high school district excluded from a junior college district shall continue to bear its proportionate share

of the bonded indebtedness of the junior college district incurred prior to the exclusion of the high school district, as though the exclusion had not taken place.

25487.5. The order of the board of supervisors excluding a high school district from a junior college district shall be entered by the clerk of the board in his record of junior college districts. He shall send a copy of the order to the county clerk of each county in which any part of the junior college district is situated, who shall enter it in his record of junior college districts.

Article 14. Withdrawal of Joint Union High School Districts

25490.5. A petition signed by a majority of the registered electors residing in the joint union high school district shall be presented to the county board of supervisors of the county in which the greatest portion of the assessed valuation of the joint union high school district is situated asking for the exclusion of such district from the junior college district.

25491. The persons securing the signatures to the petition shall attach an affidavit thereto that all persons who signed the petition did so in the presence of the affiant and that each signature is a genuine signature of the person whose name it purports to be.

25491.5. Upon the filing with it of the petition, the board of supervisors shall have jurisdiction to hear and determine the petition.

25492. The board of supervisors shall at the next regular meeting of the board, hear all persons interested in the petition and may continue the hearing from time to time but not for more than two weeks in all. If it approves the petition it shall, by an order entered upon its minutes, exclude the joint union high school district from the junior college district.

25492.5. No high school district shall be excluded from a junior college district pursuant to this article if the junior college district has any outstanding bonded indebtedness on the date of the hearing of the petition.

25493. The order of the board of supervisors excluding a joint union high school district from a junior college district shall be entered by the clerk of the board in his record of junior college districts. The governing board of any district maintaining a junior college may, if provisions for the payment of the cost of educating a nonresident student are not made pursuant to Section 25505, fix a nonresident fee to be paid by the student. The fee shall be uniform and shall be required of each such nonresident student. The fee shall not be less than the fee required of nonresident students of state colleges enrolled in a course of instruction prescribed for the first two years of a four-year curriculum nor more than an amount computed in the manner prescribed by Section 20201, excluding subdivision (c) thereof, of this code for the payment of tuition on account of the attendance of students who reside in territory of a California county that is not a part of a district maintaining a junior college.

buildings therefor, outside of the boundaries of the school district if all of the following conditions exist:

(a) The proposed location is within the State.

(b) The activities, trades, businesses, or work to be carried on at the proposed location is such as to offer educational opportunities to students who are residents of the district in the subject or all of the subjects proposed to be taught at that location, and facilities for such instruction are not available either at the location of the principal buildings of the junior college, or elsewhere within the district.

25508.5. The governing board of any district, maintaining a junior college, may establish courses outside the district primarily for students who are nonresidents of the district, providing the following conditions are fulfilled:

25509.5. The governing board of any district which maintains a junior college may establish and maintain junior college classes outside of the State, comprising a part of an aircraft pilot training program conducted by the district under an agreement with the federal government or any agency thereof, during the time that it is unlawful by reason of any law or order of the federal government or any agency thereof for such classes to be maintained within the district.

The governing board may make such expenditures and do such things in connection with the establishment and maintenance of classes under this section as it could do were the classes established and maintained within the district.

Where a term is more or less than 16 weeks more or less than one credit hour shall be allowed in the same ratio that the length of the term is to 16 weeks.

25519. The governing boards of districts maintaining junior colleges are urged to design courses including air transportation, vocational education, career opportunities in civil and military aviation, technical training, flight experience, and ground instruction in localities where the needs of the youth in these communities warrant such a course in these schools.

The governing board of any district maintaining a junior college, when in its judgment necessity therefor exists, may construct and maintain dormitories in connection with any junior college within the district for use and occupancy by pupils in attendance at the junior college, and shall fix the rates to be charged the pupils for quarters in the dormitories.

25530.5. 25531. If satisfactory quarters in a suitable location are offered at a rental which makes it advisable to accept them, the governing board of the junior college may lease the quarters for a period not to exceed three years.

At the expiration of the lease or other arrangement, the board may continue to renew said lease or other arrangement, for a period not to exceed three years and may continue to renew for periods not to exceed three years as long as the facilities are needed.

25531.5. CHAPTER 5. FINANCE

Article 1. General

25540. Four-year junior colleges shall be financed in the same manner and from the same funds as provided for the financing of two-year junior colleges. The provisions of Sections 20201 to 20209, inclusive, of this code relating to the Junior College Tuition Fund shall not be applicable in the case of pupils attending the 11th and 12th grades in any four-year junior college except in the case of pupils who reside in an elementary school district not situated in a high school district.

25540.5. The State Board of Education shall provide for a uniform system of accounting for all junior colleges and shall by rule and regulation define and establish methods for accounting for revenues and expenses for junior college purposes in junior college districts, high school districts, and unified districts maintaining junior colleges.

25541. The governing board of each district maintaining a junior college shall report annually the revenues and expenses of the district for junior college purposes in accordance with rules and regulations of the State Board of Education and on forms furnished by the Superintendent of Public Instruction.

25541.5. The maximum rate of tax of any junior college district and of any unified school district maintaining a junior college during the first three fiscal years of its existence for all purposes is hereby increased by such amount as will produce the amount proposed to be expended by the district pursuant to any interdistrict attendance agreement as shown by the budget as finally adopted by the governing board of the district for the current fiscal year, less any unencumbered balances remaining at the end of the preceding fiscal year derived from the increase in the rate of tax provided by this section.

The increase provided by this section shall not exceed the rate of tax levied in the county pursuant to Section 20202 during the fiscal year next preceding the formation of the district for all purposes, or ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of the property within the district, whichever is the greater.

If the district is situated in two or more counties, the increase provided by this section shall not exceed the highest rate of tax levied in any of the counties in which the district is situated pursuant to Section 20202 during the fiscal year next preceding the formation of the district for all purposes, or ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of property within the district, whichever is the greater.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the payment of any obligation

incurred under the terms of an interdistrict attendance agreement for such school year.

Any junior college district or unified school district maintaining a junior college which became effective for all purposes on or after July 1, 1956, shall be deemed, for the purposes of this section, to have been effective for all purposes on July 1, 1958.

25542. Whenever the excess tax rate authorized by the voters of a single high school district of any type at an election prior to the formation of a junior college district, the boundaries of which are coterminous with the boundaries of the high school district and which districts are governed by governing boards of identical personnel, is continued at the option of the governing boards of said districts as the maximum combined rate of both of said districts for combined high school and junior college purposes pursuant to Section 25445 of this code and the boundaries of such high school and junior college districts thereafter become noncoterminous as a result of any junior college district organization proceedings pursuant to this chapter or otherwise, such excess tax rate shall be continued at the option of the governing board of the high school district as the maximum tax rate of said district for high school purposes for a period not to exceed the period of time for which such excess tax rate was so previously authorized by the voters of the high school district and so continued pursuant to said Section 25445 of this code.

25542.5. When a high school district or unified school district ceases to maintain a junior college by virtue of its inclusion in a new or reorganized junior college district established so as to be effective for all purposes pursuant to Section 1601 on or after July 1, 1961, any balances remaining in the general fund and special reserve fund of the high school district or unified district at the end of the last year in which the district maintained a junior college shall be divided between such district and the junior college district in the following manner:

(a) The balance remaining in the general fund shall be divided in the same ratio that the expenditures from that fund for junior college purposes for the last year in which the junior college was maintained bear to the other expenditures of the district during that year. The amount so allocable to the junior college district shall be transferred to, and deposited in, the general fund of that district.

(b) The balance remaining in the special reserve fund deposited there by the district governing board to be used for junior college purposes, shall be transferred to the junior college district and deposited in the special reserve fund of that district.

(c) The failure to complete any project for which bonds are authorized to be issued.

25545 05. 25545 06. The board shall determine the time, form and manner of the issuance of revenue bonds.

25545 07. The board may enter into indentures providing for the aggregate principal amount, date or dates, maturities, interest rates, denominations, form, registration, transfer and interchange of any revenue bonds and coupons issued pursuant to this article, and the terms and conditions on which the same shall be executed, issued, secured, sold, paid, redeemed, funded and refunded Reference on the face of the bonds to such indenture by its date of adoption, or the apparent date on the face thereof, is sufficient to incorporate all of the provisions thereof and of this article into the body of the bonds and their appurtenant coupons. Each taker and subsequent holder of the bonds or coupons, whether the coupons are attached to or detached from the bonds, has recourse to all of the provisions of the indenture and of this article, and is bound thereby.

25545 08. An indenture pursuant to which bonds are issued may include any and all such covenants and agreements on the part of the board as the board deems necessary or advisable for the better security of the bonds issued thereunder.

25545.09. An indenture may provide that payments of principal and interest of bonds shall be secured by all or by part of revenues.

25545.10. An indenture may include a clause relating to the bonds issued thereunder requiring the board to pay or

cause to be paid punctually the principal of all such bonds and the interest thereon on the date or dates, or at the place or places, and in the manner mentioned in such bonds and in the coupons appertaining thereto in accordance with such indenture.

25545.11. An indenture may include a clause relating to the bonds issued thereunder, requiring the board to operate the project continuously, to the extent practicable under conditions as they may from time to time exist, in an efficient and economical manner.

25545.12. An indenture may include a clause relating to the bonds issued thereunder requiring the board to make all necessary repairs, renewals and replacements to any project, and to keep the project at all times in good repair, working order and condition.

25545.13. An indenture may include a clause relating to the bonds issued thereunder requiring the board to preserve and protect the security of the bonds and the rights of the holders thereof and to warrant and defend such rights.

25545.14. An indenture may include a clause relating to the bonds issued thereunder requiring the board to pay and discharge or cause to be paid and discharged all lawful claims for labor, materials and supplies or other charges which, if unpaid, might become a lien or charge upon the revenues, or any part thereof, of any project acquired, constructed or completed from the proceeds of the sale of the bonds, or upon any physical properties, or which might impair the security of the bonds.

25545.15. An indenture may include a clause relating to the bonds issued thereunder which limits, restricts, or prohibits any right, power or privilege of the board to mortgage or otherwise encumber, sell, lease or dispose of any improvements constructed from the proceeds of the bonds, or to enter into any lease or agreement which impairs or impedes the operation of a project, or any part thereof, necessary to secure adequate revenues or which otherwise impairs or impedes the rights of the holders of the bonds with respect to such revenues.

25545.16. An indenture may include a clause relating to the bonds issued thereunder requiring the board to fix, prescribe and collect rates, rentals or other charges in connection with the services and facilities furnished from the project acquired, constructed or purchased from part or all of the proceeds of the bonds, sufficient to pay the principal of and interest on the bonds as they become due and payable, together with such additional sums as may be required for any fund created by this article, for the further security of such bonds or as a depreciation charge or other charge in connection with such project.

25545.17. An indenture may include a clause relating to the bonds issued thereunder requiring the board to hold or cause to be held in trust the revenues or any part of revenues pledged to the payment of such bonds and the interest thereon,

or to any reserve or other fund created by this article for the further protection of the bonds, and to apply such revenues or any part of revenues or cause them to be applied only as provided in the indenture.

25545.18. An indenture may include a clause defining the power of the board in applying the proceedings of the sale of any issue of bonds for the acquiring, constructing, or completing of any project or any part thereof.

25545.19. An indenture may include a clause limiting the power of the board to issue additional bonds for the purpose of acquiring, constructing or completing any project or any part thereof.

25545.20. An indenture may include a clause requiring, specifying or limiting the kind, amount and character of insurance to be maintained by the board on any project, or any part thereof, and the use and disposition of the proceeds of any such insurance thereafter collected.

25545.21. An indenture may include a clause providing the events of default and the terms and conditions upon which any or all of the bonds of the board then or thereafter issued may become or be declared due and payable prior to maturity, and the terms and conditions upon which such declaration and its consequences may be waived.

25545.22. An indenture may include a clause designating the rights, limitations, powers and duties arising upon breach by the board of any of the covenants, conditions, or obligations contained in any indenture.

25545.23. An indenture may include a clause prescribing a procedure by which the terms and conditions of the indenture may be subsequently amended or modified with the consent of the board and the vote or written assent of the holders of a specified principal amount or specified proportion of the bonds issued and outstanding. Such clause may provide for meetings of bondholders and for the manner in which the consent of the bondholders may be given. The clause shall specifically state the effect of such amendment or modification upon the rights of the holders of all of the bonds and interest coupons appertaining thereto, whether attached thereto or detached therefrom.

With respect to any clause providing for the modification or amendment of an indenture, the board may agree that bonds held by the county treasurer, the United States or any instrumentality thereof, or the State of California or any political subdivision thereof (including every municipal corporation, district, public corporation, board or agency of any kind or class) shall not be counted as outstanding bonds, or be entitled to vote or assent, but shall, nevertheless, be subject to any such modification or amendment.

25545.24. An indenture may include a clause or clauses providing for such other acts and matters as may be necessary or convenient or desirable in order better to secure the bonds or to make the bonds more marketable.

25545.25. The county treasurer shall act as trustee for the board and the holders of bonds issued hereunder, and the board may authorize the trustee to act on behalf of the holders of the bonds, or any stated percentage thereof, and to exercise and prosecute on behalf of the holders of the bonds such rights and remedies as may be available to the holders. The board may provide in the indenture for the deposit of all revenues received from the project with such trustee to be held in a separate account in the junior college dormitory revenue fund of the district created by this article. The money in such fund shall be disbursed only as provided in the indenture.

25545.26. The board shall prescribe the duties and powers of any such trustee with respect to the issuance, authentication, sale and delivery of the bonds and the payment of principal and interest thereof, the redemption of the bonds, the registration and discharge from registration of the bonds, and the management of any sinking fund or other funds provided as security for the bonds.

25545 27. The board may provide for one or several issues of bonds and may issue bonds in series or may divide any issue into one or more divisions and fix different maturities or dates of such bonds, different rates of interest, or prescribe different terms and conditions for the bonds of the several series or divisions. It is not necessary that all bonds of the same authorized issue be of the same kind or character, have the same security, or be of the same interest rate, but the terms thereof shall in each case be provided for by the board at or prior to the issue thereof.

25545.28. Bonds may be issued as coupon bonds or as registered bonds. The board may provide for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds, and may provide that the bonds shall be registered as to principal only, or as to both principal and interest, or otherwise as the board may determine.

25545.29. Bonds shall bear interest at a rate of not to exceed six (6) percent per annum, payable annually or semiannually or in part annually and in part semiannually.

25545 30. Bonds may be callable upon such terms, conditions, and upon such notice as the board may determine, and upon the payment of such premium as may be fixed by the board in the proceedings for the issuance of the bonds. No bond is subject to call or redemption prior to its fixed maturity date unless the right to exercise such call is expressly stated on the face of the bond.

25545.31. The board may provide for the payment of the principal and interest of bonds at any place within or without the State of California, and in specified coin or currency of the United States.

25545.32. The board may provide for the execution and authentication of bonds by the manual, lithographed or printed facsimile signature of officers of the board and by additional authentication by the county treasurer as trustee. If any of

the officers whose signatures or countersignatures appear upon the bonds or coupons cease to be officers before the delivery of the bonds or coupons, their signatures or countersignatures are nevertheless valid and of the same force and effect as if the officers had remained in office until the delivery of the bonds and coupons.

25545 33. Bonds shall bear dates prescribed by the board. Bonds may be serial bonds or sinking fund bonds with such maturities as the board may determine. No bond by its terms shall mature in more than 50 years from its own date and, in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date herein authorized shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

25545.34. Immediately after the adoption of a resolution by the board, directing the preparation of any bonds authorized under this article, the county treasurer shall prepare the requisite number of suitable bonds of the denominations, and in accordance with the specifications contained in such resolution.

25545 35. When the bonds authorized to be issued under this article shall be duly executed, they shall be sold by the county treasurer, for cash, in such parcels and numbers as the said treasurer shall be directed by the board, after a resolution requesting such sale shall have been adopted by the board. Before offering any of said bonds for sale, the said treasurer shall detach therefrom all coupons, if any, which have matured or will mature before the day fixed for such sale.

25545.36. Bonds may be sold at either public or private sale. The board may fix terms and conditions for the sale or other disposition of any authorized issue of bonds. The county treasurer, when authorized by resolution of the board, may sell bonds at less than their par or face value, but no bond may be sold at a price below the par or face value thereof which would result in a sale price yielding to the purchaser an average of more than six (6) percent per annum, payable semiannually, according to standard tables of bond values

25545.37 The board may provide for the security of bonds. The board may use and expend all or any part of any funds or proceeds of any property owned by it, whether received by gift, appropriation or otherwise, if not restricted as to the use of such funds or proceeds of property by the terms of any gift or trust or provision of law for the redemption of bonds issued pursuant to the provisions of this article and the payment of interest due thereon.

25545.38. All costs and expenses incident to the issuance and sale of bonds may be paid out of the proceeds of the sale of the bonds. Interest on bonds may be paid out of the proceeds of the sale of the bonds during the actual construction of any project for the acquisition, construction or completion of

which the bonds have been issued, and for a period of not to exceed two (2) years thereafter as provided for in the indenture.

25545.39. The board may provide that the bonds and the interest thereon shall be secured by all or by part of revenues of a project upon the basis of which revenue bonds are issued or authorized to be issued, and shall constitute such lien upon the revenues of such project as may be provided for in the indenture.

25545.40. Pending the actual issuance or delivery of revenue bonds, the board may issue temporary or interim bonds, certificates or receipts of any denomination whatsoever, and with or without coupons, to be exchanged for definitive bonds when ready for delivery.

25545.41. The board may provide for the replacement of lost, destroyed or mutilated bonds, or coupons.

25545.42. Bonds issued pursuant to the provisions of this article and the interest or income therefrom are exempt from all taxation in this State other than gift, inheritance and estate taxes.

25545.43. Such exceptions shall be subject to the appeal procedures established in Sections 3081, 3082, 3083 and 3084. In no case shall the combined weekly hours of work and required related and supplemental instruction of the apprentice exceed the maximum number of hours of work prescribed by law for a person of the age and sex of the apprentice.

CHAPTER 126

[Approved by Governor April 19, 1963 Filed with Secretary of State April 19, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 1741 is added to the Labor Code, to read:

1741. Notwithstanding any other provision of this chapter or any other law of this State, except limitations imposed by the Constitution, the city council of any general law city which has awarded a contract for the construction of any public works may provide, in the formal contract executed pursuant to said award, for an increase in the amount payable to the contractor in a sum not to exceed the difference between the general prevailing rate of per diem wages as set forth in the notice inviting bids and the rates applicable at the time when the formal contract was executed.

This section shall apply only to those public works contracts where a delay in the execution and performance thereof, has resulted from litigation initiated by persons other than the contracting parties attacking the authority of the general law city to enter into a contract for such public works, between the time of awarding the contract and execution thereof.

SEC. 2. Section 1 of this act shall remain in effect until December 31, 1963, and shall have no force or effect on and after that date.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

One or more general law cities within the State have heretofore awarded contracts for sanitary sewer construction and thereafter, execution and performance of such contracts, have been delayed by reason of litigation, instituted by persons other than the contracting parties, which litigation has, necessarily, caused considerable delay. It is necessary not to delay the construction of these sanitary sewers to preserve public health and safety. Also, during such periods of delay, increases in the general prevailing rate of per diem wages required to be paid to persons to be employed on such public works projects have taken place. Such increases were not contemplated by the cities or by the bidders, at the time of the publication of notice inviting bids. It is imperative that these cities and contractors be given the means to negotiate an increase in the amount or amounts to be paid to the contractor or contractors in sums equal to such increases. The only alternative would be

for the cities to revoke the action taken awarding the contracts, and readvertise for bids. This would result in substantially increased costs to the cities, and contractors, and give rise to situations necessitating litigation.

CHAPTER 127

An act to amend Section 1431 and to repeal Section 1510 of, and to add Section 1510 to, the Probate Code, and to amend Section 372 of the Code of Civil Procedure, relating to settlement and compromise of claims of minors and incompetents.

71072 If a declaration of intention includes any territory within the boundaries of a proposed city for which a valid petition for incorporation has been filed with the board of supervisors of the affected county, the entire area of the proposed city, at the time of filing the declaration of intention, shall be included within the boundaries of the proposed district.

71073. If a declaration of intention is filed, and proceedings for the formation of the district are commenced and prosecuted, in the manner and within the time specified by this part, the inclusion within the boundaries of the proposed district of any city to which territory is annexed, pursuant to proceedings which were not commenced by the filing of a valid petition prior to the filing of the declaration of intention, shall not prevent or invalidate the formation of the district even though the territory annexed to the city pursuant to the annexation proceedings is not included in the district.

71074 If a declaration of intention is filed, and proceedings for the formation of the district are commenced and prosecuted, in the manner and within the time specified by this part, the inclusion within the boundaries of the proposed dis-

trict of territory formed into a new city or annexed to an existing city, pursuant to proceedings which were not commenced by the filing of a valid petition prior to the filing of the declaration of intention, shall not prevent or invalidate the formation of the district even though the remainder of the corporate area of the city is not included in the district.

71076 If no declaration of intention has been filed, and a petition for the formation of a district includes any territory within the boundaries of a proposed city for which a valid petition for incorporation has been filed with the board of supervisors of the affected county, the entire area of the proposed city, at the time of filing the formation petition, shall be included within the boundaries of the proposed district.

71080. If, subsequent to the filing of a declaration of intention which includes a portion of the corporate area of a city, but prior to the filing of the formation petition, such portion of the corporate area of the city is included within an existing municipal water district so that the entire corporate area of the city is included within such existing district, such portion of the corporate area of the city shall be omitted from the formation petition. Such omission shall not invalidate the declaration of intention if it is otherwise sufficient.

71081. If, subsequent to the filing of a declaration of intention, but prior to circulating the formation petition, a valid petition is filed with, or a resolution is adopted by, the govern-

ing body of a city, the corporate area of which is included in a metropolitan water district organized under the Metropolitan Water District Act, to initiate formal proceedings for the annexation to the city of territory within the proposed municipal water district, in a manner which would result in automatic annexation to the metropolitan water district of the territory annexed to the city, the proponents of the formation of the municipal water district may omit from the proposed municipal water district all territory included in the petition or resolution for annexation. If such territory is omitted, no part of the city shall be included within the proposed municipal water district.

Chapter 6. Dissolution

Article 1. In General

72551. No district shall be dissolved until all of its bonded indebtedness has been fully paid. As used in this chapter, "indebtedness" means all indebtedness other than bonded indebtedness unless the latter phrase is expressly used.

72552. If a district contains lands situated in more than one county, the board of directors of the district shall perform the duties imposed by this chapter upon the board of supervisors, up to and including the effective date of the dissolution. Thereafter, the duties imposed upon the board of supervisors shall be performed by the board of supervisors of the principal county

72553. If a district contains lands situated in more than one county, the secretary shall perform the duties imposed by this chapter upon the county clerk, up to and including the effective date of the dissolution. Article 2. Petition

72560. A petition for dissolution shall be filed with the county clerk, signed by at least 25 percent of the voters of the district. The petition shall pray for the dissolution of the district and briefly state the reasons therefor.

72561. Within 10 days of the date of the filing of the petition for dissolution, the county clerk shall examine the petition and determine whether it is signed by the requisite number of voters. When the county clerk has completed his examination of the petition, he shall attach to it his certificate, properly dated, showing the result of such examination.

72562. If the county clerk finds from the examination that the petition for dissolution is signed by the requisite number of voters he shall certify that the petition is sufficient. If he finds it is not so signed, he shall certify that the petition is insufficient.

72563. If the petition for dissolution is found to be insufficient by the county clerk, supplemental petitions may be filed at the times, in the manner, and for the same purpose as supplemental petitions to the original petition for the formation of a district, as set forth in Chapter 4 (commencing with Section 71120) of Part 2 of this division.

72564. After the time for filing supplemental petitions has expired and all supplemental petitions have been examined, if the county clerk's certificate shows that the petition for dissolution is sufficient, the county clerk shall present the petition to the board of supervisors without delay.

72565. After an election for the dissolution of a district is held, the sufficiency of the petition for dissolution shall not be subject to judicial review or be otherwise questioned.

Article 3. Election

72570. When a petition for dissolution is presented to it, the board of supervisors shall give notice of an election to be held in the district for the purpose of determining whether the district shall be dissolved. If the district has issued bonds, the board of supervisors shall not consider the petition or take any action pursuant to this chapter until evidence is furnished showing the bonds to have been fully satisfied.

72571. The notice of the dissolution election shall be published at least once a week for three successive weeks in a newspaper published in the district and determined by the board of supervisors to be most likely to give notice to those interested in the hearing. The last publication shall be not more than four weeks nor less than one week prior to the date fixed for the election.

72572. The notice of the dissolution election shall state that the question of dissolving the district will be submitted to the voters of the district at the time fixed for the dissolution election, and voters may vote on such proposition by placing upon their ballots the cross as provided by law after the words "For Dissolution" or "Against Dissolution."

72573. The board of supervisors shall cause a copy of the notice of the dissolution election to be mailed by the county clerk to each of the directors of the municipal water district within five days after the date of the first publication thereof. No election shall be held until proof of such mailing is furnished by affidavit of the county clerk.

This section shall not apply in the case of the dissolution of a district containing lands situated in more than one county.

72574. As nearly as is practicable, a dissolution election shall be held and conducted in the same manner as a formation election.

72575. Within seven days after the date of the dissolution election, the board of supervisors shall canvass the vote cast.

72576. If less than a majority of the votes cast at the dissolution election are in favor of dissolution, the board of supervisors shall declare the petition for dissolution denied.

72577. If a majority of all the votes cast at the dissolution election are in favor of dissolution, the board of supervisors shall make and cause to be entered upon the records of their proceedings an order that the petition for such dissolution is granted and declaring that the municipal water district is dissolved. Such order shall take effect 20 days after the holding of the election, and from and after such effective date the municipal water district is forever dissolved.

72578. If the district is dissolved, the board of supervisors shall forthwith cause the county clerk, or other officer perform-

Article 4. Procedure Upon Dissolution

72590. Upon the dissolution of a district, the board of supervisors shall forthwith determine the amount of the indebtedness of the district, the amount of money in the district treasury, and the amount of all indebtedness due or coming due to the district.

The board of directors of the district shall furnish the board of supervisors with a statement showing such amounts.

72591. If the board of directors of a dissolved district fails or refuses to furnish to the board of supervisors the statement required by Section 72590, the board of supervisors shall ascertain the indebtedness of the district at the time of its dissolution, the amount of money then in its treasury, and the amount then due to it.

72592. Within 30 days after the dissolution of a district, the district shall turn over to the county treasurer all moneys of the district.

72593. The county treasurer shall place the money received from a district and all moneys paid into the county treasury with respect to such district pursuant to this chapter in a special fund which shall be established by the county treasurer.

72594. Upon the dissolution of a district, each officer of the district shall immediately turn over to the board of supervisors all public property of every nature and description in his possession, including all public records and data of every nature and description

72595 Nothing contained in this division shall be held to relieve a district, or the territory included within it, from any liability or debt contracted by the district prior to its dissolution.

72596. All warrants for indebtedness of a dissolved district shall be drawn on order of the board of supervisors on the special fund in the county treasury established pursuant to Section 72593.

72597. If, at any time after the dissolution of a district, it is found that there is not sufficient money in the treasury to the credit of the special fund established pursuant to Section 72593 to pay any indebtedness of the district, the board of supervisors shall levy upon, and there shall be collected from, the property within the territory formerly included within the district subject to taxation for the indebtedness, a tax or taxes sufficient in amount to pay the indebtedness as it becomes due.

72598. The levy and collection of the tax or taxes pursuant to Section 72597 shall be made in the same manner and at the

same time that other county taxes are levied and collected, and they shall be an additional tax within the territory formerly included within the district for the payment of the dissolved district's debts.

If such territory is situated in more than one county, the board of supervisors of the principal county shall apportion the tax or taxes among the counties in the same manner as is provided for apportionment of district taxes in Chapter 2 (commencing with Section 72110) of Part 9 of this division.

72599. If, after payment of all debts of a dissolved district, there remains any surplus in the special fund established pursuant to Section 72593, the board of supervisors shall appropriate such surplus and declare a pro rata dividend to the taxpayers of the dissolved district. Such taxpayers shall have the right to have the amount of such pro rata dividend refunded to them. On demand of any such taxpayer, the board of supervisors shall refund to him his share of such pro rata dividend.

72600. The board of supervisors shall make provision for the collection of the amounts due to the dissolved district and for the closing up of the district's affairs. Any act or acts necessary for such purposes not otherwise provided for in this chapter shall, upon the order of the board of supervisors directing the same, be as fully done and performed and with as full effect as if they had been performed by the proper officers of the district before dissolution.

72601. The county shall succeed to and possess all the right of the dissolved district in and to the indebtedness due to the district and may sue for or otherwise collect any such debts in the name of said county. All costs and expenses of ascertaining the facts mentioned in Section 72590, and all other costs and expenses incurred by the board of supervisors in the execution of the orders and duties of the board of supervisors provided for in this chapter, shall be paid out of the special fund established pursuant to Section 72593.

Article 5. Distribution of Surplus Funds to Cities

72610. Whenever, after the dissolution of a district composed exclusively of the territory of a city, there remains any money in the special fund established pursuant to Section 72593 after the lapse of a period of three years from and after the payment of all the debts of the dissolved district, such remaining money shall be transferred to the general fund of the city upon application of the district attorney of the county and order of the superior court, as provided in this article.

72611. The legislative body of the city may by resolution direct the district attorney to apply to the superior court for the transfer of the remaining money in the special fund to the general fund of the city. Upon receipt of such a resolution, the district attorney shall apply to the superior court for such transfer.

72612. Upon the hearing on the application of the district attorney, the superior court shall order that the remaining money in the special fund be transferred to the general fund of the city if the following are made to appear to the satisfaction of the court or judge, by affidavit or by testimony taken in open court:

(a) That such money has not been paid out but has been in the special fund for a period of three years.

(b) That there is no proceeding pending to require the board of supervisors to appropriate such money or to pay it out pro rata to any taxpayer of the dissolved district entitled thereto.

(c) That the period of three years has passed since the payment of all the debts of the dissolved district.

After the transfer of such money to the general fund of the city, it may be expended by the city as a part of its general fund.

72613. If, at the time the proceeding is brought pursuant to this article, or while the proceeding is pending in the superior court, an action or proceeding is brought to require the payment of any part of the remaining money in the special fund to a taxpayer of the dissolved district, the court may order that there be paid into the general fund of the city the excess of such money over the amount so claimed by the taxpayer. Upon the determination of the action or proceeding by the taxpayer, the court may order any portion of such money, over and above the amount, if any, paid to the taxpayer, to be transferred to the general fund of the city without further proceedings being required.

CHAPTER 7. CONTEST OF CHANGES IN ORGANIZATION OF DISTRICTS

72630. No informality in any proceeding or in the conduct of any election, not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate the annexation of territory to, exclusion of territory from, or dissolution of, any district.

72631. Any action or proceeding in which the validity of an annexation, exclusion, or dissolution is denied or questioned shall be commenced within three months from the date of the Secretary of State's certificate of annexation or exclusion or from the date of the order of the board of supervisors declaring the dissolution, as the case may be; otherwise the annexation, exclusion, or dissolution, and all proceedings in respect thereto, shall be held to be valid and in every respect legal and incontestable.

Upon request of the secretary, the board shall authorize him to employ persons specially for this purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation

72676. When the secretary has completed his examination of the petition for annexation, he shall attach to it his certificate, properly dated, showing the result of such examination.

The resolution shall describe the annexed territory, which may be made by reference to a map on file with the secretary, which map shall govern for all details as to the extent of the annexed area, or may be made in any other definite manner The resolution shall also state the terms and conditions of annexation as theretofore determined by resolution of the board.

72689. Any action or proceeding in which the validity of an annexation to an improvement district pursuant to this article is contested, questioned, or denied shall be commenced within three months after the date of the resolution approving such annexation; otherwise the annexation shall be held to be valid and in every respect legal and incontestable.

At the expiration of five years after the commissioners have originally assessed the cost of the project upon the benefited land within the district and the costs of the portion of the project used for the generation of electric energy, and thereafter at any time not less than five years after the next previous reassessment, the

department, upon petition of holders of title to 10 percent of the land, shall appoint three commissioners to reassess the costs of the project upon the benefited land.

46376. Each interim project assessment shall be levied in an equal amount upon each acre of land in the district. The total amount of all interim project assessments for any district project shall not exceed two dollars ($2) per acre.

46377. Upon approval of the department, the board may by resolution levy an interim project assessment, if in its judgment the levy is in the best interests of the district.

46378. Every interim project assessment is a lien upon the land affected until the full amount of the assessment is paid. The lien is prior to all other liens, except state, county and municipal taxes and assessments, or taxes levied or assessed by or under statutory authority. The interim project assessments shall be collected in the same manner as other assessments provided for in this division.

46379. The amount of any interim project assessment assessed against any tract of land in the district shall be credited against the original assessment to finance the project thereafter levied against said tract, and the amount of said original assessment to be collected shall be reduced accordingly.

46380. If the amount of the interim project assessment or assessments credited with respect to any tract of land pursuant to Section 46379 exceeds the amount of the original assessment to finance the project with respect to said tract, said excess shall be credited against said interim project assessment or assessments, which, to that extent, shall cease to be a lien with respect to said tract. If the amount theretofore collected by the district on the interim project assessment or assessments with respect to any tract of land exceeds the amount of the original assessment with respect to said tract, such excess shall be a claim against and debt of the district, and the district shall issue a warrant in the amount of said excess to the then holder of title to said tract.

46381. A district may issue direct assessment warrants payable from the proceeds of an interim project assessment pursuant to Chapter 7 (commencing with Section 45900) of Part 8 of this division, but such warrants shall be made payable not more than five years from the date of issuance and may be made subject to call or redemption prior to their stated

maturity date or dates at such premium, if any, as the board may determine, and the aggregate face amount thereof shall not exceed seventy-five percent (75%) of the amount of the interim project assessment from which such warrants are payable, exclusive of interest and amounts paid prior to the issuance of such warrants on said interim project assessment.

SEC. 8 5. Section 46500 of said code is amended to read:

46500. The assessment list of each county shall remain open for payment in the office of the county treasurer of the affected counties for a period of 30 days and shall continue to remain open thereafter until such time, if ever, as the board makes an order calling a special election for the issuance of bonds to be secured by the assessment or until such time as the board files with the county treasurer a resolution, adopted and approved in accordance with Section 45102, authorizing the issuance of bonds to be secured by the assessment. If the result of the election, if any is called, is that the proposal to issue bonds is defeated, or if no bonds are issued within six months after such a resolution has been so filed, the assessment list shall again become open.

SEC. 9. Section 47800 of said code is amended to read:

47800. When a district has levied an assessment and it appears to the board that the assessment or some part thereof, together with the interest thereon, will provide an amount greater than is required to meet all obligations incurred or to be incurred for the purposes for which the assessment or part thereof was levied, the board may, by resolution, declare its intention to cancel all or any portion of the assessment, including any interest thereon, or all or any portion of such interest. For the purposes of this chapter, the term "assessment balance" means the assessment and the interest thereon, and the board, in the manner and subject to the limitations provided in this chapter, may cancel any part of such assessment balance, including all of the assessment and the interest thereon, a part of the assessment and the interest thereon, all of the interest on the assessment or a part of the interest on the assessment.

SEC. 11. Section 47805 of said code is amended to read:

47805. At the meeting the board shall hear any evidence offered in support of the written objections, after which the board may, by resolution, cancel all or a part of the assessment balance to the extent that the board finds that the assessment balance will provide an amount greater than is required to meet all obligations incurred or to be incurred for the purposes for which the assessment was levied. The board shall specify in the resolution the portion of the assessment balance

which is to be canceled with respect to each tract against which the assessment was levied, describing each tract as described in the assessment roll or by the number of the tract as used in the assessment roll. In adopting a resolution to cancel the board may make such revisions in the original plan set forth in its resolution of intention as it sees fit.

SEC. 12. Section 47807 of said code is amended to read:

47807. When the resolution to cancel is attached to the assessment roll the secretary shall endorse upon the assessment roll after each tract assessed the amount of the assessment balance which has been canceled with respect to such tract.

SEC. 13. Section 47808 of said code is amended to read:

47808. When a landowner, in a district in which the board has canceled any assessment balance or portion thereof, has paid all or a part of his share of the canceled assessment balance or portion thereof, the board shall issue a warrant of the district in favor of the landowner in an amount equal to the paid portion of his assessment balance which was canceled, with such interest thereon as the board shall, by resolution, determine to be appropriate to recompense landowners who have paid their assessments for any benefit obtained by other landowners as a result of the cancellation of the interest otherwise payable on their assessment.

SEC. 14. Section 47809 of said code is amended to read:

47809. The warrants shall be payable out of the fund of the district into which the proceeds of the assessment had been paid. The board shall not cancel so much of an assessment balance as to leave insufficient funds for this purpose.

SEC. 15. Section 47810 of said code is amended to read:

47810. No assessment balance or part thereof shall be canceled pursuant to this chapter if bonds based thereon and secured thereby have been issued and remain unpaid and provision has not been made for the payment thereof.

If judgment debtor, redemptioner, or tenant in possession, refuse the right of entry to the purchaser, his agent or contractor, such purchaser may petition the court, out of which execution or order authorizing the sale, was issued, in the same manner as hereafter provided for determining the amount due to the purchaser in the event of a disagreement, and the court may issue an order authorizing purchaser, his agent or contractor, during reasonable hours, to repair and maintain the premises.

In the event there shall be a disagreement between the purchaser and redemptioner as to whether any sum demanded by the purchaser is a proper charge to be added to the amount required for redemption, the proposed redemptioner shall thereupon pay to the clerk of the court out of which execution, or order authorizing the sale, was issued the amount necessary for redemption, less the amount in dispute, and shall at the same time file with said clerk a petition in writing setting forth specifically the item or items demanded to which he objects, together with his reason for such objections, and asking that such amount be determined by the court; said clerk shall thereupon fix a day, not less than 5 nor more than 10 days from the date of such filing, for the hearing of said objections; a copy of said petition, together with a notice of hearing giving the time and place thereof, shall be served by the person seeking redemption, or his attorney, upon the purchaser not less than two days before the day of hearing; upon

SEC 2. Section 703 of said code is amended to read:

703. In the event there shall be a dispute or disagreement as to whether any sum demanded by the last redemptioner is a proper charge to be added to the amount required to be paid by the subsequent redemptioner, the amount to be paid shall be determined in a like manner as provided in Section 702 for the determination of such amount in the event of disagreement between the original redemptioner and purchaser.

The property may be again, and as often as a redemptioner is so disposed, redeemed from any previous redemptioner within 60 days after the last redemption, on paying the sum paid on the past previous redemption, with 2 percent thereon in addition, and the amounts of any assessments or taxes, and any reasonable sum for fire insurance, maintenance, upkeep, or repair of any improvements upon the property, and any sum paid on a prior obligation secured by the property to the extent such payment was necessary for the protection of his interest, which the last previous redemptioner paid after the redemption by him, with interest thereon, and the amount of any liens, other than the judgment under which the property was sold, held by the last redemptioner previous to his own with interest. In the event there shall be a dispute or disagreement as to whether any sum demanded by the last redemp-

tioner to be added to the amount required to be paid by the subsequent redemptioner, the amount to be paid shall be determined in a like manner as provided in Section 702 for the determination of such amount in the event of disagreement between the original redemptioner and purchaser.

Written notice of redemption must be given to the sheriff and a duplicate recorded with the recorder of the county, and if any taxes or assessments are paid by the redemptioner, or if any sum for fire insurance, maintenance, upkeep, or repair of any improvement upon the property, is paid by the redemptioner, or if any sum is necessarily paid by the redemptioner on a prior obligation secured by the property, or if he has or acquires any lien other than that upon which the redemption was made, notice thereof must in like manner be given to the sheriff and recorded with the recorder; and if such notice be not recorded, the property may be redeemed without paying such tax, assessment, sum, or lien.

If no redemption be made within 12 months after the sale, the purchaser, or his assignee, is entitled to a conveyance; or if so redeemed, whenever 60 days have elapsed and no other redemption has been made, and notice thereof given and the time for redemption has expired, the last redemptioner, or his assignee, is entitled to a sheriff's deed; but, in all cases, the judgment debtor shall have the entire period of 12 months from the date of the sale to redeem the property.

If the judgment debtor redeem, he must make the same payments as are required to effect a redemption by a redemptioner. If the debtor redeem, the effect of the sale is terminated, and he is restored to his estate.

SECTION 1. Section 629 of the Code of Civil Procedure is amended to read:

629. The court, before the expiration of its power to rule on a motion for a new trial, either of its own motion, after five

days' notice, or on motion of a party against whom a verdict has been rendered, shall render judgment in favor of the aggrieved party notwithstanding the verdict whenever a motion for a directed verdict for the aggrieved party should have been granted had a previous motion been made.

A motion for judgment notwithstanding the verdict shall be made within the period specified by Section 659 of this code in respect of the filing and serving of notice of intention to move for a new trial. The making of a motion for judgment notwithstanding the verdict shall not extend the time within which a party may file and serve notice of intention to move for a new trial. The court shall not rule upon the motion for judgment notwithstanding the verdict until the expiration of the time within which a motion for a new trial must be served and filed, and if a motion for a new trial has been filed with the court by the aggrieved party, the court shall rule upon both motions at the same time. The power of the court to rule on a motion for judgment notwithstanding the verdict shall not extend beyond the last date upon which it has the power to rule on a motion for a new trial. If a motion for judgment notwithstanding the verdict is not determined before such date, the effect shall be a denial of such motion without further order of the court.

If the motion for judgment notwithstanding the verdict be denied and if a new trial be denied, the appellate court shall, when it appears that the motion for judgment notwithstanding the verdict should have been granted, order judgment to be so entered on appeal from the judgment or from the order denying the motion for judgment notwithstanding the verdict.

Where a new trial is granted to the party moving for judgment notwithstanding the verdict, and the motion for judgment notwithstanding the verdict is denied, the order denying the motion for judgment notwithstanding the verdict shall nevertheless be reviewable on appeal from said order by the aggrieved party. If the court grants the motion for judgment notwithstanding the verdict or of its own motion directs the entry of judgment notwithstanding the verdict and likewise grants the motion for a new trial, the order granting the new trial shall be effective only if, on appeal, the judgment notwithstanding the verdict is reversed, and the order granting a new trial is not appealed from or, if appealed from, is affirmed.

SECTION 1. Section 19253.5 of the Government Code is amended to read:

19253.5. In accordance with board rule, the appointing power may require an employee to submit to a medical examination to evaluate the capacity of the employee to perform the work of his position. The board rules shall make provision whereby the employee can designate a physician to consult with the appointing power and with the physician selected by the appointing power concerning the need for and advisability of a medical examination before it is made. The rules also shall provide for the designation by the appointing power of one or more physicians to conduct the examination when it is required. When requested by the employee, the appointing power shall provide a list of three physicians from which the employee may select the physician to be designated by the appointing power to do the examination. Fees for the examination shall be paid by the state agency. The employee may submit medical or other evidence to the examining physician or to the appointing power. When the appointing power, after considering the conclusions of the medical examination and other pertinent information, concludes that the employee is unable to perform the work of his present position, but is able to perform the work of another position including one of less than full time, the appointing power may demote or transfer the employee to such a position.

The employee demoted or transferred pursuant to this section shall receive the maximum of the salary range of the class to which he is demoted or transferred, provided that such salary is not greater than the salary he received at the time of his demotion or transfer.

On the request of an appointing power, the board may approve the return, to a class in which he formerly served, of an employee who has been demoted or transferred in accordance with the provisions of this section if there is satisfactory evidence of his fitness to perform the duties of his former class.

When the appointing power after considering the conclusions of the medical examination provided for by this section or medical reports from the employee's physician, and other pertinent information, concludes that the employee is unable to perform the work of his present position, or any other position in the agency, and the employee is not eligible or elects not to accept disability or service retirement, the appointing power may terminate the appointment of the employee. The

employee shall be given written notice of termination 15 days prior to the effective date of such termination.

The employee may appeal the action of the appointing power to the board within 15 days after the effective date of a demotion, transfer, or termination made in accordance with this section. The board, in accordance with its rules, shall hold a hearing. The board may disapprove the demotion, transfer, or termination or may order that demotion or transfer of the employee be to another position. Whenever the board revokes or modifies the demotion, transfer, or termination, the board shall direct the payment of salary to the employee at the rate of pay he should have received for such time as the board finds the demotion, transfer, or termination was improperly in effect.

Upon the request of an appointing authority or the petition of the employee who was terminated, the employee shall be reinstated to his former position, to another position in the same class, or to a position in a comparable or lower related class in the same agency if it is determined by the board that the employee is no longer incapacitated for duty. Such a reinstatement to a position in a different agency may be made only with the concurrence of that agency. In approving or ordering such reinstatements, the board may require the satisfactory completion of a new probationary period.

The status of the person displaced shall be determined by the board, but he shall not be deprived of his earned position on the employment list from which he was certified.

The reinstatement of a person under the provisions of Section 19390 or following a leave of absence granted under Section 19402 does not effect a displacement under this section. Upon the reinstatement of such a person any necessary separations are effected under the provisions of this part governing layoff and demotion.

CHAPTER 235

An act to validate the organization and acts of community services districts and municipal water districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 30, 1963. Filed with Secretary of State, May 1, 1963]

The people of the State of California do enact as follows:

SECTION 1. All community services districts, municipal water districts, and improvement districts of any such districts, are hereby declared to be legally organized and to be legally functioning as public bodies, and to be effective for the purposes of assessment and taxation if the statement, together with the map or plat, required to be filed under Sections 54900 to 54904, inclusive, of the Government Code is filed prior to May 1, 1963.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and

shall go into immediate effect. The facts constituting such necessity are:

Community services districts and municipal water districts which were formed or which made changes in their boundaries or formed or made changes in the boundaries of improvement districts, through inadvertence, did not file a proper statement and map or plat of the districts, or the improvement districts therein, with the county assessor and the State Board of Equalization on or before February 1, 1963, as required by Section 54902 of the Government Code. As a result there is confusion regarding the authority of the districts to levy and collect taxes for the fiscal year 1963-64, commencing July 1, 1963, which is impairing the operations and programs of such districts. This act would permit such districts to take action to correct this situation and it is imperative that it take effect immediately.

CHAPTER 236

An act to amend Section 12 of the Placer County Water Agency Act (Chapter 1234, Statutes of 1957), relating to the Placer County Water Agency, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 2, 1963. Filed with Secretary of State May 2, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 12 of the Placer County Water Agency Act (Chapter 1234, Statutes of 1957) is amended to read:

Sec. 12. All contracts for any improvement or unit of work, when the cost according to the estimate of the engineer will exceed five thousand dollars ($5,000), shall be let to the lowest responsible bidder or bidders as provided in this section. The board shall first determine whether the contract shall be let as a single unit for the whole of the work, or divided into severable convenient parts. The board shall advertise for bids by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in the agency, inviting sealed proposals for the construction or performance of the improvement or work. The call for bids shall state whether the work shall be performed in one unit or divided into parts. The work may be let under a single contract or several contracts, as stated in such call. The board shall require the successful bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material. The bonds shall comply with Chapter 3, commencing at Section 4200, of Division 5 of Title

1 of the Government Code. The board may reject any and all bids. In the event all proposals are rejected or no proposals are received, or the estimated cost of the work does not exceed five thousand dollars ($5,000), or the work consists of channel protection, maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may have the work done by force account without advertising for bids. In the event that no proposals are received, or if only one responsive proposal is received, the board may negotiate a contract for construction or performance of the work or improvement or substantially similar work or improvement; provided, that if only one responsive proposal is received such contract must be negotiated with the bidder. The agency may purchase in the open market without advertising for bids, materials and supplies for use in any work, either under contract or by force account. Government Code Sections 4300 to 4305 shall not apply to the agency's Middle Fork American River Project. The provisions of this Section 12 shall apply to all proposals or contracts whether or not received or entered into prior to the effective date of the amendment of this section made at the 1963 Regular Session of the Legislature.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Placer County Water Agency has completed the engineering and design for its Middle Fork American River Project providing for the development of water resources within its district, and it is necessary to proceed to contract for the construction of the Middle Fork American River Project for this development at the earliest possible date. Unless this act takes effect immediately, the urgently needed development of water resources within the jurisdiction of the Placer County Water Agency may be substantially delayed.

SEC. 3. This act insofar as it exempts the Placer County Water Agency's Middle Fork American River Project from Government Code Sections 4300 to 4305 has been enacted by this Legislature as an emergency step to nullify the threat to stop and perhaps destroy said project by litigation and is not to be construed as in any other way whatsoever changing or modifying the policies contained within the aforesaid sections of the Government Code.

CHAPTER 237

(b) Any nonresident over the age of 16 years but under the age of 21 years who is a resident of a foreign jurisdiction which requires the licensing of drivers may continue to operate a motor vehicle in this State after 10 days from his date of entry into this State provided:

SEC. 7. Section 12806 of said code is amended to read:

(b) Any suspension or revocation by a state which is not a party to the Driver License Compact provided for in Chapter 6 (commencing with Section 15000) of Division 6 shall not prevent the issuance of a license to the applicant if in the opinion of the department it will be safe to issue such license.

SEC. 10. Chapter 6 (commencing with Section 15000) is added to Division 6 of said code, to read:

15002. The compact administrator provided for in Section 15025 of this compact shall not be entitled to any additional compensation on account of his service as such administrator, but shall be entitled to expenses incurred in connection with his duties and responsibilities as such administrator, in the same manner as for expenses incurred in connection with any other duties or responsibilities of his office or employment

15003. As used in the compact, with reference to this State, the term "executive head" shall mean the Governor.

Article 2. Compact Terms

15020. (a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of the party states to:

(1) Promote compliance with the laws, ordinances and administrative rules and regulations relating to the operation of motor vehicles by their drivers in each of the jurisdictions where such drivers operate motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

15021. As used in the compact:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(b) "Home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.

(c) "Conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

15022. The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code, or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

15023. (a) The licensing authority in the home state, for the purposes of suspending, revoking, or limiting the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Section 15022 of this compact, as it would if such conduct had occurred in the home state, in the case of a conviction for:

(1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence

of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(3) Any felony in the commission of which a motor vehicle is used;

(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) As to any other conviction, reported pursuant to Section 15022, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(c) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this section, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this section.

15024. Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) The applicant has held such a license, but the license has been suspended by reason, in whole or in part, of a violation, and if such suspension period has not terminated.

(2) The applicant has held such a license, but the license has been revoked by reason, in whole or in part, of a violation, and if such revocation has not terminated; except that after the expiration of one year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) The applicant is the holder of a license to drive issued by another party state and currently in force, unless the applicant surrenders such license.

15025. Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other co-operative arrangement between a party state and a non-party state.

15026. (a) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators of all party states, acting jointly,

shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.

(b) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this compact.

15027. (a) This compact shall become effective as to any state in which this compact becomes effective as the law of that state.

(b) Any party state may withdraw from this compact by enacting a statute repealing this compact as the law of that state, but no such withdrawal shall take effect until six months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

15028. The compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of the compact shall be severable and if any phrase, clause, sentence, or provisions of the compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of the compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If the compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

CHAPTER 238

An act to add Chapter 6 (commencing with Section 28100) to Division 12 of the Vehicle Code, relating to Vehicle Equipment Safety Compact.

[Approved by Governor May 2, 1963. Filed with Secretary of State May 2, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 28100) is added to Division 12 of the Vehicle Code, to read:

Article I. Findings and Purposes

(a) The party states find that:

(1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.

(2) There is a vital need for the development of greater interjurisdictional co-operation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(b) The purposes of this compact are to:

(1) Promote uniformity in regulation of and standards for equipment.

(2) Secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.

(3) To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this article.

(c) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

Article II. Definitions

(c) Each party state obligates itself to give due consideration to any and all rules, regulations and codes issued by the commission and hereby declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.

(d) The commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(e) If the constitution of a party state requires, or if its statutes provide, the approval of the Legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation or code. In such event, the commissioner of such party state shall submit any commission rule, regulation or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(f) Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

(g) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the commission pursuant to this article if such agency specifically finds, after public hearing on due notice, that a variation from the commission's rule, regulation or code is necessary to the public safety, and incorporates in such finding the reasons

upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subdivision.

The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares; and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the commission may employ such source or sources of information as in its judgment present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under Article III(h) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under Article III(h) hereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

tion of accounts by or on behalf of any government contributing to the support of the commission.

Article VII. Conflict of Interest

(a) The commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the commission and contractors with the commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the commission or on its behalf for testing, conduct of investigations or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator's jurisdiction of residence, employment or business, any violation of a commission rule or regulation adopted pursuant to this article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the commission subject to cancellation by the commission.

(b) Nothing contained in this article shall be deemed to prevent a contractor for the commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the commission; nor to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

Article VIII. Advisory and Technical Committees

The commission may establish such advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the with-

drawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article X. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

28101. The legislature finds that:

(1) The public safety necessitates the continuous development, modernization and implementation of standards and requirements of law relating to vehicle equipment, in accordance with expert knowledge and opinion.

(2) The public safety further requires that such standards and requirements be uniform from jurisdiction to jurisidiction, except to the extent that specific and compelling evidence supports variation.

(3) The Highway Transportation Agency, acting upon recommendations of the Vehicle Equipment Safety Commission and pursuant to the Vehicle Equipment Safety Compact, provides a just, equitable and orderly means of promoting the public safety in the manner and within the scope contemplated by this chapter.

28102. Pursuant to Article V(e) of the Vehicle Equipment Safety Compact, it is the intention of this State and it is hereby provided that no rule, regulation or code issued by the Vehicle Equipment Safety Commission in accordance with Article V of the compact shall take effect nor be admissible as evidence in any court or administrative hearing until approved by statute enacted by the Legislature.

The commissioner of this State appointed pursuant to this section may designate an alternate from among the officers and employees of his agency to serve in his place and stead on the Vehicle Equipment Safety Commission. Subject to the provisions of the compact and bylaws of the Vehicle Equipment Safety Commission, the authority and re-

sponsibilities of such alternate shall be as determined by the commissioner designating such alternate.

28104. The Board of Administration of the State Employees' Retirement System may make an agreement with the Vehicle Equipment Safety Commission for the coverage of said commission's employees pursuant to Article III(f) of the compact. 28105. Within appropriations available therefor, the Highway Transportation Agency, and at the request of such agency, the other departments, agencies and officers of the government of this State may co-operate with and assist the Vehicle Equipment Safety Commission within the scope contemplated by Article III(h) of the compact. Such departments, agencies and officers of the government of this State are authorized generally to co-operate with said commission.

43531. In condemnation proceedings the board shall proceed in the name of the district under the provisions of Section 14 of Article I of the Constitution of this State, and Title 7, Part 3 of the Code of Civil Procedure, except as otherwise provided in this article.

SEC. 3. Section 43532 is added to said code, to read:

43532. The board shall not commence any proceedings in eminent domain unless it first adopts a resolution declaring that the public interest and necessity require acquisition, construction or completion of the improvement for which the property or interest in property is required, or will be required, and that the property or interest described in the resolution is necessary for the improvement; provided, when the board adopts such resolution by two-thirds (⅔) of all its members, the resolution shall be conclusive evidence of all of the following:

(a) The public necessity for the proposed improvement;

(b) That the property or interest is necessary for the proposed public improvement; and

(c) That the proposed public improvement is planned or located in a manner which will be most compatible with the greatest public good and the least private injury.

The resolution provided for in this section, however, shall not constitute conclusive evidence of the matters specified in subdivisions (a), (b) and (c) in the case of taking property located within a county in which the district is located but outside of the boundaries of the district, unless the board of supervisors of the county in which such property is situated declares to the contrary.

SEC. 3.5. Section 43532.5 is added to said code, to read:

43532.5. Notwithstanding any other provision in this article, the board shall not commence any proceedings in eminent domain with respect to property located outside of a county in which the district is located unless the board of supervisors of the county in which such property is situated gives its approval to such proceedings. In the event that the board of supervisors gives its approval, a resolution adopted by the board pursuant to the provisions of Section 43532 shall be deemed conclusive evidence of the matters specified in subdivisions (a), (b) and (c) specified in Section 43532.

SEC. 4. Section 43533 is added to said code, to read:

43533. Whenever a part of a parcel of land is to be acquired pursuant to this article and any portion of the remainder is to be left in such shape or condition as to be of little value to its owner, the board may acquire and sell such portion or may exchange the same for other property needed to carry out the powers conferred on said board.

SEC. 5. Article 3 (commencing with Section 43555) is added to Chapter 4 of Part 6 of Division 14 of said code, to read:

Article 3. Sale of Excess Land Acquired by Condemnation

43555. Where the district has acquired fee title to, or any interest in, land through condemnation proceedings and the board, pursuant to Section 43507, determines that said property or any part thereof or interest therein is no longer necessary for the uses and purposes of said district and that said property or any part thereof or interest therein shall be disposed of by sale, such sale shall be made as hereinafter provided.

43556. Written notice of sale shall be published in a newspaper of general circulation published in the district, or if there is no such newspaper, then within the county in which the district or any part thereof is situated, pursuant to Section 6063 of the Government Code. The notice shall describe the land or interest therein to be sold; set forth in general terms the interests, easements or reservations to be reserved to the district; state the time, place and terms or conditions of the sale; and call for sealed bids in writing.

43557. At the time and place set for the sale the board shall open any bids received in response to the notice, announce such bids, and call for oral bids. When all persons

present shall have ceased bidding, the board shall declare the bidding closed, subject to the preference right of owners of contiguous land as hereinafter provided, and shall announce the amount of the highest bidder. In the event no oral bids are made and there are duplicate written bids, the highest bidder shall be the one whose bid was received first in time by the board. In no event may land be sold or a purchaser declared before the end of the 30-day period for assertion by contiguous landowners of their preference right of purchase.

43558. The owners of contiguous land have a preference for a period of thirty (30) days after the highest bid is announced to purchase at such highest bid price. No right of preference shall be given in cases of owners of cornering land.

Where there is a conflict between two or more owners of contiguous land claiming a preference right of purchase, the one from whom such land was acquired by the district by eminent domain shall take preference. If such prior owner does not assert a preference right to purchase, the property shall be sold to that owner of contiguous land claiming preference who, in the opinion of the board, by acquisition of such land would be enabled to make the most beneficial use thereof based on topography, land pattern, location of water, improvements and similar factors.

If no owners of contiguous land qualify within said thirty (30) day period the sale shall be declared closed and sale made to the highest bidder.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

An act to amend Section 37 of the Alameda County Flood Control and Water Conservation District Act (Chapter 1275, Statutes of 1949), relating to annexations.

[Approved by Governor May 3, 1963. Filed with Secretary of State May 3, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 37 of the Alameda County Flood Control and Water Conservation District Act (Chapter 1275, Statutes of 1949) is amended to read:

Sec. 37. Notwithstanding any other provisions of this act, the following shall apply with respect to the annexation of new territory to any zone:

1. A petition for annexation by election signed by 25 percent of the freeholders residing in the territory proposed to be annexed as shown by the last equalized assessment roll of the county, shall be presented to the board. The petition shall designate specifically the boundaries of the territory proposed to be annexed, and its assessed valuation as shown by the last equalized assessment roll; shall state that the territory is not within the limits of any other zone; and shall ask that the territory be annexed to the zone. The petition shall be accompanied by a bond in the sum of not less than one hundred dollars ($100), to be approved by the board and filed with the clerk of the board as security for the payment by the petitioners of the reasonable cost of the election on annexation, in the event that at the election, less than a majority of the votes cast are in favor of annexation. The petition shall be verified by the affidavit of one of the petitioners. The petition shall be published by the petitioners for at least two weeks preceding its hearing in a newspaper of general circulation published in the zone, if there is one, and if not, in a newspaper of general circulation published in the district, together with a notice stating the number of signers of the petition, the time when the petition will be presented to the board, and that all persons interested may appear and be heard. It shall not be necessary to publish the names of the signers. At the time specified for the hearing, the board shall hear the petition and

may adjourn the hearing from time to time. Upon final hearing of the petition, the board, if it approves the petition as originally presented, or in a modified form, shall make an order describing the exterior boundaries of the territory proposed to be annexed and ordering that an election be held for the purpose of determining whether or not the territory shall be annexed to the zone The order shall fix the day of the election, which shall be within 60 days from the date of the order, and shall show the boundaries of the territory proposed to be annexed to the zone. This order shall be entered in the minutes and is conclusive evidence of a due presentation of a proper petition, and of the fact that each of the petitioners was, at the time of the signing and presentation of the petition, qualified to sign. If a majority of the votes in the territory proposed to be annexed and an election called therein by the board for that purpose are in favor of the annexation the clerk of the board shall make and cause to be entered in the minutes and endorsed on the petition an order approving the petition and the petition shall be filed The entry is conclusive evidence of the fact and regularity of all prior proceedings of every kind required by law and of the facts stated in the entry. The board at its next regular meeting after the entry shall, by an order, alter the boundaries of the zone and annex to it the territory described in the petition. The order of the board is conclusive evidence of the validity of all prior proceedings leading up to the annexation and recited in the order, and from and after the order the territory is a part of the zone. If, at the election, less than a majority of the votes in a territory proposed to be annexed are in favor of the annexation of the territory to the zone, the signers of the petition shall, within 10 days after the canvassing of the votes of the election, pay to the board the reasonable cost of the election and if not paid within 10 days, the board may sue on the bond to recover the cost of the election. If the result of the election is against annexation, the board shall, by order, disapprove the petition and enter the order in its minutes. No other proceeding shall be taken in relation thereto until the expiration of six months from the presentation of the petition, except to collect the costs of the election.

2. A petition for annexation without election signed by the owners of real property in the territory proposed to be annexed, which real property represents at least 75 percent of the total assessed valuation of the territory as shown by the last equalized county assessment roll shall be presented to the board. The petition shall designate specifically the boundaries of the territory and its assessed valuation as shown by the last equalized county assessment roll and shall show the amount of real property owned by each of the petitioners and its assessed valuation as shown by the last equalized county assessment roll. The petition shall state that the territory is not in any other zone and shall ask that the territory be annexed to the zone. The petition shall be verified by the affidavit of one of

the petitioners. It shall be published by petitioners at least two weeks preceding the hearing in a newspaper of general circulation published in the zone, if there is one, and if not, in a newspaper of general circulation published in the district. With the petition there shall be published a notice stating the number of signers of the petition, the time when the petition will be presented to the board and stating that all persons interested may appear and be heard. It shall not be necessary to publish the names of the signers. At the time designated the board shall hear the petition and any person interested, and may adjourn the hearing from time to time. Upon the hearing of the petition, the board shall determine whether or not it is for the best interests of the zone and the contiguous territory that the territory be annexed to the zone and the board may modify the boundaries of the territory proposed to be annexed as set forth in the petition. If the board upon final hearing determines that it is for the best interests of the zone and of the territory proposed to be annexed, that the territory be annexed it shall make an order describing the boundaries of the territory proposed to be annexed and shall alter the boundaries of the zone and annex to it the territory described in the petition and the territory is then a part of the zone.

3. The city council of any city within the County of Alameda may apply to the board for consent to annex the territory of the city, or any portion thereof, to an existing zone. Such application shall be in the form of an ordinance adopted by a majority of the members of the city council of said city, shall describe the boundaries of the city or that portion thereof desired to be annexed, and shall contain a declaration that the area to be annexed to the zone will be benefited by such annexation. Upon receipt of a certified copy thereof from the city council the board shall fix a time and place for public hearing of said ordinance and notice of such hearing shall be given by publication for at least two weeks in a newspaper of general circulation circulated in such zone, if there be such newspaper, and if there be no such newspaper then by publication in a newspaper of general circulation published in the district. Publication shall be completed at least seven days before the date of the hearing. Said notice shall contain a copy of the ordinance of the city council and state that all persons interested may appear and be heard. At the time fixed for the hearing or at any time to which it is continued the board shall hear and pass upon the proposal and any objections that may be filed to the inclusion of any property in the proposed annexation. The board shall determine whether or not annexation is in the best interests of the zone and the territory proposed to be annexed and the board may modify the boundaries of the territory proposed to be annexed. If the board upon final hearing determines that the territory proposed to be annexed, or any part thereof, and the zone, will be benefited by annexation,

it may by resolution order that the boundaries of the zone be altered to include that territory and the territory is then a part of the zone.

4. No petition or application for annexation by any of the above-mentioned methods shall be accepted by the board if a zone annexation petition or application involving any of the same territory is pending before it.

5. Whenever any new territory is annexed to a zone it thereupon becomes subject to all the liabilities and entitled to all the benefits of the zone; provided, further, that as a condition of annexation the board may by resolution determine that each parcel of the territory to be annexed should pay its proportionate share of all costs previously paid for by other properties within said zone and shall in said resolution fix the amount to be contributed by each parcel.

The people of the State of California do enact as follows:

SECTION 1. Section 70 of the Antelope Valley-East Kern Water Agency Law (Sections 49 to 96, inclusive, Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 70. Any portion of the Antelope Valley-East Kern Water Agency whether contiguous or not to an improvement district thereof may be annexed to said improvement district in the following manner. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the agency, signed by holders of title to sixty percent (60%) or more of the land in the portion proposed to be annexed, which land as so represented in said petition shall have an assessed valuation of not less than fifty percent (50%) of the land so proposed to be annexed. The petition shall contain the following: (a) a description of the area proposed to be annexed, which may be made by reference to a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the area proposed to be annexed, or in any other definite manner; (b) the terms and conditions upon which said proposed area may be annexed as theretofore determined by resolution adopted by the board of directors of the agency; and (c) a prayer that the board of directors declare such area to be annexed to the improvement district. Said petition shall be accompanied by a certified check payable to the order of the agency in sufficient sum to reimburse said agency for expenses of processing and publishing the petition and preparing and making the filings required by law.

Within 10 days of the date of the filing of such petition the secretary of the agency shall examine the same and ascertain whether or not such petition is signed by the required number of property owners; and, if requested by the secretary of the agency, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the secretary of the agency has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of property owners, or is not so signed, he shall certify that the same is sufficient, or insufficient, as the case may be.

If by the certificate of the secretary of the agency the petition is found to be insufficient, said petition may be amended by filing a supplemental petition or petitions within 10 days of the date of such certificate. The secretary of the agency shall within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If by the certificate of the secretary such petition, or petition as amended, is shown to be sufficient the secretary shall cause notice of hearing on the petition to be published and posted without delay.

The text of said petition shall be published pursuant to Section 6066 of the Government Code prior to the time at which the same is to be presented to the board of directors of the agency in at least one newspaper printed and published in the Antelope Valley-East Kern Water Agency, if there is a newspaper printed and published in such agency, together with a notice stating the time and place of the meeting at which the same will be presented. Such hearing may be continued from time to time by the board of directors of the agency. At the conclusion of the hearing, and if the board of directors finds and determines from the evidence presented at said hearing that the area proposed to be annexed to an improvement district will be benefited thereby, and that the improvement district to which said area proposed to be annexed will also be benefited thereby and will not be injured thereby, then and in such case the board of directors of the agency may, by resolution, approve such annexation, describing the territory so annexed, which may be by reference to a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the annexed area, or in any other definite manner, and the terms and conditions of annexation as theretofore determined by resolution of the board of directors.

From and after the date of the adoption of such resolution the area named therein shall be deemed added to and shall form a part of said improvement district and the taxable property therein shall be subject to taxation thereafter for

the purposes of said improvement district, including the payment of the principal of and interest on bonds and other obligations of such improvement district at the time authorized and outstanding at the time of said annexation as if said annexed property had always been a part of said improvement district, and the board of directors of the Antelope Valley-East Kern Water Agency shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized.

The owner or custodian of such seeds upon demand shall have the right to a hearing before the director or the commissioner as to the justification of any such order, and may appeal to the director from any order of the commissioner made under the provisions of this section. 919. Such affidavits shall state all of the facts necessary to support the claim of the contractor, and shall also state his address within this State for the purpose of permitting service by mail upon him of any

counteraffidavit, notice of motion, or other notice or legal document.

The department head, board, commission, or officer thereof, shall serve upon the claimant, either personally or by mail, a copy of the affidavit, together with a written notice stating that the affidavit and demand for release has been received and that such department head, board, commission, or officer thereof will release such moneys or bonds, or such portion of either as has been demanded, unless the claimant files with such department head, board, commission, or officer thereof, a counteraffidavit on or before a time designated in the notice, which shall be not less than 10 nor more than 20 days after service of the copy of such affidavit. Service by mail shall be complete by placing the notice and copy of the affidavit in a sealed envelope addressed to the last known address of the claimant, registered with return receipt requested, and depositing it in the United States mail with postage fully prepaid. Proof of service, either personally or by mail, shall be made by an affidavit.

If the claimant desires to contest the contractor's affidavit and demand for release, he shall, within the time allowed, file with the department head, board, commission, or officer thereof, a counteraffidavit alleging the details of his claim and shall also set forth in detail the specific basis upon which he contests or rebuts the claim or claims of the contractor, together with proof of service of a copy of such counteraffidavit upon the contractor.

The department head, board, commission, or officer thereof, shall not be responsible for the validity of said affidavit or counteraffidavit.

If no such counteraffidavit with proof of service is filed with the department head, board, commission, or officer thereof, within the time allowed, then such department head, commission, or officer thereof, shall forthwith release the moneys or bonds, or such portion thereof as has been demanded by such affidavit, without further notice to the claimant and shall not be liable in any manner for making such release.

If such counteraffidavit, together with proof of service, is so filed, either the contractor or the claimant may file an action in the appropriate superior court for a declaration of his rights in and to such moneys or bonds as have been withheld under the original notice, together with such other relief as may be appropriate. After the filing of a suit requesting such a declaration of rights, either the contractor or the claimant shall be entitled to a hearing in the court in which the action is pending for the purpose of determining his rights under the affidavit and demand for release of such moneys or bonds or any portion of either of them and the counteraffidavit. Such hearing must be granted by the court upon motion of either party, and such hearing must be had within 15 days from the date of making of such motion, unless continued by the court for good cause. The party making the motion for hearing must give not less than five days notice in writing of such hearing to the department

head, board, commission, or officer thereof, and to the other party, and shall specify in the notice that the hearing is for the purpose of determining the sufficiency of and the issues involved in the demand for release of such moneys or bonds. The notice may be of the motion or of the hearing, and upon the filing of the notice with the clerk of the court, the motion is deemed made.

At such hearing, the contractor who has filed the affidavit and made the demand for the release of such moneys or bonds shall have the burden of proof. The affidavit and counteraffidavits shall be filed with the court by the department head, board, commission, or officer thereof, who received them, and they shall constitute the pleadings, subject to the power of the court to permit an amendment in the interest of justice. The affidavit of the contractor shall be deemed controverted by the counteraffidavit, and both shall be received in evidence.

Nothing herein contained shall be construed to deprive any party of the right of a jury trial in any case where such right is given by the Constitution, but a jury trial may be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury and no evidence other than the affidavit and counteraffidavit is offered, if the court is satisfied that sufficient facts are shown thereby, it may make its determination thereon, otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counteraffidavits. At the conclusion of the hearing, the court shall make and enter its order determining whether the demand for release of such moneys or bonds shall be allowed or not, which order shall be determinative as to the right of the claimant to have the moneys or bonds further withheld by the department head, board, commission, or officer thereof. No determination in the summary proceedings under this section shall be res adjudicata with respect to any right of action by the claimant against either principal or surety on or under the statutory labor and material bond given under Sections 4200 to 4208, inclusive, of the Government Code, commonly referred to as the California Public Works Bond Act, or with respect to any right of action against any party personally liable to claimant. The contractor shall, either personally or by mail, serve a copy of said order on the appropriate department head, board, commission, or officer thereof.

(d) In the event the moneys so withheld or required to be withheld shall be insufficient to pay in full the valid demands of all persons by whom such notices were given, the same shall be distributed among such persons in the same ratio that their respective claims bear to the aggregate of such valid demands. Such pro rata distribution of said moneys shall be made among the persons entitled to share therein, without regard to the order of priority in which their respective notices may have been given or their respective actions, if any, commenced.

(e) Any person who shall willfully give a false notice of his claim to the owner or who shall willfully include in his claim work or materials not performed upon or furnished for the property described in such notice shall forfeit all right to participate in the pro rata distribution of such moneys and all right to any lien under this chapter.

(f) Nothing in this article contained shall be construed to impair in any manner the right of any person by whom such notice has been given to recover from the contractor or his sureties any deficit that may remain unpaid after such pro rata distribution in an action upon the bond provided for by Section 4200 of the Government Code.

(g) The word "owner" as used in this section, includes the State, or any public board, commission, or officer, thereof, or any political subdivision thereof, whether the said work be done by or under the direction of said State, public board, commission, or officer thereof, or any political subdivision thereof.

(h) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, may, in any instance in which the funds with which the cost of the work of improvements are, wholly or in part, to be defrayed from the proceeds of a building loan, give to the mortgagee, beneficiary under deed of trust, or assignee or successor in interest of either, or to any escrow holder or other party holding any funds furnished or to be furnished by the owner or lender or any other person as a fund from which to pay construction costs or arising out of a construction or building loan, a notice similar to the one provided for in subdivision (a) of this section, whereupon the person so given such notice under this subsection may withhold funds to answer such claims and any lien that may be filed therefor, but shall be under no obligation to do so unless a bond is furnished as hereinafter provided.

If such person entitled to file such a claim under this subsection files with the person holding such funds as a fund from which to pay such construction costs, a bond with good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, undertaking that if the defendant recovers judgment in an action brought on said verified claim or on the lien filed by the claimant, the lien claimant will pay all costs that may be awarded against the owner, contractor, or person holding such funds, or any of them, and all damages that such owner, contractor, or person holding such funds may sustain by reason of the equitable garnishment effected by the claim or by reason of the lien, not exceeding the sum specified in the undertaking, then the person holding such funds must withhold from the borrower or other person to whom said owner may be obligated to make payments or advancements out of said fund sufficient money to answer such

claim, and any lien that may be filed therefor. No assignment by the owner or contractor of construction loan funds, whether made before a verified claim is filed, or after such claim is filed shall be held to take priority over claims filed under this subsection (h) and such assignment shall have no binding force insofar as the rights of claimants who file claims hereunder are concerned.

(i) If the contractor, subcontractor, or any other person against whom any claim is filed under subsection (h) above, or if the owner, mortgagee, beneficiary under deed of trust, escrow holder or any other person, disputes the correctness or validity of any claim so filed on private construction work, the contractor, subcontractor, owner or any such other person disputing such claim, may file with the custodian of such fund a bond executed by good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, which bond shall guarantee the payment of any sum not exceeding the penal obligation of the bond, which the claimant may recover on the claim, together with his costs of suit in the action, if he recovers therein. Upon the filing of such last mentioned bond the funds withheld to respond to the verified claim shall forthwith be released.

(j) Subsections (h) and (i) above shall not apply to public work; nor shall either of such sections be applicable if in connection with a private work of improvement any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such Section 1185.1, and has been recorded in the office of the county recorder at any time prior to the filing of the first verified claim or notice to withhold.

(k) To be effective any verified claim or notice to withhold filed under subsection (h) served upon a banking corporation or association, building and loan association, title insurance company, escrow holder or other person holding such construction funds, and maintaining branch offices must be given to or served upon the manager or other responsible officer or person at the office or branch thereof administering or holding such construction funds.

(*l*) Any verified claim or notice to withhold may be served by registered mail with the same effect as by personal service.

(m) If the person holding the funds objects to the sufficiency of the sureties on the bond referred to in subsection (h) above, he must give notice in writing to the claimant within 20 days after the service of the notice provided for in subsection (h) that he so objects, in which event the claimant may within 10 days after the receipt of such written objection substitute for the bond so objected to a similar bond in like amount executed by a corporate surety licensed to write such bonds in the State of California, and if the claimant fails to do so the party served with such verified claim or notice to withhold may disregard the same and release all funds withheld in response thereto.

SEC. 2. Section 23 of said act is amended to read:

Sec. 23. The board of supervisors shall annually, not later than the first Monday in September, levy an assessment tax upon the taxable real property in the district sufficient to raise the amount stated in the annual budget, and also an assessment tax sufficient to raise the amount required for payment of principal and interest of bonds of the district. The board of supervisors shall determine the rate of each such assessment tax in the district and separately in any assessment district or zone if so requested by the board of directors of the district pursuant to the provisions of Section 22(a) hereof by deducting 10 percent for anticipated delinquencies from the total assessed value of the taxable real property in the district as it appears on the assessment roll of the county and then dividing the sum to be raised by the remainder of such total assessed value in the district and separately in any assessment district or zone which is the subject of a request pursuant to the provisions of Section 22(a) hereof; provided, that if a fraction of a cent occurs on a valuation of one hundred dollars ($100) it shall be taken as a full cent. The assessment tax levied during any year for all purposes other than bond

Such petition shall be filed and checked as in the case of a petition for the formation of a district, and if the clerk finds it is signed by the requisite number of qualified signers, he shall so certify in writing to the legislative body and such certification shall be conclusive as to the sufficiency of the petition. If such petition is filed and is certified as sufficient, the legislative body shall so find by resolution and thereafter the limit specified in Section 31569.1 shall be applicable to the district.

SEC. 2. Section 31593 of said code is amended to read:

31593. At any time subsequent to the adoption of the ordinance ordering the acquisition and improvement and declaring the district formed but before the confirmation of the assess-

ment the legislative body may decrease, change or otherwise modify the acquisition and improvement after notice and hearing in the same manner as provided in Sections 31557 to 31560. In proceedings under this section the legislative body shall not decrease, change or otherwise modify the acquisition and improvement unless following the hearing it determines that all of the lands in the district as originally formed or the district as changed pursuant to Section 31593.5, as the case may be, will be benefited by the acquisition and improvement remaining after such decrease, change or modification. Any such decrease, change or modification shall be effected by an ordinance amending the ordinance ordering the acquisition and improvement and declaring the district formed, and thereafter further proceedings under this part shall be taken pursuant to such ordinance as amended. The term "decrease, change or otherwise modify" includes the addition of acquisitions or improvements and also includes the substitution of additional acquisitions or improvements in lieu of acquisitions or improvements eliminated. If a condemnation action has been brought on any property eliminated, such action may be dismissed as to the property eliminated even though an interlocutory judgment has been entered, and a further condemnation action may be brought as to any property added or substituted for any property eliminated.

SEC. 3. Section 31593.5 of said code is amended to read:

31593.5. At any time subsequent to the adoption of the ordinance ordering the acquisition and improvement and declaring the district formed but before the confirmation of the assessment the legislative body may change the boundaries of the district after notice and hearing in the same manner as provided in Sections 31551 to 31555. In proceedings under this section the legislative body shall not change the boundaries of the district unless following the hearing it determines that all of the lands in the district as changed will be benefited by the acquisition and improvement originally ordered or the acquisition and improvement as changed pursuant to Section 31593, as the case may be. Any such change in boundaries shall be effected by an ordinance amending the ordinance declaring the district formed, and thereafter further proceedings under this part shall be taken pursuant to such ordinance as amended. Proceedings under this section may be combined with proceedings under Section 31593.

SEC. 4. Section 31828 of said code is amended to read:

31828. If the board determines that the revenues from fees, charges, and rentals exceeds the amounts necessary for the proper maintenance, operation, repair and improvement of the parking places, and the acquisition of additional parking places, upon the order of the board the surplus revenue may be applied as a credit to each assessment in the proportion which the principal amount of each assessment bears to the total principal amount of all the assessments. The credit to

SEC. 5. Section 31829 of said code is amended to read:

31829. If the assessment has been paid in cash, the credit shall be returned in cash to the person who paid the corresponding assessment, upon his furnishing satisfactory evidence of such payment.

SEC. 6. Section 31830 of said code is amended to read:

31830. If the assessment is unpaid, the credit shall be applied upon the earliest unpaid installment or installments of principal and interest and any excess over the total principal and interest remaining unpaid shall be returned as provided in Section 31829.

SEC. 7. Section 31860 of said code is amended to read:

31860. At any time, either before or after the formation of the district, the legislative body may provide by ordinance that, for a period specified in the ordinance but not exceeding 25 years from its operative date, all or any specified amount, portion or percentage of revenues derived by the city from parking meters on streets within the district shall be used for the purposes specified in the ordinance which may include the acquisition, improvement, maintenance, repair, and operation of parking places for the use and benefit of the district. The purposes specified in the ordinance may also include the application of such revenues as a credit upon the levied assessments in the same manner as is provided in Sections 31828, 31829 and 31830. From the operative date of the ordinance such revenues shall for the period specified be placed in such fund or funds of the district as the board of commissioners specify and may be expended only for the purposes specified in the ordinance.

SEC. 8. Section 31866.5 is added to said code, to read:

31866.5 As a condition to the granting of a petition for inclusion under Section 31866, the legislative body, with the approval of the board of parking place commissioners, may require that the owner pay to the city an amount in addition to the amount required by and computed under Section 31866, which additional amount shall not exceed an amount deemed by the legislative body to be reasonable in light of the elapse of time and changes in circumstances since the levy of prior assessments and special ad valorem tax levies. Such additional amount shall be placed in such fund as the board directs and may be used for the purposes specified in Section 31866.

SEC. 9. Section 31867 of said code is amended to read:

[Approved by Governor May 8, 1963. Filed with Secretary of State May 8, 1963]

The people of the State of California do enact as follows:

SECTION 1. Section 10163 of the Insurance Code is amended to read:

10163. Except as provided in the third paragraph of this section, the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding extra premiums on a substandard policy, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) two percent (2%) of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; (iii) forty percent (40%) of the adjusted premium for the first policy year; (iv) twenty-five percent (25%) of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less. In applying the percentages specified in (iii) and (iv) above, no adjusted premium shall be deemed to exceed four percent (4%) of the amount of insurance or uniform amount equivalent thereto.

In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this section shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy, provided, however, that in the case of a policy providing a varying amount of insurance issued on the life of a child under age 10, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age 10 were the amount provided by such policy at age 10.

The adjusted premiums for any policy providing term insurance benefits by rider or supplemental policy provision unless such term insurance benefits are disregarded under Section 10164 shall be equal to (a) the adjusted premiums for an otherwise similar policy issued at the same age without such term insurance benefits, increased, during the period for which premiums for such term insurance benefits are payable, by (b) the adjusted premiums for such term insurance, the foregoing items (a) and (b) being calculated separately and as specified in the first two paragraphs of this section.

Except as otherwise provided in Section 10163.5, all adjusted premiums and present values referred to in this article shall for all policies of ordinary insurance be calculated on the basis of the Commissioners 1941 Standard Ordinary Mortality Table; provided, however, that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated, at the option of the insurer, according to an age not more than three years younger than the actual age of the insured, and such calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding three and one-half percent (3½%) per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits However, in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred thirty percent (130%) of the rates of mortality according to such applicable table; and for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the commissioner.

SEC 2. Section 10163.5 of said code is amended to read:

10163.5. (a) In the case of ordinary policies issued on or after the operative date of this subsection as defined herein, all adjusted premiums and present values referred to in

this article shall be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table and the rate of interest, not exceeding three and one-half percent (3½%) per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits; provided, that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured; provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1958 Extended Term Insurance Table; provided further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

SEC. 7. Part 7 (commencing with Section 12950) is added to Division 6 of said code, to read:

PART 7. PROJECT COSTS FOR LOCAL GOVERNMENTAL SERVICES

12950. It is declared to be the responsibility of the State of California to assist local governments in providing certain essential services and facilities where water resource construction projects financed, in whole or in part, by the State or by the State jointly with the federal government create an undue burden on a local area's ability to provide these services and facilities. State responsibility for providing financial assistance under such circumstances includes the following: police and fire protection, public health and hospitals, sanitation, emergency and indigent relief, and such other activities for which there is a demonstrated urgent need and which are approved by the State Department of Finance and the State Department of Water Resources.

12951. State expenditures and loans for aid to local governments provided in accordance with the provisions of this part are a part of the project cost of the project giving rise to the creation of the impact area.

12952. The Governor may designate, from time to time, and may revoke previous designations of, the area within a 20-mile airline radius of the site of principal construction of any water construction project undertaken by the State as an impact area when:

(a) He is requested to do so by the county board of supervisors or the city council of any county or city within the impact area; and

(b) He finds that:

(1) Such construction will cause a sudden influx of people into the impact area.

(2) The construction will require more than 12 months to complete.

(3) The construction will result in serious fiscal problems to the affected local governments.

(4) Peak construction employment on the project within the impact area is estimated by the Department of Water Resources to total more than 500 employees.

(5) The increase in population in the impact area, found by multiplying such peak construction employment as estimated by the Department of Water Resources by 4.5, equals at least 20 percent of the estimated population in the area on July 1st of the year prior to the date that construction was started. At any time that the increase in population falls below 20 percent of the estimated population of the area, the designation shall terminate as of the following June 30th. All population data are to be determined by the Department of Finance.

12953. For the purposes of this part the Department of Water Resources shall designate the site of principal construc-

tion of every water construction project undertaken by the State, and the date construction was started.

12954. As used in this part, "peak employment" means the largest number of persons employed in any one year at a site of principal construction and at such other sites as may be related directly thereto within the impact area by the Department of Water Resources, contractors and subcontractors in connection with the construction project.

12955. Requests by any city, county, or district to have an area designated an impact area may be made at any time after the authorization of a water resources project by the Legislature. Except with respect to assistance during the first year of construction or during the first year after enactment of a law providing state aid, requests for financial assistance under provisions of this part shall be made at least six months prior to the beginning of the fiscal year for which the assistance is requested.

12956. When an impact area has been designated by the Governor the State will pay:

(a) The increased operating expenses necessitated by population increase within the impact area for maintenance of police and fire protection, public hospitals, public health and sanitation and such other activities as may be approved by the Department of Finance and the Department of Water Resources at the same level of service as prevailed within or for the impact area prior to the start of the construction. A subsequent increase in the level of a specific service may be approved by the State Department of Finance. Level of service shall be measured by the ratio of personnel or facilities serving the impact area to the total population within the same area. The portion of the construction-generated population expected to reside within the impact area shall be estimated by the Department of Water Resources for each fiscal year in which the State provides financial assistance under this part to any governmental agency.

(b) Seventy-five percent of the increased cost to the county of emergency and indigent relief provided by the county under the provisions of Chapter 2 (commencing at Section 2500) of Division 4 of the Welfare and Institutions Code at standards that existed prior to the start of construction. An increase in such standards may be approved by the State Department of Finance. The State will also pay all necessary increased costs resulting from personnel, office, and automobile expenses created by an increase in the emergency and indigent caseload, as determined by the Department of Finance.

12957. Funds for capital outlay expenditures for police and fire protection, essential health services, and water and sewerage systems required to serve the expanded population in the impact area may be provided to any city, county, or district rendering, in whole or in part, any of the services described in Section 12950, upon their application under either

or both of the following options to be exercised by the local governing bodies:

(a) A loan by the State to the local agency for all or any part of such expenditures; such loans to be entirely repaid within 30 years at a rate of interest one-quarter of 1 percent higher than the interest cost to the State for long-term loans at the time of the loan.

(b) Direct state expenditures to meet all or any part of such needs. Direct state expenditures shall be for temporary facilities which shall be dismantled upon completion of the water project construction.

12958. Upon the designation of an impact area by the Governor, the State Department of Finance shall recommend the appropriation of funds and the division of state assistance among the local governments in the impact area. For this purpose the State Department of Finance shall be given access to such records and documents as may be necessary to accomplish this objective by the affected local governments.

12959. Notwithstanding any other provision of this part, except as to projects constructed by the Department of Water Resources, the maximum amount of money paid under this part shall not exceed that proportion of the total cost of the needed assistance as the amount of the State's financial participation in a project bears to the total cost of the project.

12960. When certified by the Department of Water Resources, claims of local agencies for state financial assistance shall be presented to the State Controller for payment out of funds made available therefor. The State Controller shall make such audit as he deems necessary, before or after disbursement, for the purpose of determining that any money received by any city, county, or district as state financial assistance hereunder has been expended for the purposes and under the conditions authorized under this division.

12961. This part shall be known, and may be cited, as the Byrne Act.

19418. With respect to any apportionment made to a school district prior to the effective date of the amendment of Section 5046, the predecessor of Section 19407, made by Chapter 16 of the Statutes of 1950 (Third Extraordinary Session), the board may, on the application of the governing board of said district make additional apportionments to the school district for the purchase of such furniture as is authorized by Section 19407. An apportionment made under this section shall be final if the original apportionment has become final; otherwise it shall become final if and when the original apportionment becomes final.

All provisions of this chapter (Sections 19104 to 19186, inclusive) shall apply to apportionments made under this section, except Sections 19414, 19422, 19423, and 19426, exclusive of the second paragraph of said Section 19426, and such other provisions as may relate to applications and eligibility for apportionments.

When transferred to the General Fund, such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

SEC. 24. Section 19632 of said code is amended to read:

19632. Whenever a school district receives or has received an apportionment for or toward the purchase or improvement of realty or personalty (hereafter referred to as "property") and within five years from the date of the written authorization from a duly authorized representative of the board for the expenditure therefor from state funds or from contributable district funds, sells, leases, exchanges or otherwise disposes of such property or any portion thereof without the consent of the board, the board may demand the return of the state apportionment or such portion thereof it deems proper, plus accrued interest at the prescribed rate, less any repayment made prior to such demand by the district on account of said apportionment. A district may not at any time while an apportionment remains unpaid or noncanceled, dispose of any property acquired therefrom without the consent of the board, excepting transfers provided for by Article 6, Chapter 2, Division 12 of the Education Code, and existing improvements on an acquired site. Such consent may be subject to such conditions as may be imposed, which may include the application of the consideration received in reduction of any apportionments previously made to the district. Any property into which the consideration from such disposition is converted shall be and remain the property of the State as if an apportionment had originally been authorized therefor.

Whenever, in the judgment of the board, a district fails to use property for the purpose or purposes for which an apportionment has been made, within not less than one nor more than five years from the aforesaid authorization, as the board shall determine, the board may demand back the return of the apportionment, or portion thereof, with interest, as specified in the preceding paragraph. The board's interpretation of such "use" in any instance, and whether or not the district has complied therewith, shall be conclusive upon the district affected after a hearing and finding of the board. In addition to the foregoing, the board may at any time subsequent to the expiration of the last mentioned period, while an apportionment remains unpaid or uncanceled, determine that a site or portion thereof, purchased in whole or in part with said apportionment is not being used for the purpose or purposes for which such apportionment was made, which determination shall be conclusive upon the district after a hearing and finding of the board. Pursuant to such determination, the board may direct the sale or other disposition of such site or portion thereof by the State or by the district and apply the proceeds, after deducting expenses it determines necessary to facilitate such disposition, in reduction of said apportionment, plus accrued interest. Any excess shall be applied in reduction of any other unpaid or noncanceled apportionments, plus interest, as the board shall direct, any remaining proceeds thereafter being payable to the district. For the purposes of such

determination of disposition, the district shall, whenever directed by the board, convey record title to such site or portion thereof to the State and/or do any other acts deemed necessary by the board to facilitate such disposition or implement the terms thereof. Any disposition authorized to be made hereunder by the district shall be made in accordance with the procedure prescribed by the Education Code for the disposition of unneeded school property, otherwise as directed by the board, provided that the consideration to be received shall be subject to the approval of the board or its delegate for that purpose.

Written notice of any demand prescribed by this section, setting forth the amount due the State pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the State Controller. Upon receipt of such notice and demand, the governing board of the school district shall, at the time of the next county settlement following receipt of such notice, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

Whenever a school district receives or has received an apportionment under this chapter for the purchase of a site which contains existing improvements, the board may require the district to dispose of such existing improvements as a condition of receiving an apportionment in such manner as the board deems proper, and contribute the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment. In the event that the district is not so required to dispose of such existing improvements but after receiving such apportionment subsequently disposes thereof, the net proceeds therefrom or the value of the consideration received therefor, shall be contributed by the district in reduction of any remaining indebtedness to the State under this chapter or Chapter 8 (commencing with Section 19401) of this division of the Education Code.

Where a district has been unable to use any building site acquired by an apportionment under this chapter because of the delay of the board in acting upon its application for an apportionment for the planning and construction of school buildings on such site, the board may withhold demand for repayment of the apportionment for such building site for a period of not less than one or more than three years after approval of the apportionment for planning and construction.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as pro-

vided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

Whenever the consent of the board is required in this section, it may be given by written authorization of its authorized representative for that purpose. The provisions of this section, including the term "apportionment" or "apportionments," shall be deemed to be applicable to apportionments heretofore or hereafter made under this chapter or Chapter 8 (commencing with Section 19401) of this division.

SEC. 25. Section 20303 of said code is amended to read:

20303. The county superintendent of schools of each county may make temporary transfers from the county school service fund of his county in such amounts and at such times as he deems necessary to meet expenses incurred with the approval of the Superintendent of Public Instruction for the education and care of Indian children attending the public schools of the county. The amounts transferred shall be repaid to the county school service fund from the apportionments of federal funds subsequently received in the county Indian school reimbursement fund.

SEC. 26. Section 20304 of said code is amended to read:

20304. Such portion of the money received in the county Indian school reimbursement fund as is not required for repayment of temporary transfers made from the county school service fund may be expended by the county superintendent of schools for the education and care of Indian children attending the public schools of the county in accordance with the provisions of a contract between the State Department of Education and the federal government and subject to the approval of the Superintendent of Public Instruction.

SEC. 27. Section 22601.5 of said code is amended to read:

Commencing on March 1, 1961, the terms of the appointive trustees shall be eight years, except that the 16 appointive trustees serving on February 28, 1961, shall have new terms of office which they shall classify by lot so that two of the terms of such appointive members shall expire on the first day of March of each calendar year commencing in 1962 and ending in 1969.

SEC. 28. Section 25392 of said code is amended to read:

25392. Any subcontractor or agent or employee of any contractor or subcontractor, who has knowledge of any work being done in violation of any contract under this chapter and does not immediately notify the trustees or the inspector or resident engineer upon the project of the violation, is guilty of a felony.

29057. Bylaws may be adopted and amended by the trustees except as otherwise provided in the articles or the bylaws. The bylaws may set forth the particular officers or persons in the grand lodge, conference, assembly, or other legislative or representative head entitled to vote as members

of the corporation, and also the manner and method by which the voting is had. The bylaws may limit or restrict the power of the trustees to adopt, amend, or repeal bylaws. After the limitation or restriction is made it shall be complied with unless it is removed with the consent of the officers or persons entitled to vote as members. Where applicable the provisions of Section 9400 to 9404, inclusive, of the Corporations Code apply to the bylaws.

SEC. 8. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Substantial reductions in the amount of milk and dairy products sold have recently occurred because of inadequate and misleading public information in respect to the dairy industry and its products. It is necessary that additional funds be expended immediately for the purpose of properly informing the consuming public of the importance of the use and consumption of milk and other dairy products in relation to the public health, economy and diet and proper nutrition of children and adults.

[Approved by Governor May 10, 1963. Filed with Secretary of State May 10, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 583 of the Probate Code is amended to read:

583. No executor or administrator may purchase any property of the estate, or any claim against the estate, directly

or indirectly, nor be interested in any such purchase; and if he pays any claim for less than its full amount he may have credit in his accounts only for the amount actually paid.

Nothing in this section shall prevent the exercise, pursuant to the provisions of this code, of any option to purchase real or personal property given in any will duly admitted to probate.

This section does not prohibit purchase of property of an estate by the executor or administrator pursuant to the will of the decedent or a contract in writing made during the lifetime of the decedent, provided the contract is one which can be specifically enforced.

Proceedings for a decree authorizing and directing the conveyance to him of the property pursuant to such contract shall conform to the provisions of Article 3 (commencing with Section 850) of Chapter 14 of this division, and, in addition to the notice therein required, notice of the hearing shall be given by mail at least 10 days before the hearing to all heirs, devisees, and legatees named in the petition for probate of the will or in the petition for letters of administration, as the case may be, and to all persons who have requested notice or who have given notice of appearance as is more particularly provided in Section 1200.1.

Such order shall not be made unless the court shall find that the rights of creditors will not be impaired or shall require bond in an amount and with such surety as the court shall direct or approve. The order shall not be entered unless the court shall find that all inheritance taxes payable in said proceedings have been paid or the State Controller, an inheritance tax attorney or a subordinate inheritance tax attorney has, in writing, consented to the entry of the order by the court.

The petition must be filed within any time limitations stated in the will, or, in any event, within six months after the issuance of letters testamentary or letters of administration with the will annexed; provided, however, that if any time limitation in the will is measured from the death of the testator such time shall be extended by the period between such death and the issuance of such letters but in no event to more than six months after such issuance.

An act to amend Section 29007.3 of the Education Code, relating to education, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 10, 1963. Filed with Secretary of State May 10, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 29007.3 of the Education Code is amended to read:

29007.3. No person, either on his own behalf or as the representative of any privately conducted correspondence school or of any private person, firm, association, partnership, or corporation whatever, shall, by personal contact, in California, solicit the sale of or solicit and sell any correspondence course of study beyond high school, of high school level, or below high school level, for a remuneration or other consideration to be provided for such course, unless he holds a valid permit to engage in such activity issued by the State Board of Education. The State Board of Education may delegate its authority to issue this permit to the State Superintendent of Public Instruction.

The State Board of Education, or the State Superintendent of Public Instruction, if such authority has been delegated by the State Board of Education, shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the person's own behalf. Where the person for whom the issuance of a permit is sought is to engage in the activities as a representative, the application shall be made by the correspondence school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted on forms to be furnished by the Bureau of Readjustment Education of the Department of Education. The application shall be accompanied by an application fee of five dollars ($5), which fee

shall be deposited in the General Fund in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit. The bond may be supplied by the correspondence school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual such person or to provide blanket coverage for all persons to be engaged as representatives of a correspondence school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of correspondence courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars ($1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The permittee shall carry the permit with him for identification purposes when engaged in the solicitation of sales and the selling of correspondence courses of study.

No recovery by the correspondence school, or representative thereof, shall be had on any contract for or in connection with a course of study by any person selling or administering such course if the representative of such person, firm, association, partnership or corporation was not the holder of a permit as required by this section at the time that such representative negotiated the contract for or sold such course.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study shall, if the plaintiff is the prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education made pursuant to this section.

The issuance of a permit pursuant to this section shall not be interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education has made, any evaluation, recognition, accreditation or endorsement of any correspondence course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with respect to the possessor and that he has submitted satisfactory evidence of good moral character.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act would authorize the State Board of Education to delegate to the Superintendent of Public Instruction its authority to issue permits to sell or solicit the sale of correspondence school courses. In order that this authorization become effective as soon as possible to alleviate many hardship cases preventing the employment of persons as salesmen which arise from delays in the issuance of permits caused by infrequency of meetings of the State Board of Education at which permits may now be issued, particularly in the summer months, it is necessary that this act take effect immediately.

Any reductions authorized to be made in the amount of the improvement security shall be effected by a refund from any cash deposits made or a partial release of any surety bond or instrument of credit furnished.

The people of the State of California do enact as follows:

SECTION 1. Section 17742 of the Revenue and Taxation Code is amended to read:

17742. (a) Except as otherwise provided in Articles 1 to 6, inclusive, of this chapter, the income of an estate or trust is taxable to the estate or trust. The tax applies to the entire taxable income of an estate, if the decedent was a resident, regardless of the residence of the fiduciary or beneficiary, and to the entire taxable income of a trust, if the fiduciary or beneficiary (other than a beneficiary whose interest in such trust is contingent) is a resident, regardless of the residence of the settlor.

(b) For purposes of this article the residence of a corporate fiduciary of a trust means the place where the corporation transacts the major portion of its administration of the trust.

SEC. 2. Section 17745 of said code is amended to read:

17745. (a) If, for any reason, the taxes imposed on income of a trust which is taxable to the trust because the fiduciary or beneficiary is a resident of this State are not paid when

due and remain unpaid when such income is distributable to the beneficiary, or in case the income is distributable to the beneficiary before the taxes are due, if the taxes are not paid when due, such income shall be taxable to the beneficiary when distributable to him except that in the case of a nonresident beneficiary such income shall be taxable only to the extent it is derived from sources within this State.

(b) If no taxes have been paid on the current or accumulated income of the trust because the resident beneficiary's interest in the trust was contingent such income shall be taxable to the beneficiary when distributed or distributable to him.

(c) The tax on such income which is taxable to the beneficiary under subdivisions (a) or (b) is a tax on the receipt of such income distributed or on the constructive receipt of such distributable income. For purposes of this section income accumulated by a trust continues to be income even though the trust provides that the income (ordinary or capital) shall become a part of the corpus.

(d) The tax attributable to the inclusion of such income in the gross income of such beneficiary for the year such income is distributed or distributable under subdivision (b) shall be the aggregate of the taxes which would have been attributable to such income had it been included in the gross income of such beneficiary ratably for the year of distribution and the five preceding taxable years, or for the period that the trust accumulated or acquired income for such contingent beneficiary, whichever period is the shorter.

(e) In the event that a person is a resident beneficiary during the period of accumulation, and leaves this State within 12 months prior to the date of distribution of accumulated income and returns to the State within 12 months after distribution, it shall be presumed that the beneficiary continued to be a resident of this State throughout the time of distribution.

(f) The Franchise Tax Board shall prescribe such regulations as it deems necessary for the application of this section.

SEC. 3. Section 17745.1 is added to said code, to read:

17745.1. The amendments of Sections 17742 and 17745 made at the 1963 Regular Session of the Legislature shall be applicable only with respect to taxable years beginning after December 31, 1962. Whether or not the income of a trust which is or was accumulated or is or was accumulated and distributed or accumulated and distributable is taxable by California for the years prior to 1963 shall be determined as if Sections 17742 and 17745 had not been amended at the 1963 Regular Session of the Legislature and without inferences drawn from the fact that such amendments were not made applicable with respect to taxable years beginning before January 1, 1963.

Any such rule or regulation, or amendment thereof, shall be adopted and promulgated by the director in conformity with the provisions of Chapter 4.5 (commencing with Section 11371), of Part 1 of Division 3 of Title 2 of the Government Code; provided, that the average weight or measure of the packages or containers in a lot of any such commodity sampled shall not be less, at the time of sale or offer for sale, than the net weight or measure stated upon the package, and provided further, that said rules or regulations applicable to food, as defined in Section 26450 of the Health and Safety Code, insofar as possible, shall not require higher standards and shall not be more restrictive than regulations, if any, promulgated by the Department of Health, Education, and Welfare, Food and Drug Administration, under the provisions of the Federal Food, Drug and Cosmetic Act.

Any lot or package of any such commodity which conforms to the provisions of this section shall be deemed to be in conformity with the provisions of this division relating to stated net weights or measures.

SECTION 1. Section 13365 is added to the Vehicle Code, to read:

CHAPTER 355

An act to add Section 268.7 to the Revenue and Taxation Code, relating to the welfare exemption, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 10, 1963 Filed with Secretary of State May 10, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 268.7 is added to the Revenue and Taxation Code, to read:

268.7. For the purposes of Section 268, "property as to which the welfare exemption was available for any fiscal year commencing during the calendar year 1961" includes property owned by a nonprofit hospital which would otherwise qualify for the welfare exemption, except that at the lien date for that year the articles of incorporation of such nonprofit hospital did not provide that its property was irrevocably dedicated to religious, charitable, scientific, or hospital purposes and that upon its liquidation, dissolution or abandonment the property would not inure to the benefit of any private person except a fund, foundation or corporation organized and operated for religious, hospital, scientific, or charitable purposes, if the nonprofit hospital does all of the following:

(1) Files an affidavit with the assessor that its property was at that time and has been since then irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon its liquidation, dissolution or abandonment the property would not inure to the benefit of any private person, except a fund,

foundation or corporation organized and operated for religious, hospital, scientific or charitable purposes.

(2) Amended its articles of incorporation prior to the lien date for the fiscal year commencing during the calendar year 1962 to provide that its property is irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon its liquidation, dissolution or abandonment, will not inure to the benefit of any private person, except a fund, foundation or corporation organized and operated for religious, charitable, scientific or hospital purposes.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some hospitals qualified for the welfare exemption pursuant to Section 214 had inadvertently failed to include in their articles of incorporation a statement that their property was irrevocably dedicated to religious, charitable, scientific, or hospital purposes as required by subdivision (6) of Section 214 of the Revenue and Taxation Code and as a result thereof their property was taxed for the fiscal year 1961-62, although, in fact, the property was so irrevocably dedicated. If required to meet such tax obligation, the ability of such hospitals to function effectively will be seriously impaired to the great detriment of our State. This act will remedy the situation, and in so doing, the public policy of the State for the exemption of property owned by welfare organizations as expressed in Section 1c of Article XIII of the Constitution will be subserved and the State as a whole will benefit.

640. It is the intent of the Legislature in enacting this article that the numbering of the state highway system be simplified and clarified and that signs placed on highways indicating the numbers thereof designate only one number for each highway wherever feasible. Therefore, the department is directed to take all steps necessary to conform signs designating numbers on the state highway system to the numbers given the routes in this article at the earliest practical time. The department is also directed to use the numbers in this article in designating numbers on highways in the future. The Legislature recognizes that signs on certain routes on the federal interstate highway system in California should designate both U.S. sign numbers and the interstate numbers until such highways are substantially constructed to interstate standards, or until a later time if the department finds it necessary to properly guide motorists. Therefore, notwithstanding any other provision of this section, the department is directed, on any interstate highway it determines to be appropriate, to place or maintain the proper U.S. number thereon, together with the interstate number on the completed portions thereof, until the highway is substantially constructed to interstate standards, or until a later time if the department finds it necessary to properly guide motorists. The Legislature further recognizes that there are instances where one route of travel must coincide with another route of travel, and when this occurs for relatively short distances and notwithstanding any other provision of this section, the Department of Public Works is directed to place signs indicating two or more appropriate route numbers on the same highway where it determines that such is desirable to properly guide motorists.

Sec. 2.3. In addition to its other powers, the board of supervisors shall have the power to permit recreational uses of the flood control district's properties upon a finding by the board of supervisors that said use will not impair or diminish existing or probable future requirements for flood prevention and water conservation. If the board of supervisors permits recreational use of the district's properties pursuant to this section, the board may set charges for such use sufficient to cover the costs of the district, or the estimated costs, incurred by the district in making and maintaining such facilities available for recreational use.

SEC. 2. Section 4 of said act is amended to read:

Sec. 4. The said board of supervisors may at any time remove any or all of the engineers or employees appointed or employed under this act, and may fill any vacancies occurring among them from any cause.

SEC. 3. Section 7 of said act is amended to read:

Sec. 7. The said board of supervisors shall, subject to the provisions of this act, prescribe by ordinance the form of said bonds, and of the interest coupons attached thereto. Said bonds shall be payable substantially in the following manner: The board of supervisors may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series; provided, that the earliest maturity of each issue or series, as the case may be, shall not be more than two years from the

date of the bonds of said issue or series. The final maturity date of any bond shall not exceed 40 years from the date of the bond. Every year beginning with the date of the earliest maturity of each issue or series of bonds, as the case may be, not less than one-fortieth of the whole of the indebtedness evidenced by such issue or such series shall be payable.

The bonds shall be issued in such denomination as the said board of supervisors may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the day and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of 6 per centum per annum, and shall be payable semiannually, and said bonds shall be signed by the chairman of the board of supervisors, and countersigned by the auditor of said Orange County, and the seal of said district shall be affixed thereto. The interest coupons of said bonds shall be numbered consecutively and signed by the auditor of Orange County by his engraved or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds

SEC. 4. Section 8 of said act is amended to read:

Sec. 8. The said board of supervisors may issue and sell the bonds of such district authorized as hereinbefore provided at not less than par value, and the proceeds of the sale of such bonds be placed in the treasury of the County of Orange to the credit of said district, and the proper record of such transactions shall be placed upon the books of said county treasury, and said district fund shall be applied exclusively to the purposes and objects mentioned in the ordinance calling such special bond election as aforesaid, subject to the provisions in this act contained. Whenever the acquisition of existing drainage works are included within the purposes and objects in the ordinance calling such special bond election and when subsequent to such an election the owner of such existing drainage works declines to transfer such facilities to the Orange County Flood Control District, the board of supervisors may use the proceeds of such bond election which were to be used for the acquisition of such existing facilities for the acquisition of other lands, rights-of-way, easements and for the construction of other flood control facilities. Payments from said district fund shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the County of Orange.

SEC. 5. Section 13½ of said act is amended to read:

SEC. 13½. The board of supervisors of said Orange County Flood Control District, by a four-fifths vote, may accept on behalf of said district a transfer and conveyance of any storm drain improvements, drainage improvements or drainage systems lying within the territorial limits of the flood control district and within any of the following described classes, to wit:

1. Those which were constructed under the jurisdiction, control or supervision of the board of supervisors of the County of Orange and which are under the jurisdiction of said board;

2. Those which were constructed by or for the County of Orange or any drainage district within said county or by or for the Orange County Flood Control District;

3. Those constructed pursuant to the provisions of an act entitled "An act to promote the drainage of wet, swamp and overflowed lands, and to promote the public health in communities in which they lie," approved March 21, 1903, as amended, and those which have been constructed pursuant to the provisions of the Drainage District Improvement Act of 1919, as amended, prior to January 1, 1939;

4. Those within any incorporated city, town or municipality of the County of Orange whose legislative body has transferred and conveyed such storm drain improvements, drainage improvements or drainage systems to said flood control district and incorporated cities, towns and municipalities lying within the County of Orange are hereby authorized to transfer and convey such storm drain improvements, drainage improvements or drainage systems to said flood control district. Upon the transfer or conveyance to said flood control district of any such storm drain improvements, drainage improvements or drainage systems, to pay the cost and expense of the construction of which bonds have been issued, said flood control district shall thereupon be and become liable for the payment of the principal upon the bonds maturing subsequent to the date of such conveyance and upon the indebtedness represented by interest coupons maturing subsequent to such date of transfer. The board of supervisors of the flood control district shall levy a special tax each year upon the taxable real property in said flood control district sufficient to pay the principal and interest on the bonds as such principal and interest become due subsequent to the date of such conveyance and transfer. Such tax shall be levied and collected on said real property at the time and in the same manner as the general tax levy for county purposes, and when collected shall be paid into the county treasury of said County of Orange and shall be used for the payment of the principal and interest on said bonds and for no other purpose. The principal and interest on such bonds shall be paid from the county treasury of said County of Orange in the manner provided by law for the payment of

principal and interest on bonds of said county. Whenever the acquisition of such drainage facilities has been included within a bond proposal of the flood control district and the electors have authorized the acquisition of such existing facilities and the issuance of bonds therefor, the board of supervisors in lieu of levying a special tax to pay the principal and interest of any bonds which have been heretofore issued and to pay the cost and expense of construction shall use the proceeds of the flood control district bond issue to retire the bonds on the facilities so acquired.

Upon the transfer or conveyance to said flood control district of any such storm drain improvements, drainage improvements or drainage systems, and acceptance by the board of supervisors said flood control district shall thereafter do all things necessary for the proper operation, maintenance, repair and improvement of any such storm drain improvements, drainage improvements or drainage systems.

The board of supervisors of the flood control district shall have power in any year to levy a special tax upon the taxable real property in said flood control district sufficient to pay the cost and expense of operating, maintaining, repairing and improving the storm drain improvements, drainage improvements, or drainage systems so conveyed and transferred, which said tax shall be levied and collected at the same time and in the same manner as the general tax for county purposes, and the revenue derived from said tax shall be paid into the county treasury to the credit of said district and said board of supervisors shall have the power to control and order the expenditure thereof for said purposes. Taxes levied under authority of this section shall be separate and distinct from, and shall be in addition to the taxes authorized to be levied under Section 14 of this act.

use of any motor vehicle, shall be issued or delivered in this State to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this State upon any motor vehicle then principally used or principally garaged in this State, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured may by agreement in writing delete the provision covering damage caused by an uninsured motor vehicle. Such deletion by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term "insured" means the named insured and the spouse of the named insured and relatives of either while residents of the same household while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the some household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. The term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder, or a motor vehicle used without the per-

mission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying,

The term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the safety responsibility law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler-treads or while located for use as a residence on premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

(c) The insurance coverage provided for in this section does not apply:

(1) To property damage sustained by the insured

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workmen's compensation carrier or to any person qualified as a self-insurer under any workmen's compensation law.

(5) To establish an exemption as provided in subdivisions (a), (b), and (c) of Section 16057 of the Vehicle Code.

(d) Subject to paragraph (c)(2), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration.

(f) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made.

(g) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver or rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him under any workmen's compensation law exclusive of nonoccupational disability benefits.

(2) By the amounts paid or due to be paid under any valid and collectible automobile medical payment insurance available to the insured.

(3) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(h) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

The people of the State of California do enact as follows:

SECTION 1. Section 307 of the Agricultural Code is amended to read:

307. Nothing in this article restricts or prohibits:

(a) A livestock producer from slaughtering animals on his own premises that are a part of his own herd for his own consumption or from disposing of the carcasses and products of those animals thus slaughtered; provided, they can be identified as such, and are sound, healthful, wholesome, and fit for human food, and are disposed of in his locality; when cattle, sheep, swine or goats are sold by said producer in the vicinity where produced and slaughtered there shall be attached to said meat or meat products a statement giving substantially the following:

I hereby certify that the uninspected meat (or meat products as the case may be) to which this certificate is attached is from animals slaughtered by the undersigned, a farmer, on his farm and that at this date it is sound, healthful, wholesome, and fit for human food.

(b) The slaughter of animals of the bovine species under the age of eight months in establishments located in counties where meat inspection is not mandatory and which meet the sanitary requirements of the department and shipment thereof to counties where state inspection or approved municipal or county inspection is maintained, and said animals so slaughtered shall there be inspected and the carcasses stamped.

(c) Any butcher located in a remote section of a county in which the inspection provisions of this article are mandatory, when in the opinion of the director it is impractical or impossible to assign an inspector, may, upon written application, be granted an exemption certificate to be used in accordance with the regulations of the director; provided, that the meat of animals slaughtered in accordance with such exemption shall be offered for sale only in the immediate locality where the animals were slaughtered. The certificate must be renewed the first day of January of each year. Should facilities for inspection become available at any time, the director is empowered to withdraw such exemption certificate. The director is also empowered to withdraw such exemption certificate when, in his opinion, the person to whom the same is issued has not complied with the rules and regulations pertaining to the use thereof.

(d) The producer or owner of meats from rendering, curing or smoking or having rendered, cured or smoked in his behalf such meats or portions thereof when same are for use for purposes other than sale; provided, however, that any meats or portions thereof referred to in this paragraph which have originated from any carcass which has not been officially inspected shall not be rendered, cured, or smoked in an establishment wherein federal, state or municipal meat inspection is maintained. The operator of an establishment who renders, cures or smokes meat for a producer or owner of such meat shall keep accurate and sufficient records of the amount and kind of meat rendered, cured or smoked for each producer or owner, and such records shall be available for inspection at all times by the director or his authorized representative. Such records shall give the name and address of each person for whom meat is rendered, cured or smoked.

SEC. 2. Section 311.1 of said code is amended to read:

311.1. Inasmuch as it can not be determined for certain, by any present known method of inspection, whether meat is unwholesome unless the organs and other tissues of an animal are inspected when slaughtered, and as meat and products thereof from uninspected animals may be unfit for human food, the director shall seize and destroy for human food purposes any meat or meat food product that does not bear the "Inspected and Passed" stamp, brand, mark, or label, as provided by this article; provided nothing herein shall affect the transportation of dead and condemned carcasses of animals to rendering plants; nor the transportation of meat or meat products to which a statement is attached in accordance with the provisions of Section 307, paragraph (a) of this article.

CHAPTER 417

An act to repeal Section 10427 of, and add Sections 10427 and 10427.1 to, the Streets and Highways Code, relating to municipal improvements.

[Approved by Governor May 15, 1963. Filed with Secretary of State May 15, 1963.]

SECTION 1. Section 10427 of the Streets and Highways Code is repealed.

SEC. 2. Section 10427 is added to said code, to read:

10427. After completion of the improvement and the payment of all claims from the improvement fund, the legislative body shall determine the amount of the surplus, if any, remaining in the improvement fund by reason of the assessment and any supplemental assessment levied for said improvement. Any such surplus shall be used, in such amounts as the legislative body may determine, for one or more of the following purposes:

(a) For transfer to the general fund of the city, provided that the amount of any such transfer shall not exceed the lesser of one thousand dollars ($1,000) or 5 percent of the total amount expended from the improvement fund;

(b) As a credit upon the assessment and any supplemental assessment, in the manner provided in Section 10427.1; or

10427.1. If there is no supplemental assessment, the entire amount of the surplus shall be applied as a credit to the assessment. If any supplemental assessment shall have been levied, all or any part of the surplus shall be applied as a credit upon the assessment and any supplemental assessment, or any of them, as the legislative body may determine. Any credit upon the assessment or any supplemental assessment shall be made in the proportion which each individual assessment, or installment of principal thereof, bears to the total of all individual assessments in the assessment or supplemental assessments upon which the surplus is to be credited.

Where an individual assessment, or any installment of the principal thereof, has been paid in cash, the credit shall be returned in cash to the person or persons paying the same upon their furnishing satisfactory evidence of such payment.

Where all or any part of an individual assessment remains unpaid, if said individual assessment is not payable in installments, the credit shall be applied in its entirety upon such individual assessment.

Where all or any part of an individual assessment remains unpaid and is payable in installments, the credit shall be prorated by dividing said credit by the number of principal installments remaining unpaid upon said individual assessment

and a portion of such credit so prorated shall be applied against any principal and interest installments thereafter due in the year such credit is ordered and in each year thereafter. Where an unpaid individual assessment is represented by a bond issued under the Improvement Act of 1911 and an action or proceeding is commenced by any officer or in any court for the enforcement of payment of principal and interest due thereon, if said bond is not reinstated the total amount of all prorated portions of the credit not previously applied against principal and interest installments shall be applied as a credit against the total amount determined to be due in said action or proceeding and such total amount shall be paid in cash as follows:

(a) To the holder of the bond upon cancellation of such bond pursuant to Section 6508, or

(b) To the purchaser of all or any part of the property at any sale thereof upon redemption of the property or, in the event the property is not redeemed, upon the expiration of the period provided by law for redemption.

There shall be transferred to the general fund of the city (i) any portion of the surplus which shall not have been paid to or claimed by the persons entitled thereto within four years from the date of recordation of the assessment and any supplemental assessment, or in the event bonds shall have been issued, within four years after the due date of the last installment upon said bonds or of the last principal coupon attached thereto, and (ii) any interest earned from the investment of any moneys constituting all or any part of the surplus.

SEC. 4. The Legislature declares that the repeal of Section 10427 of, and the addition of Sections 10427 and 10427.1 to, the Streets and Highways Code effected by this act is to implement the recommendations contained in Volume 6, Number 20, of the Final Report of the Assembly Interim Committee on Municipal and County Government, dated December 18, 1962.

[Approved by Governor May 15, 1963. Filed with Secretary of State May 15, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 5220 of the Streets and Highways Code is amended to read:

5220. At any time not later than the hour set for hearing objections to the proposed work, any owner of property liable

to be assessed for the work may make written protest against the proposed work or against the extent of the district to be assessed, or against any agreement entered into pursuant to Section 5103, or any of them. Such protest must be in writing, must contain a description of the property in which each signer thereof is interested, sufficient to identify the same and, if the signers are not shown on the last equalized assessment roll as the owners of such property, must contain or be accompanied by written evidence that such signers are the owners of such property. All such protests shall be delivered to the clerk, and no other protests or objections shall be considered.

SEC. 2. Section 5223 is added to said code, to read:

The legislative body shall be under no duty to obtain or consider any other evidence as to ownership of property and its determination of ownership shall be final and conclusive.

SEC. 3. Section 10011 is added to said code, to read:

10011. "Owner" means the person owning the fee, or the person in whose name the legal title to the property appears, by deed duly recorded in the county recorder's office of the county in which the property is situated, or the person in possession of the property or buildings under claim of, or exercising acts of ownership over the same for himself, or as the executor, administrator, or guardian of the owner. If the property is leased, the possession of the tenant or lessee holding and occupying such property shall be deemed to be the possession of the owner.

SEC. 4. Section 10310 of said code is amended to read:

10310. Any interested person may object to the proposed improvement, the extent of the assessment district, or to the proposed assessment by filing a written protest with the clerk of the legislative body at or before the time set for the hearing. Such protest must contain a description of the property in which each signer thereof is interested sufficient to identify the same and, if the signers are not shown on the last equalized assessment roll as the owners of such property, must contain or be accompanied by written evidence that such signers are the owners of such property. The clerk shall endorse on each protest the date of its receipt, and at the time appointed for the hearing shall present to the legislative body all protests filed with him.

SEC. 5. Section 10311.1 is added to said code, to read:

10311.1. If it shall be necessary, in order to find whether a majority protest exists, to determine whether any or all of

the signers of written protests are the "owners" of property to be assessed, the legislative body shall make such determination from the last equalized assessment roll, any written evidence submitted with a written protest and any other evidence received at the hearing. The legislative body shall be under no duty to obtain or consider any other evidence as to ownership of property and its determination of ownership shall be final and conclusive.

CHAPTER 419

An act to add Section 1405.1 to the Education Code, to add Section 1102.5 to Division 4 of the Education Code as added by Senate Bill No. 718 of the 1963 Regular Session, and to add Section 25412.6 to Division 18.5 as added by Senate Bill No. 78 of the 1963 Regular Session, relating to junior college districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 15, 1963. Filed with Secretary of State May 15, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 1405.1 is added to the Education Code, to read:

1405.1. Notwithstanding the provisions of Sections 937 and 1405, the county superintendent of schools having jurisdiction may call and set the date for an election for the purpose of electing the governing board of the district on the same date that the election is held for the formation of the junior college district. The call for both elections shall be issued at the same time. The election shall be called, held and conducted as are elections for members of the governing boards of elementary school districts.

SEC. 2. Section 1102.5 is added to Division 4 of said code as added by Senate Bill No. 718, to read:

1102.5. Notwithstanding the provisions of Section 1102, the county superintendent of schools having jurisdiction may call and set the date for an election for the purpose of electing the governing board of the district on the same date that the election is held for the formation of the junior college district. The call for both elections shall be issued at the same time. The election shall be called, held and conducted as are elections for members of the governing boards of elementary school districts.

SEC. 3. Section 25412.6 is added to Division 18.5 of said code as added by Senate Bill No. 78, to read:

25412.6. Notwithstanding the provisions of Section 25412, the county superintendent of schools having jurisdiction may call and set the date for an election for the purpose of electing

the governing board of the district on the same date that the election is held for the formation of the junior college district. The call for both elections shall be issued at the same time. The election shall be called, held and conducted as are elections for members of the governing boards of elementary school districts.

SEC. 4. Section 2 of this act shall become operative only if Senate Bill No. 718 of the 1963 Regular Session is enacted by the Legislature at such session and if Senate Bill No. 78 of such session is not enacted by the Legislature at such session, and, in such case, at the same time as said Senate Bill No. 718 takes effect, at which time Section 1405.1 added to, and Section 25412.6 added to Division 18.5 of, the Education Code by this act are repealed.

Section 3 of this act shall become operative only if Senate Bill No. 78 of the 1963 Regular Session is enacted by the Legislature at such session, and in such case, at the same time as said Senate Bill No. 78 takes effect, at which time Section 1405.1, and Section 11025 added to Division 4 of, the Education Code by this act are repealed.

SEC. 5. For purposes of making Section 1405.1 added to the Education Code by Section 1 hereof immediately effective, this act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Section 1405 of the Education Code requires that upon the formation of a junior college district the county superintendent of schools shall within thirty (30) days thereafter call and set the date of an election for the purpose of electing the governing board of the district.

This results in unnecessary duplication of elections and expenses and a lapse of time serving no useful purpose but, to the contrary, delays the commencement of the procedures preliminarily required for the effective operation of the district. This act will make it possible to eliminate the problem and, in order that Section 1405.1, as added by Section 1 hereof, may operate with respect to pending procedure for the formation of junior college districts, it is essential that it go into effect immediately.

Failure to register any water-producing facility, as required by this act, is a misdemeanor punishable by a fine of not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment.

In addition to other information which the district may determine is necessary and may require in the registration form provided, there shall also be given information as to the owner or owners of the land upon which each water-producing facility is located, a general description and location of each water-producing facility, the name and address of the person charged with the operation of each water-producing facility, and the name or names and addresses of all persons owning or claiming to own an interest in the water-producing facility

SEC. 3. Section 26.7 of said act is amended to read:

Sec. 26.7. Prior to the end of the water year in which said hearing is held, and based upon the findings and determinations from said hearing, the board shall determine whether or not a ground water charge should be levied in any zone or zones. If the board determines that a ground water charge should be levied, it shall levy, assess, and affix such charge or charges against all persons operating ground water-producing facilities within such zone or zones during the ensuing water year. The charge shall be computed at a fixed and uniform rate per acre-foot for agricultural water, and at a fixed and uniform rate per acre-foot for all water other than agricultural water. Different rates may be established in different zones; provided, however, that in each zone the rate for agricultural water shall be fixed and uniform and the rate for water other than agricultural water shall be fixed and uniform

The ground water charge in any year shall not exceed a fixed and uniform rate of five dollars ($5) per acre-foot for agricultural water, or a fixed and uniform rate of twenty dol-

lars ($20) per acre-foot for all water other than agricultural water.

Any ground water charge levied pursuant to this section shall be in addition to any general tax or assessment levied within the district or any zone or zones thereof.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly charged, or in the making or extension of any charge upon the records which do not affect the substantial rights of the assessee or assessees, shall not invalidate the ground water charge.

SEC. 4. Section 26.9 of said act is amended to read:

Sec. 26.9. After the establishment of a zone in which a ground water charge may be levied, each operator of a water-producing facility within said zone, until such time as said water-producing facility has been permanently abandoned, shall file with the district, on or before the 31st day of January and on or before the 31st day of July in each year, a statement setting forth the total production in acre-feet of water for the preceding six-months period (excluding the month in which the statement is due), a general description or number locating each water-producing facility and the method or basis of the computation of such water production. If no water has been produced from said water-producing facility during the preceding six-months period, said statement shall be filed as provided for herein, setting forth that no water has been produced during said period. Said statement shall be verified by a written declaration that it is made under the penalties of perjury. The ground water charge is payable to the district on or before the last date upon which the water production statements shall be filed, and is computed by multiplying the production in acre-feet of water for each classification as disclosed in the statement by the ground water charge for each classification of water. At such time as any said water-producing facility has been permanently abandoned, the operator thereof shall give written notice of such abandonment to the district. If any operator of a water-producing facility shall fail to pay the ground water charge when due, the district shall charge interest at the rate of one percent (1%) each month on the delinquent amount of the ground water charge.

Should any operator of a water-producing facility fail to register each water-producing facility, or fail to file the water production statements as required by this act, the district shall, in addition to charging interest as provided herein, assess a penalty charge against such operator in an amount of ten precent (10%) of the amount found by said district to be due.

The board may, at the time of fixing the ground water charge, establish a method or methods to be used in computing the amount of water produced from a water-producing facility which is not measured by a measuring device. Such methods may be based upon any, or all, or a combination of some of the

following criteria: size of water-producing facility discharge opening, area served by the water-producing facility, number of persons served by the water-producing facility, use of land served by the water-producing facility, crops grown on land served by the water-producing facility, or any other criteria which may be used to determine with reasonable accuracy the amount of water produced from such water-producing facility

SEC. 5. Section 26.15 of said act is amended to read:

Sec. 26.15. It shall be unlawful to produce water from any water-producing facility required to be registered pursuant to the terms of this act unless such water-producing facility has been registered with the district within the time required by the provisions of this act and, if required by the board, has a water-measuring device affixed thereto capable of registering the accumulated amount of water produced therefrom.

Violation of this provision shall be punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment. Each day of operation in violation hereof shall constitute a separate offense.

SEC. 6. Section 32 of said act is amended to read:

Sec. 32. The district formed under this act in order to determine the legality of its existence, or any contract entered into by the district, may institute a proceeding therefor in the superior court of this State, in and for the County of Santa Clara, by filing with the clerk of said county a complaint setting forth the name of the district, its exterior boundaries, the date of its organization and a prayer that it be adjudged a legal flood control and water conservation and development district formed under the provisions of this act, or setting forth the name of the district, the parties to and nature of the contract, a copy of the contract, and a prayer that it be adjudged a legal contract. The summons in such proceeding shall be served by publishing a copy thereof once a week for four weeks in a newspaper of general circulation published in said county. The State of California shall be a defendant in such action, and consent therefor is given Service of summons therein shall be made on the Attorney General. The Attorney General shall appear in such action on behalf of the State in the same manner as with appearances in civil actions. Within thirty (30) days after proof of publication of said summons shall have been filed in said proceeding, the State, any property owner or resident in said district, or any person interested may appear as a defendant in said action by serving and filing an answer to said complaint, in which case said answer shall set forth the facts relied upon to show the invalidity of the district, or the contract, and shall be served upon the attorney for said district before being filed in such proceeding. Such proceeding is hereby declared to be a proceeding in rem and the final judgment rendered therein shall be conclusive against all persons whomsoever, including the district and the State of California.

(a) Any party may file and serve upon any adverse party written interrogatories to be answered by the party served or, if the party served is a public or private corporation or a partnership or association, or body politic, by any officer or agent, who shall furnish such information as is available to the party. Interrogatories may be served upon any adverse party at any time after service of the summons or the appearance of such adverse party and without leave of court, except that, if service of interrogatories is made by the plaintiff within 10 days after such service of summons or appearance, leave of court granted with or without notice must first be obtained. The interrogatories shall be answered separately and fully in writing under oath. The answers shall be signed by the person making them; and the party upon whom the interrogatories have been served shall file and serve a copy of the answers on the party submitting the interrogatories within 15 days after the service of the interrogatories, unless the court, on motion and notice and for good cause shown, enlarges or shortens the time. Said answers shall respond to the written interrogatories; or, if any interrogatory be deemed objectionable, the objections thereto may be stated by the party addressed in lieu of response. If the party who has submitted the interrogatories deems that further response is required, he may move the court for an order requiring further response. Such motion must be upon notice given within fifteen (15) days from date of service of the answers or objections. Otherwise, the party submitting the interrogatories shall be deemed to have waived the right to compel answer pursuant to this section. (b) Interrogatories may relate to any matters which can be inquired into under subdivision (b) of Section 2016 of this code, and the answers may be used to the same extent as provided in subdivision (d) of Section 2016 of this code for the use of the deposition of a party. Interrogatories may be served after a deposition has been taken, and a deposition may be sought after interrogatories have been answered, but the court,

on motion of the deponent or the party interrogated, may make such protective order as justice may require. The number of interrogatories or of sets of interrogatories to be served is not limited except as above provided and except as justice requires to protect the party from annoyance, expense, embarrassment or oppression. The provisions of subdivision (b) of Section 2019 of this code are applicable for the protection of the party from whom answers to interrogatories are sought under this section.

(c) Where the answer to any interrogatory may be derived or ascertained from the business records of the party to whom such interrogatory is addressed or from an examination, audit or inspection of such business records, or from a compilation, abstract or summary based thereon, it shall be a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party by whom the interrogatory was proposed reasonable opportunity to examine, audit or inspect such records and to make copies thereof or compilations, abstracts or summaries therefrom.

(d) Service of interrogatories under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

SEC. 16. This is an emergency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 4.5. MAINTENANCE AREAS

SEC. 3. Part 7 (commencing with Section 12950) is added to Division 6 of said code, to read:

PART 7. PROJECT COSTS FOR LOCAL GOVERNMENTAL SERVICES

12950. It is declared to be the responsibility of the State of California to assist local governments in providing certain essential services and facilities where water resource construction projects financed, in whole or in part, by the State or by the State jointly with the federal government create an undue burden on a local area's ability to provide these services and facilities. State responsibility for providing financial assistance under such circumstances includes the following: police and fire protection, public health and hospitals, sanitation, emergency and indigent relief, and such other activities for which there is a demonstrated urgent need and which are approved by the State Department of Finance and the State Department of Water Resources.

12951. State expenditures and loans for aid to local governments provided in accordance with the provisions of this part are a part of the project cost of the project giving rise to the creation of the impact area.

12952. The Governor may designate, from time to time, and may revoke previous designations of, the area within a 20-mile airline radius of the site of principal construction of any water construction project undertaken by the State as an impact area when:

(a) He is requested to do so by the county board of supervisors or the city council of any county or city within the impact area; and

(b) He finds that:

(1) Such construction will cause a sudden influx of people into the impact area.

(2) The construction will require more than 12 months to complete.

(3) The construction will result in serious fiscal problems to the affected local governments.

(4) Peak construction employment on the project within the impact area is estimated by the Department of Water Resources to total more than 500 employees.

(5) The increase in population in the impact area, found by multiplying such peak construction employment as estimated by the Department of Water Resources by 4.5, equals

at least 20 percent of the estimated population in the area on July 1st of the year prior to the date that construction was started. At any time that the increase in population falls below 20 percent of the estimated population of the area, the designation shall terminate as of the following June 30th. All population data are to be determined by the Department of Finance.

12953. For the purposes of this part the Department of Water Resources shall designate the site of principal construction of every water construction project undertaken by the State, and the date construction was started.

12954. As used in this part, "peak employment" means the largest number of persons employed in any one year at a site of principal construction and at such other sites as may be related directly thereto within the impact area by the Department of Water Resources, contractors and subcontractors in connection with the construction project.

12955. Requests by any city, county, or district to have an area designated an impact area may be made at any time after the authorization of a water resources project by the Legislature. Except with respect to assistance during the first year of construction or during the first year after enactment of a law providing state aid, requests for financial assistance under provisions of this part shall be made at least six months prior to the beginning of the fiscal year for which the assistance is requested.

12956. When an impact area has been designated by the Governor the State will pay:

(a) The increased operating expenses necessitated by population increase within the impact area for maintenance of police and fire protection, public hospitals, public health and sanitation and such other activities as may be approved by the Department of Finance and the Department of Water Resources at the same level of service as prevailed within or for the impact area prior to the start of the construction. A subsequent increase in the level of a specific service may be approved by the State Department of Finance. Level of service shall be measured by the ratio of personnel or facilities serving the impact area to the total population within the same area. The portion of the construction-generated population expected to reside within the impact area shall be estimated by the Department of Water Resources for each fiscal year in which the State provides financial assistance under this part to any governmental agency.

(b) Seventy-five percent of the increased cost to the county of emergency and indigent relief provided by the county under the provisions of Chapter 2 (commencing at Section 2500) of Division 4 of the Welfare and Institutions Code at standards that existed prior to the start of construction. An increase in such standards may be approved by the State Department of Finance. The State will also pay all necessary increased costs resulting from personnel, office, and automobile expenses cre-

ated by an increase in the emergency and indigent caseload, as determined by the Department of Finance.

12957. Funds for capital outlay expenditures for police and fire protection, essential health services, and water and sewerage systems required to serve the expanded population in the impact area may be provided to any city, county, or district rendering, in whole or in part, any of the services described in Section 12950, upon their application under either or both of the following options to be exercised by the local governing bodies:

(a) A loan by the State to the local agency for all or any part of such expenditures; such loans to be entirely repaid within 30 years at a rate of interest one-quarter of 1 percent higher than the interest cost to the State for long-term loans at the time of the loan.

(b) Direct state expenditures to meet all or any part of such needs. Direct state expenditures shall be for temporary facilities which shall be dismantled upon completion of the water project construction

12958. Upon the designation of an impact area by the Governor, the State Department of Finance shall recommend the appropriation of funds and the division of state assistance among the local governments in the impact area. For this purpose the State Department of Finance shall be given access to such records and documents as may be necessary to accomplish this objective by the affected local governments.

12959. Notwithstanding any other provision of this part, except as to projects constructed by the Department of Water Resources, the maximum amount of money paid under this part shall not exceed that proportion of the total cost of the needed assistance as the amount of the State's financial participation in a project bears to the total cost of the project.

12960. When certified by the Department of Water Resources, claims of local agencies for state financial assistance shall be presented to the State Controller for payment out of funds made available therefor. The State Controller shall make such audit as he deems necessary, before or after disbursement, for the purpose of determining that any money received by any city, county, or district as state financial assistance hereunder has been expended for the purposes and under the conditions authorized under this division.

12961. This part shall be known, and may be cited, as the Byrne Act.

SEC. 4. The heading of Chapter 6 (commencing with Section 12880) of Part 6 of Division 6 of the Water Code as proposed by Assembly Bill No. 1054 is amended and renumbered to read:

The plans and recommendations shall not be deemed to have been approved unless the proposition of incurring such indebtedness is approved by the percentage of votes required for the passage of a bond issue as provided in Section 18 of Article XI of the Constitution cast in the district or portion thereof which is to incur such indebtedness. [Approved by Governor May 18, 1963. Filed with Secretary of State May 20, 1963.]

4794.1. Notwithstanding Section 4794, the district board may call another election to be held within six months after the election which failed, if the acquisition of the property and the doing of the work set forth in the engineer's report are recommended in writing by the health officer of the county in which the district is situated as necessary as an urgency health measure to avert an emergency threat to the public health and safety, the fact of such recommendation and a finding that such threat to the public health and safety exists is stated in the resolution calling the election, and such resolution is adopted by a four-fifths vote of the district board.

This section shall remain in effect until April 1, 1964.

This section shall be applicable only to districts located within the County of San Diego.

The Legislature finds and declares that special problems of sanitation exist in the County of San Diego due to the extremely rapid growth in population and the rapid opening of large new tracts of land to residential development, that in areas of San Diego County serious difficulties involving the pollution of streams and other related problems have arisen which threaten the health of San Diego County residents and that in one or more sanitation districts in the County of San Diego a bond election has failed by a small number of votes, thereby preventing the district from acquiring property and constructing needed sanitation facilities. These problems are not, however, common to all areas of the State in which county sanitation districts are located. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary to effectuate the solution of problems which threaten the health of the residents of San Diego County.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In one or more county sanitation districts within the County of San Diego an election has been held to authorize the issuance of bonds to finance the acquisition of property and the construction of sewers and sewage disposal facilities urgently needed for the preservation of the public health and safety, but have failed to receive the approval of two-thirds of the voters voting at the election, although receiving approval of the majority of the voters voting thereat. In cases where such improvements are necessary as a health measure the preservation of the public health and safety requires that they be financed immediately. In order to eliminate delay in the authorization of bonds to finance such improvements required to preserve the public health and safety, it is necessary that this act take effect immediately.

4087. Pharmaceutical experience constitutes service and experience in a pharmacy under the personal supervision of a registered pharmacist, and consists of service and experience predominantly related to the selling of drugs, compounding physician's prescriptions, preparing pharmaceutical preparations, and keeping records and making reports required under state and federal statutes.

CHAPTER 492

(b) The application of, and the terms used in, those sections shall have the following meanings:

1. "Board of supervisors" shall mean the board of directors of the district.

2. "County service area" shall mean improvement district.

3 "County services" shall mean El Dorado Irrigation District services.

The El Dorado Irrigation District for many years past has made investigations and water studies of the needs of lands within the district, and the district has been responsive to the changing characteristics of these needs. To avoid the duplication and confusion resulting from an overlapping of a multiplicity of special districts, the powers of the El Dorado Irrigation District need to be broadened to authorize activity in all the different phases of water management, including drainage and sewage. The El Dorado Irrigation District, a presently organized and operating political subdivision of the State, is the only operating entity in its service area presently able to cope with the unique problems resulting from the rapid growth and development in western central El Dorado County. Because of the unique problems presented by this area, the adoption of a special act is required.

Thereupon the clerk must transmit to the clerk of the court to which the proceeding is transferred a certified copy of the order together with all papers in the proceeding on file in his office; and thereafter the court to which the proceeding is transferred shall exercise the same jurisdiction over the ward or his estate as if it had original jurisdiction.

[Approved by Governor May 21, 1963. Filed with Secretary of State May 21, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 26310 of the Vehicle Code is repealed.

SEC. 2. Section 26508 is added to said code, to read:

26508. Every vehicle or combination of vehicles using compressed air at the wheels for applying the service brakes shall be equipped with an emergency stopping system meeting the requirements of this section and capable of stopping the vehicle or combination of vehicles in the event of failure in the service brake air system as follows:

(a) Every motor vehicle operated either singly or in a combination of vehicles and every towed vehicle shall be equipped with an emergency stopping system.

(b) Motor vehicles used to tow vehicles which use compressed air at the wheels for applying the service brakes shall be equipped with a device or devices with both a manual and automatic means of actuating the emergency stopping system on the towed vehicle as follows:

(1) The automatic device shall operate automatically in the event of reduction of the service brake air supply of the towing vehicle to a fixed pressure which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch.

(2) The manual device shall be readily operable by a person seated in the driver's seat, with its emergency position or method of operation clearly indicated. In no instance may

the manual means be so arranged as to permit its use to prevent operation of the automatic means.

(c) Motor vehicles manufactured prior to 1964 shall be deemed to be in compliance with subdivisions (e) and (f) when equipped with axle-by-axle protected airbrakes using a separate air tank system for each of at least two axles, provided that each system independently meets all other requirements of this section. Each system shall be capable of being manually applied, released, and reapplied from the driver's seat but shall not be capable of being released from the driver's seat after any reapplication unless there is available a means which can be applied from the driver's seat to stop and hold the vehicle or combination of vehicles.

(d) Towed vehicles shall be deemed to be in compliance with this section when:

(1) The towed vehicle is equipped with a no-bleed-back relay-emergency valve or equivalent device, so designed that the supply reservoir used to provide air for the brakes is safeguarded against backflow of air from the reservoir through the supply line,

(2) The brakes are applied automatically and promptly upon breakaway from the towing vehicle and maintain application for at least 15 minutes, and

(3) The combination of vehicles is capable of stopping within the distance and under the conditions specified in subdivisions (k) and (*l*).

(e) If the service brake system and the emergency stopping system are connected in any way, they shall be so constructed that a failure or malfunction in any one part of either system, including brake chamber diaphragm failure but not including failure in the drums, brakeshoes, or other mechanical parts of the wheel brakes, shall not leave the vehicle without one operative stopping system capable of complying with the performance requirements in subdivision (k).

(f) Every emergency stopping system shall be designed so that it is capable of being manually applied, released, and reapplied by a person seated in the driver's seat. The system shall be designed so that it cannot be released from the driver's seat after any reapplication unless immediate further application can be made from the driver's seat to stop and hold the vehicle or combination of vehicles. The emergency stopping system may also be applied automatically.

(g) No vehicle or combination of vehicles upon failure of the service brake air system shall be driven on a highway under its own power except to the extent necessary to move the vehicles off the roadway to the nearest place of safety.

(h) No vehicle or combination of vehicles shall be equipped with an emergency stopping system that creates a hazard on the highway, or increases the service brake stopping distance of a vehicle or combination of vehicles, or interferes in any way with the application of the service brakes on any vehicle or combination of vehicles.

(i) Any energy-storing device which is a part of the emergency stopping system shall be designed so that it is recharged or reset from the source of compressed air or other energy produced by the vehicle. No device shall be used which can be set to prevent automatic delivery of air to protected air supply reservoirs of motor vehicle emergency stopping systems when air is available in the service brake air supply system.

(j) Any vehicle manufactured on or after January 1, 1964, which uses axle-by-axle protected airbrakes as the emergency stopping system shall use a separate air tank system for each axle.

(k) Every motor vehicle or combination of vehicles, at all times and under all conditions of loading, upon application of the emergency stopping system, shall be capable of:

(1) Developing a stopping force that is not less than the percentage of its gross weight tabulated herein for its classification.

(2) Decelerating in a stop from 20 miles per hour at not less than the feet per second per second tabulated herein for its classification, and

(3) Stopping from a speed of 20 miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the emergency stopping system control begins.

EMERGENCY STOPPING SYSTEM REQUIREMENTS

	Classification of vehicle and combination of vehicles	Stopping force as a percentage of gross vehicle or combination weight	Deceleration in feet per second per second	Stopping distance in feet
A	Single-motor vehicles	16.7	5.5	90
B	Combination of vehicles	19.0	6.0	90
C	Single-motor vehicle with 3 or more axles manufactured prior to 1964	12.1	4.0	120

(*l*) Tests for deceleration and stopping distance shall be made on a substantially level, dry, smooth, hard surface that is free from loose material and where the grade does not exceed plus or minus 1 percent. No test of emergency stopping system performance shall be made upon a highway at a speed in excess of 25 miles per hour.

(m) The provisions of this section shall not apply to:

(1) Auxiliary dollies.

(2) Motor vehicles which are operated in a driveaway-towaway operation and not registered in this State.

(3) Disabled vehicles when being towed.

(n) The emergency stopping system requirements specified in subdivision (k) shall not apply to a vehicle or combination of vehicles being operated under a special weight permit nor to any overweight authorized emergency vehicle operated under the provisions of Section 35002.

(o) The provisions of this section shall become operative May 1, 1964.

(3) Such additional sums as may be required by the commission for any sinking fund, reserve fund or other special fund established for the further security of the loan or transfer or as a depreciation or other charge in connection with the small craft harbor facilities.

(f) Repay loans over a period not to exceed 30 years.

In addition to the foregoing, the commission shall include in any such contract or agreement a requirement that installments of principal and interest on money owed the State shall be paid from gross revenues prior to any other expenditures from such revenues and any other requirements which it deems necessary convenient or desirable to provide additional security for the performance by the city, county or district of its obligations under the contract or agreement. No loan of funds shall be made to any city, county or district unless such loan is approved by the commission as conforming to the policies established by the commission. Such contracts or agreements shall not be effective until approved by the Department of Natural Resources and the Department of Finance. The Department of Finance as part of their review shall give consideration to the economic feasibility of the project based on information provided by the division.

In the event of default the State shall proceed forthwith by means of legal action to recover such defaulted loans.

SECTION 1. Section 406 of the Code of Civil Procedure is amended to read:

406. The clerk, or, if there be no clerk, the judge, must endorse on the complaint the day, month, and year that it is filed, and at any time within one year thereafter the plaintiff may have a summons issued, and if the action be brought against two or more defendants, who reside in different counties, may have a summons issued for each of such counties at the same time. In any case in which there are two or more defendants, the plaintiff may have issued, at any time within one year of the filing of the complaint, as many alias summonses as there are defendants, and all such alias summonses, as well as the original summons or summonses, may be outstanding at one time. At any time within the year after the complaint is filed, the defendant may, in writing, or by appearing and answering or demurring, waive the issuing of summons. If the action be brought upon a joint contract of two or more defendants, and one of them has appeared within the year, the other or others may be served or appear after the year at any time before the trial.

SEC. 2. Section 408 of said code is amended to read:

408. If the summons is returned without being served on any or all of the defendants, or if it has been lost, the clerk, or judge, upon demand of the plaintiff, may issue an alias summons in the same form as the original, and within such time as the original might have been served if it had not been lost or returned. As many alias summonses as are necessary may be issued within such time. Alias summonses may also be issued as provided in Section 406.

CHAPTER 499

[Approved by Governor May 21, 1963. Filed with Secretary of State May 21, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 16251 of the Revenue and Taxation Code is amended to read:

16251. Within 60 days after notice of the determination of the amount of tax has been given by the Controller, any person who has paid the tax may file an action against the State in the superior court having jurisdiction to recover the tax so paid.

CHAPTER 500

An act to amend Section 13197 of the Education Code and Section 3 of Chapter 848 of the Statutes of 1961, relating to the certification of school personnel, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 21, 1963. Filed with Secretary of State May 21, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 3 of Chapter 848 of the Statutes of 1961 is amended to read:

Sec. 3. This act shall become operative on January 1, 1964, except for the purposes of the adoption of rules by the State Board of Education prescribing requirements for the several types of credentials provided for in this act.

SEC. 2. Section 13197 of the Education Code is amended to read:

13197. The minimum requirements for the standard designated services credential with a specialization in health shall be five (5) years, or its equivalent, of college or university education, or five (5) years of professional preparation approved by

the State Board of Education, and which education or preparation shall include each of the following:

(a) A baccalaureate or higher degree from an institution approved by the State Board of Education.

SEC. 3. Section 2 of this act shall be operative on January 1, 1964, except for the purposes of the adoption of rules by the State Board of Education prescribing requirements for the standard designated service credential with a specialization in health.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The 1961 statute revising the law relating to the licensing of certificated school personnel becomes operative on July 1, 1963. This new law requires the State Board of Education to adopt new regulations prescribing certain types of educational requirements which must be met by applicants for school credentials. It also will require the many teacher education institutions in the State to revise their teacher education curriculum to meet the requirements of the new law and of the new regulations of the State Board of Education adopted pursuant to that law. However, the teacher education institutions will be unable to revise their curriculum until the rules of the State Board of Education are adopted and it will be difficult if not impossible for these institutions to make curriculum changes effective during the school year in which the regulations are published. Therefore, in order to allow adequate time for an orderly revision of the teacher education curricula of the many teacher education institutions in the State, it is necessary that this act, which postpones the operative date of the 1961 statute on credentials for six months, take effect immediately.

Sec. 9. The provisions of this section shall not apply to Divisions 8, 9 and 10 of said district, where the directors therefrom are appointed as provided elsewhere in this act.

Only the holders of title to land situated within said district or to assessable rights in said lands, or to improvements on said lands, shall be entitled to vote at any election for directors held under the provisions of this act, and every such holder of title shall be entitled to vote in person or by proxy as hereinafter provided in each division of said district in which any of the lands, including assessable rights therein or improvements thereon, owned by him are situated, and to cast one vote for each one hundred dollars ($100) or fraction thereof worth of land including assessable rights therein or improvements thereon, in each said division so owned by him.

The boundaries of the respective divisions, for the purpose of nomination and election of directors, as provided in this section, shall be the boundaries of said divisions as they shall exist as provided by Section 1 of this act, on the first Tuesday of December preceding the date of election.

Such ownership and value shall be determined from the last equalized assessment roll of said Orange County, and the board of supervisors of said county, prior to each election for directors held under the provisions of this act, at the expense of said district, shall cause to be prepared and certified and furnished to the board of election at each voting place, a true and correct copy of the entries upon the last equalized assessment rolls of said county, so far as such assessment rolls apply to the lands within said district, to the extent of showing the names of each owner, and the assessed value of the land owned by each in each division in said district, which said certified entries from said rolls shall be used by said boards of election in determining the number of votes each voter is entitled to cast.

Where land is owned by two or more persons, the votes shall be divided in accordance with the interests of each owner. Where land is assessed to unknown owners or anyone other than the true owner, any person producing a certificate of a title insurance or abstract company certifying the true ownership of such land at the date of the election, or at any time within five days previous thereto, accompanied by an affidavit of the person certified to be the owner that he is the owner of the property at the time of the election, said person so certified to be the owner shall be entitled to vote in like manner as if his name appeared upon the assessment rolls as above mentioned unless the owner as shown on the assessment roll has voted prior to the time such certificate and affidavit is furnished to the board of election.

Where corporations or partnerships appear as the owners of property, the votes of such owners shall be cast by any person holding a proxy from such corporation or firm. Executors, administrators, special administrators and guardians and trustees may cast the votes of the estates represented by them upon filing with the board of election a certified copy of their letters testamentary or of administration or guardianship or of appointment as trustee. No person shall vote by proxy at such election unless authority to cast such vote shall be evidenced by an instrument in writing duly acknowledged and certified in the same manner as grants of real property, and filed with the board of election.

This amount, less available funds on hand, shall be deemed to be sufficient to provide the necessary funds to initiate, carry on and complete any of the powers, projects, and purposes for which this district is organized, and which the board of directors shall deem advisable to be initiated or authorized for the current fiscal year other than projects and works which the board of directors shall deem advisable or necessary to finance by bonded indebtedness; to pay the estimated cost of maintenance, operation and repairs of works and projects of said district, the incidental expenses of said district, and the estimated amount necessary for the payment of the costs of any action or proceeding which may be taken or assumed by said district, including the cost of employment of attorneys and engineers; to purchase supplemental water, in addition to water purchased from replenishment funds, for the replenishment of ground water supplies of the district. In estimating the general funds needed by said district, all general funds on hand which are or will be unexpended at the end of the fiscal year, other than (1) funds allocated to the general reserve by said board of directors; (2) funds allocated to the unappropriated reserve by said board of directors, shall be considered as funds on hand.

Provided, however, that the amount of the general assessment levied during any year, excluding the amounts necessary for the payment of the principal of and interest on any bonded debt of the district, shall not exceed the following sums; Twenty cents ($0 20) for each one hundred dollars ($100), or fraction thereof, of assessable property in said district, excluding personal property, according to the last assessment rolls of Orange County, commencing with the taxable year 1961-1962, and continuing to and including the taxable year of 1964-1965; fifteen cents ($0 15) for each one hundred dollars ($100), or fraction thereof, of assessable property in said district, excluding personal property, according to the last

assessment rolls of Orange County, commencing with the taxable year 1965-1966, and continuing to and including the taxable year 1970-1971; eight cents ($0.08) for each one hundred dollars ($100), or fraction thereof, of assessable property in said district, excluding personal property, according to the last assessment rolls of Orange County, commencing with the taxable year 1971-1972, and continuing thereafter. Provided, further, however, that a tax rate in excess of eight cents ($0.08) for each one hundred dollars ($100), or fraction thereof, of assessable property in said district, excluding personal property, according to the last assessment rolls of Orange County, shall not be established unless authorized by an affirmative vote of eight of the members of the board of directors of the Orange County Water District. The general assessments provided for in this section shall in no event exceed eight cents ($0.08) for each one hundred dollars ($100), or fraction thereof, of mineral rights, where such mineral rights are assessed separately from the land. All funds derived from said general assessment in excess of those derived from eight cents ($0.08) for each one hundred dollars ($100), or fraction thereof, of assessable property in said district, as hereinabove provided, of any general assessment shall be deposited and applied to the water reserve fund and to the improvement and acquisition fund in such ratio of the amount thereof as the board of directors of the district shall determine. The amounts deposited and applied to the water reserve fund shall be used solely and exclusively for the purchase of supplemental water for the replenishment of the ground water supplies of said district. The amounts deposited and applied to the improvement and acquisition fund shall be used for the purpose of:

(a) acquiring, constructing or developing intrusion prevention projects, spreading grounds or basins, waste water reclamation and water salvage projects, canals, conduits, pipelines, wells, or other works useful or necessary for the purposes of the district and to carry out the provisions of this act; and

(b) acquiring any real or personal property or rights or privilege therein useful or necessary for the foregoing projects or works or for the purposes of the district and to carry out the provisions of this act;

provided, however, that any portion of said improvement and acquisition fund which the board of directors of the district subsequently determines is not necessary for said purposes may be used for the purchase of supplemental water for the replenishment of the ground water supply of said district. In addition to the purchase of supplemental water for the ground water supplies of said district from the water reserve fund and from the replenishment fund, the board of directors may purchase water for the replenishment of the ground water supplies of said district from the general fund upon the affirmative vote of at least eight members of the board of directors.

SEC 3. Section 18 of said act is amended to read:

Sec. 18 The board of supervisors of said Orange County at the time of the levying county taxes annually must levy a general assessment sufficient to raise the amount or amounts specified in said estimates of said directors, as herein provided. In addition thereto, said board of supervisors shall levy an assessment sufficient to meet all payments of principal and interest on any bonds of the district as provided in Section 21.22 of this act. Said board of supervisors must determine the rate of such assessments by deducting such percent, not to exceed 10 percent, as shall be determined by the board of directors of the district for anticipated delinquencies from the assessed value of the assessable real property in said district on which an assessment is to be levied, as it appears on the assessment roll of the county, and then dividing the sum or sums reported by said board of directors as required to be raised by the remainder of such total assessed value. The general assessments and the assessment for payment of bond principal and interest levied and/or collected under the terms of this act shall be levied and collected on real property including assessable rights therein and improvements thereon, but not on personal property.

SEC. 4. Section 19 of said act is amended to read:

Sec. 19. The general assessment and the assessment for payment of bond principal and interest so levied by said district shall be computed and entered on the assessment roll by the county auditor, and if the board of supervisors fail to levy the general assessment and the assessment for payment of bond principal and interest as provided in the preceding section, then the auditor must do so. Said general assessments and assessments for payment of bond principal and interest shall be collected at the same time and in the same manner as state and county taxes, and when collected, shall be paid into the treasury of said Orange County for the use of said district.

The provisions of the statutes of this State, prescribing the manner of levying, assessing, equalizing and collecting taxes, including the sale of property for delinquency, and the redemption from said sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act.

All funds collected and received by said district from the levy of said district's replenishment assessment shall be deposited with the county treasurer and applied to the re-

All funds collected and received by said district from the levy of assessments for the payment of the principal of and interest on the bonded debt of the district shall be deposited and applied to the bond fund. All funds collected and received by said district from the levy of the general assessment derived from that portion thereof in excess of eight cents ($0.08) for each one hundred dollars ($100), or fraction thereof, of assessable property in said district, as provided in Section 17 of this act, shall be deposited and applied to the water reserve fund and to the improvement and acquisition fund in such ratio of the amount thereof as the board of directors of the district shall determine. All other funds received by said district shall be deposited in the fund designated by the board of directors. For the purpose of ascertaining the feasibility, necessity and general benefit of any such purposes or projects and the amount of money necessary to be raised for the same or any of them, said board shall cause such engineering investigations, surveys, examinations, drawings, plans and reports to be made as shall furnish the proper basis for said purposes or projects, and said estimates of the cost thereof. Said engineering investigations, drawings, plans and reports, and the estimates based thereon may provide that the works necessary for a completed purpose or project shall be constructed progressively during a period of years. All engineering investigations, examinations, drawings, plans and reports shall be made under the direction of a competent engineer or engineers selected by the directors, and shall be certified by him or them. All data obtained by

[Approved by Governor May 21, 1963. Filed with Secretary of State May 21, 1963.]

The people of the State of California do enact as follows:

SECTION 1. Section 443 is added to the Welfare and Institutions Code, to read:

443. In order that recipients of public assistance may become self-supporting and productive members of their communities, it is essential that they be permitted to earn money without a proportionate deduction in their aid grants. It is the intention of the Legislature to promote this objective to the extent possible within the limitations imposed by federal law, and the State Social Welfare Board, in implementing public assistance laws, is directed to do so in the light of this objective.

In determining the income of a recipient, the following requirements shall be observed:

(a) To the extent permitted by federal law, earned income of a recipient of aid under any public assistance program for which federal funds are available shall not be considered income or resources of the recipient, and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

(b) In computing the amount of income determined to be available to support a recipient, the value of currently used resources shall be included but the value of casual income and inconsequential resources shall be excluded.

SEC. 1.5. Chapter 5.6 (commencing with Section 449) is added to Division 1 of said code, to read:

CHAPTER 5.6. APPLICATION FOR PUBLIC SOCIAL SERVICES

449. Except as provided in Sections 1557 and 4740 of this code, applications for public social services or public assist-

ance, as defined by Section 425, by any person, or in behalf of any person, shall be made to the county department in the county in which the applicant is living. The application may be made in writing or reduced to writing upon the standard form prescribed in regulations of the department and a copy shall be furnished to each applicant at the time of the application.

449.1. Whenever a former recipient of aid requests restoration of aid before the expiration of one year from the effective date of a cancellation or a discontinuance and if it is determined that he is eligible for such aid it shall be granted to him without the necessity for a new application. Such person shall, however, be required to file a new affirmation of eligibility as required by Section 449.4.

449.2. Application for aid may be made within 60 days prior to the date on which the applicant meets the technical requirements for such aid which have to do with factors other than need.

Application made on behalf of a child deprived of parental support because of separation or desertion may be made within 60 days prior to the date on which he will become eligible.

The application shall be promptly investigated and acted upon but in no event shall the aid, if granted, begin as of a date prior to the date on which he meets such requirements.

449.3. When a recipient or former recipient of public assistance moves from one county to another the determination of the existence of particular conditions of eligibility made by the former county shall be binding on subsequent counties provided that the determination was made within the sound exercise of discretion by, and that no fraud was practiced on, the former county and that there has not been a material change in circumstances

449.4. Each applicant shall be required before approval of assistance or services to file an affirmation setting forth his belief that he meets the specific conditions of eligibility. Such statements shall be on forms prescribed by the department and, in the case of applicants for aid under the provisions of Chapter 1 (commencing with Section 1500) of Part 2 of Division 2, shall contain a written declaration that the affirmation is made under penalty of perjury. Any person signing a statement containing such declaration who willfully and knowingly with intent to deceive states as true any material matter which he knows to be false is subject to the penalty prescribed for perjury in the Penal Code. A copy of the affirmation shall be furnished to the applicant at the time he files it.

A county department may also require like statements to be completed prior to approving restoration of aid as provided by Section 449.1 and may require new statements at any time for purposes of continuing assistance.

449.5. The county shall promptly investigate all applications for public assistance as prescribed by the regulations of the department.

449.6. If the applicant is determined to be eligible, aid shall be granted from the first day of the month following the date of application, or from the first day of the month following the date on which he becomes eligible if found to be later than the date of application, or upon an earlier date if determined by and in connection with a petition for a fair hearing; provided, however, that nothing contained herein shall be construed to prevent a county welfare department from making aid effective under Chapter 1 (commencing with Section 1500) of Part 2 of Division 2 as soon as eligibility is determined, if such date is earlier than that specified herein.

The county at the time of receiving an application for public assistance shall determine whether the applicant needs immediate assistance. If it appears that the applicant is eligible for public assistance and a signed affirmation is on file to this effect aid shall be granted immediately. If subsequent investigation establishes ineligibility then the cost of such assistance shall be shared by the State and county in accordance with the applicable sharing ratio after federal contributions are deducted.

1500.6. As used in this chapter, the term "needy child" means a child living in a family as described in Section 1500, or a child as described in Section 1500.1.

In adopting the schedule of maximum allowances as required by this section the State Social Welfare Board shall not adopt a schedule which offers local public medical facilities a lesser rate of return in comparison to actual costs than is offered to nonpublic facilities. To the extent that rate schedules established for nonpublic facilities include a factor for plant depreciation or replacement, the same consideration shall be extended in determining rates for public facilities.

No cost of care shall be paid for under this chapter to a medical facility unless:
