(2) From the Teachers' Retirement Fund, an amount equal to the difference between the death benefits paid from the Teachers' Retirement Fund during the preceding year on

account of persons who qualified for death benefits under the local retirement system, and the death benefit which would have been paid during the preceding year on account of such persons if they had not qualified for death benefits from the local retirement system, all regardless of elections of survivor allowances under Section 14366.

(b) The amounts paid under subdivision (a) of this section by the retirement system to each local district maintaining a local retirement system shall be reflected in the records of the system as having been made from the Retirement Annuity Fund and they shall not be used to reduce the contributions required of members of the local retirement system or to increase the benefits payable by the local retirement system, but shall be applied to reduce the cost of support of the local retirement system to the taxpayers of the local district maintaining the local retirement system.

17501. A trust created or organized in the United States and forming part of a stock bonus, pension, or profit-sharing plan of an employer for the exclusive benefit of his employees or their beneficiaries shall constitute a qualified trust under this article—

(a) If contributions are made to the trust by such employer, or employees, or both, or by another employer who is entitled to deduct his contributions under Section 17516(b) (relating to deduction for contributions to profit-sharing and stock bonus plan), for the purpose of distributing to such employees or their beneficiaries the corpus and income of the fund accumulated by the trust in accordance with such plan;

(b) If under the trust instrument it is impossible, at any time prior to the satisfaction of all liabilities with respect to employees and their beneficiaries under the trust, for any part of the corpus or income to be (within the taxable year or thereafter) used for, or diverted to, purposes other than for the exclusive benefit of his employees or their beneficiaries;

(e) A classification shall not be considered discriminatory within the meaning of subdivision (c)(2) or (d) merely because it excludes employees the whole of whose remuneration constitutes "wages" under Section 3121(a)(1) of the Internal Revenue Code (relating to the Federal Insurance Contribution Act) or merely because it is limited to salaried or clerical employees. Neither shall a plan be considered discriminatory within the meaning of such provisions merely because the contributions or benefits of or on behalf of the employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, or merely because the contributions or benefits based on that part of an employee's remuneration which is excluded from "wages" by Section 3121(a)(1) of the Internal Revenue Code, or of the California Unemployment Insurance Act differ from the contributions or benefits based on employee's remuneration not so excluded, or differ because of any retirement benefits created under state or federal law.

(f) A plan shall be considered as meeting the requirements of subdivision (c) during the whole of any taxable year of the plan if on one day in each quarter it satisfied such requirements.

(g) If the trust or plan meets the requirements of Public Law 87-792, 76 U.S. Stats. 809, approved October 10, 1962 (the Self-Employed Individuals Tax Retirement Act of 1962), but no deduction shall be allowed for contributions made to such plan or trust by the employer, or employee, or both.

(a) Each shall make such a return, or

(b) The income of each shall be included in a single joint return, in which case the tax shall be computed on the aggre-

gate income, as provided in Section 17045. No joint return shall be made if; (1) one spouse was a resident for the entire year and the other spouse was a nonresident for all or any portion of the taxable year (this exception shall not apply if the nonresident or his or her spouse was an active member of the armed forces or any auxiliary branch thereof during the taxable year), or (2) husband and wife have different taxable years; except that if such taxable years begin on the same day and end on different days because of the death of either or of both, then the joint return may be made with respect to the taxable year of each The above exception shall not apply if the surviving spouse remarries before the close of his taxable year, nor if the taxable year of either spouse is a fractional part of a year under Section 17553.

SEC. 6 Section 18412 is added to the Revenue and Taxation Code, to read:

18412. (a) The Franchise Tax Board is authorized to provide with respect to any amount required to be shown on any return form prescribed to be filed with the Franchise Tax Board, statement or other document, that if such amount of such item is other than a whole dollar amount, either—

(1) The fractional part of a dollar shall be disregarded; or

(2) The fractional part of a dollar shall be disregarded unless it amounts to one-half dollar ($0 50) or more, in which case the amount (determined without regard to the fractional part of a dollar) shall be increased by one dollar ($1).

(b) Any person making a return, statement, or other document shall be allowed, under regulations prescribed by the Franchise Tax Board, to make such return, statement, or other document without regard to subdivision (a)

(c) The provisions of subdivisions (a) and (b) shall not be applicable to items which must be taken into account in making the computations necessary to determine the amount re-

Whenever a decision of the director suspends for 30 days or less the license of a person licensed pursuant to Sections 11701 to 11709, inclusive, or Sections 11901 to 11913, inclusive, and such suspension becomes final, the licensee may, before the operative date of such suspension, petition the director for permission to make a monetary payment in lieu of serving all, or a portion, of the suspension. Upon receipt of such petition, the director may stay the suspension while he makes such investigation as he deems desirable and may grant the petition if he is satisfied (a) that the public health, safety and welfare will not be impaired by permitting the licensee to operate during the period set for suspension; (b) the payment of the sum of money will achieve the desired disciplinary purpose; and (c) that it will be possible to determine with reason-

able accuracy from the records of the licensee the services which would have been performed under the privilege of the license during the period in which the license would have been suspended.

As to a licensee engaged for hire in the business of pest control, the monetary payment stated in the petition shall be in a specific amount, which is estimated to be the equivalent of 20 percent of the gross receipts of the licensee for each day of the suspension and shall not be less than two hundred fifty dollars ($250) nor more than two thousand five hundred dollars ($2,500).

When the decision provides that a portion of the suspension shall be stayed on probationary conditions, the petition shall not apply to the portion of the suspension which is so stayed, nor shall such portion be included in determining the 30-day limitation for eligibility of the petition.

If the petition is accepted, then upon payment by the licensee of the sum specified the director shall enter his order permanently staying all or a portion of the suspension in accordance with the petition.

All payments received pursuant to this section shall be credited to the Department of Agriculture Fund for use in the administration and enforcement of this division.

(a) The pilot is not qualified to conduct pest control operations.

(b) The pilot has violated this division, or any regulation issued pursuant to it, or has not complied with any lawful order of the commissioner or the director.

2741. Any claim of lien filed with the Workmen's Compensation Appeals Board under the provisions of Section 4903 of the Labor Code shall be fully discharged and satisfied by payment of the amount of such lien allowed by the said appeals board under the provisions of Section 4904 of said code or the amount specified in any compromise and release agreement filed and approved by the said appeals board pursuant to Sections 5000 through 5004 of said code.

Such action shall be commenced within the period prescribed in Section 340 of the Code of Civil Procedure. In the event that the injured person, his guardian, personal representative, estate, survivors, or either of them brings an action for dam-

ages against the third person who is liable for the injury or disease, the county's right of action shall abate during the pendency of such action, and continue as a first lien against any judgment recovered by the injured or diseased person, his guardian, personal representative, estate, or survivors, against the third person who is liable for the injury or disease, to the extent of the reasonable value of the care and treatment so furnished or to be furnished. When the third person who is liable is insured, the county shall notify the third person's insurer, when known to the county, in writing of the lien within 30 days following the filing of the action by the injured or diseased person, his guardian, personal representative, estate, or survivors, against the third person who is liable for the injury or disease; provided, however, that failure to so notify the insurer shall not prejudice the claim or cause of action of the injured or diseased person, his guardian, personal representative, estate, or survivors, or the county.

SEC. 2. Section 23004.2 is added to the Government Code, to read:

23004.2. (a) The county may (1) compromise, or settle and execute a release of, any claim which the county has by virtue of the rights established by Section 23004.1; or (2) waive any such claim, in whole or in part, for the convenience of the county, or if the governing body of the county determines that collection would result in undue hardship upon the person who suffered the injury or disease resulting in care or treatment described in Section 23004.1.

(b) No action taken by the county in connection with the rights afforded under Section 23004.1 or this section shall be a bar to any action upon the claim or cause of action of the injured or diseased person, his guardian, personal representative, estate, or survivors against the third person who is liable for the injury or disease, or shall operate to deny to the injured person the recovery for that portion of his damage not covered hereunder.

SEC. 3. Section 23004.3 is added to the Government Code, to read:

23004.3. Sections 23004.1 and 23004.2 shall become operative in a county only if the board of supervisors of that county, by resolution, elects to be governed by the provisions of such sections.

Upon receipt of any such personal property, provided the same complies with the specifications set forth in the contract, lease, requisition or purchase order, the school district shall draw a warrant in favor of such other public corporation or agency for the amount of the approved invoice, including the reasonable costs to such other public corporation or agency for furnishing the services incidental to the lease or purchase of such personal property.

CHAPTER 1497

An act to add Part 1 (commencing with Section 12000) to Division 11 of, and to repeal Part 1 (commencing with Section 12000) of Division 11 of, the Health and Safety Code, relating to high explosives.

[Approved by Governor August 28, 1967. Filed with Secretary of State August 28, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Part 1 (commencing with Section 12000) of Division 11 of the Health and Safety Code is repealed.

SEC. 2. Part 1 (commencing with Section 12000) is added to Division 11 of the Health and Safety Code, to read:

PART 1. HIGH EXPLOSIVES

CHAPTER 1. DEFINITIONS AND SCOPE

12000. For the purposes of this part, the term "explosives" shall mean any substance, or combination of substances, that is commonly used for the purpose of detonation and which, upon exposure to any external force or condition, is capable of a relatively instantaneous release of gas and heat. The term "explosives" shall include, but shall not necessarily be limited to, all of the following:

(a) Substances determined to be class A and class B explosives as classified by the Interstate Commerce Commission.

(b) Nitro carbo nitrates substances (blasting agent) as classified by the Interstate Commerce Commission.

(c) Any material designated as an explosive by the State Fire Marshal. Such designation shall be made pursuant to the classification standards established by the Interstate Commerce Commission. The State Fire Marshal shall adopt regulations in accordance with the provisions of Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2 of the Government Code to establish procedures for the classification and designation of explosive materials or explosive devices that are not under the jurisdiction of the Interstate Commerce Commission.

(d) Certain class C explosives as designated by the Interstate Commerce Commission when listed in regulations adopted by the State Fire Marshal.

12001. This part does not apply to any of the following:

(a) Any person engaged in the transportation of explosives regulated by, and when subject to, the provisions of Division 14 (commencing with Section 31600) of the Vehicle Code.

(b) Small arms ammunition of .75 caliber or less when designated as a class C explosive by the Interstate Commerce Commission.

(c) Fireworks regulated under Part 2 (commencing with Section 12500) of this division.

(d) Any explosives while in the course of transportation via railroad, aircraft, water, or highway when the explosives are in actual movement and under the jurisdiction of and in conformity with regulations adopted by the Interstate Commerce Commission, United States Coast Guard, or the Federal Aviation Agency. However, no explosives shall be sold, given away, or delivered except as provided in Section 12120.

(e) Special fireworks classified by the Interstate Commerce Commission as class B explosives when such special fireworks are regulated under Part 2 (commencing with Section 12500) of this division.

12002. Except when transporting explosives on highways and at safe stopping places established under the provisions of Division 14 (commencing with Section 31600) of the Vehicle Code, this part does not affect the operation of provisions of any city, county, or city and county ordinance respecting the delivery, storage, and handling of explosives which are at least as restrictive as the provisions of this part.

12003. "Chief" means the State Forester and his authorized representatives, the chief of a fire department or fire protection agency maintained by a city, county, or city and county fire protection district and his authorized representatives, or the United States Forest Service. In any area of the state in which there exists no organized fire protection agency responsible for the protection of the area, "chief," for the purpose of this part only, shall mean the county sheriff and his authorized representatives.

Upon request of the State Forester, the chief of a fire department or fire protection agency, or upon request of the county sheriff the governing body of the area under the jurisdiction of such requesting chief or sheriff may designate any person as "chief" for the purposes of this part.

12004. For the purposes of this part, the term "person" shall mean any person, organization, firm, corporation, association, city, county, city and county, and state, and shall include any of their employees and authorized representatives.

12005. This part does not apply to the transportation and use of explosives by representatives of the California Highway Patrol, local police departments, sheriffs' departments, and fire departments acting in their official capacity.

12006. The provisions of this part and the regulations adopted by the State Fire Marshal pursuant to this part shall not apply when the use, handling, possession, storage and transportation is subject to the requirements of the Division of Industrial Safety, Department of Industrial Relations, except as the provisions of this part and the regulations adopted by the State Fire Marshal may extend beyond the scope or authority of the Division of Industrial Safety, Department of Industrial Relations.

CHAPTER 2. ENFORCEMENT

12020. The chief, as defined in Section 12003, shall in his area of jurisdiction enforce the provisions of this part and the regulations adopted by the State Fire Marshal pursuant to this part.

The representatives of the California Highway Patrol, local police department, and sheriff's department may enforce the provisions of this part.

CHAPTER 3. GENERAL

12080. (a) No person shall sell, give away, or transport any explosive which has not been classified as provided in Section 12000.

(b) The State Fire Marshal, upon receiving an application from any interested party, with the concurrence of the chief in the area affected, and if he determines that such action may be taken without jeopardizing the public welfare and safety, may authorize the transportation of unclassified explosives provided all other provisions of this part are met.

12081. The State Fire Marshal shall prepare and adopt, in accordance with the provisions of Chapter 4.5 (commencing at Section 11371), Part 1, Division 3, Title 2 of the Government Code, reasonable regulations which are not in conflict with this part, relating to the sale, use, handling, possession, and storage of explosives.

The regulations adopted by the State Fire Marshal shall:

(a) Make reasonable allowances for storage facilities in existence when the regulations become effective. No allowance, however, shall be made for storage facilities which constitute a distinct hazard to life and property.

(b) Be based on performance standards wherever possible.

(c) Make reasonable allowances for the storage of gunpowder for commercial and private use.

In making the regulations the State Fire Marshal shall consider as evidence of generally accepted safety standards the publications of the National Fire Protection Association, the United Bureau of Mines, the United States Department of Defense, and the Institute of Makers of Explosives.

12082. No explosives shall be sold, given, or delivered to any person under 21 years of age, whether such person is acting for himself or for another person, nor shall any such person be eligible to obtain any permit to receive explosives governed by the provisions of this part.

12083. With the exception of the chief, the owner, a person authorized to enter by the owner, or the owner's agent, no person shall enter any explosive manufacturing plant, magazine, or vehicle containing explosives.

12084. No person shall willfully discharge any firearm within 500 feet of any magazine or any explosive manufacturing plant.

12085. No person shall make, possess, or transport any explosive in a manner prohibited by this part or prohibited by any ordinance of a city, county, or city and county, or prohibited by the laws or regulations governing a harbor in those areas where such ordinance, laws, or regulations apply.

12086. Any theft or loss of explosives, whether from a storage magazine, a vehicle in which they are being transported, or from a site on which they are being used, or from any other location, shall immediately be reported by the person having control of such explosives to the chief having jurisdiction in the area in which the theft or loss occurred, or to the local police or county sheriff.

12087. No person shall abandon or otherwise dispose of any explosives in any manner which might, as the result of such abandonment or disposal, create any danger or threat of danger to life or property. Any person in possession or control of explosives required in the performance of his duties shall, when the need for such explosives no longer exists, either return the explosives to a magazine conforming to the regulations adopted by the State Fire Marshal or shall destroy the explosives in a safe manner so as not to make them available to persons who might obtain them and use them in a manner prejudicial to the safety of life and property. Magazines or temporary magazines used for storage purposes in any area where blasting is required shall, when the need for such storage no longer exists and the explosives have been removed or disposed of as above required, be removed or demolished, or signs, indicating the presence of explosives in

such magazines or on the premises on which such magazines are located, shall be removed or effectively obliterated.

12088. The contents of a package containing explosives shall be plainly marked on the outside of the package at the time the package is delivered for transportation.

It is unlawful for any person to deliver, or cause to be delivered, to any carrier for transportation any explosive under any false or deceptive marking, description, invoice, shipping order, or other declaration.

12089. Except when transporting explosives received under Section 12102 of this code, every motor vehicle used in the transportation of explosives and which is subject to this part, shall have displayed thereon, signs conforming to the regulations of the Interstate Commerce Commission.

12090. There shall not be included in any cargo of explosives any flammable liquids, acids, or corrosive liquids, oxidizers, or combustible materials, other than the explosives themselves, which may have such characteristics. Blasting caps or detonators shall not be transported upon the same vehicle with other explosives, nor shall electric blasting caps be transported upon any vehicle equipped with two-way radio. The foregoing provisions of this section shall be subject to such exceptions as are permitted by the Interstate Commerce Commission loading chart for cargoes of explosives.

CHAPTER 4. PERMITS

12101. (a) No person shall do any one of the following without first having made application for and received a permit in accordance with the provisions of this section:

(1) Manufacture explosives

(2) Receive, store, or possess explosives.

(3) Transport explosives.

(4) Use explosives.

(5) Operate a terminal for handling explosives.

(6) Park or leave standing any vehicle carrying explosives, except when parked or left standing in or at a safe stopping place designated as such by the State Fire Marshal under the provisions of Division 14 (commencing with Section 31600) of the Vehicle Code.

(b) Application for a permit shall be made to the appropriate chief in accordance with the provisions of Section 12103

(c) Except as provided in this subdivision, a permit shall be issued by the chief having the responsibility in the area where the activity, as specified in subdivision (a) of this section, is to be conducted. Permits to transport explosives shall be issued by the chief of the area where the explosives are to be used or stored.

Permits to receive and transport explosives to the site intended for use or storage may be obtained from the chief in the area in which explosives are received or sold provided the

form of the permit includes a statement that a permit to use or store such explosives must be obtained from the chief in the area of such use or storage.

(d) In the event any person desires to receive explosives for use in an area outside of this state, a permit to receive such explosives, using the form prescribed by the State Fire Marshal, shall be obtained from the chief in whose area the explosives are to be received.

(e) A permit may include any restrictions or conditions which the chief finds necessary for the prevention of fire and explosion and the preservation of life safety.

(f) The performance of any act or acts authorized by the permit may be performed only as long as the permit issued remains valid.

(g) Any valid permit which authorizes the performance of any act shall not constitute authorization for the performance of any act not stipulated in the permit.

12102. This chapter does not apply to any sale, gift, delivery, or other disposition of 20 pounds or less of smokeless powder, or one pound or less of black sporting powder, provided that:

(a) Smokeless powder is intended only for hand loading of small arms ammunition of .75 caliber or less.

(b) Black sporting powder is intended for loading of small arms or small arms ammunition of .75 caliber or less.

(c) All such powder is for private use and not for resale.

(d) The storage, use and handling of such smokeless and black powder conforms to rules, regulations, or ordinances of authorities having jurisdiction for fire prevention and suppression in the area of such storage, use, and handling of such explosives.

(e) The signature of the applicant.

(f) The number of times purchases may be made and the frequency of such purchases.

(g) The routes, highways, and stopping places intended to be utilized in transporting the explosives.

12105. If the chief finds, after reviewing the application for a permit, that the applicant possesses sufficient and adequate facilities to conduct the acts specified in the application, and

that the issuance of such permit would not appear to be contrary to the public welfare and safety, he shall issue a permit authorizing the applicant to engage in such specific acts. The chief may, at his discretion, require the submission of any personal information relevant to the acts for which application is made.

12106. When required by and in amounts set forth in local ordinance, applicant for a permit for explosives shall submit evidence that the applicant has a minimum and specified amount of funds available for the purpose of the payment of all damages to persons or property which arise from, or are caused by, the conduct of any act authorized by the permit upon which any legal judgment results.

Such evidence, when required, shall be a bond issued by an authorized surety company or a public liability insurance policy or cash or other evidence of financial security acceptable to the State Fire Marshal. The minimum amount of any such bond or insurance policy shall be determined by the appropriate chief.

12107. The chief shall, in the exercise of reasonable discretion, deny a permit to any person if it is his opinion that the handling or use of explosives by such person would be hazardous to property or dangerous to any person.

12108. The form of the permits shall be prescribed by the State Fire Marshal. Permits shall be numbered by the local agency issuing the permit.

12109. Except as provided in Section 12111, permits shall be valid for the period of time specified thereon.

12110. No permit issued under the provisions of this chapter shall be transferable.

12111. A permit may be suspended or revoked, after reasonable notice and hearing, by any chief having the responsibility for the prevention and suppression of fire in the area in which explosives are sold, used, stored, handled, or possessed, if the person to whom the permit was issued sells, uses, stores, or handles the explosives in a manner which is unlawful or which creates an unreasonable hazard to life and property.

If the suspension or revocation is effected by the chief of a jurisdiction other than that jurisdiction in which the permit was issued, the chief taking action to suspend or revoke a permit shall immediately notify the agency who issued the permit of the action taken.

12112. Any decision or action by any chief made pursuant to this part may be appealed to the governing body of the area in which such decision or action is made.

It may prescribe, revise, and collect rates and other charges for the services and facilities furnished by it pursuant to this chapter.

SEC. 131. Such rates and other charges shall be established and allocated to the benefited member entity or entities, or improvement districts therein, as follows:

(a) In the case of such rates and charges for maintenance and operation of the facilities of the agency, such rates and charges shall be established and allocated on the basis of the (i) ratio which the actual volume of sewage, industrial waste and storm water delivered to the agency by the member entity or improvement district to be charged such rates and charges

bears to the total volume of sewage, industrial waste and storm water delivered to the agency by all member entities and improvement districts, and (ii) the point of intake of such sewage, industrial waste and storm water in relation to the location of the treatment facilities of the agency.

(b) In the case of rates and charges for acquisition or construction of capital improvements of the agency, such rates and charges shall be based on the percentage of the capacity of such capital improvements which has been reserved for the member entity or improvement district to be charged. Such capacity shall be determined by allocation of the board, subject to the approval of the board of directors of each member entity.

SEC. 132. Prior to June 30 in the year preceding the first fiscal year in which any of the facilities of the agency are to be maintained or operated, the board shall estimate the costs of maintenance and operation of such facility or facilities during such fiscal year and for the first two months of the next succeeding fiscal year and shall, as nearly as practicable, allocate such estimated costs in accordance with subdivision (a) of Section 131. Prior to June 30 in each following year, the board shall estimate such costs for the 12 months beginning on September 1 following such June 30, and shall allocate such costs in accordance with subdivision (a) with Section 131, basing such allocation on the actual use of such facility or facilities by each member entity in the preceding year. The board shall increase or decrease the allocation to each member entity in the amount necessary to correct any overpayment or underpayment by any member entity because the allocation of estimated costs did not conform to the actual use by each member entity during the preceding fiscal year.

SEC. 133. On or before June 30 in each year, the board shall deliver to the board of directors of each member entity a statement of the allocation to such member entity of estimated costs of maintenance and operation of the facilities of the agency for the period specified in Section 132. SEC. 134. The board of directors of each member entity may raise the funds necessary to make the payments required by Section 133, (a) by taxation as permitted by the act pursuant to which such member entity was formed, (b) by charging the users of the facilities of such member entity an amount sufficient to raise such funds, (c) by a combination of both, or (d) in any other method by which such member entity may legally raise such funds; provided, however, that if, to raise such funds by taxation along with all other taxes of such member entity, any member entity must (i) exceed any

then applicable limit on the tax rate of such member entity, or (ii) levy a total tax which must by law be levied by ordinance subject to referendum, then such member entity shall raise a sufficient portion of such funds by method other than taxation so that the tax levied by such member does not come within clause (i) or (ii) of this section.

SEC. 136. Facilities of the agency shall not be made directly available to the inhabitants of a member entity without the agreement of the board of directors of such member entity.

SEC. 137. Any member entity may contract with the agency for use by the agency of any capital improvements theretofore constructed by the member entity (hereinafter called "entity improvements") and required by the agency for any agency purpose. Each such contract may provide that the agency shall pay to the member entity owning the entity improvements, from rates and charges charged by the agency pursuant to subdivision (b) of Section 131, an annual use charge on or before June 30 in each year of the use of the entity improvements by the agency. Such charge may be equal to the principal of and interest on bonds of the member entity issued to pay the cost of such entity improvements that will become due and payable in the 12 months beginning on the next succeeding July 1, and may include reimbursement to the member entity for the cost of such entity improvements paid from funds other than the proceeds of the sale of bonds, or a combination of both, and may take into consideration any other relevant factor.

CHAPTER 5. ISSUANCE AND SALE OF BONDS

Article 1. Issuance and Terms

SEC. 310. If from the bond election returns it appears that at least two-thirds of the votes cast in the agency in such election and at least a majority of the votes cast in each member entity in such election were in favor of and assented to the incurring of the bonded debt, the board may, by resolution, at such time or times as it deems proper, provide for the issuance of all or any part of the bonds of the agency so authorized, until the full amount of the authorized bonded debt has been issued.

SEC. 311. The full amount of the authorized bonds may be divided into two or more series and different dates fixed for the bonds of each series. The maximum term which the

bonds or any series thereof shall run before maturity shall not exceed 40 years from the date of the bonds or of such series thereof.

SEC. 312. The board shall, by resolution, prescribe the form of the bonds and of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal of the bonds or any series thereof may be deferred for a period of not more than 10 years from the date of such bonds or series of bonds.

SEC. 313. The bonds shall bear interest at a rate or rates not to exceed 6½ percent per year, payable semiannually, except that interest for the first year may be payable at or before the end of that year.

SEC. 314. The board may provide for the call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

SEC. 315. The denomination of the bonds shall be stated in the resolution providing for their issuance.

SEC. 316. The principal and interest on the bonds shall be payable in lawful money of the United States at the office of the treasurer of the agency or such other place or places as may be designated therein, or at any such place or places at the option of the holder of the bond.

Said seal may be printed, engraved, stamped, or otherwise placed in facsimile.

SEC. 318. If the bond election proceedings have been limited to and have applied only to an improvement district, the bonds are bonds of the agency, shall be issued in the name of the agency, shall be designated "Bonds of North Lake Tahoe-Truckee River Sanitation Agency for Improvement District No. ___" and shall state that ad valorem assessments for the payment of the principal thereof and interest thereon will be assessed exclusively upon the real property in the improvement district subject to assessment for agency purposes to the extent and in the manner provided in the proceedings for the formation of the improvement district.

SEC. 319. Any bonds issued by the agency are hereby given the same force, value and use as bonds issued by any municipality and shall be exempt from all taxation within the state.

SEC. 320. The board may sell the bonds of any authorized issue, or any part thereof, at not less than the par value thereof and interest thereon accrued from the date of such bonds to the date of delivery to the purchaser thereof. Before selling any bonds, the board shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either advertise or sell the bonds at private sale.

SEC. 321. The proceeds from the sale of bonds shall be paid into the treasury of the agency, placed to the credit of a special improvement fund, and expended only for the purpose for which the indebtedness was created. When such purpose has been accomplished, any moneys remaining in the special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds, or, if Section 322 is complied with, may be used for any other purpose of the agency; provided that such moneys remaining from the sale of bonds of the agency for an improvement district therein may be used, if Section 322 is complied with, only for any purpose which will benefit the improvement district.

SEC. 322. Such moneys may not be used (a) for such other agency purpose or inhabited improvement district purpose until two-thirds of the qualified voters of the agency or improvement district have consented thereto at a special election called by the board in the agency or improvement district, or (b) for such other uninhabited improvement district purpose until after a hearing held by the board in the manner provided in Section 265 and noticed as provided in Section 256 and failure of the owners of record of one-half of the assessed valuation of the real property situated in such improvement district to protest against such use. Notice of the election shall be given in the manner provided for bond elections in the agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency bond elections.

SEC. 323. The proceeds from the sale of bonds of the agency for an improvement district thereof may be expended for the purpose for which the indebtedness was created in any territory annexed to the improvement district after the authorization of the bonds.

CHAPTER 7. REVENUE BONDS

SEC. 335. The agency may issue revenue bonds for any purpose for which general obligation bonds may be issued. Such revenue bonds may be issued pursuant to the provisions of the Revenue Bond Law of 1941 or any other law which by

CHAPTER 1. TAXES AND ASSESSMENTS GENERALLY

SEC. 350. (a) The agency has power to cause to be levied, and to cause to be collected, for the purposes stated in this section, taxes on all real property in each member entity subject to taxation for county purposes. The agency may cause taxes to be levied and may cause taxes to be collected, in the manner provided in this part, for the purpose of paying administrative and general overhead expenses of the agency and any other expenses or claims against the agency (except expenses of maintenance and operation of the facilities of the agency) and the principal of and interest on promissory notes of the agency issued pursuant to Section 180.

(b) The agency has power to assess, and to cause to be collected, ad valorem assessments on all real property in each member entity or improvement district subject to taxation for county purposes and may assess and cause to be collected ad valorem assessments, in the manner provided in this part, for the purpose of paying the principal of and interest on bonds of the agency or of any improvement district therein.

SEC. 351. If the agency has no revenue or if the revenues of the agency are, or in the judgment of the board are likely to be, inadequate to pay the interest on or principal of any promissory notes or bonded debt as it becomes due, or any other expenses or claims against the agency, the board shall, at least 15 days before the first day of the month in which the board of supervisors of the county in which the agency or any part thereof is situated is required by law to levy the amount of taxes required for county purposes, furnish to the board of supervisors and to the auditor of each county, respectively, in writing:

(b) A description of the improvement district benefited by the purposes of the bonded debt as stated in the resolution of

the board forming such improvement district, or, if the whole agency was benefited by incurring it, a statement of that fact.

SEC. 352. In making the estimate required by Section 351, the board shall allocate the amount of money required to be raised by taxes or assessments on property within each member entity in the county subject to taxation or assessment for agency purposes as follows:

(a) The amount of money required to be raised by taxes for payment of the principal of or interest on any promissory notes or administrative or general overhead expenses of the agency and any other expenses or claims against the agency (except expenses of maintenance and operation of the facilities of the agency) shall be allocated among the member entities of the agency in the same proportion that the assessed valuation of each such member entity bears to the total assessed valuation of the agency.

(b) The amount of money required to be raised by assessment for payment of the principal of or interest on any bonded debt shall be allocated among the member entities benefited by such bonded debt in the proportion in which such member entities, or the territories thereof included in an improvement district, are benefited by such bonded debt, as determined by the board in the resolution of the board calling the bond election at which such bonded debt was authorized, or, in the case of a bonded debt of an improvement district, in the resolution of the board forming such improvement district.

SEC. 353. After the board has furnished the estimates as required in Section 351, the board of supervisors of each county, annually, at the time and in the manner of levying other county taxes, shall:

(a) Until all promissory notes of the agency are fully paid, allocate as provided in subdivision (a) of Section 352 and levy upon all the property within each member entity in the county subject to taxation for agency purposes and cause to be collected a tax sufficient to pay such member entity's proportion of the amount required to pay the principal of and interest on such promissory notes, to be known as the "North Lake Tahoe-Truckee River Sanitation Agency note tax."

(b) Until all administrative and general overhead expenses of the agency and any other expenses or claims against the agency (except expenses of maintenance and operation of the facilities of the agency) are fully paid, allocate as provided in subdivision (a) of Section 352 and levy upon all property within each member entity in the county subject to taxation for agency purposes and cause to be collected a tax, not exceeding in any year fifteen cents ($0.15) per one hundred dollars ($100) of assessed valuation, sufficient to pay such member entity's proportion of the amount required to pay said expenses, to be known as the "North Lake Tahoe-Truckee River Sanitation Agency administration tax."

(c) Until all bonded debt is fully paid, allocate as provided in subdivision (b) of Section 352 and levy upon the property

within each member entity or territory thereof included in an improvement district in the county, benefited by the bonded debt, and cause to be collected, an assessment sufficient to to pay such member entity's or territory's proportion of the amount required to pay the principal of and interest on the bonded debt, to be known as the "North Lake Tahoe-Truckee River Sanitation Agency bond assessment."

SEC. 355. All agency taxes and assessments shall be collected at the same time and in the same manner and form as county taxes and shall be paid to the agency.

SEC. 356. Assessments for the payment of a bonded debt and the interest on it are a lien on all the real property benefited thereby as stated in the resolution of the board calling the bond election at which such bonded debt was authorized, or, in the case of an improvement district, in the resolution of the board forming such improvement district.

SEC. 357. All taxes are a lien on all real property in any member entity in the agency subject to taxation for agency purposes.

SEC. 358. Agency taxes and assessments are of the same force and effect as liens for county taxes, and their collection shall be enforced by the same means as provided for the enforcement of liens for county taxes.

CHAPTER 1. TERRITORY OF A MEMBER ENTITY

Article 1. Territory Annexed to a Member Entity Subject to Conditions

[Approved by Governor August 28, 1967. Filed with Secretary of State August 28, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 730) of Part 1 of Division 2 of the Civil Code is repealed.

SEC. 2. A new Chapter 2.5 (commencing with Section 730) is added to Part 1 of Division 2 of the Civil Code, to read:

CHAPTER 2.5. PRINCIPAL AND INCOME LAW

730. This chapter may be cited as the Revised Uniform Principal and Income Act.

730a. Nothing in this chapter shall affect the provisions of the Personal Income Tax Law and the Bank and Corporation Tax Law.

730.01. As used in this chapter:

(1) "Income beneficiary" means the person to whom income is presently payable or for whom it is accumulated for distribution as income;

(2) "Inventory value" means the cost of property purchased by the trustee and the market value of other property at the time it became subject to the trust, but in the case of a testamentary trust the trustee may use any value finally determined for the purposes of an estate or inheritance tax;

(3) "Remainderman" means the person entitled to principal, including income which has been accumulated and added to principal;

(4) "Trustee" means an original trustee and any successor or added trustee.

730.02. (a) A trust shall be administered with due regard to the respective interests of income beneficiaries and remaindermen. A trust is so administered with respect to the allocation of receipts and expenditures if a receipt is credited or an expenditure is charged to income or principal or partly to each—

(1) In accordance with the terms of the trust instrument, notwithstanding contrary provisions of this chapter;

(2) In the absence of any contrary terms of the trust instrument, in accordance with the provisions of this chapter; or

(3) If neither of the preceding rules of administration is applicable, in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal, and in view of the man-

ner in which men of ordinary prudence, discretion and judgment would act in the management of their own affairs.

(b) If the trust instrument gives the trustee discretion in crediting a receipt or charging an expenditure to income or principal or partly to each, no inference of imprudence or partiality arises from the fact that the trustee has made an allocation contrary to a provision of this chapter.

730.03. (a) Income is the return in money or property derived from the use of principal, including return received as

(1) Rent of real or personal property, including sums received for cancellation or renewal of a lease;

(2) Interest on money lent, including sums received as consideration for the privilege of prepayment of principal except as provided in Section 730.07 on bond premium and bond discount;

(3) Income earned during administration of a decedent's estate as provided in Section 730.05;

(4) Corporate distributions as provided in Section 730.06;

(5) Accrued increment on bonds or other obligations issued at discount as provided in Section 730.07;

(6) Receipts from business and farming operations as provided in Section 730.08;

(7) Receipts from disposition of natural resources as provided in Sections 730.09 and 730.10;

(8) Receipts from other principal subject to depletion as provided in Section 730.11;

(9) Receipts from disposition of underproductive property as provided in Section 730.12;

(b) Principal is the property which has been set aside by the owner or the person legally empowered so that it is held in trust eventually to be delivered to a remainderman while the return or use of the principal is in the meantime taken or received by or held for accumulation for an income beneficiary. Principal includes

(1) Consideration received by the trustee on the sale or other transfer of principal or on repayment of a loan or as a refund or replacement or change in the form of principal;

(2) Proceeds of property taken on eminent domain proceedings;

(3) Proceeds of insurance upon property forming part of the principal except proceeds of insurance upon a separate interest of an income beneficiary;

(4) Stock dividends, receipts on liquidation of a corporation, and other corporate distributions as provided in Section 730.06;

(5) Receipts from the disposition of corporate securities as provided in Section 730.07;

(6) Royalties and other receipts from disposition of natural resources as provided in Sections 730.09 and 730.10;

(7) Receipts from other principal subject to depletion as provided in Section 730.11;

(8) Any profit resulting from any change in the form of principal except as provided in Section 730.12 on underproductive property;

(9) Receipts from disposition of underproductive property as provided in Section 730.12;

(10) Any allowances for depreciation established under Section 730.08 and subdivision (a)(2) of Section 730.13.

(c) After determining income and principal in accordance with the terms of the trust instrument or of this act, the trustee shall charge to income or principal expenses and other charges as provided in Section 730.13.

730.04. (a) An income beneficiary is entitled to income from the date specified in the trust instrument, or, if none is specified, from the date an asset becomes subject to the trust. In the case of an asset becoming subject to a trust by reason of a will, it becomes subject to the trust as of the date of the death of the testator even though there is an intervening period of administration of the testator's estate.

(b) Upon an asset becoming subject to a trust by reason of a will,

(1) Receipts due but not paid at the date of death of the testator are principal;

(2) Receipts in the form of periodic payments not due at the date of the death of the testator (other than rents, annuities, interest on bank savings accounts, interest on savings and loan association accounts and corporate distributions to stockholders) shall be treated as accruing from day to day. That portion of the receipt accruing before the date of death is principal, and the balance is income.

(c) In all other cases, any receipt from an income-producing asset is income even though the receipt was earned or accrued in whole or in part before the date when the asset became subject to the trust.

(d) Whenever an income beneficiary's right to income shall cease by death, or in any other manner, all payments theretofore actually paid to the income beneficiary or in the hands of the trustee for payment to the income beneficiary shall belong to the income beneficiary or to his personal representative; all income actually received by the trustee after such termination shall be paid to the person next entitled to income by the terms of the trust.

(e) Corporate distributions to stockholders shall be treated as due on the day fixed by the corporation for determination of stockholders of record entitled to distribution or, if no date is fixed, on the date of declaration of the distribution by the corporation.

730.05. (a) Unless the will otherwise provides, income from the assets of a decedent's estate after the death of the testator and before distribution, including income from property used to discharge liabilities, shall be distributed in the manner set forth in Chapter 8 (commencing with Section 160), Division 1, of the Probate Code.

(b) Income received by a trustee under subdivision (a) shall be treated as income of the trust.

730.06. (a) Corporate distributions of shares of the distributing corporation, including distributions in the form of a stock split or stock dividend, are principal. A right to subscribe to shares or other securities issued by the distributing corporation accruing to stockholders on account of their stock ownership and the proceeds of any sale of the right are principal.

(b) Except to the extent that the corporation indicates that some part of a corporate distribution is a settlement of preferred or guaranteed dividends accrued since the trustee became a stockholder or is in lieu of an ordinary cash dividend, a corporate distribution is principal if the distribution is pursuant to

(1) A call of shares;

(2) A merger, consolidation, reorganization, or other plan by which assets of the corporation are acquired by another corporation; or

(3) A total or partial liquidation of the corporation, including any distribution which the corporation indicates is a distribution in total or partial liquidation or any distribution of assets, other than cash, pursuant to a court decree or final administrative order by a government agency ordering distribution of the particular assets.

(c) Distributions made from ordinary income by a regulated investment company or by a trust qualifying and electing to be taxed under federal law as a real estate investment trust are income. All other distributions made by the company or trust, including distributions from capital gains, depreciation, or depletion, whether in the form of cash or an option to take new stock or cash or an option to purchase additional shares, are principal.

(d) Except as provided in subdivisions (a), (b), and (c), all corporate distributions are income, including cash dividends, distributions of or rights to subscribe to shares or securities or obligations of corporations other than the distributing corporation, and the proceeds of the rights or property distributions. Except as provided in subdivisions (b) and (c), if the distributing corporation gives a stockholder an option to receive a distribution either in cash or in its own shares, the distribution chosen is income.

(e) The trustee may rely upon any statement of the distributing corporation as to any fact relevant under any provision of this chapter concerning the source or character of dividends or distributions of corporate assets.

730.07. (a) Bonds or other obligations for the payment of money are principal at their inventory value, except as provided in subdivision (b) for discount bonds. No provision shall be made for amortization of bond premiums or for accumulation for discount. The proceeds of sale, redemption, or other disposition of the bonds or obligations are principal.

(b) The increment in value of a bond or other obligation for the payment of money payable at a future time in accordance with a fixed schedule of appreciation in excess of the price at which it was issued is distributable as income. The increment in value is distributable to the beneficiary who was the income beneficiary at the time of increment from the first principal cash available or, if none is available, when realized by sale, redemption, or other disposition. Whenever unrealized increment is distributed as income but out of principal, the principal shall be reimbursed for the increment when realized.

730.08. (a) If a trustee uses any part of the principal in the continuance of a business of which the settlor was a sole proprietor or a partner, the net profits of the business, computed in accordance with generally accepted accounting principles for a comparable business, are income. If a loss results in any fiscal or calendar year, the loss falls on principal and shall not be carried into any other fiscal or calendar year for purposes of calculating net income.

(b) Generally accepted accounting principles shall be used to determine income from an agricultural or farming operation, including the raising of animals or the operation of a nursery.

730.09. (a) If any part of the principal consists of a right to receive royalties, overriding or limited royalties, working interests, production payments, net profit interests, or other interests in minerals or other natural resources in, on, or under land, the receipts from taking the natural resources from the land shall be allocated as follows:

(1) If received as rent on a lease or extension payments on a lease, the receipts are income.

(2) If received from a production payment, the receipts are income to the extent of any factor for interest or its equivalent provided in the governing instrument. There shall be allocated to principal the fraction of the balance of the receipts which the unrecovered cost of the production payment bears to the balance owed on the production payment, exclusive of any factor for interest or its equivalent. The receipts not allocated to principal are income.

(3) If received as a royalty, overriding or limited royalty, or bonus, or from a working, net profit, or any other interest in minerals or other natural resources, receipts not provided for in the preceding paragraphs of this section shall be apportioned on a yearly basis in accordance with this paragraph whether or not any natural resource was being taken from the land at the time the trust was established. The receipts shall be allocated entirely to income or apportioned between income and principal as the trustee in his absolute discretion may determine, but in no event shall more than 27½ percent of the gross receipts (but not to exceed 50 percent of the net receipts remaining after payment of expenses, direct and indirect, computed without allowance for depletion) be added to principal as an allowance for depletion.

(b) This section does not apply to timber, water, soil, sod, dirt, turf, or mosses.

730.10. If any part of the principal consists of land from which merchantable timber may be removed, the receipts from taking the timber from the land shall be allocated entirely to income or apportioned between income and principal as the trustee in his absolute discretion may determine, but in no event shall the amount allocated to principal exceed a reasonable allowance for depletion.

730.11. If the principal consists of property subject to depletion (other than property subject to Section 730.09 or Section 730.10), including, when subject to depletion or amortization, leaseholds, patents, copyrights, royalty rights, and rights to receive payments on a contract for deferred compensation, receipts from the property shall be allocated entirely to income, or apportioned between income and principal as the trustee in its absolute discretion may determine, but in no event shall the amount allocated to principal exceed a reasonable allowance for depletion or amortization.

730.12. (a) Except as otherwise provided in this section, a portion of the net proceeds of sale of any part of principal which has not produced an average net income of at least 1 percent per year of its inventory value for more than a year (including as income the value of any beneficial use of the property by the income beneficiary) shall be treated as delayed income to which the income beneficiary is entitled as provided in this section. The net proceeds of sale are the gross proceeds received, including the value of any property received in substitution for the property disposed of, less the expenses, including capital gains tax, if any, incurred in disposition and less any carrying charges paid while the property was underproductive.

(b) The sum allocated as delayed income is the difference between the net proceeds and the amount which, had it been invested at simple interest at 5 percent per year while the property was underproductive, would have produced the net proceeds. This sum, plus any carrying charges and expenses previously charged against income while the property was underproductive, less any income received by the income beneficiary from the property and less the value of any beneficial use of the property by the income beneficiary, is income, and the balance is principal.

(c) If principal subject to this section is disposed of by conversion into property which cannot be apportioned easily, including land or mortgages (for example, realty acquired by or in lieu of foreclosure), the income beneficiary is entitled to the net income from any property or obligation into which the original principal is converted while the substituted property or obligation is held. If within five years after the conversion the substituted property has not been further converted into easily apportionable property, no allocation as provided in this section shall be made.

730.13. (a) The following charges shall be made against income:

(1) Ordinary expenses incurred in connection with the administration, management, or preservation of the trust property, including regularly recurring taxes assessed against any portion of the principal, water rates, premiums on insurance taken upon the interests of the income beneficiary, remainderman, or trustee, interest paid by the trustee, and ordinary repairs;

(2) The trustee in his absolute discretion may make a reasonable allowance for depreciation on property subject to depreciation under generally accepted accounting principles, but no allowance shall be made for depreciation of that portion of any real property used by a beneficiary as a residence

(3) One-half of court costs, attorney's fees, and other fees on periodic judicial accounting, unless the court directs otherwise;

(4) Court costs, attorney's fees, and other fees on other accountings or judicial proceedings if the matter primarily concerns the income interest, unless the court directs otherwise;

(5) One-half of the trustee's regular compensation, whether based on a percentage of principal or income, and all expenses reasonably incurred for current management of principal and application of income;

(6) Any tax levied upon receipts defined as income under this act or the trust instrument and payable by the trustee.

(b) If charges against income are of unusual amount, the trustee may by means of reserves or other reasonable means charge them over a reasonable period of time and withhold from distribution sufficient sums to regularize distributions.

(c) The following charges shall be made against principal:

(1) Trustee's compensation not chargeable to income under subdivisions (a)(4) and (a)(5), special compensation of trustees, expenses reasonably incurred in connection with principal, court costs and attorney's fees primarily concerning matters of principal, and trustee's compensation computed on principal as an acceptance, distribution, or termination fee;

(2) Charges not provided for in subdivision (a), including the cost of investing and reinvesting principal, the payments on principal of an indebtedness (including a mortgage amortized by periodic payments of principal), expenses for preparation of property for rental or sale, and, unless the court directs otherwise, expenses incurred in maintaining or defending any action to construe the trust or protect it or the property to assure the title of any trust property;

(3) Extraordinary repairs or expenses incurred in making a capital improvement to principal, including special assessments, but a trustee may establish an allowance for depreciation out of income to the extent permitted by subdivision (a)(2) and by Section 730.08.

(4) Any tax levied upon profit, gain, or other receipts allocated to principal notwithstanding denomination of the tax as an income tax by the taxing authority;

(5) If an estate or inheritance tax is levied in respect of a trust in which both an income beneficiary and a remainderman have an interest, any amount apportioned to the trust, including penalties, even though the income beneficiary also has rights in the principal.

(d) Regularly recurring charges payable from income shall be apportioned to the same extent and in the same manner that income is apportioned under Section 730.04.

730.14. The trustee of any trust created by any will or other instrument shall not be required to set aside a reserve or allowance from trust income for depreciation or depletion of, or to amortize any property held in such trust unless the instrument expressly requires such a reserve or allowance. Nothing in this chapter shall prevent a trustee in his absolute discretion from establishing such reserve or allowance, or from continuing any previous practice of maintaining such reserve or allowance; provided, the provisions of subdivision (a)(2) of Section 730.13 as to property used as a residence by a beneficiary and the provisions of Sections 730.09, 730.10 and 730.11 and subdivision (a)(2) of Section 730.13 as to the amount of such allowance or reserve, if established, shall apply prospectively from the operative date of this chapter. This section applies to any trust created by a will or instrument executed before, as well as any trust created by a will or instrument executed after, the operative date of this chapter.

730.15. Except as specifically provided in the trust instrument or the will or in this chapter, this chapter shall apply to any receipt or expense received or incurred after the operative date of this chapter as added at the 1967 Regular Session of the Legislature by any trust whether established before or after such operative date and whether the asset involved was acquired by the trustee before or after such operative date.

730.16. This chapter shall become operative on July 1, 1968.

730.17. If any provision of this chapter or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions of applications of the chapter which can be given effect without the invalid provision or application and to this end the provisions of this chapter are severable.

SEC. 3. Section 1 of this act shall become operative on July 1, 1968.

CHAPTER 1509

An act to amend Section 7551 of the Business and Professions Code, and to amend Sections 591 and 620 of, to add Chapter 1.5 (commencing with Section 630) to Title 15 of Part 1 of, and to repeal Sections 619, 621, 640, 653h, 653i, and 653j of, the Penal Code, relating to invasion of privacy.

[Approved by Governor August 28, 1967. Filed with Secretary of State August 28, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.5 (commencing with Section 630) is added to Title 15 of Part 1 of the Penal Code, to read:

CHAPTER 1.5. INVASION OF PRIVACY

630. The Legislature hereby declares that advances in science and technology have led to the development of new devices and techniques for the purpose of eavesdropping upon private communications and that the invasion of privacy resulting from the continual and increasing use of such devices and techniques has created a serious threat to the free exercise of personal liberties and cannot be tolerated in a free and civilized society.

The Legislature by this chapter intends to protect the right of privacy of the people of this state.

The Legislature recognizes that law enforcement agencies have a legitimate need to employ modern listening devices and techniques in the investigation of criminal conduct and the apprehension of lawbreakers. Therefore, it is not the intent of the Legislature to place greater restraints on the use of listening devices and techniques by law enforcement agencies than existed prior to the effective date of this chapter.

631. (a) Any person who, by means of any machine, instrument, or contrivance, or in any other manner, intentionally taps, or makes any unauthorized connection, whether physically, electrically, acoustically, inductively, or otherwise, with any telegraph or telephone wire, line, cable, or instrument, including the wire, line, cable, or instrument of any internal telephonic communication system, or who willfully and without the consent of all parties to the communication, or in any unauthorized manner, reads, or attempts to read, or to learn the contents or meaning of any message, report, or communication while the same is in transit or passing over any such wire, line, or cable, or is being sent from, or received at any place within this state; or who uses, or attempts to use, in any manner, or for any purpose, or to communicate in any way, any information so obtained, or who aids, agrees with, employs, or conspires with any person or persons to unlawfully do, or permit, or cause to be done any of the acts or things

mentioned above in this section, is punishable by a fine not exceeding two thousand five hundred dollars ($2,500), or by imprisonment in the county jail not exceeding one year, or by imprisonment in the state prison not exceeding three years, or by both such fine and imprisonment in the county jail or in the state prison. (b) This section shall not apply (1) to any public utility engaged in the business of providing communications services and facilities, or to the officers, employees or agents thereof, where the acts otherwise prohibited herein are for the purpose of construction, maintenance, conduct or operation of the services and facilities of such public utility, or (2) to the use of any instrument, equipment, facility, or service furnished and used pursuant to the tariffs of such a public utility, or (3) to any telephonic communication system used for communication exclusively within a state, county, city and county, or city correctional facility.

(c) Except as proof in an action or prosecution for violation of this section, no evidence obtained in violation of this section shall be admissible in any judicial, administrative, legislative or other proceeding.

632. (a) Every person who, intentionally and without the consent of all parties to a confidential communication, by means of any electronic amplifying or recording device, eavesdrops upon or records such confidential communication, whether such communication is carried on among such parties in the presence of one another or by means of a telegraph, telephone or other device, except a radio, shall be punishable by fine not exceeding two thousand five hundred dollars ($2,500), or by imprisonment in the county jail not exceeding one year, or by imprisonment in the state prison not exceeding three years, or by both such fine and imprisonment in the county jail or in the state prison If such person has previously been convicted of a violation of this section or Section 631 or 636, he is punishable by fine not exceeding ten thousand dollars ($10,000), or by imprisonment in the county jail not exceeding one year, or by imprisonment in the state prison not exceeding five years, or by both such fine and imprisonment in the county jail or in the state prison.

(b) The term "person" includes an individual, business association, partnership, corporation, or other legal entity, and an individual acting or purporting to act for or on behalf of any government or subdivision thereof, whether federal, state, or local, but excludes an individual known by all parties to a confidential communication to be overhearing or recording such communication.

(c) The term "confidential communication" includes any communication carried on in such circumstances as may reasonably indicate that any party to such communication desires it to be confined to such parties, but excludes a communication made in a public gathering or in any legislative, judicial, executive or administrative proceeding open to the public, or in any other circumstance in which the parties to the communication may reasonably expect that the communication may be overheard or recorded.

(f) This section does not apply to the use of hearing aids and similar devices, by persons afflicted with impaired hearing, for the purpose of overcoming the impairment to permit the hearing of sounds ordinarily audible to the human ear.

Nothing in Section 631 or 632 shall be construed as rendering inadmissible any evidence obtained by the above-named persons by means of overhearing or recording any communication which they could lawfully overhear or record prior to the effective date of this chapter.

633.5. Nothing in Section 631 or 632 shall be construed as prohibiting one party to a confidential communication from recording such communication for the purpose of obtaining evidence reasonably believed to relate to the commission by another party to such communication of the crime of extortion,

kidnapping, bribery, any felony involving violence against the person, or a violation of Section 653m, and nothing in Section 631 or 632 shall be construed as rendering inadmissible in a prosecution for extortion, kidnapping, bribery, any felony involving violence against the person, or a violation of Section 653m, or any crime in connection therewith, any evidence so obtained.

(b) This section shall not apply to

(1) An act otherwise prohibited herein when performed by (i) a communication utility or an officer, employee or agent thereof for the purpose of construction, maintenance, conduct or operation of, or otherwise incident to the use of, the services or facilities of the utility, or (ii) a state, county or municipal law enforcement agency or an agency of the federal government, or (iii) a person engaged in selling such devices for use by, or resale to, agencies of a foreign government under terms approved by the federal government, communication utilities, state, county or municipal law enforcement agencies, or agencies of the federal government, or

637. 637.1. Every person not connected with any telegraph or telephone office who, without the authority or consent of the person to whom the same may be directed, willfully opens any sealed envelope enclosing a telegraphic or telephonic message, addressed to another person, with the purpose of learning the contents of such message, or who fraudulently represents another person and thereby procures to be delivered to himself any telegraphic or telephonic message addressed to such other person, with the intent to use, destroy, or detain the same from the person entitled to receive such message, is punishable as provided in Section 637.

637.2. (a) Any person who has been injured by a violation of this chapter may bring an action against the person who committed the violation for the greater of the following amounts:

(1) Three thousand dollars ($3,000).

(2) Three times the amount of actual damages, if any, sustained by the plaintiff.

(b) Any person may, in accordance with the provisions of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, bring an action to enjoin and restrain any violation of this chapter, and may in the same action seek damages as provided by subdivision (a).

(c) It is not a necessary prerequisite to an action pursuant to this section that the plaintiff has suffered, or be threatened with, actual damages.

SEC. 2. Section 591 of the Penal Code is amended to read:

591. A person who unlawfully and maliciously takes down, removes, injures or obstructs any line of telegraph or telephone, or any other line used to conduct electricity, or any part thereof, or appurtenances or apparatus connected therewith, or severs any wire thereof, or makes any unauthorized connection with any line, other than a telegraph or telephone line, used to conduct electricity, or any part thereof, or appurtenances or apparatus connected therewith, is punishable by imprisonment in the state prison not exceeding five years, or by a fine not exceeding five hundred dollars ($500), or imprisonment in the county jail not exceeding one year.

(e) Such investment in any one company may not exceed 5 percent of the common shares outstanding; and

In the matter of commission fees and other fees paid to persons not employed by the state for services in connection with investments under this article, the names of those persons to whom such fees are paid and the amounts paid shall be clearly identified in the report.

SEC. 4. In order that the intent of the Legislature may be made clear to the board, with respect to investments as provided by this act, but without restricting the necessary

flexibility that must exist for successful investing of the retirement fund, the Legislature makes this declaration of its desire that the board shall give primary consideration to dealing with counseling and brokerage firms which maintain offices and staffs in the State of California so that the investment program may make a meaningful contribution to the economy of the state. It is further the desire of the Legislature that the retirement fund should be used as much as reasonably possible to benefit and expand the business and economic climate within the State of California, so long as such use would be consistent with sound investment policy.

Article 10.5. Zones

Sec. 167.1. From and after the effective date of this section, if, in the judgment of the board of directors, varying benefits are or will be derived by the different parcels of land lying within the district from the expenditure of bond proceeds for any one or more of the purposes authorized by Article 5 (commencing with Section 75), the district may be divided into a zone or zones according to such benefits. After the establishment of such a zone or zones, any tax levied to pay the principal of and interest on bonds heretofore or hereafter authorized to be issued by the voters of the district for such purposes may be levied and collected upon the taxable property within each zone in accordance with the percentage of

the sum to be raised each year in such zone by the levy and collection of said tax.

Sec. 167.2. The district may be divided into as many zones, up to the total number of parcels of land in the district, as may be deemed proper for each bond purpose, and each zone may be composed of and include all of the lands within the district which will be benefited in like measure for such purpose. A parcel of land may be included in as many zones as may be necessary in order to reflect the relative benefits derived by it from various bond issues.

Sec. 167.3. Before establishing any zones or changing a parcel of land from one zone to another, the board of directors shall by resolution direct the preparation of a report in writing by a qualified registered civil engineer employed by the district for the purpose. Such report shall be filed with the district secretary and shall contain:

(a) The percentages or other method of apportionment to be used to determine the amounts to be raised from the lands in each zone; and

(b) A map or plat of the district showing the parcels of land within the district existing at the time of the report, as nearly as may be, and designating each zone by a different letter or number and by separate boundaries, coloring or other convenient and graphic method, so that all persons interested may with accuracy ascertain within which zone any parcel of land is located. If deemed advisable, a separate map or plat may be prepared for each bond purpose for which zones are created or several purposes may be combined. Such map or plat shall also refer to the parcels of land by their respective county assessor's parcel numbers.

Sec. 167.4. When the report is filed, it shall be considered by the board of directors who may modify it in any respect. After passing upon the report, the board by resolution shall appoint a time and place for hearing protests to the proposed zone or zones and the method of allocation and shall direct the district secretary to give notice of the hearing by publication pursuant to Section 6062a of the Government Code in a newspaper of general circulation within the district. The hearing shall be held not less than 14 days after the passage of the resolution. The secretary shall also cause notice of the hearing to be posted conspicuously in at least three public places within the district. Such posting shall be completed at least 10 days before the date set for hearing protests.

Sec. 167.5. At least 10 days before the date set for hearing of protests, the secretary shall mail, postage prepaid, notice of the hearing to all persons owning taxable property proposed to be included within a zone whose names and addresses appear on the last equalized assessment roll for county taxes or who are known to the secretary. The failure of the secretary to mail the notice to any property owner or the failure of any property owner to receive the notice shall not affect the va-

lidity of any proceedings taken under this article. If property assessed by the state under Section 14 of Article XIII of the Constitution is proposed to be included within a zone, such notice shall be mailed to every owner of such property at the address thereof shown on the last board roll transmitted to the county auditor.

Sec. 167.6. Any interested person may object to the proposed zones or to the method of allocation by filing a written protest with the secretary at or before the time set for hearing. Such protest must contain a description of the property in which each signer thereof is interested sufficient to identify the same, and if the signers are not shown on the last equalized assessment roll as the owners of such property, must contain or be accompanied by written evidence that such signers are the owners of such property or are obligated to pay the taxes thereon. The secretary shall endorse on each protest the date of its receipt, and at the time appointed for the hearing shall present to the board of directors all protests filed with him.

Sec. 167.7. At the time fixed for hearing, the board of directors shall consider the protests and either conform, modify or correct the zones and the method of apportionment. It shall thereafter by resolution order the establishment of the zones and declare its action upon the report. The resolution shall be final and conclusive as to all persons, and thereafter any levies required to be made for the payment of principal of and interest on bonds shall be made in accordance therewith and not on the present districtwide annual ad valorem basis.

Sec. 167.8. After the adoption of the resolution ordering the establishment of zones, a certified copy thereof, together with a certified copy of the report as confirmed, modified or corrected, shall be filed with the county assessor. The secretary shall also make such filings as may be required with the State Board of Equalization pursuant to Chapter 8 (commencing with Section 54900) of Part 1, Division 2, Title 5 of the Government Code. The filing with the county assessor required by this section shall be deemed a filing pursuant to said Chapter 8 and no further filings need be made.

Sec. 167.9. In the event that the board of directors may deem it advisable to divide an existing zone or to change or modify one or more zones, it shall order a report and hold hearings thereon in the same manner as provided for the establishment of zones by this article, but the report and the notice and hearing thereon shall be limited to the area and zones affected by the proposed changes From and after the approval of such changes as determined by the board of directors, and following the making of the filings required by Section 167.8, all subsequent tax levies shall be in accordance with such changes.

Sec. 167.10. If, in the judgment of the board of directors, at the time it makes a determination as provided in Section 167.1, as to bonds issued for purposes of reclamation; drain-

age of roads, streets and public places, including, but not limited to curbs, gutters, sidewalks, grading, paving; culverts, bridges, underpasses or viaducts; or street and highway lighting facilities, varying benefits will be more equitably apportioned among the several lots or parcels of land within a zone by the levy of taxes, to pay the principal and interest of said bonds, upon the taxable land and improvements or taxable land only within the zone, for a particular issue of bonds, it shall preliminarily so determine. In such event, the report prepared pursuant to Section 167.3 shall contain such information as will present the comparative difference between such tax base and the basis of all taxable property. The notices shall contain a statement of the preliminary determination and proposed action and the matter shall be heard and finally determined as provided in Sections 167.1 to 167.9, inclusive.

SEC. 19.6. Section 100 of Chapter 29 of the Statutes of 1967 is amended to read:

Sec. 100. This act, with the exception of Section 99, shall become operative on January 1, 1969. Section 99 shall become operative on the 61st day following the adjournment of the 1967 Regular Session. Sections 59.1 to 72, inclusive, of this act shall not become operative if Assembly Bill No. 984 is enacted by the Legislature at the 1967 Regular Session.

SEC. 19.7. Any litigation putting in issue the validity of, or the exercise of any express or implied powers granted by, the Estero Municipal Improvement District Act (Chapter 82 of the Statutes of 1960, First Extraordinary Session), or the validity of the creation of the Estero Municipal Improvement District or of any bonds issued or to be issued pursuant to that act, shall be set for trial at the earliest possible date and shall take precedence in the trial courts and the appellate courts of all other cases, except older matters of the same character, and matters to which special precedence may be given by law.

SEC. 20. Notwithstanding the provisions of the Uniform District Election Law, any director of the Estero Municipal Improvement District serving in office on the date of the November 1967 general district election shall serve out the term for which he was elected or appointed. Each director elected at the November 1967 general district election shall not qualify for the office to which he was elected until the term of his predecessor has expired, however the term of each director elected at the November 1967 election shall commence from and including the last Friday in December of 1967.

SEC. 21. This act is intended to implement the recommendations of the Assembly Interim Committee on Municipal and County Government as set forth in Volume 6, No. 24, of the committee report to the 1967 Legislature.

SEC. 22. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to make certain that this act will become effective in time for the November 1967 General Election, and in order to avoid a drastic tax increase which would result from an inability to sell bonds to pay capitalized interest, issued pursuant to the Estero Municipal Improvement District Act (Chapter 82 of the Statutes of 1960, First Extraordinary Session), because of pending litigation, it is necessary that this act take effect immediately.

CHAPTER 1520

An act granting certain tide and submerged lands to The Metropolitan Water District of Southern California upon certain trusts and conditions and for other public purposes, providing for the removal of the public trust for commerce, navigation and fisheries upon certain portions of said lands granted hereby upon the improvement of said portions of said lands for the use and benefit of all of the people of the state and granting an easement across certain state lands now owned and to be acquired for the purpose of connecting such tide and submerged lands to the mainland by means of a causeway.

[Approved by Governor August 28, 1967. Filed with Secretary of State August 28, 1967.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature of the State of California hereby finds and determines that:

(a) The conveyance to The Metropolitan Water District of Southern California of the tide and submerged lands for the purposes hereinafter described, together with the right to govern, control, improve and develop the same will result in great advantage and benefit to all the inhabitants of the state;

(b) Improvement in the art of desalting sea water will be of general benefit to the people of the State of California and of the United States.

(c) The lands conveyed are of but minimal size in relation to the tide and submerged lands in the area, and the removal of the public trust for commerce, navigation and fisheries as to those portions which will be above the level of mean high tide will not substantially impair commerce, navigation, or fisheries on the remaining lands or waters in the area, and the greatest public interest will be subserved by such removal of the trust.

SEC. 2. There is hereby granted to The Metropolitan Water District of Southern California, and to its successors, subject to existing leases, easements and rights-of-way heretofore granted by the state or agencies thereof, all of the right, title and interest of the State of California in and to all tide and submerged lands, either filled or unfilled, which said lands are bounded by and more particularly described as follows, to wit:

(i) Parcel I—A parcel of tide and submerged lands lying off-shore to the Bolsa Chica Beach State Park, in the City of Huntington Beach, County of Orange, State of California, as said Bolsa Chica Beach State Park is shown on map recorded in Book 53, page 40, of Record of Survey in the office of the Recorder of said County of Orange, said parcel of tide and submerged lands being more particularly described as follows:

(ii) Parcel II—A strip of tide and submerged lands 600 feet wide lying off-shore to the Bolsa Chica Beach State Park, in the City of Huntington Beach, County of Orange, State of California, as said Bolsa Chica Beach State Park is shown on map recorded in Book 53, page 40, of Record of Survey, in the office of the Recorder of said County of Orange, the northwesterly line of said strip of tide and submerged lands 600 feet wide being parallel with and 450 feet northwesterly, measured at right angles, from the following described traverse line:

Commencing at California State Lands Commission Station "Los Patos 2" (California State Coordinate System for Zone 6, N. 566,794.72 and E. 1,448,614 15) being a Brass Cap in Concrete marked "Los Patos No. 2 1950" as shown on said above-mentioned Record of Survey; thence N 55° 31′ 19″ W 150.05 feet to a 2½-inch Brass Cap in Concrete in 4-inch diameter by 24-inch clay pipe marked "1960 L.S. 2685" being a point in the northeasterly boundary of said Bolsa Chica Beach State Park as shown on said Record of Survey; thence S 42° 28′ 13″ E along said northeasterly boundary 1,868.99 feet to a 2½-inch Brass Cap in Concrete in 4-inch diameter by 24-inch clay pipe marked "1960 L.S. 2685" as shown on said Record of Survey; thence S 42° 26′ 30″ E along said northeasterly boundary 941.07 feet to the TRUE POINT OF BEGINNING; thence leaving said northeasterly boundary S 47° 30′ 00″ W 1,032.56 feet to a point in the Pacific Ocean herein designated Point A, said last mentioned point having coordinates of N. 564,108.98 and E. 1,449,626.19, California State Coordinate System, Zone 6.

The side lines of said above-described 600-foot wide strip of tide and submerged lands shall be prolonged or shortened so as to terminate northeasterly in the Mean High Tide Line, and so as to terminate southwesterly in a line which is at right angles to said above-described traverse line at said Point A.

SEC. 3 Subject to the provisions of subdivision (b) of this section, said tide and submerged lands shall be forever held by said district, and its successors, in trust for the uses and purposes and upon the express conditions following, to wit:

(a) That said lands shall be used by said district, its successors, easement holders, lessees and licensees only for the promotion and accommodation of the following stated purposes having statewide benefit: the construction, maintenance and operation thereon of a plant or plants for the production of fresh water employing a nuclear powered sea water desalting process or a plant or plants for the production of electric energy using nuclear means, or both, and any other facilities, equipment or plants necessary or desirable in connection with the production and delivery of fresh water, electricity and any byproducts incident thereto, and to these or any of these ends, said district and its successors are hereby authorized to reclaim, fill and raise portions of said lands to such level as may be necessary or convenient to create an island in parcel I and a causeway of open construction in parcels I and II to connect said island with the mainland; provided, however, that without the approval of the State Lands Commission, said island shall not exceed 125 acres in area at the mean high water line and said causeway shall not exceed 60 feet in width at its top.

(b) It is found and determined that if and when any portions of said lands have been reclaimed, filled and raised to such level as may be necessary or convenient to create an island in Parcel I and the island shall have been created and said causeway shall have been constructed, said portions of said lands constituting said island and said causeway or any extensions or additions thereto will be no longer submerged or below the line of mean high tide and will no longer be necessary or useful for commerce, navigation or fisheries, subject only to the right of the public to fish from said causeway and island, all as provided in Section 5 hereof. The State Lands Commission is hereby directed, upon the completion of the reclamation, filling and raising of the level of any portions of said lands to create the island and upon completion of the causeway, or when any extensions or additions thereto are constructed, to execute and record in the office of the County Recorder of the County of Orange appropriate instruments describing the lands comprising the island and causeway. Upon the recording of any such instrument or instruments, together with a certificate that the lands described therein are above the line of mean high tide and have been found to be no longer necessary or useful for commerce, navigation and fisheries, all as hereinabove provided, said described lands shall thereupon and thereafter be

held by said district free of the public use and trust for commerce, navigation and fisheries, including any trust for said purposes imposed by this section, subject only to the right to fish from the causeway and island as provided in Section 5 hereof. Such certificate shall be made from time to time by the State Lands Commission on its own initiative or shall be made on the application of the district, its successors, easement holders, lessees or licensees. It is further found and determined that the freeing of any lands so certified from said trust is promotive of the public interest and in aid of the construction, maintenance and operation of the plant or plants hereinabove in Section 3 referred to and that said freeing of said lands from said trust can be done without impairing the paramount public interest in the lands and waters remaining or adjacent to or in the vicinity of the island and causeway when the same are reclaimed, created or constructed as herein provided.

(c) That neither said district nor its successors shall at any time grant, convey, or alien said lands, or any part thereof, to any individual, firm or corporation, for any purpose whatsoever; provided, that said district or its successors, may grant easements, licenses and leases thereon for any of the uses and purposes specified in subdivision (a) hereof for periods not in excess of 66 years; provided further, that such easements, licenses and leases may be granted to municipal corporations for periods not in excess of 99 years; provided further, however, that whenever any portions of said lands are held by the district free of the public use and trust for commerce, navigation and fisheries in accordance with subdivision (b) hereof, said easements, licenses, or leases may extend as to such portions for such periods of time as such lands are used for the purposes specified in subdivision (a) hereof.

(d) That for the purpose of obtaining material to reclaim and fill the lands hereby granted to said district, it may dredge said lands, and submerged lands within the following described area: A parcel of tide and submerged lands lying in the Pacific Ocean partly in the City of Huntington Beach, all in the County of Orange, State of California, said parcel of tide and submerged lands being more particularly described as follows:

Commencing at California State Lands Commission Station "Los Patos 2" (California State Coordinate System for Zone 6, N. 566,794.72 and E. 1,448,614.15) being a Brass Cap in Concrete marked "Los Patos No. 2 1950" as shown on map recorded in Book 53, page 40, of Record of Survey in the office of the Recorder of said County of Orange; thence N 55° 31′ 19″ W 150.05 feet to a 2½-inch Brass Cap in Concrete in 4-inch diameter by 24-inch clay pipe marked "1960 L.S. 2685" being a point in the northeasterly boundary of said Bolsa Chica Beach State Park as shown on said Record of Survey; thence S 42° 28′ 13″ E along said northeasterly boundary 1,868.99 feet to a 2½-inch Brass Cap in Concrete in 4-inch diameter by 24-inch clay pipe marked "1960 L S. 2685" as shown on said Record of Survey; thence S 42° 26′ 30″ E along said north-

easterly boundary 941.07 feet; thence leaving said northeasterly boundary S 47° 30′ 00″ W 1,032 56 feet to a point in the Pacific Ocean having coordinates of N. 564,108.98 and E. 1,449,626.19, California State Coordinate System, Zone 6; thence S 42° 30′ 00″ E 4,400 feet; thence S 47° 30′ 00″ W 4,500 feet to the TRUE POINT OF BEGINNING; thence S 42° 30′ 00″ E 5,100 feet; thence S 47° 30′ 00″ W 9,500 feet; thence N 42° 30′ 00″ W 21,200 feet; thence N 47° 30′ 00″ E 9,500 feet; thence S 42° 30′ 00″ E 8,900 feet; thence S 47° 30′ 00″ W 500 feet; thence S 42° 30′ 00″ E 7,200 feet; thence N 47° 30′ 00″ E 500 feet to said True Point of Beginning.

SEC. 4. The district shall:

(a) Make ecological studies of conventional scope before, during, and after the construction of the island according to a plan approved by the Department of Fish and Game, and shall provide for reasonable mitigation of damage of a substantial nature resulting to the total fish and wildlife resources caused by the construction of the island.

(b) Establish conventional monitoring systems to measure the effects of the development of such lands on existing shoreline conditions and provide for reasonable mitigation of any erosion or accretion damage of a substantial nature caused by such development. Both the monitoring and damage mitigation shall be carried out according to standards approved by the Department of Water Resources.

(c) Provide on said island or within a reasonable distance from said island and causeway parking facilities sufficient to accommodate employees of the district, its easement holders, lessees and licensees, and also to reasonably accommodate members of the public who are permitted by the district, its easement holders, lessees and licensees to enter the plant or plants constructed on said island

(d) Place all lines, cables or other conduits for the transmission of electrical energy, water or any other products of the district, its easement holders, lessees and licensees below the top level of the causeway. Said lines, cables and conduits may at the option of the district, its easement holders, lessees and licensees, be constructed from the island to the Pacific Coast Highway within the structure of the causeway, or beneath the floor of the ocean and said state beach lands, or in some combination thereof.

SEC. 5. There are hereby reserved in the people of the State of California the rights of navigation and fishing in the waters surrounding the facilities to be constructed. Fishing shall be permitted from safe and suitable locations on the causeway and the island in a manner compatible with the operations of said district, its successors, easement holders, lessees and licensees if permitted by federal and state laws and regulations, and provided that the State of California or others pay any costs or expenses necessarily incurred by the district, its successors, easement holders, lessees and licensees, for the purpose of accommodating fishermen on said causeway and island.

SEC. 6. The district shall take such measures as may be required by federal or state law, and it may take such additional measures as it deems necessary or desirable in the interest of public health and safety.

SEC. 7. (a) There are hereby excepted and reserved to the State of California all deposits of minerals, including oil and gas in the lands granted by this act, but without any right of entry on the surface of said lands, or the right to drill through said lands above a depth of 500 feet below the ocean floor.

(b) There are hereby reserved to the State of California the rights to construct breakwaters in aid of the establishment of a harbor for small boats and to construct such other harbor facilities incidental thereto as may be required, provided said breakwaters and harbor facilities shall be constructed at locations and in a manner compatible with federal and state laws, the operations of the Department of Parks and Recreation, and of said district, its successors, easement holders, lessees, and licensees for the purposes set forth in Section 3 hereof.

SEC. 8. There is hereby granted to The Metropolitan Water District of Southern California, and to its successors, subject to existing leases, easements and rights-of-way heretofore granted by the state or agencies thereof, an easement across the following described state beach lands for the upland portion of the causeway and for the uses and purposes specified in subdivision (a) of Section 3.

Parcel IV—A strip of land 600 feet wide lying in the Bolsa Chica Beach State Park, in the City of Huntington Beach, County of Orange, State of California, as shown on map recorded in Book 53, page 40, of Record of Survey in the office of the Recorder of said County of Orange, the northwesterly line of said strip of land, 600 feet wide, being parallel with and 450 feet northwesterly, measured at right angles, from the following described traverse line:

Commencing at California State Lands Commission Station "Los Patos 2" (California State Coordinate System for Zone 6, N. 566,794.72 and E. 1,448,614.15) being a Brass Cap in Concrete marked "Los Patos No. 2 1950" as shown on said above-mentioned Record of Survey; thence N 55°31'19" W 150.05 feet to a 2½-inch Brass Cap in Concrete in 4-inch diameter by 24-inch clay pipe marked "1960 L.S. 2685" being a point in the northeasterly boundary of Bolsa Chica Beach State Park as shown on said Record of Survey; thence S 42° 28' 13" E along said northeasterly boundary 1,868.99 feet to a 2½-inch Brass Cap in Concrete in 4-inch diameter by 24-inch clay pipe marked "1960 L.S. 2685" as shown on said Record of Survey; thence S 42°26'30" E along said northeasterly boundary 941.07 feet to the TRUE POINT OF BEGINNING; thence leaving said northeasterly boundary S 47°30'00" W. 1,032.56 feet to a point in the Pacific Ocean herein designated Point A, said last mentioned point having coordinates of N. 564,108.98 and E. 1,449,626 19, California State Coordinate System, Zone 6.

The side lines of said above-described 600-foot wide strip of land shall be prolonged or shortened so as to terminate northeasterly in said northeasterly line of said Bolsa Chica Beach State Park and so as to terminate southwesterly in the Mean High Tide Line.

(a) That neither said district nor its successors shall at any time grant said easement or assign said easement, or any part thereof, to any individual, firm or corporation, for any purpose whatsoever; provided, that said district or its successors, may grant easements, licenses and leases covering the use of Parcel IV, or any part thereof, for any of the purposes referred to in subdivision (a) of Section 3 hereof for periods not in excess of the term of any easement, license, or lease granted pursuant to subdivision (c) of Section 3 hereof which has the longest term.

(b) The causeway structure to be constructed within the state beach lands and within other lands between such state beach lands and the Pacific Coast Highway shall not exceed 60 feet in width at the top and 95 feet in width at the base and shall be constructed so as to provide for reasonable mitigation of any damage of a substantial nature to such state beach lands.

Such construction shall include a public vehicular crossing from either side of the causeway to the other at a location agreeable to the Department of Parks and Recreation unless the department determines that such vehicular crossing is not required, and the abutment for such causeway on the seaward side shall be constructed at an elevation sufficiently above the level of mean high tide to allow passage of pedestrian traffic and beach maintenance vehicles under such causeway above said mean high tide line.

(c) Upon completion of the causeway within Parcel IV heretofore described, the district shall quitclaim to the state that portion of the easement herein granted, in excess of 75 feet in either direction from the centerline of said causeway.

(e) No improvements shall be placed on the surface of Parcel IV other than the causeway and conduits, cables and other facilities incorporated within said causeway, and the public vehicular crossing from either side of the causeway to the other, without the consent of the Department of Parks and Recreation.

SEC 9. The State of California proposes to purchase a strip of land contiguous with the easterly line of Parcel IV, described in Section 8 hereof and extending to and contiguous with the westerly line of the Pacific Coast Highway to be used,

in part, for state beach purposes. Said land is more particularly described in a deed to the Pacific Electric Company recorded October 24, 1903, in Book 92, page 306, of Deeds in the office of the County Recorder of the County of Orange.

If the state acquires the portions of such land hereinafter referred to, the state shall grant to The Metropolitan Water District of Southern California and to its successors, the following easements in such land:

(a) An easement 600 feet wide across said land to permit the easterly continuation of the causeway from the easterly limit of the easement designated as Parcel IV to the Pacific Coast Highway. Said easement shall be granted so as to allow construction of the causeway in a straight line perpendicular to the island to be constructed, and for the same uses and purposes as provided in Section 8 but subject to the restrictions contained in subdivision (a) thereof. Upon completion of the causeway within the easement granted in this subsection, the district shall quitclaim to the state that portion of the easement which is in excess of 75 feet in either direction from the centerline of said causeway.

(b) An easement across said land to be used for the construction of an acceleration lane to and a deceleration lane from the Pacific Coast Highway.

Said easement shall be granted only after the centerline of the causeway has been determined and shall consist of a strip of land 1,000 feet in length and 15 feet in width extending southeasterly and northwesterly 500 feet from the centerline of the causeway as constructed, the northeasterly line of said strip being the northeasterly line of the land described in the deed to the Pacific Electric Company referred to herein.

The acceleration and deceleration lanes shall be constructed at the expense of the district in accordance with specifications approved by the Director of District 7 of the Division of Highways of the State of California. No improvements shall be placed on the surface of the lands subject to the easements described in subdivision (a) hereof other than the causeway and conduits, cables and other facilities incorporated within said causeway and the public vehicular crossing from either side of the causeway to the other, without the consent of the Department of Parks and Recreation.

Service of process in any such suit shall be made upon the chairman of the State Lands Commission and the Attorney General, and it shall be the duty of the Attorney General to represent the state in any such suit. In any such action, whether or not judgment is given against the state, no costs shall be recovered against the state. Any action so brought hereunder shall be commenced prior to January 1, 1969.

The court shall fix the qualifications of such executive officer and may delegate to him any administrative powers and duties as are now or may hereafter by law be vested in or required to be exercised by such court. The executive officer shall prepare an annual report and such other reports as may be directed by the court. The annual salary of the executive officer shall be the same as provided for the judges of the superior court. He shall be allowed actual traveling and other necessary expenses while engaged in the discharge of the duties of his office.

SEC. 2. Section 69894.2 of the Government Code is amended to read:

conferred by law upon it and its members. Rates of compensation of all officers, assistants and other employees, except those of the executive officer and court commissioners, may be adjusted by joint action and approval of the board of supervisors and a majority of the judges of the court.

Such appointments or changes in compensation made pursuant to this section shall be on an interim basis and shall expire 90 days after the adjournment of the next regular session of the Legislature unless ratified at such session.

SEC. 3. Section 69894.3 of the Government Code is amended to read:

69894.3. Employees of the superior court in each county having a population of over 2,000,000 shall be entitled to such step advancement, vacation, sick leave, holiday benefits and other leaves of absence and other benefits as may be directed by rules of the court. Where statutes require implementation by local ordinances for the extension of benefits to local officers and employees, these may be made applicable by rule to court personnel, including but not limited to jurors, and judges.

Such benefits shall also include the same lump sum payments for sick leave and vacation for the superior court employees when they are separated from the service as are made to

SEC. 3.5. Section 69894.3 of the Government Code is amended to read:

Employees of the superior court in each county having a population of over 2,000,000 shall be entitled to such step advancement, vacation, sick leave, holiday benefits and other leaves of absence and other benefits as may be directed by rules of the court. Where statutes require implementation by local ordinances for the extension of benefits to local officers and employees, these may be made applicable by rule to court personnel, including but not limited to jurors, and judges.

Such benefits shall also include the same lump sum payments for sick leave and vacation for the superior court employees when they are separated from the service as are made to county employees of such county; except that lump sum payments to court commissioners when separated from the service of the superior court shall be limited to accrued vacation only, exclusive of accrued sick leave.

Such right of transfer shall not give any such employee any additional rights by reason of his employment with the court, other than those to which he would have been entitled if such employment had been with a different department of the county government.

Employment by the court shall be deemed to be employment by the county, if approved by rule of court, for the purpose of

determining a court employee's rights with respect to a county's ordinances providing for salary step advancements and other employee benefits and rights, including, but not limited to, amount of compensation, vacations, sick leave, and accumulated sick leave.

In any such county such attachés may be voluntarily transferred from a position in one judicial district to a position in another within the county and promoted or voluntarily demoted from a position in one judicial district to a position in another within the county in substantially the same manner as transfers, demotions and promotions are authorized generally in county departments or between departments of the county.

Rules of the court may include other matters pertaining to the general administration of the court, including conditions of employment of court personnel, including but not limited to jurors and judges. When such rules are adopted by a majority of the judges and filed with the Judicial Council they shall have the same status as other rules of court adopted pursuant to Section 68070 of this code.

[Approved by Governor August 28, 1967. Filed with Secretary of State August 28, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 10506 of the Insurance Code is amended to read:

10506. (A) Any domestic life insurance company may, after adoption of a resolution by its board of directors, allocate to one or more separate accounts, in accordance with the terms of a written agreement which shall be filed with the Insurance Commissioner for approval, any amounts which are paid to the company in connection with a pension, retirement or profit-sharing plan, and which are to be applied in payment or in making provision for payment under the company's policies or contracts of retirement benefits, and other benefits incidental thereto, in fixed or variable dollar amounts, or both. The income, if any, and gains or losses, realized or unrealized, on each such account shall be credited to or charged against the amount allocated to the account in accordance with the agreement, without regard to the other income, gains or losses of the company. The amounts allocated to such accounts and accumulations thereon, by any life insurance company shall be invested and reinvested as specified in the agreement, except a domestic company shall invest or reinvest only in such investments described in Article 3 (commencing with Section 1170), and Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1. The limitations contained in Sections 1192.4 and 1198 are not applicable to such investments. Such investments shall not be included in determining the propriety of other investments of the company. The liability of the company with respect thereto, but only to the extent prescribed in the agreement, shall be shown on the statement of the company in the manner prescribed by the commissioner. Amounts allocated by an insurance company to separate accounts in the exercise of the power granted by this section shall be owned by the company, but shall not be chargeable with liabilities arising out of any other business the company may conduct except and to the extent provided in the agreement. The company shall not hold itself out to be a trustee in respect to such amounts.

(B) This section shall not apply to amounts contributed by a participant who is entitled to retirement or other incidental benefits under a pension, retirement or profit-sharing plan, except, this provision shall not be construed to prevent contribution of amounts by a participant or application of amounts to the purchase of retirement or other incidental benefits under pension, retirement and profit-sharing plans established pur-

suant to the Self-Employed Individuals' Tax Retirement Act of 1962 nor shall it be construed to prevent contribution or application of amounts to the purchase of retirement or other incidental benefits under pension or retirement plans established pursuant to the provisions of Section 403(b) of the Internal Revenue Code of 1954 as amended.

(C) The purpose and intent of this section is to permit the issuance and delivery of policies or contracts, in connection with a pension, retirement or profit-sharing plan, providing for the payment of benefits in fixed or variable amounts, or both, and the establishment of separate accounts by domestic companies for the administration of and investments under such agreements. To protect the public and policyholders located in this state from hazardous operation by domestic and foreign companies, and to further the purpose and provision of this section, no domestic or foreign life insurance company shall undertake the issuance of any contract providing for variable benefits until said company has satisfied the commissioner that it has been engaged in transacting the business of life insurance for a period of at least two years and that its condition or method of operation in connection with the issuance of such contracts will not be such as would render its operation hazardous to the public or its policyholders in this state. In determining the qualification of a company requesting authority to issue contracts providing for variable benefits within this state the commissioner will consider among other things, (a) the history of the company; (b) the character, responsibility and general fitness of the officers and directors of the company; and (c) the regulation of a foreign company by its state of domicile. The commissioner may make such reasonable rules and regulations as are necessary, proper and advisable concerning the issuance and delivery of such policies and contracts and the payment of benefits thereunder and the manner in which the separate accounts shall be administered.

Provided, however, that no company may provide variable benefits in its contracts unless it is an admitted insurer meeting, at the time it obtains approval from the Insurance Commissioner in accordance with subdivision (C), one or more of the following criteria:

1. It is a domestic insurer and has combined capital and surplus of at least five million dollars ($5,000,000) and has been admitted to California and under the same management for at least five years.

2. It is an admitted insurer and has combined capital and surplus of at least sixteen million dollars ($16,000,000) or admitted assets of at least two hundred fifty million dollars ($250,000,000).

3 It is an admitted insurer which has been admitted to California for at least five years and is presently controlled by: (a) an admitted insurer (owning 50 percent or more of its voting shares) which meets the criteria of paragraph 2 of this subdivision, or (b) an investment advisor (owning 50

percent or more of its voting shares) to an investment company or companies (as defined by the Investment Company Act of 1940, Title 15 U.S.C. Sec. 80a-1 et seq.), provided the aggregate assets of such investment company or companies total at least two hundred fifty million dollars ($250,000,000).

4. It is a domestic insurer which has been admitted to California for at least two years and is a wholly owned subsidiary of a domestic insurer having admitted assets in excess of one billion dollars ($1,000,000,000).

"Under the same management," as used in this section, means the insurer has been controlled by the same person or group of persons (owning 50 percent or more of its voting shares) for the time specified.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 1538.5 is added to the Penal Code, to read:

1538.5. (a) A defendant may move for the return of property or to suppress as evidence any tangible or intangible thing obtained as a result of a search or seizure on the ground that:

(1) The search or seizure without a warrant was unreasonable; or

(2) The search or seizure with a warrant was unreasonable because (i) the warrant is insufficient on its face; (ii) the property or evidence obtained is not that described in the warrant; (iii) there was not probable cause for the issuance of the warrant; (iv) the method of execution of the warrant violated federal or state constitutional standards; or (v) there was any other violation of federal or state constitutional standards.

(b) When consistent with the procedures set forth in this section and subject to the provisions of Section 170 through 170.6 of the Code of Civil Procedure, the motion should first

be heard by the magistrate who issued the search warrant if there is a warrant.

(c) Whenever a search or seizure motion is made in the municipal, justice or superior court as provided in this section, the judge or magistrate shall receive evidence on any issue of fact necessary to determine the motion.

(d) If a search or seizure motion is granted pursuant to the proceedings authorized by this section, the property or evidence shall not be admissible against the movant at any trial or other hearing unless further proceedings authorized by this section or Section 1238 or Section 1466 are utilized by the people.

(e) If a search or seizure motion is granted at a trial, the property shall be returned upon order of the court unless it is otherwise subject to lawful detention. If the motion is granted at a special hearing, the property shall be returned upon order of the court only if, after the conclusion of any further proceedings authorized by this section or Section 1238 or Section 1466, the property is not subject to lawful detention or if the time for initiating such proceedings has expired, whichever occurs last. If the motion is granted at a preliminary hearing, the property shall be returned upon order of court after 10 days unless the property is otherwise subject to lawful detention or unless, within that time, further proceedings authorized by this section or Section 1238 are utilized; if they are utilized, the property shall be returned only if, after the conclusion of such proceedings, the property is no longer subject to lawful detention.

(f) If the property or evidence relates to a felony offense initiated by a complaint, the motion may be made in the municipal or justice court at the preliminary hearing.

(g) If the property or evidence relates to a misdemeanor complaint, the motion shall be made in the municipal or justice court before trial and heard prior to trial at a special hearing relating to the validity of the search or seizure. If the property or evidence relates to a misdemeanor filed together with a felony, the procedure provided for a felony in this section and Sections 1238 and 1539 shall be applicable.

(h) If, prior to the trial of a felony or misdemeanor, opportunity for this motion did not exist or the defendant was not aware of the grounds for the motion, the defendant shall have the right to make this motion during the course of trial in the municipal, justice or superior court. Furthermore, the court in its discretion may entertain the motion during the course of the trial.

(i) If the property or evidence obtained relates to a felony offense initiated by complaint and the defendant was held to answer at the preliminary hearing, or if the property or evidence relates to a felony offense initiated by indictment, the defendant shall have the right to renew or make the motion in the superior court at a special hearing relating to the validity of the search or seizure which shall be heard prior to trial and

at least 10 days after notice to the people unless the people are willing to waive a portion of this time. The defendant shall have the right to litigate the validity of a search or seizure de novo on the basis of the evidence presented at a special hearing. After the special hearing is held in the superior court, any review thereafter desired by the defendant prior to trial shall be by means of an extraordinary writ of mandate or prohibition filed within 30 days after the denial of his motion at the special hearing.

(j) If the property or evidence relates to a felony offense initiated by complaint and the defendant's motion for the return of the property or suppression of the evidence at the preliminary hearing is granted, and if the defendant is not held to answer at the preliminary hearing, the people may file a new complaint or seek an indictment after the preliminary hearing, and the ruling at the prior hearing shall not be binding in any subsequent proceeding. If the property or evidence relates to a felony offense initiated by complaint and the defendant's motion for the return or suppression of the property or evidence at the preliminary hearing is granted, and if the defendant is held to answer at the preliminary hearing, the ruling at the preliminary hearing shall be binding upon the people unless, upon notice to the defendant and the court in which the preliminary hearing was held and upon the filing of an information, the people within 10 days after the preliminary hearing request in the superior court a special hearing, in which case the validity of the search or seizure shall be relitigated de novo on the basis of the evidence presented at the special hearing, and the defendant shall be entitled, as a matter of right, to a continuance of the special hearing for a period of time up to 30 days. If defendant's motion is granted at a special hearing in the superior court, the people, if they have additional evidence relating to the motion and not presented at the special hearing, shall have the right to show good cause at the trial why such evidence was not presented at the special hearing and why the prior ruling at the special hearing should not be binding, or the people may seek appellate review as provided in subdivision (o) of this section, unless the court prior to the time such review is sought has dismissed the case pursuant to Section 1385. If the property or evidence seized relates solely to a misdemeanor complaint, and the defendant made a motion for the return of property or the suppression of evidence in the municipal court or justice court prior to trial, both the people and defendant shall have the right to appeal any decision of that court relating to that motion to the superior court of the county in which such inferior court is located, in accordance with the California Rules of Court provisions governing appeals from municipal and justice courts in criminal cases. If the people prosecute review by appeal or writ to decision, or any review thereof, in a felony or misdemeanor case, it shall be binding upon them.

(k) If the defendant's motion to return property or suppress evidence is granted and the case is dismissed pursuant to Section 1385, or the people appeal in a misdemeanor case pursuant to subdivision (j) or the people file a petition for writ of mandate or prohibition pursuant to subdivision (o) or a notice of intention to file such petition, the defendant shall be released if he is in custody and not returned to custody unless the proceedings are resumed in the trial court and he is lawfully ordered by the court to be returned to custody.

(*l*) The trial of a criminal case shall be stayed to a specified date pending the termination in the appellate courts of the State of California of the proceedings provided for in this section, Section 1238, or Section 1466 and, except upon stipulation of the parties, pending the time for the initiation of such proceedings. Upon the termination of such proceedings, the defendant shall be brought to trial as provided by Section 1382, and subject to the provisions of Section 1382, whenever the people have sought and been denied appellate review pursuant to subdivision (o) of this section, the defendant shall be entitled to have the action dismissed if he is not brought to trial within 30 days of the date of the order which is the last denial of the petition. Nothing contained in this subdivision shall prohibit a court, at the same time as it rules upon the search and seizure motion, from dismissing a case pursuant to Section 1385 when such dismissal is upon the court's own motion and is based upon an order at the special hearing granting defendant's motion to return property or suppress evidence. In a misdemeanor case, the defendant shall be entitled to a continuance of up to 30 days if he intends to file a motion to return property or suppress evidence and needs this time to prepare for the special hearing on the motion. In case of an appeal by the defendant in a misdemeanor case from the denial of such motion, he shall be entitled to bail as a matter of right, and, in the discretion of the trial or appellate court, may be released on his own recognizance pursuant to Section 1318.4.

(m) The proceedings provided for in this section, Section 995, Section 1238, and Section 1466 shall constitute the sole and exclusive remedies prior to conviction to test the unreasonableness of a search or seizure where the person making the motion for the return of property or the suppression of evidence is a defendant in a criminal case and the property or thing has been offered or will be offered as evidence against him. A defendant may seek further review of the validity of a search or seizure on appeal from a conviction in a criminal case notwithstanding the fact that such judgment of conviction is predicated upon a plea of guilty. Such review on appeal may be obtained by the defendant providing that at some stage of the proceedings prior to conviction he has moved for the return of property or the suppression of the evidence.

(n) Nothing contained in this section shall prohibit a person from making a motion, otherwise permitted by law, to return property, brought on the ground that the property obtained is

protected by the free speech and press provisions of the federal and state constitutions. Nothing in this section shall be construed as altering (i) the law of standing to raise the issue of an unreasonable search or seizure; (ii) the law relating to the status of the person conducting the search or seizure; (iii) the law relating to the burden of proof regarding the search or seizure; (iv) the law relating to the reasonableness of a search or seizure regardless of any warrant which may have been utilized; or (v) the procedure and law relating to a motion made pursuant to Section 995 or the procedures which may be initiated after the granting or denial of such a motion.

(o) Within 30 days after a defendant's motion is granted at a special hearing in the superior court, the people may file a petition for writ of mandate or prohibition, seeking appellate review of the ruling regarding the search or seizure motion. If the trial of a criminal case is set for a date which is less than 30 days from the granting of a defendant's motion at a special hearing in the superior court, the people, if they have not filed such a petition and wish to preserve their right to file such a petition shall file in the superior court on or before the trial date or within 10 days after the special hearing, whichever occurs last, a notice of intention to file such a petition and shall serve a copy of the notice upon the defendant.

SEC. 2. Section 1539 of the Penal Code is amended to read:

1539. (a) If a special hearing be held in the superior court pursuant to Section 1538.5, or if the grounds on which the warrant was issued be controverted and a motion to return property be made (i) by a defendant on grounds not covered by Section 1538.5; (ii) by a defendant whose property has not been offered or will not be offered as evidence against him; or (iii) by a person who is not a defendant in a criminal action at the time the hearing is held, the judge or magistrate must proceed to take testimony in relation thereto, and the testimony of each witness must be reduced to writing and authenticated by a shorthand reporter in the manner prescribed in Section 869.

(b) The reporter shall forthwith transcribe his shorthand notes pursuant to this section if any party to a special hearing in the superior court files a written request for its preparation with the clerk of the court in which the hearing was held. The reporter shall forthwith file in the superior court an original and as many copies thereof as there are defendants (other than a fictitious defendant) or persons aggrieved. The reporter shall be entitled to compensation in accordance with the provisions of Section 869. In every case in which a transcript is filed as provided in this section, the county clerk shall deliver the original of such transcript so filed with him to the district attorney immediately upon receipt thereof and shall deliver a copy of such transcript to each defendant (other than a fictitious defendant) upon demand by him without cost to him.

SEC. 3. Section 1238 of the Penal Code is amended to read:

1238. An appeal may be taken by the people:

1. From an order setting aside the indictment, information, or complaint;

2. From a judgment for the defendant on a demurrer to the indictment, accusation, or information;

3. From an order granting a new trial;

4. From an order arresting judgment;

5. From an order made after judgment, affecting the substantial rights of the people;

6. From an order modifying the verdict or finding by reducing the degree of the offense or the punishment imposed;

7. From an order dismissing a case prior to trial made upon motion of the court pursuant to Section 1385 whenever such order is based upon an order granting defendant's motion to return or suppress property or evidence made at a special hearing as provided in this code.

The people of the State of California do enact as follows:

SECTION 1. Section 16645.1 of the Education Code is amended to read:

16645.1. The purpose of the Legislature in enacting this article is to continue these development centers for physically handicapped and mentally retarded minors having successfully demonstrated that there is a need for such facilities to help these children from an earlier age, that such development centers prevent the breakup of homes through respite from continuous 24-hour care of severely handicapped minors, that such development centers effectively relieve parents to engage in work, that the centers reduce significantly the demand for institutional placement, and that the centers are accessible to families without causing the physical dislocation of minors from their families.

SEC. 2. Section 16645.2 of the Education Code is amended to read:

16645.2. The governing body of any school district or a county superintendent of schools with the approval of the county board of education is authorized to establish and maintain, upon the approval of the Superintendent of Public Instruction, one or more development centers for physically handicapped and mentally retarded minors between 3 years and 21 years of age residing in, and in the custody of persons residing in, the district or county. The governing body or county superintendent shall determine the hours, days, and months during which the development center is to be maintained.

The establishment and maintenance of any development center for physically handicapped and mentally retarded minors by the county superintendent of schools shall be undertaken subject to the prior approval of the county board of education, upon the application of one or more school districts under his jurisdiction, and such establishment and maintenance shall be upon such terms and conditions as may be provided for in a written contract between the county superintendent of schools and the governing body of any school district.

SEC. 3. Section 16645.3 of the Education Code is amended to read:

16645.3. As used in this article (commencing at Section 16645.1) "parent" includes any person having legal custody of a child, "child care center" means a development center for mentally retarded and physically handicapped children, "governing board of any school district" includes a county board of education, and "school district" includes a county superintendent of schools, unless a different meaning clearly appears from the context.

SEC. 4. Section 16645.4 of the Education Code is amended to read:

SEC. 5. Section 16645.5 of the Education Code is amended to read:

16645.5. A governing board maintaining a development center may accommodate in the center children residing in another district upon such terms and under such conditions as may be agreed upon by the governing boards of both districts. Such terms and conditions shall include the payment of the cost required or authorized to be paid from the district general fund or a special development center tax levied by the operating district. The amount shall be paid from any funds of the contracting school district available for that purpose.

16645.9. Pursuant to Sections 20501 to 21001 inclusive, the governing board of any school district or county superintendent of schools maintaining a development center may include in its budget the amount necessary to carry out its program pursuant to this article (commencing at Section 16645.1) and the board of supervisors shall levy a school district tax or county tax necessary to raise such amount. The tax shall be in addition to any other school district tax or county tax authorized by law to be levied.

Funds derived from such tax may be expended in addition to state funds, and shall not operate to affect the operation of the formula for apportioning state funds provided for in Section 16645.8.

SEC. 11. Section 16645.12a of the Education Code is amended and renumbered to read:

16645.10. SEC. 13. Section 16645.14 of the Education Code is amended and renumbered to read:

16645.12. If during any fiscal year there is apportioned to the "development center fund" more or less than the amount to which the fund was entitled, the Superintendent of Public Instruction during the next or any succeeding fiscal year shall withhold from, or add to, the apportionment during such next or succeeding year, the amount of such excess or deficiency.

The filing with the county superintendent of schools of a regulation of a governing board or a public health agency requiring a physical examination of persons employed in development centers shall be deemed to be the issuance of a valid permit except for persons employed in positions pertaining to the care and guidance of children or supervision of a development center program. Each person employed by the govering board of a school district for a position requiring a permit shall, not later than 60 days after the date fixed by the governing board of the district for the commencement of

21643. After the effective date of this section, no person shall construct any structure or permit any natural growth to grow within one statute mile of the exterior boundary of any airport open to public use at such height as to constitute a hazard to air navigation, as a hazard to air navigation is defined in accordance with Part 77 of the Federal Aviation Regulations of the Federal Aviation Agency, unless a permit allowing such construction or growth is issued by the division, provided, however, that such permit shall not be required if the Federal Aviation Agency has determined that such construction or growth does not constitute a hazard to air navigation or would not create an unsafe condition for air navigation; and provided further, however, that this section shall not apply to a pole, pole line, distribution or transmission tower or tower line, or substation of a public utility. The foregoing exceptions to this section shall continue, however, to be subject to the provisions of Section 21645.

SEC. 2. Section 21644 is added to said code, to read:

21644. The division may refuse issuance of a permit under Section 21643 if it determines, after notice and hearing held pursuant to this part, that the construction of the structure or growth of the natural growth would constitute a hazard to air navigation or create an unsafe condition for air navigation.

Any person aggrieved by the action of the division pursuant to this section may have such action reviewed by the courts in the manner provided by law.

CHAPTER 1540

An act to add Section 8523 to, and to add Article 7 (commencing with Section 12070) to Chapter 1, Part 2, Division 3, Title 2 of, the Government Code, relating to executive reorganization.

[Approved by Governor August 30, 1967 Filed with Secretary of State August 30, 1967]

The people of the State of California do enact as follows:

SECTION 1. Section 8523 is added to the Government Code, to read:

8523. The Governor shall submit to the commission for study and recommendation any reorganization plan which he intends to submit to the Legislature pursuant to authority vested in the Governor by the Legislature under Section 6 of Article V of the Constitution. The commission shall make its report to the Governor and the Legislature within 30 days of the date on which the Governor submits any such plan to the Legislature. The commission may, on its own initiative, undertake a study of any reorganization proposal submitted to the Legislature and make reports to the Governor and the Legislature as it deems necessary.

SEC. 2. Article 7 (commencing with Section 12070) is added to Chapter 1, Part 2, Division 3, Title 2 of the Government Code, to read:

Article 7. Executive Reorganization

12070. As used in this article:

(a) "Agency" means any statewide office, nonelective officer, department, division, bureau, board, commission or agency in the executive branch of the state government, except that it shall not apply to any agency whose primary function is service to the Legislature or judicial branches of state government or to any agency that is administered by an elective officer. "Agency that is administered by an elective officer" includes the State Board of Equalization but not a board or commission on which an elective officer serves in an ex officio capacity.

(b) "Reorganization" means:

(1) The transfer of the whole or any part of any agency, or of the whole or any part of the functions thereof, to the jurisdiction and control of any other agency; or

(2) The abolition of all or any part of the functions of any agency; or

(3) The consolidation or coordination of the whole or any part of any agency, or of the whole or any part of the functions thereof, with the whole or any part of any other agency or the functions thereof; or

(4) The consolidation or coordination of any part of any agency or the functions thereof with any other part of the same agency or the functions thereof; or

(5) The authorization of any nonelective officer to delegate any of his functions; or

(6) The abolition of the whole or any part of any agency which agency or part does not have, or upon the taking effect of a reorganization plan will not have, any functions.

(7) The establishment of a new agency to perform the whole or any part of the functions of an existing agency or agencies.

12071. The Governor, from time to time, shall examine the organization of all agencies and shall determine what changes therein are necessary to accomplish one or more of the following purposes:

(a) To promote the better execution of the laws, the more effective management of the executive and administrative branch of the state government and of its agencies and functions and the expeditious administration of the public business;

(b) To reduce expenditures and promote economy to the fullest extent practicable consistent with the efficient operation of the state government;

(c) To increase the efficiency of the operation of the state government to the fullest extent practicable;

(d) To group, consolidate and coordinate agencies and functions thereof as nearly as possible according to major purposes;

(e) To reduce the number of agencies by consolidating those having similar functions under a single head and to abolish such agencies or functions thereof as may not be necessary for the efficient operation of the state government;

(f) To eliminate overlapping and duplication of effort.

The Legislature declares that the public interest requires the carrying out of the purposes set forth in this section, and that such purposes may be accomplished more speedily and effectively under this article than by the enactment of specific legislation.

12072. Whenever the Governor finds that reorganization is in the public interest, he shall prepare one or more reorganization plans and transmit each, bearing an identifying number, to the Legislature, with a declaration that, with respect to each reorganization included in the plan, he has so found. The delivery to both houses shall be within the first 60 calendar days of a regular session of the Legislature. The Governor, in his message transmitting a reorganization plan, shall explain the advantages which it is probable will be brought about by the taking effect of the reorganization included in the plan, and he shall specify with respect to each abolition of a function included in the plan the statutory authority for the exercise of the function.

12073. Each reorganization plan transmitted by the Governor under this article:

(a) May change the name of any agency affected by a reorganization and the title of its head, and shall designate the name of any agency resulting from a reorganization and the title of its head;

(b) May include provisions, in accordance with Article XXIV of the Constitution, for the appointment of the head and one or more other officers of any agency, including an agency resulting from a consolidation or other type of reorganization, if the Governor finds, and in his message transmitting the plan declares, that by reason of a reorganization made by the plan such provisions are in the public interest. The head so provided for may be an individual, or may be a commission or board with two or more members, but in any case the appointment of such agency head shall be subject to confirmation by the Senate. The term of office of any appointee, if any is provided, shall be fixed at not more than four years. The Legislature shall fix the compensation of all such department heads and such officers as are not subject to the provisions of Article 24 of the California Constitution.

(c) Shall make provision for the transfer of employees serving in the state civil service, other than temporary employees, who are engaged in the performance of a function transferred to another agency, or engaged in the administration of a law, the administration of which is transferred to such agency, by the reorganization plan. The status, positions, and rights of such persons shall not be affected by their transfer and shall continue to be retained by them pursuant to the State Civil Service Act, except as to positions the duties of which are vested in a position exempt from civil service.

(d) Shall make provision for the transfer or other disposition of the personnel records and property, affected by any reorganizations;

(e) Shall make provision for the transfer of such unexpended balances of appropriations and of other funds available for use in connection with any function or agency affected by a reorganization, as he deems necessary by reason of the reorganization, for use in connection with the functions affected by the reorganization, or for the use of the agency which has such functions after the reorganization plan is effective. Unexpended balances so transferred shall be used only for the purpose for which the appropriation was originally made;

(f) Shall make provision for terminating the affairs of any agency abolished;

(g) Shall enumerate all acts of the Legislature which will be suspended if the reorganization plan becomes effective.

12074. No reorganization plan shall provide for, and no reorganization under this article shall have the effect of:

(a) Continuing any agency beyond the period authorized by law for its existence, or beyond the time when it would have terminated if the reorganization had not been made;

(b) Continuing any function beyond the period authorized by law for its exercise, or beyond the time when it would have terminated if the reorganization had not been made;

(c) Authorizing any agency to exercise any function which is not expressly authorized by law to be exercised by an agency in the executive branch at the time the plan is transmitted to the Legislature;

(d) Increasing the term of any office beyond that provided by law for the office; or

(e) Abolishing any agency created by the California Constitution, or abolishing or transferring to the jurisdiction and control of any other agency any function conferred by the California Constitution on an agency created by that Constitution.

12075. Any reorganization plan transmitted to the Legislature pursuant to this article shall become effective on the first day after final adjournment of the regular session unless during such session either house of the Legislature determines that further study of such plan is needed and assigns such plan for study to a committee.

12076. The board may appoint such advisory groups and committees as it requires to effectuate the purpose of this division.

CHAPTER 3. POWERS AND DUTIES

39051. The board shall after holding public hearings:

(a) Divide the state into basins to fulfill the purposes of this division not later than January 1, 1969.

(b) Adopt standards of ambient air quality for each basin in consideration of the public health, safety and welfare, including but not limited to health, illness, irritation to the senses, aesthetic value, interference with visibility, and effects on the economy. These standards may vary from one basin to another. Standards relating to health effects shall be based upon the recommendations of the State Department of Public Health.

(c) Adopt standards for the emissions from motor vehicles.

(d) Adopt rules and regulations in accordance with the provisions of the Administrative Procedure Act (commencing with Section 11370 of the Government Code) necessary for the proper execution of the powers and duties granted to, and imposed upon, the board by this division.

(e) Adopt emission standards of all other air pollution sources for application for each basin as found necessary as provided in Section 39054.

39052. The board shall:

(a) Conduct studies and evaluate the effects of air pollution upon human, plant, and animal life and the factors responsible for air pollution. The board may call upon the Department

of Public Health, Department of Agriculture, the University of California, and such other state agencies it may deem necessary.

(b) Encourage a cooperative state effort in combating air pollution.

(c) Inventory sources of air pollution within the basins of the state and determine the kinds and quantity of air pollutants. The board shall use, to the fullest extent, the data of local agencies in fulfilling this purpose.

(d) Monitor air pollutants in cooperation with other agencies to fulfill the purpose of this division.

(e) Coordinate and collect research data on air pollution.

(f) Review rules and regulations of local or regional authorities filed with it pursuant to Sections 39314 and 39461 to assure that reasonable provision is made to control emissions from nonvehicular sources and to achieve the air quality standards established by the board.

39053. The board may provide assistance to local and regional agencies in effectuating all the provisions of this division.

39054. If the board finds after investigation and testing that its ambient air quality standards are not being complied with within a basin or that any local or regional authority has not taken reasonable action to control emissions from nonvehicular sources, it may request a report from the such local or regional authority as to the action taken to control the sources responsible. If the board's investigation and testing reveals that its standards are not being complied with, or the local or regional standards are not being complied with or are inadequate, and that the report of the local or regional authority is unsatisfactory, the board may hold public hearings. If the board after holding public hearings, is still unsatisfied it may issue a statement of findings, and may direct the local or regional authority, to take further reasonable action. If any local or regional authority does not comply with the directive of the board within 30 days after the date of the directive, the board shall enforce the standards and the rules and regulations adopted by the board pursuant to this part within the area under the jurisdiction of such local or regional authority until such time as the directive is withdrawn by the board or the local or regional authority complies with the directive. The board may take any other appropriate legal action to carry out its responsibilities in such area. The board shall also have the authority, if such area is within any air pollution control district which is functioning and exercising its powers, to take any action which the district may take. If such area is not within an air pollution control district which is functioning and exercising its powers, the board shall also have the authority to take any action which Chapter 2 (commencing with Section 24198) of Division 20 authorizes a district which is functioning and exercising its powers under that chapter to take. Every person who violates any standard, rule or regula-

tion adopted by the board pursuant to this part in any area in which such standards, rules, and regulations are being enforced by the board is guilty of a misdemeanor. Every day during any portion of which such violation occurs constitutes a separate offense.

This sections does not authorize the board to enforce in any area under the jurisdiction of any local or regional authority its standards, rules, or regulations relating to emissions from motor vehicles, with respect to motor vehicles registered to owners residing in any area to which the provisions of subdivisions (c) and (d) of Section 39090 are made inapplicable by subdivisions (k) or (*l*) of that section.

39055. The board shall be empowered to hold hearings for the purpose of fulfilling the provisions of this division.

39056. Nothing shall prevent individual counties within a basin from establishing their own county boards while the remaining counties in the same basin establish a regional board.

39057. Notwithstanding the provisions of this division, any local or regional authority may establish additional, more strict standards than those set forth by the state board for all sources of air pollution other than motor vehicles

39058. The standards, rules, and regulations adopted by a local or regional authority shall be filed with the state board. Such standards, rules, and regulations may be more restrictive than those adopted by the board.

39059. No county, except a county which on the operative date of this section is within an air pollution control district which is functioning and exercising its powers, shall be required to be represented on a regional board, or to have its own board, unless and until the board of supervisors, as authorized by Section 24205, adopt a resolution declaring that there is need for an air pollution control district to function or, as authorized by Part 2 (commencing with Section 39300) of this division, a resolution is adopted by the board of supervisors of the county and by the board of supervisors of one or more other counties declaring that there is a need for a regional district to function, in a common region including all or any portion of such counties and certified copies of the resolution are filed with the State Air Resources Board as provided in Section 39354.

39060. The board is designated as the state air pollution control agency for the purpose of cooperating with the federal government.

39061. The board shall administer any statewide program of financial assistance for air pollution control which may be delegated to it by law and may accept funds from the United States or other source to that end. The board may conduct such a program independently, or by contract, or in cooperation with any federal or state agency, including any political subdivision of the state, or any person or public or private organization.

39062. The board shall submit a report to the Governor and the Legislature not later than 10 calendar days following the commencement of each general session of the Legislature consisting of a summary of the board's activities during the previous year and the board's recommendations concerning such legislation and other action as is necessary for the implementation, financing, and enforcement of this division.

39063. All facilities, including but not limited to funds, records, equipment, and personnel of the State Vehicular Pollution Laboratory of the State Department of Public Health in Los Angeles over which the department has control are hereby transferred to the State Air Resources Board.

39064. The Motor Vehicle Pollution Control Board is abolished. All facilities, including but not limited to funds, records, equipment, and personnel of the Motor Vehicle Pollution Control Board are hereby transferred to the State Air Resources Board.

39065. All present standards and rules and regulations for the purposes of air pollution control established by the State Department of Public Health and the Motor Vehicle Pollution Control Board shall remain in effect until the State Air Resources Board incorporates them into its rules and regulations or adopts rules and regulations.

39066. This division shall not be deemed to affect any rule or regulation of any county or regional district which is in effect on the effective date of this division until the State Air Resources Board has reviewed the rules and regulations of the district.

CHAPTER 4. MOTOR VEHICLE POLLUTION CONTROL

Article 1. Application

39080. The Legislature finds and declares:

(a) That the emission of pollutants from motor vehicles is a major contributor to air pollution in many portions of the state.

(b) That the control and elimination of such pollutants is of prime importance for the protection and preservation of the public health and well-being, and for the prevention of irritation to the senses, interference with visibility, and damage to vegetation and property.

(c) That the state has a responsibility to establish uniform procedures for compliance with standards which control or eliminate such pollutants.

39081. (a) As used in this chapter the following terms shall be construed as defined in the Vehicle Code:

(1) Commercial vehicle
(2) Implement of husbandry
(3) Motor vehicle
(4) Motor-driven cycle
(5) Used vehicle
(6) Passenger vehicle

(b) As used in this chapter, "motor vehicle pollution control device" means equipment designed for installation on a motor vehicle for the purpose of reducing the pollutants emitted from the vehicle, or a system or engine modification on a motor vehicle which causes a reduction of pollutants emitted from the vehicle.

(c) As used in this chapter, "certified device" means a motor vehicle pollution control device for the control of emissions of pollutants from a vehicle, including, but not limited to, the exhaust system, the crankcase, the carburetor, and the fuel tank, for which standards have been set by the board, and for which a certificate of approval has been issued by the board. Whenever under this chapter or any other law a motor vehicle is required to be equipped with a certified device, such requirement refers to the certified device for the control of specified pollutants from the particular source involved.

(d) Wherever the title "Motor Vehicle Pollution Control Board" is used in the law, it shall be deemed to mean, and be applicable to, the State Air Resources Board.

39082. The provisions of this chapter shall not apply to any motor vehicle manufactured in the year 1938 or prior thereto, if such motor vehicle is operated or moved over the highway solely for the purpose of taking it to a place for historical exhibition or other similar purpose.

39083. The board shall have the powers and authority necessary to carry out the duties imposed on it by this chapter, including, but not limited to, the following:

(a) To adopt rules and regulations in accordance with the provisions of the Administrative Procedure Act (commencing with Section 11370 of the Government Code), necessary for proper execution of the powers and duties granted to, and imposed upon the board by this chapter.

(b) To employ such technical and other personnel as may be necessary for the performance of its powers and duties.

(c) To determine and publish the criteria for approval of motor vehicle pollution control devices. In determining the criteria the board shall take into consideration the cost of the device and its installation, its durability, the ease and facility of determining whether the device, when installed on a motor vehicle, is properly functioning, and any other factors which, in the opinion of the board, render such a device suitable or unsuitable for the control of motor vehicle air pollution or for the health, safety, and welfare of the public.

(d) To issue certificates of approval for any motor vehicle pollution control device where, after being tested by the board or tested and recommended by a laboratory designated by the board as an authorized vehicle pollution control testing laboratory, the board finds that the device operates within the standards set by the board and meets the criteria adopted under subdivision (c) of this section; provided that no certificate of approval shall be issued for any device required by subdivision (d) of Section 39090 of this code if:

(1) The cost of such device, including installation, is more than sixty-five dollars ($65);

(2) The annual maintenance cost of the device, including any adjustment necessary for its proper operation in order to meet the standards set pursuant to Section 426.5, is likely to exceed fifteen dollars ($15) a year; or

(3) The device does not equal or exceed the performance criteria established by the board for devices for new motor vehicles or, in the alternative, have an expected useful life of 50,000 miles of operation.

(e) To exempt from Article 2 (commencing with Section 39090) of this chapter designated classifications of motor vehicles for which certified devices are not available, and motor vehicles whose emissions are found by appropriate tests to meet state standards without additional equipment, and motor-driven cycles, implements of husbandry, and vehicles which qualify for special license plates under Section 5004 of the Vehicle Code.

(f) To revoke, suspend, or restrict a certificate of approval previously issued or an exemption previously granted, upon a determination by the board that the device or motor vehicle no longer operates within the standards set by the board or no longer meets the criteria adopted under subdivision (c) of this section or no longer should be exempted. Provided that once any motor vehicle is equipped with a certified device it shall not thereafter be deemed to be in violation of this chapter or Section 27156 of the Vehicle Code because a certificate of approval for such device is subsequently revoked, suspended, or restricted, and replacement parts for such device may continue to be supplied and used for such vehicle, unless such revocation, suspension or restriction of a certificate of approval is based upon a finding that the certified device has been found to be unsafe in actual use or is otherwise mechanically defective, in which event such motor vehicle must be brought into compliance with this chapter within 30 days after such finding.

(g) Proceedings under this chapter with respect to the denial of applications for the issuance of certificates of approval or the granting of exemptions, or for the revocation, suspension, or restriction of certificates of approval previously issued, or exemptions previously granted, by the board shall be conducted in accordance with the provisions of Chapter 5 (com-

mencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and the board shall have all the powers granted therein.

39084. The board may issue permits for the testing of experimental motor pollution control devices installed in motor vehicles.

39085. Any manufacturer of a device required by subdivision (d) of Section 39090 of this code shall, as a condition to certification of such device by the board, agree that so long as only one such device is certified by the board such manufacturer shall either: (1) agree to enter into such cross-licensing or other agreements as the board determines are necessary to insure adequate competition among manufacturers of such devices to protect the public interest; or (2) agree as a condition to such a certification that if only one such device from one manufacturer is made available for sale to the public, the board shall, taking into consideration the cost of manufacturing the device and the manufacturer's suggested retail price, and in order to protect the public interest, determine the fair and reasonable retail price of such device and may require, as a condition to continued certification of such device, that the retail price of such device, including installation, not exceed such price as determined by the board. In either event the retail price so determined by the board for a device required by subdivision (d) of Section 39090 may be less than, but shall not be more than, sixty-five dollars ($65) per vehicle.

39086. The board shall adopt regulations specifying the manner in which a motor vehicle pollution control device shall be submitted for testing and certification.

39087. Whenever the board issues certificates of approval for two or more devices for the control of emissions of pollutants from a particular source of emissions from motor vehicles for which standards have been set by the board, it shall so notify the Department of Motor Vehicles.

Article 2. Certification, Sale, and Installation of Motor Vehicle Pollution Control Devices

39090. (a) Every 1966 or later year model motor vehicle subject to registration in this state shall be equipped with a certified device or devices to control emission of pollutants from the crankcase and exhaust.

(b) On and after December 1, 1965, every motor vehicle of 1963 or later year model subject to registration in this state shall be equipped with a certified device to control the emission of pollutants from the crankcase.

(c) Every motor vehicle of 1955 through 1962 year model subject to registration in this state upon transfer of ownership and registration to an owner whose residence is in a county or portion of a county within an air pollution control district

which may function and exercise its powers shall be equipped with a certified device to control the emission of pollutants from the crankcase.

(d) Every motor vehicle of 1955 through 1965 year model subject to registration in this state upon transfer of ownership and registration to an owner whose residence is in a county or portion of a county within an air pollution control district which may function and exercise its powers, shall be equipped with a certified device to control the emission of pollutants from the exhaust.

(e) The provisions of subdivisions (a), (b), (c), and (d) of this section shall not be applicable to any of the following:

(1) Any motor vehicle or class of motor vehicles exempted by the board.

(2) Any motor-driven cycle, implement of husbandry or vehicle which qualifies for special plates under Section 5004 of the Vehicle Code.

(f) The provisions of subdivisions (c) and (d) shall not be applicable in districts formed between January 1, 1964 and July 23, 1965.

(g) On and after December 1, 1967, every 1968 or later year model passenger vehicle, except motorcycles, subject to registration and first sold and registered in this state shall be equipped with a certified device or devices to control emission of pollutants from the crankcase and exhaust. Notwithstanding any other provision of this section or Section 39083, the board may only grant an exemption for not to exceed 1 percent of a manufacturer's passenger vehicle sales in California in the preceding model year.

(h) On and after December 1, 1966, every 1967 or later year model commercial motor vehicle under 6,001 pounds manufacturer's maximum gross vehicle weight rating, subject to registration and first sold and registered in this state shall be equipped with a certified device or devices to control emission of pollutants from the crankcase and exhaust.

(i) On and after December 1, 1968, every 1969 or later year model truck, truck tractor, or bus, except those which are diesel-powered, subject to registration and first sold and registered in this state shall be equipped with a certified device or devices to control emission of pollutants from the crankcase and exhaust. Notwithstanding any other provision of this section or Section 39083, the board may only grant an exemption for not to exceed 1 percent of a manufacturer's truck, truck tractor and bus sales in California in the preceding model year.

(j) Motor vehicles found by the board to meet established state standards and board criteria without additional equipment are exempt from the provisions of this section.

(k) The provisions of subdivisions (c) and (d) of this section shall not be applicable to motor vehicles registered to an owner whose residence is in any county in which an air

pollution control district may function and exercise its powers if (1) prior to the effective date of this section, the board of supervisors of the county has found that the equipment of motor vehicles with devices to control the emission of pollutants is unnecessary for the preservation of air quality in that county, and (2) no air pollution control district created pursuant to Chapter 2 (commencing with Section 24198) of Division 20 has ever been authorized to function and exercise its powers in any county adjacent to such county; nor shall such provisions be applicable to motor vehicles registered to an owner whose residence is in any county adjacent to such a county, which adjacent county is included within the boundaries of an air pollution control district created by special law to include the area of two or more counties, and in which county such air pollution control district created by special law may transact business and exercise its powers.

(*l*) The provisions of subdivisions (c) and (d) of this section shall not be applicable to motor vehicles registered to an owner whose residence is in an area, designated pursuant to this subdivision, of any county having an area in excess of 7,000 square miles in which an air pollution control district consisting of a single county may function and exercise its powers and within 60 days after the effective date of this section the board of supervisors of such county has classified the county into two areas because of substantial geographic and climatic differences between the two areas, and within 60 days after the effective date of this section the board of supervisors of the county has found that within one of such areas, designated by the board, the equipment of motor vehicles with devices to control the emission of pollutants is unnecessary for the preservation of air quality within that area.

39091. No new motor vehicle required pursuant to this chapter to be equipped with a certified device to control the emissions of pollutants from the crankcase or exhaust shall be sold in this state unless:

The manufacturer thereof has filed a certificate with the board within the preceding 12 months stating that new motor vehicles of that make, model, and year manufactured pursuant to dealers' orders for initial sale and registration in this state, will be equipped at the factory with certified devices as required by this chapter.

39092. No person shall sell, display, advertise, or represent as a certified device any device which, in fact, is not a certified device. No person shall install or sell for installation upon any motor vehicle any motor vehicle pollution control device which has not been certified by the board.

39093. Any violation of this chapter is a misdemeanor.

Article 3. Authorized Motor Vehicle Pollution Control Testing Laboratories

39097. The board may designate such laboratories as it finds are qualified and equipped to analyze and determine, on the basis of the standards established by the board, devices which are so designed and equipped to meet the standards set by the board and the criteria established by the board.

39098. All devices tested for purposes of certification shall be tested by a procedure which includes tests of the device to measure its ability to control the emission of pollutants while a vehicle is operating at full performance.

PART 2. REGIONAL AIR POLLUTION CONTROL

CHAPTER 1. GENERAL PROVISIONS

39300. In this part, the terms and definitions contained in Article 1 (commencing with Section 39000), Chapter 1, Part 1, of this division shall apply.

39301. Within each basin established by the board, if the board of supervisors, or respective boards of supervisors, determine there is a need for such a district, or such districts to function, there may be established a regional district for the basin, regional district for a portion of the basin and a county or several county districts, or county districts. No county except a county which on the operative date of this section is within an air pollution control district which is functioning and exercising its powers, shall be required to be represented on a regional board, or have its own board, unless and until the board of supervisors, as authorized by Section 24205 adopt a resolution declaring that there is a need for an air pollution control district to function, or, as authorized by the part, a resolution is adopted by the board of supervisors of the county and by the board of supervisors of one or more other counties declaring there is need for a regional district to function in a common area, including all or any portion of such counties and certified copies of the resolutions are filed with the State Air Resources Board as provided in Section 39354. There shall not be more than one regional air pollution control district in any basin.

39302. The provisions of the Knox-Nisbet Act, Chapter 6.6 (commencing with Section 54773), Part 1, Division 5 of, and the District Reorganization Act of 1965, Division 1 (commencing with Section 56000), Title 6 of, the Government Code shall not be applicable to county districts or regional districts.

CHAPTER 2. DISTRICT AIR POLLUTION CONTROL BOARDS

39310. The board of supervisors of a county in which a district is not functioning and exercising the powers on the effective date of this part may, pursuant to Chapter 2 (com-

mencing with Section 24198) of Division 20, cause an air pollution control district to commence to function and exercise its powers within the county to carry out the provisions of this division.

A county board of supervisors may establish jointly with other counties in the same basin a regional air pollution control district covering such portion of the county lying within the basin pursuant to this part for purposes of carrying out the provisions of this division.

39311. A county lying within more than one basin may establish jointly with other counties separate regional air pollution control districts and may establish a county air pollution control district for any portion of the county not within a regional district.

39312. If any district organized and functioning pursuant to Chapter 2 (commencing with Section 24198) of Division 20 is entirely within any area in which a regional district is created, upon the establishment of the regional district, such district is dissolved and the regional district succeeds to all of its property and obligations.

39313. Every county district board shall adopt rules and regulations to control the sources of air pollution within the district and shall comply with all the standards, rules and regulations set forth by the state board.

39314. (a) The county district board of any county air pollution control district in existence on the date on which the State Air Resources Board divides the state into basins pursuant to Section 39051, which, on or before such date, has adopted rules and regulations, shall file its rules and regulations with the state board within 30 days after such date.

(b) The county district board of any county air pollution control district in existence on such date which has not, on or before such date, adopted rules and regulations, shall file its rules and regulations with the state board within six months after such date.

(c) The county district board of any county air pollution control district created after such date shall file its rules and regulations with the state board within 12 months after creation of the district.

Chapter 3. Regional Air Pollution Control Districts

Article 1. Creation of Regional Districts

39350. The boards of supervisors of two or more counties within a given basin may upon their own motion, acting separately or shall whenever a petition signed by not less than 10 percent of the qualified electors of each county is presented to the supervisors of that county, hold a public hearing to determine whether or not to become part of a regional air pollution control district.

39351. Prior to the public hearing, the board of supervisors shall give notice of the time and place of hearing by publication pursuant to Section 6061 of the Government Code not less than 15 days nor more than 45 days before such hearing.

39352. Upon conclusion of the public hearing the board of supervisors may adopt a resolution declaring that there is need for the regional district to function in such county, or portion thereof, if from the evidence received at such hearing it finds that it is in the best interests of such county that the regional district function therein.

39353. Upon adoption of the resolution the board of supervisors of such county shall cause a certified copy of it to be filed with the State Air Resources Board.

39354. From and after the date of the filing of certified copies of resolutions from two or more boards desiring a common regional district, the regional district shall begin to function and may exercise its powers within any area not within any other district.

39355. There shall be a separate and distinct city selection committee for each county in which the regional district may transact business and exercise its powers. The membership of such committees shall consist of the mayor of each city within such regional district within the county, which is not within a district, or, where there is no mayor, the chairman or the president of the city council.

39356. A majority of the members of each city selection committee shall constitute a quorum.

39357. The city selection committee for each county shall meet within 90 days after the adoption of the resolution by the board of supervisors to adopt the regional form. The committee of each county shall thereafter meet on the second Monday in May of each even-numbered year, at 10 a.m. in the chambers of the board of supervisors of such county, for the purpose of making succeeding appointments to the regional board as prescribed in Section 39361. At least two weeks prior to the date of each meeting the clerk of the board of supervisors of each county shall give notice of such meeting to each member of the city selection committee of such county. The meeting of the city selection committee of each county shall be conducted in the presence of the clerk of the board of supervisors of such county who shall act as the recording officer for the meeting. It shall be the duty of the clerk of the board of supervisors to notify in writing the board of supervisors of such county and also the clerk of the regional board of the appointment made by the city selection committee within 10 days after such appointment has been made.

39358. Each committee shall appoint a chairman from among its members and such other officers as may be necessary.

39359. Members of the committees shall serve without compensation, but may be allowed actual expenses incurred in the discharge of their duties.

39360. The board of supervisors of a county in which the regional district may transact business and exercise its powers shall appoint one of its members to be a member of the regional board.

The selection committee of each county shall appoint one member of the regional board. Such member shall be selected from among the mayors and city councilmen of the cities within such county.

Members of a newly created regional board selected by a city selection committee and a board of supervisors shall serve terms which shall expire on the first day of June of the third year following the year in which they are appointed. Thereafter terms of the regional board members appointed by the board of supervisors shall be for four years and until the appointment and qualification of his successor and each member appointed by the city selection committee shall hold office for two years and until the appointment and qualification of his successor. Any vacancy on the regional board shall be filled by appointment in the same manner as the vacating member was appointed. Any member of the regional board may be removed at any time in the same manner as he was appointed; provided, however, that if four-fifths of the members of the board of supervisors of a county request the removal of a member appointed by the city selection committee of such county, the city selection committee of such county shall meet within 20 days to consider the removal of such member.

39362. Any member of the regional board may be recalled from his office of member of the board of supervisors or of mayor or member of the legislative body of a city pursuant to Division 13 of the Elections Code, in which event his office as member of the regional board shall be vacant.

39363. The regional board is the governing body of the regional district and shall exercise all the powers of the regional district, except as otherwise provided.

39364. A majority of the members of the regional board constitutes a quorum for the transaction of business and may act for the regional board.

39365. Each member of the regional board shall receive the actual and necessary expenses incurred by him in the performance of his duties, plus a compensation of twenty-five dollars ($25) for each day attending the meetings of the board, but such compensation shall not exceed six hundred dollars ($600) in any one year.

39366. The regional board may appoint an executive secretary to perform such duties as may be assigned to him by the board.

39367. The regional board may cooperate and contract with any federal, state, or local governmental agencies, private industries, or civic groups necessary or proper to the accomplishment of the purposes of this chapter.

39368. No supervisor, mayor, or city councilman shall hold office on the regional board for a period of more than three months after ceasing to hold the office of supervisor, mayor, or city councilman, respectively, and his membership on the regional board shall thereafter be considered vacant, except that any mayor who continues to hold office as a city councilman, or city councilman who continues to hold office as mayor, shall not be considered to have ceased to hold office under this section.

Article 2. Powers and Duties

39380. The regional district shall have power:

(a) To have perpetual succession.

(b) To sue and be sued in the name of the regional district in all actions and proceedings in all courts and tribunals of competent jurisdiction.

(c) To adopt a seal and alter it at its pleasure.

(d) To take by grant, purchase, gift, devise, or lease, hold, use, enjoy, and to lease or dispose of real or personal property of every kind within or without the regional district necessary to the full exercise of its powers.

39387. The regional board shall provide for the number of personnel to be employed by the control officer and for their duties and the times at which they shall be appointed.

39388. The regional board may contract with any city or county, any state department, or any competent person or

agency for the conducting of competitive examinations to ascertain the fitness of applicants for employment and for the performance of any other service in connection with administration of the regional district.

39389. The regional board may by ordinance adopt a civil service system for any or all employees of the regional district except that the executive secretary and air pollution control officer shall be exempt from such system and shall serve at the pleasure of the regional board. The board may adopt regulations and bylaws for the organization and administration of the regional district and may, in such regulations, provide for amendment and repeal thereof.

39390. In exercising its powers and duties, the regional district shall, whenever feasible, secure necessary technical, administrative and operational services by contract with public agencies to the end that duplication of similar services and facilities is avoided to the extent possible. This section shall not be construed as requiring the regional board to contract for services which the board determines should, in the best interests of the regional district, be provided by the regional district or services which can be provided by the regional district at a lesser cost than by contract.

Article 3. Air Pollution Control Officer

39400. The regional board shall appoint an air pollution control officer.

39401. Subject to the provisions of Article 2 (commencing with Section 39380) of this chapter, the control officer shall appoint his personnel.

39402. The control officer shall observe and enforce:

(a) The provisions of this chapter.

(b) All orders, regulations, and rules prescribed by the regional board.

(c) All variances and standards which the regional hearing board has prescribed.

Article 4. Advisory Council

39410. The regional board may appoint an air pollution control advisory council to advise and consult with the regional board and the control officer in effectuating the purposes of this chapter. The council shall consist of the chairman of the regional board, who shall serve as an ex officio member, and members who preferably are skilled and experienced in the field of air pollution, and a representative of the academic community, health agencies, agriculture, industry, community planning, transportation, registered professional engineers, general contractors, architects, and organized labor.

39411. The council shall select a chairman and vice chairman and such other officers as it deems necessary.

39412. Council members shall serve without compensation but may be allowed actual expenses incurred in the discharge of their duties. The council shall meet as frequently as the board or the council deem necessary.

Article 5. Hearing Board

39420. Within 30 days after the regional district, by resolution, determines it necessary to adopt rules and regulations to control the release of air contaminants, the regional board shall appoint a hearing board, to consist of three members, none of whom is otherwise employed by the district. One member shall have been admitted to practice law in this state. One member shall be registered as a professional engineer in California and experienced in the field of air pollution control.

39421. The regional board shall appoint one member of the hearing board for a term of one year, one for a term of two years, and one for a term of three years. Thereafter the terms of members of the hearing board shall be three years.

Article 6. Enforcement

39430. A person shall not discharge from any source whatsoever such quantities of air contaminants, smoke, or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons or to the public or which endanger the comfort, repose, health or safety of any such persons or the public or which cause or have a natural tendency to cause injury or damage to business or property.

39431. This article does not apply to smoke from fire set by or permitted by any public officer if such fire is set or permission given in the performance of the official duty of such officer, for the purpose of weed abatement, the prevention of a fire hazard, or the instruction of public employees in the methods of fighting fire, which is, in the opinion of such officer, necessary.

39432. This article does not apply to:

(a) Smoke from fires set by, or permitted by, the county agricultural commissioner of any county within the regional district for agricultural operations in the growing of crops or raising of fowl or animals, if such fire is set or permission given in the performance of the official duty of such county agricultural commissioner, except that such fires shall not be set or permission given in violation of any general order, rule, or regulation adopted by the regional board pursuant to Section 39463.

(b) Smoke from fires set by, or permitted by, the State Forester or his agent for the purpose of watershed, range, or pasture improvement if such fire is set or permission given in the performance of the official duty of the State Forester or his agent, except that such fires shall not be set or per-

mission given in violation of any general order, rule, or regulation adopted by the regional board pursuant to Section 39463.

39433. The Legislature does not, by the provisions of this chapter, intend to occupy the field.

The provisions of this chapter do not prohibit the enactment or enforcement by any county or city of any local ordinance more restrictive than, or identical to, the provisions of this article and more restrictive than, or identical to, the rules and regulations adopted pursuant to this chapter, which local ordinance prohibits, regulates or controls air pollution.

Counties and cities may, by local ordinance, provide for the local enforcement of this article and of regulations adopted pursuant to this chapter.

39434. The provisions of this chapter do not supersede any such local county or city ordinance.

39435. If it should be held that provisions of this chapter supersede the provisions of any local county or city ordinance, such suspension shall not bar the prosecution or punishment of any violation of such ordinance which violation was committed when such ordinance was in full force and effect.

39436. Nothing in this article limits in any way the power of the regional board to make needful orders, rules, and regulations pursuant to other provisions of this chapter. Nothing in this article permits any action contrary to any such order, rule, or regulation.

39437. Any violation of any provisions of this article or of any order, rule, or regulation of the regional board may be enjoined in a civil action brought in the name of the people of the State of California.

39438. Every person who violates any provision of this article or any order, rule, or regulation of the regional board is guilty of a misdemeanor.

Every day during any portion of which such violation occurs constitutes a separate offense.

39439. The provisions of Section 39430 relating to odors do not apply to odors emanating from agricultural operations in the growing of crops or raising of fowls or animals.

39440. Except as provided in Sections 39431 and 39432, orders, rules, and regulations of the regional board shall apply to every state agency, governmental subdivision, district, public and quasi-public corporation, public agency, and public service corporation, and every city, county, city and county, and municipal corporation.

Article 7. Rules and Regulations

39460. The regional board shall adopt and may, from time to time, amend rules and regulations, including, but not limited to, rules and regulations establishing standards to implement this chapter. Such rules and regulations shall be based on sur-

veys and studies made by the regional district and such other information as may be available to the regional district. The rules and regulations shall be adopted only after the regional board has considered the matter at a public hearing at which all interested persons are afforded the opportunity to appear and urge or oppose adoption of the resolution. The regional board shall give notice of its intention to adopt or amend rules and regulations and give notice of the hearing by publication pursuant to Section 6061 of the Government Code in each of the counties within the regional district not less than 10 days prior to the hearing. The notice shall contain the time and place of the hearing and such other information as may be necessary to reasonably apprise the people within the regional district of the nature and purpose of the meeting. The hearing may be adjourned from time to time in order to permit presentation of all pertinent testimony.

39461. (a) The regional board of any regional district in existence on the date on which the State Air Resources Board divides the state into basins pursuant to Section 39051, which, on or before such dates, has adopted rules and regulations, shall file its rules and regulations with the state board within 30 days after such dates.

(b) The regional board of any regional district in existence on such date which has not, on or before such date, adopted rules and regulations, shall file its rules and regulations with the state board within six months after such date.

(c) The regional board of any regional district created after such date shall file its rules and regulations with the state board within 12 months after creation of the district.

39462. A city, county or city and county may adopt orders, rules, or regulations which may be more restrictive than those adopted by a regional board.

39463. Whenever the regional board finds that the air in the regional district is so polluted as to cause discomfort or property damage at intervals to a substantial number of inhabitants of the region, the regional board may make, in accordance with the procedures prescribed in this article, and may enforce such general orders, rules, and regulations as will reduce the amount of air contaminants released within the regional district.

39464. The control officer at any time may require from any person subject to regulations of the regional board, such information or analyses as will disclose the nature, extent, quantity, or degree of air contaminants which are or may be discharged by such source, and may require that such disclosures be certified by a professional engineer registered in the state. In addition to such report, the control officer may designate and employ a registered professional engineer of his choice to make an independent study and report as to the nature, extent, quantity, and degree of any air contaminants which are or may be discharged from the source. An engineer

so designated is authorized to inspect any article, machine, equipment or other contrivance necessary to make the inspection and report.

39465. If any person within a reasonable time willfully fails or refuses to furnish to the control officer information or analyses requested by such control officer, or if the control officer finds that any order, rule, or regulation of the regional board is being violated after a reasonable time has been allowed for compliance, the control officer shall notify the hearing board of such facts and request a public hearing on the matter.

39466. Within 30 days after the control officer has requested a public hearing, the hearing board shall hold such a hearing and give notice of the time and place of such hearing to the person cited, to the control officer and to such other persons as the hearing board deems should be notified, not less than 10 days before the date of the public hearing.

39467. After a public hearing, the hearing board may find that no violation exists, or may take any of the actions provided in Article 8 and Article 9 of this chapter.

Article 8. Variances

39470. The provisions of this chapter do not prohibit the discharge of air contaminants to a greater extent or for a longer time, or both, than permitted by Article 6 or by rules, regulations, or orders of the regional board, if not of a greater extent or longer time than the hearing board or a court after a hearing before the hearing board finds necessary pursuant to the provisions of this article.

39471. The hearing board on its own motion or at the request of any person may hold a hearing to determine under what conditions and to what extent a variance from the requirements established by Article 6 or by rules, regulations, or orders of the regional board is necessary and will be permitted.

39472. The regional board may provide, by regulation, a schedule of fees which will yield a sum not exceeding the estimated cost of the administration of this article, for the filing of applications for variances or to revoke or modify variances. All applicants shall pay the fees required by such regulations.

39473. All such fees shall be paid to the regional district treasurer to the credit of the regional district.

39474. The hearing board shall serve a notice of the time and place of a hearing to grant a variance upon the control officer and upon the applicant, if any, not less than 10 days prior to such hearing.

39475. If the hearing board finds that because of conditions beyond control compliance with Article 6 or with any rule, regulation, or order of the regional board will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation or activity, in either case without a sufficient corresponding bene-

fit or advantage to the people in the reduction of air contamination, it shall prescribe other and different requirements not more onerous applicable to plants and equipment operated either by named classes of industries or persons, or to the operation of separate persons; provided, however, that no variance may permit or authorize the maintenance of a nuisance.

39476. In determining under what conditions and to what extent a variance from said requirements is necessary and will be permitted, the hearing board shall exercise a wide discretion in weighing the equities involved and the advantages and disadvantages to the residents of the regional district and to any lawful business, occupation or activity involved, resulting from requiring compliance with said requirements or resulting from granting a variance.

39477. The hearing board may revoke or modify by written order, after a public hearing held upon not less than 10 days' notice, any order permitting a variance.

39478. The hearing board shall serve notice of the time and place of a hearing to revoke or modify any order permitting a variance not less than 10 days prior to such hearing upon the control officer, upon all persons who will be subjected to greater restrictions if such order is revoked or modified as proposed and upon all other persons interested or likely to be affected who have filed with the hearing board or control officer a written request for such notification.

39479. The hearing board shall serve a notice of the time and place of a hearing to grant a variance or to revoke or modify an order permitting a variance either by personal service or by first-class mail, postage prepaid. If either the identity or address of any person entitled to notice is unknown, the hearing board shall serve such person by publication of notice in the district pursuant to Section 6061 of the Government Code.

39480. The hearing board in making any order permitting a variance may specify the time during which such order will be effective, in no event to exceed one year, but such variance may be continued from year to year without another hearing on the approval of the control officer.

39481. If any local county or city ordinance has provided regulations similar to those in Article 6 or to any order, regulation, or rule prescribed by the regional board, and has provided for the granting of variances, and pursuant to such local ordinance a variance has been granted prior to notification of the regional district, such variance shall be continued as a variance of the hearing board for the time specified therein or one year, whichever is shorter, or until and unless prior to the expiration of such time the hearing board modifies or revokes such variance as provided in this article.

Article 9. Procedure

39490. This article applies to all hearings which this chapter provides shall be held by the hearing board.

39491. The hearing board shall select from its number a chairman.

39492. The hearing board may hold a hearing in bank or may designate two or one of their number to hold a hearing.

39493. If two or three members of the hearing board conduct a hearing the concurrence of two shall be necessary to a decision.

39494. The hearing board, not less than two being present, may, in its discretion, within 30 days rehear any matter which was decided by a single member.

39495. Whenever the members of the hearing board conducting any hearing deem it necessary to examine any person as a witness at such hearing, the chairman of the hearing board shall issue a subpoena, in proper form, commanding such person to appear before it at a time and place specified to be examined as a witness. The subpoena may require such person to produce all books, papers, and documents in his possession or under his control material to such hearing.

39496. A subpoena to appear before the hearing board shall be served in the same manner as a subpoena in a civil action.

39497. Whenever any person duly subpoenaed to appear and give evidence or to produce any books and papers before the hearing board neglects or refuses to appear, or to produce any books and papers, as required by the subpoena, or refuses to testify or to answer any question which the hearing board decides is proper and pertinent, he shall be deemed in contempt, and the hearing board shall report the fact to the judge of the superior court of the county in which the person resides.

39498. Upon receipt of the report, the judge of the superior court shall issue an attachment directed to the sheriff of the county where the witness was required to appear and testify, commanding the sheriff to attach such person and forthwith bring him before the judge who ordered the attachment issued.

39499. On the return of the attachment and the production of the body of the defendant, the judge has jurisdiction of the matter. The person charged may purge himself of the contempt in the same way, and the same proceeding shall be had, and the same penalties may be imposed, and the same punishment inflicted as in the case of a witness subpoenaed to appear and give evidence on the trial of a civil cause before a superior court.

39500. Every member of the hearing board may administer oaths in every hearing in which he participates, and at any hearing the hearing board may require all or any witnesses to be sworn before testifying.

39501. The hearing board may adopt rules for the conduct of its hearings not inconsistent with this chapter. Such rules

shall so far as practicable conform to the rules for administrative adjudication by state agencies in Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Article 10. Enforcement

39502. Whenever the hearing board finds that any person is in violation of Section 39430, Section 39434, or any order, rule, or regulation of the regional board, and that no variance is justified and that a reasonable time has been allowed for compliance, the hearing board shall make a decision setting forth findings of fact and such conclusions of law as are required in view of the issues submitted. The decision shall contain an order for abatement. The order for abatement shall be framed in the manner of a writ of injunction requiring the respondent to refrain from a particular act. The order may be conditional and require a respondent to refrain from a particular act unless certain conditions are met. The order shall not have the effect of permitting a variance unless all the conditions for a variance, including limitation of time, are met.

39503. The hearing board shall announce its decision in the form of a draft before filing. Copies of the draft shall be mailed to the parties or their attorneys. The hearing board may direct the prevailing party to prepare a form of decision. Any party may file objections to the draft with the hearing board within 10 days after mailing.

39504. After objections, if any, have been considered by the hearing board or a hearing has been held thereon, if the hearing board finds it necessary, the hearing board shall file its decision with its clerk, who shall give notice of such filing to the parties or their attorneys.

39505. The decision shall become effective 30 days after it is filed unless:

(a) A rehearing is granted by the hearing board.

(b) The hearing board orders that it be made effective sooner.

39506. Judicial review may be had by filing a petition for a writ of mandate in accordance with the provisions of the Code of Civil Procedure. Except as otherwise provided in this section, any such petition shall be filed within 30 days after the last day on which reconsideration can be ordered. The right to petition shall not be affected by the failure to seek reconsideration before the hearing board. The complete record of the proceedings, or such parts thereof as are designated by the petitioner, shall be prepared by the hearing board and shall be delivered to the petitioner within 30 days after a request therefor by him, upon payment of the fee specified in Section 69950 of the Government Code, as now or hereinafter amended, for the transcript, the cost of preparation of other

portions of the record, and for certification thereof. The complete record includes the pleadings, all notices and orders issued by the hearing board, any proposed decision by the hearing board, the final decision, a transcript of all proceedings, the exhibits admitted or rejected, the written evidence and any other papers in the case. Where petitioner, within 10 days after the last day on which reconsideration can be ordered, requests the hearing board to prepare all or any part of the record, the time within which a petition may be filed shall be extended until five days after its delivery to him. The hearing board may file with the court the original of any document in the record in lieu of a copy thereof.

39507. In any proceeding pursuant to Section 39506, the court shall receive in evidence any order, rule, or regulation of the board, any transcript of the proceedings before the hearing board, and such further evidence as the court in its discretion deems proper.

39508. A proceeding for mandatory or prohibitory injunction shall be brought by the district in the name of the people of the State of California in the superior court of the county in which the violation occurs to enjoin any person to whom an order for abatement pursuant to Section 39502 has been directed and who violates such order.

39509. Proceedings under Section 39508 shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that it shall not be necessary to show lack of adequate remedy at law or to show irreparable damage or loss. In any such proceeding, it shall be shown that an order for abatement has been made, that it has become final, and that its operation has not been stayed, it shall be sufficient proof to warrant the granting of a preliminary injunction. If in addition it shall be shown that the respondent continues or threatens to continue to violate such order for abatement, it shall be sufficient proof to warrant the immediate granting of a temporary restraining order.

Article 11. Financial Provisions

39520. The regional district may borrow money and incur indebtedness in anticipation of the revenue for the current year in which the indebtedness is incurred or of the ensuing year. Such indebtedness shall not exceed the total amount of the estimate of the tax income for either the current year or the ensuing year.

39521. Before the 15th day of June of each year the regional board shall estimate and determine the amount of money required by the regional district for purposes of the regional district during the ensuing fiscal year and shall apportion this amount to the counties included within the regional district, one-half according to the relative value of the real estate of each county within the regional district as deter-

mined by the regional board and one-half in the proportion that the population of each county within the regional district bears to the total population of the regional district. For the purposes of this section, the regional board shall base its determination of the population of the several counties on the latest official information available to it.

39522. On or before the 15th day of June of each year, the regional board shall inform the board of supervisors of each county of the amount apportioned to the county. Each board of supervisors shall levy an ad valorem tax on the taxable property, but not including intangible personal property, within the county included within the regional district sufficient to secure the amount so apportioned to it and such taxes shall be levied and collected together with, and not separately from, the taxes for county purposes and paid to the treasurer of each of the counties to the credit of the regional district.

39523. Taxes levied by the board of supervisors for the benefit of the regional district shall be a lien upon all property within such county lying within the regional district and shall have the same force and effect as other liens for taxes. Their collection may be enforced in the same manner as liens for county taxes are enforced.

39524. At any time prior to the first receipt by the regional district of revenues from taxation, the counties within the regional district may loan any available money to the region for purposes of organization and operation and such expenditures shall constitute a proper expenditure of county funds. The regional board shall add the sums of money so borrowed from the counties to the first amount apportioned by the board pursuant to Section 39521, and shall repay the counties for all money borrowed from the first revenues received from taxation.

39525. The treasurers of the several counties within the region shall pay into the regional district treasury all funds held by them to the credit of the regional district.

39526. The regional district treasury shall be in the custody of the county treasurer of a county in the regional district designated by the regional board and such treasurer shall be the regional district treasurer.

39527. The regional board shall, in carrying out the provisions of this article, comply as nearly as possible with the provisions of Chapter 1 (commencing with Section 29000) of Division 3 of Title 3 of the Government Code.

Article 12. Withdrawal of County From Regional District

39540. The board of supervisors of a county within a regional district may upon the adoption of a resolution stating such, withdraw from the regional district and establish its own county air pollution control district.

The resolution so adopted shall be communicated to the clerks of the boards of supervisors of all counties comprising the regional district, the regional board, and the Air Resources Board.

39541. The withdrawal of a county shall not affect the functioning of other counties within the regional district, and such withdrawal shall not constitute a dissolution of the regional district.

The regional district shall continue to function in a manner not inconsistent with the provisions of this part.

39542. A regional district may be dissolved in a manner which conforms to Section 24372.

39543. A county shall give at least two months' notice to the regional board of its intention to withdraw from the regional district. A county shall not be withdrawn from a regional district during any fiscal year after the expiration of the first four months of such fiscal year.

Article 13. Claims

39560. All claims for money or damages against the regional district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

Article 14. Bay Area Pollution Control District

39570. The Bay Area Pollution Control District created pursuant to Chapter 2.5 (commencing with Section 24345) of Division 20 and Humboldt County shall be exempt from the provisions of this part.

SEC. 6. There is hereby appropriated from the General Fund the sum of one hundred thousand dollars ($100.000) to the State Air Resources Board for expenditure by the board during the 1967–68 fiscal year in carrying out the provisions of Part 1 (commencing with Section 39000) of Division 26 of the Health and Safety Code as enacted by Section 5 of this act.

SEC. 7. This act shall be known as the Mulford-Carrell Act.

CHAPTER 1546

An act to add Chapter 5 (commencing with Section 13960) to Part 4, Division 3, Title 2 of the Government Code, and to repeal Section 11211 of the Welfare and Institutions Code, relating to victims of crimes.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 13960) is added to Part 4 of Division 3 of Title 2 of the Government Code, to read:

CHAPTER 5. VICTIMS OF CRIME

13960. The Legislature hereby declares that it serves a public purpose, and is of benefit to the state, to indemnify those needy residents of the State of California who are victims of crimes committed in the State of California, and those needy domiciliaries of California who are injured as a consequence of an act committed while temporarily in another state or jurisdiction where such act, if committed in California, would have been a public offense, for the injuries suffered as a result of the commission of the crimes.

13961. A victim of a crime as used in this chapter is any person who sustains injury to himself, or pecuniary loss as a result of physical injury or death of another person on whom he is financially dependent, and which is the consequence of an act considered to be a public offense, as defined by Penal Code Section 15, whether the actor is criminally liable or not.

13962. (a) The victim of a crime of violence, his family, or any persons dependent upon the victim for their support may file a claim with the State Board of Control, provided that the crime was committed in California and the applicant was a resident of California, or provided the claimant is a domiciliary of California who was injured while temporarily in another state or jurisdiction.

(b) The State Board of Control shall provide indemnification claim forms for purposes of this section and shall specify the information to be included in such forms.

(c) The claim must be presented by the claimant to the Board of Control within a period of one year after the date of death or injury and no claim not so presented shall be considered by the Board of Control.

13963. Upon presentation of any such claim, the Board of Control shall fix a time and place for the hearing of the claim, and shall mail notices thereof to interested persons or agencies and to the Attorney General. Prior to the hearing, the Attorney General shall investigate the facts of each claim, including

the claimant's financial condition, filed pursuant to this chapter, and prepare a report thereof. The Attorney General shall at the hearing submit to the board, and the board shall receive the report, together with any evidence which he may have obtained as a result of his investigation. At the hearing, the board shall receive evidence showing

(a) The nature of the crime committed and the circumstances involved;

(b) That as a direct consequence, the victim incurred personal injury;

(c) The extent of such injury;

(d) The need of the claimant;

(e) Such other evidence as the board may require.

If the board determines, on the basis of a preponderance of such evidence, that the state should indemnify the claimant for the injury sustained, it shall approve the claim for payment. The board shall determine that the state should indemnify a person who files a claim pursuant to this chapter if there is need for such indemnification, except that such a claim may be denied if the claimant has not cooperated with the police in the apprehension and conviction of the criminal committing the crime.

The maximum amount for which the board may approve a claim pursuant to this section shall not exceed the amount necessary to indemnify or reimburse the claimant for necessary expenses incurred for hospitalization or medical treatment, loss of wages, loss of support, or other necessary expenses directly related to the injury. If continued hospitalization or medical treatment is necessary, a partial award may be made and the claim subsequently reconsidered for the purpose of recommending an additional award.

In addition the board may award, as attorney's fees, an amount representing the reasonable value of legal services rendered a claimant, but in no event to exceed 10 percent of the amount of the award.

A claim shall be reduced to the extent that the claimant has received indemnification from any other source. If a claim is paid under this chapter the state shall be subrogated to the rights of the claimant to whom such claim was paid against any person causing the damage or injury for which payment was made to the extent of the payment of the claim. The state may recover the amount of the claim paid in a separate action, or may intervene in an action brought by the claimant. In no event shall a claim be approved pursuant to this section in excess of five thousand dollars ($5,000).

13964. Upon conviction of a person of a crime of violence committed in the State of California resulting in the injury or death of another person who was a resident of the State of California at the time the crime was committed, the court shall take into consideration the defendant's economic condition, and unless it finds such action will cause the family of the defendant to be dependent on public welfare, may, in

addition to any other penalty, order the defendant to pay a fine commensurate in amount with the offense committed. The fine shall be deposited in the Indemnity Fund in the State Treasury, which is hereby continued in existence, and the proceeds in such fund shall be available for appropriation by the Legislature to indemnify persons filing claims pursuant to this chapter.

13965. (a) The district attorney of each county shall inform each person in the county who may be eligible to file a claim pursuant to this chapter of such eligibility. The district attorney of each county shall obtain from the board any forms which may be necessary in the preparation and presentation of such claims.

(b) If a victim of a crime does not cooperate with a state or local law enforcement agency in the apprehension and conviction of the criminal committing the crime, the agency shall immediately notify the board of such lack of cooperation.

13966. Claims under this chapter shall be paid from a separate appropriation made to the State Board of Control in the Budget Act and as such claims are approved by the board.

SEC. 2. Section 11211 of the Welfare and Institutions Code is repealed.

SEC. 3. The Board of Control shall not later than March 1, 1968, report to the Legislature its progress under, and recommendations regarding improvement of, the program of indemnifying victim of crimes.

CHAPTER 1547

An act to amend Section 11553 of the Education Code, relating to computation of average daily attendance of mentally retarded minors.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 11553 of the Education Code is amended to read:

11553. The average daily attendance of mentally retarded minors given instruction by a county superintendent of schools shall be computed by dividing the total days of attendance of such pupils during the fiscal year by 175 and the average daily attendance so computed shall be credited to the county school service fund; provided, however, that the average daily attendance of mentally retarded minors coming within the provisions of Section 6903 for the purpose of computation of

transportation allowances under Section 18060, subdivision (b), shall be computed by dividing the total number of days of attendance of such pupils during the fiscal year, including the days of attendance at an authorized summer session, by 175.

CHAPTER 1548

An act to amend Section 10270.9 of, and to add Sections 10270.98 and 11515.5 to, the Insurance Code, relating to provision of disability insurance policies and service contracts.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 10270.9 of the Insurance Code is amended to read:

10270.9. No group disability policy shall be issued or delivered in this state nor, except as otherwise provided in Sections 10270.91 and 10270.98, shall an insurer provide or agree to provide group disability coverage until a copy of the form of the policy is filed with the commissioner and approved by him in accordance with Article 2 of this chapter as meeting in substance the reasonably applicable provisions and requirements of either Articles 3, 4 and 5 of this chapter or Articles 3a, 4a and 5a of this chapter; provided, however, that the insurer may, at its option, substitute for one or more of such provisions of Articles 4a and 5a corresponding provisions of different wording approved by the commissioner which are in each instance not less favorable in any respect to the policyholder, the certificate holder or the beneficiary. On and after January 1, 1957, no group disability policy shall be issued or delivered in this state unless the form thereof has been approved, as required by this section, as meeting in substance the provisions and requirements of Articles 3a, 4a and 5a of this chapter which are reasonably applicable; provided, however, that the insurer may, at its option, substitute for one or more of such provisions of Articles 4a and 5a corresponding provisions of different wording approved by the commissioner which are in each instance not less favorable in any respect to the policyholder, the certificate holder or the beneficiary.

Except as provided by Section 10314, no group disability policy shall be issued or delivered to any person in this state nor shall any endorsement for any such policy be issued which contains any provision contradictory, in whole or in part, of any of the provisions promulgated by the commissioner as being required or optional or alternative provisions

to be incorporated into such policy in accordance with the rules promulgated by him for their use.

SEC. 2. Section 10270.98 is added to the Insurance Code, to read:

10270.98. Group disability policies may provide, among other things, that the benefits payable thereunder are subject to reduction if the individual insured has any other coverage (other than individual policies or contracts) providing hospital, surgical or medical benefits, whether on an indemnity basis or a provision of service basis, resulting in such insured being eligible for more than 100 percent of the covered expenses.

Except as permitted by this section and by Section 10323, 10369.5, 10369.6, or 11515.5, no group or individual disability insurance policy or service contract issued by nonprofit hospital service plans operating under Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 shall limit payment of benefits by reason of the existence of other insurance or service coverage.

The policy provisions authorized by this section shall contain a provision that payments of funds may be made directly between insurers and other providers of benefits. Such policy provisions shall also contain a provision that if benefits are provided in the form of services rather than cash payments the reasonable cash value of each service rendered shall be deemed to be both an allowable expense and a benefit paid. The reasonable cash value of any contractual benefit provided to the insured in the form of service rather than cash payment by or through any hospital service organization or medical service organization or group-practice prepayment plan shall be deemed an expense incurred by the insured for such service, whether or not actually incurred, and the liability of the insurer shall be the same as if the insured had not been entitled to any such service benefit, unless the policy contains a provision authorized by Section 10323, 10369.5 or 10369.6 in the case of an individual disability policy, or by this section, in the case of a group disability policy.

This section shall not be construed to require that benefits payable under group disability policies be subject to reduction by the benefit amounts payable under Chapter 3 (commencing with Section 2800) of Part 2 of Division 1 of the Unemployment Insurance Code.

SEC. 3. Section 11515.5 is added to the Insurance Code, to read:

11515.5. A corporation subject to the provisions of this chapter may in its service contracts use the words or sub-

Such rules and regulations of the commissioner may contain provisions to effect the purposes of this section.

If the Department of Finance approves the preliminary plans, the state's share of the funding thereof for the first fiscal year shall be included in the budget and the Budget Bill submitted to the Legislature at the next ensuing regular session of the Legislature, so that such state funds as may be appropriated therefor by the Legislature shall be available to the junior college district as soon as practicable after the commencement of the next ensuing fiscal year.

No competitive scholarship awarded to an applicant under this section for the period of one academic year shall exceed the total amount of one thousand five hundred dollars ($1,500); except that the State Scholarship and Loan Commission may, for students who accelerate college attendance, increase the amount of award for one academic year proportional to the period of additional attendance resulting from attendance at a summer term or quarter. The State Scholarship and Loan Commission may provide by appropriate rules and regulations for such reports, accounting, and statements from the award winner and college or university of attendance pertaining to the use or application of the award as it may deem proper. A competitive scholarship may be renewed annually without an additional competitive examination until the award winner has received four annual awards or until he has been graduated from such an institution in an undergraduate course,

whichever is the earlier, provided that at or prior to such renewal the State Scholarship and Loan Commission shall reassess the financial needs of such award winner and establish the amount of the award within the limits prescribed by this section. The scholarship shall remain in effect only during the period that the award winner achieves satisfactory academic progress and is regularly enrolled as a full-time student in an institution of collegiate grade, as described in Section 31206.

No award shall exceed nine hundred dollars ($900) for a year except awards given for attendance during the 1964–65 fiscal year and thereafter.

CHAPTER 1564

An act to add Article 6 (commencing with Section 6499) to Chapter 6.5 of Division 6 of the Education Code, relating to compensatory education.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing with Section 6499) is added to Chapter 6.5 of Division 6 of the Education Code, to read:

Article 6. Preschool Followthrough Programs

6499. It is the intent and purpose of the Legislature by this article to ensure that the instructional program in the early elementary grades in the public schools will complement preschool programs and reinforce the benefits afforded children who have participated therein, and will be directed to maintaining and raising the levels of educational achievement and potential of such children.

Preschool followthrough programs and projects conducted pursuant to this article shall comprise an essential component of compensatory education, and shall be included among and coordinated with other components of compensatory education programs. Except as otherwise specifically provided by this article, such programs and projects shall be subject to all other provisions of this chapter.

6499.1. From funds which may be appropriated therefor by the Legislature, or from federal funds which may be made available for the purpose, grants may be made to applicant school districts which have established projects or programs pursuant to this article. No matching-fund requirements shall be imposed as a condition upon entitlement to any such grant, unless otherwise required for purposes of establishing eligibility for federal funds. The grants shall be disbursed upon order of the Superintendent of Public Instruction and by warrants of the State Controller. Eligibility for grants and the expenditure thereof by the recipient school district shall be provided for by standards and requirements prescribed in rules and regulations of the State Board of Education.

6499.2. In accepting federal funds which may be made available for purposes of this article the people of the State of California agree to accept and comply with all conditions and requirements which may be prescribed in connection therewith by or under the authority of federal law.

The State Board of Education is designated as the state educational agency which shall carry out the purposes and provisions of any federal statute under which federal funds may be provided for purposes of this article. The board shall formulate and submit to the United States Commissioner or other designated federal officer or agency any state plan which may be required for such purposes, and shall have the power to revise and amend the same, as required, and shall have overall control and direction of its administration.

6499.3. Under the direction of the State Board of Education evaluations shall be made of the instructional programs provided in grades kindergarten, 1, 2, and 3 in selected elementary schools in the state in which are enrolled substantial numbers of pupils who have participated in preschool programs. The evaluations shall be directed to making determinations concerning the matters following:

(a) The extent to which the instructional programs complement the preschool training, reinforce the benefits afforded the children by participation therein, and effect continuity in the efforts to raise the level of educational attainment and potential of the children. For such purposes the State Board of Education may prescribe and direct a system of evaluation.

(b) The particular elements or components of the educational programs which should be emphasized or accelerated to accomplish the purposes specified in subdivision (a), or the particular elements and components which might be incorporated into the instructional programs to accomplish such purposes.

6499.4. The State Board of Education shall provide for the establishment of pilot preschool followthrough programs and projects in schools maintaining grades kindergarten, 1, 2 and 3 at the elementary level. The programs and projects shall be subject to the provisions of Section 6467.

6499.5. Pilot preschool followthrough programs and projects shall serve disadvantaged minors in kindergarten, and grades 1, 2, and 3, who have participated in preschool programs conducted pursuant to this chapter or pursuant to any other law of this state, or pursuant to federal law under which funds are provided for the programs, and shall include, to the extent that funds are available, any one or more of the following elements and components (in addition to others which may be determined to be essential under Section 6499.3):

(a) Reduction of pupil-teacher ratios. Reduction of such ratios to 20 to 1, or lower, at the kindergarten level, and to 25 to 1 or lower in grades 1, 2, and 3 at the elementary level, shall be the basic standards to which such efforts shall be directed.

(b) Establishment of single-session kindergarten programs, with the individual classroom teacher to be responsible for one, rather than two kindergarten classes.

(c) Utilization of teacher aides and other supporting staff personnel.

(d) Inservice professional study involving instruction and orientation of school district personnel, with emphasis on developing a better understanding of the disadvantaged children and their educational needs, and developing particular teaching techniques to meet those needs.

(e) Development of curricula and educational aides to meet the educational needs of disadvantaged children, with emphasis upon improving comprehension of, and facility in, the language, and cultural enrichment, and including the development of new approaches to the teaching of academic subjects which will enhance abstract thinking and sharpen the cognitive skills.

(f) Providing comprehensive health services, including medical and dental examinations, programs in nutrition, psychological counseling and speech therapy.

(g) Experimentation in grouping of children to realize the maximum benefits for children.

6499.6. Pilot preschool followthrough programs and projects shall be established on the basis of a geographical dispersion throughout the state which is most appropriate for purposes of this article, as determined by the State Board of Education. The programs and projects shall serve as demonstration models for other school districts in the state in the coordination of preschool, kindergarten and elementary grade instructional programs for the benefit of disadvantaged minors.

6499.7. Each school district maintaining a program or project pursuant to this article shall, at the times and in the form and manner prescribed by the Superintendent of Public Instruction, but no less than once each year, submit reports thereon.

6499.8. For purposes of securing consultative services in evaluating instructional programs in grades kindergarten and

1, 2, and 3, and in formulating pilot preschool followthrough programs and projects, the Director of Compensatory Education may appoint and direct the work of a professional task force on preschool followthrough programs, to serve as employees within the Department of Education.

9034.1. From funds transferred from Item 126 to Item 276 of the Budget Act of 1967 for aftercare for those patients discharged from state hospitals as designated in Item 126, the state shall reimburse 100 percent of the expenditures for outpatient psychiatric clinic services for each such patient released from a state hospital incurred within 90 days from the date of his release.

This section shall remain in effect until June 30, 1968.

CHAPTER 1566

An act to add Article 2.5 (commencing with Section 13221) to Chapter 2 of Division 10 of the Education Code, relating to teacher education internships.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 13221) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 2.5. Teacher Education Internship Act of 1967

13221. This article shall be known and may be cited as the Teacher Education Internship Act of 1967.

13222. The intent of the Legislature in enacting this article is to increase the effectiveness of teachers and other professional school service personnel in the public schools of California by placing theory and practice as closely together as possible in college and university programs for the preparation of teachers and professional school service personnel. The Teacher Education Internship Act of 1967 is enacted to encourage the development and maintenance of preparation programs that are realistic and practical in content and theory and are directly related to the individual functions and responsibilities practitioners in the public schools of California face. The desirability of joining theory and practice during the learning period has been demonstrated amply in teaching internship programs during the past several years both within and without the state.

13223. Any school district may establish a teacher education internship program to meet the provisions of the statutes and of the regulations of the State Board of Education for regular standard teaching, pupil personnel, supervision, and administration credentials for non-California residents.

13224. For admission to all teaching internship programs authorized by this article, an applicant shall have a baccalaureate or higher degree from an out-of-state institution approved for credential purposes by the State Board of Education at the time the degree was earned.

13225. The State Board of Education through the Bureau of Teacher Education and Certification in the State Department of Education, hereafter called the bureau, shall issue an appropriate internship credential to each applicant, who meets the educational requirements and who is recommended by a school district with an average daily attendance of not less than 3,000 pupils. The bureau also shall issue an appropriate internship credential to each applicant who meets the educational requirements and who is recommended jointly by a school district with an average daily attendance of less than 3,000 and the county superintendent of schools of the county in which the district is located. The bureau shall, before issuing any internship credential, determine that the school district and a college or university have planned cooperatively and mutually agreed upon a plan to insure the success of the internship program. The bureau shall provide the necessary coordination between the school districts and the colleges and universities.

13226. An internship credential authorizes the same service at the same levels as the regular standard credential authorizes.

13227. The bureau shall make an evaluation for each applicant recommended or jointly recommended for an internship credential using, as the basis for the evaluation, the provisions of law and the requirements of the State Board of Education for the regular credential.

13228. Both the applicant and the school district shall be furnished a copy of the results of the evaluations and a copy shall be furnished to the county superintendent of schools when he recommends jointly with a school district.

13229. An internship credential shall be issued initially for a two-year period and may be renewed for two-year periods upon the recommendation of the district, upon completion of 12 semester hours of college and university work remaining to be completed for the regular credential as outlined in the evaluation made by the bureau, except that the first renewal shall require completion of 6 rather than 12 semester hours.

13230. An internship credential may be renewed by the bureau if in its judgment an applicant is unable to complete renewal requirements because of illness or other circumstances judged to be extenuating and not within the control of the applicant, and if such renewal is recommended by the employing district.

13231. For each renewal of an internship credential the school district, and the county superintendent of schools, in the case of joint recommendations, shall certify on forms furnished by the bureau that the applicant has completed the semester hours outlined by the district in consultation with the applicant.

13232. Prior to enrollment in any college or university preparation program to renew the internship credential, appropriate personnel in the employing school district shall counsel with the intern and a total program for the first and subsequent renewals shall be planned. The county superintendent of schools shall be involved in the program planning in the case of joint recommendations.

13233. The program shall meet the instructional or service needs of the district with the primary objective being to increase the effectiveness of the intern in the district. Both the district and the intern shall concur in the program planned.

13234. The full cooperation of colleges and universities is essential if teaching and service internship programs are to be successful. A school district establishing an internship program shall seek the cooperation of public and private colleges and universities, especially those within the geographic service area of the district for the establishment of courses and classes necessary for renewal.

13235. The intern shall have the right to attend any regionally accredited college or university of his choice for the completion of renewal requirements. The success of internship programs will lie in the development of integrated, well organized, and sequential programs of study by cooperating colleges and universities. When appropriate and feasible, colleges and universities may provide off-campus programs of study for interns within the geographic area of their employing school districts.

13236. The supervisory help and guidance of interns as they pursue their school district responsibilities are important for the success of such programs. The utilization of competent and qualified college and university staff members for this purpose is encouraged. To help achieve this end, school districts, and county superintendents of schools in the case of joint recommendations, may enter into agreements with colleges and universities for the employment of staff for such supervision.

13237. Salary payments for college and university supervision may be made out of district funds and may be met by reducing proportionately the salaries paid interns. Under this authorization no more than eight interns may be supervised by one college or university staff member and the normal district salary paid each intern may be reduced by as much as, but no more than, one-eighth to pay the salary of the supervisor. In no event may an intern be paid less than the minimum salary required to be paid by the state to a regularly certificated teacher.

13238. An intern shall have the right to change school districts upon completion of a school contract year and become an intern in a new school district if recommended by the new school district. A new application recommending issuance of a new internship credential shall be submitted by the school district in behalf of the individual and the renewal procedures shall be followed.

13239. A credential issued under Section 13225 shall be valid only as long as the holder is in good standing in the teacher internship program of the district that makes the request, notwithstanding any provision of Section 13238, and the rights provided by Sections 13442 and 13443 shall not be afforded to interns.

13240. A school district shall give special supervision and assistance to each intern above and beyond that given to other newly certificated and newly employed school personnel. A school district shall seek the assistance of the college or university in coordinating the program for the intern

13241. Interns shall not acquire tenure while serving on an internship credential, but each year of service as an intern shall count toward the achievement of tenure.

13242. Colleges and universities may continue the development and maintenance of internship credential programs under their own auspices seeking the cooperation of school districts in their full implementation.

12681.1. The plan of improvement for flood control on Lytle and Warm Creeks, San Bernardino County, is adopted and authorized substantially in accordance with the recommendations of the Chief of Engineers in Senate Document Numbered 53, Eighty-Ninth Congress, as authorized by act of Congress approved October 27, 1965, Public Law 89-298, 79 Stat. 1073, Title II, the "Flood Control Act of 1965," at a cost to the state of such sum as may be appropriated for state cooperation by the Legislature upon the recommendation and advice of the department. This authorization shall not be deemed to confer preference on this project over the needs of other statewide programs in appropriation of available funds.

SEC. 2. Section 12681.2 is added to the Water Code, to read:

12681.2. The San Bernardino County Flood Control District shall give assurances satisfactory to the Secretary of the Army that the local cooperation, required by the act of Congress approved October 27, 1965, Public Law 89-298, 79 Stat. 1073, Title II, the "Flood Control Act of 1965," will be furnished by the district in connection with the plan of improvement for flood control adopted and authorized in Section 12681.1.

CHAPTER 1578

An act to amend Sections 26503, 26504, 26505, and 26508 of the Vehicle Code, relating to motor vehicle equipment.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 26503 of the Vehicle Code is amended to read:

26503. Every motor vehicle equipped with airbrakes or equipped to operate airbrakes on towed vehicles shall be equipped with a standard type safety valve which shall be installed so as to have an uninterrupted connection with the air reservoir or tank. It shall be adjusted and maintained so that it will open and discharge the air system under any condition at a pressure of not to exceed 150 pounds per square inch and close and reseat itself at a point above the maximum air governor setting. The department may by regulation prescribe a higher maximum opening pressure for air pressure systems designed for, and capable of safely operating with, pressure safety valves with a higher opening pressure.

SEC. 2. Section 26504 of the Vehicle Code is amended to read:

26504. The air governor cut-in and cut-out pressures of every motor vehicle equipped with airbrakes or equipped to operate airbrakes on towed vehicles shall be adjusted so that the maximum pressure in the air system and the minimum cut-in pressure shall be within limits prescribed by the department. In adopting regulations specifying such pressures the department shall consider the safe operating capacities of the various airbrake systems which are now or may be used on motor vehicles and shall be guided by the designed capabilities of those systems.

SEC. 3. Section 26505 of the Vehicle Code is amended to read:

26505. Every motor vehicle equipped with airbrakes or equipped to operate airbrakes on towed vehicles shall be equipped with a pressure gauge of reliable and satisfactory construction and maintained in an efficient working condition, accurate within 10 percent of the actual air reservoir pressure, and visible and legible to the driver at all times.

SEC. 4. Section 26508 of the Vehicle Code is amended to read:

26508. Every vehicle or combination of vehicles using compressed air at the wheels for applying the service brakes shall be equipped with an emergency stopping system meeting the requirements of this section and capable of stopping the vehicle or combination of vehicles in the event of failure in the service brake air system as follows:

(a) Every motor vehicle operated either singly or in a combination of vehicles and every towed vehicle shall be equipped with an emergency stopping system.

(b) Motor vehicles used to tow vehicles which use compressed air at the wheels for applying the service brakes shall be equipped with a device or devices with both a manual and automatic means of actuating the emergency stopping system on the towed vehicle as follows:

(1) The automatic device shall operate automatically in the event of reduction of the service brake air supply of the towing vehicle to a fixed pressure which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch.

(2) The manual device shall be readily operable by a person seated in the driver's seat, with its emergency position or method of operation clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means.

(c) Motor vehicles manufactured prior to 1964 shall be deemed to be in compliance with subdivisions (e) and (f) when equipped with axle-by-axle protected airbrakes using a separate air tank system for each of at least two axles, provided that each system independently meets all other requirements of this section. Each system shall be capable of being manually applied, released, and reapplied from the driver's seat but shall not be capable of being released from the driver's seat after any reapplication unless there is available a means which can be applied from the driver's seat to stop and hold the vehicle or combination of vehicles.

(d) Towed vehicles shall be deemed to be in compliance with this section when:

(1) The towed vehicle is equipped with a no-bleed-back relay-emergency valve or equivalent device, so designed that the supply reservoir used to provide air for the brakes is safeguarded against backflow of air from the reservoir through the supply line,

(2) The brakes are applied automatically and promptly upon breakaway from the towing vehicle and maintain application for at least 15 minutes, and

(3) The combination of vehicles is capable of stopping within the distance and under the conditions specified in subdivisions (k) and (*l*).

(e) If the service brake system and the emergency stopping system are connected in any way, they shall be so constructed that a failure or malfunction in any one part of either system, including brake chamber diaphragm failure but not including failure in the drums, brakeshoes, or other mechanical parts of the wheel brake assemblies, shall not leave the vehicle without one operative stopping system capable of complying with the performance requirements in subdivision (k).

(f) Every emergency stopping system shall be designed so that it is capable of being manually applied, released, and reapplied by a person seated in the driver's seat. The system shall be designed so that it cannot be released from the driver's seat after any reapplication unless immediate further application can be made from the driver's seat to stop and hold the vehicle or combination of vehicles. The emergency stopping system may also be applied automatically.

(g) No vehicle or combination of vehicles upon failure of the service brake air system shall be driven on a highway under its own power except to the extent necessary to move the vehicles off the roadway to the nearest place of safety.

(h) No vehicle or combination of vehicles shall be equipped with an emergency stopping system that creates a hazard on the highway, or increases the service brake stopping distance of a vehicle or combination of vehicles, or interferes in any way with the application of the service brakes on any vehicle or combination of vehicles.

(i) Any energy-storing device which is a part of the emergency stopping system shall be designed so that it is recharged or reset from the source of compressed air or other energy produced by the vehicle, except that energy to release the emergency stopping system may be produced by the driver's muscular effort from the driver's seat. No device shall be used which can be set to prevent automatic delivery of air to protected air supply reservoirs of motor vehicle emergency stopping systems when air is available in the service brake air supply system.

(j) Any vehicle manufactured on or after January 1, 1964, which uses axle-by-axle protected airbrakes as the emergency stopping system shall use a separate air tank system for each axle, except that motor vehicles equipped with a dual or tandem treadle valve system need have no more than two protected air tanks in such system, one for each valve.

(k) Every motor vehicle or combination of vehicles, at all times and under all conditions of loading, upon application of the emergency stopping system, shall be capable of:

(1) Developing a stopping force that is not less than the percentage of its gross weight tabulated herein for its classification.

(2) Decelerating in a stop from 20 miles per hour at not less than the feet per second per second tabulated herein for its classification, and

(3) Stopping from a speed of 20 miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the emergency stopping system control begins.

EMERGENCY STOPPING SYSTEM REQUIREMENTS

	Classification of vehicle and combination of vehicles	Stopping force as a percentage of gross vehicle or combination weight	Deceleration in feet per second per second	Stopping distance in feet
A	Single-motor vehicles	16.7	5.5	90
B	Combination of vehicles	19.0	6.0	90
C	Single-motor vehicle with 3 or more axles manufactured prior to 1964	12.1	4.0	120

(*l*) Tests for deceleration and stopping distance shall be made on a substantially level, dry, smooth, hard surface that is free from loose material and where the grade does not exceed plus or minus 1 percent. No test of emergency stopping system performance shall be made upon a highway at a speed in excess of 25 miles per hour.

(m) The provisions of this section shall not apply to:

(1) Auxiliary dollies, special mobile equipment, or special construction equipment.

(2) Motor vehicles which are operated in a driveaway-towaway operation and not registered in this state.

(3) Disabled vehicles when being towed.

(4) Vehicles which are operated under a one-trip permit as provided in Section 4003.

(5) Vehicles which because of unladen width, length, height or weight may not be moved upon the highway without the permit specified in Section 35780.

(n) The emergency stopping system requirements specified in subdivision (k) shall not apply to a vehicle or combination of vehicles being operated under a special weight permit nor to any overweight authorized emergency vehicle operated under the provisions of Section 35002.

(o) Every owner or lessee shall instruct and require that the driver be thoroughly familiar with the requirements of this section. The driver of a vehicle or combination of vehicles required to comply with the requirements of this section shall be able to demonstrate the application and release of the emergency system on the vehicle and each vehicle in the combination.

SECTION 1. Section 4052 of the Agricultural Code, as proposed by Senate Bill No. 1, is amended to read:

4052. An association shall not lease its racetrack for running races of horses to any private person, firm, or corporation, except to a national or international exposition or its affiliated corporations or associations for the period of time which is now permitted by law for fairs.

4155. The 22nd District Agricultural Association may expend up to two hundred fifty thousand dollars ($250,000) annually for the operation of a fair pursuant to Section 4001 for the purposes enumerated therein from the money received by the district from a lease of district property for horseracing purposes. Any such money received by the district over two hundred fifty thousand dollars ($250,000) may be expended in furtherance of the master plan developed pursuant to Section 4156. Any such money not expended in such manner, or accumulated to be expended in furtherance of the master plan, including the amortization of revenue bonds, shall be transferred by the district to the General Fund upon executive order of the Director of Agriculture.

SEC. 3. Section 4156 is added to the Agricultural Code, as proposed by Senate Bill No. 1, to read:

4156. The State Race Track Leasing Commission shall prepare a master plan for the long-range comprehensive development and improvement of, and construction upon, the property of the 22nd District Agricultural Association. Such plan is subject to amendment by the commission.

SEC. 4. Chapter 9 (commencing with Section 4351) is added to Part 3 of Division 3 of the Agricultural Code, as proposed by Senate Bill No. 1, to read:

CHAPTER 9. STATE RACE TRACK LEASING COMMISSION

4351. There is hereby created the State Race Track Leasing Commission which shall be composed of the Director of Agriculture, the Director of Finance, the Director of General Services and three individuals, appointed by the Governor, who are members of the Board of Directors of the 22nd District Agricultural Association, one of whom shall be the president of the board. The Director of Finance shall serve as chairman of the commission. All meetings of the commission shall be open and public.

4352. The Department of Finance shall provide clerical services to the commission. The Departments of Agriculture and General Services and the California Horse Racing Board shall cooperate with the commission, and, insofar as possible, shall, on request, allow the commission to utilize their staffs as needed by the commission; provided, that the sole counsel for the commission shall be the Attorney General, as provided in Section 4357.

4353. The State Race Track Leasing Commission has the authority to lease the Del Mar Race Track and any other property owned or controlled by the 22nd District Agricultural Association which the commission shall deem necessary to provide horseracing at Del Mar Race Track. Any such lease shall be on behalf of the 22nd District Agricultural Association, and the district shall continue in control of its property, subject to the conditions and terms of such lease.

4356. The California Horse Racing Board shall, on request of the commission, certify the eligibility of any prospective lessee to be licensed to conduct horseracing at the Del Mar Race Track.

4357. The Attorney General shall serve as counsel for, and adviser to, the commission.

4358. The commission shall follow the same procedures, insofar as appropriate, in leasing the Del Mar Race Track as the Department of General Services follows in leasing other state real property. The leasing of the Del Mar Race Track shall not be contingent upon the adoption of a master plan. The commission shall, prior to awarding a lease of the Del Mar Race Track, consider all factors concerning appropriate capital improvement of such racetrack, the financing thereof, additional racing opportunities, and any use of new or additional properties or facilities, including, but not limited to, a grandstand, which factors must be considered in the award of the lease. The commission shall also consult with any affected local governing bodies, prior to awarding the lease.

4359. When the commission makes a determination pursuant to this chapter as to the action it proposes to take in awarding the Del Mar Race Track lease, it shall report to the Legislature, setting forth the procedures followed by the commission in reaching its determination and the reasons the proposed award is in the best interests of the state. It shall

also make recommendations regarding any additional legislation which it deems necessary. However, no legislative action is required to make effective and operative any lease awarded by the commission. The commission shall also make a similar report to the Legislature upon the master plan when such plan is completed.

4360. After the award of a lease of the Del Mar Race Track, the commission shall meet from time to time to review the operation of the lease, and the master plan, and any other related matters. It shall also make such recommendations as it deems proper to the Legislature, other state agencies, including, but not limited to, the 22nd District Agricultural Association, and to the lessee.

4361. The commission is a "department" for the purposes of hearings pursuant to Article 2 (commencing with Section 11180) of Chapter 2 of Part 1 of Division 3 of the Government Code.

SEC. 5. Section 3 of Chapter 221 of the Statutes of 1967 is repealed.

Sec. 4. Any funds deposited with the 22nd District Agricultural Association by a bidder who submitted a sealed bid to 22nd District for the lease of Del Mar Race Track shall be returned to such bidders; provided, that the return of such funds to the bidders shall not affect any bidder's right to be accepted as the successful bidder for the lease.

The sealed bids previously submitted to the 22nd District Agricultural Association in 1966 are hereby declared as valid bids, unless revoked by the bidder, for the lease of the Del Mar Race Track and such bids and all records, papers or other documents of the 22nd District Agricultural Association relating to the leasing and management of the Del Mar Race Track are hereby transferred to the State Race Track Leasing Commission.

CHAPTER 1580

An act to amend Sections 6802, 8901, and 11204 of, and to add Section 8901.1 to, the Education Code, relating to physically handicapped minors.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 6802 of the Education Code is amended to read:

6802. Any minor who, by reason of a physical impairment, cannot receive the full benefit of ordinary education facilities, shall be considered a physically handicapped individual for the

purposes of this chapter (commencing at Section 6801). Minors with speech disorders or defects shall be considered as being physically handicapped. Minors with physical illnesses or physical conditions which make attendance in regular day classes impossible or inadvisable shall be considered as being physically handicapped.

SEC. 1.5. Section 8901 of the Education is amended to read:

8901. The county superintendent of schools shall establish and maintain programs for physically handicapped minors who come within the provisions of Section 6801 or 6802, including cerebral palsied, orthopedically handicapped, visually handicapped, or aurally handicapped, and who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools of the districts or in unified or high school districts which have an average daily attendance of less than 8,000 in the high schools of the districts, whenever such districts have not provided nor entered into contract with other districts to provide such programs.

Such program shall, with the approval of the county board of education, be provided in one or more of the following ways:

(a) In special schools or classes of elementary and secondary grade and in remedial classes of elementary and secondary grade.

(b) By the employment of emergency teachers to provide special instruction in the regular schools of the districts of the county.

(c) By the maintenance of special classes of secondary grade.

(d) By the employment of home instructors to give individual instruction in the home or at the bedside in institutions, and by the employment of instructors to provide remedial instruction for physically handicapped minors in regular, special day, and special training schools or classes which he may be authorized to conduct, and by the employment of instructors to provide individual instruction for minors with speech disorders or defects who are at least three years of age for the purpose of remedying such speech disorders or defects.

(e) By cooperation with the Department of Rehabilitation in the provision of individual instruction and coordination services.

(f) By contract with the county superintendent of schools of another county or with the governing board of any school district.

(g) In integrated programs of instruction of elementary or secondary grade.

(h) By the employment of instructors to provide individual instruction, subject to the provision of Section 6812, in schools or in the homes of minors who are deaf or hard-of-hearing, as determined by the State Board of Education, and between the ages of three and six years of age.

Such schools and classes shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them. In an instance where it would be impractical because of the transportation distances existing to bring a sufficient number of physically handicapped minors within the meaning of Section 6801 or 6802 together in one place to form a school or special class, the county superintendent of schools, upon the annual approval of the Superintendent of Public Instruction, may defer compliance with the provisions of this section for the year in question.

Any elementary or unified school district which has an average daily attendance of less than 8,000 in the elementary schools of the district and any unified or high school district which has an average daily attendance of less than 8,000 in the high schools of the district, with the approval of the county superintendent of schools, may establish and maintain programs for the physically handicapped who come within the provisions of Section 6801 or 6802.

The county superintendent of schools required to provide for the education of physically handicapped minors residing in the county who come within the provisions of Section 6801 or 6802 may, with the approval of the Superintendent of Public Instruction, enter into agreements with an elementary, unified, or high school district for the latter to provide for the education of such physically handicapped minors.

SEC. 2. Section 8901.1 is added to the Education Code, to read:

8901.1. For purposes of Section 8901, the average daily attendance of the elementary schools of the district shall be computed by excluding the average daily attendance of pupils attending the seventh and eighth grades of a junior high school maintained by a high school district.

SEC. 3. Section 11204 of the Education Code is amended to read:

11204. The attendance of physically handicapped pupils instructed by the county superintendent of schools pursuant to Section 8903 shall be credited as follows:

(a) The attendance of elementary school pupils taught in emergency elementary schools and in special classes shall be credited to the emergency schools.

(b) The attendance of elementary school pupils given individual instruction in the home or at the bedside in institutions and of minors with speech disorders or defects who are at least three years of age and of minors who are deaf or hard-of-hearing and between the ages of three and six years and given individual instruction, subject to the provisions of Section 6812, in school or in the home or by cooperative arrangements with the Division of Vocational Rehabilitation of the State Department of Rehabilitation or in remedial classes or in integrated programs of instruction shall be credited to an emergency elementary school maintained for physically handi-

capped pupils, if such a school is maintained in the county, or if no such school is maintained in the county the attendance shall be credited to an emergency elementary school maintained in the county, but not to more than one emergency elementary school. If no emergency school is maintained in the county, the total number of days of attendance of pupils shall be divided by 175 to compute average daily attendance, and the average daily attendance so computed shall be credited to the county school service fund as attendance upon a single emergency elementary school for individual instruction of physically handicapped children.

(c) The attendance of pupils of secondary grade given individual instruction in the home or in institutions or by cooperative arrangement with the Division of Vocational Rehabilitation of the State Department of Rehabilitation, or instructed in special classes of secondary grade or in remedial classes or in integrated programs of instruction of secondary grade pursuant to Section 8901, shall be credited to the county school service fund.

(d) The attendance of pupils taught by emergency teachers in the regular schools of the districts of any county shall be credited to the districts, except that the attendance of pupils taught by emergency teachers pursuant to Section 8902 in the regular elementary schools of the district of any county and the attendance of elementary pupils in remedial classes pursuant to Section 8901 shall be credited to the county school service fund in accordance with subdivision (b) of this section.

(e) The attendance of pupils residing in one county and educated under contract with the county superintendent of schools or governing board of a school district of another county, shall be credited to the county school service fund of the county, or district, in which the pupils are educated.

(f) If the county superintendent of schools maintains an integrated program of instruction as defined in Section 18060.2 and contracts with a school district to provide instruction for part of the day in the regular classes of the district, the total attendance of pupils in such program shall be credited to the county school service fund at both the elementary and secondary levels.

CHAPTER 1581

An act to repeal Section 35541.6 of, and to add Section 35541.6 to, the Health and Safety Code, relating to temporary housing projects.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 35541.6 of the Health and Safety Code is repealed.

SEC. 2. Section 35541.6 is added to the Health and Safety Code, to read:

35541.6. No city and county need demolish any temporary housing project, until the 61st day after final adjournment of the 1975 Regular Session of the Legislature, where the dwelling structures have been rehabilitated to such an extent as the board of supervisors determines is necessary to make such dwelling structures reasonably safe and sanitary places in which to live.

The Legislature finds and declares that the provisions of this section are intended to aid in relieving a present critical shortage of low rental housing for members of minority races, where there are many units of temporary housing, and where there would be extreme hardship resulting from the relocation of people if the operation of these temporary housing projects were discontinued in a city and county in instances where such housing is still necessary.

This section shall not be construed to relieve any governmental agency of any existing duty under present housing programs.

CHAPTER 1582

An act to amend Section 20609 of the Government Code, relating to the State Retirement System.

If, upon any such reentry into state service, the member's current service pension for service thereafter will be calculated under Section 21252.5, the normal rate of contribution thereafter shall be such as will provide on the average a service retirement annuity at age 60 equal to five-eighths of 1 percent of his final compensation for each year of current service which would be applicable toward the benefit formula set forth in Section 21252.5. The amendment to this section at the 1965

General Session shall apply only to the rate of a member who reenters state service on or after October 1, 1965.

The amendment to this section at the 1967 General Session shall apply only to a member who reenters state service on or after October 1, 1967.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 17310 is added to the Education Code, to read:

17310. To provide for the operation of newly organized school districts, moneys in the School District Organization Revolving Fund in the State Treasury shall be utilized for purposes of making loans to newly organized school districts pursuant to Article 4.5 (commencing with Section 17460) of this chapter. The School District Organization Revolving Fund shall be comprised of five hundred thousand dollars ($500,000) appropriated from the County School Service Fund Surplus Account, and an additional amount of one hundred thousand dollars ($100,000) otherwise transferable from the General Fund to the State School Fund.

Notwithstanding any provision of Section 17301 to the contrary, the amount to be transferred from the General Fund to the State School Fund in the 1967–1968 fiscal year pursuant to subdivision (b) of Section 17301 shall be reduced by one hundred thousand dollars ($100,000), and such amount shall be paid into the School District Organization Revolving Fund.

SEC. 2. An article heading is added immediately preceding Section 17460 of the Education Code, to read:

Article 4.5. Loans and Advances to Newly Formed School Districts

SEC. 3. Section 20106 of the Education Code is amended and renumbered to become a part of Article 4.5 (commencing with Section 17460) of Chapter 2 of Division 14 of the Education Code, to read:

17460. Loans may be made from moneys in the School District Organization Revolving Fund to newly organized school districts upon application of the governing board of any such district, certified by the county superintendent of schools and approved by the Superintendent of Public Instruction for use by the district during the period from the date the action to form the district was completed and the date the district becomes effective for all purposes. Money loaned to a district pursuant to this section shall be used only to meet (a) the expenses

of office rental, office supplies, postage, telephone, and telegraphing; (b) the expenses of necessary elections required by law or authorized by Section 1703 of this code; and (c) the expenses of employing, the salary of, and necessary travel expenses of officers and necessary clerical help for the governing board.

During each of the two successive fiscal years commencing with the first fiscal year of the existence of the school district for all purposes, the State Controller shall deduct from apportionments made to such school district an amount equal to one-half of the amount loaned to such school district under this section and pay the same amount into the School District Organization Revolving Fund in the State Treasury.

Loans may be made by the Superintendent of Public Instruction from the School District Organization Revolving Fund at any time during the first three years of the existence of any newly formed junior college district in amounts necessary to enable the district to meet the current expenses of operation. A loan may be made upon approval, by the Superintendent of Public Instruction, of an application therefor submitted by the governing board of a newly formed junior college district. A loan may be made only if the Superintendent of Public Instruction determines that the applicant newly formed junior college district is in need of funds to meet the current expenses of operation, and that the general purpose tax rate of the district for the fiscal year in which the application is submitted is at least equal to the average of such rates applicable at that time in other districts maintaining junior colleges in the same county or in adjacent counties.

For purposes of this section the Superintendent of Public Instruction may prescribe the form in which applications are to be submitted, and may require the submission of such information and data by the applicant district as he may deem necessary to make any required determinations.

During each of the five fiscal years immediately succeeding the fiscal year in which a loan is made under this section, the State Controller shall deduct from apportionments made from the State School Fund to the newly formed junior college district an amount equal to one-fifth of the amount loaned to the district, and pay the same amount into the School District Organization Revolving Fund.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to enable new junior college districts to provide better educational programs in the early years of operation, which is otherwise difficult because of the lack of funds caused

The people of the State of California do enact as follows:

SECTION 1. Section 1034½ of the Code of Civil Procedure is repealed.

SEC. 2. Section 1174 of the Code of Civil Procedure is amended to read:

1174. If upon the trial, the verdict of the jury, or, if the case be tried without a jury, the findings of the court be in favor of the plaintiff and against the defendant, judgment shall be entered for the restitution of the premises; and if the proceedings be for an unlawful detainer after neglect, or failure to perform the conditions or covenants of the lease or agreement under which the property is held, or after default in the payment of rent, the judgment shall also declare the forfeiture of such lease or agreement if the notice required by Section 1161 of the code states the election of the landlord to declare the forfeiture thereof, but if such notice does not so state such election, the lease or agreement shall not be forfeited.

The jury or the court, if the proceedings be tried without a jury, shall also assess the damages occasioned to the plaintiff by any forcible entry, or by any forcible or unlawful detainer, alleged in the complaint and proved on the trial, and find the amount of any rent due, if the alleged unlawful detainer be after default in the payment of rent. Judgment against the defendant guilty of the forcible entry, or the forcible or unlawful detainer may be entered in the discretion of the court either for the amount of the damages and the rent found due, or for three times the amount so found.

When the proceeding is for an unlawful detainer after default in the payment of rent, and the lease or agreement under which the rent is payable has not by its terms expired, and the notice required by Section 1161 has not stated the election of the landlord to declare the forfeiture thereof, the court may, and, if the lease or agreement is in writing, is for a term of more than one year, and does not contain a forfeiture clause, shall order that execution upon the judgment shall not be issued until the expiration of five days after the entry of the judgment, within which time the tenant, or any subtenant, or any mortgagee of the term, or any other party interested in its continuance, may pay into the court, for the landlord, the amount found due as rent, with interest thereon, and the amount of the damages found by the jury or the court for the

unlawful detainer, and the costs of the proceedings, and thereupon the judgment shall be satisfied and the tenant be restored to his estate.

But if payment as here provided be not made within five days, the judgment may be enforced for its full amount, and for the possession of the premises. In all other cases the judgment may be enforced immediately.

Notwithstanding any other provision of the law, a plaintiff, having obtained a writ of restitution of the premises pursuant to an action for unlawful detainer, shall be entitled to have the premises restored to him by officers charged with enforcement of such writs without payment of any fees in connection therewith.

All goods, chattels or personal property of the tenant remaining on the premises, at the time of its restoration to the plaintiff, shall be stored by the county in a place of safekeeping for a period of 30 days and may be redeemed by the tenant upon payment of reasonable costs incurred by the enforcing officers and in providing such storage and the judgment rendered in favor of plaintiff, including costs. In the event the property so held is not redeemed within 30 days, such property shall be deemed abandoned and may be sold at a public sale. The plaintiff shall be notified of the time and place of the sale by the enforcing officer and shall have the right to bid for such goods at the sale thereof. All money realized from the sale of such personal property shall be used to pay the costs and expenses of the enforcing officer, and all sums in excess of such costs, if any, shall be applied in payment of plaintiff's judgment. Any remaining excess shall be held by the county for the tenant for a period of five years, and if unclaimed at the end of such period shall be deposited in the general fund of such county.

Each official reporter pro tempore of the superior court shall receive compensation at the rate of forty-five dollars ($45) per day, for reporting in shorthand all proceedings in the superior court as required by law or the order of the court.

SEC. 2. Section 170.6 of the Code of Civil Procedure is amended to read:

170.6. (1) No judge or court commissioner of any superior, municipal or justice court of the State of California shall try any civil or criminal action or special proceeding of any kind or character nor hear any matter therein which involves a contested issue of law or fact when it shall be established as hereinafter provided that such judge or court commissioner is prejudiced against any party or attorney or the interest of any party or attorney appearing in such action or proceeding.

(2) Any party to or any attorney appearing in any such action or proceeding may establish such prejudice by an oral or written motion without notice supported by affidavit or declaration under penalty of perjury or an oral statement under oath that the judge or court commissioner before whom such action or proceeding is pending or to whom it is assigned is prejudiced against any such party or attorney or the interest of such party or attorney so that such party or attorney cannot or believes that he cannot have a fair and impartial trial or hearing before such judge or court commissioner. Where the judge or court commissioner assigned to or who is scheduled to try the cause or hear the matter is known at least 10 days before the date set for trial or hearing, the motion shall be made at least five days before that date. If directed to the trial of a cause where there is a master calendar, the motion shall be made to the judge supervising the master calendar not later than the time the cause is assigned for trial. In no event shall any judge or court commissioner entertain such motion if it be made after the drawing of the name of the first juror, or if there be no jury, after the making of an opening statement by counsel for plaintiff, or if there be no such statement, then after swearing in the first witness or the giving of any evidence or after trial of the cause has otherwise commenced. If the motion is directed to a hearing (other than the trial of a cause), the motion must be made not later than the commencement of the hearing. In the case of trials or hearings not herein specifically provided for, the procedure herein specified shall be followed as nearly as may be. The fact that a judge or court commissioner has presided at or acted in connection with a pretrial conference or other hearing, proceeding or motion prior to trial and not involving a determination of contested fact issues relating to the merits shall not preclude the later making of the motion provided for herein at the time and in the manner hereinbefore provided.

(3) If such motion is duly presented and such affidavit or declaration under penalty of perjury is duly filed or such oral statement under oath is duly made, thereupon and without any further act or proof, the judge supervising the master calendar, if any, shall assign some other judge or court commissioner to try the cause or hear the matter. In other cases, the trial of the cause or the hearing of the matter shall be assigned or transferred to another judge or court commissioner of the court in which the trial or matter is pending or, if there is no other judge or court commissioner of the court in which the trial or matter is pending, the Chairman of the Judicial Council shall assign some other judge or court commissioner to try such cause or hear such matter as promptly as possible. Under no circumstances shall a party or attorney be permitted to make more than one such motion in any one action or special proceeding pursuant to this section; and in actions or special proceedings where there may be more than

one plaintiff or similar party or more than one defendant or similar party appearing in the action or special proceeding, only one motion for each side may be made in any one action or special proceeding.

(4) Unless required for the convenience of the court or unless good cause is shown, a continuance of the trial or hearing shall not be granted by reason of the making of a motion under this section. If a continuance is granted, the cause or matter shall be continued from day to day or for other limited periods upon the trial or other calendar and shall be reassigned or transferred for trial or hearing as promptly as possible.

(5) Any affidavit filed pursuant to this section shall be in substantially the following form:

Said proposition shall be submitted as a separate proposition which shall contain the words: "For assumption of liability for outstanding bonded indebtedness of _____ District(s)—Yes" and "For assumption of liability for outstanding bonded indebtedness of _____ District(s)—No." Said proposition shall carry if adopted by a percentage of votes prescribed by Section 18 of Article XI of the California Constitution for passage of a bond issue cast at said election on said proposition. The tax may be at a rate in excess of the maximum rate provided in Section 20751. While the annual charge is in effect, the board of supervisors need not levy a tax on the assessed valuation of the included district or districts for interest and bond redemption if the amount of the annual charge upon the reorganized district is sufficient for such interest and bond redemption.

The annual charge shall continue for the entire period during which any bonded indebtedness is outstanding against any included district.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Section 1819 of the Revenue and Taxation Code is amended to read:

1819. (a) As soon as tabulations have been made pursuant to Section 1818, the board shall give the assessor of each county a reasonable opportunity to examine that portion of the tabu-

lations affecting property in his county. The assessor may, prior to August 1st, petition the board for reconsideration of the tabulations for his county and, if he has so requested in his petition, shall be granted an oral hearing by the board itself. After making any adjustment it deems appropriate, but not later than August 23rd, the board shall make available for public inspection all such tabulations and shall publish the ratio of assessed to full cash value of locally assessable tangible property for each county and for the state. "Tabulations" do not include appraisal data relating to individual properties.

(b) On or before May 15 of the following calendar year, the board shall publish a corrected ratio of assessed value to full cash value of locally assessable, tangible property for each county and for the state.

This corrected ratio shall reflect changes in the total assessed value on the roll for the current fiscal year made by the assessor, auditor, the county board of supervisors, and the county board of equalization.

This corrected ratio shall be used to calculate a corrected factor pursuant to Education Code Section 17261, and such corrected factor shall be certified to the Superintendent of Public Instruction on or before May 20. The superintendent shall use this factor in computing or recomputing the amount of school aid to which each school district in the state is entitled.

The corrected ratio shall not be used for the purposes of Section 1605.

In computing the ratio of assessed value to the full cash value for any county, pursuant to Section 1817 and subdivision (a) of this section, the board shall not consider in any way the reduction of assessed value as a result of equalization for the previous assessment year.

CHAPTER 1608

An act to add Article 7 (commencing with Section 19699.9) to Chapter 10 of Division 14 of the Education Code, relating to the construction of a regional occupational center, and making an appropriation therefor.

[Approved by Governor August 30, 1967. Filed with Secretary of State August 30, 1967.]

The people of the State of California do enact as follows:

SECTION 1. Article 7 (commencing with Section 19699.9) is added to Chapter 10 of Division 14 of the Education Code, to read:

Article 7. School Housing Aid for a Regional Occupational Center

19699.9. Not to exceed five million dollars ($5,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966 may be expended pursuant to this article. The funds shall be allocated by the State Allocation Board to a Joint Powers Board of Education for the construction of a permanent campus for a newly created regional occupation center school to be located in the south bay area of Los Angeles County, having a population in excess of 1,070,000, and a potential average daily attendance in excess of 10,000 persons. Not to exceed four hundred thousand dollars ($400,000) of such sum shall be allocated and expended for architectural and engineering services in connection with the construction.

Sections 19551 to 19555, inclusive, Sections 19559, 19562, and 19565, inclusive, of Article 1 (commencing with Section 19551) of this chapter shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise.

19699.10. The allocation of funds to the entity pursuant to this article shall be conditioned upon the prior approval of the proposed facilities and subject matter of the educational program by the Superintendent of Public Instruction.

19699.11. It is the intent of the Legislature in enacting this article to finance the capital expenditures involved in the construction, equipping, and establishment, to serve an area in great need of occupational preparation, of a regional occupational center school to be maintained by a Joint Powers Board of Education and entity. It is the further intent of the Legislature to improve the employment opportunities of persons residing in areas of need for said training, by providing educational programs of a nature that will serve the social and economic needs of that area. The program will also serve to upgrade the cultural and intellectual as well as the economic life of the area to be served.

The Legislature finds that the federal government has made available in the south bay area of Los Angeles County land to be used for a regional occupation center school, provided a permanent campus can be established on the land within 18 months. For this reason, it is essential that the money made available for purposes of this article be allocated to the establishment of a permanent campus for a regional occupational center school in the south bay area of Los Angeles County.

19699.12. (a) Any amounts allocated and disbursed to said Joint Powers Board of Education and entity pursuant to this article shall be a loan by the state to the entity and shall be fully repaid by the entity to the state within 10 years after the date of disbursement to the entity. Interest shall be paid at a rate determined by the board. Any such loan shall be repaid by

the entity from proceeds of a tax under provisions of Section 7456 of the Education Code, for sites, buildings and equipment, by a maximum tax levy of the assessed valuation of the entity not to exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation in said entity.

(b) The annual repayment shall be determined by agreement between the Director of Finance and the Superintendent of Public Instruction. The tax revenue referred to in subdivision (a) above shall be transferred by the County Auditor of Los Angeles County to the General Fund of the state in accordance with established regulations and procedures.

SECTION 1. Chapter 5.5 (commencing with Section 12894) is added to Part 6, Division 6 of the Water Code, to read:

CHAPTER 5.5. LOCAL AGENCY BOND PAYMENTS

12894. The department may, when specifically authorized by law to do so, enter into a commitment, without regard to fiscal years, with any public agency, as defined in subdivision (b) of Section 12881.2, to make a loan to such public agency for the purpose of paying the difference between the amount the public agency is able to raise to make any payment of the principal and interest on general obligation bonds issued by such public agency for the construction of a project utilizing water from the State Water Resources Development System and the amount due on such principal and interest.

The balance of the appropriation made by Chapter 1435, Statutes of 1963, not required for the purposes of that chapter, as determined by the director, is hereby appropriated to the department for expenditure, without regard to fiscal years, as follows:

(b) The remainder shall be available for the purpose of making loan commitments pursuant to this section, when specifically authorized by law.

Said balance of the appropriation made by Chapter 1435, Statutes of 1963, shall constitute the sole and exclusive source of payment of such loans, and any commitment to make such a loan shall not constitute a debt, liability, or obligation of the state, except to the extent that money may be available from said balance to make a loan. The purpose of such commitments shall be to assist public agencies in the sale of such bonds at a reasonable charge. An application for such a commitment may be approved only if it is determined that the commitment is needed for that purpose, that there is reasonable assurance that the public agency can repay any sums paid out by the department under the commitment, and that the project for which the bonds are to be issued substantially conforms to the California Water Plan and is financially feasible. Approval of such bonds by the California Districts Securities Commission for certification shall constitute a finding that the project is financially feasible.

12894.1. Notwithstanding any provision of law to the contrary, every public agency empowered by law to contract with the state for a water supply is hereby granted, in addition to and not in derogation or limitation of the powers conferred upon the public agency by any other law, the power to enter into a contract with the department for a commitment in accordance with this chapter and to comply with the provisions of any such contract and the same powers with regard to such a loan commitment as are granted to public agencies under Sections 12887.1, 12887.2, 12887.3, 12887.6, 12887.7, and 12887.8.

12894.2. The Department of Water Resources shall notify all public agencies which have contracted for water from the

State Water Resources Development System of its intention to conduct an investigation of the need for loan commitments to public agencies under Section 12894. The department shall investigate all public agencies which indicate a desire for such a loan commitment. Any agency indicating such a desire shall, upon request, furnish to the department such information as may be required by the department in the conduct of the investigation and the preparation of the report to be submitted to the Legislature pursuant to this section.

The department shall submit to the Legislature by the fifth legislative day of the 1968 Regular Session, a report which shall include, but not necessarily be limited to, the following: (1) the total amount of assistance requested by all public agencies pursuant to this chapter; (2) the loan commitments which the department proposes to make; (3) the period for which each loan commitment is proposed to be made; (4) the interest rate on any such loan; (5) the terms which will govern the repayment of loans made pursuant to this chapter; and (6) the terms and conditions upon which the department would propose to make such commitments.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Serious water shortages exist in various areas of the state and threaten to develop in other areas. In order to alleviate such shortages, public agencies need to proceed at the earliest possible time to finance and construct the projects which will enable them to utilize water from the State Water Resources Development System and the aid to such financing and construction provided by this act needs to be given immediate effect.

SEC. 27. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The new medical assistance and insurance laws enacted by the federal government in the 1965 Amendment to the Social Security Act which affect a large number of persons in state hospitals require that furnishers of medical and hospital services have an accounting system which reflects the cost of such services for each patient. Such an accounting system must be in effect in state hospitals by December 31, 1967. Under existing law, the cost of state hospital services are computed on an average per capita basis. For this reason, as well as to enable the State of California to benefit from the advantages of a modern cost accounting system in the management and operation of its 16 state hospitals, and a patient population in excess of 40,000, and to provide a reasonable period of time to design and implement such a cost accounting system for use in all facilities of the State Department of Mental Hygiene, it is necessary that this act take effect immediately.

SEC. 28. Sections 16 to 24, inclusive, of this act shall become operative only if the Legislature enacts Assembly Bill No. 1221 at its 1967 Regular Session, and in such case at the same time Assembly Bill No. 1221 becomes operative, in which event Sections 4133, 5516, 6651, 6652, 7011.5, 7304, 7302 and 7406 as amended by Sections 1 to 14, inclusive, and Sections 4025 and 5707 as added to the Welfare and Institutions Code by Sections 1 to 14, inclusive, of this act are repealed.
