(c) Whenever there is evidence that any material, appliance, installation, device, arrangement, or method of construction does not conform to the requirements of this part and the rules and regulations promulgated pursuant thereto, or in order to substantiate claims for alternates, the division may require tests or proof of compliance to be made at the expense of the owner or his agent.

(d) The department shall notify the appropriate enforcement agency of its findings.

(e) This section is not applicable to local regulations authorized by this part.

CHAPTER 3. ENFORCEMENT

18040. The department shall enforce every provision of this part and the rules and regulations promulgated thereunder except as provided in Section 18051.

CHAPTER 4. REGULATIONS

18050. It shall be unlawful for any person in a mobilehome to use or cause, or permit to be used for occupancy:

(a) Any mobilehome from which any axle or wheel hub has been removed therefrom except for the purpose of making temporary repairs or placing it in dead storage.

(b) Any mobilehome supplied with fuel gas unless such service connections used and installations conform to rules and regulations of the commission.

(c) Any mobilehome which is permanently attached with underpinning or foundation to the ground.

(d) Any mobilehome which does not conform to the registration requirements of the Vehicle Code. A mobilehome which may be moved under permit as provided for in Sections 35780 and 35790 of the Vehicle Code shall be deemed to conform to the requirements of such code within the meaning of this section.

(e) Any mobilehome in an unsanitary condition.

(f) Any mobilehome which is structurally unsound and does not protect its habitants against the elements.

(g) Any mobilehome to which there is attached or established for use of the occupant of the mobilehome any mobilehome accessory building or structure unless constructed in conformity with the rules and regulations of the commission as set forth in rules and regulations of the commission for such use, and the commission may draft and the department may enforce such rules and regulations. Such rules and regulations shall provide for the construction, location and use of mobilehome accessory buildings or structures to protect the health and safety of the occupants and the public.

(h) Any mobilehome in which the occupants use any water heater, clothes washer, or clothes dryer, requiring plumbing, mechanical, gas or electrical connections unless such appliance is within the mobilehome or an approved building. No such appliance outside the mobilehome shall be interconnected with the plumbing, mechanical, gas or electrical system of the mobilehome.

(i) Any mobilehome which does not have a current annual vehicle license.

(j) Any mobilehome which does not have the space directly beneath it kept clean and free from refuse, rubbish or other impediments. Such space shall not be used for storage purposes. It may be enclosed. Such enclosures, however, shall not unreasonably impede the movement of the mobilehome, shall be openable for inspection, and cross ventilation on at least three sides shall be provided with no less than two square feet of opening for each 25 linear feet.

18051. Any city or county, or city and county which has assumed responsibility for the enforcement of Part 2.1 (commencing with Section 18200) of Division 13 pursuant to Section 18300, shall enforce the provisions of Section 18050, subdivisions (a), (b), (c), (d), (e), (f), (h), (i), and (j), and Section 18054, and the rules and regulations promulgated thereunder.

18052. (a) No mobilehome shall be rented or leased unless it meets the requirements for rental units, including occupancy requirements promulgated by the commission. The commission is authorized to promulgate such rules and regulations as it determines are reasonably necessary for the protection of life and property.

(b) No mobilehome shall be rented or leased which contains any plumbing, heat-producing or electrical equipment which does not meet the requirements that are prescribed by the commission pursuant to Section 18055 or which violates any of the provisions of Section 18050.

(c) The department as the enforcement agency shall have the right to enter and inspect any mobilehome which is rented or held out for rent in order to determine whether or not the rental, or holding out for rent, of such mobilehome is unlawful under this section.

(d) The department's authorized agents may enter any uninhabited mobilehome which is held out for rent but not actually rented at any time between 8 o'clock a.m. and 6 o'clock p.m. of any business day. No person authorized by this section to enter mobilehomes which are rented, or held out for rent, shall enter any inhabited mobilehome between the hours of 6 o'clock p.m. of any day and 8 o'clock a.m. of the succeeding day, without the consent of the owner or of the occupants of the mobilehome, nor enter any mobilehome in the absence of the occupants without a proper written order executed and issued by a court having jurisdiction to issue the order.

18054. It is unlawful to permit any waste water or material from any plumbing fixtures in a mobilehome to be deposited upon the surface of the ground. All plumbing fixtures, when in use, shall be connected to a sewage disposal system meeting the requirements established by the commission. The commission is hereby empowered to promulgate such rules and regulations as it determines are reasonably necessary for the protection of life and property and to carry out the purposes of this section.

18055. It is unlawful for any person to sell, or offer for sale within this state, any mobilehome manufactured after September 1, 1958, containing plumbing, heat-producing or electrical equipment unless such equipment meets the requirements of the commission for such equipment and installations. The commission is authorized to promulgate such rules and regulations which shall be reasonably consistent with recognized and accepted principles for plumbing, heat-producing, and electrical equipment and installations, respectively, in order to protect the health and safety of the people of this state from dangers inherent in the use of substandard and unsafe plumbing, heat-producing and electrical equipment and installations.

If the commission determines that standards for the installation of plumbing, heat-producing, and electrical equipment in mobilehomes, which have been prescribed by the statutes or rules and regulations of other states are at least equal to the standards prescribed by the commission, the commission may so provide by regulation. Any mobilehome which a state has approved as meeting its standards for the installation of plumbing, heat-producing, and electrical equipment, shall be deemed to meet the standards of the department, if the commission determines that the standards of such other state are actually being enforced.

18056. All mobilehomes manufactured after September 1, 1958, which are sold or offered for sale within this state, shall bear insignia of approval issued by the department for plumbing, heat-producing, and electrical equipment and installations therein.

The department may issue insignia for mobilehomes manufactured prior to September 1, 1958, which meet the standards established by the commission as provided in Section 18055.

18057. No mobilehome bearing a department insignia of approval pursuant to Section 18056 shall have its plumbing, heat-producing or electrical equipment and installations altered or converted unless approval is first obtained from the department.

18058. The commission is authorized to promulgate rules and regulations which it determines are reasonably consistent with generally recognized fire protection standards, governing conditions relating to the prevention of fire or for the protection of life and property against fire in mobilehomes.

18059. No mobilehome which meets the standards prescribed by Section 18050 and by the commission pursuant to this chapter shall be required to comply with any local ordinances or regulations prescribing requirements on the same subject matter.

18060. The commission by rule and regulations may establish a schedule of fees to pay the costs of work related to administration and enforcement of this part. The fees collected shall be deposited to the credit of any appropriation for support of the department current at the time of collection.

18061. All rules and regulations promulgated by the commission under the authority of this part shall be promulgated pursuant to Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

CHAPTER 5. PENALTIES

18080. Any person who violates any of the provisions of this part or any rules or regulations issued pursuant to this part is guilty of a misdemeanor, punishable by a fine not exceeding two hundred dollars ($200) or by imprisonment not exceeding thirty (30) days, or by both such fine and imprisonment.

CHAPTER 2. APPLICATION AND SCOPE

18300. The provisions of this part apply to all parts of the state and supersede any ordinance enacted by any city, county, or city and county applicable to the provisions of this part. The commission may promulgate rules and regulations to interpret and make specific the provisions of this part and when adopted such rules and regulations shall apply to all parts of the state. Upon written notice to the department, any city, county, or city and county may assume the responsibility for the enforcement of this part.

In the event of nonenforcement of this part or the rules and regulations promulgated pursuant thereto, the provisions of this part and the rules and regulations promulgated thereunder shall be enforced by the department in any such city, county, or city and county after the department has given written notice to the governing body of such city, county, or city and county of a violation of this part or the rules or regulations promulgated thereunder and the city, county, or city and county has failed to initiate proceedings to secure correction of the violation within 30 days of the date of such notice.

The provisions of this part shall not prevent local authorities of any city, county, or city and county, within the reasonable exercise of their police powers:

(a) From prohibiting mobilehomes or mobilehome parks, travel trailers, travel trailer parks, recreational trailer parks, temporary trailer parks, or tent camps within all or certain zones within such city, county, or city and county, or from adopting rules and regulations by ordinance or resolution prescribing standards of lot, yards, or park area, landscaping, walls or enclosures, signs, access, and vehicle parking or from prescribing the prohibition of certain uses for mobilehome parks, travel trailer parks, recreational trailer parks, temporary trailer parks, or tent camps; or

(d) From requiring a local building permit to construct an accessory structure for a mobilehome when such mobilehome is located outside a mobilehome park, travel trailer park, recreational trailer park or temporary trailer park, under circumstances which the provisions of this part or Part 2 (commencing with Section 18000) of this division and the regulation adopted pursuant thereto do not require the issuance of a permit therefor by the department.

18301. (a) The provisions of this part applicable to mobilehome parks shall apply equally to travel trailer parks, recreational trailer parks, temporary trailer parks, incidental camping areas, and tent camps except where specifically exempted.

(b) The commission shall specify by rule and regulation reasonable requirements for travel trailer parks, recreational parks, temporary trailer parks, incidental camping areas, and tent camps which shall allow reasonable variations from the requirements of this part for mobilehome parks if the department determines such variations will not endanger public health, welfare, or safety and such variations do not conflict with a valid local regulation adopted pursuant to this part, in the following respects:

vice, arrangement, or method of construction not specifically prescribed by this part and the rules and regulations promulgated pursuant thereto, provided any such alternate has been approved.

(b) The department may approve any such alternate if it finds that the proposed design is satisfactory and that the material, appliance, installation, device, arrangement, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this part and the rules and regulations promulgated pursuant thereto in quality, strength, effectiveness, fire resistance, durability, safety, and for the protection of life and health.

(c) Whenever there is evidence that any material, appliance, installation, device, arrangement, or method of construction does not conform to the requirements of this part and the rules and regulations promulgated pursuant thereto, or in order to substantiate claims for alternates, the department may require proof of compliance to be made at the expense of the owner or his agent.

(d) The department shall notify the appropriate enforcement agency of its findings.

(e) This section is not applicable to local regulations authorized by this part.

CHAPTER 3. ENFORCEMENT, ACTIONS AND PROCEEDINGS

18400. The department shall enforce every provision of this part, and the rules and regulations promulgated thereunder, except as provided in Section 18300.

The officers or agents of the enforcement agency may:

(a) Enter public or private property to determine whether there exists any mobilehome park to which this part applies.

(b) Enter and inspect all mobilehome parks, wherever situated, and inspect all accommodations, equipment or paraphernalia used in connection therewith, including the right to examine any registers of occupants maintained therein in order to secure the enforcement of the provisions of this part.

18401. The enforcement agency shall inspect each mobilehome park at least once annually to determine compliance with this part.

18402. The owner or operator of a mobilehome park shall abate any nuisance in the mobilehome park within five days, or within such longer period of time as may be allowed by the enforcement agency, after he has been given written notice to remove the nuisance. If he fails to do so within that time, the district attorney of the county in which the mobilehome park, or the greater portion of the mobilehome park, is situated shall bring a civil action to abate the nuisance in the superior court of the county in the name of the people of the State of California.

18403. In any action or proceeding to abate a nuisance in a mobilehome park, proof of any one of the following facts

is sufficient for a judgment or order for the abatement of the operation of the mobilehome park:

(a) Previous conviction of the owner or operator of a violation of this part which constitutes a nuisance or failure on the part of the owner or operator to correct the violation after the conviction.

(b) The violation is the basis for the proceeding.

18500. It is unlawful for any person to do any of the following unless he has a valid permit issued by the enforcement agency:

(a) Construct a mobilehome park.

(b) Construct additional buildings or lots, alter buildings, lots or other installations, in an existing mobilehome park.

18501. Applications for a permit to construct or reconstruct shall be accompanied by:

(d) Appropriate fees.

(e) Evidence of compliance with all valid local planning, health, utility and fire requirements.

18502. Fees as applicable shall be submitted for permits:

(a) Plan checking fees equal to one-half of the construction, mechanical and electrical permits, provided, however, the minimum fee shall be ten dollars ($10).

(b) Operating permit fee of twenty-five dollars ($25) for the first 35 lots and fifty cents ($0.50) for each additional lot in excess of the first 35 lots.

(c) Change in name, transfer of ownership, or possession fee ten dollars ($10).

(d) Duplicate or amended permit fee ten dollars ($10).

18503. The commission by administrative rule and regulation shall establish a schedule of fees relating to construction permits for construction, mechanical and electrical installations. The fees shall apply to and be paid to the enforcement agency. Fees established for construction, mechanical and electrical installations shall be reasonably consistent with the current edition of the Uniform Building Code as published by the International Conference of Building Officials, the Uniform Plumbing Code as published by the Western Plumbing Officials Association and the Uniform Electrical Code as published by the Pacific Coast Electrical Bureau.

18504. Any person violating the provisions of this chapter shall pay double the fees prescribed in this chapter.

18505. A permit to operate shall be issued by the enforcement agency, with a copy to the department, following notice by the owner or operator of completion of construction and receipt of application and appropriate fees, if upon inspection the construction is found to be in compliance with the provisions of this part.

18506. Permits to operate shall be issued annually by the enforcement agency covering the period from January 1 through December 31 of each calendar year. A copy of each permit to operate shall be forwarded to the department. No permit to operate shall be issued for a mobilehome park when the previous operating permit has been suspended by the enforcement agency until the violations which were the basis for the suspension have been corrected. No mobilehome park in existence on September 15, 1961, shall be denied a permit to operate if such mobilehome park complied with the law which this part supersedes.

18507. (a) The department and enforcement agency shall be notified by the new owner or operator of any mobilehome park of any change in the name or ownership or possession thereof. The notice shall be in written form and shall be furnished within 30 days from and after any such change in name or transfer of ownership or possession. The notice shall be accompanied by the appropriate fees to the enforcement agency. Following receipt of the notice and fee the enforcement agency shall record the change of ownership or possession and shall issue an amended permit to operate except as provided in Section 18506.

(b) In case of any change in name or transfer of ownership or possession prior to completion of construction, no additional fee for a construction permit is required, provided the new owner completes construction in accordance with prior enforcement agency approved plans and specifications. However, the notice of such change shall be accompanied by revised plans and specifications and the appropriate fees shall be required.

18508. Permits for construction and operation shall be posted in a conspicuous place.

18509. All permits as required in this chapter for construction or reconstruction shall automatically expire within six months from the date of issuance thereof in those cases where the construction or reconstruction has not been completed within said period; provided, however, that the enforcement agency may extend expiration date of said permit for a reasonable time.

18510. If any person who holds an annual permit violates any provision of the permit or of this part, the permit may be suspended by the enforcement agency. This section does not, however, authorize the suspension of a permit of any mobilehome park existing on September 15, 1961, for any violation

of this part which was not a violation of the law which this part supersedes.

18511. The enforcement agency shall issue and serve upon the permittee a notice setting forth in what respect the provisions of the permit or this code have been violated, and shall notify him that unless these provisions have been complied with within 30 days after the date of notice, the permit shall be subject to suspension.

18512. The notice shall be served by posting at least one copy in a conspicuous place on the premises described in the said permit, and by sending another copy by registered mail, postage prepaid, return receipt requested, to the person to whom the permit was issued at the address therein given.

18513. Any permittee receiving a notice of permit suspension may request and shall be granted a hearing on the matter before an authorized representative of the enforcement agency. The permittee shall file with the enforcement agency a written petition requesting such hearing and setting forth a brief statement of the grounds therefor within 10 days of the date of mailing of such notice.

18514. Upon receipt of such petition the enforcement agency shall set a time and place for such hearing and shall give the petitioner written notice thereof. At such hearing the petitioner shall be given an opportunity to be heard and to show cause, if any, why such notice should be modified or withdrawn.

18515. Such hearing shall be commenced not later than 10 days after the day on which such petition was filed. Upon application of the petitioner the enforcement agency may, however, postpone the date of such hearing for a reasonable time beyond such 10-day period, if in its judgment the petitioner has submitted a good and sufficient reason for such postponement.

18516. After such hearing the enforcement agency shall sustain, modify or withdraw the notice, depending upon its findings as to whether the provisions of this part have been complied with.

18517. If the requirements of the said notice have not been complied with on or before the expiration of 30 days after the mailing and posting of the notice, the enforcement agency may suspend the permit.

18518. Upon compliance by the permittee with the provisions of this part and of the notice, and submission of proof thereof to the enforcement agency, the enforcement agency shall reinstate the permit or issue a new permit.

Notwithstanding the provisions of any other section of this division, a duplicate winegrower's license or duplicate brandy manufacturer's license shall be issued forthwith upon the application therefor. In the event any protest is received by the department concerning the issuance of such duplicate license, the protest shall be considered as an accusation against the licensee and a hearing had thereon as if an accusation had been filed.

An act to add Article 17 (commencing with Section 925) to Chapter 2 of Part 1 of Division 2 of, and to add Article 8 (commencing with Section 1830) to Chapter 1 of Division 2.5 of, the Welfare and Institutions Code, relating to work furloughs.

[Approved by Governor August 10, 1967. Filed with Secretary of State August 11, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Article 17 (commencing with Section 925) is added to Chapter 2 of Part 1 of Division 2 of the Welfare and Institutions Code, to read:

Article 17. Work Furloughs

925. The provisions of this article shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment conditions, the state of juvenile detention facilities, and other pertinent circumstances, that the operation of this article in that county is feasible. In such ordinance the board shall prescribe whether the probation officer or any official in charge of a county juvenile detention facility shall perform the functions of the juvenile work furlough administrator. The board of supervisors may also terminate the operativeness of this article in the county if it finds by ordinance that, because of changed circumstances, the operation of this article in that county is no longer feasible.

926. When a minor is adjudged a ward of the juvenile court and committed to a county juvenile home, ranch, camp, or forestry camp, the juvenile work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular employment, if that is compatible with the requirements of Section 928, or may authorize the person to secure employment for himself in the county, unless the court at the time of commitment has ordered that such person not be granted work furloughs.

927. If the juvenile work furlough administrator so directs that the minor be permitted to continue in his regular employment, the administrator shall arrange for a continuation of such employment so far as possible without interruption. If the minor does not have regular employment, and the administrator has authorized the minor to secure employment for himself, the minor may do so, and the administrator may assist him in doing so. Any employment so secured must be suitable for the minor. Such employment must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment be permitted where there is a labor dispute in the establishment in which the minor is, or is to be, employed.

928. Whenever the minor is not employed and between the hours or periods of employment, he shall be confined in a juvenile detention facility unless the court or administrator directs otherwise.

929. The earnings of the minor shall be collected by the juvenile work furlough administrator, and it shall be the duty of the minor's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of attachment or execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. When an employer transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the minor for such earnings. From such earnings the administrator shall pay the minor's board and personal expenses, both inside and outside the juvenile detention facility and shall deduct so much of the costs of administration of this article as is allocable to such minor. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the minor, pay, in whole or in part, the preexisting debts of the minor. Any balance shall be retained until the minor's discharge and thereupon shall be paid to him.

930. In the event the minor violates the conditions laid down for his conduct, custody, or employment, the juvenile work furlough administrator may order termination of work furloughs for such minor.

SEC. 2. Article 8 (commencing with Section 1830) is added to Chapter 1 of Division 2.5 of the Welfare and Institutions Code, to read:

Article 8. Work Furloughs

1830. The Director of the Youth Authority may, with approval of the Youth Authority Board, conduct or discontinue a work furlough rehabilitation program, in accordance with

the provisions of this article, for appropriate classes of wards at one or more Youth Authority institutions. He may designate any officer or employee of the department to be the Youth Authority work furlough administrator and may assign personnel to assist the administrator.

1831. When a person is committed to a facility under the jurisdiction of the Youth Authority, the Youth Authority work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular employment, if that is compatible with the requirements of Section 1833, or may authorize the person to secure employment for himself in the county, unless the court at the time of commitment has ordered that such person not be granted work furloughs.

1832. If the Youth Authority work furlough administrator so directs that the ward be permitted to continue in his regular employment, the administrator shall arrange for a continuation of such employment so far as possible without interruption. If the ward does not have regular employment, and the administrator has authorized the ward to secure employment for himself, the ward may do so, and the administrator may assist him in doing so. Any employment so secured must be suitable for the ward. Such employment must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment be permitted where there is a labor dispute in the establishment in which the ward is, or is to be, employed.

1833. Whenever the ward is not employed and between the hours or periods of employment, he shall be confined in a detention facility unless the court or administrator directs otherwise

1834. The earnings of the ward shall be collected by the Youth Authority work furlough administrator, and it shall be the duty of the ward's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of attachment or execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. When an employer transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the ward for such earnings. From such earnings the administrator shall pay the ward's board and personal expenses, both inside and outside the detention facility, and shall deduct so much of the costs of administration of this article as is allocable to such ward. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the ward, pay, in whole or in part, the preexisting debts of the ward. Any balance shall be retained until the ward's discharge and thereupon shall be paid to him.

1835. In the event the ward violates the conditions laid down for his conduct, custody, or employment, the Youth Authority work furlough administrator may order termination of work furloughs for such minor.

he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured may by agreement in writing delete the provision covering damage caused by an uninsured motor vehicle. Such deletion by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply. The term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying,

(5) To establish an exemption as provided in subdivisions (a), (b), and (c) of Section 16057 of the Vehicle Code.

(d) Subject to paragraph (c)(2), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the in-

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of said Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under said Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of subparagraph (a) (4) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in subparagraph (b) (2) of Section 2019 of the Code of Civil Procedure.

The people of the State of California do enact as follows:

SECTION 1. Section 14.16 of the Kern County Water Agency Act (Chapter 1003, Statutes of 1961) is amended to read:

Sec. 14.16. All the taxes collected pursuant to Section 14.14 of this act shall be expended only for the payment of bond principal and interest or only for the improvement district projects for which levied, except that any surplus tax proceeds levied otherwise than for payment of bond principal and interest which remain after the completion of any improvement district project for which levied shall be transferred to the bond interest and redemption fund of such improvement district, if any, otherwise to the agency's general fund.

SEC. 2. Section 14.17 of the Kern County Water Agency Act (Chapter 1003, Statutes of 1961) is amended to read:

Sec. 14.17. For the purpose of any tax levied under Section 14.14 of this act the properties within any improvement district shall be deemed to be equally benefited.

SEC. 3. Section 15 of the Kern County Water Agency Act (Chapter 1003, Statutes of 1961) is amended to read:

Sec. 15. (a) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work of improvement for the benefit of any member unit, as determined in any agreement between the agency and the member unit, or for the benefit of any improvement district, it may determine and declare by resolution the amount of bonds necessary to be issued in each such member unit or improvement district affected for such work of improvement. The board shall cause a copy of the resolution duly certified by the clerk to be filed for record in the office of the Recorder of Kern County if the improvement is for the benefit of an improvement district and with the governing board of such member unit if the improvement is for the benefit of any member unit.

(b) After such resolution has been filed, the board shall call a special bond election in each said member unit or improvement district to submit to the qualified electors of each such member unit or improvement district the question whether or not bonds shall be issued in the amount and for the purposes stated in the resolution.

(c) The special bond election shall be called by ordinance and the board shall submit to the qualified electors of each member unit or improvement district, the proposition of incurring a bonded debt in the member unit or member units or improvement district in the amount and for the purposes stated in the resolution and shall recite therein the purposes for which the indebtedness is proposed to be incurred, except that it shall be sufficient to give a brief, general description of such purposes, and refer to the copy of the resolution on file with the office of the Recorder of Kern County or with the governing body of the member unit. The ordinance may state that no bonds authorized at the election will be sold until contracts have been executed with member units within the area to be benefited by the improvement which will provide for payments by such member units to the agency sufficient to pay the principal and interest on any such bonds issued. If such a provi-

sion is included in the ordinance, no bonds authorized at the election shall be issued until such contracts have been executed. The ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness and shall fix the date on which the special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on the indebtedness shall not exceed six and one-half percent (6½%) per annum. For the purposes of the election, the board shall establish special bond election precincts within the boundaries of each member unit or improvement district and may form election precincts by consolidating the precincts established for general elections in the agency, not to exceed six general precincts for each such special bond election precinct. In addition, the ordinance shall designate a polling place and appoint one inspector, one judge and one clerk for each special bond election precinct.

The special bond election shall be held as nearly as practicable in conformity with the general election laws of the state except as otherwise provided in this act.

The board shall cause a map or maps to be prepared covering a general description of the work to be done, which map shall show the location of the proposed works and improvements and shall cause the map to be posted in a prominent place in the office of the agency and the office of the governing body of the member unit affected, if such bonds are for an improvement for the benefit of any member unit, for public inspection at least thirty (30) days before the date of the election.

Said ordinance calling for the special bond election shall be published prior to the date set for such election in a newspaper of general circulation, circulated in the improvement district or member unit or member units affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of the ordinance must be at least fourteen (14) days before the election, and if there be no such newspaper, then the ordinance shall be posted in five public places designated by the board in the improvement district and in each said affected member unit for at least thirty (30) days before the date of the election. No other notice of election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of the special bond election shall not affect the validity of the bonds authorized by said election. If at such election three-fifths (⅗) of the votes cast are in favor of incurring such bonded indebtedness then bonds for such improvement district or member unit for the amount stated in the proceedings shall be issued and sold as provided in this act.

SEC. 4. Section 15.1 of the Kern County Water Agency Act (Chapter 1003, Statutes of 1961) is amended to read:

Sec. 15.1. The board shall prescribe by resolution the form of the bonds which shall include a designation of the improvement district or member units affected, and the form of the interest coupons attached to the bonds. Said bonds shall be payable annually or semiannually, at the discretion of the board, at a day and at a place designated in the bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness is paid.

The board may divide the principal amount of any issue into two or more series, and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than five years from the date of issuance, for the earliest maturity of each issue or series of bonds. The final maturity date shall not exceed forty (40) years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denominations as the board may determine, and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of six and one-half percent ($6\frac{1}{2}\%$) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the secretary of said agency and the seal of said agency shall be affixed thereto by the secretary of the board. Either or both such signatures may be printed, engraved or lithographed. This section shall not prohibit a school district from making a payment of earned salary prior to the last working day of the month or payroll period.

SEC. 2. Section 13604 of the Education Code is amended to read:

13604. Orders for the payment of wages and payroll orders and warrants for the payment of wages of employees a part of the classified service in any public school system shall be drawn at least once during each calendar month, for those districts not using the provisions of Section 21114 of this code, on days designated by the governing board of each school district. CHAPTER 1091

An act to amend Sections 14251, 14401 and 14405 of, and to add Sections 14250 and 14401.2 to, the Education Code, relating to state teachers' retirement.

[Approved by Governor August 10, 1967. Filed with Secretary of State August 11, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 14250 is added to the Education Code, to read:

14250. A member may at any time nominate a beneficiary or beneficiaries to receive such benefits as may be payable to his beneficiary or estate under this chapter by a written instrument executed by the member and witnessed by one witness, who shall not be a beneficiary. Such instrument must be received by the retirement system before the member's death. The nomination of the beneficiary under the retirement system, other than nominations under Options 2 and 3 in Section 14363 or under Section 14365 may be revoked at the pleasure of the person making the nomination, and a different beneficiary nominated as herein provided.

SEC. 2. Section 14251 of the Education Code is amended to read:

14251. Except as otherwise provided in Sections 14364, 14365, or 14366, upon receipt of proof of a member's death which occurred before the effective date of his retirement or after said date but before the date upon which the warrant for his first retirement allowance is mailed, including a warrant for an advance payment as permitted by Section 14128, and within four months after the termination of the member's employment in a status requisite for membership in this retirement system, or while the member was physically or mentally incapacitated for performance of his duty, if such incapacity had been continuous from said termination, there shall be paid to such beneficiary or beneficiaries as he has nominated:

(a) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(b) The accumulated contributions standing to the credit of his individual account in the Retirement Annuity Fund.

(c) Any moneys standing to the credit of his individual account in the Annuity Deposit Fund pursuant to Section 13906 or Section 14107.1, together with the interest accumulated thereon.

(d) An amount, provided from contributions by the state, and payable from the Retirement Annuity Fund, for each completed year of service as a member, not to exceed six and excluding those years of service with respect to which contributions have been refunded and the member had not elected to redeposit pursuant to Section 14155, equal to one-twelfth of the salary which would have been earned by the member at the rate of salary at which he was last employed preceding death, assuming engagement in duties for the number of schooldays during the school year in which said employment existed. If the last employment preceding death was less than full time, the salary used under this subdivision shall be the salary earned and used in the calculation of contributions in the last preceding year. From the amount determined under the preceding sentences, there shall be deducted an amount equal to that portion of the benefit payable on account of said death by a local retirement system or the State Employees' Retirement System, which is provided from contributions of the employer, and is in addition to the portion of the benefit payable by said systems which is made up of the accumulated contributions of the member, and independently of any optional election made by said person at the time of his retirement, under which he received a reduced retirement allowance and a benefit was provided at his death.

(e) The accumulated shelter contributions standing to the credit of his account.

SEC. 3. Section 14401 of the Education Code is amended to read:

14401. Whenever nomination of a beneficiary is authorized by this chapter (commencing at Section 13801), and no beneficiary has been nominated or such nomination has been revoked as hereinafter provided, the estate of the person authorized to make the nomination shall be the beneficiary. The nomination of a beneficiary under the retirement system, other than nominations under Options 2 and 3 in Section 14363 or under Section 14365, may be revoked at the pleasure of the person making the nomination. A member's marriage, divorce, annulment of marriage or the termination of membership shall constitute a revocation of his previous designation of beneficiary or beneficiaries. Any designation of beneficiary in effect on October 1, 1967, which was filed prior to the occurrence of any of the conditions specified herein shall become void on October 1, 1967.

After revocation or voidance of any beneficiary designation, a member may designate the same or another beneficiary or beneficiaries by a writing according to the procedure in Section 14250.

SEC. 4. Section 14401.2 is added to the Education Code, to read:

14401.2. If after nomination of his child or children as a beneficiary or beneficiaries a married member has issue of his marriage and such after-born child survives the member, or is born after his death, such child shall receive an equal share with those children named as such beneficiaries unless the member declares in a writing filed with the retirement system that such after-born child is intentionally excluded as a beneficiary; and no other evidence to rebut the presumption of such revocation can be received.

Children of a deceased child (such child being a designated beneficiary or such after-born beneficiary) of the member shall receive, share and share alike, the share that such child would have received were he living at the date of the member's death.

Payment pursuant to the board's determination in good faith upon evidence satisfactory to it of the existence, identity or other facts relating to entitlement of persons under this section shall constitute a complete discharge of and release of the system from liability for the benefit so paid.

This section shall become operative October 1, 1967.

SEC. 5. Section 14405 of the Education Code is amended to read:

14405. If any person entitled to a benefit from the system is a minor who has no guardian of his estate, the benefit not to exceed two thousand dollars ($2,000) may be paid to the person entitled to the custody of the minor to hold for the

minor, upon the written statement, duly acknowledged and verified, of the person that the total estate of the minor does not exceed two thousand five hundred dollars ($2,500) in value. The payment shall be full and complete discharge and acquittance of the board and system. The person shall account to the minor for the money when the minor reaches the age of majority.

The people of the State of California do enact as follows:

SECTION 1. Section 14202 of the Education Code is amended to read:

14202. The county superintendent of schools of each county shall certify to the Retirement Board, on or before the 15th of each May and December:

SEC. 4. Section 13968 of the Education Code is repealed.

SEC. 5. Section 14102 of the Education Code is repealed.

SEC. 6. Section 14127.1 of the Education Code is amended to read:

14127.1. The obligations of any member to this system continue throughout his membership, and thereafter until all of the obligations of this system to or in respect to him have been discharged. For the purposes of payments into or out of the retirement fund for adjustments of errors or omissions, whether pursuant to Sections 14151, 14251, 14256, or otherwise, the period of limitation of actions otherwise applicable shall not be deemed to commence or to have commenced to run until the error or omission has been discovered, as evidenced by the filing with this system of a claim or demand against this system or by the making of a claim or order for payment by this system against the former member, retired member, member or his beneficiary. In all cases where errors or omissions have been discovered prior to the effective date of this section, adjustment by payment into or out of the retirement fund shall be made, or action therefor instituted, within one year after the effective date of this section.

SEC. 7. Section 14151 of the Education Code is amended to read:

14151. Upon the termination of a member's employment by any cause other than death or retirement there shall be paid to him, or if no other benefits are payable under this chapter upon the death of a member, there shall be paid to the beneficiary nominated by the deceased member:

(a) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(b) The accumulated annuity contributions standing to the credit of his individual account in the Retirement Annuity Fund.

(c) Any moneys standing to the credit of his individual account in the Annuity Deposit Fund pursuant to Section 13906 or Section 14107.1, together with the interest accumulated thereon.

(d) The shelter contributions standing to the credit of his individual account, together with credited interest if he has

made such contributions for more than five (5) years, but otherwise without credited interest.

SEC. 8. Section 14153 of the Education Code is amended to read:

14153. If a member ceases to be entitled to credit for service in this system because he has become entitled to credit for such service in another retirement system supported wholly or in part by funds of the United States government, or any state government or political subdivision thereof, except a local system, he shall be entitled to a refund of the contributions paid the Teachers' Permanent Fund after July 1, 1935 without interest except for such interest as was paid by the member, and the contributions paid the Retirement Annuity Fund with interest, on account of such service.

SEC. 9. Section 14154 of the Education Code is amended to read:

14154. The retirement board shall withhold for four months payment of contributions upon termination of employment, if the person to whom the contributions are payable previously had been paid contributions and had again become a member within one year after the termination of the prior employment in a status requisite for membership.

SEC. 10. Section 14155 of the Education Code is amended to read:

14155. If a person whose contributions have been returned reenters the system he may elect to redeposit the contributions, excluding shelter contributions, returned to him after he has rendered two years of creditable service subsequent to his reentry. Such redeposit shall include interest at the rates currently being used from time to time to credit interest on contributions to the Retirement Annuity Fund. For time prior to July 1, 1944, the interest shall be at 2½ percent compounded annually. Redeposit may be made in installments in accordance with such rules and regulations as may be established by the retirement board.

The election to redeposit withdrawn contributions as provided by this section shall be extended to all persons who withdrew contributions prior to October 1, 1961, and who have not redeposited prior to that date, provided that an election to redeposit such contributions was not available at the time of reentry to membership.

Upon reentry to membership the person's rate of contributions shall be the rate applicable to his age on the date of reentry. If he elects to redeposit contributions, as provided in this section, his rate of contributions on service rendered subsequent to the first of the month following the date such election is received in the retirement office shall be the rate applicable to the age attained by deducting the period from the date of refund to the date of reentry from the exact age attained at the time of reentry.

If the member dies after he has rendered six months of service subsequent to his reentry to membership, and before

making an election with respect to the redeposit of the refunded contributions, the service upon which such contributions were based and the service rendered after his reentry shall be included in the determination of the benefits payable under Sections 14251 and 14256.

Redeposit of contributions under this section may be adjusted by amounts arising from erroneous application of rate of contribution or other contribution errors.

SEC. 11. Section 14260 of the Education Code is repealed.

SEC. 12. Section 14303.1 of the Education Code is repealed.

SEC. 13. Section 14309.1 of the Education Code is amended to read:

14309.1. If, prior to attaining the age of 55 years, a person who is entitled to receive a retirement allowance because of his retirement for disability, engages in a gainful occupation not in a status requisite for membership in the retirement system, the board shall reduce before any modification in the allowance made because of an option elected pursuant to Section 14363 the portion of his monthly retirement allowance which is not provided by his accumulated contributions, to an amount, which when added to the compensation earned monthly by him, shall not exceed the amount of the compensation which would be earnable by a person holding the same or an equal position as or to that which he held at the time of his retirement, and in the same salary step or rating, or if no such position then exists such compensation earnable immediately prior to its abolition. If his earnings are further altered, the board shall further alter such portion of his retirement allowance to the lower of the following amounts:

(a) The amount of such portion of his retirement allowance as it would be if not reduced under this section.

(b) An amount which, when added to the compensation earned by him, shall equal the amount of the compensation which would be earnable by a person holding the same or an equal position as or to that which he held at the time of his retirement, and in the same salary step or rating, or if no such position then exists, such compensation earnable immediately prior to its abolition.

For purposes of this section the retirement allowance subject to adjustment shall be considered to be the unmodified allowance irrespective of the option elected.

When he attains the age of 55 years, his retirement allowance shall be made equal to the amount it would be if not reduced under this section, and shall not again be modified under this section.

SEC. 14. Section 14313 of the Education Code is repealed.

SEC. 15. Section 14355 of the Education Code is amended to read:

14355. Upon retirement for service, a retired member shall receive a retirement allowance which shall consist of:

(a) A monthly retirement salary derived from the Permanent Fund, equal to the fraction of an amount which bears

the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed 30 years, bears to 30 years, set forth in Section 14359, opposite his age at retirement, taken to the preceding completed quarter year, in the column applicable to his sex.

(b) A retirement annuity derived from the Retirement Annuity Fund based upon the number of years of service credited to him, less any service for which he is entitled to receive retirement benefits under a local retirement system, computed pursuant to Section 14359.

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement.

(d) A "shelter annuity" which shall be the actuarial equivalent of the accumulated shelter contributions standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14363, and exclusive of the annuity derived from accumulated annuity deposits, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, based on service rendered prior to July 1, 1944, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

SEC. 16. Section 14366 of the Education Code is amended to read:

14366. Upon the death before retirement of a member who is qualified for service retirement under subsection (a) of Section 14301, and on account of whose death the benefit provided by Section 14251 is otherwise payable, or who could have qualified for service retirement under subsection (b) of Section 14301 at the time of his death, a monthly allowance equal to one-half of the monthly retirement allowance prior to modification under options in Section 14363, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be payable:

(a) To the member's widow, or to the member's widower who was receiving at least one-half of his support from the

member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death; provided, such widow or widower does not qualify for an allowance under Section 14365; or

(b) If there is no qualifying surviving spouse, or if such spouse dies or remarries, to unmarried children, including dependent stepchildren, of the member, who are under 18 years of age.

The allowances payable under this section shall be in lieu of the death benefit provided by Section 14251 or by Section 14151, except for the accumulated annuity deposits and accumulated shelter contributions included therein, but a person qualifying for the allowance or such person's guardian may elect, before the first payment on account of it, to receive such death benefit in lieu of the allowance. The member's accumulated annuity deposits and accumulated shelter contributions shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from state contributions.

If the guardian of one or more children otherwise eligible to receive the allowance elects that such death benefit be paid in lieu thereof, there shall be paid to each such child an amount equal to what said child would have received as an allowance hereunder had the election not been made (disregarding interest and the probability of death or marriage), and under the assumption that each monthly allowance would have been divided equally among such unmarried children then under age 18, said amounts to be reduced proportionately if their total would otherwise be in excess of the amount of such death benefit. Any balance of such death benefit remaining after such payments have been made shall be paid to the surviving spouse of the member, or if none, to the surviving children of the member, share and share alike.

SEC. 17. Section 14367 of the Education Code is amended to read:

14367. The allowance provided by Section 14366 shall be paid from the Retirement Annuity Fund, and shall begin to accrue on the day next following the date of death of the member, and payments to a surviving spouse shall continue only until death or remarriage, and to or on account of children with respect to each child, until the attainment of age 18 or prior marriage.

If payment of the allowance provided by Section 14366 is stopped because of remarriage of the surviving spouse, or the attainment of the age of 18 years by a child, before the sum of the monthly payments made, equals the death benefit provided by Section 14251, exclusive of accumulated annuity deposits and shelter contributions, a lump sum equal to the difference

shall be paid to the remarried spouse, or if there is no such spouse, to the surviving children of the member, share and share alike.

From the monthly allowance payable under Section 14366, there shall be deducted a total amount equal to that portion of the benefit payable on account of said death by a local retirement system, which is provided from contributions of the district operating said system, and is in addition to the portion of the benefit payable by said local system which is made up of the accumulated contributions of the member, and no monthly allowance shall be paid under this section until the total amount deducted equals said portion provided by district contributions.

SEC. 18. Section 14369 of the Education Code is amended to read:

14369. Upon retirement for disability, a member shall receive a retirement allowance which shall consist of:

(a) A retirement salary derived from the Permanent Fund, payable monthly, equal to the retirement salary calculated under subdivision (a) of Section 14355 if the member has attained the age of 60 years at the effective date of his retirement; or if the member has not attained such age, a retirement salary payable monthly equal to ninety percent (90%) of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed thirty (30) years, bears to 30 years.

(b) A disability annuity, derived from the Retirement Annuity Fund, computed pursuant to Section 14370.

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement.

(d) A shelter annuity which shall be the actuarial equivalent of the accumulated shelter contributions standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14363, and exclusive of the annuities referred to in subdivision (c) and (d) of this section, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance, prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to re-

ceive the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

SEC. 19. Section 14371 of the Education Code is amended to read:

14371. In no event shall the retirement allowance for disability, exclusive of any annuity provided by accumulated annuity deposits and accumulated shelter contributions, be less than the amount of the service retirement allowance, exclusive of any annuity purchased by accumulated annuity deposits and accumulated shelter contributions, which the retiring member would have received if he had retired for service instead of disability.

Except as otherwise provided in that chapter, your failure to do so will constitute a waiver of your right to call unlisted expert witnesses during your case in chief and of your right to introduce on direct examination during your case in chief any matter that is required to be, but is not, set forth in your statements of valuation data."

(d) Not later than 20 days prior to the day set for trial, each party who served a demand or cross-demand and each party upon whom a demand or cross-demand was served shall serve and deposit with the clerk of the court a list of expert witnesses and statements of valuation data. Unless the court otherwise orders, the clerk shall, at the conclusion of the trial, return all lists and statements to the attorneys for the parties who deposited them. Lists or statements ordered by the court to be retained may thereafter be destroyed or otherwise disposed of in accordance with the provisions of law governing the destruction or disposition of exhibits introduced in the trial.

(5) The price and other terms and circumstances of the transaction. In lieu of stating the terms contained in any contract, lease, or other document, the statement may, if the document is available for inspection by the adverse party, state the place where and the times when it is available for inspection.

(d) If any opinion referred to in subdivision (a) is based in whole or in substantial part upon the opinion of another person, the statement of valuation data shall include the name and business or residence address of such other person, his business, occupation, or profession, and a statement as to the subject matter to which his opinion relates.

(e) Except when an appraisal report is used as a statement of valuation data as permitted by subdivision (f), the statement of valuation data shall include a statement, signed by the witness, that the witness has read the statement of valua-

tion data and that it fairly and correctly states his opinions and knowledge as to the matters therein stated.

(f) An appraisal report that has been prepared by the witness which includes the information required to be included in a statement of valuation data may be used as a statement of valuation data under this chapter.

1272.03. The list of expert witnesses shall include the name, business or residence address, and business, occupation, or profession of each person intended to be called as an expert witness by the party and a statement as to the subject matter to which his testimony relates.

1272.04. (a) A party who is required to exchange lists of expert witnesses and statements of valuation data shall diligently give notice to the parties upon whom his list and statements were served if, after service of his list and statements, he:

(1) Determines to call an expert witness not included in his list of expert witnesses to testify on direct examination during his case in chief;

1272.05. Except as provided in Section 1272.06, upon objection of any party who has served his list of expert witnesses and statements of valuation data in compliance with Section 1272.01:

(a) No party required to serve a list of expert witnesses may call an expert witness to testify on direct examination during the case in chief of the party calling him unless the information required by Section 1272.03 for such witness is included in the list served by the party who calls the witness.

(b) No party required to serve statements of valuation data may call a witness to testify on direct examination during the case in chief of the party calling him to his opinion of the value of the property described in the demand or cross-demand or the amount of the damage or benefit, if any, to the remainder of the larger parcel from which such property is taken unless a statement of valuation data for the witness was served by the party who calls the witness.

(c) No witness called by any party required to serve statements of valuation data may testify on direct examination during the case in chief of the party who called him to any opinion or data required to be listed in the statement of valuation data for such witness unless such opinion or data is listed in the statement served, except that testimony that is

merely an explanation or elaboration of data so listed is not inadmissible under this section.

1272.06. (a) The court may, upon such terms as may be just, permit a party to call a witness, or permit a witness called by a party to testify to an opinion or data on direct examination, during the party's case in chief where such witness, opinion, or data is required to be, but is not, included in such party's list of expert witnesses or statements of valuation data if the court finds that such party has made a good faith effort to comply with Sections 1272.01 to 1272.03, inclusive, that he has complied with Section 1272.04, and that, by the date of the service of his list and statements, he:

(1) Would not in the exercise of reasonable diligence have determined to call such witness or discovered or listed such opinion or data; or

(2) Failed to determine to call such witness or to discover or list such opinion or data through mistake, inadvertence, surprise, or excusable neglect.

(b) In making a determination under this section, the court shall take into account the extent to which the opposing party has relied upon the list of expert witnesses and statements of valuation data and will be prejudiced if the witness is called or the testimony concerning such opinion or data is given.

1272.07. This chapter does not apply in any eminent domain proceeding in any county having a population in excess of 4,000,000 in which a pretrial conference is held.

1272.08. The procedure provided in this chapter does not prevent the use of discovery procedures or limit the matters that are discoverable in eminent domain proceedings. Neither the existence of the procedure provided by this chapter, nor the fact that it has or has not been invoked by a party to the proceeding, affects the time for completion of discovery in the proceeding.

1272.09. Nothing in this chapter makes admissible any evidence that is not otherwise admissible or permits a witness to base an opinion on any matter that is not a proper basis for such an opinion.

34021. The regulations adopted by the State Fire Marshal shall make reasonable allowances for cargo tanks in existence when the regulations become effective. No allowance shall, however, be made for any cargo tank which because of its design or construction constitutes a distinct hazard to life or property.

34022. In making the regulations, the State Fire Marshal shall consider as evidence of generally accepted safety standards the publications of the National Fire Protection Association and the Interstate Commerce Commission.

34023. The certificate of compliance shall be plainly affixed to the cargo tank. At the time of such removal, the inspector shall deliver to the registrant or his representative a written notice specifying in what particulars the cargo tank does not so comply. Within 20 days from the date of such removal of the certificate of compliance and the written notice, a statement of suspension or revocation of the cargo tank registration shall be filed. If within such 20-day period the registrant notifies the State Fire Marshal and the State Fire Marshal is satisfied that the cargo tank has been brought into compliance, the certificate of compliance may be reinstated by issuance of a duplicate thereof. In such event, the statement of suspension or revocation may, but need not, be filed.

34064. The State Fire Marshal, his deputies or salaried assistants may inspect cargo tanks located at terminals, yards or similar places; or the appurtenances and equipment thereof as often as may be necessary for the purpose of ascertaining and causing to be corrected any conditions liable to cause a highway fire or explosion or any violation of the provisions or intent of this division. The State Fire Marshal or his deputies may enter upon private property to conduct such inspections. The owner, lessee, manager or operator of any such property shall permit the State Fire Marshal, his deputy or salaried assistants to enter and inspect cargo tanks for the purpose stated in this division.

CHAPTER 1111

An act to amend Sections 12396 and 12402 of the Insurance Code, relating to title companies.

[Approved by Governor August 11, 1967. Filed with Secretary of State August 14, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 12396 of the Insurance Code is amended to read:

12396. (a) An underwritten title company as defined in Section 12402 of this code, which shall be a stock corporation, may engage in the business of preparing title searches, title examinations, certificates or abstracts of title, upon the basis of which a title insurer regularly writes title policies, provided that:

(1) Only domestic corporations may be licensed under this section and, after January 1, 1968, no underwritten title company, as defined in Section 12402, shall become licensed for the first time under this section, or change the name under which it is licensed or operates, unless it has first complied with the provisions of Section 881.

(2) Depending upon the county or counties in which the company transacts business, it shall maintain required minimum capital and surplus or net worth as follows:

Aggregate number of documents recorded and documents filed in the offices of the county recorders in the preceding calendar year in all counties where it is transacting any business. Number of documents	Amount of required minimum capital and surplus or net worth
Less than 10,000	$20,000
10,000 to 50,000	30,000
50,000 to 100,000	60,000
100,000 to 500,000	100,000
500,000 to 1,000,000	150,000
1,000,000 or more	200,000

"Capital and surplus" or "net worth" is defined as the excess of assets over all liabilities and required reserves. It may carry as an asset the actual cost of its title plant provided the value ascribed to such asset shall not exceed the lesser of: (a) the actual cost thereof, or (b) 50 percent of its stated capital, as defined in Section 1900 of the Corporations Code.

Notwithstanding the capital and surplus or net worth requirements set forth above, any underwritten title company actively engaged in business as such on September 17, 1965, shall meet the capital and surplus or net worth requirements set forth above on the following time schedule:

(i) Forty percent of the amount set forth above on or before December 31, 1967.

(ii) Sixty percent of the amount set forth above on or before December 31, 1968.

(iii) Eighty percent of the amount set forth above on or before December 31, 1969.

(iv) One hundred percent of the amount set forth above on or before December 31, 1970.

(3) Such an underwritten title company shall obtain from the commissioner a license to transact its business. Such license shall not be granted until the applicant conforms to the requirements of this section and all other provisions of this code specifically applicable to applicant. After issuance the holder shall continue to comply with the requirements as to its business set forth in this code, in the applicable rules and regulations of the commissioner and in the laws of this state.

Any underwritten title company who possesses, or is required to possess, a license pursuant to this section shall be subject as if an insurer to the provisions of Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1 of this code and shall be deemed organized for the purpose of transacting an insurance business within the meaning of subdivision (h) of Section 25100 of the Corporations Code.

Such license may be obtained by filing an application on a form prescribed by the commissioner accompanied by a filing fee of one hundred dollars ($100). Such license when issued shall be for an indefinite term and shall expire with the termi-

nation of the existence of the holder. Nonetheless, the holder commencing in 1967 shall be subject to the provisions of Section 705 as if it were an insurer and as if it held a certificate of authority, paying the ten dollars ($10) renewal fee therein provided.

(4) Such an underwritten title company shall furnish an audit to the commissioner on the forms provided by the commissioner annually, either on a calendar year basis on or before March 31st or, if approved in writing by the commissioner in respect to any individual company, on a fiscal year basis on or before 90 days after the end of the fiscal year. The time for furnishing any such audit may be extended on written approval of the commissioner for a period, not to exceed 60 days. Such audits shall be private, except that a synopsis of the balance sheet on a form prescribed by the commissioner may be made available to the public.

The audits shall be made in accordance with generally accepted auditing standards by an independent certified public accountant or independent licensed public accountant approved by the commissioner specifically for the particular company. Approval of an auditor for a particular company shall not be deemed to be a licensing of the auditor nor approval of the auditor for any other company or any other purpose. Any such approval, or the renewal thereof, shall automatically expire on the first day of January in the fifth calendar year following the date of original or renewal approval. The fee for filing an application for such approval or the renewal thereof shall be ten dollars ($10). The fee for approving the submitted audit shall be twenty-five dollars ($25).

The commissioner may deny or revoke approval or renewal of approval of an auditor for any of the following reasons:

(i) Adverse result in any proceeding before the State Board of Accountancy affecting the auditor's license;

(ii) The auditor has an affiliation with the underwritten title company or any of its officers or directors which would prevent his reports on the company from being reasonably objective;

(iii) The auditor has suffered conviction of any misdemeanor or felony based on his activities as an accountant; or

(iv) Judgment adverse to the auditor in any civil action finding him guilty of fraud, deceit or misrepresentation in the practice of his profession.

Any company which fails to file any audit or other report on or before the date it is due shall pay to the commissioner a penalty fee of one hundred dollars ($100) and on failure to pay such or any other fee required by this section shall forfeit the privilege of accepting new business until the delinquency is corrected.

(b) Such an underwritten title company may engage in the escrow business and act as escrow agent provided that:

(1) All funds deposited with the company in connection with any escrow shall be deposited in a bank in a separate trust account, and such funds shall be the property of the person or persons entitled thereto under the provisions of the escrow and segregated escrow by escrow in the records of the company. Such funds shall not be subject to any debts of the company and shall be used only to fulfill the terms of the individual escrow under which the funds were accepted and none of such funds shall be used until all conditions of the escrow have been met.

Bona fide drafts executed by persons fully responsible financially may at the option of the company, be deemed the equivalent of funds already cleared into such bank deposit unless another law of this state prohibits such persons from tendering such drafts to escrow holders for the purpose of closing escrows.

Any interest received on funds deposited with the company in connection with any escrow which are deposited in a bank shall be paid over to the depositing party to the escrow and shall not be transferred to the account of the company.

(2) It shall maintain record of all receipts and disbursements of escrow funds.

(3) It shall deposit seven thousand five hundred dollars ($7,500) for each county in which it operates in some form permitted by Section 12351 with the commissioner who shall forthwith make a special deposit thereof in the State Treasury and such deposit shall be subject to the provisions of Sections 12353, 12356, 12357, and 12358 and as long as there are no claims against the deposit all interest and dividends thereon shall be paid to the depositor. The assets in the deposit shall be subject to final sale, transfer and disposal of the proceeds thereof by the commissioner only on the order of a court of competent jurisdiction, and for the security and protection of persons having lawful claims against the depositor growing out of escrow transactions with it. Such deposit shall be maintained until two years after the company ceases to engage in the escrow business.

(4) It shall obtain and maintain a fidelity bond on file with the commissioner to cover all officers and employees of the company who participate in any escrow transaction that is handled by the company. Such bond shall be a blanket bond or, with the approval of the commissioner, may be a position or individual bond. The commissioner shall prescribe the amount of the bond which shall not exceed two hundred thousand dollars ($200,000).

(c) The commissioner shall, whenever it appears necessary, examine the business and affairs of a company licensed under this section. All such examinations shall be at the expense of the company.

(d) At any time that the commissioner determines, after notice and hearing, that a company licensed under this section has willfully failed to comply with any of the provisions of

this section, the commissioner shall make his order prohibiting the company from conducting its business for a period of not more than one year.

Any company violating such an order is subject to seizure under Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 of this code is guilty of a misdemeanor and may have its license revoked by the commissioner. Any person aiding and abetting any company in a violation of such an order is guilty of a misdemeanor.

The purpose of this section is to maintain the solvency of the companies subject to this section and to protect the public by preventing fraud and requiring fair dealing. In order to carry out such purposes the commissioner may make reasonable rules and regulations to govern the conduct of its business of companies subject to this section.

The name under which each underwritten title company is licensed shall at all times be an approved name. Each such company shall be subject to the provisions of Article 14 (commencing with Section 1010) and Article 14.5 (commencing with Section 1065.1) of Chapter 1 of Part 2 of Division 1 of this code.

Such rules and regulations shall be adopted, amended or repealed in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 2. Section 12402 of the Insurance Code is amended to read:

12402. Each person engaged in the business of handling escrows of real property transactions in connection with which title policies are issued by a title insurer, which person, if an artificial person, directly or indirectly, is controlled by, or controls, or is under common control with, a title insurer, or controls or is controlled by or is under common control with an underwritten title company, or, if a natural person, is employed by or controlled by a title insurer, or by an underwritten title company, is herein, for the purposes of this article, called a "controlled escrow company." Each person engaged in the business of preparing title searches, title examinations, certificates or abstracts of title upon the basis of which a title insurer regularly writes title policies is herein called, for the purposes of this article, "an underwritten title company." Such an underwritten title company shall be a stock corporation and subject to the provision of Section 12396.

When so acting the commissioner may, as to certificates evidencing the securities of any corporation organized under the laws of this state, whose charter has been suspended for a period of not less than two years for nonpayment of taxes or penalties pursuant to any laws of this state, destroy any such certificates and other records pertaining to such escrow and shall have no further liability or accountability therefor. However, he shall maintain thereafter a record as to each certificate so destroyed, setting forth the name of the issuer; the name of the holder as appearing on the certificate at the time of its destruction; the class, type or series of the security; the number of shares, units or the face amount in the name of each such issue; and such other information as he deems appropriate. The commissioner shall, upon request, furnish a copy of such record, and such record, when certified by the commissioner as being a true record, shall constitute prima facie evidence as to the matters therein set forth.

to transact its business fairly and honestly and that in his opinion the issuance of the curative permit will not work a fraud upon the holders of any of the issued and outstanding securities of applicant.

Where the applicant is not a party to such proceedings he shall be permitted to intervene.

A copy of the application shall be attached to the notice of motion, and supplementary affidavits may also be attached.

(b) The court shall stay all proceedings relating to any issues which turn on the provisions of Section 26100 until the commissioner has granted or denied the permit and the grant or denial has become final if the court finds that the application and affidavits, if any, state facts showing that the commissioner has jurisdiction of the application and that there is a prima facie basis for the finding required by Section 25518.

26018. The fee for filing an application for a curative permit shall be fifty dollars ($50), plus a sum, as estimated by the commissioner, to cover the actual expense of giving notice and holding any hearing held in connection therewith, plus a fee computed in accordance with Section 26003 less any fee previously paid thereunder for such security.

Upon the filing of such a petition, the court shall order the defendant to be examined by two physicians. At least one day before the time of the examination as fixed by the court order, a copy of the petition and order for examination shall be personally delivered to the defendant. If the report is to the effect that the defendant is addicted or is by reason of the

repeated use of narcotics in imminent danger of addiction, further proceedings shall be conducted in compliance with Sections 3104, 3105, 3106, and 3107.

If, after a hearing, the judge finds that the defendant is a narcotic addict, or is by reason of the repeated use of narcotics in imminent danger of becoming addicted to narcotics, he shall make an order committing such person to the custody of the Director of Corrections for confinement in the facility until such time as he is discharged pursuant to Article 5 of this chapter, except as this chapter permits earlier discharge. In any case to which Section 3052 applies, the judge may request the district attorney to investigate the facts relevant to the advisability of commitment pursuant to this section. In unusual cases, wherein the interest of justice would best be served, the judge may, with the concurrence of the district attorney and defendant, order commitment notwithstanding Section 3052. If, upon the hearing, the judge shall find that the defendant is not a narcotic addict and is not in imminent danger of becoming addicted to narcotics, he shall so certify and return the defendant to the department of the superior court which directed the filing of the petition for such further proceedings on the criminal charges as the judge of such department deems warranted.

order the person sought to be committed to be examined by any other physician or physicians. The court may also order that the person be confined pending hearing in a county hospital or other suitable institution designated by the board of supervisors of the county if the petition is accompanied by the affidavit of a physician alleging that he has examined such person within 72 hours prior to the filing of the petition, excluding Saturdays, Sundays, and judicial holidays, and has concluded that, unless confined, such person is likely to injure himself or others or become a menace to the public. In any case in which a person is so ordered to be confined, it shall be the duty of the person in charge of the institution to provide the person ordered confined with medical aid as necessary to ease any symptoms of withdrawal from the use of narcotics. Such medical aid shall not be administered by a peace officer who is not licensed as a physician and surgeon.

SEC. 8. Section 3104 of the Welfare and Institutions Code is amended to read:

3104. If the report is to the effect that the person is addicted or is by reason of the repeated use of narcotics in imminent danger of addiction, the person shall be taken before the judge, who shall then inform him of his right to be represented by counsel, to make a defense to the petition, to produce witnesses in his behalf, and to cross-examine witnesses. If he is financially unable to employ counsel the judge shall appoint counsel to represent him, and in a county where there is no public defender or where the judge finds that the public defender has properly refused to represent the person, the judge shall fix the compensation to be paid by the county for such services. The judge shall by order fix such time and place for the hearing in open court as will give a reasonable opportunity for the production and examination of witnesses.

The court shall compel the attendance of the physicians who conducted the examination required by Section 5050, 5051, 3100.6 or 3102, who shall testify as to the result of the examination, unless the presence of the physicians is waived and it is stipulated that their affidavit or report may be received in evidence.

3108. If the person so committed or any friend in his behalf is dissatisfied with the order of commitment, he may within 10 days after the making of such order, file a written demand that the question of his addiction or imminent danger of addiction be tried by a jury in the superior court of the county in which he was committed. Thereupon, the court shall cause a jury to be summoned and to be in attendance at a date stated, not less than 4 days nor more than 30 days from the date of the demand for a jury trial. The court shall submit to the jury the question: Is the person addicted to the use of narcotics or is he by reason of the repeated use of narcotics in imminent danger of addiction? The person committed shall be awarded all his constitutional rights including, but not limited to, his right to counsel, his right to notice of the nature of the proceedings brought against him, his right to the process of the court to compel the attendance of witnesses in his behalf, and his right to be confronted with witnesses.

3151. After an initial period of observation and treatment of six months, and subject to the rules and policies established by the Director of Corrections, whenever a person committed under Article 2 or Article 3 of this chapter has recovered from his addiction or imminent danger of addiction to such an extent that, in the opinion of the Director of Corrections, release in an outpatient status is warranted, the director shall certify such fact to the authority. If the director has not so certified within the preceding 12 months, in the anniversary month of the commitment of any person committed under this chapter his case shall automatically be referred to the authority for consideration of the advisability of release in outpatient status. Upon any such certification by the director or such automatic certification, the authority may release such person in an outpatient status subject to all rules and regulations adopted by the authority, and subject to all conditions imposed by the authority, whether of general applicability or restricted to the particular person released in outpatient status, and subject to being retaken and returned to inpatient status as prescribed in such rules, regulations, or conditions. The supervision of such persons while in an outpatient status shall be administered by the Department of Corrections. Such persons are not subject to the provisions of Penal Code Section 2600.

A single member of the authority may by written or oral order suspend the release in outpatient status of such a person and cause him to be retaken, until the next meeting of the authority.

It is hereby made the duty of all peace officers to execute any such order in like manner as ordinary criminal process.

(a) In any prosecution charging a violation of any regulation governing the standing or parking of a vehicle under this code or any ordinance enacted by local authorities, proof by the people of the State of California that the particular vehicle described in the complaint was parked in violation of any provision of this code or such ordinance, together with proof that the defendant named in the complaint was at the time of parking the registered owner of the vehicle, shall constitute prima facie evidence that the registered owner of the vehicle was the person who parked or placed the vehicle at the point where, and for the time during which, the violation occurred, but for the purposes of this subdivision proof that a person is the registered owner of a vehicle is not prima facie evidence that the registered owner has violated any other provision of law. The above provisions shall apply only when the procedure required by Section 41103 is complied with. Proof of a written lease of, or rental agreement for, a particular vehicle described in the complaint, on the date and time of such violation, which lease or rental agreement includes the name and address of the person to whom the vehicle is leased or rented, shall rebut the prima facie evidence that the registered owner was the person who parked or placed the vehicle at the time and place where the violation occurred.

(b) In any prosecution charging a violation of any provision of this code requiring the display of any evidence of registration, with respect to an unattended vehicle, proof by the people of the State of California that the particular vehicle described in the complaint failed to properly display such evidence of registration, together with proof that the defendant named in the complaint was at the time the registered owner of the vehicle, shall constitute prima facie evidence that the registered owner of the vehicle was in control of, or responsible for, the vehicle at the time the violation occurred. No other prima facie evidence shall be created by this subdivision. The above provisions shall apply only when the procedure required by Section 41103 is complied with.

(c) Any charge under this section shall be dismissed when the person charged has made a bona fide sale or transfer of the

[Approved by Governor August 14, 1967. Filed with Secretary of State August 14, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 2301 of the Public Resources Code is amended to read:

2301. Any person, a citizen of the United States, or who has declared his intention to become a citizen, who discovers a vein or load of quartz, or other rock in place, bearing gold, silver, cinnabar, lead, tin, copper, or other valuable deposit, may locate a claim upon such vein or lode, by defining the boundaries of the claim, in the manner hereinafter described, and by posting a notice of such location, at the point of discovery. The notice shall contain:

(a) The name of the lode or claim.

(b) The name of the locator or locators.

(c) The number of linear feet claimed in length along the course of the vein, each way from the point of discovery, with the width on each side of the center of the claim, and the general course of the vein or lode, as near as may be.

(d) The date of location.

(e) Such a description of the claim by reference to some natural object, or permanent monument, as will identify the claim located. The township and range shall be included in such description.

SEC. 1.5. Section 2304 of the Public Resources Code is amended to read:

2304. (a) Within 90 days after the date of location of any lode claim or any placer claim containing not more than the maximum area locatable as a placer claim by one person hereafter located, the locator or locators thereof shall sink a discovery shaft upon the claim to a depth of at least 10 feet from the lowest part of the rim of the shaft at the surface, or shall drive a tunnel, adit, or open cut upon the claim to at least 10 feet below the surface, and the locators of an association placer claim containing a larger area hereafter located shall sink one such shaft or drive one such tunnel, adit or open cut for each 20 acres contained in the association claim.

(b) In lieu of the discovery work required by subdivision (a) of this section, the locator of a lode claim or any placer claim containing not more than the maximum area locatable as a placer claim by one person, may, within 90 days of the date of location, drill a hole to a hole depth of not less than 25 feet by any drilling equipment capable of collecting and bringing to the surface a sample that may actually be in-

spected or tested. Such hole may be drilled on a lode claim at any point within the claim or within a group of claims not exceeding 10 in number, in any contiguous orientation and arrangement, except that the maximum dimension of such group arrangement shall not exceed seven thousand five hundred (7,500) feet and providing that the hole depth of the hole or holes drilled as discovery work for the group shall aggregate a total not less than 25 feet times the total number of claims within such group. Such a hole for a placer claim may be drilled at any point within the claim, but the number of feet of drilling so done for an association claim must aggregate not less than 25 feet times the number by which 20 will divide into the total number of acres in the association claim.

(c) If the locator has elected to do such discovery work as provided in subdivision (b) of this section, he shall, within the time specified within subdivision (b) of this section, cap or plug each drill hole intended as discovery work and mark it with a wooden post at least four inches in diameter, or a metal post, placed within five feet of the hole, which post shall be at least 48 inches in height above the ground, shall be firmly imbedded in the ground, and shall have securely fixed to it a notice containing the name of the claim on which located, the names of the contiguous claims, if any, for which it is claimed as discovery work, and the date the hole was completed.

SEC. 2. Section 2305 of the Public Resources Code is repealed.

SEC. 3. Section 2306 of the Public Resources Code is amended to read:

2306. The relocation of any lode or placer mining location which is subject to relocation shall be made as an original location is required to be made, except that the relocator may either sink a new shaft upon the claim to the depth of at least 10 feet from the lowest part of the rim of the shaft at the surface, or drive a new tunnel, adit, or open cut upon the claim to at least 10 feet below the surface; or the relocator may sink the original discovery shaft 10 feet deeper than it is at the time of relocation, or drive the original tunnel, adit, or open cut upon the claim 10 feet further; or the relocator may drill a hole or holes under the provisions of subdivisions (b) and (c) of Section 2304.

SEC. 4. Section 2307 of the Public Resources Code is amended to read:

2307. The failure or neglect of the locator or locators to comply with the requirements of Sections 2301, 2302, 2304, or 2306 of this code shall render the location null and void (and no portion of the area within the location shall be subject to relocation by the same locator or locators within the period of three years from the date of the void location).

SEC. 5. Section 2313 of the Public Resources Code is amended to read:

2313. (a) Within 90 days after the posting of his notice of location upon a lode mining claim, placer claim, tunnel right or location, or millsite claim or location, the locator shall record a true copy of the notice together with a statement of the markings of the boundaries as required in this chapter, and of the performance of the required discovery work, in the office of the county recorder of the county in which such claim is situated.

(b) If the locator has elected, in lieu of other discovery work, to drill a hole or holes as provided by subdivisions (b) and (c) of Section 2304 or by Section 2306, the statement of the performance of discovery work shall include his affidavit, or an affidavit by some person for him knowing the facts, setting forth the position and depth of the drill hole or holes, and, if done for more than one lode claim, the name and location of each contiguous claim for which this work was done.

SEC. 6. Section 2315.1 is added to the Public Resources Code, to read:

2315.1. (a) Notwithstanding the provisions of Section 2315, whenever a mine owner performs the labor and makes the improvements required by law upon any mining claim in or after the first full 12-month period for performance of annual assessment work under the laws of the United States following the 12-month period for performance of such work in which this section becomes effective, the person in whose behalf such labor was performed or improvements made, or someone in his behalf, shall, within 30 days after the time limited by law for performing such labor or making such improvements, make and have recorded by the county recorder in books kept for that purpose, in the county in which the mining claim is situated, an affidavit setting forth:

(1) The name of the claim.

(2) A reference by book and page to the public record of the notice of location of the claim and, if amended, of the last recorded amendment thereof.

(4) The name, current mailing address and current residence address of the person who makes the proof and of the owner of the claim, as known to the affiant.

(5) A statement that the claim is held and claimed by the owner, or the person making the proof if he is entitled to possession thereof, for the valuable mineral contained therein.

(6) The name and address of the person who performed or made the work and improvements described in the affidavit, as known to the affiant.

(7) A statement that all monuments required by law to have been erected upon the claim and all notices required by law to have been posted on the claim or copies thereof were

in place at a date within the assessment year for which the affidavit is made and a statement of the date.

(8) A statement that at such date each corner monument bore or contained marking sufficient to appropriately designate the corner of the mining claim to which it pertains and the name of the claim.

(b) The affidavit so recorded as required by subdivision (a) of this section, or a copy thereof duly certified by the county recorder, shall be prima facie evidence of the performance of the labor and the making of the improvements as stated in the affidavit.

(c) The neglect or failure of the owner of any mining claim, after the operative date of this section, to record or cause to be recorded within the time allowed by this section an affidavit containing the statements required by subdivision (a) of this section shall create a prima facie presumption of the act and intent of the owner to abandon such claim at the end of the assessment year within which the labor should have been performed or the improvements made under the laws of the United States, except that in the event the affidavit is executed and recorded by anyone other than an owner within the 30-day period, and the owner apprehends that there are deficiencies in the recorded affidavit, he may supplement and furnish the same by further affidavit to comply with the section and may record such supplemental affidavit within 30 days following the last day of the 30-day period after the time limited by law for performance of the work or making of improvements, and thereby obtain the prima facie evidence of performance of labor and making of improvements above provided, and avoid the prima facie presumption of abandonment.

SEC. 7. A notice of the requirements of Section 6 of this act shall be posted in the county recorder's office of each county, from the effective date of this act until such time as Section 6 becomes operative.

In any county operating under this section any limitations in any provisions of this chapter upon the amount of compen-

sation used for computing rates of contributions shall be disregarded.

Wherever in this chapter reference is made to survivorship benefits and rights under Section 31676.1, the same shall apply to this section.

SEC. 3. Section 31671.6 of the Government Code is amended to read:

31671.6. In any county subject to the provisions of Section 31676.1 or Section 31676.11 every officer holding an elective office shall be retired at the end of the first term to which he is elected which commences on a date following his 70th birthday.

SEC. 4. Section 31806 of the Government Code is amended to read:

31806. The provisions of this chapter requiring retirement at age 65 or 70, whichever applies, shall not be applicable to any person who is a member on the effective date of this article when the application of such provision would preclude the member from qualifying for federal benefits, but such member shall be retired forthwith, as provided in Section 31671 or Section 31671.01, upon qualifying for such federal benefits.

SEC. 5. Section 31808 of the Government Code is amended to read:

31808. In any county or district subject to the provisions of Section 31676.1 or 31676.11, the retirement allowance payable for retirement service rendered prior to the effective date of the resolution mentioned in Section 31800 shall be computed in accordance with the provisions of Section 31676.1 or 31676.11, whichever is applicable. (b) The fraction of one-sixtieth of any remaining portion of the member's final compensation set forth in the table appearing in Section 31676.1 or 31676.11, whichever is applicable, in the column applicable to his sex and age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service.

CHAPTER 1156

An act to add Section 55668.1 to the Water Code, relating to county waterworks districts.

[Approved by Governor August 14, 1967. Filed with Secretary of State August 14, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 55668.1 is added to the Water Code, to read:

55668.1. If the board determines that property (hereinafter called the "benefited property") within the district is receiving service from improvements which do not benefit the district as a whole and such benefited property is not obligated to pay for any portion of such improvements by means of a special rate or special tax but other property within the district is paying for such improvements by a special rate or tax, and if the board determines further that unless such benefited property is obligated to pay its pro rata share of the cost of improvements it will benefit unjustly and cast an inequitable burden on the property paying for such improvements, the board, after public hearing to determine the benefited property, by resolution adopted by $\frac{4}{5}$ vote of all of its members, may declare a special zone formed, describing the boundaries of the benefited property and the board thereupon shall be authorized to fix and collect a special rate or charge so that such benefited property shall pay its pro rata share of the capital cost of such improvements.

This section shall remain in effect until the 61st day after the final adjournment of the 1968 Regular Session of the Legislature, and shall have no force or effect after that date.

This section shall only apply to the Ventura County Waterworks District No. 6. It is hereby declared to be necessary to enact this special law with respect to such district because of special facts and circumstances existing therein:

Due to inadvertence, a portion of the district, although receiving the benefits of certain public improvements acquired by the district, is not included within the area of the district which is being assessed to pay the bond interest and principal of the bonds issued to finance acquisition of the public improvements. Under existing law no zone can be created unless a petition is presented by owners representing at least 25 percent of the total assessed valuation of the real property within such proposed zone. Property owners of the benefited land will not request that they be made part of the existing zone and be subject to assessments for their pro rata share of the improvement costs. Thus, this special law is necessary in order to require the owners of land, benefited by the improvements but excluded from the existing zone, to pay their pro rata share of the cost of such improvements.

CHAPTER 1157

CHAPTER 1160

An act to amend Section 11525.2 of the Business and Professions Code, relating to subdivisions.

[Approved by Governor August 14, 1967. Filed with Secretary of State August 14, 1967.]

11525.2. Whether by request of a county board of education or otherwise, a city or county may adopt an ordinance requiring any subdivider who within three years, or less, as prescribed by the ordinance, develops or completes the development of one or more subdivisions, comprised of a single parcel or contiguous parcels having more than 400 dwelling units within a single school district, which maintains an elementary school, to dedicate to the school district, within which such subdivisions are to be located, such land as the local governing body shall deem to be necessary for the purpose of constructing thereon schools necessary to assure the residents of the subdivision adequate elementary school service. Such ordinance shall not be applicable to a subdivider who has owned the land being subdivided for more than 10 years prior to the filing of the tentative maps in accordance with Article 4 (commencing with Section 11550) of this chapter. The requirement of dedication shall automatically terminate unless the school district offers to enter into a binding commitment with the subdivider to accept the dedication within 30 days after the requirement is imposed by the city or county. The required dedication may be made at any time prior to the construction of the 401st dwelling unit. The school district shall, in the event that it accepts the dedication, repay to the subdivider or his successors the original cost to the subdivider of the dedicated land, plus a sum equal to the total of the following amounts:

4. Proof of the acceptance of the dedication by the school district and the date of the acceptance. The certificate shall be recorded not more than 10 days after the date of acceptance of the dedication.

"Dwelling unit" as used in this section means a place of residence and may be located in either a single or multiple dwelling unit building.

If any subdivider is aggrieved by, or fails to agree to the reasonableness of any requirement imposed pursuant to this section, he may bring a special proceeding in the superior court pursuant to Section 11525.

1418. The court may, on application of the party entitled thereto, or an agent designated in writing by the owner, order all such exhibits, other than documentary exhibits, as may be released from the custody of the court without prejudice to the state, delivered to such party any time after the final determination of the action or proceeding; provided, however, where the action or proceeding has resulted in an order granting probation, such delivery may be made any time after the final determination of an appeal of such order, taken under the provisions of Section 1237, or after the time for such appeal has elapsed. In all cases in which the death penalty has been imposed no such order shall be made until the sentence of death has been carried out. If the party entitled to such exhibits is unknown, or fails to apply for the return of such exhibits, the procedure for their disposition shall be as follows:

After the expiration of one year from the time the conviction becomes final, or if the action or proceeding has not resulted in a conviction, at any time after the judgment has become final, the court in which the case was tried shall make an order specifying what exhibits may be released from the custody of the court without prejudice to the state. Upon receipt of such an order, the clerk of the court shall post a notice conspicuously in three public places in the county referring to the order, describing briefly the exhibits which the court has ordered disposed of and fixing the date and the place at which such exhibits will be offered for sale at public auction. The date fixed must be at least 20 days after the posting of the notice.

At any time prior to the time fixed for the auction, the owner or any person entitled to the possession of any of such exhibits may obtain from the court an order returning them to him.

Articles not returned to their owners or to persons entitled to their possession at or prior to the time set for the auction

shall be sold by the clerk to the highest bidder for cash; said articles shall be sold singly or in combinations. The money received from such sales shall be placed in the general fund of the county.

All exhibits offered for sale for which no bids have been received may be destroyed by the clerk or returned to the files.

Where the exhibit consists of money or currency and is unclaimed at the time of the auction, the clerk shall not offer it for sale but shall immediately upon the conclusion of the sale deposit it in the general fund of the county.

No exhibit shall be destroyed pursuant to the provisions of this section, until 60 days after notice of such proposed destruction has been served upon the party entitled to such exhibit by delivery of the notice to such party if his present residence is known, to his attorney of record if such party's present residence is not known, or to such party's last known address if his present residence is not known and he has no attorney of record. However, such notice is not necessary if the party entitled to such exhibit consents to its destruction.

SEC. 1.5. Section 1418 of the Penal Code is amended to read:

1418. The court may, on application of the party entitled thereto, or an agent designated in writing by the owner, order all such exhibits, other than documentary exhibits, as may be released from the custody of the court without prejudice to the state, delivered to such party at any time after the final determination of the action or proceeding; provided, however, where the action or proceeding has resulted in an order granting probation, such delivery may be made any time after the final determination of an appeal of such order, taken under the provisions of Section 1237, or after the time for such appeal has elapsed. In all cases in which the death penalty has been imposed no such order shall be made until the sentence of death has been carried out. If the party entitled to such exhibits is unknown, or fails to apply for the return of such exhibits, the procedure for their disposition shall be as follows:

After the expiration of one year from the time the conviction becomes final, or if the action or proceeding has not resulted in a conviction, at any time after the judgment has become final, the court in which the case was tried shall make an order specifying what exhibits may be released from the custody of the court without prejudice to the state. Upon receipt of such an order, the clerk of the court shall transfer the property to the county purchasing and stores agency or other proper county agency for sale to the public.

At any time prior to the time fixed for the transfer, the owner or any person entitled to the possession of any of such exhibits may obtain from the court an order returning them to him.

Articles not returned to their owners or to persons entitled to their possession at or prior to the time set for the transfer

shall be sold by the proper receiving agency for cash; said articles shall be sold singly or in combinations. The money received from such sales shall be placed in the general fund of the county.

Where the exhibit consists of money or currency and is unclaimed at the time of the transfer, the clerk shall not transfer it but shall immediately deposit it in the general fund of the county.

No exhibit shall be destroyed pursuant to the provisions of this section, until 60 days after notice of such proposed destruction has been served upon the party entitled to such exhibit by delivery of the notice to such party if his present residence is known, to his attorney of record if such party's present residence is not known, or to such party's last known address if his present residence is not known and he has no attorney of record. However, such notice is not necessary if the party entitled to such exhibit consents to its destruction.

SEC. 2. Section 1418.5 of the Penal Code is amended to read:

1418.5. The court may, on application of the party entitled thereto, or an agent designated in writing by the owner, order such documentary exhibits as may be released from the custody of the court without prejudice to the state delivered to such party any time after the final determination of the action or proceeding; provided, however, where the action or proceeding has resulted in an order granting probation, such delivery may be made any time after the final determination of an appeal of such order, taken under the provisions of Section 1237, or after the time for such appeal has elapsed.

If the party entitled to such documentary exhibits is unknown, or fails to apply for the return of said exhibits, the procedure for their disposition shall be as follows:

After the expiration of one year from the time the conviction becomes final, or if the action or proceeding has not resulted in a conviction, at any time after the judgment has become final, the court in which the case was tried shall make an order requiring such exhibits to be destroyed; provided, that no such order shall be made authorizing the destruction of any documentary exhibit if the destruction of such exhibits would prejudice the state.

In all cases in which the death penalty has been imposed no such order shall be made until the sentence of death has been carried out.

No exhibit shall be destroyed pursuant to the provisions of this section until 60 days after notice of such proposed destruction has been served upon the party entitled to such exhibit by delivery of the notice to such party if his present residence is known, to his attorney of record if such party's present residence is not known, or to such party's last known address if his present residence is not known and he has no attorney of record. However, such notice is not necessary if the party entitled to such exhibit consents to its destruction.

SEC. 3. Section 1.5 of this act shall become operative only if Assembly Bill No. 2053 is enacted by the Legislature at its 1967 Regular Session, and in such case at the same time Assembly Bill No. 2053 takes effect, at which time Section 1 of this act is repealed.

[Approved by Governor August 15, 1967. Filed with Secretary of State August 15, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 65402 of the Government Code is amended to read:

65402. (a) If a general plan or part thereof has been adopted, no real property shall be acquired by dedication or otherwise for street, square, park or other public purposes, and no real property shall be disposed of, no street shall be vacated or abandoned, and no public building or structure shall be constructed or authorized, if the adopted general plan or part thereof applies thereto, until the location, purpose and extent of such acquisition or disposition, such street vacation or abandonment, or such public building or structure have been submitted to and reported upon by the planning agency as to conformity with said adopted general plan or part thereof. The planning agency shall render its report as to conformity with said adopted general plan or part thereof within forty (40) days after the matter was submitted to it, or such longer period of time as may be designated by the legislative body. The provisions of this paragraph (a) shall not apply to acquisitions or abandonments for street widening or alignment

projects of a minor nature if the legislative body so provides by ordinance or resolution.

(b) A county shall not acquire real property for any of the purposes specified in paragraph (a), nor dispose of any real property, nor construct or authorize a public building or structure, in another county or within the corporate limits of a city, if such city or other county has adopted a general plan or part thereof and such general plan or part thereof is applicable thereto, and a city shall not acquire real property for any of the purposes specified in paragraph (a), nor dispose of any real property, nor construct or authorize a public building or structure, in another city or in unincorporated territory, if such other city or the county in which such unincorporated territory is situated has adopted a general plan or part thereof and such general plan or part thereof is applicable thereto, until the location, purpose and extent of such acquisition, disposition, or such public building or structure have been submitted to and reported upon by the planning agency having jurisdiction, as to conformity with said adopted general plan or part thereof. Failure of the planning agency to report within forty (40) days after the matter has been submitted to it shall be conclusively deemed a finding that the proposed acquisition, disposition, or public building or structure is in conformity with said adopted general plan or part thereof. The provisions of this paragraph (b) shall not apply to acquisition or abandonment for street widening or alignment projects of a minor nature if the legislative body having the real property within its boundaries so provides by ordinance or resolution.

(c) A local agency shall not acquire real property for any of the purposes specified in paragraph (a) nor dispose of any real property, nor construct or authorize a public building or structure, in any county or city, if such county or city has adopted a general plan or part thereof and such general plan or part thereof is applicable thereto, until the location, purpose and extent of such acquisition, disposition, or such public building or structure have been submitted to and reported upon by the planning agency having jurisdiction, as to conformity with said adopted general plan or part thereof. Failure of the planning agency to report within forty (40) days after the matter has been submitted to it shall be conclusively deemed a finding that the proposed acquisition, disposition, or public building or structure is in conformity with said adopted general plan or part thereof. If the planning agency disapproves the location, purpose or extent of such acquisition, disposition, or the public building or structure, the disapproval may be overruled by the local agency.

Local agency as used in this paragraph (c) means an agency of the state for the local performance of governmental or proprietary functions within limited boundaries. Local agency does not include the state, or county, or a city.

CHAPTER 1168

An act to amend Sections 1110, 1209 and 1211 of the Harbors and Navigation Code, relating to pilotage fees and rates.

[Approved by Governor August 15, 1967. Filed with Secretary of State August 15, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 1110 of the Harbors and Navigation Code is amended to read:

1110. All vessels, their tackle, apparel, and furniture, and their master and owners and agents are jointly and severally liable for pilotage fees, which may be recovered in any court of competent jurisdiction.

SEC. 2. Section 1209 of the Harbors and Navigation Code is amended to read:

1209. On or before August 1st of each even-numbered year, and pursuant to any petition of any party directly affected by pilotage rates established under this chapter, the committee shall call public hearings to be held within 30 days of the date of call for the purpose of obtaining information and data relating to pilotage rates. At the conclusion of such hearing or hearings, the committee shall review and evaluate all evidence obtained and, prior to November 1st following such hearing or hearings, shall submit to the Secretary of the Senate and the Chief Clerk of the Assembly a copy of its findings and recommendations for final determination, supported by a transcript of the proceedings of the committee concerning the adoption of pilotage rates.

SEC. 3. Section 1211 of the Harbors and Navigation Code is amended to read:

1211. In preparing its recommendations to the Legislature with relationship to pilotage rates, the committee may require an independent audit or audits by a public accountant selected by the committee, such audit or audits to cover bar pilotage operations for such years as may be determined by the committee, and the committee shall further give consideration to other relevant factors, including, but not limited to, the following:

(1) The costs to the pilots, individually or jointly, of providing pilot service as required.

(2) A net return to the pilot sufficient to attract and hold persons capable of performing this service with safety to the public and protection to the property of persons using the service; and the relationship of that income to any changes in cost of living indices.

(3) Pilotage rates charged for comparable services rendered in other ports and harbors in the United States.

(4) Additional factors affecting income to pilots such as the volume of shipping traffic using pilotage, change in the size or structure of vessels affecting pilotage rates, numbers of pilots available to perform services, income paid for comparable services, and other factors of related nature.

CHAPTER 1169

An act to amend Section 1170 of the Harbors and Navigation Code, relating to bar pilotage rates.

[Approved by Governor August 15, 1967. Filed with Secretary of State August 15, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 1170 of the Harbors and Navigation Code is amended to read:

1170. Every vessel spoken inward or outward bound, shall pay the following rate of bar pilotage through the Golden Gate and into or out of the Bays of San Francisco, San Pablo and Suisun:

Seven dollars and fifty cents ($7.50) per draft foot of the vessel's deepest draft and fractions of a foot pro rata. The vessel's deepest draft shall be the maximum draft attained, on a stillwater basis, at any part of the vessel during the course of such transit inward or outward

SEC. 2. The Legislature in adopting this act at the 1967 session does so in concurrence with the recommendation of the Pilotage Rate Committee for San Francisco, San Pablo, and Suisun Bays constituted by Article 3 (commencing with Section 1200) of Chapter 2 of Division 5 of the Harbors and Navigation Code. The findings and recommendations of that committee were filed with the Legislature at the 1967 session and proposed the increase provided in the amendment of Section 1170 with the further provision that the Pilotage Rate Committee:

> " . . . recommends that the Legislature either provide in the statute or express its legislative intent that not less than seventy-five cents (75¢) per draft foot shall be set aside for the continuation of an actuarially sound pension plan for the San Francisco Bar Pilots."

The references are made to funds maintained by the San Francisco Bar Pilots, which is an affiliation of the bar pilots

appointed and licensed by the State Board of Pilot Commissioners for the Bays of San Francisco, San Pablo and Suisun.

It is the intent of the Legislature in approving the recommendation of the Pilotage Rate Committee that that committee in pursuance of its continuing function should ascertain whether the recommendation for allocation to the funds specified above has been made in compliance with this recommendation and that report should be made thereon by the Pilotage Rate Committee as a part of the report to the Legislature required under the provisions of Article 3 (commencing with Section 1200) of Chapter 2 of Division 5 of the Harbors and Navigation Code.

[Approved by Governor August 15, 1967. Filed with Secretary of State August 15, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 9006 of the Welfare and Institutions Code is amended to read:

9006. Each community mental health service shall have an advisory board of seven members appointed by the governing body. Three members of the advisory board shall be physicians engaged in private practice of medicine, and one-third of the physician members, when available, shall be specialists in psychiatry. One member shall be the chairman of the local governing body, one member shall be a superior court judge or an attorney selected by the superior court judges of the county, and two members shall be persons representative of the public interest in mental health and mental retardation services. The term of each member of the board shall be for three years; provided, however, that of the members first appointed, approximately one-third shall be appointed for one year, one-third for a term of two years, and one-third for a term of three years.

The chairman of a governing body may designate a member of that body to serve in his stead as a member of the advisory board.

CHAPTER 1173

An act to add Section 1608.5 to the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

agent making the application requests such waiver in his application. The board (whether meeting as a board of equalization or as a board of supervisors) shall promptly act upon such request for waiver and shall give the applicant written notice of its decision thereon within 10 days after the filing of the application and request for waiver. If the board waives the examination of the person or agent making the application, it shall give such person or agent written notice of its decision on the merits of the application promptly after making such decision.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many county boards of supervisors will receive in 1967, numerous applications for reductions of property tax assessments raising the same issues as were considered and decided by such boards in connection with prior applications by the same applicant. Unless this act takes effect immediately such boards will be required by law to hold lengthy and repetitive hearings on such applications which will disrupt and impede said boards in carrying out their necessary and essential governmental functions. Therefore, it is necessary that this act go into immediate effect.

Whenever real property which is devoted to or held for some other public or quasi-public use is required by the district for any purpose authorized by this act, the district may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property so required by the district.

Nothing in this act contained shall be construed as in any way affecting the plenary power of any existing city and county or municipal utility district or other district or public agency to provide for a water supply for such city and county or municipal utility district, or as affecting the absolute control of any properties of such city and county or municipal utility district necessary for such water supply and nothing herein contained shall be construed as vesting any power of control over such properties in such Santa Barbara County Flood Control and Water Conservation District or in any officer thereof, or in any person referred to in this act.

12.1 Whenever a part only of a parcel is required by the district for any purpose authorized by this act, and the taking thereof, and the construction of the proposed public improve-

ment thereon, will interfere with reasonable access to the remainder, or will otherwise cause substantial damage to the remainder, the district may condemn, purchase, or otherwise acquire the whole parcel of land and may sell the remainder or exchange the same for other property required for district purposes. Or, in lieu of such acquisition of the remainder, the district may condemn, purchase, or otherwise acquire an easement for ingress to and egress from the remainder for use by the public, including the owner of the land.

The district in exercising such power shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal or relocation of any structure, railways, mains, pipes, conduits, wires, cable, poles, of any public utility which is required to be moved to a new location, and provided further that notwithstanding any other provision of this act or any other law, no property shall be taken unless it is taken upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use than that to which it has already been appropriated.

Whenever real property which is devoted to or held for some other public or quasi-public use is required by the agency for any purpose authorized by this act, the agency may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property so required by the agency.

The power of eminent domain vested in the agency shall include the power to condemn in the name of the agency either the fee simple or any lesser estate or interest in any property which the board of directors by resolution shall determine is

necessary for carrying out the purposes of the agency. Such resolution, adopted by a two-thirds vote of all its members, shall be conclusive evidence of all of the following:

(a) The public necessity for the proposed public improvement.

(b) The property or property interest being acquired is necessary for the proposed public use.

(c) Such proposed public improvement is planned or located in the manner which will be compatible with the greatest public good and the least private injury.

Whenever a part only of a parcel is required by the agency for any purpose authorized by this act, and the taking thereof, and the construction of the proposed public improvement thereon, will interfere with reasonable access to the remainder, or will otherwise cause substantial damage to the remainder, the agency may condemn, purchase, or otherwise acquire the whole parcel of land and may sell the remainder or exchange the same for other property required for agency purposes. Or, in lieu of such acquisition of the remainder, the agency may condemn, purchase, or otherwise acquire an easement for ingress to and egress from the remainder for use by the public, including the owner of the land.

CHAPTER 1191

An act to amend Section 834 of the Corporations Code, relating to security in derivative actions.

[Approved by Governor August 15, 1967. Filed with Secretary of State August 15, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 834 of the Corporations Code is amended to read:

834. (a) No action may be instituted or maintained in right of any unincorporated association or of any domestic or foreign corporation by a member of such association or by the holder or holders of shares, or of voting trust certificates representing shares, of such corporation unless both of the following conditions exist:

(1) The plaintiff alleges in the complaint that he was a member, registered shareholder or the holder of voting trust certificates at the time of the transaction or any part thereof of which he complains or that his membership, shares or voting trust certificates thereafter devolved upon him by operation of law from a holder who was a holder at the time of the transaction or any part thereof complained of.

(2) The plaintiff alleges in the complaint with particularity his efforts to secure from the board of directors such action as

he desires and alleges further that he has either informed the corporation or such board of directors in writing of the ultimate facts of each cause of action against each defendant director or delivered to the corporation or such board of directors a true copy of the complaint which he proposes to file, and the reasons for his failure to obtain such action or the reasons for not making such effort.

(b) In any such action, at any time within 30 days after service of summons upon the corporation or any defendant who is an officer or director of the corporation, or held such office at the time of the acts complained of, the corporation or such defendant may move the court for an order, upon notice and hearing, requiring the plaintiff to furnish security as hereinafter provided. Such motion shall be based upon one or more of the following grounds:

(1) That there is no reasonable possibility that the prosecution of the cause of action alleged in the complaint against the moving party will benefit the corporation or its security holders;

(2) That the moving party, if other than the corporation, did not participate in the transaction complained of in any capacity.

The court on application of the corporation or any defendant may, for good cause shown, extend such 30-day period for an additional period or periods not exceeding 60 days.

At the hearing upon such motion, the court shall consider such evidence, written or oral, by witnesses or affidavit, as may be material: (a) to the ground or grounds upon which the motion is based, or (b) to a determination of the probable reasonable expenses, including attorney's fees, of the corporation and the moving party which will be incurred in the defense of the action. If the court determines, after hearing the evidence adduced by the parties at the hearing, that the moving party has established a probability in support of any of the grounds upon which the motion is based, the court shall fix the nature and amount of security, not to exceed twenty-five thousand dollars ($25,000), to be furnished by the plaintiff for reasonable expenses, including attorney's fees, which may be incurred by the moving party and the corporation in connection with such action, including expenses for which said corporation may become liable pursuant to Section 830. A determination by the court that security either shall or shall not be furnished or shall be furnished as to one or more defendants and not as to others, shall not be deemed a determination of any one or more issues in the action or of the merits thereof. The corporation and the moving party shall have recourse to such security in such amount as the court shall determine upon the termination of such action. The amount of such security may thereafter from time to time be increased or decreased in the discretion of the court upon showing that the security provided has or may become inadequate or is excessive, but such order shall not increase the total amount of such security

beyond twenty-five thousand dollars ($25,000). 3100. It is the intent and purpose of the Legislature that the procedures prescribed by the provisions of this chapter

and Chapter 9 (commencing with Section 3001) of this division be utilized primarily for the formation of unified school districts maintaining grades kindergarten or 1 through 12, and that this form of organization be ultimately adopted throughout the state. It is the further intent of the Legislature that in exercising the authority to approve master plans and plans and recommendations developed at the local level, the State Board of Education consider the boundaries of existing high school districts as the minimum geographical base for the organization of individual unified school districts, to be deviated from only in exceptional situations. The State Board of Education may approve proposals for the formation of districts based upon the division of the territory of existing high school districts, provided that the board has determined, with respect to the proposal and the resulting new districts that all of the following conditions are met:

(a) That the new districts will be adequate in terms of number of pupils enrolled, having a projected average daily attendance of at least 10,000 by the beginning of the seventh fiscal year following the date that any such new district became effect for all purposes.

(b) That the new districts will be adequate in terms of financial ability. For purposes of determining financial ability, the board shall consider assessed valuations per pupil. In addition, solely for purposes of evaluating proposals pursuant to this section with reference to adequacy of districts in terms of financial ability, the board may, in conjunction with assessed valuations per pupil, give such consideration as it deems appropriate to federal funds received by a school district under the act of Congress entitled "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress) or under any similar act of Congress. The board shall not approve of the formation of districts by division of the territory of existing high school districts, where the adequacy of the proposed new districts in financial ability, as determined pursuant to this subdivision, varies by more than 10 percent between the proposed districts.

(c) That the new districts are each organized on the basis of a substantial community identity.

(d) That the proposal will result in an equitable division of property and facilities of the original district.

(e) That the proposal and the formation of the new districts will not promote racial or ethnic discrimination or segregation. The State Board of Education may secure the advice and assistance of any other public agencies concerned with intergroup relationships for purposes of making determinations under this subdivision.

The board may require that proposals combine the area of existing high school districts, with respect to any proposed new or reorganized districts which would not meet the require-

ments prescribed by Section 17672 or come within the exceptions prescribed by Section 17673.

SEC. 1.1. Section 3100.6 is added to the Education Code, to read:

3100.6. On or before June 4, 1968, an election shall be held within any school district territory which has not been included within a unified school district and within which no such election was held after July 1, 1964, on the question of the approval of a master plan developed under Chapter 9 of this division or plans and recommendations developed under this chapter, which will effect the reorganization of the territory involved to comply with standards prescribed. A like election shall be held on the date of each succeeding presidential primary election. Like elections may be held in such territory at any time in odd-numbered years, and on the date of each gubernatorial primary election Such like elections shall be called upon order of the county committee on school district organization, upon order resulting from the action of the governing boards of a majority of the school districts in the territory proposed to be reorganized, or by order resulting from the action of the governing boards of school districts which have enrolled in the schools under their collective jurisdictions a majority of the pupils in grades kindergarten through 12, inclusive, enrolled in all of the schools within the territory.

The county committee on school district organization shall, for purposes of any such election, develop any necessary master plan or plans and recommendations. In the event the county committee fails to do so, the election shall be based upon the master plan or plans and recommendations for the territory most recently approved by the State Board of Education.

A unified school district formed by operation of Section 1976 shall not be deemed to be unified for purposes of exemption from the requirements prescribed by the preceding provisions of this section, unless district conforms to the requirements prescribed by Section 17672 or Section 17673.

It is the intent and purpose of the Legislature that eligibility for the increase in foundation program provided for pursuant to Section 17676 of this code for any school district shall be determined, for the fiscal year in which this act becomes effective, and fiscal years thereafter, on the basis of whether elections have been held within the time limits specified by this section.

On and after the effective date of this section, as enacted at the 1967 Regular Session of the Legislature, this section shall supersede the provisions of Section 3100 5 and all other provisions of Chapter 143 of the Statutes of 1967.

SEC. 1.3. Section 3255 of the Education Code is amended to read:

3255. In any proposal for reorganization of school districts recommended by a county committee, the committee may in-

clude a provision for the authorization of a maximum tax rate for the proposed new district, and such provision shall be considered an inherent part of the proposal, and shall not be construed as a separate proposition. If the reorganization is approved by the registered voters of the area, such tax rate shall be the maximum tax rate for the type of new district formed in lieu of any rate specified in Section 20751 until changed by the registered voters of the district in the manner prescribed in Section 20803. Such tax rate established by the county committee shall not be less than the tax rates for the new district provided in Section 20751 nor more than the rate which would produce revenue for the proposed new district equal to: (1) the sum of the revenue of each of the districts proposed to be wholly or partially included therein had the maximum allowable tax rate been in effect in each such district during the school year immediately preceding the date upon which the reorganization would be effective for all purposes; and (2) revenues equal to the amount by which the state equalization aid allowances, if any, computed for the proposed district for the fiscal year are less than the sum of the state equalization aid allowances, if any, made to the component districts during the fiscal year immediately preceding the date on which the reorganization would be effective for all purposes. Any tax rate approved pursuant to this section may be decreased by the governing board of the district to not less than the tax rate specified in Section 20751.

SEC. 1.5. Section 3296.5 is added to the Education Code, to read:

3296.5. The State Department of Education shall prepare, and submit to the county superintendent who shall distribute to each registered voter, a statement of official information and statistics relating to the proposed new unified area which shall include but is not limited to information and statistics projecting for the new unified area the assessed valuation, the tax rate, the rate of growth, the expected enrollment and the support from the state which can be expected if such area maintains an adequate school program.

The amount of the tuition charge shall be computed as follows:

(a) By multiplying each one hundred dollars ($100) of the assessed valuation of the elementary school district for the

current fiscal year, by a computational tax rate. The computational tax rate shall be one dollar and fifty cents ($1.50), increased, where necessary, by an amount equal to fifty percent (50%) of miscellaneous funds (as defined by Section 17606), and the percentage of federal funds (as defined by Section 17605) utilized for the fiscal year for purposes of Section 17603.5, by one one-hundredth of the assessed valuation of the district. For purposes of such computations, the assessed valuation of the district shall be modified as required by Section 17262.

(b) By multiplying the product derived under subdivision (a) by the ratio which the average daily attendance of pupils of the elementary school district attending grades 7 and 8 of the junior high school during the current fiscal year, bears to the total average daily attendance of the elementary school district, including such pupils in grades 7 and 8, during the current fiscal year.

On or before January 1st of each fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of fifty percent (50%) of the estimated tuition charge due to the high school district for the attendance of pupils at the junior high school during the current fiscal year. The amount of the warrant shall be credited to the general fund of the high school district.

On or before July 15th following the close of the fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of the difference between the final tuition as computed by this section and the first installment paid to the high school district. For any special day class for educationally handicapped minors or physically handicapped minors in which are enrolled fewer than one-half of the number of pupils prescribed by the State Board of Education as the appropriate class size for the particular category of minors involved, there shall be allowed to the district, in lieu of the allowance specified in subdivision (1), an amount of one thousand one hundred forty dollars ($1,140) per pupil in average daily attendance in each such class for educationally handicapped minors in the current fiscal year, and one thousand eighteen dollars ($1,018) per pupil in average daily attendance in each such class for physically handicapped minors in the current fiscal year.

For any special day class for mentally retarded minors (as defined by Section 6902) or mentally retarded minors (as defined by Section 6903) in which are enrolled fewer than one-half of the number of pupils prescribed by the State Board of Education as the appropriate class size for the particular category of minors involved, there shall be allowed to the district, in lieu of the allowance specified in subdivision (1), an amount of four hundred thirty-five dollars ($435) per pupil in average daily attendance in each such class for mentally retarded minors (as defined by Section 6902) in the current fiscal year, and seven hundred ninety-five dollars ($795) per pupil in average daily attendance in each such class for mentally retarded minors (as defined by Section 6903) in the current fiscal year.

(3) In addition to the allowances provided under subdivisions (1) and (2), the following amounts per pupil in average daily attendance in the current fiscal year shall be allowed to each school district and county superintendent of schools:

(a) For instruction of educationally handicapped minors in learning disability groups, one thousand eight hundred eighty dollars ($1,880).

(b) For instruction of educationally handicapped minors in homes or in hospitals, one thousand five hundred ninety dollars ($1,590).

(c) For instruction of physically handicapped minors in remedial physical education, seven hundred seventy-five dollars ($775).

(d) For remedial instruction of physically handicapped minors in other than physical education, two thousand dollars ($2,000).

(e) For instruction of blind pupils when a reader has actually been provided to assist the pupil with his studies, or when braille books are purchased, ink print materials are transcribed into braille, or sound recordings and other special supplies and equipment are purchased for blind pupils, nine hundred ten dollars ($910).

(f) For other individual instruction of physically handicapped minors, one thousand three hundred dollars ($1,300).

(4) The allowances provided under subdivisions (1), (2), and (3), may be increased proportionately on account of special day classes convened, or other instruction provided a pupil, for days in a school year which are in excess of the number of days in the school year on which the regular day schools of a district are convened.

(b) The Superintendent of Public Instruction shall compute for each applicant school district and county superintendent of schools in providing in such year a program of specialized consultation to teachers, counselors and supervisors for educationally handicapped minors who come within the provisions of subdivision (c) of Section 6751, an amount equal to the product of the average daily attendance of pupils enrolled in such programs in subdivision (a) of this section and ten dollars ($10).

18103. The provisions of this article shall supersede any other provisions of this code in conflict therewith. Allowances under this article shall be provided pursuant to regulations of the State Board of Education and standards and requirements established by the State Board of Education.

SEC. 23. Section 20751.1 is added to the Education Code, to read:

20751.1. On and after July 1, 1971, the maximum tax rates prescribed by Section 20751 and any other applicable provisions of this code shall have no force or effect and shall be inoperative with respect to any school district. It is the intent and purpose of the Legislature that school district governing boards have prime and direct responsibility for the development of budget and expenditure programs, together with full authority to fix tax rates which they deem necessary to support the educational programs of the district.

SEC. 24. Section 7771.1 of the Education Code is amended to read:

7771.1. During the 1966–67 school year, and thereafter, if a school district is unable to participate fully in the reading program established under this chapter on a school or district basis because of its inability to employ enough specialist teachers to fully meet the basic quota of certificated employees to be appointed specialist teachers as provided in Sections 7790 and 7791, the governing board of the district may request approval of the State Superintendent of Public Instruction for participation in the program on a reduced basis. Such approval may be granted by the State Superintendent of Public Instruction if he determines that:

(a) In districts having more than one school, all reasonable efforts are made to concentrate available teachers in the school or schools of the district where the need for the program is the greatest so that such schools may benefit from full participation in the program so far as possible.

(b) For the 1966–67 school year, the applicant district or school employs at least 30 percent of the basic quota of certifi-

cated employees to be appointed specialist teachers as computed under the provisions of Sections 7790 and 7791.

(c) For the 1967–68 school year, and thereafter, the applicant district or school employs at least 30 percent of the basic quota of certificated employees to be appointed specialist teachers as computed under the provisions of Section 7790 and 7791.

SEC. 25. Section 7790 of the Education Code is amended to read:

7790. Beginning with the fiscal year 1967–68, each school district which is eligible for state equalization aid, and which maintains grades 1, 2, and 3 at the elementary level shall compute a basic quota of certificated employees to be appointed specialist teachers, of one such employee for each 125 units of average daily attendance in grades 1, 2, and 3 and any additional fraction thereof; provided that:

(a) With respect to districts maintaining more than one school, each of which has an average daily attendance in grades 1, 2, and 3 of less than 50, the quota shall be one such employee for each 100 units of the average daily attendance in grades 1, 2, and 3 in those schools.

(b) With respect to all school districts in a county with an average daily attendance in grades 1, 2, and 3 of less than 50, the quota shall be one specialist teacher for each 100 units of average daily attendance in grades 1, 2, and 3 in those districts.

SEC. 26. Section 7807.1 is added to the Education Code, to read:

7807.1. During the 1967–68 school year, and thereafter, if the Superintendent of Public Instruction determines that the state appropriation for allowances pursuant to this article is insufficient to finance the total number of school district applications for specialist reading teachers according to the basic quota of Section 7790, he shall reduce the basic quota of specialist reading teachers for school districts to enable maximum school district participation in the program. In implementing this section the Superintendent of Public Instruction shall attempt to insure that the quotas of districts already participating in the program are not reduced below the level of the preceding fiscal year. In no case shall the reduced quota of specialized reading teachers for a school district be reduced below 30 percent of the district's basic quota.

SEC. 27. Section 7808 of the Education Code is amended to read:

7808. The Superintendent of Public Instruction shall allow to each district eligible to receive an allowance under this article an amount equal to the total of salaries to be paid specialist teachers employed by the district computed according to Section 7808.1 and the amounts computed as salary allotments for professional school librarians.

SEC. 28. Section 7808.1 is added to the Education Code, to read:

7808.1. The allowance for salaries of specialist reading teachers to each district shall be computed by multiplying the number of specialist reading teachers employed by such district by an amount equivalent to the statewide average salary, as determined by the Superintendent of Public Instruction, paid elementary teachers during the preceding fiscal year plus a sum of two hundred fifty dollars ($250) per teacher. The salary allowance so computed shall not be more than the actual salary paid by the district for the services of the specialist reading teacher.

SEC. 29. Section 7825 of the Education Code is amended to read:

7825. A salary allotment for a professional school librarian shall be computed by the Superintendent of Public Instruction whenever he determines with respect to any district that:

1. The district has employed one-third of its basic quota of specialist reading teachers, and

2. A librarian holding a credential authorizing service as a librarian pursuant to Sections 13289 and 13290 is employed full time in a school or schools in which one or more specialist reading teachers are employed.

The salary allotment for the professional school librarian shall be five hundred dollars ($500) multiplied by the number of specialist teachers in reading employed full time in the school. The maximum allotment so authorized for a school district shall not exceed the total cost of salaries of librarians who come within the provisions of this section.

SEC. 30. Chapter 2.6 (commencing with Section 7828) is added to Division 7 of the Education Code, to read:

CHAPTER 2.6. MATHEMATICS IMPROVEMENT PROGRAMS

Article 1. General Provisions

7828. It is the intent of the Legislature that the provisions of this chapter shall be administered to provide funds and services first to those school districts, and to particular schools within school districts, for which the most comprehensive plans have been developed to evaluate the effectiveness of the programs authorized by this chapter, and secondly to those school districts in which the need for mathematics instruction is greatest and the financial ability of the districts to provide it is least.

7828.1. The programs provided for by this chapter shall be afforded for pupils in grades 2 and 3, and 5 and 6, at the elementary level, and in grades 8 to 12, inclusive, at the secondary level. The programs shall be administered under the direction of the Superintendent of Public Instruction and pursuant to rules and regulations of the State Board of Education which may be adopted to implement the provisions of this chapter. The rules and regulations of the State Board of Edu-

cation shall prescribe minimum standards and criteria for all programs, and shall provide for the submission of periodic reports by all school districts participating in programs.

The programs authorized by this chapter may be consolidated or conducted in conjunction with other mathematics programs being conducted in the public schools, if the Superintendent of Public Instruction determines that evaluation of the programs authorized by this chapter is not rendered impracticable.

7828.2. In addition to any tests otherwise required to be administered to pupils by this chapter, the State Board of Education shall select achievement tests to be administered to pupils who are participating in programs authorized by this chapter. The selection of such tests shall be with the advice of the Statewide Mathematics Advisory Committee, and shall be designed to measure the degree to which mathematics programs in the public schools are meeting the objectives of the revised outline of mathematics curriculum developed by the Statewide Mathematics Advisory Committee.

7828.3. The State Board of Education, on the advice of the Statewide Mathematics Advisory Committee, shall develop an achievement test in mathematics for grades 3, 6, and 8. The test shall measure the degree to which mathematics programs in the public schools meet the objectives of the revised outline of the mathematics curriculum developed by the Statewide Mathematics Advisory Committee.

7828.4. The State Board of Education shall, on or before the 30th legislative day of the 1968, 1969, 1970, and 1971 Regular Sessions of the Legislature, report to the Legislature concerning the progress and the extent of the participation in the programs established pursuant to this chapter in school districts in the state. Such reports shall provide an evaluation of the effectiveness of the programs, as ascertained to the respective dates of the reports.

Article 2 Experimental Programs

7828.11. The experimental programs prescribed by this article shall, when established, be conducted as pilot programs during the fiscal years 1968–1969, 1969–1970, and 1970–1971, except the accelerated instructional program in mathematics, which shall extend for five consecutive years, through 1972–1973.

7828.12. The governing board of a school district maintaining elementary schools may establish a specialized teacher program in mathematics. The program shall be established for grades 2 and 5 during the fiscal year 1968–1969, and may be expanded in the fiscal years 1969–1970 and 1970–1971 to include, also, grades 3 and 6. To the maximum extent practicable, the programs established in grades 3 and 6 shall include pupils who participated in programs established in grades 2 and 5.

7828.13. The specialized teacher program in mathematics shall entail the designation of specialized mathematics teachers to provide instruction in mathematics. The teachers designated for such purposes shall be teachers with special interest in the teaching of mathematics, without regard to training for, or experience in, teaching mathematics. The teachers shall provide instruction in each schoolday in mathematics in the classes to which they are regularly assigned to teach, or in one or more other classes by exchange of teaching assignments with other teachers.

7828.14. At least one-half of the persons designated specialized mathematics teachers within a school district shall, during the summer months preceding each academic year in which they are to perform duties as such, participate in and complete an in-service training program.

7828.15. The State Board of Education shall select particular school districts which are to establish specialized teacher programs in mathematics. The selections shall be made on the basis of applications submitted by the governing boards of school districts, and the recommendations of the Superintendent of Public Instruction and the Statewide Mathematics Advisory Committee. The board shall prescribe the standards by which specialized teachers in mathematics shall be designated, and provide for the state-level approval of all such designations.

7828.16. The State Board of Education shall establish regional in-service training programs for specialized teachers in mathematics, to be conducted in each of the fiscal years 1968–1969, 1969–1970, and 1970–1971. The programs shall be conducted in the summer months in each of the fiscal years at centralized locations in the state. Instruction and training shall be provided by experts in mathematics from public and private institutions of higher education and from other fields of endeavor, as determined by the board.

The governing board of each school district which has applied to establish a specialized teacher program in mathematics may nominate to the State Board of Education teachers employed by the district for participation in regional in-service training programs.

The location of centers where the in-service training is to be provided, and the form and content of the instruction and training afforded, shall be determined by the State Board of Education upon recommendation of the Superintendent of Public Instruction and the Statewide Mathematics Advisory Committee.

7828.17. The State Board of Education shall direct the testing of pupils for purposes of evaluating the effectiveness of the specialized teacher programs in mathematics in the several school districts in which the same are established, and shall designate and provide the tests to be administered to pupils.

7828.18. The governing board of a school district maintaining elementary schools may establish a mathematics specialist program. The program shall be established for grades 2 and 5 in the fiscal year 1968–1969, and may be expanded in the fiscal year 1969–1970 to include, also, grades 3 and 6. To the maximum extent practicable, the programs established in grades 3 and 6 shall include pupils who participated in programs established for grades 2 and 5.

7828.19. The mathematics specialist program shall entail the designation of mathematics specialists to provide instruction in mathematics. The specialists designated for such purposes shall have an educational background of at least a collegiate minor in mathematics or the equivalent thereof. For purposes of the designation of mathematics specialists teachers and their performance of duties under this article, any requirements prescribed or pursuant to law in terms of educational qualifications or background which would limit or bar the designation or the performance of the services shall be deemed inapplicable.

7828.20. The mathematics specialist shall supplement the work of regular classroom teachers, and shall teach concepts underlying mathematical techniques, with the pupils' regular classroom teachers continuing to provide instruction in arithmetic and remaining responsible for the pupils' acquisition of mathematical skills. No less than 15 regular class hours per week shall be devoted by each mathematics specialist to the instruction of pupils, and not to exceed five regular class hours per week shall be devoted by each such specialist to in-service training of regular teachers. Mathematics specialists shall be required, at least once each school week, to meet for group discussion and evaluation of the mathematics specialist programs.

7828.21. Each individual class in the grades participating in the mathematics specialist program shall, in each school week, receive instruction from a mathematics specialist teacher for no less than four class hours.

7828.22. The State Board of Education shall select school districts which apply to establish mathematics specialist programs. The selections shall be made on the basis of applications submitted by the governing board of the school district, and the recommendations of the Superintendent of Public Instruction and the Statewide Mathematics Advisory Committee. The State Board of Education shall prescribe the standards by which mathematics specialists shall be designated, and shall approve all such designations.

7828.24. The governing board of a school district maintaining high schools may establish an accelerated instructional program in mathematics. The program shall extend for five consecutive fiscal years commencing with the fiscal year 1968–1969. The instruction involved shall be provided for pupils in grades 8 through 12, inclusive, with demonstrated aptitude and talent for mathematics. The program shall consist of all areas of mathematics including the basic principles and operations

of calculus. Each program within a district shall be established and maintained with the active participation, cooperation, and counsel of a public or private university or college. Evaluation of the program's effectiveness shall be by joint action of the district and the college or university.

7828.25. The State Board of Education shall select particular school districts to participate in accelerated instructional programs in mathematics. Such selection shall be made on the basis of applications submitted by the districts. An application shall include a plan showing in detail the elements and objectives of the program, the procedures and means to be used by the district in identifying pupils with aptitude and talent for mathematics, and the procedures and means to be used to evaluate the program's effectiveness, and shall outline the form and extent of the present and proposed participation in the program by a college and university.

7828.26. For purposes of providing instruction in an accelerated instructional program in mathematics, the governing board of each school district shall, to the extent practicable, employ teachers specially qualified as teachers in mathematics, particularly during the final two years of the five-year program. All teachers employed for purposes of the program shall have an educational background including at least a higher education major in mathematics, or its equivalent, and shall meet other standards and requirements which may be established by the State Board of Education.

7828.27. The State Board of Education shall direct the testing of pupils for purposes of evaluating accelerated instructional programs in mathematics in the several school districts in which they are established. The Statewide Mathematics Advisory Committee and the Statewide Advisory Committee on Advanced Placement shall assist the State Board of Education in the selection of appropriate tests.

Article 3. Financing of Programs

7828.41. The tests selected by the State Board of Education for purposes of the specialized teacher program in mathematics shall be provided and distributed by the Superintendent of Public Instruction free of charge, as needed, to school districts participating in the program.

7828.42. Beginning with the 1968–1969 fiscal year and each fiscal year thereafter, a school district which maintains elementary grades and participates in the mathematics specialist program may apply for an allowance for the employment of mathematics specialist teachers. Application shall be made in accordance with rules and regulations adopted by the Superintendent of Public Instruction on forms that he shall furnish. No allowance for a mathematics specialist program shall be made to a school district unless the Superintendent of Public Instruction approves the district application and certifies that

standards, requirements and criteria of the State Board of Education are met by the district.

7828.43. Allowances for the mathematics specialist program shall be made by the Superintendent of Public Instruction from funds appropriated therefor by the Legislature. The allowances shall be made as early as practicable in the fiscal year.

7828.44. Allowances for the mathematics specialist program shall be made by the Superintendent of Public Instruction in accordance with a system of priorities that he shall by rule and regulation adopt, designed to carry out the intent and purpose of the Legislature stated in Section 7828. As a basis for such system of priorities, the Superintendent of Public Instruction, upon receipt of all applications for a fiscal year, shall determine and use the relative financial ability of each applicant district as measured by the assessed valuation per unit of average daily attendance in the district. The Superintendent of Public Instruction may use additional factors as a basis for a system of priorities as long as such factors are not in conflict with the intent and purpose of the Legislature.

The Superintendent of Public Instruction shall make no allowances in any year in excess of the amount appropriated by the Legislature for the purposes of this chapter.

7828.45 The Superintendent of Public Instruction shall allow to each district eligible to receive an allowance for the mathematics specialist program an amount equal to the total of salaries to be paid mathematics specialists employed by the district, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance during the preceding fiscal year in kindergarten and grades 1 through 8, inclusive, in the district bears to the assessed valuation per unit of such average daily attendance in the state and one-half of the total of salaries to be paid mathematics specialists employed in the district.

7828.46. From funds appropriated therefor by the Legislature, the Superintendent of Public Instruction shall pay the costs of the regional in-service training programs for specialized teachers in mathematics including the salaries of persons employed to provide instruction and training. From such funds teachers in attendance shall be reimbursed for living and traveling expenses necessarily incurred for such purposes, and shall be paid a nominal stipend

7828.47. From funds which may be appropriated therefor, the Superintendent of Public Instruction shall reimburse school districts for the expenses incurred, pursuant to contractual arrangement in securing the participating and cooperation of colleges and universities in providing the accelerated instructional program in mathematics in grades 8 to 12, inclusive.

7828.48. The State Board of Education and the Superintendent of Public Instruction shall take all necessary actions and steps to ensure that all federal funds which may be made

available for any of the experimental pilot programs provided for under Article 2 (commencing with Section 7828.11) of this chapter shall be received and utilized for such purposes.

7828.49. All disbursements of state funds under this article shall be made by warrants drawn by the State Controller upon order of the Superintendent of Public Instruction.

SEC. 31. Section 13162 of the Education Code is amended to read:

13162. Each county or city and county board of education may issue temporary certificates for the purpose of authorizing salary payments to teachers whose credential applications are being processed or to personnel employed in children's centers or other preschool educational programs whose permit applications are being processed. The applicant for such a temporary certificate shall make a statement under oath that he has duly filed his application for a credential or permit together with the required fee and that to the best of his knowledge no reason exists why he should not be issued a certificate or permit. Such certificate or permit shall be valid for not more than 90 schooldays and only until the credential or permit originally requested is either issued or denied by the State Board of Education.

SEC. 32. Section 13162 of the Education Code is amended to read:

13162. Each county or city and county board of education may issue temporary certificates for the purpose of authorizing salary payments to teachers whose credential applications are being processed or to personnel employed in children's centers or other preschool educational programs whose permit applications are being processed. The applicant for such a temporary certificate shall make a statement under oath that he has duly filed his application for a credential or permit together with the required fee and that to the best of his knowledge no reason exists why he should not be issued a certificate or permit. Such certificate or permit shall be valid for not more than 90 schooldays, or 120 schooldays in a district with an average daily attendance in excess of 400,000 or in a junior college district which has a common governing board with a unified district with an average daily attendance in excess of 400,000, and in either case only until the credential or permit originally requested is either issued or denied by the State Board of Education.

SEC. 33. The heading of Article 1 (commencing with Section 16601) of Chapter 5 of Division 12 of the Education Code is amended to read:

Article 1. Children's Centers

SEC. 34. Section 16601.5 of the Education Code is amended to read:

16601.5 The facilities used for any children's center established pursuant to this chapter may be made available for preschool training for children eligible for such training under

any federal program, or under any program of preschool training established by the laws of this state.

SEC. 35. Section 16603 of the Education Code is amended to read:

16603. The need of a parent and child for service in a children's center shall be determined upon the following conditions:

(a) That there is but one parent in the home and such parent supports and cares for the child, or the parent is physically or mentally unable to either support the family or care for the child, or there is but one parent in the home who requires education or training to qualify for entrance upon employment that will make the family economically self-sufficient, or

(b) That there are two parents in the home, each of whom is either working or is physically or mentally unable to either support the family or care for the child, or

(c) That a child is in need of a preschool educational program before entrance to kindergarten because of disadvantage arising from home and community environmental conditions.

(d) That either parent is attending school or receiving instruction, and the other parent, if any, is gainfully employed, or

(e) That the services of the parent having care of the child are necessary as a qualified and acceptable teacher in a public school or as a qualified and acceptable supervisor to serve in the supervision and instruction of children in a children's center or a supervisor of a children's program, as shall be evidenced by a statement from the employing authority of the public school to the governing body of the children's center, or

(f) That the services of the parent having care of the child are necessary as a registered nurse, as shall be evidenced by a statement from the responsible employer to the governing body of the children's center, or

(g) That the services of the parent having care of the child are necessary as a worker in industry essential to the mobilization effort, as shall be evidenced by a statement from the employer in such industry as shall have been designated as essential to the mobilization effort by the Director of Employment, or

(h) That the services of the parent having care of the child are necessary to meet an emergency arising from the necessity of harvesting or processing crops, or as an agricultural worker, or

(i) That the parent or parents having care of the child are attending school or receiving instruction under the state vocational rehabilitation program or under the Manpower Development and Training Act or under other programs authorized for a parent or parents in families qualifying for aid to families with dependent children, as shall be evidenced by a statement from any one of such agencies, or that one

parent in a two-parent family is attending school or receiving instruction under any one of such programs, and the other parent is employed or mentally or physically incapacitated.

The need of a parent to utilize a children's center who comes within subdivision (a), (b) or (c) of this section or is receiving or is likely to receive public assistance shall take precedence over the need for children of a parent, or parents, and child who come within subdivisions (d) to (i), inclusive, of this section.

SEC. 36. Section 16604 of the Education Code is amended to read:

16604. Except as provided in Section 16605, no child shall be admitted to a children's center if the total monthly income from all sources of the child's immediate family:

(a) Where both parents are working, exceeds six hundred forty-eight dollars ($648) if there is one child in the family, and an additional eighty-four dollars ($84) for each additional child.

(b) Where but one parent, who has both custody and care of the child, is the sole wage earner of the child's immediate family, exceeds four hundred sixty-three dollars ($463) if there is one child in the family, and an additional eighty-four dollars ($84) for each additional child.

Except as provided in Section 16605 the maximum "total monthly income" figure in either case may be exceeded in any month or months of the year if in the opinion of the board the total income from all sources, of the child's immediate family for the calendar year divided by 12 will not exceed such maximum. In computing the maximum "total monthly income" of self-employed persons the gross income of such persons may be reduced by the legitimate business expenses incident to the self-employment. In estimating earnings of any member of the child's immediate family the computation of weekly wages shall be on the basis of wages based on a five-day week if the employer of such person certifies to said governing board that the workweek of such person is five days or more.

SEC. 37. Section 16605 of the Education Code is amended to read:

16605. If either parent comes within subdivision (d) of Section 16603 and is attending school or receiving instruction for not less than half time, or if the parent or if either parent comes within subdivision (a), (e), (f), (g), (h), or (i) of Section 16603, and if the income from all sources of the child's immediate family exceeds that fixed by Section 16604, but is not greater than three times the amount fixed by Section 16604, a child of such parent may be admitted to a children's center but the governing board of the school district maintaining the children's center shall, notwithstanding anything in Section 16614 to the contrary, charge and collect from the person having custody of the child, except a parent coming within (a) of Section 16603, a weekly fee which shall be in

such amount as will reimburse the district for the cost of supervision instruction, and the cost of all food furnished such child. The governing board shall charge a parent coming within (a) of Section 16603 the fee required for the applicable maximum income as provided in Section 16604, plus, for each six dollars and sixty cents ($6.60) of an additional sixty-six dollars ($66) of income, one-sixth of the difference between that fee and the amount which will reimburse the district for the cost of supervision, instruction, and all food furnished the child.

As applied to the families of men on active duty with the United States armed forces, only that portion of the pay of enlisted personnel shall be included in the "total monthly income" which is the amount which is accounted for as "base pay."

SEC. 38. Section 16615 of the Education Code is amended to read:

16615. It is hereby declared to be the policy of the Legislature that, on a statewide average, of the total amount of the cost for the maintenance and operation of children's centers paid for by state funds apportioned to the districts and fees collected from parents, three-fourths of such total cost shall be paid from such state funds and one-fourth from such fees. Funds derived from district taxes levied under this chapter (commencing with Section 16601) may be expended in addition to parent fees and state funds, and shall not operate to affect the operation of either the fee schedule or the formula for apportioning state funds provided for in this chapter (commencing with Section 16601).

SEC. 39. Section 16618 of the Education Code is amended to read:

16618. The statewide average state support per hour per child shall be forty-two cents ($0.42).

(a) For purposes of this article (commencing with Section 16601) the Superintendent of Public Instruction shall apportion state funds to the districts using forty-two cents ($0.42) per hour per child. If the fees collected by any district shall for any month be less or more than fourteen cents ($0.14) per hour per child, the amount of the apportionment shall be increased or decreased in an amount equal to the amount by which the fees collected are less or more, respectively, than fourteen cents ($0.14) per hour per child.

(b) For development centers for handicapped minors, the Superintendent of Public Instruction shall apportion state funds as provided in Section 16645.11.

SEC. 40. Section 16620 of the Education Code is amended to read:

16620. Hours of attendance of children of, and fees collected from, parents required by this chapter (commencing with Section 16601) to pay the full cost of supervision, instruction, and all food of a child in a children's center shall not be used in computing amounts under Section 16618.

SEC. 41. Section 32 of this act shall become operative only if the amendment to Section 13162 of the Education Code as proposed by Assembly Bill No. 2417 is enacted by the Legislature at its 1967 Regular Session, and in such case at the same time as Assembly Bill No. 2417 takes effect; at which time Section 13162 of the Education Code as amended by Section 31 of this act is repealed.

SEC. 42. Section 5251 of the Education Code is amended to read:

5251. The governing board of any school district that maintains one or more elementary schools shall establish and maintain such number of kindergartens as are necessary for children living in the district who are eligible for admission pursuant to Section 5254 but are not eligible for admission pursuant to Section 5301 and whose parents or guardians present them for admission.

SEC. 43. Section 5251.1 of the Education Code is repealed.

SEC. 44. Section 5252 of the Education Code is repealed.

SEC. 45. Section 5252 is added to the Education Code, to read:

5252. Arguments may be changed until and including the date fixed by the secretary. If more than one argument for or more than one argument against any measure is submitted to the secretary within the time prescribed, the secretary shall select one of the arguments in favor and one of the arguments against the measure for printing and distribution to the voters. The arguments so selected shall be those of bona fide supporters or opponents of the measure.

SEC. 7. An article heading is added to Chapter 6 of Part 3 of Division 10 of the Public Utilities Code, immediately to precede Section 30800, to read:

Article 1. Property Taxation

SEC. 8. Section 30802 of the Public Utilities Code is amended to read:

30802. (a) To the extent possible and subject to the priorities set forth in Section 30638, the principal of, interest on, and sinking fund payments for bonds of the district, including the establishment and maintenance of any reserve fund therefor, shall be paid from the revenues of the district. If from any cause the revenues of the district are or are expected to be inadequate in any year to pay the principal of, interest on, or

sinking fund payments for bonds of the district as the same become due, or to establish or maintain any reserve fund therefor, the board shall, at the same time as the board of supervisors are required by law to fix the general tax levy and in the manner provided for such general tax levy, levy for district purposes and collect upon all property in the district taxable for county purposes a tax sufficient, together with revenues already collected and available therefor, to pay the interest on the bonds as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the district's agreements with its bondholders, as will come due before the proceeds of a tax levied at the next general tax levy will be available for such purpose, and sufficient to provide or to restore such reserve fund to the amount required by any of the district's agreements with its bondholders.

(b) In the event that, pursuant to Section 30900, the ordinance calling the election on the issuance of bonds provided for any of the special tax or taxes mentioned in Article 2 (commencing with Section 30820) of Chapter 6 of Part 3 of Division 10 to be levied and used to pay principal of and interest on the bonds, any sinking fund payments required therefor and to create and maintain any reserve fund required therefor, the board shall estimate the revenues of the district which are expected to be available for said purposes and the amounts to be raised by such special tax or taxes as are required to be levied and used for said purposes in order to provide for the payment of all such obligations when due. The board may in its regular annual budget or in a special budget which may be prepared at any time show the amounts needed for the aforesaid purposes, estimate the revenues available therefor, and thereafter fix the rates of and levy and collect or provide for the collection of such special tax or taxes as will provide, together with revenues available therefor, at least all sums necessary for such purposes insofar as such levies do not exceed the maximum rates stated in the ordinance calling the bond election.

If from any cause the revenues of the district are or are expected to be inadequate to pay the principal of and interest on the bonds and sinking fund payments, as the same become due, and establish or maintain any reserve fund required therefor, and if the proceeds of the special tax or taxes, levied at the maximum rates authorized, together with such revenues, are still estimated to be insufficient for said purposes, the board shall levy and collect upon all property in the district taxable for county purposes a tax at least sufficient, with the revenues already collected and available therefor, together with the anticipated proceeds of the special tax or taxes, to pay the interest on the bonds as the same will become due and such part of the principal thereof, including any sinking fund payments, as will become due before the proceeds of a tax levied at the

time of the next general tax levy will be available for such purposes, and sufficient to provide or to restore such reserve fund to the amount required by any of the district's agreements with its bondholders. Such special tax or taxes shall be continued at the same rates as theretofore established during each successive calendar or fiscal year until the same are changed by action of the board.

SEC. 9. Section 30803 of the Public Utilities Code is amended to read:

30803. If from any cause the revenues of the district, or the portion allocated for such purpose, are or are expected to be inadequate in any year to pay the principal of, interest on or sinking fund payments for such bonds for any improvement district, as the same become due, or to establish and maintain any reserve fund therefor, the board shall, at the time of fixing the general tax levy and in the manner provided for the general tax levy, levy and collect a tax within the improvement district involved sufficient, together with revenues already collected and available therefor, to pay the interest on the bonds for such improvement district as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the district's agreements with the bondholders of such bonds for such improvement district, as will become due before the proceeds of a tax levied at the next general tax levy will be available for such purpose, and sufficient to provide or to restore such reserve fund to the amount required by any of the district's agreements with its bondholders of such bonds for such improvement district.

SEC. 10. Section 30804 of the Public Utilities Code is amended to read:

30804. Taxes authorized by this article and required to be levied and collected on account of interest, principal, sinking fund and reserve fund of bonds of the district, or bonds for improvement districts therein, shall be used for no other purpose than the payment of the bonds, premiums, if any, on the mandatory call of any of said bonds, and accruing interest, and except for taxes levied pursuant to Section 31401, shall be the only taxes levied by the district unless additional taxes are authorized pursuant to Section 30806.

SEC. 11. Section 30806 of the Public Utilities Code is amended to read:

30806. The taxes authorized by this article and required to be levied for bonds of the district and bonds for improve-

The board in such ordinance shall provide the maximum tax rate or rates for such other district purposes, specified in such ordinance, and may provide for limitations upon the time or times which such additionally authorized taxes shall be in effect. Any maximum tax rate adopted pursuant to this section may be increased when authorized by the board by ordinance adopted in the manner and by the vote hereinbefore stated in this section and approved by 60 percent of the votes cast by the qualified electors of the district voting on the ordinance at an election called for that purpose.

SEC. 12. Article 2 (commencing with Section 30820) is added to Chapter 6 of Part 3 of Division 10 of the Public Utilities Code, to read:

Article 2. Special Taxes

30820. In addition to the power of taxation granted by Article 1 (commencing with Section 30800) of this chapter and subject to the priorities set forth in Section 30638, the board may impose one or more of the special taxes authorized by Part 17 (commencing with Section 37001) of Division 2 of the Revenue and Taxation Code in the manner and for the purposes prescribed subject to all limitations of this part.

30822. (a) No taxes authorized by this article shall be levied to pay principal and interest on any bonds of the district, nor for other district purposes unless the board shall have authorized the same by ordinance adopted by a vote of two-thirds of all members of the board and such ordinance shall be approved by 60 percent of the votes cast by the qualified electors of the district voting on the proposition at an election called for that purpose. The board in such ordinance

shall state the nature of the tax to be imposed, shall provide the tax rate or rates or the maximum tax rate or rates and shall specify the purpose or purposes for which the revenue derived from the tax will be used. The board in such ordinance may provide for limitations upon the time when such tax shall be in effect. Any tax rate or maximum tax rate adopted pursuant to this article, unless otherwise prohibited, may be increased when authorized by the board by ordinance adopted in the manner and by the vote hereinbefore stated in this section and approved by 60 percent of the votes cast by the qualified electors of the district voting at an election called for that purpose.

(b) Notwithstanding the provisions of the preceding subsection (a) of this section, whenever a bond election is held to authorize a bonded indebtedness pursuant to Article 1 of Chapter 7 of this division the ordinance calling the election may include a statement of which, if any, of the special taxes permitted by Part 17 (commencing with Section 37001) of Division 2 of the Revenue and Taxation Code shall be levied and used to pay principal of and interest on the bonds, including sinking fund payments and to create or maintain any reserve fund provided therefor. A vote in favor of the issuance of the bonds shall authorize the use of said tax or taxes for said purposes and no other or further election need be held to authorize the board to levy and collect or provide for the collection of and to make such use of said tax or taxes. The board, in the ordinance calling the bond election, shall state the nature of such additional tax or taxes and shall state the maximum rate or rates thereof. Such tax or taxes shall continue until the bonds and the interest thereon are paid or until a fund sufficient for the payment thereof or for the redemption thereof prior to maturity, with any premiums required therefor, has been created and set aside for that purpose.

Any surplus funds received from a special tax or taxes in any year may if not otherwise prohibited be paid directly on construction costs payable out of the bonds payable therefrom, provided that the required payments have been made on the principal, interest and sinking fund and reserve fund payments of any bonded indebtedness payable therefrom and the total amount of the bonds payable from special taxes authorized to be issued shall be reduced to the extent said funds are applied directly to construction costs.

30824. Where no other method is expressly provided for the collection of the special taxes authorized by Part 17 (commencing with Section 37001) of the Revenue and Taxation Code, the district may contract with any public agency and any public agency may contract with the district, for the public agency or one or more of them, to administer and collect any or all of the taxes, or any part of such taxes, imposed by an ordinance adopted pursuant to this article. The contract shall be upon such terms as the parties may agree. All taxes collected by a public agency pursuant to contract shall be trans-

Any trustee appointed by will, or appointed to execute a trust created by will, may, from time to time pending the execution of his trust, or at the termination thereof, render for settlement his accounts and report his acts as such trustee, before the superior court in which the will was probated. For

that purpose, the trustee, or, in the case of his death, his legal representatives, shall present to the court his verified account and report, setting forth his accounts in detail, reporting his acts as trustee, and showing the condition of the trust estate.

When it appears from the allegations of the petition that the trustee seeks instructions to exercise a power not conferred upon him or seeks authority to exercise the powers authorized by Section 1120.2, the petition shall set forth the particulars of and the necessity for the action sought to be taken.

The clerk shall set the hearing upon the account and report or petition for settlement or instructions and give notice thereof for the period and in the manner required by Section 1200 of this code. An act to add Section 19584.2 to the Education Code, relating to state school building aid.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 19584.2 is added to the Education Code, to read:

19584.2. The area of any building, the construction of which was financed by the proceeds from a tax levied pursuant

to Section 16633, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

CHAPTER 1221

An act to add Part 5.5 (commencing with Section 11101) to Division 2, and to amend Section 36020, of the Revenue and Taxation Code, relating to local vehicle license fees, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Part 5.5 (commencing with Section 11101) is added to Division 2 of the Revenue and Taxation Code, to read:

PART 5.5. LOCAL VEHICLE LICENSE FEES

11101. This part is applicable only in a county which has adopted a general plan providing for a network of county expressways and has financed the first phase of the construction of such highways from a county highway bond issue totaling at least seventy million dollars ($70,000,000). This part is necessary to provide needed revenue to continue further construction of such an expressway system without increasing the property tax.

11102. As used in this part, "department" means the Department of Motor Vehicles.

11103. Notwithstanding the provisions of Section 10758 of this code, the board of supervisors of a county may, by ordinance, adopt a vehicle license fee pursuant to this part. After a local vehicle license fee has been levied pursuant to this part, it may not be collected more than twice unless the board of supervisors shall have submitted to the voters at a general or special election and at least a majority of those voting have voted affirmatively on the following question:

"Shall the local vehicle license fee be continued as the means to finance the county expressway program?"

11104. No vehicle license fee ordinance adopted pursuant to this part shall be effective for any calendar year prior to 1968, nor unless it is adopted and a certified copy thereof delivered to the Department of Motor Vehicles at least four months prior to the first day of January for the calendar year for which it is to be operative.

11105. A vehicle license fee ordinance adopted pursuant to this part may be repealed by action of the board of supervisors

of the county. A repeal of any vehicle license fee ordinance adopted pursuant to this part shall not be effective for any calendar year unless the board of supervisors takes action to repeal the ordinance at least four months prior to the first day of January the year for which it is to be repealed.

11106. The vehicle license fee ordinance adopted under this part shall be imposed for the privilege of operating upon the public highways in the county any vehicle of a type which is subject to registration under the Vehicle Code unless specifically exempt under the terms of the ordinance, and shall include provisions in substance as follows:

(a) A provision fixing the annual amount of the license fee which shall be an amount not exceeding ten dollars ($10) for every vehicle of a type subject to registration under the Vehicle Code. The ordinance may provide a different fee for any class of vehicles provided no fee shall exceed ten dollars ($10) per vehicle.

(b) Provisions identical to those contained in Part 5 (commencing with Section 10701) of Division 2 of this code, insofar as they relate to vehicle license fees and are applicable, except that the name of the county as the taxing agency shall be substituted for that of the state, and that the term "vehicle of a type subject to registration under the Vehicle Code" does not include (1) any vehicle in the inventory of vehicles held for sale by a manufacturer, distributor or dealer in the course of his business until such time as the vehicle is sold, (2) any trailer coach, or (3) any class of vehicles specifically made exempt from the vehicle license fees authorized by this part by the terms of the ordinance imposing such fees.

(c) A provision that all amendments, subsequent to the effective date of the county vehicle license fee ordinance, to Part 5 (commencing with Section 10701) of Division 2 of this code relating to vehicle license fees and not inconsistent with this part, shall automatically become a part of the county vehicle license fee ordinance.

(d) A provision that the county contract with the Department of Motor Vehicles to perform all functions incident to the administration or operation of the vehicle license fee ordinance of the county.

(e) A provision that the vehicle license fee ordinance shall become operative on the first day of January of the year next succeeding the year in which the ordinance is adopted, subject to the provisions of Section 11104.

(f) A provision that the total revenue derived from any vehicle license fee ordinance, less any costs charged by the Department of Motor Vehicles for its services, shall be distributed to the county for the construction (as defined in Section 29 of the Streets and Highways Code) of a county expressway system or the select system of a county.

11107. All vehicle license fees shall be collected by the Department of Motor Vehicles pursuant to a contract with the

county and shall be transmitted to the county by the department periodically as promptly as feasible, and the department shall charge the county for the department's services specified in this section and Section 11106 such amount as will reimburse the department for the actual additional cost to it in rendering the services. Refunds to licensees pursuant to Part 5 of Division 2 of this code as incorporated in the vehicle license fee ordinance shall be made and administered as provided in such contract.

11108. A person shall, for the purposes provided in this part, be presumed to be operating a vehicle on the public highways only in the county of residence as it is reflected in the registration records of the Department of Motor Vehicles and he shall be subject to a vehicle license fee under this part only in that county. The department is authorized to establish administrative procedures for the collection of vehicle license fees. In determining the place of residence of a person the department shall be entitled to rely upon the address reflected in its records unless any such person or persons or county or district shall establish to the satisfaction of the department that the place of residence is elsewhere.

SEC. 2. Section 36020 of the Revenue and Taxation Code is amended to read:

36020. Notwithstanding the provisions of Section 10758 and Part 5.5 of Division 2 of this code, the board of supervisors of a county may, one time only, by ordinance, adopt a vehicle license fee pursuant to this article which shall be operative for one calendar year only.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the State Department of Motor Vehicles may have time to prepare for the collection of the fees provided for by this act, beginning in 1968, it is necessary that this act go into immediate effect.

CHAPTER 1222

An act to amend Sections 23821 and 24070 of the Business and Professions Code, relating to alcoholic beverages, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 23821 of the Business and Professions Code is amended to read:

23821. Whenever it is made to appear to the department by satisfactory evidence that the population in any county has

increased by more than 2,000 or multiples of 2,000 inhabitants since the most recent United States decennial or special census, and it appears to the department that by reason thereof the inhabitants of the county are unjustly and unfairly discriminated against, and if the total number of on-sale general licenses in such county do not then exceed the maximum specified in Section 23816, the department, subject to the limitation contained in Section 24070, may issue not to exceed one on-sale general license for each increase of 2,000 inhabitants in the county since the taking of the census.

Whenever it is made to appear to the department by satisfactory evidence that the population in any county has increased by more than 2,500 or multiples of 2,500 inhabitants since the most recent United States decennial or special census and it appears to the department that by reason thereof the inhabitants of the county are unjustly and unfairly discriminated against, and if the total number of off-sale general licenses in such county do not then exceed the maximum specified in Section 23817, the department, subject to the limitation contained in Section 24070, may issue not to exceed one off-sale general license for each increase of 2,500 inhabitants in the county since the taking of the census.

Before any applications for new original on-sale general or new original off-sale general or intercounty transfer of off-sale general licenses are accepted, the department shall publish pursuant to Section 6061 of the Government Code in the county where such new original licenses may be issued or into which off-sale general licenses may be transferred, notice of the department's intention to receive applications for the issuance of such new original licenses or for the intercounty transfer of off-sale general licenses, setting forth the date, time, manner and place of acceptance of such applications within the county. In all other respects the limitation hereinbefore provided for shall continue in effect.

SEC. 2. Section 24070 of the Business and Professions Code is amended to read:

24070. Each license is separate and distinct and is transferable upon approval by the department from the licensee to another person and from one premises to another premises.

(a) All off-sale general licenses may be transferred from one county to another county, subject to the following provisions:

1. The number of off-sale general licenses in existence in any county on June 1 of any year shall not be increased by more than 25 new original off-sale general licenses during the following 12-month period, provided further that the number of new original off-sale general licenses that may be issued in any county during any 12-month period shall not increase by more than 10 percent the number of off-sale general licenses in existence in such county on the June 1 with which that 12-month period began.

2. After the department computes the number of new original off-sale licenses that may be issued in any county during any 12-month period as provided by the foregoing paragraph, if the department determines that the ratio established by Section 23817 will permit, during such 12-month period, additional off-sale general licenses in any county, off-sale general licenses may be transferred into such county in a number not to exceed by more than 10 percent the number of off-sale general licenses in existence in such county on the June 1 with which that 12-month period began, but in no event to exceed 25 such transfers during that 12-month period.

3. Under no circumstances shall the combined total number of new original off-sale general licenses that may be issued in any county during any 12-month period and the number of off-sale general licenses that may be transferred into such county during that 12-month period, exceed the limitation set forth in Section 23817.

(b) The number of on-sale general licenses in existence in any county on June 1 of any year shall not be increased by more than 10 percent by the issuance of new original on-sale general licenses, but in no event to exceed 25 such licenses, during any 12-month period. The number of on-sale general licenses shall be limited by the provisions of Section 23816.

(c) No retail license subject to the provisions of Section 23816 or 23817 issued as a new original license on or after June 1, 1961, and no off-sale general license transferred from one county to another county on or after the operative date of the 1967 amendment to this section shall be transferable from the licensee to another person, or if the licensee is a corporation a controlling interest in the stock ownership of the licensee shall not be, directly or indirectly, sold, transferred, or hypothecated unless the licensee be a corporation the stock of which is listed on a stock exchange in this state or in the City of New York, State of New York, or which is required by law to file periodic reports with the Security Exchange Commission, for a period of two years from date of issuance of the license, except as provided in Section 24071, and except when the department determines that the transfer is necessary to prevent undue hardship.

(d) No off-sale general license that is transferred from one county to another county pursuant to the 1967 amendment to this section shall be transferred thereafter for a purchase price or consideration to the transferor or from the transferee in excess of ten thousand dollars ($10,000).

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act revises the provision relating to the issuance and transfer of alcoholic beverage licenses to insure that the proper

number of alcoholic beverage licenses are available in the various counties. Applications for such licenses are taken each August by the Department of Alcoholic Beverage Control. In order that this act may be effective by August 1, 1967, it is imperative that this act take effect immediately.

13503. Every person employed by the district in a position requiring certification qualifications in a day school of the district for not less than the minimum schoolday for each day the schools of the district are maintained during the school year is a full-time employee and his compensation shall be fixed accordingly unless he specifically contracts with the governing board to be a part-time employee as defined in Section 13503.1. Governing boards may require persons employed in positions requiring certification qualifications to serve a longer period of time in each schoolday than the minimums defined in Sections 11003 to 11008, inclusive, in order to be compensated as full-time employees, provided all such employees in similar grades or levels are similarly required to serve such longer periods of time. With respect to a unified school district, for the purposes of this section all day kindergarten and ele-

mentary schools of the unified school district shall be deemed to be maintained by one district, all day high schools of the unified school district shall be deemed to be maintained by a second and separate district, and all day junior colleges of the unified school district shall be deemed to be maintained by a third and separate district.

SEC. 2. Section 13503.1 is added to the Education Code, to read:

In fixing the compensation of part-time employees, governing boards shall provide an amount which bears the same ratio to the amount provided full-time employees as the time actually served by such part-time employees bears to the time required of full-time employees assigned to the same grade.

The warning notice, the disposal order directing the proper disposition of such products, and the disposal order receipt to be signed by an enforcing officer at destination confirming such disposition shall be in the form specified by and provided by the director.

Such permits may be issued for a period not exceeding 36 months.

No permit issued, except to the seller and the receiver, shall be valid except in the county where issued unless the permit, or a rider securely attached thereto, carries the endorsement of the commissioner of the county (1) to which the eggs are to be transported or delivered and (2) from which such products are to be transported or delivered.

A permittee shall, upon request of any commissioner, furnish such affidavits, receipts and other evidence as such commissioner reasonably may require as proof that the commodities have been disposed of in accordance with the provisions of this chapter and the terms of the permit.

27755. Any commissioner may refuse to issue or to endorse a permit described in Section 27754, or may revoke or suspend any permit or endorsement issued by him, if after investigation and in his judgment the permittee or applicant for permit does not have available proper and adequate facilities with which to pack, process or otherwise dispose of the commodity described in Section 27754, or if the permittee or applicant for permit has previously violated any of the provisions of this chapter or the terms of any permit issued hereunder, or has failed or refused to furnish the evidence required by the commissioner, as provided in Section 27754. Nothing herein contained shall be construed to allow a permittee or applicant to operate pending the disposition of his application or petition. Nothing herein contained shall be construed to prevent the commissioner from suspending or revoking a permit forthwith, and without notice or hearing; provided, however, that such peremptory action must be supported by previous investigation, the results of which reasonably indicate to said commissioner that to allow an existing permit to remain in use pending a hearing would encourage, allow or permit additional or other violations of the provisions of this chapter.

27756. It is unlawful for any person who does not hold a valid permit issued under the provisions of Section 27754 to sell, buy, receive, transport, deliver, or cause to be transported, any eggs which do not conform to such standards.

Every person selling, delivering or receiving any such nonconforming eggs shall keep an accurate record of all such transactions in such form as the commissioner shall require. All such records shall be kept for at least one year and shall be delivered to the commissioner for his inspection on demand at any time within that period.

and conduct a bond election to be held concurrently with the election on formation of the preliminary junior college district.

Sections 25431 and 25431.5 of this code shall not apply to the formation of a junior college district as a preliminary step to the inclusion of such district in a larger junior college district.

If plans and recommendations submitted pursuant to the section are approved by the State Board of Education, the county superintendent of schools shall call elections on the question of approval of each of the proposals on dates fixed by the county committee on school district organization, but with the dates of the elections on the formation of the preliminary junior college district and the formation of the larger junior college district to be no less than 60 days apart. The election on the formation of the larger junior college district shall be held only if the election on the formation of the preliminary junior college district and, if required, the bond election are successful.

If an election to form a junior college district as a preliminary step to the inclusion of such a district in a larger junior college district is successful, the district shall not become effective for any purpose until the formation of the larger junior college district has been approved at an election and the election results have been certified as required by law.

SEC. 2. Section 25457.9 is added to the Education Code, to read:

25457.9. Notwithstanding Section 1706, specific provision is made that a junior college district formed pursuant to Section 25457.6 as a preliminary step to inclusion in a larger junior college district also formed pursuant to Section 25457.6 shall continue to exist as a district for the purpose of issuing and selling bonds in the amount specified by the county committee on school district organization, the proceeds of which are to be transferred to the larger junior college district on or after the date the formation of such larger junior college district becomes effective for all purposes.

CHAPTER 1246

An act relating to school district reorganization proceedings in Placer, Sutter and Yuba Counties, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that unique and special circumstances exist justifying the enactment of laws dealing particularly with the organization or re-

organization of that school district territory in Placer County, Sutter County and Yuba County heretofore included within the East Nicolaus Joint Union High School District and the Wheatland Union High School District, and which is proposed to be formed into a new unified school district to be known as the Wheatland-East Nicolaus Unified School District. The unique and special circumstances include the following: On or about June 7, 1966, an election was held within this territory on the question of the formation of the proposed unified school district. The proposal was approved by a majority of some 30 votes of a total in excess of 1,400 votes cast and counted. After the election, judicial proceedings were commenced challenging the validity, under controlling statutes, of procedures involved in the call and conduct thereof. Though relief in the form of setting aside the election and the unification was denied by the trial court (on the basis of failure to comply with procedural requirements determined to be applicable to court proceedings contesting the election), it was found and determined by the court that the voters of the territory had been misled, to the extent that the outcome of the election was probably affected, by misinformation appearing on a statement or notice concerning the election. An appeal from this decision of the trial court has been perfected, and a final decision in the matter will, in all likelihood, not be issued prior to July 1, 1967, at which time the new unified school district is scheduled to take effect for all purposes. Should the final decision of an appellate court declare null and void or set aside the election and the formation of the unified district, serious disruption in the local administration of the schools of the territory will very probably ensue.

SEC. 2. Notwithstanding any provision of law to the contrary, the formation of the unified school district described in Section 1 of this act, known as the Wheatland-East Nicolaus Unified School District, and comprised of territory in Placer County, Yuba County and Sutter County formerly included within the Wheatland Union High School District and the East Nicolaus Joint Union High School District, and all proceedings attendant upon such formation, are hereby validated, ratified, confirmed and declared legally effective for all purposes, and the said new unified school district shall take effect for all purposes within the meaning of Section 1704 of the Education Code on July 1, 1967, but subject to the conditions and requirements hereinafter prescribed.

(a) The county superintendent of schools having jurisdiction of the new unified school district shall, pursuant to the provisions of Chapter 10 (commencing with Section 3100) of Division 5 of the Education Code, and other applicable statutes governing the submission of plans and recommendations for the reorganization of school district territory formulated under that chapter to the electors of any territory included within the same, call and conduct an election to be held on November 7, 1967, at which shall be submitted to the electors within the

said new unified school district the identical proposal for the reorganization (unification) thereof as was submitted to the electorate on or about June 7, 1966.

(b) In the event that the proposal resubmitted to the electors pursuant to subdivision (a) is approved by a majority of the votes cast at the election, such action shall be deemed conclusive as to the validity of the formation and legal existence of the said new unified school district for all purposes.

(c) In the event that the proposal resubmitted to the electors pursuant to subdivision (a) is not approved by the electors, the said new unified school district shall be dissolved and cease to exist on and after July 1, 1968. The East Nicolaus Joint Union High School District, the Wheatland Union High School District, and all elementary school districts included within those high school districts prior to formation of the said new unified school district shall be restored to existence as though no unification had at any time taken place. For such purposes the certification of the election results by the county superintendent of schools shall form the basis for the making of the necessary orders by the boards of supervisors of Placer County, Yuba County and Sutter County pursuant to Section 1647 of the Education Code, and the orders shall be deemed to be actions to organize or reorganize the districts for purposes of Article 4 (commencing with Section 1701) of Chapter 1 of Division 5 of the Education Code. New governing boards shall, thereafter, in January 1968, be elected for each of such districts at a special election called and conducted in the manner prescribed by laws governing the calling and conduct of school district governing board elections

SEC. 3. All state and local officers and agencies are hereby authorized and directed to undertake all actions necessary to effectuate this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the urgently needed relief afforded by the provisions of this act may be availed of and the necessary procedures may be commenced upon as soon as possible, and in order to avoid any and all disruption in local school administration which might result from any judicial nullification of previously completed proceedings affecting the school district territory which is the subject of this act, it is necessary that this act take effect immediately.

CHAPTER 1247

An act to amend Section 17507 of the Education Code, relating to public school system.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 17507 of the Education Code is amended to read:

17507. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:

(a) For grades one to three, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty-three (33) in each class having an enrollment of thirty-three (33) or more.

(b) For grades four to eight, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess, if any, of pupils enrolled in such grades in the following manner:

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

(2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

(3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subsection (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to dis-

trict change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades one, two and three reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty-three (33) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 17601.1 by twice of the product determined under subdivision (c) of this section.

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty-three (33) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 17601.1 by twice of the resulting product. Change in average daily attendance shall be determined by dividing average daily attendance in grades four to eight, inclusive, reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty-three (33) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall add to twice the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section and decrease the average daily attendance reported under the provisions of Section 17601.1 by this total amount.

(g) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty-three (33) per class determined pursuant to subdivision (a) of this section, there is an excess number of pupils computed pursuant to subdivision (b) of this section, and the average number of pupils enrolled in each class determined pursuant to subdivision (a) of this

section is less than thirty (30), he shall decrease the average daily attendance reported under the provisions of Section 17601.1 by one-half of the decrease otherwise computed for the district pursuant to subdivision (f) of this section.

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964–65 and each year thereafter the information required for the determinations to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction. Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund. The forms on which the data and information is reported shall include a certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular schoolday. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular schoolday.

For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

Whenever the number thirty-three (33) is required to be used in any part of this section, relating to grades one to three, inclusive, of a school district for the fiscal year 1965–66, the following numbers shall be substituted during succeeding years: thirty-two (32) for the fiscal year 1966–67; thirty-one (31) for the fiscal year 1967–68; thirty (30) for the fiscal year 1968–69 and each year thereafter.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made for the fiscal year 1964–65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have

been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 17601.1 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

CHAPTER 1248

An act to amend Section 11543.5 of the Business and Professions Code, to amend Section 23010.3 of, and to add Section 50143 to, the Government Code, and to amend Sections 55358, 55359, 55360, and 55361 of the Water Code, relating to reimbursement of construction costs of public improvements.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 11543.5 of the Business and Professions Code is amended to read:

11543.5. A local ordinance may require the payment of a fee as a condition of approval of a final subdivision map for purposes of defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas.

Such local ordinances may require payment of fees pursuant to this section if:

(1) The ordinance was adopted 30 days prior to the filing of the tentative map of any subdivision for which payment of a fee is required;

(2) The ordinance refers to a drainage plan adopted for a particular drainage area, which contains an estimate of the total costs of constructing the local drainage facilities required by the plan, and a map of the drainage area showing its boundaries and the location of planned drainage facilities;

(3) The drainage plan, in the case of a city, situated in a county having a countywide general drainage plan, has been determined by resolution of the governing body of the county to be in conformity with the county drainage plan, or in the case of a city situated in a county not having a countywide general drainage plan but in a district having a general drain-

age plan, has been determined by resolution of the governing body of the district to be in conformity with the district general plan, or in the case of a city situated in a county having a countywide general drainage plan and in a district having a general drainage plan, has been determined by resolution of the governing body of the county to be in conformity with the county drainage plan and by resolution of the governing body of the district to be in conformity with the district general plan;

(4) The costs, whether actual or estimated, are based upon findings by the governing body that subdivision and development of property within the planned local drainage area will require construction of the facilities described in the drainage plan, and that the fees are fairly apportioned within the local drainage area either on the basis of benefits conferred on property proposed for subdivision or on the need for local drainage facilities created by the proposed subdivision and development of other property within the local drainage area;

(5) The fee as to any property proposed for subdivision within a local drainage area does not exceed the pro rata share of the amount of the total actual or estimated costs of all facilities within the local drainage area which would be assessable on such property if such costs were apportioned uniformly on a per-acre basis.

(6) The drainage facilities planned are in addition to existing local drainage facilities serving the area at the time of the adoption of the drainage plan for the area.

Fees required by an ordinance adopted pursuant to this section shall be paid into a "planned local drainage facilities fund." A separate fund shall be established for each local drainage area. Moneys in such fund shall be expended solely for the construction or reimbursement for construction of local drainage facilities within the planned local drainage area from which the fees comprising the fund were collected, or to reimburse the county or city for the cost of engineering and administrative services to form the district and design and construct the facilities. An ordinance adopted pursuant to this section may provide for the acceptance of cash or other consideration in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund to pay the costs of constructing drainage facilities within a local drainage area and reimburse the general fund for such advances from the planned local drainage facilities fund for the local drainage area in which the drainage facilities were constructed.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of drainage facilities within a local drainage area; provided that the sole security for repayment of such indebtedness shall be moneys in the planned local drainage facilities fund.

SEC. 2. Section 23010.3 of the Government Code is amended to read:

23010.3. Upon adoption of an authorizing resolution by the board of supervisors, in connection with the construction of any sanitary sewer, storm sewer, or drainage improvements, a county may expend any of its available funds for any additional cost of construction of any conveyance works in excess of the construction required for the current project, if the board of supervisors first finds and declares in the aforementioned resolution, (a) that there is an area outside the area to be served by the current project which may in the future utilize the conveyance works; (b) that additional construction of conveyance works for the current project is necessary to serve the outside area in the future; and (c) that the board of supervisors will have the right in the future to use, or to permit the use of, the conveyance works and the additional construction which will benefit the outside area.

The provisions of this section shall be applicable in cases in which improvements are to be constructed by any of the following:

(a) A county pursuant to the "The Improvement Act of 1911," Division 7 (commencing with Section 5000) of the Streets and Highways Code.

(b) A county pursuant to the "Municipal Improvement Act of 1913," Division 12 (commencing with Section 10000) of the Streets and Highways Code.

(c) A county in any other manner.

(d) Any district which is governed by the board of supervisors of the county in which the work is to be performed.

(e) Any district, not governed by the board of supervisors of the county in which the work is to be performed, with which the board of supervisors has contracted so as to assure the right of the county to use the conveyance works and the additional construction, for the future benefit of the outside area.

(f) Any incorporated city with which the board of supervisors has contracted so as to assure the right of the county to use the conveyance works and the additional construction, for the future benefit of the outside area.

(g) Any person, if the works when completed are to be dedicated or conveyed to the county or to a district governed by the board of supervisors of the county in which the work is to be performed.

The board of supervisors may impose a connection fee upon any person or district in the outside area to be paid to the county as a condition to connecting to any conveyance works which have been augmented by additional construction pursuant to this section. The connection fee shall be a prorated share of the total cost of the additional construction. In computing the total cost of the additional construction, the board of supervisors may include an amount attributable to interest. Interest shall not exceed 4 percent per annum from the date of completion of the construction to the date of connection.

This section shall not decrease or limit any other power vested in counties or boards of supervisors.

SEC. 3. Section 50143 is added to the Government Code, to read:

50143. When property is subject to a fee which has been or may be imposed under the authority of this article and also to a fee which has been or may be imposed under the authority of Article 3 (commencing with Section 11535) of Chapter 2 of Part 2 of Division 4 of the Business and Professions Code, payment of either fee shall be deemed payment of both fees.

SEC. 4. Section 55358 of the Water Code is amended to read:

55358. Whenever for any reason water system facilities are proposed to be installed in a district by someone other than the district itself, or the installation cost is proposed to be paid by someone other than the district itself, and the facilities are to be thereafter dedicated to the district for public use, and the board determines that it is necessary and convenient to the purposes of the district that the acceptance of said dedication be conditional upon the water system facilities being adequate to serve land other than and in addition to land proposed by the installer to be served thereby, the board may by contract agree to reimburse and may reimburse the installer for the proportionate part of the total cost of such water system facilities which will serve and benefit other land, upon such terms as may be agreed upon.

SEC. 5. Section 55359 of the Water Code is amended to read:

55359. The reimbursement contract may provide that the reimbursement will be made in periodic payments over an agreed period of time not to exceed 10 years, exclusively out of charges imposed upon land and collected from persons owning the land other than the land proposed by the installer to be served by the water system facilities. The other land that may connect to and be served by the water system facilities shall be specified in the contract.

SEC. 6. Section 55360 of the Water Code is amended to read:

55360. Under no circumstances shall the total amount of all reimbursement payments made or agreed to be made exceed the amount, specified in said contract, for the total cost of the water system facilities exclusive of the costs attributable to the land of the installer. An amount attributable to interest may also be included in the contract, at a rate not to exceed 4 percent per annum from the date of installation to the date of connection of other land to the facilities.

SEC. 7. Section 55361 of the Water Code is amended to read:

55361. Whenever a district has contracted to reimburse an installer for the installation of water system facilities, it may impose upon land and collect from any person owning the

land, other than the land designated in the contract as proposed by the installer to be served therefrom, which may connect to and receive water service from or through said water system facilities, a reasonable charge representing the proportionate share of the estimated cost of replacement or the proportionate share of the total installation cost of said water system facilities which is fairly attributable to the land which may receive water service. An amount attributable to interest may be included in the charge at a rate not to exceed 4 percent per annum from the date of installation to the date of connection of other land to the facilities.

CHAPTER 1249

The people of the State of California do enact as follows:

SECTION 1. Section 13188 of the Education Code is amended to read:

13188. As used in this article:

(a) "Academic subject matter area" refers exclusively to the natural sciences, the social sciences (other than education and educational methodology), the humanities, mathematics, and the fine arts. The State Board of Education may consider a given subject matter major, whatever its title, to be an academic subject matter major if it finds that at the specific institution the required courses and the content of such courses within the major are equivalent to those of an academic subject matter major.

(b) "Specialized preparation" means training and education designed to prepare a person to serve as a librarian and to teach librarianship or to serve as a teacher of exceptional children, as designated on the credential.

(c) "Degree" includes any certificate, diploma, or other document granted by a foreign institution of higher learning, regardless of its degree or graduation policies, which is certified by the State Board of Education as representing academic qualifications and standards equivalent to those of a degree granted by universities and colleges in the United States and fulfilling the academic requirements for a California teaching credential.

CHAPTER 1250

An act to amend Sections 13723.4 and 13723.6 of the Education Code, relating to school district employees.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

Such rule shall provide: (a) that all permanent employees of the district, classified and certificated, who meet the established minimum qualifications, shall be eligible to compete in the examination as promotional candidates; (b) that promotional credits, including seniority credits, if any, shall be equally applicable to both classified and certificated promotional candidates; (c) that eligibility lists resulting from such an open competitive and promotional examination shall be merged according to the order of the examination scores into a single eligibility list, after the scores of each candidate on the promotional list have been adjusted for promotional credits, including seniority credits, if any; and (d) that the examination for any such position shall not be construed to be an entrance level position examination.

SEC. 2. Section 13723.6 of the Education Code is amended to read:

CHAPTER 1252

An act to amend Section 5261 of, and to add Article 4.5 (commencing with Section 5250) to Chapter 2 of Division 3 of, and Section 5261.5 to, the Business and Professions Code, relating to advertising displays.

The people of the State of California do enact as follows:

SECTION 1. Article 4.5 (commencing with Section 5250) is added to Chapter 2, Division 3 of the Business and Professions Code, to read:

Article 4.5. Certificates of Zoning Compliance

5250. A certificate of zoning compliance, as used in this chapter (commencing with Section 5200) is a certificate issued by a city, county or city and county as prescribed by this article.

5251. When requested to do so pursuant to a resolution adopted by the governing body of a city, county, or city and

county the director shall require the presentation of a certificate of zoning compliance or an application date stamped pursuant to Section 5253, issued within 60 days of presentation, before issuing a permit pursuant to Article 5 (commencing with Section 5260) in respect to any advertising display to be placed within any area subject to the zoning regulations of such city, county, or city and county.

5252. Every person desiring a certificate of zoning compliance shall file an application with the designated local official. The application shall be accompanied by a plot plan showing the location of the parcel on which the display is proposed and the proposed site on the parcel. The size and type of construction of the proposed display and whether or not it is electrical shall also be stated. A fee of two dollars ($2) shall be paid upon presentation of the application.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 19143 of the Government Code is amended to read:

19143. Notwithstanding any other provision of the law to the contrary, an employee whose continuity of employment in the state service as either an exempt or civil service employee is broken for six months or longer by a permanent separation such as resignation, dismissal, or rejection during a probationary period, and who is subsequently reemployed after December 31, 1949, shall not be credited for service prior to such separation for purposes of layoff or sick leave, nor shall he be credited with any sick leave which he had accumulated prior to his separation, and he shall again serve the months required to qualify for vacation credit. The State Personnel Board shall adopt rules governing the crediting of service before and after such a break in service for purposes of vacation as specified in Section 18050 and the keeping of service records related thereto.

When an employee has a break in the continuity of his state employment because of a temporary separation such as layoff, suspension, leave of absence, military leave, disability retirement, or medical termination, his prior service shall be counted upon his return to state service for purposes of layoff, sick leave and vacation.

SEC. 2. Section 19535 of the Government Code is amended to read:

19535. In lieu of being laid off an employee may elect demotion to: (a) any class with substantially the same or a lower maximum salary in which he had served under permanent or probationary status, or (b) a class in the same line of work as the class of layoff, but of lesser responsibility, if such a class is designated by the board. Whenever such a demotion requires a layoff in the elected class, the seniority score for the demoted employee shall be recomputed in that class. The appointing power shall inform the employee in the notice of layoff of the classes to which he has the right to demote. To be considered for demotion in lieu of layoff an employee must notify his appointing power in writing of his election not later than five calendar days after receiving notice of layoff.

Demotions in lieu of layoff, and layoffs resulting therefrom, shall be governed by the provisions of this article and shall be made within the subdivisions approved by the board for this purpose. Such subdivisions need not be the same as those used to determine the area of layoff under Section 19532.

CHAPTER 1256

An act relating to the establishment of an Automobile Accident Study Commission, defining its powers, duties and responsibilities, and making an appropriation therefor.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Since the automobile first became an important mode of transportation in California, the continuing growth in

population, including with it great industrial, social, economic and technical progress, have required the Legislature to develop a statutory pattern designed to make the use of automobiles in California responsive to the total public interest. This statutory pattern has involved many laws bearing on automobile accidents, both in terms of their prevention and consequences.

For many years, the common law doctrine of tort liability, as related to the use of automobiles, has undergone substantial statutory modification through the enactment of many laws imposing vicarious liability on automobile owners but also establishing certain degrees of statutory protection of automobile owners and drivers from third-party liability. During this same period, many statutory rules of the road have been developed which limit the rights of automobile drivers when using automobiles.

From a financial responsibility standpoint, the availability to automobile owners and drivers of automobile liability insurance has made it possible for them to obtain a method by which collectively they could provide a means of financial recourse where their negligent use of automobiles has exposed them to liability. California's growth has, in the continuing increase in registered automobiles, resulted in a statutory pattern of financial responsibility laws through which, by obtaining automobile liability insurance, the great majority of automobile owners and drivers are financially responsible. At the same time, however, many automobile owners and drivers, by their failure to comply with the statutory pattern of rules of the road established in California, have caused the cost of automobile insurance to increase to a point where the meeting of their financial responsibility by many automobile owners and drivers imposes great economic hardship upon them.

Since the development of the automobile liability insurance contract it has also undergone substantial modification to provide broader coverage from a vicarious liability exposure standpoint but also in terms of first party coverage such as medical payments and uninsured motorist. These automobile liability insurance policy improvements, together with limitations imposed on the cancellation of or the use of restrictive endorsements, reflect both enlightened statutory action and a progressive competitive automobile insurance industry which is permitted to operate in California under a freely competitive rating structure.

Despite these many statutory and automobile insurance industry created developments, however, automobile accidents have continued to expose nonculpable victims thereof to substantial delay in the obtainment of financial recourse and has caused many legal scholars to raise serious questions regarding the continued feasibility of the use of the common law doctrine of tort liability, as statutorily modified, as the method by which automobile accident consequences will continue to be legally resolved. Therefore, it is the purpose of the Legisla-

ture, in enacting this statute, to authorize a study of the common law tort liability system, as modified by statute, including related insurance, motor vehicle and procedural laws bearing on both the prevention and consequences of automobile accidents, to ascertain whether they are presently serving their respective original purposes and whether they may, in view of conditions which may be anticipated in this state, be expected to serve these purposes effectively in the future; or whether, on the other hand, they have become uncertain, discriminatory, expensive, and full of delay that they no longer effectively serve these purposes.

SEC. 2. There is in the state government an Automobile Accident Study Commission, hereafter referred to as the "commission." The commission shall consist of eight members appointed by the Governor, with the approval of the Senate, who shall be representative of the broad interests of this state.

Four Members of the Senate of the State of California appointed by the Committee on Rules of the Senate and four Members of the Assembly of the State of California appointed by the Speaker of the Assembly shall meet with the commission and participate in its activities as voting members of said commission. For the purposes of this statute, the Members of the Legislature shall be considered a joint committee of the two houses of the Legislature and constitute an investigating committee on the subject of this statute; and, as such, shall have the powers and duties imposed on such a committee by the Joint Rules of the Senate and the Assembly and, in accordance with those rules, shall be allowed, out of the Contingent Funds of the Senate and the Assembly, their expenses incurred for mileage and other purposes in the exercise or performance of such powers or duties.

The members of the commission shall serve without other compensation but shall be reimbursed for all necessary expenses actually incurred in the performance of their duties. The Governor shall select from among the members of the commission a chairman and shall summon the commission to its first meeting. A majority of the members of the commission shall constitute a quorum and all vacancies in the commission membership shall be filled in the same manner in which original appointments were made.

SEC. 3. The commission shall conduct a study of, and make suggestions regarding, automobile accidents, including their prevention and consequences as well as related insurance, motor vehicle and procedural laws bearing thereon, to determine whether these laws, together with the statutory rules of the road, most effectively contribute to the prevention of automobile accidents and the expeditious and adequate financial recourse of automobile accident victims This study may include, but need not be limited to, a study of the existing common law tort liability system, as modified by statute, as it bears on present insurance, motor vehicle and procedural laws together with an evaluation of the feasibility of revising

or modifying said existing common law tort liability system and the relationship of the insurance, motor vehicle and procedural laws thereto; a study leading to some guidelines relating to greater certainty in the disposition of automobile accident consequences and consideration of necessary modifications of the statutory rules of the road as they may relate thereto; and consideration of all pertinent related laws of other jurisdictions bearing on these matters.

The commission shall advise the Governor and the Legislature of its findings, conclusions and suggestions, including recommendations, if any, in regard to proposed statutory and constitutional changes, improved procedures and practices, and anything else in its opinion designed to further the accomplishment of expeditious and adequate financial recourse for automobile accident victims as well as the prevention of automobile accidents.

The commission may submit to the Governor and the Legislature at such time or times, as the commission deems necessary, interim reports of its activities. All meetings of the commission and all hearings held by the commission shall be open to the public.

SEC. 4. In carrying out its duties and responsibilities, the commission shall have the following powers:

(a) To meet at such times and places as it may deem proper.

(b) As a body or, on the authorization of the chairman, as a subcommittee composed of one or more members, to hold hearings at such times and places as it may deem proper.

(c) To issue subpoenas to compel the attendance of witnesses and the production of books, records, papers, accounts, reports and documents.

(d) To administer oaths.

(e) To employ a secretary and such clerical, legal, and technical assistance as may appear necessary.

(f) To contract with and engage the services of one or more public or private research agencies, universities, or other institutions, whether located within or outside of this state, which would conduct research, prepare recommendations, or undertake the general administration and conduct of the study authorized by this division under the direction of the commission, or any of such activities, as the commission may determine, and to contract with such other individuals or agencies, public or private, as it deems necessary, for the rendition and affording of such services, facilities, studies, and reports to the commission as will best assist it to carry out its duties and responsibilities.

(g) To cooperate with, and to coordinate with, all state and federal agencies now or hereafter engaged in, or concerned with, automobile accident consequences and prevention.

(h) To cooperate with, and to secure the cooperation of, the courts of this state and of other states, in investigating any matter within the scope of its duties and responsibilities,

and to enlist the aid of the Judicial Council in facilitating such investigation.

(i) To cooperate with, and to secure the cooperation of, county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of its duties and responsibilities, and to direct the sheriff of any county or any marshal to serve subpoenas, orders and other process.

(j) To certify to the superior court of any county in which proceedings are held the facts concerning the disobedience or resistance, by any person, of any lawful order, or the refusal of any person to respond to a subpoena, to take the oath or affirmation as a witness, or to be examined, or the misconduct of any person during a hearing; and to receive the assistance of the court in enforcing orders and process, in the manner prescribed by Section 11525 of the Government Code.

(k) To cooperate with every department, agency, or instrumentality in the state government; and to secure directly from every department, agency, or instrumentality full cooperation, access to its records, and access to any information, suggestions, estimates, data, and statistics it may have available.

(*l*) To authorize its agents and employees to absent themselves from the state where necessary for the performance of their duties.

(m) To do any and all other things necessary or convenient to enable it fully and adequately to perform its duties and to exercise the powers expressly granted it.

SEC. 5. The commission is authorized to accept for the expenses of the commission, under terms and conditions established by the commission, with the approval of the Director of Finance as provided in Section 11005 of the Government Code, gifts of property, services, funds, contributions or appropriations from private or public foundations, or public agencies.

SEC. 6. The commission shall be empowered to act and shall act until 90 days following the end of the 1970 Regular Session or such earlier time as its final report shall have been submitted to the Governor and to the Legislature, but not thereafter.

The sum of five thousand dollars ($5,000) is hereby appropriated from the Motor Vehicle Fund for the expenses of the commission.

When any such plan and agreement shall have been approved by the commissioner with such changes, if any, required by him, the same shall be approved by a vote of not less than two-thirds of those members of such organization or association voting in person or by proxy at a meeting of the members.

SEC. 5. Section 9101 is added to the Insurance Code, to read:

9101. The meeting of members at which the transaction is voted upon shall be preceded by a written or printed notice of the meeting and of the purpose to vote thereat upon the plan or agreement for reinsurance, transfer and assumption, addressed to each member of record on the date of the notice and mailed at least 30 days before the date fixed for the meeting. The presence in person or by proxy of 5 percent of the members of such organization or association entitled to vote shall constitute a quorum unless a higher percentage is required by the articles of incorporation, association, bylaws, rules or regulations or other organization or governing documents. In the absence of a quorum, the members present at the meeting in person or by proxy may adjourn the meeting to a later date and no further notice need be given of the date to which the meeting is adjourned.

SEC. 6. Section 9102 is added to the Insurance Code, to read:

9102. If the members vote to approve the plan of reinsurance, transfer and assumption, a certified copy of all proceedings relating thereto shall be filed with the commissioner. If the commissioner finds that the proceedings have been in accordance with the law and his requirements, he shall issue his certificate approving the plan and the agreement and the transaction shall become effective at that time or upon such later date as may be specified in the agreement.

SEC. 7. Section 9103 is added to the Insurance Code, to read:

9103. The board of directors or other governing body of such organization or association shall file with the Secretary of State a duplicate original of the commissioner's certificate approving the plan and agreement and thereupon such organization or association shall cease to exist except for the purpose of completing the winding up of its affairs.

The people of the State of California do enact as follows:

CHAPTER 1264

An act to add Chapter 4 (commencing with Section 30910) to Division 17 of the Streets and Highways Code, relating to the Folsom Lake Bridge Authority.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 (commencing with Section 30910) is added to Division 17 of the Streets and Highways Code, to read:

CHAPTER 4. FOLSOM LAKE BRIDGE AUTHORITY ACT

Article 1. General Provisions

30910. This chapter may be cited as the Folsom Lake Bridge Authority Act.

30911. Unless the particular provision or the context otherwise requires, the general provisions set forth in this article govern the construction of this chapter.

30912. "Authority" means the Folsom Lake Bridge Authority.

30913. "Toll bridge" means the bridge crossing the arm of Folsom Lake which extends up the North Fork of the American River in Placer and El Dorado Counties which the authority is authorized to finance, construct, operate, and maintain as a toll facility pursuant to this chapter, and includes all appurtenances and additions, alterations or improvements thereto or replacements thereof, and the approaches to each end thereof, all lands and interest therein used therefor, and buildings and improvements thereon.

30914. "Bond" means any written evidence of indebtedness which the authority may issue pursuant to this chapter in order to secure funds with which to carry out the purposes of this chapter.

30915. Nothing in this chapter prevents the state from making appropriations from time to time in aid of the construction pursuant to this chapter of the toll bridge or property, franchises, or rights appurtenant thereto, or for the purpose of making preliminary surveys, plans, and estimates of the cost thereof, and meeting other preliminary expenses as the Legislature deems proper.

Article 2. Organization of the Authority

30920. The Folsom Lake Bridge Authority is hereby created. The authority shall be governed by a board consisting of two members of the Board of Supervisors of Placer County, two members of the Board of Supervisors of El Dorado County, and one member appointed by the Governor and serving at his pleasure.

30921. All of the members of the authority shall serve thereon without compensation, but they shall receive their necessary actual traveling expenses incurred in the discharge of their duties.

30922. A majority of the members of the authority may act for the authority.

30923. The authority may employ a secretary, a treasurer, an attorney, a chief engineer, and such other persons as are necessary to enable it properly to perform the duties imposed upon it by this chapter

30924. The authority may sue and be sued in the name of the Folsom Lake Bridge Authority.

30925. The authority shall select one of its members to serve as chairman of the authority.

Article 3. General Powers and Duties of the Authority

30930. The authority may study the feasibility of, plan, design, finance, construct, operate, and maintain a bridge crossing the arm of Folsom Lake which extends up the North Fork of the American River in Placer and El Dorado Counties, together with any necessary connections with other county roads in the area.

30931. The authority shall fix the rates of toll and other charges for the toll bridge.

30932. The authority in establishing toll charges shall give consideration to the cost of operating and maintaining the toll bridge, including the cost of insurance, and to the amount required annually to meet the redemption of bonds and interest payments thereon. At all times the tolls and charges shall be fixed at rates to yield annual revenue equal to annual operating and maintenance expenses, including insurance costs, and all redemption payments and interest charges of the bonds issued for the toll bridge as they fall due.

30933. Toll charges so fixed may be changed from time to time as conditions warrant.

30934. The authority may do such acts and make such agreements not inconsistent with laws as are necessary or desirable in connection with the duties and powers conferred upon it by law regarding the construction, maintenance, operation, and insurance of the toll bridge or the safeguarding of the funds and revenues required for such purposes and the payment of the indebtedness incurred therefor.

30935. The authority through such engineers or experts as it may employ, shall design the toll bridge, and may build it or any portions of it either by its own employees or by contract with any person. The cost of the toll bridge shall be paid from the proceeds of bonds issued and sold pursuant to this chapter, or from contributions or appropriations from other sources as provided in this chapter.

30936. The authority shall keep full, complete, and separate accounts of the toll bridge and annually shall prepare balance sheets and income and profit and loss statements showing the financial condition of the toll bridge. The statements shall be open to the inspection of holders of bonds issued by the authority at all reasonable times.

30937. The authority may issue permits for the use of the toll bridge on a credit basis. The holder of such a permit shall furnish to and maintain in force with the authority a cash deposit or a corporate surety bond, in an amount equal to twice the authority's estimate of the toll charges to be incurred under such permit during one month.

30938. The authority may require the holder of such permit to increase the amount of cash bond, or to furnish an additional surety bond, or may reduce the amount of the cash bond or surety bond required, as the amount of charges incurred and regularity of payment warrant, or may revoke any permit granted for failure of the holder to comply with its terms.

30939. The authority may also require the holder of any such permit to pay a fee of not to exceed five dollars ($5) a month to cover printing and other overhead expense, the proceeds thereof to be deposited in the fund from which such expenses are paid.

30940. When necessary to facilitate movement of traffic, the authority may limit the use of the toll bridge on a credit basis to particular classes of vehicles.

30941. The authority may adopt rules and regulations not inconsistent with the Vehicle Code for the control of traffic on the toll bridge, to aid and insure the safe and orderly flow of traffic, and shall so far as practicable notify the public of such rules and regulations by signs placed along the route of the toll bridge.

30942. The California Highway Patrol shall have the authority and it shall be its duty to provide for proper and adequate policing of the toll bridge, to insure the enforcement thereon of the Vehicle Code and rules and regulations adopted by the authority pursuant to Section 30940, and to cooperate with the authority, to the end that the toll bridge be operated at all times in such a manner as to carry traffic efficiently.

All required accident and supplemental reports, and all other reports made to the California Highway Patrol by any peace officer or employee of the Department of Motor Vehicles relative to accidents and incidents occurring on property of the authority shall be immediately available for the confidential use of the authority.

Article 4. Bonds

30950. Whenever the authority determines that it is for the best interests of the public highways in the state that the toll bridge be constructed and operated by the authority, based upon preliminary estimates of the cost of construction thereof, an estimate of the amount required to be raised for that purpose by the issuance of revenue bonds, and a statement of the probable amount of money, property, materials, or labor to be contributed from other sources in aid of the construction prepared by its staff, it shall adopt a resolution declaring that public interest and necessity require the construction of the toll bridge and authorizing the issuance of revenue bonds for the purpose of obtaining funds in an amount not in excess of that estimated to be required for the construction thereof.

30951. All bonds authorized pursuant to this chapter shall be issued in the name of the authority and shall constitute obligations of the authority only. Such bonds shall be identified as toll bridge bonds and shall contain a recital on the face thereof that the payment or redemption of the bonds and the payment of the interest thereon is secured by a direct and exclusive charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the toll bridge, and that neither the payment of the principal or any part thereof or any interest thereon, constitutes a debt, liability, or obligation of the state or of Placer County or El Dorado County.

30952. The authority shall determine the form, conditions, and denominations of all bonds, the dates which the bonds to

be sold shall bear, and the interest rate thereon which shall not exceed 6 percent per annum. The rate of interest need not be uniform for all bonds of the same authorized issue. Principal and interest of the bonds shall be payable at such places as are fixed and determined by the authority. The bonds may contain provisions for registration as to principal only and as to both principal and interest. The bonds shall be issued in coupon form with interest payable at such times as are determined by the authority, and shall mature at such times and in such amounts as the authority prescribes.

30953. The authority may provide for the retirement of the bonds at any time or times prior to their maturity, in such manner and upon payment of such premiums as may be fixed and determined in the proceedings providing for the issuance of the bonds and referred to therein.

30954. All bonds shall be signed by the treasurer and countersigned by the chairman. The signatures of the treasurer and the chairman may be by facsimile, but said bonds shall be authenticated by such signatures as the bond resolution or indenture may require. All interest coupons shall bear the facsimile signature of the treasurer. In case any officer whose signature or countersignature appears on the bonds or coupons ceases to hold his office before the delivery of the bonds to the purchaser, his signature or countersignature is nevertheless valid and sufficient for all purposes the same as if he had remained in office until the delivery of the bonds.

30955. All revenue bonds authorized pursuant to this chapter may be issued and sold by the authority from time to time and in such amounts as the authority deems necessary to provide sufficient funds for the purposes for which the bonds were authorized, including the payment of interest on the bonds during the period of actual construction, and for a period of six months thereafter, and the proceeds thereof are available for those purposes.

30956. Bonds authorized pursuant to this chapter may be sold below the par or face value thereof, but the sale price shall not be less than that which will yield the purchaser 6 percent a year according to standard tables of bond values, and shall include the interest which has accrued thereon up to the date of delivery of the bonds.

30957. Successive issues of bonds within the limits of the original authorization for the issuance of bonds for the acquisition or construction of the toll bridge shall have equal preference with respect to the redemption thereof and the payment of interest thereon, but the authority may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization.

30958. All bonds issued and sold pursuant to this chapter shall be sold on sealed proposals to the highest and best bidder after such advertising for bids as the authority deems proper. The authority may reject any and all bids submitted and may thereafter sell the bonds so advertised for sale at private sale

under such terms and conditions as it deems most advantageous to its own interest, but the bonds shall not be sold at a price below that of the best bid which was rejected.

30959. Temporary or interim bonds, certificates, or receipts, signed by the treasurer, of any denomination whatever and with or without coupons attached thereto, may be issued and delivered until the definitive bonds are executed and available for delivery.

30960. The purchase price of all bonds issued pursuant to this chapter shall be paid to the treasurer for the account of the authority.

30961. The authority may include in the proceedings authorizing the issuance of bonds any provisions not inconsistent with this chapter which limit, restrict, or regulate the holding, deposit, investment, and application of money consisting of the proceeds from the sale of the bonds or the tolls and other revenues received from the operation of the toll bridge, and such provisions shall constitute a contract with the holders of the bonds and be binding upon the authority as long as the bonds are outstanding.

30962. The authority may provide in the proceedings authorizing the issuance of bonds for the setting up of one or more reserve funds out of the proceeds of the bonds or out of the tolls and other revenues not needed for the payment of interest on the bonds and the principal of the bonds as they currently mature, and for the preservation and continuance thereof in a manner to be provided therein, and may also require the immediate application of all surplus money in any such toll revenue fund to the retirement, by call or purchase, of the bonds prior to maturity in such manner and upon such terms and the payment of such premiums as the authority deems advisable.

30963. The authority may provide in the proceedings authorizing the issuance of bonds, or may otherwise agree with the purchasers of bonds, regarding the deposit of all money constituting the Acquisition and Construction Fund and the Toll Revenue Fund, and may provide for the deposit of such money at such times, with such depositaries or paying agents, and upon the furnishing of such security as may meet with the approval of the purchasers of the bonds. The depositaries and security provided for or agreed upon, however, shall be qualified and eligible in accordance with law.

30964. The authority may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter, and the purchase and carrying of such insurance shall thereupon be obligatory upon the authority and be paid for out of the Toll Revenue Fund as may be specified in the proceedings.

30965. Whenever any bonds are to be issued pursuant to this chapter, the authority, from time to time, upon such terms and conditions in all respects as it approves and con-

sistently with this chapter, may enter into indentures or agreements containing any or all of the following provisions:

(a) Providing for the amount, form, maturities, registration, and transfer and interchange of the bonds and coupons and the terms and conditions upon which they shall be issued, sold, paid, retired, funded, and refunded.

(b) Providing for a sinking fund for the bonds and designating a trustee or trustees, which shall be a bank or trust company or banks or trust companies duly qualified to do business in this state, to receive and disburse the revenues of the toll bridge works or improvement.

(c) Providing that as long as any of such bonds are outstanding there shall be raised in each year by tolls not less than the minimum amounts required for interest, sinking fund, redemption, and reserve requirements for the bonds, in addition to the amount needed for current operating and maintenance expenses, including insurance costs, required to be paid from such sources.

(d) Such other provisions for the protection of the holders of the bonds as the authority approves including, without limiting (a), (b), or (c), provisions that in the event of refusal or failure to comply with any provision of this chapter or any other applicable law, or of any agreement made with the holders of the bonds or of any issue thereof, the holders of a stated percentage in aggregate principal amount of the bonds, or of such issue thereof as the case may be, then outstanding may, in accordance with such appropriate procedure as is provided in the agreement or indenture, appoint a trustee to represent all the holders of the bonds, or all the holders of the issue thereof as the case may be, in the matter of exercising and prosecuting on their behalf such rights and remedies as are available to them under the law. The authority shall in its absolute discretion fix the terms and conditions upon which the trustee or trustees shall receive, hold and disburse the revenues and may prescribe the powers and duties of the trustee or trustees.

30966. All benefits conferred or obligations imposed by this chapter or by any other law with respect to making provision for the payment, whether from tolls or other revenues received from the use and operation of the toll bridge or from other sources, of expenses in connection with the operation, maintenance, and insurance of, and the construction of approaches to, the toll bridge, shall, notwithstanding the retirement or discharge of any or all of the bonds issued by the authority for the purpose of constructing the toll bridge, inure to and continue for the benefit of any other bonds issued pursuant to this chapter as additional to, or funding, or refunding the bonds originally issued.

30967. The authority may contract loans and borrow money through the sale of bonds of the same character as those authorized pursuant to this chapter, from the United States or any of its departments, agencies, or instrumentalities upon

such conditions and terms as may be agreed to. Such bonds shall be subject to all the provisions of this chapter except the requirement that bonds be first offered at public sale pursuant to advertisement.

30968. If a bond issue for the acquisition or construction of the toll bridge is authorized and sold in whole or in part and the authority deems it advisable and advantageous to enlarge or extend the toll bridge or to change the structure or design thereof in order to afford new or greater facilities for any type or class of traffic, the authority may issue additional bonds for the purpose of enlarging or extending the toll bridge or changing the structure or design thereof in order to afford such new or greater facilities. Such additional bonds shall be issued only if the surrender and cancellation of all outstanding bonds issued for the acquisition or construction of the toll bridge as originally designed can be assured or obtained by call or by consent of the holders thereof. Such additional bonds shall not constitute a debt or obligation of the state or of Placer County or El Dorado County but shall be bonds of the authority of the same character and payable from the same funds as other bonds authorized pursuant to this chapter. The pledge of the tolls and other revenues to be received from the operation of the toll bridge to the payment of outstanding bonds shall not be lessened, diminished, or affected in any way by the issuance of such additional bonds.

30969. If the outstanding bonds issued for the acquisition or construction of the toll bridge as originally designed are, at the time of issuance of the additional bonds, by their terms subject to immediate retirement before maturity at the option of the authority, or if the holders consent to the retirement of such bonds, the authority may include in the issue of bonds to be sold for the purpose of enlarging or extending the toll bridge or changing the design thereof, an amount of bonds sufficient to produce funds with which to retire the outstanding bonds according to their terms. Before any such additional bonds are delivered the authority shall first duly call the outstanding bonds for redemption in accordance with their terms and conditions or obtain the consent of the holders thereof to their retirement.

30970. Out of the proceeds derived from the sale of any such additional bonds there shall be set aside an amount of money sufficient to retire such outstanding bonds as may be thereafter presented for payment. Bonds of the new authorized issue may be delivered in part in exchange for a like principal amount of outstanding bonds of the original issue if the holders of the outstanding bonds to be exchanged consent thereto.

30971. All provisions of this chapter apply with like force and effect to the issuance of any bonds of the new authorized issue, and the holders thereof are subrogated to all the rights and powers of the holders of the bonds which are surrendered in exchange therefor, except as such rights and powers are

modified by the express terms of the bonds of the new authorized issue or the proceedings authorizing their issuance.

30972. Whenever bonds of any kind have been issued and are outstanding pursuant to this chapter, the authority may from time to time or at one time issue and sell or exchange funding or refunding bonds for the purpose of retiring, paying, funding, or refunding either all or such part of the outstanding bonds or of one or more issues or series thereof, as it deems advisable. Such funding or refunding bonds shall be issued and delivered only when the issue or series of bonds to be funded or refunded have matured, are about to mature, are subject to retirement before maturity, or if the outstanding bonds are not subject to retirement, the retirement thereof has been assured or obtained by consent of the holders thereof. Funding or refunding bonds may be delivered wholly or in part in exchange for outstanding bonds to be funded or refunded thereby, if the holders of the outstanding bonds to be exchanged consent thereto.

30973. Funding or refunding bonds shall not constitute a debt or obligation of the state or of Placer County or El Dorado County, but shall be bonds of the authority of the same character and payable from the same funds as other bonds authorized pursuant to this chapter. Any and all reserve or other funds applicable to the payment of the bonds funded or refunded, may, if so directed by the authority, be transferred to any reserve or other funds provided with respect to the funding or refunding bonds. The pledge of the tolls and other revenues to be received from the operation of the toll bridge to the payment of outstanding bonds shall not be lessened, diminished, or affected in any way by the issuance of such funding or refunding bonds.

30974. Except as otherwise provided in this article, and except as modified by the express terms of the funding or refunding bonds or the proceedings authorizing their issuance, all the provisions of this chapter apply to such funding or refunding bonds and to the issuance and sale or exchange thereof, and the holders thereof shall be subrogated to all the rights and powers of the holders of the bonds funded or refunded thereby or surrendered in exchange therefor.

30975. Any funding or refunding bonds may be issued in a principal amount sufficient to provide funds for:

(a) The payment of the bonds to be funded or refunded thereby.

(b) All expenses incidental to the calling, retiring, or payment of the outstanding bonds and the issuance of the funding or refunding bonds, including the difference in amount between the par value of the funding or refunding bonds and any amount less than par for which they may be sold.

(c) Any amount necessary to be made available for the payment of interest upon the funding or refunding bonds from the date of their sale to the date of maturity or payment of the bonds to be funded or refunded out of the proceeds of the

sale, or the date upon which the bonds to be funded or refunded will be paid pursuant to call thereof or agreement with the holders thereof.

(d) The premium, if any, necessary to be paid in order to call or retire the outstanding bonds.

30976. All bonds issued pursuant to this chapter are negotiable instruments under the law merchant.

30977. All bonds issued pursuant to this chapter and the income therefrom are at all times exempt from taxation, except for transfer, inheritance, and estate taxes.

30978. Bonds issued pursuant to this chapter shall not constitute or be a debt, liability, or obligation of the state or Placer County or El Dorado County. The payment of both principal and interest of all bonds shall be secured only by the tolls or other revenues collected from the toll bridge, other revenues and interest thereon, and sinking funds created therefrom received by the authority, and shall be paid from such tolls or revenues or from such other contributions or appropriations as may be made available pursuant to this chapter.

30979. The bond redemption and interest payments constitute a first direct and exclusive charge and lien on all tolls and other revenues, and interest thereon, and sinking funds created therefrom received from the use and operation of the toll bridge. Such tolls and revenues together with the interest earned thereon constitute a trust fund for the security and payment of the bonds and shall not be used or pledged for any other purpose as long as any such bonds are outstanding and unpaid.

30980. While any bonds issued by the authority remain outstanding, the powers, duties, or existence of the authority shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of the bonds.

30981. The holder of any bond may by mandamus or other appropriate proceeding compel the performance of any of the duties imposed upon the authority or its officers, agents, and employees in connection with the construction, maintenance, operation, and insurance of the toll bridge, in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of the toll bridge, and in connection with the deposit, investment, and disbursement of the proceeds received from the sale of bonds. The enumeration of rights and remedies in this chapter does not exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.

30982. The Superintendent of Banks may investigate and ascertain the status or sufficiency as investments for savings banks in this state of any such bonds. If upon investigation it is determined in his opinion that such bonds constitute a proper investment for savings banks, he shall so certify. He may revoke any such certificate issued by him at any time in his discretion.

30983. All bonds issued by the authority pursuant to this chapter, and which have been first certified by the Superintendent of Banks, are legal investments for all trust funds, for the funds of all insurance companies, commercial and savings banks, and trust companies, and for state school funds.

30984. Any money or funds which may by law be invested in bonds of the state, cities, counties, or school districts in the state may be invested in the bonds issued by the authority.

30985. Whenever any bonds of the state, or of any city, county, or school district in the state, may by law be used as security for the performance of any act or the deposit of any public money the bonds issued by the authority may be so used.

Article 5. Custody and Use of Money

30990. The proceeds from the sale of all bonds authorized pursuant to this chapter shall be paid to the treasurer for the credit of the authority and forthwith deposited as demand deposits in such depositary or depositaries as are authorized by law to receive deposits of state funds, to the credit of a fund to be designated as the acquisition and construction fund of the toll bridge. The fund shall at all times be kept segregated and set apart from all other funds.

30991. The proceeds from the sale of the bonds shall be paid out or disbursed solely for the acquisition or construction of the toll bridge, the aquisition of the necessary lands and easements therefor, and the payment of interest on the bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor arises. The authority may agree with the purchaser of the bonds upon any conditions or limitations restricting the disbursement of such funds which are deemed advisable for the purpose of assuring the proper application of the funds.

30992. All money in the acquisition and construction fund not required to meet current acquisition or construction costs of the toll bridge, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they are required to be applied or to which they are pledged, shall be invested in bonds and obligations eligible for investment of surplus state money. The authority may provide in the proceedings authorizing the issuance of the bonds that the investment of such money shall be made only in particular bonds and obligations within the classifications eligible for such investment, and such provisions shall be binding upon the authority and all officials having anything to do with the investment.

30993. Any surplus which exists in the acquisition and construction fund shall be applied to the retirement, by purchase or call, of bonds issued for the acquisition or construction of the toll bridge. If such bonds cannot be purchased at a price satisfactory to the authority and are not by their terms callable prior to maturity, the surplus shall be paid into the

fund applicable to the payment of principal and interest of such bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying the surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called, and such limitations and conditions shall be followed and observed in the application and use of the surplus. All bonds retired by purchase or call shall be immediately canceled.

30994. All tolls or other revenues received from the operation of the toll bridge shall be paid over by the department at least monthly to the treasurer who shall deposit them forthwith in such depositary or depositaries as are authorized by law to receive deposits of state funds, to the credit of a special fund to be designated as the toll revenue fund of the toll bridge, which fund shall at all times be kept segregated and set apart from all other funds.

30995. From the money deposited in the acquisition and construction fund, the treasurer shall transfer to the place or places of payment named in the bonds such sums as are required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of the toll bridge during the period of actual construction and during the period of six months immediately thereafter The treasurer shall thereafter transfer from the toll revenue fund to the place or places of payment named in the bonds such sums as are required to pay the interest on the bonds and to redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued and sold for the construction or acquisition of the toll bridge. All funds transferred for the payment of principal or interest on bonds issued for the toll bridge shall be segregated and applied solely for the payment of such principal and interest.

30996. The money remaining in the toll revenue fund, after providing the amount required for interest and redemption of bonds, shall be held and applied as provided in the proceedings authorizing the issuance of the bonds. If the proceedings authorizing the issuance of the bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the acquisition, construction, operation, and maintenance of the toll bridge as the authority determines.

30997. Money required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition or construction of the toll bridge, or to meet the costs of operating, maintaining, and repairing it, shall be paid from the proper fund therefor upon demand of the authority.

30998. All interest received or earned on money deposited in each and every fund provided for in this article shall be credited to and become a part of the particular fund upon which the interest accrues.

30999. Notwithstanding anything contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of the toll bridge may be used to defray any expenses incurred by the authority in connection with and incidental to the issuance and sale of bonds for the acquisition or construction of the toll bridge, including expenses for the preparation of surveys and estimates and the making of inspections and examinations as may be required by the purchasers of the bonds, except that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of the bond proceeds and toll or other revenues for the purposes specified in this section.

Article 6. Acquisition and Disposition of Property

31000. The authority may acquire by gift, purchase, or eminent domain proceedings any franchise, rights, privileges, easements, or other property, either real or personal, necessary therefor, when the construction of the toll bridge is authorized by the authority. This article shall not apply to any portion of the state highway system.

31001. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, private, public, or municipal corporation, county, city, district, or any political subdivision of the state, may be condemned and taken, and the acquisition and use thereof as provided in this chapter for the same public use or purpose to which such property has been appropriated or dedicated or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated.

It shall not be necessary in any eminent domain proceedings pursuant to this section to plead or prove any acts or proceedings preliminary or prior to the adoption of the resolution provided for in this article describing the property sought to be taken and directing such proceedings.

31002. Pursuant to the Constitution and laws relating to eminent domain proceedings, the authority may condemn and take, in fee or otherwise, as the authority determines, in the name of the authority, any real estate, personal property, franchises, rights, privileges, or easements, whether publicly or privately owned and whether or not already devoted to a public use or purpose, deemed necessary for the toll bridge.

31003. The authority shall commence any such proceedings in eminent domain whenever it first passes a resolution declaring that public interest and necessity require the construction of the toll bridge and that the acquisition of any particular

real estate, personal property, franchises, rights, privileges, or easements is necessary therefor. Such resolution shall be conclusive evidence:

(a) Of the public necessity of such construction.

(b) That such property and franchises, rights, privileges, or easements are, and that the acquisition of the fee or other interest therein is, necessary therefor.

(c) That such proposed construction is planned or located in a manner which will be most compatible with the greatest public good and the least private injury.

31004. The authority may condemn and take, in fee or otherwise as the authority determines, in the name of the authority, pursuant to or in conjunction with any other proceedings at any time brought pursuant to this article, any real property considered necessary for the purpose of exchanging it for other real property to be used for any of the purposes of this chapter.

Real property may be acquired for such purposes only when the owner of the property needed for a purpose provided in this chapter has agreed in writing to such exchange, and when, in the opinion of the authority, an economy in the acquisition of the necessary property can be effected thereby. The determination of the authority is conclusive evidence of all matters set forth in this section.

31005. The right-of-way is given, dedicated, and set apart upon which to locate, construct, and maintain the toll bridge through, over, under, on, or across any property of the state now or hereafter owned, opened, or dedicated to or for public use and howsoever acquired, and through, over, under, on, or across the streets, alleys, lanes, and roads now or hereafter opened or dedicated to or for public use and howsoever acquired which are now or may be within any county, city, public or municipal corporation, district, or political subdivision of the state.

31006. If any property belonging to any county, city, public or municipal corporation, district, or political subdivision of the state, is taken for the acquisition or construction of the toll bridge, or if any such property is injured or damaged by such acquisition or construction, and the payment of compensation therefor is necessary, proper and necessary compensation therefor as is agreed upon may be paid by the authority to the particular county, city, public or municipal corporation, district, or political subdivision of the state owning or in charge of such property, or the authority may direct that eminent domain proceedings be brought pursuant to this article for the determination of such compensation, including the determination of the interest of any such county, city, public or municipal corporation, district, or political subdivision in such property and the necessity for the payment of such compensation.

Whenever the authority requires a public utility to remove and relocate any utility facility, the authority shall reimburse

the owner of the public utility facility for the expense of the removal and relocation.

31007. In all cases where, by statute or otherwise, any right is reserved or granted to the state or any state agency to construct or maintain highways, bridges, or approaches thereto, or other highway crossings, over, through, under, on, or across any public or private property, the authority is entitled to the benefit of such reservation or grant.

31008. Whenever any property acquired for any of the purposes of this chapter, whether by agreement, grant, or eminent domain, either in fee or in any lesser estate or interest, is no longer necessary for use in connection with any improvement authorized to be constructed pursuant to this chapter, or whenever a lesser interest than is owned therein is sufficient for the construction, maintenance, and operation of any improvement, or whenever it is for any other reason in the public interest so to do, the property, any part thereof, or any interest therein may be leased, sold, exchanged, or otherwise disposed of or dealt with by the authority in the manner, upon such terms, and subject to such reservations as it deems necessary or desirable.

31009. Whenever, either before or after the construction or reconstruction of streets, sidewalks, or other like facilities upon any property or interest in property acquired pursuant to this chapter, it appears desirable to dedicate the property to public use for such purpose, the authority may dedicate or transfer the property to any county, city, or other public or municipal corporation within which it is located, subject, however, to any rights or interests necessary for the proper construction, maintenance, and operation of the toll bridge which extends through, over, under, on, or across the property.

31010. Any money received for any such property shall be received into the funds for the toll bridge for which the property was originally acquired.

Article 7. Insurance of Property

31020. When the toll bridge is being built by the authority, it may carry or cause to be carried such an amount of insurance or indemnity bond as protection against loss or damage as it deems proper.

31021. The authority may carry insurance in such amount as it deems proper to cover any accident or destruction in part or in whole to the toll bridge until all bonds sold for the acquisition or construction of such toll bridge and interest accrued thereon have been fully redeemed and paid.

31022. All money collected on any indemnity bond or insurance policy as the result of any damage or injury to the toll bridge shall be used for the purpose of repairing or rebuilding the toll bridge, as long as there are revenue bonds against such structure outstanding and unredeemed.

31023. The authority may also carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from the toll bridge by reason of any interruption in the use of the toll bridge from any cause whatever. The proceeds of the insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the toll bridge so insured are required to be paid and shall be applied to the same purposes and in the same manner as other money in the fund. The insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of the toll bridge during any period of time determined by the authority and fixed in its discretion, and may be paid for out of the toll revenue fund as specified in the proceedings.

Article 8. Local Cooperation

31030. Any city, county, district, or political subdivision of the state upon the request of the authority may advance or contribute money, rights-of-way, labor, materials, and other property toward the expense of building, acquiring, and maintaining the toll bridge, and for preliminary surveys and the preparation of plans and estimates of cost thereof and other preliminary expenses. Appropriations for such purposes may be made from any funds available, including highway funds received from the state.

31031. Any city, county, district, or political subdivision of the state may issue general obligation bonds for any of the purposes enumerated in this article. All proceedings for the authorization, issue, and sale of such bonds shall be had under the law governing the issue and sale of bonds for public improvements by the particular political subdivision or public corporation.

31032. Money or property advanced or contributed pursuant to this article may be immediately transferred or delivered to the authority to be used for the purpose for which such advance or contribution was made.

31033. The authority may enter into a binding agreement with any city, county, district, or political subdivision of the state to repay any money or the value of any rights-of-way, labor, materials, or other property advanced or contributed toward the expense of acquiring or constructing the toll road and bridge, but no repayment therefor shall be made until all obligations issued by the authority for the construction of such toll bridge have been fully redeemed and paid, and then only out of the tolls and revenues received from the operation of the toll bridge.

31034. The collection of tolls shall be continued on the toll road and bridge until all bonds issued pursuant to this chapter for its construction are fully redeemed and paid.

31035. After all bonds issued pursuant to this chapter for the construction of the toll bridge have been fully redeemed

and paid, the authority may continue to collect tolls and other revenues for the use of such toll road and bridge for the purpose of reimbursing the state for any expenditures which have been made by it in connection with the toll bridge and for the purpose of repayment to any city, county, district, or political subdivision of the state of any amount the authority has agreed to repay for money, rights-of-way, labor, materials, or other property advanced or contributed for the acquisition or construction of the toll bridge.

Article 9. Operation and Maintenance After Retirement of Bonds

31040. After all bonds issued pursuant to this chapter for the construction of the toll bridge have been fully redeemed and paid, the authority shall either:

(a) Transfer the toll bridge to the Counties of Placer and El Dorado for operation and maintenance as a county road by the two counties free of tolls under an agreement executed pursuant to Article 1 (commencing with Section 6500) of Chapter 5, Division 7, Title 1 of the Government Code, which agreement shall provide, among other things, that the toll bridge shall either be operated and maintained free of tolls or that the rates of tolls shall be adjusted so as to provide a fund of not to exceed the amount necessary for the proper maintenance, repair, and operation of the toll road and bridge under economical management; or

(b) Operate and maintain the toll bridge itself either free of tolls or at rates of toll adjusted so as to provide a fund of not to exceed the amount necessary for the proper maintenance, repair, and operation of the toll bridge under economical management.

31041. If the toll bridge is transferred to the Counties of Placer and El Dorado pursuant to subdivision (a) of Section 31040, the existence of the authority shall thereupon automatically terminate, and all property, funds, and records relating to the toll bridge shall be transferred to the counties, or to any entity designated in the agreement between the counties, as authorized by Section 6506 of the Government Code, and thereafter the counties, or such entity, shall be responsible for the maintenance, repair, and operation of the toll bridge, and for the fulfillment of any outstanding contracts executed by the authority and the payment of any outstanding debts or liabilities incurred by the authority.

CHAPTER 1265

An act to amend Section 73 of the Streets and Highways Code, relating to state highways.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 73 of the Streets and Highways Code is amended to read:

73. The commission shall relinquish to any county or city any portion of any state highway within such county or city which has been deleted from the state highway system by legislative enactment, and such relinquishment shall become effective upon the first day of the next calendar or fiscal year, whichever first occurs after the effective date of such legislative enactment. It may likewise relinquish any portion of any state highway which has been superseded by relocation. Whenever the department and the county or city concerned have entered into an agreement providing therefor, or the legislative body of such county or city has adopted a resolution consenting thereto, the commission may relinquish, to any such county or city, any frontage or service road or outer highway, within the territorial limits of such county or city, which has a right-of-way of at least forty (40) feet in width and which has been constructed as a part of a state highway or freeway project, but does not constitute a part of the main traveled roadway thereof.

Relinquishment shall be by resolution. A certified copy of such resolution shall be filed with the board of supervisors or the city clerk, as the case may be; a certified copy of such resolution shall also be recorded in the office of the recorder of the county where such land is located, and upon such recordation, all right, title and interest of the state in and to such portion of any state highway shall vest in the county or city, as the case may be, and such highway or portion thereof shall thereupon constitute a county road or city street, as the case may be.

The vesting of all right, title and interest of the state in and to such portions of any state highways heretofore relinquished by the commission, in the county or city to which it was relinquished is hereby confirmed

Prior to relinquishing any portion of a state highway to a county or a city, except where required by legislative enactment, the department shall give 90 days' notice in writing of intention to relinquish to the board of supervisors, or the city council, as the case may be. Where the resolution of relinquishment contains a recital as to the giving of said notice, adoption of the resolution of relinquishment shall be conclusive evidence that said notice has been given.

The commission shall not relinquish to any county or city any portion of any state highway which has been superseded by relocation until the department has placed the highway, as defined in Section 23 of this code, in a state of good repair. This requirement shall not obligate the department for widening, new construction, or major reconstruction, except as the commission may direct.

Within the 90-day period the board of supervisors or the city council may protest in writing to the commission stating the reasons therefor, including, but not limited to, objections that the highway is not in a state of good repair or that the highway is not needed for public use and should be abandoned by the commission. In the event that the commission does not comply with the requests of the protesting body it may proceed with the relinquishment only after a public hearing given to the protesting body on 10 days written notice.

CHAPTER 1266

An act to amend Sections 21252.45, 21293.5, 21338, and 21364.7 of the Government Code, relating to the State Employees' Retirement System.

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 21252.45 of the Government Code is amended to read:

21252.45. The percentage of final compensation, for purposes of calculating the current service pension under Section 21252.4 for a local safety member retiring after the effective date of his coverage under the federal system shall be reduced by one-third as applied to that part of the member's final compensation which does not exceed four hundred dollars ($400) per month.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, or in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

This section and Section 21252.4 shall supersede Section 21252.5 with respect to all service to a contracting agency electing to be subject hereto; provided, however, that members in employment of such contracting agency on the effective date of the contract amendment subjecting the agency and its employees to this Section 21252.45 may elect, in accordance

with board rules, to continue subject to Section 21252.5, and the contracting agency shall be subject to Section 21252.5 rather than this section with respect to members who so elect.

SEC. 2. Section 21293.5 of the Government Code is amended to read:

21293.5. The disability retirement allowance of a member who retires for industrial disability and who is credited with service as a member of the system, compensation for which was also subject to contribution under the federal system, shall be reduced by the amount of any retirement or disability benefit he is entitled to receive under the federal system. The reduction shall apply only during such time as he is entitled to receive the benefit under the federal system and shall not exceed the amount of the allowance derived from contributions of the employer. The amount of the reduction shall not be adjusted because of changes in the amount of the benefit under the federal system or in the amount of the allowance under this system derived from contributions of the employer occurring after the effective date of retirement for disability under this system.

Notwithstanding the amendment to this section at the 1963 Regular Session of the Legislature, the disability retirement allowance of a member retired for industrial disability from employment held on October 1, 1963, and continuously thereafter to the date of retirement and in which his compensation was on that date subject to contribution under the federal system shall not be less than it would have been had this section not been so amended.

SEC. 3. Section 21338 of the Government Code is amended to read:

21338. A member retiring for service who is credited with state service, the compensation for which was subject to contribution pursuant to Section 218 of the Social Security Act, and who is fully insured under the federal system but is not entitled to receive, on his application therefor, a retirement or disability benefit under such system may elect to have the actuarial equivalent of his unmodified service retirement allowance paid in two parts:

(a) A temporary annuity which shall not exceed the primary social security benefit which it is anticipated the member will be entitled to receive at age 62 or 65, whichever shall be designated by the member, plus

(b) A life income consisting of his service retirement annuity plus such pension as may be provided by the actuarial value of his current and prior service pensions remaining after providing the temporary annuity in (a).

The temporary annuity under (a) shall not be subject to further optional settlement under this article and shall be payable monthly until the retired member attains or would attain the age designated by the member under subdivision (a). Should his death occur prior to such age, the commuted

value of any remaining installments shall be paid to his designated beneficiary in the manner provided in Section 21332.5 for payment of death benefits under optional settlement one.

This section shall not apply to an allowance based on service with respect to which a member is subject to Section 21252.5.

SEC. 4. Section 21364.7 of the Government Code is amended to read:

21364.7. The special death benefit or the continued allowance under Sections 21263, 21263.1, or 21264 payable if the deceased was a member who was credited with service, compensation for which was subject to contribution under the federal system, shall be reduced during such time as his survivor or survivors are entitled to receive a survivor benefit under the federal system.

The reduction shall be in the amount of the benefit to which there is entitlement under the federal system; provided, however, that it shall not exceed the amount of the benefit derived from contributions of the employer. The amount of the reduction shall not be adjusted because of changes in the amount of the benefit under the federal system or in the amount of benefit or allowance under this system derived from contributions of the employer occurring after the death of the member or retired person.

Notwithstanding the amendment to this section and the repeal of Section 21364.6 at the 1963 Regular Session of the Legislature, the special death benefit or continued allowance payable on death of a member in employment, or retired from employment, whichever the case may be, which the member held on October 1, 1963, and continuously thereafter to the date of death or retirement, and in which his compensation was on that date subject to contribution under the federal system, shall not be less than it would have been had this section not been so amended or Section 21364.6 repealed.

CHAPTER 1267

[Approved by Governor August 17, 1967. Filed with Secretary of State August 17, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 705 of the Welfare and Institutions Code is amended to read:

705. Whenever the court, before or during the hearing on the petition, is of the opinion that the minor is mentally ill or if the court is in doubt concerning the mental health of any such person, the court may order that such person be held tem-

porarily in the psychopathic ward of the county hospital or hospital whose services have been approved and/or contracted for by the department of health of the county, for observation and recommendation concerning the future care, supervision, and treatment of such person.

SEC. 2. Section 11519 of the Vehicle Code is amended to read:

11519. No vehicle which has been reported dismantled may be subsequently registered until it has been inspected by the department and found to be in a safe mechanical condition and equipped with safety glazing material.

SEC. 3. Section 26701 of the Vehicle Code is amended to read:

26701. (a) No person shall sell, offer for sale, or operate any motor vehicle, except a motorcycle, manufactured after January 1, 1936, unless it is equipped with safety glazing material of a type approved by the department, wherever glazing materials are used in partitions, doors, windows, windshields, or wind deflectors.

(b) No person shall sell or offer for sale any camper manufactured after January 1, 1968, nor shall any person operate a motor vehicle registered in this state which is equipped with such a camper, unless the camper is equipped with safety glazing material of a type approved by the department wherever glazing materials are used in outside windows and doors.

(c) No person shall sell, offer for sale or operate any motor vehicle, equipped with red or amber glazing material in any partitions, windows, windshields, or wind deflectors.

SEC. 4. Section 26702 of the Vehicle Code is repealed.

SEC. 6. Section 26704 of the Vehicle Code is amended to read:

26704. The department shall establish specifications or requirements for approved safety glazing material which shall not be lower in standard than those specifications or requirements for safety glazing material established by the United States of America Standards Institute Safety Code Z26.1-1950, and shall maintain a list of approved safety glazing material.

SEC. 7. Section 31404 of the Vehicle Code is amended to read:

31404. All broken glass in windows or elsewhere on a vehicle subject to the provisions of Section 31401 shall be removed. Replacement shall be made with safety glazing material as defined in Section 535.

CHAPTER 1269

An act to amend Section 25436 of, and to add Section 1828.5 to, the Education Code, relating to junior college districts, and declaring the urgency thereof to take effect immediately.

[Approved by Governor August 18, 1967. Filed with Secretary of State August 18, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 1828.5 is added to the Education Code, to read:

1828.5. When a junior college district is formed to include territory in four or more counties, and the new district thereby acquires property of a former junior college district which ceases to exist by virtue of its inclusion in the new district, no tax levy shall be made for purposes of Section 1828 against the assessed valuation within the territory of the former junior college district, for the redemption of bond principal or payment of interest on indebtedness which was originally a liability against territory other than that of the former junior college district until present or future bonds equal to the appraised value of the property acquired have been redeemed through the payment of principal and interest from revenue derived from a tax levy against the assessed valuation of all of the territory of the new district except the territory of the

former junior college district from which the property was acquired.

SEC. 2. Section 25436 of the Education Code is amended to read:

25436. A junior college district may include all or part of the territory of one high school or unified district or two or more high school or unified districts and may, with the approval of the State Board of Education, include noncontiguous territory; provided, however, that the terms of this section shall not be applicable to any districting proposals initiated prior to March 1, 1967. A districting proposal shall be deemed to have been initiated when the board of trustees of a junior college district and the board of trustees of the district seeking annexation have adopted resolutions ratifying the terms of the annexation agreement.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Several school districts are presently initiating proceedings for annexation of noncontiguous areas. Immediate enactment of this measure will permit a state level review of the merits of such proposals.

Further, immediate enactment of this measure is necessary to enable school districts to prepare their 1967–1968 budgets and determine the school district tax rate.

CHAPTER 1270

An act to amend Sections 645 and 646 of the Probate Code, relating to administration of estates.

[Approved by Governor August 18, 1967. Filed with Secretary of State August 18, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 645 of the Probate Code is amended to read:

645. If, upon the hearing of any petition provided for by this article, the court finds that the net value of the estate over and above all liens and encumbrances at the date of the death of the decedent and over and above the value of any homestead interest set apart out of decedent's estate under Section 660 or Section 661 of this code, does not exceed the sum of five thousand dollars ($5,000), as of the date of such death, and that the expenses of the last illness, funeral charges and expenses of administration have been paid, it shall, by decree for that purpose, assign to the surviving spouse of the decedent, if there be a surviving spouse, provided said surviving spouse shall not

have theretofore remarried, or, if there be no surviving spouse, then to such child or children of the decedent as may then be minors, if any, the whole of the estate, subject to whatever mortgages, liens or encumbrances there may be upon said estate at the time of the death of the decedent. The title thereto shall vest absolutely in such surviving spouse, or if there be no such surviving spouse, the minor child or children subject to whatever mortgages, liens or encumbrances there may be upon said estate at the time of the death of the decedent, and there must be no further proceedings in the administration, unless further estate be discovered. But no surviving spouse or minor child shall be entitled to such an assignment who has other estate, including the total value of any property held by such surviving spouse or minor child in joint tenancy with the decedent and the value of any homestead interest set apart to such person out of decedent's estate under Section 660 or Section 661 of this code, the net value of which, over and above all liens and encumbrances, exceeds the amount of the homestead exemption to a head of a family, as provided in Title 5 (commencing with Section 1237) of Part 4 of Division 2 of the Civil Code.

SEC. 2. Section 646 of the Probate Code is amended to read:

646. If the court finds that the net value of the estate exceeds five thousand dollars ($5,000), or that the surviving spouse or minor child has other estate exceeding in value, the amount of the homestead exemption to a head of a family, as provided in Title 5 (commencing with Section 1237) of Part 4 of Division 2 of the Civil Code, or that there is neither a surviving spouse nor a minor child, it shall act upon the petition for probate or for letters of administration in the same manner as though no petition to set aside the estate had been included, and the estate shall then be administered in the usual manner.

CHAPTER 1271

The probationer shall be informed of this right and privilege in his probation papers. The probationer may make such application and change of plea in person or by attorney, or by the probation officer authorized in writing; provided, that in any subsequent prosecution of such defendant for any other offense, such prior conviction may be pleaded and proved and shall have the same effect as if probation had not been granted or the accusation or information dismissed.

Dismissal of an accusation or information pursuant to this section does not permit a person to own, possess or have in his custody or control any firearm capable of being concealed upon the person or prevent his conviction under Section 12021.

SEC. 2. Section 1203.4a of the Penal Code is amended to read:

1203.4a. (a) Every defendant convicted of a misdemeanor and not granted probation shall, at any time after the lapse of one year from the date of pronouncement of judgment, if he has fully complied with and performed the sentence of the court, is not then serving a sentence for any offense and is not under charge of commission of any crime and has, since such pronouncement of judgment, lived an honest and upright life and has conformed to and obeyed the laws of the land, be permitted by the court to withdraw his plea of guilty or nolo contendere and enter a plea of not guilty; or if he has been convicted after a plea of not guilty, the court shall set aside the verdict of guilty; and in either case the court shall thereupon dismiss the accusatory pleading against such defendant, who shall thereafter be released from all penalties and disabilities resulting from the offense of which he has been convicted. The defendant shall be informed of the provisions of this section, either orally or in writing, at the time he is sentenced. The defendant may make such application and change of plea in person or by attorney, or by the probation officer authorized in writing; provided, that in any subsequent prosecution of such defendant for any other offense, such prior conviction may be pleaded and proved and shall have the same effect as if relief had not been granted pursuant to this section.

This subdivision applies to convictions which occurred before as well as those occurring after, the effective date of this section.

If the licensed premises are to be located within a city, the hearing shall be held within such city. If the licensed premises are to be located within unincorporated territory of a county, the hearing shall be held within such county. The proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

(3) A profit and loss statement as of the end of the most recently completed fiscal year.

These financial statements shall be prepared in accordance with generally accepted accounting principles and shall be certified by an independent public accountant approved by the commissioner, or an independent certified public accountant,

which certification shall contain a statement that the applicant maintains as a liability on its accounts an adequate reserve for stamp redemption, determined on the basis of a reasonable percentage of stamps sold less the accumulative amount of redemptions.

The bond required by this section or the securities posted in lieu of such bond as provided in Section 17765.1 shall be for the benefit of rightful holders of trading stamps who are residents of California.

SEC. 9. Section 17765.8 of the Business and Professions Code is amended to read:

17765.8. (a) The commissioner shall issue a license to any applicant unless upon investigation and after appropriate hearing, he finds any of the following:

The court shall have authority to appoint the commissioner or a receiver upon such petition upon a showing that such trading stamp company is insolvent or is in imminent danger of insolvency.

The suspension, revocation, expiration, or surrender of the license shall not affect the right of the commissioner to bring an action, or grant the relief authorized, pursuant to this section

When the commissioner or a receiver takes possession of the property and business of any company pursuant to this section for the purpose of liquidation or conservation, he may liquidate or conserve the company pursuant to the provisions of Article 6.5 (commencing with Section 10239) of Chapter 3, Part 1, Division 4. In such a liquidation or conservation, the commissioner or the receiver shall have the same authority with reference to trading stamp companies as is vested in the Real Estate Commissioner with reference to Article 6.5 (commencing with Section 10239) of Chapter 3, Part 1, Division 4, may deposit moneys coming into his hands in the course of liquidation in one or more state or national banks, and shall have the authority to make an equitable distribution of bond proceeds as provided in this chapter to the rightful holders of trading stamps.

17766.3. The costs incurred by the commissioner or a receiver in performing the duties set forth in Sections 17766 and 17766.1 shall constitute a proper charge against the trading stamp company, or, in the event of the trading stamp company's failure to pay, against the bond filed by that company or if no bond is filed against the money or securities filed with the State Treasurer. The costs shall constitute a prior claim against such company, the bond, or the money or securities filed with the State Treasurer, except that in no event shall the

surety be liable for such charge and all other valid claims as an aggregate in excess of the principal sum of the bond.

SEC. 13. Section 17767 of the Business and Professions Code is repealed.

SEC. 14. Section 17769 of the Business and Professions Code is amended to read:

17769. The commissioner may, after a hearing, suspend or revoke any license, if he finds that the licensee, or any of its partners, officers, or directors:

(a) Has willfully, after a request from the commissioner, failed to file financial statements as required by this chapter.

(b) Has been convicted of a felony.

(c) Knowingly made any false statement in his application for a license.

SEC. 15. Section 17773 of the Business and Professions Code is amended to read:

SEC. 3. Section 23787 of said code is amended to read:

SECTION 1. Section 13009 of the Education Code is amended to read:

13009. The governing board of each school district when drawing an order for the salary payment due to employees of

the district, shall without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for any or all of the following purposes: paying premiums on any policy or certificate of group life insurance for the benefit of the employee or for group disability insurance, or both, for the benefit of the employee or his dependents issued by an admitted insurer on a form of policy or certificate approved by the Insurance Commissioner, or paying rates, dues, fees, or other periodic charges on any hospital service contract for the benefit of the employee, or his dependents, issued by a nonprofit hospital service corporation on a form approved by the Insurance Commissioner pursuant to the provisions of Chapter 11A of Part 2 of Division 2 of the Insurance Code, or paying periodic charges on any medical and hospital service agreement or contract for the benefit of the employee, or his dependents, issued by a nonprofit membership corporation lawfully operating under Section 9200 or Section 9201 of the Corporations Code. The governing board of the district shall each month draw its order upon the funds of the district in favor of the insurer which has issued the policies or certificates or in favor of the nonprofit hospital service corporation which has issued hospital service contracts, or in favor of the nonprofit membership corporation which has issued medical and hospital service agreements or contracts, for an amount equal to the total of the respective deductions therefor made during the month.

"Group insurance" as used in this section shall mean only a bona fide group program of life or disability or life and disability insurance where a master contract is held by the school district or an employee organization but it shall, nevertheless, include annuity programs authorized by Section 403(b) of the Internal Revenue Code when approved by the governing board.

SEC. 2. Section 13009.1 is added to the Education Code, to read:

13009.1. School districts may, but shall not be required to, provide payroll deduction for the collection of insurance premiums except as expressly authorized by Section 13009.

SEC. 3. The amendments to Section 13009 of, and the addition of Section 13009.1 to, the Education Code made by this act are to be construed as and are declaratory of existing law. The amendments are enacted to expressly overcome Attorney General Opinions 58-205, May 18, 1959, and 64-223, October 27, 1964, which interpreted legislative intent to require payroll deduction of premiums for individual insurance rather than true group insurance plans and thereby place a burden on school districts not contemplated by the Legislature.

CHAPTER 1300

An act to amend Section 35002 and to add Article 4.5 (commencing with Section 35270), to Chapter 1 of Part 2 of Division 2 of Title 4 of the Government Code, relating to the transfer of territory from one city to a contiguous city.

[Approved by Governor August 18, 1967. Filed with Secretary of State August 18, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 35002 of the Government Code is amended to read:

35002. No petition seeking the annexation or transfer of territory to a city shall be circulated or filed, nor shall any public officer accept any such petition for filing, nor shall any legislative body initiate proceedings to annex or transfer on its own motion, until approval of the local agency formation commission is first obtained pursuant to Chapter 6.6 (commencing with Section 54773), Part 1, Division 2, Title 5.

SEC. 2. Article 4.5 (commencing with Section 35270), is added to Chapter 1 of Part 2 of Division 2 of Title 4 of the Government Code, to read:

Article 4.5. Transfer of Territory From One City to a Contiguous City

35270. This article provides an alternative procedure for the transfer of territory from one city to a contiguous city in the same county.

35271. Proceedings to transfer territory from one city to a contiguous city are initiated by filing with the board of supervisors of the county in which the cities are situated either

a. A petition signed by not less than 25 percent of the registered electors residing in the territory to be transferred if the territory is inhabited, or

b. A petition signed by owners of not less than one-fourth of the land in the territory by area, and by assessed value as shown on the last equalized assessment roll of the county in which the territory is situated if the territory is uninhabited; or

c. A resolution of the legislative body of the city in which the territory is situated.

There shall be filed with the petition a resolution of consent to the transfer adopted by the legislative body of the city in which the territory is situated.

In every case there shall be filed with the petition or resolution a resolution of consent to the transfer adopted by the legislative body of the city to which it is proposed to transfer the territory. The petition or resolution shall contain a description

of the territory proposed to be transferred, the name of the city in which the territory is presently included and the name of the city to which it is proposed that the territory will be annexed.

35272. The clerk of the board of supervisors shall, without delay, cause notice of the proposed transfer to be published in each of the affected cities pursuant to Section 6061. The notice shall contain a general description of the territory to be transferred, the city in which the territory is presently situated and the city to which it is proposed to be annexed, and announce the time and place written protests will be heard which shall be not less than 40 nor more than 60 days after the date of the first publication. The clerk shall mail a copy of such notice to the legislative body of the city from which territory is proposed to be transferred and to the legislative body of the city to which the territory is proposed to be annexed at least 30 days prior to the date set for hearing.

35273. After hearing all persons interested in the proposal, the board of supervisors shall grant or deny the request by resolution or, if the territory is inhabited, it may require an election to be held on the question. If the board grants the request, it shall determine whether all or only a part of the territory shall be transferred. If the board desires to change the boundaries of the territory to be transferred it shall first secure the approval of the local agency formation commission pursuant to Section 54799.1 and the cities affected by the proposed transfer. If the board requires an election to be held, it shall be held only in the territory proposed to be transferred, except that it shall be held in the entire city from which the territory will be transferred if more than 25 percent of the assessed valuation of such city is located in such territory.

35274. At any time prior to final adjournment of the hearing, any owner of property within the territory may file written protest against the transfer. The protest shall state the name of the owner of the property affected and the street address or other description of the property sufficient to identify it on the last equalized assessment roll. A metes and bounds description shall not be required if the property can be otherwise described in a manner sufficient to identify it on the last equalized assessment roll. As used in this article, "owner" means the owner as shown on the last equalized assessment roll, except that the person entitled to be shown as owner on the current assessment roll shall be deemed the owner, and except that, where the property affected is subject to a recorded written agreement to buy, the purchaser under such agreement to buy shall be deemed the owner. Protests may be made on behalf of the owner by an agent authorized in writing by the owner to act as agent with respect to such land, except that protest may be made on behalf of a private corporation which is an owner of property by any officer or employee of the corporation without written authorization by the corporation to act as agent or make such protest.

35275. At the time set for the hearing, the board of supervisors shall hear and pass upon all protests so made:

(a) If privately owned property and no publicly owned property is proposed to be transferred, further proceedings shall not be taken if protest is made by private owners of one-half of the value of the territory proposed to be transferred. The value given such property for protest purposes shall be that shown on the last equalized assessment roll if the property is not exempt from taxation. If the property is exempt from taxation, its value for protest purposes shall be determined by the county assessor in the same amount as he would assess such property if it were not exempt from taxation.

(b) If privately owned property and publicly owned property are proposed to be transferred in the same proceeding, further proceedings shall not be taken if protest is made by public and private owners of one-half of the value of the territory. The value given privately owned property shall be determined pursuant to subdivision (a) of this section. The value given publicly owned property for protest purposes shall be determined by the county assessor in the same manner as is provided in subdivision (a) of this section for privately owned property, exempt from taxation.

(c) As used in this article, "value of the territory" means the value of land and improvements thereon.

(d) The value for protest purposes to be given property held in joint tenancy or tenancy in common shall be determined by the legislative body in proportion to the proportionate interest of the protestant in such property.

(e) When property is subject to a written recorded agreement to buy, the purchaser under the agreement may protest and the seller may not even though he is shown as the owner on the last equalized assessment roll.

Determinations of the value of publicly owned property, or privately owned property exempt from taxation by the county assessor for protest purpose shall be obtained from the assessor by the protestant and submitted to the board of supervisors with the written protest.

35276. The board of supervisors shall find and declare by resolution adopted at the hearing or within 30 days after the closing of the hearing whether or not a majority protest has been made If it does not adopt such a resolution within such period, it shall be deemed to have adopted on the 30th day a resolution that a majority protest has been made.

If a resolution finding and declaring that a majority protest is made is adopted or deemed adopted, no further proceedings for the transfer of any of the same territory to the city shall be taken for one year after the date of the adoption of the resolution except upon the petition or consent of all property owners of the territory proposed to be transferred.

35277. If an election is required, the legislative body of the city from which the territory is proposed to be transferred

shall submit the question as specified in the resolution of the board of supervisors to the electors at a special election to be held for that purpose. The election shall be held pursuant to the Elections Code provisions relating to municipal elections and Sections 35252 through 35257 of the Government Code shall be followed.

35278. If the board of supervisors grants the request to transfer the territory without election, the clerk of the board shall enter upon the minutes, certify and transmit to the Secretary of State and to the legislative bodies of the cities affected copies of the resolution approving the transfer. The clerk shall also file the affidavit of completion and statement of boundary change required by Sections 34080 and 54900.

35279. The board of supervisors may fix the date the transferred territory is a part of the city in its resolution approving, either with or without election, the transfer. The date shall not be later than one year after the date of filing by the Secretary of State or the due date of property taxes levied by the city in the territory, whichever occurs first, except that for the purpose of compliance with Sections 34080 and 54900 of this code, and any action required for the assessment and levy of property tax, the territory shall be deemed a part of the city from the date of filing by the Secretary of State. If no date is fixed by the board of supervisors, the territory is a part of the city for all purposes from the date of filing by the Secretary of State.

35280. This article does not relieve any part of the territory from liability for the debts contracted by the city prior to the transfer to the contiguous city. The city from which the territory is transferred shall levy and collect from the transferred territory its proportion of liability for any payment on the principal and interest of such debts.

CHAPTER 1301

An act to amend Section 670 of the Revenue and Taxation Code, relating to appraisers.

[Approved by Governor August 18, 1967. Filed with Secretary of State August 18, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 670 of the Revenue and Taxation Code is amended to read:

(b) The board shall provide for the examination of applicants for such certificates and may contract with the State Personnel Board to give such examinations. Examinations shall be prepared by the board with the advice and assistance of a committee of five assessors selected by the assessors for this purpose. No certificate shall be issued to any person who has not attained a passing grade in such examination and demonstrated to the board that he is competent to perform the work of an appraiser as such competency is defined in regulations duly adopted by the board; provided, however, that any applicant for a certificate who is denied the same shall have a right to review of such denial in accordance with the State Administrative Procedure Act contained in Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) Passage of a civil service or merit system examination for appraiser given by the state or any county or city and county shall suffice to meet the requirements of this section. The scope of such examination shall be approved by the Board of Equalization.

(h) No charge shall be made to counties or to applicants for examinations and certifications under this section or for training conducted by the board under Section 671.

SEC. 3. Section 2 of this act shall become operative only if the amendment to Section 670 of the Revenue and Taxation Code as proposed by Senate Bill No. 765 is enacted by the

Legislature at its 1967 Regular Session, and in such case at the same time as Senate Bill No. 765 takes effect; at which time Section 670 of the Revenue and Taxation Code as amended by Section 1 of this act is repealed.

CHAPTER 1302

An act to amend Section 16574 of the Public Utilities Code, relating to Public Utility Districts and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 18, 1967. Filed with Secretary of State August 18, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 16574 of the Public Utilities Code is amended to read:

16574. The board of directors or other officers of the district shall not incur any debt or liability whatever, either by issuing bonds or otherwise, in excess of the express provisions of this division. Any debt or liability incurred in excess of such express provisions is absolutely void, excepting that such debt limitations may be exceeded where the district finances waterworks or sewage disposal facilities by means of a revenue bond issue, or by means of a general obligation bond issue and makes provision to pledge, as additional security for such general obligation, all or any part of revenues received from the facilities over a period not to exceed 40 years, in which event the limitation of indebtedness set forth in Section 16573 of this code shall not be applicable to such bonds so secured or so additionally secured by such revenue.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In many areas of the state there is an urgent need for additional water and sewage disposal facilities which can only be funded through the issuance of bonds. Many of these urgently needed projects cannot be financed by public utility districts in this manner under the existing law because of the security requirements of the law. This act is intended to clarify the meaning and intent of the present law.

CHAPTER 1303

An act to add Section 11007.1 to the Government Code, relating to state insuring property.

[Approved by Governor August 18, 1967. Filed with Secretary of State August 18, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 11007.1 is added to the Government Code, to read:

11007.1. The Department of Public Works when it has acquired title to any real property for highway purposes and leases such property for commercial or business uses to the former owner for a term exceeding six months, may secure insurance against the risk of damage or destruction by fire where the former owner requests this coverage and the premium therefor is included in the rental agreed to be paid.

CHAPTER 1304

An act to add Chapter 9.2 (commencing with Section 73100) to Title 8 of the Government Code, relating to municipal and justice courts.

SECTION 1. Section 7153.1 of the Financial Code is amended to read:

7153.1. An association may make amortized loans upon the security of improved real property in an amount not in excess of 80 percent of the appraised value of such real property if the appraised value does not exceed forty thousand dollars ($40,000) or not in excess of 80 percent of the first forty thousand dollars ($40,000) of such appraised value if it exceeds forty thousand dollars ($40,000), plus 70 percent of the remainder of such appraised value if one of the following conditions is met:

(a) The real property is a condominium, as defined in Civil Code Section 783, designed for one-family occupancy, and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the condominium project.

(b) The real property is a residential unit designed for one-family occupancy within a community apartment project in which an undivided interest in the real property is coupled with the exclusive right of occupancy of such residential unit and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the community apartment project.

(c) The real property is a residential unit, designed for one-family occupancy, within a cluster-type residential project, in which the interest in such real property is coupled with an undivided interest in common in a portion of the remaining real property on which such project is located, and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the project.

SEC. 2. Section 7153.2 of the Financial Code is amended to read:

7153.2. An association may make amortized loans upon the security of real property in an amount in excess of eighty percent (80%) of the appraised value of such real property, if:

(a) There is located thereon only a structure designed for residential use for one family or a structure designed for residential use for one family and structures ancillary to such residential use;

(b) The loan is in an amount not in excess of (1) thirty-one thousand five hundred dollars ($31,500), or (2) ninety percent (90%) of the appraised value of the real property, or (3) if the loan is made to finance the purchase of the real property, ninety percent (90%) of the purchase price, whichever is less;

(c) If the loan is sought or assumed for the purpose of enabling a purchaser to acquire the security property, the purchaser and the vendor or vendors have jointly executed a certification in writing stating the purchase price of the security property and the items comprising such price;

(d) The association has made or obtained, prior to approval of the loan, a written report on the credit standing of the borrower and the financial ability of such borrower to undertake and pay off the obligation involved in the loan;

(e) The borrower makes a certification in writing that he intends to occupy the property as his home and that no lien or charge upon the property other than the lien of the association or liens or charges which will be discharged from the proceeds of the loan, has been given or executed by him; and

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Federal Home Loan Bank Board has adopted a regulation, effective July 7, 1967, which permits federally chartered savings and loan associations in California to make loans on the same basis as this act will permit California savings and loan associations to make such loans.

In order for California savings and loan associations to be competitive in this segment of the loan market it is necessary that this act take effect immediately.

The director shall hold a public hearing on such proposed rules and regulations, before March 1, 1968, in the following locations: (1) Redding or Red Bluff; (2) Sacramento; (3) Los Angeles; and (4) San Diego. The people of the State of California do enact as follows:

SECTION 1. Section 503 of the Streets and Highways Code is amended to read:

CHAPTER 1324

An act to amend Sections 388, 410, and 411 of, and to add Section 395.2 to, the Code of Civil Procedure, and to amend Section 15700 of, and to add Part 4 (commencing with Section 24000) to Title 3 of the Corporations Code, relating to unincorporated associations.

[Approved by Governor August 23, 1967. Filed with Secretary of State August 23, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 388 of the Code of Civil Procedure is amended to read:

388. (a) Any partnership or other unincorporated association, whether organized for profit or not, may sue and be sued in the name which it has assumed or by which it is known.

(b) Any member of the partnership or other unincorporated association may be joined as a party in an action against the unincorporated association. If service of process is made on such member as an individual, whether or not he is also served as a person upon whom service is made on behalf of the unincorporated association, a judgment against him based on his personal liability may be obtained in the action, whether such liability be joint, joint and several, or several.

SEC. 2. Section 395.2 is added to the Code of Civil Procedure, to read:

395.2. If an unincorporated association has filed a statement with the Secretary of State pursuant to Section 24003 of the Corporations Code listing its principal office in this state, the proper county for the trial of an action against such unincorporated association is the same as it would be if the unincorporated association were a corporation and, for the purpose of determining such county, the principal place of business of the unincorporated association shall be deemed to be the principal office in this state listed in the statement.

SEC. 3. Section 410 of the Code of Civil Procedure is amended to read:

410. The summons may be served by the sheriff, a constable, or marshal, of the county where the defendant is found, or any other person over the age of 18, not a party to the action. A copy of the complaint must be served, with the summons, upon each of the defendants. When the service is against a corporation, or against an unincorporated association in an action brought under Section 388, there shall appear on the copy of the summons that is served a notice stating in substance: "To the person served: You are hereby served in the within action (or proceeding) on behalf of (here state the name of the corporation or the unincorporated association) as a person upon whom the summons and a copy of the complaint must be served to effect service against said party under the provisions of (here state appropriate provisions of Section 411)

of the Code of Civil Procedure." When service is intended to be made upon said person as an individual as well as a person upon whom service must be made on behalf of said corporation or said association, said notice shall also indicate that service is had upon said person as an individual as well as on behalf of said corporation or said association. In a case in which the foregoing provisions of the section require that notice of the capacity in which a person is served must appear on the copy of the summons that is served, the certificate or affidavit of service must recite that such notice appeared on such copy of the summons, if, in fact, it did appear. When service is against a corporation, or against an unincorporated association in an action brought under Section 388, and notice of that fact does not appear on the copy of the summons or a recital of such notification does not appear on the certificate or affidavit of service of process as required by this section, no default may be taken against such corporation or such association. When service is made upon the person served as an individual as well as on behalf of the corporation or association, and the notice of that fact does not appear on the copy of the summons or a recital of such notification does not appear in the certificate or affidavit of service of process as required by this section, no default may be taken against such person.

When the summons is served by the sheriff, a constable or marshal, it must be returned, with his certificate of its service, and of the service of a copy of the complaint, to plaintiff if he is acting as his own attorney, otherwise to plaintiff's attorney. When it is served by any other person, it must be returned to the same place, with the affidavit of such person of its service, and of the service of a copy of the complaint.

If the summons is lost subsequent to service and before it is returned, an affidavit of the official or other person making service, showing the facts of service of the summons, may be returned in lieu of the summons and with the same effect as if the summons were itself returned.

SEC. 4. Section 411 of the Code of Civil Procedure is amended to read:

411. The summons must be served by delivering a copy thereof as follows:

1. If the suit is against a domestic corporation: to the president or other head of the corporation, a vice president, a secretary, an assistant secretary, general manager, or a person designated for service of process or authorized to receive service of process. If such corporation is a bank, to any of the foregoing officers or agents thereof, or to a cashier or an assistant cashier thereof. If no such officer or agent of the corporation can be found within the state after diligent search, then to the Secretary of State as provided in Sections 3301 to 3304, inclusive, of the Corporations Code, unless the corporation be of a class expressly excepted from the operation of those sections.

2. If the suit is against a foreign corporation, or a nonresident joint stock company or association, doing business

in this state: in the manner provided by Sections 6500 to 6504, inclusive, of the Corporations Code.

2.1. If the suit is against an unincorporated association (not including a foreign partnership covered by Section 15700 of the Corporations Code) · if the unincorporated association has designated an agent for service of process as provided in Section 24003 of the Corporations Code, to the person so designated as agent for service of process. If no person has been designated as agent for service of process as provided in Section 24003 of the Corporations Code, or if the person so designated cannot be found at his address as specified in the index referred to in Section 24004 of the Corporations Code, then to any one or more of the association's members and by mailing a copy thereof to the association at its last known mailing address.

2.2. If the suit is against a foreign partnership covered by Section 15700 of the Corporations Code: in the manner provided by Section 15700 of the Corporations Code.

3. If the suit is against a minor, under the age of 14 years, residing within this state: to such minor, personally, and also to his father, mother, or guardian; or if there be none within this state, then to any person having the care or control of such minor, or with whom he resides, or in whose service he is employed.

4. If the suit is against a person residing within this state and for whom a guardian or conservator has been appointed: to such person, and also to his guardian or conservator.

5. Except as otherwise specifically provided by statute, in an action or proceeding against a local or state public agency, to the clerk, secretary, president, presiding officer or other head thereof or of the governing body of such public agency. "Public agency" includes (1) every city, county, and city and county; (2) every public agency, authority, board, bureau, commission, corporation, district and every other political subdivision; and (3) every department and division of the state.

6. In all cases where a corporation has forfeited its charter or right to do business in this state, or has dissolved, by delivering a copy thereof to one of the persons who have become the trustees of the corporation and of its stockholders or members; or, in a proper case, as provided in Sections 3305 and 3306 of the Corporations Code.

7. If the suit is one brought against a candidate for public office and arises out of or in connection with any matter concerning his candidacy or the election laws and said candidate cannot be found within the state after diligent search, then as provided for in Section 54 of the Elections Code.

8. In all other cases to the defendant personally.

SEC. 5. Section 15700 of the Corporations Code is amended to read:

15700. **Every partnership**, other than a commercial or banking partnership established and transacting business in a

place without the United States, which is domiciled without this state and has no regular place of business within this state, shall, within 40 days from the time it commences to do business in this state, file a statement in the office of the Secretary of State in accordance with Section 24003 designating some natural person or corporation as the agent of the partnership upon whom process issued by authority of or under any law of this state directed against the partnership may be served. A copy of such designation, duly certified by the Secretary of State, is sufficient evidence of such appointment.

Such process may be served in the manner provided in subdivision (e) of Section 24003 on the person so designated, or, in the event that no such person has been designated, or the person designated cannot be found at the address as specified in the index referred to in Section 24004, then service may be made by personal delivery to the Secretary of State, Assistant Secretary of State or a deputy secretary of state of the process, together with a written statement signed by the party to the action seeking such service, or by his attorney, setting forth the last-known address of the partnership and a service fee of five dollars ($5). The Secretary of State shall forthwith give notice of such service to the partnership by forwarding the process to it by registered mail, return receipt requested, at the address given in the written statement.

Service on the person designated, or personal delivery of the process and statement of address together with a service fee of five dollars ($5) to the Secretary of State, Assistant Secretary of State or a deputy secretary of state, pursuant to this section is a valid service on the partnership. The partnership so served shall appear within 30 days after service on the person designated or within 30 days after delivery of the process to the Secretary of State, Assistant Secretary of State or a deputy secretary of state.

SEC. 6. Part 4 (commencing with Section 24000) is added to Title 3 of the Corporations Code, to read:

PART 4. LIABILITY; LEVIES AGAINST PROPERTY; DESIGNATION OF AGENT FOR SERVICE AND OF PRINCIPAL OFFICE

24000. (a) As used in this part, "unincorporated association" means any partnership or other unincorporated organization of two or more persons, whether organized for profit or not, but does not include a government or governmental subdivision or agency.

(b) As used in this section, "person" includes a natural person, corporation, partnership or any other unincorporated organization, and a government or governmental subdivision or agency.

24001. (a) Except as otherwise provided by statute, an unincorporated association is liable to a person who is not a member of the association for an act or omission of the association,

and for the act or omission of its officer, agent, or employee acting within the scope of his office, agency, or employment, to the same extent as if the association were a natural person.

(b) Nothing in this section in any way affects the rules of law which determine the liability between an association and a member of the association.

24002. Only the property of an unincorporated association may be levied upon under a writ of execution issued to enforce a judgment against the association.

24003. (a) An unincorporated association may file with the Secretary of State on a form prescribed by him a statement containing either of the following:

(1) A statement designating the location and complete address of the association's principal office in this state. Only one such place may be designated.

(2) A statement (i) designating the location and complete address of the association's principal office in this state in accordance with paragraph (1) or, if the association does not have an office in this state, designating the complete address of the association to which the Secretary of State shall send any notices required to be sent to the association under Sections 24005 and 24006, and (ii) designating as agent of the association for service of process any natural person residing in this state or any corporation which has complied with Section 3301.5 or Section 6403.5 and whose capacity to act as such agent has not terminated.

(b) If a natural person is designated as agent for service of process, the statement shall set forth his complete business or residence address. If a corporate agent is designated, the statement shall set forth the state or place under the laws of which such agent was incorporated and the name of the city, town, or village wherein it has the office at which the association designating it as such agent may be served, as set forth in the certificate filed by such corporate agent pursuant to Section 3301.5, 3301.6, 6403.5, or 6403.6.

(c) Presentation for filing of a statement and one copy, tender of the filing fee, and acceptance of the statement by the office of the Secretary of State constitutes filing under this section. The Secretary of State shall note upon the copy of the statement the file number and the date of filing the original and deliver or send the copy to the unincorporated association filing the statement.

(d) At any time, an unincorporated association that has filed a statement under this section may file a new statement superseding the last previously filed statement. If the new statement does not designate an agent for service of process, the filing of the new statement shall be deemed to revoke the designation of an agent previously designated. A statement filed under this section expires five years from December 31 following the date it was filed in the office of the Secretary of State, unless previously superseded by the filing of a new statement.

(e) Delivery by hand of a copy of any process against the unincorporated association (1) to any natural person designated by it as agent, or (2) if the association has designated a corporate agent, at the office of such corporate agent, in the city, town, or village named in the statement filed by the association under this section to any person at such office named in the certificate of such corporate agent filed pursuant to Section 3301.5 or 6403.5 if such certificate has not been superseded, or otherwise to any person at such office named in the last certificate filed pursuant to Section 3301.6 or 6403.6, constitutes valid service on the association.

(f) For filing a statement as provided in this section, the Secretary of State shall charge and collect the fee prescribed in Government Code Section 12185 for filing a designation of agent.

24004. (a) The Secretary of State shall mark each statement filed under Section 24003 with a consecutive file number and the date of filing. He may destroy or otherwise dispose of any such statement four years after the statement expires. In lieu of retaining the original statement, the Secretary of State may retain a copy thereof in accordance with Government Code Section 14756.

(b) The Secretary of State shall index each statement filed under Section 24003 according to the name of the unincorporated association as set out in the statement and shall enter in the index the file number and the address of the association as set out in the statement and, if an agent for service of process is designated in the statement, the name of the agent and his address.

(c) Upon request of any person, the Secretary of State shall issue his certificate showing whether, according to his records, there is on file in his office, on the date and hour stated therein, any presently effective statement filed under Section 24003 for an unincorporated association using a specific name designated by the person making the request. If such a statement is on file, the certificate shall include the information required by subdivision (b) to be included in the index. The fee for such a certificate is two dollars ($2).

(d) When a statement has expired under subdivision (d) of Section 24003, the Secretary of State shall enter that fact in the index together with the date of such expiration.

(e) Four years after a statement has expired, the Secretary of State may delete the information concerning that statement from the index.

24005. (a) An agent designated by an unincorporated association for the service of process may file with the Secretary of State a written statement of resignation as such agent which shall be signed and execution thereof shall be duly acknowledged by the agent. Thereupon the authority of the agent to act in such capacity shall cease and the Secretary of State forthwith shall give written notice of the filing of the statement by mail to the unincorporated association at its address as set out in the statement filed by the association.

(b) Any unincorporated association may at any time file with the Secretary of State a revocation of a designation of an agent for service of process. The revocation is effective when filed.

(c) Notwithstanding subdivisions (a) and (b), service made on an agent designated by an unincorporated association for service of process in the manner provided in subdivision (e) of Section 24003 is effective if made within 30 days after the statement of resignation or the revocation is filed in the office of the Secretary of State.

24006. Between the first day of October and the first day of December immediately preceding the expiration date of a statement filed under Section 24003, the Secretary of State shall send by first class mail a notice, indicating the date on which the statement will expire and the file number assigned to the statement, to the unincorporated association at its address as set out in the statement. Neither the failure of the Secretary of State to mail the notice as provided in this section nor the failure of the notice to reach the unincorporated association shall continue the statement in effect after the date of its expiration. Neither the state nor any officer or employee of the state is liable for damages for failure to mail the notice as required by this section.

SEC. 7. A statement may be presented to the Secretary of State for filing at any time after the effective date of this act but the Secretary of State is not required to file such statement prior to January 1, 1968, and no such statement is effective until January 1, 1968.

The commissioner shall hold a hearing within fifteen (15) days thereafter unless the

In determining the value of the property obtained, for the purposes of this section, the reasonable and fair market value shall be the test, and in determining the value of services received the contract price shall be the test. If there be no contract price, the reasonable and going wage for the service rendered shall govern. The hiring of any additional employee or employees without advising each of them of every labor claim due and unpaid and every judgment that the employer has been unable to meet shall be prima facie evidence of intent to defraud.

(b) Except as provided in Section 10855 of the Vehicle Code, intent to commit theft by fraud is presumed if one who has leased or rented the personal property of another pursuant to a written contract fails to return the personal property to its owner within 20 days after the owner has made written demand by certified or registered mail following the expiration of the lease or rental agreement for return of the property so leased or rented, or if one presents to the owner identification which bears a false or fictitious name or address for the purpose of obtaining the lease or rental agreement.

(c) The presumptions created by subdivision (b) are presumptions affecting the burden of producing evidence.

(d) Within 30 days after the lease or rental agreement has expired, the owner shall make written demand for return of the property so leased or rented. Notice addressed and mailed to the lessee or renter at the address given at the time of the making of the lease or rental agreement and to any other known address shall constitute proper demand. Where the owner fails to make such written demand the presumption created by subdivision (b) shall not apply.

The board may, when the circumstances warrant, allow an apprentice credit under a reregistration for the time actually served under a previous registration, but no reregistration shall have the effect of continuing the term of apprenticeship beyond the period specified in Sections 7666 and 7666.5.

No reregistration shall have the effect of continuing an apprenticeship beyond the period specified in Section 7666.

The board may, when the circumstances warrant, allow an apprentice credit under a reregistration for the time actually served under a previous registration, but if the previous registration has been suspended or revoked for unprofessional conduct, not more than 75 percent of the time previously served shall be credited on the reregistration.

SEC. 6. Section 7670 of the Business and Professions Code is amended to read:

7670. The apprenticeship required by this article must be served in a funeral establishment which shall have been previously approved for apprenticeship training by the board. In order to qualify for such approval the funeral director desiring same must submit to the board an application, accompanied by the fee fixed by this chapter, showing:

(a) That not less than 50 human dead bodies per apprentice employed have been prepared for burial or other disposition in such establishment during the 12 months immediately preceding the date of such application;

(c) That the funeral establishment of such applicant meets the requirements of law as to equipment, cleanliness and sanitation as determined by an inspection report filed with the board.

7725.2. Except as otherwise provided in this article, a license which has expired may be renewed at any time within five years after its expiration on filing of application for renewal on a form prescribed by the board and payment of the renewal fee in effect on the last preceding regular renewal date. If the license is not renewed within 30 days after its expiration the licensee, as a condition precedent to renewal, shall also pay the delinquency fee prescribed by this chapter.

Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee, if any, is paid, whichever last occurs. If so renewed, the license shall continue in effect through the date provided in Section 7725 which next occurs after the effective date of the renewal, when it shall expire if it is not again renewed.

If a license is not renewed within one year following its expiration, the board may require as a condition of renewal that the holder of the license pass an examination on the appropriate subjects provided by this chapter.

SEC. 10. Section 7725.3 of the Business and Professions Code is amended to read:

7725.3. A suspended license is subject to expiration and shall be renewed as provided in this article, but such renewal does not entitle the holder of the license, while it remains suspended and until it is reinstated, to engage in the activity to which the license relates, or in any other activity or conduct in violation of the order or judgment by which it was suspended.

SEC. 11. Section 7725.4 of the Business and Professions Code is amended to read:

7725.4. A revoked license is subject to expiration as provided in this article, but it may not be renewed. If it is reinstated after its expiration, the holder of the license, as a condition precedent to its reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last regular renewal date before the date on which it is reinstated plus the delinquency fee, if any, accrued at the time of its revocation.

(a) Authorize the tax collector to transmit to the Controller in lieu of the detailed statement required under Section 3440, a summary statement following the sale to the state setting forth the time and place, number of parcels sold, dates of publication of delinquent list and notice of sale, and other appropriate information.

Upon rescission of the authorization, the tax collector shall furnish the Controller, in the same form as prescribed under Section 3440, a complete list of all properties sold to the state which remained unredeemed on the effective date of such rescission, and the redemption officer shall, from and after the effective date of the rescission, transmit to the Controller all the redemption certificates and notices provided for under Sections 4106 and 4803.

[Approved by Governor August 23, 1967. Filed with Secretary of State August 23, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 625 of the Welfare and Institutions Code is amended to read:

625. A peace officer may, without a warrant, take into temporary custody a minor:

(a) Who is under the age of 18 years when such officer has reasonable cause for believing that such minor is a person described in Sections 600, 601, or 602, or

(b) Who is a ward or dependent child of the juvenile court or concerning whom an order has been made under Section 636 or 702, when such officer has reasonable cause for believing that person has violated an order of the juvenile court or has escaped from any commitment ordered by the juvenile court, or

(c) Who is under the age of 21 years and who is found in any street or public place suffering from any sickness or injury which requires care, medical treatment, hospitalization, or other remedial care.

In any case where a minor is taken into temporary custody on the ground that there is reasonable cause for believing that such minor is a person described in Section 601 or 602, or that he has violated an order of the juvenile court or escaped from any commitment ordered by the juvenile court, the officer shall advise such minor that anything he says can be used against him and shall advise him of his constitutional rights, including

his right to remain silent, his right to have counsel present during any interrogation, and his right to have counsel appointed if he is unable to afford counsel.

SEC. 2. Section 627.5 is added to the Welfare and Institutions Code, to read:

627.5. In any case where a minor is taken before a probation officer pursuant to the provisions of Section 626 and it is alleged that such minor is a person described in Section 601 or 602, the probation officer shall immediately advise the minor and his parent or guardian that anything the minor says can be used against him and shall advise them of the minor's constitutional rights, including his right to remain silent, his right to have counsel present during any interrogation, and his right to have counsel appointed if he is unable to afford counsel. If the minor or his parent or guardian requests counsel, the probation officer shall notify the judge of the juvenile court of such request and counsel for the minor shall be appointed pursuant to Section 634.

SEC. 3. Section 630 of the Welfare and Institutions Code is amended to read:

630. (a) If the probation officer determines that the minor shall be retained in custody, he shall immediately file a petition pursuant to Section 656 with the clerk of the juvenile court who shall set the matter for hearing on the detention hearing calendar. Immediately upon filing the petition with the clerk of the juvenile court, if the minor is alleged to be a person described in Section 601 or 602, the probation officer shall serve such minor with a copy of the petition and notify him of the time and place of the detention hearing. The probation officer shall thereupon notify a parent or guardian of the minor of the time and place of such hearing. Such notice may be given orally.

(b) In such hearing the minor has a privilege against self-incrimination and has a right to confrontation by, and cross-examination of, witnesses.

SEC. 4. Section 634 of the Welfare and Institutions Code is amended to read:

634. When it appears to the court that the minor or his parent or guardian desires counsel but is unable to afford and cannot for that reason employ counsel, the court may appoint counsel, and in a case in which the minor is alleged to be a person described in Section 601 or 602 the court must appoint counsel for the minor if he appears at the hearing without counsel, whether he is unable to afford counsel or not, unless there is an intelligent waiver of the right of counsel. In any case in which it appears to the court that there is such a conflict of interest between a parent or guardian and child that one attorney could not properly represent both, the court may appoint counsel, in addition to counsel already employed by a parent or guardian or appointed by the court to represent the minor or parent or guardian. In a county where there

is no public defender the court may fix the compensation to be paid by the county for service of such appointed counsel.

SEC. 5. Section 658 of the Welfare and Institutions Code is amended to read:

658. Upon the filing of the petition, the clerk of the juvenile court shall issue a notice, to which shall be attached a copy of the petition, and he shall cause the same to be served upon the minor, if the minor is 14 or more years of age or, in a case in which the minor is alleged to be a person described in Section 601 or 602, if the minor is eight or more years of age, and upon each of the persons described in subdivision (e) of Section 656 whose residence addresses are set forth in said petition and thereafter before the hearing upon all such persons whose residence addresses become known to the clerk. If the petition alleges that the minor is a person described in Section 601 or 602 the clerk shall issue a copy of the petition, to the minor's attorney and to the district attorney, if the district attorney has notified the clerk of the court that he wishes to receive such petition, containing the time, date, and place of the hearing.

SEC. 6. Section 660 of the Welfare and Institutions Code is repealed.

SEC. 7. Section 660 is added to the Welfare and Institutions Code, to read:

660. (a) If the minor is detained the clerk of the juvenile court shall cause the notice and copy of the petition to be personally served on all persons required to receive such notice and copy of the petition as soon as possible after filing of the petition and at least five days prior to the time set for hearing, unless such hearing is set less than five days from the filing of the petition, in which case, such notice and copy of the petition must be served at least 24 hours prior to the time set for hearing.

(b) If the minor is not detained the clerk of the juvenile court shall cause the notice and copy of the petition to be personally served on all persons required to receive such notice and copy of the petition at least 10 days prior to the time set for hearing. If such person is known to reside outside of the county, the clerk of the juvenile court shall mail the notice and copy of the petition, by certified mail, to such person, as soon as possible after filing of the petition and at least 10 days before the time set for hearing. Personal service of the notice and copy of the petition outside of the county at least 10 days before the time set for hearing is equivalent to service by certified mail. Service may be waived by any person by a voluntary appearance entered in the minutes of the court or by a written waiver of service filed with the clerk of the court at or prior to the hearing.

(c) For purposes of this section, service on the minor's attorney shall constitute service on the minor's parent or guardian.

SEC. 8. Section 679 of the Welfare and Institutions Code is amended to read:

679. A minor who is the subject of a juvenile court hearing and any person entitled to notice of the hearing under the provisions of Section 658, is entitled to be present at such hearing. Any such minor and any such person has the right to be represented at such hearing by counsel of his own choice or, if unable to afford counsel, has the right to be represented by counsel appointed by the court in cases in which the minor is alleged to be a person described by Section 601 or Section 602.

SEC. 9. Section 681 is added to the Welfare and Institutions Code, to read:

681. In a juvenile court hearing, where the minor who is the subject of the hearing is represented by counsel, the district attorney may, with the consent of the juvenile court judge, appear and participate in the hearing to assist in the ascertaining and presenting of the evidence. Where the petition in a juvenile court proceeding alleges that a minor is a person described in either subdivision (a) or subdivision (b) of Section 600, and either of the parents, or the guardian, or other person having care or custody of the minor, or who resides in the home of the minor, is charged in a pending criminal prosecution based upon unlawful acts committed against the minor, the district attorney may represent the minor in the interest of the state at the juvenile court proceeding with the consent or at the request of the juvenile court judge. The terms and conditions of such representation shall be with the consent or approval of the judge of the juvenile court.

SEC. 10. Section 700 of the Welfare and Institutions Code is amended to read:

700. At the beginning of the hearing on a petition filed pursuant to Article 7 (commencing with Section 650), the judge or clerk shall first read the petition to those present and upon request of the minor upon whose behalf the petition has been brought or upon the request of any parent, relative or guardian, the judge shall explain any term of allegation contained therein and the nature of the hearing, its procedures, and possible consequences. The judge shall ascertain whether the minor and his parent or guardian or adult relative, as the case may be, has been informed of the right of the minor to be represented by counsel, and if not, the judge shall advise the minor and such person, if present, of the right to have counsel present and where applicable, of the right to appointed counsel. If such person is unable to afford counsel and desires to have the minor represented by counsel, the court may in a case in which the minor is alleged to be within the provisions of Section 600, appoint counsel to represent the minor. In a case in which the minor is alleged to be a person described by Section 601 or Section 602 the court must appoint counsel to represent the minor if he appears at the hearing without coun-

sel whether he is unable to afford counsel or not, unless there is an intelligent waiver of the right of counsel. The court shall continue the hearing for not to exceed seven days, as necessary to make an appointment of counsel, or to enable counsel to acquaint himself with the case, or to determine whether the parent or guardian or adult relative is unable to afford counsel at his own expense, and shall continue the hearing as necessary to provide reasonable opportunity for the minor and the parent or guardian or adult relative to prepare for the hearing.

SEC. 11. Section 702.5 is added to the Welfare and Institutions Code, to read:

702.5. In any hearing conducted pursuant to Section 701 or 702 to determine whether a minor is a person described in Section 601 or 602, the minor has a privilege against self-incrimination and has a right to confrontation by, and cross-examination of, witnesses.

SEC. 12. Section 800 of the Welfare and Institutions Code is amended to read:

800. A judgment or decree of a juvenile court or final order of a referee which becomes effective without approval of a judge of the juvenile court assuming jurisdiction and declaring any person to be a person described in Section 600, 601, or 602, or on denying a motion made pursuant to Section 567, may be appealed from in the same manner as any final judgment, and any subsequent order may be appealed from as from an order after judgment; but no such order or judgment shall be stayed by such appeal, unless suitable provision is made for the maintenance, care, and custody of such person pending the appeal, and unless such provision is approved by an order of the juvenile court. Such appeal shall have precedence over all other cases in the court to which the appeal is taken.

An appellant unable to afford counsel shall be provided a free copy of the transcript.

(a) The minor is in need of proper and effective parental care or control and has no parent, guardian, or responsible relative; or has no parent, guardian, or responsible relative willing to exercise or capable of exercising such care or control; or has no parent, guardian, or responsible relative actually exercising such care or control.

(b) The minor is destitute or is not provided with the necessities of life or is not provided with a home or suitable place of abode.

(c) The minor is provided with a home which is an unfit place for him by reason of neglect, cruelty, or depravity of either of his parents, or of his guardian or other person in whose custody or care he is.

subject to be dealt with under this chapter, and the court shall direct the district attorney or other appropriate prosecuting officer to prosecute the person under the applicable criminal statute or ordinance and thereafter dismiss the petition or, if a prosecution has been commenced in another court but has been suspended while juvenile court proceedings are held, shall dismiss the petition and issue its order directing that the other court proceedings resume.

In determining whether the minor is a fit and proper subject to be dealt with under this chapter, the offense, in itself, shall not be sufficient to support a finding that such minor is not a fit and proper subject to be dealt with under the provisions of the Juvenile Court Law.

A denial by the person on whose behalf the petition is brought of any or all of the facts or conclusions set forth therein or of any inference to be drawn therefrom is not, of itself, sufficient to support a finding that such person is not a fit and proper subject to be dealt with under the provisions of the Juvenile Court Law.

In the event a transfer of payment is made, the person owning the unintended property immediately before issuance of the guaranty or certificate of title shall be personally liable for the amount so transferred which shall be collected in the manner specified for the collection of taxes on the unsecured roll.

SEC. 3. Section 4913 of the Revenue and Taxation Code is amended to read:

4913. If a credit is canceled on unintended property, the tax collector shall notify the assessee or agent of the assessee of the unintended property by registered mail at his last known address respecting the proposed transfer.

If the credit on the unintended property is canceled and transferred pursuant to Section 4911.1, the tax collector shall inform the person owning the unintended property immediately before issuance of the guaranty or certificate of title that the credit has been canceled and transferred and the person so notified shall be personally liable for the amount so transferred which shall be collected in the manner specified for the collection of taxes on the unsecured roll.

SEC. 4. Section 4920 of the Revenue and Taxation Code is amended to read:

4920. This article shall be applicable only if all of the following requirements in either subdivision (a) or subdivision (b) are true:

(a) (1) By substantial evidence a redemptioner convinces the redemption officer that money paid by him in redemption of any property or for the use of any property pursuant to Chapter 3 (commencing with Section 4186) of Part 7 of this division was intended by him to be paid in connection with any other property or that such payment was, without his fault, credited to unintended property.

(2) The right of redemption has not terminated on the property in connection with which the payment was intended.

(3) One year has not elapsed since the date of the payment.

(4) A guarantee or certificate of title has not been issued on the property in connection with which the payment was credited.

When all of the foregoing are true, the redemption officer shall transfer the payment to the property in connection with which the payment was intended, and in case the payment caused the redemption of the property in connection with which the payment was not intended, cancel the redemption of that property.

(b) (1) By substantial evidence a redemptioner convinces the redemption officer that money paid by him in redemption of any property or for the use of any property pursuant to

Chapter 3 (commencing with Section 4186) of Part 7 of this division was, without his fault, credited to unintended property.

(2) The right of redemption has not terminated on the property in connection with which the payment was intended.

(3) One year has not elapsed since the date of the payment.

(4) A guarantee or certificate of title has been issued on the property in connection with which the payment was credited.

When all of the foregoing are true, the redemption officer shall transfer the payment to the property in connection with which the payment was intended to be made, and shall cancel the credit on the unintended property. In the event such a transfer is made, the person owning the unintended property immediately before issuance of the guaranty or certificate shall be personally liable for the amount so transferred which shall be collected in the manner specified for the collection of taxes on the unsecured roll.

SEC. 5. Section 4922 of the Revenue and Taxation Code is amended to read:

4922. If the credit on unintended property is canceled pursuant to subdivision (b) of Section 4920, the tax collector shall inform the assessee or agent of the assessee of the property on the last equalized assessment roll that the credit has been canceled and the person so notified shall be personally liable for the amount so transferred which shall be collected in the manner specified for the collection of taxes on the unsecured roll. The redemption officer shall notify the last assessee or agent of the assessee of the property in connection with which payment may be transferred pursuant to this article, by registered mail at his last known address respecting the proposed transfer, or, if no address is known for him then at the county seat. It is not necessary to mail a notice to any party who files with the redemption officer a waiver of the notice.

SEC. 7. The Legislature finds and declares that it is necessary to maintain the confidence of the public in the system of property taxation and in the system of recording title to property in this state. When a guaranty or certificate of title has been issued on property, the person acquiring the title should be able to rely thereon without having to fear that payments were erroneously credited to taxes due on the property. In a similar manner, when a taxpayer pays taxes on property or payments in redemption of property, which taxes or payments are credited without his fault to unintended property, he should be able to correct such errors and credit the money paid to the intended property. This act will accomplish these purposes and the best interests of the public will be served thereby.

[Approved by Governor August 23, 1967. Filed with Secretary of State August 23, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 51200 of the Government Code is amended to read:

51200. This chapter shall be known as the California Land Conservation Act of 1965 or as the Williamson Act.

SEC. 1.1. Section 51201 of the Government Code is amended to read:

51201. As used in this chapter, unless otherwise apparent from the context:

(a) "Agricultural commodity" means any and all plant and animal products produced in this state for commercial purposes.

(b) "Agricultural use" means use of land for the purpose of producing an agricultural commodity for commercial purposes.

(c) "Prime agricultural land" means (1) all land which qualifies for rating as class I or as class II in the Soil Conservation Service land use capability classifications, (2) land which qualifies for rating 80 through 100 in the Storie Index Rating, (3) land which supports livestock used for the production of food and fiber, and which has an annual carrying capacity equivalent to at least one animal unit per acre as defined by the United States Department of Agriculture, (4) land planted with fruit- or nut-bearing trees, vines, bushes or crops which have a nonbearing period of less than five years and during the commercial bearing period will normally return on an annual basis from the production of unprocessed agricultural plant production not less than two hundred dollars ($200) per acre, or (5) land which has returned from the production of unprocessed agricultural plant products an annual gross value of not less than two hundred dollars ($200) per acre for three of the previous five years.

(d) "Agricultural preserve" means an area devoted to agricultural and compatible uses as designated by a city or county, and established by resolution of the governing body of a city or county after a public hearing. Notice of the hearing shall be published pursuant to Section 6061 of the Government Code. The governing body may, by resolution, provide procedures for initiating, filing and processing requests to establish agricultural preserves. The same procedure to establish

an agricultural preserve shall be used to enlarge or diminish the size of an agricultural preserve including disestablishment of an agricultural preserve. In the event any proposed alteration of the boundary of an agricultural preserve or proposed disestablishment of an agricultural preserve will remove land under contract or agreement from an agricultural preserve, notice of the proposed alteration or disestablishment and hearing date shall be furnished by the county or city to the owner by registered United States mail directed to him at his latest address known to the county or city and such notice shall be furnished in a like manner to each owner of land in that preserve which has a common boundary with the land to be removed from the agricultural preserve. Such preserves, when established, shall be for the purpose of subsequently placing restrictions upon the use of land within them, or supplementing existing restrictions, pursuant to the purposes of this chapter. Such preserve may contain land other than prime agricultural land, but the use of any land not under contract within the preserve shall subsequently be restricted in such a way as to not be incompatible with the agricultural use of the prime agricultural land the use of which is limited by contract in accordance with this chapter. Such preserve may also be established even if it contains no prime agricultural land, provided that the land within the preserve is subsequently restricted to agricultural and compatible uses by agreement as provided in Section 51255, or by any other suitable means.

(e) Except as otherwise defined by this act, "compatible use" shall be determined by the city or county administering the agricultural preserve according to uniform rules. "Compatible use" is hereby determined by the Legislature to include the erection, construction, alteration, or maintenance of gas, electric, water, or communication utility facilities, unless the governing board makes a finding after notice and hearing that any or all such facilities are not a compatible use. No land occupied by gas, electric, water, or communication utility facilities shall be excluded from a preserve by reason of such use.

(f) "Uniform rules" mean rules adopted by a city or county for the administration of each agricultural preserve including waiver of compensation pursuant to Section 51261, and such rules shall be uniform throughout the agricultural preserve for which the rules are adopted.

SEC. 1.3. Section 51201.1 is added to the Government Code, to read:

51201.1. A preserve shall be transferred from the city or county signing the agreement or contract to any succeeding city or county acquiring jurisdiction over the land in the same manner and under the same conditions as provided for contracts in subdivision (b) of Section 51243.

SEC. 1.5. Section 51204 is added to the Government Code, to read:

51204. The assessed valuations referred to in Sections 51261.2 and 51283, upon the request of either of the parties to the contract, will be subject to equalization pursuant to Section 1604 of the Revenue and Taxation Code.

SEC. 2. Section 51243 of the Government Code is amended to read:

51243. Every such contract shall:

(a) Provide for the exclusion of uses other than agricultural, and other than those related to or compatible with agricultural use, for the duration of the contract.

(b) Be transferred from the contracting owner to any succeeding owner and from succeeding owner to succeeding owner. The contract shall also be transferred from the contracting city or county to any succeeding city or county acquiring jurisdiction over the land, except as hereinafter provided. On the annexation by a city of any land under contract with a county, the city shall succeed to all rights, duties and powers of the county under such contract, unless the land being annexed was within one mile of such city at the time that the contract was initially executed, and the city states its intent not to so succeed in its resolution of intention to annex. If the city does not exercise its option to succeed, the contract becomes null and void as to the land actually being annexed on the date of annexation. In the event that only part of the land under contract was within one mile of the city the option of the city shall extend only to such part.

(c) Be divisible in the event land under contract is divided. A contract identical to the contract then covering the original parcel except any waiver of compensation payment which is distributed pursuant to Section 51261.1 shall be executed by the owner on each parcel created by the division at the time of the division and the county or city shall require, as a condition of approval of the division, the execution of the contracts provided for in this subdivision and any division by order of a judicial proceeding shall require the execution of the contracts required by this subdivision.

SEC. 3. Section 51244 of the Government Code is amended to read:

51244. Each contract shall be for an initial term of 10 years. Each contract shall provide for renewal options so that on the anniversary date of the contract or such other annual date as specified by the contract a year shall be added automatically to the initial term unless notice of nonrenewal is given as provided in Section 51245.

Notice of renewal and the new termination date shall be recorded with the county recorder and from and after the time of such recording shall constitute such notice to all persons as is afforded by the recording laws of this state.

SEC. 4. Section 51245 of the Government Code is amended to read:

51245. If either the landowner or the city or county desires in any year not to renew the contract, that party shall serve

written notice of nonrenewal of the contract upon the other party in advance of the annual renewal date of the contract. Unless such written notice is served by the landowner at least 90 days prior to the renewal date or by the city or county at least 60 days prior to the renewal date, the contract shall be considered renewed as provided in Section 51244.

SEC. 5. Section 51248 of the Government Code is amended to read:

51248. If at any time during the existence of a contract which has not been renewed, the contracting city or county serves notice upon the landowner of its desire to renew the contract, the landowner may renew the contract within 90 days from the date of such notice. The renewal shall extend the contract for a period as provided in Section 51244. Notice of such renewal and the new termination date shall be recorded with the county recorder and such recordation shall have the same effect as provided in Section 51244.

SEC. 6. Section 51255 of the Government Code is amended to read:

51255. Notwithstanding Section 51242, any city or county may, by agreement, but without payment to the landowner of public funds, limit the use of any land within an agricultural preserve to agricultural and compatible uses. The city or county, upon entering into any such agreement, shall file a copy of the agreement with the Director of Agriculture and shall record the original or a copy thereof, which shall describe the land subject thereto, with the county recorder. From and after the time of such recordation such agreement shall impart such notice thereof to all persons as is afforded by the recording laws of this state.

SEC. 7. Section 51256 of the Government Code is amended to read:

51256. Any city or county which offers any such agreement to any owner of land in agricultural use within a preserve shall offer agreements on similar terms to any other such owner within that preserve upon his request. Each agreement as to land within a preserve may be made mutually dependent upon any other agreements as to land within that preserve. The provisions of the agreement relating to length, terms, conditions, restrictions and, including but not limited to provisions relating to the same subjects as contracts, shall be determined by negotiation between the city or county and the landowner. The agreement shall be transferred from the city or county signing the agreement to any succeeding city or county acquiring jurisdiction over the land in the same manner and under the same conditions as provided for contracts in subdivision (b) of Section 51243. It shall be the policy of the city or county to secure agreements under which the limitations or restrictions will not be removed or substantially modified in the predictable future. However, the provisions of this section shall not be construed to require that all agreements entered into upon lands within a preserve be identical, so long

as such differences as exist are related to differences in the location and circumstances of the owners of land in agricultural or compatible uses, or pursuant to uniform rules adopted by the city or county.

SEC. 8. Section 51260.1 is added to the Government Code, to read:

51260.1. Where a parcel not covered by a contract or agreement is part prime land and part nonprime land and that parcel is in a preserve or is in an area where the establishment of a preserve is pending, the county assessor shall, upon request of the city or county responsible for the preserve or proposed preserve, furnish that city or county and the landowner of the parcel the assessed value of the prime land part of the parcel.

SEC. 9. Section 51261 of the Government Code is amended to read:

51261. Payments to any landowner by a city or county pursuant to a contract entered into under this chapter shall be an annual payment of five cents ($0.05) for each one dollar ($1) of the assessed value of the land under contract.

The landowner, however, may waive the obligation of a city or county to make any such payments. Such waiver shall be expressed in the original contract or any subsequent renewals thereof, and shall be in effect for the original or renewal term of the contract. A county or city may require such a waiver by a landowner up to the amount of the assessed valuation of the property at the time of initially entering into the contract, as a condition on entering into the contract. All waivers so required must be pursuant to a uniform rule applicable to all contracts in the agricultural preserve in which the land is located.

SEC. 10. Section 51261.1 is added to the Government Code, to read:

51261.1. In the event there is a division of land under contract into two or more parcels the amount of the assessed valuation upon which payment has been waived shall be distributed among the parcels as if the parcels were being covered by a contract for the first time. The contracts for the new parcels shall include the distributed waivers. The parties may request such distribution of the county assessor, county farm advisor, county agricultural commissioner or such other persons or agencies as agreed to by the parties. In no event shall the total of the waivers in the contracts covering the new parcels exceed the amount of the waiver in the contract covering the land from which the parcels were created.

SEC. 11. Section 51261.2 is added to the Government Code, to read:

51261.2. The payments referred to in Section 51261 shall not be paid on any increase of assessed valuation attributable to agricultural or compatible use factors. The parties may designate the county assessor, county farm advisor, county agricultural commissioner or such other persons or agencies as agreed to by the parties to distribute any increase of assessed

valuation between agricultural and compatible use factors and all other factors.

SEC. 12. Section 51261.3 is added to the Government Code, to read:

51261.3. The amount of assessed valuation on which the landowner has waived payment shall be adjusted in the following circumstances:

(a) Changes in assessed valuation resulting from a change in the publicly announced county ratio of assessed to full cash value in which situation the amount of assessed valuation on which the landowner has waived payment shall be adjusted in the same proportion as the change of ratio.

(b) Changes in assessed valuation resulting from the statement of the State Board of Equalization as provided for in Section 1823 of the Revenue and Taxation Code, in which situation the amount of assessed valuation on which the landowner has waived payment shall be adjusted in the same proportion as the change required by the statement.

SEC. 13. Section 51283 of the Government Code is amended to read:

51283. (a) Upon the cancellation of any contract, and as soon thereafter as the land to which it relates is reassessed by the assessor, the landowner shall pay to the county treasurer, as deferred taxes, an amount equal to 50 percent of the new equalized assessed valuation of the property; provided, however, if after the date the contract was initially entered into the publicly announced county ratio of assessed to full cash value is changed, the percentage payment in this subdivision shall be changed so no greater percentage of full cash value will be paid than would have been paid had there been no change in ratio.

(b) If the State Board of Agriculture recommends that it is in the public interest to do so, and the Director of Agriculture so finds, the director may waive any such payment or any portion thereof, or may make such payment or a portion thereof contingent upon the future use made of the land and its economic return to the landowner for a period of time not to exceed the unexpired period of the contract, had it not been canceled, provided:

(1) The cancellation is caused by an involuntary transfer or change in the use which may be made of the land and the land is not immediately suitable, nor will be immediately used, for a purpose which produces a greater economic return to the owner; and

(2) The city or county has recommended to the State Board of Agriculture that no such payment be required, or that the deferment of such payment or portion thereof be allowed, and the board has determined it is in the best interests of the program to conserve agricultural land use that such payment be either deferred or not required.

(c) When the deferred taxes required by this section are collected, the county treasurer shall distribute the taxes to each

taxing agency existing in the fiscal year of collection in the tax code areas in which the parcels of the property are located. The amount of taxes on all parcels in the same tax code area shall be determined. The taxes for each tax code area shall be distributed in the same proportion that each taxing agency's tax rate in the fiscal year of collection bears to the total tax rate of the code area in the fiscal year of collection.

SEC. 13.1. Section 51283.3 is added to the Government Code, to read:

51283.3. Notwithstanding any other provisions of the Revenue and Taxation Code any payments required by Section 51283 shall not create or impose a lien or charge on the land subject to the canceled contract for such payments if (1) the land under the canceled contract has been transferred or conveyed to a bona fide purchaser for value either prior to the date of the reassessment and the showing thereof on the secured roll with the date of entry specified thereon where payments have not been waived or prior to the date of the occurrence of the contingency upon which the director waived any payment, or (2) the land under the canceled contract is subject to a lien of a bona fide encumbrance for value created and attaching prior to the date of the reassessment and the showing thereof on the secured roll with the date of entry specified thereon where payments have not been waived or prior to the date of the occurrence of the contingency upon which the director waived any payments, or (3) the payments were contingently waived by the director. In such cases where payments have not been waived the assessor or tax collector may record with the county recorder of the county in which the land under canceled contract is located a certificate which shall set forth the name of the person who was the assessee in the year in which the land under canceled contract was reassessed, the amount of any such payments, the contingency of any waiver of payments by the Director of Agriculture and a description of the property. In such cases where the payments have been waived until the occurrence of a contingency upon the occurrence of the contingency the assessor or tax collector may record with the county recorder of the county in which the land under canceled contract is located a certificate which shall set forth a description of the property, the name of the person who was the assessee in the year in which the contingency occurred, the contingency and the occurrence of the contingency, the amount of such payments waived by the Director of Agriculture until the occurrence of the contingency. From the date of the recording of such certificate a lien shall be created and attach against any real property owned by such person in the county in which the certificate may have been recorded which lien shall have the force, effect and priority of a judgment lien.

Upon the collection of all or any portion of the payment, the tax collector shall record with the county recorder a written

certificate of the release of all or any portion of the real property subject to any lien created by this section.

SEC. 13.5. Section 51291 of the Government Code is amended to read:

51291. (a) As used in this section, Section 51292, and Section 51295 "public agency" means the state, or any department or agency thereof, and any county, city, school district, or other local public district, agency, or entity; and "person" means any person authorized by Section 1001 of the Civil Code to acquire property by eminent domain.

(b) Whenever it appears that land within an agricultural preserve may be required by a public agency or person for a public use, the public agency or person shall advise the Director of Agriculture and the local governing body responsible for the administration of the preserve of the intention to consider the location of a public improvement within the preserve.

Within 30 days thereafter the Director of Agriculture and the local governing body shall forward to the public agency or person concerned their comments with respect to the effect of the location of the public improvement on the land within the agricultural preserve and such comments shall be considered by the public agency or person. Failure of any public agency or person to comply with the requirements of this section shall not invalidate any action by such agency or person to locate a public improvement within an agricultural preserve. However, such failure by any person or any public agency other than a state agency shall be admissible in evidence in any litigation for the acquisition of such land or involving the allocation of funds or the construction of the public improvement. This subdivision does not apply to the erection, construction, alteration or maintenance of gas, electric, water, or communication utility facilities within an agricultural preserve if that preserve was established after submission of the location of such facilities to the city or county for review or approval.

SEC. 14. Section 51293.1 is added to the Government Code, to read:

51293.1. Any public agency or person requiring land in an agricultural preserve for a use which has been determined by a city or county to be a "compatible use" pursuant to Section 51201(e) in that agricultural preserve shall not be excused from the provisions of Section 51291(b) if the agricultural preserve was established before the location of the improvement of a public utility was submitted to the city, county, or Public Utilities Commission for agreement or approval and such compatible use shall not come within the provisions of Section 51293 unless the location of such improvement is approved or agreed to pursuant to Section 51293(a) or the compatible use is listed in Section 51293.

SEC. 15. Section 51295 of the Government Code is amended to read:

51295. When any action in eminent domain for the condemnation of the fee title of any land under contract is filed or when such land is acquired in lieu of eminent domain for a public improvement by a public agency or person or whenever there is any such action or acquisition by the federal government or any person, instrumentality or agency acting under authority or power of the federal government, such contract is null and void as to the land actually being condemned or so acquired as of the date the action is filed or so acquired and thereafter the contract shall not be binding on any party to it.

SEC. 16. If Assembly Bill No. 1958 is enacted by the Legislature at its 1967 Regular Session, Section 1.1 of this bill, Assembly Bill No. 1725, will supersede Section 1 of Assembly Bill No. 1958.

However, if no provision is made in any marketing order for reapproval or for termination in less than five years, the director shall at least once each five years hold a hearing, duly noticed and held in accordance with the provisions of this chapter. If the director finds after the hearing that a substantial question exists as to whether such marketing order is contrary to, or does not effectuate the declared purposes or provisions of this chapter within the standards and subject to the limitations and restrictions which are imposed in this chapter, such marketing order shall be submitted for reapproval. The vote for reapproval shall be the same as used for original approval of a marketing order. The director shall determine whether such approval shall be by assent or referendum. An amendment to a marketing order which extends the term thereof shall be deemed a reapproval of the marketing order. A marketing order which within five years prior to the effective date of this act has been amended to fix or extend its term shall be deemed to have been duly reapproved.

[Approved by Governor August 23, 1967. Filed with Secretary of State August 23, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 43801) of Division 17 of the Agricultural Code, as proposed by Senate Bill No. 1, is repealed.

SEC. 2. Chapter 5 (commencing with Section 43801) is added to Division 17 of the Agricultural Code, as proposed by Senate Bill No. 1, to read:

CHAPTER 5. APPLES

Article 1. Standard Apple Grades

43801. Except as otherwise provided in this chapter, apples shall conform to the standards that are prescribed in this article.

43802. The grades which are established by this article are the standard grades for apples. The "extra fancy" is the highest, "fancy" the next highest, and "C" grade the lowest of such grades.

43803. The "extra fancy" grade consists of well grown, properly matured but not overripe apples of one variety which are handpicked, clean, well colored, fairly well formed, free from decay, visible Baldwin spot, Jonathan spot, scald, internal breakdown, visible watercore, bruises (except such bruises as are necessarily caused in proper sorting or packing), broken skin, insect pests, limb rub, spray burn, sunburn, sunscald, russeting except within the basin of the stem, drought spot, hail mark, frost injury, internal browning, apple scab, insect stings and other diseases or defects.

43804. The "fancy" grade consists of well grown, properly matured but not overripe apples of one variety which are handpicked, clean, fairly well colored, fairly well formed, free from decay, visible Baldwin spot, Jonathan spot, soft scald, internal breakdown, visible watercore, broken skin, and insect pests (except San Jose and similar scales); and free from appreciable damage caused by limb rub, spray burn, bruises, sunscald, sunburn, russeting, drought spot, hail mark, frost injury, internal browning, apple scab, flyspeck fungus, stem or calyx cracks, insect pests, and other diseases or defects.

43805. As used in this article "appreciable damage" means any injury or defect which appreciably affects the appearance or quality of the apple. The following defects are not appreciable damage:

(a) Limb rubs that are not soft or do not exceed an aggregate area of three-fourths inch in diameter.

(b) Sunscald, sunburn, and spray burn if the normal color of the skin is but slightly changed, and there is no blistering or cracking of the skin, and not more than a trace of discoloration in the flesh.

(c) Russeting that is excessively rough or barklike, and the aggregate area does not exceed three-fourths inch in diameter.

Russeting that is not excessively rough, and does not appear on more than 15 percent of the surface of any one apple in the aggregate, except in the case of all Pippins and Greenings, when it does not appear on more than 25 percent of the surface of any one apple in the aggregate.

Russeting in the stem cavity that cannot be seen when the apple is placed, stem end down on a flat surface, and viewed from the side of the apple at eye level, shall not be considered when determining the degree of damage due to russeting.

(d) Drought spots where the surface of the apple is only slightly discolored, depressed, and is no more than three-sixteenths of an inch in depth or affects an aggregate area not to exceed one-half inch in diameter.

(e) Hail marks if such marks do not exceed two in number on any one apple and the injury is superficial and the skin has not been broken.

(f) Frost injury that is not more than skindeep and affects an aggregate area that does not exceed one-half of an inch in diameter.

(g) Internal browning that shows not more than a trace of discoloration in the flesh.

(h) Scab spots on any apple that in the aggregate do not exceed one-fourth of one inch in diameter.

(i) Slight flyspeck fungus.

(j) Two well-healed case bearer, codling moth, or aphid stings on an apple, neither of which exceed one-eighth of an inch in diameter exclusive of any encircling green ring.

(k) Stinkbug injury that does not exceed an aggregate area of three-fourths inch diameter on an individual apple.

(l) San Jose and similar scales or marks when the number occurring on a green or yellow surface does not exceed three, or when occurring on a red surface not to exceed five.

(m) Stem or calyx cracks that are well healed and do not exceed one-fourth inch in aggregate length.

(n) Bruises: "soft wet bruises" one inch in aggregate area, or "dry tissue bruises" two inches in aggregate area, providing the damaged tissue does not exceed one-eighth inch in depth.

43806. The "C" grade consists of properly matured but not overripe apples of one variety which are handpicked, virtually clean, free from decay, soft scald, internal breakdown, visible watercore, broken skin, and insect pests (except San Jose and similar scales); and free from serious damage caused by visible Baldwin spot, Jonathan spot, sunscald, sunspots, sunburn, spray burn, hail marks, frost injury, internal browning, bruises, apple scab, insect pests, stem or calyx cracks, storage scald, Jonathan freckle, and other diseases and defects.

43807. As used in this article, "serious damage" means any injury or defect that seriously detracts from the appearance or quality of the apple. The following defects are not serious damage:

(a) Jonathan spot or Baldwin spot, that affects apples of the Newtown Pippin and Bellefleur varieties if no more than 25 percent, by count, of such apples in any one container or bulk lot are affected by no more than three spots each of either or both of such defects. Jonathan spot or visible Baldwin spot in any extent is serious in all other varieties of apples.

(b) Sunscald, sunburn, sunspots and spray burn, if there is no blistering or cracking of the skin or where the flesh is not seriously discolored or injured.

(c) Hail marks or frost injury, when such defects do not cover more than an aggregate area of one-tenth of the surface of the apple or materially deform or disfigure the fruit.

(d) Internal browning. that cannot be detected by external examination or pressure.

(e) Scab spots on any one apple that in the aggregate do not exceed one-half of one inch in diameter.

(f) Five well-healed casebearer, codling moth, or aphid stings on an apple, none of which may exceed one-eighth of an inch in diameter exclusive of any encircling green ring.

(g) Stinkbug injury that does not exceed an aggregate area of one and one-half inch diameter on an individual apple.

(h) Jonathan freckle on any one apple that in the aggregate does not exceed one-half of one inch in diameter.

(i) San Jose and similar scales or marks thinly scattered over not to exceed 10 percent of the surface.

(j) Stem or calyx cracks that are well healed and do not exceed one-half inch aggregate length.

(k) Bruises: "soft wet bruises" one inch in aggregate area, or "dry tissue bruises" two inches in aggregate area, providing the damaged tissue does not exceed one-eighth inch in depth.

Article 2. Definitions

43831. "Consumer-type package" means any closed container or package which will not hold more than 15 pounds net when full.

All apples in consumer-type packages shall conform to one of the following grades: extra fancy, fancy, or a combination grade of extra fancy and fancy, as defined in Article 1 (commencing with Section 43801) of this chapter.

43832. "Cross section" means that section of the apple which is taken at a right angle to a straight line drawn from the stem end to the blossom end of the apple.

43833. "Wrapped" means individual apples that are completely enclosed by a wrapper.

43834. "Handpicked" means that the apples do not show evidence of rough handling or of having been on the ground.

43835. "Insect pests" include San Jose scale, codling moth, and other insects or the larvae, nymphs, or pupae of them, and any apple which has been infested with codling moth and bears evidence of such infestation, with the exception of superficial well-healed codling moth stings.

43836. "Broken skin" includes all stem punctures and all cracks on the stem or calyx end of the apple and is considered a defect in all grades when unhealed and:

(a) The break exceeds one-eighth of an inch in diameter, or

(b) The break exceeds one-eighth of an inch in depth, or

(c) Individual breaks aggregate more than three-sixteenths inch in diameter.

43837. "Place packed" means that the apples are not wrapped and are arranged compactly in layers throughout the container. Such apples need not be uniform in size or in count between the layers.

43838. "Properly matured" means that the apple to which it refers, at the time it was taken from the tree, had reached that stage of minimum maturity, based upon the known and defined factors of maturity, which will insure palatability and the proper completion of the ripening process.

43839. "Minimum diameter" means that the size of apples shall be determined by measurement of the widest cross section of the apple.

43840. "Uniform in size" means: (a) Apples in containers containing 125 apples or less do not vary in size more than three-eighths of an inch at the widest cross section.

(b) Apples in containers containing 138 apples or more do not vary in size more than one-fourth of an inch at the widest cross section.

43841. "Well packed" means packed in regular, compact, diagonal arrangement of all of the fruit in any container, the fruit being compacted, at the time of packing, with sufficient solidity so that it will not move in the container when lidded, the top and bottom of the standard wooden box, when lidded, having a bulge of not less than one-half inch, and, where wrappers are used, all of the apples in the box are wrapped.

Article 3. Tolerances

43861. Tolerances are as follows: 10 percent of the apples in any lot may fail to meet the requirements of the standard grades, but not more than one-half of this amount shall be allowed for one defect. When a tolerance of 10 percent is provided, individual packages in the lot may have not more than double the tolerance specified, provided that the average for the entire lot is within the tolerance specified for the grade. When applying these tolerances to the combination grade, they shall apply only to the lowest grade. An additional tolerance of 5 percent shall be permitted for those apples failing to meet requirements of "minimum size" or "uniform in size."

43862. If apples are in combination of two grades all of the apples in the container or bulk lot shall meet the requirements of the lower grade and at least 50 percent, by count, shall conform to the requirements of the higher grade.

Article 4. Standards Generally

43871. Except as otherwise provided in Section 43872, apples shall be packed to comply with one of the following grades: extra fancy, fancy, "C" grade, or to a combination grade of extra fancy and fancy.

43872. Notwithstanding the provisions of Sections 43871, 43873, 43931 to 43954, and 43991 to 44037, inclusive, of this chapter and in addition to such requirements:

(a) All varieties of Gravenstein apples that are intended for shipment to, or sale within, the North American continent shall conform to one of the following grades: extra fancy, fancy, or a combination grade of extra fancy and fancy, as defined in Article 1 (commencing with Section 43801) of this chapter.

43873. Apples of a standard grade or combination of such grades shall be of such size that the apple will not pass through a ring $2\frac{1}{4}$ inches in diameter. This size requirement does not apply to apples which are well packed, Lady apples, crab apples, or to apples of "C" grade which are loose.

43874. Notwithstanding the provisions of Sections 43803, 43804, and 43806, apples in a container at a retail establishment in possession of the producer for the purpose of resale directly to consumers may be of more than one variety.

Article 5. Maturity Standards Generally

43891. Apples of the varieties Alexander, Red Astrachan, White Astrachan, Beitigheimer, White Winter Pearmain, Greening, Bellefleur, and Fall Pippin need not be properly matured in order to meet the requirements of any grade except extra fancy.

43892. The director may promulgate and establish regulations for minimum maturity standards for Gravenstein varieties of apples. Such standards shall be based upon the known factors of maturity, including soluble solids content of the juice, pressure tests, sizes, color, condition of the flesh, or other recognized methods of measuring the maturity of apples, which will insure that such apples are properly matured.

43893. The following sections of this article are effective only in the counties, or districts within a county, where the apples are produced.

43894. The following provisions of this article shall not be made effective with respect to varieties of apples that are regulated as to maturity by specific standards elsewhere in this article.

43895. The provisions of this article do not apply to apples that are shipped into this state from outside of the state. Such apples shall, however, be properly matured as required in Article 1 (commencing with Section 43801) of this chapter or shall be accompanied by an official certificate that states such apples, at the time of harvest, met the maturity requirements of the state of origin.

43896. As to apples that are produced in this state, the commissioners, under the supervision of the director, may determine, prior to the harvesting season, that apples of designated varieties in any area, county, or district within a county are, or will be, considered to be properly matured on a specified date, such date shall be announced by the commissioners. Designation of varieties shall be on the basis of availability of

adequate data covering the known factors that determine maturity. The determination as to maturity shall be based upon known factors of maturity, and may include soluble solids content of the juice, pressure test, size, color, condition of the flesh, or other recognized methods of measuring the maturity of apples.

43897. The director may adopt regulations to establish minimum maturity standards for apples of designated varieties in any area, county, or district within a county.

43898. Dates of maturity shall be established by the commissioners, under the supervision of the director, for areas, counties, or districts within counties, taking into consideration location, climatic conditions, or other factors that are known to produce apples that vary as to the dates of maturity. Such date of maturity shall be based upon an investigation which includes the testing of the apples from representative orchards in each area and shall be set when such tests generally indicate that the apples in each such area are, or will be, properly matured. The commissioners shall prepare records, based on the factors of maturity that are used each year, and submit a copy to the director.

43899. If the enforcing officers find that apples in certain orchards in an area, county, or a district within a county, do not meet the minimum standards of maturity as prescribed by the director, the apples in such orchards shall not be harvested until released by the enforcing officer.

43900. Notwithstanding the provisions of Article 1 (commencing with Section 43251) of Chapter 3 of this division, apples which are being transported to another county or district within a county for grading or packing shall be properly matured before such movement.

43901. It is unlawful for any person to cause to be transported for grading or packing apples which are grown in this state to another county or district within a county unless an enforcing officer has issued a disposal order to such person. The requirement that each load of such apples be accompanied by a disposal order does not, however, apply if all districts have been released.

Article 6. Exceptions for Apples for Byproduct Use

43931. This division does not prohibit any person, with a permit issued pursuant to this article, from transporting out of the state, apples that fail to comply with the packing, container, marking, or quality requirements of this division if both of the following requirements are complied with:

(a) Such permit is issued for, and is attached to, each load or lot that is transported.

(b) The apples are loose in open containers or are in a bulk load.

43932. A permit may be issued by the commissioner of the county from which the apples are to be transported only if he

has verification by an official of the destination state, satisfactory to the commissioner, that the apples are to be delivered to a purchaser in such state for the manufacture of byproducts on the premises of the purchaser.

The verification shall include a statement by the official making it that, if the apples are so delivered, such official will report to the commissioner who issued the permit as to the byproducts use to which the apples that were transported under the permit were actually put by the purchaser of the apples.

Article 7. Exceptions for Gift Pack Apples

43951. Apples which are in containers that are labeled with the term "gift pack" shall conform to the "extra fancy grade," except that russeting on all Pippin varieties shall not be considered damage unless it would be "appreciable damage" for russeting in the fancy grade.

43952. The containers of apples that are labeled "gift pack" shall be of rigid construction, may contain mixed varieties of apples, and at least 75 percent of the contents of each such container shall be apples.

43953. Containers of apples labeled "gift pack" as provided in this article are exempt from other container and packing requirements in this chapter.

43954. Nothing in this article shall be construed to modify provisions of this division that relate to deception or mislabeling.

Article 8. Controlled Atmosphere Apples

43971. The director shall promulgate regulations, as necessary, to properly establish and maintain the identity of controlled atmosphere apples by storage operators and others that are engaged in the preparation and sale of such apples.

43972. It is unlawful for any person to prepare, pack, sell, or transport for sale any apples which are represented as having been exposed to "controlled atmosphere," or so use any such term or form of words or symbols of similar import on any container or lot of apples within this state, unless both of the following requirements have been complied with:

(a) Such apples have been kept in a room or storage building with not more than 5 percent oxygen for a minimum of 90 days.

(b) The oxygen level was reduced to 5 percent within 20 days after the date of the sealing of the apples in the storage room.

Article 9. Packing Requirements

43991. Apples that are well packed shall be uniform in size and shall be in clean, standard containers. Apples that are place packed shall be in clean containers. Apples of the Lady variety and crab apples are not required to meet packing requirements of this chapter.

Article 10. Apple Containers

44011. The director shall promulgate and establish regulations for standard containers for apples.

Article 11. Markings on Containers

44031. Except as otherwise provided in Section 43952 and Sections 44033 to 44037, inclusive, all containers of apples shall bear upon them in plain sight and in plain letters on one outside end all of the following information:

(a) The name of the person that first authorized the packing of the apples or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer.

(b) One of the grades, as defined in this chapter, or the equivalent U.S. grade.

(c) The minimum diameter when loose in containers, except when sold by producer directly to ultimate consumer on the premises where grown.

In addition, all closed containers shall be labeled with:

(d) Variety of the apples that are in the container, if known, or if not known "unknown variety."

(e) The minimum net weight or cubical contents or numerical count of the apples that are in the container.

Minimum diameter of the apples shall be plainly marked on the container in terms of whole inches and not less than eighth-inch fractions thereof; followed by the words "minimum diameter" or their abbreviations.

44032. A variation of five apples, more or less, than the number stated shall be allowed, except that if the apples are placed in molded forms, the exact count shall be marked on the container.

44033. Containers of gift packed apples shall be conspicuously marked on one outside surface, excluding the bottom surface, with all of the following information:

(a) The name of the person that first packed or authorized the packing of such gift pack apples together with a sufficiently explicit address to permit ready location of such packer.

(b) The net weight or count of the apples in the container.

(c) The words "gift pack" in letters not less than one inch in height.

44034. Consumer-type packages are required to show only the name and address of the person that first packed or authorized the packing of the apples, and the designation of grade.

44035. All master containers, containing consumer packages of apples, are required to show the following information:

(a) Name and address of the person that first packed or authorized the packing of the apples.

(b) Variety.

(c) Grade.

44036. Apples of the Lady variety and crab apples are exempt from the grade markings of this article.

44037. In lieu of the standard grade markings required by this article, any container of apples may be marked with one of the grades established in the official United States standards for apples, if the apples conform to the grade as marked and the grades are approved by the director. The provisions of this section shall in no way permit apples to be of a lower grade or size requirement than the standards as required in Sections 43806, 43831, 43871, and 43873.

the animal suffers loss of consciousness by anemia of the brain caused by the simultaneous and instantaneous severance of the carotid arteries with a sharp instrument.

19502. The regulations adopted under this chapter shall conform as far as possible to the regulations of the United States Department of Agriculture governing methods of slaughtering.

19503. The Department of Agriculture shall enforce the provisions of Section 19501 and is authorized and directed to perform the following duties:

Designate, on or before March 1, 1968, and at such times thereafter as it deems advisable, methods of slaughter and of handling in connection with slaughter, with respect to each species of livestock enumerated in Section 19501, which conform to the provisions of Section 19501. In addition, the department may designate other methods not specifically described in Section 19501. Article 2. Duties

Notwithstanding other laws to the contrary, in the event a milk market-

ing order under the jurisdiction of the United States Department of Agriculture or other appropriate federal agency, is created by referendum or under the applicable laws and procedures relating thereto, in this state or in any geographical area within this state, the provisions of this chapter or any part thereof which is in conflict with such federal order, or which is unnecessary or is a duplication thereof, shall be suspended in the geographical area covered by and during the existence of such federal order. The director shall take such steps and procedures as are necessary to wind up and conclude the administration and enforcement of the provisions of this chapter, or any part thereof, for the period prior to the suspension date.

SEC. 2. Section 62492 of the Agricultural Code as proposed by Senate Bill No. 1 is amended to read:

(c) The owner's or operator's estimate of the depths between which production will be attempted.

(d) Such other pertinent data as the supervisor may require on the printed forms to be supplied by the Division of Oil and Gas, or on forms acceptable to the supervisor.

After the completion of any well the provisions of this section, other than the requirement of the payment of the fee, shall also apply, as far as may be, to the deepening or redrilling of the well, or any operation involving the plugging of the well, or any operations permanently altering in any manner the casing of the well. 3737. Except as otherwise provided in Section 3729, a well is completed, for the purposes of this chapter, 30 days after it has commenced to produce a geothermal resource unless drilling operations are resumed before the end of the 30-day period.

SEC. 20. Section 3739 of the Public Resources Code is amended to read:

3739. Any person engaged in operating any wells wherein high pressures are known to exist, and any person drilling for geothermal resources in any district where the pressures are unknown shall equip the well with casings of sufficient strength, and with such other safety devices as may be necessary, in accordance with methods approved by the super-

SEC. 21. Section 3740 of the Public Resources Code is amended to read:

3740. The owner or operator of any well on lands producing or reasonably presumed to contain geothermal resources shall properly case it with watertight and adequate casing, in accordance with methods approved by the supervisor or the district deputy. The owner or operator shall also use every reasonable effort and endeavor to shut out detrimental substances from strata containing water suitable for irrigation or domestic purposes and from surface water suitable for such purposes, and to prevent the infiltration of detrimental substances into such strata and into such surface water.

SEC. 23. Section 3742 of the Public Resources Code is amended to read:

3742. There is hereby created in the Department of Conservation a Geothermal Resources Board. The board shall consist of the following or their respective designees: the Director of Conservation, who shall serve as chairman of the board; the State Geologist, who shall serve as secretary to the board; the State Oil and Gas Supervisor; the Executive Officer of the State Lands Commission; the Chairman of the State Water Resources Control Board; the Director of Water Resources; and the President of the Public Utilities Commission.

SEC. 24. Section 3742.1 is added to the Public Resources Code, to read:

3742.1. The board, to be best able to make its recommendations with respect to the classification of areas as geothermal resources areas, and to allow for the most orderly development of geothermal resources within the state, shall require the filing of drilling logs, descriptions of cores and samples, and drilling histories by all persons engaged in exploration for or production of geothermal resources. All such information secured by the supervisor or the district deputy shall be filed in sufficient number of copies with the supervisor or district deputy to permit transmission thereof to the Division of Mines and Geology for use by the board.

The board is authorized to require such other information as it may deem necessary to perform its responsibilities.

SEC. 25. Section 3742.2 is added to the Public Resources Code, to read:

3742.2. Any person having drilled a well or wells on state, federal or private lands which are producing or, according

to the Geothermal Resources Board, are capable of producing geothermal resources, may, at any time, apply to the board for a certificate of primary purpose. When the board determines that such well or wells are primarily for the purpose of producing geothermal resources and not for the purpose of producing water usable for domestic and irrigation purposes, the board shall issue a certificate of primary purpose to such person. Such certificate shall establish a rebuttable presumption that such person has absolute title to the geothermal resources reduced to his possession from such well or wells. Such presumption may be rebutted only upon a showing that the water content of the geothermal resources is useful for domestic or irrigation purposes without further treatment thereof, but not by virtue of any production of such water as a by-product incident to the production of the geothermal resources.

SEC. 26. Section 3745 of the Public Resources Code is amended to read:

3745. The owner of any well producing geothermal resources shall file with the supervisor, on or before the 10th day of each month, for the last preceding calendar month, a statement of production utilized in such form as the supervisor may designate.

SEC. 27. Section 3752 of the Public Resources Code is amended to read:

3752. The records of any operator, when filed with the district deputy, the supervisor, or the board as provided in this chapter, shall be open to inspection only to those authorized in writing by such operators, to the state officers, and to the Geothermal Resources Board.

Such records shall in no case other than those expressly provided in this chapter, be available as evidence in court proceedings. No officer or employee or member of the board shall be allowed to give testimony as to the contents of such records except as are provided in this chapter for the review of a decision of the supervisor or the Geothermal Resources Board, or in any proceeding initiated for the enforcement of an order of the supervisor, or for the enforcement of a lien created by this chapter, or in criminal proceedings arising out of such records or the statements upon which they are based.

A copy of any document, order, requisition, or decision made, executed, or issued by the supervisor or the district deputy, when certified by the supervisor or the district deputy to be a true copy of the original, shall be received in evidence in any proceeding herein provided, in like manner and with the same effect as the original.

The records of any operator who is defunct or no longer in business in California and which relate to an abandoned or deserted well shall be open to inspection or for copying by anyone after the supervisor determines that the conditions specified are met.

The records of any operator filed for a completed or producing well that has been transferred by sale, lease, or otherwise shall be available to the new owner or lessee for his inspection or copying and shall also be available for inspection or copying by others upon the written authorization of such new owner or lessee.

SEC. 28. Section 3753 of the Public Resources Code is amended to read:

3753. Upon receipt by the supervisor or by a district deputy of a written complaint, alleging a condition in violation of this chapter, specifically setting forth the condition complained against, signed by the complainant; or upon a written complaint specifically setting forth the condition complained against, signed by a member of the Geothermal Resources Board, the supervisor shall make an investigation of the well or wells and make a written report and order, stating the work required to repair the damage complained of, or stating that no work is required.

A copy of the order shall be delivered to the complainant, or if more than one, to each complainant, and, if the supervisor orders the damage repaired a copy of the order shall be delivered to each of the owners, operators, or agents having in charge the well or wells upon which the work is to be done.

The order shall contain a statement of the conditions sought to be remedied or repaired and a statement of the work required by the supervisor to repair the condition. Service shall be made by mailing copies to such persons at the post office address given.

SEC. 29. Section 3756 of the Public Resources Code is amended to read:

3756. Whenever the Geothermal Resources Board finds that it is in the interest of the protection of geothermal resources from unreasonable waste, the lessors, lessees, operators or other persons owning or controlling royalty or other interests in the separate properties of the same producing or prospective geothermal area, may, with the approval of the board, enter into agreements for the purpose of bringing about the cooperative development and operation of all or a part or parts of the area, or for the purpose of bringing about the development or operation of all or a part or parts of such area as a unit, or for the purpose of fixing the time, location, and manner of drilling and operating of wells for the production of geothermal resources. Any such agreement shall bind the successors and assigns of the parties thereto in land affected thereby and shall be enforceable in an action for specific performance. No such agreement when approved by the board hereunder shall be held to violate any of the statutes of this state prohibiting monopolies or acts, arrangements, agreements, contracts, combinations or conspiracies in restraint of trade or commerce.

SEC. 30. Section 3757 of the Public Resources Code is amended to read:

3757. Any well hereafter drilled for the discovery and production of geothermal resources, which is located within 100 feet of an outer boundary of the parcel of land on which the well is situated, or within 100 feet of a public road or street or highway dedicated prior to the commencement of drilling of the well, is a public nuisance.

SEC. 31. Section 3758 of the Public Resources Code is amended to read:

3758. Where several contiguous parcels of land in one or different ownerships are operated as a single geothermal resources lease or operating unit, the term "outer boundary line" means the outer boundary line of the lands included in the lease or unit. In determining the contiguity of any such parcels of land, no street, road or alley lying within the lease or unit shall be deemed to interrupt such contiguity.

SEC. 32. Section 3760 of the Public Resources Code is amended to read:

3760. Each day in which the drilling of any well is carried on, or on which it is permitted to produce geothermal resources in violation of this chapter is a separate nuisance.

SEC. 33. Section 3761 of said code is amended to read:

3761. The provisions regarding the location of geothermal resources wells do not apply to any wells producing geothermal resources on the effective date of this act.

SEC. 34. Section 3762 of the Public Resources Code is amended to read:

3762. The lessor, lessee, or any operator or any well owner, or the owner of any rig, derrick, or other operating structure, or his local agent, shall within five days from the date of the service of any order from the supervisor or a district deputy, either comply with the order or file with the supervisor or the district deputy a written statement that the order is not acceptable, and that appeal from the order is taken to the Geothermal Resources Board under the provisions of this chapter.

Any such appeal shall operate as a stay of any order issued under or pursuant to the provisions of this chapter.

SEC. 35. Section 3763 of the Public Resources Code is amended to read:

3763. Immediately upon filing of a notice of appeal the secretary of the board shall call a meeting of the board to hear and pass upon the appeal.

The hearing upon the appeal before the board shall be de novo and at such place as the board may designate.

SEC. 35.2. Section 3765 of the Public Resources Code is amended to read:

3765. The board, after hearing, shall affirm, set aside, or modify the order from which the appeal is taken, as determined by a majority of the whole board.

Within 10 days after hearing the evidence, the board shall make a written decision with respect to the order appealed from. The decision of the board shall forthwith be filed with the supervisor and upon such filing shall be final. In case the

order is affirmed or modified, the board shall retain jurisdiction until such time as the work ordered to be done by the order is finally completed.

The written decision shall be served upon the lessor, lessee, or any operator or any well owner, or the owner of any rig, derrick, or other operating structure, or his local agent, and shall supersede the previous order of the supervisor. In case no written decision is made by the board within 30 days after the date of notice of hearing as provided in Section 3764, the order of the supervisor shall be effective upon the supervisor's notifying any such person that the board has failed to make a decision and subject only to review by writ of certiorari from the superior court as provided in this chapter.

SEC. 35.3. Section 3766 of the Public Resources Code is amended to read:

3766. The decision of the board, or in the event the board fails to make a decision within 30 days after notice of hearing, then the order of the supervisor, may be reviewed by writ of certiorari from the superior court of the county in which the well, or wells, affected by the order is situated, if taken within 10 days after the service of the decision upon the lessor, lessee, or any operator or any well owner, or the owner of any rig, derrick, or other operating structure, or his local agent, as provided in Section 3765; or if the board fails to make a decision, then within 10 days after the supervisor notifies any such person of such fact, or within 10 days after decision by the board upon a petition by the supervisor. The writ shall be made returnable not later than 10 days after its issuance and it shall direct the board to certify their record in the cause to the court. On the return day the cause shall be heard by the court unless for good cause it is continued, but no continuance shall be permitted for a longer period than 30 days.

SEC. 35.4. Section 3768 of the Public Resources Code is amended to read:

3768. If a review is not taken within 10 days, or if taken, in case the decision of the board is affirmed, the lien upon the property shall be enforced in the same manner as are other liens on real property, and shall first be enforced against the lessor, lessee, or any operator or any well owner, or the owner of any rig, derrick, or other operating structure, or his local agent, and against the personal property and fixtures used in the construction or operation thereof, and then, if there is any deficiency, against the land upon which the work is done. Upon the request of the supervisor, the State Controller shall bring an action for the enforcement of the lien in the manner provided in this chapter.

SEC. 36. Section 3770 of the Public Resources Code is amended to read:

3770. Witnesses shall be entitled to receive the fees and mileage fixed by law in civil causes, payable from the Geothermal Resources Account of the Petroleum and Gas Fund.

SEC. 37. Section 3772 of the Public Resources Code is amended to read:

3772. If any charge or penalty imposed under this chapter is not paid when due, and the person against whom the charge or penalty has been imposed has been given an opportunity for hearing before the State Oil and Gas Supervisor as to the validity of such charge or penalty, the State Controller may record in the office of any county recorder, a certificate specifying the amount of the charges, interest and penalty due, the name and address of the person charged, and the statement that there has been compliance with all the provisions of law in relation to the computation of the charges.

From the time of recording the amount of the charges, interest, and penalty set forth constitutes a lien upon the property in the county owned by the person charged or afterwards and before the lien expires acquired by him. The lien shall have the force, effect, and priority of a judgment lien and shall continue for 10 years from the date of the recording unless it has been released or otherwise discharged.

Within 10 years from the date of the recording or within 10 years from the date of the last extension of the lien, in the manner provided for in this section, the lien may be extended by recording in the office of the county recorder of any county a new certificate. From the time of the recording, the lien shall attach to the property in the county and shall continue for a period of 10 years from the date of the recording unless it has been released or otherwise discharged.

A warrant may be issued by the State Controller or his duly authorized representative for the collection of any charges, interests and penalty and for the enforcement of any such lien directed to the sheriff or constable and shall have the same effect as a writ of execution. It may and shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution.

The sheriff or constable shall receive, upon the completion of his services pursuant to a warrant, and the Controller is authorized to pay to him the same fees and commissions and expenses in connection with services pursuant to said warrant as are provided by law for similar services pursuant to a writ of execution; provided, that fees for publication in a newspaper shall be subject to approval by the Controller rather than by the court; said fees, commissions and expenses shall be an obligation of the person or persons liable for the payment of said charges and may be collected from such person or persons by virtue of the warrant or in any other manner provided in this chapter for the collection of such charges.

In the event that the lien of the charges, penalties or interest attaches to real property from which geothermal energy is extracted and more than one parcel of property is included within the lien, the Controller may release by certificate as

hereinabove provided from the lien of said charges, interest and penalties and costs, upon payment by the owner of any parcel or parcels of property of his proportionate share of the charges.

The Controller may at any time release all or any portion of the property subject to the lien from the lien or subordinate the lien to other liens if he determines that the charges are sufficiently secured by a lien on other property of the taxpayer or that the release or subordination of the lien will not endanger or jeopardize the collection of such charges. A certificate by the Controller to the effect that any property has been released from the lien herein provided for or that such lien has been subordinated to other liens shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

SEC. 38. Section 6805 of the Public Resources Code is amended to read:

6805. The commission shall reserve and may exercise the authority to cancel any prospecting permit or lease upon which a commercially valuable deposit of minerals or geothermal resources other than oil or gas has not been discovered or upon which oil or gas has not been discovered in paying quantities upon failure of the permittee or lessee (after 30 days' written notice and demand for performance) to exercise due diligence and care in the prosecution of the prospecting or development work in accordance with the terms and conditions of the permit or lease. After discovery of a commercially valuable deposit of minerals or geothermal resources other than oil or gas on lands subject to any permit or lease issued pursuant to this chapter, or after discovery of oil or gas in paying quantities on lands subject to any lease, such permit or lease may be forfeited and canceled only upon failure of the lessee after 90 days' written notice and demand to comply with any of the provisions of the permit or least or of the regulations applicable thereto and in force at the date of the permit or lease; provided, however, that in the event of any such cancellation the lessee under any oil or gas lease or the permittee or lessee under any geothermal resource permit or lease shall have the right to retain under said permit or lease any and all drilling or producing wells as to which no default exists, together with a parcel of land surrounding each such well or wells and such rights-of-way through the lands, under permit or lease, as may be reasonably necessary to enable such permittee or lessee to drill and operate such retained well or wells. In the event of the cancellation of any permit or lease the permittee or lessee shall have a reasonable time within which to remove any and all property, equipment and facilities owned or used by the permittee or lessee in connection with operations under the permit or lease. The commission shall insert in every permit or lease issued under this chapter appropriate provisions for its cancellation in accordance with the provisions of this section.

SEC. 39. Article 5.5 (commencing with Section 6902) is added to Chapter 3, Division 6 of the Public Resources Code, to read:

Article 5.5. Geothermal Resources

6902. This article shall be known and may be cited as the Geothermal Resources Act of 1967.

6903. For the purposes of this chapter, "geothermal resources" shall mean the natural heat of the earth, the energy, in whatever form, below the surface of the earth present in, resulting from, or created by, or which may be extracted from, such natural heat, and all minerals in solution or other products obtained from naturally heated fluids, brines, associated gases, and steam, in whatever form, found below the surface of the earth, but excluding oil, hydrocarbon gas or other hydrocarbon substances.

6904. Prospecting permits and leases for the extraction and removal of geothermal resources from lands belonging to the state may be issued by the commission as provided in this article. For purposes of this article, state lands shall be defined as all lands owned by the state, including school lands, proprietary lands, tidelands, submerged lands, swamp and overflowed lands, and beds of navigable rivers and lakes, and lands in which geothermal resources have been reserved to the state.

6905. Prospecting permits and leases under this article may be issued only to those who qualify for prospecting permits and leases under Section 6801 of this code.

6906. Administration of this article shall be under the principle of multiple use of public lands and resources, and shall allow coexistence of other permits or leases of the same lands for deposits of other minerals under applicable laws, and the existence of permits or leases issued pursuant to the provisions of this article shall not preclude other uses of the areas covered thereby. However, operations under such other permits or leases or such other uses shall not unreasonably interfere with or endanger operations under any permit or lease issued pursuant to this article, nor shall operations under permits or leases issued pursuant to the provisions of this article unreasonably interfere with or endanger operations under any permit or lease issued pursuant to the provisions of any other act. Nor shall this article be construed as superseding the authority which the head of any state department or agency has with respect to the management, protection, and utilization of the state lands and resources under his jurisdiction. The commission may prescribe in its rules and regulations those conditions it deems to be necessary for the protection of other resources.

6907. Where it is determined by the commission independently or on advice of the Geothermal Resources Board that the production or use of geothermal resources is also susceptible of economically producing other of the geothermal resources in commercially valuable quantities, and a market

therefor exists. production of such other geothermal resources may be required by the commission.

6908. An application for a prospecting permit or lease shall not be made for less than 640 acres nor more than 2,560 acres and shall embrace a reasonably compact area; provided, however, that a permit or lease may be issued for a parcel less than 640 acres if such parcel is isolated from or not contiguous with other parcels of land available for permit or lease hereunder. The commission may provide for compensatory agreements on those parcels of state land which it feels should be subjected to such agreements rather than to leasing thereof. No person, association, or corporation shall take, hold, own, or control at one time, whether acquired directly from the commission under this act or otherwise, any direct or indirect interests in state geothermal leases exceeding 25,600 acres. Prospecting permits or leases for lands beneath lakes and rivers, and below the mean high tide level of tide and submerged lands, may be issued for not less than 640 acres nor more than 5,760 acres and shall embrace a reasonably compact area, except that a permit or lease may be issued for a parcel less than 640 acres if such parcel is isolated from or not contiguous with other parcels of land available for permit or lease hereunder. No limitation shall apply to the number of permits or leases granted under this act.

6909. Subject to the provisions of Section 6906, the commission shall issue a permit to the first qualified applicant therefor under such rules and regulations as it may prescribe for lands which have not been classified as known geothermal resources lands, upon the payment to the commission of one dollar ($1) per acre for each acre of lands included in the permit, in accordance with subdivision (c) of Section 6913 of this code An application for a permit shall be denied if, prior to the issuance of the permit, the lands are classified or reclassified as known geothermal resources lands pursuant to subdivision (b) of Section 6912.

6910. A permit shall give to the permittee the exclusive right for a period of three years to prospect for geothermal resources upon lands included within said permit. The commission may, in its discretion, extend the primary term of any permit for a period not exceeding two years; provided that the combination of the primary term and extension of any permit shall not exceed a total of five years The commission may amend or terminate any permit issued by it within the primary term period or within the extension, if any, with the consent of the permittee.

6911. Upon the classification of any of the lands included within a permit issued under this article as being known geothermal resources lands, the permittee shall be entitled to a lease for such lands in accordance with Section 6918 of this code. The classification of any such lands shall be made in accordance with subdivision (b) of Section 6912 of this code. The

terms of such lease shall include the royalties and other terms contained in Section 6913 on the effective date of the lease.

6912. (a) If the lands to be leased under this article are within a known geothermal resources area and no permit thereon has been issued, such lands shall be leased to the highest responsible qualified bidder under such rules and regulations as the commission may prescribe for notice to the public of terms and conditions of the sale, conduct of the sale, receipt of bid, and awarding of the lease, and bidding shall be by competitive bid and on the basis of a cash bonus, net profit, or other single biddable factor.

(b) The classification of a known geothermal resources area, which shall contain at least one well capable of producing geothermal resources in commercial quantities, shall be made by the commission independently or upon recommendations of the Geothermal Resources Board.

(c) The commission shall have the power in leasing lands hereunder to prescribe a development program. In prescribing such program, the commission shall consider all applicable economic factors, including market conditions and the cost of drilling for, producing, processing and utilizing of geothermal resources.

6913. Each permit and lease issued under this article shall provide for the following rentals and royalties with respect to geothermal resources produced, saved and sold from the lands included within said permit or lease:

(a) A royalty of 10 percent of the gross revenue, exclusive of charges, approved by the commission, made or incurred with respect to transmission or other services or processes, received from the sale of steam, brines, from which no minerals have been extracted, and associated gases at the point of delivery to the purchaser thereof.

(b) A royalty of not less than 2 percent nor more than 10 percent of the gross revenue received from the sale of mineral products or chemical compounds recovered from geothermal fluids in the first marketable form as to each such mineral product or chemical compound for the primary term of the lease

(c) An annual rental payable in advance of one dollar ($1) per acre or fraction thereof for each year of a permit or lease.

(d) If, after the discovery of geothermal resources in commercial quantities, the total royalties due to the state during any calendar year do not equal or exceed a sum equal to two dollars ($2) per acre for each acre or fraction thereof then included in the permit or lease, the permittee or the lessee shall, within 60 days after the end of the year, pay such sum as is necessary to equal a minimum royalty of two dollars ($2) per acre.

(e) The royalties specified herein shall be subject to renegotiation after 20 years from the effective date of the lease and at 10-year intervals thereafter based upon recommendations of the Geothermal Resources Board, and such renegotiations shall

not be limited by the maximum royalties specified in subdivisions (a) and (b).

Royalty payments shall be made pursuant to the provisions of subdivisions (a) and (b) for all geothermal resources used by the permittee or lessee and not sold, with the gross revenue therefrom to be determined as though said geothermal resources had been sold to a third person at the then prevailing market price in the same market area and under the same marketing conditions; provided, however, that no royalties shall be payable for steam used by the permittee or lessee in the production of any geothermal mineral products or chemical compounds recovered from geothermal fluids in first marketable form subject to the payment of royalties under subdivisions (a) or (b).

6914. The holder of any geothermal resources permit or lease may quitclaim or relinquish his rights under such permit or lease pursuant to the provisions of Section 6804.1 of this code.

6915. Subject to the other provisions of this article, the permittee or lessee shall be entitled to use so much of the surface as is reasonably necessary as determined by the commission for the production and conservation of geothermal resources.

6916. The commission independently or upon the advice of the Geothermal Resources Board, may waive, suspend, or reduce the rental or minimum royalty for the lands included in any permit or lease, or any portion thereof, and waive, suspend, alter or amend the operating requirements contained in the lease or regulations promulgated hereunder affecting operations of the lease or permit, in the interests of conservation, and to encourage the greatest ultimate recovery of geothermal resources if it determines that such action is necessary or beneficial to promote development or finds that the permit or lease cannot be successfully operated under the permit or lease terms or under the regulations. The commission shall file a report with the Legislature annually on all waivers, suspensions, reductions, alterations or amendments made by the commission pursuant to the provisions of this section together with the reasons therefor.

6917. A permit or lease may be terminated by the commission only pursuant to the provisions of Section 6805 of this code.

6918. Leases under this article shall be for a primary term of 20 years and so long thereafter as geothermal resources are being produced or utilized or are capable of being produced or utilized in commercial quantities from such lands or from lands unitized therewith; provided, that such leases shall not exceed a term of 99 years.

6919. Notwithstanding any other provision of this article, at any time within 180 days following the effective date of this article any person who prior to the effective date of this article has made application for or who holds an unexpired prospecting permit or lease issued by the commission prior

to said date, upon showing to the satisfaction of the commission that such application, prospecting permit, or lease, as the case may be, was made or issued to develop geothermal resources, may convert it to an application, permit, or lease under this article, having a priority dating from the date of filing or issuance thereof. Conversion of such application, prospecting permit, or lease shall be accomplished in accordance with procedures prescribed by the commission; provided, however, that the competitive bidding provisions of Section 6912 shall not be applicable to conversion of such application, permit, or lease.

6920. Any person engaged in the production of geothermal resources under a lease issued by the commission may commingle geothermal resources from any two or more wells without regard to whether such wells are located on the lands for which such lease was issued or elsewhere, provided, however, that said lessee shall install and maintain meters or other measuring devices satisfactory to the commission to measure the amount of geothermal resources produced from lands for which leases were issued by the commission.

6921. A permittee or lessee may upon the approval of the commission drill special wells, convert producing wells or reactivate and convert abandoned wells for the sole purpose of reinjecting geothermal resources or the residue thereof.

6922. In case of an application for a permit or lease covering lands which have been sold by the state, subject to a reservation by the state of the geothermal resources thereof, by anyone other than the owner of such lands, the owner shall have six months from the date of service of notice on the owner of such application within which to file his application for a permit or lease. Such notice shall be served by the applicant together with a copy of the application. If the owner exercises his rights hereunder and is a qualified person, his application shall be granted but subject to all the other provisions of this article. If the owner fails to exercise the rights granted by this section, then the owner's rights hereunder shall thereupon cease and terminate and the original applicant shall be permitted to proceed with his application.

In the event that the lands subject to such classification are classified as being within a known geothermal resource area, then, after the commission has determined the highest competitive bid thereon, the owner may within 10 days after notification by the commission submit a bid identical to such highest acceptable bid, in which case the commission shall issue a lease to such surface landowner. If the surface landowner does not file such a bid within such period of time, the commission may proceed with the award of the bid to other than such surface landowner.

6923. For the purpose of more properly conserving the natural resources of any geothermal resources areas, or any part thereof, the lessees thereof may unite with each other or with others in collectively adopting and operating under a co-

operative or unit plan of development or operation of such geothermal resources lands, consistent with the provisions of Section 3756 of this code. The commission may, with the consent of the holders of leases involved, establish, alter, change, and revoke any drilling and production requirements of such leases, permit apportionment of production, and may make such regulations with reference to such leases, with like consent on the part of such lessees, in connection with the institution and operation of any such cooperative or unit plan, as the commission deems necessary or proper to secure the proper protection of the interests of the state.

6924. Where the surface of state-owned lands sought for use or development of geothermal resources or the waters thereon are under the jurisdiction of a state department or agency other than the commission, the commission may issue permits or leases under this article only with the consent of and subject to such reasonable terms and conditions as may be prescribed by such other department or agency to insure the adequate utilization of the surface of the lands or the waters thereon for the purposes for which they are then being administered or for which they were acquired, provided, however, that such other department or agency shall not prescribe any terms and provisions inconsistent with this article nor any rental or royalty for the use of said lands.

6925. A permit or lease under this article may be assigned, transferred, or sublet as provided for in Section 6804 of this code.

CHAPTER 1399

An act to amend Sections 24348, 24455, 24504, and 24670 of, and to add Sections 24274 and 24457 to, the Revenue and Taxation Code, relating to bank and corporation taxes.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 24274 is added to the Revenue and Taxation Code, to read:

24274. The amount of any increase in the suspense account required by paragraph (4)(B)(ii) of Section 24348(b) (relating to certain debt obligations guaranteed by dealers) shall be included in gross income for the income year for which such increase is required.

SEC. 2. Section 24348 of the Revenue and Taxation Code is amended to read:

24348. (a) There shall be allowed as a deduction debts which become worthless within the income year; or, in the discretion of the Franchise Tax Board, a reasonable addition to a reserve for bad debts. When satisfied that a debt is

recoverable in part only the Franchise Tax Board may allow such debt, in an amount not in excess of the part charged off within the income year, as a deduction; provided, however, that if a debt was actually worthless prior to January 1, 1943, but was not ascertained to be worthless and charged off prior to said date, a deduction may be taken therefor during the first income year ending after December 31, 1942; and, provided, that if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt which in any prior year was charged off, regardless of whether claimed as a deduction in such prior year.

(b) (1) In the case of a taxpayer who is a dealer in property, in lieu of any deduction under subdivision (a), there shall be allowed (in the discretion of the Franchise Tax Board) for any income year beginning on and after January 1, 1967, a deduction—

(A) For a reasonable addition to a reserve for bad debts which may arise out of its liability as a guarantor, endorser, or indemnitor of debt obligations arising out of the sale by it of real property or tangible personal property (including related services) in the ordinary course of its trade or business; and

(B) For the amount of any reduction in the suspense account required by paragraph (4)(B)(i).

(2) Except as provided in paragraph (1), no deduction shall be allowed to a taxpayer for any addition to a reserve for bad debts which may arise out of its liability as guarantor, endorser, or indemnitor of debt obligations.

(3) The opening balance of a reserve described in paragraph (1)(A) for the first income year beginning on and after January 1, 1967, for which a taxpayer maintains such reserve shall, under regulations prescribed by the Franchise Tax Board, be determined as if the taxpayer had maintained such reserve for the preceding income years.

(4) (A) Except as provided by subparagraph (C), each taxpayer who maintains a reserve described in paragraph (1)(A) shall, for purposes of this subdivision and Section 24274, establish and maintain a suspense account. The initial balance of such account shall be equal to the opening balance described in paragraph (3).

(B) At the close of each income year the suspense account shall be—

(i) Reduced by the excess of the suspense account at the beginning of the year over the reserve described in paragraph (1)(A) (after making the addition for such year provided in such paragraph), or

(ii) Increased (but not to an amount greater than the initial balance of the suspense account) by the excess of the reserve described in paragraph (1)(A) (after making the addition for such year provided in such paragraph) over the suspense account at the beginning of such year.

(C) Subparagraphs (A) and (B) shall not apply in the case of the taxpayer who maintained for its last income year beginning before January 1, 1967, a reserve for bad debts under subdivision (a) which included debt obligations described in paragraph (1)(A).

(5) If the taxpayer establishes a reserve under subdivision (b)(1) of this section for an income year beginning on and after January 1, 1967, and ending before December 1, 1968, the establishment of such reserve shall not be considered as a change in method of accounting for purposes of Section 24651(e).

SEC. 3. Section 24455 of the Revenue and Taxation Code is amended to read:

24455. (a) If a corporation redeems its stock (within the meaning of Section 24496(b)), and if paragraph (1), (2), (3) or (4) of subdivision (b) applies, such redemption shall be treated as a distribution in part or full payment in exchange for the stock.

(b) (1) Subdivision (a) shall apply if the redemption is not essentially equivalent to a dividend.

(2) (A) Subdivision (a) shall apply if the distribution is substantially disproportionate with respect to the shareholder.

(B) This paragraph shall not apply unless immediately after the redemption the shareholder owns less than 50 percent of the total combined voting power of all classes of stock entitled to vote.

(C) For purposes of this paragraph, the distribution is substantially disproportionate if—

(i) The ratio which the voting stock of the corporation owned by the shareholder immediately after the redemption bears to all of the voting stock of the corporation at such time, is less than 80 percent of—

(ii) The ratio which the voting stock of the corporation owned by the shareholder immediately before the redemption bears to all of the voting stock of the corporation at such time.

For purposes of this paragraph, no distribution shall be treated as substantially disproportionate unless the shareholder's ownership of the common stock of the corporation (whether voting or nonvoting) after and before redemption also meets the 80 percent requirement of the preceding sentence. For purposes of the preceding sentence, if there is more than one class of common stock, the determinations shall be made by reference to fair market value.

(D) This paragraph shall not apply to any redemption made pursuant to a plan the purpose or effect of which is a series of redemptions resulting in a distribution which (in the aggregate) is not substantially disproportionate with respect to the shareholder.

(3) Subdivision (a) shall apply if the redemption is in complete redemption of all of the stock of the corporation owned by the shareholder.

(4) Subdivision (a) shall apply if the redemption is of stock issued by a railroad corporation (as defined in Section 77(m) of the Bankruptcy Act, as amended) pursuant to a plan of reorganization under Section 77 of the Bankruptcy Act.

(5) In determining whether a redemption meets the requirements of paragraph (1), the fact that such redemption fails to meet the requirements of paragraph (2), (3), or (4) shall not be taken into account. If a redemption meets the requirements of paragraph (3) and also the requirements of paragraph (1), (2), or (4), then so much of subdivision (c)(2) as would (but for this sentence) apply in respect of the acquisition of an interest in the corporation within the 10-year period beginning on the date of the distribution shall not apply.

(c) (1) Except as provided in paragraph (2) of this subdivision, Section 24497(a) shall apply in determining the ownership of stock for purposes of this section.

(2) (A) In the case of a distribution described in subdivision (b)(3), Section 24497(a)(1) shall not apply if—

(i) Immediately after the distribution the distributee has no interest in the corporation (including an interest as officer, director, or employee), other than an interest as a creditor,

(ii) The distributee does not acquire any such interest (other than stock acquired by request or inheritance) within 10 years from the date of such distribution, and

(iii) The distributee, at such time and in such manner as the Franchise Tax Board by regulations prescribes, files an agreement to notify the Franchise Tax Board of any acquisition described in clause (ii) and to retain such records as may be necessary for the application of this paragraph.

If the distributee acquires such an interest in the corporation (other than by bequest or inheritance) within 10 years from the date of the distribution, then the periods of limitation provided in Chapter 20 and Chapter 23 on the making of an assessment and the collection by levy or a proceeding in court shall, with respect to any deficiency (including interest and additions to the tax) resulting from such acquisition, include one year immediately following the date on which the distributee (in accordance with regulations prescribed by the Franchise Tax Board) notifies the Franchise Tax Board of such acquisition; and such assessment and collection may be made notwithstanding any provision of law or rule of law which otherwise would prevent such assessment and collection.

(B) Subparagraph (A) of this paragraph shall not apply if—

(i) Any portion of the stock redeemed was acquired, directly or indirectly, within the 10-year period ending on the date of the distribution by the distributee from a person the ownership of whose stock would (at the time of distribution) be attributable to the distributee under Section 24497(a), or

(ii) Any person owns (at the time of the distribution) stock the ownership of which is attributable to the distributee under

Section 24497(a) and such person acquired any stock in the corporation, directly or indirectly, from the distributee within the 10-year period ending on the date of the distribution, unless such stock so acquired from the distributee is redeemed in the same transaction.

The preceding sentence shall not apply if the acquisition (or, in the case of clause (ii), the disposition) by the distributee did not have as one of its principal purposes the avoidance of bank and corporation tax.

(d) Except as otherwise provided in this chapter, if a corporation redeems its stock (within the meaning of Section 24496 (b)), and if subdivision (a) of this section does not apply, such redemption shall be treated as a distribution of property to which Sections 24451 to 24454 applies.

SEC. 4. Section 24457 is added to the Revenue and Taxation Code, to read:

24457. (a) (1) For purposes of Section 24455, if:

(A) One or more persons are in control of each of two corporations, and

(B) In return for property, one of the corporations acquires stock in the other corporation from the person (or persons) so in control,

then (unless paragraph (2) applies) such property shall be treated as a distribution in redemption of the stock of the corporation acquiring such stock. In any such case, the stock so acquired shall be treated as having been transferred by the person from whom acquired, and as having been received by the corporation acquiring it, as a contribution to the capital of such corporation.

(2) For purposes of Section 24455, if:

(A) In return for property, one corporation acquires from a shareholder of another corporation stock in such other corporation, and

(B) The issuing corporation controls the acquiring corporation, then such property shall be treated as a distribution in redemption of the stock of the issuing corporation.

(b) (1) In the case of any acquisition of stock to which subdivision (a) of this section applies, determinations as to whether the acquisition is, by reason of Section 24455(b), to be treated as a distribution in part or full payment in exchange for the stock shall be made by reference to the stock of the issuing corporation. In applying Section 24497(a) (relating to constructive ownership of stock) with respect to Section 24455(b) for purposes of this paragraph, Section 24497(a) (2) shall be applied without regard to the 50 percent limitation contained therein.

(2) (A) In the case of any acquisition of stock to which paragraph (1) (and not paragraph (2)) of subdivision (a) of this section applies, the determination of the amount which is a dividend shall be made solely by reference to the earnings and profits of the acquiring corporation.

(B) In the case of any acquisition of stock to which subdivision (a) (2) of this section applies, the determination of the amount which is a dividend shall be made as if the property were distributed by the acquiring corporation to the issuing corporation and immediately thereafter distributed by the issuing corporation.

(c) (1) For purposes of this section, control means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote, or at least 50 percent of the total value of shares of all classes of stock. If a person (or persons) is in control (within the meaning of the preceding sentence) of a corporation which in turn owns at least 50 percent of the total combined voting power of all stock entitled to vote of another corporation, or owns at least 50 percent of the total value of the shares of all classes of stock of another corporation, then such person (or persons) shall be treated as in control of such other corporation.

(2) Section 24497(a) (relating to the constructive ownership of stock) shall apply for purposes of determining control under paragraph (1). For purposes of the preceding sentence, Section 24497(a)(2) shall be applied without regard to the 50 percent limitation contained therein.

SEC. 5. Section 24504 of the Revenue and Taxation Code is amended to read:

24504. (a) If property is received in a distribution in partial or complete liquidation (other than a distribution to which Section 24503 applies), and if gain or loss is recognized on the receipt of such property, then the basis of the property in the hands of the distributee shall be the fair market value of such property at the time of the distribution.

(b) (1) If property is received by a corporation in a distribution in complete liquidation of another corporation (within the meaning of Section 24502(b)), then except as provided in paragraph (2), the basis of the property in the hands of the distributee shall be the same as it would be in the hands of the transferor. If the property is received by a corporation in a transfer to which Section 24502(c) applies, and if paragraph (2) of this subdivision does not apply, then the basis of the property in the hands of the transferee shall be the same as it would be in the hands of the transferor.

(2) If property is received by a corporation in a distribution in complete liquidation of another corporation (within the meaning of Section 24502(b)), and if—

(A) The distribution is pursuant to a plan of liquidation adopted—

(i) On or after December 31, 1954; and

(ii) Not more than two years after the date of the transaction described in subparagraph (B) (or, in the case of a series of transactions, the date of the last such transaction); and

(B) Stock of the distributing corporation possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote, and at least 80 percent of the total number of shares of all other classes of stock (except nonvoting stock which is limited and preferred as to dividends), was acquired by the distributee by purchase (as defined in paragraph (3)) during a 12-month period beginning with the earlier of—

(i) The date of the first acquisition by purchase of such stock, or

(ii) If any of such stock was acquired in an acquisition which is a purchase within the meaning of the second sentence of paragraph (3), the date on which the distributee is first considered under Section 24497(a) as owning stock owned by the corporation from which such acquisition was made

then the basis of the property in the hands of the distributee shall be the adjusted basis of the stock with respect to which the distribution was made. For purposes of the preceding sentence, under regulations prescribed by the Franchise Tax Board, proper adjustment in the adjusted basis of any stock shall be made for any distribution made to the distributee with respect to such stock before the adoption of the plan of liquidation, for any money received, for any liabilities assumed or subject to which the property was received, and for other items.

(3) For purposes of paragraph (2)(B), the term "purchase" means any acquisition of stock, but only if—

(A) The basis of the stock in the hands of the distributee is not determined in whole or in part by reference to the adjusted basis of such stock in the hands of the person from whom acquired;

(B) The stock is not acquired in an exchange to which Section 24521 applies; and

(C) The stock is not acquired from a person the ownership of whose stock would, under Section 24497(a), be attributed to the person acquiring such stock.

Notwithstanding subparagraph (C) of this paragraph, for purposes of paragraph (2)(B), the term "purchase" also means an acquisition of stock from a corporation when ownership of such stock would be attributed under Section 24497(a) to the person acquiring such stock, if the stock of such corporation by reason of which such ownership would be attributed was acquired by purchase (within the meaning of the preceding sentence.)

(4) For purposes of this subdivision, the term "distributee" means only the corporation which meets the 80 percent stock ownership requirements specified in Section 24502(b).

(c) If—

(1) Property was acquired by a shareholder in the liquidation of a corporation in cancellation or redemption of stock; and

(2) With respect to such acquisition—

(A) Gain was realized; but

(B) As the result of an election made by the shareholder under Section 24503, the extent to which gain was recognized was determined under Section 24503;

then the basis shall be the same as the basis of such stock canceled or redeemed in the liquidation, decreased in the amount of any money received by the shareholder, and increased in the amount of gain recognized to him.

SEC. 6. Section 24670 of the Revenue and Taxation Code is amended to read:

24670. (a) If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold, or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and—

(1) The amount realized, in the case of satisfaction at other than face value or a sale or exchange; or

(2) The fair market value of the obligation at the time of distribution, transmission, or disposition, in the case of the distribution, transmission, or disposition otherwise than by sale or exchange.

Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received.

(b) The basis of an installment obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full.

(c) (1) If—

(A) An installment obligation is distributed in a liquidation to which Section 24502 (relating to complete liquidation of subsidiaries) applies; and

(B) The basis of such obligation in the hands of the distributee is determined under Section 24504(b)(1);

then no gain or loss with respect to the distribution of such obligation shall be recognized by the distributing corporation.

(2) If—

(A) An installment obligation is distributed by a corporation in the course of a liquidation; and

(B) Under Sections 24512, 24513 and 24514 (relating to gain or loss on sales or exchanges in connection with certain liquidations) no gain or loss would have been recognized to the corporation if the corporation had sold or exchanged such installment obligation on the day of such distribution;

then no gain or loss shall be recognized to such corporation by reason of such distribution. The preceding sentence shall not apply to the extent that under subdivision (a) gain to the distributing corporation would be considered as gain to which Section 17417 of this code applies.

(d) In the case of a disposition of an installment obligation by any person other than a life insurance company (as defined in Section 801(a) of the Internal Revenue Code of 1954) to

such an insurance company, no provision of this part providing for the nonrecognition of gain shall apply with respect to any gain resulting under subdivision (a). If a corporation which is a life insurance company for the income year was (for the preceding income year) a corporation which was not a life insurance company, such corporation shall, for purposes of this subdivision and subdivision (a), be treated as having transferred to a life insurance company, on the last day of the preceding income year, all installment obligations which it held on such last day.

SEC. 7. The provisions of this act which affect the computation of taxes shall be operative with respect to income years beginning on or after January 1, 1967, which end after the effective date of this act. The remaining provisions shall be operative on and after the date this act takes effect.

SEC. 8. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

The increase provided by this section shall not exceed five cents ($0.05) per each one hundred dollars ($100) of the assessed value of property within the elementary or high school

district, and said increase shall be in addition to any other school district tax authorized by law to be levied.

In a unified school district the increase provided by this section shall not exceed ten cents ($0.10) per each one hundred dollars ($100) if the district maintains one or more elementary schools and high schools, and said increase shall be in addition to any other school district tax authorized by law to be levied.

Education of the children of this state is of prime importance and every possible avenue to provide such education should be thoroughly considered. The establishment of opportunity schools or classes is an attempt to promote the well-being, improvement and education of pupils who are habitually truant from instruction upon which they are lawfully required to attend, or who are irregular in attendance, or who are insubordinate or disorderly during their attendance upon instruction. Unless this act takes effect immediately and is permitted to apply to the 1967–68 fiscal year, students who need an opportunity to resolve their individual problems and reestablish themselves for return to regular schools and classes will be subjected to an unjustifiable delay.

CHAPTER 1402

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

1658.3. Nothing in this article shall limit or authorize the board to limit the number of additional places of practice authorized by the board, which are in operation on October 1, 1961, and which conform to the provisions of this article, nor prevent or limit a licensee from acquiring from his parent, by sale, transfer, assignment, gift, succession, bequest, or operation of law, whether heretofore or hereafter made, prior to January 1, 1968 or the effective date of the amendments to this section enacted by the Legislature at the 1967 Regular Session, whichever date occurs later, and from operating any additional office or offices of his parent so acquired.

CHAPTER 1403

An act to amend Sections 189 and 190 of the Streets and Highways Code, relating to grade separations.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 189 of the Streets and Highways Code is amended to read:

189. On or before the first day of each year the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of crossings at grade in separation of grade districts, of city streets or county roads and the tracks of any railroad corporation or corporations, and of existing grade separations in need of alteration or reconstruction in the order of priority which in the judgment of the commission justifies the elimination of the crossing at grade by the erection or construction of separation structures or justifies the alteration or reconstruction of existing grade separations. The commission shall include in such listing only such crossings which in its judgment are most urgently in need of separation or alteration, taking into consideration the possibility of financing the same under the provisions of this code.

The priority list shall terminate on the last day of the year for which it is established.

SEC. 2. Section 190 of the Streets and Highways Code is amended to read:

190 In each annual budget report prepared by the commission and the department under Section 143.1 of this code, commencing with the 1958–59 fiscal year, the sum of five million dollars ($5,000,000) shall be set aside for allocations to grade separation projects, including the elimination of grade crossings and the alteration or reconstruction of grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189–191, inclusive, of this code. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of said sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars ($5,000,000) on and after January 1st preceding the begin-

ning of such fiscal year. Engineering, right of way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Funds set aside for the purposes specified in this section shall be available for allocation and expenditure without regard to fiscal years.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 20207 is added to the Government Code, to read:

20207. In addition to any other investments authorized by this article, the board is authorized to purchase (1) the property described in Section 2 of Chapter 1071 of the Statutes of 1957, hereinafter referred to as "Property A", and (2) the property described in Section 3557 of the Agricultural Code, hereinafter referred to as "Property B", at such price and subject to such terms and conditions as may be agreed upon between the board and the Directors of Finance or General Services, respectively, provided that any such agreement to sell shall contain (1) an option on the part of the seller during a period of 10 years from the date of sale, or as extended by the parties, to repurchase the same, and (2) with respect to "Property B" an option during said period (or as the same may likewise be extended) on the part of the seller to lease the same from the board for a period certain, or which can be made certain, with a right in such event on the part of the seller to sublease the same to third parties. Any such repurchase or lease from the board shall provide, notwithstanding any other provision of this section, for no greater total consideration thereto than necessary for the board to recover its purchase price plus an appropriate rate of interest, as agreed, and any expenses incurred by the board in connection with such sale or lease, providing that during the period any portion of the board's investment has not been recovered by the exercise of options and the payment of consideration thereunder, the agreed interest rate with respect to such unrecovered portion shall not be less than the average interest rate per mortgage commitment made by the board during such period.

Any such sales agreement shall also contain provisions which will permit during said option period and any period of leaseback by the board the Director of General Services to grant such easements for streets or utilities in "Property B" as he deems appropriate.

Any such sales agreement shall provide (a) in the event that an option is exercised with respect to purchasing "Property A" or "B" from the board that at least the entire consideration, when received from any resale thereof by the Director of Finance or General Services, as the case may be, less expenses in connection therewith, should be paid to the board as the pur-

chase price of said property, and (b) in the event an option is exercised with respect to leasing "Property B" that at least the entire net rentals when received from any sublessee thereof by the Director of General Services should be paid to the board as the consideration for its lease.

The proceeds of any sale by the Directors of Finance or General Services to the board pursuant to this section (1) in the case of "Property A" are subject to the provisions of Section 3 of Chapter 1071 of the Statutes of 1957, and (2) in the case of "Property B" shall be credited in the same manner as consideration received from the sale of property pursuant to Section 3557 of the Agricultural Code.

The Director of Finance with respect to "Property A" and the Director of General Services with respect to "Property B," are hereby authorized to sell the same to the board under such terms and conditions as each deems appropriate, subject to the provisions of this section, and to exercise any option contained in the sales agreement. The sales price for said properties may be less than the current fair market value thereof, in view of the limitations upon the free disposition of said properties by the board imposed by this section.

In any event, the sales price for said properties shall not exceed ninety percent (90%) of the appraised value of said properties.

In the event the aforesaid option to lease "Property B" is exercised by the Director of General Services, such director shall have the right to sublease the same under such terms and conditions as he deems appropriate, not inconsistent with such lease. In the event of such sublease the Director of General Services may with respect to "Property B" make any improvements thereon required by a sublessee and permitted by the lease.

Upon the termination of the period for the exercise of any option to purchase "Properties A" or "B", or upon the termination of any lease made by the board with respect to "Property B" as a result of the exercise of an option, the board shall have the same rights in such property (including the right to dispose of the same and retain the full proceeds thereof) as a private purchaser would have.

The Department of General Services shall expeditiously develop a master plan for the exercising of the options to repurchase and dispose of the property. Any portion of Property A or B as to which an option is exercised shall be utilized only in accordance with the land use set forth on the master plan. The Directors of General Services and Finance shall proceed as rapidly as possible to dispose of the properties in accordance with the master plan.

Options shall be exercised for a consideration which will return to the board not less than the appraised value of the interest acquired by the exercise of such option at the time of such exercise, providing that the particular appraisals utilized to measure such value shall be subject to the determination

and approval of the board, and, providing further, that the release of any portion of Property A or B shall in any case be subject to approval by the board. The master plan may be changed by written agreement between the board and the Director of Finance or General Services, as the case may be, where it appears to the satisfaction of the board that the same should be changed for the purpose of increasing the maximum economic utility of the property affected.

For the purposes of this section all references to "Properties A" or "B" shall be deemed to apply equally to any portion of such property. The provisions of this section shall not supersede the powers given the Director of Finance and General Services with respect to the properties in question by other provisions of law, except as expressly provided herein.

SEC. 2. Section 20207.1 is added to the Government Code, to read:

20207.1. The maximum amount which may be invested by the board pursuant to Section 20207 is thirteen million five hundred thousand dollars ($13,500,000).

(b) Advertising displays shall not be placed which are so illuminated that they interfere with the effectiveness of, or obscure any official traffic sign, device, or signal; nor shall any advertising display include or be illuminated by flashing, intermittent or moving lights (except that part necessary to give public service information such as time, date, temperature, weather, or similar information); nor shall any advertising display cause beams or rays of light to be directed at the traveled ways if such light is of such intensity or brilliance as to cause glare or to impair the vision of any driver, or to interfere with any drivers' operation of a motor vehicle.

(c) Advertising displays shall not be placed in such a manner as to obstruct, or otherwise physically interfere with, an official traffic sign, signal, or device or to obstruct, or physically interfere with, the vision of drivers in approaching, merging, or intersecting traffic.

No advertising display shall be placed within 300 feet from another advertising display on the same side of any portion of a primary highway which is not a freeway if that portion of the primary highway is located outside the limits of an incorporated city. No advertising display shall be placed within 100 feet from another advertising display on the same side of any portion of a primary highway which is not a freeway if that portion of the primary highway is located inside the limits of an incorporated city. But this subdivision shall not apply to advertising displays which are separated by a building or other obstruction in such a manner that only one display located within the minimum spacing distances set forth herein is visible from the highway at any one time. This subdivision shall not prevent the erection of double-faced, back-to-back, or V-type advertising display, with a maximum of two signs per facing, as permitted in subdivision (a). This subdivision shall not apply to advertising displays permitted by subdivision (b) of Section 5288. The minimum distance between signs shall be measured along the nearest edge of the pavement between points directly opposite the signs along each side of the highway. Any advertising display lawfully in existence on August 1, 1967, which does not conform to the provisions of this subdivision but which is permitted by city or county ordinances may be maintained in existence.

SEC. 20. Section 5288.2a is added to the Business and Professions Code, to read:

5288.2a. Any advertising display located within 660 feet of the edge of the right-of-way of, and the copy of which is visible from, any penalty segment, or any bonus segment described in Section 5288.1 which display was lawfully maintained in existence on the effective date of this section but which was not on that date in conformity with the provisions of this article, may be maintained, and shall not be required to be removed until July 1, 1970. Any other sign which is lawful when erected, but which does not on January 1, 1968, or any time thereafter, conform to the provisions of this article, may be maintained, and shall not be required to be removed, until the end of the fifth year after it becomes nonconforming; provided that this section shall not apply to advertising displays adjacent to a landscaped freeway.

SEC. 21. Section 5288.3a is added to the Business and Professions Code, to read:

5288.3a. Each removal ordered by the director, on or after the effective date of this section, of any of the following advertising displays which is not as of that date in conformity with the provisions of this article shall be deemed a removal under Section 5288.2a and shall be deemed to constitute a taking, within the meaning of the Highway Beautification Act of 1965, subdivision (g) of Section 131 of Title 23 of the United States Code, as in effect October 22, 1965, of all right, title, and interest, including any leasehold interest, of the owner of the advertising display and of the right of the owner of the real property on which the advertising display is located to erect and maintain such advertising display thereon:

(a) Advertising displays lawfully in existence on October 22, 1965.

If federal law requires the states to pay just compensation with regard to the removal, on or after July 1, 1970, or the end of the fifth year after an advertising display becomes nonconforming, as the case may be, of such advertising displays,

owners of such advertising displays which are removed pursuant to this article or owners of the land upon which such displays are located, or both, whichever way the federal law is interpreted, shall be paid just compensation. The sole intent of the Legislature in enacting this paragraph is to comply with federal law, and it is otherwise not the intent of the Legislature to in any manner relinquish any of its powers relating to the removal of advertising displays under the police power.

SEC. 22. Section 5288.3b is added to the Business and Professions Code, to read:

Such an action shall be instituted by the filing of the complaint in the superior court for the county in which the advertising display and the real property are located. The complaint shall be filed not later than one year after the filing with the director of the claim for compensation. Such an action shall be treated in accordance with Title 7 (commencing with Sec. 1237) of Part 3 of the Code of Civil Procedure.

SEC. 24. Section 5288.4 of the Business and Professions Code is amended to read:

The director shall prescribe and enforce regulations for the erection and maintenance of advertising displays permitted by Sections 5288 and 5288.1b consistent with Section 131 of Title 23 of the United States Code and the national standards promulgated thereunder by the Secretary of Transportation; provided, that the director shall not prescribe regulations imposing stricter requirements for the size, spacing or lighting of advertising displays than are prescribed by Section 5288.1b of this chapter and provided that the director shall not prescribe regulations to conform to changes in federal law or regulations made after the effective date of the amendment

of this section at the 1967 Regular Session of the Legislature without prior legislative approval.

Notwithstanding any other provisions of this chapter, no outdoor advertising shall be placed or maintained adjacent to any interstate highway or primary highway in violation of the national standards promulgated pursuant to subsections (c) and (f) of Section 131 of Title 23 of the United States Code, as such standards exist on the effective date of the amendment of this section at the 1967 Regular Session of the Legislature.

SEC. 26. Section 5288.5a is added to the Business and Professions Code, to read:

5288.5a. If compensation is required by federal law, as described in the last paragraph of Section 5288.3a, no advertising display shall be required to be removed pursuant to Section 5288.2a unless and until federal funds for the federal share of compensation therefor, to-wit, 75 percent, required by subdivision (g) of Section 131 of Title 23 of the United States Code have been appropriated by the federal government and made immediately available to the director and notification of such appropriation and immediate availability has been received by the director. This section shall not apply to the removal of any advertising display for which no federal share is payable.

SEC. 27. Section 5288.5b is added to the Business and Professions Code, to read:

5288.5b. No advertising display shall be required to be removed pursuant to Section 5288.2a unless and until the expenditure for payments of just compensation therefor in the manner prescribed in Sections 5288.3a, 5288 3b, and 5288.3c has been hereafter authorized by statute, which statute shall designate the source of funds for such payments.

SEC. 28. Section 5288.5c is added to the Business and Professions Code, to read:

5288 5c. (a) The director shall seek agreement with the Secretary of Transportation of the United States, or his successor, under provisions of Section 131 of Title 23 of the United States Code, to provide for effective control of outdoor advertising substantially as set forth herein, provided that

such agreement can vary and change the definition of "unzoned commercial or industrial area" as set forth in Section 5213 and the definition of "business area" as set forth in Section 5214, or other sections related thereto, and provided further that if such agreement does vary from such sections it shall not be effective until the Legislature by statute amends the sections to conform with the terms of the agreement. If agreement is reached on these terms, the director shall execute the agreement on behalf of the state.

(b) In the event an agreement cannot be achieved under subdivision (a), the director shall promptly institute proceedings of the kind provided for in subdivision (*l*) of Section 131 of Title 23 of the United States Code, in order to obtain a judicial determination as to whether this chapter and the regulations promulgated thereunder provide effective control of outdoor advertising as set forth therein. In such action the director shall request that the court declare rights, status, and other legal relations and declare whether the standards, criteria, and definitions contained in the agreement proposed by the director are consistent with customary use. If such agreement is held by the court in a final judgment to be invalid in whole or in part as inconsistent with customary use or as otherwise in conflict with Section 131 of Title 23 of the United States Code, the director shall promptly negotiate with the Secretary of Transportation, or his successor, a new agreement or agreements which shall conform to this chapter, as interpreted by the court in such action.

SEC. 28.5. Section 5288.7 is added to the Business and Professions Code, to read:

5288.7. It is declared to be the intent of the Legislature in enacting the provisions of this chapter regulating advertising displays adjacent to highways included in the national system of interstate and defense highways or the federal-aid primary highway system to establish minimum standards with respect thereto. The governing body of any city, county, or city and county may enact ordinances, including but not limited to land use or zoning ordinances, imposing restrictions on advertising displays adjacent to any street, road, or highway equal to or greater than those imposed by this chapter. The governing body of any city or city and county may enact ordinances requiring licenses or permits, or both, for the placing of advertising displays in view of any highway, including a highway included in the national system of interstate and defense highways or the federal-aid primary highway system, within its boundaries.

SEC. 29. Section 5311.5 is added to the Business and Professions Code, to read:

5311.5. All advertising displays which were lawfully erected and which are maintained after January 1, 1968, in violation of Sections 5288 or 5288.1b of this chapter or the regulations of the director prescribed hereunder may be removed by the director upon 60 days' prior notice, by certified

or registered mail, to the owner thereof. But no notice shall be required to be given to the owner of an advertising display whose name is not plainly displayed thereon. The 60 days shall be computed from the date of mailing.

SEC. 30. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 31. This act shall be known as the Collier-Z'berg Act of 1967.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 756 of the Education Code is amended to read:

Class one (1) includes all counties with an average daily attendance of seven hundred fifty thousand (750,000) and over.

Class two (2) includes all counties with an average daily attendance of one hundred forty thousand (140,000) to seven hundred forty-nine thousand nine hundred ninety-nine (749,999), inclusive.

Where a county changes from one class to another because of an increase in the average daily attendance in the public schools of such county, the incumbent county superintendent of schools in that county shall not be prohibited from continuing in office and shall be eligible for reelection to the same office regardless of whether he possesses a valid credential otherwise required in a county of that class.

SEC. 3. Section 758 of the Education Code is amended to read:

758. The qualifications of the county superintendent of schools in each county shall be as set forth in Sections 756 to 762, inclusive, for that class into which the county falls. In no case will the salary of the county superintendent be lowered during his term of office.

The salaries set forth in Section 767 are payable to incumbent county superintendents of schools; provided, however, that the salary of an incumbent shall not be reduced during the term for which he was elected or appointed or for any consecutive new term to which he is elected or appointed.

For each of the eight classes of counties the amount which is the statewide average of teachers' salaries shall be multiplied by the amount which is the adjustment factor for the particular class of county, as prescribed by this section. The product so obtained shall be the salary of the county superintendent of schools for a county within that class.

The adjustment factor for each of the eight classes of counties is set forth below opposite the class of county:

(a)	Class one	3.561
(b)	Class two	3.092

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every person, at his election, shall be entitled to a deduction with respect to amortization of the adjusted basis (for determining gain) of any device, machinery, or equipment for water pollution control or for the collection at the source of atmospheric pollutants and contaminants based on a period of 60 months. Such amortization deductions shall be an amount, with respect to each month of such period within the taxable year, equal to the adjusted basis of the device, machinery, or equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such adjusted basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deductions provided by this section with respect to any month shall be in lieu of the deduction with respect to such device, machinery, or equipment provided in Section 17208 relating to exhaustion, wear and tear, and obsolescence. The 60-month period shall begin, at the election of the taxpayer, with the month following the month in which the device, machinery, or equipment was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the device, machinery, or equipment was completed or acquired, or with the taxable year succeeding the taxable year in which such device, machinery, or equipment was completed or acquired, shall be made in an appropriate statement in the taxpayer's return for the taxable year in which the device, machinery, or facility was completed or acquired, or in which the certification required by subdivision (d) was made, whichever is later.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization deductions with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. SECTION 1. Article 7 (commencing with Section 12415) is added to Chapter 1, Part 6, Division 2 of the Insurance Code, to read:

Article 7. Annual Renewal Fees

12415. It is the intent of the Legislature that certificate title insurers and licensed underwritten title companies, as defined in Section 12402, shall pay into the Insurance Fund as an annual renewal fee, in addition to that provided as to title insurers by Section 701, and as to underwritten title companies by Section 12396, equitable sums which in the aggregate are the estimated costs to the commissioner for the ensuing fiscal year of administering and enforcing Article 6 (commencing with Section 12401) of Chapter 1, Part 6, Division 2 of this code and other provisions of this code as may be subsequently incorporated by reference in this article by legislative enactment. Such fee shall be in lieu of all fees provided for in Article 6 (commencing with Section 12401) of Chapter 1, Part 6, Division 2.

12416. To carry out the intent expressed in Section 12415 the commissioner shall hold a hearing and make rules and regulations on or before May 1st of each year, commencing in 1968, to establish the standards by which such annual renewal fee of each title insurer and underwritten title company will be set to cover the annual fiscal period commencing on the following July 1st. He shall estimate the cost of such administration and enforcement as to title insurers separately from the cost of such administration and enforcement as to underwritten title companies. Such annual renewal fee as to each title insurer shall be determined by applying to such estimated cost for all title insurers the percentage that each such title insurer's gross income upon business done in this state in the preceding calendar year is of the total gross income derived from business done in this state by all title insurers in such year after first deducting from such gross income (1) interest and dividends; (2) rents from real property; (3) profits from sale or other disposition of investments; (4) income from investments; and (5) income, gross or otherwise, of, and from the assets of, any trust department doing a trust business under the banking laws of this state. Such annual renewal fee as to each underwritten title company shall be determined by applying to such estimated cost for all underwritten title com-

panies the percentage that each such underwritten title company's gross income derived from business done in this state in the preceding calendar year is of the total gross income derived from busines done in this state by all underwritten title companies in such year after first deducting from such gross income (1) interest and dividends; (2) rents from real property; (3) profits from sale or other disposition of investments; (4) income from investments; and (5) fees paid to title insurers on title policies.

12417. The annual renewal fee provided by this article is not a tax but a charge for services to be rendered.

12418. Should the fees collected in any one year prove to be greater in the aggregate than the costs of services rendered in such year the commissioner shall give due consideration to that factor in establishing the amount of the fee for the ensuing year.

12419. Upon request by any title insurer or underwritten title company the commissioner shall appoint a committee of five persons to audit and examine the records of the commissioner relating to the cost of such administration and enforcement as to title insurers and underwritten title companies and to make recommendations to the commissioner at his hearings to establish fees. Such committee shall consist of one representative of underwritten title companies underwritten by domestic title insurers, one representative of underwritten title companies underwritten by foreign title insurers, one representative of foreign title insurers, and two representatives of domestic title insurers.

SEC. 2. The revenues derived from the fees provided for in Section 1 of this act shall be available for expenditure, and shall not be encumbered, unless and until appropriated by the Legislature.

SEC. 6. Section 502 is added to the Revenue and Taxation Code, to read:

502. If any person willfully conceals, fails to disclose, removes, transfers or misrepresents tangible personal property to evade taxation which results in an assessment lower than that which would otherwise be required by law, the assessor on discovery shall assess the property in the lawful amount and impose the penalty provided for in Section 504.

SEC. 7. Section 503 of the Revenue and Taxation Code is repealed.

SEC. 8. Section 503 is added to the Revenue and Taxation Code, to read:

SEC. 11. Section 506 is added to the Revenue and Taxation Code, to read:

506. The tax rate applicable to any assessment made pursuant to this article shall be the tax rate to which the property would have been subject if it appeared upon the roll in the year when it should have been lawfully assessed. To the tax there shall be added interest at the rate of one-half of 1 percent per month from the date or dates the taxes would have become delinquent if they had been timely assessed to the date the additional assessment is added to the assessment roll.

SEC. 12. Section 507 is added to the Revenue and Taxation Code, to read:

507. If the assessor requires an assessee to describe personal property in such detail as shows the cost thereof but the assessee omits to report the cost of the property accurately, notwithstanding that this information is available to the assessee, to the extent that this omission on the part of the assessee causes the assessor not to assess the property or to assess it at a lower valuation than he would enter upon the roll were the cost reported to him accurately, that portion of the property as to which the cost is unreported, in whole or in part, shall be assessed as required by law. If the omission is willful or fraudulent, the penalty and interest provided in Sections 504 and 506 shall be added to the additional assessment; otherwise only the interest provided in Section 506 shall be so added.

SEC. 13. Section 531 of the Revenue and Taxation Code is amended to read:

(a) The property is owned or controlled by the same person who owned or controlled it for the year for which it escaped assessment, or

Upon receipt of notice pursuant to Section 284, or upon indication from any audit that a veteran's exemption has been incorrectly allowed, the assessor shall make a redetermination of eligibility for the veteran's exemption. If a veteran's exemption has been incorrectly allowed, an escape assessment in the amount of the exemption with interest as provided in Section 506 shall be made. If the exemption was incorrectly allowed because of erroneous or incorrect information submitted by the claimant with knowledge that such information was erroneous or incomplete, the penalty provided in Section 504 shall be added to the assessment.

SEC. 16. Section 532 of the Revenue and Taxation Code is amended to read:

532. Any assessment to which the penalty provided for in Section 504 must be added shall be made within six years after the lien date in which the property escaped taxation or was underassessed. Any other assessment made pursuant to Article 3 or Article 4 of this Chapter 3 shall be made within four years after the lien date in which the property escaped taxation or was underassessed.

Any assessment made pursuant to Article 3 (commencing with Section 501) of this chapter or made pursuant to this article shall not create or impose a lien or charge on such real property for such assessment or any penalty or interest if (1) such real property has been transferred or conveyed to a bona fide purchaser for value prior to the date of such assessment and the showing thereof on the secured roll with the date of entry specified thereon, or (2) such real property is subject to a lien of a bona fide encumbrance for value created and attaching prior to the date of such assessment and the showing thereof on the secured roll with the date of entry specified thereon. In such cases the assessor or tax collector may record with the county recorder of any county a certificate which shall set forth the name of the person who would have been the assessee in the year in which such real property escaped assessment and the amount or amounts of any such assessments and penalties. From the date of the recording of such certificate a lien shall be created and attach against any real property owned by such person in the county or counties in which any such certificate may have been recorded which lien shall have the force, effect and priority of a judgment lien.

The tax collector, with the approval of the board of supervisors, may at any time release all or any portion of real property subject to any lien created or attaching by the recording of such a certificate from such lien or subordinate such lien to other liens and encumbrances if he determines that the assessment or taxes are sufficiently secured by a lien on other property belonging to the person named in such a certificate or that the release or subordination will not endanger or jeopardize the collection of such assessment or taxes.

A written certification by the tax collector to the effect that real property subject to any lien imposed by the recording of the certificate as hereinbefore provided has been released from such lien or that such lien has been subordinated to other liens shall be conclusive evidence as to any bona fide purchaser, encumbrancer or lessee that such lien has been released or has been subordinated as set forth in such written certification. Such written certification may be recorded with the county recorder of any county.

SEC. 18. Section 534 of the Revenue and Taxation Code is amended to read:

534. Assessments made pursuant to Article 3 (commencing with Section 501) of this chapter or pursuant to this article shall be treated like, and taxed at the same rate applicable to, property regularly assessed on the roll on which it is entered, unless the assessment relates to a prior year and then the tax rate of the prior year shall be applied.

No such assessment shall be effective for any purpose, including its review, equalization and adjustment by the Board of Equalization, until the assessee has been notified thereof personally or by United States mail at his address as contained in the official records of the county assessor. Receipt of the assessee of a tax bill based on such assessment shall suffice as such notice.

SEC. 19. Section 892 of the Revenue and Taxation Code is amended to read:

892. A penal assessment shall be 25 percent of the assessed value of the property penally assessed.

Receipt by the assessee of a tax bill based on said assessment shall suffice as such notice.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 14103.7 is added to the Welfare and Institutions Code, to read:

14103.7. The Administrator of the Health and Welfare Agency, when reducing services under this chapter and Chapter 8 of this part in order to maintain the program within the fiscal limits fixed by the Legislature, shall, to the extent feasible, make proportionate reductions in all services, rather than eliminating any service or services entirely.

SEC. 1.3. Section 14120 is added to the Welfare and Institutions Code, to read:

14120. (a) The Administrator of the Health and Welfare Agency, with the approval of the Director of Finance, shall set up a monthly schedule of anticipated total payments and payments for physician services under this chapter and Chapter 8 of this part, for the fiscal year.

(c) At any time the total amounts paid for physician services since the beginning of the fiscal year exceed by 10 percent the amounts scheduled to have been paid by that time, the administrator shall so inform the Director of Finance and at that time the administrator shall modify the method of payment of usual and customary fees to physicians to assure that the total amount paid for physicians services in the fiscal year shall not exceed the total amount scheduled.

(d) At any time the total amounts paid since the beginning of the fiscal year exceed by 10 percent the amounts scheduled

to have been paid by that time, the administrator shall so inform the Director of Finance and within 30 days the administrator shall institute program reductions which shall in his judgment assure that total payments in the fiscal year shall not exceed the availability of revenues to the Health Care Deposit Fund to pay for all such payments.

SEC. 1.5. Section 14150 of the Welfare and Institutions Code is amended to read:

14150. The total expenditures authorized for cost of care and county administration in any fiscal year by this chapter and Chapter 8 of this part shall not exceed the sum, added to the maximum available federal funds, of eighteen dollars and twenty-five cents ($18.25) multiplied by the sum of the 12 monthly numbers of (1) recipients under Chapter 2 (commencing with Section 11200) of this part, (2) certified medically indigent persons, and (3) recipients under Chapters 3 (commencing with Section 12000), 4 (commencing with Section 12500), 5 (commencing with Section 13000), and 6 (commencing with Section 13500) of this part, as evidenced by billings received for services and state and county administration by the close of the fiscal year, unless the Legislature, in the Budget Act, appropriates additional funds to be expended under this chapter and Chapter 8 of this part, and authorizes the expenditure of such funds notwithstanding the limitation fixed by this section. As used in this paragraph "total expenditures authorized for cost of care and county administration" includes the cost for health care for categorical aid recipients and certified medically indigent persons as enumerated in this paragraph, but does not include costs of care for other persons in a county hospital or a contract hospital nor that portion of the county cost of administration which is attributable to the health care provided to other persons, in a county hospital or contract hospital.

The sums authorized for expenditure pursuant to this section shall not be construed as limiting the amount of service or the period over which such service may be granted with respect to any person found to be eligible for care under this chapter or Chapter 8 of this part.

In addition to the sums specified in Section 14151, the county share towards the cost of care and county administration provided under this chapter and Chapter 8 (commencing with Section 14500) shall include:

After the effective date of this chapter and Chapter 8, the Controller shall deposit in this fund all federal funds as received under the provisions of Title XIX of the Social Security Act, and after the effective date, shall upon order of the Director of Finance, transfer from the State General Fund to the Health Care Deposit Fund each month the sum specified by the Director of Finance as constituting the estimated amounts of General Fund money resulting from:

1. The unexpended balance of state appropriations for the existing Public Assistance Medical Care and Medical Aid for the Aged programs as of April 1, 1966;

2. The amount of reduced General Fund obligations for public assistance resulting from the increases in benefits under the Federal Social Security Act for the period October 1, 1965 through June 30, 1966;

3. The added benefits to widows under the Federal Social Security Act for the period October 1, 1965 through June 30, 1966;

4. The inclusion of newly eligible persons over the age of 72 under the Federal Social Security Act for the period October 1, 1965 through June 30, 1966;

6. The additional federal contribution to the cost of categorical assistance resulting from utilization of Section 1118 of the Social Security Act for the period April 1, 1966 through June 30, 1966.

The State General Fund amounts deposited into the Health Care Deposit Fund by June 30, 1966, shall be not less than thirty million dollars ($30,000,000), unless a determination is made by the Governor that such an amount is not available for transfer due to a disaster and he reports his findings to the Legislature prior to June 30, 1966.

In addition, as of the effective date of this chapter and Chapter 8 (commencing with Section 14500), the Controller shall transfer from the 1965–66 appropriation of the Department of Mental Hygiene to the Health Care Deposit Fund the amount of one million two hundred twenty-one thousand dollars ($1,221,000).

After July 1, 1966, for use during the fiscal year 1966–67, the Controller shall, upon order of the Director of Finance, transfer from the State General Fund to the Health Care Deposit Fund each month the sum specified by the Director of Finance as constituting the estimated amounts of General Fund money resulting from:

1. The equivalent amount of General Fund money appropriated for Public Assistance Medical Care and Medical Aid for the Aged during 1965–66;

2. The amount of reduced General Fund obligations for categorical assistance during 1966–67 from:

The State General Fund amounts deposited in the Health Care Deposit Fund by June 30, 1967 shall be not less than one hundred thirty million dollars ($130,000,000), unless a determination is made by the Governor that such an amount is not available for transfer due to a disaster and he reports his findings to the Legislature prior to June 30, 1967.

3. The amount of general funds that would, except for the 1965 Amendments to the Federal Social Security Act and this chapter and Chapter 8 of this part, have been necessarily appropriated to the Department of Mental Hygiene for the care of patients over the age of 65;

4. Any additional sum representing an advantage with respect to General Fund obligations resulting from the operation of the 1965 Amendments to the Federal Social Security Act in accordance with findings of the department concurred in by the Director of Finance and the Health and Welfare Administrator and filed 30 days in advance with the Joint Budget Committee of the Legislature.

After July 1, 1967, funds shall be transferred to the Health Care Deposit Fund as authorized annually by the Legislature based on estimates of expenditures under this chapter and Chapter 8 (commencing with Section 14500) submitted by the Health and Welfare Administrator.

If the amount contained in the Health Care Deposit Fund is insufficient to permit payment of the cost for basic and extended health care and county administration, after deducting the aggregate sum of the payments by each county as provided for in this article, the Controller, upon order of the Director of Finance, shall transfer any required additional sum from the General Fund to the Health Care Deposit Fund; provided, however, that in no event shall the total expenditures under this chapter and Chapter 8 of this part exceed the amount of expenditures permitted by Section 14150 or any other limitation contained in this chapter or in the act which added this chapter to the code, except that for the fiscal year ending June 30, 1967, the limitation on expenditures contained in Section 14150 is hereby removed and all costs incurred to that date shall be payable without regard to such limitation.

All money in the Health Care Deposit Fund is hereby appropriated, without regard to fiscal years, for expenditure for the purposes specified in this chapter and Chapter 8 of this part.

mediary under the California Medical Assistance Program with the permission of the Attorney General, or a county through its civil legal advisor, may, to enforce such right, institute and prosecute legal proceedings against the third person who is liable for the injury in the appropriate court, either in the name of the administrator or in the name of the injured person, his guardian, personal representative, estate, or survivors. Such action shall be commenced within the period prescribed in Section 340 of the Code of Civil Procedure. In the event that the injured person, his guardian, personal representative, estate, survivors, or either of them brings an action for damages against the third person who is liable for the injury, the administrator's right of action shall abate during the pendency of such action, and, notwithstanding Section 14513, continue as a first lien against any judgment recovered by the injured person, his guardian, personal representative, estate, or survivors, against the third person who is liable for the injury, to the extent of the reasonable value of the care and treatment so furnished or to be furnished.

(b) The administrator may (1) compromise, or settle and execute a release of, any such claim, or (2) waive any such claim, in whole or in part, for the convenience of the administrator, or if the administrator determines that collection would result in undue hardship upon the person who suffered the injury.

CHAPTER 1425

An act to establish the American Revolution Bicentennial Commission of California.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. The purpose of this act is to provide for the observance in California of the Bicentennial of the American Revolution which will occur during the years 1975–1983. Since the American Revolution was an event of worldwide impact and had a lasting and profound effect upon our nation and all of the states which now comprise the United States of America, it is fitting for the purpose of commemorating an

epochal period of approximately 1765–1783 that a bicentennial commission be appointed to represent this state and to cooperate with other public and private organizations in observing the bicentennial anniversary. This is particularly fitting as Congress has adopted in July 1966, a joint resolution to establish a national American Revolution Bicentennial Commission, and as a consequence the President has announced in January 1967, the appointment of a commission of that name containing members of the two houses of Congress and representatives of the public chosen upon a bipartisan basis.

SEC. 2. The Legislature in enacting this act, and in reliance on the representations of organizations and citizens who are its sponsors, declares an intent that the commission which is created hereby shall operate without the appropriation of state funds for its purposes, but that expenditures of the commission shall be financed from donations, gifts and grants from private or other public sources; and, further, since the commission will perform its function as an agency of state government and in the name of the people of the state that its operations shall be subject to such fiscal and other controls as limit and control other state agencies, except as provided in this act.

SEC. 3. There is hereby created in the state government the American Revolution Bicentennial Commission of California, hereinafter designated as the commission, consisting of 20 members to be appointed on a nonpartisan basis as follows:

(a) 10 members by the Governor,

(b) 5 members by the Speaker of the Assembly,

(c) 5 members by the Senate Rules Committee.

SEC. 4. The legislative members appointed pursuant to Section 3 shall serve as a Joint Interim Committee on the American Revolution Bicentennial.

SEC. 6. The chairman of the commission shall be named by the Governor as hereinafter provided. All other officers shall be selected by the commission from its membership with the exception of a records-correspondence secretary and a treasurer who may be selected outside of commission personnel. All meetings of the commission shall be open and public, and commission members shall serve without compensation, reward or the receipt of expenses.

SEC. 7. The commission shall have such powers and duties, including, but not limited to, those hereafter set forth, as may be necessary to carry out the purposes of this act.

SEC. 8. The commission shall have the duty to provide for, assist, sponsor, and promote statewide and local celebrations, ceremonies, and observances, and fitting historical exhibits and publications, in order to commemorate and publicize the bicentennial of the American Revolution and of the events which preceded the years of actual hostilities. The position of the commission shall be advisory only and not managerial in relation to local observances

SEC. 9. The commission shall note and stress insofar as practicable that the central figure of the American War for

Independence is regarded as General George Washington of Virginia who accepted the command of the Continental Army, at the behest of Congress, on July 3, 1775 at Cambridge Massachusetts, and thereafter directed the course of the war to a successful outcome leading to the vindication of the independence of the United States of America in the year 1783. The commission shall be mindful and stress the preeminence of the great personalities among the founding fathers, including, but not restricted to, John Adams, Thomas Jefferson, Alexander Hamilton, John Marshall, James Madison, James Monroe, Samuel Adams, Benjamin Franklin and Patrick Henry.

SEC. 10. The commission shall cooperate in such manner as it deems suitable with the national American Revolution Bicentennial Commission and with like commissions in the several states and the District of Columbia, and shall cooperate with cities, counties, cities and counties, and districts, and with historical and patriotic bodies and societies and institutions of learning which may be involved in programs to commemorate the bicentennial anniversary of the War for Independence and of any leader or personality or feature of that era.

SEC. 11. The commission is authorized to accept donations or grants of money, property, or personal services and may call upon state departments or agencies for their advice, counsel and assistance in carrying out the purposes of this act.

SEC. 12. The commission may appoint an executive secretary and may employ technical, administrative and other personnel pursuant to state civil service and may contract for technical or special services.

SEC. 13. The funds received by the commission pursuant to this act shall be paid into the Special Deposit Fund subject to the provisions of Article 2 (commencing with Section 16370) of Chapter 2 of Part 2 of Division 4 of Title 2 of the Government Code. The State Controller shall designate, by name, a separate account within the Special Deposit Fund covering the accountability for each class of grant or donation deposited under the provisions of this section.

All moneys deposited in the Special Deposit Fund under the provisions of this section is appropriated, without regard to fiscal years, for expenditure for the purposes for which such money was made available to the commission.

SEC. 14. The commission may recommend to the Legislature persons or organizations within or without California for notable achievements in furthering the objectives linked to the commemoration in California of the bicentennial of the American Revolution and related events. If the Legislature concurs in the recommendations of the commission, it shall by concurrent resolution, authorize the commission to grant such awards.

SEC. 15. The office of chairman of the commission insofar as practicable shall rotate during the existence of the commission in order to assure a renewal of leadership. A new chairman may be chosen from the membership of the commission or may replace a member. Chairmen shall be named in 1967,

December 1974, December 1978, and December 1981. If a new chairman as herein specified has not been named at a particular time, his predecessor shall continue in office until his successor has been appointed The commission shall expire March 15, 1984. Not later than March 1985, the records, files and other memoranda of the commission apart from private possessions shall be deposited and filed with the Secretary of State of California who shall receive the same.

SEC. 16. The commission shall file an annual report with the Legislature. Such report shall include but not be limited to the plans evolved by the commission, its financial transactions and the status of the special fund created by this act. The report shall be filed no later than the fifth legislative day of each regular session commencing with the 1969 Regular Session of the Legislature.

SEC. 17. The creation of the commission shall not supersede or pre-empt the existence of any legislative committee which may be appointed to study and report upon any phase or feature of the American Revolution.

CHAPTER 6. WASTE WATER RECLAMATION AND REUSE

Article 1. Short Title

13500. This chapter shall be known as and may be cited as the Waste Water Reclamation and Reuse Law.

Article 2. Declaration of Policy

13510. It is hereby declared that the people of the state have a primary interest in the development of facilities to reclaim waters containing sewage or industrial waste to supplement existing surface and underground water supplies and to assist in meeting the future water requirements of the state.

13511. The Legislature finds and declares that a substantial portion of the future water requirements of this state may be economically met by beneficial reuse of waste waters that have been reclaimed.

The Legislature further finds and declares that the utilization of reclaimed waste waters by local communities for domestic, agricultural, industrial, recreational, and fish and wildlife purposes will contribute to the peace, health, safety and welfare of the people of the state. Reuse of reclaimed waste waters constitutes the development of "new basic water supplies" as that term is used in Chapter 5 (commencing with Section 12880) of Part 6 of Division 6.

13512. It is the intention of the Legislature that the state undertake all possible steps to encourage development of waste water reclamation facilities so that reclaimed waste water may be made available to help meet the growing water requirements of the state.

Article 3. State Assistance

13515. In order to implement the policy declarations of this chapter, the state board is authorized to provide loans for the development of waste water reclamation facilities, or for studies and investigations in connection with waste water reclamation, pursuant to the provisions of Chapter 5 (commencing with Section 13100) of this division.

Article 4. Regulation of Reuse

13520. As used in this article "contamination standards" means the levels of constituents of water, which will be safe for any direct reuse purpose.

13521. The State Department of Public Health shall establish statewide contamination standards for each varying type of direct use of reclaimed waste waters where such use involves the protection of public health.

13522. Whenever the State Department of Public Health finds that a contamination exists as a result of direct use of

reclaimed waste waters, the department shall order the contamination abated in accordance with the procedure provided for in Chapter 6 (commencing with Section 5400), Part 3, Division 5 of the Health and Safety Code.

13523. Each regional board, pursuant to Chapter 4 (commencing with Section 13040) of this division, after consulting with and receiving the recommendations of the State Department of Public Health, and if it determines such action to be necessary to protect the public health, safety, or welfare, shall establish waste discharge requirements for users of water which is used or will be used directly as reclaimed waste water. Such requirements shall conform to the statewide contamination standards established pursuant to this article.

13524. In administering any statewide program of financial assistance for water pollution or water quality control which may be delegated to it pursuant to Section 13023, the state board shall give priority to water pollution control facilities providing optimum reclamation and reuse of waste waters.

Nothing in this chapter prevents the appropriate regional board from establishing requirements if a discharge is involved.

13525. No provision of this chapter shall be construed as affecting the existing powers of the State Department of Public Health.

Article 5. Surveys and Investigations

13530. The department, either independently or in cooperation with any person or any county, state, federal, or other agency, or on request of the state board, to the extent funds are allocated therefor, shall conduct surveys and investigations relating to the reclamation of water from sewage or industrial wastes pursuant to Section 230.

SEC. 15. Section 12.2 of Chapter 138, Statutes of 1964, First Extraordinary Session, is amended to read:

Sec. 12.2. During the fiscal years 1967–1968 to 1971–1972, inclusive, two million dollars ($2,000,000) of the oil revenue and dry gas revenue payable to the State of California under this act each year shall be deposited in the State Water Quality Control Fund, after the amount provided for in Section 12 is deposited in the California Water Fund and the amount provided for in Section 12.1 is deposited in the Central Valley Water Project Construction Fund, and shall be available for expenditure pursuant to Chapter 5 (commencing with Section 13100) of Division 7 of the Water Code.

SEC. 16. Section 4 of Chapter 137, Statutes of 1966, First Extraordinary Session, is amended to read:

Sec. 4. All money received in repayment of loans under this act shall be paid to the State Treasurer and credited to the State Water Quality Control Fund, to be available for the purposes of Chapter 5 (commencing with Section 13100) of Division 7 of the Water Code.

SEC. 13. Section 13054.5 of the Water Code is amended to read:

13054.5. Upon failure of any person or persons to file a report as required by Sections 13054 and 13054.1, a regional board may certify the facts to the district attorney for the county in which the discharge or proposed discharge does or will occur, and the district attorney shall petition the superior court in and for that county for the issuance of an injunction requiring such person or persons to file the required report and restraining such person or persons from discharging sewage or other waste within the region until the required report has been filed. In any such suit, the court shall have jurisdiction to grant, without requiring bond or other undertaking, such prohibitory and mandatory injunction, either preliminary or final, as the facts may warrant.

SEC. 14. Section 13055 of the Water Code is amended to read:

13055. A regional board may investigate any source of water pollution or nuisance within its region and may require that any person discharging sewage or other waste within the region furnish such technical or monitoring program reports as the board may specify.

Any person who has been required to make any such reports entailing a substantial expenditure of time or funds or which are not directly related to the appraisal of the existence or threat of pollution may, within 30 days of the determination of the regional board in the matter, appeal such determination to the state board. The state board shall determine the reasonableness and relationships of burdens and costs to benefit of such report and, within 60 days, shall affirm, modify, or annul the determination of the regional board. Pending such determination by the state board, the requirement to furnish the reports shall not be effective.

SEC. 15. Section 13060 of the Water Code is amended to read:

13060. When a regional board finds that the discharge of sewage or other waste within its region is taking place contrary to any requirements prescribed by the regional board under the provisions of Sections 13053, 13054, 13054.1, 13054.3, and 13055, and that such discharge is threatening to cause or is causing pollution or a nuisance, the board may issue an order to cease and desist and direct that those persons, firms, or corporations not complying with the requirements, comply forthwith.

SEC. 16. Section 13063 of the Water Code is amended to read:

13063. Upon failure of any person or persons to comply with any such cease and desist order of the board, the board issuing the order may certify the facts to the district attorney for the county in which the discharge originates or to the Attorney General if the district attorney declines to act. The district attorney or Attorney General, as the case may be, shall petition the superior court in and for that county for the issuance of an injunction restraining such person or persons from continuing the discharge in violation of the requirements. The court shall thereupon issue an order directing the person to appear before the court and show cause why the injunction should not be issued. Thereafter the court shall have jurisdiction of the matter, and proceedings thereon shall be conducted in the same manner as in any other action brought for an injunction pursuant to Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure.

The court shall receive in evidence the order of the board, evidence as to the validity and reasonableness of the board's requirements as previously established, and such further evidence as the court in its discretion deems proper.

SEC. 17. Section 230 of the Water Code is amended to read:

230 The department, either independently or in cooperation with any person or any county, state, federal, or other agency, or upon the request of the State Water Resources Control Board, to the extent funds are allocated therefor, shall conduct surveys and investigations relating to the reclamation of water from sewage or other wastes for beneficial purposes, including but not limited to the determination of quantities of such water presently wasted, and possibilities of use of such water for recharge of underground storage or for agricultural or industrial uses; and shall report to the Legislature and to the appropriate regional water quality control board thereon, annually.

SEC. 18. Section 230 of the Water Code, as amended by Assembly Bill No. 164 of the 1967 Regular Session, is amended to read:

230. The department, either independently or in cooperation with any person or any county, state, federal, or other

agency, or upon the request of the State Water Resources Control Board, to the extent funds are allocated therefor, shall conduct surveys and investigations relating to the reclamation of water from sewage or other wastes for beneficial purposes, including but not limited to the determination of quantities of such water presently wasted, and possibilities of use of such water for recharge of underground storage or for agricultural or industrial uses; and shall report to the Legislature and to the appropriate regional water quality control board thereon, annually.

SEC. 20. Section 13005.1 of the Water Code, as added by Assembly Bill No. 164 of the 1967 Regular Session, is amended to read:

13005.1. "Reclaimed waste waters" means waters containing sewage or other waste which have been treated or otherwise purified so as to enable direct beneficial reuse or to allow reuse that would not otherwise occur.

SEC. 21. Section 13015 of the Water Code, as added by Assembly Bill No. 163 of the 1967 Regular Session, is amended to read:

13015. There is in the State Water Resources Control Board a Water Quality Advisory Committee consisting of nine members appointed by the Governor and the chairman of each of the nine regional water quality control boards or his designee. Each member of the former State Water Quality Control Board shall serve as an original member of the advisory committee. Each of the original members shall serve for the term for which he was appointed to the state board. Thereafter, all members appointed to the advisory committee shall serve for a term of four years.

SEC. 22. Sections 18 and 20 of this act shall become operative only if Assembly Bill No. 164 is enacted into law by the

Legislature at its 1967 Regular Session, and in such case at the same time as Assembly Bill No. 164 takes effect, at which time Section 230 of the Water Code, as amended by Section 17 of this act is repealed.

CHAPTER 1448

An act to add Section 254.6 to the Revenue and Taxation Code, relating to the welfare exemption from property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 254.6 is added to the Revenue and Taxation Code, to read:

254.6. Homes for the aged making an application for the exemption from property taxation under Section 214, other than those making application for the first time after the first complete fiscal year of operation, shall, at the time of filing with the county assessor, file with the assessor a separate affidavit specifying the average number of residents of the home during the past fiscal year, the number of residents of the home receiving public assistance during the past fiscal year, and the number of residents of the home during the past fiscal year for whom charges levied by the home have been paid in whole or in part by private charitable contribution. This latter affidavit shall set forth the total amount of public assistance or of private charitable subsidy provided to the home, and shall be forwarded to the State Board of Equalization along with the affidavit or copy thereof required by Section 254.5. Failure by a home for the aged to comply with this section shall be ground for denial of the exemption granted under Section 214.

Homes for the aged making application for exemption from property taxation under Section 214 for the first time after the first complete fiscal year of operation shall, at the same time and in the same manner as they file the affidavits required for all homes for the aged which are applying for the property tax exemption, file a separate affidavit setting forth the following information:

(a) The sum of the actuarial annual equivalent of all life-care contracts of all home residents in effect during the fiscal year immediately preceding application by the home for exemption from property taxation under Section 214 of the Revenue and Taxation Code; and, for purposes of this section any entrance or admission fee, or any contribution in an amount less than thirty thousand dollars ($30,000), paid by a resident within one year prior to his entering the home to the

home or to any charitable or religious entity making financial contribution to the operation of the home, shall be treated as a life-care contract;

(b) The sum of the annual charges for services and care other than those described in subdivision (a), if any, paid by residents of such homes for the fiscal year immediately preceding application by the home for exemption from property taxation under Section 214 of the Revenue and Taxation Code;

(c) The average number of residents present in the home during the fiscal year immediately preceding application for exemption;

(d) The average number of residents receiving public assistance;

(e) The average number of residents during the past fiscal year for whom charges levied by the home have been paid in whole or in part by private charitable contribution or by the home itself;

(f) The total amount of home charges in excess of total public assistance received by residents of that home;

(g) The amount of private charitable contributions applied to meet charges levied by the home for residents unable to meet such charges from their own resources;

(h) The amount and the unexpired term of the encumbrances upon the home, other indebtedness of the home, and the amount of life-care reserves required by the Department of Social Welfare;

(i) A complete statement of the nature and quantity of services provided residents by the home.

SEC. 2. Homes for the aged which are exempt from property taxation under Section 214 of the Revenue and Taxation Code shall submit to the Department of Social Welfare on or before November 15, 1967, such data as is requested by the department including, but not limited to, the following:

(a) The sum of the actuarial annual equivalent of all life-care contracts of all home residents in effect during the fiscal year immediately preceding application by the home for exemption from property taxation under Section 214 of the Revenue and Taxation Code; and, for purposes of this section any entrance or admission fee, or any contribution in an amount less than thirty thousand dollars ($30,000), paid by a resident within one year prior to his entering the home to the home or to any charitable or religious entity making financial contribution to the operation of the home, shall be treated as a life-care contract:

(b) The sum of the annual charges for services and care other than those described in subdivision (a), if any, paid by residents of such homes for the fiscal year immediately preceding application by the home for exemption from property taxation under Section 214 of the Revenue and Taxation Code;

(c) The average number of residents present in the home during the fiscal year immediately preceding application for exemption;

(d) The average number of residents receiving public assistance;

(f) The total amount of home charges in excess of total public assistance received by residents of that home;

(g) The amount of private charitable contributions applied to meet charges levied by the home for residents unable to meet such charges from their own resources;

(h) The amount and the unexpired term of the encumbrances upon the home, other indebtedness of the home, and the amount of life-care reserves required by the Department of Social Welfare;

(i) A complete statement of the nature and quantity of services provided residents by the home.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Tax-exempt homes for the aged tend to locate in a few desirable areas of the state, and increasing numbers of these homes are seriously undermining the tax base of these areas. Legislation is urgently needed to return some of this lost tax money to local areas. The information required by this bill will enable the Legislature to develop legislation to accomplish this objective at an early time.

CHAPTER 1449

An act to add Section 12024.7 to the Business and Professions Code, relating to food weights.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 12024.7 is added to the Business and Professions Code, to read:

12024.7. Any person who sells meat directly to the consumer on the basis of primal cuts or carcass weight shall supply the buyer with an accurate statement of weight at time of sale of the carcass or primal cut purchased, and shall supply a complete and accurate statement which shall contain the weight of the meat delivered to the buyer and the number and type of cuts. When any fruits, vegetables, or other food products are sold as part of a combination sale with meat sold directly to the consumer on the basis of primal cuts or carcass weight, the seller shall supply an itemized statement showing the net quantity of any fruits, vegetables, and other

food products delivered to the buyer. This section shall also apply to any person who custom cuts any meat animal carcass or part of such carcass for the owner, except the carcass of any game mammal taken as authorized by the Fish and Game Code.

CHAPTER 1450

An act to amend Section 24755 of the Business and Professions Code, relating to the sale of alcoholic beverages.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 24755 of the Business and Professions Code is amended to read:

24755. (a) No package of distilled spirits which bears the brand, trademark or name of the owner or person in control shall be sold at retail in this state for consumption off the license premises unless a minimum retail price for such package first shall have been filed with the department in accordance with the provisions of this section.

(b) A price for each of such packages shall be in a minimum retail price schedule setting forth with respect to each package the exact brand, trademark or name, capacity, and type of package, type of distilled spirits, age and proof, where stated on the label, and the minimum selling price at retail. The price for any such package may be filed separately and differently for the trading area of southern California and the trading area of northern California. The trading area of southern California shall consist of the Counties of Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Bernardino, Imperial and San Diego. The northern California trading area shall consist of the other counties of the state. No more than one person shall file a schedule for the same package for the same trading area.

(c) Such schedule shall be filed by (1) the owner of the brand, if licensed in the state; (2) any licensee, other than a retailer, selling the brand and who is authorized in writing by the brand owner to file such schedule if the brand owner is not licensed in this state; (3) a manufacturer or rectifier licensed in this state and who bottles under the brand owned by a retailer; or (4) any licensee with the approval of the department, if the owner of the brand does not file or is unable to file a schedule or authorize a licensee other than a retailer to file such schedule.

(d) Schedules filed pursuant to this section may be amended, changed, or modified by filing such amendments, change, or modification with the department on or before the 15th day of any month to take effect on the first day of the second succeeding calendar month; except that prices filed for a

brand, size, or type not included in a schedule in effect at the time such brand, size, or type is filed, and prices filed to meet the price of a competitive brand, may be filed on or before the 15th day of any month to take effect on the first day of the following month. For the purpose of this section, a competitive brand shall mean any brand of the same type of distilled spirits having a filed selling price at retail within one dollar ($1) per gallon of the brand for which a competitive price is filed.

The department shall reject any price schedule which does not comply with this subdivision.

(e) A price schedule or amendment, change or modification thereof as provided for by this section shall be deemed filed when received, either by personal delivery or mail, at the headquarters office of the department in Sacramento. Upon such filing, a price schedule or amendment, change or modification thereof shall become a public record. Such filing of a price schedule or amendment, change or modification thereof shall constitute constructive notice of its contents to any licensee affected thereby.

(f) No off-sale licensee shall sell any package of distilled spirits at any price less than the effective filed price of such package unless written permission is granted by the department, for good cause shown and for reasons not inconsistent with this division.

(g) No retail licensee shall sell any package of distilled spirits as a loss leader. "Loss leader," as used in this section, means a sale below cost as such cost is defined in Sections 17026 to 17029, inclusive, of this code, except that a sale below cost made under the provisions of Section 17050 of this code shall not be deemed a loss leader sale.

(h) The provisions of this section shall not apply to:

(1) A closeout sale made in good faith and approved by the department when the following conditions exist: (i) the stock of distilled spirits sought to be closed out has been in this state, either in the possession of the vendor who sold it to the retailer or in the possession of the retailer who seeks to close out the brand, for a period of not less than six months; (ii) the stock of distilled spirits to be closed out was not brought into this state for the purpose of offering it, or any part of it, at a closeout sale; (iii) at least 10 days prior to filing a request with the department for approval to sell the stock at a closeout sale, the retailer had offered to return the distilled spirits, at his original invoice cost, to both the vendors from whom he purchased them or to his successor and to the licensee who filed the minimum price schedule under the provisions of this section; (iv) such offer of return was not accepted.

At the place of any closeout sale and upon any package of distilled spirits to be so sold and in any advertisement in con-

nection therewith, public notice shall be given of the sale as a closeout sale. Following the conclusion of a closeout sale, the retailer who conducted such sale shall not sell the same brands of distilled spirits for a period of at least one year.

(2) Sales made with the approval of the department when the distilled spirits or the package is damaged or deteriorated in quality and notice of this fact is given to the public at the place of any such sale and upon the package offered for sale and in any advertisement in connection therewith.

(3) Sales made by any officer acting under the orders of any court.

(4) Sales of distilled spirits for use in the manufacture or production of food products which are unfit for beverage use as provided in Section 23112, if such distilled spirits are sold to a person who holds a permit and identification number authorizing the filing of a claim for drawback of federal distilled spirits excise taxes under the Federal Non-Beverage Drawback Regulations.

(i) A minimum retail price schedule containing a minimum retail price for each package of any brand of beer may be filed under the provisions of this chapter by the person in control of such brand and when so filed, the provisions of this chapter and any rules adopted by the department for the administration of the provisions of this chapter shall apply to the sale of packages of such brand of beer.

(j) The department shall adopt rules whereunder minimum retail prices of distilled spirits will be made available to licensees; means of making such prices available may include, but need not be limited to, publication in trade journals or industry price books of general circulation among retail licensees in this state, or in parts or trading areas of this state.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 4534 of the Agricultural Code, as proposed by Senate Bill No. 1, is amended to read:

An act to create a Farm Labor Service Citizens Commission to study the Farm Labor Service.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows: Agriculture is the largest industry in the State of California and is reliant upon an adequate supply of competent labor. Further, the agricultural industry is highly competitive with that of other states and other countries, some of which have labor cost advantages, and is undergoing an accelerated transition to mechanization, with the accompanying changes in requirements for labor with different skills. Therefore there is a need to reorganize the Farm Labor Service of the California Department of Employment under these circumstances to satisfy the needs of agricultural employers and employees within the framework of existing federal law and regulations.

SEC. 2. There is in the state government a Farm Labor Service Citizens Commission of 12 members, of whom six members shall be appointed by the Governor, three members shall be appointed by the Senate Committee on Rules, and three members shall be appointed by the Speaker of the Assembly, such appointments to be made in a manner as to reflect the crop and geographical diversity of California agriculture.

SEC. 3. (a) Each member of the commission shall be entitled to receive his actual necessary expenses while on official business of the commission.

(b) The commission shall select from its membership a chairman and vice chairman.

SEC. 4. The commission shall have the powers and authority necessary to carry out the duties imposed upon it by this chapter, including, but not limited to, the following:

(a) To use such administrative, technical and other personnel of the Department of Employment as may be necessary for the performance of its powers and duties.

(b) To hold hearings, make and sign any agreements and to do or perform any acts which may be necessary, desirable or proper to carry out the purposes of this chapter.

(c) To cooperate with, and secure the cooperation of, any department, division, board, bureau, commission, or other agency of the state to facilitate it properly to carry out its powers and duties hereunder.

SEC. 5. The commission shall study the operation of the Farm Labor Service in California and in other states and draw upon the recommendations of the Farm Labor Service in California and those persons in the federal service who are knowledgeable in this area in the development of goals, or-

ganization and procedures for the Farm Labor Service in California and to report thereon to the Governor not later than January 15, 1968.

SEC. 6. This act shall be operative only until January 15, 1969.

CHAPTER 1453

An act to add Section 123.5 to the Labor Code, relating to workmen's compensation.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 123.5 is added to the Labor Code, to read:

123.5. Referees employed by the administrative director pursuant to this chapter shall be taken from an eligible list of attorneys, having the qualifications prescribed by the State Personnel Board. In establishing eligible lists for this purpose, state civil service examinations shall be conducted by the State Personnel Board on a nonpromotional basis.

CHAPTER 1454

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 20205.5 of the Government Code is amended to read:

20205.5. The board may invest the money in the retirement fund in real property or improvements thereon or to be constructed thereon when such real property or improvements are acquired or to be made by or for sale or lease to the state or a public agency. The board may acquire such real property under the provisions of the Property Acquisition Law. Title to real property acquired by or on behalf of the board pursuant to this section or under the Property Acquisition Law shall be vested in the board. The Director of General Services on behalf of the state may hire or lease as lessee real property or improvements acquired hereunder for lease to the state. Such lease may contain an option or options to purchase said

property, or a provision that title to said property shall vest in the state at the expiration of said term, and the Director of General Services is authorized to acquire such property. The board also may invest such money in any valid special obligations of the state or a public agency or an agency of either issued to finance a public building and secured solely by such building or revenues, rentals or receipts received from operation of such building. This section shall not be construed as authorization to acquire any real property or improvements thereon or to issue any obligation to finance such acquisition on behalf of the state unless such acquisition is authorized by a separate act or appropriation enacted by the Legislature.

SEC. 2. Section 20305 of the Government Code is repealed.

SEC. 3. Section 20306 of the Government Code is repealed.

SEC. 4. Section 20362 of the Government Code is repealed.

20458. The governing body shall not include in this system any group if a majority of its members voted to disapprove the proposed plan or if two-thirds of those of its members who are also members of an existing local retirement pension or annuity fund or system do not vote for approval of the proposed plan. If there are no members of any group when the election is held, the governing body may include the group in this system, and members subsequently entering the group shall become members of the system under the provisions of this part.

SEC. 6. Section 20459 of the Government Code is repealed.

SEC. 7. Section 20605 of the Government Code is amended to read:

20605. For each local miscellaneous member not subject to Section 21251.1 of this part, the normal rate of contribution shall be such as on the average will provide an annuity at age 65 equal to one one hundred-fortieth of his final compensation, for each year of current service according to the tables adopted by the board. The rate of contribution of each local miscellaneous member subject to said Section 21251.1 shall be the same as if he were a state miscellaneous member.

SEC. 8. Section 20607.8 of the Government Code is amended to read:

20607.8. For each local safety member who is a police officer, and who became such a member of this system, or, if entitled to credit for prior service, who entered police service at or below age 45, the normal rate of contribution shall be such as will provide, on the average, a service retirement annuity at age 50, or upon completion of 20 years of service at an age higher than 50 years, equal to one-fourth of his final compensation less one-half of his prior service pension (assumed for this purpose to be based on the full prior service formula applicable to his classification), it being the intention that the retirement allowances of such members, upon retirement at age 50 or such higher age, shall be, on the average, one-half of their final compensations, respectively.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section and of Sections 20952.8 and 21252.8 by amendment to its contract made in the manner prescribed for approval of contracts, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

Whenever this section becomes applicable to the employees of any contracting agency, as to those members to whom it applies it shall supersede the provisions of Section 20607.

SEC. 9. Section 20609 of the Government Code is amended to read:

20609. The normal rate of contribution for a member who is credited with service in any membership category in which his current service pension will be calculated under Section 21252.1, 21252.10, 21252.2, 21252.3, 21252.4, 21252.6 or 21252.8, and who reenters state service in the same or another such category shall be based on the age upon which his normal rate of contribution for the preceding period of such credited service was based, increased by the number of years of any intervening absence from such category, and shall be such as will provide on the average a service retirement annuity at normal retirement age for the category entered or the later completion of 20 years' service equal to one-fourth of final compensation less one-half of the prior service pension and less than total percentage of final compensation which his contributions for such credited service were calculated to provide. In no event shall the normal rate of contribution provided under this section be such as will provide on the average a service retirement annuity in excess of 1¼ percent of final compensation for each year of current service.

If, upon any such reentry into state service, the member's current service pension for service thereafter will be calculated under Section 21252.5, the normal rate of contribution thereafter shall be such as will provide on the average a service retirement annuity at age 60 equal to five-eighths of 1 percent of his final compensation for each year of current service which would be applicable toward the benefit formula set forth in Section 21252.5. The amendment to this section at the 1965 General Session shall apply only to the rate of a member who reenters state service on or after October 1, 1965.

SEC. 10. Section 20685 of the Government Code is amended to read:

20685. If a basic death benefit has become or becomes payable before the payment of the total amount the member elected to pay under any election with respect to normal contributions permitted under this part, the member's entire compensation, or the service upon which that total amount was based, as the case may be, shall be included in the computation of the portion of the death benefit which is provided in sub-

division (b) of Section 21361. and the unpaid balance of the total amount shall not be paid to this system, nor shall it be included in the member's accumulated contributions which constitute a part of the basic death benefit. Any balance of any such total amount remaining unpaid at the death of the member on account of which a special death benefit is payable or at the retirement of a member for industrial disability shall become due and payable forthwith and if not paid, the portion of such unpaid amount representing contributions on compensation earned in the membership applicable to the member at the time of injury resulting in death shall be deducted from the benefit otherwise payable and the system shall be discharged from any liability for any annuity or benefit with respect to any remainder of such unpaid contribution. Any such balance at the time of retirement for service or ordinary disability, or at death, with respect to which a benefit is payable under Section 21365.5 shall become due and payable forthwith, and if it is not paid the service credit included in the election shall be reduced proportionately and any prior service dependent on completion of payments eliminated for purposes of computing the allowance but not for purposes of determining entitlement to an allowance.

SEC. 11. Section 20804.5 of the Government Code is amended to read:

20804.5. Any member shall receive current service credit for time which was spent by him in employment of the state or a contracting agency (a) while not a member of this system but after persons employed in his status were eligible for membership in this system, or (b) while excluded from membership because serving on a part-time basis or because of his failure to exercise his right of election of membership under Section 20360, 20361 or 20364 of this code, or (c) while excluded from membership in an employment in which persons since have become eligible for membership and which is not creditable to him under other provisions of this part, if, at any time prior to retirement, he elects to pay, and pays, into the retirement fund, by lump sum payment or by installments over a period not to exceed 60 months subject to minimum payments fixed by the board, normal contributions for such time computed by applying the rate of contribution applicable to him at the time he first became a member of this system after the period to be credited as service to the compensation earnable by him at that time, together with interest on such contributions or on the unpaid balance if such contributions are paid by installments, from October 1, 1953, or from the date on which he first became a member of this system after the period to be credited as service, whichever is later, until paid.

SEC. 12. Section 21207 of the Government Code is amended to read:

21207. If any person entitled to a benefit from this system is a minor who has no guardian of his estate, the board, within

the limits as to amount of payment and value of the minor's estate specified as of the time of payment in the provisions of the Probate Code authorizing payment to the parent of a minor entitled to his custody, may pay it to the person entitled to the custody of the minor to hold for the minor, if the person files with the board his verified statement that the total estate of the minor does not exceed the value so specified. Payment so made is a full discharge of the board and this system. The person shall account to the minor for the money when the minor reaches the age of majority.

SEC. 13. Section 21251.1 of the Government Code is amended to read:

21251.1. The current service pension for a state miscellaneous member, for a prison member, or for a local miscellaneous member who is an employee of a contracting agency which is subject to the provisions of this section, upon retirement at age 60, is a pension derived from the contributions of the state, or of the contracting agency, sufficient, when added to the service retirement annuity that is derived from the accumulated normal contributions of the member at the date of his retirement, to equal one-sixtieth of his final compensation multiplied by the number of years of current service, except service in a category of membership other than that of a state miscellaneous member, prison member, or local miscellaneous member, with which he is entitled to be credited at retirement.

If such a member retires before attaining age 60 or after attaining age 60 and prior to attaining age 65, the current service pension shall be adjusted to that amount which the value of the pension as of age 60 will purchase at the actual age at retirement on the basis of the interest rates and mortality tables used under the system with respect to such member at the time of his retirement. If such a member retires after attaining age 65, the current service pension shall be adjusted to that amount which the value of the pension as of age 60 would have purchased at age 65 on the basis of said interest rates and mortality tables.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendments to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

SEC. 14. Section 21253 of the Government Code is amended to read:

21253. The prior service pension for a state miscellaneous member, or for a local miscellaneous member who is an employee of a contracting agency which is subject to the provisions of this section, is an annual pension derived from the

contributions of the state, or of the contracting agency, equal to the sum of the following:

(a) The fraction of one-sixtieth of his final compensation applicable to computation of his current service pension multiplied by the number of years of prior service, except service in a category of membership other than that of a state miscellaneous, local miscellaneous or prison member, with which he is entitled to be credited at retirement.

(b) In respect to prior service consisting of service other than as a state miscellaneous, local miscellaneous or prison member, the pension computed pursuant to the provisions for computation of prior service of members of the category in which the prior service was rendered.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 22754 of the Government Code is amended to read:

22754. As used in this part the following definitions, unless the context otherwise requires, shall govern the interpretation of terms.

(a) "Board" means the Board of Administration of the State Employees' Retirement System.

(b) "Employee" means any officer or employee of the State of California or of any agency, department, authority, or instrumentality of the state including the University of California, or any officer or employee who is a member of the State Employees' Retirement System pursuant to a contract, of a contracting agency subject to this part, except persons em-

ployed on an intermittent, irregular or less than half-time basis, or employees similarly situated, or employees in respect to whom contributions by the state for any type of plan or program offering prepaid hospital and medical care are otherwise authorized by law.

(c) "Carrier" means a private insurance company holding a valid outstanding certificate of authority from the Insurance Commissioner of the state, a medical society or other medical group, a nonprofit hospital service plan qualifying under Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, or nonprofit membership corporation lawfully operating under Section 9200 or Section 9201 of the Corporations Code, which is lawfully engaged in providing, arranging, paying for, or reimbursing the cost of personal health services under insurance policies or contracts, medical and hospital service agreements, membership contracts, or the like, in consideration of premiums or other periodic charges payable to it.

(d) "Health benefits plan" means a group insurance policy or contract, medical or hospital service agreement, membership or subscription contract, or similar group arrangement provided by a carrier for the purpose of providing, arranging, paying for, or reimbursing the cost of basic hospital and medical care and for major medical or other comprehensive benefit plans for employees and annuitants who are also covered under basic plans.

(e) "Annuitant" means:

(1) Any person who has retired while an employee and who receives any retirement allowance under any state or University of California retirement system to which the state was a contributing party.

(2) A family member receiving an allowance as the survivor of an annuitant who has retired as provided in subdivision (1), or as the survivor of a deceased employee under Sections 21364, 21365.5 or 21382 of this code or similar provisions of any other state retirement system.

(f) "Family member" means an employee's or annuitant's spouse and any unmarried child (including an adopted child, a stepchild, or recognized natural child who lives with the employee or annuitant in a regular parent-child relationship). The board shall, by regulation, prescribe age limits and other conditions and limitations pertaining to unmarried children.

(g) "Employee organization" means an association or other organization of employees in which membership is open to employees or annuitants of the state, and which is not organized solely or principally for the purpose of obtaining prepaid hospital and medical care.

(h) "Contracting agency" means any contracting agency as defined in Section 20010, other than a school district or a county superintendent of schools.

(i) "Employer" means the state and any contracting agency employing an employee.

SEC. 2. Section 22810 of said code is amended to read:

22810. An employee or annuitant may, in the manner, and under such eligibility rules as the board may by regulation prescribe, enroll in an approved health benefits plan, either as an individual or for self and family, except that an employee of a contracting agency, or an annuitant who retired while such an employee or is the beneficiary of such an employee, may enroll only in a health benefits plan for which the board has contracted. The regulations may provide for the exclusion of employees on the basis of the nature and type of their employment or conditions pertaining thereto, such as, but not limited to, short term appointments, seasonal or intermittent employment, and employment of a like nature, but no employee or group of employees shall be excluded solely on the basis of the hazardous nature of the employment. Any such enrollment shall authorize the deduction of the contributions required under this part from the employee's or annuitant's salary or retirement allowance.

Any annuitant who, at the time he became an annuitant was enrolled in a health benefits plan, may continue his enrollment as provided by regulations of the board, without discrimination as to premium rates or benefit coverage.

The board shall, by rule and regulation, make such provision as it deems necessary to eliminate or minimize the impact of adverse selection which would affect any plans approved or contracted for, because of enrollment of annuitants.

SEC. 3. Section 22814 of said code is amended to read:

22814. An employee enrolled in a health benefits plan who is removed or suspended without pay and later reinstated or restored to duty on the ground that such removal or suspension was unjustified, unwarranted or illegal shall not be deprived of coverage or benefits for the interim, but any contributions otherwise payable by the employer which were actually paid by him shall be restored to the same extent and effect as though such removal or suspension had not taken place, and any other equitable adjustments necessary and proper under the circumstances shall be made in premiums, subscription charges, contributions and claims.

SEC. 4. Section 22816 of said code is amended to read:

22816. An employee enrolled in a health benefits plan under this part who is granted a leave of absence without pay under the State Civil Service Act and the rules of the State Personnel Board, or other comparable leave, shall be entitled to have his coverage and the coverage of any family members continued for the duration of the leave of absence upon his application, but only upon assuming payment of the contributions otherwise required of the employer on account of his enrollment.

SEC. 5. Section 22825 of said code is amended to read:

22825. The employer and each employee or annuitant shall contribute a portion of the cost of providing for each employee

and annuitant the benefit coverage afforded under any health benefit plan which the board has approved or for which it has executed a contract pursuant to this part, and in which the employee or annuitant may be enrolled.

The employer's contribution shall be the amount necessary to pay the cost of a basic health benefits plan, or six dollars ($6) per month for each employee or annuitant, whichever is the lesser; provided, however, that there shall be only one such contribution with respect to all annuitants receiving allowances as survivors of the same employee or annuitant. The employer's contribution to the basic health benefits plan to each employee shall commence on the first day of the calendar month next following the completion of six months of employment by the employer; provided the employment has not been interrupted by a break of more than one month, except that absence for military service shall not be considered a break.

The contribution of each employee and annuitant shall be the total cost per month of the benefit coverage afforded him under the plan less the portion thereof to be contributed by the employer.

SEC. 6. Section 22831 is added to said code, to read:

22831. Each contracting agency shall contribute to the State Employees' Contingency Reserve Fund, an amount sufficient to bear all the administrative costs incurred by the board in providing to the employees and annuitants of such agency the health benefits provided by this part. The amount of the contributions required by this section shall be determined by the board, and may include an appropriate share of overhead costs of the program. Such contracting agency shall in addition contribute to said fund for each of its employees and annuitants the same amount as is required of the state under subdivision (2) of Section 22826.

SEC. 7. Section 22832 is added to said code, to read:

22832. The contributions required of a contracting agency, along with contributions withheld from salaries of its employees, shall be forwarded monthly, no later than the 10th day of the month for which the contribution is due, and shall be deposited in the State Employees' Contingency Reserve Fund.

SEC. 8. Section 22840 of said code is amended to read:

22840. For all plans which the board has approved or entered into a contract, there shall be maintained in the State Treasury a State Employees' Contingency Reserve Fund to which shall be credited, from time to time as determined by the board, amounts determined by the board and contributed under Section 22826 to provide an adequate contingency reserve. The income derived from any dividends, rate adjustments, or other refunds by a plan shall be credited to the fund.

The board may invest funds in the State Employees' Contingency Reserve Fund in accordance with the provisions of law governing its investment of the Retirement Fund.

The State Employees' Contingency Reserve Fund may be utilized to defray increases in future rates, to reduce the contributions of employees and annuitants and the employers, or to increase the benefits provided by any plan to the extent that amounts in the account are derived from that plan, as determined from time to time by the board. Said fund is appropriated for such purposes to the extent of all amounts credited to it other than the employers' contribution for administrative expenses, and for administrative expense to the extent of the employers' contribution for such purpose.

The total credited to the State Employees' Contingency Reserve Fund at any time, for all purposes other than administrative expense, shall be limited, in the manner and to the extent the board may find to be most practical, to a maximum of 10 percent of the total of the contributions of the employers and employees and annuitants in any fiscal year. The board may undertake such action as will insure that the maximum amount prescribed for the fund is approximately maintained.

Board rules adopted pursuant to Section 22810 to minimize the impact of adverse selection because of enrollment of annuitants may provide for deposit in and disbursement to carriers from the State Employees' Contingency Reserve Fund of such portion of the contributions otherwise payable directly to the carriers by the Controller under Section 22841 as may be required for such purpose. The fund is appropriated for such purpose in addition to the other purposes specified in this section. Such deposits shall not be included in applying the limitations, prescribed in this section, on total amounts which may be deposited in or credited to the fund.

SEC. 9. Section 22842 is added to said code, to read:

22842. Contributions of employees and annuitants of contracting agencies, and contributions of such employer not credited to the State Employees' Contingency Reserve Fund for purposes specified in Section 22826, shall be utilized for payment of premiums and other charges required to be paid to carriers, and said fund is continuingly appropriated for such purpose to the extent of such contributions. Such amounts shall be suitably identified and remitted monthly to the carriers by warrant of the State Controller upon claims filed by the board.

SEC. 10. Article 7 (commencing with Section 22850) is added to Chapter 1 of Part 5 of Division 5 of Title 2 of the Government Code, to read:

Article 7. Extension of Benefits to Employees of Local Agencies Contracting With the State Employees' Retirement System

22850. A contracting agency and its employees and annuitants shall be subject to this part upon the filing with the

board of a resolution of its governing body electing to be so subject. The resolution shall be adopted by a majority vote and shall be filed on or before July 1 of any year to be effective on the beginning date of the next contract term.

22851. A contracting agency subject to this part shall perform such function in enrollment of its employees and submit such necessary reports as may be required by the board.

22852. Notwithstanding any other provision of this part to the contrary, an employee or annuitant of a contracting agency shall not be enrolled in a health benefits plan under this part at any time while he is covered under any plan or program offering prepaid hospital and medical care maintained by the contracting agency or to which such agency makes any contribution on behalf of its employees or annuitants.

22853. A contracting agency which has elected to be subject to this part may elect to cease to be so subject by resolution adopted by a majority vote of its governing body and filed with the board on or before August 1 of any year, to be effective at the end of the current contract term. Coverage of its employees and annuitants shall terminate on that date.

22854. The board may by resolution terminate the participation of a contracting agency if it fails for three months after demand by the board to perform any act required by this part or board rules.

SEC. 11. There is hereby appropriated from the Contingency Reserve Fund thirty-two thousand dollars ($32,000) or as much thereof as may be necessary for costs of administration during the fiscal year 1967–68. The amount expended pursuant to this appropriation shall be repaid to the Contingency Reserve Fund by the agencies which contract for coverage pursuant to the provisions of this act during the first two years following its effective date.

CHAPTER 1464

An act to amend Section 20897 of the Government Code, relating to the State Employees' Retirement System.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 20897 of the Government Code is amended to read:

20897. (a) Any member of this system who was absent from state service on war relocation leave may elect by written election filed with the board at any time prior to July 1, 1968, to make contributions pursuant to this section for, and to receive credit in this system as state service for, all or any part of the time he was on war relocation leave.

(b) As used in this part, "war relocation leave" means the period of absence from state service occasioned by the evacuation and relocation of a member pursuant to orders issued by the commanding officer of the Western Defense Command in March, 1942, for the evacuation of persons of Japanese descent from such area, where the member was in state service on March 5, 1942, and returned to state service prior to January 1, 1947, or within six months of the time he was discharged, under conditions other than dishonorable, from military service which commenced after his evacuation or relocation, whichever date is later. War relocation leave of a member shall include the period of time from the separation of a member from state service until his return to state service within the period provided herein.

(c) Any member who elects to make contributions and receive credit as state service for all or any part of the time he was on war relocation leave shall contribute to the retirement fund, prior to the effective date of his retirement, by lump sum payment or by installment payments over a period not in excess of the length of time for which the member has elected to receive credit for war relocation leave as state service, at times and in a manner fixed by the board, an amount equal to the sum of (1) the contributions he would have made to the retirement fund if he had been in state service during the time he was on war relocation leave and for which he has elected to receive credit for state service, computed by applying the rate of contribution applicable to him upon commencement of his period of war relocation leave to the monthly compensation earnable by him at the time of commencement of his period of war relocation leave multiplied by the number of months of war relocation leave for which he has elected to receive credit for state service and which will constitute current service under this system, (2) the contributions that would have been made by his employer in respect to him if he had

been in state service during the time he was on war relocation leave and for which he has elected to receive credit for state service, excluding any such contributions with respect to prior service, computed by applying the rate of the employer contribution with respect to members of his category at the time of commencement of his period of war relocation leave to the monthly compensation earnable by him at said time of commencement of his period of war relocation leave multiplied by the number of months of war relocation leave for which he has elected to receive credit for state service and which will constitute current service under this system, and (3) the interest which would have accrued to such member contributions and such state contributions if they had been made on the date of commencement of the member's period of war relocation leave from that date until the completion of payment of those contributions, computed at the current interest rate.

At the time of his retirement a member shall not receive credit as state service for any war relocation leave in excess of that for which he has completed payment of contributions as provided in this section. Any member who has elected to make such contributions by installment payments may, at any time prior to the effective date of his retirement, complete payment of such contributions by lump sum payment. All contributions made pursuant to this section shall be considered to be, and shall be administered as, normal contributions by the member.

Every person required under this section to maintain records, and every person in charge of custody thereof, shall, upon request of an agent of the board, permit such agent at all reasonable times to have access to and copy and verify such records.

SEC. 6. Section 1707.4 is added to the Health and Safety Code, to read:

(a) The investigations, reports of which are required to be submitted to the board pursuant to subdivision (2) of Section 1707.1 do not include adequate tests by all methods reasonably applicable to show whether or not a drug, medicine, compound or device is safe for use in the diagnosis, treatment, alleviation or cure of cancer.

(b) The results of tests specified in subdivision (a) show that a drug, medicine, compound or device is unsafe for use under the conditions specified in subdivision (a) or do not show that the drug, medicine, compound or device is safe for use under such conditions.

(c) The methods used in, and the facilities and controls used for, the manufacture, processing, and packing of a drug, medicine, compound or device are inadequate to preserve its identity, strength, quality, and purity and with respect to a device are inadequate to preserve its safety or effectiveness.

(d) Upon the basis of the information submitted to it as part of the application, or upon the basis of any other information before it with respect to a drug, medicine, compound or device, it has insufficient evidence to determine whether the drug, medicine, compound or device is safe for use under the conditions specified in subdivision (a).

(e) Evaluated on the basis of the information submitted to it as part of the application and any other information before it with respect to the drug, medicine, compound or device, there is a reasonable doubt that the drug, medicine, compound or device will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the proposed labeling or advertising thereof.

(f) The application contains any untrue statement of a material fact.

SEC. 7. Section 1707.5 is added to the Health and Safety Code, to read:

(1) That clinical or other experience, tests, or other scientific data show that such drug, medicine, compound or device is unsafe for use under the conditions of use upon the basis of which the application was approved;

(2) That new evidence of clinical experience, not contained in such application or not available to the board until after such application was approved, or tests by new methods, or tests by methods not deemed reasonably applicable when such application was approved, evaluated together with the evidence available to the board when the application was approved, shows that such drug, medicine, compound or device is not shown to be safe for use under conditions of use upon the basis of which the application was approved; or

(3) On the basis of new information with respect to the drug, medicine, compound or device, evaluated together with the evidence available to the board when the application was approved, that there is a lack of substantial evidence that the drug, medicine, compound or device will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling or advertising thereof; or

(4) That the application contains any untrue statement of a material fact.

(b) If the board finds that there is an imminent hazard to the public health, it may suspend the approval of such application immediately.

(c) The board may also, after due notice and opportunity for hearing, withdraw the approval of an application with respect to any drug, medicine, compound or device under this section if the board finds any of the following:

(1) That the applicant has failed to establish a system for maintaining required records, or has repeatedly or deliberately failed to maintain such records or to make required reports, or the applicant has refused to permit access to, or copying or verification of, such records; or

(2) That on the basis of new information before the board, evaluated together with the evidence before it when the application was approved, the methods used in, or the facilities and controls used for, the manufacture, maintenance, processing, and packing of such drug, medicine, compound, or device are inadequate to assure and preserve its identity, strength, quality, and purity and with respect to a device are inadequate to preserve its safety or effectiveness and were not

made adequate within a reasonable time after receipt of written notice from the board specifying the matter complained of; or

(3) That on the basis of new information before it, evaluated together with the evidence before it when the application was approved, the labeling of such drug, medicine, compound or device, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the board specifying the matter complained of.

(d) Any order under this section shall state the findings upon which it is based.

SEC. 8. Section 1708 of the Health and Safety Code is amended to read:

1708. This chapter shall not apply to the use of any drug, medicine, compound, or device intended solely for legitimate and bona fide investigational purposes by experts qualified by scientific training and experience to investigate the safety and therapeutic value thereof unless the department shall find that such drug, medicine, compound, or device is being used in diagnosis or treatment for compensation and profit. In order to qualify for an exemption under this section there shall be on file with the Federal Department of Health, Education, and Welfare a current and unrevoked investigational new drug application issued pursuant to Section 505i of the Federal Food, Drug, and Cosmetics Act, or the following conditions shall be complied with:

(b) The drug, medicine, compound or device has had adequate testing on appropriate experimental animals to demonstrate a lack of toxicity and hazard sufficient to permit its use in or on human beings and to establish with clarity the margins of safety ordinarily recognized by experts qualified by scientific training and experience to investigate the safety and effectiveness of such drugs, substances or devices.

(c) The drug, medicine, compound or device is to be used solely for investigational use by, or under the direction of, an expert qualified by scientific training and experience to investigate the safety and effectiveness of such drug, medicine, compound or device.

(d) A written statement signed by the expert has been filed with the board. The statement shall show what facilities the expert will use for the investigation to be conducted by him, and that the drug, medicine, compound or device will be used solely by him or under his direction for the investigation. The statement shall contain information identifying any assistant or agent of the expert who uses the drug, medicine, compound, or device under the direction of the expert.

(e) Complete records of the investigation shall be kept by the expert and all records shall be made available by the expert for inspection upon the request of any agent of the board at any reasonable hour as long as the expert desires exemption.

(f) The expert shall inform any persons who participate in the investigation as patients, that such drug, medicine, compound or device is being used for investigational purposes and shall obtain the consent of such persons or their representatives.

CHAPTER 1467

An act to add Chapter 3 (commencing with Section 65500) to Division 22 of the Agricultural Code, as proposed by Senate Bill No. 1, relating to regulating the marketing of fruits by the California Table Grape Commission, and making an appropriation therefor.

[Approved by Governor August 25, 1967. Filed with Secretary of State August 25, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 65500) is added to Division 22 of the Agricultural Code, as proposed by Senate Bill No. 1, to read:

CHAPTER 3. THE CALIFORNIA TABLE GRAPE COMMISSION

Article 1. Declarations and Purposes

65500. (a) Grapes produced in California for fresh human consumption comprise one of the major agricultural crops of California, and the production and marketing of such grapes affects the economy, welfare, standard of living and health of a large number of citizens residing in this state.

(b) Increased plantings of vineyards and improved cultural practices for the production of California grapes for fresh human consumption have increased and will continue to increase the production thereof and unless the fresh human consumption of California grapes is increased by the expansion of existing markets and the development of new markets, the interests of the fresh grape industry of California, and the public interest of the people of this state, will be adversely affected.

(c) The inability of individual producers to maintain or expand present markets or to develop new or larger markets for such grapes results in an unreasonable and unnecessary economic waste of the agricultural wealth of this state.

(d) Such conditions and the accompanying waste jeopardize the future continued production of adequate supplies of fresh grapes for human consumption for the people of this and other states, and prevent producers from obtaining a fair return for their labor, their farms and their production. As a consequence, the purchasing power of such producers has been in the past, and may continue to be in the future unless such conditions are remedied, low in relation to that of other people engaged in other gainful occupations within the state, and they are thereby prevented from maintaining a proper standard of living and from contributing their fair share to the support of the necessary governmental and education functions, thus tending to increase unfairly the tax burden of other citizens of the state.

(e) These conditions vitally concern the health, peace, safety and general welfare of the people of this state. It is therefore necessary and expedient in the public interest to protect and enhance the reputation of California fresh grapes for human consumption in intrastate, interstate and foreign markets, and to otherwise act so to eliminate unreasonable and unnecessary economic waste of the agricultural wealth of this state.

(f) The promotion of the sale of fresh grapes for human consumption by means of advertising, dissemination of information on the manner and means of production, and the care and effort required in the production of such grapes, the methods and care required in preparing and transporting such grapes to market, and the handling of the same in consuming markets, research respecting the health, food and dietetic value of Cali-

fornia fresh grapes and the production, handling, transportation and marketing thereof, the dissemination of information respecting the results of such research, instruction of the wholesale and retail trade with respect to handling thereof, and the education and instruction of the general public with reference to the various varieties of California fresh grapes for human consumption, the time to use and consume each variety and the uses to which each variety should be put, the dietetic and health value thereof, all serve to increase the consumption thereof and to expand existing markets and create new markets for fresh grapes, and prevent agricultural waste, and is therefore in the interests of the welfare, public economy and health of the people of this state.

(g) It is hereby declared to be the policy of this state to aid producers of California fresh grapes in preventing economic waste in the marketing of their commodity, to develop more efficient and equitable methods in such marketing, and to aid such producers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

(h) The production and marketing of grapes produced in California for fresh human consumption is declared to be affected with a public interest; the provisions of this chapter are enacted in the exercise of the police power of this state for the purpose of protecting the health, peace, safety and general welfare of the people of this state.

65501. Notwithstanding other laws to the contrary, in the event a commodity or marketing agreement or marketing order under the jurisdiction of the United States Department of Agriculture or other appropriate federal agency, is created by referendum or under the applicable laws and procedures relating thereto, in this state or in any geographical area within this state, which agreement or order contains provisions substantially similar to the provisions of this chapter, this chapter shall be inapplicable to any producer, shipper, or other person covered by, and, to the extent of such coverage, during the existence of such federal agreement or order.

In the first election after the effective date of this chapter, each producer entitled to vote in a district shall be entitled to six votes in such district, one for each of the six nominees, and the six nominees receiving the greatest number of votes shall be nominated for appointment as the members of such district for the initial terms hereunder. 65558. A nonprofit cooperative marketing association may vote by proxy for any member, if so authorized in writing. Such proxy shall be revocable at will.

Vacancies occurring within six months prior to a regular district election may remain vacant until the next regular election. Such members shall be natural persons, each of whom shall be citizens and residents of this state, over the age of 25 years, each of whom, as an individual, partner or employee of a shipper or shippers, is and has been actively engaged in shipping fresh grapes in this state for a period of at least five years.

There is hereby levied and imposed upon all fresh grapes shipped during the marketing season, commencing May 1, 1967, and ending April 30, 1968, and in each marketing season thereafter, an assessment as fixed by the commission at that amount determined by the commission as reasonably necessary to pay all obligations incurred or to be incurred in accordance with this chapter and as reasonably necessary to carry out the objects and purposes of this chapter; provided, that during the first marketing season such assessment shall not exceed .0577 mills per pound (5.77¢ per 100 pounds) net weight when shipped, whether in bulk or loose in boxes or any other container or packed in any style package, and in subsequent marketing seasons such assessment shall not exceed .1924 mills per pound (19.24¢ per 100 pounds), computed on net weight when shipped, whether in bulk or loose in boxes or in any other container or packed in any style package.

There shall be exempt from such assessments all shipments of 150 pounds or less of fresh grapes sold or shipped by a producer direct to the consumer.

65601 Every shipper shall keep a complete and accurate record of all fresh grapes shipped by him and the producer thereof. Such records shall be in simple form and contain such information as the commission shall by regulation or rule prescribe. Such records shall be preserved by such shipper for a

65602. Such penalty shall be paid to the commission and shall be available for expenditure in the same manner as an assessment.

Article 5. Actions and Penalties

The commission may, if it believes a violation of this chapter or any rule or regulation has occurred, or in the event of nonpayment of any assessment, bring an action in its name for collection of such assessment, civil penalties or for injunctive relief, including specific performance, of any obligation imposed by this chapter or any rule or regulation issued hereunder, or both, against any person violating any provisions of this chapter or any rule or regulation duly issued by the commission hereunder.

this chapter or any rule or regulation duly issued by the commission hereunder, then the court shall enjoin such defendant from committing further violations and may compel specific performance of any obligation imposed by this chapter or any rule or regulation issued by the commission hereunder.

In any such action or proceeding, the court shall award reasonable attorney's fees incurred by the commission therein and shall, upon entry of any final judgment, enjoin any such shipper from further shipping until payment of any judgment entered for money and from further violating or aiding in violation of this chapter or any rule or regulation of the commission.

65650.5. Any person aggrieved by any action of the commission may appeal to the director. The director shall review the record of the proceedings before the commission. If the director finds that the record shows by substantial evidence that the commission's action was not an abuse of discretion or illegal, he shall dismiss such appeal. If he finds such action is not substantially sustained by the record, was an abuse of discretion, or illegal, he may reverse the action of the commission.

Any such decision of the director is subject to judicial review upon petition of the commission or any party aggrieved by the decision.

65651. Any person subject to this chapter and allegedly aggrieved hereby or by any rule, or order of the commission shall comply with and exhaust the appeal procedure prescribed, in accordance with this chapter, by the rules and regulations of the commission, before application to any court for relief therefrom. In the event of refusal of any person to allow such inspection, the commission may apply to any court for the issuance of a subpoena to compel such inspection.

Article 6. Suspension of Operations

65660. Upon the finding of 11 of the members of the commission that the operation of the provisions of this chapter has not tended to effectuate its declared purposes, the commission may recommend to the director that the operation of this chapter shall be suspended; provided, that any such suspension shall not become effective until the expiration of the marketing season then current. The director shall, upon receipt of such recommendation, or upon a petition being filed with him requesting such suspension, signed by 20 percent of the producers, cause a referendum to be conducted among producers as certified by the commission in accordance with Section 65566, to determine if such operation and the operations of the commission shall be suspended, and shall establish a referendum period, which shall not be less than 10 nor more than 60 days. The director is authorized to prescribe such additional procedure as may be necessary to conduct such referendum.

(b) That 51 percent or more of the producers who voted in the referendum voted in favor of such suspension, and that the producers so voting marketed 65 percent or more of the total quantity of table grapes marketed in the preceding season by all of the producers who voted in the referendum;

the director shall declare the operation of the provisions of this chapter and of the commission suspended, effective upon expiration of the marketing season then current.

65662. Upon and after the effective date of suspension of the operation of the provisions of this chapter and of the commission, as herein provided, the operations of the commission shall be wound up and any and all moneys remaining held by the commission, collected by assessment and not required to defray the expenses of winding up and terminating operations of the commission, shall be returned upon a pro rata basis to all persons from whom assessments were collected in the immediately preceding current marketing season; provided further, however, that if the commission finds that the amounts so returnable are so small as to make impractical the computation and remitting of such pro rata refund to such persons, any such moneys remaining and any moneys remaining after payment of all expenses of winding up and terminating operations shall be withdrawn from the approved depository and paid into the State Treasury as unclaimed trust moneys.

65663. Upon suspension of the operation of this chapter and of the commission, as aforesaid, a notice thereof shall be posted on a public bulletin board to be maintained by the director in his office, and a copy of such notice shall be published in a newspaper of general circulation in each district.
